REPORT OF CONFERENCE COMMITTEE

EHB 1173 April 21, 1995

Includes "NEW ITEM": YES

Modifying adoption support provisions.

Mr. President:

Mr. Speaker:

We of your CONFERENCE COMMITTEE, to whom was referred ENGROSSED HOUSE BILL NO. 1173, Adoption support, have had the same under consideration and we recommend that:

The Senate Committee on Human Services and Corrections striking amendments adopted on April 13, 1995, not be adopted; and

That the Conference Committee striking amendments (S-3388.5) be adopted,

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature finds that it is in the best interest of the people of the state of Washington to support the adoption process in a variety of ways, including easing administrative burdens on adoptive parents receiving financial support, providing finality for adoptive placements and stable homes for children, and not delaying adoptions.

Sec. 2. RCW 74.13.118 and 1985 c 7 s 138 are each amended to read as follows:

At least (~~annually~~) once every five years, the secretary shall review the need of any adoptive parent or parents receiving continuing support pursuant to RCW 26.33.320 and 74.13.100 through 74.13.145, or the need of any parent who is to receive more than one lump sum payment where such payments are to be spaced more than one year apart. (~~Such review shall be made not later than the anniversary date of the adoption support agreement.~~)

At the time of such (~~annual~~) review and at other times (~~during the year~~) when changed conditions, including variations in medical opinions, prognosis and costs, are deemed by the secretary to warrant such action, appropriate adjustments in payments shall be made based upon changes in the needs of the child, in the adoptive parents' income, resources, and expenses for the care of such child or other members of the family, including medical and/or hospitalization expense not otherwise covered by or subject to reimbursement from insurance or other sources of financial assistance.

Any parent who is a party to such an agreement may at any time in writing request, for reasons set forth in such request, a review of the amount of any payment or the level of continuing payments. Such review shall be begun not later than thirty days from the receipt of such request. Any adjustment may be made retroactive to the date such request was received by the secretary. If such request is not acted on within thirty days after it has been received by the secretary, such parent may invoke his rights under the hearing provisions set forth in RCW 74.13.127.

Sec. 3. RCW 74.13.121 and 1985 c 7 s 139 are each amended to read as follows:

So long as any adoptive parent is receiving support pursuant to RCW 26.33.320 and 74.13.100 through 74.13.145 he or she shall, (~~not later than two weeks after it is filed with the United States government~~) upon request, file with the secretary a copy of his or her federal income tax return. Such return and any information thereon shall be marked by the secretary "confidential", shall be used by the secretary solely for the purposes of RCW 26.33.320 and 74.13.100 through 74.13.145, and shall not be revealed to any other person, institution or agency, public or private, including agencies of the United States government, other than a superior court, judge or commissioner before whom a petition

for adoption of a child being supported or to be supported pursuant to RCW 26.33.320 and 74.13.100 through 74.13.145 is then pending.

In carrying on the review process authorized by RCW 26.33.320 and 74.13.100 through 74.13.145 the secretary may require the adoptive parent or parents to disclose such additional financial information, not privileged, as may enable him or her to make determinations and adjustments in support to the end that the purposes and policies of this state expressed in RCW 74.13.100 may be carried out, provided that no adoptive parent or parents shall be obliged, by virtue of this section, to sign any agreement or other writing waiving any constitutional right or privilege nor to admit to his or her home any agent, employee, or official of any department of this state, or of the United States government.

Such information shall be marked "confidential" by the secretary, shall be used by him or her solely for the purposes of RCW 26.33.320 and 74.13.100 through 74.13.145, and shall not be revealed to any other person, institution, or agency, public or private, including agencies of the United States government other than a superior court judge or commission before whom a petition for adoption of a child being supported or to be supported pursuant to RCW 26.33.320 and 74.13.100 through 74.13.145 is then pending.

NEW SECTION. Sec. 4. The legislature recognizes that some prospective adoptive parents may not have finalized the adoption of a foster child in their care because the adoption support program as it is presently structured may offer special children with complex needs fewer necessary services than the foster care program provides them through exceptional cost plans. Enhancement of the adoption support program could increase the likelihood that such special needs children could be adopted.

The department of social and health services is directed to conduct a study to determine the costs, program impact, and appropriateness of extending exceptional cost rate foster care plans for special needs children to the adoption support program. The department of social and health services shall complete the study and report its findings to the legislature no later than September 1, 1995.

Sec. 5. RCW 26.33.110 and 1987 c 170 s 5 are each amended to read as follows:

(1) The court shall set a time and place for a hearing on the petition for termination of the parent-child relationship, which shall not be held sooner than forty-eight hours after the child's birth. However, if the child is an Indian child, the hearing shall not be held sooner than ten days after the child's birth and the time of the hearing shall be extended up to twenty additional days from the date of the scheduled hearing upon the motion of the parent, Indian custodian, or the child's tribe.

(2) Notice of the hearing shall be served on the petitioner, the nonconsenting parent or alleged father, the legal guardian of a party, and the guardian ad litem of a party, in the manner prescribed by RCW 26.33.310. If the child is an Indian child, notice of the hearing shall also be served on the child's tribe in the manner prescribed by 25 U.S.C. Sec. 1912(a).

(3) Except as otherwise provided in this section, the notice of the petition shall:

(a) State the date and place of birth. If the petition is filed prior to birth, the notice shall state the approximate date and location of conception of the child and the expected date of birth, and shall identify the mother;

(b) Inform the nonconsenting parent or alleged father that: (i) He or she has a right to be represented by counsel and that counsel will be appointed for an indigent person who requests counsel; and (ii) failure to respond to the termination action within twenty days of service if served within the state or thirty days if served outside of this state, will result in the termination of his or her parent-child relationship with respect to the child;

(c) Inform an alleged father that failure to file a claim of paternity under chapter 26.26 RCW or to respond to the petition, within twenty days of the date of service of the petition is grounds to terminate his parent-child relationship with respect to the child;

(d) Inform an alleged father of an Indian child that if he acknowledges paternity of the child or if his paternity of the child is established prior to the termination of the parent-child relationship, that his parental rights may not be terminated unless he: (i) Gives valid consent to termination, or (ii) his parent-child relationship is terminated involuntarily pursuant to chapter 26.33 or 13.34 RCW.

Sec. 6. RCW 26.33.310 and 1987 c 170 s 9 are each amended to read as follows:

(1) Petitions governed by this chapter shall be served in the ~~((same))~~ manner as ~~((a complaint in a civil action under))~~ set forth in the superior court civil rules. Subsequent notice, papers, and pleadings may be served in the manner provided in superior court civil rules.

(2) If personal service on any parent or alleged father who has not consented to the termination of his or her parental rights can be given, the summons and notice of hearing on the petition to terminate parental rights shall be served at least twenty days before the hearing date if served within the state or thirty days if served outside of this state.

(3) If personal service on the parent or any alleged father, either within or without this state, cannot be given, notice shall be given: (a) By first class and registered mail, mailed at least ~~((twenty))~~ thirty days before the hearing to the person's last known address; and (b) by publication at least once a week for three consecutive weeks with the first publication date at least ~~((twenty-five))~~ thirty days before the hearing. Publication shall be in a legal newspaper in the city or town of the last known address within the United States and its territories of the parent or alleged father, whether within or without this state, or, if no address is known to the petitioner, publication shall be in the city or town of the last known whereabouts within the United States and its territories; or if no address or whereabouts are known to the petitioner or the last known address is not within the United States and its territories, in the city or town where the proceeding has been commenced.

(3) Notice and appearance may be waived by the department, an agency, a parent, or an alleged father before the court or in a writing signed under penalty of perjury. The waiver shall contain the current address of the department, agency, parent, or alleged father. The face of the waiver for a hearing on termination of the parent-child relationship shall contain language explaining the meaning and consequences of the waiver and the meaning and consequences of termination of the parent-child relationship. A person or agency who has executed a waiver shall not be required to appear except in the case of an Indian child where consent to termination or adoption must be certified before a court of competent jurisdiction pursuant to 25 U.S.C. Sec. 1913(a).

(4) If a person entitled to notice is known to the petitioner to be unable to read or understand English, all notices, if practicable, shall be given in that person's native language or through an interpreter.

(5) Where notice to an Indian tribe is to be provided pursuant to this chapter and the department is not a party to the proceeding, notice shall be given to the tribe at least ten business days prior to the hearing by registered mail return receipt requested.

Sec. 7. RCW 26.33.260 and 1984 c 155 s 26 are each amended to read as follows:

(1) The entry of a decree of adoption divests any parent or alleged father who is not married to the adoptive parent or who has not joined in the petition for adoption of all legal rights and obligations in respect to the adoptee, except past-due child support obligations. The adoptee shall be free from all legal obligations of obedience and maintenance in respect to the parent. The adoptee shall be, to all intents and purposes, and for all legal incidents, the child, legal heir, and lawful issue of the adoptive parent, entitled to all rights and privileges, including the right of inheritance and the right to take under testamentary disposition, and subject to all the obligations of a natural child of the adoptive parent.

(2) Any appeal of an adoption decree shall be decided on an accelerated review basis.

(3) Except as otherwise provided in RCW 26.33.160(3) and (4)(h), no person may challenge an adoption decree on the grounds of:

(a) A person claiming or alleging paternity subsequently appears and alleges lack of prior notice of the proceeding; or

(b) The adoption proceedings were in any other manner defective.

(4) It is the intent of the legislature that this section provide finality for adoptive placements and stable homes for children.

NEW SECTION. Sec. 8. A new section is added to chapter 26.33 RCW to read as follows:

An adoption shall not be delayed or denied on the basis of the race, color, or national origin of the adoptive parent or the child involved. However, when the department or an agency considers whether a placement option is in a child's best interests, the department or agency may consider the cultural, ethnic, or racial background of the child and the capacity of prospective adoptive parents to meet the needs of a child of this background. This provision shall not apply to or affect the application of the Indian Child Welfare Act of 1978, 25 U.S.C. Sec. 1901 et seq."

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. (1) Except as provided in subsection (4) of this section for the initial registration of an instrument or device, no weighing or measuring instrument or device may be used for commercial purposes in the state unless its commercial use is registered annually. If its commercial use is within a city that has a city sealer and a weights and measures program as provided by RCW 19.94.280, the commercial use of the instrument or device shall be registered with the city if the city has adopted fees pursuant to subsection (2) of this section. If its commercial use is outside of such a city, the commercial use of the instrument or device shall be registered with the department.

(2) A city with such a sealer and program may establish an annual fee for registering the commercial use of such a weighing or measuring instrument or device with the city. The annual fee shall not exceed the fee established in RCW 19.94.175 for registering the use of a similar instrument or device with the department. Fees upon weighing or measuring instruments or devices within the jurisdiction of the city that are collected under this subsection by city sealers shall be deposited into the general fund, or other account, of the city as directed by the governing body of the city.

(3) Registrations with the department are accomplished as part of the master license system under chapter 19.02 RCW. Payment of the registration fee for a weighing or measuring instrument or device under the master license system constitutes the registration required by this section.

(4) The fees established by or under RCW 19.94.175 for registering a weighing or measuring instrument or device shall be paid to the department of licensing concurrently with an application for a master license or with the annual renewal of a master license under chapter 19.02 RCW. A weighing or measuring instrument or device shall be initially registered with the state at the time the owner applies for a master license for a new business or at the first renewal of the license that occurs after the instrument or device is first placed into commercial use. However, the use of an instrument or device that is in commercial use on the effective date of this act shall be initially registered at the time the first renewal of the master license of the owner of the instrument or device is due following the effective date of this act. The department of licensing shall remit to the department of agriculture all fees collected under this provision less reasonable collection expenses.

(5) Each city charging registration fees under this section shall notify the department of agriculture at the time such fees are adopted and whenever changes in the fees are adopted.

The department shall develop rules regarding the inspection and testing procedures to be used for such weighing or measuring instruments or devices which shall include requirements for the provision, maintenance, and transport of any weight or measure standard necessary for inspection and testing at no expense to the state. April 23, 1995

Mr. Speaker:

Under suspension of rules, the Senate returned the bill to second reading for purpose of amendment, and passed the bill with the attached striking amendments #424.

Strike everything after the enacting clause and insert the following:

"NEW SECTION. **Sec. 1.** HOSPITAL DISCHARGE DATA--OTHER DATA REQUIREMENTS. (1) To promote the public interest consistent with the purposes of chapter 492, Laws of 1993 as amended by chapter . . . , Laws of 1995 (this act), the department shall continue to require hospitals to submit hospital financial and patient discharge information, which shall be collected, maintained, analyzed, and disseminated by the department. The department shall, if deemed cost-effective and efficient, contract with a private entity for any or all parts of data collection. Data elements shall be reported in conformance with a uniform reporting system established by the department. This includes data elements identifying each hospital's revenues, expenses, contractual allowances, charity care, bad debt, other income, total units of inpatient and outpatient services, and other financial information reasonably necessary to fulfill the purposes of this section. Data elements relating to use of hospital services by patients shall be the same as those currently compiled by hospitals through inpatient discharge abstracts. The department shall encourage and permit reporting by electronic transmission or hard copy as is practical and economical to reporters.

(2) In identifying financial reporting requirements, the department may require both annual reports and condensed quarterly reports from hospitals, so as to achieve both accuracy and timeliness in reporting, but shall craft such requirements with due regard of the data reporting burdens of hospitals.

(3) The health care data collected, maintained, and studied by the department shall only be available for retrieval in original or processed form to public and private requestors and shall be available within a reasonable period of time after the date of request. The cost of retrieving data for state officials and agencies shall be funded through the state general appropriation. The cost of retrieving data for individuals and organizations engaged in research or private use of data or studies shall be funded by a fee schedule developed by the department that reflects the direct cost of retrieving the data or study in the requested form.

(4) The department shall, in consultation and collaboration with the federally recognized tribes, urban or other Indian health service organizations, and the federal area Indian health service, design, develop, and maintain an American Indian-specific health data, statistics information system. The department rules regarding confidentiality shall apply to safeguard the information from inappropriate use or release.

(5) All persons subject to the data collection requirements of this section shall comply with departmental requirements established by rule in the acquisition of data.

NEW SECTION. Sec. 2. DATA STANDARDS. (1) To promote the public interest consistent with this act, the department of health, in cooperation with the health care policy board and the information services board established under RCW 43.105.032, shall develop health care data standards to be used by, and developed in collaboration with, consumers, purchasers, health carriers, providers, and state government as consistent with the intent of chapter 492, Laws of 1993 as amended by chapter . . . , Laws of 1995 (this act), to promote the delivery of quality health services that improve health outcomes for state residents. The data standards shall include content, coding, confidentiality, and transmission standards for all health care data elements necessary to support the intent of this section, and to improve administrative efficiency and reduce cost. Purchasers, as allowed by federal law, health carriers, health facilities and providers as defined in chapter 48.43 RCW, and state government shall utilize the data standards. The information and data elements shall be reported as the department of health directs by rule in accordance with data standards developed under this section.

(2) The health care data collected, maintained, and studied by the department under this section, the health care policy board, or any other entity: (a) Shall include a method of associating all information on health care costs and services with discrete cases; (b) shall not contain any means of determining the personal identity of any enrollee, provider, or facility; (c) shall only be available for retrieval in original or processed form to public and private requestors; (d) shall be available within a reasonable period of time after the date of request; and (e) shall give strong consideration to data standards that achieve national uniformity.

(3) The cost of retrieving data for state officials and agencies shall be funded through state general appropriation. The cost of retrieving data for individuals and organizations engaged in research or private use of data or studies shall be funded by a fee schedule developed by the department that reflects the direct cost of retrieving the data or study in the requested form.

(4) All persons subject to this section shall comply with departmental requirements established by rule in the acquisition of data, however, the department shall adopt no rule or effect no policy implementing the provisions of this section without an act of law.

(5) The department shall submit developed health care data standards to the appropriate committees of the legislature by December 31, 1995.

NEW SECTION. Sec. 3. HEALTH CARE QUALITY--FINDINGS AND INTENT. The legislature finds that it is difficult for consumers of health care services to determine the quality of health care prior to purchase or utilization of medical care. The legislature also finds that accountability is a key component in promoting quality assurance and quality improvement throughout the health care delivery system, including public programs. Quality assurance and improvement standards are necessary to promote the public interest, contribute to cost efficiencies, and improve the ability of consumers to ascertain quality health care purchases.

The legislature intends to have consumers, health carriers, health care providers and facilities, and public agencies participate in the development of quality assurance and improvement standards that can be used to develop a uniform quality assurance program for use by all public and private health

plans, providers, and facilities. To that end, in conducting the study required under section 4 of this act, the department of health shall:

(1) Consider the needs of consumers, employers, health care providers and facilities, and public and private health plans;

(2) Take full advantage of existing national standards of quality assurance to extend to middle-income populations the protections required for state management of health programs for low-income populations;

(3) Consider the appropriate minimum level of quality assurance standards that should be disclosed to consumers and employers by health care providers and facilities, and public and private health plans; and

(4) Consider standards that permit health care providers and facilities to share responsibility for participation in a uniform quality assurance program.

NEW SECTION. Sec. 4. UNIFORM QUALITY ASSURANCE. (1) The department of health in consultation with the health policy board shall study the feasibility of a uniform quality assurance and improvement program for use by all public and private health plans and health care providers and facilities. In this study, the department shall consult with:

(a) Public and private purchasers of health care services;

(b) Health carriers;

(c) Health care providers and facilities; and

(d) Consumers of health services.

(2) In conducting the study, the department shall propose standards that meet the needs of affected persons and organizations, whether public or private, without creation of differing levels of quality assurance. All consumers of health services should be afforded the same level of quality assurance.

(3) At a minimum, the study shall include but not be limited to the following program components and indicators appropriate for consumer disclosure:

(a) Health care provider training, credentialing, and licensure standards;

(b) Health care facility credentialing and recredentialing;

(c) Staff ratios in health care facilities;

(d) Annual mortality and morbidity rates of cases based on a defined set of procedures performed or diagnoses treated in health care facilities, adjusted to fairly consider variable factors such as patient demographics and case severity;

(e) The average total cost and average length of hospital stay for a defined set of procedures and diagnoses;

(f) The total number of the defined set of procedures, by specialty, performed by each physician at a health care facility within the previous twelve months;

(g) Utilization performance profiles by provider, both primary care and specialty care, that have been adjusted to fairly consider variable factors such as patient demographics and severity of case;

(h) Health plan fiscal performance standards;

(i) Health care provider and facility recordkeeping and reporting standards;

(j) Health care utilization management that monitors trends in health service under-utilization, as well as over-utilization of services;

(k) Health monitoring that is responsive to consumer, purchaser, and public health assessment needs; and

(l) Assessment of consumer satisfaction and disclosure of consumer survey results.

(4) In conducting the study, the department shall develop standards that permit each health care facility, provider group, or health carrier to assume responsibility for and determine the physical method of collection, storage, and assimilation of quality indicators for consumer disclosure. The study may define the forms, frequency, and posting requirements for disclosure of information.

In developing proposed standards under this subsection, the department shall identify options that would minimize provider burden and administrative cost resulting from duplicative private sector data submission requirements.

(5) The department shall submit a preliminary report to the legislature by December 31, 1995, including recommendations for initial legislation pursuant to subsection (6) of this section, and shall submit supplementary reports and recommendations as completed, consistent with appropriated funds and staffing.

(6) The department shall not adopt any rule implementing the uniform quality assurance program or consumer disclosure provisions unless expressly directed to do so by an act of law.

NEW SECTION. Sec. 5. QUALITY ASSURANCE--INTERAGENCY COOPERATION--ELIMINATION AND COORDINATION OF DUPLICATE STATE PROGRAMS. No later than July 1, 1995, the health care policy board together with the department of health, the health care authority, the department of social and health services, the office of the insurance commissioner, and the department of labor and industries shall form an interagency group for coordination and consultation on quality assurance activities and collaboration on final recommendations for the study required under section 4 of this act. By December 31, 1996, the group shall review all state agency programs governing health service quality assurance, in light of legislative actions pursuant to section 4(6) of this act, and shall recommend to the legislature, the consolidation, coordination, or elimination of rules and programs that would be made unnecessary pursuant to the development of a uniform quality assurance and improvement program.

All such programs, whether complying with the requirement set forth in RCW 70.41.200(1)(a) or in the form of an alternative program, must be approved by the

department before the discovery limitations provided in subsections (3) and (4) of this section and the exemption under RCW 42.17.310(1)(hh) and subsection (5) of this section shall apply. In reviewing plans submitted by licensed entities that are associated with physicians' offices, the department shall ensure that the exemption under RCW 42.17.310(1)(hh) and the discovery limitations of this section are applied only to information and documents related specifically to quality improvement activities undertaken by the licensed entity.

Sec. 8. RCW 43.72.310 and 1993 c 492 s 448 are each amended to read as follows:

(1) Until the effective date of this section and after June 30, 1996, a certified health plan, health care facility, health care provider, or other person involved in the development, delivery, or marketing of health care or certified health plans may request, in writing, that the commission obtain an informal opinion from the attorney general as to whether particular conduct is authorized by chapter 492, Laws of 1993. Trade secret or proprietary information contained in a request for informal opinion shall be identified as such and shall not be disclosed other than to an authorized employee of the commission or attorney general without the consent of the party making the request, except that information in summary or aggregate form and market share data may be contained in the informal opinion issued by the attorney general. The attorney general shall issue such opinion within thirty days

of receipt of a written request for an opinion or within thirty days of receipt of any additional information requested by the attorney general necessary for rendering an opinion unless extended by the attorney general for good cause shown. If the attorney general concludes that such conduct is not authorized by chapter 492, Laws of 1993, the person or organization making the request may petition the commission for review and approval of such conduct in accordance with subsection (3) of this section.

(2) After obtaining the written opinion of the attorney general and consistent with such opinion, the health services commission:

(a) May authorize conduct by a certified health plan, health care facility, health care provider, or any other person that could tend to lessen competition in the relevant market upon a strong showing that the conduct is likely to achieve the policy goals of chapter 492, Laws of 1993 and a more competitive alternative is impractical;

(b) Shall adopt rules governing conduct among providers, health care facilities, and certified health plans including rules governing provider and facility contracts with certified health plans, rules governing the use of "most favored nation" clauses and exclusive dealing clauses in such contracts, and rules providing that certified health plans in rural areas contract with a sufficient number and type of health care providers and facilities to ensure consumer access to local health care services;

(c) Shall adopt rules permitting health care providers within the service area of a plan to collectively negotiate the terms and conditions of contracts with a certified health plan including the ability of providers to meet and communicate for the purposes of these negotiations; and

(d) Shall adopt rules governing cooperative activities among health care facilities and providers.

(3) Until the effective date of this section and after June 30, 1996, a certified health plan, health care facility, health care provider, or any other person involved in the development, delivery, and marketing of health services or certified health plans may file a written petition with the commission requesting approval of conduct that could tend to lessen competition in the relevant market. Such petition shall be filed in a form and manner prescribed by rule of the commission.

The commission shall issue a written decision approving or denying a petition filed under this section within ninety days of receipt of a properly completed written petition unless extended by the commission for good cause shown. The decision shall set forth findings as to benefits and disadvantages and conclusions as to whether the benefits outweigh the disadvantages.

(4) In authorizing conduct and adopting rules of conduct under this section, the commission with the advice of the attorney general, shall consider the benefits of such conduct in furthering the goals of health care reform including but not limited to:

(a) Enhancement of the quality of health services to consumers;

(b) Gains in cost efficiency of health services;

(c) Improvements in utilization of health services and equipment;

(d) Avoidance of duplication of health services resources; or

(e) And as to (b) and (c) of this subsection: (i) Facilitates the exchange of information relating to performance expectations; (ii) simplifies the negotiation of delivery arrangements and relationships; and (iii) reduces the transactions costs on the part of certified health plans and providers in negotiating more cost-effective delivery arrangements.

These benefits must outweigh disadvantages including and not limited to:

(i) Reduced competition among certified health plans, health care providers, or health care facilities;

(ii) Adverse impact on quality, availability, or price of health care services to consumers; or

(iii) The availability of arrangements less restrictive to competition that achieve the same benefits.

(5) Conduct authorized by the commission shall be deemed taken pursuant to state statute and in the furtherance of the public purposes of the state of Washington.

(6) With the assistance of the attorney general's office, the commission shall actively supervise any conduct authorized under this section to determine whether such conduct or rules permitting certain conduct should be continued and whether a more competitive alternative is practical. The commission shall periodically review petitioned conduct through, at least, annual progress reports from petitioners,

annual or more frequent reviews by the commission that evaluate whether the conduct is consistent with the petition, and whether the benefits continue to outweigh any disadvantages. If the commission determines that the likely benefits of any conduct approved through rule, petition, or otherwise by the commission no longer outweigh the disadvantages attributable to potential reduction in competition, the commission shall order a modification or discontinuance of such conduct. Conduct ordered discontinued by the commission shall no longer be deemed to be taken pursuant to state statute and in the furtherance of the public purposes of the state of Washington.

(7) Nothing contained in chapter 492, Laws of 1993 is intended to in any way limit the ability of rural hospital districts to enter into cooperative agreements and contracts pursuant to RCW 70.44.450 and chapter 39.34 RCW.

(8) Only requests for informal opinions under subsection (1) of this section and petitions under subsection (3) of this section that were received prior to the effective date of this section or after June 30, 1996, shall be considered.

NEW SECTION. Sec. 9. The office of the attorney general shall study the impact on competition and efficiency of antitrust immunities for health care providers and facilities in Washington that exceed those provided under federal law and shall report to the legislature by December 15, 1995. The study and report shall include a summary of how other states have allowed for greater coordination and consolidation of health care services without such additional immunities.

NEW SECTION. Sec. 10. A new section is added to chapter 43.72 RCW to read as follows:

(1) Effective July 1, 1995, except as provided in subsection (2) of this section, the duties of the health services commission under RCW 43.72.310 shall be carried out by the health care policy board established in section 9, chapter . . . (ESHB 1046), Laws of 1995.

(2) For purposes of the transfer of duties under this section to the health care policy board, legislative members are not appointed to the board and are not members of the board.

(1) If, after the date that a seller of residential real property completes a real property transfer disclosure statement, the seller becomes aware of additional information, or an adverse change occurs which makes any of the disclosures made inaccurate, the seller shall amend the real property transfer disclosure statement, and deliver the amendment to the buyer. No amendment shall be required, however, if the seller takes whatever corrective action is necessary so that the accuracy of the disclosure is restored, or the adverse change is corrected, at least three business days prior to the closing date. Unless the ~~((adverse change is corrected or repaired))~~ corrective action is completed by the seller prior to the closing date, the buyer shall have the right to exercise one of the following two options: (a) Approving and accepting the amendment, or (b) rescinding the agreement of purchase and sale of the property within three business days after receiving the amended real property transfer disclosure statement. Acceptance or rescission shall be subject to the same procedures described in RCW 64.06.030. If the closing date provided in the purchase and sale agreement is scheduled to occur within the three-business-day rescission period provided for in this section, the closing date shall be extended until the expiration of the three-business-day rescission period. The buyer shall have no right of rescission if the seller takes whatever action is necessary so that the accuracy of the disclosure is restored at least three business days prior to the closing date.

(2) In the event any act, occurrence, or agreement arising or becoming known after the closing of a residential real property transfer causes a real property transfer disclosure statement to be inaccurate in any way, the seller of such property shall have no obligation to amend the disclosure statement, and the buyer shall not have the right to rescind the transaction under this chapter.

(3) If the seller in a residential real property transfer fails or refuses to provide to the prospective buyer a real property transfer disclosure statement as required under this chapter, the prospective buyer's right of rescission under this section shall apply until the earlier of three business days after receipt of the real property transfer disclosure statement or the date the transfer has closed, unless the buyer has otherwise waived the right of rescission in writing. Closing is deemed to occur when the buyer has paid the purchase price, or down payment, and the conveyance document, including a deed or real estate contract, from the seller has been delivered and recorded. After closing, the seller's obligation to deliver the real property transfer disclosure statement and the buyer's rights and remedies under this chapter shall terminate.

Sec. 5. RCW 64.06.050 and 1994 c 200 s 6 are each amended to read as follows:

(1) The seller of residential real property shall not be liable for any error, inaccuracy, or omission in the real property transfer disclosure statement if the seller had no ~~((personal))~~ actual knowledge of the error, inaccuracy, or omission. Unless the seller of residential real property has actual knowledge of an error, inaccuracy, or omission in a real property transfer disclosure statement, the seller shall not be liable for such error, inaccuracy, or omission if the disclosure was based on information provided by public agencies, or by other persons providing information within the scope of their professional license or expertise, including, but not limited to, a report or opinion delivered by a land surveyor, title company, title insurance company, structural inspector, pest inspector, licensed engineer, or contractor.

(2) Any licensed real estate salesperson or broker involved in a residential real property transaction is not liable for any error, inaccuracy, or omission in the real property transfer disclosure statement if the licensee had no ~~((personal))~~ actual knowledge of the error, inaccuracy, or omission. Unless the salesperson or broker has actual knowledge of an error, inaccuracy, or omission in a real property transfer disclosure statement, the salesperson or broker shall not be liable for such error, inaccuracy, or omission if the disclosure was based on information provided by public agencies, or by other persons providing information within the scope of their professional license or expertise, including, but not limited to, a report or opinion delivered by a land surveyor, title company, title insurance company, structural inspector, pest inspector, licensed engineer, or contractor.

Sec. 6. RCW 64.06.070 and 1994 c 200 s 8 are each amended to read as follows:

Except as provided in RCW 64.06.050, nothing in this chapter shall extinguish or impair any rights or remedies of a buyer of real estate against the seller or against any agent acting for the seller otherwise existing pursuant to common law, statute, or contract; nor shall anything in this chapter create any new right or remedy for a buyer of residential real property other than the right of rescission exercised on the basis and within the time limits provided in this chapter.

NEW SECTION. Sec. 7. Section 2 of this act shall apply to real property transfer disclosure statements completed by sellers of residential real property on or after the effective date of this act. Real property transfer disclosure statements completed by sellers of residential real property prior to the effective date of this act must comply with requirements of RCW 64.06.020 in effect at the time the transaction is started."

On page 1, line 1 of the title, after "disclosure;" strike the remainder of the title and insert "amending RCW 64.06.010, 64.06.020, 64.06.030, 64.06.040, 64.06.050, and 64.06.070; and providing an effective date."

Strike everything after the enacting clause and insert the following:

"PART I - IMPLIED CONSENT AND ADMINISTRATIVE REVOCATION

Sec. 1. RCW 46.20.308 and 1994 c 275 s 13 are each amended to read as follows:

(1) Any person who operates a motor vehicle within this state is deemed to have given consent, subject to the provisions of RCW 46.61.506, to a test or tests of his or her breath or blood for the

purpose of determining the ~~((alcoholic content of))~~ alcohol concentration or presence of any drug in his or her breath or blood if arrested for any offense where, at the time of the arrest, the arresting officer has reasonable grounds to believe the person had been driving or was in actual physical control of a motor vehicle while under the influence of intoxicating liquor or any drug or was in violation of RCW 46.20.309 (as recodified by this act).

(2) The test or tests of breath shall be administered at the direction of a law enforcement officer having reasonable grounds to believe the person to have been driving or in actual physical control of a motor vehicle within this state while under the influence of intoxicating liquor or the person to have been driving or in actual physical control of a motor vehicle while having alcohol in a concentration of 0.02 or more in his or her system and being under the age of twenty-one. However, in those instances where ~~((a))~~ the person is incapable due to physical injury, physical incapacity, or other physical limitation, of providing a breath sample ~~((; or (b) as a result of a traffic accident))~~ or where the person is being treated ((for a medical condition)) in a hospital, clinic, doctor's office, emergency medical vehicle, ambulance, or other similar facility in which a breath testing instrument is not present or where the officer has reasonable grounds to believe that the person is under the influence of a drug, a blood test shall be administered by a qualified person as provided in RCW 46.61.506(4). The officer shall inform the person of his or her right to refuse the breath or blood test, and of his or her right to have additional tests administered by any qualified person of his or her choosing as provided in RCW 46.61.506. The officer shall warn the driver that:

(a) His or her license, permit, or privilege to drive will be revoked or denied if he or she refuses to submit to the test~~((, and (b) that))~~;

(b) His or her license, permit, or privilege to drive will be suspended, revoked, denied, or placed in probationary status if the test is administered and the test indicates the alcohol concentration of the person's breath or blood is 0.10 or more, in the case of a person age twenty-one or over, or 0.02 or more in the case of a person under age twenty-one; and

(c) His or her refusal to take the test may be used in a criminal trial.

(3) Except as provided in this section, the test administered shall be of the breath only. If an individual is unconscious or is under arrest for the crime of vehicular homicide as provided in RCW 46.61.520 or vehicular assault as provided in RCW 46.61.522, or if an individual is under arrest for the crime of driving while under the influence of intoxicating liquor or drugs as provided in RCW 46.61.502, which arrest results from an accident in which there has been serious bodily injury to another person ~~((has been injured and there is a reasonable likelihood that such other person may die as a result of injuries sustained in the accident))~~, a breath or blood test may be administered without the consent of the individual so arrested.

(4) Any person who is dead, unconscious, or who is otherwise in a condition rendering him or her incapable of refusal, shall be deemed not to have withdrawn the consent provided by subsection (1) of this section and the test or tests may be administered, subject to the provisions of RCW 46.61.506, and the person shall be deemed to have received the warnings required under subsection (2) of this section.

(5) If, following his or her arrest and receipt of warnings under subsection (2) of this section, the person arrested refuses upon the request of a law enforcement officer to submit to a test or tests of his or her breath or blood, no test shall be given except as authorized under subsection (3) or (4) of this section.

(6) If, after arrest and after the other applicable conditions and requirements of this section have been satisfied, a test or tests of the person's blood or breath is administered and the test results indicate that the alcohol concentration of the person's breath or blood is 0.10 or more if the person is age twenty-one or over, or is 0.02 or more if the person is under the age of twenty-one, or the person refuses to submit to a test, the arresting officer or other law enforcement officer at whose direction any test has been given, or the department, where applicable, if the arrest results in a test of the person's blood, shall:

(a) Serve notice in writing on the person on behalf of the department of its intention to suspend, revoke, deny, or place in probationary status the person's license, permit, or privilege to drive as required by subsection (7) of this section;

(b) Serve notice in writing on the person on behalf of the department of his or her right to a hearing, specifying the steps he or she must take to obtain a hearing as provided by subsection (8) of this section;

(c) Mark the person's Washington state driver's license or permit to drive, if any, in a manner authorized by the department;

(d) Serve notice in writing that the marked license or permit, if any, is a temporary license that is valid for sixty days from the date of arrest or from the date notice has been given in the event notice is given by the department following a blood test, or until the suspension, revocation, or denial of the person's license, permit, or privilege to drive is sustained at a hearing pursuant to subsection (8) of this section, whichever occurs first. No temporary license is valid to any greater degree than the license or permit that it replaces; and

(e) Immediately notify the department of the arrest and transmit to the department within seventy-two hours, except as delayed as the result of a blood test, a sworn report or report under a declaration authorized by RCW 9A.72.085 that states:

(i) That the officer had reasonable grounds to believe the arrested person had been driving or was in actual physical control of a motor vehicle within this state while under the influence of intoxicating liquor or drugs, or both, or was under the age of twenty-one years and had been driving or was in actual physical control of a motor vehicle while having an alcohol concentration of 0.02 or more;

(ii) That after receipt of the warnings required by subsection (2) of this section the person refused to submit to a test of his or her blood or breath, or a test was administered and the results indicated that the alcohol concentration of the person's breath or blood was 0.10 or more if the person is age twenty-one or over, or was 0.02 or more if the person is under the age of twenty-one; and

(iii) Any other information that the director may require by rule.

(7) The department of licensing, upon the receipt of a sworn report ~~((of the law enforcement officer that the officer had reasonable grounds to believe the arrested person had been driving or was in actual physical control of a motor vehicle within this state while under the influence of intoxicating liquor and that the person had refused to submit to the test or tests upon the request of the law enforcement officer after being informed that refusal would result in the revocation of the person's privilege to drive))~~ or report under a declaration authorized by RCW 9A.72.085 under subsection (6)(e) of this section, shall suspend, revoke, deny, or place in probationary status the person's license ~~((or)),~~ permit, or privilege to drive or any nonresident operating privilege, as provided in section 3 of this act, such suspension, revocation, denial, or placement in probationary status to be effective beginning sixty days from the date of arrest or from the date notice has been given in the event notice is given by the department following a blood test, or when sustained at a hearing pursuant to subsection (8) of this section, whichever occurs first.

~~(((7) Upon revoking the license or permit to drive or the nonresident operating privilege of any person, the department shall immediately notify the person involved in writing by personal service or by certified mail of its decision and the grounds therefor, and of the person's right to a hearing, specifying the steps he or she must take to obtain a hearing. Within fifteen days after the notice has been given, the person may, in writing, request a formal hearing. The person shall pay a fee of one hundred dollars as part of the request.))~~

(8) A person receiving notification under subsection (6)(b) of this section may, within thirty days after the notice has been given, request in writing a formal hearing before the department. The person shall pay a fee of one hundred dollars as part of the request. If the request is mailed, it must be postmarked within thirty days after receipt of the notification. Upon timely receipt of such a request ~~((and such fee))~~ for a formal hearing, including receipt of the required one hundred dollar fee, the department shall afford the person an opportunity for a hearing ~~((as provided in))~~. Except as otherwise provided in this section, the hearing is subject to and shall be scheduled and conducted in accordance with RCW 46.20.329 and 46.20.332. The hearing shall be conducted in the county of the arrest, except that all or part of the hearing may, at the discretion of the department, be conducted by telephone or other electronic means. The hearing shall be held within sixty days following the arrest or following the date notice has been given in the event notice is given by the department following a blood test, unless otherwise agreed to by the department and the person, in which case the action by the

department shall be stayed, and any valid temporary license marked under subsection (6)(c) of this section extended, if the person is otherwise eligible for licensing. For the purposes of this section, the scope of ~~((such))~~ the hearing shall cover the issues of whether a law enforcement officer had reasonable grounds to believe the person had been driving or was in actual physical control of a motor vehicle within this state while under the influence of intoxicating liquor or any drug or had been driving or was in actual physical control of a motor vehicle within this state while having alcohol in his or her system in a concentration of 0.02 or more and was under the age of twenty-one, whether the person was placed under arrest, and (a) whether the person refused to submit to the test or tests upon request of the officer after having been informed that such refusal would result in the revocation of the person's license, permit, or privilege to drive, or (b) if a test or tests were administered, whether the applicable requirements of this section were satisfied before the administration of the test or tests, whether the person submitted to the test or tests, or whether a test was administered without express consent as permitted under this section, and whether the test or tests indicated that the alcohol concentration of the person's breath or blood was 0.10 or more if the person was age twenty-one or over at the time of the arrest, or was 0.02 or more if the person was under the age of twenty-one at the time of the arrest. The sworn report or report under a declaration authorized by RCW 9A.72.085 submitted by a law enforcement officer is prima facie evidence that the officer had reasonable grounds to believe the person had been driving or was in actual physical control of a motor vehicle within this state while under the influence of intoxicating liquor or drugs, or both, or the person had been driving or was in actual physical control of a motor vehicle within this state while having alcohol in his or her system in a concentration of 0.02 or more and was under the age of twenty-one and that the officer complied with the requirements of this section.

A hearing officer shall conduct the hearing, may issue subpoenas for the attendance of witnesses and the production of documents, and shall administer oaths to witnesses. The hearing officer shall not issue a subpoena for the attendance of a witness at the request of the person unless the request is accompanied by the fee required by RCW 5.56.010 for a witness in district court. The sworn report or report under a declaration authorized by RCW 9A.72.085 of the law enforcement officer and any other evidence accompanying the report shall be admissible without further evidentiary foundation and the certifications authorized by the criminal rules for courts of limited jurisdiction shall be admissible without further evidentiary foundation. The person may be represented by counsel, may question witnesses, may present evidence, and may testify. The department shall order that the suspension, revocation, denial, or placement in probationary status either be rescinded or sustained. ~~((Any decision by the department revoking a person's driving privilege shall be stayed and shall not take effect while a formal hearing is pending as provided in this section or during the pendency of a subsequent appeal to superior court so long as there is no conviction for a moving violation or no finding that the person has committed a traffic infraction that is a moving violation during pendency of the hearing and appeal.~~

~~(8))~~ (9) If the suspension, revocation, denial, or placement in probationary status is sustained after such a hearing, the person whose license, privilege, or permit is suspended, revoked, denied, or placed in probationary status has the right to file a petition in the superior court of the county of arrest to review the final order of revocation by the department in the same manner ~~((provided in RCW 46.20.334))~~ as an appeal from a decision of a court of limited jurisdiction. The appellant must pay the costs associated with obtaining the record of the hearing before the hearing officer. The filing of the appeal does not stay the effective date of the suspension, revocation, denial, or placement in probationary status. A petition filed under this subsection must include the petitioner's grounds for requesting review. Upon granting petitioner's request for review, the court shall review the department's final order of suspension, revocation, denial, or placement in probationary status as expeditiously as possible. If judicial relief is sought for a stay or other temporary remedy from the department's action, the court shall not grant such relief unless the court finds that the appellant is likely to prevail in the appeal and that without a stay the appellant will suffer irreparable injury. If the court stays the suspension, revocation, denial, or placement in probationary status it may impose conditions on such stay.

(10) If a person whose driver's license, permit, or privilege to drive has been or will be suspended, revoked, denied, or placed in probationary status under subsection (7) of this section, other

than as a result of a breath test refusal, and who has not committed an offense within the last five years for which he or she was granted a deferred prosecution under chapter 10.05 RCW, petitions a court for a deferred prosecution on criminal charges arising out of the arrest for which action has been or will be taken under subsection (7) of this section, the court may direct the department to stay any actual or proposed suspension, revocation, denial, or placement in probationary status for at least forty-five days but not more than ninety days. If the court stays the suspension, revocation, denial, or placement in probationary status, it may impose conditions on such stay. If the person is otherwise eligible for licensing, the department shall issue a temporary license, or extend any valid temporary license marked under subsection (6) of this section, for the period of the stay. If a deferred prosecution treatment plan is not recommended in the report made under RCW 10.05.050, or if treatment is rejected by the court, or if the person declines to accept an offered treatment plan, or if the person violates any condition imposed by the court, then the court shall immediately direct the department to cancel the stay and any temporary marked license or extension of a temporary license issued under this subsection.

A suspension, revocation, or denial imposed under this section, other than as a result of a breath test refusal, shall be stayed if the person is accepted for deferred prosecution as provided in chapter 10.05 RCW for the incident upon which the suspension, revocation, or denial is based. If the deferred prosecution is terminated, the stay shall be lifted and the suspension, revocation, or denial reinstated. If the deferred prosecution is completed, the stay shall be lifted and the suspension, revocation, or denial canceled.

~~((9))~~ (11) When it has been finally determined under the procedures of this section that a nonresident's privilege to operate a motor vehicle in this state has been suspended, revoked, or denied, the department shall give information in writing of the action taken to the motor vehicle administrator of the state of the person's residence and of any state in which he or she has a license.

Sec. 2. RCW 46.20.309 and 1994 c 275 s 10 are each amended to read as follows:

(1) Notwithstanding any other provision of this title, a person ~~((under the age of twenty one may not drive, operate, or be in physical control of a motor vehicle while having alcohol in his or her system in a concentration of 0.02 or above.~~

~~(2) A person under the age of twenty one who drives or is in physical control of a motor vehicle within this state is deemed to have given consent, subject to the relevant portions of RCW 46.61.506, to be detained long enough, and be transported if necessary, to take a test or tests of that person's blood or breath for the purpose of determining the alcohol concentration in his or her system.~~

~~(3) A test or tests may be administered at the direction of a law enforcement officer, who after stopping or detaining the driver, has reasonable grounds to believe that the driver was driving or in actual physical control of a motor vehicle while having alcohol in his or her system.~~

~~(4) The law enforcement officer requesting the test or tests under subsection (2) of this section shall warn the person requested to submit to the test that a refusal to submit will result in that person's driver's license or driving privilege being revoked.~~

~~(5) If the person refuses testing, or submits to a test that discloses an alcohol concentration of 0.02 or more, the law enforcement officer shall:~~

~~(a) Serve the person notice in writing on behalf of the department of licensing of its intention to suspend, revoke, or deny the person's license, permit, or privilege to drive;~~

~~(b) Serve the person notice in writing on behalf of the department of licensing of the person's right to a hearing, specifying the steps required to obtain a hearing;~~

~~(c) Confiscate the person's Washington state license or permit to drive, if any, and issue a temporary license to replace any confiscated license or permit. The temporary license shall be valid for thirty days from the date of the traffic stop or until the suspension or revocation of the person's license or permit is sustained at a hearing as provided by subsection (7) of this section, whichever occurs first. No temporary license is valid to any greater degree than the license or permit it replaces;~~

~~(d) Notify the department of licensing of the traffic stop, and transmit to the department any confiscated license or permit and a sworn report stating:~~

~~(i) That the officer had reasonable grounds to believe the person was driving or in actual physical control of a motor vehicle within this state with alcohol in his or her system;~~

~~(ii) That pursuant to this section a test of the person's alcohol concentration was administered or that the person refused to be tested;~~

~~(iii) If administered, that the test indicated the person's alcohol concentration was 0.02 or higher; and~~

~~(iv) Any other information that the department may require by rule.~~

~~(6) Upon receipt of the sworn report of a law enforcement officer under subsection (5) of this section, the department shall suspend or revoke the driver's license or driving privilege beginning thirty days from the date of the traffic stop or beginning when the suspension, revocation, or denial is sustained at a hearing as provided by subsection (7) of this section. Within fifteen days after notice of a suspension or revocation has been given, the person may, in writing, request a formal hearing. If such a request is not made within the prescribed time the right to a hearing is waived. Upon receipt of such request, the department shall afford the person an opportunity for a hearing as provided in RCW 46.20.329 and 46.20.332. The hearing shall be conducted in the county of the arrest. For the purposes of this section, the hearing shall cover the issues of whether a law enforcement officer had reasonable grounds to believe the person had been driving or was in actual physical control of a motor vehicle within this state while having alcohol in his or her system, whether the person refused to submit to the test or tests upon request of the officer after having been informed that the refusal would result in the revocation of the person's driver's license or driving privilege, and, if the test or tests of the person's breath or blood was administered, whether the results indicated an alcohol concentration of 0.02 or more. The department shall order that the suspension or revocation of the person's driver's license or driving privilege either be rescinded or sustained. Any decision by the department suspending or revoking a person's driver's license or driving privilege is stayed and does not take effect while a formal hearing is pending under this section or during the pendency of a subsequent appeal to superior court so long as there is no conviction for a moving violation or no finding that the person has committed a traffic infraction that is a moving violation during the pendency of the hearing and appeal. If the suspension or revocation of the person's driver's license or driving privilege is sustained after the hearing, the person may file a petition in the superior court of the county of arrest to review the final order of suspension or revocation by the department in the manner provided in RCW 46.20.334.~~

~~(7) The department shall suspend or revoke the driver's license or driving privilege of a person as required by this section as follows:~~

~~(a) In the case of a person who has refused a test or tests:~~

~~(i) For a first refusal within five years, revocation for one year;~~

~~(ii) For a second or subsequent refusal within five years, revocation or denial for two years.~~

~~(b) In the case of an incident where a person has submitted to a test or tests indicating an alcohol concentration of 0.02 or more:~~

~~(i) For a first incident within five years, suspension for ninety days;~~

~~(ii) For a second or subsequent incident within five years, revocation for one year or until the person reaches age twenty-one whichever occurs later.~~

~~(8) For purposes of this section, "alcohol concentration" means (a) grams of alcohol per two hundred ten liters of a person's breath, or (b) the percent by weight of alcohol in a person's blood)) is guilty of driving a motor vehicle after consuming alcohol if the person operates a motor vehicle within this state and the person:~~

~~(a) Is under the age of twenty-one;~~

~~(b) Has, within two hours after operating the motor vehicle, an alcohol concentration of 0.02 or more, as shown by analysis of the person's breath or blood made under RCW 46.61.506.~~

~~(2) It is an affirmative defense to a violation of subsection (1) of this section which the defendant must prove by a preponderance of the evidence that the defendant consumed a sufficient quantity of alcohol after the time of driving and before the administration of an analysis of the person's breath or blood to cause the defendant's alcohol concentration to be 0.02 or more within two hours after driving. The court shall not admit evidence of this defense unless the defendant notifies the prosecution prior to the earlier of: (a) Seven days prior to trial; or (b) the omnibus or pretrial hearing in the case of the defendant's intent to assert the affirmative defense.~~

(3) Analyses of blood or breath samples obtained more than two hours after the alleged driving may be used as evidence that within two hours of the alleged driving, a person had an alcohol concentration of 0.02 or more in violation of subsection (1) of this section.

(4) A violation of this section is a misdemeanor.

NEW SECTION. Sec. 3. A new section is added to chapter 46.20 RCW to read as follows:

Pursuant to RCW 46.20.308, the department shall suspend, revoke, or deny the arrested person's license, permit, or privilege to drive as follows:

(1) In the case of a person who has refused a test or tests:

(a) For a first refusal within five years, where there has not been a previous incident within five years that resulted in administrative action under this section, revocation or denial for one year;

(b) For a second or subsequent refusal within five years, or for a first refusal where there has been one or more previous incidents within five years that have resulted in administrative action under this section, revocation or denial for two years or until the person reaches age twenty-one, whichever is longer. A revocation imposed under this subsection (1)(b) shall run consecutively to the period of any suspension, revocation, or denial imposed pursuant to a criminal conviction arising out of the same incident.

(2) In the case of an incident where a person has submitted to or been administered a test or tests indicating that the alcohol concentration of the person's breath or blood was 0.10 or more:

(a) For a first incident within five years, where there has not been a previous incident within five years that resulted in administrative action under this section, placement in probationary status as provided in RCW 46.20.355;

(b) For a second or subsequent incident within five years, revocation or denial for two years.

(3) In the case of an incident where a person under age twenty-one has submitted to or been administered a test or tests indicating that the alcohol concentration of the person's breath or blood was 0.02 or more:

(a) For a first incident within five years, suspension or denial for ninety days;

(b) For a second or subsequent incident within five years, revocation or denial for one year or until the person reaches age twenty-one, whichever is longer.

Sec. 4. RCW 46.20.355 and 1994 c 275 s 8 are each amended to read as follows:

(1) ~~Upon ((notification of a conviction under RCW 46.61.502 or 46.61.504 for which the issuance of a probationary driver's license is required))~~ placing a license, permit, or privilege to drive in probationary status under section 3(2)(a) of this act, or upon receipt of an abstract indicating a deferred prosecution has been granted under RCW 10.05.060, the department of licensing shall order the person to surrender ((his or her)) any Washington state driver's license that may be in his or her possession. Except for when renewing a probationary license, the department shall waive the fifty-dollar fee if the person has a probationary license in his or her possession at the time a new probationary license is required.

(ii) A conviction for a violation of RCW 46.61.504 or an equivalent local ordinance;

(iii) A conviction for a violation of RCW 46.61.520 committed while under the influence of intoxicating liquor or any drug;

(iv) A conviction for a violation of RCW 46.61.522 committed while under the influence of intoxicating liquor or any drug;

Sec. 6. RCW 46.61.5058 and 1994 c 139 s 1 are each amended to read as follows:

(1) Upon the arrest of a person or upon the filing of a complaint, citation, or information in a court of competent jurisdiction, based upon probable cause to believe that a person has violated RCW 46.61.502 or 46.61.504 or any similar municipal ordinance, if such person has a ~~((previous conviction for violation of either RCW 46.61.502 or 46.61.504 or other similar municipal ordinance, and where the offense occurs within a five year period of the previous conviction))~~ prior offense within five years as defined in section 5 of this act, and where the person has been provided written notice that any transfer, sale, or encumbrance of such person's interest in the vehicle over which that person was actually driving or had physical control when the violation occurred, is unlawful pending either acquittal, dismissal, sixty days after conviction, or other termination of the charge, such person shall be prohibited from encumbering, selling, or transferring his or her interest in such vehicle, except as otherwise provided in (a), (b), and (c) of this subsection, until either acquittal, dismissal, sixty days after conviction, or other termination of the charge. The prohibition against transfer of title shall not be stayed pending the determination of an appeal from the conviction.

(a) A vehicle encumbered by a bona fide security interest may be transferred to the secured party or to a person designated by the secured party;

(b) A leased or rented vehicle may be transferred to the lessor, rental agency, or to a person designated by the lessor or rental agency; and

(c) A vehicle may be transferred to a third party or a vehicle dealer who is a bona fide purchaser or may be subject to a bona fide security interest in the vehicle unless it is established that (i) in the case of a purchase by a third party or vehicle dealer, such party or dealer had actual notice that the vehicle was subject to the prohibition prior to the purchase, or (ii) in the case of a security interest, the holder of the security interest had actual notice that the vehicle was subject to the prohibition prior to the encumbrance of title.

(2) On ~~((a second or subsequent))~~ conviction for a violation of either RCW 46.61.502 or 46.61.504 or any similar municipal ordinance where ~~((such offense was committed within a five year period of the previous conviction))~~ the person convicted has a prior offense within five years as defined in section 5 of this act, the motor vehicle the person was driving or over which the person had actual physical control at the time of the offense, if the person has a financial interest in the vehicle, is subject to seizure and forfeiture pursuant to this section.

(3) A vehicle subject to forfeiture under this chapter may be seized by a law enforcement officer of this state upon process issued by a court of competent jurisdiction. Seizure of a vehicle may be made without process if the vehicle subject to seizure has been the subject of a prior judgment in favor of the state in a forfeiture proceeding based upon this section.

(4) Seizure under subsection (3) of this section automatically commences proceedings for forfeiture. The law enforcement agency under whose authority the seizure was made shall cause notice of the seizure and intended forfeiture of the seized vehicle to be served within fifteen days after the seizure on the owner of the vehicle seized, on the person in charge of the vehicle, and on any person having a known right or interest in the vehicle, including a community property interest. The notice of seizure may be served by any method authorized by law or court rule, including but not limited to service by certified mail with return receipt requested. Service by mail is complete upon mailing within the fifteen-day period after the seizure. Notice of seizure in the case of property subject to a security interest that has been perfected on a certificate of title shall be made by service upon the secured party or the secured party's assignee at the address shown on the financing statement or the certificate of title.

(5) If no person notifies the seizing law enforcement agency in writing of the person's claim of ownership or right to possession of the seized vehicle within forty-five days of the seizure, the vehicle is deemed forfeited.

(6) If a person notifies the seizing law enforcement agency in writing of the person's claim of ownership or right to possession of the seized vehicle within forty-five days of the seizure, the law enforcement agency shall give the person or persons a reasonable opportunity to be heard as to the claim or right. The hearing shall be before the chief law enforcement officer of the seizing agency or the chief law enforcement officer's designee, except where the seizing agency is a state agency as defined in RCW 34.12.020, the hearing shall be before the chief law enforcement officer of the seizing agency or an administrative law judge appointed under chapter 34.12 RCW, except that any person asserting a claim or right may remove the matter to a court of competent jurisdiction. Removal may only be accomplished according to the rules of civil procedure. The person seeking removal of the matter must serve process against the state, county, political subdivision, or municipality that operates the seizing agency, and any other party of interest, in accordance with RCW 4.28.080 or 4.92.020, within forty-five days after the person seeking removal has notified the seizing law enforcement agency of the person's claim of ownership or right to possession. The court to which the matter is to be removed shall be the district court when the aggregate value of the vehicle is within the jurisdictional limit set forth in RCW 3.66.020. A hearing before the seizing agency and any appeal therefrom shall be under Title 34 RCW. In a court hearing between two or more claimants to the vehicle involved, the prevailing party shall be entitled to a judgment for costs and reasonable attorneys' fees. The burden of producing evidence shall be upon the person claiming to be the legal owner or the person claiming to have the lawful right to possession of the vehicle. The seizing law enforcement agency shall promptly return the vehicle to the claimant upon a determination by the administrative law judge or court that the claimant is the present legal owner under Title 46 RCW or is lawfully entitled to possession of the vehicle.

(7) When a vehicle is forfeited under this chapter the seizing law enforcement agency may sell the vehicle, retain it for official use, or upon application by a law enforcement agency of this state release the vehicle to that agency for the exclusive use of enforcing this title; provided, however, that the agency shall first satisfy any bona fide security interest to which the vehicle is subject under subsection (1) (a) or (c) of this section.

(8) When a vehicle is forfeited, the seizing agency shall keep a record indicating the identity of the prior owner, if known, a description of the vehicle, the disposition of the vehicle, the value of the vehicle at the time of seizure, and the amount of proceeds realized from disposition of the vehicle.

(9) Each seizing agency shall retain records of forfeited vehicles for at least seven years.

(10) Each seizing agency shall file a report including a copy of the records of forfeited vehicles with the state treasurer each calendar quarter.

(11) The quarterly report need not include a record of a forfeited vehicle that is still being held for use as evidence during the investigation or prosecution of a case or during the appeal from a conviction.

(12) By January 31st of each year, each seizing agency shall remit to the state treasurer an amount equal to ten percent of the net proceeds of vehicles forfeited during the preceding calendar year. Money remitted shall be deposited in the public safety and education account.

(13) The net proceeds of a forfeited vehicle is the value of the forfeitable interest in the vehicle after deducting the cost of satisfying a bona fide security interest to which the vehicle is subject at the time of seizure; and in the case of a sold vehicle, after deducting the cost of sale, including reasonable fees or commissions paid to independent selling agents.

(14) The value of a sold forfeited vehicle is the sale price. The value of a retained forfeited vehicle is the fair market value of the vehicle at the time of seizure, determined when possible by reference to an applicable commonly used index, such as the index used by the department of licensing. A seizing agency may, but need not, use an independent qualified appraiser to determine the value of retained vehicles. If an appraiser is used, the value of the vehicle appraised is net of the cost of the appraisal.

Sec. 7. RCW 3.62.090 and 1994 c 275 s 34 are each amended to read as follows:

(1) There shall be assessed and collected in addition to any fines, forfeitures, or penalties assessed, other than for parking infractions, by all courts organized under Title 3 or 35 RCW a public safety and education assessment equal to sixty percent of such fines, forfeitures, or penalties, which shall be remitted as provided in chapters 3.46, 3.50, 3.62, and 35.20 RCW. The assessment required by this section shall not be suspended or waived by the court.

(2) There shall be assessed and collected in addition to any fines, forfeitures, or penalties assessed, other than for parking infractions and for fines levied under ~~((RCW 46.61.5051, 46.61.5052, and 46.61.5053))~~ section 5 of this act, and in addition to the public safety and education assessment required under subsection (1) of this section, by all courts organized under Title 3 or 35 RCW, an additional public safety and education assessment equal to fifty percent of the public safety and education assessment required under subsection (1) of this section, which shall be remitted to the state treasurer and deposited as provided in RCW 43.08.250. The additional assessment required by this subsection shall not be suspended or waived by the court.

Sec. 8. RCW 35.21.165 and 1994 c 275 s 36 are each amended to read as follows:

Except as limited by the maximum penalties authorized by law, no city or town may establish a penalty for an act that constitutes the crime of driving while under the influence of intoxicating liquor or any drug, as provided in RCW 46.61.502, or the crime of being in actual physical control of a motor vehicle while under the influence of intoxicating liquor or any drug, as provided in RCW 46.61.504, that is less than the penalties prescribed for those crimes in ~~((RCW 46.61.5051, 46.61.5052, and 46.61.5053))~~ section 5 of this act.

Sec. 9. RCW 36.32.127 and 1994 c 275 s 37 are each amended to read as follows:

Sec. 10. RCW 46.04.480 and 1994 c 275 s 38 are each amended to read as follows:

"Revoke," in all its forms, means the invalidation for a period of one calendar year and thereafter until reissue: PROVIDED, That under the provisions of RCW 46.20.285, 46.20.311, 46.20.265, ~~((46.61.5051, 46.61.5052, or 46.61.5053))~~ or section 5 of this act, and chapter 46.65 RCW the invalidation may last for a period other than one calendar year.

Sec. 11. RCW 46.20.311 and 1994 c 275 s 27 are each amended to read as follows:

(1) The department shall not suspend a driver's license or privilege to drive a motor vehicle on the public highways for a fixed period of more than one year, except as specifically permitted under RCW 46.20.342 or other provision of law. Except for a suspension under RCW 46.20.289 and 46.20.291(5), whenever the license or driving privilege of any person is suspended by reason of a conviction, a finding that a traffic infraction has been committed, pursuant to chapter 46.29 RCW, or pursuant to RCW 46.20.291 or 46.20.308, the suspension shall remain in effect until the person gives and thereafter maintains proof of financial responsibility for the future as provided in chapter 46.29 RCW. If the suspension is the result of a violation of RCW 46.61.502 or 46.61.504, the department shall determine the person's eligibility for licensing based upon the reports provided by the alcoholism agency or probation department designated under RCW 46.61.5056 and shall deny reinstatement until enrollment and participation in an approved program has been established and the person is otherwise qualified. The department shall not issue to the person a new, duplicate, or renewal license until the person pays a reissue fee of twenty dollars. If the suspension is the result of a violation of RCW 46.61.502 or 46.61.504, or is the result of administrative action under RCW 46.20.308, the reissue fee shall be fifty dollars.

(2) Any person whose license or privilege to drive a motor vehicle on the public highways has been revoked, unless the revocation was for a cause which has been removed, is not entitled to have

the license or privilege renewed or restored until: (a) After the expiration of one year from the date the license or privilege to drive was revoked; (b) after the expiration of the applicable revocation period provided by (~~RCW 46.20.308 or 46.61.5052, 46.61.5053, or 46.20.365~~) section 3 or 5 of this act; (c) after the expiration of two years for persons convicted of vehicular homicide; or (d) after the expiration of the applicable revocation period provided by RCW 46.20.265. After the expiration of the appropriate period, the person may make application for a new license as provided by law together with a reissue fee in the amount of twenty dollars, but if the revocation is the result of a violation of RCW 46.20.308, 46.61.502, or 46.61.504 (~~or is the result of administrative action under RCW 46.20.365~~), the reissue fee shall be fifty dollars. If the revocation is the result of a violation of RCW 46.61.502 or 46.61.504, the department shall determine the person's eligibility for licensing based upon the reports provided by the alcoholism agency or probation department designated under RCW 46.61.5056 and shall deny reissuance of a license, permit, or privilege to drive until enrollment and participation in an approved program has been established and the person is otherwise qualified. Except for a revocation under RCW 46.20.265, the department shall not then issue a new license unless it is satisfied after investigation of the driving ability of the person that it will be safe to grant the privilege of driving a motor vehicle on the public highways, and until the person gives and thereafter maintains proof of financial responsibility for the future as provided in chapter 46.29 RCW. For a revocation under RCW 46.20.265, the department shall not issue a new license unless it is satisfied after investigation of the driving ability of the person that it will be safe to grant that person the privilege of driving a motor vehicle on the public highways.

(3) Whenever the driver's license of any person is suspended pursuant to Article IV of the nonresident violators compact or RCW 46.23.020 or 46.20.289 or 46.20.291(5), the department shall not issue to the person any new or renewal license until the person pays a reissue fee of twenty dollars. If the suspension is the result of a violation of the laws of this or any other state, province, or other jurisdiction involving (a) the operation or physical control of a motor vehicle upon the public highways while under the influence of intoxicating liquor or drugs, or (b) the refusal to submit to a chemical test of the driver's blood alcohol content, the reissue fee shall be fifty dollars.

Sec. 12. RCW 46.20.391 and 1994 c 275 s 29 are each amended to read as follows:

The department, upon receipt of the prescribed fee and upon determining that the petitioner is engaged in an occupation or trade that makes it essential that the petitioner operate a motor vehicle, may issue an occupational driver's license and may set definite restrictions as provided in RCW 46.20.394. No person may petition for, and the department shall not issue, an occupational driver's license that is effective during the first thirty days of any suspension or revocation imposed for a violation of RCW 46.61.502 or 46.61.504. (~~No person may petition for, and the department shall not issue, an occupational driver's license if the person is ineligible for such a license under RCW 46.61.5052 or 46.61.5053.~~) A person aggrieved by the decision of the department on the application for an occupational driver's license may request a hearing as provided by rule of the department.

(2) An applicant for an occupational driver's license is eligible to receive such license only if:

(a) Within one year immediately preceding the date of the offense that gave rise to the present conviction, the applicant has not committed (~~of~~) any (~~committed any~~) offense relating to motor vehicles for which suspension or revocation of a driver's license is mandatory; and

Concerning the return of state forest board transfer land.

The bill was read the second time.

Representative Buck moved adoption of the following amendment by Representative Buck:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature finds that in the early 1900's and up through the 1930's, counties took possession of a number of forest land parcels as a result of tax delinquencies. In many cases, the timber had already been harvested from these lands prior to the forfeiture of the property to the counties. Since that time, the department of natural resources has reforested and managed these lands in conjunction with the state trust lands. Given changes in forest practices, recent fluctuation in income from the forest board lands, and questions about the management of the department of natural resources, the legislature directs that a study of the policies and an analysis of economic elements of the management of state forest board lands be conducted by the legislative budget committee, in consultation with the Washington state members of western states legislatures forestry task force and the chairs of the senate and house of representatives committees on natural resources.

NEW SECTION. **Sec. 2.** The study under section 1 of this act shall include elements such as the following:

(1) The role of forest board lands in the state's sustained yield calculations and the effect of removing all or part of those lands on income, yield, and management policies;

(2) The economic and forest practice implications of separating the forest board lands from the total lands managed by the department of natural resources;

(3) The effects of a transfer on public access, recreation, and the management of other public and private lands;

(4) A comparison of forest management procedures and costs between Grays Harbor county and similar forest board and state trust lands; and

(5) An examination of the best possible methods and procedures to transfer board lands to the counties.

NEW SECTION. **Sec. 3.** The findings of the study, along with recommendations to the legislature, shall be submitted to the appropriate standing committees of the legislature by December 31, 1996.

NEW SECTION. **Sec. 4.** If specific funding for the purposes of this act, referencing this act by bill number, is not provided by June 30, 1995, in the omnibus appropriations act, this act is null and void."

(3) Systematically use all processes available to verify eligibility in terms of the citizenship and residency status of applicants and recipients for public assistance.

NEW SECTION. Sec. 5. The department shall have the SAVE program in full force and effect by September 30, 1995, and report to the fiscal committees of the house of representatives and senate by December 1, 1995, regarding the progress of implementation and outcomes by region of the program."

Sec. 1404. RCW 43.19.1906 and 1994 c 300 s 1 are each amended to read as follows:

Insofar as practicable, all purchases and sales shall be based on competitive bids, and a formal sealed bid procedure shall be used as standard procedure for all purchases and contracts for purchases and sales executed by the state purchasing and material control director and under the powers granted by RCW 43.19.190 through 43.19.1939. This requirement also applies to purchases and contracts for purchases and sales executed by agencies, including educational institutions, under delegated authority granted in accordance with provisions of RCW 43.19.190 or under RCW 28B.10.029. However, formal sealed bidding is not necessary for:

(1) Emergency purchases made pursuant to RCW 43.19.200 if the sealed bidding procedure would prevent or hinder the emergency from being met appropriately;

(2) Purchases not exceeding thirty-five thousand dollars, or subsequent limits as calculated by the office of financial management: PROVIDED, That the state director of general administration shall establish procedures to assure that purchases made by or on behalf of the various state agencies shall not be made so as to avoid the thirty-five thousand dollar bid limitation, or subsequent bid limitations as calculated by the office of financial management: PROVIDED FURTHER, That the state purchasing and material control director is authorized to reduce the formal sealed bid limits of thirty-five thousand dollars, or subsequent limits as calculated by the office of financial management, to a lower dollar amount for purchases by individual state agencies if considered necessary to maintain full disclosure of competitive procurement or otherwise to achieve overall state efficiency and economy in purchasing and material control. Quotations from four hundred dollars to thirty-five thousand dollars, or subsequent limits as calculated by the office of financial management, shall be secured from at least three vendors to assure establishment of a competitive price and may be obtained by telephone or written quotations, or both. The agency shall invite at least one quotation each from a certified minority and a certified women-owned vendor who shall otherwise qualify to perform such work. Immediately after the award is made, the bid quotations obtained shall be recorded and open to public inspection and shall be available by telephone inquiry. A record of competition for all such purchases from four hundred dollars to thirty-five thousand dollars, or subsequent limits as calculated by the office of financial management, shall be documented for audit purposes. Purchases up to four hundred

dollars may be made without competitive bids based on buyer experience and knowledge of the market in achieving maximum quality at minimum cost: PROVIDED, That this four hundred dollar direct buy limit without competitive bids may be increased incrementally as required to a maximum of eight hundred dollars (~~((with the approval of at least ten of the members of the state supply management advisory board))~~), if warranted by increases in purchasing costs due to inflationary trends;

(3) Purchases which are clearly and legitimately limited to a single source of supply and purchases involving special facilities, services, or market conditions, in which instances the purchase price may be best established by direct negotiation;

(4) Purchases of insurance and bonds by the risk management office under RCW 43.19.1935;

(5) Purchases and contracts for vocational rehabilitation clients of the department of social and health services: PROVIDED, That this exemption is effective only when the state purchasing and material control director, after consultation with the director of the division of vocational rehabilitation and appropriate department of social and health services procurement personnel, declares that such purchases may be best executed through direct negotiation with one or more suppliers in order to expeditiously meet the special needs of the state's vocational rehabilitation clients;

(6) Purchases by universities for hospital operation or biomedical teaching or research purposes and by the state purchasing and material control director, as the agent for state hospitals as defined in RCW 72.23.010, and for health care programs provided in state correctional institutions as defined in RCW 72.65.010(3) and veterans' institutions as defined in RCW 72.36.010 and 72.36.070, made by participating in contracts for materials, supplies, and equipment entered into by nonprofit cooperative hospital group purchasing organizations;

(7) Purchases by institutions of higher education not exceeding thirty-five thousand dollars: PROVIDED, That for purchases between two thousand five hundred dollars and thirty-five thousand dollars quotations shall be secured from at least three vendors to assure establishment of a competitive price and may be obtained by telephone or written quotations, or both. For purchases between two thousand five hundred dollars and thirty-five thousand dollars, each institution of higher education shall invite at least one quotation each from a certified minority and a certified women-owned vendor who shall otherwise qualify to perform such work. A record of competition for all such purchases made from two thousand five hundred to thirty-five thousand dollars shall be documented for audit purposes; and

(8) Beginning on July 1, 1995, and on July 1 of each succeeding odd-numbered year, the dollar limits specified in this section shall be adjusted as follows: The office of financial management shall calculate such limits by adjusting the previous biennium's limits by the appropriate federal inflationary index reflecting the rate of inflation for the previous biennium. Such amounts shall be rounded to the nearest one hundred dollars.

Sec. 1405. RCW 43.19.1937 and 1975-'76 2nd ex.s. c 21 s 13 are each amended to read as follows:

Violation of this section shall be considered a malfeasance and may cause loss of position, and the violator shall be liable to the state upon his official bond for all damages sustained by the state. Contracts involved may be canceled at the option of the state. Penalties provided in this section are not exclusive, and shall not bar action under any other statute penalizing the same act or omission.

(16) "Medical review officer" means a licensed physician trained in the field of drug testing who provides medical assessment of positive test results, requests reanalysis if necessary, and makes a determination whether or not drug misuse has occurred.

(17) "Nonprescription medication" means a drug or medication authorized under federal or state law for general distribution and use without a prescription in the treatment of human disease, ailments, or injuries.

(24) "Verified positive test result" means a confirmed positive test result obtained by a laboratory meeting the standards specified in this chapter that has been reviewed and verified by a medical review officer in accordance with medical review officer guidelines promulgated by the United States department of health and human services.

NEW SECTION. Sec. 3. (1) An employer implementing a drug-free workplace program in accordance with section 4 of this act, shall qualify for a five percent premium discount under the employer's workers' compensation insurance policy as provided under chapter 51.16 RCW upon certification by the division of alcohol and substance abuse of the department as provided in section 13 of this act.

(2) The premium discount must remain in effect as long as the employer is certified under section 13 of this act, up to a maximum of three years from the date of certification.

(3) A certified employer may discontinue operating a drug-free workplace program at any time. The qualification for a premium discount shall expire in accordance with decertification rules adopted by the department under section 13 of this act.

(4) An employer whose substance abuse testing program reasonably meets, as of July 1, 1995, the requirements for the premium discount provided in this section is not eligible for certification.

(5) Nothing in this chapter creates or alters an obligation on the part of an employer seeking to participate in this program to bargain with a collective bargaining representative of its employees.

(6) An employer may not receive premium discounts from the department of labor and industries under more than one premium discount program. An employer participating in and meeting all of the requirements for the discount provided in this section and also participating in another premium discount program offered by the department of labor and industries is only entitled to the premium discount that is the highest.

NEW SECTION. Sec. 4. (1) A drug-free workplace program established under this chapter must contain the following elements:

- (a) A written policy statement as provided in section 5 of this act;
- (b) Substance abuse testing as provided in section 6 of this act;
- (c) An employee assistance program as provided in accordance with section 7 of this act;
- (d) Employee education as provided in section 9 of this act; and
- (e) Supervisor training in accordance with section 10 of this act.

(2) In addition to the requirements of subsection (1) of this section, a drug-free workplace program established under this chapter must be implemented in compliance with the confidentiality standards provided in section 12 of this act.

NEW SECTION. Sec. 5. (1) An alcohol and drug-free workplace program established under this chapter must contain a written substance abuse policy statement in order to qualify for the premium discount provided under section 3 of this act. The policy must:

- (a) Notify employees that the use or being under any influence of alcohol during working hours is prohibited;
- (b) Notify employees that the use, purchase, possession, or transfer of drugs or having illegal drugs in their system is prohibited and that prescription or nonprescription medications are not prohibited when taken in accordance with a lawful prescription or consistent with standard dosage recommendations;
- (c) Identify the types of testing an employee or job applicant may be required to submit to or other basis used to determine when such a test will be required;
- (d) Identify the actions the employer may take against an employee or job applicant on the basis of a verified positive test result;
- (e) Contain a statement advising an employee or job applicant of the existence of this chapter;
- (f) Contain a general statement concerning confidentiality;
- (g) Identify the consequences of refusing to submit to a drug test;
- (h) Contain a statement advising an employee of the employee assistance program;
- (i) Contain a statement that an employee or job applicant who receives a verified positive test result may contest or explain the result to the employer within five working days after receiving written notification of the positive test result;
- (j) Contain a statement informing an employee of the provisions of the federal drug-free workplace act, if applicable to the employer; and
- (k) Notify employees that the employer may discipline an employee for failure to report an injury in the workplace.

(2) An employer not having a substance abuse testing program in effect on July 1, 1995, shall ensure that at least sixty days elapse between a general one-time notice to all employees that a substance abuse testing program is being implemented and the beginning of the actual testing. An employer having a substance abuse testing program in place before July 1, 1995, is not required to provide a sixty-day notice period.

(3) An employer shall include notice of substance abuse testing to all job applicants. A notice of the employer's substance abuse testing policy must also be posted in an appropriate and conspicuous location on the employer's premises, and copies of the policy must be made available for inspection by the employees or job applicants of the employer during regular business hours in the employer's personnel office or other suitable locations. An employer with employees or job applicants who have trouble communicating in English shall make reasonable efforts to help the employees understand the policy statement.

NEW SECTION. Sec. 6. (1) Substance abuse testing conducted under this chapter must be conducted in conformity with the standards and procedures established in this chapter and all applicable rules adopted by the department under this chapter. If an employer fails to maintain an alcohol and drug-free workplace program in accordance with the standards, procedures, and rules established under this chapter, the employer shall not qualify for the workers' compensation premium discount provided under section 3 of this act.

(2) To qualify for the premium discount under section 3 of this act, an employer shall:

(a) Be in good standing and remain in good standing with the department of labor and industries with respect to the employer's workers' compensation premium obligations;

(b) Require job applicants to submit to a drug test after extending an offer of employment. The employer may use a refusal to submit to a drug test or a verified positive test as a basis for not hiring the job applicant;

(c) Investigate each workplace injury that results in a worker needing off-site medical attention and require an employee to submit to drug and alcohol tests if the employer reasonably believes the employee has caused or contributed to an injury which resulted in off-site medical attention. Under this chapter, a first-time verified positive test result may not be used as a basis to terminate an employee's employment. However, an employee may be terminated for independent reasons, such as a violation of a safety rule or regulation;

(d) If the employee in the course of employment is referred to the employee assistance program by the employer as a result of a verified positive drug or alcohol test or an alcohol or drug-related incident in violation of employer rules, require the employee to submit to drug and alcohol testing in conjunction with any recommended rehabilitation program. If the employee assistance program determines that the employee does not require treatment services, the employee must still be required to participate in follow-up testing. However, if an employee voluntarily enters an employee assistance program, without a verified positive drug or alcohol test or a violation of any drug or alcohol related employer rule, follow-up testing is not required. If follow-up testing is conducted, the frequency of the testing shall be at least four times a year for a two-year period after completion of the rehabilitation program and advance notice of the testing date may not be given. A verified positive follow-up test result shall normally require termination of employment.

(3) Specimen collection and substance abuse testing under this section must be performed in accordance with regulations and procedures approved by the United States department of health and human services and the United States department of transportation regulations for alcohol and drug testing and must include testing for marijuana, cocaine, amphetamines, opiates, and phencyclidine. Employers may test for any drug listed in section 2(7) of this act.

(a) A specimen must be collected with due regard to the privacy of the individual providing the specimen and in a manner reasonably calculated to prevent substitution or contamination of the specimen.

(b) Specimen collection and analysis must be documented. The documentation procedures must include:

(i) Labeling of specimen containers so as to reasonably preclude the likelihood of erroneous identification of test results; and

(ii) An opportunity for the employee or job applicant to provide to a medical review officer information the employee or applicant considers relevant to the drug test, including identification of currently or recently used prescription or nonprescription medication or other relevant medical information.

(c) Specimen collection, storage, and transportation to the testing site must be performed in a manner that reasonably precludes specimen contamination or adulteration.

(d) An initial and confirmation test conducted under this section, not including the taking or collecting of a specimen to be tested, must be conducted by a laboratory as described in subsection (4) of this section.

(e) A specimen for a test may be taken or collected by any of the following persons:

(i) A physician, a physician's assistant, a registered professional nurse, a licensed practical nurse, a nurse practitioner, or a certified paramedic who is present at the scene of an accident for the purpose of rendering emergency medical service or treatment;

(ii) A qualified person certified or employed by a laboratory certified by the substance abuse and mental health administration or the college of American pathologists; or

(iii) A qualified person certified or employed by a collection company using collection procedures adopted by the United States department of health and human services and the United States department of transportation for alcohol collection.

(f) Within five working days after receipt of a verified positive test result from the laboratory, an employer shall inform an employee or job applicant in writing of the positive test result, the consequences of the result, and the options available to the employee or job applicant.

(g) The employer shall provide to the employee or job applicant, upon request, a copy of the test results.

(h) An initial test having a positive result must be verified by a confirmation test.

(i) An employer who performs drug testing or specimen collection shall use chain of custody procedures to ensure proper recordkeeping, handling, labeling, and identification of all specimens to be tested.

(j) An employer shall pay the cost of all drug or alcohol tests, initial and confirmation, that the employer requires of employees.

(k) An employee or job applicant shall pay the cost of additional tests not required by the employer.

(4)(a) A laboratory may not analyze initial or confirmation drug specimens unless:

(i) The laboratory is approved by the substance abuse and mental health administration or the college of American pathologists;

(ii) The laboratory has written procedures to ensure the chain of custody; and

(iii) The laboratory follows proper quality control procedures including, but not limited to:

(A) The use of internal quality controls including the use of samples of known concentrations that are used to check the performance and calibration of testing equipment, and periodic use of blind samples for overall accuracy;

(B) An internal review and certification process for test results, conducted by a person qualified to perform that function in the testing laboratory;

(C) Security measures implemented by the testing laboratory to preclude adulteration of specimens and test results; and

(D) Other necessary and proper actions taken to ensure reliable and accurate drug test results.

(b) A laboratory shall disclose to the employer a written test result report within seven working days after receipt of the sample. A laboratory report of a substance abuse test result must, at a minimum, state:

(i) The name and address of the laboratory that performed the test and the positive identification of the person tested;

(ii) Positive results on confirmation tests only, or negative results, as applicable;

(iii) A list of the drugs for which the drug analyses were conducted; and

(iv) The type of tests conducted for both initial and confirmation tests and the threshold detection levels of the tests.

A report may not disclose the presence or absence of a drug other than a specific drug and its metabolites listed under this chapter.

(c) A laboratory shall provide technical assistance through the use of a medical review officer to the employer, employee, or job applicant for the purpose of interpreting a positive confirmed drug test result that could have been caused by prescription or nonprescription medication taken by the employee or job applicant. The medical review officer shall interpret and evaluate the laboratory's positive drug test result and eliminate test results that could have been caused by prescription medication or other medically documented sources in accordance with the United States department of health and human services medical review officer manual.

(5) A positive initial drug test must be confirmed using the gas chromatography/mass spectrometry method or an equivalent or more accurate scientifically accepted method approved by the substance abuse and mental health administration as the technology becomes available in a cost-effective form.

(6) A workplace safety committee established according to the standards for safety committees under chapter 49.17 RCW shall monitor the ongoing effectiveness of the substance abuse testing program established by the employer under this chapter and shall, at reasonable intervals established by the committee but not less than annually, make recommendations for improving the program.

NEW SECTION. Sec. 7. (1) The employee assistance program required under this chapter shall provide the employer with a system for dealing with employees whose job performances are declining due to unresolved problems, including alcohol or other drug-related problems, marital problems, or legal or financial problems.

(2) To ensure appropriate assessment and referral to treatment:

(a) The employer must notify the employees of the benefits and services of the employee assistance program;

(b) The employer shall publish notice of the employee assistance program in conspicuous places and explore alternative routine and reinforcing means of publicizing the services; and

(c) The employer shall provide the employee with notice of the policies and procedures regarding access to and use of the employee assistance program.

(3) A list of approved employee assistance programs must be provided by the department according to recognized program standards.

NEW SECTION. Sec. 8. (1)(a) Rehabilitation of employees suffering from either or both alcohol or drug addiction shall be a primary focus of an employee assistance program.

(b) Under any program under this chapter, the employer may not use a first-time verified positive drug or alcohol test as the basis for termination of an employee. After a first-time verified positive test result, the employee must be given an opportunity to keep his or her job through the use of a last-chance agreement. The last-chance agreement shall require an employee to:

(i) Submit to an employee assistance program evaluation for chemical dependency;

(ii) Comply with any treatment recommendations;

(iii) Be subject to follow-up drug and alcohol testing for two years;

(iv) Meet the same standards of performance and conduct that are set for other employees; and

(v) Authorize the employer to receive all relevant information regarding the employee's progress in treatment, if applicable.

Failure to comply with all the terms of this agreement normally will result in termination of employment.

(2) When substance abuse treatment is necessary, employees must use treatment services approved by the department, which include a continuing care component lasting for two years.

(a) The employee assistance program shall monitor the employee's progress while in treatment, including the two-year continuing care component, and notify the employer when an employee is not complying with the programs's treatment recommendations.

(b) The employer shall monitor job performance and conduct follow-up testing.

(3) An employer may terminate an employee for the following reasons:

(a) Refusal to submit to a drug or alcohol test;

(b) Refusal to agree to or failure to comply with the conditions of a last-chance agreement;

(c) A second verified positive drug or alcohol test result; or

(d) After the first verified positive drug or alcohol test, any violation of employer rules pertaining to alcohol and drugs.

(4) Nothing in this chapter limits the right of any employer who participates in the worker's compensation premium discount program under this chapter to terminate employment for any other reason.

NEW SECTION. Sec. 9. As part of a program established under this chapter, an employer shall provide all employees with an annual education program on substance abuse, in general, and its effects on the workplace, specifically. An employer with employees who have trouble communicating in English shall make reasonable efforts to help the employees understand the substance of the

education program. An education program for a minimum of one hour should include but is not limited to the following information:

- (1) The explanation of the disease model of addiction for alcohol and drugs;
- (2) The effects and dangers of the commonly abused substances in the workplace; and
- (3) The employer's policies and procedures regarding substance abuse in the workplace and how employees who wish to obtain substance abuse treatment can do so.

NEW SECTION. Sec. 10. In addition to the education program provided in section 9 of this act, an employer shall provide all supervisory personnel with a minimum of two hours of supervisor training, that should include but is not limited to the following information:

- (1) How to recognize signs of employee substance abuse;
 - (2) How to document and collaborate signs of employee substance abuse;
 - (3) How to refer employees to the employee assistance program or proper treatment providers;
- and
- (4) Circumstances and procedures for postinjury testing.

NEW SECTION. Sec. 11. (1) A physician-patient relationship is not created between an employee or job applicant and an employer, medical review officer, or person performing or evaluating a drug or alcohol test solely by the establishment, implementation, or administration of a drug or alcohol testing program.

(2) This chapter may not be construed to prevent an employer from establishing reasonable work rules related to employee possession, use, sale, or solicitation of drugs, including convictions for drug-related offenses, and taking action based upon a violation of any of those rules.

(3) This chapter may not be construed to operate retroactively. This chapter does not abrogate the right of an employer under state or federal law to conduct drug or alcohol tests or implement employee drug or alcohol testing programs. However, only those programs that meet the criteria outlined in this chapter qualify for workers' compensation insurance premiums discounts.

(4) This chapter may not be construed to prohibit an employer from conducting medical screening or other tests required, permitted, or not disallowed by a statute or rule for the purpose of monitoring exposure of employees to toxic or other unhealthy materials in the workplace or in the performance of job responsibilities. The screening or tests must be limited to testing for the specific material expressly identified in the statute or rule, unless prior written consent of the employee is obtained for other tests.

(5) This chapter does not establish a legal duty for employers to conduct alcohol or drug tests of employees or job applicants. A cause of action may not arise in favor of a person based upon the failure of an employer to establish or conduct a program or policy for substance abuse testing or to conduct a program or policy in conformance with the standards and procedures established in this chapter. This chapter does not create individual rights of action and may be enforced only by the department by denial of the workers' compensation premium discount provided in section 3 of this act.

NEW SECTION. Sec. 12. Confidentiality standards that apply to substance abuse testing programs implemented under this chapter include the following:

(1) Information, interviews, reports, statements, memoranda, and test results, written or otherwise, received through a substance abuse testing program are confidential communications, and may not be used or received in evidence, obtained in discovery, or disclosed in a civil or administrative proceeding, except as provided in subsection (5) of this section.

(2) An employer, laboratory, medical review officer, employee assistance program, drug or alcohol rehabilitation program, and their agents who receive or have access to information concerning test results shall keep the information confidential, except as provided in subsection (5) of this section.

(3) Any release of the information must be pursuant to a written consent form that complies with RCW 70.02.030 and is signed voluntarily by the person tested, unless the release is compelled by the division of alcohol and substance abuse of the department or a court of competent jurisdiction in accordance with state and federal confidentiality laws, or unless required by a professional or occupational licensing board in a related disciplinary proceeding. Any disclosure by any agency

approved by the department must be in accordance with RCW 70.96A.150. The consent form must contain at a minimum:

- (a) The name of the person who is authorized to obtain the information;
- (b) The purpose of the disclosure;
- (c) The precise information to be disclosed;
- (d) The duration of the consent; and
- (e) The signature of the person authorizing release of the information.

(4) Information on test results may not be released or used in a criminal proceeding against the employee or job applicant. Information released contrary to this subsection is inadmissible as evidence in a criminal proceeding.

(5) Nothing in this chapter prohibits:

(a) An employer from using information concerning an employee or job applicant's substance abuse test results in a lawful manner with respect to that employee or applicant; or

(b) An entity that obtains the information from disclosing or using the information in a lawful manner as part of a matter relating to the substance abuse test, the test result, or an employer action with respect to the job applicant or employee.

NEW SECTION. Sec. 13. The department shall adopt by rule procedures and forms for the certification of employers who establish and maintain a drug-free workplace that complies with this chapter. The department shall adopt by rule procedures for the decertification of employers formally certified for the workers' compensation premium discount provided under this chapter. The department may charge a fee for the certification of a drug-free workplace program in an amount that must approximate its administrative costs related to the certification. Certification of an employer is required for each year in which a premium discount is granted. The department may adopt any other rules necessary for the implementation of this chapter.

NEW SECTION. Sec. 14. (1) The department of labor and industries may adopt rules necessary for the implementation of this chapter including but not limited to provisions for penalties and repayment of premium discounts by employers that are decertified by the department of social and health services under section 13 of this act.

(2) The department of labor and industries shall conduct an evaluation of the effect of the premium discount provided for under section 3 of this act on workplace safety and the state of Washington industrial insurance fund. The department of labor and industries shall report its preliminary findings to the appropriate committees of the legislature on September 1 of 1996 and 1997 and shall issue a comprehensive final report on December 1, 1998.

NEW SECTION. Sec. 15. Notwithstanding any other provisions of this chapter, the total premium discounts available under section 3 of this act shall not exceed five million dollars during any fiscal year.

NEW SECTION. Sec. 16. Sections 1 through 15 of this act shall constitute a new chapter in Title 49 RCW.

NEW SECTION. Sec. 17. Sections 1 through 15 of this act shall expire January 1, 2001.

NEW SECTION. Sec. 18. This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and shall take effect July 1, 1995."

On page 1, line 1 of the title, after "workplaces;" strike the remainder of the title and insert "adding a new chapter to Title 49 RCW; providing an effective date; providing an expiration date; and declaring an emergency."

"Sec. 1. RCW 82.38.030 and 1989 c 193 s 3 are each amended to read as follows:

(1) There is hereby levied and imposed upon special fuel users a tax at the rate computed in the manner provided in RCW 82.36.025 per gallon or each one hundred cubic feet of compressed natural gas measured at standard pressure and temperature on the use of special fuel in any motor vehicle, or a ferry owned or operated by the state of Washington or one of its political subdivisions, operated upon the highways or waterways of this state during the fiscal year for which such rate is applicable.

(2) The tax shall be collected by the special fuel dealer and shall be paid over to the department as hereinafter provided: (a) With respect to all special fuel delivered by a special fuel dealer into supply tanks of motor vehicles or into storage facilities used for the fueling of motor vehicles at unbonded service stations in this state; or (b) in all other transactions where the purchaser is not the holder of a valid special fuel license issued pursuant to this chapter allowing the purchase of untaxed special fuel, except sales of special fuel for export. To claim an exemption on account of sales by a licensed special fuel dealer for export, the purchaser shall obtain from the selling special fuel dealer, and such selling special fuel dealer must furnish the purchaser, an invoice giving such details of the sale for export as the director may require, copies of which shall be furnished the department and the entity of the state or foreign jurisdiction of destination which is charged by the laws of that state or foreign jurisdiction with the control or monitoring or both, of the sales or movement of special fuel in that state or foreign jurisdiction.

(3) The tax shall be paid over to the department by the special fuel user as hereinafter provided with respect to the taxable use of special fuel upon which the tax has not previously been imposed.

It is expressly provided that delivery of special fuel may be made without collecting the tax otherwise imposed, when such deliveries are made by a bonded special fuel dealer to special fuel users who are authorized by the department as hereinafter provided, to purchase fuel without payment of tax to the bonded special fuel dealer.

Sec. 2. RCW 82.36.410 and 1973 c 95 s 5 are each amended to read as follows:

All moneys collected by the director shall be transmitted forthwith to the state treasurer, together with a statement showing whence the moneys were derived, and shall be by him credited to the motor vehicle fund. All revenues from fuel purchased for marine use by the state ferry system shall be credited to the Puget Sound ferry operations account created under RCW 47.60.530. All revenues from fuel purchased for marine use by Pierce, Skagit, and Whatcom counties for county ferry operations shall be credited to the motor vehicle fund and distributed under RCW 46.68.100(3) and allocated according to RCW 47.56.725. All revenues from fuel purchased by Wahkiakum county for

county ferry operations shall be directly reimbursed by the state treasurer to the Wahkiakum county treasurer.

(2) The department is authorized to include in each agreement a provision for the distribution of funds to each county to reimburse the county for fifty percent of the deficit incurred during each previous fiscal year in the operation and maintenance of the ferry system owned and operated by the county. The total amount to be reimbursed to Pierce, Skagit, and Whatcom counties collectively shall not exceed one million dollars in any biennium. Refunds of motor vehicle fuel taxes for county ferry operations shall not be considered in the amount to be reimbursed. Each county agreement shall contain a requirement that the county shall maintain tolls on its ferries at least equal to tolls in place on January 1, 1990.

(3) The annual fiscal year operating and maintenance deficit, if any, shall be determined by Pierce, Skagit, and Whatcom counties subject to review and approval of the department. The annual fiscal year operating and maintenance deficit is defined as the total of operations and maintenance expenditures less the sum of ferry toll revenues and that portion of fuel tax revenue distributions which are attributable to the county ferry as determined by the department. Distribution of the amounts authorized by subsection (2) of this section by the state treasurer shall be directed by the department upon the receipt of properly executed vouchers from each county.

(4) The county road administration board may evaluate requests by Pierce, Skagit, Wahkiakum, and Whatcom counties for county ferry capital improvement funds. The board shall evaluate the requests and, if approved by a majority of the board, submit the requests to the legislature for funding out of the amounts available under RCW 46.68.100(3). Any county making a request under this subsection shall first seek funding through the public works trust fund, or any other available revenue source, where appropriate."

"Sec. 1. RCW 47.56.030 and 1977 ex.s. c 151 s 66 are each amended to read as follows:

The department of transportation shall have full charge of the construction of all toll bridges and other toll facilities including the Washington state ferries, and the operation and maintenance thereof. The transportation commission shall determine and establish the tolls and charges thereon, and shall perform all duties and exercise all powers relating to the financing, refinancing, and fiscal management of all toll bridges and other toll facilities including the Washington state ferries, and bonded indebtedness in the manner provided by law. The department shall have full charge of design of all toll facilities. The department shall proceed with the construction of such toll bridges and other facilities and the approaches thereto by contract in the manner of state highway construction immediately upon there being made available funds for such work and shall prosecute such work to completion as rapidly as practicable. The department is authorized to negotiate contracts for any amount without bid in order to make repairs to ferries or ferry terminal facilities or removal of such facilities whenever continued use of ferries or ferry terminal facilities constitutes a real or immediate danger to the traveling public or precludes prudent use of such ferries or facilities.

The department shall proceed with the procurement of materials, supplies, services, and equipment needed for the support, maintenance, and use of a ferry, ferry terminal, or other facility operated by Washington state ferries, in accordance with chapter 43.19 RCW except as follows:

(1) When the secretary of the department of transportation determines in writing that the use of invitation for bid is either not practicable or not advantageous to the state and it may be necessary to make competitive evaluations, including technical or performance evaluations among acceptable proposals to complete the contract award, a contract may be entered into by use of a competitive sealed proposals method, and a formal request for proposals solicitation. Such formal request for proposals

solicitation shall include a functional description of the needs and requirements of the state and the significant factors.

(2) When purchases are made through a formal request for proposals solicitation the contract shall be awarded to the responsible proposer whose competitive sealed proposal is determined in writing to be the most advantageous to the state taking into consideration price and other evaluation factors set forth in the request for proposals. No significant factors may be used in evaluating a proposal that are not specified in the request for proposals. Factors that may be considered in evaluating proposals include but are not limited to: Price maintainability; reliability; commonality; performance levels; life cycle cost if applicable under this section; cost of transportation or delivery; delivery schedule offered; installation cost; cost of spare parts; availability of parts and service offered; and the following:

(a) The ability, capacity, and skill of the proposer to perform the contract or provide the service required;

(b) The character, integrity, reputation, judgment, experience, and efficiency of the proposer;

(c) Whether the proposer can perform the contract within the time specified;

(d) The quality of performance of previous contracts or services;

(e) The previous and existing compliance by the proposer with laws relating to the contract or services;

(f) Objective, measurable criteria defined in the request for proposal. These criteria may include but are not limited to items such as discounts, delivery costs, maintenance services costs, installation costs, and transportation costs; and

(g) Such other information as may be secured having a bearing on the decision to award the contract.

When purchases are made through a request for proposal process, proposals received shall be evaluated based on the evaluation factors set forth in the request for proposal. When a life cycle cost analysis is used, the life cycle cost of a proposal shall be given at least the same relative importance as the initial price element specified in the request of proposal documents. The department may reject any and all proposals received. If the proposals are not rejected, the award shall be made to the proposer whose proposal is most advantageous to the department, considering price and the other evaluation factors set forth in the request for proposal.

(3) The legislative transportation committee shall review the secretary's use of the request for proposals solicitation for Washington state ferries projects to determine if the process established under this act is appropriate. The results of the review, including recommendations for modification of the request for proposal process, shall be reported to the house of representatives and senate transportation committees by January 1, 1997.

Sec. 2. RCW 47.60.140 and 1987 c 69 s 1 are each amended to read as follows:

(1) The department is empowered to operate such ferry system, including all operations, whether intrastate or international, upon any route or routes, and toll bridges as a revenue-producing and self-liquidating undertaking. The department has full charge of the construction, rehabilitation, rebuilding, enlarging, improving, operation, and maintenance of the ferry system, including toll bridges, approaches, and roadways incidental thereto that may be authorized by the department, including the collection of tolls and other charges for the services and facilities of the undertaking. The department has the exclusive right to enter into leases and contracts for use and occupancy by other parties of the concessions and space located on the ferries, wharves, docks, approaches, and landings, but, except as provided in subsection (2) of this section, no such leases or contracts may be entered into for more than ~~((five years, nor without public advertisement for bids as may be prescribed by the department. However, except as provided in subsection (2) of this section, the Colman Dock facilities may be leased for a period not to exceed))~~ ten years, nor without a competitive contract process, except as otherwise provided in this section. The competitive process shall be either an invitation for bids in accordance with the process established by chapter 43.19 RCW, or a request for proposals in accordance with the process established by RCW 47.56.030.

(2) As part of a joint development agreement under which a public or private developer constructs or installs improvements on ferry system property, the department may lease all or part of such property and improvements to such developers for that period of time, not to exceed fifty-five years, or not to exceed thirty years for those areas located within harbor areas, which the department determines is necessary to allow the developer to make reasonable recovery on its initial investment.

Any lease entered into as provided for in this subsection that involves state aquatic lands shall conform with the Washington state Constitution and applicable statutory requirements as determined by the department of natural resources. That portion of the lease rate attributable to the state aquatic lands shall be distributed in the same manner as other lease revenues derived from state aquatic lands as provided in RCW 79.24.580.

Representative R. Fisher moved adoption of the following amendment by Representative R. Fisher:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The following acts or parts of acts are each repealed:

- (1) RCW 47.46.010 and 1993 c 370 s 1;
- (2) RCW 47.46.020 and 1993 c 370 s 2;
- (3) RCW 47.46.030 and 1993 c 370 s 3;
- (4) RCW 47.46.040 and 1993 c 370 s 4;

- (5) RCW 47.46.050 and 1993 c 370 s 5; and
(6) RCW 47.46.900 and 1993 c 370 s 7.

NEW SECTION. Sec. 2. This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and shall take effect July 1, 1995.

NEW SECTION. Sec. 3. The legislature finds and declares:

It is essential for the economic, social, and environmental well-being of the state and the maintenance of a high quality of life that the people of the state have an efficient transportation system.

The ability of the state to provide an efficient transportation system will be enhanced by a public-private sector program providing for private entities to undertake all or a portion of the study, planning, design, development, financing, acquisition, installation, construction or improvement, operation, and maintenance of transportation systems and facility projects.

A public-private initiatives program will provide benefits to both the public and private sectors. Public-private initiatives provide a sound economic investment opportunity for the private sector. Such initiatives will provide the state with increased access to property development and project opportunities, financial and development expertise, and will supplement state transportation revenues, allowing the state to use its limited resources for other needed projects.

The public-private initiatives program, to the fullest extent possible, should encourage and promote business and employment opportunities for Washington state citizens.

The public-private initiatives program should be implemented in cooperation and consultation with affected local jurisdictions.

The secretary of transportation should be permitted and encouraged to test the feasibility of building privately funded transportation systems and facilities or segments thereof through the use of innovative agreements with the private sector. The secretary of transportation should be vested with the authority to solicit, evaluate, negotiate, and administer public-private agreements with the private sector relating to the planning, construction, upgrading, or reconstruction of transportation systems and facilities.

The department of transportation should be encouraged to take advantage of new opportunities provided by federal legislation under section 1012 of the Intermodal Surface Transportation Efficiency Act of 1991 (ISTEA). That section establishes a new program authorizing federal participation in construction or improvement or improvement of publicly or privately owned toll roads, bridges, and tunnels, and allows states to leverage available federal funds as a means for attracting private sector capital.

NEW SECTION. Sec. 4. As used in this chapter, "transportation systems and facilities" means capital-related improvements and additions to the state's transportation infrastructure, including but not limited to highways, roads, bridges, vehicles, and equipment, marine-related facilities, vehicles, and equipment, park and ride lots, transit stations and equipment, transportation management systems, and other transportation-related investments.

NEW SECTION. Sec. 5. The secretary or a designee shall solicit proposals from, and negotiate and enter into agreements with, private entities to undertake as appropriate, together with the department and other public entities, all or a portion of the study, planning, design, construction, operation, and maintenance of transportation systems and facilities, using in whole or in part private sources of financing.

The public-private initiative program may develop up to six demonstration projects. Each proposal shall be weighed on its own merits, and each of the six agreements shall be negotiated individually, and as a stand-alone project. The commission shall approve each of the selected projects.

Proposals and demonstration projects may be selected by the public and private sectors at their discretion. All projects designed, constructed, and operated under this authority must comply with all applicable rules and statutes in existence at the time the agreement is executed, including but not limited to the following provisions: Chapter 39.12 RCW, this title, RCW 41.06.380, chapter 47.64 RCW, RCW 49.60.180, and 49 C.F.R. Part 21.

The secretary or a designee shall consult with legal, financial, and other experts within and outside state government in the negotiation and development of the agreements.

NEW SECTION. Sec. 6. Agreements shall provide for private ownership of the projects during the construction period. After completion and final acceptance of each project or discrete segment thereof, the agreement shall provide for state ownership of the transportation systems and facilities and lease to the private entity unless the state elects to provide for ownership of the facility by the private entity during the term of the agreement.

The state shall lease each of the demonstration projects, or applicable project segments, to the private entities for operating purposes for up to fifty years.

The department may exercise any power possessed by it to facilitate the development, construction, financing operation, and maintenance of transportation projects under this chapter. Agreements for maintenance services entered into under this section shall provide for full reimbursement for services rendered by the department or other state agencies. Agreements for police services under the agreement may be entered into with any qualified law enforcement agency, and shall provide for full reimbursement for services rendered by that agency. The department may provide services for which it is reimbursed, including but not limited to preliminary planning, environmental certification, and preliminary design of the demonstration projects.

The plans and specifications for each project constructed under this section shall comply with the department's standards for state projects. A facility constructed by and leased to a private entity is deemed to be a part of the state highway system for purposes of identification, maintenance, and enforcement of traffic laws and for the purposes of applicable sections of this title. Upon reversion of the facility to the state, the project must meet all applicable state standards. Agreements shall address responsibility for reconstruction or renovations that are required in order for a facility to meet all applicable state standards upon reversion of the facility to the state.

For the purpose of facilitating these projects and to assist the private entity in the financing, development, construction, and operation of the transportation systems and facilities, the agreements may include provisions for the department to exercise its authority, including the lease of facilities, rights of way, and airspace, exercise of the power of eminent domain, granting of development rights and opportunities, granting of necessary easements and rights of access, issuance of permits and other authorizations, protection from competition, remedies in the event of default of either of the parties, granting of contractual and real property rights, liability during construction and the term of the lease, authority to negotiate acquisition of rights of way in excess of appraised value, and any other provision deemed necessary by the secretary.

The agreements entered into under this section may include provisions authorizing the state to grant necessary easements and lease to a private entity existing rights of way or rights of way subsequently acquired with public or private financing. The agreements may also include provisions to lease to the entity airspace above or below the right of way associated or to be associated with the private entity's transportation facility. In consideration for the reversion rights in these privately constructed facilities, the department may negotiate a charge for the lease of airspace rights during the term of the agreement for a period not to exceed fifty years. If, after the expiration of this period, the department continues to lease these airspace rights to the private entity, it shall do so only at fair market value. The agreement may also provide the private entity the right of first refusal to undertake projects utilizing airspace owned by the state in the vicinity of the public-private project.

Agreements under this section may include any contractual provision that is necessary to protect the project revenues required to repay the costs incurred to study, plan, design, finance, acquire, build, install, operate, enforce laws, and maintain toll highways, bridges, and tunnels and which will not unreasonably inhibit or prohibit the development of additional public transportation systems and facilities. Agreements under this section must secure and maintain liability insurance coverage in amounts appropriate to protect the project's viability and may address state indemnification of the private entity for design and construction liability where the state has approved relevant design and construction plans. Nothing in this chapter limits the right of the secretary and his or her agents to render such advice and to make such recommendations as they deem to be in the best interests of the state and the public.

NEW SECTION. Sec. 7. The department may enter into agreements using federal, state, and local financing in connection with the projects, including without limitation, grants, loans, and other measures authorized by section 1012 of ISTEA, and to do such things as necessary and desirable to maximize the funding and financing, including the formation of a revolving loan fund to implement this section.

Agreements entered into under this section shall authorize the private entity to lease the facilities within a designated area or areas from the state and to impose user fees or tolls within the designated area to allow a reasonable rate of return on investment, as established through a negotiated agreement between the state and the private entity. The negotiated agreement shall determine a maximum rate of return on investment, based on project characteristics. If the negotiated rate of return on investment is not affected, the private entity may establish and modify toll rates and user fees.

Agreements may establish "incentive" rates of return beyond the negotiated maximum rate of return on investment. The incentive rates of return shall be designed to provide financial benefits to the affected public jurisdictions and the private entity, given the attainment of various safety, performance, or transportation demand management goals. The incentive rates of return shall be negotiated in the agreement.

Agreements shall require that over the term of the ownership or lease the user fees or toll revenues be applied to payment of the private entity's capital outlay costs for the project, including interest expense, the costs associated with operations, toll collection, maintenance and administration of the facility, reimbursement to the state for the costs of project review and oversight, technical and law enforcement services, establishment of a fund to assure the adequacy of maintenance expenditures, and a reasonable return on investment to the private entity. The use of any excess toll revenues or user fees may be negotiated between the parties.

After expiration of the lease of a facility to a private entity, the secretary may continue to charge user fees or tolls for the use of the facility, with these revenues to be used for operations and maintenance of the facility, or to be paid to the local transportation planning agency, or any combination of such uses.

NEW SECTION. Sec. 8. Sections 3 through 7 of this act shall be submitted to the people for their adoption and ratification, or rejection, at the next succeeding general election to be held in this state, in accordance with Article II, section 1 of the state Constitution, as amended, and the laws adopted to facilitate the operation thereof. The ballot title for this referendum measure is as follows:

"Shall the state supplement state revenue by authorizing private sector financing for the construction of unfunded transportation systems and facilities through user fees or tolls?"

NEW SECTION. Sec. 9. Sections 3 through 7 of this act are each added to chapter 47.46 RCW."

Fix the title accordingly.

Representative R. Fisher spoke in favor of the adoption of the amendment.

Representative Robertson spoke against the adoption of the amendment.

The amendment was not adopted.

Representative Robertson moved adoption of the following amendment by Representative Robertson:

Strike everything after the enacting clause and insert the following:

"**Sec. 1.** RCW 47.46.010 and 1993 c 370 s 1 are each amended to read as follows:

The legislature finds and declares:

It is essential for the economic, social, and environmental well-being of the state and the maintenance of a high quality of life that the people of the state have an efficient transportation system.

The ability of the state to provide an efficient transportation system will be enhanced by a public-private sector program providing for private entities to undertake all or a portion of the study, planning, design, development, financing, acquisition, installation, construction or improvement, operation, and maintenance of transportation systems and facility projects.

A public-private initiatives program will provide benefits to both the public and private sectors. Public-private initiatives provide a sound economic investment opportunity for the private sector. Such initiatives will provide the state with increased access to property development and

project opportunities, financial and development expertise, and will supplement state transportation revenues, allowing the state to use its limited resources for other needed projects.

The public-private initiatives program, to the fullest extent possible, should encourage and promote business and employment opportunities for Washington state citizens.

The public-private initiatives program should be implemented in cooperation and consultation with affected local jurisdictions.

The secretary of transportation should be permitted and encouraged to test the feasibility of building privately funded transportation systems and facilities or segments thereof through the use of innovative agreements with the private sector. The secretary of transportation should be vested with the authority to solicit, evaluate, negotiate, and administer public-private agreements with the private sector relating to the planning, construction, upgrading, or reconstruction of transportation systems and facilities.

Agreements negotiated under a public-private initiatives program will not bestow on private entities an immediate right to construct and operate the proposed transportation facilities. Rather, agreements will grant to private entities the opportunity to design the proposed facilities, demonstrate public support for proposed facilities, and complete the planning processes required in order to obtain a future decision by the department of transportation and other state and local lead agencies on whether the facilities should be permitted and built.

Agreements negotiated under the public-private initiative's program should establish the conditions under which the private developer may secure the approval necessary to develop and operate the proposed transportation facilities; create a framework to attract the private capital necessary to finance their development; and ensure that the transportation facilities will be designed, constructed, and operated in accordance with applicable local, regional, state, and federal laws and the applicable standards and policies of the department of transportation.

The legislature finds that the Puget Sound congestion pricing project, selected under this chapter, raises major transportation policy, economic, and equity concerns. These relate to the integrity of the state's high-occupancy vehicle program; the cost-effective movement of freight and goods; the diversion of traffic to local streets and arterials; and possible financial hardship to commuters. The legislature further finds that these potential economic and social impacts require comprehensive legislative review prior to advancement of the project and directs that the secretary not proceed with the implementation of the project without prior approval of the legislature.

The department of transportation should be encouraged to take advantage of new opportunities provided by federal legislation under section 1012 of the Intermodal Surface Transportation Efficiency Act of 1991 (ISTEA). That section establishes a new program authorizing federal participation in construction or improvement or improvement of publicly or privately owned toll roads, bridges, and tunnels, and allows states to leverage available federal funds as a means for attracting private sector capital.

Sec. 2. RCW 47.46.030 and 1993 c 370 s 3 are each amended to read as follows:

(1) The secretary or a designee shall solicit proposals from, and negotiate and enter into agreements with, private entities to undertake as appropriate, together with the department and other public entities, all or a portion of the study, planning, design, construction, operation, and maintenance of transportation systems and facilities, using in whole or in part private sources of financing.

The public-private initiative program may develop up to six demonstration projects. Each proposal shall be weighed on its own merits, and each of the six agreements shall be negotiated individually, and as a stand-alone project. ~~((The commission shall approve each of the selected projects.~~

~~Proposals and demonstration projects may be selected by the public and private sectors at their discretion. All projects designed, constructed, and operated under this authority must comply with all applicable rules and statutes in existence at the time the agreement is executed, including but not limited to the following provisions: Chapter 39.12 RCW, this title, RCW 41.06.380, chapter 47.64 RCW, RCW 49.60.180, and 49 C.F.R. Part 21.~~

~~The secretary or a designee shall consult with legal, financial, and other experts within and outside state government in the negotiation and development of the agreements.)~~ (2) If projects selected prior to September 1, 1994, are terminated by the public or private sectors, no other projects shall be selected as replacement projects until the department develops a public involvement process to identify prospective projects.

The public involvement process for replacement projects shall, at a minimum, identify projects that: (a) Have the potential of achieving overall public support among users of the projects, residents of communities in the vicinity of the projects, and residents of communities impacted by the projects; (b) meet a state transportation need; (c) provide a significant state benefit; and (d) have the capability of receiving more than one proposal from private entities to ensure greater competition among proposers and maximum cost benefits to users. Prospective projects may include projects identified by the department or submitted by the private sector.

The department shall develop a public involvement plan for identifying replacement projects and the cost of the plan by January 1, 1997, and shall submit the plan to the legislative transportation committee for review. Project selections for replacement projects made after September 1, 1994, shall be carried out utilizing the public involvement process developed by the department and reviewed by the legislative transportation committee. Projects that meet the criteria established under this section shall be submitted for review by the Washington state transportation commission. The commission shall submit a list of eligible projects to the legislative transportation committee for its consideration. If within forty-five calendar days of submission the legislative transportation committee has not adopted a resolution recommending that the secretary reject an eligible project, the secretary is authorized to solicit proposals for the eligible project.

(3) The department shall require projects selected by the department prior to and after September 1, 1994, except as provided for in subsection (12) of this section, to comply with the requirements of subsections (4) through (11) of this section.

(4) Prior to entering into agreements with private entities under the requirements of RCW 47.46.040 for any project selected before or after September 1, 1994, except as provided for in subsection (12) of this section, the department shall require an advisory vote as mandated under subsections (5) through (11) of this section.

(5)(a) Prior to conducting the advisory vote, the department shall establish a committee comprised of individuals who represent cities and counties in the vicinity of the project; organizations formed to support or oppose the project; and users of the project. The committee shall be named the public-private local involvement committee, and be known as the local involvement committee.

(b) The members of the local involvement committee shall be: (i) An elected official from each city within the county or counties in which the project is located; (ii) an elected official from each county in which the project is located; (iii) two persons from each county in which the project is located who represent an organization formed in support of the project, if the organization exists; (iv) two persons from each county in which the project is located who represent an organization formed to oppose the project, if the organization exists; and (v) two public members active in a state-wide transportation organization. If the committee makeup results in an even number of committee members, there shall be an additional appointment of an elected official from the county in which all, or the greatest portion of the project is located.

(c) City and county elected officials shall be appointed by a majority of the members of the city and county legislative authorities of each city and county in which the project is located. The county legislative authority of each county in which the project is located shall identify and validate organizations officially formed in support of or in opposition to the project and shall make the appointments required under this section from a list submitted by the chair of the organizations. Public members shall be appointed by the governor. All appointments to the local involvement committee shall be made and submitted to the department of transportation no later than August 1, 1995. Vacancies in the membership of the local involvement committee shall be filled by the appointing authority under (b) of this subsection for each position on the committee.

(6) In preparing for the advisory vote the department and the local involvement committee shall conduct a comprehensive analysis of traffic patterns and economic impact to determine and define the geographical boundary of the project area that is most affected by the imposition of tolls or user fees authorized under this chapter. The area so defined is referred to in this section as the affected project area. In defining the affected project area, the department and the local involvement committee shall, at a minimum, undertake: (a) A comparison of the estimated percentage of residents of communities in the vicinity of and impacted by the project who could be subject to tolls or user fees and the estimated percentage of other users and transient traffic that could be subject to tolls or user fees; (b) an analysis of the anticipated traffic diversion patterns; (c) an analysis of the potential economic impact resulting from proposed toll rates or user fee rates imposed on residents, commercial traffic, and commercial entities in communities in the vicinity of and impacted by the project; (d) an analysis of the economic

impact of tolls or user fees on the price of goods and services generally; and (e) an analysis of the relationship of the project to state transportation needs and benefits.

(7) After a determination and definition by the department and the local involvement committee of the affected project area, the department and the local involvement committee shall conduct a minimum thirty-day public comment period. The department and the local involvement committee may make adjustments to the definition of the geographical boundary of the affected project area, based on comments received from the public. Within fourteen calendar days after the public comment period, the department and the local involvement committee shall establish the boundaries of the affected project area in units no smaller than a precinct as defined in RCW 29.01.120.

If after establishing the boundaries of the affected project area, the department and the local involvement committee determine that the membership of the local involvement committee requires modification, the department and the committee shall submit recommendations for modification to the legislative transportation committee for consideration by the house of representatives and senate transportation committees during the next succeeding legislative session.

(8) The department and the local involvement committee shall develop a project description for selected projects, using project proposals submitted as a result of solicitations by the department for proposals, technical evaluations of project proposals, and any other salient information. After developing the project description, the department and the local involvement committee shall conduct a thirty-day public comment period. The department and the local involvement committee may make adjustments to the project description based on comments received from the public. Within fourteen calendar days after the public comment period, the department and the local involvement committee shall transmit a copy of the map depicting the affected project area and the project description and characteristics to the county auditor of the county in which any portion of the affected project area, as defined by the department and the local involvement committee, is located.

(9) The department and the local involvement committee shall provide the legislative transportation committee with progress reports on the status of the definition of the affected project area and project description and characteristics.

(10) Upon receipt of the map and the project description and characteristics, the county auditor shall, within sixty days, verify the precincts that are located within the affected project area. The county auditor shall prepare the text identifying and describing the affected project area and the project and shall set an election date for the submission of a ballot proposition authorizing the imposition of tolls or user fees to implement the proposed project within the affected project area, which date may be the next succeeding general election to be held in the state, or at a special election, if requested by the department. The text of the project must appear in a voter's pamphlet for the affected project area. The department shall pay the costs of publication and distribution. The special election date must be the next date for a special election provided under RCW 29.13.020 that is at least sixty days but, if authorized under RCW 29.13.020, no more than ninety days after the receipt of the final map and project description and characteristics by the auditor. The department shall pay the cost of an election held under this section.

(11) The department and the local involvement committee shall submit the results of the advisory vote on any project selected under this chapter, along with any other pertinent information, to the legislative transportation committee within seven calendar days of certification of the vote. No later than thirty days prior to the next legislative session, the legislative transportation committee shall adopt a resolution making a recommendation to the department regarding the disposition of the project proposals.

(12) Subsections (5) through (11) of this section shall not apply to projects selected prior to September 1, 1994, that have no organized public opposition as demonstrated by the submission to the department of petitions bearing at least five thousand signatures opposing the project, collected after September 1, 1994, and by thirty calendar days after the effective date of this act.

Sec. 3. RCW 47.46.040 and 1993 c 370 s 4 are each amended to read as follows:

(1) All projects designed, constructed, and operated under this authority must comply with all applicable rules and statutes in existence at the time the agreement is executed, including but not limited to the following provisions: Chapter 39.12 RCW, this title, RCW 41.06.380, chapter 47.64 RCW, RCW 49.60.180, and 49 C.F.R. Part 21.

(2) The secretary or a designee shall consult with legal, financial, and other experts within and outside state government in the negotiation and development of the agreements.

(3) Agreements shall provide for private ownership of the projects during the construction period. After completion and final acceptance of each project or discrete segment thereof, the agreement shall provide for state ownership of the transportation systems and facilities and lease to the private entity unless the state elects to provide for ownership of the facility by the private entity during the term of the agreement.

The state shall lease each of the demonstration projects, or applicable project segments, to the private entities for operating purposes for up to fifty years.

(4) The department may exercise any power possessed by it to facilitate the development, construction, financing operation, and maintenance of transportation projects under this chapter. Agreements for maintenance services entered into under this section shall provide for full reimbursement for services rendered by the department or other state agencies. ~~Agreements for police services for projects, involving state highway routes, developed under ((the agreement may))~~ agreements shall be entered into with ((any qualified law enforcement agency, and shall provide for full reimbursement for services rendered by that agency)) the Washington state patrol. The agreement for police services shall provide that the state patrol will be reimbursed for costs on a comparable basis with the costs incurred for comparable service on other state highway routes. The department may provide services for which it is reimbursed, including but not limited to preliminary planning, environmental certification, and preliminary design of the demonstration projects.

(5) The plans and specifications for each project constructed under this section shall comply with the department's standards for state projects. A facility constructed by and leased to a private entity is deemed to be a part of the state highway system for purposes of identification, maintenance, and enforcement of traffic laws and for the purposes of applicable sections of this title. Upon reversion of the facility to the state, the project must meet all applicable state standards. Agreements shall address responsibility for reconstruction or renovations that are required in order for a facility to meet all applicable state standards upon reversion of the facility to the state.

(6) For the purpose of facilitating these projects and to assist the private entity in the financing, development, construction, and operation of the transportation systems and facilities, the agreements may include provisions for the department to exercise its authority, including the lease of facilities, rights of way, and airspace, exercise of the power of eminent domain, granting of development rights and opportunities, granting of necessary easements and rights of access, issuance of permits and other authorizations, protection from competition, remedies in the event of default of either of the parties, granting of contractual and real property rights, liability during construction and the term of the lease, authority to negotiate acquisition of rights of way in excess of appraised value, and any other provision deemed necessary by the secretary.

(7) The agreements entered into under this section may include provisions authorizing the state to grant necessary easements and lease to a private entity existing rights of way or rights of way subsequently acquired with public or private financing. The agreements may also include provisions to lease to the entity airspace above or below the right of way associated or to be associated with the private entity's transportation facility. In consideration for the reversion rights in these privately constructed facilities, the department may negotiate a charge for the lease of airspace rights during the term of the agreement for a period not to exceed fifty years. If, after the expiration of this period, the department continues to lease these airspace rights to the private entity, it shall do so only at fair market value. The agreement may also provide the private entity the right of first refusal to undertake projects utilizing airspace owned by the state in the vicinity of the public-private project.

(8) Agreements under this section may include any contractual provision that is necessary to protect the project revenues required to repay the costs incurred to study, plan, design, finance, acquire, build, install, operate, enforce laws, and maintain toll highways, bridges, and tunnels and which will not unreasonably inhibit or prohibit the development of additional public transportation systems and facilities. Agreements under this section must secure and maintain liability insurance coverage in amounts appropriate to protect the project's viability and may address state indemnification of the private entity for design and construction liability where the state has approved relevant design and construction plans.

(9) Agreements shall include a process that provides for public involvement in decision making with respect to the development of the projects.

(10)(a) In carrying out the public involvement process required in subsection (9) of this section, the private entity shall proactively seek public participation through a process appropriate to the characteristics of the project that assesses and demonstrates overall public support among: Users of the

project, residents of communities in the vicinity of the project, and residents of communities impacted by the project. The public involvement process shall provide opportunities for users and residents to comment upon key issues regarding the project including, but not limited to: (i) Alternative sizes and scopes; (ii) design; (iii) environmental assessment; (iv) right of way and access plans; (v) traffic impacts; (vi) tolling or user fee strategies and tolling or user fee ranges; (vii) project cost; (viii) construction impacts; (ix) facility operation; and (x) any other salient characteristics.

(b) The private entity shall cause to be conducted on one or more occasions, a comprehensive inventory of public positions of users and of residents of communities in the affected project area. If the affected project area has not been defined, the private entity shall define the affected project area by conducting, at a minimum: (i) A comparison of the estimated percentage of residents of communities in the vicinity of and impacted by the project who could be subject to tolls or user fees and the estimated percentage of other users and transient traffic that could be subject to tolls or user fees; (ii) an analysis of the anticipated traffic diversion patterns; (iii) an analysis of the potential economic impact resulting from proposed toll rates or user fee rates imposed on residents, commercial traffic, and commercial entities in communities in the vicinity of and impacted by the project; (iv) an analysis of the economic impact of tolls or user fees on the price of goods and services generally; and (v) an analysis of the relationship of the project to state transportation needs and benefits.

The agreement may require an advisory vote by users of and residents in the affected project area under the terms and conditions established for the vote in RCW 47.46.030(5) through (10), except that the private entity shall pay all costs associated with the advisory vote.

The comprehensive inventory of public positions shall be conducted by an independent accountant or other independent professional jointly selected and supervised by the private entity and the department in consultation with the local involvement committee and the legislative transportation committee. The independent accountant or other independent professional must have a proven history and expertise in assessing public opinion and shall not have a direct or indirect interest in such project. The results of the inventory of public positions shall be made available for public review and comment.

(c) In seeking public participation, the private entity shall involve the local involvement committee established under RCW 47.46.030. If no local involvement committee has been established for the project prior to entering into the agreement, the private entity shall, at a minimum, establish the committee as required under the specifications of RCW 47.46.030(5) (b) and (c). Additions to the committee may be made as a result of defining the affected project area as required under subsection (10)(b) of this section.

(d) The local involvement committee shall act in an advisory capacity to the department and the private entity on all issues related to the development and implementation of the public involvement process established under this section.

(e) The department and the private entity shall provide the legislative transportation committee and the local involvement committee with progress reports on the status of the public involvement process and the inventory of public positions. The results of the inventory of public positions, including public comment on such inventory of public positions, shall be forwarded to the legislative transportation committee and the local involvement committee for their review.

(11) Nothing in this chapter limits the right of the secretary and his or her agents to render such advice and to make such recommendations as they deem to be in the best interests of the state and the public.

Sec. 4. RCW 47.46.050 and 1993 c 370 s 5 are each amended to read as follows:

(1) The department may enter into agreements using federal, state, and local financing in connection with the projects, including without limitation, grants, loans, and other measures authorized by section 1012 of ISTEA, and to do such things as necessary and desirable to maximize the funding and financing, including the formation of a revolving loan fund to implement this section.

(2) Agreements entered into under this section shall authorize the private entity to lease the facilities within a designated area or areas from the state and to impose user fees or tolls within the designated area to allow a reasonable rate of return on investment, as established through a negotiated agreement between the state and the private entity. The negotiated agreement shall determine a maximum rate of return on investment, based on project characteristics. If the negotiated rate of return on investment is not affected, the private entity may establish and modify toll rates and user fees.

(3) Agreements may establish "incentive" rates of return beyond the negotiated maximum rate of return on investment. The incentive rates of return shall be designed to provide financial benefits to

the affected public jurisdictions and the private entity, given the attainment of various safety, performance, or transportation demand management goals. The incentive rates of return shall be negotiated in the agreement.

(4) Agreements shall require that over the term of the ownership or lease the user fees or toll revenues be applied only to payment of the private entity's capital outlay costs for the project, including project development costs, interest expense, the costs associated with design, construction, operations, toll collection, maintenance and administration of the ((facility)) project, reimbursement to the state for all costs associated with an election as required under RCW 47.46.030, the costs of project review and oversight, technical and law enforcement services, establishment of a fund to assure the adequacy of maintenance expenditures, and a reasonable return on investment to the private entity. ~~((The use of any excess toll revenues or user fees may be negotiated between the parties.~~

~~After expiration of the lease of a facility to a private entity, the secretary may continue to charge user fees or tolls for the use of the facility, with these revenues to be used for operations and maintenance of the facility, or to be paid to the local transportation planning agency, or any combination of such uses.))~~ A negotiated agreement shall not extend the term of the ownership or lease beyond the period of time required for payment of the private entity's capital outlay costs for the project under this subsection.

NEW SECTION. Sec. 5. This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and shall take effect immediately."

On page 1, line 1 of the title, after "facilities;" strike the remainder of the title and insert "amending RCW 47.46.010, 47.46.030, 47.46.040, and 47.46.050; and declaring an emergency."

ENGROSSED SECOND SUBSTITUTE HOUSE BILL NO. 2010, by House Committee on Appropriations (originally sponsored by Representatives Ballasiotes, Quall, Sherstad, Chandler, Schoesler, Radcliff and Blanton)

Revising corrections provisions.

Second Substitute House Bill No. 2010 was read the second time.

Representative Ballasiotes moved adoption of the following amendment by Representative Ballasiotes:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature finds the increasing number of inmates incarcerated in state correctional institutions, and the expenses associated with their incarceration, require expanded efforts to contain corrections costs. Cost containment requires improved planning and oversight, and increased accountability and responsibility on the part of inmates and the department.

The legislature further finds motivating inmates to participate in meaningful education and work programs in order to learn transferable skills and earn basic privileges is an effective and efficient way to meet the pedological objectives of the corrections system.

The purpose of this act is to assure that the department fulfills its mission to reduce offender recidivism, to mirror the values of the community by clearly linking inmate behavior to receipt of privileges, and to prudently manage the resources it receives through tax dollars. This purpose is accomplished through the implementation of specific cost-control measures and creation of a planning and oversight process that will improve the department's effectiveness and efficiencies.

Sec. 2. RCW 72.09.010 and 1981 c 136 s 2 are each amended to read as follows:

It is the intent of the legislature to establish a comprehensive system of corrections for convicted law violators within the state of Washington to accomplish the following objectives.

(1) The system should ensure the public safety. The system should be designed and managed to provide the maximum feasible safety for the persons and property of the general public, the staff, and the inmates.

(2) The system should punish the offender for violating the laws of the state of Washington. This punishment should generally be limited to the denial of liberty of the offender.

(3) The system should positively impact offenders by stressing personal responsibility and accountability and by discouraging recidivism.

(4) The system should treat all offenders fairly and equitably without regard to race, religion, sex, national origin, residence, or social condition.

~~((4))~~ (5) The system, as much as possible, should reflect the values of the community including:

(a) Avoiding idleness. Idleness is not only wasteful but destructive to the individual and to the community.

(b) Adoption of the work ethic. It is the community expectation that all ~~((citizens))~~ individuals should work and through their efforts benefit both themselves and the community.

(c) Providing opportunities for self improvement. All individuals should have opportunities to grow and expand their skills and abilities so as to fulfill their role in the community.

~~((Providing tangible rewards for accomplishment.))~~ Linking the receipt or denial of privileges to responsible behavior and accomplishments. The individual who works to improve himself or herself and the community should be rewarded for these efforts. As a corollary, there should be no rewards for no effort.

(e) Sharing in the obligations of the community. All citizens, the public and inmates alike, have a personal and fiscal obligation in the corrections system. All communities must share in the responsibility of the corrections system.

~~((5))~~ (6) The system should provide for prudent management of resources. The avoidance of unnecessary or inefficient public expenditures on the part of offenders and the department is essential. Offenders must be accountable to the department, and the department to the public and the legislature. The human and fiscal resources of the community are limited. The management and use of these resources can be enhanced by wise investment, productive programs, the reduction of duplication and waste, and the joining together of all involved parties in a common endeavor. Since ~~((virtually all))~~ most offenders return to the community, it is wise for the state and the communities to make an investment in effective rehabilitation programs for offenders and the wise use of resources.

~~((6))~~ (7) The system should provide for restitution. Those who have damaged others, persons or property, have a responsibility to make restitution for these damages.

~~((7))~~ (8) The system should be accountable to the citizens of the state. In return, the individual citizens and local units of government must meet their responsibilities to make the corrections system effective.

~~((8))~~ (9) The system should meet those national standards which the state determines to be appropriate.

Sec. 3. RCW 72.09.015 and 1987 c 312 s 2 are each amended to read as follows:

The definitions in this section apply throughout this chapter.

NEW SECTION. Sec. 4. A new section is added to chapter 72.09 RCW to read as follows:

(1) An inmate shall not be denied access to services or supplies required by state or federal law solely on the basis of his or her inability to pay for them.

(2) The department shall record all lawfully authorized assessments for services or supplies as a debt to the department and shall recoup the assessments when the inmate's institutional account exceeds the indigency standard.

NEW SECTION. Sec. 5. A new section is added to chapter 72.09 RCW to read as follows:

(1) The legislature intends that all inmates be required to participate in department-approved education programs, work programs, or both, unless exempted under subsection (3) of this section. Eligible inmates who refuse to participate in available education or work programs available at no charge to the inmates shall lose privileges according to the system established under RCW 72.09.130. Eligible inmates who are required to contribute financially to an education or work program and refuse to contribute shall be placed in another work program. Refusal to contribute shall not result in a loss of privileges. The legislature recognizes more inmates may agree to participate in education and work programs than are available. The department must make every effort to achieve maximum public benefit by placing inmates in available and appropriate education and work programs.

(2) The department shall, to the extent possible and considering all available funds, prioritized its resources to meet the following goals for inmates in the order listed:

(a) Achievement of basic academic skills through obtaining a high school diploma or its equivalent and achievement of vocational skills necessary for purposes of work programs and for an inmate to qualify for work upon release;

(b) Additional work and education programs based on assessments and placements under subsection (4) of this section; and

(c) Other work and education programs as appropriate.

(3) The department shall establish, by rule, objective medical standards to determine when an inmate is physically or mentally unable to participate in available education or work programs. When the department determines an inmate is permanently unable to participate in any available education or work program due to a medical condition, the inmate is exempt from the requirement under subsection (1) of this section. When the department determines an inmate is temporarily unable to participate in an education or work program due to a medical condition, the inmate is exempt from the requirement of subsection (1) of this section for the period of time he or she is temporarily disabled. The department shall periodically review the medical condition of all temporarily disabled inmates to ensure the earliest possible entry or reentry by inmates into available programming.

(4) The department shall establish, by rule, standards for participation in department-approved education and work programs. The standards shall address the following areas:

(a) Assessment. The department shall assess all inmates for their basic academic skill levels using a professionally accepted method of scoring reading, math, and language skills as grade level equivalents. The department shall determine an inmate's education history, work history, and vocational or work skills. The initial assessment shall be conducted, whenever possible, within the

first thirty days of an inmate's entry into the correctional system, except that initial assessments are not required for inmates who are sentenced to life without the possibility of release, assigned to an intensive management unit within the first thirty days after entry into the correctional system, are returning to the correctional system within one year of a prior release, or whose physical or mental condition renders them unable to complete the assessment process. The department shall track and record changes in the basic academic skill levels of all inmates reflected in any testing or assessment performed as part of their education programming;

(b) Placement. The department shall follow the policies set forth in subsection (1) of this section in establishing criteria for placing inmates in education and work programs. The department shall, to the extent possible, place all inmates whose composite grade level score for basic academic skills is below the eighth grade level in a combined education and work program. The placement criteria shall include at least the following factors:

(i) An inmate's release date and custody level, except an inmate shall not be precluded from participating in an education or work program solely on the basis of his or her release date;

(ii) An inmate's education history and basic academic skills;

(iii) An inmate's work history and vocational or work skills;

(iv) An inmate's economic circumstances, including but not limited to an inmate's family support obligations; and

(v) Where applicable, an inmate's prior performance in department-approved education or work programs;

(c) Performance and goals. The department shall establish, and periodically review, inmate behavior standards and program goals for all education and work programs. Inmates shall be notified of applicable behavior standards and program goals prior to placement in an education or work program and shall be removed from the education or work program if they consistently fail to meet the standards or goals;

(d) Financial responsibility. (i) The department shall establish a formula by which inmates, based on their ability to pay, shall pay all or a portion of the costs or tuition of certain programs. Inmates shall, based on the formula, pay a portion of the costs or tuition of participation in:

(A) Second and subsequent vocational programs associated with an inmate's work programs; and

(B) An associate of arts or baccalaureate degree program when placement in a degree program is the result of a placement made under this subsection;

(ii) Inmates shall pay all costs and tuition for participation in:

(A) Any postsecondary academic degree program which is entered independently of a placement decision made under this subsection; and

(B) Second and subsequent vocational programs not associated with an inmate's work program.

Enrollment in any program specified in (d)(ii) of this subsection shall only be allowed by correspondence or if there is an opening in an education or work program at the institution where an inmate is incarcerated and no other inmate who is placed in a program under this subsection will be displaced; and

(e) Notwithstanding any other provision in this section, an inmate sentenced to life without the possibility of release:

(i) Shall not be required to participate in education programming; and

(ii) May receive not more than one postsecondary academic degree in a program offered by the department or its contracted providers.

If an inmate sentenced to life without the possibility of release requires prevocational or vocational training for a work program, he or she may participate in the training subject to this section.

(5) The department shall coordinate education and work programs among its institutions, to the greatest extent possible, to facilitate continuity of programming among inmates transferred between institutions. Before transferring an inmate enrolled in a program, the department shall consider the effect the transfer will have on the inmate's ability to continue or complete a program. This subsection shall not be used to delay or prohibit a transfer necessary for legitimate safety or security concerns.

(6) Before construction of a new correctional institution or expansion of an existing correctional institution, the department shall adopt a plan demonstrating how cable, closed-circuit, and satellite television will be used for education and training purposes in the institution. The plan shall specify how the use of television in the education and training programs will improve inmates' preparedness for available work programs and job opportunities for which inmates may qualify upon release.

(7) The department shall adopt a plan to reduce the per-pupil cost of instruction by, among other methods, increasing the use of volunteer instructors and implementing technological efficiencies. The plan shall be adopted by December 1996 and shall be transmitted to the legislature upon adoption. The department shall, in adoption of the plan, consider distance learning, satellite instruction, video tape usage, computer-aided instruction, and flexible scheduling of offender instruction.

(8) Following completion of the review required by section 27(3) of this act the department shall take all necessary steps to assure the vocation and education programs are relevant to work programs and skills necessary to enhance the employability of inmates upon release.

Sec. 6. RCW 72.09.130 and 1981 c 136 s 17 are each amended to read as follows:

(1) The department shall adopt, by rule, a system (~~(providing incentives for good conduct and disincentives for poor conduct)~~) that clearly links an inmate's behavior and participation in available education and work programs with the receipt or denial of earned early release days and other privileges. The system (~~(may)~~) shall include increases or decreases in the degree of liberty granted the inmate within the programs operated by the department, access to or withholding of privileges available within correctional institutions, and recommended increases or decreases in the number of earned early release days that an inmate can earn for good conduct and good performance.

(2) Earned early release days shall be recommended by the department as a (~~(form of tangible)~~) reward for accomplishment. The system shall be fair, measurable, and understandable to offenders, staff, and the public. At least once in each twelve-month period, the department shall inform the offender in writing as to his or her conduct and performance. This written evaluation shall include reasons for awarding or not awarding recommended earned early release days for good conduct and good performance. (~~(The term "good performance" as used in this section means successfully performing a work, work training, or educational task to levels of expectation as specified in writing by the department. The term "good conduct" as used in this section refers to compliance with department rules.~~

~~Within one year after July 1, 1981, the department shall adopt, and provide a written description of, the system.)~~ An inmate is not eligible to receive earned early release days during any time in which he or she refuses to participate in an available education or work program into which he or she has been placed under section 5 of this act.

If, based on the review, it is determined by the superintendent that the inmate poses a threat to the safety of others or the order of the facility, or otherwise does not meet requirements for the weight-lifting privilege, the superintendent may impose an additional reasonable restriction period.

NEW SECTION. Sec. 11. A new section is added to chapter 72.09 RCW to read as follows:

The rule shall protect the legitimate interests of the public and inmates in the exchange of ideas. The secretary shall establish a method of reviewing all incoming and outgoing material, consistent with constitutional constraints, for the purpose of confiscating anything determined to be contraband. The secretary shall consult regularly with the committee created under section 23 of this act on the development of the policy and implementation of the rule.

Upon granting the name change, the superior court shall seal the file if the court finds that the safety of the person seeking the name change or his or her child or ward warrants sealing the file. In all cases filed under this subsection, whether or not the name change petition is granted, there shall be no public access to any court record of the name change filing, proceeding, or order, unless the name change is granted but the file is not sealed.

NEW SECTION. Sec. 15. A new section is added to chapter 72.09 RCW to read as follows:

(3) As a condition of the suspended sentence, the court may order the probationer to report to the secretary of corrections or such officer as the secretary may designate and as a condition of the probation to follow the instructions of the secretary.

(4) If restitution to the victim has been ordered under subsection (2)(b) of this section and the court has ordered supervision, the officer supervising the probationer shall make a reasonable effort to

ascertain whether restitution has been made as ordered. If the court has ordered supervision and restitution has not been made, the officer shall inform the prosecutor of that violation of the terms of the suspended sentence not less than three months prior to the termination of the suspended sentence.

NEW SECTION. Sec. 31. A new section is added to chapter 9.95 RCW to read as follows:

(1) The Washington state law and justice advisory council, appointed under RCW 72.09.300(7), shall by October 1, 1995, develop proposed standards for the supervision of misdemeanor probationers sentenced by superior courts under RCW 9.92.060 or 9.95.210. In developing the standards, the council shall consider realistic current funding levels or reasonable expansions thereof, the recommendations of the department of corrections, county probation departments, superior and district court judges, and the misdemeanor corrections association. The supervision standards shall establish classifications of misdemeanor probationers based upon the seriousness of the offense, the perceived risks to the community, and other relevant factors. The standards may provide discretion to officials supervising misdemeanor probationers to adjust the supervision standards, for good cause, based upon individual circumstances surrounding the probationer. The supervision standards shall include provisions for reciprocal supervision of offenders who are sentenced in counties other than their counties of residence.

(2) The department of corrections shall report to the legislature by December 1, 1995, the estimated cost of fully implementing the proposed standards. The report shall rank by relative costs each of the elements of the proposed standards and shall identify the total daily supervision cost per offender. The report shall also include an accounting of the amount of supervision fees assessed and collected by the department under section 32 of this act.

NEW SECTION. Sec. 32. A new section is added to chapter 9.95 RCW to read as follows:

Whenever a defendant convicted of a misdemeanor or gross misdemeanor is placed on probation under RCW 9.92.060 or 9.95.210, and the defendant is supervised by the department of corrections, the department may assess and collect from the defendant for the duration of the term of supervision a monthly assessment not to exceed one hundred dollars per month. This assessment shall be paid to the department and shall be applied, along with funds appropriated by the legislature, toward the payment or part payment of the cost of supervising the defendant.

Sec. 33. RCW 72.09.100 and 1994 c 224 s 1 are each amended to read as follows:

It is the intent of the legislature to vest in the department the power to provide for a comprehensive inmate work program and to remove statutory and other restrictions which have limited work programs in the past. For purposes of establishing such a comprehensive program, the legislature recommends that the department consider adopting any or all, or any variation of, the following classes of work programs:

(1) **CLASS I: FREE VENTURE INDUSTRIES.** The employer model industries in this class shall be operated and managed in total or in part by any profit or nonprofit organization pursuant to an agreement between the organization and the department. The organization shall produce goods or services for sale to both the public and private sector.

The customer model industries in this class shall be operated and managed by the department to provide Washington state manufacturers or businesses with products or services currently produced or provided by out-of-state or foreign suppliers. The correctional industries board of directors shall review these proposed industries before the department contracts to provide such products or services. The review shall include an analysis of the potential impact of the proposed products and services on the Washington state business community and labor market.

The department of corrections shall supply appropriate security and custody services without charge to the participating firms.

Inmates who work in free venture industries shall do so at their own choice. They shall be paid a wage comparable to the wage paid for work of a similar nature in the locality in which the industry is located, as determined by the director of correctional industries. If the director cannot reasonably determine the comparable wage, then the pay shall not be less than the federal minimum wage.

An inmate who is employed in the class I program of correctional industries shall not be eligible for unemployment compensation benefits pursuant to any of the provisions of Title 50 RCW until released on parole or discharged.

(2) CLASS II: TAX REDUCTION INDUSTRIES. Industries in this class shall be state-owned and operated enterprises designed to reduce the costs for goods and services for tax-supported agencies and for nonprofit organizations. The industries selected for development within this class shall, as much as possible, match the available pool of inmate work skills and aptitudes with the work opportunities in the free community. The industries shall be closely patterned after private sector industries but with the objective of reducing public support costs rather than making a profit. The products and services of this industry, including purchased products and services necessary for a complete product line, may be sold to public agencies, to nonprofit organizations, and to private contractors when the goods purchased will be ultimately used by a public agency or a nonprofit organization. Clothing manufactured by an industry in this class may be donated to nonprofit organizations that provide clothing free of charge to low-income persons. Correctional industries products and services shall be reviewed by the correctional industries board of directors before offering such products and services for sale to private contractors. The board of directors shall conduct a yearly marketing review of the products and services offered under this subsection. Such review shall include an analysis of the potential impact of the proposed products and services on the Washington state business community. To avoid waste or spoilage and consequent loss to the state, when there is no public sector market for such goods, byproducts and surpluses of timber, agricultural, and animal husbandry enterprises may be sold to private persons, at private sale. Surplus byproducts and surpluses of timber, agricultural and animal husbandry enterprises that cannot be sold to public agencies or to private persons may be donated to nonprofit organizations. All sales of surplus products shall be carried out in accordance with rules prescribed by the secretary.

Security and custody services shall be provided without charge by the department of corrections.

Inmates working in this class of industries shall do so at their own choice and shall be paid for their work on a gratuity scale which shall not exceed the wage paid for work of a similar nature in the locality in which the industry is located and which is approved by the director of correctional industries.

Subject to approval of the correctional industries board, provisions of RCW 41.06.380 prohibiting contracting out work performed by classified employees shall not apply to contracts with Washington state businesses entered into by the department of corrections through class II industries.

(3) CLASS III: INSTITUTIONAL SUPPORT INDUSTRIES. Industries in this class shall be operated by the department of corrections. They shall be designed and managed to accomplish the following objectives:

(a) Whenever possible, to provide basic work training and experience so that the inmate will be able to qualify for better work both within correctional industries and the free community. It is not intended that an inmate's work within this class of industries should be his or her final and total work experience as an inmate.

(b) Whenever possible, to provide forty hours of work or work training per week.

(c) Whenever possible, to offset tax and other public support costs.

Supervising, management, and custody staff shall be employees of the department.

All able and eligible inmates who are assigned work and who are not working in other classes of industries shall work in this class.

Except for inmates who work in work training programs, inmates in this class shall be paid for their work in accordance with an inmate gratuity scale. The scale shall be adopted by the secretary of corrections.

(4) CLASS IV: COMMUNITY WORK INDUSTRIES. Industries in this class shall be operated by the department of corrections. They shall be designed and managed to provide services in the inmate's resident community at a reduced cost. The services shall be provided to public agencies, to persons who are poor or infirm, or to nonprofit organizations.

Inmates in this program shall reside in facilities owned by, contracted for, or licensed by the department of corrections. A unit of local government shall provide work supervision services without charge to the state and shall pay the inmate's wage.

The department of corrections shall reimburse participating units of local government for liability and workers compensation insurance costs.

Inmates who work in this class of industries shall do so at their own choice and shall receive a gratuity which shall not exceed the wage paid for work of a similar nature in the locality in which the industry is located.

(5) CLASS V: COMMUNITY SERVICE PROGRAMS. Programs in this class shall be subject to supervision by the department of corrections. The purpose of this class of industries is to enable an inmate, placed on community supervision, to work off all or part of a community service order as ordered by the sentencing court.

Employment shall be in a community service program operated by the state, local units of government, or a nonprofit agency.

To the extent that funds are specifically made available for such purposes, the department of corrections shall reimburse nonprofit agencies for workers compensation insurance costs.

NEW SECTION. Sec. 34. The legislature requires reductions in department of corrections staffing levels appropriated by the 1995-97 omnibus appropriations act be implemented so as to preserve the safe and orderly operation of the institutions, including the safety of staff, visitors, and inmates and to protect public safety. To accomplish this, the department shall target staff reductions in: (1) Exempt positions within the department's headquarters and division of prisons such as assistant secretaries, assistants to the secretary, superintendents, associate superintendents, and federal and state liaisons; and (2) management positions of lieutenant and above as classified by the department of personnel.

NEW SECTION. Sec. 35. A new section is added to chapter 72.09 RCW to read as follows: The ratio of recreational leader positions 2, 3, and 4 to average daily inmate population within the department shall be maintained as established pursuant to the 1995 omnibus appropriations act.

NEW SECTION. Sec. 36. RCW 72.09.020 and 1988 c 153 s 7 & 1981 c 136 s 7 are each repealed.

NEW SECTION. Sec. 37. This act shall be known as the department of corrections cost-efficiency and inmate responsibility omnibus act.

NEW SECTION. Sec. 38. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected.

NEW SECTION. Sec. 39. If specific funding for the purpose of this act, referencing this act by bill number, is not provided by June 30, 1995, in the omnibus appropriations act, this act shall be null and void.

NEW SECTION. Sec. 40. This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and shall take effect immediately."

But this in no way precludes an individual from choosing a different residential setting to achieve his or her desired quality of life.

(7) "Department" means the department of social and health services.

(8) "Home and community services" means assisted living services, enhanced adult residential care, adult residential care, adult family homes, in-home services, and other services administered by the aging and adult services administration of the department directly or through contract with area agencies on aging.

(2) In expanding home and community services, the department shall: (a) Take full advantage of federal funding available under Title XVIII and Title XIX of the federal social security act, including home health, adult day care, waiver options, and state plan services; and (b) be authorized to use funds available under its community options program entry system waiver granted under section 1915(c) of the federal social security act to expand the availability of in-home, adult residential care, adult family homes, enhanced adult residential care, and assisted living services. By June 30, 1997, the department shall undertake to reduce the nursing home medicaid census by at least one thousand six hundred by assisting individuals who would otherwise require nursing facility services to obtain services of their choice, including assisted living services, enhanced adult residential care, and other home and community services. If a resident, or his or her legal representative, objects to a discharge decision initiated by the department, the resident shall not be discharged if the resident has been assessed and determined to require nursing facility services. (c) The department may authorize a supplemental assisted living services rate for up to four years for facilities that convert from nursing home use and do not retain rights to the converted nursing home beds under chapter 70.38 RCW, if the department determines that payment of a supplemental rate is cost-effective and necessary to foster expansion of contracted assisted living services.

~~(b)) The legislature finds the intent of the 1989 legislature to reform statutory provisions of long-term care for persons of all ages with chronic functional disability, although not enacted, continues to be applicable. The need to streamline the current bureaucratic fragmentation of chronic health services for the person with functional disabilities and facilitate the development of client centered, accessible, high quality, cost-effective, and appropriate long-term care services options for persons with functional disabilities is even more pressing today. The legislature further finds that if we are going to meet the significant and growing chronic care needs in the next two decades, rapid fundamental changes will need to take place in the way we finance, organize, and provide long-term care services to the functionally disabled. The public demands, and it is the intent of the legislature to reduce the cost and size of government and provide efficient and effective public service to the persons most impaired by chronic functional disability.~~

~~To realize the need for a cost-effective, uniform, and fully integrated long-term care system while simultaneously reducing the size and cost of government, the legislative budget committee, in coordination with the Washington health care policy board, shall develop a working plan for long-term care reform, including recommendations and statutory changes, by December 12, 1995, to accomplish the following:~~

~~(2) Implement a streamlined client centered administrative and delivery system for long-term care services state-wide that incorporates all long-term care services for the person with functional disabilities to include the functionally disabled, developmentally disabled, mentally ill, traumatically brain injured, and others with chronic functional disabilities. The system shall be a single point entry system administered at the local level that allows the person with functional disabilities to obtain needs determination, eligibility screening, priority setting, and services information and assistance. The system shall be designed so that acute health care services are effectively coordinated with long-term care services. The system shall recognize and respect the individuality and dignity of all functionally disabled individuals and promote self-reliance and the preference for the assistance and comfort provided by families, friends, and community volunteers. It shall also recognize the importance of community organizations and the public and private infrastructure in the delivery of care and support. All major points of access into the long-term care system shall be identified and integrated into the system to insure that clients are fully informed of the most appropriate least expensive care options;~~

~~(3) Provision of long-term care services to persons based on their functional disabilities noncategorically and in the most independent living situation consistent with the person's needs and preferences;~~

~~((e))~~ (4) A consistent definition of appropriate roles and responsibilities for state and local government, regional organizations, and private organizations in the planning, administration, financing, and delivery of long-term care services;

~~((d))~~ (5) Technical assistance to enable local communities to have greater participation and control in the planning, administration, and provision of long-term care services;

~~((e))~~ (6) A case management system that coordinates an appropriate and cost-effective plan of care and services for eligible functionally disabled persons based on their individual needs and preferences;

~~((f))~~ (7) A sufficient supply of quality institutional and noninstitutional residential alternatives for functionally disabled persons, and supports for the providers of such services;

~~((g))~~ (8) Public and private alternative funding for long-term care services, ~~((such as federal Title XIX funding of personal care services through the limited casualty program for the medically needy and other optional services))~~ that includes the promotion of affordable stand alone long-term care insurance options or as part of overall health care insurance benefits, a uniform fee copayment scale for client participation in state-funded, long-term care programs, and private, long-term care insurance;

~~((h))~~ (9) A systematic and balanced long-term care services payment and reimbursement system, including a case mix nursing home reimbursement, that will provide access to needed services while controlling the rate of cost increases for such services;

~~((i))~~ (10) Active involvement of volunteers and advocacy groups;

~~((j))~~ (11) An integrated data base that provides long-term care client tracking;

~~((k))~~ (12) A coordinated education system for long-term care to insure client safety and quality of services; ~~(and~~

~~((l))~~ (13) Administratively separate the nonmeans tested economic and social welfare and advocacy programs of the older Americans act, 42 U.S.C. Chap 35 and 45 C.F.R. 1321 et seq. from the need and means tested programs for persons with functional disabilities;

(14) Review all activities mandated and expenditures authorized by the senior citizens services act, chapter 74.38 RCW; and identify which funds are being used for functionally disabled seniors and identify how these senior citizens services act funds can be directed to programs serving the most disabled elderly; and

The department shall not provide chore services to any individual who is eligible for, and whose needs can be met by another community service administered by the department. It is the policy of the state to encourage the development of volunteer chore services in local communities as a means of meeting chore care service needs and directing financial resources. In determining eligibility for chore services, the department shall consider the following:

- (1) The kind of services needed;
- (2) The degree of service need, and the extent to which an individual is dependent upon such services to remain in his or her home or return to his or her home;
- (3) The availability of personal or community resources which may be utilized to meet the individual's need; and
- (4) Such other factors as the department considers necessary to insure service is provided only to those persons whose chore service needs cannot be met by relatives, friends, nonprofit organizations, ~~((or))~~ other persons, or by other programs or resources.

In determining the level of services to be provided under this chapter, ~~((the))~~ the client shall be assessed using an instrument designed by the department to determine the level of functional disability, the need for service and the person's risk of long-term care facility placement.

NEW SECTION. **Sec. 37.** A new section is added to chapter 74.39A RCW to read as follows:

The department shall by regulation define the type of records and the information required to be included in the records to be retained and preserved under this section; which records may be retained in photographic form pursuant to chapter 5.46 RCW.

NEW SECTION. Sec. 45. A new section is added to chapter 18.88A RCW to read as follows:

The legislature recognizes that nurses have been successfully delegating nursing care tasks to family members and auxiliary staff for many years. The opportunity for a nurse to delegate to nursing assistants qualifying under section 46 of this act may enhance the viability and quality of care in community health settings for long-term care services and to allow citizens to live as independently as possible with maximum safeguards.

NEW SECTION. Sec. 46. A new section is added to chapter 18.88A RCW to read as follows:

(1) A nurse may delegate specific care tasks to nursing assistants meeting the requirements of this section and who provide care to individuals in community residential programs for the developmentally disabled certified by the department of social and health services under chapter 71A.12 RCW, to individuals residing in adult family homes licensed under chapter 70.128 RCW, and to individuals residing in boarding homes licensed under chapter 18.20 RCW contracting with the department of social and health services to provide assisted living services pursuant to RCW 74.39A.010.

(2) For the purposes of this section, "nursing assistant" means a nursing assistant-registered or a nursing assistant-certified. Nothing in this section may be construed to affect the authority of nurses to delegate nursing tasks to other persons, including licensed practical nurses, as authorized by law.

(3) Before commencing any specific nursing care tasks authorized under this chapter, the nursing assistant must (a) provide to the delegating nurse a certificate of completion issued by the department of social and health services indicating the completion of basic core training as provided in this section, (b) be regulated by the department of health pursuant to this chapter, subject to the uniform disciplinary act under chapter 18.130 RCW, and (c) meet any additional training requirements identified by the nursing care quality assurance commission and authorized by this section.

(4) A nurse may delegate the following care tasks:

- (a) Oral and topical medications and ointments;
- (b) Nose, ear, eye drops, and ointments;

(5) On or before September 1, 1995, the nursing care quality assurance commission, in conjunction with the professional nursing organizations, shall develop rules for nurse delegation protocols and by December 5, 1995, identify training beyond the core training that is deemed necessary for the delegation of complex tasks and patient care.

(6) Nursing task delegation protocols are not intended to regulate the settings in which delegation may occur but are intended to ensure that nursing care services have a consistent standard of practice upon which the public and profession may rely and to safeguard the authority of the nurse to make independent professional decisions regarding the delegation of a task. Protocols shall include at least the following:

(a) Ensure that determination of the appropriateness of delegation of a nursing task is at the discretion of the nurse;

(b) Allow delegation of a nursing care task only for patients who have a stable and predictable condition. "Stable and predictable condition" means a situation, as defined by rule by the nursing care quality assurance commission, in which the patient's clinical and behavioral status is known and does not require frequent presence and evaluation of a registered nurse;

(c) Assure that the delegations of nursing tasks pursuant to this chapter have the written informed consent of the patient consistent with the provisions for informed consent under chapter 7.70 RCW, as well as with the consent of the delegating nurse and nursing assistant. The delegating nurse shall inform patients of the level of training of all care providers in the setting;

(d) Verify that the nursing assistant has completed the core training;

(e) Require assessment by the nurse of the ability and willingness of the nursing assistant to perform the delegated nursing task in the absence of direct nurse supervision and to refrain from delegation if the nursing assistant is not able or willing to perform the task;

(f) Require the nurse to analyze the complexity of the nursing task that is considered for delegation and determine the appropriate level of training and any need of additional training for the nursing assistant;

(g) Require the teaching of the nursing care task to the nursing assistant including return demonstration under observation while performing the task;

(h) Require a plan of nursing supervision and reevaluation of the delegated nursing task. "Nursing supervision" means that the registered nurse monitors by direct observation the skill and ability of the nursing assistant to perform delegated nursing tasks. Frequency of supervision is at the discretion of the registered nurse but shall occur at least every sixty days;

(i) Require instruction to the nursing assistant that the delegated nursing task is specific to a patient and is not transferable;

(k) Ensure that the nursing assistant is prepared to effectively deal with the predictable outcomes of performing the nursing task;

(l) Include in the delegation of tasks an awareness of the nature of the condition requiring treatment, risks of the treatment, side effects, and interaction of prescribed medications;

(m) Require documentation in the patient's record of the rationale for delegating or not delegating nursing tasks.

(7) A basic core training curriculum on providing care for individuals in community residential programs for the developmentally disabled certified by the department of social and health services under chapter 71A.12 RCW shall be in addition to the training requirements specified in subsection (5) of this section. Basic core training shall be developed and adopted by rule by the secretary of the department of social and health services. The department of social and health services shall appoint an advisory panel to assist in the development of core training comprised of representatives of the following:

(a) The division of developmental disabilities;

Core training shall be developed and adopted by rule by the secretary of the department of social and health services, in conjunction with an advisory panel. The advisory panel shall be comprised of representatives from, at a minimum, the following:

(a) The nursing care quality assurance commission;

(b) Professional nurse organizations;

(c) A state-wide association of community residential service providers whose members are programs certified by the department under chapter 71A.12 RCW;

NEW SECTION. Sec. 48. A new section is added to chapter 18.88A RCW to read as follows:

(1) The nurse and nursing assistant shall be accountable for their own individual actions in the delegation process. Nurses acting within the protocols of their delegation authority shall be immune from liability for any action performed in the course of their delegation duties. Nursing assistants following written delegation instructions from registered nurses performed in the course of their accurately written, delegated duties shall be immune from liability.

(2) No person may coerce a nurse into compromising patient safety by requiring the nurse to delegate if the nurse determines it is inappropriate to do so. Nurses shall not be subject to any employer reprisal or disciplinary action by the Washington nursing care quality assurance commission for refusing to delegate tasks or refusing to provide the required training for delegation if the nurse determines delegation may compromise patient safety. Nursing assistants shall not be subject to any employer reprisal or disciplinary action by the nursing care quality assurance commission for refusing to accept delegation of a nursing task. No community residential program, adult family home, or boarding home contracting to provide assisted-living services may discriminate or retaliate in any manner against a person because the person made a complaint or cooperated in the investigation of a complaint.

(3) The department of social and health services shall impose a civil fine of not less than two hundred fifty dollars nor more than one thousand dollars on a community residential program, adult family home, or boarding home under this act that knowingly permits an employee to perform a nursing task except as delegated by a nurse pursuant to this act.

NEW SECTION. Sec. 49. A new section is added to chapter 18.88A RCW to read as follows:

The aging and adult services administration of the department of social and health services shall establish a toll-free telephone number for receiving complaints regarding delegation of specific nursing tasks to nursing assistants, in conjunction with any other such system maintained for long-term care services. Complaints specifically related to nurse-delegation shall be referred to the nursing care quality assurance commission for appropriate disposition in accordance with established procedures.

NEW SECTION. Sec. 55. A new section is added to chapter 74.39A RCW to read as follows:

(1) A person who receives an asset from an applicant for or recipient of long-term care services for less than fair market value shall be subject to a civil fine payable to the department if:

(a) The applicant for or recipient of long-term care services transferred the asset for the purpose of qualifying for state or federal coverage for long-term care services and the person who received the asset was aware, or should have been aware, of this purpose;

(b) Such transfer establishes a period of ineligibility for such service under state or federal laws or regulations; and

(c) The department provides coverage for such services during the period of ineligibility because the failure to provide such coverage would result in an undue hardship for the applicant or recipient.

(2) The civil fine imposed under this section shall be imposed in a judicial proceeding initiated by the department and shall equal (a) up to one hundred fifty percent of the amount the department expends for the care of the applicant or recipient during the period of ineligibility attributable to the amount transferred to the person subject to the civil fine plus (b) the department's court costs and legal fees.

(3) Transfers subject to a civil fine under this section shall be considered null and void and a fraudulent conveyance as to the department. The department shall have the right to petition a court to set aside such transfers and require all assets transferred returned to the applicant or recipient.

NEW SECTION. Sec. 56. A new section is added to chapter 74.39A RCW to read as follows:

(1) All payments made in state-funded long-term care shall be recoverable as if they were medical assistance payments subject to recovery under 42 U.S.C. Sec. 1396p and chapter 43.20B RCW, but without regard to the recipient's age.

(2) In determining eligibility for state-funded long-term care services programs, the department shall impose the same rules with respect to the transfer of assets for less than fair market value as are imposed under 42 U.S.C. 1396p with respect to nursing home and home and community services.

NEW SECTION. Sec. 57. A new section is added to chapter 74.39A RCW to read as follows:

Notwithstanding any other provision of law:

(1) In order to facilitate and ensure compliance with the federal social security act, Title XIX, as now existing or hereafter amended, later enactment to be adopted by reference by the director by rule, and other state laws mandating recovery of assets from estates of persons receiving long-term care services, the secretary of the department, with the approval of the office of the attorney general, may pay the reasonable and proper fees of attorneys admitted to practice before courts of this state, and associated professionals such as guardians, who are engaged in probate practice for the purpose of maintaining actions under Title 11 RCW, to the end that assets are not wasted, but are rather collected and preserved, and used for the care of the client or the reimbursement of the department pursuant to this chapter or chapter 43.20B RCW.

(2) The department may hire such other agencies and professionals on a contingency basis or otherwise as are necessary and cost-effective to collect bad debts owed to the department for long-term care services.

Sec. 58. RCW 11.40.010 and 1994 c 221 s 25 are each amended to read as follows:

Every personal representative shall, after appointment and qualification, give a notice to the creditors of the deceased, stating such appointment and qualification as personal representative and requiring all persons having claims against the deceased to serve the same on the personal representative or the estate's attorney of record, and file an executed copy thereof with the clerk of the court, within four months after the date of the first publication of such notice described in this section or within four months after the date of the filing of the copy of such notice with the clerk of the court, whichever is the later, or within the time otherwise provided in RCW 11.40.013. The four-month time period after the later of the date of the first publication of the notice to creditors or the date of the filing of such notice with the clerk of the court is referred to in this chapter as the "four-month time limitation." Such notice shall be given as follows:

(1) The personal representative shall give actual notice, as provided in RCW 11.40.013, to such creditors who become known to the personal representative within such four-month time limitation;

(2) The personal representative shall cause such notice to be published once in each week for three successive weeks in the county in which the estate is being administered; ~~((and))~~

(3) The personal representative shall file a copy of such notice with the clerk of the court; and

Except as otherwise provided in RCW 11.40.011 or 11.40.013, any claim not filed within the four-month time limitation shall be forever barred, if not already barred by any otherwise applicable statute of limitations. This bar is effective as to claims against both the decedent's probate assets and nonprobate assets as described in RCW 11.18.200. Proof by affidavit of the giving and publication of such notice shall be filed with the court by the personal representative.

Acts of a notice agent in complying with chapter 221, Laws of 1994 may be adopted and ratified by the personal representative as if done by the personal representative in complying with this chapter, except that if at the time of the appointment and qualification of the personal representative a notice agent had commenced nonprobate notice to creditors under chapter 11.42 RCW, the personal representative shall give published notice as provided in RCW 11.42.180.

Sec. 59. RCW 11.42.020 and 1994 c 221 s 32 are each amended to read as follows:

(1) The notice agent may give nonprobate notice to the creditors of the decedent if:

(a) As of the date of the filing of a copy of the notice with the clerk of the superior court for the notice county, the notice agent has no knowledge of the appointment and qualification of a personal representative in the decedent's estate in the state of Washington or of another person becoming a notice agent; and

(b) According to the records of the clerk of the superior court for the notice county as of 8:00 a.m. on the date of the filing, no personal representative of the decedent's estate had been appointed and qualified and no cause number regarding the decedent had been issued to any other notice agent by the clerk under RCW 11.42.010.

(2) The notice must state that all persons having claims against the decedent shall: (a) Serve the same on the notice agent if the notice agent is a resident of the state of Washington upon whom service of all papers may be made, or on the nonprobate resident agent for the notice agent, if any, or

on the attorneys of record of the notice agent at their respective address in the state of Washington; and (b) file an executed copy of the notice with the clerk of the superior court for the notice county, within: (i)(A) Four months after the date of the first publication of the notice described in this section; or (B) four months after the date of the filing of the copy of the notice with the clerk of the superior court for the notice county, whichever is later; or (ii) the time otherwise provided in RCW 11.42.050. The four-month time period after the later of the date of the first publication of the notice to creditors or the date of the filing of the notice with the clerk of the court is referred to in this chapter as the "four-month time limitation."

(3) The notice agent shall declare in the notice in affidavit form or under the penalty of perjury under the laws of the state of Washington as provided in RCW 9A.72.085 that: (a) The notice agent is entitled to give the nonprobate notice under subsection (1) of this section; and (b) the notice is being given by the notice agent as permitted by this section.

(4) The notice agent shall sign the notice and file it with the clerk of the superior court for the notice county. The notice must be given as follows:

(a) The notice agent shall give actual notice as to creditors of the decedent who become known to the notice agent within the four-month time limitation as required in RCW 11.42.050;

(b) The notice agent shall cause the notice to be published once in each week for three successive weeks in the notice county; ~~((and))~~

(c) The notice agent shall file a copy of the notice with the clerk of the superior court for the notice county; and

(d) The notice agent shall mail a copy of the notice, including the decedent's social security number, to the state of Washington, department of social and health services, office of financial recovery.

(5) A claim not filed within the four-month time limitation is forever barred, if not already barred by an otherwise applicable statute of limitations, except as provided in RCW 11.42.030 or 11.42.050. The bar is effective to bar claims against both the probate estate of the decedent and nonprobate assets that were subject to satisfaction of the decedent's general liabilities immediately before the decedent's death. If a notice to the creditors of a decedent is published by more than one notice agent and the notice agents are not acting jointly, the four-month time limitation means the four-month time limitation that applies to the notice agent who first publishes the notice. Proof by affidavit or perjury declaration made under RCW 9A.72.085 of the giving and publication of the notice must be filed with the clerk of the superior court for the notice county by the notice agent.

Sec. 60. RCW 11.62.010 and 1993 c 291 s 1 are each amended to read as follows:

Sec. 62. RCW 18.39.250 and 1989 c 390 s 3 are each amended to read as follows:

(1) Any funeral establishment selling funeral merchandise or services by prearrangement funeral service contract and accepting moneys therefore shall establish and maintain one or more prearrangement funeral service trusts under Washington state law with two or more designated trustees, for the benefit of the beneficiary of the prearrangement funeral service contract or may join with one or more other Washington state licensed funeral establishments in a "master trust" provided that each member of the "master trust" shall comply individually with the requirements of this chapter.

(2) Up to ten percent of the cash purchase price of each prearrangement funeral service contract, excluding sales tax, may be retained by the funeral establishment unless otherwise provided in this chapter. If the prearrangement funeral service contract is canceled within thirty calendar days of its signing, then the purchaser shall receive a full refund of all moneys paid under the contract.

(3) At least ninety percent of the cash purchase price of each prearrangement funeral service contract, paid in advance, excluding sales tax, shall be placed in the trust established or utilized by the funeral establishment. Deposits to the prearrangement funeral service trust shall be made not later than the twentieth day of the month following receipt of each payment made on the last ninety percent of each prearrangement funeral service contract, excluding sales tax.

(4) All prearrangement funeral service trust moneys shall be deposited in an insured account in a qualified public depository or shall be invested in instruments issued or insured by any agency of the federal government if these securities are held in a public depository. The account shall be designated as the prearrangement funeral service trust of the funeral establishment for the benefit of the beneficiaries named in the prearrangement funeral service contracts. The prearrangement funeral service trust shall not be considered as, nor shall it be used as, an asset of the funeral establishment.

(5) After deduction of reasonable fees for the administration of the trust, taxes paid or withheld, or other expenses of the trust, all interest, dividends, increases, or accretions of whatever nature earned by a trust shall be kept unimpaired and shall become a part of the trust. Adequate records shall be maintained to allocate the share of principal and interest to each contract. Fees deducted for the administration of the trust shall not exceed one percent of the face amount of the prearrangement funeral service contract per annum. In no instance shall the administrative charges deducted from the prearrangement funeral service trust reduce, diminish, or in any other way lessen the value of the trust so that the services or merchandise provided for under the contract are reduced, diminished, or in any other way lessened.

(6) Except as otherwise provided in this chapter, the trustees of a prearrangement funeral service trust shall permit withdrawal of all funds deposited under a prearrangement funeral service contract, plus accruals thereon, under the following circumstances and conditions:

(a) If the funeral establishment files a verified statement with the trustees that the prearrangement funeral merchandise and services covered by the contract have been furnished and delivered in accordance therewith; or

(b) If the funeral establishment files a verified statement with the trustees that the prearrangement funeral merchandise and services covered by the contract have been canceled in accordance with its terms.

(7) Subsequent to the thirty calendar day cancellation period provided for in this chapter, any purchaser or beneficiary who has a revocable prearrangement funeral service contract has the right to demand a refund of the amount in trust.

(8) Prearrangement funeral service contracts which have or should have an account in a prearrangement funeral service trust may be terminated by the board if the funeral establishment goes out of business, becomes insolvent or bankrupt, makes an assignment for the benefit of creditors, has its prearrangement funeral service certificate of registration revoked, or for any other reason is unable to fulfill the obligations under the contract. In such event, or upon demand by the purchaser or beneficiary of the prearrangement funeral service contract, the funeral establishment shall refund to the purchaser or beneficiary all moneys deposited in the trust and allocated to the contract unless otherwise ordered by a court of competent jurisdiction. The purchaser or beneficiary may, in lieu of a refund, elect to transfer the prearrangement funeral service contract and all amounts in trust to another funeral establishment licensed under this chapter which will agree, by endorsement to the contract, to be bound by the contract and to provide the funeral merchandise or services. Election of this option shall not relieve the defaulting funeral establishment of its obligation to the purchaser or beneficiary for any amounts required to be, but not placed, in trust.

(9) Prior to the sale or transfer of ownership or control of any funeral establishment which has contracted for prearrangement funeral service contracts, any person, corporation, or other legal entity desiring to acquire such ownership or control shall apply to the director in accordance with RCW 18.39.145. Persons and business entities selling or relinquishing, and persons and business entities purchasing or acquiring ownership or control of such funeral establishments shall each verify and attest to a report showing the status of the prearrangement funeral service trust or trusts on the date of the sale. This report shall be on a form prescribed by the board and shall be considered part of the application for a funeral establishment license. In the event of failure to comply with this subsection, the funeral establishment shall be deemed to have gone out of business and the provisions of subsection (8) of this section shall apply.

(10) Prearrangement funeral service trust moneys shall not be used, directly or indirectly, for the benefit of the funeral establishment or any director, officer, agent, or employee of the funeral

establishment including, but not limited to, any encumbrance, pledge, or other use of prearrangement funeral service trust moneys as collateral or other security.

(11)(a) If, at the time of the signing of the prearrangement funeral service contract, the beneficiary of the trust is a recipient of public assistance as defined in RCW 74.04.005, or reasonably anticipates being so defined, the contract may provide that the trust will be irrevocable. If after the contract is entered into, the beneficiary becomes eligible or seeks to become eligible for public assistance under Title 74 RCW, the contract may provide for an election by the beneficiary, or by the purchaser on behalf of the beneficiary, to make the trust irrevocable thereafter in order to become or remain eligible for such assistance.

(b) The department of social and health services shall notify the trustee of any prearrangement service trust that the department has a claim on the estate of a beneficiary for long-term care services. Such notice shall be renewed at least every three years. The trustees upon becoming aware of the death of a beneficiary shall give notice to the department of social and health services, office of financial recovery, who shall file any claim there may be within thirty days of the notice.

(12) Every prearrangement funeral service contract financed through a prearrangement funeral service trust shall contain language which:

(a) Informs the purchaser of the prearrangement funeral service trust and the amount to be deposited in the trust;

(b) Indicates if the contract is revocable or not in accordance with subsection (11) of this section;

(c) Specifies that a full refund of all moneys paid on the contract will be made if the contract is canceled within thirty calendar days of its signing;

(d) Specifies that, in the case of cancellation by a purchaser or beneficiary eligible to cancel under the contract or under this chapter, up to ten percent of the contract amount may be retained by the seller to cover the necessary expenses of selling and setting up the contract;

(4) If a resident chooses to remain in the nursing facility, the department shall respect that choice, provided that if the resident is a medicaid recipient, the resident continues to require a nursing facility level of care.

(5) If the department determines that a resident no longer requires a nursing facility level of care, the resident shall not be discharged from the nursing facility until at least thirty days after written notice is given to the resident, the resident's surrogate decision maker and, if appropriate, a family member or the resident's representative. A form for requesting a hearing to appeal the discharge decision shall be attached to the written notice. The written notice shall include at least the following:

Sec. 71. RCW 70.38.111 and 1993 c 508 s 5 are each amended to read as follows:

(1) The department shall not require a certificate of need for the offering of an inpatient tertiary health service by:

(a) A health maintenance organization or a combination of health maintenance organizations if (i) the organization or combination of organizations has, in the service area of the organization or the service areas of the organizations in the combination, an enrollment of at least fifty thousand individuals, (ii) the facility in which the service will be provided is or will be geographically located so that the service will be reasonably accessible to such enrolled individuals, and (iii) at least seventy-five percent of the patients who can reasonably be expected to receive the tertiary health service will be individuals enrolled with such organization or organizations in the combination;

(b) A health care facility if (i) the facility primarily provides or will provide inpatient health services, (ii) the facility is or will be controlled, directly or indirectly, by a health maintenance organization or a combination of health maintenance organizations which has, in the service area of the organization or service areas of the organizations in the combination, an enrollment of at least fifty thousand individuals, (iii) the facility is or will be geographically located so that the service will be reasonably accessible to such enrolled individuals, and (iv) at least seventy-five percent of the patients who can reasonably be expected to receive the tertiary health service will be individuals enrolled with such organization or organizations in the combination; or

(c) A health care facility (or portion thereof) if (i) the facility is or will be leased by a health maintenance organization or combination of health maintenance organizations which has, in the service area of the organization or the service areas of the organizations in the combination, an enrollment of at least fifty thousand individuals and, on the date the application is submitted under subsection (2) of this section, at least fifteen years remain in the term of the lease, (ii) the facility is or will be geographically located so that the service will be reasonably accessible to such enrolled individuals, and (iii) at least seventy-five percent of the patients who can reasonably be expected to receive the tertiary health service will be individuals enrolled with such organization;

if, with respect to such offering or obligation by a nursing home, the department has, upon application under subsection (2) of this section, granted an exemption from such requirement to the organization, combination of organizations, or facility.

(2) A health maintenance organization, combination of health maintenance organizations, or health care facility shall not be exempt under subsection (1) of this section from obtaining a certificate of need before offering a tertiary health service unless:

(a) It has submitted at least thirty days prior to the offering of services reviewable under RCW 70.38.105(4)(d) an application for such exemption; and

(b) The application contains such information respecting the organization, combination, or facility and the proposed offering or obligation by a nursing home as the department may require to determine if the organization or combination meets the requirements of subsection (1) of this section or the facility meets or will meet such requirements; and

(c) The department approves such application. The department shall approve or disapprove an application for exemption within thirty days of receipt of a completed application. In the case of a proposed health care facility (or portion thereof) which has not begun to provide tertiary health services on the date an application is submitted under this subsection with respect to such facility (or portion), the facility (or portion) shall meet the applicable requirements of subsection (1) of this section when the facility first provides such services. The department shall approve an application submitted under this subsection if it determines that the applicable requirements of subsection (1) of this section are met.

(3) A health care facility (or any part thereof) with respect to which an exemption was granted under subsection (1) of this section may not be sold or leased and a controlling interest in such facility or in a lease of such facility may not be acquired and a health care facility described in (1)(c) which

was granted an exemption under subsection (1) of this section may not be used by any person other than the lessee described in (1)(c) unless:

(a) The department issues a certificate of need approving the sale, lease, acquisition, or use; or

(b) The department determines, upon application, that (i) the entity to which the facility is proposed to be sold or leased, which intends to acquire the controlling interest, or which intends to use the facility is a health maintenance organization or a combination of health maintenance organizations which meets the requirements of (1)(a)(i), and (ii) with respect to such facility, meets the requirements of (1)(a) (ii) or (iii) or the requirements of (1)(b) (i) and (ii).

(4) In the case of a health maintenance organization, an ambulatory care facility, or a health care facility, which ambulatory or health care facility is controlled, directly or indirectly, by a health maintenance organization or a combination of health maintenance organizations, the department may under the program apply its certificate of need requirements only to the offering of inpatient tertiary health services and then only to the extent that such offering is not exempt under the provisions of this section.

(5)(a) The department shall not require a certificate of need for the construction, development, or other establishment of a nursing home, or the addition of beds to an existing nursing home, that is owned and operated by a continuing care retirement community that:

(i) Offers services only to contractual members;

(ii) Provides its members a contractually guaranteed range of services from independent living through skilled nursing, including some assistance with daily living activities;

(iii) Contractually assumes responsibility for the cost of services exceeding the member's financial responsibility under the contract, so that no third party, with the exception of insurance purchased by the retirement community or its members, but including the medicaid program, is liable for costs of care even if the member depletes his or her personal resources;

(iv) Has offered continuing care contracts and operated a nursing home continuously since January 1, 1988, or has obtained a certificate of need to establish a nursing home;

(v) Maintains a binding agreement with the state assuring that financial liability for services to members, including nursing home services, will not fall upon the state;

(vi) Does not operate, and has not undertaken a project that would result in a number of nursing home beds in excess of one for every four living units operated by the continuing care retirement community, exclusive of nursing home beds; and

(vii) Has obtained a professional review of pricing and long-term solvency within the prior five years which was fully disclosed to members.

(b) A continuing care retirement community shall not be exempt under this subsection from obtaining a certificate of need unless:

(i) It has submitted an application for exemption at least thirty days prior to commencing construction of, is submitting an application for the licensure of, or is commencing operation of a nursing home, whichever comes first; and

(ii) The application documents to the department that the continuing care retirement community qualifies for exemption.

(c) The sale, lease, acquisition, or use of part or all of a continuing care retirement community nursing home that qualifies for exemption under this subsection shall require prior certificate of need approval to qualify for licensure as a nursing home unless the department determines such sale, lease, acquisition, or use is by a continuing care retirement community that meets the conditions of (a) of this subsection.

(6) A rural hospital, as defined by the department, reducing the number of licensed beds to become a rural primary care hospital under the provisions of Part A Title XVIII of the Social Security Act Section 1820, 42 U.S.C., 1395c et seq. may, within three years of the reduction of beds licensed under chapter 70.41 RCW, increase the number of licensed beds to no more than the previously licensed number without being subject to the provisions of this chapter.

(7) A rural health care facility licensed under RCW 70.175.100 formerly licensed as a hospital under chapter 70.41 RCW may, within three years of the effective date of the rural health care facility license, apply to the department for a hospital license and not be subject to the requirements of RCW 70.38.105(4)(a) as the construction, development, or other establishment of a new hospital, provided there is no increase in the number of beds previously licensed under chapter 70.41 RCW and there is no redistribution in the number of beds used for acute care or long-term care, the rural health care

facility has been in continuous operation, and the rural health care facility has not been purchased or leased.

(8)(a) A nursing home that voluntarily reduces the number of its licensed beds to provide assisted living, licensed boarding home care, adult day care, adult day health, respite care, hospice, outpatient therapy services, congregate meals, home health, or senior wellness clinic, or to reduce to one or two the number of beds per room or to otherwise enhance the quality of life for residents in the nursing home, may convert the original facility or portion of the facility back, and thereby increase the number of nursing home beds to no more than the previously licensed number of nursing home beds without ~~((being subject to the provisions of this chapter except under RCW 70.38.105(4)(d))~~ obtaining a certificate of need under this chapter, provided the facility has been in continuous operation and has not been purchased or leased. Any conversion to the original licensed bed capacity, or to any portion thereof, shall comply with the same life and safety code requirements as existed at the time the nursing home voluntarily reduced its licensed beds; unless waivers from such requirements were issued, in which case the converted beds shall reflect the conditions or standards that then existed pursuant to the approved waivers.

(b) To convert beds back to nursing home beds under this subsection, the nursing home must:

(i) Give notice of its intent to preserve conversion options to the department of health no later than thirty days after the effective date of the license reduction; and

(ii) Give notice to the department of health and to the department of social and health services of the intent to convert beds back. If construction is required for the conversion of beds back, the notice of intent to convert beds back must be given no later than two years prior to the effective date of license modification reflecting the restored beds; otherwise, the notice must be given no later than one year prior to the effective date of license modification reflecting the restored beds.

(c) Conversion of beds back under this subsection must be completed no later than four years after the effective date of the license reduction. However, for good cause shown, the four-year period for conversion may be extended by the department of health for one additional four-year period.

(d) Nursing home beds that have been voluntarily reduced under this section shall be counted as available nursing home beds for the purpose of evaluating need under RCW 70.38.115(2)(a) and (k) so long as the facility retains the ability to convert them back to nursing home use under the terms of this section.

(e) When a building owner has secured an interest in the nursing home beds, which are intended to be voluntarily reduced by the licensee under (a) of this subsection, the applicant shall provide the department with a written statement indicating the building owner's approval of the bed reduction.

Sec. 72. RCW 70.38.115 and 1993 c 508 s 6 are each amended to read as follows:

(1) Certificates of need shall be issued, denied, suspended, or revoked by the designee of the secretary in accord with the provisions of this chapter and rules of the department which establish review procedures and criteria for the certificate of need program.

(2) Criteria for the review of certificate of need applications, except as provided in subsection (3) of this section for health maintenance organizations, shall include but not be limited to consideration of the following:

(a) The need that the population served or to be served by such services has for such services;

(b) The availability of less costly or more effective alternative methods of providing such services;

(c) The financial feasibility and the probable impact of the proposal on the cost of and charges for providing health services in the community to be served;

(d) In the case of health services to be provided, (i) the availability of alternative uses of project resources for the provision of other health services, (ii) the extent to which such proposed services will be accessible to all residents of the area to be served, and (iii) the need for and the availability in the community of services and facilities for osteopathic and allopathic physicians and their patients. The department shall consider the application in terms of its impact on existing and proposed institutional training programs for doctors of osteopathy and medicine at the student, internship, and residency training levels;

(e) In the case of a construction project, the costs and methods of the proposed construction, including the cost and methods of energy provision, and the probable impact of the construction project

reviewed (i) on the cost of providing health services by the person proposing such construction project and (ii) on the cost and charges to the public of providing health services by other persons;

(f) The special needs and circumstances of osteopathic hospitals, nonallopathic services and children's hospitals;

(g) Improvements or innovations in the financing and delivery of health services which foster cost containment and serve to promote quality assurance and cost-effectiveness;

(h) In the case of health services proposed to be provided, the efficiency and appropriateness of the use of existing services and facilities similar to those proposed;

(i) In the case of existing services or facilities, the quality of care provided by such services or facilities in the past;

(j) In the case of hospital certificate of need applications, whether the hospital meets or exceeds the regional average level of charity care, as determined by the secretary; and

(k) In the case of nursing home applications:

(i) The availability of other nursing home beds in the planning area to be served; and

(ii) The availability of other services in the community to be served. Data used to determine the availability of other services will include but not be limited to data provided by the department of social and health services.

(3) A certificate of need application of a health maintenance organization or a health care facility which is controlled, directly or indirectly, by a health maintenance organization, shall be approved by the department if the department finds:

(a) Approval of such application is required to meet the needs of the members of the health maintenance organization and of the new members which such organization can reasonably be expected to enroll; and

(b) The health maintenance organization is unable to provide, through services or facilities which can reasonably be expected to be available to the organization, its health services in a reasonable and cost-effective manner which is consistent with the basic method of operation of the organization and which makes such services available on a long-term basis through physicians and other health professionals associated with it.

A health care facility, or any part thereof, with respect to which a certificate of need was issued under this subsection may not be sold or leased and a controlling interest in such facility or in a lease of such facility may not be acquired unless the department issues a certificate of need approving the sale, acquisition, or lease.

(4) Until the final expiration of the state health plan as provided under RCW 70.38.919, the decision of the department on a certificate of need application shall be consistent with the state health plan in effect, except in emergency circumstances which pose a threat to the public health. The department in making its final decision may issue a conditional certificate of need if it finds that the project is justified only under specific circumstances. The conditions shall directly relate to the project being reviewed. The conditions may be released if it can be substantiated that the conditions are no longer valid and the release of such conditions would be consistent with the purposes of this chapter.

(5) Criteria adopted for review in accordance with subsection (2) of this section may vary according to the purpose for which the particular review is being conducted or the type of health service reviewed.

(6) The department shall specify information to be required for certificate of need applications. Within fifteen days of receipt of the application, the department shall request additional information considered necessary to the application or start the review process. Applicants may decline to submit requested information through written notice to the department, in which case review starts on the date of receipt of the notice. Applications may be denied or limited because of failure to submit required and necessary information.

(7) Concurrent review is for the purpose of comparative analysis and evaluation of competing or similar projects in order to determine which of the projects may best meet identified needs. Categories of projects subject to concurrent review include at least new health care facilities, new services, and expansion of existing health care facilities. The department shall specify time periods for the submission of applications for certificates of need subject to concurrent review, which shall not exceed ninety days. Review of concurrent applications shall start fifteen days after the conclusion of the time period for submission of applications subject to concurrent review. Concurrent review periods shall be limited to one hundred fifty days, except as provided for in rules adopted by the department

authorizing and limiting amendment during the course of the review, or for an unresolved pivotal issue declared by the department.

(8) Review periods for certificate of need applications other than those subject to concurrent review shall be limited to ninety days. Review periods may be extended up to thirty days if needed by a review agency, and for unresolved pivotal issues the department may extend up to an additional thirty days. A review may be extended in any case if the applicant agrees to the extension.

(9) The department or its designee, shall conduct a public hearing on a certificate of need application if requested unless the review is expedited or subject to emergency review. The department by rule shall specify the period of time within which a public hearing must be requested and requirements related to public notice of the hearing, procedures, recordkeeping and related matters.

(10)(a) Any applicant denied a certificate of need or whose certificate of need has been suspended or revoked has the right to an adjudicative proceeding. The proceeding is governed by chapter 34.05 RCW, the Administrative Procedure Act.

(b) Any health care facility or health maintenance organization that: (i) Provides services similar to the services provided by the applicant and under review pursuant to this subsection; (ii) is located within the applicant's health service area; and (iii) testified or submitted evidence at a public hearing held pursuant to subsection (9) of this section, shall be provided an opportunity to present oral or written testimony and argument in a proceeding under this subsection: PROVIDED, That the health care facility or health maintenance organization had, in writing, requested to be informed of the department's decisions.

(c) If the department desires to settle with the applicant prior to the conclusion of the adjudicative proceeding, the department shall so inform the health care facility or health maintenance organization and afford them an opportunity to comment, in advance, on the proposed settlement.

(11) An amended certificate of need shall be required for the following modifications of an approved project:

(a) A new service requiring review under this chapter;

(b) An expansion of a service subject to review beyond that originally approved;

(c) An increase in bed capacity;

(d) A significant reduction in the scope of a nursing home project without a commensurate reduction in the cost of the nursing home project, or a cost increase (as represented in bids on a nursing home construction project or final cost estimates acceptable to the person to whom the certificate of need was issued) if the total of such increases exceeds twelve percent or fifty thousand dollars, whichever is greater, over the maximum capital expenditure approved. The review of reductions or cost increases shall be restricted to the continued conformance of the nursing home project with the review criteria pertaining to financial feasibility and cost containment.

(12) An application for a certificate of need for a nursing home capital expenditure which is determined by the department to be required to eliminate or prevent imminent safety hazards or correct violations of applicable licensure and accreditation standards shall be approved.

~~(13) ((In the case of an application for a certificate of need to replace existing nursing home beds, all criteria must be met on the same basis as an application for a certificate of need for a new nursing home, except that the need criteria shall be deemed met if the applicant is an existing licensee who proposes to replace existing beds that the licensee has operated for at least one year with the same or fewer number of beds in the same planning area))~~ (a) Replacement of existing nursing home beds in the same planning area by an existing licensee who has operated the beds for at least one year shall not require a certificate of need under this chapter. The licensee shall give written notice of its intent to replace the existing nursing home beds to the department and shall provide the department with information as may be required pursuant to rule. Replacement of the beds by a party other than the licensee is subject to certificate of need review under this chapter, except as otherwise permitted by subsection (14) of this section.

~~(b) When an entire nursing home ceases operation, ((its beds shall be treated as existing nursing home beds for purposes of replacement))~~ the licensee or any other party who has secured an interest in the beds may reserve his or her interest in the beds for eight years or until a certificate of need to replace them is issued, whichever occurs first. However, the nursing home, licensee, or any other party who has secured an interest in the beds must give notice of its intent to retain the beds to the department of health no later than thirty days after the effective date of the facility's closure. Certificate of need review shall be required for any party who has reserved the nursing home beds except that the need criteria shall be deemed met when the applicant is the licensee who had operated

the beds for at least one year, who has operated the beds for at least one year immediately preceding the reservation of the beds, and who is replacing the beds in the same planning area.

(14) In the event that a licensee, who has provided the department with notice of his or her intent to replace nursing home beds under subsection (13)(a) of this section, engages in unprofessional conduct or becomes unable to practice with reasonable skill and safety by reason of mental or physical condition, pursuant to chapter 18.130 RCW, or dies, the building owner shall be permitted to complete the nursing home bed replacement project, provided the building owner has secured an interest in the beds.

Sec. 73. RCW 70.38.125 and 1989 1st ex.s. c 9 s 606 are each amended to read as follows:

(1) A certificate of need shall be valid for two years. One six-month extension may be made if it can be substantiated that substantial and continuing progress toward commencement of the project has been made as defined by regulations to be adopted pursuant to this chapter. An additional extension of up to sixty months shall be made if the project is located in an eligible area, as defined under RCW 82.60.020, or is located in an economically distressed area.

(2) A project for which a certificate of need has been issued shall be commenced during the validity period for the certificate of need.

(3) The department shall monitor the approved projects to assure conformance with certificates of need that have been issued. Rules and regulations adopted shall specify when changes in the project require reevaluation of the project. The department may require applicants to submit periodic progress reports on approved projects or other information as may be necessary to effectuate its monitoring responsibilities.

(4) The secretary, in the case of a new health facility, shall not issue any license unless and until a prior certificate of need shall have been issued by the department for the offering or development of such new health facility.

(5) Any person who engages in any undertaking which requires certificate of need review without first having received from the department either a certificate of need or an exception granted in accordance with this chapter shall be liable to the state in an amount not to exceed one hundred dollars a day for each day of such unauthorized offering or development. Such amounts of money shall be recoverable in an action brought by the attorney general on behalf of the state in the superior court of any county in which the unauthorized undertaking occurred. Any amounts of money so recovered by the attorney general shall be deposited in the state general fund.

(6) The department may bring any action to enjoin a violation or the threatened violation of the provisions of this chapter or any rules and regulations adopted pursuant to this chapter, or may bring any legal proceeding authorized by law, including but not limited to the special proceedings authorized in Title 7 RCW, in the superior court in the county in which such violation occurs or is about to occur, or in the superior court of Thurston county.

NEW SECTION. **Sec. 74.** If any part of this act is found to be in conflict with federal requirements that are a prescribed condition to the allocation of federal funds to the state, the conflicting part of this act is inoperative solely to the extent of the conflict and with respect to the agencies directly affected, and this finding does not affect the operation of the remainder of this act in its application to the agencies concerned. The rules under this act shall meet federal requirements that are a necessary condition to the receipt of federal funds by the state.

NEW SECTION. **Sec. 75.** The department of social and health services shall develop and pilot, for eighteen months, an on-line computer based information system consistent with the information needs outlined in section 3 of this act. The department shall, by December 1, 1996, report to the appropriations committee of the house of representatives and the ways and means committee of the senate on the success of the pilot in meeting the information requirements for hospitals outlined in this section.

The department shall adopt all rules necessary to implement the Washington long-term care partnership program, which rules shall permit the exclusion of all or some of an individual's assets in a manner specified by the department in a determination of medicaid eligibility to the extent that private long-term care insurance provides payment or benefits for services ~~((that medicaid would approve or cover for medicaid recipients)).~~

(3) The department may waive a period of ineligibility if the department determines that denial of eligibility would work an undue hardship.

Sec. 82. RCW 74.34.010 and 1984 c 97 s 7 are each amended to read as follows:

The legislature finds that frail elders and vulnerable adults may be subjected to abuse, neglect, exploitation, or abandonment. The legislature finds that there are a number of adults sixty years of age or older who lack the ability to perform or obtain those services necessary to maintain or establish their well-being. The legislature finds that many frail elders and vulnerable adults have health problems that place them in a dependent position. The legislature further finds that a significant number of frail elders and vulnerable adults have mental and verbal limitations that leave them vulnerable and incapable of asking for help and protection.

It is the intent of the legislature to prevent or remedy the abuse, neglect, exploitation, or abandonment of persons sixty years of age or older who have a functional, mental, or physical inability to care for or protect themselves.

It is the intent of the legislature to assist frail elders and vulnerable adults by providing these persons with the protection of the courts and with the least-restrictive services, such as home care, and by preventing or reducing inappropriate institutional care. The legislature finds that it is in the interests of the public health, safety, and welfare of the people of the state to provide a procedure for identifying these vulnerable persons and providing the services and remedies necessary for their well-being.

Sec. 83. RCW 74.34.100 and 1986 c 187 s 4 are each amended to read as follows:

The legislature finds that frail elders and vulnerable adults(~~(,)~~) who are (~~(physically or emotionally)~~) abused, neglected, abandoned, or (~~(financially)~~) exploited may need the protection of the courts. The legislature further finds that many of these elderly or vulnerable persons may be homebound or otherwise may be unable to represent themselves in court or to retain legal counsel in order to obtain the relief available to them under this chapter.

It is the intent of the legislature to improve access to the courts for victims of abuse, neglect, exploitation, and abandonment in order to better protect the state's frail elderly and vulnerable adults.

Sec. 84. RCW 74.34.020 and 1984 c 97 s 8 are each amended to read as follows:

Sec. 94. RCW 74.46.170 and 1983 1st ex.s. c 67 s 10 are each amended to read as follows:

Any such administrative review of a settlement shall be limited to calculation of the settlement or the application of settlement principles and rules, or both, and shall not examine or reexamine payment rate or audit issues. After the ~~((thirty-day))~~ period established by the department in rule has expired, a preliminary or final settlement will not be subject to review.

(2) A preliminary settlement report as issued by the department will become the final settlement report if no audit has been scheduled within twelve calendar months following the department's issuance of a preliminary settlement report to the contractor.

(3) A settlement will be reopened if necessary to make adjustments for findings resulting from an audit performed pursuant to RCW 74.46.105(4).

(1) The ~~((state))~~ department shall make payment of any underpayments to which a contractor is entitled as determined by the department under the provisions of this chapter within ~~((thirty))~~ sixty days after the date the preliminary or final settlement report is submitted to the contractor and the department shall pay interest at the rate of one percent per month on any unpaid preliminary or final settlement balance still due the contractor after such time, accruing from sixty days after the preliminary or final settlement report is submitted to the contractor, and no interest shall accrue or be paid for any period prior to this date: PROVIDED, That any increase in a preliminary or final settlement amount due the contractor resulting from a final administrative or judicial decision shall also bear interest until paid at the rate of one percent per month, accruing from sixty days after the preliminary or final settlement was submitted to the contractor. The department shall pay no interest on amounts due a contractor other than amounts determined by preliminary or final settlement as provided in this subsection.

(2) A contractor found, under a preliminary or final settlement issued by the department, to have received either overpayments or erroneous payments ~~((under a preliminary or final settlement)),~~ to which the contractor is not entitled as determined by the department under the provisions of this chapter, shall refund such erroneous payments or overpayments to the ~~((state))~~ department within ~~((thirty))~~ sixty days after the date the preliminary or final settlement report is submitted to the contractor, subject to the provisions of subsections (3), (4), and ~~((7))~~ (6) of this section, PROVIDED, That for all preliminary or final settlements issued on and after July 1, 1995, regardless of what period a settlement covers, neither a timely filed request to pursue the department's administrative appeals or exception procedure nor commencement of judicial review, as may be available to the contractor in law, contesting the settlement, erroneous payments or overpayments shall delay recovery. A contractor shall pay interest at the rate of one percent per month on any unpaid preliminary or final settlement balance still due the department sixty days after the preliminary or final settlement report is submitted to the contractor, accruing from this date: PROVIDED Further, That the department shall refund interest collected for preliminary and settlement amounts the contractor was entitled to retain as subsequently determined by final administrative or judicial decision.

(3) Within the cost centers of nursing services and food, all savings resulting from the respective allowable costs being lower than the respective reimbursement rate paid to the contractor during the report period shall be refunded to the department. However, in computing a preliminary or final settlement, savings in a cost center may be shifted to cover a deficit in another cost center up to the amount of any savings. Not more than twenty percent of the rate in a cost center may be shifted into that cost center and no shifting may be made into the property cost center. There shall be no shifting out of nursing services, and savings in food shall be shifted only to cover deficits in the nursing services cost center. There shall be no shifting from the operational to the administrative cost center.

(4) Within the administrative and property cost centers, the contractor shall retain at least fifty percent, but not more than seventy-five percent, of any savings resulting from the respective audited allowable costs being lower than the respective reimbursement rates paid to the contractor during the report period multiplied by the number of authorized medical care client days in which said rates were in effect, except that no savings may be retained if reported costs in the administrative and property cost centers exceed audited allowable costs in these cost areas by a total of ten cents or more per patient day. The secretary, by rule, shall establish the basis for the specific percentages of savings to the contractors. Such rules may provide for differences in the percentages allowed for each cost center to individual facilities based on performance measures related to administrative efficiency.

(5) All return on investment rate payments provided by RCW 74.46.530 shall be retained by the contractor to the extent net invested funds are substantiated by department field audit. Any industrial insurance dividend or premium discount under RCW 51.16.035 shall be retained by the contractor to the extent that such dividend or premium discount is attributable to the contractor's private patients.

(6) In the event the contractor fails to make repayment in the time provided in subsection (2) of this section, the department shall either:

(a) Deduct the amount of refund due the department, plus any interest accrued under ~~((RCW 43.20B.695))~~ subsection (2) of this section, from payment amounts due the contractor; or

(b) In the instance the contract has been terminated, (i) deduct the amount of refund due the department, plus interest assessed at the rate and in the manner provided in ~~((RCW 43.20B.695))~~ subsection (2) of this section, from any payments due; or (ii) recover the amount due, plus any interest assessed under ~~((RCW 43.20B.695,))~~ subsection (2) of this section from security posted with or otherwise obtained by the department or by any other lawful means.

(7) ~~((Where the facility is pursuing timely filed judicial or administrative remedies in good faith regarding settlement issues, the contractor need not refund nor shall the department withhold from the facility current payment amounts the department claims to be due from the facility but which are specifically disputed by the contractor.))~~ For all erroneous payments and overpayments determined by preliminary or final settlements issued before July 1, 1995, and not yet recovered by the department because they are specifically disputed by the contractor in a timely filed administrative or judicial review, if the judicial or administrative remedy sought by the facility is not granted after all appeals are exhausted or mutually terminated, the facility shall make payment of such amounts due plus interest accrued from the date of filing of the appeal, as payable on judgments, within sixty days of the date such decision is made.

NEW SECTION. Sec. 98. A new section is added to chapter 74.46 RCW to read as follows:

The legislature intends to adopt a new system for establishing nursing home payment rates no later than July 1, 1998. Any payments to nursing homes for services provided after June 30, 1998, shall be based on the new system. The system shall include case-mix reimbursement methods for paying for nursing services and shall match payments to patient care needs, while providing incentives for cost control and efficiency. To that end:

(1) In consultation with nursing facility provider associations, consumer groups, and the legislative budget committee, the department of social and health services shall design and develop alternative methods for matching nursing facility payments to patient care needs, while providing incentives for cost control and efficiency.

(2) The department shall report to the fiscal and health care policy committees of the legislature on the projected benefits and costs of these alternative methods by October 15th of 1995, 1996, and 1997. The October 1996 report shall additionally include a recommended time line for implementing the new payment system no later than July 1, 1998.

Sec. 99. RCW 74.46.420 and 1993 sp.s. c 13 s 7 are each amended to read as follows:

The following principles are inherent in RCW 74.46.430 through 74.46.590:

(1) ~~((Reimbursement))~~ Effective July 1, 1995, through June 30, 1998, nursing facility payment rates will be set or adjusted for economic trends and conditions annually and prospectively on a per ~~((patient))~~ resident day basis ~~((on a two-year cycle corresponding to each state biennium; and))~~, in accordance with the principles and methods set forth in this chapter, to take effect July 1st of each year.

(2) ~~((The rates, in the nursing services, food, administrative, and operational cost centers, shall be adjusted downward or upward when set effective July 1 of the first fiscal year of the two year rate-setting cycle and adjusted again downward or upward effective July 1 of the second fiscal year of the rate setting cycle for economic trends and conditions))~~ July 1, 1995, component rates in the nursing services, food, administrative, and operational cost centers shall be cost-rebased utilizing desk-reviewed and adjusted costs reported for calendar year 1994, for all nursing facilities submitting at least six months of cost data. Such component rates for July 1, 1995, shall also be adjusted downward or upward for economic trends and conditions as provided in this section. Component rates in property and return on investment (ROI) shall be reset annually as provided in this chapter.

(3) ~~The July 1, 1995, component rates ((for the first year of each biennium)) in the nursing services, food, administrative, and operational cost centers shall be adjusted for economic trends and conditions by the change in the implicit price deflator for personal consumption expenditures index published by the bureau of labor statistics of the United States department of labor (IPD index). The period used to measure the IPD increase or decrease to be applied to these ((first year biennial)) July 1, 1995, rate(s) components shall be ((the)) calendar year ((preceding the July 1 commencement of the state biennium)) 1994.~~

(4) ~~((The July 1 rates for the second year of each biennium shall be adjusted)) July 1, 1996, component rates in the nursing services, food, administrative, and operational cost centers shall not be cost-rebased, but shall be the component rates assigned to each nursing facility in effect on June 30, 1996, adjusted downward or upward for economic trends and conditions by the change in the nursing home input price index without capital costs published by the health care financing administration of the department of health and human services((;)) (HCFA index((, however, any increase shall be multiplied by one and one-half))). The period to be used to measure the HCFA index increase ((to be multiplied by one and one-half and applied)) or decrease to be applied to these ((second year biennial)) June 30, 1996, component rates shall ((also)) be ((the)) calendar year ((preceding the July 1 commencement of the state biennium: PROVIDED, However, That in the event the change in the HCFA index measured over the following calendar year, the one terminating six months after the start of the state biennium, is twenty five percent greater or less than the change in the HCFA index measured over the calendar year preceding commencement of the state biennium, the department shall use the HCFA index increase multiplied by one and one-half or decrease in such following calendar year to inflate or decrease nursing facilities' nursing services, food, administrative, and operational rates for July 1 of the second biennial year)) 1994.~~

(5) July 1, 1997, component rates in the nursing services, food, administrative, and operational cost centers shall not be cost-rebased, but shall be the component rates assigned to each nursing facility in effect on June 30, 1997, adjusted downward or upward for economic trends and conditions by the change in the nursing home input price index without capital costs published by the health care financing administration of the department of health and human services (HCFA index), multiplied by a factor of 1.25. The period to be used to measure the HCFA increase or decrease to be applied to these rate components for July 1, 1997, rate setting shall be calendar year 1996.

(6) If either the implicit price deflator (IPD) index or the health care financing administration (HCFA) index specified in this section ceases to be published in the future, the department shall select ((by rule)) and use in its place or their place one or more measures of change from the same or an alternate source or sources ((for)) utilizing the same or comparable time periods specified in this section.

Sec. 100. RCW 74.46.430 and 1993 sp.s. c 13 s 8 are each amended to read as follows:

(1) The department, as provided by this chapter, will determine prospective ((cost-related reimbursement)) payment rates for services provided to medical care recipients. Each rate so determined shall represent the contractor's maximum compensation within each cost center and for return on investment for each ((patient)) resident day for such medical care recipient.

(2) ~~((As required,))~~ The department may modify such maximum per ((patient)) resident day rates, consistent with this chapter, pursuant to the administrative ((review provisions of)) appeals or exception procedure authorized by RCW 74.46.780.

(3) For July 1, 1995, and all following rates, the maximum prospective ((reimbursement)) component payment rates for the nursing services, food, administrative, operational, and property cost centers, and the return on investment (ROI) component rate for each nursing facility shall be

established based upon a minimum licensed bed facility occupancy level of ~~((eighty five))~~ ninety percent, except for rate adjustments as provided for in RCW 74.46.460(6).

(4) The minimum ninety percent facility occupancy shall be used to calculate individual rates, to calculate the median cost limits (MCLs) for the metropolitan statistical area (MSA) and nonmetropolitan statistical area (non-MSA) peer groups, and to array facilities by costs in calculating the variable return portion of the return on investment rate component (ROI).

(5) All contractors shall be required to adjust and maintain wages for all employees to a minimum hourly wage of four dollars and seventy-six cents per hour beginning January 1, 1988, and five dollars and fifteen cents per hour beginning January 1, 1989.

Sec. 101. RCW 74.46.450 and 1993 sp.s. c 13 s 9 are each amended to read as follows:

(1) Prospective reimbursement rates for a new contractor, as defined by the department in rule, will be established within sixty days following receipt by the department of the properly completed projected budget required by RCW 74.46.670. Such reimbursement rates will become effective as of the effective date of the contract and shall remain in effect until ~~((adjusted or))~~ the new contractor's rate in all cost areas can be reset ~~((as provided in this chapter))~~ effective July 1st using a cost report of that contractor containing at least six months' data from the prior calendar year, regardless of whether reported costs for other contractors for the prior calendar year in question will be used to rebase their July 1st rates.

(2) Such reimbursement rates will be based on ~~((the contractor's projected cost of operations and on costs and))~~ payment rates of the prior contractor, if any, or of other contractors in comparable circumstances.

(3) ~~((If a properly completed budget is not received at least sixty days prior to the effective date of the contract,))~~ The department will establish ~~((preliminary))~~ a new contractor's initial component rates based on the ~~((other))~~ factors specified in subsections (2) and (4) of this section. These ~~((preliminary))~~ initial rates will remain in effect until adjusted or reset as provided in this chapter.

(4) The department is authorized to develop policies and procedures in rule ~~((to address the computation of rates for the first and second fiscal years of each biennium, including steps necessary to prorate rate adjustments for economic trends and conditions as authorized in RCW 74.46.420, for contractors having less than twelve months of cost report data for the prior calendar year))~~ that comply with the policies and purposes of this chapter to establish factors by which a new contractor's rate will be set, for example, occupancy level or proration of rate adjustments for economic trends and conditions as authorized in RCW 74.46.420. However, a new contractor, whose medicaid contract was effective in calendar year 1994; and whose nursing facility occupancy during calendar year 1994 increased by at least five percent over that of the prior owner, shall have its July 1995 rate for nursing services, food, administrative, operational, and property cost centers, and the return on investment (ROI) based upon a minimum facility occupancy of eighty-five percent.

Sec. 102. RCW 74.46.460 and 1993 sp.s. c 13 s 10 are each amended to read as follows:

(1) Each contractor's ~~((reimbursement))~~ nursing services, food, administrative, and operational component payment rates will be ~~((determined or))~~ adjusted for economic trends and conditions prospectively at least once during each calendar year, as provided in this chapter, to be effective July 1st~~((-))~~: PROVIDED, That except for the rates of new contractors as defined by the department, a ~~((contractor's))~~ nursing facility's cost-rebased rate for ~~((the first fiscal year of each biennium))~~ July 1, 1995, must be established upon ~~((its))~~ the facility's own ~~((prior calendar period))~~ cost report of at least six months of adjusted and/or audited cost data from the calendar year 1994.

(2) Subject to the provisions of subsections (3) through (6) of this section, rates may be adjusted ~~((as determined))~~ by the department at the request of the nursing facility to cover the medicaid share of incremental costs necessary to address and take into account variations in the distribution of all medicaid and nonmedicaid patient classifications or changes in all medicaid or nonmedicaid patient characteristics from the prior reporting year, program changes required by the department, or changes in staffing levels at a facility required by the department. Rates may also be adjusted to cover costs associated with placing a nursing home in receivership which costs are not covered by the rate of the former contractor, including: Compensation of the receiver, reasonable expenses of receivership and transition of control, and costs incurred by the receiver in carrying out court instructions or rectifying deficiencies found. Rates shall be adjusted as provided in this section for any capitalized additions or

replacements made as a condition for licensure or certification. Rates shall be adjusted as provided in this section for capitalized improvements done under RCW 74.46.465.

(3) Except for rate adjustments granted for economic trends and conditions as authorized in this chapter to be effective each July 1st, all rate adjustments granted by the department for any other purpose, including those granted for capitalized additions or replacements or for staffing, whether made or not made as a condition of licensure or certification, shall be limited in total amount each fiscal year to the total current legislative appropriation, if any, specifically made to fund the medicaid share of such adjustments for the fiscal year.

(4) The department is authorized to adopt rules to ensure that funding granted for additional staffing will be cost-effective in providing increased quantity and quality of services to nursing facility residents and to ensure that spending limitations will not be exceeded.

(5) Funds disbursed representing rate adjustments granted under authority of this section and not spent by the contractor for the purposes granted are subject to immediate recovery by the department by means of recoupment from current contract payments or any other means authorized by law and contractors shall pay interest on such unused or misused funds at the rate of one percent per month from the date of disbursement to the date of recovery. If a contractor requests an administrative review of a department recovery action under rules established under RCW 74.46.780, such request shall not stay recoupment from current facility contract payments or other recovery.

(6) All rate component adjustments to fund the medicaid share of nursing facility new construction or refurbishing projects costing in excess of one million two hundred thousand dollars, or projects requiring state or federal approval, shall be based upon a minimum facility occupancy of eighty-five percent for the nursing services, food, administrative, operational, and property cost centers, and the return on investment (ROI), during the initial rate period in which the adjustment is granted, and shall be based upon a minimum facility occupancy of ninety percent for the nursing services, food, administrative, operational, and property cost centers, and the return on investment (ROI), for all rate periods thereafter.

Sec. 103. RCW 74.46.470 and 1993 sp.s. c 13 s 11 are each amended to read as follows:

(1) A contractor's ~~((reimbursement))~~ nursing facility per resident day component rates for medical care recipients ((will)) shall be determined as provided in this chapter utilizing net invested funds and desk-reviewed cost report data within the following cost centers:

- (a) Nursing services;
- (b) Food;
- (c) Administrative;
- (d) Operational; and
- (e) Property.

(2) There shall be for the time period January 1988 through June 1990 only an enhancement cost center established to reimburse contractors for specific legislatively authorized enhancements for nonadministrative wages and benefits to ensure that such enhancements are used exclusively for the legislatively authorized purposes. For purposes of settlement, funds appropriated to this cost center shall only be used for expenditures for which the legislative authorization is granted. Such funds may be used only in the following circumstances:

(a) The contractor has increased expenditures for which legislative authorization is granted to at least the highest level paid in any of the last three cost years, plus, beginning July 1, 1987, any percentage inflation adjustment as was granted each year under RCW 74.46.495; and

(b) All funds shifted from the enhancement cost center are shown to have been expended for legislatively authorized enhancements.

(3) If the contractor does not spend the amount appropriated to this cost center in the legislatively authorized manner, then the amounts not appropriately spent shall be recouped at preliminary or final settlement pursuant to RCW 74.46.160.

(4) For purposes of this section, "nonadministrative wages and benefits" means wages and payroll taxes paid with respect to, and the employer share of the cost of benefits provided to, employees in job classes specified in an appropriation, which may not include administrators, assistant administrators, or administrators in training.

(5) Amounts expended in the enhancement cost center in excess of the minimum wage established under RCW 74.46.430 are subject to all provisions contained in this chapter.

Sec. 104. RCW 74.46.481 and 1993 sp.s. c 13 s 12 are each amended to read as follows:

(1) The nursing services cost center shall include for reporting and audit purposes all costs related to the direct provision of nursing and related care, including fringe benefits and payroll taxes for the nursing and related care personnel, and the cost of nursing supplies. The department shall adopt by administrative rule a definition of "related care". For rates effective after June 30, 1991, nursing services costs, as reimbursed within this chapter, shall not include costs of any purchased nursing care services, including registered nurse, licensed practical nurse, and nurse assistant services, obtained through service contract arrangement in excess of the amount of compensation paid for such hours of nursing care service had they been paid at the average hourly wage, including related taxes and benefits, for in-house nursing care staff of like classification at the same nursing facility, as reported in the most recent cost report period.

(2) The department shall adopt through administrative rules a method for establishing a nursing services cost center rate consistent with the principles stated in this section.

(3) Utilizing regression or other statistical technique, the department shall determine a reasonable limit on facility nursing staff taking into account facility patient characteristics. For purposes of this section, facility nursing staff refers to registered nurses, licensed practical nurses and nursing assistants employed by the facility or obtained through temporary labor contract arrangements. Effective January 1, 1988, the hours associated with the training of nursing assistants and the supervision of that training for nursing assistants shall not be included in the calculation of facility nursing staff. In selecting a measure of patient characteristics, the department shall take into account:

(a) The correlation between alternative measures and facility nursing staff; and

(b) The cost of collecting information for and computation of a measure.

If regression is used, the limit shall be set at predicted nursing staff plus 1.75 regression standard errors. If another statistical method is utilized, the limit shall be set at a level corresponding to 1.75 standard errors above predicted staffing computed according to a regression procedure. A regression calculated shall be effective for the entire biennium.

(4) No facility shall receive reimbursement for nursing staff levels in excess of the limit. However, nursing staff levels established under subsection (3) of this section shall not apply to the nursing services cost center reimbursement rate only for the pilot facility especially designed to meet the needs of persons living with AIDS as defined by RCW 70.24.017 and specifically authorized for this purpose under the 1989 amendment to the Washington state health plan. (5) ~~(Every two years when rates are set at the beginning of each new biennium))~~ For July 1, 1995, rate setting only, the department shall divide into two peer groups nursing facilities located in the state of Washington providing services to medicaid residents: (a) Those facilities located within a metropolitan statistical area as defined and determined by the United States office of management and budget or other applicable federal office (MSA) and (b) those not located in such an area (non-MSA). The facilities in each peer group shall then be arrayed from lowest to highest by magnitude of per ~~((patient))~~ resident day ~~desk-reviewed,~~ adjusted nursing services cost from the ~~((prior))~~ 1994 calendar report year, regardless of whether any such adjustments are contested by the nursing facility, and the median or fiftieth percentile cost for each peer group shall be determined. Nursing services component rates for facilities within each peer group ~~((for the first year of the biennium))~~ shall be set at the lower of the facility's ~~desk-reviewed,~~ adjusted per ~~((patient))~~ resident day nursing services cost from the ~~((prior))~~ 1994 report period or the median cost for the facility's peer group, utilizing the same calendar year report data plus twenty-five percent. This rate shall be reduced or inflated as authorized by RCW 74.46.420. However, the per patient day peer group median cost plus twenty-five percent limit shall not apply to the nursing services cost center reimbursement rate only for the pilot facility especially designed to meet the needs of persons living with AIDS as defined by RCW 70.24.017 and specifically authorized for this purpose under the 1989 amendment to the Washington state health plan.

(6) ~~((If a nursing facility is impacted by the limit authorized in subsection (5) of this section, it shall not receive a prospective rate in nursing services for July 1, 1993, less than the same facility's prospective rate in nursing services as of June 30, 1993, adjusted by any increase in the implicit price deflator for personal consumption expenditures, IPD index, as measured over the period authorized by RCW 74.46.420(3).))~~

(7) For rates effective July 1, 1996, a nursing facility's noncost-rebased component rate in nursing services ~~((for the second year of each biennium))~~ shall be that facility's nursing services component rate ~~((as of July 1 of the first year of that biennium))~~ existing on June 30, 1996, reduced or inflated as authorized by RCW 74.46.420. ~~((The alternating procedures prescribed in this section for a~~

~~facility's two July 1 nursing services rates occurring within each biennium shall be followed in the same order for each succeeding biennium.)~~ The July 1, 1996, nursing services component rate used to calculate the return on investment (ROI) component rate shall be the inflated prospective nursing services rate as of June 30, 1996, excluding any rate increases granted pursuant to RCW 74.46.460.

(7) For rates effective July 1, 1997, a nursing facility's noncost-rebased component rate in nursing services shall be that facility's nursing services component rate existing on June 30, 1997, reduced or inflated as authorized by RCW 74.46.420. The July 1, 1997, nursing services component rate used to calculate the return on investment (ROI) component rate shall be the inflated prospective nursing services rate as of June 30, 1997, excluding any rate increases granted pursuant to RCW 74.46.460.

(8) Median cost((s)) limits for peer groups shall be calculated initially for July 1, 1995, rate setting as provided in this chapter on the basis of ((the most recent)) adjusted 1994 nursing services cost report information available to the department prior to the calculation of the new rates for July 1, 1995 ((of the first fiscal year of each biennium)), regardless of whether the adjustments are contested or subject to pending administrative or judicial review. Median costs for peer groups shall be recalculated as provided in this chapter on the basis of the most recent adjusted cost information available to the department on October 31, 1995 ((of the first fiscal year of each biennium)), and shall apply retroactively to ((the prior)) July 1, 1995, rates, regardless of whether the adjustments are contested or subject to pending administrative or judicial review. Median cost((s)) limits, once calculated using October 31, 1995, adjusted cost information shall not be adjusted to reflect subsequent administrative or judicial rulings, whether final or not.

(9) The department is authorized to determine on a systematic basis facilities with unmet patient care service needs. The department may increase the nursing services cost center prospective rate for a facility beyond the level determined in accordance with subsection (6) of this section if the facility's actual and reported nursing staffing is one standard error or more below predicted staffing as determined according to the method selected pursuant to subsection (3) of this section and the facility has unmet patient care service needs: PROVIDED, That prospective rate increases authorized by this subsection shall be funded only from legislative appropriations made for this purpose during the periods authorized by such appropriations or other laws and the increases shall be conditioned on specified improvements in patient care at such facilities.

(10) The department shall establish a method for identifying patients with exceptional care requirements and a method for establishing or negotiating on a consistent basis rates for such patients.

(11) The department, in consultation with interested parties, shall adopt rules to establish the criteria the department will use in reviewing any requests by a contractor for a prospective rate adjustment to be used to increase the number of nursing staff. These rules shall also specify the time period for submission and review of staffing requests: PROVIDED, That a decision on a staffing request shall not take longer than sixty days from the date the department receives such a complete request. In establishing the criteria, the department may consider, but is not limited to, the following:

(a) Increases in debility levels of contractors' residents determined in accordance with the department's assessment and reporting procedures and requirements utilizing the minimum data set;

(b) Staffing patterns for similar facilities in the same peer group;

(c) Physical plant of contractor; and

(d) Survey, inspection of care, and department consultation results.

Sec. 105. RCW 74.46.490 and 1993 sp.s. c 13 s 13 are each amended to read as follows:

(1) The food cost center shall include for reporting purposes all costs for bulk and raw food and beverages purchased for the dietary needs of medical care recipients.

(2) ((Every two years when rates are set at the beginning of each new biennium)) For July 1, 1995, rate setting only, the department shall divide into two peer groups nursing facilities located in the state of Washington providing services to medicaid residents: (a) Those facilities located within a metropolitan statistical area as defined and determined by the United States office of management and budget or other applicable federal office (MSA) and (b) those not located in such an area (non-MSA). The facilities in each peer group shall then be arrayed from lowest to highest by magnitude of per ((patient)) resident day desk-reviewed, adjusted food cost from the ((prior)) 1994 calendar report year, regardless of whether any such adjustments are contested by the nursing facility, and the median or fiftieth percentile cost for each peer group shall be determined. Food component rates for facilities within each peer group ((for the first year of the biennium)) shall be set at the lower of the facility's

desk-reviewed, adjusted per ((patient)) resident day food cost from the ((prior)) 1994 report period or the median cost for the facility's peer group, using the same calendar year report data, plus twenty-five percent. This rate shall be reduced or inflated as authorized by RCW 74.46.420.

(3) For rates effective July 1, 1996, a nursing facility's noncost-rebased food component rate ((for the second year of each biennium)) shall be that facility's food component rate ((as of July 1 of the first year of that biennium)) existing on June 30, 1996, reduced or inflated as authorized by RCW 74.46.420. ((The alternating procedures prescribed in this section for a facility's two July 1 food rates occurring within each biennium shall be followed in the same order for each succeeding biennium.)) The July 1, 1996, food component rate used to calculate the return on investment (ROI) component rate shall be the inflated prospective food component rate as of June 30, 1996, excluding any rate increases granted pursuant to RCW 74.46.460.

(4) For rates effective July 1, 1997, a nursing facility's noncost-rebased food component rate shall be that facility's food component rate existing on June 30, 1997, reduced or inflated as authorized by RCW 74.46.420. The July 1, 1997, food component rate used to calculate the return on investment (ROI) component rate shall be the inflated prospective food component rate as of June 30, 1997, excluding any rate increases granted pursuant to RCW 74.46.460.

((4)) (5) Median cost((s)) limits for peer groups shall be calculated initially for July 1, 1995, rate setting as provided in this chapter on the basis of ((the most recent)) adjusted 1994 food cost report information available to the department prior to the calculation of the new rates for July 1, 1995 ((of the first fiscal year of each biennium)), regardless of whether the adjustments are contested or subject to pending administrative or judicial review. Median costs for peer groups shall be recalculated as provided in this chapter on the basis of the most recent adjusted cost information available to the department on October 31, 1995 ((of the first fiscal year of each biennium)), and shall apply retroactively to ((the prior)) July 1, 1995, rates, regardless of whether the adjustments are contested or subject to pending administrative or judicial review. Median cost((s)) limits, once calculated utilizing October 31, 1995, adjusted cost information, shall not be adjusted to reflect subsequent administrative or judicial rulings, whether final or not.

Sec. 106. RCW 74.46.500 and 1993 sp.s. c 13 s 14 are each amended to read as follows:

(1) The administrative cost center shall include for cost reporting purposes all administrative, oversight, and management costs whether facility on-site or allocated in accordance with a department-approved joint-cost allocation methodology. Such costs shall be identical to the cost report line item costs categorized under "general and administrative" in the "administration and operations" combined cost center existing prior to January 1, 1993, except for nursing supplies and purchased medical records.

(2) ~~((Every two years when rates are set at the beginning of each new biennium))~~ For July 1, 1995, rate setting only, the department shall divide into two peer groups nursing facilities located in the state of Washington providing services to medicaid residents: (a) Those facilities located within a metropolitan statistical area as defined and determined by the United States office of management and budget or other applicable federal office (MSA) and (b) those not located in such an area (non-MSA). The facilities in each peer group shall then be arrayed from lowest to highest by magnitude of per ((patient)) resident day desk-reviewed, adjusted administrative cost from the ((prior)) 1994 calendar report year, regardless of whether any such adjustments are contested by the nursing facility, and the median or fiftieth percentile cost for each peer group shall be determined. Administrative component rates for facilities within each peer group ((for the first year of the biennium)) shall be set at the lower of the facility's desk-reviewed, adjusted per ((patient)) resident day administrative cost from the ((prior)) 1994 report period or the median cost for the facility's peer group, utilizing the same calendar year report data, plus ten percent. This rate shall be reduced or inflated as authorized by RCW 74.46.420.

(3) For rates effective July 1, 1996, a nursing facility's noncost-rebased administrative component rate ((for the second year of each biennium)) shall be that facility's administrative component rate ((as of July 1 of the first year of that biennium)) existing on June 30, 1996, reduced or inflated as authorized by RCW 74.46.420. ~~((The alternating procedures prescribed in this section for a facility's two July 1 administrative rates occurring within each biennium shall be followed in the same order for each succeeding biennium.))~~ The July 1, 1996, administrative component rate used to calculate the return on investment (ROI) component rate shall be the inflated prospective administrative component rate as of June 30, 1996, excluding any rate increases granted pursuant to RCW 74.46.460.

(4) For rates effective July 1, 1997, a nursing facility's noncost-rebased administrative component rate shall be that facility's administrative component rate existing on June 30, 1997, reduced or inflated as authorized by RCW 74.46.420. The July 1, 1997, administrative component rate used to calculate the return on investment (ROI) component rate shall be the inflated prospective administrative component rate as of June 30, 1997, excluding any rate increases granted pursuant to RCW 74.46.460.

~~((4))~~ (5) Median cost((s)) limits for peer groups shall be calculated initially for July 1, 1995, rate setting as provided in this chapter on the basis of ((the most recent)) adjusted 1994 administrative cost report information available to the department prior to the calculation of the new rates for July 1, 1995 ((of the first fiscal year of each biennium)), regardless of whether the adjustments are contested or subject to pending administrative or judicial review. Median costs for peer groups shall be recalculated as provided in this chapter on the basis of the most recent adjusted cost information available to the department on October 31, 1995 ((of the first fiscal year of each biennium)), and shall apply retroactively to ((the prior)) July 1, 1995, rates, regardless of whether the adjustments are contested or subject to pending administrative or judicial review. Median cost((s)) limits, once calculated utilizing October 31, 1995, adjusted cost information, shall not be adjusted to reflect subsequent administrative or judicial rulings, whether final or not.

Sec. 107. RCW 74.46.505 and 1993 sp.s. c 13 s 15 are each amended to read as follows:

(1) The operational cost center shall include for cost reporting purposes all allowable costs of the daily operation of the facility not included in nursing services and related care, food, administrative, or property costs, whether such costs are facility on-site or allocated in accordance with a department-approved joint-cost allocation methodology.

(2) ~~((Every two years when rates are set at the beginning of each new biennium))~~ For July 1, 1995, rate setting only, the department shall divide into two peer groups nursing facilities located in the state of Washington providing services to medicaid residents: (a) Those facilities located within a metropolitan statistical area as defined and determined by the United States office of management and budget or other applicable federal office (MSA) and (b) those not located in such an area (non-MSA). The facilities in each peer group shall then be arrayed from lowest to highest by magnitude of per ((patient)) resident day desk-reviewed, adjusted operational cost from the ((prior)) 1994 calendar report year, regardless of whether any such adjustments are contested by the nursing facility, and the median or fiftieth percentile cost for each peer group shall be determined. Operational component rates for facilities within each peer group ((for the first year of the biennium)) shall be set at the lower of the facility's desk-reviewed, adjusted per ((patient)) resident day operational cost from the ((prior)) 1994 report period or the median cost for the facility's peer group, utilizing the same calendar year report data, plus twenty-five percent. This rate shall be reduced or inflated as authorized by RCW 74.46.420.

(3) For rates effective July 1, 1996, a nursing facility's noncost-rebased operational component rate ((for the second year of each biennium)) shall be that facility's operational component rate ((as of July 1 of the first year of that biennium)) existing on June 30, 1996, reduced or inflated as authorized by RCW 74.46.420. ((The alternating procedures prescribed in this section for a facility's two July 1 operational rates occurring within each biennium shall be followed in the same order for each succeeding biennium.)) The July 1, 1996, operational component rate used to calculate the return on investment (ROI) component rate shall be the inflated prospective operational component rate as of June 30, 1996, excluding any rate increases granted pursuant to RCW 74.46.460.

(4) For rates effective July 1, 1997, a nursing facility's noncost-rebased operational component rate shall be that facility's operational component rate existing on June 30, 1997, reduced or inflated as authorized by RCW 74.46.420. The July 1, 1997, operational component rate used to calculate the return on investment (ROI) component rate shall be the inflated prospective operational component rate as of June 30, 1997, excluding any rate increases granted pursuant to RCW 74.46.460.

~~((4))~~ (5) Median cost((s)) limits for peer groups shall be calculated initially for July 1, 1995, rate setting as provided in this chapter on the basis of ((the most recent)) adjusted 1994 operational cost report information available to the department prior to the calculation of the new rate for July 1, 1995 ((of the first fiscal year of each biennium)), regardless of whether the adjustments are contested or subject to pending administrative or judicial review. Median costs for peer groups shall be recalculated as provided in this chapter on the basis of the most recent adjusted cost information available to the department on October 31, 1995 ((of the first fiscal year of each biennium)), and shall apply retroactively to ((the prior)) July 1, 1995, rates, regardless of whether the adjustments are contested or

subject to pending administrative or judicial review. Median cost~~(s)~~ limits, once calculated utilizing October 31, 1995, adjusted cost information, shall not be adjusted to reflect subsequent administrative or judicial rulings, whether final or not.

Sec. 108. RCW 74.46.510 and 1993 sp.s. c 13 s 16 are each amended to read as follows:

(1) The property cost center rate for each facility shall be determined by dividing the sum of the reported allowable prior period actual depreciation, subject to RCW 74.46.310 through 74.46.380, adjusted for any capitalized additions or replacements approved by the department, and the retained savings from such cost center, as provided in RCW 74.46.180, by the greater of a facility's total ~~(patient)~~ resident days for the facility in the prior period or resident days as calculated on ninety or eighty-five percent facility occupancy as applicable. If a capitalized addition or retirement of an asset will result in a different licensed bed capacity during the ensuing period, the prior period total ~~(patient)~~ resident days used in computing the property cost center rate shall be adjusted to anticipated ~~(patient)~~ resident day level.

(2) A nursing facility's property rate shall be rebased annually, effective July 1, in accordance with this section and this chapter ~~((regardless of whether the rate is for the first or second year of the biennium))~~.

(3) When a certificate of need for a new facility is requested, the department, in reaching its decision, shall take into consideration per-bed land and building construction costs for the facility which shall not exceed a maximum to be established by the secretary.

Sec. 109. RCW 74.46.530 and 1993 sp.s. c 13 s 17 are each amended to read as follows:

(1) The department shall establish for each medicaid nursing facility a return on investment (ROI) rate composed of two parts: A financing allowance and a variable return allowance. The financing allowance part of a facility's return on investment component rate shall be rebased annually, effective July 1, in accordance with the provisions of this section and this chapter~~((, regardless of whether the rate is for the first or second year of the biennium))~~.

(a) The financing allowance shall be determined by multiplying the net invested funds of each facility by .10, and dividing by the ~~((contractor's))~~ greater of a nursing facility's total ~~(patient)~~ resident days from the most recent cost report period or resident days calculated on ninety percent or eighty-five percent facility occupancy as applicable. If a capitalized addition or retirement of an asset will result in a different licensed bed capacity during the ensuing period, the prior period total ~~(patient)~~ resident days used in computing the financing and variable return allowances shall be adjusted to the anticipated ~~(patient)~~ resident day level.

(b) In computing the portion of net invested funds representing the net book value of tangible fixed assets, the same assets, depreciation bases, lives, and methods referred to in RCW 74.46.330, 74.46.350, 74.46.360, 74.46.370, and 74.46.380, including owned and leased assets, shall be utilized, except that the capitalized cost of land upon which the facility is located and such other contiguous land which is reasonable and necessary for use in the regular course of providing ~~(patient)~~ resident care shall also be included. Subject to provisions and limitations contained in this chapter, for land purchased by owners or lessors before July 18, 1984, capitalized cost of land shall be the buyer's capitalized cost. For all partial or whole rate periods after July 17, 1984, if the land is purchased after July 17, 1984, capitalized cost shall be that of the owner of record on July 17, 1984, or buyer's capitalized cost, whichever is lower. In the case of leased facilities where the net invested funds are unknown or the contractor is unable to provide necessary information to determine net invested funds, the secretary shall have the authority to determine an amount for net invested funds based on an appraisal conducted according to RCW 74.46.360(1).

(c) In determining the variable return allowance:

(i) ~~((Every two years at the start of each new biennium))~~ For July 1, 1995, rate setting only, the department, without utilizing peer groups, ~~((will))~~ shall first rank all facilities in numerical order from highest to lowest according to their per ~~(patient)~~ resident day adjusted or audited, or both, allowable costs for nursing services, food, administrative, and operational costs combined for the ~~((previous))~~ 1994 calendar year cost report period.

(ii) The department shall then compute the variable return allowance by multiplying the appropriate percentage amounts, which shall not be less than one percent and not greater than four percent, by the sum of the facility's nursing services, food, administrative, and operational rate components. The percentage amounts will be based on groupings of facilities according to the rankings

prescribed in (i) of this subsection (1)(c). The percentages calculated and assigned will remain the same for the ~~((next))~~ variable return allowance paid in ~~((the second year of the biennium))~~ all July 1, 1996, and July 1, 1997, rates as well. Those groups of facilities with lower per diem costs shall receive higher percentage amounts than those with higher per diem costs.

(d) The sum of the financing allowance and the variable return allowance shall be the return on investment rate for each facility, and shall be added to the prospective rates of each contractor as determined in RCW 74.46.450 through 74.46.510.

(e) In the case of a facility which was leased by the contractor as of January 1, 1980, in an arm's-length agreement, which continues to be leased under the same lease agreement, and for which the annualized lease payment, plus any interest and depreciation expenses associated with contractor-owned assets, for the period covered by the prospective rates, divided by the contractor's total ~~((patient))~~ resident days, minus the property cost center determined according to RCW 74.46.510, is more than the return on investment rate determined according to subsection (1)(d) of this section, the following shall apply:

(i) The financing allowance shall be recomputed substituting the fair market value of the assets as of January 1, 1982, as determined by the department of general administration through an appraisal procedure, less accumulated depreciation on the lessor's assets since January 1, 1982, for the net book value of the assets in determining net invested funds for the facility. A determination by the department of general administration of fair market value shall be final unless the procedure used to make such determination is shown to be arbitrary and capricious.

(ii) The sum of the financing allowance computed under subsection (1)(e)(i) of this section and the variable allowance shall be compared to the annualized lease payment, plus any interest and depreciation associated with contractor-owned assets, for the period covered by the prospective rates, divided by the contractor's total ~~((patient))~~ resident days, minus the property cost center rate determined according to RCW 74.46.510. The lesser of the two amounts shall be called the alternate return on investment rate.

(iii) The return on investment rate determined according to subsection (1)(d) of this section or the alternate return on investment rate, whichever is greater, shall be the return on investment rate for the facility and shall be added to the prospective rates of the contractor as determined in RCW 74.46.450 through 74.46.510.

(f) In the case of a facility which was leased by the contractor as of January 1, 1980, in an arm's-length agreement, if the lease is renewed or extended pursuant to a provision of the lease, the treatment provided in subsection (1)(e) of this section shall be applied except that in the case of renewals or extensions made subsequent to April 1, 1985, reimbursement for the annualized lease payment shall be no greater than the reimbursement for the annualized lease payment for the last year prior to the renewal or extension of the lease.

(2) Each biennium, beginning in 1985, the secretary shall review the adequacy of return on investment rates in relation to anticipated requirements for maintaining, reducing, or expanding nursing care capacity. The secretary shall report the results of such review to the legislature and make recommendations for adjustments in the return on investment rates utilized in this section, if appropriate.

Sec. 110. RCW 74.46.560 and 1983 1st ex.s. c 67 s 30 are each amended to read as follows:

The department will notify each contractor in writing of its prospective ~~((reimbursement))~~ payment rates by the effective dates of the rates. Unless otherwise specified at the time it is issued, ~~((the))~~ a rate will be effective from the first day of the month in which it is issued until a new rate becomes effective. If a rate is changed as the result of an appeals or exception procedure established in accordance with RCW 74.46.780, it will be effective as of the date the appealed rate became effective.

Sec. 111. RCW 74.46.570 and 1983 1st ex.s. c 67 s 31 are each amended to read as follows:

(1) Prospective rates are subject to adjustment by the department as a result of errors or omissions by the department or by the contractor. The department will notify the contractor in writing of each adjustment and of the effective date of the adjustment, and of any amount due to the department or to the contractor as a result of the rate adjustment.

(2) If a contractor claims an error or omission based upon incorrect cost reporting, amended cost report pages shall be prepared and submitted by the contractor. Amended pages shall be accompanied by a certification signed by the licensed administrator of the nursing facility and a written

justification explaining why the amendment is necessary. The certification and justification shall meet such criteria as are adopted by the department. Such amendments may be used to revise a prospective rate but shall not be used to revise a settlement if submitted after commencement of the field audit. All changes determined to be material by the department shall be subject to field audit. If changes are found to be incorrect or otherwise unacceptable, any rate adjustment based thereon shall be null and void and resulting payments or payment increases shall be subject to refund.

(3) The contractor shall pay an amount owed the department resulting from an error or omission as determined by the department on or after July 1, 1995, or commence repayment in accordance with a schedule determined and agreed to in writing by the department, within sixty days after receipt of notification of the rate adjustment~~((, unless the contractor contests the department's determination in accordance with the procedures set forth in RCW 74.46.780. If the determination is contested, the contractor shall pay or commence repayment within sixty days after completion of these proceedings))~~. If a refund as determined by the department is not paid when due, the amount thereof may be deducted from current payments by the department. However, neither a timely filed request to pursue the department's administrative appeals or exception procedure nor commencement of judicial review, as may be available to the contractor in law, shall delay recovery.

(4) The department shall pay any amount owed the contractor as a result of a rate adjustment within thirty days after the contractor is notified of the rate adjustment.

(5) No adjustments will be made to a rate more than one hundred twenty days after the final audit narrative and summary for the period the rate was effective is sent to the contractor or, if no audit is held, more than one hundred twenty days after the preliminary settlement becomes the final settlement, except when a settlement is reopened as provided in RCW 74.46.170(3).

Sec. 112. RCW 74.46.640 and 1983 1st ex.s. c 67 s 34 are each amended to read as follows:

(1) Payments to a contractor may be withheld by the department in each of the following circumstances:

(a) A required report is not properly completed and filed by the contractor within the appropriate time period, including any approved extension. Payments will be released as soon as a properly completed report is received;

(b) State auditors, department auditors, or authorized personnel in the course of their duties are refused access to a nursing ~~((home))~~ facility or are not provided with existing appropriate records. Payments will be released as soon as such access or records are provided;

(c) A refund in connection with a preliminary or final settlement or rate adjustment is not paid by the contractor when due. The amount withheld will be limited to the unpaid amount of the refund and any accumulated interest owed to the department as authorized by this chapter; ~~((and))~~

(d) Payment for the final ~~((thirty))~~ sixty days of service under a contract will be held in the absence of adequate alternate security acceptable to the department pending final settlement when the contract is terminated; and

(e) Payment for services at any time during the contract period in the absence of adequate alternate security acceptable to the department, if a contractor's net medicaid overpayment liability for one or more nursing facilities or other debt to the department, as determined by preliminary settlement, final settlement, civil fines imposed by the department, third-party liabilities or other source, reaches or exceeds fifty thousand dollars, whether subject to good faith dispute or not, and for each subsequent increase in liability reaching or exceeding twenty-five thousand dollars. Payments will be released as soon as practicable after acceptable security is provided or refund to the department is made.

(2) No payment will be withheld until written notification of the suspension is provided to the contractor, stating the reason ~~((therefor))~~ for the withholding, except that neither a request to pursue the administrative appeals or exception procedure established by the department in rule nor commencement of judicial review, as may be available to the contractor in law, shall delay suspension of payment.

Sec. 113. RCW 74.46.690 and 1985 c 361 s 3 are each amended to read as follows:

(1) When a facility contract is terminated for any reason, the old contractor shall submit final reports as required by RCW 74.46.040.

(2) Upon notification of a contract termination, the department shall determine by preliminary or final settlement calculations the amount of any overpayments made to the contractor, including overpayments disputed by the contractor. If preliminary or final settlements are unavailable for any

period up to the date of contract termination, the department shall make a reasonable estimate of any overpayment or underpayments for such periods. The reasonable estimate shall be based upon prior period settlements, available audit findings, the projected impact of prospective rates, and other information available to the department. The department shall also determine and add in the total of all other debts owed to the department regardless of source, including, but not limited to, interest owed to the department as authorized by this chapter, civil fines imposed by the department, or third-party liabilities.

(3) The old contractor shall provide security, in a form deemed adequate by the department, ~~((it))~~ equal to the total amount of determined and estimated overpayments and all other debts from any source, whether or not the overpayments are the subject of good faith dispute. Security shall consist of:

- (a) Withheld payments due the contractor; or
- (b) A surety bond issued by a bonding company acceptable to the department; or
- (c) An assignment of funds to the department; or
- (d) Collateral acceptable to the department; or
- (e) A purchaser's assumption of liability for the prior contractor's overpayment; ~~((or))~~
- (f) A promissory note secured by a deed of trust; or
- (g) Any combination of (a), (b), (c), (d), ~~((or))~~ (e), or (f) of this subsection.

(4) A surety bond or assignment of funds shall:

(a) Be at least equal in amount to determined or estimated overpayments, whether or not the subject of good faith dispute, minus withheld payments;

(b) Be issued or accepted by a bonding company or financial institution licensed to transact business in Washington state;

(c) Be for a term, as determined by the department, sufficient to ensure effectiveness after final settlement and the exhaustion of any administrative appeals or exception procedure and judicial remedies, as may be available to and sought by the contractor, regarding payment, settlement, civil fine, interest assessment, or other debt issues: PROVIDED, That the bond or assignment shall initially be for a term of at least five years, and shall be forfeited if not renewed thereafter in an amount equal to any remaining combined overpayment ~~((in dispute))~~ and debt liability as determined by the department;

(d) Provide that the full amount of the bond or assignment, or both, shall be paid to the department if a properly completed final cost report is not filed in accordance with this chapter, or if financial records supporting this report are not preserved and made available to the auditor; and

(e) Provide that an amount equal to any recovery the department determines is due from the contractor ~~((at))~~ from settlement or from any other source of debt to the department, but not exceeding the amount of the bond and assignment, shall be paid to the department if the contractor does not pay the refund and debt within sixty days following receipt of written demand ~~((or the conclusion of administrative or judicial proceedings to contest settlement issues))~~ for payment from the department to the contractor.

(5) The department shall release any payment withheld as security if alternate security is provided under subsection (3) of this section in an amount equivalent to determined and estimated overpayments.

(6) If the total of withheld payments, bonds, and assignments is less than the total of determined and estimated overpayments, the unsecured amount of such overpayments shall be a debt due the state and shall become a lien against the real and personal property of the contractor from the time of filing by the department with the county auditor of the county where the contractor resides or owns property, and the lien claim has preference over the claims of all unsecured creditors.

(7) The contractor shall file a properly completed final cost report in accordance with the requirements of this chapter, which shall be audited by the department. A final settlement shall be determined within ninety days following completion of the audit process, including completion of any administrative appeals or exception procedure review of the audit requested by the contractor, but not including completion of any judicial review available to and commenced by the contractor.

(8) Following determination of settlement for all periods, security held pursuant to this section shall be released to the contractor after all overpayments, erroneous payments, and debts determined in connection with final settlement, or otherwise, including accumulated interest owed the department, have been paid by the contractor. ~~((If the contractor contests the settlement determination in accordance with RCW 74.46.170, the department shall hold the security, not to exceed the amount of~~

~~estimated unrecovered overpayments being contested, pending completion of the administrative appeal process.))~~

(9) If, after calculation of settlements for any periods, it is determined that overpayments exist in excess of the value of security held by the state, the department may seek recovery of these additional overpayments as provided by law.

~~(10) ((If a contract is terminated solely in order for the same owner to contract with the department to deliver services to another classification of medical care recipients at the same facility, the contractor is not required to submit final cost reports, and security shall not be required.))~~ Regardless of whether a contractor intends to terminate its medicaid contracts, if a contractor's net medicaid overpayments and erroneous payments for one or more settlement periods, and for one or more nursing facilities, combined with debts due the department, reaches or exceeds a total of fifty thousand dollars, as determined by preliminary settlement, final settlement, civil fines imposed by the department, third-party liabilities or by any other source, whether such amounts are subject to good faith dispute or not, the department shall demand and obtain security equivalent to the total of such overpayments, erroneous payments, and debts and shall obtain security for each subsequent increase in liability reaching or exceeding twenty-five thousand dollars. Such security shall meet the criteria in subsections (3) and (4) of this section, except that the department shall not accept an assumption of liability. The department shall withhold all or portions of a contractor's current contract payments or impose liens, or both, if security acceptable to the department is not forthcoming. The department shall release a contractor's withheld payments or lift liens, or both, if the contractor subsequently provides security acceptable to the department. This subsection shall apply to all overpayments and erroneous payments determined by preliminary or final settlements issued on or after July 1, 1995, regardless of what payment periods the settlements may cover and shall apply to all debts owed the department from any source, including interest debts, which become due on or after July 1, 1995.

Sec. 114. RCW 74.46.770 and 1983 1st ex.s. c 67 s 39 are each amended to read as follows:

(1) For all nursing facility medicaid payment rates effective on or after July 1, 1995, and for all settlements and audits issued on or after July 1, 1995, regardless of what periods the settlements or audits may cover, if a contractor wishes to contest the way in which a rule ((or contract provision)) relating to the ((prospective cost related reimbursement)) medicaid payment rate system was applied to the contractor by the department, it shall ((first)) pursue the ((administrative review process set forth in)) appeals or exception procedure established by the department in rule authorized by RCW 74.46.780.

(2) ((The administrative review and fair hearing process in RCW 74.46.780 need not be exhausted if a contractor wishes to challenge the legal validity of a statute, rule, or contract provision.)) If a contractor wishes to challenge the legal validity of a statute, rule, or contract provision or wishes to bring a challenge based in whole or in part on federal law, including but not limited to issues of procedural or substantive compliance with the federal medicaid minimum payment standard for long-term care facility services, the appeals or exception procedure established by the department in rule may not be used for these purposes. This prohibition shall apply regardless of whether the contractor wishes to obtain a decision or ruling on an issue of validity or federal compliance or wishes only to make a record for the purpose of subsequent judicial review.

(3) If a contractor wishes to challenge the legal validity of a statute, rule, or contract provision relating to the medicaid payment rate system, or wishes to bring a challenge based in whole or in part on federal law, it must bring such action de novo in a court of proper jurisdiction as may be provided by law.

Sec. 115. RCW 74.46.780 and 1989 c 175 s 159 are each amended to read as follows:

~~((1) Within twenty eight days after a contractor is notified of an action or determination it wishes to challenge, the contractor shall request in writing that the secretary review such determination. The request shall be signed by the contractor or the licensed administrator of the facility, shall identify the challenged determination and the date thereof, and shall state as specifically as practicable the grounds for its contention that the determination was erroneous. Copies of any documentation on which the contractor intends to rely to support its position shall be included with the request.~~

~~(2) After receiving a request meeting the above criteria, the secretary or his designee will contact the contractor to schedule a conference for the earliest mutually convenient time. The~~

Representatives Dyer, Sommers and Huff spoke in favor of the adoption of the amendment.

POINT OF INQUIRY

Representative Dyer yielded to a question by Representative Huff.

Representative Huff: In Section 8, the Department of Social and Health Services is authorized to provide assessment and case management services to nursing home residents who may become eligible for medicaid within 180 days. Is it your understanding that this provision is only operative to the extent that nursing home residents are willing to voluntarily provide their personal financial information to the facility and that the nursing home resident chooses to ask for the department's services?

Representative Dyer: You are correct, Representative Huff. It is absolutely our intent to respect the privacy and individual choice of nursing home residents. We only want to offer an option for service to nursing home residents who choose to ask for it.

Representative Huff: Representative Dyer, in Section 94 of the bill it states that the Department will establish procedures to process administrative appeals. Is it your understanding that this will provide a one step review process beyond the Department and that the review will be conducted by an administrative law judge from the independent office of administrative hearings?

Representative Dyer: You are correct, Representative Huff. It is our intent that the appeal process be streamlined to provide a one step, impartial review with both the state and providers able to appeal to the courts as a last resort.

Representative Huff: Representative Dyer, Section 100 changes the minimum occupancy level for rate setting purposes to 90% and extends it to the nursing cost center. Am I correct that a facility may offset the impact of this change by reducing their licensed bed capacity.

Representative Dyer: Yes, you are correct, and it is our intent that the Department promptly process any such request for reduced capacity and that new patient rates be established as soon as reasonably possible.

Representative Huff: Will the provisions of section 102, the section referring to what is commonly called "current funding" require a change to current administrative rules?

Representative Dyer: No. It is the intent of this section to state clearly that the department is limited in the total amount, each fiscal year, it is to expend for "current funding" to that amount

provided in the legislative appropriation. It is not the intent to change any current administrative rules. Rules as currently written fulfill and comply with the provisions of the section.

Representative Huff: Will the provisions of sections 115 regarding the appeals process mean a denial of a fair hearing or compromise the rights of any nursing facility appealing a Department of Social and Health Services rate decision?

Representative Dyer: No. It is the intent of this section that the rules the Department of Social and Health Services establish in regards to appeals on rates, audits, and settlements be consistent with federal requirements for nursing facilities participating in the medicaid program and that the appeals or exceptions procedures established in rule do not deny a fair hearing or compromise the rights of any nursing facility. It is the intent of the Legislature that nursing facilities will have a hearing with an administrative law judge not under the direct employ of the Department of Social and Health Services. Further, it is not the intent of this section to limit the number of appeals any nursing facility may file.

MESSAGE FROM THE GOVERNOR

May 16, 1995

To the Honorable Speaker and Members,
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to sections 110, 112, 113, 114, 115, 116, 119, and 504, Engrossed Substitute House Bill No. 1010 entitled:

"AN ACT Relating to regulatory reform;"

Over the last few years, the issue of regulatory reform has generated spirited discussion and debate. I have come to the conclusion that, like beauty, regulatory reform is really in the eye of the beholder. While there is widespread agreement about the problems, there is less clarity regarding solutions. This bill represents a path to regulatory reform that I believe will make significant changes in the regulatory climate. We all must embark upon this path in a spirit of cooperation and with the firm resolve to work together to successfully implement this legislation. Everyone who is concerned with these issues must have a place at the table: the regulated community, state agencies, local governments, the environmental community, labor, and interested citizens groups. Without this cooperative spirit, it will be impossible to implement significant, long-term change.

On August 9, 1993, I signed Executive Order 93-06. The executive order directed state agencies to initiate several efforts to coordinate among themselves and to provide better and more useful information to the public. I stated three goals for regulatory reform in the executive order. They are:

- * To institute immediate management improvements in state regulatory functions, reducing inefficiencies, conflicts, and delays.

- * To develop long-term solutions to complex regulatory issues that, if left unresolved, could impede the orderly growth and sustained economic development of the state.

- * To ensure that any regulatory reform solutions designed to support economic benefits to the state also ensure continued protection of the environment, the health, and the safety of our citizens.

The Executive Order also created the Governor's Task Force on Regulatory Reform, composed of representatives from a cross-section of state citizens and interest groups. The task force established three subcommittees to address the major issue areas set forth in the executive order and made its interim recommendation in its December, 1993 report. The task force made its final recommendations in December, 1994.

Although this bill was not originally based on the task force recommendations, in its final form it has adopted many elements consistent with those recommendations, and I would like to applaud the legislature for incorporating those recommendations.

I want to focus first on the very significant positive steps in regulatory reform that are included in this bill. This bill represents what I hope will be meaningful change in the regulatory environment. At the same time, I believe that it meets the goals I set out when I established the task force: to establish long-term solutions to complex regulatory issues and to ensure that regulatory reform solutions ensure continued protection for the environment, the health, and the safety of our citizens.

I am signing the provisions of section 201 establishing new rule adoption criteria. These criteria were developed by the task force. The application of these criteria to the significant legislative rules of nine major agencies will result in detailed analyses of important factors in agency rulemaking. There are several changes made from the task force recommendations. The task force would have applied these criteria to a limited set of rules for a small number of agencies. It also established a sunset date to assure that the legislature would review these criteria and would determine their effectiveness. This bill expands both the rules and the agencies which must comply with these procedures. There is no sunset on these criteria, but I am hopeful that the legislature will evaluate the impact of these criteria over time. The Office of Financial Management will be reviewing and reporting to the governor and to the legislature on the impact of this section which will allow us to monitor its effects. I also have some reservations regarding the impact of this section in that these procedures may not result in better rules, but only in more litigation. However, I think we must go ahead and implement this section and all work together to make sure that this process does result in better rulemaking--not more delay and confusion.

I am also signing Part VI dealing with technical assistance in its entirety. These provisions will encourage cooperative relationships between agencies and the regulated community. It has always been my firm belief that people will comply with the rules as long as they understand them, and these provisions will make it easier to know how to comply.

I am also signing sections 901 through 905 which allow the recovery of reasonable attorney's fees from the state. The purpose of these sections is to allow individuals and small businesses access to the courts to challenge agency actions by authorizing courts to award attorney's fees when agency actions are successfully challenged. I believe it is important to allow access to our judicial system for those who may not have the necessary financial resources. I am concerned, however, that these provisions, in combination with the rule adoption criteria process in section 201, may create a significant incentive to challenge every agency rules and other agency actions in the hope of recovering attorney's fees. These challenges are likely to be fought out over procedural issues rather than policy issues, and the potential fiscal impact of these provisions are significant. This will have to be monitored over time to determine the effects of these sections.

I am signing provisions establishing a process for an appeal to the governor if an agency refuses to begin rule making proceedings, for a streamlined rule repeal process, and for simplification of rule making for less significant rules.

I am also signing provisions directing the Department of Licensing to establish pilot programs on combined state and local business licensing. This provision is real regulatory reform. These pilot programs will assist businesses in obtaining permits and licenses from multiple jurisdictions, thus addressing one of the major complaints of both small and large businesses.

I am signing section 802 which changes the standard of judicial review of agency rules from the current standard that the rule "could not conceivably have been the product of a rational decision maker" to "arbitrary and capricious." This appears to be consistent with the Washington Supreme Court decision in Neah Bay Chamber of commerce v. Department of Fisheries, 119 W. 2nd 464 (1992). There is some language in the intent section that indicates that a different standard of review was intended. Consistent with the rationale of the Part I grants of authority sections, in which agencies are prohibited from relying on intent statements to develop substantive regulatory programs, the legislature cannot create a different standard of judicial review in an intent section than the standard created in the substantive section 802. Any other reading would suggest an amendment by reference of RCW 34.05.570. I am, therefore, approving section 802 with the understanding that the standard for review will be arbitrary and capricious as articulated by the Washington State Supreme Court.

Turning now to other provisions of the bill, Part I concerns the authority of some agencies to adopt rules. Many in the business community and in the legislature complain about the liberty they believe agencies take with their authority to implement legislation. This has led to an effort to modify what are referred to as "broad grants of rule making authority." The task force struggled with this issue and recommended a solution for future legislation. However, it was unable to find a solution for existing statutes that would not lead to unanticipated consequences. This legislation does not avoid those problems.

Upon careful consideration and after consulting with members of the legislature and with others, I have concluded that sections 101-109 and section 111 only limit the authority of an agency to adopt rules when there is no statutory authority, other than an intent section, for an agency to act. If an agency has been given authority to carry out specific statutory directives in a particular area, even though the statute does not prohibit an agency from adopting rules to implement the legislature's expressed intent that the agency carry out its statutory responsibilities. The language of these sections prohibits agencies from adopting rules solely in reliance on an intent section in combination with the statute establishing the agency. Intent sections should not be used by the agencies or by the legislature as the sole authority to create substantive rules or law.

Section 112 is similar to sections 101-111 except that it contains additional provisions intended to address the issued of prevailing wage. The Department of Labor and Industries' authority to adopt rules governing prevailing wage issues is under attack in the courts. The department is currently in litigation over its authority to adopt rules under the prevailing wage statute. This section includes language indicating it is the intent of the legislature to retain the status quo. This very statement recognizes the possibility that the department's authority is in doubt. This stands to undermine the department's position in ongoing litigation.

Sections 113-116 relate to the authority of the Insurance Commissioner. Unlike the language in sections 101-109 and section 111, these sections directly restrict the commissioner's use of specific

rulemaking authority to develop rules. For example, section 115 allows the commissioner to make rules regarding aspects of health care service contractor practices, including the maintenance of adequate insurance and cash deposits. It is the heart of the authority to regulate health care service contractors. The amendment would not allow the commissioner to rely on that section for rulemaking authority. Section 116 is the authority to regulate health maintenance organizations. This language provides that the commissioner may not rely on this specific authority. As I read this, it would leave the commissioner in the position where the commissioner's ability to regulate important aspects of the health insurance industry would be severely compromised. Removing this authority could create significant risk to consumers. Similarly, section 114 provides authority to regulate against unfair and deceptive practices. This is the heart of the commissioner's consumer protection authority. The commissioner must be able to act quickly as new circumstances arise to protect the public. I cannot sign sections that would significantly reduce the ability of the Insurance Commissioner to act for the public good.

It is important to note the difference in the language used in sections 101-111 and in sections 113-116 dealing with the Insurance Commissioner. In the commissioner's sections, the legislature clearly intended to limit the use of the grant of rule making authority. In sections 101-109 and section 111, however, there is no restriction on the use of the general grant of rule making authority in combination with other substantive provisions of law. It is because of this distinction that I am signing sections 101-109 and section 111.

Section 110 dealing with the Forest Practices Board creates problems due to the placement of the proviso language. This section is a specific grant of rule making authority (in the same manner as section 115 related to the Insurance Commissioner). It also contemplates that the board may specifically rely on RCW 76.09.010 which contains specific directives to the board regarding the development of comprehensive forest practices regulations as the basis for rules. This proviso, as placed, appears to give authority for rule making, then to take it away, then to give it back. It is so ambiguous as to create complete uncertainty for most of the board's regulations.

Section 119 exempts the agencies covered by sections 101 through 116 from the prospective grants of authority requirements of section 118 which apply to all agencies. We must ensure all agencies, including the Department Labor and Industries, the Insurance Commissioner, and the Forest Practices Board, will be subject to the prospective restrictions on grants of authority in section 118.

It is important to note that the very significant provisions of this bill related to technical assistance, rule adoptions criteria, and judicial review all apply to the Department of Labor and Industries, the Insurance Commissioner and the Forest Practices.

Section 504 gives the Joint Administrative Rules Review Committee (JARRC) the ability, by a majority vote, to establish a rebuttable presumption in judicial proceedings that a rule does not comply with the legislature's intent. The burden of proof to establish that a rule was within legislative intent would be shifted to the agency from the individual challenging the rule. This would mean that 5 legislators out of a total of 147 members could determine legislative intent, regardless of their participation in the policy committees that developed the underlying legislation upon which the rule is based.

I have serious concerns about the constitutionality of section 504. This section violates the provisions of the state constitution which require legislative acts be done by the entire legislature with presentment to the governor for approval. Moreover, this violates the separation of powers doctrine, in that it intrudes unduly into those constitutional powers reserved for the executive and judicial branches of government. This is based primarily on the decision of the United States Supreme Court in Immigration & Naturalization Service v. Chadha, 462 U.S. 919 (1983), and the analysis of the overwhelming majority of state and federal court opinions on the subject.

It is my hope that the legislature will work with all interested parties to develop an alternative model to assure the appropriate legislative, executive, and judicial branch roles in reviewing agency rules. I have signed Engrossed Substitute Senate Bill No. 6037 today which commits to study an independent rules review commission as a possible alternative to JARRC. I intend to work with the legislature in exploring this option. In addition, the legislature retains the right to reject an agency rule through a bill adopted by both the House of Representatives and the Senate which goes to the governor for approval. This is consistent with the inherent constitutional principles concerning the appropriate role of the three branches of government.

There are other provisions relating to JARRC which give me great concern for similar reasons. One is in section 201(5)(a)(ii) which purports to allow JARRC to require any agency rule to be bound

by the elaborate rule making criteria in section 201. This is not just for "significant legislative rules," as recommended by the task force, but for any rule. This includes interpretive and procedural rules which are within the unique province of agencies to adopt. However, because this provision is in section 201, I must either veto that entire section or allow this JARRC intrusion into executive branch affairs. I have reluctantly opted for the latter approach, in spite of the unconstitutional nature of this provision.

Section 404 allows JARRC to require agencies to prepare a small business economic impact statement when adopting rules to conform to federal law or regulation. This provision also raises constitutional questions; however, a veto of this section would result in the elimination of the underlying exemption from the automatic requirement for agencies to develop these statements. This would impose an unreasonable burden on state agencies. If JARRC seeks to implement this provision, I trust it will do so with appropriate restraint and with a view toward cooperation with the executive agencies. It is with that understanding, that I am approving this provision.

For these reasons, I have vetoed sections 110, 112, 113, 114, 115, 116, 119, and 504 of Engrossed Substitute House Bill No. 1010.

With the exception of sections 110, 112, 113, 114, 115, 116, 119, and 504, Engrossed Substitute House Bill No. 1010 is approved.

Respectfully submitted,
Mike Lowry, Governor

MOTION

Representative Reams moved that section 112 of Engrossed Substitute House Bill No. 1010 do pass the House notwithstanding the Governor's veto.

POINT OF PERSONAL PRIVILEGE

Representative Conway: Thank you Mr. Speaker. I would prefer to have these sections before us before we vote.

Mr. Speaker. Representative Conway, In the back of the room there are copies of the bill if you just open it to that section you will have them before you.

Representative Conway: Mr. Speaker, I don't think one copy back here is enough for the legislative body, I think we could refer a little bit here so we can have copies of this particular act and the proposed changes to this act before us before we do vote. There's a lot of confusion here over some of this language and I think it would be proper that we have it all before us before we're asked to vote on this. Thank you.

Mr. Speaker: Representative Conway, we'll deliver you a copy for your purposes.

POINT OF INQUIRY

Representative Reams yielded to a question by Representative Kremen.

Representative Kremen: Is there anything that we're voting on right now that changes the prevailing wage Law of Washington State.

Representative Reams: The best answer is "On page 9, New Section 112, provided that this section shall not apply to rules adopted pursuant to chapter 39.12 RCW. The answer is it does not affect it, In fact it specifically takes care of this problem.

Representatives Reams spoke in favor of the motion and Representatives Romero, Rust and Conway spoke against the motion.

Representative Mielke demand an oral roll call vote and the demand was sustained.

The Speaker stated the question before the House to be the final passage of section 112 of Engrossed Substitute House Bill No. 1010 do pass the House notwithstanding the Governor's veto.

Voting yea: Representatives Backlund, Ballasiotes, Beeksma, Benton, Blanton, Boldt, Brumsickle, Buck, Cairnes, Campbell, Carlson, Carrell, Casada, Chandler, Clements, Cooke, Crouse, Delvin, Dyer, Elliot, Foreman, Fuhrman, Goldsmith, Hankins, Hargrove, Hickel, Horn, Huff, Hymes, Johnson, Koster, Kremen, Lambert, Lisk, Mastin, McMahan, McMorris, Mielke, Mitchell, Pelesky, Pennington, Radcliff, Reams, Robertson, Schmidt, D., Schmidt, K., Schoesler, Sehlin, Sheahan, Sheldon, Sherstad, Silver, Skinner, Smith, Sterk, Stevens, Talcott, Thomas, B., Thomas, L., Thompson, Van Luven and Mr. Speaker - 62.

Voting nay: Representatives Appelwick, Basich, Brown, Chappell, Cody, Cole, Conway, Costa, Dickerson, Ebersole, Fisher, G., Fisher, R., Grant, Hatfield, Jacobsen, Mason, Morris, Ogden, Poulsen, Quall, Regala, Romero, Rust, Scott, Sommers, Thibaudeau, Tokuda, Valle, Veloria and Wolfe - 30.

Excused: Representatives Chopp, Dellwo, Honeyford, Kessler, Mulliken and Patterson - 6.

Section 112 of Engrossed Substitute House Bill No. 1010, notwithstanding the Governor's veto, having received the constitutional majority, was declared passed.

Representative Campbell changed his vote from a NAY to a YEA.

POINT OF ORDER

Representative Appelwick: Thank you Mr. Speaker. The Rules of the House require all members present in the Bar of the House to vote on a pending action. Representative Patterson was clearly present and witnessed by all the members to be present before the Clerk called the roll. Mr. Speaker, I believe that closing the rules would have violated the House Rules and subjected the veto override to a legal challenge.

SPEAKER'S PRIVILEGE

Mr. Speaker: Also the Rules call that members excused and Representative Patterson and Representative Quall were excused. Representative Quall did vote while the vote count was going on; Representative Patterson was late.

POINT OF ORDER

Representative Appelwick: Thank you Mr. Speaker. As you hold the vote total open for Representative Campbell's change, Representative Patterson was clearly on the floor, fully observed. Clearly our request for a Point of Order and your attention to make sure that the Clerk register her presence and gave her a chance to vote were noted. This is an extraordinary and very disappointing miss-use of the Rules Mr. Speaker.

POINT OF ORDER

Representative Ebersole: Thank you Mr. Speaker. Just to register our view on the issue for future precedent we would that as long as a member is present on the floor before the vote total is announced in an Oral Roll Call they do have the right to vote in this case and in the future. Thank you for your consideration.

SPEAKER'S PRIVILEGE

The Speaker would like to attempt to clarify some of the discussions and happenings on the floor in the last few minutes. Whether or not a member who is excused can come onto the floor during the vote while they are excused without being recognized as not being excused creates a question.

Example, we are using electronic roll call and somebody walks onto the floor as the vote is being cast it's impossible for them to vote because the machine is locked open. However, in this case we were doing an oral roll call and so obviously the last member who appeared on the floor could have to a verbal response; voted yes or no. However, in this case, the outcome of the vote and passage of the motion would not have been affected. The motion still would have been adopted. Representative Patterson, if she wishes to put a note in the Journal explaining she was on the floor and because of this happening would have voted no; please do so.

There are a number of other things we have gone through in our Rules that leaves us in a gray area and could make a ruling either way.

There being no objection, Representative Patterson was no longer excused under the Call of the House.

Representative Reams moved that section 113 of Engrossed Substitute House Bill No. 1010, do pass the House notwithstanding the Governor's veto.

MESSAGE FROM THE GOVERNOR

May 16, 1995

To the Honorable Speaker and Members,
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval, Substitute House Bill No. 1110 entitled:

"AN ACT Relating to the department of natural resources;"

Substitute House Bill No. 1110 amends Department of Natural Resources (DNR) statutes and the Budget and Accounting Act to require DNR to report to the legislature on the implementation of any long-term land management agreements -- such as a Habitat Conservation Plan -- between DNR and the federal government. The bill also requires DNR to provide specific information related to these agreements along with its biennial budget. This information would include expenditures during the previous biennium, an analysis of the impact of the agreement on state lands, and funding requirements to implement the agreement in the next biennium.

The specific information requested by this bill is unclear and is subject to misinterpretation and misunderstanding between DNR and the legislature. Rather than permanently amending the Budget and Accounting Act, the legislature can request that specific information be made available as part of the next biennial budget process. Although I am vetoing Substitute House Bill No. 1110, I request the legislature to include language clarifying its intent in the final DNR 1995-97 operating budget. This will provide the legislature with the information desired while avoiding a continuing requirement of DNR.

For these reasons, I have vetoed Substitute House Bill No. 1110 in its entirety.

Respectfully submitted,
Mike Lowry, Governor

(2) The rate of the tax shall equal one-tenth of one percent of the selling price in the case of a sales tax, or value of the article used in the case of a use tax. The tax imposed under this section shall not be credited against any other tax imposed upon the same taxable event.

(3) The revenue from the tax imposed under this section shall be used for the purpose of principal and interest payments on bonds issued by a public facilities district, created within the county under chapter 36.100 RCW, to acquire, construct, own, remodel, maintain, equip, reequip, repair, and operate a baseball stadium with a retractable roof or canopy and natural turf. If the revenue from the tax imposed under this section exceeds the amount needed for such principal and interest payments in any year, the excess shall be used solely for either or both: (a) Early retirement of the bonds issued for the baseball stadium; or (b) retirement of bonds issued for expanding, remodeling, repairing, or reequipping of a multipurpose stadium that has a seating capacity over forty-five thousand.

(4) The tax authorized under this section may be collected only after the county executive has certified to the department of revenue that a professional major league baseball team has made a binding and legally enforceable contractual commitment to:

(a) Play at least ninety percent of its home games in the stadium for a period of time not shorter than the term of the bonds issued to finance the initial construction of the stadium;

(b) Contribute principal of forty-five million dollars toward the bonded cost of construction of the stadium, which contribution shall be made during a term not to exceed the term of the bonds issued to finance the initial construction of the stadium. If all or part of the contribution is made after the date of issuance of the bonds, the team shall contribute an additional amount equal to the accruing interest on the deferred portion of the contribution, calculated at the interest rate on the bonds maturing in the year in which the deferred contribution is made; and

(c) Share a portion of the profits generated by the baseball team from the operation of the professional franchise for a period of time equal to the term of the bonds issued to finance the initial construction of the stadium, after offsetting any losses incurred by the baseball team after the effective date of this act. Such profits and the portion to be shared shall be defined by agreement between the public facilities district and the baseball team. The shared profits shall be used to retire the bonds issued to finance the initial construction of the stadium. If the bonds are retired before the expiration of their term, the shared profits shall be paid to the public facilities district.

(5) The tax imposed under this section shall expire when the bonds issued for the construction of the new public facilities are retired, but not later than twenty years after the tax is first collected.

- (5) Automobile parking charges if the amount of the charge is determined according to the number of passengers in the automobile.

Sec. 9. RCW 36.38.010 and 1963 c 4 s 36.38.010 are each amended to read as follows:

(1) Any county may by ordinance enacted by its (~~board of~~) county (~~commissioners~~) legislative authority, levy and fix a tax of not more than one cent on twenty cents or fraction thereof to be paid for county purposes by persons who pay an admission charge to any place, including a tax on persons who are admitted free of charge or at reduced rates to any place for which other persons pay a charge or a regular higher charge for the same or similar privileges or accommodations; and require that one who receives any admission charge to any place shall collect and remit the tax to the county treasurer of the county: PROVIDED, No county shall impose such tax on persons paying an admission to any activity of any elementary or secondary school.

(2) As used in this chapter, the term "admission charge" includes a charge made for season tickets or subscriptions, a cover charge, or a charge made for use of seats and tables, reserved or otherwise, and other similar accommodations; a charge made for food and refreshments in any place where any free entertainment, recreation, or amusement is provided; a charge made for rental or use of equipment or facilities for purpose of recreation or amusement, and where the rental of the equipment or facilities is necessary to the enjoyment of a privilege for which a general admission is charged, the combined charges shall be considered as the admission charge. It shall also include any automobile parking charge where the amount of such charge is determined according to the number of passengers in any automobile.

(3) The tax herein authorized shall not be exclusive and shall not prevent any city or town within the taxing county, when authorized by law, from imposing within its corporate limits a tax of the same or similar kind: PROVIDED, That whenever the same or similar kind of tax is imposed by any such city or town, no such tax shall be levied within the corporate limits of such city or town by the (~~board of~~) county (~~commissioners~~), except that the legislative authority of a county with a population of one million or more may exclusively levy a tax on events in stadiums constructed on or after January 1, 1995, that are owned by county government or a public facilities district under chapter 36.100 RCW and that have seating capacities over forty thousand at the rate of not more than one cent on twenty cents or fraction thereof.

(4) By contract, the county shall obligate itself to provide the revenue from the tax authorized by this section on events in stadia owned, managed, or operated by a public facilities district, having

seating capacities over forty thousand, and constructed on or after January 1, 1995, to the public facilities district.

Sec. 10. RCW 67.28.180 and 1995 c ... (Engrossed Substitute Senate Bill No. 5943) s 8 are each amended to read as follows:

(2) Any levy authorized by this section shall be subject to the following:

(a) Any county ordinance or resolution adopted pursuant to this section shall contain, in addition to all other provisions required to conform to this chapter, a provision allowing a credit against the county tax for the full amount of any city tax imposed pursuant to this section upon the same taxable event.

(b) In the event that any county has levied the tax authorized by this section and has, prior to June 26, 1975, either pledged the tax revenues for payment of principal and interest on city revenue or general obligation bonds authorized and issued pursuant to RCW 67.28.150 through 67.28.160 or has authorized and issued revenue or general obligation bonds pursuant to the provisions of RCW 67.28.150 through 67.28.160, such county shall be exempt from the provisions of (a) of this subsection, to the extent that the tax revenues are pledged for payment of principal and interest on bonds issued at any time pursuant to the provisions of RCW 67.28.150 through 67.28.160: PROVIDED, That so much of such pledged tax revenues, together with any investment earnings thereon, not immediately necessary for actual payment of principal and interest on such bonds may be used: (i) In any county with a population of one million or more, for repayment either of limited tax levy general obligation bonds or of any county fund or account from which a loan was made, the proceeds from the bonds or loan being used to pay for constructing, installing, improving, and equipping stadium capital improvement projects, and to pay for any engineering, planning, financial, legal and professional services incident to the development of such stadium capital improvement projects, regardless of the date the debt for such capital improvement projects was or may be incurred; or (ii) in other counties, for county-owned facilities for agricultural promotion. A county is exempt under this subsection in respect to city revenue or general obligation bonds issued after April 1, 1991, only if such bonds mature before January 1, 2013.

As used in this subsection (2)(b), "capital improvement projects" may include, but not be limited to a stadium restaurant facility, restroom facilities, artificial turf system, seating facilities, parking facilities and scoreboard and information system adjacent to or within a county owned stadium, together with equipment, utilities, accessories and appurtenances necessary thereto. The stadium restaurant authorized by this subsection (2)(b) shall be operated by a private concessionaire under a contract with the county.

(c) No city within a county exempt under subsection (2)(b) of this section may levy the tax authorized by this section so long as said county is so exempt: PROVIDED, That in the event that any city in such county has levied the tax authorized by this section and has, prior to June 26, 1975, authorized and issued revenue or general obligation bonds pursuant to the provisions of RCW 67.28.150 through 67.28.160, such city may levy the tax so long as the tax revenues are pledged for payment of principal and interest on bonds issued at any time pursuant to the provisions of RCW 67.28.150 through 67.28.160.

(3) Any levy authorized by this section by a county that has levied the tax authorized by this section and has, prior to June 26, 1975, either pledged the tax revenues for payment of principal and interest on city revenue or general obligation bonds authorized and issued pursuant to RCW 67.28.150 through 67.28.160 or has authorized and issued revenue or general obligation bonds pursuant to the provisions of RCW 67.28.150 through 67.28.160 shall be subject to the following:

Expenditures for operation or maintenance include all expenditures other than expenditures that directly result in new fixed assets or that directly increase the capacity, life span, or operating economy of existing fixed assets.

(h) No ad valorem property taxes may be used for debt service on bonds issued for a public stadium that is financed by bonds to which the tax is pledged, unless the taxes collected under this section are or are projected to be insufficient to meet debt service requirements on such bonds.

(i) If a substantial part of the operation and management of a public stadium that is financed directly or indirectly by bonds to which the tax is pledged is performed by a nonpublic entity or if a public stadium is sold that is financed directly or indirectly by bonds to which the tax is pledged, any bonds to which the tax is pledged shall be retired. This subsection (3)(i) does not apply in respect to a public stadium transferred to, owned by, or constructed by a public facilities district under chapter 36.100 RCW.

(j) The county shall not lease a public stadium that is financed directly or indirectly by bonds to which the tax is pledged to, or authorize the use of the public stadium by, a professional major league sports franchise unless the sports franchise gives the right of first refusal to purchase the sports franchise, upon its sale, to local government. This subsection (3)(j) does not apply to contracts in existence on April 1, 1986.

If a court of competent jurisdiction declares any provision of this subsection (3) invalid, then that invalid provision shall be null and void and the remainder of this section is not affected.

(1) The board of directors of any of the state's school districts may make available liability, life, health, health care, accident, disability and salary protection or insurance or any one of, or a combination of the enumerated types of insurance, or any other type of insurance or protection, for the members of the boards of directors, the students, and employees of the school district, and their dependents. Such coverage may be provided by contracts with private carriers, with the state health care authority after July 1, 1990, pursuant to the approval of the authority administrator, or through self-insurance or self-funding pursuant to chapter 48.62 RCW, or in any other manner authorized by law. ~~((Except for health benefits purchased with nonstate funds as provided in RCW 28A.400.200, effective on and after October 1, 1995, health care coverage, life insurance, liability insurance, accidental death and dismemberment insurance, and disability income insurance shall be provided only by contracts with the state health care authority.))~~

The school district board of directors may require any student participating in extracurricular interschool activities to, as a condition of participation, document evidence of insurance or purchase insurance that will provide adequate coverage, as determined by the school district board of directors, for medical expenses incurred as a result of injury sustained while participating in the extracurricular activity. In establishing such a requirement, the district shall adopt regulations for waiving or reducing the premiums of such coverage as may be offered through the school district to students participating in extracurricular activities, for those students whose families, by reason of their low income, would have difficulty paying the entire amount of such insurance premiums. (4) All contracts for insurance or protection written to take advantage of the provisions of this section shall provide that the beneficiaries of such contracts may utilize on an equal participation basis the services of those practitioners licensed pursuant to chapters 18.22, 18.25, 18.53, 18.57, and 18.71 RCW.

For the purpose of accurately describing professional health services purchased by the state, health-related state agencies may develop fee schedules based on billing codes and service descriptions published by the American medical association or the United States federal health care financing administration, or develop agency unique codes and service descriptions.

(1) Credit union deductions: PROVIDED, That twenty-five or more employees of a single state agency or a total of one hundred or more state employees of several agencies have authorized such a deduction for payment to the same credit union. (7) Insurance contributions to the authority for payment of premiums under contracts authorized by the state health care authority. However, enrollment or assignment by the state health care authority to participate in a health care benefit plan, as required by RCW 41.05.065(5), shall authorize a payroll deduction of premium contributions without a written consent under the terms and conditions established by the public employees benefits board.

(8) Deductions to a bank, savings bank, or savings and loan association if (a) the bank, savings bank, or savings and loan association is authorized to do business in this state; and (b) twenty-five or more employees of a single agency, or fewer, if a lesser number is established by such agency, or a total of one hundred or more state employees of several agencies have authorized a deduction for payment to the same bank, savings bank, or savings and loan association.

All such contributions will be paid into the public employees' health insurance account.

(2) The contributions of any department, division, or separate agency of the state government, and such county, municipal, or other political subdivisions as are covered by this chapter, shall be set by the authority, subject to the approval of the governor for availability of funds as specifically appropriated by the legislature for that purpose. The appropriation in this section is subject to the following conditions and limitations:

(1) \$150,000.00 of the state building construction account appropriation is provided solely for the master plan for the improvements to the hatchery. The master plan's primary consideration is to identify, prioritize, and design improvements which will aid in the continued production of salmon at this facility. The master plan shall also focus on improvements which will enable this facility with the merger of the departments to aid in wild stock restoration for migratory fish species previously under management of the department of wildlife. It shall also consider the educational, cultural, watershed management, research, tourism, tribal interests, and community development aspects of the hatchery. This master plan shall incorporate participation and recommendations from the Issaquah fishery management task force. A report is due to the legislature by January 1996.

(2) State dollars for construction and improvements shall be matched by at least \$1.00 from nonstate sources for each dollar provided by the state. Up to \$150,000.00 of the construction and improvement appropriation shall be immediately released and combined with matching funds to expedite in-stream improvements which meet the following criteria: Improvements will be designed and constructed which: (a) Facilitate better fish passage for utilization of up-stream habitat; (b) provide for flexible management strategies for a variety of fish stocks including small runs, threatened or endangered species and game fish; (c) minimally impact future operating expenses while reaching these objectives; and (d) provide for raising of the pumps at the lower intake and make other improvements which protect in-stream structures from seasonal high water.

(3) The remainder of the funds may be spent for hatchery improvements following approval of the master plan by the office of financial management.

NEW SECTION. Sec. 805. The amounts shown under the headings "Prior Biennia," "Future Biennia," and "Total" in this act are for informational purposes only and do not constitute legislative approval of these amounts.

NEW SECTION. Sec. 806. "Reappropriations" in this act are appropriations and, unless the context clearly provides otherwise, are subject to the relevant conditions and limitations applicable to appropriations. Reappropriations shall be limited to the unexpended balances remaining on June 30, 1995, in the 1993-95 biennial appropriations for each project.

NEW SECTION. Sec. 807. To carry out the provisions of this act, the governor may assign responsibility for predesign, design, construction, and other related activities to any appropriate agency.

NEW SECTION. Sec. 808. If any federal moneys appropriated by this act for capital projects are not received by the state, the department or agency to which the moneys were appropriated may replace the federal moneys with funds available from private or local sources. No replacement may occur under this section without the prior approval of the director of financial management in

consultation with the senate committee on ways and means and the house of representatives committee on capital budget.

NEW SECTION. Sec. 809. (1) Unless otherwise stated, for all appropriations under this act that require a match of nonstate money or in-kind contributions, the following requirement, consistent with RCW 43.88.150, shall apply: Expenditures of state money shall be timed so that the state share of project expenditures never exceeds the intended state share of total project costs.

(2) Provision of the full amount of required matching funds is not required to permit the expenditure of capital budget appropriations for phased projects if a proportional amount of the required matching funds is provided for each distinct, identifiable phase of the project.

NEW SECTION. Sec. 810. Notwithstanding any other provisions of law, for the 1995-97 biennium, transfers of reimbursement by the state treasurer to the general fund from the community college capital projects account for debt service payments made under Title 28B RCW shall occur only after such debt service payment has been made and only to the extent that funds are actually available to the account. Any unpaid reimbursements shall be a continuing obligation against the community college capital projects account until paid. The state board for community and technical colleges need not accumulate any specific balance in the community college capital projects account in anticipation of transfers to reimburse the general fund.

NEW SECTION. Sec. 811. Any capital improvements or capital projects involving construction or major expansion of a state office facility, including, but not limited to, district headquarters, detachment offices, and off-campus faculty offices, shall be reviewed by the office of financial management and the department of general administration for possible consolidation, collocation, and compliance with state office standards before allotment of funds. The intent of the requirement imposed by this section is to eliminate duplication and reduce total office space requirements where feasible, while ensuring proper service to the public.

NEW SECTION. Sec. 812. The governor, through the office of financial management, may authorize a transfer of appropriation authority provided for a capital project that is in excess of the amount required for the completion of such project to another capital project for which the appropriation is insufficient. No such transfer may be used to expand the capacity of any facility beyond that intended by the legislature in making the appropriation. Such transfers may be effected only between capital appropriations to a specific department, commission, agency, or institution of higher education and only between capital projects that are funded from the same fund or account. No transfers may occur between projects to local government agencies except where the grants are provided within a single omnibus appropriation and where such transfers are specifically authorized by the implementing statutes which govern the grants.

For purposes of this section, the governor may find that an amount is in excess of the amount required for the completion of a project only if: (1) The project as defined in the notes to the budget document is substantially complete and there are funds remaining; or (2) bids have been let on a project and it appears to a substantial certainty that the project as defined in the notes to the budget document can be completed within the biennium for less than the amount appropriated in this act.

For the purposes of this section, the legislature intends that each project be defined as proposed to the legislature in the governor's budget document, unless it clearly appears from the legislative history that the legislature intended to define the scope of a project in a different way.

A report of any transfer effected under this section except emergency projects or any transfer under \$250,000 shall be filed with the legislative fiscal committees of the senate and house of representatives by the director of financial management at least thirty days before the date the transfer is effected. The director shall report all emergency or smaller transfers within thirty days from the date of transfer.

NEW SECTION. Sec. 813. To ensure that major construction projects are carried out in accordance with legislative and executive intent, appropriations in this act referencing this section or in

excess of \$5,000,000 shall not be expended until the office of financial management has reviewed the agency's predesign and other documents and approved an allotment for the project. The predesign document shall include but not be limited to program, site, and cost analysis in accordance with the predesign manual adopted by the office of financial management.

NEW SECTION. **Sec. 814.** Allotments for appropriations shall be provided in accordance with the capital project review requirements adopted by the office of financial management. The office of financial management shall notify the house of representatives capital budget committee and the senate ways and means committee of allotment releases based on review by the office of financial management.

NEW SECTION. **Sec. 815.** Appropriations for design and construction of facilities on higher education branch campuses shall proceed only after funds are allotted to institutions of higher education on the basis of: (1) Comparable unit cost standards, as determined by the office of financial management in consultation with the higher education coordinating board; (2) costs consistent with other higher education teaching facilities in the state; (3) student full-time equivalent enrollment levels as established by the office of financial management in consultation with the higher education coordinating board; and (4) branch campus facility utilization policies and standards as determined by the office of financial management in consultation with the higher education coordinating board. The office of financial management shall report to the appropriate committees of the legislature, by December 1, 1996, the standards, policies and enrollment levels used as the basis for allotting funds for branch campus design and construction.

NEW SECTION. **Sec. 816.** The department of information services shall act as lead agency in coordinating video telecommunications services for state agencies. As lead agency, the department shall develop standards and common specifications for leased and purchased telecommunications equipment and assist state agencies in developing a video telecommunications expenditure plan. No agency may spend any portion of any appropriation in this act for new video telecommunications equipment, new video telecommunications transmission, or new video telecommunications systems without first complying with chapter 43.105 RCW, including but not limited to RCW 43.105.041(2), and without first submitting a video telecommunications equipment expenditure plan, in accordance with the policies of the department of information services, for review and assessment by the department of information services under RCW 43.105.052. Before any such expenditure by a public school, a video telecommunications expenditure plan shall be approved by the superintendent of public instruction. The office of the superintendent of public instruction shall submit the plans to the department of information services in a form prescribed by the department. The office of the superintendent of public instruction shall coordinate the use of the video telecommunications in public schools by providing educational information to local school districts and shall assist local school districts and educational service districts in telecommunications planning and curriculum development. Before any such expenditure by a public institution of postsecondary education, a telecommunications expenditure plan shall be approved by the higher education coordinating board. The higher education coordinating board shall coordinate the use of video telecommunications for instruction and instructional support in postsecondary education, including the review and approval of instructional telecommunications course offerings.

NEW SECTION. **Sec. 817.** The department of natural resources shall submit economic assumptions and forecast methodology for trust revenues to the economic and revenue forecast work group. The supervisor of the economic and revenue forecast council shall include the forecast of trust revenues in the economic and revenue forecasts described in RCW 82.33.020.

NEW SECTION. **Sec. 818.** No moneys in this act shall be used to develop facilities for juvenile offenders at Rainier school.

NEW SECTION. **Sec. 819.** STUDYING THE FEASIBILITY OF ESTABLISHING A POOLED REVENUE DISTRIBUTION SYSTEM FOR STATE TRUST LANDS. The board of natural resources shall evaluate the feasibility of establishing a pooled revenue distribution system for state lands, as defined in RCW 79.01.004, to provide a more consistent and predictable revenue stream to trust beneficiaries. For the purposes of this section, a "pooled revenue distribution system" means a system that distributes revenues to each trust beneficiary based on the proportional net present value of revenue forecasted for each trust ownership over a defined time period. Actual revenue distribution to each trust during a fiscal period would be based on the assigned proportional benefit multiplied by the actual total revenues produced from all state lands during the period. The board shall report to the legislature on its evaluation, including any recommendations for implementation, by November 1, 1995. The report shall include necessary modifications to the legal framework governing state trust land revenues, and a proposed valuation methodology, as well as a forecast of potential revenue distributions using a pooled revenue distribution system.

NEW SECTION. **Sec. 820.** If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected.

NEW SECTION. **Sec. 821.** This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and shall take effect immediately.

In determining the fiscal impact of this proposal several assumptions were made regarding the scope of manufacturing and processing included in the recommendations. and the same is herewith transmitted.

Reducing property taxes.

The bill was read the second time. Committee on Finance recommendation. Majority, do pass as amended. (For committee amendment see Journal, 11th Day, January 19, 1995.)

There being no objection, the committee amendment was not adopted.

Representative B. Thomas moved adoption of the following amendment by Representative B. Thomas:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. With property valuations continuing to increase, property taxes have been steadily increasing. At the same time, personal incomes have not continued to rise at the same rate. Property taxes are becoming increasingly more difficult to pay. Many residential property owners complain about the overall level of taxes and about the continuing increase in tax from year to year. Taxpayers want property tax relief. The legislature intends to establish an on-going program of state property tax reductions the amount of which is to be determined by the legislature on a yearly basis based on the level of general fund tax revenues.

NEW SECTION. Sec. 2. A new section is added to chapter 84.55 RCW to read as follows:

(1) The state property tax levy for collection in 1996 shall be reduced by 4.7187 percent of the levy amount that would otherwise be allowed under this chapter without regard to this section or any other tax reduction legislation enacted in 1995.

(2) The tax reduction provided in this section is in addition to any other tax reduction legislation that may be enacted by the legislature.

(3) State levies for collection after 1996 shall be set at the amount that would be allowed otherwise under this chapter if the state levy for collection in 1996 had been set without the reduction under subsection (1) of this section.

Sec. 3. RCW 84.48.080 and 1994 c 301 s 43 are each amended to read as follows:

(1) Annually during the months of September and October, the department of revenue shall examine and compare the returns of the assessment of the property in the several counties of the state,

and the assessment of the property of railroad and other companies assessed by the department, and proceed to equalize the same, so that each county in the state shall pay its due and just proportion of the taxes for state purposes for such assessment year, according to the ratio the valuation of the property in each county bears to the total valuation of all property in the state.

First. The department shall classify all property, real and personal, and shall raise and lower the valuation of any class of property in any county to a value that shall be equal, so far as possible, to the true and fair value of such class as of January 1st of the current year for the purpose of ascertaining the just amount of tax due from each county for state purposes. In equalizing personal property as of January 1st of the current year, the department shall use the assessment level of the preceding year. Such classification may be on the basis of types of property, geographical areas, or both. For purposes of this section, for each county that has not provided the department with an assessment return by December 1st, the department shall proceed, using facts and information and in a manner it deems appropriate, to estimate the value of each class of property in the county.

Second. The department shall keep a full record of its proceedings and the same shall be published annually by the department.

(2) The department shall levy the state taxes authorized by law(~~(= PROVIDED, That)~~). The amount levied in any one year for general state purposes shall not exceed the lawful dollar rate on the dollar of the assessed value of the property of the entire state, which assessed value shall be one hundred percent of the true and fair value of such property in money. The department shall apportion the amount of tax for state purposes levied by the department, among the several counties, in proportion to the valuation of the taxable property of the county for the year as equalized by the department: PROVIDED, That for purposes of this apportionment, the department shall recompute the previous year's levy and the apportionment thereof to correct for changes and errors in taxable values reported to the department after October 1 of the preceding year and shall adjust the apportioned amount of the current year's state levy for each county by the difference between the apportioned amounts established by the original and revised levy computations for the previous year. For purposes of this section, changes in taxable values mean a final adjustment made by a county board of equalization, the state board of tax appeals, or a court of competent jurisdiction and shall include additions of omitted property, other additions or deletions from the assessment or tax rolls, any assessment return provided by a county to the department subsequent to December 1st, or a change in the indicated ratio of a county. Errors in taxable values mean errors corrected by a final reviewing body.

In addition to computing a levy under this subsection that is reduced under section 2 of this act, the department shall compute a hypothetical levy without regard to the reduction under section 2 of this act. This hypothetical levy shall also be apportioned among the several counties in proportion to the valuation of the taxable property of the county for the year, as equalized by the department, in the same manner as the actual levy and shall be used by the county assessors for the purpose of recomputing and establishing a consolidated levy under RCW 84.52.010.

(3) The department shall have authority to adopt rules and regulations to enforce obedience to its orders in all matters in relation to the returns of county assessments, the equalization of values, and the apportionment of the state levy by the department.

(4) After the completion of the duties (~~(hereinabove)~~) prescribed in this section, the director of the department shall certify the record of the proceedings of the department under this section, the tax levies made for state purposes and the apportionment thereof among the counties, and the certification shall be available for public inspection.

Sec. 4. RCW 84.52.010 and 1995 c 99 s 2 are each amended to read as follows:

Except as is permitted under RCW 84.55.050, all taxes shall be levied or voted in specific amounts.

The rate percent of all taxes for state and county purposes, and purposes of taxing districts coextensive with the county, shall be determined, calculated and fixed by the county assessors of the respective counties, within the limitations provided by law, upon the assessed valuation of the property of the county, as shown by the completed tax rolls of the county, and the rate percent of all taxes levied for purposes of taxing districts within any county shall be determined, calculated and fixed by the

county assessors of the respective counties, within the limitations provided by law, upon the assessed valuation of the property of the taxing districts respectively.

When a county assessor finds that the aggregate rate of tax levy on any property, that is subject to the limitations set forth in RCW 84.52.043 or 84.52.050, (~~as now or hereafter amended,~~) exceeds the limitations provided in either of these sections, the assessor shall recompute and establish a consolidated levy in the following manner:

(1) The full certified rates of tax levy for state, county, county road district, and city or town purposes shall be extended on the tax rolls in amounts not exceeding the limitations established by law; however any state levy shall take precedence over all other levies and shall not be reduced for any purpose other than that required by RCW 84.55.010. If, as a result of the levies imposed under RCW 84.52.069, 84.34.230, the portion of the levy by a metropolitan park district that was protected under RCW 84.52.--- (section 1, chapter 99, Laws of 1995), and 84.52.105, the combined rate of regular property tax levies that are subject to the one percent limitation exceeds one percent of the true and fair value of any property, then these levies shall be reduced as follows: (a) The portion of the levy by a metropolitan park district that is protected under RCW 84.52.--- (section 1, chapter 99, Laws of 1995) shall be reduced until the combined rate no longer exceeds one percent of the true and fair value of any property or shall be eliminated; (b) if the combined rate of regular property tax levies that are subject to the one percent limitation still exceeds one percent of the true and fair value of any property, then the levies imposed under RCW 84.34.230, 84.52.105, and any portion of the levy imposed under RCW 84.52.069 that is in excess of thirty cents per thousand dollars of assessed value, shall be reduced on a pro rata basis until the combined rate no longer exceeds one percent of the true and fair value of any property or shall be eliminated; and (c) if the combined rate of regular property tax levies that are subject to the one percent limitation still exceeds one percent of the true and fair value of any property, then the thirty cents per thousand dollars of assessed value of tax levy imposed under RCW 84.52.069 shall be reduced until the combined rate no longer exceeds one percent of the true and fair value of any property or eliminated.

(2) The certified rates of tax levy subject to these limitations by all junior taxing districts imposing taxes on such property shall be reduced or eliminated as follows to bring the consolidated levy of taxes on such property within the provisions of these limitations:

(a) First, the certified property tax levy rates of those junior taxing districts authorized under RCW 36.68.525, 36.69.145, and 67.38.130 shall be reduced on a pro rata basis or eliminated;

(b) Second, if the consolidated tax levy rate still exceeds these limitations, the certified property tax levy rates of flood control zone districts shall be reduced on a pro rata basis or eliminated;

(c) Third, if the consolidated tax levy rate still exceeds these limitations, the certified property tax levy rates of all other junior taxing districts, other than fire protection districts, library districts, the first fifty cent per thousand dollars of assessed valuation levies for metropolitan park districts, and the first fifty cent per thousand dollars of assessed valuation levies for public hospital districts, shall be reduced on a pro rata basis or eliminated;

(d) Fourth, if the consolidated tax levy rate still exceeds these limitations, the certified property tax levy rates authorized to fire protection districts under RCW 52.16.140 and 52.16.160 shall be reduced on a pro rata basis or eliminated; and

(e) Fifth, if the consolidated tax levy rate still exceeds these limitations, the certified property tax levy rates authorized for fire protection districts under RCW 52.16.130, library districts, metropolitan park districts under their first fifty cent per thousand dollars of assessed valuation levy, and public hospital districts under their first fifty cent per thousand dollars of assessed valuation levy, shall be reduced on a pro rata basis or eliminated.

In determining whether the aggregate rate of tax levy on any property, that is subject to the limitations set forth in RCW 84.52.050, exceeds the limitations provided in that section, the assessor shall use the hypothetical state levy, as apportioned to the county under RCW 84.48.080, that was computed under RCW 84.48.080 without regard to the reduction under section 2 of this act."

On page 1, line 1 of the title, after "taxes;" strike the remainder of the title and insert "amending RCW 84.48.080 and 84.52.010; adding a new section to chapter 84.55 RCW; and creating a new section."

No task force member shall be eligible for reimbursement of expenses under RCW 43.03.050 or 43.03.060. Nothing in this subsection prevents the legal aid programs from using funds appropriated in this act to reimburse their representatives or the individuals representing legal clients.

(iii) The task force will meet at least four times during the first year of the biennium and as frequently as necessary thereafter at mutually agreed upon times and locations. Any member of the task force may place items on meeting agendas. Members present at the first two task force meetings shall agree upon a format for subsequent meetings.

(b) The legislature recognizes that farmworkers have the right to receive basic information and to consult with attorneys at farm labor camps without fear of intimidation or retaliation. It is the intent of the legislature and in the interest of the public to ensure the safety of all persons affected by legal aid programs' farm labor camp outreach activities. Legal aid program employees have the legal right to enter the common areas of a labor camp or to request permission of employees to enter their dwellings. Employees living in grower supplied housing have the right to refuse entry to anyone including attorneys unless they have a warrant. Individual employees living in employer supplied housing do not have the right to force legal aid program employees to leave common areas of housing (outside) as long as one person who resides in the associated dwellings wants that person to be there. Any legal aid program employee wishing to visit employees housed on grower property has the right to enter the driveway commonly used by the housing occupants. This means that if agricultural employees must use a grower's personal driveway to get to their housing, legal aid program employees also may use that driveway to access the housing without a warrant so long as at least some of the housing is occupied. When conducting outreach activities that involve entry onto labor camps, legal

aid programs shall establish and abide by policies regarding conduct of outreach activities. The policies shall include a requirement that legal aid program employees identify themselves to persons whom they encounter at farm labor camps. The legal aid programs shall provide copies of their current outreach policies to known agricultural organizations and shall provide copies upon request to any owner of property on which farmworkers are housed. Legal aid program employees involved in outreach activities shall attempt to inform operators of licensed farm labor camps or their agents, and known grower organizations of the approximate time frame for outreach activities and shall cooperate with operators of farm labor camps at which farmworkers are housed in assuring compliance with all pertinent laws and ordinances, including those related to trespass and harassment. Employers who believe that Evergreen Legal Services Outreach Guidelines have been violated shall promptly provide all available information on the alleged violation to the director of Evergreen Legal Services and to the chair of the Task Force on Agricultural Interests/Legal Aid Relations. Evergreen Legal Services will promptly investigate any alleged violations of the outreach guidelines and inform the complaining party of the result. If the resolution of the investigation is not satisfactory to the complainant, the matter shall be placed on the Task Force agenda for discussion at the next scheduled meeting. Employers who believe that Evergreen Legal Services staff members have trespassed should immediately contact local law enforcement authorities.

(c) It is the intent of the legislature to provide the greatest amount of legal services to the largest number of clients by discouraging inefficient use of state funding for indigent legal representation. To this end, it is the intent of the legislature that, prior to the commencement of litigation against any private employer relating to the terms and conditions of employment legal aid programs receiving funds appropriated in this act make good faith written demand for the requested relief, a good faith offer of settlement or an offer to submit to nonbinding arbitration prior to filing a lawsuit, unless the making of the offer is, in the opinion of the director of the legal services program or his/her designee, clearly prejudicial to: (i) The health, safety, or security of the client; or (ii) the timely availability of judicial relief. The director of the legal aid program may designate not more than two persons for purposes of making the determination of prejudice permitted by this section.

(d)(i) The legislature encourages legal aid programs to devote their state and nonstate funding to the basic, daily legal needs of indigent persons. No funds appropriated under this act may be used for legal representation and activities outside the scope of RCW 43.08.260.

(ii) No funds appropriated in this act may be used for lobbying as defined in RCW 43.08.260(3). Legal aid programs receiving funds appropriated in this act shall comply with all restrictions on lobbying contained in Federal Legal Services Corporation Act (P.L. 99-951) and regulations promulgated thereunder.

(e) No funds appropriated in this act may be used by legal aid programs for representation of undocumented aliens.

(f) The legislature recognizes the duty of legal aid programs to preserve inviolate and prevent the disclosure of, in the absence of knowing and voluntary client consent, client information protected by the United States Constitution, the Washington Constitution, the attorney-client privilege, or any applicable attorney rule of professional conduct. However, to the extent permitted by applicable law, legal aid programs receiving funds appropriated in this act shall, upon request, provide information on their activities to the department and to legislators for purposes of monitoring compliance with authorizing legislation and this subsection.

(g) Nothing in this subsection is intended to limit the authority of existing entities, including but not limited to the Washington state bar association, the public disclosure commission, and the Federal Legal Services Corporation, to resolve complaints or disputes within their jurisdiction.

Solely for the purposes of this subsection, allocated classroom teachers shall be equal to the number of certificated instructional staff units allocated under subsection (2) of this section, multiplied by the ratio between the number of actual basic education certificated teachers and the number of actual basic education certificated instructional staff reported state-wide for the 1994-95 school year.

(8) Any school district board of directors may petition the superintendent of public instruction by submission of a resolution adopted in a public meeting to reduce or delay any portion of its basic education allocation for any school year. The superintendent of public instruction shall approve such reduction or delay if it does not impair the district's financial condition. Any delay shall not be for more than two school years. Any reduction or delay shall have no impact on levy authority pursuant to RCW 84.52.0531 and local effort assistance pursuant to chapter 28A.500 RCW.

(9) The superintendent may distribute a maximum of \$3,122,000 outside the basic education formula during fiscal years 1996 and 1997 as follows:

(11) If two or more school districts consolidate and each district was receiving additional basic education formula staff units pursuant to subsection (2) (b) through (h) of this section, the following shall apply:

(a) For three school years following consolidation, the number of basic education formula staff units shall not be less than the number of basic education formula staff units received by the districts in the school year prior to the consolidation; and

(b) For the fourth through eighth school years following consolidation, the difference between the basic education formula staff units received by the districts for the school year prior to consolidation and the basic education formula staff units after consolidation pursuant to subsection (2) (a) through (h) of this section shall be reduced in increments of twenty percent per year.

(1) The following calculations determine the salaries used in the general fund allocations for certificated instructional, certificated administrative, and classified staff units under section 502 of this act:

(a) Salary allocations for certificated instructional staff units shall be determined for each district by multiplying the district's certificated instructional derived base salary shown on LEAP Document 12C, by the district's average staff mix factor for basic education certificated instructional staff in that school year, computed using LEAP Document 1A; and

(b) Salary allocations for certificated administrative staff units and classified staff units for each district shall be based on the district's certificated administrative and classified salary allocation amounts shown on LEAP Document 12C.

(c) "LEAP Document 12C" means the computerized tabulation of 1995-96 and 1996-97 school year salary allocations for basic education certificated administrative staff and basic education classified staff and derived base salaries for basic education certificated instructional staff as developed by the legislative evaluation and accountability program committee on May 21, 1995, at 23:35 hours.

(3) Incremental fringe benefit factors shall be applied to salary adjustments at a rate of 20.07 percent for certificated staff and 15.27 percent for classified staff for both years of the biennium.

(d) "Years of service" shall be calculated under the same rules used by the superintendent of public instruction for salary allocations in the 1994-95 school year.

(e) "Credits" means college quarter hour credits and equivalent in-service credits computed in accordance with RCW 28A.415.020 or as hereafter amended.

(6) No more than ninety college quarter-hour credits received by any employee after the baccalaureate degree may be used to determine compensation allocations under the state salary allocation schedule and LEAP documents referenced in this act, or any replacement schedules and documents, unless:

(a) The employee has a masters degree; or

(b) The credits were used in generating state salary allocations before January 1, 1992.

(7)(a) Credits earned by certificated instructional staff after September 1, 1995, shall be counted only if the content of the course: (i) Is consistent with the school district's strategic plan for improving student learning; (ii) is consistent with a school-based plan for improving student learning developed under section 520(2) of this act for the school in which the individual is assigned; (iii) pertains to the individual's current assignment or expected assignment for the following school year; (iv) is necessary for obtaining an endorsement as prescribed by the state board of education; (v) is specifically required for obtaining advanced levels of certification; or (vi) is included in a college or university degree program that pertains to the individual's current assignment, or potential future assignment, as a certificated instructional staff.

(b) Once credits earned by certificated instructional staff have been determined to meet one or more of the criteria in (a) of this subsection, the credits shall be counted even if the individual transfers to other school districts.

(8) The salary allocation schedules established in this section are for allocation purposes only except as provided in RCW 28A.400.200(2).

NEW SECTION. Sec. 504. FOR THE SUPERINTENDENT OF PUBLIC INSTRUCTION--FOR SCHOOL EMPLOYEE COMPENSATION ADJUSTMENTS

TOTAL APPROPRIATION \$ 219,877,000

The appropriations in this section are subject to the following conditions and limitations:

(1) \$218,748,000 is provided for cost of living adjustments of 4.0 percent effective September 1, 1995, for state-formula staff units. The appropriation includes associated incremental fringe benefit

allocations for both years at rates 20.07 percent for certificated staff and 15.27 percent for classified staff.

(a) The appropriation in this section includes the increased portion of salaries and incremental fringe benefits for all relevant state funded school programs in PART V of this act. Salary adjustments for state employees in the office of superintendent of public instruction and the education reform program are provided in the Special Appropriations sections of this act. Increases for special education result from increases in each district's basic education allocation per student. Increases for educational service districts and institutional education programs are determined by the superintendent of public instruction using the methodology for general apportionment salaries and benefits in section 503 of this act.

(b) The appropriation in this section provides salary increase and incremental fringe benefit allocations for the following programs based on formula adjustments as follows:

(i) For pupil transportation, an increase of \$0.77 per weighted pupil-mile for the 1995-96 school year and maintained for the 1996-97 school year;

(ii) For learning assistance, an increase of \$11.24 per eligible student for the 1995-96 school year and maintained for the 1996-97 school year;

(4) The rates specified in this section are subject to revision each year by the legislature.

NEW SECTION. Sec. 505. INCREMENT SALARY INCREASES The appropriations in sections 502 through 519 of this act contain \$27,880,000 in fiscal year 1996 and \$63,950,000 in fiscal year 1997 for funding of experience and education increments for certificated instructional staff. This provides an average salary increase of 1.55 percent per year.

NEW SECTION. Sec. 506. FOR THE SUPERINTENDENT OF PUBLIC INSTRUCTION--FOR PUPIL TRANSPORTATION

NEW SECTION. Sec. 507. FOR THE SUPERINTENDENT OF PUBLIC INSTRUCTION--FOR SCHOOL FOOD SERVICE PROGRAMS

General Fund--State Appropriation (FY 1996) \$ 3,000,000

General Fund--State Appropriation (FY 1996) \$ 380,179,000
General Fund--State Appropriation (FY 1997) \$ 373,289,000
General Fund--Federal Appropriation \$ 98,684,000
TOTAL APPROPRIATION \$ 852,152,000

The appropriations in this section are subject to the following conditions and limitations:

(1) The general fund--state appropriation includes such funds as are necessary for the remaining months of the 1994-95 school year.

(2) In recognition of the need for increased flexibility at the local district level to facilitate the provision of appropriate education to children with disabilities, and the need for substantive educational reform for a significant portion of the school population, the funding formula for special education is modified. These changes result from a 1994 study and recommendations by the institute for public policy and the legislative budget committee, aided by the office of the superintendent of public instruction and the statewide task force for the development of special education funding alternatives. The new formula is for allocation purposes only and is not intended to prescribe or imply any particular pattern of special education service delivery other than that contained in a properly formulated, locally determined, individualized education program.

(3) The superintendent of public instruction shall distribute state funds to school districts based on two categories, the mandatory special education program for special education students ages three to twenty-one and the optional birth through age two program for developmentally delayed infants and toddlers. The superintendent shall review current state eligibility criteria for the fourteen special education categories and consider changes which would reduce assessment time and administrative costs associated with the special education program.

(4) For the 1995-96 and 1996-97 school years, the superintendent shall distribute state funds to each district based on the sum of:

(a) A district's annual average headcount enrollment of developmentally delayed infants and toddlers ages birth through two, times the district's average basic education allocation per full-time equivalent student, times 1.15; and

(b) A district's annual average full-time equivalent basic education enrollment times the enrollment percent, times the district's average basic education allocation per full-time equivalent student times 0.9309.

(5) The definitions in this subsection apply throughout this section.

(a) "Average basic education allocation per full-time equivalent student" for a district shall be based on the staffing ratios required by RCW 28A.150.260 (i.e., 49/1000 certificated instructional staff

in grades K-3, and 46/1000 in grades 4-12), and shall not include enhancements for K-3, secondary vocational education, or small schools.

(b) "Annual average full-time equivalent basic education enrollment" means the resident enrollment including students enrolled through choice (RCW 28A.225.225) and students from nonhigh districts (RCW 28A.225.210) and excluding students residing in another district enrolled as part of an interdistrict cooperative program (RCW 28A.225.250).

(c) "Enrollment percent" shall mean the district's resident special education annual average enrollment including those students counted under the special education demonstration projects, excluding the birth through age two enrollment, as a percent of the district's annual average full-time equivalent basic education enrollment. For the 1995-96 and the 1996-97 school years, each district's enrollment percent shall be:

(i) For districts whose enrollment percent for 1994-95 was at or below 12.7 percent, the lesser of the district's actual enrollment percent for the school year for which the allocation is being determined or 12.7 percent.

(ii) For districts whose enrollment percent for 1994-95 was above 12.7 percent, the lesser of:

(A) The district's actual enrollment percent for the school year for which the special education allocation is being determined; or

(B) The district's actual enrollment percent for the school year immediately prior to the school year for which the special education allocation is being determined; or

(C) For 1995-96, the 1994-95 enrollment percent reduced by 25 percent of the difference between the district's 1994-95 enrollment percent and 12.7. For 1996-97, the 1994-95 enrollment percent reduced by 50 percent of the difference between the district's 1994-95 enrollment percent and 12.7.

(6) A minimum of \$4.5 million of the general fund--federal appropriation shall be expended for safety net funding to meet the extraordinary needs of individual special education students.

(7) From the general fund--state appropriation, \$14,600,000 is provided for the 1995-96 school year, and \$19,575,000 for the 1996-97 school year, for safety net purposes for districts with demonstrable funding needs for special education beyond the combined amounts provided in subsection (4) of this section. The superintendent of public instruction shall, by rule, establish procedures and standards for allocation of safety net funds. School districts shall submit their requests for safety net funds to the appropriate regional committee established by the superintendent of public instruction. Regional committees shall make recommendations to the state oversight committee for approval. The following conditions and limitations shall be applicable to school districts requesting safety net funds:

(a) For a school district requesting state safety net funds due to special characteristics of the district and costs of providing services which differ significantly from the assumptions contained in the funding formula, the procedures and standards shall permit relief only if a district can demonstrate at a minimum that:

(i) Individualized education plans are appropriate and are properly and efficiently prepared and formulated;

(ii) The district is making a reasonable effort to provide appropriate program services for special education students utilizing state funds generated by the apportionment and special education funding formulas;

(iii) The district's programs are operated in a reasonably efficient manner and that the district has adopted a plan of action to contain or eliminate any unnecessary, duplicative, or inefficient practices;

(iv) Indirect costs charged to this program do not exceed the allowable percent for the federal special education program;

(v) Any available federal funds are insufficient to address the additional needs; and

(vi) The costs of any supplemental contracts are not charged to this program for purposes of making these determinations.

(b) For districts requesting safety net funds due to federal maintenance of effort requirements, the procedures and standards shall permit relief only if a district can demonstrate at a minimum that:

(i) Individualized education plans are appropriate and are properly and efficiently prepared and formulated;

(ii) The district is making a reasonable effort to provide appropriate program services for special education students utilizing state funds generated by the apportionment and special education funding formulas; and

(iii) Calculations made in accordance with subsection (8) of this section with respect to state fund allocations justify a need for additional funds for compliance with federal maintenance of effort requirements.

(8)(a) For purposes of making safety net determinations pursuant to subsection (7) of this section, the superintendent shall make available to each school district, from available data, prior to June 1st of each year:

(i) The district's 1994-95 enrollment percent;

(ii) For districts with a 1994-95 enrollment percent over 12.7 percent, the maximum 1995-96 enrollment percent, and prior to 1996-97 the maximum 1996-97 enrollment percent;

(iii) The estimate to be used for purposes of subsection (7) of this section of each district's 1994-95 special education allocation showing the excess cost and the basic education portions; and

(iv) If necessary, a process for each district to estimate the 1995-96 school year excess cost allocation for special education and the portion of the basic education allocation formerly included in the special education allocation. This process may utilize the allocations generated pursuant to subsection (4) of this section, each district's 1994-95 estimated basic education backout percent for the 1994-95 school year, and state compensation increases for 1995-96.

(b) The superintendent, in consultation with the state auditor, shall take all necessary steps to successfully transition to the new formula and minimize paperwork at the district level associated with maintenance of effort calculations. The superintendent shall develop such rules and procedures as are necessary to implement this process for the 1995-96 school year, and may use the same process for the 1996-97 school year if found necessary for federal maintenance of effort calculations.

(9) Prior to adopting any standards, procedures, or processes required to implement this section, the superintendent shall consult with the office of financial management and the fiscal committees of the legislature.

(10) Membership of the regional committees may include, but not be limited to:

(a) A representative of the superintendent of public instruction;

(b) One or more representatives from school districts including board members, superintendents, special education directors, and business managers; and

(c) One or more staff from an educational service district.

(11) The state oversight committee appointed by the superintendent of public instruction shall consist of:

(a) Staff of the office of superintendent of public instruction;

(b) Staff of the office of the state auditor;

(c) Staff from the office of the financial management; and

(d) One or more representatives from school districts or educational service districts knowledgeable of special education programs and funding.

(12) The institute for public policy, in cooperation with the superintendent of public instruction, the office of financial management, and the fiscal committees of the legislature, shall evaluate the operation of the safety nets under subsections (6) and (7) of this section and shall prepare an interim report by December 15, 1995, and a final report on the first school year of operation by October 15, 1996.

(13) A maximum of \$678,000 may be expended from the general fund--state appropriation to fund 5.43 full-time equivalent teachers and 2.1 full-time equivalent aides at Children's orthopedic hospital and medical center. This amount is in lieu of money provided through the home and hospital allocation and the special education program.

(14) \$1,000,000 of the general fund--federal appropriation is provided solely for projects to provide special education students with appropriate job and independent living skills, including work experience where possible, to facilitate their successful transition out of the public school system. The funds provided by this subsection shall be from federal discretionary grants.

(15) Not more than \$80,000 of the general fund--federal appropriation shall be expended for development of an inservice training program to identify students with dyslexia who may be in need of special education.

(17) Not more than \$458,000 of the general fund--state appropriation may be expended for the operation of the Pacific northwest export assistance project. The department will continue to implement a plan for assessing fees for services provided by the project. It is the intent of the legislature that the revenues raised to defray the expenditures of this program will be increased to fifty percent of the expenditures in fiscal year 1996 and seventy-five percent of the expenditures in fiscal year 1997. Beginning in fiscal year 1998, the legislature intends that this program will be fully self-supporting.

(18) \$4,804,000 of the public safety and education account appropriation is provided solely for contracts with qualified legal aid programs for civil indigent legal representation pursuant to RCW 43.08.260. It is the intent of the legislature to ensure that legal aid programs receiving funds appropriated in this act pursuant to RCW 43.08.260 comply with all applicable restrictions on use of these funds. To this end, during the 1995-97 fiscal biennium the department shall monitor compliance with the authorizing legislation, shall oversee the implementation of this subsection, and shall report directly to the appropriations committee of the house of representatives and the ways and means committee of the senate.

(a) It is the intent of the legislature to improve communications between legal aid programs and persons affected by the activities of legal aid programs. There is established for the 1995-97 fiscal biennium a task force on agricultural interests/legal aid relations. The task force shall promote better understanding and cooperation between agricultural interests and legal aid programs and shall provide a forum for discussion of issues of common concern. The task force shall not involve itself in pending litigation.

(i) The task force shall consist of the following sixteen members: Four representatives of agricultural organizations, to be appointed by the legislator members; two individuals who represent the corresponding interests of legal clients, to be appointed by organizations designated by the three legal services programs; two representatives of Evergreen Legal Services, to be appointed by its board of directors; one representative each from Puget Sound Legal Assistance Foundation and Spokane Legal Services Center, each to be appointed by its directors; one member from each of the majority and minority caucuses of the house of representatives, to be appointed by the speaker of the house of representatives; one member from each of the majority and minority caucuses of the senate, to be appointed by the president of the senate; and two members of the supreme court-appointed access to justice board, to be appointed by the board. During fiscal year 1996, the task force shall be chaired by a legislative member, to be selected by the task force members. During fiscal year 1997, the committee shall be chaired by a nonlegislator member, to be selected by the task force members.

(ii) All costs associated with the meetings shall be borne by the individual task force members or by the organizations that the individuals represent. No task force member shall be eligible for reimbursement of expenses under RCW 43.03.050 or 43.03.060. Nothing in this subsection prevents the legal aid programs from using funds appropriated in this act to reimburse their representatives or the individuals representing legal clients.

(iii) The task force will meet at least four times during the first year of the biennium and as frequently as necessary thereafter at mutually agreed upon times and locations. Any member of the task force may place items on meeting agendas. Members present at the first two task force meetings shall agree upon a format for subsequent meetings.

(b) The legislature recognizes that farmworkers have the right to receive basic information and to consult with attorneys at farm labor camps without fear of intimidation or retaliation. It is the intent of the legislature and in the interest of the public to ensure the safety of all persons affected by legal aid programs' farm labor camp outreach activities. Legal aid program employees have the legal right to enter the common areas of a labor camp or to request permission of employees to enter their dwellings. Employees living in grower supplied housing have the right to refuse entry to anyone including attorneys unless they have a warrant. Individual employees living in employer supplied housing do not have the right to force legal aid program employees to leave common areas of housing (outside) as long as one person who resides in the associated dwellings wants that person to be there. Any legal aid program employee wishing to visit employees housed on grower property has the right to enter the driveway commonly used by the housing occupants. This means that if agricultural employees must use a grower's personal driveway to get to their housing, legal aid program employees also may use that driveway to access the housing without a warrant so long as at least some of the housing is occupied. When conducting outreach activities that involve entry onto labor camps, legal aid programs shall establish and abide by policies regarding conduct of outreach activities. The policies shall include a requirement that legal aid program employees identify themselves to persons whom they encounter at farm labor camps. The legal aid programs shall provide copies of their current outreach policies to known agricultural organizations and shall provide copies upon request to any owner of property on which farmworkers are housed. Legal aid program employees involved in outreach activities shall attempt to inform operators of licensed farm labor camps or their agents, and known grower organizations of the approximate time frame for outreach activities and shall cooperate with operators of farm labor camps at which farmworkers are housed in assuring compliance with all pertinent laws and ordinances, including those related to trespass and harassment. Employers who believe that Evergreen Legal Services Outreach Guidelines have been violated shall promptly provide all available information on the alleged violation to the director of Evergreen Legal Services and to the chair of the Task Force on Agricultural Interests/Legal Aid Relations. Evergreen Legal Services will promptly investigate any alleged violations of the outreach guidelines and inform the complaining party of the result. If the resolution of the investigation is not satisfactory to the complainant, the matter shall be placed on the Task Force agenda for discussion at the next scheduled meeting. Employers who believe that Evergreen Legal Services staff members have trespassed should immediately contact local law enforcement authorities.

(c) It is the intent of the legislature to provide the greatest amount of legal services to the largest number of clients by discouraging inefficient use of state funding for indigent legal representation. To this end, it is the intent of the legislature that, prior to the commencement of litigation against any private employer relating to the terms and conditions of employment legal aid programs receiving funds appropriated in this act make good faith written demand for the requested relief, a good faith offer of settlement or an offer to submit to nonbinding arbitration prior to filing a lawsuit, unless the making of the offer is, in the opinion of the director of the legal services program or his/her designee, clearly prejudicial to: (i) The health, safety, or security of the client; or (ii) the timely availability of judicial relief. The director of the legal aid program may designate not more than two persons for purposes of making the determination of prejudice permitted by this section.

(d)(i) The legislature encourages legal aid programs to devote their state and nonstate funding to the basic, daily legal needs of indigent persons. No funds appropriated under this act may be used for legal representation and activities outside the scope of RCW 43.08.260.

(ii) No funds appropriated in this act may be used for lobbying as defined in RCW 43.08.260(3). Legal aid programs receiving funds appropriated in this act shall comply with all restrictions on lobbying contained in Federal Legal Services Corporation Act (P.L. 99-951) and regulations promulgated thereunder.

(e) No funds appropriated in this act may be used by legal aid programs for representation of undocumented aliens.

(f) The legislature recognizes the duty of legal aid programs to preserve inviolate and prevent the disclosure of, in the absence of knowing and voluntary client consent, client information protected by the United States Constitution, the Washington Constitution, the attorney-client privilege, or any applicable attorney rule of professional conduct. However, to the extent permitted by applicable law,

legal aid programs receiving funds appropriated in this act shall, upon request, provide information on their activities to the department and to legislators for purposes of monitoring compliance with authorizing legislation and this subsection.

(g) Nothing in this subsection is intended to limit the authority of existing entities, including but not limited to the Washington state bar association, the public disclosure commission, and the Federal Legal Services Corporation, to resolve complaints or disputes within their jurisdiction.

(e) For specified enrollments in districts enrolling more than twenty-five but not more than one hundred average annual full-time equivalent students in grades K-8, and for small school plants within any school district which enroll more than twenty-five average annual full-time equivalent students in grades K-8 and have been judged to be remote and necessary by the state board of education:

(ii) For all other small high schools under this subsection, nine certificated instructional staff units and one-half of a certificated administrative staff unit for the first sixty average annual full time equivalent students, and additional staff units based on a ratio of 0.8732 certificated instructional staff units and 0.1268 certificated administrative staff units per each additional forty-three and one-half average annual full time equivalent students.

Units calculated under (f)(ii) of this subsection shall be reduced by certificated staff units at the rate of forty-six certificated instructional staff units and four certificated administrative staff units per thousand vocational full-time equivalent students.

(g) For each nonhigh school district having an enrollment of more than seventy annual average full-time equivalent students and less than one hundred eighty students, operating a grades K-8 program or a grades 1-8 program, an additional one-half of a certificated instructional staff unit;

(h) For each nonhigh school district having an enrollment of more than fifty annual average full-time equivalent students and less than one hundred eighty students, operating a grades K-6 program or a grades 1-6 program, an additional one-half of a certificated instructional staff unit.

(3) Allocations for classified salaries for the 1995-96 and 1996-97 school years shall be calculated using formula-generated classified staff units determined as follows:

(a) For enrollments generating certificated staff unit allocations under subsection (2) (d) through (h) of this section, one classified staff unit for each three certificated staff units allocated under such subsections;

(b) For all other enrollment in grades K-12, including vocational full-time equivalent enrollments, one classified staff unit for each sixty average annual full-time equivalent students; and

(c) For each nonhigh school district with an enrollment of more than fifty annual average full-time equivalent students and less than one hundred eighty students, an additional one-half of a classified staff unit.

(4) Fringe benefit allocations shall be calculated at a rate of 20.71 percent in the 1995-96 school year and 20.71 percent in the 1996-97 school year of certificated salary allocations provided under subsection (2) of this section, and a rate of 18.77 percent in the 1995-96 school year and 18.77 percent in the 1996-97 school year of classified salary allocations provided under subsection (3) of this section.

(5) Insurance benefit allocations shall be calculated at the rates specified in section 504(2) of this act, based on the number of benefit units determined as follows:

(a) The number of certificated staff units determined in subsection (2) of this section; and

(b) The number of classified staff units determined in subsection (3) of this section multiplied by 1.152. This factor is intended to adjust allocations so that, for the purposes of distributing insurance benefits, full-time equivalent classified employees may be calculated on the basis of 1440 hours of work per year, with no individual employee counted as more than one full-time equivalent;

(6)(a) For nonemployee-related costs associated with each certificated staff unit allocated under subsection (2) (a), (b), and (d) through (h) of this section, there shall be provided a maximum of \$7,656 per certificated staff unit in the 1995-96 school year and a maximum of \$7,893 per certificated staff unit in the 1996-97 school year.

Solely for the purposes of this subsection, allocated classroom teachers shall be equal to the number of certificated instructional staff units allocated under subsection (2) of this section, multiplied by the ratio between the number of actual basic education certificated teachers and the number of actual basic education certificated instructional staff reported state-wide for the 1994-95 school year.

(8) Any school district board of directors may petition the superintendent of public instruction by submission of a resolution adopted in a public meeting to reduce or delay any portion of its basic education allocation for any school year. The superintendent of public instruction shall approve such reduction or delay if it does not impair the district's financial condition. Any delay shall not be for more than two school years. Any reduction or delay shall have no impact on levy authority pursuant to RCW 84.52.0531 and local effort assistance pursuant to chapter 28A.500 RCW.

(9) The superintendent may distribute a maximum of \$3,122,000 outside the basic education formula during fiscal years 1996 and 1997 as follows:

(a) For three school years following consolidation, the number of basic education formula staff units shall not be less than the number of basic education formula staff units received by the districts in the school year prior to the consolidation; and

(b) For the fourth through eighth school years following consolidation, the difference between the basic education formula staff units received by the districts for the school year prior to consolidation and the basic education formula staff units after consolidation pursuant to subsection (2) (a) through (h) of this section shall be reduced in increments of twenty percent per year.

NEW SECTION. Sec. 503. FOR THE SUPERINTENDENT OF PUBLIC INSTRUCTION--BASIC EDUCATION EMPLOYEE COMPENSATION

(1) The following calculations determine the salaries used in the general fund allocations for certificated instructional, certificated administrative, and classified staff units under section 502 of this act:

(a) Salary allocations for certificated instructional staff units shall be determined for each district by multiplying the district's certificated instructional derived base salary shown on LEAP Document 12C, by the district's average staff mix factor for basic education certificated instructional staff in that school year, computed using LEAP Document 1A; and

(b) Salary allocations for certificated administrative staff units and classified staff units for each district shall be based on the district's certificated administrative and classified salary allocation amounts shown on LEAP Document 12C.

(2) For the purposes of this section:

(a) "Basic education certificated instructional staff" is defined as provided in RCW 28A.150.100;

(b) "LEAP Document 1A" means the computerized tabulation establishing staff mix factors for basic education certificated instructional staff according to education and years of experience, as developed by the legislative evaluation and accountability program committee on April 8, 1991, at 13:35 hours; and

(c) "LEAP Document 12C" means the computerized tabulation of 1995-96 and 1996-97 school year salary allocations for basic education certificated administrative staff and basic education classified staff and derived base salaries for basic education certificated instructional staff as developed by the legislative evaluation and accountability program committee on May 21, 1995, at 23:35 hours.

(3) Incremental fringe benefit factors shall be applied to salary adjustments at a rate of 20.07 percent for certificated staff and 15.27 percent for classified staff for both years of the biennium.

(4)(a) Pursuant to RCW 28A.150.410, the following state-wide salary allocation schedules for certificated instructional staff are established for basic education salary allocations:

(e) "Credits" means college quarter hour credits and equivalent in-service credits computed in accordance with RCW 28A.415.020 or as hereafter amended.

(6) No more than ninety college quarter-hour credits received by any employee after the baccalaureate degree may be used to determine compensation allocations under the state salary allocation schedule and LEAP documents referenced in this act, or any replacement schedules and documents, unless:

(a) The employee has a masters degree; or

(b) The credits were used in generating state salary allocations before January 1, 1992.

(7)(a) Credits earned by certificated instructional staff after September 1, 1995, shall be counted only if the content of the course: (i) Is consistent with the school district's strategic plan for improving student learning; (ii) is consistent with a school-based plan for improving student learning developed under section 520(2) of this act for the school in which the individual is assigned; (iii) pertains to the individual's current assignment or expected assignment for the following school year; (iv) is necessary for obtaining an endorsement as prescribed by the state board of education; (v) is specifically required for obtaining advanced levels of certification; or (vi) is included in a college or university degree program that pertains to the individual's current assignment, or potential future assignment, as a certificated instructional staff.

(b) Once credits earned by certificated instructional staff have been determined to meet one or more of the criteria in (a) of this subsection, the credits shall be counted even if the individual transfers to other school districts.

(8) The salary allocation schedules established in this section are for allocation purposes only except as provided in RCW 28A.400.200(2).

Increases for special education result from increases in each district's basic education allocation per student. Increases for educational service districts and institutional education programs are determined by the superintendent of public instruction using the methodology for general apportionment salaries and benefits in section 503 of this act.

(b) The appropriation in this section provides salary increase and incremental fringe benefit allocations for the following programs based on formula adjustments as follows:

(i) For pupil transportation, an increase of \$0.77 per weighted pupil-mile for the 1995-96 school year and maintained for the 1996-97 school year;

This provides an average salary increase of 1.55 percent per year.

NEW SECTION. Sec. 507. FOR THE SUPERINTENDENT OF PUBLIC INSTRUCTION--FOR SCHOOL FOOD SERVICE PROGRAMS

General Fund--State Appropriation (FY 1996) \$ 3,000,000

General Fund--State Appropriation (FY 1997) \$ 373,289,000
General Fund--Federal Appropriation \$ 98,684,000
TOTAL APPROPRIATION \$ 852,152,000

The appropriations in this section are subject to the following conditions and limitations:

(1) The general fund--state appropriation includes such funds as are necessary for the remaining months of the 1994-95 school year.

(2) In recognition of the need for increased flexibility at the local district level to facilitate the provision of appropriate education to children with disabilities, and the need for substantive educational reform for a significant portion of the school population, the funding formula for special education is modified. These changes result from a 1994 study and recommendations by the institute for public policy and the legislative budget committee, aided by the office of the superintendent of public instruction and the statewide task force for the development of special education funding alternatives. The new formula is for allocation purposes only and is not intended to prescribe or imply any particular pattern of special education service delivery other than that contained in a properly formulated, locally determined, individualized education program.

(3) The superintendent of public instruction shall distribute state funds to school districts based on two categories, the mandatory special education program for special education students ages three to twenty-one and the optional birth through age two program for developmentally delayed infants and

toddlers. The superintendent shall review current state eligibility criteria for the fourteen special education categories and consider changes which would reduce assessment time and administrative costs associated with the special education program.

(4) For the 1995-96 and 1996-97 school years, the superintendent shall distribute state funds to each district based on the sum of:

(a) A district's annual average headcount enrollment of developmentally delayed infants and toddlers ages birth through two, times the district's average basic education allocation per full-time equivalent student, times 1.15; and

(b) A district's annual average full-time equivalent basic education enrollment times the enrollment percent, times the district's average basic education allocation per full-time equivalent student times 0.9309.

(5) The definitions in this subsection apply throughout this section.

(a) "Average basic education allocation per full-time equivalent student" for a district shall be based on the staffing ratios required by RCW 28A.150.260 (i.e., 49/1000 certificated instructional staff in grades K-3, and 46/1000 in grades 4-12), and shall not include enhancements for K-3, secondary vocational education, or small schools.

(b) "Annual average full-time equivalent basic education enrollment" means the resident enrollment including students enrolled through choice (RCW 28A.225.225) and students from nonhigh districts (RCW 28A.225.210) and excluding students residing in another district enrolled as part of an interdistrict cooperative program (RCW 28A.225.250).

(c) "Enrollment percent" shall mean the district's resident special education annual average enrollment including those students counted under the special education demonstration projects, excluding the birth through age two enrollment, as a percent of the district's annual average full-time equivalent basic education enrollment. For the 1995-96 and the 1996-97 school years, each district's enrollment percent shall be:

(i) For districts whose enrollment percent for 1994-95 was at or below 12.7 percent, the lesser of the district's actual enrollment percent for the school year for which the allocation is being determined or 12.7 percent.

(ii) For districts whose enrollment percent for 1994-95 was above 12.7 percent, the lesser of:

(A) The district's actual enrollment percent for the school year for which the special education allocation is being determined; or

(B) The district's actual enrollment percent for the school year immediately prior to the school year for which the special education allocation is being determined; or

(C) For 1995-96, the 1994-95 enrollment percent reduced by 25 percent of the difference between the district's 1994-95 enrollment percent and 12.7. For 1996-97, the 1994-95 enrollment percent reduced by 50 percent of the difference between the district's 1994-95 enrollment percent and 12.7.

(6) A minimum of \$4.5 million of the general fund--federal appropriation shall be expended for safety net funding to meet the extraordinary needs of individual special education students.

(7) From the general fund--state appropriation, \$14,600,000 is provided for the 1995-96 school year, and \$19,575,000 for the 1996-97 school year, for safety net purposes for districts with demonstrable funding needs for special education beyond the combined amounts provided in subsection (4) of this section. The superintendent of public instruction shall, by rule, establish procedures and standards for allocation of safety net funds. School districts shall submit their requests for safety net funds to the appropriate regional committee established by the superintendent of public instruction. Regional committees shall make recommendations to the state oversight committee for approval. The following conditions and limitations shall be applicable to school districts requesting safety net funds:

(a) For a school district requesting state safety net funds due to special characteristics of the district and costs of providing services which differ significantly from the assumptions contained in the funding formula, the procedures and standards shall permit relief only if a district can demonstrate at a minimum that:

(i) Individualized education plans are appropriate and are properly and efficiently prepared and formulated;

(ii) The district is making a reasonable effort to provide appropriate program services for special education students utilizing state funds generated by the apportionment and special education funding formulas;

(iii) The district's programs are operated in a reasonably efficient manner and that the district has adopted a plan of action to contain or eliminate any unnecessary, duplicative, or inefficient practices;

(iv) Indirect costs charged to this program do not exceed the allowable percent for the federal special education program;

(v) Any available federal funds are insufficient to address the additional needs; and

(vi) The costs of any supplemental contracts are not charged to this program for purposes of making these determinations.

(b) For districts requesting safety net funds due to federal maintenance of effort requirements, the procedures and standards shall permit relief only if a district can demonstrate at a minimum that:

(i) Individualized education plans are appropriate and are properly and efficiently prepared and formulated;

(ii) The district is making a reasonable effort to provide appropriate program services for special education students utilizing state funds generated by the apportionment and special education funding formulas; and

(iii) Calculations made in accordance with subsection (8) of this section with respect to state fund allocations justify a need for additional funds for compliance with federal maintenance of effort requirements.

(8)(a) For purposes of making safety net determinations pursuant to subsection (7) of this section, the superintendent shall make available to each school district, from available data, prior to June 1st of each year:

(i) The district's 1994-95 enrollment percent;

(ii) For districts with a 1994-95 enrollment percent over 12.7 percent, the maximum 1995-96 enrollment percent, and prior to 1996-97 the maximum 1996-97 enrollment percent;

(iii) The estimate to be used for purposes of subsection (7) of this section of each district's 1994-95 special education allocation showing the excess cost and the basic education portions; and

(iv) If necessary, a process for each district to estimate the 1995-96 school year excess cost allocation for special education and the portion of the basic education allocation formerly included in the special education allocation. This process may utilize the allocations generated pursuant to subsection (4) of this section, each district's 1994-95 estimated basic education backout percent for the 1994-95 school year, and state compensation increases for 1995-96.

(b) The superintendent, in consultation with the state auditor, shall take all necessary steps to successfully transition to the new formula and minimize paperwork at the district level associated with maintenance of effort calculations. The superintendent shall develop such rules and procedures as are necessary to implement this process for the 1995-96 school year, and may use the same process for the 1996-97 school year if found necessary for federal maintenance of effort calculations.

(9) Prior to adopting any standards, procedures, or processes required to implement this section, the superintendent shall consult with the office of financial management and the fiscal committees of the legislature.

(10) Membership of the regional committees may include, but not be limited to:

(a) A representative of the superintendent of public instruction;

(b) One or more representatives from school districts including board members, superintendents, special education directors, and business managers; and

(c) One or more staff from an educational service district.

(11) The state oversight committee appointed by the superintendent of public instruction shall consist of:

(a) Staff of the office of superintendent of public instruction;

(b) Staff of the office of the state auditor;

(c) Staff from the office of the financial management; and

(d) One or more representatives from school districts or educational service districts knowledgeable of special education programs and funding.

(12) The institute for public policy, in cooperation with the superintendent of public instruction, the office of financial management, and the fiscal committees of the legislature, shall evaluate the operation of the safety nets under subsections (6) and (7) of this section and shall prepare an interim report by December 15, 1995, and a final report on the first school year of operation by October 15, 1996.

Pursuant to RCW 43.88.037, moneys disbursed from the treasury on the basis of a formal loan agreement shall be recorded as loans receivable and not as expenditures for accounting purposes. To the extent that moneys are disbursed on a loan basis, the corresponding appropriation shall be reduced by the amount of loan moneys disbursed from the treasury during the 1995-97 biennium.

NEW SECTION. Sec. 902. INFORMATION SYSTEMS PROJECTS. Agencies shall comply with the following requirements regarding information systems projects when specifically directed to do so by this act.

(1) The agency shall produce a feasibility study for each information systems project in accordance with published department of information services instructions. In addition to department of information services requirements, the study shall examine and evaluate the costs and benefits of maintaining the status quo and the costs and benefits of the proposed project. The study shall identify when and in what amount any fiscal savings will accrue, and what programs or fund sources will be affected.

(2) The agency shall produce a project management plan for each project. The plan or plans shall address all factors critical to successful completion of each project. The plan shall include, but is not limited to, the following elements: A description of the problem or opportunity that the information systems project is intended to address; a statement of project objectives and assumptions; definition of phases, tasks, and activities to be accomplished and the estimated cost of each phase; a description of how the agency will facilitate responsibilities of oversight agencies; a description of key decision points in the project life cycle; a description of variance control measures; a definitive schedule that shows the elapsed time estimated to complete the project and when each task is to be started and completed; and a description of resource requirements to accomplish the activities within specified time, cost, and functionality constraints.

Project status reports shall examine and evaluate project management, accomplishments, budget, action to address variances, risk management, costs and benefits analysis, and other aspects critical to completion of a project.

Work shall not commence on any task in a subsequent phase of a project until the status report for the preceding key decision point has been approved by the department of information services and the office of financial management.

(5) If a project review is requested in accordance with department of information services policies, the reviews shall examine and evaluate: System requirements specifications; scope; system architecture; change controls; documentation; user involvement; training; availability and capability of resources; programming languages and techniques; system inputs and outputs; plans for testing, conversion, implementation, and postimplementation; and other aspects critical to successful construction, integration, and implementation of automated systems.
