(2) An offender may not have the record of conviction cleared if: (a) There are any criminal charges against the defendant pending in any court of this state or another state, or in any federal court; (b) the offense was a violent offense as defined in RCW 9.94A.030; (c) the offense was a felony crime against persons as defined in RCW 43.43.830; (d) the defendant has been convicted of a new crime in this state, another state, or federal court since the date the defendant successfully completed probation; (e) the offense is a class B felony and less than ten years have passed since the date the defendant successfully completed probation; (f) the offense was a class C felony and less than five years have passed since the date the defendant successfully completed probation; (g) the offense was a misdemeanor or gross misdemeanor and less than five years have passed since the date the defendant successfully completed probation; or (h) the offense was a misdemeanor or gross misdemeanor and operated to interrupt the washout of a class B felony under RCW 9.94A.360 and less than ten years have passed since the date of the conviction for the misdemeanor or gross misdemeanor.

(3) Once the court vacates a record of conviction under subsection (1) of this section, an offender whose conviction has been vacated may state that the offender has never been convicted of that crime, including responses to questions when making application for employment. Nothing in this section affects or prevents the use of an offender's prior conviction in a later criminal case.

(4) No person may seek or be granted a vacation of record of conviction for an offense committed after the date upon which the person received a vacation of record of conviction for any other offense.

(5) Any conviction that is vacated under this section shall be treated as nonconviction data as defined in chapter 10.97 RCW for the purposes of the defendant’s criminal history. The clerk of the court in which the motion is brought shall transmit the order vacating the conviction to the Washington state patrol. The Washington state patrol shall transmit the order vacating the conviction to the federal bureau of investigation.

(6) All costs incurred by the court and probation services shall be paid by the person making the motion to vacate the record unless a determination is made pursuant to chapter 10.101 RCW that the person making the motion is indigent, at the time the motion is brought.

Sec. 4. RCW 13.50.050 and 1997 c 338 s 40 are each amended to read as follows:

(1) This section governs records relating to the commission of juvenile offenses, including records relating to diversions.

(2) The official juvenile court file of any alleged or proven juvenile offender shall be open to public inspection, unless sealed pursuant to subsection (((14))) ((12)) of this section.

(3) All records other than the official juvenile court file are confidential and may be released only as provided in this section, RCW 13.50.010, 13.40.215, and 4.24.550.

(4) Except as otherwise provided in this section and RCW 13.50.010, records retained or produced by any juvenile justice or care agency may be released to other participants in the juvenile justice or care system only when an investigation or
case involving the juvenile in question is being pursued by the other participant or when that other participant is assigned the responsibility for supervising the juvenile.

(5) Except as provided in RCW 4.24.550, information not in an official juvenile court file concerning a juvenile or a juvenile's family may be released to the public only when that information could not reasonably be expected to identify the juvenile or the juvenile's family.

(6) Notwithstanding any other provision of this chapter, the release, to the juvenile or his or her attorney, of law enforcement and prosecuting attorneys' records pertaining to investigation, diversion, and prosecution of juvenile offenses shall be governed by the rules of discovery and other rules of law applicable in adult criminal investigations and prosecutions.

(7) The juvenile court and the prosecutor may set up and maintain a central record-keeping system which may receive information on all alleged juvenile offenders against whom a complaint has been filed pursuant to RCW 13.40.070 whether or not their cases are currently pending before the court. The central record-keeping system may be computerized. If a complaint has been referred to a diversion unit, the diversion unit shall promptly report to the juvenile court or the prosecuting attorney when the juvenile has agreed to diversion. An offense shall not be reported as criminal history in any central record-keeping system without notification by the diversion unit of the date on which the offender agreed to diversion.

(8) Upon request of the victim of a crime or the victim's immediate family, the identity of an alleged or proven juvenile offender alleged or found to have committed a crime against the victim and the identity of the alleged or proven juvenile offender's parent, guardian, or custodian and the circumstance of the alleged or proven crime shall be released to the victim of the crime or the victim's immediate family.

(9) Subject to the rules of discovery applicable in adult criminal prosecutions, the juvenile offense records of an adult criminal defendant or witness in an adult criminal proceeding shall be released upon request to prosecution and defense counsel after a charge has actually been filed. The juvenile offense records of any adult convicted of a crime and placed under the supervision of the adult corrections system shall be released upon request to the adult corrections system.

(10) In any case in which an information has been filed pursuant to RCW 13.40.100 or a complaint has been filed with the prosecutor and referred for diversion pursuant to RCW 13.40.070, the person the subject of the information or complaint may file a motion with the court to have the court vacate its order and findings, if any, and, subject to subsection (((22))) (23) of this section, order the sealing of the official juvenile court file, the social file, and records of the court and of any other agency involved in the case.

(11) The court has the discretion to grant the motion to seal records made pursuant to subsection (10) of this section if it finds that:
   (a) The person has spent five consecutive years in the community without committing an offense or crime that results in conviction in this state, another state, or federal court;
   (b) There are no criminal charges against the person pending in any court of this state, another state, or federal court;
   (c) Through credible evidence presented to the court that the person has a present career path that is impeded by the record of the courts order and findings;
   (d) That the person is twenty-one years of age or older; and
   (e) The person has lived an exemplary life since the court's order and findings.

(12) The court shall grant the motion to seal records made pursuant to subsection (10) of this section if it finds that:
   (a) For class B offenses other than sex offenses, since the last date of release from confinement, including full-time residential treatment, if any, or entry of disposition, the person has spent ten consecutive years in the community without committing an offense or crime that subsequently results in conviction. For class C offenses, gross misdemeanors, and misdemeanors, other than sex offenses, since the last date of release from confinement, including full-time residential treatment, if any, or entry of disposition, the person has spent five consecutive years in the community without committing any offense or crime that subsequently results in conviction;
   (b) No proceeding is pending against the moving party seeking the conviction of a juvenile offense or a criminal offense;
   (c) No proceeding is pending seeking the formation of a diversion agreement with that person;
   (d) The person has not been convicted of a class A or sex offense; and
   (e) Full restitution has been paid.

   (((22))) (13) The person making a motion pursuant to subsection (10) of this section shall give reasonable notice of the motion to the prosecution and to any person or agency whose files are sought to be sealed.

   (((23))) (14) If the court grants the motion to seal made pursuant to subsection (10) of this section, it shall, subject to subsection (((22))) (23) of this section, order sealed the official juvenile court file, the social file, and other records relating to the case as are named in the order. Thereafter, the proceedings in the case shall be treated as if they never occurred, and the subject of the records may reply accordingly to any inquiry about the events, records of which are sealed. Any agency shall reply
to any inquiry concerning confidential or sealed records that records are confidential, and no information can be given about the existence or nonexistence of records concerning an individual. Any record that is sealed under this section shall be treated as nonconviction data as defined in chapter 10.97 RCW for the purposes of the defendant's criminal history. The clerk of the court in which the motion is brought shall transmit the order sealing the record to the Washington state patrol. The Washington state patrol shall transmit the order sealing the record to the federal bureau of investigation.

(((444)))
((15)) Inspection of the files and records included in the order to seal may thereafter be permitted only by order of the court upon motion made by the person who is the subject of the information or complaint, except as otherwise provided in RCW 13.50.010(8) and subsection (((22)))
((23)) of this section.

(((445)))
((16)) Any adjudication of a juvenile offense or a crime subsequent to sealing has the effect of nullifying the sealing order. Any charging of an adult felony subsequent to the sealing has the effect of nullifying the sealing order for the purposes of chapter 9.94A RCW.

(((446)))
((17)) A person eighteen years of age or older whose criminal history consists of only one referral for diversion may request that the court order the records in that case destroyed. The request shall be granted, subject to subsection (((22)))
((23)) of this section, if the court finds that two years have elapsed since completion of the diversion agreement.

(((447)))
((18)) If the court grants the motion to destroy records made pursuant to subsection (((446)))
((17)) of this section, it shall, subject to subsection (((22)))
((23)) of this section, order the official juvenile court file, the social file, and any other records named in the order to be destroyed.

(((448)))
((19)) The person making the motion pursuant to subsection (((446)))
((17)) of this section shall give reasonable notice of the motion to the prosecuting attorney and to any agency whose records are sought to be destroyed.

(((449)))
((20)) Any juvenile to whom the provisions of this section may apply shall be given written notice of his or her rights under this section at the time of his or her disposition hearing or during the diversion process.

(((20)))
((21)) Nothing in this section may be construed to prevent a crime victim or a member of the victim's family from divulging the identity of the alleged or proven juvenile offender or his or her family when necessary in a civil proceeding.

(((21)))
((22)) Any juvenile justice or care agency may, subject to the limitations in subsection (((22)))
((23)) of this section and (a) and (b) of this subsection, develop procedures for the routine destruction of records relating to juvenile offenses and diversions.

(a) Records may be routinely destroyed only when the person the subject of the information or complaint has attained twenty-three years of age or older, or is eighteen years of age or older and his or her criminal history consists entirely of one diversion agreement and two years have passed since completion of the agreement.

(b) The court may not routinely destroy the official juvenile court file or recordings or transcripts of any proceedings.

(((22)))
((23)) No identifying information held by the Washington state patrol in accordance with chapter 43.43 RCW is subject to destruction or sealing under this section. For the purposes of this subsection, identifying information includes photographs, fingerprints, palmprints, soleprints, toeprints and any other data that identifies a person by physical characteristics, name, birthdate or address, but does not include information regarding criminal activity, arrest, charging, diversion, conviction or other information about a person's treatment by the criminal justice system or about the person's behavior.

(((23)))
((24)) Information identifying child victims under age eighteen who are victims of sexual assaults by juvenile offenders is confidential and not subject to release to the press or public without the permission of the child victim or the child's legal guardian. Identifying information includes the child victim's name, addresses, location, photographs, and in cases in which the child victim is a relative of the alleged perpetrator, identification of the relationship between the child and the alleged perpetrator. Information identifying a child victim of sexual assault may be released to law enforcement, prosecutors, judges, defense attorneys, or private or governmental agencies that provide services to the child victim of sexual assault.

(25) All costs incurred by the court and probation services shall be paid by the person making the motion to seal the record under subsection (10) of this section unless a determination is made pursuant to chapter 10.101 RCW that the person making the motion is indigent, at the time the motion is brought."

MESSAGE FROM THE HOUSE

April 24, 1999

MR. PRESIDENT:

Under suspension of the rules, SUBSTITUTE SENATE BILL NO. 5418 was returned to second reading and the House adopted the following amendment(s) and passed the bill as amended by the House:

Strike everything after the enacting clause and insert the following:

"INTENT

NEW SECTION. Sec. 1. INTENT. The legislature finds that the purpose of Washington's accountability system is to improve student learning and student achievement of the essential academic learning requirement standards so that each individual student will be given the opportunity to become a responsible citizen and successfully live, learn, and work in the twenty-first century. To achieve this purpose, the accountability system should be based on student achievement and continuous improvement at all levels of Washington's education system and on a fundamental principle that all public school students have access to curriculum and instruction that is aligned to the standards.

The legislature further finds that the accountability system should rely on local responsibility and leadership. Districts and schools should be expected to improve and be evaluated based on their improvement over time. Districts should recognize exceptional progress and work closely with schools needing assistance.

The legislature further finds that the accountability system must be simple to use and understand. Consequences must be predictable and fair. Differences among students, schools, and districts should be recognized and respected as the system is implemented. There should be a balance of each student's right to privacy and the public's right to know the overall levels of learning and achievement at the school, district, and state levels. In addition, the accountability system should be continuously reviewed and improved as more is learned about how schools operate to meet the learning needs of Washington's students."
NEW SECTION. Sec. 101. COMMISSION FORMED AND MEMBERS APPOINTED. (1) The academic achievement and accountability commission is established.

(2) The primary purpose of the commission is to provide oversight of the state's educational accountability system.

(3) The commission shall consist of nine members selected as follows:

(a) One member shall be the superintendent of public instruction or the superintendent's designee; and

(b) Eight members shall be appointed by the governor. Four of the members shall be selected as follows: Each major caucus of the house of representatives and the senate shall submit a list of three names. The lists may not include the names of members of the legislature. The governor shall select a member from each list provided by each caucus. All members appointed by the governor shall be subject to confirmation by the senate.

(4) The governor shall appoint a chair from among the commission members.

(5) Appointees shall be individuals who are supportive of educational improvement, who have a positive record of service, and who will devote sufficient time to the responsibilities of the commission to ensure that the objectives of the commission are achieved. The commission shall be composed of a balance of individuals from within and outside the public education system. The commission shall include educators, business leaders, and parents.

(6) The governor shall appoint its initial commission members by July 1, 1999. The first meeting of the commission shall be convened by the superintendent of public instruction no later than July 30, 1999.

(7) Appointed members shall serve for terms of four years, with the terms expiring on June 30th of the fourth year of the term. However, in the case of the initial members, four members shall serve four-year terms, two members shall serve three-year terms, and two members shall serve two-year terms, with each of the terms expiring on June 30th of the applicable year. Appointees may be reappointed to serve more than one term.

(8) The governor shall fill any vacancy in appointments that may occur. When filling a vacancy of a member nominated by a major caucus of the legislature, the governor shall select the new member from a list of three names submitted by the same caucus that provided the list from which the retiring member was appointed.

NEW SECTION. Sec. 102. COMMISSION'S POWERS AND DUTIES. The powers and duties of the academic achievement and accountability commission shall include, but are not limited to the following:

(1) For purposes of state-wide accountability, the commission shall:

(a) Adopt and revise performance improvement goals in reading, writing, science, and mathematics by subject and grade level as the commission deems appropriate to improve student learning, once assessments in these subjects are required state-wide. The goals shall be in addition to any goals adopted in RCW 28A.630.887 (as recodified by this act). The commission may also revise any goal adopted in RCW 28A.630.887 (as recodified by this act). The commission shall adopt the goals by rule. However, before each goal is implemented, the commission shall present the goal to the education committees of the house of representatives and the senate for the committees' review and comment in a time frame that will permit the legislature to take statutory action on the goal if such action is deemed warranted by the legislature;

(b) Identify the scores students must achieve in order to meet the standard on the Washington assessment of student learning and determine student scores that identify levels of student performance below and beyond the standard. The commission shall set such performance standards and levels in consultation with the superintendent of public instruction and after consideration of any recommendations that may be developed by any advisory committees that may be established for this purpose;

(c) Adopt objective, systematic criteria to identify successful schools and school districts and recommend to the superintendent of public instruction schools and districts to be recognized for two types of accomplishments, student achievement and improvements in student achievement. Recognition for improvements in student achievement shall include consideration of one or more of the following accomplishments:

(i) An increase in the percent of students meeting standards. The level of achievement required for recognition may be based on the achievement goals established by the legislature under RCW 28A.630.887 (as recodified by this act) and the commission under (a) of this subsection;

(ii) Positive progress on an improvement index that measures improvement in all levels of the assessment; and

(iii) Improvements despite challenges such as high levels of mobility, poverty, English as a second language learners, and large numbers of students in special populations as measured by either the percent of students meeting the standard, or the improvement index.
When determining the baseline year or years for recognizing individual schools, the commission may use the assessment results from the initial years the assessments were administered, if doing so with individual schools would be appropriate;

(d) Adopt objective, systematic criteria to identify schools and school districts in need of assistance and those in which significant numbers of students persistently fail to meet state standards. In its deliberations, the commission shall consider the use of all state-wide mandated criterion-referenced and norm-referenced standardized tests;

(e) Identify schools and school districts in which state intervention measures will be needed and a range of appropriate intervention strategies, beginning no earlier than June 30, 2001, and after the legislature has authorized a set of intervention strategies. Beginning no earlier than June 30, 2001, and after the legislature has authorized a set of intervention strategies, at the request of the commission, the superintendent shall intervene in the school or school district and take corrective actions. This chapter does not provide additional authority for the commission or the superintendent of public instruction to intervene in a school or school district;

(f) Identify performance incentive systems that have improved or have the potential to improve student achievement;

(g) Annually review the assessment reporting system to ensure fairness, accuracy, timeliness, and equity of opportunity, especially with regard to schools with special circumstances and unique populations of students, and a recommendation to the superintendent of public instruction of any improvements needed to the system;

(h) Annually report by December 1st to the legislature, the governor, the superintendent of public instruction, and the state board of education on the progress, findings, and recommendations of the commission. The report may include recommendations of actions to help improve student achievement;

(i) By December 1, 2000, and by December 1st annually thereafter, report to the education committees of the house of representatives and the senate on the progress that has been made in achieving the reading goal under RCW 28A.630.887 (as recodified by this act) and any additional goals adopted by the commission;

(j) Coordinate its activities with the state board of education and the office of the superintendent of public instruction;

(k) Seek advice from the public and all interested educational organizations in the conduct of its work; and

(l) Establish advisory committees, which may include persons who are not members of the commission;

(2) Holding meetings and public hearings, which may include regional meetings and hearings;

(3) Hiring necessary staff and determining the staff's duties and compensation. However, the office of the superintendent of public instruction shall provide staff support to the commission until the commission has hired its own staff, and shall provide most of the technical assistance and logistical support needed by the commission thereafter. The office of the superintendent of public instruction shall be the fiscal agent for the commission. The commission may direct the office of the superintendent of public instruction to enter into subcontracts, within the commission's resources, with school districts, teachers, higher education faculty, state agencies, business organizations, and other individuals and organizations to assist the commission in its deliberations; and

(4) Receiving per diem and travel allowances as permitted under RCW 43.03.050 and 43.03.060.

NEW SECTION. Sec. 103. COMMISSION'S REPORT ON ACCOUNTABILITY POLICIES. By September 5, 2000, the academic achievement and accountability commission shall recommend accountability policies to the governor, the superintendent of public instruction, and the education and fiscal committees of the house of representatives and senate. The policies shall include, but need not be limited to:

(1) A graduated series of increasingly intensive state intervention strategies for schools and school districts in which low-performance persists over an identified period of time.

(a) The strategies shall be formulated in accordance with the assumption that school districts have primary responsibility for intervening in schools with relatively large numbers of students who are not achieving the essential academic learning requirements.

(b) The strategies shall be formulated in accordance with the assumption that continued low performance despite school district efforts shall trigger an evaluation by the commission. The evaluation is intended to identify the next steps needed to improve student performance. In its evaluation, the commission shall use multiple sources of information that may include, but need not be limited to:

(i) The results of the Washington assessment of student learning;

(ii) The results of state-mandated norm-referenced standardized tests;

(iii) Student achievement evidence from other district or school assessments;

(iv) The level of improvement in student achievement over time;

(v) Student mobility and poverty;

(vi) Attendance and dropout rates;

(vii) Graduation rates and posthigh school indicators;
(viii) The percent of students in special programs; and
(ix) Other factors presented by individual districts or schools.

(c) In its deliberations, the commission shall consider issues of due process, student dropout rates, management and personnel, and educational options, including public school choice options, for students attending schools in which the state has intervened. The commission may consider intervention strategies underway in Washington and other states;

(2) Additional assistance measures for students and schools;
(3) Rewards for successful schools and school districts; and
(4) Any statutory changes necessary to give the superintendent of public instruction the authority to implement, in a school or school district, the state intervention strategies identified in subsection (1) of this section.

PART 2
ACCOUNTABILITY GOALS, INCLUDING GOALS IN READING AND MATHEMATICS

Sec. 201. RCW 28A.630.887 and 1998 c 319 s 101 are each amended to read as follows:

(1) (By December 15, 1998) Each school district board of directors shall:

(a) Select the reading standard results on either the 1997 or 1998 fourth grade Washington assessment of student learning as the school district's initial baseline reading standard. Districts may select the 1997 results only if all of the elementary schools with fourth grade students administered the assessment;

(b) By December 15, 2001, select the mathematics standard results on the 1998, 1999, or 2000 fourth grade Washington assessment of student learning as the school district's fourth grade baseline mathematics standard, using for its baseline a year in which all of the elementary schools with fourth grade students administered the assessment;

(c) Establish (i) three-year, district-wide goals to increase, by the end of the 2000-01 school year, the percentage of students who meet or exceed the reading standard, and by the 2003-04 school year, the percentage of students who meet or exceed the mathematics standard on the fourth grade Washington assessment of student learning. The three-year percentage increase goal in each subject may not be less than the district's total percentage of students who did not meet the baseline standard in each subject multiplied by twenty-five percent;

(ii) (d) Specify the annual district-wide percentage improvement increments necessary to meet the three-year goals; and

(iii) (e) Direct each elementary school to establish three-year goals for its fourth grade students, subject to approval by the board. The aggregate of the elementary school goals must meet or exceed the district-wide goals established by the board.

(2) (Each school district board of directors shall:

(a) Report biannually to parents in writing and to the community in a public meeting the following information:

(i) District-wide and school-level three-year goals;

(ii) Student performance relative to the goals; and

(iii) District-wide and school-level plans to achieve the reading goal in kindergarten through fourth grade, including grade-level expectations, curriculum and instruction, parental or guardian involvement, and resources available to parents and guardians to help students meet the reading standard;

(b) Report annually to the superintendent of public instruction and in a news release to the local media the district's progress toward meeting the district-wide and school-level goals; and

(c) Include the reported information in each school's annual school performance report under RCW 28A.320.205.

(3) By December 1, 2000, the superintendent of public instruction shall report to the education committees of the house of representatives and the senate on the progress that has been made in achieving the three-year reading goal, and provide recommendations to the legislature on setting reading goals for the next three years.

(4) (This section expires July 1, 2006) By December 15, 2001, each school district board of directors shall:

(a) Select the mathematics standard results on the 1998, 1999, 2000, or 2001 seventh grade Washington assessment of student learning as the school district's seventh grade baseline mathematics standard;

(b) Establish a three-year district-wide goal to increase, by the end of the 2003-04 school year, the percentage of students who meet or exceed the mathematics standard, on the seventh grade Washington assessment of student learning. The district shall select for its baseline a year in which all of the schools with seventh grade students administered the assessment. The percentage increase goal may not be less than the district's total percentage of students who did not meet the baseline standard in mathematics multiplied by twenty-five percent;

(c) Specify the annual district-wide percentage improvement increments necessary to meet the goal; and
(d) Direct each middle or junior high school, as appropriate, to establish a mathematics goal for its seventh grade students, subject to approval by the board. The aggregate of the middle or junior high school goals must meet or exceed the district-wide goals established by the board in each subject.

(3) Schools and school districts in which ten or fewer students are eligible to be assessed in a grade level are not required to establish numerical improvement goals and performance relative to the goals.

PART 3
REPORTING RESULTS

(b) Post individual school results of the fourth grade Washington assessment of student learning on the superintendent of public instruction's internet world wide web site and state-mandated norm-referenced standardized tests.

(2) The reports shall include the assessment results by school and school district, and include changes over time. For the Washington assessment of student learning, results shall be reported as follows:

(a) The percentage of students meeting the standards;

(b) The percentage of students performing at each level of the assessment; and

(c) A learning improvement index that shows changes in student performance within the different levels of student learning reported on the Washington assessment of student learning.

(3) The reports shall contain data regarding the different characteristics of schools, such as poverty levels, percent of English as a second language students, dropout rates, attendance, percent of students in special education, and student mobility so that districts and schools can learn from the improvement efforts of other schools and districts with similar characteristics.

(4) The reports shall contain student scores on mandated tests by comparable Washington schools of similar characteristics.

(5) The reports shall contain information on public school choice options available to students, including vocational education.

(6) The reports shall be posted on the superintendent of public instruction's internet web site.

(7) To protect the privacy of students, the results of schools and districts that test fewer than ten students in a grade level shall not be reported. In addition, in order to ensure that results are reported accurately, the superintendent of public instruction shall maintain the confidentiality of state-wide data files until the superintendent determines that the data are complete and accurate.

(8) The superintendent of public instruction shall monitor the percentage and number of special education and limited English-proficient students exempted from taking the assessments by schools and school districts to ensure the exemptions are in compliance with exemption guidelines.

Sec. 302. SCHOOL DISTRICT REPORTS ON PROGRESS TOWARD PERFORMANCE GOALS.

MESSAGE FROM THE HOUSE

April 24, 1999

MR. PRESIDENT:

Under suspension of the rules, ENGROSSED SECOND SUBSTITUTE SENATE BILL NO. 5594 was returned to second reading and the House adopted the following amendment(s) and passed the bill as amended by the House.

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature finds that while Washington's economy is currently prospering, economic growth continues to be uneven, particularly as between metropolitan and rural areas. This has created in effect two Washingtons. One afflicted by inadequate infrastructure to support and attract investment, another suffering from congestion and soaring housing prices. In order to address these problems, the legislature intends to use resources strategically to build on our state's strengths while addressing threats to our prosperity.

PART I
RURAL ECONOMIC DEVELOPMENT
Enhanced Flexibility for Use of Community Economic Revitalization Board Funds

Sec. 101. RCW 43.160.010 and 1996 c 51 s 1 are each amended to read as follows:

(1) The legislature finds that it is the public policy of the state of Washington to direct financial resources toward the fostering of economic development through the stimulation of investment and job opportunities and the retention of sustainable existing employment for the general welfare of the inhabitants of the state. Reducing unemployment and reducing the time citizens remain jobless is important for the economic welfare of the state. A valuable means of fostering economic development is the construction of public facilities which contribute to the stability and growth of the state's economic base. Strengthening the economic base through issuance of industrial development bonds, whether single or umbrella, further serves to reduce unemployment. Consolidating issues of industrial development bonds when feasible to reduce costs additionally advances the state's purpose to improve economic vitality. Expenditures made for these purposes as authorized in this chapter are declared to be in the public interest, and constitute a proper use of public funds. A community economic revitalization board is needed which shall aid the development of economic opportunities. The general objectives of the board should include:

(a) Strengthening the economies of areas of the state which have experienced or are expected to experience chronically high unemployment rates or below average growth in their economies;
(b) Encouraging the diversification of the economies of the state and regions within the state in order to provide greater seasonal and cyclical stability of income and employment;

(c) Encouraging wider access to financial resources for both large and small industrial development projects;

(d) Encouraging new economic development or expansions to maximize employment;

(e) Encouraging the retention of viable existing firms and employment; and

(f) Providing incentives for expansion of employment opportunities for groups of state residents that have been less successful relative to other groups in efforts to gain permanent employment.

(2) The legislature also finds that the state's economic development efforts can be enhanced by, in certain instances, providing funds to improve state highways (in the vicinity of new), county roads, or city streets for industries considering locating or expanding in this state (for existing industries that are considering significant expansion).

(a) The legislature finds it desirable to provide a process whereby the need for diverse public works improvements necessitated by planned economic development can be addressed in a timely fashion and with coordination among all responsible governmental entities.

(b) (It is the intent of the legislature to create an economic development account within the motor vehicle fund from which expenditures can be made by the department of transportation for state highway improvements necessitated by planned economic development.) All (such) transportation improvements on state highways must first be approved by the state transportation commission and the community economic revitalization board in accordance with the procedures established by RCW 43.160.074 and 47.01.280. (It is further the intent of the legislature that such improvements not jeopardize any other planned highway construction projects. The improvements are intended to be of limited size and cost, and to include such items as additional turn lanes, signalization, illumination, and safety improvements.)

(3) The legislature also finds that the state's economic development efforts can be enhanced by, in certain instances, providing funds to assist development of telecommunications infrastructure that supports business development, retention, and expansion in rural natural resources impact areas and rural counties of the state.

(4) The legislature also finds that the state's economic development efforts can be enhanced by providing funds to improve markets for those recyclable materials representing a large fraction of the waste stream. The legislature finds that public facilities which result in private construction of processing or remanufacturing facilities for recyclable materials are eligible for consideration from the board.

(((4))) (5) The legislature finds that sharing economic growth state-wide is important to the welfare of the state. Rural counties and rural natural resources impact areas do not share in the economic vitality of the Puget Sound region. The ability of these communities to pursue business and job retention, expansion, and development opportunities depends on their capacity to ready necessary economic development project plans, sites, permits, and infrastructure for private investments. Project-specific planning, predevelopment, and infrastructure (is one of several) are critical ingredients (that are critical) for economic development. Rural counties and rural natural resources impact areas generally lack ((the infrastructure)) these necessary tools and resources to diversify and revitalize their economies. It is, therefore, the intent of the legislature to increase the (availability of funds to help provide infrastructure to rural natural resource impact areas)) amount of funding available through the community economic revitalization board for rural counties and rural natural resources impact areas, and to authorize flexibility for available resources in these areas to help fund planning, predevelopment, and construction costs of infrastructure and facilities and sites that foster economic vitality and diversification.

A zip code totally surrounded by zip codes qualifying as nonurbanized under this definition is also considered nonurbanized. The office of financial management shall make available a zip code listing of the areas to all agencies and organizations providing services under this chapter.

Sec. 103. RCW 43.160.060 and 1996 c 51 s 5 are each amended to read as follows:

The board is authorized to make direct loans to political subdivisions of the state for the purposes of assisting the political subdivisions in financing the cost of public facilities, including development of land and improvements for public facilities, project-specific environmental, capital facilities, land use, permitting, feasibility and marketing studies and plans; project design, site planning, and analysis; project debt and revenue impact analysis; as well as the construction, rehabilitation, alteration, expansion, or improvement of the facilities. A grant may also be authorized for purposes designated in this chapter, but only when, and to the extent that, a loan is not reasonably possible, given the limited resources of the political subdivision and the finding by the board that ((unique financial circumstances prohibit granting assistance to enable the project to move forward.))) require grant assistance to enable the project to move forward.

Application for funds shall be made in the form and manner as the board may prescribe. In making grants or loans the board shall conform to the following requirements:

(1) The board shall not provide financial assistance:

(a) For a project the primary purpose of which is to facilitate or promote a retail shopping development or expansion.

(b) For any project that evidence exists would result in a development or expansion that would displace existing jobs in any other community in the state.

(c) For the acquisition of real property, including buildings and other fixtures which are a part of real property.

(2) The board shall only provide financial assistance:

(a) For those projects which would result in specific private developments or expansions (i) in manufacturing, production, food processing, assembly, warehousing, advanced technology research and development, and industrial distribution; (ii) for processing recyclable materials or for facilities that support recycling, including processes not currently provided in the state, including but not limited to, de-inking facilities, mixed waste paper, plastics, yard waste, and problem-waste processing; (iii) for manufacturing facilities that rely significantly on recyclable materials, including but not limited to waste tires and mixed waste...
paper; (iv) which support the relocation of businesses from nondistressed urban areas to rural counties or rural natural resources impact areas; or (v) which substantially support the trading of goods or services outside of the state's borders.

(b) For projects which it finds will improve the opportunities for the successful maintenance, establishment, or expansion of industrial or commercial plants or will otherwise assist in the creation or retention of long-term economic opportunities.

(c) When the application includes convincing evidence that a specific private development or expansion is ready to occur and will occur only if the public facility improvement is made.

(3) The board shall prioritize each proposed project according to:

(a) The relative benefits provided to the community by the jobs the project would create, not just the total number of jobs it would create after the project is completed and according to the unemployment rate in the area in which the jobs would be located((As long as there is more demand for financial assistance than there are funds available, the board is instructed to fund projects in order of their priority)); and

(b) The rate of return of the state's investment, that includes the expected increase in state and local tax revenues associated with the project.

(4) A responsible official of the political subdivision shall be present during board deliberations and provide information that the board requests.

Before any financial assistance application is approved, the political subdivision seeking the assistance must demonstrate to the community economic revitalization board that no other timely source of funding is available to it at costs reasonably similar to financing available from the community economic revitalization board.

**Sec. 104.** RCW 43.160.070 and 1998 c 321 s 27 (Referendum Bill No. 49) are each amended to read as follows:

Public facilities financial assistance, when authorized by the board, is subject to the following conditions:

PART V
RURAL WASHINGTON LOAN FUND

Sec. 501. RCW 43.168.010 and 1985 c 164 s 1 are each amended to read as follows:

The legislature finds that:

(1) The economic health and well-being of the state, particularly in areas of high unemployment, economic stagnation, and poverty, is of substantial public concern.

(2) The consequences of minimal economic activity and persistent unemployment and underemployment are serious threats to the safety, health, and welfare of residents of these areas, decreasing the value of private investments and jeopardizing the sources of public revenue.

(3) The economic and social interdependence of communities and the vitality of industrial and economic activity necessitates, and is in part dependent on preventing substantial dislocation of residents and rebuilding the diversification of the areas’ economy.

(4) The ability to remedy problems in stagnant areas of the state is beyond the power and control of the regulatory process and influence of the state, and the ordinary operations of private enterprise without additional governmental assistance are insufficient to adequately remedy the problems of poverty and unemployment.

(5) The revitalization of depressed communities requires the stimulation of private investment, the development of new business ventures, the provision of capital to ventures sponsored by local organizations and capable of growth in the business markets, and assistance to viable, but under-financed, small businesses in order to create and preserve jobs that are sustainable in the local economy.

Therefore, the legislature declares there to be a substantial public purpose in providing capital to promote economic development and job creation in areas of economic stagnation, unemployment, and poverty. To accomplish this purpose, the legislature hereby creates the rural Washington (state development) loan fund (committee) and vests in the (committee) the authority to spend federal funds to stimulate the economy of distressed areas.

Sec. 502. RCW 43.168.020 and 1996 c 290 s 3 are each amended to read as follows:

thousand persons; (iii) has at least seventy percent of its families and unrelated individuals with incomes below eighty percent of
the county’s median income for families and unrelated individuals; and (iv) has an unemployment rate which is at least forty
percent higher than the county's unemployment rate; or ((a)(ii)) (f) a county designated as a rural natural resources impact area
under RCW 43.31.601 if an application is filed by July 1, 1997. For purposes of this definition, “families and unrelated individuals”
has the same meaning that is ascribed to that term by the federal department of housing and urban development in its regulations
authorizing action grants for economic development and neighborhood revitalization projects.

((a)(iv)) (4) “Fund” means the rural Washington ((state development)) loan fund.

((b)) (5) “Local development organization” means a nonprofit organization which is organized to operate within an
area, demonstrates a commitment to a long-standing effort for an economic development program, and makes a demonstrable
effort to assist in the employment of unemployed or underemployed residents in an area.

((a)(ii)) (6) “Project” means the establishment of a new or expanded business in an area which when completed will
provide employment opportunities. "Project" also means the retention of an existing business in an area which when completed
will provide employment opportunities.

((a)(ii)) (7) “Rural county” means a county with a population density of fewer that one hundred persons per square mile as

treasury. All loan payments of principal and interest which are transferred under RCW 43.168.050 shall be deposited into the
account. Moneys in the account may be spent only after legislative appropriation for loans under this chapter. Any expenditures

Sec. 505. RCW 43.168.120 and 1987 c 461 s 6 are each amended to read as follows:

loan quality criteria, legal and regulatory issues, and ways to minimize duplication between ((development)) rural Washington loan
funds and local economic development revolving loan funds.

(2) If it appears that all of the funds appropriated to the ((development loan)) fund for a biennium will not be fully granted
to local governments within that biennium, the ((committee)) department may make available up to twenty percent of the eighty
percent of the funds available to projects in distressed areas under RCW 43.168.050 for grants to local governments to
assist existing economic development revolving loan funds in distressed areas. The grants to local governments shall be utilized
to make loans to businesses that meet the specifications for loans under this chapter. The local governments shall, to the extent
permitted under federal law, agree to convey to the ((development loan)) fund the principal and interest payments from existing
loans that the local governments have made through their revolving loan funds. Under circumstances where the federal law does
not permit the ((committee)) department to require such transfer, the ((committee)) department shall give priority to applications
where the applicants on their own volition make commitments to provide for the transfer.

PART VI
PUBLIC FACILITIES GRANTS AND LOANS

Sec. 601. RCW 43.17.250 and 1991 sp.s. c 32 s 25 are each amended to read as follows:

(1) Whenever a state agency is considering awarding grants or loans for a county, city, or town planning under RCW
36.70A.040 to finance public facilities, it shall consider whether the county, city, or town ((that is)) requesting the grant or loan ((is
a party to a county wide planning policy under RCW 36.70A.210 relating to the type of public facility for which the grant or loan is
sought, and shall accord additional preference to the county, city, or town if such county wide planning policy exists)) has adopted
a comprehensive plan and development regulations as required by RCW 36.70A.040.

(2) When reviewing competing requests from counties, cities, or towns planning under RCW 36.70A.040, a state agency
considering awarding grants or loans for public facilities shall accord additional preference to those counties, cities, or towns that
have adopted a comprehensive plan and development regulations as required by RCW 36.70A.040. For the purposes of the
preference accorded in this section, a county, city, or town planning under RCW 36.70A.040 is deemed to have satisfied the
requirements for adopting a comprehensive plan and development regulations specified in RCW 36.70A.040 if the county, city, or
town:
(a) Adopts or has adopted a comprehensive plan and development regulations within the time periods specified in RCW 36.70A.040;

(b) Adopts or has adopted a comprehensive plan and development regulations before submitting a request for a grant if the county, city, or town failed to adopt a comprehensive plan and/or development regulations within the time periods specified in RCW 36.70A.040; or

(c) Demonstrates substantial progress toward adopting a comprehensive plan or development regulations within the time periods specified in RCW 36.70A.040. A county, city, or town that is more than six months out of compliance with the time periods specified in RCW 36.70A.040 shall not be deemed to demonstrate substantial progress for purposes of this section. The preference specified in subsection (2) of this section applies only to competing requests for grants or loans from counties, cities, or towns planning under RCW 36.70A.040. A request from a county, city, or town planning under RCW 36.70A.040 shall be accorded no additional preference based on subsection (2) of this section over a request from a county, city, or town not planning under RCW 36.70A.040.

(4) Whenever a state agency is considering awarding grants or loans to a special district requesting funding for a proposed facility located in a county, city, or town planning under RCW 36.70A.040, it shall consider whether the county, city, or town in whose planning jurisdiction the proposed facility is located is a party to a county wide planning policy under RCW 36.70A.210 relating to the type of public facility for which the grant or loan is sought has adopted a comprehensive plan and development regulations as required by RCW 36.70A.040 and shall apply the preference specified in subsection (2) of this section and restricted in subsection (3) of this section.

Sec. 602. RCW 43.155.070 and 1997 c 429 s 29 are each amended to read as follows:

(1) To qualify for loans or pledges under this chapter the board must determine that a local government meets all of the following conditions:

(a) The city or county must be imposing a tax under chapter 82.46 RCW at a rate of at least one-quarter of one percent;

(b) The local government must have developed a long-term plan for financing public works needs; and

(c) The local government must be using all local revenue sources which are reasonably available for funding public works, taking into consideration local employment and economic factors.

((dd)) (2) Except where necessary to address a public health need or substantial environmental degradation, a county, city, or town ((that is required or chooses to plan)) planning under RCW 36.70A.040 must have adopted a comprehensive plan (in conformance with the requirements of chapter 36.70A RCW, after it is required that the comprehensive plan be adopted, and must have adopted development regulations in conformance with the requirements of chapter 36.70A RCW, after it is required that development regulations be adopted), including a capital facilities plan element, and development regulations as required by RCW 36.70A.040. This subsection does not require any county, city, or town planning under RCW 36.70A.040 to adopt a comprehensive plan or development regulations before requesting or receiving a loan or loan guarantee under this chapter if such request is made before the expiration of the time periods specified in RCW 36.70A.040. A county, city, or town planning under RCW 36.70A.040 which has not adopted a comprehensive plan and development regulations within the time periods specified in RCW 36.70A.040 is not prohibited from receiving a loan or loan guarantee under this chapter if the comprehensive plan and development regulations are adopted as required by RCW 36.70A.040 before submitting a request for a loan or loan guarantee.

(3) In considering awarding loans for public facilities to special districts requesting funding for a proposed facility located in a county, city, or town planning under RCW 36.70A.040, the board shall consider whether the county, city, or town planning under RCW 36.70A.040 in whose planning jurisdiction the proposed facility is located has adopted a comprehensive plan and development regulations as required by RCW 36.70A.040.

((#3)) (4) The board shall develop a priority process for public works projects as provided in this section. The intent of the priority process is to maximize the value of public works projects accomplished with assistance under this chapter. The board shall attempt to assure a geographical balance in assigning priorities to projects. The board shall consider at least the following factors in assigning a priority to a project:

(a) Whether the local government receiving assistance has experienced severe fiscal distress resulting from natural disaster or emergency public works needs;

(b) Whether the project is critical in nature and would affect the health and safety of a great number of citizens;

(c) The cost of the project compared to the size of the local government and amount of loan money available;

(d) The number of communities served by or funding the project;

(e) Whether the project is located in an area of high unemployment, compared to the average state unemployment;

(f) Whether the project is the acquisition, expansion, improvement, or renovation by a local government of a public water system that is in violation of health and safety standards, including the cost of extending existing service to such a system;

(g) The relative benefit of the project to the community, considering the present level of economic activity in the community and the existing local capacity to increase local economic activity in communities that have low economic growth; and
(h) Other criteria that the board considers advisable.

(5) Existing debt or financial obligations of local governments shall not be refinanced under this chapter. Each local government applicant shall provide documentation of attempts to secure additional local or other sources of funding for each public works project for which financial assistance is sought under this chapter.

(6) Before November 1 of each year, the board shall develop and submit to the appropriate fiscal committees of the senate and house of representatives a description of the loans made under RCW 43.155.065, 43.155.068, and subsection (9) of this section during the preceding fiscal year and a prioritized list of projects which are recommended for funding by the legislature, including one copy to the staff of each of the committees. The list shall include, but not be limited to, a description of each project and recommended financing, the terms and conditions of the loan or financial guarantee, the local government jurisdiction and unemployment rate, demonstration of the jurisdiction's critical need for the project and documentation of local funds being used to finance the public works project. The list shall also include measures of fiscal capacity for each jurisdiction recommended for financial assistance, compared to authorized limits and state averages, including local government sales taxes; real estate excise taxes; property taxes; and charges for or taxes on sewerage, water, garbage, and other utilities.

(7) The board shall not sign contracts or otherwise financially obligate funds from the public works assistance account before the legislature has appropriated funds for a specific list of public works projects. The legislature may remove projects from the list recommended by the board. The legislature shall not change the order of the priorities recommended for funding by the board.

(8) Subsection (7) of this section does not apply to loans made under RCW 43.155.065, 43.155.068, and subsection (9) of this section.

(9)(a) Loans made for the purpose of capital facilities plans shall be exempted from subsection (7) of this section. In no case shall the total amount of funds utilized for capital facilities plans and emergency loans exceed the limitation in RCW 43.155.065.

(b) For purposes of this section "capital facilities plans" means those plans required by the growth management act, chapter 36.70A RCW, and plans required by the public works board for local governments not subject to the growth management act.

(10) To qualify for loans or pledges for solid waste or recycling facilities under this chapter, a city or county must demonstrate that the solid waste or recycling facility is consistent with and necessary to implement the comprehensive solid waste management plan adopted by the city or county under chapter 70.95 RCW.

Sec. 603. RCW 70.146.070 and 1997 c 429 s 30 are each amended to read as follows:

(1) When making grants or loans for water pollution control facilities, the department shall consider the following:

(a) The protection of water quality and public health;

(b) The cost to residential ratepayers if they had to finance water pollution control facilities without state assistance;

(c) Actions required under federal and state permits and compliance orders;

(d) The level of local fiscal effort by residential ratepayers since 1972 in financing water pollution control facilities;

(e) The extent to which the applicant county or city, or if the applicant is another public body, the extent to which the county or city in which the applicant public body is located, has established programs to mitigate nonpoint pollution of the surface or subterranean water sought to be protected by the water pollution control facility named in the application for state assistance; and

(f) The recommendations of the Puget Sound action team and any other board, council, commission, or group established by the legislature or a state agency to study water pollution control issues in the state.

(2) Except where necessary to address a public health need or substantial environmental degradation, a county, city, or town (that is required or chooses to plan) planning under RCW 36.70A.040 may not receive a grant or loan for water pollution control facilities unless it has adopted a comprehensive plan ((in conformance with the requirements of chapter 36.70A RCW, after it is required that the comprehensive plan be adopted, or unless it has adopted development regulations in conformance with the requirements of chapter 36.70A RCW, after it is required that development regulations be adopted)) including a capital facilities plan element and development regulations as required by RCW 36.70A.040. This subsection does not require any county, city, or town planning under RCW 36.70A.040 to adopt a comprehensive plan or development regulations before requesting or receiving a grant or loan under this chapter if such request is made before the expiration of the time periods specified in RCW 36.70A.040. A county, city, or town planning under RCW 36.70A.040 which has not adopted a comprehensive plan and development regulations within the time periods specified in RCW 36.70A.040 is not prohibited from receiving a grant or loan under this chapter if the comprehensive plan and development regulations are adopted as required by RCW 36.70A.040 before submitting a request for a grant or loan.
Whenever the department is considering awarding grants or loans for public facilities to special districts requesting funding for a proposed facility located in a county, city, or town planning under RCW 36.70A.040, it shall consider whether the county, city, or town planning under RCW 36.70A.040 in whose planning jurisdiction the proposed facility is located has adopted a comprehensive plan and development regulations as required by RCW 36.70A.040.

MESSAGE FROM THE HOUSE

April 24, 1999

MR. PRESIDENT:

Under suspension of the rules, SUBSTITUTE SENATE BILL NO. 5640 was returned to second reading and the House adopted the following amendment(s) and passed the bill as amended by the House:

1. Strike everything after the enacting clause and insert the following:

   "NEW SECTION. Sec. 1. The legislature finds that:
   (1) The current statute relating to the timing of the primary election may not allow adequate time for absentee voters, especially military personnel living overseas, to review the candidates and issues appearing on the general election ballot before casting their votes;
   (2) The proliferation of permanent absentee voters presents increasing difficulties for county auditors to canvass ballots in a timely way, which in turn may adversely affect the general election campaign of a candidate involved in a close primary race; and
   (3) A delay in counting votes and processing ballots negatively impacts the public's right to timely election results and thus harms our electoral process.

   Therefore, the mission of the task force established by section 2 of this act includes, but is not limited to, a review of issues relating to the timing of the primary election, the canvassing of ballots, and the certification of election results. The task force shall consider alternates to the current statutes that relate to these issues, and shall provide recommendations accordingly.

   NEW SECTION. Sec. 2. A task force to study and make recommendations regarding the date for primary elections is established. The task force membership consists of the following thirteen members:

   (1) Three citizen members from across the state, appointed jointly by the secretary of state, the president of the senate, and the co-speakers of the house of representatives;
   (2) Two members of the senate, one from each of the largest two caucuses, appointed by the president of the senate, and two members of the house of representatives, one from each of the largest two caucuses, appointed by the co-speakers of the house of representatives;
   (3) The secretary of state or the secretary's designee;
   (4) Three county elections officials designated by the Washington Association of County Officials; and
   (5) A representative of each major political party in the state, appointed by the chair of the state central committee for the party."
NEW SECTION. Sec. 3. The task force shall report its recommendations to the governor, the secretary of state, and the appropriate standing committees of the senate and house of representatives no later than December 1, 1999. The task force terminates on December 31, 1999.

Sec. 4. RCW 29.62.020 and 1995 c 139 s 2 are each amended to read as follows:

(1) (No later than the tenth day after a special election or primary and no later than the fifteenth day after a general election, the county auditor shall convene the county canvassing board to process the absentee ballots and canvass the votes cast at that primary or election.) At least every third day after a special election, primary, or general election and before certification of the election results, except Sundays and legal holidays, the county auditor shall convene the county canvassing board or their designees to process absentee ballots and canvass the votes cast at that special election, primary, or general election, if the county auditor is in possession of more than twenty-five ballots that have yet to be canvassed. The county auditor may use his or her discretion in determining when to convene the canvassing board or their designees during the final four days before the certification of election results in order to protect the secrecy of any ballot.

Each absentee ballot previously not canvassed that was received by the county auditor two days or more before the convening of the canvassing board or their designees and that either was received by the county auditor before the closing of the polls on the day of the special election, primary, or general election for which it was issued, or that bears a date of mailing on or before the special election, primary, or general election for which it was issued, must be processed at that time. The tabulation of votes that results from that day’s canvass must be made available to the general public immediately upon completion of the canvass.

(2) On the tenth day after a special election or a primary and on the fifteenth day after a general election, the canvassing board shall complete the canvass and certify the results. Each absentee ballot that was returned before the closing of the polls on the date of the primary or election for which it was issued, and each absentee ballot with a date of mailing on or before the date of the primary or election for which it was issued and received on or before the date on which the primary or election is certified, shall be included in the canvass report.

(3) At the request of any caucus of the state legislature, the county auditor shall transmit copies of all unofficial returns of state and legislative primaries or elections prepared by or for the county canvassing board to either the secretary of the senate or the chief clerk of the house.

It is the intent of the legislature to ensure that the commission provide the general public timely access to all contribution and expenditure reports submitted by candidates, continuing political committees, bona fide political parties, lobbyists, and lobbyists’ employers. ((15)) Inspection of the files and records included in the order to seal may thereafter be permitted only by order of the court upon motion made by the person who is the subject of the information or complaint, except as otherwise provided in RCW 13.50.010(8) and subsection (((22))) (23) of this section.

((16)) Any adjudication of a juvenile offense or a crime subsequent to sealing has the effect of nullifying the sealing order. Any charging of an adult felony subsequent to the sealing has the effect of nullifying the sealing order for the purposes of chapter 9.94A RCW.

((17)) A person eighteen years of age or older whose criminal history consists of only one referral for diversion may request that the court order the records in that case destroyed. The request shall be granted, subject to subsection (((22))) (23) of this section, if the court finds that two years have elapsed since completion of the diversion agreement.

((18)) If the court grants the motion to destroy records made pursuant to subsection (((16))) (17) of this section, it shall, subject to subsection (((22))) (23) of this section, order the official juvenile court file, the social file, and any other records named in the order to be destroyed.

((19)) The person making the motion pursuant to subsection (((16))) (17) of this section shall give reasonable notice of the motion to the prosecuting attorney and to any agency whose records are sought to be destroyed.

((20)) Any juvenile to whom the provisions of this section may apply shall be given written notice of his or her rights under this section at the time of his or her disposition hearing or during the diversion process.

((21)) Nothing in this section may be construed to prevent a crime victim or a member of the victim's family from divulging the identity of the alleged or proven juvenile offender or his or her family when necessary in a civil proceeding.

((22)) Any juvenile justice or care agency may, subject to the limitations in subsection (((22))) (23) of this section and (a) and (b) of this subsection, develop procedures for the routine destruction of records relating to juvenile offenses and diversions.

(a) Records may be routinely destroyed only when the person the subject of the information or complaint has attained twenty-three years of age or older, or is eighteen years of age or older and his or her criminal history consists entirely of one diversion agreement and two years have passed since completion of the agreement.

(b) The court may not routinely destroy the official juvenile court file or recordings or transcripts of any proceedings.

((23)) No identifying information held by the Washington state patrol in accordance with chapter 43.43 RCW is subject to destruction or sealing under this section. For the purposes of this subsection, identifying information includes photographs, fingerprints, palmprints, soleprints, toeprints and any other data that identifies a person by physical characteristics, name, birthdate or address, but does not include information regarding criminal activity, arrest, charging, diversion, conviction or other information about a person's treatment by the criminal justice system or about the person's behavior.

((24)) Information identifying child victims under age eighteen who are victims of sexual assaults by juvenile offenders is confidential and not subject to release to the press or public without the permission of the child victim or the child's legal guardian. Identifying information includes the child victim's name, addresses, location, photographs, and in cases in which the child victim is a relative of the alleged perpetrator, identification of the relationship between the child and the alleged perpetrator. Information identifying a child victim of sexual assault may be released to law enforcement, prosecutors, judges, defense attorneys, or private or governmental agencies that provide services to the child victim of sexual assault.

((25)) All costs incurred by the court and probation services shall be paid by the person making the motion to seal the record under subsection (10) of this section unless a determination is made pursuant to chapter 10.101 RCW that the person making the motion is indigent, at the time the motion is brought."

On motion of Senator Hargrove, the Senate receded from its amendment(s) to Engrossed Second Substitute House Bill No. 1493.

MOTIONS

On motion of Senator Hargrove, the rules were suspended, Engrossed Second Substitute House Bill No. 1493 was returned to second reading and read the second time.

On motion of Senator Hargrove, the following striking amendment by Senators Hargrove, Costa, Long, Zarelli and Brown was adopted:

Strike everything after the enacting clause and insert the following:

*NEW SECTION. Sec. 1. The legislature finds that homelessness for families with children is a serious, widespread problem that has a devastating effect on children, including significant adverse effects upon their growth and development. Planning for and serving the shelter and housing needs of homeless families with children has been and continues to be a responsibility of the department of community, trade, and economic development. The legislature further finds that the department of social and health services also plays an important role in addressing the service needs of homeless families with children. In order to adequately and effectively address the complex issues confronting homeless families with children, planning for, implementing, and evaluating such services must be a collaborative effort between the department of community, trade, and economic development and the department of social and health services, other local, state, and federal agencies, and community organizations. It is the intent of the legislature that the department of community, trade, and economic development and the department of social and health services jointly present the plan to the appropriate committees of the legislature as required in section 3 of this act. It is the intent of the legislature that children should not be placed or retained in the foster care system if family homelessness is the primary reason for placement or the continuation of their placement. It is the further intent of the legislature that services to homeless families with children shall be provided within funds appropriated for that specific purpose by the legislature in the operating and capital budgets. Nothing in this act is intended to prevent the court's review of the plan developed by the department of social and health services and the department of community, trade, and economic development under Washington State Coalition for the Homeless v. Department of Social and Health Services, King County Superior Court No.*
The department shall collaborate with the department of community, trade, and economic development in the development of the coordinated and comprehensive plan for homeless families with children required under RCW 43.63A.650, which designates the department of community, trade, and economic development as the state agency with primary responsibility for providing shelter and housing services to homeless families with children. In fulfilling its responsibilities to collaborate with the department of community, trade, and economic development pursuant to RCW 43.63A.650, the department shall develop, administer, supervise, and monitor its portion of the plan. The department's portion of the plan shall contain at least the following elements:

(a) Coordination or linkage of services with shelter and housing;
(b) Accommodation and addressing the needs of homeless families in the design and administration of department programs;
(c) Participation of the department's local offices in the identification, assistance, and referral of homeless families; and
(d) Ongoing monitoring of the efficiency and effectiveness of the plan's design and implementation.

The department shall include community organizations involved in the delivery of services to homeless families with children, and experts in the development and ongoing evaluation of the plan.

The duties under this section shall be implemented within amounts appropriated for that specific purpose by the legislature in the operating and capital budgets.

**Sec. 3.** RCW 43.63A.650 and 1993 c 478 s 13 are each amended to read as follows:

(1) The department shall be the principal state department responsible for coordinating federal and state resources and activities in housing, except for programs administered by the Washington state housing finance commission under chapter 43.180 RCW, and for evaluating the operations and accomplishments of other state departments and agencies as they affect housing.

(2) The department shall work with local governments, tribal organizations, local housing authorities, nonprofit community or neighborhood-based organizations, and regional or state-wide nonprofit housing assistance organizations, for the purpose of coordinating federal and state resources with local resources for housing.

(3) The department shall be the principal state department responsible for providing shelter and housing services to homeless families with children. The department shall have the principal responsibility to coordinate, plan, and oversee the state's activities for developing a coordinated and comprehensive plan to serve homeless families with children. The plan shall be developed collaboratively with the department of social and health services. The department shall include community organizations involved in the delivery of services to homeless families with children, and experts in the development and ongoing evaluation of the plan. The department shall follow professionally recognized standards and procedures. The plan shall be implemented within amounts appropriated by the legislature for that specific purpose in the operating and capital budgets. The department shall submit the plan to the appropriate committees of the senate and house of representatives no later than September 1, 1999, and shall update the plan and submit it to the appropriate committees of the legislature by January 1st of every odd-numbered year through 2007. The plan shall address at least the following: (a) The need for prevention assistance; (b) the need for emergency shelter; (c) the need for transitional assistance to aid families into permanent housing; (d) the need for ongoing monitoring of the efficiency and effectiveness of the plan's design and implementation.

**NEW SECTION, Sec. 4.** A new section is added to chapter 43.63A RCW to read as follows:

(1) In order to improve services for the homeless, the department, within amounts appropriated by the legislature for this specific purpose, shall implement a system for the ongoing collection and analysis of data about the extent and nature of homelessness in Washington state, giving emphasis to information about extent and nature of homelessness in Washington state families with children. The system may be merged with other data gathering and reporting systems and shall:

(a) Protect the right of privacy of individuals;
(b) Provide for consultation and collaboration with state agencies including the department of social and health services, experts, and community organizations involved in the delivery of services to homeless persons; and
(c) Include related information held or gathered by other state agencies.

(2) Within amounts appropriated by the legislature, for this specific purpose, the department shall evaluate the information gathered and disseminate the analysis and the evaluation broadly, using appropriate computer networks as well as written reports.

**NEW SECTION, Sec. 5.** A new section is added to chapter 43.63A RCW to read as follows:
The department shall, by rule, establish program standards, eligibility standards, eligibility criteria, and administrative rules for emergency housing programs and specify other benefits that may arise in consultation with providers.

Sec. 6. RCW 13.34.030 and 1998 c 130 s 1 are each amended to read as follows:

For purposes of this chapter:

(1) "Child" and "juvenile" means any individual under the age of eighteen years.

(2) "Current placement episode" means the period of time that begins with the most recent date that the child was removed from the home of the parent, guardian, or legal custodian for purposes of placement in out-of-home care and continues until the child returns home, an adoption decree, a permanent custody order, or guardianship order is entered, or the dependency is dismissed, whichever occurs sooner. If the most recent date of removal occurred prior to the filing of a dependency petition under this chapter or after filing but prior to entry of a disposition order, such time periods shall be included when calculating the length of a child's current placement episode.

(3) "Dependency guardian" means the person, nonprofit corporation, or Indian tribe appointed by the court pursuant to RCW 13.34.232 for the limited purpose of assisting the court in the supervision of the dependency.

(4) "Dependent child" means any child:

(a) Who has been abandoned; that is, where the child's parent, guardian, or other custodian has expressed either by statement or conduct, an intent to forego, for an extended period, parental rights or parental responsibilities despite an ability to do so. If the court finds that the petitioner has exercised due diligence in attempting to locate the parent, no contact between the child and the child's parent, guardian, or other custodian for a period of three months creates a rebuttable presumption of abandonment, even if there is no expressed intent to abandon;

(b) Who is abused or neglected as defined in chapter 26.44 RCW by a person legally responsible for the care of the child; or

(c) Who has no parent, guardian, or custodian capable of adequately caring for the child, such that the child is in circumstances which constitute a danger of substantial damage to the child's psychological or physical development.

(5) "Guardian" means the person or agency that: (a) Has been appointed as the guardian of a child in a legal proceeding other than a proceeding under this chapter; and (b) has the legal right to custody of the child pursuant to such appointment. The term "guardian" shall not include a "dependency guardian" appointed pursuant to a proceeding under this chapter.

(6) "Guardian ad litem" means a person, appointed by the court to represent the best interest of a child in a proceeding under this chapter, or in any matter which may be consolidated with a proceeding under this chapter. A "court-appointed special advocate" appointed by the court to be the guardian ad litem for the child, or to perform substantially the same duties and functions as a guardian ad litem, shall be deemed to be guardian ad litem for all purposes and uses of this chapter.

(7) "Guardian ad litem program" means a court-authorized volunteer program, which is or may be established by the superior court of the county in which such proceeding is filed, to manage all aspects of volunteer guardian ad litem representation for children alleged or found to be dependent. Such management shall include but is not limited to: Recruitment, screening, training, supervision, assignment, and discharge of volunteers.

(8) "Out-of-home care" means placement in a foster family home or group care facility licensed pursuant to chapter 74.15 RCW or placement in a home, other than that of the child's parent, guardian, or legal custodian, not required to be licensed pursuant to chapter 74.15 RCW.

(9) "Preventive services" means preservation services, as defined in chapter 74.14C RCW, and other reasonably available services, including housing services, capable of preventing the need for out-of-home placement while protecting the child. Housing services may include, but are not limited to, referrals to federal, state, local, or private agencies or organizations, assistance with forms and applications, or financial subsidies for housing.

Sec. 7. RCW 74.13.020 and 1979 c 155 s 76 are each amended to read as follows:

As used in Title 74 RCW, child welfare services shall be defined as public social services including adoption services which strengthen, supplement, or substitute for, parental care and supervision for the purpose of:

(1) Preventing or remedying, or assisting in the solution of problems which may result in families in conflict, or the neglect, abuse, exploitation, or criminal behavior of children;

(2) Protecting and caring for (homeless) dependent((,)) or neglected children;

(3) Assisting children who are in conflict with their parents, and assisting parents who are in conflict with their children with services designed to resolve such conflicts;

(4) Protecting and promoting the welfare of children, including the strengthening of their own homes where possible, or, where needed;

(5) Providing adequate care of children away from their homes in foster family homes or day care or other child care agencies or facilities.
As used in this chapter, child means a person less than eighteen years of age.

The department's duty to provide services to homeless families with children is set forth in section 2 of this act and in appropriations provided by the legislature for implementation of the plan.

Sec. 8. RCW 74.13.031 and 1998 c 314 s 10 are each amended to read as follows:

The department shall have the duty to provide child welfare services and shall:

1) Develop, administer, supervise, and monitor a coordinated and comprehensive plan that establishes, aids, and strengthens services for the protection and care of (homeless) runaway, dependent, or neglected children.

2) Within available resources, recruit an adequate number of prospective adoptive and foster homes, both regular and specialized, i.e. homes for children of ethnic minority, including Indian homes for Indian children, sibling groups, handicapped and emotionally disturbed, teens, pregnant and parenting teens, and annually report to the governor and the legislature concerning the department's success in: (a) Meeting the need for adoptive and foster home placements; (b) reducing the foster parent turnover rate; (c) completing home studies for legally free children; and (d) implementing and operating the passport program required by RCW 74.13.285. The report shall include a section entitled "Foster Home Turn-Over, Causes and Recommendations."

3) Investigate complaints of any recent act or failure to act on the part of a parent or caretaker that results in death, serious physical or emotional harm, or sexual abuse or exploitation, or that presents an imminent risk of serious harm, and on the basis of the findings of such investigation, offer child welfare services in relation to the problem to such parents, legal custodians, or persons serving in loco parentis, and/or bring the situation to the attention of an appropriate court, or another community agency: PROVIDED, That an investigation is not required of nonaccidental injuries which are clearly not the result of a lack of care or supervision by the child's parents, legal custodians, or persons serving in loco parentis. If the investigation reveals that a crime against a child may have been committed, the department shall notify the appropriate law enforcement agency.

4) Offer, on a voluntary basis, family reconciliation services to families who are in conflict.

5) Monitor out-of-home placements, on a timely and routine basis, to assure the safety, well-being, and quality of care being provided is within the scope of the intent of the legislature as defined in RCW 74.13.010 and 74.15.010, and annually submit a report measuring the extent to which the department achieved the specified goals to the governor and the legislature.

6) Have authority to accept custody of children from parents and to accept custody of children from juvenile courts, where authorized to do so under law, to provide child welfare services including placement for adoption, and to provide for the physical care of such children and make payment of maintenance costs if needed. Except where required by Public Law 95-608 (25 U.S.C. Sec. 1915), no private adoption agency which receives children for adoption from the department shall discriminate on the basis of race, creed, or color when considering applications in their placement for adoption.

7) Have authority to provide temporary shelter to children who have run away from home and who are admitted to crisis residential centers.

8) Have authority to purchase care for children; and shall follow in general the policy of using properly approved private agency services for the actual care and supervision of such children as are available, paying for care of such children as are accepted by the department as eligible for support at reasonable rates established by the department.

9) Establish a children's services advisory committee which shall assist the secretary in the development of a partnership plan for utilizing resources of the public and private sectors, and advise on all matters pertaining to child welfare, licensing of child care agencies, adoption, and services related thereto. At least one member shall represent the adoption community.

10) Have authority to provide continued foster care or group care for individuals from eighteen through twenty years of age to enable them to complete their high school or vocational school program.

11) Have authority within funds appropriated for foster care services to purchase care for Indian children who are in the custody of a federally recognized Indian tribe or tribally licensed child-placing agency pursuant to parental consent, tribal court order, or state juvenile court order; and the purchase of such care shall be subject to the same eligibility standards and rates of support applicable to other children for whom the department purchases care.

Notwithstanding any other provision of RCW 13.32A.170 through 13.32A.200 and 74.13.032 through 74.13.036, or of this section all services to be provided by the department of social and health services under subsections (4), (6), and (7) of this section, subject to the limitations of these subsections, may be provided by any program offering such services funded pursuant to Titles II and III of the federal juvenile justice and delinquency prevention act of 1974.

12) Within amounts appropriated for this specific purpose, provide preventive services to families with children that prevent or shorten the duration of an out-of-home placement.

Sec. 9. RCW 13.34.130 and 1998 c 314 s 2 and 1998 c 130 s 2 are each reenacted and amended to read as follows:

If, after a fact-finding hearing pursuant to RCW 13.34.110, it has been proven by a preponderance of the evidence that the child is dependent within the meaning of RCW 13.34.030; after consideration of the predisposition report prepared pursuant to
RCW 13.34.110 and after a disposition hearing has been held pursuant to RCW 13.34.110, the court shall enter an order of disposition pursuant to this section.

(1) The court shall order one of the following dispositions of the case:

(a) Order a disposition other than removal of the child from his or her home, which shall provide a program designed to alleviate the immediate danger to the child, to mitigate or cure any damage the child has already suffered, and to aid the parents so that the child will not be endangered in the future. In selecting a program, the court should choose those services, including housing assistance, that least interfere with family autonomy, provided that the services are adequate to protect the child.

(b) Order that the child be removed from his or her home and ordered into the custody, control, and care of a relative or the department of social and health services or a licensed child placing agency for placement in a foster family home or group care facility licensed pursuant to chapter 74.15 RCW or in a home not required to be licensed pursuant to chapter 74.15 RCW. Unless there is reasonable cause to believe that the safety or welfare of the child would be jeopardized or that efforts to reunite the parent and child will be hindered, such child shall be placed with a person who is related to the child as defined in RCW 74.15.020((1)(a)) (2)(a) and with whom the child has a relationship and is comfortable, and who is willing and available to care for the child. Placement of the child with a relative under this subsection shall be given preference by the court. An order for out-of-home placement may be made only if the court finds that reasonable efforts have been made to prevent or eliminate the need for removal of the child from the child's home and to make it possible for the child to return home, specifying the services that have been provided to the child and the child's parent, guardian, or legal custodian, and that preventive services have been offered or provided and have failed to prevent the need for out-of-home placement, unless the health, safety, and welfare of the child cannot be protected adequately in the home, and that:

(i) There is no parent or guardian available to care for such child;

(ii) The parent, guardian, or legal custodian is not willing to take custody of the child;

(iii) The court finds, by clear, cogent, and convincing evidence, a manifest danger exists that the child will suffer serious abuse or neglect if the child is not removed from the home and an order under RCW 26.44.063 would not protect the child from danger; or

(iv) The extent of the child's disability is such that the parent, guardian, or legal custodian is unable to provide the necessary care for the child and the parent, guardian, or legal custodian has determined that the child would benefit from placement outside of the home.

(2) If the court has ordered a child removed from his or her home pursuant to subsection (1)(b) of this section, the court may order that a petition seeking termination of the parent and child relationship be filed if the court finds: (a) Termination is recommended by the supervising agency; (b) termination is in the best interests of the child; and (c) that because of the existence of aggravated circumstances, reasonable efforts to unify the family are not required. Notwithstanding the existence of aggravated circumstances, reasonable efforts may be required if the court or department determines it is in the best interest of the child. In determining whether aggravated circumstances exist, the court shall consider one or more of the following:

(i) Conviction of the parent of rape of the child in the first, second, or third degree as defined in RCW 9A.44.073, 9A.44.076, and 9A.44.079;

(ii) Conviction of the parent of criminal mistreatment of the child in the first or second degree as defined in RCW 9A.42.020 and 9A.42.030;

(iii) Conviction of the parent of one of the following assault crimes, when the child is the victim: Assault in the first or second degree as defined in RCW 9A.36.011 and 9A.36.021 or assault of a child in the first or second degree as defined in RCW 9A.36.120 or 9A.36.130;

(iv) Conviction of the parent of murder, manslaughter, or homicide by abuse of the child's other parent, sibling, or another child;

(v) Conviction of the parent of attempting, soliciting, or conspiracy to commit a crime listed in (c)(i), (ii), (iii), or (iv) of this subsection;

(vi) A finding by a court that a parent is a sexually violent predator as defined in RCW 71.09.020;

(vii) Failure of the parent to complete available treatment ordered under this chapter or the equivalent laws of another state, where such failure has resulted in a prior termination of parental rights to another child and the parent has failed to effect significant change in the interim. In the case of a parent of an Indian child, as defined in the Indian Child Welfare Act, P.L. 95-608 (25 U.S.C. (§ Sec.) Sec. 1903), the court shall also consider tribal efforts to assist the parent in completing treatment and make it possible for the child to return home;

(viii) An infant under three years of age has been abandoned as defined in RCW 13.34.030(4)(a);

(ix) The mother has given birth to three or more drug-affected infants, resulting in the department filing a petition under section 23 of this act.
If reasonable efforts are not ordered under subsection (2) of this section a permanency plan hearing shall be held within thirty days. Reasonable efforts shall be made to place the child in a timely manner in accordance with the permanency plan, and to complete whatever steps are necessary to finalize the permanent placement of the child.

Whenever a child is ordered removed from the child's home, the agency charged with his or her care shall provide the court with:

(a) A permanency plan of care that shall identify one of the following outcomes as a primary goal and may identify additional outcomes as alternative goals: Return of the child to the home of the child's parent, guardian, or legal custodian; adoption; guardianship; permanent legal custody; (i) long-term relative or foster care, until the child is age eighteen, with a written agreement between the parties and the care provider; and independent living, if appropriate and if the child is age sixteen or older; or a responsible living skills program. Whenever a permanency plan identifies independent living as a goal, the plan shall also specifically identify the services that will be provided to assist the child to make a successful transition from foster care to independent living. Before the court approves independent living as a permanency plan of care, the court shall make a finding that the provision of services to assist the child in making a transition from foster care to independent living will allow the child to manage his or her financial affairs and to manage his or her personal, social, educational, and nonfinancial affairs. The department shall not discharge a child to an independent living situation before the child is eighteen years of age unless the child becomes emancipated pursuant to chapter 13.64 RCW.

(b) Unless the court has ordered, pursuant to subsection (2) of this section, that a termination petition be filed, a specific plan as to where the child will be placed, what steps will be taken to return the child home, and what actions the agency will take to maintain parent-child ties. All aspects of the plan shall include the goal of achieving permanence for the child.

(i) The agency plan shall specify what services the parents will be offered in order to enable them to resume custody, what requirements the parents must meet in order to resume custody, and a time limit for each service plan and parental requirement.

(ii) The agency shall be required to encourage the maximum parent-child contact possible, including regular visitation and participation by the parents in the care of the child while the child is in placement. Visitation may be limited or denied only if the court determines that such limitation or denial is necessary to protect the child's health, safety, or welfare.

(iii) A child shall be placed as close to the child's home as possible, preferably in the child's own neighborhood, unless the court finds that placement at a greater distance is necessary to promote the child's or parents' well-being.

(iv) The agency charged with supervising a child in placement shall provide all reasonable services that are available within the agency, or within the community, or those services which the department of social and health services has existing contracts to purchase. It shall report to the court if it is unable to provide such services.

(c) If the court has ordered, pursuant to subsection (2) of this section, that a termination petition be filed, a specific plan as to where the child will be placed, what steps will be taken to achieve permanency for the child, services to be offered or provided to the child, and, if visitation would be in the best interests of the child, a recommendation to the court regarding visitation between parent and child pending a fact-finding hearing on the termination petition. The agency shall not be required to develop a plan of services for the parents or provide services to the parents.

(5) If the court determines that the continuation of reasonable efforts to prevent or eliminate the need to remove the child from his or her home or to safely return the child home should not be part of the permanency plan of care for the child, reasonable efforts shall be made to place the child in a timely manner and to complete whatever steps are necessary to finalize the permanent placement of the child.

(6) If there is insufficient information at the time of the disposition hearing upon which to base a determination regarding the suitability of a proposed placement with a relative, the child shall remain in foster care and the court shall direct the supervising agency to conduct necessary background investigations as provided in chapter 74.15 RCW and report the results of such investigation to the court within thirty days. However, if such relative appears otherwise suitable and competent to provide care and treatment, the criminal history background check need not be completed before placement, but as soon as possible after placement. Any placements with relatives, pursuant to this section, shall be contingent upon cooperation by the relative with the agency case plan and compliance with court orders related to the care and supervision of the child including, but not limited to, court orders regarding parent-child contacts and any other conditions imposed by the court. Noncompliance with the case plan or court order shall be grounds for removal of the child from the relative's home, subject to review by the court.

(7) Except for children whose cases are reviewed by a citizen review board under chapter 13.70 RCW, the status of all children found to be dependent shall be reviewed by the court at least every six months from the beginning date of the placement episode or the date dependency is established, whichever is first, at a hearing in which it shall be determined whether court supervision should continue. The review shall include findings regarding the agency and parental completion of disposition plan requirements, and if necessary, revised permanency time limits. The supervising agency shall provide a foster parent, preadoptive parent, or relative with notice of, and their right to an opportunity to be heard in, a review hearing pertaining to the
child, but only if that person is currently providing care to that child at the time of the hearing. This section shall not be construed to grant party status to any person who has been provided an opportunity to be heard.

(a) A child shall not be returned home at the review hearing unless the court finds that a reason for removal as set forth in this section no longer exists. The parents, guardian, or legal custodian shall report to the court the efforts they have made to correct the conditions which led to removal. If a child is returned, casework supervision shall continue for a period of six months, at which time there shall be a hearing on the need for continued intervention.

(b) If the child is not returned home, the court shall establish in writing:

(i) Whether reasonable services have been provided to or offered to the parties to facilitate reunion, specifying the services provided or offered;

(ii) Whether the child has been placed in the least-restrictive setting appropriate to the child's needs, including whether consideration and preference has been given to placement with the child's relatives;

(iii) Whether there is a continuing need for placement and whether the placement is appropriate;

(iv) Whether there has been compliance with the case plan by the child, the child's parents, and the agency supervising the placement;

(v) Whether progress has been made toward correcting the problems that necessitated the child's placement in out-of-home care;

(vi) Whether the parents have visited the child and any reasons why visitation has not occurred or has been infrequent;

(vii) Whether additional services, including housing assistance, are needed to facilitate the return of the child to the child's parents; if so, the court shall order that reasonable services be offered specifying such services; and

(viii) The projected date by which the child will be returned home or other permanent plan of care will be implemented.

(c) The court at the review hearing may order that a petition seeking termination of the parent and child relationship be filed.

8. The court's ability to order housing assistance under this section is:

(a) Limited to cases in which homelessness or the lack of adequate and safe housing is the primary reason for an out-of-home placement; and

(b) subject to the availability of funds appropriated for this specific purpose.

NEW SECTION. Sec. 10. Sections 10 through 26 of this act may be referred to as the homeless youth prevention, protection, and education act, or the HOPE act. Every day many youth in this state seek shelter out on the street. A nurturing nuclear family does not exist for them, and state-sponsored alternatives such as foster homes do not meet the demand and isolate youth, who feel like outsiders in families not their own. The legislature recognizes the need to develop placement alternatives for dependent youth ages sixteen to eighteen, who are living on the street. The HOPE act is an effort to engage youth and provide them access to services through development of life skills in a setting that supports them. Nothing in sections 10 through 26 of this act shall constitute an entitlement.

Sec. 11. RCW 74.15.020 and 1998 c 269 s 3 are each amended to read as follows:

For the purpose of chapter 74.15 RCW and RCW 74.13.031, and unless otherwise clearly indicated by the context thereof, the following terms shall mean:

(a) "Agency" means any person, firm, partnership, association, corporation, or facility which receives children, expectant mothers, or persons with developmental disabilities for control, care, or maintenance outside their own homes, or which places, arranges the placement of, or assists in the placement of children, expectant mothers, or persons with developmental disabilities for foster care or placement of children for adoption, and shall include the following irrespective of whether there is compensation to the agency or to the children, expectant mothers or persons with developmental disabilities for services rendered:

(iv) A "Crisis residential center" means an agency which is a temporary protective residential facility operated to perform the duties specified in chapter 13.32A RCW, in the manner provided in RCW 74.13.032 through 74.13.036;

A street youth may remain in a HOPE center for thirty days while services are arranged and permanent placement is coordinated. A street youth whose parent wants him or her returned to home may remain in a HOPE center until his or her parent arranges return of the youth, not longer. Sec. 1903(4);

(b) Persons who are legal guardians of the child, expectant mother, or persons with developmental disabilities;

(c) Persons who care for a neighbor's or friend's child or children, with or without compensation, where: (i) The person providing care for periods of less than twenty-four hours does not conduct such activity on an ongoing, regularly scheduled basis for the purpose of engaging in business, which includes, but is not limited to, advertising such care; or (ii) the parent and person providing care on a twenty-four-hour basis have agreed to the placement in writing and the state is not providing any payment for the care;

An agency operated by any unit of local, state, or federal government or an agency, located within the boundaries of a federally recognized Indian reservation, licensed by the Indian tribe;

NEW SECTION, Sec. 12. A new section is added to chapter 74.15 RCW to read as follows:

The secretary shall establish HOPE centers that provide no more than seventy-five beds across the state and may establish HOPE centers by contract, within funds appropriated by the legislature specifically for this purpose. HOPE centers shall be operated in a manner to reasonably assure that street youth placed there will not run away. Street youth may leave a HOPE center during the course of the day to attend school or other necessary appointments, but the street youth must be accompanied by an administrator or an administrator's designee. The street youth must provide the administration with specific information regarding his or her destination and expected time of return to the HOPE center. Any street youth who runs away from a HOPE center shall not be readmitted unless specifically authorized by the street youth's placement and liaison specialist, and the placement and liaison specialist shall document with specific factual findings an appropriate basis for readmitting any street youth to a HOPE center. HOPE centers are required to have the following:

(1) A license issued by the secretary;

(2) A professional with a master's degree in counseling, social work, or related field and at least one year of experience working with street youth or a bachelor of arts degree in social work or a related field and five years of experience working with street youth. This professional staff person may be contractual or a part-time employee, but must be available to work with street youth in a HOPE center at a ratio of one to every fifteen youth staying in a HOPE center. This professional shall be known as a placement and liaison specialist. Preference shall be given to those professionals cross-credentialed in mental health and chemical dependency. The placement and liaison specialist shall:

(a) Conduct an assessment of the street youth that includes a determination of the street youth's legal status regarding residential placement;

(b) Facilitate the street youth's return to his or her legally authorized residence at the earliest possible date or initiate processes to arrange legally authorized appropriate placement. Any street youth who may meet the definition of dependent child under RCW 13.34.030 must be referred to the department. The department shall determine whether a dependency petition should be filed under chapter 13.34 RCW. A shelter care hearing must be held within seventy-two hours to authorize out-of-home placement for any youth the department determines is appropriate for out-of-home placement under chapter 13.34 RCW. All of the provisions of chapter 13.32A RCW must be followed for children in need of services or at-risk youth;

(c) Interface with other relevant resources and system representatives to secure long-term residential placement and other needed services for the street youth;

(d) Be assigned immediately to each youth and meet with the youth within eight hours of the youth receiving HOPE center services;
(e) Facilitate a physical examination of any street youth who has not seen a physician within one year prior to residence at a HOPE center and facilitate evaluation by a county-designated mental health professional, a chemical dependency specialist, or both if appropriate; and

(f) Arrange an educational assessment to measure the street youth's competency level in reading, writing, and basic mathematics, and that will measure learning disabilities or special needs;

(3) Staff trained in development needs of street youth as determined by the secretary, including an administrator who is a professional with a master's degree in counseling, social work, or a related field and at least one year of experience working with street youth, or a bachelor of arts degree in social work or a related field and five years of experience working with street youth, who must work with the placement and liaison specialist to provide appropriate services on site;

(4) A data collection system that measures outcomes for the population served, and enables research and evaluation that can be used for future program development and service delivery. Data collection systems must have confidentiality rules and protocols developed by the secretary;

(5) Notification requirements that meet the notification requirements of chapter 13.32A RCW. The youth's arrival date and time must be logged at intake by HOPE center staff. The staff must immediately notify law enforcement and dependency caseworkers if a street youth runs away from a HOPE center. A child may be transferred to a secure facility as defined in RCW 13.32A.030 whenever the staff reasonably believes that a street youth is likely to leave the HOPE center and not return after full consideration of the factors set forth in RCW 13.32A.130(2)(a) (i) and (ii). The street youth's temporary placement in the HOPE center must be authorized by the court or the secretary if the youth is a dependent of the state under chapter 13.34 RCW or the department is responsible for the youth under chapter 13.32A RCW, or by the youth's parent or legal custodian, until such time as the parent can retrieve the youth who is returning to home;

(6) HOPE centers must identify to the department any street youth it serves who is not returning promptly to home. The department then must contact the missing children's clearinghouse identified in chapter 13.60 RCW and either report the youth's location or report that the youth is the subject of a dependency action and the parent should receive notice from the department;

(7) Services that provide counseling and education to the street youth; and

(8) The department shall only award contracts for the operation of HOPE center beds and responsible living skills programs in departmental regions: (a) With operating secure crisis residential centers; or (b) in which the secretary finds significant progress is made toward opening a secure crisis residential center.

NEW SECTION. Sec. 13. A new section is added to chapter 74.15 RCW to read as follows:

The secretary shall establish responsible living skills programs that provide no more than seventy-five beds across the state and may establish responsible living skills programs by contract, within funds appropriated by the legislature specifically for this purpose. Responsible living skills programs shall have the following:

(1) A license issued by the secretary;

(2) A professional with a master's degree in counseling, social work, or related field and at least one year of experience working with street youth available to serve residents or a bachelor of arts degree in social work or a related field and five years of experience working with street youth. The professional shall provide counseling services and interface with other relevant resources and systems to prepare the minor for adult living. Preference shall be given to those professionals cross-credentialed in mental health and chemical dependency;

(3) Staff trained in development needs of older adolescents eligible to participate in responsible living skills programs as determined by the secretary;

(4) Transitional living services and a therapeutic model of service delivery that provides necessary program supervision of residents and at the same time includes a philosophy, program structure, and treatment planning that emphasizes achievement of competency in independent living skills. Independent living skills include achieving basic educational requirements such as a GED, enrollment in vocational and technical training programs offered at the community and vocational colleges, obtaining and maintaining employment; accomplishing basic life skills such as money management, nutrition, preparing meals, and cleaning house. A baseline skill level in ability to function productively and independently shall be determined at entry. Performance shall be measured and must demonstrate improvement from involvement in the program. Each resident shall have a plan for achieving independent living skills by the time the resident leaves the placement. The plan shall be written within the first thirty days of placement and reviewed every ninety days. A resident who fails to consistently adhere to the elements of the plan shall be subject to reassessment by the professional staff of the program and may be placed outside the program; and

(5) A data collection system that measures outcomes for the population served, and enables research and evaluation that can be used for future program development and service delivery. Data collection systems must have confidentiality rules and protocols developed by the secretary;

(6) The department shall not award contracts for the operation of responsible living skills programs until HOPE center beds are operational.
NEW SECTION. Sec. 14. A new section is added to chapter 74.15 RCW to read as follows:
To be eligible for placement in a responsible living skills program, the minor must be dependent under chapter 13.34 RCW and must have lived in a HOPE center or in a secure crisis residential center. Responsible living skills centers are intended as a placement alternative for dependent youth that the department chooses for the youth because no other services or alternative placements have been successful. Responsible living skills centers are not for dependent youth whose permanency plan includes return to home or family reunification.

NEW SECTION. Sec. 15. A new section is added to chapter 74.15 RCW to read as follows:
The secretary is authorized to license HOPE centers and responsible living skills programs that meet statutory and rule requirements created by the secretary. The secretary is authorized to develop rules necessary to carry out the provisions of sections 10 through 26 of this act. The secretary may rely upon existing licensing provisions in development of licensing requirements for HOPE centers and responsible living skills programs, as are appropriate to carry out the intent of sections 10 through 26 of this act. HOPE centers and responsible living skills programs shall be required to adhere to departmental regulations prohibiting the use of alcohol, tobacco, controlled substances, violence, and sexual activity between residents.

Sec. 16. RCW 13.34.130 and 1998 c 314 s 2 and 1998 c 130 s 2 are each reenacted and amended to read as follows:
If, after a fact-finding hearing pursuant to RCW 13.34.110, it has been proven by a preponderance of the evidence that the child is dependent within the meaning of RCW 13.34.030; after consideration of the predisposition report prepared pursuant to RCW 13.34.110 and after a disposition hearing has been held pursuant to RCW 13.34.110, the court shall enter an order of disposition pursuant to this section.

(1) The court shall order one of the following dispositions of the case:
(a) Order a disposition other than removal of the child from his or her home, which shall provide a program designed to alleviate the immediate danger to the child, to mitigate or cure any damage the child has already suffered, and to aid the parents so that the child will not be endangered in the future. In selecting a program, the court should choose those services that least interfere with family autonomy, provided that the services are adequate to protect the child.

(b) Order that the child be removed from his or her home and ordered into the custody, control, and care of a relative or the department of social and health services or a licensed child placing agency for placement in a foster family home or group care facility licensed pursuant to chapter 74.15 RCW or in a home not required to be licensed pursuant to chapter 74.15 RCW. Unless there is reasonable cause to believe that the safety or welfare of the child would be jeopardized or that efforts to reunite the parent and child will be hindered, such child shall be placed with a person who is related to the child as defined in RCW 74.15.020((4)(a)) and with whom the child has a relationship and is comfortable, and who is willing and available to care for the child. Placement of the child with a relative under this subsection shall be given preference by the court. An order for out-of-home placement may be made only if the court finds that reasonable efforts have been made to prevent or eliminate the need for removal of the child from the child's home and to make it possible for the child to return home, specifying the services that have been provided to the child and the child's parent, guardian, or legal custodian, and that preventive services have been offered or provided and have failed to prevent the need for out-of-home placement, unless the health, safety, and welfare of the child cannot be protected adequately in the home, and that:

(i) There is no parent or guardian available to care for such child;
(ii) The parent, guardian, or legal custodian is not willing to take custody of the child;

(iii) The court finds, by clear, cogent, and convincing evidence, a manifest danger exists that the child will suffer serious abuse or neglect if the child is not removed from the home and an order under RCW 26.44.063 would not protect the child from danger; or

(iv) The extent of the child's disability is such that the parent, guardian, or legal custodian is unable to provide the necessary care for the child and the parent, guardian, or legal custodian has determined that the child would benefit from placement outside of the home.

(2) If the court has ordered a child removed from his or her home pursuant to subsection (1)(b) of this section, the court may order that a petition seeking termination of the parent and child relationship be filed if the court finds: (a) Termination is recommended by the supervising agency; (b) termination is in the best interests of the child; and (c) that because of the existence of aggravated circumstances, reasonable efforts to unify the family are not required. Notwithstanding the existence of aggravated circumstances, reasonable efforts may be required if the court or department determines it is in the best interest of the child. In determining whether aggravated circumstances exist, the court shall consider one or more of the following:

(i) Conviction of the parent of rape of the child in the first, second, or third degree as defined in RCW 9A.44.073, 9A.44.076, and 9A.44.079;
(ii) Conviction of the parent of criminal mistreatment of the child in the first or second degree as defined in RCW 9A.42.020 and 9A.42.030;
(iii) Conviction of the parent of one of the following assault crimes, when the child is the victim: Assault in the first or second degree as defined in RCW 9A.36.011 and 9A.36.021 or assault of a child in the first or second degree as defined in RCW 9A.36.120 or 9A.36.130;

(iv) Conviction of the parent of murder, manslaughter, or homicide by abuse of the child's other parent, sibling, or another child;

(v) Conviction of the parent of attempting, soliciting, or conspiracy to commit a crime listed in (c)(i), (ii), (iii), or (iv) of this subsection;

(vi) A finding by a court that a parent is a sexually violent predator as defined in RCW 71.09.020;

(vii) Failure of the parent to complete available treatment ordered under this chapter or the equivalent laws of another state, where such failure has resulted in a prior termination of parental rights to another child and the parent has failed to effect significant change in the interim. In the case of a parent of an Indian child, as defined in the Indian Child Welfare Act, P.L. 95-608 (25 U.S.C. (Sec.)), Sec. 1903), the court shall also consider tribal efforts to assist the parent in completing treatment and make it possible for the child to return home;

(viii) An infant under three years of age has been abandoned as defined in RCW 13.34.030(4)(a);

(ix) The mother has given birth to three or more drug-affected infants, resulting in the department filing a petition under section 23 ((of this act)), chapter 314, Laws of 1998.

(3) If reasonable efforts are not ordered under subsection (2) of this section a permanency ((planning)) planning hearing shall be held within thirty days. Reasonable efforts shall be made to place the child in a timely manner in accordance with the permanency plan, and to complete whatever steps are necessary to finalize the permanent placement of the child.

(4) Whenever a child is ordered removed from the child's home, the agency charged with his or her care shall provide the court with:

(a) A permanency plan of care that shall identify one of the following outcomes as a primary goal and may identify additional outcomes as alternative goals: Return of the child to the home of the child's parent, guardian, or legal custodian; adoption; guardianship; permanent legal custody; (ia) long-term relative or foster care, until the child is age eighteen, with a written agreement between the parties and the care provider; a responsible living skills program; and independent living, if appropriate and if the child is age sixteen or older. Whenever a permanency plan identifies independent living as a goal, the plan shall also specifically identify the services that will be provided to assist the child to make a successful transition from foster care to independent living. Before the court approves independent living as a permanency plan of care, the court shall make a finding that the provision of services to assist the child in making a transition from foster care to independent living will allow the child to manage his or her financial affairs and to manage his or her personal, social, educational, and nonfinancial affairs. The department shall not discharge a child to an independent living situation before the child is eighteen years of age unless the child becomes emancipated pursuant to chapter 13.64 RCW.

(b) Unless the court has ordered, pursuant to subsection (2) of this section, that a termination petition be filed, a specific plan as to where the child will be placed, what steps will be taken to return the child home, and what actions the agency will take to maintain parent-child ties. All aspects of the plan shall include the goal of achieving permanence for the child.

(i) The agency plan shall specify what services the parents will be offered in order to enable them to resume custody, what requirements the parents must meet in order to resume custody, and a time limit for each service plan and parental requirement.

(ii) The agency shall be required to encourage the maximum parent-child contact possible, including regular visitation and participation by the parents in the care of the child while the child is in placement. Visitation may be limited or denied only if the court determines that such limitation or denial is necessary to protect the child's health, safety, or welfare.

(iii) A child shall be placed as close to the child's home as possible, preferably in the child's own neighborhood, unless the court finds that placement at a greater distance is necessary to promote the child's or parents' well-being.

(iv) The agency charged with supervising a child in placement shall provide all reasonable services that are available within the agency, or within the community, or the services which the department of social and health services has existing contracts to purchase. It shall report to the court if it is unable to provide such services.

(c) If the court has ordered, pursuant to subsection (2) of this section, that a termination petition be filed, a specific plan as to where the child will be placed, what steps will be taken to achieve permanency for the child, services to be offered or provided to the child, and, if visitation would be in the best interests of the child, a recommendation to the court regarding visitation between parent and child pending a fact-finding hearing on the termination petition. The agency shall not be required to develop a plan of services for the parents or provide services to the parents.

(5) If the court determines that the continuation of reasonable efforts to prevent or eliminate the need to remove the child from his or her home or to safely return the child home should not be part of the permanency plan of care for the child,
reasonable efforts shall be made to place the child in a timely manner and to complete whatever steps are necessary to finalize the permanent placement of the child.

(6) If there is insufficient information at the time of the disposition hearing upon which to base a determination regarding the suitability of a proposed placement with a relative, the child shall remain in foster care and the court shall direct the supervising agency to conduct necessary background investigations as provided in chapter 74.15 RCW and report the results of such investigation to the court within thirty days. However, if such relative appears otherwise suitable and competent to provide care and treatment, the criminal history background check need not be completed before placement, but as soon as possible after placement. Any placements with relatives, pursuant to this section, shall be contingent upon cooperation by the relative with the agency case plan and compliance with court orders related to the care and supervision of the child including, but not limited to, court orders regarding parent-child contacts and any other conditions imposed by the court. Noncompliance with the case plan or court order shall be grounds for removal of the child from the relative’s home, subject to review by the court.

(7) Except for children whose cases are reviewed by a citizen review board under chapter 13.70 RCW, the status of all children found to be dependent shall be reviewed by the court at least every six months from the beginning date of the placement episode or the date dependency is established, whichever is first, at a hearing in which it shall be determined whether court supervision should continue. The review shall include findings regarding the agency and parental completion of disposition plan requirements, and if necessary, revised permanency time limits. The supervising agency shall provide a foster parent, preadoptive parent, or relative with notice of, and their right to an opportunity to be heard in, a review hearing pertaining to the child, but only if that person is currently providing care to that child at the time of the hearing. This section shall not be construed to grant party status to any person who has been provided an opportunity to be heard.

(a) A child shall not be returned home at the review hearing unless the court finds that a reason for removal as set forth in this section no longer exists. The parents, guardian, or legal custodian shall report to the court the efforts they have made to correct the conditions which led to removal. If a child is returned, casework supervision shall continue for a period of six months, at which time there shall be a hearing of the need for continued intervention.

(b) If the child is not returned home, the court shall establish in writing:

(i) Whether reasonable services have been provided to or offered to the parties to facilitate reunion, specifying the services provided or offered;

(ii) Whether the child has been placed in the least-restrictive setting appropriate to the child’s needs, including whether consideration and preference has been given to placement with the child’s relatives;

(iii) Whether there is a continuing need for placement and whether the placement is appropriate;

(iv) Whether there has been compliance with the case plan by the child, the child’s parents, and the agency supervising the placement;

(v) Whether progress has been made toward correcting the problems that necessitated the child’s placement in out-of-home care;

(vi) Whether the parents have visited the child and any reasons why visitation has not occurred or has been infrequent;

(vii) Whether additional services are needed to facilitate the return of the child to the child’s parents; if so, the court shall order that reasonable services be offered specifying such services; and

(viii) The projected date by which the child will be returned home or other permanent plan of care will be implemented.

(c) The court at the review hearing may order that a petition seeking termination of the parent and child relationship be filed.

Sec. 17. RCW 13.34.145 and 1998 c 314 s 3 and 1998 c 130 s 3 are each reenacted and amended to read as follows:

(1) A permanency plan shall be developed no later than sixty days from the time the supervising agency assumes responsibility for providing services, including placing the child, or at the time of a hearing under RCW 13.34.130, whichever occurs first. The permanency planning process continues until a permanency planning goal is achieved or dependency is dismissed. The planning process shall include reasonable efforts to return the child to the parent’s home.

(a) Whenever a child is placed in out-of-home care pursuant to RCW 13.34.130, the agency that has custody of the child shall provide the court with a written permanency plan of care directed towards securing a safe, stable, and permanent home for the child as soon as possible. The plan shall identify one of the following outcomes as the primary goal and may also identify additional outcomes as alternative goals: Return of the child to the home of the child’s parent, guardian, or legal custodian; adoption; guardianship; permanent legal custody; (a) long-term relative or foster care, until the child is age eighteen, with a written agreement between the parties and the care provider; a responsible living skills program; and independent living, if appropriate and if the child is age sixteen or older and the provisions of subsection (2) of this section are met.

(b) The identified outcomes and goals of the permanency plan may change over time based upon the circumstances of the particular case.
(c) Permanency planning goals should be achieved at the earliest possible date, preferably before the child has been in out-of-home care for fifteen months. In cases where parental rights have been terminated, the child is legally free for adoption, and adoption has been identified as the primary permanency planning goal, it shall be a goal to complete the adoption within six months following entry of the termination order.

(d) For purposes related to permanency planning:
   (i) "Guardianship" means a dependency guardianship pursuant to this chapter, a legal guardianship pursuant to chapter 11.88 RCW, or equivalent laws of another state or a federally recognized Indian tribe.
   (ii) "Permanent custody order" means a custody order entered pursuant to chapter 26.10 RCW.
   (iii) "Permanent legal custody" means legal custody pursuant to chapter 26.10 RCW or equivalent laws of another state or of a federally recognized Indian tribe.

(2) Whenever a permanency plan identifies independent living as a goal, the plan shall also specifically identify the services that will be provided to assist the child to make a successful transition from foster care to independent living. Before the court approves independent living as a permanency plan of care, the court shall make a finding that the provision of services to assist the child in making a transition from foster care to independent living will allow the child to manage his or her financial affairs and to manage his or her personal, social, educational, and nonfinancial affairs. The department shall not discharge a child to an independent living situation before the child is eighteen years of age unless the child becomes emancipated pursuant to chapter 13.64 RCW.

(3) A permanency planning hearing shall be held in all cases where the child has remained in out-of-home care for at least nine months and an adoption decree, guardianship order, or permanent custody order has not previously been entered. The hearing shall take place no later than twelve months following commencement of the current placement episode.

(4) Whenever a child is removed from the home of a dependency guardian or long-term relative or foster care provider, and the child is not returned to the home of the parent, guardian, or legal custodian but is placed in out-of-home care, a permanency planning hearing shall take place no later than twelve months, as provided in subsection (3) of this section, following the date of removal unless, prior to the hearing, the child returns to the home of the dependency guardian or long-term care provider, the child is placed in the home of the parent, guardian, or legal custodian, an adoption decree, guardianship order, or permanent custody order is entered, or the dependency is dismissed.

(5) No later than ten working days prior to the permanency planning hearing, the agency having custody of the child shall submit a written permanency plan to the court and shall mail a copy of the plan to all parties and their legal counsel, if any.

(6) At the permanency planning hearing, the court shall enter findings as required by RCW 13.34.130(7) and shall review the permanency plan prepared by the agency. If the child has resided in the home of a foster parent or relative for more than six months prior to the permanency planning hearing, the court shall also enter a finding regarding whether the foster parent or relative was informed of the hearing as required in RCW 74.13.280 and 13.34.130(7). If a goal of long-term foster or relative care has been achieved prior to the permanency planning hearing, the court shall review the child's status to determine whether the placement and the plan for the child's care remain appropriate. In cases where the primary permanency planning goal has not yet been achieved, the court shall inquire regarding the reasons why the primary goal has not been achieved and determine what needs to be done to make it possible to achieve the primary goal. In all cases, the court shall:
   (a)(i) Order the permanency plan prepared by the agency to be implemented; or
   (ii) Modify the permanency plan, and order implementation of the modified plan; and
   (b)(i) Order the child returned home only if the court finds that a reason for removal as set forth in RCW 13.34.130 no longer exists; or
   (ii) Order the child to remain in out-of-home care for a limited specified time period while efforts are made to implement the permanency plan.

(7) If the court orders the child returned home, casework supervision shall continue for at least six months, at which time a review hearing shall be held pursuant to RCW 13.34.130(7), and the court shall determine the need for continued intervention.

(8) Continued juvenile court jurisdiction under this chapter shall not be a barrier to the entry of an order establishing a legal guardianship or permanent legal custody when, (a) the court has ordered implementation of a permanency plan that includes legal guardianship or permanent legal custody, and (b) the party pursuing the legal guardianship or permanent legal custody is the party identified in the permanency plan as the prospective legal guardian or custodian. During the pendency of such proceeding, juvenile court shall conduct review hearings and further permanency planning hearings as provided in this chapter. At the conclusion of the legal guardianship or permanent legal custody proceeding, a juvenile court hearing shall be held for the purpose of determining whether dependency should be dismissed. If a guardianship or permanent custody order has been entered, the dependency shall be dismissed.
(9) Following the first permanency planning hearing, the court shall hold a further permanency planning hearing in accordance with this section at least once every twelve months until a permanency planning goal is achieved or the dependency is dismissed, whichever occurs first.

(10) Except as otherwise provided in RCW 13.34.235, the status of all dependent children shall continue to be reviewed by the court at least once every six months, in accordance with RCW 13.34.130(7), until the dependency is dismissed. Prior to the second permanency planning hearing, the agency that has custody of the child shall consider whether to file a petition for termination of parental rights.

(11) Nothing in this chapter may be construed to limit the ability of the agency that has custody of the child to file a petition for termination of parental rights or a guardianship petition at any time following the establishment of dependency. Upon the filing of such a petition, a fact-finding hearing shall be scheduled and held in accordance with this chapter unless the agency requests dismissal of the petition prior to the hearing or unless the parties enter an agreed order terminating parental rights, establishing guardianship, or otherwise resolving the matter.

(12) The approval of a permanency plan that does not contemplate return of the child to the parent does not relieve the supervising agency of its obligation to provide reasonable services, under this chapter, intended to effectuate the return of the child to the parent, including but not limited to, visitation rights.

(13) Nothing in this chapter may be construed to limit the procedural due process rights of any party in a termination or guardianship proceeding filed under this chapter.

NEW SECTION. Sec. 18. A new section is added to chapter 13.60 RCW to read as follows:

The department of social and health services shall develop a procedure for reporting missing children information to the missing children clearinghouse. The purpose of this procedure is to link parents to missing children. When the department has obtained information that a minor child has been located at a facility funded by the department, the department shall inform the clearinghouse. The department shall inform the clearinghouse when reunification occurs.

NEW SECTION. Sec. 19. The Washington institute for public policy shall review the effectiveness of the procedures established in section 18 of this act. The study shall include: (1) The number of legal custodians who utilize the clearinghouse; (2) the number of children who are located after the department's procedures are operational; (3) the impediments to effective utilization of the procedures and what steps may be taken to reduce or eliminate the impediments; (4) the methods of public education regarding the availability of the program and how to increase public awareness of the program.

The review shall be submitted to the legislature and the governor not later than December 1, 2001.

Sec. 20. RCW 26.44.030 and 1998 c 328 s 5 are each amended to read as follows:

(a) When any practitioner, county coroner or medical examiner, law enforcement officer, professional school personnel, registered or licensed nurse, social service counselor, psychologist, pharmacist, licensed or certified child care providers or their employees, employee of the department, juvenile probation officer, placement and liaison specialist, responsible living skills program staff, HOPE center staff, or state family and children's ombudsman or any volunteer in the ombudsman's office has reasonable cause to believe that a child or adult dependent or developmentally disabled person, has suffered abuse or neglect, he or she shall report such incident, or cause a report to be made, to the proper law enforcement agency or to the department as provided in RCW 26.44.040.

(b) The reporting requirement shall also apply to department of corrections personnel who, in the course of their employment, observe offenders or the children with whom the offenders are in contact. If, as a result of observations or information received in the course of his or her employment, any department of corrections personnel has reasonable cause to believe that a child or adult dependent or developmentally disabled person has suffered abuse or neglect, he or she shall report the incident, or cause a report to be made, to the proper law enforcement agency or to the department as provided in RCW 26.44.040.

(c) The reporting requirement shall also apply to any adult who has reasonable cause to believe that a child or adult dependent or developmentally disabled person, who resides with them, has suffered severe abuse, and is able or capable of making a report. For the purposes of this subsection, "severe abuse" means any of the following: Any single act of abuse that causes physical trauma of sufficient severity that, if left untreated, could cause death; any single act of sexual abuse that causes significant bleeding, deep bruising, or significant external or internal swelling; or more than one act of physical abuse, each of which causes bleeding, deep bruising, significant external or internal swelling, bone fracture, or unconsciousness.

(d) The report shall be made at the first opportunity, but in no case longer than forty-eight hours after there is reasonable cause to believe that the child or adult has suffered abuse or neglect. The report shall include the identity of the accused if known.
(2) The reporting requirement of subsection (1) of this section does not apply to the discovery of abuse or neglect that occurred during childhood if it is discovered after the child has become an adult. However, if there is reasonable cause to believe other children, dependent adults, or developmentally disabled persons are or may be at risk of abuse or neglect by the accused, the reporting requirement of subsection (1) of this section shall apply.

(3) Any other person who has reasonable cause to believe that a child or adult dependent or developmentally disabled person has suffered abuse or neglect may report such incident to the proper law enforcement agency or to the department of social and health services as provided in RCW 26.44.040.

(4) The department, upon receiving a report of an incident of alleged abuse or neglect pursuant to this chapter, involving a child or adult dependent or developmentally disabled person who has died or has had physical injury or injuries inflicted upon him or her other than by accidental means or who has been subjected to alleged sexual abuse, shall report such incident to the proper law enforcement agency. In emergency cases, where the child, adult dependent, or developmentally disabled person's welfare is endangered, the department shall notify the proper law enforcement agency within twenty-four hours after a report is received by the department. In all other cases, the department shall notify the law enforcement agency within seventy-two hours after a report is received by the department. If the department makes an oral report, a written report shall also be made to the proper law enforcement agency within five days thereafter.

(5) Any law enforcement agency receiving a report of an incident of alleged abuse or neglect pursuant to this chapter, involving a child or adult dependent or developmentally disabled person who has died or has had physical injury or injuries inflicted upon him or her other than by accidental means, or who has been subjected to alleged sexual abuse, shall report such incident in writing as provided in RCW 26.44.040 to the proper county prosecutor or city attorney for appropriate action whenever the law enforcement agency's investigation reveals that a crime may have been committed. The law enforcement agency shall also notify the department of all reports received and the law enforcement agency's disposition of them. In emergency cases, where the child, adult dependent, or developmentally disabled person's welfare is endangered, the law enforcement agency shall notify the department within twenty-four hours. In all other cases, the law enforcement agency shall notify the department within seventy-two hours after a report is received by the law enforcement agency.

(6) Any county prosecutor or city attorney receiving a report under subsection (5) of this section shall notify the victim, any persons the victim requests, and the local office of the department, of the decision to charge or decline to charge a crime, within five days of making the decision.

(7) The department may conduct ongoing case planning and consultation with those persons or agencies required to report under this section, with consultants designated by the department, and with designated representatives of Washington Indian tribes if the client information exchanged is pertinent to cases currently receiving child protective services or department case services for the developmentally disabled. Upon request, the department shall conduct such planning and consultation with those persons required to report under this section if the department determines it is in the best interests of the child or developmentally disabled person. Information considered privileged by statute and not directly related to reports required by this section shall not be divulged without a valid written waiver of the privilege.

(8) Any case referred to the department by a physician licensed under chapter 18.57 or 18.71 RCW on the basis of an expert medical opinion that child abuse, neglect, or sexual assault has occurred and that the child's safety will be seriously endangered if returned home, the department shall file a dependency petition unless a second licensed physician of the parents' choice believes that such expert medical opinion is incorrect. If the parents fail to designate a second physician, the department may make the selection. If a physician finds that a child has suffered abuse or neglect but that such abuse or neglect does not constitute imminent danger to the child's health or safety, and the department agrees with the physician's assessment, the child may be left in the parents' home while the department proceeds with reasonable efforts to remedy parenting deficiencies.

(9) Persons or agencies exchanging information under subsection (7) of this section shall not further disseminate or release the information except as authorized by state or federal statute. Violation of this subsection is a misdemeanor.

(10) Upon receiving reports of alleged abuse or neglect, the department or law enforcement agency may interview children. The interviews may be conducted on school premises, at day-care facilities, at the child's home, or at other suitable locations outside of the presence of parents. Parental notification of the interview shall occur at the earliest possible point in the investigation that will not jeopardize the safety or protection of the child or the course of the investigation. Prior to commencing the interview the department or law enforcement agency shall determine whether the child wishes a third party to be present for the interview and, if so, shall make reasonable efforts to accommodate the child's wishes. Unless the child objects, the department or law enforcement agency shall make reasonable efforts to include a third party in any interview for as long as the presence of the third party will not jeopardize the course of the investigation.

(11) Upon receiving a report of alleged child abuse and neglect, the department or investigating law enforcement agency shall have access to all relevant records of the child in the possession of mandated reporters and their employees.
(12) The department shall maintain investigation records and conduct timely and periodic reviews of all cases constituting abuse and neglect. The department shall maintain a log of screened-out nonabusive cases.

(13) The department shall use a risk assessment process when investigating alleged child abuse and neglect referrals. The department shall present the risk factors at all hearings in which the placement of a dependent child is an issue. Substance abuse must be a risk factor. The department shall, within funds appropriated for this purpose, offer enhanced community-based services to persons who are determined not to require further state intervention.

The department shall provide annual reports to the legislature on the effectiveness of the risk assessment process.

(14) Upon receipt of a report of alleged abuse or neglect the law enforcement agency may arrange to interview the person making the report and any collateral sources to determine if any malice is involved in the reporting.

(15) The department shall make reasonable efforts to learn the name, address, and telephone number of each person making a report of abuse or neglect under this section. The department shall provide assurances of appropriate confidentiality of the identification of persons reporting under this section. If the department is unable to learn the information required under this subsection, the department shall only investigate cases in which: (a) The department believes there is a serious threat of substantial harm to the child; (b) the report indicates conduct involving a criminal offense that has, or is about to occur, in which the child is the victim; or (c) the department has, after investigation, a report of abuse or neglect that has been founded with regard to a member of the household within three years of receipt of the referral.

NEW SECTION. Sec. 21. A new section is added to chapter 74.15 RCW to read as follows:

The department shall provide technical assistance in preparation of grant proposals for HOPE centers and responsible living skills programs to nonprofit organizations unfamiliar with and inexperienced in submission of requests for proposals to the department.

NEW SECTION. Sec. 22. A new section is added to chapter 74.15 RCW to read as follows:

The department shall consider prioritizing, on an ongoing basis, the awarding of contracts for HOPE centers and responsible living skills programs to providers who have not traditionally been awarded contracts with the department.

NEW SECTION. Sec. 23. The department of social and health services shall seek any necessary federal waivers for federal funding of the programs created under sections 10 through 26 of this act. The department shall pursue federal funding sources for the programs created under sections 10 through 26 of this act, and report to the legislature any statutory barriers to federal funding.

NEW SECTION. Sec. 24. The Washington state institute for public policy shall review the effectiveness of the HOPE centers and the responsible living skills programs. The study shall include the characteristics of the youth being served, the services offered to participating youth, the success of permanent placement of youth, the number of youth participating in each program, the number of youth who successfully complete the responsible living skills program, educational achievement of participants, employment history of participants, the outcomes for youth who have progressed through the programs, and other measures that the institute deems helpful in determining the measurable outcomes of sections 10 through 26 of this act.

The review shall be submitted to the legislature and the governor not later than December 1, 2001.

NEW SECTION. Sec. 25. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected.

NEW SECTION. Sec. 26. Within funds specifically appropriated by the legislature, HOPE center beds referenced in section 12 of this act and responsible living skills program beds referenced in section 13 of this act shall be phased in at the rate of twenty-five percent each year beginning January 1, 2000, until the maximum is attained.

NEW SECTION. Sec. 27. Sections 12 and 13 of this act take effect January 1, 2000."

*Sec. 1. RCW 48.41.100 and 1995 c 34 s 5 are each amended to read as follows:
(1) Any individual person who is a resident of this state is eligible for coverage (if upon providing evidence of rejection for medical reasons, a requirement of restrictive riders, an up-rated premium, or a preexisting conditions limitation on health insurance, the effect of which is to substantially reduce coverage from that received by a person considered a standard risk, by at least one member within six months of the date of application. Evidence of rejection may be waived in accordance with rules adopted by the board) if a substantially equivalent individual health benefit plan at a rate less than or equal to that rate charged by the pool under RCW 48.21.200 is unavailable in the county where he or she resides.

(2) The following persons are not eligible for coverage by the pool:

(a) Any person having terminated coverage in the pool unless (i) twelve months have lapsed since termination, or (ii) that person can show continuous other coverage which has been involuntarily terminated for any reason other than nonpayment of premiums;

(b) Any person on whose behalf the pool has paid out five hundred thousand dollars in benefits;

(c) Inmates of public institutions and persons whose benefits are duplicated under public programs.

(3) Any person whose health insurance coverage is involuntarily terminated for any reason other than nonpayment of premium may apply for coverage under the plan.

Sec. 2. RCW 70.47.010 and 1993 c 492 s 208 are each amended to read as follows:

(1) The legislature finds that limitations on access to health care services for enrollees in the state, such as in rural and underserved areas, are particularly challenging for the basic health plan. Statutory restrictions have reduced the options available to the administrator to address the access needs of basic health plan enrollees. It is the intent of the legislature to authorize the administrator to develop alternative purchasing strategies to ensure access to basic health plan enrollees in all areas of the state, including: (i) The use of differential rating for managed health systems based on geographic differences in costs; and (ii) until January 1, 2004, limited use of self-insurance in areas where adequate access cannot be assured through other options.

(b) In developing alternative purchasing strategies to address health care access needs, the administrator shall consult with interested persons including health carriers, health care providers, and health facilities, and with other appropriate state agencies including the office of the insurance commissioner and the office of community and rural health. In pursuing such alternatives, the administrator shall continue to give priority to prepaid managed care as the preferred method of assuring access to basic health plan enrollees.

(2) The legislature further finds that:

(a) A significant percentage of the population of this state does not have reasonably available insurance or other coverage of the costs of necessary basic health care services;

(b) This lack of basic health care coverage is detrimental to the health of the individuals lacking coverage and to the public welfare, and results in substantial expenditures for emergency and remedial health care, often at the expense of health care providers, health care facilities, and all purchasers of health care, including the state; and

(c) The use of managed health care systems has significant potential to reduce the growth of health care costs incurred by the people of this state generally, and by low-income pregnant women, and at-risk children and adolescents who need greater access to managed health care.

(3) The purpose of this chapter is to provide or make more readily available necessary basic health care services in an appropriate setting to working persons and others who lack coverage, at a cost to these persons that does not create barriers to the utilization of necessary health care services. To that end, this chapter establishes a program to be made available to those residents not eligible for medicare who share in a portion of the cost or who pay the full cost of receiving basic health care services from a managed health care system.

(4) It is not the intent of this chapter to provide health care services for those persons who are presently covered through private employer-based health plans, nor to replace employer-based health plans. However, the legislature recognizes that cost-effective and affordable health plans may not always be available to small business employers. Further, it is the intent of the legislature to expand, wherever possible, the availability of private health care coverage and to discourage the decline of employer-based coverage.

(a) It is the purpose of this chapter to acknowledge the initial success of this program that has (i) assisted thousands of families in their search for affordable health care; (ii) demonstrated that low-income, uninsured families are willing to pay for their own health care coverage to the extent of their ability to pay; and (iii) proved that local health care providers are willing to enter into a public-private partnership as a managed care system. As a consequence, the legislature intends to extend an option to enroll to certain citizens above two hundred percent of the federal poverty guidelines within the state who reside in communities where the plan is operational and who collectively or individually wish to exercise the opportunity to purchase health care coverage through the basic health plan if the purchase is done at no cost to the state. It is also the intent of the legislature to allow employers and other financial sponsors to financially
assist such individuals to purchase health care through the program so long as such purchase does not result in a lower standard of coverage for employees.

(c) The legislature intends that, to the extent of available funds, the program be available throughout Washington state to subsidized and nonsubsidized enrollees. It is also the intent of the legislature to enroll subsidized enrollees first, to the maximum extent feasible.

(d) The legislature directs that the basic health plan administrator identify enrollees who are likely to be eligible for medical assistance and assist these individuals in applying for and receiving medical assistance. The administrator and the department of social and health services shall implement a seamless system to coordinate eligibility determinations and benefit coverage for enrollees of the basic health plan and medical assistance recipients.

Sec. 3. RCW 70.47.020 and 1997 c 335 s 1 are each amended to read as follows: As used in this chapter:

(1) "Washington basic health plan" or "plan" means the system of enrollment and payment (on a prepaid capitated basis) for basic health care services, administered by the plan administrator through participating managed health care systems, created by this chapter.

(2) "Administrator" means the Washington basic health plan administrator, who also holds the position of administrator of the Washington state health care authority.

(3) "Managed health care system" means: (a) Any health care organization, including health care providers, insurers, health care service contractors, health maintenance organizations, or any combination thereof, that provides directly or by contract basic health care services, as defined by the administrator and rendered by duly licensed providers, (on a prepaid capitated basis) to a defined patient population enrolled in the plan and in the managed health care system; or (b) until January 1, 2004, a self-funded or self-insured method of providing insurance coverage to subsidized enrollees provided under RCW 41.05.140 and subject to the limitations under RCW 70.47.100(6).

(4) "Subsidized enrollee" means an individual, or an individual's spouse or dependent children: (a) Who is not eligible for medicare; (b) who is not confined or residing in a government-operated institution, unless he or she meets eligibility criteria adopted by the administrator; (c) who resides in an area of the state served by a managed health care system participating in the plan; (d) whose gross family income at the time of enrollment does not exceed twice the federal poverty level as adjusted for family size and determined annually by the federal department of health and human services; and (e) who chooses to obtain basic health care coverage from a particular managed health care system in return for periodic payments to the plan.

(5) "Nonsubsidized enrollee" means an individual, or an individual's spouse or dependent children: (a) Who is not eligible for medicare; (b) who is not confined or residing in a government-operated institution, unless he or she meets eligibility criteria adopted by the administrator; (c) who resides in an area of the state served by a managed health care system participating in the plan; (d) whom gross family income at the time of enrollment does not exceed twice the federal poverty level; (e) who chooses to obtain basic health care coverage from a particular managed health care system; and (f) who pays or on whose behalf is paid the full costs for participation in the plan, without any subsidy from the plan.

(6) "Subsidy" means the difference between the amount of periodic payment the administrator makes to a managed health care system on behalf of a subsidized enrollee plus the administrative cost to the plan of providing the plan to that subsidized enrollee, and the amount determined to be the subsidized enrollee's responsibility under RCW 70.47.060(2).

(7) "Premium" means a periodic payment, based upon gross family income which an individual, their employer or another financial sponsor makes to the plan as consideration for enrollment in the plan as a subsidized enrollee or a nonsubsidized enrollee.

(8) "Rate" means the (per capita) amount, negotiated by the administrator with and paid to a participating managed health care system, that is based upon the enrollment of subsidized and nonsubsidized enrollees in the plan and in that system.

Sec. 4. RCW 70.47.060 and 1998 c 314 s 17 and 1998 c 148 s 1 are each reenacted and amended to read as follows: The administrator has the following powers and duties:

(1) To design and from time to time revise a schedule of covered basic health care services, including physician services, inpatient and outpatient hospital services, prescription drugs and medications, and other services that may be necessary for basic health care. In addition, the administrator may, to the extent that funds are available, offer as basic health plan services chemical dependency services, mental health services and organ transplant services; however, no one service or any combination of these three services shall increase the actuarial value of the basic health plan benefits by more than five percent excluding inflation, as determined by the office of financial management. All subsidized and nonsubsidized enrollees in any participating managed health care system under the Washington basic health plan shall be entitled to receive covered basic health care services in return for premium payments to the plan. The schedule of services shall emphasize proven preventive and primary health care and shall include all services necessary for prenatal, postnatal, and well-child care. However, with respect to coverage for groups of subsidized enrollees who are eligible to receive prenatal and postnatal services through the medical assistance program under chapter 74.09 RCW, the administrator shall not contract for such services except to the extent that such
services are necessary over not more than a one-month period in order to maintain continuity of care after diagnosis of pregnancy by the managed care provider. The schedule of services shall also include a separate schedule of basic health care services for children, eighteen years of age and younger, for those subsidized or nonsubsidized enrollees who choose to secure basic coverage through the plan only for their dependent children. In designing and revising the schedule of services, the administrator shall consider the guidelines for assessing health services under the mandated benefits act of 1984, RCW 48.47.030, and such other factors as the administrator deems appropriate.

However, with respect to coverage for subsidized enrollees who are eligible to receive prenatal and postnatal services through the medical assistance program under chapter 74.09 RCW, the administrator shall not contract for such services except to the extent that the services are necessary over not more than a one-month period in order to maintain continuity of care after diagnosis of pregnancy by the managed care provider. (2)(a) To design and implement a structure of periodic premiums due the administrator from subsidized enrollees that is based upon gross family income, giving appropriate consideration to family size and the ages of all family members. The enrollment of children shall not require the enrollment of their parent or parents who are eligible for the plan. The structure of periodic premiums shall be applied to subsidized enrollees entering the plan as individuals pursuant to subsection (9) of this section and to the share of the cost of the plan due from subsidized enrollees entering the plan as employees pursuant to subsection (10) of this section.

(b) To determine the periodic premiums due the administrator from nonsubsidized enrollees. Premiums due from nonsubsidized enrollees shall be in an amount equal to the cost charged by the managed health care system provider to the state for the plan plus the administrative cost of providing the plan to those enrollees and the premium tax under RCW 48.14.0201. (c) An employer or other financial sponsor may, with the prior approval of the administrator, pay the premium, rate, or any other amount on behalf of a subsidized or nonsubsidized enrollee, by arrangement with the enrollee and through a mechanism acceptable to the administrator.

(d) To develop, as an offering by every health carrier providing coverage identical to the basic health plan, as configured on January 1, 1996, a basic health plan model plan with uniformity in enrollee cost-sharing requirements.

(3) To design and implement a structure of enrollee cost sharing due a managed health care system from subsidized and nonsubsidized enrollees. The structure shall discourage inappropriate enrollee utilization of health care services, and may utilize copayments, deductibles, and other cost-sharing mechanisms, but shall not be so costly to enrollees as to constitute a barrier to appropriate utilization of necessary health care services.

(4) To limit enrollment of persons who qualify for subsidies so as to prevent an overexpenditure of appropriations for such purposes. Whenever the administrator finds that there is danger of such an overexpenditure, the administrator shall close enrollment until the administrator finds the danger no longer exists.

(5) To limit the payment of subsidies to subsidized enrollees, as defined in RCW 70.47.020. The level of subsidy provided to persons who qualify may be based on the lowest cost plans, as defined by the administrator.

(6) To adopt a schedule for the orderly development of the delivery of services and availability of the plan to residents of the state, subject to the limitations contained in RCW 70.47.080 or any act appropriating funds for the plan.

(7) To solicit and accept applications from managed health care systems, as defined in this chapter, for inclusion as eligible basic health care providers under the plan. The administrator shall endeavor to assure that covered basic health care services are available to any enrollee of the plan from among a selection of two or more participating managed health care systems. In adopting any rules or procedures applicable to managed health care systems and in its dealings with such systems, the administrator shall consider and make suitable allowance for the need for health care services and the differences in local availability of health care resources, along with other resources, within and among the several areas of the state. Contracts with participating managed health care systems shall ensure that basic health plan enrollees who become eligible for medical assistance may, at their option, continue to receive services from their existing providers within the managed health care system if such providers have entered into provider agreements with the department of social and health services.

(8) To receive periodic premiums from or on behalf of subsidized and nonsubsidized enrollees, deposit them in the basic health plan operating account, keep records of enrollee status, and authorize periodic payments to managed health care systems on the basis of the number of enrollees participating in the respective managed health care systems.

(9) To accept applications from individuals residing in areas served by the plan, on behalf of themselves and their spouses and dependent children, for enrollment in the Washington basic health plan as subsidized or nonsubsidized enrollees, to establish appropriate minimum-enrollment periods for enrollees as may be necessary, and to determine, upon application and on a reasonable schedule defined by the authority, or at the request of any enrollee, eligibility due to current gross family income for sliding scale premiums. Funds received by a family as part of participation in the adoption support program authorized under RCW 26.33.320 and 74.13.100 through 74.13.145 shall not be counted toward a family's current gross family income for the purposes of this chapter. When an enrollee fails to report income or income changes accurately, the administrator shall have the
authority either to bill the enrollee for the amounts overpaid by the state or to impose civil penalties of up to two hundred percent of the amount of subsidy overpaid due to the enrollee incorrectly reporting income. The administrator shall adopt rules to define the appropriate application of these sanctions and the processes to implement the sanctions provided in this subsection, within available resources. No subsidy may be paid with respect to any enrollee whose current gross family income exceeds twice the federal poverty level or, subject to RCW 70.47.110, who is a recipient of medical assistance or medical care services under chapter 74.09 RCW. If a number of enrollees drop their enrollment for no apparent good cause, the administrator may establish appropriate rules or requirements that are applicable to such individuals before they will be allowed to reenroll in the plan.

(10) To accept applications from business owners on behalf of themselves and their employees, spouses, and dependent children, as subsidized or nonsubsidized enrollees, who reside in an area served by the plan. The administrator may require all or the substantial majority of the eligible employees of such businesses to enroll in the plan and establish those procedures necessary to facilitate the orderly enrollment of groups in the plan and into a managed health care system. The administrator may require that a business owner pay at least an amount equal to what the employee pays after the state pays its portion of the subsidized premium cost of the plan on behalf of each employee enrolled in the plan. Enrollment is limited to those not eligible for medicare who wish to enroll in the plan and choose to obtain the basic health care coverage and services from a managed care system participating in the plan. The administrator shall adjust the amount determined to be due on behalf of or from all such enrollees whenever the amount negotiated by the administrator with the participating managed health care system or systems is modified or the administrative cost of providing the plan to such enrollees changes.

(11) To determine the rate to be paid to each participating managed health care system in return for the provision of covered basic health care services to enrollees in the system. Although the schedule of covered basic health care services will be the same or actuarially equivalent for similar enrollees, the rates negotiated with participating managed health care systems may vary among the systems. In negotiating rates with participating systems, the administrator shall consider the characteristics of the populations served by the respective systems, economic circumstances of the local area, the need to conserve the resources of the basic health plan trust account, and other factors the administrator finds relevant.

(12) To monitor the provision of covered services to enrollees by participating managed health care systems in order to assure enrollee access to good quality basic health care, to require periodic data reports concerning the utilization of health care services rendered to enrollees in order to provide adequate information for evaluation, and to inspect the books and records of participating managed health care systems to assure compliance with the purposes of this chapter. In requiring reports from participating managed health care systems, including data on services rendered enrollees, the administrator shall endeavor to minimize costs, both to the managed health care systems and to the plan. The administrator shall coordinate any such reporting requirements with other state agencies, such as the insurance commissioner and the department of health, to minimize duplication of effort.

(13) To evaluate the effects this chapter has on private employer-based health care coverage and to take appropriate measures consistent with state and federal statutes that will discourage the reduction of such coverage in the state.

(14) To develop a program of proven preventive health measures and to integrate it into the plan wherever possible and consistent with this chapter.

(15) To provide, consistent with available funding, assistance for rural residents, underserved populations, and persons of color.

(16) In consultation with appropriate state and local government agencies, to establish criteria defining eligibility for persons confined or residing in government-operated institutions.

Sec. 5. RCW 70.47.100 and 1987 1st ex.s. c 5 s 12 are each amended to read as follows:

(1) A managed health care systems participating in the plan shall do so by contract with the administrator and shall provide, directly or by contract with other health care providers, covered basic health care services to each enrollee covered by its contract with the administrator as long as payments from the administrator on behalf of the enrollee are current. A participating managed health care system may offer, without additional cost, health care benefits or services not included in the schedule of covered services under the plan. A participating managed health care system shall not give preference in enrollment to enrollees who accept such additional health care benefits or services. Managed health care systems participating in the plan shall not discriminate against any potential or current enrollee based upon health status, sex, race, ethnicity, or religion. The administrator may receive and act upon complaints from enrollees regarding failure to provide covered services or efforts to obtain payment, other than authorized copayments, for covered services directly from enrollees, but nothing in this chapter empowers the administrator to impose any sanctions under Title 18 RCW or any other professional or facility licensing statute.

(2) The plan shall allow, at least annually, an opportunity for enrollees to transfer their enrollments among participating managed health care systems serving their respective areas. The administrator shall establish a period of at least twenty days in a given year when this opportunity is afforded enrollees, and in those areas served by more than one participating managed health care system the administrator shall endeavor to establish a uniform period for such opportunity. The plan shall allow
enrollees to transfer their enrollment to another participating managed health care system at any time upon a showing of good cause for the transfer.

(Any contract between a hospital and a participating managed health care system under this chapter is subject to the requirements of RCW 70.39.140(1) regarding negotiated rates.)

(3) Prior to negotiating with any managed health care system, the administrator shall determine, on an actuarially sound basis, the reasonable cost of providing the schedule of basic health care services, expressed in terms of upper and lower limits, and recognizing variations in the cost of providing the services through the various systems and in different areas of the state.

(4) In negotiating with managed health care systems for participation in the plan, the administrator shall adopt a uniform procedure that includes at least the following:

(a) The administrator shall issue a request for proposals, including standards regarding the quality of services to be provided; financial integrity of the responding systems; and responsiveness to the unmet health care needs of the local communities or populations that may be served;

(b) The administrator shall then review responsive proposals and may negotiate with respondents to the extent necessary to refine any proposals;

(c) The administrator may then select one or more systems to provide the covered services within a local area; and

(d) The administrator may adopt a policy that gives preference to respondents, such as nonprofit community health clinics, that have a history of providing quality health care services to low-income persons.

(5) The administrator may establish procedures and policies to further negotiate and contract with managed health care systems following completion of the request for proposal process in subsection (4) of this section, upon a determination by the administrator that it is necessary to provide access to covered basic health care services for enrollees.

(6) Until January 1, 2004, the administrator may utilize a self-funded or self-insured method of providing insurance coverage to subsidized enrollees provided under RCW 41.05.140 if: (a) it is necessary to provide access to covered basic health care services for subsidized enrollees; (b) funding for adequate reserves is available in the basic health plan self-insurance reserve account; and (c) other options for providing access to covered basic health care services for subsidized enrollees are not feasible.

Sec. 6. RCW 41.05.140 and 1994 c 153 s 10 are each amended to read as follows:

(1) Except for property and casualty insurance, the authority may self-fund, self-insure, or enter into other methods of providing insurance coverage for insurance programs under its jurisdiction (except property and casualty insurance), including the basic health plan as provided in chapter 70.47 RCW. The authority shall contract for payment of claims or other administrative services for programs under its jurisdiction. If a program does not require the prepayment of reserves, the authority shall establish such reserves within a reasonable period of time for the payment of claims as are normally required for that type of insurance under an insured program.

(2) Reserves established by the authority for employee and retiree benefit programs shall be held in a separate trust fund by the state treasurer and shall be known as the public employees’ and retirees’ insurance reserve fund. The state investment board shall act as the investor for the funds and, except as provided in RCW 43.33A.160, one hundred percent of all earnings from these investments shall accrue directly to the public employees’ and retirees’ insurance reserve fund.

(3) Any savings realized as a result of a program created for employees and retirees under this section shall not be used to increase benefits unless such use is authorized by statute.

(4) Reserves established by the authority to provide insurance coverage for the basic health plan under chapter 70.47 RCW shall be held in a separate trust account in the custody of the state treasurer and shall be known as the basic health plan self-insurance reserve account. The state investment board shall act as the investor for the funds and, except as provided in RCW 43.33A.160, one hundred percent of all earnings from these investments shall accrue directly to the basic health plan self-insurance reserve account.

(5) Any program created under this section shall be subject to the examination requirements of chapter 48.03 RCW as if the program were a domestic insurer. In conducting an examination, the commissioner shall determine the adequacy of the reserves established for the program.

(6) The authority shall keep full and adequate accounts and records of the assets, obligations, transactions, and affairs of any program created under this section.

(7) The authority shall file a quarterly statement of the financial condition, transactions, and affairs of any program created under this section in a form and manner prescribed by the insurance commissioner. The statement shall contain information as required by the commissioner for the type of insurance being offered under the program. A copy of the annual statement shall be filed with the speaker of the house of representatives and the president of the senate.

Sec. 7. RCW 43.79A.040 and 1998 c 268 s 1 are each amended to read as follows:
(1) Money in the treasurer's trust fund may be deposited, invested, and reinvested by the state treasurer in accordance with RCW 43.84.080 in the same manner and to the same extent as if the money were in the state treasury.

(2) All income received from investment of the treasurer's trust fund shall be set aside in an account in the treasury trust fund to be known as the investment income account.

(3) The investment income account may be utilized for the payment of purchased banking services on behalf of treasurer's trust funds including, but not limited to, depository, safekeeping, and disbursement functions for the state treasurer or affected state agencies. The investment income account is subject in all respects to chapter 43.88 RCW, but no appropriation is required for payments to financial institutions. Payments shall occur prior to distribution of earnings set forth in subsection (4) of this section.

(4)(a) Monthly, the state treasurer shall distribute the earnings credited to the investment income account to the state general fund except under (b) and (c) of this subsection.

(b) The following accounts and funds shall receive their proportionate share of earnings based upon each account's or fund's average daily balance for the period: The Washington advanced college tuition payment program account, the agricultural local fund, the American Indian scholarship endowment fund, the basic health plan self-insurance reserve account, the Washington international exchange scholarship endowment fund, the energy account, the fair fund, the game farm alternative account, the grain inspection revolving fund, the rural rehabilitation account, the stadium and exhibition center account, the youth athletic facility grant account, the self-insurance revolving fund, the sulfur dioxide abatement account, and the children's trust fund. However, the earnings to be distributed shall first be reduced by the allocation to the state treasurer's service fund pursuant to RCW 43.08.190.

(c) The following accounts and funds shall receive eighty percent of their proportionate share of earnings based upon each account's or fund's average daily balance for the period: The advanced right of way revolving fund, the advanced environmental mitigation revolving account, the federal narcotics asset forfeitures account, the high occupancy vehicle account, the local rail service assistance account, and the miscellaneous transportation programs account.

(5) In conformance with Article II, section 37 of the state Constitution, no trust accounts or funds shall be allocated earnings without the specific affirmative directive of this section.

NEW SECTION. Sec. 8. (1) The task force on health insurance market stabilization is created, to be composed of seven members. Three members shall be appointed by the governor, including: (1) the chair of the Washington state health insurance pool; (2) a representative of a statewide health care consumer organization; and (3) a representative of a statewide health care provider organization. Two members shall be appointed by the president of the senate, including one member of each Senate caucus. The co-speakers of the House of Representatives shall each appoint a member from his respective caucus. The chair shall be elected by the task force from among its members.

(2) The task force shall:

(a) Monitor the provisions of this act regarding its effect on:

(i) Carrier participation in the individual market, especially in areas where coverage is currently minimal;

(ii) Affordability and availability of private health plan coverage;

(iii) Washington state health insurance pool operations; and

(iv) The Washington basic health plan operations;

(b) After studying the feasibility of reinsurance and other methods of health insurance market stability, develop a market stabilization reinsurance system implementation plan as appropriate; and

(c) Seek participation from interested parties, including but not limited to consumer, carriers, health care providers, health care purchasers, and insurance brokers and agents, in an effective manner.

(3) In the conduct of its business, the task force shall have access to all health data available by statute to health-related state agencies and may, to the extent that funds are available, purchase necessary analytical and staff support.

(4) Task force members will receive no compensation for their service.

(5) The task force shall submit an interim report to the governor and the legislature in January 2000 and a final report no later than December 1, 2000.

NEW SECTION. Sec. 9. (1) The sum of seventy-five thousand dollars, or as much thereof as may be necessary, is appropriated for the fiscal year ending June 30, 2000, from the general fund to the office of financial management for the task force on health insurance market stabilization created in section 8 of this act.

(2) The sum of fifty thousand dollars, or as much thereof as may be necessary, is appropriated for the fiscal year ending June 30, 2001, from the general fund to the office of financial management for the task force on health care reinsurance created in section 8 of this act.
NEW SECTION, Sec. 10. This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect immediately.

NEW SECTION, Sec. 11. Sections 6 and 7 of this act expire January 1, 2004."

Debate ensued.
The President declared the question before the Senate to be the adoption of the striking amendment by Senators Costa, Fairley, Kohl-Welles, Franklin, Eide and Kline to Substitute Senate Bill No. 6067.
The motion by Senator Costa failed and the striking amendment was not adopted.

MOTION

On motion of Senator Thibaudeau, the rules were suspended, Engrossed Substitute Senate Bill No. 6067 was advanced to third reading, the second reading considered the third and the bill was placed on final passage.

The President signed:
SUBSTITUTE HOUSE BILL NO. 1250,
HOUSE CONCURRENT RESOLUTION NO. 4412.

MESSAGE FROM THE HOUSE

April 24, 1999

MR. PRESIDENT:

The House has passed SENATE BILL NO. 5670 with the following amendment(s):
On page 3, after line 18, insert the following:

"Sec. 2. RCW 90.48.010 and 1973 c 155 s 1 are each amended to read as follows:

(1) It is declared to be the public policy of the state of Washington to maintain the highest possible standards to insure the purity of all waters of the state consistent with public health and public enjoyment thereof, the propagation and protection of the wild life, fish and other aquatic life, and the economic development of the state, and to that end require the use of all known available and reasonable methods by industries and others to prevent and control the pollution of the waters of the state of Washington. Consistent with this policy, the state of Washington will exercise its powers, as fully and as effectively as possible, to retain and secure high quality for all waters of the state. Consistent with this policy, the experimental use of herbicides when appropriate for controlling aquatic noxious weeds such as spartina will help maintain current beneficial uses of water without degrading water quality. The state of Washington in recognition of the federal government's interest in the quality of the navigable waters of the United States, of which certain portions thereof are within the jurisdictional limits of this state, proclaims a public policy of working cooperatively with the federal government in a joint effort to extinguish the sources of water quality degradation, while at the same time preserving and vigorously exercising state powers to insure that present and future
standards of water quality within the state shall be determined by the citizenry, through and by the efforts of state government, of the state of Washington.

(2) The legislature finds that while existing federal and state water pollution control laws have resulted in cleaner water for citizens of Washington state, too many water bodies still exceed existing water quality standards. Such exceedances are caused both by point and nonpoint sources of pollution. It is the policy of the state of Washington to ensure the attainment of water quality standards that protect and restore the ability of the state’s waters to provide multiple benefits as defined in RCW 90.54.020.

(3) Water quality standards should be attained through a variety of means, including the development and implementation of total maximum daily loads as provided under the federal clean water act, and the implementation of other pollution controls. The legislature believes that such flexibility must be available if the state is to attain water quality standards as efficiently and effectively as possible. The legislature also believes that many activities and programs are currently being implemented in watersheds across the state that will result in substantial water quality improvement, and that such activities and programs should have an opportunity to demonstrate success before the imposition of a total maximum daily load requirement.

(4) The burden of changing existing practices and obtaining pollutant discharge reductions as needed to attain water quality standards should be shared among the various contributors to water quality impairment in proportion to their contribution and in consideration of other equitable factors and natural background conditions. For water quality limited segments in waters that are shared with, or are upstream or downstream of waters subject to the jurisdiction of another state or Canada, the legislature intends that the department coordinate the development of total maximum daily loads with the United States environmental protection agency and with water quality regulatory agencies in other jurisdictions to ensure equity for dischargers in Washington.

(5) The legislature finds that a watershed approach to water quality improvement allows the consideration of multiple factors and of their interactions. It also provides means for bringing together those persons who will need to implement necessary measures to improve water quality, as well as others who may be interested in water quality.

(6) Water quality monitoring is becoming increasingly important as the state makes commitments to attain water quality standards, recover aquatic species, and evaluate the effectiveness of actions taken to attain those goals. As a result, the legislature believes it is important to enhance the quality of existing water monitoring programs.

(7) While the legislature believes the state is the best manager of the state’s water quality, it recognizes that the federal government has ultimate authority over any state total maximum daily load program under the federal clean water act. Therefore, it is the intent of the legislature that the department have no authority to implement or enforce this act if and when the federal government assumes direct responsibility for implementation of the total maximum daily load program by providing written notice to the department that this act, taken as a whole, is inconsistent with federal law. However, this subsection does not affect the ability of the state to continue implementing other programs that improve water quality.

Sec. 3. RCW 90.48.020 and 1995 c 255 s 7 are each amended to read as follows:

(Whenever the word) Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

(1) "Characteristic uses" means the uses for which a water body has been classified by the department under state law and the federal clean water act.

(2) "Person" (is used in this chapter, it shall be construed to) includes any political subdivision, government agency, municipality, industry, public or private corporation, copartnership, association, firm, individual or any other entity whatsoever.

(3) "Waters of the state" (is used in this chapter, shall be construed to) includes lakes, rivers, ponds, streams, inland waters, underground waters, salt waters and all other surface waters and watercourses within the jurisdiction of the state of Washington.

(4) "Pollution" (is used in this chapter, it shall be construed to) means such contamination, or other alteration of the physical, chemical or biological properties, of any waters of the state, including change in temperature, taste, color, turbidity, or odor of the waters, or such discharge of any liquid, gaseous, solid, radioactive, or other substance into any waters of the state as will or is likely to create a nuisance or render such waters harmful, detrimental or injurious to the public health, safety or welfare, or to domestic, commercial, industrial, agricultural, recreational, or other legitimate beneficial uses, or to livestock, wild animals, birds, fish or other aquatic life.

(5) "Department" (is used in this chapter it shall) means the department of ecology.

(6) "Director" (is used in this chapter it shall) means the director of ecology.

(7) "Clean water act" means the federal water pollution control act of 1972, as amended (86 Stat. 896; 33 U.S.C. Sec. 1251 et seq.).

(8) "Aquatic noxious weed" (are used in this chapter, they have) has the meaning prescribed under RCW 17.26.020.
(9) "Listing cycle" means the period, as determined by the federal environmental protection agency, between publication of a list of water quality limited segments by the department and the publication of the next list of such segments by the department.

(10) "Load" means an amount of matter or thermal energy that is introduced into a receiving water.

(11) "Loading capacity" means the greatest amount of loading that a water can receive without violating water quality standards.

(12) "Load allocation" means that portion of a receiving water's loading capacity that is attributed either to one of its existing or future nonpoint sources of pollution, or to natural background sources. Load allocations are best estimates of the loading, which may range from reasonably accurate estimates to gross allotments, depending on the availability of data and appropriate techniques for predicting loading. Wherever possible, natural background conditions and nonpoint sources shall be distinguished. Wherever possible, loads shall be allocated to categories of like sources, rather than to aggregates of different categories of sources.

(13) "Wasteload allocation" means that portion of a receiving water's loading capacity that is allocated to one of its existing or future point sources of pollution. Wasteload allocations constitute a type of water quality-based effluent limitation.

(14) "Total maximum daily loads" means the sum of the individual wasteload allocations for point sources and load allocations for nonpoint sources and natural background conditions. Such loads shall be established at a level necessary to implement the applicable water quality standards with seasonal variations and a margin of safety, and may contain a reserve for growth. Total maximum daily loads may be expressed in terms other than mass per volume.

(15) "Other pollution controls" include, but are not limited to, the following list of laws, rules, regulations, programs, or activities:

(a) Provisions related to the federal conservation reserve enhancement program;
(b) Approved farm plans based on current field office technical guides;
(c) The dairy nutrient management act under chapter 90.64 RCW;
(d) The forest practices act under chapter 76.09 RCW;
(e) Irrigation district water quality management plans that meet the requirements of (k) of this subsection;
(f) Habitat conservation plans for aquatic species prepared under section 10 of the federal endangered species act (16 U.S.C. 1531 et seq.);
(g) Reasonable and prudent conditions established under a biological opinion under section 7 of the federal endangered species act;
(h) Watershed plans that implement best management practices approved by the conservation commission and the department;
(i) Implementation of cleanup of contaminated sediments under the federal comprehensive environmental response, compensation, and liability act of 1980 (42 U.S.C. 9601 et seq.); the model toxics control act, chapter 70.105D RCW; or other statutory authorities;
(j) Cooperative resource management plans administered by the department of natural resources that meet the requirements of (k) of this subsection; or
(k) Any other programs, measures, and activities that include:

(i) Specific methods and approaches intended to lead to water quality improvement and attainment of water quality standards;
(ii) Water quality improvement goals or milestones for identified water quality limited segments;
(iii) Monitoring provisions that enable the department to measure progress toward attainment of water quality standards; and
(iv) Enforcement mechanisms or feedback and modification strategies to ensure or promote compliance with the measures and goals identified in this subsection.

This definition shall not be construed as expanding the reach of existing regulatory controls.

(16) "Wastewater discharge permit" means an individual, model, or general permit issued by the department that specifies treatment, monitoring, and reporting requirements for the discharge of wastewater, and that is intended to satisfy the requirements of the clean water act and of this chapter.

(17) "Water quality limited segment" means any surface water segment, as defined by the department, where it is known that water quality does not meet applicable water quality standards, or is not expected to meet applicable water quality standards by the next listing cycle, even after the application of technology-based effluent limitations required by the federal clean water act.
(18) "Effluent trading" means a method to attain or maintain water quality standards by allowing sources of pollution that can achieve greater pollutant reduction than is otherwise required to sell or trade the credits for their excess reduction to another source.

(19) "Adaptive management" means the processes and principles designed to modify rules adopted under the forest practices act, and their application based on cooperative research, monitoring, and evaluation, and set out in Appendix L to the forestry module memorandum of agreement, also known as the Forests and Fish Report (1999).

NEW SECTION.  Sec. 4. A new section is added to chapter 90.48 RCW to read as follows:

WATER QUALITY LIMITED SEGMENTS—DATA RELIABILITY FOR DECISIONS TO LIST. (1) The list of water quality limited segments that is required to be submitted to the federal environmental protection agency under the clean water act shall be based upon data that are accurate and reflective of current conditions and that comply with high standards of quality assurance and quality control guidance as prescribed by the department under this section. A water segment may be listed as water quality limited under section 6 of this act only when:

(a) Documentation is provided showing the submitted data have met the data quality objectives and other requirements of an approved quality assurance program plan; or

(b) The department independently samples the water body segment in compliance with its data quality objectives and other requirements of an approved quality assurance program plan to verify the suspected water quality exceedance.

(2) The department shall coordinate a state-wide water quality monitoring network that relies upon existing water quality data collected by the department and others in compliance with the data quality objectives and the data quality assurance and quality control guidelines prescribed by the department under this section. To the extent possible and appropriate, the water quality monitoring network shall include other state agencies, tribes, counties, cities, federal agencies, sewer and water districts, and special purpose districts, as well as private entities that wish to provide such data. The network shall provide data for both ambient water quality monitoring and development of the list of water quality limited segments. The department shall coordinate the collection of water quality data among state agencies to ensure that monitoring for the purposes of this section is comprehensive without being duplicative, and that state monitoring resources are directed toward filling the most critical information gaps. In coordinating this network, the department shall ensure state-wide consistency, provide calibration of local monitoring efforts, provide data verification and validation, and assess long-term water quality trends.

(3) By September 1, 1999, the department shall appoint an advisory committee comprised of one representative selected by each of the following agencies and interests: The department, the Northwest Indian fisheries commission, the United States environmental protection agency, the United States geological survey, the department of health, the department of fish and wildlife, the department of transportation, the Puget Sound action team, the Washington state association of counties, the association of Washington cities, the Washington association of sewer and water districts, the conservation commission, the University of Washington, Washington State University, the association of Washington business, the Washington state farm bureau, the Washington state water resources association, and the Washington state office of the national Audubon society. Each of these representatives shall have experience in the collection, analysis, and interpretation of environmental data. The committee shall also consist of a state senator from each of the two major caucuses appointed by the president of the senate, and a state representative from each of the two major caucuses appointed by the speaker of the house of representatives. The committee shall have the following purposes:

(a) Development of data quality objectives regarding the precision, bias, representativeness, completeness, and comparability required for water quality monitoring data to serve program purposes;

(b) Development of data interpretation guidelines regarding the quantity and representativeness of data required to determine whether water quality standards are being met, and whether a water quality condition is caused by natural background or human factors;

(c) Development of quality assurance and quality control guidelines for the collection, analysis, and interpretation of water quality data for freshwater; and

(d) Comparison of the proposed use-based water quality standards with the current classification system in terms of the protection provided to characteristic uses, and the regulatory and economic impacts on point and nonpoint sources.

(4) The committee identified in subsection (3) of this section shall provide its recommendations on subsection (3)(a) through (c) of this section to the legislature by December 31, 2000. The committee shall provide its recommendations on subsection (3)(d) of this section to the legislature by December 31, 1999.

(5) The department shall develop a system of water quality standards, data quality objectives, data interpretation guidelines, and data quality assurance and quality control guidelines based upon the recommendations of the committee identified in subsection (3) of this section. The water quality standards shall be adopted by rule under RCW 90.48.035 and the administrative procedure act, chapter 34.05 RCW. After issuance, the data quality objectives, data interpretation guidelines, and data quality assurance and quality control guidelines shall be updated periodically to reflect new methods and instrumentation.
(6) After July 1, 2001, the department shall require that any water quality data submitted to the state for purposes of ambient monitoring or compiling a list of water quality limited segments comply with the department's data quality objectives and data quality assurance and quality control guidelines.

NEW SECTION, Sec. 5. A new section is added to chapter 90.48 RCW to read as follows:

ACCESS TO PRIVATE PROPERTY. (1) Except as provided in subsection (2) of this section, and before collecting water quality samples that can only be obtained by entering upon private property, the department or its designee must receive permission from either:
   (a) The owner of the property to be entered;
   (b) The lessee or operator of the property to be entered; or
   (c) A superior court of the state of Washington. The superior courts of the state may issue administrative search warrants to the department to carry out the provisions of this chapter.
(2) If the department believes there is an imminent and substantial threat to human health or the environment from pollution of an acute or emergency nature, the department may collect such samples after first having made a reasonable attempt to obtain permission from the owner, lessee, or operator. The department shall subsequently inform the owner, lessee, or operator of such sampling and the results thereof.

(3) The department or its designee shall offer to divide any water sample and provide a portion to the property owner, lessee, or operator in sufficient quantity that he or she may have a separate analysis conducted at his or her expense.

NEW SECTION, Sec. 6. A new section is added to chapter 90.48 RCW to read as follows:

LISTING OF WATER QUALITY LIMITED SEGMENTS. (1) After July 1, 2001, the department shall prepare a revised list of water quality limited segments, as required under section 303(d) of the clean water act, that is based upon data that are collected and analyzed in compliance with the department's data quality objectives and quality assurance and quality control guidelines. The list shall include all surface water segments that do not meet water quality standards, or are not expected to meet water quality standards by the next listing cycle, even after the application of technology-based effluent limitations required by the federal clean water act. The list shall not include:
   (a) Surface water segments that are expected to meet water quality standards before the next listing cycle;
   (b) Surface water segments for which natural background conditions are the reason for not meeting the standards; or
   (c) Ground waters.
(2) Surface water segments shall remain on the list until they meet water quality standards and shall be removed from the list when they are found to meet water quality standards. Deletions from the list shall be based on monitoring data of the same quality and rigor as data used for additions to the list. Additions to, and deletions from, the list of water quality limited segments shall be recorded when the list is updated in the next listing cycle. The list shall be submitted to the federal environmental protection agency at a frequency determined by the environmental protection agency.
(3) To ensure an opportunity for public participation in the process of listing water quality limited segments, the department shall:
   (a) Provide notice in the Washington State Register that it is beginning a new cycle for listing of water quality limited segments;
   (b) Develop a proposed list of water quality limited segments, and compare the proposed list to the previous list approved by the environmental protection agency to identify water quality trends;
   (c) Submit the proposed list to the environmental protection agency and the general public for review;
   (d) Develop responses to the comments received, and provide those responses to those persons who have requested them;
   (e) Develop a final list of water quality limited segments and publish a notice of the availability of the final list in the Washington State Register; and
   (f) Submit the final list to the environmental protection agency for approval.
(4) Publication of a notice of the availability of the final list of water quality limited segments in the Washington State Register is an agency action that may be appealed to the Thurston county superior court under RCW 34.05.570(4) within thirty days of the date of publication.
(5) Listing of water quality limited segments as required under this chapter is not subject to the state environmental policy act, chapter 43.21C RCW.

NEW SECTION, Sec. 7. A new section is added to chapter 43.21C RCW to read as follows:

This chapter does not apply to:
(1) Publication by the department of a list of water quality limited segments;
(2) The authorization of other pollution controls in lieu of total maximum daily loads; and
(3) The development of total maximum daily loads.
NEW SECTION. Sec. 8. A new section is added to chapter 90.48 RCW to read as follows:

EFFECT OF LISTING. (1) No permit may be issued to a new source or to a new discharger, as these terms are defined in section 306 of the federal clean water act and in 40 C.F.R. 122.2 and 40 C.F.R. 122.29 as of the effective date of this section, if the discharge would cause or contribute to a violation of water quality standards.

(2) This chapter shall not prevent any existing point source discharge, or any activity that may lead to a nonpoint source discharge conducted in compliance with all applicable federal, state, or local laws, rules, regulations, and requirements affecting water quality, solely because a total maximum daily load has not been completed.

(3) This chapter shall not prevent any new or expanded activity that may lead to a nonpoint source discharge conducted in compliance with all applicable federal, state, or local laws, rules, regulations, and requirements that protect water quality, solely because a total maximum daily load has not been completed.

NEW SECTION. Sec. 9. A new section is added to chapter 90.48 RCW to read as follows:

WATER QUALITY LIMITED SEGMENTS--LIST--MANAGEMENT. (1) After a list of water quality limited segments has been submitted to the federal environmental protection agency, the department shall sort the list of water quality limited segments by WRIA as defined in RCW 90.82.020 for management purposes.

(2) By June 30, 2001, the department shall determine:

(a) Whether other pollution controls exist in each WRIA that address the causes of the problems that led to the listing of segments as water quality limited in 1996 and in 1998;

(b) Whether such measures are being implemented; and

(c) Whether such measures are expected to result in attainment of water quality standards within a reasonable period of time based upon the nature of the problem.

(3) For water quality limited segments on lists approved after January 1, 2000, the department shall make the determinations identified under subsection (2) of this section within two years of the approval of the list by the environmental protection agency.

(4) To make the determinations under subsections (2) and (3) of this section, the department:

(a) May request information and recommendations from other state and federal agencies, local governments, tribes, conservation districts, and other sources; and

(b) Shall gather available data and information on the other pollution controls being used to address water quality in the relevant WRIs. If entities implementing other pollution controls collect water quality data, they shall provide such data to the department. The department shall conduct independent sampling to obtain any additional data or information necessary to make its determination.

(5) Where a planning group has chosen to address water quality under RCW 90.82.090, the group shall perform a preliminary evaluation as described in subsection (2) of this section within one year of receiving the first grant to conduct watershed assessments under RCW 90.82.040(2)(b), or within one year of the effective date of this section, whichever is later, and shall forward its findings and recommendations to the department. The department shall consider the planning group's findings and recommendations, if any, in making its initial determinations as to the existence and adequacy of the proposed other pollution controls.

(6) The department shall obtain public comment on its draft initial determinations, and shall finalize its determinations after considering the available information and comments received.

(7) If the department determines that other pollution controls in a WRIA are expected to result in attainment of water quality standards within a reasonable period of time, the department shall allow the use of those other pollution controls and shall not establish total maximum daily loads, except as provided under subsection (11) of this section.

(8) The department shall refer those dischargers who may not have fully implemented other pollution controls to appropriate agencies for technical assistance, or shall offer such assistance directly. The department's goal shall be to encourage the broad use of other pollution controls.

(9) For waters where the department determines that other pollution controls are available and are expected to attain water quality standards within a reasonable period of time, the department shall evaluate ambient water quality data at no greater than five-year intervals to determine whether substantial progress in water quality improvement has been achieved relative to specific listed segments, except that other pollution controls approved under subsection (7) of this section shall be allowed to perform for at least five years before their effectiveness is evaluated. The department may use its watershed approach to water quality management to focus and rotate its resources through succeeding areas of the state. Entities implementing other pollution controls shall provide any available monitoring data to the department so that it may determine the effectiveness of the controls in correcting the water quality problem. The department shall conduct independent sampling to obtain any additional information needed to determine the effectiveness of the other pollution controls.
(10) If the evaluation of ambient water quality data in a given WRIA as provided under subsection (9) of this section demonstrates other pollution controls have not made substantial progress toward the attainment of water quality standards within a reasonable period of time, the department shall enter into discussions with representatives selected by users of other pollution controls in that WRIA to revise the controls so that their implementation results in substantial progress toward the attainment of water quality standards. Such proposed revisions shall be submitted to the department within ninety days of the start of discussions under this subsection.

(11) The department shall develop total maximum daily loads for those water segments where:
   (a) Other pollution controls do not exist, have not been implemented, or are not expected to attain water quality standards within a reasonable period of time based upon the nature of the problem;
   (b) Discussions under subsection (10) of this section to revise other pollution controls are not successful within ninety days;
   (c) Substantial progress toward meeting water quality standards has not been made five years after other pollution controls have been revised through discussions initiated under subsection (10) of this section; or
   (d) The complexity of the problems and sources precludes a determination under subsection (2) of this section.

(12) Notwithstanding any other provisions of this chapter:
   (a) Total maximum daily loads for water quality limited segments impaired by sediment, habitat degradation, flow, turbidity, or temperature caused by forest practices subject to regulation under the forest practices act, chapter 76.09 RCW, or covered in the forestry module memorandum of agreement, also known as the Forests and Fish Report (1999), are a lower priority for the department and need not be initiated before July 1, 2009;
   (b) The department shall not require more stringent forest practices in a total maximum daily load or its implementation before July 1, 2009, except through adaptive management as defined in this act; and
   (c) If the achievement of the total maximum daily load allocations cannot be met through forest practices rules, the adjustment of those management practices shall be through adaptive management as defined in this act.

(13) This section does not prohibit the department from completing the total maximum daily loads already in development upon the effective date of this section. Nothing in this act authorizes a shift in emphasis to point sources that would be inconsistent with the priorities established under this section.

Sec. 10. RCW 90.82.090 and 1998 c 247 s 5 are each amended to read as follows:

If the initiating governments choose to include a water quality component, the watershed plan shall include the following elements:

(1) An examination based on existing studies conducted by federal, state, and local agencies of the degree to which legally established water quality standards are being met in the management area;
(2) An examination based on existing studies conducted by federal, state, and local agencies of the causes of water quality violations in the management area, including an examination of information regarding pollutants, point and nonpoint sources of pollution, and pollution-carrying capacities of water bodies in the management area. The analysis shall take into account seasonal stream flow or level variations, natural events, and pollution from natural sources that occurs independent of human activities;
(3) An identification and evaluation of the existence of other pollution controls as defined in chapter 90.48 RCW in use in the management area, of the extent of implementation of such measures, and of the effectiveness of such measures in attaining water quality standards within a reasonable period of time, as well as any recommendations for improving the effectiveness of other pollution controls in the management area;
(4) An examination of the legally established characteristic uses of each of the nonmarine bodies of water in the management area;
(5) An examination of any total maximum daily load established for nonmarine bodies of water in the management area, unless a total maximum daily load process has begun in the management area as of the date the watershed planning process is initiated under RCW 90.82.060;
(6) An examination of existing data related to the impact of fresh water on marine water quality;
(7) A recommended approach for implementing the total maximum daily load established for achieving compliance with water quality standards for the nonmarine bodies of water in the management area, unless a total maximum daily load process has begun in the management area as of the date the watershed planning process is initiated under RCW 90.82.060; and
(8) Recommended means of monitoring by appropriate government agencies whether actions taken to implement the approach to bring about improvements in water quality are sufficient to achieve compliance with water quality standards.
TOTAL MAXIMUM DAILY LOADS. (1) Total maximum daily loads shall only be established for surface waters and shall include the following elements:

(a) A determination of the pollutant of concern and a quantification of the target or desired end point of the total maximum daily load process that indicates compliance with water quality standards taking into account the assimilative capacity of the water segment;

(b) A quantification of the reduction in total pollutant load that must be achieved to meet water quality standards;

(c) Identification of the responsible sources, or categories of sources, of the pollutant that causes water quality standards not to be met, and a quantification of the degree to which each source or source category contributes to the failure to meet water quality standards; and

(d) Establishment of the wasteload and load allocations for identified sources, including categories of nonpoint sources, along with a quantified margin of safety, and any allocations for natural background and future growth.

(2) The department shall control sources of pollution to ground water as otherwise provided for in this chapter or under other state and federal programs and authorities. In identifying the responsible source or categories of sources, as set forth in subsection (1)(c) of this section, and in establishing wasteload and load allocations for identified sources, as set forth in subsection (1)(d) of this section, the department shall not attempt to identify sources of pollutants within ground water, nor shall the department allocate loads or wasteloads to ground water.

(3) Each total maximum daily load shall be implemented through a plan that includes the following elements:

(a) Identification and quantification of control actions and implementation tools, methods, and authorities that will be used to achieve the allocations, in addition to schedules, milestones, and funding options for implementing the identified actions;

(b) A determination of the degree to which uses are being supported, remaining variance from the target, compliance with implementation plans, and the accuracy of sources and source contributions identified in the total maximum daily load; and

(c) A description of how the implementation plan will be modified or revised to ensure water quality standards are met in response to follow-up monitoring and evaluation results.

(4) Department hearings and other public proceedings to initiate total maximum daily loads shall be held in the town or city nearest to the location of the water quality limited segment in order to facilitate participation by affected persons. Those persons who would be affected by an allocation of loads must be given an opportunity to be involved in the total maximum daily load development process from the outset.

(5) Allocations should be developed through consensus among those discharging or releasing pollutants into the relevant watershed. If consensus is not achievable, a mediator may be retained at the dischargers' expense to negotiate an allocation. If an agreement on allocations has not been developed within one hundred eighty days from the start of negotiations on allocations, the department shall allocate loads.

(6) To encourage public participation in the process of developing total maximum daily loads, the department shall provide an opportunity for public comment on any total maximum daily load that meets all of the requirements of this section before its adoption by the department.

(7) A notice and summary of a total maximum daily load that meets all of the requirements of this section shall be published in the Washington State Register. A total maximum daily load may be implemented only through wastewater discharge permits or through regulatory and nonregulatory programs that address nonpoint sources.

(8) Publication of a notice and summary of a total maximum daily load in the Washington State Register is an agency action that may be appealed to Thurston county superior court pursuant to RCW 34.05.570(4) within thirty days of the date of publication in the Washington State Register.

(9) Publications of total maximum daily loads as required under this chapter are not subject to the state environmental policy act, chapter 43.21C RCW.

(10) When information is available, load allocations for those nonpoint sources that have not made substantial progress toward water quality improvement as described in section 9 of this act shall be based on the following considerations:

(a) Loads shall first be reduced in proportion to the reductions made by others in the same source category for those sources that have not made expected reductions in their loads, either because they have failed to implement other pollution controls, or because the measures are not effective in making such reductions;

(b) Loads shall next be reduced proportionally, or as the department deems appropriate, across all sources in order to achieve the pollutant reductions necessary to achieve water quality standards.
The department shall provide a report to the legislature by December 31, 2001, regarding the implementation of this act and its effects on the attainment of water quality standards for surface waters.

**NEW SECTION. Sec. 12.** A new section is added to chapter 90.48 RCW to read as follows:

**EFFLUENT TRADING.** (1) By July 1, 2001, the department shall investigate, develop, and implement a procedure for effluent trading. The procedure shall enable persons discharging or releasing pollutants to enter into contracts or other enforceable agreements with each other, appropriately overseen and administered by the department, to offset or trade quantifiable amounts of pollutants so as to efficiently and effectively attain or maintain water quality standards.

(2) Reductions in pollutant units from amounts or quantities authorized under a total maximum daily load as implemented through a federal clean water act discharge permit or a state wastewater discharge permit, or through nonpoint sources, may be freely exchanged with other persons within the same receiving watershed subject to the procedures and rules of the department.

(3) In developing the mechanisms and procedures required by this section, the department shall not:
(a) Compel or require any person to engage in effluent trading as an alternative to other means or mechanisms to attain or maintain water quality standards; or
(b) Set or determine the price or payment made, if any, in any effluent trade.

(4) The department shall seek any approvals, waivers, or authorizations from the environmental protection agency or other state and federal agencies needed to implement or to facilitate effluent trading to its fullest extent. However, such effluent trading shall not affect or restrict the authority of the department to implement categorical effluent limits or treatment requirements adopted by the department or the federal environmental protection agency, nor shall any effluent trade create any property rights of any sort.

(5) The department shall adopt rules as necessary implementing effluent trading. Such rules shall allow pollutant trading and other procedures to receive any necessary approvals with the minimum of administrative processing consistent with federal and state laws and rules.

**NEW SECTION. Sec. 13.** A new section is added to chapter 90.48 RCW to read as follows:

**MARINE WATERS--TOTAL MAXIMUM DAILY LOADS.** Because of their location downstream of most human activities, marine sediments tend to be the final repository of many pollutants generated by human activity. Sediment cleanup alone, however, may be insufficient to attain water quality standards, unless the record of decision issued under a cleanup under the federal comprehensive environmental response, compensation, and liability act of 1980, or chapter 70.105D RCW, or other cleanup authority also includes a plan for controlling ongoing pollutant sources.

For water quality limited segments caused by contaminated sediments in marine waters where a sediment cleanup has been planned or completed, but no source control plan has been adopted; a total maximum daily load shall be developed and implemented.

**NEW SECTION. Sec. 14.** A new section is added to chapter 90.48 RCW to read as follows:

**LIMITATIONS ON COMPLIANCE ACTIONS.** (1) Except as provided in subsections (2) and (3) of this section, the department shall not take compliance actions against persons causing exceedances of water quality standards identified as limiting for salmonids, other aquatic life, or other water-dependent wildlife that are listed as threatened or endangered under the federal endangered species act, or that are candidates for such listing, if such persons have entered into binding agreements with the national marine fisheries service or the United States fish and wildlife service to implement mechanisms that:
(a) Have been designed to meet water quality standards as identified in this subsection (1);
(b) Have been designed to conserve listed species; and
(c) Contain provisions for monitoring and adaptive management.

Such mechanisms may include, but are not limited to, the pollution controls identified in RCW 90.48.020.

(2) The immunity provided under subsection (1) of this section shall be provided:
(a) Only as long as substantial measurable progress toward attainment of water quality standards can be demonstrated at five-year intervals after adoption of the mechanisms described under subsection (2) of this section for up to fifteen years;
(b) Only for activities and facilities that are specifically addressed in the mechanisms described under subsection (1) of this section; and
(c) Only for pollutants that are specifically addressed in the mechanisms described in subsection (1) of this section.

(3) The immunity provided under subsection (1) of this section shall lapse:
(a) If substantial measurable progress cannot be demonstrated in each five-year period for up to fifteen years; or
(b) Following any violation of or failure to implement any of the terms of the binding agreements identified in subsection (1) of this section.

(4) Except as provided in subsections (1), (2), and (3) of this section, the authority of any regulatory agency to take any enforcement action authorized by law shall not be limited. This section shall not limit a regulatory agency's authority to take any compliance actions as authorized by law based upon a person's failure to comply with specific terms and conditions of any permit or license issued by the agency to that person, failure to obtain a permit for discharges requiring a permit under the federal clean water act, or knowing or willful violations of this chapter and implementing rules.

NEW SECTION. Sec. 15. STORM WATER ADVISORY COMMITTEE.

(1) The department of ecology shall convene a storm water advisory committee for the purpose of updating the department's storm water management plan and the Puget Sound storm water management manual. The advisory committee shall include, but not be limited to, one representative selected by each of the following agencies and associations: The department of ecology; the department of natural resources; the department of community, trade, and economic development; the department of fish and wildlife; the department of transportation; the Puget Sound action team; the Washington state association of counties; the association of Washington cities; the Washington association of sewer and water districts; the American public works association; the national association of industrial and office properties; the American society of civil engineers; the association of Washington business; the Washington state farm bureau; people for Puget Sound; and the Washington environmental council.

(2) The advisory committee shall be appointed no later than September 1, 1999, and shall complete its work by June 30, 2001. The department of ecology shall provide a progress report to the legislature on storm water management issues and the approach to these issues taken by the advisory committee no later than December 31, 1999.

(3) This section expires December 31, 2001.

NEW SECTION. Sec. 16. A new section is added to chapter 90.48 RCW to read as follows:
CONFLICT WITH FEDERAL LAW--RESOLUTION. If notified by responsible officials of any conflict of this chapter with federal law or program requirements or with federal requirements that are a prescribed condition to the allocation of federal funds to the state, the regulatory agency notified of the conflict shall actively seek to resolve the conflict. If the agency determines that the conflict cannot be resolved without the loss of benefits or authority to the state, the agency shall notify the governor, the president of the senate, and the speaker of the house of representatives in writing within thirty days of making that determination.

NEW SECTION. Sec. 17. CAPTIONS NOT LAW. Captions used in this act are not any part of the law.

NEW SECTION. Sec. 18. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected.

NEW SECTION. Sec. 19. If specific funding for the purposes of sections 2 through 18 of this act, referencing this act by bill or chapter and section numbers, is not provided by June 30, 1999, in the omnibus appropriations act, sections 2 through 18 of this act are null and void.*

Renumber the remaining section consecutively and correct any internal references accordingly.

On page 3, beginning on line 19, strike all of section 2 and insert the following:
"NEW SECTION. Sec. 20. Section 1 of this act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect immediately."

Correct the title.

On page 1, line 11, after "as" strike "defined in 40 C.F.R. Sec. 172.3" and insert "described in 40 C.F.R. Sec. 172.3(c)(2)"

On page 2, line 23, after "as" strike "defined in 40 C.F.R. Sec. 172.3" and insert "described in 40 C.F.R. Sec. 172.3(c)(2)"

On page 3, line 14, after "as" strike "defined in 40 C.F.R. Sec. 172.3" and insert "described in 40 C.F.R. Sec. 172.3(c)(2)", and the same are herewith transmitted.

DEAN R. FOSTER, Co-Chief Clerk

TIMOTHY A. MARTIN, Co-Chief Clerk

POINT OF ORDER
Senator Fraser: "A point of order, Mr. President. I believe that the House amendments to Senate Bill No. 5670 exceed the scope and object of the bill."

**RULING BY THE PRESIDENT**

President Owen: "In ruling upon the point of order raised by Senator Fraser to the scope and object of the House amendments on page 3, after line 18 and beginning on line 19; page 1, line 11; page 2, line 23; and page 3, line 14; to Senate Bill No. 5670, the President finds that Senate Bill No. 5670 is a measure which does only two things: (1) Authorizes the Director of Ecology to permit the experimental use of herbicides to treat aquatic noxious weeks, and (2) Creates special conditions on the use of herbicides to treat Spartina.

"The House amendments would create several and various new provisions concerning the control of water pollution generally, including (1) Requiring the Department of Ecology to develop a system of water quality standards; (2) Requiring the department to convene an advisory committee on water quality standards; (3) Requiring the department to convene a storm water advisory committee; (4) Requiring the department to implement a procedure for effluent trading; (5) Requiring the department to prepare a revised list of water quality limited segments; (6) Prohibiting the department from issuing discharge permits in certain instances; and many other provisions of various kinds."

"The President, therefore, finds that the amendments do change the scope and object of the bill and the point of order is well taken."

The House amendments on page 3, after line 18 and beginning on line 19; page 1, line 11; page 2, line 23; and page 3, line 14; to Senate Bill No. 5670 were ruled out of order.

**MOTION**

Senator Fraser moved that the Senate refuse to concur in the House amendment(s) to Senate Bill No. 5670 and asks the House to recede therefrom.

**POINT OF ORDER**

Senator Swecker: "A point of order, Mr. President. Is it in order to concur in the amendments--is a motion to concur in the amendments in order at this time?"

**REPLY BY THE PRESIDENT**

President Owen: "The President has ruled the amendments beyond the scope and object of the bill, Senator Swecker. Therefore, a motion would not be in order."

Senator Swecker: "Thank you, Mr. President."

The President declared the question before the Senate to be the motion by Senator Fraser that the Senate do not concur in the House amendments to Senate Bill No. 5670 and asks the House to recede therefrom.

The motion by Senator Fraser carried on a rising vote and the Senate refuses to concur in the House amendments to Senate Bill No. 5670 and asks the House to recede therefrom.

**POINT OF ORDER**

Senator Swecker: "I think it is a point of order, Mr. President. Is it proper to request a scope--a scoping decision by the President when a bill is not properly before us?"

**REPLY BY THE PRESIDENT**

President Owen: "I think that any member can ask the President to rule on an issue if they so desire."

Senator Swecker: "I understand; thank you."

President Owen: "Senator Swecker, in this case, the message was read and the bill was before us."
MOTION

On motion of Senator Betti Sheldon, the Senate advanced to the sixth order of business.

PERSONAL PRIVILEGE

Senator Kline: "Mr. President before moving the bill or the amendments, I would like to have a point of personal privilege. This is emotionally difficult and I hope you will understand. I would like to bring your attention to the loss of one of our most beloved members, Senator Jeralita Costa. Senator Costa has been a good colleague and has been a very wonderful person to work with, but she is gone. She is gone, but not forgotten. I am sure, like all of you, I feel her presence still among us and even the sound of her gentle laughter, from over here in the side. I wonder if maybe we may dispense with the moment of silence, however, and instead continue her work for the poor, the disenfranchised and those who have suffered grievous crimes. Thank you all."

Debate ensued.

PERSONAL PRIVILEGE

Senator Kohl-Welles: "I rise for a point of personal privilege. I've noticed that one of my floral arrangements is gone and I demand to have it returned immediately."

REPLY BY THE PRESIDENT

President Owen: "Touche."

SECOND READING

SENATE BILL NO. 5693, by Senators Wojahn, McDonald, Deccio, Thibaudeau, Roach, Winsley, Oke, Rasmussen, Prentice and Costa

Establishing the developmental disabilities endowment trust fund.

MOTIONS

On motion of Senator Wojahn, Substitute Senate Bill No. 5693 was substituted for Senate Bill No. 5693 and the substitute bill was placed on second reading and read the second time.

On motion of Senator Wojahn, the following striking amendment by Senators Wojahn, McDonald, Thibaudeau and Deccio was adopted:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. LEGISLATIVE INTENT. The legislature recognizes that the main and most enduring support for persons with developmental disabilities, along with public resources, is their immediate and extended families. The legislature recognizes that these families are searching for ways to provide for the long-term continuing care of their disabled family member when the family can no longer provide that care. It is the intent of the legislature to encourage and assist families to engage in long-range financial planning and to contribute to the lifetime care of their disabled family member. To further these objectives, this chapter is enacted to finance long-term care for persons with developmental disabilities through an endowment funded jointly by the investment of public funds and dedicated family contributions.

The establishment of this endowment is not intended to diminish the state's responsibility for funding services currently available to future endowment participants, subject to available funding, nor is it the intent of the legislature, by the creation of this public/private endowment, to impose additional, unintended financial liabilities on the public.

NEW SECTION. Sec. 2. DEVELOPMENTAL DISABILITIES ENDOWMENT TRUST FUND. (1) The developmental disabilities endowment trust fund is created in the custody of the state treasurer. Expenditures from the fund may be used only for the purposes of the developmental disabilities endowment established under this chapter. Only the developmental disabilities endowment governing board or the board's designee may authorize expenditures from the fund. The fund shall retain its interest earnings in accordance with RCW 43.79A.040."
(2) The developmental disabilities endowment governing board shall deposit in the fund all money received for the program, including state appropriations and private matching contributions. With the exception of investment and operating costs associated with the investment of money by the state treasurer and the investment board paid under RCW 43.08.190, 43.79A.040, 43.33A.160, and 43.84.160, the fund shall be credited with all investment income earned by the fund. Disbursements from the fund are exempt from appropriations and the allotment provisions of chapter 43.88 RCW. However, money used for program administration is subject to the allotment and budgetary controls of chapter 43.88 RCW, and an appropriation is required for these expenditures.

NEW SECTION, Sec. 3. INVESTMENT OF FUNDS. (1) The state investment board has the full power to invest, reinvest, manage, contract, sell, or exchange investment money in the developmental disabilities endowment trust fund. All investment and operating costs associated with the investment of money shall be paid under RCW 43.08.190, 49.79A.040, 43.33A.160, and 43.84.160. With the exception of these expenses, the earnings from the investment of the money shall be retained by the fund.

(2) All investments made by the state investment board shall be made with the exercise of that degree of judgment and care under RCW 43.33A.140 and the investment policy established by the state investment board.

(3) As deemed appropriate by the investment board, money in the fund may be commingled for investment with other funds subject to investment by the board.

(4) The authority to establish all policies relating to the fund, other than the investment policies as set forth in subsections (1) through (3) of this section, resides with the developmental disabilities endowment governing board acting in accordance with the principles set forth in section 5 of this act. With the exception of expenses of the state treasurer and the investment board set forth in subsection (1) of this section, disbursements from the fund shall be made only on the authorization of the developmental disabilities endowment governing board or the board's designee, and money in the fund may be spent only for the purposes of the developmental disabilities endowment program as specified in this chapter.

(5) The investment board shall routinely consult and communicate with the developmental disabilities endowment governing board on the investment policy, earnings of the trust, and related needs of the program.

NEW SECTION, Sec. 4. DEVELOPMENTAL DISABILITIES ENDOWMENT GOVERNING BOARD. The developmental disabilities endowment governing board is established to design and administer the developmental disabilities endowment. To the extent funds are appropriated for this purpose, the director of the department of community, trade, and economic development shall provide staff and administrative support to the governing board.

(1) The governing board shall consist of seven members as follows: (a) Three of the members, who shall be appointed by the governor, shall be persons who have demonstrated expertise and leadership in areas such as finance, actuarial science, management, business, or public policy.

(b) Three members of the board, who shall be appointed by the governor, shall be persons who have demonstrated expertise and leadership in areas such as business, developmental disabilities service design, management, or public policy, and shall be family members of persons with developmental disabilities.

(c) The seventh member of the board, who shall serve as chair of the board, shall be appointed by the remaining six members of the board.

(2) Members of the board shall serve terms of four years and may be appointed for successive terms of four years at the discretion of the appointing authority. However, the governor may stagger the terms of the initial six members of the board so that approximately one-fourth of the members' terms expire each year.

(3) Members of the board shall be compensated for their service under RCW 43.03.240 and shall be reimbursed for travel expenses as provided in RCW 43.03.050 and 43.03.060.

(4) The board shall meet periodically as specified by the call of the chair, or a majority of the board.

NEW SECTION, Sec. 5. ENDOWMENT PRINCIPLES. The design, implementation, and administration of the developmental disabilities endowment shall be governed by the following principles:

(1) The design and operation of the endowment should reward families who set aside resources for their child's future care and provide incentives for continued caregiving by the family.

(2) The endowment should encourage financial planning and reward caregiving by a broad range of families, not just those who have substantial financial resources.

(3) Families should not feel compelled to contribute to the endowment in order to meet the needs of continuing care for their child.

(4) All families should have equal access to developmental disabilities services not funded through the endowment regardless of whether they contribute to the endowment.

(5) Services funded through the endowment should be stable, ongoing, of reasonable quality, and respectful of individual and family preferences.

(6) Endowment resources should be expended economically in order to benefit as many families as possible.
(7) Endowment resources should be managed prudently so that families can be confident that their agreement with the endowment on behalf of their child will be honored.

(8) The private financial contribution on behalf of each person receiving services from the endowment shall be at least equal to the state's contribution to the endowment.

(9) In order to be matched with funding from the state's contribution to the endowment, the private contribution on behalf of a beneficiary must be sufficient to support the beneficiary's approved service plan for a significant portion of the beneficiary's anticipated remaining lifetime.

(10) The rate that state appropriations to the endowment are used to match private contributions shall be such that each legislative appropriation to the developmental disabilities endowment trust fund, including principal and investment income, is not depleted in a period of less than five years.

(11) Private contributions made on behalf of a particular individual, and the associated state match, shall only be used for services provided upon that person's behalf.

NEW SECTION. Sec. 6. PROPOSED OPERATING PLAN. To the extent funds are appropriated for this purpose, the developmental disabilities endowment governing board shall contract with an appropriate organization for the development of a proposed operating plan for the developmental disabilities endowment program. The proposed operating plan shall be consistent with the endowment principles specified in section 5 of this act. The plan shall address at least the following elements:

(1) The recommended types of services to be available through the endowment program and their projected average costs per beneficiary;

INFORMATION SYSTEMS PROJECTS. Agencies shall comply with the following requirements regarding information systems projects when specifically directed to do so by this act.

(1) Agency planning and decisions concerning information technology shall be made in the context of its information technology portfolio. “Information technology portfolio” means a strategic management approach in which the relationships between agency missions and information technology investments can be seen and understood, such that: Technology efforts are linked to agency objectives and business plans; the impact of new investments on existing infrastructure and business functions are assessed and understood before implementation; and agency activities are consistent with the development of an integrated, nonduplicative state-wide infrastructure.

(2) Agencies shall use their information technology portfolios in making decisions on matters related to the following:
   (a) System refurbishment, acquisitions, and development efforts;
   (b) Setting goals and objectives for using information technology in meeting legislatively-mandated missions and business needs;
   (c) Assessment of overall information processing performance, resources, and capabilities;
   (d) Ensuring appropriate transfer of technological expertise for the operation of any new systems developed using external resources; and
   (e) Progress toward enabling electronic access to public information.

(3) The agency shall produce a feasibility study for information technology projects at the direction of the information services board and in accordance with published department of information services policies and guidelines. At a minimum, such studies shall include a statement of: (a) The purpose or impetus for change; (b) the business value to the agency, including an examination and evaluation of benefits, advantages, and cost; (c) a comprehensive risk assessment based on the proposed project's impact on both citizens and state operations, its visibility, and the consequences of doing nothing; (d) the impact on agency and state-wide information infrastructure; and (e) the impact of the proposed enhancements to an agency's information technology capabilities on meeting service delivery demands.

(4) The agency shall produce a comprehensive management plan for each project. The plan or plans shall address all factors critical to successful completion of each project. The plan(s) shall include, but is not limited to, the following elements: A description of the problem or opportunity that the information technology project is intended to address; a statement of project objectives and assumptions; a definition and schedule of phases, tasks, and activities to be accomplished; and the estimated cost of each phase. The planning for the phased approach shall be such that the business case justification for a project needs to demonstrate how the project recovers cost or adds measurable value or positive cost benefit to the agency's business functions within each development cycle.

(5) The agency shall produce quality assurance plans for information technology projects. Consistent with the direction of the information services board and the published policies and guidelines of the department of information services, the quality
assurance plan shall address all factors critical to successful completion of the project and successful integration with the agency and state information technology infrastructure. At a minimum, quality assurance plans shall provide time and budget benchmarks against which project progress can be measured, a specification of quality assurance responsibilities, and a statement of reporting requirements. The quality assurance plans shall set out the functionality requirements for each phase of a project.

(6) A copy of each feasibility study, project management plan, and quality assurance plan shall be provided to the department of information services, the office of financial management, and legislative fiscal committees. The plans and studies shall demonstrate a sound business case that justifies the investment of taxpayer funds on any new project, an assessment of the impact of the proposed system on the existing information technology infrastructure, the disciplined use of preventative measures to mitigate risk, and the leveraging of private-sector expertise as needed. Authority to expend any funds for individual information systems projects is conditioned on the approval of the relevant feasibility study, project management plan, and quality assurance plan by the department of information services and the office of financial management.

(7) Quality assurance status reports shall be submitted to the department of information services, the office of financial management, and legislative fiscal committees at intervals specified in the project's quality assurance plan.

(a) For purposes of this section, a project is funded in this act if it is specifically identified for full or partial funding in this act or is referenced for funding in whole or in part in the budget notes or projects lists produced as supporting documentation for this act.

(b) The department of natural resources shall not charge the city, town, or county for the easement except as necessary to recover reasonable administrative costs.

(2) If a city, town, or county requests an easement under this section, the department of natural resources shall execute and deliver an instrument granting the easement to the requesting city, town, or county.

Sec. 607. RCW 43.19.1906 and 1995 c 269 s 1404 are each amended to read as follows:

Insofar as practicable, all purchases and sales shall be based on competitive bids, and a formal sealed bid procedure shall be used as standard procedure for all purchases and contracts for purchases and sales executed by the state purchasing and material control director and under the powers granted by RCW 43.19.190 through 43.19.1939. This requirement also applies to purchases and contracts for purchases and sales executed by agencies, including educational institutions, under delegated authority granted in accordance with provisions of RCW 43.19.190 or under RCW 28B.10.029. However, formal sealed bidding is not necessary for:

(1) Emergency purchases made pursuant to RCW 43.19.200 if the sealed bidding procedure would prevent or hinder the emergency from being met appropriately;

(2) Purchases not exceeding thirty-five thousand dollars, or subsequent limits as calculated by the office of financial management: PROVIDED, That the state director of general administration shall establish procedures to assure that purchases made by or on behalf of the various state agencies shall not be made so as to avoid the thirty-five thousand dollar bid limitation, or subsequent bid limitations as calculated by the office of financial management: PROVIDED FURTHER, That the state purchasing and material control director is authorized to reduce the formal sealed bid limits of thirty-five thousand dollars, or subsequent limits as calculated by the office of financial management, to a lower dollar amount for purchases by individual state agencies if considered necessary to maintain full disclosure of competitive procurement or otherwise to achieve overall state efficiency and economy in purchasing and material control. Quotations from four hundred dollars to thirty-five thousand dollars, or subsequent limits as calculated by the office of financial management, shall be secured from at least three vendors to assure establishment of a competitive price and may be obtained by telephone or written quotations, or both. The agency shall invite at least one quotation each from a certified minority and a certified women-owned vendor who shall otherwise qualify to perform such work.

Immediately after the award is made, the bid quotations obtained shall be recorded and open to public inspection and shall be available by telephone inquiry. A record of competition for all such purchases from four hundred dollars to thirty-five thousand dollars, or subsequent limits as calculated by the office of financial management, shall be documented for audit purposes. Purchases up to four hundred dollars may be made without competitive bids based on buyer experience and knowledge of the market in achieving maximum quality at minimum cost: PROVIDED, That this four hundred dollar direct buy limit without competitive bids may be increased incrementally as required to a maximum of eight hundred dollars, if warranted by increases in purchasing costs due to inflationary trends;

(3) Purchases which are clearly and legitimately limited to a single source of supply and purchases involving special facilities, services, or market conditions, in which instances the purchase price may be best established by direct negotiation;

(4) Purchases of insurance and bonds by the risk management office under RCW 43.19.1935;

(5) Purchases and contracts for vocational rehabilitation clients of the department of social and health services: PROVIDED, That this exemption is effective only when the state purchasing and material control director, after consultation with the director of the division of vocational rehabilitation and appropriate department of social and health services procurement personnel, declares that such purchases may be best executed through direct negotiation with one or more suppliers in order to expeditiously meet the special needs of the state’s vocational rehabilitation clients;

(6) Purchases by universities for hospital operation or biomedical teaching or research purposes and by the state purchasing and material control director, as the agent for state hospitals as defined in RCW 72.23.010, and for health care programs provided in state correctional institutions as defined in RCW 72.65.010(3) and veterans’ institutions as defined in RCW 72.36.010 and 72.36.070, made by participating in contracts for materials, supplies, and equipment entered into by nonprofit cooperative hospital group purchasing organizations;

(7) Purchases by institutions of higher education not exceeding thirty-five thousand dollars: PROVIDED, That for purchases between two thousand five hundred dollars and thirty-five thousand dollars quotations shall be secured from at least three vendors to assure establishment of a competitive price and may be obtained by telephone or written quotations, or both. For purchases between two thousand five hundred dollars and thirty-five thousand dollars, each institution of higher education shall invite at least one quotation each from a certified minority and a certified women-owned vendor who shall otherwise qualify to
perform such work. A record of competition for all such purchases made from two thousand five hundred to thirty-five thousand dollars shall be documented for audit purposes; and

(8) Negotiation of a contract by the department of transportation, valid until June 30, 2001, with registered tow truck operators to provide roving service patrols in one or more Washington state patrol tow zones whereby those registered tow truck operators wishing to participate would cooperatively, with the department of transportation, develop a demonstration project upon terms and conditions negotiated by the parties.

Beginning on July 1, 1995, and on July 1 of each succeeding odd-numbered year, the dollar limits specified in this section shall be adjusted as follows: The office of financial management shall calculate such limits by adjusting the previous biennium’s limits by the appropriate federal inflationary index reflecting the rate of inflation for the previous biennium. Such amounts shall be rounded to the nearest one hundred dollars.

Sec. 608. RCW 88.16.090 and 1995 c 175 s 1 are each amended to read as follows:

(1) A person may pilot any vessel subject to the provisions of this chapter on waters covered by this chapter only if appointed and licensed to pilot such vessels on said waters under and pursuant to the provisions of this chapter.

(2) A person is eligible to be appointed a pilot if the person is a citizen of the United States, over the age of twenty-five years and under the age of seventy years, a resident of the state of Washington at the time of appointment and only if the pilot applicant holds as a minimum, a United States government license as a master of ocean or near coastal steam or motor vessels of not more than one thousand six hundred gross tons or as a master of inland steam or motor vessels of not more than one thousand six hundred gross tons, such license to have been held by the applicant for a period of at least two years prior to taking the Washington state pilotage examination and a first class United States endorsement without restrictions on that license to pilot in the pilotage districts for which the pilot applicant desires to be licensed, and if the pilot applicant meets such other qualifications as may be required by the board. A person applying for a license under this section shall not have been convicted of an offense involving drugs or the personal consumption of alcohol in the twelve months prior to the date of application. This restriction does not apply to license renewals under this section.

(3) Pilots shall be licensed hereunder for a term of five years from and after the date of the issuance of their respective state licenses. Such licenses shall thereafter be renewed as of course, unless the board shall withhold same for good cause. Each pilot shall pay to the state treasurer an annual license fee as follows: For the period beginning July 1, 1995, through June 30, 2001, the fee shall be two thousand five hundred dollars; and for the period beginning July 1, 2001, the fee shall be three thousand dollars. The fees shall be deposited in the state treasury to the credit of the pilotage account. The board may assess partially active or inactive pilots a reduced fee.

(4) Pilot applicants shall be required to pass a written and oral examination administered and graded by the board which shall test such applicants on this chapter, the rules of the board, local harbor ordinances, and such other matters as may be required to compliment the United States examinations and qualifications. The board shall hold examinations at such times as will, in the judgment of the board, ensure the maintenance of an efficient and competent pilotage service. An examination shall be scheduled for the Puget Sound pilotage district if there are three or fewer successful candidates from the previous examination who are waiting to become pilots in that district.

(5) The board shall develop an examination and grading sheet for each pilotage district, for the testing and grading of pilot applicants. The examinations shall be administered to pilot applicants and shall be updated as required to reflect changes in law, rules, policies, or procedures. The board may appoint a special independent examination committee or may contract with a firm knowledgeable and experienced in the development of professional tests for development of said examinations. Active licensed state pilots may be consulted for the general development of examinations but shall have no knowledge of the specific questions. The pilot members of the board may participate in the grading of examinations. If the board does appoint a special examination development committee it is authorized to pay the members of said committee the same compensation and travel expenses as received by members of the board. When grading examinations the board shall carefully follow the grading sheet prepared for that examination. The board shall develop a “sample examination” which would tend to indicate to an applicant the general types of questions on pilot examinations, but such sample questions shall not appear on any actual examinations. Any person who willfully gives advance knowledge of information contained on a pilot examination is guilty of a gross misdemeanor.

(6) All pilots and applicants are subject to an annual physical examination by a physician chosen by the board. The physician shall examine the applicant’s heart, blood pressure, circulatory system, lungs and respiratory system, eyesight, hearing, and such other items as may be prescribed by the board. After consultation with a physician and the United States coast guard, the board shall establish minimum health standards to ensure that pilots licensed by the state are able to perform their duties. Within ninety days of the date of each annual physical examination, and after review of the physician’s report, the board shall make a determination of whether the pilot or candidate is fully able to carry out the duties of a pilot under this chapter. The board may in its discretion check with the appropriate authority for any convictions of offenses involving drugs or the personal consumption of alcohol in the prior twelve months.
(7) The board shall prescribe, pursuant to chapter 34.05 RCW, a number of familiarization trips, between a minimum number of twenty-five and a maximum of one hundred, which pilot applicants must make in the pilotage district for which they desire to be licensed. Familiarization trips any particular applicant must make are to be based upon the applicant’s vessel handling experience.

(8) The board may require vessel simulator training for a pilot applicant and shall require vessel simulator training for a pilot subject to RCW 88.16.105. The board shall also require vessel simulator training in the first year of active duty for a new pilot and at least once every five years for all active pilots.

(9) The board shall prescribe, pursuant to chapter 34.05 RCW, such reporting requirements and review procedures as may be necessary to assure the accuracy and validity of license and service claims, and records of familiarization trips of pilot candidates. Willful misrepresentation of such required information by a pilot candidate shall result in disqualification of the candidate.

(10) The board shall adopt rules to establish time periods and procedures for additional training trips and retesting as necessary for pilots who at the time of their licensing are unable to become active pilots.

NEW SECTION. Sec. 609. The following bills, as enacted in the form passed by the legislature, are necessary to implement portions of this act: House Bill Nos. 1053, 1147, 1304, 1466, 1588, 2201, 2245, and 2259 and Senate Bill Nos. 5060, 5283, 5360, 5605, 5615, 5955, 6030, and 6068.

MOTION

Senator Haugen moved that the following Committee on Transportation amendment not be adopted:

Strike everything after the enacting clause and insert the following:

"Sec. 1. RCW 46.16.160 and 1996 c 184 s 2 are each amended to read as follows:

(1) The owner of a vehicle which under reciprocal relations with another jurisdiction would be required to obtain a license registration in this state or an unlicensed vehicle which would be required to obtain a license registration for operation on public highways of this state may, as an alternative to such license registration, secure and operate such vehicle under authority of a trip permit issued by this state in lieu of a Washington certificate of license registration, and licensed gross weight if applicable. The licensed gross weight may not exceed eighty thousand pounds for a combination of vehicles or forty thousand pounds for a single unit vehicle with three or more axles. Trip permits may also be issued for movement of mobile homes pursuant to RCW 46.44.170. For the purpose of this section, a vehicle is considered unlicensed if the licensed gross weight currently in effect for the vehicle or combination of vehicles is not adequate for the load being carried. Vehicles registered under RCW 46.16.135 shall not be operated under authority of trip permits in lieu of further registration within the same registration year.

(2) Each trip permit shall authorize the operation of a single vehicle at the maximum legal weight limit for such vehicle for a period of three consecutive days commencing with the day of first use. No more than three such permits may be used for any one vehicle in any period of thirty consecutive days, except that in the case of a recreational vehicle as defined in RCW 43.22.335, no more than two trip permits may be used for any one vehicle in a one-year period. Every permit shall identify, as the department may require, the vehicle for which it is issued and shall be completed in its entirety and signed by the operator before operation of the vehicle on the public highways of this state. Correction of data on the permit such as dates, license number, or vehicle identification number invalidates the permit. The trip permit shall be displayed on the vehicle to which it is issued as prescribed by the department.

(3) Vehicles operating under authority of trip permits are subject to all laws, rules, and regulations affecting the operation of like vehicles in this state.

(4) Prorate operators operating commercial vehicles on trip permits in Washington shall retain the customer copy of such permit for four years.

(5) Trip permits may be obtained from field offices of the department of transportation, Washington state patrol, department of licensing, or other agents appointed by the department. For each permit issued, there shall be collected a filing fee as provided by RCW 46.01.140, an administrative fee of eight dollars, and an excise tax of one dollar. If the filing fee amount of one dollar prescribed by RCW 46.01.140 is increased or decreased after January 1, 1981, the administrative fee shall be adjusted to compensate for such change to insure that the total amount collected for the filing fee, administrative fee, and excise tax remain at ten dollars. These fees and taxes are in lieu of all other vehicle license fees and taxes. No exchange, credits, or refunds may be given for trip permits after they have been purchased."
(6) The department may appoint county auditors or businesses as agents for the purpose of selling trip permits to the public. County auditors or businesses so appointed may retain the filing fee collected for each trip permit to defray expenses incurred in handling and selling the permits.

(7) A violation of or a failure to comply with any provision of this section is a gross misdemeanor.

(8) The department of licensing may adopt rules as it deems necessary to administer this section.

(9) A surcharge of five dollars is imposed on the issuance of a trip permit to a motor carrier. The surcharge must be deposited in the motor vehicle fund for the purpose of supporting vehicle weigh stations, weigh-in-motion programs, and the commercial vehicle information systems and networks program. All other administrative fees and excise taxes collected under the provisions of this chapter shall be forwarded by the department with proper identifying detailed report to the state treasurer who shall deposit the administrative fees to the credit of the motor vehicle fund and the excise taxes to the credit of the general fund. Filing fees will be forwarded and reported to the state treasurer by the department as prescribed in RCW 46.01.140.

Sec. 2. RCW 82.38.100 and 1998 c 176 s 62 are each amended to read as follows:

(1) Any special fuel user operating a motor vehicle into this state for commercial purposes may make application for a trip permit that shall be good for a period of three consecutive days beginning and ending on the dates specified on the face of the permit issued, and only for the vehicle for which it is issued.

(2) Every permit shall identify, as the department may require, the vehicle for which it is issued and shall be completed in its entirety, signed, and dated by the operator before operation of the vehicle on the public highways of this state. Correction of data on the permit such as dates, vehicle license number, or vehicle identification number invalidates the permit. A violation of, or a failure to comply with, this subsection is a gross misdemeanor.

(3) For each permit issued, there shall be collected a filing fee of one dollar, an administrative fee of ten dollars, and an excise tax of nine dollars. Such fees and tax shall be in lieu of the special fuel tax otherwise assessable against the permit holder for importing and using special fuel in a motor vehicle on the public highways of this state, and no report of mileage shall be required with respect to such vehicle. Trip permits will not be issued if the applicant has outstanding fuel taxes, penalties, or interest owing to the state or has had a special fuel license revoked for cause and the cause has not been removed.

(4) Blank permits may be obtained from field offices of the department of transportation, Washington state patrol, department of licensing, or other agents appointed by the department. The department may appoint county auditors or businesses as agents for the purpose of selling trip permits to the public. County auditors or businesses so appointed may retain the filing fee collected for each trip permit to defray expenses incurred in handling and selling the permits.

(5) A surcharge of five dollars is imposed on the issuance of a trip permit to a motor carrier. The surcharge must be deposited in the motor vehicle fund for the purpose of supporting vehicle weigh stations, weigh-in-motion programs, and the commercial vehicle information systems and networks program. All other fees and excise taxes collected by the department for trip permits shall be credited and deposited in the same manner as the special fuel tax collected under this chapter and shall not be subject to exchange, refund, or credit."

The President declared the question before the Senate to be the motion by Senator Haugen to not adopt the Committee on Transportation striking amendment to House Bill No. 2201.

The motion by Senator Haugen carried and the committee striking amendment was not adopted.

MESSAGE FROM THE HOUSE

MR. PRESIDENT:

The House refuses to concur in the Senate amendment(s) to Engrossed House Bill No. 1773 and asks the Senate to recede therefrom, and the same are herewith transmitted.

DEAN R. FOSTER, Co-Chief Clerk
TIMOTHY A. MARTIN, Co-Chief Clerk

MOTION

On motion of Senator Heavey, the Senate receded from the Senate amendment(s) to Engrossed House Bill No. 1773.

MOTIONS

On motion of Senator Heavey, the rules were suspended and Engrossed House Bill No. 1773 was returned to second reading and read the second time.

Senator Heavey moved that the following striking amendment by Senators Heavey, Brown and McCaslin be adopted:

Strike everything after the enacting clause and insert the following:

"Sec. 1. RCW 26.09.240 and 1996 c 177 s 1 are each amended to read as follows:

(1) A person other than a parent, if the person is related to a child through consanguinity, marriage, or adoption, may petition the court for visitation with ((a)) the child at any time or may intervene in a pending dissolution, legal separation, or modification of parenting plan proceeding. ((A)) The person ((other than a parent)) may not petition for visitation under this section unless the child's parent or parents have commenced an action under this chapter.

(2) ((A)) The petition for visitation ((with a child by a person other than a parent)) must be filed in the county in which the child resides.

(3) ((A)) The petition for visitation or a motion to intervene pursuant to this section shall be dismissed unless the petitioner or intervenor can demonstrate by clear and convincing evidence that a significant relationship exists with the child with whom visitation is sought. If the petition or motion is dismissed for failure to establish the existence of a significant relationship, the petitioner or intervenor shall be ordered to pay reasonable attorney's fees and costs to the parent, parents, other custodian, or representative of the child who responds to this petition or motion.

(4)) The court may order visitation between the petitioner or intervenor and the child ((between whom a significant relationship exists upon a finding supported by the evidence that the visitation is in the child's best interests).

(5(a)) Visitation with a grandparent shall be presumed to be in the child's best interests when a significant relationship has been shown to exist. This presumption may be rebutted by a preponderance of evidence showing that visitation would endanger the child's physical, mental, or emotional health.

(b) If the court finds that reasonable visitation by a grandparent would be in the child's best interest except for hostilities that exist between the grandparent and one or both of the parent or person with whom the child lives, the court may set the matter for mediation under RCW 26.09.015.

(6) if the petitioner or intervenor has demonstrated by clear, cogent, and convincing evidence that:

(a) A significant relationship exists with the child with whom visitation is sought;

(b) Denial of visitation would result in a substantial likelihood of harm to the child's physical, mental, or emotional well-being; and

(c) Visitation is in the child's best interests."
If the petition or motion is dismissed, the petitioner or intervenor shall be ordered to pay reasonable attorneys' fees and costs to the parent, parents, other custodian, or representative of the child who responds to the petition or motion.

(4) The court may consider the following factors when making a determination of the child’s best interests:
(a) The strength of the relationship between the child and the petitioner or intervenor;
(b) The relationship between each of the child's parents or the person with whom the child is residing and the petitioner or intervenor;
(c) The nature and reason for either parent's objection to granting the petitioner or intervenor visitation;
(d) The effect that granting visitation will have on the relationship between the child and the child's parents or the person with whom the child is residing;
(e) The residential time-sharing arrangements between the parents;
(f) The good faith of the petitioner or intervenor;
(g) Any criminal history or history of physical, emotional, or sexual abuse or neglect by the petitioner or intervenor; and
(h) Any other factor relevant to the child's best interest.

(5) The restrictions of RCW 26.09.191 that apply to parents shall be applied to a petitioner or intervenor who is not a parent, but who is related to the child through consanguinity, marriage, or adoption. The nature and extent of visitation, subject to these restrictions, is in the discretion of the court.

(6) The court may order an investigation and report concerning the proposed visitation or may appoint a guardian ad litem as provided in RCW 26.09.220.

(7) Visitation granted (pursuant to) under this section shall be incorporated into the parenting plan for the child.

(8) The court may modify or terminate an order granting visitation (rights granted pursuant to) under this section in any subsequent modification action upon a showing that the visitation is no longer in the best interest of the child.

Sec. 2. RCW 26.10.160 and 1996 c 303 s 2 are each amended to read as follows:
(1) A parent not granted custody of the child is entitled to reasonable visitation rights except as provided in subsection (2) of this section.

(2)(a) Visitation with the child shall be limited if it is found that the parent seeking visitation has engaged in any of the following conduct: (i) Willful abandonment that continues for an extended period of time or substantial refusal to perform parenting functions; (ii) physical, sexual, or a pattern of emotional abuse of a child; (iii) a history of acts of domestic violence as defined in RCW 26.50.010(1) or an assault or sexual assault which causes grievous bodily harm or the fear of such harm; or (iv) the parent has been convicted as an adult of a sex offense under:
(A) RCW 9A.44.076 if, because of the difference in age between the offender and the victim, no rebuttable presumption exists under (d) of this subsection;
(B) RCW 9A.44.079 if, because of the difference in age between the offender and the victim, no rebuttable presumption exists under (d) of this subsection;
(C) RCW 9A.44.086 if, because of the difference in age between the offender and the victim, no rebuttable presumption exists under (d) of this subsection;
(D) RCW 9A.44.089;
(E) RCW 9A.44.093;
(F) RCW 9A.44.096;
(G) RCW 9A.64.020 (1) or (2) if, because of the difference in age between the offender and the victim, no rebuttable presumption exists under (d) of this subsection;
(H) Chapter 9.68A RCW;
(I) Any predecessor or antecedent statute for the offenses listed in (a)(iv)(A) through (H) of this subsection;
(J) Any statute from any other jurisdiction that describes an offense analogous to the offenses listed in (a)(iv)(A) through (H) of this subsection.

This subsection (2)(a) shall not apply when (c) or (d) of this subsection applies.

(b) The parent's visitation with the child shall be limited if it is found that the parent resides with a person who has engaged in any of the following conduct: (i) Physical, sexual, or a pattern of emotional abuse of a child; (ii) a history of acts of domestic violence as defined in RCW 26.50.010(1) or an assault or sexual assault that causes grievous bodily harm or the fear of such harm; or (iii) the person has been convicted as an adult or as a juvenile has been adjudicated of a sex offense under:
(A) RCW 9A.44.076 if, because of the difference in age between the offender and the victim, no rebuttable presumption exists under (e) of this subsection;
(B) RCW 9A.44.079 if, because of the difference in age between the offender and the victim, no rebuttable presumption exists under (e) of this subsection;
(C) RCW 9A.44.086 if, because of the difference in age between the offender and the victim, no rebuttable presumption exists under (e) of this subsection;

(D) RCW 9A.44.089;

(E) RCW 9A.44.093;

(F) RCW 9A.44.096;

(G) RCW 9A.64.020 (1) or (2) if, because of the difference in age between the offender and the victim, no rebuttable presumption exists under (e) of this subsection;

(H) Chapter 9.68A RCW:

(I) Any predecessor or antecedent statute for the offenses listed in (b)(iii)(A) through (H) of this subsection;

(J) Any statute from any other jurisdiction that describes an offense analogous to the offenses listed in (b)(iii)(A) through (H) of this subsection.

This subsection (2)(b) shall not apply when (c) or (e) of this subsection applies.

(c) If a parent has been found to be a sexual predator under chapter 71.09 RCW or under an analogous statute of any other jurisdiction, the court shall restrain the parent from contact with a child that would otherwise be allowed under this chapter.

If a parent resides with an adult or a juvenile who has been found to be a sexual predator under chapter 71.09 RCW or under an analogous statute of any other jurisdiction, the court shall restrain the parent from contact with the parent's child except contact that occurs outside that person's presence.

(d) There is a rebuttable presumption that a parent who has been convicted as an adult of a sex offense listed in (d)(i) through (ix) of this subsection poses a present danger to a child. Unless the parent rebuts this presumption, the court shall restrain the parent from contact with a child that would otherwise be allowed under this chapter:

(i) RCW 9A.64.020 (1) or (2), provided that the person convicted was at least five years older than the other person;

(ii) RCW 9A.44.073;

(iii) RCW 9A.44.076, provided that the person convicted was at least eight years older than the victim;

(iv) RCW 9A.44.079, provided that the person convicted was at least eight years older than the victim;

(v) RCW 9A.44.083;

(vi) RCW 9A.44.086, provided that the person convicted was at least eight years older than the victim;

(vii) RCW 9A.44.100;

(viii) Any predecessor or antecedent statute for the offenses listed in (d)(i) through (vii) of this subsection;

(ix) Any statute from any other jurisdiction that describes an offense analogous to the offenses listed in (d)(i) through (vii) of this subsection.

(e) There is a rebuttable presumption that a parent who resides with a person who, as an adult, has been convicted, or as a juvenile has been adjudicated, of the sex offenses listed in (e)(i) through (ix) of this subsection places a child at risk of abuse or harm when that parent exercises visitation in the presence of the convicted or adjudicated person. Unless the parent rebuts the presumption, the court shall restrain the parent from contact with the parent's child except for contact that occurs outside of the convicted or adjudicated person's presence:

(i) RCW 9A.64.020 (1) or (2), provided that the person convicted was at least five years older than the other person;

(ii) RCW 9A.44.073;

(iii) RCW 9A.44.076, provided that the person convicted was at least eight years older than the victim;

(iv) RCW 9A.44.079, provided that the person convicted was at least eight years older than the victim;

(v) RCW 9A.44.083;

(vi) RCW 9A.44.086, provided that the person convicted was at least eight years older than the victim;

(vii) RCW 9A.44.100;

(viii) Any predecessor or antecedent statute for the offenses listed in (e)(i) through (vii) of this subsection;

(ix) Any statute from any other jurisdiction that describes an offense analogous to the offenses listed in (e)(i) through (vii) of this subsection.

(f) The presumption established in (d) of this subsection may be rebutted only after a written finding that:

(i) If the child was not the victim of the sex offense committed by the parent requesting visitation, (A) contact between the child and the offending parent is appropriate and poses minimal risk to the child, and (B) the offending parent has successfully engaged in treatment for sex offenders or is engaged in and making progress in such treatment, if any was ordered by a court, and the treatment provider believes such contact is appropriate and poses minimal risk to the child; or

(ii) If the child was the victim of the sex offense committed by the parent requesting visitation, (A) contact between the child and the offending parent is appropriate and poses minimal risk to the child, (B) if the child is in or has been in therapy for victims of sexual abuse, the child's counselor believes such contact between the child and the offending parent is in the child's best interest, and (C) the offending parent has successfully engaged in treatment for sex offenders or is engaged in and making
progress in such treatment, if any was ordered by a court, and the treatment provider believes such contact is appropriate and poses minimal risk to the child.

(g) The presumption established in (e) of this subsection may be rebutted only after a written finding that:

(i) If the child was not the victim of the sex offense committed by the person who is residing with the parent requesting visitation, (A) contact between the child and the parent residing with the convicted or adjudicated person is appropriate and that parent is able to protect the child in the presence of the convicted or adjudicated person, and (B) the convicted or adjudicated person has successfully engaged in treatment for sex offenders or is engaged in and making progress in such treatment, if any was ordered by a court, and the treatment provider believes such contact is appropriate and poses minimal risk to the child; or

(ii) If the child was the victim of the sex offense committed by the person who is residing with the parent requesting visitation, (A) contact between the child and the parent in the presence of the convicted or adjudicated person is appropriate and poses minimal risk to the child, (B) if the child is in or has been in therapy for victims of sexual abuse, the child’s counselor believes such contact between the child and the parent residing with the convicted or adjudicated person in the presence of the convicted or adjudicated person is in the child’s best interest, and (C) the convicted or adjudicated person has successfully engaged in treatment for sex offenders or is engaged in and making progress in such treatment, if any was ordered by a court, and the treatment provider believes contact between the parent and child in the presence of the convicted or adjudicated person is appropriate and poses minimal risk to the child.

(h) If the court finds that the parent has met the burden of rebutting the presumption under (f) of this subsection, the court may allow a parent who has been convicted as an adult of a sex offense listed in (d)(i) through (ix) of this subsection to have visitation with the child supervised by a neutral and independent adult and pursuant to an adequate plan for supervision of such visitation. The court shall not approve of a supervisor for contact between the child and the parent unless the court finds, based on the evidence, that the supervisor is willing and capable of protecting the child from harm. The court shall revoke court approval of the supervisor upon finding, based on the evidence, that the supervisor has failed to protect the child or is no longer willing or capable of protecting the child.

(i) If the court finds that the parent has met the burden of rebutting the presumption under (g) of this subsection, the court may allow a parent residing with a person who has been adjudicated as a juvenile of a sex offense listed in (e)(i) through (ix) of this subsection to have visitation with the child in the presence of the convicted person supervised by a neutral and independent adult and pursuant to an adequate plan for supervision of such visitation. The court shall not approve of a supervisor for contact between the child and the parent unless the court finds, based on the evidence, that the supervisor is willing and capable of protecting the child from harm. The court shall revoke court approval of the supervisor upon finding, based on the evidence, that the supervisor has failed to protect the child or is no longer willing or capable of protecting the child.

(j) If the court finds that the parent has met the burden of rebutting the presumption under (g) of this subsection, the court may allow a parent residing with a person, as an adult, who has been convicted of a sex offense listed in (e)(i) through (ix) of this subsection to have visitation with the child in the presence of the convicted person supervised by a neutral and independent adult and pursuant to an adequate plan for supervision of such visitation. The court shall not approve of a supervisor for contact between the child and the parent unless the court finds, based on the evidence, that the supervisor is willing and capable of protecting the child from harm. The court shall revoke court approval of the supervisor upon finding, based on the evidence, that the supervisor has failed to protect the child or is no longer willing or capable of protecting the child.

(k) A court shall not order unsupervised contact between the offending parent and a child of the offending parent who was sexually abused by that parent. A court may order unsupervised contact between the offending parent and a child who was not sexually abused by the parent after the presumption under (d) of this subsection has been rebutted and supervised visitation has occurred for at least two years with no further arrests or convictions of sex offenses involving children under chapter 9A.44 RCW, RCW 9A.64.020, or chapter 9.68A RCW and (i) the sex offense of the offending parent was not committed against a child of the offending parent, and (ii) the court finds that unsupervised contact between the child and the offending parent is appropriate and poses minimal risk to the child, after consideration of the testimony of a state-certified therapist, mental health counselor, or social worker with expertise in treating child sexual abuse victims who has supervised at least one period of visitation between the parent and the child, and after consideration of evidence of the offending parent’s compliance with community supervision requirements, if any. If the offending parent was not ordered by a court to participate in treatment for sex offenders, then the parent shall obtain a psychosexual evaluation conducted by a state-certified sex offender treatment provider indicating that the offender has the lowest likelihood of risk to reoffend before the court grants unsupervised contact between the parent and a child.

(l) A court may order unsupervised contact between the parent and a child which may occur in the presence of a juvenile adjudicated of a sex offense listed in (e)(i) through (ix) of this subsection who resides with the parent after the presumption under (e) of this subsection has been rebutted and supervised visitation has occurred for at least two years during which time the adjudicated juvenile has had no further arrests, adjudications, or convictions of sex offenses involving children under chapter 9A.44 RCW, RCW 9A.64.020, or chapter 9.68A RCW, and (i) the court finds that unsupervised contact between the
child and the parent that may occur in the presence of the adjudicated juvenile is appropriate and poses minimal risk to the child, after consideration of the testimony of a state-certified therapist, mental health counselor, or social worker with expertise in treatment of child sexual abuse victims who has supervised at least one period of visitation between the parent and the child in the presence of the adjudicated juvenile, and after consideration of evidence of the adjudicated juvenile's compliance with community supervision or parole requirements, if any. If the adjudicated juvenile was not ordered by a court to participate in treatment for sex offenders, then the adjudicated juvenile shall obtain a psychosexual evaluation conducted by a state-certified sex offender treatment provider indicating that the adjudicated juvenile has the lowest likelihood of risk to reoffend before the court grants unsupervised contact between the parent and a child which may occur in the presence of the adjudicated juvenile who is residing with the parent.

(m)(i) The limitations imposed by the court under (a) or (b) of this subsection shall be reasonably calculated to protect the child from the physical, sexual, or emotional abuse or harm that could result if the child has contact with the parent requesting visitation. If the court expressly finds based on the evidence that limitations on visitation with the child will not adequately protect the child from the harm or abuse that could result if the child has contact with the parent requesting visitation, the court shall restrain the person seeking visitation from all contact with the child.

(ii) The court shall not enter an order under (a) of this subsection allowing a parent to have contact with a child if the parent has been found by clear and convincing evidence in a civil action or by a preponderance of the evidence in a dependency action to have sexually abused the child, except upon recommendation by an evaluator or therapist for the child that the child is ready for contact with the parent and will not be harmed by the contact. The court shall not enter an order allowing a parent to have contact with the child in the offender's presence if the parent resides with a person who has been found by clear and convincing evidence in a civil action or by a preponderance of the evidence in a dependency action to have sexually abused a child, unless the court finds that the parent accepts that the person engaged in the harmful conduct and the parent is willing to and capable of protecting the child from harm from the person.

(iii) If the court limits visitation under (a) or (b) of this subsection to require supervised contact between the child and the parent, the court shall not approve of a supervisor for contact between a child and a parent who has engaged in physical, sexual, or a pattern of emotional abuse of the child unless the court finds based upon the evidence that the supervisor accepts that the harmful conduct occurred and is willing to and capable of protecting the child from harm. The court shall revoke court approval of the supervisor upon finding, based on the evidence, that the supervisor has failed to protect the child or is no longer willing to or capable of protecting the child.

(n) If the court expressly finds based on the evidence that contact between the parent and the child will not cause physical, sexual, or emotional abuse or harm to the child and that the probability that the parent's or other person's harmful or abusive conduct will recur is so remote that it would not be in the child's best interests to apply the limitations of (a), (b), and (m)(i) and (iii) of this subsection, or if the court expressly finds that the parent's conduct did not have an impact on the child, then the court need not apply the limitations of (a), (b), and (m)(i) and (iii) of this subsection. The weight given to the existence of a protection order issued under chapter 26.50 RCW as to domestic violence is within the discretion of the court. This subsection shall not apply when (c), (d), (e), (f), (g), (h), (i), (j), (k), (l), and (m)(ii) of this subsection apply.

311.5A.230 Factors the court may consider. (a) Any person who is related to a child through consanguinity, marriage, or adoption may petition the court for visitation (rights) with the child at any time including, but not limited to, custody proceedings. The court may order visitation (rights for any person when visitation may serve the best interest of the child) between the petitioner and the child whether or not there has been any change of circumstances if the petitioner has demonstrated by clear, cogent, and convincing evidence that:

(i) A significant relationship exists with the child with whom visitation is sought;

(ii) Denial of visitation would result in a substantial likelihood of harm to the child's physical, mental, or emotional well-being; and

(iii) Visitation is in the child's best interests.

If the petition is dismissed, the petitioner shall be ordered to pay reasonable attorneys' fees and costs to the parent, parents, other custodian, or representative of the child who responds to the petition.

(b) The court may consider the following factors when making a determination of the child's best interests:

(i) The strength of the relationship between the child and the petitioner;

(ii) The relationship between each of the child's parents or the person with whom the child is residing and the petitioner;

(iii) The nature and reason for either parent's objection to granting the petitioner visitation;

(iv) The effect that granting visitation will have on the relationship between the child and the child's parents or the person with whom the child is residing;

(v) The residential time-sharing arrangements between the parents;

(vi) The good faith of the petitioner;

(vii) Any criminal history or history of physical, emotional, or sexual abuse or neglect by the petitioner; and
Any other factor relevant to the child's best interest.

c) The restrictions of RCW 26.09.191 that apply to parents shall be applied to a petitioner or intervenor who is not a parent, but who is related to the child through consanguinity, marriage, or adoption. The nature and extent of visitation, subject to these restrictions, is in the discretion of the court.

(4) Visitation granted under this section shall be incorporated into the parenting plan for the child.

(5) The court may modify or terminate an order granting (or denying) visitation rights whenever modification or termination would serve the best interests of the child. Modification of a parent's visitation rights shall be subject to the requirements of subsection (2) of this section.

(6) For the purposes of this section, a parent's child means that parent's natural child, adopted child, or stepchild.

(6) The department shall adopt a new formula for distributing funds under the low-income disproportionate share hospital (LI-DSH) program. Under this new formula, (a) the state's Level 1 trauma center shall continue to receive the same amount of LI-DSH payments as in fiscal year 1999; and (b) (in addition to other factors, the amount of a hospital's LI-DSH payment shall be inversely related to its net operating income as a percentage of total expenditures, such that more profitable hospitals receive a relatively smaller payment under the program)) a net profitability factor shall be included with other factors to determine LI-DSH payments. The net profitability factor shall inversely relate hospital percent net operating income to payment under the program:

(7) The department shall report to the fiscal committees of the legislature by September 15, 1999, and again by December 15, 1999, on (a) actions it has taken and proposes to take to increase the share of medicare part B premium payments upon which it is collecting medicaid matching funds; (b) the percentage of such premium payments for each month of service subsequent to June 1998 which have been paid with unmatched, state-only funds; and (c) why matching funds could not be collected on those payments.

(8) The department shall report to the fiscal committees of the legislature by December 1, 1999, and again by October 1, 2000, on the amount which has been recovered from third-party payers as a result of its efforts to improve coordination of benefits on behalf of "basic health plan-plus" enrollees.

(9) The department shall report to the health care and fiscal committees of the legislature by December 1, 1999, on options for controlling the growth in medicaid prescription drug expenditures through strategies such as but not limited to volume purchasing, selective contracting, supplemental drug discounts, and improved care coordination for high utilizers.

(10) $3,992,000 of the health services account appropriation and $7,651,000 of the general fund--federal appropriation are provided solely for health insurance coverage for children with family incomes between 200 percent and 250 percent of the federal poverty level, as provided in Substitute Senate Bill No. 5416 (children's health insurance program). If the bill is not enacted by June 30, 1999, these amounts shall lapse.

(11) $191,000 of the general fund--state appropriation for fiscal year 2000 and $391,000 of the general fund--state appropriation for fiscal year 2001 are provided solely for implementation of Substitute Senate Bill No. 5587 (patient bill of rights). If the bill is not enacted by June 30, 1999, these amounts shall lapse.

(12) Upon approval from the federal health care financing administration, the department shall implement the section 1115 family planning waiver to provide family planning services to persons with family incomes at or below two hundred percent of the federal poverty level.

(13) Except in the case of rural hospitals and Harborview medical center, weighted average payments (rates) under the ratio-of-cost-to-charges hospital payment system shall increase by no more than (4.7\%) of the DRI HCFA hospital reimbursement market basket index.

(14) From the funds appropriated in this section, the department shall provide chiropractic services for persons qualifying for medical assistance services under chapter 74.09 RCW.

(15) In accordance with Substitute Senate Bill No. 5968, $25,978,000 of the health services account appropriation for fiscal year 2000, $26,069,000 of the health services account appropriation for fiscal year 2001, and $56,002,000 of the general fund--federal appropriation, or so much thereof as may be expended without exceeding the medicare upper payment limit, are provided solely for supplemental payments to nursing homes operated by rural public hospital districts. Such payments shall be distributed among the participating rural public hospital districts proportional to the number of days of medicaid-funded nursing home care provided by each district during the preceding calendar year, relative to the total number of such days of care provided by all participating rural public hospital districts. Prior to making any supplemental payments, the department shall first obtain federal approval for such payments under the medicaid state plan. The payments shall further be conditioned upon (a) a contractual commitment by the association of public hospital districts and participating rural public hospital districts to make an intergovernmental transfer to the state treasurer, for deposit into the health services account, equal to at least 82 percent of the supplemental payment amount; and (b) a contractual commitment by the participating districts to not allow expenditures covered by the supplemental payments to be used for medicaid nursing home rate-setting."

PERSONAL PRIVILEGE

Senator Snyder: "Thank you, Mr. President, a point of personal privilege. I just want to say 'thank you' and extend my deep-felt thanks to you for all the kindness and the decorum and the way that you have conducted yourself on the rostrum this year--and to all the crew on the rostrum and crew in the back room. I know how hard they work and how simple it looks to always have the material out here for us, but it is really a big effort. I also want to thank all my colleagues in the Senate. I think we got through without too many knock-down/drag-out fights--maybe we didn't have any at all. It certainly has been a pleasure to serve with all of you. I certainly want to include all the staff in saying ‘thanks’ to them.

"It is quite a place; it is a great effort. It is very tiring. I think that a couple of weeks off is going to help a lot and I really think, with a lot of cooperation, the accomplishments were quite high this session and we look forward to coming back in a couple of weeks and to being here for a short period of time and finishing the business. I looked up--the last time there was a tie in 1979, they went continuously, even though they had some rolling recesses at the end, but they adjourned SINE DIE on June 1, so I think we are way ahead of where they were back in those days. Again, Mr. President, thank you very, very kindly."

REPLY BY THE PRESIDENT

President Owen: "Thank you, Senator Snyder. Your remarks are very much appreciated, but the President would like to note that we have an outstanding staff who have done a yeoman's job and yeowoman's job here this year, both in the work room and up front here. I think that the Senate and the Legislature as a whole are blessed with some of the finest working people in the world--that do just an outstanding excellent job for us here. I, too, would like to thank them for the job that they do."

MOTION

On motion of Senator Betti Sheldon, the Senate Journal for the one hundred-fifth day of the 1999 Regular Session of the Fifty-sixth Legislature was approved.

- SUBSTITUTE SENATE BILL NO. 5179,
- ENGROSSED SUBSTITUTE SENATE BILL NO. 5180,
- ENGROSSED SECOND SUBSTITUTE SENATE BILL NO. 5594.

MESSAGE FROM THE GOVERNOR
PARTIAL VETO MESSAGE ON SUBSTITUTE SENATE BILL NO. 5179

May 10, 1999

To the Honorable President and Members,
The Senate of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to section 903, Substitute Senate Bill No. 5179 entitled:

"AN ACT Relating to the authority of the parks and recreation commission;"

I am returning herewith without my approval as to section 903, Substitute Senate Bill 5179. Section 903 amends RCW 43.51.140 and chapter 156, section 2, Laws of 1982. This provision of law was recently amended by my signing of House Bill No. 1331. The language in section 903 does not correspond to the change made in House Bill No. 1331. To avoid conflicting statutory provisions, I am vetoing section 903.

For this reason, I have vetoed section 903 of Substitute Senate Bill No. 5179.

With the exception of section 903, Substitute Senate Bill No. 5179 is approved.

Respectfully submitted,

GARY LOCKE, Governor

MESSAGE FROM THE GOVERNOR
PARTIAL VETO MESSAGE ON ENGROSSED SUBSTITUTE SENATE BILL NO. 5180

May 14, 1999

To the Honorable President and Members,
The Senate of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to sections 124(3); 205(3)(b); 210(14); 502(10); and 722, Engrossed Substitute Senate Bill No. 5180 entitled:

"AN ACT Relating to fiscal matters;"

Engrossed Substitute Senate Bill No. 5180 is the state operating budget for the upcoming biennium. I disagree with some sections and have vetoed them for the following reasons:

This provision would require the state Attorney General to conduct a review of the policies, practices, and guidelines employed by the Department of Ecology in researching, analyzing, and issuing a certification under the
authority of the federal Water Pollution Control Act for the proposed regional landfill in Pierce County. The findings of this review would be reported to the Legislature by December 1, 1999.

The Attorney General has asked for a veto of this subsection, citing the agency’s statutory role as one of legal advice and representation, not performance audits or policy reviews. I agree that this provision is inconsistent with the principal role and mission of the Attorney General’s Office.

Section 205 (3)(b), pages 43-44, Civil Commitment Legal Costs (Department of Social and Health Services—Mental Health Program, Civil Commitment Center)

This subsection would require that the Department of Social and Health Services (DSHS) implement strategies for limiting the average cost of civil commitment trials and annual court reviews. If the cost containment strategies were not effective, the DSHS would be directed to pay only 85 percent of allowable billed charges for all legal services except those provided by the Attorney General. There are several problems with this proviso. First, this limitation would not provide adequately for defense of sexually violent predators, increasing the chance of adverse court findings. Second, since the proviso would not apply to the Attorney General, it is expected that workload would be transferred from the county prosecutors to the Attorney General at a rate that would exceed what could be absorbed. Third, the proviso would place a responsibility for controlling costs on DSHS, while placing the sanction with the county prosecutors and defenders.

Section 210 (14), page 54, Chiropractic Services (Department of Social and Health Services—Medical Assistance Program)

This subsection would require that the Medical Assistance program provide, within existing funds, chiropractic services for all people qualifying for medical assistance services under chapter 74.09 RCW. No additional appropriation authority was included for these services. Without additional funds, the Medical Assistance program would have a $3.8 million General Fund-State shortfall to implement this proviso. I cannot support agency requirements of this magnitude that are clearly unfunded.

Section 502 (10), page 100, Increase in full-time equivalent student in basic education appropriation (Superintendent of Public Instruction—General Apportionment, Basic Education)

This subsection contains an error in the information on the percentage increase per full-time equivalent student used in the state basic education appropriation contained in this act. The correct percentage increase from the 1998-99 school year to the 1999-00 school year is 4.0 percent, not 7.0 percent as stated in the bill. This subsection is not essential for the correct apportionment of levy equalization funding to school districts, and is eliminated at the request of the Senate Ways and Means Committee chair to avoid confusion regarding the intent of the Legislature with regard to levy base calculations and equalization funding. I urge the Legislature to correct this technical error at its earliest opportunity.

Section 722, pages 155-156, Pension Advisory Committee (Department of Retirement Systems)

This section would create a Pension Advisory Committee in the Department of Retirement Systems (DRS) comprised of active and retiree members of the retirement system, representatives from local government, and the directors of DRS and the Office of Financial Management. The committee would be charged with making recommendations to the legislature’s Joint Committee on Pension Policy (JCPP) on major pension priorities and goals for the next five to ten years, proposals to promote equity between state pension systems, and a prioritized list of proposed pension system changes. While I agree with the need to focus on these issues, this effort would duplicate the very similar work performed by the JCPP, and adequate funding was not provided to respond to the magnitude of the task.

Other Comments

Section 206(1)(b) provides $16 million in new funds to enhance developmental disabilities services. This section references the stakeholder work group that was created in statute to develop recommendations on future directions and strategies for service delivery improvement. I am directing the Department of Social and Health Services to implement this subsection giving significant consideration to the priorities that were established by the stakeholder work group in meetings over the past year. After the Department has developed its plan for the use of these new funds, it should present the plan to the stakeholder work group and consider any new advice the group might provide before making fund allocations from this subsection.

Section 222(2)(a) authorizes the Department of Corrections to expend up to $3.0 million to support county drug courts. I have concerns with this language because no additional funding was provided. I also recognize the value of, and support the concept of drug courts. Therefore, I am directing the Department of Corrections and the Department of Social and Health Services to work together to develop a plan to provide temporary funding in fiscal
year 2000 for existing drug courts whose federal funds are lapsing. This plan will give the county drug courts one year to develop other funding sources to continue these valuable programs.

With the exception of sections 124(3); 205(3)(b); 210(14); 502(10); and 722, Engrossed Substitute Senate Bill No. 5180 is approved.

Respectfully submitted,

GARY LOCKE, Governor

MESSAGE FROM THE GOVERNOR
PARTIAL VETO MESSAGE ON ENGROSSED SECOND SUBSTITUTE SENATE BILL NO. 5594

May 3, 1999

To the Honorable President and Members,
The Senate of the State of Washington
Ladies and Gentlemen:

I am returning herewith, without my approval as to sections 106, 201 and 401, Engrossed Second Substitute Senate Bill No. 5594 entitled:

“AN ACT Relating to enhancing economic vitality;”

Engrossed Second Substitute Senate Bill No. 5594 is an omnibus rural economic development bill. Among other things it will provide the Community Economic Revitalization Board (CERB) with greater ability to fund new types of infrastructure projects; it will create the Rural Washington Loan Fund for making direct loans to business in eligible areas with federal money; and it will create a one-stop clearinghouse in the Department of Community, Trade and Economic Development (CTED) for farmworker housing.

Section 106 of the bill would require the joint legislative audit and review committee to conduct performance reviews of the program administered by CERB. JLARC is an entity controlled by the legislature, so it is unnecessary and unwise to dictate the work schedule of JLARC in statute. The legislature can authorize funding for such performance reviews any time it believes they are warranted.

Section 201 of the bill is identical to section 2 of Engrossed Senate Bill No. 5843 which I signed on April 28, 1999, and is unnecessary.

Section 401 of the bill would establish an ad hoc economic development group to analyze projects, make recommendations, and to promote economic development and business diversification. The membership of the group is unclear, and I have concerns about violation of the separation of powers doctrine. The group would be organized by the legislature, but have control over executive agencies. A process already exists in CTED for using a similar ad hoc groups. Additionally, I will be organizing an economic development sub-cabinet, chaired by my Chief of Staff, to provide greater input on projects of statewide significance.

For these reasons, I have vetoed sections 106, 201 and 401 of Engrossed Second Substitute Senate Bill No. 5594.

With the exception of sections 106, 201 and 401, Engrossed Second Substitute Senate Bill No. 5594 is approved.

Respectfully submitted,

GARY LOCKE, Governor

MOTION

On motion of Senator Betti Sheldon, the partial veto messages on Substitute Senate Bill No. 5179, Engrossed Substitute Senate Bill No. 5180 and Engrossed Second Substitute Senate Bill No. 5594 were held at the desk.

BE IT FURTHER RESOLVED, That the Secretary of the Senate transmit a copy of this resolution to the World Trade Organization.
The legislature finds that a coordinated framework for responding to the salmon crisis is needed immediately. To that end, the salmon recovery office should be created within the governor's office to provide overall coordination of the state's response; an independent science (team) panel is needed to provide scientific review and oversight; a coordinated state funding process should be established through a salmon recovery funding board; the appropriate local or tribal government should provide local leadership in identifying and sequencing habitat (restoration) projects to be funded by state agencies; habitat (restoration) projects should be implemented without delay; and a strong locally based effort to restore salmon habitat should be established by providing a framework to allow citizen volunteers to work effectively.

**NEW SECTION. Sec. 5.** A new section is added to chapter 75.46 RCW to read as follows:

(1) The board shall develop procedures and criteria for allocation of funds for salmon habitat projects and salmon recovery activities on a state-wide basis to address the highest priorities for salmon habitat protection and restoration. To the extent practicable the board shall adopt an annual allocation of funding. The allocation should address both protection and restoration of habitat, and should recognize the varying needs in each area of the state on an equitable basis. The board has the discretion to partially fund, or to fund in phases, salmon habitat projects. The board may annually establish a maximum amount of funding available for any individual project, subject to available funding. No projects required solely as a mitigation or a condition of permitting are eligible for funding.

(2)(a) In evaluating, ranking, and awarding funds for projects and activities the board shall give preference to projects that:

(i) Are based upon the limiting factors analysis identified under RCW 75.46.070;

(ii) Provide a greater benefit to salmon recovery based upon the fish and wildlife salmonid stock inventory (SASSI), the salmon and steelhead habitat inventory and assessment project (SSHIAP), and any comparable science-based assessment when available;

(iii) Will benefit listed species and other fish species; and

(iv) Will preserve high quality salmonid habitat.

(b) In evaluating, ranking, and awarding funds for projects and activities the board shall also give consideration to projects that:

(i) Are the most cost-effective;

(iii) Will be implemented by a sponsor with a successful record of project implementation.

(3) The board may reject, but not add, projects from a habitat project list submitted by a lead entity for funding.

(4) For fiscal year 2000, the board may authorize the interagency review team to evaluate, rank, and make funding decisions for categories of projects or activities or from funding sources provided for categories of projects or activities. In delegating such authority the board shall consider the review team's staff resources, procedures, and technical capacity to meet the purposes and objectives of this chapter. The board shall maintain general oversight of the team's exercise of such authority.

(5) The board shall seek the guidance of the technical review team to ensure that scientific principles and information are incorporated into the allocation standards and into proposed projects and activities. If the technical review team determines that a habitat project list complies with the critical pathways methodology under RCW 75.46.070, it shall provide substantial weight to the list's project priorities when making determinations among applications for funding of projects within the area covered by the list.

(6) The board shall establish criteria for determining when block grants may be made to a lead entity or other recognized regional recovery entity consistent with one or more habitat project lists developed for that region. Where a lead entity has been established pursuant to RCW 75.46.060, the board may provide grants to the lead entity to assist in carrying out lead entity functions under this chapter, subject to available funding.

(7) The board may waive or modify portions of the allocation procedures and standards adopted under this section in the award of grants or loans to conform to legislative appropriations directing an alternative award procedure or when the funds to be awarded are from federal or other sources requiring other allocation procedures or standards as a condition of the board's receipt of the funds. The board shall develop an integrated process to manage the allocation of funding from federal and state sources to minimize delays in the award of funding while recognizing the differences in state and legislative appropriation timing.

**NEW SECTION. Sec. 6.** A new section is added to chapter 75.46 RCW to read as follows:
(1) Habitat project lists shall be submitted to the salmon recovery funding board for funding by January 1st and July 1st of each year beginning in 2000. The board shall provide the legislature with a list of the proposed projects and a list of the projects funded by October 1st of each year beginning in 2000 for informational purposes.

(2) The interagency committee for outdoor recreation shall track all funds allocated for salmon habitat projects and salmon recovery activities on behalf of the board, including both funds allocated by the board and funds allocated by other state or federal agencies for salmon recovery or water quality improvement.

(3) Beginning in December 2000, the board shall provide a biennial report to the governor and the legislature on salmon recovery expenditures. This report shall be coordinated with the state of the salmon report required under RCW 75.46.030.

NEW SECTION. Sec. 7. A new section is added to chapter 75.46 RCW to read as follows:

(1) The salmon recovery technical review team is created. The technical review team is composed of no less than five members selected by the director of fish and wildlife. The director shall ensure that lead scientists representing state, tribal, federal, and local government interests are represented on the technical review team, and may include members representing the private sector. Members of the technical review team shall have an educational and professional scientific background in salmonids, salmonid habitat, or related fields. The members of the technical review team shall not serve any fixed term. The numbers of members of the technical review team may be increased or decreased depending on the need for scientific expertise, but the technical review team must always consist of at least five members. Administrative support for the technical review team is provided by the department of fish and wildlife. Assignments and direction to the technical review team shall be made by the chair of the technical review team. The chair of the technical review team shall be designated by the members of the team.

(2) The technical review team is responsible for assisting the board by screening projects on the habitat project list submitted by a lead entity under RCW 75.46.060. This screening process includes assisting the board in assessing the technical capacity at the local and regional level to plan and implement successful salmon habitat projects, and determining whether the critical pathways methodology under RCW 75.46.070 has been complied with in the development and ranking of projects on the habitat project list. The technical review team shall review and rank the projects submitted from across the state for funding, organize pertinent information, and provide the board with its findings. The technical review team shall make an active effort to communicate the criteria for reviewing and ranking projects with the lead entities. The technical review team shall make information available to lead entities regarding deficiencies in projects that result in their low ranking in the review process. The technical review team may not remove a project from a habitat project list.

(3) The technical review team is also responsible for working in conjunction with the independent science panel to develop standardized monitoring indicators and data quality guidelines for habitat projects and salmon recovery activities across the state, and for recommending criteria for the systematic and periodic evaluation of monitoring data to help ensure the effectiveness of the state's salmon recovery efforts.

Sec. 8. RCW 75.46.040 and 1998 c 246 s 5 are each amended to read as follows:

(1) The salmon recovery office is created within the office of the governor to coordinate state strategy to allow for salmon recovery to healthy sustainable population levels with productive commercial and recreational fisheries. The primary purpose of the office is to coordinate and assist in the development of salmon recovery plans for evolutionarily significant units, and submit those plans to the appropriate tribal governments and federal agencies (in response to the federal endangered species act) as an integral part of a state-wide strategy developed consistent with the guiding principles and procedures under section 9 of this act.

The governor's salmon recovery office may also:

(a) Act as liaison to local governments, the state congressional delegation, the United States congress, federally recognized tribes, and the federal executive branch agencies for issues related to the state's endangered species act salmon recovery plans; and

(b) Provide the biennial state of the salmon report to the legislature pursuant to RCW 75.46.030.

(2) This section expires June 30, 2006.

NEW SECTION. Sec. 9. A new section is added to chapter 75.46 RCW to read as follows:

(1) By September 1, 1999, the governor, with the assistance of the salmon recovery office, shall submit a state-wide salmon recovery strategy to the appropriate federal agencies administering the federal endangered species act.

(2) The governor and the salmon recovery office shall be guided by the following considerations in developing the strategy:

(a) The strategy should identify state-wide initiatives and responsibilities with regional and local watershed initiatives as the principal mechanism for implementing the strategy;

(b) The strategy should emphasize collaborative, incentive-based approaches;

(c) The strategy should address all factors limiting the recovery of Washington's listed salmon stocks, including habitat and water quality degradation, harvest and hatchery management, inadequate streamflows, and other barriers to fish passage.
Where other limiting factors are beyond the state's jurisdictional authorities to respond to, such as some natural predators and high seas fishing, the strategy shall include the state's requests for federal action to effectively address these factors:

(d) The strategy should identify immediate actions necessary to prevent extinction of a listed salmon stock, establish performance measures to determine if restoration efforts are working, recommend effective monitoring and data management, and recommend to the legislature clear and certain measures to be implemented if performance goals are not met;

(e) The strategy shall rely on the best scientific information available and provide for incorporation of new information as it is obtained;

(f) The strategy should seek a fair allocation of the burdens and costs upon economic and social sectors of the state whose activities may contribute to limiting the recovery of salmon; and

(g) The strategy should seek clear measures and procedures from the appropriate federal agencies for removing Washington's salmon stocks from listing under the federal act.

(3) Beginning on September 1, 2000, the strategy shall be updated through an active public involvement process, including early and meaningful opportunity for public comment. In obtaining public comment, the salmon recovery office shall hold public meetings throughout the state and shall encourage regional and local recovery planning efforts to similarly ensure an active public involvement process.

(4) This section shall apply prospectively only and not retroactively. Nothing in this section shall be construed to invalidate actions taken in recovery planning at the local, regional, or state level prior to the effective date of this section.

Sec. 10. RCW 75.46.050 and 1998 c 246 s 6 are each amended to read as follows:

(The members of the independent science panel shall be compensated as provided in RCW 43.03.250 and reimbursed for travel expenses in accordance with RCW 43.03.050 and 43.03.060.) Based upon available funding, the governor's salmon recovery office may contract for services with members of the independent science panel for compensation under chapter 39.29 RCW.

(4) The independent science panel shall be governed by generally accepted guidelines and practices governing the activities of independent science boards such as the national academy of sciences. The purpose of the independent science panel is to help ensure that sound science is used in salmon recovery efforts. The governor's salmon recovery office shall request review of salmon recovery plans by the science review panel. The science review panel does not have the authority to review individual projects or habitat project lists developed under RCW 75.46.060, 75.46.070, and 75.46.080 or to make policy decisions. The panel shall periodically submit its findings and recommendations under this subsection to the legislature and the governor.

(5) The independent science panel (shall submit its findings to the legislature and the governor), in conjunction with the technical review team, shall recommend standardized monitoring indicators and data quality guidelines for use by entities involved in habitat projects and salmon recovery activities across the state.

On page 4, line 32, after "voting members" strike all material through "board" on line 32 and insert ". Two members shall be appointed by the senate one from each of the two major political caucuses, and two by the house of representatives one from each of the two major political caucuses. One member shall be appointed by the governor. Such appointee shall be a cabinet-level appointment who has been confirmed by the Senate prior to serving on the board."

On page 4, line 37, after "recovery." Strike "The governor shall appoint one of the general public members of the board as the chair." and insert "The legislatively appointed voting members shall select one of themselves as chair."

MESSAGE FROM THE GOVERNOR
VETO MESSAGE ON SUBSTITUTE SENATE BILL NO. 5619

May 17, 1999

To the Honorable President and Members,
The Senate of the State of Washington
Ladies and Gentlemen:

I am returning herewith, without my approval, Substitute Senate Bill No. 5619 entitled:

"AN ACT Relating to forest fire protection assessment;"

Substitute Senate Bill No. 5619 created a new mechanism for owners of multiple parcels of forested land, that would have allowed them to pay the correct fire protection assessment fee, without being required to over pay and apply later for a refund. The cumbersome payment mechanism is a problem that requires attention.

However, the mechanism in this bill is also flawed and could, in time, result in inaccurate assessments and a reduction in revenues for a program that is already deficient in funding. Both the overall revenue situation and the fee collection mechanism need to be considered together as part of a comprehensive package. By vetoing of this bill, it is my intention that this fee collection issue, and broader forest fire protection, prevention, and fee issues, will be dealt with in the next legislative session.

For these reasons I have vetoed Substitute Senate Bill No. 5619 in its entirety.

Respectfully submitted,

GARY LOCKE, Governor

MOTION

On motion of Senator Betti Sheldon, the veto message on Substitute Senate Bill No. 5619 was held on the desk.

MOTION

At 11:11 p.m., on motion of Senator Betti Sheldon, the Senate adjourned until 10:00 a.m., Tuesday, May 18, 1999.

INFORMATION SYSTEMS PROJECTS. Agencies shall comply with the following requirements regarding information systems projects when specifically directed to do so by this act.

(1) Agency planning and decisions concerning information technology shall be made in the context of its information technology portfolio. "Information technology portfolio" means a strategic management approach in which the relationships between agency missions and information technology investments can be seen and understood, such that: Technology efforts are linked to agency objectives and business plans; the impact of new investments on existing infrastructure and business functions are assessed and understood before implementation; and agency activities are consistent with the development of an integrated, nonduplicative state-wide infrastructure.

(2) Agencies shall use their information technology portfolios in making decisions on matters related to the following:
   (a) System refurbishment, acquisitions, and development efforts;
   (b) Setting goals and objectives for using information technology in meeting legislatively-mandated missions and business needs;
   (c) Assessment of overall information processing performance, resources, and capabilities;
   (d) Ensuring appropriate transfer of technological expertise for the operation of any new systems developed using external resources; and
   (e) Progress toward enabling electronic access to public information.

(3) The agency shall produce a feasibility study for information technology projects at the direction of the information services board and in accordance with published department of information services policies and guidelines. At a minimum, such studies shall include a statement of:
   (a) The purpose or impetus for change; (b) the business value to the agency, including an examination and evaluation of benefits, advantages, and cost; (c) a comprehensive risk assessment based on the proposed project's impact on both citizens and state operations, its visibility, and the consequences of doing nothing; (d) the impact on agency and state-wide information infrastructure; and (e) the impact of the proposed enhancements to an agency's information technology capabilities on meeting service delivery demands.

(4) The agency shall produce a comprehensive management plan for each project. The plan or plans shall address all factors critical to successful completion of each project. The plan(s) shall include, but is not limited to, the following elements: A description of the problem or opportunity that the information technology project is intended to address; a statement of project objectives and assumptions; a definition and schedule of phases, tasks, and activities to be accomplished; and the estimated cost of each phase. (5) The agency shall produce quality assurance plans for information technology projects. Consistent with the direction of the information services board and the published policies and guidelines of the department of information services, the quality assurance plan shall address all factors critical to successful completion of the project and successful integration with the agency and state information technology infrastructure. At a minimum, quality assurance plans shall provide time and budget benchmarks against which project progress can be measured, a specification of quality assurance responsibilities, and a statement of reporting requirements. The quality assurance plans shall set out the functionality requirements for each phase of a project.
(6) A copy of each feasibility study, project management plan, and quality assurance plan shall be provided to the department of information services, the office of financial management, and legislative fiscal committees. The plans and studies shall demonstrate a sound business case that justifies the investment of taxpayer funds on any new project, an assessment of the impact of the proposed system on the existing information technology infrastructure, the disciplined use of preventative measures to mitigate risk, and the leveraging of private-sector expertise as needed. Authority to expend any funds for individual information systems projects is conditioned on the approval of the relevant feasibility study, project management plan, and quality assurance plan by the department of information services and the office of financial management.

For federal fiscal years 2000 and 2001, to be eligible, projects shall: (a) Meet the criteria established by the transportation improvement board for selecting regionally significant projects; (b) be included in a metropolitan planning organization's transportation improvement plan; (c) meet the goal of targeting funds for coordinated projects within corridors that are regionally significant; and (d) support the functioning of corridors for their full length rather than in individual spot improvements.

Sec. 606. RCW 43.19.1906 and 1995 c 269 s 1404 are each amended to read as follows:
Insofar as practicable, all purchases and sales shall be based on competitive bids, and a formal sealed bid procedure shall be used as standard procedure for all purchases and contracts for purchases and sales executed by the state purchasing and material control director and under the powers granted by RCW 43.19.190 through 43.19.1939. This requirement also applies to purchases and contracts for purchases and sales executed by agencies, including educational institutions, under delegated authority granted in accordance with provisions of RCW 43.19.190 or under RCW 28B.10.029. However, formal sealed bidding is not necessary for:

(1) Emergency purchases made pursuant to RCW 43.19.200 if the sealed bidding procedure would prevent or hinder the emergency from being met appropriately;

(2) Purchases not exceeding thirty-five thousand dollars, or subsequent limits as calculated by the office of financial management: PROVIDED, That the state director of general administration shall establish procedures to assure that purchases made by or on behalf of the various state agencies shall not be made so as to avoid the thirty-five thousand dollar bid limitation, or subsequent bid limitations as calculated by the office of financial management: PROVIDED FURTHER, That the state purchasing and material control director is authorized to reduce the formal sealed bid limits of thirty-five thousand dollars, or subsequent limits as calculated by the office of financial management, to a lower dollar amount for purchases by individual state agencies if considered necessary to maintain full disclosure of competitive procurement or otherwise to achieve overall state efficiency and economy in purchasing and material control. Quotations from four hundred dollars to thirty-five thousand dollars, or subsequent limits as calculated by the office of financial management, shall be secured from at least three vendors to assure establishment of a competitive price and may be obtained by telephone or written quotations, or both. The agency shall invite at least one quotation each from a certified minority and a certified women-owned vendor who shall otherwise qualify to perform such work. Immediately after the award is made, the bid quotations obtained shall be recorded and open to public inspection and shall be available by telephone inquiry. A record of competition for all such purchases from four hundred dollars to thirty-five thousand dollars, or subsequent limits as calculated by the office of financial management, shall be documented for audit purposes. Purchases up to four hundred dollars may be made without competitive bids based on buyer experience and knowledge of the market in achieving maximum quality at minimum cost: PROVIDED, That this four hundred dollar direct buy limit without competitive bids may be increased incrementally as required to a maximum of eight hundred dollars, if warranted by increases in purchasing costs due to inflationary trends;

(3) Purchases which are clearly and legitimately limited to a single source of supply and purchases involving special facilities, services, or market conditions, in which instances the purchase price may be best established by direct negotiation;

(4) Purchases of insurance and bonds by the risk management office under RCW 43.19.1935;

(5) Purchases and contracts for vocational rehabilitation clients of the department of social and health services: PROVIDED, That this exemption is effective only when the state purchasing and material control director, after consultation with the director of the division of vocational rehabilitation and appropriate department of social and health services procurement personnel, declares that such purchases may be best executed through direct negotiation with one or more suppliers in order to expeditiously meet the special needs of the state's vocational rehabilitation clients;

(6) Purchases by universities for hospital operation or biomedical teaching or research purposes and by the state purchasing and material control director, as the agent for state hospitals as defined in RCW 72.23.010, and for health care programs provided in state correctional institutions as defined in RCW 72.65.010(3) and veterans' institutions as defined in RCW 72.36.010 and 72.36.070, made by participating in contracts for materials, supplies, and equipment entered into by nonprofit cooperative hospital group purchasing organizations;

(7) Purchases by institutions of higher education not exceeding thirty-five thousand dollars: PROVIDED, That for purchases between two thousand five hundred dollars and thirty-five thousand dollars quotations shall be secured from at least three vendors to assure establishment of a competitive price and may be obtained by telephone or written quotations, or both. For purchases between two thousand five hundred dollars and thirty-five thousand dollars, each institution of higher education shall invite at least one quotation each from a certified minority and a certified women-owned vendor who shall otherwise qualify to perform such work. A record of competition for all such purchases made from two thousand five hundred to thirty-five thousand dollars shall be documented for audit purposes; and

(8) Negotiation of a contract by the department of transportation, valid until June 30, 2001, with registered tow truck operators to provide roving service patrols in one or more Washington state patrol tow zones whereby those registered tow truck operators wishing to participate would cooperatively, with the department of transportation, develop a demonstration project upon terms and conditions negotiated by the parties.

Beginning on July 1, 1995, and on July 1 of each succeeding odd-numbered year, the dollar limits specified in this section shall be adjusted as follows: The office of financial management shall calculate such limits by adjusting the previous biennium's limits by the appropriate federal inflationary index reflecting the rate of inflation for the previous biennium. Such amounts shall be rounded to the nearest one hundred dollars.
Sec. 607. RCW 88.16.090 and 1995 c 175 s 1 are each amended to read as follows:

(1) A person may pilot any vessel subject to the provisions of this chapter on waters covered by this chapter only if appointed and licensed to pilot such vessels on said waters and under and pursuant to the provisions of this chapter.

(2) A person is eligible to be appointed a pilot if the person is a citizen of the United States, over the age of twenty-five years and under the age of seventy years, a resident of the state of Washington at the time of appointment and only if the pilot applicant holds as a minimum, a United States government license as a master of ocean or near coastal steam or motor vessels of not more than one thousand six hundred gross tons or as a master of inland steam or motor vessels of not more than one thousand six hundred gross tons, such license to have been held by the applicant for a period of at least two years prior to taking the Washington state pilotage examination and a first class United States endorsement without restrictions on that license to pilot in the pilotage districts for which the pilot applicant desires to be licensed, and if the pilot applicant meets such other qualifications as may be required by the board. A person applying for a license under this section shall not have been convicted of an offense involving drugs or the personal consumption of alcohol in the twelve months prior to the date of application. This restriction does not apply to license renewals under this section.

(3) Pilots shall be licensed hereunder for a term of five years from and after the date of the issuance of their respective state licenses. Such licenses shall thereafter be renewed as of course, unless the board shall withhold same for good cause. Each pilot shall pay to the state treasurer an annual license fee as follows: For the period beginning July 1, 1995, through June 30, 2001, the fee shall be two thousand five hundred dollars; and for the period beginning July 1, 2001, the fee shall be three thousand dollars. The fees shall be deposited in the state treasury to the credit of the pilotage account. The board may assess partially active or inactive pilots a reduced fee.

(4) Pilot applicants shall be required to pass a written and oral examination administered and graded by the board which shall test such applicants on this chapter, the rules of the board, local harbor ordinances, and such other matters as may be required to compliment the United States examinations and qualifications. The board shall hold examinations at such times as will, in the judgment of the board, ensure the maintenance of an efficient and competent pilotage service. An examination shall be scheduled for the Puget Sound pilotage district if there are three or fewer successful candidates from the previous examination who are waiting to become pilots in that district.

(5) The board shall develop an examination and grading sheet for each pilotage district, for the testing and grading of pilot applicants. The examinations shall be administered to pilot applicants and shall be updated as required to reflect changes in law, rules, policies, or procedures. The board may appoint a special independent examination committee or may contract with a firm knowledgeable and experienced in the development of professional tests for development of said examinations. Active licensed state pilots may be consulted for the general development of examinations but shall have no knowledge of the specific questions. The pilot members of the board may participate in the grading of examinations. If the board does appoint a special examination development committee it is authorized to pay the members of said committee the same compensation and travel expenses as received by members of the board. When grading examinations the board shall carefully follow the grading sheet prepared for that examination. The board shall develop a "sample examination" which would tend to indicate to an applicant the general types of questions on pilot examinations, but such sample questions shall not appear on any actual examinations. Any person who willfully gives advance knowledge of information contained on a pilot examination is guilty of a gross misdemeanor.

(6) All pilots and applicants are subject to an annual physical examination by a physician chosen by the board. The physician shall examine the applicant's heart, blood pressure, circulatory system, lungs and respiratory system, eyesight, hearing, and such other items as may be prescribed by the board. After consultation with a physician and the United States coast guard, the board shall establish minimum health standards to ensure that pilots licensed by the state are able to perform their duties. Within ninety days of the date of each annual physical examination, and after review of the physician's report, the board shall make a determination of whether the pilot or candidate is fully able to carry out the duties of a pilot under this chapter. The board may in its discretion check with the appropriate authority for any convictions of offenses involving drugs or the personal consumption of alcohol in the prior twelve months.

(7) The board shall prescribe, pursuant to chapter 34.05 RCW, a number of familiarization trips, between a minimum number of twenty-five and a maximum of one hundred, which pilot applicants must make in the pilotage district for which they desire to be licensed. Familiarization trips any particular applicant must make are to be based upon the applicant's vessel handling experience.

(8) The board may require vessel simulator training for a pilot applicant and shall require vessel simulator training for a pilot subject to RCW 88.16.105. The board shall also require vessel simulator training in the first year of active duty for a new pilot and at least once every five years for all active pilots.

(9) The board shall prescribe, pursuant to chapter 34.05 RCW, such reporting requirements and review procedures as may be necessary to assure the accuracy and validity of license and service claims, and records of familiarization trips of pilot
candidates. Willful misrepresentation of such required information by a pilot candidate shall result in disqualification of the candidate.

(10) The board shall adopt rules to establish time periods and procedures for additional training trips and retesting as necessary for pilots who at the time of their licensing are unable to become active pilots.

NEW SECTION. Sec. 608. The following bills, as enacted in the form passed by the legislature, are necessary to implement portions of this act: House Bill Nos. 1053, 1147, 1304, 1466, 1588, 2201, 2245, and 2259 and Senate Bill Nos. 5060, 5283, 5360, 5605, 5615, 5955, 6030, and 6068.

Sec. 609. RCW 47.26.425 and 1999 c 94 s 21 and 1999 c . . . (SHB 1053) s 6 are each reenacted to read as follows:

Any funds required to repay the first authorization of two hundred million dollars of bonds authorized by RCW 47.26.420, as amended by section 18, chapter 317, Laws of 1977 ex. sess. or the interest thereon when due, shall be taken from that portion of the motor vehicle fund which results from the imposition of excise taxes on motor vehicle and special fuels and which is distributed to the urban arterial trust account in the motor vehicle fund pursuant to RCW 46.68.090(1)(g), and shall never constitute a charge against any allocations of any other such funds in the motor vehicle fund to the state, counties, cities, and towns unless and until the amount of the motor vehicle fund arising from the excise tax on motor vehicle and special fuels and distributed to the urban arterial trust account proves insufficient to meet the requirements for bond retirement or interest on any such bonds.

Sec. 610. RCW 47.26.4252 and 1999 c 94 s 22 and 1999 c . . . (SHB 1053) s 7 are each reenacted to read as follows:

Any funds required to repay the authorization of series II bonds authorized by RCW 47.26.420, as reenacted by section 3, chapter 5, Laws of 1979, or the interest thereon when due, shall first be taken from that portion of the motor vehicle fund which results from the imposition of excise taxes on motor vehicle and special fuels imposed by chapters 82.36 and 82.38 RCW and which is distributed to the urban arterial trust account in the motor vehicle fund pursuant to RCW 46.68.090(1)(g), subject, however, to the prior lien of the first authorization of bonds authorized by RCW 47.26.420, as reenacted by section 3, chapter 5, Laws of 1979. If the moneys distributed to the urban arterial trust account shall ever be insufficient to repay the first authorization bonds together with interest thereon, and the series II bonds or the interest thereon when due, the amount required to make such payments on such bonds or interest thereon shall next be taken from that portion of the motor vehicle fund which results from the imposition of excise taxes on motor vehicle and special fuels and which is distributed to the state, counties, cities, and towns pursuant to RCW 46.68.090. Any payments on such bonds or interest thereon taken from motor vehicle or special fuel tax revenues which are distributable to the state, counties, cities, and towns, shall be repaid from the first moneys distributed to the urban arterial trust account not required for redemption of the first authorization bonds or series II and series III bonds or interest on those bond issues.

Sec. 611. RCW 47.26.4254 and 1999 c 94 s 23 and 1999 c . . . (SHB 1053) s 8 are each reenacted and amended to read as follows:

(1) Any funds required to repay series III bonds authorized by RCW 47.26.420, or the interest thereon, when due shall first be taken from that portion of the motor vehicle fund that results from the imposition of excise taxes on motor vehicle and special fuels imposed by chapters 82.36 and 82.38 RCW and that is distributed to the urban arterial trust account in the motor vehicle fund pursuant to RCW 46.68.090(1)(m), subject, however, to the prior lien of the first authorization of bonds authorized by RCW 47.26.420. If the moneys so distributed to the urban arterial trust account, after first being applied to administrative expenses of the transportation improvement board and to the requirements of bond retirement and payment of interest on first authorization bonds and series II bonds as provided in RCW 47.26.425 and 47.26.4252, are insufficient to meet the requirements for bond retirement or interest on any series III bonds, the amount required to make such payments on series III bonds or interest thereon shall next be taken from that portion of the motor vehicle fund that results from the imposition of excise taxes on motor vehicle and special fuels and that is distributed to the state, counties, cities, and towns pursuant to RCW 46.68.090, subject, however, to subsection (2) of this section.

(2) To the extent that moneys so distributed to the urban arterial trust account are insufficient to meet the requirements for bond retirement or interest on any series III bonds, sixty percent of the amount required to make such payments when due shall first be taken from that portion of the motor vehicle fund that results from the imposition of excise taxes on motor vehicle and special fuels and that is distributed to the state. The remaining forty percent shall first be taken from that portion of the motor vehicle fund that results from the imposition of excise taxes on motor vehicle and special fuels and that is distributed to the cities and towns pursuant to RCW 46.68.090(1)(i) and to the counties pursuant to RCW 46.68.090(1)(j). Of the counties’ cities’, and towns’ share of any additional amounts required in each fiscal year, the percentage thereof to be taken from the counties’ distributive share and from the cities’ and towns’ distributive share shall correspond to the percentage of funds authorized for specific county projects and for specific city and town projects, respectively, from the proceeds of series III bonds, for the period through the first eleven months of the prior fiscal year as determined by the chairman of the transportation improvement board and reported to the state finance committee and the state treasurer not later than the first working day of June.
(3) Any payments on such bonds or interest thereon taken from motor vehicle or special fuel tax revenues that are distributable to the state, counties, cities, and towns shall be repaid from the first moneys distributed to the urban arterial trust account not required for redemption of the first authorization bonds, series II bonds, or series III bonds or interest on these bonds.

Sec. 612. RCW 47.26.505 and 1999 c 94 s 24 and 1999 c . . . (SHB 1053) s 9 are each reenacted and amended to read as follows:

Any funds required to repay such bonds, or the interest thereon when due, shall be taken from that portion of the motor vehicle fund which results from the imposition of excise taxes on motor vehicle and special fuels and which is distributed to the transportation improvement account in the motor vehicle fund under RCW 46.68.090(1)(h), and shall never constitute a charge against any allocations of any other such funds in the motor vehicle fund to the state, counties, cities, and towns unless and until the amount of the motor vehicle fund arising from the excise tax on motor vehicle and special fuels and distributed to the transportation improvement account proves insufficient to meet the requirements for bond retirement or interest on any such bonds.

Sec. 613. RCW 43.43.300 and 1965 c 8 s 43.43.300 are each amended to read as follows:

Beginning on July 1, 1963, every Washington state patrol employee who is a member of the retirement fund shall contribute seven percent of his or her monthly salary(whic)h. For the biennium beginning July 1, 1999, and ending June 30, 2001, the employee contribution rate for every member of a retirement system created under this chapter and: (1) Covering employees whose activities constitute a highway purpose under the eighteenth amendment (Article II, section 40) of the state Constitution; where (2) the majority of both the employer and employee contributions are funded from moneys appropriated from the state patrol highway account of the motor vehicle fund; shall be set so that the contribution rates required to fund the costs of the retirement system shall be equal for members and employers; except that in no event shall the member contribution rate exceed seven percent. If the pension funding council determines that contribution rates must exceed seven percent in order to fund the costs of the retirement system, any cost over seven percent shall be borne by the employer. The member contribution rate determined under this section shall be deducted from the compensation of each member on each and every payroll.

In the event a member severs his or her connection with the Washington state patrol or is dismissed, the amount paid by the state of Washington shall remain in the retirement fund.

NEW SECTION. Sec. 614. The joint committee on pension policy shall study the method for setting employer and employee contribution rates for the Washington state patrol retirement system. The study shall include options for implementing a method or methods that allow both the employer and members to share the benefits form investment gains that exceed the long-term investment return assumptions adopted by the pension funding council.

NEW SECTION. Sec. 615. The legislature finds and declares that it is essential for the economic, social, and environmental well-being of the state and the maintenance of a high quality of life that the people of the state have an efficient and effective transportation system. The legislature, public officials, and citizens need to know the extent to which state agencies, programs, and activities that impact the state’s transportation system are achieving the purposes for which they were created.

The legislature recognizes that if it is to adequately fulfill its responsibility to provide for a balanced, efficient state-wide transportation system, it is essential to establish a joint legislative transportation committee that will provide an opportunity for members of the house of representatives and the senate to examine, develop, and oversee critical transportation policy and fiscal issues and make recommendations on such issues to the house of representatives and senate standing committees on transportation.

Sec. 616. RCW 44.40.010 and 1980 c 87 s 39 are each amended to read as follows:

The joint fact-finding committee on highways, streets, and bridges originally created by chapter 111, Laws of 1947, recreated and renamed the joint committee on highways by chapter 3, Laws of 1963 extraordinary session, is hereby recreated and renamed the legislative transportation committee. The renaming of said committee shall not affect any powers invested in it or its duties imposed upon it by any other statute. All appropriations made to the committee under its former name shall continue to be available to said committee as renamed, the legislative transportation committee. The committee shall consist of ((eleven)) twelve senators to be appointed by the president of the senate and twelve members of the house of representatives to be appointed by the speaker thereof. Not more than six members from each house may be from the same political party. A list of appointees shall be submitted before the close of each regular legislative session during an odd-numbered year or any successive special session convened by the governor or the legislature prior to the close of such regular session or successive special session(s) for confirmation of senate members, by the senate, and house members, by the house. Vacancies occurring shall be filled by the appointing authority. All vacancies must be filled from the same political party and from the same house as the member whose seat was vacated.
The chair will be elected biennially by the membership of the committee. After January 1, 2001, each succeeding chair must be from the opposite house of the current chair, and be from the majority party. The vice-chair must be from the opposite house.

On the effective date of this act, the president of the senate shall appoint an additional senate member as provided by the 1999 amendment of this section. With the appointment of the additional member, the terms of officers elected before the effective date of this act are terminated, and the committee shall hold a new election of officers.

The committee shall adopt rules and procedures for its orderly operation.

NEW SECTION, Sec. 617. A new section is added to chapter 44.40 RCW to read as follows:

The members of the legislative transportation committee shall form an executive committee consisting of two members from each of the four major political caucuses, which will include the chair and vice-chair of the legislative transportation committee. There will be four alternates to the executive committee, one from each of the four major political caucuses. Each alternate may represent a member from the same political caucus from which they were chosen when that member is absent, and have voting privileges during that absence.

The executive committee is responsible for performing all general administrative and personnel duties assigned to it in the rules and procedures adopted by the committee, as well as other duties delegated to it by the committee. Except when those responsibilities are assumed by the legislative transportation committee, the executive committee is responsible for adopting interim work plans and meeting schedules and approving all contracts signed on behalf of the committee.

NEW SECTION, Sec. 618. FOR THE LEGISLATIVE TRANSPORTATION COMMITTEE

Motor Vehicle Account--State Appropriation $ 300,000

NEW SECTION, Sec. 619. The following acts or parts of acts are each repealed:

(1) RCW 46.68.095 (Distribution of additional state-wide taxes) and 1999 c 94 s 7, 1994 c 179 s 4, & 1990 c 42 s 103; and

PERSONAL PRIVILEGE

Senator Deccio: "A point of personal privilege, Mr. President. As a senior member of the Legislature, I am going to assume a prerogative that I think I want to try to articulate something. Tomorrow, some of the things that were said on this floor are really going to be felt by the people that said them. I am very proud to be a member of the Washington State Legislature. We don't do things today like they did forty or fifty years ago. This is an honest place. We differ on issues, but I would swear on a Bible that there is not a person in this body or the other that would ever be corrupt or do things that were dishonest. I really believe that. I think enough of the people who serve here.

"Forty or fifty years ago, it wasn't that way. Senator Zarelli is correct, but let's don't let the past haunt the reputations of the present. I think that Senator Benton and Senator Haugen have done a tremendous job of representing this side of the rotunda. When we leave here, I think we don't want to leave a bad taste in the mouths of anybody, particularly the public, who really don't look very kindly on us.

"I just need to make this statement that this is an honest body; the House is an honest body. We may disagree on issues, but that is what we get the big bucks for. Thank you."

MESSAGE FROM THE SECRETARY OF STATE
The Honorable Brad Owen  
President of the Senate  
Legislature of the State of Washington  
Olympia, Washington 98504

Dear President Owen:

We respectfully transmit for your consideration the following bills that have been partially vetoed by the Governor, together with the official veto message setting forth his objections to the sections or items of the bills, as required by Article III, section 12, of the Washington State Constitution:

SENATE BILL NO. 5127,  
ENGROSSED SUBSTITUTE SENATE BILL NO. 5508,  
ENGROSSED SENATE BILL NO. 5649,  
ENGROSSED SUBSTITUTE SENATE BILL NO. 5693,  
SUBSTITUTE SENATE BILL NO. 5781,  
SUBSTITUTE SENATE BILL NO. 5968, and  
SUBSTITUTE SENATE BILL NO. 6001.

IN TESTIMONY WHEREOF, I have hereunto set my hand and affixed the seal of the State of Washington, this 19th day of May, 1999.

RALPH MUNRO  
(Seal)  
Secretary of State

MESSAGE FROM THE GOVERNOR  
PARTIAL VETO MESSAGE ON SENATE BILL NO. 5127

May 18, 1999

To the Honorable President and Members,  
The Senate of the State of Washington  
Ladies and Gentlemen:

I am returning herewith, without my approval as to section 1, Senate Bill No. 5127 entitled:

"AN ACT Relating to investigations of abuse or neglect;"

Senate Bill No. 5127 requires specialized training for law enforcement officers and caseworkers who investigate allegations of child sexual abuse. It also prohibits a law enforcement officer from participating in an investigation of alleged abuse concerning a child for whom the officer is a parent, guardian or foster parent.

The training required by Senate Bill No. 5127 is not adequately funded by the operating budget for the 1999-2001 biennium that I signed on May 14, 1999. To fully implement the required training, the legislature must appropriate at least $537,000 in supplemental funds next year.

The process of investigating child abuse allegations and prosecuting alleged perpetrators is complex and must adhere to many laws and procedures. Section 1 of Senate Bill No. 5127 is sufficiently vague that it could be misconstrued to alter existing law. Vetoing it does not weaken the substance of this bill.

For these reasons, I have vetoed section 1 of Senate Bill No. 5127.

With the exception of section 1, Senate Bill No. 5127 is approved.

Respectfully submitted,

GARY LOCKE, Governor

MESSAGE FROM THE GOVERNOR  
PARTIAL VETO MESSAGE ON ENGROSSED SUBSTITUTE SENATE BILL NO. 5508

...
May 18, 1999

To the Honorable President and Members,

The Senate of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to sections 2 and 3, Engrossed Substitute Senate Bill No. 5508 entitled:

"AN ACT Relating to catch record card requirements for recreational crab fishers;"

Engrossed Substitute Senate Bill No. 5508 requires the Department of Fish and Wildlife to utilize crab catch record cards in determining the recreational harvest of crab. Sections 2 and 3 of the bill would require recreational Dungeness crab fishers to have catch record cards on July 15, 1999, before they could fish. While I support the intent of this bill, the 1999 Dungeness crab license year has already begun, and this requirement would create significant difficulties for fishers who have already purchased licenses. It would also be practically impossible for the Department of Fish and Wildlife to notify crab fishers, and create and distribute catch record cards by mid-July.

The Department of Fish and Wildlife strongly agrees that catch record cards would be very valuable in tracking crab harvest and population statistics. And, it has committed to implementing the program by administrative rule, effective with the next license year beginning in April 2000.

For these reasons, I have vetoed sections 2 and 3 of Engrossed Substitute Senate Bill No. 5508.

With the exception of sections 2 and 3, Engrossed Substitute Senate Bill No. 5508 is approved.

Respectfully submitted,

GARY LOCKE, Governor

MESSAGE FROM THE GOVERNOR
PARTIAL VETO MESSAGE ON ENGROSSED SENATE BILL NO. 5649

May 18, 1999

To the Honorable President and Members,

The Senate of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to section 8, Engrossed Senate Bill No. 5649 entitled:

"AN ACT Relating to vehicle impound notices, security, and auctions;"

Engrossed Senate Bill No. 5649 helps make vehicle impoundment and release more efficient, provides protections for tow truck operators, and enacts several related miscellaneous provisions.

Under current law, when a tow truck operator auctions an abandoned vehicle, any proceeds above towing and storage charges must be sent to the Department of Licensing for deposit in the Motor Vehicle Fund. The owner who abandoned the auctioned vehicle can recover the proceeds by filing a claim within one year – however, most do not.

Section 8 of Engrossed Senate Bill No. 5649 would require tow truck operators to send excess auction proceeds directly to the owner of the abandoned vehicle, instead of the Motor Vehicle Fund. However, there is no provision for disposition of the proceeds if the owner cannot be located. This change would reduce Motor Vehicle Fund revenue by nearly $700,000 in the next biennium, depriving the state of funds for needed transportation projects. Present law sufficiently protects owners who care to file claims for excess auction proceeds.

For these reasons, I have vetoed section 8 of Engrossed Senate Bill No. 5649.

With the exception of section 8, Engrossed Senate Bill No. 5649 is approved.

Respectfully submitted,

GARY LOCKE, Governor

MESSAGE FROM THE GOVERNOR
PARTIAL VETO MESSAGE ON ENGROSSED SUBSTITUTE SENATE BILL NO. 5693

May 18, 1999
To the Honorable President and Members,  
The Senate of the State of Washington  
Ladies and Gentlemen:

I am returning herewith, without my approval as to sections 3 and 6, Engrossed Substitute Senate Bill No. 5693 entitled:

“AN ACT Relating to establishing a public/private endowment for developmental disabilities services;”

Engrossed Substitute Senate Bill No. 5693 creates a developmental disabilities fund that is funded through private contributions and state appropriations. Its intent is to encourage and assist families engaging in long-range financial planning for the lifetime care of family members with disabilities by seeking private contributions to a state managed endowment.

While I agree with this intent and understand the desire of parents to make sure that they have planned for the lifetime care of a family member with disabilities, there are many fundamental policy issues unanswered in this bill:

• The legislation contains no definition of “developmentally disabled.” A state-supported endowment should use the same or very similar definition as used in other state-funded programs for people with developmental disabilities in order to allow coordination with existing state-supported programs.

• This legislation provides no opportunity for the State Investment Board to invest in non-governmental securities.

• This legislation does not preclude using state funds for additional services beyond the case management plan. State dollars should not be used to fund additional services beyond a case management plan.

• It needs clarification that while a governing board will work out the rules in concert with the Department of Community, Trade and Economic Development (CTED), it is CTED that will formally adopt the rules. CTED should adopt any rules needed to govern provision of services and dispersal of funds.

• It is unclear if the program is just for individuals whose families contribute, or for all families. Provisions must be made for distribution of funds when contributions are made by entities that do not have family members benefiting from the fund.

• It is unclear as to the responsibility of the endowment fund when funds last longer than the life of a person with developmental disabilities or when the person lives longer than fund contributions.

Section 3 of the bill is related to the powers of the State Investment Board with regard to the endowment. Section 6 relates to the development of the proposed operating plan. My intent with this veto is to allow the creation of an endowment, but remove mechanisms for distribution of funds and functions for the governing board. I anticipate that the policy concerns I have outlined will be dealt with during the next legislative session.

For these reasons, I have vetoed sections 3 and 6 of Engrossed Substitute Senate Bill No. 5693. With the exception of sections 3 and 6, Engrossed Substitute Senate Bill No. 5693 is approved.

Respectfully submitted,

GARY LOCK, Governor

MESSAGE FROM THE GOVERNOR
PARTIAL VETO MESSAGE ON SUBSTITUTE SENATE BILL NO. 5781

May 18, 1999

To the Honorable President and Members,  
The Senate of the State of Washington  
Ladies and Gentlemen:

I am returning herewith, without my approval as to sections 6, 7, and 8, Substitute Senate Bill No. 5781 entitled:

“AN ACT Relating to the commute trip reduction tax credit;”

Substitute Senate Bill No. 5781 extends the commute trip reduction (CTR) tax credit to June 30, 2006 and continues the current policy of using the Air Pollution Control Account (APCA) to reimburse the State General Fund for the first $1.5 million of tax credits given each year.

Sections 6 and 7 of the bill would extend the entire CTR tax credit program to December 31, 2006. Based upon the last proposed legislative transportation budget, this bill as drafted, combined with the operating budget for
the 1999-2001 biennium, creates a shortfall in the APCA of between $1.3 million and $2.4 million in the next biennium.

I support extension of the CTR tax credit as a means of reducing traffic congestion. However, I cannot in good faith support the long-term implementation of the statutory changes contained in sections 1 through 5 of this bill unless the legislature also provides a solution to the projected deficit in the APCA.

The deficit in the APCA could result in increases in air pollution because of reduced technical assistance, voluntary compliance, and monitoring efforts. The state's margin of safety in healthy air standards in some areas is already in jeopardy due to our inability to adequately track and respond to changes in air pollution emissions. In the central Puget Sound region and the city of Vancouver, for example, the margin of safety for ozone pollution is one percent of current emissions. A return to non-attainment of the ozone standard is already extremely likely in light of the separate overall ten percent reduction in the Department of Ecology's current level of effort. A shortfall in the APCA would exacerbate this problem.

For areas that fall into non-attainment, we risk losing several million dollars of federal air pollution control grant money and hundreds of millions in federal transportation funds for expanding roadway capacity. We could be forced to restrict business growth when air quality fails to meet federal standards. We risk more federal intervention and less local control of air quality decisions, not to mention increasing costs to businesses to implement tighter federal controls.

I am directing the Office of Financial Management to work with the Department of Ecology, Department of Transportation, Legislative Transportation Committee, Senate Ways and Means Committee, and House Appropriations Committee to develop a workable proposal for funding the APCA and the CTR tax credit program, for implementation during the 2000 regular legislative session.

Section 8 of the bill is an unnecessary emergency clause that would require this bill to take effect July 1, 1999.

For these reasons, I have vetoed sections 6, 7, and 8 of Substitute Senate Bill No. 5781.

With the exception of sections 6, 7, and 8, Substitute Senate Bill No. 5781 is approved.

Respectfully submitted,

GARY LOCKE, Governor

MESSAGE FROM THE GOVERNOR
PARTIAL VETO MESSAGE ON SUBSTITUTE SENATE BILL NO. 5968

May 18, 1999

To the Honorable President and Members,
The Senate of the State of Washington
Ladies and Gentlemen:

I am returning herewith, without my approval as to section 2(14), Substitute Senate Bill No. 5968 entitled:

"AN ACT Relating to human services;"

Substitute Senate Bill No. 5968 establishes a Pro-Share program with the federal government that will fund nursing homes operated by public hospital districts.

Section 2(14) of the bill is an appropriation item proviso that would require the Department of Social and Health Services – Medical Assistance Administration to provide chiropractic services to adults. However, additional funding is not provided. This unfunded mandate would force the Medical Assistance Administration to reduce services elsewhere. While chiropractic services can be very beneficial, I do not believe other services of the Medical Assistance Administration should be reduced to provide them.

For these reasons, I have vetoed section 2(14) of Substitute Senate Bill No. 5968.

With the exception of section 2(14), Substitute Senate Bill No. 5968 is approved.

Respectfully submitted,

GARY LOCKE, Governor
MESSAGE FROM THE GOVERNOR
PARTIAL VETO MESSAGE ON SUBSTITUTE SENATE BILL NO. 6001

May 18, 1999

To the Honorable President and Members,
The Senate of the State of Washington
Ladies and Gentlemen:

I am returning herewith, without my approval as to sections 1 and 6, Substitute Senate Bill No. 6001 entitled:

"AN ACT Relating to the office of family and children's ombudsman;"

Substitute Senate Bill No. 6001 expands the scope of information available to the Family and Children's Ombudsman. Among other things, it permits guardians ad litem and service providers to give confidential information to the Ombudsman, and requires the Department of Social and Health Services (DSHS) to provide access to institutions and information. It also prohibits retaliatory action against employees of DSHS and others who properly provide information.

Section 1 of Substitute Senate Bill No. 6001 includes a requirement that the Ombudsman provide information to a legislator regarding a constituent, if the constituent has given his or her consent to release the information and if the constituent would otherwise be able to obtain the information under law. This provision is apparently intended to require the Ombudsman to provide legislators with DSHS records in the Ombudsman's possession. The provision is unnecessary since, with the above conditions present, legislators are currently able to obtain records directly from DSHS.

Section 6 of Substitute Senate Bill No. 6001 would give the Ombudsman the power to subpoena all records and documents in the possession or control of DSHS that the Ombudsman considers necessary in an investigation. Similarly, section 5 of the bill grants the Ombudsman access to all relevant information, records, or documents in the possession or control of DSHS that the Ombudsman considers necessary in an investigation. I am concerned about expanding the subpoena power in the absence of a compelling need. Since the Ombudsman will have statutory access to all necessary records, there is no compelling need. Additionally, there has never been an instance when DSHS, even without a statutory mandate, has refused to give the Ombudsman all requested records.

For these reasons, I have vetoed sections 1 and 6 of Substitute Senate Bill No. 6001.

With the exception of sections 1 and 6, Substitute Senate Bill No. 6001 is approved.

Respectfully submitted,

GARY LOCKE, Governor

PERSONAL PRIVILEGE

Senator Heavey: "A point of personal privilege. Thank you, Madam President. Ladies and gentlemen of the Senate. I thought I had made this clear, but I would like to reiterate it. I meant nothing on personalities when I was talking about the Legislative Transportation Committee. In 1989, I introduced a bill in that other body over there to abolish the Legislative Transportation Committee. It is a long-held belief of mine that we should follow the normal process of budget allocations, working their way through the budget, voted on by both bodies and signed by the Governor and that is how it is done. I have a strong objection to any committee having statutory authority to be able to appropriate money themselves.

"I meant nothing--I have the highest regard for all members of this Legislature and I concur with the gentleman from Yakima. I don't believe there is a dishonest person in this place--I don't believe there has been a dishonest person in this place since I have been here. I was speaking to an appearance of bad government. It may not be bad; it appears to be bad when you have legislators with their own little budgets making appropriations.

"Anybody that takes offense, I am sorry. Sometimes, I go--when I am in the spirit of debate--I go off into the deep end. I apologize for that and I apologize to any one that I have harmed and that they have taken offense. I hope those on the other side of the rotunda are listening, or at least replay the tape--I realize I'm not the only one. Nothing personal was intended. In fact, the House members on Transportation have the upmost interest in a good transportation system for the state of Washington.

"My concern is with the committee that was created--fifty-two years ago--with appropriation authority. Now, if I am not going far enough, please let me know, because I want to make it clear, it was not aimed at any one individual or individuals or any committee other than the fact that I believe it is wrong to have a statutory committee with statutory appropriation authority. I apologize if I inferred otherwise."

POINT OF INQUIRY
Senator Benton: “Senator Brown, can you tell me when we discussed this bill in the regular session, there was an amendment, I recall, that was passed and adopted to this bill that adjusted the time frame and created a moratorium, I think. Could you refresh my memory as to what that amendment was and whether or not that amendment is still attached to this bill?”

Senator Brown: “Yes, Senator Benton, as a matter of fact, that is correct. The amendment that we attached is on the bill and what the amendment does is keep the status quo in place for two more years, pending an investigation by DSHS of the availability of infant childcare in this state. So, the amendment that was offered from Senator Hale is on the bill in its form at this time.”

The President Pro Tempore declared the question before the Senate to be the roll call on the final passage of Engrossed Senate Bill No. 5163.

REPLY BY THE PRESIDENT PRO TEMPORE

NOTICE FOR RECONSIDERATION

Having voted on the prevailing side, Senator Finkbeiner served notice that he would move to reconsider the vote by which Substitute Senate Bill No. 5363 passed the Senate.

PARLIAMENTARY INQUIRY

Senator Benton: "A parliamentary inquiry, Madam President. A motion has been made, but the motion is a debatable motion if I am not mistaken and a notice can be given during a period of debate on that motion. There is not a vote required on a motion of reconsideration, therefore, notice has been given before the vote was taken to immediately transfer and I think that is all that is required is that the President receive notice and the notice was given. Is that not correct?"

REPLY BY THE PRESIDENT PRO TEMPORE

President Pro Tempore Wojahn: "Senator Benton, since there was a motion pending, there would be no action until after that motion was voted on. The notice was not in order. There was a motion pending when the notice was given and we hadn't voted on the pending motion."

MOTION
Senator Benton moved that the motion by Senator Snyder to immediately transmit Substitute Senate Bill No. 5363 to the House of Representatives be laid upon the table.

REPLY BY THE PRESIDENT PRO TEMPORE

President Pro Tempore Wojahn: "That is in order."
Senator McDonald demanded a roll call and the demand was sustained.

ROLL CALL

The Secretary called the roll and the motion to lay the motion by Senator Snyder on the table failed by the following vote: Yeas, 20; Nays, 26; Absent, 0; Excused, 3.

Excused: Senators Franklin, Johnson and Sheldon, B. - 3.

NOTICE FOR RECONSIDERATION

Having voted on the prevailing side, Senator Finkbeiner served notice that he would move to reconsider the vote by which Substitute Senate Bill No. 5363 passed the Senate.

POINT OF CLARIFICATION

Senator Finkbeiner: "I would like to ask for a point of clarification.

REPLY BY THE PRESIDENT PRO TEMPORE

President Pro Tempore Wojahn: "I believe you have already asked for that. We just voted on the motion to lay the motion by Senator Snyder on the table."
Senator Finkbeiner: "That is correct. I am speaking to Substitute Senate Bill No. 5363. My understanding was that when I previously gave notice of reconsideration, you ruled that notice out of order, so I would like to give that notice at this time."
President Pro Tempore Wojahn: "We didn’t rule it out of order, we simply took it under advisement. We did not rule it out of order. Again, Senator Snyder’s motion is still pending—it is still pending—so your motion is out of order."

CALL FOR THE PREVIOUS QUESTION

Senators Snyder, Spanel and Goings called for the previous question and the demand was sustained.
Senator McDonald demanded a roll call and the demand was sustained.
The President Pro Tempore declared the question before the Senate to be the roll call on shall the main question be now put.

The motion by Senator Snyder carried to immediately transmit Substitute Senate Bill No. 5363 to the House of Representatives.

NOTICE FOR RECONSIDERATION

Having voted on the prevailing side, Senator Finkbeiner served notice that he would move to reconsider the vote by which Substitute Senate Bill No. 5363 passed the Senate.

POINT OF CLARIFICATION

Senator Finkbeiner: "I would like to ask for a point of clarification."

POINT OF ORDER

Senator Snyder: "A point of order, Madam President. The bill is technically no longer in the possession of the Senate, so it is impossible to give notice for reconsideration."

POINT OF ORDER

Senator Finkbeiner: "A point of order, Madam President. My understanding is that while the bill is in physical control of the Senate, it is still in control of the Senate, regardless of whether a motion to immediately transmit-- and I am getting this idea from Rule 37, which states that 'any member who has voted on the prevailing side may give notice of reconsideration unless a motion to immediately transmit the measure to the house has been decided in the affirmative and the measure is no longer in possession of the senate.'"

REPLY BY THE PRESIDENT PRO TEMPORE

President Pro Tempore Wojahn: "We did that."
Senator Finkbeiner: "I'm sorry, what's that?"
President Pro Tempore Wojahn: "We did that."
Senator Finkbeiner: "My understanding by reading Rule 37 is that those are two separate states of being of the bill. One would be if a motion had been decided to immediately transmit and the second is also, if it is no longer in the possession, so I would like to ask the President, is the bill currently in possession of the Senate, physically at the desk?"

REMARKS BY SENATOR SNYDER

Senator Snyder: "I think it takes both of those things. He is just stating that it only takes it as long as it is in control of the Senate. I believe if you read the rule carefully, it says, 'if a vote in the affirmative has not been decided, and the bill is still within the possession of the house.' So, I think the vote has been decided in the affirmative, and by now, I am sure the bill is gone."
REMARKS BY SENATOR FINKBEINER

Senator Finkbeiner: "When I made my motion for reconsideration, the bill was still at the desk and it had not been physically transported out the door, so I would just like to state that for the record."

MOTION

At 5:21 p.m., on motion of Senator Snyder, the Senate was declared to be at ease.

The Senate was called to order at 5:55 p.m. by President Pro Tempore Wojahn.

There being no objection, the Senate resumed consideration of Substitute Senate Bill No. 5363, under discussion before the Senate went at ease.

RULING BY PRESIDENT PRO TEMPORE

President Pro Tempore Wojahn: "In ruling upon the point of order by Senator Finkbeiner, the President finds that Senate Rule 37 permits a member voting on the prevailing side on final passage of a message, to give notice of reconsideration unless two things have occurred: (1) a motion to immediately transmit the measure has been decided in the affirmative; and (2) the measure is no longer in possession of the Senate.

"Substitute Senate Bill No. 5363 was still in possession of the Senate when Senator Finkbeiner gave notice of reconsideration. Therefore, his notice was in order."

The President signed:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. It is the intent of this act to revise the law on registration of sex and kidnapping offenders in response to the case of State v. Pickett, Docket number 41562-0-1. The legislature intends that all sex and kidnapping offenders whose history requires them to register shall do so regardless of whether the person has a fixed residence. The lack of a residential address is not to be construed to preclude registration as a sex or kidnapping offender. The legislature intends that persons who lack a residential address shall have an affirmative duty to report to the appropriate county sheriff, based on the level of risk of offending.

Sec. 2. RCW 9A.44.130 and 1998 c 220 s 1 and 1998 c 139 s 1 are each reenacted and amended to read as follows:

(1) Any adult or juvenile residing whether or not the person has a fixed residence, or who is a student, is employed, or carries on a vocation in this state who has been found to have committed or has been convicted of any sex offense or kidnapping offense, or who has been found not guilty by reason of insanity under chapter 10.77 RCW of committing any sex offense or kidnapping offense, shall register with the county sheriff for the county of the person's residence, or if the person is not a resident of Washington, the county of the person's school, or place of employment or vocation, or as otherwise specified in this section. Where a person required to register under this section is in custody of the state department of corrections, the state department of social and health services, a local division of youth services, or a local jail or juvenile detention facility, must register at the time of release from custody with an official designated by the agency that has jurisdiction over the person. In addition, any such adult or juvenile who is admitted to a public or private institution of higher education shall, within ten days of enrolling or by the first business day after arriving at the institution, whichever is earlier, notify the sheriff for the county of the person's residence of the person's intent to attend the institution. Persons required to register under this section who are enrolled in a public or private institution of higher education on June 11, 1998, must notify the county sheriff immediately. The sheriff shall notify the institution's department of public safety and shall provide that department with the same information provided to a county sheriff under subsection (3) of this section.

(2) This section may not be construed to confer any powers pursuant to RCW 4.24.500 upon the public safety department of any public or private institution of higher education.

(a) The person shall provide the following information when registering: (i) Name; (ii) address; (iii) date and place of birth; (iv) place of employment; (v) crime for which convicted; (vi) date and place of conviction; (vii) aliases used; (viii) social security number; (ix) photograph; and (x) fingerprints.

(b) Any person who lacks a fixed residence shall provide the following information when registering: (i) Name; (ii) date and place of birth; (iii) place of employment; (iv) crime for which convicted; (v) date and place of conviction; (vi) aliases used; (vii) social security number; (viii) photograph; (ix) fingerprints; and (x) where he or she plans to stay.

(c) Offenders shall register with the county sheriff within the following deadlines. For purposes of this section the term "conviction" refers to adult convictions and juvenile adjudications for sex offenses or kidnapping offenses:

(i) OFFENDERS IN CUSTODY. (A) Sex offenders who committed a sex offense on, before, or after February 28, 1990, and who, on or after July 28, 1991, are in custody, as a result of that offense, of the state department of corrections, the state department of social and health services, a local division of youth services, or a local jail or juvenile detention facility, and (B) kidnapping offenders who on or after July 27, 1991, are in custody of the state department of corrections, the state department of social and health services, a local division of youth services, or a local jail or juvenile detention facility, must register at the time of release from custody with an official designated by the agency that has jurisdiction over the offender. The agency shall within three days forward the registration information to the county sheriff for the county of the offender's anticipated residence. The offender must also register within twenty-four hours from the time of release with the county sheriff for the county of the person's residence, or if the person is not a resident of Washington, the county of the person's school, or place of employment or vocation. The agency that has jurisdiction over the offender shall provide notice to the offender of the duty to register. Failure to register at the time of release and within twenty-four hours of release constitutes a violation of this section and is punishable as provided in subsection (9) (10) of this section.

When the agency with jurisdiction intends to release an offender with a duty to register under this section, and the agency has knowledge that the offender is eligible for developmental disability services from the department of social and health
services, the agency shall notify the division of developmental disabilities of the release. Notice shall occur not more than thirty days before the offender is to be released. The agency and the division shall assist the offender in meeting the initial registration requirement under this section. Failure to provide such assistance shall not constitute a defense for any violation of this section.

(ii) OFFENDERS NOT IN CUSTODY BUT UNDER STATE OR LOCAL JURISDICTION. Sex offenders who, on July 28, 1991, are not in custody but are under the jurisdiction of the indeterminate sentence review board or under the department of correction’s active supervision, as defined by the department of corrections, the state department of social and health services, or a local division of youth services, for sex offenses committed before, on, or after February 28, 1990, must register within ten days of July 28, 1991. Kidnapping offenders who, on July 27, 1997, are not in custody but are under the jurisdiction of the indeterminate sentence review board or under the department of correction’s active supervision, as defined by the department of corrections, the state department of social and health services, or a local division of youth services, for kidnapping offenses committed before, on, or after July 27, 1997, must register within ten days of July 27, 1997. A change in supervision status of a sex offender who was required to register under this subsection (4)(a)(ii) as of July 28, 1991, or a kidnapping offender required to register as of July 27, 1997, shall not relieve the offender of the duty to register or to reregister following a change in residence. The obligation to register shall only cease pursuant to RCW 9A.44.140.

(iii) OFFENDERS UNDER FEDERAL JURISDICTION. Sex offenders who, on or after July 23, 1995, and kidnapping offenders who, on or after July 27, 1997, as a result of that offense are in the custody of the United States bureau of prisons or other federal or military correctional agency for sex offenses committed before, on, or after February 28, 1990, or kidnapping offenses committed on, before, or after July 27, 1997, must register within twenty-four hours from the time of release with the county sheriff for the county of the person’s residence, or if the person is not a resident of Washington, the county of the person’s school, or place of employment or vocation. Sex offenders who, on July 23, 1995, are not in custody but are under the jurisdiction of the United States bureau of prisons, United States courts, United States parole commission, or military parole board for sex offenses committed before, on, or after February 28, 1990, must register within ten days of July 23, 1995. Kidnapping offenders who, on July 27, 1997, are not in custody but are under the jurisdiction of the United States bureau of prisons, United States courts, United States parole commission, or military parole board for kidnapping offenses committed before, on, or after July 27, 1997, must register within ten days of July 27, 1997. A change in supervision status of a sex offender who was required to register under this subsection (4)(a)(iii) as of July 23, 1995, or a kidnapping offender required to register as of July 27, 1997 shall not relieve the offender of the duty to register or to reregister following a change in residence, or if the person is not a resident of Washington, the county of the person’s school, or place of employment or vocation. The obligation to register shall only cease pursuant to RCW 9A.44.140.

(iv) OFFENDERS WHO ARE CONVICTED BUT NOT CONFINED. Sex offenders who are convicted of a sex offense on or after July 28, 1991, for a sex offense that was committed on or after February 28, 1990, and kidnapping offenders who are convicted on or after July 27, 1997, for a kidnapping offense that was committed on or after July 27, 1997, but who are not sentenced to serve a term of confinement immediately upon sentencing, shall report to the county sheriff to register immediately upon completion of being sentenced.

(v) OFFENDERS WHO ARE NEW RESIDENTS OR RETURNING WASHINGTON RESIDENTS. Sex offenders and kidnapping offenders who move to Washington state from another state or a foreign country that are not under the jurisdiction of the state department of corrections, the indeterminate sentence review board, or the state department of social and health services at the time of moving to Washington, must register within thirty days of establishing residence or reestablishing residence if the person is a former Washington resident. The duty to register under this subsection applies to sex offenders convicted under the laws of another state or a foreign country, federal or military statutes, or Washington state for offenses committed on or after February 28, 1990, and to kidnapping offenders convicted under the laws of another state or a foreign country, federal or military statutes, or Washington state for offenses committed on or after July 27, 1997. Sex offenders and kidnapping offenders from other states or a foreign country who, when they move to Washington, are under the jurisdiction of the department of corrections, the indeterminate sentence review board, or the department of social and health services must register within twenty-four hours of moving to Washington. The agency that has jurisdiction over the offender shall notify the offender of the registration requirements before the offender moves to Washington.

(vi) OFFENDERS FOUND NOT GUILTY BY REASON OF INSANITY. Any adult or juvenile who has been found not guilty by reason of insanity under chapter 10.77 RCW of (A) committing a sex offense on, before, or after February 28, 1990, and who, on or after July 23, 1995, is in custody, as a result of that finding, of the state department of social and health services, or (B) committing a kidnapping offense on, before, or after July 27, 1997, and who on or after July 27, 1997, is in custody, as a result of that finding, of the state department of social and health services, must register within twenty-four hours from the time of release with the county sheriff for the county of the person’s residence. The state department of social and health services shall provide notice to the adult or juvenile in its custody of the duty to register. Any adult or juvenile who has been found not guilty by reason of insanity of committing a sex offense on, before, or after February 28, 1990, but who was released before July 23, 1995, or any
adult or juvenile who has been found not guilty by reason of insanity of committing a kidnapping offense but who was released before July 27, 1997, shall be required to register within twenty-four hours of receiving notice of this registration requirement. The state department of social and health services shall make reasonable attempts within available resources to notify sex offenders who were released before July 23, 1995, and kidnapping offenders who were released before July 27, 1997. Failure to register within twenty-four hours of release, or of receiving notice, constitutes a violation of this section and is punishable as provided in subsection 5(v) of this section.

(vi) OFFENDERS WHO LACK A FIXED RESIDENCE. Any person who lacks a fixed residence and leaves the county in which he or she is registered and enters and remains within a new county for twenty-four hours is required to register with the county sheriff not more than twenty-four hours after entering the county and provide the information required in subsection 3(b) of this section.

(vii) OFFENDERS WHO LACK A FIXED RESIDENCE AND WHO ARE UNDER SUPERVISION. Offenders who lack a fixed residence and who are under the supervision of the department shall register in the county of their supervision.

(viii) OFFENDERS WHO LACK A FIXED RESIDENCE AND WHO ARE UNDER SUPERVISION. Offenders who lack a fixed residence and who are under the supervision of the department shall register in the county of their supervision.

(b) Failure to register within the time required under this section constitutes a per se violation of this section and is punishable as provided in subsection 5(v) of this section. The county sheriff shall not be required to determine whether the person is living within the county.

(c) An arrest on charges of failure to register, service of an information, or a complaint for a violation of this section, or arraignment on charges for a violation of this section, constitutes actual notice of the duty to register. Any person charged with the crime of failure to register under this section who asserts as a defense the lack of notice of the duty to register shall register immediately following actual notice of the duty through arrest, service, or arraignment. Failure to register as required under this subsection 4(c) constitutes grounds for filing another charge of failing to register. Registering following arrest, service, or arraignment on charges shall not relieve the offender from criminal liability for failure to register prior to the filing of the original charge.

(d) The deadlines for the duty to register under this section do not relieve any sex offender of the duty to register under this section as it existed prior to July 28, 1991.

(9) If any person required to register pursuant to this section changes his or her residence address within the same county, the person must send written notice of the change of address to the county sheriff within seventy-two hours of moving. If any person required to register pursuant to this section moves to a new county, the person must send written notice of the change of address at least fourteen days before moving to the county sheriff in the new county of residence and must register with that county sheriff within twenty-four hours of moving. The person must also send written notice within ten days of the change of address in the new county to the county sheriff with whom the person last registered. The county sheriff with whom the person last registered shall promptly forward the information concerning the change of address to the county sheriff for the county of the person's new residence. If any person required to register pursuant to this section moves out of Washington state, the person must also send written notice within ten days of moving to the new state or a foreign country to the county sheriff with whom the person last registered in Washington state. Upon receipt of notice of change of address to a new state, the county sheriff shall promptly forward the information regarding the change of address to the agency designated by the new state as the state's offender registration agency.

(b) It is an affirmative defense to a charge that the person failed to send a notice at least fourteen days in advance of moving as required under (a) of this subsection that the person did not know the location of his or her new residence at least fourteen days before moving. The defendant must establish the defense by a preponderance of the evidence and, to prevail on the defense, must also prove by a preponderance that the defendant sent the required notice within twenty-four hours of determining the new address.

(10) Any person required to register under this section who lacks a fixed residence shall provide written notice to the sheriff of the county where he or she last registered within fourteen days after ceasing to have a fixed residence. The notice shall include the information required by subsection 3(b) of this section.

except the photograph and fingerprints. The county sheriff may, for reasonable cause, require the offender to provide a photograph and fingerprints. The sheriff shall forward this information to the sheriff of the county in which the person intends to reside, if the person intends to reside in another county.

(b) A person who lacks a fixed residence must report in person to the sheriff of the county where he or she is registered. If he or she has been classified as a risk level I sex or kidnapping offender, he or she must report monthly. If he or she has been classified as a risk level II or III sex or kidnapping offender, he or she must report weekly. The lack of a fixed residence is a factor that may be considered in determining a sex offender's risk level.
(c) If any person required to register pursuant to this section does not have a fixed residence, it is an affirmative
defense to the charge of failure to register, that he or she provided written notice to the sheriff of the county where he or she last
registered within fourteen days after ceasing to have a fixed residence and has subsequently complied with the requirements of
subsections (4)(a)(vii) or (viii) and (6) of this section. To prevail, the person must prove the defense by a preponderance of the
evidence.

[7] A sex offender subject to registration requirements under this section who applies to change his or her name under
RCW 4.24.130 or any other law shall submit a copy of the application to the county sheriff of the county of the person's residence
and to the state patrol not fewer than five days before the entry of an order granting the name change. No sex offender under the
requirement to register under this section at the time of application shall be granted an order changing his or her name if the court
finds that doing so will interfere with legitimate law enforcement interests, except that no order shall be denied when the name
change is requested for religious or legitimate cultural reasons or in recognition of marriage or dissolution of marriage. A sex
offender under the requirement to register under this section who receives an order changing his or her name shall submit a copy
of the order to the county sheriff of the county of the person's residence and to the state patrol within five days of the entry of the order.

(((3))) (8) The county sheriff shall obtain a photograph of the individual and shall obtain a copy of the individual's
fingerprints.

(((3))) (9) For the purpose of RCW 9A.44.130, 10.01.200, 43.43.540, 70.48.470, and 72.09.330:
(a) "Sex offense" means any offense defined as a sex offense by RCW 9.94A.030 and any violation of RCW 9.68A.040

degree), as well as any gross misdemeanor that is, under chapter 9A.28 RCW, a criminal attempt, criminal solicitation, or criminal
conspiracy to commit an offense that is classified as a sex offense under RCW 9.94A.030.
(b) "Kidnapping offense" means the crimes of kidnapping in the first degree, kidnapping in the second degree, and
unlawful imprisonment as defined in chapter 9A.40 RCW, where the victim is a minor and the offender is not the minor's parent.
(c) "Employed" or "carries on a vocation" means employment that is full-time or part-time for a period of time exceeding
fourteen days, or for an aggregate period of time exceeding thirty days during any calendar year. A person is employed or carries
on a vocation whether the person's employment is financially compensated, volunteered, or for the purpose of government or
educational benefit.
(d) "Student" means a person who is enrolled, on a full-time or part-time basis, in any public or private educational
institution. An educational institution includes any secondary school, trade or professional institution, or institution of higher
education.

(((4))) (10) A person who knowingly fails to register with the county sheriff or notify the county sheriff, or who changes
his or her name without notifying the county sheriff and the state patrol, as required by this section is guilty of a class C
felony if the crime for which the individual was convicted was a felony or a federal or out-of-state conviction for an offense that under
the laws of this state would be a felony. If the crime was other than a felony or a federal or out-of-state conviction for an offense that
under the laws of this state would be other than a felony, violation of this section is a gross misdemeanor.
