Strike everything after the enacting clause and insert the following:

NEW SECTION. Sec. 1. PURPOSE, FINDINGS, AND INTENT. (1) The purpose of this chapter is to provide for a safety net assessment on certain Washington hospitals, which will be used solely to augment funding from all other sources and thereby obtain additional funds to restore recent reductions and to support additional payments to hospitals for medicaid services.

(2) The legislature finds that:

(a) Washington hospitals, working with the department of social and health services, have proposed a hospital safety net assessment to generate additional state and federal funding for the medicaid program, which will be used to partially restore recent inpatient and outpatient reductions in hospital reimbursement rates and provide for an increase in hospital payments; and

(b) The hospital safety net assessment and hospital safety net assessment fund created in this chapter allows the state to generate additional federal financial participation for the medicaid program and provides for increased reimbursement to hospitals.

(3) In adopting this chapter, it is the intent of the legislature:

(a) To impose a hospital safety net assessment to be used solely for the purposes specified in this chapter;

(b) To generate federal financial participation and state thirty cents per bed per day to be used to provide additional payments to inpatient hospitals for medicaid services.
TWENTY SEVENTH DAY, APRIL 10, 2010

(b) That funds generated by the assessment shall be used solely to augment all other funding sources and not as a substitute for any other funds;

(c) That the total amount assessed not exceed the amount needed, in combination with all other available funds, to support the reimbursement rates and other payments authorized by this chapter; and

(d) To condition the assessment on receiving federal approval for receipt of additional federal financial participation and on continuation of other funding sufficient to maintain hospital inpatient and outpatient reimbursement rates and small rural disproportionate share payments at least at the levels in effect on July 1, 2009.

NEW SECTION. Sec. 2. Definitions. The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Certified public expenditure hospital" means a hospital participating in the department's certified public expenditure payment program as described in WAC 388-550-4650 or successor rule.

(d)(i) For purposes of (a) and (b) of this subsection, the department shall determine each hospital's annual nonmedicare hospital inpatient days by summing the total reported nonmedicare hospital inpatient days for each hospital that is not exempt from the assessment under section 5 of this act, taken from the most recent publicly available hospital 2552-96 cost report data file or successor data file available through the centers for medicare and medicaid services, as of a date to be determined by the department. If cost report data are unavailable from the foregoing source for any hospital subject to the assessment, the department shall collect such information directly from the hospital.

(4) Notwithstanding the provisions of section 8 of this act, nothing in this act is intended to prohibit a hospital from including assessment amounts paid in accordance with this section on their medicare and medicaid cost reports.

NEW SECTION. Sec. 5. EXEMPTIONS. The following hospitals are exempt from any assessment under this chapter provided that if and to the extent any exemption is held invalid by a court of competent jurisdiction or by the centers for medicare and medicaid services, hospitals previously exempted shall be liable for assessments due after the date of final invalidation:

(1) Hospitals owned or operated by an agency of federal or state government, including but not limited to western state hospital and eastern state hospital;

(2) Washington public hospitals that participate in the certified public expenditure program;

(3) Hospitals that do not charge directly or indirectly for hospital services; and

(4) Long-term acute care hospitals.

NEW SECTION. Sec. 6. ADMINISTRATION AND COLLECTION. (1) The department, in cooperation with the office of financial management, shall develop rules for determining the amount to be assessed to individual hospitals, notifying individual hospitals of the assessed amount, and collecting the amounts due. Such rule making shall specifically include provision for:

(a) Transmittal of quarterly notices of assessment by the department to each hospital informing the hospital of its nonmedicare hospital inpatient days and the assessment amount due and payable. Such quarterly notices shall be sent to each hospital at least thirty calendar days prior to the due date for the quarterly assessment payment.

(b) Interest on delinquent assessments at the rate specified in RCW 82.32.050.

(c) Adjustment of the assessment amounts as follows:

(i) For each fiscal year beginning July 1, 2010, the assessment amounts under section 4 (1) and (3) of this act may be adjusted as follows:

(A) If sufficient other funds for hospitals, excluding any extension of section 5001 of P.L. No. 111-5, are available to support the reimbursement rates and other payments under section 9, 10, 11, 12, or 13 of this act without utilizing the full assessment authorized under section 4 (1) or (3) of this act, the department shall reduce the amount of the assessment for prospective payment system, psychiatric, and rehabilitation hospitals proportionately to the minimum level necessary to support those reimbursement rates and other payments.

(B) Provided that none of the conditions set forth in section 17(2) of this act have occurred, if the department's forecasts indicate that the assessment amounts under section 4 (1) and (3) of this act, together with all other available funds, are not sufficient to support the reimbursement rates and other payments under section 9, 10, 11, 12, or 13 of this act, the department shall increase the assessment
rates for prospective payment system, psychiatric, and rehabilitation hospitals proportionately to the amount necessary to support those reimbursement rates and other payments, plus a contingency factor up to ten percent of the total assessment amount.

(C) Any positive balance remaining in the fund at the end of the fiscal year shall be applied to reduce the assessment amount for the subsequent fiscal year.

(ii) Any adjustment to the assessment amounts pursuant to this subsection, and the data supporting such adjustment, including but not limited to relevant data listed in subsection (2) of this section, must be submitted to the Washington state hospital association for review and comment at least sixty calendar days prior to implementation of such adjusted assessment amounts. Any review and comment provided by the Washington state hospital association shall not limit the ability of the Washington state hospital association or its members to challenge an adjustment or other action by the department that is not made in accordance with this chapter.

(2) By November 30th of each year, the department shall provide the following data to the Washington state hospital association:

(a) The fund balance;
(b) The amount of assessment paid by each hospital;
(c) The annual medicaid fee-for-service payments for inpatient hospital services and outpatient hospital services; and
(d) The medicaid healthy options inpatient and outpatient payments as reported by all hospitals to the department on disproportionate share hospital applications. The department shall amend the disproportionate share hospital application and reporting instructions as needed to ensure that the foregoing data is reported by all hospitals as needed in order to comply with this subsection (2)(d).

(3) The department shall determine the number of nonmedicare hospital inpatient days for each hospital for each assessment period.

(4) To the extent necessary, the department shall amend the contracts between the managed care organizations and the department and between regional support networks and the department to incorporate the provisions of section 13 of this act. The department shall pursue amendments to the contracts as soon as possible after the effective date of this act. The amendments to the contracts shall, among other provisions, provide for increased payment rates to managed care organizations in accordance with section 13 of this act.

NEW SECTION. Sec. 7. LOCAL ASSESSMENTS OR TAXES NOT AUTHORIZED. Nothing in this chapter shall be construed to authorize any unit of local government to impose a tax or assessment on hospitals, including but not limited to a tax or assessment measured by a hospital's income, earnings, bed days, or other similar measures.

NEW SECTION. Sec. 8. ASSESSMENT PART OF OPERATING OVERHEAD. The incidence and burden of assessments imposed under this chapter shall be on hospitals and the expense associated with the assessments shall constitute a part of the operating overhead of hospitals. Hospitals shall not increase charges or billings to patients or third-party payers as a result of the assessments under this chapter. The department may require hospitals to submit certified statements by their chief financial officers or equivalent officials attesting that they have not increased charges or billings as a result of the assessments.

NEW SECTION. Sec. 9. RESTORATION OF JUNE 30, 2009, REIMBURSEMENT RATES. Upon satisfaction of the applicable conditions set forth in section 17(1) of this act, the department shall:

(1) Restore medicaid inpatient and outpatient reimbursement rates to levels as if the four percent medicaid inpatient and outpatient rate reductions did not occur on July 1, 2009; and

(2) Recalculate the amount payable to each hospital that submitted an otherwise allowable claim for inpatient and outpatient medicaid-covered services rendered from and after July 1, 2009, up to and including the date when the applicable conditions under section 17(1) of this act have been satisfied, as if the four percent medicaid inpatient and outpatient rate reductions did not occur effective July 1, 2009, and, within sixty calendar days after the date upon which the applicable conditions set forth in section 17(1) of this act have been satisfied, remit the difference to each hospital.

NEW SECTION. Sec. 10. INCREASED HOSPITAL PAYMENTS. (1) Upon satisfaction of the applicable conditions set forth in section 17(1) of this act and for services rendered on or after February 1, 2010, the department shall increase the medicaid inpatient and outpatient fee-for-service hospital reimbursement rates in effect on June 30, 2009, by the percentages specified below:

(a) Prospective payment system hospitals:
   (i) Inpatient psychiatric services: Thirteen percent;
   (ii) Inpatient services: Thirteen percent;
   (iii) Outpatient services: Thirty-six and eighty-three one-hundredths percent.

(b) Harborview medical center and University of Washington medical center:
   (i) Inpatient psychiatric services: Three percent;
   (ii) Inpatient services: Three percent;
   (iii) Outpatient services: Twenty-one percent.

(2) For claims processed for services rendered on or after February 1, 2010, but prior to satisfaction of the applicable conditions specified in section 17(1) of this act, the department shall, within sixty calendar days after satisfaction of those conditions, calculate the amount payable to hospitals in accordance with this section and remit the difference to each hospital that has submitted an otherwise allowable claim for payment for such services.  

(3) By December 1, 2012, the department will submit a study to the legislature with recommendations on the amount of the assessments necessary to continue to support hospital payments for the 2013-15 biennium.  The evaluation will assess medicaid hospital payments relative to medicaid hospital costs. The study should address current federal law, including any changes on scope of medicaid coverage, provisions related to provider taxes, and impacts of federal health care reform legislation.  The study should also address the state's economic forecast.  Based on the forecast, the department should recommend the amount of assessment needed to support future hospital payments and the departmental administrative expenses.  Recommendations should be developed with the fiscal committees of the legislature, office of financial management and the Washington state hospital association.

(4) TWENTY SEVENTH DAY, APRIL 10, 2010
conditions under section 17(1) of this act are satisfied, shall be made within sixty calendar days after such conditions are satisfied. Subsequent payments shall be made to critical access hospitals on an annual basis at the time that disproportionate share eligibility and payment for the state fiscal year are established. These payments shall be in addition to any other amount payable with respect to services provided by critical access hospitals and shall not reduce any other payments to critical access hospitals.

NEW SECTION. Sec. 12. DISPROPORTIONATE SHARE HOSPITAL PAYMENTS. Upon satisfaction of the applicable conditions set forth in section 17(1) of this act, small rural disproportionate share payments shall be increased to one hundred twenty percent of the level in effect as of June 30, 2009, for the period from and after July 1, 2009, until July 1, 2013. Initial payments, covering the period from July 1, 2009, to the date when the applicable conditions under section 17(1) of this act are satisfied, shall be made within sixty calendar days after those conditions are satisfied. Subsequent payments shall be made directly to hospitals by the department on a periodic basis.

NEW SECTION. Sec. 13. INCREASED MANAGED CARE PAYMENTS AND CORRESPONDING PAYMENTS TO HOSPITALS. Subject to the applicable conditions set forth in section 17(1) of this act, the department shall:

1. Amend medicaid-managed care and regional support network contracts as necessary in order to ensure compliance with this chapter;

2. With respect to the inpatient and outpatient rates established by section 9 of this act:

   a. Upon satisfaction of the applicable conditions under section 17(1) of this act, increase payments to managed care organizations and regional support networks as necessary to ensure that hospitals are reimbursed in accordance with section 9(1) of this act for services rendered from and after the date when applicable conditions under section 17(1) of this act have been satisfied, and pay an additional amount equal to the estimated amount of additional state taxes on managed care organizations or regional support networks to make payments to each hospital in accordance with section 9(2) of this act are satisfied, and pay an additional amount equal to the estimated amount of additional state taxes on managed care organizations or regional support networks to make payments to each hospital in accordance with section 9(2) of this act are satisfied, shall be made within sixty calendar days after those conditions are satisfied. Subsequent payments shall be made directly to hospitals by the department on a periodic basis.

   b. Within sixty calendar days after satisfaction of the applicable conditions under section 17(1) of this act, calculate the additional amount due to each hospital to pay claims submitted for inpatient and outpatient medicaid-covered services rendered after the date that the applicable conditions under section 17(1) of this act are satisfied at rates no lower than the combined rates established by sections 9 and 10 of this act;

   c. Within sixty calendar days after satisfaction of the applicable conditions under section 17(1) of this act, calculate the additional amount due to each hospital to pay claims submitted for inpatient and outpatient medicaid-covered services rendered from and after February 1, 2010, through the date when the applicable conditions under section 17(1) of this act are satisfied based on the rates required by section 10 of this act, make payments to managed care organizations and regional support networks in amounts sufficient to pay the additional amounts due to each hospital plus an additional amount equal to the estimated amount of additional state taxes on managed care organizations or regional support networks, and require managed care organizations and regional support networks to make payments to each hospital in accordance with the department's calculations within forty-five calendar days after the department disburses funds for those purposes;

3. Quality measures chosen for the system should be consistent with the standards that have been developed by national quality improvement organizations, such as the national quality forum, the federal centers for medicare and medicaid services, or the federal agency for healthcare research and quality. New reporting burdens are reimbursed in accordance with section 10 of this act, and pay an additional amount equal to the estimated amount of additional state taxes on managed care organizations or regional support networks due as a result of the payments under this section;

   b. Require managed care organizations and regional support networks to reimburse hospitals for hospital inpatient and outpatient services rendered after the date that the applicable conditions under section 17(1) of this act are satisfied at rates no lower than the combined rates established by sections 9 and 10 of this act;

   c. Within sixty calendar days after satisfaction of the applicable conditions under section 17(1) of this act, calculate the additional amount due to each hospital to pay claims submitted for inpatient and outpatient medicaid-covered services rendered from and after February 1, 2010, through the date when the applicable conditions under section 17(1) of this act are satisfied based on the rates required by section 10 of this act, make payments to managed care organizations and regional support networks in amounts sufficient to pay the additional amounts due to each hospital plus an additional amount equal to the estimated amount of additional state taxes on managed care organizations or regional support networks, and require managed care organizations and regional support networks to make payments to each hospital in accordance with the department's calculations within forty-five calendar days after the department disburses funds for those purposes;

   d. Require managed care organizations that contract with health care organizations that provide, directly or by contract, health care services on a prepaid or capitated basis to make payments to health care organizations for any of the hospital payments that the managed care organizations would have been required to pay to hospitals under this section if the managed care organizations did not contract with those health care organizations, and require the managed care organizations to make equivalent payments to the hospitals that would have received payments under this section if the managed care organizations did not contract with the health care organizations;

   e. Within sixty calendar days after satisfaction of the applicable conditions under section 17(1) of this act, the department may require managed care organizations to require those health care organizations to make equivalent payments to the hospitals that would have received payments under this section if the managed care organizations did not contract with the health care organizations;

   f. The department shall ensure that the increases to the medicaid fee schedules as described in section 10 of this act are included in the development of healthy options premiums.

   g. The department may require managed care organizations and regional support networks to demonstrate compliance with this section.

NEW SECTION. Sec. 14. QUALITY INCENTIVE PAYMENTS. (1) The department, in collaboration with the health care authority, the department of health, the department of labor and industries, the Washington state hospital association, the Puget Sound health alliance, and the forum, a collaboration of health carriers, physicians, and hospitals in Washington state, shall design a system of hospital quality incentive payments. The design of the system shall be submitted to the relevant policy and fiscal committees of the legislature by December 15, 2010. The system shall be based upon the following principles:

   a. Evidence-based treatment and processes shall be used to improve health care outcomes for hospital patients;

   b. Effective purchasing strategies to improve the quality of health care services should involve the use of common quality improvement measures by public and private health care purchasers, while recognizing that some measures may not be appropriate for application to specialty pediatric, psychiatric, or rehabilitation hospitals;

   c. Quality measures chosen for the system should be consistent with the standards that have been developed by national quality improvement organizations, such as the national quality forum, the federal centers for medicare and medicaid services, or the federal agency for healthcare research and quality. New reporting burdens
to hospitals should be minimized by giving priority to measures hospitals are currently required to report to governmental agencies, such as the hospital compare measures collected by the federal centers for medicare and medicaid services;

(d) Benchmarks for each quality improvement measure should be set at levels that are feasible for hospitals to achieve, yet represent real improvements in quality and performance for a majority of hospitals in Washington state; and

(e) Hospital performance and incentive payments should be designed in a manner such that all noncritical access hospitals in Washington are able to receive the incentive payments if performance is at or above the benchmark score set in the system established under this section.

(2) Upon satisfaction of the applicable conditions set forth in section 17(1) of this act, and for state fiscal year 2013 and each fiscal year thereafter, assessments may be increased to support an additional one percent increase in inpatient hospital rates for noncritical access hospitals that meet the quality incentive benchmarks established under this section.

NEW SECTION. Sec. 15. A new section is added to chapter 70.47 RCW to read as follows:

The increases in inpatient and outpatient reimbursement rates included in chapter 74.--- RCW (the new chapter created in section 23 of this act) shall not be reflected in hospital payment rates for services provided to basic health enrollees under this chapter.

NEW SECTION. Sec. 16. Upon MULTIHOSPITAL LOCATIONS, NEW HOSPITALS, AND CHANGES IN OWNERSHIP. (1) If an entity owns or operates more than one hospital subject to assessment under this chapter, the entity shall pay the assessment for each hospital separately. However, if the entity operates multiple hospitals under a single medicaid provider number, it may pay the assessment for the hospitals in the aggregate.

(2) Notwithstanding any other provision of this chapter, if a hospital subject to the assessment imposed under this chapter ceases to conduct hospital operations throughout a state fiscal year, the assessment for the quarter in which the cessation occurs shall be adjusted by multiplying the assessment computed under section 4 (1) and (3) of this act by a fraction, the numerator of which is the number of days during the year which the hospital conducts, operates, or maintains the hospital and the denominator of which is three hundred sixty-five. Immediately prior to ceasing to conduct, operate, or maintain a hospital, the hospital shall pay the adjusted assessment for the fiscal year to the extent not previously paid.

(3) Notwithstanding any other provision of this chapter, in the case of a hospital that commences conducting, operating, or maintaining a hospital that is not exempt from payment of the assessment under section 5 of this act and that did not conduct, operate, or maintain such hospital throughout the cost reporting year used to determine the assessment amount, the assessment for that hospital shall be computed on the basis of the actual number of nonmedicare inpatient days reported to the department by the hospital on a quarterly basis. The hospital shall be eligible to receive increased payments under this chapter beginning on the date it commences hospital operations.

(4) Notwithstanding any other provision of this chapter, if a hospital previously subject to assessment is sold or transferred to another entity and remains subject to assessment, the assessment for that hospital shall be computed based upon the cost report data previously submitted by that hospital. The assessment shall be allocated between the transferee and transferee based on the number of days within the assessment period that each owned, operated, or maintained the hospital.

NEW SECTION. Sec. 17. CONDITIONS. (1) The assessment, collection, and disbursement of funds under this chapter shall be conditional upon:

(a) Withdrawal of those aspects of any pending state plan amendments previously submitted to the centers for medicare and medicaid services that are inconsistent with this chapter, specifically any pending state plan amendment related to the four percent rate reductions for inpatient and outpatient hospital rates and elimination of the small rural disproportionate share hospital payment program as implemented July 1, 2009;

(b) Approval by the centers for medicare and medicaid services of any state plan amendments or waiver requests that are necessary in order to implement the applicable sections of this chapter;

(c) To the extent necessary, amendment of contracts between the department and managed care organizations in order to implement this chapter; and

(d) Certification by the office of financial management that appropriations have been adopted that fully support the rates established in this chapter for the upcoming fiscal year.

(2) This chapter does not take effect or cease to be imposed, and any moneys remaining in the fund shall be refunded to hospitals in proportion to the amounts paid by such hospitals, if and to the extent that:

(a) An appellate court or the centers for medicare and medicaid services makes a final determination that any element of this chapter, other than section 11 of this act, cannot be validly implemented;

(b) Medicaid inpatient or outpatient reimbursement rates for hospitals are reduced below the combined rates established by sections 9 and 10 of this act;

(c) Except for payments to the University of Washington medical center and harborview medical center, payments to hospitals required under sections 9, 10, 12, and 13 of this act are not eligible for federal matching funds;

(d) Other funding available for the medicaid program is not sufficient to maintain medicaid inpatient and outpatient reimbursement rates for hospitals and small rural disproportionate share payments at one hundred percent of the levels in effect on July 1, 2009; or

(e) The fund is used as a substitute for or to supplant other funds, except as authorized by section 3(3)(e) of this act.

NEW SECTION. Sec. 18. SEVERABILITY. (1) The provisions of this chapter are not severable: If the conditions set forth in section 17(1) of this act are not satisfied or if any of the circumstances set forth in section 17(2) of this act should occur, this entire chapter shall have no effect from that point forward, except that if the payment under section 11 of this act, or the application thereof to any hospital or circumstances does not receive approval by the centers for medicare and medicaid services as described in section 17(1)(b) of this act or is determined to be unconstitutional or otherwise invalid, the other provisions of this chapter or its application to hospitals or circumstances other than those to which it is held invalid shall not be affected thereby.

(2) In the event that any portion of this chapter shall have been validly implemented and the entire chapter is later rendered ineffective under this section, prior assessments and payments under the validly implemented portions shall not be affected.

(3) In the event that the payment under section 11 of this act, or the application thereof to any hospital or circumstances does not receive approval by the centers for medicare and medicaid services as described in section 17(1)(b) of this act or is determined to be unconstitutional or otherwise invalid, the amount of the assessment shall be adjusted under section 6(1)(c) of this act.

Sec. 19. 2009 c 564 s 209 (uncodified) is amended to read as follows:

FOR THE DEPARTMENT OF SOCIAL AND HEALTH SERVICES--MEDICAL ASSISTANCE PROGRAM General Fund--State Appropriation (FY 2010)......$1,597,387,000
The appropriations in this section are subject to the following conditions and limitations:

(1) Based on quarterly expenditure reports and caseload forecasts, if the department estimates that expenditures for the medical assistance program will exceed the appropriations, the department shall take steps including but not limited to reduction of rates or elimination of optional services to reduce expenditures so that total program costs do not exceed the annual appropriation authority.

(2) In determining financial eligibility for medicaid-funded services, the department is authorized to disregard recoveries by Holocaust survivors of insurance proceeds or other assets, as defined in RCW 48.104.030.

(3) The legislature affirms that it is in the state's interest for Harborview medical center to remain an economically viable component of the state's health care system.

(4) When a person is ineligible for medicaid solely by reason of residence in an institution for mental diseases, the department shall provide the person with the same benefits as he or she would receive if eligible for medicaid, using state-only funds to the extent necessary.

(5) In accordance with RCW 74.46.625, $6,000,000 of the general fund--federal appropriation is provided solely for supplemental payments to nursing homes operated by public hospital districts. The public hospital district shall be responsible for providing the required nonfederal match for the supplemental payment, and the payments shall not exceed the maximum allowable under federal rules. It is the legislature's intent that the payments shall be supplemental to and shall not in any way offset or reduce the payments calculated and provided in accordance with part E of chapter 74.46 RCW. It is the legislature's further intent that costs otherwise allowable for rate-setting and settlement against payments under chapter 74.46 RCW shall not be disallowed solely because such costs have been paid by revenues retained by the nursing home from these supplemental payments. The supplemental payments are subject to retrospective interim and final cost settlements based on the nursing homes' as-filed and final medicare cost reports. The timing of the interim and final cost settlements shall be at the department's discretion. During either the interim cost settlement or the final cost settlement, the department shall recoup from the public hospital districts the supplemental payments that exceed the medicaid cost limit and/or the medicare upper payment limit. The department shall apply federal rules for identifying the eligible incurred medicaid costs and the medicare upper payment limit.

(6) $1,110,000 of the general fund--federal appropriation and $1,105,000 of the general fund--state appropriation for fiscal year 2011 are provided solely for grants to rural hospitals. The department shall distribute the funds under a formula that provides a relatively larger share of the available funding to hospitals that (a) serve a disproportionate share of low-income and medically indigent patients, and (b) have relatively smaller net financial margins, to the extent allowed by the federal medicaid program.

(7) $9,818,000 of the general fund--federal appropriation for fiscal year 2011, and $9,865,000 of the general fund--federal appropriation are provided solely for grants to nonrural hospitals. The department shall distribute the funds under a formula that provides a relatively larger share of the available funding to hospitals that (a) serve a disproportionate share of low-income and medically indigent patients, and (b) have relatively smaller net financial margins, to the extent allowed by the federal medicaid program.

(8) The department shall continue the inpatient hospital certified public expenditures program for the 2009-11 biennium. The program shall apply to all public hospitals, including those owned or operated by the state, except those classified as critical access hospitals or state psychiatric institutions. The department shall submit reports to the governor and legislature by November 1, 2009, and by November 1, 2010, that evaluate whether savings continue to exceed costs for this program. If the certified public expenditures (CPE) program in its current form is no longer cost-effective to maintain, the department shall submit a report to the governor and legislature detailing cost-effective alternative uses of local, state, and federal resources as a replacement for this program. During fiscal year 2010 and fiscal year 2011, hospitals in the program shall be paid and shall retain one hundred percent of the federal portion of the allowable hospital cost for each medicaid inpatient fee-for-service claim payable by medical assistance and one hundred percent of the federal portion of the maximum disproportionate share hospital payment allowable under federal regulations.

Inpatient medicaid payments shall be established using an allowable methodology that approximates the cost of claims submitted by the hospitals. Payments made to each hospital in the program in each fiscal year of the biennium shall be compared to a baseline amount. The baseline amount will be determined by the total of (a) the inpatient claim payment amounts that would have been paid during the fiscal year had the hospital not been in the CPE program and based on the reimbursement rates developed, implemented, and consistent with policies approved in the 2009-11 biennial operating appropriations act (chapter 564, Laws of 2009) and in effect on July 1, 2009, (b) one half of the indigent assistance disproportionate share hospital payment amounts paid to and retained by each hospital during fiscal year 2005, and (c) all of the other disproportionate share hospital payment amounts paid to and retained by each hospital during fiscal year 2005 to the extent the same disproportionate share hospital programs exist in the 2009-11 biennium. If payments during the fiscal year exceed the hospital's baseline amount, no additional payments will be made to the hospital except the federal portion of allowable disproportionate share hospital payments for which the hospital can certify allowable match. If payments during the fiscal year are less than the baseline amount, the hospital will be paid a state grant equal to the difference between payments during the fiscal year and the applicable baseline amount. Payment of the state grant shall be made in the applicable fiscal year and distributed in monthly payments. The grants will be recalculated and redistributed as the baseline is updated during the fiscal year. The grant payments are subject to an interim settlement within eleven months after the end of the fiscal year. A final settlement shall be performed. To the extent that either settlement determines that a hospital has received funds in excess of what it would have received as described in this subsection, the hospital must repay the excess amounts to the state when requested.

$6,570,000 of the general fund--state appropriation for fiscal year 2010, which is appropriated in section 204(1) of this act, and $1,500,000 of the general fund--state appropriation for fiscal year 2011, which is appropriated in section 204(1) of this act, are provided solely for state grants for the participating hospitals. Sufficient amounts are appropriated in this section for the remaining state grants for the participating hospitals. CPE hospitals will receive the inpatient and outpatient reimbursement rate restorations in section 9 and rate increases in section 10 (1) (b) of Engrossed Second Substitute House Bill 2956 (hospital safety net assessment)
funded through the hospital safety net assessment fund rather than through the baseline mechanism specified in this section.

(9) The department is authorized to use funds appropriated in this section to purchase goods and supplies through direct contracting with vendors when the department determines it is cost-effective to do so.

(10) Sufficient amounts are appropriated in this section for the department to continue podiatry services for medicaid-eligible adults.

(11) Sufficient amounts are appropriated in this section for the department to provide an adult dental benefit that is at least equivalent to the benefit provided in the 2003-05 biennium.

(12) $93,000 of the general fund--state appropriation for fiscal year 2010 and $93,000 of the general fund--federal appropriation are provided solely for the department to pursue a federal Medicaid waiver pursuant to Second Substitute Senate Bill No. 5945 (Washington health partnership plan). If the bill is not enacted by June 30, 2009, the amounts provided in this subsection shall lapse.

(13) The department shall require managed health care systems that have contracts with the department to serve medical assistance clients to limit any reimbursements or payments the systems make to providers not employed by or under contract with the systems to no more than the medical assistance rates paid by the department to providers for comparable services rendered to clients in the fee-for-service delivery system.

(14) Appropriations in this section are sufficient for the department to continue to fund family planning nurses in the community services offices.

(15) The department, in coordination with stakeholders, will conduct an analysis of potential savings in utilization of home dialysis. The department shall present its findings to the appropriate house of representatives and senate committees by December 2010.

(16) A maximum of $166,875,000 of the general fund--state appropriation and $38,389,000 of the general fund--federal appropriation may be expended in the fiscal biennium for the general assistance-unemployable medical program, and these amounts are provided solely for this program. Of these amounts, $10,749,000 of the general fund--state appropriation for fiscal year 2010 and $10,892,000 of the general fund--federal appropriation are provided solely for payments to hospitals for providing outpatient services to low income patients who are recipients of general assistance-unemployable. Pursuant to RCW 74.09.035, the department shall not expend for the general assistance medical care program any amounts in excess of the amounts provided in this subsection.

(17) If the department determines that it is feasible within the amounts provided in subsection (16) of this section, and without the loss of federal disproportionate share hospital funds, the department shall contract with the carrier currently operating a managed care pilot project for the provision of medical care services to general assistance-unemployable clients. Mental health services shall be included in the services provided through the managed care system. If the department determines that it is feasible, effective October 1, 2009, in addition to serving clients in the pilot counties, the carrier shall expand managed care services to clients residing in at least the following counties: Spokane, Yakima, Chelan, Kitsap, and Cowlitz. If the department determines that it is feasible, the carrier shall complete implementation into the remaining counties. Total per person costs to the state, including outpatient and inpatient services and any additional costs due to stop loss agreements, shall not exceed the per capita payments projected for the general assistance-unemployable eligibility category, by fiscal year, in the February 2009 medical assistance expenditures forecast. The department, in collaboration with the carrier, shall seek to improve the transition rate of general assistance clients to the federal supplemental security income program.

(18) The department shall evaluate the impact of the use of a managed care delivery and financing system on state costs and outcomes for general assistance medical clients. Outcomes measured shall include state costs, utilization, changes in mental health status and symptoms, and involvement in the criminal justice system.

(19) The department shall report to the governor and the fiscal committees of the legislature by June 1, 2010, on its progress toward achieving a twenty percentage point increase in the generic prescription drug utilization rate.

(20) State funds shall not be used by hospitals for advertising purposes.

(21) The department shall seek a medicaid state plan amendment to create a professional services supplemental payment program for University of Washington medicine professional providers no later than July 1, 2009. The department shall apply federal rules for identifying the shortfall between current fee-for-service medicaid payments to participating providers and the applicable federal upper payment limit. Participating providers shall be solely responsible for providing the local funds required to obtain federal matching funds. MR. PRESIDENT:
The House passed ENGROSSED SUBSTITUTE SENATE BILL NO. 2956 as amended by the Senate, having received the following:

"NEW SECTION. Sec. 1. The legislature declares that unprecedented revenue shortfalls necessitate immediate action to reduce expenditures during the 2009-2011 fiscal biennium. From the effective date of this section, it is the intent of the legislature that state agencies of the legislative branch, judicial branch, and executive branch including institutions of higher education, shall achieve a reduction in government operating expenses as provided in this act. It is the legislature's intent that, to the extent that the reductions in expenditures reduce compensation costs, agencies and institutions shall strive to preserve family wage jobs by reducing the impact of temporary layoffs on lower-wage jobs.

NEW SECTION. Sec. 2. State agencies and institutions shall achieve reductions in compensation expenditures for employees employed by general government state agencies in Washington management services, or exempt positions as managers, as defined in RCW 41.06.022, as provided in the omnibus appropriations act. These reductions shall be sufficient to attain a savings of $10 million general fund--state for fiscal year 2011. Savings in other funds and accounts shall be achieved as provided in the omnibus appropriations act.

NEW SECTION. Sec. 3. (1)(a) The office of financial management shall certify to each executive branch state agency and institution of higher education the compensation reduction amount to be achieved by that agency or institution. Each agency and institution shall achieve compensation expenditure reductions as provided in the omnibus appropriations act.

(b) Each executive branch state agency other than institutions of higher education may submit to the office of financial management a compensation reduction plan to achieve the cost reductions as provided in the omnibus appropriations act. The compensation reduction plan of each executive branch agency may include, but is not limited to, employee leave without pay, including mandatory and voluntary temporary layoffs, reductions in the agency workforce, compensation reductions, and reduced work hours, as well as separation, incentive programs authorized by section 912, chapter 564, Laws of 2009.

The amount of compensation cost reductions to be achieved by each agency shall be adjusted to reflect voluntary and mandatory temporary layoffs at the agency during the 2009-2011 fiscal biennium and implemented prior to January 1, 2010, but not adjusted by other compensation reduction plans adopted as a result of the enactment of chapter 564, Laws of 2009, or the enactment of other compensation cost reduction measures applicable to the 2009-2011 fiscal biennium.

(c) Each institution of higher education must submit to the office of financial management a compensation and operations reduction plan to achieve at least the cost reductions as provided in the omnibus appropriations act. The amount of cost reductions to be achieved by each institution shall be adjusted to reflect voluntary and mandatory temporary layoffs at the institution during the 2009-2011 fiscal biennium and implemented prior to January 1, 2010, but not adjusted by other compensation reduction plans adopted as a result of the enactment of chapter 564, Laws of 2009, or the enactment of other compensation cost reduction measures applicable to the 2009-2011 fiscal biennium.

(d) The director of financial management shall review, approve, and submit to the legislative fiscal committees those executive branch state agencies and higher education institution plans that achieve the cost reductions as provided in the omnibus appropriations act. For those executive branch state agencies and institutions of higher education that do not have an approved compensation and operations reduction plan, the institution shall be closed on the dates specified in subsection (2) of this section.

(e) For each agency of the legislative branch, the chief clerk of the house of representatives and the secretary of the senate shall review and approve a plan of employee mandatory and voluntary leave for the 2009-2011 fiscal biennium that achieves the cost reductions as provided in the omnibus appropriations act. The amount of compensation cost reductions to be achieved shall be adjusted, if necessary, to reflect voluntary and mandatory temporary layoffs at the agencies during the 2009-2011 fiscal biennium and implemented prior to January 1, 2010.

(f) For each agency of the judicial branch, the supreme court shall review and approve a plan of employee mandatory and voluntary leave for the 2009-2011 fiscal biennium that achieve the cost reductions as provided in the omnibus appropriations act. (ii) The employee has been called to service in the uniformed services;

(iii) A state of emergency has been declared anywhere within the United States by the federal or any state government and the employee has needed skills to assist in responding to the emergency or its aftermath and volunteers his or her services to either a governmental agency or to a nonprofit organization engaged in humanitarian relief in the devastated area, and the governmental agency or nonprofit organization accepts the employee's offer of volunteer services; (wmg)

(2) The agency head shall determine the amount of leave, if any, which an employee may receive under this section. However, an employee shall not receive a total of more than two hundred sixty-one days of leave, except that shared leave received under the uniformed service shared leave pool in RCW 41.04.685 is not included in this total.

(3) An employee may transfer annual leave, sick leave, and his or her personal holiday, as follows:

(a) An employee who has an accrued annual leave balance of more than ten days may request that the head of the agency for which the employee works transfer a specified amount of annual leave to another employee authorized to receive leave under subsection (1) of this section. For purposes of this subsection (3)(a), annual leave does not accrue if the employee receives compensation in lieu of accumulating a balance of annual leave.

(b) An employee may transfer a specified amount of sick leave to an employee requesting shared leave only when the donating employee retains a minimum of one hundred seventy-six hours of sick leave after the transfer.

Under this subsection, "sick leave" also includes leave accrued pursuant to RCW 28A.400.300(2) or 28A.310.240(1) with compensation for illness, injury, and emergencies.

(5) Transfers of leave made by an agency head under subsections (3) and (4) of this section shall not exceed the requested amount.

(a) All salary and wage payments made to employees while on leave transferred under this section shall be made by the agency employing the person receiving the leave. The value of leave transferred shall be based upon the leave value of the person receiving the leave.

Receive from the affected employee a statement from the employee's doctor verifying that the illness or injury is resolved. To the extent administratively feasible, the value of any leave transferred under this section which remains unused shall be returned at its original value to the employee or employees who transferred the leave when the agency head finds that the leave is no longer needed or will not be needed at a future time in connection with the illness or injury for which the leave was transferred or for any other qualifying condition. Before the agency head makes a determination to return unused leave in connection with an illness or injury, or any other qualifying condition, he or she must receive from the affected employee a statement from the employee's doctor verifying that the illness or injury is resolved. To the extent administratively feasible, the value of unused leave which was transferred by more than one employee shall be returned on a pro rata basis.

An employee who uses leave that is transferred to him or her under this section may not be required to repay the value of the leave that he or she used.

NEW SECTION. Sec. 11. If any part of this act is found to be in conflict with federal requirements that are a prescribed condition to the allocation of federal funds to the state, the conflicting part of this act is inoperative solely to the extent of the conflict and with respect to the agencies directly affected, and this finding does not affect the operation of the remainder of this act in its application to the agencies concerned. Rules adopted under this act must meet federal requirements that are a necessary condition to the receipt of federal funds by the state.

NEW SECTION. Sec. 12. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected.

NEW SECTION. Sec. 13. This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect immediately."

(originally sponsored by Representatives Probst, Kenney, Conway, Maxwell, Jacks, White, Simpson, Seaquist, Sells, Goodman, Ormsby and Santos)

Creating the opportunity express program.

The measure was read the second time.

MOTION

Senator Prentice moved that the following committee striking amendment by the Committee on Ways & Means be adopted:

Strike everything after the enacting clause and insert the following:

NEW SECTION. Sec. 1. (1) The legislature finds that in times of severe economic recession, the state has a special obligation to help unemployed and low-income citizens access the training and education necessary to help them find and keep living wage jobs. The legislature also finds that during times of recession, when state revenues are at their lowest, demand for education and training are at their highest, making it especially important for the legislature to set clear goals and make the most efficient use of limited state resources.

(2) The legislature therefore intends to expand training and education programs, which have proven to be successful, to help Washington citizens receive the training they need. These programs include the worker retraining program, the opportunity grant program, and the opportunity internship program. The legislature further intends to create more effective intake and outreach systems to reach the greatest number of citizens and connect them to the resources they need, including college, apprenticeship, and preapprenticeship.

Sec. 2. RCW 28C.04.390 and 1999 c 121 s 1 are each amended to read as follows:

(1) The college board worker retraining program funds shall be used for training programs and related support services, including financial aid, counseling, referral to training resources, job referral, and job development that:

(a) Are consistent with the unified plan for workforce development;

(b) Provide increased enrollments for dislocated workers;

(c) Provide customized training opportunities for dislocated workers; and

(d) Provide increased enrollments and support services, including financial aid for those students not receiving unemployment insurance benefits, that do not replace or supplant any existing enrollments, programs, support services, or funding sources.

(2) The college board shall develop a plan for use of the worker retraining program funds in conjunction with the workforce training customer advisory committee established in subsection (3) of this section. In developing the plan the college board shall:

(a) Provide that applicants for worker retraining program funds shall solicit financial support for training programs and give priority in receipt of funds to those applicants which are most successful in matching public dollars with financial support;

(b) Provide that applicants for worker retraining program funds shall develop training programs in partnership with local businesses, industry associations, labor, and other partners as appropriate and give priority in receipt of funds to those applicants who develop customized training programs in partnership with local businesses, industry associations, and labor organizations;

(c) Give priority in receipt of funds to those applicants serving rural areas;

(d) Ensure that applicants receiving worker retraining program funds gather information from local workforce development councils on employer workforce needs, including the needs of businesses with less than twenty-five employees; and

(e) Provide for specialized vocational training at a private career school or college at the request of a recipient eligible under subsection (1)(b) of this section. Available tuition for the training is limited to the amount that would otherwise be payable per enrolled quarter to a public institution; and

(f) Give priority in receipt of funds to those applicants working toward careers in the aerospace, health care, advanced manufacturing, construction, and renewable energy industries; high-demand occupations in strategic industry clusters identified in the state comprehensive plan and the workforce development councils' local comprehensive plans for workforce educational training as identified in RCW 28C.18.080 and 28C.18.150; and occupations and industries identified by community and technical colleges in collaboration with local workforce development councils. For purposes of this section, health care includes long-term care.

(3) The executive director of the college board shall appoint a workforce training customer advisory committee by July 1, 1999, to:

(a) Assist in the development of the plan for the use of the college board worker retraining program funds and recommend guidelines to the college board for the operation of worker retraining programs;

(b) Recommend selection criteria for worker retraining programs and grant applicants for receipt of worker retraining program grants;

(c) Provide advice to the college board on other workforce development activities of the community and technical colleges;

(d) Recommend selection criteria for job skills grants, consistent with criteria established in this chapter and chapter 121, Laws of 1999. Such criteria shall include a prioritization of job skills applicants in rural areas;

(e) Recommend guidelines to the college board for the operation of the job skills program; and

(f) Recommend grant applicants for receipt of job skills program grants.

(4) Members of the workforce training customer advisory committee shall consist of three college system representatives selected by the executive director of the college board, three representatives of business selected from nominations provided by statewide business organizations, and three representatives of labor selected from nominations provided by a statewide labor organization representing a cross-section of workers in the state.

NEW SECTION. Sec. 3. A new section is added to chapter 28B.50 RCW to read as follows:

By July 1, 2010, and within existing resources, the college board may create a single web site for the purpose of advertising the availability of opportunity express funding to Washington citizens; explaining that opportunity express helps people who want to pursue college and apprenticeship for certain targeted industries; and explaining that opportunity express includes the following tracks:

Worker retraining for unemployed adults; training programs approved by the commissioner of the employment security department, training programs administered by labor and management partnerships, and training programs prioritized by industry, for unemployed adults and incumbent workers; opportunity internships for high school students; and opportunity
grants for low-income adults. The web site may also direct interested individuals to the appropriate local intake office. The web site may also include a link to the Washington state department of labor and industries apprenticeship program.

Sec. 4. RCW 28C.18.164 and 2009 c 238 s 4 are each amended to read as follows:

(1) Opportunity internship consortia may apply to the board to offer an opportunity internship program.

(a) The board, in consultation with the Washington state apprenticeship and training council, may select those consortia that demonstrate the strongest commitment and readiness to implement a high quality opportunity internship program for low-income high school students. The board shall place a priority on consortia that demonstrated experience working with similar populations of students and demonstrated capacity to assist a large number of students through the progression of internship or preapprenticeship, high school graduation, postsecondary education, and retention in a high-demand occupation. The board shall place a priority on programs that emphasize secondary career and technical education and nonbaccalaureate postsecondary education; however, programs that target four-year postsecondary degrees are eligible to participate.

(b)(i) Except as provided in (b)(ii) of this subsection (1), the board shall enter into a contract with each consortium selected to participate in the program. No more than ten consortia per year shall be selected to participate in the program, and to the extent possible, the board shall assure a geographic distribution of consortia in regions across the state emphasizing a variety of targeted industries. Each consortium may select no more than one hundred low-income high school students per year to participate in the program.

(ii) For fiscal years 2011 through 2013, the board shall enter into a contract with each consortium selected to participate in the program. No more than twelve consortia per year shall be selected to participate in the program, and to the extent possible, the board shall assure a geographic distribution of consortia in regions across the state emphasizing a variety of targeted industries. No more than five thousand low-income high school students per year may be selected to participate in the program.

(2) Under the terms of an opportunity internship program contract, an opportunity internship consortium shall commit to the following activities which shall be conducted using existing federal, state, local, or private funds available to the consortium:

(a) Identify high-demand occupations in targeted industries for which opportunity internships or preapprenticeships shall be developed and provided;

(b) Develop and implement the components of opportunity internships, including paid or unpaid internships or preapprenticeships of at least ninety hours in length in high-demand occupations with employers in the consortium, mentoring and guidance for students who participate in the program, assistance with applications for postsecondary programs and financial aid, and a guarantee of a job interview with a participating employer for all opportunity internship graduates who successfully complete a postsecondary program of study;

(c) Once the internship or preapprenticeship components have been developed, conduct outreach efforts to inform low-income high school students about high-demand occupations, the opportunity internship program, options for postsecondary programs of study, and the incentives and opportunities provided to students who participate in the program;

(d) Obtain appropriate documentation of the low-income status of students who participate in the program;

(e) Maintain communication with opportunity internship graduates of the consortium who enroll in postsecondary programs of study; and

(f) Submit an annual report to the board on the progress of and participation in the opportunity internship program of the consortium.

(3) Opportunity internship consortia are encouraged to:

(a) Provide paid opportunity internships or preapprenticeships, including during the summer months to encourage students to stay enrolled in high school;

(b) Work with high schools to offer opportunity internships as approved worksite learning experiences where students can earn high school credit;

(c) Designate the local workforce development council as fiscal agent for the opportunity internship program contract;

(d) Work with area high schools to incorporate the opportunity internship program into comprehensive guidance and counseling programs such as the navigation 101 program; and

(e) Coordinate the opportunity internship program with other workforce development and postsecondary education programs, including opportunity grants, the college bound scholarship program, federal workforce investment act initiatives, and college access challenge grants.

(4) The board shall seek federal funds that may be used to support the opportunity internship program, including providing the incentive payments under RCW 28C.18.168.

NEW SECTION. Sec. 5. A new section is added to chapter 28B.50 RCW to read as follows:

A separate and identifiable account, which shall be known as the opportunity express account, is established. Moneys in the account may be spent only after appropriation. Moneys in the account shall be used only for the worker retraining program, training programs approved by the commissioner of the employment security department, training programs administered by labor and management partnerships, industry-prioritized training programs, training programs that facilitate career progression in health care occupations, the opportunity internship program, and the opportunity grant program, and for administrative costs related to these programs. Moneys in the account shall be used to supplement, not supplant, existing funding for the opportunity grant program.

SECOND READING

HOUSE BILL NO. 2694, by Representatives Sells, White, McCoy, Kenney, Ericks, O'Brien, Roberts and Chase

Regarding a bachelor of science in nursing program at the University Center.

The measure was read the second time.

MOTION

Senator Prentice moved that the following committee striking amendment by the Committee on Ways & Means be adopted.

Strike everything after the enacting clause and insert the following:

“NEW SECTION. Sec. 1. A new section is added to chapter 28B.50 RCW to read as follows:

(1) RCW 28B.50.901 assigns responsibility for the north Snohomish, Island, and Skagit counties’ higher education consortium to Everett Community College. In April of 2009, Everett Community College opened Gray Wolf Hall, the new home of the University Center of North Puget Sound. The University Center currently offers over twenty bachelor’s and master’s degrees from six partner universities.

(2) Although Everett Community College offers an associate degree nursing program that graduates approximately seventy to ninety students per year, the University Center does not offer a bachelor of science in nursing. Some graduates of the Everett Community College program are able to articulate to the bachelor of science in nursing program offered by the University of Washington-Bothell at its Bothell campus or in Mt. Vernon but current capacity is not sufficient for all of the graduates who are both interested and qualified.

(3) Despite recent growth in nursing education capacity, shortages still persist for registered nurses. According to a June 2007 study by the Washington, Wyoming, Alaska, Montana, and Idaho center for health workforce studies, the average age of Washington’s registered nurses was forty-eight years. More than a third were fifty-five years of age or older. Consequently, the high rate of registered nurses retiring from nursing practice over the next two decades will significantly reduce the supply. This reduction comes at the same time as the state’s population grows and ages. The registered nurse education capacity in Washington has a large impact on the supply of registered nurses in the state. If the rate of graduation in registered nursing does not increase, projections show that supply in Washington will begin to decline by 2015. In contrast, if graduation rates increased by four hundred per year, the supply of registered nurses would meet estimated demand by the year 2021.

(4) Subject to specific funding to support up to fifty full-time equivalent students in a bachelor of nursing program, the University Center at Everett Community College, in partnership with the University of Washington-Bothell, shall offer a bachelor of science in nursing program with capacity for up to fifty full-time students.

NEW SECTION. Sec. 2. This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect July 1, 2010.

NEW SECTION. Sec. 3. If specific funding for the purposes of this act, referencing this act by bill or chapter number, is not provided by June 30, 2010, in the omnibus appropriations act, this act is null and void.”

Senator Prentice spoke in favor of adoption of the committee striking amendment.

SECOND READING

ENGROSSED HOUSE BILL NO. 1690, by Representatives Hasegawa, Hunt, Hudgins, Anderson and Kenney

Authorizing alternative public works contracting procedures.

The measure was read the second time.

MOTION

Senator Regala moved that the following striking amendment by Senator Regala be adopted:

"NEW SECTION. Sec. 1. The establishment of alternative public works contracting procedures authorized for use by public bodies has been a complex, controversial, and challenging undertaking, but it has been successful. The key to the successful adoption and consideration of these procedures has depended, in great part, on the review and oversight mechanisms put in place by the legislature in chapter 39.10 RCW, as well as the countless hours of dedicated work by numerous stakeholders over many years. It is the intent of the legislature to clarify that, unless otherwise specifically provided for in law, public bodies that want to use an alternative public works contracting procedure may use only those procedures specifically authorized in chapter 39.10 RCW.

Sec. 2. RCW 39.10.200 and 2007 c 494 s 1 are each amended to read as follows:

The legislature finds that the traditional process of awarding public works contracts in lump sum to the lowest responsible bidder is a fair and objective method of selecting a contractor. However, under certain circumstances, alternative public works contracting procedures may best serve the public interest if such procedures are implemented in an open and fair process based on objective and equitable criteria. The purpose of this chapter is to authorize the use of certain supplemental alternative public works contracting procedures, to prescribe appropriate requirements to ensure that such contracting procedures serve the public interest, and to establish a process for evaluation of such contracting procedures. It is the intent of the legislature to establish that, unless otherwise specifically provided for in law, public bodies may use only those alternative public works contracting procedures specifically authorized in chapter 39.10 RCW.

Sec. 3. RCW 39.10.230 and 2009 c 75 s 1 are each amended to read as follows:

The legislature finds that the traditional process of awarding public works contracts in lump sum to the lowest responsible bidder is a fair and objective method of selecting a contractor. However, under certain circumstances, alternative public works contracting procedures may best serve the public interest if such procedures are implemented in an open and fair process based on objective and equitable criteria. The purpose of this chapter is to authorize the use of certain supplemental alternative public works contracting procedures, to prescribe appropriate requirements to ensure that such contracting procedures serve the public interest, and to establish a process for evaluation of such contracting procedures. It is the intent of the legislature to establish that, unless otherwise specifically provided for in law, public bodies may use only those alternative public works contracting procedures specifically authorized in this chapter, subject to the requirements of this chapter.

Sec. 3. RCW 39.10.230 and 2009 c 75 s 1 are each amended to read as follows:

The board has the following powers and duties:

(1) Develop and recommend to the legislature policies to further enhance the quality, efficiency, and accountability of capital

construction projects through the use of traditional and alternative delivery methods in Washington, and make recommendations regarding expansion, continuation, elimination, or modification of the alternative public works contracting methods;

(2) Evaluate the use of existing contracting procedures and the potential future use of other alternative contracting procedures including competitive negotiation contracts;

(3) (Develop guidelines to be used by the committee for the review and approval of design build demonstration projects that procure operations and maintenance services) Submit recommendations to the appropriate committees of the legislature evaluating alternative contracting procedures that are not authorized under this chapter;

(4) Appoint members of the committee; and

(5) Develop and administer questionnaires designed to provide quantitative and qualitative data on alternative public works contracting procedures on which evaluations are based.

"Sec. 4. RCW 35.82.200 and 1965 c 7 § 35.82.200 are each amended to read as follows:

(1) In addition to the powers conferred upon an authority by other provisions of this chapter, an authority is empowered to borrow money or accept contributions, grants or other financial assistance from the federal government for or in aid of any housing project within its area of operation, to take over or lease or manage any housing project or undertaking constructed or owned by the federal government, and to these ends, to comply with such conditions and enter into such mortgages, trust indentures, leases or agreements as may be necessary, convenient or desirable. It is the purpose and intent of this chapter to authorize every authority to do any and all things necessary or desirable to secure the financial aid or cooperation of the federal government in the undertaking, construction, maintenance or operation of any housing project by such authority.

(2) All housing authorities shall be subject to the provisions of this chapter except where alternative requirements or procedures of federal law or federal regulation are authorized.

(3) The requirements of chapter 39.12 RCW regarding prevailing wages shall apply to housing authority public works except where specifically preempted by federal law or federal regulation."

"Sec. 5. RCW 43.131.408 and 2007 c 494 s 507 are each amended to read as follows:

The following acts or parts of acts, as now existing or hereafter amended, are each repealed, effective June 30, 2014:

(1) RCW 39.10.200 and section 2 of this act, 2007 c 494 s 1, & 1994 c 132 s 1;

"PART I
SHORT TITLE AND INTENT

NEW SECTION. Sec. 101. This act may be known and cited as the jobs act.

NEW SECTION. Sec. 102. The legislature intends to create jobs in every corner of Washington state by issuing bonds, which will catalyze energy savings and repair work at public schools and state colleges and universities.

It is the intent of the legislature that these investments will create jobs quickly and directly, at a time when the state's residents need jobs. It is the further intent of the legislature that these investments both accelerate innovation in the energy efficiency sector and create locally developed technologies and companies to provide sustainable jobs. The legislature intends to prioritize the use of innovative technologies and facilitate the development of a sustainable innovation cluster that creates and installs highly efficient building technologies and creates jobs.

The legislature intends that these job-creating projects save taxpayers money, with an estimated one hundred twenty-six million dollars saved each year in public schools through reduced energy and operational costs, and improve the health and safety of those buildings. The energy savings are equivalent to the use of an estimated ninety thousand houses. It is also the intent of the legislature that these job-creating projects lead to reduced pollutants, as the weatherization and energy efficiency projects will reduce pollution emissions by an estimated amount equivalent to removing an estimated one hundred thirty thousand cars from the roads each year.

PART II
BOND AUTHORIZATION

NEW SECTION. Sec. 201. (1) For the purpose of creating jobs by constructing needed capital improvements to public facilities for energy, utility, and operational cost savings, the state finance committee is authorized to issue general obligation bonds of the state of Washington in the sum of five hundred five million dollars, or so much thereof as may be required, for this purpose and all costs incidental thereto. The bonds issued under the authority of this section are known as jobs act bonds.

(2) Bonds authorized in this section must be sold in the manner, at the time or times, in amounts, and at such prices as the state finance committee determines.

(3) The authorization to issue bonds contained in this chapter does not expire until the full authorization has been issued.

(4) No bonds authorized in this section may be offered for sale without prior legislative appropriation of the net proceeds of the sale of the bonds.

NEW SECTION. Sec. 202. (1) The nondebt-limit general fund bond retirement account must be used for the payment of the principal of and interest on the bonds authorized in section 201 of this act.

(2) The state finance committee must, on or before June 30th of each year, certify to the state treasurer the amount needed in the ensuing twelve months to meet the bond retirement and interest requirements on the bonds authorized in section 201 of this act.

(3) On each date on which any interest or principal and interest payment is due on bonds issued for the purposes of section 201 of this act, the state treasurer shall withdraw from any general state revenues received in the state treasury and deposit in the nondebt-limit general fund bond retirement account an amount equal to the amount certified by the state finance committee to be due on the payment date.

NEW SECTION. Sec. 203. (1) Bonds issued under this section and sections 201 and 202 of this act must state that they are a general obligation of the state of Washington, must pledge the full faith and credit of the state to the payment of the principal thereof and the interest thereon, and must contain an unconditional promise to pay the principal and interest as the same shall become due.

(2) The owner and holder of each of the bonds or the trustee for the owner and holder of any of the bonds may by mandamus or other appropriate proceeding require the transfer and payment of funds as directed in this section.

PART III
PROGRAM REQUIREMENTS, APPROPRIATIONS, AND REVENUE PROVISIONS

NEW SECTION. Sec. 301. (1) The department of commerce, in consultation with the department of general administration and the Washington State University energy program, shall administer the jobs act.

(2) The department of general administration must develop guidelines that are consistent with national and international energy savings performance standards for the implementation of energy savings performance contracting projects by the energy savings performance contractors by December 31, 2010.

(3) The definitions in this section apply throughout this chapter and section 302 of this act unless the context clearly requires otherwise.

(a) "Cost-effectiveness" means that the present value to higher education institutions and school districts of the energy reasonably expected to be saved or produced by a facility, activity, measure, or piece of equipment over its useful life, including any compensation received from a utility or the Bonneville power administration, is greater than the net present value of the costs of implementing, maintaining, and operating such facility, activity, measure, or piece of equipment over its useful life, when discounted at the cost of public borrowing.
TWENTY NINTH DAY, APRIL 12, 2010

(b) "Energy cost savings" means savings realized in expenses for energy use and expenses associated with water, wastewater, or solid waste systems.

(c) "Energy equipment" means energy management systems and any equipment, materials, or supplies that are expected, upon installation, to reduce the energy use or energy cost of an existing building or facility, and the services associated with the equipment, materials, or supplies, including but not limited to design, engineering, financing, installation, project management, guarantees, operations, and maintenance. Reduction in energy use or energy cost may also include reductions in the use or cost of water, wastewater, or solid waste.

(d) "Energy savings performance contracting" means the process authorized by chapter 39.35C RCW by which a company contracts with a public agency to conduct energy audits and guarantee energy savings from energy efficiency.

(e) "Innovative measures" means advanced or emerging technologies, systems, or approaches that may not yet be in common practice but improve energy efficiency, accelerate deployment, or reduce energy usage, and become widely commercially available in the future if proven successful in demonstration programs without compromising the guaranteed performance or measurable energy and operational cost savings anticipated. Examples of innovative measures include, but are not limited to, advanced energy and systems operations monitoring, diagnostics, and controls systems for buildings; novel heating, cooling, ventilation, and water heating systems; advanced windows and insulation technologies, highly efficient lighting technologies, designs, and controls; and integration of renewable energy sources into buildings, and energy savings verification technologies and solutions.

(f) "Operational cost savings" means savings realized from parts, service fees, capital renewal costs, and other measurable annual expenses to maintain and repair systems. This definition does not mean labor savings related to existing facility staff.

(g) "Public facilities" means buildings, building components, and major equipment or systems owned by public school districts and public higher education institutions.

NEW SECTION. Sec. 302. (1) Within appropriations specifically provided for the purposes of this chapter, the department of commerce, in consultation with the department of general administration, and the Washington State University energy program shall establish a competitive process to solicit and evaluate applications from public school districts, public higher education institutions, and other state agencies. Final grant awards shall be determined by the department of commerce.

(2) Grants must be awarded in competitive rounds, based on demand and capacity, with at least five percent of each grant round awarded to small public school districts with fewer than one thousand full-time equivalent students, based on demand and capacity.

(3) Within each competitive round, projects must be weighted and prioritized based on the following criteria and in the following order:

(a) Leverage ratio: In each round, the higher the leverage ratio of nonstate funding sources to state jobs act grant, the higher the project ranking.

(b) Energy savings: In each round, the higher the energy savings, the higher the project ranking. Applicants must submit documentation that demonstrates energy and operational cost savings resulting from the installation of the energy equipment and improvements. The energy savings analysis must be performed by a licensed engineer and documentation must include but is not limited to the following:

(i) A description of the energy equipment and improvements;

(ii) A description of the energy and operational cost savings;

(iii) A description of the extent to which the project employs collaborative and innovative measures and encourages demonstration of new and emerging technologies with high energy savings or energy cost reductions.

(c) Expenditure of expenditure: Project readiness to spend funds must be prioritized so that the legislative intent to expend funds quickly is met.

(4) Projects that do not use energy savings performance contracting must: (a) Verify energy and operational cost savings, as defined in section 301 of this act, for ten years or until the energy and operational costs savings pay for the project, whichever is shorter; (b) follow the department of general administration's energy savings performance contracting project guidelines developed pursuant to section 301 of this act; and (c) employ a licensed engineer for the energy audit and construction. The department of commerce may require third-party verification of savings if a project is not implemented by an energy savings performance contractor selected by the department of general administration through the request of qualifications process. Third-party verification must be conducted either by an energy savings performance contractor selected by the department of general administration through a request for qualifications, a licensed engineer specializing in energy conservation, or by a project resource conservation manager or educational service district resource conservation manager.

(5) To intensify competition, the department of commerce may only award funds to the top eighty-five percent of projects applying in a round until the department of commerce determines a final round is appropriate. Projects that do not receive a grant award in one round may reapply in subsequent rounds.

(6) To match federal grants and programs that require state matching funds and produce significantly higher efficiencies in operations and utilities, the level of innovation criteria may be increased for the purposes of weighted scoring to capture those federal dollars for selected projects that require a higher level of innovation and regional collaboration.

(7) Grant amounts awarded to each project must allow for the maximum number of projects funded with the greatest energy and cost benefit.

(8)(a) The department of commerce must use bond proceeds to pay one-half of the preliminary audit, up to five cents per square foot, if the project does not meet the school district's and higher education institution's predetermined cost-effectiveness criteria. School districts and higher education institutions must pay the other one-half of the cost of the preliminary audit if the project does not meet their predetermined cost-effectiveness criteria.

(b) The energy savings performance contractor may not charge for an investment grade audit if the project does not meet the school district's and higher education institution's predetermined cost-effectiveness criteria. School districts and higher education institutions must pay the full price of an investment grade audit if they do not proceed with a project that meets the school district's and higher education institution's predetermined cost-effectiveness criteria.

(9) The department of commerce may charge projects administrative fees and may pay the department of general administration and the Washington State University energy program administration fees in an amount determined through a memorandum of understanding.

(10) The department of commerce and the department of general administration must submit a joint report to the appropriate committees of the legislature and the office of financial management on the timing and use of the grant funds, program administrative function, compliance with apprenticeship utilization
requirements in RCW 39.04.320, compliance with prevailing wage requirements, and administration fees by the end of each fiscal year, until the funds are fully expended and all savings verification requirements are fulfilled.

NEW SECTION. Sec. 303. FOR THE DEPARTMENT OF COMMERCE—JOBS ACT

The appropriation in this section is subject to the following conditions and limitations: The appropriation is for fiscal year 2011 and is provided solely for grants to public school districts and public higher education institutions for energy and operational cost savings improvements to public facilities and related projects that result in energy and operational cost savings under the provision and requirements of sections 301 and 302 of this act. Related projects are those projects that must be completed in order for the energy efficiency improvements to be effective.

MOTION

At 7:00 p.m., on motion of Senator Eide, the Senate was declared to be at ease subject to the call of the President.

EVENING SESSION

The Senate was called to order at 7:46 p.m. by President Owen.

MOTION TO LIMIT DEBATE

Senator Eide: “Mr. President, I move that the members of the Senate be allowed to speak but once on each question before the Senate, that such speech be limited to three minutes and that members be prohibited from yielding their time, however, the maker of a motion shall be allowed to open and close debate. This motion shall be in effect through April 12, 2010.”

The President declared the question before the Senate to be the motion by Senator Eide to limit debate.

The motion by Senator Eide carried and debate was limited through April 12, 2010 by voice vote.

ROLL CALL
President Owen: “In ruling upon the point of order raised by Senator Rockefeller as to whether amendment 467 by Senator Schoesler to Engrossed House Bill No. 2561 expands the scope and object of the underlying bill. The President finds and rules as follows:

Engrossed House Bill No. 2561 authorizes the issuance of certain bonds upon approval of the voters with the proceeds from the sale of those bonds used to create jobs to retrofit schools and other educational institutions. Section 304 of the bill describes the legislature’s intent to increase state revenues to pay for a portion of the increased debt service cost. To accomplish this intending result the bill would extend the tax on bottled water as provided in a separate revenue bill. The proposed amendment by contrast would eliminate a tax on candy, a tax that is created in the same revenue bill. Although the two taxes are both found in the revenue bill the treatment in this bill are opposite to one another. The extension of the bottled water tax is consistent with the intent of the bill by raising taxes while the removal of the tax on candy is inconsistent with the state of purpose.

For these reasons the President finds that the proposed amendment is beyond the scope and object of the underlying bill and Senator Rockefellers point is well taken.”

MOTION FOR IMMEDIATE RECONSIDERATION

Senator Eide, having voted on the prevailing side moved to immediately reconsider the vote by which the by Senator Schoesler on page 14, line 36 to the committee striking amendment to Engrossed House Bill No. 2561 passed the Senate earlier in the day.

POINT OF ORDER

Senator Hewitt: “So, Mr. President, if there’s an oral roll call, how can one prove that they actually voted on the that amendment?”

REPLY BY THE PRESIDENT

President Owen: “How can I prove they didn’t. Senator Hewitt, to be honest and I mean to be more sincere, the President has to take the person’s word. I believe in a situation like that, unless there’s some evidence to the contrary. I have no way of showing otherwise. Matter of fact I think just about the whole body voted for that amendment.”

The President declared the question before the Senate to be the motion by Senator Eide to immediately reconsider the vote by which the amendment by Senator Schoesler to the committee striking amendment to Engrossed House Bill No. 2561 carried by a voice vote.

The President declared the question before the Senate to be the adoption of the amendment by Senator Schoesler on page 14, line 36 to the committee striking amendment to Engrossed House Bill No. 2561 on reconsideration.

The motion by Senator Schoesler failed and the amendment to the committee striking amendment was not adopted by voice vote on reconsideration.

MOTION

On motion of Senator Eide, further consideration of Engrossed House Bill No. 2561 was deferred and the bill held its place on the second reading calendar.
Sec. 102. RCW 82.04.220 and 1961 c 15 s 82.04.220 are each amended to read as follows:

(1) There is levied and ((shall be)) collected from every person that has a substantial nexus with this state a tax for the act or privilege of engaging in business activities.  ((shall be)) The tax ((shall be)) is measured by the application of rates against value of products, gross proceeds of sales, or gross income of the business, as the case may be.

(2) A person who has a substantial nexus with this state in any tax year will be deemed to have a substantial nexus with this state for the following tax year.

NEW SECTION. Sec. 103. A new section is added to chapter 82.04 RCW to read as follows:

"Engaging within this state" and "engaging within the state," when used in connection with any apportionable activity as defined in RCW 82.04.460, means that a person generates gross income of the business from sources within this state, such as customers or intangible property located in this state, regardless of whether the person is physically present in this state.

NEW SECTION. Sec. 104. A new section is added to chapter 82.04 RCW to read as follows:

(1) A person engaging in business is deemed to have substantial nexus with this state if the person is:
   (a) An individual and is a resident or domiciliary of this state;
   (b) A business entity and is organized or commercially domiciled in this state; or
   (c) A nonresident individual or a business entity that is organized or commercially domiciled outside this state, and in any tax year the person has:
      (i) More than fifty thousand dollars of property in this state;
      (ii) More than fifty thousand dollars of payroll in this state;
      (iii) More than two hundred fifty thousand dollars of receipts from this state; or
      (iv) At least twenty-five percent of the person's total property, total payroll, or total receipts in this state.

(2) Property counting toward the thresholds in subsection (1)(c)(i) and (iv) of this section is the average value of the taxpayer's property, including intangible property, owned or rented and used in this state during the tax year.  

(b)(i) Property owned by the taxpayer, other than loans and credit card receivables owned by the taxpayer, is valued at its original cost basis.  Loans and credit card receivables owned by the taxpayer are valued at their outstanding principal balance, without regard to any reserve for bad debts.  However, if a loan or credit card receivable is charged off in whole or in part for federal income tax purposes, the portion of the loan or credit card receivable charged off is deducted from the outstanding principal balance.

(ii) Property rented by the taxpayer is valued at eight times the net annual rental rate.  For purposes of this subsection, "net annual rental rate" means the annual rental rate paid by the taxpayer less any annual rental rate received by the taxpayer from subrentals.

(c) The average value of property must be determined by averaging the values at the beginning and ending of the tax year; but the department may require the averaging of monthly values during the tax year if reasonably required to properly reflect the average value of the taxpayer's property.

(d)(i) For purposes of this subsection (2), loans and credit card receivables are deemed owned and used in this state as follows:

(A) Loans secured by real property, personal property, or both real and personal property, are deemed owned and used in this state if the real property or personal property securing the loan is located within this state.  If the property securing the loan is located both within this state and one or more other states, the loan is deemed owned and used in this state if more than fifty percent of the fair market value of the real or personal property is located within any one state, then the loan is deemed owned and used in this state if the borrower is located in this state.  The determination of whether the real or personal property securing a loan is located within this state must be made, as of the time the original agreement was made, and any and all subsequent substitutions of collateral must be disregarded.

(B) Loans not secured by real or personal property are deemed owned and used in this state if the borrower is located in this state.

(C) Credit card receivables are deemed owned and used in this state if the billing address of the cardholder is in this state.

(ii)(A) Except as otherwise provided in (d)(iii)(B) of this subsection (2), the definitions in the multistate tax commission's recommended formula for the apportionment and allocation of net income of financial institutions as existing on the effective date of this section or such subsequent date as may be provided by the department by rule, consistent with the purposes of this section, apply to this section.

(B) "Credit card" means a card or device existing for the purpose of obtaining money, property, labor, or services on credit.

(c) Notwithstanding anything else to the contrary in this subsection, property counting toward the thresholds in subsection (1)(c)(i) and (iv) of this section does not include a person's ownership of, or rights in, computer software as defined in RCW 82.04.215, including computer software used in providing a digital automated service; master copies of software; and digital goods and digital codes residing on servers located in this state.  

(3)(a) Payroll counting toward the thresholds in subsection (1)(c)(ii) and (iv) of this section is the total amount paid by the taxpayer for compensation in this state during the tax year plus nonemployee compensation paid to representative third parties in this state.  Nonemployee compensation paid to representative third parties includes the gross amount paid to nonemployees who represent the taxpayer in interactions with the taxpayer's clients and includes sales commissions.

(b) Employee compensation is paid in this state if the compensation is properly reportable to this state for unemployment compensation tax purposes, regardless of whether the compensation was actually reported to this state.

(c) Nonemployee compensation is paid in this state if the service performed by the representative third party occurs entirely or primarily within this state.

(d) For purposes of this subsection, "compensation" means wages, salaries, commissions, and any other form of remuneration paid to employees or nonemployees and defined as gross income.
(4) Receipts counting toward the thresholds in subsection (1)(c)(iii) and (iv) of this section are those amounts included in the numerator of the receipts factor under section 105 of this act and, for financial institutions, those amounts included in the numerator of the receipts factor under the rule adopted by the department as authorized in RCW 82.04.460(2).

(5)(a) Each December, the department must review the cumulative percentage change in the consumer price index. The department must adjust the thresholds in subsection (1)(c)(ii) through (iii) of this section if the consumer price index has changed by five percent or more since the later of the effective date of this section, or the date that the thresholds were last adjusted under this subsection. For purposes of determining the cumulative percentage change in the consumer price index, the department must compare the consumer price index available as of December 1st of the current year with the consumer price index as of the later of the effective date of this section, or the date that the thresholds were last adjusted under this subsection. The thresholds must be adjusted to reflect that cumulative percentage change in the consumer price index. The adjusted thresholds must be rounded to the nearest one thousand dollars. Any adjustment will apply to tax periods that begin after the adjustment is made.

(b) As used in this subsection, "consumer price index" means the consumer price index for all urban consumers (CPI-U) available from the bureau of labor statistics of the United States department of labor.

(6) Subsections (1) through (5) of this section only apply with respect to the taxes imposed under this chapter on apportionable activities as defined in RCW 82.04.460. For purposes of the taxes imposed under this chapter on any activity not included in the definition of apportionable activities in RCW 82.04.460, a person is deemed to have a substantial nexus with this state if the person has a physical presence in this state, which need only be demonstrably more than a slightest presence. For purposes of this subsection, a person is physically present in this state if the person has property or employees in this state. A person is also physically present in this state if the person, either directly or through an agent or other representative, engages in activities in this state that are significantly associated with the person's ability to establish or maintain a market for its products in this state.

NEW SECTION. Sec. 105. A new section is added to chapter 82.04 RCW to read as follows:

(1) The apportionable income of a person within the scope of RCW 82.04.460(1) is apportioned to Washington by multiplying its apportionable income by the receipts factor. Persons who are subject to tax under more than one of the tax classifications enumerated in RCW 82.04.460(4)(a) (i) through (x) must calculate a separate receipts factor for each tax classification that the person is taxable under.

(2) For purposes of subsection (1) of this section, the receipts factor is a fraction and is calculated as provided in subsections (3) and (4) of this section and, for financial institutions, as provided in the rule adopted by the department under the authority of RCW 82.04.460(2).

(3)(a) The numerator of the receipts factor is the total gross income of the business of the taxpayer attributable to this state during the tax year from engaging in an apportionable activity. The denominator of the receipts factor is the total gross income of the business of the taxpayer from engaging in an apportionable activity everywhere in the world during the tax year.

(b) Except as otherwise provided in this section, for purposes of computing the receipts factor, gross income of the business generated from each apportionable activity is attributable to the state:

(i) Where the customer received the benefit of the taxpayer's service or, in the case of gross income from royalties, where the customer used the taxpayer's intangible property.

(ii) If the customer received the benefit of the service or used the intangible property in more than one state, gross income of the business must be attributed to the state in which the benefit of the service was primarily received or in which the intangible property was primarily used.

(iii) If the taxpayer is unable to attribute gross income of the business under the provisions of (b)(i) or (ii) of this subsection (3), gross income of the business must be attributed to the state from which the customer ordered the service or, in the case of royalties, the office of the customer from which the royalty agreement with the taxpayer was negotiated.

(iv) If the taxpayer is unable to attribute gross income of the business under the provisions of (b)(i), (ii), (iii), or (iv) of this subsection (3), gross income of the business must be attributed to the state to which the billing statements or invoices are sent to the customer by the taxpayer.

(v) If the taxpayer is unable to attribute gross income of the business under the provisions of (b)(i), (ii), (iii), (iv), or (v) of this subsection (3), gross income of the business must be attributed to the state from which the customer sends payment to the taxpayer.

(vi) If the taxpayer is unable to attribute gross income of the business under the provisions of (b)(i), (ii), (iii), (iv), or (v) of this subsection (3), gross income of the business must be attributed to the state where the customer is located as indicated by the customer's address: (A) Shown in the taxpayer's business records maintained in the regular course of business; or (B) obtained during consummation of the sale or the negotiation of the contract for services or for the use of the taxpayer's intangible property, including any address of a customer's payment instrument when readily available to the taxpayer and no other address is available.

(vii) If the taxpayer is unable to attribute gross income of the business under the provisions of (b)(i), (ii), (iii), (iv), or (v) of this subsection (3), gross income of the business must be attributed to the commercial domicile of the taxpayer.

(viii) For purposes of this subsection (3)(b), "customer" means a person or entity to whom the taxpayer makes a sale or renders services or from whom the taxpayer otherwise receives gross income of the business. "Customer" includes anyone who pays royalties or charges in the nature of royalties for the use of the taxpayer's intangible property.

(c) Gross income of the business from engaging in an apportionable activity must be excluded from the denominator of the receipts factor if, in respect to such activity, at least some of the activity is performed in this state, and the gross income is attributable under (b) of this subsection (3) to a state in which the taxpayer is not taxable. For purposes of this subsection (3)(c), "not taxable" means that the taxpayer is not subject to a business activities tax by that state, except that a taxpayer is taxable in a state in which it would be deemed to have a substantial nexus with that state under the standards in section 104(1) of this act regardless of whether that state imposes such a tax. "Business activities tax" means a tax measured by the amount of, or economic results of, business activity conducted in a state. The term includes taxes measured in whole or in part on net income or gross income or receipts. "Business activities tax" does not include a sales tax, use tax, or a similar transaction tax, imposed on the sale or acquisition of goods or services, whether or not denominated a gross receipts tax or a tax imposed on the privilege of doing business.

(d) This subsection (3) does not apply to financial institutions with respect to apportionable income taxable under RCW...
Financial institutions must calculate the receipts factor as provided in subsection (4) of this section and the rate applied by the department under the authority of RCW 82.04.460(2) with respect to apportionable income taxable under RCW 82.04.290.

Financial institutions that are subject to tax under any other tax classification enumerated in RCW 82.04.460(4)(a) (i) through (v) and (vii) through (x) must calculate a separate receipts factor, as provided in this section, for each of the other tax classifications that the financial institution is taxable under.

A taxpayer may calculate the receipts factor for the current tax year based on the most recent calendar year for which information is available for the full calendar year. If a taxpayer does not calculate the receipts factor for the current tax year based on previous calendar year information as authorized in this subsection, the business must use current year information to calculate the receipts factor for the current tax year. In either case, a taxpayer must correct the reporting for the current tax year when complete information is available to calculate the receipts factor for that year, but not later than October 31st of the following tax year. Interest will apply to any additional tax due on a corrected tax return. Interest must be assessed at the rate provided for delinquent excise taxes under chapter 82.32 RCW, retroactively to the date the original return was due, and will accrue until the additional taxes are paid. Penalties as provided in RCW 82.32.090 will apply to any such additional tax due only if the current tax year reporting is not corrected and the additional tax is not paid by October 31st of the following tax year. Interest as provided in RCW 82.32.060 will apply to any tax paid in excess of that properly due on a return as a result of a taxpayer using previous calendar year data or incomplete current-year data to calculate the receipts factor.

Unless the context clearly requires otherwise, the definitions in this subsection apply throughout this section.

"Apportionable activities" and "apportionable income" have the same meaning as in RCW 82.04.460.

"State" means a state of the United States, the District of Columbia, the Commonwealth of Puerto Rico, any territory or possession of the United States, or any foreign country or political subdivision of a foreign country.

RCW 82.04.2907 and 2009 c 535 s 407 are each amended to read as follows:

Upon every person engaging within this state in the business of receiving income from royalties (or charges in the nature of royalties from the business) included in charges in the nature of royalties from the business, the amount of tax with respect to the business is equal to the gross income from royalties (or charges in the nature of royalties from the business) multiplied by the rate of 0.484 percent.

For the purposes of this section, "gross income from royalties" means compensation for the use of intangible property, (such as) including charges in the nature of royalties, regardless of where the intangible property will be used. For purposes of this subsection, "intangible property" includes copyrights, patents, licenses, franchises, trademarks, trade names, and similar items.

"Gross income from royalties" does not include compensation for any natural resource, the licensing of prewritten computer software to the end user, or the licensing (or use) of digital goods, digital codes, or digital automated services to the end user as defined in RCW 82.04.190(11).

RCW 82.04.460 and 2004 c 174 s 6 are each amended to read as follows:

Except as otherwise provided in this section, any person (rendering services) earning apportionable income taxable under ((RCW 82.04.290 or 82.04.2908)) this chapter and ((maintaining places of business both within and without this state which contribute to the rendition of such services, shall)) also taxable in another state, must, for the purpose of computing tax liability under ((RCW 82.04.290 or 82.04.2908)) this chapter, apportion to this state, in accordance with section 105 of this act, that portion of the person's (gross) apportionable income (which is) derived from (services rendered) business activities performed within this state. Where such apportionment cannot be accurately made by separate accounting methods, the taxpayer shall apportion to this state that proportion of the taxpayer's total income which the cost of doing business within the state bears to the total cost of doing business both within and without the state.

RCW 82.04.2907 and 2010 c 111 (SHB 2620) s 302 are each amended to read as follows:

Upon every person engaging within this state in the business of receiving income from royalties (or charges in the nature of royalties for the granting of intangible rights, such as copyrights, licenses, patents, or franchise fees), the amount of tax with respect to the business is equal to the gross income from royalties (or charges in the nature of royalties from the business)) multiplied by the rate of 0.484 percent.

For the purposes of this section, "gross income from royalties" means compensation for the use of intangible property, (such as) including charges in the nature of royalties, regardless of where the intangible property will be used. For purposes of this subsection, "intangible property" includes copyrights, patents, licenses, franchises, trademarks, trade names, and similar items.

"Gross income from royalties" does not include compensation for any natural resource, the licensing of prewritten computer software to the end user, or the licensing of digital goods, digital codes, or digital automated services to the end user as defined in RCW 82.04.190(11).

RCW 82.04.2907 and 2004 c 174 s 6 are each amended to read as follows:

Except as otherwise provided in this section, any person (rendering services) earning apportionable income taxable under ((RCW 82.04.290 or 82.04.2908)) this chapter and ((maintaining places of business both within and without this state which contribute to the rendition of such services, shall)) also taxable in another state, must, for the purpose of computing tax liability under ((RCW 82.04.290 or 82.04.2908)) this chapter, apportion to this state, in accordance with section 105 of this act, that portion of the person's (gross) apportionable income (which is) derived from (services rendered) business activities performed within this state. Where such apportionment cannot be accurately made by separate accounting methods, the taxpayer shall apportion to this state that proportion of the taxpayer's total income which the cost of doing business within the state bears to the total cost of doing business both within and without the state.

Notwithstanding the provision of subsection (1) of this section, persons doing business both within and without the state who receive gross income from service charges, as defined in RCW 63.2.14010 (relating to amounts charged for granting the right or privilege to make deferred or installment payments) or who receive gross income from engaging in business as financial institutions within the scope of chapter 82.14A RCW (relating to city taxes on financial institutions) shall apportion or allocate gross income taxable under RCW 82.04.290 to this state pursuant to rules promulgated by the department consistent with uniform rules for apportionment or allocation developed by the states.) The department must by rule provide a method of apportioning the apportionable income of financial institutions, where such apportionable income is taxable under RCW 82.04.290. The rule adopted by the department must, to the extent feasible, be consistent with the multistate tax commission's recommended formula for the apportionment and allocation of net income of financial institutions as existing on the effective date of this section or such subsequent date as may be provided by the department by rule, consistent with the purposes of this section, except that:

(a) The department's rule must provide for a single factor apportionment method based on the receipts factor; and

(b) The definition of "financial institution" contained in appendix A to the multistate tax commission's recommended formula for the apportionment and allocation of net income of financial institutions is advisory only.

The department (shall) may by rule provide a method or methods of apportioning or allocating gross income derived from sales of telecommunications service and competitive telephone service(s) taxed under this chapter, if the gross proceeds of sales subject to tax under this chapter do not fairly represent the extent of the taxpayer's income attributable to this state. (The rules shall be, so far as feasible, consistent with the methods of apportionment contained in this section and shall require the consideration of those facts, circumstances, and apportionment factors as will result in an
(1) In computing tax there may be deducted from the measure of income, less a reasonable servicing fee, the cost of materials used, labor costs, interest, discount, delivery costs, taxes, or any other expense whatsoever paid or accrued and without any deduction on account of losses.

(2) Financial institutions must determine gains realized from trading in stocks, bonds, and other evidences of indebtedness on a net annualized basis. For purposes of this subsection, a financial institution means a person within the scope of the rule adopted by the department under the authority of RCW 82.04.460 (2).

NEW SECTION. Sec. 109. A new section is added to chapter 82.04 RCW to read as follows:

(1) This chapter does not apply to amounts received by a financial institution from an affiliated person if the amounts are received from transactions that are required to be at arm's length under sections 23A or 23B of the federal reserve act as existing on the effective date of this section or such subsequent date as may be provided by the department by rule, consistent with the purposes of this section. For purposes of this subsection, "financial institution" has the same meaning as in RCW 82.04.080.
department's exercise of the authority provided in this section. Any rules adopted under this section must include examples of transactions that the department will disregard for tax purposes.

(6) This section does not affect the department's authority to apply any other remedies available under statutory or common law.

(7) For purposes of this section, "affiliated" means under common control. "Control" means the possession, directly or indirectly, of more than fifty percent of the power to direct or cause the direction of the management and policies of a person, whether through the ownership of voting shares, by contract, or otherwise.

**NEW SECTION. Sec. 202.** A new section is added to chapter 82.32 RCW to read as follows:

(1)(a) The department may not use section 201 of this act to disregard any transaction or arrangement initiated before the effective date of this section, if, in respect to such transaction or arrangement, the taxpayer had reported its tax liability in conformance with either specific written instructions provided by the department to the taxpayer, a determination published under the authority of RCW 82.32.2410, or other document made available by the department to the general public.

(b) This section does not apply if the transaction or arrangement engaged in by the taxpayer differs materially from the transaction or arrangement that was addressed in the specific written instructions, published determination, or other document made available by the department to the general public.

(2) Section 201 of this act does not apply to any tax periods ending before May 1, 2010, that were included in a completed field audit conducted by the department.

(3) For purposes of this section, "specific written instructions" means tax reporting instructions provided to a taxpayer and which specifically identify the taxpayer to whom the instructions apply. Specific written instructions may be provided as part of an audit, tax assessment, determination, closing agreement, or in response to a binding ruling request.

**Sec. 203.** RCW 82.32.090 and 2006 c 256 s 6 are each amended to read as follows:

(1) If payment of any tax due on a return to be filed by a taxpayer is not received by the department of revenue by the due date, there (shall be) is assessed a penalty of five percent of the amount of the tax; and if the tax is not received on or before the last day of the month following the due date, there (shall be) is assessed a total penalty of fifteen percent of the amount of the tax under this subsection; and if the tax is not received on or before the last day of the second month following the due date, there (shall be) is assessed a total penalty of twenty-five percent of the amount of the tax under this subsection. No penalty so added shall be less than five dollars.

(2) If the department of revenue determines that any tax has been substantially underpaid, there (shall be) is assessed a penalty of five percent of the amount of the tax determined by the department to be due. If payment of any tax determined by the department to be due is not received by the department by the due date specified in the notice, or any extension thereof, there (shall be) is assessed a total penalty of fifteen percent of the amount of the tax under this subsection; and if payment of any tax determined by the department to be due is not received on or before the thirtieth day following the due date specified in the notice of tax due, or any extension thereof, there (shall be) is assessed a total penalty of twenty-five percent of the amount of the tax under this subsection. No penalty so added (may) be less than five dollars. As used in this section, "substantially underpaid" means that the taxpayer has paid less than eighty percent of the amount of tax determined by the department to be due for all of the types of taxes included in, and for the entire period of time covered by, the department's examination, and the amount of underpayment is at least one thousand dollars.
(3) If a warrant (of revenue) is issued by the department of revenue for the collection of taxes, increases, and penalties, there ((shall be)) is added thereto a penalty of ten percent of the amount of the tax, but not less than ten dollars.

(4) If the department finds that a person has engaged in any business or performed any act upon which a tax is imposed under this title and that person has not obtained from the department a registration certificate as required by RCW 82.32.030, the department (shall) must impose a penalty of five percent of the amount of tax due from that person for the period that the person was not registered as required by RCW 82.32.030. The department ((shall)) may not impose the penalty under this subsection (4) if a person who has engaged in business taxable under this title without first having registered as required by RCW 82.32.030, prior to any notification by the department of the need to register, obtains a registration certificate from the department.

(5) If the department finds that all or any part of a deficiency resulted from the disregard of specific written instructions as to reporting or tax liabilities, the department ((shall)) must add to the amount of the additional tax due because of the failure to follow the instructions. A taxpayer disregards specific written instructions when the department ((of revenue)) has informed the taxpayer in writing of the taxpayer's tax obligations and the taxpayer fails to act in accordance with those instructions unless the department has not issued final instructions because the matter is under appeal pursuant to this chapter or departmental regulations. The department ((shall)) may not assess the penalty under this section upon any taxpayer who has made a good faith effort to comply with the specific written instructions provided by the department to that taxpayer. Specific written instructions may be given as a part of a tax assessment, audit, determination, or closing agreement, provided that such specific written instructions (shall) apply only to the taxpayer addressed or referenced on such documents. Any specific written instructions by the department ((of revenue)) shall be clearly identified as such and ((shall)) must inform the taxpayer that failure to follow the instructions may subject the taxpayer to the penalties imposed by this subsection.

(6) If the department finds that all or any part of a deficiency resulted from engaging in a disregarded transaction, as described in section 201(3) of this act, the department must assess a penalty of thirty-five percent of the additional tax found due as a result of engaging in a transaction disregarded by the department under section 201(2) of this act. The penalty provided in this subsection may be assessed together with any other applicable penalties provided in this section on the same tax found to be due, except for the evasion penalty provided in subsection (7) of this section. The department may not assess the penalty under this subsection if, before the department discovers the taxpayer's use of a transaction described under section 201(3) of this act, the taxpayer discloses its participation in the transaction to the department.

(7) If the department finds that all or any part of the deficiency resulted from an intent to evade the tax payable hereunder, a further penalty of fifty percent of the additional tax found to be due ((shall)) must be added.

((44)) 8 The penalties imposed under subsections (1) through (4) of this section can each be imposed on the same tax found to be due. This subsection does not prohibit or restrict the application of other penalties authorized by law.

((44)) 9 The department ((of revenue)) may not impose (both) the evasion penalty ((and)) in combination with the penalty for disregarding specific written instructions or the penalty provided in subsection (6) of this section on the same tax found to be due.

((44)) 10 For the purposes of this section, "return" means any document a person is required by the state of Washington to file to satisfy or establish a tax or fee obligation that is administered or collected by the department ((of revenue)), and that has a statutory defined due date.

NEW SECTION. Sec. 204. A new section is added to chapter 82.32 RCW to read as follows:

There is hereby created a joint tax avoidance review committee which is a bipartisan committee consisting of three members of the senate, two from the majority caucus and one from the minority caucus, and three members of the house of representatives, two from the majority caucus and one from the minority caucus. The senate members of the committee must be appointed by the majority leader of the senate, and the house members of the committee must be appointed by the speaker of the house. The appointing authorities must also appoint one alternate member from each of the two largest caucuses of each legislative chamber.

(1)(a) Members and alternates must be appointed as soon as possible after the effective date of this section, and their terms continue until such persons no longer wish to serve on the committee or no longer serve in the legislature, whichever occurs first.

(b) A vacancy must be filled by the appointment of a legislator from the same legislative chamber and caucus as the original appointment. The appropriate appointing authority must make the appointment within thirty days of the vacancy occurring. Former committee members and alternates may be reappointed to the committee.

(2) The committee must choose its chair and vice-chair from among its membership. The committee meets at the call of the chair. The chair of the committee must cause all meeting notices and committee documents to be sent to the committee members and alternates.

(3) Staff support for the committee must be provided by the senate committee services and the house of representatives office of program research.

(4) The committee must:

(a) Generally monitor the department's implementation of Part II of this act, providing timely advice to the department in any rule making undertaken pursuant to the authority granted under section 201 of this act;

(b) Seek input from stakeholders and other legislators as the committee may determine is desirable and useful in the furtherance of its mission herein described;

(c) Review other cases, identified by the department, of tax avoidance transactions not described in section 201 of this act that may represent examples of arrangements that circumvent the policies of this state and thus unfairly avoid taxes;

(d) Consider the need for an explicit statutory construction standard to provide direction to the courts on the interpretation of Part II of this act; and

(e) Provide a report to the fiscal committees of the house of representatives and senate by December 31, 2010, which must include:

(i) Recommended legislation on any matters that the committee deems advisable, including amendments to sections 201, 202, and 203 of this act; and

(ii) Recommendations for future legislative oversight of the department's implementation of sections 201, 202, and 203 of this act.

(5) For the purposes of this section, the disclosure of otherwise confidential tax information to the members of the committee is deemed to fall within the exception provided by RCW 82.32.330(3)(d).

(6) This section expires July 1, 2011.

NEW SECTION. Sec. 205. (1) The legislature finds that this state's tax policy with respect to the taxation of transactions between
affiliated entities and the income derived from such transactions (intercompany transactions) has motivated some taxpayers to engage in transactions designed solely or primarily to minimize the tax effects of intercompany transactions. The legislature further finds that some intercompany transactions result from taxpayers that are required to establish affiliated entities to comply with regulatory mandates and that transactions between such affiliates effectively increases the tax burden in this state on the affiliated group of entities.

(2) Therefore, as existing resources allow, the department of revenue is directed to conduct a review of the state’s tax policy with respect to the taxation of intercompany transactions. The review must include the impacts of such transactions under the state’s business and occupation tax and state and local sales and use taxes. The department may include other taxes in the review as it deems appropriate.

(3) In conducting the review, the department must examine how this state’s tax policy compares to the tax policy of other states with respect to the taxation of intercompany transactions. The department’s review must include an analysis of potential alternatives to the current policy of taxing intercompany transactions, including their estimated revenue impacts if practicable.

(4) In conducting this review, the department may seek input from members of the business community and others as it deems appropriate.

(5) The department must report its findings to the fiscal committees of the house of representatives and senate by December 1, 2010. However, if the department has not completed its review by December 1, 2010, the department must provide the fiscal committees of the legislature with a brief status report by December 1, 2010, and the final report by December 1, 2011.

Sec. 206. RCW 82.12.020 and 2009 c 535 s 305 are each amended to read as follows:

(1) There is ((hereby)) levied and ((there shall be)) collected from every person in this state a tax or excise for the privilege of using within this state as a consumer any:

(a) Article of tangible personal property ((purchased at retail, or)) acquired by ((lease, gift, repossession, or bailment, or extracted or produced or manufactured by the person so using the same, or otherwise furnished to a person engaged in any business taxable under RCW 82.04.280 (2) or (7))) the user in any manner, including tangible personal property acquired at a casual or isolated sale, and including by-products used by the manufacturer thereof, except as otherwise provided in this chapter, irrespective of whether the article or similar articles are manufactured or are available for purchase within this state;

(b) Prewritten computer software, regardless of the method of delivery, but excluding prewritten computer software that is either provided free of charge or is provided for temporary use in viewing information, or both;

(c) Services defined as a retail sale in RCW 82.04.050 (2)(a) or (g), (3)(a), or (6)(b), excluding services defined as a retail sale in RCW 82.04.050(6)(b) that are provided free of charge;

(d) Extended warranty; or

(e)(i) Digital good, digital code, or digital automated service, including the use of any services provided by a seller exclusively in connection with digital goods, digital codes, or digital automated services, whether or not a separate charge is made for such services.

(ii) With respect to the use of digital goods, digital automated services, and digital codes acquired by purchase, the tax imposed in this subsection (1)(e) applies in respect to:

(A) Sales in which the seller has granted the purchaser the right of permanent use;

(B) Sales in which the seller has granted the purchaser a right of use that is less than permanent;

(C) Sales in which the purchaser is not obligated to make continued payment as a condition of the sale; and

(D) Sales in which the purchaser is obligated to make continued payment as a condition of the sale.

(iii) With respect to digital goods, digital automated services, and digital codes acquired other than by purchase, the tax imposed in this subsection (1)(e) applies regardless of whether or not the consumer has a right of permanent use or is obligated to make continued payment as a condition of use.

(2) The provisions of this chapter do not apply in respect to the use of any article of tangible personal property, extended warranty, digital good, digital code, digital automated service, or service taxable under RCW 82.04.050 (2)(a) or (g), (3)(a), or (6)(b), if the sale to, or the use by, the present user or the present user’s bailor or donor has already been subjected to the tax under chapter 82.08 RCW or this chapter and the tax has been paid by the present user or by the present user’s bailor or donor.

(3)(a) Except as provided in this section, payment of the tax imposed by this chapter or chapter 82.08 RCW by one purchaser or user of tangible personal property, extended warranty, digital good, digital code, digital automated service, or other service does not have the effect of exempting any other purchaser or user of the same property, extended warranty, digital good, digital code, digital automated service, or other service from the taxes imposed by such chapters.

(b) The tax imposed by this chapter does not apply:

(i) If the sale to, or the use by, the present user or his or her bailor or donor has already been subjected to the tax under chapter 82.08 RCW or this chapter and the tax has been paid by the present user or by his or her bailor or donor;

(ii) In respect to the use of any article of tangible personal property acquired by bailment and the tax has once been paid based on reasonable rental as determined by RCW 82.12.060 measured by the value of the article at time of first use multiplied by the tax rate imposed by chapter 82.08 RCW or this chapter as of the time of first use;

(iii) In respect to the use of any article of tangible personal property acquired by bailment, if the property was acquired by a previous bailee from the same bailor for use in the same general activity and the original bailment was prior to June 9, 1961; or

(iv) To the use of digital goods or digital automated services, which were obtained through the use of a digital code, if the sale of the digital code to, or the use of the digital code by, the present user or the present user’s bailor or donor has already been subjected to the tax under chapter 82.08 RCW or this chapter and the tax has been paid by the present user or by the present user’s bailor or donor.

(4)(a) Except as provided in (b) of this subsection (4), the tax is levied and must be collected in an amount equal to the value of the article used, value of the digital good or digital code used, value of the extended warranty used, or value of the service used by the taxpayer, multiplied by the applicable rates in effect for the retail sales tax under RCW 82.08.020.

(b) In the case of a seller required to collect use tax from the purchaser, the tax must be collected in an amount equal to the purchase price multiplied by the applicable rate in effect for the retail sales tax under RCW 82.08.020.

(5) For purposes of the tax imposed in this section, "person" includes anyone within the definition of "buyer," "purchaser," and "consumer" in RCW 82.08.010.

Sec. 207. RCW 82.45.010 and 2008 c 116 s 3 and 2008 c 6 s 701 are each reenacted and amended to read as follows:

(1) As used in this chapter, the term "sale" ((shall have)) has its ordinary meaning and ((shall)) includes any conveyance, grant,
assignment, quitclaim, or transfer of the ownership of or title to real property, including standing timber, or any estate or interest therein for a valuable consideration, and any contract for such conveyance, grant, assignment, quitclaim, or transfer, and any lease with an option to purchase real property, including standing timber, or any estate or interest therein or other contract under which possession of the property is given to the purchaser, or any other person at the purchaser's direction, and title to the property is retained by the vendor as security for the payment of the purchase price. The term also includes the grant, assignment, quitclaim, sale, or transfer of improvements constructed upon leased land.

(2)(a) The term "sale" also includes the transfer or acquisition within any twelve-month period of a controlling interest in any entity with an interest in real property located in this state for a valuable consideration.

(b) For the sole purpose of determining whether, pursuant to the exercise of an option, a controlling interest was transferred or acquired within a twelve-month period, the date that the option agreement was executed is the date on which the transfer or acquisition of the controlling interest is deemed to occur. For all other purposes under this chapter, the date upon which the option is exercised is the date of the transfer or acquisition of the controlling interest.

(c) For purposes of this subsection, all acquisitions of persons acting in concert (shall) must be aggregated for purposes of determining whether a transfer or acquisition of a controlling interest has taken place. The department (of revenue shall) must adopt standards by rule to determine when persons are acting in concert. In adopting a rule for this purpose, the department (shall) must consider the following:

(i) Persons (shall) must be treated as acting in concert when they have a relationship with each other such that one person influences or controls the actions of another through common ownership; and

(ii) When persons are not commonly owned or controlled, they (shall) must be treated as acting in concert only when the unity with which the purchasers have negotiated and will consummate the transfer of ownership interests supports a finding that they are acting as a single entity. If the acquisitions are completely independent, with each purchaser buying without regard to the identity of the other purchasers, then the acquisitions (shall be) considered separate acquisitions.

(3) The term "sale" (shall) does not include:

(a) A transfer by gift, devise, or inheritance.

(b) A transfer of any leasehold interest other than of the type mentioned above.

(c) A cancellation or forfeiture of a vendee's interest in a contract for the sale of real property, whether or not such contract contains a forfeiture clause, or deed in lieu of foreclosure of a mortgage.

(d) The partition of property by tenants in common by agreement or as the result of a court decree.

(e) The assignment of property or interest in property from one spouse or one domestic partner to the other spouse or other domestic partner in accordance with the terms of a decree of dissolution of marriage or state registered domestic partnership or in fulfillment of a property settlement agreement.

(f) The assignment or other transfer of a vendor's interest in a contract for the sale of real property, even though accompanied by a conveyance of the vendor's interest in the real property involved.

(g) Transfers by appropriation or decree in condemnation proceedings brought by the United States, the state or any political subdivision thereof, or a municipal corporation.

(h) A mortgage or other transfer of an interest in real property merely to secure a debt, or the assignment thereof.

(i) Any transfer or conveyance made pursuant to a deed of trust or an order of sale by the court in any mortgage, deed of trust, or lien foreclosure proceeding or upon execution of a judgment, or deed in lieu of foreclosure to satisfy a mortgage or deed of trust.

(j) A conveyance to the federal housing administration or veterans administration by an authorized mortgagee made pursuant to a contract of insurance or guaranty with the federal housing administration or veterans administration.

(k) A transfer in compliance with the terms of any lease or contract upon which the tax as imposed by this chapter has been paid or where the lease or contract was entered into prior to the date this tax was first imposed.

(l) The sale of any grave or lot in an established cemetery.

(m) A sale by the United States, this state or any political subdivision thereof, or a municipal corporation of this state.

(n) A sale to a regional transit authority or public corporation under RCW 81.112.320 under a sale/leaseback agreement under RCW 81.112.300.

(o) A transfer of real property, however effected, if it consists of a mere change in identity or form of ownership of an entity where there is no change in the beneficial ownership. These include transfers to a corporation or partnership which is wholly owned by the transferor and/or the transferor's spouse or domestic partner or children of the transferor or the transferor's spouse or domestic partner provided that the transferor or the transferee corporation or partnership voluntarily transfers such real property, or such transferor, spouse or domestic partner, or children of the transferor or the transferor's spouse or domestic partner voluntarily transfer stock in the transferee corporation or interest in the transferee partnership capital, as the case may be, to other than the transferee corporation or partnership, or (ii) a trust having the transferor and/or the transferee's spouse or domestic partner or children of the transferor or the transferee's spouse or domestic partner.

(2) A transfer that for federal income tax purposes does not involve the recognition of gain or loss for entity formation, liquidation or dissolution, and reorganization, including but not limited to nonrecognition of gain or loss because of application of section 332, 337, 351, 368(a)(1), 721, or 731 of the internal revenue code of 1986, as amended.

(i) The transfer described in (p)(i) of this subsection cannot be preceded or followed within a twelve-month period by another transfer or series of transfers, that, when combined with the otherwise exempt transfer or transfers described in (p)(i) of this subsection, results in the transfer of a controlling interest in the entity for valuable consideration, and in which one or more persons previously holding a controlling interest in the entity receive cash or property in exchange for any interest the person or persons acting in concert hold in the entity. This subsection (3) does not apply to that part of the transfer involving property received that is the real property interest that the person or persons originally contributed to the entity or when one or more persons who did not contribute real property or belong to the entity at a time when real property was purchased receive cash or personal property in exchange for that person or persons' interest in the entity. The real estate excise tax
under this subsection (3)(p)(ii) is imposed upon the person or persons who previously held a controlling interest in the entity.

(q) A qualified sale of a manufactured/mobile home community, as defined in RCW 59.20.030, that takes place on or after June 12, 2008, but before December 31, 2018.

Sec. 208. RCW 82.45.033 and 1993 sp.s. c 25 s 505 are each amended to read as follows:

(1) As used in this chapter, the term "controlling interest" has the following meaning:

((44)) (a) In the case of a corporation, either fifty percent or more of the total combined voting power of all classes of stock of the corporation entitled to vote, or fifty percent of the capital, profits, or beneficial interest in the voting stock of the corporation; and

((42)) (b) In the case of a partnership, association, trust, or other entity, fifty percent or more of the capital, profits, or beneficial interest in such partnership, association, trust, or other entity.

(2) The department may, at the department's option, enforce the obligation of the seller under this chapter as provided in this subsection (2):

(a) In the transfer or acquisition of a controlling interest as defined in subsection (1)(a) of this section, either against the corporation in which a controlling interest is transferred or acquired, against the person or persons who acquired the controlling interest in the corporation or, when the corporation is not a publicly traded company, against the person or persons who transferred the controlling interest in the corporation; and

(b) In the transfer or acquisition of a controlling interest as defined in subsection (1)(b) of this section, either against the entity in which a controlling interest is transferred or acquired or against the person or persons who transferred or acquired the controlling interest in the entity.

Sec. 209. RCW 82.45.070 and 1969 ex.s. c 223 s 28A.45.070 are each amended to read as follows:

The tax (herein) provided for in this chapter and any interest or penalties thereon (shall be) a specific lien upon each (piece) parcel of real property located in this state that is either sold or that is owned by an entity in which a controlling interest has been transferred or acquired. The lien attaches from the time of sale until the tax (shall have been) is paid, which lien may be enforced in the manner prescribed for the foreclosure of mortgages.

Sec. 210. RCW 82.45.080 and 1980 c 154 s 3 are each amended to read as follows:

(1) The tax levied under this chapter ((shall be)) is the obligation of the seller and the department ((of revenue)) may, at the department's option, enforce the obligation through an action of debt against the seller or the department may proceed in the manner prescribed for the foreclosure of mortgages ((and resort to)). The department's use of one course of enforcement ((shall)) is not ((be)) an election not to pursue the other.

(2) For purposes of this section and notwithstanding any other provisions of law, the seller is the parent corporation of a wholly owned subsidiary, when such subsidiary is the transferee to a third-party transferee and the subsidiary is dissolved before paying the tax imposed under this chapter.

Sec. 211. RCW 82.45.100 and 2007 c 111 s 112 are each amended to read as follows:

(1) Payment of the tax imposed under this chapter is due and payable immediately at the time of sale, and if not paid within one month thereafter (shall) will bear interest from the time of sale until the date of payment.

(a) Interest imposed before January 1, 1999, ((shall be)) is computed at the rate of one percent per month.

(b) Interest imposed after December 31, 1998, ((shall be)) is computed on a monthly basis at the rate as computed under RCW 82.32.050(2). The rate so computed ((shall)) must be adjusted on the first day of January of each year for use in computing interest for that calendar year. The department ((of revenue)) must provide written notification to the county treasurers of the variable rate on or before December 1st of the year preceding the calendar year in which the rate applies.

(2) In addition to the interest described in subsection (1) of this section, if the payment of any tax is not received by the county treasurer or the department of revenue, as the case may be, within one month of the date due, there ((shall be)) is assessed a penalty of five percent of the amount of the tax; if the tax is not received within two months of the date due, there ((shall)) will be assessed a total penalty of ten percent of the amount of the tax; and if the tax is not received within three months of the date due, there ((shall)) will be assessed a total penalty of twenty percent of the amount of the tax. The payment of the penalty described in this subsection ((shall)) is collectible from the seller only, and RCW 82.45.070 does not apply to the penalties described in this subsection.

(3) If the tax imposed under this chapter is not received by the due date, the transferee ((shall)) is personally liable for the tax, along with any interest as provided in subsection (1) of this section, unless:

——((a))) an instrument evidencing the sale is recorded in the official real property records of the county in which the property conveyed is located((but)).

——((b))) Either the transferor or transferee notifies the department of revenue in writing of the occurrence of the sale within thirty days following the date of the sale.

(4) If upon examination of any affidavits or from other information obtained by the department or its agents it appears that all or a portion of the tax is unpaid, the department ((shall)) must assess against the taxpayer the additional amount found to be due plus interest and penalties as provided in subsections (1) and (2) of this section. The department ((shall)) must notify the taxpayer by mail, or electronically as provided in RCW 82.32.135, of the additional amount and the same ((shall)) must be paid within thirty days from the date of the notice, or within such further time as the department may provide.

(5) No assessment or refund may be made by the department more than four years after the date of sale except upon a showing of:

(a) Fraud or misrepresentation of a material fact by the taxpayer;

(b) A failure by the taxpayer to record documentation of a sale or otherwise report the sale to the county treasurer; or

(c) A failure of the transferor or transferee to report the sale under RCW 82.45.090(2).

(6) Penalties collected on taxes due under this chapter under subsection (2) of this section and RCW 82.32.090(2) through ((4))) (5) ((shall)) must be deposited in the housing trust fund as described in chapter 43.185 RCW.

Sec. 212. RCW 82.45.220 and 2005 c 326 s 3 are each amended to read as follows:

(1) An organization that fails to report a transfer of the controlling interest in the organization under RCW 43.07.390 to the secretary of state and is later determined to be subject to real estate excise taxes due to the transfer, ((shall be)) is subject to the provisions of RCW 82.45.100 as well as the evasion penalty in RCW 82.32.090(6a)) (7).

(2) Subsection (1) of this section also applies to the failure to report to the secretary of state the granting of an option to acquire an interest in the organization if the exercise of the option would result in a sale as defined in RCW 82.45.010(2).

Sec. 213. RCW 43.07.390 and 2005 c 326 s 2 are each amended to read as follows:

(1)(a) The secretary of state ((shall)) must adopt rules requiring any entity that is required to file an annual report with the secretary of state, including entities under Titles 23, 23B, 24, and 25 RCW, to
PART III
Modifying the First Mortgage Deduction

Sec. 301. RCW 82.04.4292 and 1980 c 37 s 12 are each amended to read as follows:

(1) In computing tax there may be deducted from the measure of tax by those engaged in banking, loan, security or other financial businesses, (amounts derived from) interest received on investments or loans primarily secured by first mortgages or trust deeds on nontransient residential properties.

(2) Interest deductible under this section includes the portion of fees charged to borrowers, including points and loan origination fees, that is recognized over the life of the loan as an adjustment to yield in the taxpayer's books and records according to generally accepted accounting principles.

(3) Subsections (1) and (2) of this section notwithstanding, the following is a nonexclusive list of items that are not deductible under this section:

(a) Fees for specific services such as: Document preparation fees; finder fees; brokerage fees; title examination fees; fees for credit checks; notary fees; loan application fees; interest lock-in fees if the loan is not made; servicing fees; and similar fees or amounts;

(b) Fees received in consideration for an agreement to make funds available for a specific period of time at specified terms, commonly referred to as commitment fees;

(c) Any other fees, or portion of a fee, that is not recognized over the life of the loan as an adjustment to yield in the taxpayer's books and records according to generally accepted accounting principles;

(d) Gains on the sale of valuable rights such as service release premiums, which are amounts received when servicing rights are sold; and

(e) Gains on the sale of loans, except deferred loan origination fees and points deductible under subsection (2) of this section, are not to be considered part of the proceeds of sale of the loan.

(4) Notwithstanding subsection (3) of this section, in computing tax there may be deducted from the measure of tax by those engaged in banking, loan, security, or other financial businesses, amounts received for servicing loans primarily secured by first mortgages or trust deeds on nontransient residential properties, including such loans that secure mortgage-backed or mortgage-related securities, but only if:

(a)(i) The loans were originated by the person claiming a deduction under this subsection (4) and that person either sold the loans on the secondary market or securitized the loans and sold the securities on the secondary market; or

(ii) The person claiming a deduction under this subsection (4) acquired the loans from the person that originated the loans through a merger or acquisition of substantially all of the assets of the person who originated the loans, or the person claiming a deduction under this subsection (4) is affiliated with the person that originated the loans. For purposes of this subsection, "affiliated" means under common control. "Control" means the possession, directly or indirectly, of more than fifty percent of the power to direct or cause the direction of the management and policies of a person, whether through the ownership of voting shares, by contract, or otherwise; and

(B) Either the person who originated the loans or the person claiming a deduction under this subsection (4) sold the loans on the secondary market or securitized the loans and sold the securities on the secondary market; and

(b) The amounts received for servicing the loans are determined by a percentage of the interest paid by the borrower and are only received if the borrower makes interest payments.

NEW SECTION. Sec. 401. (1) A business and occupation tax exemption is provided in RCW 82.04.423 for certain out-of-state sellers that sell consumer products exclusively to or through a direct seller's representative. The intent of the legislature in enacting this exemption was to provide a narrow exemption for out-of-state businesses engaged in direct sales of consumer products, typically accomplished through in-home parties or door-to-door selling.

(2) In Dot Foods, Inc. v. Dept of Revenue, Docket No. 81022-2 (September 10, 2009), the Washington supreme court held that the exemption in RCW 82.04.423 applied to a taxpayer: (a) That sold nonconsumer products through its representative in addition to consumer products; and (b) whose consumer products were ultimately sold at retail in permanent retail establishments.

(3) The legislature finds that most out-of-state businesses selling consumer products in this state will either be eligible for the exemption under RCW 82.04.423 or could easily restructure their business operations to qualify for the exemption. As a result, the legislature expects that the broadened interpretation of the direct sellers' exemption will lead to large and devastating revenue losses. This comes at a time when the state's existing budget is facing a two billion six hundred million dollar shortfall, which could grow, while at the same time the demand for state and state-funded services is also growing. Moreover, the legislature further finds that RCW 82.04.423 provides preferential tax treatment for out-of-state businesses over their in-state competitors and now creates a strong incentive for in-state businesses to move their operations outside Washington.

(4) Therefore, the legislature finds that it is necessary to reaffirm the legislature's intent in establishing the direct sellers' exemption and prevent the loss of revenues resulting from the expanded interpretation of the exemption by amending RCW 82.04.423 retroactively to conform the exemption to the original intent of the legislature and by prospectively ending the direct sellers' exemption as of the effective date of this section.

Sec. 402. RCW 82.04.423 and 1983 1st ex.s. c 66 s 5 are each amended to read as follows:

(1) Prior to the effective date of this section, this chapter (shall) does not apply to any person in respect to gross income derived from the business of making sales at wholesale or retail if such person:

(a) Does not own or lease real property within this state; and

(b) Does not regularly maintain a stock of tangible personal property in this state for sale in the ordinary course of business; and

(c) Is not a corporation incorporated under the laws of this state; and

(d) Makes sales in this state exclusively to or through a direct seller's representative.
NEW SECTION. Sec. 501. (a) In 1967, the legislature amended RCW 82.04.260 in chapter 149, Laws of 1967, 3rd sess., to authorize a preferential business and occupation tax rate for slaughtering, breaking, and/or processing perishable meat products and/or selling the same at wholesale. The legislature finds that RCW 82.04.260(4) was interpreted by the state supreme court on January 13, 2005, in Agrilink Foods, Inc. v. Department of Revenue, 153 Wn.2d 392 (2005). The supreme court held that the preferential business and occupation tax rate on the slaughtering, breaking, and/or processing of perishable meat products applied to the processing of perishable meat products into nonperishable finished products, such as canned food.

(b) The legislature intends to narrow the exemption provided for slaughtering, breaking, and/or processing perishable meat products and/or selling such products at wholesale by requiring that the end product be a perishable meat product; a nonperishable meat product that is comprised primarily of animal carcass by weight or volume, other than a canned meat product; or a meat by-product.

(2)(a) A business and occupation tax exemption is provided for (i) manufacturing by canning, preserving, freezing, processing, or dehydrating fresh fruits or vegetables, and (ii) selling such products at wholesale by the manufacturer to purchasers who transport the goods out of state in the ordinary course of business. This exemption expires July 1, 2012, and is replaced by a preferential business and occupation tax rate.

(b) The legislature finds that the rationale of the Agrilink decision, if applied to these tax preferences, could result in preferential tax treatment for any processed food product that contained any fresh fruit or vegetable as an ingredient, however small the amount.

(c) The legislature intends to narrow the tax preference provided to fruit and vegetable manufacturers by requiring that the end product be comprised either (i) exclusively of fruits and/or vegetables, or (ii) of any combination of fruits, vegetables, and certain other substances that, cumulatively, may not exceed the amount of fruits and vegetables contained in the product measured by weight or volume.

NEW SECTION. Sec. 502. A new section is added to chapter 82.04 RCW to read as follows:

(1) Upon every person engaging within this state in the business of manufacturing:

(a) Perishable meat products, by slaughtering, breaking, or processing, if the finished product is a perishable meat product; as to such persons the tax imposed is equal to the value of the perishable meat products manufactured, or, in the case of a processor for hire, the gross income of the business, multiplied by the rate of 0.138 percent;

(b) Meat products, by dehydration, curing, smoking, or any combination of these activities, if the finished meat products are not canned; as to such persons the tax imposed is equal to the value of the meat products manufactured, or, in the case of a processor for hire, the gross income of the business, multiplied by the rate of 0.138 percent;

(c) Hides, tallow, meat meal, and other similar meat by-products, if such products are derived in part from animals and manufactured in a rendering plant licensed under chapter 16.68 RCW; as to such persons the tax imposed is equal to the value of the products manufactured, or, in the case of a processor for hire, the gross income of the business, multiplied by the rate of 0.138 percent.

(2) Upon every person engaging within this state in the business of selling at wholesale:

(a) Perishable meat products; as to such persons the tax imposed is equal to the gross proceeds derived from such sales multiplied by the rate of 0.138 percent;

(b) Meat products that have been manufactured by the seller by dehydration, curing, smoking, or any combination of such activities, if the finished meat products are not canned: as to such persons the tax imposed is equal to the gross proceeds derived from such sales multiplied by the rate of 0.138 percent;

(c) Hides, tallow, meat meal, and other similar meat by-products, if such products are derived in part from animals and manufactured by the seller in a rendering plant; as to such persons the tax imposed is equal to the gross proceeds derived from such sales multiplied by the rate of 0.138 percent.

(3) The definitions in this subsection apply throughout this section unless the context clearly requires otherwise.

(a) "Animal" means all members of the animal kingdom except humans, fish, and insects.

(b) "Carcass" means all or any parts, including viscera, of a slaughtered animal.

(c) "Fish" means any water-breathing animal, including shellfish.

(d) "Hide" means any unprocessed animal pelt or skin.

(e)(i) "Meat products" means:

The department of agriculture must provide a list of eligible persons, as defined in subsection (4)(c)(i) and (ii) of this section, to the department of revenue. (b) A person claiming an exemption under this section must keep records necessary for the department to verify eligibility under this section. The exemption is available only when the buyer provides the seller with an exemption certificate in a form and manner prescribed by the department. The seller must retain a copy of the certificate for the seller's files.

(4) The definitions in this subsection apply to this section and RCW 82.12.890 unless the context clearly requires otherwise:

with their business and occupation tax obligations with respect to their director compensation. However, because of the widespread misunderstanding by corporate directors of their liability for business and occupation tax on director compensation, the legislature finds that it is appropriate in this unique situation to provide limited relief against the retroactive assessment of business and occupation taxes on corporate director compensation.

(5) The legislature also reaffirms its intent that all income of all independent contractors is subject to business and occupation tax unless specifically exempt under the Constitution or laws of this state or the United States.

Sec. 702. RCW 82.04.360 and 2010 c 106 (E2SHB 1597) s 207 are each amended to read as follows:

(1) This chapter does not apply to any person in respect to his or her employment in the capacity of an employee or servant as distinguished from that of an independent contractor. For the purposes of this section, the definition of employee (shall) includes those persons that are defined in section 3121(d)(3)(B) of the federal internal revenue code of 1986, as amended through January 1, 1991.

(2) Until the effective date of this section, this chapter does not apply to amounts received by an individual from a corporation as compensation for serving as a member of that corporation's board of directors. Beginning on the effective date of this section, such amounts are taxable under RCW 82.04.290(2).

(3) A booth renter is an independent contractor for purposes of this chapter. For purposes of this subsection, "booth renter" means any person who:

(a) Performs cosmetology, barbering, esthetics, or manicuring services for which a license is required under chapter 18.16 RCW;
(b) Pays a fee for the use of salon or shop facilities and receives no compensation for services performed.

PART VII
Ending the Preferential Business and Occupation Tax Treatment Received by Directors of Corporations

NEW SECTION. Sec. 701. (1) In adopting the state's business and occupation tax, the legislature intended to tax virtually all business activities carried on within the state. See Simpson Inv. Co. v. Dept of Revenue, 141 Wn.2d 139, 149 (2000). The legislature recognizes that the business and occupation tax applies to all activities engaged in with the object of gain, benefit, or advantage to the taxpayer or to another person or class, directly or indirectly, unless a specific exemption applies.

(2) One of the major business and occupation tax exemptions is provided in RCW 82.04.360 for income earned as an employee or servant as distinguished from income earned as an independent contractor. The legislature's intent in providing this exemption was to exempt employee wages from the business and occupation tax but not to exempt income earned as an independent contractor.

(3) The legislature finds that corporate directors are not employees or servants of the corporation whose board they serve on and therefore are not entitled to a business and occupation tax exemption under RCW 82.04.360. The legislature further finds that there are no business and occupation tax exemptions for compensation received for serving as a member of a corporation's board of directors.

(4) The legislature also finds that there is a widespread misunderstanding among corporate directors that the business and occupation tax does not apply to the compensation they receive for serving as a director of a corporation. It is the legislature's expectation that the department of revenue will take appropriate measures to ensure that corporate directors understand and comply with their business and occupation tax obligations with respect to their director compensation. However, because of the widespread misunderstanding by corporate directors of their liability for business and occupation tax on director compensation, the legislature finds that it is appropriate in this unique situation to provide limited relief against the retroactive assessment of business and occupation taxes on corporate director compensation.

(5) The legislature also reaffirms its intent that all income of all independent contractors is subject to business and occupation tax unless specifically exempt under the Constitution or laws of this state or the United States.

Sec. 702. RCW 82.04.360 and 2010 c 106 (E2SHB 1597) s 207 are each amended to read as follows:

(1) This chapter does not apply to any person in respect to his or her employment in the capacity of an employee or servant as distinguished from that of an independent contractor. For the purposes of this section, the definition of employee (shall) includes those persons that are defined in section 3121(d)(3)(B) of the federal internal revenue code of 1986, as amended through January 1, 1991.

(2) Until the effective date of this section, this chapter does not apply to amounts received by an individual from a corporation as compensation for serving as a member of that corporation's board of directors. Beginning on the effective date of this section, such amounts are taxable under RCW 82.04.290(2).

(3) A booth renter is an independent contractor for purposes of this chapter. For purposes of this subsection, "booth renter" means any person who:

(a) Performs cosmetology, barbering, esthetics, or manicuring services for which a license is required under chapter 18.16 RCW;
(b) Pays a fee for the use of salon or shop facilities and receives no compensation for services performed.

PART VIII

For the purposes of this section, any retail sales taxes that have been paid but not collected shall be deductible from the retail sales taxes collected and not paid.

(2) The officer, member, manager, or other person shall be liable only for taxes collected which (a) Wheneve the department has issued a warrant under RCW 82.32.210 for the collection of unpaid retail sales tax funds collected and held in trust under RCW 82.08.050 from a limited liability business entity and that business entity has been terminated, dissolved, or abandoned, or is insolvent, the department may pursue collection of the entity's unpaid sales taxes, including penalties and interest on those taxes, against any or all of the responsible individuals. For purposes of this subsection, "insolvent" means the condition that results when the sum of the
(2) Personal liability under this section may be imposed for state and local sales taxes.

(b) All other responsible individuals are liable under this section only for sales tax liability that became due during the period he or she had the ((control supervision))) responsibility or duty to remit payment of the limited liability business entity's taxes to the department.

(5) Persons (liable under) described in subsection (((4))) (3)(b) of this section are exempt from liability under this section in situations where nonpayment of the (retail sales tax funds held in trust) limited liability business entity's sales taxes is due to reasons beyond their control as determined by the department by rule.

(6) Any person having been issued a notice of assessment under this section is entitled to the appeal procedures under RCW 82.32.160, 82.32.170, 82.32.180, 82.32.190, and 82.32.200.

(7) This section does not relieve the (corporation or) limited liability (company) business entity of (other tax liabilities) its sales tax liability or otherwise impair other tax collection remedies afforded by law.

Collection authority and procedures prescribed in this chapter apply to collections under this section.

The definitions in this subsection apply throughout this section unless the context clearly requires otherwise.

(a) "Chief executive" means: The president of a corporation; or for other entities or organizations other than corporations or if the corporation does not have a president as one of its officers, the highest ranking executive manager or administrator in charge of the management of the company or organization.

(g)(i) "Responsible individual" includes any current or former officer, manager, member, partner, or trustee of a limited liability business entity with an unpaid tax warrant issued by the department.

(ii) "Responsible individual" also includes any current or former employee or other individual, but only if the individual had the responsibility or duty to remit payment of the limited liability business entity's unpaid sales tax liability reflected in a tax warrant issued by the department.

(iii) Whenever any taxpayer has one or more limited liability business entities as a member, manager, or partner, "responsible individual" also includes any current and former officers, members, or managers of the limited liability business entity or entities or of any other limited liability business entity involved directly in the management of the taxpayer. For purposes of this subsection (9)(e)(iii), "taxpayer" means a limited liability business entity with an unpaid tax warrant issued against it by the department.

(h) "Willfully fails to pay or to cause to be paid" means that the failure was the result of an intentional, conscious, and voluntary course of action.

(ii) During any vacancy, the employer is training or actively recruiting a replacement permanent, full-time employee for the position.

(c) For full-time employment positions initially filled before July 1, 2010:

(b) No refunds may be granted for credits under this section.

(c) The credit provided in this section is in addition to any other credit that may be available to the candy manufacturer with respect to the same employment positions.

(3) The department of revenue may also require verified annual returns from any taxpayer, setting forth such additional information as it may deem necessary to correctly determine tax liability.

proportionally to the taxable price of the property or service and the
sales or use tax thereon, and secondly to interest, service charges,
and any other charges.
(5) If the seller uses a certified service provider as defined in
RCW 82.32.020 to administer its use tax responsibilities, the
certified service provider may claim, on behalf of the seller, the
credit or refund allowed by this section. The certified service
provider must credit or refund the full amount received to the seller.
(6) The department ((shall)) must allow an allocation of bad
debts among member states to the streamlined sales and use tax
agreement, as defined in RCW 82.58.010(1), if the books and

ENGROSSED SENATE BILL 6870.

MOTION

On motion of Senator Eide, the Senate advanced to the sixth order of business.

The Senate resumed consideration of Engrossed House Bill No. 2561 which had been deferred earlier in the day.

MOTION
TWENTY NINTH DAY, APRIL 12, 2010

Senator Honeyford moved that the following amendment by Senator Honeyford to the committee striking amendment be adopted:

On page 3, line 34, after "(b)" insert the following:

"Cost effective" has the same meaning as provided in RCW 80.52.030.

On page 5, line 15, after "demonstrates" insert "cost effective"

The motion by Senator Honeyford failed and the amendment to the committee striking amendment was not adopted by a rising vote.

The President declared the question before the Senate to be the adoption of the amendment by Senator Honeyford on line 34 to the committee striking amendment to Engrossed House Bill No. 2561.

The President declared the question before the Senate to be the adoption of the committee striking amendment by the Senate.

The motion by Senator Honeyford carried and the committee striking amendment was adopted by voice vote.

POINT OF ORDER

Senator Carrell: “I believe that this bill contains two subjects in violation of Senate Rule 25 and I have arguments thereon. This bill authorized the issuance of bonds for the purpose of creating energy efficient schools. In addition the bill removes the expiration date on the new tax on bottled water. The tax on bottled water is not dedicated to the payment of the bonds issued under the bill. It is an entirely separate stand alone provision to extend the tax where the revenue is directed to the state’s general fund and revenue may be spent on a variety of programs. Mr. President, I believe that the bill contains two distinct subjects, the issuance of bonds and the extension of a tax in violation of Rule 25.”

REPLY BY THE PRESIDENT

President Owen: “Senator Carrell, the President needs a clarification. You raised your point of order on the bill or raised your point of order on the committee amendment? Senator Carrell, the President is going to allow little latitude here because he believes that you made your point of order to the bill but in effect the striking amendment is the bill. Therefore he will allow the consideration of the two the question of violating the two issue rule on the striking amendment itself and we’ll take under consideration.”

Senator Eide spoke against the point of order.

RULING BY THE PRESIDENT

President Owen: “In ruling on the Point of Order raised by Senator Carrell as to whether the Senate committee amendment to Engrossed House Bill No. 2561 would violate the single subject limitation found in Senate Rule 25, the President finds and rules as follows:

The Senate has developed a body of parliamentary precedent on this issue, precedent which is based in large part upon Supreme Court rulings on this same topic. While the President does not make legal rulings, the Supreme Court’s guidance is appropriate, because Senate Rule 25 contains the same single subject language found in our Constitution in Article II, Section 19.

Very generally, this precedent requires that the various sections and effects of a measure be rationally related to that measure’s overarching common purpose or subject. It is true that this measure contains multiple provisions, but these are all harmonized under one common policy choice—or subject—of the bill, which is to issue bonds for a particular purpose and include revenue which might fund those bonds and facilitate that purpose. The varied and detailed sections of the bill in this case are simply policy choices made by the drafters to implement that purpose. Others may prefer different choices or different purposes altogether, but those are policy choices to be made by this body, not a violation of Senate Rule 25.

For these reasons, the President finds that the proposed committee amendment does not violate the provisions of Senate Rule 25, and Senator Carrell’s point is not well-taken.”

MOTION

There being no objection, the following title amendment was adopted:

On page 1, line 2 of the title, after "facilities" strike the remainder of the title and insert "and raising revenue therefor; amending RCW 82.08.0293, 82.12.0293, and 39.94.040; adding a new chapter to Title 43 RCW; creating new sections; making an appropriation; providing a contingent effective date; providing for submission of certain sections of this act to a vote of the people; and declaring an emergency."

MOTION

On motion of Senator Fraser, the rules were suspended, Engrossed House Bill No. 2561 as amended b the Senate was advanced to third reading, the second reading considered the third and the bill was placed on final passage.

Senators Fraser, Franklin and Rockefeller spoke in favor of passage of the bill.

Senators Zarelli, King, Benton and Carrell spoke against passage of the bill.

PART II

HUMAN SERVICES

Sec. 201. 2009 c 564 s 201 (uncodified) is amended to read as follows:

FOR THE DEPARTMENT OF SOCIAL AND HEALTH SERVICES. (1) Appropriations made in this act to the department of social and health services shall initially be allotted as required by this act. Subsequent allotment modifications shall not include transfers of moneys between sections of this act except as expressly provided in this act, nor shall allotment modifications permit moneys that are provided solely for a specified purpose to be used for other than that purpose.

(2) The department of social and health services shall not initiate any services that require expenditure of state general fund moneys unless expressly authorized in this act or other law. The department may seek, receive, and spend, under RCW 43.79.260 through 43.79.282, federal moneys not anticipated in this act as long as the federal funding does not require expenditure of state moneys.
for the program in excess of amounts anticipated in this act. If the department receives unanticipated unrestricted federal moneys, those moneys shall be spent for services authorized in this act or in any other legislation providing appropriation authority, and an equal amount of appropriated state general fund moneys shall lapse. Upon the lapsing of any moneys under this subsection, the office of financial management shall notify the legislative fiscal committees. As used in this subsection, "unrestricted federal moneys" includes block grants and other funds that federal law does not require to be spent on specifically defined projects or matched on a formula basis by state funds.

(3) The appropriations to the department of social and health services in this act shall be expended for the programs and in the amounts specified in this act.

(4) The department is authorized to develop an integrated health care program designed to slow the progression of illness and disability and better manage medicare expenditures for the aged and disabled population. Under this Washington medicare integration partnership (WMIP), the department may combine and transfer such medicare funds appropriated under sections 204, 206, 208, and 209 of this act as may be necessary to finance a unified health care plan for the WMIP program enrollment. The WMIP pilot projects shall not exceed a daily enrollment of 6,000 persons, nor expand beyond one county, during the 2009-2011 biennium. The amount of funding assigned to the pilot projects from each program may not exceed the average per capita cost assumed in this act for individuals covered by that program, actuarially adjusted for the health condition of persons enrolled in the pilot project, times the number of clients enrolled in the pilot project. In implementing the WMIP pilot projects, the department may: (a) Withhold from calculations of "available resources" as set forth in RCW 71.24.025 a sum equal to the capitated rate for individuals enrolled in the pilots; and (b) employ capitation financing and risk-sharing arrangements in collaboration with health care service contractors licensed by the office of the insurance commissioner and qualified to participate in both the medicare and medicare programs. The department shall conduct an evaluation of the WMIP, measuring changes in participant health outcomes, changes in patterns of service utilization, participant satisfaction, participant access to services, and the state fiscal impact.

(5)(a) The appropriations to the department of social and health services in this act shall be expended for the programs and in the amounts specified in this act. However, after May 1, 2010, unless specifically prohibited by this act, the department may transfer general fund--state appropriations for fiscal year 2010 among programs after approval by the director of financial management. However, the department shall not transfer state moneys that are provided solely for a specified purpose except as expressly provided in (b) of this subsection.

(b) To the extent that transfers under (a) of this subsection are insufficient to fund actual expenditures in excess of fiscal year 2010 caseload forecasts and utilization assumptions in the medical assistance, long-term care, foster care, adoptions support, and child support programs, the department may transfer state moneys that are provided solely for a specified purpose. The department shall not transfer funds, and the director of financial management shall not approve the transfer, unless the transfer is consistent with the objective of conserving, to the maximum extent possible, the expenditure of state funds. The director of financial management shall notify the appropriate fiscal committees of the senate and house of representatives in writing seven days prior to approving any allotment modifications or transfers under this subsection. The written notification shall include a narrative explanation and justification of the changes, along with expenditures and allotments by budget unit and appropriation, both before and after any allotment modifications or transfers.

(6) The legislature finds that medicare payment rates, as calculated by the department pursuant to the appropriations in this act, bear a reasonable relationship to the costs incurred by efficiently and economically operated facilities for providing quality services and will be sufficient to enlist enough providers so that care and services are available to the extent that such care and services are available to the general population in the geographic area. The legislature finds that cost reports, payment data from the federal government, historical utilization, economic data, and clinical input constitute reliable data upon which to determine the payment rates.

(7) With the objective of improving and enhancing the efficiency and effectiveness of the audit and oversight program, the department shall identify streamlining opportunities in the areas described in (a) through (d) of this subsection. The goals of these activities are to leverage department resources to better fulfill the obligations of all aspects of audit and oversight programs in an era of resource constraints and to assure that the burden of audits and other oversight activities on the state's businesses, organizations, and individuals is as minimal as practical.

(a) The department shall complete an assessment of expanding the use of technology and automated data matches for identification and recovery of third party resources, including data matches with pharmacy benefit managers (PBM). The department shall submit a report to the governor and the relevant fiscal and policy committees of the legislature by September 1, 2010, that identifies resources needed to implement the enhanced data matching capability and the actions and timelines necessary for implementation of automated production data matching capability.

(b) The department shall complete a comprehensive review of multiple licensing and certification reviews, onsite surveys, and contract oversight obligations that require provider site visits or require provider response. The department shall identify all related oversight and review activities and identify opportunities for consolidation of multiple clinical and business management review activities as appropriate with a view to minimizing the cost of both conducting and receiving the audits or other review or oversight activities.

(c) The department shall expand its provider audit capacity through its provider one payment system. The department shall identify medicare payment system enhancements that will maximize new technical capabilities. The department shall explore new technical capabilities of its fraud and abuse detection system to identify more efficient ways to correlate audit efforts to the levels of risk and materiality. Results of focused audits must be used to enhance educational materials. The department shall report to the governor and legislature by December 1, 2010, on the status of developing this audit capacity.

(d) The department shall conduct a review and assessment of audit processes and timeframes. The department shall review audit outcomes from the past three fiscal years and will concentrate on identifying opportunities to shorten timeframes between the various stages of an audit, including the letter of intent to audit, records collection to issuance of the draft audit, dispute resolution activities, issuance of the final audit, and administrative hearings. The department shall initiate a provider outreach and education program to include communication materials that clearly identify expectations of the department and the provider being audited. The department must develop and publish an orientation to medicare audits publication by October 1, 2010, that includes audit requirements, expectations of providers and the department, and associated timelines. The department shall report to the governor and relevant policy and fiscal committees of the legislature by December 1, 2010, on the status of these activities.

The department shall work with regional support networks and the center for medicare and medicaid services to integrate eligible components of the PACT service delivery model into medicare capitation rates no later than January 2011, while maintaining consistency with all essential elements of the PACT evidence-based practice model.

The department shall separately charge regional support networks for persons served in the PALS program.

(g) From the general fund--state appropriations in this subsection, the secretary of social and health services shall assure that regional support networks reimburse the aging and disability services administration for the general fund--state cost of medicare personal care services that enrolled regional support network consumers use because of their psychiatric disability.

(l) The department shall return to the Spokane regional support network fifty percent of the amounts assessed against the network during the last six months of calendar year 2009 for state hospital utilization in excess of its contractual limit. The regional support network shall use these funds for operation during its initial months of a new sixteen-bed evaluation and treatment facility that will enable the network to reduce its use of the state hospital, and for diversion and community support services for persons with dementia who would likely otherwise require care at the state hospital.

(m) The department is directed to identify and implement program efficiencies and benefit changes in its delivery of medicare managed-care services that are sufficient to operate within the state and federal appropriations in this section. Such actions may include but are not limited to methods such as adjusting the care access standards; improved utilization management of ongoing, recurring, and high-intensity services; and increased uniformity in provider payment rates. The department shall ensure that the capitation rate adjustments necessary to accomplish these efficiencies and changes are distributed uniformly and equitably across all regional support networks statewide. The department is directed to report to the relevant legislative fiscal and policy committees at least thirty days prior to implementing rate adjustments reflecting these changes.

(n) In implementing the new public mental health managed care payment rates for fiscal year 2011, the department shall to the maximum extent possible within each regional support network's allowable rate range establish rates so that there is no increase or decrease in the total state and federal funding that the regional support network would receive if it were to continue to be paid at its October 2009 through June 2010 rates. The department shall additionally revise the draft rates issued January 28, 2010, to more accurately reflect the lower practitioner productivity inherent in the delivery of services in extremely rural regions in which a majority of the population reside in frontier counties, as defined and designated by the national center for frontier communities.

The appropriations in this subsection are subject to the following conditions and limitations:

(a) Individuals receiving services as supplemental security income (SSI) state supplemental payments shall not become eligible for medical assistance under RCW 74.09.510 due solely to the receipt of SSI state supplemental payments.

(b)(i) Amounts appropriated in this section reflect a reduction to funds appropriated for in-home care. The department shall reduce the number of in-home hours authorized. The reduction shall be scaled based on the acuity level of care recipients. The largest hour reductions shall be to lower acuity patients and the smallest hour reductions shall be to higher acuity patients. In doing so, the department shall comply with all maintenance of effort requirements contained in the American reinvestment and recovery act.

(ii) $508,000 of the general fund—state appropriation for fiscal year 2011 and $822,000 of the general fund—federal appropriation are provided solely for the department to partially restore the reductions to in-home care that are taken in (b)(i) of this subsection. The department will use the same formula to restore personal care hours that it used to reduce personal care hours.

(c) Amounts appropriated in this section are sufficient to develop and implement the use of a consistent, statewide outcome-based vendor contract for employment and day services by April 1, 2011. The rates paid to vendors under this contract shall also be made consistent. In its description of activities the agency shall include activity listings and dollars appropriated for: Employment services, day services, child development services and county administration of services to the developmentally disabled. In order to maximize the number of clients served and ensure the cost-effectiveness of the waiver programs, the department will strive to limit new client placement expenditures to 90 percent of the budgeted daily rate. If this can be accomplished, additional clients may be served with excess funds, provided the total projected carry-forward expenditures do not exceed the amounts estimated. The department shall electronically report to the appropriate committees of the legislature, within 45 days following each fiscal year quarter, the number of persons served with these additional community services, where they were residing, what kinds of services they were receiving prior to placement, and the actual expenditures for all community services to support these clients.

Funding in this subsection shall be prioritized for (A) clients being diverted or discharged from the state psychiatric hospitals; (B) clients participating in the dangerous mentally ill offender program; (C) clients participating in the community protection program; and (D) mental health crisis diversion outplacements. The department shall ensure that the average cost per day for all program services other than start-up costs shall not exceed $349 per day in fiscal year 2010 and $356 per day in fiscal year 2011. In order to maximize the number of clients served and ensure the cost effectiveness of the waiver programs, the department will strive to limit new client placement expenditures to 90 percent of the budgeted daily rate. If this can be accomplished, additional clients may be served with excess funds if the total projected carry-forward expenditures do not exceed the amounts estimated.

(e)(ii) $682,000 of the general fund—state appropriation for fiscal year 2011, and $1,678,000 of the general fund—federal appropriation are provided solely for the state's contribution to the training partnership, as provided in RCW 74.39A.360, pursuant to a collective bargaining agreement negotiated with the exclusive bargaining representative of individual providers established under RCW 74.39A.270.

(f) (i) $682,000 of the general fund—state appropriation for fiscal year 2010, $1,651,000 of the general fund—state appropriation for fiscal year 2011, and $1,678,000 of the general fund—federal appropriation are provided solely for the state's contribution to the training partnership, as provided in RCW 74.39A.360, pursuant to a collective bargaining agreement negotiated with the exclusive bargaining representative of individual providers established under RCW 74.39A.270.

(ii) The federal portion of the amounts in this subsection (g) is contingent upon federal approval of participation in contributions to the trust and shall remain unallotted and placed in reserve status until the office of financial management and the department of social and health services receive federal approval.

(iii) Expenditures for the purposes specified in this subsection (g) shall not exceed the amounts provided in this subsection.

(iv) The department shall implement all necessary rules to facilitate the transfer to a department home and community-based services (HCBS) waiver of all eligible individuals who (i) currently receive services under the existing state-only employment and day program or the existing state-only residential program, and (ii) otherwise meet the waiver eligibility requirements. The amounts appropriated are sufficient to ensure that all individuals currently receiving services under the state-only employment and day and...
state-only residential programs who are not transferred to a department HCBS waiver will continue to receive services.

((i) Adult day health services shall only be authorized for in-home clients.

—(ii) In addition to other reductions, the appropriations in this subsection reflect reductions targeted specifically to state government administrative costs. These administrative reductions shall be achieved, to the greatest extent possible, by reducing those administrative costs that do not affect direct client services or direct service delivery or programs.

(((iii)) (a) The department shall not pay a home care agency licensed under chapter 70.127 RCW for personal care services provided by a family member, pursuant to Substitute House Bill No. 2361 (modifying state payments for in-home care).

(((iv)) (i) Within the appropriations of this section, the department shall reduce all seventeen payment levels of the seventeen-level payment system from the fiscal year 2009 levels for boarding homes, boarding homes contracted as assisted living, and adult family homes. Excluded from the reductions are exceptional care rate add-ons. (i) Persons with AIDS or HIV-related diseases who might otherwise require nursing home or hospital care;

(ii) Persons with Alzheimer's disease and related dementia who might otherwise require nursing home care; and

(iii) Persons with co-occurring mental illness and long-term care needs who are eligible for expanded community services and who might otherwise require state and local psychiatric hospital care.

Within amounts appropriated, exceptional add-on rates for AIDS/HIV, dementia specialty care, and expanded community services may be standardized within each program.

(((v)) (i) The amounts appropriated in this subsection reflect a reduction in funds available for employment and day services. In administering this reduction the department shall negotiate with counties and their vendors so that this reduction, to the greatest extent possible, is achieved by reducing vendor rates and allowable contract administrative charges (overhead) and not through reductions to direct client services or direct service delivery or programs.

(((vi)) (k) As part of the needs assessment instrument, the department may collect data on family income for minor children with developmental disabilities and all individuals who are receiving state-only funded services. The department may ensure that this information is collected as part of the client assessment process.

(l) $116,000 of the general fund appropriation shall be utilized for graduates served on a home and community-based services waiver and fifty percent of the general fund appropriation shall be used for nonwaiver clients.

Additionally, the report shall provide a full accounting of the relative hourly costs of agency providers and individual providers.

(o) The department shall establish a working group with representatives of the home care industry to identify and eliminate or mitigate administrative burdens. The make-up of this working group shall be limited to:

(i) The state unit on aging chief of the aging and disabilities service administration (ADSA);

(ii) Other ADSA representatives as the state unit on aging chief deems necessary;

(5) Within the appropriations of this section, the department shall reduce all seventeen payment levels of the seventeen-level payment system from the fiscal year 2009 levels for
boarding homes, boarding homes contracted as assisted living, and adult family homes. Excluded from the reductions are exceptional care rate add-ons. The long-term care program may develop add-ons to pay exceptional care rates to adult family homes and boarding homes with specialty contracts to provide support for the following specifically eligible clients:

(b) Persons with Alzheimer's disease and related dementia who might otherwise require nursing home care; and
(c) Persons with co-occurring mental illness and long-term care needs who are eligible for expanded community services and who might otherwise require state and local psychiatric hospital care.

Within amounts appropriated, exceptional add-on rates for AIDS/HIV, dementia specialty care, and expanded community services may be standardized within each program.

((64)) (6)(a) Amounts appropriated in this section reflect a reduction to funds appropriated for in-home care. The department shall reduce the number of in-home hours authorized. The reduction shall be scaled based on the acuity level of care recipients. The largest hour reductions shall be to lower acuity patients and the smallest hour reductions shall be to higher acuity patients. In doing so, the department shall comply with all maintenance of effort requirements contained in the American reinvestment and recovery act.

(b) $3,070,000 of the general fund--state appropriation for fiscal year 2011 and $4,980,000 of the general fund--federal appropriation are provided solely for the department to partially restore the reduction to in-home care that are taken in (a) of this subsection. (d) Expenditures for the purposes specified in this subsection shall not exceed the amounts provided in this subsection.

((64)) (9) Within the amounts appropriated in this section, the department may expand the new freedom waiver program to accommodate new waiver recipients throughout the state. As possible, and in compliance with current state and federal laws, the department shall allow current waiver recipients to transfer to the new freedom waiver.

These funds shall be used to serve individuals whose treatment needs constitute substantial barriers to community placement, who no longer require active psychiatric treatment at an inpatient hospital level of care, and who no longer meet the criteria for inpatient involuntary commitment. Coordination of these services will be done in partnership between the mental health program and the aging and disability services administration.

(12) Within the funds provided, the department shall continue to provide an add-on per medicaid resident day per facility not to exceed $1.57. (15) The department shall establish waiting lists to the extent necessary to assure that annual expenditures on the community options program entry systems (COPES) program do not exceed...
appropriated levels. In establishing and managing any such waiting list, the department shall assure priority access to persons with the greatest unmet needs, as determined by department assessment processes.

It is the intent of the legislature that the lifeline incapacity determination and progressive evaluation process regulations be carefully designed to accurately identify those persons who have been or will be incapacitated for at least ninety days. The incapacity determination and progressive evaluation process regulations in effect on January 1, 2010, cannot be amended until at least September 30, 2010; except that provisions related to the use of administrative review teams may be amended, and obsolete terminology and functional assessment language may be updated on or after July 1, 2010, in a manner that only minimally impacts the outcome of incapacity evaluations. (iii) An estimate of the number of persons who, on a monthly basis through June 2013, would be denied lifeline benefits if the regulations were adopted, expressed as a number, as a percentage of total applicants, and as a percentage of the number of persons granted lifeline benefits in each month.

(v) Intended improvements in employment or treatment outcomes among persons receiving lifeline benefits that could be attributable to the changes in the regulations.

(c) Within these amounts:

((iv)) (i) The department shall aggressively pursue opportunities to transfer ((general assistance unemployable)) lifeline clients to general assistance expedited coverage and to facilitate client applications for federal supplemental security income when the client's incapacities indicate that he or she would be likely to meet the federal disability criteria for supplemental security income. The department shall initiate and file the federal supplemental security income interim agreement as quickly as possible in order to maximize the recovery of federal funds.

((iv)) (ii) The department shall review the ((general assistance)) lifeline caseload to identify recipients that would benefit from assistance in becoming naturalized citizens, and thus be eligible to receive federal supplemental security income benefits. Those cases shall be given high priority for naturalization funding through the department.

This agreement must include outstationing department of veterans' affairs staff in selected community service office locations in King and Pierce counties to facilitate applications for veterans' services; and

((iv)) (v) In addition to any earlier evaluation that may have been conducted, the department shall intensively evaluate those clients who have been receiving ((general assistance unemployable)) lifeline benefits for twelve months or more as of July 1, 2009, or thereafter, if the available medical and incapacity related evidence indicates that the client is unlikely to meet the disability standard for federal supplemental security income benefits. The evaluation shall identify services necessary to eliminate or minimize barriers to employment, including mental health treatment, substance abuse treatment and vocational rehabilitation services. The department shall expedite referrals to chemical dependency treatment, mental health and vocational rehabilitation services for these clients.

((iv)) (vi) The appropriations in this subsection reflect a change in the earned income disregard policy for ((general assistance unemployable)) lifeline clients. It is the intent of the legislature that the department shall adopt the temporary assistance for needy families earned income policy for ((general assistance unemployable)) the lifeline program.

((iv)) (8) The appropriations in this section reflect reductions in the appropriations for the economic services administration's administrative expenses. It is the intent of the legislature that these reductions shall be achieved, to the greatest extent possible, by reducing those administrative costs that do not affect direct client services or direct service delivery or program.

(9) $855,000 of the general fund--state appropriation for fiscal year 2011, $719,000 of the general fund--federal appropriation, and $2,907,000 of the general fund--private/local appropriation are provided solely for the implementation of the opportunity portal, the food stamp employment and training program, and the disability lifeline program under Second Substitute House Bill No. 2782 (security lifeline act). If the bill is not enacted by June 30, 2010, the amounts provided in this subsection shall lapse.

(10) $200,000 of the general fund--state appropriation for fiscal year 2011 is provided solely for the department to award grants to small mutual assistance or small community-based organizations that contract with the department for immigrant and refugee assistance services. The funds shall be awarded to provide funding for community groups to provide transitional assistance, language skills, and other resources to improve refugees' economic self-sufficiency through the effective use of social services, financial services, and medical assistance.

(11) $250,000 of the general fund--state appropriation for fiscal year 2010 is provided solely for increased funding for limited English proficiency pathway programs.
The appropriations in this section are subject to the following conditions and limitations:

For all contractors, indirect charges for administering the program shall not exceed ten percent of the total contract amount.

(2) Within the amounts appropriated in this section, the department shall continue to provide for chemical dependency treatment services for adult medicaid eligible and general assistance-unemployable patients.

(3) In addition to other reductions, the appropriations in this section reflect reductions targeted specifically to state government administrative costs. These administrative reductions shall be achieved, to the greatest extent possible, by reducing those administrative costs that do not affect direct client services or direct service delivery or programs.

(4) $2,247,000 of the general fund–state appropriation for fiscal year 2011 is provided solely for the implementation of the lifeline program under Second Substitute House Bill No. 2782 (security net assessment fund). (5) $3,500,000 of the general fund–federal appropriation (from the substance abuse prevention and treatment federal block grant) is provided solely for the continued funding of existing county drug and alcohol use prevention programs.

The appropriations in this section are subject to the following conditions and limitations:

(1) Based on quarterly expenditure reports and caseload forecasts, if the department estimates that expenditures for the medical assistance program will exceed the appropriations, the department shall take steps including but not limited to reduction of rates or elimination of optional services to reduce expenditures so that total program costs do not exceed the annual appropriation authority.

(2) In determining financial eligibility for medicaid-funded services, the department is authorized to disregard recoveries by Holocaust survivors of insurance proceeds or other assets, as defined in RCW 48.104.030.

(3) The legislature affirms that it is in the state's interest for Harborview medical center to remain an economically viable component of the state's health care system.

(4) When a person is ineligible for medicaid solely by reason of residence in an institution for mental diseases, the department shall provide the person with the same benefits as he or she would receive if eligible for medicaid, using state-only funds to the extent necessary.

(5) In accordance with RCW 74.46.625, $6,000,000 of the general fund–federal appropriation is provided solely for supplemental payments to nursing homes operated by public hospital districts. The public hospital district shall be responsible for providing the required nonfederal match for the supplemental payment, and the payments shall not exceed the maximum allowable under federal rules. It is the legislature's intent that the payments shall be supplemental to and shall not in any way offset or reduce the payments calculated and provided in accordance with part E of chapter 74.46 RCW. It is the legislature's further intent that costs otherwise allowable for rate-setting and settlement against payments under chapter 74.46 RCW shall not be disallowed solely because such costs have been paid by revenues retained by the nursing home from these supplemental payments. The supplemental payments are subject to retrospective interim and final cost settlements based on the nursing homes' as-filed and final medicare cost reports. The timing of the interim and final cost settlements shall be at the department's discretion. During either the interim cost settlement or the final cost settlement, the department shall recoup from the public hospital districts the supplemental payments that exceed the medicaid cost limit and/or the medicare upper payment limit. The department shall apply federal rules for identifying the eligible incurred medicaid costs and the medicare upper payment limit.

Participating providers shall be solely responsible for providing the local funds required to obtain federal matching funds. Any incremental costs incurred by the department in the development, implementation, and maintenance of this program will be the responsibility of the participating providers. Participating providers will retain the full amount of supplemental payments provided under this program, net of any potential costs for any related audits or litigation brought against the state. The department shall report to the governor and the legislative fiscal committees on the prospects for expansion of the program to other qualifying providers as soon as feasibility is determined but no later than December 31, 2009. The report will outline estimated impacts on the participating providers, the procedures necessary to comply with federal guidelines, and the administrative resource requirements necessary to implement the program. The department will create a process for expansion of the program to other qualifying providers as soon as it is determined feasible by both the department and providers but no later than June 30, 2010.

The department shall report to the Legislature by December 31, 2009, on the results of its efforts to recover such claims.

(21) The department may, on a case-by-case basis and in the best interests of the child, set payment rates for medically intensive home care services to promote access to home care as an alternative to hospitalization. Expenditures related to these increased payments shall not exceed the amount the department would otherwise pay for hospitalization for the child receiving medically intensive home care services.
The department shall collaborate with the department of corrections to identify and track cost savings to the department of corrections, including medical cost savings, and to identify and track expenditures incurred by the aging and disability services program for community services and by the medical assistance program for medical expenses. These administrative reductions shall be achieved, to the greatest extent possible, by reducing those administrative costs that do not affect providers, direct client services, or direct service delivery or programs.

(35) The department shall contract with an organization that provides medication therapy management services to increase the use of lower cost alternative medications, improve patient compliance with prescribed regimens, reduce harmful side effects from medication, and ensure that medications achieve their desired therapeutic results. The department shall not contract for these services unless the contractor guarantees that the services will generate savings, as measured by the department's actual experience after implementation, that are greater than the cost of the contracted services.

(36) $331,000 of the general fund--state appropriation for fiscal year 2010, $331,000 of the general fund--state appropriation for fiscal year 2011, and $1,228,000 of the general fund--federal appropriation are provided solely for the department to support the activities of the Washington poison center. (40) Sufficient amounts are provided in this section to provide medicaid school-based medical services.

(41) The department shall pursue all opportunities to maximize discounted drug pricing through the 340B drug pricing program in section 340B of the public health service act. The department shall report its findings to the governor and the fiscal committees of the legislature by December 1, 2010.

(42) The department shall develop a transition plan from a fee-for-service delivery system to a managed care delivery system for aged, blind, and disabled clients eligible for medical assistance coverage by June 1, 2011.

(43) Reductions in dental services are to be achieved by focusing on the fastest growing areas of dental care. Reductions in preventative care, particularly for children, will be avoided to the extent possible.

(b) If the waiver in (a) of this subsection is granted, the department and the health care authority may implement the waiver if it allows the program to remain within appropriated levels, after providing notice of its terms and conditions to the relevant policy and fiscal committees of the legislature in writing thirty days prior to the planned implementation date of the waiver.

(47) For healthy options managed care rates established on or after July 1, 2010, the department shall pay health plans operating in the same county the same base capitation rates for that county, with plan-specific adjustments related to risk characteristics of the plan's members including age, gender, and diagnostic-based risk adjustments, such as chronic disability payment system risk scores. The department shall provide preliminary rates for the upcoming fiscal year to all the healthy options plans and the fiscal committees of the legislature by September 30, 2010.

(48) Every effort shall be made to maintain current employment levels and achieve administrative savings through vacancies and employee attrition. (1) Within amounts appropriated in this section and sections 205 and 206 of this act, the health care authority shall continue to provide an enhanced basic health plan subsidy for foster parents licensed under chapter 74.15 RCW and workers in state-funded home care programs. Under this enhanced subsidy option, foster parents eligible to participate in the basic health plan as subsidized enrollees and home care workers with family incomes below 200
percent of the federal poverty level shall be allowed to enroll in the basic health plan at the minimum premium amount charged to enrollees with incomes below sixty-five percent of the federal poverty level.

(2) The health care authority shall require organizations and individuals that are paid to deliver basic health plan services and that choose to sponsor enrollment in the subsidized basic health plan to pay 133 percent of the premium amount which would otherwise be due from the sponsored enrollees.

(4)(a) In order to maximize the funding appropriated for the basic health plan, the health care authority is directed to make modifications that will reduce the total number of subsidized enrollees to approximately 65,000 by January 1, 2010. In addition to the reduced enrollment, other modifications may include changes in enrollee premium obligations, changes in benefits, enrollee cost-sharing, and termination of the enrollment of individuals concurrently enrolled in a medical assistance program as provided in Substitute House Bill No. 2341.

(b) The health care authority shall coordinate with the department of social and health services to negotiate a Medicaid section 1115 waiver with the federal centers for medicare and medicaid services that would provide matching funds for services provided to persons enrolled in the basic health plan under chapter 70.47 RCW.

(2)(a) The superintendent of public instruction shall ensure that:
(i) Special education students are basic education students first;
(ii) As a class, special education students are entitled to the full
basic education allocation; and
(iii) Special education students are basic education students for

(b) The superintendent of public instruction shall continue to
implement the full cost method of excess cost accounting, as

(3) Each fiscal year appropriation includes such funds as are
necessary to complete the school year ending in the fiscal year and

(4) The superintendent of public instruction shall distribute state
funds to school districts based on two categories: (a) The first
category includes (i) children birth through age two who are eligible
for the optional program for special education eligible
developmentally delayed infants and toddlers, and (ii) students
eligible for the mandatory special education program and who are
age three or four, or five and not yet enrolled in kindergarten; and (b)
the second category includes students who are eligible for the
mandatory special education program and who are age five and
enrolled in kindergarten and students age six through 21.
(5)(a) For the 2009-10 and 2010-11 school years, the
superintendent shall make allocations to each district based on the
sum of:
(i) A district's annual average headcount enrollment of students
ages birth through four and those five year olds not yet enrolled in
kindergarten, as defined in subsection (4) of this section, multiplied
by the district's average basic education allocation per full-time
equivalent student, multiplied by 1.15; and
(ii) A district's annual average full-time equivalent basic
education enrollment multiplied by the funded enrollment percent

by the district's average basic education allocation per full-time
equivalent student multiplied by 0.9309.
(b) For purposes of this subsection, "average basic education
enrollment per full-time equivalent student" for a district shall be

classified staff enhancements included in section 502(3)(b).
(6) The definitions in this subsection apply throughout this
section.
(a) "Annual average full-time equivalent basic education
enrollment" means the resident enrollment including students
enrolled through choice (RCW 28A.225.225) and students from
nonhigh districts (RCW 28A.225.210) and excluding students residing in another district enrolled as part of an interdistrict

(b) "Enrollment percent" means the district's resident special
education annual average enrollment, excluding the birth through

equivalent basic education enrollment.
Each district's general fund--state funded special education
enrollment shall be the lesser of the district's actual enrollment
percent or 12.7 percent.
(7) At the request of any interdistrict cooperative of at least 15
districts in which all excess cost services for special education
students of the districts are provided by the cooperative, the
maximum enrollment percent shall be calculated in accordance with

shall be awarded by the state safety net oversight committee subject
to the following conditions and limitations:
(a) The committee shall consider unmet needs for districts that

special education exceed all available revenues from state funding

consider additional available revenues from federal sources.
Differences in program costs attributable to district philosophy,
service delivery choice, or accounting practices are not a legitimate
basis for safety net awards. In the determination of need, the
committee shall require that districts demonstrate that they are
maximizing their eligibility for all state and federal revenues related
to services for special education-eligible students. Awards
associated with (b) and (c) of this subsection shall not exceed the

(b) The committee shall then consider the extraordinary high
cost needs of one or more individual special education students.
Differences in costs attributable to district philosophy, service
delivery choice, or accounting practices are not a legitimate basis for
safety net awards.
(c) Using criteria developed by the committee, the committee
shall then consider extraordinary costs associated with communities
that draw a larger number of families with children in need of
special education services. The safety net awards to school districts
shall be adjusted to reflect amounts awarded under (b) of this
subsection.
(d) The maximum allowable indirect cost for calculating safety
net eligibility may not exceed the federal restricted indirect cost rate
for the district plus one percent.
(e) Safety net awards must be adjusted for any audit findings or
exceptions related to special education funding.
(f) Safety net awards shall be adjusted based on the percent of

(1) From time to time, but at least once each year, the state treasurer shall refund from the motor vehicle fund one percent of the motor vehicle fuel tax revenues collected under chapter 82.36 RCW, based on a tax rate of: (a) Nineteen cents per gallon of motor vehicle fuel from July 1, 2003, through June 30, 2005; (b) twenty cents per gallon of motor vehicle fuel from July 1, 2005, through June 30, 2007; (c) twenty-one cents per gallon of motor vehicle fuel from July 1, 2007, through June 30, 2009; (d) twenty-two cents per gallon of motor vehicle fuel from July 1, 2009, through June 30, 2011; and (e) twenty-three cents per gallon of motor vehicle fuel beginning July 1, 2011, and thereafter, less proper deductions for refunds and costs of collection as provided in RCW 46.68.090.

(2) The treasurer shall place these funds in the general fund as follows:

(a) Thirty-six percent shall be credited to the ORV and nonhighway vehicle account and administered by the department of natural resources solely for acquisition, planning, development, maintenance, and management of ORV, nonmotorized, and nonhighway road recreation facilities, and information programs and maintenance of nonhighway roads;

(b) Three and one-half percent shall be credited to the ORV and nonhighway vehicle account and administered by the department of fish and wildlife solely for the acquisition, planning, development, maintenance, and management of ORV, nonmotorized, and nonhighway road recreation facilities and the maintenance of nonhighway roads;

(c) Two percent shall be credited to the ORV and nonhighway vehicle account and administered by the parks and recreation commission solely for the acquisition, planning, development, maintenance, and management of ORV, nonmotorized, and nonhighway road recreation facilities; and

(d) Fifty-eight and one-half percent shall be credited to the nonhighway and off-road vehicle activities program account to be administered by the board for planning, acquisition, development, maintenance, and management of ORV, nonmotorized, and nonhighway road recreation facilities and for education, information, and law enforcement programs. The funds under this subsection shall be expended in accordance with the following limitations:

(i) Not more than thirty percent may be expended for education, information, and law enforcement programs under this chapter;

Sec. 937. RCW 48.02.190 and 2009 c 161 s 1 are each amended to read as follows:

(1) As used in this section:

(a) "Organization" means every insurer, as defined in RCW 48.01.050, having a certificate of authority to do business in this state, every health care service contractor, as defined in RCW 48.44.010, every health maintenance organization, as defined in RCW 48.46.020, or self-funded multiple employer welfare arrangement, as defined in RCW 48.125.010, registered to do business in this state. "Class one" organizations shall consist of all insurers as defined in RCW 48.01.050. "Class two" organizations shall consist of all organizations registered under provisions of chapters 48.44 and 48.46 RCW. "Class three" organizations shall consist of self-funded multiple employer welfare arrangements as defined in RCW 48.125.010.

(b)(i) "Receipts" means (A) net direct premiums consisting of direct gross premiums, as defined in RCW 48.18.170, paid for insurance written or renewed upon risks or property resident, situated, or to be performed in this state, less return premiums and premiums on policies not taken, dividends paid or credited to policyholders on direct business, and premiums received from policies or contracts issued in connection with qualified plans as defined in RCW 48.14.021, and (B) prepayments to health care service contractors, as defined in RCW 48.44.010, health maintenance organizations, as defined in RCW 48.46.020, or participant contributions to self-funded multiple employer welfare arrangements, as defined in RCW 48.125.010, less experience rating credits, dividends, prepayments returned to subscribers, and payments for contracts not taken.
(ii) Participant contributions, under chapter 48.125 RCW, used to determine the receipts in this state under this section shall be determined in the same manner as premiums taxable in this state are determined under RCW 48.14.090.

(c) "Regulatory surcharge" means the fees imposed by this section.

(2) The annual cost of operating the office of insurance commissioner shall be determined by legislative appropriation. A pro rata share of the cost shall be charged to all organizations as a regulatory surcharge. Each class of organization shall contribute a sufficient amount to the insurance commissioner's regulatory account to pay the reasonable costs, including overhead, of regulating that class of organization.

(3) The regulatory surcharge shall be calculated separately for each class of organization. The regulatory surcharge collected from each organization shall be that portion of the cost of operating the insurance commissioner's office, for that class of organization, for the ensuing fiscal year that is represented by the organization's portion of the receipts collected or received by all organizations within that class on business in this state during the previous calendar year. However, the regulatory surcharge must not exceed one-eighth of one percent of receipts and the minimum regulatory surcharge shall be one thousand dollars.

(4) The commissioner shall annually, on or before June 1st, calculate and bill each organization for the amount of the regulatory surcharge. The regulatory surcharge shall be due and payable no later than June 15th of each year. However, if the necessary financial records are not available or if the amount of the legislative appropriation is not determined in time to carry out such calculations and bill such regulatory surcharge within the time specified, the commissioner may use the regulatory surcharge factors for the prior year as the basis for the regulatory surcharge and, if necessary, the commissioner may impose supplemental fees to fully and properly charge the organizations. Any organization failing to pay the regulatory surcharges by June 30th shall pay the same penalties as the penalties for failure to pay taxes when due under RCW 48.14.060. The regulatory surcharge required by this section is in addition to all other taxes and fees now imposed or that may be subsequently imposed.

(5) All moneys collected shall be deposited in the insurance commissioner's regulatory account in the state treasury which is hereby created.

(6) Unexpended funds in the insurance commissioner's regulatory account at the close of a fiscal year shall be carried forward in the insurance commissioner's regulatory account to the succeeding fiscal year and shall be used to reduce future regulatory surcharges.

(7)(a) Each insurer may annually collect regulatory surcharges remitted in preceding years by means of a policyholder surcharge on premiums charged for all kinds of insurance. The recoupment shall be at a uniform rate reasonably calculated to collect the regulatory surcharge remitted by the insurer.

(b) If an insurer fails to collect the entire amount of the recoupment in the first year under this section, it may repeat the recoupment procedure provided for in this subsection (7) in succeeding years until the regulatory surcharge is fully collected or a de minimis amount remains uncollected. Any such de minimis amount may be collected as provided in (d) of this subsection.

(c) The amount and nature of any recoupment shall be separately stated on either a billing or policy declaration sent to an insured. The amount of the recoupment must not be considered a premium for any purpose, including the premium tax or agents' commissions.

(d) An insurer may elect not to collect the regulatory surcharge from its insured. In such a case, the insurer may recoup the regulatory surcharge through its rates, if the following requirements are met:

(i) The insurer remits the amount of surcharge not collected by election under this subsection; and

(ii) The surcharge is not considered a premium for any purpose, including the premium tax or agents' commission.

(8) During the 2009-2011 fiscal biennium, the legislature may transfer from the insurance commissioner's regulatory account to the state general fund such amounts as reflect the excess fund balance in the account.

(3) The corporation shall identify with specificity those facilities of the state convention and trade center that are to be financed with proceeds of general obligation bonds, the interest on which is intended to be excluded from gross income for federal income tax purposes. The corporation shall not permit the extent or manner of private business use of those bond-financed facilities to be inconsistent with treatment of such bonds as governmental bonds under applicable provisions of the Internal Revenue Code of 1986, as amended.

(4) In order to ensure consistent treatment of bonds authorized under RCW 67.40.030 with applicable provisions of the Internal Revenue Code of 1986, as amended, notwithstanding RCW 43.84.092, investment earnings on bond proceeds deposited in the state convention and trade center account in the state treasury shall

There shall be a fund, known as the "liquor revolving fund", which shall consist of all license fees, permit fees, penalties, forfeitures, and all other moneys, income, or revenue received by the board. All moneys received by the board or any employee thereof, except for change funds and an amount of petty cash as fixed by the board within the authority of law shall be deposited each day in a depository approved by the state treasurer and transferred to the state treasurer to be credited to the liquor revolving fund. During the 2009-2011 fiscal biennium, the legislature may transfer funds from the liquor revolving fund to the state general fund and may direct an additional amount of liquor profits to be distributed to local governments. Neither the transfer of funds nor the additional distribution of liquor profits to local governments during the 2009-2011 fiscal biennium may reduce the excess fund distributions that otherwise would occur under RCW 66.08.190.

Licensee sales are exempt from any increases to the price of liquor made by the board during the 2009-2011 fiscal biennium for the purpose of implementing any transfers to the state general fund or additional distribution of liquor profits. This exemption includes price increases implemented for such purposes during the 2009-2011 fiscal biennium prior to the effective date of this section but applies only to sales made on or after July 1, 2010. Disbursements from the revolving fund shall be on authorization of the board or a duly authorized representative thereof. In order to maintain an effective expenditure and revenue control the liquor revolving fund shall be subject in all respects to chapter 43.88 RCW but no appropriation shall be required to permit expenditures and payment of obligations from such fund.

Sec. 940. RCW 67.70.044 and 2009 c 576 s 1 are each amended to read as follows:

(1) Pursuant to RCW 67.70.040(1)(a), the commission may enter into the multistate agreement establishing a shared game lottery known as "The Big Game," that was entered into by party state lotteries in August 1996 and subsequently amended and a shared game lottery known as "Powerball."

(2) The shared game lottery account is created as a separate account outside the state treasury. The account is managed, maintained, and controlled by the commission and consists of all revenues received from the sale of shared game lottery tickets or shares, and all other moneys credited or transferred to it from any other fund or source under law. The account is allotted according to chapter 43.88 RCW. During the 2009-2011 fiscal biennium, the legislature may transfer from the shared game lottery account to the education legacy trust account such amounts as reflect the excess fund balance of the account.

Sec. 941. RCW 67.70.230 and 1985 c 375 s 4 are each amended to read as follows:

There is hereby created and established a separate account, to be known as the state lottery account. Such account shall be managed, maintained, and controlled by the commission and shall consist of all revenues received from the sale of lottery tickets or shares, and all other moneys credited or transferred thereto from any other fund or source pursuant to law. The account shall be a separate account outside the state treasury. No appropriation is required to permit expenditures and payment of obligations from the account. During the 2009-2011 fiscal biennium, the legislature may transfer from the state lottery account to the education legacy trust account such amounts as reflect the excess fund balance of the account.

Moneys in the account may be used only to carry out the purposes of this chapter, including but not limited to the following activities:

(4) Except for unanticipated receipts under RCW 43.79.260 through 43.79.282, moneys in the state and local toxics control accounts may be spent only after appropriation by statute.
(5) Except during the 2009-2011 fiscal biennium, one percent of the moneys deposited into the state and local toxics control accounts shall be allocated only for public participation grants to persons who may be adversely affected by a release or threatened release of a hazardous substance and to not-for-profit public interest organizations. The primary purpose of these grants is to facilitate the participation by persons and organizations in the investigation and remediating of releases or threatened releases of hazardous substances and to implement the state's solid and hazardous waste management priorities. No grant may exceed sixty thousand dollars. Grants may be renewed annually. Moneys appropriated for public participation from either account which are not expended at the close of any biennium shall revert to the state toxics control account.
(6) No moneys deposited into either the state or local toxics control account may be used for solid waste incinerator feasibility studies, construction, maintenance, or operation, or, after January 1, 2010, for projects designed to address the restoration of Puget Sound, funded in a competitive grant process, that are in conflict with the action agenda developed by the Puget Sound partnership under RCW 90.71.310.

The governor’s budget request under RCW 43.88.060 must include sufficient funds to meet the biennial repayment obligation.

Sec. 947. RCW 70.105D.130 and 2008 c 106 s 1 are each amended to read as follows:

(1) The cleanup settlement account is created in the state treasury. The account is not intended to replace the state toxics control account established under RCW 70.105D.070. All receipts from the sources identified in subsection (2) of this section must be deposited into the account. Moneys in the account may be spent only after appropriation. Expenditures from the account may be used only as identified in subsection (4) of this section.

(2) The following receipts must be deposited into the cleanup settlement account:

(a) Receipts from settlements or court orders that direct payment to the account and resolve a person’s liability or potential liability under this chapter for either or both of the following:

(i) Conducting future remedial action at a specific facility, if it is not feasible to require the person to conduct the remedial action based on the person’s financial insolvency, limited ability to pay, or insignificant contribution under RCW 70.105D.040(4)(a);

(ii) Assessing or addressing the injury to natural resources caused by the release of a hazardous substance from a specific facility; and

(4) Expenditures from the cleanup settlement account may only be used to conduct remedial actions at the specific facility or to assess or address the injury to natural resources caused by the release of hazardous substances from that facility for which the moneys were deposited in the account. Conducting remedial actions or assessing or addressing injury to natural resources includes direct expenditures and indirect expenditures such as department oversight costs. During the 2009-2011 fiscal biennium, the legislature may transfer excess fund balances in the account into the state efficiency and restructuring account. Transfers of excess fund balances made under this section shall be made only to the extent amounts transferred with required repayments do not impair the ten-year spending plan administered by the department of ecology for environmental remedial actions dedicated for any designated clean-up site associated with the Everett smelter and Tacoma smelter, including plumes, or former Asarco mine sites. The cleanup settlement account must be repaid with interest under provisions of the state efficiency and restructuring account.

(5) The department shall track moneys received, interest earned, and moneys expended separately for each facility.

(6) After the department determines that all remedial actions at a specific facility, and all actions assessing or addressing injury to natural resources caused by the release of hazardous substances from that facility, are completed, including payment of all related costs, any moneys remaining for the specific facility must be transferred to the state toxics control account established under RCW 70.105D.070.

(7) The department shall provide the office of financial management and the fiscal committees of the legislature with a report by October 31st of each year regarding the activity within the cleanup settlement account during the previous fiscal year.

(c) Develop appropriate outcome-focused performance measures to be used both for management and performance assessment of the grants.

(4) The department shall consult with affected interest groups in implementing this section.

PERSONAL PRIVILEGE

Senator Prentice: “I would like to thank the staff of Ways & Means for doing an absolute incredible job. I don’t think we really realize how they work, day and night and I believe we have some of them. Would you please come forth? Don’t look so bashful, Senator Fraser would you scoot them in here? I really think we owe them a round of applause. You can see how bashful they are. I can tell you that I’ve never worked with such a very dedicated group of people but also just so darned sharp. They know so much and they work so hard and after we moaned and groaned coming in Sunday afternoon and we have a hearing and then they work on the rest of our bills, I know on many occasions they’ve worked all night and I guess I just can’t say thank you enough.”

PERSONAL PRIVILEGE

Senator Brown: “Well, they’re running away almost as fast as I can talk but Mr. Wills. Mr. Wills, could you step forward please? The head of our Ways & Means shop is going on to finer things. He’s going to retire after this session and I wanted to say to him that ‘oh bearded one.’ He’s done a fantastic job. We almost lost him and he stepped back in to fill the void and it’s been to the value of all the people in the Senate and in the state of Washington. Very unflappable guy with, has the enormous respect of the people who work with him and has devoted many years of service, I won’t say how many, to the people of Washington State. He’s much younger than he looks, just kidding. He’s done a fantastic job for us and his work will be well remembered. Thank you very much Mike.”

PERSONAL PRIVILEGE

Senator Tom: “I really do want to second the motion as far as the great staff that we do have in Ways & Means. I’ve had the privilege in my private life to work with some incredible attorneys, accountants, lot of very high-priced, I guess you would say, individuals and our staff, they are incredible and they can hold a candle to anybody out there I can guarantee you. I think

improvements to be effective. Grants may also be used for loan interest payments over the term of a loan.

(2) The department of commerce, in consultation with the department of general administration, the office of the superintendent of public instruction, and the Washington State University energy program shall establish a competitive process to solicit and evaluate applications from public school districts and public higher education institutions. Final grant awards shall be determined by the department of commerce.

(3) The definitions in this section apply throughout this section.

(a) "Cost-effectiveness" means that the present value to public school districts and public higher education institutions of the energy reasonably expected to be saved or produced by a facility, activity, measure, or piece of equipment over its useful life, including any compensation received from a utility or the Bonneville power administration, is greater than the net present value of the costs of implementing, maintaining, and operating such facility, activity, measure, or piece of equipment over its useful life, when discounted at the cost of public borrowing.

(b) "Energy equipment" means energy management systems and any equipment, materials, or supplies that are expected, upon installation, to reduce the energy use or energy cost of an existing building or facility, and the services associated with the equipment, materials, or supplies, including but not limited to design, engineering, financing, installation, project management, guarantees, operations, and maintenance. Reduction in energy use or energy cost may also include reductions in the use or cost of water, wastewater, or solid waste.

(c) "Energy cost savings" means savings realized in expenses for energy use and expenses associated with water, wastewater, or solid waste systems.

(d) "Energy savings performance contracting" means the process authorized by chapter 39.35C RCW by which a company contracts with a public agency to conduct energy audits and guarantee energy savings from energy efficiency.

(e) "Operational cost savings" means savings realized from parts, service fees, capital renewal costs, and other measurable annual expenses to maintain and repair systems. This definition does not mean labor savings related to existing facility staff.

(f) "Public facilities" means buildings, building components, and major equipment or systems owned by public school districts and public higher education institutions.

(g) "Innovative measures" means advanced or emerging technologies, systems or approaches that may not yet be in common practice but improve energy efficiency, accelerate deployment, or reduce energy usage, and become widely commercially available in the future if proven successful in demonstration programs without compromising the guaranteed performance or measurable energy and operational cost savings anticipated. Examples of innovative measures include, but are not limited to, advanced energy and systems operations monitoring, diagnostics and controls systems for buildings; novel heating, cooling, ventilation and water heating systems; advanced windows and insulation technologies, highly efficient lighting technologies, designs, and controls; and integration of renewable energy sources into buildings, and energy savings verification technologies and solutions.

(4) Grants must be awarded in competitive rounds, based on demand and capacity, with at least five percent of each grant round awarded to small public school districts with fewer than 1,000 full-time equivalent students, based on demand and capacity.

(5) Within each competitive round, projects must be weighted and prioritized based on the following criteria and in the following order:

(a) Leverage ratio: In each round, the higher the leverage ratio the greater the project ranking.

(b) Energy savings: In each round, the higher the energy savings, the more points will be awarded to the project. Applicants must submit documentation that demonstrates energy and operational cost savings resulting from the installation of the energy equipment and improvements. The energy savings analysis shall be performed by a licensed engineer, and the documentation must include but is not limited to the following:

(i) A description of the energy equipment and improvements;

(ii) A description of the energy and operational cost savings; and

(iii) A description of the extent to which the project employs collaborative and innovative measures and demonstrates demonstration of new and emerging technologies with high energy-savings or energy cost-reductions.

(c) Expediency of expenditure: Project readiness to spend funds must be prioritized so that the legislative intent to expedite funds quickly is met.

(6) Projects that do not use energy savings performance contracting must: (a) Verify energy and operational cost savings for ten years or until the energy and operational costs savings pay for the project, whichever is shorter; (b) follow the department of general administration's energy savings performance contracting project guidelines; and (c) employ a licensed engineer for the energy audit and construction. The department of commerce may require third-party verification of savings if a project is not implemented by an energy savings performance contractor selected by the department of general administration through the request of qualifications process. Third-party verification must be conducted either by an energy savings performance contractor selected by the department of general administration through a request for qualifications, a licensed engineer that is a certified energy manager, a project resource conservation manager, or educational service district resource conservation manager.

(7) To intensify competition, the department of commerce may only award funds to the top eighty-five percent of projects applying in a round until the department of commerce determines a final round is appropriate. Projects that do not receive a grant award in one round may reapply in subsequent rounds.

(8) To match federal grants and programs that require state matching funds and produce significantly higher efficiencies in operations and utilities, the level of innovation criteria may be increased for the purposes of weighted scoring to capture those federal dollars for selected projects that require a higher level of innovation and regional collaboration.

(9) Grant amounts awarded to each project must allow for the maximum number of projects funded with the greatest energy and cost benefit.

(10)(a) The department of commerce must use bond proceeds to pay one-half of the preliminary audit, up to five cents per square foot, if the project does not meet the school district's and higher education institution's predetermined cost-effectiveness criteria. Public school districts and public higher education institutions must pay the other one-half of the cost of the preliminary audit if the project does not meet their predetermined cost-effectiveness criteria.

(b) The energy savings performance contractor shall not charge for an inspection of a grade audit if the project does not meet the school district's and higher education institution's predetermined cost-effectiveness criteria. Public school districts and public higher education institutions must pay the full price of an investment grade audit if they do not proceed with a project that meets the school district's and higher education institution's predetermined cost-effectiveness criteria.
(11) The department of commerce may charge projects administrative fees and may pay the department of general administration, the Washington State University energy program, and the office of the superintendent of public instruction administration fees in an amount determined through a memorandum of understanding.

(12) The department of commerce and the department of general administration must submit a joint report to the appropriate committees of the legislature and the office of financial management on the timing and use of the grant funds, program administrative function, compliance with apprenticeship utilization requirements in RCW 39.04.320, compliance with prevailing wage requirements, and administration fees by the end of each fiscal year, until the funds are fully expended and all savings verification requirements are fulfilled.

The reappropriation in this section is subject to the following conditions and limitations:

(1) $1,640,000 of the reappropriation is provided solely for nonfederal matching funds and state agency costs associated with the army corps of engineers flood hazard mitigation projects for the Chehalis river basin.

(2) $1,200,000 of the total reappropriation is provided solely for the Chehalis basin flood control authority to develop governance agreements for development, operation, and maintenance of flood hazard mitigation measures throughout the basin. FOR THE OFFICE OF FINANCIAL MANAGEMENT

Due to the downturn of the economy and the direct effects on the state bond debt limit, the legislature intends to reduce bond debt while focusing resources on maintaining and creating jobs. Therefore, the legislature directs the office of financial management to work with state agencies to achieve savings in the amount of $50,000,000 by reducing previously approved allotments or by withholding approval of planned allotments for those projects that have not shown substantial progress under the criteria established in subsection (2) of this section or from projects with savings identified pursuant to section 6012 of this act.

(a)(i) It is a state project administered by a state agency; or

(ii) It is a grant or a loan project for which a state agency allocates funding to a non-state entity;

(b) Appropriations for the project were made in the 2009-11 or previous omnibus capital appropriations acts from the state building construction account, state taxable building construction account, or any other debt limit bond account, not including projects receiving 2010 supplemental capital budget appropriations, minor works projects, or the school construction assistance grant program; and

(c) The project has failed to secure all required and appropriate transaction elements necessary to execute contracts with the administering state agency by November 30, 2010. Required and appropriate transaction elements may include, but are not limited to, matching funds, permits, environmental reviews, and required contracts and partnership agreements.

(3) Amounts attributable to allotment reductions or non-approval of planned allotments made under this section must be placed in or remain in unallotted status and remain unexpended.

(4) By December 31, 2010, the office of financial management must report to the house of representatives capital budget committee and the Senate ways and means committee on the projects for which allotments were reduced or for which approval was withheld, including a list of the specific projects and related funds in unallotted status.

(5) Agencies and prospective grant or loan recipients are encouraged to reapply or request funds in the 2011-13 biennial capital appropriations act for projects for which allotments were reduced or not approved under this section.

Kittitas Groundwater Study (30000029)
The appropriation in this section is subject to the following conditions and limitations:

By September 30, 2010, if, after consultation with major Yakima basin governments and stakeholders, the department of ecology and Kittitas county reach an agreement on a preferred approach, including the appropriate geographic scope and administering entity, the appropriation may be fully or partially redirected for the following purposes:

(1) Funds may be provided to develop and implement water banking and transfer methods and agreements that are fully protective of senior water rights and that protect domestic groundwater users and improve the profitability of farming operations. The legislature finds such activities to be in the public interest because they can help sustain the viability of the agricultural economy and enhance the certainty of water supplies for domestic groundwater users.

(2) Funds may be provided to lease or purchase water rights to create a reserve water supply for domestic groundwater users that have a groundwater right with a priority date later than May 10, 1905, as well as for all out-of-priority groundwater users. In securing water for such domestic groundwater users, strong preference shall be given to the use of water banking and transfer methods that provide alternatives to permanent purchase and dry-up of agricultural water rights in the basin, including dry-year options, water banking, long-term water supply lease agreements, long-term agricultural land fallowing agreements, and reduced consumptive use through efficiency or alternative cropping arrangements while maintaining historic return flows.

(3) A portion of the appropriation may be used for administrative costs, not to exceed four percent, and other costs associated with leasing or acquiring and transferring the water rights. All costs shall be fully recovered from participating domestic water users for their prorated portion of the cost, including but not limited to the costs of securing a water right or rights for this purpose, costs associated with the development and implementation of alternative agricultural water transfer methods, associated annual operational costs, and federal water service contract costs owed to the United States bureau of reclamation. Funds recovered in this manner shall be deposited in the state and local improvement revolving fund and may be used for any purpose provided in this section.

Flood Protection Study (20082855)
The reappropriation in this section is subject to the following conditions and limitations: The reappropriation in this section is provided solely for the department to conduct a study to determine the number of decertified levees in the state and to identify strategies for maintaining accreditation, re-accrediting, or recertifying (the) levees so that they (provided) are recognized by federal agencies as providing optimum protection for the communities protected by the levees. The department must prioritize areas to include in the study based on population and the economic impact of potential flood damage.

The study must include the following components:

(1) A working group of levee managers, local agencies, and stakeholders to advise and inform the study;

(2) In-state examples of the costs and processes of technical review of the structural integrity of levee systems;

(3) An inventory, map, and description of the level of protection of existing levee systems; and

(4) The development of strategies and actions needed to improve the existing levee system and to ensure certification by the United States army corps of engineers for one-hundred year flood protection;

(5) The identification of current funding sources and the amounts available for levee improvements; and

(6) Recommendation for additional new funding sources and options.

(7) The study must be completed and a report provided to the appropriate legislative committees by December 1, 2010.
(8) The study under this section is exempt from the provisions of section 602, chapter 3, Laws of 2010 and section 7, chapter 5, Laws of 2009.

FOR THE SUPERINTENDENT OF PUBLIC INSTRUCTION

2009-11 School Construction Assistance Grant Program (30000001)

The appropriation in this section is subject to the following conditions and limitations:

(1) The office of the superintendent of public instruction shall develop a tracking system to increase accuracy in predicting the timing of school district claims for reimbursement for school construction assistance grants. The office of the superintendent of public instruction shall also improve its communication with school districts regarding the status of grant projects and create requirements regarding the timing of reimbursement claims. The office of the superintendent of public instruction shall submit a report on the progress of the new tracking and communication system to the appropriate committees of the legislature by November 15, 2009. The report must include a list of school district capital projects receiving state funding and each project's anticipated final reimbursement date.

(2) In calculating square foot eligibility for state assistance grants, kindergarten student headcount shall not be reduced by fifty percent.

(3) Up to $17,000,000 of the state building construction account--state appropriation in this section is for the Grand Coulee Dam school district school project, contingent on the availability of sufficient contributions from federal, local, or private sources to make up the remainder of the total cost of the project. The Grand Coulee Dam school district is faced with a unique set of local funding barriers and federal funds may substitute as the usual requirement for school district participation. In the event sufficient matching contributions are not secured, these funds shall lapse.

(4) $250,000 of the common school construction account--state appropriation is provided solely for the office of the superintendent of instruction to develop a K-12 facility inventory and condition system based on option number 3, described in the joint legislative audit and review committee's January 2010 report, "K-12 Pilot Facility Inventory, Condition and Use System" as providing semi-customized information capabilities with complete state data. The office of the superintendent of public instruction must require school districts to submit any energy audits completed for K-12 public school buildings to be incorporated in the inventory system. It is the legislature's intent to improve the availability of information regarding the local use of state funds provided for school maintenance. Although school facilities are constructed by, and the property of, local jurisdictions, the legislature encourages school districts to invest in activities that extend the useful life of school district facilities. The state's general taxpayers have an interest in information regarding those local decisions since state policy has been to contribute funds in the biennial omnibus operating budget for facilities' maintenance and to contribute capital budget funds to eligible districts for renovation and replacement of buildings. In light of 2010 legislation enacting changes to RCW 28A.150.260 that increase state funding for school maintenance from $73.27 per annual average full-time equivalent K-12 student to $153.18 per student by the 2015-16 school year, with annual adjustments for inflation thereafter, it is the legislature's intent to facilitate development of an information system that will provide better data regarding school districts' use of any state funds provided to assist with maintenance and to monitor facilities' conditions.

(Health, Safety)) Energy Efficiency and Small Repair Grants (91000007)

The appropriation in this section is subject to the following conditions and limitations:

(1) Up to $3,000,000 of the appropriation is provided solely for nonrecurring costs associated with school facility repairs and renovations necessary for health and safety. The office of the superintendent of public instruction, after consulting with maintenance and operations administrators of school districts, shall develop criteria for providing funding for specific projects to stay within the appropriation level provided in this section. The criteria must include, but are not limited to, the following: (a) Limiting recipient district applications to one hundred thousand dollars per three-year period; (b) limiting districts eligible to receive the grant only once in any three-year period; and (c) requiring any district receiving funding provided in this section to demonstrate a consistent commitment to addressing school facilities needs.
(2) The appropriation is provided solely for energy operational cost savings (and safety and health infrastructure) improvements to school facilities (initiated after July 1, 2006). The appropriation must be distributed using the performance-based contracting method of delivering energy operational cost savings (and safety and health infrastructure) improvements to public facilities, unless the minimal cost or the immediacy of the project makes performance-based contracting impracticable. If the minimal cost or immediacy of the project makes performance-based contracting impracticable, the school district must receive a waiver from the office of the superintendent of public instruction in order to use the appropriation to address safety and health needs.

(3) The superintendent of public instruction must report to the appropriate committees of the legislature and the office of financial management on the timing and use of the funds by the end of each fiscal year, until the funds are fully expended.

PERSONAL PRIVILEGE

Senator Fraser: “Thank you Mr. President. I would like to express appreciation to people who played a key role in the capitol budget. First I’d like to thank Senator Brandland and Senator Regala for participating in many meetings in the development of the capitol budget. As Senator Prentice and others have said I would like to thank the brain trust of the Ways & Means staff. The key people who worked on the Capitol Budget of course were: Brian Sims, the coordinator, I see a few of them are here, come on out and please smile for the camera here. Brian Sims who is the coordinator of the Capitol Budget, Maria Hovde, Tim Yowell, Richard Ramsey worked on major pieces of it. Steve Jones provided legal advice and I’d also like to thank Colleen Kerr who played a wonderful coordinating role. So, thank you to the Ways & Means staff, they are a brain trust. They do incredibly competent analysis. They’re creative, highly ethical, incredible work ethic as has been stated and a wonderful commitment to public service. The people of the state are very well served by our Ways & Means staff. Thank you very much.”

PERSONAL PRIVILEGE

Senator McDermott: “Thank you Mr. President. It was twenty years ago this session that I worked session for the Senator from the Forty-Third District, Senator Janice Niemi. Ten years ago I was elected to join the House of Representatives. Three years ago I was honored to join the Washington State Senate. At that point in time my then three-year old, five-year old nephew Aiden told me ‘Uncle Joe, you’re a Senator, that’s cool, that’s just like in Star Wars’. I think Senator’s the second-coolest title I have. Uncle being the first. Mr. President, you will remember I began my senate career honoring one our mutual friends and Uncle being the first. Mr. President, you will remember I began my senate career honoring one our mutual friends and clowning around a bit, by honoring J. P. Patches. That really fits like in Star Wars’. I think Senator’s the second-coolest title I have. Uncle being the first. Mr. President, you will remember I began my senate career honoring one our mutual friends and clowning around a bit, by honoring J. P. Patches. That really fits
career. I told her ‘Mom, look at what you do’, And she said ‘No Joe, this is clearly one of those do as I say not as I do moments’. You can see I took her advice. I would like to leave with a challenge, however, Mr. President. As we all continue our work in public service I would encourage and in fact challenge us to examine how we make policy. We all do so, I’m convinced without doubt with the intention of achieving justice that we all have different ways of identifying and defining what justice means. In his ‘A Theory of Justice’ John Rawls lays out a frame work for how to do that. I suggest we consider using it. Informing this concept of justice Rawls said we should imagine ourselves in what he calls the original position. He envisions this being from being done from a veil of ignorance. That veil of ignorance? What is that. It’s not knowing what position you might hold in society but you go in fact about who you are and where you’ll be. Your place in society, your place, your position or social class, your fortune in the distribution of natural assets. Our intelligence, strength and the like, truly not know where you will be in society when you decide what a just society will be like. I suggest that we should tailor and do the best work we can to make all of our decisions from behind that veil, recognizing we’re not just serving the people who are like us but everybody across this state. Some examples, well the easy historical example is at the time there would actually been people who argued in support of slavery. But from behind the veil of ignorance could you really make that argument if you didn’t know if you’d be the owner or the slave? It certainly applies in modern application as well. I suggest one place that we might be well served to not remember where we are but to think about where anyone might end up is when we make policy rounds to civil rights of people regarding their sexual orientation. I want to thank the community that I’ve called home my entire life, West Seattle and the entire Thirty-Fourth Legislative District for haven given me the privilege of representing them and serving them for the last ten years in the legislature and I want to thank everyone of you for being one of my colleagues and everyone that I have had the privilege of serving with in the legislature over the last ten years and I sincerely thank you for the honor.”

PERSONAL PRIVILEGE

Senator Murray: “Thank you, I’d like to take a moment to honor the good Senator from the Thirty-Fourth District. You know Senator McDermott and I have a lot in common. We both grew up in West Seattle. We’re both named after other politicians. We both grew up in the same parish, different decades. We’re both proud of our Irish heritage. Joe has been an incredible member to work with both in the House and now in the Senate. Some of the issues he just mentioned on civil rights, he’s been an often unsung hero in that battle here but he’s always been willing to work with people, work with people well, keep a good sense of humor and look for a way to move us all forward. So, I want to wish you luck in your public service as you move on and I hope you’re able to get paid for public service. Good luck.”

PERSONAL PRIVILEGE

Senator Franklin: “Thank you Mr. President. I would like to say to the good Senator Joe. Happy trails to you. Not only that, you were brave enough, kind enough, thoughtful enough to co-sign that infamous bill which is known as income tax, tax structure. You were willing to take the heat but not only that like me, like many of us we are concerned about the future of this state. Senator, not only that, when we worked on bills together you sponsored the bill in the House that called for public financing of campaign. You came over we worked together. I’m sure that you will be will do well in your continued public service. What I would say to you and I know you will, be, is to continue to be brave, to speak out, to step out of the box and as you have said, you do not think just about yourself. You think about others. You think about what you want society to be. You think about what you want the world and the state and your community to be like. I will be following you. I’m years older than you are but I bet I can run faster than you. I will be following your career like many others and I wish you well. I know you will do well and continue step out and think out of the box and do all the good things which you’ve done here. I appreciate you. we’ll miss you.”

PERSONAL PRIVILEGE

Senator Fairley: “Thank you Mr. President. Here I was going to say nice things about Senator McDermott but he talks so long. When he did an introduction in our Government Operations Committee this year he had a power point, for petes sake, I asked for a paragraph not a power point. It went on for twenty minutes, I swear. He’s been such a hard worker and so good with me because he can deal with some of the folks on the other side that I find difficult. He can run over and talk to them and bring back and it works in our committee very well. But, I know he wants me to tell you a story, a little anecdote that happened. He went down to see my antique shop, met my husband, my husband came home and said ‘I met somebody who works with you today,’ I said, ‘Really, who.’ He said, ‘Well, I think he’s a staffer, his names McDermott.’ And I said ‘No, honey, McDermott’s a Senator’ and he said ‘Well, he can’t be, he’s too young’. You know I didn’t talk to my husband for days after that but I will miss him because he’s a darned good worker and a hard worker and he has a sense of humor. So, we’ll see you around.”

PERSONAL PRIVILEGE

Senator Prentice: “I don’t intend to say goodbye to Senator McDermott because he’s going to be my county councilman and I’ve already let him know that I have about half a dozen places right near where I live yard signs that we’re going to putting up for him. So, we’re going to be busy working for you Joe.”

However, for facilities other than essential community providers which banked beds under chapter 70.38 RCW, after May 25, 2001, Medicaid rates shall be revised upward, in accordance with department rules, in direct care, therapy care, support services, and variable return components only, by using the facility's decreased licensed bed capacity to recalculate minimum occupancy for rate setting, but no upward revision shall be made to operations, property, or financing allowance component rates. The direct care component rate allocation shall be adjusted, without using the minimum occupancy assumption, for facilities that convert banked beds to active service, under chapter 70.38 RCW, beginning on July 1, 2006. Effective July 1, 2007, component rate allocations for direct care shall be based on actual patient days regardless of whether a facility has converted banked beds to active service.

((12)) Facilities obtaining a certificate of need or a certificate of need exemption under chapter 70.38 RCW after June 30, 2001, must have a certificate of capital authorization in order for (a) the depreciation resulting from the capitalized addition to be included in calculation of the facility's property component rate allocation; and (b) the net invested funds associated with the capitalized addition to be included in calculation of the facility's financing allowance rate allocation.

Sec. 4. RCW 74.46.433 and 2006 c 258 s 3 are each amended to read as follows:

(1) The department shall establish for each Medicaid nursing facility a variable return component rate allocation. In determining the variable rate allowance:

(b) To calculate the array of facilities (for the July 1, 2001, rate setting), the department, without using peer groups, shall first rank all facilities in numerical order from highest to lowest according to each facility's examined and documented, but unfulfilled, combined direct care, therapy care, support services, and operations per resident day cost from the (((4999 cost report period)) applicable cost report period specified in RCW 74.46.431 (4)(a). However, before being combined with other per resident day costs and ranked, a facility's direct care cost per resident day shall be adjusted to reflect its facility average case mix index, to be averaged from the four calendar quarters of ((4999)) the cost report period identified in RCW 74.46.431 (4)(a), weighted by the facility's resident days from each quarter, under RCW 74.46.501 ((2))(6)(6)(6)(6)(6)). The array shall then be divided into four quartiles, each containing, as nearly as possible, an equal number of facilities, and four percent shall be assigned to facilities in the lowest quartile, three percent to facilities in the next lowest quartile, two percent to facilities in the next highest quartile, and one percent to facilities in the highest quartile.

(c) The department shall ((subject to (d) of this subsection)) compute the variable return allowance by multiplying a facility's assigned percentage by the sum of the facility's direct care, therapy care, support services, and operations component rates determined in accordance with this chapter and rules adopted by the department.

(d) ((Effective July 1, 2001, if a facility's examined and documented direct care cost per resident day for the preceding report year is lower than its average direct care component rate weighted by Medicaid resident days for the same year, the facility's direct care rate shall be substituted for its July 1, 2001, direct care component rate, and its variable return component rate shall be determined or adjusted each July 1st by multiplying the facility's assigned percentage by the sum of the facility's July 1, 2001, therapy care, support services, and operations component rates, and its direct care cost per resident day for the preceding year.))

(e) (Effective July 1, 2006)) The variable return component rate allocation for each facility shall be thirty percent of the facility's June 30, 2006, variable return component rate allocation.

(2) The variable return rate allocation calculated in accordance with this section shall be adjusted to the extent necessary to comply with RCW 74.46.421.

Sec. 5. RCW 74.46.435 and 2001 1st sps. c 8 s 7 are each amended to read as follows:

((1)) (Effective July 1, 2004)) The property component rate allocation for each facility shall be determined by dividing the sum of the reported allowable prior period actual depreciation, subject to RCW 74.46.410 through 74.46.430) department rule, adjusted for any capitalized additions or replacements approved by the department, and the retained savings from such cost center, by the greater of a facility's total resident days (((for the facility)) in the prior period or resident days as calculated on eighty-five percent facility occupancy for essential community providers, ninety percent occupancy for small nonessential community providers, or ninety-two percent facility occupancy for large nonessential community providers. ((Effective July 1, 2002, the property component rate allocation for all facilities, except essential community providers, shall be set by using the greater of a facility's total resident days from the most recent cost report period or resident days calculated at ninety percent facility occupancy.)) If a capitalized addition or retirement of an asset will result in a different licensed bed capacity during the ensuing period, the prior period total resident days used in computing the property component rate shall be adjusted to anticipated resident day level.

(2) A nursing facility's property component rate allocation shall be rebasis annually, effective July 1st, in accordance with this section and this chapter.

(3) When a certificate of need for a new facility is requested, the department, in reaching its decision, shall take into consideration per-bed land and building construction costs for the facility which shall not exceed a maximum to be established by the secretary.

((4)) (Effective July 1, 2001, for the purpose of calculating a nursing facility's property component rate, if a contractor has elected to bank licensed beds prior to April 1, 2001, or elects to convert banked beds to active service at any time, under chapter 70.38 RCW, the department shall use the facility's new licensed bed capacity to recalculate minimum occupancy for rate setting and revise the property component rate, as needed, effective as of the date the beds are banked or converted to active service. However, in no case shall the department use less than eighty percent of the reported allowable prior period actual depreciation, subject to RCW 74.46.410 through 74.46.430) department rule, adjusted for any capitalized additions or replacements approved by the department, and the retained savings from such cost center, by the greater of a facility's total resident days from the most recent cost report period or resident days calculated at ninety percent facility occupancy.)) If a capitalized addition or retirement of an asset will result in a different licensed bed capacity during the ensuing period, the prior period total resident days used in computing the property component rate shall be adjusted to anticipated resident day level.

((5)) (Effective July 1, 2002, for the purpose of calculating a nursing facility's property component rate, if a contractor has elected to bank licensed beds prior to April 1, 2001, or elects to convert banked beds to active service at any time, under chapter 70.38 RCW, the department shall use the facility's new licensed bed capacity to recalculate minimum occupancy for rate setting and revise the property component rate, as needed, effective as of the date the beds are banked or converted to active service. However, in no case shall the department use less than ninety percent of the facility's licensed bed capacity after banking or conversion. Effective July 1, 2002, in no case, other than essential community providers, shall the department use less than ninety percent occupancy of the facility's licensed bed capacity after conversion.

((5)) (Effective July 1, 2002, in no case, other than essential community providers, shall the department use less than ninety percent occupancy of the facility's licensed bed capacity after conversion.

((5))) (Effective July 1, 2002, in no case, other than essential community providers, shall the department use less than ninety percent occupancy of the facility's licensed bed capacity after conversion.

(5)) The property component rate allocations calculated in accordance with this section shall be adjusted to the extent necessary to comply with RCW 74.46.421.
Sec. 6. RCW 74.46.437 and 2001 1st s.p.s. c 8 s 8 are each amended to read as follows:

(1) (Effective July 1, 1990.) The department shall establish for each Medicaid nursing facility a financing allowance component rate allocation. The financing allowance component rate shall be rebased annually, effective July 1st, in accordance with the provisions of this section and this chapter.

(2) (Effective July 1, 2001.) The financing allowance shall be determined by multiplying the net invested funds of each facility by \(0.04\) and dividing by the greater of a nursing facility's total resident days from the most recent cost report period or resident days calculated on eighty-five percent facility occupancy for essential community providers, ninety percent facility occupancy for small nonessential community providers, or ninety-two percent occupancy for large nonessential community providers. (Effective July 1, 2002, the financing allowance component rate allocation for all facilities, other than essential community providers, shall be set by using the greater of a facility's total resident days from the most recent cost report period or resident days calculated at ninety percent facility occupancy.) However, assets acquired on or after May 17, 1999, shall be grouped in a separate financing allowance calculation that shall be multiplied by \((0.05)\) of the financing allowance factor of \((0.04)\) shall \((\text{naa})\) be applied to the net invested funds pertaining to new construction or major renovations receiving certificate of need approval or an exemption from certificate of need requirements under chapter 70.38 RCW, or to working drawings that have been submitted to the department of health for construction review approval, prior to May 17, 1999. If a capitalized addition, renovation, replacement, or retirement of an asset will result in a different licensed bed capacity during the ensuing period, the prior period total resident days used in computing the financing allowance shall be adjusted to the greater of the anticipated resident day level or eighty-five percent of the new licensed bed capacity for essential community providers, ninety percent of the new licensed bed capacity for small nonessential community providers, or ninety-two percent of the new licensed bed capacity for large nonessential community providers. (Effective July 1, 2002, for all facilities, other than essential community providers, the total resident days used to compute the financing allowance after a capitalized addition, renovation, replacement, or retirement of an asset shall be set by using the greater of a facility's total resident days from the most recent cost report period or resident days calculated at ninety percent facility occupancy.)

(3) In computing the portion of net invested funds representing the net book value of tangible fixed assets, the same assets, depreciation bases, lives, and methods referred to in \((\text{RCW 74.46.330, 74.46.350, 74.46.360, 74.46.370, and 74.46.380})\) rule, including owned and leased assets, shall be utilized, except that if the capitalized cost of land upon which the facility is located and such other contiguous land which is reasonable and necessary for use in the regular course of providing resident care shall also be included. Subject to provisions and limitations contained in this chapter, for land purchased by owners or lessors before January 18, 1984, capitalized cost of land shall be the buyer's capitalized cost. For all partial or whole rate periods after July 17, 1984, if the land is purchased after July 17, 1984, capitalized cost shall be that of the owner of record on July 17, 1984, or buyer's capitalized cost, whichever is lower. In the case of leased facilities where the net invested funds are unknown or the contractor is unable to provide necessary information to determine net invested funds, the secretary shall have the authority to determine an amount for net invested funds based on an appraisal conducted according to \((\text{RCW 74.46.360(1)})\) department rule.

(4) (Effective July 1, 2001, for the purpose of calculating a nursing facility's financing allowance component rate, if a contractor has elected to bank licensed beds prior to May 25, 2001, or elects to convert banked beds to active service at any time, under chapter 70.38 RCW, the department shall use the facility's licensed bed capacity to recalculate minimum occupancy for rate setting and revise the financing allowance component rate, as needed, effective as of the date the beds are banked or converted to active service. However, in no case shall the department use less than eighty-five percent occupancy of the facility's licensed bed capacity after banking or conversion. Effective July 1, 2002, in no case, other than for essential community providers, shall the department use less than ninety percent occupancy of the facility's licensed bed capacity after conversion.

(5) The financing allowance rate allocation calculated in accordance with this section shall be adjusted to the extent necessary to comply with RCW 74.46.421.

Sec. 7. RCW 74.46.439 and 1999 c 353 s 12 are each amended to read as follows:

(1) In the case of a facility that was leased by the contractor as of January 1, 1980, in an arm's-length agreement, which continues to be leased under the same lease agreement, \((\text{and for which the annualized lease payment plus any interest and depreciation expenses associated with contractor owned assets, for the period covered by the prospective rates, divided by the contractor's total resident days, minus the property component rate allocation, is more than the sum of the financing allowance and the variable return rate determined according to this chapter, the following shall apply:})\)

(a) The financing allowance shall be recomputed substituting the fair market value of the assets as of January 1, 1982, as determined by the department of general administration through an appraisal procedure, less accumulated depreciation on the lessor's assets since January 1, 1982, for the net book value of the assets in determining net invested funds for the facility. A determination by the department of general administration of fair market value shall be final unless the procedure used to make such a determination is shown to be arbitrary and capricious.

(b) The sum of the financing allowance computed under (a) of this subsection and the variable return rate shall be compared to the annualized lease payment, plus any interest and depreciation associated with contractor owned assets, for the period covered by the prospective rates, divided by the contractor's total resident days, minus the property component rate. The lesser of the two amounts shall be called the alternate return on investment rate.

(c) The sum of the financing allowance and variable return rate determined according to this chapter or the alternate return on investment rate, whichever is greater, shall be added to the prospective rates of the contractor.

(2) In the case of a facility that was leased by the contractor as of January 1, 1980, in an arm's-length agreement, if the lease is renewed or extended under a provision of the lease, the treatment provided in subsection (1) of this section shall be applied, except that in the case of renewals or extensions made subsequent to April 1, 1985, reimbursement for the annualized lease payment shall be no greater than the reimbursement for the annualized lease payment for the last year prior to the renewal or extension of the lease.

(3) The financing allowance rate will be the greater of the rate existing on June 30, 2010, or the rate calculated under RCW 74.46.437.

(4) The alternate return on investment component rate allocations calculated in accordance with this section shall be adjusted to the extent necessary to comply with RCW 74.46.421.

Sec. 8. RCW 74.46.475 and 1998 c 322 s 21 are each amended to read as follows:
The department shall analyze the submitted cost report or a portion thereof of each contractor for each report period to determine if the information is correct, complete, reported in conformance with department instructions and generally accepted accounting principles, the requirements of this chapter, and such rules as the department may adopt. If the analysis finds that the cost report is incorrect or incomplete, the department may make adjustments to the reported information for purposes of establishing payment rate allocations. A schedule of such adjustments shall be provided to contractors and shall include an explanation for the adjustment and the dollar amount of the adjustment. Adjustments shall be subject to review and appeal as provided in this chapter.

The department shall accumulate data from properly completed cost reports, in addition to assessment data on each facility's resident population characteristics, for use in: (a) Exception profiling; and (b) Establishing rates.

The department may further utilize such accumulated data for analytical, statistical, or informational purposes as necessary.

Sec. 9. RCW 74.46.485 and 2009 c 570 s 2 are each amended to read as follows:

(1) The department shall:

(a) Employ the resource utilization group III case mix classification methodology. The department shall use the forty-four group index maximizing model for the resource utilization group III grouper version 5.10, but the department may revise or update the classification methodology to reflect advances or refinements in resident assessment or classification, subject to federal requirements; and

(b) Implement minimum data set 3.0 under the authority of this section and RCW 74.46.431(3). The department must notify nursing home contractors twenty-eight days in advance the date of implementation of the minimum data set 3.0. In the notification, the department must identify for all ((quarterly)) semiannual rate settings following the date of minimum data set 3.0 implementation a previously established ((quarterly)) semiannual case mix adjustment established for the ((quarterly)) semiannual rate settings that will be used for ((quarterly)) semiannual case mix calculations in direct care until minimum data set 3.0 is fully implemented. After the department has fully implemented minimum data set 3.0, it must adjust any ((quarterly)) semiannual rate setting in which it used the previously established ((quarterly)) case mix adjustment using the new minimum data set 3.0 data.

(2) A default case mix group shall be established for cases in which the resident dies or is discharged for any purpose prior to completion of the resident's initial assessment. The default case mix group and case mix weight for these cases shall be designated by the department.

(3) A default case mix group may also be established for cases in which there is an untimely assessment for the resident. The default case mix group and case mix weight for these cases shall be designated by the department.

Sec. 10. RCW 74.46.496 and 2006 c 258 s 4 are each amended to read as follows:

(1) Each case mix classification group shall be assigned a case mix weight. The case mix weight for each resident of a nursing facility for each calendar quarter or six-month period during a calendar year shall be based on data from resident assessment instruments completed for the resident and weighted by the number of days the resident was in each case mix classification group. Days shall be counted as provided in this section.

(2) The case mix weights shall be based on the average minutes per registered nurse, licensed practical nurse, and certified nurse aide, for each case mix group, and using the (health care financing administration of the) United States department of health and human services 1995 nursing facility staff time measurement study stemming from its multistate nursing home case mix and quality demonstration project. Those minutes shall be weighted by statewide ratios of registered nurse to certified nurse aide, and licensed practical nurse to certified nurse aide, wages, including salaries and benefits, which shall be based on 1995 cost report data for this state.

(3) The case mix weights shall be determined as follows:

(a) Set the certified nurse aide wage weight at 1.000 and calculate wage weights for registered nurse and licensed practical nurse average wages by dividing the certified nurse aide average wage into the registered nurse average wage and licensed practical nurse average wage;

(b) Calculate the total weighted minutes for each case mix group in the resource utilization group III classification system by multiplying the wage weight for each worker classification by the average number of minutes that classification of worker spends caring for a resident in that resource utilization group III classification group, and summing the products;

(c) Assign a case mix weight of 1.000 to the resource utilization group III classification group with the lowest total weighted minutes and calculate case mix weights by dividing the lowest group's total weighted minutes into each group's total weighted minutes and rounding weight calculations to the third decimal place.

(4) The case mix weights in this state may be revised if the (health care financing administration) United States department of health and human services updates its nursing facility staff time measurement studies. The case mix weights shall be revised, but only when direct care component rates are cost-rebased as provided in subsection (5) of this section, to be effective on the July 1st effective date of each cost-rebased direct care component rate. However, the department may revise case mix weights more frequently if, and only if, significant variances in wage ratios occur among direct care staff in the different caregiver classifications identified in this section.

(5) Case mix weights shall be revised when direct care component rates are cost-rebased as provided in RCW 74.46.431(4).

Sec. 11. RCW 74.46.501 and 2006 c 258 s 5 are each amended to read as follows:

(1) From individual case mix weights for the applicable quarter, the department shall determine two average case mix indexes for each medicaid nursing facility, one for all residents in the facility, known as the facility average case mix index, and one for medicaid residents, known as the medicaid average case mix index.

(2) (a) In calculating a facility's two average case mix indexes for each quarter, the department shall include all residents or medicaid residents, as applicable, who were physically in the facility during the quarter in question based on the resident assessment instrument completed by the facility and the requirements and limitations for the instrument's completion and transmission (January 1st through March 31st, April 1st through June 30th, July 1st through September 30th, or October 1st through December 31st).

(b) The facility average case mix index shall exclude all default cases as defined in this chapter. However, the medicaid average case mix index shall include all default cases.

(3) Both the facility average and the medicaid average case mix indexes shall be determined by multiplying the case mix weight of each resident, or each medicaid resident, as applicable, by the number of days, as defined in this section and as applicable, the resident was at each particular case mix classification or group, and then averaging.

(4) In determining the number of days a resident is classified into a particular case mix group, the department shall determine a start date for calculating case mix grouping periods as
TWENTY NINTH DAY, APRIL 12, 2010

((follows))

(1) If a resident's initial assessment for a first stay or a return stay in the nursing facility is timely completed and transmitted to the department by the cutoff date under state and federal requirements and as described in subsection (5) of this section, the start date shall be the later of either the first day of the quarter or the resident's facility admission or readmission date;

(ii) If a resident's significant change, quarterly, or annual assessment is timely completed and transmitted to the department by the cutoff date under state and federal requirements and as described in subsection (5) of this section, the start date shall be the date the assessment is completed;

(iii) If a resident's significant change, quarterly, or annual assessment is not timely completed and transmitted to the department by the cutoff date under state and federal requirements and as described in subsection (5) of this section, the start date shall be the due date for the assessment.

(b) If state or federal rules require more frequent assessment, the same principles for determining the start date of a resident's classification in a particular case mix group set forth in subsection (4)(a) of this section shall apply.

(c) In calculating the number of days a resident is classified into a particular case mix group, the department shall determine an end date for calculating case mix grouping periods as follows:

(i) If a resident is discharged before the end of the applicable quarter, the end date shall be the day before discharge;

(ii) If a resident is not discharged before the end of the applicable quarter, the end date shall be the last day of the quarter;

(iii) If a new assessment is due for a resident or a new assessment is completed and transmitted to the department, the end date of the previous assessment shall be the earlier of either the day before the assessment is due or the day before the assessment is completed by the nursing facility(s) specified by rule.

5) The cutoff date for the department to use resident assessment data, for the purposes of calculating both the facility average and the medicaid average case mix indexes, and for establishing and updating a facility's direct care component rate, shall be one month and one day after the end of the quarter for which the resident assessment data applies.

6) (A threshold of ninety percent, as described and calculated in this subsection, shall be used to determine the case mix index for each quarter. The threshold shall also be used to determine which facilities' costs per case mix unit are included in determining the ceiling, floor, and price. For direct care component rate allocations established on and after July 1, 2006, the threshold of ninety percent shall be used to determine the case mix index each quarter and to determine which facilities' costs per case mix unit are included in determining the ceiling and price. If the facility does not meet the ninety percent threshold, the department may use an alternate case mix index to determine the facility average and medicaid average case mix indexes for the quarter. The threshold is a count of unique minimum data set assessments, and it shall include resident assessment instrument tracking forms for residents discharged prior to completing an initial assessment. The threshold is calculated by dividing a facility's count of residents being assessed by the average census for the facility. A daily census shall be reported by each nursing facility, as it transmits assessment data to the department. The department shall compute a quarterly average census based on the daily census. If no census has been reported by a facility during a specified quarter, then the department shall use the facility's licensed bed as the denominator in computing the threshold.

7) (a) Although the facility average and the medicaid average case mix indexes shall both be calculated quarterly, the cost-rebasing period facility average case mix index will be used throughout the applicable cost-rebasing period in combination with cost report data as specified by RCW 74.46.431 and 74.46.506, to establish a facility's allowable cost per case mix unit. A facility's medicaid average case mix index shall be used to update a nursing facility's direct care component rate (quarterly) semiannually.

(b) The facility average case mix index used to establish each nursing facility's direct care component rate shall be based on an average of calendar quarters of the facility's average case mix indexes:

(i) For October 1, 1998, direct care component rates, the department shall use an average of facility average case mix indexes from the four calendar quarters of 1997.

(ii) For July 1, 2001, direct care component rates, the department shall use an average of facility average case mix indexes from the four calendar quarters of 1999.

(iii) Beginning on July 1, 2006, when establishing the direct care component rates, the department shall use an average of facility average case mix indexes) from the four calendar quarters occurring during the cost report period used to rebase the direct care component rate allocations as specified in RCW 74.46.431.

(c) The medicaid average case mix index used to update or recalibrate a nursing facility's direct care component rate (quarterly) semiannually shall be from the calendar (quarterly) six-month period commencing (six) nine months prior to the effective date of the (quarterly) semiannual rate. For example, (October 1, 1998) July 1, 2010, through December 31, (April 1, 2009) October 1, 2010, direct care component rates shall utilize case mix averages from the (April 1, 1998) October 1, 2009, through (June 30, 1998) March 31, 2010, calendar quarters, and so forth.

Sec. 12. RCW 74.46.506 and 2007 c 508 s 3 are each amended to read as follows:

1) The direct care component rate allocation corresponds to the provision of nursing care for one resident of a nursing facility for one day, including direct care supplies. Therapy services and supplies, which correspond to the therapy care component rate, shall be excluded. The direct care component rate includes elements of case mix determined consistent with the principles of this section and other applicable provisions of this chapter.

2) ((Beginning October 1, 1998.),) The department shall determine and update (quarterly) semiannually for each nursing facility serving medicaid residents a facility-specific per-resident day direct care component rate allocation, to be effective on the first day of each (calendar quarter) six-month period. In determining direct care component rates the department shall utilize, as specified in this section, minimum data set resident assessment data for each resident of the facility, as transmitted to, and if necessary corrected by, the department in the resident assessment instrument format approved by federal authorities for use in this state.

3) The department may question the accuracy of assessment data for any resident and utilize corrected or substitute information, however derived, in determining direct care component rates. The department is authorized to impose civil fines and to take adverse rate actions against a contractor, as specified by the department in rule, in order to obtain compliance with resident assessment and data transmission requirements and to ensure accuracy.

4) Cost report data used in setting direct care component rate allocations shall be for rate periods as specified in RCW 74.46.431(4)(a).

5) ((Beginning October 1, 1998.),) The department shall rebase each nursing facility's direct care component rate allocation as described in RCW 74.46.431, adjust its direct care component rate allocation for economic trends and conditions as described in RCW 74.46.431, and update its medicaid average case mix index as described in RCW 74.46.496 and 74.46.501, consistent with the following:
(a) [(Reduce)] Adjust total direct care costs reported by each nursing facility for the applicable cost report period specified in RCW 74.46.431(4)(a) to reflect any department adjustments, and to eliminate reported resident therapy costs and adjustments, in order to derive the facility's total allowable direct care cost;

(b) Divide each facility's total allowable direct care cost by its adjusted resident days for the same report period, (((increased if necessary to a minimum occupancy of eighty-five percent; that is, the greater of actual or imputed occupancy at eighty-five percent of licensed beds)) to derive the facility's allowable direct care cost per resident day. However, effective July 1, 2006, each facility's allowable direct care costs shall be divided by its adjusted resident days without application of a minimum occupancy assumption);

(c) [(Adjust the facility's per resident day direct care cost by the applicable factor specified in RCW 74.46.531(4)(c) to derive its adjusted allowable direct care cost per resident day;)]

[(d)(ii)] Divide each facility's adjusted allowable direct care cost per resident day by the facility average case mix index for the applicable quarters specified by RCW 74.46.501(((2)(b)) (b)) to derive the facility's allowable direct care cost per case mix unit;

((e)(Effective for July 1, 2001, rate setting))

[(d) Dividing each facility's allowable direct care cost per resident day by the facility's average case mix index from the applicable quarters specified in RCW 74.46.501(7)(c);]

((f) Except as provided in (i) of this subsection, from October 1, 1998, through June 30, 2000, determine each facility's quarterly direct care component rate as follows:

(i) Any facility whose allowable cost per case mix unit is less than eighty-five percent of the facility's peer group median established under (f) of this subsection shall have a cost per case mix unit equal to eighty-five percent of the facility's peer group median, and shall have a direct care component rate allocation equal to the facility's assigned cost per case mix unit multiplied by that facility's medicaid average case mix index from the applicable quarter specified in RCW 74.46.501(7)(c);

(ii) Any facility whose allowable cost per case mix unit is greater than one hundred ten percent of the peer group median established under (f) of this subsection shall be assigned a cost per case mix unit equal to one hundred ten percent of the peer group median, and shall have a direct care component rate allocation equal to the facility's assigned cost per case mix unit multiplied by that facility's medicaid average case mix index from the applicable quarter specified in RCW 74.46.501(7)(c);

(iii) Any facility whose allowable cost per case mix unit is between ninety and one hundred ten percent of the peer group median established under (f) of this subsection shall have a direct care component rate allocation equal to the facility's allowable cost per case mix unit multiplied by that facility's medicaid average case mix index from the applicable quarter specified in RCW 74.46.501(7)(c);

(iv) Effective July 1, 2006, through June 30, 2007, for vital local providers as defined in this chapter, all direct care component rate allocations shall be determined as follows:

(A) The department shall calculate:

(I) The sum of each facility's July 1, 2006, direct care component rate allocation calculated under (j) of this subsection and July 1, 2006, operations component rate calculated under RCW 74.46.531; and

(II) The sum of each facility's June 30, 2006, direct care and operations component rates.

(B) If the sum calculated under (I)(v)(A)(I) of this subsection is less than the sum calculated under (I)(v)(A)(II) of this subsection, the facility shall have a direct care component rate allocation equal to the facility's June 30, 2006, direct care component rate allocation.

(C) If the sum calculated under (I)(v)(A)(II) of this subsection is greater than or equal to the sum calculated under (I)(v)(A)(I) of this subsection, the facility's direct care component rate shall be calculated under (j) of this subsection;

(i) Except as provided in (i) of this subsection, from July 1, 2006, forward, and for all future rate settings.)

(f) Determine each facility's ([quarterly]) semiannual direct care component rate as follows:

(g) Except as provided in (i) of this subsection, from October 1, 1998, through June 30, 2000, the department shall compare each facility's direct care component rate allocation calculated under (g) of this subsection with the facility's nursing services component rate in effect on September 30, 1998, less therapy costs, plus any exceptional care offsets as reported on the cost report, adjusted for economic trends and conditions as provided in RCW 74.46.431. A facility shall receive the higher of the two rates.

(h) [(Between October 1, 1998, and June 30, 2000, the department shall compare each facility's direct care component rate allocation calculated under (b) of this subsection with the facility's direct care component rate in effect on June 30, 2000. A facility shall receive the higher of the two rates. Between July 1, 2001, and June 30, 2002, if during any quarter a facility's direct care component rate less than the rate paid under (h) of this subsection is greater than either the direct care rate in effect on June 30, 2000, or than that facility's allowable direct care cost per case mix unit calculated in (d) of this subsection multiplied by that facility's medicaid average case mix index from the applicable quarter specified in RCW 74.46.501(7)(c), the facility shall be paid in that and each subsequent quarter pursuant to (h) of this subsection and shall not be entitled to the greater of the two rates.]

(iii) Between October 1, 1998, and June 30, 2000, all direct care component rate allocations shall be as determined under (h) of this subsection.

(iv) Effective July 1, 2006, for all providers, except vital local providers as defined in this chapter, all direct care component rate allocations shall be as determined under (i) of this subsection.

(v) Effective July 1, 2006, through June 30, 2007, for vital local providers, as defined in this chapter, direct care component rate allocations shall be determined as follows:

(A) The department shall calculate:

(I) The sum of each facility's July 1, 2006, direct care component rate allocation calculated under (j) of this subsection and July 1, 2006, operations component rate calculated under RCW 74.46.531; and

(II) The sum of each facility's June 30, 2006, direct care and operations component rates.

(B) If the sum calculated under (I)(v)(A)(I) of this subsection is less than the sum calculated under (I)(v)(A)(II) of this subsection, the facility shall have a direct care component rate allocation equal to the facility's June 30, 2006, direct care component rate allocation.

(C) If the sum calculated under (I)(v)(A)(II) of this subsection is greater than or equal to the sum calculated under (I)(v)(A)(I) of this subsection, the facility's direct care component rate shall be calculated under (j) of this subsection.

1748 JOURNAL OF THE SENATE

2010 1ST SPECIAL SESSION
TWENTY NINTH DAY, APRIL 12, 2010

(i) Any facility whose allowable cost per case mix unit is greater than one hundred twelve percent of the peer group median established under (((4))) (e) of this subsection shall be assigned a cost per case mix unit equal to one hundred twelve percent of the peer group median, and shall have a direct care component rate allocation equal to the facility's allowable cost per case mix unit multiplied by that facility's medicaid average case mix index from the applicable ((quarter)) six-month period specified in RCW 74.46.501(((4)))((c));

(ii) Any facility whose allowable cost per case mix unit is less than or equal to one hundred twelve percent of the peer group median established under (((4))) (e) of this subsection shall have a direct care component rate allocation equal to the facility's allowable cost per case mix unit multiplied by that facility's medicaid average case mix index from the applicable ((quarter)) six-month period specified in RCW 74.46.501(((2)))((c)).

(6) The direct care component rate allocations calculated in accordance with this section shall be adjusted to the extent necessary to comply with RCW 74.46.421.

(7) Costs related to payments resulting from increases in direct care component rates, granted under authority of RCW 74.46.508(((4))) for a facility's exceptional care residents, shall be offset against the facility's examined, allowable direct care costs, for each report year or partial period such increases are paid. Such reductions in allowable direct care costs shall be for rate setting, settlement, and other purposes deemed appropriate by the department.

Sec. 13. RCW 74.46.508 and 2003 1st sp.s. c 6 s 1 are each amended to read as follows:

((2)) The department may by July 1, 2003, adopt rules and implement a system of exceptional care payments for therapy care.

(a) Payments may be made on behalf of facility residents who are under age sixty-five, not eligible for Medicare, and can achieve significant progress in their functional status if provided with intensive therapy care services;

(b) Payments may be made only after approval of a rehabilitation plan of care for each resident on whose behalf a payment is made under this subsection, and each resident's progress must be periodically monitored.)

Sec. 14. RCW 74.46.511 and 2008 c 263 s 3 are each amended to read as follows:

(1) The therapy care component rate allocation corresponds to the provision of medicaid one-on-one therapy provided by a qualified therapist as defined in this chapter, including therapy supplies and therapy consultation, for one day for one medicaid resident of a nursing facility.

(2) In rebasing, as provided in RCW 74.46.431(5)(a), the department shall take from the cost reports of facilities the following reported information:

(a) Direct one-on-one therapy charges for all residents by payer including charges for supplies;

(b) The total units or modules of therapy care for all residents by type of therapy provided, for example, speech or physical. A unit or module of therapy care is considered to be fifteen minutes of one-on-one therapy provided by a qualified therapist or support personnel; and

(c) Therapy consulting expenses for all residents.

(3) The department shall determine for all residents the total cost per unit of therapy for each type of therapy by dividing the total adjusted one-on-one therapy expense for each type by the total units provided for that therapy type.

(4) The department shall divide medicaid nursing facilities in this state into two peer groups:

(a) Those facilities located within urban counties; and

(b) Those located within nonurban counties.

The department shall array the facilities in each peer group from highest to lowest based on their total cost per unit of therapy for each therapy type. The department shall determine the median total cost per unit of therapy for each therapy type and add ten percent of median total cost per unit of therapy. The cost per unit of therapy for each therapy type at a nursing facility shall be the lesser of its cost per unit of therapy for each therapy type or the median total cost per unit plus ten percent for each therapy type for its peer group.

(5) The department shall calculate each nursing facility's therapy care component rate allocation as follows:

(a) To determine the allowable total therapy cost for each therapy type, the allowable cost per unit of therapy for each type of therapy shall be multiplied by the total therapy units for each type of therapy;

(b) The medicaid allowable one-on-one therapy expense shall be calculated taking the allowable total therapy cost for each therapy type times the medicaid percent of total therapy charges for each therapy type;

(c) The medicaid allowable one-on-one therapy expense for each therapy type shall be divided by total adjusted medicaid days to arrive at the medicaid one-on-one therapy cost per patient day for each therapy type;

(d) The medicaid one-on-one therapy cost per patient day for each therapy type shall be multiplied by total adjusted patient days for all residents to calculate the total allowable one-on-one therapy expense. The lesser of the total allowable therapy consultant expense for the therapy type or a reasonable percentage of allowable therapy consultant expense for each therapy type, as established in rule by the department, shall be added to the total allowable one-on-one therapy expense to determine the allowable therapy cost for each therapy type;

(e) The allowable therapy cost for each therapy type shall be added together, the sum of which shall be the total allowable therapy expense for the nursing facility;

(f) The total allowable therapy expense will be divided by the greater of adjusted total patient days from the cost report on which the therapy expenses were reported, or patient days at eighty-five percent occupancy of licensed beds. The outcome shall be the nursing facility's therapy care component rate allocation.

(6) The therapy care component rate allocations calculated in accordance with this section shall be adjusted to the extent necessary to comply with RCW 74.46.421.

(7) The therapy care component rate shall be suspended for medicaid residents in qualified nursing facilities designated by the
The support services component rate allocation corresponds to the provision of food, food preparation, dietary, housekeeping, and laundry services for one resident for one day.

(b) The department shall determine each Medicaid nursing facility's support services component rate allocation using cost report data specified by RCW 74.46.431(6).

(3) To determine each facility's support services component rate allocation, the department shall:

(a) Array facilities' adjusted support services costs per adjusted resident day, as determined by dividing each facility's total allowable support services costs by its adjusted resident days for the same report period, increased if necessary to a minimum occupancy provided by RCW 74.46.431(2), for each facility from facilities' cost reports from the applicable report year, for facilities located within urban counties, and for those located within nonurban counties and determine the median adjusted cost for each peer group;

(b) Set each facility's support services component rate at the lower of:

(i) The facility's per resident day adjusted operations costs from the applicable cost report period adjusted if necessary ((to (a)) for minimum occupancy ((of eighty percent of licensed beds before July 1, 2002, and ninety percent effective July 1, 2002)) or

(ii) The adjusted median per resident day general operations cost for that facility's peer group, urban counties, or nonurban counties; and

(c) Adjust each facility's operations component rate for economic trends and conditions as provided in RCW 74.46.431(7)(b).

(4) The operations component rate allocations calculated in accordance with this section shall be adjusted to the extent necessary to comply with RCW 74.46.421.

Sec. 16. RCW 74.46.521 and 2007 c 508 s 5 are each amended to read as follows:

The operations component rate allocation corresponds to the general operation of a nursing facility for one resident for one day, including but not limited to management, administration, utilities, office supplies, accounting and bookkeeping, minor building maintenance, minor equipment repairs and replacements, and other supplies and services, exclusive of direct care, therapy care, support services, property, financing allowance, and variable return.

(2) ((Except as provided in subsection (1) of this section, beginning October 1, 1998,)) The department shall determine each Medicaid nursing facility's operations component rate allocation using cost report data specified by RCW 74.46.431(7)(a).

(Effective July 1, 2002,)) Operations component rates for all facilities except essential community providers shall be based upon a minimum occupancy of eighty-five percent of licensed beds, and no operations component rate shall be revised upward. Operations component rates for small nonessential community providers shall be based upon a minimum occupancy of seventy-five percent of licensed beds, and no operations component rate shall be revised upward.

Sec. 17. RCW 74.46.835 and 1998 c 322 s 46 are each amended as provided in RCW 74.46.421.

2010 1ST SPECIAL SESSION
The department shall establish, by rule, the procedures, principles, and conditions for the nursing facility medicaid payment system addressed by the following principles:

(1) The department must receive complete, annual reporting of all costs and the financial condition of each contractor, prepared and presented in a standardized manner. The department shall establish, by rule, due dates, requirements for cost report completion, actions required for improperly completed or late cost reports, fines for any statutory or regulatory noncompliance, retention requirements, and public disclosure requirements.

(2) The department shall examine all cost reports to determine whether the information is correct, complete, and reported in compliance with this chapter, department rules and instructions, and generally accepted accounting principles.

(3) Each contractor must establish and maintain, as a service to the resident, a bookkeeping system incorporated into the business records for all resident funds entrusted to the contractor and received by the contractor for the resident. The department shall adopt rules to ensure that resident personal funds handled by the contractor are maintained by each contractor in a manner that is, at a minimum, consistent with federal requirements.

(4) The department shall have the authority to audit resident trust funds and receivables, at its discretion.

(5) Contractors shall provide the department access to the nursing facility, all financial and statistical records, and all working papers that are in support of the cost report, receivables, and resident trust funds.

(6) The department shall establish a settlement process in order to reconcile medicaid resident days to billed days and medicaid payments for the preceding calendar year. The settlement process shall ensure that any savings in the direct care or therapy care component rates be shifted only between direct care and therapy care component rates, and shall not be shifted into any other rate components.

(7) The department shall define and identify allowable and unallowable costs.

(8) A contractor shall bill the department for care provided to medicaid recipients, and the department shall pay a contractor for service rendered under the facility contract and appropriately billed. Billing and payment procedures shall be specified by rule.

(9) The department shall establish the conditions for participation in the nursing facility medicaid payment system.

(10) The department shall establish procedures and a rate setting methodology for a change of ownership.

(11) The department shall establish, consistent with federal requirements for nursing facilities participating in the medicaid program, an appeals or exception procedure that allows individual nursing home providers an opportunity to receive prompt administrative review of payment rates with respect to such issues as the department deems appropriate.

(12) The department shall have authority to adopt, amend, and rescind such administrative rules and definitions as it deems necessary to carry out the policies and purposes of this chapter.

NEW SECTION.  Sec. 20. A new section is added to chapter 74.46 RCW to read as follows:

The department shall establish, by rule, the procedures, principles, and conditions for a pay-for-performance supplemental payment structure that provides payment add-ons for high performing facilities. To the extent that funds are appropriated for this purpose, the pay-for-performance structure will include a one percent reduction in payments to facilities with exceptionally high direct care staff turnover, and a method by which the funding that is not paid to these facilities is then used to provide a supplemental payment to facilities with lower direct care staff turnover.

MOTION

On motion of Senator Keiser, the rules were suspended, Engrossed Substitute Senate Bill No. 6872 was advanced to third reading, the second reading considered the third and the bill was placed on final passage.

Senator Keiser spoke in favor of passage of the bill.

POINT OF INQUIRY

Senator Roach: “Would Senator Keiser yield to a question? We did have just a, by one of the previous speaker’s, a list of some of the groups that had been around the table with you to come to the conclusion to this amendment and now the bill. So, but I didn’t specifically hear what nursing home operators and owners had to put in here for input. Do they like it? What’s their...
Senator Keiser: “Thank you Senator. We have reached agreement that this approach is fair and equitable approach for all of the different nursing home facilities. No one likes to agree to a cut in funding. This is a cut in funding but it’s a lower cut than previous proposals and it’s a lower cut than other services are facing. So, all parties including nursing homes represented by the two main associations have agreed to be accepting of this proposed legislation.”

Senator Roach: “We have gone back in time several times, the senate has and brought up the Rossi budget where there was a tax on nursing home beds because we were all told that the industry wanted it. This isn’t a tax but it seems to be a cut so I want to know that we’re not being sold something that they really don’t want. That they’re put around the table, that they’re coerced to agree to and that’s what I’d like you to tell us what’s going on with this.”

Senator Keiser: “I can’t speak for them Senator but I do think in good faith they have shaken hands with them and they’ve agreed to this proposal.”

Senators Pflug and Honeyford spoke against passage of the bill.

The President declared the question before the Senate to be the final passage of Engrossed Substitute Senate Bill No. 6872.

ROLL CALL

The Secretary called the roll on the final passage of Engrossed Substitute Senate Bill No. 6872 and the bill passed the Senate by the following vote: Yeas, 30; Nays, 14; Absent, 0; Excused, 5.

Voting nay: Senators Becker, Benton, Carrell, Haugen, Hewitt, Holmquist, Honeyford, King, Parlette, Pflug, Roach, Schoesler, Sheldon and Swecker

Excused: Senators Delvin, McCaslin, Morton, Stevens and Zarelli

ENGROSSED SUBSTITUTE SENATE BILL NO. 6872, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

MESSAGE FROM THE GOVERNOR
PARTIAL VETO ON SUBSTITUTE SENATE BILL 6349

March 22, 2010

To the Honorable President and Members,
The Senate of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Section 5, Substitute Senate Bill 6349 entitled:

“AN ACT Relating to a farm internship program.”

This bill provides a structure for agricultural education with oversight from the Department of Labor and Industries. Section 5 provides that appropriations made for purposes of this act must be from the state general fund. The Legislature can determine through the appropriation process how to fund this program, and does not require a separate statutory provision to determine how to fund the program. This bill creates the program in the Department of Labor and Industries and therefore appropriations made for purposes of this act should be from the departments funds dedicated to that purpose.

For this reason, I have vetoed Section 5 of Substitute Senate Bill 6349.

With the exception of Section 5, Substitute Senate Bill 6349 is approved.

Respectfully submitted,
CHRISTINE GREGOIRE, Governor

MESSAGE FROM THE GOVERNOR
PARTIAL VETO ON SUBSTITUTE SENATE BILL 6207

March 25, 2010

To the Honorable President and Members,
The Senate of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Section 7, Substitute Senate Bill 6207 entitled:

“AN ACT Relating to allowing local governments to create golf cart zones.”

The bill authorizes local jurisdictions to allow the use of golf carts on public roads that have speed limits of 25 miles per hour or less, under certain restrictions. The bill contains some important safety precautions, including requiring local jurisdictions to post signs identifying golf cart zones, and requiring that golf carts have seatbelts and proper lighting. Section 7 would exempt passengers under age 16 from the state’s seatbelt and child restraint requirements. I believe it is important these passenger safety provisions apply to the use of vehicles transporting a child on a public road.

For this reason, I have vetoed Section 7 of Substitute Senate Bill 6207.

With the exception of Section 7 of Substitute Senate Bill 6207 is approved.

Respectfully submitted,
CHRISTINE GREGOIRE, Governor

MESSAGE FROM THE GOVERNOR
PARTIAL VETO ON SENATE BILL 6826

March 25, 2010
The Honorable President and Members,
The Senate of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Section 2 of Senate Bill 6826.

“AN ACT Relating to subagent service fees.”

This bill authorizes a fee increase to help independent vehicle licensing subagents keep up with the cost of doing business and requires the Department of Licensing to implement a rotation of public and private vehicle service office listings on the Department’s website. For some time now the Department has been working with the Washington Association of Vehicle Subagents to redesign the website listings, so that the lookup function will allow a person to enter his or her zip code and receive a listing of licensing offices in order of proximity to that zip code. The Department has indicated to the Association that they will have this change completed by December 31, 2010. This proximity website feature will better serve the needs of the public and the subagents. Section 2 would not allow implementation of the proximity website feature requested by the subagents and planned by the Department.

For this reason I have vetoed Section 2 of Senate Bill 6826.

With the exception of Section 2, Senate Bill 6826 is approved.

Respectfully submitted,
CHRISTINE GREGOIRE, Governor

MESSAGE FROM THE GOVERNOR
PARTIAL VETO ON ENGROSSED SUBSTITUTE SENATE BILL 6403

March 29, 2010

To the Honorable President and Members,
The Senate of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Section 1, Engrossed Substitute Senate Bill 6403 entitled:

“AN ACT Relating to accountability and support for vulnerable students and dropouts, including prevention, intervention, and reengagement.”

Section 1 is an intent section including legislative findings and goals regarding the development of a dropout prevention program to serve vulnerable youth. The intent section could be read to conflict with the substantive description of the type of program to be developed as stated in Section 3. A veto if the intent section eliminates this potential conflict.

For this reason, I have vetoed Section 1 of Engrossed Substitute Senate Bill 6403.

With the exception of Section 1, Engrossed Substitute Senate Bill 6403 is approved.

Respectfully submitted,
CHRISTINE GREGOIRE, Governor

MESSAGE FROM THE GOVERNOR
PARTIAL VETO ON SUBSTITUTE SENATE BILL 6572

March 29, 2010

To the Honorable President and Members,
The Senate of the State of Washington

Ladies and Gentlemen:
I am returning herewith, without my approval as to Section 2, Substitute Senate Bill 6572 entitled:

“AN ACT Relating to eliminating accounts.”

This bill eliminates inactive state funds and accounts to simplify the state accounting process.

Section 2 which amends a reference to the special purpose district research services account is also amended in Engrossed Second Substitute House Bill 2658 eliminating the Municipal Research Council and transferring its duties to the Department of Commerce. A veto of Section 2 eliminates this conflicting double amendment.

For this reason, I have vetoed Section 2 of Substitute Senate Bill 6572.

With the exception of Section 2, Substitute Senate Bill 6572 is approved.

Respectfully submitted,
CHRISTINE O. GREGOIRE, Governor

MESSAGE FROM THE GOVERNOR
PARTIAL VETO ON ENGROSSED SUBSTITUTE SENATE BILL 6381

March 30, 2010

To the Honorable President and Members,
The Senate of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Sections 215(3); 215(5); 221(13); 303(43); 304(15); 401, page 89, lines 18-20, 23-25, and 26-27; and 602 of Engrossed Substitute Senate Bill 6381 entitled:

“AN ACT Relating to transportation funding and appropriations.”

Section 215(3), page 31, Department of Transportation
This proviso ties the appropriation contained within this subsection to either the Joint Legislative Audit and Review Committee (JLARC) or the Joint Transportation Committee (JTC) conducting an analysis indentified in Sections 108(4) and 204 of this bill. This action effectively delegates appropriation authority to either the JLARC or the JTC. I believe that this delegation of authority will be remedied in the operating budget. For this reason, I have vetoed Section 215(3).

Section 215(5), page 32, Department of Transportation
This proviso requires the Department of Transportation to finalize all pending equal value exchange activities for the construction or improvement of facilities. Thereafter, the Department may not pursue any other equal value exchanges except to replace the Mount Baker headquarters office. Equal value exchanges are important tools that the Department uses to fund high priority facility projects. For this reason, I have vetoed Section 215(5).

Section 221(13), page 47, Department of Transportation
This proviso requires the Department of Transportation to implement a pilot program for the remainder of the 2009-11 Biennium to expand the use of high occupancy vehicle lanes, transit-only lanes, and certain park and ride facilities to private transportation providers. The proviso requires transit agencies and other local jurisdictions to have a process to receive applications for the reasonable use of these facilities. If a private transportation provider demonstrates that the transit agency or local jurisdiction failed to consider an application in good faith, the Department may not award any grant funding.
This proviso conflicts with federal regulations due to its broad allowance of the private use of public facilities. The Federal Transit Authority (FTA) requires specific authorization before allowing private transportation uses in federally funded public facilities. In addition, the issuance of grants to local jurisdictions for vanpools, special needs transportation, and other facilities to improve regional mobility should not be based upon the outcome of negotiations between local jurisdictions and private transportation providers.
For these reasons, I have vetoed Section 221(13).

Section 303(43), page 66, Department of Transportation
Section 304(15), page 72, Department of Transportation
These provisos require that redistributed federal funds received by the Department of Transportation first be applied to offset planned expenditures of state funds, and second to offset planned expenditures of federal funds, on projects identified in the project list in the 2010 supplemental budget. If these options are not feasible, the Department must consult with the Joint Transportation Committee (JTC) prior to obligating redistributed federal funds. If such consultation is not feasible and Washington does not act quickly, we may lose the opportunity to receive redistributed federal funds. However, because input from the Legislature is important, I am directing the Department to consult with JTC members.

For this reason, I have vetoed Section 303(43) and Section 304(15).

Section 401, page 89, lines 18-20, 23-25, and 26-27, State Treasurer
This section provides for bond sale discounts and debt to be paid by the motor vehicle account and transportation fund revenue. Technical modeling problems resulted in some erroneous amounts.

For this reason, I have vetoed line 18-20, 23-25, and 26-27 of Section 401.

Section 602, page 96, Department of Transportation
This proviso requires that redistributed federal funds received by the Department of Transportation first be applied to offset planned expenditures of state funds, and second to offset planned expenditures of federal funds, on projects identified in the project list in the 2010 supplemental budget. For the same reason that I vetoed Section 303(43) and Section 304(15) above, I have vetoed Section 602.

For these reasons, I have vetoed Sections 215(3); 215(5); 221(13); 303(43); 304(15); 401, page 89, lines 18-20, 23-25, 26-27 and 602, Engrossed Substitute Senate Bill 6381.

With the exception of Sections 215(3); 215(5); 221(13); 303(43); 304(15); 401, page 89, lines 18-20, 23-25, 26-27 and 602, Engrossed Substitute Senate Bill 6381 is approved.

Respectfully submitted,
CHRISTINE GREGOIRE, Governor

MESSAGE FROM THE GOVERNOR
PARTIAL VETO ON ENGROSSED SUBSTITUTE SENATE BILL 6392

March 30, 2010

To the Honorable President and Members,
The Senate of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Sections 1 and 3, Engrossed Substitute Senate Bill 6392 entitled:

“AN ACT Relating to the use of revenue generated from tolling the state route number 520 corridor.”

Section 1 outlines legislative intent for the bill. I believe the legislation itself states clearly that improvements throughout the SR 520 corridor need to move forward, with the proper input from appropriate parties. However, Section 1 is vague and susceptible to conflicting interpretations, which I believe could hinder our ability to make progress on a project that is important to public safety and economic vitality.

Section 3 requires that the SR 520 bridge be no higher than 20 feet. I recognize it is important to local communities that the bridge have as low a profile as possible. Decisions regarding the dimensions of a transportation facility must also be based on engineering standards, safety considerations permitting requirements, and state and federal law. Section 3 potentially prevents the Department of Transportation from complying with Coast Guard requirements and eliminates any possibility of adjusting the size of the facility based upon design or permitting needs. As a result, I am vetoing this section and directing the Department to continue to work with neighborhoods and local governments to refine the preferred alternative design.

For these reasons, I have vetoed Sections 1 and 3 of Engrossed Substitute Senate Bill 6392.

With the exception of Sections 1 and 3, Engrossed Substitute Senate Bill 6392 is approved.
MESSAGE FROM THE GOVERNOR
PARTIAL VETO ON ENGROSSED SECOND SUBSTITUTE SENATE BILL 6267
April 1, 2010

To the Honorable President and Members,
The Senate of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Sections 9, 10, 14 and 15, Engrossed Substitute Senate Bill 6267 entitled:

“AN ACT Relating to water right processing improvements.”

This bill provides applicants and the Department of Ecology with tools that can be used, when appropriate, to expedite the processing of water right applications.

Sections 9 and 10 define the original location of a well associated with a water right claim as the area located within a one-quarter mile radius of the current well or wells. The original location of a well is used to determine when a replacement well requires a formal change to the water right.

The specific definitions in Sections 9 and 10 would reduce the Department of Ecology’s flexibility and impair its current discretion to decide when a replacement well warrants formal review and approval. Such flexibility and discretion is needed when the impacts of a replacement well will depend on the circumstances. Sections 14 and 15 provide expiration and effective dates for Sections 9 and 10, respectively.

For these reasons, I have vetoed Section 9, 10, 14 and 15 of Engrossed Second Substitute Senate Bill 6267.

With the exception of Sections 9, 10, 14 and 15 Engrossed Second Substitute Senate Bill 6267 is approved.

Respectfully submitted,
CHRISTINE GREGOIRE, Governor

MESSAGE FROM THE GOVERNOR
PARTIAL VETO ON ENGROSSED SUBSTITUTE SENATE BILL 6476
April 1, 2010

To the Honorable President and Members,
The Senate of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Section 4 Engrossed Substitute Senate Bill 6476 entitled:

“AN ACT Relating to sex crimes involving minors.”

Section 4 requires the Department of Social and Health Services to provide a report to the relevant policy and fiscal committees of the Legislature by November 1, 2010, regarding the training needed to allow staff of the Children’s Administration and crisis residential centers to work effectively with sexually exploited youth. The report must identify the evidence-based training programs to be used and the cost of such training. This section would be codified in chapter 13.32A RCW.

The Department will make the information available. A statutorily required report is unnecessary.

For these reasons, I have vetoed Section 4 of Engrossed Substitute Senate Bill 6476.
With the exception of Section 4, Engrossed Substitute Senate Bill 6476 is approved.

Respectfully submitted,
CHRISTINE GREGOIRE, Governor

MESSAGE FROM THE GOVERNOR
VETO ON SECOND SUBSTITUTE SENATE BILL 6575

April 1, 2010

To the Honorable President and Members,
The Senate of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval, Second Substitute Senate Bill 6575 entitled:

"AN ACT Relating to recommendations of the joint legislative task force on the underground economy."

Second Substitute Senate Bill 6575 is designed to limit the underground construction economy by requiring contractors who fail to register with the Department of Labor and Industries to enroll in a training class in addition to registering with the department. First-time offenders who do so would be eligible for reduced fines. Narrowing the underground economy is a laudable goal, and one that should be pursued with stronger legislation. Despite its benefits, this bill has one significant negative outcome that cannot be ignored. By creating a dedicated account for revenues from contractor registrations, renewals course fees, and penalties, this bill would reduce net revenues to the state’s general fund by more than $2 million annually beginning in Fiscal Year 2012. In these difficult economic times, that reduction would have negative impacts greater than the benefits this legislation would provide. I would welcome similar legislation without the creation of a dedicated account. In addition, I am directing the Departments of Revenue, Labor and Industries, and Employment Security to continue interagency coordination of efforts with stakeholders to identify and sanction unregistered contractors.

For these reasons I have vetoed Second Substitute Senate Bill 6575 in its entirely.

Respectfully submitted,
CHRISTINE GREGOIRE, Governor

MESSAGE FROM THE GOVERNOR
PARTIAL VETO ON ENGROSSED SUBSTITUTE SENATE BILL 6726

April 1, 2010

To the Honorable President and Members,
The Senate of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Section 1, Engrossed Substitute Senate Bill 6726 entitled:

"AN ACT Relating to making the governor the public employer of language access providers."

This bill provides for collective bargaining between the Governor and language access providers. Section 1 creates a new workgroup, directed by the Office of Financial Management, charged with developing a plan to improve the efficiency and effectiveness for interpreter service delivery for the Department of Social and Health Services. The Office of Financial Management is to report the findings of the workgroup to the Legislature no later than September 30, 2010.

Collective bargaining for language access providers working with the Department of Social and Health Services does not require a legislatively mandated workgroup to make recommendations on improvements to the delivery of services. I am directing the Office of Financial Management and the Department of Social and Health Services to conduct an internal review resulting in recommendations to improve administrative efficiency and effectiveness of language access services and, as part of the review, to seek input from the appropriate stakeholders.
For these reasons I have vetoed Section 1 of Engrossed Substitute Senate Bill 6726.
With the exception of Section 1 Engrossed Substitute Senate Bill 6726 is approved.

Respectfully submitted,
CHRISTINE GREGOIRE, Governor

MESSAGE FROM THE GOVERNOR
VETO ON SUBSTITUTE SENATE BILL 6343

April 2, 2010

To the Honorable President and Members,
The Senate of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval, Substitute Senate Bill 6343 entitled:

―AN ACT Relating to the establishment of the Washington Food policy forum.‖

Improved coordination of efforts relating to our state food policy is needed. However, this bill identifies goals that overlap with existing state agency activities. This redundancy will lead to spending time and financial resources on issues already addressed by existing agency programs. In addition, this bill establishes a form consisting of 25 representatives and charges the forum with addressing a broad range of food system goals over the next five years. Experience teaches that the large size of the forum combined with a broad range of issues diminishes the prospects for success.

While I have vetoed this bill, I am committed to a more focused examination of state food policy, food-related programs, and food-related issues. I intend to issue an executive order directing the Departments of Health, Agriculture, and Social and Health Services, along with a request to the Conservation Commission and the Office of Superintendent of Public Instruction, to work collaboratively with other agencies and non-governmental organizations, to:

a. Pursue federal and other grant source funds to identify gaps and opportunities to address food security, nutrition, and health of Washington citizens;
b. Explore ways to promote nutrition, especially for those who are most in need;
c. Help educate the public and policy makers on the status of hunger in Washington State, and the role they play in addressing issues of food security, nutrition and health; and
d. Collaborate and coordinate with private, public and governmental organizations to support realistic solutions to improving food security, nutrition and health for all Washingtonians; and,
e. Help educate the public and policy makers on the importance of farmland preservation and the importance of promoting Washington-grown products to farmers, markets, food banks, and institutions.

For these reasons I have vetoed Substitute Senate Bill 6343 in its entirety.

Respectfully submitted,
CHRISTINE GREGOIRE, Governor

MESSAGE FROM THE GOVERNOR
PARTIAL VETO ON ENGROSSED SECOND SUBSTITUTE SENATE BILL NO. 6409

April 23, 2010

To the Honorable President and Members,
The Senate of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Section 7, Engrossed Second Substitute Senate Bill No. 6409 entitled:

―AN ACT Relating to creating the Washington opportunity pathways account.‖
This bill creates the Washington Opportunity Pathways Account and directs that beginning in Fiscal Year 2011 net revenues from in-state lottery games that are not otherwise dedicated will be placed in this new account.

Section 7 of this bill requires costly consultation and studies of areas of lottery operations that already receive significant oversight. The section directs the Joint Legislative Audit and Review Committee (JLARC) to study the marketing and vendor expenditures and incentive payment programs of the Commission by November 1, 2010. The estimated costs of the studies are not funded in the budget. In addition, the Executive Committee of JLARC has requested this section be vetoed and that the study take place next biennium. I agree with the need for the study and request the committee to include it in their future planning.

For these reasons I have vetoed Section 7 of Engrossed Second Substitute Senate Bill No. 6409.

With the exception of Section 7 of Engrossed Second Substitute Senate Bill No. 6409 is approved.

Respectfully submitted,
CHRISTINE GREGOIRE, Governor

MESSAGE FROM THE GOVERNOR
PARTIAL VETO ON ENGROSSED SUBSTITUTE SENATE BILL NO. 6503

April 27, 2010

To the Honorable President and Members,
The Senate of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Section 2, Engrossed Substitute Senate Bill No. 6503 entitled:

“AN ACT Relating to the operations of state agencies.”

This bill directs state agencies to achieve reductions in employee compensation costs. Section 2 of this bill would require additional compensation reductions of $10 million General Fund State from Washington Management Service and exempt manager, who comprise less than five percent of state employees. A cut of this size, over such a small base, is too large to be practical. For example, it would take nearly two weeks of temporary layoff – over and above the ten days of layoff due to agency closures included in this bill – to reach this level of compensation reduction.

Managers will be subject to the temporary layoffs in proportion to all staff. Imposing this added reduction would interfere with recruiting and retaining qualified and experienced workers. It would likely cause salary inversion, making it particularly hard to promote senior state employees with technical skills into management jobs.

For these reasons I have vetoed Section 2 of Engrossed Substitute Senate Bill No. 6503.

With the exception of Section 2 of Engrossed Substitute Senate Bill No. 6503 is approved.

Respectfully submitted,
CHRISTINE GREGOIRE, Governor

MESSAGE FROM THE GOVERNOR
PARTIAL VETO ON ENGROSSED SUBSTITUTE SENATE BILL NO. 6444

May 4, 2010

To the Honorable President and Members,
The Senate of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Sections 109; 117, page 17, lines 10-11; 127(27); 127(28); 127(31); 127(36); 127(38); 127(39); 129, page 35, lines 19-20; 129(3); 129(6); 131(2); 201(7); 204(3)(f); 205(1)(m); 205(1)(n); 205(1)(o); 205(1)(p); 205(1)(r); 205(1)(s); 206(20); 206(21); 207(2); 207(11); 209(14); 209(35); 209(38); 209(39); 209(40); 209(41); 209(42); 209(47); 212(6); 212(7); 214(7); 214(8); 221(21); 221(28); 223(2)(h); 303(3); 303(4);
I am vetoing the following appropriation items because of concerns with policy or technical issues relating to the legislative provisions:

**Section 109, page 10, Supreme Court, Change to Fiscal Year 2011 General Fund-State Appropriation**
The reduced appropriation to the Supreme Court in this section will impede the Court’s capacity to hear cases in a timely manner. The Court will work with the Legislature to implement budget reductions in the 2011 Supplemental Budget; therefore, I have vetoed Section 109.

**Section 117, page 17, lines 10-11, Lieutenant Governor, Reduction to Private/Local Appropriation**
The $2,000 reduction in the existing private/local fund appropriation would require the agency to turn away grant funds from a local school district. For this reason, I have vetoed Section 117, lines 10-11.

**Section 127(27), page 30, Department of Commerce, Microenterprise Development Organizations**
This proviso prohibits the Department of Commerce from reducing the funding for microenterprise development organizations by more than ten percent this biennium. This restriction limits the agency’s ability to manage necessary budget reductions. For this reason, I have vetoed Section 127(27).

**Section 127(28), pages 30-31, Department of Commerce, Workgroup to Study Gaps in State Commercialization Programs**
This proviso requires the Department of Commerce to convene a work group to study the gaps and overlaps in programs that commercialize research and technology initiatives. This group must prepare a report to the Legislature no later than December 1, 2010, that identifies any gaps and overlaps, evaluates strategies to reduce administrative expenses, and recommends changes that would amplify and accelerate innovation-driver job creation in the state. No funding was provided for the review and study. For this reason, I have vetoed Section 127(28). However, I am directing the Department of Commerce to conduct as much of a review as is possible within its existing resources because I believe the information required by the proviso will be useful.

**Section 127(31), pages 31-32, Department of Commerce, Separate Budget Request for the Economic Development Commission**
This proviso requires the Economic Development Commission, currently funded through the Department of Commerce, to develop a separate budget request and work plan. It also creates an account for the receipt of gifts, donations, sponsorships, or contributions from which only the Commission or its designee may authorize expenditures. Because the Economic Development Commission is part of the Department of Commerce, its budget and work plan is and should remain part of the Department’s budget requests. In addition, it is inappropriate to establish an account in an appropriations bill. For these reasons, I have vetoed Section 127(31).

**Section 127(36), page 34, Department of Commerce, New Account for Washington Technology Center**
This proviso creates the Investing in Innovation Account to be used only by the Washington Technology Center in carrying out the Investing in Innovation Grants Program and other innovation and commercialization activities. Since the Center is a non-profit organization, not a public agency, it cannot administer a state account. In addition, it is inappropriate to establish an account in an appropriations bill. For these reasons, I have vetoed Section 127(36).

**Section 127(38), page 34, Department of Commerce, Washington State Quality Award Training for Small Manufacturers and Other Businesses**
This subsection provides $50,000 in General Fund-State funding for deposit into the Manufacturing Innovation and Modernization Account, which provides vouchers to small manufacturers to purchase consulting services from a qualified manufacturing extension partner affiliate. To date, no small manufacturers have taken advantage of this...
program, and approximately $150,000 remains in the account. Given the state’s current and projected fiscal environment and the lack of demand for these services, an additional deposit of funds into this account does not seem warranted. For this reason, I have vetoed Section 127(39).

Section 129, page 35, lines 19-20, Office of Financial Management, Change to Fiscal Year 2011 General Fund - State Appropriation

The reduction to the Fiscal Year 2011 appropriation is vetoed in order to retain sufficient funds to conduct two critical budget-related studies; and independent assessment of placements in residential habilitation centers in Section 129(6) and an analysis and strategic business plan for the Consolidated State Data Center and Office in section 129(7). Insufficient funds were provided to prepare a valuable study, and no new funds were provided for the Data Center study. The agency will still implement all administrative reductions assumed in the budget as passed, and the additional spending authority will be used to accomplish the new work assigned to the agency. For these reasons, I have vetoed Section 129, line 19-20.

Section 129(3), pages 36-37, Office of Financial Management, Washington State Quality Award Training

This subsection provides $25,000 in General Fund-State funding for the Office of Financial Management to contract with the Washington State Quality Award Program to provide training for state managers and employees. The state’s current and projected fiscal environment necessitates spending on only the most essential requirements. For this reason, I have vetoed Section 129(3).

Section 129(6), page 38, Office of Financial Management

The $200,000 appropriation for this study is divided between two fiscal years so the Office of Financial Management will not be able to use half of the money, making it impossible to satisfactorily complete the review as envisioned. Therefore, I am vetoing section 129(6). In order to assess the status of people who currently live in residential habilitation centers, I am directing the Department of Social and Health Services to conduct assessments in a similar manner as is done for people in community residential programs. The assessments shall include interviews with all residential habilitation center residents or guardians of residents to determine the optimum setting for these individuals and shall include the option and choice to remain in a residential habilitation center. The Office of Financial Management shall contract with an independent consultant to review the assessments and determine whether there are funded options available in the community for residential habilitation center residents who indicate an interest in moving to a community placement and whether appropriate services and resources in the community exist or can be developed to provide adequate care for people with developmental disabilities. The consultant shall provide a report to me and the Legislature by December 1, 2010. For these reasons, I have vetoed Section 129(6).

Section 131(2), page 40, Department of Personnel, Employee Satisfaction Synopsis and Workforce Management Assessment

This proviso requires the Department of Personnel to provide a synopsis of survey data regarding state employee satisfaction and an assessment of career and executive work force management concerns. There is a technical problem with an incorrect reference to Section 119(4) instead of Section 123(4). For this reason, I am vetoing Section 131(2), but directing the Department to comply with the intent of the proviso to the degree possible within existing resources.

Section 201(7), page 58-59, Department of Social and Health Services, Audit and Oversight Improvement

This proviso requires multiple changes to the Department’s audit and oversight programs. This requirement would create a significant administrative burden, and no funding was provided for this purpose. For this reason, I have vetoed Section 201(7).

Section 204(3)(f), pages 81-82, Department of Social and Health Services, Report on Mental Health Services for Children

The Department of Social and Health Services is directed to provide a report on improving services for children who are at greatest risk of requiring long-term inpatient and residential care due to the severity of their emotional impairments. The proviso requires the Family Policy Council to prepare an inventory of current publicly funded efforts in Washington to identify children at risk of emotional impairments and to provide intervention before a mental disorder manifests itself. In light of national health care reform and the state’s efforts to reorganize in response, requiring that a report be prepared by October 1, 2010, will not give the Department sufficient time to respond to health care reform, formulate a redesigned plan to address children’s mental health, and work with the federal government. As the Department is currently involved in litigation regarding children’s mental health, and because I believe that all aspects of the public children’s mental health system need to be evaluated in light of national health care reform and because a deadline of October 1 does not provide sufficient time to respond, I have vetoed Section 204(3)(f).

Section 205(1)(m), page 88, Department of Social and Health Services, County Employment Funding
This proviso prohibits the Department of Social and Health Services from reducing expenditures for contracts with counties for employment assistance for people with developmental disabilities. This restriction limits the Department’s ability to manage necessary budget reductions. Therefore, I have vetoed Section 205(1)(m).

Section 205(1)(n), page 88, Department of Social and Health Services Developmental Disabilities Program, Agency Provider Savings and Hourly Rates
The Department of Social and Health Services is directed to report on the fiscal impact of Chapter 571, Laws of 2009 (Substitute House Bill 2361) and the relative hourly costs of agency providers and individual providers. However, no funding is provided for this purpose. Therefore, I have vetoed Section 205(1)(n).

Section 205(1)(o), pages 88-89, Department of Social and Health Services Developmental Disabilities Program, Workgroup on Administrative Burdens for the Homecare Industry
The Department of Social and Health Services is directed to convene a new work group to address administrative burdens on the homecare industry and to report on its findings. However, no funding is provided. Therefore, I have vetoed Section 205(1)(o).

Section 205(1)(p), page 89, Department of Social and Health Services, Report on Placements for Residential Clients
This proviso requires a quarterly report on all placements for residential clients in the community protection and expanded community programs in the Division of Developmental Disabilities. Because of the cost involved, I have vetoed Section 205(1)(p) and am directing the Department of Social and Health Services to continue providing the quarterly reports which cover only new residential clients added to the programs in the current biennium.

Section 205(1)(r), page 89, Department of Social and Health Services, Self-Advocate Support
This proviso directs the Department of Social and Health Services to spend an additional $100,000 to provide instruction in self-advocacy to families of individuals with developmental disabilities. In these difficult economic times, it is not prudent to expand services. For this reason, I have vetoed Section 205(1)(r).

Section 205(1)(s), pages 89-90, Department of Social and Health Services, Community Support
The Department of Social and Health Services is directed to spend an additional $100,000 for parent-to-parent networks and community support groups for people with developmental disabilities. In a time when we are reducing other valuable core services of state government, we cannot afford to expand these services. For this reason, I have vetoed Section 205(1)(s).

Section 206(20), page 97, Department of Social and Health Services Aging and Adult Services Program, Agency Provider Savings and Hourly Rates
The Department of Social and Health Services is directed to report on the fiscal impact of Chapter 571, Laws of 2009 (Substitute House Bill No. 2361) and the relative hourly costs of agency providers and individual providers. However, no funding is provided. Therefore, I have vetoed Section 206(20).

Section 206(21), pages 97-98, Department of Social and Health Services Aging and Adult Services Program, Workgroup on Administrative Burdens for the Homecare Industry
The Department of Social and Health Services is directed to convene a new work group to address administrative burdens for the homecare industry and to report on its findings. However, no funding is provided. Therefore, I have vetoed Section 206(21).

Section 207(2), pages 101-102 Department of Social and Health Services, Subcabinet Report on WorkFirst
This proviso directs the WorkFirst Subcabinet and Department of Social and Health Services to report on services provided and accessed by both general population clients and limited English proficiency clients. No funding is provided for this report. Therefore, I have vetoed Section 207(2).

Section 207(11), page 106, Department of Social and Health Services, Limited English Proficiency Services
This proviso reinstates a portion of the reduction taken in the 2009-11 enacted budget for limited English proficiency services. Given the budget context, it is not appropriate to restore this reduction. Therefore, I have vetoed Section 207(11).

Section 209(14), page 112-113, Department of Social and Health Services, Disability Lifeline Report on Transition from Fee-for-Service to Managed Care
This revised proviso requires the Department of Social and Health Services to report to the Legislature by November 1, 2010, on the impact of moving Lifeline medical clients from fee-for-service to managed care, and expands the outcomes to be included in the evaluation currently required. Since there is a lengthy lag period between when services
are received by a client and when they are paid for by the state, there will not be sufficient data to report. For this reason, I have vetoed Section 209(14).

**Section 209(35), page 117, Department of Social and Health Services, Medication Therapy Management**

This proviso requires the Department of Social and Health Services to enter into a contract for medication therapy management services only if the contractor guarantees the program will generate savings. While there may be merit in this concept, no additional administrative resources were provided for implementation. For this reason, I have vetoed Section 209(35).

**Section 209(38), page 117, Department of Social and Health Services, Lowest Cost Prescription Drug Option**

This proviso requires the Department of Social and Health Services to purchase a brand-name drug if the drug, after rebates and discounts, is the lowest-cost drug option. The Department has made good progress in reducing the growth in drug costs for state-purchased health care. This has been done through establishing a preferred drug list and emphasizing generic substitutes when appropriate. The Department will continue to purchase the lowest-cost drugs possible. However, there are challenges with implementing this requirement as written. In addition, no funding has been provided for this report. For these reasons, I have vetoed Section 209(38).

**Section 209(39), page 117, Department of Social and Health Services, Report on new Prescription Drug Benchmark**

The Department of Social and Health Services is required to report to the Legislature concerning the establishment of a new benchmark for prescription drugs to replace the Average Wholesale Price. No funding has been provided for this report. For this reason, I have vetoed Section 209(39).

**Section 209(40), page 117, Department of Social and Health Services, School-based Medicaid Services**

The proviso declares that sufficient funding is provided in the Appropriations Act to fund medical services provided to Medicaid clients in a school setting. This proviso restricts the agency’s ability to limit services in this area should budget situation demand it. For this reason, I have vetoed Section 209(40).

**Section 209(41), page 118, Department of Social and Health Services, Pursuing and Reporting Drug Pricing Opportunities**

The Department of Social and Health Services is required to report on the opportunities available to the state through the federal 340B drug pricing program. This program provides certain federally supported program discounts on prescription drugs used for outpatient services. No, funding was provided for this report. For this reason, I have vetoed Section 209(41).

**Section 209(42), page 118, Department of Social and Health Services, Transition Plan to Move Fee-for-Service to Managed Care**

The Department of Social and Health Services is required to develop a transition plan for the state’s aged, blind, and disabled clients to move from a fee-for-service medical delivery system to a managed care delivery system. Since no funding was provided for this transition plan, I have vetoed Section 209(42). However, I am directing the Secretary of the Department of Social and Health Services and Administrator of the Health Care Authority to continue to assess the feasibility and cost effectiveness of moving from fee-for-service to managed care plans.

**Section 209(47), pages 118-119, Department of Social and Health Services, Establishing Rates to Apple Health Managed Care**

This proviso establishes the method by which premiums for the Apple Health Program will be established for rates set after July 1, 2010. As we move to implement national health care reform, it will be imperative that we retain as much flexibility as possible to control the cost of purchasing health care. As written, the proviso limits the Department of Social and Health Service’s ability to adjust premiums to reflect the actual cost of providing health care within individual plans. For this reason, I have vetoed Section 209(47).

**Section 212(6), page 121, Department of Social and Health Services, Governor’s Juvenile Justice Advisory Committee**

This proviso limits any budget cuts to the Governor’s Juvenile Justice Advisory Committee. In this budget environment, state government should not be restricted from any possible avenues to reduce spending. Therefore, I have vetoed Section 212(6).

**Section 212(7), pages 121-122, Department of Social and Health Services, Autism Health Coverage Study**

The Department of Social and Health Services is directed to report, in collaboration with the Health Care Authority, on the fiscal impact of state-purchased health care to cover autism spectrum disorder diagnosis and treatment for individuals younger than 21 years. This is not the time to engage in new studies to assess the expansion of state-paid services, no matter how worthy. Therefore, I have vetoed Section 212(7).
Section 214(7), pages 124-125, Health Care Authority, Continuum of Care Pilot Project
This proviso directs the Health Care Authority to establish two pilot projects for low-income adults who are waiting for health care coverage from the Basic Health Plan. We are in the earliest stages of implementing national health care reform. At the same time, we struggle to maintain the state safety net in very difficult budget times. I need the Health Care Authority to focus on these two tasks. For this reason, I have vetoed Section 214(7).

Section 214(8), page 125, Health Care Authority, Nonsubsidized Basic Health Plan
The proviso directs the Health Care Authority, should it offer Basic Health Plan coverage to non-subsidized clients, to provide information concerning other health care coverage options. This requirement creates an unfunded administrative burden. It also duplicates the provision of such information currently available from the Office of the Insurance Commissioner. For this reason, I have vetoed Section 214(8).

Section 221(21), page 140, Department of Health, Funding for Nursing Commission Programs Related to Discipline, Impaired Practitioners and Expedited Credentials
This proviso, in combination with Section 926, reduces the library access surcharge applied to certification fees for nursing professionals. The surcharge, which all health professions pay, is used to provide access to health care literature through the University of Washington. This critical resource allows providers the opportunity to learn of best practices used in their professions and furthers the ongoing education of all health care professionals. While I support the purposes for which this funding would have been diverted, this funding source should continue to be dedicated to advancing the use of evidence-based health care practices in Washington. For this reason, I have vetoed Section 221(21).

Section 221(28), page 141, Department of Health, Tobacco Cessation Program Reductions
This proviso requires ten percent of every tobacco cessation program contract be directed for addressing minority populations. This proviso is unnecessary because the Tobacco Cessation Program in the aggregate spends eighteen percent of its resources to serve these target populations. Therefore, I have vetoed Section 221(28).

Section 223(2)(h), pages 144-145, Department of Corrections, Report on Earned Release Date
This proviso directs the Department of Corrections to submit a report by June 1, 2010, addressing issues related to the release of offenders on the earned release date. This task cannot be completed in the short timeframe specified in the proviso. Therefore, I have vetoed Section 223(2)(h) and am directing the Department to submit its report to the Office of Financial Management and legislative fiscal committees by August 1, 2010. The Department will use this report to identify strategies to reduce the recent increase in the number of offenders held beyond their earned release dates, while maintaining public safety as a priority.

Section 303(3), pages 160-161, State Parks and Recreation Commission, Park Closure Language
Current budget language is revised to eliminate the provision that state parks may be closed if donation revenue is insufficient for ongoing operations. While this change does not appear to create an absolute prohibition on the closure of state parks, the revised language may create that impression. This would severely limit the agency’s ability to manage state parks in the event that revenues drop below appropriated levels. For this reason, I have vetoed Section 303(3).

Section 303(4), page 161, State Parks and Recreation Commission, Restriction Closure of Tolmie State Park
This proviso prohibits the State Parks and Recreation Commission from closing Tolmie State Park. I have encouraged the Commission to continue pursuing the transfer of certain state parks in the event that revenues decrease to manage the statewide parks system within budget. The Commission needs to retain this flexibility. For these reasons, I have vetoed Section 303(4).

Section 304(4), page 162, Recreation and Conservation Funding Board, Extension of the Biodiversity Council
This proviso extends the Biodiversity Council for one year, through the end of Fiscal Year 2011. While I strongly support the work of the Biodiversity Council, I am asking the Natural Resources Cabinet to absorb the Council’s oversight role. As we undergo the process of natural resources reform, the Natural Resources Cabinet will assume many leadership roles previously performed by other entities. For these reasons, I have vetoed Section 304(4).

Section 306(2), page 163, State Conservation Commission, Infrastructure Improvements Related to Wildlife Habitat
This proviso dedicates $38,000 of the General Fund-State for improving infrastructure on state-owned lands in Kittitas County. While habitat improvements are an important step in managing the balance between wildlife conservation and grazing rights, funding for this endeavor can be pursued via other means, including State Conservation Commission grants, local conservation district funding, and private sources. The state’s current and projected fiscal environment necessitates spending on essential services and programs. For these reasons, I have vetoed Section 306(2).
Section 308(15), page 173, Department of Natural Resources, Excluding Shellfish Growers from the Department’s Aquatic Habitat Conservation Plan

This proviso requires the Department of Natural Resources to exclude shellfish growers from its aquatic Habitat Conservation Plan if those growers have been issued a federal nationwide or individual permit. The Department and the shellfish industry have signed a Memorandum of Understanding which requires the Department and shellfish growers to finalize an agreement on shellfish aquaculture activities before the aquatic Habitat Conservation Plan is finalized. Because this is a collaborative effort, it would be inappropriate for the proviso to place restrictions on the unfinished product. For this reason, I have vetoed Section 308(15).

Section 501(1)(b), pages 182-183, Office of the Superintendent of Public Instruction, School District Reorganization Commission

This proviso creates a statewide commission on school district reorganization. I want school districts to focus their maximum attention on the immediate priorities of improving student learning and successfully implementing the next phase of education reforms. The charge to the Commission created in this proviso is very broad, and funding provided to the Office of the Superintendent of Public Instruction is insufficient to achieve the mandates of the proviso. For these reasons, I have vetoed Section 501(1)(b). The Joint Legislative Audit and Review Committee is conducting a study of the relationship between the cost of school districts and their enrollment size. Upon completion of its report, I encourage the Legislature and the Office of the Superintendent to explore opportunities for a focused review of school district organization.

Section 501(1)(f)(iv), page 185, Office of the Superintendent of Public Instruction, Exempting the Professional Educator Standards Board from Expenditure Restrictions

This section exempts the Professional Educator Standards Board from the restrictions on travel allowances and meeting costs that apply to other boards and commissions under Chapter 7, Laws of 2010, First Extraordinary Session (Engrossed Second Substitute House Bill No. 2617). This law allows agencies to seek exceptions to the travel and meeting restrictions for critically necessary work. To maintain consistency in the application of these restrictions among state boards and commissions, I have vetoed Section 501(1)(f)(iv).

Section 604(7), pages 243-244, University of Washington, Telecommunications Report

This subsection provides $183,000 to the Technology Law and Public Policy Center at the University of Washington School of Law to prepare a report analyzing trends in the telecommunications industry and pathways for telecommunications reform. This work overlaps with the functions of the state Utilities and Transportation Commission. This expenditure does not meet the highest priorities of state government at this time. Therefore I have vetoed Section 604(7).

Section 605(5), page 246, Washington State University, Business and Entrepreneurial Development Program Plan

This subsection provides $100,000 to the Small Business Development Center at Washington State University to develop a state plan for coordination of small business and entrepreneurial development programs. Expenditure of funds on this effort does not meet the highest priorities of state government at this time. Therefore I have vetoed Section 605(5).

Section 708, pages 270-271, Washington Management Service and Exempt Management Services Reductions

This section ties to Section 2 of Engrossed Senate Bill No. 6503, which I have vetoed. The budget proviso assumes additional compensation reductions of $10 million in General Fund-State funding from Washington Management Service and exempt managers, who comprise less than five percent of state employees. This cut would require that specified staff take nearly two weeks of temporary layoff time beyond the ten days included in ESB 6503. This inequity is likely to create problems in recruiting and retaining qualified and experienced workers, as well as be disruptive to normal state operations. Managers will be subject to temporary layoffs in the same proportion as all affected state employees. For these reasons, I have vetoed Section 708.

Section 717, pages 276-278, Agency Reallocation and Realignment of Washington Commission

Section 717 creates the Agency Reallocation and Realignment of Washington Commission. Its responsibilities would include examining current state operations and organization, and making proposals to reduce expenditures and to eliminate duplication and overlapping services. The sum of $250,000 in General Fund-State dollars is provided for this purpose. While I strongly support these goals, there are programs that address the same concerns, most notably the Joint Legislative Audit and Review Committee, the Office of the State Auditor’s performance audit program, the Governor’s Government Management, Accountability, and Performance program, and the Office of Financial Management’s Priorities of Government budget development process. I hope to have further discussions with legislative leadership to identify ways to address these issues within existing structures and resources. For these reasons, I have vetoed Section 717.
Section 803, page 281, line 38, and page 282, lines 1-11, Transfers from the Tobacco Settlement Account to the General Fund and the Life Sciences Discovery Fund
This transfer decreases funding for critical life sciences research by $16.2 million, representing a 76 percent biennial reduction when coupled with the $26 million reduction to the fund in the enacted 2009-11 biennial budget. In order to implement this level of reduction, the Life Sciences Discovery Authority would have to discontinue any future state grants for critical life sciences research. Funding at the current level is vital to accomplishing the state’s Life Sciences Research and Development goal of tripling the State’s life sciences research base and creating more than 20,000 new jobs. For this reason, I have vetoed Section 803, page 281, line 38, and page 282, lines 1 through 11.

Section 803, page 283, lines 20-22, Transfer from the Budget Stabilization Account to the General Fund
The transfers required by this budget appropriation were intended to take place if the Budget Stabilization Account transfers in House Bill 3197 did not occur. Since that measure passed and has been signed into law, the transfer is void. For this reason, I have vetoed Section 803, page 283, lines 20-22.

Section 803, page 283, lines 23-27, Transfer from the Liquor Revolving Account to the General Fund
This transfer is associated with a provision in Section 939 that allows restaurants and bars an exemption from paying a price increase on spirits. Since I have vetoed Section 939, I am also vetoing Section 803, page 283, lines 23-27.

Section 803, page 285, lines 28-31, Transfer from the Insurance Regulatory Account to the General Fund
This appropriation implements the transfer of $10 million from the Insurance Commissioner’s Regulatory Account to the General Fund-State authorized in Section 937. This transfer would place the Insurance Commissioner’s Regulatory Account into a cash deficit position beginning in Fiscal Year 2011. For this reason, I have vetoed Section 803, page 285, lines 28-31.

Section 902, pages 289-290, Agency Staffing Report
The agency staffing report required by Section 902 adds another layer of complexity to the data already required to be reported through allotment and accounting systems. The addition of monthly job class information adds immensely to agency workloads with seemingly minimal benefit. I am directing the Office of Financial Management to work with legislative fiscal staff to identify alternative reporting formats that can be useful without creating an unacceptable workload burden. For these reasons, I have vetoed Section 902.

Section 908, page 294, Electronic Renewal Notices
This proviso mandates that every state agency make all of its renewals electronic by July 1, 2012. While I support the customer convenience and potential cost savings from doing business by electronic means, we must first assess the question of whether agencies have the staffing and fiscal resources to accomplish this task. I will encourage all agencies to pursue electronic renewal options within their current budgets and to identify obstacles for possible consideration in the new biennial budget. For these reasons, I have vetoed Section 908.

Section 920, pages 301-302, Washington State Quality Awards
Section 920 accelerates the date by which agencies must apply to the Washington State quality Awards program. It also limits that requirement for agencies that have more than 300 full-time equivalent employees. A great deal of time and effort is required for a well-executed Washington State Quality Award application. The new date of June 30, 2010, is too short a timeframe, especially for large agencies that may have to submit multiple applications. For these reasons, I am vetoing Section 920, pages 301-302.

Section 926, pages 306-307, Use of Surcharge for Nursing Professional Credentials
Because I have vetoed the program enhancement (Section 221(21) supported by this funding, I am also vetoing Section 926, which authorizes the specific use of a portion of the existing surcharge on credential fees.

Section 937, pages 318-320, Authority for Transfer from the Insurance Regulatory Account to the General Fund
Section 937 amends RCW 48.02.190 and Section 1, Chapter 161, Laws of 2009, defining eligible uses of funds in the Insurance Commissioner’s Regulatory Account, by permitting a current biennium transfer of excess fund balance to the General Fund-State. Since I have vetoed the transfer in Section 803, I am also vetoing the authorization in Section 937.

Section 939, pages 323-324, Exemption for Restaurants and Bars from Temporary Mark-up on Spirits
Section 939 exempts restaurants and bars from paying any price increase made by the Washington State Liquor Control Board during the 2009-11 Biennium if that increase relates to General Fund-State transfers or additional liquor profit distributions. Exempting restaurants and bars would reduce budgeted revenue assumptions by $11 million. Of this amount, $5.5 million directly affects the General Fun-State and its programs. The remaining shortfall could necessitate an increase in the price consumers pay at liquor stores. Restaurant and bars already receive discounts in price and tax.
exemptions and it is inappropriate to provide additional discounts at the expense of state programs. For this reason, I have vetoed Section 939.

For these reasons, I have vetoed Sections 109; 117, page 17, lines 10-11; 127(27); 127(28); 127(31); 127(36); 127(38); 127(39); 129, page 35, lines 19-20; 129(3); 129(6); 131(2); 201(7); 204(3)(f); 205(1)(m); 205(1)(n); 205(1)(o); 205(1)(p); 205(1)(q); 206(20); 206(21); 207(2); 207(11); 209(14); 209(35); 209(38); 209(39); 209(40); 209(41); 209(42); 209(47); 212(6); 212(7); 214(7); 214(8); 221(21); 221(28); 223(2)(h); 303(3); 303(4); 304(4); 306(2); 308(15); 501(1)(b); 501(1)(f)(iv); 604(7); 605(5); 708; 717; 803, page 281, line 38, and page 282, lines 1-11; 803, page 283, lines 20-22; 803, page 283, lines 23-27; 803, page 285, lines 28-31; 902; 908; 920; 926; 937; and 939 of Engrossed Substitute Senate Bill No.6444.

With the exception of Sections 109; 117, page 17, lines 10-11; 127(27); 127(28); 127(31); 127(36); 127(38); 127(39); 129, page 35, lines 19-20; 129(3); 129(6); 131(2); 201(7); 204(3)(f); 205(1)(m); 205(1)(n); 205(1)(o); 205(1)(p); 205(1)(q); 206(20); 206(21); 207(2); 207(11); 209(14); 209(35); 209(38); 209(39); 209(40); 209(41); 209(42); 209(47); 212(6); 212(7); 214(7); 214(8); 221(21); 221(28); 223(2)(h); 303(3); 303(4); 304(4); 306(2); 308(15); 501(1)(b); 501(1)(f)(iv); 604(7); 605(5); 708; 717; 803, page 281, line 38, and page 282, lines 1-11; 803, page 283, lines 20-22; 803, page 283, lines 23-27; 803, page 285, lines 28-31; 902; 908; 920; 926; 937; and 939, Engrossed Substitute Senate Bill No.6444 is approved.

Respectfully submitted,
CHRISTINE O. GREGOIRE, Governor

MESSAGE FROM THE GOVERNOR
PARTIAL VETO ON ENGROSSED SUBSTITUTE SENATE BILL NO. 6872

May 4, 2010

To the Honorable President and Members,
The Senate of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Section 6, Engrossed Substitute Senate Bill No. 6872 entitled:

“AN ACT Relating to Medicaid nursing facility payments.”

This bill makes several changes to the nursing facility rate statute. Section 6 of this bill would reduce the financing allowance from 10 percent to 4 percent for assets purchased prior to May 17, 1999 and from 8.5 percent to 4 percent for assets purchased on or after May 17, 1999. These retroactive reductions in return on investments would apply to owners the state previously had urged to upgrade their facilities. Such changes could make additional needed investments unlikely.

For these reasons I have vetoed Section 6 of Engrossed Substitute Senate Bill No. 6872.

With the exception of Section 6, Engrossed Substitute Senate Bill No. 6872 is approved.

Respectfully submitted,
CHRISTINE O. GREGOIRE, Governor

Sincerely,

Narda Pierce

FULL AND UNCONDITIONAL PARDON
OF
LINDA M. HOFER

To All to Whom These Presents Shall Come, Greetings:

WHEREAS, in 1998 Joshua McAdams and Mitko Tanev were sailors stationed on the USS Kitty Hawk. Mr. McAdams and Mr. Tanev were visiting a nightclub in Seattle when they were approached by Linda Fromm (who later became known as Linda Hofer), age 19, and a juvenile co-defendant. Both women danced with Mr. McAdams and Mr. Tanev. At least one person saw Ms. Hofer stick her hand into the sailors’ pockets. After a few minutes of dancing, Ms. Hofer and her companion suddenly stopped dancing and walked away. They danced with other men in a similar fashion. Witnesses saw the two women go into the restroom of the nightclub and hide money in their clothing.

WHEREAS, after witnesses alerted the nightclub’s security to Ms. Hofer’s suspicious behavior, security personnel detained Ms. Hofer and her companion. Mr. Tanev later identified Ms. Hofer as one of the women with whom he had been dancing before he noticed his wallet was missing. Seattle police arrested Ms. Hofer and her co-defendant.

WHEREAS, on September 2, 1998, Ms. Hofer was convicted of First Degree Theft and sentenced to 35 days home detention, 12 months community supervision and ordered to pay restitution. Ms. Hofer has complied with the terms of her sentence, paid all ordered restitution and a Certificate and Order of Discharge was issued on September 20, 2000.

WHEREAS, Ms. Hofer states that she is deeply ashamed and sorry for what she did. She realizes that she broke the trust that her victims had for people and states that she could never do such a despicable thing again.

WHEREAS, Ms. Hofer petitioned for pardon of her conviction and appeared before the Clemency and Pardon Board (Board). Ms. Hofer admitted to the Board that she made a terrible mistake. She assured the Board, however, that she is not the same person that committed the crime twelve years ago.

WHEREAS, Ms. Hofer was accepted into the nursing program at Peninsula College in the fall of 2008. She acknowledged her conviction to the Nursing Advisor and explained that the conviction was clouding her ability to pursue her lifelong dream of working as a nurse. Ms. Hofer stated that she always enjoyed helping people and wanted nursing to be her career. She indicated a belief that she could make a better life for herself, her daughter, and her community by becoming a nurse. Faculty and staff rallied behind Ms. Hofer to support her in her goal. Ms. Hofer completed the nursing program in June of 2010.

WHEREAS, prior to committing the crime, Ms. Hofer was a Certified Nursing Assistant. Even though the conviction prevented her from working as a nursing assistant, she continued to renew her license every year in hopes that she could one day return to the nursing profession.

WHEREAS, Ms. Hofer’s Petition for Clemency was supported by numerous letters of support, including letters from Marca Davis, Nursing Program Director at Peninsula College; Jeffrey E. Mauger, Ph.D., Anthropology and Sociology Instructor at Peninsula College; Kathleen Murphy-Carey, Peninsula College Counselor, and a large support group consisting of faculty and staff members of Peninsula College who appeared before the Board in support of Ms. Hofer’s
Petition. Each expressed their belief that Ms. Hofer was reliable, diligent and capable, and very much focused on pursuing her educational goals. When questioned, each faculty member acknowledged a willingness to put his or her personal and professional reputation on the line to support Ms. Hofer.

WHEREAS, Ms. Hofer’s sole conviction twelve years ago provided the wake-up call that she needed as a young woman to get her life on track. She served her sentence, satisfied her financial obligations, expressed contrition for her actions and focused her energies on self-improvement. As a young mother, she enrolled in a nursing program and attracted the support of faculty and students at her school for her dedication and skill.

WHEREAS, the King County Prosecutor’s Office took no position regarding Ms. Hofer’s petition.

WHEREAS, I have reviewed all pertinent facts and circumstances surrounding this matter, the circumstances of the crime, and the favorable recommendation of the Washington State Clemency and Pardons Board. In light of the foregoing, I have determined that the best interests of justice will be served by this action.

NOW, THEREFORE, I, Christine O. Gregoire, by virtue of the power vested in me as Governor of the state of Washington, hereby grant to Linda M. Hofer, this full and unconditional pardon of her conviction of Theft in the First Degree so that she may pursue permanent and gainful employment.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the seal of the State of Washington to be affixed at Olympia on this 22nd day of June, A.D., two thousand and ten.

Christine Gregoire
Governor of Washington

FULL AND UNCONDITIONAL PARDON
OF
JOSE LOPEZ DOMINGUEZ

To All to Whom These Presents Shall Come, Greetings:

WHEREAS, on July 5, 1988, at age 24, Jose Lopez Dominguez was convicted of Possession of a Controlled Substance: Cocaine and sentenced to 49 days confinement, with credit for 49 days served, and 12 months community supervision.

WHEREAS, in 1988, Mr. Dominguez applied for residency through the National Amnesty Program which was designed to give illegal alien farm workers a chance at American citizenship. At the time, Mr. Dominguez was working in the farmlands of Yakima Valley and residing with another farm worker in a small cabin in Yakima while sending money home to his family in Mexico.

WHEREAS, on the morning of May 18, 1988, within weeks of applying for his residency, Mr. Dominguez was shaving with the front door of his cabin open. He had $778 in earnings saved and he was preparing to go play Bingo, his favorite pastime. Two men in plain street clothes appeared at his door and showed him their badges. They were accompanied by a uniformed Sheriff’s Deputy. Mr. Dominguez did not understand much English at the time, and because he did not have anything to hide, he allowed the men to enter his cabin.

WHEREAS, the officers began searching everything in the cabin, dumping sugar and coffee canisters, and going through and emptying all of the cabinets and shelves. The two plain clothed officers found nothing and left the cabin, leaving the Sheriff’s Deputy inside. A few moments later, the Sheriff’s Deputy announced that one of the shelves that had already been emptied needed to be searched again because he thought he had seen something. The two plain clothes officers searched the shelf again and this time came up with a small pouch of white substance. Mr. Dominguez was immediately arrested and his $778 was also confiscated. Mr. Dominguez states that he was confused and did not understand what he had done wrong.

WHEREAS, the events surrounding Mr. Dominguez’s arrest raise a question regarding his conviction for possession of a controlled substance. Nothing in Mr. Dominguez’s file indicates that law enforcement looked into the possibility that the drugs—found on a shelf that had been searched twice already—might have belonged to his roommate.
HISTORY OF GOVERNOR’S PARDONS AND COMMUTATIONS

WHEREAS, after spending 49 days in jail awaiting trial on the charge of Possession of a Controlled Substance, Mr. Dominguez entered into an *Alford* plea at the urging of his court appointed attorney. Mr. Dominguez indicated a desire to tell the Court that he was innocent of the charges, but his attorney advised him that if he did so, he would go back to jail; whereas, if he entered into the *Alford* plea, he would be released immediately. Mr. Dominguez was not released, but instead detained and later deported.

WHEREAS, since marrying his wife, who is a United States citizen, Mr. Dominguez has attempted to apply for citizenship. Mrs. Dominguez’s petition for him to immigrate to the United States was approved. However, Mr. Dominguez’s petition to adjust his status to that of a permanent resident was later denied based upon his 1988 conviction.

WHEREAS, Mr. Dominguez maintains that he has never used illegal drugs, or possessed, sold or offered for sale any illegal drugs. Mr. Dominguez had no offenses (drug related or otherwise) prior to his 1988 arrest nor in the subsequent twenty years. He has taught himself to read and speak English. He has been a very productive member of society, and he now faces being separated from his family by deportation because of a change in the immigration laws that came into effect after his 1988 conviction.

WHEREAS, August Hahn, a retired attorney from Yakima County addressed the Board in favor of Mr. Dominguez’s Petition. Mr. Hahn relayed that during the time of Mr. Dominguez’s conviction, Yakima County did not maintain a Public Defender’s Office, but retained private counsel who received a monthly retainer to handle a certain number of cases no matter what the workload involved in any given case. Mr. Hahn was one such attorney at that time. Mr. Hahn stated that after reviewing all of the facts, he believes that Mr. Dominguez was railroaded into the conviction.

WHEREAS, Mr. Dominguez’s stepson, Edwin Commet, also appeared on behalf of Mr. Dominguez. Mr. Commet has had 18 years of law enforcement experience in Yakima County since approximately 1987. During this time, Mr. Commet worked as a narcotics officer, among other assignments. Mr. Commet expressed to the Board that in all the years he has known Mr. Dominguez, he has never seen him angry, abuse alcohol, or use drugs of any sort. Mr. Dominguez’s wife also spoke to the Board and described Mr. Dominguez as the gentlest man she has ever known. He is a grandfather and great-grandfather to her children.

WHEREAS, I have reviewed all pertinent facts and circumstances surrounding this matter, the circumstances of the crime, and favorable recommendation of the Washington State Clemency and Pardons Board. In light of the foregoing, I have determined that the best interests of justice will be served by this action.

NOW, THEREFORE, I, Christine O. Gregoire, by virtue of the power vested in me as Governor of the state of Washington, hereby grant to Jose Lopez Dominguez, this full and unconditional pardon of his conviction of Possession of a Controlled Substance: Cocaine so that he may live with his family in the United States and pursue permanent and gainful employment.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the seal of the State of Washington to be affixed at Olympia on this 9th day of June, A.D., two thousand and ten.

FULL AND UNCONDITIONAL PARDON
OF
CHAN LY

To All to Whom These Presents Shall Come, Greetings:

WHEREAS, in 1995, at age 23, Chan Ly was employed as an assistant manager at a clothing store in Tacoma, Washington. In May 1995, a customer accidentally left her credit card behind after a purchase. During an internal investigation, it was discovered that Ms. Ly was ringing up sales using the credit card and two other sales clerks were...
WHEREAS, One June 22, 1995, Ms. Ly was convicted of First Degree Theft and sentenced to 32 days total confinement, with 24 months community supervision, and 240 hours of community service. Ms. Ly has complied with the terms of her sentence, paid all ordered restitution and a Certificate and Order of Discharge was issued on May 21, 2007.

WHEREAS, Ms. Ly expressed that she is deeply remorseful for her crimes. Ms. Ly stated that the conviction has shaped her life and explained that with her family in mind, knowing how much they need her, she has gone on to better herself. Ms. Ly is the first person in her family to attend college, and she has chosen to pursue the profession of a registered nurse. Ms. Ly has excelled in her program, achieving a high honors GPA of 3.83. She has attended night school while maintaining a full-time work schedule.

WHEREAS, Ms. Ly is a single mother of three daughters and resides in the same house as her elderly parents who both suffer chronic medical conditions. In addition to caring for her three daughters and her elderly parents, Ms. Ly also cares for her niece and two nephews. Mr. Ly is the main financial provider and support system for her extended family.

WHEREAS, Ms. Ly is currently a lawful permanent resident of the United States. Her conviction falls under the mandatory removal offense of the Immigration and Customs Enforcement. Although removal proceedings have not been initiated, Ms. Ly must renew her Permanent Resident Card every 10 years.

WHEREAS, Ms. Ly’s oldest daughter expressed how her mom has taught her to turn all choices into positive choices and how she cannot imagine not having her in her life. Nancy Novak, the Associate Dean of Nursing at Tacoma Community College (TCC) spoke to the Clemency & Pardons Board (Board) regarding the reasons she is supporting clemency for Ms. Ly. Ms. Novak said she was impressed by the fact that Ms. Ly owned up to her offense, did not attempt to justify it, and expressed extreme remorse for it. Ms. Novak told the Board that Ms. Ly had explained how it was critical to her that she be a positive role model for her family and children.

WHEREAS, Ms. Novak stated that although Ms. Ly has only completed one quarter of the nursing program, she has made a huge impression on the faculty, her colleagues, and staff at TCC. Ms. Novak explained that the nursing program is extremely competitive and she wants to see Ms. Ly in her program because she has demonstrated that she is caring, competent, and compassionate; displaying the skills that she wants to see in a nurse graduating from TCC. Out of 126 applicants in 2007, Ms. Ly was one of only 24 individuals to be offered a spot in the program.

WHEREAS, Ms. Ly’s Petition for Clemency was bolstered by numerous letters of support, including but not limited to letters from Julie Benson, Ms. Ly’s Theory Instructor; Quahlee Lassila, Ms. Ly’s clinical instructor; and Peggy Sargeant of Counseling, Advising and Transition Services; plus letters from many family members and friends.

WHEREAS, the Pierce County Prosecutor’s Office took no position regarding Ms. Ly’s petition.

WHEREAS, I have reviewed all pertinent facts and circumstances surrounding this matter, the circumstances of the crime, and the favorable recommendation of the Washington State Clemency and Pardons Board. In light of the foregoing, I have determined that the best interests of justice will be served by this action.

NOW, THEREFORE, I, Christine O. Gregoire, by virtue of the power vested in me as Governor of the State of Washington, hereby grant to Chan Ly, this full and unconditional pardon of her conviction of Theft in the First Degree so that she may pursue permanent and gainful employment.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the seal of the State of Washington to be affixed at Olympia on this 12th day of October, A.D., two thousand and nine.
