(5)(a) Only the department may approve or deny a water right application processed under this section, and such a final decision remains solely the responsibility and function of the department. The department retains full authority to amend, refuse, or approve any work product provided by any consultant under this section. The department may recover its costs related to: (i) The review of a consultant to ensure that no conflict of interest exists; (ii) the management of consultant contracts and cost-reimbursement agreements; and (iii) the review of work products provided by participating consultants.

(b) For any cost-reimbursement process initiated under subsection (1) of this section, the applicant may, after consulting with the department, select a prequalified consultant listed by the department under subsection (7) of this section or may be assigned such a prequalified consultant by the department.

(c) For any coordinated cost-reimbursement process initiated under subsection (3) of this section, the applicant may, after consulting with the department, select a prequalified consultant listed by the department under subsection (7) of this section or may be assigned a prequalified consultant by the department.

(d) In lieu of having one or more of the work products performed by a prequalified consultant listed under subsection (7) of

2010 REGULAR SESSION

this section, the department may, at its discretion, recognize specific work completed by an applicant or an applicant's consultant prior to the initiation of cost-reimbursement processing. The department may also, at its discretion, authorize the use of such a consultant to perform a specific scope of the work that would otherwise be assigned to prequalified consultants listed under subsection (7) of this section.

(e) At any point during the cost-reimbursement process, the department may request or accept technical information, data, and analysis from the applicant or the applicant's consultant to support the cost-reimbursement process or the department's decision on the application.

(6) The department is authorized to adopt rules or guidance providing minimum qualifications and standards for any consultant's submission of work products under this section, including standards for submission of technical information, scientific analysis, work product documentation, review for conflict of interest, and report presentation that such a consultant must meet.

(7) The department must provide notice to potential consultants of the opportunity to be considered for inclusion on the list of cost-reimbursement consultants to whom work assignments will be made. The department must competitively select an appropriate number of consultants who are qualified by training and experience to investigate and make recommendations on the disposition of water right applications. The prequalified consultant list must be renewed at least every six years, though the department may add qualified cost-reimbursement consultants to the list at any time. The department must enter a master contract with each consultant selected and thereafter make work assignments based on availability and qualifications.

(8) The department may remove any consultant from the consultant list for poor performance, malfeasance, or excessive complaints from cost-reimbursement participants. The department may interview any cost-reimbursement consultant to determine whether the person is qualified for this work, and must spot-check the work of consultants to ensure that the public is being competently served.

(9) When a prequalified cost-reimbursement consultant from the department's list described in subsection (7) of this section is assigned or selected to investigate an application or set of applications, the consultant must document its findings and recommended disposition in the form of written draft technical reports and preliminary draft reports of examination. Within two weeks of the department receiving draft technical reports and preliminary draft reports of examination, the department shall provide the applicant such documents for review and comment prior to their completion by the consultant. The department shall consider such comments by the applicant prior to the department's issuance of a draft report of examination. The department may modify the preliminary draft reports of examination submitted by the consultant. The department's decision on a permit application is final unless it is appealed to the pollution control hearings board under chapter 43.21B RCW.

(10) If an applicant elects not to participate in a cost-reimbursement process, the application remains on file with the department, retains its priority date, and may be processed under regular processing, priority processing, expedited processing, coordinated cost-reimbursement processing, cost-reimbursement processing, or through conservancy board processing as authorized under chapter 90.80 RCW.

**NEW SECTION. Sec. 4.** A new section is added to chapter 90.03 RCW to read as follows:

The water rights processing account is created in the state treasury. All receipts from the fees collected under sections 5, 7, and 12 of this act must be deposited into the account. Money in the

account may be spent only after appropriation. Expenditures from the account may only be used to support the processing of water right applications for a new appropriation, change, transfer, or amendment of a water right as provided in this chapter and chapters 90.42 and 90.44 RCW or for the examination, certification, and renewal of certification of water right examiners as provided in section 7 of this act.

**NEW SECTION. Sec. 5.** A new section is added to chapter 90.03 RCW to read as follows:

(1) The department may expedite processing of applications within the same source of water on its own volition when there is interest from a sufficient number of applicants or upon receipt of written requests from at least ten percent of the applicants within the same source of water.

(2) If the conditions of subsection (1) of this section have been met and the department determines that the public interest is best served by expediting applications within a water source, the department must notify in writing all persons who have pending applications on file for a new appropriation, change, transfer, or amendment of a water right from that water source. A water source may include surface water only, groundwater only, or surface and groundwater together if the department determines that they are hydraulically connected. The notice must be posted on the department's web site and published in a newspaper of general circulation in the area where affected properties are located. The notice must also be made individually by way of mail to:

(a) Inform those applicants that expedited processing of applications within the described water source is being initiated;

(b) Provide to individual applicants the criteria under which the applications will be examined and determined;

(c) Provide to individual applicants the estimated cost for having an application processed on an expedited basis;

(d) Provide an estimate of how long the expedited process will take before an application is approved or denied; and

(e) Provide at least sixty days for the applicants to respond in writing regarding the applicant's decision to participate in the expedited processing of their applications.

(3) In addition to the application fees provided in RCW 90.03.470, the department must recover the full cost of processing all the applications from applicants who elect to participate within the water source through expedited processing fees. The department must calculate an expedited processing fee based primarily on the proportionate quantity of water requested by each applicant and may adjust the fee if it appears that the application will require a disproportionately greater amount of time and effort to process due to its complexity. Any application fees that were paid by the applicant under RCW 90.03.470 must be credited against the applicant's share of the cost of processing applications under the provisions of this section.

(4) The expedited processing fee must be collected by the department prior to the expedited processing of an application. Revenue collected from these fees must be deposited into the water rights processing account created in section 4 of this act. An applicant who has stated in writing that he or she wants his or her application processed using the expedited procedures in this section must transmit the processing fee within sixty days of the written request. Failure to do so will result in the applicant not being included in expedited processing for that water source.

(5) If an applicant elects not to participate in expedited processing, the application remains on file with the department, the applicant retains his or her priority date, and the application may be processed through regular processing, priority processing, expedited processing, coordinated cost-reimbursement processing, cost-reimbursement processing, or through conservancy board processing as authorized under chapter 90.80 RCW. Such an

SIXTIETH DAY, MARCH 11, 2010

application may not be processed through expedited processing within twelve months after the department's issuance of decisions on participating applications at the conclusion of expedited processing unless the applicant agrees to pay the full proportionate share that would otherwise have been paid during such processing. Any proceeds collected from an applicant under this delayed entry into expedited processing shall be used to reimburse the other applicants who participated in the previous expedited processing of applications, provided sufficient proceeds remain to fully cover the department's cost of processing the delayed entry application and the department's estimated administrative costs to reimburse the previously expedited applicants.

**NEW SECTION. Sec. 6.** A new section is added to chapter 90.03 RCW to read as follows:

The department must post notice on its web site and provide additional electronic notice and opportunity for comment to affected federally recognized tribal governments concurrently when providing notice to applicants under RCW 90.03.265 and sections 5 and 12 of this act.

**NEW SECTION. Sec. 7.** A new section is added to chapter 90.03 RCW to read as follows:

(1) The department shall establish and maintain a list of certified water right examiners. Certified water right examiners on the list are eligible to perform final proof examinations of permitted water uses leading to the issuance of a water right certificate under RCW 90.03.330. The list must be updated annually and must be made available to the public through written and electronic media.

(2) In order to qualify, an individual must be registered in Washington as a professional engineer, professional land surveyor, or registered hydrogeologist, or an individual must demonstrate at least five years of applicable experience to the department, or be a board member of a water conservancy board. Qualified individuals must also pass a written examination prior to being certified by the department. Such an examination must be administered by either the department or an entity formally approved by the department. Each certified water right examiner must demonstrate knowledge and competency regarding:

- (a) Water law in the state of Washington;
- (b) Measurement of the flow of water through open channels and enclosed pipes;
- (c) Water use and water level reporting;
- (d) Estimation of the capacity of reservoirs and ponds;
- (e) Irrigation crop water requirements;
- (f) Aerial photo interpretation;
- (g) Legal descriptions of land parcels;
- (h) Location of land and water infrastructure through the use of maps and global positioning;
- (i) Proper construction and sealing of well bores; and
- (j) Other topics related to the preparation and certification of water rights in Washington state.

(3) Except as provided in subsection (9) of this section, upon completion of a water appropriation and putting water to beneficial use, in order to receive a final water right certificate, the permit holder must secure the services of a certified water right examiner who has been tested and certified by the department. The examiner shall carry out a final examination of the project to verify its completion and to determine and document for the permit holder and the department the amount of water that has been appropriated for beneficial use, the location of diversion or withdrawal and conveyance facilities, and the actual place of use. The examiner shall take measurements or make estimates of the maximum diversion or withdrawal, the capacity of water storage facilities, the acreage irrigated, the type and number of residences served, the type and number of stock watered, and other information relevant to making a final determination of the amount of water beneficially

used. The examiner shall take photographs of the facilities to document the use or uses of water and the photographs must be submitted with the examiner's report to the department. The department shall specify the format and required content of the reports and may provide a form for that purpose.

(4) The department may suspend or revoke a certification based on poor performance, malfeasance, failure to acquire continuing education credits, or excessive complaints from the examiner's customers. The department may require the retesting of an examiner. The department may interview any examiner to determine whether the person is qualified for this work. The department shall spot-check the work of examiners to ensure that the public is being competently served. Any person aggrieved by an order of the department including the granting, denial, revocation, or suspension of a certificate issued by the department under this chapter may appeal pursuant to chapter 43.21B RCW.

(5) The decision regarding whether to issue a final water right certificate is solely the responsibility and function of the department.

(6) The department shall make its final decision under RCW 90.03.330 within sixty days of the date of receipt of the proof of examination from the certified water right examiner, unless otherwise requested by the applicant or returned for correction by the department. The department may return an initial proof of examination for correction within thirty days of the department's receipt of such initial proof from a certified water right examiner. Such proof must be returned to both the certified water right examiner and the applicant. Within thirty days of the department's receipt of such returned proof from the certified water right examiner, the department shall make its final decision under RCW 90.03.330, unless otherwise requested by the applicant.

(7) Each certified water right examiner must complete eight hours annually of qualifying continuing education in the water resources field. The department shall determine and specify the qualifying continuing education and shall inform examiners of the opportunities. The department shall track whether examiners are current in their continuing education and may suspend the certification of an examiner who has not complied with the continuing education requirement.

(8) Each certified water right examiner must be bonded for at least fifty thousand dollars.

(9) The department may waive the requirement to secure the services of a certified water right examiner in situations in which the department has already conducted a final proof of examination or finds it unnecessary for purposes of issuing a certificate of water right.

(10) The department shall establish and collect fees for the examination, certification, and renewal of certification of water right examiners. Revenue collected from these fees must be deposited into the water rights processing account created in section 4 of this act. Pursuant to RCW 43.135.055, the department is authorized to set fees for examination, certification, and renewal of certification for water right examiners.

(11) The department may adopt rules appropriate to carry out the purposes of this section.

**Sec. 8.** RCW 90.14.065 and 1987 c 93 s 1 are each amended to read as follows:

**(1)(a)** Any person or entity, or successor to such person or entity, having a statement of claim on file with the water rights claims registry ~~((on April 20, 1987))~~ may submit to the department of ecology for filing ~~((;))~~ an amendment to such a statement of claim if the submitted amendment is based on:

~~((+))~~ **(i)** An error in estimation of the quantity of the applicant's water claim prescribed in RCW 90.14.051 if the applicant provides reasons for the failure to claim such right in the original claim;

SIXTIETH DAY, MARCH 11, 2010

2010 REGULAR SESSION

~~((2))~~ (ii) A change in circumstances not foreseeable at the time the original claim was filed, if such change in circumstances relates only to the manner of transportation or diversion of the water and not to the use or quantity of such water; or

~~((3))~~ (iii) The amendment is ministerial in nature.

(b) The department shall accept any such submission and file the same in the registry unless the department by written determination concludes that the requirements of (a)(i), (ii), or (iii) of this subsection ~~((1), (2), or (3) of this section))~~ have not been satisfied.

(2) In addition to subsection (1) of this section, a surface water right claim may be changed or transferred in the same manner as a permit or certificate under RCW 90.03.380, and a water right claim for groundwater may be changed or transferred as provided under RCW 90.03.380 and 90.44.100.

(3) Any person aggrieved by a determination of the department may obtain a review thereof by filing a petition for review with the pollution control hearings board within thirty days of the date of the determination by the department. The provisions of RCW 90.14.081 shall apply to any amendment filed or approved under this section.

**Sec. 9.** RCW 90.44.100 and 2009 c 183 s 16 are each amended to read as follows:

(1) After an application to, and upon the issuance by the department of an amendment to the appropriate permit or certificate of groundwater right, the holder of a valid right to withdraw public groundwaters may, without losing the holder's priority of right, construct wells or other means of withdrawal at a new location in substitution for or in addition to those at the original location, or the holder may change the manner or the place of use of the water.

(2) An amendment to construct replacement or a new additional well or wells at a location outside of the location of the original well or wells or to change the manner or place of use of the water shall be issued only after publication of notice of the application and findings as prescribed in the case of an original application. Such amendment shall be issued by the department only on the conditions that: (a) The additional or replacement well or wells shall tap the same body of public groundwater as the original well or wells; (b) where a replacement well or wells is approved, the use of the original well or wells shall be discontinued and the original well or wells shall be properly decommissioned as required under chapter 18.104 RCW; (c) where an additional well or wells is constructed, the original well or wells may continue to be used, but the combined total withdrawal from the original and additional well or wells shall not enlarge the right conveyed by the original permit or certificate; and (d) other existing rights shall not be impaired. The department may specify an approved manner of construction and shall require a showing of compliance with the terms of the amendment, as provided in RCW 90.44.080 in the case of an original permit.

(3) The construction of a replacement or new additional well or wells at the location of the original well or wells shall be allowed without application to the department for an amendment. However, the following apply to such a replacement or new additional well: (a) The well shall tap the same body of public groundwater as the original well or wells; (b) if a replacement well is constructed, the use of the original well or wells shall be discontinued and the original well or wells shall be properly decommissioned as required under chapter 18.104 RCW; (c) if a new additional well is constructed, the original well or wells may continue to be used, but the combined total withdrawal from the original and additional well or wells shall not enlarge the right conveyed by the original water use permit or certificate; (d) the construction and use of the well shall not interfere with or impair water rights with an earlier date of priority than the water right or rights for the original well or wells; (e) the replacement or additional well shall be located no closer than the original well to a well it

might interfere with; (f) the department may specify an approved manner of construction of the well; and (g) the department shall require a showing of compliance with the conditions of this subsection (3).

(4) As used in this section, the "location of the original well or wells" of a water right permit or certificate is the area described as the point of withdrawal in the original public notice published for the application for the water right for the well. The location of the original well or wells of a water right claim filed under chapter 90.14 RCW is the area located within a one-quarter mile radius of the current well or wells.

(5) The development and use of a small irrigation impoundment, as defined in RCW 90.03.370(8), does not constitute a change or amendment for the purposes of this section. The exemption expressly provided by this subsection shall not be construed as requiring an amendment of any existing water right to enable the holder of the right to store water governed by the right.

(6) This section does not apply to a water right involved in an approved local water plan created under RCW 90.92.090 or a banked water right under RCW 90.92.070.

**Sec. 10.** RCW 90.44.100 and 2003 c 329 s 3 are each amended to read as follows:

(1) After an application to, and upon the issuance by the department of an amendment to the appropriate permit or certificate of groundwater right, the holder of a valid right to withdraw public groundwaters may, without losing the holder's priority of right, construct wells or other means of withdrawal at a new location in substitution for or in addition to those at the original location, or the holder may change the manner or the place of use of the water.

(2) An amendment to construct replacement or a new additional well or wells at a location outside of the location of the original well or wells or to change the manner or place of use of the water shall be issued only after publication of notice of the application and findings as prescribed in the case of an original application. Such amendment shall be issued by the department only on the conditions that: (a) The additional or replacement well or wells shall tap the same body of public groundwater as the original well or wells; (b) where a replacement well or wells is approved, the use of the original well or wells shall be discontinued and the original well or wells shall be properly decommissioned as required under chapter 18.104 RCW; (c) where an additional well or wells is constructed, the original well or wells may continue to be used, but the combined total withdrawal from the original and additional well or wells shall not enlarge the right conveyed by the original permit or certificate; and (d) other existing rights shall not be impaired. The department may specify an approved manner of construction and shall require a showing of compliance with the terms of the amendment, as provided in RCW 90.44.080 in the case of an original permit.

(3) The construction of a replacement or new additional well or wells at the location of the original well or wells shall be allowed without application to the department for an amendment. However, the following apply to such a replacement or new additional well: (a) The well shall tap the same body of public groundwater as the original well or wells; (b) if a replacement well is constructed, the use of the original well or wells shall be discontinued and the original well or wells shall be properly decommissioned as required under chapter 18.104 RCW; (c) if a new additional well is constructed, the original well or wells may continue to be used, but the combined total withdrawal from the original and additional well or wells shall not enlarge the right conveyed by the original water use permit or certificate; (d) the construction and use of the well shall not interfere with or impair water rights with an earlier date of priority than the water right or rights for the original well or wells; (e) the replacement or additional well shall be located no closer than the original well to a well it

might interfere with; (f) the department may specify an approved manner of construction of the well; and (g) the department shall require a showing of compliance with the conditions of this subsection (3).

(4) As used in this section, the "location of the original well or wells" of a water right permit or certificate is the area described as the point of withdrawal in the original public notice published for the application for the water right for the well. The location of the original well or wells of a water right claim filed under chapter 90.14 RCW is the area located within a one-quarter mile radius of the current well or wells.

(5) The development and use of a small irrigation impoundment, as defined in RCW 90.03.370(8), does not constitute a change or amendment for the purposes of this section. The exemption expressly provided by this subsection shall not be construed as requiring an amendment of any existing water right to enable the holder of the right to store water governed by the right.

NEW SECTION. Sec. 11. A new section is added to chapter 90.44 RCW to read as follows:

Applications to appropriate groundwater under a cost-reimbursement agreement must be processed in accordance with RCW 90.03.265 when an applicant requests the assignment of a cost-reimbursement consultant as provided in RCW 43.21A.690.

NEW SECTION. Sec. 12. A new section is added to chapter 90.44 RCW to read as follows:

(1) The department may expedite processing of applications within the same source of water on its own volition when there is interest from a sufficient number of applicants or upon receipt of written requests from at least ten percent of the applicants within the same source of water.

(2) If the conditions of subsection (1) of this section have been met and the department determines that the public interest is best served by expediting applications within a water source, the department must notify in writing all persons who have pending applications on file for a new appropriation, change, transfer, or amendment of a water right from that water source. A water source may include surface water only, groundwater only, or surface and groundwater together if the department determines that they are hydraulically connected. The notice must be posted on the department's web site and published in a newspaper of general circulation in the area where affected properties are located. The notice must also be made individually by way of mail to:

(a) Inform those applicants that expedited processing of applications within the described water source is being initiated;

(b) Provide to individual applicants the criteria under which the applications will be examined and determined;

(c) Provide to individual applicants the estimated cost for having an application processed on an expedited basis;

(d) Provide an estimate of how long the expedited process will take before an application is approved or denied; and

(e) Provide at least sixty days for the applicants to respond in writing regarding the applicant's decision to participate in expedited processing of their applications.

(3) In addition to the application fees provided in RCW 90.03.470, the department must recover the full cost of processing all the applications from applicants who elect to participate within the water source through expedited processing fees. The department must calculate an expedited processing fee based primarily on the proportionate quantity of water requested by each applicant and may adjust the fee if it appears that an application will require a disproportionately greater amount of time and effort to process due to its complexity. Any application fees that were paid by the applicant under RCW 90.03.470 must be credited against the applicant's share of the cost of processing applications under the provisions of this section.

(4) The expedited processing fee must be collected by the department prior to the expedited processing of an application. Revenue collected from these fees must be deposited into the water rights processing account created in section 4 of this act. An applicant who has stated in writing that he or she wants his or her application processed using the expedited procedures in this section must transmit the processing fee within sixty days of the written request. Failure to do so will result in the applicant not being included in expedited processing for that water source.

(5) If an applicant elects not to participate in expedited processing, the application remains on file with the department, the applicant retains his or her priority date, and the application may be processed through regular processing, priority processing, expedited processing, coordinated cost-reimbursement processing, cost-reimbursement processing, or through conservancy board processing as authorized under chapter 90.80 RCW. Such an application may not be processed through expedited processing within twelve months after the department's issuance of decisions on participating applications at the conclusion of expedited processing unless the applicant agrees to pay the full proportionate share that would otherwise have been paid during such processing. Any proceeds collected from an applicant under this delayed entry into expedited processing shall be used to reimburse the other applicants who participated in the previous expedited processing of applications, provided sufficient proceeds remain to fully cover the department's cost of processing the delayed entry application and the department's estimated administrative costs to reimburse the previously expedited applicants.

NEW SECTION. Sec. 13. A new section is added to chapter 90.03 RCW to read as follows:

Nothing in this act affects or diminishes the processing of water right applications under any other existing authority, including but not limited to existing authority for the priority processing of applications by the department.

NEW SECTION. Sec. 14. Section 9 of this act expires June 30, 2019.

NEW SECTION. Sec. 15. Section 10 of this act takes effect June 30, 2019.

NEW SECTION. Sec. 16. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected."

Correct the title.  
and the same are herewith transmitted.

#### MESSAGE FROM THE HOUSE

March 11, 2010

MR. PRESIDENT:

The House receded from its amendment(s) to ENGROSSED SUBSTITUTE SENATE BILL NO. 6604. Under suspension of the rules, the bill was returned to second reading for the purpose of an amendment. The House adopted the following amendment: 6604-S.E AMH MAXW MCLA 586, and passed the bill as amended by the House.

Strike everything after the enacting clause and insert the following:

"Sec. 1. RCW 28A.655.061 and 2009 c 524 s 5 are each amended to read as follows:

(1) The high school assessment system shall include but need not be limited to the Washington assessment of student learning, opportunities for a student to retake the content areas of the assessment in which the student was not successful, and if approved by the legislature pursuant to subsection (10) of this section, one or more objective alternative assessments for a student to demonstrate achievement of state academic standards. The objective alternative assessments for each content area shall be comparable in rigor to the skills and knowledge that the student must demonstrate on the Washington assessment of student learning for each content area.

(2) Subject to the conditions in this section, a certificate of academic achievement shall be obtained by most students at about the age of sixteen, and is evidence that the students have successfully met the state standard in the content areas included in the certificate. With the exception of students satisfying the provisions of RCW 28A.155.045 or 28A.655.0611, acquisition of the certificate is required for graduation from a public high school but is not the only requirement for graduation.

(3) Beginning with the graduating class of 2008, with the exception of students satisfying the provisions of RCW 28A.155.045, a student who meets the state standards on the reading, writing, and mathematics content areas of the high school Washington assessment of student learning shall earn a certificate of academic achievement. If a student does not successfully meet the state standards in one or more content areas required for the certificate of academic achievement, then the student may retake the assessment in the content area up to four times at no cost to the student. If the student successfully meets the state standards on a retake of the assessment then the student shall earn a certificate of

academic achievement. Once objective alternative assessments are authorized pursuant to subsection (10) of this section, a student may use the objective alternative assessments to demonstrate that the student successfully meets the state standards for that content area if the student has taken the Washington assessment of student learning at least once. If the student successfully meets the state standards on the objective alternative assessments then the student shall earn a certificate of academic achievement.

(4) Beginning no later than with the graduating class of 2013, a student must meet the state standards in science in addition to the other content areas required under subsection (3) of this section on the Washington assessment of student learning or the objective alternative assessments in order to earn a certificate of academic achievement. The state board of education may adopt a rule that implements the requirements of this subsection (4) beginning with a graduating class before the graduating class of 2013, if the state board of education adopts the rule by September 1st of the freshman school year of the graduating class to which the requirements of this subsection (4) apply. The state board of education's authority under this subsection (4) does not alter the requirement that any change in performance standards for the tenth grade assessment must comply with RCW 28A.305.130.

(5) The state board of education may not require the acquisition of the certificate of academic achievement for students in home-based instruction under chapter 28A.200 RCW, for students enrolled in private schools under chapter 28A.195 RCW, or for students satisfying the provisions of RCW 28A.155.045.

(6) A student may retain and use the highest result from each successfully completed content area of the high school assessment.

(7) School districts must make available to students the following options:

(a) To retake the Washington assessment of student learning up to four times in the content areas in which the student did not meet the state standards if the student is enrolled in a public school; or

(b) To retake the Washington assessment of student learning up to four times in the content areas in which the student did not meet the state standards if the student is enrolled in a high school completion program at a community or technical college. The superintendent of public instruction and the state board for community and technical colleges shall jointly identify means by which students in these programs can be assessed.

SECOND READING

SIXTIETH DAY, MARCH 11, 2010

2010 REGULAR SESSION

SUBSTITUTE HOUSE BILL NO. 2776, by House Committee on Education Appropriations (originally sponsored by Representatives Sullivan, Priest, Maxwell, Dammeier, Carlyle, Finn, Anderson, Eddy, Nelson, Goodman, Orwall, Hunter, Simpson, Jacks, Kagi, Ormsby, Morrell, Probst and Santos)

teacher-to-student ratio or other staff-to-student ratio or to use allocated funds to pay for particular types or classifications of staff. Nothing in this section entitles an individual teacher to a particular teacher planning period.

Regarding funding distribution formulas for K-12 education.

(3)(a) To the extent the technical details of the formula have been adopted by the legislature and except when specifically provided as a school district allocation, the distribution formula for the basic education instructional allocation shall be based on minimum staffing and nonstaff costs the legislature deems necessary to support instruction and operations in prototypical schools serving high, middle, and elementary school students as provided in this section. The use of prototypical schools for the distribution formula does not constitute legislative intent that schools should be operated or structured in a similar fashion as the prototypes. Prototypical schools illustrate the level of resources needed to operate a school of a particular size with particular types and grade levels of students using commonly understood terms and inputs, such as class size, hours of instruction, and various categories of school staff. It is the intent that the funding allocations to school districts be adjusted from the school prototypes based on the actual number of annual average full-time equivalent students in each grade level at each school in the district and not based on the grade-level configuration of the school to the extent that data is available. The allocations shall be further adjusted from the school prototypes with minimum allocations for small schools and to reflect other factors identified in the omnibus appropriations act.

The measure was read the second time.

MOTION

Senator McAuliffe moved that the following striking amendment by Senator McAuliffe and others be adopted:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. (1) It is the legislature's intent to continue implementation of chapter 548, Laws of 2009, by adopting the technical details of a new distribution formula for the instructional program of basic education and authorizing a phase-in of implementation of a new distribution formula for pupil transportation, both to take effect during the 2011-2013 biennium. Unless otherwise stated, the numeric values adopted in section 2 of this act represent the translation of 2009-2010 state funding levels for the basic education act into the funding factors of the prototypical school funding formula, based on the expert advice and extensive work of the funding formula technical working group established by the legislature for this purpose. The legislature intends to continue to review and revise the formulas and may make revisions as necessary for technical purposes and consistency in the event of mathematical or other technical errors.

(b) For the purposes of this section, prototypical schools are defined as follows:

(i) A prototypical high school has six hundred average annual full-time equivalent students in grades nine through twelve;

(ii) A prototypical middle school has four hundred thirty-two average annual full-time equivalent students in grades seven and eight; and

(iii) A prototypical elementary school has four hundred average annual full-time equivalent students in grades kindergarten through six.

(2) The legislature intends that per-pupil basic education funding for a school district shall not be decreased as a result of the transition of basic education funding formulas in effect during the 2009-2011 biennium to the new funding formulas under RCW 28A.150.260 that take effect during the 2011-2013 biennium.

~~((e))~~ (4)(a) The minimum allocation for each level of prototypical school shall be based on the number of full-time equivalent classroom teachers needed to provide instruction over the minimum required annual instructional hours under RCW 28A.150.220 and provide at least one teacher planning period per school day, and based on ~~((a))~~ the following general education average class size ~~((as specified in the omnibus appropriations act.))~~ of full-time equivalent students per teacher:

(3) It is also the legislature's intent to adopt an implementation schedule for phasing-in enhancements to the baseline funding levels of 2009-10 beginning in the 2011-2013 biennium for pupil transportation, class size allocations for grades kindergarten through three, full-day kindergarten, and allocations for maintenance, supplies, and operating costs.

(4) Finally, it is the legislature's intent to adjust the timelines for other working groups so that their expertise and advice can be received as soon as possible and to make technical adjustments to certain provisions of chapter 548, Laws of 2009.

Sec. 2. RCW 28A.150.260 and 2009 c 548 s 106 are each amended to read as follows:

The purpose of this section is to provide for the allocation of state funding that the legislature deems necessary to support school districts in offering the minimum instructional program of basic education under RCW 28A.150.220. The allocation shall be determined as follows:

(b) During the 2011-2013 biennium and beginning with schools with the highest percentage of students eligible for free and reduced-price meals in the prior school year, the general education average class size for grades K-3 shall be reduced until the average class size funded under this subsection (4) is no more than 17.0 full-time equivalent students per teacher beginning in the 2017-18 school year.

(1) The governor shall and the superintendent of public instruction may recommend to the legislature a formula for the distribution of a basic education instructional allocation for each common school district.

(2) The distribution formula under this section shall be for allocation purposes only. Except as may be required under chapter ~~28A.155~~, 28A.165, 28A.180, or ~~((28A.155))~~ 28A.185 RCW, or federal laws and regulations, nothing in this section requires school districts to use basic education instructional funds to implement a particular instructional approach or service. (1) The legislature recognizes that providing students with the opportunity to access a world-class educational system depends on our continuing ability to provide students with access to world-class educators. The legislature also understands that continuing to attract and retain the highest quality educators will require increased investments. The legislature intends to enhance the current salary allocation model and recognizes that changes to the current model cannot be imposed without great deliberation and input from teachers, administrators, and classified employees. Therefore, it is the intent of the legislature to begin the process of developing an enhanced salary allocation model that is collaboratively designed to ensure the rationality of any conclusions regarding what constitutes adequate compensation.

(2) Beginning July 1, 2011, the office of the superintendent of public instruction, in collaboration with the office of financial management, shall convene a technical working group to recommend the details of an enhanced salary allocation model that aligns state expectations for educator development and certification with the compensation system and establishes recommendations for a concurrent implementation schedule. In addition to any other details the technical working group deems necessary, the technical working group shall make recommendations on the following:

(a) How to reduce the number of tiers within the existing salary allocation model;

(b) How to account for labor market adjustments;

(c) How to account for different geographic regions of the state where districts may encounter difficulty recruiting and retaining teachers;

(d) The role of and types of bonuses available;

(e) Ways to accomplish salary equalization over a set number of years; and

(f) Initial fiscal estimates for implementing the recommendations including a recognition that staff on the existing salary allocation model would have the option to grandfather in permanently to the existing schedule.

(3) As part of its work, the technical working group shall conduct or contract for a preliminary comparative labor market analysis of salaries and other compensation for school district employees to be conducted and shall include the results in any reports to the legislature. For the purposes of this subsection, "salaries and other compensation" includes average base salaries, average total salaries, average employee basic benefits, and retirement benefits.

(4) The analysis required under subsection (1) of this section must:

(a) Examine salaries and other compensation for teachers, other certificated instructional staff, principals, and other building-level certificated administrators, and the types of classified employees for whom salaries are allocated;

(b) Be calculated at a statewide level that identifies labor markets in Washington through the use of data from the United States bureau of the census and the bureau of labor statistics; and

(c) Include a comparison of salaries and other compensation to the appropriate labor market for at least the following subgroups of educators: Beginning teachers and types of educational staff associates.

(5) The working group shall include representatives of the department of personnel, the professional educator standards board, the office of the superintendent of public instruction, the Washington education association, the Washington association of school administrators, the association of Washington school principals, the Washington state school directors' association, the public school employees of Washington, and other interested stakeholders with appropriate expertise in compensation related matters. The working group may convene advisory subgroups on specific topics as necessary to assure participation and input from a broad array of diverse stakeholders.

(6) The working group shall be monitored and overseen by the legislature and the quality education council created in RCW 28A.290.010. The working group shall make an initial report to the legislature by ~~((December 1))~~ June 30, 2012, and shall include in its report recommendations for whether additional further work of the group is necessary.

The phase-in shall ~~((be according to the implementation schedule adopted by the legislature and shall))~~ begin no later than the ~~((2013-14 school year))~~ 2011-2013 biennium and be fully implemented by the 2013-2015 biennium.

(a) The formula must be developed and revised on an ongoing basis using the major cost factors in student transportation, including basic and special student loads, school district land area, average distance to school, roadway miles, and number of locations served. Factors must include all those site characteristics that are statistically significant after analysis of the data required by the revised reporting process.

(b) The formula must allocate funds to school districts based on the average predicted costs of transporting students to and from school, using a regression analysis.

(2) During the phase-in period, funding provided to school districts for student transportation operations shall be distributed on the following basis:

SIXTIETH DAY, MARCH 11, 2010

2010 REGULAR SESSION

(a) Annually, each school district shall receive the lesser of the previous school year's pupil transportation operations allocation, or the total of allowable pupil transportation expenditures identified on the previous school year's final expenditure report to the state plus district indirect expenses using the state recovery rate identified by the superintendent; and

(b) Annually, any funds appropriated by the legislature in excess of the maintenance level funding amount for student transportation shall be distributed among school districts on a prorated basis using the difference between the amount identified in (a) of this subsection and the amount determined under the formula in RCW 28A.160.180.

((3) The superintendent shall develop, implement, and provide a copy of the rules specifying the student transportation reporting requirements to the legislature and school districts no later than December 1, 2009.

MR. PRESIDENT:

The House passed ENGROSSED SUBSTITUTE SENATE BILL NO. 6658 with the following amendment(s): 6658-S.E AMH ENGR H5495.E

Strike everything after the enacting clause and insert the following:

"Sec. 1. RCW 82.16.110 and 2009 c 469 s 504 are each amended to read as follows:

The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

recovery incentive on behalf of the other owners and performing such administrative tasks on behalf of the other owners as may be necessary, such as receiving investment cost recovery incentive payments, and allocating and paying appropriate amounts of such payments to the other owners.

(2)(a) "Community solar project" means:

(i) A solar energy system that is capable of generating up to seventy-five kilowatts of electricity and is owned by local individuals, households, nonprofit organizations, or nonutility businesses that is placed on the property owned by a cooperating local governmental entity that is not in the light and power business or in the gas distribution business; ~~((8))~~

(ii) A utility-owned solar energy system that is capable of generating up to seventy-five kilowatts of electricity and that is voluntarily funded by the utility's ratepayers where, in exchange for their financial support, the utility gives contributors a payment or credit on their utility bill for the value of the electricity produced by the project; or

(iii) A solar energy system, placed on the property owned by a cooperating local governmental entity that is not in the light and power business or in the gas distribution business, that is capable of generating up to seventy-five kilowatts of electricity, and that is owned by a company whose members are each eligible for an investment cost recovery incentive for the same customer-generated electricity as provided in RCW 82.16.120.

(b) For the purposes of "community solar project" as defined in (a) of this subsection:

(i) "Company" means an entity that is:

(A)(I) A limited liability company;

(II) A cooperative formed under chapter 23.86 RCW; or

~~((2))~~ (3) "Customer-generated electricity" means a community solar project or the alternating current electricity that is generated from a renewable energy system located in Washington and installed on an individual's, businesses', or local government's real property that is also provided electricity generated by a light and power business. Except for community solar projects, a system located on a leasehold interest does not qualify under this definition. Except for utility-owned community solar projects, "customer-generated electricity" does not include electricity generated by a light and power business with greater than one thousand megawatt hours of annual sales or a gas distribution business.

~~((3))~~ (4) "Economic development kilowatt-hour" means the actual kilowatt-hour measurement of customer-generated electricity multiplied by the appropriate economic development factor.

~~((4))~~ (5) "Local governmental entity" means any unit of local government of this state including, but not limited to, counties, cities, towns, municipal corporations, quasi-municipal corporations, special purpose districts, and school districts.

~~((5))~~ (6) "Photovoltaic cell" means a device that converts light directly into electricity without moving parts.

~~((6))~~ (7) "Renewable energy system" means a solar energy system, an anaerobic digester as defined in RCW 82.08.900, or a wind generator used for producing electricity.

2010 REGULAR SESSION

~~((7))~~ (8) "Solar energy system" means any device or combination of devices or elements that rely upon direct sunlight as an energy source for use in the generation of electricity.

~~((8))~~ (9) "Solar inverter" means the device used to convert direct current to alternating current in a photovoltaic cell system.

~~((9))~~ (10) "Solar module" means the smallest nondivisible self-contained physical structure housing interconnected photovoltaic cells and providing a single direct current electrical output.

**Sec. 2.** RCW 82.16.120 and 2009 c 469 s 505 are each amended to read as follows:

(1)(a) Any individual, business, local governmental entity, not in the light and power business or in the gas distribution business, or a participant in a community solar project may apply to the light and power business serving the situs of the system, each fiscal year beginning on July 1, 2005, for an investment cost recovery incentive for each kilowatt-hour from a customer-generated electricity renewable energy system.

((No incentive may be paid for kilowatt-hours generated before July 1, 2005, or after June 30, 2020.))

(b) In the case of a community solar project as defined in RCW 82.16.110(2)(a)(i), the administrator must apply for the investment cost recovery incentive on behalf of each of the other owners.

(c) In the case of a community solar project as defined in RCW 82.16.110(2)(a)(iii), the company owning the community solar project must apply for the investment cost recovery incentive on behalf of each member of the company.

(2)(a) Before submitting for the first time the application for the incentive allowed under subsection (4) of this section, the applicant must submit to the department of revenue and to the climate and rural energy development center at the Washington State University, established under RCW 28B.30.642, a certification in a form and manner prescribed by the department that includes, but is not limited to, the following information:

(i) The name and address of the applicant and location of the renewable energy system.

(A) If the applicant is an administrator of a community solar project as defined in RCW 82.16.110(2)(a)(i), the certification must also include the name and address of each of the owners of the community solar project.

(B) If the applicant is a company that owns a community solar project as defined in RCW 82.16.110(2)(a)(iii), the certification must also include the name and address of each member of the company;

(ii) The applicant's tax registration number;

(iii) That the electricity produced by the applicant meets the definition of "customer-generated electricity" and that the renewable energy system produces electricity with:

(A) Any solar inverters and solar modules manufactured in Washington state;

(B) A wind generator powered by blades manufactured in Washington state;

(C) A solar inverter manufactured in Washington state;

(D) A solar module manufactured in Washington state; or

(E) Solar or wind equipment manufactured outside of Washington state;

(iv) That the electricity can be transformed or transmitted for entry into or operation in parallel with electricity transmission and distribution systems; and

(v) The date that the renewable energy system received its final electrical permit from the applicable local jurisdiction.

(b) Within thirty days of receipt of the certification the department of revenue must notify the applicant by mail, or electronically as provided in RCW 82.32.135, whether the renewable energy system qualifies for an incentive under this

SIXTIETH DAY, MARCH 11, 2010

2010 REGULAR SESSION

section. The department may consult with the climate and rural energy development center to determine eligibility for the incentive. System certifications and the information contained therein are subject to disclosure under RCW 82.32.330(3)(m).

(3)(a) By August 1st of each year application for the incentive ~~((shall))~~ must be made to the light and power business serving the situs of the system by certification in a form and manner prescribed by the department that includes, but is not limited to, the following information:

(i) The name and address of the applicant and location of the renewable energy system.

(A) If the applicant is an administrator of a community solar project as defined in RCW 82.16.110(2)(a)(i), the application must also include the name and address of each of the owners of the community solar project.

(B) If the applicant is a company that owns a community solar project as defined in RCW 82.16.110(2)(a)(iii), the application must also include the name and address of each member of the company;

(ii) The applicant's tax registration number;

(iii) The date of the notification from the department of revenue stating that the renewable energy system is eligible for the incentives under this section; and

(iv) A statement of the amount of kilowatt-hours generated by the renewable energy system in the prior fiscal year.

(b) Within sixty days of receipt of the incentive certification the light and power business serving the situs of the system ~~((shall))~~ must notify the applicant in writing whether the incentive payment will be authorized or denied. The business may consult with the climate and rural energy development center to determine eligibility for the incentive payment. Incentive certifications and the information contained therein are subject to disclosure under RCW 82.32.330(3)(m).

(c)(i) Persons, administrators of community solar projects, and companies receiving incentive payments ~~((shall))~~ must keep and preserve, for a period of five years, suitable records as may be necessary to determine the amount of incentive applied for and received. Such records ~~((shall))~~ must be open for examination at any time upon notice by the light and power business that made the payment or by the department. If upon examination of any records or from other information obtained by the business or department it appears that an incentive has been paid in an amount that exceeds the correct amount of incentive payable, the business may assess against the person for the amount found to have been paid in excess of the correct amount of incentive payable and ~~((shall))~~ must add thereto interest on the amount. Interest ~~((shall be))~~ is assessed in the manner that the department assesses interest upon delinquent tax under RCW 82.32.050.

(ii) If it appears that the amount of incentive paid is less than the correct amount of incentive payable the business may authorize additional payment.

(4) Except for community solar projects, the investment cost recovery incentive may be paid fifteen cents per economic development kilowatt-hour unless requests exceed the amount authorized for credit to the participating light and power business. For community solar projects, the investment cost recovery incentive may be paid thirty cents per economic development kilowatt-hour unless requests exceed the amount authorized for credit to the participating light and power business. For the purposes of this section, the rate paid for the investment cost recovery incentive may be multiplied by the following factors:

(a) For customer-generated electricity produced using solar modules manufactured in Washington state, two and four-tenths;

(b) For customer-generated electricity produced using a solar or a wind generator equipped with an inverter manufactured in Washington state, one and two-tenths;

(c) For customer-generated electricity produced using an anaerobic digester, or by other solar equipment or using a wind generator equipped with blades manufactured in Washington state, one; and

(d) For all other customer-generated electricity produced by wind, eight-tenths.

(5)(a) No individual, household, business, or local governmental entity is eligible for incentives provided under subsection (4) of this section for more than five thousand dollars per year.

(b) Except as provided in (c) through (e) of this subsection (5), each applicant in a community solar project is eligible for up to five thousand dollars per year.

(c) Where the applicant is an administrator of a community solar project as defined in RCW 82.16.110(2)(a)(i), each owner is eligible for an incentive but only in proportion to the ownership share of the project, up to five thousand dollars per year.

(d) Where the applicant is a company owning a community solar project that has applied for an investment cost recovery incentive on behalf of its members, each member of the company is eligible for an incentive that would otherwise belong to the company but only in proportion to each ownership share of the company, up to five thousand dollars per year. The company itself is not eligible for incentives under this section.

(e) In the case of a utility-owned community solar project, each ratepayer that contributes to the project is eligible for an incentive in proportion to the contribution, up to five thousand dollars per year.

(6) If requests for the investment cost recovery incentive exceed the amount of funds available for credit to the participating light and power business, the incentive payments ~~((shall))~~ must be reduced proportionately.

(7) The climate and rural energy development center at Washington State University energy program may establish guidelines and standards for technologies that are identified as Washington manufactured and therefore most beneficial to the state's environment.

(8) The environmental attributes of the renewable energy system belong to the applicant, and do not transfer to the state or the light and power business upon receipt of the investment cost recovery incentive.

(9) No incentive may be paid under this section for kilowatt-hours generated before July 1, 2005, or after June 30, 2020.

**Sec. 3.** RCW 82.16.130 and 2009 c 469 s 506 are each amended to read as follows:

(1) A light and power business shall be allowed a credit against taxes due under this chapter in an amount equal to investment cost recovery incentive payments made in any fiscal year under RCW 82.16.120. The credit shall be taken in a form and manner as required by the department. The credit under this section for the fiscal year may not exceed ~~((one))~~ one-half percent of the businesses' taxable power sales due under RCW 82.16.020(1)(b) or one hundred thousand dollars, whichever is greater. Incentive payments to participants in a utility-owned community solar project as defined in RCW 82.16.110~~((++))~~ (2)(a)(ii) may only account for up to twenty-five percent of the total allowable credit. Incentive payments to participants in a company-owned community solar project as defined in RCW 82.16.110(2)(a)(iii) may only account for up to five percent of the total allowable credit. The credit may not exceed the tax that would otherwise be due under this chapter. Refunds shall not be granted in the place of credits. Expenditures not used to earn a credit in one fiscal year may not be used to earn a credit in subsequent years.

(2) For any business that has claimed credit for amounts that exceed the correct amount of the incentive payable under RCW 82.16.120, the amount of tax against which credit was claimed for

SIXTIETH DAY, MARCH 11, 2010

the excess payments shall be immediately due and payable. The department shall assess interest but not penalties on the taxes against which the credit was claimed. Interest shall be assessed at the rate provided for delinquent excise taxes under chapter 82.32 RCW, retroactively to the date the credit was claimed, and shall accrue until the taxes against which the credit was claimed are repaid.

(3) The right to earn tax credits under this section expires June 30, 2020. Credits may not be claimed after June 30, 2021.

**Sec. 4.** RCW 82.16.140 and 2005 c 300 s 5 are each amended to read as follows:

(1) Using existing sources of information, the department ~~((shall))~~ **must** report to the house appropriations committee, the house committee dealing with energy issues, the senate committee on ways and means, and the senate committee dealing with energy issues by December 1, ~~((2009))~~ 2014. The report ~~((shall))~~ **must** measure the impacts of ~~((chapter 300, Laws of 2005))~~ RCW 82.16.110 through 82.16.130, including the total number of solar energy system manufacturing companies in the state, any change in the number of solar energy system manufacturing companies in the state since July 1, 2005, and, where relevant, the effect on job creation, the number of jobs created for Washington residents, and such other factors as the department selects.

(2) The department ~~((shall))~~ **may** not conduct any new surveys to provide the report in subsection (1) of this section.

(3) For the purposes of this section, "company" has the same meaning as provided in RCW 82.04.030.

**NEW SECTION. Sec. 5.** A new section is added to chapter 82.16 RCW to read as follows:

Owners of a community solar project as defined in RCW 82.16.110(2)(a) (i) and (iii) must agree to hold harmless the light and power business serving the situs of the system, including any employee, for the good faith reliance on the information contained in an application or certification submitted by an administrator or company. In addition, the light and power business and any employee is immune from civil liability for the good faith reliance on any misstatement that may be made in such application or certification. Should a light and power business or employee prevail upon the defense provided in this section, it is entitled to recover expenses and reasonable attorneys' fees incurred in establishing the defense."

Correct the title.  
and the same are herewith transmitted.

MESSAGE FROM THE HOUSE

March 11, 2010

MR. PRESIDENT:

The House receded from its amendment(s) to ENGROSSED SECOND SUBSTITUTE SENATE BILL NO. 6696. Under suspension of the rules, the bill was returned to second reading for the purpose of an amendment. The House adopted the

SIXTIETH DAY, MARCH 11, 2010

following amendment: 6696-S2.E AMH SULL H5680.2, and passed the bill as amended by the House.

Strike everything after the enacting clause and insert the following:

**"PART I  
ACCOUNTABILITY FRAMEWORK"**

**NEW SECTION. Sec. 101.** The legislature finds that it is the state's responsibility to create a coherent and effective accountability framework for the continuous improvement for all schools and districts. This system must provide an excellent and equitable education for all students; an aligned federal/state accountability system; and the tools necessary for schools and districts to be accountable. These tools include the necessary accounting and data reporting systems, assessment systems to monitor student achievement, and a system of general support, targeted assistance, and if necessary, intervention.

The office of the superintendent of public instruction is responsible for developing and implementing the accountability tools to build district capacity and working within federal and state guidelines. The legislature assigned the state board of education responsibility and oversight for creating an accountability framework. This framework provides a unified system of support for challenged schools that aligns with basic education, increases the level of support based upon the magnitude of need, and uses data for decisions. Such a system will identify schools and their districts for recognition as well as for additional state support. For a specific group of challenged schools, defined as persistently lowest-achieving schools, and their districts, it is necessary to provide a required action process that creates a partnership between the state and local district to target funds and assistance to turn around the identified lowest-achieving schools.

Phase I of this accountability system will recognize schools that have done an exemplary job of raising student achievement and closing the achievement gaps using the state board of education's accountability index. The state board of education shall have ongoing collaboration with the achievement gap oversight and accountability committee regarding the measures used to measure the closing of the achievement gaps and the recognition provided to the school districts for closing the achievement gaps. Phase I will also target the lowest five percent of persistently lowest-achieving schools defined under federal guidelines to provide federal funds and federal intervention models through a voluntary option in 2010, and for those who do not volunteer and have not improved student achievement, a required action process beginning in 2011.

Phase II of this accountability system will work toward implementing the state board of education's accountability index for identification of schools in need of improvement, including those that are not Title I schools, and the use of state and local intervention models and state funds through a required action process beginning in 2013, in addition to the federal program. Federal approval of the state board of education's accountability index must be obtained or else the federal guidelines for persistently lowest-achieving schools will continue to be used.

The expectation from implementation of this accountability system is the improvement of student achievement for all students to prepare them for postsecondary education, work, and global citizenship in the twenty-first century.

**NEW SECTION. Sec. 102.** (1) Beginning in 2010, and each year thereafter, by December 1st, the superintendent of public instruction shall annually identify schools as one of the state's persistently lowest-achieving schools if the school is a Title I school, or a school that is eligible for but does not receive Title I funds, that

is among the lowest-achieving five percent of Title I or Title I eligible schools in the state.

(2) The criteria for determining whether a school is among the persistently lowest-achieving five percent of Title I schools, or Title I eligible schools, under subsection (1) of this section shall be established by the superintendent of public instruction. The criteria must meet all applicable requirements for the receipt of a federal school improvement grant under the American recovery and reinvestment act of 2009 and Title I of the elementary and secondary education act of 1965, and take into account both:

(a) The academic achievement of the "all students" group in a school in terms of proficiency on the state's assessment, and any alternative assessments, in reading and mathematics combined; and

(b) The school's lack of progress on the mathematics and reading assessments over a number of years in the "all students" group.

**NEW SECTION. Sec. 103.** (1) Beginning in January 2011, the superintendent of public instruction shall annually recommend to the state board of education school districts for designation as required action districts. A district with at least one school identified as a persistently lowest-achieving school shall be designated as a required action district if it meets the criteria developed by the superintendent of public instruction. However, a school district shall not be recommended for designation as a required action district if the district was awarded a federal school improvement grant by the superintendent in 2010 and for three consecutive years following receipt of the grant implemented a federal school intervention model at each school identified for improvement. The state board of education may designate a district that received a school improvement grant in 2010 as a required action district if after three years of voluntarily implementing a plan the district continues to have a school identified as persistently lowest-achieving and meets the criteria for designation established by the superintendent of public instruction.

(2) The superintendent of public instruction shall provide a school district superintendent with written notice of the recommendation for designation as a required action district by certified mail or personal service. A school district superintendent may request reconsideration of the superintendent of public instruction's recommendation. The reconsideration shall be limited to a determination of whether the school district met the criteria for being recommended as a required action district. A request for reconsideration must be in writing and served on the superintendent of public instruction within ten days of service of the notice of the superintendent's recommendation.

(3) The state board of education shall annually designate those districts recommended by the superintendent in subsection (1) of this section as required action districts. A district designated as a required action district shall be required to notify all parents of students attending a school identified as a persistently lowest-achieving school in the district of the state board of education's designation of the district as a required action district and the process for complying with the requirements set forth in sections 104 through 110 of this act.

**NEW SECTION. Sec. 104.** (1) The superintendent of public instruction shall contract with an external review team to conduct an academic performance audit of the district and each persistently lowest-achieving school in a required action district to identify the potential reasons for the school's low performance and lack of progress. The review team must consist of persons under contract with the superintendent who have expertise in comprehensive school and district reform and may not include staff from the agency, the school district that is the subject of the audit, or members or staff of the state board of education.

SIXTIETH DAY, MARCH 11, 2010

2010 REGULAR SESSION

(2) The audit must be conducted based on criteria developed by the superintendent of public instruction and must include but not be limited to an examination of the following:

- (a) Student demographics;
- (b) Mobility patterns;
- (c) School feeder patterns;
- (d) The performance of different student groups on assessments;
- (e) Effective school leadership;
- (f) Strategic allocation of resources;
- (g) Clear and shared focus on student learning;
- (h) High standards and expectations for all students;
- (i) High level of collaboration and communication;
- (j) Aligned curriculum, instruction, and assessment to state standards;
- (k) Frequency of monitoring of learning and teaching;
- (l) Focused professional development;
- (m) Supportive learning environment;
- (n) High level of family and community involvement;
- (o) Alternative secondary schools best practices; and
- (p) Any unique circumstances or characteristics of the school or district.

(3) Audit findings must be made available to the local school district, its staff, the community, and the state board of education.

**NEW SECTION. Sec. 105.** (1) The local district superintendent and local school board of a school district designated as a required action district must submit a required action plan to the state board of education for approval. Unless otherwise required by subsection (3) of this section, the plan must be submitted under a schedule as required by the state board. A required action plan must be developed in collaboration with administrators, teachers, and other staff, parents, unions representing any employees within the district, students, and other representatives of the local community. The superintendent of public instruction shall provide a district with assistance in developing its plan if requested. The school board must conduct a public hearing to allow for comment on a proposed required action plan. The local school district shall submit the plan first to the office of the superintendent of public instruction to review and approve that the plan is consistent with federal guidelines. After the office of the superintendent of public instruction has approved that the plan is consistent with federal guidelines, the local school district must submit its required action plan to the state board of education for approval.

(2) A required action plan must include all of the following:

- (a) Implementation of one of the four federal intervention models required for the receipt of a federal school improvement grant, for those persistently lowest-achieving schools that the district will be focusing on for required action. However, a district may not establish a charter school under a federal intervention model without express legislative authority. The intervention models are the turnaround, restart, school closure, and transformation models. The intervention model selected must address the concerns raised in the academic performance audit and be intended to improve student performance to allow a school district to be removed from the list of districts designated as a required action district by the state board of education within three years of implementation of the plan;
- (b) Submission of an application for a federal school improvement grant or a grant from other federal funds for school improvement to the superintendent of public instruction;
- (c) A budget that provides for adequate resources to implement the federal model selected and any other requirements of the plan;
- (d) A description of the changes in the district's or school's existing policies, structures, agreements, processes, and practices that are intended to attain significant achievement gains for all students enrolled in the school and how the district intends to address the findings of the academic performance audit; and

(e) Identification of the measures that the school district will use in assessing student achievement at a school identified as a persistently lowest-achieving school, which include improving mathematics and reading student achievement and graduation rates as defined by the office of the superintendent of public instruction that enable the school to no longer be identified as a persistently lowest-achieving school.

(3)(a) For any district designated for required action, the parties to any collective bargaining agreement negotiated, renewed, or extended under chapter 41.59 or 41.56 RCW after the effective date of this section must reopen the agreement, or negotiate an addendum, if needed, to make changes to terms and conditions of employment that are necessary to implement a required action plan.

(b) If the school district and the employee organizations are unable to agree on the terms of an addendum or modification to an existing collective bargaining agreement, the parties, including all labor organizations affected under the required action plan, shall request the public employment relations commission to, and the commission shall, appoint an employee of the commission to act as a mediator to assist in the resolution of a dispute between the school district and the employee organizations. Beginning in 2011, and each year thereafter, mediation shall commence no later than April 15th. All mediations held under this section shall include the employer and representatives of all affected bargaining units.

(c) If the executive director of the public employment relations commission, upon the recommendation of the assigned mediator, finds that the employer and any affected bargaining unit are unable to reach agreement following a reasonable period of negotiations and mediation, but by no later than May 15th of the year in which mediation occurred, the executive director shall certify any disputed issues for a decision by the superior court in the county where the school district is located. The issues for determination by the superior court must be limited to the issues certified by the executive director.

(d) The process for filing with the court in this subsection (3)(d) must be used in the case where the executive director certifies issues for a decision by the superior court.

(i) The school district shall file a petition with the superior court, by no later than May 20th of the same year in which the issues were certified, setting forth the following:

- (A) The name, address, and telephone number of the school district and its principal representative;
- (B) The name, address, and telephone number of the employee organizations and their principal representatives;
- (C) A description of the bargaining units involved;
- (D) A copy of the unresolved issues certified by the executive director for a final and binding decision by the court; and
- (E) The academic performance audit that the office of the superintendent of public instruction completed for the school district.

(ii) Within seven days after the filing of the petition, each party shall file with the court the proposal it is asking the court to order be implemented in a required action plan for the district for each issue certified by the executive director. Contemporaneously with the filing of the proposal, a party must file a brief with the court setting forth the reasons why the court should order implementation of its proposal in the final plan.

(iii) Following receipt of the proposals and briefs of the parties, the court must schedule a date and time for a hearing on the petition. The hearing must be limited to argument of the parties or their counsel regarding the proposals submitted for the court's consideration. The parties may waive a hearing by written agreement.

(iv) The court must enter an order selecting the proposal for inclusion in a required action plan that best responds to the issues

raised in the school district's academic performance audit, and allows for the award of a federal school improvement grant or a grant from other federal funds for school improvement to the district from the office of the superintendent of public instruction to implement one of the four federal intervention models. The court's decision must be issued no later than June 15th of the year in which the petition is filed and is final and binding on the parties; however the court's decision is subject to appeal only in the case where it does not allow the school district to implement a required action plan consistent with the requirements for the award of a federal school improvement grant or other federal funds for school improvement by the superintendent of public instruction.

(e) Each party shall bear its own costs and attorneys' fees incurred under this statute.

(f) Any party that proceeds with the process in this section after knowledge that any provision of this section has not been complied with and who fails to state its objection in writing is deemed to have waived its right to object.

(4) All contracts entered into between a school district and an employee must be consistent with this section and allow school districts designated as required action districts to implement one of the four federal models in a required action plan.

**NEW SECTION. Sec. 106.** A required action plan developed by a district's school board and superintendent must be submitted to the state board of education for approval. The state board must accept for inclusion in any required action plan the final decision by the superior court on any issue certified by the executive director of the public employment relations commission under the process in section 105 of this act. The state board of education shall approve a plan proposed by a school district only if the plan meets the requirements in section 105 of this act and provides sufficient remedies to address the findings in the academic performance audit to improve student achievement. Any addendum or modification to an existing collective bargaining agreement, negotiated under section 105 of this act or by agreement of the district and the exclusive bargaining unit, related to student achievement or school improvement shall not go into effect until approval of a required action plan by the state board of education. If the state board does not approve a proposed plan, it must notify the local school board and local district's superintendent in writing with an explicit rationale for why the plan was not approved. Nonapproval by the state board of education of the local school district's initial required action plan submitted is not intended to trigger any actions under section 108 of this act. With the assistance of the office of the superintendent of public instruction, the superintendent and school board of the required action district shall either: (a) Submit a new plan to the state board of education for approval within forty days of notification that its plan was rejected, or (b) submit a request to the required action plan review panel established under section 107 of this act for reconsideration of the state board's rejection within ten days of the notification that the plan was rejected. If federal funds are not available, the plan is not required to be implemented until such funding becomes available. If federal funds for this purpose are available, a required action plan must be implemented in the immediate school year following the district's designation as a required action district.

**NEW SECTION. Sec. 107.** (1) A required action plan review panel shall be established to offer an objective, external review of a request from a school district for reconsideration of the state board of education's rejection of the district's required action plan. The review and reconsideration by the panel shall be based on whether the state board of education gave appropriate consideration to the unique circumstances and characteristics identified in the academic performance audit of the local school district whose required action plan was rejected.

(2)(a) The panel shall be composed of five individuals with expertise in school improvement, school and district restructuring, or parent and community involvement in schools. Two of the panel members shall be appointed by the speaker of the house of representatives; two shall be appointed by the president of the senate; and one shall be appointed by the governor.

(b) The speaker of the house of representatives, president of the senate, and governor shall solicit recommendations for possible panel members from the Washington association of school administrators, the Washington state school directors' association, the association of Washington school principals, the achievement gap oversight and accountability committee, and associations representing certificated teachers, classified school employees, and parents.

(c) Members of the panel shall be appointed no later than December 1, 2010, but the superintendent of public instruction shall convene the panel only as needed to consider a school district's request for reconsideration. Appointments shall be for a four-year term, with opportunity for reappointment. Reappointments in the case of a vacancy shall be made expeditiously so that all requests are considered in a timely manner.

(3) The required action plan review panel may reaffirm the decision of the state board of education, recommend that the state board reconsider the rejection, or recommend changes to the required action plan that should be considered by the district and the state board of education to secure approval of the plan. The state board of education shall consider the recommendations of the panel and issue a decision in writing to the local school district and the panel. If the school district must submit a new required action plan to the state board of education, the district must submit the plan within forty days of the board's decision.

(4) The state board of education and superintendent of public instruction must develop timelines and procedures for the deliberations under this section so that school districts can implement a required action plan within the time frame required under section 106 of this act.

**NEW SECTION. Sec. 108.** The state board of education may direct the superintendent of public instruction to require a school district that has not submitted a final required action plan for approval, or has submitted but not received state board of education approval of a required action plan by the beginning of the school year in which the plan is intended to be implemented, to redirect the district's Title I funds based on the academic performance audit findings.

**NEW SECTION. Sec. 109.** A school district must implement a required action plan upon approval by the state board of education. The office of superintendent of public instruction must provide the required action district with technical assistance and federal school improvement grant funds or other federal funds for school improvement, if available, to implement an approved plan. The district must submit a report to the superintendent of public instruction that provides the progress the district is making in meeting the student achievement goals based on the state's assessments, identifying strategies and assets used to solve audit findings, and establishing evidence of meeting plan implementation benchmarks as set forth in the required action plan.

**NEW SECTION. Sec. 110.** (1) The superintendent of public instruction must provide a report twice per year to the state board of education regarding the progress made by all school districts designated as required action districts.

(2) The superintendent of public instruction must recommend to the state board of education that a school district be released from the designation as a required action district after the district implements a required action plan for a period of three years; has made progress, as defined by the superintendent of public

instruction, in reading and mathematics on the state's assessment over the past three consecutive years; and no longer has a school within the district identified as persistently lowest achieving. The state board shall release a school district from the designation as a required action district upon confirmation that the district has met the requirements for a release.

(3) If the state board of education determines that the required action district has not met the requirements for release, the district remains in required action and must submit a new or revised plan under the process in section 105 of this act.

**Sec. 111.** RCW 28A.305.225 and 2009 c 548 s 503 are each amended to read as follows:

(1) The state board of education shall continue to refine the development of an accountability framework that creates a unified system of support for challenged schools, that aligns with basic education, increases the level of support based upon the magnitude of need, and uses data for decisions.

(2) The state board of education shall develop an accountability index to identify schools and districts for recognition, for continuous improvement, and for additional state support. The index shall be based on criteria that are fair, consistent, and transparent. Performance shall be measured using multiple outcomes and indicators including, but not limited to, graduation rates and results from statewide assessments. The index shall be developed in such a way as to be easily understood by both employees within the schools and districts, as well as parents and community members. It is the legislature's intent that the index provide feedback to schools and districts to self-assess their progress, and enable the identification of schools with exemplary student performance and those that need assistance to overcome challenges in order to achieve exemplary student performance. ~~((Once the accountability index has identified schools that need additional help, a more thorough analysis will be done to analyze specific conditions in the district including but not limited to the level of state resources a school or school district receives in support of the basic education system, achievement gaps for different groups of students, and community support.~~

~~—(3) Based on the accountability index and in consultation with the superintendent of public instruction, the state board of education shall develop a proposal and timeline for implementation of a comprehensive system of voluntary support and assistance for schools and districts. The timeline must take into account and accommodate capacity limitations of the K-12 educational system. Changes that have a fiscal impact on school districts, as identified by a fiscal analysis prepared by the office of the superintendent of public instruction, shall take effect only if formally authorized by the legislature through the omnibus appropriations act or other enacted legislation.~~

~~—(4)(a) The state board of education shall develop a proposal and implementation timeline for a more formalized comprehensive system improvement targeted to challenged schools and districts that have not demonstrated sufficient improvement through the voluntary system. The timeline must take into account and accommodate capacity limitations of the K-12 educational system. The proposal and timeline shall be submitted to the education committees of the legislature by December 1, 2009, and shall include recommended legislation and recommended resources to implement the system according to the timeline developed.~~

~~—(b) The proposal shall outline a process for addressing performance challenges that will include the following features: (i) An academic performance audit using peer review teams of educators that considers school and community factors in addition to other factors in developing recommended specific corrective actions that should be undertaken to improve student learning; (ii) a requirement for the local school board plan to develop and be~~

~~responsible for implementation of corrective action plan taking into account the audit findings, which plan must be approved by the state board of education at which time the plan becomes binding upon the school district to implement; and (iii) monitoring of local district progress by the office of the superintendent of public instruction. The proposal shall take effect only if formally authorized by the legislature through the omnibus appropriations act or other enacted legislation.~~

~~—(5)) (3) The state board of education, in cooperation with the office of the superintendent of public instruction, shall annually recognize schools for exemplary performance as measured on the state board of education accountability index. The state board of education shall have ongoing collaboration with the achievement gap oversight and accountability committee regarding the measures used to measure the closing of the achievement gaps and the recognition provided to the school districts for closing the achievement gaps.~~

~~—(4) In coordination with the superintendent of public instruction, the state board of education shall seek approval from the United States department of education for use of the accountability index and the state system of support, assistance, and intervention, to replace the federal accountability system under P.L. 107-110, the no child left behind act of 2001.~~

~~((6)) (5) The state board of education shall work with the education data center established within the office of financial management and the technical working group established in section 112, chapter 548, Laws of 2009 to determine the feasibility of using the prototypical funding allocation model as not only a tool for allocating resources to schools and districts but also as a tool for schools and districts to report to the state legislature and the state board of education on how the state resources received are being used.~~

**NEW SECTION. Sec. 112.** The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "All students group" means those students in grades three through eight and high school who take the state's assessment in reading and mathematics required under 20 U.S.C. Sec. 6311(b)(3).

(2) "Title I" means Title I, part A of the federal elementary and secondary education act of 1965 (ESEA) (20 U.S.C. Secs. 6311-6322).

**NEW SECTION. Sec. 113.** The superintendent of public instruction and the state board of education may each adopt rules in accordance with chapter 34.05 RCW as necessary to implement this chapter.

**NEW SECTION. Sec. 114.** (1) The legislature finds that a unified and equitable system of education accountability must include expectations and benchmarks for improvement, along with support for schools and districts to make the necessary changes that will lead to success for all students. Such a system must also clearly address the consequences for persistent lack of improvement. Establishing a process for school districts to prepare and implement a required action plan is one such consequence. However, to be truly accountable to students, parents, the community, and taxpayers, the legislature must also consider what should happen if a required action district continues not to make improvement after an extended period of time. Without an answer to this significant question, the state's system of education accountability is incomplete. Furthermore, accountability must be appropriately shared among various levels of decision makers, including in the building, in the district, and at the state.

(2)(a) A joint select committee on education accountability is established beginning no earlier than May 1, 2012, with the following members:

SIXTIETH DAY, MARCH 11, 2010

(i) The president of the senate shall appoint two members from each of the two largest caucuses of the senate.

(ii) The speaker of the house of representatives shall appoint two members from each of the two largest caucuses of the house of representatives.

(b) The committee shall choose its cochairs from among its membership.

(3) The committee shall:

(a) Identify and analyze options for a complete system of education accountability, particularly consequences in the case of persistent lack of improvement by a required action district;

(b) Identify and analyze appropriate decision-making responsibilities and accompanying consequences at the building, district, and state level within such an accountability system;

(c) Examine models and experiences in other states;

(d) Identify the circumstances under which significant state action may be required; and

(e) Analyze the financial, legal, and practical considerations that would accompany significant state action.

(4) Staff support for the committee must be provided by the senate committee services and the house of representatives office of program research.

(5) The committee shall submit an interim report to the education committees of the legislature by September 1, 2012, and a final report with recommendations by September 1, 2013.

(6) This section expires June 30, 2014.

## PART II EVALUATIONS

**Sec. 201.** RCW 28A.150.230 and 2006 c 263 s 201 are each amended to read as follows:

(1) It is the intent and purpose of this section to guarantee that each common school district board of directors, whether or not acting through its respective administrative staff, be held accountable for the proper operation of their district to the local community and its electorate. In accordance with the provisions of Title 28A RCW, as now or hereafter amended, each common school district board of directors shall be vested with the final responsibility for the setting of policies ensuring quality in the content and extent of its educational program and that such program provide students with the opportunity to achieve those skills which are generally recognized as requisite to learning.

(2) In conformance with the provisions of Title 28A RCW, as now or hereafter amended, it shall be the responsibility of each common school district board of directors to adopt policies to:

(a) Establish performance criteria and an evaluation process for its superintendent, classified staff, certificated personnel, including administrative staff, and for all programs constituting a part of such district's curriculum. Each district shall report annually to the superintendent of public instruction the following for each employee group listed in this subsection (2)(a): (i) Evaluation criteria and rubrics; (ii) a description of each rating; and (iii) the number of staff in each rating;

(b) Determine the final assignment of staff, certificated or classified, according to board enumerated classroom and program needs and data, based upon a plan to ensure that the assignment policy: (i) Supports the learning needs of all the students in the district; and (ii) gives specific attention to high-need schools and classrooms;

(d) Determine the amount of instructional hours necessary for

any student to acquire a quality education in such district, in not less than an amount otherwise required in RCW 28A.150.220, or rules of the state board of education;

~~((f))~~ (e) Determine the allocation of staff time, whether certificated or classified;

~~((g))~~ (f) Establish final curriculum standards consistent with law and rules of the superintendent of public instruction, relevant to the particular needs of district students or the unusual characteristics of the district, and ensuring a quality education for each student in the district; and

~~((h))~~ (g) Evaluate teaching materials, including text books, teaching aids, handouts, or other printed material, in public hearing upon complaint by parents, guardians or custodians of students who consider dissemination of such material to students objectionable.

**Sec. 202.** RCW 28A.405.100 and 1997 c 278 s 1 are each amended to read as follows:

(1)(a) Except as provided in subsection (2) of this section, the superintendent of public instruction shall establish and may amend from time to time minimum criteria for the evaluation of the professional performance capabilities and development of certificated classroom teachers and certificated support personnel. For classroom teachers the criteria shall be developed in the following categories: Instructional skill; classroom management, professional preparation and scholarship; effort toward improvement when needed; the handling of student discipline and attendant problems; and interest in teaching pupils and knowledge of subject matter.

(b) Every board of directors shall, in accordance with procedure provided in RCW 41.59.010 through 41.59.170, 41.59.910 and 41.59.920, establish evaluative criteria and procedures for all certificated classroom teachers and certificated support personnel. The evaluative criteria must contain as a minimum the criteria established by the superintendent of public instruction pursuant to this section and must be prepared within six months following adoption of the superintendent of public instruction's minimum criteria. The district must certify to the superintendent of public instruction that evaluative criteria have been so prepared by the district.

(2)(a) Pursuant to the implementation schedule established in subsection (7)(b) of this section, every board of directors shall, in accordance with procedures provided in RCW 41.59.010 through 41.59.170, 41.59.910, and 41.59.920, establish revised evaluative criteria and a four-level rating system for all certificated classroom teachers.

(b) The minimum criteria shall include: (i) Centering instruction on high expectations for student achievement; (ii) demonstrating effective teaching practices; (iii) recognizing individual student learning needs and developing strategies to address those needs; (iv) providing clear and intentional focus on subject matter content and curriculum; (v) fostering and managing a safe, positive learning environment; (vi) using multiple student data elements to modify instruction and improve student learning; (vii) communicating and collaborating with parents and school community; and (viii) exhibiting collaborative and collegial practices focused on improving instructional practice and student learning.

(c) The four-level rating system used to evaluate the certificated classroom teacher must describe performance along a continuum that indicates the extent to which the criteria have been met or exceeded. When student growth data, if available and relevant to the teacher and subject matter, is referenced in the evaluation process it must be based on multiple measures that can include classroom-based, school-based, district-based, and state-based tools. As used in this subsection, "student growth" means the change in student achievement between two points in time.

SIXTIETH DAY, MARCH 11, 2010

2010 REGULAR SESSION

(3)(a) Except as provided in subsection ~~((5))~~ (10) of this section, it shall be the responsibility of a principal or his or her designee to evaluate all certificated personnel in his or her school. During each school year all classroom teachers and certificated support personnel ~~(hereinafter referred to as "employees" in this section)~~ shall be observed for the purposes of evaluation at least twice in the performance of their assigned duties. Total observation time for each employee for each school year shall be not less than sixty minutes. An employee in the third year of provisional status as defined in RCW 28A.405.220 shall be observed at least three times in the performance of his or her duties and the total observation time for the school year shall not be less than ninety minutes. Following each observation, or series of observations, the principal or other evaluator shall promptly document the results of the observation in writing, and shall provide the employee with a copy thereof within three days after such report is prepared. New employees shall be observed at least once for a total observation time of thirty minutes during the first ninety calendar days of their employment period.

(b) As used in this subsection and subsection (4) of this section, "employees" means classroom teachers and certificated support personnel.

(4)(a) At any time after October 15th, an employee whose work is not judged ~~((unsatisfactory))~~ satisfactory based on district evaluation criteria shall be notified in writing of the specific areas of deficiencies along with a reasonable program for improvement. During the period of probation, the employee may not be transferred from the supervision of the original evaluator. Improvement of performance or probable cause for nonrenewal must occur and be documented by the original evaluator before any consideration of a request for transfer or reassignment as contemplated by either the individual or the school district. A probationary period of sixty school days shall be established. The establishment of a probationary period does not adversely affect the contract status of an employee within the meaning of RCW 28A.405.300. The purpose of the probationary period is to give the employee opportunity to demonstrate improvements in his or her areas of deficiency. The establishment of the probationary period and the giving of the notice to the employee of deficiency shall be by the school district superintendent and need not be submitted to the board of directors for approval. During the probationary period the evaluator shall meet with the employee at least twice monthly to supervise and make a written evaluation of the progress, if any, made by the employee. The evaluator may authorize one additional certificated employee to evaluate the probationer and to aid the employee in improving his or her areas of deficiency; such additional certificated employee shall be immune from any civil liability that might otherwise be incurred or imposed with regard to the good faith performance of such evaluation. The probationer may be removed from probation if he or she has demonstrated improvement to the satisfaction of the principal in those areas specifically detailed in his or her initial notice of deficiency and subsequently detailed in his or her improvement program. Lack of necessary improvement during the established probationary period, as specifically documented in writing with notification to the probationer and shall constitute grounds for a finding of probable cause under RCW 28A.405.300 or 28A.405.210.

(b) Immediately following the completion of a probationary period that does not produce performance changes detailed in the initial notice of deficiencies and improvement program, the employee may be removed from his or her assignment and placed into an alternative assignment for the remainder of the school year. This reassignment may not displace another employee nor may it adversely affect the probationary employee's compensation or benefits for the remainder of the employee's contract year. If such

reassignment is not possible, the district may, at its option, place the employee on paid leave for the balance of the contract term.

~~((2))~~ (5) Every board of directors shall establish evaluative criteria and procedures for all superintendents, principals, and other administrators. It shall be the responsibility of the district superintendent or his or her designee to evaluate all administrators. Except as provided in subsection (6) of this section, such evaluation shall be based on the administrative position job description. Such criteria, when applicable, shall include at least the following categories: Knowledge of, experience in, and training in recognizing good professional performance, capabilities and development; school administration and management; school finance; professional preparation and scholarship; effort toward improvement when needed; interest in pupils, employees, patrons and subjects taught in school; leadership; and ability and performance of evaluation of school personnel.

~~((3))~~ (6)(a) Pursuant to the implementation schedule established by subsection (7)(b) of this section, every board of directors shall establish revised evaluative criteria and a four-level rating system for principals.

(b) The minimum criteria shall include: (i) Creating a school culture that promotes the ongoing improvement of learning and teaching for students and staff; (ii) demonstrating commitment to closing the achievement gap; (iii) providing for school safety; (iv) leading the development, implementation, and evaluation of a data-driven plan for increasing student achievement, including the use of multiple student data elements; (v) assisting instructional staff with alignment of curriculum, instruction, and assessment with state and local district learning goals; (vi) monitoring, assisting, and evaluating effective instruction and assessment practices; (vii) managing both staff and fiscal resources to support student achievement and legal responsibilities; and (viii) partnering with the school community to promote student learning.

(c) The four-level rating system used to evaluate the principal must describe performance along a continuum that indicates the extent to which the criteria have been met or exceeded. When available, student growth data that is referenced in the evaluation process must be based on multiple measures that can include classroom-based, school-based, district-based, and state-based tools. As used in this subsection, "student growth" means the change in student achievement between two points in time.

(7)(a) The superintendent of public instruction, in collaboration with state associations representing teachers, principals, administrators, and parents, shall create models for implementing the evaluation system criteria, student growth tools, professional development programs, and evaluator training for certificated classroom teachers and principals. Human resources specialists, professional development experts, and assessment experts must also be consulted. Due to the diversity of teaching assignments and the many developmental levels of students, classroom teachers and principals must be prominently represented in this work. The models must be available for use in the 2011-12 school year.

(b) A new certificated classroom teacher evaluation system that implements the provisions of subsection (2) of this section and a new principal evaluation system that implements the provisions of subsection (6) of this section shall be phased-in beginning with the 2010-11 school year by districts identified in (c) of this subsection and implemented in all school districts beginning with the 2013-14 school year.

(c) A set of school districts shall be selected by the superintendent of public instruction to participate in a collaborative process resulting in the development and piloting of new certificated classroom teacher and principal evaluation systems during the 2010-11 and 2011-12 school years. These school districts must be selected based on: (i) The agreement of the local associations

SIXTIETH DAY, MARCH 11, 2010

representing classroom teachers and principals to collaborate with the district in this developmental work and (ii) the agreement to participate in the full range of development and implementation activities, including: Development of rubrics for the evaluation criteria and ratings in subsections (2) and (6) of this section; identification of or development of appropriate multiple measures of student growth in subsections (2) and (6) of this section; development of appropriate evaluation system forms; participation in professional development for principals and classroom teachers regarding the content of the new evaluation system; participation in evaluator training; and participation in activities to evaluate the effectiveness of the new systems and support programs. The school districts must submit to the office of the superintendent of public instruction data that is used in evaluations and all district-collected student achievement, aptitude, and growth data regardless of whether the data is used in evaluations. If the data is not available electronically, the district may submit it in nonelectronic form. The superintendent of public instruction must analyze the districts' use of student data in evaluations, including examining the extent that student data is not used or is underutilized. The superintendent of public instruction must also consult with participating districts and stakeholders, recommend appropriate changes, and address statewide implementation issues. The superintendent of public instruction shall report evaluation system implementation status, evaluation data, and recommendations to appropriate committees of the legislature and governor by July 1, 2011, and at the conclusion of the development phase by July 1, 2012. In the July 1, 2011 report, the superintendent shall include recommendations for whether a single statewide evaluation model should be adopted, whether modified versions developed by school districts should be subject to state approval, and what the criteria would be for determining if a school district's evaluation model meets or exceeds a statewide model. The report shall also identify challenges posed by requiring a state approval process.

(8) Each certificated (~~(employee)~~) classroom teacher and certificated support personnel shall have the opportunity for confidential conferences with his or her immediate supervisor on no less than two occasions in each school year. Such confidential conference shall have as its sole purpose the aiding of the administrator in his or her assessment of the employee's professional performance.

~~((4))~~ (9) The failure of any evaluator to evaluate or supervise or cause the evaluation or supervision of certificated (~~(employees)~~) classroom teachers and certificated support personnel or administrators in accordance with this section, as now or hereafter amended, when it is his or her specific assigned or delegated responsibility to do so, shall be sufficient cause for the nonrenewal of any such evaluator's contract under RCW 28A.405.210, or the discharge of such evaluator under RCW 28A.405.300.

~~((5))~~ (10) After (~~an employee~~) a certificated classroom teacher or certificated support personnel has four years of satisfactory evaluations under subsection (1) of this section or has received one of the two top ratings for four years under subsection (2) of this section, a school district may use a short form of evaluation, a locally bargained evaluation emphasizing professional growth, an evaluation under subsection (1) or (2) of this section, or any combination thereof. The short form of evaluation shall include either a thirty minute observation during the school year with a written summary or a final annual written evaluation based on the criteria in subsection (1) or (2) of this section and based on at least two observation periods during the school year totaling at least sixty minutes without a written summary of such observations being prepared. A locally bargained short-form evaluation emphasizing professional growth must provide that the professional growth activity conducted by the certificated classroom teacher be

specifically linked to one or more of the certificated classroom teacher evaluation criteria. However, the evaluation process set forth in subsection (1) or (2) of this section shall be followed at least once every three years unless this time is extended by a local school district under the bargaining process set forth in chapter 41.59 RCW. The employee or evaluator may require that the evaluation process set forth in subsection (1) or (2) of this section be conducted in any given school year. No evaluation other than the evaluation authorized under subsection (1) or (2) of this section may be used as a basis for determining that an employee's work is (~~(unsatisfactory)~~) not satisfactory under subsection (1) or (2) of this section or as probable cause for the nonrenewal of an employee's contract under RCW 28A.405.210 unless an evaluation process developed under chapter 41.59 RCW determines otherwise.

**Sec. 203.** RCW 28A.405.220 and 2009 c 57 s 2 are each amended to read as follows:

(1) Notwithstanding the provisions of RCW 28A.405.210, every person employed by a school district in a teaching or other nonsupervisory certificated position shall be subject to nonrenewal of employment contract as provided in this section during the first ~~((two))~~ three years of employment by such district, unless: (a) The employee has previously completed at least two years of certificated employment in another school district in the state of Washington, in which case the employee shall be subject to nonrenewal of employment pursuant to this section during the first year of employment with the new district; or (b) the school district superintendent may make a determination to remove an employee from provisional status if the employee has received one of the top two evaluation ratings during the second year of employment by the district. Employees as defined in this section shall hereinafter be referred to as "provisional employees( ")."

(2) In the event the superintendent of the school district determines that the employment contract of any provisional employee should not be renewed by the district for the next ensuing term such provisional employee shall be notified thereof in writing on or before May 15th preceding the commencement of such school term, or if the omnibus appropriations act has not passed the legislature by May 15th, then notification shall be no later than June 15th, which notification shall state the reason or reasons for such determination. Such notice shall be served upon the provisional employee personally, or by certified or registered mail, or by leaving a copy of the notice at the place of his or her usual abode with some person of suitable age and discretion then resident therein. The determination of the superintendent shall be subject to the evaluation requirements of RCW 28A.405.100.

(3) Every such provisional employee so notified, at his or her request made in writing and filed with the superintendent of the district within ten days after receiving such notice, shall be given the opportunity to meet informally with the superintendent for the purpose of requesting the superintendent to reconsider his or her decision. Such meeting shall be held no later than ten days following the receipt of such request, and the provisional employee shall be given written notice of the date, time and place of meeting at least three days prior thereto. At such meeting the provisional employee shall be given the opportunity to refute any facts upon which the superintendent's determination was based and to make any argument in support of his or her request for reconsideration.

(4) Within ten days following the meeting with the provisional employee, the superintendent shall either reinstate the provisional employee or shall submit to the school district board of directors for consideration at its next regular meeting a written report recommending that the employment contract of the provisional employee be nonrenewed and stating the reason or reasons therefor. A copy of such report shall be delivered to the provisional employee at least three days prior to the scheduled meeting of the board of

SIXTIETH DAY, MARCH 11, 2010

2010 REGULAR SESSION

directors. In taking action upon the recommendation of the superintendent, the board of directors shall consider any written communication which the provisional employee may file with the secretary of the board at any time prior to that meeting.

(5) The board of directors shall notify the provisional employee in writing of its final decision within ten days following the meeting at which the superintendent's recommendation was considered. The decision of the board of directors to nonrenew the contract of a provisional employee shall be final and not subject to appeal.

(6) This section applies to any person employed by a school district in a teaching or other nonsupervisory certificated position after June 25, 1976. This section provides the exclusive means for nonrenewing the employment contract of a provisional employee and no other provision of law shall be applicable thereto, including, without limitation, RCW 28A.405.210 and chapter 28A.645 RCW.

**NEW SECTION. Sec. 204.** A new section is added to chapter 28A.405 RCW to read as follows:

(1) Representatives of the office of the superintendent of public instruction and statewide associations representing administrators, principals, human resources specialists, and certificated classroom teachers shall analyze how the evaluation systems in RCW 28A.405.100 (2) and (6) affect issues related to a change in contract status.

(2) The analysis shall be conducted during each of the phase-in years of the certificated classroom teacher and principal evaluation systems. The analysis shall include: Procedures, timelines, probationary periods, appeal procedures, and other items related to the timely exercise of employment decisions and due process provisions for certificated classroom teachers and principals.

**NEW SECTION. Sec. 205.** A new section is added to chapter 28A.405 RCW to read as follows:

If funds are provided for professional development activities designed specifically for first through third-year teachers, the funds shall be allocated first to districts participating in the evaluation systems in RCW 28A.405.100 (2) and (6) before the required implementation date under that section.

### PART III PRINCIPAL PERFORMANCE

**NEW SECTION. Sec. 301.** The legislature finds that the presence of highly effective principals in schools has never been more important than it is today. To enable students to meet high academic standards, principals must lead and encourage teams of teachers and support staff to work together, align curriculum and instruction, use student data to target instruction and intervention strategies, and serve as the chief school officer with parents and the community. Greater responsibility should come with greater authority over personnel, budgets, resource allocation, and programs. But greater responsibility also comes with greater accountability for outcomes. Washington is putting into place an updated and rigorous system of evaluating principal performance, one that will measure what matters. This system will never be truly effective unless the results are meaningfully used.

**NEW SECTION. Sec. 302.** A new section is added to chapter 28A.405 RCW to read as follows:

(1) Any certificated employee of a school district under this section who is first employed as a principal after the effective date of this section shall be subject to transfer as provided under this section, at the expiration of the term of his or her employment contract, to any subordinate certificated position within the school district. "Subordinate certificated position" as used in this section means any administrative or nonadministrative certificated position for which the annual compensation is less than the position currently held by the administrator. This section applies only to school

districts with an annual average student enrollment of more than thirty-five thousand full-time equivalent students.

(2) During the first three consecutive school years of employment as a principal by the school district, or during the first full school year of such employment in the case of a principal who has been previously employed as a principal by another school district in the state for three or more consecutive school years, the transfer of the principal to a subordinate certificated position may be made by a determination of the superintendent that the best interests of the school district would be served by the transfer.

(3) Commencing with the fourth consecutive school year of employment as a principal, or the second consecutive school year of such employment in the case of a principal who has been previously employed as a principal by another school district in the state for three or more consecutive school years, the transfer of the principal to a subordinate certificated position shall be based on the superintendent's determination that the results of the evaluation of the principal's performance using the evaluative criteria and rating system established under RCW 28A.405.100 provide a valid reason for the transfer without regard to whether there is probable cause for the transfer. If a valid reason is shown, it shall be deemed that the transfer is reasonably related to the principal's performance. No probationary period is required. However, provision of support and an attempt at remediation of the performance of the principal, as defined by the superintendent, are required for a determination by the superintendent under this subsection that the principal should be transferred to a subordinate certificated position.

(4) Any superintendent transferring a principal under this section to a subordinate certificated position shall notify that principal in writing on or before May 15th before the beginning of the school year of that determination, or if the omnibus appropriations act has not passed the legislature by May 15th, then notification shall be no later than June 15th. The notification shall state the reason or reasons for the transfer and shall identify the subordinate certificated position to which the principal will be transferred. The notification shall be served upon the principal personally, or by certified or registered mail, or by leaving a copy of the notice at the place of his or her usual abode with some person of suitable age and discretion then resident therein.

(5) Any principal so notified may request to the president or chair of the board of directors of the district, in writing and within ten days after receiving notice, an opportunity to meet informally with the board of directors in an executive session for the purpose of requesting the board to reconsider the decision of the superintendent, and shall be given such opportunity. The board, upon receipt of such request, shall schedule the meeting for no later than the next regularly scheduled meeting of the board, and shall give the principal written notice at least three days before the meeting of the date, time, and place of the meeting. At the meeting the principal shall be given the opportunity to refute any evidence upon which the determination was based and to make any argument in support of his or her request for reconsideration. The principal and the board may invite their respective legal counsel to be present and to participate at the meeting. The board shall notify the principal in writing of its final decision within ten days following its meeting with the principal. No appeal to the courts shall lie from the final decision of the board of directors to transfer a principal to a subordinate certificated position.

(6) This section provides the exclusive means for transferring a certificated employee first employed by a school district under this section as a principal after the effective date of this section to a subordinate certificated position at the expiration of the term of his or her employment contract.

**Sec. 303.** RCW 28A.405.210 and 2009 c 57 s 1 are each amended to read as follows:

SIXTIETH DAY, MARCH 11, 2010

No teacher, principal, supervisor, superintendent, or other certificated employee, holding a position as such with a school district, hereinafter referred to as "employee", shall be employed except by written order of a majority of the directors of the district at a regular or special meeting thereof, nor unless he or she is the holder of an effective teacher's certificate or other certificate required by law or the Washington professional educator standards board for the position for which the employee is employed.

The board shall make with each employee employed by it a written contract, which shall be in conformity with the laws of this state, and except as otherwise provided by law, limited to a term of not more than one year. Every such contract shall be made in duplicate, one copy to be retained by the school district superintendent or secretary and one copy to be delivered to the employee. No contract shall be offered by any board for the employment of any employee who has previously signed an employment contract for that same term in another school district of the state of Washington unless such employee shall have been released from his or her obligations under such previous contract by the board of directors of the school district to which he or she was obligated. Any contract signed in violation of this provision shall be void.

In the event it is determined that there is probable cause or causes that the employment contract of an employee should not be renewed by the district for the next ensuing term such employee shall be notified in writing on or before May 15th preceding the commencement of such term of that determination, or if the omnibus appropriations act has not passed the legislature by May 15th, then notification shall be no later than June 15th, which notification shall specify the cause or causes for nonrenewal of contract. Such determination of probable cause for certificated employees, other than the superintendent, shall be made by the superintendent. Such notice shall be served upon the employee personally, or by certified or registered mail, or by leaving a copy of the notice at the house of his or her usual abode with some person of suitable age and discretion then resident therein. Every such employee so notified, at his or her request made in writing and filed with the president, chair or secretary of the board of directors of the district within ten days after receiving such notice, shall be granted opportunity for hearing pursuant to RCW 28A.405.310 to determine whether there is sufficient cause or causes for nonrenewal of contract: PROVIDED, That any employee receiving notice of nonrenewal of contract due to an enrollment decline or loss of revenue may, in his or her request for a hearing, stipulate that initiation of the arrangements for a hearing officer as provided for by RCW 28A.405.310(4) shall occur within ten days following July 15 rather than the day that the employee submits the request for a hearing. If any such notification or opportunity for hearing is not timely given, the employee entitled thereto shall be conclusively presumed to have been reemployed by the district for the next ensuing term upon contractual terms identical with those which would have prevailed if his or her employment had actually been renewed by the board of directors for such ensuing term.

This section shall not be applicable to "provisional employees" as so designated in RCW 28A.405.220; transfer to a subordinate certificated position as that procedure is set forth in RCW 28A.405.230 or section 302 of this act shall not be construed as a nonrenewal of contract for the purposes of this section.

**Sec. 304.** RCW 28A.405.230 and 2009 c 57 s 3 are each amended to read as follows:

Any certificated employee of a school district employed as an assistant superintendent, director, principal, assistant principal, coordinator, or in any other supervisory or administrative position, hereinafter in this section referred to as "administrator", shall be subject to transfer, at the expiration of the term of his or her

employment contract, to any subordinate certificated position within the school district. "Subordinate certificated position" as used in this section, shall mean any administrative or nonadministrative certificated position for which the annual compensation is less than the position currently held by the administrator.

Every superintendent determining that the best interests of the school district would be served by transferring any administrator to a subordinate certificated position shall notify that administrator in writing on or before May 15th preceding the commencement of such school term of that determination, or if the omnibus appropriations act has not passed the legislature by May 15th, then notification shall be no later than June 15th, which notification shall state the reason or reasons for the transfer, and shall identify the subordinate certificated position to which the administrator will be transferred. Such notice shall be served upon the administrator personally, or by certified or registered mail, or by leaving a copy of the notice at the place of his or her usual abode with some person of suitable age and discretion then resident therein.

Every such administrator so notified, at his or her request made in writing and filed with the president or chair, or secretary of the board of directors of the district within ten days after receiving such notice, shall be given the opportunity to meet informally with the board of directors in an executive session thereof for the purpose of requesting the board to reconsider the decision of the superintendent. Such board, upon receipt of such request, shall schedule the meeting for no later than the next regularly scheduled meeting of the board, and shall notify the administrator in writing of the date, time and place of the meeting at least three days prior thereto. At such meeting the administrator shall be given the opportunity to refute any facts upon which the determination was based and to make any argument in support of his or her request for reconsideration. The administrator and the board may invite their respective legal counsel to be present and to participate at the meeting. The board shall notify the administrator in writing of its final decision within ten days following its meeting with the administrator. No appeal to the courts shall lie from the final decision of the board of directors to transfer an administrator to a subordinate certificated position: PROVIDED, That in the case of principals such transfer shall be made at the expiration of the contract year and only during the first three consecutive school years of employment as a principal by a school district; except that if any such principal has been previously employed as a principal by another school district in the state of Washington for three or more consecutive school years the provisions of this section shall apply only to the first full school year of such employment.

This section applies to any person employed as an administrator by a school district on June 25, 1976, and to all persons so employed at any time thereafter, except that section 302 of this act applies to persons first employed after the effective date of this section as a principal by a school district meeting the criteria of section 302 of this act. This section provides the exclusive means for transferring an administrator subject to this section to a subordinate certificated position at the expiration of the term of his or her employment contract.

**Sec. 305.** RCW 28A.405.300 and 1990 c 33 s 395 are each amended to read as follows:

In the event it is determined that there is probable cause or causes for a teacher, principal, supervisor, superintendent, or other certificated employee, holding a position as such with the school district, hereinafter referred to as "employee", to be discharged or otherwise adversely affected in his or her contract status, such employee shall be notified in writing of that decision, which notification shall specify the probable cause or causes for such action. Such determinations of probable cause for certificated employees, other than the superintendent, shall be made by the

SIXTIETH DAY, MARCH 11, 2010

superintendent. Such notices shall be served upon that employee personally, or by certified or registered mail, or by leaving a copy of the notice at the house of his or her usual abode with some person of suitable age and discretion then resident therein. Every such employee so notified, at his or her request made in writing and filed with the president, chair of the board or secretary of the board of directors of the district within ten days after receiving such notice, shall be granted opportunity for a hearing pursuant to RCW 28A.405.310 to determine whether or not there is sufficient cause or causes for his or her discharge or other adverse action against his or her contract status.

In the event any such notice or opportunity for hearing is not timely given, or in the event cause for discharge or other adverse action is not established by a preponderance of the evidence at the hearing, such employee shall not be discharged or otherwise adversely affected in his or her contract status for the causes stated in the original notice for the duration of his or her contract.

If such employee does not request a hearing as provided herein, such employee may be discharged or otherwise adversely affected as provided in the notice served upon the employee.

Transfer to a subordinate certificated position as that procedure is set forth in RCW 28A.405.230 or section 302 of this act shall not be construed as a discharge or other adverse action against contract status for the purposes of this section.

#### PART IV ENCOURAGING INNOVATIONS

**Sec. 401.** RCW 28A.400.200 and 2002 c 353 s 2 are each amended to read as follows:

(1) Every school district board of directors shall fix, alter, allow, and order paid salaries and compensation for all district employees in conformance with this section.

(2)(a) Salaries for certificated instructional staff shall not be less than the salary provided in the appropriations act in the statewide salary allocation schedule for an employee with a baccalaureate degree and zero years of service; and

(b) Salaries for certificated instructional staff with a master's degree shall not be less than the salary provided in the appropriations act in the statewide salary allocation schedule for an employee with a master's degree and zero years of service;

(3)(a) The actual average salary paid to certificated instructional staff shall not exceed the district's average certificated instructional staff salary used for the state basic education allocations for that school year as determined pursuant to RCW 28A.150.410.

(b) Fringe benefit contributions for certificated instructional staff shall be included as salary under (a) of this subsection only to the extent that the district's actual average benefit contribution exceeds the amount of the insurance benefits allocation provided per certificated instructional staff unit in the state operating appropriations act in effect at the time the compensation is payable. The annual report shall make comparisons to a school's performance in preceding years (~~and shall include school level goals under RCW 28A.655.050~~), student performance relative to the goals and the percentage of students performing at each level of the assessment, a comparison of student performance at each level of the assessment to the previous year's performance, and information regarding school-level plans to achieve the goals.

All collective bargaining agreements entered into between a school district employer and school district employees under this chapter after the effective date of this section, as well as bargaining agreements existing on the effective date of this section but renewed or extended after the effective date of this section, shall be consistent with section 105 of this act.

**Sec. 804.** RCW 41.59.120 and 1975 1st ex.s. c 288 s 13 are each amended to read as follows:

(1) Either an employer or an exclusive bargaining representative may declare that an impasse has been reached between them in collective bargaining and may request the commission to appoint a mediator for the purpose of assisting them in reconciling their differences and resolving the controversy on terms which are mutually acceptable. If the commission determines that its assistance is needed, not later than five days after the receipt of a request therefor, it shall appoint a mediator in accordance with rules and regulations for such appointment prescribed by the commission. The mediator shall meet with the parties or their representatives, or both, forthwith, either jointly or separately, and shall take such other steps as he may deem appropriate in order to persuade the parties to resolve their differences and effect a mutually acceptable agreement. The mediator, without the consent of both parties, shall not make findings of fact or recommend terms of settlement. The services of the mediator, including, if any, per diem expenses, shall be provided by the commission without cost to the parties. Nothing in this subsection (1) shall be construed to prevent the parties from mutually agreeing upon their own mediation procedure, and in the

event of such agreement, the commission shall not appoint its own mediator unless failure to do so would be inconsistent with the effectuation of the purposes and policy of this chapter.

(2) If the mediator is unable to effect settlement of the controversy within ten days after his or her appointment, either party, by written notification to the other, may request that their differences be submitted to fact-finding with recommendations, except that the time for mediation may be extended by mutual agreement between the parties. Within five days after receipt of the aforesaid written request for fact-finding, the parties shall select a person to serve as fact finder and obtain a commitment from that person to serve. If they are unable to agree upon a fact finder or to obtain such a commitment within that time, either party may request the commission to designate a fact finder. The commission, within five days after receipt of such request, shall designate a fact finder in accordance with rules and regulations for such designation prescribed by the commission. The fact finder so designated shall not be the same person who was appointed mediator pursuant to subsection (1) of this section without the consent of both parties.

The fact finder, within five days after his appointment, shall meet with the parties or their representatives, or both, either jointly or separately, and make inquiries and investigations, hold hearings, and take such other steps as he may deem appropriate. For the purpose of such hearings, investigations and inquiries, the fact finder shall have the power to issue subpoenas requiring the attendance and testimony of witnesses and the production of evidence. If the dispute is not settled within ten days after his appointment, the fact finder shall make findings of fact and recommend terms of settlement within thirty days after his appointment, which recommendations shall be advisory only.

(3) Such recommendations, together with the findings of fact, shall be submitted in writing to the parties and the commission privately before they are made public. Either the commission, the fact finder, the employer, or the exclusive bargaining representative may make such findings and recommendations public if the dispute is not settled within five days after their receipt from the fact finder.

(4) The costs for the services of the fact finder, including, if any, per diem expenses and actual and necessary travel and subsistence expenses, and any other incurred costs, shall be borne by the commission without cost to the parties.

(5) Nothing in this section shall be construed to prohibit an employer and an exclusive bargaining representative from agreeing to substitute, at their own expense, their own procedure for resolving impasses in collective bargaining for that provided in this section or from agreeing to utilize for the purposes of this section any other governmental or other agency or person in lieu of the commission.

(6) Any fact finder designated by an employer and an exclusive representative or the commission for the purposes of this section shall be deemed an agent of the state.

(7) This section does not apply to negotiations and mediations conducted under section 105 of this act.

**PART IX

SENATE RESOLUTION

8719

By Senators Eide and Hewitt

WHEREAS, The Senate adopted permanent rules for the 2009-2011 biennium under Senate Floor Resolution 8601, as amended by Senate Floor Resolution 8603;

NOW, THEREFORE, BE IT RESOLVED, That Rules 45 and 62 are each amended as follows:

“Committee Rules

**Rule 45.** 1. At least five days notice shall be given of all public hearings held by any committee other than the rules committee. Such notice shall contain the date, time and place of such hearing together with the title and number of each bill, or identification of the subject matter, to be considered at such hearing. By a majority vote of the committee members present at any committee meeting such notice may be dispensed with. The reason for such action shall be set forth in a written statement preserved in the records of the meeting.

2. No committee may hold a public hearing during a regular or extraordinary session on a proposal identified as a draft unless the draft has been made available to the public at least twenty-four hours prior to the hearing. This rule does not apply during the five days prior to any cutoff established by concurrent resolution nor does it apply to any measure exempted from the resolution.

3. During its consideration of or vote on any bill, resolution or memorial, the deliberations of any committee or subcommittee of the senate shall be open to the public. In case of any disturbance or disorderly conduct at any such deliberations, the chair shall order the sergeant at arms to suppress the same and may order the meeting closed to any person or persons creating such disturbance.

4. No committee shall amend a measure, adopt a substitute bill, or vote upon any measure or appointment absent a quorum. A committee may conduct a hearing absent a quorum. A majority of any committee shall constitute a quorum and committees shall be considered to have a quorum present unless the question is raised. Any question as to quorum not raised at the time of the committee action is deemed waived.

5. Bills reported to the senate from a standing committee must have a majority report, which shall be prepared upon a printed standing committee report form; shall be adopted at a regularly or specially called meeting during a legislative session and shall be signed by a majority of the committee; and shall carry only one of the following recommendations:

- a. Do pass;
- b. Do pass as amended;
- c. That a substitute bill be substituted therefor, and the substitute bill do pass; or
- d. Without recommendation.

In addition to one of the above-listed recommendations, a report may also recommend that a bill be referred to another committee.

6. A majority report of a committee must carry the signatures of a majority of the members of the committee. In the event a committee has a quorum pursuant to subsection 4 of this rule, a majority of the members present may act on a measure, subject to obtaining the signatures of a majority of the members of the committee on the majority report.

7. Any measure, appointment, substitute bill, or amendment still within a committee's possession before it has been reported out to the full senate may be reconsidered to correct an error, change language, or otherwise accurately reflect the will of the committee in its majority and minority reports to the full senate. Any such reconsideration may be made at any time, by any member of the committee, provided that the committee has not yet reported the measure, appointment, substitute bill, or amendment out to the full senate. Any such reconsideration made after a vote has been taken or signatures obtained will require a new vote and signature sheet. Any measure which does not receive a majority vote of the members present may be reconsidered at that meeting and may again be considered upon motion of any committee member if one day's notice of said motion is provided to all committee members. For purposes of this rule, a committee is deemed to have reported a measure, appointment, substitute bill, or amendment out when it has delivered its majority and minority reports to the senate workroom. After such delivery, the committee no longer has possession of the measure, appointment, substitute bill, or amendment and no further committee action, including reconsideration, may be taken.

8. Any member of the committee not concurring in the majority report may sign a minority report containing a recommendation of “do not pass” or “without recommendation,” which shall be signed by those members of the committee subscribing thereto, and submitted with the majority report. In every case where a majority report form is circulated for signature, a minority report form shall also be circulated.

9. When a committee reports a substitute for an original bill with the recommendation that the substitute bill do pass, it shall be in order to read the substitute bill the first time and have the same ordered printed.

A motion for the substitution of the substitute bill for the original bill shall not be in order until the committee on rules places the original bill on the second reading calendar.

10. No vote in any committee shall be taken by secret ballot nor shall any committee have a policy of secrecy as to any vote on action taken in such committee.

11. All reports of standing committees must be on the secretary's desk one hour prior to convening of the session in order to be read at said session. During any special session of the legislature, this rule may be suspended by a majority vote.”

“Reading of Bills

**Rule 62.** Every bill shall be read on three separate days unless the senate deems it expedient to suspend this rule. On and after the tenth day preceding adjournment sine die of any session, or three days prior to any cut-off date for consideration of bills, as determined pursuant to Article 2, Section 12 of the Constitution or concurrent resolution, or during any special session of the legislature, this rule may be suspended by a majority vote. (See also Rule 59).”

(a) All salary and wage payments made to employees while on leave transferred under this section shall be made by the agency employing the person receiving the leave. The value of leave transferred shall be based upon the leave value of the person receiving the leave.

Strike everything after the enacting clause and insert the following:

NEW SECTION. Sec. 1. (1) It is the legislature's intent to encourage immediate investments in technology facilities that can provide an economic stimulus, sustain long-term jobs that provide living wages, and help build the digital infrastructure that can enable the state to be competitive for additional technology investment and jobs.

(2) There is currently an intense competition for data center construction and operation in many states including: Oregon, Arizona, North and South Carolina, North Dakota, Iowa, Virginia, Texas, Utah, and Illinois. Unprecedented incentives are available as a result of the desire of these states to attract investments that will serve as a catalyst for additional clusters of economic activity.

(3) Since the economic downturn, Washington has not succeeded in attracting any private investments in these centers after siting six major data centers between 2004 and 2007.

(4) Data center technology has advanced rapidly, with marked increases in energy efficiency. Large, commercial-grade data centers leverage the economies of scale to reduce energy consumption. Combining digitized processes with the economies of scale recognized at these data centers, today's enterprises can materially reduce the energy they consume and greatly improve their efficiency.

(5) The legislature finds that a twenty-seven month window that offers an opportunity to seek a tax deferral on server and related electrical equipment and installation will act as a stimulus to incent immediate investment. This investment will bring jobs, tax revenues, and economic growth to some of our states rural areas and counties that have unemployment above the statewide average.

NEW SECTION. Sec. 2. A new section is added to chapter 82.32 RCW to read as follows:

(1) A qualifying business may apply for deferral of taxes of eligible server equipment to be installed, without intervening use, in an eligible computer data center, and to charges made for labor and services rendered in respect to installing eligible server equipment. The deferral of taxes also applies to sales to qualifying businesses of eligible power infrastructure, including labor and services rendered in respect to constructing, installing, repairing, altering, or improving eligible power infrastructure. The application shall contain information regarding the location of the project, estimated or actual costs of the project, time schedules for completion and operation of the project, and other information required by the

SECOND DAY, MARCH 16, 2010

2010 1ST SPECIAL SESSION

department. The department shall rule on the application within sixty days. All applications for deferral under this section must be received no later than July 1, 2012.

(2) The department shall issue a sales and use tax deferral certificate for state and local sales and use taxes due under chapters 82.08, 82.12, and 82.14 RCW.

(3) A qualifying business claiming the deferral under this section must present the seller with a deferral certificate in a form and manner prescribed by the department. The seller must retain a copy of the certificate for the seller's files.

(4) A qualifying business shall begin paying the deferred taxes in the fifth year after the date certified by the department as the date on which the eligible project is operationally complete. The first payment is due on December 31st of the fifth calendar year after such certified date, with subsequent annual payments due on December 31st of the following nine years. Each payment shall equal ten percent of the deferred tax.

(5) Except as provided in subsection (6) of this section, interest shall not be charged on any taxes deferred under this section for the period of deferral. The debt for deferred taxes is not extinguished by insolvency or other failure of the qualifying business.

(6) If the project is not operationally complete within five calendar years from issuance of the tax deferral or if at any time the department finds that the project is not eligible for tax deferral under this section, the amount of deferred taxes outstanding for the project shall be immediately due and payable. If deferred taxes must be repaid under this subsection, the department shall assess interest, but not penalties, on amounts due under this subsection. Interest shall be assessed at the rate provided for delinquent taxes under this chapter, retroactively to the date of deferral, and shall accrue until the deferred taxes are repaid.

(7) A qualifying business claiming a deferral under this section must complete an annual report with the department as required under section 103, chapter . . . , Laws of 2010 (Substitute House Bill No. 3066).

(8)(a) The deferral provided in this section does not apply to:

(i) Any person who has received the benefit of the deferral program under chapter 82.60 RCW on: (A) The construction, renovation, or expansion of a structure or structures used as a computer data center; or (B) machinery or equipment used in a computer data center; and

(ii) Any person affiliated with a person within the scope of (a)(i) of this subsection (8). For purposes of this subsection, "affiliated" means that one person has a direct or indirect ownership interest of at least twenty percent in another person.

(b) If a person claims a deferral under this section and subsequently receives the benefit of the deferral program under chapter 82.60 RCW on either the construction, renovation, or expansion of a structure or structures used as a computer data center or machinery or equipment used in a computer data center, the person must repay the amount of taxes deferred under this section. (C) For which the commencement of construction occurs after March 31, 2010, and before July 1, 2012. For purposes of this section, "commencement of construction" means the date that a building permit is issued under the building code adopted under RCW 19.27.031 for construction of the computer data center. The construction of a computer data center includes the expansion, renovation, or other improvements made to existing facilities, including leased or rented space. (h) "Server equipment" means the server chassis and all computer hardware contained within the server chassis. "Server equipment" also includes computer software necessary to operate the server. Concerning hospital safety net assessment. Revised for 2nd Substitute: Concerning the hospital safety net.

The measure was read the second time.

## MOTION

Strike everything after the enacting clause and insert the following:

**"NEW SECTION. Sec. 1. PURPOSE, FINDINGS, AND INTENT.** (1) The purpose of this chapter is to provide for a safety net assessment on certain Washington hospitals, which will be used solely to augment funding from all other sources and thereby obtain additional funds to restore recent reductions and to support additional payments to hospitals for medicaid services.

(2) The legislature finds that:

(a) Washington hospitals, working with the department of social and health services, have proposed a hospital safety net assessment to generate additional state and federal funding for the medicaid program, which will be used to partially restore recent inpatient and outpatient reductions in hospital reimbursement rates and provide for an increase in hospital payments; and

(b) The hospital safety net assessment and hospital safety net assessment fund created in this chapter allows the state to generate additional federal financial participation for the medicaid program and provides for increased reimbursement to hospitals.

(3) In adopting this chapter, it is the intent of the legislature:

(a) To impose a hospital safety net assessment to be used solely for the purposes specified in this chapter;

(b) That funds generated by the assessment shall be used solely to augment all other funding sources and not as a substitute for any other funds;

(c) That the total amount assessed not exceed the amount needed, in combination with all other available funds, to support the reimbursement rates and other payments authorized by this chapter; and

(d) To condition the assessment on receiving federal approval for receipt of additional federal financial participation and on continuation of other funding sufficient to maintain hospital inpatient and outpatient reimbursement rates and small rural

(b) Require managed care organizations and regional support networks to reimburse hospitals for hospital inpatient and outpatient services rendered after the date that the applicable conditions under section 17(1) of this act are satisfied at rates no lower than the combined rates established by sections 9 and 10 of this act;

(c) Within sixty calendar days after satisfaction of the applicable conditions under section 17(1) of this act, calculate the additional amount due to each hospital to pay claims submitted for inpatient and outpatient medicaid-covered services rendered from and after February 1, 2010, through the date when the applicable conditions under section 17(1) of this act are satisfied based on the rates required by section 10 of this act, make payments to managed care organizations and regional support networks in amounts sufficient to pay the additional amounts due to each hospital plus an additional amount equal to the estimated amount of additional state taxes on managed care organizations or regional support networks, and require managed care organizations and regional support networks to make payments to each hospital in accordance with the department's calculations within forty-five calendar days after the department disburses funds for those purposes;

(d) Require managed care organizations that contract with health care organizations that provide, directly or by contract, health care services on a prepaid or capitated basis to make payments to health care organizations for any of the hospital payments that the managed care organizations would have been required to pay to hospitals under this section if the managed care organizations did not contract with those health care organizations, and require the managed care organizations to require those health care

organizations to make equivalent payments to the hospitals that would have received payments under this section if the managed care organizations did not contract with the health care organizations;

(4) The department shall ensure that the increases to the medicaid fee schedules as described in section 10 of this act are included in the development of healthy options premiums.

(5) The department may require managed care organizations and regional support networks to demonstrate compliance with this section.

**NEW SECTION. Sec. 14. QUALITY INCENTIVE PAYMENTS.** (1) The department, in collaboration with the health care authority, the department of health, the department of labor and industries, the Washington state hospital association, the Puget Sound health alliance, and the forum, a collaboration of health carriers, physicians, and hospitals in Washington state, shall design a system of hospital quality incentive payments. The design of the system shall be submitted to the relevant policy and fiscal committees of the legislature by December 15, 2010. The system shall be based upon the following principles:

(a) Evidence-based treatment and processes shall be used to improve health care outcomes for hospital patients;

(b) Effective purchasing strategies to improve the quality of health care services should involve the use of common quality improvement measures by public and private health care purchasers, while recognizing that some measures may not be appropriate for application to specialty pediatric, psychiatric, or rehabilitation hospitals;

(c) Quality measures chosen for the system should be consistent with the standards that have been developed by national quality improvement organizations, such as the national quality forum, the federal centers for medicare and medicaid services, or the federal agency for healthcare research and quality. New reporting burdens to hospitals should be minimized by giving priority to measures hospitals are currently required to report to governmental agencies, such as the hospital compare measures collected by the federal centers for medicare and medicaid services;

(d) Benchmarks for each quality improvement measure should be set at levels that are feasible for hospitals to achieve, yet represent real improvements in quality and performance for a majority of hospitals in Washington state; and

(e) Hospital performance and incentive payments should be designed in a manner such that all noncritical access hospitals in Washington are able to receive the incentive payments if performance is at or above the benchmark score set in the system established under this section.

(2) Upon satisfaction of the applicable conditions set forth in section 17(1) of this act, and for state fiscal year 2013 and each fiscal year thereafter, assessments may be increased to support an additional one percent increase in inpatient hospital rates for noncritical access hospitals that meet the quality incentive benchmarks established under this section.

**NEW SECTION. Sec. 15.** A new section is added to chapter 70.47 RCW to read as follows:

The increases in inpatient and outpatient reimbursement rates included in chapter 74.--- RCW (the new chapter created in section 23 of this act) shall not be reflected in hospital payment rates for services provided to basic health enrollees under this chapter.

**NEW SECTION. Sec. 16. MULTIHOSPITAL LOCATIONS, NEW HOSPITALS, AND CHANGES IN OWNERSHIP.** (1) If an entity owns or operates more than one hospital subject to assessment under this chapter, the entity shall pay the assessment for each hospital separately. However, if the entity operates multiple hospitals under a single medicaid provider number, it may pay the assessment for the hospitals in the aggregate.

(2) Notwithstanding any other provision of this chapter, if a hospital subject to the assessment imposed under this chapter ceases to conduct hospital operations throughout a state fiscal year, the assessment for the quarter in which the cessation occurs shall be adjusted by multiplying the assessment computed under section 4 (1) and (3) of this act by a fraction, the numerator of which is the number of days during the year which the hospital conducts, operates, or maintains the hospital and the denominator of which is three hundred sixty-five. Immediately prior to ceasing to conduct, operate, or maintain a hospital, the hospital shall pay the adjusted assessment for the fiscal year to the extent not previously paid.

(3) Notwithstanding any other provision of this chapter, in the case of a hospital that commences conducting, operating, or maintaining a hospital that is not exempt from payment of the assessment under section 5 of this act and that did not conduct, operate, or maintain such hospital throughout the cost reporting year used to determine the assessment amount, the assessment for that hospital shall be computed on the basis of the actual number of nonmedicare inpatient days reported to the department by the hospital on a quarterly basis. The hospital shall be eligible to receive increased payments under this chapter beginning on the date it commences hospital operations.

(4) Notwithstanding any other provision of this chapter, if a hospital previously subject to assessment is sold or transferred to another entity and remains subject to assessment, the assessment for that hospital shall be computed based upon the cost report data previously submitted by that hospital. The assessment shall be allocated between the transferor and transferee based on the number of days within the assessment period that each owned, operated, or maintained the hospital.

**NEW SECTION. Sec. 17. CONDITIONS.** (1) The assessment, collection, and disbursement of funds under this chapter shall be conditional upon:

(a) Withdrawal of those aspects of any pending state plan amendments previously submitted to the centers for medicare and medicaid services that are inconsistent with this chapter, specifically any pending state plan amendment related to the four percent rate reductions for inpatient and outpatient hospital rates and elimination of the small rural disproportionate share hospital payment program as implemented July 1, 2009;

(b) Approval by the centers for medicare and medicaid services of any state plan amendments or waiver requests that are necessary in order to implement the applicable sections of this chapter;

(c) To the extent necessary, amendment of contracts between the department and managed care organizations in order to implement this chapter; and

(d) Certification by the office of financial management that appropriations have been adopted that fully support the rates established in this chapter for the upcoming fiscal year.

(2) This chapter does not take effect or ceases to be imposed, and any moneys remaining in the fund shall be refunded to hospitals in proportion to the amounts paid by such hospitals, if and to the extent that:

(a) An appellate court or the centers for medicare and medicaid services makes a final determination that any element of this chapter, other than section 11 of this act, cannot be validly implemented;

(b) Medicaid inpatient or outpatient reimbursement rates for hospitals are reduced below the combined rates established by sections 9 and 10 of this act;

(c) Except for payments to the University of Washington medical center and harborview medical center, payments to hospitals required under sections 9, 10, 12, and 13 of this act are not eligible for federal matching funds;

(d) Other funding available for the medicaid program is not sufficient to maintain medicaid inpatient and outpatient reimbursement rates at the levels set in sections 9, 10, and 12 of this act; or

(e) The fund is used as a substitute for or to supplant other funds, except as authorized by section 3(3)(e) of this act.

**NEW SECTION. Sec. 18. SEVERABILITY.** (1) The provisions of this chapter are not severable: If the conditions set forth in section 17(1) of this act are not satisfied or if any of the circumstances set forth in section 17(2) of this act should occur, this entire chapter shall have no effect from that point forward, except that if the payment under section 11 of this act, or the application thereof to any hospital or circumstances does not receive approval by the centers for medicare and medicaid services as described in section 17(1)(b) of this act or is determined to be unconstitutional or otherwise invalid, the other provisions of this chapter or its application to hospitals or circumstances other than those to which it is held invalid shall not be affected thereby.

(2) In the event that any portion of this chapter shall have been validly implemented and the entire chapter is later rendered ineffective under this section, prior assessments and payments under the validly implemented portions shall not be affected.

(3) In the event that the payment under section 11 of this act, or the application thereof to any hospital or circumstances does not receive approval by the centers for medicare and medicaid services as described in section 17(1)(b) of this act or is determined to be unconstitutional or otherwise invalid, the amount of the assessment shall be adjusted under section 6(1)(c) of this act.

**Sec. 19.** 2009 c 564 s 209 (uncodified) is amended to read as follows:

FOR THE DEPARTMENT OF SOCIAL AND HEALTH SERVICES--MEDICAL ASSISTANCE PROGRAM

General Fund--State Appropriation (FY 2010).....	\$1,597,387,000
General Fund--State Appropriation (FY 2011).....	\$1,984,797,000
General Fund--Federal Appropriation.....	\$5,210,672,000
General Fund--Private/Local Appropriation.....	\$12,903,000
Emergency Medical Services and Trauma Care Systems	
Trust Account--State Appropriation.....	\$15,076,000
Tobacco Prevention and Control Account--	
State Appropriation.....	\$3,766,000
<b>TOTAL APPROPRIATION.....</b>	<b>\$8,824,601,000</b>

The appropriations in this section are subject to the following conditions and limitations:

(1) Based on quarterly expenditure reports and caseload forecasts, if the department estimates that expenditures for the medical assistance program will exceed the appropriations, the department shall take steps including but not limited to reduction of rates or elimination of optional services to reduce expenditures so that total program costs do not exceed the annual appropriation authority.

(2) In determining financial eligibility for medicaid-funded services, the department is authorized to disregard recoveries by Holocaust survivors of insurance proceeds or other assets, as defined in RCW 48.104.030.

(3) The legislature affirms that it is in the state's interest for Harborview medical center to remain an economically viable component of the state's health care system.

(4) When a person is ineligible for medicaid solely by reason of residence in an institution for mental diseases, the department shall provide the person with the same benefits as he or she would receive if eligible for medicaid, using state-only funds to the extent necessary.

(5) In accordance with RCW 74.46.625, \$6,000,000 of the general fund--federal appropriation is provided solely for supplemental payments to nursing homes operated by public

hospital districts. The public hospital district shall be responsible for providing the required nonfederal match for the supplemental payment, and the payments shall not exceed the maximum allowable under federal rules. It is the legislature's intent that the payments shall be supplemental to and shall not in any way offset or reduce the payments calculated and provided in accordance with part E of chapter 74.46 RCW. It is the legislature's further intent that costs otherwise allowable for rate- setting and settlement against payments under chapter 74.46 RCW shall not be disallowed solely because such costs have been paid by revenues retained by the nursing home from these supplemental payments. The supplemental payments are subject to retrospective interim and final cost settlements based on the nursing homes' as-filed and final medicare cost reports. The timing of the interim and final cost settlements shall be at the department's discretion. During either the interim cost settlement or the final cost settlement, the department shall recoup from the public hospital districts the supplemental payments that exceed the medicaid cost limit and/or the medicare upper payment limit. The department shall apply federal rules for identifying the eligible incurred medicaid costs and the medicare upper payment limit.

(6) \$1,110,000 of the general fund--federal appropriation and \$1,105,000 of the general fund--state appropriation for fiscal year 2011 are provided solely for grants to rural hospitals. The department shall distribute the funds under a formula that provides a relatively larger share of the available funding to hospitals that (a) serve a disproportionate share of low-income and medically indigent patients, and (b) have relatively smaller net financial margins, to the extent allowed by the federal medicaid program.

(7) \$9,818,000 of the general fund--state appropriation for fiscal year 2011, and \$9,865,000 of the general fund--federal appropriation are provided solely for grants to nonrural hospitals. The department shall distribute the funds under a formula that provides a relatively larger share of the available funding to hospitals that (a) serve a disproportionate share of low-income and medically indigent patients, and (b) have relatively smaller net financial margins, to the extent allowed by the federal medicaid program.

(8) The department shall continue the inpatient hospital certified public expenditures program for the 2009-11 biennium. The program shall apply to all public hospitals, including those owned or operated by the state, except those classified as critical access hospitals or state psychiatric institutions. The department shall submit reports to the governor and legislature by November 1, 2009, and by November 1, 2010, that evaluate whether savings continue to exceed costs for this program. If the certified public expenditures (CPE) program in its current form is no longer cost-effective to maintain, the department shall submit a report to the governor and legislature detailing cost-effective alternative uses of local, state, and federal resources as a replacement for this program. During fiscal year 2010 and fiscal year 2011, hospitals in the program shall be paid and shall retain one hundred percent of the federal portion of the allowable hospital cost for each medicaid inpatient fee-for-service claim payable by medical assistance and one hundred percent of the federal portion of the maximum disproportionate share hospital payment allowable under federal regulations. Inpatient medicaid payments shall be established using an allowable methodology that approximates the cost of claims submitted by the hospitals. Payments made to each hospital in the program in each fiscal year of the biennium shall be compared to a baseline amount. The baseline amount will be determined by the total of (a) the inpatient claim payment amounts that would have been paid during the fiscal year had the hospital not been in the CPE program, (b) one half of the indigent assistance disproportionate share hospital payment amounts paid to and retained by each

hospital during fiscal year 2005, and (c) all of the other disproportionate share hospital payment amounts paid to and retained by each hospital during fiscal year 2005 to the extent the same disproportionate share hospital programs exist in the 2009-11 biennium. If payments during the fiscal year exceed the hospital's baseline amount, no additional payments will be made to the hospital except the federal portion of allowable disproportionate share hospital payments for which the hospital can certify allowable match. If payments during the fiscal year are less than the baseline amount, the hospital will be paid a state grant equal to the difference between payments during the fiscal year and the applicable baseline amount. Payment of the state grant shall be made in the applicable fiscal year and distributed in monthly payments. The grants will be recalculated and redistributed as the baseline is updated during the fiscal year. The grant payments are subject to an interim settlement within eleven months after the end of the fiscal year. A final settlement shall be performed. To the extent that either settlement determines that a hospital has received funds in excess of what it would have received as described in this subsection, the hospital must repay the excess amounts to the state when requested. \$6,570,000 of the general fund--state appropriation for fiscal year 2010, which is appropriated in section 204(1) of this act, and \$1,500,000 of the general fund--state appropriation for fiscal year 2011, which is appropriated in section 204(1) of this act, are provided solely for state grants for the participating hospitals. Sufficient amounts are appropriated in this section for the remaining state grants for the participating hospitals.

(9) The department is authorized to use funds appropriated in this section to purchase goods and supplies through direct contracting with vendors when the department determines it is cost-effective to do so.

(10) Sufficient amounts are appropriated in this section for the department to continue podiatry services for medicaid-eligible adults.

(11) Sufficient amounts are appropriated in this section for the department to provide an adult dental benefit that is at least equivalent to the benefit provided in the 2003-05 biennium.

(12) \$93,000 of the general fund--state appropriation for fiscal year 2010 and \$93,000 of the general fund--federal appropriation are provided solely for the department to pursue a federal Medicaid waiver pursuant to Second Substitute Senate Bill No. 5945 (Washington health partnership plan). If the bill is not enacted by June 30, 2009, the amounts provided in this subsection shall lapse.

(13) The department shall require managed health care systems that have contracts with the department to serve medical assistance clients to limit any reimbursements or payments the systems make to providers not employed by or under contract with the systems to no more than the medical assistance rates paid by the department to providers for comparable services rendered to clients in the fee-for-service delivery system.

(14) Appropriations in this section are sufficient for the department to continue to fund family planning nurses in the community services offices.

(15) The department, in coordination with stakeholders, will conduct an analysis of potential savings in utilization of home dialysis. The department shall present its findings to the appropriate house of representatives and senate committees by December 2010.

(16) A maximum of \$166,875,000 of the general fund--state appropriation and \$38,389,000 of the general fund--federal appropriation may be expended in the fiscal biennium for the general assistance-unemployable medical program, and these amounts are provided solely for this program. Of these amounts, \$10,749,000 of the general fund--state appropriation for fiscal year 2010 and \$10,892,000 of the general fund--federal appropriation are

provided solely for payments to hospitals for providing outpatient services to low income patients who are recipients of general assistance-unemployable. Pursuant to RCW 74.09.035, the department shall not expend for the general assistance medical care services program any amounts in excess of the amounts provided in this subsection.

(17) If the department determines that it is feasible within the amounts provided in subsection (16) of this section, and without the loss of federal disproportionate share hospital funds, the department shall contract with the carrier currently operating a managed care pilot project for the provision of medical care services to general assistance-unemployable clients. Mental health services shall be included in the services provided through the managed care system. If the department determines that it is feasible, effective October 1, 2009, in addition to serving clients in the pilot counties, the carrier shall expand managed care services to clients residing in at least the following counties: Spokane, Yakima, Chelan, Kitsap, and Cowlitz. If the department determines that it is feasible, the carrier shall complete implementation into the remaining counties. Total per person costs to the state, including outpatient and inpatient services and any additional costs due to stop loss agreements, shall not exceed the per capita payments projected for the general assistance-unemployable eligibility category, by fiscal year, in the February 2009 medical assistance expenditures forecast. The department, in collaboration with the carrier, shall seek to improve the transition rate of general assistance clients to the federal supplemental security income program.

(18) The department shall evaluate the impact of the use of a managed care delivery and financing system on state costs and outcomes for general assistance medical clients. Outcomes measured shall include state costs, utilization, changes in mental health status and symptoms, and involvement in the criminal justice system.

(19) The department shall report to the governor and the fiscal committees of the legislature by June 1, 2010, on its progress toward achieving a twenty percentage point increase in the generic prescription drug utilization rate.

(20) State funds shall not be used by hospitals for advertising purposes.

(21) The department shall seek a medicaid state plan amendment to create a professional services supplemental payment program for University of Washington medicine professional providers no later than July 1, 2009. The department shall apply federal rules for identifying the shortfall between current fee-for-service medicaid payments to participating providers and the applicable federal upper payment limit. Participating providers shall be solely responsible for providing the local funds required to obtain federal matching funds. Any incremental costs incurred by the department in the development, implementation, and maintenance of this program will be the responsibility of the participating providers. Participating providers will retain the full amount of supplemental payments provided under this program, net of any potential costs for any related audits or litigation brought against the state. The department shall report to the governor and the legislative fiscal committees on the prospects for expansion of the program to other qualifying providers as soon as feasibility is determined but no later than December 31, 2009. The report will outline estimated impacts on the participating providers, the procedures necessary to comply with federal guidelines, and the administrative resource requirements necessary to implement the program. The department will create a process for expansion of the program to other qualifying providers as soon as it is determined feasible by both the department and providers but no later than June 30, 2010.

FIFTH DAY, MARCH 19, 2010

(22) \$9,350,000 of the general fund--state appropriation for fiscal year 2010, \$8,313,000 of the general fund--state appropriation for fiscal year 2011, and \$20,371,000 of the general fund--federal appropriation are provided solely for development and implementation of a replacement system for the existing medicaid management information system. The amounts provided in this subsection are conditioned on the department satisfying the requirements of section 902 of this act.

(23) \$506,000 of the general fund--state appropriation for fiscal year 2011 and \$657,000 of the general fund--federal appropriation are provided solely for the implementation of Second Substitute House Bill No. 1373 (children's mental health). (24) Pursuant to 42 U.S.C. Sec. 1396(a)(25), the department shall pursue insurance claims on behalf of medicaid children served through its in-home medically intensive child program under WAC 388-551-3000. The department shall report to the Legislature by December 31, 2009, on the results of its efforts to recover such claims.

(25) The department may, on a case-by-case basis and in the best interests of the child, set payment rates for medically intensive home care services to promote access to home care as an alternative to hospitalization. Expenditures related to these increased payments shall not exceed the amount the department would otherwise pay for hospitalization for the child receiving medically intensive home care services.

(26) \$425,000 of the general fund--state appropriation for fiscal year 2010, \$425,000 of the general fund--state appropriation for fiscal year 2011, and \$1,580,000 of the general fund--federal appropriation are provided solely to continue children's health coverage outreach and education efforts under RCW 74.09.470. These efforts shall rely on existing relationships and systems developed with local public health agencies, health care providers, public schools, the women, infants, and children program, the early childhood education and assistance program, child care providers, newborn visiting nurses, and other community-based organizations. The department shall seek public-private partnerships and federal funds that are or may become available to provide on-going support for outreach and education efforts under the federal children's health insurance program reauthorization act of 2009.

(27) The department, in conjunction with the office of financial management, shall ~~((reduce outpatient and inpatient hospital rates and))~~ implement a prorated inpatient payment policy. ~~((In determining the level of reductions needed, the department shall include in its calculations services paid under fee for service, managed care, and certified public expenditure payment methods; but reductions shall not apply to payments for psychiatric inpatient services or payments to critical access hospitals.))~~

(28) The department will pursue a competitive procurement process for antihemophilic products, emphasizing evidence-based medicine and protection of patient access without significant disruption in treatment.

(29) The department will pursue several strategies towards reducing pharmacy expenditures including but not limited to increasing generic prescription drug utilization by 20 percentage points and promoting increased utilization of the existing mail-order pharmacy program.

(30) The department shall reduce reimbursement for over-the-counter medications while maintaining reimbursement for those over-the-counter medications that can replace more costly prescription medications.

(31) The department shall seek public-private partnerships and federal funds that are or may become available to implement health

information technology projects under the federal American recovery and reinvestment act of 2009.

(32) The department shall target funding for maternity support services towards pregnant women with factors that lead to higher rates of poor birth outcomes, including hypertension, a preterm or low birth weight birth in the most recent previous birth, a cognitive deficit or developmental disability, substance abuse, severe mental illness, unhealthy weight or failure to gain weight, tobacco use, or African American or Native American race.

(33) The department shall direct graduate medical education funds to programs that focus on primary care training.

(34) \$79,000 of the general fund--state appropriation for fiscal year 2010 and \$53,000 of the general fund--federal appropriation are provided solely to implement Substitute House Bill No. 1845 (medical support obligations).

(35) \$63,000 of the general fund--state appropriation for fiscal year 2010, \$583,000 of the general fund--state appropriation for fiscal year 2011, and \$864,000 of the general fund--federal appropriation are provided solely to implement Engrossed House Bill No. 2194 (extraordinary medical placement for offenders). The department shall work in partnership with the department of corrections to identify services and find placements for offenders who are released through the extraordinary medical placement program. The department shall collaborate with the department of corrections to identify and track cost savings to the department of corrections, including medical cost savings, and to identify and track expenditures incurred by the aging and disability services program for community services and by the medical assistance program for medical expenses. A joint report regarding the identified savings and expenditures shall be provided to the office of financial management and the appropriate fiscal committees of the legislature by November 30, 2010. If this bill is not enacted by June 30, 2009, the amounts provided in this subsection shall lapse.

(36) Sufficient amounts are provided in this section to provide full benefit dual eligible beneficiaries with medicare part D prescription drug copayment coverage in accordance with RCW 74.09.520.

Strike everything after the enacting clause and insert the following:

"Sec. 1. RCW 82.60.010 and 1985 c 232 s 1 are each amended to read as follows:

The legislature finds that there are several areas in the state that are characterized by very high levels of unemployment and poverty. The ~~((legislative legislature))~~ legislature further finds that economic stagnation is the primary cause of this high

unemployment rate and poverty; that new state policies are necessary in order to promote economic stimulation and new employment opportunities in these distressed areas; and that policies providing incentives for economic growth in these distressed areas are essential. For these reasons, the legislature ~~((hereby))~~ reestablishes a tax deferral program to be effective solely in distressed ~~((areas and under circumstances where the deferred tax payments are for investments or costs that result in the creation of a specified number of jobs))~~ counties. The legislature declares that this limited program serves the vital public purpose of creating employment opportunities and reducing poverty in the distressed ~~((areas))~~ counties of the state.

Sec. 2. RCW 82.60.020 and 2010 c ... (SHB 3066) s 138 are each amended to read as follows:

Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

(1) "Applicant" means a person applying for a tax deferral under this chapter.

(2) "Department" means the department of revenue.

(3) "Eligible area" means ((a)):

(a) Through June 30, 2010, a rural county as defined in RCW 82.14.370; and

(b) ((The lessor or owner of a qualified building is not eligible for a deferral unless:

(i) The underlying ownership of the buildings, machinery, and equipment vests exclusively in the same person; or

(ii)(A) The lessor by written contract agrees to pass the economic benefit of the deferral to the lessee;

(B) The lessee that receives the economic benefit of the deferral agrees in writing with the department to complete the annual survey required under RCW 82.60.070; and

(C) The economic benefit of the deferral passed to the lessee is no less than the amount of tax deferred by the lessor and is evidenced by written documentation of any type of payment, credit, or other financial arrangement between the lessor or owner of the qualified building and the lessee.

(c)) "Eligible investment project" does not include any portion of an investment project undertaken by a light and power business as defined in RCW 82.16.010(4), other than that portion of a cogeneration project that is used to generate power for consumption within the manufacturing site of which the cogeneration project is an integral part, or investment projects ((which)) that have already received deferrals under this chapter.

(5) "Initiation of construction" has the same meaning as in RCW 82.63.010.

(6) "Investment project" means an investment in qualified buildings or qualified machinery and equipment, including labor and services rendered in the planning, installation, and construction of the project.

(9) "Qualified buildings" means construction of new structures, and expansion or renovation of existing structures for the purpose of increasing floor space or production capacity used for manufacturing and research and development activities, including plant offices and warehouses or other facilities for the storage of raw material or finished goods if such facilities are an essential or an integral part of a factory, mill, plant, or laboratory used for manufacturing or research and development. If a building is used partly for manufacturing or research and development and partly for other purposes, the applicable tax deferral ~~((shall))~~ must be determined by apportionment of the costs of construction under rules adopted by the department.

(10) "Qualified employment position" means a permanent full-time employee employed in the eligible investment project during the entire tax year. The term "entire tax year" means a full-time position that is filled for a period of twelve consecutive months. (13) "Recipient" means a person receiving a tax deferral under this chapter.

~~((13))~~ (14) "Research and development" means the development, refinement, testing, marketing, and commercialization of a product, service, or process before commercial sales have begun, but only when such activities are intended to ultimately result in the production of a new, different, or useful substance or article of tangible personal property for sale. As used in this subsection, "commercial sales" excludes sales of prototypes or sales for market testing if the total gross receipts from such sales of the product, service, or process do not exceed one million dollars.

**NEW SECTION. Sec. 3.** A new section is added to chapter 82.60 RCW to read as follows:

The department, with the assistance of the employment security department, must establish a list of qualifying counties effective July 1, 2010. The list of qualifying counties is effective for a twenty-four month period and must be updated by July 1st of the year that is two calendar years after the list was established or last updated, as the case may be.

**NEW SECTION. Sec. 4.** A new section is added to chapter 82.60 RCW to read as follows:

The lessor or owner of a qualified building is not eligible for a deferral unless:

(2)(a) The lessor by written contract agrees to pass the economic benefit of the deferral to the lessee;

(b) The lessee that receives the economic benefit of the deferral agrees in writing with the department to complete the annual survey required under RCW 82.60.070; and

The application ~~((shall))~~ must be made to the department in a form and manner prescribed by the department. The application ~~((shall))~~ must contain information regarding the location of the investment project, the applicant's average employment in the state for the prior year, estimated or actual new employment related to the project, estimated or actual wages of employees related to the project, estimated or actual costs, time schedules for completion and operation, and other information required by the department. The department ~~((shall))~~ must rule on the application within sixty days.

(2) This section expires July 1, 2020.

**Sec. 6.** RCW 82.60.040 and 2004 c 25 s 4 are each amended to read as follows:

(1) The department ~~((shall))~~ must issue a sales and use tax deferral certificate for state and local sales and use taxes due under chapters 82.08, 82.12, and 82.14 RCW on each eligible investment project ~~((that is located in an eligible area as defined in RCW 82.60.020)).~~

(b) The positions will be filled by persons who at the time of hire are residents of the community empowerment zone. As used in this subsection, "resident" means the person makes his or her home in the community empowerment zone or the county in which the zone is located. A mailing address alone is insufficient to establish that a person is a resident for the purposes of this section. The persons must be hired after the date the application is filed with the department.

1	10%
2	15%
3	20%
4	25%
5	30%

(2) The department may authorize an accelerated repayment schedule upon request of the recipient.

(3) Interest (~~(shall)~~ may not be charged on any taxes deferred under this chapter for the period of deferral, although all other penalties and interest applicable to delinquent excise taxes may be assessed and imposed for delinquent payments under this chapter. The debt for deferred taxes will not be extinguished by insolvency or other failure of the recipient. Transfer of ownership does not terminate the deferral. The deferral is transferred, subject to the successor meeting the eligibility requirements of this chapter, for the remaining periods of the deferral.

**Sec. 9.** RCW 82.60.070 and 2010 c ... (SHB 3066) s 139 are each amended to read as follows:

(1)(a) Each recipient of a deferral of taxes granted under this chapter must file a complete annual survey with the department under RCW 82.32. . . (section 102, chapter . . . (2) The credit is equal to:

(a)(i)(A) Property taxes paid on buildings, and land upon which the buildings are located, constructed after December 1, 2003, and used exclusively in manufacturing commercial airplanes or components of such airplanes; and

(B) Leasehold excise taxes paid with respect to buildings constructed after January 1, 2006, the land upon which the buildings are located, or both, if the buildings are used exclusively in manufacturing commercial airplanes or components of such airplanes; and

(C) Property taxes or leasehold excise taxes paid on, or with respect to, buildings constructed after June 30, 2008, the land upon which the buildings are located, or both, and used exclusively for aerospace product development, manufacturing tooling specifically designed for use in manufacturing commercial airplanes or their components, or in providing aerospace services, by persons not within the scope of (a)(i)(A) and (B) of this subsection (2) and are taxable under RCW 82.04.290(3), 82.04.260((44)) (10)(b), or 82.04.250(3); or

(B) The denominator of the fraction is the total taxable amount subject to the tax imposed under all manufacturing classifications in chapter 82.04 RCW.

(C) For purposes of both the numerator and denominator of the fraction, the total taxable amount refers to the total taxable amount required to be reported on the person's returns for the calendar year before the calendar year in which the credit under this section is earned. (D) No credit is available under (b)(i)(A) or (B) of this subsection (2) if either the numerator or the denominator of the fraction is zero. If the fraction is greater than or equal to nine-tenths, then the fraction is rounded to one.

(E) As used in (b)(ii)(C) of this subsection (2)((b)(ii)), "returns" means the tax returns for which the tax imposed under this chapter is reported to the department.

POINT OF INQUIRY

Senator Pflug: "Would Senator Keiser yield to a question? Given that the JLARC study showed that the non-profit hospitals contributed significantly less to charity care than the for-profits. I'm having a hard time understanding why they're included in getting a break from the new increase. The public hospitals also are already given breaks so I'm just trying to understand what the rationale for this was?"

Senator Keiser: "Thank you Senator, I believe that the JLARC study actually did not make any assumption about the for profit hospitals doing more than the non-profit hospitals but did recommend a look at the non-profit hospitals tax status. I'm open and willing to that, to do that as well and have made that clear. Nevertheless, for the increase in this tax proposal it would behoove us. I think, at this point, to exempt the non-profit and public hospitals from the increase."

2010 1ST SPECIAL SESSION

Creating a workforce housing program. Revised for 1st Substitute: Creating a workforce housing program. (REVISED FOR ENGROSSED: Creating the Washington works housing program.)

The measure was read the second time.

#### MOTION

Senator Prentice moved that the following committee striking amendment by the Committee on Ways & Means be adopted:

Strike everything after the enacting clause and insert the following:

**"NEW SECTION. Sec. 1.** This act may be known and cited as the Washington works housing act of 2010.

**Sec. 2.** RCW 43.180.160 and 2009 c 291 s 1 are each amended to read as follows:

(1) The total amount of outstanding indebtedness of the commission may not exceed six billion dollars at any time. The calculation of outstanding indebtedness shall include the initial principal amount of an issue and shall not include interest that is either currently payable or that accrues as a part of the face amount of an issue payable at maturity or earlier redemption. Outstanding indebtedness shall not include notes or bonds as to which the obligation of the commission has been satisfied and discharged by refunding or for which payment has been provided by reserves or otherwise.

(2)(a) The Washington works housing program is created to increase opportunities for nonprofit organizations and public agencies to purchase, acquire, build, and own real property to be used for affordable housing for low and moderate-income households. The Washington works housing program is intended to provide access to new funding mechanisms and build long-term community equity by increasing the stock of permanently affordable housing owned by nonprofit organizations and public agencies.

(b) The Washington works housing program is intended to provide these opportunities for public agencies and nonprofit organizations, including those materially participating as a managing member or general partner of a partnership, limited liability company, or equivalent organization, through the issuance of tax exempt or taxable revenue bonds issued by the commission in conjunction with a subsidy necessary to make bond issues to finance affordable housing properties financially feasible. The program is intended to provide financing for affordable housing that will meet the following income and rent restrictions during the period of initial bond indebtedness and thereafter:

(c) During the period of initial bond indebtedness under the program, the owner of the property must meet one of the following requirements: A minimum of twenty percent of the units will be occupied by households earning less than fifty percent of area median income and an additional thirty-one percent of the units will be occupied by persons earning less than eighty percent of area median income; or forty percent of the units will be occupied by households earning less than sixty percent of area median income and an additional eleven percent of the units will be occupied by households earning less than eighty percent of area median income.

(d) After the initial bond indebtedness is retired, the rents charged for units in the project will be adjusted to be sufficient to pay reasonable operation and maintenance expenses, including necessary capital needs, and to make reasonable deposits into a reserve account with the intent of providing affordable housing to very low or low-income households for the remaining useful life of the property. The reasonableness of the rent levels must be periodically approved by the commission based on information

provided by the owner of the property about income, expenses, and necessary reserve levels. The determination of the commission regarding the reasonableness of the rent levels will be final.

(e) The commission will enter into a recorded regulatory agreement with the borrower at the time of the issuance of bonds under the program for the purpose of ensuring that the property will meet the income and rent restrictions established in this section. The commission may charge such compliance fees as necessary to ensure enforcement of the income and rent restrictions during the useful life of the property.

(3) One billion dollars of the outstanding indebtedness of the commission is for the primary purpose of implementing the Washington works housing program.

(4) If no subsidies are available to make the program in subsection (2) of this section feasible; then the commission may pass a resolution stating these facts and authorize the use of a portion of the one billion dollars of indebtedness intended for the program to support its other bond programs until such time as the one billion dollars is exhausted or subsidies are available to make the program feasible.

**Sec. 3.** RCW 39.86.100 and 2001 c 330 s 1 are each amended to read as follows:

The federal ~~((tax reform act))~~ internal revenue code of 1986, ~~as amended~~ imposes ~~((an annual))~~ ceilings on the aggregate amount of ~~((federally tax-exempt private activity))~~ certain types of bonds, including tax-exempt private activity bonds ~~((for housing, student loans, exempt facilities, small issue industrial, redevelopment, and certain public utility projects))~~ and other types, that may be issued during any calendar year by or on behalf of states and their political subdivisions. ~~((In 2001, the ceiling will be increased to sixty two dollars and fifty cents per capita and in 2002 the ceiling will be increased to seventy five dollars per capita, to be indexed annually, for 2003 and every year thereafter. However, a study by the department of community development indicates that the dollar amount of the state ceiling is considerably less than the anticipated dollar amount for which issuers would need an allocation from the state ceiling.))~~ The ~~((tax reform act of 1986))~~ code provides a formula for allocating the annual tax-exempt private activity bond ceiling among various issuers of private activity bonds for housing, student loans, exempt facilities, and redevelopment projects within a state, but permits each state to enact a different allocation method that is appropriate to that state's needs. In addition, congress might, from time to time, amend the code by authorizing state ceilings on additional types of bonds. The purpose of this chapter is to provide a flexible and efficient method of allocating the annual state ceiling in Washington in a manner that recognizes the need of the state and its political subdivisions to finance activities or projects that satisfy a substantial public purpose.

**Sec. 4.** RCW 39.86.110 and 2009 c 565 s 23 are each reenacted and amended to read as follows:

(3) The remainder shall be allocated by the agency among one or more issuers from any bond use category with regard to the criteria specified in RCW 39.86.130.

(4) Should any bond use category no longer be subject to the state ceiling due to federal or state provisions of law, the agency shall divide the amount of that initial allocation among the remaining categories as necessary or appropriate with regard to the criteria specified in RCW 39.86.130. ~~((Upon the earlier of: (a) Exhaustion of the seven hundred fifty million dollar authority under I.R.C. 1317(25), or any new federal legislation increasing the amount of authority, or creating additional authority; or (b) waiver of the authority described under (a) of this subsection due to alternative federal authority that does not use a state volume cap, then the alternative allocation schedule in subsection (1) of this section will be used.))~~

(5)(a) Prior to ~~((September 1))~~ July 1st of each calendar year, any available portion of an initial allocation may be allocated or reallocated only to an issuer within the same bond use category, except that the remainder category, or portions thereof, may be allocated at any time to any bond use category.

(3) The agency may approve or deny an allocation for all or a portion of the issuer's request. Any denied request, however, shall remain on file with the agency for the remainder of the calendar year and shall be considered for receiving any allocation, reallocation, or carryforward of unused portions of the state ceiling during that period.

(4) After receiving an allocation request, the agency shall mail to the requesting issuer a written certificate of approval or notice of denial for an allocation amount, by a date no later than the latest of the following:

(b) Any other criteria the agency deems appropriate.

(7) If an issuer determines that bonds subject to the state ceiling will not be issued for the project or program for which an allocation was granted, the issuer shall promptly notify the agency in writing so that the allocation may be canceled and the amount may be available for reallocation.

MESSAGE FROM THE HOUSE

"NEW SECTION. Sec. 1. INTENT. (1) The legislature finds that:

March 19, 2010

MR. PRESIDENT:

(a) Low-income families and individuals often face significant barriers to receiving the services and benefits that they are qualified to receive. These services are essential to meeting individuals' basic needs, and provide critical support to low-income individuals

EIGHTH DAY, MARCH 22, 2010

who are working or who have disabilities that prevent them from working;

(b) Each year millions of federal dollars go unclaimed due to underutilization of benefits such as tax credits, health care coverage, and food support;

(c) State agencies have been engaged in an effort to implement an online benefit portal to simplify and streamline access to state, federal, and local benefits that include a broad array of public benefits;

(d) Access to education and training gives low-income individuals and families the opportunity to acquire the skills they need to become successfully employed and attain self-sufficiency; and

(e) Agencies have been engaged in efforts to increase access to training and education for recipients of federal food assistance.

(2) The legislature therefore intends to strengthen existing efforts by providing enhanced structure and direction to ensure that a strong partnership among colleges, state agencies, community partners, and philanthropy be established. The legislature also intends to provide an efficient, effective, integrated approach to the delivery of basic support services and education and training programs. The integrated approach should include the creation of a one-stop-shop, online benefits portal where individuals can apply for a broad array of services, including public benefits and education and training support, and the expansion of the food stamp employment and training program.

(3) The legislature further finds that:

(a) The general assistance program can be reformed to better support the ability of persons who are unable to work due to physical or mental health impairments to either return to work, or transition to federal supplemental security income benefits; and

(b) Persons who are homeless and suffering from mental illness or chemical dependency are particularly vulnerable, because homelessness is a substantial barrier to successful participation in, and completion of, needed treatment services.

(4) Through the reforms included in this act, the legislature intends to end the general assistance program and establish the disability lifeline program, and to implement multiple strategies designed to improve the employment and basic support outcomes of persons receiving disability lifeline benefits. The legislature further intends to focus services on persons who are homeless and have a mental illness or chemical dependency by providing housing vouchers as an alternative to a cash grant so that these persons can be in stable housing and thus have a greater opportunity to succeed in treatment.

NEW SECTION. Sec. 2. A new section is added to chapter 74.04 RCW to read as follows:

**OPPORTUNITY PORTAL.** (1) An online opportunity portal shall be established to provide the public with more effective access to available state, federal, and local services. The secretary of the department of social and health services shall act as the executive branch sponsor of the portal planning process. Under the leadership of the secretary, the department shall:

(a) Identify and select an appropriate solution and acquisition approach to integrate technology systems to create a user-friendly electronic tool for Washington residents to apply for benefits;

(b) Facilitate the adaptation of state information technology systems to allow applications generated through the opportunity portal and other compatible electronic application systems to seamlessly link to appropriate state information systems;

(c) Ensure that the portal provides access to a broad array of state, federal, and local services, including but not limited to: Health care services, higher education financial aid, tax credits, civic engagement, nutrition assistance, energy assistance, family support,

and disability lifeline benefits as defined in sections 4 through 13 of this act;

(d) Design an implementation strategy for the portal that maximizes collaboration with community-based organizations to facilitate its use by low-income individuals and families;

(e) Provide access to the portal at a wide array of locations including but not limited to: Community or technical colleges, community college campuses where community service offices are colocated, community-based organizations, libraries, churches, food banks, state agencies, early childhood education sites, and labor unions;

(f) Ensure project resources maximize available federal and private funds for development and initial operation of the opportunity portal. Any incidental costs to state agencies shall be derived from existing resources. This subsection does not obligate or preclude the appropriation of future state funding for the opportunity portal;

(g) Determine the solution and acquisition approach by June 1, 2010.

(2) By December 1, 2011, and annually thereafter, the department of social and health services shall report to the legislature and governor. The report shall include data and information on implementation and outcomes of the opportunity portal, including any increases in the use of public benefits and increases in federal funding.

(3) The department shall develop a plan for implementing paperless application processes for the services included in the opportunity portal for which the electronic exchange of application information is possible. The plan should include a goal of achieving, to the extent possible, the transition of these services to paperless application processes by July 1, 2012. The plan must comply with federal statutes and regulations and must allow applicants to submit applications by alternative means to ensure that access to benefits will not be restricted.

(4) To the extent that the department enters into a contractual relationship to accomplish the purposes of this section, such contract or contracts shall be performance-based.

NEW SECTION. Sec. 3. A new section is added to chapter 74.04 RCW to read as follows:

**BASIC FOOD EMPLOYMENT AND TRAINING PROGRAM.** (1) The department, the employment security department, and the state board for community and technical colleges shall work in partnership to expand the food stamp employment and training program. Subject to federal approval, the program shall be expanded to three additional community colleges or other community-based locations in 2010 and shall expand capacity at participating colleges. To the greatest extent possible, expansion shall be geographically diverse. The agencies shall:

(a) Identify and seek out partnerships with community-based organizations that can provide support services and case management to participants through performance-based contracts in the food stamp employment and training program, and do not replace the positions or work of department employees;

(b) Identify eligible nonfederal matching funds to draw down the federal match for food stamp employment and training services. Matching funds may include: Local funds, foundation grants, employer-paid costs, and the state allocation to community and technical colleges.

(2) Employment and training funds may be allocated for: Educational programs to develop skills for employability, vocational education, English as a second language courses, adult basic education, GED courses, remedial programs, job readiness training, case management, intake, assessment, evaluation, and barrier removal and support services such as tuition, books, child care, transportation, housing, and counseling services.

EIGHTH DAY, MARCH 22, 2010

2010 1ST SPECIAL SESSION

(3) The department shall annually track and report outcomes including those achieved through performance-based contracts as follows: Federal funding received, the number of participants served, achievement points, the number of participants who enter employment during or after participation in the food stamp employment and training program, and the average wage of jobs attained. The report shall be submitted to the governor and appropriate committees of the legislature on November 1st of each year, beginning in 2010.

(4) For purposes of this section, "food stamp employment and training program" refers to a program established and administered through the employment security department and the department of social and health services.

**Sec. 4.** RCW 74.04.005 and 2003 1st sp.s. c 10 s 1 are each amended to read as follows:

For the purposes of this title, unless the context indicates otherwise, the following definitions shall apply:

(ii) Are incapacitated from gainful employment by reason of bodily or mental infirmity that will likely continue for a minimum of ninety days as determined by the department. (A) Are citizens or aliens lawfully admitted for permanent residence or otherwise residing in the United States under color of law;

(B) Have furnished the department their social security number. If the social security number cannot be furnished because it has not been issued or is not known, an application for a number shall be made prior to authorization of benefits, and the social security number shall be provided to the department upon receipt;

(C) Have not refused or failed without good cause to participate in drug or alcohol treatment if an assessment by a certified chemical dependency counselor indicates a need for such treatment. Good cause must be found to exist when a person's physical or mental condition, as determined by the department, prevents the person from participating in drug or alcohol dependency treatment, when needed outpatient drug or alcohol treatment is not available to the person in the county of his or her residence or when needed inpatient treatment is not available in a location that is reasonably accessible for the person; and

(D) Have not refused or failed without good cause to participate in vocational rehabilitation services, if an assessment conducted under section 5 of this act indicates that the person might benefit from such services. Good cause must be found to exist when a person's physical or mental condition, as determined by the

department, prevents the person from participating in vocational rehabilitation services, or when vocational rehabilitation services are not available to the person in the county of his or her residence.

(b)(i) Persons who initially apply and are found eligible for disability lifeline benefits based upon incapacity from gainful employment under (a) of this subsection on or after September 2, 2010, who are homeless and have been assessed as needing chemical dependency or mental health treatment or both, must agree, as a condition of eligibility for the disability lifeline program, to accept a housing voucher in lieu of a cash grant if a voucher is available. The department shall establish the dollar value of the housing voucher. The dollar value of the housing voucher may differ from the value of the cash grant. Persons receiving a housing voucher under this subsection also shall receive a cash stipend of fifty dollars per month.

(ii) If the department of commerce has determined under section 8 of this act that sufficient housing is not available, persons described in this subsection who apply for disability lifeline benefits during the time period that housing is not available shall receive a cash grant in lieu of a cash stipend and housing voucher.

(iii) Persons who refuse to accept a housing voucher under this subsection but otherwise meet the eligibility requirements of (a) of this subsection are eligible for medical care services benefits under RCW 74.09.035, subject to the time limits in (h) of this subsection.

(c) The following persons are not eligible for the disability lifeline program:

These persons shall be referred to appropriate assessment, treatment, shelter, or supplemental security income referral services as authorized under chapter 74.50 RCW. (ii) Persons who refuse or fail to cooperate in obtaining federal aid assistance, without good cause.

(d) Disability lifeline benefits shall be provided only to persons who are not members of assistance units receiving federal aid assistance, except as provided in (a) of this subsection, and who will accept available services that can reasonably be expected to enable the person to work or reduce the need for assistance unless there is good cause to refuse. Failure to accept such services shall result in termination until the person agrees to cooperate in accepting such services and subject to the following maximum periods of ineligibility after reapplication:

(i) First failure: One week;

(ii) Second failure within six months: One month;

(iii) Third and subsequent failure within one year: Two months.

(e) Persons who are likely eligible for federal supplemental security income benefits shall be moved into the disability lifeline expedited component of the disability lifeline program. Persons placed in the expedited component of the program may, if otherwise eligible, receive disability lifeline benefits pending application for federal supplemental security income benefits. The monetary value of any disability lifeline benefit that is subsequently duplicated by the person's receipt of supplemental security income for the same period shall be considered a debt due the state and shall by operation of law be subject to recovery through all available legal remedies.

(f) For purposes of determining whether a person is incapacitated from gainful employment under (a) of this subsection:

(i) The department shall adopt by rule medical criteria for

EIGHTH DAY, MARCH 22, 2010

disability lifeline incapacity determinations to ensure that eligibility decisions are consistent with statutory requirements and are based on clear, objective medical information; and

(ii) The process implementing the medical criteria shall involve consideration of opinions of the treating or consulting physicians or health care professionals regarding incapacity, and any eligibility decision which rejects uncontroverted medical opinion must set forth clear and convincing reasons for doing so.

(g) Persons receiving disability lifeline benefits based upon a finding of incapacity from gainful employment who remain otherwise eligible shall have their benefits discontinued unless the recipient demonstrates no material improvement in their medical or mental health condition. The department may discontinue benefits when there was specific error in the prior determination that found the person eligible by reason of incapacitation.

(h)(i) Beginning September 1, 2010, no person who is currently receiving or becomes eligible for disability lifeline program benefits shall be eligible to receive benefits under the program for more than twenty-four months in a sixty-month period. For purposes of this subsection, months of receipt of general assistance-unemployable benefits count toward the twenty-four month limit. Months during which a person received benefits under the expedited component of the disability lifeline or general assistance program or under the aged, blind, or disabled component of the disability lifeline or general assistance program shall not be included when determining whether a person has been receiving benefits for more than twenty-four months. On or before July 1, 2010, the department must review the cases of all persons who have received disability lifeline benefits or general assistance unemployable benefits for at least twenty months as of that date. On or before September 1, 2010, the department must review the cases of all remaining persons who have received disability lifeline benefits for at least twelve months as of that date. The review should determine whether the person meets the federal supplemental security income disability standard and, if the person does not meet that standard, whether the receipt of additional services could lead to employability. If a need for additional services is identified, the department shall provide case management services, such as assistance with arranging transportation or locating stable housing, that will facilitate the person's access to needed services. A person may not be determined ineligible due to exceeding the time limit unless he or she has received a case review under this subsection finding that the person does not meet the federal supplemental security income disability standard.

(ii) The time limits established under this subsection expire June 30, 2013.

(i) No person may be considered an eligible individual for disability lifeline benefits with respect to any month if during that month the person:

(i) Is fleeing to avoid prosecution of, or to avoid custody or confinement for conviction of, a felony, or an attempt to commit a felony, under the laws of the state of Washington or the place from which the person flees; or

(ii) Is violating a condition of probation, community supervision, or parole imposed under federal or state law for a felony or gross misdemeanor conviction.

(6) "Disability lifeline expedited" means a component of the disability lifeline program under which persons receiving disability lifeline benefits have been determined, after examination by an appropriate health care provider, to be likely to be eligible for federal supplemental security income benefits based on medical and behavioral health evidence that meets the disability standards used for the federal supplemental security income program.

(7) "Federal aid assistance"--The specific categories of assistance for which provision is made in any federal law existing or

hereafter passed by which payments are made from the federal government to the state in aid or in respect to payment by the state for public assistance rendered to any category of needy persons for which provision for federal funds or aid may from time to time be made, or a federally administered needs-based program.

((((6(a) "General assistance"--Aid to persons in need who:

(i) Are not eligible to receive federal-aid assistance, other than food stamps or food stamp benefits transferred electronically and medical assistance; however, an individual who refuses or fails to cooperate in obtaining federal-aid assistance, without good cause, is not eligible for general assistance;

(ii) Meet one of the following conditions:

(A) Pregnant: PROVIDED, That need is based on the current income and resource requirements of the federal temporary assistance for needy families program; or

(B) Subject to chapter 165, Laws of 1992, incapacitated from gainful employment by reason of bodily or mental infirmity that will likely continue for a minimum of ninety days as determined by the department.

(C) Persons who are unemployable due to alcohol or drug addiction are not eligible for general assistance. Persons receiving general assistance on July 26, 1987, or becoming eligible for such assistance thereafter, due to an alcohol or drug-related incapacity, shall be referred to appropriate assessment, treatment, shelter, or supplemental security income referral services as authorized under chapter 74.50 RCW. Referrals shall be made at the time of application or at the time of eligibility review. Alcoholic and drug addicted clients who are receiving general assistance on July 26, 1987, may remain on general assistance if they otherwise retain their eligibility until they are assessed for services under chapter 74.50 RCW. Subsection (6)(a)(ii)(B) of this section shall not be construed to prohibit the department from granting general assistance benefits to alcoholics and drug addicts who are incapacitated due to other physical or mental conditions that meet the eligibility criteria for the general assistance program;

(iii) Are citizens or aliens lawfully admitted for permanent residence or otherwise residing in the United States under color of law; and

(iv) Have furnished the department their social security account number. If the social security account number cannot be furnished because it has not been issued or is not known, an application for a number shall be made prior to authorization of assistance, and the social security number shall be provided to the department upon receipt.

(b) Notwithstanding the provisions of subsection (6)(a)(i), (ii), and (c) of this section, general assistance shall be provided to the following recipients of federal-aid assistance:

(i) Recipients of supplemental security income whose need, as defined in this section, is not met by such supplemental security income grant because of separation from a spouse; or

(ii) To the extent authorized by the legislature in the biennial appropriations act, to recipients of temporary assistance for needy families whose needs are not being met because of a temporary reduction in monthly income below the entitled benefit payment level caused by loss or reduction of wages or unemployment compensation benefits or some other unforeseen circumstances. The amount of general assistance authorized shall not exceed the difference between the entitled benefit payment level and the amount of income actually received.

(c) General assistance shall be provided only to persons who are not members of assistance units receiving federal aid assistance, except as provided in subsection (6)(a)(ii)(A) and (b) of this section, and will accept available services which can reasonably be expected to enable the person to work or reduce the need for assistance unless there is good cause to refuse. Failure to accept such services shall

EIGHTH DAY, MARCH 22, 2010

2010 1ST SPECIAL SESSION

result in termination until the person agrees to cooperate in accepting such services and subject to the following maximum periods of ineligibility after reapplication:

- (i) First failure: One week;
- (ii) Second failure within six months: One month;
- (iii) Third and subsequent failure within one year: Two months.

(d) Persons found eligible for general assistance based on incapacity from gainful employment may, if otherwise eligible, receive general assistance pending application for federal supplemental security income benefits. Any general assistance that is subsequently duplicated by the person's receipt of supplemental security income for the same period shall be considered a debt due the state and shall by operation of law be subject to recovery through all available legal remedies.

(e) The department shall adopt by rule medical criteria for general assistance eligibility to ensure that eligibility decisions are consistent with statutory requirements and are based on clear, objective medical information.

(f) The process implementing the medical criteria shall involve consideration of opinions of the treating or consulting physicians or health care professionals regarding incapacity, and any eligibility decision which rejects uncontroverted medical opinion must set forth clear and convincing reasons for doing so.

(g) Recipients of general assistance based upon a finding of incapacity from gainful employment who remain otherwise eligible shall have their benefits discontinued unless the recipient demonstrates no material improvement in their medical or mental condition. The department may discontinue benefits when there was specific error in the prior determination that found the recipient eligible by reason of incapacitation. Recipients of general assistance based upon pregnancy who relinquish their child for adoption, remain otherwise eligible, and are not eligible to receive benefits under the federal temporary assistance for needy families program shall not have their benefits terminated until the end of the month in which the period of six weeks following the birth of the recipient's child falls. Recipients of the federal temporary assistance for needy families program who lose their eligibility solely because of the birth and relinquishment of the qualifying child may receive general assistance through the end of the month in which the period of six weeks following the birth of the child falls.

(h) No person may be considered an eligible individual for general assistance with respect to any month if during that month the person:

- (i) Is fleeing to avoid prosecution of, or to avoid custody or confinement for conviction of, a felony, or an attempt to commit a felony, under the laws of the state of Washington or the place from which the person flees; or
- (ii) Is violating a condition of probation, community supervision, or parole imposed under federal or state law for a felony or gross misdemeanor conviction.

(7)) ~~(8)~~ (8) "Applicant"--Any person who has made a request, or on behalf of whom a request has been made, to any county or local office for assistance.

~~((9))~~ (10) "Standards of assistance"--The level of income required by an applicant or recipient to maintain a level of living specified by the department.

~~((10))~~ (11) "Resource"--Any asset, tangible or intangible, owned by or available to the applicant at the time of application, which can be applied toward meeting the applicant's need, either directly or by conversion into money or its equivalent. The department may by rule designate resources that an applicant may

retain and not be ineligible for public assistance because of such resources. Exempt resources shall include, but are not limited to:

- (a) A home that an applicant, recipient, or their dependents is living in, including the surrounding property;
- (b) Household furnishings and personal effects;
- (c) A motor vehicle, other than a motor home, used and useful having an equity value not to exceed five thousand dollars;
- (d) A motor vehicle necessary to transport a ~~((physically disabled))~~ household member with a physical disability. This exclusion is limited to one vehicle per ~~((physically disabled))~~ person with a physical disability;

(e) All other resources, including any excess of values exempted, not to exceed one thousand dollars or other limit as set by the department, to be consistent with limitations on resources and exemptions necessary for federal aid assistance. The department shall also allow recipients of temporary assistance for needy families to exempt savings accounts with combined balances of up to an additional three thousand dollars;

(f) Applicants for or recipients of ~~((general assistance))~~ disability lifeline benefits shall have their eligibility based on resource limitations consistent with the temporary assistance for needy families program rules adopted by the department; and

(g) If an applicant for or recipient of public assistance possesses property and belongings in excess of the ceiling value, such value shall be used in determining the need of the applicant or recipient, except that: (i) The department may exempt resources or income when the income and resources are determined necessary to the applicant's or recipient's restoration to independence, to decrease the need for public assistance, or to aid in rehabilitating the applicant or recipient or a dependent of the applicant or recipient; and (ii) the department may provide grant assistance for a period not to exceed nine months from the date the agreement is signed pursuant to this section to persons who are otherwise ineligible because of excess real property owned by such persons when they are making a good faith effort to dispose of that property: PROVIDED, That:

(A) The applicant or recipient signs an agreement to repay the lesser of the amount of aid received or the net proceeds of such sale;

(B) If the owner of the excess property ceases to make good faith efforts to sell the property, the entire amount of assistance may become an overpayment and a debt due the state and may be recovered pursuant to RCW 43.20B.630;

(C) Applicants and recipients are advised of their right to a fair hearing and afforded the opportunity to challenge a decision that good faith efforts to sell have ceased, prior to assessment of an overpayment under this section; and

(D) At the time assistance is authorized, the department files a lien without a sum certain on the specific property.

~~((11))~~ (12) "Income"--(a) All appreciable gains in real or personal property (cash or kind) or other assets, which are received by or become available for use and enjoyment by an applicant or recipient during the month of application or after applying for or receiving public assistance. The department may by rule and regulation exempt income received by an applicant for or recipient of public assistance which can be used by him or her to decrease his or her need for public assistance or to aid in rehabilitating him or her or his or her dependents, but such exemption shall not, unless otherwise provided in this title, exceed the exemptions of resources granted under this chapter to an applicant for public assistance. In addition, for cash assistance the department may disregard income pursuant to RCW 74.08A.230 and 74.12.350.

(b) If, under applicable federal requirements, the state has the option of considering property in the form of lump sum compensatory awards or related settlements received by an applicant or recipient as income or as a resource, the department shall consider such property to be a resource.

EIGHTH DAY, MARCH 22, 2010

~~((12))~~ (13) "Need"--The difference between the applicant's or recipient's standards of assistance for himself or herself and the dependent members of his or her family, as measured by the standards of the department, and value of all nonexempt resources and nonexempt income received by or available to the applicant or recipient and the dependent members of his or her family.

~~((13))~~ (14) For purposes of determining eligibility for public assistance and participation levels in the cost of medical care, the department shall exempt restitution payments made to people of Japanese and Aleut ancestry pursuant to the Civil Liberties Act of 1988 and the Aleutian and Pribilof Island Restitution Act passed by congress, P.L. 100-383, including all income and resources derived therefrom.

~~((14))~~ (15) In the construction of words and phrases used in this title, the singular number shall include the plural, the masculine gender shall include both the feminine and neuter genders and the present tense shall include the past and future tenses, unless the context thereof shall clearly indicate to the contrary.

**NEW SECTION. Sec. 5.** A new section is added to chapter 74.04 RCW to read as follows:

**REFERRAL TO THE DIVISION OF VOCATIONAL REHABILITATION.** (1) The economic services administration shall work jointly with the division of vocational rehabilitation to develop an assessment tool that must be used to determine whether the programs offered by the division of vocational rehabilitation could assist persons receiving disability lifeline benefits in returning to the work force. The assessment tool shall be completed no later than December 1, 2010. The economic services administration shall begin using the tool no later than January 1, 2011. No later than December 30, 2011, the department shall report on the use of the tool and to what extent the programs offered by the division of vocational rehabilitation have been successful in returning persons receiving disability lifeline benefits to the work force.

(2) After January 1, 2011, all persons receiving disability lifeline benefits shall be assessed to determine whether they would likely benefit from a program offered by the division of vocational rehabilitation. If the assessment indicates that the person might benefit, the economic services administration shall make a referral to the division of vocational rehabilitation. If the person is found eligible for a program with the division of vocational rehabilitation, he or she must participate in that program to remain eligible for the monthly stipend and housing voucher or a cash grant. If the person refuses to participate or does not complete the program, the department shall terminate the cash stipend and housing voucher or cash grant but may not terminate medical coverage and food benefits.

**NEW SECTION. Sec. 6.** A new section is added to chapter 74.04 RCW to read as follows:

**REFERRAL TO THE DEPARTMENT OF VETERANS AFFAIRS.** During the application process for disability lifeline benefits, the department shall inquire of each applicant whether he or she has ever served in the United States military service. If the applicant answers in the affirmative, the department shall confer with a veterans benefit specialist with the Washington state department of veterans affairs or a contracted veterans service officer in the community to determine whether the applicant is eligible for any benefits or programs offered to veterans by either the state or the federal government.

**NEW SECTION. Sec. 7.** A new section is added to chapter 74.04 RCW to read as follows:

**EARLY SSI TRANSITION PROJECT.** (1) To ensure that persons who are likely eligible for supplemental security income benefits are transitioned from disability lifeline benefits to disability lifeline expedited and the medicaid program, and then to the supplemental security income program as quickly as practicable, the

department shall implement the early supplemental security income transition project starting in King, Pierce, and Spokane counties no later than July 1, 2010, and extending statewide no later than October 1, 2011. The program shall be implemented through performance-based contracts with managed health care systems providing medical care services under RCW 74.09.035 or other qualified entities. The participants shall have the following responsibilities and duties under this program:

(a) The entities with whom the department contracts to provide the program shall be responsible for:

(i) Systematically screening persons receiving disability lifeline benefits at the point of eligibility determination or shortly thereafter to determine if the persons should be referred for medical or behavioral health evaluations to determine whether they are likely eligible for supplemental security income;

(ii) Immediately sharing the results of the disability screening with the department;

(iii) Managing disability lifeline incapacity evaluation examinations to provide timely access to needed medical and behavioral health evaluations and standardizing health care providers' conduct of incapacity evaluations. To maximize the timeliness and efficiency of incapacity evaluation examinations, the department must strongly consider contracting with a managed health care system with a network of health care providers that are trained and have agreed to conduct disability lifeline medical and psychological incapacity and recertification exams. The department may obtain medical evidence and other relevant information from sources other than the contracted entity if such evidence is available at the time of a person's application for disability lifeline benefits and is sufficient to support a determination that the person is incapacitated;

(iv) Maintaining a centralized appointment and clinical data system; and

(v) Assisting persons receiving disability lifeline benefits with obtaining additional medical or behavioral health examinations needed to meet the disability standard for federal supplemental security income benefits and with submission of applications for supplemental security income benefits.

(b) The department shall be responsible for:

(i) Determining incapacity and eligibility for disability lifeline benefits;

(ii) Making timely determinations that a person receiving disability lifeline benefits is likely eligible for supplemental security income based on medical evidence and other relevant information provided by a contracted entity, and immediately referring such persons to a contracted entity for services;

(iii) Developing standardized procedures for sharing data and information with the contracted entities to ensure timely identification of clients who have not been transferred to the disability lifeline expedited program within four months of their date of application, but who may, upon further review, be appropriately transferred to that program;

(iv) Providing case management, in partnership with the managed health care system or contracted entity, to support persons' transition to federal supplemental security income and medicaid benefits; and

(v) Identifying a savings determination methodology, in consultation with the contracted entities, the office of financial management, and the legislature, on or before implementation of the project.

(2) Early supplemental security income transition project contracts shall include the following performance goals:

(a) Persons receiving disability lifeline benefits should be screened within thirty days of entering the program to determine the

EIGHTH DAY, MARCH 22, 2010

2010 1ST SPECIAL SESSION

propriety of their transfer to the disability lifeline expedited program; and

(b) Seventy-five percent of persons receiving disability lifeline benefits that appear likely to qualify for supplemental security income benefits shall be transferred to the disability lifeline expedited program within four months of their application for disability lifeline benefits.

(3) The initial focus of the efforts of the early supplemental security income transition project shall be on persons who have been receiving disability lifeline or general assistance unemployable benefits for twelve or more months as of September 1, 2010.

(4) No later than December 1, 2011, the department shall report to the governor and appropriate policy and fiscal committees on whether the early supplemental security income transition project performance goals in subsection (2) of this section were met, including the reasons those goals were or were not met.

(5) Pursuant to RCW 41.06.142(3), performance-based contracting under this section is expressly mandated by the legislature and is not subject to the processes set forth in RCW 41.06.142 (1), (4), and (5).

The statewide expansion of the program under this section shall be considered expressly mandated by the legislature and not be subject to the provisions of RCW 41.06.142 (1), (4), and (5).

**NEW SECTION. Sec. 8.** A new section is added to chapter 43.330 RCW to read as follows:

**DISABILITY LIFELINE HOUSING VOUCHER PROGRAM.** (1) To address the housing issues faced by the disability lifeline applicants in RCW 74.04.005(5)(b), the department of commerce and the department of social and health services shall jointly develop a housing voucher program. The departments also shall develop housing resources to be used by the applicants in RCW 74.04.005(5)(b). To the greatest extent possible, the housing resources shall follow the supportive housing model. The department of commerce shall administer the housing voucher program and shall:

(a) Identify the current supply of private and public housing including acquisition and rental of existing housing stock;

(b) Develop funding strategies for the development of housing resources; and

(c) Design the voucher program to maximize the ability of the department of social and health services to recover federal funding.

(2) If the department of commerce determines that the housing supply is inadequate to meet the need for those applicants qualifying for housing vouchers under RCW 74.04.005(5)(b), those applicants shall instead receive a cash grant administered by the department of social and health services. Upon the department of commerce's determination that the housing supply is adequate to meet the needs of the applicants in RCW 74.04.005(5)(b), housing vouchers rather than cash grants shall be issued to these applicants who apply on or after the department's determination.

(3) The department of commerce and the department of social and health services shall evaluate the impact of the use of housing vouchers under this section and report to the governor and relevant policy and fiscal committees of the legislature by November 30, 2012, on the following items:

(a) The supply, affordability, appropriateness, and use of stable housing;

(b) The following outcomes for persons receiving disability lifeline housing vouchers:

(i) Participation in and completion of chemical dependency or mental health treatment;

(ii) Contact with law enforcement, including arrest and conviction data;

(iii) Use of emergency room services; and

(iv) Involuntary commitment under chapter 71.05 RCW.

**NEW SECTION. Sec. 9.** A new section is added to chapter 70.47 RCW to read as follows:

**BASIC HEALTH PLAN ENROLLMENT.** In order to ensure continuity of health care coverage and avoid deterioration in health status, persons who have lost eligibility for disability lifeline benefits under RCW 74.04.005(5) due to improvement in their health status and who are eligible for subsidized basic health coverage shall be given priority for enrollment in the basic health plan. If the administrator closes or limits subsidized enrollment, to the extent funding is available, the basic health plan must continue to accept and process applications for subsidized enrollment from persons described in this section.

**NEW SECTION. Sec. 10.** A new section is added to chapter 70.96A RCW to read as follows:

**ACCESS TO CHEMICAL DEPENDENCY TREATMENT.** If an assessment by a certified chemical dependency counselor indicates a need for drug or alcohol treatment, in order to enable a person receiving disability lifeline benefits to improve his or her health status and transition from disability lifeline benefits to employment, or transition to federal disability benefits, the person must be given high priority for enrollment in treatment, within funds appropriated for that treatment. However, first priority for receipt of treatment services must be given to pregnant women and parents of young children. This section expires June 30, 2013. Persons who are terminated from disability lifeline benefits under RCW 74.04.005(5)(h) and are actively engaged in chemical dependency treatment during the month they are terminated shall be provided the opportunity to complete their current course of treatment.

**NEW SECTION. Sec. 11.** A new section is added to chapter 74.04 RCW to read as follows:

By December 1, 2012, the Washington state institute for public policy shall submit a report to the governor and the relevant policy and fiscal committees of the legislature that:

(1) Analyzes the experience of persons who have been terminated from disability lifeline benefits pursuant to RCW 74.04.005(5). The report shall include at least the following information:

(a) The number of persons terminated from the program who transition to supplemental security income benefits;

(b) The number of persons who become employed;

(c) The rate at which the affected persons use hospital emergency room services;

(d) The number of persons involuntarily committed under chapter 71.05 RCW;

(e) The number of persons arrested or convicted of criminal offenses; and

(f) The mortality rate of the affected persons; and

(2) Reports as to whether the case review standards and early supplemental security income transition project performance goals in RCW 74.04.005(5) have been met by the department.

**Sec. 12.** RCW 10.101.010 and 1998 c 79 s 2 are each amended to read as follows:

(1) "Indigent" means a person who, at any stage of a court proceeding, is:

(2) "Indigent and able to contribute" means a person who, at any stage of a court proceeding, is unable to pay the anticipated cost of counsel for the matter before the court because his or her available funds are less than the anticipated cost of counsel but sufficient for the person to pay a portion of that cost.

(3) "Anticipated cost of counsel" means the cost of retaining private counsel for representation on the matter before the court.

(4) "Available funds" means liquid assets and disposable net monthly income calculated after provision is made for bail obligations. For the purpose of determining available funds, the following definitions shall apply:

(a) "Liquid assets" means cash, savings accounts, bank accounts, stocks, bonds, certificates of deposit, equity in real estate, and equity in motor vehicles. A motor vehicle necessary to maintain employment and having a market value not greater than three thousand dollars shall not be considered a liquid asset.

(b) "Income" means salary, wages, interest, dividends, and other earnings which are reportable for federal income tax purposes, and cash payments such as reimbursements received from pensions, annuities, social security, and public assistance programs. **Sec. 13.** RCW 13.34.030 and 2009 c 520 s 21 and 2009 c 397 s 1 are each reenacted and amended to read as follows:

For purposes of this chapter:

(1) "Abandoned" means when the child's parent, guardian, or other custodian has expressed, either by statement or conduct, an intent to forego, for an extended period, parental rights or responsibilities despite an ability to exercise such rights and responsibilities. If the court finds that the petitioner has exercised due diligence in attempting to locate the parent, no contact between the child and the child's parent, guardian, or other custodian for a period of three months creates a rebuttable presumption of abandonment, even if there is no expressed intent to abandon.

(2) "Child" and "juvenile" means any individual under the age of eighteen years.

(3) "Current placement episode" means the period of time that begins with the most recent date that the child was removed from the home of the parent, guardian, or legal custodian for purposes of placement in out-of-home care and continues until: (a) The child returns home; (b) an adoption decree, a permanent custody order, or guardianship order is entered; or (c) the dependency is dismissed, whichever occurs first.

(4) "Department" means the department of social and health services.

(5) "Dependency guardian" means the person, nonprofit corporation, or Indian tribe appointed by the court pursuant to this chapter for the limited purpose of assisting the court in the supervision of the dependency.

(6) "Dependent child" means any child who:

(a) Has been abandoned;

(b) Is abused or neglected as defined in chapter 26.44 RCW by a person legally responsible for the care of the child; or

(c) Has no parent, guardian, or custodian capable of adequately caring for the child, such that the child is in circumstances which constitute a danger of substantial damage to the child's psychological or physical development.

(7) "Developmental disability" means a disability attributable to mental retardation, cerebral palsy, epilepsy, autism, or another neurological or other condition of an individual found by the secretary to be closely related to mental retardation or to require treatment similar to that required for individuals with mental retardation, which disability originates before the individual attains age eighteen, which has continued or can be expected to continue indefinitely, and which constitutes a substantial handicap to the individual.

(8) "Guardian" means the person or agency that: (a) Has been appointed as the guardian of a child in a legal proceeding other than a proceeding under this chapter; and (b) has the legal right to custody of the child pursuant to such appointment. The term "guardian" shall not include a "dependency guardian" appointed pursuant to a proceeding under this chapter.

(9) "Guardian ad litem" means a person, appointed by the court to represent the best interests of a child in a proceeding under this chapter, or in any matter which may be consolidated with a proceeding under this chapter. A "court-appointed special advocate" appointed by the court to be the guardian ad litem for the child, or to perform substantially the same duties and functions as a guardian ad litem, shall be deemed to be guardian ad litem for all purposes and uses of this chapter.

(10) "Guardian ad litem program" means a court-authorized volunteer program, which is or may be established by the superior court of the county in which such proceeding is filed, to manage all aspects of volunteer guardian ad litem representation for children alleged or found to be dependent. Such management shall include but is not limited to: Recruitment, screening, training, supervision, assignment, and discharge of volunteers.

(11) "Housing assistance" means appropriate referrals by the department or other supervising agencies to federal, state, local, or private agencies or organizations, assistance with forms, applications, or financial subsidies or other monetary assistance for housing. For purposes of this chapter, "housing assistance" is not a remedial service or time-limited family reunification service as described in RCW 13.34.025(2).

(a) Receiving one of the following types of public assistance: Temporary assistance for needy families, ~~((general assistance))~~ disability lifeline benefits, poverty-related veterans' benefits, food stamps or food stamp benefits transferred electronically, refugee resettlement benefits, medicaid, or supplemental security income; or

(b) Involuntarily committed to a public mental health facility; or

(c) Receiving an annual income, after taxes, of one hundred twenty- five percent or less of the federally established poverty level; or

(d) Unable to pay the anticipated cost of counsel for the matter before the court because his or her available funds are insufficient to pay any amount for the retention of counsel.

(13) "Out-of-home care" means placement in a foster family home or group care facility licensed pursuant to chapter 74.15 RCW or placement in a home, other than that of the child's parent, guardian, or legal custodian, not required to be licensed pursuant to chapter 74.15 RCW.

(14) "Preventive services" means preservation services, as defined in chapter 74.14C RCW, and other reasonably available services, including housing assistance, capable of preventing the need for out- of-home placement while protecting the child.

(2) Undisbursed reverse mortgage funds must be treated as equity in the borrower's home and not as proceeds from a loan, resources, or assets for the purpose of determining eligibility and benefits under means-tested programs of aid to individuals.

(3) This section applies to any law or program relating to payments, allowances, benefits, or services provided on a means-tested basis by this state including, but not limited to, optional state supplements to the federal supplemental security income program, low-income energy assistance, property tax relief, ~~((general assistance))~~ disability lifeline benefits, and medical assistance only to the extent this section does not conflict with Title 19 of the federal social security act.

(4) "Indirect costs" includes those allowable costs that are generally associated with carrying out the statutory objectives of this chapter, but the identification and tracking of those costs cannot be readily assigned to a specific statutory objective without an accounting effort that is disproportionate to the benefit received. Grant assistance shall not be provided under this chapter if the applicant does not reside in the most appropriate living situation, as determined by the department.

(2) A pregnant minor residing in the most appropriate living situation, as provided under subsection (1) of this section, is presumed to be unable to manage adequately the funds paid to the minor or on behalf of the dependent child or children and, unless the minor provides sufficient evidence to rebut the presumption, shall be subject to the protective payee requirements provided for under RCW 74.12.250 and 74.08.280.

This presumption is rebuttable.

(4) In cases in which the minor is unmarried and unemployed, the department shall, as part of the determination of the appropriate living situation, provide information about adoption including referral to community-based organizations providing counseling.

(5) For the purposes of this section, "most appropriate living situation" shall not include a living situation including an adult male who fathered the qualifying child and is found to meet the elements of rape of a child as set forth in RCW 9A.44.079.

## MOTION

"**Sec. 1.** RCW 82.60.010 and 1985 c 232 s 1 are each amended to read as follows:

The legislature finds that there are several areas in the state that are characterized by very high levels of unemployment and poverty. The ~~((legislative—legislature))~~ legislature further finds that economic stagnation is the primary cause of this high unemployment rate and poverty; that new state policies are necessary in order to promote economic stimulation and new employment opportunities in these distressed areas; and that policies providing incentives for economic growth in these distressed areas are essential. For these reasons, the legislature ~~((hereby))~~ reestablishes a tax deferral program to be effective solely in distressed ~~((areas and under circumstances where the deferred tax payments are for investments or costs that result in the creation of a specified number of jobs))~~ counties. The legislature declares that this limited program serves the vital public purpose of creating employment opportunities and reducing poverty in the distressed ~~((areas))~~ counties of the state.

"**Sec. 2.** RCW 82.60.020 and 2010 c ... (SHB 3066) s 138 are each amended to read as follows:

(i) The underlying ownership of the buildings, machinery, and equipment vests exclusively in the same person; or

(ii)(A) The lessor by written contract agrees to pass the economic benefit of the deferral to the lessee;

(B) The lessee that receives the economic benefit of the deferral agrees in writing with the department to complete the annual survey required under RCW 82.60.070; and

As used in this subsection, "commercial sales" excludes sales of prototypes or sales for market testing if the total gross receipts from such sales of the product, service, or process do not exceed one million dollars.

**NEW SECTION. Sec. 3.** A new section is added to chapter 82.60 RCW to read as follows:

The department, with the assistance of the employment security department, must establish a list of qualifying counties effective July 1, 2010. The department ~~((shall))~~ must rule on the application within sixty days.

(b) The positions will be filled by persons who at the time of hire are residents of the community empowerment zone. As used in this subsection, "resident" means the person makes his or her home in the community empowerment zone or the county in which the zone is located. (4) The qualified employment position must be filled by the end of the calendar year following the year in which the project is certified as operationally complete. If a person does not meet the requirements for qualified employment positions by the end of the second calendar year following the year in which the project is certified as operationally complete, all deferred taxes are immediately due.

**Sec. 8.** RCW 82.60.060 and 2000 c 106 s 5 are each amended to read as follows:

(1) The recipient ~~((shall))~~ must begin paying the deferred taxes in the third year after the date certified by the department as the date on which the ~~((construction))~~ investment project has been operationally completed. The first payment will be due on December 31st of the third calendar year after such certified date, with subsequent annual payments due on December 31st of the following four years with amounts of payment scheduled as follows:

Repayment Year	% of Deferred Tax Repaid
1	10%
2	15%
3	20%
4	25%
5	30%

(2) The department may authorize an accelerated repayment schedule upon request of the recipient.

(3) Interest ~~((shall))~~ may not be charged on any taxes deferred under this chapter for the period of deferral, although all other penalties and interest applicable to delinquent excise taxes may be assessed and imposed for delinquent payments under this chapter. The debt for deferred taxes will not be extinguished by insolvency or other failure of the recipient. Transfer of ownership does not terminate the deferral. The deferral is transferred, subject to the

ELEVENTH DAY, MARCH 25, 2010

successor meeting the eligibility requirements of this chapter, for the remaining periods of the deferral.

**Sec. 9.** RCW 82.60.070 and 2010 c ... (SHB 3066) s 139 are each amended to read as follows:

(1)(a) Each recipient of a deferral of taxes granted under this chapter must file a complete annual survey with the department under RCW 82.32. . . (section 102, chapter . . . (SHB 3066), Laws of 2010). If the economic benefits of the deferral are passed to a lessee as provided in (~~RCW 82.60.020(4))~~ section 4 of this act, the lessee must file a complete annual survey, and the applicant is not required to file a complete annual survey.

(b) The department must use the information reported on the annual survey required by this section to study the tax deferral program authorized under this chapter. The department must report to the legislature by December 1, (~~2009~~) 2019. The report must measure the effect of the program on job creation, the number of jobs created for residents of eligible areas, company growth, the introduction of new products, the diversification of the state's economy, growth in research and development investment, the movement of firms or the consolidation of firms' operations into the state, and such other factors as the department selects.

(2) Except as provided in section 10 of this act, if, on the basis of a survey under (~~section~~) RCW 82.32. . . (section 102, chapter . . . (SHB 3066), Laws of 2010) or other information, the department finds that an investment project is not eligible for tax deferral under this chapter, the amount of deferred taxes outstanding for the project (~~is~~), according to the repayment schedule in RCW 82.60.060, is immediately due. For purposes of this subsection (2)(a), the repayment schedule in RCW 82.60.060 is tolled during the period of time that a taxpayer is receiving relief from repayment of deferred taxes under section 10 of this act.

(3) A recipient who must repay deferred taxes under subsection (2) of this section because the department has found that an investment project is not eligible for tax deferral under this chapter is no longer required to file annual surveys under RCW 82.32. . . (section 102, chapter . . . (SHB 3066), Laws of 2010) beginning on the date an investment project is used for nonqualifying purposes.

(4) Notwithstanding any other provision of this section or RCW 82.32. . . (section 102, chapter . . . (SHB 3066), Laws of 2010), deferred taxes on the following need not be repaid:

(a) Machinery and equipment, and sales of or charges made for labor and services, which at the time of purchase would have qualified for exemption under RCW 82.08.02565; and

(b) Machinery and equipment which at the time of first use would have qualified for exemption under RCW 82.12.02565.

**NEW SECTION. Sec. 10.** A new section is added to chapter 82.60 RCW to read as follows:

(1) Subject to the conditions in this section, a person is not liable for the amount of deferred taxes outstanding for an investment project when the person temporarily ceases to use its qualified buildings and qualified machinery and equipment for manufacturing or research and development activities in a county with a population of less than twenty thousand persons for a period not to exceed twenty- four months from the date that the department sent its assessment for the amount of outstanding deferred taxes to the taxpayer.

(2) The relief from repayment of deferred taxes under this section does not apply unless the number of qualified employment positions maintained at the investment project after manufacturing or research and development activities are temporarily ceased is at least ten percent of the number of qualified employment positions employed at the investment project at the time the deferral was approved by the department. If a person has been approved for more than one deferral under this chapter, relief from repayment of deferred taxes under this section does not apply unless the number

of qualified employment positions maintained at the investment project after manufacturing or research and development activities are temporarily ceased is at least ten percent of the highest number of qualified employment positions at the investment project at the time any of the deferrals were approved by the department. If, at any time during the twenty-four month period after the department has sent the taxpayer an assessment for outstanding deferred taxes resulting from the person temporarily ceasing to use its qualified buildings and qualified machinery and equipment for manufacturing or research and development activities, the number of qualified employment positions falls below the ten percent threshold in this subsection, the amount of deferred taxes outstanding for the project is immediately due.

(3) The lessor of an investment project for which a deferral has been granted under this chapter who has passed the economic benefits of the deferral to the lessee is not eligible for relief from the payment of deferred taxes under this section.

(4) A person seeking relief from the payment of deferred taxes under this section must apply to the department in a form and manner prescribed by the department. The application required under this subsection must be received by the department within thirty days of the date that the department sent its assessment for outstanding deferred taxes resulting from the person temporarily ceasing to use its qualified buildings and qualified machinery and equipment for manufacturing or research and development activities. The department must approve applications that meet the requirements in this section for relief from the payment of deferred taxes.

(5) A person is entitled to relief under this section only once.

(6) A person whose application for relief from the payment of deferred taxes has been approved under this section must continue to file an annual survey as required under RCW 82.60.070(1) or any successor statute. In addition, the person must file, in a form and manner prescribed by the department, a report on the status of the business and the outlook for commencing manufacturing or research and development activities.

**Sec. 11.** RCW 82.62.010 and 2010 c ... (E2SHB 1597) s 232 are each amended to read as follows:

Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

(1) "Applicant" means a person applying for a tax credit under this chapter.

(2) "Department" means the department of revenue.

(b) "Eligible business project" does not include any portion of a business project undertaken by a light and power business as defined in RCW 82.16.010(~~(4)~~) or that portion of a business project creating qualified full-time employment positions outside an eligible area.

(ii) During a vacancy, the employer is training or actively recruiting a replacement permanent, full-time employee for the position.

(9) "Recipient" means a person receiving tax credits under this chapter.

As used in this subsection, "commercial sales" excludes sales of prototypes or sales for market testing if the total gross receipts from such sales of the product, service, or process do not exceed one million dollars.

(11) "Seasonal employee" means an employee of a seasonal employer who works on a seasonal basis. For the purposes of this subsection and subsection (12) of this section, "seasonal basis" means a continuous employment period of less than twelve consecutive months.

#### MESSAGE FROM THE HOUSE

March 20, 2010

MR. PRESIDENT:

ELEVENTH DAY, MARCH 25, 2010

The House passed SECOND ENGROSSED SUBSTITUTE SENATE BILL NO. 6143 with the following amendment(s): 6143-S.E2 AMH ENGR H5824.E

Strike everything after the enacting clause and insert the following:

"**NEW SECTION. Sec. 1.** In order to preserve funding for education, public safety, health care, environmental protection, and safety net services for children, elderly, disabled, and vulnerable people, it is the intent of the legislature to close obsolete tax preferences, clarify the legislature's intent regarding existing tax policy, and to ensure balanced tax policy while bolstering emerging industries.

### PART I

#### Minimum Nexus Standards

**NEW SECTION. Sec. 101.** (1) The legislature finds that out-of-state businesses that do not have a physical presence in Washington earn significant income from Washington residents from providing services or collecting royalties on the use of intangible property in this state. The legislature further finds that these businesses receive significant benefits and opportunities provided by the state, such as: Laws providing protection of business interests or regulating consumer credit; access to courts and judicial process to enforce business rights, including debt collection and intellectual property rights; an orderly and regulated marketplace; and police and fire protection and a transportation system benefiting in-state agents and other representatives of out-of-state businesses. Therefore, the legislature intends to extend the state's business and occupation tax to these companies to ensure that they pay their fair share of the cost of services that this state renders and the infrastructure it provides.

(2)(a) The legislature also finds that the current cost apportionment method in RCW 82.04.460(1) for apportioning most service income has been difficult for both taxpayers and the department to apply due in large part (i) to the difficulty in assigning certain costs of doing business inside or outside of this state, and (ii) to its dissimilarity with the apportionment methods used in other states for their business activity taxes.

(b) The legislature further finds that there is a trend among states to adopt a single factor apportionment formula based on sales. The legislature recognizes that adoption of a sales factor only apportionment method has the advantages of simplifying apportionment and making Washington a more attractive place for businesses to expand their property and payroll. For these reasons, the legislature adopts single factor sales apportionment for purposes of apportioning royalty income and certain service income for state business and occupation tax purposes.

(c) Nothing in this act may be construed, however, to authorize apportionment of the gross income or value of products taxable under the following business and occupation tax classifications: Retailing, wholesaling, manufacturing, processing for hire, extracting, extracting for hire, printing, government contracting, public road construction, the classifications in RCW 82.04.280 (2), (4), (6), and (7), and any other activity not specifically included in the definition of apportionable activities in RCW 82.04.460.

(d) Nothing in this part is intended to modify the nexus and apportionment requirements for local gross receipts business and occupation taxes.

**Sec. 102.** RCW 82.04.220 and 1961 c 15 s 82.04.220 are each amended to read as follows:

(1) There is levied and (~~shall be~~) collected from every person that has a substantial nexus with this state a tax for the act or privilege of engaging in business activities. (~~Such~~) The tax (~~shall be~~) is measured by the application of rates against value of products, gross

proceeds of sales, or gross income of the business, as the case may be.

(2) A person who has a substantial nexus with this state in any tax year will be deemed to have a substantial nexus with this state for the following tax year.

**NEW SECTION. Sec. 103.** A new section is added to chapter 82.04 RCW to read as follows:

"Engaging within this state" and "engaging within the state," when used in connection with any apportionable activity as defined in RCW 82.04.460, means that a person generates gross income of the business from sources within this state, such as customers or intangible property located in this state, regardless of whether the person is physically present in this state.

**NEW SECTION. Sec. 104.** A new section is added to chapter 82.04 RCW to read as follows:

(1) A person engaging in business is deemed to have substantial nexus with this state if the person is:

(a) An individual and is a resident or domiciliary of this state;

(b) A business entity and is organized or commercially domiciled in this state; or

(c) A nonresident individual or a business entity that is organized or commercially domiciled outside this state, and in any tax year the person has:

(i) More than fifty thousand dollars of property in this state;

(ii) More than fifty thousand dollars of payroll in this state;

(iii) More than two hundred fifty thousand dollars of receipts from this state; or

(iv) At least twenty-five percent of the person's total property, total payroll, or total receipts in this state.

(2)(a) Property counting toward the thresholds in subsection (1)(c)(i) and (iv) of this section is the average value of the taxpayer's property, including intangible property, owned or rented and used in this state during the tax year.

(b)(i) Property owned by the taxpayer, other than loans and credit card receivables owned by the taxpayer, is valued at its original cost basis. Loans and credit card receivables owned by the taxpayer are valued at their outstanding principal balance, without regard to any reserve for bad debts. However, if a loan or credit card receivable is charged off in whole or in part for federal income tax purposes, the portion of the loan or credit card receivable charged off is deducted from the outstanding principal balance.

(ii) Property rented by the taxpayer is valued at eight times the net annual rental rate. For purposes of this subsection, "net annual rental rate" means the annual rental rate paid by the taxpayer less any annual rental rate received by the taxpayer from subrentals.

(c) The average value of property must be determined by averaging the values at the beginning and ending of the tax year; but the department may require the averaging of monthly values during the tax year if reasonably required to properly reflect the average value of the taxpayer's property.

(d)(i) For purposes of this subsection (2), loans and credit card receivables are deemed owned and used in this state as follows:

(A) Loans secured by real property, personal property, or both real and personal property, are deemed owned and used in the state if the real property or personal property securing the loan is located within this state. If the property securing the loan is located both within this state and one or more other states, the loan is deemed owned and used in this state if more than fifty percent of the fair market value of the real or personal property is located within this state. If more than fifty percent of the fair market value of the real or personal property is not located within any one state, then the loan is deemed owned and used in this state if the borrower is located in this state. The determination of whether the real or personal property securing a loan is located within this state must be made, as

ELEVENTH DAY, MARCH 25, 2010

2010 1ST SPECIAL SESSION

of the time the original agreement was made, and any and all subsequent substitutions of collateral must be disregarded.

(B) Loans not secured by real or personal property are deemed owned and used in this state if the borrower is located in this state.

(C) Credit card receivables are deemed owned and used in this state if the billing address of the cardholder is in this state.

(ii)(A) Except as otherwise provided in (d)(ii)(B) of this subsection (2), the definitions in the multistate tax commission's recommended formula for the apportionment and allocation of net income of financial institutions as existing on the effective date of this section or such subsequent date as may be provided by the department by rule, consistent with the purposes of this section, apply to this section.

(B) "Credit card" means a card or device existing for the purpose of obtaining money, property, labor, or services on credit.

(e) Notwithstanding anything else to the contrary in this subsection, property counting toward the thresholds in subsection (1)(c)(i) and (iv) of this section does not include a person's ownership of, or rights in, computer software as defined in RCW 82.04.215, including computer software used in providing a digital automated service; master copies of software; and digital goods and digital codes residing on servers located in this state.

(3)(a) Payroll counting toward the thresholds in subsection (1)(c)(ii) and (iv) of this section is the total amount paid by the taxpayer for compensation in this state during the tax year plus nonemployee compensation paid to representative third parties in this state. Nonemployee compensation paid to representative third parties includes the gross amount paid to nonemployees who represent the taxpayer in interactions with the taxpayer's clients and includes sales commissions.

(b) Employee compensation is paid in this state if the compensation is properly reportable to this state for unemployment compensation tax purposes, regardless of whether the compensation was actually reported to this state.

(c) Nonemployee compensation is paid in this state if the service performed by the representative third party occurs entirely or primarily within this state.

(d) For purposes of this subsection, "compensation" means wages, salaries, commissions, and any other form of remuneration paid to employees or nonemployees and defined as gross income under 26 U.S.C. Sec. 61 of the federal internal revenue code of 1986, as existing on the effective date of this section.

(4) Receipts counting toward the thresholds in subsection (1)(c)(iii) and (iv) of this section are those amounts included in the numerator of the receipts factor under section 105 of this act and, for financial institutions, those amounts included in the numerator of the receipts factor under the rule adopted by the department as authorized in RCW 82.04.460(2).

(5)(a) Each December, the department must review the cumulative percentage change in the consumer price index. The department must adjust the thresholds in subsection (1)(c)(i) through (iii) of this section if the consumer price index has changed by five percent or more since the later of the effective date of this section, or the date that the thresholds were last adjusted under this subsection. For purposes of determining the cumulative percentage change in the consumer price index, the department must compare the consumer price index available as of December 1st of the current year with the consumer price index as of the later of the effective date of this section, or the date that the thresholds were last adjusted under this subsection. The thresholds must be adjusted to reflect that cumulative percentage change in the consumer price index. The adjusted thresholds must be rounded to the nearest one thousand dollars. Any adjustment will apply to tax periods that begin after the adjustment is made.

(b) As used in this subsection, "consumer price index" means the consumer price index for all urban consumers (CPI-U) available from the bureau of labor statistics of the United States department of labor.

(6) Subsections (1) through (5) of this section only apply with respect to the taxes imposed under this chapter on apportionable activities as defined in RCW 82.04.460. For purposes of the taxes imposed under this chapter on any activity not included in the definition of apportionable activities in RCW 82.04.460, a person is deemed to have a substantial nexus with this state if the person has a physical presence in this state, which need only be demonstrably more than a slightest presence. For purposes of this subsection, a person is physically present in this state if the person has property or employees in this state. A person is also physically present in this state if the person, either directly or through an agent or other representative, engages in activities in this state that are significantly associated with the person's ability to establish or maintain a market for its products in this state.

**NEW SECTION. Sec. 105.** A new section is added to chapter 82.04 RCW to read as follows:

(1) The apportionable income of a person within the scope of RCW 82.04.460(1) is apportioned to Washington by multiplying its apportionable income by the receipts factor. Persons who are subject to tax under more than one of the tax classifications enumerated in RCW 82.04.460(4)(a) (i) through (ix) must calculate a separate receipts factor for each tax classification that the person is taxable under.

(2) For purposes of subsection (1) of this section, the receipts factor is a fraction and is calculated as provided in subsections (3) and (4) of this section and, for financial institutions, as provided in the rule adopted by the department under the authority of RCW 82.04.460(2).

(3)(a) The numerator of the receipts factor is the total gross income of the business of the taxpayer attributable to this state during the tax year from engaging in an apportionable activity. The denominator of the receipts factor is the total gross income of the business of the taxpayer from engaging in an apportionable activity everywhere in the world during the tax year.

(b) Except as otherwise provided in this section, for purposes of computing the receipts factor, gross income of the business generated from each apportionable activity is attributable to the state:

(i) Where the customer received the benefit of the taxpayer's service or, in the case of gross income from royalties, where the customer used the taxpayer's intangible property.

(ii) If the customer received the benefit of the service or used the intangible property in more than one state, gross income of the business must be attributed to the state in which the benefit of the service was primarily received or in which the intangible property was primarily used.

(iii) If the taxpayer is unable to attribute gross income of the business under the provisions of (b)(i) or (ii) of this subsection (3), gross income of the business must be attributed to the state from which the customer ordered the service or, in the case of royalties, the office of the customer from which the royalty agreement with the taxpayer was negotiated.

(iv) If the taxpayer is unable to attribute gross income of the business under the provisions of (b)(i), (ii), or (iii) of this subsection (3), gross income of the business must be attributed to the state to which the billing statements or invoices are sent to the customer by the taxpayer.

(v) If the taxpayer is unable to attribute gross income of the business under the provisions of (b)(i), (ii), (iii), or (iv) of this subsection (3), gross income of the business must be attributed to the state from which the customer sends payment to the taxpayer.

ELEVENTH DAY, MARCH 25, 2010

2010 1ST SPECIAL SESSION

(vi) If the taxpayer is unable to attribute gross income of the business under the provisions of (b)(i), (ii), (iii), (iv), or (v) of this subsection (3), gross income of the business must be attributed to the state where the customer is located as indicated by the customer's address: (A) Shown in the taxpayer's business records maintained in the regular course of business; or (B) obtained during consummation of the sale or the negotiation of the contract for services or for the use of the taxpayer's intangible property, including any address of a customer's payment instrument when readily available to the taxpayer and no other address is available.

(vii) If the taxpayer is unable to attribute gross income of the business under the provisions of (b)(i), (ii), (iii), (iv), (v), or (vi) of this subsection (3), gross income of the business must be attributed to the commercial domicile of the taxpayer.

(viii) For purposes of this subsection (3)(b), "customer" means a person or entity to whom the taxpayer makes a sale or renders services or from whom the taxpayer otherwise receives gross income of the business. "Customer" includes anyone who pays royalties or charges in the nature of royalties for the use of the taxpayer's intangible property.

(c) Gross income of the business from engaging in an apportionable activity must be excluded from the denominator of the receipts factor if, in respect to such activity, at least some of the activity is performed in this state, and the gross income is attributable under (b) of this subsection (3) to a state in which the taxpayer is not taxable. For purposes of this subsection (3)(c), "not taxable" means that the taxpayer is not subject to a business activities tax by that state, except that a taxpayer is taxable in a state in which it would be deemed to have a substantial nexus with that state under the standards in section 104(1) of this act regardless of whether that state imposes such a tax. "Business activities tax" means a tax measured by the amount of, or economic results of, business activity conducted in a state. The term includes taxes measured in whole or in part on net income or gross income or receipts. "Business activities tax" does not include a sales tax, use tax, or a similar transaction tax, imposed on the sale or acquisition of goods or services, whether or not denominated a gross receipts tax or a tax imposed on the privilege of doing business.

(d) This subsection (3) does not apply to financial institutions with respect to apportionable income taxable under RCW 82.04.290. Financial institutions must calculate the receipts factor as provided in subsection (4) of this section and the rule adopted by the department under the authority of RCW 82.04.460(2) with respect to apportionable income taxable under RCW 82.04.290. Financial institutions that are subject to tax under any other tax classification enumerated in RCW 82.04.460(4)(a) (i) through (v) and (vii) through (x) must calculate a separate receipts factor, as provided in this section, for each of the other tax classifications that the financial institution is taxable under.

(4) A taxpayer may calculate the receipts factor for the current tax year based on the most recent calendar year for which information is available for the full calendar year. If a taxpayer does not calculate the receipts factor for the current tax year based on previous calendar year information as authorized in this subsection, the business must use current year information to calculate the receipts factor for the current tax year. In either case, a taxpayer must correct the reporting for the current tax year when complete information is available to calculate the receipts factor for that year, but not later than October 31st of the following tax year. Interest will apply to any additional tax due on a corrected tax return. Interest must be assessed at the rate provided for delinquent excise taxes under chapter 82.32 RCW, retroactively to the date the original return was due, and will accrue until the additional taxes are paid. Penalties as provided in RCW 82.32.090 will apply to any such additional tax due only if the current tax year reporting is not

corrected and the additional tax is not paid by October 31st of the following tax year. Interest as provided in RCW 82.32.060 will apply to any tax paid in excess of that properly due on a return as a result of a taxpayer using previous calendar year data or incomplete current-year data to calculate the receipts factor.

(2) For the purposes of this section, "gross income from royalties" means compensation for the use of intangible property, ((such as)) including charges in the nature of royalties, regardless of where the intangible property will be used. For purposes of this subsection, "intangible property" includes copyrights, patents, licenses, franchises, trademarks, trade names, and similar items. ((H)) "Gross income from royalties" does not include compensation for any natural resource, the licensing of prewritten computer software to the end user, or the licensing ((or use)) of digital goods, digital codes, or digital automated services to the end user as defined in RCW 82.04.190(11).

**Sec. 108.** RCW 82.04.460 and 2004 c 174 s 6 are each amended to read as follows:

(1) Except as otherwise provided in this section, any person ((rendering services)) earning apportionable income taxable under ((RCW 82.04.290 or 82.04.2908)) this chapter and ((maintaining places of business both within and without this state which contribute to the rendition of such services shall)) also taxable in another state, must, for the purpose of computing tax liability under ((RCW 82.04.290 or 82.04.2908)) this chapter, apportion to this state, in accordance with section 105 of this act, that portion of the person's ((gross)) apportionable income ((which is)) derived from ((services rendered)) business activities performed within this state.

2010 1ST SPECIAL SESSION

~~((Where such apportionment cannot be accurately made by separate accounting methods, the taxpayer shall apportion to this state that proportion of the taxpayer's total income which the cost of doing business within the state bears to the total cost of doing business both within and without the state.))~~

(2) ((Notwithstanding the provision of subsection (1) of this section, persons doing business both within and without the state who receive gross income from service charges, as defined in RCW 63.14.010 (relating to amounts charged for granting the right or privilege to make deferred or installment payments) or who receive gross income from engaging in business as financial institutions within the scope of chapter 82.14A RCW (relating to city taxes on financial institutions) shall apportion or allocate gross income taxable under RCW 82.04.290 to this state pursuant to rules promulgated by the department consistent with uniform rules for apportionment or allocation developed by the states.)) The department must by rule provide a method of apportioning the apportionable income of financial institutions, where such apportionable income is taxable under RCW 82.04.290. The rule adopted by the department must, to the extent feasible, be consistent with the multistate tax commission's recommended formula for the apportionment and allocation of net income of financial institutions as existing on the effective date of this section or such subsequent date as may be provided by the department by rule, consistent with the purposes of this section, except that:

(a) The department's rule must provide for a single factor apportionment method based on the receipts factor; and

(b) The definition of "financial institution" contained in appendix A to the multistate tax commission's recommended formula for the apportionment and allocation of net income of financial institutions is advisory only.

(3) The department ~~((shall))~~ may by rule provide a method or methods of apportioning or allocating gross income derived from sales of ~~telecommunications service and competitive telephone service~~(\*) taxed under this chapter, if the gross proceeds of sales subject to tax under this chapter do not fairly represent the extent of the taxpayer's income attributable to this state. ~~((The rules shall be, so far as feasible, consistent with the methods of apportionment contained in this section and shall require the consideration of those facts, circumstances, and apportionment factors as will result in an equitable and constitutionally permissible division of the services.))~~ The rule must provide for an equitable and constitutionally permissible division of the tax base.

(4) For purposes of this section, the following definitions apply unless the context clearly requires otherwise:

(a) "Apportionable income" means gross income of the business generated from engaging in apportionable activities, including income received from apportionable activities performed outside this state if the income would be taxable under this chapter if received from activities in this state, less the exemptions and deductions allowable under this chapter. - (v) RCW 82.04.286;
- (vi) RCW 82.04.290;
- (vii) RCW 82.04.2907;
- (viii) RCW 82.04.2908;
- (ix) RCW 82.04.263, but only to the extent of any activity that would be taxable under any of the provisions enumerated under (a)(i) through (viii) of this subsection (4) if the tax classification in RCW 82.04.263 did not exist; and

(x) RCW 82.04.260(13) and 82.04.280(1), but only with respect to advertising.

(b)(i) "Taxable in another state" means that the taxpayer is subject to a business activities tax by another state on its income received from engaging in apportionable activities; or the taxpayer is not subject to a business activities tax by another state on its income received from engaging in apportionable activities, but any other state has jurisdiction to subject the taxpayer to a business activities tax on such income under the substantial nexus standards in section 104(1) of this act.

(ii) For purposes of this subsection (4)(b), "business activities tax" and "state" have the same meaning as in section 105 of this act.

(2) Financial institutions must determine gains realized from trading in stocks, bonds, and other evidences of indebtedness on a net annualized basis. For purposes of this subsection, a financial institution means a person within the scope of the rule adopted by the department under the authority of RCW 82.04.460(2).

**NEW SECTION. Sec. 110.** A new section is added to chapter 82.04 RCW to read as follows:

(1) This chapter does not apply to amounts received by a financial institution from an affiliated person if the amounts are received from transactions that are required to be at arm's length under sections 23A or 23B of the federal reserve act as existing on the effective date of this section or such subsequent date as may be provided by the department by rule, consistent with the purposes of this section. For purposes of this subsection, "financial institution" has the same meaning as in RCW 82.04.080.

(2) As used in this section, "affiliated" means under common control. "Common control" means the possession, directly or indirectly, of more than fifty percent of the power to direct or cause the direction of the management and policies of a person, whether through the ownership of voting shares, by contract, or otherwise.

**NEW SECTION. Sec. 111.** A new section is added to chapter 82.04 RCW to read as follows:

- (b) "Securities" has the same meaning as in section 2 of the securities act of 1933 and includes eligible assets as defined by Rule

ELEVENTH DAY, MARCH 25, 2010

(g) "Affiliated" has the same meaning as in section 110 of this act.

## PART II

### Tax Avoidance Transactions

NEW SECTION. **Sec. 201.** (1) The legislature finds that this state's tax policy with respect to the taxation of transactions between affiliated entities and the income derived from such transactions (intercompany transactions) has motivated some taxpayers to engage in transactions designed solely or primarily to minimize the tax effects of intercompany transactions. The legislature further finds that some intercompany transactions result from taxpayers that are required to establish affiliated entities to comply with regulatory mandates and that transactions between such affiliates effectively increases the tax burden in this state on the affiliated group of entities.

(2) Therefore, as existing resources allow, the department of revenue is directed to conduct a review of the state's tax policy with respect to the taxation of intercompany transactions. The review must include the impacts of such transactions under the state's business and occupation tax and state and local sales and use taxes. The department may include other taxes in the review as it deems appropriate.

(3) In conducting the review, the department must examine how this state's tax policy compares to the tax policy of other states with respect to the taxation of intercompany transactions. The department's review must include an analysis of potential alternatives to the current policy of taxing intercompany transactions, including their estimated revenue impacts if practicable.

(4) In conducting this review, the department may seek input from members of the business community and others as it deems appropriate.

(5) The department must report its findings to the fiscal committees of the house of representatives and senate by December 1, 2010. However, if the department has not completed its review

2010 1ST SPECIAL SESSION

by December 1, 2010, the department must provide the fiscal committees of the legislature with a brief status report by December 1, 2010, and the final report by December 1, 2011.

**Sec. 202.** RCW 82.12.020 and 2009 c 535 s 305 are each amended to read as follows:

(1) There is ~~((hereby))~~ levied and ~~((there shall be))~~ collected from every person in this state a tax or excise for the privilege of using within this state as a consumer any:

(a) Article of tangible personal property ((purchased at retail, or)) acquired by ((lease, gift, repossession, or bailment, or extracted or produced or manufactured by the person so using the same, or otherwise furnished to a person engaged in any business taxable under RCW 82.04.280 (2) or (7))) the user in any manner, including tangible personal property acquired at a casual or isolated sale, and including by-products used by the manufacturer thereof, except as otherwise provided in this chapter, irrespective of whether the article or similar articles are manufactured or are available for purchase within this state;

(b) Prewritten computer software, regardless of the method of delivery, but excluding prewritten computer software that is either provided free of charge or is provided for temporary use in viewing information, or both;

(c) Services defined as a retail sale in RCW 82.04.050 (2)(a) or (g), (3)(a), or (6)(b), excluding services defined as a retail sale in RCW 82.04.050(6)(b) that are provided free of charge;

(d) Extended warranty; or

(e)(i) Digital good, digital code, or digital automated service, including the use of any services provided by a seller exclusively in connection with digital goods, digital codes, or digital automated services, whether or not a separate charge is made for such services.

(ii) With respect to the use of digital goods, digital automated services, and digital codes acquired by purchase, the tax imposed in this subsection (1)(e) applies in respect to:

(A) Sales in which the seller has granted the purchaser the right of permanent use;

(B) Sales in which the seller has granted the purchaser a right of use that is less than permanent;

(C) Sales in which the purchaser is not obligated to make continued payment as a condition of the sale; and

(D) Sales in which the purchaser is obligated to make continued payment as a condition of the sale.

(iii) With respect to digital goods, digital automated services, and digital codes acquired other than by purchase, the tax imposed in this subsection (1)(e) applies regardless of whether or not the consumer has a right of permanent use or is obligated to make continued payment as a condition of use.

(2) The provisions of this chapter do not apply in respect to the use of any article of tangible personal property, extended warranty, digital good, digital code, digital automated service, or service taxable under RCW 82.04.050 (2)(a) or (g), (3)(a), or (6)(b), if the sale to, or the use by, the present user or the present user's bailor or donor has already been subjected to the tax under chapter 82.08 RCW or this chapter and the tax has been paid by the present user or by the present user's bailor or donor.

(3)(a) Except as provided in this section, payment of the tax imposed by this chapter or chapter 82.08 RCW by one purchaser or user of tangible personal property, extended warranty, digital good, digital code, digital automated service, or other service does not have the effect of exempting any other purchaser or user of the same property, extended warranty, digital good, digital code, digital automated service, or other service from the taxes imposed by such chapters.

(b) The tax imposed by this chapter does not apply:

(i) If the sale to, or the use by, the present user or his or her bailor or donor has already been subjected to the tax under chapter

ELEVENTH DAY, MARCH 25, 2010

2010 1ST SPECIAL SESSION

82.08 RCW or this chapter and the tax has been paid by the present user or by his or her bailor or donor;

(ii) In respect to the use of any article of tangible personal property acquired by bailment and the tax has once been paid based on reasonable rental as determined by RCW 82.12.060 measured by the value of the article at time of first use multiplied by the tax rate imposed by chapter 82.08 RCW or this chapter as of the time of first use;

(iii) In respect to the use of any article of tangible personal property acquired by bailment, if the property was acquired by a previous bailee from the same bailor for use in the same general activity and the original bailment was prior to June 9, 1961; or

(iv) To the use of digital goods or digital automated services, which were obtained through the use of a digital code, if the sale of the digital code to, or the use of the digital code by, the present user or the present user's bailor or donor has already been subjected to the tax under chapter 82.08 RCW or this chapter and the tax has been paid by the present user or by the present user's bailor or donor.

(4)(a) Except as provided in (b) of this subsection (4), the tax is levied and must be collected in an amount equal to the value of the article used, value of the digital good or digital code used, value of the extended warranty used, or value of the service used by the taxpayer, multiplied by the applicable rates in effect for the retail sales tax under RCW 82.08.020.

(b) In the case of a seller required to collect use tax from the purchaser, the tax must be collected in an amount equal to the purchase price multiplied by the applicable rate in effect for the retail sales tax under RCW 82.08.020.

(5) For purposes of the tax imposed in this section, "person" includes anyone within the definition of "buyer," "purchaser," and "consumer" in RCW 82.08.010.

**Sec. 203.** RCW 82.45.010 and 2008 c 116 s 3 and 2008 c 6 s 701 are each reenacted and amended to read as follows:

(1) As used in this chapter, the term "sale" (~~shall have~~) has its ordinary meaning and (~~shall~~) includes any conveyance, grant, assignment, quitclaim, or transfer of the ownership of or title to real property, including standing timber, or any estate or interest therein for a valuable consideration, and any contract for such conveyance, grant, assignment, quitclaim, or transfer, and any lease with an option to purchase real property, including standing timber, or any estate or interest therein or other contract under which possession of the property is given to the purchaser, or any other person at the purchaser's direction, and title to the property is retained by the vendor as security for the payment of the purchase price. The term also includes the grant, assignment, quitclaim, sale, or transfer of improvements constructed upon leased land.

(2)(a) The term "sale" also includes the transfer or acquisition within any twelve-month period of a controlling interest in any entity with an interest in real property located in this state for a valuable consideration.

(b) For the sole purpose of determining whether, pursuant to the exercise of an option, a controlling interest was transferred or acquired within a twelve-month period, the date that the option agreement was executed is the date on which the transfer or acquisition of the controlling interest is deemed to occur. For all other purposes under this chapter, the date upon which the option is exercised is the date of the transfer or acquisition of the controlling interest.

(c) For purposes of this subsection, all acquisitions of persons acting in concert (~~shall~~) must be aggregated for purposes of determining whether a transfer or acquisition of a controlling interest has taken place. The department (~~of revenue shall~~) must adopt standards by rule to determine when persons are acting in concert. In adopting a rule for this purpose, the department (~~shall~~) must consider the following:

~~((a))~~ (i) Persons (~~shall~~) must be treated as acting in concert when they have a relationship with each other such that one person influences or controls the actions of another through common ownership; and

~~((b))~~ (ii) When persons are not commonly owned or controlled, they (~~shall~~) must be treated as acting in concert only when the unity with which the purchasers have negotiated and will consummate the transfer of ownership interests supports a finding that they are acting as a single entity. If the acquisitions are completely independent, with each purchaser buying without regard to the identity of the other purchasers, then the acquisitions (~~shall be~~) are considered separate acquisitions.

(3) The term "sale" (~~shall~~) does not include:

(a) A transfer by gift, devise, or inheritance.

(b) A transfer of any leasehold interest other than of the type mentioned above.

(c) A cancellation or forfeiture of a vendee's interest in a contract for the sale of real property, whether or not such contract contains a forfeiture clause, or deed in lieu of foreclosure of a mortgage.

(d) The partition of property by tenants in common by agreement or as the result of a court decree.

(e) The assignment of property or interest in property from one spouse or one domestic partner to the other spouse or other domestic partner in accordance with the terms of a decree of dissolution of marriage or state registered domestic partnership or in fulfillment of a property settlement agreement.

(f) The assignment or other transfer of a vendor's interest in a contract for the sale of real property, even though accompanied by a conveyance of the vendor's interest in the real property involved.

(g) Transfers by appropriation or decree in condemnation proceedings brought by the United States, the state or any political subdivision thereof, or a municipal corporation.

(h) A mortgage or other transfer of an interest in real property merely to secure a debt, or the assignment thereof.

(i) Any transfer or conveyance made pursuant to a deed of trust or an order of sale by the court in any mortgage, deed of trust, or lien foreclosure proceeding or upon execution of a judgment, or deed in lieu of foreclosure to satisfy a mortgage or deed of trust.

(j) A conveyance to the federal housing administration or veterans administration by an authorized mortgagee made pursuant to a contract of insurance or guaranty with the federal housing administration or veterans administration.

(k) A transfer in compliance with the terms of any lease or contract upon which the tax as imposed by this chapter has been paid or where the lease or contract was entered into prior to the date this tax was first imposed.

(l) The sale of any grave or lot in an established cemetery.

(m) A sale by the United States, this state or any political subdivision thereof, or a municipal corporation of this state.

(n) A sale to a regional transit authority or public corporation under RCW 81.112.320 under a sale/leaseback agreement under RCW 81.112.300.

(o) A transfer of real property, however effected, if it consists of a mere change in identity or form of ownership of an entity where there is no change in the beneficial ownership. These include transfers to a corporation or partnership which is wholly owned by the transferor and/or the transferor's spouse or domestic partner or children of the transferor or the transferor's spouse or domestic partner (~~PROVIDED, That~~). However, if thereafter such transferee corporation or partnership voluntarily transfers such real property, or such transferor, spouse or domestic partner, or children of the transferor or the transferor's spouse or domestic partner voluntarily transfer stock in the transferee corporation or interest in the transferee partnership capital, as the case may be, to other than

~~((H))~~ (i) the transferor and/or the transferor's spouse or domestic partner or children of the transferor or the transferor's spouse or domestic partner, ~~((2))~~ (ii) a trust having the transferor and/or the transferor's spouse or domestic partner or children of the transferor or the transferor's spouse or domestic partner as the only beneficiaries at the time of the transfer to the trust, or ~~((3))~~ (iii) a corporation or partnership wholly owned by the original transferor and/or the transferor's spouse or domestic partner or children of the transferor or the transferor's spouse or domestic partner, within three years of the original transfer to which this exemption applies, and the tax on the subsequent transfer has not been paid within sixty days of becoming due, excise taxes ~~((shall))~~ become due and payable on the original transfer as otherwise provided by law.

(p)(i) A transfer that for federal income tax purposes does not involve the recognition of gain or loss for entity formation, liquidation or dissolution, and reorganization, including but not limited to nonrecognition of gain or loss because of application of ~~((section))~~ 26 U.S.C. Sec. 332, 337, 351, 368(a)(1), 721, or 731 of the internal revenue code of 1986, as amended.

(ii) However, the transfer described in (p)(i) of this subsection cannot be preceded or followed within a twelve-month period by another transfer or series of transfers, that, when combined with the otherwise exempt transfer or transfers described in (p)(i) of this subsection, results in the transfer of a controlling interest in the entity for valuable consideration, and in which one or more persons previously holding a controlling interest in the entity receive cash or property in exchange for any interest the person or persons acting in concert hold in the entity. This subsection (3)(p)(ii) does not apply to that part of the transfer involving property received that is the real property interest that the person or persons originally contributed to the entity or when one or more persons who did not contribute real property or belong to the entity at a time when real property was purchased receive cash or personal property in exchange for that person or persons' interest in the entity. The real estate excise tax under this subsection (3)(p)(ii) is imposed upon the person or persons who previously held a controlling interest in the entity.

(q) A qualified sale of a manufactured/mobile home community, as defined in RCW 59.20.030, that takes place on or after June 12, 2008, but before December 31, 2018.

**Sec. 204.** RCW 82.45.033 and 1993 sp.s. c 25 s 505 are each amended to read as follows:

(1) As used in this chapter, the term "controlling interest" has the following meaning:

~~((H))~~ (a) In the case of a corporation, either fifty percent or more of the total combined voting power of all classes of stock of the corporation entitled to vote, or fifty percent of the capital, profits, or beneficial interest in the voting stock of the corporation; and

~~((2))~~ (b) In the case of a partnership, association, trust, or other entity, fifty percent or more of the capital, profits, or beneficial interest in such partnership, association, trust, or other entity.

(2) The department may, at the department's option, enforce the obligation of the seller under this chapter as provided in this subsection (2):

(a) In the transfer or acquisition of a controlling interest as defined in subsection (1)(a) of this section, either against the corporation in which a controlling interest is transferred or acquired, against the person or persons who acquired the controlling interest in the corporation or, when the corporation is not a publicly traded company, against the person or persons who transferred the controlling interest in the corporation; and

(b) In the transfer or acquisition of a controlling interest as defined in subsection (1)(b) of this section, either against the entity in which a controlling interest is transferred or acquired or against the person or persons who transferred or acquired the controlling interest in the entity.

**Sec. 205.** RCW 82.45.070 and 1969 ex.s. c 223 s 28A.45.070 are each amended to read as follows:

The tax ~~((herein))~~ provided for in this chapter and any interest or penalties thereon ~~((shall be))~~ is a specific lien upon each ~~((piece))~~ parcel of real property located in this state that is either sold or that is owned by an entity in which a controlling interest has been transferred or acquired. The lien attaches from the time of sale until the tax ~~((shall have been))~~ is paid, which lien may be enforced in the manner prescribed for the foreclosure of mortgages.

**Sec. 206.** RCW 82.45.080 and 1980 c 154 s 3 are each amended to read as follows:

(1) The tax levied under this chapter ~~((shall be))~~ is the obligation of the seller and the department ~~((of revenue))~~ may, at the department's option, enforce the obligation through an action of debt against the seller or the department may proceed in the manner prescribed for the foreclosure of mortgages ~~((and resort to)).~~ The department's use of one course of enforcement ((shall) is not ((be)) an election not to pursue the other.

(2) For purposes of this section and notwithstanding any other provisions of law, the seller is the parent corporation of a wholly owned subsidiary, when such subsidiary is the transferor to a third-party transferee and the subsidiary is dissolved before paying the tax imposed under this chapter.

**Sec. 207.** RCW 82.45.100 and 2007 c 111 s 112 are each amended to read as follows:

(1) Payment of the tax imposed under this chapter is due and payable immediately at the time of sale, and if not paid within one month thereafter ~~((shall))~~ will bear interest from the time of sale until the date of payment.

(a) Interest imposed before January 1, 1999, ~~((shall be))~~ is computed at the rate of one percent per month.

(b) Interest imposed after December 31, 1998, ~~((shall be))~~ is computed on a monthly basis at the rate as computed under RCW 82.32.050(2). The rate so computed ~~((shall))~~ must be adjusted on the first day of January of each year for use in computing interest for that calendar year. The department ~~((of revenue shall))~~ must provide written notification to the county treasurers of the variable rate on or before December 1st of the year preceding the calendar year in which the rate applies.

(2) In addition to the interest described in subsection (1) of this section, if the payment of any tax is not received by the county treasurer or the department of revenue, as the case may be, within one month of the date due, there ~~((shall be))~~ is assessed a penalty of five percent of the amount of the tax; if the tax is not received within two months of the date due, there ~~((shall))~~ will be assessed a total penalty of ten percent of the amount of the tax; and if the tax is not received within three months of the date due, there ~~((shall))~~ will be assessed a total penalty of twenty percent of the amount of the tax. The department ~~((shall))~~ must notify the taxpayer by mail, or electronically as provided in RCW 82.32.135, of the additional amount and the same ~~((shall))~~ becomes due and ~~((shall))~~ must be paid within thirty days from the date of the notice, or within such further time as the department may provide.

### PART III

#### Modifying and Placing a Cap on the First Mortgage Deduction

**NEW SECTION. Sec. 301.** In 1980, the legislature adopted a business and occupation tax deduction to financial businesses for amounts derived from interest received on investments or loans primarily secured by first mortgages or trust deeds on nontransient residential properties which was codified in RCW 82.04.4292. However, the Washington state supreme court in *Homestreet, Inc. v. Dep't of Revenue*, 166 Wn.2d 444 (2009) held that a mortgage lender was entitled to a business and occupation tax deduction under RCW 82.04.4292 for the portion of interest it retained for servicing loans and mortgage-backed securities that it sold on a service-retained basis on the secondary market. The legislature finds that inclusion of interest retained for servicing loans and mortgage-backed securities was not within the legislative intent when the deduction provided in 82.04.4292 was adopted in 1980.

Therefore, by this act, the legislature declares that the deduction provided by RCW 82.04.4292 does not apply to fees that are received in exchange for services, regardless of whether the source of the fees is or may have been interest when paid by a borrower.

**Sec. 302.** RCW 82.04.4292 and 1980 c 37 s 12 are each amended to read as follows:

(1) In computing tax there may be deducted from the measure of tax by those engaged in banking, loan, security or other financial businesses, amounts derived from interest received on investments or loans primarily secured by first mortgages or trust deeds on nontransient residential properties.

(2) Interest deductible under this section includes the portion of fees charged to borrowers, including points and loan origination fees, that is recognized over the life of the loan as an adjustment to yield in the taxpayer's books and records according to generally accepted accounting principles.

(3) Subsections (1) and (2) of this section notwithstanding, the following is a nonexclusive list of items that are not deductible under this section:

(a) Fees for specific services such as: Document preparation fees; finder fees; brokerage fees; title examination fees; fees for credit checks; notary fees; loan application fees; interest lock-in fees if the loan is not made; servicing fees, including servicing fees received by lenders when they sell loans or mortgage-backed or mortgage-related securities in the secondary market while retaining the right to service the loans or securities and receive a portion of the interest payments as the servicing fee; and similar fees or amounts;

(b) Fees received in consideration for an agreement to make funds available for a specific period of time at specified terms, commonly referred to as commitment fees;

(c) Any other fees, or portion of a fee, that is not recognized over the life of the loan as an adjustment to yield in the taxpayer's books and records according to generally accepted accounting principles; and

(d) Gains on the sale of valuable rights such as:

(i) Service release premiums, which are amounts received when servicing rights are sold; and

(ii) Gains on the sale of loans.

(4) The total amount a person may deduct under this section for any calendar year may not exceed one hundred twenty million dollars.

#### Repealing the Nonresident Sales Tax Exemption

### PART V

#### Direct Seller Business and Occupation Tax Exemption

**NEW SECTION. Sec. 501.** (1) A business and occupation tax exemption is provided in RCW 82.04.423 for certain out-of-state sellers that sell consumer products exclusively to or through a direct

ELEVENTH DAY, MARCH 25, 2010

2010 1ST SPECIAL SESSION

seller's representative. The intent of the legislature in enacting this exemption was to provide a narrow exemption for out-of-state businesses engaged in direct sales of consumer products, typically accomplished through in-home parties or door-to-door selling.

(2) In *Dot Foods, Inc. v. Dep't of Revenue*, Docket No. 81022-2 (September 10, 2009), the Washington supreme court held that the exemption in RCW 82.04.423 applied to a taxpayer: (a) That sold nonconsumer products through its representative in addition to consumer products; and (b) whose consumer products were ultimately sold at retail in permanent retail establishments.

(3) The legislature finds that most out-of-state businesses selling consumer products in this state will either be eligible for the exemption under RCW 82.04.423 or could easily restructure their business operations to qualify for the exemption. As a result, the legislature expects that the broadened interpretation of the direct sellers' exemption will lead to large and devastating revenue losses. This comes at a time when the state's existing budget is facing a two billion six hundred million dollar shortfall, which could grow, while at the same time the demand for state and state-funded services is also growing. Moreover, the legislature further finds that RCW 82.04.423 provides preferential tax treatment for out-of-state businesses over their in-state competitors and now creates a strong incentive for in-state businesses to move their operations outside Washington.

(4) Therefore, the legislature finds that it is necessary to reaffirm the legislature's intent in establishing the direct sellers' exemption and prevent the loss of revenues resulting from the expanded interpretation of the exemption by amending RCW 82.04.423 retroactively to conform the exemption to the original intent of the legislature and by prospectively ending the direct sellers' exemption as of the effective date of this section.

**Sec. 502.** RCW 82.04.423 and 1983 1st ex.s. c 66 s 5 are each amended to read as follows:

(1) ~~Prior to April 1, 2010, this chapter ((shall))~~ does not apply to any person in respect to gross income derived from the business of making sales at wholesale or retail if such person:

- (a) Does not own or lease real property within this state; and
- (b) Does not regularly maintain a stock of tangible personal property in this state for sale in the ordinary course of business; and
- (c) Is not a corporation incorporated under the laws of this state; and
- (d) Makes sales in this state exclusively to or through a direct seller's representative.

(2) For purposes of this section, the term "direct seller's representative" means a person who buys only consumer products on a buy-sell basis or a deposit-commission basis for resale, by the buyer or any other person, in the home or otherwise than in a permanent retail establishment, or who sells at retail, or solicits the sale at retail of, only consumer products in the home or otherwise than in a permanent retail establishment; and

(a) Substantially all of the remuneration paid to such person, whether or not paid in cash, for the performance of services described in this subsection is directly related to sales or other output, including the performance of services, rather than the number of hours worked; and

(b) The services performed by the person are performed pursuant to a written contract between such person and the person for whom the services are performed and such contract provides that the person will not be treated as an employee with respect to such purposes for federal tax purposes.

(3) Nothing in this section (~~shall~~) may be construed to imply that a person exempt from tax under this section was engaged in a business activity taxable under this chapter prior to (~~the enactment of this section~~) August 23, 1983.

## PART VI

**Business and Occupation Tax Preferences for Manufacturers of Products Derived from Certain Agricultural Products**

**NEW SECTION. Sec. 601.** (1)(a) In 1967, the legislature amended RCW 82.04.260 in chapter 149, Laws of 1967 ex. sess. to authorize a preferential business and occupation tax rate for slaughtering, breaking, and/or processing perishable meat products and/or selling the same at wholesale. The legislature finds that RCW 82.04.260(4) was interpreted by the state supreme court on January 13, 2005, in *Agrilink Foods, Inc. v. Department of Revenue*, 153 Wn.2d 392 (2005). The supreme court held that the preferential business and occupation tax rate on the slaughtering, breaking, and/or processing of perishable meat products applied to the processing of perishable meat products into nonperishable finished products, such as canned food.

(b) The legislature intends to narrow the exemption provided for slaughtering, breaking, and/or processing perishable meat products and/or selling such products at wholesale by requiring that the end product be a perishable meat product; a nonperishable meat product that is comprised primarily of animal carcass by weight or volume, other than a canned meat product; or a meat by-product.

(2)(a) A business and occupation tax exemption is provided for (i) manufacturing by canning, preserving, freezing, processing, or dehydrating fresh fruits or vegetables, and (ii) selling such products at wholesale by the manufacturer to purchasers who transport the goods out of state in the ordinary course of business. This exemption expires July 1, 2012, and is replaced by a preferential business and occupation tax rate.

(b) The legislature finds that the rationale of the *Agrilink* decision, if applied to these tax preferences, could result in preferential tax treatment for any processed food product that contained any fresh fruit or vegetable as an ingredient, however small the amount.

(c) The legislature intends to narrow the tax preference provided to fruit and vegetable manufacturers by requiring that the end product be comprised either (i) exclusively of fruits and/or vegetables, or (ii) of any combination of fruits, vegetables, and certain other substances that, cumulatively, may not exceed the amount of fruits and vegetables contained in the product measured by weight or volume.

**NEW SECTION. Sec. 602.** A new section is added to chapter 82.04 RCW to read as follows:

(1) Upon every person engaging within this state in the business of manufacturing:

(a) Perishable meat products, by slaughtering, breaking, or processing, if the finished product is a perishable meat product; as to such persons the tax imposed is equal to the value of the perishable meat products manufactured, or, in the case of a processor for hire, the gross income of the business, multiplied by the rate of 0.138 percent;

(b) Meat products, by dehydration, curing, smoking, or any combination of these activities, if the finished meat products are not canned; as to such persons the tax imposed is equal to the value of the meat products manufactured, or, in the case of a processor for hire, the gross income of the business, multiplied by the rate of 0.138 percent;

(c) Hides, tallow, meat meal, and other similar meat by-products, if such products are derived in part from animals and manufactured in a rendering plant licensed under chapter 16.68 RCW; as to such persons the tax imposed is equal to the value of the products manufactured, or, in the case of a processor for hire, the gross income of the business, multiplied by the rate of 0.138 percent.

(2) Upon every person engaging within this state in the business of selling at wholesale:

(b) Meat products that have been manufactured by the seller by dehydration, curing, smoking, or any combination of such activities, if the finished meat products are not canned; as to such persons the tax imposed is equal to the gross proceeds derived from such sales multiplied by the rate of 0.138 percent;

(c) Hides, tallow, meat meal, and other similar meat by-products, if such products are derived in part from animals and manufactured by the seller in a rendering plant; as to such persons the tax imposed is equal to the gross proceeds derived from such sales multiplied by the rate of 0.138 percent.

(3) The definitions in this subsection apply throughout this section unless the context clearly requires otherwise.

(a) "Animal" means all members of the animal kingdom except humans, fish, and insects.

(b) "Carcass" means all or any parts, including viscera, of a slaughtered animal.

(ii) Except as provided in (e)(i) of this subsection (3), "meat products" does not include products containing any cereal grains or cereal-grain products, dairy products, legumes and legume products, fruit or vegetable products as defined in RCW 82.04.260, and similar ingredients, unless the ingredient is used as a flavoring. For purposes of this subsection, "flavoring" means a substance that contains the flavoring constituents derived from a spice, fruit or fruit juice, vegetable or vegetable juice, edible yeast, herb, bark, bud, root, leaf, or any other edible substance of plant origin, whose primary function in food is flavoring or seasoning rather than nutritional, and which may legally appear as "natural flavor," "flavor," or "flavorings" in the ingredient statement on the label of the meat product.

(iii) "Meat products" includes only products that are intended for human consumption as food or animal consumption as feed.

(f) "Perishable" means having a high risk of spoilage within thirty days of manufacture without any refrigeration or freezing.

### PART VIII

#### Ending the Preferential Business and Occupation Tax Treatment Received by Directors of Corporations

**NEW SECTION. Sec. 801.** (1) In adopting the state's business and occupation tax, the legislature intended to tax virtually all business activities carried on within the state. See *Simpson Inv. Co. v. Dep't of Revenue*, 141 Wn.2d 139, 149 (2000). The legislature recognizes that the business and occupation tax applies to all activities engaged in with the object of gain, benefit, or advantage to the taxpayer or to another person or class, directly or indirectly, unless a specific exemption applies.

(2) One of the major business and occupation tax exemptions is provided in RCW 82.04.360 for income earned as an employee or servant as distinguished from income earned as an independent contractor. The legislature's intent in providing this exemption was to exempt employee wages from the business and occupation tax but not to exempt income earned as an independent contractor.

(3) The legislature finds that corporate directors are not employees or servants of the corporation whose board they serve on and therefore are not entitled to a business and occupation tax exemption under RCW 82.04.360. The legislature further finds that there are no business and occupation tax exemptions for compensation received for serving as a member of a corporation's board of directors.

(4) The legislature also finds that there is a widespread misunderstanding among corporate directors that the business and occupation tax does not apply to the compensation they receive for serving as a director of a corporation. It is the legislature's expectation that the department of revenue will take appropriate measures to ensure that corporate directors understand and comply with their business and occupation tax obligations with respect to their director compensation. However, because of the widespread misunderstanding by corporate directors of their liability for business and occupation tax on director compensation, the legislature finds that it is appropriate in this unique situation to provide limited relief against the retroactive assessment of business and occupation taxes on corporate director compensation.

(5) The legislature also reaffirms its intent that all income of all independent contractors is subject to business and occupation tax unless specifically exempt under the Constitution or laws of this state or the United States.

**Sec. 802.** RCW 82.04.360 and 1991 c 324 s 19 and 1991 c 275 s 2 are each reenacted and amended to read as follows:

(1) This chapter (~~shall~~) does not apply to any person in respect to his or her employment in the capacity of an employee or servant as distinguished from that of an independent contractor. For the purposes of this section, the definition of employee (~~shall~~) includes those persons that are defined in section 3121(d)(3)(B) of the federal internal revenue code of 1986, as amended through January 1, 1991.

(2) (~~(A booth renter, as defined by RCW 18.16.020, is an independent contractor for purposes of this chapter.)~~) Until April 1, 2010, this chapter does not apply to amounts received by an individual from a corporation as compensation for serving as a member of that corporation's board of directors. Beginning April 1, 2010, such amounts are taxable under RCW 82.04.290(2).

(5) The term also includes the providing of "competitive telephone service," "telecommunications service," or "ancillary services," as those terms are defined in RCW 82.04.065, to consumers.

(6)(a) The term also includes the sale of prewritten computer software to a consumer, regardless of the method of delivery to the end user. For purposes of this subsection (6)(a), the sale of prewritten computer software includes the sale of or charge made for a key or an enabling or activation code, where the key or code is required to activate prewritten computer software and put the software into use. There is no separate sale of the key or code from the prewritten computer software, regardless of how the sale may be characterized by the vendor or by the purchaser.

((The term "retail sale" does not include the sale of or charge made for:

(i) Custom software; or

(ii) The customization of prewritten computer software.))

(b)(i) The term also includes the charge made to consumers for the right to access and use prewritten computer software, where possession of the software is maintained by the seller or a third party, regardless of whether the charge for the service is on a per use, per user, per license, subscription, or some other basis.

The term "extended warranty" does not include an agreement, otherwise meeting the definition of extended warranty in this subsection, if no separate charge is made for the agreement and the value of the agreement is included in the sales price of the tangible personal property covered by the agreement. (c) For purposes of this subsection, "permanent" means perpetual or for an indefinite or unspecified length of time. ((~~(9)~~)) (10) The term also includes the charge made for providing tangible personal property along with an operator for a fixed or indeterminate period of time. (11) The term does not include the sale of or charge made for labor and services rendered in respect to the building, repairing, or improving of any street, place, road, highway, easement, right-of-way, mass public transportation terminal or parking facility, bridge, tunnel, or trestle which is owned by a municipal corporation or political subdivision of the state or by the United States and which is used or to be used primarily for foot or vehicular traffic including mass transportation vehicles of any kind.

Where a person modifies or enhances computer software of which such persons is not the author or creator, the person (~~shall be~~) is deemed to be the author or creator only of the person's modifications or enhancements. (1) The tax imposed by RCW 82.08.020 does not apply to the sale of digital goods, digital codes, digital automated services, prewritten computer software, or services defined as a retail sale in RCW 82.04.050 (6)(b) or (7) to a buyer that provides the seller with an exemption certificate claiming multiple points of use. An exemption certificate claiming multiple points of use must be in a form and contain such information as required by the department.

(2) A buyer is entitled to use an exemption certificate claiming multiple points of use only if the buyer is a business or other

A buyer is not entitled to use an exemption certificate claiming multiple points of use for digital goods, digital codes, digital automated services, prewritten computer software, or services defined as a retail sale in RCW 82.04.050(6)(b) purchased for personal use.

(3) A buyer claiming an exemption under this section must report and pay the tax imposed in RCW 82.12.020 and any local use taxes imposed under the authority of chapter 82.14 RCW and RCW 81.104.170 directly to the department in accordance with RCW 82.12.02088 and 82.14.457.

A digital code is concurrently available for use within and outside this state if employees or other agents of the buyer may use the digital goods or digital automated services to be obtained by the code simultaneously at one or more locations within this state and one or more locations outside this state.

(4) "Value of the extended warranty used" means the purchase price for the extended warranty, the use of which is taxable under this chapter. If the extended warranty is received by gift or under conditions wherein the purchase price does not represent the true value of the extended warranty, the value of the extended warranty used ~~((shall))~~ must be determined as nearly as possible according to the retail selling price at place of use of similar extended warranties of like quality and character under rules the department may prescribe;

(5) "Value of the digital good or digital code used" means the purchase price for the digital good or digital code, the use of which is taxable under this chapter. The table shall be prepared in such a manner that no taxpayer will owe a greater amount of tax by using the table than would be owed by performing the calculation under subsections (1) through (3) of this section. A table prepared by the department under this subsection ~~((shall))~~ must be used by all taxpayers in taking the credit provided in this section.

**Sec. 1403.** RCW 82.32.045 and 2006 c 256 s 1 are each amended to read as follows:

(2) The department of revenue may relieve any taxpayer or class of taxpayers from the obligation of remitting monthly and may require the return to cover other longer reporting periods, but in no event may returns be filed for a period greater than one year. For these taxpayers, tax payments are due on or before the last day of the month next succeeding the end of the period covered by the return.

(3) The department of revenue may also require verified annual returns from any taxpayer, setting forth such additional information as it may deem necessary to correctly determine tax liability.

(4) Notwithstanding subsections (1) and (2) of this section, the department may relieve any person of the requirement to file returns if the following conditions are met:

March 22, 2010

MR. PRESIDENT:  
The House passed SECOND SUBSTITUTE SENATE BILL NO. 6675 with the following amendment(s): 6675-S2 AMH FIN H5776.1

ELEVENTH DAY, MARCH 25, 2010

2010 1ST SPECIAL SESSION

Strike everything after the enacting clause and insert the following:

**"NEW SECTION. Sec. 1.** The legislature finds that the global health sector develops new technologies and products for the improvement of health delivery locally and worldwide and that Washington is home to the world's richest collection of global health research and education programs creating new and innovative technologies on a daily basis. It is the intent of the legislature to stimulate the state's economy and foster job creation in the emerging field of global health while improving the health of people in Washington state and the world. The purpose of this act is to create a funding mechanism and a grant program to ensure that Washington remains competitive in global health innovation and to guarantee that the development, manufacture, and delivery of global health products will become an even more dynamic part of the state's economy.

**NEW SECTION. Sec. 2.** (1) The Washington global health technologies and product development competitiveness program is created.

(2)(a) The program must be administered by a nonprofit organization exempt from income taxation under 26 U.S.C. Sec. 501(c)(6) of the federal internal revenue code whose board of directors is appointed by the governor. The governor must make the appointments after consultation with a statewide alliance of global health research, nonprofit, and private entities. The board consists of the following members:

(i) Three members representing private companies engaged in the provision of global health products or services;

(ii) Three members representing nonprofit organizations supporting global health research or providing global health products or services;

(iii) Three members representing public research institutions engaged in global health research and education; and

(iv) One member who is a former elected official.

(b) The governor must appoint the chair of the board from among the members. The governor must appoint the members to staggered terms and each appointment may not last more than three years, but an appointee may serve more than one term.

(3) The board must contract with the department of commerce for management services to assist the board in implementing the program.

(4) The board must solicit and receive gifts, grants, bequests, royalty payments, licensing income, and other funds from businesses, foundations, and the federal government to promote the development and delivery of global health technologies and products. All federal funds received must be deposited in the Washington global health technologies and product development account created in section 3 of this act. All remaining nonstate funds received must be deposited in an account that the board creates and administers to carry out the purposes of this section. Expenditures from the account created by the board may be used only for funding activities of the program created in this section. Of the total amounts deposited into these accounts, no more than three percent of the total funds may be used for the department of commerce's management services and administrative expenses related to the program created in this section.

(5) The board must establish eligibility criteria for global health technologies and product development grants and adopt policies and procedures to facilitate the orderly process of grant application, review, and reward.

(6) In making grants to entities pursuant to contract for the development, production, promotion, and delivery of global health technologies and products, the board must consider the following:

(a) The quality of the proposed research or the proposed technical assistance in product development or production process

design. Any grant funds awarded for research activities must be awarded for nonbasic research which will assist in commercialization or manufacture of global health technologies;

(b) The potential for the grant recipient to improve global health outcomes;

(c) The potential for the grant to leverage additional funding for the development of global health technologies and products;

(d) The potential for the grant to stimulate, or promote technical skills training for, employment in the development of global health technologies in the state;

(e) The willingness of the grant recipient, when appropriate, to enter into royalty or licensing income agreements with the board; and

(f) Any other factors, as the board determines.

(7) Grant contracts must specify that award recipients must conduct their research, development, and any subsequent production activities within Washington, with the exception of activities such as clinical trials that must be carried out in developing countries, and that a failure to comply with this requirement will obligate the recipient to return the amount of the award plus interest as determined by the board.

(8) Upon the recommendation of the Washington economic development commission, the board may provide funding for the recruitment and employment by public research institutions and global health nonprofit organizations in the state, of global health researchers with a history of commercialization of global health technologies.

(9) Each project receiving a grant under this section must report information to the board in the format and at the intervals as the board requires to provide accountability and to evaluate the effectiveness of the program. The information reported must include the amount of funding received; the funding, if any, leveraged by the grant; the number and types of jobs created as a result of the grant; and any other information that the board requires. The board must use the information to prepare an annual evaluation of the program for a report to the appropriate committees of the legislature and the governor, beginning December 1, 2012.

**NEW SECTION. Sec. 3.** The Washington global health technologies and product development account is created in the custody of the state treasurer. Only the board of directors of the Washington global health technologies and product development competitiveness program or the board's designee may authorize expenditures from the account. All federal moneys received from the solicitations required in section 2 of this act and all state funds appropriated for the specific purposes of the Washington global health technologies and product development competitiveness program must be deposited in the account. Expenditures from the account may be used only for funding activities of the Washington global health technologies and product development competitiveness program created in section 2 of this act. The account is subject to the allotment procedures under chapter 43.88 RCW, but an appropriation is not required for expenditures.

**Sec. 4.** RCW 43.79A.040 and 2009 c 87 s 4 are each amended to read as follows:

(1) Money in the treasurer's trust fund may be deposited, invested, and reinvested by the state treasurer in accordance with RCW 43.84.080 in the same manner and to the same extent as if the money were in the state treasury.

(2) All income received from investment of the treasurer's trust fund shall be set aside in an account in the treasury trust fund to be known as the investment income account.

(3) The investment income account may be utilized for the payment of purchased banking services on behalf of treasurer's trust funds including, but not limited to, depository, safekeeping, and disbursement functions for the state treasurer or affected state

(4)(a) Monthly, the state treasurer shall distribute the earnings credited to the investment income account to the state general fund except under (b) and (c) of this subsection.

## MESSAGE FROM THE HOUSE

March 22, 2010

## MR. PRESIDENT:

The House passed SUBSTITUTE SENATE BILL NO. 6889 with the following amendment(s): 6889-S AMH HUNT H5832.1

Strike everything after the enacting clause and insert the following:

**"NEW SECTION. Sec. 1.** (1) The legislature finds that conventions and trade shows provide both direct and indirect civic and economic benefits. It is the intent of the legislature to provide for the transfer of the governance and financing of the state convention and trade center to a public facilities district formed by a county with a population of one million five hundred thousand or more to acquire, own, and operate the convention and trade center. The legislature also intends to replace, in connection with such transfer, the authority under chapter 67.40 RCW of the state and city to impose excise taxes on the sale of or charge made for the furnishing of lodging to fund the state convention and trade center with authority for the public facilities district to impose lodging taxes at these rates, without affecting the existing authority of the state, county, cities, and other municipal corporations to impose taxes on the sale or charge made for the furnishing of lodging under existing caps on the aggregate rate that may be charged.

(2) The legislature further finds that the location of the convention and trade center particularly benefits and increases the occupancy of larger hotels and other lodging facilities in the city in which it is located and to a lesser extent in the remainder of the county in which it is located. The legislature finds that imposing

excise taxes on the sale of or charge made for the furnishing of lodging at the rates authorized in section 5 of this act is an appropriate method of paying for the cost of acquiring, constructing, owning, remodeling, maintaining, equipping, reequipping, repairing, altering, and operating a convention and trade center.

**Sec. 2.** RCW 36.100.010 and 2002 c 218 s 26 are each amended to read as follows:

(1) ~~((A))~~ One or more public facilities districts may be created in any county and ~~((shall))~~ must be coextensive with the boundaries of the county.

(2) A public facilities district ~~((shall be))~~ is created upon adoption of a resolution providing for the creation of such a district by the county legislative authority in which the proposed district is located.

(3) A public facilities district is a municipal corporation, an independent taxing "authority" within the meaning of Article VII, section 1 of the state Constitution, and a "taxing district" within the meaning of Article VII, section 2 of the state Constitution.

(4) Except as provided in RCW 36.100.040 (4) and (5), no taxes authorized under this chapter may be assessed or levied unless a majority of the voters of the public facilities district has approved such tax at a general or special election. A single ballot proposition may both validate the imposition of the sales and use tax under RCW 82.14.048 and the excise tax under RCW 36.100.040(1).

(5) (a) A public facilities district ~~((shall))~~ constitutes a body corporate and ~~((shall))~~ possesses all the usual powers of a corporation for public purposes as well as all other powers that may now or hereafter be specifically conferred by statute, including, but not limited to, the authority to hire employees, staff, and services, to enter into contracts, including contracts with public and private parties, to acquire, own, sell, transfer, lease, and otherwise acquire or dispose of property, to grant concessions under terms approved by the public facilities district, and to sue and be sued.

(b) A public facilities district created by a county with a population of one million five hundred thousand or more to acquire, own, and operate a convention and trade center transferred from a public nonprofit corporation may continue to contract with the Seattle-King county convention and visitors' bureau or its successor in interest for marketing the convention and trade center facility and services.

(6) A public facilities district may enter into contracts with a county for the purpose of exercising any powers of a community renewal agency under chapter 35.81 RCW.

(7) The ~~((county))~~ legislative authority ~~((or the city council))~~ of a city or county, the board of directors of a public nonprofit corporation, or the state of Washington may transfer property to ~~((the))~~ a public facilities district created under this chapter, with or without consideration. No property that is encumbered with debt or that is in need of major capital renovation may be transferred to the district without the agreement of the district and revenues adequate to retire the existing indebtedness.

(8) A public facilities district may enter into agreements with the state, any municipal corporation, or any other governmental entity for the design, financing, acquisition, development, construction, reconstruction, lease, remodeling, alteration, maintenance, equipping, reequipping, repair, operation, or management of one or more facilities of the parties thereto. Agreements may provide that any party to the contract designs, finances, acquires, develops, constructs, reconstructs, remodels, alters, maintains, equips, reequips, repairs, and operates one or more facilities for the other party or parties to the contract. A public facilities district may enter into an agreement with the state, any municipal corporation, or other public or private entity that will assist a public facilities district in the

EIGHTEENTH DAY, APRIL 1, 2010

financing of all or any part of a district facility on such terms as may be determined by agreement between the respective parties, including without limitation by a loan, guaranty, or other financing agreement.

**Sec. 3.** RCW 36.100.020 and 1995 3rd sp.s. c 1 s 302 are each amended to read as follows:

(1)(a) A public facilities district (~~(shall)~~) must be governed by a board of directors consisting of five (~~(or)~~), seven, or nine members as provided in this section.

(b) If the largest city in the county has a population that is at least forty percent of the total county population, the board of directors of the public facilities district (~~(shall)~~) must consist of five members selected as follows:

(~~(a)~~) (i) Two members appointed by the county legislative authority to serve for four-year staggered terms;

(~~(b)~~) (ii) Two members appointed by the city council of the largest city in the county to serve for four-year staggered terms; and

(~~(c)~~) (iii) One person to serve for a four-year term who is selected by the other directors.

(c)(i) Except as provided in (c)(ii) of this subsection (1), if the largest city in the county has a population of less than forty percent of the total county population, the county legislative authority (~~(shall)~~) must establish in the resolution creating the public facilities district whether the board of directors of the public facilities district has either five or seven members, and the county legislative authority (~~(shall)~~) must appoint the members of the board of directors to reflect the interests of cities and towns in the county, as well as the unincorporated area of the county.

(ii) However, if the county has a population of one million five hundred thousand or more, the largest city in the county has a population of less than forty percent of the total county population, and the county operates under a county charter, which provides for an elected county executive, the members of the board of directors must be appointed as follows:

(A) If the public facilities district is created to construct a baseball stadium as defined in RCW 82.14.0485, three members (~~(shall)~~) must be appointed by the governor and the remaining members (~~(shall)~~) must be appointed by the county executive subject to confirmation by the county legislative authority. Of the members appointed by the governor, the speaker of the house of representatives and the majority leader of the senate (~~(shall)~~) must each recommend to the governor a person to be appointed to the board; and

(B) If the public facilities district is created to acquire, own, and operate a convention and trade center, following the expiration of the terms of the initial board of directors, three members must be appointed by the governor, three members must be nominated by the county executive subject to confirmation by the county legislative authority, and three members must be nominated by the mayor of the city in which the convention and trade center is located subject to confirmation by the city legislative authority. Members of the board of directors may not be members of the legislative authority of the county or any city within the county.

(d) The initial board of directors of a public facilities district created in a county of one million five hundred thousand or more to acquire, own, and operate a convention and trade center must be comprised of the nine members of the board of the public nonprofit corporation that transfers the convention and trade center to the public facilities district under section 8 of this act. The governor must designate which of the initial board members must serve two-year terms and which must serve four-year terms and identify the board positions to which successors to initial directors are to be appointed by the county and the city.

(2) At least one member on the board of directors (~~(shall)~~) must be representative of the lodging industry in the public facilities

2010 1ST SPECIAL SESSION

**Sec. 5.** RCW 36.100.040 and 2008 c 137 s 5 are each amended to read as follows:

(1) A public facilities district may impose an excise tax on the sale of or charge made for the furnishing of lodging that is subject to tax under chapter 82.08 RCW, except that no such tax may be levied on any premises having fewer than forty lodging units. ~~((However))~~ Except for any tax imposed under subsection (4) or (5) of this section, if a public facilities district has not imposed such an excise tax prior to December 31, 1995, the public facilities district may only impose the excise tax if a ballot proposition authorizing the imposition of the tax has been approved by a simple majority vote of voters of the public facilities district voting on the proposition.

(2) The rate of the tax ~~((shall))~~ may not exceed two percent and the proceeds of the tax ~~((shall))~~ may only be used for the acquisition, design, construction, remodeling, maintenance, equipping, reequipping, repairing, and operation of its public facilities. This excise tax ~~((shall))~~ may not be imposed until the district has approved the proposal to acquire, design, and construct the public facilities.

(3) ~~((A public facilities district may not impose the tax authorized in this section if, after the tax authorized in this section was imposed, the effective combined rate of state and local excise taxes, including sales and use taxes and excise taxes on lodging, imposed on the sale of or charge made for furnishing of lodging in any jurisdiction in the public facilities district exceeds eleven and one-half percent.~~

(4)) Except for a public facilities district created within a county with a population of one million five hundred thousand or more for the purpose of acquiring, owning, and operating a convention and trade center, a public facilities district may not impose the tax authorized in this section if, after the tax authorized in this section was imposed, the effective combined rate of state and local excise taxes, including sales and use taxes and excise taxes on lodging, imposed on the sale of or charge made for furnishing of lodging in any jurisdiction in the public facilities district exceeds eleven and one-half percent.

(4) To replace the tax authorized by RCW 67.40.090, a public facilities district created within a county with a population of one million five hundred thousand or more for the purpose of acquiring, owning, and operating a convention and trade center may impose an excise tax on the sale of or charge made for the furnishing of lodging that is subject to tax under chapter 82.08 RCW, except that no such tax may be levied on any premises having fewer than sixty lodging units. The rate of the tax may not exceed seven percent within the portion of the district that corresponds to the boundaries of the largest city within the public facilities district and may not exceed 2.8 percent in the remainder of the district. The tax imposed under this subsection (4) may not be collected prior to the transfer date defined in section 8 of this act.

(5) To replace the tax authorized by RCW 67.40.130, a public facilities district created within a county with a population of one million five hundred thousand or more for the purpose of acquiring, owning, and operating a convention and trade center may impose an additional excise tax on the sale of or charge made for the furnishing of lodging that is subject to tax under chapter 82.08 RCW, except that no such tax may be levied on any premises having fewer than sixty lodging units. The rate of the additional excise tax may not exceed two percent and may be imposed only within the portion of the district that corresponds to the boundaries of the largest city within the public facilities district and may not be imposed in the remainder of the district. The tax imposed under this subsection (5) may not be collected prior to the transfer date specified in section 8 of this act. The tax imposed under this subsection (5) must be credited against the amount of the tax otherwise due to the state from

those same taxpayers under chapter 82.08 RCW. The tax under this subsection (5) may be imposed only for the purpose of paying or securing the payment of the principal of and interest on obligations issued or incurred by the public facilities district and paying annual payment amounts to the state under subsection (6)(a) of this section. The authority to impose the additional excise tax under this subsection (5) expires on the date that is the earlier of (a) July 1, 2029, or (b) the date on which all obligations issued or incurred by the public facilities district to implement any redemption, prepayment, or legal defeasance of outstanding obligations under section 8(3)(a) of this act are no longer outstanding.

(6)(a) Commencing with the first full fiscal year of the state after the transfer date defined in section 8 of this act and for so long as a public facilities district imposes a tax under subsection (5) of this section, the public facilities district must transfer to the state of Washington on June 30th of each state fiscal year an annual payment amount.

(b) For the purposes of this subsection (6), "annual payment amount" means an amount equal to revenues received by the public facilities district in the fiscal year from the additional excise tax imposed under subsection (5) of this section plus an interest charge calculated on one-half the annual payment amount times an interest rate equal to the average annual rate of return for the prior calendar year in the Washington state local government investment pool created in chapter 43.250 RCW.

(c)(i) If the public facilities district in any fiscal year is required to apply additional lodging excise tax revenues to the payment of principal and interest on obligations it issues or incurs, and the public facilities district is unable to pay all or any portion of the annual payment amount to the state, the deficiency is deemed to be a loan from the state to the public facilities district for the purpose of assisting the district in paying such principal and interest and must be repaid by the public facilities district to the state after providing for the payment of the principal of and interest on obligations issued or incurred by the public facilities district, all on terms established by an agreement between the state treasurer and the public facilities district executed prior to the transfer date. Any agreement between the state treasurer and the public facilities district must specify the term for the repayment of the deficiency in the annual payment amount with an interest rate equal to the twenty bond general obligation bond buyer index plus one percentage point.

(ii) Outstanding obligations to repay any loans deemed to have been made to the public facilities district as provided in any such agreements between the state treasurer and the public facilities district survive the expiration of the additional excise tax under subsection (5) of this section.

(iii) For the purposes of this subsection (6)(c), "additional lodging excise tax revenues" mean the tax revenues received by the public facilities district under subsection (5) of this section.

(7) A public facilities district is authorized to pledge any of its revenues, including without limitation revenues from the taxes authorized in this section, to pay or secure the payment of obligations issued or incurred by the public facilities district, subject to the terms established by the board of directors of the public facilities district. So long as a pledge of the taxes authorized under this section is in effect, the legislature may not withdraw or modify the authority to levy and collect the taxes at the rates permitted under this section and may not increase the annual payment amount to be transferred to the state under subsection (6) of this section.

(8) The department of revenue must perform the collection of such taxes on behalf of the public facilities district at no cost to the district, and the state treasurer must distribute those taxes as available on a monthly basis to the district or, upon the direction of the district, to a fiscal agent, paying agent or trustee for obligations issued or incurred by the district.

EIGHTEENTH DAY, APRIL 1, 2010

2010 1ST SPECIAL SESSION

(9) Except as expressly provided in this chapter, all of the provisions contained in RCW 82.08.050 and 82.08.060 and chapter 82.32 RCW have full force and application with respect to taxes imposed under the provisions of this section.

(10) The taxes imposed in this section ((does)) do not apply to sales of temporary medical housing exempt under RCW 82.08.997.

**Sec. 6.** RCW 36.100.060 and 1999 c 165 s 15 are each amended to read as follows:

(1) To carry out the purpose of this chapter, a public facilities district may issue general obligation bonds, not to exceed an amount, together with any outstanding nonvoter approved general obligation indebtedness, equal to one-half of one percent of the value of taxable property within the district, as the term "value of taxable property" is defined in RCW 39.36.015. A public facilities district additionally may issue general obligation bonds for capital purposes only, together with any outstanding general obligation indebtedness, not to exceed an amount equal to one and one-fourth percent of the value of the taxable property within the district, as the term "value of taxable property" is defined in RCW 39.36.015, when authorized by the voters of the public facilities district pursuant to Article VIII, section 6 of the state Constitution, and to provide for the retirement thereof by excess property tax levies as provided in this chapter.

(2) General obligation bonds may be issued with a maturity of up to thirty years, and must be issued and sold in accordance with the provisions of chapter 39.46 RCW. If the public facilities district is formed by a county with a population of one million five hundred thousand or more to acquire, own, and operate a convention and trade center, general obligation bonds may be issued with a maturity of up to forty years, and ~~((shall))~~ must be issued and sold in accordance with the provisions of chapter 39.46 RCW. In addition to the powers vested in it under RCW 39.46.030, a public facilities district created by a county with a population of one million five hundred thousand or more to acquire, own, and operate a convention and trade center may appoint, and may specify the rights and duties of, trustees with respect to its bonds, and such trustees may receive, hold, disburse, invest, and reinvest funds on the district's behalf and for the protection of the district's bond owners.

(3) The general obligation bonds may be payable from the operating revenues of the public facilities district in addition to the tax receipts of the district.

(4) The excise tax imposed pursuant to RCW 36.100.040 ~~((shall))~~ (1) terminates upon final payment of all bonded indebtedness for its public facilities, except that the excise tax may be reauthorized by a public vote, in the same manner as originally authorized, for funding of additional public facilities or a regional center.

**Sec. 7.** RCW 36.100.100 and 1995 c 396 s 7 are each amended to read as follows:

The treasurer of the county in which a public facilities district is located ~~((shall))~~ must be the ex officio treasurer of the district, unless the board of directors of a public facilities district created in a county of one million five hundred thousand or more designates by resolution another person having experience in financial or fiscal matters as the treasurer of the district. Such a treasurer possesses all of the powers, responsibilities, and duties of, and is subject to the same restrictions as provided by law for, a county treasurer with regard to district financial matters. "NEW SECTION. **Sec. 1. PURPOSE, FINDINGS, AND INTENT.** (1) The purpose of this chapter is to provide for a safety net assessment on certain Washington hospitals, which will be used solely to augment funding from all other sources and thereby obtain additional funds to restore recent reductions and to support additional payments to hospitals for medicaid services.

(2) The legislature finds that:

(a) Washington hospitals, working with the department of social and health services, have proposed a hospital safety net assessment to generate additional state and federal funding for the medicaid program, which will be used to partially restore recent inpatient and outpatient reductions in hospital reimbursement rates and provide for an increase in hospital payments; and

(b) The hospital safety net assessment and hospital safety net assessment fund created in this chapter allows the state to generate additional federal financial participation for the medicaid program and provides for increased reimbursement to hospitals.

(3) In adopting this chapter, it is the intent of the legislature:

(a) To impose a hospital safety net assessment to be used solely for the purposes specified in this chapter;

TWENTY SEVENTH DAY, APRIL 10, 2010

2010 1ST SPECIAL SESSION

(b) That funds generated by the assessment shall be used solely to augment all other funding sources and not as a substitute for any other funds;

(d) To condition the assessment on receiving federal approval for receipt of additional federal financial participation and on continuation of other funding sufficient to maintain hospital inpatient and outpatient reimbursement rates and small rural disproportionate share payments at least at the levels in effect on July 1, 2009.

**NEW SECTION. Sec. 2. DEFINITIONS.** The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(b) Each critical access hospital shall pay an assessment of ten dollars for each annual nonmedicare hospital inpatient day, multiplied by a ratio, the numerator of which is the number of days between June 30, 2009, and the day after the applicable conditions established by section 17(1) of this act have been met and the denominator of which is three hundred sixty-five.

(c) For purposes of this subsection, the department shall determine each hospital's annual nonmedicare hospital inpatient days by summing the total reported nonmedicare inpatient days for each hospital that is not exempt from the assessment as described in section 5 of this act for the relevant state fiscal year 2008 portions included in the hospital's fiscal year end reports 2007 and/or 2008 cost reports. The department shall use nonmedicare hospital inpatient day data for each hospital taken from the centers for medicare and medicaid services' hospital 2552-96 cost report data file as of November 30, 2009, or equivalent data collected by the department.

(3) An assessment is imposed as set forth in this subsection for the period February 1, 2010, through June 30, 2013, for the purpose of funding increased hospital payments under sections 10 and 13(3) of this act, which shall be due and payable on the first day of each calendar quarter after the department has sent notice of the assessment to each affected hospital, provided that the initial assessment shall be transmitted only after the secretary has determined that the applicable conditions established by section 17(1) of this act have been satisfied and shall be payable no less than thirty calendar days after the department sends notice of the amount due to affected hospitals. The initial assessment shall include the full amount due from February 1, 2010, through the date of the notice.

(a) For the period February 1, 2010, through December 31, 2010:

(i) Prospective payment system hospitals.

(ii) Each psychiatric hospital and each rehabilitation hospital shall pay an assessment of thirty-nine dollars for each annual nonmedicare hospital inpatient day, multiplied by the number of days in the assessment period divided by three hundred sixty-five.

(A) Each prospective payment system hospital shall pay an assessment of one hundred fifty-six dollars for each annual nonmedicare hospital inpatient day up to sixty thousand per year, multiplied by the number of days in the assessment period divided by three hundred sixty-five.

(B) Each prospective payment system hospital shall pay an assessment of six dollars for each annual nonmedicare inpatient day over and above sixty thousand per year, multiplied by the number of days in the assessment period divided by three hundred sixty-five. The department may adjust the assessment or the number of nonmedicare hospital inpatient days if necessary to maintain compliance with federal statutes and regulations related to medicaid program health care-related taxes.

(ii) Each psychiatric hospital and each rehabilitation hospital shall pay an assessment of thirty-nine dollars for each annual nonmedicare inpatient day, multiplied by the number of days in the assessment period divided by three hundred sixty-five.

(d)(i) For purposes of (a) and (b) of this subsection, the department shall determine each hospital's annual nonmedicare hospital inpatient days by summing the total reported nonmedicare inpatient days for each hospital that is not exempt from the assessment as described in section 5 of this act for the relevant state fiscal year 2008 portions included in the hospital's fiscal year end reports 2007 and/or 2008 cost reports. The department shall use nonmedicare hospital inpatient day data for each hospital taken from the centers for medicare and medicaid services' hospital 2552-96

cost report data file as of November 30, 2009, or equivalent data collected by the department.

(ii) For purposes of (c) of this subsection, the department shall determine each hospital's annual nonmedicare hospital inpatient days by summing the total reported nonmedicare hospital inpatient days for each hospital that is not exempt from the assessment under section 5 of this act, taken from the most recent publicly available hospital 2552-96 cost report data file or successor data file available through the centers for medicare and medicaid services, as of a date to be determined by the department. If cost report data are unavailable from the foregoing source for any hospital subject to the assessment, the department shall collect such information directly from the hospital.

(4) Notwithstanding the provisions of section 8 of this act, nothing in this act is intended to prohibit a hospital from including assessment amounts paid in accordance with this section on their medicare and medicaid cost reports.

NEW SECTION. Sec. 5. EXEMPTIONS. The following hospitals are exempt from any assessment under this chapter provided that if and to the extent any exemption is held invalid by a court of competent jurisdiction or by the centers for medicare and medicaid services, hospitals previously exempted shall be liable for assessments due after the date of final invalidation:

(1) Hospitals owned or operated by an agency of federal or state government, including but not limited to western state hospital and eastern state hospital;

(2) Washington public hospitals that participate in the certified public expenditure program;

(3) Hospitals that do not charge directly or indirectly for hospital services; and

(4) Long-term acute care hospitals.

NEW SECTION. Sec. 6. ADMINISTRATION AND COLLECTION. (1) The department, in cooperation with the office of financial management, shall develop rules for determining the amount to be assessed to individual hospitals, notifying individual hospitals of the assessed amount, and collecting the amounts due. Such rule making shall specifically include provision for:

(a) Transmittal of quarterly notices of assessment by the department to each hospital informing the hospital of its nonmedicare hospital inpatient days and the assessment amount due and payable. Such quarterly notices shall be sent to each hospital at least thirty calendar days prior to the due date for the quarterly assessment payment.

(b) Interest on delinquent assessments at the rate specified in RCW 82.32.050.

(c) Adjustment of the assessment amounts as follows:

(i) For each fiscal year beginning July 1, 2010, the assessment amounts under section 4 (1) and (3) of this act may be adjusted as follows:

(A) If sufficient other funds for hospitals, excluding any extension of section 5001 of P.L. No. 111-5, are available to support the reimbursement rates and other payments under section 9, 10, 11, 12, or 13 of this act without utilizing the full assessment authorized under section 4 (1) or (3) of this act, the department shall reduce the amount of the assessment for prospective payment system, psychiatric, and rehabilitation hospitals proportionately to the minimum level necessary to support those reimbursement rates and other payments.

(B) Provided that none of the conditions set forth in section 17(2) of this act have occurred, if the department's forecasts indicate that the assessment amounts under section 4 (1) and (3) of this act, together with all other available funds, are not sufficient to support the reimbursement rates and other payments under section 9, 10, 11, 12, or 13 of this act, the department shall increase the assessment

TWENTY SEVENTH DAY, APRIL 10, 2010

rates for prospective payment system, psychiatric, and rehabilitation hospitals proportionately to the amount necessary to support those reimbursement rates and other payments, plus a contingency factor up to ten percent of the total assessment amount.

(C) Any positive balance remaining in the fund at the end of the fiscal year shall be applied to reduce the assessment amount for the subsequent fiscal year.

(ii) Any adjustment to the assessment amounts pursuant to this subsection, and the data supporting such adjustment, including but not limited to relevant data listed in subsection (2) of this section, must be submitted to the Washington state hospital association for review and comment at least sixty calendar days prior to implementation of such adjusted assessment amounts. Any review and comment provided by the Washington state hospital association shall not limit the ability of the Washington state hospital association or its members to challenge an adjustment or other action by the department that is not made in accordance with this chapter.

(2) By November 30th of each year, the department shall provide the following data to the Washington state hospital association:

(a) The fund balance;

(b) The amount of assessment paid by each hospital;

(c) The annual medicaid fee-for-service payments for inpatient hospital services and outpatient hospital services; and

(d) The medicaid healthy options inpatient and outpatient payments as reported by all hospitals to the department on disproportionate share hospital applications. The department shall amend the disproportionate share hospital application and reporting instructions as needed to ensure that the foregoing data is reported by all hospitals as needed in order to comply with this subsection (2)(d).

(3) The department shall determine the number of nonmedicare hospital inpatient days for each hospital for each assessment period.

(4) To the extent necessary, the department shall amend the contracts between the managed care organizations and the department and between regional support networks and the department to incorporate the provisions of section 13 of this act. The department shall pursue amendments to the contracts as soon as possible after the effective date of this act. The amendments to the contracts shall, among other provisions, provide for increased payment rates to managed care organizations in accordance with section 13 of this act.

**NEW SECTION. Sec. 7. LOCAL ASSESSMENTS OR TAXES NOT AUTHORIZED.** Nothing in this chapter shall be construed to authorize any unit of local government to impose a tax or assessment on hospitals, including but not limited to a tax or assessment measured by a hospital's income, earnings, bed days, or other similar measures.

**NEW SECTION. Sec. 8. ASSESSMENT PART OF OPERATING OVERHEAD.** The incidence and burden of assessments imposed under this chapter shall be on hospitals and the expense associated with the assessments shall constitute a part of the operating overhead of hospitals. Hospitals shall not increase charges or billings to patients or third-party payers as a result of the assessments under this chapter. The department may require hospitals to submit certified statements by their chief financial officers or equivalent officials attesting that they have not increased charges or billings as a result of the assessments.

**NEW SECTION. Sec. 9. RESTORATION OF JUNE 30, 2009, REIMBURSEMENT RATES.** Upon satisfaction of the applicable conditions set forth in section 17(1) of this act, the department shall:

2010 1ST SPECIAL SESSION

(1) Restore medicaid inpatient and outpatient reimbursement rates to levels as if the four percent medicaid inpatient and outpatient rate reductions did not occur on July 1, 2009; and

(2) Recalculate the amount payable to each hospital that submitted an otherwise allowable claim for inpatient and outpatient medicaid-covered services rendered from and after July 1, 2009, up to and including the date when the applicable conditions under section 17(1) of this act have been satisfied, as if the four percent medicaid inpatient and outpatient rate reductions did not occur effective July 1, 2009, and, within sixty calendar days after the date upon which the applicable conditions set forth in section 17(1) of this act have been satisfied, remit the difference to each hospital.

**NEW SECTION. Sec. 10. INCREASED HOSPITAL PAYMENTS.** (1) Upon satisfaction of the applicable conditions set forth in section 17(1) of this act and for services rendered on or after February 1, 2010, the department shall increase the medicaid inpatient and outpatient fee-for-service hospital reimbursement rates in effect on June 30, 2009, by the percentages specified below:

(a) Prospective payment system hospitals:

(i) Inpatient psychiatric services: Thirteen percent;

(ii) Inpatient services: Thirteen percent;

(iii) Outpatient services: Thirty-six and eighty-three one-hundredths percent.

(b) Harborview medical center and University of Washington medical center:

(i) Inpatient psychiatric services: Three percent;

(ii) Inpatient services: Three percent;

(iii) Outpatient services: Twenty-one percent.

(c) Rehabilitation hospitals:

(i) Inpatient services: Thirteen percent;

(ii) Outpatient services: Thirty-six and eighty-three one-hundredths percent;

(d) Psychiatric hospitals:

(i) Inpatient psychiatric services: Thirteen percent;

(ii) Inpatient services: Thirteen percent.

(2) For claims processed for services rendered on or after February 1, 2010, but prior to satisfaction of the applicable conditions specified in section 17(1) of this act, the department shall, within sixty calendar days after satisfaction of those conditions, calculate the amount payable to hospitals in accordance with this section and remit the difference to each hospital that has submitted an otherwise allowable claim for payment for such services.

(3) By December 1, 2012, the department will submit a study to the legislature with recommendations on the amount of the assessments necessary to continue to support hospital payments for the 2013-15 biennium. The evaluation will assess medicaid hospital payments relative to medicaid hospital costs. The study should address current federal law, including any changes on scope of medicaid coverage, provisions related to provider taxes, and impacts of federal health care reform legislation. The study should also address the state's economic forecast. Based on the forecast, the department should recommend the amount of assessment needed to support future hospital payments and the departmental administrative expenses. Recommendations should be developed with the fiscal committees of the legislature, office of financial management and the Washington state hospital association.

**NEW SECTION. Sec. 11. CRITICAL ACCESS HOSPITAL PAYMENTS.** Upon satisfaction of the applicable conditions set forth in section 17(1) of this act, the department shall pay critical access hospitals that do not qualify for or receive a small rural disproportionate share payment in the subject state fiscal year an access payment of fifty dollars for each medicaid inpatient day, exclusive of days on which a swing bed is used for subacute care, from and after July 1, 2009. Initial payments to hospitals, covering the period from July 1, 2009, to the date when the applicable

TWENTY SEVENTH DAY, APRIL 10, 2010

2010 1ST SPECIAL SESSION

conditions under section 17(1) of this act are satisfied, shall be made within sixty calendar days after such conditions are satisfied. Subsequent payments shall be made to critical access hospitals on an annual basis at the time that disproportionate share eligibility and payment for the state fiscal year are established. These payments shall be in addition to any other amount payable with respect to services provided by critical access hospitals and shall not reduce any other payments to critical access hospitals.

**NEW SECTION. Sec. 12. DISPROPORTIONATE SHARE HOSPITAL PAYMENTS.** Upon satisfaction of the applicable conditions set forth in section 17(1) of this act, small rural disproportionate share payments shall be increased to one hundred twenty percent of the level in effect as of June 30, 2009, for the period from and after July 1, 2009, until July 1, 2013. Initial payments, covering the period from July 1, 2009, to the date when the applicable conditions under section 17(1) of this act are satisfied, shall be made within sixty calendar days after those conditions are satisfied. Subsequent payments shall be made directly to hospitals by the department on a periodic basis.

**NEW SECTION. Sec. 13. INCREASED MANAGED CARE PAYMENTS AND CORRESPONDING PAYMENTS TO HOSPITALS.** Subject to the applicable conditions set forth in section 17(1) of this act, the department shall:

(1) Amend medicaid-managed care and regional support network contracts as necessary in order to ensure compliance with this chapter;

(2) With respect to the inpatient and outpatient rates established by section 9 of this act:

(a) Upon satisfaction of the applicable conditions under section 17(1) of this act, increase payments to managed care organizations and regional support networks as necessary to ensure that hospitals are reimbursed in accordance with section 9(1) of this act for services rendered from and after the date when applicable conditions under section 17(1) of this act have been satisfied, and pay an additional amount equal to the estimated amount of additional state taxes on managed care organizations or regional support networks due as a result of the payments under this section, and require managed care organizations and regional support networks to make payments to each hospital in accordance with section 9 of this act. The increased payments made to hospitals pursuant to this subsection shall be in addition to any other amounts payable to hospitals by managed care organizations or regional support networks and shall not affect any other payments to hospitals;

(b) Within sixty calendar days after satisfaction of the applicable conditions under section 17(1) of this act, calculate the additional amount due to each hospital to pay claims submitted for inpatient and outpatient medicaid-covered services rendered from and after July 1, 2009, through the date when the applicable conditions under section 17(1) of this act have been satisfied, based on the rates required by section 9(2) of this act, make payments to managed care organizations and regional support networks in amounts sufficient to pay the additional amounts due to each hospital plus an additional amount equal to the estimated amount of additional state taxes on managed care organizations or regional support networks due as a result of the payments under this subsection, and require managed care organizations and regional support networks to make payments to each hospital in accordance with the department's calculations within forty-five calendar days after the department disburses funds for those purposes.

(3) With respect to the inpatient and outpatient hospital rates established by section 10 of this act:

(a) Upon satisfaction of the applicable conditions under section 17(1) of this act, increase payments to managed care organizations and regional support networks as necessary to ensure that hospitals

are reimbursed in accordance with section 10 of this act, and pay an additional amount equal to the estimated amount of additional state taxes on managed care organizations or regional support networks due as a result of the payments under this section;

(b) Require managed care organizations and regional support networks to reimburse hospitals for hospital inpatient and outpatient services rendered after the date that the applicable conditions under section 17(1) of this act are satisfied at rates no lower than the combined rates established by sections 9 and 10 of this act;

(c) Within sixty calendar days after satisfaction of the applicable conditions under section 17(1) of this act, calculate the additional amount due to each hospital to pay claims submitted for inpatient and outpatient medicaid-covered services rendered from and after February 1, 2010, through the date when the applicable conditions under section 17(1) of this act are satisfied based on the rates required by section 10 of this act, make payments to managed care organizations and regional support networks in amounts sufficient to pay the additional amounts due to each hospital plus an additional amount equal to the estimated amount of additional state taxes on managed care organizations or regional support networks, and require managed care organizations and regional support networks to make payments to each hospital in accordance with the department's calculations within forty-five calendar days after the department disburses funds for those purposes;

(d) Require managed care organizations that contract with health care organizations that provide, directly or by contract, health care services on a prepaid or capitated basis to make payments to health care organizations for any of the hospital payments that the managed care organizations would have been required to pay to hospitals under this section if the managed care organizations did not contract with those health care organizations, and require the managed care organizations to require those health care organizations to make equivalent payments to the hospitals that would have received payments under this section if the managed care organizations did not contract with the health care organizations;

(4) The department shall ensure that the increases to the medicaid fee schedules as described in section 10 of this act are included in the development of healthy options premiums.

(5) The department may require managed care organizations and regional support networks to demonstrate compliance with this section.

**NEW SECTION. Sec. 14. QUALITY INCENTIVE PAYMENTS.** (1) The department, in collaboration with the health care authority, the department of health, the department of labor and industries, the Washington state hospital association, the Puget Sound health alliance, and the forum, a collaboration of health carriers, physicians, and hospitals in Washington state, shall design a system of hospital quality incentive payments. The design of the system shall be submitted to the relevant policy and fiscal committees of the legislature by December 15, 2010. The system shall be based upon the following principles:

(a) Evidence-based treatment and processes shall be used to improve health care outcomes for hospital patients;

(b) Effective purchasing strategies to improve the quality of health care services should involve the use of common quality improvement measures by public and private health care purchasers, while recognizing that some measures may not be appropriate for application to specialty pediatric, psychiatric, or rehabilitation hospitals;

(c) Quality measures chosen for the system should be consistent with the standards that have been developed by national quality improvement organizations, such as the national quality forum, the federal centers for medicare and medicaid services, or the federal agency for healthcare research and quality. New reporting burdens

TWENTY SEVENTH DAY, APRIL 10, 2010

to hospitals should be minimized by giving priority to measures hospitals are currently required to report to governmental agencies, such as the hospital compare measures collected by the federal centers for medicare and medicaid services;

(d) Benchmarks for each quality improvement measure should be set at levels that are feasible for hospitals to achieve, yet represent real improvements in quality and performance for a majority of hospitals in Washington state; and

(e) Hospital performance and incentive payments should be designed in a manner such that all noncritical access hospitals in Washington are able to receive the incentive payments if performance is at or above the benchmark score set in the system established under this section.

(2) Upon satisfaction of the applicable conditions set forth in section 17(1) of this act, and for state fiscal year 2013 and each fiscal year thereafter, assessments may be increased to support an additional one percent increase in inpatient hospital rates for noncritical access hospitals that meet the quality incentive benchmarks established under this section.

**NEW SECTION. Sec. 15.** A new section is added to chapter 70.47 RCW to read as follows:

The increases in inpatient and outpatient reimbursement rates included in chapter 74,--- RCW (the new chapter created in section 23 of this act) shall not be reflected in hospital payment rates for services provided to basic health enrollees under this chapter.

**NEW SECTION. Sec. 16. MULTIHOSPITAL LOCATIONS, NEW HOSPITALS, AND CHANGES IN OWNERSHIP.** (1) If an entity owns or operates more than one hospital subject to assessment under this chapter, the entity shall pay the assessment for each hospital separately. However, if the entity operates multiple hospitals under a single medicaid provider number, it may pay the assessment for the hospitals in the aggregate.

(2) Notwithstanding any other provision of this chapter, if a hospital subject to the assessment imposed under this chapter ceases to conduct hospital operations throughout a state fiscal year, the assessment for the quarter in which the cessation occurs shall be adjusted by multiplying the assessment computed under section 4 (1) and (3) of this act by a fraction, the numerator of which is the number of days during the year which the hospital conducts, operates, or maintains the hospital and the denominator of which is three hundred sixty-five. Immediately prior to ceasing to conduct, operate, or maintain a hospital, the hospital shall pay the adjusted assessment for the fiscal year to the extent not previously paid.

(3) Notwithstanding any other provision of this chapter, in the case of a hospital that commences conducting, operating, or maintaining a hospital that is not exempt from payment of the assessment under section 5 of this act and that did not conduct, operate, or maintain such hospital throughout the cost reporting year used to determine the assessment amount, the assessment for that hospital shall be computed on the basis of the actual number of nonmedicare inpatient days reported to the department by the hospital on a quarterly basis. The hospital shall be eligible to receive increased payments under this chapter beginning on the date it commences hospital operations.

(4) Notwithstanding any other provision of this chapter, if a hospital previously subject to assessment is sold or transferred to another entity and remains subject to assessment, the assessment for that hospital shall be computed based upon the cost report data previously submitted by that hospital. The assessment shall be allocated between the transferor and transferee based on the number of days within the assessment period that each owned, operated, or maintained the hospital.

**NEW SECTION. Sec. 17. CONDITIONS.** (1) The assessment, collection, and disbursement of funds under this chapter shall be conditional upon:

2010 1ST SPECIAL SESSION

(a) Withdrawal of those aspects of any pending state plan amendments previously submitted to the centers for medicare and medicaid services that are inconsistent with this chapter, specifically any pending state plan amendment related to the four percent rate reductions for inpatient and outpatient hospital rates and elimination of the small rural disproportionate share hospital payment program as implemented July 1, 2009;

(b) Approval by the centers for medicare and medicaid services of any state plan amendments or waiver requests that are necessary in order to implement the applicable sections of this chapter;

(c) To the extent necessary, amendment of contracts between the department and managed care organizations in order to implement this chapter; and

(d) Certification by the office of financial management that appropriations have been adopted that fully support the rates established in this chapter for the upcoming fiscal year.

(2) This chapter does not take effect or ceases to be imposed, and any moneys remaining in the fund shall be refunded to hospitals in proportion to the amounts paid by such hospitals, if and to the extent that:

(a) An appellate court or the centers for medicare and medicaid services makes a final determination that any element of this chapter, other than section 11 of this act, cannot be validly implemented;

(b) Medicaid inpatient or outpatient reimbursement rates for hospitals are reduced below the combined rates established by sections 9 and 10 of this act;

(c) Except for payments to the University of Washington medical center and harborview medical center, payments to hospitals required under sections 9, 10, 12, and 13 of this act are not eligible for federal matching funds;

(d) Other funding available for the medicaid program is not sufficient to maintain medicaid inpatient and outpatient reimbursement rates for hospitals and small rural disproportionate share payments at one hundred percent of the levels in effect on July 1, 2009; or

(e) The fund is used as a substitute for or to supplant other funds, except as authorized by section 3(3)(e) of this act.

**NEW SECTION. Sec. 18. SEVERABILITY.** (1) The provisions of this chapter are not severable: If the conditions set forth in section 17(1) of this act are not satisfied or if any of the circumstances set forth in section 17(2) of this act should occur, this entire chapter shall have no effect from that point forward, except that if the payment under section 11 of this act, or the application thereof to any hospital or circumstances does not receive approval by the centers for medicare and medicaid services as described in section 17(1)(b) of this act or is determined to be unconstitutional or otherwise invalid, the other provisions of this chapter or its application to hospitals or circumstances other than those to which it is held invalid shall not be affected thereby.

(2) In the event that any portion of this chapter shall have been validly implemented and the entire chapter is later rendered ineffective under this section, prior assessments and payments under the validly implemented portions shall not be affected.

(3) In the event that the payment under section 11 of this act, or the application thereof to any hospital or circumstances does not receive approval by the centers for medicare and medicaid services as described in section 17(1)(b) of this act or is determined to be unconstitutional or otherwise invalid, the amount of the assessment shall be adjusted under section 6(1)(c) of this act.

**Sec. 19.** 2009 c 564 s 209 (uncodified) is amended to read as follows:

FOR THE DEPARTMENT OF SOCIAL AND HEALTH SERVICES--MEDICAL ASSISTANCE PROGRAM

General Fund--State Appropriation (FY 2010).....\$1,597,387,000

TWENTY SEVENTH DAY, APRIL 10, 2010

2010 1ST SPECIAL SESSION

General Fund--State Appropriation (FY 2011).....	\$1,984,797,000
General Fund--Federal Appropriation.....	\$5,210,672,000
General Fund--Private/Local Appropriation.....	\$12,903,000
Emergency Medical Services and Trauma Care Systems	
Trust Account--State Appropriation.....	\$15,076,000
Tobacco Prevention and Control Account--	
State Appropriation.....	\$3,766,000
TOTAL APPROPRIATION.....	\$8,824,601,000

The appropriations in this section are subject to the following conditions and limitations:

(1) Based on quarterly expenditure reports and caseload forecasts, if the department estimates that expenditures for the medical assistance program will exceed the appropriations, the department shall take steps including but not limited to reduction of rates or elimination of optional services to reduce expenditures so that total program costs do not exceed the annual appropriation authority.

(2) In determining financial eligibility for medicaid-funded services, the department is authorized to disregard recoveries by Holocaust survivors of insurance proceeds or other assets, as defined in RCW 48.104.030.

(3) The legislature affirms that it is in the state's interest for Harborview medical center to remain an economically viable component of the state's health care system.

(4) When a person is ineligible for medicaid solely by reason of residence in an institution for mental diseases, the department shall provide the person with the same benefits as he or she would receive if eligible for medicaid, using state-only funds to the extent necessary.

(5) In accordance with RCW 74.46.625, \$6,000,000 of the general fund--federal appropriation is provided solely for supplemental payments to nursing homes operated by public hospital districts. The public hospital district shall be responsible for providing the required nonfederal match for the supplemental payment, and the payments shall not exceed the maximum allowable under federal rules. It is the legislature's intent that the payments shall be supplemental to and shall not in any way offset or reduce the payments calculated and provided in accordance with part E of chapter 74.46 RCW. It is the legislature's further intent that costs otherwise allowable for rate- setting and settlement against payments under chapter 74.46 RCW shall not be disallowed solely because such costs have been paid by revenues retained by the nursing home from these supplemental payments. The supplemental payments are subject to retrospective interim and final cost settlements based on the nursing homes' as-filed and final medicare cost reports. The timing of the interim and final cost settlements shall be at the department's discretion. During either the interim cost settlement or the final cost settlement, the department shall recoup from the public hospital districts the supplemental payments that exceed the medicaid cost limit and/or the medicare upper payment limit. The department shall apply federal rules for identifying the eligible incurred medicaid costs and the medicare upper payment limit.

(6) \$1,110,000 of the general fund--federal appropriation and \$1,105,000 of the general fund--state appropriation for fiscal year 2011 are provided solely for grants to rural hospitals. The department shall distribute the funds under a formula that provides a relatively larger share of the available funding to hospitals that (a) serve a disproportionate share of low-income and medically indigent patients, and (b) have relatively smaller net financial margins, to the extent allowed by the federal medicaid program.

(7) \$9,818,000 of the general fund--state appropriation for fiscal year 2011, and \$9,865,000 of the general fund--federal appropriation are provided solely for grants to nonrural hospitals. The department shall distribute the funds under a formula that

provides a relatively larger share of the available funding to hospitals that (a) serve a disproportionate share of low-income and financially indigent patients, and (b) have relatively smaller net financial margins, to the extent allowed by the federal medicaid program.

(8) The department shall continue the inpatient hospital certified public expenditures program for the 2009-11 biennium. The program shall apply to all public hospitals, including those owned or operated by the state, except those classified as critical access hospitals or state psychiatric institutions. The department shall submit reports to the governor and legislature by November 1, 2009, and by November 1, 2010, that evaluate whether savings continue to exceed costs for this program. If the certified public expenditures (CPE) program in its current form is no longer cost-effective to maintain, the department shall submit a report to the governor and legislature detailing cost-effective alternative uses of local, state, and federal resources as a replacement for this program. During fiscal year 2010 and fiscal year 2011, hospitals in the program shall be paid and shall retain one hundred percent of the federal portion of the allowable hospital cost for each medicaid inpatient fee-for-service claim payable by medical assistance and one hundred percent of the federal portion of the maximum disproportionate share hospital payment allowable under federal regulations. Inpatient medicaid payments shall be established using an allowable methodology that approximates the cost of claims submitted by the hospitals. Payments made to each hospital in the program in each fiscal year of the biennium shall be compared to a baseline amount. The baseline amount will be determined by the total of (a) the inpatient claim payment amounts that would have been paid during the fiscal year had the hospital not been in the CPE program based on the reimbursement rates developed, implemented, and consistent with policies approved in the 2009-11 biennial operating appropriations act (chapter 564, Laws of 2009) and in effect on July 1, 2009, (b) one half of the indigent assistance disproportionate share hospital payment amounts paid to and retained by each hospital during fiscal year 2005, and (c) all of the other disproportionate share hospital payment amounts paid to and retained by each hospital during fiscal year 2005 to the extent the same disproportionate share hospital programs exist in the 2009-11 biennium. If payments during the fiscal year exceed the hospital's baseline amount, no additional payments will be made to the hospital except the federal portion of allowable disproportionate share hospital payments for which the hospital can certify allowable match. If payments during the fiscal year are less than the baseline amount, the hospital will be paid a state grant equal to the difference between payments during the fiscal year and the applicable baseline amount. Payment of the state grant shall be made in the applicable fiscal year and distributed in monthly payments. The grants will be recalculated and redistributed as the baseline is updated during the fiscal year. The grant payments are subject to an interim settlement within eleven months after the end of the fiscal year. A final settlement shall be performed. To the extent that either settlement determines that a hospital has received funds in excess of what it would have received as described in this subsection, the hospital must repay the excess amounts to the state when requested. \$6,570,000 of the general fund-- state appropriation for fiscal year 2010, which is appropriated in section 204(1) of this act, and \$1,500,000 of the general fund--state appropriation for fiscal year 2011, which is appropriated in section 204(1) of this act, are provided solely for state grants for the participating hospitals. Sufficient amounts are appropriated in this section for the remaining state grants for the participating hospitals. CPE hospitals will receive the inpatient and outpatient reimbursement rate restorations in section 9 and rate increases in section 10 (1) (b) of Engrossed Second Substitute House Bill 2956 (hospital safety net assessment)

Mental health services shall be included in the services provided through the managed care system. If the department determines that it is feasible, effective October 1, 2009, in addition to serving clients in the pilot counties, the carrier shall expand managed care services to clients residing in at least the following counties: Spokane, Yakima, Chelan, Kitsap, and Cowlitz. If the department determines that it is feasible, the carrier shall complete implementation into the remaining counties. The department, in collaboration with the carrier, shall seek to improve

Participating providers shall be solely responsible for providing the local funds required to obtain federal matching funds. Any incremental costs incurred by the department in the development, implementation, and maintenance of this program will be the responsibility of the participating providers. Participating providers will retain the full amount of supplemental payments provided under this program, net of any potential costs for any related audits or litigation brought against the state. The department shall report to the governor and the legislative fiscal committees on the prospects for expansion of the program to other qualifying providers as soon as feasibility is determined but no later than December 31, 2009. The report will outline estimated impacts on the participating providers, the procedures necessary to comply with federal guidelines, and the administrative resource requirements necessary to implement the program. #### MOTION

Senator Prentice moved that the following committee striking amendment by the Committee on Ways & Means be adopted:

Strike everything after the enacting clause and insert the following:

**"NEW SECTION. Sec. 1.** (1) The legislature finds that in times of severe economic recession, the state has a special obligation to help unemployed and low-income citizens access the training and education necessary to help them find and keep living wage jobs. The legislature also finds that during times of recession, when state revenues are at their lowest, demand for education and training are at their highest, making it especially important for the legislature to set clear goals and make the most efficient use of limited state resources.

(2) The legislature therefore intends to expand training and education programs, which have proven to be successful, to help Washington citizens receive the training they need. These programs include the worker retraining program, the opportunity grant program, and the opportunity internship program. The legislature further intends to create more effective intake and outreach systems to reach the greatest number of citizens and connect them to the resources they need, including college, apprenticeship, and preapprenticeship.

**Sec. 2.** RCW 28C.04.390 and 1999 c 121 s 1 are each amended to read as follows:

(1) The college board worker retraining program funds shall be used for training programs and related support services, including financial aid, counseling, referral to training resources, job referral, and job development that:

- (b) Provide increased enrollments for dislocated workers;
- (c) Provide customized training opportunities for dislocated workers; and
- (d) Provide increased enrollments and support services, including financial aid for those students not receiving unemployment insurance benefits, that do not replace or supplant any existing enrollments, programs, support services, or funding sources.

(2) The college board shall develop a plan for use of the worker retraining program funds in conjunction with the workforce training customer advisory committee established in subsection (3) of this section. In developing the plan the college board shall:

- (a) Provide that applicants for worker retraining program funds shall solicit financial support for training programs and give priority in receipt of funds to those applicants which are most successful in matching public dollars with financial support;
- (b) Provide that applicants for worker retraining program funds shall develop training programs in partnership with local businesses, industry associations, labor, and other partners as appropriate and give priority in receipt of funds to those applicants who develop

customized training programs in partnership with local businesses, industry associations, and labor organizations;

(c) Give priority in receipt of funds to those applicants serving rural areas;

(d) Ensure that applicants receiving worker retraining program funds gather information from local workforce development councils on employer workforce needs, including the needs of businesses with less than twenty-five employees; ~~((and))~~

(e) Provide for specialized vocational training at a private career school or college at the request of a recipient eligible under subsection (1)(b) of this section. Available tuition for the training is limited to the amount that would otherwise be payable per enrolled quarter to a public institution; and

(f) Give priority in receipt of funds to those applicants working toward careers in the aerospace, health care, advanced manufacturing, construction, and renewable energy industries; high-demand occupations in strategic industry clusters identified in the state comprehensive plan and the workforce development councils' local comprehensive plans for workforce educational training as identified in RCW 28C.18.080 and 28C.18.150; and occupations and industries identified by community and technical colleges in collaboration with local workforce development councils. For purposes of this section, health care includes long-term care.

(3) The executive director of the college board shall appoint a workforce training customer advisory committee by July 1, 1999, to:

(b) Recommend selection criteria for worker retraining programs and grant applicants for receipt of worker retraining program grants;

(c) Provide advice to the college board on other workforce development activities of the community and technical colleges;

(d) Recommend selection criteria for job skills grants, consistent with criteria established in this chapter and chapter 121, Laws of 1999. Such criteria shall include a prioritization of job skills applicants in rural areas;

(e) Recommend guidelines to the college board for the operation of the job skills program; and

(f) Recommend grant applicants for receipt of job skills program grants.

(4) Members of the workforce training customer advisory committee shall consist of three college system representatives selected by the executive director of the college board, three representatives of business selected from nominations provided by statewide business organizations, and three representatives of labor selected from nominations provided by a statewide labor organization representing a cross-section of workers in the state.

**NEW SECTION. Sec. 3.** A new section is added to chapter 28B.50 RCW to read as follows:

By July 1, 2010, and within existing resources, the college board may create a single web site for the purpose of advertising the availability of opportunity express funding to Washington citizens; explaining that opportunity express helps people who want to pursue college and apprenticeship for certain targeted industries; and explaining that opportunity express includes the following tracks: Worker retraining for unemployed adults; training programs approved by the commissioner of the employment security department, training programs administered by labor and management partnerships, and training programs prioritized by industry, for unemployed adults and incumbent workers; opportunity internships for high school students; and opportunity

**Sec. 4.** RCW 28C.18.164 and 2009 c 238 s 4 are each amended to read as follows:

(1) Opportunity internship consortia may apply to the board to offer an opportunity internship program.

(a) The board, in consultation with the Washington state apprenticeship and training council, may select those consortia that demonstrate the strongest commitment and readiness to implement a high quality opportunity internship program for low-income high school students. The board shall place a priority on consortia with demonstrated experience working with similar populations of students and demonstrated capacity to assist a large number of students through the progression of internship or preapprenticeship, high school graduation, postsecondary education, and retention in a high-demand occupation. The board shall place a priority on programs that emphasize secondary career and technical education and nonbaccalaureate postsecondary education; however, programs that target four-year postsecondary degrees are eligible to participate.

(b)(i) Except as provided in (b)(ii) of this subsection (1), the board shall enter into a contract with each consortium selected to participate in the program. No more than ten consortia per year shall be selected to participate in the program, and to the extent possible, the board shall assure a geographic distribution of consortia in regions across the state emphasizing a variety of targeted industries. Each consortium may select no more than one hundred low-income high school students per year to participate in the program.

(ii) For fiscal years 2011 through 2013, the board shall enter into a contract with each consortium selected to participate in the program. No more than twelve consortia per year shall be selected to participate in the program, and to the extent possible, the board shall assure a geographic distribution of consortia in regions across the state emphasizing a variety of targeted industries. No more than five thousand low-income high school students per year may be selected to participate in the program.

(2) Under the terms of an opportunity internship program contract, an opportunity internship consortium shall commit to the following activities which shall be conducted using existing federal, state, local, or private funds available to the consortium:

(c) Once the internship or preapprenticeship components have been developed, conduct outreach efforts to inform low-income high school students about high-demand occupations, the opportunity internship program, options for postsecondary programs of study, and the incentives and opportunities provided to students who participate in the program;

(d) Obtain appropriate documentation of the low-income status of students who participate in the program;

(e) Maintain communication with opportunity internship graduates of the consortium who enroll in postsecondary programs of study; and

(f) Submit an annual report to the board on the progress of and participation in the opportunity internship program of the consortium.

(b) Work with high schools to offer opportunity internships as approved worksite learning experiences where students can earn high school credit;

(c) Designate the local workforce development council as fiscal agent for the opportunity internship program contract;

(d) Work with area high schools to incorporate the opportunity internship program into comprehensive guidance and counseling programs such as the navigation 101 program; and

(e) Coordinate the opportunity internship program with other workforce development and postsecondary education programs, including opportunity grants, the college bound scholarship program, federal workforce investment act initiatives, and college access challenge grants.

(4) The board shall seek federal funds that may be used to support the opportunity internship program, including providing the incentive payments under RCW 28C.18.168.

**NEW SECTION. Sec. 5.** A new section is added to chapter 28B.50 RCW to read as follows:

#### SECOND READING

HOUSE BILL NO. 2694, by Representatives Sells, White, McCoy, Kenney, Ericks, O'Brien, Roberts and Chase

Regarding a bachelor of science in nursing program at the University Center.

The measure was read the second time.

#### MOTION

Senator Prentice moved that the following committee striking amendment by the Committee on Ways & Means be adopted.

Strike everything after the enacting clause and insert the following:

"NEW SECTION. **Sec. 1.** A new section is added to chapter 28B.50 RCW to read as follows:

(1) RCW 28B.50.901 assigns responsibility for the north Snohomish, Island, and Skagit counties' higher education consortium to Everett Community College. In April of 2009, Everett Community College opened Gray Wolf Hall, the new home of the University Center of North Puget Sound. The University Center currently offers over twenty bachelor's and master's degrees from six partner universities.

(2) Although Everett Community College offers an associate degree nursing program that graduates approximately seventy to ninety students per year, the University Center does not offer a bachelor of science in nursing. Some graduates of the Everett Community College program are able to articulate to the bachelor of science in nursing program offered by the University of Washington-Bothell at its Bothell campus or in Mt. Vernon but current capacity is not sufficient for all of the graduates who are both interested and qualified.

(3) Despite recent growth in nursing education capacity, shortages still persist for registered nurses. According to a June 2007 study by the Washington, Wyoming, Alaska, Montana, and Idaho center for health workforce studies, the average age of Washington's registered nurses was forty-eight years. More than a third were fifty-five years of age or older. Consequently, the high rate of registered nurses retiring from nursing practice over the next two decades will significantly reduce the supply. This reduction comes at the same time as the state's population grows and ages. The registered nurse education capacity in Washington has a large impact on the supply of registered nurses in the state. If the rate of graduation in registered nursing does not increase, projections show that supply in Washington will begin to decline by 2015. In contrast, if graduation rates increased by four hundred per year, the supply of registered nurses would meet estimated demand by the year 2021.

(4) Subject to specific funding to support up to fifty full-time equivalent students in a bachelor of nursing program, the University Center at Everett Community College, in partnership with the University of Washington-Bothell, shall offer a bachelor of science in nursing program with capacity for up to fifty full-time students.

NEW SECTION. **Sec. 2.** This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect July 1, 2010.

NEW SECTION. **Sec. 3.** If specific funding for the purposes of this act, referencing this act by bill or chapter number, is not provided by June 30, 2010, in the omnibus appropriations act, this act is null and void."

Senator Prentice spoke in favor of adoption of the committee striking amendment.

The President declared the question before the Senate to be the adoption of the committee striking amendment by the Committee on Ways & Means to House Bill No. 2694.

MESSAGE FROM THE HOUSE

Authorizing alternative public works contracting procedures.

April 12, 2010

The measure was read the second time.

MR. PRESIDENT:

MOTION

The House concurred in the Senate amendments to the following bills and passed the bills as amended by the Senate:

ENGROSSED SECOND SUBSTITUTE HOUSE BILL 2630,

Senator Regala moved that the following striking amendment by Senator Regala be adopted:

HOUSE BILL 2694.

Strike everything after the enacting clause and insert the following:

and the same are herewith transmitted.

"NEW SECTION. Sec. 1. The establishment of alternative public works contracting procedures authorized for use by public bodies has been a complex, controversial, and challenging undertaking, but it has been successful. The key to the successful adoption and consideration of these procedures has depended, in great part, on the review and oversight mechanisms put in place by the legislature in chapter 39.10 RCW, as well as the countless hours of dedicated work by numerous stakeholders over many years. It is the intent of the legislature to clarify that, unless otherwise specifically provided for in law, public bodies that want to use an alternative public works contracting procedure may use only those procedures specifically authorized in chapter 39.10 RCW.

BARBARA BAKER, Chief Clerk

Sec. 2. RCW 39.10.200 and 2007 c 494 s 1 are each amended to read as follows:

MESSAGE FROM THE HOUSE

April 12, 2010

MR. PRESIDENT:

The House has passed:

HOUSE BILL NO. 3219.

and the same is herewith transmitted.

BARBARA BAKER, Chief Clerk

MOTION

On motion of Senator Eide, the Senate advanced to the fifth order of business.

The legislature finds that the traditional process of awarding public works contracts in lump sum to the lowest responsible bidder is a fair and objective method of selecting a contractor. However, under certain circumstances, alternative public works contracting procedures may best serve the public interest if such procedures are implemented in an open and fair process based on objective and equitable criteria. The purpose of this chapter is to authorize the use of certain supplemental alternative public works contracting procedures, to prescribe appropriate requirements to ensure that such contracting procedures serve the public interest, and to establish a process for evaluation of such contracting procedures. It is the intent of the legislature to establish that, unless otherwise specifically provided for in law, public bodies may use only those alternative public works contracting procedures specifically authorized in this chapter, subject to the requirements of this chapter.

MOTION

Senator Fraser moved that the following committee striking amendment by the Committee on Ways & Means be adopted:

Strike everything after the enacting clause and insert the following:

**"PART I  
 SHORT TITLE AND INTENT**

NEW SECTION. Sec. 101. This act may be known and cited as the jobs act.

NEW SECTION. Sec. 102. The legislature intends to create jobs in every corner of Washington state by issuing bonds, which will catalyze energy savings and repair work at public schools and state colleges and universities.

It is the intent of the legislature that these investments will create jobs quickly and directly, at a time when the state's residents need jobs. It is the further intent of the legislature that these investments both accelerate innovation in the energy efficiency sector and create locally developed technologies and companies to provide sustainable jobs. The legislature intends to prioritize the use of innovative technologies and facilitate the development of a sustainable innovation cluster that creates and installs highly efficient building technologies and creates jobs.

The legislature intends that these job-creating projects save taxpayers money, with an estimated one hundred twenty-six million dollars saved each year in public schools through reduced energy and operational costs, and improve the health and safety of those buildings. The energy savings are equivalent to the use of an estimated ninety thousand houses. It is also the intent of the legislature that these job-creating projects lead to reduced pollutants, as the weatherization and energy efficiency projects will reduce pollution emissions by an estimated amount equivalent to removing an estimated one hundred thirty thousand cars from the roads each year.

**PART II  
 BOND AUTHORIZATION**

NEW SECTION. Sec. 201. (1) For the purpose of creating jobs by constructing needed capital improvements to public facilities for energy, utility, and operational cost savings, the state

finance committee is authorized to issue general obligation bonds of the state of Washington in the sum of five hundred five million dollars, or so much thereof as may be required, for this purpose and all costs incidental thereto. The bonds issued under the authority of this section are known as jobs act bonds.

(2) Bonds authorized in this section must be sold in the manner, at the time or times, in amounts, and at such prices as the state finance committee determines.

(3) The authorization to issue bonds contained in this chapter does not expire until the full authorization has been issued.

(4) No bonds authorized in this section may be offered for sale without prior legislative appropriation of the net proceeds of the sale of the bonds.

NEW SECTION. Sec. 202. (1) The nondebt-limit general fund bond retirement account must be used for the payment of the principal of and interest on the bonds authorized in section 201 of this act.

(2) The state finance committee must, on or before June 30th of each year, certify to the state treasurer the amount needed in the ensuing twelve months to meet the bond retirement and interest requirements on the bonds authorized in section 201 of this act.

(3) On each date on which any interest or principal and interest payment is due on bonds issued for the purposes of section 201 of this act, the state treasurer shall withdraw from any general state revenues received in the state treasury and deposit in the nondebt-limit general fund bond retirement account an amount equal to the amount certified by the state finance committee to be due on the payment date.

NEW SECTION. Sec. 203. (1) Bonds issued under this section and sections 201 and 202 of this act must state that they are a general obligation of the state of Washington, must pledge the full faith and credit of the state to the payment of the principal thereof and the interest thereon, and must contain an unconditional promise to pay the principal and interest as the same shall become due.

(2) The owner and holder of each of the bonds or the trustee for the owner and holder of any of the bonds may by mandamus or other appropriate proceeding require the transfer and payment of funds as directed in this section.

**PART III  
 PROGRAM REQUIREMENTS, APPROPRIATIONS, AND  
 REVENUE PROVISIONS**

NEW SECTION. Sec. 301. (1) The department of commerce, in consultation with the department of general administration and the Washington State University energy program, shall administer the jobs act.

(2) The department of general administration must develop guidelines that are consistent with national and international energy savings performance standards for the implementation of energy savings performance contracting projects by the energy savings performance contractors by December 31, 2010.

(3) The definitions in this section apply throughout this chapter and section 302 of this act unless the context clearly requires otherwise.

(a) "Cost-effectiveness" means that the present value to higher education institutions and school districts of the energy reasonably expected to be saved or produced by a facility, activity, measure, or piece of equipment over its useful life, including any compensation received from a utility or the Bonneville power administration, is greater than the net present value of the costs of implementing, maintaining, and operating such facility, activity, measure, or piece of equipment over its useful life, when discounted at the cost of public borrowing.

(b) "Energy cost savings" means savings realized in expenses for energy use and expenses associated with water, wastewater, or solid waste systems.

(c) "Energy equipment" means energy management systems and any equipment, materials, or supplies that are expected, upon installation, to reduce the energy use or energy cost of an existing building or facility, and the services associated with the equipment, materials, or supplies, including but not limited to design, engineering, financing, installation, project management, guarantees, operations, and maintenance. Reduction in energy use or energy cost may also include reductions in the use or cost of water, wastewater, or solid waste.

(d) "Energy savings performance contracting" means the process authorized by chapter 39.35C RCW by which a company contracts with a public agency to conduct energy audits and guarantee energy savings from energy efficiency.

(e) "Innovative measures" means advanced or emerging technologies, systems, or approaches that may not yet be in common practice but improve energy efficiency, accelerate deployment, or reduce energy usage, and become widely commercially available in the future if proven successful in demonstration programs without compromising the guaranteed performance or measurable energy and operational cost savings anticipated. Examples of innovative measures include, but are not limited to, advanced energy and systems operations monitoring, diagnostics, and controls systems for buildings; novel heating, cooling, ventilation, and water heating systems; advanced windows and insulation technologies, highly efficient lighting technologies, designs, and controls; and integration of renewable energy sources into buildings, and energy savings verification technologies and solutions.

(f) "Operational cost savings" means savings realized from parts, service fees, capital renewal costs, and other measurable annual expenses to maintain and repair systems. This definition does not mean labor savings related to existing facility staff.

(g) "Public facilities" means buildings, building components, and major equipment or systems owned by public school districts and public higher education institutions.

**NEW SECTION. Sec. 302.** (1) Within appropriations specifically provided for the purposes of this chapter, the department of commerce, in consultation with the department of general administration, and the Washington State University energy program shall establish a competitive process to solicit and evaluate applications from public school districts, public higher education institutions, and other state agencies. Final grant awards shall be determined by the department of commerce.

(2) Grants must be awarded in competitive rounds, based on demand and capacity, with at least five percent of each grant round awarded to small public school districts with fewer than one thousand full-time equivalent students, based on demand and capacity.

(3) Within each competitive round, projects must be weighted and prioritized based on the following criteria and in the following order:

(a) Leverage ratio: In each round, the higher the leverage ratio of nonstate funding sources to state jobs act grant, the higher the project ranking.

(b) Energy savings: In each round, the higher the energy savings, the higher the project ranking. Applicants must submit documentation that demonstrates energy and operational cost savings resulting from the installation of the energy equipment and improvements. The energy savings analysis must be performed by a licensed engineer and documentation must include but is not limited to the following:

(i) A description of the energy equipment and improvements;

(ii) A description of the energy and operational cost savings; and

(iii) A description of the extent to which the project employs collaborative and innovative measures and encourages demonstration of new and emerging technologies with high energy savings or energy cost reductions.

(c) Expediency of expenditure: Project readiness to spend funds must be prioritized so that the legislative intent to expend funds quickly is met.

(4) Projects that do not use energy savings performance contracting must: (a) Verify energy and operational cost savings, as defined in section 301 of this act, for ten years or until the energy and operational costs savings pay for the project, whichever is shorter; (b) follow the department of general administration's energy savings performance contracting project guidelines developed pursuant to section 301 of this act; and (c) employ a licensed engineer for the energy audit and construction. The department of commerce may require third-party verification of savings if a project is not implemented by an energy savings performance contractor selected by the department of general administration through the request of qualifications process. Third-party verification must be conducted either by an energy savings performance contractor selected by the department of general administration through a request for qualifications, a licensed engineer specializing in energy conservation, or by a project resource conservation manager or educational service district resource conservation manager.

(5) To intensify competition, the department of commerce may only award funds to the top eighty-five percent of projects applying in a round until the department of commerce determines a final round is appropriate. Projects that do not receive a grant award in one round may reapply in subsequent rounds.

(6) To match federal grants and programs that require state matching funds and produce significantly higher efficiencies in operations and utilities, the level of innovation criteria may be increased for the purposes of weighted scoring to capture those federal dollars for selected projects that require a higher level of innovation and regional collaboration.

(7) Grant amounts awarded to each project must allow for the maximum number of projects funded with the greatest energy and cost benefit.

**POINT OF ORDER**

Senator Rockefeller: "The amendment is beyond not only the scope but the object of the underlying bill. The 2561 bill authorizes the issuance of certain bonds upon approval of the voters with the proceeds from the sale of those bonds used to create jobs, in the area of retrofitting schools and other educational institutions. The bill provides that the bonds would be paid by extending the tax on bottled water, again, only upon

TWENTY NINTH DAY, APRIL 12, 2010

approval by the voters. That is the entire scope of the bill. This amendment would remove an entirely different tax, a tax on candy contained in a separate bill. The tax on candy has nothing to do with the bonds, the retrofitting process, job creation or bond repayment. It simply is an effort to alter an unrelated tax provision. Further, Mr. President, the amendment also is beyond the object of the bill. The entire purpose of the provisions related to the tax on bottled water is to provide a funding source for repayment of the bonds authorized in the bill and by contrast the provisions related to the tax on candy in this amendment would reduce revenue and have no relation to funding the bonds authorized within the bill. With this reason I agree it is beyond both scope and object and therefore should be ruled out of order. Thank you Mr. President.”

Senator Schoesler spoke against the point of order.

The motion by Senator Eide carried and debate was limited through April 12, 2010 by voice vote.

#### RULING BY THE PRESIDENT

President Owen: “In ruling upon the point of order raised by Senator Rockefeller as to whether amendment 467 by Senator Schoesler to Engrossed House Bill No. 2561 expands the scope and object of the underlying bill. The President finds and rules as follows:

Engrossed House Bill No. 2561 authorizes the issuance of certain bonds upon approval of the voters with the proceeds from the sale of those bonds used to create jobs to retrofit schools and other educational institutions. Section 304 of the bill describes the legislature’s intent to increase state revenues to pay for a portion of the increased debt service cost. To accomplish this intending result the bill would extend the tax on bottled water as provided in a separate revenue bill. The proposed amendment by contrast would eliminate a tax on candy, a tax that is created in the same revenue bill. Although the two taxes are both found in the revenue bill the treatment in this bill are opposite to one another. The extension of the bottled water tax is consistent with the intent of the bill by raising taxes while the removal of the tax on candy is inconsistent with the state of purpose.

For these reasons the President finds that the proposed amendment is beyond the scope and object of the underlying bill and Senator Rockefeller’s point is well taken.”

**MOTION FOR IMMEDIATE RECONSIDERATION**

Senator Eide, having voted on the prevailing side moved to immediately reconsider the vote by which the by Senator Schoesler on page 14, line 36 to the committee striking amendment to Engrossed House Bill No. 2561 passed the Senate earlier in the day.

**POINT OF ORDER**

Senator Hewitt: “So, Mr. President, if there’s an oral roll call, how can one prove that they actually voted on the that amendment?”

**REPLY BY THE PRESIDENT**

President Owen: “How can I prove they didn’t. Senator Hewitt, to be honest and I mean to be more sincere, the President has to take the person’s word. I believe in a situation like that, unless there’s some evidence to the contrary. I have no way of showing otherwise. Matter of fact I think just about the whole body voted for that amendment.”

The President declared the question before the Senate to be the motion by Senator Eide to immediately reconsider the vote by which the amendment by Senator Schoesler to the committee striking amendment to Engrossed House Bill No. 2561.

The motion by Senator Eide carried by a voice vote.

**MESSAGE FROM THE HOUSE**

April 10, 2010

MR. PRESIDENT:

The House has adopted the report of the Conference Committee on SECOND ENGROSSED SUBSTITUTE SENATE BILL NO. 6143 and has passed the bill as recommended by the Conference Committee. and the same are herewith transmitted.

BARBARA BAKER, Chief Clerk

**REPORT OF THE CONFERENCE COMMITTEE**

Second Engrossed Substitute Senate Bill No. 6143

April 10, 2010

MR. PRESIDENT:

MR. SPEAKER:

We of your conference committee, to whom was referred Second Engrossed Substitute Senate Bill No. 6143, have had the same under consideration and recommend that all previous amendments not be adopted and that the following striking amendment be adopted:

Strike everything after the enacting clause and insert the following:

**"NEW SECTION. Sec. 1.** In order to preserve funding for education, public safety, health care, environmental protection, and safety net services for children, elderly, disabled, and vulnerable people, it is the intent of the legislature to close obsolete tax preferences, clarify the legislature's intent regarding existing tax policy, and to ensure balanced tax policy while bolstering emerging industries.

**PART I**

**Minimum Nexus Standards**

**NEW SECTION. Sec. 101.** (1) The legislature finds that out-of-state businesses that do not have a physical presence in Washington earn significant income from Washington residents from providing services or collecting royalties on the use of intangible property in this state. The legislature further finds that these businesses receive significant benefits and opportunities provided by the state, such as: Laws providing protection of business interests or regulating consumer credit; access to courts and judicial process to enforce business rights, including debt collection and intellectual property rights; an orderly and regulated marketplace; and police and fire protection and a transportation system benefiting in-state agents and other representatives of out-of-state businesses. Therefore, the legislature intends to extend the state's business and occupation tax to these companies to ensure that they pay their fair share of the cost of services that this state renders and the infrastructure it provides.

(2)(a) The legislature also finds that the current cost apportionment method in RCW 82.04.460(1) for apportioning most service income has been difficult for both taxpayers and the department to apply due in large part (i) to the difficulty in assigning certain costs of doing business inside or outside of this state, and (ii) to its dissimilarity with the apportionment methods used in other states for their business activity taxes.

TWENTY NINTH DAY, APRIL 12, 2010

(b) The legislature further finds that there is a trend among states to adopt a single factor apportionment formula based on sales. The legislature recognizes that adoption of a sales factor only apportionment method has the advantages of simplifying apportionment and making Washington a more attractive place for businesses to expand their property and payroll. For these reasons, the legislature adopts single factor sales apportionment for purposes of apportioning royalty income and certain service income for state business and occupation tax purposes.

(c) Nothing in this act may be construed, however, to authorize apportionment of the gross income or value of products taxable under the following business and occupation tax classifications: Retailing, wholesaling, manufacturing, processing for hire, extracting, extracting for hire, printing, government contracting, public road construction, the classifications in RCW 82.04.280 (2), (4), (6), and (7), and any other activity not specifically included in the definition of apportionable activities in RCW 82.04.460.

(d) Nothing in this part is intended to modify the nexus and apportionment requirements for local gross receipts business and occupation taxes.

**Sec. 102.** RCW 82.04.220 and 1961 c 15 s 82.04.220 are each amended to read as follows:

(1) There is levied and ((shall be)) collected from every person that has a substantial nexus with this state a tax for the act or privilege of engaging in business activities. ((Such)) The tax ((shall be)) is measured by the application of rates against value of products, gross proceeds of sales, or gross income of the business, as the case may be.

(2) A person who has a substantial nexus with this state in any tax year will be deemed to have a substantial nexus with this state for the following tax year.

**NEW SECTION. Sec. 103.** A new section is added to chapter 82.04 RCW to read as follows:

"Engaging within this state" and "engaging within the state," when used in connection with any apportionable activity as defined in RCW 82.04.460, means that a person generates gross income of the business from sources within this state, such as customers or intangible property located in this state, regardless of whether the person is physically present in this state.

**NEW SECTION. Sec. 104.** A new section is added to chapter 82.04 RCW to read as follows:

(1) A person engaging in business is deemed to have substantial nexus with this state if the person is:

(a) An individual and is a resident or domiciliary of this state;

(b) A business entity and is organized or commercially domiciled in this state; or

(c) A nonresident individual or a business entity that is organized or commercially domiciled outside this state, and in any tax year the person has:

(i) More than fifty thousand dollars of property in this state;

(ii) More than fifty thousand dollars of payroll in this state;

(iii) More than two hundred fifty thousand dollars of receipts from this state; or

(iv) At least twenty-five percent of the person's total property, total payroll, or total receipts in this state.

(2)(a) Property counting toward the thresholds in subsection (1)(c)(i) and (iv) of this section is the average value of the taxpayer's property, including intangible property, owned or rented and used in this state during the tax year.

(b)(i) Property owned by the taxpayer, other than loans and credit card receivables owned by the taxpayer, is valued at its original cost basis. Loans and credit card receivables owned by the taxpayer are valued at their outstanding principal balance, without regard to any reserve for bad debts. However, if a loan or credit card receivable is charged off in whole or in part for federal income

2010 1ST SPECIAL SESSION

tax purposes, the portion of the loan or credit card receivable charged off is deducted from the outstanding principal balance.

(ii) Property rented by the taxpayer is valued at eight times the net annual rental rate. For purposes of this subsection, "net annual rental rate" means the annual rental rate paid by the taxpayer less any annual rental rate received by the taxpayer from subrentals.

(c) The average value of property must be determined by averaging the values at the beginning and ending of the tax year; but the department may require the averaging of monthly values during the tax year if reasonably required to properly reflect the average value of the taxpayer's property.

(d)(i) For purposes of this subsection (2), loans and credit card receivables are deemed owned and used in this state as follows:

(A) Loans secured by real property, personal property, or both real and personal property, are deemed owned and used in the state if the real property or personal property securing the loan is located within this state. If the property securing the loan is located both within this state and one or more other states, the loan is deemed owned and used in this state if more than fifty percent of the fair market value of the real or personal property is located within this state. If more than fifty percent of the fair market value of the real or personal property is not located within any one state, then the loan is deemed owned and used in this state if the borrower is located in this state. The determination of whether the real or personal property securing a loan is located within this state must be made, as of the time the original agreement was made, and any and all subsequent substitutions of collateral must be disregarded.

(B) Loans not secured by real or personal property are deemed owned and used in this state if the borrower is located in this state.

(C) Credit card receivables are deemed owned and used in this state if the billing address of the cardholder is in this state.

(ii)(A) Except as otherwise provided in (d)(ii)(B) of this subsection (2), the definitions in the multistate tax commission's recommended formula for the apportionment and allocation of net income of financial institutions as existing on the effective date of this section or such subsequent date as may be provided by the department by rule, consistent with the purposes of this section, apply to this section.

(B) "Credit card" means a card or device existing for the purpose of obtaining money, property, labor, or services on credit.

(e) Notwithstanding anything else to the contrary in this subsection, property counting toward the thresholds in subsection (1)(c)(i) and (iv) of this section does not include a person's ownership of, or rights in, computer software as defined in RCW 82.04.215, including computer software used in providing a digital automated service; master copies of software; and digital goods and digital codes residing on servers located in this state.

(3)(a) Payroll counting toward the thresholds in subsection (1)(c)(ii) and (iv) of this section is the total amount paid by the taxpayer for compensation in this state during the tax year plus nonemployee compensation paid to representative third parties in this state. Nonemployee compensation paid to representative third parties includes the gross amount paid to nonemployees who represent the taxpayer in interactions with the taxpayer's clients and includes sales commissions.

(b) Employee compensation is paid in this state if the compensation is properly reportable to this state for unemployment compensation tax purposes, regardless of whether the compensation was actually reported to this state.

(c) Nonemployee compensation is paid in this state if the service performed by the representative third party occurs entirely or primarily within this state.

(d) For purposes of this subsection, "compensation" means wages, salaries, commissions, and any other form of remuneration paid to employees or nonemployees and defined as gross income

2010 1ST SPECIAL SESSION

under 26 U.S.C. Sec. 61 of the federal internal revenue code of 1986, as existing on the effective date of this section.

(4) Receipts counting toward the thresholds in subsection (1)(c)(iii) and (iv) of this section are those amounts included in the numerator of the receipts factor under section 105 of this act and, for financial institutions, those amounts included in the numerator of the receipts factor under the rule adopted by the department as authorized in RCW 82.04.460(2).

(5)(a) Each December, the department must review the cumulative percentage change in the consumer price index. The department must adjust the thresholds in subsection (1)(c)(i) through (iii) of this section if the consumer price index has changed by five percent or more since the later of the effective date of this section, or the date that the thresholds were last adjusted under this subsection. For purposes of determining the cumulative percentage change in the consumer price index, the department must compare the consumer price index available as of December 1st of the current year with the consumer price index as of the later of the effective date of this section, or the date that the thresholds were last adjusted under this subsection. The thresholds must be adjusted to reflect that cumulative percentage change in the consumer price index. The adjusted thresholds must be rounded to the nearest one thousand dollars. Any adjustment will apply to tax periods that begin after the adjustment is made.

(b) As used in this subsection, "consumer price index" means the consumer price index for all urban consumers (CPI-U) available from the bureau of labor statistics of the United States department of labor.

(6) Subsections (1) through (5) of this section only apply with respect to the taxes imposed under this chapter on apportionable activities as defined in RCW 82.04.460. For purposes of the taxes imposed under this chapter on any activity not included in the definition of apportionable activities in RCW 82.04.460, a person is deemed to have a substantial nexus with this state if the person has a physical presence in this state, which need only be demonstrably more than a slightest presence. For purposes of this subsection, a person is physically present in this state if the person has property or employees in this state. A person is also physically present in this state if the person, either directly or through an agent or other representative, engages in activities in this state that are significantly associated with the person's ability to establish or maintain a market for its products in this state.

**NEW SECTION. Sec. 105.** A new section is added to chapter 82.04 RCW to read as follows:

(1) The apportionable income of a person within the scope of RCW 82.04.460(1) is apportioned to Washington by multiplying its apportionable income by the receipts factor. Persons who are subject to tax under more than one of the tax classifications enumerated in RCW 82.04.460(4)(a) (i) through (x) must calculate a separate receipts factor for each tax classification that the person is taxable under.

(2) For purposes of subsection (1) of this section, the receipts factor is a fraction and is calculated as provided in subsections (3) and (4) of this section and, for financial institutions, as provided in the rule adopted by the department under the authority of RCW 82.04.460(2).

(3)(a) The numerator of the receipts factor is the total gross income of the business of the taxpayer attributable to this state during the tax year from engaging in an apportionable activity. The denominator of the receipts factor is the total gross income of the business of the taxpayer from engaging in an apportionable activity everywhere in the world during the tax year.

(b) Except as otherwise provided in this section, for purposes of computing the receipts factor, gross income of the business

generated from each apportionable activity is attributable to the state:

(i) Where the customer received the benefit of the taxpayer's service or, in the case of gross income from royalties, where the customer used the taxpayer's intangible property.

(ii) If the customer received the benefit of the service or used the intangible property in more than one state, gross income of the business must be attributed to the state in which the benefit of the service was primarily received or in which the intangible property was primarily used.

(iii) If the taxpayer is unable to attribute gross income of the business under the provisions of (b)(i) or (ii) of this subsection (3), gross income of the business must be attributed to the state from which the customer ordered the service or, in the case of royalties, the office of the customer from which the royalty agreement with the taxpayer was negotiated.

(iv) If the taxpayer is unable to attribute gross income of the business under the provisions of (b)(i), (ii), or (iii) of this subsection (3), gross income of the business must be attributed to the state to which the billing statements or invoices are sent to the customer by the taxpayer.

(v) If the taxpayer is unable to attribute gross income of the business under the provisions of (b)(i), (ii), (iii), or (iv) of this subsection (3), gross income of the business must be attributed to the state from which the customer sends payment to the taxpayer.

(vi) If the taxpayer is unable to attribute gross income of the business under the provisions of (b)(i), (ii), (iii), (iv), or (v) of this subsection (3), gross income of the business must be attributed to the state where the customer is located as indicated by the customer's address: (A) Shown in the taxpayer's business records maintained in the regular course of business; or (B) obtained during consummation of the sale or the negotiation of the contract for services or for the use of the taxpayer's intangible property, including any address of a customer's payment instrument when readily available to the taxpayer and no other address is available.

(vii) If the taxpayer is unable to attribute gross income of the business under the provisions of (b)(i), (ii), (iii), (iv), (v), or (vi) of this subsection (3), gross income of the business must be attributed to the commercial domicile of the taxpayer.

(viii) For purposes of this subsection (3)(b), "customer" means a person or entity to whom the taxpayer makes a sale or renders services or from whom the taxpayer otherwise receives gross income of the business. "Customer" includes anyone who pays royalties or charges in the nature of royalties for the use of the taxpayer's intangible property.

(c) Gross income of the business from engaging in an apportionable activity must be excluded from the denominator of the receipts factor if, in respect to such activity, at least some of the activity is performed in this state, and the gross income is attributable under (b) of this subsection (3) to a state in which the taxpayer is not taxable. For purposes of this subsection (3)(c), "not taxable" means that the taxpayer is not subject to a business activities tax by that state, except that a taxpayer is taxable in a state in which it would be deemed to have a substantial nexus with that state under the standards in section 104(1) of this act regardless of whether that state imposes such a tax. "Business activities tax" means a tax measured by the amount of, or economic results of, business activity conducted in a state. The term includes taxes measured in whole or in part on net income or gross income or receipts. "Business activities tax" does not include a sales tax, use tax, or a similar transaction tax, imposed on the sale or acquisition of goods or services, whether or not denominated a gross receipts tax or a tax imposed on the privilege of doing business.

(d) This subsection (3) does not apply to financial institutions with respect to apportionable income taxable under RCW

TWENTY NINTH DAY, APRIL 12, 2010

82.04.290. Financial institutions must calculate the receipts factor as provided in subsection (4) of this section and the rule adopted by the department under the authority of RCW 82.04.460(2) with respect to apportionable income taxable under RCW 82.04.290. Financial institutions that are subject to tax under any other tax classification enumerated in RCW 82.04.460(4)(a) (i) through (v) and (vii) through (x) must calculate a separate receipts factor, as provided in this section, for each of the other tax classifications that the financial institution is taxable under.

(4) A taxpayer may calculate the receipts factor for the current tax year based on the most recent calendar year for which information is available for the full calendar year. If a taxpayer does not calculate the receipts factor for the current tax year based on previous calendar year information as authorized in this subsection, the business must use current year information to calculate the receipts factor for the current tax year. In either case, a taxpayer must correct the reporting for the current tax year when complete information is available to calculate the receipts factor for that year, but not later than October 31st of the following tax year. Interest will apply to any additional tax due on a corrected tax return. Interest must be assessed at the rate provided for delinquent excise taxes under chapter 82.32 RCW, retroactively to the date the original return was due, and will accrue until the additional taxes are paid. Penalties as provided in RCW 82.32.090 will apply to any such additional tax due only if the current tax year reporting is not corrected and the additional tax is not paid by October 31st of the following tax year. Interest as provided in RCW 82.32.060 will apply to any tax paid in excess of that properly due on a return as a result of a taxpayer using previous calendar year data or incomplete current-year data to calculate the receipts factor.

(5) Unless the context clearly requires otherwise, the definitions in this subsection apply throughout this section.

(a) "Apportionable activities" and "apportionable income" have the same meaning as in RCW 82.04.460.

(b) "State" means a state of the United States, the District of Columbia, the Commonwealth of Puerto Rico, any territory or possession of the United States, or any foreign country or political subdivision of a foreign country.

**Sec. 106.** RCW 82.04.2907 and 2009 c 535 s 407 are each amended to read as follows:

(1) Upon every person engaging within this state in the business of receiving income from royalties ~~((or charges in the nature of royalties for the granting of intangible rights, such as copyrights, licenses, patents, or franchise fees)),~~ the amount of tax with respect to ~~((such))~~ the business ~~((shall be))~~ is equal to the gross income from royalties ~~((or charges in the nature of royalties from the business))~~ multiplied by the rate of 0.484 percent.

For purposes of this subsection, "intangible property" includes copyrights, patents, licenses, franchises, trademarks, trade names, and similar items. ~~((#))~~ "Gross income from royalties" does not include compensation for any natural resource, the licensing of prewritten computer software to the end user, or the licensing ~~((or use))~~ of digital goods, digital codes, or digital automated services to the end user as defined in RCW 82.04.190(11).

**Sec. 107.** RCW 82.04.2907 and 2010 c 111 (SHB 2620) s 302 are each amended to read as follows:

(1) Upon every person engaging within this state in the business of receiving income from royalties ~~((or charges in the nature of royalties for the granting of intangible rights, such as copyrights, licenses, patents, or franchise fees)),~~ the amount of tax with respect to the business is equal to the gross income from royalties ~~((or~~

**Sec. 108.** RCW 82.04.460 and 2004 c 174 s 6 are each amended to read as follows:

(1) Except as otherwise provided in this section, any person ~~((rendering services))~~ earning apportionable income taxable under ~~((RCW 82.04.290 or 82.04.2908))~~ this chapter and ~~((maintaining places of business both within and without this state which contribute to the rendition of such services shall))~~ also taxable in another state, must, for the purpose of computing tax liability under ~~((RCW 82.04.290 or 82.04.2908))~~ this chapter, apportion to this state, in accordance with section 105 of this act, that portion of the person's ~~((gross))~~ apportionable income ~~((which is))~~ derived from ~~((services rendered))~~ business activities performed within this state. ~~((Where such apportionment cannot be accurately made by separate accounting methods, the taxpayer shall apportion to this state that proportion of the taxpayer's total income which the cost of doing business within the state bears to the total cost of doing business both within and without the state.))~~

(a) The department's rule must provide for a single factor apportionment method based on the receipts factor; and

(b) The definition of "financial institution" contained in appendix A to the multistate tax commission's recommended formula for the apportionment and allocation of net income of financial institutions is advisory only.

(3) The department ~~((shall))~~ may by rule provide a method or methods of apportioning or allocating gross income derived from sales of telecommunications service and competitive telephone service ~~((s))~~ taxed under this chapter, if the gross proceeds of sales subject to tax under this chapter do not fairly represent the extent of the taxpayer's income attributable to this state. ~~((The rules shall be, so far as feasible, consistent with the methods of apportionment contained in this section and shall require the consideration of those facts, circumstances, and apportionment factors as will result in an~~

~~equitable and constitutionally permissible division of the services.))  
The rule must provide for an equitable and constitutionally  
permissible division of the tax base.~~

~~(4) For purposes of this section, the following definitions apply  
unless the context clearly requires otherwise:~~

~~(a) "Apportionable income" means gross income of the business  
generated from engaging in apportionable activities, including  
income received from apportionable activities performed outside  
this state if the income would be taxable under this chapter if  
received from activities in this state, less the exemptions and  
deductions allowable under this chapter. For purposes of this  
subsection, "apportionable activities" means only those activities  
taxed under:~~

~~(i) RCW 82.04.255;~~

~~(ii) RCW 82.04.260 (3), (4), (5), (6), (7), (8), (9), and (12);~~

~~(iv) RCW 82.04.285;~~

~~(v) RCW 82.04.286;~~

~~(vi) RCW 82.04.290;~~

~~(vii) RCW 82.04.2907;~~

~~(viii) RCW 82.04.2908;~~

~~(ix) RCW 82.04.263, but only to the extent of any activity that  
would be taxable under any of the provisions enumerated under  
(a)(i) through (viii) of this subsection (4) if the tax classification in  
RCW 82.04.263 did not exist; and~~

~~(x) RCW 82.04.260(13) and 82.04.280(1), but only with respect  
to advertising.~~

~~(b)(i) "Taxable in another state" means that the taxpayer is  
subject to a business activities tax by another state on its income  
received from engaging in apportionable activities; or the taxpayer  
is not subject to a business activities tax by another state on its  
income received from engaging in apportionable activities, but any  
other state has jurisdiction to subject the taxpayer to a business  
activities tax on such income under the substantial nexus standards  
in section 104(1) of this act.~~

~~(ii) For purposes of this subsection (4)(b), "business activities  
tax" and "state" have the same meaning as in section 105 of this act.~~

**Sec. 109.** RCW 82.04.080 and 1961 c 15 s 82.04.080 are each  
amended to read as follows:

(1) "Gross income of the business" means the value proceeding or  
accruing by reason of the transaction of the business engaged in and  
includes gross proceeds of sales, compensation for the rendition of  
services, gains realized from trading in stocks, bonds, or other  
evidences of indebtedness, interest, discount, rents, royalties, fees,  
commissions, dividends, and other emoluments however  
designated, all without any deduction on account of the cost of  
tangible property sold, the cost of materials used, labor costs,  
interest, discount, delivery costs, taxes, or any other expense  
whatsoever paid or accrued and without any deduction on account  
of losses.

(2) Financial institutions must determine gains realized from trading  
in stocks, bonds, and other evidences of indebtedness on a net  
annualized basis. For purposes of this subsection, a financial  
institution means a person within the scope of the rule adopted by  
the department under the authority of RCW 82.04.460(2).

**NEW SECTION. Sec. 110.** A new section is added to  
chapter 82.04 RCW to read as follows:

(1) This chapter does not apply to amounts received by a  
financial institution from an affiliated person if the amounts are  
received from transactions that are required to be at arm's length  
under sections 23A or 23B of the federal reserve act as existing on  
the effective date of this section or such subsequent date as may be  
provided by the department by rule, consistent with the purposes of  
this section. For purposes of this subsection, "financial institution"  
has the same meaning as in RCW 82.04.080.

(2) As used in this section, "affiliated" means under common  
control. "Common control" means the possession, directly or  
indirectly, of more than fifty percent of the power to direct or cause

securities act of 1933 and includes eligible assets as defined by Rule  
3a-7 of the investment company act, as the law and rule exist on the  
effective date of this section or such subsequent date as may be  
provided by the department by rule, consistent with the purposes of  
this section.

holding company if the entity created:

persons not affiliated with the entity.

(d) "Bank holding company" has the same meaning as provided  
in the bank holding company act of 1956, as existing on the effective  
date of this section or such subsequent date as may be provided by  
the department by rule, consistent with the purposes of this section.

(e) "No direct profit-making motive" means that all of an  
entity's income, less a reasonable servicing fee, is paid to holders of  
its ownership interests.

(f) "Ownership interest" means interests categorized as debt or  
equity for purposes of federal tax or generally accepted accounting  
principles.

(g) "Affiliated" has the same meaning as in section 110 of this  
act.

(a) An air carrier, as defined in RCW 82.42.030, which is  
primarily engaged in the business of providing passenger air service;

(b) An affiliate of such air carrier; or

(c) A parent entity for which such air carrier is an affiliate.

## PART II

### Tax Avoidance Transactions

**NEW SECTION. Sec. 201.** A new section is added to chapter 82.32 RCW to read as follows:

(1) It is the legislature's intent to require all taxpayers to pay their fair share of taxes. To accomplish this purpose, it is the legislature's intent to stop transactions or arrangements that are designed to unfairly avoid taxes.

(2) The department must disregard, for tax purposes, the tax avoidance transactions or arrangements that are described in subsection (3) of this section. The department must deny the tax benefit that would otherwise result from the tax avoidance transaction or arrangement. In determining whether the department must disregard a transaction or arrangement described under subsection (3) of this section, the department may consider:

(a) Whether an arrangement or transaction changes in a meaningful way, apart from its tax effects, the economic positions of the participants in the arrangement when considered as a whole;

(b) Whether substantial nontax reasons exist for entering into an arrangement or transaction;

(c) Whether an arrangement or transaction is a reasonable means of accomplishing a substantial nontax purpose;

(d) An entities' relative contributions to the work that generates income;

(e) The location where work is performed; and

(f) Other relevant factors.

(3) This section applies only to the following transactions or arrangements:

(a) Arrangements that are, in form, a joint venture or similar arrangement between a construction contractor and the owner or developer of a construction project but that are, in substance, substantially guaranteed payments for the purchase of construction services characterized by a failure of the parties' agreement to provide for the contractor to share substantial profits and bear significant risk of loss in the venture;

(b) Arrangements through which a taxpayer attempts to avoid tax under chapter 82.04 RCW by disguising income received, or otherwise avoiding tax on income, from a person that is not affiliated with the taxpayer from business activities that would be taxable in Washington by moving that income to another entity that would not be taxable in Washington; and

(c) Arrangements through which a taxpayer attempts to avoid tax under chapter 82.08 or 82.12 RCW by engaging in a transaction to disguise its purchase or use of tangible personal property by vesting legal title or other ownership interest in another entity over which the taxpayer exercises control in such a manner as to effectively retain control of the tangible personal property.

(4) In determining whether a transaction or arrangement comes within the scope of subsection (3) of this section, the department is not required to prove a taxpayer's subjective intent in engaging in the transaction or arrangement.

(5) The department must adopt rules to assist in determining whether a transaction or arrangement is within the scope of subsection (3) of this section. The adoption of a rule as required under this subsection is not a condition precedent for the

department's exercise of the authority provided in this section. Any rules adopted under this section must include examples of transactions that the department will disregard for tax purposes.

(6) This section does not affect the department's authority to apply any other remedies available under statutory or common law.

(7) For purposes of this section, "affiliated" means under common control. "Control" means the possession, directly or indirectly, of more than fifty percent of the power to direct or cause the direction of the management and policies of a person, whether through the ownership of voting shares, by contract, or otherwise.

**NEW SECTION. Sec. 202.** A new section is added to chapter 82.32 RCW to read as follows:

(1)(a) The department may not use section 201 of this act to disregard any transaction or arrangement initiated before the effective date of this section, if, in respect to such transaction or arrangement, the taxpayer had reported its tax liability in conformance with either specific written instructions provided by the department to the taxpayer, a determination published under the authority of RCW 82.32.410, or other document made available by the department to the general public.

(b) This section does not apply if the transaction or arrangement engaged in by the taxpayer differs materially from the transaction or arrangement that was addressed in the specific written instructions, published determination, or other document made available by the department to the general public.

(2) Section 201 of this act does not apply to any tax periods ending before May 1, 2010, that were included in a completed field audit conducted by the department.

(3) For purposes of this section, "specific written instructions" means tax reporting instructions provided to a taxpayer and which specifically identify the taxpayer to whom the instructions apply. Specific written instructions may be provided as part of an audit, tax assessment, determination, closing agreement, or in response to a binding ruling request.

**Sec. 203.** RCW 82.32.090 and 2006 c 256 s 6 are each amended to read as follows:

(1) If payment of any tax due on a return to be filed by a taxpayer is not received by the department of revenue by the due date, there ((~~shall be~~)) is assessed a penalty of five percent of the amount of the tax; and if the tax is not received on or before the last day of the month following the due date, there ((~~shall be~~)) is assessed a total penalty of fifteen percent of the amount of the tax under this subsection; and if the tax is not received on or before the last day of the second month following the due date, there ((~~shall be~~)) is assessed a total penalty of twenty-five percent of the amount of the tax under this subsection. No penalty so added shall be less than five dollars.

(2) If the department of revenue determines that any tax has been substantially underpaid, there ((~~shall be~~)) is assessed a penalty of five percent of the amount of the tax determined by the department to be due. If payment of any tax determined by the department to be due is not received by the department by the due date specified in the notice, or any extension thereof, there ((~~shall be~~)) is assessed a total penalty of fifteen percent of the amount of the tax under this subsection; and if payment of any tax determined by the department to be due is not received on or before the thirtieth day following the due date specified in the notice of tax due, or any extension thereof, there ((~~shall be~~)) is assessed a total penalty of twenty-five percent of the amount of the tax under this subsection. No penalty so added ((~~shall~~)) may be less than five dollars. As used in this section, "substantially underpaid" means that the taxpayer has paid less than eighty percent of the amount of tax determined by the department to be due for all of the types of taxes included in, and for the entire period of time covered by, the department's examination, and the amount of underpayment is at least one thousand dollars.

TWENTY NINTH DAY, APRIL 12, 2010

2010 1ST SPECIAL SESSION

(3) If a warrant ~~((be))~~ is issued by the department of revenue for the collection of taxes, increases, and penalties, there ~~((shall be))~~ is added thereto a penalty of ten percent of the amount of the tax, but not less than ten dollars.

(4) If the department finds that a person has engaged in any business or performed any act upon which a tax is imposed under this title and that person has not obtained from the department a registration certificate as required by RCW 82.32.030, the department ~~((shall))~~ must impose a penalty of five percent of the amount of tax due from that person for the period that the person was not registered as required by RCW 82.32.030. The department ~~((shall))~~ may not impose the penalty under this subsection (4) if a person who has engaged in business taxable under this title without first having registered as required by RCW 82.32.030, prior to any notification by the department of the need to register, obtains a registration certificate from the department.

(5) If the department finds that all or any part of a deficiency resulted from the disregard of specific written instructions as to reporting or tax liabilities, the department ~~((shall))~~ must add a penalty of ten percent of the amount of the additional tax found due because of the failure to follow the instructions. A taxpayer disregards specific written instructions when the department ~~((of revenue))~~ has informed the taxpayer in writing of the taxpayer's tax obligations and the taxpayer fails to act in accordance with those instructions unless the department has not issued final instructions because the matter is under appeal pursuant to this chapter or departmental regulations. The department ~~((shall))~~ may not assess the penalty under this section upon any taxpayer who has made a good faith effort to comply with the specific written instructions provided by the department to that taxpayer. Specific written instructions may be given as a part of a tax assessment, audit, determination, or closing agreement, provided that such specific written instructions ~~((shall))~~ apply only to the taxpayer addressed or referenced on such documents. Any specific written instructions by the department ~~((of revenue shall))~~ must be clearly identified as such and ~~((shall))~~ must inform the taxpayer that failure to follow the instructions may subject the taxpayer to the penalties imposed by this subsection.

(6) If the department finds that all or any part of a deficiency resulted from engaging in a disregarded transaction, as described in section 201(3) of this act, the department must assess a penalty of thirty-five percent of the additional tax found to be due as a result of engaging in a transaction disregarded by the department under section 201(2) of this act. The penalty provided in this subsection may be assessed together with any other applicable penalties provided in this section on the same tax found to be due, except for the evasion penalty provided in subsection (7) of this section. The department may not assess the penalty under this subsection if, before the department discovers the taxpayer's use of a transaction described under section 201(3) of this act, the taxpayer discloses its participation in the transaction to the department.

(7) If the department finds that all or any part of the deficiency resulted from an intent to evade the tax payable hereunder, a further penalty of fifty percent of the additional tax found to be due ~~((shall))~~ must be added.

~~((7))~~ (8) The penalties imposed under subsections (1) through (4) of this section can each be imposed on the same tax found to be due. This subsection does not prohibit or restrict the application of other penalties authorized by law.

~~((8))~~ (9) The department ~~((of revenue))~~ may not impose ~~((both))~~ the evasion penalty ~~((and))~~ in combination with the penalty for disregarding specific written instructions or the penalty provided in subsection (6) of this section on the same tax found to be due.

~~((9))~~ (10) For the purposes of this section, "return" means any document a person is required by the state of Washington to file to

satisfy or establish a tax or fee obligation that is administered or collected by the department ~~((of revenue))~~, and that has a statutorily defined due date.

NEW SECTION. Sec. 204. A new section is added to chapter 82.32 RCW to read as follows:

There is hereby created a joint tax avoidance review committee which is a bipartisan committee consisting of three members of the senate, two from the majority caucus and one from the minority caucus, and three members of the house of representatives, two from the majority caucus and one from the minority caucus. The senate members of the committee must be appointed by the majority leader of the senate, and the house members of the committee must be appointed by the speaker of the house. The appointing authorities must also appoint one alternate member from each of the two largest caucuses of each legislative chamber.

(1)(a) Members and alternates must be appointed as soon as possible after the effective date of this section, and their terms continue until such persons no longer wish to serve on the committee or no longer serve in the legislature, whichever occurs first.

(b) A vacancy must be filled by the appointment of a legislator from the same legislative chamber and caucus as the original appointment. The appropriate appointing authority must make the appointment within thirty days of the vacancy occurring. Former committee members and alternates may be reappointed to the committee.

(2) The committee must choose its chair and vice-chair from among its membership. The committee meets at the call of the chair. The chair of the committee must cause all meeting notices and committee documents to be sent to the committee members and alternates.

(3) Staff support for the committee must be provided by the senate committee services and the house of representatives office of program research.

(4) The committee must:

(a) Generally monitor the department's implementation of Part II of this act, providing timely advice to the department in any rule making undertaken pursuant to the authority granted under section 201 of this act;

(b) Seek input from stakeholders and other legislators as the committee may determine is desirable and useful in the furtherance of its mission herein described;

(c) Review other cases, identified by the department, of tax avoidance transactions not described in section 201 of this act that may represent examples of arrangements that circumvent the policies of this state and thus unfairly avoid taxes;

(d) Consider the need for an explicit statutory construction standard to provide direction to the courts on the interpretation of Part II of this act; and

(e) Provide a report to the fiscal committees of the house of representatives and senate by December 31, 2010, which must include:

(i) Recommended legislation on any matters that the committee deems advisable, including amendments to sections 201, 202, and 203 of this act; and

(ii) Recommendations for future legislative oversight of the department's implementation of sections 201, 202, and 203 of this act.

(5) For the purposes of this section, the disclosure of otherwise confidential tax information to the members of the committee is deemed to fall within the exception provided by RCW 82.32.330(3)(d).

(6) This section expires July 1, 2011.

NEW SECTION. Sec. 205. (1) The legislature finds that this state's tax policy with respect to the taxation of transactions between

TWENTY NINTH DAY, APRIL 12, 2010

2010 1ST SPECIAL SESSION

affiliated entities and the income derived from such transactions (intercompany transactions) has motivated some taxpayers to engage in transactions designed solely or primarily to minimize the tax effects of intercompany transactions. The legislature further finds that some intercompany transactions result from taxpayers that are required to establish affiliated entities to comply with regulatory mandates and that transactions between such affiliates effectively increases the tax burden in this state on the affiliated group of entities.

(2) Therefore, as existing resources allow, the department of revenue is directed to conduct a review of the state's tax policy with respect to the taxation of intercompany transactions. The review must include the impacts of such transactions under the state's business and occupation tax and state and local sales and use taxes. The department may include other taxes in the review as it deems appropriate.

(3) In conducting the review, the department must examine how this state's tax policy compares to the tax policy of other states with respect to the taxation of intercompany transactions. The department's review must include an analysis of potential alternatives to the current policy of taxing intercompany transactions, including their estimated revenue impacts if practicable.

(4) In conducting this review, the department may seek input from members of the business community and others as it deems appropriate.

(5) The department must report its findings to the fiscal committees of the house of representatives and senate by December 1, 2010. However, if the department has not completed its review by December 1, 2010, the department must provide the fiscal committees of the legislature with a brief status report by December 1, 2010, and the final report by December 1, 2011.

**Sec. 206.** RCW 82.12.020 and 2009 c 535 s 305 are each amended to read as follows:

(1) There is ~~((hereby))~~ levied and ~~((there shall be))~~ collected from every person in this state a tax or excise for the privilege of using within this state as a consumer any:

(a) Article of tangible personal property ~~((purchased at retail, or))~~ acquired by ~~((lease, gift, repossession, or bailment, or extracted or produced or manufactured by the person so using the same, or otherwise furnished to a person engaged in any business taxable under RCW 82.04.280 (2) or (7))~~ the user in any manner, including tangible personal property acquired at a casual or isolated sale, and including by-products used by the manufacturer thereof, except as otherwise provided in this chapter, irrespective of whether the article or similar articles are manufactured or are available for purchase within this state;

(b) Prewritten computer software, regardless of the method of delivery, but excluding prewritten computer software that is either provided free of charge or is provided for temporary use in viewing information, or both;

(c) Services defined as a retail sale in RCW 82.04.050 (2)(a) or (g), (3)(a), or (6)(b), excluding services defined as a retail sale in RCW 82.04.050(6)(b) that are provided free of charge;

(d) Extended warranty; or

(e)(i) Digital good, digital code, or digital automated service, including the use of any services provided by a seller exclusively in connection with digital goods, digital codes, or digital automated services, whether or not a separate charge is made for such services.

(ii) With respect to the use of digital goods, digital automated services, and digital codes acquired by purchase, the tax imposed in this subsection (1)(e) applies in respect to:

(A) Sales in which the seller has granted the purchaser the right of permanent use;

(B) Sales in which the seller has granted the purchaser a right of use that is less than permanent;

(C) Sales in which the purchaser is not obligated to make continued payment as a condition of the sale; and

(D) Sales in which the purchaser is obligated to make continued payment as a condition of the sale.

(iii) With respect to digital goods, digital automated services, and digital codes acquired other than by purchase, the tax imposed in this subsection (1)(e) applies regardless of whether or not the consumer has a right of permanent use or is obligated to make continued payment as a condition of use.

(2) The provisions of this chapter do not apply in respect to the use of any article of tangible personal property, extended warranty, digital good, digital code, digital automated service, or service taxable under RCW 82.04.050 (2)(a) or (g), (3)(a), or (6)(b), if the sale to, or the use by, the present user or the present user's bailor or donor has already been subjected to the tax under chapter 82.08 RCW or this chapter and the tax has been paid by the present user or by the present user's bailor or donor.

(3)(a) Except as provided in this section, payment of the tax imposed by this chapter or chapter 82.08 RCW by one purchaser or user of tangible personal property, extended warranty, digital good, digital code, digital automated service, or other service does not have the effect of exempting any other purchaser or user of the same property, extended warranty, digital good, digital code, digital automated service, or other service from the taxes imposed by such chapters.

(b) The tax imposed by this chapter does not apply:

(i) If the sale to, or the use by, the present user or his or her bailor or donor has already been subjected to the tax under chapter 82.08 RCW or this chapter and the tax has been paid by the present user or by his or her bailor or donor;

(ii) In respect to the use of any article of tangible personal property acquired by bailment and the tax has once been paid based on reasonable rental as determined by RCW 82.12.060 measured by the value of the article at time of first use multiplied by the tax rate imposed by chapter 82.08 RCW or this chapter as of the time of first use;

(iii) In respect to the use of any article of tangible personal property acquired by bailment, if the property was acquired by a previous bailee from the same bailor for use in the same general activity and the original bailment was prior to June 9, 1961; or

(iv) To the use of digital goods or digital automated services, which were obtained through the use of a digital code, if the sale of the digital code to, or the use of the digital code by, the present user or the present user's bailor or donor has already been subjected to the tax under chapter 82.08 RCW or this chapter and the tax has been paid by the present user or by the present user's bailor or donor.

(4)(a) Except as provided in (b) of this subsection (4), the tax is levied and must be collected in an amount equal to the value of the article used, value of the digital good or digital code used, value of the extended warranty used, or value of the service used by the taxpayer, multiplied by the applicable rates in effect for the retail sales tax under RCW 82.08.020.

(b) In the case of a seller required to collect use tax from the purchaser, the tax must be collected in an amount equal to the purchase price multiplied by the applicable rate in effect for the retail sales tax under RCW 82.08.020.

(5) For purposes of the tax imposed in this section, "person" includes anyone within the definition of "buyer," "purchaser," and "consumer" in RCW 82.08.010.

**Sec. 207.** RCW 82.45.010 and 2008 c 116 s 3 and 2008 c 6 s 701 are each reenacted and amended to read as follows:

(1) As used in this chapter, the term "sale" ~~((shall have))~~ has its ordinary meaning and ~~((shall))~~ includes any conveyance, grant,

TWENTY NINTH DAY, APRIL 12, 2010

2010 1ST SPECIAL SESSION

assignment, quitclaim, or transfer of the ownership of or title to real property, including standing timber, or any estate or interest therein for a valuable consideration, and any contract for such conveyance, grant, assignment, quitclaim, or transfer, and any lease with an option to purchase real property, including standing timber, or any estate or interest therein or other contract under which possession of the property is given to the purchaser, or any other person at the purchaser's direction, and title to the property is retained by the vendor as security for the payment of the purchase price. The term also includes the grant, assignment, quitclaim, sale, or transfer of improvements constructed upon leased land.

(2)(a) The term "sale" also includes the transfer or acquisition within any twelve-month period of a controlling interest in any entity with an interest in real property located in this state for a valuable consideration.

(b) For the sole purpose of determining whether, pursuant to the exercise of an option, a controlling interest was transferred or acquired within a twelve-month period, the date that the option agreement was executed is the date on which the transfer or acquisition of the controlling interest is deemed to occur. For all other purposes under this chapter, the date upon which the option is exercised is the date of the transfer or acquisition of the controlling interest.

(c) For purposes of this subsection, all acquisitions of persons acting in concert (~~shall~~) **must** be aggregated for purposes of determining whether a transfer or acquisition of a controlling interest has taken place. The department (~~of revenue shall~~) **must** adopt standards by rule to determine when persons are acting in concert. In adopting a rule for this purpose, the department (~~shall~~) **must** consider the following:

(~~(a)~~) (i) Persons (~~shall~~) **must** be treated as acting in concert when they have a relationship with each other such that one person influences or controls the actions of another through common ownership; and

(~~(b)~~) (ii) When persons are not commonly owned or controlled, they (~~shall~~) **must** be treated as acting in concert only when the unity with which the purchasers have negotiated and will consummate the transfer of ownership interests supports a finding that they are acting as a single entity. If the acquisitions are completely independent, with each purchaser buying without regard to the identity of the other purchasers, then the acquisitions (~~shall be~~) **are** considered separate acquisitions.

(3) The term "sale" (~~shall~~) **does** not include:

(a) A transfer by gift, devise, or inheritance.

(b) A transfer of any leasehold interest other than of the type mentioned above.

(c) A cancellation or forfeiture of a vendee's interest in a contract for the sale of real property, whether or not such contract contains a forfeiture clause, or deed in lieu of foreclosure of a mortgage.

(d) The partition of property by tenants in common by agreement or as the result of a court decree.

(e) The assignment of property or interest in property from one spouse or one domestic partner to the other spouse or other domestic partner in accordance with the terms of a decree of dissolution of marriage or state registered domestic partnership or in fulfillment of a property settlement agreement.

(f) The assignment or other transfer of a vendor's interest in a contract for the sale of real property, even though accompanied by a conveyance of the vendor's interest in the real property involved.

(g) Transfers by appropriation or decree in condemnation proceedings brought by the United States, the state or any political subdivision thereof, or a municipal corporation.

(h) A mortgage or other transfer of an interest in real property merely to secure a debt, or the assignment thereof.

(i) Any transfer or conveyance made pursuant to a deed of trust or an order of sale by the court in any mortgage, deed of trust, or lien foreclosure proceeding or upon execution of a judgment, or deed in lieu of foreclosure to satisfy a mortgage or deed of trust.

(j) A conveyance to the federal housing administration or veterans administration by an authorized mortgagee made pursuant to a contract of insurance or guaranty with the federal housing administration or veterans administration.

(k) A transfer in compliance with the terms of any lease or contract upon which the tax as imposed by this chapter has been paid or where the lease or contract was entered into prior to the date this tax was first imposed.

(l) The sale of any grave or lot in an established cemetery.

(m) A sale by the United States, this state or any political subdivision thereof, or a municipal corporation of this state.

(n) A sale to a regional transit authority or public corporation under RCW 81.112.320 under a sale/leaseback agreement under RCW 81.112.300.

(o) A transfer of real property, however effected, if it consists of a mere change in identity or form of ownership of an entity where there is no change in the beneficial ownership. These include transfers to a corporation or partnership which is wholly owned by the transferor and/or the transferor's spouse or domestic partner or children of the transferor or the transferor's spouse or domestic partner (~~(= PROVIDED, That)~~). However, if thereafter such transferee corporation or partnership voluntarily transfers such real property, or such transferor, spouse or domestic partner, or children of the transferor or the transferor's spouse or domestic partner voluntarily transfer stock in the transferee corporation or interest in the transferee partnership capital, as the case may be, to other than ~~(=)~~ (i) the transferor and/or the transferor's spouse or domestic partner or children of the transferor or the transferor's spouse or domestic partner, ~~(=)~~ (ii) a trust having the transferor and/or the transferor's spouse or domestic partner or children of the transferor or the transferor's spouse or domestic partner as the only beneficiaries at the time of the transfer to the trust, or ~~(=)~~ (iii) a corporation or partnership wholly owned by the original transferor and/or the transferor's spouse or domestic partner or children of the transferor or the transferor's spouse or domestic partner, within three years of the original transfer to which this exemption applies, and the tax on the subsequent transfer has not been paid within sixty days of becoming due, excise taxes (~~shall~~) become due and payable on the original transfer as otherwise provided by law.

(p)(i) A transfer that for federal income tax purposes does not involve the recognition of gain or loss for entity formation, liquidation or dissolution, and reorganization, including but not limited to nonrecognition of gain or loss because of application of ~~(section)~~ 26 U.S.C. Sec. 332, 337, 351, 368(a)(1), 721, or 731 of the internal revenue code of 1986, as amended.

(ii) However, the transfer described in (p)(i) of this subsection cannot be preceded or followed within a twelve-month period by another transfer or series of transfers, that, when combined with the otherwise exempt transfer or transfers described in (p)(i) of this subsection, results in the transfer of a controlling interest in the entity for valuable consideration, and in which one or more persons previously holding a controlling interest in the entity receive cash or property in exchange for any interest the person or persons acting in concert hold in the entity. This subsection (3)(p)(ii) does not apply to that part of the transfer involving property received that is the real property interest that the person or persons originally contributed to the entity or when one or more persons who did not contribute real property or belong to the entity at a time when real property was purchased receive cash or personal property in exchange for that person or persons' interest in the entity. The real estate excise tax

TWENTY NINTH DAY, APRIL 12, 2010

under this subsection (3)(p)(ii) is imposed upon the person or persons who previously held a controlling interest in the entity.

(q) A qualified sale of a manufactured/mobile home community, as defined in RCW 59.20.030, that takes place on or after June 12, 2008, but before December 31, 2018.

**Sec. 208.** RCW 82.45.033 and 1993 sp.s. c 25 s 505 are each amended to read as follows:

(1) As used in this chapter, the term "controlling interest" has the following meaning:

~~((1))~~ (a) In the case of a corporation, either fifty percent or more of the total combined voting power of all classes of stock of the corporation entitled to vote, or fifty percent of the capital, profits, or beneficial interest in the voting stock of the corporation; and

~~((2))~~ (b) In the case of a partnership, association, trust, or other entity, fifty percent or more of the capital, profits, or beneficial interest in such partnership, association, trust, or other entity.

(2) The department may, at the department's option, enforce the obligation of the seller under this chapter as provided in this subsection (2):

(a) In the transfer or acquisition of a controlling interest as defined in subsection (1)(a) of this section, either against the corporation in which a controlling interest is transferred or acquired, against the person or persons who acquired the controlling interest in the corporation or, when the corporation is not a publicly traded company, against the person or persons who transferred the controlling interest in the corporation; and

(b) In the transfer or acquisition of a controlling interest as defined in subsection (1)(b) of this section, either against the entity in which a controlling interest is transferred or acquired or against the person or persons who transferred or acquired the controlling interest in the entity.

**Sec. 209.** RCW 82.45.070 and 1969 ex.s. c 223 s 28A.45.070 are each amended to read as follows:

The tax (~~herein~~) provided for in this chapter and any interest or penalties thereon (~~shall be~~) is a specific lien upon each (piece) parcel of real property located in this state that is either sold or that is owned by an entity in which a controlling interest has been transferred or acquired. The lien attaches from the time of sale until the tax (shall have been) is paid, which lien may be enforced in the manner prescribed for the foreclosure of mortgages.

**Sec. 210.** RCW 82.45.080 and 1980 c 154 s 3 are each amended to read as follows:

(1) The tax levied under this chapter (~~shall be~~) is the obligation of the seller and the department (of revenue) may, at the department's option, enforce the obligation through an action of debt against the seller or the department may proceed in the manner prescribed for the foreclosure of mortgages (and resort to). The department's use of one course of enforcement (shall) is not ((be)) an election not to pursue the other.

(2) For purposes of this section and notwithstanding any other provisions of law, the seller is the parent corporation of a wholly owned subsidiary, when such subsidiary is the transferor to a third-party transferee and the subsidiary is dissolved before paying the tax imposed under this chapter.

**Sec. 211.** RCW 82.45.100 and 2007 c 111 s 112 are each amended to read as follows:

(1) Payment of the tax imposed under this chapter is due and payable immediately at the time of sale, and if not paid within one month thereafter (~~shall~~) will bear interest from the time of sale until the date of payment.

(a) Interest imposed before January 1, 1999, (~~shall be~~) is computed at the rate of one percent per month.

(b) Interest imposed after December 31, 1998, (~~shall be~~) is computed on a monthly basis at the rate as computed under RCW 82.32.050(2). The rate so computed (~~shall~~) must be adjusted on

2010 1ST SPECIAL SESSION

the first day of January of each year for use in computing interest for that calendar year. The department (~~of revenue shall~~) must provide written notification to the county treasurers of the variable rate on or before December 1st of the year preceding the calendar year in which the rate applies.

(2) In addition to the interest described in subsection (1) of this section, if the payment of any tax is not received by the county treasurer or the department of revenue, as the case may be, within one month of the date due, there (~~shall be~~) is assessed a penalty of five percent of the amount of the tax; if the tax is not received within two months of the date due, there (~~shall~~) will be assessed a total penalty of ten percent of the amount of the tax; and if the tax is not received within three months of the date due, there (~~shall~~) will be assessed a total penalty of twenty percent of the amount of the tax. The payment of the penalty described in this subsection (~~shall be~~) is collectible from the seller only, and RCW 82.45.070 does not apply to the penalties described in this subsection.

(3) If the tax imposed under this chapter is not received by the due date, the transferee (~~shall be~~) is personally liable for the tax, along with any interest as provided in subsection (1) of this section, unless(~~:~~

~~(a))~~ an instrument evidencing the sale is recorded in the official real property records of the county in which the property conveyed is located(~~;~~

~~(b))~~ Either the transferor or transferee notifies the department of revenue in writing of the occurrence of the sale within thirty days following the date of the sale).

(4) If upon examination of any affidavits or from other information obtained by the department or its agents it appears that all or a portion of the tax is unpaid, the department (~~shall~~) must assess against the taxpayer the additional amount found to be due plus interest and penalties as provided in subsections (1) and (2) of this section. The department (~~shall~~) must notify the taxpayer by mail, or electronically as provided in RCW 82.32.135, of the additional amount and the same (~~shall~~) becomes due and (shall) must be paid within thirty days from the date of the notice, or within such further time as the department may provide.

(5) No assessment or refund may be made by the department more than four years after the date of sale except upon a showing of:

(a) Fraud or misrepresentation of a material fact by the taxpayer;

(b) A failure by the taxpayer to record documentation of a sale or otherwise report the sale to the county treasurer; or

(2) Interest deductible under this section includes the portion of fees charged to borrowers, including points and loan origination fees, that is recognized over the life of the loan as an adjustment to yield in the taxpayer's books and records according to generally accepted accounting principles.

(3) Subsections (1) and (2) of this section notwithstanding, the following is a nonexclusive list of items that are not deductible under this section:

(a) Fees for specific services such as: Document preparation fees; finder fees; brokerage fees; title examination fees; fees for credit checks; notary fees; loan application fees; interest lock-in fees if the loan is not made; servicing fees; and similar fees or amounts;

(b) Fees received in consideration for an agreement to make funds available for a specific period of time at specified terms, commonly referred to as commitment fees;

(a)(i) The loans were originated by the person claiming a deduction under this subsection (4) and that person either sold the loans on the secondary market or securitized the loans and sold the securities on the secondary market; or

(ii)(A) The person claiming a deduction under this subsection (4) acquired the loans from the person that originated the loans through a merger or acquisition of substantially all of the assets of the person who originated the loans, or the person claiming a deduction under this subsection (4) is affiliated with the person that

**PART IV  
Direct Seller Business and Occupation Tax Exemption**

NEW SECTION. Sec. 401. (1) A business and occupation tax exemption is provided in RCW 82.04.423 for certain out-of-state sellers that sell consumer products exclusively to or through a direct seller's representative. The intent of the legislature in enacting this exemption was to provide a narrow exemption for out-of-state businesses engaged in direct sales of consumer products, typically accomplished through in-home parties or door-to-door selling.

(2) In *Dot Foods, Inc. v. Dep't of Revenue*, Docket No. 81022-2 (September 10, 2009), the Washington supreme court held that the exemption in RCW 82.04.423 applied to a taxpayer: (a) That sold nonconsumer products through its representative in addition to consumer products; and (b) whose consumer products were ultimately sold at retail in permanent retail establishments.

(3) The legislature finds that most out-of-state businesses selling consumer products in this state will either be eligible for the exemption under RCW 82.04.423 or could easily restructure their business operations to qualify for the exemption. As a result, the legislature expects that the broadened interpretation of the direct sellers' exemption will lead to large and devastating revenue losses. This comes at a time when the state's existing budget is facing a two billion six hundred million dollar shortfall, which could grow, while at the same time the demand for state and state-funded services is also growing. Moreover, the legislature further finds that RCW 82.04.423 provides preferential tax treatment for out-of-state businesses over their in-state competitors and now creates a strong incentive for in-state businesses to move their operations outside Washington.

(4) Therefore, the legislature finds that it is necessary to reaffirm the legislature's intent in establishing the direct sellers' exemption and prevent the loss of revenues resulting from the expanded interpretation of the exemption by amending RCW 82.04.423 retroactively to conform the exemption to the original intent of the legislature and by prospectively ending the direct sellers' exemption as of the effective date of this section.

**Sec. 402.** RCW 82.04.423 and 1983 1st ex.s. c 66 s 5 are each amended to read as follows:

(1) Prior to the effective date of this section, this chapter ((shall)) does not apply to any person in respect to gross income derived from the business of making sales at wholesale or retail if such person:

(a) Does not own or lease real property within this state; and

(b) Does not regularly maintain a stock of tangible personal property in this state for sale in the ordinary course of business; and

(c) Is not a corporation incorporated under the laws of this state; and

(d) Makes sales in this state exclusively to or through a direct seller's representative.

TWENTY NINTH DAY, APRIL 12, 2010

(2) For purposes of this section, the term "direct seller's representative" means a person who buys only consumer products on a buy-sell basis or a deposit-commission basis for resale, by the buyer or any other person, in the home or otherwise than in a permanent retail establishment, or who sells at retail, or solicits the sale at retail of, only consumer products in the home or otherwise than in a permanent retail establishment; and

(a) Substantially all of the remuneration paid to such person, whether or not paid in cash, for the performance of services described in this subsection is directly related to sales or other output, including the performance of services, rather than the number of hours worked; and

(b) The services performed by the person are performed pursuant to a written contract between such person and the person for whom the services are performed and such contract provides that the person will not be treated as an employee with respect to such purposes for federal tax purposes.

(3) Nothing in this section (~~(shall)~~) may be construed to imply that a person exempt from tax under this section was engaged in a business activity taxable under this chapter prior to (~~(the enactment of this section))~~ August 23, 1983.

#### PART V

#### Business and Occupation Tax Preferences for Manufacturers of Products Derived from Certain Agricultural Products

**NEW SECTION. Sec. 501.** (1)(a) In 1967, the legislature amended RCW 82.04.260 in chapter 149, Laws of 1967 ex. sess. to authorize a preferential business and occupation tax rate for slaughtering, breaking, and/or processing perishable meat products and/or selling the same at wholesale. The legislature finds that RCW 82.04.260(4) was interpreted by the state supreme court on January 13, 2005, in *Agrilink Foods, Inc. v. Department of Revenue*, 153 Wn.2d 392 (2005). The supreme court held that the preferential business and occupation tax rate on the slaughtering, breaking, and/or processing of perishable meat products applied to the processing of perishable meat products into nonperishable finished products, such as canned food.

(b) The legislature intends to narrow the exemption provided for slaughtering, breaking, and/or processing perishable meat products and/or selling such products at wholesale by requiring that the end product be a perishable meat product; a nonperishable meat product that is comprised primarily of animal carcass by weight or volume, other than a canned meat product; or a meat by-product.

(2)(a) A business and occupation tax exemption is provided for (i) manufacturing by canning, preserving, freezing, processing, or dehydrating fresh fruits or vegetables, and (ii) selling such products at wholesale by the manufacturer to purchasers who transport the goods out of state in the ordinary course of business. This exemption expires July 1, 2012, and is replaced by a preferential business and occupation tax rate.

(b) The legislature finds that the rationale of the *Agrilink* decision, if applied to these tax preferences, could result in preferential tax treatment for any processed food product that contained any fresh fruit or vegetable as an ingredient, however small the amount.

(c) The legislature intends to narrow the tax preference provided to fruit and vegetable manufacturers by requiring that the end product be comprised either (i) exclusively of fruits and/or vegetables, or (ii) of any combination of fruits, vegetables, and certain other substances that, cumulatively, may not exceed the amount of fruits and vegetables contained in the product measured by weight or volume.

**NEW SECTION. Sec. 502.** A new section is added to chapter 82.04 RCW to read as follows:

(1) Upon every person engaging within this state in the business of manufacturing:

(a) Perishable meat products, by slaughtering, breaking, or processing, if the finished product is a perishable meat product; as to such persons the tax imposed is equal to the value of the perishable meat products manufactured, or, in the case of a processor for hire, the gross income of the business, multiplied by the rate of 0.138 percent;

(b) Meat products, by dehydration, curing, smoking, or any combination of these activities, if the finished meat products are not canned; as to such persons the tax imposed is equal to the value of the meat products manufactured, or, in the case of a processor for hire, the gross income of the business, multiplied by the rate of 0.138 percent;

(c) Hides, tallow, meat meal, and other similar meat by-products, if such products are derived in part from animals and manufactured in a rendering plant licensed under chapter 16.68 RCW; as to such persons the tax imposed is equal to the value of the products manufactured, or, in the case of a processor for hire, the gross income of the business, multiplied by the rate of 0.138 percent.

(2) Upon every person engaging within this state in the business of selling at wholesale:

(a) Perishable meat products; as to such persons the tax imposed is equal to the gross proceeds derived from such sales multiplied by the rate of 0.138 percent;

(b) Meat products that have been manufactured by the seller by dehydration, curing, smoking, or any combination of such activities, if the finished meat products are not canned; as to such persons the tax imposed is equal to the gross proceeds derived from such sales multiplied by the rate of 0.138 percent;

(c) Hides, tallow, meat meal, and other similar meat by-products, if such products are derived in part from animals and manufactured by the seller in a rendering plant; as to such persons the tax imposed is equal to the gross proceeds derived from such sales multiplied by the rate of 0.138 percent.

(3) The definitions in this subsection apply throughout this section unless the context clearly requires otherwise.

(a) "Animal" means all members of the animal kingdom except humans, fish, and insects.

(b) "Carcass" means all or any parts, including viscera, of a slaughtered animal.

(ii) Except as provided in (e)(i) of this subsection (3), "meat products" does not include products containing any cereal grains or cereal-grain products, dairy products, legumes and legume products, fruit or vegetable products as defined in RCW 82.04.260, and similar ingredients, unless the ingredient is used as a flavoring. For purposes of this subsection, "flavoring" means a substance that contains the flavoring constituents derived from a spice, fruit or fruit juice, vegetable or vegetable juice, edible yeast, herb, bark, bud, root, leaf, or any other edible substance of plant origin, whose primary function in food is flavoring or seasoning rather than nutritional, and which may legally appear as "natural flavor," "flavor," or "flavorings" in the ingredient statement on the label of the meat product.

## PART VII

### Ending the Preferential Business and Occupation Tax Treatment Received by Directors of Corporations

NEW SECTION. **Sec. 701.** (1) In adopting the state's business and occupation tax, the legislature intended to tax virtually all business activities carried on within the state. See *Simpson Inv. Co. v. Dep't of Revenue*, 141 Wn.2d 139, 149 (2000). The legislature recognizes that the business and occupation tax applies to all activities engaged in with the object of gain, benefit, or advantage to the taxpayer or to another person or class, directly or indirectly, unless a specific exemption applies.

(2) One of the major business and occupation tax exemptions is provided in RCW 82.04.360 for income earned as an employee or servant as distinguished from income earned as an independent contractor. The legislature's intent in providing this exemption was to exempt employee wages from the business and occupation tax but not to exempt income earned as an independent contractor.

(3) The legislature finds that corporate directors are not employees or servants of the corporation whose board they serve on and therefore are not entitled to a business and occupation tax exemption under RCW 82.04.360. The legislature further finds that there are no business and occupation tax exemptions for compensation received for serving as a member of a corporation's board of directors.

(4) The legislature also finds that there is a widespread misunderstanding among corporate directors that the business and occupation tax does not apply to the compensation they receive for serving as a director of a corporation. It is the legislature's expectation that the department of revenue will take appropriate measures to ensure that corporate directors understand and comply

with their business and occupation tax obligations with respect to their director compensation. However, because of the widespread misunderstanding by corporate directors of their liability for business and occupation tax on director compensation, the legislature finds that it is appropriate in this unique situation to provide limited relief against the retroactive assessment of business and occupation taxes on corporate director compensation.

(5) The legislature also reaffirms its intent that all income of all independent contractors is subject to business and occupation tax unless specifically exempt under the Constitution or laws of this state or the United States.

**Sec. 702.** RCW 82.04.360 and 2010 c 106 (E2SHB 1597) s 207 are each amended to read as follows:

(1) This chapter does not apply to any person in respect to his or her employment in the capacity of an employee or servant as distinguished from that of an independent contractor. For the purposes of this section, the definition of employee ~~((shall))~~ includes those persons that are defined in section 3121(d)(3)(B) of the federal internal revenue code of 1986, as amended through January 1, 1991.

(2) Until the effective date of this section, this chapter does not apply to amounts received by an individual from a corporation as compensation for serving as a member of that corporation's board of directors. Beginning on the effective date of this section, such amounts are taxable under RCW 82.04.290(2).

(3) A booth renter is an independent contractor for purposes of this chapter. For purposes of this ~~((sub))~~section, "booth renter" means any person who:

(a) Performs cosmetology, barbering, esthetics, or manicuring services for which a license is required under chapter 18.16 RCW; and

(b) Pays a fee for the use of salon or shop facilities and receives no compensation or other consideration from the owner of the salon or shop for the services performed.

## PART VIII

However, if the responsible individual had the responsibility or duty to remit payment of the limited liability business entity's sales taxes to the department during any period of time that the person was not the chief executive or chief financial officer, that individual is also liable for sales tax liability that became due during the period that he or she had the duty to remit payment of the limited liability business entity's taxes to the department but was not the chief executive or chief financial officer.

(b) All other responsible individuals are liable under this section only for sales tax liability that became due during the period he or she had the ((control, supervision,)) responsibility((;)) or duty to ((act for the corporation described in subsection (1) of this section, plus interest and penalties on those taxes.

(5) Persons ((liable under)) described in subsection ((4)) (3)(b) of this section are exempt from liability under this section in situations where nonpayment of the ((retail sales tax funds held in trust)) limited liability business entity's sales taxes is due to reasons beyond their control as determined by the department by rule.

((4)) (6) Any person having been issued a notice of assessment under this section is entitled to the appeal procedures under RCW 82.32.160, 82.32.170, 82.32.180, 82.32.190, and 82.32.200.

((5) This section applies only in situations where the department has determined that there is no reasonable means of collecting the retail sales tax funds held in trust directly from the corporation.

((6)) (7) This section does not relieve the ((corporation or)) limited liability ((company)) business entity of ((other tax liabilities)) its sales tax liability or otherwise impair other tax collection remedies afforded by law.

#### PART XIV

#### Temporarily Imposing Taxes on Carbonated Beverages

NEW SECTION. Sec. 1401. Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

2010 1ST SPECIAL SESSION

(1)(a) "Carbonated beverage" means any packaged nonalcoholic liquid intended for human consumption that contains carbonation by natural or artificial means and any of the following substances: Caffeine, extracts, fruit juice or concentrated fruit juice, herbs, sweeteners, or syrup. "Packaged" includes cans, bottles, and other similar sealed containers. "Syrup" means a concentrated mixture in either liquid or powdered form that contains sugar or a sugar substitute and that is an ingredient used to make carbonated beverages.

(2) "Ounce" means United States fluid ounce.

(3) "Previously taxed carbonated beverages" means carbonated beverages to which the tax under this chapter has been previously imposed.

(4) Except for terms defined in this section, the definitions in chapters 82.04, 82.08, and 82.12 RCW apply to this chapter.

NEW SECTION. Sec. 1402. (1) From the effective date of this section through June 30, 2013, a tax is imposed on every person for the privilege of selling, at wholesale or retail, carbonated beverages in this state. The rate of the tax is equal to two cents per twelve ounces of carbonated beverages sold in this state.

(2)(a) In calculating the amount of tax due under this section, if the total amount of carbonated beverages sold in this state during the reporting period is not a whole number, the taxable quantity must be rounded as provided in (b) of this subsection.

(b) For a fraction of an ounce that is equal to or greater than one-half ounce, the taxable quantity must be rounded up to the nearest ounce. For a fraction of an ounce that is less than one-half ounce, the taxable quantity must be rounded down to the nearest ounce.

(3) Chapter 82.32 RCW applies to the tax imposed in this section. The tax reporting frequency for the tax imposed in this section must coincide with the taxpayer's reporting frequency for the tax imposed in chapter 82.04 RCW.

(4) The department may require taxpayers to report the taxable quantity of carbonated beverages in units of measure other than ounces.

(5) The tax imposed in this section is in addition to all other taxes imposed in this title on the same taxable event.

NEW SECTION. Sec. 1403. (1) The tax imposed in this chapter does not apply to any successive sale of previously taxed carbonated beverages.

(2) Any person claiming the exemption provided in this section must maintain documentation establishing that the carbonated beverages were previously taxed under this chapter. The documentation may be in the form of information on the invoice, or certification from the previous seller, stating: (a) That all or a specific stated portion of the carbonated beverages were previously subject to the tax imposed in this chapter; and (b) the amount of tax remitted or to be remitted to the department in respect of the carbonated beverages.

NEW SECTION. Sec. 1404. (1) For each calendar year, the tax imposed in this chapter does not apply in respect to the first ten million dollars of carbonated beverages sold in this state by any bottler as measured by the gross proceeds of sales of carbonated beverages at retail and wholesale by the bottler. If a bottler is affiliated with any other bottler or distributor, the ten million dollar threshold for the exemption in this subsection (1) is based on the combined gross proceeds of sales by all affiliated persons from all sales at wholesale and retail of carbonated beverages in this state during the calendar year.

(2) Successive sales by any person of carbonated beverages exempt under subsection (1) of this section are also exempt from the

TWENTY NINTH DAY, APRIL 12, 2010

tax imposed in this chapter. Any person claiming the exemption provided in this subsection (2) must maintain documentation establishing that the carbonated beverages were previously sold in this state by a person exempt under subsection (1) of this section. (5) If the seller uses a certified service provider as defined in RCW 82.32.020 to administer its use tax responsibilities, the certified service provider may claim, on behalf of the seller, the credit or refund allowed by this section. The certified service provider must credit or refund the full amount received to the seller.

(6) The department ~~((shall))~~ must allow an allocation of bad debts among member states to the streamlined sales and use tax agreement, as defined in RCW 82.58.010(1), if the books and records of the person claiming bad debts support the allocation.

(7) A person's right to claim a credit or refund under this section is not assignable. No person other than the original seller in the transaction that generated the bad debt or, as provided in subsection (5) of this section, a certified service provider, is entitled to claim a credit or refund under this section. For qualifying businesses that lease space at an eligible computer data center, the number of family wage employment positions that must be increased under this subsection (3)(a)(ii) is based only on the space occupied by the lessee in the eligible computer data center.

(b) In calculating the net increase in family wage employment positions:

(i) The owner of an eligible computer data center, in addition to its own net increase in family wage employment positions, may include:

(A) The net increase in family wage employment positions employed by qualifying businesses leasing space within the eligible computer data center from the owner; and

The President declared the question before the Senate to be the adoption of the committee striking amendment by the Committee on Ways & Means to Engrossed House Bill No. 2561.

#### POINT OF ORDER

Senator Carrell: "I believe that this bill contains two subjects in violation of Senate Rule 25 and I have arguments thereon. This bill authorized the issuance of bonds for the purpose of creating energy efficient schools. In addition the bill removes the expiration date on the new tax on bottled water. The tax on bottled water is not dedicated to the payment of the bonds issued under the bill. It is an entirely separate stand alone provision to extend the tax where the revenue is directed to the state's general fund and revenue may be spent on a variety of programs. Mr. President, I believe that the bill contains two distinct subjects, the issuance of bonds and the extension of a tax in violation of Rule 25."

#### REPLY BY THE PRESIDENT

President Owen: "Senator Carrell, the President needs a clarification. You raised your point of order on the bill or raised your point of order on the committee amendment? Senator Carrell, the President is going to allow little latitude here because he believes that you made your point of order to the bill but in effect the striking amendment is the bill. Therefore he will allow the consideration of the two the question of violating the two issue rule on the striking amendment itself and we'll take under consideration."

Senator Eide spoke against the point of order.

#### RULING BY THE PRESIDENT

President Owen: "In ruling on the Point of Order raised by Senator Carrell as to whether the Senate committee amendment to Engrossed House Bill 2561 would violate the single subject limitation found in Senate Rule 25, the President finds and rules as follows:

The Senate has developed a body of parliamentary precedent on this issue, precedent which is based in large part upon Supreme Court rulings on this same topic. While the President

does not make legal rulings, the Supreme Court's guidance is appropriate, because Senate Rule 25 contains the same single subject language found in our Constitution in Article II, Section 19.

Very generally, this precedent requires that the various sections and effects of a measure be rationally related to that measure's overarching common purpose or subject. It is true that this measure contains multiple provisions, but these are all harmonized under one common policy choice—or subject—of the bill, which is to issue bonds for a particular purpose and include revenue which might fund those bonds and facilitate that purpose. The varied and detailed sections of the bill in this case are simply policy choices made by the drafters to implement that purpose. Others may prefer different choices or different purposes altogether, but those are policy choices to be made by this body, not a violation of Senate Rule 25.

For these reasons, the President finds that the proposed committee amendment does not violate the provisions of Senate Rule 25, and Senator Carrell's point is not well-taken."

The motion by Senator Fraser carried and the committee striking amendment was adopted by voice vote.

#### MOTION

There being no objection, the following title amendment was adopted:

On page 1, line 2 of the title, after "facilities" strike the remainder of the title and insert "and raising revenue therefor; amending RCW 82.08.0293, 82.12.0293, and 39.94.040; adding a new chapter to Title 43 RCW; creating new sections; making an appropriation; providing a contingent effective date; providing for submission of certain sections of this act to a vote of the people; and declaring an emergency."

#### MOTION

On motion of Senator Fraser, the rules were suspended, Engrossed House Bill No. 2561 as amended by the Senate was advanced to third reading, the second reading considered the third and the bill was placed on final passage.

Senators Fraser, Franklin and Rockefeller spoke in favor of passage of the bill.

Senators Zarelli, King, Benton and Carrell spoke against passage of the bill.

The President declared the question before the Senate to be the final passage of Engrossed House Bill No. 2561 as amended by the Senate.

#### ROLL CALL

**PART II  
HUMAN SERVICES**

**Sec. 201.** 2009 c 564 s 201 (uncodified) is amended to read as follows:

**FOR THE DEPARTMENT OF SOCIAL AND HEALTH SERVICES.** (1) Appropriations made in this act to the department of social and health services shall initially be allotted as required by this act. Subsequent allotment modifications shall not include transfers of moneys between sections of this act except as expressly provided in this act, nor shall allotment modifications permit moneys that are provided solely for a specified purpose to be used for other than that purpose.

(2) The department of social and health services shall not initiate any services that require expenditure of state general fund moneys unless expressly authorized in this act or other law. The department may seek, receive, and spend, under RCW 43.79.260 through 43.79.282, federal moneys not anticipated in this act as long as the federal funding does not require expenditure of state moneys

TWENTY NINTH DAY, APRIL 12, 2010

for the program in excess of amounts anticipated in this act. If the department receives unanticipated unrestricted federal moneys, those moneys shall be spent for services authorized in this act or in any other legislation providing appropriation authority, and an equal amount of appropriated state general fund moneys shall lapse. Upon the lapsing of any moneys under this subsection, the office of financial management shall notify the legislative fiscal committees. As used in this subsection, "unrestricted federal moneys" includes block grants and other funds that federal law does not require to be spent on specifically defined projects or matched on a formula basis by state funds.

(3) The appropriations to the department of social and health services in this act shall be expended for the programs and in the amounts specified in this act.

(4) The department is authorized to develop an integrated health care program designed to slow the progression of illness and disability and better manage medicaid expenditures for the aged and disabled population. Under this Washington medicaid integration partnership (WMIP), the department may combine and transfer such medicaid funds appropriated under sections 204, 206, 208, and 209 of this act as may be necessary to finance a unified health care plan for the WMIP program enrollment. The WMIP pilot projects shall not exceed a daily enrollment of 6,000 persons, nor expand beyond one county, during the 2009-2011 biennium. The amount of funding assigned to the pilot projects from each program may not exceed the average per capita cost assumed in this act for individuals covered by that program, actuarially adjusted for the health condition of persons enrolled in the pilot project, times the number of clients enrolled in the pilot project. In implementing the WMIP pilot projects, the department may: (a) Withhold from calculations of "available resources" as set forth in RCW 71.24.025 a sum equal to the capitated rate for individuals enrolled in the pilots; and (b) employ capitation financing and risk-sharing arrangements in collaboration with health care service contractors licensed by the office of the insurance commissioner and qualified to participate in both the medicaid and medicare programs. The department shall conduct an evaluation of the WMIP, measuring changes in participant health outcomes, changes in patterns of service utilization, participant satisfaction, participant access to services, and the state fiscal impact.

(5)(a) The appropriations to the department of social and health services in this act shall be expended for the programs and in the amounts specified in this act. However, after May 1, 2010, unless specifically prohibited by this act, the department may transfer general fund--state appropriations for fiscal year 2010 among programs after approval by the director of financial management. However, the department shall not transfer state moneys that are provided solely for a specified purpose except as expressly provided in (b) of this subsection.

(b) To the extent that transfers under (a) of this subsection are insufficient to fund actual expenditures in excess of fiscal year 2010 caseload forecasts and utilization assumptions in the medical assistance, long-term care, foster care, adoptions support, and child support programs, the department may transfer state moneys that are provided solely for a specified purpose. The department shall not transfer funds, and the director of financial management shall not approve the transfer, unless the transfer is consistent with the objective of conserving, to the maximum extent possible, the expenditure of state funds. The director of financial management shall notify the appropriate fiscal committees of the senate and house of representatives in writing seven days prior to approving any allotment modifications or transfers under this subsection. The written notification shall include a narrative explanation and justification of the changes, along with expenditures and allotments

2010 1ST SPECIAL SESSION

by budget unit and appropriation, both before and after any allotment modifications or transfers.

(6) The legislature finds that medicaid payment rates, as calculated by the department pursuant to the appropriations in this act, bear a reasonable relationship to the costs incurred by efficiently and economically operated facilities for providing quality services and will be sufficient to enlist enough providers so that care and services are available to the extent that such care and services are available to the general population in the geographic area. The legislature finds that cost reports, payment data from the federal government, historical utilization, economic data, and clinical input constitute reliable data upon which to determine the payment rates.

(7) With the objective of improving and enhancing the efficiency and effectiveness of the audit and oversight program, the department shall identify streamlining opportunities in the areas described in (a) through (d) of this subsection. The goals of these activities are to leverage department resources to better fulfill the obligations of all aspects of audit and oversight programs in an era of resource constraints and to assure that the burden of audits and other oversight activities on the state's businesses, organizations, and individuals is as minimal as practical.

(a) The department shall complete an assessment of expanding the use of technology and automated data matches for identification and recovery of third party resources, including data matches with pharmacy benefit managers (PBM). The department shall submit a report to the governor and the relevant fiscal and policy committees of the legislature by September 1, 2010, that identifies resources needed to implement the enhanced data matching capability and the actions and timelines necessary for implementation of automated production data matching capability.

(b) The department shall complete a comprehensive review of multiple licensing and certification reviews, onsite surveys, and contract oversight obligations that require provider site visits or require provider response. The department shall identify all related oversight and review activities and identify opportunities for consolidation of multiple clinical and business management review activities as appropriate with a view to minimizing the cost of both conducting and receiving the audits or other review or oversight activities.

(c) The department shall expand its provider audit capacity through its provider one payment system. The department shall identify medicaid payment system enhancements that will maximize new technical capabilities. The department shall explore new technical capabilities of its fraud and abuse detection system to identify more efficient ways to correlate audit efforts to the levels of risk and materiality. Results of focused audits must be used to enhance educational materials. The department shall report to the governor and legislature by December 1, 2010, on the status of developing this audit capacity.

(d) The department shall conduct a review and assessment of audit processes and timeframes. The department shall review audit outcomes from the past three fiscal years and will concentrate on identifying opportunities to shorten timeframes between the various stages of an audit, including the letter of intent to audit, records collection to issuance of the draft audit, dispute resolution activities, issuance of the final audit, and administrative hearings. The department shall initiate a provider outreach and education program to include communication materials that clearly identify expectations of the department and the provider being audited. The department must develop and publish an orientation to medicaid audits publication by October 1, 2010, that includes audit requirements, expectations of providers and the department, and associated timelines. The department shall report to the governor and relevant policy and fiscal committees of the legislature by December 1, 2010, on the status of these activities.

The facility shall provide residential care for up to ~~(seventeen)~~ thirteen children through two years of age. Seventy-five percent of the children served by the facility must be in need of special care as a result of substance abuse by their mothers. The facility shall also provide on-site training to biological, adoptive, or foster parents. The facility shall provide at least three months of consultation and support to parents accepting placement of children from the facility. In selecting nonfacility-based programs, preference shall be given to programs whose federal or private funding sources have expired or that have successfully performed under the existing pediatric interim care program.

~~((4))~~ (3) \$2,500,000 of the general fund--state appropriation for fiscal year 2010 and ~~(\$2,500,000)~~ \$93,000 of the general fund--state appropriation for fiscal year 2011, and \$2,407,000 of the home security fund--state appropriation are provided solely for secure crisis residential centers. ~~((5))~~ (4) A maximum of ~~(\$76,831,000)~~ \$73,209,000 of the general fund--state appropriations and ~~(\$56,901,000)~~ \$54,596,000 of the general fund--federal appropriations for the 2009-11 biennium shall be expended for behavioral rehabilitative services and these amounts are provided solely for this purpose. The department shall work with behavioral rehabilitative service providers to safely keep youth with emotional, behavioral, or medical needs at home, with relatives, or with other permanent placement resources and decrease the length of ~~(stay)~~ service through improved emotional, behavioral, or medical outcomes for children in behavioral rehabilitative services in order to achieve the appropriated levels.

(a) Contracted providers shall act in good faith and accept the hardest to ~~(place)~~ serve children, to the greatest extent possible, in order to improve their emotional, behavioral, or medical conditions.

(b) The department and the contracted provider shall mutually agree and establish an exit date for when the child is to exit the behavioral rehabilitative service provider. The department and the contracted provider should mutually agree, to the greatest extent possible, on a viable placement for the child to go to once the child's treatment process has been completed. The child shall exit only when the emotional, behavioral, or medical condition has improved or if the provider has not shown progress toward the outcomes specified in the signed contract at the time of exit. This subsection (b) does not prevent or eliminate the department's responsibility for removing the child from the provider if the child's emotional, behavioral, or medical condition worsens or is threatened.

(c) The department is encouraged to use performance-based contracts with incentives directly tied to outcomes described in this section. The contracts should incentivize contracted providers to accept the hardest to ~~(place)~~ serve children and incentivize improvement in children's emotional, mental, and medical well-being within the established exit date. The department is further encouraged to increase the use of behavioral rehabilitative service group homes, wrap around services to facilitate and support placement of youth at home with relatives, or other permanent resources, and other means to control expenditures.

(d) The total foster care per capita amount shall not increase more than four percent in the 2009-11 biennium and shall not include behavioral rehabilitative service.

The pilot project shall be designed to provide a continuum of services that reduce out-of-home placements and the lengths of stay for children in out-of-home placement. The department and the community networks shall collaboratively select the additional counties for the pilot project and shall collaboratively design the contract. ((22)) (21) The legislature intends for the department to reduce the time a child remains in the child welfare system. The department shall establish a measurable goal and report progress toward meeting that goal to the legislature by January 15 of each fiscal year of the 2009- 11 fiscal biennium. To the extent that actual caseloads exceed those assumed in this section, it is the intent of the legislature to address those issues in a manner similar to all other caseload programs.

(22) \$715,000 of the general fund--state appropriation for fiscal year 2010 and \$715,000 of the general fund--state appropriation for fiscal year 2011 are provided solely for services provided through children's advocacy centers.

Children's administration case workers, local public health nurses and case workers from the temporary assistance for needy families program shall refer children to MTCC services, as long as the children meet the eligibility requirements as outlined in the Washington state plan for the MTCC services.

The pilot project shall include adolescent services provided through secure crisis residential centers, crisis residential centers, and hope beds. The department shall work with adolescent service providers to maintain availability of adolescent services and maintain the delivery of services in a geographically representative manner. The department shall examine current staffing requirements, flexible payment options, center-specific licensing waivers, and other appropriate methods to achieve savings and streamline the delivery of services. The legislature intends for the pilot project to provide flexibility to the department to improve outcomes and to achieve more efficient utilization of existing resources, while meeting the statutory goals of the adolescent services programs. The department shall provide an update to the appropriate legislative committees and governor on the status of the pilot project implementation by December 1, 2010.

~~and the legislature changes in the process of funding and managing, including accountability and information collection and dissemination, grants to juvenile courts for serving youth adjudicated in the juvenile court system use in the fiscal year ending June 30, 2011. The proposal shall include, but is not limited to: A process of making a block grant of funds consistent with (a) of this subsection; a program of data collection and measurement criteria for receiving the funds which will include targets of the number of youth served in identified evidence based programs and disposition alternatives in which the juvenile courts and office of the administrator of the courts will have responsibility for collecting and distributing information and providing access to the data systems to the juvenile rehabilitation administration and the Washington state institute for public policy related to program and outcome data; and necessary changes to the Washington administrative code.~~

~~— (c) Within the funds provided for criminal justice analysis in section 610(4) of this act, the Washington state institute for public policy shall conduct an analysis of the costs per participant of evidence based programs by the juvenile courts and by December 1, 2009, shall report the results of this analysis to the juvenile rehabilitation administration, the juvenile courts, office of the administrator of the courts, the office of financial management, and the fiscal committees of the legislature)) For the fiscal year ending June 30, 2011, the juvenile rehabilitation administration shall administer a block grant, rather than categorical funding, of consolidated juvenile service funds, community juvenile accountability act grants, the chemical dependency disposition alternative funds, the mental health disposition alternative, and the sentencing disposition alternative for the purpose of serving youth adjudicated in the juvenile justice system. In making the block grant, the juvenile rehabilitation administration shall follow the following formula and will prioritize evidence-based programs and disposition alternatives and take into account juvenile courts program-eligible youth in conjunction with the number of youth served in each approved evidence-based program or disposition alternative: (i) Thirty-seven and one-half percent for the at-risk population of youth ten to seventeen years old; (ii) fifteen percent for moderate and high-risk youth; (iii) twenty-five percent for evidence-based program participation; (iv) seventeen and one-half percent for minority populations; (v) three percent for the chemical dependency disposition alternative; and (vi) two percent for the mental health and sentencing dispositional alternatives. It is further the intent of the legislature that the evidence-based expansion grants be incorporated into the block grant formula by fiscal year 2013 and SSODA remain separate unless changes would result in increasing the cost benefit savings to the state as identified in (c) of this subsection.~~

~~— (c) The juvenile rehabilitation administration and the juvenile courts shall establish a block grant funding formula oversight committee with equal representation from the juvenile rehabilitation administration and the juvenile courts. The purpose of this~~

committee is to assess the ongoing implementation of the block grant funding formula, utilizing data-driven decision making and the most current available information. The committee will be cochaired by the juvenile rehabilitation administration and the juvenile courts, who will also have the ability to change members of the committee as needed to achieve its purpose. Initial members will include one juvenile court representative from the finance committee, the community juvenile accountability act committee, the risk assessment quality assurance committee, the executive board of the Washington association of juvenile court administrators, the Washington state center for court research, and a representative of the superior court judges association; two representatives from the juvenile rehabilitation administration headquarters program oversight staff, two representatives of the juvenile rehabilitation administration regional office staff, one representative of the juvenile rehabilitation administration fiscal staff and a juvenile rehabilitation administration division director. The committee may make changes to the formula categories other than the evidence-based program and disposition alternative categories if it is determined the changes will increase statewide service delivery or effectiveness of evidence-based program or disposition alternative resulting in increased cost benefit savings to the state. Long-term cost benefit must be considered. Percentage changes may occur in the evidence-based program or disposition alternative categories of the formula should it be determined the changes will increase evidence-based program or disposition alternative delivery and increase the cost benefit to the state. These outcomes will also be considered in determining when evidence-based expansion or special sex offender disposition alternative funds should be included in the block grant or left separate.

(d) The juvenile courts and administrative office of the courts shall be responsible for collecting and distributing information and providing access to the data systems to the juvenile rehabilitation administration and the Washington state institute for public policy related to program and outcome data. The juvenile rehabilitation administration and the juvenile courts will work collaboratively to develop program outcomes that reinforce the greatest cost benefit to the state in the implementation of evidence-based practices and disposition alternatives.

(e) By December 1, 2010, the Washington state institute for public policy shall report to the office of financial management and appropriate committees of the legislature on the administration of the block grant authorized in this subsection. The report shall include the criteria used for allocating the funding as a block grant and the participation targets and actual participation in the programs subject to the block grant.

(8) \$3,700,000 of the Washington auto theft prevention authority account--state appropriation is provided solely for competitive grants to community-based organizations to provide at-risk youth intervention services, including but not limited to, case management, employment services, educational services, and street outreach intervention programs. Projects funded should focus on preventing, intervening, and suppressing behavioral problems and violence while linking at-risk youth to pro-social activities. The department may not expend more than \$1,850,000 per fiscal year. The costs of administration must not exceed four percent of appropriated funding for each grant recipient. Each entity receiving funds must report to the juvenile rehabilitation administration on the number and types of youth served, the services provided, and the impact of those services upon the youth and the community.

(9) The appropriations in this section assume savings associated with the transfer of youthful offenders age eighteen or older whose sentences extend beyond age twenty-one to the department of

corrections to complete their sentences. Prior to transferring an offender to the department of corrections, the juvenile rehabilitation administration shall evaluate the offender to determine the offender's physical and emotional suitability for transfer.

TOTAL APPROPRIATION.....	(\$1,041,344,000)	\$1,091,784,000

The appropriations in this subsection are subject to the following conditions and limitations:

(a) \$113,689,000 of the general fund--state appropriation for fiscal year 2010 and \$113,689,000 of the general fund--state appropriation for fiscal year 2011 are provided solely for persons and services not covered by the medicaid program. This is a reduction of \$11,606,000 each fiscal year from the nonmedicaid funding that was allocated for expenditure by regional support networks during fiscal year 2009 prior to supplemental budget reductions. This \$11,606,000 reduction shall be distributed among regional support networks proportional to each network's share of the total state population. To the extent possible, levels of regional support network spending shall be maintained in the following priority order: (i) Crisis and commitment services; (ii) community inpatient services; and (iii) residential care services, including personal care and emergency housing assistance.

(b) ~~(\$16,900,000)~~ \$10,400,000 of the general fund--state appropriation for fiscal year 2010 ~~(and \$16,900,000)~~, \$9,100,000 of the general fund--state appropriation for fiscal year 2011, and \$1,300,000 of the general fund--federal appropriation are provided solely for the department and regional support networks to contract for implementation of high-intensity program for active community treatment (PACT) teams ~~(, and other proven program approaches that the department concurs will enable the regional support network to achieve significant reductions in the number of beds the regional support network would otherwise need to use at the state hospitals)).~~ The department shall work with regional support networks and the center for medicare and medicaid services to integrate eligible components of the PACT service delivery model into medicaid capitation rates no later than January 2011, while maintaining consistency with all essential elements of the PACT evidence-based practice model.

(c) \$6,500,000 of the general fund--state appropriation for fiscal year 2010 and \$6,500,000 of the general fund--state appropriation for fiscal year 2011 are provided solely for the western Washington regional support networks to provide either community- or hospital campus-based services for persons who require the level of care provided by the program for adaptive living skills (PALS) at western state hospital.

(d) The number of nonforensic beds allocated for use by regional support networks at eastern state hospital shall be 192 per day. The number of nonforensic beds allocated for use by regional support networks at western state hospital shall be 617 per day

TWENTY NINTH DAY, APRIL 12, 2010

during the first quarter of fiscal year 2010, and 587 per day thereafter. Beds in the program for adaptive living skills (PALS) are not included in the preceding bed allocations. The department shall separately charge regional support networks for persons served in the PALS program.

((d)) (e) From the general fund--state appropriations in this subsection, the secretary of social and health services shall assure that regional support networks reimburse the aging and disability services administration for the general fund--state cost of medicaid personal care services that enrolled regional support network consumers use because of their psychiatric disability.

((e)) (f) \$4,582,000 of the general fund--state appropriation for fiscal year 2010 and \$4,582,000 of the general fund--state appropriation for fiscal year 2011 are provided solely for mental health services for mentally ill offenders while confined in a county or city jail and for facilitating access to programs that offer mental health services upon release from confinement.

((f)) (g) The department is authorized to continue to contract directly, rather than through contracts with regional support networks, for children's long-term inpatient facility services.

((g)) (h) \$750,000 of the general fund--state appropriation for fiscal year 2010 and \$750,000 of the general fund--state appropriation for fiscal year 2011 are provided solely to continue performance-based incentive contracts to provide appropriate community support services for individuals with severe mental illness who were discharged from the state hospitals as part of the expanding community services initiative. These funds will be used to enhance community residential and support services provided by regional support networks through other state and federal funding.

((h)) (i) \$1,500,000 of the general fund--state appropriation for fiscal year 2010 and \$1,500,000 of the general fund--state appropriation for fiscal year 2011 are provided solely for the Spokane regional support network to implement services to reduce utilization and the census at eastern state hospital. Such services shall include:

(i) High intensity treatment team for persons who are high utilizers of psychiatric inpatient services, including those with co-occurring disorders and other special needs;

(ii) Crisis outreach and diversion services to stabilize in the community individuals in crisis who are at risk of requiring inpatient care or jail services;

(iii) Mental health services provided in nursing facilities to individuals with dementia, and consultation to facility staff treating those individuals; and

(iv) Services at the sixteen-bed evaluation and treatment facility.

At least annually, the Spokane regional support network shall assess the effectiveness of these services in reducing utilization at eastern state hospital, identify services that are not optimally effective, and modify those services to improve their effectiveness.

((i)) (j) The department shall return to the Spokane regional support network fifty percent of the amounts assessed against the network during the last six months of calendar year 2009 for state hospital utilization in excess of its contractual limit. The regional support network shall use these funds for operation during its initial months of a new sixteen-bed evaluation and treatment facility that will enable the network to reduce its use of the state hospital, and for diversion and community support services for persons with dementia who would likely otherwise require care at the state hospital.

((j)) (k) The department is directed to identify and implement program efficiencies and benefit changes in its delivery of medicaid managed-care services that are sufficient to operate within the state and federal appropriations in this section. Such actions may include but are not limited to methods such as adjusting the care

2010 1ST SPECIAL SESSION

access standards; improved utilization management of ongoing, recurring, and high-intensity services; and increased uniformity in provider payment rates. The department shall ensure that the capitation rate adjustments necessary to accomplish these efficiencies and changes are distributed uniformly and equitably across all regional support networks statewide. The department is directed to report to the relevant legislative fiscal and policy committees at least thirty days prior to implementing rate adjustments reflecting these changes.

((k)) (l) In developing the new medicaid managed care rates under which the public mental health managed care system will operate during the five years beginning in fiscal year 2011, the department should seek to estimate the reasonable and necessary cost of efficiently and effectively providing a comparable set of medically necessary mental health benefits to persons of different acuity levels regardless of where in the state they live. Actual prior period spending in a regional administrative area shall not be a key determinant of future payment rates. The department shall report to the office of financial management and to the relevant fiscal and policy committees of the legislature on its proposed new waiver and mental health managed care rate-setting approach by October 1, 2009, and again at least sixty days prior to implementation of new capitation rates.

(m) In implementing the new public mental health managed care payment rates for fiscal year 2011, the department shall to the maximum extent possible within each regional support network's allowable rate range establish rates so that there is no increase or decrease in the total state and federal funding that the regional support network would receive if it were to continue to be paid at its October 2009 through June 2010 rates. The department shall additionally revise the draft rates issued January 28, 2010, to more accurately reflect the lower practitioner productivity inherent in the delivery of services in extremely rural regions in which a majority of the population reside in frontier counties, as defined and designated by the national center for frontier communities.

((l)) (n) \$1,529,000 of the general fund--state appropriation for fiscal year 2010 and \$1,529,000 of the general fund--state appropriation for fiscal year 2011 are provided solely to reimburse Pierce and Spokane counties for the cost of conducting 180-day commitment hearings at the state psychiatric hospitals.

((m)) (o) The legislature intends and expects that regional support networks and contracted community mental health agencies shall make all possible efforts to, at a minimum, maintain current compensation levels of direct care staff. Such efforts shall include, but not be limited to, identifying local funding that can preserve client services and staff compensation, achieving administrative reductions at the regional support network level, and engaging stakeholders on cost-savings ideas that maintain client services and staff compensation. For purposes of this section, "direct care staff" means persons employed by community mental health agencies whose primary responsibility is providing direct treatment and support to people with mental illness, or whose primary responsibility is providing direct support to such staff in areas such as client scheduling, client intake, client reception, client records-keeping, and facilities maintenance.

(p) Regional support networks may use local funds to earn additional federal medicaid match, provided the locally matched rate does not exceed the upper-bound of their federally allowable rate range, and provided that the enhanced funding is used only to provide medicaid state plan or waiver services to medicaid clients. Additionally, regional support networks may use a portion of the state funds allocated in accordance with (a) of this subsection to earn additional medicaid match, but only to the extent that the application of such funds to medicaid services does not diminish the level of crisis and commitment, community inpatient, residential care, and
