The study must review the proposed interior furnishings and fittings for the long-term maintenance and out-of-service vessel costs and, if appropriate, propose alternative interior furnishings and fittings that will decrease long-term maintenance and out-of-service vessel costs. The study must include a projection of out-of-service time and a life-cycle cost analysis of planned out-of-service time, including the impact on fleet size. The department must submit the study to the joint transportation committee by August 1, 2010.

ENGROSSED SUBSTITUTE SENATE BILL NO. 6381, as 
amended by the House, having received the constitutional 
majority, was declared passed. There being no objection, the 
title of the bill was ordered to stand as the title of the act.

RULING BY THE PRESIDENT

President Owen: “In ruling upon the Points of Order raised 
by Senator Brandland as to whether the House amendments to 
Second Engrossed Substitute Senate Bill 6508 violate Senate 
Rules 25 and 66 by including a subject not reflected in the bill’s 
title and beyond the scope and object of the bill, the President 
finds and rules as follows.

The bill as it passed the Senate defined the rights and 
liabilities of various parties with respect to the wrongful death of 
an adult child. That bill included a joint and several liability 
provision to limit claims against the state and local governments.

The House amendments remove the joint and several liability 
limitation altogether, and then add in provisions by which local 
governments may be reimbursed for certain wrongful death 
claims by making a claim against a newly-created account. That 
account is to be funded by the imposition of an additional five 
dollar charge for traffic infractions and a ten dollar charge for 
superior court filing fees.

As passed by the Senate, it is fair to say that the Senate 
version approached the issue of wrongful death liability—and its 
limitations—by assigning and limiting the rights and liabilities of 
various private and governmental parties. There was no 
provision for any funding, and, while government liability would 
likely arise from claims, such potential claims derive from private 
lawsuits, not a state program or mandate. Creating an entirely 
new account and imposing additional fees, as well as a 
mechanism by which local governments can make claims for 
reimbursement of payments made in connection with wrongful 
death lawsuits, goes well beyond merely adjusting the rights and 
liabilities of the parties to a private lawsuit. For these reasons, the 
amendments impermissibly broaden the scope of the bill.

Similarly, because the amendments remove the joint and 
several liability provisions entirely, the title no longer reflects the 
subject of the bill, which includes the language:

‘AN ACT Relating to wrongful death or survival 
actions .... by limiting the liability of state and local 
agencies or political subdivisions in those recoveries.’

As a result, the title no longer meets the mandate of Senate 
Rule 25, which requires that the subject of the bill be described in 
the title.

For these reasons, the President finds that the House 
amendments may not be considered for concurrence by this body, 
and Senator Brandland’s points are well-taken.”

MOTION

Senator Hargrove moved that the Senate insist on its position 
on the House amendment(s) to Second Engrossed Substitute 
Senate Bill No. 6508 and ask the House to recede thereon.

The President declared the question before the Senate to be 
motion by Senator Hargrove that the Senate insist on its position 
on the House amendment(s) to Second Engrossed Substitute 
Senate Bill No. 6508 and ask the House to recede thereon.

The motion by Senator Hargrove carried and the Senate 
insisted on its position in the House amendment(s) to Second 
Engrossed Substitute Senate Bill No. 6508 and asked the House 
to recede thereon by voice vote.

MESSAGE FROM THE HOUSE

March 5, 2010

MR. PRESIDENT:
The House passed SECOND SUBSTITUTE SENATE BILL NO. 
6667 with the following amendment(s): 6667-S2 AMH ENGR 
H5386.E

Strike everything after the enacting clause and insert the 
following:

NEW SECTION. Sec. 1. The legislature finds that small 
businesses and entrepreneurs are a fundamental source of economic 
and community vitality for our state. They employ state residents, 
pay state taxes, purchase goods and services from local and regional 
companies, and contribute to our communities in many other ways. 
The legislature finds that small businesses and entrepreneurs need 
increased access to capital and technical assistance in order to 
maximize their potential. The legislature intends that the 
department of commerce and the small business development center 
each build upon their existing relevant statutory missions and 
authorities by collaborating on a specific plan to expand services to 
small businesses and entrepreneurs beginning in the 2011-2013 
bienium.

Sec. 2. RCW 43.330.060 and 2005 c 136 s 13 are each 
amended to read as follows:

(1) The department shall (a) assist in expanding the state's role 
as an international center of trade, culture, and finance; (b) promote 
and market the state's products and services both nationally and 
internationally; (c) work in close cooperation with other private and 
public international trade efforts; (d) act as a centralized location for 
the assimilation and distribution of trade information; and (e) 
establish and operate foreign offices promoting overseas trade and 
commerce.

(2) The department shall identify and work with Washington 
businesses that can use local, state, and federal assistance to increase 
domestic and foreign exports of goods and services.

(3) The department shall work generally with small businesses 
and other employers to facilitate resolution of siting, regulatory, 
expansion, and retention problems. This assistance shall include 
but not be limited to assisting in workforce training and 
infrastructure needs, identifying and locating suitable business sites, 
and resolving problems with government licensing and regulatory 
requirements. The department shall identify gaps in needed 
services and develop steps to address them including private sector 
support and purchase of these services.

(4) The department shall work to increase the availability of 
capital to small businesses by developing new and flexible 
investment tools; by assisting in targeting and improving the 
efficiency of existing investment mechanisms; and by assisting in 
the procurement of managerial and technical assistance necessary to 
attract potential investors.

(5) The department shall assist women and minority-owned 
businesses in overcoming barriers to entrepreneurial success. The 
department shall contract with public and private agencies, 
institutions, and organizations to conduct entrepreneurial training 
courses for minority and women-owned businesses. The 
instruction shall be intensive, practical training courses in financing, 
marketing, managing, accounting, and recordkeeping for a small 
business, with an emphasis on federal, state, local, or private 
programs available to assist small businesses. Instruction shall be 
offered in major population centers throughout the state at times and
locating that are convenient for minority and women small business owners.

(6)(a) Subject to the availability of amounts appropriated for this specific purpose, by December 1, 2010, the department, in conjunction with the small business development center, must prepare and present to the governor and appropriate legislative committees a specific, actionable plan to increase access to capital and technical assistance to small businesses and entrepreneurs beginning with the 2011-2013 biennium. In developing the plan, the department and the center may consult with the Washington state microenterprise association, and with other government, nonprofit, and private organizations as necessary. The plan must identify:

(i) Existing sources of capital and technical assistance for small businesses and entrepreneurs;

(ii) Critical gaps and barriers to availability of capital and delivery of technical assistance to small businesses and entrepreneurs;

(iii) Workable solutions to filling the gaps and removing barriers identified in (a)(ii) of this subsection; and

(iv) The financial resources and statutory changes necessary to put the plan into effect beginning with the 2011-2013 biennium.

(b) With respect to increasing access to capital, the plan must identify specific, feasible sources of capital and practical mechanisms for expanding access to it.

(c) The department and the center must include, within the analysis and recommendations in (a) of this subsection, any specific gaps, barriers, and solutions related to rural and low-income communities and small manufacturers interested in exporting.

Sec. 3. RCW 28B.30.530 and 2009 c 486 s 1 are each amended to read as follows:

(1) The board of regents of Washington State University shall establish the Washington State University small business development center.

(2) The center shall provide management and technical assistance including but not limited to training, counseling, and research services to small businesses throughout the state. The center shall work with the department of ((community, trade, and economic development)) commerce, the state board for community and technical colleges, the higher education coordinating board, the workforce training and education coordinating board, the employment security department, the Washington state economic development commission, associate development organizations, and workforce development councils to:

(a) Integrate small business development centers with other state and local economic development and workforce development programs;

(b) Target the centers’ services to small businesses;

(c) Tailor outreach and services at each center to the needs and demographics of entrepreneurs and small businesses located within the service area;

(d) Establish and expand small business development center satellite offices when financially feasible; and

(e) Coordinate delivery of services to avoid duplication.

(3) The administrator of the center may contract with other public or private entities for the provision of specialized services.

(4) The small business development center may accept and disburse federal grants or federal matching funds or other funds or donations from any source when made, granted, or donated to carry out the center’s purposes. When drawing on funds from the business assistance account created in RCW 28B.30.531, the center must first use the funds to make increased management and technical assistance available to existing small businesses and start-up businesses at satellite offices. The funds may also be used to develop and expand assistance programs such as small business planning workshops and small business counseling.

(5) The legislature directs the small business development center to request United States small business administration approval of a special emphasis initiative, as permitted under 13 C.F.R. 130.340(c) as of April 1, 2009, to target assistance to Washington state's smaller businesses. This initiative would be negotiated and included in the first cooperative agreement application process that occurs after July 26, 2009.

(6)(a) Subject to the availability of amounts appropriated for this specific purpose, by December 1, 2010, the center, in conjunction with the department of commerce, must prepare and present to the governor and appropriate legislative committees a specific, actionable plan to increase access to capital and technical assistance to small businesses and entrepreneurs beginning with the 2011-2013 biennium. In developing the plan, the center and the department may consult with the Washington state microenterprise association, and with other government, nonprofit, and private organizations as necessary. The plan must identify:

(i) Existing sources of capital and technical assistance for small businesses and entrepreneurs;

(ii) Critical gaps and barriers to availability of capital and delivery of technical assistance to small businesses and entrepreneurs;

(iii) Workable solutions to filling the gaps and removing barriers identified in (a)(ii) of this subsection; and

(iv) The financial resources and statutory changes necessary to put the plan into effect beginning with the 2011-2013 biennium.

(b) With respect to increasing access to capital, the plan must identify specific, feasible sources of capital and practical mechanisms for expanding access to it.

(c) The center and the department must include, within the analysis and recommendations in (a) of this subsection, any specific gaps, barriers, and solutions related to rural and low-income communities and small manufacturers interested in exporting.

Correct the title.

MESSAGE FROM THE HOUSE

March 4, 2010

MR. PRESIDENT:
The House passed ENGROSSED SECOND SUBSTITUTE SENATE BILL NO. 6267 with the following amendment(s): 6267-S2.E AMH ENGR H5369.E

Strike everything after the enacting clause and insert the following:

NEW SECTION. Sec. 1. Water is an essential element for economic prosperity and it generates new, family-wage jobs and state revenues. It is the intent of the legislature to provide both water right applicants and the department of ecology with the necessary tools to expedite the processing of water right applications depending on the needs of the project and agency workload.

NEW SECTION. Sec. 2. Sufficient resources to support the department of ecology's water resource program are essential for effective and sustainable water management that provides certainty to processed applications. The department of ecology shall review current water resource functions and report to the legislature and the governor by September 1, 2010, on improvements to make the program more self-sustaining and efficient.

Sec. 3. RCW 90.03.265 and 2003 c 70 s 6 are each amended to read as follows:

(1)(a) Any applicant for a new withdrawal or a change, transfer, or amendment of a water right pending before the department may initiate a cost-reimbursement agreement with the department to provide expedited review of the application. A cost-reimbursement agreement may (only) be initiated under this section if the applicant agrees to pay for, or as part of a cooperative effort agrees to pay for, the cost of processing his or her application and all other applications from the same source of supply which must be acted upon before the applicant's request because they were filed prior to the date of when the applicant filed.

(b) The requirement to pay for the cost of other applications under (a) of this subsection does not apply to an application for a new appropriation that would not diminish the water available to earlier pending applicants for new appropriations from the same source of supply.

(c) The requirement to pay for the cost of processing other applications under (a) of this subsection does not apply to an application for a change, transfer, or other amendment that would not diminish the water available to earlier pending applicants for changes or transfers from the same source of supply.

(d) In determining whether an application would not diminish the water available to earlier pending applicants, the department shall consider any water impoundment or other water resource management mitigation technique proposed by the applicant under RCW 90.03.255 or 90.44.055.

(e) The department may enter into cost-reimbursement agreements provided resources are available and shall use the process established under RCW 43.21A.690 for entering into cost-reimbursement agreements. The department's share of work related to a cost-reimbursement application, such as final certificate approval, must be prioritized within the framework of other water right processing needs and as determined by agency rule.

(f) Each individual applicant is responsible for his or her own appeal costs that may result from a water right decision made by the department under this section. In the event that the department's approval of an application under this section is appealed under chapter 43.21B RCW by a third party, the applicant for the water right in question must reimburse the department for the cost of defending the decision before the pollution control hearings board unless otherwise agreed to by the applicant and the department. If an applicant appeals either an approval or a denial made by the department under this section, the applicant is responsible only for its own appeal costs.

(2) In pursuing a cost-reimbursement project, the department must determine the source of water proposed to be diverted or withdrawn from, including the boundaries of the area that delimits the source. The department must determine if any other water right permit applications are pending from the same source. A water source may include surface water only, groundwater only, or surface and groundwater together if the department finds they are hydraulically connected. The department shall consider technical information submitted by the applicant in making its determinations under this subsection. The department may recover from a cost-reimbursement applicant its own costs in making the same source determination under this subsection.

(3) Upon request of the applicant seeking cost-reimbursement processing, the department may elect to initiate a coordinated cost-reimbursement process. To initiate this process, the department must notify in writing all persons who have pending applications on file for a new appropriation, change, transfer, or amendment of a water right from that water source. A water source may include surface water only, groundwater only, or surface and groundwater together if the department determines that they are hydraulically connected. The notice must be posted on the department's web site and published in a newspaper of general circulation in the area where affected properties are located. The notice must also be made individually by way of mail to:

(a) Inform those applicants that cost-reimbursement processing of applications within the described water source is being initiated;
(b) Provide to individual applicants the criteria under which the applications will be examined and determined;
(c) Provide to individual applicants the estimated cost for having an application processed on a cost-reimbursement basis;
(d) Provide an estimate of how long the cost-reimbursement process will take before an application is approved or denied; and
(e) Provide at least sixty days for the applicants to respond in writing regarding the applicant's decision to participate in the cost-reimbursement process.

(4) The applicant initiating the cost-reimbursement request must pay for the cost of the determination under subsections (2) and (3) of this section and other costs necessary for the initial phase of cost-
reimbursement processing. The cost for each applicant for conducting processing under a coordinated cost-reimbursement agreement must be based primarily on the proportionate quantity of water requested by each applicant. The cost may be adjusted if it appears that an application will require a disproportionately greater amount of time and effort to process due to its complexity.

(5)(a) Only the department may approve or deny a water right application processed under this section, and such a final decision remains solely the responsibility and function of the department. The department retains full authority to amend, refuse, or approve any work product provided by any consultant under this section. The department may recover its costs related to: (i) The review of a consultant to ensure that no conflict of interest exists; (ii) the management of consultant contracts and cost-reimbursement agreements; and (iii) the review of work products provided by participating consultants.

(b) For any cost-reimbursement process initiated under subsection (1) of this section, the applicant may, after consulting with the department, select a prequalified consultant listed by the department under subsection (7) of this section or may be assigned such a prequalified consultant by the department.

(c) For any coordinated cost-reimbursement process initiated under subsection (3) of this section, the applicant may, after consulting with the department, select a prequalified consultant listed by the department under subsection (7) of this section or may be assigned a prequalified consultant by the department.

(d) In lieu of having one or more of the work products performed by a prequalified consultant listed under subsection (7) of this section, the department may, at its discretion, recognize specific work completed by an applicant or an applicant’s consultant prior to the initiation of cost-reimbursement processing. The department may also, at its discretion, authorize the use of such a consultant to perform a specific scope of the work that would otherwise be assigned to prequalified consultants listed under subsection (7) of this section.

(e) At any point during the cost-reimbursement process, the department may request or accept technical information, data, and analysis from the applicant or the applicant’s consultant to support the cost-reimbursement process or the department’s decision on the application.

(6) The department is authorized to adopt rules or guidance providing minimum qualifications and standards for any consultant’s submission of work products under this section, including standards for submission of technical information, scientific analysis, work product documentation, review for conflict of interest, and report presentation that such a consultant must meet.

(7) The department must provide notice to potential consultants of the opportunity to be considered for inclusion on the list of cost-reimbursement consultants to whom work assignments will be made. The department must competitively select an appropriate number of consultants who are qualified by training and experience to investigate and make recommendations on the disposition of water right applications. The prequalified consultant list must be renewed at least every six years, though the department may add qualified cost-reimbursement consultants to the list at any time. The department must enter a master contract with each consultant selected and thereafter make work assignments based on availability and qualifications.

(8) The department may remove any consultant from the consultant list for poor performance, malfeasance, or excessive complaints from cost-reimbursement participants. The department may interview any cost-reimbursement consultant to determine whether the person is qualified for this work, and must spot-check the work of consultants to ensure that the public is being competently served.

(9) When a prequalified cost-reimbursement consultant from the department’s list described in subsection (7) of this section is assigned or selected to investigate an application or set of applications, the consultant must document its findings and recommended disposition in the form of written draft technical reports and preliminary draft reports of examination. Within two weeks of the department receiving draft technical reports and preliminary draft reports of examination, the department shall provide the applicant such documents for review and comment prior to their completion by the consultant. The department shall consider such comments by the applicant prior to the department’s issuance of a draft report of examination. The department may modify the preliminary draft reports of examination submitted by the consultant. The department’s decision on a permit application is final unless it is appealed to the pollution control hearings board under chapter 43.21B RCW.

(10) If an applicant elects not to participate in a cost-reimbursement process, the application remains on file with the department, retains its priority date, and may be processed under regular processing, priority processing, expedited processing, coordinated cost-reimbursement processing, cost-reimbursement processing, or through conservancy board processing as authorized under chapter 90.80 RCW.

NEW SECTION. Sec. 4. A new section is added to chapter 90.03 RCW to read as follows:

The water rights processing account is created in the state treasury. All receipts from the fees collected under sections 5, 7, and 12 of this act must be deposited into the account. Money in the account may be spent only after appropriation. Expenditures from the account may only be used to support the processing of water right applications for a new appropriation, change, transfer, or amendment of a water right as provided in this chapter and chapters 90.42 and 90.44 RCW or for the examination, certification, and renewal of certification of water right examiners as provided in section 7 of this act.

NEW SECTION. Sec. 5. A new section is added to chapter 90.03 RCW to read as follows:

(1) The department may expedite processing of applications within the same source of water on its own volition when there is interest from a sufficient number of applicants or upon receipt of written requests from at least ten percent of the applicants within the same source of water.

(2) If the conditions of subsection (1) of this section have been met and the department determines that the public interest is best served by expediting applications within a water source, the department must notify in writing all persons who have pending applications on file for a new appropriation, change, transfer, or amendment of a water right from that water source. A water source may include surface water only, groundwater only, or surface and groundwater together if the department determines that they are hydraulically connected. The notice must be posted on the department’s web site and published in a newspaper of general circulation in the area where affected properties are located. The notice must also be made individually by way of mail to:

(a) Inform those applicants that expedited processing of applications within the described water source is being initiated;
(b) Provide to individual applicants the criteria under which the applications will be examined and determined;
(c) Provide to individual applicants the estimated cost for having an application processed on an expedited basis;
(d) Provide an estimate of how long the expedited process will take before an application is approved or denied; and
(e) Provide at least sixty days for the applicants to respond in writing regarding the applicant’s decision to participate in the expedited processing of their applications.
(3) In addition to the application fees provided in RCW 90.03.470, the department must recover the full cost of processing all the applications from applicants who elect to participate within the water source through expedited processing fees. The department must calculate an expedited processing fee based primarily on the proportionate quantity of water requested by each applicant and may adjust the fee if it appears that the application will require a disproportionately greater amount of time and effort to process due to its complexity. Any application fees that were paid by the applicant under RCW 90.03.470 must be credited against the applicant's share of the cost of processing applications under the provisions of this section.

(4) The expedited processing fee must be collected by the department prior to the expedited processing of an application. Revenue collected from these fees must be deposited into the water rights processing account created in section 4 of this act. An applicant who has stated in writing that he or she wants his or her application processed using the expedited procedures in this section must transmit the processing fee within sixty days of the written request. Failure to do so will result in the applicant not being included in expedited processing for that water source.

(5) If an applicant elects not to participate in expedited processing, the application remains on file with the department, the applicant retains his or her priority date, and the application may be processed through regular processing, priority processing, expedited processing, coordinated cost-reimbursement processing, cost-reimbursement processing, or through conservancy board processing as authorized under chapter 90.80 RCW. Such an application may not be processed through expedited processing within twelve months after the department's issuance of decisions on participating applications at the conclusion of expedited processing unless the applicant agrees to pay the full proportionate share that would otherwise have been paid during such processing. Any proceeds collected from an applicant under this delayed entry into expedited processing shall be used to reimburse the other applicants who participated in the previous expedited processing of applications, provided sufficient proceeds remain to fully cover the department's cost of processing the delayed entry application and the department's estimated administrative costs to reimburse the previously expedited applicants.

NEW SECTION. Sec. 6. A new section is added to chapter 90.03 RCW to read as follows:

The department must post notice on its web site and provide additional electronic notice and opportunity for comment to affected federally recognized tribal governments concurrently when providing notice to applicants under RCW 90.03.265 and sections 5 and 12 of this act.

NEW SECTION. Sec. 7. A new section is added to chapter 90.03 RCW to read as follows:

(1) The department shall establish and maintain a list of certified water right examiners. Certified water right examiners on the list are eligible to perform final proof examinations of permitted water uses leading to the issuance of a water right certificate under RCW 90.03.330. The list must be updated annually and must be made available to the public through written and electronic media.

(2) In order to qualify, an individual must be registered in Washington as a professional engineer, professional land surveyor, or registered hydrogeologist, or an individual must demonstrate at least five years of applicable experience to the department, or be a board member of a water conservancy board. Qualified individuals must also pass a written examination prior to being certified by the department. Such an examination must be administered by either the department or an entity formally approved by the department. Each certified water right examiner must demonstrate knowledge and competency regarding:

(a) Water law in the state of Washington;
(b) Measurement of the flow of water through open channels and enclosed pipes;
(c) Water use and water level reporting;
(d) Estimation of the capacity of reservoirs and ponds;
(e) Irrigation crop water requirements;
(f) Aerial photo interpretation;
(g) Legal descriptions of land parcels;
(h) Location of land and water infrastructure through the use of maps and global positioning;
(i) Proper construction and sealing of well bores; and
(j) Other topics related to the preparation and certification of water rights in Washington state.

(3) Except as provided in subsection (9) of this section, upon completion of a water appropriation and putting water to beneficial use, in order to receive a final water right certificate, the permit holder must secure the services of a certified water right examiner who has been tested and certified by the department. The examiner shall carry out a final examination of the project to verify its completion and to determine and document for the permit holder and the department the amount of water that has been appropriated for beneficial use, the location of diversion or withdrawal and conveyance facilities, and the actual place of use. The examiner shall take measurements or make estimates of the maximum diversion or withdrawal, the capacity of water storage facilities, the acreage irrigated, the type and number of stock watered, and other information relevant to making a final determination of the amount of water beneficially used. The examiner shall take photographs of the facilities to document the use or uses of water and the photographs must be submitted with the examiner's report to the department. The department shall specify the format and required content of the reports and may provide a form for that purpose.

(4) The department may suspend or revoke a certification based on poor performance, malfeasance, failure to acquire continuing education credits, or excessive complaints from the examiner's customers. The department may require the retesting of an examiner. The department may interview any examiner to determine whether the person is qualified for this work. The department shall spot check the work of examiners to ensure that the public is being competently served. Any person aggrieved by an order of the department including the granting, denial, revocation, or suspension of a certificate issued by the department under this chapter may appeal pursuant to chapter 43.21B RCW.

(5) The decision regarding whether to issue a final water right certificate is solely the responsibility and function of the department.

(6) The department shall make its final decision under RCW 90.03.330 within sixty days of the date of receipt of the proof of examination from the certified water right examiner, unless otherwise requested by the applicant or returned for correction by the department. The department may return an initial proof of examination for correction within thirty days of the department's receipt of such initial proof from a certified water right examiner. Such proof must be returned to both the certified water right examiner and the applicant. Within thirty days of the department's receipt of such returned proof from the certified water right examiner, the department shall make its final decision under RCW 90.03.330, unless otherwise requested by the applicant.

(7) Each certified water right examiner must complete eight hours annually of qualifying continuing education in the water resources field. The department shall determine and specify the qualifying continuing education and shall inform examiners of the opportunities. The department shall track whether examiners are current in their continuing education and may suspend the
(8) Each certified water right examiner must be bonded for at least fifty thousand dollars.

(9) The department may waive the requirement to secure the services of a certified water right examiner in situations in which the department has already conducted a final proof of examination or finds it unnecessary for purposes of issuing a certificate of water right.

(10) The department shall establish and collect fees for the examination, certification, and renewal of certification of water right examiners. Revenue collected from these fees must be deposited into the water rights processing account created in section 4 of this act. Pursuant to RCW 43.135.055, the department is authorized to set fees for examination, certification, and renewal of certification for water right examiners.

(11) The department may adopt rules appropriate to carry out the purposes of this section.

Sec. 8. RCW 90.14.065 and 1987 c 93 s 1 are each amended to read as follows:

(1)(a) Any person or entity, or successor to such person or entity, having a statement of claim on file with the water rights claims registry (en April 20, 1987) may submit to the department of ecology for filing (c) an amendment to such a statement of claim if the submitted amendment is based on:

‎((44)) 1. An error in estimation of the quantity of the applicant’s water claim prescribed in RCW 90.14.051 if the applicant provides reasons for the failure to claim such right in the original claim;

2. A change in circumstances not foreseeable at the time the original claim was filed, if such change in circumstances relates only to the manner of transportation or diversion of the water and not to the use or quantity of such water; or

3. The amendment is ministerial in nature.

(b) The department shall accept any such submission and file the same in the registry unless the department by written determination concludes that the requirements of (a)(i), (ii), or (iii) of this subsection ((1)(2) or (3) of this section) have not been satisfied.

2. In addition to subsection (1) of this section, a surface water right claim may be changed or transferred in the same manner as a permit or certificate under RCW 90.03.380, and a water right claim for groundwater may be changed or transferred as provided under RCW 90.03.380 and 90.44.100.

3. Any person aggrieved by a determination of the department may obtain a review thereof by filing a petition for review with the pollution control hearings board within thirty days of the date of the determination by the department. The provisions of RCW 90.14.081 shall apply to any amendment filed or approved under this section.

Sec. 9. RCW 90.44.100 and 2003 c 329 s 3 are each amended to read as follows:

(1) After an application to, and upon the issuance by the department of an amendment to the appropriate permit or certificate of groundwater right, the holder of a valid right to withdraw public groundwaters may, without losing the holder's priority of right, construct wells or other means of withdrawal at a new location in substitution for or in addition to those at the original location, or the holder may change the manner or the place of use of the water.

(2) An amendment to construct replacement or a new additional well or wells at a location outside of the location of the original well or wells or to change the manner or place of use of the water shall be issued only after publication of notice of the application and findings as prescribed in the case of an original application. Such amendment shall be issued by the department only on the conditions that:

(a) The additional or replacement well or wells shall tap the same body of public groundwater as the original well or wells; (b)
FIFTY EIGHTH DAY, MARCH 9, 2010

where a replacement well or wells is approved, the use of the original well or wells shall be discontinued and the original well or wells shall be properly decommissioned as required under chapter 18.104 RCW; (c) where an additional well or wells is constructed, the original well or wells may continue to be used, but the combined total withdrawal from the original and additional well or wells shall not enlarge the right conveyed by the original permit or certificate; and (d) other existing rights shall not be impaired. The department may specify an approved manner of construction and shall require a showing of compliance with the terms of the amendment, as provided in RCW 90.44.080 in the case of an original permit.

(3) The construction of a replacement or new additional well or wells at the location of the original well or wells shall be allowed without application to the department for an amendment. However, the following apply to such a replacement or new additional well: (a) The well shall tap the same body of public groundwater as the original well or wells; (b) if a replacement well is constructed, the use of the original well or wells shall be discontinued and the original well or wells shall be properly decommissioned as required under chapter 18.104 RCW; (c) if a new additional well is constructed, the original well or wells may continue to be used, but the combined total withdrawal from the original and additional well or wells shall not enlarge the right conveyed by the original water use permit or certificate; (d) the construction and use of the well shall not interfere with or impair water rights with an earlier date of priority than the water right or rights for the original well or wells; (e) the replacement or additional well shall be located no closer than the original well to a well it might interfere with; (f) the department may specify an approved manner of construction of the well; and (g) the department shall require a showing of compliance with the conditions of this subsection (3).

(4) As used in this section, the "location of the original well or wells" of a water right permit or certificate is the area described as the point of withdrawal in the original public notice published for the application for the water right for the well. The location of the original well or wells of a water right claim filed under chapter 90.14 RCW is the area located within a one-quarter mile radius of the current well or wells.

(5) The development and use of a small irrigation impoundment, as defined in RCW 90.03.370(8), does not constitute a change or amendment for the purposes of this section. The exemption expressly provided by this subsection shall not be construed as requiring an amendment of any existing water right to enable the holder of the right to store water governed by the right.

A new section is added to chapter 90.44 RCW to read as follows:

Applications to appropriate groundwater under a cost-reimbursement agreement must be processed in accordance with RCW 90.03.265 when an applicant requests the assignment of a cost-reimbursement consultant as provided in RCW 43.21A.690.

A new section is added to chapter 90.44 RCW to read as follows:

(1) The department may expedite processing of applications within the same source of water on its own volition when there is interest from a sufficient number of applicants or upon receipt of written requests from at least ten percent of the applicants within the same source of water.

(2) If the conditions of subsection (1) of this section have been met and the department determines that the public interest is best served by expediting applications within a water source, the department must notify in writing all persons who have pending applications on file for a new appropriation, change, transfer, or amendment of a water right from that water source. A water source may include surface water only, groundwater only, or surface and groundwater together if the department determines that they are hydraulically connected. The notice must be posted on the department's web site and published in a newspaper of general circulation in the area where affected properties are located. The notice must also be made individually by way of mail to:

(a) Inform those applicants that expedited processing of applications within the described water source is being initiated;

(b) Provide to individual applicants the criteria under which the applications will be examined and determined;

(c) Provide to individual applicants the estimated cost for having an application processed on an expedited basis;

(d) Provide an estimate of how long the expedited process will take before an application is approved or denied; and

(e) Provide at least sixty days for the applicants to respond in writing regarding the applicant's decision to participate in expedited processing of their applications.

(3) In addition to the application fees provided in RCW 90.03.470, the department must recover the full cost of processing all the applications from applicants who elect to participate within the water source through expedited processing fees. The department must calculate an expedited processing fee based primarily on the proportionate quantity of water requested by each applicant and may adjust the fee if it appears that an application will require a disproportionately greater amount of time and effort to process due to its complexity. Any application fees that were paid by the applicant under RCW 90.03.470 must be credited against the applicant's share of the cost of processing applications under the provisions of this section.

(4) The expedited processing fee must be collected by the department prior to the expedited processing of an application. Revenue collected from these fees must be deposited into the water rights processing account created in section 4 of this act. An applicant who has stated in writing that he or she wants his or her application processed using the expedited procedures in this section must transmit the processing fee within twelve months after the department's issuance of decision; otherwise the fee must be processed as authorized under chapter 90.80 RCW. Such an application may not be processed through expedited processing within twelve months after the department's issuance of decisions on participating applications at the conclusion of expedited processing unless the applicant agrees to pay the full proportionate share that would otherwise have been paid during such processing. Any proceeds collected from an applicant under this delayed entry into expedited processing shall be used to reimburse the other applicants who participated in the previous expedited processing of applications, provided sufficient proceeds remain to fully cover the department's cost of processing the delayed entry application and the department's estimated administrative costs to reimburse the previously expedited applicants.

A new section is added to chapter 90.03 RCW to read as follows:

Nothing in this act affects or diminishes the processing of water right applications under any other existing authority, including but not limited to existing authority for the priority processing of applications by the department.

A new section is added to chapter 90.03 RCW to read as follows:

Section 9 of this act expires June 30, 2019.
NEW SECTION. Sec. 15. Section 10 of this act takes effect June 30, 2019.

NEW SECTION. Sec. 16. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected.

NEW SECTION. Sec. 17. A new section is added to chapter 90.03 RCW to read as follows:

The water rights processing and dam safety account is created in the state treasury. All receipts from the fees collected under RCW 90.03.470 must be deposited into the account. Moneys in the account may be spent only after appropriation. Expenditures from the account may be used only to support the processing of water right applications and change applications as provided in this chapter and chapters 90.38, 90.42, and 90.44 RCW and the safety inspection of hydraulic works and plans and specifications for such works.

Sec. 18. RCW 90.03.470 and 2005 c 412 s 2 are each amended to read as follows:

The fees specified in this section shall be collected by the department in advance of the requested action.

(1) ((For the examination of an application for a permit to appropriate water, a minimum fee of fifty dollars must be remitted with the application.

For an amount of water exceeding one-half cubic foot per second, the examination fee shall be assessed at the rate of one dollar per one hundredth cubic foot per second. In no case will the examination fee be less than fifty dollars or more than twenty-five thousand dollars. No fee is required under this subsection (1) for an application filed by a party to a cost-reimbursement agreement made under RCW 90.03.265.) For the examination of an application for a permit to appropriate water or for an application to change, transfer, or amend an existing water right, an examination fee equal to thirty-five dollars for each one-hundredth of a cubic foot per second must be remitted with the application, but in no case may the examination fee be less than one thousand dollars or more than thirty-five thousand dollars.

(2) The following fees apply for the examination of an application to store water,(a fee of two dollars for each acre foot of storage proposed shall be charged, but a minimum fee of fifty dollars must be remitted with the application. In no case will the examination fee for a storage project be less than fifty dollars or more than twenty-five thousand dollars. No fee is required under this subsection (2) for an application filed by a party to a cost-reimbursement agreement made under RCW 90.03.265) and for an application to change a storage right:

(a) For storage of less than one hundred acre feet of water, an examination fee of one thousand dollars must be remitted with the application.

(b) For storage of more than one hundred acre feet of water but less than or equal to one thousand acre feet of water, an examination fee of two thousand dollars must be remitted with the application.

(c) For storage of more than one thousand acre feet of water but less than or equal to ten thousand acre feet of water, an examination fee of seven thousand five hundred dollars must be remitted with the application.

(d) For storage of more than ten thousand acre feet of water, an examination fee of fifteen thousand dollars must be remitted with the application.

(3)(a)(i) For the examination of an application to transfer, change, or amend a water right certificate, permit, or claim as authorized by RCW 90.44.100, 90.44.105, or 90.03.380, a minimum fee of fifty dollars must be remitted with the application. For an application for change involving an amount of water exceeding one cubic foot per second, the total examination fee shall be assessed at the rate of fifty cents per one hundred cubic foot per second. For an application for change of a storage water right, the total examination fee shall be assessed at the rate of one dollar for each acre foot of water involved in the change. The fee shall be based on the amount of water subject to change as proposed in the application, not on the total amount of water reflected in the water right certificate, permit, or claim. In no case will the examination fee charged for a change application be less than fifty dollars or more than twelve thousand five hundred dollars.

(b)(i) The fee paid to the department for an application for change filed with a water conservancy board under chapter 90.80 RCW must be one-fifth of the amounts provided in subsections (1) and (2) of this section. A conservancy board may charge its own processing fees in accordance with RCW 90.80.060.

(ii) The fees in subsections (1) and (2) of this section do not apply to applicants that have entered into a cost-reimbursement agreement with the department under RCW 90.03.265.

(b) The examination fee for a temporary or seasonal change under RCW 90.03.390 is ((fifty)) two hundred dollars and must be remitted with the application.

(c) No fee is required under this subsection (3) for:

(d) For a change, transfer, or amendment involving a single project operating under more than one water right, including related secondary diversion rights, or involving the consolidation of multiple water rights, only one examination fee and one certificate fee are required to be paid.

(4) ((The fifty-dollar minimum fee payable with the application shall be a credit to the total amount whenever the examination fee totals more than fifty dollars under the schedule specified in subsections (1) through (3) of this section and in such case the further fee due shall be the total computed amount, less the amount previously paid. Within five working days from receipt of an application, the department shall notify the applicant by registered mail of any additional fees due under subsections (1) through (3) of this section.)) (a) The fee amounts specified in this section apply to applications received after the effective date of this section and to all applications that have not been acted on by the department by issuance of a report of examination as of the effective date of this section. For pending applications that were filed prior to the effective date of this section, any fees that were paid under a previous fee schedule must be credited to the amounts required by subsections (1), (2), and (3) of this section. When the department is prepared to take action on an application that was filed prior to the effective date of this section, the department shall notify the applicant that additional fees are due and give the applicant sixty days to remit the additional fees. If the applicant fails to remit the additional fees within the time provided, the department shall cancel the application and inform the applicant of the cancellation.

(b) If the department receives a water right, change, transfer, amendment, or storage application that does not include remittance of the fee amounts required by this section, the department shall return the application to the applicant with instructions on the proper fee amount to be remitted. An application does not establish a priority date until the proper fee is remitted.
The ((fee specified in subsections (1) through (3) of this section do not apply to any filings)) fee for filing an emergency withdrawal authorization(s) or temporary drought-related water right change(s) authorized under RCW 43.83B.410 that (are) is received by the department while a drought condition order issued under RCW 43.83B.405 is in effect is one hundred dollars.

For applying for each extension of time for beginning construction work under a permit to appropriate water, for completion of construction work, or for completing application of water to a beneficial use, a fee of two hundred fifty dollars is required. These fees also apply to similar extensions of time requested under a change or transfer authorization.

For the inspection of any hydraulic works to ((ensure)) ensure safety to life and property, a fee based on the actual cost of the inspection, including the expense incident thereto, is required ((except as follows: (a) For any hydraulic works less than ten years old, that the department examined and approved the construction plans and specifications as to its safety when required under RCW 90.03.350, there shall be no fee charged; or (b) for any hydraulic works more than ten years old, but less than twenty years old, that the department examined and approved the construction plans and specifications as to its safety when required under RCW 90.03.350, the fee charged shall not exceed the fee for a significant hazard dam)).

For the examination of plans and specifications as to safety of controlling works for storage of ten acre feet or more of water, a minimum fee of ((fifty))) two hundred dollars, or a fee equal to the actual cost, is required.

For recording an assignment either of a permit to appropriate water or of an application for such a permit, a fee of ((fifty))) two hundred dollars is required.

For preparing and issuing all water right certificates, a fee of ((fifty))) two hundred dollars is required.

For filing and recording a formal protest against granting any application, a fee of fifty dollars is required. No fee is required to submit a comment, by mail or otherwise, regarding an application.

For filing an application to amend a water right claim filed under chapter 90.14 RCW, a fee of ((fifty))) two hundred dollars is required.

Each person who holds a water right permit application, a reservoir permit application, or a change, transfer, or amendment application that is pending at any time between the effective date of this section and June 30, 2011, must remit a one-time fee of two hundred dollars to the department to retain an application in good standing. The department shall provide written notice by certified mail to each holder of an application for the fees that are due under this section along with the applicant's requested grant amount to the applicants that meet the qualifications established by the department in this section along with the applicant's requested grant amount to the office of financial management for consideration in the governor's budget request. The department shall maintain the application in good standing until it is able to render a final decision on the application. The final decision is subject to appeal to the pollution control hearings board as provided under chapter 43.21B RCW.

An application or request for an action as provided for under this section is incomplete unless accompanied by the fee or the minimum fee. If no fee or an amount less than the minimum fee accompanies an application or other request for an action as provided under this section, the department shall return the application or request to the applicant with advice as to the fee that must be remitted with the application or request for it to be accepted for processing. If additional fees are due, the department shall provide timely notification by certified mail with return receipt requested to the applicant. No action may be taken by the department until the fee is paid in full. Failure to remit fees within sixty days of the department's notification is grounds for rejecting the application or request or canceling the permit. Cash shall not be accepted. Fees must be paid by check or money order and are nonrefundable.

For purposes of calculating fees for groundwater filings, one cubic foot per second shall be regarded as equivalent to four hundred fifty gallons per minute.

Eighty percent of the fees collected by the department under this section shall be deposited in the state general fund. Twenty percent of the fees collected by the department under this section shall be deposited in the water rights tracking system account established in RCW 90.14.240.

Except for the fees relating to the inspection of hydraulic works and the examination of plans and specifications of controlling works provided for in subsections (7) and (8) of this section, nothing in this section is intended to grant authority to the department to amend the fees in this section by adoption of rules or otherwise.

The fees collected by the department under this section must be deposited in the water rights processing and dam safety account created in section 17 of this act.

(a) The fees specified in this section are effective until the department adopts rules that modify them in accordance with section 20 of this act, except that the fees required in subsections (7) and (8) of this section may be modified at any time.

(b) When information has been previously obtained that directly relates to the processing of an application in subsections (1) and (2) of this section, the department must proportionately reduce the fees associated with that application as a result of the reduced workload of the department.

A new section is added to chapter 90.03 RCW to read as follows:

(1) The department must establish by rule a program for the distribution of hardship grant money to assist applicants in the payment of fees required in RCW 90.03.470.

(2) The department shall submit the list of hardship applicants that meet the qualifications established by the department in this section along with the applicant's requested grant amount to the office of financial management for consideration in the governor's budget request.

(3) The department shall also provide the list of hardship applicants that meet the qualifications established by the department in this section along with the applicant's requested grant amount to the legislature by October 1st of each year.
The department may periodically adopt rules to adjust the fees established in RCW 90.03.470. Any subsequent fees adopted by rule supersedes those provided in RCW 90.03.470. Before proposing to adopt any changes to the fees, the department shall consult with the policy committees of the legislature that review water resources legislation.

NEW SECTION. Sec. 21. A new section is added to chapter 90.03 RCW to read as follows:

(1) The department shall submit a report to the legislature prior to December 31, 2012, and biennially thereafter until December 31, 2020, on the status of the backlog of applications for water right permits, the effectiveness of processing water right permit applications to a conclusion within twelve months, and the appropriateness of the fee amounts.

(2) This section expires January 1, 2021.

NEW SECTION. Sec. 22. A new section is added to chapter 90.44 RCW to read as follows:

(1) The department may not require withdrawals of groundwater to be measured or displayed under the provisions of RCW 90.44.050 to be measured prior to the effective date of this section for single or group domestic uses that do not exceed withdrawing five thousand gallons a day.

(2) This section does not apply to wells the department has required to be metered or measured as of the effective date of this section.

Correct the title.

BARBARA BAKER, Chief Clerk

MESSAGE FROM THE HOUSE

February 28, 2010

MR. PRESIDENT:
The House passed SUBSTITUTE SENATE BILL NO. 6832 with the following amendment(s): 6832-S AMH ELCS H5346.2

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature finds that, based upon the work of the child welfare transformation design committee established pursuant to 2SHB 2106 during the 2009 legislative session, several narrowly based amendments to that legislation need to be made, mainly for clarifying purposes. The legislature further finds that two deadlines need to be extended by six months, the first to allow the department of social and health services additional time to complete the conversion of its contracts to performance-based contracts and the second to allow the department additional time to gradually transfer existing cases to supervising agencies in the demonstration sites. The legislature finds that the addition of a foster youth on the child welfare transformation design committee will greatly assist the committee in its work.

The legislature recognizes that clarifying language regarding Indian tribes should be added regarding the government-to-government relationship the tribes have with the state. The legislature further recognizes that language is needed regarding the department's ability to receive federal funding based upon the recommendations made by the child welfare transformation design committee.

Sec. 2. RCW 74.13.368 and 2009 c 520 s 8 are each amended to read as follows:

(3) The plan shall include the following:
(a) A model or framework for performance-based contracts to be used by the department that clearly defines:

(vii) How to measure whether each contractor has met the goals listed in RCW 74.13.360(5); and
(viii) Incentives to meet performance outcomes;
(b) A method by which the department will substantially reduce its current number of contracts for child welfare services;

(l) A method by which to access and enhance existing data systems to include contract performance information;
(m) A financing arrangement for the contracts that examines:
(i) The use of case rates or performance-based fee-for-service contracts that include incentive payments or payment schedules that link reimbursement to outcomes; and
(ii) Ways to reduce a contractor's financial risk that could jeopardize the solvency of the contractor, including consideration of the use of a risk-reward corridor that limits risk of loss and potential profits or the establishment of a statewide risk pool;
(n) A description of how the transition will impact the state's ability to obtain federal funding and examine options to further maximize federal funding opportunities and increased flexibility;
(o) A review of whether current administrative staffing levels in the regions should be continued when the majority of child welfare services are being provided by supervising agencies;
(p) A description of the costs of the transition, the initial start-up costs and the mechanisms to periodically assess the overall adequacy of funds and the fiscal impact of the changes, and the feasibility of the plan and the impact of the plan on department employees during the transition; and
(q) Identification of any statutory and regulatory revisions necessary to accomplish the transition.

(4)(a) The committee, with the assistance of the department, shall select two demonstration sites within which to implement chapter 520, Laws of 2009. One site must be located on the eastern side of the state. The other site must be located on the western side of the state. Neither site must be wholly located in any of the department's administrative regions.
(b) The committee shall develop two sets of performance outcomes to be included in the performance-based contracts the department enters into with supervising agencies. The first set of outcomes shall be used for those cases transferred to a supervising agency over time. The second set of outcomes shall be used for new entrants to the child welfare system.
(c) The committee shall also identify methods for ensuring that comparison of performance between supervising agencies and the existing service delivery system takes into account the variation in the characteristics of the populations being served as well as historical trends in outcomes for those populations.

(5) The committee shall determine the appropriate size of the child and family populations to be provided services under performance-based contracts with supervising agencies. The committee shall also identify the time frame within which cases will be transferred to supervising agencies. The performance-based contracts entered into with supervising agencies shall encompass the provision of child welfare services to enough children and families in each demonstration site to allow for the assessment of whether there are meaningful differences, to be defined by the committee, between the outcomes achieved in the demonstration sites and the comparison sites or populations. To ensure adequate statistical power to assess these differences, the populations served shall be large enough to provide a probability greater than seventy percent that meaningful difference will be detected and a ninety-five percent probability that observed differences are not due to chance alone.

(6) The committee shall also prepare as part of the plan a recommendation as to how to implement chapter 520, Laws of 2009 so that full implementation of chapter 520, Laws of 2009 is achieved no later than (June) December 30, 2012.

(7) The committee shall prepare the plan to manage the delivery of child welfare services in a manner that achieves coordination of the services and programs that deliver primary prevention services.
(8) Beginning June 30, 2009, the committee shall report quarterly to the governor and the legislative children's oversight committee established in RCW 44.04.220. From June 30, 2012, until January 1, 2015, the committee need only report twice a year. The committee shall report on its progress in meeting its duties under subsections (2) and (3) of this section and on any other matters the committee or the legislative children's oversight committee or the governor deems appropriate. The portion of the plan required in subsection (6) of this section shall be due to the legislative children's oversight committee on or before June 1, 2010. The reports shall be in written form.

(9) The committee, by majority vote, may establish advisory committees as it deems necessary.

(10) All state executive branch agencies and the agencies with whom the department contracts for child welfare services shall cooperate with the committee and provide timely information as the chair or cochairs may request. Cooperation by the children's administration must include developing and scheduling training for supervising agencies to access data and information necessary to implement and monitor the contracts.

(11) It is expected that the administrative costs for the committee will be supported through private funds.

(12) Staff support for the committee shall be provided jointly by partners for our children and legislative staff.

(13) The committee is subject to chapters 42.30 (open public meetings act) and 42.52 (ethics in public service) RCW.

(14) This section expires July 1, 2015.

(9) "Performance-based contracting" means the structuring of all aspects of the procurement of services around the purpose of the work to be performed and the desired results with the contract requirements set forth in clear, specific, and objective terms with measurable outcomes. Contracts shall also include provisions that link the performance of the contractor to the level and timing of reimbursement.

(10) "Permanency services" means long-term services provided to secure a child's safety, permanency, and well-being, including foster care services, family reunification services, adoption services, and preparation for independent living services.

(11) "Primary prevention services" means services which are designed and delivered for the primary purpose of enhancing child and family well-being and are shown, by analysis of outcomes, to reduce the risk to the likelihood of the initial need for child welfare services.

(12) "Supervising agency" means an agency licensed by the state under RCW 74.15.090, or (ii) licensed by a federally recognized Indian tribe located in this state under RCW 74.15.190, that has entered into a performance-based contract with the department to provide case management for the delivery and documentation of child welfare services, as defined in this section.

Sec. 4. RCW 74.13.360 and 2009 c 520 s 3 are each amended to read as follows:

(1) No later than (January 1, 2011), the department shall convert its current contracts with providers of child welfare services into performance-based contracts. In accomplishing this conversion, the department shall decrease the total number of contracts it uses to purchase child welfare services from providers. The conversion of contracts for the provision of child welfare services to performance-based contracts must be done in a manner that does not adversely affect the state's ability to continue to obtain federal funding for child welfare related functions currently performed by the state and with consideration of options to further maximize federal funding opportunities and increase flexibility in the use of such funds, including use for preventive and in-home child welfare services.

(2) No later than (December 30, 2012):

(a) In the demonstration sites selected under RCW 74.13.368(4)(a), child welfare services shall be provided by supervising agencies with whom the department has entered into performance-based contracts. Supervising agencies may enter into subcontracts with other licensed agencies; and

(b) Except as provided in subsection (4) of this section, and notwithstanding any law to the contrary, the department may not directly provide child welfare services to families and children provided child welfare services by supervising agencies in the demonstration sites selected under RCW 74.13.368(4)(a).
(3) No later than (July 1) December 30, 2012, for families and children provided child welfare services by supervising agencies in the demonstration sites selected under RCW 74.13.368(4)(a), the department is responsible for only the following:
   (a) Monitoring the quality of services for which the department contracts under this chapter;
   (b) Ensuring that the services are provided in accordance with federal law and the laws of this state, including the Indian child welfare act;
   (c) Providing child protection functions and services, including intake and investigation of allegations of child abuse or neglect, emergency shelter care functions under RCW 13.34.050, and referrals to appropriate providers; and
   (d) Issuing licenses pursuant to chapter 74.15 RCW.

(4) No later than (July 1) December 30, 2012, for families and children provided child welfare services by supervising agencies in the demonstration sites selected under RCW 74.13.368(4)(a), the department may provide child welfare services only:
   (a) For the limited purpose of establishing a control or comparison group as deemed necessary by the child welfare transformation design committee, with input from the Washington state institute for public policy, to implement the demonstration sites selected and defined pursuant to RCW 74.13.368(4)(a) in which the performance in achieving measurable outcomes will be compared and evaluated pursuant to RCW 74.13.370; or
   (b) In an emergency or as a provider of last resort. The department shall adopt rules describing the circumstances under which the department may provide those services. For purposes of this section, "provider of last resort" means the department is unable to contract with a private agency to provide child welfare services in a particular geographic area or, after entering into a contract with a private agency, either the contractor or the department terminates the contract.

(5) For purposes of this chapter, on and after September 1, 2010, performance-based contracts shall be structured to hold the supervising agencies accountable for achieving the following goals in order of importance: Child safety; child permanency, including reunification; and child well-being.

(6) A federally recognized tribe located in this state may enter into a performance-based contract with the department to provide child welfare services to Indian children whether or not they reside on a reservation. Nothing in this section prohibits a federally recognized Indian tribe located in this state from providing child welfare services to its members or other Indian children pursuant to existing tribal law, regulation, or custom, or from directly entering into agreements for the provision of such services with the department, if the department continues to otherwise provide such services, or with federal agencies.

Sec. 5. RCW 74.13.364 and 2009 c 520 s 5 are each amended to read as follows:

Children whose cases are managed by a supervising agency as defined in RCW 74.13.020 remain under the care and placement authority of the state. The child welfare transformation design committee, in selecting demonstration sites for the provision of child welfare services under RCW 74.13.368(4), shall maintain the placement and care authority of the state over children receiving child welfare services at a level that does not adversely affect the state's ability to continue to obtain federal funding for child welfare related functions currently performed by the state and with consideration of options to further maximize federal funding opportunities and increase flexibility in the use of such funds, including use for preventive and in-home child welfare services.

Sec. 6. RCW 74.13.366 and 2009 c 520 s 6 are each amended to read as follows:

(Performance-based contracts with private nonprofit entities who otherwise meet the definition of supervising agency shall receive primary preference. This section does not apply to Indian tribes.) For the purposes of the provision of child welfare services by supervising agencies under this act, the department shall give primary preference for performance-based contracts to private nonprofit entities, including federally recognized Indian tribes located in this state, who otherwise meet the definition of supervising agency under RCW 74.13.020. In any continuation or expansion of delivery of child welfare services purchased through the use of performance-based contracts under the provisions of RCW 74.13.372, when all other elements of the bids are equal, private nonprofit entities, federally recognized Indian tribes located in this state, and state employees shall receive primary preference over private for profit entities."

Sec. 2. RCW 48.43.035 and 2004 c 244 s 4 are each amended to read as follows:

For group health benefit plans, the following shall apply:

(1) All health carriers shall accept for enrollment any state resident within the group to whom the plan is offered and within the carrier's service area and provide or assure the provision of all covered services regardless of age, sex, family structure, ethnicity, race, health condition, geographic location, employment status, socioeconomic status, other condition or situation, or the provisions of RCW 49.60.174(2). The insurance commissioner may grant a temporary exemption from this subsection, if, upon application by a health carrier the commissioner finds that the clinical, financial, or administrative capacity to serve existing enrollees will be impaired if a health carrier is required to continue enrollment of additional eligible individuals.

(2) Except as provided in subsection (5) of this section, all health plans shall contain or incorporate by endorsement a guarantee of the continuity of coverage of the plan. For the purposes of this section, a plan is "renewed" when it is continued beyond the earliest date upon which, at the carrier's sole option, the plan could have been terminated for other than nonpayment of premium. The carrier may consider the group's anniversary date as the renewal date for purposes of complying with the provisions of this section.

(3) The guarantee of continuity of coverage required in health plans shall not prevent a carrier from canceling or nonrenewing a health plan for:

(a) Nonpayment of premium;
(b) Violation of published policies of the carrier approved by the insurance commissioner;
(c) Covered persons entitled to become eligible for medicare benefits by reason of age who fail to apply for a medicare supplement plan or medicare cost, risk, or other plan offered by the carrier pursuant to federal laws and regulations;
(d) Covered persons who fail to pay any deductible or copayment amount owed to the carrier and not the provider of health care services;
(e) Covered persons committing fraudulent acts as to the carrier;
(f) Covered persons who materially breach the health plan; or
(g) Change or implementation of federal or state laws that no longer permit the continued offering of such coverage.

(4) The provisions of this section do not apply in the following cases:

(a) A carrier has zero enrollment on a product;
(b) A carrier replaces a product and the replacement product is provided to all covered persons within that class or line of business, includes all of the services covered under the replaced product, and does not significantly limit access to the kind of services covered under the replaced product. The health plan may also allow unrestricted conversion to a fully comparable product;
(c) No sooner than January 1, 2005, a carrier discontinues offering a particular type of health benefit plan offered for groups of up to two hundred if: (i) The carrier provides notice to each group of the discontinuation at least ninety days prior to the date of the discontinuation; (ii) the carrier offers to each group provided coverage of this type the option to enroll, with regard to small employer groups, in any other small employer group plan, or with regard to groups of up to two hundred, in any other applicable group plan, currently being offered by the carrier in the applicable group market; and (iii) in exercising the option to discontinue coverage of this type and in offering the option of coverage under (c)(ii) of this subsection, the carrier acts uniformly without regard to any health status-related factor of enrolled individuals or individuals who may become eligible for this coverage;
(d) A carrier discontinues offering all health coverage in the small group market or for groups of up to two hundred, or both markets, in the state and discontinues coverage under all existing group health benefit plans in the applicable market involved if: (i) The carrier provides notice to the commissioner of its intent to discontinue offering all such coverage in the state and its intent to discontinue coverage under all such existing health benefit plans at least one hundred eighty days prior to the date of the discontinuation of coverage under all such existing health benefit plans; and (ii) the carrier provides notice to each covered group of the intent to discontinue the existing health benefit plan at least one hundred eighty days prior to the date of discontinuation. In the case of discontinuation under this subsection, the carrier may not issue any group health coverage in this state in the applicable group market involved for a five-year period beginning on the date of the discontinuation of the last health benefit plan not so renewed. This subsection (4) does not require a carrier to provide notice to the commissioner of its intent to discontinue offering a health benefit plan to new applicants when the carrier does not discontinue coverage of existing enrollees under that health benefit plan; or
(e) A carrier is withdrawing from a service area or from a segment of its service area because the carrier has demonstrated to the insurance commissioner that the carrier's clinical, financial, or administrative capacity to serve enrollees would be exceeded.

(5) The provisions of this section do not apply to health plans deemed by the insurance commissioner to be unique or limited or have a short-term purpose, after a written request for such classification by the carrier and subsequent written approval by the insurance commissioner.

((6) Notwithstanding any other provision of this section, the guarantee of continuity of coverage applies to a group of one only if:
(a) The carrier continues to offer any other small employer group plan in which the group of one was eligible to enroll on the day prior to June 10, 2004; and (b) the person continues to qualify as a group of one under the criteria in place on the day prior to June 10, 2004.))

"Health care service contractor" does not include direct
patient-provider primary care practices as defined in RCW 48.150.010.

(4) "Participating provider" means a provider, who or which has contracted in writing with a health care service contractor to accept payment from and to look solely to such contractor according to the terms of the subscriber contract for any health care services rendered to a person who has previously paid, or on whose behalf prepayment has been made, to such contractor for such services.

The term does not include expenditures for covered services when a provider has agreed not to bill the enrolled participant even though the provider is not paid by the health care service contractor, or for services that are guaranteed, insured or assumed by a person or organization other than the health care service contractor.

(8) "Copayment" means an amount specified in a group or individual contract which is an obligation of an enrolled participant for a specific service which is not fully prepaid.

(9) "Deductible" means the amount an enrolled participant is responsible to pay before the health care service contractor begins to pay the costs associated with treatment.

(16) "Net worth" means the excess of total admitted assets as defined in RCW 48.12.010 over total liabilities but the liabilities shall not include fully subordinated debt.

(17) "Census date" means the date upon which a health care services contractor offering coverage to a small employer must base rate calculations. For a small employer applying for a health benefit plan through a contractor other than its current contractor, the census date is the date that final group composition is received by the contractor. For a small employer that is renewing its health benefit plan through its existing contractor, the census date is ninety days prior to the effective date of the renewal.

Sec. 4. RCW 48.44.023 and 2009 c 131 s 2 are each amended to read as follows:

(1)(a) A health care services contractor offering any health benefit plan to a small employer, either directly or through an association or member-governed group formed specifically for the purpose of purchasing health care, may offer and actively market to the small employer a health benefit plan featuring a limited schedule of covered health care services. Nothing in this subsection shall preclude a contractor from offering, or a small employer from purchasing, other health benefit plans that may have more comprehensive benefits than those included in the product offered under this subsection. A contractor offering a health benefit plan under this subsection shall clearly disclose all covered benefits to the small employer in a brochure filed with the commissioner.

(b) A health benefit plan offered under this subsection shall provide coverage for hospital expenses and services rendered by a physician licensed under chapter 18.57 or 18.71 RCW but is not subject to the requirements of RCW 48.44.225, 48.44.240, 48.44.245, 48.44.290, 48.44.300, 48.44.310, 48.44.320, 48.44.325, 48.44.330, 48.44.335, 48.44.344, 48.44.360, 48.44.400, 48.44.440, 48.44.450, and 48.44.460.

(2) Nothing in this section shall prohibit a health care service contractor from offering, or a purchaser from seeking, health benefit plans with benefits in excess of the health benefit plan offered under subsection (1) of this section. All forms, policies, and contracts shall be submitted for approval to the commissioner, and the rates of any plan offered under this section shall be reasonable in relation to the benefits thereto.

(3) Premium rates for health benefit plans for small employers as defined in this section shall be subject to the following provisions:

(a) The contractor shall develop its rates based on an adjusted community rate and may only vary the adjusted community rate for:

(i) Geographic area;

(ii) Family size;

(iii) Age; and

(iv) Wellness activities.

(b) The adjustment for age in (a)(iii) of this subsection may not use age brackets smaller than five-year increments, which shall begin with age twenty and end with age sixty-five. Employees under the age of twenty shall be treated as those age twenty.

(c) The contractor shall be permitted to develop separate rates for individuals age sixty-five or older for coverage for which medicare is the primary payer and coverage for which medicare is not the primary payer. Both rates shall be subject to the requirements of this subsection (3).

(d) The permitted rates for any age group shall be no more than four hundred twenty-five percent of the lowest rate for all age groups on January 1, 1996, four hundred percent on January 1, 1997, and three hundred seventy-five percent on January 1, 2000, and thereafter.

(e) A discount for wellness activities shall be permitted to reflect actuarily justified differences in utilization or cost attributed to such programs. Up to a twenty percent variance may be allowed for small employers that develop and implement a wellness program or activities that directly improve employee wellness. Employers shall document program activities with the carrier and may, after three years of implementation, request a reduction in premiums based on improved employee health and wellness. While carriers may review the employer's claim history when making a determination regarding whether the employer's wellness program has improved employee health, the carrier may not use maternity or prevention services claims to deny the employer's request. Carriers may consider issues such as improved productivity or a reduction in absenteeism due to illness if submitted by the employer for consideration. Interested employers may also work with the carrier to develop a wellness program and a means to track improved employee health.

(f) The rate charged for a health benefit plan offered under this section may not be adjusted more frequently than annually except that the premium may be changed to reflect:

(i) Changes to the enrollment of the small employer;

(ii) Changes to the family composition of the employee;
(iii) Changes to the health benefit plan requested by the small employer; or
(iv) Changes in government requirements affecting the health benefit plan.

(g) On the census date, as defined in RCW 48.44.010, rating factors shall produce premiums for identical groups that differ only by the amounts attributable to plan design, and differences in census date between new and renewal groups, with the exception of discounts for health improvement programs.

(h) For the purposes of this section, a health benefit plan that contains a restricted network provision shall not be considered similar coverage to a health benefit plan that does not contain such a provision, provided that the restrictions of benefits to network providers result in substantial differences in claims costs. A carrier may develop its rates based on claims costs due to network provider reimbursement schedules or type of network. This subsection does not restrict or enhance the portability of benefits as provided in RCW 48.43.015.

(i) Adjusted community rates established under this section shall pool the medical experience of all groups purchasing coverage, including the small group participants in the health insurance partnership established in RCW 70.47A.030. However, annual rate adjustments for each small group health benefit plan may vary by up to plus or minus four percentage points from the overall adjustment of a carrier's entire small group pool, such overall adjustment to be approved by the commissioner, upon a showing by the carrier, certified by a member of the American academy of actuaries that: (i) The variation is a result of deductible leverage, benefit design, or provider network characteristics; and (ii) for a rate renewal period, the projected weighted average of all small group benefit plans will have a revenue neutral effect on the carrier's small group pool. Variations of greater than four percentage points are subject to review by the commissioner, and must be approved or denied within sixty days of submittal. A variation that is not denied within sixty days shall be deemed approved. The commissioner must provide to the carrier a detailed actuarial justification for any denial within thirty days of the denial.

(j) For health benefit plans purchased through the health insurance partnership established in chapter 70.47A RCW:
(i) Any surcharge established pursuant to RCW 70.47A.030(2)(e) shall be applied only to health benefit plans purchased through the health insurance partnership; and
(ii) Risk adjustment or reinsurance mechanisms may be used by the health insurance partnership program to redistribute funds to carriers participating in the health insurance partnership based on differences in risk attributable to individual choice of health plans or other factors unique to health insurance partnership participation. Use of such mechanisms shall be limited to the partnership program and will not affect small group health plans offered outside the partnership.

(k) If the rate developed under this section varies the adjusted community rate for the factors listed in (a) of this subsection, the date for determining those factors must be no more than ninety days prior to the effective date of the health benefit plan.

(4) Nothing in this section shall restrict the right of employees to collectively bargain for insurance providing benefits in excess of those provided herein.

(5)(a) Except as provided in this subsection and subsection (3)(e) of this section, requirements used by a contractor in determining whether to provide coverage to a small employer shall be applied uniformly among all small employers applying for coverage or receiving coverage from the carrier.

(b) A contractor shall not require a minimum participation level greater than:

(i) One hundred percent of eligible employees working for groups with three or less employees; and
(ii) Seventy-five percent of eligible employees working for groups with more than three employees.

(c) In applying minimum participation requirements with respect to a small employer, a small employer shall not consider employees or dependents who have similar existing coverage in determining whether the applicable percentage of participation is met.

(d) A contractor may not increase any requirement for minimum employee participation or modify any requirement for minimum employer contribution applicable to a small employer at any time after the small employer has been accepted for coverage.

(e) Minimum participation requirements and employer premium contribution requirements adopted by the health insurance partnership board under RCW 70.47A.110 shall apply only to the employers and employees who purchase health benefit plans through the health insurance partnership.

(f) A contractor must offer coverage to all eligible employees of a small employer and their dependents. A contractor may not offer coverage to only certain individuals or dependents in a small employer group or to only part of the group. A contractor may not modify a health plan with respect to a small employer or any eligible employee or dependent, through riders, endorsements or otherwise, to restrict or exclude coverage or benefits for specific diseases, medical conditions, or services otherwise covered by the plan.

A discount for wellness activities shall be permitted to reflect actuarially justified differences in utilization or cost attributed to such programs. Up to a twenty percent variance may be allowed for small employers that develop and implement a wellness program or activities that directly improve employee wellness. Employers shall document program activities with the carrier and may, after three years of implementation, request a reduction in premiums based on improved employee health and wellness. While carriers may review the employer's claim history when making a determination regarding whether the employer's wellness program has improved employee health, the carrier may not use maternity or prevention services claims to deny the employer's request. Carriers may consider issues such as improved productivity or a reduction in absenteeism due to illness if submitted by the employer for consideration. Interested employers may also work with the carrier to develop a wellness program and a means to track improved employee health.

The rate charged for a health benefit plan offered under this section may not be adjusted more frequently than annually except that the premium may be changed to reflect:

(i) Changes to the enrollment of the small employer;
(ii) Changes to the family composition of the employee;
(iii) Changes to the health benefit plan requested by the small employer;
(iv) Changes in government requirements affecting the health benefit plan.

On the census date, as defined in RCW 48.46.020, rating factors shall produce premiums for identical groups that differ only by the amounts attributable to plan design, and differences in census date between new and renewal groups, with the exception of discounts for health improvement programs.

For the purposes of this section, a health benefit plan that contains a restricted network provision shall not be considered similar coverage to a health benefit plan that does not contain such a provision, provided that the restrictions of benefits to network providers result in substantial differences in claims costs. A carrier may develop its rates based on claims costs due to network provider reimbursement schedules or type of network. This subsection does not restrict or enhance the portability of benefits as provided in RCW 48.43.015.

Adjusted community rates established under this section shall pool the medical experience of all groups purchasing coverage, including the small group participants in the health insurance partnership established in chapter 70.47A RCW. However, annual rate adjustments for each small group health benefit plan may vary by up to plus or minus four percentage points from the overall adjustment of a carrier's entire small group pool, such overall adjustment to be approved by the commissioner, upon a showing by the carrier, certified by a member of the American Academy of actuaries that:

(i) The variation is a result of deductible leverage, benefit design, or provider network characteristics; and
(ii) For a rate renewal period, the projected weighted average of all small group benefit plans will have a revenue neutral effect on the carrier's small group pool. Variations of greater than four percentage points are subject to review by the commissioner, and must be approved or denied within sixty days of submittal. A variation that is not denied within sixty days shall be deemed approved. The commissioner must provide to the carrier a detailed actuarial justification for any denial within thirty days of the denial.

For health benefit plans purchased through the health insurance partnership established in chapter 70.47A RCW:

(i) Any surcharge established pursuant to RCW 70.47A.030(2)(e) shall be applied only to health benefit plans purchased through the health insurance partnership; and
(ii) Risk adjustment or reinsurance mechanisms may be used by the health insurance partnership program to redistribute funds to carriers participating in the health insurance partnership based on differences in risk attributable to individual choice of health plans or other factors unique to health insurance partnership participation. Use of such mechanisms shall be limited to the partnership program and will not affect small group health plans offered outside the partnership.

If the rate developed under this section varies the adjusted community rate for the factors listed in (a) of this subsection, the date for determining those factors must be no more than ninety days prior to the effective date of the health benefit plan.

Nothing in this section shall restrict the right of employees to collectively bargain for insurance providing benefits in excess of those provided herein.

Except as provided in this subsection and subsection (3)(g) of this section, requirements used by a health maintenance organization in determining whether to provide coverage to a small employer shall be applied uniformly among all small employers applying for coverage or receiving coverage from the carrier.

A health maintenance organization shall not require a minimum participation level greater than:

(i) One hundred percent of eligible employees working for groups with three or less employees; and
(ii) Seventy-five percent of eligible employees working for groups with more than three employees.

In applying minimum participation requirements with respect to a small employer, a small employer shall not consider employees or dependents who have similar existing coverage in determining whether the applicable percentage of participation is met.

A health maintenance organization may not increase any requirement for minimum employee participation or modify any requirement for minimum employer contribution applicable to a small employer at any time after the small employer has been accepted for coverage.

Minimum participation requirements and employer premium contribution requirements adopted by the health insurance partnership board under RCW 70.47A.110 shall apply only to the employers and employees who purchase health benefit plans through the health insurance partnership.

A health maintenance organization must offer coverage to all eligible employees of a small employer and their dependents. A health maintenance organization may not offer coverage to only certain individuals or dependents in a small employer group or to only part of the group. A health maintenance organization may not modify a health plan with respect to a small employer or any eligible employee or dependent, through riders, endorsements or otherwise, to restrict or exclude coverage or benefits for specific diseases, medical conditions, or services otherwise covered by the plan.

Sec. 7. RCW 48.21.045 and 2009 c 131 s 1 are each amended to read as follows:

1(a) An insurer offering any health benefit plan to a small employer, either directly or through an association or member-governed group formed specifically for the purpose of purchasing health care, may offer and actively market to the small employer a health benefit plan featuring a limited schedule of covered health care services. Nothing in this subsection shall preclude an insurer from offering, or a small employer from purchasing, other health benefit plans that may have more comprehensive benefits than those included in the product offered under this subsection. An insurer offering a health benefit plan...
under this subsection shall clearly disclose all covered benefits to the
small employer in a brochure filed with the commissioner.

(b) A health benefit plan offered under this subsection shall
provide coverage for hospital expenses and services rendered by a
physician licensed under chapter 18.57 or 18.71 RCW but is not
subject to the requirements of RCW 48.21.130, 48.21.140,

(2) Nothing in this section shall prohibit an insurer from
offering, or a purchaser from seeking, health benefit plans with
benefits in excess of the health benefit plan offered under subsection
(1) of this section. All forms, policies, and contracts shall be
submitted for approval to the commissioner, and the rates of any
plan offered under this section shall be reasonable in relation to the
benefits thereto.

(3) Premium rates for health benefit plans for small employers
as defined in this section shall be subject to the following provisions:
(a) The insurer shall develop its rates based on an adjusted
community rate and may only vary the adjusted community rate for:
(i) Geographic area;
(ii) Family size;
(iii) Age; and
(iv) Wellness activities.
(b) The adjustment for age in (a)(iii) of this subsection may not
use age brackets smaller than five-year increments, which shall
begin with age twenty and end with age sixty-five. Employees
under the age of twenty shall be treated as those age twenty.
(c) The insurer shall be permitted to develop separate rates for
individuals age sixty-five or older for coverage for which medicare
is the primary payer and coverage for which medicare is not the
primary payer. Both rates shall be subject to the requirements of
this subsection (3).
(d) The permitted rates for any age group shall be no more than
four hundred twenty-five percent of the lowest rate for all age
groups on January 1, 1996, four hundred percent on January 1,
1997, and three hundred seventy-five percent on January 1, 2000,
and thereafter.
(e) A discount for wellness activities shall be permitted to reflect
actuarially justified differences in utilization or cost attributed to
such programs. Up to a twenty percent variance may be allowed
for small employers that develop and implement a wellness program
or activities that directly improve employee wellness. Employers
shall document program activities with the carrier and may, after
three years of implementation, request a reduction in premiums
based on improved employee health and wellness. While carriers
may review the employer's claim history when making a
determination regarding whether the employer's wellness program
has improved employee health, the carrier may not use maternity or
prevention services claims to deny the employer's request. Carriers
may consider issues such as improved productivity or a reduction in
absenteeism due to illness if submitted by the employer for
consideration. Interested employers may also work with the carrier
to develop a wellness program and a means to track improved
employee health.
(f) The rate charged for a health benefit plan offered under this
section may not be adjusted more frequently than annually except
that the premium may be changed to reflect:
(i) Changes to the enrollment of the small employer;
(ii) Changes to the family composition of the employee;
(iii) Changes to the health benefit plan requested by the small
employer; or
(iv) Changes in government requirements affecting the health
benefit plan.

(g) On the census date, as defined in RCW 48.21.047, rating
factors shall produce premiums for identical groups that differ only
by the amounts attributable to plan design, and differences in census
date between new and renewal groups, with the exception of
discounts for health improvement programs.

(h) For the purposes of this section, a health benefit plan that
contains a restricted network provision shall not be considered
similar coverage to a health benefit plan that does not contain such
a provision, provided that the restrictions of benefits to network
providers result in substantial differences in claims costs. A carrier
may develop its rates based on claims costs due to network provider
reimbursement schedules or type of network. This subsection does
not restrict or enhance the portability of benefits as provided in
RCW 48.43.015.

(i) Adjusted community rates established under this section shall
pool the medical experience of all small groups purchasing
coverage, including the small group participants in the health
insurance partnership established in RCW 70.47A.030. However,
natural rate adjustments for each small group health benefit plan
may vary by up to plus or minus four percentage points from the
overall adjustment of a carrier's entire small group pool, such overall
adjustment to be approved by the commissioner, upon a showing by
the carrier, certified by a member of the American academy of
actuaries that: (i) The variation is a result of deductible leverage,
benefit design, or provider network characteristics; and (ii) for a rate
renewal period, the projected weighted average of all small group
benefit plans will have a revenue neutral effect on the carrier's small
group pool. Variations of greater than four percentage points are
subject to review by the commissioner, and must be approved or
denied within sixty days of submittal. A variation that is not denied
within sixty days shall be deemed approved. The commissioner
must provide to the carrier a detailed actuarial justification for any
denial within thirty days of the denial.

(j) For health benefit plans purchased through the health
insurance partnership established in chapter 70.47A RCW:
(i) Any surcharge established pursuant to RCW
70.47A.030(2)(c) shall be applied only to health benefit plans
purchased through the health insurance partnership; and
(ii) Risk adjustment or reinsurance mechanisms may be used by
the health insurance partnership program to redistribute funds to
carriers participating in the health insurance partnership based on
differences in risk attributable to individual choice of health plans or
other factors unique to health insurance partnership participation.
Use of such mechanisms shall be limited to the partnership program
and will not affect small group health plans offered outside the
partnership.
(k) If the rate developed under this section varies the adjusted
community rate for the factors listed in (a) of this subsection, the
date for determining those factors must be no more than ninety days
prior to the effective date of the health benefit plan.

(4) Nothing in this section shall restrict the right of employees to
collectively bargain for insurance providing benefits in excess of
those provided herein.

(5)(a) Except as provided in this subsection and subsection
(3)(g) of this section, requirements used by an insurer in determining
whether to provide coverage to a small employer shall be applied
uniformly among all small employers applying for coverage or
receiving coverage from the carrier.
(b) An insurer shall not require a minimum participation level
greater than:
(i) One hundred percent of eligible employees working for
groups with three or less employees; and
(ii) Seventy-five percent of eligible employees working for
groups with more than three employees.

MESSAGE FROM THE HOUSE

March 8, 2010

MR. PRESIDENT:
The House refuses to concur in the Senate amendment(s) to ENGROSSED SUBSTITUTE HOUSE BILL NO. 2424 and asks the Senate to recede therefrom.
and the same is herewith transmitted.

BARBARA BAKER, Chief Clerk

MOTION

Senator Kline moved that the Senate recede from its position in the Senate amendment(s) to Engrossed Substitute House Bill No. 2424.
The President declared the question before the Senate to be motion by Senator Kline that the Senate recede from its position in the Senate amendment(s) to Engrossed Substitute House Bill No. 2424 by voice vote.

MOTION

On motion of Senator Kline, the rules were suspended and Engrossed Substitute House Bill No. 2424 was returned to second reading for the purposes of amendment.

SECOND READING

ENGROSSED SUBSTITUTE HOUSE BILL NO. 2424, by House Committee on Public Safety & Emergency Preparedness (originally sponsored by Representatives O’Brien, Pearson, Hurst, Takko, Herrera, Chandler, Ross, Rodne, Dammeyer, Condotta, Shea, Klippert, Smith, Walsh, Parker, McCune, Campbell, Johnson, Eddy, Morell, Kelley, Short, Sullivan, Conway, Kagi, Roach, Kristiansen, Bailey, Haler, Schmick, Ericks, Warnick, Ormsby, Moeller and Hope)

Protecting children from sexual exploitation and abuse.
The measure was read the second time.

MOTION

Senator Kline moved that the following striking amendment by Senator Kline and others be adopted:

Strike everything after the enacting clause and insert the following:

"Sec. 1. RCW 9.68A.001 and 2007 c 368 s 1 are each amended to read as follows:

The legislature finds that the prevention of sexual exploitation and abuse of children constitutes a government objective of surpassing importance. The care of children is a sacred trust and should not be abused by those who seek commercial gain or personal gratification based on the exploitation of children. The legislature further finds that the protection of children from sexual exploitation can be accomplished without infringing on a constitutionally protected activity. The definition of "sexually explicit conduct" and other operative definitions demarcate a line between protected and prohibited conduct and should not inhibit legitimate scientific, medical, or educational activities. The legislature further finds that children engaged in sexual conduct for financial compensation are frequently the victims of sexual abuse. Approximately eighty to ninety percent of children engaged in sexual activity for financial compensation have a history of sexual abuse victimization. It is the intent of the legislature to encourage these children to engage in prevention and intervention services and to hold those who pay to engage in the sexual abuse of children accountable for the trauma they inflict on children.

The legislature further finds that due to the changing nature of technology, offenders are now able to access child pornography in different ways and in increasing quantities. By amending current statutes governing depictions of a minor engaged in sexually explicit conduct, it is the intent of the legislature to ensure that intentional viewing of and dealing in child pornography over the internet is subject to a criminal penalty without limiting the scope of existing prohibitions on the possession of or dealing in child pornography, including the possession of electronic depictions of a minor engaged in sexually explicit conduct. It is also the intent of the legislature to clarify, in response to State v. Sutherby, 204 P.3d 916 (2009), the unit of prosecution for the statutes governing
possession of and dealing in depictions of a minor engaged in sexually explicit conduct. It is the intent of the legislature that the first degree offenses under RCW 9.68A.050, 9.68A.060, and 9.68A.070 have a per depiction or image unit of prosecution, while the second degree offenses under RCW 9.68A.050, 9.68A.060, and 9.68A.070 have a per incident unit of prosecution as established in State v. Satherby, 204 P.3d 916 (2009). Furthermore, it is the intent of the legislature to set a different unit of prosecution for the new offense of viewing of depictions of a minor engaged in sexually explicit conduct such that each separate session of intentionally viewing over the internet of visual depictions or images of a minor engaged in sexually explicit conduct constitutes a separate offense.

NEW SECTION. Sec. 2. A new section is added to chapter 9.68A RCW to read as follows:

This chapter does not apply to lawful conduct between spouses.

Sec. 3. RCW 9.68A.011 and 2002 c 70 s 1 are each amended to read as follows:

Unless the context clearly indicates otherwise, the definitions in this section apply throughout this chapter.

(1) An “internet session” means a period of time during which an internet user, using a specific internet protocol address, visits or is logged into an internet site for an uninterrupted period of time.

(2) To “photograph” means to make a print, negative, slide, digital image, motion picture, or videotape. A “photograph” means anything tangible or intangible produced by photographing.

((2))) ((5)) “Visual or printed matter” means any photograph or other material that contains a reproduction of a photograph.

((4))) ((4)) “Sexually explicit conduct” means actual or simulated:

Theft of Rental, Leased, or Lease-purchased Property (valued at one thousand five hundred dollars or more) (RCW 9A.56.096(5)(a))
Theft with the Intent to Resell 2 (RCW 9A.56.083)
SEC. 10. RCW 9.94A.535 and 2008 c 276 s 303 and 2008 c 233 s 9 are each reenacted and amended to read as follows:

The court may impose a sentence outside the standard sentence range for an offense if it finds, considering the purpose of this chapter, that there are substantial and compelling reasons justifying an exceptional sentence. Facts supporting aggravated sentences, other than the fact of a prior conviction, shall be determined pursuant to the provisions of RCW 9.94A.537.

Whenever a sentence outside the standard sentence range is imposed, the court shall set forth the reasons for its decision in written findings of fact and conclusions of law. A sentence outside the standard sentence range shall be a determinate sentence.

If the sentencing court finds that an exceptional sentence outside the standard sentence range should be imposed, the sentence is subject to review only as provided for in RCW 9.94A.585(4).

A departure from the standards in RCW 9.94A.589 (1) and (2) governing whether sentences are to be served consecutively or concurrently is an exceptional sentence subject to the limitations in this section, and may be appealed by the offender or the state as set forth in RCW 9.94A.585 (2) through (6).

(1) Mitigating Circumstances - Court to Consider

The court may impose an exceptional sentence below the standard range if it finds that mitigating circumstances are established by a preponderance of the evidence. The following are illustrative only and are not intended to be exclusive reasons for exceptional sentences.

(a) To a significant degree, the victim was an initiator, willing participant, aggressor, or provoker of the incident.

(b) Before detection, the defendant compensated, or made a good faith effort to compensate, the victim of the criminal conduct for any damage or injury sustained.

(c) The defendant committed the crime under duress, coercion, threat, or compulsion insufficient to constitute a complete defense but which significantly affected his or her conduct.

(d) The defendant, with no apparent predisposition to do so, was induced by others to participate in the crime.

(e) The defendant's capacity to appreciate the wrongfulness of his or her conduct, or to conform his or her conduct to the requirements of the law, was significantly impaired. Voluntary use of drugs or alcohol is excluded.

(f) The offense was principally accomplished by another person and the defendant manifested extreme caution or sincere concern for the safety or well-being of the victim.

(g) The operation of the multiple offense policy of RCW 9.94A.589 results in a presumptive sentence that is clearly excessive in light of the purpose of this chapter, as expressed in RCW 9.94A.010.

(h) The defendant or the defendant's children suffered a continuing pattern of physical or sexual abuse by the victim of the offense and the offense is a response to that abuse.

(2) Aggravating Circumstances - Considered and Imposed by the Court

The trial court may impose an aggravated exceptional sentence without a finding of fact by a jury under the following circumstances:

(a) The defendant and the state both stipulate that justice is best served by the imposition of an exceptional sentence outside the standard range, and the court finds the exceptional sentence to be consistent with and in furtherance of the interests of justice and the purposes of the sentencing reform act.

(b) The defendant's prior unscored misdemeanor or prior unscored foreign criminal history results in a presumptive sentence that is clearly too lenient in light of the purpose of this chapter, as expressed in RCW 9.94A.010.

(c) The defendant has committed multiple current offenses and the defendant's high offender score results in some of the current offenses going unpunished.
The failure to consider the defendant's prior criminal history which was omitted from the offender score calculation pursuant to RCW 9.94A.525 results in a presumptive sentence that is clearly too lenient.

3 Aggravating Circumstances - Considered by a Jury

- Imposed by the Court

Except for circumstances listed in subsection (2) of this section, the following circumstances are an exclusive list of factors that can support a sentence above the standard range. Such facts should be determined by procedures specified in RCW 9.94A.537.

(x) The defendant committed the offense against a public official or officer of the court in retaliation of the public official's performance of his or her duty to the criminal justice system.

(z)(i)(A) The current offense is theft in the first degree, theft in the second degree, possession of stolen property in the first degree, or possession of stolen property in the second degree; (B) the stolen property involved is metal property; and (C) the property damage to the victim caused in the course of the theft of metal property is more than three times the value of the stolen metal property, or the theft of the metal property creates a public hazard.

(ii) For purposes of this subsection, "metal property" means commercial metal property, private metal property, or nonferrous metal property, as defined in RCW 19.290.010.

(c) The determination of a defendant's criminal history is distinct from the determination of an offender score. A prior conviction that was not included in an offender score calculated pursuant to a former version of the sentencing reform act remains part of the defendant's criminal history.

(12) "Criminal street gang" means any ongoing organization, association, or group of three or more persons, whether formal or informal, having a common name or common identifying sign or symbol, having as one of its primary activities the commission of criminal acts, and whose members or associates individually or collectively engage in or have engaged in a pattern of criminal gang activity. (4) When an inmate who is subject to a child support order receives funds from an inheritance, the deduction required under subsection (2)(e) of this section shall only apply after the child support obligation has been paid in full.

(5) The amount deducted from an inmate's funds under subsection (2) of this section shall not exceed the department's total cost of incarceration for the inmate incurred during the inmate's minimum or actual term of confinement, whichever is longer.

(6)(a) The deductions required under subsection (2) of this section shall not apply to funds received by the department from an offender or from a third party on behalf of an offender for payment of education or vocational programs or postsecondary education degree programs as provided in RCW 72.09.460 and 72.09.465.

(b) The deductions required under subsection (2) of this section shall not apply to funds received by the department from a third party, including but not limited to a nonprofit entity on behalf of the department's education, vocation, or postsecondary education degree programs.

(7) The deductions required under subsection (2) of this section shall not apply to any money received by the department, on behalf of an inmate, from family or other outside sources for the payment of postage expenses. Money received under this subsection may only be used for the payment of postage expenses and may not be transferred to any other account or purpose. SECOND READING

SUBSTITUTE HOUSE BILL NO. 2745, by House Committee on Environmental Health (originally sponsored by Representatives Hudgins, Campbell and Upthegrove)

Concerning compliance with the environmental protection agency's renovation, repair, and painting rule in the lead-based paint program.

The measure was read the second time.

MOTION

On motion of Senator Rockefeller, the rules were suspended, Substitute House Bill No. 2745 was advanced to third reading, the second reading considered the third and the bill was placed on final passage.

Senators Rockefeller, Marr and Franklin spoke in favor of passage of the bill.

Senators Hargrove and Benton spoke against passage of the bill.

MOTION

On motion of Senator Brandland, Senators Roach and Zarelli were excused.

POINT OF INQUIRY

Senator Franklin: “Would Senator Rockefeller yield to a question? Thank you Senator. Under the provisions of the bill are volunteers required to be certified?”

Senator Rockefeller: “Mr. President, would be happy to respond. Let me begin by pointing out that the law of the state under which we took the delegation of authority from EPA requires that our program and rules be equal to but not in excess of federal requirements as set forth in the federal residential lead-based paint hazard reduction act. So, that’s our base line. According to the federal rules with which we must be consistent these provisions apply only to persons who are compensated for renovating homes and child care facilities built before 1978. So, while the gentlemen who have been concerned don’t see language in this bill that is not the issue. Because the language of
FIFTY NINTH DAY, MARCH 10, 2010

our law must be consistent with and not an excess of the federal requirements that we can answer with confidence that no volunteer is required to be certified as a renovator so volunteers are free, Senator Franklin. Unless specifically authorized to be more stringent, our state program must continue to be consistent with those federal rules and regulations and we have not authorized our program to be more stringent.”

Senator Marr again spoke in favor of passage of the bill.

Senator Hargrove again spoke against passage of the bill.

Senators King, Schoesler and Becker spoke against passage of the bill.

Senators Gordon and Hobbs spoke in favor of passage of the bill.

POINT OF INQUIRY

Senator Roach: “Would Senator Rockefeller yield to a question? So, thank you for yielding. So, the question I have is if I understand this bill right and I’ve been over here trying to read some things here, listening and talking. If this bill passes then anyone who wants to be certified pays twenty-five dollars to be able to perform the service. If it doesn’t pass it could be two hundred to three hundred dollars that the EPA program would impose on an individual in this state to do the same work. Correct!”

Senator Rockefeller: “Correct and they are still required to have that training because the federal rules are the rules to which we are confirming our state practices so the standards are going into affect on April. These standards were adopted in the last year of the prior federal administration under President Bush. These are not regarded as unfriendly to business at that time or I think they would not have been adopted. So, what we’re having here is a bill which offers an easier way for our renovators who are compensated to carry out this work. Similar to the training that abatement contractors have today. People who are volunteers in abatement or in renovation currently do not have to get this training and they’re not subject to the rules or the penalties.”

Senator Roach: “So, if this bill passes the cost to an individual in Washington State is twenty-five dollars. If it doesn’t, the cost would be two hundred?”

Senator Rockefeller: “For the training part of it, yes.”

Senator Roach spoke in favor of passage of the bill.

The President declared the question before the Senate to be the final passage of Substitute House Bill No. 2745.

ROLL CALL

The Secretary called the roll on the final passage of Substitute House Bill No. 2745 and the bill passed the Senate by the following vote: Yeas, 31; Nays, 17; Absent, 0; Excused, 1.

Creating efficiencies in the use of technology in state government.

The measure was read the second time.

MOTION

Senator Prentice moved that the following committee striking amendment by the Committee on Ways & Means be adopted.

Strike everything after the enacting clause and insert the following:

“NEW SECTION. Sec. 1. A new section is added to chapter 43.105 RCW to read as follows:

(1) The legislature finds that the provision of information technology in state government lacks strategic coordination, transparency, and meaningful enterprise-wide direction and oversight. It is no longer economically sustainable or technically feasible for state agencies to obtain and provide large-scale, commonly utilized information technology products and services on an individual, agency- by-agency basis without coordination. Instead, the state needs a strong, enterprise-based information technology strategy to ensure the public's needs are being met and the state is receiving the highest quality information technology products and services at the best price from public or private providers. Developing a strong enterprise-wide strategy also includes establishing clear lines of authority and accountability within state agencies so that those services unique to individual agencies receive the support required to effectively and efficiently provide services to citizens. To accomplish these objectives, the state needs to develop an open, transparent process for determining the total cost of ownership for the information technology products and services it provides, and to provide such information in an easily accessible, public fashion. It is in the state's interest to ensure that the wide range of disparate networks, systems, services, and structures across state government become more closely coordinated, organized, and structured. This type of coordinating effort is already underway in the area of higher education through the efforts of the higher education technology transformation task force and informally within other areas. When more transparent technical and financial information is readily available, the state can make sound policy decisions about what information technology services should be provided centrally on a shared services basis, and what products and services may be best suited for either contracting with private providers or for maintenance at the agency level. Furthermore, if attractive pricing models and service level agreements are developed for enterprise-based information technology services, the legislative and judicial branches will have an incentive to participate in those services as well.

(2) It is the intent of the legislature to organize, consolidate, and, where appropriate, contract with private providers for technology
systems and resources in a strategic fashion that is based upon sound, objective, nonpolitical, and independent technical and financial criteria. The state needs to develop a clear, enterprise-based statewide strategy for information technology to ensure that there is transparency and accountability regarding how information technology resources are being allocated, how decisions are being made, and who is accountable for on-time, on-budget delivery.

NEW SECTION. Sec. 2. A new section is added to chapter 43.105 RCW to read as follows:

(1) State agencies that are purchasing wireless devices or services must make such purchases through the state master contract, unless the state agency provides to the office of financial management evidence that the state agency is securing its wireless devices or services from another source for a lower cost than through participation in the state master contract.

(2) For the purposes of this section, "state agency" means any office, department, board, commission, or other unit of state government, but does not include a unit of state government headed by a statewide elected official, an institution of higher education as defined in RCW 28B.10.016, the higher education coordinating board, the state board for community and technical colleges, or agencies of the legislative or judicial branches of state government.

NEW SECTION. Sec. 3. RCW 43.105.190 and 2005 c 319 s 111 are each amended to read as follows:

(1) The department, with the approval of the board, shall establish standards and policies governing the planning, implementation, and evaluation of major information technology projects, including those proposed by the superintendent of public instruction, in conjunction with educational service districts, or statewide or regional providers of K-12 education information technology services. The standards and policies shall:

(a) Establish criteria to identify projects which are subject to this section. Such criteria shall include, but not be limited to, significant anticipated cost, complexity, or statewide significance of the project; and

(b) Establish a model process and procedures which agencies shall follow in developing and implementing projects within their information technology portfolios. Agencies may propose, for approval by the department, a process and procedures unique to the agency. The department may accept or require modification of such agency proposals or the department may reject such agency proposals and require use of the model process and procedures established under this subsection. Any process and procedures developed under this subsection shall require (i) distinct and identifiable phases upon which funding may be based, (ii) user validation of products through system demonstrations and testing of prototypes and deliverables, and (iii) other elements identified by the board.

The director may terminate a major project if the director determines that the project is not meeting or is not expected to meet anticipated performance standards.

(2) The office of financial management shall establish policies and standards consistent with portfolio-based information technology management to govern the funding of projects developed under this section. The policies and standards shall provide for:

(a) Funding of a project under terms and conditions mutually agreed to by the director, the director of financial management, and the head of the agency proposing the project. However, the office of financial management may require incremental funding of a project on a phase-by-phase basis whereby funds for a given phase of a project may be released only when the office of financial management determines, with the advice of the department, that the previous phase is satisfactorily completed;

(b) Acceptance testing of products to assure that products perform satisfactorily before they are accepted and final payment is made; and

(c) Other elements deemed necessary by the office of financial management.

(3)(a) The department shall evaluate projects based on the demonstrated business needs and benefits; cost; technology scope and feasibility; impact on the agency's information technology portfolio and on the statewide infrastructure; and final project implementation plan based upon available funding.

(b) Copies of project evaluations conducted under this subsection shall be submitted to the office of financial management and the chairs, ranking minority members, and staff coordinators of the appropriations committees of the senate and house of representatives.

(c) If there are projects that receive funding from a transportation fund or account, copies of those projects' evaluations conducted under this subsection must be submitted to the chairs and ranking minority members of the transportation committees of the senate and the house of representatives.

(4) For the 2009-2011 biennium, the following limitations are established upon information technology procurement:

(a) Except as provided in (c) of this subsection, state agencies are not permitted to purchase or implement new information technology projects without securing prior authorization from the office of financial management. The office of financial management may only approve information technology projects that contribute towards an enterprise strategy or meet a critical, localized need of the requesting agency.

(b) Except as provided in (c) of this subsection, state agencies are not permitted to purchase servers, virtualization software, data storage, or related software through their operational funds or through a separate information technology budget item without securing prior authorization from the office of financial management. The office of financial management shall grant approval only if the purchase is consistent with the state's overall migration strategy to the state data center and critical to the operation of the agency.

(c) State agencies may purchase new information technology projects or servers without securing prior authorization from the office of financial management if the purchase by the agency is needed to address an immediate and compelling threat to public safety.

(d) For the purposes of this subsection (4), "state agency" means any office, department, board, commission, or other unit of state government, but does not include a unit of state government headed by a statewide elected official, an institution of higher education as defined in RCW 28B.10.016, the higher education coordinating board, the state board for community and technical colleges, or agencies of the legislative or judicial branches of state government.

NEW SECTION. Sec. 4. A new section is added to chapter 43.88 RCW to read as follows:

(1) As part of the biennial budget process, the office of financial management shall collect from agencies, and agencies shall provide, information to produce reports, summaries, and budget detail sufficient to allow review, analysis, and documentation of all current and proposed expenditures for information technology by state agencies. Information technology budget detail must be included as part of the budget submittal documentation required pursuant to RCW 43.88.030.

(2) The office of financial management must collect, and present as part of the biennial budget documentation, information for all existing information technology projects as defined by information services board policy. The office of financial management must work with the department of information services
to maximize the ability to draw this information from the information technology portfolio management data collected by the department of information services pursuant to RCW 43.105.170. Connecting project information collected through the portfolio management process with financial data developed under subsection (1) of this section provides transparency regarding expenditure data for existing technology projects.

(3) The biennial budget documentation submitted by the office of financial management pursuant to RCW 43.88.030 must include an information technology plan identifying proposed large information technology projects. This plan must be presented using a method similar to the capital budget, identifying project costs through stages of the project and across fiscal periods and biennia from project initiation to implementation. This information must be submitted electronically, in a format to be determined by the office of financial management and the legislative evaluation and accountability program committee.

(4) The office of financial management shall also institute a method of accounting for information technology-related expenditures, including creating common definitions for what constitutes an information technology investment.

Sec. 5. RCW 43.88.560 and 1992 c 20 s 7 are each amended to read as follows:

The director of financial management shall establish policies and standards governing the funding of major information technology projects as required under RCW 43.105.190(2). The director of financial management shall also direct the collection of additional information on information technology projects and submit an information technology plan as required under section 4 of this act.

(j) To develop procurement policies and procedures, such as unbundled contracting and subcontracting, that encourage and facilitate the purchase of products and services by state agencies and institutions from Washington small businesses to the maximum extent practicable and consistent with international trade agreement commitments.

(2) Statewide technical standards to promote and facilitate electronic information sharing and access are an essential component of acceptable and reliable public access service and complement content-related standards designed to meet those goals. The board shall:

(a) Establish technical standards to facilitate electronic access to government information and interoperability of information systems, including wireless communications systems. Local governments are strongly encouraged to follow the standards established by the board; and

The savings must be at least equal to those specified in the omnibus appropriations act. The office of financial management shall reduce agency allotments by the amounts specified in the omnibus appropriations act to reflect these savings. The allotment reductions shall be placed in unallotted status and remain unexpended.

(3) For the purposes of this section, "state agency" means any office, department, board, commission, or other unit of state government, but does not include a unit of state government headed by a statewide elected official, an institution of higher education as defined in RCW 28B.10.016, the higher education coordinating board, the state board for community and technical colleges, or agencies of the legislative or judicial branches of state government.

(b) Develop a strategic business plan outlining the various options for use of the site that maximize taxpayer value consistent with the terms of the finance lease and related agreements.

(2) The analysis must consist of, at a minimum, an assessment of the following issues:

(a) The total capital and operational costs for the proposed data center and office building;

(b) The occupancy rate for the consolidated state data center, as compared to total capacity, that will result in revenue exceeding total capital and operating expenses;

(c) The potential reallocation of resources that could result from the consolidation of state data centers and office space; and

(d) The potential return on investment for the consolidated state data center and office building that may be realized without impairing any existing contractual rights under the terms of the financing lease and related agreements.

PERSONAL PRIVILEGE

Senator Brandland: “I rise before the body to say goodbye. I’m not coming back. I’ve been thinking about this for months. My wife and I have kicked this around and I have been on again off again and I decided about two weekends ago as I was sitting in my front room watching the sun come up over Mt. Baker. I decided I’m not coming back. I could not do that without coming to this body and saying thank you. I have voted with you. I have voted against you. I have made so many friends here. I do leave with a heavy heart. I do love this job but my heart’s in Bellingham and I want to go back there. So, thank you very much for your friendship and your kindness and I wish you luck in the future.”

REMARKS BY THE PRESIDENT

President Owen: “Senator Brandland, you sure, if we didn’t give you two first round draft picks or something, we couldn’t get you to change your mind?”

PERSONAL PRIVILEGE

Senator Hewitt: “Thank you Mr. President. Resignation not accepted! I’m going to be sad to lose Dale. He’s caused me a lot of heartaches in my caucus but I still love the guy regardless. He’s what I would call a true statesman and a gentleman. I mean you never know what, whether Dale has something up his sleeve or not because he comes to you and tells you just like it is. If everybody operated that way down here this would be a tremendous, tremendous place, it would be a better place to be. So, I got to tell you my friend, I’m going to, seriously going to miss you. You have become a very good friend of mine for the last eight years and I tried like hell to talk him out of this. You can’t believe how hard I’ve tried but it’s a decision he has to make and I think he has his priorities squared away. His heart is in the right spot and wish you well my friend.”

PERSONAL PRIVILEGE

Senator Murray: “Well, speaking for side of the aisle I’ve enjoyed working with you tremendously on a variety of issues and Senator Brandland, I particularly have admired your integrity and your courage. So, from this side of the aisle the best of luck in the days and years ahead.”

PERSONAL PRIVILEGE

Senator Hargrove: “Thank you Mr. President. Well, Dale’s been on my committee for a number of years and it’s really interesting because our committee passes almost everything unanimously out of our committee. One thing, in all seriousness I am going to miss is that law enforcement perspective as we look at human services and correction issues. It has been invaluable to have that perspective on our committee as we have sorted through sex offender issues, through correction issues, through the prison reform stuff that Senator Carrell worked on. I mean it’s just, so many times the experience Dale brought from being an ex-sheriff. He has inside knowledge about stuff that we just can’t grasp without having that experience here. I am going to repeat one little story that I thought it might be humorous to people, that is, I can remember, I think the first year he was on my committee. You know I run a pretty tight ship in executive session and he actually started to speak on an amendment and then he looked up at me and said, ‘Oh, you didn’t want me to talk did you’ and we got along really good because we worked together. He’s never surprised me with anything. We’ve always known what was going to go on and worked things out and I think it’s been a real pleasure Dale but we’re really, really, really going to miss that experience on all the issues we’ve had to deal with in our committee and hope you won’t be a stranger.”

PERSONAL PRIVILEGE

Senator Fraser: “Thank you Mr. President. I too would like to say thank you, once again, second time in about fifteen minutes to Senator Brandland. It’s just been a total pleasure to work with him. I think we’ve worked on, I think four capital budgets together now and I would agree with Senator Hargrove that Senator Brandland’s experience in law enforcement has been very helpful in working through projects on the capital budget and he and I have a lot in common. He’s a former County Sheriff, I’m a former County Commissioner so it’s really fun for us sometimes to sit there and think about you know we were in county government, now we’re here and it’s been great. Senator Brandland’s always thoughtful, pleasant, informed and a total pleasure to work with and I guess this will be our last capital budget together but I hope we will be working on other things together. Thank you very much.”

PERSONAL PRIVILEGE

Senator Stevens: “Thank you Mr. President. I too rise with a heavy heart and as the ranking member on the committee that Senator Hargrove was speaking of, the Human Services and Corrections Committee. It has been a great opportunity to work together to be able to come together on issues that were very diverse and varied and to have the kind of input that we’ve had. I
FIFTY NINTH DAY, MARCH 10, 2010

will never forget the time that we were in the majority, we were in that other building when we were temporarily out of this building and I can remember we were stalling for time. I was sitting beside Senator Brandland and I, he made a comment about a bill as a freshman I took advantage of the opportunity and I stood and asked him if he would yield to a question and he agreed. I said ‘Can you tell me the difference between the striker and the bill, the original bill?’ He turned and looked at me and said, ‘I don’t have a clue and why are doing this to me?’ So, I will through that back at you, ‘Why are you doing this to us?’ I wish you well in your continued retirement and to you and your wife, the very best.”

PERSONAL PRIVILEGE

Senator Kline: “Mr. President, I know I’m one of forty-eight guys around here, guys and gals, that are going to miss you. Dale, you’re one of the reasons why bills, and we all have probably noticed this, at least in my committee and, I know, in Human Services and Corrections have been going out much more unanimously, much more well worked, with a great deal of attention and a lot of hand shaking across the aisle. The reason I think in large part is your ability to exercise what we liberals called empathy. That is the ability to see something not only from your own point of view and the people you know but from the point of view of others and law enforcement, yes, but also the people that I know that I represent, the people who may be doing some crazy stuff and sometimes maybe not always playing by the rules as we know they should. To exercise some empathy and to not be simple the sheriff as I hope I can and at some point and I know that all of us try. That takes a lot and I certainly appreciate it. I had an experience, a couple, I think it’s two or three years ago, of going up to Bellingham to work with the Whatcom County Sherrif’s, they were hosting a task force on gang activity and the sheriff’s department in Whatcom County is Dale Brandland fans. He’s there, not just their boss, their friend. That was pretty clear that they all knew and loved Dale as we do. Dale, I’m going to miss you. Come back sometime and see us. Thank you.”

PERSONAL PRIVILEGE

Senator Kastama: “Thank you Mr. President, I didn’t plan on speaking on this today. I really didn’t but I do want to say this. When I first came to the chamber I think I learned the importance of being a Senator from Senator Snyder. He taught me very clearly that, in fact, you’re no longer the individual Jim Kastama, whatever your name happens to be. You are a Senator and you behave as a Senator. I want to say that you will be missed in this body but I want you to know that you are truly a Senator. As a Senator very few people have gone through what we have gone through, have had to make the difficult decisions that we’ve had to make, have had to balance all the difference interest groups like we’ve had to do, had to make decisions that really impact lives in Washington State and determine allocations of millions if not billions of dollars. Very few people had to make those decisions and I want you to know that you, again, will always be welcome here as a Senator and you’ve been a great part of the Senate. Thank you for that.”

PERSONAL PRIVILEGE

Senator Parlette: “Well, I got to tell you, isn’t that what he often says too? I didn’t plan on speaking but I got to tell you. Well, I have to tell you that we are going to really miss Dale for a variety of reasons but he’s part of our leadership team. He is our Whip and you know what the job is, to bring everybody into caucus. He sits right next to me in caucus as I chair the meeting and he keeps track of who wants to take turns speaking because he writes it down. But as you know, Dale is so often out there working on issues, bringing people together that sometimes, I mean at least every other time we go into caucus, we have to go look for the Whip because he’s out there trying to solve a problem and bring people together so we can come to an agreement on what we’re voting on. And that’s the truth. That happens ninety percent of the time. Dale, we’re going to miss you. You are a statesman. A prince of a man. We’ll miss you.”

PERSONAL PRIVILEGE

Senator Franklin: “Thank you Mr. President. Well, Senator Brandland, I have dubbed you the even-spirited guy. You have been a mediator, a moderator bringing people together, solving problems and a point of view law enforcement officer. When I come out of my office and you are there, it’s ‘Hello Rosa. Good morning Senator.’ You really have served well. You are going to be missed for the person you are, for what you have brought to this august body and for your even temperament except once. When I saw you sort of flustered, then somebody said something that did not, you were not, did not meet your principles and that only one time. But when we have legislators who serve, this is not an easy job, we get hit left and right. You get hit if you do the right thing. You get hit if you do the wrong thing—what they consider the wrong thing. You have looked at both sides and tried to come up with solutions to help all of us. When I come to Whatcom County, I’m going to look you up. Thank you. You’ve done a good job. You are going to be missed. Thank you for your service.”

SECOND READING

SECOND SUBSTITUTE HOUSE BILL NO. 2759, by House Committee on Ways & Means (originally sponsored by Representatives Maxwell, Anderson, Roberts, White, Goodman, Clibborn, Kenney, Hunter, Morrell and Haigh)

Adjusting local school finance related to nonresident students enrolled in online learning.

The measure was read the second time.

MOTION

Senator McAuliffe moved that the following committee striking amendment by the Committee on Ways & Means be adopted:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. While the legislature supports online learning, the legislature finds that there are unintended financial consequences for taxpayers, both locally and statewide, when significant numbers of nonresident students enroll in a school district for purposes of enrolling in an online school program. Therefore, the legislature intends to adjust finance policy related to voter-approved excess levies and a district’s qualification for local effort enhancement funds to eliminate these unintended consequences.

Sec. 2. RCW 84.52.0531 and 2009 c 4 s 908 are each amended to read as follows:"
The maximum dollar amount which may be levied by or for any school district for maintenance and operation support under the provisions of RCW 84.52.053 shall be determined as follows:

1. For excess levies for collection in calendar year 1997, the maximum dollar amount shall be calculated pursuant to the laws and rules in effect in November 1996.

2. For excess levies for collection in calendar year 1998 and thereafter, the maximum dollar amount shall be the sum of (a) plus or minus (b) and (c) of this subsection minus (d) of this subsection:
   
   a. The district's levy base as defined in subsections (3) and (4) of this section multiplied by the district's maximum levy percentage as defined in subsection (5) of this section;
   
   b. For districts in a high/nonhigh relationship, the high school district's maximum levy amount shall be reduced and the nonhigh school district's maximum levy amount shall be increased by an amount equal to the estimated amount of the nonhigh payment due to the high school district under RCW 28A.545.030(3) and 28A.545.050 for the school year commencing the year of the levy;
   
   c. For districts in an interdistrict cooperative agreement, the nonresident school district's maximum levy amount shall be reduced by an amount equal to the per pupil basic education allocation included in the nonresident district's levy base under subsection (3) of this section multiplied by:
      
      i. The number of full-time equivalent students served from the resident district in the prior school year; multiplied by:
      
      ii. The serving district's maximum levy percentage determined under subsection (5) of this section; increased by:
      
      iii. The percent increase per full-time equivalent student as stated in the state basic education appropriation section of the biennial budget between the prior school year and the current school year divided by fifty-five percent;
      
      d. The district's maximum levy amount shall be reduced by the maximum amount of state matching funds for which the district is eligible under RCW 28A.500.010.

3. For excess levies for collection in calendar year 2005 and thereafter, a district's levy base shall be the sum of allocations in (a) through (c) of this subsection received by the district for the prior school year and the amounts determined under subsection (4) of this section, including allocations for compensation increases, plus the sum of such allocations multiplied by the percent increase per full time equivalent student as stated in the state basic education appropriation section of the biennial budget between the prior school year and the current school year divided by fifty-five percent. A district's levy base shall not include local school district property tax levies or other local revenues, or state and federal allocations not identified in (a) through (c) of this subsection. In addition, for excess levies for collection in calendar year 2011 and thereafter, a district's levy base shall not include state or federal allocations attributable to nonresident students enrolled in the district in an online school program as defined under RCW 28A.250.010 based on an interdistrict agreement or under the provisions of RCW 28A.225.220 and 28A.225.225:
   
   a. The district's basic education allocation as determined pursuant to RCW 28A.150.250, 28A.150.260, and 28A.150.350;
   
   b. State and federal categorical allocations for the following programs:
      
      i. Pupil transportation;
      
      ii. Special education;
      
      iii. Education of highly capable students;
      
      iv. Compensatory education, including but not limited to learning assistance, migrant education, Indian education, refugee programs, and bilingual education;
      
      v. Food services; and
      
      vi. Statewide block grant programs; and
   
   c. Any other federal allocations for elementary and secondary school programs, including direct grants, other than federal impact aid funds and allocations in lieu of taxes.

4. For levy collections in calendar years 2005 through 2011, in addition to the allocations included under subsection (3)(a) through (c) of this section, a district's levy base shall also include the following:
   
   a. The difference between the allocation the district would have received in the current school year had RCW 84.52.068 not been amended by chapter 19, Laws of 2003 1st sp. sess. and the allocation the district received in the current school year pursuant to RCW 84.52.068. The office of the superintendent of public instruction shall offset the amount added to a district's levy base pursuant to this subsection (4)(a) by any additional per student allocations included in a district's levy base pursuant to the enactment of an initiative to the people subsequent to June 10, 2004; and
   
   b. The difference between the allocations the district would have received the prior school year had RCW 28A.400.205 not been amended by chapter 20, Laws of 2003 1st sp. sess. and the allocations the district actually received prior school year pursuant to RCW 28A.400.205. The office of the superintendent of public instruction shall offset the amount added to a district's levy base pursuant to this subsection (4)(b) by any additional salary increase allocations included in a district's levy base pursuant to the enactment of an initiative to the people subsequent to June 10, 2004.

5. A district's maximum levy percentage shall be twenty-two percent in 1998 and twenty-four percent in 1999 and every year thereafter; plus, for qualifying districts, the grandfathered percentage determined as follows:
   
   a. For 1997, the difference between the district's 1993 maximum levy percentage and twenty percent; and
   
   b. For 1998 and thereafter, the percentage calculated as follows:
      
      i. Multiply the grandfathered percentage for the prior year times the district's levy base determined under subsection (3) of this section;
      
      ii. Reduce the result of (b)(i) of this subsection by any levy reduction funds as defined in subsection (6) of this section that are to be allocated to the district for the current school year;
      
      iii. Divide the result of (b)(ii) of this subsection by the district's levy base; and
      
      iv. Take the greater of zero or the percentage calculated in (b)(ii) of this subsection.

6. "Levy reduction funds" shall mean increases in state funds from the prior school year for programs included under subsections (3) and (4) of this section: (a) That are not attributable to enrollment changes, compensation increases, or inflationary adjustments; and (b) that are or were specifically identified as levy reduction funds in the appropriations act. If levy reduction funds are dependent on formula factors which would not be finalized until after the start of the current school year, the superintendent of public instruction shall estimate the total amount of levy reduction funds by using prior school year data in place of current school year data. Levy reduction funds shall not include moneys received by school districts from cities or counties.

7. For the purposes of this section, "prior school year" means the most recent school year completed prior to the year in which the levy is to be collected.

8. For the purposes of this section, "current school year" means the year immediately following the prior school year.

9. Funds collected from transportation vehicle fund tax levies shall not be subject to the levy limitations in this section.

The President declared the question before the Senate to be the final passage of Senate Bill No. 6855.
the growth of fare revenue and gas tax revenue dedicated to the ferry system. As such, and drawing on more than four consecutive years of legislative analysis and operating policy reforms, the legislature finds that a realignment of the ferry compensation policy framework is an appropriate next step toward the legislature's long-term goal of assuring sustainable, cost-effective ferry service. The legislature further intends to address increased costs of ferry system operations in a manner that balances the interests of the ferry system, ferry workforce, and fare payers. It is the intent of the legislature that final recommendations from the joint transportation committee ferry study, submitted to the legislature during the 2009 regular legislative session, be enacted by the legislature and implemented by the department of transportation as soon as practicable in order to benefit from the efficiencies and cost savings identified in the recommendations. It is also the intent of the legislature to make various additional policy changes aimed at further efficiencies and cost savings. Since the study began in 2006, recommendations have been made with regard to long range planning and implementing the most efficient and effective balance between ferry capital and operating investments. It is intended that this act, the 2009-2011 omnibus transportation appropriations act, and subsequent transportation appropriations acts serve as vehicles for enacting these recommendations in order to maximize the utilization of existing capacity and to make the most efficient use of existing assets and tax dollars.

NEW SECTION. Sec. 2. (1) The office of financial management shall convene an expert panel of ferry operators to conduct a management review of the Washington state department of transportation, ferries division. The panel must have between three and five members and must represent both management and operations specialists, as well as public and private ferry operators that can bring best practices and state-of-the-art knowledge to this effort. The panel shall review past studies, conduct its own review, and make recommendations of the ferries division's management. The study must be completed and submitted to the transportation committees of the senate and house of representatives by August 1, 2010, and must include:

(a) A review and comment on the studies and audits conducted on the ferries division over the past four years in areas of overhead and management organization structure and costs, maintenance practices, scheduling, and prioritization of preservation of vessels and terminals to ensure they represent current best practices;

(b) A report on the implementation of the recommendations in the studies and audits described in (a) of this subsection, and a report on their effectiveness compared to national best practices;

(c) A review and report on the procedures for crew and service scheduling and recommendations on opportunities for improvement to provide the least cost of operations while maintaining service schedules that meet the needs of ferries customers.

(2) This section expires July 1, 2011.

Sec. 3. RCW 47.60.355 and 2007 c 512 s 11 are each amended to read as follows:

(i) Alternatives to new vessel construction that increase capacity of existing vessels;
(ii) Service level changes in lieu of adding vessel capacity; and
(iii) Acquiring existing vessels or existing vessel plans rather than wholly new vessels or vessel plans; and

(a) An explanation of any regulatory changes necessitating the improvement;

(c) A cost-benefit analysis of any modifications designed to improve fuel efficiency, including potential impacts on vessel maintenance and repair; and
(d) An assessment of out-of-service time associated with making the improvement and ongoing preservation of the improvement.

(3) This section expires June 30, 2011.

Sec. 9. RCW 47.28.030 and 2007 c 218 s 90 are each amended to read as follows:

(1)(a) A state highway shall be constructed, altered, repaired, or improved, and improvements located on property acquired for right-of-way purposes may be repaired or renovated pending the use of such right-of-way for highway purposes, by contract or state forces. The work or portions thereof may be done by state forces when the estimated costs thereof are less than fifty thousand dollars and effective July 1, 2005, sixty thousand dollars; and effective July 1, 2005, one hundred thousand dollars.

(b) When delay of performance of such work would jeopardize a state highway or constitute a danger to the traveling public, the work may be done by state forces when the estimated cost thereof is less than eighty thousand dollars and effective July 1, 2005, one hundred thousand dollars.

(c) When the department of transportation determines to do the work by state forces, it shall enter a statement upon its records to that effect, stating the reasons therefor.

(d) To enable a larger number of small businesses, and minority, and women contractors to effectively compete for department of transportation contracts, the department may adopt rules providing for bids and award of contracts for the performance of work, or furnishing equipment, materials, supplies, or operating services whenever any work is to be performed and the engineer's estimate indicates the cost of the work would not exceed eighty thousand dollars and effective July 1, 2005, one hundred thousand dollars.

(2) The rules adopted under this section:

((4)) (a) Shall provide for competitive bids to the extent that competitive sources are available except when delay of performance would jeopardize life or property or inconvenience the traveling public; and

((5)) (b) Need not require the furnishing of a bid deposit nor a performance bond, but if a performance bond is not required then progress payments to the contractor may be required to be made based on submittal of paid invoices to substantiate proof that disbursements have been made to laborers, material suppliers, mechanics, and subcontractors from the previous partial payment; and

((6)) (c) May establish prequalification standards and procedures as an alternative to those set forth in RCW 47.28.070, but the prequalification standards and procedures under RCW 47.28.070 shall always be sufficient.

(3) The department of transportation shall comply with such goals and rules as may be adopted by the office of minority and women's business enterprises to implement chapter 39.19 RCW with respect to contracts entered into under this chapter. The department may adopt such rules as may be necessary to comply with the rules adopted by the office of minority and women's business enterprises under chapter 39.19 RCW.

(4)(a) For the period of March 15, 2010, through June 30, 2011, work for less than one hundred twenty thousand dollars may be performed on ferry vessels and terminals by state forces.

(b) The department shall hire a disinterested, third party to conduct an independent analysis to identify methods of reducing out-of-service times for vessel maintenance, preservation, and improvement projects. The analysis must include options to extend the hours and days of operation at Eagle Harbor maintenance facility, consolidating work while vessels are at shipyards by having state forces perform services traditionally performed at Eagle Harbor at the shipyard, and decreasing the allowable time at shipyards. The analysis must also compare the out-of-service vessel times of performing services by state forces versus contracting out those services which in turn must be used to form a recommendation as to what the threshold of work performed on ferry vessels and terminals by state forces should be. This analysis must be presented to the transportation committees of the senate and house of representatives by December 1, 2010.

(c) The department shall develop a proposed ferry vessel maintenance, preservation, and improvement program and present it to the transportation committees of the senate and house of representatives by December 1, 2010. The proposed program must:

(i) Improve the basis for budgeting vessel maintenance, preservation, and improvement costs and for projecting those costs into a sixteen-year financial plan;

(ii) Limit the amount of planned out-of-service time to the greatest extent possible, including options associated with department staff as well as commercial shipyards; and

(iii) Be based on the service plan in the capital plan, recognizing that vessel preservation and improvement needs may vary by route.

(d) In developing the proposed ferry vessel maintenance, preservation, and improvement program, the department shall consider the following, related to reducing vessel out-of-service time:

(i) The costs compared to benefits of Eagle Harbor repair and maintenance facility operations options to include staffing costs and benefits in terms of reduced out-of-service time;

(ii) The maintenance requirements for on-vessel staff, including the benefits of a systemwide standard;
(iii) The costs compared to benefits of staff performing preservation or maintenance work, or both, while the vessel is underway, tied up between sailings, or not deployed;

(iv) A review of the department's vessel maintenance, preservation, and improvement program contracting process and contractual requirements;

(v) The costs compared to benefits of allowing for increased costs associated with expedited delivery;

(vi) A method for comparing the anticipated out-of-service time of proposed projects and other projects planned during the same construction period;

(vii) Coordination with required United States coast guard dry dockings;

(viii) A method for comparing how proposed projects relate to the service requirements of the route on which the vessel normally operates; and

(ix) A method for evaluating the ongoing maintenance and preservation costs associated with proposed improvement projects.

**Sec. 10.** RCW 47.64.120 and 2006 c 164 s 3 are each amended to read as follows:

(1) Except as otherwise provided in this chapter, the employer and ferry system employee organizations, through their collective bargaining representatives, shall meet at reasonable times((i)) to negotiate in good faith with respect to wages, hours, working conditions, and insurance, (and health care benefits or limited by RCW 47.64.270.) and other matters mutually agreed upon. Employer funded retirement benefits shall be provided under the public employees retirement system under chapter 41.40 RCW and shall not be included in the scope of collective bargaining. Except as provided under RCW 47.64.270, the employer is not required to bargain over health care benefits. Any retirement system or retirement benefits shall not be subject to collective bargaining.

(2) Upon ratification of bargaining agreements, ferry employees are entitled to an amount equivalent to the interest earned on retroactive compensation increases. For purposes of this section, the interest earned on retroactive compensation increases is the same monthly rate of interest that was earned on the amount of the compensation increases while held in the state treasury. The interest will be computed for each employee until the date the retroactive compensation is paid, and must be allocated in accordance with appropriation authority. The interest earned on retroactive compensation is not considered part of the ongoing compensation obligation of the state and is not compensation earnable for the purposes of chapter 41.40 RCW. Negotiations shall also include grievance procedures for resolving any questions arising under the agreement, which shall be embodied in a written agreement and signed by the parties.

(3) Except as otherwise provided in this chapter, if a conflict exists between an executive order, administrative rule, or agency policy relating to wages, hours, and terms and conditions of employment and a collective bargaining agreement negotiated under this chapter, the collective bargaining agreement shall prevail. A provision of a collective bargaining agreement that conflicts with the terms of a statute is invalid and unenforceable.

**Sec. 11.** RCW 47.64.170 and 2007 c 160 s 1 are each amended to read as follows:

(1) Any ferry employee organization certified as the bargaining representative shall be the exclusive representative of all ferry employees in the bargaining unit and shall represent all such employees fairly.

(2) A ferry employee organization or organizations and the governor may each designate any individual as its representative to engage in collective bargaining negotiations.

(3) Negotiating sessions, including strategy meetings of the employer or employee organizations, mediation, and the deliberative process of arbitrators are exempt from the provisions of chapter 42.30 RCW. Hearings conducted by arbitrators may be open to the public by mutual consent of the parties.

(4) Terms of any collective bargaining agreement may be enforced by civil action in Thurston county superior court upon the initiative of either party.

(5) Ferry system employees or any employee organization shall not negotiate or attempt to negotiate directly with anyone other than the person who has been appointed or authorized a bargaining representative for the purpose of bargaining with the ferry employees or their representative.

(6)(a) Within ten working days after the first Monday in September of every odd-numbered year, the parties shall attempt to agree on an interest arbitrator to be used if the parties are not successful in negotiating a comprehensive collective bargaining agreement. If the parties cannot agree on an arbitrator within the ten-day period, either party may request a list of seven arbitrators from the federal mediation and conciliation service. The parties shall select an interest arbitrator using the coin toss/alternate strike method within thirty calendar days of receipt of the list. Immediately upon selecting an interest arbitrator, the parties shall cooperate to reserve dates with the arbitrator for potential arbitration between August 1st and September 15th of the following even-numbered year. The parties shall also prepare a schedule of at least five negotiation dates for the following year, absent an agreement to the contrary. The parties shall execute a written agreement before November 1st of each odd-numbered year setting forth the name of the arbitrator and the dates reserved for bargaining and arbitration. This subsection (6)(a) imposes minimum obligations only and is not intended to define or limit a party's full, good faith bargaining obligation under other sections of this chapter.

(b) The negotiation of a proposed collective bargaining agreement by representatives of the employer and a ferry employee organization shall commence on or about February 1st of every even-numbered year.

(c) For negotiations covering the 2009-2011 biennium and subsequent biennia, the time periods specified in this section, and in RCW 47.64.210 and 47.64.300 through 47.64.320, must ensure conclusion of all agreements on or before October 1st of the even-numbered year next preceding the biennial budget period during which the agreement should take effect. These time periods may only be altered by mutual agreement of the parties in writing. Any such agreement and any impasse procedures agreed to by the parties under RCW 47.64.200 must include an agreement regarding the new time periods that will allow final resolution by negotiations or arbitration by October 1st of each even-numbered year.

(7) ((Until a new collective bargaining agreement is in effect, the terms and conditions of the previous collective bargaining agreement shall remain in force.)) It is the intent of this section that the collective bargaining agreement or arbitrator's award shall commence on July 1st of each odd-numbered year and shall terminate on June 30th of the next odd-numbered year to coincide with the ensuing biennial budget year, as defined by RCW 43.88.020(7), to the extent practical. It is further the intent of this section that all collective bargaining agreements be concluded by October 1st of the even-numbered year before the commencement of the biennial budget year during which the agreements are to be in effect. After the expiration date of a collective bargaining agreement negotiated under this chapter, all of the terms and conditions specified in the collective bargaining agreement remain in effect until the effective date of a subsequently negotiated agreement, not to exceed one year from the expiration date stated in the agreement. Thereafter, the employer may unilaterally implement according to law.
(8) The office of financial management shall conduct a salary survey, for use in collective bargaining and arbitration, which must be conducted through a contract with a firm nationally recognized in the field of human resources management consulting.

(9)(a) The governor shall submit a request either for funds necessary to implement the collective bargaining agreements including, but not limited to, the compensation and fringe benefit provisions or for legislation necessary to implement the agreement, or both. Requests for funds necessary to implement the collective bargaining agreements shall not be submitted to the legislature by the governor unless such requests:

(i) Have been submitted to the director of the office of financial management by October 1st before the legislative session at which the requests are to be considered; and

(ii) Have been certified by the director of the office of financial management as being feasible financially for the state.

(b) The governor shall submit a request either for funds necessary to implement the arbitration awards or for legislation necessary to implement the arbitration awards, or both. Requests for funds necessary to implement the arbitration awards shall not be submitted to the legislature by the governor unless such requests:

(i) Have been submitted to the director of the office of financial management by October 1st before the legislative session at which the requests are to be considered; and

(ii) Have been certified by the director of the office of financial management as being feasible financially for the state.

c) The legislature shall approve or reject the submission of the request for funds necessary to implement the collective bargaining agreements or arbitration awards as a whole for each agreement or award. The legislature shall not consider a request for funds to implement a collective bargaining agreement or arbitration award unless the request is transmitted to the legislature as part of the governor's budget document submitted under RCW 43.88.030 and 43.88.060. If the legislature rejects or fails to act on the submission, either party may reopen all or part of the agreement and award or the exclusive bargaining representative may seek to implement the procedures provided for in RCW 47.64.210 and 47.64.300.

((26) (10) If, after the compensation and fringe benefit provisions of an agreement are approved by the legislature, a significant revenue shortfall occurs resulting in reduced appropriations, as declared by proclamation of the governor or by resolution of the legislature, both parties shall immediately enter into collective bargaining for a mutually agreed upon modification of the agreement.

Sec. 12. RCW 47.64.200 and 2006 c 164 s 7 are each amended to read as follows:

As the first step in the performance of their duty to bargain, the employer and the employee organization shall endeavor to agree upon impasse procedures. Unless otherwise agreed to by the employee organization and the employer in their impasse procedures, the arbitrator or panel (ties limited to selecting the most reasonable offer, in its judgment, of the final offers on each impasse item submitted by the parties. The employee organization and the employer may mutually agree to the impasse procedure under which the arbitrator or panel may) shall issue a decision it deems just and appropriate with respect to each impasse item. If the parties fail to agree upon impasse procedures under this section, the impasse procedures provided in RCW 47.64.210 and 47.64.230 and 47.64.300 through 47.64.320 apply. It is unlawful for either party to refuse to participate in the impasse procedures provided in RCW 47.64.210 and 47.64.230 and 47.64.300 through 47.64.320.

Sec. 13. RCW 47.64.270 and 2006 c 164 s 17 are each amended to read as follows:

(1) The employer and one coalition of all the exclusive bargaining representatives subject to this chapter and chapter 41.80 RCW shall conduct negotiations regarding the dollar amount expended on behalf of each employee for health care benefits.

(2) Absent a collective bargaining agreement to the contrary, the department of transportation shall provide contributions to insurance and health care plans for ferry system employees and dependents, as determined by the state health care authority, under chapter 41.05 RCW ((and)).

(3) The employer and employee organizations may collectively bargain for (other) insurance (and health care) plans other than health care benefits, and employer contributions may exceed that of other state agencies as provided in RCW 41.05.050. (To the extent that ferry employees by bargaining unit have absorbed the required offset of wage increases by the amount that the employer's contribution for employees' and dependents' insurance and health care plans exceed that of other state general government employees in the 1985-87 fiscal biennium, employees shall not be required to absorb a further offset except to the extent the differential between employer contributions for those employees and all other state general government employees increases during any subsequent fiscal biennium. If such differential increases in the 1987-89 fiscal biennium or the 1985-87 offset by bargaining unit is insufficient to meet the required deduction, the amount available for compensation shall be reduced by bargaining unit by the amount of such increase or the 1985-87 shortage in the required offset. Compensation shall include all wages and employee benefits.)

Sec. 14. RCW 47.64.280 and 2006 c 164 s 18 are each amended to read as follows:

(1) There is created the marine employees' commission. The governor shall appoint the commission with the consent of the senate. The commission shall consist of three members: One member to be appointed from labor, one member from industry, and one member from the public who has significant knowledge of maritime affairs. The public member shall be chair of the commission. One of the original members shall be appointed for a term of three years, one for a term of four years, and one for a term of five years. Their successors shall be appointed for terms of five years each, except that any person chosen to fill a vacancy shall be appointed only for the unexpired term of the member whom he or she succeeds. Commission members are eligible for reappointment. Any member of the commission may be removed by the governor, upon notice and hearing, for neglect of duty or malfeasance in office, but for no other cause. Commission members are not eligible for state retirement under chapter 41.40 RCW by virtue of their service on the commission. Members of the commission shall be compensated in accordance with RCW 43.03.250 and shall receive reimbursement for official travel and other expenses at the same rate and on the same terms as provided for the transportation commission by RCW 47.01.061. The payments shall be made from the Puget Sound ferry operations account.

(2) The commission shall: (a) Adjust all complaints, grievances, and disputes between labor and management arising out of the operation of the ferry system as provided in RCW 47.64.150; (b) provide for impasse mediation as required in RCW 47.64.210; and (c) provide for salary surveys as required in RCW 47.64.220 and (d) perform those duties required in RCW 47.64.300.

(3)(a) In adjudicating all complaints, grievances, and disputes, the party claiming labor disputes shall, in writing, notify the commission, which shall make careful inquiry into the cause thereof and issue an order advising the ferry employee, or the ferry employee organization representing him or her, and the department of transportation, as to the decision of the commission.
Sec. 15. RCW 47.64.320 and 2006 c 164 s 14 are each amended to read as follows:

(1) The mediator, arbitrator, or arbitration panel may consider only matters that are subject to bargaining under this chapter, except that health care benefits are not subject to interest arbitration.

(2) The decision of an arbitrator or arbitration panel is not binding on the legislature and, if the legislature does not approve the funds necessary to implement provisions pertaining to compensation and fringe benefit provisions of an arbitrated collective bargaining agreement, is not binding on the state, the department of transportation, or the ferry employee organization.

(3) In making its determination, the arbitrator or arbitration panel shall be mindful of the legislative purpose under RCW 47.64.170(8);

(a) The financial ability of the department to pay for the compensation and fringe benefit provisions of a collective bargaining agreement;

(b) Past collective bargaining contracts between the parties including the bargaining that led up to the contracts;

(c) The constitutional and statutory authority of the employer;

(d) Stipulations of the parties;

(e) The results of the salary survey as required in RCW 47.64.220;

(f) Comparison of wages, hours, employee benefits, and conditions of employment of the involved ferry employees with those of public and private sector employees in states along the west coast of the United States, including Alaska, and in British Columbia doing directly comparable but not necessarily identical work, giving consideration to factors peculiar to the area and the classifications involved;

(g) Changes in any of the foregoing circumstances during the pendency of the proceedings;

(h) The limitations on ferry toll increases and operating subsidies as may be imposed by the legislature; and

(i) The ability of the state to retain ferry employees;

(j) The overall compensation presently received by the ferry employees, including direct wage compensation, vacations, holidays and other paid excused time, pensions, insurance benefits, and all other direct or indirect monetary benefits received; and

(k) Other factors that are normally or traditionally taken into consideration in the determination of matters that are subject to bargaining under this chapter.

(4) This section applies to any matter before the respective mediator, arbitrator, or arbitration panel.

Sec. 16. RCW 41.80.020 and 2002 c 354 s 303 are each amended to read as follows:

(1) Except as otherwise provided in this chapter, the matters subject to bargaining include wages, hours, and other terms and conditions of employment, and the negotiation of any question arising under a collective bargaining agreement.

(2) The employer is not required to bargain over matters pertaining to:

(a) Health care benefits or other employee insurance benefits, except as required in subsection (3) of this section;

(b) Any retirement system or retirement benefit; or

(c) Rules of the director of personnel or the Washington personnel resources board adopted under section 203, chapter 354, Laws of 2002.

(3) Matters subject to bargaining include the number of names to be certified for vacancies, promotional preferences, and the dollar amount expended on behalf of each employee for health care benefits. However, except as provided otherwise in this subsection for institutions of higher education, negotiations regarding the number of names to be certified for vacancies, promotional preferences, and the dollar amount expended on behalf of each employee for health care benefits shall be conducted between the employer and one coalition of all the exclusive bargaining representatives subject to this chapter. The exclusive bargaining representatives for employees that are subject to chapter 47.64 RCW shall bargain the dollar amount expended on behalf of each employee for health care benefits with the employer as part of the coalition under this subsection. Any such agreement made by the employer and the coalition shall be included in all master collective bargaining agreements negotiated by the parties. For institutions of higher education, promotional preferences and the number of names to be certified for vacancies shall be bargained under the provisions of RCW 41.80.010(4).

(4) The employer and the exclusive bargaining representative shall not agree to any proposal that would prevent the implementation of approved affirmative action plans or that would be inconsistent with the comparable worth agreement that provided the basis for the salary changes implemented beginning with the 1983-1985 biennium to achieve comparable worth.

(5) The employer and the exclusive bargaining representative shall not bargain over matters pertaining to management rights established in RCW 41.80.040.

(6) Except as otherwise provided in this chapter, if a conflict exists between an executive order, administrative rule or policy relating to wages, hours, and terms and conditions of employment and a collective bargaining agreement negotiated under this chapter, the collective bargaining agreement shall prevail. A provision of a collective bargaining agreement that conflicts with the terms of a statute is invalid and unenforceable.

(7) This section does not prohibit bargaining that affects contracts authorized by RCW 41.06.142.

Sec. 17. 2010 c ... (ESSB 6381) s 222 (uncodified) is amended to read as follows:

Appropriation………………………………..((($425,022,000)) $425,252,000).

The appropriation in this section is subject to the following conditions and limitations:

(1) $78,754,952 of the Puget Sound ferry operations account–state appropriation is provided solely for auto ferry vessel operating fuel in the 2009-11 fiscal biennium. This appropriation is contingent upon the enactment of ((sections 716 and 701 of this act)) section 701, chapter . . . (ESSB 6381), Laws of 2010. All fuel
purchased by the Washington state ferries at Harbor Island truck terminal for the operation of the Washington state ferries diesel powered vessels must be a minimum of five percent biodiesel blend so long as the per gallon price of diesel containing a five percent biodiesel blend level does not exceed the per gallon price of diesel by more than five percent.

(2) To protect the waters of Puget Sound, the department shall investigate nontoxic alternatives to fuel additives and other commercial products that are used to operate, maintain, and preserve vessels.

(3) If, after the department's review of fares and pricing policies, the department proposes a fuel surcharge, the department must evaluate other cost savings and fuel price stabilization strategies that would be implemented before the imposition of a fuel surcharge. The department shall report to the legislature and transportation commission on its progress of implementing new fuel forecasting and budgeting practices, price hedging contracts for fuel purchases, and fuel conservation strategies by November 30, 2010.

(4) The department shall strive to significantly reduce the number of injuries suffered by Washington state ferries employees. By December 15, 2009, the department shall submit to the office of financial management and the transportation committees of the legislature its implementation plan to reduce such injuries.

(5) The department shall continue to provide service to Sidney, British Columbia. The department may place a Sidney terminal departure surcharge on fares for out of state residents riding the Washington state ferry route that runs between Anacortes, Washington and Sidney, British Columbia, if the cost for landing/license fee, taxes, and additional amounts charged for docking are in excess of $280,000 CDN. The surcharge must be limited to recovering amounts above $280,000 CDN.

(6) The department shall analyze operational solutions to enhance service on the Bremerton to Seattle ferry run. The Washington state ferries shall report its analysis to the transportation committees of the legislature by December 1, 2009.

(7) The office of financial management budget instructions require agencies to recast enacted budgets into activities. The Washington state ferries shall include a greater level of detail in its 2011-13 omnibus transportation appropriations act request, as determined jointly by the office of financial management, the Washington state ferries, and the legislative transportation committees.

(8) $(4,124,000) of the Puget Sound ferry operations account--state appropriation is provided solely for commercial insurance for ferry assets. The office of financial management, after consultation with the transportation committees of the legislature, must present a business plan for the Washington state ferry system's insurance coverage to the 2010 legislature. The business plan must include a cost-benefit analysis of Washington state ferries' current commercial insurance purchased for ferry assets and a review of self-insurance for noncatastrophic events.

(9) $1,100,000 of the Puget Sound ferry operations account--state appropriation is provided solely for a marketing program. The department shall present a marketing program proposal to the transportation committees of the legislature during the 2010 legislative session before implementing this program. Of this amount, $10,000 is for the city of Port Townsend and $10,000 is for the town of Coupeville for mitigation expenses related to only one vessel operating on the Port Townsend/Keystone ferry route. The moneys provided to the city of Port Townsend and town of Coupeville are not contingent upon the required marketing proposal.

(10) $350,000 of the Puget Sound ferry operations account--state appropriation is provided solely for two extra trips per day during the summer of 2009 season, beyond the current schedule, on the Port Townsend/Keystone route.

(11) When purchasing uniforms that are required by collective bargaining agreements, the department shall contract with the lowest cost provider.

(12) The legislature finds that measuring the performance of Washington state ferries requires the measurement of quality, timeliness, and unit cost of services delivered to customers. Consequently, the department must develop a set of metrics that measure that performance and report to the transportation committees of the legislature and to the office of financial management on the development of these measurements along with recommendations to the 2010 legislature on which measurements must become a part of the next omnibus transportation appropriations act.

(13) As a priority task, the department is directed to propose a comprehensive incident and accident investigation policy and appropriate procedures, and to provide the proposal to the legislature by November 1, 2009, using existing resources and staff expertise. In addition to consulting with ferry system unions and the United States coast guard, the Washington state ferries is encouraged to solicit independent outside expertise on incident and accident investigation best practices as they may be found in other organizations with a similar concern for marine safety. It is the intent of the legislature to enact the policies into law and to publish that law and procedures as a manual for Washington state ferries' accident/incident investigations. Until that time, the Washington state ferry system must exercise particular diligence to assure that any incident or accident investigations are conducted within the spirit of the guidelines of this act. The proposed policy must contain, at a minimum:

(a) The definition of an incident and an accident and the type of investigation that is required by both types of events;

(b) The process for appointing an investigating officer or officers and a description of the authorities and responsibilities of the investigating officer or officers. The investigating officer or officers must:

(i) Have the appropriate training and experience as determined by the policy;

(ii) Not have been involved in the incident or accident so as to avoid any conflict of interest;

(iii) Have full access to all persons, records, and relevant organizations that may have information about or may have contributed to, directly or indirectly, the incident or accident under investigation, in compliance with any affected employee's or employees' respective collective bargaining agreement and state laws and rules regarding public disclosure under chapter 42.56 RCW;

(iv) Be provided with, if requested by the investigating officer or officers, appropriate outside technical expertise; and

(v) Be provided with staff and legal support by the Washington state ferries as may be appropriate to the type of investigation;

(c) The process of working with the affected employee or employees in accordance with the employee's or employees' respective collective bargaining agreement and the appropriate union officials, within protocols afforded to all public employees;

(d) The process by which the United States coast guard is kept informed of, interacts with, and reviews the investigation;

(e) The process for review, approval, and implementation of any approved recommendations within the department; and

(f) The process for keeping the public informed of the investigation and its outcomes, in compliance with any affected employee's or employees' respective collective bargaining agreement and state laws and rules regarding public disclosure under chapter 42.56 RCW.

(14) $7,300,000 of the Puget Sound ferry operations account--state appropriation is provided solely for the purposes of
travel time associated with Washington state ferries employees. However, if Engrossed Substitute House Bill No. 3209 (managing costs of ferry system) is enacted by June 30, 2010, containing an appropriation for purposes of travel time associated with Washington state ferries employees, the amount provided in this subsection lapses.

(15) $50,000 of the Puget Sound ferry operations account—state appropriation is provided solely to implement a mechanism to report on-time performance statistics.

(a) The department shall conduct a study to identify process changes that would improve on-time performance on a route-by-route basis. The study must include looking into the slowing down of vessels for fuel economy purposes and touch-and-go sailings on peak runs. The department shall report its findings to the transportation committees of the senate and house of representatives by December 1, 2010.

(b) The department shall, by November 1, 2010, report to the transportation committees of the legislature statistics regarding its on-time arrival and departure status on a route-by-route and month-by-month basis, as well as an annual route-by-route and systemwide basis, weighted by the number of customers on each sailing and distinguishing peak period on-time performance. The statistics must include reasons for any delays over ten minutes from the scheduled time. The statistics must be prominently displayed on the Washington state ferries' web site. Each Washington state ferries vessel and terminal must prominently display the statistics as they relate to their specific route.

(16) The department shall investigate outsourcing the call center functions planned for the ferry reservation system and report its findings to the transportation committees of the senate and house of representatives by December 15, 2010.

(17) By July 1, 2010, the department shall provide to the governor and the transportation committees of the senate and house of representatives a listing of all benefits that Washington state ferries union employees receive that other state employees do not traditionally receive. The listing must include any costs associated with these benefits.

The department shall pursue a contract for the second and third Island Home class ferry vessels with an option to purchase a fourth Island Home class ferry vessel. However, if sufficient resources are available to build one 144-auto vessel prior to exercising the option to build the fourth Island Home class ferry vessel, procurement of the fourth Island Home class ferry vessel will be postponed and the department shall pursue procurement of a 144-auto vessel.

(a) The first two Island Home class ferry vessels must be placed on the Port Townsend-Keystone route.

(b) The department may add additional passenger capacity to one of the Island Home class ferry vessels to make it more flexible within the system in the future, if doing so does not require additional staffing on the vessel.

(c) Cost savings from the following initiatives will be included in the funding of these vessels: The department's review and update of the vessel life-cycle cost model as required under this section; and the implementation of technology efficiencies as required under section 602 of this act.

(b) The department shall conduct a cost-benefit study on alternative furnishings and fittings for the 144-vehicle vessel class. The study must review the proposed interior furnishings and fittings for the long-term maintenance and out-of-service vessel costs and, if appropriate, propose alternative interior furnishings and fittings that will decrease long-term maintenance and out-of-service vessel costs. The study must include a projection of out-of-service time and a life-cycle cost analysis of planned out-of-service time, including the impact on fleet size. The department must submit the study to the joint transportation committee by August 1, 2010.

(5) $3,000,000 of the Puget Sound capital construction account—federal appropriation is provided solely for completing the Anacortes terminal design up to the maximum allowable construction cost phase. Beyond preparing environmental work, these funds may be spent only after the following conditions have been met: (a) A value engineering process is conducted on the existing design and the concept of a terminal building smaller than preferred alternative; (b) the office of financial management participates in the value engineering process; (c) the office of financial management concurs with the recommendations of the value engineering process; and (d) the office of financial management gives its approval to proceed with the design work.

(6) $3,965,000 of the Puget Sound capital construction account—state appropriation is provided solely for the following vessel projects: Waste heat recovery pilot project for the Issaquah; jumbo Mark 1 class steering gear ventilation pilot project; and improvements to the Yakima and Kaleetan propulsion controls to allow for two engine operation. Before beginning these projects, the Washington state ferries must ensure the vessels’ out-of-service time does not negatively impact service to the system.

(7) The department shall pursue purchasing a foreign-flagged vessel for service on the Anacortes, Washington to Sidney, British Columbia ferry route.

(8) The department shall provide to the office of financial management and the legislature quarterly reports providing the status on each project listed in this section and in the project lists submitted pursuant to this act and on any additional projects for which the department has expended funds during the 2009-11 fiscal biennium. Elements must include, but not be limited to, project scope, schedule, and costs. The department shall also provide the information required under this subsection via the transportation executive information systems (TEIS). The quarterly report regarding the status of projects identified on the list referenced in subsection (1) of this section must be developed according to an earned value method of project monitoring.

(9) The department shall review and adjust its capital program staffing levels to ensure staffing is at the most efficient level necessary to implement the capital program in the omnibus transportation appropriations act. (i) The costs compared to benefits of Eagle Harbor repair and maintenance facility operations options to include staffing costs and benefits in terms of reduced out-of-service time;

(ii) The maintenance requirements for on-vessel staff, including the benefits of a systemwide standard;

(iii) The costs compared to benefits of staff performing preservation or maintenance work, or both, while the vessel is underway, tied up between sailings, or not deployed;

(iv) A review of the department’s vessel maintenance, preservation, and improvement program contracting process and contractual requirements;

(v) The costs compared to benefits of allowing for increased costs associated with expedited delivery;

(vi) A method for comparing the anticipated out-of-service time of proposed projects and other projects planned during the same construction period;

(vii) Coordination with required United States coast guard dry dockings;

(13) $247,000 of the Puget Sound capital construction account—state appropriation is provided solely for the Washington state ferries to review and update its vessel life-cycle cost model and report the results to the house of representatives and senate transportation committees of the legislature by (March 15) December 1, 2010. This review will evaluate the impact of the planned out-of-service periods scheduled for each vessel on the ability of the overall system to deliver uninterrupted service and will assess the risk of service disruption from unscheduled maintenance or longer than planned maintenance periods.

(14) The department shall work with the department of archaeology and historic preservation to ensure that the cultural resources investigation is properly conducted on all large ferry terminal projects. These projects must be conducted with active archaeological management. Additionally, the department shall establish a scientific peer review of independent archaeologists that are knowledgeable about the region and its cultural resources.

(15) The Puget Sound capital construction account—state appropriation includes up to $114,000,000 in proceeds from the sale of bonds authorized in RCW 47.10.843.

(16) The Puget Sound capital construction account—state appropriation reflects the reduction of three terminal positions due to decreased terminal activity and funding.

(17) The department shall provide data to the transportation committees of the senate and house of representatives for a transparent analysis of travel pay policies.

RULING BY THE PRESIDENT

President Owen: "In ruling on the Point of Order raised by Senator Schoesler as to whether the House amendments to Engrossed Second Substitute Senate Bill 6267 fit within the scope and object of the underlying bill, the President finds and rules as follows:

The underlying bill as it left the Senate expanded an existing program for processing water rights applications to include cost reimbursement programs and expedited processing, and provided some additional tools for water users and the Department of Ecology to use in determining water rights. The House amendments add additional changes to the program for processing such rights, such as including direct funding, increasing current fees, and allowing the agency to adjust fees following consultation with the Legislature. The amendments..."
FIFTY NINTH DAY, MARCH 10, 2010

further make changes to metering requirements for certain exempt wells, a provision not directly related to processing water rights applications. Altogether, the House amendments impermissibly broaden the subject matter of the bill to include substantive provisions outside of the original bill’s focus, which was limited to modifying an existing program to process or expedite water right applications.

For these reasons, the President finds that the House amendments are beyond the scope and object of the Senate bill, and Senator Schoesler’s point is well-taken."

MESSAGE FROM THE HOUSE

March 10, 2010

MR. PRESIDENT:

Regarding funding distribution formulas for K-12 education.

The measure was read the second time.

MOTION

Senator McAuliffe moved that the following striking amendment by Senator McAuliffe be adopted:
FIFTY NINTH DAY, MARCH 10, 2010

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. (1) It is the legislature's intent to continue implementation of chapter 548, Laws of 2009, by adopting the technical details of a new distribution formula for the instructional program of basic education. The legislature intends to continue to review and revise the formulas and may make revisions as necessary for technical purposes and consistency in the event of mathematical or other technical errors.

(2) The legislature further intends to adjust the timelines for the working groups created under chapter 548, Laws of 2009, so that their expertise and advice can be received as soon as possible and to make adjustments to the composition of the local finance working group. The legislature further intends to clarify the legislature's intent to fully fund all-day kindergarten by the 2018-19 school year.

Sec. 2. RCW 28A.150.315 and 2009 c 548 s 107 are each amended to read as follows:

(1) Beginning with the 2007-08 school year, funding for voluntary all-day kindergarten programs shall be phased-in beginning with schools with the highest poverty levels, defined as those schools with the highest percentages of students qualifying for free and reduced-price lunch support in the prior school year. The funding shall continue to be phased-in until full statewide implementation of all-day kindergarten is achieved in the 2018-19 school year. Once a school receives funding for the all-day kindergarten program, that school shall remain eligible for funding in subsequent school years regardless of changes in the school's percentage of students eligible for free and reduced-price lunches as long as other program requirements are fulfilled. Additionally, schools receiving all-day kindergarten program support shall agree to the following conditions:

(a) Provide at least a one thousand-hour instructional program;

(b) Provide a curriculum that offers a rich, varied set of experiences that assist students in:

(i) Developing initial skills in the academic areas of reading, mathematics, and writing;

(ii) Developing a variety of communication skills;

(iii) Providing experiences in science, social studies, arts, health and physical education, and a world language other than English;

(iv) Acquiring large and small motor skills;

(v) Acquiring social and emotional skills including successful participation in learning activities as an individual and as part of a group; and

(vi) Learning through hands-on experiences;

(c) Establish learning environments that are developmentally appropriate and promote creativity;

(d) Demonstrate strong connections and communication with early learning community providers; and

(e) Participate in kindergarten program readiness activities with early learning providers and parents.

(2) Subject to funds appropriated for this purpose, the superintendent of public instruction shall designate one or more school districts to serve as resources and examples of best practices in designing and operating a high-quality all-day kindergarten program. Designated school districts shall serve as lighthouse programs and provide technical assistance to other school districts in the initial stages of implementing an all-day kindergarten program. Examples of topics addressed by the technical assistance include strategic planning, developing the instructional program and curriculum, working with early learning providers to identify students and communicate with parents, and developing kindergarten program readiness activities.

Sec. 3. 2009 c 548 s 302 (uncodified) is amended to read as follows:

(1) The legislature recognizes that providing students with the opportunity to access a world-class educational system depends on
our continuing ability to provide students with access to world-class educators. The legislature also understands that continuing to attract and retain the highest quality educators will require increased investments. The legislature intends to enhance the current salary allocation model and recognizes that changes to the current model cannot be imposed without great deliberation and input from teachers, administrators, and classified employees. Therefore, it is the intent of the legislature to begin the process of developing an enhanced salary allocation model that is collaboratively designed to ensure the rationality of any conclusions regarding what constitutes adequate compensation.

(2) Beginning July 1, 2011, the office of financial management in collaboration with the office of the superintendent of public instruction, shall convene a technical working group to recommend the details of an enhanced salary allocation model that aligns state expectations for educator development and certification with the compensation system and establishes recommendations for a concurrent implementation schedule. In addition to any other details the technical working group deems necessary, the technical working group shall make recommendations on the following:

(a) How to reduce the number of tiers within the existing salary allocation model;
(b) How to account for labor market adjustments;
(c) How to account for different geographic regions of the state where districts may encounter difficulty recruiting and retaining teachers;
(d) The role of and types of bonuses available;
(e) Ways to accomplish salary equalization over a set number of years; and
(f) Initial fiscal estimates for implementing the recommendations including a recognition that staff on the existing salary allocation model would have the option to grandfather in permanently to the existing schedule.

(3) As part of its work, the technical working group shall conduct or contract for a preliminary comparative labor market analysis of salaries and other compensation for school district employees to be conducted and shall include the results in any reports to the legislature. For the purposes of this subsection, “salaries and other compensation” includes average base salaries, average total salaries, average employee basic benefits, and retirement benefits.

(4) The analysis required under subsection (1) of this section must:

(a) Examine salaries and other compensation for teachers, other certificated instructional staff, principals, and other building-level certificated administrators, and the types of classified employees for whom salaries are allocated;
(b) Be calculated at a statewide level that identifies labor markets in Washington through the use of data from the United States bureau of the census and the bureau of labor statistics; and
(c) Include a comparison of salaries and other compensation to the appropriate labor market for at least the following subgroups of educators: Beginning teachers and types of educational staff associates.

(5) The working group shall include representatives of the department of personnel, the professional educator standards board, the office of the superintendent of public instruction, the Washington education association, the Washington association of school administrators, the association of Washington school principals, the Washington state school directors’ association, the public school employees of Washington, and other interested stakeholders with appropriate expertise in compensation related matters. The working group may convene advisory subgroups on specific topics as necessary to assure participation and input from a broad array of diverse stakeholders.

NEW SECTION. Sec. 5. A new section is added to chapter 28A.300 RCW to read as follows:

The office of the superintendent of public instruction shall implement and maintain an internet-based portal that provides ready public access to the state’s prototypical school funding model for basic education under RCW 28A.150.260. The portal must provide citizens the opportunity to view, for each local school building, the staffing levels and other prototypical school funding elements that are assumed under the state funding formula. The portal must also provide a matrix displaying how individual school districts are deploying those same state resources through their allocation of staff and other resources to school buildings, so that citizens are able to compare the state assumptions to district allocation decisions for each local school building.

NEW SECTION. Sec. 6. The legislature intends to continue to refine and provide greater detail to the distribution formula for the basic education instructional allocation, which shall be based on minimum staffing and staff costs that the legislature deems necessary to support instruction and operations in prototypical schools as defined by the legislature. The legislature expects that the detailed prototype school model will bring greater transparency, understanding, and public accountability to the funding system because it displays funding assumptions in understandable terms centered on the operations of school buildings.

Sec. 7. RCW 28A.150.260 and 2009 c 548 s 106 are each amended to read as follows:

The purpose of this section is to provide for the allocation of state funding that the legislature deems necessary to support school districts in offering the minimum instructional program of basic education under RCW 28A.150.220. The allocation shall be determined as follows:

(1) The governor shall and the superintendent of public instruction may recommend to the legislature a formula for the distribution of a basic education instructional allocation for each common school district.

(2) The distribution formula under this section shall be for allocation purposes only. Except as may be required under chapter 28A.155, 28A.165, 28A.180, or ((28A.155)) 28A.185 RCW, or federal laws and regulations, nothing in this section requires school districts to use basic education instructional funds to implement a particular instructional approach or service. Nothing in this section requires school districts to maintain a particular classroom teacher-to-student ratio or other staff-to-student ratio or to use allocated funds to pay for particular types or classifications of staff. Nothing in this section entitles an individual teacher to a particular teacher planning period.

(3)(a) To the extent the technical details of the formula have been adopted by the legislature and except when specifically provided as a school district allocation, the distribution formula for the basic education instructional allocation shall be based on minimum staffing and nonstaff costs that the legislature deems necessary to support instruction and operations in prototypical schools serving high, middle, and elementary school students as provided in this section. The use of prototypical schools for the distribution formula does not constitute legislative intent that schools should be operated or structured in a similar fashion as the prototypes. Prototypical schools illustrate the level of resources needed to operate a school of a particular size with particular types and grade levels of students using commonly understood terms and
 inputs, such as class size, hours of instruction, and various categories of school staff. It is the intent that the funding allocations to school districts be adjusted from the school prototypes based on the actual number of annual average full-time equivalent students in each grade level at each school in the district and not based on the grade-level configuration of the school to the extent that data is available. The allocations shall be further adjusted from the school prototypes with minimum allocations for small schools and to reflect other factors identified in the omnibus appropriations act.

(b) For the purposes of this section, prototypical schools are defined as follows:

(i) A prototypical high school has six hundred average annual full-time equivalent students in grades nine through twelve;

(ii) A prototypical middle school has four hundred thirty-two average annual full-time equivalent students in grades seven and eight; and

(iii) A prototypical elementary school has four hundred average annual full-time equivalent students in grades kindergarten through six.

(4)(a) The minimum allocation for each level of prototypical school shall be based on the number of full-time equivalent classroom teachers needed to provide instruction over the minimum required annual instructional hours under RCW 28A.150.220 and provide at least one teacher planning period per school day, and based on ((am)) the following general education average class size ((as specified in the omnibus appropriations act)) of full-time equivalent students per teacher:

(b) The minimum allocation for each prototypical middle and high school shall also provide for full-time equivalent classroom teachers based on the following number of full-time equivalent students per teacher in career and technical education:

The House insists on its position regarding the House amendment(s) to ENGROSSED SUBSTITUTE SENATE BILL NO. 6774 and asks the Senate to concur thereon.

and the same is herewith transmitted.

BARBARA BAKER, Chief Clerk

POINT OF ORDER

Senator Marr: “Mr. President, pursuant to Rule 66, I move the House amendment to Engrossed Substitute Senate Bill No. 6774 beyond the scope and object of the underlying bill. I have a very brief argument. The bill as it left the Senate simply provided an alternative governance structure for transportation benefit districts that include more than, that include an area in more than one jurisdiction. The House amendment, however, has nothing to do with this issue. Rather, it expands the jurisdictions eligible to create a transportation benefit district. Under current law only counties and cities may create a TBD or Transportation Benefit District. Under current law, or however, under the House amendment certain districts are allowed temporary create a TBD or jurisdiction TBD, I respectfully request a ruling that the amendment is beyond the scope and object of the bill and violates Rule 66. Thank Mr. President.”

MOTION

On motion of Senator Eide, further consideration of Engrossed Substitute Senate Bill No. 6774 was deferred and the bill held its place on the days calendar.

(2) The liability of a governmental entity in an action under this section that is based on a parent's significant involvement in an adult child's life is limited to situations where the governmental entity's acts or omissions are negligent and are a proximate cause of the death of the claimant, and where the governmental entity is not otherwise immune or where the governmental entity's liability is not otherwise limited by statute or case law.
(3) For the purposes of this section, "governmental entity" means the state, local agencies, political subdivisions, and any officers, employees, or agents of the state, local agencies, or political subdivisions.

(1) Every (tuch) action under RCW 4.20.010 shall be for the benefit of the (wife, husband) spouse, state registered domestic partner, (child) or children, including stepchildren, of the person whose death shall have been so caused. If there ((is)) is no (wife, husband) spouse, state registered domestic partner, or (such) child ((or children, such)), the action may be maintained for the benefit of:
(a) The parents((sisters, or brothers, who may be dependent upon the deceased person for support, and who are resident within the United States at the time of his death)) of a deceased adult child if the parents are financially dependent upon the adult child for support or if the parents have had significant involvement in the adult child's life; or
(b) Sisters or brothers who are financially dependent upon the decedent for support if there is no spouse, state registered domestic partner, child, or parent.

In every such action the jury may (give such) award economic and noneconomic damages as((s)) under all circumstances of the case((s)) may to them seem just. In an action under RCW 4.20.010 that is based on a parent's significant involvement in an adult child's life, economic damages include any student loan balance that the parent may be obligated to repay as a result of acting as a cosigner or guarantor on the decedent's student loans, except for student loan balances that, under the terms of the loan, are eligible for a complete discharge upon the death of the borrower.

(5) A district's maximum levy percentage shall be twenty-two percent in 1998 and twenty-four percent in 1999 and every year thereafter; plus, for qualifying districts, the grandfathered percentage determined as follows:

(d) "Initiative 732 base" means the prior year's state allocation for annual salary cost-of-living increases for district employees in the state-funded salary base as it would have been calculated under chapter 4, Laws of 2001, if each annual cost-of-living increase allocation had been provided in previous years and in each subsequent year.

NEW SECTION. Sec. 5. Section 2 of this act expires January 1, 2018.

Senators Pflug and King spoke in favor of adoption of the amendment.

Senator McAuliffe spoke against adoption of the amendment.
On motion of Senator McAuliffe, the rules were suspended, Substitute House Bill No. 2893 was advanced to third reading, the second reading considered the third and the bill was placed on final passage.

Senators McAuliffe, Tom, Oemig and Marr spoke in favor of passage of the bill.

Senators King, Honeyford, Pflug, Schoesler and Purlette spoke against passage of the bill.

Senator Jacobsen spoke on final passage.

MOTION

Senator Eide demanded that the previous question be put. The President declared that at least two additional senators joined the demand and the demand was sustained.

The President declared the question before the Senate to be the motion of Senator Eide, “Shall the main question be now put?”

The motion by Senator Eide that the previous question be put carried by voice vote.

The President declared the question before the Senate to be the final passage of Substitute House Bill No. 2893.

ROLL CALL

The Secretary called the roll on the final passage of Substitute House Bill No. 2893 and the bill passed the Senate by the following vote: Yeas, 29; Nays, 19; Absent, 0; Excused, 1.

Voting nay: Senators Berkey, Brown, Eide, Fairley, Franklin, Fraser, Gordon, Hargrove, Hatfield, Haugen, Hobbs, Jacobsen, Kastama, Kauffman, Keiser, Kilmer, Kline, Kohl-Welles, Marr, McAuliffe, McDermott, Murray, Oemig, Prentice, Pridemore, Ranker, Regala, Rockefeller, Sheldon, Shin and Tom

Excused: Senator McCaslin

POINT OF INQUIRY

Senator McAuliffe: “Would Senator Oemig yield to a question? Senator Oemig, if the voters of a school district passed the maintenance and operation levy in February 2010, can the school board place on the ballot request for a supplemental levy for the fall of 2010 election?”

Senator Oemig: “Thank you, Mr. President. Yes, and I might read from the bill? To answer the question, yes indeed. I think this bill specifically allows that in the language in section four, subsequently enacted increases affecting the districts levy base or maximum levy percentage may be passed that would be consistent in any special election or in the upcoming general election.”

POINT OF INQUIRY

Senator Franklin: “Would Senator McAuliffe yield to a question? Thank you Senator. As you know we have been searching for quite a long time one equator solution to this issue of levy equalization and wondering if we will ever get there? This of course was a major sticking point of the former Senator Al Bauer. In short, my question will be, will we ever resolve the levy equalization question?”

Senator McAuliffe: “Thank you Senator. We are very serious about adjusting this issue. The education reform bill that we passed last session created a levy work group made up of OPM, SPI the education stake holders and eight legislators that we just added to that in a bill yesterday. We are very serious about dealing with levies and levy equalizations and the inequities. The report is due back to us on December of 2011 with a brief report January 2011. So, we will, next year, be able to address this issue as we come back into session. Maybe just a few adjustments and then finally after their final report, they can help us to deal with the inequities.”

MOTION

President Owen: “In ruling on the Point of Order raised by Senator Marr as to whether the house amendment fits within the scope and object of Engrossed Substitute Senate Bill 6774, the President finds and rules as follows:

In general, a bill with a single limited subject can be challenging to amend without raising issues of scope and object. The underlying bill as it left the Senate contained one direct point, regarding a transportation benefit districts that include areas from more than one jurisdiction. Specifically, it provided that a metropolitan planning organization with boundaries identical to a transportation benefit district may act as the governing body of the district. The House amendment goes further, and would expand the power to create a transportation benefit district. This
power is currently limited to cities and counties; under the House amendment, by contrast, the power would no longer be so limited. The power to create a transportation benefit district as the House amendment provides is distinct from the power of governing one.

For these reasons, the President finds that the House amendment is beyond the scope and object of the underlying bill, and Senator Marr’s point is well-taken.”

**MODESTY**

Senator Marr moved that the Senate refuse to concur in the House amendment(s) to Engrossed Substitute Senate Bill No. 6774 and ask the House to recede therefrom.

The President declared the question before the Senate to be motion by Senator Marr that the Senate refuse to concur in the House amendment(s) to Engrossed Substitute Senate Bill No. 6774 and ask the House to recede therefrom.

The motion by Senator Marr carried and the Senate refused to concur in the House amendment(s) to Engrossed Substitute Senate Bill No. 6774 and asked the House to recede therefrom by voice vote.

**RULING BY THE PRESIDENT**

President Owen: “In ruling upon the point of order raised by Senator Brandland as to whether the House amendment to Second Engrossed Substitute Senate Bill 6508 violates Senate Rule 25 by including a subject not reflected in the bill’s title, the President finds and rules as follows:

This is the second title challenge to this particular bill this Session. In the previous ruling issued on March 9th, the President noted that the bill as passed by the Senate defined the rights and liabilities of various parties with respect to the wrongful death of an adult child. The Senate version included a joint and several liability provision to limit claims against the state and local governments. This was in keeping with the title of the bill, which provides:

AN ACT Relating to wrongful death or survival actions by changing the class of persons entitled to recoveries and by limiting the liability of state and local agencies and political subdivisions in those recoveries...

The House amendment removes the joint and several liability limitation altogether, but replaces it with new language which states that such liability:

[I]s limited to situations where the governmental entity's acts or omissions are negligent and are a proximate cause of the death of the claimant, and where the governmental entity is not otherwise immune or where the governmental entity's liability is not otherwise limited by statute or case law.

Senator Brandland argues that this language does not, in fact, limit liability, but instead does nothing more than restate the present case law standard. Whatever the merits of this argument may be, it is not for the President to make such a legal determination. Perhaps more importantly, there are many possible ways to address the question of the limits of liability, and it is not appropriate for the President to substitute his judgment for that of the body on what is clearly a policy choice. Rather, the President’s role is simply to determine whether this particular policy choice is correctly reflected in the title of the bill.

Because this House amendment—like the underlying bill as passed by the Senate—assigns and limits the rights and liabilities of various private and governmental parties, it fits within the title of the bill.

For these reasons, the President finds that the House amendment is properly before this body for concurrence, and Senator Brandland’s point is not well-taken.”

**REMARKS BY THE PRESIDENT**

President Owen: “Now, further remarks of the President. Because of all the controversy and confusion surrounding this bill the President believes that it is appropriate to offer some additional explanation…appreciate the body’s patience as he offers these comments.

As a practice, both sides of this argument have handed in written material to assist the President in understanding the issue and their arguments. Senator Brandland, who will be missed, handed in a one page explanation that was very clear and written in plain English. Senator Gordon also submitted an argument—a three page, single spaced legal treatise. While there is simply not enough time to read his entire brief and still sine die before midnight tonight the President would like to thank the good Senator from the Forty-first District for his restraint and not including any encrustation-covered hands within the argument. For the body’s own edification however, the President will share that this brief included an English case from 1865 as well as a, this is true, as well a story about a lion that get’s loose and eats people. The terms non-germane, expurgated, congruent, chattels, surprisige, circumscribed and tortuous are used throughout this brief. The President, lacking the energy to go and check a legal dictionary, will assume that they are used correctly. There are also references to nuclear power, cyanide gas, crop dusting and vessel or admiralty law. I am not lying. To perhaps provide some prospective advice to Senator Gordon, the President would like to inform the body that, should a crop duster drop a lion onto a nuclear-powered ship and should cyanide gas be used to contain that lion before it can eat anyone, rest assured that an emergency clause on a bill to address that problem would likely be well received and ruled within the scope of the bill.”

The Senate resumed consideration of Second Engrossed Substitute Senate Bill No. 6508 which had been deferred earlier in the day.

Senators Hargrove, Carrell, Honeyford and Pflug spoke against the motion.

Senators Gordon and Kline spoke in favor of the motion.

The President declared the question before the Senate to be the motion by Senator Fairley that the Senate concur in the House amendment(s) to Second Engrossed Substitute Senate Bill No. 6508.

The motion by Senator Fairley failed and the Senate did not concur in the House amendment(s) to Second Engrossed Substitute Senate Bill No. 6508 by voice vote.

**MESSAGE FROM THE HOUSE**

Any person affected by this provision shall receive appropriate mental health treatment governed by a formalized treatment plan targeted at mental health rehabilitation needs and shall be afforded his or her rights under RCW 10.77.140, 10.77.150, and 10.77.200. The secretary of the department of social and health services shall retain legal custody of any person placed under this section and review any placement outside of a department mental health hospital every three months, or sooner if warranted by the person's mental health status, to determine if the placement remains appropriate.

(2) Beginning December 1, 2010, and every six months thereafter, the secretary shall report to the governor and the appropriate committees of the legislature regarding the use of the authority under this section to transfer persons to a secure facility. The report shall include information related to the number of persons who have been placed in a secure facility operated by the secretary or the secretary of the department of corrections, and the length of time that each such person has been in the secure facility.

Sec. 4. RCW 10.77.120 and 2000 c 94 s 15 are each amended to read as follows:

Such persons shall be under the custody and control of the secretary to the same extent as are other persons who are committed to the secretary's custody, but such provision shall be made for their care, and treatment as is proper in view of their condition)) of the secretary. In order that the secretary may adequately determine the nature of the mental illness or developmental disability of the person committed ((to him or her)) as criminally insane, ((and in order for the secretary to place such individuals in a proper facility,)) all persons who are committed to the secretary as criminally insane shall be promptly examined by qualified personnel in ((such a manner as)) order to provide a proper evaluation and diagnosis of such individual. If the decision of the hearing remits the person to custody, the department employee shall return the person to such institution or facility designated by the secretary. If the state appeals an order of release, such appeal shall operate as a stay, and the person shall remain in custody and be returned to the institution or facility designated by the secretary until a final decision has been rendered in the cause.

Sec. 5. RCW 10.77.150 and 1998 c 297 s 41 are each amended to read as follows:

(1) Persons examined pursuant to RCW 10.77.140 may make application to the secretary for conditional release. The secretary shall, after considering the reports of experts or professional persons conducting the examination pursuant to RCW 10.77.140, forward to the court of the county which ordered the person's commitment the person's application for conditional release as well as the secretary's recommendations concerning the application and any proposed terms and conditions upon which the secretary reasonably believes the person can be conditionally released. Conditional release may also contemplate partial release for work, training, or educational purposes.

(2) In instances in which persons examined pursuant to RCW 10.77.140 have not made application to the secretary for conditional release, but the secretary, after considering the reports of experts or professional persons conducting the examination pursuant to RCW 10.77.140, reasonably believes the person may be conditionally released, the secretary may submit a recommendation for release to the court of the county that ordered the person's commitment. The secretary's recommendation must include any proposed terms and conditions upon which the secretary reasonably believes the person may be conditionally released. Conditional release may also include partial release for work, training, or educational purposes. Notice of the secretary's recommendation under this subsection must be provided to the person for whom the secretary has made the recommendation for release and to his or her attorney.

The court may schedule a hearing on applications recommended for disapproval by the secretary.

(b) The prosecuting attorney shall represent the state at such hearings and shall have the right to have the patient examined by an expert or professional person of the prosecuting attorney's choice. If the committed person is indigent, and he or she so requests, the court shall appoint a qualified expert or professional person to examine the person on his or her behalf.

(c) The issue to be determined at such a hearing is whether or not the person may be released conditionally without substantial danger to other persons, or substantial likelihood of committing criminal acts jeopardizing public safety or security.

(d) The court, after the hearing, shall rule on the secretary's recommendations, and if it disapproves of conditional release, may do so only on the basis of substantial evidence. The court may modify the suggested terms and conditions on which the person is to be conditionally released. Pursuant to the determination of the court after hearing, the committed person shall thereupon be released on such conditions as the court determines to be necessary, or shall be remitted to the custody of the secretary. If the order of conditional release includes a requirement for the committed person to report to a community corrections officer, the order shall also specify that the conditionally released person shall be under the supervision of the secretary of corrections or such person as the secretary of corrections may designate and shall follow explicitly the instructions of the secretary of corrections including reporting as directed to a community corrections officer, remaining within prescribed geographical boundaries, and notifying the community corrections officer prior to making any change in the offender's address or employment. If the order of conditional release includes a requirement for the committed person to report to a community corrections officer, the community corrections officer shall notify the secretary or the secretary's designee, if the person is not in compliance with the court-ordered conditions of release.

Sec. 6. RCW 10.77.160 and 1993 c 31 s 7 are each amended to read as follows:

Sec. 7. RCW 10.77.190 and 1998 c 297 s 43 are each amended to read as follows:

(1) Any person submitting reports pursuant to RCW 10.77.160, the secretary, or the prosecuting attorney may petition the court to, or the court on its own motion may schedule an immediate hearing for the purpose of modifying the terms of conditional release if the petitioner or the court believes the released person is failing to adhere to the terms and conditions of his or her conditional release or is in need of additional care and treatment.

(2) If the prosecuting attorney, the secretary of social and health services, the secretary of corrections, or the court, after examining the report filed with them pursuant to RCW 10.77.160, or based on other information received by them, reasonably believes that a conditionally released person is failing to adhere to the terms and conditions of his or her conditional release the court or secretary of
social and health services or the secretary of corrections may order that the conditionally released person be apprehended and taken into custody ((until such time as a hearing can be scheduled to determine the facts and whether or not the person's conditional release should be revoked or modified)). The court shall be notified of the apprehension before the close of the next judicial day ((of the apprehension)). The court shall schedule a hearing within thirty days to determine whether or not the person's conditional release should be modified or revoked. Both the prosecuting attorney and the conditionally released person shall have the right to request an immediate mental examination of the conditionally released person. If the conditionally released person is indigent, the court or secretary of social and health services or the secretary of corrections or their designees shall, upon request, assist him or her in obtaining a qualified expert or professional person to conduct the examination.

(3) If the hospital or facility designated to provide outpatient care determines that a conditionally released person presents a threat to public safety, the hospital or facility shall immediately notify the secretary of social and health services or the secretary of corrections or their designees. The secretary shall order that the conditionally released person be apprehended and taken into custody.

(4) The court, upon receiving notification of the apprehension, shall promptly schedule a hearing. The issue to be determined is whether the conditionally released person did or did not adhere to the terms and conditions of his or her release, or whether the person presents a threat to public safety. Pursuant to the determination of the court upon such hearing, the conditionally released person shall either continue to be conditionally released on the same or modified conditions or his or her conditional release shall be revoked and he or she shall be committed subject to release only in accordance with provisions of this chapter.

Sec. 8. RCW 10.77.200 and 2000 c 94 s 16 are each amended to read as follows:

(1) Upon application by the committed or conditionally released person, the secretary shall determine whether or not reasonable grounds exist for release. In making this determination, the secretary may consider the reports filed under RCW 10.77.060, 10.77.110, 10.77.140, and 10.77.160, and other reports and evaluations provided by professionals familiar with the case. If the secretary approves the release he or she shall then authorize the person to petition the court.

(2) In instances in which persons have not made application for release, but the secretary believes, after consideration of the reports filed under RCW 10.77.060, 10.77.110, 10.77.140, and 10.77.160, and other reports and evaluations provided by professionals familiar with the case, that reasonable grounds exist for release, the secretary may petition the court. If the secretary petitions the court for release under this subsection, notice of the petition must be provided to the person who is the subject of the petition and to his or her attorney.

(3) The petition shall be served upon the court and the prosecuting attorney. The court, upon receipt of the petition for release, shall within forty-five days order a hearing. Continuance of the hearing date shall only be allowed for good cause shown. The prosecuting attorney shall represent the state, and shall have the right to have the petitioner examined by an expert or professional person of the prosecuting attorney's choice. If the petitioner is indigent, and the person so requests, the court shall appoint a qualified expert or professional person to examine him or her. If the petitioner (is developmentally disabled) has a developmental disability, the examination shall be performed by a developmental disabilities professional. The hearing shall be before a jury if demanded by either the petitioner or the prosecuting attorney. The burden of proof shall be upon the petitioner to show by a preponderance of the evidence that the petitioner no longer presents, as a result of a mental disease or defect, a substantial danger to other persons, or a substantial likelihood of committing criminal acts jeopardizing public safety or security, unless kept under further control by the court or other persons or institutions.

(4) For purposes of this section, a person affected by a mental disease or defect in a state of remission is considered to have a mental disease or defect requiring supervision when the disease may, with reasonable medical probability, occasionally become active and, when active, render the person a danger to others. Upon a finding that the petitioner has a mental disease or defect in a state of remission under this subsection, the court may deny release, or place or continue such a person on conditional release.

(5) Nothing contained in this chapter shall prohibit the patient from petitioning the court for release or conditional release from the institution in which he or she is committed. The issue to be determined on such proceeding is whether the petitioner, as a result of a mental disease or defect, is a substantial danger to other persons, or presents a substantial likelihood of committing criminal acts jeopardizing public safety or security, unless kept under further control by the court or other persons or institutions.

(6) Nothing contained in this chapter shall prohibit the committed person from petitioning for release by writ of habeas corpus.

NEW SECTION. Sec. 9. A new section is added to chapter 10.77 RCW to read as follows:

For persons who have received court approval for conditional release, the secretary or the secretary's designee shall supervise the person's compliance with the court-ordered conditions of release. The level of supervision provided by the secretary shall correspond to the level of the person's public safety risk. In undertaking supervision of persons under this section, the secretary shall coordinate with any treatment providers designated pursuant to RCW 10.77.150(3), any department of corrections staff designated pursuant to RCW 10.77.150(2), and local law enforcement, if appropriate. The secretary shall adopt rules to implement this section.

Correct the title.
and the same are herewith transmitted.

March 9, 2010

MR. PRESIDENT:
The House receded from its amendment(s) to ENGROSSED SUBSTITUTE SENATE BILL NO. 5902. Under suspension of the rules, the bill was returned to second reading for the purpose of an amendment. The House adopted the following amendment: 5902-S.E AMH LIIA H5639.1, and passed the bill as amended by the House.

Strike everything after the enacting clause and insert the following:

**NEW SECTION.** Sec. 1. The legislature finds that when people who have disabilities are welcomed and included as members of our communities and provided with equal access to the opportunities available to others, their participation enriches those communities, enhances the strength of those communities' diversity, and contributes toward the economic vitality of those communities. The legislature further finds that more than nine hundred thousand Washington state residents with disabilities continue to face barriers to full participation that could be easily eliminated.

**NEW SECTION.** Sec. 2. (1) The accessible communities account is created in the custody of the state treasurer. One hundred dollars of the assessment imposed under RCW 46.16.381 (7), (8), and (9) must be deposited into the account. Any reduction in the penalty or fine and assessment imposed under section 6 of this act shall be applied proportionally between the penalty or fine and the assessment.

(2) The account is subject to the allotment procedures under chapter 43.88 RCW, but an appropriation is not required for expenditures. Only the commissioner may authorize expenditures from the account.

(3) Expenditures from the account may be used for promoting greater awareness of disability issues and improved access for and inclusion and acceptance of persons with disabilities in communities in the state of Washington, including:

(a) Reimbursing travel, per diem, and reasonable accommodation for county accessible community advisory committee meetings and committee sponsored activities including, but not limited to, supporting the involvement of people with disabilities and disability organization in emergency planning and emergency preparedness activities;

(b) Establishing and maintaining an accessible communities web site;

(c) Providing training or technical assistance for county accessible community advisory committees;

(d) A grant program for funding proposals developed and submitted by county accessible community advisory committees to promote greater awareness of disability issues and acceptance, inclusion, and access for persons with disabilities within the community;

(e) Reimbursing the state agency that provides administrative support to the governor's committee on disability issues and employment for costs associated with implementing this act; and

(f) Programming changes to the judicial information system accounting module required for disbursement of funds to this account.

**NEW SECTION.** Sec. 3. A new section is added to chapter 50.40 RCW to read as follows:

(1) To the extent allowed by funds available from the accessible communities account created in section 2 of this act, the governor's committee on disability issues and employment shall:

(a) Determine eligibility of accessible community advisory committee reimbursement or for grant funding according to section 4 of this act; and

(b) Solicit proposals from active accessible community advisory committees for projects to improve disability awareness and access for persons with disabilities, and shall select projects for funding from moneys available in the accessible communities account.

(2) The commissioner shall adopt rules to administer this section.

(3) To the extent allowed by funds available from the accessible communities account created in section 2 of this act, the governor's committee on disability issues and employment shall establish an accessible communities web site to provide the following information: Guidance, technical assistance, reference materials, and resource identification for local governments, accessible community advisory committees, and public accommodations; examples of best practices for local initiatives and activities to promote greater awareness of disability issues and access for persons with disabilities within the community; and a searchable listing of local public accommodations that have taken steps to be more disability friendly, including information on the specific access features provided.

**NEW SECTION.** Sec. 4. A new section is added to chapter 36.01 RCW to read as follows:

(1) A county has the option to expand the scope of an advisory committee established and maintained under RCW 29A.46.260 to that of an accessible community advisory committee, or to create an accessible community advisory committee.

(2) A county that has an active accessible community advisory committee may be reimbursed within available funds from the accessible communities account created in section 2 of this act for travel, per diem, and reasonable accommodation expenses for the participation of that committee's members in committee meetings and sponsored activities.

(3) A county establishes that it has an active accessible community advisory committee by submitting biennial assurances to the governor's committee on disability issues and employment that:

(a) The decision to establish an accessible community advisory committee was made by the county legislative authority, or by agents or officers acting under that authority.

(b) If an accessible community advisory committee is established by expanding the advisory committee established and maintained under RCW 29A.46.260, the county auditor supports that expansion.
(c) Committee members include persons with a diverse range of disabilities who are knowledgeable in identifying and eliminating attitudinal, programmatic, communication, and physical barriers encountered by persons with disabilities.

(d) The committee is actively involved in the following activities: Advising on addressing the needs of persons with disabilities in emergency plans; advising the county and other local governments within the county on access to programs services and activities, new construction or renovation projects, sidewalks, other pedestrian routes of travel, and disability parking enforcement; and developing local initiatives and activities to promote greater awareness of disability issues, and acceptance, involvement, and access for persons with disabilities within the community.

(4) Counties may form joint accessible community advisory committees, as long as no more than one of the participating counties has a population greater than seventy thousand.

Sec. 5. RCW 29A.46.260 and 2006 c 207 s 7 are each amended to read as follows:

(1) The legislature finds that the elimination of polling places resulting from the transition to vote by mail creates barriers that restrict the ability of many voters with disabilities from achieving the independence and privacy in voting provided by the accessible voting devices required under the help America vote act. Counties adopting a vote by mail system must take appropriate steps to mitigate these impacts and to address the obligation to provide voters with disabilities an equal opportunity to vote independently and privately, to the extent that this can be achieved without incurring undue administrative and financial burden.

(2) Each county shall establish and maintain an advisory committee that includes persons with diverse disabilities and persons with expertise in providing accommodations for persons with disabilities. The committee shall assist election officials in developing a plan to identify and implement changes to improve the accessibility of elections for voters with disabilities. The plan shall include recommendations for the following:

(a) The number of polling places that will be maintained in order to ensure that people with disabilities have reasonable access to accessible voting devices, and a written explanation for how the determination was made;

(b) The locations of polling places, drop-off facilities, voting centers, and other election-related functions necessary to maximize accessibility to persons with disabilities;

(c) Outreach to voters with disabilities on the availability of disability accommodation, including in-person disability access voting;

(d) Transportation of voting devices to locations convenient for voters with disabilities in order to ensure reasonable access for voters with disabilities; and

(e) Implementation of the provisions of the help America vote act related to persons with disabilities.

Counties must update the plan at least annually. The election review staff of the secretary of state shall review and evaluate the plan in conformance with the review procedure identified in RCW 29A.04.570.

(3) Counties may form a joint advisory committee to develop the plan identified in subsection (2) of this section if (the total population of the joining counties does not exceed thirty thousand and the counties are geographically adjacent) no more than one of the participating counties has a population greater than seventy thousand.

Sec. 6. RCW 46.16.381 and 2007 c 262 s 1 and 2007 c 44 s 1 are each reenacted and amended to read as follows:

(1) The director shall grant special parking privileges to any person who has a disability that limits or impairs the ability to walk or involves acute sensitivity to light and meets one of the following criteria, as determined by a licensed physician, an advanced registered nurse practitioner licensed under chapter 18.79 RCW, or a physician assistant licensed under chapter 18.71A or 18.57A RCW:

(a) Cannot walk two hundred feet without stopping to rest;

(b) Is severely limited in ability to walk due to arthritic, neurological, or orthopedic condition;

(c) Has such a severe disability, that the person cannot walk without the use of or assistance from a brace, cane, another person, prosthetic device, wheelchair, or other assistive device;

(d) Uses portable oxygen;

(e) Is restricted by lung disease to such an extent that forced expiratory respiratory volume, when measured by spirometry is less than one liter per second or the arterial oxygen tension is less than sixty mm/hg on room air at rest; or

(f) Impairment by cardiovascular disease or cardiac condition to the extent that the person's functional limitations are classified as class III or IV under standards accepted by the American Heart Association;

(g) Has a disability resulting from an acute sensitivity to automobile emissions which limits or impairs the ability to walk. The personal physician, advanced registered nurse practitioner, or physician assistant of the applicant shall document that the disability is comparable in severity to the others listed in this subsection;

(h) Is legally blind and has limited mobility; or

(i) Is restricted by a form of porphyria to the extent that the applicant would significantly benefit from a decrease in exposure to light.

(2) The applications for parking permits for persons with disabilities and parking permits for persons with temporary disabilities are official state documents. Knowingly providing false information in conjunction with the application is a gross misdemeanor punishable under chapter 9A.20 RCW. The following statement must appear on each application form immediately below the physician's, advanced registered nurse practitioner's, or physician assistant's signature and immediately below the applicant's signature: "A parking permit for a person with disabilities may be issued only for a medical necessity that severely affects mobility or involves acute sensitivity to light (RCW 46.16.381). Knowingly providing false information on this application is a gross misdemeanor. The penalty is up to one year in jail and a fine of up to $5,000 or both."

(3) Persons who qualify for special parking privileges are entitled to receive from the department of licensing a removable windshield placard bearing the international symbol of access and an individual serial number, along with a special identification card bearing the name and date of birth of the person to whom the placard is issued, and the placard's serial number. The special identification card shall be issued to all persons who are issued parking placards, including those issued for temporary disabilities, and special parking license plates for persons with disabilities. The department shall design the placard to be displayed when the vehicle is parked by suspending it from the rearview mirror, or in the absence of a rearview mirror the card may be displayed on the dashboard of any vehicle used to transport the person with disabilities. Instead of regular motor vehicle license plates, persons with disabilities are entitled to receive special license plates under this section or RCW 46.16.385 bearing the international symbol of access for one vehicle registered in the name of the person with disabilities. Persons with disabilities who are not issued the special license plates are entitled to receive a second special placard upon submitting a written request to the department. Persons who have been issued the parking privileges and who are using a vehicle or are riding in a vehicle displaying the placard or special license plates issued under this section or RCW 46.16.385 may park in places reserved for persons
with physical disabilities. The director shall adopt rules providing for the issuance of special placards and license plates to public transportation authorities, nursing homes licensed under chapter 18.51 RCW, boarding homes licensed under chapter 18.20 RCW, senior citizen centers, private nonprofit agencies as defined in chapter 24.03 RCW, and vehicles registered with the department as cabulances that regularly transport persons with disabilities who have been determined eligible for special parking privileges provided under this section. The director may issue special license plates for a vehicle registered in the name of the public transportation authority, nursing home, boarding home, senior citizen center, private nonprofit agency, or cabulance service if the vehicle is primarily used to transport persons with disabilities described in this section. Public transportation authorities, nursing homes, boarding homes, senior citizen centers, private nonprofit agencies, and cabulance services are responsible for insuring that the special placards and license plates are not used improperly and are responsible for all fines and penalties for improper use.

(4) Whenever the person with disabilities transfers or assigns his or her interest in the vehicle, the special license plates shall be removed from the motor vehicle. If another vehicle is acquired by the person with disabilities and the vehicle owner qualifies for a special plate, the plate shall be attached to the vehicle, and the director shall be immediately notified of the transfer of the plate. If another vehicle is not acquired by the person with disabilities, the removed plate shall be immediately surrendered to the director.

(5) The special license plate shall be renewed in the same manner and at the time required for the renewal of regular motor vehicle license plates under this chapter. No special license plate may be issued to a person who is temporarily disabled. A person who has a condition expected to improve within six months may be issued a temporary placard for a period not to exceed six months. If the condition exists after six months a new temporary placard shall be issued upon receipt of a new certification from the person's physician. The permanent parking placard and identification card of a person with disabilities shall be renewed at least every five years, as required by the director, by satisfactory proof of the right to continued use of the privileges. In the event of the permit holder's death, the parking placard and identification card must be immediately surrendered to the department. The department shall match and purge its database of parking permits issued to persons with disabilities with available death record information at least every twelve months.

(6) Additional fees shall not be charged for the issuance of the special placards or the identification cards. No additional fee may be charged for the issuance of the special license plates except the regular motor vehicle registration fee and any other fees and taxes required to be paid upon registration of a motor vehicle.

(7) Any unauthorized use of the special placard, special license plate issued under this section or RCW 46.16.385, or identification card is a (traffic) parking infraction with a monetary penalty of two hundred fifty dollars. In addition to any penalty or fine imposed under this subsection, two hundred dollars shall be assessed.

(8) It is a parking infraction, with a monetary penalty of two hundred fifty dollars for a person to park in, block, or otherwise make inaccessible the access aisle located next to a space reserved for persons with physical disabilities. In addition to any penalty or fine imposed under this subsection, two hundred dollars shall be assessed. The clerk of the court shall report all violations related to this subsection to the department.

(9) It is a parking infraction, with a monetary penalty of two hundred fifty dollars for any person to park a vehicle in a parking place provided on private property without charge or on public property reserved for persons with physical disabilities without a placard or special license plate issued under this section or RCW 46.16.385. In addition to any penalty or fine imposed under this subsection, two hundred dollars shall be assessed. If a person is charged with a violation, the person shall not be determined to have committed an infraction if the person produces in court or before the court appearance the placard or special license plate issued under this section or RCW 46.16.385 required under this section. A local jurisdiction providing nonmetered, on-street parking spaces reserved for persons with physical disabilities may impose by ordinance time restrictions of no less than four hours on the use of these parking places. A local jurisdiction may impose by ordinance time restrictions of no less than four hours on the use of nonreserved, on-street parking spaces by vehicles displaying the special parking placards or special license plates issued under this section or RCW 46.16.385. All time restrictions must be clearly posted.

(10) ((The penalties)) (a) The assessment imposed under subsections (7), (8), and (9) of this section shall be allocated as follows:

(i) One hundred dollars shall be deposited in the accessible communities account created in section 2 of this act; and

(ii) One hundred dollars shall be deposited in the multimodal transportation account under RCW 47.66.070 for the sole purpose of supplementing a grant program for special needs transportation provided by transit agencies and nonprofit providers of transportation that is administered by the department of transportation.

(b) Any reduction in any penalty or fine and assessment imposed under subsections (7), (8), and (9) of this section shall be applied proportionally between the penalty or fine and the assessment. When a reduced penalty is imposed under subsection (7), (8), or (9) of this section, the amount deposited in the accounts identified in (a) of this subsection shall be reduced equally and proportionally.

(c) The penalty or fine amounts shall be used by that local jurisdiction exclusively for law enforcement. The court may also impose an additional penalty sufficient to reimburse the local jurisdiction for any costs it may have incurred in removal and storage of the improperly parked vehicle.

(11) Except as provided by subsection (2) of this section, it is a traffic infraction with a monetary penalty of two hundred fifty dollars for any person willfully to obtain a special license plate issued under this section or RCW 46.16.385, placard, or identification card in a manner other than that established under this section.

(12)(a) A law enforcement agency authorized to enforce parking laws may appoint volunteers, with a limited commission, to issue notices of infractions for violations of this section or RCW 46.61.581. Volunteers must be at least twenty-one years of age. The law enforcement agency appointing volunteers may establish any other qualifications the agency deems desirable.

(b) An agency appointing volunteers under this section must provide training to the volunteers before authorizing them to issue notices of infractions.

(c) A notice of infraction issued by a volunteer appointed under this subsection has the same force and effect as a notice of infraction issued by a police officer for the same offense.

(d) A police officer or a volunteer may request a person to show the person's identification card or special parking placard when investigating the possibility of a violation of this section. If the request is refused, the person in charge of the vehicle may be issued a notice of infraction for a violation of this section.

(13) For second or subsequent violations of this section, in addition to a monetary fine, the violator must complete a minimum of forty hours of:

(a) Community restitution for a nonprofit organization that serves persons having disabilities or disabling diseases; or
(b) Any other community restitution that may sensitize the violator to the needs and obstacles faced by persons who have disabilities.

(14) The court may not suspend more than one-half of any fine imposed under subsection (7), (8), (9), or (11) of this section.

(15) For the purposes of this section, "legally blind" means a person who: (a) Has no vision or whose vision with corrective lenses is so limited that the individual requires alternative methods or skills to do efficiently those things that are ordinarily done with sight by individuals with normal vision; or (b) has an eye condition of a progressive nature which may lead to blindness.

**Sec. 7.** RCW 43.79A.040 and 2009 c 87 s 4 are each amended to read as follows:

(1) Money in the treasurer's trust fund may be deposited, invested, and reinvested by the state treasurer in accordance with RCW 43.84.080 in the same manner and to the same extent as if the money were in the state treasury.

(2) All income received from investment of the treasurer's trust fund shall be set aside in an account in the treasury trust fund to be known as the investment income account.

Refocusing the department of commerce, including transferring programs.

The measure was read the second time.

MOTION

Senator Kastama moved that the following striking amendment by Senator Kastama and others be adopted:

Strike everything after the enacting clause and insert the following:

“NEW SECTION. Sec. 1. In 2009, the legislature changed the name of the department of community, trade, and economic development to the department of commerce and directed the agency to, among other things, develop a report with recommendations on statutory changes to ensure that the department’s efforts: Are organized around a concise core mission and aligned with the state’s comprehensive plan for economic development; generate greater local capacity; maximize results through partnerships and the use of intermediaries; and provide transparency and increased accountability. Recommendations for creating or consolidating programs deemed important to meeting the department’s core mission and recommendations for terminating or transferring specific programs if they are not consistent with the department’s core mission were to be included in the report.

In accordance with that legislation, chapter 565, Laws of 2009, in November 2009 the department of commerce submitted a plan that establishes a mission of growing and improving jobs in the state and recognizes the need for an innovation-driven economy. The plan also outlines agency priorities, efficiencies, and program transfers that will help to advance the new mission.

The primary purpose of this act is to implement portions of the department of commerce plan by transferring certain programs from the department of commerce to other state agencies whose missions are more closely aligned with the core functions of those programs. This act also directs additional efficiencies in state government and directs development of a statewide clean energy strategy, which will better enable the department of commerce to focus on its new mission.

Sec. 2. RCW 43.330.005 and 1993 c 280 s 1 are each amended to read as follows:

The legislature finds that the long-term economic health of the state and its citizens depends upon the strength and vitality of its communities and businesses. It is the intent of this chapter to create a (merged) department of (community, trade, and economic development) commerce that fosters new partnerships for strong and sustainable communities. (The consolidation of the department of trade and economic development and the department of community development into one department will) The mission of the department is to grow and improve jobs in Washington and facilitate innovation. To carry out its mission, the department will bring together focused efforts to: Streamline access to business assistance and economic development services by providing (a simpler point of entry for state programs) them through sector-based, cluster-based, and regional partners; provide focused and flexible responses to changing economic conditions; generate greater local capacity to respond to both economic growth and environmental challenges; (and) increase accountability to the public, the executive branch, and the legislature((A new department can bring together a focused effort to)); manage growth and achieve sustainable development; diversify the state’s economy and export goods and services; provide greater access to economic opportunity; stimulate private sector investment and entrepreneurship; provide stable family-wage jobs and meet the diverse needs of families; provide affordable housing and housing services; and construct public infrastructure((Protect our cultural heritage and promote the health and safety of the state’s citizens)).

The legislature further finds that as a result of the rapid pace of global social and economic change, the state and local communities will require coordinated and creative responses by every segment of the community. The state can play a role in assisting such local efforts by reorganizing state assistance efforts to promote such partnerships. The department has a primary responsibility to provide financial and technical assistance to the communities of the state, to assist in improving the delivery of federal, state, and local programs, and to provide communities with opportunities for productive and coordinated development beneficial to the well-being of communities and their residents. It is the intent of the legislature in (this consolidation) creating the department to maximize the use of local expertise and resources in the delivery of community and economic development services.

Sec. 3. RCW 43.330.007 and 2009 c 565 s 1 are each amended to read as follows:

(1) The purpose of this chapter is to establish the broad outline of the structure of the department of commerce, leaving specific details of its internal organization and management to those charged with its administration. This chapter identifies the broad functions and responsibilities of the department and is intended to provide flexibility to the director to reorganize these functions to more closely reflect its customers, its mission, and its priorities, and to make recommendations for changes.

(2) In order to generate greater local capacity, maximize results through partnerships and the use of intermediaries, and leverage the use of state resources, the department shall, in carrying out its business assistance and economic development functions, provide business and economic development services primarily through...
NEW SECTION. Sec. 4. The department shall examine the functions and operations of agricultural commodity commissions in the state and collaborate with industry sector and cluster associations on legislation that would enable industries to develop self-financing systems for addressing industry-identified issues such as workforce training, international marketing, quality improvement, and technology deployment. NEW SECTION. Sec. 5. (1) The legislature recognizes that there are many strong community services and housing programs currently operating within the department and serving our most vulnerable individuals, families, and communities. The legislature finds that some of these programs can readily be transferred beginning on July 1, 2010, to other mission-aligned agencies in state government. However, the legislature finds that to maintain the strength and credibility of the majority of the department's community services and housing programs, it is necessary to create a separate division for them within the department.

In addition to other authorities, the county or city may impose conditions on building permits requiring connection to an existing public water system where the existing system is willing and able to provide safe and reliable potable water to the applicant with reasonable economy and efficiency. An application for a water right shall not be sufficient proof of an adequate water supply.

(2) Within counties not required or not choosing to plan pursuant to RCW 36.70A.040, the county and the state may mutually determine those areas in the county in which the requirements of subsection (1) of this section shall not apply.    (c) Establishes policies and practices needed to ensure the effective implementation of the strategy.
(2) The legislature further finds that energy drives the entire modern economy from petroleum for vehicles to electricity to light homes and power businesses. The legislature further finds that the nation and the world have started the transition to a clean energy economy, with significant improvements in energy efficiency and investments in new clean and renewable energy resources and technologies. The legislature further finds this transition may increase or decrease energy costs and efforts should be made to mitigate cost increases.

MESSAGE FROM THE HOUSE

March 10, 2010

MR. PRESIDENT:
The House receded from its amendment(s) to SUBSTITUTE SENATE BILL NO. 6355. Under suspension of the rules, the bill was returned to second reading for the purpose of an amendment. The House adopted the following amendment: 6355-S AMH WALL H5659.2, and passed the bill as amended by the House.

Strike everything after the enacting clause and insert the following:

“NEW SECTION. Sec. 1. The legislature finds that the state institutions of higher education are providing a high quality education to the citizens of the state. The legislature further finds that to meet goals of the strategic master plan for higher education the state needs a higher education system that is capable of delivering many more degrees. The legislature also finds that expansion of the system should be based on the proven demands of the citizens and the marketplace, a concept called “expand on demand.” The legislature further finds that the higher education coordinating board, in collaboration with the state board for community and technical colleges, the two-year and four-year institutions of higher education, and other stakeholders developed a system design plan that contains seven guiding principles for system expansion, focuses near-term enrollment growth at university branch campuses, comprehensive universities, and university centers where existing capacity is available without new state capital investment, establishes a process for evaluating major new capital expansion, and creates a fund for innovation to foster change and innovation in higher education delivery. The legislature finds that
the strategies in the plan support the concept of expand on demand and would increase degree production by first reinvesting in higher education to use existing capacity while also providing long-term strategies to guide decisions on when and where to build new campuses, significantly expand existing sites, and change missions of existing institutions.

The legislature endorses the system design plan, approved by the higher education coordinating board in November 2009, and adopts the recommendations and strategies in the plan.

Sec. 2. RCW 28B.50.020 and 2009 c 64 s 2 are each amended to read as follows:

The purpose of this chapter is to provide for the dramatically increasing number of students requiring high standards of education either as a part of the continuing higher education program or for occupational education and training, or for adult basic skills and literacy education, by creating a new, independent system of community and technical colleges which will:

1. Offer an open door to every citizen, regardless of his or her academic background or experience, at a cost normally within his or her economic means;

2. Ensure that each college district shall offer thoroughly comprehensive educational, training, and service programs to meet the needs of both the communities and students served by combining high standards of excellence in academic transfer courses; realistic and practical courses in occupational education, both graded and ungraded; community services of an educational, cultural, and recreational nature; and adult education, including basic skills and general, family, and workforce literacy programs and services;

3. Provide for basic skills and literacy education, and occupational education and technical training at technical colleges in order to prepare students for careers in a competitive workforce;

4. Provide or coordinate related and supplemental instruction for apprentices at community and technical colleges;

5. Provide administration by state and local boards which will avoid unnecessary duplication of facilities or programs; and which will encourage efficiency in operation and creativity and imagination in education, training, and service to meet the needs of the community and students;

6. Allow for the growth, improvement, flexibility and modification of the community colleges and their education, training, and service programs as future needs occur; and

7. Establish firmly that, except on a pilot basis, as provided under RCW 28B.50.810, community colleges are, for purposes of academic training, two year institutions, and are an independent, unique, and vital section of our state's higher education system, separate from both the common school system and other institutions of higher learning, and never to be considered for conversion into four year liberal arts colleges).

Sec. 3. RCW 28B.50.810 and 2008 c 166 s 2 are each amended to read as follows:

1. (By April 2006.) The college board (shall) may select four community or technical colleges to develop and offer programs of study leading to an applied baccalaureate degree. (At least one of the four pilot programs chosen must lead to a baccalaureate of applied science degree which builds on an associate of applied science degree. The college board shall convene a task force that includes representatives of both the community and technical colleges to develop objective selection criteria.

2. By February 2008, the college board shall select up to three colleges to develop and offer programs of study leading to an applied baccalaureate degree. At least one of the colleges selected must be a technical college. The college board shall use the objective selection criteria developed under subsections (1) and (3) of this section to make the selection.

3. Colleges may submit applications to become a pilot college under this section. The college board and the higher education coordinating board shall review the applications and select the colleges using objective criteria, including, but not limited to:

(a) The college demonstrates the capacity to make a long-term commitment of resources to build and sustain a high quality program;

(b) The college has or can readily engage faculty appropriately qualified to develop and deliver a high quality curriculum at the baccalaureate level;

(c) The college can demonstrate demand for the proposed program from a sufficient number of students within its service area to make the program cost-effective and feasible to operate;

(d) The college can demonstrate that employers demand the level of technical training proposed within the program, making it cost-effective for students to seek the degree; and

(e) The proposed program fills a gap in options available for students because it is not offered by a public four-year institution of higher education in the college's geographic area.

4. (A college selected as a pilot college under this section may develop the curriculum for and design and deliver courses leading to an applied baccalaureate degree. However, degree programs developed under this section are subject to approval by the college board under RCW 28B.50.090 and by the higher education coordinating board under RCW 28B.76.230 before a college may enroll students in upper division courses. (A pilot college approved under subsection (1) of this section may not enroll students in upper division courses before the fall academic quarter of 2006. A pilot college approved under subsection (2) of this section may not enroll students in upper division courses before the fall academic quarter of 2006.))

Sec. 4. RCW 28B.76.020 and 1985 c 370 s 2 are each amended to read as follows:

1. "Board" means the higher education coordinating board;

2. "Four-year institutions" means the University of Washington, Washington State University, Central Washington University, Eastern Washington University, Western Washington University, and The Evergreen State College.

3. "Major expansion" means expansion of the higher education system that requires significant new capital investment, including building new institutions, campuses, branches, or centers or conversion of existing campuses, branches, or centers that would result in a mission change.

4. "Mission change" means a change in the level of degree awarded or institutional type not currently authorized in statute.

Sec. 5. RCW 28B.76.230 and 2005 c 258 s 11 are each amended to read as follows:

1. The board shall develop a comprehensive and ongoing assessment process to analyze the need for additional degrees and programs, additional off-campus centers and locations for degree programs, and consolidation or elimination of programs by the four-year institutions. Board recommendations regarding proposed major expansion shall be limited to determinations of whether the major expansion is within the scope indicated in the most recent strategic master plan for higher education or most recent system design plan. Recommendations regarding existing capital prioritization processes are not within the scope of the evaluation of major expansion. Major expansion and proposed mission changes
may be proposed by the board, any public institution of higher education, or by a state or local government.  

(2) As part of the needs assessment process, the board shall examine:  

(a) Projections of student, employer, and community demand for education and degrees, including liberal arts degrees, on a regional and statewide basis;  

(b) Current and projected degree programs and enrollment at public and private institutions of higher education, by location and mode of service delivery;  

(c) Data from the workforce and training and education coordinating board and the state board for community and technical colleges on the supply and demand for workforce education and certificates and associate degrees;  

(d) Recommendations from the technology transformation task force created in chapter 407, Laws of 2009, and institutions of higher education relative to the strategic and operational use of technology in higher education. These and other reports, reviews, and audits shall allow for:  

The development of enterprise-wide digital information technology across educational sectors, systems, and delivery methods; the integration and streamlining of administrative tools including but not limited to student information management, financial management, payroll, human resources, data collection, reporting, and analysis; and a determination of the costs of multiple technology platforms, systems, and models.  

(3) Every two years the board shall produce, jointly with the state board for community and technical colleges and the workforce training and education coordinating board, an assessment of the number and type of higher education and training credentials required to match employer demand for a skilled and educated workforce. The assessment shall include the number of forecasted net job openings at each level of higher education and training and the number of credentials needed to match the forecast of net job openings.  

(4) The board shall determine whether certain major lines of study or types of degrees, including applied degrees or research-oriented degrees, shall be assigned uniquely to some institutions or institutional sectors in order to create centers of excellence that focus resources and expertise.  

(5) The following activities are subject to approval by the board:  

(a) New degree programs by a four-year institution;  

(b) Creation of any off-campus program by a four-year institution;  

(c) Purchase or lease of major off-campus facilities by a four-year institution or a community or technical college;  

(d) Creation of higher education centers and consortia;  

(e) New degree programs and creation of off-campus programs by an independent college or university in collaboration with a community or technical college; and  

(f) Applied baccalaureate degree programs developed by colleges under RCW 28B.50.810.  

(6) Institutions seeking board approval under this section must demonstrate that the proposal is justified by the needs assessment developed under this section. Institutions must also demonstrate how the proposals align with or implement the statewide strategic master plan for higher education under RCW 28B.76.200.  

(7) The board shall develop clear guidelines and objective decision-making criteria regarding approval of proposals under this section, which must include review and consultation with the institution and other interested agencies and individuals.  

(8) The board shall periodically recommend consolidation or elimination of programs at the four-year institutions, based on the needs assessment analysis.  

(9) In the case of a proposed major expansion or mission change, the needs assessment process under subsection (2) of this section constitutes a threshold inquiry. If the board determines that the need for the proposed major expansion or mission change has not been justified, the inquiry is concluded. If the board determines that the need for the proposed major expansion or mission change has been sufficiently established, the board, in consultation with any directly involved institutions and other interested agencies and individuals, shall proceed to examine the viability of the proposal using criteria including, but not limited to:  

(a) The specific scope of the project including the capital investment requirements, the number of full-time equivalent students anticipated, and the number of academic programs planned;  

(b) The existence of an efficient and sustainable financial plan;  

(c) The extent to which existing resources can be leveraged;  

(d) The current and five-year projected student population, faculty, and staff to support the proposed programs, institution, or innovation;  

(e) The plans to accommodate expected growth over a twenty-year time frame;  

(f) The extent to which new or existing partnerships and collaborations are a part of the proposal; and  

(g) The feasibility of any proposed innovations to accelerate degree production.  

(10) After the board completes its evaluation of the proposed major expansion or mission change using the needs assessment under subsection (2) of this section and viability determination under subsection (9) of this section, the board shall make a recommendation to either proceed, modify, or not proceed with the proposed major expansion or mission change. The board’s recommendation shall be presented to the governor and the legislature.  

Sec. 6. RCW 28B.120.005 and 1999 c 169 s 2 are each amended to read as follows:  

The legislature finds that encouraging collaboration among the various educational sectors to meet statewide productivity and educational attainment needs as described in the system design plan developed by the higher education coordinating board will strengthen the entire educational system, kindergarten through twelfth grade and higher education. The legislature also recognizes that the most effective way to develop innovative and collaborative programs is to encourage institutions to develop them voluntarily, in line with established state goals. Through a system of competitive grants, the legislature shall encourage the development of innovative and collaborative and cost-effective solutions to issues of critical statewide need, including:  

(1) Raising educational attainment and planning and piloting innovative initiatives to reach new locations and populations;  

(2) Recognizing needs of special populations of students, including access and completion efforts targeting underrepresented populations;  

(3) Furthering the development of learner-centered, technology-assisted course delivery, including expansion of online and hybrid coursework, open courseware, and other uses of technology in order to effectively and efficiently share costs, improve the quality of instruction and student, faculty, and administrative services, increase undergraduate and graduate student access, retention, and graduation, and to enhance transfer capability;  

(4) Furthering the development of competency-based measurements of student achievement to be used as the basis for awarding degrees and certificates; and  

(5) Increasing the collaboration among both public and private sector institutions of higher education; and  

(6) Improving productivity through innovations such as accelerated programs and alternative scheduling.
The Washington fund for innovation and quality in higher education program is established. The higher education coordinating board shall administer the program (for the purpose of awarding grants in which a four-year institution of higher education is named as the lead institution. The state board for community and technical colleges shall administer the program for the purpose of awarding grants in which a community or technical college is named as the lead institution) and shall work in close collaboration with the state board for community and technical colleges and other local and regional entities. Through this program the higher education coordinating board may award on a competitive basis incentive grants to state public or private nonprofit institutions of higher education or consortia of institutions to encourage (cooperative) programs designed to address specific system problems. (Grants shall not exceed a two-year period.) Each institution or consortia of institutions receiving the award shall contribute some financial support, either by covering part of the costs for the program during its implementation, or by assuming continuing support at the end of the grant period. Strong priority will be given to proposals that involve more than one sector of education (and to proposals that show substantive institutional commitment). Institutions are encouraged to solicit nonstate funds to support these cooperative programs.

The higher education coordinating board shall have the following powers and duties in administering the program for those proposals in which a four-year institution of higher education is named as the lead institution and fiscal agent:

(1) To adopt rules necessary to carry out the program;

(2) To establish one or more review committees to assist in the evaluation of proposals for funding. The review committee shall include individuals with significant experience in higher education in areas relevant to one or more of the funding period priorities and shall include representatives from both the four-year and two-year sectors of higher education;

(3) To award grants no later than September 1st in those years when funding is available by June 30th;

(4) To establish each biennium specific guidelines for submitting grant proposals consistent with RCW 28B.120.005 and consistent with the strategic master plan for higher education, the system design plan, the overall goals of the program and (consistent with) the guidelines established by the state board for community and technical colleges under RCW 28B.120.025. (During the 1999?01 biennium the guidelines shall be consistent with the following desired outcomes of:

(a) Minority and diversity initiatives that encourage the participation of minorities in higher education, including students with disabilities;

(b) K 12 teacher preparation models that encourage collaboration between higher education and K 12 to improve the preparedness of teachers, including provisions for higher education faculty involved with teacher preparation to spend time teaching in K 12 schools;

(c) Collaborative instructional programs involving K 12, community and technical colleges, and four-year institutions of higher education to develop a three-year degree program, or reduce the time to degree;

(d) Contracts with public or private institutions or businesses to provide services or the development of collaborative programs;

(e) Articulation and transfer activities to smooth the transfer of students from K 12 to higher education, or from the community colleges and technical colleges to four-year institutions;

(f) Projects that further the development of learner-centered, technology assisted course delivery; and

(g) Projects that further the development of competency-based measurements of student achievement to be used as the basis for awarding degrees and certificates.)

After June 30, 2001, and each biennium thereafter, the board shall determine funding priorities for (collaborative) proposals for the biennium in consultation with the governor, the legislature, the office of the superintendent of public instruction, the state board for community and technical colleges, the workforce training and education coordinating board, higher education institutions, educational associations, and business and community groups consistent with statewide needs;

(5) To solicit grant proposals and provide information to the institutions of higher education about the program; and

(6) To establish reporting, evaluation, accountability, monitoring, and dissemination requirements for the recipients of the grants awarded by the higher education coordinating board.

Sec. 9. RCW 43.88D.010 and 2008 c 205 s 2 are each amended to read as follows:

(1) By October (2) (1st) 1st of each even-numbered year, the office of financial management shall complete an objective analysis and scoring of all capital budget projects proposed by the public four-year institutions of higher education and submit the results of the scoring process to the legislative fiscal committees, the higher education coordinating board, and the four-year institutions, except that for 2008, the office of financial management shall complete the objective analysis and scoring by November 1st.

(2) Each project must be reviewed and scored within one of the following categories, according to the project’s principal purpose. Each project may be scored in only one category. The categories are:

(a) Access-related projects to accommodate enrollment growth at main and branch campuses, at existing or new university centers, or through distance learning. Growth projects should provide significant additional student capacity. Proposed projects must demonstrate that they are based on solid enrollment demand projections, more cost-effectively provide enrollment access than alternatives such as university centers and distance learning, and make cost-effective use of existing and proposed new space;

(b) Projects that replace failing permanent buildings (to renovate facilities to restore building life and upgrade space to meet current program requirements). Facilities that cannot be economically renovated are considered replacement projects. (Renovation projects should represent a complete renovation of a total facility or an isolated wing of a facility. A reasonable renovation project should cost between sixty to eighty percent of current replacement value and restore the renovated area to at least twenty-five years of useful life.) New space may be programmed for the same or a different use than the space being replaced (as renovated) and may include additions to improve access and enhance the relationship of program or support space;

(c) Projects that renovate facilities to restore building life and upgrade space to meet current program requirements. Renovation projects should represent a complete renovation of a total facility or an isolated wing of a facility. A reasonable renovation project should cost between sixty to eighty percent of current replacement value and restore the renovated area to at least twenty-five years of useful life. New space may be programmed for the same or a different use than the space being renovated and may include additions to improve access and enhance the relationship of program or support space;

(d) Major stand-alone campus infrastructure projects;

(4) Projects that promote economic growth and innovation through expanded research activity. The acquisition
and installation of specialized equipment is authorized under this category; and

((e)(ii)) (f) Other project categories as determined by the office of financial management in consultation with the legislative fiscal committees.

(2) The office of financial management, in consultation with the legislative fiscal committees ((and the joint legislative audit and review committee)), shall establish a scoring system and process for each four-year project category that is based on the framework used in the community and technical college system of prioritization. Staff from the state board for community and technical colleges, the higher education coordinating board, and the four-year institutions shall provide technical assistance on the development of a scoring system and process.

(3) The office of financial management shall consult with the legislative fiscal committees in the scoring of four-year institution project proposals, and may also solicit participation by ((the joint legislative audit and review committee and)) independent experts.

(a) For each four-year project category, the scoring system must, at a minimum, include an evaluation of enrollment trends, reasonableness of cost, the ability of the project to enhance specific strategic master plan goals, age and condition of the facility if applicable, and impact on space utilization.

(b) Each four-year project category may include projects at the predesign, design, or construction funding phase.

(c) To the extent possible, the objective analysis and scoring system of all capital budget projects shall occur within the context of any and all performance agreements between the office of financial management and the governing board of a public, four-year institution of higher education that aligns goals, priorities, desired outcomes, flexibility, institutional mission, accountability, and levels of resources.

(4) In evaluating and scoring four-year institution projects, the office of financial management shall take into consideration project schedules that result in realistic, balanced, and predictable expenditure patterns over the ensuing three biennia.

(5) The office of financial management shall distribute common definitions, the scoring system, and other information required for the project proposal and scoring process as part of its biennial budget instructions(( except that, for the 2009-2011 budget development cycle, this information must be distributed by July 1, 2008)). The office of financial management, in consultation with the legislative fiscal committees ((and the joint legislative audit and review committee)), shall develop common definitions that four-year institutions must use in developing their project proposals and lists under this section.

(6) In developing any scoring system for capital projects proposed by the four-year institutions, the office of financial management:

(a) Shall be provided with all required information by the four-year institutions as deemed necessary by the office of financial management;

(b) May utilize independent services to verify, sample, or evaluate information provided to the office of financial management by the four- year institutions; and

(c) Shall have full access to all data maintained by the higher education coordinating board and the joint legislative audit and review committee concerning the condition of higher education facilities.

(7) By August (((15th))) 1st of each even-numbered year((, beginning in 2008)), each public four-year higher education institution shall prepare and submit prioritized lists of the individual projects proposed by the institution for the ensuing six-year period in each category. ((On a pilot basis, the office of financial management shall require one research university to prepare two separate prioritized lists for each category, one for the main campus, and one covering all of the institution’s branch campuses. The office of financial management shall report to the legislative fiscal committees by December 1, 2009, on the effect of this pilot project on capital project financing for all branch campuses.)) The lists must be submitted to the office of financial management and the legislative fiscal committees. The four-year institutions may aggregate minor works project proposals by primary purpose for ranking purposes. Proposed minor works projects must be prioritized within the aggregated proposal, and supporting documentation, including project descriptions and cost estimates, must be provided to the office of financial management and the legislative fiscal committees.

Sec. 10. RCW 28B.76.210 and 2008 c 205 s 4 are each amended to read as follows:

(1) The board shall collaborate with the four-year institutions including the council of presidents, the community and technical college system, and when appropriate the workforce training and education coordinating board, the superintendent of public instruction, and the independent higher educational institutions to identify budget priorities and levels of funding for higher education, including the two and four-year institutions of higher education and state financial aid programs. It is the intent of the legislature that recommendations from the board reflect not merely the sum of budget requests from multiple institutions, but prioritized funding needs for the overall system of higher education.

(2) By December of each odd-numbered year, the board shall distribute guidelines which outline the board’s fiscal priorities to the institutions and the state board for community and technical colleges.

(a) The institutions and the state board for community and technical colleges shall submit an outline of their proposed operating budgets to the board no later than July 1st of each even-numbered year. Pursuant to guidelines developed by the board, operating budget outlines submitted by the institutions and the state board for community and technical colleges after January 1, 2007, shall include all policy changes and enhancements that will be requested by the institutions and the state board for community and technical colleges in their respective biennial budget requests. Operating budget outlines shall include a description of each policy enhancement, the dollar amount requested, and the fund source being requested.

(b) Capital budget outlines for the two-year institutions shall be submitted by August 15th of each even-numbered year, and shall include the prioritized ranking of the capital projects being requested, a description of each capital project, and the amount and fund source being requested.

(c) Capital budget outlines for the four-year institutions must be submitted by August 15th of each even-numbered year, and must include: The institutions’ priority ranking of the project; the capital budget category within which the project will be submitted to the office of financial management in accordance with RCW 43.88D.010; a description of each capital project; and the amount and fund source being requested.

(d) The office of financial management shall reference these reporting requirements in its budget instructions.

(3) The board shall review and evaluate the operating and capital budget requests from four-year institutions and the community and technical college system based on how the requests align with the board’s budget priorities, the missions of the institutions, and the statewide strategic master plan for higher education under RCW 28B.76.200.

(4) The board shall submit recommendations on the proposed operating budget and priorities to the office of financial management.
management by October 1st of each even-numbered year, and to the legislature by January 1st of each odd-numbered year.

(5) The board's capital budget recommendations for the community and technical college system and the four-year institutions must be submitted to the office of financial management (by November 15th of each even-numbered year) and to the legislature by (January 1st of each odd numbered) November 15th of each even-numbered year. The board's recommendations for the four-year institutions must include (the relative share of the higher education capital budget that the board recommends be assigned to each project category, as defined in RCW 43.88D.010, and to minor works, program and preservation) a single, prioritized list of the major projects that the board recommends be funded with state bond and building account appropriations during the forthcoming fiscal biennium. In developing this single prioritized list, the board shall:

(a) Seek to identify the combination of projects that will most cost-effectively achieve the state's goals. These goals include increasing baccalaureate and graduate degree production, particularly in high-demand fields; promoting economic development through research and innovation; providing quality, affordable educational environments; preserving existing assets; and maximizing the efficient utilization of instructional space;

(b) Be guided by the objective analysis and scoring of capital budget projects completed by the office of financial management pursuant to chapter 43.88D.100 RCW;

(c) Anticipate (i) that state bond and building account appropriations continue at the same level during each of the two subsequent fiscal biennia as has actually been appropriated for the baccalaureate institutions during the current one; (ii) that major projects funded for design during a biennium are funded for construction during the subsequent one before state appropriations are provided for new major projects; and (iii) that minor health, safety, code, and preservation projects are funded at the same average level as in recent biennia before state appropriations are provided for new major projects.

((64)) (6) Institutions and the state board for community and technical colleges shall submit any supplemental budget requests and revisions to the board at the same time they are submitted to the office of financial management. The board shall submit recommendations on the proposed supplemental budget requests to the office of financial management by November 1st and to the legislature by January 1st.

NEW SECTION. Sec. 11. A new section is added to chapter 28B.20 RCW to read as follows:

(1) This section provides an alternative process for awarding contracts for construction, building, renovation, remodeling, alteration, repair, or improvement of university buildings and facilities in which critical patient care or highly specialized medical research is located. These provisions may be used, in lieu of other procedures to award contracts for such work, when the estimated cost of the work is equal to or less than five million dollars and the project involves construction, renovation, remodeling, or alteration of improvements within a building that is used directly for critical patient care or highly specialized medical research.

(2) The university may create a single critical patient care or specialized medical research facilities roster or may create multiple critical patient care or specialized medical research facilities rosters for different trade specialties or categories of anticipated work. At least once a year, the university shall publish in a newspaper of general circulation a notice of the existence of the roster or rosters and solicit a statement of qualifications from contractors who wish to be on the roster or rosters of prime contractors. In addition, qualified contractors shall be added to the roster or rosters at any time they submit a written request, necessary records, and meet the qualifications established by the university. The university may require eligible contractors desiring to be placed on a roster to keep current records of any applicable licenses, certifications, registrations, bonding, insurance, or other appropriate matters on file with the university as a condition of being placed on a roster or rosters. Placement on a roster shall be on the basis of qualifications.

(3) The public solicitation of qualifications shall include but not be limited to:

(a) A description of the types of projects to be completed and where possible may include programmatic, performance, and technical requirements and specifications;

(b) The reasons for using the critical patient care and specialized medical research roster process;

(c) A description of the qualifications to be required of a contractor, including submission of an accident prevention program;

(d) A description of the process the university will use to evaluate qualifications, including evaluation factors and the relative weight of factors;

(e) The form of the contract to be awarded;

(f) A description of the administrative process by which the required qualifications, evaluation process, and project types may be appealed; and

(g) A description of the administrative process by which decisions of the university may be appealed.

(4) The university shall establish a committee to evaluate the contractors submitting qualifications. Evaluation criteria for selection of the contractor or contractors to be included on a roster shall include, but not be limited to:

(a) Ability of a contractor's professional personnel;

(b) A contractor's past performance on similar projects, including but not limited to medical facilities, and involving either negotiated work or other public works contracts;

(c) The contractor's ability to meet time and budget requirements;

(d) The contractor's ability to provide preconstruction services, as appropriate;

(e) The contractor's capacity to successfully complete the project;

(f) The contractor's approach to executing projects;

(g) The contractor's approach to safety and the contractor's safety history; and

(h) The contractor's record of performance, integrity, judgment, and skills.

(5) Contractors meeting the evaluation committee's criteria for selection must be placed on the applicable roster or rosters.

(6) When a project is selected for delivery through this roster process, the university must establish a procedure for securing written quotations from all contractors on a roster to assure that a competitive price is established. Invitations for quotations shall include an estimate of the scope and nature of the work to be performed as well as materials and equipment to be furnished. Plans and specifications must be included in the invitation but may not be detailed. Award of a project must be made to the responsible bidder submitting the lowest responsive bid.

(7) The university shall make an effort to solicit proposals from certified minority or certified woman-owned contractors to the extent permitted by the Washington state civil rights act, RCW 49.60.400.

(8) Beginning in September 2010 and every other year thereafter, the university shall provide a report to the capital projects advisory review board which must, at a minimum, include a list of rosters used, contracts awarded, and a description of outreach to and participation by women and minority-owned businesses.

NEW SECTION. Sec. 12. A new section is added to chapter 43.131 RCW to read as follows:
The alternative process for awarding contracts established in section 11 of this act terminates June 30, 2015, as provided in section 13 of this act.

NEW SECTION. Sec. 13. A new section is added to chapter 43.131 RCW to read as follows:

Section 11 of this act, as now existing or hereafter amended, is repealed, effective June 30, 2016.

MESSAGE FROM THE HOUSE

March 11, 2010

MR. PRESIDENT:

The House receded from its amendment(s) to ENGROSSED SECOND SUBSTITUTE SENATE BILL NO. 6267. Under
suspension of the rules, the bill was returned to second reading for the purpose of an amendment. The House adopted the following amendment: 6267-S2.E AMH BLAK H5701.1, and passed the bill as amended by the House.

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. Water is an essential element for economic prosperity and it generates new, family-wage jobs and state revenues. It is the intent of the legislature to provide both water right applicants and the department of ecology with the necessary tools to expedite the processing of water right applications depending on the needs of the project and agency workload.

NEW SECTION. Sec. 2. Sufficient resources to support the department of ecology's water resource program are essential for effective and sustainable water management that provides certainly to processed applications. The department of ecology shall review current water resource functions and fee structures, and report to the legislature and the governor by September 1, 2010, on improvements to make the program more self-sustaining and efficient.

Sec. 3. RCW 90.03.265 and 2003 c 70 s 6 are each amended to read as follows:

(1)(a) Any applicant for a new withdrawal or a change, transfer, or amendment of a water right pending before the department under (a) may initiate a cost-reimbursement agreement with the department to provide expedited review of the application. A cost-reimbursement agreement may be initiated under this section where the department finds that the application is or her own processing, the department may elect to initiate a coordinated cost-reimbursement process. To initiate this process, the department must notify in writing all persons who have pending applications on file for a new appropriation, change, transfer, or amendment of a water right from that water source. A water source may include surface water only, groundwater only, or surface and groundwater together if the department determines that they are hydraulically connected. The notice must be posted on the department's web site and published in a newspaper of general circulation in the area where affected properties are located. The notice must also be made individually by mail to:

(a) Inform those applicants that cost-reimbursement processing of applications within the described water source is being initiated;

(b) Provide to individual applicants the criteria under which the applications will be examined and determined;

(c) Provide to individual applicants the estimated cost for having an application processed on a cost-reimbursement basis;

(d) Provide an estimate of how long the cost-reimbursement process will take before an application is approved or denied; and

(e) Provide at least sixty days for the applicants to respond in writing regarding the applicant's decision to participate in the cost-reimbursement process.

(4) The applicant initiating the cost-reimbursement request must pay for the cost of the determination under subsections (2) and (3) of this section and other costs necessary for the initial phase of cost-reimbursement processing. The cost for each applicant for conducting processing under a coordinated cost-reimbursement agreement must be based primarily on the proportionate quantity of water requested by each applicant. The cost may be adjusted if it appears that an application will require a disproportionately greater amount of time and effort to process due to its complexity.

(5)(a) Only the department may approve or deny a water right application processed under this section, and such a final decision remains solely the responsibility and function of the department. The department retains full authority to amend, refuse, or approve any work product provided by any consultant under this section. The department may recover its costs related to: (i) The review of a consultant to ensure that no conflict of interest exists; (ii) the management of consultant contracts and cost-reimbursement agreements; and (iii) the review of work products provided by participating consultants.

(b) For any cost-reimbursement process initiated under subsection (1) of this section, the applicant may, after consulting with the department, select a prequalified consultant listed by the department under subsection (7) of this section or may be assigned such a prequalified consultant by the department.

(c) For any coordinated cost-reimbursement process initiated under subsection (3) of this section, the applicant may, after consulting with the department, select a prequalified consultant listed by the department under subsection (7) of this section or may be assigned a prequalified consultant by the department.

(d) In lieu of having one or more of the work products performed by a prequalified consultant listed under subsection (7) of
this section, the department may, at its discretion, recognize specific work completed by an applicant or an applicant's consultant prior to the initiation of cost-reimbursement processing. The department may also, at its discretion, authorize the use of such a consultant to perform a specific scope of the work that would otherwise be assigned to prequalified consultants listed under subsection (7) of this section.

(e) At any point during the cost-reimbursement process, the department may request or accept technical information, data, and analysis from the applicant or the applicant's consultant to support the cost-reimbursement process or the department's decision on the application.

(6) The department is authorized to adopt rules or guidance providing minimum qualifications and standards for any consultant's submission of work products under this section, including standards for submission of technical information, scientific analysis, work product documentation, review for conflict of interest, and report presentation that such a consultant must meet.

(7) The department must provide notice to potential consultants of the opportunity to be considered for inclusion on the list of cost-reimbursement consultants to whom work assignments will be made. The department must competitively select an appropriate number of consultants who are qualified by training and experience to investigate and make recommendations on the disposition of water right applications. The prequalified consultant list must be renewed at least every six years, though the department may add qualified cost-reimbursement consultants to the list at any time. The department must enter a master contract with each consultant selected and thereafter make work assignments based on availability and qualifications.

(8) The department may remove any consultant from the consultant list for poor performance, malfeasance, or excessive complaints from cost-reimbursement participants. The department may interview any cost-reimbursement consultant to determine whether the person is qualified for this work, and must spot-check the work of consultants to ensure that the public is being competently served.

(9) When a prequalified cost-reimbursement consultant from the department's list described in subsection (7) of this section is assigned or selected to investigate an application or set of applications, the consultant must document its findings and recommended disposition in the form of written draft technical reports and preliminary draft reports of examination. Within two weeks of the department receiving draft technical reports and preliminary draft reports of examination, the department shall provide the applicant such documents for review and comment prior to their completion by the consultant. The department shall consider such comments by the applicant prior to the department's issuance of a draft report of examination. The department may modify the preliminary draft reports of examination submitted by the consultant. The department's decision on a permit application is final unless it is appealed to the pollution control hearings board under chapter 43.21B RCW.

(10) If an applicant elects not to participate in a cost-reimbursement process, the application remains on file with the department, retains its priority date, and may be processed under regular processing, priority processing, expedited processing, coordinated cost-reimbursement processing, cost-reimbursement processing, or through conservancy board processing as authorized under chapter 90.80 RCW.

NEW SECTION. Sec. 4. A new section is added to chapter 90.03 RCW to read as follows:

The water rights processing account is created in the state treasury. All receipts from the fees collected under sections 5, 7, and 12 of this act must be deposited into the account. Money in the account may be spent only after appropriation. Expenditures from the account may only be used to support the processing of water right applications for a new appropriation, change, transfer, or amendment of a water right as provided in this chapter and chapters 90.42 and 90.44 RCW or for the examination, certification, and renewal of certification of water right examiners as provided in section 7 of this act.
application may not be processed through expedited processing within twelve months after the department's issuance of decisions on participating applications at the conclusion of expedited processing unless the applicant agrees to pay the full proportionate share that would otherwise have been paid during such processing. Any proceeds collected from an applicant under this delayed entry into expedited processing shall be used to reimburse the other applicants who participated in the previous expedited processing of applications, provided sufficient proceeds remain to fully cover the department's cost of processing the delayed entry application and the department's estimated administrative costs to reimburse the previously expedited applicants.

NEW SECTION. Sec. 6. A new section is added to chapter 90.03 RCW to read as follows:

The department must post notice on its web site and provide additional electronic notice and opportunity for comment to affected federally recognized tribal governments concurrently when providing notice to applicants under RCW 90.03.265 and sections 5 and 12 of this act.

NEW SECTION. Sec. 7. A new section is added to chapter 90.03 RCW to read as follows:

(1) The department shall establish and maintain a list of certified water right examiners. Certified water right examiners on the list are eligible to perform final proof examinations of permitted water uses leading to the issuance of a water right certificate under RCW 90.03.330. The list must be updated annually and must be made available to the public through written and electronic media.

(2) In order to qualify, an individual must be registered in Washington as a professional engineer, professional land surveyor, or registered hydrogeologist, or an individual must demonstrate at least five years of applicable experience to the department, or be a board member of a water conservancy board. Qualified individuals must also pass a written examination prior to being certified by the department. Such an examination must be administered by either the department or an entity formally approved by the department. Each certified water right examiner must demonstrate knowledge and competency regarding:

(a) Water law in the state of Washington;
(b) Measurement of the flow of water through open channels and enclosed pipes;
(c) Water use and water level reporting;
(d) Estimation of the capacity of reservoirs and ponds;
(e) Irrigation crop water requirements;
(f) Aerial photo interpretation;
(g) Legal descriptions of land parcels;
(h) Location of land and water infrastructure through the use of maps and global positioning;
(i) Proper construction and sealing of well bores; and
(j) Other topics related to the preparation and certification of water rights in Washington state.

(3) Except as provided in subsection (9) of this section, upon completion of a water appropriation and putting water to beneficial use, in order to receive a final water right certificate, the permit holder must secure the services of a certified water right examiner who has been tested and certified by the department. The examiner shall carry out a final examination of the project to verify its completion and to determine and document for the permit holder and the department the amount of water that has been appropriated for beneficial use, the location of diversion or withdrawal and conveyance facilities, and the actual place of use. The examiner shall take measurements or make estimates of the maximum diversion or withdrawal, the capacity of water storage facilities, the acreage irrigated, the type and number of residences served, the type and number of stock watered, and other information relevant to making a final determination of the amount of water beneficially used. The examiner shall take photographs of the facilities to document the use or uses of water and the photographs must be submitted with the examiner's report to the department. The department shall specify the format and required content of the reports and may provide a form for that purpose.

(4) The department may suspend or revoke a certification based on poor performance, malfeasance, failure to acquire continuing education credits, or excessive complaints from the examiner's customers. The department may require the retesting of an examiner. The department may interview any examiner to determine whether the person is qualified for this work. The department shall spot-check the work of examiners to ensure that the public is being competently served. Any person aggrieved by an order of the department including the granting, denial, revocation, or suspension of a certificate issued by the department under this chapter may appeal pursuant to chapter 43.21B RCW.

(5) The decision regarding whether to issue a final water right certificate is solely the responsibility and function of the department.

(6) The department shall make its final decision under RCW 90.03.330 within sixty days of the date of receipt of the proof of examination from the certified water right examiner, unless otherwise requested by the applicant or returned for correction by the department. The department may return an initial proof of examination for correction within thirty days of the department's receipt of such initial proof from a certified water right examiner. Such proof must be returned to both the certified water right examiner and the applicant. Within thirty days of the department's receipt of such returned proof from the certified water right examiner, the department shall make its final decision under RCW 90.03.330, unless otherwise requested by the applicant.

(7) Each certified water right examiner must complete eight hours annually of qualifying continuing education in the water resources field. The department shall determine and specify the qualifying continuing education and shall inform examiners of the opportunities. The department shall track whether examiners are current in their continuing education and may suspend the certification of an examiner who has not complied with the continuing education requirement.

(8) Each certified water right examiner must be bonded for at least fifty thousand dollars.

(9) The department may waive the requirement to secure the services of a certified water right examiner in situations in which the department has already conducted a final proof of examination or finds it unnecessary for purposes of issuing a certificate of water right.

(10) The department shall establish and collect fees for the examination, certification, and renewal of certification of water right examiners. Revenue collected from these fees must be deposited into the water rights processing account created in section 4 of this act. Pursuant to RCW 43.135.055, the department is authorized to set fees for examination, certification, and renewal of certification for water right examiners.

(11) The department may adopt rules appropriate to carry out the purposes of this section.

Sec. 8. RCW 90.14.065 and 1987 c 93 s 1 are each amended to read as follows:

(1)(a) Any person or entity, or successor to such person or entity, having a statement of claim on file with the water rights claims registry (see April 20, 1987) may submit to the department an order of the department for filing (i) an amendment to such a statement of claim if the submitted amendment is based on:

(iii) An error in estimation of the quantity of the applicant's water claim prescribed in RCW 90.14.051 if the applicant provides reasons for the failure to claim such right in the original claim;
((22)) (ii) A change in circumstances not foreseeable at the time the original claim was filed, if such change in circumstances relates only to the manner of transportation or diversion of the water and not to the use or quantity of such water; or

((44)) (iii) The amendment is ministerial in nature.

(b) The department shall accept any such submission and file the same in the registry unless the department by written determination concludes that the requirements of (a)(i), (ii), or (iii) of this subsection ((1), (2), or (3) of this section)) have not been satisfied.

(2) In addition to subsection (1) of this section, a surface water right claim may be changed or transferred in the same manner as a permit or certificate under RCW 90.03.380, and a water right claim for groundwater may be changed or transferred as provided under RCW 90.03.380 and 90.44.100.

(3) Any person aggrieved by a determination of the department may obtain a review thereof by filing a petition for review with the pollution control hearings board within thirty days of the date of the determination by the department. The provisions of RCW 90.14.081 shall apply to any amendment filed or approved under this section.

Sec. 9. RCW 90.44.100 and 2009 c 183 s 16 are each amended to read as follows:

(1) After an application to, and upon the issuance by the department of an amendment to the appropriate permit or certificate of groundwater right, the holder of a valid right to withdraw public groundwaters may, without losing the holder's priority of right, construct wells or other means of withdrawal at a new location in substitution for or in addition to those at the original location, or the holder may change the manner or the place of use of the water.

(2) An amendment to construct replacement or a new additional well or wells at a location outside of the location of the original well or wells or to change the manner or place of use of the water shall be issued only after publication of notice of the application and findings as prescribed in the case of an original application. Such amendment shall be issued by the department only on the conditions that: (a) The additional or replacement well or wells shall tap the same body of public groundwater as the original well or wells; (b) where a replacement well or wells is approved, the use of the original well or wells shall be discontinued and the original well or wells shall be properly decommissioned as required under chapter 18.104 RCW; (c) where an additional well or wells is constructed, the original well or wells may continue to be used, but the combined total withdrawal from the original and additional well or wells shall not enlarge the right conveyed by the original permit or certificate; and (d) other existing rights shall not be impaired. The department may specify an approved manner of construction and shall require a showing of compliance with the terms of the amendment, as provided in RCW 90.44.080 in the case of an original permit.

(3) The construction of a replacement or new additional well or wells at the location of the original well or wells shall be allowed without application to the department for an amendment. However, the following apply to such a replacement or new additional well: (a) The well shall tap the same body of public groundwater as the original well or wells; (b) if a replacement well is constructed, the use of the original well or wells shall be discontinued and the original well or wells shall be properly decommissioned as required under chapter 18.104 RCW; (c) if a new additional well is constructed, the original well or wells may continue to be used, but the combined total withdrawal from the original and additional well or wells shall not enlarge the right conveyed by the original water use permit or certificate; (d) the construction and use of the well shall not interfere with or impair water rights with an earlier date of priority than the water right or rights for the original well or wells; (e) the replacement or additional well shall be located no closer than the original well to a well it might interfere with; (f) the department may specify an approved manner of construction of the well; and (g) the department shall require a showing of compliance with the conditions of this subsection (3).

(4) As used in this section, the "location of the original well or wells" of a water right permit or certificate is the area described as the point of withdrawal in the original public notice published for the application for the water right for the well. The location of the original well or wells of a water right claim filed under chapter 90.14 RCW is the area located within a one-quarter mile radius of the current well or wells.

(5) The development and use of a small irrigation impoundment, as defined in RCW 90.03.370(8), does not constitute a change or amendment for the purposes of this section. The exemption expressly provided by this subsection shall not be construed as requiring an amendment of any existing water right to enable the holder of the right to store water governed by the right.

(6) This section does not apply to a water right involved in an approved local water plan created under RCW 90.92.090 or a banked water right under RCW 90.92.070.

Sec. 10. RCW 90.44.100 and 2003 c 329 s 3 are each amended to read as follows:

(1) After an application to, and upon the issuance by the department of an amendment to the appropriate permit or certificate of groundwater right, the holder of a valid right to withdraw public groundwaters may, without losing the holder's priority of right, construct wells or other means of withdrawal at a new location in substitution for or in addition to those at the original location, or the holder may change the manner or the place of use of the water.

(2) An amendment to construct replacement or a new additional well or wells at a location outside of the location of the original well or wells or to change the manner or place of use of the water shall be issued only after publication of notice of the application and findings as prescribed in the case of an original application. Such amendment shall be issued by the department only on the conditions that: (a) The additional or replacement well or wells shall tap the same body of public groundwater as the original well or wells; (b) where a replacement well or wells is approved, the use of the original well or wells shall be discontinued and the original well or wells shall be properly decommissioned as required under chapter 18.104 RCW; (c) where an additional well or wells is constructed, the original well or wells may continue to be used, but the combined total withdrawal from the original and additional well or wells shall not enlarge the right conveyed by the original permit or certificate; and (d) other existing rights shall not be impaired. The department may specify an approved manner of construction and shall require a showing of compliance with the terms of the amendment, as provided in RCW 90.44.080 in the case of an original permit.

(3) The construction of a replacement or new additional well or wells at the location of the original well or wells shall be allowed without application to the department for an amendment. However, the following apply to such a replacement or new additional well: (a) The well shall tap the same body of public groundwater as the original well or wells; (b) if a replacement well is constructed, the use of the original well or wells shall be discontinued and the original well or wells shall be properly decommissioned as required under chapter 18.104 RCW; (c) if a new additional well is constructed, the original well or wells may continue to be used, but the combined total withdrawal from the original and additional well or wells shall not enlarge the right conveyed by the original water use permit or certificate; (d) the construction and use of the well shall not interfere with or impair water rights with an earlier date of priority than the water right or rights for the original well or wells; (e) the replacement or additional well shall be located no closer than the original well to a well it
might interfere with; (f) the department may specify an approved manner of construction of the well; and (g) the department shall require a showing of compliance with the conditions of this subsection (3).

(4) As used in this section, the "location of the original well or wells" of a water right permit or certificate is the area described as the point of withdrawal in the original public notice published for the application for the water right for the well. The location of the original well or wells of a water right claim filed under chapter 90.14 RCW is the area located within a one-quarter mile radius of the current well or wells.

(5) The development and use of a small irrigation impoundment, as defined in RCW 90.03.370(8), does not constitute a change or amendment for the purposes of this section. The exemption expressly provided by this subsection shall not be construed as requiring an amendment of any existing water right to enable the holder of the right to store water governed by the right.

NEW SECTION. Sec. 11. A new section is added to chapter 90.44 RCW to read as follows:

Applications to appropriate groundwater under a cost-reimbursement agreement must be processed in accordance with RCW 90.03.265 when an applicant requests the assignment of a cost-reimbursement consultant as provided in RCW 43.21A.690.

NEW SECTION. Sec. 12. A new section is added to chapter 90.44 RCW to read as follows:

(1) The department may expedite processing of applications within the same source of water on its own volition when there is interest from a sufficient number of applicants or upon receipt of written requests from at least ten percent of the applicants within the same source of water.

(2) If the conditions of subsection (1) of this section have been met and the department determines that the public interest is best served by expediting applications within a water source, the department must notify in writing all persons who have pending applications on file for a new appropriation, change, transfer, or amendment of a water right from that water source. A water source may include surface water only, groundwater only, or surface and groundwater together if the department determines that they are hydraulically connected. The notice must be posted on the department's web site and published in a newspaper of general circulation in the area where affected properties are located. The notice must also be made individually by way of mail to:

(a) Inform those applicants that expedited processing of applications within the described water source is being initiated;

(b) Provide to individual applicants the criteria under which the applications will be examined and determined;

(c) Provide to individual applicants the estimated cost for having an application processed on an expedited basis;

(d) Provide an estimate of how long the expedited process will take before an application is approved or denied; and

(e) Provide at least sixty days for the applicants to respond in writing regarding the applicant's decision to participate in expedited processing of their applications.

(3) In addition to the application fees provided in RCW 90.03.470, the department must recover the full cost of processing all the applications from applicants who elect to participate within the water source through expedited processing fees. The department must calculate an expedited processing fee based primarily on the proportionate quantity of water requested by each applicant and may adjust the fee if it appears that an application will require a disproportionately greater amount of time and effort to process due to its complexity. Any application fees that were paid by the applicant under RCW 90.03.470 must be credited against the applicant's share of the cost of processing applications under the provisions of this section.

(4) The expedited processing fee must be collected by the department prior to the expedited processing of an application. Revenue collected from these fees must be deposited into the water rights processing account created in section 4 of this act. An applicant who has stated in writing that he or she wants his or her application processed using the expedited procedures in this section must transmit the processing fee within sixty days of the written request. Failure to do so will result in the applicant not being included in expedited processing for that water source.

(5) If an applicant elects not to participate in expedited processing, the application remains on file with the department, the applicant retains his or her priority date, and the application may be processed through regular processing, priority processing, expedited processing, coordinated cost-reimbursement processing, cost-reimbursement processing, or through conservancy board processing as authorized under chapter 90.80 RCW. Such an application may not be processed through expedited processing within twelve months after the department's issuance of decisions on participating applications at the conclusion of expedited processing unless the applicant agrees to pay the full proportionate share that would otherwise have been paid during such processing. Any proceeds collected from an applicant under this delayed entry into expedited processing shall be used to reimburse the other applicants who participated in the previous expedited processing of applications, provided sufficient proceeds remain to fully cover the department's cost of processing the delayed entry application and the department's estimated administrative costs to reimburse the previously expedited applicants.

NEW SECTION. Sec. 13. A new section is added to chapter 90.03 RCW to read as follows:

Nothing in this act affects or diminishes the processing of water right applications under any other existing authority, including but not limited to existing authority for the priority processing of applications by the department.

NEW SECTION. Sec. 14. Section 9 of this act expires June 30, 2019.

NEW SECTION. Sec. 15. Section 10 of this act takes effect June 30, 2019.

NEW SECTION. Sec. 16. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected."

Correct the title.

and the same are herewith transmitted.

Strike everything after the enacting clause and insert the following:

"Sec. 1. RCW 28A.655.061 and 2009 c 524 s 5 are each amended to read as follows:

(1) The high school assessment system shall include but need not be limited to the Washington assessment of student learning, opportunities for a student to retake the content areas of the assessment in which the student was not successful, and if approved by the legislature pursuant to subsection (10) of this section, one or more objective alternative assessments for a student to demonstrate achievement of state academic standards. The objective alternative assessments for each content area shall be comparable in rigor to the skills and knowledge that the student must demonstrate on the Washington assessment of student learning for each content area.

(2) Subject to the conditions in this section, a certificate of academic achievement shall be obtained by most students at about the age of sixteen, and is evidence that the students have successfully met the state standard in the content areas included in the certificate. With the exception of students satisfying the provisions of RCW 28A.155.045 or 28A.655.061, acquisition of the certificate is required for graduation from a public high school but is not the only requirement for graduation.

(3) Beginning with the graduating class of 2008, with the exception of students satisfying the provisions of RCW 28A.155.045, a student who meets the state standards on the reading, writing, and mathematics content areas of the high school Washington assessment of student learning shall earn a certificate of academic achievement. If a student does not successfully meet the state standards in one or more content areas required for the certificate of academic achievement, then the student may retake the assessment in the content area up to four times at no cost to the student. If the student successfully meets the state standards on a retake of the assessment then the student shall earn a certificate of academic achievement. Once objective alternative assessments are authorized pursuant to subsection (10) of this section, a student may use the objective alternative assessments to demonstrate that the student successfully meets the state standards for that content area if the student has taken the Washington assessment of student learning at least once. If the student successfully meets the state standards on the objective alternative assessments then the student shall earn a certificate of academic achievement.

(4) Beginning no later than with the graduating class of 2013, a student must meet the state standards in science in addition to the other content areas required under subsection (3) of this section on the Washington assessment of student learning or the objective alternative assessments in order to earn a certificate of academic achievement. The state board of education may adopt a rule that implements the requirements of this subsection (4) beginning with a graduating class before the graduating class of 2013, if the state board of education adopts the rule by September 1st of the freshman school year of the graduating class to which the requirements of this subsection (4) apply. The state board of education's authority under this subsection (4) does not alter the requirement that any change in performance standards for the tenth grade assessment must comply with RCW 28A.305.130.

(5) The state board of education may not require the acquisition of the certificate of academic achievement for students in home-based instruction under chapter 28A.200 RCW, for students enrolled in private schools under chapter 28A.195 RCW, or for students satisfying the provisions of RCW 28A.155.045.

(6) A student may retake and use the highest result from each successfully completed content area of the high school assessment.

(7) School districts must make available to students the following options:

(a) To retake the Washington assessment of student learning up to four times in the content areas in which the student did not meet the state standards if the student is enrolled in a public school; or

(b) To retake the Washington assessment of student learning up to four times in the content areas in which the student did not meet the state standards if the student is enrolled in a high school completion program at a community or technical college. The superintendent of public instruction and the state board for community and technical colleges shall jointly identify means by which students in these programs can be assessed.

(8) Students who achieve the standard in a content area of the high school assessment but who wish to improve their results shall pay for retaking the assessment, using a uniform cost determined by the superintendent of public instruction.

(9) Opportunities to retake the assessment at least twice a year shall be available to each school district.

(10) The office of the superintendent of public instruction shall develop options for implementing objective alternative assessments, which may include an appeals process for students' scores, for students to demonstrate achievement of the state academic standards. The objective alternative assessments shall be comparable in rigor to the skills and knowledge that the student must demonstrate on the Washington assessment of student learning and be objective in its determination of student achievement of the state standards. Before any objective alternative assessments in addition to those authorized in RCW 28A.655.065 or (b) of this subsection are used by a student to demonstrate that the student has met the state standards in a content area required to obtain a certificate, the legislature shall formally approve the use of any objective alternative assessments through the omnibus appropriations act or by statute or concurrent resolution.

(b)(i) A student's score on the mathematics, reading or English, or writing portion of the SAT or the ACT may be used as an objective alternative assessment under this section for
demonstrating that a student has met or exceeded the state standards for the certificate of academic achievement. The state board of education shall identify the scores students must achieve on the relevant portion of the SAT or ACT to meet or exceed the state standard in the relevant content area on the Washington assessment of student learning. The state board of education shall identify the first scores by December 1, 2007. After the first scores are established, the state board may increase but not decrease the scores required for students to meet or exceed the state standards.

(ii) Until August 31, 2008, a student's score on the mathematics portion of the PSAT may be used as an objective alternative assessment under this section for demonstrating that a student has met or exceeded the state standard for the certificate of academic achievement. The state board of education shall identify the score students must achieve on the mathematics portion of the PSAT to meet or exceed the state standard in that content area on the Washington assessment of student learning.

(iii) A student who scores at least a three on the grading scale of one to five for selected AP examinations may use the score as an objective alternative assessment under this section for demonstrating that a student has met or exceeded state standards for the certificate of academic achievement. A score of three of the AP examinations in calculus or statistics may be used as an alternative assessment for the mathematics portion of the Washington assessment of student learning. A score of three on the AP examinations in English language and composition may be used as an alternative assessment for the writing portion of the Washington assessment of student learning. A score of three on the AP examinations in English language and composition, macroeconomics, microeconomics, psychology, United States history, world history, United States government and politics, or comparative government and politics may be used as an alternative assessment for the reading portion of the Washington assessment of student learning.

(11) By December 15, 2004, the house of representatives and senate education committees shall obtain information and conclusions from recognized, independent, national assessment experts regarding the validity and reliability of the high school Washington assessment of student learning for making individual student high school graduation determinations.

(12) To help assure continued progress in academic achievement as a foundation for high school graduation and to assure that students are on track for high school graduation, each school district shall prepare plans for and notify students and their parents or legal guardians as provided in this subsection ((12)).

(((i))) Student learning plans are required for eighth ((through twelfth)) grade students who were not successful on any or all of the content areas of the ((Washington)) state assessment (for student learning) during the previous school year or who may not be on track to graduate due to credit deficiencies or absences. The parent or legal guardian shall be notified about the information in the student learning plan, preferably through a parent conference and at least annually. To the extent feasible, schools serving English language learner students and their parents shall translate the plan into the primary language of the family. The plan shall include the following information as applicable:

(((i))) (a) The student's results on the ((Washington)) state assessment (for student learning);

(((i))) (b) If the student is in the transitional bilingual program, the score on his or her Washington language proficiency test II;

(((i))) (c) Any credit deficiencies;

(((i))) (d) The student's attendance rates over the previous two years;

(((i))) (e) The student's progress toward meeting state and local graduation requirements;

(((i))) (f) The courses, competencies, and other steps needed to be taken by the student to meet state academic standards and stay on track for graduation;

(((i))) (g) Remediation strategies and alternative education options available to students, including informing students of the option to continue to receive instructional services after grade twelve or until the age of twenty-one;

(((i))) (h) The alternative assessment options available to students under this section and RCW 28A.655.065;

(((i))) (i) School district programs, high school courses, and career and technical education options available for students to meet graduation requirements; and

(((i))) (j) Available programs offered through skill centers or community and technical colleges, including the college high school diploma options under RCW 28B.50.535.

Regarding funding distribution formulas for K-12 education.

The measure was read the second time.

MOTION

Senator McAuliffe moved that the following striking amendment by Senator McAuliffe and others be adopted:

Strike everything after the enacting clause and insert the following:

NEW SECTION. Sec. 1. (1) It is the legislature's intent to continue implementation of chapter 548, Laws of 2009, by adopting the technical details of a new distribution formula for the instructional program of basic education and authorizing a phase-in of implementation of a new distribution formula for pupil transportation, both to take effect during the 2011-2013 biennium. Unless otherwise stated, the numeric values adopted in section 2 of this act represent the translation of 2009-2010 state funding levels for the basic education act into the funding factors of the prototypical school funding formula, based on the expert advice and extensive work of the funding formula technical working group established by the legislature for this purpose. The legislature intends to continue to review and revise the formulas and may make revisions as necessary for technical purposes and consistency in the event of mathematical or other technical errors.

(2) The legislature intends that per-pupil basic education funding for a school district shall not be decreased as a result of the transition of basic education funding formulas in effect during the 2009-2011 biennium to the new funding formulas under RCW 28A.150.260 that take effect during the 2011-2013 biennium.

(3) It is also the legislature's intent to adopt an implementation schedule for phasing-in enhancements to the baseline funding levels of 2009-10 beginning in the 2011-2013 biennium for pupil transportation, class size allocations for grades kindergarten through three, full-day kindergarten, and allocations for maintenance, supplies, and operating costs.

(4) Finally, it is the legislature's intent to adjust the timelines for other working groups so that their expertise and advice can be received as soon as possible and to make technical adjustments to certain provisions of chapter 548, Laws of 2009.

Sec. 2. RCW 28A.150.260 and 2009 c 548 s 106 are each amended to read as follows:

The purpose of this section is to provide for the allocation of state funding that the legislature deems necessary to support school districts in offering the minimum instructional program of basic education under RCW 28A.150.220. The allocation shall be determined as follows:

(1) The governor shall and the superintendent of public instruction may recommend to the legislature a formula for the distribution of a basic education instructional allocation for each common school district.

(2) The distribution formula under this section shall be for allocation purposes only. Except as may be required under chapter 28A.155, 28A.165, 28A.180, or (28A.155) 28A.185 RCW, or federal laws and regulations, nothing in this section requires school districts to use basic education instructional funds to implement a particular instructional approach or service. Nothing in this section requires school districts to maintain a particular classroom teacher-to-student ratio or other staff-to-student ratio or to use allocated funds to pay for particular types or classifications of staff. Nothing in this section entitles an individual teacher to a particular teacher planning period.

(3)(a) To the extent the technical details of the formula have been adopted by the legislature and except when specifically provided as a school district allocation, the distribution formula for the basic education instructional allocation shall be based on minimum staffing and nonstaff costs the legislature deems necessary to support instruction and operations in prototypical schools serving high, middle, and elementary school students as provided in this section. The use of prototypical schools for the distribution formula does not constitute legislative intent that schools should be operated or structured in a similar fashion as the prototypes. Prototypical schools illustrate the level of resources needed to operate a school of a particular size with particular types and grade levels of students using commonly understood terms and inputs, such as class size, hours of instruction, and various categories of school staff. It is the intent that the funding allocations to school districts be adjusted from the school prototypes based on the actual number of annual average full-time equivalent students in each grade level at each school in the district and not based on the grade-level configuration of the school to the extent that data is available. The allocations shall be further adjusted from the school prototypes with minimum allocations for small schools and to reflect other factors identified in the omnibus appropriations act.

(b) For the purposes of this section, prototypical schools are defined as follows:

(i) A prototypical high school has six hundred average annual full-time equivalent students in grades nine through twelve;

(ii) A prototypical middle school has four hundred thirty average annual full-time equivalent students in grades seven and eight; and

(iii) A prototypical elementary school has four hundred average annual full-time equivalent students in grades kindergarten through six.

((4)(a) The minimum allocation for each level of prototypical school shall be based on the number of full-time equivalent classroom teachers needed to provide instruction over the minimum required annual instructional hours under RCW 28A.150.220 and provide at least one teacher planning period per school day, and based on (an) the following general education average class size (as specified in the omnibus appropriations act) of full-time equivalent students per teacher:

(b) During the 2011-2013 biennium and beginning with schools with the highest percentage of students eligible for free and reduced-price meals in the prior school year, the general education average class size for grades K-3 shall be reduced until the average class size funded under this subsection (4) is no more than 17.0 full-time equivalent students per teacher beginning in the 2017-18 school year.

(1) Beginning with the 2007-08 school year, funding for voluntary all-day kindergarten programs shall be phased-in beginning with schools with the highest poverty levels, defined as those schools with the highest percentages of students qualifying for free and reduced-price lunch support in the prior school year. During the 2011-2013 biennium, funding shall continue to be phased-in each year until full statewide implementation of all-day kindergarten is achieved in the 2017-18 school year. Once a school receives funding for the all-day kindergarten program, that school shall remain eligible for funding in subsequent school years regardless of changes in the school's percentage of students eligible for free and reduced-price lunches as long as other program requirements are fulfilled. Additionally, schools receiving all-day kindergarten program support shall agree to the following conditions:

Designated school districts shall serve as lighthouse programs and provide technical assistance to other school districts in the initial stages of implementing an all-day kindergarten program.

Examples of topics addressed by the technical assistance include strategic planning, developing the instructional program and curriculum, working with early learning providers to identify students and communicate with parents, and developing kindergarten program readiness activities.

Sec. 5. 2009 c 548 s 112 (uncodified) is amended to read as follows:

(1) The legislature intends to continue to redefine the instructional program of education under RCW 28A.150.220 that fulfills the obligations and requirements of Article IX of the state Constitution. The funding formulas under RCW 28A.150.260 to support the instructional program shall be implemented to the extent the technical details of the formula have been established and according to an implementation schedule to be adopted by the legislature. The object of the schedule is to assure that any increases in funding allocations are timely, predictable, and occur concurrently with any increases in program or instructional requirements. It is the intent of the legislature that no increased programmatic or instructional expectations be imposed upon schools or school districts without an accompanying increase in resources as necessary to support those increased expectations.

(2) The office of financial management, with assistance and support from the office of the superintendent of public instruction, shall convene a technical working group to:
   (a) Develop the details of the funding formulas under RCW 28A.150.260;
   (b) Recommend to the legislature an implementation schedule for phasing-in any increased program or instructional requirements concurrently with increases in funding for adoption by the legislature; and
   (c) Examine possible sources of revenue to support increases in funding allocations and present options to the legislature and the quality education council created in RCW 28A.290.010 for consideration.

(3) The working group shall include representatives of the legislative evaluation and accountability program committee, school district and educational service district financial managers, the Washington association of school business officers, the Washington education association, the Washington association of school administrators, the association of Washington school principals, the Washington state school directors' association, the public school employees of Washington, and other interested stakeholders with expertise in education finance. The working group may convene advisory subgroups on specific topics as necessary to assure participation and input from a broad array of diverse stakeholders.

(4) The working group shall be monitored and overseen by the legislature and the quality education council established in RCW 28A.290.010. The working group shall submit its recommendations to the legislature by December 1, 2009.

(5) After the 2009 report to the legislature, the office of financial management and the office of the superintendent of public instruction shall periodically reconvene the working group to monitor and provide advice on further development and implementation of the funding formulas under RCW 28A.150.260 and provide technical assistance to the ongoing work of the quality education council.

Sec. 6. 2009 c 548 s 302 (uncodified) is amended to read as follows:

(1) Beginning (July) April 1, 2010, the office of financial management, with assistance and support from the office of the superintendent of public instruction, shall convene a technical working group to develop options for a new system of supplemental school funding through local school levies and local effort assistance.
SIXTIETH DAY, MARCH 11, 2010

(2) The working group shall consider the impact on overall school district revenues of the new basic education funding system established under (this act) chapter 548, Laws of 2009 and shall recommend a phase-in plan that ensures that no school district suffers a decrease in funding from one school year to the next due to implementation of the new system of supplemental funding.

(3) The working group shall also:

(a) Examine local school district capacity to address facility needs associated with phasing-in full-day kindergarten across the state and reducing class size in kindergarten through third grade; and

(b) Provide the quality education council with analysis on the potential use of local funds that may become available for redefinition and redirection as a result of increased state funding allocations for pupil transportation and maintenance, supplies, and operating costs.

(4) The working group shall be composed of representatives from the department of revenue, the legislative evaluation and accountability program committee, school district and educational service district financial managers, and representatives of the Washington association of school business officers, the Washington education association, the Washington association of school administrators, the association of Washington school principals, the Washington state school directors' association, the public school employees of Washington, and other interested stakeholders with expertise in education finance. The working group may convene advisory subgroups on specific topics as necessary to assure participation and input from a broad array of diverse stakeholders.

((4))) (5) The local funding working group shall be monitored and overseen by the legislature and by the quality education council created in (section 114 of this act) RCW 28A.290.010. The working group shall report to the legislature (December) June 30, 2011.

Sec. 7. RCW 43.41.398 and 2009 c 548 s 601 are each amended to read as follows:

(1) The legislature recognizes that providing students with the opportunity to access a world-class educational system depends on our continuing ability to provide students with access to world-class educators. The legislature also understands that continuing to attract and retain the highest quality educators will require increased investments. The legislature intends to enhance the current salary allocation model and recognizes that changes to the current model cannot be imposed without great deliberation and input from teachers, administrators, and classified employees. Therefore, it is the intent of the legislature to begin the process of developing an enhanced salary allocation model that is collaboratively designed to ensure the rationality of any conclusions regarding what constitutes adequate compensation.

(2) Beginning July 1, 2011, the office of the superintendent of public instruction, in collaboration with the office of financial management, shall convene a technical working group to recommend the details of an enhanced salary allocation model that aligns state expectations for educator development and certification with the compensation system and establishes recommendations for a concurrent implementation schedule. In addition to any other details the technical working group deems necessary, the technical working group shall make recommendations on the following:

(a) How to reduce the number of tiers within the existing salary allocation model;

(b) How to account for labor market adjustments;

(c) How to account for different geographic regions of the state where districts may encounter difficulty recruiting and retaining teachers;

(d) The role of and types of bonuses available;

(e) Ways to accomplish salary equalization over a set number of years; and

(f) Initial fiscal estimates for implementing the recommendations including a recognition that staff on the existing salary allocation model would have the option to grandfather in permanently to the existing schedule.

(3) As part of its work, the technical working group shall conduct or contract for a preliminary comparative labor market analysis of salaries and other compensation for school district employees to be conducted and shall include the results in any reports to the legislature. For the purposes of this subsection, "salaries and other compensation" includes average base salaries, average total salaries, average employee basic benefits, and retirement benefits.

(4) The analysis required under subsection (1) of this section must:

(a) Examine salaries and other compensation for teachers, other certificated instructional staff, principals, and other building-level certificated administrators, and the types of classified employees for whom salaries are allocated;

(b) Be calculated at a statewide level that identifies labor markets in Washington through the use of data from the United States bureau of the census and the bureau of labor statistics; and

(c) Include a comparison of salaries and other compensation to the appropriate labor market for at least the following subgroups of educators: Beginning teachers and types of educational staff associates.

(5) The working group shall include representatives of the department of personnel, the professional educator standards board, the office of the superintendent of public instruction, the Washington education association, the association of Washington school administrators, the association of Washington school principals, the Washington state school directors’ association, the public school employees of Washington, and other interested stakeholders with appropriate expertise in compensation related matters. The working group may convene advisory subgroups on specific topics as necessary to assure participation and input from a broad array of diverse stakeholders.

(6) The working group shall be monitored and overseen by the legislature and the quality education council created in RCW 28A.290.010. The working group shall make an initial report to the legislature by (December) June 30, 2012, and shall include in its report recommendations for whether additional further work of the group is necessary.

Sec. 8. RCW 28A.160.192 and 2009 c 548 s 311 are each amended to read as follows:

(1) The superintendent of public instruction shall phase-in the implementation of the distribution formula under this chapter for allocating state funds to school districts for the transportation of students to and from school. The phase-in shall (be according to the implementation schedule adopted by the legislature and shall) begin no later than the (2013-14 school year) 2011-2013 biennium and be fully implemented by the 2013-2015 biennium.

(a) The formula must be developed and revised on an ongoing basis using the major cost factors in student transportation, including basic and special student loads, school district land area, average distance to school, roadway miles, and number of locations served. Factors must include all those site characteristics that are statistically significant after analysis of the data required by the revised reporting process.

(b) The formula must allocate funds to school districts based on the average predicted costs of transporting students to and from school, using a regression analysis.

(2) During the phase-in period, funding provided to school districts for student transportation operations shall be distributed on the following basis:
chapter, up to a limit of two years of nonschool service. Nonschool years of service included in calculations under this subsection shall not be applied to service credit totals for purposes of any retirement benefit under chapter 41.32, 41.35, or 41.40 RCW, or any other state retirement system benefits.

Sec. 11. RCW 28A.175.010 and 2005 c 207 s 3 are each amended to read as follows:

Each school district shall account for the educational progress of each of its students. To achieve this, school districts shall be required to report annually to the superintendent of public instruction:

(a) The number of students who graduate in fewer than four years;

(b) The number of students who graduate in four years;

(c) The number of students who remain in school for more than four years but who eventually graduate and the number of students who remain in school for more than four years but do not graduate;

(d) The number of students who transfer to other schools;

(e) The number of students in the ninth through twelfth grade who drop out of school over a four-year period; and

(f) The number of students whose status is unknown.

(2) Dropout rates of students in each of the grades seven through twelve.

(3) Dropout rates for student populations in each of the grades seven through twelve by:

(a) Ethnicity;

(b) Gender;

(c) Socioeconomic status; and

(d) Disability status.

(4) The causes or reasons, or both, attributed to students for having dropped out of school in grades seven through twelve.

(5) The superintendent of public instruction shall adopt rules under chapter 34.05 RCW to assure uniformity in the information districts are required to report under subsections (1) through (4) of this section. In developing rules, the superintendent of public instruction shall consult with school districts, including administrative and counseling personnel, with regard to the methods through which information is to be collected and reported.

(6) In reporting on the causes or reasons, or both, attributed to students for having dropped out of school, school building officials shall, to the extent reasonably practical, obtain such information directly from students. In lieu of obtaining such information directly from students, building principals and counselors shall identify the causes or reasons, or both, based on their professional judgment.

(7) The superintendent of public instruction shall report annually to the legislature the information collected under subsections (1) through (4) of this section.

(8) The Washington state institute for public policy shall calculate an annual estimate of the savings to taxpayers resulting from any improvement compared to the prior school year in the extended graduation rate, as calculated by the superintendent of public instruction. The superintendent shall include the estimate from the institute in an appendix of the report required under subsection (7) of this section, beginning with the 2010 report.

NEW SECTION. Sec. 12. A new section is added to chapter 28A.300 RCW to read as follows:

The office of the superintendent of public instruction shall implement and maintain an internet-based portal that provides ready public access to the state’s prototypical school funding model for basic education under RCW 28A.150.260. The portal must provide citizens the opportunity to view, for each local school building, the staffing levels and other prototypical school funding
elements that are assumed under the state funding formula. The portal must also provide a matrix displaying how individual school districts are deploying those same state resources through their allocation of staff and other resources to school buildings, so that citizens are able to compare the state assumptions to district allocation decisions for each local school building.

Sec. 13. RCW 28A.150.100 and 1990 c 33 s 103 are each amended to read as follows:

(1) For the purposes of this section and RCW 28A.150.410 and 28A.400.200, "basic education certificated instructional staff" (shall) means all full-time equivalent classroom teachers, teacher librarians, guidance counselors, certificated student health services staff, and other certificated instructional staff in the following programs as defined for statewide school district accounting purposes: Basic education, secondary vocational education, general instructional support, and general supportive services.

(2) (In the 1988-89 school year and thereafter.) Each school district shall maintain a ratio of at least forty-six basic education certificated instructional staff to one thousand annual average full time equivalent students.

The council shall develop strategic recommendations on the program of basic education for the common schools. The council shall take into consideration the capacity report produced under RCW 28A.300.172 and the availability of data and progress of implementing the data systems required under RCW 28A.655.210. Any recommendations for modifications to the program of basic education shall be based on evidence that the programs effectively support student learning. MESSAGE FROM THE HOUSE

March 11, 2010

MR. PRESIDENT:
The House passed ENGROSSED SUBSTITUTE SENATE BILL NO. 6658 with the following amendment(s): 6658-S.E AMH ENGR HS495.E
Strike everything after the enacting clause and insert the following:

"Sec. 1. RCW 82.16.110 and 2009 c 469 s 504 are each amended to read as follows:
The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.
(1) "Administrator" means an owner and assignee of a community solar project as defined in subsection (2)(a)(i) of this section that is responsible for applying for the investment cost
recovery incentive on behalf of the other owners and performing such administrative tasks on behalf of the other owners as may be necessary, such as receiving investment cost recovery incentive payments, and allocating and paying appropriate amounts of such payments to the other owners.

(2)(a) "Community solar project" means:

(i) A solar energy system that is capable of generating up to seventy-five kilowatts of electricity and is owned by local individuals, households, nonprofit organizations, or nonutility businesses that is placed on the property owned by a cooperating local governmental entity that is not in the light and power business or in the gas distribution business; (ii)

(ii) A utility-owned solar energy system that is capable of generating up to seventy-five kilowatts of electricity and that is voluntarily funded by the utility's ratepayers where, in exchange for their financial support, the utility gives contributors a payment or credit on their utility bill for the value of the electricity produced by the project; or

(iii) A solar energy system, placed on the property owned by a cooperating local governmental entity that is not in the light and power business or in the gas distribution business, that is capable of generating up to seventy-five kilowatts of electricity, and that is owned by a company whose members are each eligible for an investment cost recovery incentive for the same customer-generated electricity as provided in RCW 82.16.120.

(b) For the purposes of "community solar project" as defined in (a) of this subsection:

(i) "Company" means an entity that is:

(A)(I) A limited liability company;

(II) A cooperative formed under chapter 23.86 RCW; or

(III) A mutual corporation or association formed under chapter 24.06 RCW; and

(ii) "Nonprofit organization" means an organization exempt from taxation under (4) (4) 26 U.S.C. Sec. 501(c)(3) of the federal internal revenue code of 1986, as amended, as of January 1, 2009; and

(iii) "Utility" means a light and power business, an electric cooperative, or a mutual corporation that provides electricity service.

((2)) (2) "Customer-generated electricity" means a community solar project or the alternating current electricity that is generated from a renewable energy system located in Washington and installed on an individual's businesses, or local government's real property that is also provided electricity generated by a light and power business. Except for community solar projects, a system located on a leasehold interest does not qualify under this definition. Except for utility-owned community solar projects, "customer-generated electricity" does not include electricity generated by a light and power business with greater than one thousand megawatt hours of annual sales or a gas distribution business.

((3)) (3) "Economic development kilowatt-hour" means the actual kilowatt-hour measurement of customer-generated electricity multiplied by the appropriate economic development factor.

((4)) (4) "Local governmental entity" means any unit of local government of this state including, but not limited to, counties, cities, towns, municipal corporations, quasi-municipal corporations, special purpose districts, and school districts.

((5)) (5) "Photovoltaic cell" means a device that converts light directly into electricity without moving parts.

((6)) (6) "Renewable energy system" means a solar energy system, an anaerobic digester as defined in RCW 82.08.900, or a wind generator used for producing electricity.

(2)(b) Within thirty days of receipt of the certification from the utility, the administrator must apply for the investment cost recovery incentive on behalf of each of the other owners. Except for utility-owned community solar projects, a system located on a leasehold interest does not qualify under this definition. Except for utility-owned community solar projects, "customer-generated electricity" does not include electricity generated by a light and power business with greater than one thousand megawatt hours of annual sales or a gas distribution business.

(i) The name and address of the applicant and location of the renewable energy system.

(ii) The name and address of the applicant and location of the renewable energy system.

(iii) That the electricity produced by the applicant meets the definition of "customer-generated electricity" and that the renewable energy system produces electricity with:

(A) Any solar inverters and solar modules manufactured in Washington state;

(B) A wind generator powered by blades manufactured in Washington state;

(C) A solar inverter manufactured in Washington state;

(D) A solar module manufactured in Washington state; or

(E) Solar or wind equipment manufactured outside of Washington state;

(iv) That the electricity can be transformed or transmitted for entry into or operation in parallel with electricity transmission and distribution systems; and

(v) The date that the renewable energy system received its final electrical permit from the applicable local jurisdiction.

(b) Within thirty days of receipt of the certification the department of revenue must notify the applicant by mail, or electronically as provided in RCW 82.32.135, whether the renewable energy system qualifies for an incentive under this
section. The department may consult with the climate and rural energy development center to determine eligibility for the incentive. System certifications and the information contained therein are subject to disclosure under RCW 82.32.330(3)(m).

(3)(a) By August 1st of each year application for the incentive (shall) must be made to the light and power business serving the situs of the system by certification in a form and manner prescribed by the department that includes, but is not limited to, the following information:

(i) The name and address of the applicant and location of the renewable energy system.

(A) If the applicant is an administrator of a community solar project as defined in RCW 82.16.110(2)(a)(i), the application must also include the name and address of each of the owners of the community solar project.

(B) If the applicant is a company that owns a community solar project as defined in RCW 82.16.110(2)(a)(ii), the application must also include the name and address of each member of the company;

(ii) The applicant's tax registration number;

(iii) The date of the notification from the department of revenue stating that the renewable energy system is eligible for the incentives under this section; and

(iv) A statement of the amount of kilowatt-hours generated by the renewable energy system in the prior fiscal year.

(b) Within sixty days of receipt of the incentive certification the light and power business serving the situs of the system (shall) must notify the applicant in writing whether the incentive payment will be authorized or denied. The business may consult with the climate and rural energy development center to determine eligibility for the incentive payment. Incentive certifications and the information contained therein are subject to disclosure under RCW 82.32.330(3)(m).

(c)(i) Persons, administrators of community solar projects, and companies receiving incentive payments (shall) must keep and preserve, for a period of five years, suitable records as may be necessary to determine the amount of incentive applied for and received. Such records (shall) must be open for examination at any time upon notice by the light and power business that made the payment or by the department. If upon examination of any records or from other information obtained by the business or department it appears that an incentive has been paid in an amount that exceeds the correct amount of incentive payable, the business may assess against the person for the amount found to have been paid in excess of the correct amount of incentive payable and (shall) must add thereto interest on the amount. Interest (shall be) assessed in the manner that the department assesses interest upon delinquent tax under RCW 82.32.050.

(ii) If it appears that the amount of incentive paid is less than the correct amount of incentive payable the business may authorize additional payment.

(4) Except for community solar projects, the investment cost recovery incentive may be paid fifteen cents per economic development kilowatt-hour unless requests exceed the amount authorized for credit to the participating light and power business. For community solar projects, the investment cost recovery incentive may be paid thirty cents per economic development kilowatt-hour unless requests exceed the amount authorized for credit to the participating light and power business. For the purposes of this section, the rate paid for the investment cost recovery incentive may be multiplied by the following factors:

(a) For customer-generated electricity produced using solar modules manufactured in Washington state, one and two-tenths;

(b) For customer-generated electricity produced using a solar or a wind generator equipped with an inverter manufactured in Washington state, one and two-tenths;

(c) For customer-generated electricity produced using an anaerobic digester, or by other solar equipment or using a wind generator equipped with blades manufactured in Washington state, one;

(d) For all other customer-generated electricity produced by wind, eight-tenths.

(5)(a) No individual, household, business, or local governmental entity is eligible for incentives provided under subsection (4) of this section for more than five thousand dollars per year.

(b) Except as provided in (c) through (e) of this subsection (5), each applicant in a community solar project is eligible for up to five thousand dollars per year.

(c) Where the applicant is an administrator of a community solar project as defined in RCW 82.16.110(2)(a)(i), each owner is eligible for an incentive but only in proportion to the ownership share of the project, up to five thousand dollars per year.

(d) Where the applicant is a company owning a community solar project that has applied for an investment cost recovery incentive on behalf of its members, each member of the company is eligible for an incentive that would otherwise belong to the company but only in proportion to each ownership share of the company, up to five thousand dollars per year. The company itself is not eligible for incentives under this section.

(e) In the case of a utility-owned community solar project, each ratepayer that contributes to the project is eligible for an incentive in proportion to the contribution, up to five thousand dollars per year.

(6) If requests for the investment cost recovery incentive exceed the amount of funds available for credit to the participating light and power business, the incentive payments (shall) must be reduced proportionately.

(7) The climate and rural energy development center at Washington State University energy program may establish guidelines and standards for technologies that are identified as Washington manufactured and therefore most beneficial to the state's environment.

(8) The environmental attributes of the renewable energy system belong to the applicant, and do not transfer to the state or the light and power business upon receipt of the investment cost recovery incentive.

(9) No incentive may be paid under this section for kilowatt-hours generated before July 1, 2005, or after June 30, 2020.

Sec. 3. RCW 82.16.130 and 2009 c 469 s 506 are each amended to read as follows:

(1) A light and power business shall be allowed a credit against taxes due under this chapter in an amount equal to investment cost recovery incentive payments made in any fiscal year under RCW 82.16.120. The credit shall be taken in a form and manner as required by the department. The credit under this section for the fiscal year may not exceed (of) one-half percent of the businesses' taxable power sales due under RCW 82.16.020(1)(b) or one hundred thousand dollars, whichever is greater. Incentive payments to participants in a utility-owned community solar project as defined in RCW 82.16.110(4)(a)(ii) may only account for up to twenty-five percent of the total allowable credit. Incentive payments to participants in a company-owned community solar project as defined in RCW 82.16.110(2)(a)(iii) may only account for up to five percent of the total allowable credit. The credit may not exceed the tax that would otherwise be due under this chapter. Refunds shall not be granted in the place of credits. Expenditures not used to earn a credit in one fiscal year may not be used to earn a credit in subsequent years.

(2) For any business that has claimed credit for amounts that exceed the correct amount of the incentive payable under RCW 82.16.120, the amount of tax against which credit was claimed for
the excess payments shall be immediately due and payable. The
department shall assess interest but not penalties on the taxes against
which the credit was claimed. Interest shall be assessed at the rate
provided for delinquent excise taxes under chapter 82.32 RCW,
retroactively to the date the credit was claimed, and shall accrue
until the taxes against which the credit was claimed are repaid.

(3) The right to earn tax credits under this section expires June

Sec. 4. RCW 82.16.140 and 2005 c 300 s 5 are each amended
to read as follows:

(1) Using existing sources of information, the department
shall report to the house appropriations committee, the house
committee dealing with energy issues, the senate committee
on ways and means, and the senate committee dealing with energy
issues by December 1, (2009) 2014. The report ((shall)) must
measure the impacts of ((chapter 300, Laws of 2005)) RCW
82.16.110 through 82.16.130, including the total number of solar
energy system manufacturing companies in the state, any change in
the number of solar energy system manufacturing companies in the
state since July 1, 2005, and, where relevant, the effect on job
creation, the number of jobs created for Washington residents, and
such other factors as the department selects.

(2) The department ((shall)) may not conduct any new surveys
to provide the report in subsection (1) of this section.
(3) For the purposes of this section, "company" has the same
meaning as provided in RCW 82.04.030.

NEW SECTION. Sec. 5. A new section is added to chapter
82.16 RCW to read as follows:

Owners of a community solar project as defined in RCW
82.16.110(2)(a) (i) and (iii) must agree to hold harmless the light and
power business serving the situs of the system, including any
employee, for the good faith reliance on the information contained
in an application or certification submitted by an administrator or
company. In addition, the light and power business and any
employee is immune from civil liability for the good faith reliance
on any misstatement that may be made in such application or
certification. Should a light and power business or employee prevail
upon the defense provided in this section, it is entitled to
recover expenses and reasonable attorneys’ fees incurred in
establishing the defense."

Correct the title.
and the same are herewith transmitted.

PART I
ACCOUNTABILITY FRAMEWORK

NEW SECTION. Sec. 101. The legislature finds that it is the state's responsibility to create a coherent and effective accountability framework for the continuous improvement for all schools and districts. This system must provide an excellent and equitable education for all students; an aligned federal/state accountability system; and the tools necessary for schools and districts to be accountable. These tools include the necessary accounting and data reporting systems, assessment systems to monitor student achievement, and a system of general support, targeted assistance, and if necessary, intervention.

The office of the superintendent of public instruction is responsible for developing and implementing the accountability tools to build district capacity and working within federal and state guidelines. The legislature assigned the state board of education responsibility and oversight for creating an accountability framework. This framework provides a unified system of support for challenged schools that aligns with basic education, increases the level of support based upon the magnitude of need, and uses data for decisions. Such a system will identify schools and their districts for recognition as well as for additional state support. For a specific group of challenged schools, defined as persistently lowest-achieving schools, and their districts, it is necessary to provide a required action process that creates a partnership between the state and local district to target funds and assistance to turn around the identified lowest-achieving schools.

Phase I of this accountability system will recognize schools that have done an exemplary job of raising student achievement and closing the achievement gaps using the state board of education's accountability index. The state board of education shall have ongoing collaboration with the achievement gap oversight and accountability committee regarding the measures used to measure the closing of the achievement gaps and the recognition provided to the school districts for closing the achievement gaps. Phase I will also target the lowest five percent of persistently lowest-achieving schools defined under federal guidelines to provide federal funds and federal intervention models through a voluntary option in 2010, and for those who do not volunteer and have not improved student achievement, a required action process beginning in 2011.

Phase II of this accountability system will work toward implementing the state board of education's accountability index for identification of schools in need of improvement, including those that are not Title I schools, and the use of state and local intervention models and state funds through a required action process beginning in 2013, in addition to the federal program. Federal approval of the state board of education's accountability index must be obtained or else the federal guidelines for persistently lowest-achieving schools will continue to be used.

The expectation from implementation of this accountability system is the improvement of student achievement for all students to prepare them for postsecondary education, work, and global citizenship in the twenty-first century.

NEW SECTION. Sec. 102. (1) Beginning in 2010, and each year thereafter, by December 1st, the superintendent of public instruction shall annually identify schools as one of the state's persistently lowest-achieving schools if the school is a Title I school, or a school that is eligible for but does not receive Title I funds, that is among the lowest-achieving five percent of Title I or Title I eligible schools in the state.

(2) The criteria for determining whether a school is among the persistently lowest-achieving five percent of Title I schools, or Title I eligible schools, under subsection (1) of this section shall be established by the superintendent of public instruction. The criteria must meet all applicable requirements for the receipt of a federal school improvement grant under the American recovery and reinvestment act of 2009 and Title I of the elementary and secondary education act of 1965, and take into account both:
   (a) The academic achievement of the "all students" group in a school in terms of proficiency on the state's assessment, and any alternative assessments, in reading and mathematics combined; and
   (b) The school's lack of progress on the mathematics and reading assessments over a number of years in the "all students" group.

NEW SECTION. Sec. 103. (1) Beginning in January 2011, the superintendent of public instruction shall annually recommend to the state board of education school districts for designation as required action districts. A district with at least one school identified as a persistently lowest-achieving school shall be designated as a required action district if it meets the criteria developed by the superintendent of public instruction. However, a school district shall not be recommended for designation as a required action district if the district was awarded a federal school improvement grant by the superintendent in 2010 and for three consecutive years following receipt of the grant implemented a federal school intervention model at each school identified for improvement. The state board of education may designate a district that received a school improvement grant in 2010 as a required action district if after three years of voluntarily implementing a plan the district continues to have a school identified as persistently lowest-achieving and meets the criteria for designation established by the superintendent of public instruction.

(2) The superintendent of public instruction shall provide a school district superintendent with written notice of the recommendation for designation as a required action district by certified mail or personal service. A school district superintendent may request reconsideration of the superintendent of public instruction's recommendation. The reconsideration shall be limited to a determination of whether the school district met the criteria for being recommended as a required action district. A request for reconsideration must be in writing and served on the superintendent of public instruction within ten days of the notice of the superintendent's recommendation.

(3) The state board of education shall annually designate those districts recommended by the superintendent in subsection (1) of this section as required action districts. A district designated as a required action district shall be required to notify all parents of students attending a school identified as a persistently lowest-achieving school in the district of the state board of education's designation of the district as a required action district and the process for complying with the requirements set forth in sections 104 through 110 of this act.

NEW SECTION. Sec. 104. (1) The superintendent of public instruction shall contract with an external review team to conduct an academic performance audit of the district and each persistently lowest-achieving school in a required action district to identify the potential reasons for the school's low performance and lack of progress. The review team must consist of persons under contract with the superintendent who have expertise in comprehensive school and district reform and may not include staff from the agency, the school district that is the subject of the audit, or members or staff of the state board of education.
(2) The audit must be conducted based on criteria developed by the superintendent of public instruction and must include but not be limited to an examination of the following:

(a) Student demographics;
(b) Mobility patterns;
(c) School feeder patterns;
(d) The performance of different student groups on assessments;
(e) Effective school leadership;
(f) Strategic allocation of resources;
(g) Clear and shared focus on student learning;
(h) High standards and expectations for all students;
(i) High level of collaboration and communication;
(j) Aligned curriculum, instruction, and assessment to state standards;
(k) Frequency of monitoring of learning and teaching;
(l) Focused professional development;
(m) Supportive learning environment;
(n) High level of family and community involvement;
(o) Alternative secondary schools best practices; and
(p) Any unique circumstances or characteristics of the school or district.

(3) Audit findings must be made available to the local school district, its staff, the community, and the state board of education.

NEW SECTION. Sec. 105. (1) The local district superintendent and local school board of a school district designated as a required action district must submit a required action plan to the state board of education for approval. Unless otherwise required by subsection (3) of this section, the plan must be submitted under a schedule as required by the state board. A required action plan must be developed in collaboration with administrators, teachers, and other staff, parents, unions representing any employees within the district, students, and other representatives of the local community. The superintendent of public instruction shall provide a district with assistance in developing its plan if requested. The school board must conduct a public hearing to allow for comment on a proposed required action plan. The local school district shall submit the plan first to the office of the superintendent of public instruction to review and approve that the plan is consistent with federal guidelines. After the office of the superintendent of public instruction has approved that the plan is consistent with federal guidelines, the local school district must submit its required action plan to the state board of education for approval.

(2) A required action plan must include all of the following:

(a) Implementation of one of the four federal intervention models required for the receipt of a federal school improvement grant, for those persistently lowest-achieving schools that the district will be focusing on for required action. However, a district may not establish a charter school under a federal intervention model without express legislative authority. The intervention models are the turnaround, restart, school closure, and transformation models. The intervention model selected must address the concerns raised in the academic performance audit and be intended to improve student performance to allow a school district to be removed from the list of districts designated as a required action district by the state board of education within three years of implementation of the plan;
(b) Submission of an application for a federal school improvement grant or a grant from other federal funds for school improvement to the superintendent of public instruction;
(c) A budget that provides for adequate resources to implement the federal model selected and any other requirements of the plan;
(d) A description of the changes in the district's or school's existing policies, structures, agreements, processes, and practices that are intended to attain significant achievement gains for all students enrolled in the school and how the district intends to address the findings of the academic performance audit; and
(e) Identification of the measures that the school district will use in assessing student achievement at a school identified as a persistently lowest-achieving school, which include improving mathematics and reading student achievement and graduation rates as defined by the office of the superintendent of public instruction that enable the school to no longer be identified as a persistently lowest-achieving school.

(3)(a) For any district designated for required action, the parties to any collective bargaining agreement negotiated, renewed, or extended under chapter 41.59 or 41.56 RCW after the effective date of this section must reopen the agreement, or negotiate an addendum, if needed, to make changes to terms and conditions of employment that are necessary to implement a required action plan.

(b) If the school district and the employee organizations are unable to agree on the terms of an addendum or modification to an existing collective bargaining agreement, the parties, including all labor organizations affected under the required action plan, shall request the public employment relations commission to, and the commission shall, appoint an employee of the commission to act as a mediator to assist in the resolution of a dispute between the school district and the employee organizations. Beginning in 2011, and each year thereafter, mediation shall commence no later than April 15th. All mediations held under this section shall include the employer and representatives of all affected bargaining units.

(c) If the executive director of the public employment relations commission, upon the recommendation of the assigned mediator, finds that the employer and any affected bargaining unit are unable to reach agreement following a reasonable period of negotiations and mediation, but by no later than May 15th of the year in which mediation occurred, the executive director shall certify any disputed issues for a decision by the superior court in the county where the school district is located. The issues for determination by the superior court must be limited to the issues certified by the executive director.

(d) The process for filing with the court in this subsection (3)(d) must be used in the case where the executive director certifies issues for a decision by the superior court.

(i) The school district shall file a petition with the superior court, by no later than May 20th of the same year in which the issues were certified, setting forth the following:
(A) The name, address, and telephone number of the school district and its principal representative;
(B) The name, address, and telephone number of the employee organizations and their principal representatives;
(C) A description of the bargaining units involved;
(D) A copy of the unresolved issues certified by the executive director for a final and binding decision by the court; and
(E) The academic performance audit that the office of the superintendent of public instruction completed for the school district.

(ii) Within seven days after the filing of the petition, each party shall file with the court the proposal it is asking the court to order be implemented in a required action plan for the district for each issue certified by the executive director. Contemporaneously with the filing of the proposal, a party must file a brief with the court setting forth the reasons why the court should order implementation of its proposal in the final plan.

(iii) Following receipt of the proposals and briefs of the parties, the court must schedule a date and time for a hearing on the petition. The hearing must be limited to argument of the parties or their counsel regarding the proposals submitted for the court's consideration. The parties may waive a hearing by written agreement.

(iv) The court must enter an order selecting the proposal for inclusion in a required action plan that best responds to the issues
raised in the school district's academic performance audit, and allows for the award of a federal school improvement grant or a grant from other federal funds for school improvement to the district from the office of the superintendent of public instruction to implement one of the four federal intervention models. The court's decision must be issued no later than June 15th of the year in which the petition is filed and is final and binding on the parties; however the court's decision is subject to appeal only in the case where it does not allow the school district to implement a required action plan consistent with the requirements for the award of a federal school improvement grant or other federal funds for school improvement by the superintendent of public instruction.

(e) Each party shall bear its own costs and attorneys' fees incurred under this statute.

(f) Any party that proceeds with the process in this section after knowledge that any provision of this section has not been complied with and who fails to state its objection in writing is deemed to have waived its right to object.

(4) All contracts entered into between a school district and an employee must be consistent with this section and allow school districts designated as required action districts to implement one of the four federal models in a required action plan.

NEW SECTION. Sec. 106. A required action plan developed by a district's school board and superintendent must be submitted to the state board of education for approval. The state board must accept for inclusion in any required action plan the final decision by the superior court on any issue certified by the executive director of the public employment relations commission under the process in section 105 of this act. The state board of education shall approve a plan proposed by a school district only if the plan meets the requirements in section 105 of this act and provides sufficient remedies to address the findings in the academic performance audit to improve student achievement. Any addendum or modification to an existing collective bargaining agreement, negotiated under section 105 of this act or by agreement of the district and the exclusive bargaining unit, related to student achievement or school improvement shall not go into effect until approval of a required action plan by the state board of education. If the state board does not approve a proposed plan, it must notify the local school board and local district's superintendent in writing with an explicit rationale for why the plan was not approved. Nonapproval by the state board of education of the local school district's initial required action plan submitted is not intended to trigger any actions under section 108 of this act. With the assistance of the office of the superintendent of public instruction, the superintendent and school board of the required action district shall either: (a) Submit a new plan to the state board of education for approval within forty days of notification that its plan was rejected, or (b) submit a request to the required action plan review panel established under section 107 of this act for reconsideration of the state board's rejection within ten days of the notification that the plan was rejected. If federal funds are not available, the plan is not required to be implemented until such funding becomes available. If federal funds for this purpose are available, a required action plan must be implemented in the immediate school year following the district's designation as a required action district.

NEW SECTION. Sec. 107. (1) A required action plan review panel shall be established to offer an objective, external review of a request from a school district for reconsideration of the state board of education's rejection of the district's required action plan. The review and reconsideration by the panel shall be based on whether the state board of education gave appropriate consideration to the unique circumstances and characteristics identified in the academic performance audit of the local school district whose required action plan was rejected.

(2)(a) The panel shall be composed of five individuals with expertise in school improvement, school and district restructuring, or parent and community involvement in schools. Two of the panel members shall be appointed by the speaker of the house of representatives; two shall be appointed by the president of the senate; and one shall be appointed by the governor.

(b) The speaker of the house of representatives, president of the senate, and governor shall solicit recommendations for possible panel members from the Washington association of school administrators, the Washington state school directors' association, the association of Washington school principals, the achievement gap oversight and accountability committee, and associations representing certificated teachers, classified school employees, and parents.

(c) Members of the panel shall be appointed no later than December 1, 2010, but the superintendent of public instruction shall convene the panel only as needed to consider a school district's request for reconsideration. Appointments shall be for a four-year term, with opportunity for reappointment. Reappointments in the case of a vacancy shall be made expeditiously so that all requests are considered in a timely manner.

(3) The required action plan review panel may reaffirm the decision of the state board of education, recommend that the state board reconsider the rejection, or recommend changes to the required action plan that should be considered by the district and the state board of education to secure approval of the plan. The state board of education shall consider the recommendations of the panel and issue a decision in writing to the local school district and the panel. If the school district must submit a new required action plan to the state board of education, the district must submit the plan within forty days of the board's decision.

(4) The state board of education and superintendent of public instruction must develop timelines and procedures for the deliberations under this section so that school districts can implement a required action plan within the time frame required under section 106 of this act.

NEW SECTION. Sec. 108. The state board of education may direct the superintendent of public instruction to require a school district that has not submitted a final required action plan for approval, or has submitted but not received state board of education approval of a required action plan by the beginning of the school year in which the plan is intended to be implemented, to redirect the district's Title I funds based on the academic performance audit findings.

NEW SECTION. Sec. 109. A school district must implement a required action plan upon approval by the state board of education. The office of superintendent of public instruction must provide the required action district with technical assistance and federal school improvement grant funds or other federal funds for school improvement, if available, to implement an approved plan. The district must submit a report to the superintendent of public instruction that provides the progress the district is making in meeting the student achievement goals based on the state's assessments, identifying strategies and assets used to solve audit findings, and establishing evidence of meeting plan implementation benchmarks as set forth in the required action plan.

NEW SECTION. Sec. 110. (1) The superintendent of public instruction must provide a report twice per year to the state board of education regarding the progress made by all school districts designated as required action districts.

(2) The superintendent of public instruction must recommend to the state board of education that a school district be released from the designation as a required action district after the district implements a required action plan for a period of three years; has made progress, as defined by the superintendent of public

instruction, in reading and mathematics on the state's assessment over the past three consecutive years; and no longer has a school within the district identified as persistently lowest achieving. The state board shall release a school district from the designation as a required action district upon confirmation that the district has met the requirements for a release.

(3) If the state board of education determines that the required action district has not met the requirements for release, the district remains in required action and must submit a new or revised plan under the process in section 105 of this act.

Sec. 111. RCW 28A.305.225 and 2009 c 548 s 503 are each amended to read as follows:

(1) The state board of education shall continue to refine the development of an accountability framework that creates a unified system of support for challenged schools, that aligns with basic education, increases the level of support based upon the magnitude of need, and uses data for decisions.

(2) The state board of education shall develop an accountability index to identify schools and districts for recognition, for continuous improvement, and for additional state support. The index shall be based on criteria that are fair, consistent, and transparent. Performance shall be measured using multiple outcomes and indicators including, but not limited to, graduation rates and results from statewide assessments. The index shall be developed in such a way as to be easily understood by both employees within the schools and districts, as well as parents and community members. It is the legislature's intent that the index provide feedback to schools and districts to self-assess their progress, and enable the identification of schools with exemplary student performance and those that need assistance to overcome challenges in order to achieve exemplary student performance. (Once the accountability index has identified schools that need additional help, a more thorough analysis will be done to analyze specific conditions in the district including but not limited to the level of state resources a school or school district receives in support of the basic education system, achievement gaps for different groups of students, and community support.)

(3) Based on the accountability index and in consultation with the superintendent of public instruction, the state board of education shall develop a proposal and timeline for implementation of a comprehensive system of voluntary support and assistance for schools and districts. The timeline must take into account and accommodate capacity limitations of the K-12 educational system. Changes that have a fiscal impact on school districts, as identified by a fiscal analysis prepared by the office of the superintendent of public instruction, shall take effect only if formally authorized by the legislature through the omnibus appropriations act or other enacted legislation.

(4) The state board of education shall develop a proposal and implementation timeline for a more formalized comprehensive system improvement targeted to challenged schools and districts that have not demonstrated sufficient improvement through the voluntary system. The timeline must take into account and accommodate capacity limitations of the K-12 educational system. The proposal and timeline shall be submitted to the education committees of the legislature by December 1, 2009, and shall include recommended legislation and recommended resources to implement the system according to the timeline developed.

(5) The proposal shall outline a process for addressing performance challenges that will include the following features: (4) An academic performance audit using peer review teams of educators that considers school and community factors in addition to other factors in developing recommended specific corrective actions that should be undertaken to improve student learning; (5) a requirement for the local school board plan to develop and be responsible for implementation of corrective action plan taking into account the audit findings, which plan must be approved by the state board of education at which time the plan becomes binding upon the school district to implement; and (6) monitoring of local district progress by the office of the superintendent of public instruction. The proposal shall take effect only if formally authorized by the legislature through the omnibus appropriations act or other enacted legislation.

—(5)) (3) The state board of education, in cooperation with the office of the superintendent of public instruction, shall annually recognize schools for exemplary performance as measured on the state board of education accountability index. The state board of education shall have ongoing collaboration with the achievement gap oversight and accountability committee regarding the measures used to measure the closing of the achievement gaps and the recognition provided to the school districts for closing the achievement gaps.

(4) In coordination with the superintendent of public instruction, the state board of education shall seek approval from the United States department of education for use of the accountability index and the state system of support, assistance, and intervention, to replace the federal accountability system under P.L. 107-110, the no child left behind act of 2001.

((66)) (5) The state board of education shall work with the education data center established within the office of financial management and the technical working group established in section 112, chapter 548, Laws of 2009 to determine the feasibility of using the prototypical funding allocation model as not only a tool for allocating resources to schools and districts but also as a tool for schools and districts to report to the state legislature and the state board of education on how the state resources received are being used.

NEW SECTION. Sec. 112. The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "All students group" means those students in grades three through eight and high school who take the state's assessment in reading and mathematics required under 20 U.S.C. Sec. 6311(bb)(3).

(2) "Title I" means Title I, part A of the federal elementary and secondary education act of 1965 (ESEA) (20 U.S.C. Secs. 6311-6322).

NEW SECTION. Sec. 113. The superintendent of public instruction and the state board of education may each adopt rules in accordance with chapter 34.05 RCW as necessary to implement this chapter.

NEW SECTION. Sec. 114. (1) The legislature finds that a unified and equitable system of education accountability must include expectations and benchmarks for improvement, along with support for schools and districts to make the necessary changes that will lead to success for all students. Such a system must also clearly address the consequences for persistent lack of improvement. Establishing a process for school districts to prepare and implement a required action plan is one such consequence. However, to be truly accountable to students, parents, the community, and taxpayers, the legislature must also consider what should happen if a required action district continues not to make improvement after an extended period of time. Without an answer to this significant question, the state's system of education accountability is incomplete. Furthermore, accountability must be appropriately shared among various levels of decision makers, including in the building, in the district, and at the state.

(2) A joint select committee on education accountability is established beginning no earlier than May 1, 2012, with the following members:
PART II
EVALUATIONS

Sec. 201. RCW 28A.150.230 and 2006 c 263 s 201 are each amended to read as follows:

(1) It is the intent and purpose of this section to guarantee that each common school district board of directors, whether or not acting through its respective administrative staff, be held accountable for the proper operation of their district to the local community and its electorate. In accordance with the provisions of Title 28A RCW, as now or hereafter amended, each common school district board of directors shall be vested with the final responsibility for the setting of policies ensuring quality in the content and extent of its educational program and that such program provide students with the opportunity to achieve those skills which are generally recognized as requisite to learning.

(2) In conformance with the provisions of Title 28A RCW, as now or hereafter amended, it shall be the responsibility of each common school district board of directors to adopt policies to:

(a) Establish performance criteria and an evaluation process for its superintendent, classified staff, certificated personnel, including administrative staff, and for all programs constituting a part of such district’s curriculum. Each district shall report annually to the superintendent of public instruction the following for each employee group listed in this subsection (2)(a): (i) Evaluation criteria and rubrics; (ii) a description of each rating; and (iii) the number of staff in each rating;

(b) Determine the final assignment of staff, certificated or classified, according to board enumerated classroom and program needs and data, based upon a plan to ensure that the assignment policy: (i) Supports the learning needs of all the students in the district; and (ii) gives specific attention to high-need schools and classrooms;

(c) Provide information to the local community and its electorate describing the school district’s policies concerning hiring, assigning, terminating, and evaluating staff, including the criteria for evaluating teachers and principals;

(d) Determine the amount of instructional hours necessary for
(3)(a) Except as provided in subsection ((6)(a)) (10) of this section, it shall be the responsibility of a principal or his or her designee to evaluate all certificated personnel in his or her school. During each school year all classroom teachers and certificated support personnel((hereinafter referred to as "employees" in this section)) shall be observed for the purposes of evaluation at least twice in the performance of their assigned duties. Total observation time for each employee for each school year shall be not less than sixty minutes. An employee in the third year of provisional status as defined in RCW 28A.405.220 shall be observed at least three times in the performance of his or her duties and the total observation time for the school year shall not be less than ninety minutes. Following each observation, or series of observations, the principal or other evaluator shall promptly document the results of the observation in writing, and shall provide the employee with a copy thereof within three days after such report is prepared. New employees shall be observed at least once for a total observation time of thirty minutes during the first ninety calendar days of their employment period.

(b) As used in this subsection and subsection (4) of this section, "employees" means classroom teachers and certificated support personnel.

(4)(a) At any time after October 15th, an employee whose work is not judged ((unsatisfactory)) satisfactory based on district evaluation criteria shall be notified in writing of the specific areas of deficiencies along with a reasonable program for improvement. During the period of probation, the employee may not be transferred from the supervision of the original evaluator. Improvement of performance or probable cause for nonrenewal must occur and be documented by the original evaluator before any consideration of a request for transfer or reassignment as contemplated by either the individual or the school district. A probationary period of sixty school days shall be established. The establishment of a probationary period does not adversely affect the contract status of an employee within the meaning of RCW 28A.405.300. The purpose of the probationary period is to give the employee opportunity to demonstrate improvements in his or her areas of deficiency. The establishment of the probationary period and the giving of the notice to the employee of deficiency shall be by the school district superintendent and need not be submitted to the board of directors for approval. During the probationary period the evaluator shall meet with the employee at least twice monthly to supervise and make a written evaluation of the progress, if any, made by the employee. The evaluator may authorize one additional certificated employee to evaluate the probationer and to aid the employee in improving his or her areas of deficiency; such additional certificated employee shall be immune from any civil liability that might otherwise be incurred or imposed with regard to the good faith performance of such evaluation. The probationer may be removed from probation if he or she has demonstrated improvement to the satisfaction of the principal in those areas specifically detailed in his or her initial notice of deficiency and subsequently detailed in his or her improvement program. Lack of necessary improvement during the established probationary period, as specifically documented in writing with notification to the probationer and shall constitute grounds for a finding of probable cause under RCW 28A.405.300 or 28A.405.210.

(b) Immediately following the completion of a probationary period that does not produce performance changes detailed in the initial notice of deficiencies and improvement program, the employee may be removed from his or her assignment and placed into an alternative assignment for the remainder of the school year. This reassignment may not displace another employee nor may it adversely affect the probationary employee’s compensation or benefits for the remainder of the employee’s contract year. If such reassignment is not possible, the district may, at its option, place the employee on paid leave for the balance of the contract term.

((6)(a)) (5) Every board of directors shall establish evaluative criteria and procedures for all superintendents, principals, and other administrators. It shall be the responsibility of the district superintendent or his or her designee to evaluate all administrators. Except as provided in subsection (6) of this section, such evaluation shall be based on the administrative position job description. Such criteria, when applicable, shall include at least the following categories: Knowledge of, experience in, and training in recognizing good professional performance, capabilities and development; school administration and management; school finance; professional preparation and scholarship; effort toward improvement when needed; interest in pupils, employees, patrons and subjects taught in school; leadership; and ability and performance of evaluation of school personnel.

((6)(a)) Pursuant to the implementation schedule established by subsection (7)(b) of this section, every board of directors shall establish revised evaluative criteria and a four-level rating system for principals.

(b) The minimum criteria shall include: (i) Creating a school culture that promotes the ongoing improvement of learning and teaching for students and staff; (ii) demonstrating commitment to closing the achievement gap; (iii) providing for school safety; (iv) leading the development, implementation, and evaluation of a data-driven plan for increasing student achievement, including the use of multiple student data elements; (v) assisting instructional staff with alignment of curriculum, instruction, and assessment with state and local district learning goals; (vi) monitoring, assisting, and evaluating effective instruction and assessment practices; (vii) managing both staff and fiscal resources to support student achievement and legal responsibilities; and (viii) partnering with the school community to promote student learning.

(c) The four-level rating system used to evaluate the principal must describe performance along a continuum that indicates the extent to which the criteria have been met or exceeded. When available, student growth data that is referenced in the evaluation process must be based on multiple measures that can include classroom-based, school-based, district-based, and state-based tools. As used in this subsection, "student growth" means the change in student achievement between two points in time.

(7)(a) The superintendent of public instruction, in collaboration with state associations representing teachers, principals, administrators, and parents, shall create models for implementing the evaluation system criteria, student growth tools, professional development programs, and evaluator training for certificated classroom teachers and principals. Human resources specialists, professional development experts, and assessment experts must also be consulted. Due to the diversity of teaching assignments and the many developmental levels of students, classroom teachers and principals must be prominently represented in this work. The models must be available for use in the 2011-12 school year.

(b) A new certificated classroom teacher evaluation system that implements the provisions of subsection (2) of this section and a new principal evaluation system that implements the provisions of subsection (6) of this section shall be phased-in beginning with the 2010-11 school year by districts identified in (c) of this subsection and implemented in all school districts beginning with the 2013-14 school year.

(c) A set of school districts shall be selected by the superintendent of public instruction to participate in a collaborative process resulting in the development and piloting of new certificated classroom teacher and principal evaluation systems during the 2010-11 and 2011-12 school years. These school districts must be selected based on: (i) The agreement of the local associations
representing classroom teachers and principals to collaborate with
the district in this developmental work and (ii) the agreement to
participate in the full range of development and implementation
activities, including: Development of rubrics for the evaluation
criteria and ratings in subsections (2) and (6) of this section;
identification of or development of appropriate multiple measures of
student growth in subsections (2) and (6) of this section;
development of appropriate evaluation system forms; participation
in professional development for principals and classroom teachers
regarding the content of the new evaluation system; participation in
evaluator training; and participation in activities to evaluate the
effectiveness of the new systems and support programs. The
district schools must submit to the office of the superintendent of
public instruction data that is used in evaluations and all
district-collected student achievement, aptitude, and growth data
regardless of whether the data is used in evaluations. If the data is
not available electronically, the district may submit it in
nonelectronic form. The superintendent of public instruction must
analyze the districts' use of student data in evaluations, including
examining the extent that student data is not used or is underutilized.
The superintendent of public instruction must also consult with
participating districts and stakeholders, recommend appropriate
changes, and address statewide implementation issues. The
superintendent of public instruction shall report evaluation system
implementation status, evaluation data, and recommendations to
appropriate committees of the legislature and governor by July 1,
2011, and at the conclusion of the development phase by July 1,
2012. In the July 1, 2011 report, the superintendent shall include
recommendations for whether a single statewide evaluation model
should be adopted, whether modified versions developed by school
districts should be subject to state approval, and what the criteria
would be for determining if a school district's evaluation model
meets or exceeds a statewide model. The report shall also identify
challenges posed by requiring a state approval process.

(8) Each certificated (employees) classroom teacher and
certificated support personnel shall have the opportunity for
confidential conferences with his or her immediate supervisor on no
less than two occasions in each school year. Such confidential
conference shall have as its sole purpose the aiding of the
administrator in his or her assessment of the employee's professional
performance.

(9) The failure of any evaluator to evaluate or supervise
or cause the evaluation or supervision of certificated (employees)
classroom teachers and certificated support personnel or
administrators in accordance with this section, as now or hereafter
amended, when it is his or her specific assigned or delegated
responsibility to do so, shall be sufficient cause for the nonrenewal
of any such evaluator's contract under RCW 28A.405.210, or the
discharge of such evaluator under RCW 28A.405.300.

(10) After (an employee) a certificated classroom
teacher or certificated support personnel has four years of
satisfactory evaluations under subsection (1) of this section or has
received one of the two top ratings for four years under subsection
(2) of this section, a school district may use a short form of
evaluation, a locally bargained evaluation emphasizing professional
growth, an evaluation under subsection (1) or (2) of this section, or
any combination thereof. The short form of evaluation shall
include either a thirty minute observation during the school year
with a written summary or a final annual written evaluation based on
the criteria in subsection (1) or (2) of this section and based on at
least two observation periods during the school year totaling at least
sixty minutes without a written summary of such observations being
prepared. A locally bargained short-form evaluation emphasizing
professional growth must provide that the professional growth
activity conducted by the certificated classroom teacher be
specifically linked to one or more of the certificated classroom
teacher evaluation criteria. However, the evaluation process set
forth in subsection (1) or (2) of this section shall be followed at least
once every three years unless this time is extended by a local school
district under the bargaining process set forth in chapter 41.59
RCW. The employee or evaluator may require that the evaluation
process set forth in subsection (1) or (2) of this section be conducted
in any given school year. No evaluation other than the evaluation
authorized under subsection (1) or (2) of this section may be used as
a basis for determining that an employee's work is (unsatisfactory)
not satisfactory under subsection (1) or (2) of this section or as
probable cause for the nonrenewal of an employee's contract under
RCW 28A.405.210 unless an evaluation process developed under
chapter 41.59 RCW determines otherwise.

Sec. 203. RCW 28A.405.220 and 2009 c 57 s 2 are each
amended to read as follows:

(1) Notwithstanding the provisions of RCW 28A.405.210, every
person employed by a school district in a teaching or other
nonsupervisory certificated position shall be subject to nonrenewal
of employment contract as provided in this section during the first
three years of employment by such district, unless: (a) The
employee has previously completed at least two years of certificated
employment in another school district in the state of Washington, in
which case the employee shall be subject to nonrenewal of
employment contract pursuant to this section during the first year of
employment with the new district; or (b) the school district
superintendent may make a determination to remove an employee
from provisional status if the employee has received one of the top
two evaluation ratings during the second year of employment by the
district. Employees as defined in this section shall hereinafter be
referred to as "provisional employees.""

(2) In the event the superintendent of the school district
determines that the employment contract of any provisional
employee should not be renewed by the district for the next ensuing
term such provisional employee shall be notified thereof in writing
on or before May 15th preceding the commencement of such school
term, or if the omnibus appropriations act has not passed the
legislature by May 15th, then notification shall be no later than June
15th, which notification shall state the reason or reasons for such
determination. Such notice shall be served upon the provisional
employee personally, or by certified or registered mail, or by leaving
a copy of the notice at the place of his or her usual abode with some
person of suitable age and discretion then resident therein. The
determination of the superintendent shall be subject to the
evaluation requirements of RCW 28A.405.100.

(3) Every such provisional employee so notified, at his or her
request made in writing and filed with the superintendent of the
district within ten days after receiving such notice, shall be given the
opportunity to meet informally with the superintendent for the
purpose of requesting the superintendent to reconsider his or her
decision. Such meeting shall be held no later than ten days
following the receipt of such request, and the provisional employee
shall be given written notice of the date, time and place of meeting at
least three days prior thereto. At such meeting the provisional
employee shall be given the opportunity to refute any facts upon
which the superintendent's determination was based and to make
any argument in support of his or her request for reconsideration.

(4) Within ten days following the meeting with the provisional
employee, the superintendent shall either reinstate the provisional
employee or shall submit to the school district board of directors for
consideration at its next regular meeting a written report
recommending that the employment contract of the provisional
employee be nonrenewed and stating the reason or reasons therefor.
A copy of such report shall be delivered to the provisional employee
at least three days prior to the scheduled meeting of the board of
directors. In taking action upon the recommendation of the superintendent, the board of directors shall consider any written communication which the provisional employee may file with the secretary of the board at any time prior to that meeting.

(5) The board of directors shall notify the provisional employee in writing of its final decision within ten days following the meeting at which the superintendent's recommendation was considered. The decision of the board of directors to nonrenew the contract of a provisional employee shall be final and not subject to appeal.

(6) This section applies to any person employed by a school district in a teaching or other nonsupervisory certificated position after June 25, 1976. This section provides the exclusive means for nonrenewing the employment contract of a provisional employee and no other provision of law shall be applicable thereto, including, without limitation, RCW 28A.405.210 and chapter 28A.645 RCW.

NEW SECTION. Sec. 204. A new section is added to chapter 28A.405 RCW to read as follows:

(1) Representatives of the office of the superintendent of public instruction and statewide associations representing administrators, principals, human resources specialists, and certificated classroom teachers shall analyze how the evaluation systems in RCW 28A.405.100 (2) and (6) affect issues related to a change in contract status.

(2) The analysis shall be conducted during each of the phase-in years of the certificated classroom teacher and principal evaluation systems. The analysis shall include: Procedures, timelines, probationary periods, appeal procedures, and other items related to the timely exercise of employment decisions and due process provisions for certificated classroom teachers and principals.

NEW SECTION. Sec. 205. A new section is added to chapter 28A.405 RCW to read as follows:

If funds are provided for professional development activities designed specifically for first through third-year teachers, the funds shall be allocated first to districts participating in the evaluation systems in RCW 28A.405.100 (2) and (6) before the required implementation date under that section.

PART III
PRINCIPAL PERFORMANCE

NEW SECTION. Sec. 301. The legislature finds that the presence of highly effective principals in schools has never been more important than it is today. To enable students to meet high academic standards, principals must lead and encourage teams of teachers and support staff to work together, align curriculum and instruction, use student data to target instruction and intervention strategies, and serve as the chief school officer with parents and the community. Greater responsibility should come with greater authority over personnel, budgets, resource allocation, and programs. But greater responsibility also comes with greater accountability for outcomes. Washington is putting into place an updated and rigorous system of evaluating principal performance, one that will measure what matters. This system will never be truly effective unless the results are meaningfully used.

NEW SECTION. Sec. 302. A new section is added to chapter 28A.405 RCW to read as follows:

(1) Any certificated employee of a school district under this section who is first employed as a principal after the effective date of this section shall be subject to transfer as provided under this section, at the expiration of the term of his or her employment contract, to any subordinate certificated position within the school district. “Subordinate certificated position” as used in this section means any administrative or nonadministrative certificated position for which the annual compensation is less than the position currently held by the administrator. This section applies only to school districts with an annual average student enrollment of more than thirty-five thousand full-time equivalent students.

(2) During the first three consecutive school years of employment as a principal by the school district, or during the first full school year of such employment in the case of a principal who has been previously employed as a principal by another school district in the state for three or more consecutive school years, the transfer of the principal to a subordinate certificated position may be made by a determination of the superintendent that the best interests of the school district would be served by the transfer.

(3) Commencing with the fourth consecutive school year of employment as a principal, or the second consecutive school year of such employment in the case of a principal who has been previously employed as a principal by another school district in the state for three or more consecutive school years, the transfer of the principal to a subordinate certificated position shall be based on the superintendent's determination that the results of the evaluation of the principal's performance using the evaluative criteria and rating system established under RCW 28A.405.100 provide a valid reason for the transfer without regard to whether there is probable cause for the transfer. If a valid reason is shown, it shall be deemed that the transfer is reasonably related to the principal's performance. No probationary period is required. However, provision of support and an attempt at remediation of the performance of the principal, as defined by the superintendent, are required for a determination by the superintendent under this subsection that the principal should be transferred to a subordinate certificated position.

(4) Any superintendent transferring a principal under this section to a subordinate certificated position shall notify that principal in writing on or before May 15th before the beginning of the school year of that determination, or if the omnibus appropriations act has not passed the legislature by May 15th, then notification shall be no later than June 15th. The notification shall state the reason or reasons for the transfer and shall identify the subordinate certificated position to which the principal will be transferred. The notification shall be served upon the principal personally, or by certified or registered mail, or by leaving a copy of the notice at the place of his or her usual abode with some person of suitable age and discretion then resident therein.

(5) Any principal so notified may request to the president or chair of the board of directors of the district, in writing and within ten days after receiving notice, an opportunity to meet informally with the board of directors in an executive session for the purpose of requesting the board to reconsider the decision of the superintendent, and shall be given such opportunity. The board, upon receipt of such request, shall schedule the meeting for no later than the next regularly scheduled meeting of the board, and shall give the principal written notice at least three days before the meeting of the date, time, and place of the meeting. At the meeting the principal shall be given the opportunity to refute any evidence upon which the determination was based and to make any argument in support of his or her request for reconsideration. The principal and the board may invite their respective legal counsel to be present and to participate at the meeting. The board shall notify the principal in writing of its final decision within ten days following its meeting with the principal. No appeal to the courts shall lie from the final decision of the board of directors to transfer a principal to a subordinate certificated position.

(6) This section provides the exclusive means for transferring a certificated employee first employed by a school district under this section as a principal after the effective date of this section to a subordinate certificated position at the expiration of the term of his or her employment contract.

Sec. 303. RCW 28A.405.210 and 2009 c 57 s 1 are each amended to read as follows:
No teacher, principal, supervisor, superintendent, or other certificated employee, holding a position as with a school district, hereinafter referred to as "employee", shall be employed except by written order of a majority of the directors of the district at a regular or special meeting thereof, nor unless he or she is the holder of an effective teacher's certificate or other certificate required by law or the Washington professional educator standards board for the position for which the employee is employed.

The board shall make with each employee employed by it a written contract, which shall be in conformity with the laws of this state, and except as otherwise provided by law, limited to a term of not more than one year. Every such contract shall be made in duplicate, one copy to be retained by the school district superintendent or secretary and one copy to be delivered to the employee. No contract shall be offered by any board for the employment of any employee who has previously signed an employment contract for that same term in another school district of the state of Washington unless such employee shall have been released from his or her obligations under such previous contract by the board of directors of the school district to which he or she was obligated. Any contract signed in violation of this provision shall be void.

In the event it is determined that there is probable cause or causes that the employment contract of an employee should not be renewed by the district for the next ensuing term such employee shall be notified in writing on or before May 15th preceding the commencement of such term of such determination, or if the omnibus appropriations act has not passed the legislature by May 15th, then notification shall be no later than June 15th, which notification shall specify the cause or causes for nonrenewal of contract. Such determination of probable cause for certificated employees, other than the superintendent, shall be made by the superintendent. Such notice shall be served upon the employee personally, or by certified or registered mail, or by leaving a copy of the notice at the house of his or her usual abode with some person of suitable age and discretion then resident therein. Every such employee so notified, at his or her request made in writing and filed with the president, chair or secretary of the board of directors of the district within ten days after receiving such notice, shall be granted the opportunity to meet informally with the board of directors in executive session thereof for the purpose of requesting the board to reconsider the decision of the superintendent. Such board, upon receipt of such request, shall schedule the meeting for no later than the next regularly scheduled meeting of the board, and shall notify the administrator in writing of the date, time and place of the meeting at least three days prior thereto. At such meeting the administrator shall be given the opportunity to refute any facts upon which the determination was based and to make any argument in support of his or her request for reconsideration. The administrator and the board may invite their respective legal counsel to be present and to participate at the meeting. The board shall notify the administrator in writing of its final decision within ten days following its meeting with the administrator. No appeal to the courts shall lie from the final decision of the board of directors to transfer an administrator to a subordinate certificated position: PROVIDED, That in the case of principals such transfer shall be made at the expiration of the contract year and only during the first three consecutive school years of employment as a principal by a school district; except that if any such principal has been previously employed as a principal by another school district in the state of Washington for three or more consecutive school years the provisions of this section shall apply only to the first full school year of such employment.

This section applies to any person employed as an administrator by a school district on June 25, 1976, and to all persons so employed at any time thereafter, except that section 302 of this act applies to persons first employed after the effective date of this section as a principal by a school district meeting the criteria of section 302 of this act. This section provides the exclusive means for transferring an administrator subject to this section to a subordinate certificated position at the expiration of the term of his or her employment contract.

Sec. 305. RCW 28A.405.300 and 1990 c 33 s 395 are each amended to read as follows:

In the event it is determined that there is probable cause or causes for a teacher, principal, supervisor, superintendent, or other certificated employee, holding a position as such with the school district, hereinafter referred to as "employee", to be discharged or otherwise adversely affected in his or her contract status, such employee shall be notified in writing of that decision, which notification shall specify the probable cause or causes for such action. Such determinations of probable cause for certificated employees, other than the superintendent, shall be made by the
superintendent. Such notices shall be served upon that employee personally, or by certified or registered mail, or by leaving a copy of the notice at the house of his or her usual abode with some person of suitable age and discretion then resident therein. Every such employee so notified, at his or her request made in writing and filed with the president, chair of the board or secretary of the board of directors of the district within ten days after receiving such notice, shall be granted opportunity for a hearing pursuant to RCW 28A.405.310 to determine whether or not there is sufficient cause or causes for his or her discharge or other adverse action against his or her contract status.

In the event any such notice or opportunity for hearing is not timely given, or in the event cause for discharge or other adverse action is not established by a preponderance of the evidence at the hearing, such employee shall not be discharged or otherwise adversely affected in his or her contract status for the causes stated in the original notice for the duration of his or her contract.

If such employee does not request a hearing as provided herein, such employee may be discharged or otherwise adversely affected as provided in the notice served upon the employee.

Transfer to a subordinate certificated position as that procedure is set forth in RCW 28A.405.230 or section 302 of this act shall not be construed as a discharge or other adverse action against contract status for the purposes of this section.

PART IV
ENCOURAGING INNOVATIONS

Sec. 401. RCW 28A.400.200 and 2002 c 353 s 2 are each amended to read as follows:

(1) Every school district board of directors shall fix, alter, allow, and order paid salaries and compensation for all district employees in conformance with this section.

(2)(a) Salaries for certificated instructional staff shall not be less than the salary provided in the appropriations act in the statewide salary allocation schedule for an employee with a baccalaureate degree and zero years of service; and

(b) Salaries for certificated instructional staff with a master's degree shall not be less than the salary provided in the appropriations act in the statewide salary allocation schedule for an employee with a master's degree and zero years of service;

(3)(a) The actual average salary paid to certificated instructional staff shall not exceed the district's average certificated instructional staff salary used for the state basic education allocations for that school year as determined pursuant to RCW 28A.150.410.

(b) Fringe benefit contributions for certificated instructional staff shall be included as salary under (a) of this subsection only to the extent that the district's actual average benefit contribution exceeds the amount of the insurance benefits allocation provided per certificated instructional staff unit in the state operating appropriations act in effect at the time the compensation is payable. For purposes of this section, fringe benefits shall not include payment for unused leave for illness or injury under RCW 28A.400.210; employer contributions for old age survivors insurance, workers' compensation, unemployment compensation, and retirement benefits under the Washington state retirement system; or employer contributions for health benefits in excess of the insurance benefits allocation provided per certificated instructional staff unit in the state operating appropriations act in effect at the time the compensation is payable. A school district may not use state funds to provide employer contributions for such excess health benefits.

(c) Salary and benefits for certificated instructional staff in programs other than basic education shall be consistent with the salary and benefits paid to certificated instructional staff in the basic education program.

(4) Salaries and benefits for certificated instructional staff may exceed the limitations in subsection (3) of this section only by separate contract for additional time, for additional responsibilities, for incentives, or for implementing specific measurable innovative activities, including professional development, specified by the school district to: (a) Close one or more achievement gaps, (b) focus on development of science, technology, engineering, and mathematics (STEM) learning opportunities, or (c) provide arts education. Beginning September 1, 2011, school districts shall annually provide a brief description of the innovative activities included in any supplemental contract to the office of the superintendent of public instruction. The office of the superintendent of public instruction shall summarize the district information and submit an annual report to the education committees of the house of representatives and the senate.

Supplemental contracts shall not cause the state to incur any present or future funding obligation. Supplemental contracts shall be subject to the collective bargaining provisions of chapter 41.59 RCW and the provisions of RCW 28A.405.240, shall not exceed one year, and if not renewed shall not constitute adverse change in accordance with RCW 28A.405.300 through 28A.405.380. No district may enter into a supplemental contract under this subsection for the provision of services which are a part of the basic education program required by Article IX, section 3 of the state Constitution.

(5) Employee benefit plans offered by any district shall comply with RCW 28A.400.350 and 28A.400.275 and 28A.400.280.

PART V
EXPANDING PROFESSIONAL PREPARATION OPTIONS AND WORKFORCE INFORMATION

NEW SECTION. Sec. 501. A new section is added to chapter 28A.410 RCW to read as follows:

(1) Beginning with the 2011-12 school year, all professional educator standards board-approved teacher preparation programs must administer to all preservice candidates the evidence-based assessment of teaching effectiveness adopted by the professional educator standards board. The professional educator standards board shall adopt rules that establish a date during the 2012-13 school year after which candidates completing teacher preparation programs must successfully pass this assessment. Assessment results from persons completing each preparation program must be reported annually by the professional educator standards board to the governor and the education and fiscal committees of the legislature by December 1st.

(2) The professional educator standards board and the superintendent of public instruction, as determined by the board, may contract with one or more third parties for:

(a) The administration, scoring, and reporting of scores of the assessment under this section;

(b) Related clerical and administrative activities; or

(c) Any combination of the purposes of this subsection (2).

(3) Candidates for residency certification who are required to successfully complete the assessment under this section, and who are charged a fee for the assessment by a third party contracted with under this section, shall pay the fee charged by the contractor directly to the contractor. Such fees shall be reasonably related to the actual costs of the contractor in providing the assessment.

NEW SECTION. Sec. 502. A new section is added to chapter 28A.410 RCW to read as follows:

(1) By September 30, 2010, the professional educator standards board shall review and revise teacher and administrator preparation program approval standards and proposal review procedures at the
SIXTIETH DAY, MARCH 11, 2010

2010 REGULAR SESSION

JOURNAL OF THE SENATE

residency certificate level to ensure they are rigorous and appropriate standards for an expanded range of potential providers, including community college and nonhigher education providers. All approved providers must adhere to the same standards and comply with the same requirements.

(2) Beginning September 30, 2010, the professional educator standards board must accept proposals for community college and nonhigher education providers of educator preparation programs. Proposals must be processed and considered by the board as expeditiously as possible.

(3) By September 1, 2011, all professional educator standards board-approved residency teacher preparation programs at institutions of higher education as defined in RCW 28A.660.020 not currently a partner in an alternative route program approved by the professional educator standards board must submit to the board a proposal to offer one or more of the alternative route programs that meet the requirements of RCW 28A.660.020 and 28A.660.040.

Sec. 503. RCW 28A.660.020 and 2006 c 263 s 816 are each amended to read as follows:

Partnerships must provide each candidate with intensive classroom mentoring until such time as the candidate demonstrates the competency necessary to manage the classroom with less intensive supervision and guidance from a mentor;

(f) A description of the rigorous screening process for applicants to alternative route programs, including entry requirements specific to each route, as provided in RCW 28A.660.040; ((and))

(g) A summary of procedures that provide flexible completion opportunities for candidates to achieve a residency certificate; and

(h) The design and use of a teacher development plan for each candidate. The plan shall specify the alternative route coursework and training required of each candidate and shall be developed by comparing the candidate’s prior experience and coursework with the state’s new performance-based standards for residency certification and adjusting any requirements accordingly. The plan may include the following components:

(i) A minimum of one-half of a school year, and an additional significant amount of time if necessary, of intensive mentorship during field experience, starting with full-time mentoring and progressing to increasingly less intensive monitoring and assistance as the intern demonstrates the skills necessary to take over the classroom with less intensive support. (For route one and two candidates) Before the supervision is diminished, the mentor of the teacher candidate at the school and the supervisor of the teacher candidate from the ((higher education)) teacher preparation program must both agree that the teacher candidate is ready to manage the classroom with less intensive supervision. (For route three and four candidates, the mentor of the teacher candidate shall make the determination);

(2) ((For the)) (3) To the extent funds are appropriated for this purpose, ((districts)) alternative route programs may apply for program funds to pay stipends to trained mentor teachers of interns during the mentored internship. The per intern amount of mentor stipend provided by state funds shall not exceed five hundred dollars.

Sec. 504. RCW 28A.660.040 and 2009 c 192 s 1 and 2009 c 166 s 1 are each reenacted and amended to read as follows:

(1) ((Partnership grants funded)) Alternative route programs under this chapter shall operate one to four specific route programs. Successful completion of the program shall make a candidate eligible for residency teacher certification. ((For route one and two candidates)) The mentor of the teacher candidate at the school and the supervisor of the teacher candidate from the ((higher education)) teacher preparation program must both agree that the teacher candidate has successfully completed the program. ((For route three and four candidates, the mentor of the teacher candidate shall make the determination that the candidate has successfully completed the program))

(1) ((Partnership grant programs seeking funds to operate)) Alternative route programs operating route one programs shall enroll currently employed classified instructional employees with transferable associate degrees seeking residency teacher certification with endorsements in special education, bilingual education, or English as a second language. It is anticipated that candidates enrolled in this route will complete both their baccalaureate degree and requirements for residency certification in two years or less, including a mentored internship to be completed in the final year. In addition, partnership programs shall uphold entry requirements for candidates that include:

(a) District or building validation of qualifications, including one year of successful student interaction and leadership as a classified instructional employee;

(b) Successful passage of the statewide basic skills exam((, when available)); and
(c) Meeting the age, good moral character, and personal fitness requirements adopted by rule for teachers.

(2) ((Partnership grant programs seeking funds to operate)) Alternative route programs operating route two programs shall enroll currently employed classified staff with baccalaureate degrees seeking residency teacher certification in subject matter shortage areas and areas with shortages due to geographic location. Candidates enrolled in this route must complete a mentored internship complemented by flexibly scheduled training and coursework offered at a local site, such as a school or educational service district, or online or via video-conference over the K-20 network, in collaboration with the partnership program's higher education partner. In addition, partnership grant programs shall uphold entry requirements for candidates that include:

(a) District or building validation of qualifications, including one year of successful student interaction and leadership as classified staff;

(b) A baccalaureate degree from a regionally accredited institution of higher education. The individual's college or university grade point average may be considered as a selection factor;

(c) Successful completion of the ((content test, once the state content test is available)) subject matter assessment required by RCW 28A.410.220(3);

(d) Meeting the age, good moral character, and personal fitness requirements adopted by rule for teachers; and

(e) Successful passage of the state wide basic skills exam((, when available)).

(3) ((Partnership grant)) Alternative route programs seeking funds to operate route three programs shall enroll individuals with baccalaureate degrees, who are not employed in the district at the time of application. When selecting candidates for certification through route three, districts and approved preparation program providers shall give priority to individuals who are seeking residency teacher certification in subject matter shortage areas or shortages due to geographic locations. ((For route three only, the districts may include additional candidates in nonshortage subject areas, if the candidates are seeking endorsements with a secondary grade level designation as defined by rule by the professional educator standards board. The districts shall disclose to candidates in nonshortage subject areas, available information on the demand in those subject areas.)) Cohorts of candidates for this route shall attend an intensive summer teaching academy, followed by a full year employed by a district in a mentored internship. If employed on a conditional certificate, the intern may serve as the teacher of record, supported by a well-trained mentor. In addition, partnership programs shall uphold entry requirements for candidates that include:

(a) A baccalaureate degree from a regionally accredited institution of higher education. The individual's grade point average may be considered as a selection factor;

(b) Successful completion of the ((content test, once the state content test is available)) subject matter assessment required by RCW 28A.410.220(3);

(c) External validation of qualifications, including demonstrated successful experience with students or children, such as reference letters and letters of support from previous employers;

(d) Meeting the age, good moral character, and personal fitness requirements adopted by rule for teachers; and

(e) Successful passage of statewide basic skills exam((, when available)).

(5) Applicants for alternative route programs who are eligible veterans or national guard members and who meet the entry requirements for the alternative route program for which application is made shall be given preference in admission.

Sec. 505. RCW 28A.660.050 and 2009 c 539 s 3 and 2009 c 192 s 2 are each reenacted and amended to read as follows:

PART VI
COMMON CORE STANDARDS

NEW SECTION, Sec. 601. A new section is added to chapter 28A.655 RCW to read as follows:

(1) By August 2, 2010, the superintendent of public instruction may revise the state essential academic learning requirements authorized under RCW 28A.655.070 for mathematics, reading, writing, and communication by provisionally adopting a common set of standards for students in grades kindergarten through twelve. The revised state essential academic learning requirements may be substantially identical with the standards developed by a multistate consortium in which Washington participated, must be consistent with the requirements of RCW 28A.655.070, and may include additional standards if the additional standards do not exceed fifteen percent of the standards for each content area. However, the superintendent of public instruction shall not take steps to implement the provisionally adopted standards until the education committees of the house of representatives and the senate have an opportunity to review the standards.

(2) By January 1, 2011, the superintendent of public instruction shall submit to the education committees of the house of representatives and the senate:

(a) A detailed comparison of the provisionally adopted standards and the state essential academic learning requirements as of the effective date of this section, including the comparative level of rigor and specificity of the standards and the implications of any identified differences; and

(b) An estimated timeline and costs to the state and to school districts to implement the provisionally adopted standards, including providing necessary training, realignment of curriculum, adjustment of state assessments, and other actions.

(3) The superintendent may implement the revisions to the essential academic learning requirements under this section after the 2011 legislative session unless otherwise directed by the legislature.

PART VII
PARENTS AND COMMUNITY

NEW SECTION, Sec. 701. A new section is added to chapter 28A.605 RCW to read as follows:

School districts are encouraged to strengthen family, school, and community partnerships by creating spaces in school buildings, if space is available, where students and families can access the services they need, such as after-school tutoring, dental and health services, counseling, or clothing and food banks.

NEW SECTION, Sec. 702. A new section is added to chapter 28A.655 RCW to read as follows:

(1) Beginning with the 2010-11 school year, each school shall conduct outreach and seek feedback from a broad and diverse range of parents, other individuals, and organizations in the community regarding their experiences with the school. The school shall summarize the responses in its annual report under RCW 28A.655.110.

(2) The office of the superintendent of public instruction shall create a working group with representatives of organizations representing parents, teachers, and principals as well as diverse communities. The working group shall also include a representative from the achievement gap oversight and accountability committee. By September 1, 2010, the working group shall develop model feedback tools and strategies that school districts may use to facilitate the feedback process required in subsection (1) of this section. The model tools and strategies are intended to provide assistance to school districts. School districts are encouraged to adapt the models or develop unique tools and strategies that best fit the circumstances in their communities.

Sec. 703. RCW 28A.655.110 and 1999 c 388 s 303 are each amended to read as follows:

(1) Beginning with the 1994-95 school year, to provide the local community and electorate with access to information on the educational programs in the schools in the district, each school shall publish annually a school performance report and deliver the report to each parent with children enrolled in the school and make the report available to the community served by the school. The annual performance report shall be in a form that can be easily understood and be used by parents, guardians, and other members of the community who are not professional educators to make informed educational decisions. As data from the assessments in RCW 28A.655.060 becomes available, the annual performance report should enable parents, educators, and school board members to determine whether students in the district's schools are attaining mastery of the student learning goals under RCW 28A.150.210, and other important facts about the schools' performance in assisting students to learn. The annual report shall make comparisons to a school's performance in preceding years (and shall include school level goals under RCW 28A.655.050), student performance relative to the goals and the percentage of students performing at each level of the assessment, a comparison of student performance at each level of the assessment to the previous year's performance, and information regarding school-level plans to achieve the goals.

(2) The annual performance report shall include, but not be limited to: (a) A brief statement of the mission of the school and the school district; (b) enrollment statistics including student demographics; (c) expenditures per pupil for the school year; (d) a summary of student scores on all mandated tests; (e) a concise annual budget report; (f) student attendance, graduation, and dropout rates; (g) information regarding the use and condition of the school building or buildings; (h) a brief description of the learning improvement plans for the school; (i) a summary of the feedback from parents and community members obtained under section 702 of this act; and (j) an invitation to all parents and citizens to participate in school activities.

(3) The superintendent of public instruction shall develop by June 30, 1994, and update periodically, a model report form, which shall also be adapted for computers, that schools may use to meet the requirements of subsections (1) and (2) of this section. In order to make school performance reports broadly accessible to the public, the superintendent of public instruction, to the extent feasible, shall make information on each school's report available on or through the superintendent's internet web site.

NEW SECTION, Sec. 704. A new section is added to chapter 28A.300 RCW to read as follows:

There is a sizeable body of research positively supporting the involvement of parents taking an engaged and active role in their child's education. Therefore, the legislature intends to provide state recognition by the center for the improvement of student learning within the office of the superintendent of public instruction for schools that increase the level of direct parental involvement with their child's education. By September 1, 2010, the center for the improvement of student learning shall determine measures that can be used to evaluate the level of parental involvement in a school. The center for the improvement of student learning shall collaborate with school district family and community outreach programs and educational service districts to identify and highlight successful models and practices of parent involvement.
PART VIII
COLLECTIVE BARGAINING

Sec. 801. RCW 41.56.100 and 1989 c 45 s 1 are each amended to read as follows:

(1) A public employer shall have the authority to engage in collective bargaining with the exclusive bargaining representative and no public employer shall refuse to engage in collective bargaining with the exclusive bargaining representative (provided, That nothing contained herein shall require any).

However, a public employer is not required to bargain collectively with any bargaining representative concerning any matter which by ordinance, resolution, or charter of said public employer has been delegated to any civil service commission or personnel board similar in scope, structure, and authority to the board created by chapter 41.06 RCW.

(2) Upon the failure of the public employer and the exclusive bargaining representative to conclude a collective bargaining agreement, any matter in dispute may be submitted by either party to the commission. This subsection does not apply to negotiations and mediations conducted between a school district employer and an exclusive bargaining representative under section 105 of this act.

(3) If a public employer implements its last and best offer where there is no contract settlement, allegations that either party is violating the terms of the implemented offer shall be subject to grievance arbitration procedures if and as such procedures are set forth in the implemented offer, if, and as such procedures are set forth in the parties' last contract.

NEW SECTION. Sec. 802. A new section is added to chapter 41.56 RCW to read as follows:

All collective bargaining agreements entered into between a school district employer and school district employees under this chapter after the effective date of this section, as well as bargaining agreements existing on the effective date of this section but renewed or extended after the effective date of this section, shall be consistent with section 105 of this act.

NEW SECTION. Sec. 803. A new section is added to chapter 41.59 RCW to read as follows:

All collective bargaining agreements entered into between a school district employer and school district employees under this chapter after the effective date of this section, as well as bargaining agreements existing on the effective date of this section but renewed or extended after the effective date of this section, shall be consistent with section 105 of this act.

Sec. 804. RCW 41.59.120 and 1975 1st ex.s. c 288 s 13 are each amended to read as follows:

(1) Either an employer or an exclusive bargaining representative may declare that an impasse has been reached between them in collective bargaining and may request the commission to appoint a mediator for the purpose of assisting them in reconciling their differences and resolving the controversy on terms which are mutually acceptable. If the commission determines that its assistance is needed, not later than five days after the receipt of a request therefor, it shall appoint a mediator in accordance with rules and regulations for such appointment prescribed by the commission. The mediator shall meet with the parties or their representatives, or both, forthwith, either jointly or separately, and shall take such other steps as he may deem appropriate in order to persuade the parties to resolve their differences and effect a mutually acceptable agreement. The mediator, without the consent of both parties, shall not make findings of fact or recommend terms of settlement. The services of the mediator, including, if any, per diem expenses, shall be provided by the commission without cost to the parties. Nothing in this subsection (1) shall be construed to prevent the parties from mutually agreeing upon their own mediation procedure, and in the event of such agreement, the commission shall not appoint its own mediator unless failure to do so would be inconsistent with the effectuation of the purposes and policy of this chapter.

(2) If the mediator is unable to effect settlement of the controversy within ten days after his or her appointment, either party, by written notification to the other, may request that their differences be submitted to fact-finding with recommendations, except that the time for mediation may be extended by mutual agreement between the parties. Within five days after receipt of the aforesaid written request for fact-finding, the parties shall select a person to serve as fact finder and obtain a commitment from that person to serve. If they are unable to agree upon a fact finder or to obtain such a commitment within that time, either party may request the commission to designate a fact finder. The commission, within five days after receipt of such request, shall designate a fact finder in accordance with rules and regulations for such designation prescribed by the commission. The fact finder so designated shall not be the same person who was appointed mediator pursuant to subsection (1) of this section without the consent of both parties.

The fact finder, within five days after his appointment, shall meet with the parties or their representatives, or both, either jointly or separately, and make inquiries and investigations, hold hearings, and take such other steps as he may deem appropriate. For the purpose of such hearings, investigations and inquiries, the fact finder shall have the power to issue subpoenas requiring the attendance and testimony of witnesses and the production of evidence. If the dispute is not settled within ten days after his appointment, the fact finder shall make findings of fact and recommend terms of settlement within thirty days after his appointment, which recommendations shall be advisory only.

(3) Such recommendations, together with the findings of fact, shall be submitted in writing to the parties and the commission privately before they are made public. Either the commission, the fact finder, the employer, or the exclusive bargaining representative may make such findings and recommendations public if the dispute is not settled within five days after their receipt from the fact finder.

(4) The costs for the services of the fact finder, including, if any, per diem expenses and actual and necessary travel and subsistence expenses, and any other incurred costs, shall be borne by the commission without cost to the parties.

(5) Nothing in this section shall be construed to prohibit an employer and an exclusive bargaining representative from agreeing to substitute, at their own expense, their own procedure for resolving impasses in collective bargaining for that provided in this section or from agreeing to utilize for the purposes of this section any other governmental or other agency or person in lieu of the commission.

(6) Any fact finder designated by an employer and an exclusive representative or the commission for the purposes of this section shall be deemed an agent of the state.

(7) This section does not apply to negotiations and mediations conducted under section 105 of this act.

PART IX

The governor and the tribes are encouraged to designate members who have experience working in and with schools.

(5) The governor and the tribes are encouraged to designate members who have experience working in and with schools.

(6) The committee may convene ad hoc working groups to obtain additional input and participation from community members.  Members of ad hoc working groups shall serve without compensation and shall not be reimbursed for travel or other expenses.

(7) The chair or cochair of the committee shall be selected by the members of the committee.  Staff support for the committee shall be provided by the center for the improvement of student learning. Legislative members of the committee shall be reimbursed for travel expenses in accordance with RCW 44.04.120.

MOTION

MESSAGE FROM THE HOUSE

March 15, 2010

MR. PRESIDENT:
FIRST DAY, MARCH 15, 2010

On motion of Senator Eide, Senate Rule 20 was suspended for the remainder of the day to allow consideration of additional floor resolutions.

EDITOR’S NOTE: Senate Rule 20 limits consideration of floor resolutions not essential to the operation of the Senate to one per day during regular daily sessions.

MOTION

Senator Eide moved adoption of the following resolution:

SENATE RESOLUTION

8719

By Senators Eide and Hewitt

WHEREAS, The Senate adopted permanent rules for the 2009-2011 biennium under Senate Floor Resolution 8601, as amended by Senate Floor Resolution 8603;

NOW, THEREFORE, BE IT RESOLVED, That Rules 45 and 62 are each amended as follows:

“Committee Rules

Rule 45. 1. At least five days notice shall be given of all public hearings held by any committee other than the rules committee. Such notice shall contain the date, time and place of such hearing together with the title and number of each bill, or identification of the subject matter, to be considered at such hearing. By a majority vote of the committee members present at any committee meeting such notice may be dispensed with. The reason for such action shall be set forth in a written statement preserved in the records of the meeting.

2. No committee may hold a public hearing during a regular or extraordinary session on a proposal identified as a draft unless the draft has been made available to the public at least twenty-four hours prior to the hearing. This rule does not apply during the five days prior to any cutoff established by concurrent resolution nor does it apply to any measure exempted from the resolution.

3. During its consideration of or vote on any bill, resolution or memorial, the deliberations of any committee or subcommittee of the senate shall be open to the public. In case of any disturbance or disorderly conduct at any such deliberations, the chair shall order the sergeant at arms to suppress the same and may order the meeting closed to any person or persons creating such disturbance.

4. No committee shall amend a measure, adopt a substitute bill, or vote upon any measure or appointment absent a quorum. A committee may conduct a hearing absent a quorum. A majority of any committee shall constitute a quorum and committees shall be considered to have a quorum present unless the question is raised. Any question as to quorum not raised at the time of the committee action is deemed waived.

5. Bills reported to the senate from a standing committee must have a majority report, which shall be prepared upon a printed standing committee report form; shall be adopted at a regularly or specially called meeting during a legislative session and shall be signed by a majority of the committee; and shall carry only one of the following recommendations:
   a. Do pass;
   b. Do pass as amended;
   c. That a substitute bill be substituted therefor, and the substitute bill do pass; or

In addition to one of the above-listed recommendations, a report may also recommend that a bill be referred to another committee.

6. A majority report of a committee must carry the signatures of a majority of the members of the committee. In the event a committee has a quorum pursuant to subsection 4 of this rule, a majority of the members present may act on a measure, subject to obtaining the signatures of a majority of the members of the committee on the majority report.

7. Any measure, appointment, substitute bill, or amendment still within a committee’s possession before it has been reported out to the full senate may be reconsidered to correct an error, change language, or otherwise accurately reflect the will of the committee in its majority and minority reports to the full senate. Any such reconsideration may be made at any time, by any member of the committee, provided that the committee has not yet reported the measure, appointment, substitute bill, or amendment out to the full senate. Any such reconsideration made after a vote has been taken or signatures obtained will require a new vote and signature sheet. Any measure which does not receive a majority vote of the members present may be reconsidered at that meeting and may again be considered upon motion of any committee member if one day’s notice of said motion is provided to all committee members. For purposes of this rule, a committee is deemed to have reported a measure, appointment, substitute bill, or amendment out when it has delivered its majority and minority reports to the senate workroom. After such delivery, the committee no longer has possession of the measure, appointment, substitute bill, or amendment and no further committee action, including reconsideration, may be taken.

8. Any member of the committee not concurring in the majority report may sign a minority report containing a recommendation of “do not pass” or “without recommendation,” which shall be signed by those members of the committee subscribing thereto, and submitted with the majority report. In every case where a majority report form is circulated for signature, a minority report form shall also be circulated.

9. When a committee reports a substitute for an original bill with the recommendation that the substitute bill do pass, it shall be in order to read the substitute bill the first time and have the same ordered printed.

A motion for the substitution of the substitute bill for the original bill shall not be in order until the committee on rules places the original bill on the second reading calendar.

10. No vote in any committee shall be taken by secret ballot nor shall any committee have a policy of secrecy as to any vote on action taken in such committee.

11. All reports of standing committees must be on the secretary’s desk one hour prior to convening of the session in order to be read at said session. During any special session of the legislature, this rule may be suspended by a majority vote.”

“Reading of Bills

Rule 62. Every bill shall be read on three separate days unless the senate deems it expedient to suspend this rule. On and after the tenth day preceding adjournment sine die of any session, or three days prior to any cut-off date for consideration of bills, as determined pursuant to Article 2, Section 12 of the Constitution or concurrent resolution, or during any special session of the legislature, this rule may be suspended by a majority vote. (See also Rule 59).

NEW SECTION. Sec. 1. The legislature declares that unprecedented revenue shortfalls necessitate immediate action to reduce expenditures during the 2009-2011 fiscal biennium. From the effective date of this section, it is the intent of the legislature that state agencies of the legislative branch, judicial branch, and executive branch including institutions of higher education, shall achieve a reduction in government operating expenses as provided in this act. It is the legislature's intent that, to the extent that the reductions in expenditures reduce compensation costs, agencies and institutions shall strive to preserve family wage jobs by reducing the impact of temporary layoffs on lower-wage jobs.

NEW SECTION. Sec. 2. (1)(a) The office of financial management shall certify to each executive branch state agency and institution of higher education the compensation reduction amount to be achieved by that agency or institution. Transfers of sick leave under this subsection are limited to transfers from employees who do not accrue annual leave.

Before the agency head makes a determination to return unused leave in connection with an illness or injury, or any other qualifying condition, he or she must receive from the affected employee a statement from the employee's doctor verifying that the illness or injury is resolved. To the extent administratively feasible, the value of unused leave which was transferred by more than one employee shall be returned on a pro rata basis.

"NEW SECTION. Sec. 1. (1) It is the legislature's intent to encourage immediate investments in technology facilities that can provide an economic stimulus, sustain long-term jobs that provide living wages, and help build the digital infrastructure that can enable the state to be competitive for additional technology investment and jobs.

(2) There is currently an intense competition for data center construction and operation in many states including: Oregon, Arizona, North and South Carolina, North Dakota, Iowa, Virginia, Texas, Utah, and Illinois. Unprecedented incentives are available as a result of the desire of these states to attract investments that will serve as a catalyst for additional clusters of economic activity.

(3) Since the economic downturn, Washington has not succeeded in attracting any private investments in these centers after sitting six major data centers between 2004 and 2007.

(4) Data center technology has advanced rapidly, with marked increases in energy efficiency. Large, commercial-grade data centers leverage the economies of scale to reduce energy consumption. Combining digitized processes with the economies of scale recognized at these data centers, today's enterprises can materially reduce the energy they consume and greatly improve their efficiency.

(5) The legislature finds that a twenty-seven month window that offers an opportunity to seek a tax deferral on server and related electrical equipment and installation will act as a stimulus to incent immediate investment. This investment will bring jobs, tax revenues, and economic growth to some of our states rural areas and counties that have unemployment above the statewide average.

NEW SECTION. Sec. 2. A new section is added to chapter 82.32 RCW to read as follows:

(1) A qualifying business may apply for deferral of taxes on eligible server equipment to be installed, without intervening use, in an eligible computer data center, and to charges made for labor and services rendered in respect to installing eligible server equipment. The deferral of taxes also applies to sales to qualifying businesses of eligible server equipment to be installed, without intervening use, in an eligible computer data center, and to charges made for labor and services rendered in respect to constructing, installing, repairing, altering, or improving eligible power infrastructure. The application shall contain information regarding the location of the project, estimated or actual costs of the project, time schedules for completion and operation of the project, and other information required by the
department. The department shall rule on the application within sixty days. All applications for deferral under this section must be received no later than July 1, 2012.

(2) The department shall issue a sales and use tax deferral certificate for state and local sales and use taxes due under chapters 82.08, 82.12, and 82.14 RCW.

(3) A qualifying business claiming the deferral under this section must present the seller with a deferral certificate in a form and manner prescribed by the department. The seller must retain a copy of the certificate for the seller’s files.

(4) A qualifying business shall begin paying the deferred taxes in the fifth year after the date certified by the department as the date on which the eligible project is operationally complete. The first payment is due on December 31st of the fifth calendar year after such certified date, with subsequent annual payments due on December 31st of the following nine years. Each payment shall equal ten percent of the deferred tax.

(5) Except as provided in subsection (6) of this section, interest shall not be charged on any taxes deferred under this section for the period of deferral. The debt for deferred taxes is not extinguished by insolvency or other failure of the qualifying business.

(6) If the project is not operationally complete within five calendar years from issuance of the tax deferral or if at any time the department finds that the project is not eligible for tax deferral under this section, the amount of deferred taxes outstanding for the project shall be immediately due and payable. If deferred taxes must be repaid under this subsection, the department shall assess interest, but not penalties, on amounts due under this subsection. Interest shall be assessed at the rate provided for delinquent taxes under this chapter, retroactively to the date of deferral, and shall accrue until the deferred taxes are repaid.

(7) A qualifying business claiming a deferral under this section must complete an annual report with the department as required under section 103, chapter . . . . , Laws of 2010 (Substitute House Bill No. 3066).

(8)(a) The deferral provided in this section does not apply to:

(i) Any person who has received the benefit of the deferral program under chapter 82.60 RCW on: (A) The construction, renovation, or expansion of a structure or structures used as a computer data center; or (B) machinery or equipment used in a computer data center; and

(ii) Any person affiliated with a person within the scope of (a)(i) of this subsection (8). For purposes of this subsection, “affiliated” means that one person has a direct or indirect ownership interest of at least twenty percent in another person.

(b) If a person claims a deferral under this section and subsequently receives the benefit of the deferral program under chapter 82.60 RCW on either the construction, renovation, or expansion of a structure or structures used as a computer data center or machinery or equipment used in a computer data center, the person must repay the amount of taxes deferred under this section. (C) For which the commencement of construction occurs after March 31, 2010, and before July 1, 2012. For purposes of this section, “commencement of construction” means the date that a building permit is issued under the building code adopted under RCW 19.27.031 for construction of the computer data center. The construction of a computer data center includes the expansion, renovation, or other improvements made to existing facilities, including leased or rented space. “Commencement of construction” does not include soil testing, site clearing and grading, site preparation, or any other related activities that are initiated before the issuance of a building permit for the construction of the foundation of a computer data center.

(ii) With respect to facilities in existence on the effective date of this act that are expanded, renovated, or otherwise improved after March 31, 2010, an eligible computer data center includes only the portion of the computer data center meeting the requirements in (c)(i)(B) of this subsection.

(f) “Qualifying business” means a business entity that exists for the primary purpose of engaging in commercial activity for profit and that is the owner or lessee of an eligible computer data center. The term does not include the state or federal government or any of their departments, agencies, and institutions; tribal governments; political subdivisions of this state; or any municipal, quasi-municipal, public, or other corporation created by the state or federal government, tribal government, municipality, or political subdivision of the state.

(g) “Server” means blade or rack-mount servers used in a computer data center exclusively to provide electronic data storage and data management services for internal use by the owner or lessee of the computer data center, for clients of the owner or
lessee of the computer data center, or both. "Server" does not include personal computers.

(h) "Server equipment" means the server chassis and all computer hardware contained within the server chassis. "Server equipment" also includes computer software necessary to operate the server. "Server equipment" does not include the racks upon which the server chassis is installed, and computer peripherals such as keyboards, monitors, printers, mice, and other devices that work outside of the computer.

(10) This section expires July 1, 2027.

NEW SECTION. Sec. 3. This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect April 1, 2010."

NEW SECTION. Sec. 1. PURPOSE, FINDINGS, AND INTENT. (1) The purpose of this chapter is to provide for a safety net assessment on certain Washington hospitals, which will be used solely to augment funding from all other sources and thereby obtain additional funds to restore recent reductions and to support additional payments to hospitals for medicaid services.

(2) The legislature finds that:

(a) Washington hospitals, working with the department of social and health services, have proposed a hospital safety net assessment to generate additional state and federal funding for the medicaid program, which will be used to partially restore recent inpatient and outpatient reductions in hospital reimbursement rates and provide for an increase in hospital payments; and

(b) The hospital safety net assessment and hospital safety net assessment fund created in this chapter allows the state to generate additional federal financial participation for the medicaid program and provides for increased reimbursement to hospitals.

(3) In adopting this chapter, it is the intent of the legislature:

(a) To impose a hospital safety net assessment to be used solely for the purposes specified in this chapter;

(b) That funds generated by the assessment shall be used solely to augment all other funding sources and not as a substitute for any other funds;

(c) That the total amount assessed not exceed the amount needed, in combination with all other available funds, to support the reimbursement rates and other payments authorized by this chapter; and

(d) To condition the assessment on receiving federal approval for receipt of additional federal financial participation and on continuation of other funding sufficient to maintain hospital inpatient and outpatient reimbursement rates and small rural disproportionate share payments at least at the levels in effect on June 30, 2009.

organizations to make equivalent payments to the hospitals that would have received payments under this section if the managed care organizations did not contract with the health care organizations;

(4) The department shall ensure that the increases to the medicaid fee schedules as described in section 10 of this act are included in the development of healthy options premiums.

(5) The department may require managed care organizations and regional support networks to demonstrate compliance with this section.

NEW SECTION. Sec. 14. QUALITY INCENTIVE PAYMENTS. (1) The department, in collaboration with the health care authority, the department of health, the department of labor and industries, the Washington state hospital association, the Puget Sound health alliance, and the forum, a collaboration of health carriers, physicians, and hospitals in Washington state, shall design a system of hospital quality incentive payments. The design of the system shall be submitted to the relevant policy and fiscal committees of the legislature by December 15, 2010. The system shall be based upon the following principles:

(a) Evidence-based treatment and processes shall be used to improve health care outcomes for hospital patients;

(b) Effective purchasing strategies to improve the quality of health care services should involve the use of common quality improvement measures by public and private health care purchasers, while recognizing that some measures may not be appropriate for application to specialty pediatric, psychiatric, or rehabilitation hospitals;

(c) Quality measures chosen for the system should be consistent with the standards that have been developed by national quality improvement organizations, such as the national quality forum, the federal centers for medicare and medicaid services, or the federal agency for healthcare research and quality. New reporting burdens to hospitals should be minimized by giving priority to measures hospitals are currently required to report to governmental agencies, such as the hospital compare measures collected by the federal centers for medicare and medicaid services;

(d) Benchmarks for each quality improvement measure should be set at levels that are feasible for hospitals to achieve, yet represent real improvements in quality and performance for a majority of hospitals in Washington state; and

(e) Hospital performance and incentive payments should be designed in a manner such that all noncritical access hospitals in Washington are able to receive the incentive payments if performance is at or above the benchmark score set in the system established under this section.

(2) Upon satisfaction of the applicable conditions set forth in section 17(1) of this act, and for state fiscal year 2013 and each fiscal year thereafter, assessments may be increased to support an additional one percent increase in inpatient hospital rates for noncritical access hospitals that meet the quality incentive benchmarks established under this section.

NEW SECTION. Sec. 15. A new section is added to chapter 70.47 RCW to read as follows:

The increases in inpatient and outpatient reimbursement rates included in chapter 74.--- RCW (the new chapter created in section 23 of this act) shall not be reflected in hospital payment rates for services provided to basic health enrollees under this chapter.

NEW SECTION. Sec. 16. MULTIHOSPITAL LOCATIONS, NEW HOSPITALS, AND CHANGES IN OWNERSHIP. (1) If an entity owns or operates more than one hospital subject to assessment under this chapter, the entity shall pay the assessment for each hospital separately. However, if the entity operates multiple hospitals under a single medicaid provider number, it may pay the assessment for the hospitals in the aggregate.

(2) Notwithstanding any other provision of this chapter, if a hospital subject to the assessment imposed under this chapter ceases to conduct hospital operations throughout a state fiscal year, the assessment for the quarter in which the cessation occurs shall be adjusted by multiplying the assessment computed under section 4 (1) and (3) of this act by a fraction, the numerator of which is the number of days during the year in which the hospital conducts, operates, or maintains the hospital and the denominator of which is three hundred sixty-five. Immediately prior to ceasing to conduct, operate, or maintain a hospital, the hospital shall pay the adjusted assessment for the fiscal year to the extent not previously paid.

(3) Notwithstanding any other provision of this chapter, in the case of a hospital that commences conducting, operating, or maintaining a hospital that is not exempt from payment of the assessment under section 5 of this act and that did not conduct, operate, or maintain such hospital throughout the cost reporting year used to determine the assessment amount, the assessment for that hospital shall be computed on the basis of the actual number of nonmedicare inpatient days reported to the department by the hospital on a quarterly basis. The hospital shall be eligible to receive increased payments under this chapter beginning on the date it commences hospital operations.

(4) Notwithstanding any other provision of this chapter, if a hospital previously subject to assessment is sold or transferred to another entity and remains subject to assessment, the assessment for that hospital shall be computed based upon the cost report data previously submitted by that hospital. The assessment shall be allocated between the transferor and transferee based on the number of days within the assessment period that each owned, operated, or maintained the hospital.

NEW SECTION. Sec. 17. CONDITIONS. (1) The assessment, collection, and disbursement of funds under this chapter shall be conditional upon:

(a) Withdrawal of those aspects of any pending state plan amendments previously submitted to the centers for medicare and medicaid services that are inconsistent with this chapter, specifically any pending state plan amendment related to the four percent rate reductions for inpatient and outpatient hospital rates and elimination of the small rural disproportionate share hospital payment program as implemented July 1, 2009;

(b) Approval by the centers for medicare and medicaid services of any state plan amendments or waiver requests that are necessary in order to implement the applicable sections of this chapter;

(c) To the extent necessary, amendment of contracts between the department and managed care organizations in order to implement this chapter; and

(d) Certification by the office of financial management that appropriations have been adopted that fully support the rates established in this chapter for the upcoming fiscal year.

(2) This chapter does not take effect or cease to be imposed, and any moneys remaining in the fund shall be refunded to hospitals in proportion to the amounts paid by such hospitals, if and to the extent that:

(a) An appellate court or the centers for medicare and medicaid services makes a final determination that any element of this chapter, other than section 11 of this act, cannot be validly implemented;

(b) Medicaid inpatient or outpatient reimbursement rates for hospitals are reduced below the combined rates established by sections 9 and 10 of this act;

(c) Except for payments to the University of Washington medical center and harborview medical center, payments to hospitals required under sections 9, 10, 12, and 13 of this act are not eligible for federal matching funds;
(d) Other funding available for the medicaid program is not sufficient to maintain medicaid inpatient and outpatient reimbursement rates at the levels set in sections 9, 10, and 12 of this act; or

(e) The fund is used as a substitute for or to supplant other funds, except as authorized by section 3(3)(e) of this act.

NEW SECTION. Sec. 18. SEVERABILITY. (1) The provisions of this chapter are not severable: If the conditions set forth in section 17(1) of this act are not satisfied or if any of the circumstances set forth in section 17(2) of this act should occur, this entire chapter shall have no effect from that point forward, except that if the payment under section 11 of this act, or the application thereof to any hospital or circumstances does not receive approval by the centers for medicare and medicaid services as described in section 17(1)(b) of this act or is determined to be unconstitutional or otherwise invalid, the other provisions of this chapter or its application to hospitals or circumstances other than those to which it is held invalid shall not be affected thereby.

(2) In the event that any portion of this chapter shall have been validly implemented and the entire chapter is later rendered ineffective under this section, prior assessments and payments under the validly implemented portions shall not be affected.

(3) In the event that the payment under section 11 of this act, or the application thereof to any hospital or circumstances does not receive approval by the centers for medicare and medicaid services as described in section 17(1)(b) of this act or is determined to be unconstitutional or otherwise invalid, the amount of the assessment shall be adjusted under section 6(1)(c) of this act.

Sec. 19. 2009 c 564 s 209 (uncodified) is amended to read as follows:

FOR THE DEPARTMENT OF SOCIAL AND HEALTH SERVICES—MEDICAL ASSISTANCE PROGRAM

General Fund—State Appropriation (FY 2010)…….$1,597,387,000
General Fund—State Appropriation (FY 2011)…….$1,984,797,000
General Fund—Federal Appropriation……………………$5,210,672,000
General Fund—Private/Local Appropriation………….$12,903,000
Emergency Medical Services and Trauma Care Systems

Trust Account—State Appropriation……………………$15,076,000
Tobacco Prevention and Control Account--
State Appropriation…………………………………….$3,766,000

TOTAL APPROPRIATION…………………….$8,824,601,000

The appropriations in this section are subject to the following conditions and limitations:

(1) Based on quarterly expenditure reports and caseload forecasts, if the department estimates that expenditures for the medical assistance program will exceed the appropriations, the department shall take steps including but not limited to reduction of rates or elimination of optional services to reduce expenditures so that total program costs do not exceed the annual appropriation authority.

(2) In determining financial eligibility for medicaid-funded services, the department is authorized to disregard recoveries by Holocaust survivors of insurance proceeds or other assets, as defined in RCW 48.104.030.

(3) The legislature affirms that it is in the state's interest for Harborsview medical center to remain an economically viable component of the state's health care system.

(4) When a person is ineligible for medicaid solely by reason of residence in an institution for mental diseases, the department shall provide the person with the same benefits as he or she would receive if eligible for medicaid, using state-only funds to the extent necessary.

(5) In accordance with RCW 74.46.625, $6,000,000 of the general fund—federal appropriation is provided solely for supplemental payments to nursing homes operated by public hospital districts. The public hospital district shall be responsible for providing the required nonfederal match for the supplemental payment, and the payments shall not exceed the maximum allowable under federal rules. It is the legislature's intent that the payments shall be supplemental to and shall not in any way offset or reduce the payments calculated and provided in accordance with part E of chapter 74.46 RCW. It is the legislature's further intent that costs otherwise allowable for rate-setting and settlement against payments under chapter 74.46 RCW shall not be disallowed solely because such costs have been paid by revenues retained by the nursing home from these supplemental payments. The supplemental payments are subject to retrospective interim and final cost settlements based on the nursing homes' as-filed and final medicare cost reports. The timing of the interim and final cost settlements shall be at the department's discretion. During either the interim cost settlement or the final cost settlement, the department shall recoup from the public hospital districts the supplemental payments that exceed the medicaid cost limit and/or the medicare upper payment limit. The department shall apply federal rules for identifying the eligible incurred medicaid costs and the medicare upper payment limit.

(6) $1,110,000 of the general fund—federal appropriation and $1,105,000 of the general fund—state appropriation for fiscal year 2011 are provided solely for grants to rural hospitals. The department shall distribute the funds under a formula that provides a relatively larger share of the available funding to hospitals that (a) serve a disproportionate share of low-income and medically indigent patients, and (b) have relatively smaller net financial margins, to the extent allowed by the federal medicaid program.

(7) $9,818,000 of the general fund—state appropriation for fiscal year 2011, and $9,865,000 of the general fund—federal appropriation are provided solely for grants to nonrural hospitals. The department shall distribute the funds under a formula that provides a relatively larger share of the available funding to hospitals that (a) serve a disproportionate share of low-income and medically indigent patients, and (b) have relatively smaller net financial margins, to the extent allowed by the federal medicaid program.

(8) The department shall continue the inpatient hospital certified public expenditures program for the 2009-11 biennium. The program shall apply to all public hospitals, including those owned or operated by the state, except those classified as critical access hospitals or state psychiatric institutions. The department shall submit reports to the governor and legislature by November 1, 2009, and by November 1, 2010, that evaluate whether savings continue to exceed costs for this program. If the certified public expenditures (CPE) program in its current form is no longer cost-effective to maintain, the department shall submit a report to the governor and legislature detailing cost-effective alternative uses of local, state, and federal resources as a replacement for this program. During fiscal year 2010 and fiscal year 2011, hospitals in the program shall be paid and shall retain one hundred percent of the federal portion of the allowable hospital cost for each medicaid inpatient fee-for-service claim payable by medical assistance and one hundred percent of the federal portion of the maximum disproportionate share hospital payment allowable under federal regulations. Inpatient medicaid payments shall be established using an allowable methodology that approximates the cost of claims submitted by the hospitals. Payments made to each hospital in the program in each fiscal year of the biennium shall be compared to a baseline amount. The baseline amount will be determined by the total of (a) the inpatient claim payment amounts that would have been paid during the fiscal year had the hospital not been in the CPE program, (b) one half of the indigent assistance disproportionate share hospital payment amounts paid to and retained by each
hospital during fiscal year 2005, and (c) all of the other disproportionate share hospital payment amounts paid to and retained by each hospital during fiscal year 2005 to the extent the same disproportionate share hospital programs exist in the 2009-11 biennium. If payments during the fiscal year exceed the hospital's baseline amount, no additional payments will be made to the hospital except the federal portion of allowable disproportionate share hospital payments for which the hospital can certify allowable match. If payments during the fiscal year are less than the baseline amount, the hospital will be paid a state grant equal to the difference between payments during the fiscal year and the applicable baseline amount. Payment of the state grant shall be made in the applicable fiscal year and distributed in monthly payments. The grants will be recalculated and redistributed as the baseline is updated during the fiscal year. The grant payments are subject to an interim settlement within eleven months after the end of the fiscal year. A final settlement shall be performed. To the extent that either settlement determines that a hospital has received funds in excess of what it would have received as described in this subsection, the hospital must repay the excess amounts to the state when requested. $6,570,000 of the general fund—state appropriation for fiscal year 2010, which is appropriated in section 204(1) of this act, and $1,500,000 of the general fund—state appropriation for fiscal year 2011, which is appropriated in section 204(1) of this act, are provided solely for state grants for the participating hospitals. Sufficient amounts are appropriated in this section for the remaining state grants for the participating hospitals.

(9) The department is authorized to use funds appropriated in this section to purchase goods and supplies through direct contracting with vendors when the department determines it is cost-effective to do so.

(10) Sufficient amounts are appropriated in this section for the department to continue podiatry services for medicaid-eligible adults.

(11) Sufficient amounts are appropriated in this section for the department to provide an adult dental benefit that is at least equivalent to the benefit provided in the 2003-05 biennium.

(12) $93,000 of the general fund—state appropriation for fiscal year 2010 and $93,000 of the general fund—federal appropriation are provided solely for the department to pursue a federal Medicaid waiver pursuant to Second Substitute Senate Bill No. 5945 (Washington health partnership plan). If the bill is not enacted by June 30, 2009, the amounts provided in this subsection shall lapse.

(13) The department shall require managed health care systems that have contracts with the department to serve medical assistance clients to limit any reimbursements or payments the systems make to providers not employed by or under contract with the systems to no more than the medical assistance rates paid by the department to providers for comparable services rendered to clients in the fee-for-service delivery system.

(14) Appropriations in this section are sufficient for the department to continue to fund family planning nurses in the community services offices.

(15) The department, in coordination with stakeholders, will conduct an analysis of potential savings in utilization of home dialysis. The department shall present its findings to the appropriate house of representatives and senate committees by December 2010.

(16) A maximum of $166,875,000 of the general fund—state appropriation and $38,389,000 of the general fund—federal appropriation may be expended in the fiscal biennium for the general assistance-unemployable medical program, and these amounts are provided solely for this program. Of these amounts, $10,749,000 of the general fund—state appropriation for fiscal year 2010 and $10,892,000 of the general fund—federal appropriation are provided solely for payments to hospitals for providing outpatient services to low income patients who are recipients of general assistance-unemployable. Pursuant to RCW 74.09.035, the department shall not expend for the general assistance medical care services program any amounts in excess of the amounts provided in this subsection.

(17) If the department determines that it is feasible within the amounts provided in subsection (16) of this section, and without the loss of federal disproportionate share hospital funds, the department shall contract with the carrier currently operating a managed care pilot project for the provision of medical care services to general assistance-unemployable clients. Mental health services shall be included in the services provided through the managed care system. If the department determines that it is feasible, effective October 1, 2009, in addition to serving clients in the pilot counties, the carrier shall expand managed care services to clients residing in at least the following counties: Spokane, Yakima, Chelan, Kitsap, and Cowlitz. If the department determines that it is feasible, the carrier shall complete implementation into the remaining counties. Total per person costs to the state, including outpatient and inpatient services and any additional costs due to stop loss agreements, shall not exceed the per capita payments projected for the general assistance-unemployable eligibility category, by fiscal year, in the February 2009 medical assistance expenditures forecast. The department, in collaboration with the carrier, shall seek to improve the transition rate of general assistance clients to the federal supplemental security income program.

(18) The department shall evaluate the impact of the use of a managed care delivery and financing system on state costs and outcomes for general assistance medical clients. Outcomes measured shall include state costs, utilization, changes in mental health status and symptoms, and involvement in the criminal justice system.

(19) The department shall report to the governor and the fiscal committees of the legislature by June 1, 2010, on its progress toward achieving a twenty percentage point increase in the generic prescription drug utilization rate.

(20) State funds shall not be used by hospitals for advertising purposes.

(21) The department shall seek a medicaid state plan amendment to create a professional services supplemental payment program for University of Washington medicine professional providers no later than July 1, 2009. The department shall apply federal rules for identifying the shortfall between current fee-for-service medicaid payments to participating providers and the applicable federal upper payment limit. Participating providers shall be solely responsible for providing the local funds required to obtain federal matching funds. Any incremental costs incurred by the department in the development, implementation, and maintenance of this program will be the responsibility of the participating providers. Participating providers will retain the full amount of supplemental payments provided under this program, net of any potential costs for any related audits or litigation brought against the state. The department shall report to the governor and the legislative fiscal committees on the prospects for expansion of the program to other qualifying providers as soon as feasibility is determined but no later than December 31, 2009. The report will outline estimated impacts on the participating providers, the procedures necessary to comply with federal guidelines, and the administrative resource requirements necessary to implement the program. The department will create a process for expansion of the program to other qualifying providers as soon as it is determined feasible by both the department and providers but no later than June 30, 2010.
FIFTH DAY, MARCH 19, 2010

(22) $9,350,000 of the general fund--state appropriation for fiscal year 2010, $8,313,000 of the general fund--state appropriation for fiscal year 2011, and $20,371,000 of the general fund--federal appropriation are provided solely for development and implementation of a replacement system for the existing medicaid management information system. The amounts provided in this subsection are conditioned on the department satisfying the requirements of section 902 of this act.

(23) $506,000 of the general fund--state appropriation for fiscal year 2011 and $657,000 of the general fund--federal appropriation are provided solely for the implementation of Second Substitute House Bill No. 1373 (children's mental health). (24) Pursuant to 42 U.S.C. Sec. 1396(a)(25), the department shall pursue insurance claims on behalf of medicaid children served through its in-home medically intensive child program under WAC 388-551-3000. The department shall report to the Legislature by December 31, 2009, on the results of its efforts to recover such claims.

(25) The department may, on a case-by-case basis and in the best interests of the child, set payment rates for medically intensive home care services to promote access to home care as an alternative to hospitalization. Expenditures related to these increased payments shall not exceed the amount the department would otherwise pay for hospitalization for the child receiving medically intensive home care services.

(26) $425,000 of the general fund--state appropriation for fiscal year 2010, $425,000 of the general fund--state appropriation for fiscal year 2011, and $1,580,000 of the general fund--federal appropriation are provided solely to continue children's health coverage outreach and education efforts under RCW 74.09.470. These efforts shall rely on existing relationships and systems developed with local public health agencies, health care providers, public schools, the women, infants, and children program, the early childhood education and assistance program, child care providers, newborn visiting nurses, and other community-based organizations. The department shall seek public-private partnerships and federal funds that are or may become available to provide on-going support for outreach and education efforts under the federal children's health insurance program reauthorization act of 2009.

(27) The department, in conjunction with the office of financial management, shall ((reduce outpatient and inpatient hospital rates and)) implement a prorated inpatient payment policy. ((In determining the level of reductions needed, the department shall include in its calculations services paid under fee for service, managed care, and certified public expenditure payment methods; but reductions shall not apply to payments for psychiatric inpatient services or payments to critical access hospitals.))

(28) The department will pursue a competitive procurement process for anthemophilic products, emphasizing evidence-based medicine and protection of patient access without significant disruption in treatment.

(29) The department will pursue several strategies towards reducing pharmacy expenditures including but not limited to increasing generic prescription drug utilization by 20 percentage points and promoting increased utilization of the existing mail-order pharmacy program.

(30) The department shall reduce reimbursement for over-the-counter medications while maintaining reimbursement for those over-the-counter medications that can replace more costly prescription medications.

(31) The department shall seek public-private partnerships and federal funds that are or may become available to implement health information technology projects under the federal American recovery and reinvestment act of 2009.

(32) The department shall target funding for maternity support services towards pregnant women with factors that lead to higher rates of poor birth outcomes, including hypertension, a preterm or low birth weight birth in the most recent previous birth, a cognitive deficit or developmental disability, substance abuse, severe mental illness, unhealthy weight or failure to gain weight, tobacco use, or African American or Native American race.

(33) The department shall direct graduate medical education funds to programs that focus on primary care training.

(34) $79,000 of the general fund--state appropriation for fiscal year 2010 and $53,000 of the general fund--federal appropriation are provided solely to implement Substitute House Bill No. 1845 (medical support obligations).

(35) $63,000 of the general fund--state appropriation for fiscal year 2010, $583,000 of the general fund--state appropriation for fiscal year 2011, and $864,000 of the general fund--federal appropriation are provided solely to implement Engrossed House Bill No. 2194 (extraordinary medical placement for offenders). The department shall work in partnership with the department of corrections to identify services and find placements for offenders who are released through the extraordinary medical placement program. ENGROSSED SUBSTITUTE HOUSE BILL NO. 3014, by House Committee on Finance (originally sponsored by Representatives Kessler, Morrell and Van De Wege)

Modifying the sales and use tax deferral program for investment projects in rural counties.

The measure was read the second time.

MOTION

Senator Kastama moved that the following striking amendment by Senators Kastama and Zarelli be adopted:

Strike everything after the enacting clause and insert the following:

'Sec. 1. RCW 82.60.010 and 1985 c 232 s 1 are each amended to read as follows:

The legislature finds that there are several areas in the state that are characterized by very high levels of unemployement and poverty. The ((legislative legislature)) legislature further finds that economic stagnation is the primary cause of this high unemployment rate and poverty; that new state policies are necessary in order to promote economic stimulation and new employment opportunities in these distressed areas; and that policies providing incentives for economic growth in these distressed areas are essential. For these reasons, the legislature ((hereby)) reestablishes a tax deferral program to be effective solely in distressed (areas and under circumstances where the deferred tax payments are for investments or costs that result in the creation of a specified number of jobs) counties. The legislature declares that this limited program serves the vital public purpose of creating employment opportunities and reducing poverty in the distressed (areas) counties of the state.

Sec. 2. RCW 82.60.020 and 2010 c ... (SHB 3066) s 138 are each amended to read as follows:

Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

(1) "Applicant" means a person applying for a tax deferral under this chapter.

(2) "Department" means the department of revenue.

(3) "Eligible area" means (a):

(i) The underlying ownership of the buildings, machinery, and equipment vests exclusively in the same person; or

(ii) The lessor by written contract agrees to pass the economic benefit of the deferral to the lessee;

(B) The lessee that receives the economic benefit of the deferral agrees in writing with the department to complete the annual survey required under RCW 82.60.070; and

(C) The economic benefit of the deferral passed to the lessee is no less than the amount of tax deferred by the lessor and is evidenced by written documentation of any type of payment, credit, or other financial arrangement between the lessor or owner of the qualified building and the lessee.

(c)) "Eligible investment project" does not include any portion of an investment project undertaken by a light and power business as defined in RCW 82.16.010(4), other than that portion of a cogeneration project that is used to generate power for consumption within the manufacturing site of which the cogeneration project is an integral part, or investment projects ((which)) that have already received deferrals under this chapter.

(5) "Initiation of construction" has the same meaning as in RCW 82.63.010.

(6) "Investment project" means an investment in qualified buildings or qualified machinery and equipment, including labor and services rendered in the planning, installation, and construction of the project.

(9) "Qualified buildings" means construction of new structures, and expansion or renovation of existing structures for the purpose of increasing floor space or production capacity used for manufacturing and research and development activities, including plant offices and warehouses or other facilities for the storage of raw material or finished goods if such facilities are an essential or an integral part of a factory, mill, plant, or laboratory used for manufacturing or research and development. If a building is used partly for manufacturing or research and development and partly for other purposes, the applicable tax deferral (((shall))) must be determined by apportionment of the costs of construction under rules adopted by the department.

(10) "Qualified employment position" means a permanent full-time employee employed in the eligible investment project during the entire tax year. The term "entire tax year" means a full-time position that is filled for a period of twelve consecutive months. As used in this subsection, "commercial sales" excludes sales of prototypes or sales for market testing if the total gross receipts from such sales of the product, service, or process do not exceed one million dollars.

NEW SECTION. Sec. 3. A new section is added to chapter 82.60 RCW to read as follows:

The department, with the assistance of the employment security department, must establish a list of qualifying counties effective July 1, 2010. The list of qualifying counties is effective for a twenty-four month period and must be updated by July 1st of the year that is two calendar years after the list was established or last updated, as the case may be.

NEW SECTION. Sec. 4. A new section is added to chapter 82.60 RCW to read as follows:

The lessor or owner of a qualified building is not eligible for a deferral unless:

(1) The underlying ownership of the buildings, machinery, and equipment vests exclusively in the same person; or

(2) (a) The lessor by written contract agrees to pass the economic benefit of the deferral to the lessee;

(b) The lessee that receives the economic benefit of the deferral agrees in writing with the department to complete the annual survey required under RCW 82.60.070; and

(c) The economic benefit of the deferral passed to the lessee is no less than the amount of tax deferred by the lessor and is evidenced by written documentation of any type of payment, credit, or other financial arrangement between the lessor or owner of the qualified building and the lessee.

The application (((shall))) must be made to the department in a form and manner prescribed by the department. The application (((shall))) must contain information regarding the location of the investment project, the applicant's average employment in the state for the prior year, estimated or actual new employment related to the project, estimated or actual wages of employees related to the project, estimated or actual costs, time schedules for completion and operation, and other information required by the department. The department (((shall))) must rule on the application within sixty days.

Sec. 6. RCW 82.60.040 and 2004 c 25 s 4 are each amended to read as follows:

(1) The department (((shall))) must issue a sales and use tax deferral certificate for state and local sales and use taxes due under chapters 82.08, 82.12, and 82.14 RCW on each eligible investment project (((that is located in an eligible area as defined in RCW 82.60.020))).

(2) The department (((shall))) must keep a running total of all deferrals granted under this chapter during each fiscal biennium.

(a) The applicant will hire at least one qualified employment position for each seven hundred fifty thousand dollars of investment for which a deferral is requested; and

(b) The positions will be filled by persons who at the time of hire are residents of the community empowerment zone. As used in this subsection, "resident" means the person makes his or her home in the community empowerment zone or the county in which the zone is located. A mailing address alone is insufficient to establish that a person is a resident for the purposes of this section. The persons must be hired after the date the application is filed with the department.

(3) All other provisions and eligibility requirements of this chapter apply to applicants eligible under this section.

(4) The qualified employment position must be filled by the end of the calendar year following the year in which the project is certified as operationally complete. If a person does not meet the

(1) The recipient ((shall)) must begin paying the deferred taxes in the third year after the date certified by the department as the date on which the ((construction) investment) project has been operationally completed. <tr>

<td>30%</td>

</tbody>
</table>

(2) The department may authorize an accelerated repayment schedule upon request of the recipient.

(3) Interest ((shall)) may not be charged on any taxes deferred under this chapter for the period of deferral, although all other penalties and interest applicable to delinquent excise taxes may be assessed and imposed for delinquent payments under this chapter. The debt for deferred taxes will not be extinguished by insolvency or other failure of the recipient. Transfer of ownership does not terminate the deferral. The deferral is transferred, subject to the successor meeting the eligibility requirements of this chapter, for the remaining periods of the deferral.

Sec. 9. RCW 82.60.070 and 2010 c ... (SHB 3066) s 139 are each amended to read as follows:

(1)(a) Each recipient of a deferral of taxes granted under this chapter must file a complete annual survey with the department under RCW 82.32. . . (section 102, chapter . . . On page 94, line 5, strike "82.04.260(9)"
Renumber the sections consecutively and correct any internal references accordingly.

Senator Keiser spoke in favor of adoption of the amendment.

POINT OF INQUIRY

Senator Pflug: “Would Senator Keiser yield to a question? Given that the JLARC study showed that the non-profit hospitals contributed significantly less to charity care than the for-profits. I’m having a hard time understanding why they’re included in getting a break from the new increase. The public hospitals also are already given breaks so I’m just trying to understand what the rationale for this was?”

Senator Keiser: “Thank you Senator, I believe that the JLARC study actually did not make any assumption about the for-profit hospitals doing more than the non-profit hospitals but did recommend a look at the non-profit hospitals tax status. I’m open and willing to that, to do that as well and have made that clear. Nevertheless, for the increase in this tax proposal it would behoove us, I think, at this point, to exempt the non-profit and public hospitals from the increase.”

The President declared the question before the Senate to be the adoption of the amendment by Senator Keiser and others on page 94, line 5 to Engrossed Substitute Senate Bill No. 6143.

MOTION

Senator Prentice moved that the following committee striking amendment by the Committee on Ways & Means be adopted: Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. This act may be known and cited as the Washington works housing act of 2010.

Sec. 2. RCW 43.180.160 and 2009 c 291 s 1 are each amended to read as follows:

(1) The total amount of outstanding indebtedness of the commission may not exceed six billion dollars at any time. The calculation of outstanding indebtedness shall include the initial principal amount of an issue and shall not include interest that is either currently payable or that accrues as a part of the face amount of an issue payable at maturity or earlier redemption. Outstanding indebtedness shall not include notes or bonds as to which the obligation of the commission has been satisfied and discharged by refunding or for which payment has been provided by reserves or otherwise.

(2)(a) The Washington works housing program is created to increase opportunities for nonprofit organizations and public agencies to purchase, acquire, build, and own real property to be used for affordable housing for low and moderate-income households. The Washington works housing program is intended to provide access to new funding mechanisms and build long-term community equity by increasing the stock of permanently affordable housing owned by nonprofit organizations and public agencies.

(b) The Washington works housing program is intended to provide these opportunities for public agencies and nonprofit organizations, including those materially participating as a managing member or general partner of a partnership, limited liability company, or equivalent organization, through the issuance of tax exempt or taxable revenue bonds issued by the commission in conjunction with a subsidy necessary to make bond issues to finance affordable housing properties financially feasible. The program is intended to provide financing for affordable housing that will meet the following income and rent restrictions during the period of initial bond indebtedness and thereafter:

(c) During the period of initial bond indebtedness under the program, the owner of the property must meet one of the following requirements: A minimum of twenty percent of the units will be occupied by households earning less than fifty percent of area median income and an additional thirty-one percent of the units will be occupied by persons earning less than eighty percent of area median income; or forty percent of the units will be occupied by households earning less than sixty percent of area median income and an additional eleven percent of the units will be occupied by households earning less than eighty percent of area median income.

(d) After the initial bond indebtedness is retired, the rents charged for units in the project will be adjusted to be sufficient to pay reasonable operation and maintenance expenses, including necessary capital needs, and to make reasonable deposits into a reserve account with the intent of providing affordable housing to very low or low-income households for the remaining useful life of the property. The reasonableness of the rent levels must be periodically approved by the commission based on information provided by the owner of the property about income, expenses, and necessary reserve levels. The determination of the commission regarding the reasonableness of the rent levels will be final.

(e) The commission will enter into a recorded regulatory agreement with the borrower at the time of the issuance of bonds under the program for the purpose of ensuring that the property will meet the income and rent restrictions established in this section. The commission may charge such compliance fees as necessary to ensure enforcement of the income and rent restrictions during the useful life of the property.

(3) One billion dollars of the outstanding indebtedness of the commission is for the primary purpose of implementing the Washington works housing program.

(4) If no subsidies are available to make the program in subsection (2) of this section feasible; then the commission may pass a resolution stating these facts and authorize the use of a portion of the one billion dollars of indebtedness intended for the program to support its other bond programs until such time as the one billion dollars is exhausted or subsidies are available to make the program feasible.

Sec. 3. RCW 39.86.100 and 2001 c 330 s 1 are each amended to read as follows:

The federal (tax reform act) internal revenue code of 1986, as amended imposes (annual) ceilings on the aggregate amount of (federally tax exempt private activity) certain types of bonds, including tax-exempt private activity bonds (housing, student loans, exempt facilities, small issue industrial, redevelopment, and certain public utility projects) and other types, that may be issued during any calendar year by or on behalf of states and their public subdivisions. (In 2004, the ceiling will be increased to sixty-two dollars and fifty cents per capita and in 2002 the ceiling will be increased to seventy-five dollars per capita, to be indexed annually, for 2003 and every year thereafter. However, a study by the department of community development indicates that the dollar amount of the state ceiling is considerably less than the anticipated dollar amount for which issuers would need an allocation from the state ceiling.) The (tax reform act of 1986) code provides a formula for allocating the annual tax-exempt private activity bond ceiling among various issuers of private activity bonds for housing, student loans, exempt facilities, and redevelopment projects within a state, but permits each state to enact a different allocation method that is appropriate to that state's needs. In addition, congress might, from time to time, amend the code by authorizing state ceilings on additional types of bonds. The purpose of this chapter is to provide a flexible and efficient method of allocating the annual state ceiling in Washington in a manner that recognizes the need of the state and its political subdivisions to finance activities or projects that satisfy a substantial public purpose.

Sec. 4. RCW 39.86.110 and 2009 c 565 s 23 are each reenacted and amended to read as follows:

1. Initial allocations may be modified by the agency only to reflect an issuer's carryforward amount. Any reduction of the initial allocation shall be added to the remainder and be available for allocation or reallocation.

3. The remainder shall be allocated by the agency among one or more issuers from any bond use category with regard to the criteria specified in RCW 39.86.130.

4. Should any bond use category no longer be subject to the state ceiling due to federal or state provisions of law, the agency shall divide the amount of that initial allocation among the remaining categories as necessary or appropriate with regard to the criteria specified in RCW 39.86.130. (Upon the earlier of: (a) Exhaustion of the seven hundred fifty million dollar authority under I.R.C. 1317(25), or any new federal legislation increasing the amount of authority, or creating additional authority; or (b) waiver of the authority described under (a) of this subsection due to alternative federal authority that does not use a state volume cap, then the alternative allocation schedule in subsection (1) of this section will be used.)

5. Prior to ((September 1)) July 1st of each calendar year, any available portion of an initial allocation may be allocated or reallocated only to an issuer within the same bond use category, except that the remainder category, or portions thereof, may be allocated at any time to any bond use category.

6. Beginning ((September 1)) July 1st of each calendar year, the agency may allocate or reallocate any available portion of the state ceiling to any bond use category with regard to the criteria specified in RCW 39.86.130.

7. RCW 39.86.130 and 1987 c 297 s 4 are each amended to read as follows:

(b) Amount of the state ceiling available;

(c) Public benefit and purpose to be satisfied, including economic development, educational opportunity, and public health, safety, or welfare;

(3) The agency may approve or deny an allocation for all or a portion of the issuer's request. (b) For each calendar year, any housing or student loan allocations, for which bonds have not been issued by December 15th of the same calendar year, shall revert to the agency on December 15th of the same calendar year for reallocation unless an extension or carryforward is granted.

(6) An extension of the deadlines provided by subsection (5) of this section may be granted by the agency for the approved allocation amount or a portion thereof, based on:

(b) Any other criteria the agency deems appropriate.

(7) If an issuer determines that bonds subject to the state ceiling will not be issued for the project or program for which an allocation was granted, the issuer shall promptly notify the agency in writing so that the allocation may be canceled and the amount may be available for reallocation.

(8) Bonds subject to the state ceiling may be issued only to finance the project or program for which a certificate of approval is granted.

(9) Within three business days of the date that bonds for which an allocation of the state ceiling is granted have been delivered to the original purchasers, the issuer shall mail to the agency a written notification of the bond issuance. In accordance with chapter 39.44 RCW, the issuer shall also complete bond issuance information on the form provided by the agency.

ENGROSSED SECOND SUBSTITUTE HOUSE BILL NO. 2782, by House Committee on Ways & Means (originally sponsored by Representatives Dickerson, Appleton, McCoy, Carlyle, Morrell, Kagi, Kessler, Green, Erics, Moeller, Roberts, Nelson and Orwell)

Reorganizing delivery of services to recipients of public assistance. Revised for 2nd Substitute: Concerning the security lifeline act.

The measure was read the second time.

MOTION

Senator Hargrove moved that the following striking amendment by Senators Hargrove and Stevens be adopted:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. INTENT. (1) The legislature finds that:

(a) Low-income families and individuals often face significant barriers to receiving the services and benefits that they are qualified to receive. These services are essential to meeting individuals' basic needs, and provide critical support to low-income individuals
who are working or who have disabilities that prevent them from working;

(b) Each year millions of federal dollars go unclaimed due to underutilization of benefits such as tax credits, health care coverage, and food support;

(c) State agencies have been engaged in an effort to implement an online benefit portal to simplify and streamline access to state, federal, and local benefits that include a broad array of public benefits;

(d) Access to education and training gives low-income individuals and families the opportunity to acquire the skills they need to become successfully employed and attain self-sufficiency; and

(e) Agencies have been engaged in efforts to increase access to training and education for recipients of federal food assistance.

(2) The legislature therefore intends to strengthen existing efforts by providing enhanced structure and direction to ensure that a strong partnership among colleges, state agencies, community partners, and philanthropy be established. The legislature also intends to provide an efficient, effective, integrated approach to the delivery of basic support services and education and training programs. The integrated approach should include the creation of a one-stop-shop, online benefits portal where individuals can apply for a broad array of services, including public benefits and education and training support, and the expansion of the food stamp employment and training program.

(3) The legislature further finds that:

(a) The general assistance program can be reformed to better support the ability of persons who are unable to work due to physical or mental health impairments to either return to work, or transition to federal supplemental security income benefits; and

(b) Persons who are homeless and suffering from mental illness or chemical dependency are particularly vulnerable, because homelessness is a substantial barrier to successful participation in, and completion of, needed treatment services.

(4) Through the reforms included in this act, the legislature intends to end the general assistance program and establish the disability lifeline program, and to implement multiple strategies designed to improve the employment and basic support outcomes of persons receiving disability lifeline benefits. The legislature further intends to focus services on persons who are homeless and have a mental illness or chemical dependency by providing housing vouchers as an alternative to a cash grant so that these persons can be in stable housing and thus have a greater opportunity to succeed in treatment.

NEW SECTION. Sec. 2. A new section is added to chapter 74.04 RCW to read as follows:

OPPORTUNITY PORTAL. (1) An online opportunity portal shall be established to provide the public with more effective access to available state, federal, and local services. The secretary of the department of social and health services shall act as the executive branch sponsor of the portal planning process. Under the leadership of the secretary, the department shall:

(a) Identify and select an appropriate solution and acquisition approach to integrate technology systems to create a user-friendly electronic tool for Washington residents to apply for benefits;

(b) Facilitate the adaptation of state information technology systems to allow applications generated through the opportunity portal and other compatible electronic application systems to seamlessly link to appropriate state information systems;

(c) Ensure that the portal provides access to a broad array of state, federal, and local services, including but not limited to: Health care services, higher education financial aid, tax credits, civic engagement, nutrition assistance, energy assistance, family support, and disability lifeline benefits as defined in sections 4 through 13 of this act;

(d) Design an implementation strategy for the portal that maximizes collaboration with community-based organizations to facilitate its use by low-income individuals and families;

(e) Provide access to the portal at a wide array of locations including but not limited to: Community or technical colleges, community college campuses where community service offices are colocated, community-based organizations, libraries, churches, food banks, state agencies, early childhood education sites, and labor unions;

(f) Ensure project resources maximize available federal and private funds for development and initial operation of the opportunity portal. Any incidental costs to state agencies shall be derived from existing resources. This subsection does not obligate or preclude the appropriation of future state funding for the opportunity portal;

(g) Determine the solution and acquisition approach by June 1, 2010.

(2) By December 1, 2011, and annually thereafter, the department of social and health services shall report to the legislature and governor. The report shall include data and information on implementation and outcomes of the opportunity portal, including any increases in the use of public benefits and increases in federal funding.

(3) The department shall develop a plan for implementing paperless application processes for the services included in the opportunity portal for which the electronic exchange of application information is possible. The plan should include a goal of achieving, to the extent possible, the transition of these services to paperless application processes by July 1, 2012. The plan must comply with federal statutes and regulations and must allow applicants to submit applications by alternative means to ensure that access to benefits will not be restricted.

(4) To the extent that the department enters into a contractual relationship to accomplish the purposes of this section, such contract or contracts shall be performance-based.

NEW SECTION. Sec. 3. A new section is added to chapter 74.04 RCW to read as follows:

BASIC FOOD EMPLOYMENT AND TRAINING PROGRAM. (1) The department, the employment security department, and the state board for community and technical colleges shall work in partnership to expand the food stamp employment and training program. Subject to federal approval, the program shall be expanded to three additional community colleges or other community-based locations in 2010 and shall expand capacity at participating colleges. To the greatest extent possible, expansion shall be geographically diverse. The agencies shall:

(A) Are citizens or aliens lawfully admitted for permanent residence or otherwise residing in the United States under color of law;

(B) Have furnished the department their social security number. If the social security number cannot be furnished because it has not been issued or is not known, an application for a number shall be made prior to authorization of benefits, and the social security number shall be provided to the department upon receipt;

(C) Have not refused or failed without good cause to participate in drug or alcohol treatment if an assessment by a certified chemical dependency counselor indicates a need for such treatment. Good cause must be found to exist when a person's physical or mental condition, as determined by the department, prevents the person from participating in vocational rehabilitation services, or when vocational rehabilitation services are not available to the person in the county of his or her residence.

(b)(i) Persons who initially apply and are found eligible for disability lifeline benefits based upon incapacity from gainful employment under (a) of this subsection on or after September 2, 2010, who are homeless and have been assessed as needing chemical dependency or mental health treatment or both, must agree, as a condition of eligibility for the disability lifeline program, to accept a housing voucher in lieu of a cash grant if a voucher is available. The department shall establish the dollar value of the housing voucher. The dollar value of the housing voucher may differ from the value of the cash grant. Persons receiving a housing voucher under this subsection also shall receive a cash stipend of fifty dollars per month.

(ii) If the department of commerce has determined under section 8 of this act that sufficient housing is not available, persons described in this subsection who apply for disability lifeline benefits during the time period that housing is not available shall receive a cash grant in lieu of a cash stipend and housing voucher.

(iii) Persons who refuse to accept a housing voucher under this subsection but otherwise meet the eligibility requirements of (a) of this subsection are eligible for medical care services benefits under RCW 74.09.035, subject to the time limits in (h) of this subsection.

(c) The following persons are not eligible for the disability lifeline program:

(i) Persons who are unemployable due primarily to alcohol or drug addiction. These persons shall be referred to appropriate assessment, treatment, shelter, or supplemental security income referral services as authorized under chapter 74.50 RCW. (ii) Persons who refuse or fail to cooperate in obtaining federal aid assistance, without good cause.

(d) Disability lifeline benefits shall be provided only to persons who are not members of assistance units receiving federal aid assistance, except as provided in (a) of this subsection, and who will accept available services that can reasonably be expected to enable the person to work or reduce the need for assistance unless there is good cause to refuse. Failure to accept such services shall result in termination until the person agrees to cooperate in accepting such services and subject to the following maximum periods of ineligibility after reapplication:

(i) First failure: One week;

(ii) Second failure within six months: One month;

(iii) Third and subsequent failure within one year: Two months.

(e) Persons who are likely eligible for federal supplemental security income benefits shall be moved into the disability lifeline expedited component of the disability lifeline program. Persons placed in the expedited component of the program may, if otherwise eligible, receive disability lifeline benefits pending application for federal supplemental security income benefits. The monetary value of any disability lifeline benefit that is subsequently duplicated by the person's receipt of supplemental security income for the same period shall be considered a debt due the state and shall be operation of law be subject to recovery through all available legal remedies.

disability lifeline incapacity determinations to ensure that eligibility decisions are consistent with statutory requirements and are based on clear, objective medical information; and

(ii) The process implementing the medical criteria shall involve consideration of opinions of the treating or consulting physicians or health care professionals regarding incapacity, and any eligibility decision which rejects uncontroverted medical opinion must set forth clear and convincing reasons for doing so.

(g) Persons receiving disability lifeline benefits based upon a finding of incapacity from gainful employment who remain otherwise eligible shall have their benefits discontinued unless the recipient demonstrates no material improvement in their medical or mental health condition. The department may discontinue benefits when there was specific error in the prior determination that found the person eligible by reason of incapacitation.

(h)(i) Beginning September 1, 2010, no person who is currently receiving or becomes eligible for disability lifeline program benefits shall be eligible to receive benefits under the program for more than twenty-four months in a sixty-month period. For purposes of this subsection, months of receipt of general assistance-unemployable benefits count toward the twenty-four month limit. Months during which a person received benefits under the expedited component of the disability lifeline or general assistance program or under the aged, blind, or disabled component of the disability lifeline or general assistance program shall not be included when determining whether a person has been receiving benefits for more than twenty-four months. On or before July 1, 2010, the department must review the cases of all persons who have received disability lifeline benefits or general assistance unemployable benefits for at least twenty months as of that date. On or before September 1, 2010, the department must review the cases of all remaining persons who have received disability lifeline benefits for at least twelve months as of that date. The review should determine whether the person meets the federal supplemental security income disability standard and, if the person does not meet that standard, whether the receipt of additional services could lead to employability. If a need for additional services is identified, the department shall provide case management services, such as assistance with arranging transportation or locating stable housing, that will facilitate the person's access to needed services. A person may not be determined ineligible due to exceeding the time limit unless he or she has received a case review under this subsection finding that the person does not meet the federal supplemental security income disability standard.

(ii) The time limits established under this subsection expire June 30, 2013.

(i) No person may be considered an eligible individual for disability lifeline benefits with respect to any month if during that month the person:

(6) "Disability lifeline expedited" means a component of the disability lifeline program under which persons receiving disability lifeline benefits have been determined, after examination by an appropriate health care provider, to be likely to be eligible for federal supplemental security income benefits based on medical and behavioral health evidence that meets the disability standards used for the federal supplemental security income program.

(7) "Federal aid assistance"—The specific categories of assistance for which provision is made in any federal law existing or hereafter passed by which payments are made from the federal government to the state in aid or in respect to payment by the state for public assistance rendered to any category of needy persons for which provision for federal funds or aid may from time to time be made, or a federally administered needs-based program.

Persons receiving general assistance on July 26, 1987, or becoming eligible for such assistance thereafter, due to an alcohol or drug-related incapacity, shall be referred to appropriate assessment, treatment, shelter, or supplemental security income referral services as authorized under chapter 74.50 RCW. Referrals shall be made at the time of application or at the time of eligibility review. Alcoholic and drug addicted clients who are receiving general assistance on July 26, 1987, may remain on general assistance if they otherwise retain their eligibility until they are assessed for services under chapter 74.50 RCW. (i) Recipients of supplemental security income whose need, as defined in this section, is not met by such supplemental security income grant because of separation from a spouse; or

(ii) To the extent authorized by the legislature in the biennial appropriations act, to recipients of temporary assistance for needy families whose needs are not being met because of a temporary reduction in monthly income below the entitled benefit payment level caused by loss or reduction of wages or unemployment compensation benefits or some other unforeseen circumstances. The amount of general assistance authorized shall not exceed the difference between the entitled benefit payment level and the amount of income actually received.

(c) General assistance shall be provided only to persons who are not members of assistance units receiving federal aid assistance, except as provided in subsection (6)(a)(ii)(A) and (b) of this section, and will accept available services which can reasonably be expected to enable the person to work or reduce the need for assistance unless there is good cause to refuse. Failure to accept such services shall
result in termination until the person agrees to cooperate in accepting such services and subject to the following maximum periods of ineligibility after reapplication:

(i) First failure: One week;
(ii) Second failure within six months: One month;
(iii) Third and subsequent failure within one year: Two months.

(d) Persons found eligible for general assistance based on incapacity from gainful employment may, if otherwise eligible, receive general assistance pending application for federal supplemental security income benefits. Any general assistance that is subsequently duplicated by the person's receipt of supplemental security income for the same period shall be considered a debt due the state and shall by operation of law be subject to recovery through all available legal remedies.

(e) The department shall adopt by rule medical criteria for general assistance eligibility to ensure that eligibility decisions are consistent with statutory requirements and are based on clear, objective medical information.

(f) The process implementing the medical criteria shall involve consideration of opinions of the treating or consulting physicians or health care professionals regarding incapacity, and any eligibility decision which rejects uncontroverted medical opinion must set forth clear and convincing reasons for doing so.

(g) Recipients of general assistance based upon a finding of incapacity from gainful employment who remain otherwise eligible shall have their benefits discontinued unless the recipient demonstrates no material improvement in their medical or mental condition. The department may discontinue benefits when there was specific error in the prior determination that found the recipient eligible by reason of incapacitation. Recipients of general assistance based upon pregnancy who relinquish their child for adoption, remain otherwise eligible, and are not eligible to receive benefits under the federal temporary assistance for needy families program shall not have their benefits terminated until the end of the month in which the period of six weeks following the birth of the recipient's child falls. Recipients of the federal temporary assistance for needy families program who lose their eligibility solely because of the birth and relinquishment of the qualifying child may receive general assistance through the end of the month in which the period of six weeks following the birth of the child falls.

(h) No person may be considered an eligible individual for general assistance with respect to any month if during that month the person:

(i) Is fleeing to avoid prosecution of, or to avoid custody or confinement for conviction of, a felony, or an attempt to commit a felony, under the laws of the state of Washington or the place from which the person flees; or

Exempt resources shall include, but are not limited to:

(a) A home that an applicant, recipient, or their dependents is living in, including the surrounding property;
(b) Household furnishings and personal effects;
(c) A motor vehicle, other than a motor home, used and useful having an equity value not to exceed five thousand dollars;

(e) All other resources, including any excess of values exempted, not to exceed one thousand dollars or other limit as set by the department, to be consistent with limitations on resources and exemptions necessary for federal aid assistance. The department shall also allow recipients of temporary assistance for needy families to exempt savings accounts with combined balances of up to an additional three thousand dollars;

(f) Applicants for or recipients of ((general assistance)) disability lifetime benefits shall have their eligibility based on resource limitations consistent with the temporary assistance for needy families program rules adopted by the department; and

(g) If an applicant for or recipient of public assistance possesses property and belongings in excess of the ceiling value, such value shall be used in determining the need of the applicant or recipient, except that: (i) The department may exempt resources or income when the income and resources are determined necessary to the applicant's or recipient's restoration to independence, to decrease the need for public assistance, or to aid in rehabilitating the applicant or recipient or a dependent of the applicant or recipient; and (ii) the department may provide grant assistance for a period not to exceed nine months from the date the agreement is signed pursuant to this section to persons who are otherwise ineligible because of excess real property owned by such persons when they are making a good faith effort to dispose of that property: PROVIDED, That:

(C) Applicants and recipients are advised of their right to a fair hearing and afforded the opportunity to challenge a decision that good faith efforts to sell have ceased, prior to assessment of an overpayment under this section; and

(D) At the time assistance is authorized, the department files a lien without a sum certain on the specific property.

((44)))) (12) "Income"--(a) All appreciable gains in real or personal property (cash or kind) or other assets, which are received by or become available for use and enjoyment by an applicant or recipient during the month of application or after applying for or receiving public assistance. The department may by rule and regulation exempt income received by an applicant for or recipient of public assistance which can be used by him or her to decrease his or her need for public assistance or to aid in rehabilitating him or her or his or her dependents, but such exemption shall not, unless otherwise provided in this title, exceed the exemptions of resources granted under this chapter to an applicant for public assistance. In addition, for cash assistance the department may disregard income pursuant to RCW 74.08A.230 and 74.12.350.

(b) If, under applicable federal requirements, the state has the option of considering property in the form of lump sum compensatory awards or related settlements received by an applicant or recipient as income or as a resource, the department shall consider such property to be a resource.

EIGHTH DAY, MARCH 22, 2010

((42a)) (13) "Need"--The difference between the applicant's or recipient's standards of assistance for himself or herself and the dependent members of his or her family, as measured by the standards of the department, and value of all nonexempt resources and nonexempt income received by or available to the applicant or recipient and the dependent members of his or her family.

((44a)) (14) For purposes of determining eligibility for public assistance and participation levels in the cost of medical care, the department shall exempt restitution payments made to people of Japanese and Aleut ancestry pursuant to the Civil Liberties Act of 1988 and the Aleutian and Pribilof Island Restitution Act passed by congress, P.L. 100-383, including all income and resources derived therefrom.

((44a)) (15) In the construction of words and phrases used in this title, the singular number shall include the plural, the masculine gender shall include both the feminine and neuter genders and the present tense shall include the past and future tenses, unless the context thereof shall clearly indicate to the contrary.

NEW SECTION. Sec. 5. A new section is added to chapter 74.04 RCW to read as follows:

REFERRAL TO THE DIVISION OF VOCATIONAL REHABILITATION. (1) The economic services administration shall work jointly with the division of vocational rehabilitation to develop an assessment tool that must be used to determine whether the programs offered by the division of vocational rehabilitation could assist persons receiving disability lifeline benefits in returning to the work force. The assessment tool shall be completed no later than December 1, 2010. The economic services administration shall begin using the tool no later than January 1, 2011. No later than December 30, 2011, the department shall report on the use of the tool and to what extent the programs offered by the division of vocational rehabilitation have been successful in returning persons receiving disability lifeline benefits to the work force.

(2) After January 1, 2011, all persons receiving disability lifeline benefits shall be assessed to determine whether they would likely benefit from a program offered by the division of vocational rehabilitation. If the assessment indicates that the person might benefit, the economic services administration shall make a referral to the division of vocational rehabilitation. If the person is found eligible for a program with the division of vocational rehabilitation, he or she must participate in that program to remain eligible for the monthly stipend and housing voucher or a cash grant. If the person refuses to participate or does not complete the program, the department shall terminate the cash stipend and housing voucher or cash grant but may not terminate medical coverage and food benefits.

NEW SECTION. Sec. 6. A new section is added to chapter 74.04 RCW to read as follows:

REFERRAL TO THE DEPARTMENT OF VETERANS AFFAIRS. During the application process for disability lifeline benefits, the department shall inquire of each applicant whether he or she has ever served in the United States military service. If the applicant answers in the affirmative, the department shall confer with a veterans benefit specialist with the Washington state department of veterans affairs or a contracted veterans service officer in the community to determine whether the applicant is eligible for any benefits or programs offered to veterans by either the state or the federal government.

NEW SECTION. Sec. 7. A new section is added to chapter 74.04 RCW to read as follows:

EARLY SSI TRANSITION PROJECT. (1) To ensure that persons who are likely eligible for supplemental security income benefits are transitioned from disability lifeline benefits to disability lifeline expedited and the medicaid program, and then to the supplemental security income program as quickly as practicable, the department shall implement the early supplemental security income transition project starting in King, Pierce, and Spokane counties no later than July 1, 2010, and extending statewide no later than October 1, 2011. The program shall be implemented through performance-based contracts with managed health care systems providing medical care services under RCW 74.09.035 or other qualified entities. The participants shall have the following responsibilities and duties under this program:

(a) The entities with whom the department contracts to provide the program shall be responsible for:

(i) Systematically screening persons receiving disability lifeline benefits at the point of eligibility determination or shortly thereafter to determine if the persons should be referred for medical or behavioral health evaluations to determine whether they are likely eligible for supplemental security income;

(ii) Immediately sharing the results of the disability screening with the department;

(iii) Managing disability lifeline incapacity evaluation examinations to provide timely access to needed medical and behavioral health evaluations and standardizing health care providers' conduct of incapacity evaluations. To maximize the timeliness and efficiency of incapacity evaluation examinations, the department must strongly consider contracting with a managed health care system with a network of health care providers that are trained and have agreed to conduct disability lifeline medical and psychological incapacity and recertification exams. The department may obtain medical evidence and other relevant information from sources other than the contracted entity if such evidence is available at the time of a person's application for disability lifeline benefits and is sufficient to support a determination that the person is incapacitated;

(iv) Maintaining a centralized appointment and clinical data system; and

(v) Assisting persons receiving disability lifeline benefits with obtaining additional medical or behavioral health examinations needed to meet the disability standard for federal supplemental security income benefits and with submission of applications for supplemental security income benefits.

(b) The department shall be responsible for:

(i) Determining incapacity and eligibility for disability lifeline benefits;

(ii) Making timely determinations that a person receiving disability lifeline benefits is likely eligible for supplemental security income based on medical evidence and other relevant information provided by a contracted entity, and immediately referring such persons to a contracted entity for services;

(iii) Developing standardized procedures for sharing data and information with the contracted entities to ensure timely identification of clients who have not been transferred to the disability lifeline expedited program within four months of their date of application, but who may, upon further review, be appropriately transferred to that program;

(iv) Providing case management, in partnership with the managed health care system or contracted entity, to support persons' transition to federal supplemental security income and medicaid benefits; and

(v) Identifying a savings determination methodology, in consultation with the contracted entities, the office of financial management, and the legislature, on or before implementation of the project.

(2) Early supplemental security income transition project contracts shall include the following performance goals:

(a) Persons receiving disability lifeline benefits should be screened within thirty days of entering the program to determine the
EIGHTH DAY, MARCH 22, 2010

propriety of their transfer to the disability lifeline expedited program; and

(b) Seventy-five percent of persons receiving disability lifeline benefits that appear likely to qualify for supplemental security income benefits shall be transferred to the disability lifeline expedited program within four months of their application for disability lifeline benefits.

(3) The initial focus of the efforts of the early supplemental security income transition project shall be on persons who have been receiving disability lifeline or general assistance unemployment benefits for twelve or more months as of September 1, 2010.

(4) No later than December 1, 2011, the department shall report to the governor and appropriate policy and fiscal committees on whether the early supplemental security income transition project performance goals in subsection (2) of this section were met, including the reasons those goals were or were not met.

(5) Pursuant to RCW 41.06.142(3), performance-based contracting under this section is expressly mandated by the legislature and is not subject to the processes set forth in RCW 41.06.142 (1), (4), and (5).

The statewide expansion of the program under this section shall be considered expressly mandated by the legislature and not be subject to the provisions of RCW 41.06.142 (1), (4), and (5).

NEW SECTION. Sec. 8. A new section is added to chapter 43.330 RCW to read as follows:

DISABILITY LIFELINE HOUSING VOUCHER PROGRAM. (1) To address the housing issues faced by the disability lifeline applicants in RCW 74.04.005(5)(b), the department of commerce and the department of social and health services shall jointly develop a housing voucher program. The departments also shall develop housing resources to be used by the applicants in RCW 74.04.005(5)(b). To the greatest extent possible, the housing resources shall follow the supportive housing model. The department of commerce shall administer the housing voucher program and shall:

(a) Identify the current supply of private and public housing including acquisition and rental of existing housing stock;
(b) Develop funding strategies for the development of housing resources; and

(c) Design the voucher program to maximize the availability of the department of social and health services to recover federal funding.

(2) If the department of commerce determines that the housing supply is inadequate to meet the need for those applicants qualifying for housing vouchers under RCW 74.04.005(5)(b), those applicants shall instead receive a cash grant administered by the department of social and health services. Upon the department of commerce's determination that the housing supply is adequate to meet the needs of the applicants in RCW 74.04.005(5)(b), housing vouchers rather than cash grants shall be issued to these applicants who apply on or after the department's determination.

(3) The department of commerce and the department of social and health services shall evaluate the impact of the use of housing vouchers under this section and report to the governor and relevant policy and fiscal committees of the legislature by November 30, 2012, on the following items:

(a) The supply, affordability, appropriateness, and use of stable housing;

(b) The following outcomes for persons receiving disability lifeline housing vouchers:
(i) Participation in and completion of chemical dependency or mental health treatment;
(ii) Contact with law enforcement, including arrest and conviction data;
(iii) Use of emergency room services; and

(iv) Involuntary commitment under chapter 71.05 RCW.

(2) "Indigent and able to contribute" means a person who, at any stage of a court proceeding, is unable to pay the anticipated cost of counsel for the matter before the court because his or her available funds are less than the anticipated cost of counsel but sufficient for the person to pay a portion of that cost.

(3) "Anticipated cost of counsel" means the cost of retaining private counsel for representation on the matter before the court.

(4) "Available funds" means liquid assets and disposable net monthly income calculated after provision is made for bail obligations. For the purpose of determining available funds, the following definitions shall apply:

A motor vehicle necessary to maintain employment and having a market value not greater than three thousand dollars shall not be considered a liquid asset.

(b) "Income" means salary, wages, interest, dividends, and other earnings which are reportable for federal income tax purposes, and cash payments such as reimbursements received from pensions, annuities, social security, and public assistance programs. For purposes of this chapter:

(1) "Abandoned" means when the child's parent, guardian, or other custodian has expressed, either by statement or conduct, an intent to forego, for an extended period, parental rights or responsibilities despite an ability to exercise such rights and responsibilities. If the court finds that the petitioner has exercised due diligence in attempting to locate the parent, no contact between the child and the child's parent, guardian, or other custodian for a period of three months creates a rebuttable presumption of abandonment, even if there is no expressed intent to abandon.

(2) "Child" and "juvenile" means any individual under the age of eighteen years.

(3) "Current placement episode" means the period of time that begins with the most recent date that the child was removed from the home of the parent, guardian, or legal custodian for purposes of placement in out-of-home care and continues until: (a) The child returns home; (b) an adoption decree, a permanent custody order, or guardianship order is entered; or (c) the dependency is dismissed, whichever occurs first.

(4) "Department" means the department of social and health services.

(5) "Dependency guardian" means the person, nonprofit corporation, or Indian tribe appointed by the court pursuant to this chapter for the limited purpose of assisting the court in the supervision of the dependency.

(6) "Dependent child" means any child who:

(a) Has been abandoned;

(b) Is abused or neglected as defined in chapter 26.44 RCW by a person legally responsible for the care of the child; or

(c) Has no parent, guardian, or custodian capable of adequately caring for the child, such that the child is in circumstances which constitute a danger of substantial damage to the child's psychological or physical development.

(7) "Developmental disability" means a disability attributable to mental retardation, cerebral palsy, epilepsy, autism, or another neurological or other condition of an individual found by the secretary to be closely related to mental retardation or to require treatment similar to that required for individuals with mental retardation, which disability originates before the individual attains age eighteen, which has continued or can be expected to continue indefinitely, and which constitutes a substantial handicap to the individual.

(8) "Guardian" means the person or agency that: (a) Has been appointed as the guardian of a child in a legal proceeding other than a proceeding under this chapter; and (b) has the legal right to custody of the child pursuant to such appointment. The term "guardian" shall not include a "dependency guardian" appointed pursuant to a proceeding under this chapter.

(9) "Guardian ad litem" means a person, appointed by the court to represent the best interests of a child in a proceeding under this chapter, or in any matter which may be consolidated with a proceeding under this chapter. A "court-appointed special advocate" appointed by the court to be the guardian ad litem for the child, or to perform substantially the same duties and functions as a guardian ad litem, shall be deemed to be guardian ad litem for all purposes and uses of this chapter.

(2) Undisbursed reverse mortgage funds must be treated as equity in the borrower's home and not as proceeds from a loan, resources, or assets for the purpose of determining eligibility and benefits under means-tested programs of aid to individuals.

(3) This section applies to any law or program relating to payments, allowances, benefits, or services provided on a means-tested basis by this state including, but not limited to, optional state supplements to the federal supplemental security income program, low-income energy assistance, property tax relief, (general assistance) disability lifeline benefits, and medical assistance only to the extent this section does not conflict with Title 19 of the federal social security act.

(c) Unable to pay reasonable costs for shelter, food, utilities, and transportation because his or her available funds are insufficient.

(4) "Indirect costs" includes those allowable costs that are generally associated with carrying out the statutory objectives of this chapter, but the identification and tracking of those costs cannot be readily assigned to a specific statutory objective without an accounting effort that is disproportionate to the benefit received. A county legislative authority may allocate allowable indirect costs to its veterans' assistance fund if it is accomplished in a manner consistent with the cost principles promulgated by the federal office of management and budget in circular No. A-87, dated May 10, 2004.

Grant assistance shall not be provided under this chapter if the applicant does not reside in the most appropriate living situation, as determined by the department.

relative placement as the most appropriate living situation for the 
pregnant or parenting minor.

The department shall provide the parents or parent with the 
opportunity to make a showing that the parental home, or home of 
the other relative placement, is the most appropriate living situation. 
It shall be presumed in any administrative or judicial proceeding 
conducted under this subsection that the parental home or other 
relative placement requested by the parents or parent is the most 
appropriate living situation. This presumption is rebuttable.

(4) In cases in which the minor is unmarried and unemployed, 
the department shall, as part of the determination of the appropriate 
living situation, provide information about adoption including 
referral to community-based organizations providing counseling.

(5) For the purposes of this section, "most appropriate living 
situation" shall not include a living situation including an adult male 
who fathered the qualifying child and is found to meet the elements 
of rape of a child as set forth in RCW 9A.44.079.

Any person who transfers property for the purpose of rendering himself or herself eligible for assistance, or any person who after becoming a recipient transfers any property or any interest in property without the consent of the secretary, shall be ineligible for assistance for a period of time during which the reasonable value of the property so transferred would have been adequate to meet the person's needs under normal conditions of living: PROVIDED, that the secretary is hereby authorized to allow exceptions in cases where undue hardship would result from a denial of assistance.

MR. PRESIDENT:
The House refuses to concur in the Senate amendment(s) to ENGROSSED SUBSTITUTE HOUSE BILL NO. 3014 and asks the Senate to recede therefrom.

and the same is herewith transmitted.

BARBARA BAKER, Chief Clerk

**MOTION**

Senator Kastama moved that the Senate recede from its position on the Senate amendments to Engrossed Substitute House Bill No. 3014.

The President declared the question before the Senate to be the motion by Senator Kastama that the Senate recede from its position on the Senate amendments to Engrossed Substitute House Bill No. 3014.

The motion by Senator Kastama carried and the Senate receded from its amendments to Engrossed Substitute House Bill No. 3014.
Engrossed Substitute House Bill No. 3014, by House Committee on Finance (originally sponsored by Representatives Kessler, Morrell and Van De Wege)

Modifying the sales and use tax deferral program for investment projects in rural counties.

The measure was read the second time.

MOTION

Senator Kastama moved that the following striking amendment by Senators Kastama and Zarrelli be adopted:

Strike everything after the enacting clause and insert the following:

Sec. 1. RCW 82.60.010 and 1985 c 232 s 1 are each amended to read as follows:

The legislature finds that there are several areas in the state that are characterized by very high levels of unemployment and poverty. The legislature further finds that economic stagnation is the primary cause of this high unemployment rate and poverty; that new state policies are necessary in order to promote economic stimulation and new employment opportunities in these distressed areas; and that policies providing incentives for economic growth in these distressed areas are essential. For these reasons, the legislature hereby reestablishes a tax deferral program to be effective solely in distressed areas and under circumstances where the deferred tax payments are for investments or costs that result in the creation of a specified number of jobs in counties. The legislature declares that this limited program serves the vital public purpose of creating employment opportunities and reducing poverty in the distressed counties of the state.

Sec. 2. RCW 82.60.020 and 2010 c ... (SHB 3066) s 138 are each amended to read as follows:

Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

(1) "Applicant" means a person applying for a tax deferral under this section.

(2) "Department" means the department of revenue.

(3) "Eligible area" means (a):

(a) Through June 30, 2010, a rural county as defined in RCW 82.14.370; and

(b) Beginning July 1, 2010, a qualifying county.

(4)(a) "Eligible investment project" means an investment project that is located, as of the date the application required by RCW 82.60.030 is received by the department, in an eligible area as defined in subsection (3) of this section.

(b) (The lessor or owner of a qualified building is not eligible for a deferral unless:

(i) The underlying ownership of the buildings, machinery, and equipment vests exclusively in the same person; or

(ii) (A) The lessor by written contract agrees to pass the economic benefit of the deferral to the lessee;

(B) The lessee that receives the economic benefit of the deferral agrees in writing with the department to complete the annual survey required under RCW 82.60.070; and

(C) The economic benefit of the deferral passed to the lessee is no less than the amount of tax deferred by the lessor and is evidenced by written documentation of any type of payment, credit, or other financial arrangement between the lessor or owner of the qualified building and the lessee.

(c)) "Eligible investment project" does not include any portion of an investment project undertaken by a light and power business as defined in RCW 82.16.010(4), other than that portion of a cogeneration project that is used to generate power for consumption within the manufacturing site of which the cogeneration project is an integral part, or investment projects (which) that have already received deferrals under this chapter.

(5) "Initiation of construction" has the same meaning as in RCW 82.63.010.

(6) "Investment project" means an investment in qualified buildings or qualified machinery and equipment, including labor and services rendered in the planning, installation, and construction of the project.

(7) "Manufacturing" means the same as defined in RCW 82.04.120. "Manufacturing" also includes:

(a) Before July 1, 2010: (i) Computer programming, the production of computer software, and other computer-related services, but only when the computer programming, production of computer software, or other computer-related services are performed by a manufacturer as defined in RCW 82.04.110 and contribute to the production of a new, different, or useful substance or article of tangible personal property for sale; (ii) the activities performed by research and development laboratories in the state; and (iii) the conditioning of vegetable seeds;

(b) Beginning July 1, 2010: (i) The activities performed by research and development laboratories in the state; and (ii) the conditioning of vegetable seeds.

(8) "Person" has the meaning given in RCW 82.04.030.

(9) "Qualified buildings" means construction of new structures, and expansion or renovation of existing structures for the purpose of increasing floor space or production capacity used for manufacturing or research and development activities, including plant offices and warehouses or other facilities for the storage of raw material or finished goods if such facilities are an essential or an integral part of a factory, mill, plant, or laboratory used for manufacturing or research and development. If a building is used partly for manufacturing or research and development and partly for other purposes, the applicable tax deferral must be determined by apportionment of the costs of construction under rules adopted by the department.

(10) "Qualified employment position" means a permanent full-time employee employed in the eligible investment project during the entire tax year. The term "full-time employment" means a full-time position that is filled for a period of twelve consecutive months. The term "full-time employment" means at least thirty-five hours a week, four hundred fifty-five hours a quarter, or one thousand eight hundred twenty hours a year.

(11) "Qualified machinery and equipment" means all new industrial and research fixtures, equipment, and support facilities that are an integral and necessary part of a manufacturing or research and development operation. "Qualified machinery and equipment" includes: Computers; software; data processing equipment; laboratory equipment; manufacturing components such as belts, pulleys, shafts, and moving parts; molds, tools, and dies; operating structures; and all equipment used to control or operate the machinery.

(12) "Qualifying county" means a county that has an unemployment rate, as determined by the employment security department, which is at least twenty percent above the state average for the three calendar years immediately preceding the year in which
the list of qualifying counties is established or updated, as the case may be, as provided in section 3 of this act.

(13) "Recipient" means a person receiving a tax deferral under this chapter.

(14) "Research and development" means the development, refinement, testing, marketing, and commercialization of a product, service, or process before commercial sales have begun, but only when such activities are intended to ultimately result in the production of a new, different, or useful substance or article of tangible personal property for sale. As used in this subsection, "commercial sales" excludes sales of prototypes or sales for market testing if the total gross receipts from such sales of the product, service, or process do not exceed one million dollars.

NEW SECTION. Sec. 3. A new section is added to chapter 82.60 RCW to read as follows:

The department, with the assistance of the employment security department, must establish a list of qualifying counties effective July 1, 2010. The list of qualifying counties is effective for a twenty-four month period and must be updated by July 1st of the year that is two calendar years after the list was established or last updated, as the case may be.

NEW SECTION. Sec. 4. A new section is added to chapter 82.60 RCW to read as follows:

The lessor or owner of a qualified building is not eligible for a deferral unless:

(1) The underlying ownership of the buildings, machinery, and equipment vests exclusively in the same person; or
(2) The lessor by written contract agrees to pass the economic benefit of the deferral to the lessee;
(3) The lessee that receives the economic benefit of the deferral agrees in writing with the department to complete the annual survey required under RCW 82.60.070; and
(4) The economic benefit of the deferral passed to the lessee is no less than the amount of tax deferred by the lessor and is evidenced by written documentation of any type of payment, credit, or other financial arrangement between the lessor or owner of the qualified building and the lessee.

Sec. 5. RCW 82.60.030 and 1994 sp.s. c 1 s 2 are each amended to read as follows:

(1) Application for deferral of taxes under this chapter must be made before initiation of the construction of the investment project or acquisition of equipment or machinery. The application (shall) must be made to the department in a form and manner prescribed by the department. The application (shall) must contain information regarding the location of the investment project, the applicant’s average employment in the state for the prior year, estimated or actual new employment related to the project, estimated or actual wages of employees related to the project, estimated or actual costs, time schedules for completion and operation, and other information required by the department. The department (shall) must rule on the application within sixty days.
(2) This section expires July 1, 2020.

Sec. 6. RCW 82.60.040 and 2004 c 25 s 4 are each amended to read as follows:

(1) The department (shall) must issue a sales and use tax deferral certificate for state and local sales and use taxes due under chapters 82.08, 82.12, and 82.14 RCW on each eligible investment project (that is located in an eligible area as defined in RCW 82.60.020).
(2) The department (shall) must keep a running total of all deferrals granted under this chapter during each fiscal biennium.
(3) This section expires July 1, (2020) 2020.

Sec. 7. RCW 82.60.049 and 2004 c 25 s 5 are each amended to read as follows:

(1) For the purposes of this section:

(b) "Eligible investment project" also means an investment project in an eligible area as defined in this section.
(2) In addition to the provisions of RCW 82.60.040, the department shall issue a sales and use tax deferral certificate for state and local sales and use taxes due under chapters 82.08, 82.12, and 82.14 RCW, on each eligible investment project that is located in an eligible area, if the applicant establishes that at the time the project is operationally complete:
(a) The applicant will hire at least one qualified employment position for each seven hundred fifty thousand dollars of investment for which a deferral is requested; and
(b) The positions will be filled by persons who at the time of hire are residents of the community empowerment zone. As used in this subsection, "resident" means the person makes his or her home in the community empowerment zone or the county in which the zone is located. A mailing address alone is insufficient to establish that a person is a resident for the purposes of this section. The persons must be hired after the date the application is filed with the department.
(3) All other provisions and eligibility requirements of this chapter apply to applicants eligible under this section.
(4) The qualified employment position must be filled by the end of the calendar year following the year in which the project is certified as operationally complete. If a person does not meet the requirements for qualified employment positions by the end of the second calendar year following the year in which the project is certified as operationally complete, all deferred taxes are immediately due.

Sec. 8. RCW 82.60.060 and 2000 c 106 s 5 are each amended to read as follows:

(1) The recipient (shall) must begin paying the deferred taxes in the third year after the date certified by the department as the date on which the (construction) investment project has been operationally completed. The first payment will be due on December 31st of the third calendar year after such certified date, with subsequent annual payments due on December 31st of the following four years with amounts of payment scheduled as follows:

<table>
<thead>
<tr>
<th>Repayment Year</th>
<th>% of Deferred Tax Repaid</th>

</thead>
<tbody>
<tr>
<td>1</td>
<td>10%</td>
</tr>
<tr>

<td>3</td>
<td>20%</td>
</tr>
<tr>
<td>4</td>
<td>25%</td>
</tr>
<tr>
<td>5</td>
<td>30%</td>
</tr>
</tbody>
</table>
(2) The department may authorize an accelerated repayment schedule upon request of the recipient.
(3) Interest (shall) may not be charged on any taxes deferred under this chapter for the period of deferral, although all other penalties and interest applicable to delinquent excise taxes may be assessed and imposed for delinquent payments under this chapter. The debt for deferred taxes will not be extinguished by insolvency or other failure of the recipient. Transfer of ownership does not terminate the deferral. The deferral is transferred, subject to the
successor meeting the eligibility requirements of this chapter, for the remaining periods of the deferral.

Sec. 9. RCW 82.60.070 and 2010 c ... (SHB 3066) s 139 are each amended to read as follows:

(1)(a) Each recipient of a deferral of taxes granted under this chapter must file a complete annual survey with the department under RCW 82.32. . . (section 102, chapter . . . (SHB 3066), Laws of 2010). If the economic benefits of the deferral are passed to a lessee as provided in ((RCW 82.60.020(4))) section 4 of this act, the lessee must file a complete annual survey, and the applicant is not required to file a complete annual survey.

(b) The department must use the information reported on the annual survey required by this section to study the tax deferral program authorized under this chapter. The department must report to the legislature by December 1, ((2009)) 2019. The report must measure the effect of the program on job creation, the number of jobs created for residents of eligible areas, company growth, the introduction of new products, the diversification of the state's economy, growth in research and development investment, the movement of firms or the consolidation of firms' operations into the state, and such other factors as the department selects.

(2) Except as provided in section 10 of this act, if, on the basis of a survey under (subsection) RCW 82.32. . . (section 102, chapter . . . (SHB 3066), Laws of 2010) or other information, the department finds that an investment project is not eligible for tax deferral under this chapter, the amount of deferred taxes outstanding for the project is immediately due. For purposes of this subsection (2)(a), the repayment schedule in RCW 82.60.060 is tolled during the period of time that a taxpayer is receiving relief from repayment of deferred taxes under section 10 of this act.

(3) A recipient who must repay deferred taxes under subsection (2) of this section because the department has found that an investment project is not eligible for tax deferral under this chapter is no longer required to file annual surveys under RCW 82.32. . . (section 102, chapter . . . (SHB 3066), Laws of 2010) beginning on the date an investment project is used for nonqualifying purposes.

(4) Notwithstanding any other provision of this section or RCW 82.32. . . (section 102, chapter . . . (SHB 3066), Laws of 2010), deferred taxes on the following need not be repaid:

(a) Machinery and equipment, and sales of or charges made for labor and services, which at the time of purchase would have qualified for exemption under RCW 82.08.02565; and

(b) Machinery and equipment which at the time of first use would have qualified for exemption under RCW 82.12.02565.

NEW SECTION. Sec. 10. A new section is added to chapter 82.60 RCW to read as follows:

(1) Subject to the conditions in this section, a person is not liable for the amount of deferred taxes outstanding for an investment project when the person temporarily ceases to use its qualified buildings and qualified machinery and equipment for manufacturing or research and development activities in a county with a population of less than twenty thousand persons for a period not to exceed twenty- four months from the date that the department sent its assessment for the amount of outstanding deferred taxes to the taxpayer.

(2) The relief from repayment of deferred taxes under this section does not apply unless the number of qualified employment positions maintained at the investment project after manufacturing or research and development activities are temporarily ceased is at least ten percent of the number of qualified employment positions employed at the investment project at the time the deferral was approved by the department. If a person has been approved for more than one deferral under this chapter, relief from repayment of deferred taxes under this section does not apply unless the number of qualified employment positions maintained at the investment project after manufacturing or research and development activities are temporarily ceased is at least ten percent of the highest number of qualified employment positions at the investment project at the time any of the deferrals were approved by the department. If, at any time during the twenty-four month period after the department has sent the taxpayer an assessment for outstanding deferred taxes resulting from the person temporarily ceasing to use its qualified buildings and qualified machinery and equipment for manufacturing or research and development activities, the number of qualified employment positions falls below the ten percent threshold in this subsection, the amount of deferred taxes outstanding for the project is immediately due.

(3) The lessor of an investment project for which a deferral has been granted under this chapter who has passed the economic benefits of the deferral to the lessee is not eligible for relief from the payment of deferred taxes under this section.

(4) A person seeking relief from the payment of deferred taxes under this section must apply to the department in a form and manner prescribed by the department. The application required under this subsection must be received by the department within thirty days of the date that the department sent its assessment for outstanding deferred taxes resulting from the person temporarily ceasing to use its qualified buildings and qualified machinery and equipment for manufacturing or research and development activities. The department must approve applications that meet the requirements in this section for relief from the payment of deferred taxes.

(5) A person is entitled to relief under this section only once.

(6) A person whose application for relief from the payment of deferred taxes has been approved under this section must continue to file an annual survey as required under RCW 82.60.070(1) or any successor statute. In addition, the person must file, in a form and manner prescribed by the department, a report on the status of the business and the outlook for commencing manufacturing or research and development activities.

Sec. 11. RCW 82.62.010 and 2010 c ... (E2SHB 1597) s 232 are each amended to read as follows:

Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

(1) "Applicant" means a person applying for a tax credit under this chapter.

(2) "Department" means the department of revenue.

(3) "Eligible area" means ((an area)) a "rural county" as defined in RCW ((82.60.020)) 82.14.370.

(4)(a) "Eligible business project" means manufacturing or research and development activities which are conducted by an applicant in an eligible area at a specific facility, provided the applicant's average qualified employment positions at the specific facility will be at least fifteen percent greater in the four consecutive full calendar quarters after the calendar quarter during which the first qualified employment position is filled than the applicant's average qualified employment positions at the same facility in the four consecutive full calendar quarters immediately preceding the calendar quarter during which the first qualified employment position is filled.

(b) "Eligible business project" does not include any portion of a business project undertaken by a light and power business as defined in RCW 82.16.010((4))) or that portion of a business project creating qualified full-time employment positions outside an eligible area.

(5) "First qualified employment position" means the first qualified employment position filled for which a credit under this chapter is sought.
(6) "Manufacturing" means the same as defined in RCW 82.04.120. "Manufacturing" also includes:  
(a) Before July 1, 2010: (i) Computer programming, the production of computer software, and other computer-related services, but only when the computer programming, production of computer software, or other computer-related services are performed by a manufacturer as defined in RCW 82.04.110 and contribute to the production of a new, different, or useful substance or article of tangible personal property for sale; and (ii) the activities performed by research and development laboratories and commercial testing laboratories; and  
(b) Beginning July 1, 2010, the activities performed by research and development laboratories and commercial testing laboratories.  
(7) "Person" has the meaning given in RCW 82.04.030.  
(8)(a)(i) "Qualified employment position" means a permanent full-time employee employed in the eligible business project during four consecutive full calendar quarters.  
(ii) For seasonal employers, "qualified employment position" also includes the equivalent of a full-time employee in work hours for four consecutive full calendar quarters.  
(b) For purposes of this subsection, "full time" means a normal work week of at least thirty-five hours.  
(c) Once a permanent, full-time employee has been employed, a position does not cease to be a qualified employment position solely due to periods in which the position goes vacant, as long as:  
(i) The cumulative period of any vacancies in that position is not more than one hundred twenty days in the four-quarter period; and  
(ii) During a vacancy, the employer is training or actively recruiting a replacement permanent, full-time employee for the position.  
(9) "Recipient" means a person receiving tax credits under this chapter.  
(10) "Research and development" means the development, refinement, testing, marketing, and commercialization of a product, service, or process before commercial sales have begun, but only when such activities are intended to ultimately result in the production of a new, different, or useful substance or article of tangible personal property for sale. As used in this subsection, "commercial sales" excludes sales of prototypes or sales for market testing if the total gross receipts from such sales of the product, service, or process do not exceed one million dollars.  
(11) "Seasonal employee" means an employee of a seasonal employer who works on a seasonal basis. For the purposes of this subsection and subsection (12) of this section, "seasonal basis" means a continuous employment period of less than twelve consecutive months.  
(12) "Seasonal employer" means a person who regularly hires more than fifty percent of its employees to work on a seasonal basis.

Senator Kastama spoke in favor of adoption of the striking amendment.
The House passed SECOND ENGROSSED SUBSTITUTE SENATE BILL NO. 6143 with the following amendment(s): 6143-S.E2 AMH ENGR H5824.E

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. In order to preserve funding for education, public safety, health care, environmental protection, and safety net services for children, elderly, disabled, and vulnerable people, it is the intent of the legislature to close obsolete tax preferences, clarify the legislature's intent regarding existing tax policy, and to ensure balanced tax policy while bolstering emerging industries.

PART I
Minimum Nexus Standards

NEW SECTION. Sec. 101. (1) The legislature finds that out-of-state businesses that do not have a physical presence in Washington earn significant income from Washington residents from providing services or collecting royalties on the use of intangible property in this state. The legislature further finds that these businesses receive significant benefits and opportunities provided by the state, such as: laws providing protection of business interests or regulating consumer credit; access to courts and judicial process to enforce business rights, including debt collection and intellectual property rights; an orderly and regulated marketplace; and police and fire protection and a transportation system benefiting in-state agents and other representatives of out-of-state businesses. Therefore, the legislature intends to extend the state's business and occupation tax to these companies to ensure that they pay their fair share of the cost of services that this state renders and the infrastructure it provides.

(2) The legislature also finds that the current cost apportionment method in RCW 82.04.460(1) for apportioning most service income has been difficult for both taxpayers and the department to apply due in large part (i) to the difficulty in assigning certain costs of doing business inside or outside of this state, and (ii) to its dissimilarity with the apportionment methods used in other states for their business activity taxes.

(b) The legislature further finds that there is a trend among states to adopt a single factor apportionment formula based on sales. The legislature recognizes that adoption of a sales factor only apportionment method has the advantages of simplifying apportionment and making Washington a more attractive place for businesses to expand their property and payroll. For these reasons, the legislature adopts single factor sales apportionment for purposes of apportioning royalty income and certain service income for state business and occupation tax purposes.

(c) Nothing in this act may be construed, however, to authorize apportionment of the gross income or value of products taxable under the following business and occupation tax classifications: Retailing, wholesaling, manufacturing, processing for hire, extracting, extracting for hire, printing, government contracting, public road construction, the classifications in RCW 82.04.280 (2), (4), (6), and (7), and any other activity not specifically included in the definition of apportionable activities in RCW 82.04.460.

(d) Nothing in this part is intended to modify the nexus and apportionment requirements for local gross receipts business and occupation taxes.

Sec. 102. RCW 82.04.220 and 1961 c 15 s 82.04.220 are each amended to read as follows:

(1) There is levied and ((shall be)) collected from every person that

 has a substantial nexus with this state a tax for the act or privilege of

 engaging in business activities. ((Such)) The tax ((shall be)) is

 measured by the application of rates against value of products, gross

 proceeds of sales, or gross income of the business, as the case may be.

(2) A person who has a substantial nexus with this state in any tax year will be deemed to have a substantial nexus with this state for the following tax year.

NEW SECTION. Sec. 103. A new section is added to chapter 82.04 RCW to read as follows:

"Engaging within this state" and "engaging within the state," when used in connection with any apportionable activity as defined in RCW 82.04.460, means that a person generates gross income of the business from sources within this state, such as customers or intangible property located in this state, regardless of whether the person is physically present in this state.

NEW SECTION. Sec. 104. A new section is added to chapter 82.04 RCW to read as follows:

(1) A person engaging in business is deemed to have substantial nexus with this state if the person is:

(a) An individual and is a resident or domiciliary of this state;

(b) A business entity and is organized or commercially domiciled in this state; or

(c) A nonresident individual or a business entity that is organized or commercially domiciled outside this state, and in any tax year the person has:

(i) More than fifty thousand dollars of property in this state;  

(ii) More than fifty thousand dollars of payroll in this state;  

(iii) More than two hundred fifty thousand dollars of receipts from this state; or

(iv) At least twenty-five percent of the person's total property, total payroll, or total receipts in this state.

(2) (a) Property counting toward the thresholds in subsection (1)(c)(i) and (iv) of this section is the average value of the taxpayer's property, including intangible property, owned or rented and used in this state during the tax year.

(b)(i) Property owned by the taxpayer, other than loans and credit card receivables owned by the taxpayer, is valued at its original cost basis. Loans and credit card receivables owned by the taxpayer are valued at their outstanding principal balance, without regard to any reserve for bad debts. However, if a loan or credit card receivable is charged off in whole or in part for federal income tax purposes, the portion of the loan or credit card receivable charged off is deducted from the outstanding principal balance.

(ii) Property rented by the taxpayer is valued at eight times the annual rental rate. For purposes of this subsection, "net annual rental rate" means the annual rental rate paid by the taxpayer less any annual rental rate received by the taxpayer from subrentals.

(c) The average value of property must be determined by averaging the values at the beginning and ending of the tax year; but the department may require the averaging of monthly values during the tax year if reasonably required to properly reflect the average value of the taxpayer's property.

(d)(i) For purposes of this subsection (2), loans and credit card receivables are deemed owned and used in this state as follows:

(A) Loans secured by real property, personal property, or both real and personal property, are deemed owned and used in the state if the real property or personal property securing the loan is located within this state. If the property securing the loan is located both within this state and one or more other states, the loan is deemed owned and used in this state if more than fifty percent of the fair market value of the real or personal property is located within this state. If more than fifty percent of the fair market value of the real or personal property is not located within any one state, then the loan is deemed owned and used in this state if the borrower is located in this state. The determination of whether the real or personal property securing a loan is located within this state must be made, as
of the time the original agreement was made, and any and all subsequent substitutions of collateral must be disregarded.  

(B) Loans not secured by real or personal property are deemed owned and used in this state if the borrower is located in this state.  

(C) Credit card receivables are deemed owned and used in this state if the billing address of the cardholder is in this state. 

(ii)(A) Except as otherwise provided in (d)(ii)(B) of this subsection (2), the definitions in the multistate tax commission's recommended formula for the apportionment and allocation of net income of financial institutions as existing on the effective date of this section or such subsequent date as may be provided by the department by rule, consistent with the purposes of this section, apply to this section.  

(B) "Credit card" means a card or device existing for the purpose of obtaining money, property, labor, or services on credit. 

(e) Notwithstanding anything else to the contrary in this subsection, property counting toward the thresholds in subsection (1)(c)(ii) and (iv) of this section does not include a person's ownership of, or rights in, computer software as defined in RCW 82.04.215, including computer software used in providing a digital automated service; master copies of software; and digital goods and digital codes residing on servers located in this state. 

(3)(a) Payroll counting toward the thresholds in subsection (1)(c)(ii) and (iv) of this section is the total amount paid by the taxpayer for compensation in this state during the tax year plus nonemployee compensation paid to representative third parties in this state. Nonemployee compensation paid to representative third parties includes the gross amount paid to nonemployees who represent the taxpayer in interactions with the taxpayer's clients and includes sales commissions. 

(b) Employee compensation is paid in this state if the compensation is properly reportable to this state for unemployment compensation tax purposes, regardless of whether the compensation was actually reported to this state. 

(c) Nonemployee compensation is paid in this state if the service performed by the representative third party occurs entirely or primarily within this state. 

(d) For purposes of this subsection, "compensation" means wages, salaries, commissions, and any other form of remuneration paid to employees or nonemployees and defined as gross income under 26 U.S.C. Sec. 61 of the federal internal revenue code of 1986, as existing on the effective date of this section. 

(4) Receipts counting toward the thresholds in subsection (1)(c)(iii) and (iv) of this section are those amounts included in the numerator of the receipts factor under section 105 of this act and, for financial institutions, those amounts included in the numerator of the receipts factor under the rule adopted by the department as authorized in RCW 82.04.460(2). 

(5)(a) Each December, the department must review the cumulative percentage change in the consumer price index. The department must adjust the thresholds in subsection (1)(c)(i) through (iii) of this section if the consumer price index has changed by five percent or more since the later of the effective date of this section, or the date that the thresholds were last adjusted under this subsection. For purposes of determining the cumulative percentage change in the consumer price index, the department must compare the consumer price index available as of December 1st of the current year with the consumer price index as of the later of the effective date of this section, or the date that the thresholds were last adjusted under this subsection. The thresholds must be adjusted to reflect that cumulative percentage change. The adjusted thresholds must be rounded to the nearest one thousand dollars. Any adjustment will apply to tax periods that begin after the adjustment is made.  

(b) As used in this subsection, "consumer price index" means the consumer price index for all urban consumers (CPI-U) available from the bureau of labor statistics of the United States department of labor. 

(6) Subsections (1) through (5) of this section only apply with respect to the taxes imposed under this chapter on apportionable activities as defined in RCW 82.04.460. For purposes of the taxes imposed under this chapter on any activity not included in the definition of apportionable activities in RCW 82.04.460, a person is deemed to have a substantial nexus with this state if the person has a physical presence in this state, which need only be demonstrably more than a slightest presence. For purposes of this subsection, a person is physically present in this state if the person has property or employees in this state. A person is also physically present in this state if the person, either directly or through an agent or other representative, engages in activities in this state that are significantly associated with the person's ability to establish or maintain a market for its products in this state. 

NEW SECTION.  Sec. 105. A new section is added to chapter 82.04 RCW to read as follows:  

(1) The apportionable income of a person within the scope of RCW 82.04.460(1) is apportioned to Washington by multiplying its apportionable income by the receipts factor. Persons who are subject to tax under more than one of the tax classifications enumerated in RCW 82.04.460(4)(a) (i) through (ix) must calculate a separate receipts factor for each tax classification that the person is taxable under. 

(2) For purposes of subsection (1) of this section, the receipts factor is a fraction and is calculated as provided in subsections (3) and (4) of this section and, for financial institutions, as provided in the rule adopted by the department under the authority of RCW 82.04.460(2). 

(3)(a) The numerator of the receipts factor is the total gross income of the business of the taxpayer attributable to this state during the tax year from engaging in an apportionable activity. The denominator of the receipts factor is the total gross income of the business of the taxpayer from engaging in an apportionable activity everywhere in the world during the tax year. 

(b) Except as otherwise provided in this section, for purposes of computing the receipts factor, gross income of the business generated from each apportionable activity is attributable to the state: 

(i) Where the customer received the benefit of the taxpayer's service or, in the case of gross income from royalties, where the customer used the taxpayer's intangible property. 

(ii) If the customer received the benefit of the service or used the intangible property in more than one state, gross income of the business must be attributed to the state in which the benefit of the service was primarily received or in which the intangible property was primarily used. 

(iii) If the taxpayer is unable to attribute gross income of the business under the provisions of (b)(i) or (ii) of this subsection (3), gross income of the business must be attributed to the state from which the customer ordered the service or, in the case of royalties, the office of the customer from which the royalty agreement with the taxpayer was negotiated. 

(iv) If the taxpayer is unable to attribute gross income of the business under the provisions of (b)(i), (ii), or (iii) of this subsection (3), gross income of the business must be attributed to the state to which the billing statements or invoices are sent to the customer by the taxpayer. 

(v) If the taxpayer is unable to attribute gross income of the business under the provisions of (b)(i), (ii), (iii), or (iv) of this subsection (3), gross income of the business must be attributed to the state from which the customer sends payment to the taxpayer.
(vi) If the taxpayer is unable to attribute gross income of the business under the provisions of (b)(i), (ii), (iii), (iv), or (v) of this subsection (3), gross income of the business must be attributed to the state where the customer is located as indicated by the customer's address: (A) Shown in the taxpayer's business records maintained in the regular course of business; or (B) obtained during consummation of the sale or the negotiation of the contract for services or for the use of the taxpayer's intangible property, including any address of a customer's payment instrument when readily available to the taxpayer and no other address is available.

(vii) If the taxpayer is unable to attribute gross income of the business under the provisions of (b)(i), (ii), (iii), (iv), (v), or (vi) of this subsection (3), gross income of the business must be attributed to the commercial domicile of the taxpayer.

(viii) For purposes of this subsection (3)(b), "customer" means a person or entity to whom the taxpayer makes a sale or renders services or from whom the taxpayer otherwise receives gross income of the business. "Customer" includes anyone who pays royalties or charges in the nature of royalties for the use of the taxpayer's intangible property.

(c) Gross income of the business from engaging in an apportionable activity must be excluded from the denominator of the receipts factor if, in respect to such activity, at least some of the activity is performed in this state, and the gross income is attributable under (b) of this subsection (3) to a state in which the taxpayer is not taxable. For purposes of this subsection (3)(c), "not taxable" means that the taxpayer is not subject to a business activities tax by that state, except that a taxpayer is taxable in a state in which it would be deemed to have a substantial nexus with that state under the standards in section 104(1) of this act regardless of whether that state imposes such a tax. "Business activities tax" means a tax measured by the amount of, or economic results of, business activity conducted in a state. The term includes taxes measured in whole or in part on net income or gross income or receipts. "Business activities tax" does not include a sales tax, use tax, or a similar transaction tax, imposed on the sale or acquisition of goods or services, whether or not a gross receipts tax or a tax imposed on the privilege of doing business.

(d) This subsection (3) does not apply to financial institutions with respect to apportionable income taxable under RCW 82.04.290. Financial institutions must calculate the receipts factor as provided in subsection (4) of this section and the rule adopted by the department under the authority of RCW 82.04.460(2) with respect to apportionable income taxable under RCW 82.04.290. Financial institutions that are subject to tax under any other tax classification enumerated in RCW 82.04.460(4)(a)(i) through (v) and (vii) through (x) must calculate a separate receipts factor, as provided in this section, for each of the other tax classifications that the financial institution is taxable under.

(4) A taxpayer may calculate the receipts factor for the current tax year based on the most recent calendar year for which information is available for the full calendar year. If a taxpayer does not calculate the receipts factor for the current tax year based on previous calendar year information as authorized in this subsection, the business must use current year information to calculate the receipts factor for the current tax year. In either case, a taxpayer must correct the reporting for the current tax year when complete information is available to calculate the receipts factor for that year, but not later than October 31st of the following tax year. Interest will apply to any additional tax due on a corrected tax return. Interest must be assessed at the rate provided for delinquent excise taxes under chapter 82.32 RCW, retroactively to the date the original return was due, and will accrue until the additional taxes are paid. Penalties as provided in RCW 82.32.090 will apply to any such additional tax due only if the current tax year reporting is not corrected and the additional tax is not paid by October 31st of the following tax year. Interest as provided in RCW 82.32.060 will apply to any tax paid in excess of that properly due on a return as a result of a taxpayer using previous calendar year data or incomplete current-year data to calculate the receipts factor.

(5) Unless the context clearly requires otherwise, the definitions in this subsection apply throughout this section.

(a) "Apportionable activities" and "apportionable income" have the same meaning as in RCW 82.04.460.

(b) "State" means a state of the United States, the District of Columbia, the Commonwealth of Puerto Rico, any territory or possession of the United States, or any foreign country or political subdivision of a foreign country.

Sec. 106. RCW 82.04.2907 and 2009 c 353 s 407 are each amended to read as follows:

(1) Upon every person engaging within this state in the business of receiving income from royalties ((or charges in the nature of royalties for the granting of intangible rights, such as copyrights, licenses, patents, or franchise fees)), the amount of tax with respect to ((such)) the business ((shall be)) is equal to the gross income from royalties ((or charges in the nature of royalties from the business)) multiplied by the rate of 0.484 percent.

(2) For the purposes of this section, "gross income from royalties" means compensation for the use of intangible property, ((such as)) including charges in the nature of royalties, regardless of where the intangible property will be used. For purposes of this subsection, "intangible property" includes copyrights, patents, licenses, franchises, trademarks, trade names, and similar items.

((d)) "Gross income from royalties" does not include compensation for any natural resource, the licensing of prewritten computer software to the end user, or the licensing ((of))) of digital goods, digital codes, or digital automated services to the end user as defined in RCW 82.04.190(11).

Sec. 107. RCW 82.04.2907 and 2010 c . . . (SHB 2620) s 302 are each amended to read as follows:

(1) Upon every person engaging within this state in the business of receiving income from royalties ((or charges in the nature of royalties for the granting of intangible rights, such as copyrights, licenses, patents, or franchise fees)), the amount of tax with respect to the business is equal to the gross income from royalties ((or charges in the nature of royalties from the business)) multiplied by the rate of 0.484 percent.

(2) For the purposes of this section, "gross income from royalties" means compensation for the use of intangible property, ((such as)) including charges in the nature of royalties, regardless of where the intangible property will be used. For purposes of this subsection, "intangible property" includes copyrights, patents, licenses, franchises, trademarks, trade names, and similar items.

((f)) "Gross income from royalties" does not include compensation for any natural resource, the licensing of prewritten computer software to the end user, or the licensing ((of))) of digital goods, digital codes, or digital automated services to the end user as defined in RCW 82.04.190(11).

Sec. 108. RCW 82.04.460 and 2004 c 174 s 6 are each amended to read as follows:

(1) Except as otherwise provided in this section, any person ((rendering services)) earning apportionable income taxable under (RCW 82.04.290 or 82.04.2908)) this chapter and ((maintaining places of business both within and without this state which contribute to the rendition of such services shall)) also taxable in another state, must, for the purpose of computing tax liability under (RCW 82.04.290 or 82.04.2908)) this chapter, apportion to this state, in accordance with section 105 of this act, that portion of the person's ((gross)) apportionable income ((which is)) derived from ((services rendered)) business activities performed within this state.
NEW SECTION. Sec. 109. RCW 82.04.080 and 1961 c 15 s 82.04.080 are each amended to read as follows:

(1) "Gross income of the business" means the value proceeding or accruing by reason of the transaction of the business engaged in and includes gross proceeds of sales, compensation for the rendition of services, gains realized from trading in stocks, bonds, or other evidences of indebtedness, interest, discount, rents, royalties, fees, commissions, dividends, and other emoluments however designated, all without any deduction on account of the cost of tangible property sold, the cost of materials used, labor costs, interest, discount, delivery costs, taxes, or any other expense whatever paid or accrued and without any deduction on account of losses.

(2) Financial institutions must determine gains realized from trading in stocks, bonds, and other evidences of indebtedness on a net annualized basis. For purposes of this subsection, a financial institution means a person within the scope of the rule adopted by the department under the authority of RCW 82.04.460(2).

NEW SECTION. Sec. 110. A new section is added to chapter 82.04 RCW to read as follows:

(1) This chapter does not apply to amounts received by a financial institution from an affiliated person if the amounts are received from transactions that are required to be at arm's length under sections 23A or 23B of the federal reserve act as existing on the effective date of this section or such subsequent date as may be provided by the department by rule, consistent with the purposes of this section. For purposes of this subsection, "financial institution" has the same meaning as in RCW 82.04.080.

(2) As used in this section, "affiliated" means under common control. "Common control" means the possession, directly or indirectly, of more than fifty percent of the power to direct or cause the direction of the management and policies of a person, whether through the ownership of voting shares, by contract, or otherwise.

NEW SECTION. Sec. 111. A new section is added to chapter 82.04 RCW to read as follows:

(1) This chapter does not apply to amounts received by investment conduits or securitization entities from cash and securities.

(2) For purposes of this section, the following definitions apply:

(a) "Investment conduit" means an entity formed by a financial institution as defined in RCW 82.04.080 for the express purpose of holding or owning cash or securities if the entity formed:

(i) Has no employees;

(ii) Has no direct profit-making motive;

(iii) Owns no tangible assets, other than cash or securities;

(iv) Holds or owns cash or securities solely as a conduit, allocating its income to holders of its ownership interests; and

(v) Has, within twelve months of its organization or initial capitalization date, issued ownership interests to other than affiliated persons, equal to or greater than twenty-five percent of its total issued ownership interests.

(b) "Securities" has the same meaning as in section 2 of the securities act of 1933 and includes eligible assets as defined by Rule 15BII.100 for the express purpose of holding or owning cash or securities if the entity formed:

(i) Has no employees;

(ii) Has no direct profit-making motive;

(iii) Owns no tangible assets, other than cash or securities;

(iv) Holds or owns cash or securities solely as a conduit, allocating its income to holders of its ownership interests; and

(v) Has, within twelve months of its organization or initial capitalization date, issued ownership interests to other than affiliated persons, equal to or greater than twenty-five percent of its total issued ownership interests.
PART II

Tax Avoidance Transactions

NEW SECTION.  Sec. 201.  (1) The legislature finds that this state's tax policy with respect to the taxation of transactions between affiliated entities and the income derived from such transactions (intercompany transactions) has motivated some taxpayers to engage in transactions designed solely or primarily to minimize the tax effects of intercompany transactions. The legislature further finds that some intercompany transactions result from taxpayers that are required to establish affiliated entities to comply with regulatory mandates and that transactions between such affiliates effectively increases the tax burden in this state on the affiliated group of entities.

(2) Therefore, as existing resources allow, the department of revenue is directed to conduct a review of the state's tax policy with respect to the taxation of intercompany transactions. The review must include the impacts of such transactions under the state's business and occupation tax and state and local sales and use taxes. The department may include other taxes in the review as it deems appropriate.

(3) In conducting the review, the department must examine how this state's tax policy compares to the tax policy of other states with respect to the taxation of intercompany transactions. The department's review must include an analysis of potential alternatives to the current policy of taxing intercompany transactions, including their estimated revenue impacts if practicable.

(4) In conducting this review, the department may seek input from members of the business community and others as it deems appropriate.

(5) The department must report its findings to the fiscal committees of the house of representatives and senate by December 1, 2010. However, if the department has not completed its review by December 1, 2010, the department must provide the fiscal committees of the legislature with a brief status report by December 1, 2010, and the final report by December 1, 2011.

Sec. 202.  RCW 82.12.020 and 2009 c 535 s 305 are each amended to read as follows:

(1) There is ((hereby)) levied and ((there shall be)) collected from every person in this state a tax or excise for the privilege of using within this state as a consumer any:

(a) Article of tangible personal property ((purchased at retail, or)) acquired by ((lease, gift, repossession, or bailment, or extracted or produced and manufactured by the person so using the same, or otherwise furnished to a person engaged in any business taxable under RCW 82.04.280 (2) or (7)) the user in any manner, including tangible personal property acquired at a casual or isolated sale, and including by-products used by the manufacturer thereof, except as otherwise provided in this chapter, irrespective of whether the article or similar articles are manufactured or are available for purchase within this state;

(b) Prewritten computer software, regardless of the method of delivery, but excluding prewritten computer software that is either provided free of charge or is provided for temporary use in viewing information, or both;

(c) Services defined as a retail sale in RCW 82.04.050 (2)(a) or (g), (3)(a), or (6)(b), excluding services defined as a retail sale in RCW 82.04.050(6)(b) that are provided free of charge;

(d) Extended warranty; or

(e)(i) Digital good, digital code, or digital automated service, including the use of any services provided by a seller exclusively in connection with digital goods, digital codes, or digital automated services, whether or not a separate charge is made for such services.

(ii) With respect to the use of digital goods, digital automated services, and digital codes acquired by purchase, the tax imposed in this subsection (1)(e) applies in respect to:

(A) Sales in which the seller has granted the purchaser the right of permanent use;

(B) Sales in which the seller has granted the purchaser a right of use that is less than permanent;

(C) Sales in which the purchaser is not obligated to make continued payment as a condition of the sale; and

(D) Sales in which the purchaser is obligated to make continued payment as a condition of the sale.

(iii) With respect to digital goods, digital automated services, and digital codes acquired other than by purchase, the tax imposed in this subsection (1)(e) applies regardless of whether or not the consumer has a right of permanent use or is obligated to make continued payment as a condition of use.

(2) The provisions of this chapter do not apply in respect to the use of any article of tangible personal property, extended warranty, digital good, digital code, digital automated service, or service taxable under RCW 82.04.050 (2)(a) or (g), (3)(a), or (6)(b), if the sale to, or the use by, the present user or the present user's bailor or donor has already been subjected to the tax under chapter 82.08 RCW or this chapter and the tax has been paid by the present user or by the present user's bailor or donor.

(3)(a) Except as provided in this section, payment of the tax imposed by this chapter or chapter 82.08 RCW by one purchaser or user of tangible personal property, extended warranty, digital good, digital code, digital automated service, or other service does not have the effect of exempting any other purchaser or user of the same property, extended warranty, digital good, digital code, digital automated service, or other service from the taxes imposed by such chapters.

(b) The tax imposed by this chapter does not apply:

(i) If the sale to, or the use by, the present user or his or her bailor or donor has already been subjected to the tax under chapter
82.08 RCW or this chapter and the tax has been paid by the present user or by his or her bailor or donor;

(ii) In respect to the use of any article of tangible personal property acquired by bailment and the tax has once been paid based on reasonable rental as determined by RCW 82.12.060 measured by the value of the article at time of first use multiplied by the tax rate imposed by chapter 82.08 RCW or this chapter as of the time of first use;

(iii) In respect to the use of any article of tangible personal property acquired by bailment, if the property was acquired by a previous bailee from the same bailor for use in the same general activity and the original bailment was prior to June 9, 1961; or

(iv) To the use of digital goods or digital automated services, which were obtained through the use of a digital code, if the sale of the digital code to, or the use of the digital code by, the present user or the present user's bailor or donor has already been subjected to the tax under chapter 82.08 RCW or this chapter and the tax has been paid by the present user or by the present user's bailor or donor.

(4)(a) Except as provided in (b) of this subsection (4), the tax is levied and must be collected in an amount equal to the value of the article used, value of the digital good or digital code used, value of the extended warranty used, or value of the service used by the taxpayer, multiplied by the applicable rates in effect for the retail sales tax under RCW 82.08.020.

(b) In the case of a seller required to collect use tax from the purchaser, the tax must be collected in an amount equal to the purchase price multiplied by the applicable rate in effect for the retail sales tax under RCW 82.08.020.

(5) For purposes of the tax imposed in this section, "person" includes anyone within the definition of "buyer," "purchaser," and "consumer" in RCW 82.08.010.

Sec. 203. RCW 82.45.010 and 2008 c 116 s 3 and 2008 c 6 s 701 are each reenacted and amended to read as follows:

(1) As used in this chapter, the term "sale" ((shall have)) has its ordinary meaning and ((shall)) includes any conveyance, grant, assignment, quitclaim, or transfer of the ownership of or title to real property, including standing timber, or any estate or interest therein for a valuable consideration, and any contract for such conveyance, grant, assignment, quitclaim, or transfer, and any lease with an option to purchase real property, including standing timber, or any estate or interest therein or other contract under which possession of the property is given to the purchaser, or any other person at the purchaser's direction, and title to the property is retained by the vendor as security for the payment of the purchase price. The term also includes the grant, assignment, quitclaim, sale, or transfer of improvements constructed upon leased land.

(2)(a) The term "sale" also includes the transfer or acquisition within any twelve-month period of a controlling interest in any entity with an interest in real property located in this state for a valuable consideration.

(b) For the sole purpose of determining whether, pursuant to the exercise of an option, a controlling interest was transferred or acquired within a twelve-month period, the date that the option agreement was executed is the date on which the transfer or acquisition of the controlling interest is deemed to occur. For all other purposes under this chapter, the date upon which the option is exercised is the date of the transfer or acquisition of the controlling interest.

(c) For purposes of this subsection, all acquisitions of persons acting in concert ((shall)) must be aggregated for purposes of determining whether a transfer or acquisition of a controlling interest has taken place. The department ((of revenue shall)) must adopt standards by rule to determine when persons are acting in concert. In adopting a rule for this purpose, the department ((shall)) must consider the following:
Sec. 205. RCW 82.45.070 and 1969 ex.s.c 223 s 28A.45.070 are each amended to read as follows:

The tax (herein) provided for in this chapter and any interest or penalties thereon (shall be) is a specific lien upon each parcel of real property located in this state that is either sold or that is owned by an entity in which a controlling interest has been transferred or acquired. The lien attaches from the time of sale until the tax (shall have been) is paid, which lien may be enforced in the manner prescribed for the foreclosure of mortgages.

Sec. 206. RCW 82.45.080 and 1980 c 154 s 3 are each amended to read as follows:

(1) The tax levied under this chapter (shall be) is the obligation of the seller and the department (of revenue) may, at the department's option, enforce the obligation through an action of debt against the seller or the department may proceed in the manner prescribed for the foreclosure of mortgages (and resort to). The department's use of one course of enforcement (shall) is not (be) an election not to pursue the other.

(2) For purposes of this section and notwithstanding any other provisions of law, the seller is the parent corporation of a wholly owned subsidiary, when such subsidiary is the transferee to a third-party transferee and the subsidiary is dissolved before paying the tax imposed under this chapter.

Sec. 207. RCW 82.45.100 and 2007 c 111 s 112 are each amended to read as follows:

(1) Payment of the tax imposed under this chapter is due and payable immediately at the time of sale, and if not paid within one month thereafter (shall) will bear interest from the time of sale until the date of payment.

(a) Interest imposed before January 1, 1999, (shall be) is computed at the rate of one percent per month.

(b) Interest imposed after December 31, 1998, (shall be) is computed on a monthly basis at the rate as computed under RCW 82.32.050(2). The rate so computed (shall) must be adjusted on the first day of January of each year for use in computing interest for that calendar year. The department (of revenue shall) must provide written notification to the county treasurers of the variable rate on or before December 1st of the year preceding the calendar year in which the rate applies.

(2) In addition to the interest described in subsection (1) of this section, if the payment of any tax is not received by the county treasurer or the department of revenue, as the case may be, within one month of the date due, there (shall be) is assessed a penalty of five percent of the amount of the tax; if the tax is not received within two months of the date due, there (shall) will be assessed a total penalty of ten percent of the amount of the tax; and if the tax is not received within three months of the date due, there (shall) will be assessed a total penalty of twenty percent of the amount of the tax. The payment of the penalty described in this subsection (shall be) is collectible from the seller only, and RCW 82.45.070 does not apply to the penalties described in this subsection.

(3) If the tax imposed under this chapter is not received by the due date, the transferee (shall be) is personally liable for the tax, along with any interest as provided in subsection (1) of this section, unless:

(a) An instrument evidencing the sale is recorded in the official real property records of the county in which the property conveyed is located;

(b) Either the transferee or transferee notifies the department of revenue in writing of the occurrence of the sale within thirty days following the date of the sale).

(4) If upon examination of any affidavits or from other information obtained by the department or its agents it appears that all or a portion of the tax is unpaid, the department (shall) must assess against the taxpayer the additional amount found to be due.
plus interest and penalties as provided in subsections (1) and (2) of this section. The department (shall) must notify the taxpayer by mail, or electronically as provided in RCW 82.32.135, of the additional amount and the same (shall) becomes due and (shall) must be paid within thirty days from the date of the notice, or within such further time as the department may provide.

(5) No assessment or refund may be made by the department more than four years after the date of sale except upon a showing of:
(a) Fraud or misrepresentation of a material fact by the taxpayer;
(b) A failure by the taxpayer to record documentation of a sale or otherwise report the sale to the county treasurer; or
(c) A failure of the transferor or transferee to report the sale under RCW 82.45.090(2).

(6) Penalties collected on taxes due under this chapter under subsection (2) of this section and RCW 82.32.090 (2) through (7) (shall) must be deposited in the housing trust fund as described in chapter 43.185 RCW.

Sec. 208. RCW 82.45.220 and 2005 c 326 s 3 are each amended to read as follows:
(1) An organization that fails to report a transfer of a controlling interest in the organization under RCW 43.07.390 to the secretary of state and is later determined to be subject to real estate excise taxes due to the transfer, (shall) is subject to the provisions of RCW 82.45.100 as well as the evasion penalty in RCW 82.32.090(6).
(2) Subsection (1) of this section also applies to the failure to report to the secretary of state the granting of an option to acquire an interest in the organization if the exercise of the option would result in a sale as defined in RCW 82.45.010(2).

Sec. 209. RCW 43.07.390 and 2005 c 326 s 2 are each amended to read as follows:
(1)(a) The secretary of state (shall) must adopt rules requiring any entity that is required to file an annual report with the secretary of state, including entities under Titles 23, 23B, 24, and 25 RCW, to disclose: (i) Any transfer (shall) of the controlling interest (shall) in the entity ((and any interest in real property)); and (ii) the granting of any option to acquire an interest in the entity if the exercise of the option would result in a sale as defined in RCW 82.45.010(2).
(b) The disclosure requirement in this subsection only applies to entities owning an interest in real property located in this state.
(2) This information (shall) must be made available to the department of revenue upon request for the purposes of tracking the transfer of the controlling interest in entities owning real property and to determine when the real estate excise tax is applicable in such cases.

(3) For the purposes of this section, "controlling interest" has the same meaning as provided in RCW 82.45.033.

PART III
Modifying and Placing a Cap on the First Mortgage Deduction

NEW SECTION. Sec. 301. In 1980, the legislature adopted a business and occupation tax deduction to financial businesses for amounts derived from interest received on investments or loans primarily secured by first mortgages or trust deeds on nontransient residential properties which was codified in RCW 82.04.4292. However, the Washington state supreme court in Homestreet, Inc. v. Dept of Revenue, 166 Wn.2d 444 (2009) held that a mortgage lender was entitled to a business and occupation tax deduction under RCW 82.04.4292 for the portion of interest it retained for servicing loans and mortgage-backed securities that it sold on a service-retained basis on the secondary market. The legislature finds that inclusion of interest retained for servicing loans and mortgage-backed securities was not within the legislative intent when the deduction provided in 82.04.4292 was adopted in 1980.

Therefore, by this act, the legislature declares that the deduction provided by RCW 82.04.4292 does not apply to fees that are received in exchange for services, regardless of whether the source of the fees is or may have been interest when paid by a borrower.

Sec. 302. RCW 82.04.4292 and 1980 c 37 s 12 are each amended to read as follows:
(1) In computing tax there may be deducted from the measure of tax by those engaged in banking, loan, security or other financial businesses, amounts derived from interest received on investments or loans primarily secured by first mortgages or trust deeds on nontransient residential properties.
(2) Interest deductible under this section includes the portion of fees charged to borrowers, including points and loan origination fees, that is recognized over the life of the loan as an adjustment to yield in the taxpayer's books and records according to generally accepted accounting principles.

(3) Subsections (1) and (2) of this section notwithstanding, the following is a nonexclusive list of items that are not deductible under this section:
(a) Fees for specific services such as: Document preparation fees; finder fees; brokerage fees; title examination fees; fees for credit checks; notary fees; loan application fees; interest lock-in fees if the loan is not made; servicing fees, including servicing fees received by lenders when they sell loans or mortgage-backed or mortgage-related securities in the secondary market while retaining the right to service the loans or securities and receive a portion of the interest payments as the servicing fee; and similar fees or amounts;
(b) Fees received in consideration for an agreement to make funds available for a specific period of time at specified terms, commonly referred to as commitment fees;
(c) Any other fees, or portion of a fee, that is not recognized over the life of the loan as an adjustment to yield in the taxpayer's books and records according to generally accepted accounting principles;
(d) Gains on the sale of valuable rights such as:
(i) Service release premiums, which are amounts received when servicing rights are sold; and
(ii) Gains on the sale of loans.
(4) The total amount a person may deduct under this section for any calendar year may not exceed one hundred twenty million dollars.

PART IV
Repealing the Nonresident Sales Tax Exemption

NEW SECTION. Sec. 401. RCW 82.08.0273 (Exemptions—Sales to nonresidents of tangible personal property, digital goods, and digital codes for use outside the state—Proof of nonresident status—Penalties) and 2009 c 535 s 512, 2007 c 135 s 2, 2003 c 53 s 399, 1993 c 444 s 1, 1988 c 96 s 1, 1982 1st ex.s. c 5 s 1, & 1980 c 37 s 39 are each repealed.

NEW SECTION. Sec. 402. RCW 82.08.0273 (Exemptions—Sales to nonresidents of tangible personal property, digital goods, and digital codes for use outside the state—Proof of nonresident status—Penalties) and 2010 c . . . (E2SHB 1597) s 215, 2009 c 535 s 512, 2007 c 135 s 2, 2003 c 53 s 399, 1993 c 444 s 1, 1988 c 96 s 1, 1982 1st ex.s. c 5 s 1, & 1980 c 37 s 39 are each repealed.

PART V
Direct Seller Business and Occupation Tax Exemption

NEW SECTION. Sec. 501. (1) A business and occupation tax exemption is provided in RCW 82.04.423 for certain out-of-state sellers that sell consumer products exclusively to or through a direct
Business and Occupation Tax Preferences for Manufacturers of Products Derived from Certain Agricultural Products

NEW SECTION. Sec. 601. (1)(a) In 1967, the legislature amended RCW 82.04.04.260 in chapter 149, Laws of 1967 ex. sess. to authorize a preferential business and occupation tax rate for slaughtering, breaking, and/or processing perishable meat products and/or selling the same at wholesale. The legislature finds that RCW 82.04.04.260(4) was interpreted by the state supreme court on January 13, 2005, in Agrilink Foods, Inc. v. Department of Revenue, 153 Wash. 2d 392 (2005). The supreme court held that the preferential business and occupation tax rate on the slaughtering, breaking, and/or processing of perishable meat products applied to the processing of perishable meat products into nonperishable finished products, such as canned food.

(b) The legislature intends to narrow the exemption provided for slaughtering, breaking, and/or processing perishable meat products and/or selling such products at wholesale by requiring that the end product be a perishable meat product; a nonperishable meat product that is comprised primarily of animal carcass by weight or volume, other than a canned meat product; or a meat by-product.

(2)(a) A business and occupation tax exemption is provided for (i) manufacturing by canning, preserving, freezing, processing, or dehydrating fresh fruits or vegetables, and (ii) selling such products at wholesale by the manufacturer to purchasers who transport the goods out of state in the ordinary course of business. This exemption expires July 1, 2012, and is replaced by a preferential business and occupation tax rate.

(b) The legislature finds that the rationale of the Agrilink decision, if applied to these tax preferences, could result in preferential tax treatment for any processed food product that contained any fresh fruit or vegetable as an ingredient, however small the amount.

(c) The legislature intends to narrow the tax preference provided to fruit and vegetable manufacturers by requiring that the end product be comprised either (i) exclusively of fruits and/or vegetables, or (ii) of any combination of fruits, vegetables, and certain other substances that, cumulatively, may not exceed the amount of fruits and vegetables contained in the product measured by weight or volume.

NEW SECTION. Sec. 602. A new section is added to chapter 82.04 RCW to read as follows:

(1) Upon every person engaging within this state in the business of manufacturing:

(a) Perishable meat products, by slaughtering, breaking, or processing, if the finished product is a perishable meat product; as to such persons the tax imposed is equal to the value of the perishable meat products manufactured, or, in the case of a processor for hire, the gross income of the business, multiplied by the rate of 0.138 percent;

(b) Meat products, by dehydration, curing, smoking, or any combination of these activities, if the finished meat products are not canned; as to such persons the tax imposed is equal to the value of the meat products manufactured, or, in the case of a processor for hire, the gross income of the business, multiplied by the rate of 0.138 percent;

(c) Hides, tallow, meat meal, and other similar meat by-products, if such products are derived in part from animals and manufactured in a rendering plant licensed under chapter 16.68 RCW; as to such persons the tax imposed is equal to the value of the products manufactured, or, in the case of a processor for hire, the gross income of the business, multiplied by the rate of 0.138 percent.

(2) Upon every person engaging within this state in the business of selling at wholesale:

NEW SECTION. Sec. 603. A new section is added to chapter 82.04 RCW to read as follows:

(b) Meat products, by dehydration, curing, smoking, or any combination of these activities, if the finished meat products are not canned; as to such persons the tax imposed is equal to the value of the meat products manufactured, or, in the case of a processor for hire, the gross income of the business, multiplied by the rate of 0.138 percent.

(c) Hides, tallow, meat meal, and other similar meat by-products, if such products are derived in part from animals and manufactured in a rendering plant licensed under chapter 16.68 RCW; as to such persons the tax imposed is equal to the value of the products manufactured, or, in the case of a processor for hire, the gross income of the business, multiplied by the rate of 0.138 percent.

(2) Upon every person engaging within this state in the business of selling at wholesale:
ELEVENTH DAY, MARCH 25, 2010

(b) Meat products that have been manufactured by the seller by dehydration, curing, smoking, or any combination of such activities, if the finished meat products are not canned: as to such persons the tax imposed is equal to the gross proceeds derived from such sales multiplied by the rate of 0.138 percent;

(c) Hides, tallow, meat meal, and other similar meat by-products, if such products are derived in part from animals and manufactured by the seller in a rendering plant; as to such persons the tax imposed is equal to the gross proceeds derived from such sales multiplied by the rate of 0.138 percent.

(b) "Carcass" means all or any parts, including viscera, of a slaughtered animal.

(ii) Except as provided in (e)(i) of this subsection (3), "meat products" does not include products containing any cereal grains or cereal-grain products, dairy products, legumes and legume products, fruit or vegetable products as defined in RCW 82.04.260, and similar ingredients, unless the ingredient is used as a flavoring. For purposes of this subsection, "flavoring" means a substance that contains the flavoring constituents derived from a spice, fruit or fruit juice, vegetable or vegetable juice, edible yeast, herb, bark, bud, root, leaf, or any other edible substance of plant origin, whose primary function in food is flavoring or seasoning rather than nutritional, and which may legally appear as "natural flavor," "flavor," or "flavorings" in the ingredient statement on the label of the meat product.

(iii) "Meat products" includes only products that are intended for human consumption as food or animal consumption as feed.

(f) "Perishable" means having a high risk of spoilage within thirty days of manufacture without any refrigeration or freezing.

(g) "Rendering plant" means any place of business or location where dead animals or any part or portion thereof, or packing house refuse, are processed for the purpose of obtaining the hide, skin, grease residue, or any other by-product whatsoever.

(2) The credit is equal to:

(a) (i) (A) Property taxes paid on buildings, and land upon which the buildings are located, constructed after December 1, 2003, and used exclusively in manufacturing commercial airplanes or components of such airplanes; and

(B) Leasehold excise taxes paid with respect to buildings constructed after January 1, 2006, the land upon which the buildings are located, or both, if the buildings are used exclusively in manufacturing commercial airplanes or components of such airplanes; and

(C) Property taxes or leasehold excise taxes paid on, or with respect to, buildings constructed after June 30, 2008, the land upon which the buildings are located, or both, and used exclusively for aerospace product development or in providing aerospace services, by persons not within the scope of (a)(i)(A) and (B) of this subsection (2) and are: (I) Engaged in manufacturing tooling specifically designed for use in manufacturing commercial airplanes or their components; or (II) taxable under RCW 82.04.290(3) or 82.04.250(3); or

(2)(a) To be eligible, the equipment and facilities must be used exclusively for activities necessary to maintain a livestock nutrient management plan.

(b) The exemption applies to the use of tangible personal property and labor and services made after the livestock nutrient management plan is: (i) Certified under chapter 90.64 RCW; (ii) approved as part of the permit issued under chapter 90.48 RCW; or (iii) approved as required under RCW 82.08.890(4)(c)(iii).

PART VIII
Ending the Preferential Business and Occupation Tax Treatment Received by Directors of Corporations

NEW SECTION. Sec. 801. (1) In adopting the state's business and occupation tax, the legislature intended to tax virtually all business activities carried on within the state. See Simpson Inv. Co. v. Dept' of Revenue, 141 Wn.2d 139, 149 (2000). The legislature recognizes that the business and occupation tax applies to all activities engaged in with the object of gain, benefit, or advantage to the taxpayer or to another person or class, directly or indirectly, unless a specific exemption applies.

(2) One of the major business and occupation tax exemptions is provided in RCW 82.04.360 for income earned as an employee or servant as distinguished from income earned as an independent contractor. The legislature's intent in providing this exemption was to exempt employee wages from the business and occupation tax but not to exempt income earned as an independent contractor.

(3) The legislature finds that corporate directors are not employees or servants of the corporation whose board they serve on and therefore are not entitled to a business and occupation tax exemption under RCW 82.04.360. The legislature further finds that there are no business and occupation tax exemptions for compensation received for serving as a member of a corporation's board of directors.

(4) The legislature also finds that there is a widespread misunderstanding among corporate directors that the business and occupation tax does not apply to the compensation they receive for serving as a director of a corporation. It is the legislature's expectation that the department of revenue will take appropriate measures to ensure that corporate directors understand and comply with their business and occupation tax obligations with respect to their director compensation. However, because of the widespread misunderstanding by corporate directors of their liability for business and occupation tax on director compensation, the legislature finds that it is appropriate in this unique situation to provide limited relief against the retroactive assessment of business and occupation taxes on corporate director compensation.

(5) The legislature also reaffirms its intent that all income of all independent contractors is subject to business and occupation tax unless specifically exempted under the Constitution or laws of this state or the United States.

Sec. 802. RCW 82.04.360 and 1991 c 324 s 19 and 1991 c 275 s 2 are each reenacted and amended to read as follows:

(1) This chapter ((shall)) does not apply to any person in respect to his or her employment in the capacity of an employee or servant as distinguished from that of an independent contractor. For the purposes of this section, the definition of employee ((shall)) includes those persons that are defined in section 3121(d)(3)(B) of the federal internal revenue code of 1986, as amended through January 1, 1991.

(2) ((A booth renter, as defined by RCW 18.16.020, is an independent contractor for purposes of this chapter.)) Until April 1, 2010, this chapter does not apply to amounts received by an individual from a corporation as compensation for serving as a member of that corporation's board of directors. Beginning April 1, 2010, such amounts are taxable under RCW 82.04.290(2).

Sec. 803. RCW 82.04.360 and 2010 c 20 . . . (E25HB 1597) s 207 are each amended to read as follows:

(1) This chapter does not apply to any person in respect to his or her employment in the capacity of an employee or servant as distinguished from that of an independent contractor. For the purposes of this section, the definition of employee ((shall)) includes those persons that are defined in section 3121(d)(3)(B) of the federal internal revenue code of 1986, as amended through January 1, 1991.

(2) Until April 1, 2010, this chapter does not apply to amounts received by an individual from a corporation as compensation for serving as a member of that corporation's board of directors. Beginning April 1, 2010, such amounts are taxable under RCW 82.04.290(2).

However, the minimum amount payable is three dollars.

(1) The secretary must regularly pay to the state treasurer the excise taxes collected under this chapter, which shall be credited by the state treasurer as follows: Ninety percent to the general fund and ten percent to the aeronautics account in the transportation fund for administrative expenses for deposit into the general fund.

PART X
Tax Debts

Sec. 1001. RCW 82.32.145 and 1995 c 318 s 2 are each amended to read as follows:

(1) Upon termination, dissolution, or abandonment of a corporate or limited liability company business, any officer, member, manager, or other person having control or supervision of retail sales tax funds collected and held in trust under RCW 82.08.050, or who is charged with the responsibility for the filing of returns or the payment of retail sales tax funds collected and held in trust under RCW 82.08.050, shall be personally liable for any unpaid taxes and interest and penalties on those taxes, if such officer or other person wilfully fails to pay or to cause to be paid any taxes due from the corporation pursuant to chapter 82.08 RCW. For the purposes of this section, any retail sales taxes that have been paid but not collected shall be deductible from the retail sales taxes collected but not paid.

For purposes of this subsection "wilfully fails to pay or to cause to be paid" means that the failure was the result of an intentional, conscious, and voluntary course of action.

(2) The officer, member or manager, or other person shall be liable only for taxes collected which whenever the department has issued a warrant under RCW 82.32.210 for the collection of unpaid retail sales tax funds collected and held in trust under RCW 82.08.050 from a limited liability business entity and that business entity has been terminated, dissolved, or abandoned, or is insolvent,
the department may pursue collection of the entity's unpaid sales taxes, including penalties and interest on those taxes, against any or all of the responsible individuals. For purposes of this subsection, "insolvent" means the condition that results when the sum of the entity's debts exceeds the fair market value of its assets. The department may presume that an entity is insolvent if the entity refuses to disclose to the department the nature of its assets and liabilities.

(2) Personal liability under this section may be imposed for state and local sales taxes.

(3)(a) For a responsible individual who is the current or a former chief executive or chief financial officer, liability under this section applies regardless of fault or whether the individual was or should have been aware of the unpaid sales tax liability of the limited liability business entity.

(b) For any other responsible individual, liability under this section applies only if he or she willfully fails to pay or to cause to be paid to the department the sales taxes due from the limited liability business entity.

(4)(a) Except as provided in this subsection (4)(a), a responsible individual who is the current or a former chief executive or chief financial officer is liable under this section only for sales tax liability accrued during the period that he or she was the chief executive or chief financial officer. However, if the responsible individual had the responsibility or duty to remit payment of the limited liability business entity's sales taxes to the department during any period of time that the person was not the chief executive or chief financial officer, that individual is also liable for sales tax liability that became due during the period that he or she had the duty to remit payment of the limited liability business entity's taxes to the department but was not the chief executive or chief financial officer.

(b) All other responsible individuals are liable under this section only for sales tax liability that became due during the period he or she had the ((control, supervision,)) responsibility((,)) or duty to ((act for the corporation described in subsection (1) of this section, plus interest and penalties on those taxes.

(5) Persons (liable under) described in subsection (((1))) (3)(b) of this section are exempt from liability under this section in situations where nonpayment of the (retail sales tax funds held in trust) limited liability business entity's sales taxes is due to reasons beyond their control as determined by the department by rule.

(6)) (6) Any person having been issued a notice of assessment under this section is entitled to the appeal procedures under RCW 82.32.160, 82.32.170, 82.32.180, 82.32.190, and 82.32.200.

(7) This section applies only in situations where the department has determined that there is no reasonable means of collecting the retail sales tax funds held in trust directly from the corporation.

(7) This section does not relieve the ((corporation or)) limited liability ((company)) business entity of ((other tax liabilities)) its sales tax liability or otherwise impair other tax collection remedies afforded by law.

(8) Collection authority and procedures prescribed in this chapter apply to collections under this section.

(9) The definitions in this subsection apply throughout this section unless the context clearly requires otherwise.

(a) "Chief executive" means: The president of a corporation; or for other entities or organizations other than corporations or if the corporation does not have a president as one of its officers, the highest ranking executive manager or administrator in charge of the management of the company or organization.

Limited liability business entities include corporations, limited liability companies, limited liability partnerships, trusts, general partnerships and joint ventures in which one or more of the partners or parties are also limited liability business entities, and limited partnerships in which one or more of the general partners are also limited liability business entities.

(d) "Manager" has the same meaning as in RCW 25.15.005.

(iii) Whenever any taxpayer has one or more limited liability business entities as a member, manager, or partner, "responsible individual" also includes any current and former officers, members, or managers of the limited liability business entity or entities or of any other limited liability business entity involved directly in the management of the taxpayer. For purposes of this subsection (9)(g)(iii), "taxpayer" means a limited liability business entity with an unpaid tax warrant issued against it by the department.

(iii) In respect to the use of any article of tangible personal property acquired by bailment, if the property was acquired by a previous bailee from the same bailor for use in the same general activity and the original bailment was prior to June 9, 1961; or

(iv) To the use of digital goods or digital automated services, which were obtained through the use of a digital code, if the sale of the digital code to, or the use of the digital code by, the present user or the present user's bailor or donor has already been subjected to the tax under chapter 82.08 RCW or this chapter and the tax has been paid by the present user or by the present user's bailor or donor.

(4)(a) Except as provided in (b) of this subsection (4), the tax is levied and must be collected in an amount equal to the value of the article used, value of the digital good or digital code used, value of the extended warranty used, or value of the service used by the taxpayer, multiplied by the applicable rates in effect for the retail sales tax under RCW 82.08.020.

(b) In the case of a seller required to collect use tax from the purchaser, the tax must be collected in an amount equal to the purchase price multiplied by the applicable rate in effect for the retail sales tax under RCW 82.08.020.

PART XIV
Temporarily Increasing the Business and Occupation Tax on Service Businesses while Increasing the Small Business Credit for the Same Businesses

NEW SECTION. Sec. 1401. A new section is added to chapter 82.04 RCW to read as follows:

(1) Beginning May 1, 2010, through June 30, 2013, an additional rate of tax of .25 percent is added to the rate provided for in RCW 82.04.285 and 82.04.290(2)(a).

(2)(a) The additional rate in subsection (1) of this section does not apply to persons engaged in the business of scientific research and development services including but not limited to research and development in the physical, engineering, and life sciences (such as agriculture, bacteriological, biotechnology, chemical, life sciences, and physical science research and development laboratories or services) and research and development in the social sciences and humanities (such as archaeological, behavioral, cognitive, economic, language, and learning research or development services).

(b) The additional rate in subsection (1) of this section does not apply to persons engaging within this state in business as a hospital, as defined in RCW 70.41.020.

Sec. 1402. RCW 82.04.4451 and 1997 c 238 s 2 are each amended to read as follows:

(1) In computing the tax imposed under this chapter, a credit is allowed against the amount of tax otherwise due under this chapter, as provided in this section. The maximum credit for a taxpayer, except for taxpayers subject to tax under RCW 82.04.290(2)(a) and 82.04.285, for a reporting period is thirty-five dollars multiplied by
the number of months in the reporting period, as determined under RCW 82.32.045. The maximum credit for a taxpayer, which reports at least fifty percent of its taxable income under RCW 82.04.290(2)(a) and 82.04.285, for a reporting period is seventy dollars multiplied by the number of months in the reporting period, as determined under RCW 82.32.045.

(2) When the amount of tax otherwise due under this chapter is equal to or less than the maximum credit, a credit is allowed equal to the amount of tax otherwise due under this chapter.

(3) When the amount of tax otherwise due under this chapter exceeds the maximum credit, a reduced credit is allowed equal to twice the maximum credit, minus the tax otherwise due under this chapter, but not less than zero.

(4) The department may prepare a tax credit table consisting of tax ranges using increments of no more than five dollars and a corresponding tax credit to be applied to those tax ranges. The table shall be prepared in such a manner that no taxpayer will owe a greater amount of tax by using the table than would be owed by performing the calculation under subsections (1) through (3) of this section. A table prepared by the department under this subsection (shall) must be used by all taxpayers in taking the credit provided in this section.

Sec. 1403. RCW 82.32.045 and 2006 c 256 s 1 are each amended to read as follows:

(1) Except as otherwise provided in this chapter, payments of the taxes imposed under chapters 82.04, 82.08, 82.12, 82.14, and 82.16 RCW, along with reports and returns on forms prescribed by the department, are due monthly within twenty-five days after the end of the month in which the taxable activities occur.

(2) The department of revenue may relieve any taxpayer or class of taxpayers from the obligation of remitting monthly and may require the return to cover other longer reporting periods, but in no event may returns be filed for a period greater than one year. For these taxpayers, tax payments are due on or before the last day of the month next succeeding the end of the period covered by the return.

(3) The department of revenue may also require verified annual returns from any taxpayer, setting forth such additional information as it may deem necessary to correctly determine tax liability.

(4) Notwithstanding subsections (1) and (2) of this section, the department may relieve any person of the requirement to file returns if the following conditions are met:

(a) The person's value of products, gross proceeds of sales, or gross income of the business, from all business activities taxable under chapter 82.04 RCW, is less than eighty thousand dollars per year, except for businesses paying at least fifty percent of their tax due under RCW 82.04.290(2)(a) and 82.04.285, the amount of business activities taxable under chapter 82.04 RCW is less than fifty-six thousand dollars per year;

A tax under this chapter (shall) may not be imposed in increments smaller than tenths of a percent.

(2) Notwithstanding subsection (1) of this section:
(a) If a municipality was authorized to impose taxes under this chapter or RCW 67.40.100 or both with a total rate exceeding four percent before July 27, 1997, such total authorization ((shall)) must continue through January 31, 1999, and thereafter the municipality may impose a tax under this section at a rate not exceeding the rate actually imposed by the municipality on January 31, 1999.

(b) If a city or town, other than a municipality imposing a tax under (a) of this subsection, is located in a county that imposed taxes under this chapter with a total rate of four percent or more on January 1, 1997, the city or town may not impose a tax under this section.

(c) If a city has a population of four hundred thousand or more and is located in a county with a population of one million or more, the rate of tax imposed under this chapter by the city ((shall)) may not exceed the lesser of four percent or a rate that, when combined with all other taxes imposed upon sales of lodging in the municipality under this chapter and chapters 36.100, 67.40, 82.08, and 82.14 RCW, equals ((fifteen)) seventeen and two-tenths percent.

MESSAGE FROM THE HOUSE

March 22, 2010

MR. PRESIDENT:
The House passed SECOND SUBSTITUTE SENATE BILL NO. 6675 with the following amendment(s): 6675-S2 AMH FIN H5776.1
ELEVENTH DAY, MARCH 25, 2010

NEW SECTION. Sec. 1. The legislature finds that the global health sector develops new technologies and products for the improvement of health delivery locally and worldwide and that Washington is home to the world's richest collection of global health research and education programs creating new and innovative technologies on a daily basis. It is the intent of the legislature to stimulate the state's economy and foster job creation in the emerging field of global health while improving the health of people in Washington state and the world. The purpose of this act is to create a funding mechanism and a grant program to ensure that Washington remains competitive in global health innovation and to guarantee that the development, manufacture, and delivery of global health products will become an even more dynamic part of the state's economy.

NEW SECTION. Sec. 2. (1) The Washington global health technologies and product development competitiveness program is created.

(2)(a) The program must be administered by a nonprofit organization exempt from income taxation under 26 U.S.C. Sec. 501(c)(6) of the federal internal revenue code whose board of directors is appointed by the governor. The governor must make the appointments after consultation with a statewide alliance of global health research, nonprofit, and private entities. The board consists of the following members:

(i) Three members representing private companies engaged in the provision of global health products or services;

(ii) Three members representing nonprofit organizations supporting global health research or providing global health products or services;

(iii) Three members representing public research institutions engaged in global health research and education; and

(iv) One member who is a former elected official.

(b) The governor must appoint the chair of the board from among the members. The governor must appoint the members to staggered terms and each appointment may not last more than three years, but an appointee may serve more than one term.

(3) The board must contract with the department of commerce for management services to assist the board in implementing the program.

(4) The board must solicit and receive gifts, grants, bequests, royalty payments, licensing income, and other funds from businesses, foundations, and the federal government to promote the development and delivery of global health technologies and products. All federal funds received must be deposited in the Washington global health technologies and product development account created in section 3 of this act. All remaining nonstate funds received must be deposited in an account that the board creates and administers to carry out the purposes of this section. Expenditures from the account created by the board may be used only for funding activities of the program created in this section. Of the total amounts deposited into these accounts, no more than three percent of the total funds may be used for the department of commerce's management services and administrative expenses related to the program created in this section.

(5) The board must establish eligibility criteria for global health technologies and product development grants and adopt policies and procedures to facilitate the orderly process of grant application, review, and reward.

(6) In making grants to entities pursuant to contract for the development, production, promotion, and delivery of global health technologies and products, the board must consider the following:

(a) The quality of the proposed research or the proposed technical assistance in product development or production process design. Any grant funds awarded for research activities must be awarded for nonbasic research which will assist in commercialization or manufacture of global health technologies;

(b) The potential for the grant recipient to improve global health outcomes;

(c) The potential for the grant to leverage additional funding for the development of global health technologies and products;

(d) The potential for the grant to stimulate, or promote technical skills training for, employment in the development of global health technologies in the state;

(e) The willingness of the grant recipient, when appropriate, to enter into royalty or licensing income agreements with the board; and

(f) Any other factors, as the board determines.

(7) Grant contracts must specify that award recipients must conduct their research, development, and any subsequent production activities within Washington, with the exception of activities such as clinical trials that must be carried out in developing countries, and that a failure to comply with this requirement will obligate the recipient to return the amount of the award plus interest as determined by the board.

(8) Upon the recommendation of the Washington economic development commission, the board may provide funding for the recruitment and employment by public research institutions and global health nonprofit organizations in the state, of global health researchers with a history of commercialization of global health technologies.

(9) Each project receiving a grant under this section must report information to the board in the format and at the intervals as the board requires to provide accountability and to evaluate the effectiveness of the program. The information reported must include the amount of funding received; the funding, if any, leveraged by the grant; the number and types of jobs created as a result of the grant; and any other information that the board requires. The board must use the information to prepare an annual evaluation of the program for a report to the appropriate committees of the legislature and the governor, beginning December 1, 2012.

NEW SECTION. Sec. 3. The Washington global health technologies and product development account is created in the custody of the state treasurer. Only the board of directors of the Washington global health technologies and product development competitiveness program or the board's designee may authorize expenditures from the account. All federal moneys received from the solicitations required in section 2 of this act and all state funds appropriated for the specific purposes of the Washington global health technologies and product development competitiveness program must be deposited in the account. Expenditures from the account may be used only for funding activities of the Washington global health technologies and product development competitiveness program created in section 2 of this act. The account is subject to the allotment procedures under chapter 43.88 RCW, but an appropriation is not required for expenditures.

Sec. 4. RCW 43.79A.040 and 2009 c 87 s 4 are each amended to read as follows:

MESSAGE FROM THE HOUSE

March 22, 2010

MR. PRESIDENT:
The House passed SUBSTITUTE SENATE BILL NO. 6889 with the following amendment(s): 6889-S AMH HUNT H5832.1

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. (1) The legislature finds that conventions and trade shows provide both direct and indirect civic and economic benefits. It is the intent of the legislature to provide for the transfer of the governance and financing of the state convention and trade center to a public facilities district formed by a county with a population of one million five hundred thousand or more to acquire, own, and operate the convention and trade center. The legislature also intends to replace, in connection with such transfer, the authority under chapter 67.40 RCW of the state and city to impose excise taxes on the sale of or charge made for the furnishing of lodging at rates authorized in section 5 of this act is an appropriate method of paying for the cost of acquiring, constructing, owning, remodeling, maintaining, equipping, reequipping, repairing, altering, and operating a convention and trade center.

Sec. 2. RCW 36.100.010 and 2002 c 218 s 26 are each amended to read as follows:

(1) One or more public facilities districts may be created in any county and must be coextensive with the boundaries of the county.

(2) A public facilities district is created upon adoption of a resolution providing for the creation of such a district by the county legislative authority in which the proposed district is located.

(3) A public facilities district is a municipal corporation, an independent taxing "authority" within the meaning of Article VII, section 1 of the state Constitution, and a "taxing district" within the meaning of Article VII, section 2 of the state Constitution.

(4) Except as provided in RCW 36.100.040 (4) and (5), no taxes authorized under this chapter may be assessed or levied unless a majority of the voters of the public facilities district has approved such tax at a general or special election. A single ballot proposition may both validate the imposition of the sales and use tax under RCW 82.14.048 and the excise tax under RCW 36.100.040(1).

(5) A public facilities district constitutes a body corporate and possesses all the usual powers of a corporation for public purposes as well as all other powers that may now or hereafter be specifically conferred by statute, including, but not limited to, the authority to hire employees, staff, and services, to enter into contracts, including contracts with public and private parties, to acquire, own, sell, transfer, lease, and otherwise acquire or dispose of property, to grant concessions under terms approved by the public facilities district, and to sue and be sued.

(b) A public facilities district created by a county with a population of one million five hundred thousand or more to acquire, own, and operate a convention and trade center transferred from a public nonprofit corporation may continue to contract with the Seattle-King county convention and visitors’ bureau or its successor in interest for marketing the convention and trade center facility and services.

(6) A public facilities district may enter into contracts with a county for the purpose of exercising any powers of a community renewal agency under chapter 35.81 RCW.

(7) The legislative authority of a city or county, the board of directors of a public nonprofit corporation, or the state of Washington may transfer property to a public facilities district created under this chapter, with or without consideration. No property that is encumbered with debt or that is in need of major capital renovation may be transferred to the district without the agreement of the district and revenues adequate to retire the existing indebtedness.

(8) A public facilities district may enter into agreements with the state, any municipal corporation, or any other governmental entity for the design, financing, acquisition, development, construction, reconstruction, lease, remodeling, alteration, maintenance, equipping, reequipping, repair, operation, or management of one or more facilities of the parties thereto. Agreements may provide that any party to the contract designs, finances, acquires, develops, constructs, reconstructs, remodels, alters, maintains, equips, reequips, repairs, and operates one or more facilities for the other party or parties to the contract. A public facilities district may enter into an agreement with the state, any municipal corporation, or any other public or private entity that will assist a public facilities district in the
financing of all or any part of a district facility on such terms as may be determined by agreement between the respective parties, including without limitation by a loan, guaranty, or other financing agreement.

Sec. 3. RCW 36.100.020 and 1995 3rd sp.s. c 1 s 302 are each amended to read as follows:

(1)(a) A public facilities district ((shall)) must be governed by a board of directors consisting of five ((members), seven or nine members) as provided in this section.

(b) If the largest city in the county has a population that is at least forty percent of the total county population, the board of directors of the public facilities district ((shall)) must consist of five members selected as follows:

((members)) (i) Two members appointed by the county legislative authority to serve for four-year staggered terms;

((members)) (ii) Two members appointed by the city council of the largest city in the county to serve for four-year staggered terms; and

((members)) (iii) One person to serve for a four-year term who is selected as the other directors.

(c) Except as provided in (c)(i) of this subsection (1), if the largest city in the county has a population of less than forty percent of the total county population, the county legislative authority ((shall)) must establish in the resolution creating the public facilities district whether the board of directors of the public facilities district has either five or seven members, and the county legislative authority ((shall)) must appoint the members of the board of directors to reflect the interests of cities and towns in the county, as well as the unincorporated area of the county.

(ii) However, if the county has a population of one million five hundred thousand or more, the largest city in the county has a population of less than forty percent of the total county population, and the county operates under a county charter, which provides for an elected county executive, the members of the board of directors must be appointed as follows:

(A) If the public facilities district is created to construct a baseball stadium as defined in RCW 82.14.0485, three members ((shall)) must be appointed by the governor and the remaining members ((shall)) must be appointed by the county executive subject to confirmation by the county legislative authority. Of the members appointed by the governor, the speaker of the house of representatives and the majority leader of the senate ((shall)) must each recommend to the governor a person to be appointed to the board; and

(B) If the public facilities district is created to acquire, own, and operate a convention and trade center, following the expiration of the terms of the initial board of directors, three members must be appointed by the governor, three members must be nominated by the county executive subject to confirmation by the county legislative authority, and three members must be nominated by the mayor of the city in which the convention and trade center is located subject to confirmation by the city legislative authority. Members of the board of directors may not be members of the legislative authority of the county or any city within the county.

(d) The initial board of directors of a public facilities district created in a county of one million five hundred thousand or more to acquire, own, and operate a convention and trade center to the public facilities district under section 8 of this act. The governor must designate which of the initial board members must serve two-year terms and which must serve four-year terms and identify the board positions to which successors to initial directors are to be appointed by the county and the city.

(2) At least one member on the board of directors ((shall)) must be representative of the lodging industry in the public facilities district before the public facilities district imposes the excise tax under RCW 36.100.040(1). Of the members of the board of directors of a public facilities district created in a county of one million five hundred thousand or more to acquire, own, and operate a convention and trade center, one of the governor's appointments and one of the county's appointments must be representative of the lodging industry in the public facilities district and one of the city's appointments must be representative of organized labor, except that these requirements do not apply to the initial board of such district.

(3) Members of the board of directors ((shall)) must serve four-year terms of office, except that two of the initial five board members ((members)), three of the initial seven board members ((members)), and four of the initial nine board members must serve two-year terms of office.

(4) A vacancy ((shall)) must be filled in the same manner as the original appointment was made and the person appointed to fill a vacancy ((shall)) must serve for the remainder of the unexpired term of office for the position to which he or she was appointed.

(5) Any director may be removed from office by the person or entity that appointed or confirmed such director for any reason or for no reason as follows: A director appointed by the governor may be removed from office by the governor(()), and any ((other)) director confirmed by a city or county legislative authority may be removed from office by action of at least two-thirds of the members of the legislative authority ((which made the appointment)) that confirmed the director.

Sec. 4. RCW 36.100.030 and 2003 c 376 s 1 are each amended to read as follows:

(1) A public facilities district is authorized to acquire, construct, own, remodel, maintain, equip, reequip, repair, and operate a sports facilities, entertainment facilities, convention facilities, including without limitation any convention and trade center transferred from a public nonprofit corporation under section 8(1) of this act, or regional centers as defined in RCW 35.57.020, and (b) for districts formed after January 1, 2000, recreational facilities other than ski areas, together with contiguous parking facilities. (2) A public facilities district may enter into agreements under chapter 39.34 RCW for the ((joint provision and operation)) design, financing, acquisition, development, construction, reconstruction, lease, remodeling, alteration, maintenance, equipping, reequipping, repair, operation, or management of such facilities and may enter into contracts under chapter 39.34 RCW where any party to the contract provides and operates such facilities for the other party or parties to the contract. A public facilities district may enter into agreements under chapter 39.34 RCW that will assist a public facilities district in the financing of all or any part of a district facility on such terms as may be determined by agreement between the respective parties, including without limitation by a loan, guaranty, or other financing agreement.

(3) Notwithstanding the establishment of a career, civil, or merit service system, a public facilities district may contract with a public or private entity for the operation or management of its public facilities.

(4) A public facilities district is authorized to use the supplemental alternative public works contracting procedures set forth in chapter 39.10 RCW in connection with the design, construction, reconstruction, remodel, or alteration of any of its public facilities.

(5) A public facilities district may impose charges and fees for the use of its facilities, and may accept and expend or use gifts, grants, and donations.
Sec. 5. RCW 36.100.040 and 2008 c 137 s 5 are each amended to read as follows:

(1) A public facilities district may impose an excise tax on the sale of or charge made for the furnishing of lodging that is subject to tax under chapter 82.08 RCW, except that no such tax may be levied on any premises having fewer than forty lodging units. (However) Except for any tax imposed under subsection (4) or (5) of this section, if a public facilities district has not imposed such an excise tax prior to December 31, 1995, the public facilities district may only impose the excise tax if a ballot proposition authorizing the imposition of the tax has been approved by a simple majority vote of the voters of the public facilities district voting on the proposition.

(2) The rate of the tax ((shall)) may not exceed two percent and the proceeds of the tax ((shall)) may only be used for the acquisition, design, construction, remodeling, maintenance, equipping, reequipping, repairing, and operation of its public facilities. This excise tax ((shall)) may not be imposed until the district has approved the proposal to acquire, design, and construct the public facilities.

(3) (A public facilities district may not impose the tax authorized in this section if, after the tax authorized in this section was imposed, the effective combined rate of state and local excise taxes, including sales and use taxes and excise taxes on lodging, imposed on the sale of or charge made for furnishing of lodging in any jurisdiction in the public facilities district exceeds eleven and one-half percent.

(4) Except for a public facilities district created within a county with a population of one million five hundred thousand or more for the purpose of acquiring, owning, and operating a convention and trade center, a public facilities district may not impose the tax authorized in this section if, after the tax authorized in this section was imposed, the effective combined rate of state and local excise taxes, including sales and use taxes and excise taxes on lodging, imposed on the sale of or charge made for furnishing of lodging in any jurisdiction in the public facilities district exceeds eleven and one-half percent.

(4)) Except for a public facilities district created within a county with a population of one million five hundred thousand or more for the purpose of acquiring, owning, and operating a convention and trade center, a public facilities district may not impose the tax authorized in this section if, after the tax authorized in this section was imposed, the effective combined rate of state and local excise taxes, including sales and use taxes and excise taxes on lodging, imposed on the sale of or charge made for furnishing of lodging in any jurisdiction in the public facilities district exceeds eleven and one-half percent.

(4) To replace the tax authorized by RCW 67.40.090, a public facilities district created within a county with a population of one million five hundred thousand or more for the purpose of acquiring, owning, and operating a convention and trade center, a public facilities district may not impose the tax authorized in this section if, after the tax authorized in this section was imposed, the effective combined rate of state and local excise taxes, including sales and use taxes and excise taxes on lodging, imposed on the sale of or charge made for furnishing of lodging in any jurisdiction in the public facilities district exceeds eleven and one-half percent.

(5) To replace the tax authorized by RCW 67.40.130, a public facilities district created within a county with a population of one million five hundred thousand or more for the purpose of acquiring, owning, and operating a convention and trade center may impose an additional excise tax on the sale of or charge made for the furnishing of lodging that is subject to tax under chapter 82.08 RCW, except that no such tax may be levied on any premises having fewer than sixty lodging units. The rate of the additional excise tax may not exceed two percent and may be imposed only within the portion of the district that corresponds to the boundaries of the largest city within the public facilities district and may not exceed 2.8 percent in the remainder of the district. The tax imposed under this subsection (5) may not be collected prior to the transfer date defined in section 8 of this act. The tax imposed under this subsection (5) must be credited against the amount of the tax otherwise due to the state from those same taxpayers under chapter 82.08 RCW. The tax under this subsection (5) may be imposed only for the purpose of paying or securing the payment of the principal of and interest on obligations issued or incurred by the public facilities district and paying annual payment amounts to the state under subsection (6)(a) of this section. The authority to impose the additional excise tax under this subsection (5) expires on the date that is the earlier of (a) July 1, 2029, or (b) the date on which all obligations issued or incurred by the public facilities district to implement any redemption, prepayment, or legal defeasance of outstanding obligations under section 8(3)(a) of this act are no longer outstanding.

(6)(a) Commencing with the first full fiscal year of the state after the transfer date defined in section 8 of this act and for so long as a public facilities district imposes a tax under subsection (5) of this section, the public facilities district must transfer to the state of Washington on June 30th of each state fiscal year an annual payment amount.

(b) For the purposes of this subsection (6), "annual payment amount" means an amount equal to revenues received by the public facilities district in the fiscal year from the additional excise tax imposed under subsection (5) of this section plus an interest charge calculated on one-half the annual payment amount times an interest rate equal to the average annual rate of return for the prior calendar year in the Washington state local government investment pool created in chapter 43.250 RCW.

(c)(ii) If the public facilities district in any fiscal year is required to apply additional lodging excise tax revenues to the payment of principal and interest on obligations it issues or incurs, and the public facilities district is unable to pay all or any portion of the annual payment amount to the state, the deficiency is deemed to be a loan from the state to the public facilities district for the purpose of assisting the district in paying such principal and interest and must be repaid by the public facilities district to the state after providing for the payment of the principal of and interest on obligations issued or incurred by the public facilities district, all on terms established by an agreement between the state treasurer and the public facilities district executed prior to the transfer date. Any agreement between the state treasurer and the public facilities district must specify the term for the repayment of the deficiency in the annual payment amount with an interest rate equal to the twenty bond general obligation bond buyer index plus one percentage point.

(ii) Outstanding obligations to repay any loans deemed to have been made to the public facilities district as provided in any such agreements between the state treasurer and the public facilities district survive the expiration of the additional excise tax under subsection (5) of this section.

(iii) For the purposes of this subsection (6)(c), "additional lodging excise tax revenues" mean the tax revenues received by the public facilities district under subsection (5) of this section.

(7) A public facilities district is authorized to pledge any of its revenues, including without limitation revenues from the taxes authorized in this section, to pay or secure the payment of obligations issued or incurred by the public facilities district, subject to the terms established by the board of directors of the public facilities district. So long as a pledge of the taxes authorized under this section is in effect, the legislature may not withdraw or modify the authority to levy and collect the taxes at the rates permitted under this section and may not increase the annual payment amount to be transferred to the state under subsection (6) of this section.

(8) The department of revenue must perform the collection of such taxes on behalf of the public facilities district at no cost to the district, and the state treasurer must distribute those taxes as available on a monthly basis to the district or, upon the direction of the district, to a fiscal agent, paying agent or trustee for obligations issued or incurred by the district.
