MESSAGE FROM THE HOUSE

March 6, 2014

MR. PRESIDENT:
The House passed SENATE BILL NO. 6424 with the following amendment(s): 6424 AMH ED H4415.1

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. (1) The legislature finds that:
(a) The study of world languages in elementary and secondary schools should be encouraged because it contributes to students' cognitive development and to the national economy and security;
(b) Proficiency in multiple languages enables Washington to participate more effectively in the current global political, social, and economic context;
(c) The benefits to employers of having employees who are fluent in more than one language are clear: Increased access to expanding markets, better service of customers' needs, and expanded trading opportunities with other countries; and
(d) Protecting the state's rich heritage of multiple cultures and languages, as well as building trust and understanding across the multiple cultures and languages of diverse communities, requires multilingual communication skills.

(2) Therefore, the legislature's intent is to promote and recognize linguistic proficiency and cultural literacy in one or more world languages in addition to English through the establishment of a Washington state seal of biliteracy.

NEW SECTION. Sec. 2. A new section is added to chapter 28A.300 RCW to read as follows:

(1) The Washington state seal of biliteracy is established to recognize high school graduates who have attained a high level of proficiency in speaking, reading, and writing in one or more world languages in addition to English. School districts are encouraged to award the seal of biliteracy to graduating high school students who meet the criteria established by the office of the superintendent of public instruction under this section. Participating school districts shall place a notation on a student's high school diploma and high school transcript indicating that the student has earned the seal.

(2) The office of the superintendent of public instruction shall adopt rules establishing criteria for award of the Washington state seal of biliteracy. The criteria must require a student to demonstrate proficiency in English by meeting state high school graduation requirements in English, including through state assessments and credits, and proficiency in one or more world languages other than English. The criteria must permit a student to demonstrate proficiency in another world language through multiple methods including nationally or internationally recognized language proficiency tests and competency-based world language credits awarded under the model policy adopted by the Washington state school directors' association.

(3) For the purposes of this section, a world language other than English must include American sign language and Native American languages.

Sec. 3. RCW 28A.230.125 and 2011 1st sp.s.c 11 s 130 are each amended to read as follows:

(1) The superintendent of public instruction, in consultation with the four-year institutions as defined in RCW 28B.76.020, the state board for community and technical colleges, and the workforce training and education coordinating board, shall develop for use by all public school districts a standardized high school transcript. The superintendent shall establish clear definitions for the terms "credits" and "hours" so that school programs operating on the quarter, semester, or trimester system can be compared.

(2) The standardized high school transcript shall include a notation of whether the student has earned a certificate of individual achievement or a certificate of academic achievement.

(3) The standardized high school transcript may include a notation of whether the student has earned the Washington state seal of biliteracy established under section 2 of this act.

NEW SECTION. Sec. 4. By December 1, 2017, the office of the superintendent of public instruction shall report to the education committees of the legislature that compares the number of students awarded the Washington state seal of biliteracy in the previous two school years and the languages spoken by those students, to the number of students enrolled or previously enrolled in the transitional bilingual instruction program and the languages spoken by those students. The office of the superintendent of public instruction shall also report the methods used by students to demonstrate proficiency for the Washington state seal of biliteracy, and describe how the office of the superintendent of public instruction plans to increase the number of possible methods for students to demonstrate proficiency, particularly in world languages that are not widely spoken."

NEW SECTION. Sec. 1. A new section is added to chapter 74.13 RCW to read as follows:

(2) This section applies to all caregivers providing for children in out-of-home care.

(3) Caregivers have the authority to provide or withhold permission without prior approval of the caseworker, department, or court to allow a child in their care to participate in normal childhood activities based on a reasonable and prudent parent standard.

(a) Normal childhood activities include, but are not limited to, extracurricular, enrichment, and social activities, and may include overnight activities outside the direct supervision of the caregiver for periods of over twenty-four hours and up to seventy-two hours.

(b) The reasonable and prudent parent standard means the standard of care used by a caregiver in determining whether to allow a child in his or her care to participate in extracurricular, enrichment, and social activities. This standard is characterized by careful and thoughtful parental decision-making that is intended to maintain a child's health, safety, and best interest while encouraging the child's emotional and developmental growth.

(4) Any authorization provided under this section must comply with provisions included in an existing safety plan established by the department or court order.

(5) (a) Caseworkers shall discuss the child's interest in and pursuit of normal childhood activities in their monthly health and safety visits and describe the child's participation in normal childhood activities in the individual service and safety plan.

(b) Caseworkers shall also review a child's interest in and pursuit of normal childhood activities during monthly meetings with parents. Caseworkers shall communicate the opinions of parents
regarding their child's participation in normal childhood activities so that the parents' wishes may be appropriately considered.

(7) This section does not remove or limit any existing liability protection afforded by law.

Sec. 2. RCW 74.15.030 and 2007 c 387 s 5 and 2007 c 17 s 14 are each reenacted and amended to read as follows:

The secretary shall have the power and it shall be the secretary's duty:

(1) In consultation with the children's services advisory committee, and with the advice and assistance of persons representative of the various type agencies to be licensed, to designate categories of facilities for which separate or different requirements shall be developed as may be appropriate whether because of variations in the ages, sex and other characteristics of persons served, variations in the purposes and services offered or size or structure of the agencies to be licensed hereunder, or because of any other factor relevant thereto;

(2) In consultation with the children's services advisory committee, and with the advice and assistance of persons representative of the various type agencies to be licensed, to adopt and publish minimum requirements for licensing applicable to each of the various categories of agencies to be licensed.

The minimum requirements shall be limited to:

(a) The size and suitability of a facility and the plan of operation for carrying out the purpose for which an applicant seeks a license;

(d) Obtaining child protective services information or records maintained in the department case management information system. No unfounded allegation of child abuse or neglect as defined in RCW 26.44.020 may be disclosed to a child-placing agency, private adoption agency, or any other provider licensed under this chapter;

(g) The cost of fingerprint background check fees will be paid as required in RCW 43.43.837;

However, if a child is placed with a relative under RCW 13.34.065 or 13.34.130, and if such relative appears otherwise suitable and competent to provide care and treatment the criminal history background check required by this section need not be completed before placement, but shall be completed as soon as possible after placement;
(4) On reports of alleged child abuse and neglect, to investigate agencies in accordance with chapter 26.44 RCW, including child day-care centers and family day-care homes, to determine whether the alleged abuse or neglect has occurred, and whether child protective services or referral to a law enforcement agency is appropriate;
(5) To issue, revoke, or deny licenses to agencies pursuant to chapter 74.15 RCW and RCW 74.13.031. Licenses shall specify the category of care which an agency is authorized to render and the ages, sex, and number of persons to be served;
(6) To prescribe the procedures and the form and contents of reports necessary for the administration of chapter 74.15 RCW and RCW 74.13.031 and to require regular reports from each licensee;
(7) To inspect agencies periodically to determine whether or not there is compliance with chapter 74.15 RCW and RCW 74.13.031 and the requirements adopted hereunder;

(1) If the offender was sentenced under the drug offender sentencing alternative, any sanctions shall be imposed by the department or the court pursuant to RCW 9.94A.660.

(2) If the offender was sentenced under the special sex offender sentencing alternative, any sanctions shall be imposed by the department or the court pursuant to RCW 9.94A.670.

(3) If the offender was sentenced under the parenting sentencing alternative, any sanctions shall be imposed by the department or the court pursuant to RCW 9.94A.655.

((44))) (8) If the offender is not being supervised by the department, any sanctions shall be imposed by the court pursuant to RCW 9.94A.6333.

**Sec. 4.** RCW 9.94A.729 and 2013 2nd sp.s. c 14 s 2 and 2013 c 266 s 1 are each reenacted and amended to read as follows:

(1)(a) The term of the sentence of an offender committed to a correctional facility operated by the department may be reduced by earned release time in accordance with procedures that shall be developed and adopted by the correctional agency having jurisdiction in which the offender is confined. The earned release
time shall be for good behavior and good performance, as determined by the correctional agency having jurisdiction. The correctional agency shall not credit the offender with earned release credits in advance of the offender actually earning the credits.

(b) Any program established pursuant to this section shall allow an offender to earn early release credits for presentence incarceration. If an offender is transferred from a county jail to the department, the administrator of a county jail facility shall certify to the department the amount of time spent in custody at the facility and the number of days of early release credits lost or not earned. The department may approve a jail certification from a correctional agency that calculates early release time based on the actual amount of confinement time served by the offender before sentencing when an erroneous calculation of confinement time served by the offender before sentencing appears on the judgment and sentence. The department must adjust an offender's rate of early release listed on the jail certification to be consistent with the rate applicable to offenders in the department's facilities. However, the department is not authorized to adjust the number of presentence early release days that the jail has certified as lost or not earned.

(2) An offender who has been convicted of a felony committed after July 23, 1995, that involves any applicable deadly weapon enhancements under RCW 9.94A.533 (3) or (4), or both, shall not receive any good time credits or earned release time for that portion of his or her sentence that results from any deadly weapon enhancements.

(3) An offender may earn early release time as follows:

(a) In the case of an offender sentenced pursuant to RCW 10.95.030(3) or section 11 of this act, the aggregate earned release time may not exceed ten percent of the sentence.

(b) In the case of an offender convicted of a serious violent offense, or a sex offense that is a class A felony, committed on or after July 1, 1990, and before July 1, 2003, the aggregate earned release time may not exceed fifteen percent of the sentence.

(4) An offender who has been convicted of a felony committed after July 1, 2010.

(5) An offender who has been convicted of a felony committed after July 1, 2003, the aggregate earned release time if he or she:

(a) Is not confined pursuant to a sentence for:

(i) A sex offense;

(ii) A violent offense;

(iii) An offense described in RCW 9.94A.670(5)(a) is not eligible for earned release, as determined by the department.

(b) In the case of an offender convicted of a serious violent offense, or a sex offense that is a class A felony, committed on or after July 1, 2003, the aggregate earned release time may not exceed ten percent of the sentence.

(6) An offender serving a term of confinement imposed under RCW 9.94A.670(5)(a) is not eligible for earned release credits under this section.

Sec. 5. RCW 9.95.425 and 2009 c 28 s 30 are each amended to read as follows:

(1) Whenever the board or a community corrections officer of this act has violated a condition of community custody or the laws of this state, any community corrections officer may arrest or cause the arrest and detention of the offender pending a determination by the board whether sanctions should be imposed or the offender's community custody should be revoked. The community corrections officer
shall report all facts and circumstances surrounding the alleged violation to the board, with recommendations.

(2) If the board or the department causes the arrest or detention of an offender for a violation that does not amount to a new crime and the offender is arrested or detained by local law enforcement or in a local jail, the board or department, whichever caused the arrest or detention, shall be financially responsible for local costs. Jail bed costs shall be allocated at the rate established under RCW 9.94A.740.

Sec. 6. RCW 9.95.430 and 2001 2nd sp.s. c 12 s 308 are each amended to read as follows:

Any offender released under RCW 9.95.420, 10.95.030(3), or section 10 of this act who is arrested and detained in physical custody by the authority of a community corrections officer, or upon the written order of the board, shall not be released from custody on bail or personal recognizance, except upon approval of the board and the issuance by the board of an order reinstating the offender's release on the same or modified conditions. All chiefs of police, marshals of cities and towns, sheriffs of counties, and all police, prison, and peace officers and constables shall execute any such order in the same manner as any ordinary criminal process.

Sec. 7. RCW 9.95.435 and 2007 c 363 s 3 are each amended to read as follows:

(1) If an offender released by the board under RCW 9.95.420, 10.95.030(3), or section 10 of this act violates any condition or requirement of community custody, the board may transfer the offender to a more restrictive confinement status to serve up to the remaining portion of the sentence, less credit for any period actually spent in community custody or in detention awaiting disposition of an alleged violation and subject to the limitations of subsection (2) of this section.

(2) Following the hearing specified in subsection (3) of this section, the board may impose sanctions such as work release, home detention with electronic monitoring, work crew, community restitution, inpatient treatment, daily reporting, curfew, educational or counseling sessions, supervision enhanced through electronic monitoring, or any other sanctions available in the community, or may suspend the release and sanction up to sixty days' confinement in a local correctional facility for each violation, or revoke the release to community custody whenever an offender released by the board under RCW 9.95.420, 10.95.030(3), or section 10 of this act violates any condition or requirement of community custody.

(3) If an offender released by the board under RCW 9.95.420, 10.95.030(3), or section 10 of this act is accused of violating any condition or requirement of community custody, he or she is entitled to a hearing before the board or a designee of the board prior to the imposition of sanctions. The hearing shall be considered as offender disciplinary proceedings and shall not be subject to chapter 34.05 RCW. The board shall develop hearing procedures and a structure of graduated sanctions consistent with the hearing procedures and graduated sanctions developed pursuant to RCW 9.94A.737. The board may suspend the offender's release to community custody and confine the offender in a correctional institution owned, operated by, or operated under contract with the state prior to the hearing unless the offender has been arrested and confined for a new criminal offense.

(4) The hearing procedures required under subsection (3) of this section shall be developed by rule and include the following:

(a) Hearings shall be conducted by members or designees of the board unless the board enters into an agreement with the department to use the hearing officers established under RCW 9.94A.737;

(b) The board shall provide the offender with findings and conclusions which include the evidence relied upon, and the reasons the particular sanction was imposed. The board shall notify the offender of the right to appeal the sanction and the right to file a personal restraint petition under court rules after the final decision of the board;

(c) The hearing shall be held unless waived by the offender, and shall be electronically recorded. For offenders not in total confinement, the hearing shall be held within thirty days of service of notice of the violation, but not less than twenty-four hours after notice of the violation. For offenders in total confinement, the hearing shall be held within thirty days of service of notice of the violation, but not less than twenty-four hours after notice of the violation. The board or its designee shall make a determination whether probable cause exists to believe the violation or violations occurred. The determination shall be made within forty-eight hours of receipt of the allegation;

(d) The offender shall have the right to: (i) Be present at the hearing; (ii) have the assistance of a person qualified to assist the offender in the hearing, appointed by the presiding hearing officer if the offender has a language or communications barrier; (iii) testify or remain silent; (iv) call witnesses and present documentary evidence; (v) question witnesses who appear and testify; and (vi) be represented by counsel if revocation of the release to community custody upon a finding of violation is a probable sanction for the violation. The board may not revoke the release to community custody of any offender who was not represented by counsel at the hearing, unless the offender has waived the right to counsel; and

(e) The sanction shall take effect if affirmed by the presiding hearing officer.

(5) Within seven days after the presiding hearing officer's decision, the offender may appeal the decision to the full board or to a panel of three reviewing examiners designated by the chair of the board or by the chair's designee. The sanction shall be reversed or modified if a majority of the panel finds that the sanction was not reasonably related to any of the following: (a) The crime of conviction; (b) the violation committed; (c) the offender's risk of reoffending; or (d) the safety of the community.

(6) For purposes of this section, no finding of a violation of conditions may be based on unconfirmed or unconfirmable allegations.

Sec. 8. RCW 9.95.440 and 2008 c 231 s 45 are each amended to read as follows:

In the event the board suspends the release status of an offender released under RCW 9.95.420, 10.95.030(3), or section 10 of this act by reason of an alleged violation of a condition of release, or pending disposition of a new criminal charge, the board may nullify the suspension order and reinstate release under previous conditions or any new conditions the board determines advisable under RCW 9.94A.704. Before the board may nullify a suspension order and reinstate release, it shall determine that the best interests of society and the offender shall be served by such reinstatement rather than return to confinement.

Sec. 9. RCW 10.95.030 and 2010 c 94 s 3 are each amended to read as follows:

(1) Except as provided in subsections (2) and (3) of this section, any person convicted of the crime of aggravated first degree murder shall be sentenced to life imprisonment without possibility of release or parole. A person sentenced to life imprisonment under this section shall not have that sentence suspended, deferred, or commuted by any judicial officer and the indeterminate sentence review board or its successor may not parole such prisoner nor reduce the period of confinement in any manner whatsoever including but not limited to any sort of good-time calculation. The department of social and health services or its successor or any executive official may not permit such prisoner to participate in any sort of release or furlough program.

(2) If, pursuant to a special sentencing proceeding held under RCW 10.95.050, the trier of fact finds that there are not sufficient mitigating circumstances to merit leniency, the sentence shall be
death. In no case, however, shall a person be sentenced to death if the person had an intellectual disability at the time the crime was committed, under the definition of intellectual disability set forth in (a) of this subsection. A diagnosis of intellectual disability shall be documented by a licensed psychiatrist or licensed psychologist designated by the court, who is an expert in the diagnosis and evaluation of intellectual disabilities. The defense must establish an intellectual disability by a preponderance of the evidence and the court must make a finding as to the existence of an intellectual disability.

(a) "Intellectual disability" means the individual has: (i) Significantly subaverage general intellectual functioning; (ii) existing concurrently with deficits in adaptive behavior; and (iii) both significantly subaverage general intellectual functioning and deficits in adaptive behavior were manifested during the developmental period.

(b) "General intellectual functioning" means the results obtained by assessment with one or more of the individually administered general intelligence tests developed for the purpose of assessing intellectual functioning.

(c) "Significantly subaverage general intellectual functioning" means intelligence quotient seventy or below.

(d) "Adaptive behavior" means the effectiveness or degree with which individuals meet the standards of personal independence and social responsibility expected for his or her age.

(e) "Developmental period" means the period of time between conception and the eighteenth birthday.

(f) Any person convicted of the crime of aggravated first degree murder for an offense committed prior to the person's sixteenth birthday shall be sentenced to a maximum term of life imprisonment and a minimum term of total confinement of twenty-five years.

(ii) Any person convicted of the crime of aggravated first degree murder for an offense committed when the person is at least sixteen years old but less than eighteen years old shall be sentenced to a maximum term of life imprisonment and a minimum term of total confinement of no less than twenty-five years. A minimum term of life may be imposed, in which case the person will be ineligible for parole or early release.

(b) In setting a minimum term, the court must take into account mitigating factors that account for the diminished culpability of youth as provided in Miller v. Alabama, 132 S.Ct. 2455 (2012) including, but not limited to, the age of the individual, the youth's childhood and life experience, the degree of responsibility the youth was capable of exercising, and the youth's chances of becoming rehabilitated.

(c) A person sentenced under this subsection shall serve the sentence in a facility or institution operated, or utilized under contract, by the state. During the minimum term of total confinement, the person shall not be eligible for community custody, earned release time, furlough, home detention, partial confinement, work crew, work release, or any other form of early release authorized under RCW 9.94A.728, or any other form of authorized leave or absence from the correctional facility while not in the direct custody of a corrections officer. The provisions of this subsection shall not apply: (i) In the case of an offender in need of emergency medical treatment; or (ii) for an extraordinary medical placement when authorized under RCW 9.94A.728(3).

(d) Any person sentenced pursuant to this subsection shall be subject to community custody under the supervision of the department of corrections and the authority of the indeterminate sentence review board. As part of any sentence under this subsection, the court shall require the person to comply with any conditions imposed by the board.

(e) No later than five years prior to the expiration of the person's minimum term, the department of corrections shall conduct an assessment of the offender and identify programming and services that would be appropriate to prepare the offender for return to the community. To the extent possible, the department shall make programming available as identified by the assessment.

(f) No later than one hundred eighty days prior to the expiration of the person's minimum term, the department of corrections shall conduct, and the offender shall participate in, an examination of the person, incorporating methodologies that are recognized by experts in the prediction of dangerousness, and including a prediction of the probability that the person will engage in future criminal behavior if released on conditions to be set by the board. The board may consider a person's failure to participate in an evaluation under this subsection in determining whether to release the person. The board shall order the person released, under such affirmative and other conditions as the board determines appropriate, unless the board determines by a preponderance of the evidence that, despite such conditions, it is more likely than not that the person will commit new criminal law violations if released. If the board does not order the person released, the board shall set a new minimum term not to exceed five additional years. The board shall give public safety considerations the highest priority when making all discretionary decisions regarding the ability for release and conditions of release.

(g) In a hearing conducted under (f) of this subsection, the board shall provide opportunities for victims and survivors of victims of any crimes for which the offender has been convicted to present statements as set forth in RCW 7.69.032. The procedures for victim and survivor of victim input shall be developed by rule. To facilitate victim and survivor of victim involvement, county prosecutor's offices shall ensure that any victim impact statements and known contact information for victims of record and survivors of victims are forwarded as part of the judgment and sentence.

(h) An offender released by the board is subject to the supervision of the department of corrections for a period of time to be determined by the board. The department shall monitor the offender's compliance with conditions of community custody imposed by the court, department, or board, and promptly report any violations to the board. Any violation of conditions of community custody established or modified by the board are subject to the provisions of RCW 9.95.425 through 9.95.440.
consider a person's failure to participate in an evaluation under this subsection in determining whether to release the person. The board shall order the person released under such affirmative and other conditions as the board determines appropriate, unless the board determines by a preponderance of the evidence that, despite such conditions, it is more likely than not that the person will commit new criminal law violations if released. The board shall give public safety considerations the highest priority when making all discretionary decisions regarding the ability for release and conditions of release.

(4) In a hearing conducted under subsection (3) of this section, the board shall provide opportunities for victims and survivors of victims of any crimes for which the offender has been convicted to present statements as set forth in RCW 7.69.032. The procedures for victim and survivor of victim input shall be developed by rule. To facilitate victim and survivor of victim involvement, county prosecutor's offices shall ensure that any victim impact statements and known contact information for victims of record and survivors of victims are forwarded as part of the judgment and sentence.

(5) An offender released by the board is subject to the supervision of the department for a period of time to be determined by the board. The department shall monitor the offender's compliance with conditions of community custody imposed by the court, department, or board, and promptly report any violations to the board. Any violation of conditions of community custody established or modified by the board are subject to the provisions of RCW 9.95.425 through 9.95.440.

(6) An offender whose petition for release is denied may file a new petition for release five years from the date of denial or at an earlier date as may be set by the board.

NEW SECTION. Sec. 11. A new section is added to chapter 10.95 RCW to read as follows:

(1) A person, who was sentenced prior to June 1, 2014, to a term of life without the possibility of parole for an offense committed prior to their eighteenth birthday, shall be returned to the sentencing court or the sentencing court's successor for sentencing consistent with RCW 10.95.030. Release and supervision of a person who receives a minimum term of less than life will be governed by RCW 10.95.030.

(2) The court shall provide an opportunity for victims and survivors of victims of any crimes for which the offender has been convicted to present a statement personally or by representatives.

(3) The court's order setting a minimum term is subject to review to the same extent as a minimum term decision by the parole board before July 1, 1986.

(4) A resentencing under this section shall not reopen the defendant's conviction to challenges that would otherwise be barred by RCW 10.73.090, 10.73.100, 10.73.140, or other procedural barriers.

NEW SECTION. Sec. 12. A new section is added to chapter 10.95 RCW to read as follows:

MR. PRESIDENT:
The House passed SUBSTITUTE SENATE BILL NO. 5859 with the following amendment(s): 5859-S AMH APP H4456.1

Strike everything after the enacting clause and insert the following:

NEW SECTION. Sec. 1. The legislature finds that promoting a financially viable health care system in all parts of the state is a critical interest. The federal centers for medicare and medicaid services has recognized the crucial role hospitals play in providing care in rural areas by creating the sole community hospital program, which allows certain small rural hospitals to receive enhanced payments for medicare services. The legislature further finds that creating a similar reimbursement system for the state's medicaid program for sole community hospitals will promote the long-term financial viability of the rural health care system in those communities.

Sec. 2. RCW 74.09.5225 and 2011 1st sp.s. c 15 s 31 are each amended to read as follows:

(1) Payments for recipients eligible for medical assistance programs under this chapter for services provided by hospitals, regardless of the beneficiary's managed care enrollment status, shall be made based on allowable costs incurred during the year, when services are provided by a rural hospital certified by the centers for medicare and medicaid services as a critical access hospital. Any additional payments made by the authority for the healthy options program shall be no more than the additional amounts per service paid under this section for other medical assistance programs.

(2) Beginning on July 24, 2005, a moratorium shall be placed on additional hospital participation in critical access hospital payments under this section. However, rural hospitals that applied for certification to the centers for medicare and medicaid services prior to January 1, 2005, but have not yet completed the process or have not yet been approved for certification, remain eligible for medical assistance payments under this section.

(3)(a) Beginning January 1, 2015, payments for recipients eligible for medical assistance programs under this chapter for services provided by a hospital, regardless of the beneficiary's managed care enrollment status, shall be increased to one hundred twenty-five percent of the hospital's fee-for-service rates, when services are provided by a rural hospital that:

(i) Was certified by the centers for medicare and medicaid services as a sole community hospital as of January 1, 2013;

(ii) Had a level III adult trauma service designation from the department of health as of January 1, 2014;

(iii) Had less than one hundred fifty acute care licensed beds in fiscal year 2011; and

(iv) Is owned and operated by the state or a political subdivision.

(b) The enhanced payment rates under this subsection shall be considered the hospital's medicaid payment rate for purposes of any other state or private programs that pay hospitals according to medicaid payment rates.

(c) Hospitals participating in the certified public expenditures program may not receive the increased reimbursement rates provided in this subsection (3) for inpatient services.

Correct the title.

and the same are herewith transmitted.

MESSAGE FROM THE HOUSE

March 7, 2014

MR. PRESIDENT:
The House passed SUBSTITUTE SENATE BILL NO. 6014 with the following amendment(s): 6014-S AMH PS H4386.1

Strike everything after the enacting clause and insert the following:

"Sec. 1. RCW 79A.60.040 and 2013 c 278 s 1 are each amended to read as follows:

(1) It is unlawful for any person to operate a vessel in a reckless manner.

(2) It is unlawful for a person to operate a vessel while under the influence of intoxicating liquor, marijuana, or any drug. A person is considered to be under the influence of intoxicating liquor, marijuana, or any drug if, within two hours of operating a vessel:

(a) The person has an alcohol concentration of 0.08 or higher as shown by analysis of the person's breath or blood made under RCW 46.61.506; or

(b) The person has a THC concentration of 5.00 or higher as shown by analysis of the person's breath made under RCW 46.61.506; or

(c) The person is under the influence of or affected by intoxicating liquor, marijuana, or any drug; or

(d) The person is under the combined influence of or affected by intoxicating liquor, marijuana, and any drug.

(3) The fact that any person charged with a violation of this section is or has been entitled to use such drug under the laws of this state shall not constitute a defense against any charge of violating this section.

(4)(a) Any person who operates a vessel within this state is deemed to have given consent, subject to the provisions of RCW 46.61.506, to a test or tests of the person's breath (or blood) for the purpose of determining the alcohol concentration(, THC concentration, or presence of any drug) in the person's breath (or blood) if arrested for any offense where, at the time of the arrest, the arresting officer has reasonable grounds to believe the person was operating a vessel while under the influence of intoxicating liquor, marijuana, or a combination of intoxicating liquor and any other drug.

(b) When an arrest results from an accident in which there has been serious bodily injury to another person or death or the arresting officer has reasonable grounds to believe the person was operating a vessel while under the influence of THC or any other drug, a blood test may be administered with the consent of the arrested person and a valid waiver of the warrant requirement or without the consent of the person so arrested pursuant to a search warrant when exigent circumstances exist.

(c) Neither consent nor this section precludes a police officer from obtaining a search warrant for a person's breath or blood.

(d) An arresting officer may administer field sobriety tests when circumstances permit.

(5) The test or tests of breath must be administered pursuant to RCW 46.20.308. (Where the officer has reasonable grounds to believe that the person is under the influence of a drug, or where the person is incapable due to physical injury, physical incapacity, or other physical limitation, of providing a breath sample, or where the person is being treated in a hospital, clinic, doctor's office, emergency medical vehicle, ambulance, or other similar facility, a blood test must be administered by a qualified person as provided in RCW 46.61.506(5)). "NEW SECTION.  Sec. 1. (1) The legislature recognizes that some children may remain in foster care following the termination of the parent and child relationship.  These children have legal rights and no longer have a parent to advocate on their behalf, and no other party represents their legal interests.  The legislature finds that providing attorneys for children following the termination of the parent and child relationship is fundamental to protecting the child's legal rights and to accelerate permanency.

(2) Although the legislature recognizes that many jurisdictions provide attorneys to children prior to termination of the parent and child relationship, nothing in this act may be construed against the parent's fundamental liberty interest in parenting the child prior to termination of the parent and child relationship as stated in In re Dependency of K.N.J., 171 Wn.2d 568, 574 (2011) and In re Welfare of Luscier, 84 Wn.2d 135, 136-37 (1974), unless such a position would jeopardize the child's right to conditions of basic nurture, health, or safety.

Sec. 2. RCW 13.34.100 and 2010 c 180 s 2 are each amended to read as follows:

(1) The court shall appoint a guardian ad litem for a child who is the subject of an action under this chapter, unless a court for good cause finds the appointment unnecessary.  The requirement of a guardian ad litem may be deemed satisfied if the child is represented by an independent (counsel) attorney in the proceedings.  The court shall attempt to match a child with special needs with a guardian ad litem who has specific training or education related to the child's individual needs.

(2) If the court does not have available to it a guardian ad litem program with a sufficient number of volunteers, the court may appoint a suitable person to act as guardian ad litem for the child under this chapter.  Another party to the proceeding or the party's employee or representative shall not be so appointed.

(3) Each guardian ad litem program shall maintain a background information record for each guardian ad litem in the program.  The background information record shall include, but is not limited to, the following information:

(e) Number of years' experience as a guardian ad litem;
(f) Number of appointments as a guardian ad litem and the county or counties of appointment;
(g) The names of any counties in which the person was removed from a guardian ad litem registry pursuant to a grievance action, and the name of the court and the cause number of any case in which the court has removed the person for cause;
(h) Founded allegations of abuse or neglect as defined in RCW 26.44.020;

(i) The results of an examination of state and national criminal identification data.  The examination shall consist of a background check as allowed through the Washington state criminal records privacy act under RCW 10.97.050, the Washington state patrol criminal identification system under RCW 43.43.832 through 43.43.834, and the federal bureau of investigation.  The background check shall be done through the Washington state patrol criminal identification section and must include a national check from the federal bureau of investigation based on the submission of fingerprints; and
(j) Criminal history, as defined in RCW 9.94A.030, for the period covering ten years prior to the appointment.

The background information record shall be updated annually.  As a condition of appointment, the guardian ad litem's background information record shall be made available to the court.  If the appointed guardian ad litem is not a member of a guardian ad litem program a suitable person appointed by the court to act as guardian ad litem shall provide the background information record to the court.

Upon appointment, the guardian ad litem, or guardian ad litem program, shall provide the parties or their attorneys with a copy of the background information record.  The portion of the background information record containing the results of the criminal background check and the criminal history shall not be disclosed to the parties or their attorneys.  The background information record shall not include identifying information that may be used to harm a guardian ad litem, such as home addresses and home telephone numbers, and

A guardian ad litem shall receive copies of all pleadings and other documents filed or submitted to the court, and notice of all hearings according to court rules. (b) Legal services provided by an attorney appointed pursuant to (a) of this subsection do not include representation of the child in any appellate proceedings relative to the termination of the parent and child relationship.

(c)(i) Subject to the availability of amounts appropriated for this specific purpose, the state shall pay the costs of legal services provided by an attorney appointed pursuant to (a) of this subsection, if the legal services are provided in accordance with the standards of practice, voluntary training, and caseload limits developed and recommended by the statewide children's representation work group pursuant to section 5, chapter 180, Laws of 2010. (iii) The office of civil legal aid is responsible for implementation of (c)(i) and (ii) of this subsection as provided in section 3 of this act.

(c) Pursuant to this subsection, the department or supervising agency and the child's guardian ad litem shall each notify a child of his or her right to request ((counsel)) an attorney and shall ask the child whether he or she wishes to have ((counsel)) an attorney. The department or supervising agency and the child's guardian ad litem shall notify the child and make this inquiry immediately after:

(i) The date of the child's twelfth birthday;

The court shall make an additional inquiry at the first regularly scheduled hearing after the child's fifteenth birthday. No inquiry is necessary if the child has already been appointed ((counsel)) an attorney.

((f) If the child requests legal counsel and is age twelve or older, or if the guardian ad litem or the court determines that the child needs to be independently represented by counsel, the court may appoint an attorney to represent the child's position.

(7)) (8) For the purposes of child abuse prevention and treatment act (42 U.S.C. Secs. 5101 et seq.) grants to this state under P.L. 93- 247, or any related state or federal legislation, a person appointed pursuant to this section shall be deemed a guardian ad litem (to represent the best interests of the minor in proceedings before the court).

((9) (9) When a court-appointed special advocate or volunteer guardian ad litem is requested on a case, the program shall give the court the name of the person it recommends. The program shall attempt to match a child with special needs with a guardian ad litem who has specific training or education related to the child's individual needs. The court shall immediately appoint the person recommended by the program.

((10) (10) If a party in a case reasonably believes the court-appointed special advocate or volunteer guardian ad litem is inappropriate or unqualified, the party may request a review of the appointment by the program. The program must complete the review within five judicial days and remove any appointee for good cause. If the party seeking the review is not satisfied with the outcome of the review, the party may file a motion with the court for the removal of the court-appointed special advocate or volunteer guardian ad litem on the grounds the advocate or volunteer is inappropriate or unqualified.

One hundred twenty days of imprisonment and one hundred fifty days of electronic home monitoring may not be suspended unless the court finds that the imposition of this mandatory minimum sentence would impose a substantial risk to the offender's physical or mental well-being. (9) **Driver's license privileges of the defendant.** The license, permit, or nonresident privilege of a person convicted of driving or being in physical control of a motor vehicle while under the influence of intoxicating liquor or drugs must:

(a) **Penalty for alcohol concentration less than 0.15.** If the person's alcohol concentration was less than 0.15, or if for reasons other than the person's refusal to take a test offered under RCW 46.20.308 there is no test result indicating the person's alcohol concentration:

(ii) Where there has been one prior offense within seven years, be revoked or denied by the department for three years; or
(iii) Where there have been two or more previous offenses within seven years, be revoked or denied by the department for four years.

The department shall grant credit on a day-for-day basis for any portion of a suspension, revocation, or denial already served under this subsection for a suspension, revocation, or denial imposed under RCW 46.20.3101 arising out of the same incident.

Upon its own motion or upon motion by a person, a court may find, on the record, that notice to the department under RCW 46.20.270 has been delayed for three years or more as a result of a clerical or court error. If so, the court may order that the person's license, permit, or nonresident privilege shall not be revoked, suspended, or denied for that offense. The court shall send notice of the finding and order to the department and to the person. Upon receipt of the notice from the court, the department shall not revoke, suspend, or deny the license, permit, or nonresident privilege of the person for that offense.

For purposes of this subsection (9), the department shall refer to the driver's record maintained under RCW 46.52.120 when determining the existence of prior offenses.

(10) **Probation of driving privilege.** After expiration of any period of suspension, revocation, or denial of the offender's license, permit, or privilege to drive required by this section, the department shall place the offender's driving privilege in probationary status pursuant to RCW 46.20.355.

(11) **Conditions of probation.** (a) In addition to any nonsuspendable and nondeferrable jail sentence required by this section, whenever the court imposes up to three hundred sixty-four days in jail, the court shall also suspend but shall not defer a period of confinement for a period not exceeding five years. The court shall impose conditions of probation that include: (i) Not driving a motor vehicle within this state without a valid license to drive and proof of liability insurance or other financial responsibility for the future pursuant to RCW 46.30.020; (ii) not driving or being in physical control of a motor vehicle within this state while having an alcohol concentration of 0.08 or more or a THC concentration of 5.00 nanograms per milliliter of whole blood or higher, within two hours after driving; and (iii) not refusing to submit to a test of his or her breath or blood to determine alcohol or drug concentration upon request of a law enforcement officer who has reasonable grounds to believe the person was driving or was in actual physical control of a motor vehicle within this state while under the influence of intoxicating liquor or drug. The court may impose conditions of probation that include nonrepetition, installation of an ignition interlock device on the probationer's motor vehicle, alcohol or drug treatment, supervised probation, or other conditions that may be appropriate. The sentence may be imposed in whole or in part upon violation of a condition of probation during the suspension period.

(b) For each violation of mandatory conditions of probation under (a)(i), (ii), or (iii) of this subsection, the court shall order the convicted person to be confined for thirty days, which shall not be suspended or deferred.

(c) For each incident involving a violation of a mandatory condition of probation imposed under this subsection, the license, permit, or privilege to drive of the person shall be suspended by the court for thirty days or, if such license, permit, or privilege to drive already is suspended, revoked, or denied at the time the finding of probation violation is made, the suspension, revocation, or denial then in effect shall be extended by thirty days. The court shall notify the department of any suspension, revocation, or denial or any extension of a suspension, revocation, or denial imposed under this subsection.

(12) **Waiver of electronic home monitoring.** A court may waive the electronic home monitoring requirements of this chapter when:

(a) The offender does not have a dwelling, telephone service, or any other necessity to operate an electronic home monitoring system. However, if a court determines that an alcohol monitoring device utilizing wireless reporting technology is reasonably available, the court may require the person to obtain such a device during the period of required electronic home monitoring;
(b) The offender does not reside in the state of Washington; or
(c) The court determines that there is reason to believe that the offender would violate the conditions of the electronic home monitoring penalty.

Whenever the mandatory minimum term of electronic home monitoring is waived, the court shall state in writing the reason for
granting the waiver and the facts upon which the waiver is based, and shall impose an alternative sentence with similar punitive consequences. The alternative sentence may include, but is not limited to, use of an ignition interlock device, the 24/7 sobriety program monitoring, additional jail time, work crew, or work camp.

Whenever the combination of jail time and electronic home monitoring or alternative sentence would exceed three hundred sixty-four days, the offender shall serve the jail portion of the sentence first, and the electronic home monitoring or alternative portion of the sentence shall be reduced so that the combination does not exceed three hundred sixty-four days.

(13) Extraordinary medical placement. An offender serving a sentence under this section, whether or not a mandatory minimum term has expired, may be granted an extraordinary medical placement by the jail administrator subject to the standards and limitations set forth in RCW 9.94A.728(3).

MR. PRESIDENT:
The House passed SENATE BILL NO. 6415 with the following amendment(s): 6415 AMH APPG H4444.1

Strike everything after the enacting clause and insert the following:

"Sec. 1. RCW 9.94A.589 and 2002 c 175 s 7 are each amended to read as follows:

(1)(a) Except as provided in (b) (((d))) (c), or (d) of this subsection, whenever a person is to be sentenced for two or more current offenses, the sentence range for each current offense shall be determined by using all other current and prior convictions as if they were prior convictions for the purpose of the offender score: PROVIDED, That if the court enters a finding that some or all of the current offenses encompass the same criminal conduct then those current offenses shall be counted as one crime. Sentences imposed under this subsection shall be served concurrently. Consecutive sentences may only be imposed under the exceptional sentence provisions of RCW 9.94A.535. "Same criminal conduct," as used in this subsection, means two or more crimes that require the same criminal intent, are committed at the same time and place, and involve the same victim. This definition applies in cases involving vehicular assault or vehicular homicide even if the victims occupied the same vehicle.

(b) Whenever a person is convicted of two or more serious violent offenses arising from separate and distinct criminal conduct, the standard sentence range for the offense with the highest seriousness level under RCW 9.94A.515 shall be determined using the offender's prior convictions and other current convictions that are not serious violent offenses in the offender score and the standard sentence range for other serious violent offenses shall be determined by using an offender score of zero. The standard sentence range for any offenses that are not serious violent offenses shall be determined according to (a) of this subsection. All sentences imposed under (((d))) (c), or (d) of this subsection (1)(d) shall be served consecutively to each other and concurrently with sentences imposed under (a) of this subsection.

(c) If an offender is convicted under RCW 9.41.040 for unlawful possession of a firearm in the first or second degree and for the felony crimes of theft of a firearm or possession of a stolen firearm, or both, the standard sentence range for each of these current offenses shall be determined by using all other current and prior convictions, except other current convictions for the felony crimes listed in this subsection (1)(c), as if they were prior convictions. The offender shall serve consecutive sentences for each conviction of the felony crimes listed in this subsection (1)(c), and for each firearm unlawfully possessed.

(d) All sentences imposed under RCW 46.61.502(6), 46.61.504(6), or 46.61.5055(4) shall be served consecutively with any sentences imposed under RCW 46.20.740 and 46.20.750.

(2)(a) Except as provided in (b) of this subsection, whenever a person while under sentence for conviction of a felony commits another felony and is sentenced to another term of confinement, the latter term shall not begin until expiration of all prior terms.

(b) Whenever a second or later felony conviction results in community supervision with conditions not currently in effect, under the prior sentence or sentences of community supervision the court may require that the conditions of community supervision contained in the second or later sentence begin during the immediate term of community supervision and continue throughout the duration of the consecutive term of community supervision.

(3) Subject to subsections (1) and (2) of this section, whenever a person is sentenced for a felony that was committed while the person was not under sentence for conviction of a felony, the sentence shall run concurrently with any felony sentence which has been imposed by any court in this or another state or by a federal court subsequent to the commission of the crime being sentenced unless the court pronouncing the current sentence expressly orders that they be served consecutively.

If, based upon notification from the interlock provider or otherwise, the department determines that an ignition interlock required under this section is no longer installed or functioning as required, the department shall suspend the person's license or privilege to drive. Whenever the license or driving privilege of any person is suspended or revoked as a result of noncompliance with an ignition interlock requirement, the suspension shall remain in effect until the person provides notice issued by a company doing business in the state that a vehicle owned or operated by the person is equipped with a functioning ignition interlock device.

(2) It is a gross misdemeanor for a person with such a notation on his or her driving record to operate a motor vehicle that is not so equipped.

(3) Any sentence imposed for a violation of subsection (2) of this section shall be served consecutively with any sentence imposed under RCW 46.20.750, 46.61.502, 46.61.504, or 46.61.5055.

(2) A person who knowingly assists another person who is restricted to the use of a vehicle equipped with an ignition interlock device to circumvent the device or to start and operate that vehicle in violation of a court order is guilty of a gross misdemeanor. The provisions of this subsection do not apply if the starting of a motor vehicle, or the request to start a motor vehicle, equipped with an ignition interlock device is done for the purpose of safety or mechanical repair of the device or the vehicle and the person subject to the court order does not operate the vehicle.

MESSAGE FROM THE HOUSE

March 6, 2014

MR. PRESIDENT:
The House passed SECOND SUBSTITUTE SENATE BILL NO. 6163 with the following amendment(s): 6163-S2 AMH ED H4343.3

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. (1) The legislature finds that studies have documented that many students experience learning losses when they do not engage in educational activities during the summer. The legislature further finds that research shows that summer learning loss contributes to educational opportunity gaps between students, and that falling behind in academics can be a predictor of whether a student will drop out of school. The legislature recognizes that such academic regression has a disproportionate impact on low-income students.

(2) The legislature further finds that expanded learning opportunities, including those offered by partnerships between schools and community-based organizations, create enriching experiences for youth, with activities that complement and support classroom-based instruction. The legislature acknowledges that access to quality expanded learning opportunities during the school year and summer helps mitigate summer learning loss and improves academic performance, attendance, on-time grade advancement, and classroom behaviors.

(3) Therefore the legislature intends to build capacity, identify best practices, leverage local resources, and promote a sustainable expanded learning opportunities system by providing an infrastructure that helps coordinate expanded learning opportunities throughout the state. To the extent funds are provided for this purpose, the legislature also intends to authorize a pilot program specifically to combat summer learning loss through expanded learning opportunities, which will provide the opportunity to evaluate the effectiveness of an extended school year in improving student achievement, closing the educational opportunity gap, and providing successful models for other districts to follow.

NEW SECTION. Sec. 2. DEFINITION OF EXPANDED LEARNING OPPORTUNITIES. As used in this section and sections 3 through 7 of this act, "expanded learning opportunities" means:

(1) Culturally responsive enrichment and learning activities, which may focus on academic and nonacademic areas; the arts; civic engagement; service-learning; science, technology, engineering, and mathematics; and competencies for college and career readiness;

(2) School-based programs that provide extended learning and enrichment for students beyond the traditional school day, week, or calendar; and

(3) Structured, intentional, and creative learning environments outside the traditional school day that are provided by community-based organizations in partnership with schools and align in-school and out-of-school learning through activities that complement classroom-based instruction.

NEW SECTION. Sec. 3. CREATION OF COUNCIL. (1) The expanded learning opportunities council is established to advise the governor, the legislature, and the superintendent of public instruction regarding a comprehensive expanded learning opportunities system, with particular attention paid to solutions to summer learning loss.

(2) The council shall provide a vision, guidance, assistance, and advice related to potential improvement and expansion of summer learning opportunities, school year calendar modifications that will help reduce summer learning loss, increasing partnerships between schools and community-based organizations to deliver expanded learning opportunities, and other current or proposed programs and initiatives across the spectrum of early elementary through secondary education that could contribute to a statewide system of expanded learning opportunities.

(3) The council shall identify fiscal, resource, and partnership opportunities; coordinate policy development; set quality standards; promote evidence-based strategies; and develop a comprehensive action plan designed to implement expanded learning opportunities, address summer learning loss, provide academic supports, build strong partnerships between schools and community-based organizations, and track performance of expanded learning opportunities in closing the opportunity gap.

(4) When making recommendations regarding evidence-based strategies, the council shall consider the best practices on the state menus developed in accordance with RCW 28A.165.035 and 28A.655.235.

(5) The superintendent of public instruction shall convene the expanded learning opportunities council. The members of the council must have experience with expanded learning opportunities and include groups and agencies representing diverse student interests and geographical locations across the state. Up to fifteen participants, agencies, organizations, or individuals may be invited to participate in the council, and the membership shall include the following:

(a) Three representatives from nonprofit community-based organizations;

(b) One representative from regional work force development councils;

(c) One representative from each of the following organizations or agencies:

(i) The Washington state school directors' association;

(ii) The state-level association of school administrators;

(iii) The state-level association of school principals;

(iv) The state board of education;
(v) The statewide association representing certificated classroom teachers and educational staff associates;
(vi) The office of the superintendent of public instruction;
(vii) The state-level parent–teacher association;
(viii) Higher education; and
(ix) A nonprofit organization with statewide experience in expanded learning opportunities frameworks.

(6) Staff support for the expanded learning opportunity council shall be provided by the office of the superintendent of public instruction and other state agencies as necessary. Appointees of the council shall be selected by May 30, 2014. The council shall hold its first meeting before August 1, 2014. At the first meeting, the council shall determine regularly scheduled meeting times and locations.

NEW SECTION. Sec. 4. REPORTS FROM COUNCIL.
(1) The expanded learning opportunities council shall provide a report to the governor and the legislature by December 1, 2014, and each December 1st thereafter until December 1, 2018, that summarizes accomplishments, measures progress, and contains recommendations regarding continued development of an expanded learning opportunities system and reducing summer learning loss.

(2) If funds are appropriated for a summer knowledge improvement pilot program as provided under sections 5 through 7 of this act or other initiatives to reduce summer learning loss or increase expanded learning opportunities, the expanded learning opportunities council shall monitor the progress of the program or initiative and serve as a resource for participating schools and community-based organizations. The council shall also oversee an evaluation of the effectiveness of the program or initiative in reducing summer learning loss and improving student academic progress.

(3) If new funds are not appropriated for a summer knowledge improvement pilot program or other initiatives to reduce summer learning loss, the first report from the council, and any subsequent reports as necessary, shall include recommendations for a framework and action plan for a program to reduce summer learning loss through the provision of state funds for additional student learning days in elementary schools with significant populations of low-income students. The council may also recommend additional strategies to reduce summer learning loss, including through expanded learning opportunities offered in partnership between schools and community-based organizations.

NEW SECTION. Sec. 5. SUMMER KNOWLEDGE IMPROVEMENT PILOT PROGRAM. (1) Subject to funds being appropriated for this specific purpose, the summer knowledge improvement pilot program is created to provide state funding for an additional twenty student learning days for three consecutive school years in selected schools for students to receive academic instruction outside of the school year established for other schools in the school district.

(2) If appropriated, state funding for each school in the pilot program shall be equal to twenty days of the average daily per student amount of all basic education and nonbasic education funding provided by the state to the school for the regular one hundred eighty-day school year, including for pupil transportation. Nonstate-provided funds may also be used to support the pilot program.

(3) The purpose of the pilot program is to implement an extended school year to combat summer learning loss and provide an opportunity to evaluate the effectiveness of an extended school year in improving student achievement, closing the educational opportunity gap, and providing successful models for other districts to follow.

NEW SECTION. Sec. 6. PLAN PROCESS AND COMPONENTS. (1) Any school district with an eligible school may submit a plan to the office of the superintendent of public instruction to participate in the summer knowledge improvement pilot program. A plan may address one or more eligible schools. The office shall establish timelines for submitting and reviewing applications.

(2) For the purposes of this section, "eligible school" means any school that provides instruction to students in at least grades kindergarten through five where at least seventy-five percent of the enrolled students qualify for free and reduced-price meals.

(3) The school district board of directors must solicit input on the design of the plan from staff at the school, parents, and the community, including at an open public meeting. The final plan must be adopted by the school district board of directors at a subsequent open public meeting before the plan is submitted to the office of the superintendent of public instruction.

(4) A plan must include, but is not limited to, the following components:
   (a) Proposed best practices and evidence-based strategies, curriculum, and materials for improving student achievement and closing the educational opportunity gap to be implemented over the extra twenty days for all students enrolled in the school. The best practices and evidence-based strategies, curriculum, and materials must be comparable to or higher in academic rigor than those used during the regular school year;
   (b) A description of when the additional twenty days will be provided;
   (c) Identification of the measures that the school district will use in assessing student achievement;
   (d) Evidence that the principal of the school and at least seventy percent of the certificated and classified staff who work in the school at least two days per week agree to the plan;
   (e) Whether the school will collaborate with community-based organizations to provide support for students during the additional twenty days and for the rest of the summer, and if so, the details of this collaboration; and
   (f) An agreement to provide information necessary for a program evaluation.

NEW SECTION. Sec. 7. SELECTION OF SCHOOLS AND DISTRICTS. (1) The office of the superintendent of public instruction must review the plans submitted in accordance with section 6 of this act and select up to ten schools for participation in the pilot program, or as many schools as can be supported through the appropriated funds. To the extent practicable, the selected school districts shall be from diverse geographic regions of the state and include different sizes of school districts and schools.

(2) The selection criteria must include, but are not limited to, the following determinations:
   (a) All of the required plan components are completed;
   (b) The likelihood that the proposed best practices and evidence-based strategies, curriculum, and materials will improve student achievement and close the educational opportunity gap; and
   (c) Any additional criteria that the office of the superintendent of public instruction deems necessary to ensure a high quality pilot program.

NEW SECTION. Sec. 8. Sections 2 through 7 of this act are each added to chapter 28A.630 RCW.

NEW SECTION. Sec. 9. This act expires August 31, 2019."

The plan shall, to the maximum extent possible, incorporate voluntary agreements with the private sector and state agencies to provide sites for the collection of used oil. Where provided, the plan shall also incorporate residential collection of used oil:

(b) A plan for enforcing the sign and container ordinances required by RCW 70.95I.040;

(c) A plan for public education on used oil recycling;

(d) A plan for addressing best management practices as provided for under RCW 70.95I.030; and

(e) An estimate of funding needed to implement the requirements of this chapter. This estimate shall include a budget reserve for disposal of contaminated oil detected at any public used oil collection site administered by the local government.

(2) By July 1, 1993, each local government or combination of contiguous local governments shall submit its used oil recycling element to the department. The department shall approve or
disapprove the used oil recycling element by January 1, 1994, or within ninety days of submission, whichever is later. The department shall approve or disapprove the used oil recycling element if it determines that the element is consistent with this chapter and the guidelines developed by the department under RCW 70.95I.030.

(3) Each local government, or combination of contiguous local governments, shall submit an annual statement to the department describing the number of used oil collection sites and the quantity of household used oil recycled for the jurisdiction during the previous calendar year. The first statement shall be due April 1, 1994. Subsequent statements shall be due April 1st of each year.

(4) Nothing in this section shall be construed to require a city or county to construct or operate a public used oil collection site.

Sec. 2. RCW 70.95I.030 and 1991 c 319 s 304 are each amended to read as follows:

(1) (By July 1, 1992.) The department shall, in consultation with local governments, maintain guidelines for the used oil recycling elements required by RCW 70.95I.020 and, by July 1, 2015, shall develop best management practices for preventing and managing polychlorinated biphenyl contamination at public used oil collection sites.

(a) The guidelines shall:

(i) Require development of local collection and re-refining goals for household used oil for each entity preparing a used oil recycling element under RCW 70.95I.020;

(ii) Require local government to recommend the number of used oil collection sites needed to meet the local goals. The department shall establish criteria regarding minimum levels of used oil collection sites;

(iii) Require local government to identify locations suitable as public used oil collection sites as described under RCW 70.95I.020(1)(a).

(b) The best management practices for preventing and managing polychlorinated biphenyl contamination at public used oil collection sites must include, at a minimum:

(i) Tank testing requirements;

(ii) Contaminated tank labeling and security measures;

(iii) Contaminated tank cleanup standards;

(iv) Proper contaminated used oil disposal as required under chapter 70.105 RCW and 40 C.F.R. Part 761;

(v) Spill control measures; and

(vi) Model contract language for contracts with used oil collection vendors.

(2) The department may waive all or part of the specific requirements of RCW 70.95I.020 if a local government demonstrates to the satisfaction of the department that the objectives of this chapter have been met.

(3) The department may prepare and implement a used oil recycling plan for any local government failing to complete the used oil recycling element of the plan.

(4) The department shall develop statewide collection and re-refining goals for household used oil for each calendar year beginning with calendar year 1994. Goals shall be based on the estimated statewide collection and re-refining rate for calendar year 1993, and shall increase each year until calendar year 1996, when the rate shall be eighty percent.

(5) By July 1, 1992, the department shall update the guidelines establishing statewide equipment and operating standards for public used oil collection sites. The updated guidelines must include the best management practices for prevention and management of contaminated used oil developed pursuant to subsection (1) of this section and a process for how to petition the legislature for relief of extraordinary costs incurred with the management and disposal of contaminated used oil. In addition, the standards shall:

(a) Allow the use of used oil collection igloos and other types of portable used oil collection tanks;

(b) Prohibit the disposal of nonhousehold-generated used oil;

(c) Limit the amount of used oil deposited to five gallons per household per day;

(d) Ensure adequate protection against leaks and spills; and

(e) Include other requirements deemed appropriate by the department.

NEW SECTION. Sec. 3. A new section is added to chapter 43.21A RCW to read as follows:

(1) Cities and counties may submit a petition to the department for reimbursement of extraordinary costs associated with managing unforeseen consequences of used oil contaminated with polychlorinated biphenyl and compliance with United States environmental protection agency enforcement orders and enforcement-related agreements.

(2) The department, in consultation with city and county moderate risk waste coordinators, the United States environmental protection agency, and other stakeholders, must process and prioritize city and county petitions that meet the following conditions:

(a) The petitioning city or county has followed and met:

(i) The updated best management practices guidelines for the collection and management of used oil; and

(ii) The best management practices for preventing and managing polychlorinated biphenyl contamination, as required under RCW 70.95I.030; and

(b) The department has determined that:

(i) The costs to the petitioning city or county for disposal of the contaminated oil or for compliance with United States environmental protection agency enforcement orders or enforcement related agreements are extraordinary; and

(ii) The city or county could not reasonably accommodate or anticipate the extraordinary costs in their normal budget processes by following and meeting the best management practices for oil contaminated with polychlorinated biphenyl.

(3) Before January 1st of each year, the department must develop and submit to the appropriate fiscal committees of the senate and house of representatives a prioritized list of submitted petitions that the department recommends for funding by the legislature. It is the intent of the legislature that if funded, the reimbursement of extraordinary city or county costs associated with polychlorinated biphenyl management and compliance activities come from the model toxics control accounts.”

MESSAGE FROM THE HOUSE

March 7, 2014

MR. PRESIDENT:
The House passed ENGROSSED SENATE BILL NO. 6031 with the following amendment(s): 6031.E AMH FIN H4404.1

Strike everything after the enacting clause and insert the following:

"Sec. 1. RCW 36.61.010 and 2008 c 301 s 1 are each amended to read as follows:

(1) The legislature finds that the environmental, recreational, and aesthetic values of many of the state's lakes are threatened by eutrophication and other deterioration and that existing governmental authorities are unable to adequately improve and maintain the quality of the state's lakes.

(2) The legislature intends that an ecosystem-based beach management approach should be used to help promote the health of aquatic ecosystems and that such a management approach be undertaken in a manner that retains ecosystem values within the state. This management approach should use long-term strategies that focus on reducing nutrient inputs from human activities affecting the aquatic ecosystem, such as decreasing nutrients into storm water sewers, decreasing fertilizer application, promoting the proper disposal of pet waste, promoting the use of vegetative borders, promoting the reduction of nutrients from on-site septic systems where appropriate, and protecting riparian areas. Organic debris, including vegetation, driftwood, seaweed, kelp, and organisms, are extremely important to beach ecosystems.

(3) The legislature further finds that it is in the public interest to promote the conservation and stewardship of shorelines and upland properties adjoining lakes and beaches in order to: (a) Conserve natural or scenic resources; (b) protect riparian habitats and water quality; (c) promote conservation of soils, wetlands, shorelines, or tidal marshes; (d) enhance the value of lakes or beaches to the public as well as the benefit of abutting or neighboring parks, forests, wildlife preserves, nature reservations or sanctuaries, or other open space; (e) enhance recreation opportunities; (f) preserve historic sites; and (g) protect visual quality along highway, road, street, trail, recreational, and other corridors or scenic vistas.

(4) It is the purpose of this chapter to establish a governmental mechanism by which property owners can embark on a program of lake or beach improvement and maintenance for their and the general public's benefit, health, and welfare. Public property, including state property, shall be considered the same as private property in this chapter, except liens for special assessments and liens for rates and charges shall not extend to public property. Lake bottom property and marine property below the line of the ordinary high water mark shall not be considered to be beneficial, shall not be subject to special assessments or rates and charges, and shall not receive voting rights under this chapter.

Sec. 2. RCW 36.61.020 and 2008 c 301 s 3 are each amended to read as follows:

(1) Any county may create lake or beach management districts to finance: (a) The improvement and maintenance of lakes or beaches located within or partially within the boundaries of the county; and (b) the acquisition of real property or property rights within or outside a lake or beach management district including, by way of example, conservation easements authorized under RCW 64.04.130, and to promote the conservation and stewardship of shorelines as well as the conservation and stewardship of upland properties adjoining lakes or beaches for conservation or for minimal development. All or a portion of a lake or beach and the adjacent land areas may be included within one or more lake or beach management districts. More than one lake or beach, or portions of lakes or beaches, and the adjacent land areas may be included in a single lake or beach management district.

(2) For the purposes of this chapter, the term "improvement" includes, among other things, the acquisition of real property and property rights within or outside a lake or beach management district for the purposes set forth in RCW 36.61.010 and this section.

(3) Special assessments or rates and charges may be imposed on the property included within a lake or beach management district to
finance lake or beach improvement and maintenance activities, including: ((4))) (a) Controlling or removing aquatic plants and vegetation; ((2))) (b) improving water quality; ((2))) (c) controlling water levels; ((4))) (d) treating and diverting storm water; ((4))) (e) controlling agricultural waste; ((4))) (f) studying lake or marine water quality problems and solutions; ((4))) (g) cleaning and maintaining ditches and streams entering the lake or marine waters or leaving the lake; ((4))) (h) monitoring air quality; (j) the acquisition of real property and property rights; and ((4))) (i) the related administrative, engineering, legal, and operational costs, including the costs of creating the lake or beach management district.

(4) Special assessments or rates and charges may be imposed annually on all the land in a lake or beach management district for the duration of the lake or beach management district without a related issuance of lake or beach management district bonds or revenue bonds. Special assessments also may be imposed in the manner of special assessments in a local improvement district with each landowner being given the choice of paying the entire special assessment in one payment, or to paying installments, with lake or beach management district bonds being issued to obtain moneys not derived by the initial full payment of the special assessments, and the installments covering all of the costs related to issuing, selling, and redeeming the lake or beach management district bonds.

NEW SECTION. Sec. 3. A new section is added to chapter 36.61 RCW to read as follows:

A proposal to acquire real property or property rights within or outside of a lake or beach management district in accordance with RCW 36.61.020 is subject to the following limitations and requirements: (1) The real property or property rights proposed for acquisition must be in a county located west of the crest of the Cascade mountain range that plans under RCW 36.70A.040 and has a population of more than forty thousand and fewer than sixty-five thousand persons as of April 1, 2013, as determined by the office of financial management; and (2) prior to the acquisition of real property or property rights, the proposal must have the written approval of a majority of the property owners of the district, as determined by the tax rolls of the county assessor.

Sec. 4. RCW 36.61.070 and 2008 c 301 s 9 are each amended to read as follows:

(1) After the public hearing, the county legislative authority may adopt a resolution submitting the question of creating the lake or beach management district to the owners of land within the proposed lake or beach management district, including publicly owned land, if the county legislative authority finds that it is in the public interest to create the lake or beach management district and the financing of the lake or beach improvement and maintenance activities is feasible. The resolution shall also include: ((4))) (a) A plan describing the proposed lake or beach improvement and maintenance activities which avoid adverse impacts on fish and wildlife and provide for appropriate measures to protect and enhance fish and wildlife; ((2))) (b) the number of years the lake or beach management district will exist; ((2))) (c) the amount to be raised by special assessments or rates and charges; ((4))) (d) if special assessments are to be imposed, whether the special assessments shall be imposed annually for the duration of the lake or beach management district or only once with the possibility of installments being imposed and lake or beach management bonds being issued, or both, and, if both types of special assessments are proposed to be imposed, the lake or beach improvement or maintenance activities proposed to be financed by each type of special assessment; ((8))) (e) if rates and charges are to be imposed, a description of the proposed rates and charges and the possibility of revenue bonds being issued that are payable from the rates and charges; and ((4))) (f) the estimated special assessment or rate and charge proposed to be imposed on each parcel included in the proposed lake or beach management district.

(2) No lake or beach management district may be created by a county that includes territory located in another county without the approval of the legislative authority of the other county.

Sec. 5. RCW 36.61.220 and 2008 c 301 s 21 are each amended to read as follows:

Within ((fifteen)) thirty days after a county creates a lake or beach management district, the county shall cause to be filed with the county treasurer, a description of the lake or beach improvement and maintenance activities proposed that the lake or beach management district finances, the lake or beach management district number, and a copy of the diagram or print showing the boundaries of the lake or beach management district and preliminary special assessment roll or abstract of the same showing thereon the lots, tracts, parcels of land, and other property that will be specially benefitted thereby and the estimated cost and expense of such lake or beach improvement and maintenance activities to be borne by each lot, tract, parcel of land, or other property. The treasurer shall immediately post the proposed special assessment roll upon his or her index of special assessments against the properties affected by the lake or beach improvement or maintenance activities.

Sec. 6. RCW 36.61.250 and 1985 c 398 s 25 are each amended to read as follows:

Except when lake or beach management district bonds are outstanding or when an existing contract might otherwise be impaired, the county legislative authority may stop the imposition of additional special assessments if, in its opinion, the public interest will be served by such action.

Sec. 7. RCW 36.61.260 and 2008 c 301 s 23 are each amended to read as follows:

(1) Counties may issue lake or beach management district revenue bonds in accordance with this section. Lake or beach management district bonds may be issued to obtain money sufficient to cover that portion of the special assessments that are not paid within the thirty-day period provided in RCW 36.61.190.

(2) Whenever lake or beach management district revenue bonds are proposed to be issued, the county legislative authority shall create a special fund or funds for the lake or beach management district from which all or a portion of the costs of the lake or beach improvement and maintenance activities shall be paid. Lake or beach management district bonds shall not be issued in excess of the costs and expenses of the lake or beach improvement and maintenance activities and shall not be issued prior to twenty days after the thirty days allowed for the payment of special assessments without interest or penalties.

((4))) (4)(a) Lake or beach management district revenue bonds shall not constitute a general indebtedness of the county issuing the bond nor an obligation, general or special, of the state. The owner of any lake or beach management district revenue bond shall not have any claim for the payment thereof against the county that issues the bonds except for: (i) With respect to revenue bonds payable from special assessments, payment from the special assessments made for the lake or beach improvement or maintenance activities for which the lake or beach management district bond was issued and from the special fund or funds, and a lake or beach management district guaranty fund, that may have been created; and (ii) with respect to revenue bonds payable from rates and charges, payment from rates and charges deposited in the special fund or funds that the county may have created for that

The owner of a lake or beach management district bond shall not have any claim against the state arising from the lake or beach management district bond, rates and charges, special assessments, or guaranty fund. Tax revenues shall not be used to secure or guarantee the payment of the principal of or interest on lake or beach management district bonds. Notwithstanding the provisions of this subsection, nothing in this section may be interpreted as limiting a county's issuance of bonds pursuant to RCW 36.67.010 in order to assist in the financing of improvements to lakes or beaches located within or partially within the boundaries of the county, including without limitation lakes or beaches located within a lake or beach management district.

(b) The substance of the limitations included in this subsection (4) shall be plainly printed, written, engraved, or reproduced on: ((4)) (1) Each lake or beach management district bond that is a physical instrument; (ii) the official notice of sale; and ((4i)) (ii) each official statement associated with the lake or beach management district bonds.

Any number of owners of lake or beach management districts may join as plaintiffs.

A county may create a lake or beach management district bond guaranty fund for each issue of lake or beach management district bonds. The guaranty fund shall only exist for the life of the lake or beach management district bonds with which it is associated. A portion of the bond proceeds may be placed into a guaranty fund. Unused moneys remaining in the guaranty fund during the last two years of the installments shall be used to proportionally reduce the required level of installments and shall be transferred into the special fund into which installment payments are placed. A county may, in the discretion of the legislative authority of the county, deposit amounts into a lake or beach management district bond guaranty fund from any money legally available for that purpose. MESSAGE FROM THE HOUSE

March 7, 2014

MR. PRESIDENT:
NEW SECTION. Sec. 1. This section is the tax preference performance statement for the tax preference contained in RCW 84.14.040 and 84.14.060. This performance statement is only intended to be used for subsequent evaluation of the tax preference. It is not intended to create a private right of action by any party or be used to determine eligibility for preferential tax treatment.

(1) The legislature categorizes this tax preference as one intended to induce certain designated behavior by taxpayers, as indicated in RCW 82.32.808(2)(a).

(2) It is the legislature's specific public policy objective to stimulate the construction of new multifamily housing in urban growth areas located in unincorporated areas of rural counties where housing options, including affordable housing options, are severely limited. It is the legislature's intent to provide the value of new housing construction, conversion, and rehabilitation improvements qualifying under chapter 84.14 RCW an exemption from ad valorem property taxation for eight to twelve years, as provided for in RCW 84.14.020, in order to provide incentives to developers to construct new multifamily housing thereby increasing the number of affordable housing units for low to moderate-income residents in certain rural counties.

(3) If a review finds that at least twenty percent of the new housing is developed and occupied by households making at or below eighty percent of the area median income, at the time of occupancy, adjusted for family size for the county where the project is located or where the housing is intended exclusively for owner occupancy, the household may earn up to one hundred fifteen percent of the area median income, at the time of sale, adjusted for family size for the county where the project is located, then the legislature intends to extend the expiration date of the tax preference.

(4) In order to obtain the data necessary to perform the review in subsection (3) of this section, the joint legislative audit and review committee may refer to data provided by counties in which beneficiaries are utilizing the preference, the office of financial management, the department of commerce, the United States department of housing and urban development, and other data sources as needed by the joint legislative audit and review committee.

Sec. 2. RCW 84.14.007 and 2012 c 194 s 1 are each amended to read as follows:

It is the purpose of this chapter to encourage increased residential opportunities, including affordable housing opportunities, in cities that are required to plan or choose to plan under the growth management act within urban centers where the governing authority of the affected city has found there is insufficient housing opportunities, including affordable housing opportunities. It is further the purpose of this chapter to stimulate the construction of new multifamily housing and the rehabilitation of existing vacant and underutilized buildings for multifamily housing in urban centers having insufficient housing opportunities that will increase and improve residential opportunities, including affordable housing opportunities, within these urban centers. To achieve these purposes, this chapter provides for special valuations in residentially deficient urban centers for eligible improvements associated with multiunit housing, which includes affordable housing. It is an additional purpose of this chapter to allow unincorporated areas of rural counties that are within urban growth areas to stimulate housing opportunities and for certain counties to stimulate housing opportunities near college campuses to promote dense, transit-oriented, walkable college communities.

Sec. 3. RCW 84.14.010 and 2012 c 194 s 2 are each reenacted and amended to read as follows:

"Affordable housing" means residential housing that is rented by a person or household whose monthly housing costs, including utilities other than telephone, do not exceed thirty percent of the household's monthly income. For the purposes of housing intended for owner occupancy, "affordable housing" means residential housing that is within the means of low or moderate-income households.

"Campus facilities master plan" means the area that is defined by the University of Washington as necessary for the future growth and development of its campus facilities for branch campuses authorized under RCW 28B.45.020.

"City" means either (a) a city or town with a population of at least fifteen thousand, (b) the largest city or town, if there is no city or town with a population of at least fifteen thousand, located in a county planning under the growth management act, or (c) a city or town with a population of at least five thousand located in a county subject to the provisions of RCW 36.70A.215.

"County" means a county with an unincorporated population of at least three hundred fifty thousand.

"Low-income household" means a single person, family, or unrelated persons living together whose adjusted income is at or below eighty percent of the median family income adjusted for family size, for the county where the project is located, as reported by the United States department of housing and urban development. For cities located in high-cost areas, "low-income household" means a household that has an income at or below one hundred percent of the median family income adjusted for family size, for the county where the project is located.

"Moderate-income household" means a single person, family, or unrelated persons living together whose adjusted income is more than eighty percent but is at or below one hundred fifteen percent of the median family income adjusted for family size, for the county where the project is located, as reported by the United States department of housing and urban development. For cities located in high-cost areas, "moderate-income household" means a household that has an income that is more than one hundred percent, but at or below one hundred fifty percent, of the median family income adjusted for family size, for the county where the project is located.

"Multiple-unit housing" means a building having four or more dwelling units not designed or used as transient accommodations and not including hotels and motels. Multifamily units may result from new construction or rehabilitated or conversion of vacant, underutilized, or substandard buildings to multifamily housing.

"Owner" means the property owner of record.

"Permanent residential occupancy" means multiunit housing that provides either rental or owner occupancy on a
nontransient basis. This includes owner-occupied or rental accommodation that is leased for a period of at least one month. This excludes hotels and motels that predominately offer rental accommodation on a daily or weekly basis.

(14) "Rehabilitation improvements" means modifications to existing structures, that are vacant for twelve months or longer, that are made to achieve a condition of substantial compliance with existing building codes or modification to existing occupied structures which increase the number of multifamily housing units.

(15) "Residential targeted area" means an area within an urban center or urban growth area that has been designated by the governing authority as a residential targeted area in accordance with this chapter. With respect to designations after July 1, 2007, "residential targeted area" may not include a campus facilities master plan.

(16) "Rural county" means a county with a population between fifty thousand and seventy-one thousand and bordering Puget Sound.

(17) "Substantial compliance" means compliance with local building or housing code requirements that are typically required for rehabilitation as opposed to new construction.

((45)) (18) "Urban center" means a compact identifiable district where urban residents may obtain a variety of products and services. An urban center must contain:

(a) Several existing or previous, or both, business establishments that may include but are not limited to shops, offices, banks, restaurants, governmental agencies;

(b) Adequate public facilities including streets, sidewalks, lighting, transit, domestic water, and sanitary sewer systems; and

(c) A mixture of uses and activities that may include housing, recreation, and cultural activities in association with either commercial or office, or both, use.

Sec. 4. RCW 84.14.040 and 2012 c 194 s 4 are each amended to read as follows:

(1) The following criteria must be met before an area may be designated as a residential targeted area:

(a) The area must be within an urban center, as determined by the governing authority;

(b) The area must lack, as determined by the governing authority, sufficient available, desirable, and convenient residential housing, including affordable housing, to meet the needs of the public who would be likely to live in the urban center, if the affordable, desirable, attractive, and livable places to live were available;

(c) The providing of additional housing opportunity, including affordable housing, in the area, as determined by the governing authority, will assist in achieving one or more of the stated purposes of this chapter; and

(d) If the residential targeted area is designated by a county, the area must be located in an unincorporated area of the county that is within an urban growth area under RCW 36.70A.110 and the area must be: (i) In a rural county, served by a sewer system and designated by a county prior to January 1, 2013; or (ii) in a county that includes a campus of an institution of higher education, as defined in RCW 28B.92.030, where at least one thousand two hundred students live on campus during the academic year.

(2) For the purpose of designating a residential targeted area or areas, the governing authority may adopt a resolution of intention so designate an area as generally described in the resolution. The resolution must state the time and place of a hearing to be held by the governing authority to consider the designation of the area and may include such other information pertaining to the designation of the area as the governing authority determines to be appropriate to apprise the public of the action intended.

(3) The governing authority must give notice of a hearing held under this chapter by publication of the notice once each week for two consecutive weeks, not less than seven days, nor more than thirty days before the date of the hearing in a newspaper having a general circulation in the city or county where the proposed residential targeted area is located. The notice must state the time, date, place, and purpose of the hearing and generally identify the area proposed to be designated as a residential targeted area.

(4) Following the hearing, or a continuance of the hearing, the governing authority may designate all or a portion of the area described in the resolution of intention as a residential targeted area if it finds, in its sole discretion, that the criteria in subsections (1) through (3) of this section have been met.

(5) After designation of a residential targeted area, the governing authority must adopt and implement standards and guidelines to be utilized in considering applications and making the determinations required under RCW 84.14.060. The standards and guidelines must establish basic requirements for both new construction and rehabilitation, which must include:

(a) Application process and procedures;

(b) Requirements that address demolition of existing structures and site utilization; and

(c) Building requirements that may include elements addressing parking, height, density, environmental impact, and compatibility with the existing surrounding property and such other amenities as will attract and keep permanent residents and that will properly enhance the livability of the residential targeted area in which they are to be located.

(6) The governing authority may adopt and implement, either as conditions to eight-year exemptions or as conditions to an extended exemption period under RCW 84.14.020(1)(a)(ii)(B), or both, more stringent income eligibility, rent, or sale price limits, including limits that apply to a higher percentage of units, than the minimum conditions for an extended exemption period under RCW 84.14.020(1)(a)(ii)(B). For any multiunit housing located in an unincorporated area of a county, a property owner seeking tax incentives under this chapter must commit to renting or selling at least twenty percent of the multifamily housing units as affordable housing units to low and moderate-income households. In the case of multiunit housing intended exclusively for owner occupancy, the minimum requirement of this subsection (6) may be satisfied solely through housing affordable to moderate-income households.

Sec. 5. RCW 84.14.060 and 2012 c 194 s 6 are each amended to read as follows:

(1) The duly authorized administrative official or committee of the city or county may approve the application if it finds that:

(a) A minimum of four new units are being constructed or in the case of occupied rehabilitation or conversion a minimum of four additional multifamily units are being developed;

(b) If applicable, the proposed multiunit housing project meets the affordability housing requirements as described in RCW 84.14.020;

(c) The proposed project is or will be, at the time of completion, in conformance with all local plans and regulations that apply at the time the application is approved;

(d) The owner has complied with all standards and guidelines adopted by the city or county under this chapter; and

(e) The site is located in a residential targeted area of an urban center or urban growth area that has been designated by the governing authority in accordance with procedures and guidelines indicated in RCW 84.14.040;

(2) An application may not be approved after July 1, 2007, if any part of the proposed project site is within a campus facilities master plan, except as provided in RCW 84.14.040(1)(d).

(3) An application may not be approved for a residential targeted area in a rural county on or after January 1, 2020.”

MESSAGE FROM THE HOUSE

March 5, 2014

MR. PRESIDENT:
The House passed ENGROSSED SENATE BILL NO. 5048 with the following amendment(s): 5048.E AMH JUDI H4431.1
Strike everything after the enacting clause and insert the following:

"Sec. 1. RCW 9A.52.010 and 2011 c 336 s 369 are each reenacted and amended to read as follows:

The following definitions apply in this chapter:

(1) "Access" means to approach, instruct, communicate with, store data in, retrieve data from, or otherwise make use of any resources of a computer, directly or by electronic means.

(2) "Computer program" means an ordered set of data representing coded instructions or statements that when executed by a computer cause the computer to process data.

(3) "Data" means a representation of information, knowledge, facts, concepts, or instructions that are being prepared or have been prepared in a formalized manner and are intended for use in a computer.

(4) "Enter." The word "enter" when constituting an element or part of a crime, shall include the entrance of the person, or the insertion of any part of his or her body, or any instrument or weapon held in his or her hand and used or intended to be used to threaten or intimidate a person or to detach or remove property.

(5) "Enters or remains unlawfully." A person "enters or remains unlawfully" in or upon premises when he or she is not then licensed, invited, or otherwise privileged to so enter or remain.

A license or privilege to enter or remain in a building which is only partly open to the public is not a license or privilege to enter or remain in that part of a building which is not open to the public. A person who enters or remains upon unimproved and apparently unused land, which is neither fenced nor otherwise enclosed in a manner designed to exclude intruders, does so with license and privilege unless notice against trespass is personally communicated to him or her by the owner of the land or some other authorized person, or unless notice is given by posting in a conspicuous manner. Land that is used for commercial aquaculture or for growing an agricultural crop or crops, other than timber, is not unimproved and apparently unused land if a crop or any other sign of cultivation is clearly visible or if notice is given by posting in a conspicuous manner. Similarly, a field fenced in any manner is not unimproved and apparently unused land. A license or privilege to enter or remain on improved and apparently used land that is open to the public at particular times, which is neither fenced nor otherwise enclosed in a manner to exclude intruders, is not a license or privilege to enter or remain on the land at other times if notice of prohibited times of entry is posted in a conspicuous manner.

(6) "Posting in a conspicuous manner" includes posting a sign or signs reasonably likely to come to the attention of intruders, indicating that entry is restricted or, if the property is located outside of urban growth areas and incorporated cities or towns, the placement of identifying fluorescent orange paint marks on trees or posts on property.

(a) Identifying fluorescent orange marks must be:
(i) Vertical lines not less than eight inches in length and not less than one inch in width;
(ii) Placed so that the bottom of the mark is between three and five feet from the ground; and
(iii) Placed at locations that are readily visible to any person approaching the property and no more than one hundred feet apart on forest land, as defined in RCW 76.09.020, or one thousand feet apart on land other than forest land.
(b) A landowner must use signs for posting in a conspicuous manner on access roads.

(7) "Premises" includes any building, dwelling, structure used for commercial aquaculture, or any real property."

MESSAGE FROM THE HOUSE

March 7, 2014

MR. PRESIDENT:

The House passed ENGROSSED SUBSTITUTE SENATE BILL NO. 6388 with the following amendment(s): 6388-S.E AMH ENGR H4422.E

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature finds that the availability of affordable, fresh, and nourishing foods is essential for individuals to maintain a healthy lifestyle. The legislature also finds that new methods of purchasing and delivering fresh, nourishing foods are emerging and lowering the costs of these foods. The legislature further finds that some of the new business models for purchasing and delivering fresh, nourishing foods are being inappropriately classified as food service establishments. Therefore, it is the intent of the legislature to establish a direct seller license for businesses that sell and collect payment only through a web site for prepackaged foods obtained from a food processor either licensed or inspected, or both, by a state or federal regulatory agency and that deliver the food directly to consumers without any interim storage.

NEW SECTION. Sec. 2. A new section is added to chapter 69.04 RCW to read as follows:

1. The department shall issue a license to operate as a direct seller to any entity that:

   a. Submits a completed application on forms approved by the department;

   b. Provides the department with a list of all leased, rented, or owned vehicles, other than vehicles that are rented for less than forty-five days, used by the applicant's business to deliver food;

   c. Maintains all records of vehicles that are rented for less than forty-five days for at least twelve months following the termination of the rental period;

   d. Maintains food temperature logs or uses a device to monitor the temperature of the packages in real time for all food while in transport; and

   e. Submits all appropriate fees to the department.

2. The department shall develop, by rule, an annual license and renewal fee to defray the costs of administering the licensing and inspection program created by this section. All moneys received by the department under the provisions of this section must be paid into the food processing inspection account created in RCW 69.07.120 and must be used solely to carry out the provisions of this section.

3(a) A licensed direct seller is required to protect food from contamination while in transport. Food must be transported under conditions that protect food against physical, chemical, and microbial contamination, as well as against deterioration of the food and its container.

(b) Compliance with this subsection (3) requires, but is not limited to, the separation of raw materials in such a fashion that they avoid cross-contamination of other food products, particularly ready-to-eat food. An example of this principle includes ensuring that, during the transport of raw fish and seafood, meat, poultry, or other food which inherently contains pathogenic and spoilage microorganisms, soil, or other foreign material, the raw materials may not come into direct contact with other food in the same container or in any other cross-contaminating circumstance.

4. In the event of a food recall or when required by the department, a federal, state, or local health authority in response to a food borne illness outbreak, a licensed direct seller shall use its client list service to notify customers of the recall and any other relevant information.

5. In the implementation of this section, the department shall:

   a. Conduct inspections of vehicles, food handling areas, refrigeration equipment, and product packaging used by a licensed direct seller;

   b. Conduct audits of temperature logs and other food handling records as appropriate;

   c. Investigate any complaints against a licensed direct seller for the failure to maintain food safety; and

   d. Adopt rules, in consultation with the department of health and local health jurisdictions, necessary to administer and enforce the program consistent with federal regulations.

6. Direct sellers that have a license from the department under this section are exempt from the permitting requirements of food service rules adopted by the state board of health and any local health jurisdiction.

7. The director may deny, suspend, or revoke any license provided under this section if the director determines that an applicant or licensee has committed any of the following:

   a. Refused, neglected, or failed to comply with the provisions of this section, the rules and regulations adopted under this section, or any order of the director;

   b. Refused, neglected, or failed to keep and maintain records required by this chapter, or refused the department access to such records;

   c. Refused the department access to any portion or area of vehicles, food handling areas, or any other areas or facilities housing equipment or product packaging used by the direct retailer in the course of performing business responsibilities; or
FIFTY EIGHTH DAY, MARCH 11, 2014

(d) Failed to submit an application for a license meeting the requirements of this section or failed to pay the appropriate annual license or renewal fee.

(8) The definitions in this subsection apply throughout this section unless the context clearly requires otherwise:

(a) "Department" means the department of agriculture.

(b) "Direct seller" means an entity that receives prepackaged food from a food processor that is either licensed or inspected, or both, by a state or federal regulatory agency or the department and that delivers the food directly to consumers who only placed and paid for an order on the entity's web site, as long as:

(i) The food is delivered by the entity without opening the packaging and without dividing it into smaller packages;

(ii) There is no interim storage by the entity; and

(iii) The food is delivered by means of vehicles that are equipped with either refrigeration or freezer units, or both, that delivers the food directly to consumers who on purchased the food from a food processor that is either licensed or inspected, or both, by a state or federal regulatory agency or the department.

Sec. 3. RCW 69.07.120 and 2011 c 281 § 12 are each amended to read as follows:

All moneys received by the department under the provisions of this chapter, section 2 of this act, and chapter 69.22 RCW shall be paid into the food processing inspection account hereby created within the agricultural local fund established in RCW 43.23.230 and shall be used solely to carry out the provisions of this chapter, section 2 of this act, and chapters 69.22 and 69.04 RCW.

Students excused for such temporary absences may be claimed as full- time equivalent students to the extent they would otherwise have been so claimed for the purposes of RCW 28A.150.250 and 28A.150.260 and may not affect school district compliance with the provisions of RCW 28A.150.220; or

(f) The child is sixteen years of age or older and:

(i) The child is regularly and lawfully employed and either the parent agrees that the child should not be required to attend school or the child is emancipated in accordance with chapter 13.64 RCW;

(ii) The child has already met graduation requirements in accordance with state board of education rules and regulations; or

(iii) The child has received a certificate of educational competence under rules and regulations established by the state board of education under RCW 28A.305.190.

(2) A parent for the purpose of this chapter means a parent, guardian, or person having legal custody of a child.

(3) An approved private school for the purposes of this chapter and chapter 28A.200 RCW shall be one approved under regulations established by the state board of education pursuant to RCW 28A.305.130.

(4) For the purposes of this chapter and chapter 28A.200 RCW, instruction shall be home-based if it consists of planned and
supervised instructional and related educational activities, including a curriculum and instruction in the basic skills of occupational education, science, mathematics, language, social studies, history, health, reading, writing, spelling, and the development of an appreciation of art and music, provided for a number of hours equivalent to the total annual program hours per grade level established for approved private schools under RCW 28A.195.010 and 28A.195.040 and if such activities are:

A certificated person for purposes of this chapter and chapter 28A.200 RCW shall be a person certified under chapter 28A.410 RCW. For purposes of this section, "supervised by a certificated person" means: The planning by the certificated person and the parent of objectives consistent with this subsection; a minimum each month of an average of one contact hour per week with the child being supervised by the certificated person; and evaluation of such child’s progress by the certificated person. The number of children supervised by the certificated person shall not exceed thirty for purposes of this subsection; or

(b) Provided by a parent who is instructing his or her child only and who has either earned forty-five college level quarter credit hours or its equivalent in semester hours or has completed a course in home-based instruction at a postsecondary institution or a vocational-technical institute; or

(c) Provided by a parent who is deemed sufficiently qualified to provide home-based instruction by the superintendent of the local school district in which the child resides.

(5) The legislature recognizes that home-based instruction is less structured and more experiential than the instruction normally provided in a classroom setting. Therefore, the provisions of subsection (4) of this section relating to the nature and quantity of instructional and related educational activities shall be liberally construed.

NEW SECTION. Sec. 4. A new section is added to chapter 28B.10 RCW to read as follows:

MOTION

Senator Liias moved that the following striking amendment by Senators Liias and Hill be adopted:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. This section is the tax preference performance statement for the tax credit and tax deferral contained in sections 2 and 3 of this act. This performance statement is only intended to be used for subsequent evaluation of the tax preferences. It is not intended to create a private right of action by any party or be used to determine eligibility for preferential tax treatment.

1) The legislature categorizes these tax preferences as intended to improve industry competitiveness and create or retain jobs, as indicated in RCW 82.32.808(2) (b) and (c).

2) It is the legislature's specific public policy objective to improve industry competitiveness and create or retain more jobs. It is the legislature's intent to provide a business and occupation tax credit for high-technology companies performing research and development and a sales and use tax deferral for certain construction and equipment purchases for new and expanding high-technology companies conducting research and development in the fields of advanced computing, advanced materials, biotechnology, electronic device technology, or environmental technology, in order to reduce the business costs of performing research and development in specified areas and to reduce the cost of certain construction and equipment purchases used for research and development, thereby encouraging investments in research and development, thereby increasing the number of firms in the industry performing research and development activities, thereby increasing the number of jobs performing research and development in the high-technology industry.

3) If a review finds that the number of businesses participating in the credit and deferral programs, and the overall number of jobs for businesses participating in the credit and deferral programs performing research and development, have increased compared to the number at the time of enactment, then the legislature intends to extend the expiration date of the tax preferences.

4) In order to obtain the data necessary to perform the review in subsection (3) of this section, the joint legislative audit and review committee may refer to: (a) Employment data available from the employment security department; and (b) the North American industrial code system (NAICS) from the department of revenue.

Sec. 2. RCW 82.04.4452 and 2010 c 114 s 114 are each amended to read as follows:

1) In computing the tax imposed under this chapter, a credit is allowed for each person whose research and development spending during the year in which the credit is claimed exceeds 0.92 percent of the person's taxable amount during the same calendar year.

2) The credit is calculated as follows:

(a) Determine the greater of the amount of qualified research and development expenditures of a person or eighty percent of amounts received by a person other than a public educational or research institution in compensation for the conduct of qualified research and development;

(b) Subtract 0.92 percent of the person's taxable amount from the amount determined under (a) of this subsection;

(c) Multiply the amount determined under (b) of this subsection by the following:

(i) For the period June 10, 2004, through December 31, 2006, the person's average tax rate for the calendar year for which the credit is claimed;

(ii) For the calendar year ending December 31, 2007, the greater of the person's average tax rate for that calendar year or 0.75 percent;

(iii) For the calendar year ending December 31, 2008, the greater of the person's average tax rate for that calendar year or 1.0 percent;

(iv) For the calendar year ending December 31, 2009, the greater of the person's average tax rate for that calendar year or 1.25 percent;

(v) For the calendar year ending December 31, 2010, and thereafter, 1.50 percent.

For purposes of calculating the credit, if a person's reporting period is less than annual, the person may use an estimated average tax rate for the calendar year for which the credit is claimed by using the person's average tax rate for each reporting period. A person who uses an estimated average tax rate must make an adjustment to the total credit claimed for the calendar year using the person's actual average tax rate for the calendar year when the person files its last return for the calendar year for which the credit is claimed.
(3) Any person entitled to the credit provided in subsection (2) of this section as a result of qualified research and development conducted under contract may assign all or any portion of the credit to the person contracting for the performance of the qualified research and development.

(4) The credit, including any credit assigned to a person under subsection (3) of this section, must be claimed against taxes due for the same calendar year in which the qualified research and development expenditures are incurred. The credit, including any credit assigned to a person under subsection (3) of this section, for each calendar year may not exceed the lesser of two million dollars or the amount of tax otherwise due under this chapter for the calendar year.

(5) For any person claiming the credit, including any credit assigned to a person under subsection (3) of this section, whose research and development spending during the calendar year in which the credit is claimed fails to exceed 0.92 percent of the person's taxable amount during the same calendar year or who is otherwise ineligible, the department must declare the taxes against which the credit was claimed to be immediately due and payable. The department must assess interest, but not penalties, on the taxes against which the credit was claimed. Interest must be assessed at the rate provided for delinquent excise taxes under chapter 82.32 RCW, retroactively to the date the credit was claimed, and accrues until the taxes against which the credit was claimed are repaid.

(6) Any credit assigned to a person under subsection (3) of this section that is disallowed as a result of this section may be claimed by the person who performed the qualified research and development subject to the limitations set forth in subsection (4) of this section.

(7) For the purpose of this section:
(a) "Average tax rate" means a person's total tax liability under this chapter for the calendar year for which the credit is claimed divided by the taxpayer's total taxable amount under this chapter for the calendar year for which the credit is claimed.
(b) "Qualified research and development expenditures" means operating expenses, including wages, compensation of a proprietor or a partner in a partnership as determined under rules adopted by the department, benefits, supplies, and computer expenses, directly incurred in qualified research and development by a person claiming the credit provided in this section. The term does not include amounts paid to a person other than a public educational or research institution to conduct qualified research and development. Nor does the term include capital costs and overhead, such as expenses for land, structures, or depreciable property.
(c) "Qualified research and development" (shall have) has the same meaning as in RCW 82.63.010.
(d) "Research and development spending" means qualified research and development expenditures plus eighty percent of amounts paid to a person other than a public educational or research institution to conduct qualified research and development.
(e) "Taxable amount" means the taxable amount subject to the tax imposed in this chapter required to be reported on the person's combined excise tax returns for the calendar year for which the credit is claimed, less any taxable amount for which a credit is allowed under RCW 82.04.440.

(8) This section expires (January) October 1, 2015.

Sec. 3. RCW 82.63.030 and 2008 c 15 s 4 are each amended to read as follows:
(1) Except as provided in subsection (2) of this section, the department (shall) must issue a sales and use tax deferral certificate for state and local sales and use taxes due under chapters 82.08, 82.12, and 82.14 RCW on each eligible investment project.
This section expires January 1, 2015.

Sec. 5. RCW 82.08.02565 and 2011 c 23 s 2 are each amended to read as follows:

1(a) The tax levied by RCW 82.08.020 does not apply to sales to a manufacturer or processor for hire of machinery and equipment used directly in a manufacturing operation or research and development operation, to sales to a person engaged in testing for a manufacturer or processor for hire of machinery and equipment used directly in a testing operation, or to sales of or charges made for labor and services rendered in respect to installing, repairing, cleaning, altering, or improving the machinery and equipment.

(b) Sellers making tax-exempt sales under this section must obtain from the purchaser an exemption certificate in a form and manner prescribed by the department by rule. The seller must retain a copy of the certificate for the seller's files.

(2) For purposes of this section and RCW 82.12.02565:

(a) "Machinery and equipment" means industrial fixtures, devices, and support facilities, and tangible personal property that becomes an ingredient or component thereof, including repair parts and replacement parts. "Machinery and equipment" includes pollution control equipment installed and used in a manufacturing operation, testing operation, or research and development operation to prevent air pollution, water pollution, or contamination that might otherwise result from the manufacturing operation, testing operation, or research and development operation. "Machinery and equipment" also includes digital goods.

(b) "Machinery and equipment" does not include:

(i) Hand-powered tools;

(ii) Property with a useful life of less than one year;

(iii) Buildings, other than machinery and equipment that is permanently affixed to or becomes a physical part of a building; and

(iv) Building fixtures that are not integral to the manufacturing operation, testing operation, or research and development operation that are permanently affixed to and become a physical part of a building, such as utility systems for heating, ventilation, air conditioning, communications, plumbing, or electrical.

(c) Machinery and equipment is "used directly" in a manufacturing operation, testing operation, or research and development operation if the machinery and equipment:

(i) Acts upon or interacts with an item of tangible personal property;

(ii) Conveys, transports, handles, or temporarily stores an item of tangible personal property at the manufacturing site or testing site;

(iii) Controls, guides, measures, verifies, aligns, regulates, or tests tangible personal property at the site or away from the site;

(iv) Provides physical support for or access to tangible personal property;

(v) Produces power for, or lubricates machinery and equipment;

(vi) Produces another item of tangible personal property for use in the manufacturing operation, testing operation, or research and development operation;

(vii) Places tangible personal property in the container, package, or wrapping in which the tangible personal property is normally sold or transported; or

(viii) Is integral to research and development as defined in RCW 82.63.010.

(d) "Manufacturer" means a person that qualifies as a manufacturer under RCW 82.04.110. "Manufacturer" also includes a person that prints newspapers or other materials.

(e) "Manufacturing" means only those activities that come within the definition of "to manufacture" in RCW 82.04.120 and are taxed as manufacturing or processing for hire under chapter 82.04 RCW, or would be taxed as such if such activity were conducted in this state or if not for an exemption or deduction. "Manufacturing" also includes printing newspapers or other materials. An activity is not taxed as manufacturing or processing for hire under chapter 82.04 RCW if the activity is within the purview of chapter 82.16 RCW.

(f) "Manufacturing operation" means the manufacturing of articles, substances, or commodities for sale as tangible personal property. A manufacturing operation begins at the point where the raw materials enter the manufacturing site and ends at the point where the processed material leaves the manufacturing site. With respect to the production of class A or exceptional quality biosolids by a wastewater treatment facility, the manufacturing operation begins at the point where class B biosolids undergo additional processing to achieve class A or exceptional quality standards. Notwithstanding anything to the contrary in this section, the term also includes that portion of a cogeneration project that is used to generate power for consumption within the manufacturing site of which the cogeneration project is an integral part. The term does not include the preparation of food products on the premises of a person selling food products at retail.

(g) "Cogeneration" means the simultaneous generation of electrical energy and low-grade heat from the same fuel.

(h) "Research and development operation" means engaging in research and development as defined in RCW 82.63.010 by a manufacturer or processor for hire, if the research and development is integral to the buyer's development of prewritten computer software for sale as a product or a service described in RCW 82.04.050(6)(b), or the buyer's manufacturing operation. For purposes of this section and RCW 82.12.02565, persons engaged in the development of prewritten computer software that is not transferred to purchasers by means of a tangible storage media are deemed to be manufacturers.

(i) "Testing" means activities performed to establish or determine the properties, qualities, and limitations of tangible personal property.

(j) "Testing operation" means the testing of tangible personal property for a manufacturer or processor for hire. A testing operation begins at the point where the tangible personal property enters the testing site and ends at the point where the tangible personal property leaves the testing site. The term also includes the testing of tangible personal property for use in that portion of a cogeneration project that is used to generate power for consumption within the manufacturing site of which the cogeneration project is an integral part. The term does not include the testing of tangible personal property for use in the production of electricity by a light and power business as defined in RCW 82.16.010 or the preparation of food products on the premises of a person selling food products at retail.

(3) It is the intent of the legislature that this tax preference is being amended to correct a technical inconsistency, and these corrections are not intended to create a new or expanded tax preference under RCW 82.32.805.

SENATE RESOLUTION  
8713  

By Senators O’Ban, Nelson, Mullet, Dammeier, Hasegawa, Fraser, Conway, Darneille, Hatfield, Eide, Billig, Hewitt, Holmquist Newbry, Honeyford, Kohl-Welles, McCoy, Roach, Cleveland, Keiser, Chase, Schoesler, Rolfes, Rivers, Parlette, Brown, Braun, Ericksen, Liias, Frockt, Pedersen, Angel, King, Hobbs, and Padden

WHEREAS, Medal of Honor and Purple Heart recipient, Staff Sergeant Ty Michael Carter, began his distinguished military career by enlisting in the United States Marine Corps in October 1998; and

WHEREAS, In January 2008, Sergeant Ty Michael Carter continued his military service by enlisting in the United States Army as a cavalry scout, receiving his training at Fort Knox, Kentucky; and

WHEREAS, Beginning in May 2009, Sergeant Carter spent a year stationed in Afghanistan as a soldier in the 3rd Squadron, 61st Cavalry Regiment, 4th Infantry Division; and

WHEREAS, On October 3, 2009, while serving in the Kamdesh district of the Nuristan Province, Sergeant Carter was forced to think on his feet while responding to a barrage of enemy fire, making difficult decisions while under attack during the Battle of Kamdesh; and

WHEREAS, During the attack, more than 300 enemy combatants opened fire, prompting Sergeant Carter to move 100 meters across open ground from his station to a Humvee located at the south battle position, then turn around and run back to retrieve machine gun oil and ammunition and — once more — traverse the distance to gain access to additional supplies; and

WHEREAS, Despite sustaining wounds and facing incalculable odds against hundreds of enemy fighters, Sergeant Carter returned fire using his excellent marksmanship skills to force out the

...
individuals who continued to attack Sergeant Carter and his squadron; and

WHEREAS, Sergeant Carter skillfully maneuvered under the camp's perimeter fence to retrieve additional weapons and ammunition to bring back to his station, then traveled an additional 30 meters to help treat the wounds of a fallen soldier and carry him back to the Humvee. During the remainder of the battle, which lasted late into the evening, Sergeant Carter remained calm through the extreme stress of discovering the bodies of fallen soldiers, while searching for a radio in order to signal for help, and finally returning to the Humvee to seek cover; and

WHEREAS, With the assistance of a fellow soldier, Sergeant Carter carried a wounded soldier a 100-meter distance to a first-aid station and helped to keep his comrade alive until reinforcements arrived to assist in evacuation efforts; and

WHEREAS, As a result of his bravery, Sergeant Carter was awarded the Medal of Honor on August 26, 2013, and was instated into the Pentagon Hall of Heroes on August 27th; and

WHEREAS, Sergeant Carter was stationed at Joint Base Lewis-McChord, in his home state of Washington, in October 2010, becoming assigned to the position of Stryker gunner with the 8th Squadron, 1st Cavalry Regiment, 2nd Stryker Combat Team, 2nd Infantry Division. Sergeant Carter received a second deployment to Afghanistan in October 2012, before returning to Joint Base Lewis-McChord where he continues to serve today; and

WHEREAS, In addition to displays of heroism and gallantry in the United States Army, Sergeant Carter has worked with dedication and a profound sense of hope toward providing further understanding of Posttraumatic Stress Disorder and is working toward greater public understanding of the condition in honor of those who fought bravely in the military and face PTSD-related issues every day;

NOW, THEREFORE, BE IT RESOLVED, That the Washington State Senate offer its sincere gratitude and appreciation to Medal of Honor recipient, Staff Sergeant Ty Michael Carter, who bravely risked his life and fought with unwavering gallantry and fortitude, and give him thanks for his continued service and dedication to the United States of America; and

MESSAGE FROM THE HOUSE

March 4, 2014

MR. PRESIDENT:
The House passed ENGROSSED SUBSTITUTE SENATE BILL No. 6002 with the following amendment(s): 6002-S.E

The appropriates in this section are subject to the following conditions and limitations:

1. Notwithstanding the provisions of this section, the joint legislative audit and review committee may adjust the due dates for projects included on the committee's 2013-15 work plan as necessary to efficiently manage workload.

2. $332,000 of the medical aid account--state appropriation and $332,000 of the accident account--state appropriation are provided for the purposes of chapter 37, Laws of 2011 (workers' compensation).

3. $323,000 of the performance audits of government account--state appropriation is provided for consultant and staff costs related to the economic analysis of tax preferences as directed by chapter 43.136 RCW.

4. The joint legislative audit and review committee shall conduct an audit of Washington's state research universities. The purpose of the audit is to identify cost and profit centers within, and in partnership with, the research universities. The audit must focus on public funds; student fees, in particular tuition; and auxiliary enterprises, which for the purposes of the audit at the University of Washington includes University of Washington medical center, the internal lending program, the W fund, and the center for commercialization. The audit at each university must achieve the following:

   a. Assess the university's policies and practices for tracking per-student expenditures for instruction and identify the average amount per student that the university has spent on instruction for undergraduate students in each of the past five fiscal years;
(b) Obtain the university’s definition of auxiliary enterprises and determine the number of auxiliary enterprises, including the University of Washington medical center, the University of Washington internal lending program, the W fund, and the center for commercialization, that exist in the university system, the methods the university uses to track revenue and expenditures of auxiliary enterprises, and the policies and practices the university has in place to ensure that state funding is not used to supplement or guarantee projects or programs authorized by auxiliary enterprises;

(c) Identify how much money is being spent on undergraduate education and to what extent undergraduate education is subsidizing graduate education; and

(d) Determine how tuition funds are being used and to what extent they are being used to fund the University of Washington medical center, the University of Washington internal lending program, the W fund, and the center for commercialization and to back bonds authorized by the university.

(5) The committee shall conduct a study of the current methods of collecting legal financial obligations and compare those methods with other debt collection methods, including contracting for debt collection of legal financial obligations. The study shall include analysis of the costs and revenues of current methods and compare those to alternatives, and include analysis of the impact of current methods and alternatives to revenues received by the state. Included shall be an examination of costs and revenue generation before and after the implementation of chapter 379, Laws of 2003 (SSB 5990) and chapter 362, Laws of 2005 (SSB 5256) and analysis of whether these changes met the legislative goals of reducing costs and increasing collections. A report on the results of the analysis shall be presented to the appropriate committees of the legislature by December 2014.

(6) The committee shall conduct a study of economic development programs and projects supported by the state general fund in the department of commerce. The study shall first review the extent to which these programs: (a) Included specific economic development targets; (b) monitored economic development targets; (c) required for programs which provided support or services through contracts, whether the contracts were structured such that if economic development targets were not met, contracts were reviewed or revised; and (d) changed the economic development targets of associate development organizations relative to funding increases since 2007. The study will include the feasibility of determining how to isolate other factors, such as general economic trends, from the impacts of economic development programs. The costs and options for conducting future analysis of the outcomes specific to economic development programs shall be included and a briefing report shall be provided to the appropriate committees of the legislature by December 1, 2013. A complete report with study data and conclusions shall be provided to the appropriate committees of the legislature by December 1, 2014.

(7) The committee shall analyze the incidence and level of taxation and business incentives available to the financial services industry in Washington State, and identify the relative differences in taxes and business incentives compared to California. A report shall be provided to the appropriate committees of the legislature by December 1, 2014.

(8) The committee shall conduct an analysis of how school districts use school days. The analysis must include:

(a) How school districts define classroom time, nonclassroom time, instructional time, noninstructional time, and any other definitions of how the school day is divided or used;

(b) Estimates of time in each category;

(c) How noninstructional time is distributed over the annual number of school days;

(d) When noninstructional hours occur;

(e) How noninstructional hours are used, including how much noninstructional time is devoted to professional development for the purposes of teacher and principal evaluation training or common core state standards training; and

(f) The extent to which the use of each category of time is identified or defined in collective bargaining agreements.

To the extent data is not available at the statewide level, the committee may use case studies or other methods to conduct the analysis. The committee shall submit a report of its findings to the education committees of the legislature by December 1, 2014.

(9) The committee shall review funding enhancement formulas that provide minimum staffing unit funding to small school districts and districts with school plants that have been judged by the state board of education to be remote and necessary. The committee will make an assessment of the current formulas and report any recommended adjustments to the legislative fiscal committees of the senate and the house of representatives by November 1, 2014. In assessing the current formulas, the committee may consider: Enhancements being made to basic education funding in the 2013-2015 omnibus appropriations act and committed to under Engrossed Substitute House Bill No. 2261 (chapter 548, Laws of 2009) and Substitute House Bill No. 2776 (chapter 236, Laws of 2010); developments in technology or educational service delivery since the formulas were established; practices in other states; districts’ ability to provide students with access to a program of education; and inter-district equity.

(10) In carrying out the report required by RCW 44.28.157, the committee shall include by December 2014, an analysis of the impacts of using the Washington health benefit exchange established in chapter 43.71 RCW as a mechanism for providing health insurance for part-time certificated and classified K-12 public school employees. The analysis shall be conducted in coordination with the health care authority and shall include a review of how the exchange, federal health premium tax credits and subsidies for out-of-pocket expenses administered through the exchange, and Medicaid expansion have impacted, or could impact, health care costs for individuals, school districts, and the state. The analysis shall also include a review of the cost of stand-alone dental plans.

(11) Within the appropriations in this section, the joint legislative audit and review committee shall review the tax exemption provided under Engrossed House Bill No. 2447 (small business incubators) and its actual fiscal impact on state revenues to determine if the fiscal impact to state revenues reasonably conforms to the fiscal estimate in the fiscal note for this legislation.

.................................($1,044,000)

Sec. 148. 2013 2nd sp.s. c 4 s 150 (uncodified) is amended to read as follows:

FOR THE DEPARTMENT OF ARCHAEOLOGY AND HISTORIC PRESERVATION
General Fund--State Appropriation (FY 2014)

.................................($1,293,000)
not exceed a daily enrollment of 6,000 persons, nor expand beyond one county during the 2013-2015 fiscal biennium. The amount of funding assigned from each program may not exceed the average per capita cost assumed in this act for individuals covered by that program, actuarially adjusted for the health condition of persons enrolled, times the number of clients enrolled. In implementing the WMIP and the MICP, the health care authority and the department may: (i) Withhold from calculations of “available resources” as set forth in RCW 71.24.025 a sum equal to the capitated rate for enrolled individuals; and (ii) employ capitation financing and risk-sharing arrangements in collaboration with health care service contractors licensed by the office of the insurance commissioner and qualified to participate in both the medicaid and medicare programs.

(b) If Washington has been selected to participate in phase two of the federal demonstration project for persons dually-eligible for both medicare and medicaid, the department and the authority may initiate the MICP. Participation in the project shall be limited to persons who are eligible for both medicare and medicaid and to counties in which the county legislative authority has agreed to the terms and conditions under which it will operate. The purpose of the project shall be to demonstrate and evaluate ways to improve care while reducing state expenditures for persons enrolled both in medicare and medicaid. To that end, prior to initiating the project, the department and the authority shall assure that state expenditures shall be no greater on either a per person or total basis than the state would otherwise incur. Individuals who are solely eligible for medicaid may also participate if their participation is agreed to by the health care authority, the department, and the county legislative authority.

(4) The legislature finds that medicaid payment rates, as calculated by the department pursuant to the appropriations in this act, bear a reasonable relationship to the costs incurred by efficiently and economically operated facilities for providing quality services and will be sufficient to enlist enough providers so that care and services are available to the extent that such care and services are available to the general population in the geographic area. The legislature finds that cost reports, payment data from the federal government, historical utilization, economic data, and clinical input constitute reliable data upon which to determine the payment rates.

(5) The department shall to the maximum extent practicable use the same system for delivery of spoken-language interpreter services for social services appointments as the one established for medical appointments in section 213 of this act. When contracting directly with an individual to deliver spoken language interpreter services, the department shall only contract with language access providers who are working at a location in the state and who are state-certified or state-authorized, except that when such a provider is not available, the department may use a language access provider who meets other certifications or standards deemed to meet state standards, including interpreters in other states.

(6) The department shall facilitate enrollment under the medicaid expansion for clients applying for or receiving state funded services from the department and its contractors. Prior to open enrollment, the department shall coordinate with the health care authority to provide referrals to the Washington health benefit exchange for clients that will be ineligible for the medicaid expansion but are enrolled in coverage that will be eliminated in the transition to the medicaid expansion.

(7)(a) The appropriations to the department of social and health services in this act shall be expended for the programs and in the amounts specified in this act. However, after May 1, 2014, unless specifically prohibited by this act, the department may transfer general fund--state appropriations for fiscal year 2014 among programs after approval by the director of financial management. However, the department shall not transfer state moneys that are provided solely for a specified purpose except as expressly provided in (b) of this subsection.

(b) To the extent that transfers under (a) of this subsection are insufficient to fund actual expenditures in excess of fiscal year 2014 caseload forecasts and utilization assumptions in the long-term care, foster care, adoptions support, medicaid personal care, and child support programs, the department may transfer state moneys that are provided solely for a specified purpose. The department shall not transfer funds, and the director of financial management shall not approve the transfer, unless the transfer is consistent with the objective of conserving, to the maximum extent possible, the expenditure of state funds. The director of financial management shall notify the appropriate fiscal committees of the senate and house of representatives in writing seven days prior to approving any allotment modifications or transfers under this subsection. The written notification shall include a narrative explanation and justification of the changes, along with expenditures and allotments by budget unit and appropriation, both before and after any allotment modifications or transfers.

Any secure crisis residential center or semi-secure crisis residential center bed reduction shall not be based solely upon bed utilization. The department is to exercise its discretion in reducing the number of beds but to do so in a manner that maintains availability and geographic representation of semi-secure and secure crisis residential centers.

Sec. 204. 2013 2nd sp.s c 4 s 204 (uncodified) is amended to read as follows:

FOR THE DEPARTMENT OF SOCIAL AND HEALTH SERVICES--MENTAL HEALTH PROGRAM

(1) COMMUNITY SERVICES/REGIONAL SUPPORT NETWORKS

General Fund--State Appropriation (FY 2014)($327,467,000)...............................$328,527,000
General Fund--State Appropriation (FY 2015)($308,723,000)...............................$329,211,000
General Fund--Federal Appropriation...........($561,394,000)...............................$666,113,000
General Fund--Private/Local Appropriation $17,864,000
TOTAL APPROPRIATION $1,341,715,000

The appropriations in this subsection are subject to the following conditions and limitations:

(a) $104,999,000 of the general fund--state appropriation for fiscal year 2014 and ($85,895,000) $88,895,000 of the general fund--state appropriation for fiscal year 2015 are provided solely for persons and services not covered by the medicaid program. To the extent possible, levels of regional support network spending shall be maintained in the following priority order: Crisis and commitment services; community inpatient services; and residential care services, including personal care and emergency housing assistance. This is a reduction in flexible nonmedicaid funding of $4,343,000 for fiscal year 2014 and ($6,590,000) $7,620,000 of the general fund--state appropriation for fiscal year 2015. This reduction reflects offsets in state funding related to services that will now be funded with federal dollars through the affordable care act medicare expansion. This reduction shall be distributed (as follows):

(i) The $4,343,000 reduction in fiscal year 2014 and ($6,590,000) $7,620,000 of the reduction in fiscal year 2015 must be distributed among regional support networks based on a formula that equally weights each regional support networks proportion of individuals who become newly eligible and enroll in medicare under the expansion provisions of the affordable care act (in fiscal year 2014) and each regional support network's spending of flexible nonmedicaid funding on services that would be reimbursable for federal medicare matching funds if provided to medicare enrollees in the 2011-2013 fiscal biennium.

((ii) The remaining $11,723,000 reduction in fiscal year 2015 must be distributed among regional support networks based on the following conditions and limitations:

(b) $6,590,000 of the general fund--state appropriation for fiscal year 2014, $6,590,000 of the general fund--state appropriation for fiscal year 2015, and $7,620,000 of the general fund--federal appropriation are provided solely for the department and regional support networks to continue to contract for implementation of high-intensity programs for assertive community treatment (PACT) teams. In determining the proportion of medicaid and nonmedicaid funding provided to regional support networks with PACT teams, the department shall consider the differences between regional support networks in the percentages of services and other costs associated with the teams that are not reimbursable under medicare. The department may allow regional support networks which have nonmedicaid reimbursable costs that are higher than the nonmedicaid allocation they receive under this section to supplement these funds with local dollars or funds received under section 204(1)(a) of this act. The department and regional support networks shall maintain consistency with all essential elements of the PACT evidence-based practice model in programs funded under this section.

(c) $5,850,000 of the general fund--state appropriation for fiscal year 2014, $5,850,000 of the general fund--state appropriation for fiscal year 2015, and $1,300,000 of the general fund--federal appropriation are provided solely for the western Washington regional support networks to provide either community- or hospital campus-based services for persons who require the level of care previously provided by the program for adaptive living skills (PALS) at western state hospital.

(d) The number of nonforensic beds allocated for use by regional support networks at eastern state hospital shall be 192 per day. The number of nonforensic beds allocated for use by regional support networks at western state hospital shall be 557 per day.

(e) From the general fund--state appropriations in this subsection, the secretary of social and health services shall assure that regional support networks reimburse the aging and disability services administration for the general fund--state cost of medicaid personal care services that enrolled regional support network consumers use because of their psychiatric disability.

(f) The department is authorized to continue to contract directly, rather than through contracts with regional support networks, for children's long-term inpatient facility services.

(g) $750,000 of the general fund--state appropriation for fiscal year 2014 and $750,000 of the general fund--state appropriation for fiscal year 2015 are provided solely to continue performance-based incentive contracts to provide appropriate community support services for individuals with severe mental illness who were discharged from the state hospitals as part of the expanding community services initiative. These funds will be used to enhance community residential and support services provided by regional support networks through other state and federal funding.

(h) $1,125,000 of the general fund--state appropriation for fiscal year 2014 and $1,125,000 of the general fund--state appropriation for fiscal year 2015 are provided solely for the Spokane regional support network to implement services to reduce utilization and the census at eastern state hospital. Such services shall include:

(i) High intensity treatment team for persons who are high utilizers of psychiatric inpatient services, including those with co-occurring disorders and other special needs;

(ii) Crisis outreach and diversion services to stabilize in the community individuals in crisis who are at risk of requiring inpatient care or jail services;

(iii) Mental health services provided in nursing facilities to individuals with dementia, and consultation to facility staff treating those individuals; and

(iv) Services at the sixteen-bed evaluation and treatment facility.

At least annually, the Spokane regional support network shall assess the effectiveness of these services in reducing utilization at
eastern state hospital, identify services that are not optimally effective, and modify those services to improve their effectiveness.

(i) $1,529,000 of the general fund--state appropriation for fiscal year 2014 and $1,529,000 of the general fund--state appropriation for fiscal year 2015 are provided solely to reimburse Pierce and Spokane counties for the cost of conducting 180-day commitment hearings at the state psychiatric hospitals.

(j) Regional support networks may use local funds to earn additional federal medicaid match, provided the locally matched rate does not exceed the upper-bound of their federally allowable rate range, and provided that the enhanced funding is used only to provide medicaid state plan or waiver services to medicaid clients. Additionally, regional support networks may use a portion of the state funds allocated in accordance with (a) of this subsection to earn additional medicaid match, but only to the extent that the application of such funds to medicaid services does not diminish the level of crisis and commitment, community inpatient, residential care, and outpatient services presently available to persons not eligible for medicaid.

(k) $3,436,000 of the general fund--state appropriation for fiscal year 2014 and $2,291,000 of the general fund--state appropriation for fiscal year 2015 are provided solely for mental health services for mentally ill offenders while confined in a county or city jail and for facilitating access to programs that offer mental health services upon release from confinement.

(l) $523,000 of the general fund--state appropriation for fiscal year 2014, $775,000 of the general fund--state appropriation for fiscal year 2015, and $854,000 of the general fund--federal appropriation are provided solely for implementation of sections 3 through 5 of chapter 289, Laws of 2013 (ESHB 1114). Regional support networks must use this funding for the development of intensive community programs that allow individuals to be diverted or transitioned from the state hospitals in accordance with plans approved by the department.

(m) $5,986,000 of the general fund--state appropriation for fiscal year 2014, $11,592,000 of the general fund--state appropriation for fiscal year 2015, and $10,160,000 of the general fund--federal appropriation are provided solely for implementation of chapter 335, Laws of 2013 (ESSB 5480). Regional support networks must use this funding for the development of intensive community programs that allow individuals to be diverted or transitioned from the state hospitals in accordance with plans approved by the department.

(n) Due to recent approval of federal medicaid matching funds for the disability lifeline and the alcohol and drug abuse treatment support act programs, the department shall charge regional support networks for only the state share rather than the total cost of community psychiatric hospitalization for persons enrolled in those programs.

(o) The legislature finds that the circumstances of the Chelan-Douglas regional support network (CD-RSN) make it necessary for CD-RSN to undergo restructuring in order to provide mental health services essential to the health and wellness of the citizens within its service area. The legislature intends to provide additional temporary financial relief to the CD-RSN while it undergoes internal restructuring or negotiates a merger with another regional support network.

The department shall negotiate relief for outstanding fiscal year 2013 reimbursements owed by CD-RSN to the state provided that the CD-RSN has a plan in place that is approved by the department by August 1, 2013, that demonstrates how CD-RSN will maintain financial viability and stability or will merge with another regional support network.

For the period of July 1, 2013, through December 31, 2013, the department may alter collection of reimbursement from CD-RSN for overdue of state hospital beds. To receive a reduction to the required reimbursement for overdue of state hospital beds, CD-RSN must continue to prioritize services that reduce its utilization and census at eastern state hospital and be actively implementing an approved plan to maintain financial viability or pursuing a future merger with another regional support network. Up to $298,000 of the general fund--state appropriation for fiscal year 2014 is for the department to provide payments to regional support networks in eastern Washington which have used less than their allocated or contracted patient days of care at the state hospital to replace the share of the reimbursements from CD-RSN that the regional support networks would have received under RCW 71.24.320.

(p) $266,000 of the general fund--state appropriation for fiscal year 2014 ((ii)) and $1,500,000 of the general fund--state appropriation for fiscal year 2015 are provided solely to maintain services for the King county regional support network as it works to transition services to settings that are eligible for federal participation for individuals covered under the medicaid program.

(r) $7,281,000 of the general fund--state appropriation for fiscal year 2015 and $4,589,000 of the general fund--federal appropriation are provided solely for implementation of Substitute House Bill No. 2725 (involuntary commitment) and enhancement of community mental health services. The department must contract these funds for the operation of the following community programs that allow individuals to be diverted or transitioned from the state hospitals: (i) Community hospital or free standing evaluation and treatment services providing short-term detention and commitment services under the involuntary treatment act to be located in the geographic areas of the King regional support network, the Spokane regional support network outside of Spokane county, and the Thurston Mason regional support network; (ii) one new full program of an assertive community treatment team in the King regional support network and two new half programs of assertive community treatment teams in the Spokane regional support network and the Pierce regional support network; and (iii) three new recovery support services programs in the Grays Harbor regional support network, the Greater Columbia regional support network, and the North Sound regional support network. In contracting for community evaluation and treatment services, the department may not use these resources in facilities that meet the criteria to be classified under federal law as institutions for mental diseases. If the department is unable to come to a contract agreement with a designated regional support network for any of the services identified above, it may consider contracting for that service in another regional support network that has the need for such service.

(c) During the comparative analysis performed in subsection (b) of this section, if it is found that the direct care rate for any facility calculated using the payment methodology defined in chapter 74.46 RCW and as funded in the omnibus appropriations act, excluding the low wage worker add-on, the direct care add-on found in subsection (1)(g) of this section, the support services add-on found...

The appropriations in this section are subject to the following conditions and limitations:

(1) ($1,900,484,000) of the general fund--federal appropriation is provided solely to implement the medicaid expansion as defined in the social security act, section 1902(a)(10)(A)(VIII), subject to the conditions and limitations in this subsection. If the federal medical assistance percentage for the medicaid expansion falls below the percentages in section 1905(y) of the social security act as of July 1, 2013, the authority shall ensure that the state does not incur any additional state costs above what would have been incurred had the federal medical assistance percentages remained at the percentages in section 1905(y) as of July 1, 2013. The director is authorized to make any necessary program adjustments to comply with this requirement, including adding or adjusting premiums, modifying benefits, or reducing optional programs. To the extent a waiver is needed to accomplish this, the director shall promptly apply for such waiver. If a necessary waiver is not approved, the medicaid expansion program shall be terminated upon appropriate notification to the legislature and enrollees.

(2) The requirements of this subsection apply to the basic health plan. This subsection is null and void and has no further effect upon implementation of the medicaid expansion under subsection (1) of this section.

(a) Within amounts appropriated in this section and sections 205 and 206 of this act, the health care authority shall continue to provide an enhanced basic health plan subsidy for foster parents licensed under chapter 74.15 RCW and workers in state-funded home care programs. Under this enhanced subsidy option, foster parents eligible to participate in the basic health plan as subsidized enrollees and home care workers with family incomes below 200 percent of the federal poverty level shall be allowed to enroll in the basic health plan at the minimum premium amount charged to enrollees with incomes below sixty-five percent of the federal poverty level.

(b) The health care authority shall require organizations and individuals that are paid to deliver basic health plan services and that choose to sponsor enrollment in the subsidized basic health plan to pay 133 percent of the premium amount which would otherwise be due from the sponsored enrollees.

(c) The administrator shall take at least the following actions to assure that persons participating in the basic health plan are eligible for the level of assistance they receive: (a) Require submission of (i) income tax returns, and recent pay history, from all applicants, or (ii) other verifiable evidence of earned and unearned income from those persons not required to file income tax returns; (b) check employment security payroll records at least once every twelve months on all enrollees; (c) require enrollees whose income as indicated by payroll records exceeds that upon which their subsidy is based to document their current income as a condition of continued eligibility; (d) require enrollees for whom employment security payroll records cannot be obtained to document their current income at least once every six months; (e) not reduce gross family income for self-employed persons by noncash-flow expenses such as, but not limited to, depreciation, amortization, and home office deductions, as defined by the United States internal revenue service; and (f) pursue repayment and civil penalties from persons who have received excessive subsidies, as provided in RCW 70.47.060(9).

(d) Enrollment in the subsidized basic health plan shall be limited to only include persons who qualify as subsidized enrollees as defined in RCW 70.47.020 and who (a) qualify for services under 1115 medicaid demonstration project number 11-W-00254/10; or (b) are foster parents licensed under chapter 74.15 RCW.
(3) The legislature finds that medicaid payment rates, as calculated by the health care authority pursuant to the appropriations in this act, bear a reasonable relationship to the costs incurred by efficiently and economically operated facilities for providing quality services and will be sufficient to enlist enough providers so that care and services are available to the extent that such care and services are available to the general population in the geographic area. The legislature finds that the cost reports, payment data from the federal government, historical utilization, economic data, and clinical input constitute reliable data upon which to determine the payment rates.

(4) Based on quarterly expenditure reports and caseload forecasts, if the health care authority estimates that expenditures for the medical assistance program will exceed the appropriations, the health care authority shall take steps including but not limited to reduction of rates or elimination of optional services to reduce expenditures so that total program costs do not exceed the annual appropriation authority.

(5) In determining financial eligibility for medicaid-funded services, the health care authority is authorized to disregard recoveries by Holocaust survivors of insurance proceeds or other assets, as defined in RCW 48.104.030.

(6) The legislature affirms that it is in the state's interest for Harborview medical center to remain an economically viable component of the state's health care system.

(7) When a person is ineligible for medicaid solely by reason of residence in an institution for mental diseases, the health care authority shall provide the person with the same benefits as he or she would receive if eligible for medicaid, using state-only funds to the extent necessary.

(8) $4,261,000 of the general fund--state appropriation for fiscal year 2014, $4,261,000 of the general fund--state appropriation for fiscal year 2015, and $8,522,000 of the general fund--federal appropriation are provided solely for low-income disproportionate share hospital payments.

(9) $400,000 of the general fund--state appropriation for fiscal year 2014, ($400,000) $200,000 of the general fund--state appropriation for fiscal year 2015, and ($600,000) $600,000 of the general fund--federal appropriation are provided solely for disproportionate share hospital payments to rural hospitals certified by the centers for medicare and medicaid services as sole community hospitals as of January 1, 2013, with less than one hundred fifty acute care licensed beds in fiscal year 2011 that do not participate in the certified public expenditures program. The authority shall discontinue these payments on January 1, 2015.

(10) $100,000 of the general fund--state appropriation for fiscal year 2014 and ($100,000) $50,000 of the general fund--state appropriation for fiscal year 2015 are provided solely for grants to rural hospitals in Clallam county that were certified by the centers for medicare and medicaid services as sole community hospitals as of January 1, 2013, with less than one hundred fifty acute care licensed beds in fiscal year 2011. The authority shall discontinue these payments on January 1, 2015.

(11) Within the amounts appropriated in this section, the health care authority shall provide disproportionate share hospital payments to hospitals that provide services to children in the children's health program who are not eligible for services under Title XIX or XXI of the federal social security act due to their citizenship status.

(12) $6,000,000 of the general fund--federal appropriation is provided solely for supplemental payments to nursing homes operated by public hospital districts. The public hospital district shall be responsible for providing the required nonfederal match for the supplemental payment, and the payments shall not exceed the maximum allowable under federal rules. It is the legislature's intent that the payments shall be supplemental to and shall not in any way offset or reduce the payments calculated and provided in accordance with part E of chapter 74.46 RCW. It is the legislature's further intent that costs otherwise allowable for rate-setting and settlement against payments under chapter 74.46 RCW shall not be disallowed solely because such costs have been paid by revenues retained by the nursing home from these supplemental payments. The supplemental payments are subject to retrospective interim and final cost settlements based on the nursing homes' as-filed and final medicare cost reports. The timing of the interim and final cost settlements shall be at the health care authority's discretion. During either the interim cost settlement or the final cost settlement, the health care authority shall recoup from the public hospital districts the supplemental payments that exceed the medicaid cost limit and/or the medicare upper payment limit. The health care authority shall apply federal rules for identifying the eligible incurred medicaid costs and the medicare upper payment limit.

(13) The health care authority shall continue the inpatient hospital certified public expenditures program for the 2013-2015 fiscal biennium. The program shall apply to all public hospitals, including those owned or operated by the state, except those classified as critical access hospitals or state psychiatric institutions. The health care authority shall submit reports to the governor and legislature detailing cost-effective alternative uses of local, state, and federal resources as a replacement for this program. During fiscal year 2014 and fiscal year 2015, hospitals in the program shall be paid and shall retain one hundred percent of the federal portion of the allowable hospital cost for each medicaid inpatient fee-for-service claim payable by medical assistance and one hundred percent of the federal portion of the maximum disproportionate share hospital program allowable under federal regulations. Inpatient medicaid payments shall be established using an allowable methodology that approximates the cost of claims submitted by the hospitals. Payments made to each hospital in the program in each fiscal year of the biennium shall be compared to a baseline amount. The baseline amount will be determined by the total of (a) the inpatient claim payment amounts that would have been paid during the fiscal year had the hospital not been in the CPE program based on the reimbursement rates developed, implemented, and consistent with policies approved in the 2013-2015 biennial operating appropriations act and in effect on July 1, 2013, (b) one-half of the indigent assistance disproportionate share hospital payment amounts paid to and retained by each hospital during fiscal year 2005, and (c) all of the other disproportionate share hospital payment amounts paid to and retained by each hospital during fiscal year 2005 to the extent the same disproportionate share hospital programs exist in the 2013-2015 fiscal biennium. If payments during the fiscal year exceed the hospital's baseline amount, no additional payments will be made to the hospital except the federal portion of allowable disproportionate share hospital payments for which the hospital can certify allowable match. If payments during the fiscal year are less than the baseline amount, the hospital will be paid a state grant equal to the difference between payments during the fiscal year and the applicable baseline amount. Payment of the state grant shall be made in the applicable fiscal year and distributed in monthly payments. The grants will be recalculated and redistributed as the baseline is updated during the fiscal year. The grant payments are subject to an interim settlement within eleven months after the end of the fiscal year. A final settlement shall be performed. To the extent that either settlement determines that a hospital has received funds in excess of what it would have received as described in this...
subsection, the hospital must repay the excess amounts to the state when requested.  ($3,860,000) $11,928,000 of the general fund--state appropriation for fiscal year 2014 and ($1,127,000) $14,821,000 of the general fund--state appropriation for fiscal year 2015 are provided solely for state grants for the participating hospitals.

The health care authority shall prioritize evidence-based practices for delivery of maternity support services. To the extent practicable, the health care authority shall develop a mechanism to increase federal funding for maternity support services by leveraging local public funding for those services.

(16) $170,000 of the general fund--state appropriation for fiscal year 2014, $121,000 of the general fund--state appropriation for fiscal year 2015, and $292,000 of the general fund--federal appropriation are provided solely to implement Engrossed Substitute House Bill No. 1519 (service coordination organizations) and Second Substitute Senate Bill No. 5732 (behavioral health services). If neither of the bills is enacted by June 30, 2013, the amounts provided in this subsection shall lapse.

Allocations for classified staff units providing school building-level and district-wide support services for the 2013-14 and 2014-15 school years are determined using the formula-generated staff units provided in RCW 28A.150.260, and adjusted based on each district's annual average full-time equivalent student enrollment in each grade, except that the allocation for parent involvement coordinators in an elementary school shall be 0.0825, which enhancement is within the program of basic education.

(5) CENTRAL OFFICE ALLOCATIONS

In addition to classified and administrative staff units allocated in subsections (3) and (4) of this section, classified and administrative staff units are provided for the 2013-14 and 2014-15 school year for the central office administrative costs of operating a school district, at the following rates:

(a) The total central office staff units provided in this subsection (5) are calculated by first multiplying the total number of eligible certificated instructional, certificated administrative, and classified staff units providing school-based or district-wide support services, as identified in RCW 28A.150.260(6)(b), by 5.3 percent.

(b) Of the central office staff units calculated in (a) of this subsection, 74.53 percent are allocated as classified staff units, as generated in subsection (4) of this section, and 25.47 percent shall be allocated as administrative staff units, as generated in subsection (3) of this section.

(7) INSURANCE BENEFIT ALLOCATIONS

Insurance benefit allocations shall be calculated at the maintenance rate specified in section 504 of this act, based on the number of benefit units determined as follows:

(a) The number of certificated staff units determined in subsections (2), (3), and (5) of this section; and

(b) The number of classified staff units determined in subsections (4) and (5) of this section multiplied by 1.152. This factor is intended to adjust allocations so that, for the purposes of distributing insurance benefits, full-time equivalent classified employees may be calculated on the basis of 1440 hours of work per year, with no individual employee counted as more than one full-time equivalent.

(8) MATERIALS, SUPPLIES, AND OPERATING COSTS (MSOC) ALLOCATIONS

(2010 supplemental budget), adjusted annually for inflation.

(14) Any school district board of directors may petition the superintendent of public instruction by submission of a resolution adopted in a public meeting to reduce or delay any portion of its basic education allocation for any school year. The superintendent of public instruction shall approve such reduction or delay if it does not impair the district's financial condition. Any delay shall not be for more than two school years. At the close of the fiscal year the superintendent of public instruction shall report to the office of financial management and the appropriate fiscal committees of the legislature on the allocations provided to districts and the nature of the emergency.

(18) Students participating in running start programs may be funded up to a combined maximum enrollment of 1.2 FTE including school district and institution of higher education enrollment. In calculating the combined 1.2 FTE, the office of the superintendent of public instruction may average the participating student's September through June enrollment to account for differences in the start and end dates for courses provided by the high school and higher education institution. (b) Career and technical education program full-time equivalent enrollment shall be reported on the same monthly basis as the enrollment for students eligible for basic support, and payments shall be adjusted for reported career and technical education program enrollments on the same monthly basis as those adjustments for enrollment for students eligible for basic support.

(21) Appropriations in this section are sufficient for the office of the superintendent of public instruction to implement House Bill No. 2207 (basic education funding).

In addition to reviewing project and financing information, the subcommittee must also coordinate with the Oregon legislative oversight committee for the Columbia river crossing bridge.

The study must include a staff work group, including staff from the office of financial management, the transportation commission, the department of transportation, the office of the state treasurer, and the legislative transportation committees. (6) $250,000 of the motor vehicle account--state appropriation is for the joint transportation committee to evaluate the current status of electric vehicle charging stations in Washington, and to make recommendations regarding potential business models for financially-sustainable electric vehicle charging networks and alternative roles for public and private sector participation in those business models. Public sector participation may include public financing, funding, facilitation, and other incentives to encourage installation of electric vehicle charging stations. In conducting the study, the committee must coordinate with the department of transportation and consult with local governments and stakeholders in the electric vehicle industry. The committee may also consult with users of electric vehicles and stakeholders representing manufacturers and operators of electric vehicle charging stations. Additionally, the work group shall make recommendations related to requiring driver training to individuals between the ages of eighteen and twenty-four who have not previously passed a driver training education program or other methods of enhancing the safety of this high-risk group. The joint transportation committee shall issue a report of its findings to the transportation committees of the house of representatives and senate by December 1, 2014.

Sec. 205. 2013 c 306 s 205 (uncodified) is amended to read as follows:

FOR THE TRANSPORTATION COMMISSION
Motor Vehicle Account--State Appropriation.................................($2,947,000)
..............................................................................................................$3,516,000
Multimodal Transportation Account--State Appropriation.......................$112,000
TOTAL APPROPRIATION...............................................................($3,059,000)
..............................................................................................................$3,628,000

The appropriations in this section are subject to the following conditions and limitations: (1) Consistent with RCW 43.135.055, 47.60.290, and 47.60.315, the department of transportation authorizes the transportation commission to periodically review and, if necessary, adjust the schedule of toll charges for the Tacoma Narrows bridge. The legislature authorizes the state ferry system only in amounts not greater than those sufficient to generate the amount of revenue required by the biennial transportation budget. When adjusting ferry fares, the commission must consider input from affected ferry users by public hearing and by review with the affected ferry advisory committees, in addition to the data gathered from the current ferry user survey.

(2) Consistent with RCW 43.135.055 and 47.46.100, during the 2013-2015 biennium, the legislature authorizes the transportation commission to periodically review and, if necessary, adjust the schedule of toll charges applicable to the Tacoma Narrows bridge only in amounts not greater than those sufficient to support (a) any required costs for operating and maintaining the toll bridge, including the cost of insurance, (b) any amount required by law to meet the redemption of bonds and applicable interest payments, and (c) repayment of the motor vehicle fund.

(3) Consistent with RCW 43.135.055 and 47.56.880, during the 2013-2015 biennium, the legislature authorizes the transportation commission to set, periodically review, and, if necessary, adjust the schedule of toll charges applicable to the Interstate 405 express toll lanes.

(4)(a) $400,000 of the motor vehicle account--state appropriation is provided solely for the development of the business case for the transition to a road usage charge system as the basis for funding the state transportation system, from the current motor fuel tax system. The funds are provided for fiscal year 2014 only.

(b) The legislature finds that the efforts started in the 2011-2013 fiscal biennium regarding the transition to a road usage charge system represent an important first step in the policy and conceptual development of potential alternative systems to fund transportation projects, but that the governance for the development needs clarification. The legislature also finds that significant amounts of research and public education are occurring in similar efforts in several states and that these efforts can and should be leveraged to advance the evaluation in Washington. The legislature intends, therefore, that the commission and its staff lead the policy development of the business case for a road usage charge system, with the goal of providing the business case to the governor and the legislative committees of the legislature in time for inclusion in the 2014 supplemental omnibus transportation appropriations act. The legislature intends for additional oversight in the business case development, with guidance from a steering committee as provided in chapter 86, Laws of 2012, augmented with participation by the joint transportation committee. The legislature further intends that the department of transportation continue to address administrative,
technical, and conceptual operational issues related to road usage charge systems, and that the department serve as a resource for information gleaned from other states on this topic for the commission's efforts.

(c) For the purposes of this subsection (((4))) (4), the commission shall:

(i) Develop preliminary road usage charge policies that are necessary to develop the business case, as well as supporting research and data that will guide the potential application in Washington;

(ii) Develop the preferred operational concept or concepts that reflect the preliminary policies;

(iii) Evaluate the business case for the road usage charge system that would result from implementing the preliminary policies and preferred operational concept or concepts. The evaluation must assess likely financial outcomes if the system were to be implemented; and

(iv) Identify and document policy and other issues that are deemed important to further refine the preferred operational concept or concepts and to gain public acceptance. These identified issues should form the basis for continued work beyond this funding cycle.

Sec. 212. 2013 c 306 s 212 (uncodified) is amended to read as follows:

Sec. 213. 2013 c 306 s 213 (uncodified) is amended to read as follows:

FOR THE DEPARTMENT OF TRANSPORTATION--PROGRAM DELIVERY MANAGEMENT AND SUPPORT--PROGRAM H

Motor Vehicle Account--State Appropriation...($47,607,000)

Motor Vehicle Account--Federal Appropriation...$48,687,000

Multimodal Transportation Account--State Appropriation...$250,000

TOTAL APPROPRIATION.............................($48,357,000)

$49,437,000

The appropriations in this section are subject to the following conditions and limitations:

1) $4,423,000 of the motor vehicle account--state appropriation is provided solely for the department's compliance with its national pollution discharge elimination system permit.

2) The real estate services division of the department must recover the cost of its efforts from sale proceeds and fund additional future sales from those proceeds.

3) The legislature recognizes that the Dryden pit site (WSDOT Inventory Control (IC) No. 2-04-00103) is unused state-owned real property under the jurisdiction of the department, and that the public would benefit significantly from the complete enjoyment of the natural scenic beauty and recreational opportunities available at the site. Therefore, pursuant to RCW 47.12.080, the legislature declares that transferring the property to the department of fish and wildlife for recreational use and fish and wildlife restoration efforts is consistent with the public interest in order to preserve the area for the use of the public and the betterment of the natural environment. The department shall work with the department of fish and wildlife and transfer and convey the Dryden pit site to the department of fish and wildlife as-is for an adjusted fair market value reflecting site conditions, the proceeds of which must be deposited in the motor vehicle fund. The department is not responsible for any costs associated with the cleanup or transfer of this property. This subsection expires June 30, 2014.

4) The legislature recognizes that the trail known as the Apple Capital Loop, and its extensions, serve to separate motor vehicle traffic from pedestrians and bicyclists, increasing motor vehicle safety on existing state route number 28. Consistent with chapter 47.30 RCW and pursuant to RCW 47.12.080, the legislature declares that transferring portions of WSDOT Inventory Control (IC) Nos. 2-09-04537 and 2-09-04569 to Douglas county and the city of East Wenatchee is consistent with the public interest. The legislature directs the department to transfer the property to Douglas county and the city of East Wenatchee. The department must be paid fair market value for any portions of the transferred real property that is later abandoned, vacated, or ceases to be publicly maintained for trail purposes. Douglas county and the city of East Wenatchee must agree to accept responsibility for trail segments within their respective jurisdictions and sign an agreement with the state that the transfer of these parcels to their respective jurisdictions extinguishes any state obligations to improve, maintain, or be in any way responsible for these assets. This subsection expires June 30, 2014.

5) The legislature recognizes that the SR 20/Cook Road realignment and extension project in the city of Sedro-Woolley will enhance the state and local highway systems by providing a more direct route from state route number 20 and state route number 9 to Interstate 5, and will reduce traffic on state route number 20 and state route number 9, improving the capacity of each route. Furthermore, the legislature declares that certain portions of the department's property held for highway purposes located primarily to the north and west of state route number 20, between state route number 20 to the south and F and S Grade Road to the north, in the incorporated limits of Sedro-Woolley in Skagit county, can help facilitate completion of the project. Therefore, consistent with RCW 47.12.063, 47.12.080, and 47.12.120, it is the intent of the legislature that the department sell, transfer, or lease, as appropriate, to the city of Sedro-Woolley only those portions of the property necessary to construct the project, including necessary staging areas. However, any staging areas should be returned to the department within three years of completion of the project.

6) Within the amounts provided in this section, the department shall create a quality assurance position. This position must provide independent project quality assurance validation and ensure that quality assurance audit functions are accountable at the highest level of the organization.

7) To maximize available resources, the department's efforts to eliminate fish passage barriers caused by state roads and highways must be based on the principle of maximizing habitat recovery through a coordinated investment strategy that, to the maximum extent practical and allowable, prioritizes opportunities: To correct multiple fish barriers in whole streams rather than through individual, isolated projects; to coordinate with other entities sponsoring barrier removals, such as regional fisheries enhancement groups, in a manner that achieves the greatest cost savings to all parties; and to eliminate barriers located furthest downstream in a stream system. The department must also recognize that many of the barriers owned by the state are located in the same stream systems as barriers that are owned by cities and counties with limited financial resources for correction and that state/local partnership opportunities should be sought to address these barriers. This subsection takes effect if chapter... (Second Substitute House Bill No. 2251, Laws of 2014 is not enacted by June 30, 2014.

8) $1,453,000 of the motor vehicle account--state appropriation is provided solely to support increased departmental efforts to dispose of surplus property as directed in subsection (2) of this section. These additional funds are expected to result in up to $5,000,000 per fiscal biennium in additional revenues through increasing the sale of surplus property. By December 1, 2014, the department shall report to the governor and the chairs and ranking members of the senate and house of representatives transportation committees on the number of surplus property parcels sold and the amount of revenue generated from those sales during 2014.

Sec. 214. 2013 c 306 s 214 (uncodified) is amended to read as follows:

FOR THE DEPARTMENT OF TRANSPORTATION--ECONOMIC PARTNERSHIPS--PROGRAM K

Motor Vehicle Account--State Appropriation...($570,000)

$589,000

The appropriation in this section is subject to the following conditions and limitations:

1) The legislature finds that the efforts started in the 2011-2013 fiscal biennium regarding the transition to a road usage charge system represent an important first step in the policy and conceptual development of potential alternative systems to fund transportation...
projects, but that the governance for the development needs clarification. The legislature also finds that significant amounts of research and public education are occurring in similar efforts in several states and that these efforts can and should be leveraged to advance the evaluation in Washington. The legislature intends, therefore, that the transportation commission and its staff lead the policy development of the business case for a road usage charge system, with the goal of providing the business case to the governor and the legislative committees of the legislature in time for inclusion in the 2014 supplemental omnibus transportation appropriations act. The legislature intends for additional oversight in the business case development, with guidance from a steering committee as provided in chapter 86, Laws of 2012 for the transportation commission, augmented with participation by the joint transportation committee. The legislature further intends that, through the economic partnerships program, the department continue to address administrative, technical, and conceptual operational issues related to road usage charge systems, and that the department serve as a resource for information gleaned from other states on this topic for the transportation commission's efforts.

(2) The economic partnerships program must continue to explore retail partnerships at state-owned park-and-ride facilities, as authorized in RCW 47.04.295.

(3) The department, in collaboration with the transportation commission, shall work with the office of the state treasurer and the state's bond counsel to explore legal approaches for ensuring that any reduction, refunding, crediting, or repeal of the motor vehicle fuel tax, in whole or in part, can be accomplished without unlawfully impairing the legal rights of motor vehicle fuel tax bond holders. The results of this work must be shared with the transportation committees of the legislature and the office of financial management by September 1, 2014.

(4) $21,000 of the motor vehicle account--state appropriation is provided solely as matching funds for the department to partner with other transportation agencies located in the western region of North America to develop strategies and methods for reporting, collecting, crediting, and remitting road usage charges resulting from inter-jurisdictional travel. At least one partnering jurisdiction must share a common border with Washington. The results of this work must be reported to the governor, the transportation commission, and the transportation committees of the legislature by September 1, 2014.

Sec. 215. 2013 c 306 s 215 (uncodified) is amended to read as follows:

FOR THE DEPARTMENT OF TRANSPORTATION--HIGHWAY MAINTENANCE--PROGRAM M
Highway Safety Account--State Appropriation ........ $10,000,000
Motor Vehicle Account--State Appropriation
The appropriations in this section are subject to the following conditions and limitations:
(1) $77,779,000 of the motor vehicle account--state appropriation and $10,000,000 of the highway safety account--state appropriation are provided solely for maintenance projects that improve safety or provide congestion relief. These funds may not be used to purchase passenger cars as defined in RCW 90.03.525.
(2) The department shall submit a budget decision for the 2014 legislative session package that details all costs associated with utility fees assessed by local governments as authorized under RCW 90.03.525.
(3) The department submits a legislative program, when the department reserves a portion of an appropriation to achieve specific levels of service on the thirty maintenance targets listed by statewide priority in LEAP Transportation Document 2013-4 as developed April 23, 2013. Beginning in February 2014, the department shall report to the legislature annually on its updated maintenance accountability process targets and whether or not the department was able to achieve its targets.
(4) The department shall serve as a resource for information gleaned from other states on this topic for the transportation commission's efforts.

(2) The department shall report to the governor, the transportation commission, and the legislative committees of the legislature by September 1, 2014.

The appropriations in this section are subject to the following conditions and limitations:
(1) $6,000,000 of the motor vehicle account--state appropriation is provided solely for low-cost enhancements. The department shall give priority to low-cost enhancement projects that improve safety or provide congestion relief. The department shall prioritize low-cost enhancement projects on a statewide rather than regional basis. By September 1st of each even-numbered year, the department shall provide a report to the legislature listing all low-cost enhancement projects prioritized on a statewide rather than regional basis completed in the prior year.
(2) $9,000,000 of the motor vehicle account--state appropriation is provided solely for the department's incident response program.
(3) During the 2013-2015 fiscal biennium, the department shall continue a pilot program that expands private transportation providers' access to high occupancy vehicle lanes. Under the pilot program, when the department reserves a portion of a highway based on the number of passengers in a vehicle, the following vehicles must be authorized to use the reserved portion of the highway if the vehicle has the capacity to carry eight or more passengers, regardless of the number of passengers in the vehicle:
(a) Auto transportation company vehicles regulated under chapter 81.68 RCW;
(b) charter carrier vehicles regulated under chapter 81.70 RCW, except marked or unmarked stretch limousines and stretch sport utility vehicles as defined under department of licensing rules;
(c) private nonprofit transportation provider vehicles regulated under chapter 81.66 RCW; and
(d) private employer transportation service vehicles. For purposes of this subsection, "private employer transportation service" means regularly scheduled, fixed-route transportation service that is offered by an employer for the benefit of its employees. Nothing in this subsection is intended to authorize the conversion of public infrastructure to private, for-profit purposes or to otherwise create an entitlement or other claim by private users to public infrastructure.
(4) The department shall serve as a resource for information gleaned from other states on this topic for the transportation commission's efforts.

(2) The department, in consultation with the Washington state patrol, must continue a pilot program for the state patrol to
issue infractions based on information from automated traffic safety cameras in roadway construction zones on state highways. For the purpose of this pilot program, during the 2013-2015 fiscal biennium, a roadway construction zone includes areas where public employees or private contractors may be present or where a driving condition exists that would make it unsafe to drive at higher speeds, such as, when the department is redirecting or realigning lanes on any public roadway pursuant to ongoing construction. The department shall use the following guidelines to administer the program:

(a) Automated traffic safety cameras may only take pictures of the vehicle and vehicle license plate and only while an infraction is occurring. The picture must not reveal the face of the driver or of passengers in the vehicle;

(b) The department shall plainly mark the locations where the automated traffic safety cameras are used by placing signs on locations that clearly indicate to a driver that he or she is entering a roadway construction zone where traffic laws are enforced by an automated traffic safety camera;

(c) Notices of infractions must be mailed to the registered owner of a vehicle within fourteen days of the infraction occurring;

(d) The owner of the vehicle is not responsible for the violation if the owner of the vehicle, within fourteen days of receiving notification of the violation, mails to the patrol, a declaration under penalty of perjury, stating that the vehicle involved was, at the time, stolen or in the care, custody, or control of some person other than the registered owner, or any other extenuating circumstances;

(e) For purposes of the 2013-2015 fiscal biennium pilot program, infractions detected through the use of automated traffic safety cameras are not part of the registered owner's driving record under RCW 46.52.101 and 46.52.120. Additionally, infractions generated by the use of automated traffic safety cameras must be processed in the same manner as parking infractions for the purposes of RCW 3.50.100, 35.20.220, 46.16A.120, and 46.20.270(3). However, the amount of the fine issued under this subsection (((5))) for an infraction generated through the use of an automated traffic safety camera is one hundred thirty-seven dollars. The court shall remit thirty-two dollars of the fine to the state treasurer for deposit into the state patrol highway account; and

(f) If a notice of infraction is sent to the registered owner and the registered owner is a rental car business, the infraction must be dismissed against the business if it mails to the patrol, within fourteen days of receiving the notice, a declaration under penalty of perjury of the name and known mailing address of the individual driving or renting the vehicle when the infraction occurred. If the business is unable to determine who was driving or renting the vehicle at the time the infraction occurred, the business must sign a declaration under penalty of perjury to this effect. The declaration must be mailed to the patrol within fourteen days of receiving the notice of traffic infraction. Timely mailing of this declaration to the issuing agency relieves a rental car business of any liability under this section for the notice of infraction. A declaration form suitable for this purpose must be included with each automated traffic safety camera infraction notice issued, along with instructions for its completion and use.

The Washington state ferries shall include a greater level of detail in its 2013-2015 supplemental and 2015-2017 omnibus transportation appropriations act requests, as determined jointly by the office of financial management, the Washington state ferries, and the transportation committees of the legislature. This level of detail must include the administrative functions in the operating as well as capital programs.

(2) Until a reservation system is operational on the San Juan islands inter-island route, the department shall provide the same priority loading benefits on the San Juan islands inter-island route to home health care workers as are currently provided to patients traveling for purposes of receiving medical treatment.

In recognition of the increased costs the state is expected to absorb due to changes in federal law, the department is directed to analyze the Amtrak contract proposal and find cost saving alternatives. The department shall report to the transportation committees of the legislature before the 2014 regular legislative session on its revisions to the Amtrak contract, including a review of the appropriate costs within the contract for concession services, policing, host railroad incentives, and station services and staffing needs. Within thirty days of each annual cost/revenue reconciliation under the Amtrak service contract, the department shall report any changes that would affect the state subsidy amount appropriated in this subsection. Through a competitive process, the department may contract with a private entity for services related to operations and maintenance of the Amtrak Cascades route, including, but not limited to, concession services.

The appropriations in this section are subject to the following conditions and limitations:

1. Except as provided otherwise in this section, the entire transportation 2003 account (nickel account) appropriation and the entire transportation partnership account appropriation are provided solely for the projects and activities as listed by fund, project, and amount in LEAP Transportation Document ((2013-2)) 2014-2 ALL PROJECTS as developed ((April 23, 2013)) March 10, 2014, Program - Highway Improvement Program (I). However, limited transfers of specific line-item project appropriations may occur between projects for those amounts listed subject to the conditions and limitations in section ((603)) 601 of this act.

2. Except as provided otherwise in this section, the entire motor vehicle account–state appropriation and motor vehicle account–federal appropriation are provided solely for the projects and activities listed in LEAP Transportation Document ((2013-2)) 2014-2 ALL PROJECTS as developed ((April 23, 2013)) March 10, 2014, Program - Highway Improvement Program (I). ([This is the intent of the legislature to direct]) The department (to give first priority of) shall apply any federal funds gained through efficiencies or the redistribution process in an amount up to $27,200,000 for cost overruns related to the pontoon design errors on the SR 520 Bridge Replacement and HOV project (881003) as described in subsection (12)(f) of this section. Any federal funds gained through efficiencies or the redistribution process that are in excess of $27,200,000 must then be applied to the “Contingency (Unfunded) Highway Preservation Projects” as identified in LEAP Transportation Document ((2013-2)) 2014-2 ALL PROJECTS as developed ((April 23, 2013)) March 10, 2014, Program - Highway Preservation Program (P). However, no additional federal funds may be allocated to the I-5/Columbia River Crossing project (400506A).

3. Within the motor vehicle account–state appropriation and motor vehicle account–federal appropriation, the department may transfer funds between programs I and P, except for funds that are otherwise restricted in this act.

4. The transportation 2003 account (nickel account) appropriation includes up to ($8,106,000) $246,710,000 in proceeds from the sale of bonds authorized by RCW 47.10.861.

5. The transportation partnership account–state appropriation includes up to ($6,174,000) $811,595,000 in proceeds from the sale of bonds authorized in RCW 47.10.873.

6. The motor vehicle account–state appropriation includes up to $30,000,000 in proceeds from the sale of bonds authorized in RCW 47.10.843.

7. The motor vehicle account–federal appropriation includes up to ($6,174,000) $811,595,000 in proceeds from the sale of bonds authorized in RCW 47.10.873.

8. A number of funds that are otherwise restricted in this act.

9. The department shall prepare a detailed environmental impact statement that complies with the national environmental policy act regarding tolling Interstate 90 between Interstate 5 and Interstate 405 for the purposes of both managing traffic and providing funding for the construction of the unfunded state route number 520 from Interstate 5 to Medina project. As part of the preparation of the statement, the department must review any impacts to the network of highways and roads surrounding Lake Washington. In developing this statement, the department must provide significant outreach to potential affected communities.
The department may consider traffic management options that extend as far east as Issaquah.

(b)(i) As part of the project in this subsection (((63))) (7), the department shall perform a study of all funding alternatives to tolling Interstate 90 to provide funding for construction of the unfunded state route number 520 and explore and evaluate options to mitigate the effect of tolling on affected residents and all other users of the network of highways and roads surrounding Lake Washington including, but not limited to:

(A) Allowing all Washington residents to traverse a portion of the tolled section of Interstate 90 without paying a toll. Residents may choose either (I) the portion of Interstate 90 between the easternmost landing west of Mercer Island and the westernmost landing on Mercer Island, or (II) the portion of Interstate 90 between the westernmost landing east of Mercer Island and the easternmost landing on Mercer Island;

(B) Assessing a toll only when a driver traverses, in either direction, the entire portion of Interstate 90 between the easternmost landing west of Mercer Island and the westernmost landing east of Mercer Island; and

(C) Allowing affected residents to choose one portion of the tolled section of Interstate 90 upon which they may travel without paying a toll. Residents may choose either (I) the portion of Interstate 90 between the easternmost landing west of Mercer Island and the westernmost landing on Mercer Island, or (II) the portion of Interstate 90 between the westernmost landing east of Mercer Island and the easternmost landing on Mercer Island.

(ii) The department may also consider any alternative mitigation options that conform to the purpose of this subsection (((63))) (7).

(iii) For the purposes of this subsection (((63))) (7), "affected resident" means anyone who must use a portion of Interstate 90 west of Interstate 405 upon which tolling is considered in order to access necessary medical services, such as a hospital.

(((63))) (8) $490,796,000 of the transportation partnership account--state appropriation, (($413,955,000)) $512,712,000 of the motor vehicle account--federal appropriation, (($14,369,000)) $12,952,000 of the transportation partnership account--state appropriation, and ((($413,955,000)) $512,712,000 of the motor vehicle account--federal appropriation are provided solely for the US 395/North Spokane Corridor projects (600010A & 60003A). Any future savings on the projects must stay on the US 395/Interstate 90 corridor and be made available to the current phase of the North Spokane corridor projects or any future phase of the projects.

(((12))) (11) $129,952,000 of the transportation partnership account--state appropriation and ((($82,755,000)) $58,583,000 of the transportation 2003 account (nickel account)--state appropriation are provided solely for the I-405/Kirkland Vicinity Stage 2 - Widening project (88B11002). This project must be completed as soon as practicable as a design-build project. Any future savings on this project or other Interstate 405 corridor projects must stay on the Interstate 405 corridor and be made available to either the I-405/SR 167 Interchange - Direct Connector project (140504C) or the I-405 Renton to Bellevue project.

(((63))) (12)(a) The SR 520 Bridge Replacement and HOV project (((0BI1003))) (88B11003) is supported over time from multiple sources, including a $300,000,000 TIFIA loan, (($819,524,625)) $923,000,000 in Garvee bonds, toll revenues, state bonds, interest earnings, and other miscellaneous sources.

(b) The state route number 520 corridor account--state appropriation includes up to (($668,142,000)) $814,784,000 in proceeds from the sale of bonds authorized in RCW 47.10.879 and 47.10.886.

(c) The state route number 520 corridor account--federal appropriation includes up to $300,000,000 in proceeds from the sale of bonds authorized in RCW 47.10.879 and 47.10.886.

(d) (($153,124,000)) (8) $165,175,000 of the transportation partnership account--state appropriation, $300,000,000 of the state route number 520 corridor account--federal appropriation, and (($237,205,000)) $880,111,000 of the state route number 520 corridor account--state appropriation are provided solely for the SR 520 Bridge Replacement and HOV project (((0BI1003))) (88B11003). Of the amounts appropriated in this subsection (((63))) (12)(d), (($105,085,000)) $84,001,000 of the state route number 520 corridor account--federal appropriation and ((($227,415,000)) $354,411,000 of the state route number 520 corridor account--state appropriation must be put into unallotted status and are subject to review by the office of financial management. The director of the office of financial management shall consult with the joint transportation committee prior to making a decision to allot these funds.

(e) When developing the financial plan for the project, the department shall assume that all maintenance and operation costs for the new facility are to be covered by tolls collected on the toll facility and not by the motor vehicle account.

(f) The legislature finds that the most appropriate way to pay for the cost overruns related to change orders, additional sales tax, and future risks associated with pontoon design errors is for the state to issue triple pledge bonds in the 2015-2017 fiscal biennium resulting in $110,961,000 in proceeds, and use efficiencies, including the use of least cost planning or practical design, and favorable bids in the highway construction program to generate an additional $61,066,000 towards paying for the estimated project overruns. Of this additional $61,066,000, $33,866,000 should come from the transportation partnership account--state appropriation and $27,200,000 should come from federal funds. As the department identifies savings in federal funds during the 2013-2015 fiscal biennium, the department shall prioritize the use of these funds towards the anticipated $27,200,000 in federal funds needed to address cost overruns before expending state funds during this fiscal biennium. The legislature assumes that issuing bonds to complete
this project as listed in LEAP Transportation Document 2014-1 as developed March 10, 2014, does not require a comprehensive financial plan for a project that completes the state route number 520 corridor to Interstate 5.

(g) The department's 2014 supplemental budget allotment submittal must include a project-specific plan detailing how the department will achieve the mandatory budget savings in (f) of this subsection, including the use of least cost planning or practical design as a means to generate savings, as referenced in subsection (23) of this section. The use of least cost planning or practical design may result in a reduction of project cost, but not a reduction of functional scope. The director of financial management shall notify the transportation committees of the legislature in writing seven days prior to approving any allotment modifications under this subsection.

(13) Within the amounts provided in this section, the department must continue to work with the Seattle department of transportation in their joint planning, design, outreach, and operation of the remaining west side elements including, but not limited to, the Montlake lid, the bicycle/pedestrian path, the effective network of transit connections, and the Portage Bay bridge of the SR 520 Bridge Replacement and HOT project.

(14) ($1,100,000) $1,062,000 of the motor vehicle account-- federal appropriation is provided solely for the 31st Ave SW Overpass Widening and Improvement project (L110008).

(15) ($22,602,000) $25,243,000 of the motor vehicle account-- state appropriation is provided solely to advance the design, preliminary engineering, and rights-of-way acquisition for the priority projects identified in LEAP Transportation Document (2012-3) 2014-3 as developed ((April 23, 2013)) March 10, 2014. Funds must be used to advance the emergent, initial development of these projects for the purpose of expediting delivery of the associated major investments when funding for such investments becomes available. Funding may be reallotted between projects to maximize the accomplishment of design and preliminary engineering work and rights-of-way acquisition, provided that all projects are addressed. It is the intent of the legislature that, while seeking to maximize the outcomes in this section, the department shall provide for continuity of both the state and consulting engineer workforce, while strategically utilizing private sector involvement to ensure consistency with the department's business plan for staffing in the highway construction program in the current fiscal biennium.

(16) If a planned roundabout in the vicinity of state route number 526 and 84th Street SW would divert commercial traffic onto neighborhood streets, the department may not proceed with improvements at state route number 526 and 84th Street SW until the traffic impacts in the vicinity of state route number 526 and 40th Avenue West are addressed.

(17) The legislature finds that there are sixteen companies involved in wood preserving in the state that employ four hundred workers and have an annual payroll of fifteen million dollars. Prior to the department's switch to steel guardrails, ninety percent of the twenty-five hundred mile guardrail system was constructed of preserved wood and one hundred ten thousand wood guardrail posts were produced annually for state use. Moreover, the policy of using steel posts requires the state to use imported steel. Given these findings, where practicable, and until June 30, 2015, the department shall include the design option to use wood guardrail posts, in addition to steel posts, in new guardrail installations. The selection of posts must be consistent with the agency design manual policy that existed before December 2009.

(18) The legislature finds that "right-sizing" is a lean, metric-based approach to determining project investments. This concept entails compromise between project cost and design, incorporating local community needs, desired outcomes, and available funding. Furthermore, the legislature finds that the concepts and principles the department has utilized in the safety analyst program have been effective tools to prioritize projects and reduce project costs. Therefore, the department shall establish a pilot project on the SR 3/Belfair Bypass - New Alignment (300344C) to begin implementing the concept of "right-sizing" in the highway construction program.

(19) For urban corridors that are all or partially within a metropolitan planning organization boundary, for which the department has not initiated environmental review, and that require an environmental impact statement, at least one alternative must be consistent with the goals set out in RCW 47.01.440.

(20) The department shall itemize all future requests for the construction of buildings on a project list and submit them through the transportation executive information system as part of the department's 2014 budget submittal. It is the intent of the legislature that new facility construction must be transparent and not appropriated within larger highway construction projects.

(21) $28,062,000 of the motor vehicle account--state appropriation ($28,062,000) $19,513,000 of the motor vehicle account--federal appropriation are provided solely for improvement program support activities (095901X). $18,000,000 of this amount must be held in unallotted status until the office of financial management certifies that the department's 2014 supplemental budget request conforms to the terms of subsection (20) of this section.

(22) Any new advisory group that the department convenes during the 2013-2015 fiscal biennium must be representative of the interests of the entire state of Washington.

(23) Practical design offers targeted benefits to a state transportation system within available fiscal resources. This delivers value not just for individual projects, but for the entire system. Applying practical design standards will also preserve and enhance safety and mobility. The department shall implement a practical design strategy for transportation design standards. By June 30, 2015, the department shall report to the governor and the house of representatives and senate transportation committees on where practical design has been applied or is intended to be applied in the department and the cost savings resulting from the use of practical design.

(24) The department of transportation shall accept transfer to the state highway system of Quarry Road (also known as the Granite Falls Alternate Route) as a partially controlled limited access facility, consistent with the right-of-way and limited access plan adopted by Snohomish county and the city of Granite Falls in 2008. The department of transportation shall defend any action related to access and challenges to the limited access designation. This subsection takes effect ninety days after the date the governor signs this act if an agreement between the department of transportation and Snohomish county has not been signed by the effective date of this act.

Transportation Partnership Account--State Appropriation......($190,031,000

TOTAL APPROPRIATION............................($2,813,000

..................................................($379,013,000

The appropriations in this section are subject to the following conditions and limitations:

(1) Except as provided otherwise in this section, the entire appropriations in this section are provided solely for the projects and activities as listed in LEAP Transportation Document ((2013-2)) 2014-2 ALL PROJECTS as developed ((April 23, 2013)) March 10, 2014, Program - Washington State Ferries Capital Program (W).

(2) The Puget Sound capital construction account--state appropriation includes up to $20,000,000 in proceeds from the sale of bonds authorized in RCW 47.10.843.

(3) (($143,633,000)) $137,425,000 of the transportation 2003 account (nickel account)--state appropriation (ia), $2,338,000 of the transportation partnership account--state appropriation, and $300,000 of the Puget Sound capital construction account--federal appropriation are provided solely for the acquisition of two 144-car vessels (projects L2200038 and L2200039). The department shall use as much already procured equipment as practicable on the 144-car vessels.

(4) (($8,270,000)) $14,728,000 of the Puget Sound capital construction account--federal appropriation, (($3,035,000)) $4,038,000 of the Puget Sound capital construction account--state appropriation, and (($1,534,000)) $1,312,000 of the multimodal transportation account--state appropriation are provided solely for the Mukilteo ferry terminal (project 952515P). To the greatest
extent practicable, the department shall seek additional federal funding for this project. Within the multimodal transportation account--state appropriation amount provided in this subsection, the department shall lease to the city in which the project is located a portion of the department's property associated with this project to provide safe, temporary public access from the easterly terminus of First Street to the vicinity of Front Street. The department shall provide the lease at no cost in recognition of the impacts of this project to the city and require appropriate liability and maintenance coverage in the terms of the lease. Public access must be installed and removed at no cost to the state prior to construction of the multimodal terminal project.

(5) (($4,935,000)) $4,935,000 of the Puget Sound capital construction account--state appropriation is provided solely for emergency capital repair costs (project 999910K). Funds may only be spent after approval by the office of financial management.

(6) Consistent with RCW 47.60.662, which requires the Washington state ferry system to collaborate with passenger-only ferry and transit providers to provide service at existing terminals, the department shall ensure that multimodal access, including for passenger-only ferries and transit service providers, is not precluded by any future modifications at the terminal.

(7) (($4,026,000)) $4,026,000 of the Puget Sound capital construction account--state appropriation is provided solely for the reservation and communications systems projects (L200041 & L200042).

(8) $4,210,000 of the Puget Sound capital construction account--state appropriation is provided solely for the capital program share of $7,259,000 in lease payments for the ferry division's headquarters building. Consistent with the 2012 facilities oversight plan, the department shall strive to consolidate office space in downtown Seattle by the end of 2015. The department shall consider renewing the lease for the ferry division's current headquarters building only if the lease rate is reduced at least fifty percent and analysis shows that this is the least cost and risk option for the department. Consolidation with other divisions or state agencies, or a reduction in leased space, must also be considered as part of any headquarters lease renewal analysis.

(9) (($21,350,000)) $23,737,000 of the total appropriation is for preservation work on the Hyak super class vessel (project 944431D), including installation of a power management system and more efficient propulsion systems, that in combination are anticipated to save up to twenty percent in fuel and reduce maintenance costs. Upon completion of this project, the department shall provide a report to the transportation committees of the legislature on the fuel and maintenance savings achieved for this vessel and the potential to save additional funds through other vessel conversions.

(10) The transportation 2003 account (nickel account)--state appropriation includes up to $50,000,000 in proceeds from the sale of bonds authorized in RCW 47.10.661.

(11) $50,000,000 of the transportation 2003 account (nickel account)--state appropriation is provided solely for the acquisition of one 144-car vessel (project L1000063). If chapter ... (Engrossed Second Substitute House Bill No. 1129), Laws of 2014 (ferry vessel replacement) is not enacted by June 30, 2014, the amount provided in the subsection lapses.

(12) If the department pursues a conversion of the existing diesel powered Issaquah class fleet to a different fuel source or engine technology, the department must use a design-build procurement process.

(13) $350,000 of the Puget Sound capital construction account--state appropriation is provided solely for the issuance of a request for proposals to convert the Issaquah class vessels to use liquefied natural gas and to provide a one-time stipend to the entity awarded the conversion contract. Of the amounts provided in this subsection:

(a) $100,000 of the Puget Sound capital construction account--state appropriation is for the department to issue a request for proposals for a design-build contract consistent with RCW 47.20.780 to convert six Issaquah class vessels to be powered by liquefied natural gas. Consistent with RCW 47.56.030(2)(c), the legislature finds that the performance needs of the department in converting to liquefied natural gas are for engines with the lowest life-cycle costs, and the department must weigh this criteria as a priority when evaluating the proposals. To encourage cost saving ideas, the department shall limit prescribing design elements in the proposal to those approved or required by the United States coast guard in the liquefied natural gas waterways suitability assessment or those otherwise essential to provide clear direction to bidders. The request for proposals must include a process for evaluating proposals that may include alternative financing arrangements that are in compliance with state private financing law. When evaluating the financial merits of any liquefied natural gas conversion request for proposals, the department shall give consideration to the inability of the state to fund a liquefied natural gas conversion using currently available public resources. The department shall issue the request for proposals within forty-five days of rejecting the liquefied natural gas request for proposals issued under section 308(11), chapter 86, Laws of 2012 or receiving final findings from the United States coast guard on the liquefied natural gas waterways suitability assessment, whichever is later.

(b) $250,000 of the Puget Sound capital construction account--state appropriation is for the entity awarded the contract pursuant to this subsection.

2. Within the amounts provided in this section, $(2,323,000) of the transportation infrastructure account--state appropriation is for low-interest loans through the freight rail investment bank program identified in the LEAP transportation document referenced in (a) of this subsection. The department shall issue freight rail investment bank program loans with a repayment period of no more than ten years, and only so much interest as is necessary to recoup the department's costs to administer the loans.
(c) Within the amounts provided in this section, ($2,440,000) $2,440,000 of the multimodal transportation account--state appropriation, $1,250,000 of the transportation infrastructure account--state appropriation, and $311,000 of the essential rail assistance account--state appropriation are for statewide emergent freight rail assistance projects identified in the LEAP transportation document referenced in (a) of this subsection.

(2) Unsuccessful 2012 freight rail assistance program grant applicants may be awarded freight rail investment bank program loans, if eligible. (If any funds remain in the freight rail investment bank or freight rail assistance program reserves (projects P01001A and P01000A, or any approved grants or loans are terminated)) The department shall issue a call for projects for the freight rail investment bank loan program and the freight rail assistance grant program, and shall evaluate the applications in a manner consistent with past practices as specified in section 309, chapter 367, Laws of 2011. By November 1, (2013) 2014, the department shall submit a prioritized list of recommended projects to the office of financial management and the transportation committees of the legislature.

Except for the Mount Vernon project (P01101A), the multimodal transportation account--state appropriation funds reflect one and one-half percent of the total project funds, and are provided solely for expenditures that are not eligible for federal reimbursement. Of the amounts provided in this subsection, $31,500,000 of the multimodal transportation account--federal appropriation is provided solely for the purchase of two new train sets for the state-supported intercity passenger rail service. The department must apply for any federal waivers required to purchase the new train sets, as allowable under existing competitive bidding practices, and seek federal funds in addition to those available from the high-speed rail grants.

(4) As allowable under federal rail authority rules and existing competitive bidding practices, when purchasing new train sets, the department shall give preference to bidders that propose train sets with characteristics and maintenance requirements most similar to those currently owned by the department.

(5) The department shall provide quarterly reports to the office of financial management and the transportation committees of the legislature regarding applications that the department submits for federal funds and the status of such applications.

(6)(a) $709,000 of the essential rail assistance account--state appropriation, $241,000 of the transportation infrastructure account--state appropriation, and $1,893,000 of the multimodal transportation account--state appropriation are provided solely for the purpose of rehabilitation and maintenance of the Palouse river and Coulee City railroad line (project P01111B). The department shall complete an evaluation and assessment of future maintenance needs on the line to ensure appropriate levels of state investment.

(b) Expenditures from the essential rail assistance account--state appropriation in this section may not exceed the combined total of:

(i) Revenues deposited into the essential rail assistance account from leases and sale of property pursuant to RCW 47.76.290; and

(ii) Revenues transferred from the miscellaneous program account to the essential rail assistance account, pursuant to RCW 47.76.360, for the purpose of sustaining the grain train program by maintaining the Palouse river and Coulee City railroad line.

(7) $31,500,000 of the multimodal transportation account--federal appropriation is provided solely for the purchase of two new train sets for the state-supported intercity passenger rail service. The department must apply for any federal waivers required to purchase the new train sets, as allowable under existing competitive bidding practices, and seek federal funds in addition to those available from the high-speed rail grants.

(a) When the department identifies a prospective rail project that may have strategic significance for the state, or at the request of a proponent of a prospective rail project or a member of the legislature, the department shall evaluate the prospective project according to the cost-benefit methodology developed during the 2008 interim using the legislative priorities specified in (b) of this subsection. The department shall report its cost-benefit evaluation of the prospective rail project, as well as the department's best estimate of an appropriate construction schedule and total project costs, to the office of financial management and the transportation committees of the legislature.

(b) The legislative priorities to be used in the cost-benefit methodology are, in order of relative importance:

(i) Economic, safety, or environmental advantages of freight movement by rail compared to alternative modes;

(ii) Self-sustaining economic development that creates family-wage jobs;

(iii) Preservation of transportation corridors that would otherwise be lost;

(iv) Increased access to efficient and cost-effective transport to market for Washington's agricultural and industrial products;

(v) Better integration and cooperation within the regional, national, and international systems of freight distribution; and

(vi) Mitigation of impacts of increased rail traffic on communities.

**IMPLEMENTING PROVISIONS**

**Sec. 601.** 2013 c 306 s 603 (uncodified) is amended to read as follows:

**FUND TRANSFERS**

(1) The transportation 2003 projects or improvements and the 2005 transportation partnership projects or improvements are listed in the LEAP list titled ((2013-1)) 2014-1 as developed ((April 23, 2014)) March 10, 2014, which consists of a list of specific projects by fund source and amount over a ten-year period. Current fiscal biennium funding for each project is a line-item appropriation, while the outer year funding allocations represent a ten-year plan. The department is expected to use the flexibility provided in this section to assist in the delivery and completion of all transportation partnership account and transportation 2003 account (nickel account) projects on the LEAP transportation documents referenced in this act. However, this section does not apply to the I-5/Columbia River Crossing project (400506A). For the 2011-2013 and 2013-2015 project appropriations, unless otherwise provided in this act, the director of financial management may authorize a transfer of appropriation authority between projects funded with transportation 2003 account (nickel account) appropriations, or transportation partnership account appropriations, in order to manage project spending and efficiently deliver all projects in the respective program under the following conditions and limitations:

(a) Transfers may only be made within each specific fund source referenced on the respective project list;

(b) Transfers from a project may not be made as a result of the reduction of the scope of a project or be made to support increases in the scope of a project;

(c) Each transfer between projects may only occur if the director of financial management finds that any resulting change will not hinder the completion of the projects as approved by the legislature. Until the legislature reconvenes to consider the 2014 supplemental omnibus transportation appropriations act, any unexpended 2011-2013 appropriation balance as approved by the office of financial management, in consultation with the legislative staff of the house of representatives and senate transportation committees, may be considered when transferring funds between projects;

(d) Transfers from a project may be made if the funds appropriated to the project are in excess of the amount needed to complete the project;
FIFTY NINTH DAY, MARCH 12, 2014

(e) Transfers may not occur for projects not identified on the applicable project list;
(f) Transfers may not be made while the legislature is in session; and

MISCELLANEOUS 2013-2015 FISCAL BIENNIAL

Sec. 701. RCW 47.28.030 and 2011 c 367 s 710 are each amended to read as follows:
(1)(a) A state highway shall be constructed, altered, repaired, or improved, and improvements located on property acquired for right-of-way purposes may be repaired or renovated pending the use of such right-of-way for highway purposes, by contract or state forces. The work or portions thereof may be done by state forces when the estimated costs thereof are less than fifty thousand dollars and effective July 1, 2005, sixty thousand dollars.

(b) When delay of performance of such work would jeopardize a state highway or constitute a danger to the traveling public, the work may be done by state forces when the estimated cost thereof is less than eighty thousand dollars and effective July 1, 2005, one hundred thousand dollars.

(c) When the department of transportation determines to do the work by state forces, it shall enter a statement upon its records to that effect, stating the reasons therefor.

(d) To enable a larger number of small businesses and veteran, minority, and women contractors to effectively compete for department of transportation contracts, the department may adopt rules providing for bids and award of contracts for the performance of work, or furnishing equipment, materials, supplies, or operating services whenever any work is to be performed and the engineer's estimate indicates the cost of the work would not exceed eighty thousand dollars and effective July 1, 2005, one hundred thousand dollars.

(2) The rules adopted under this section:
(a) Shall provide for competitive bids to the extent that competitive sources are available except when delay of performance would jeopardize life or property or inconvenience the traveling public; and
(b) Need not require the furnishing of a bid deposit nor a performance bond, but if a performance bond is not required then progress payments to the contractor may be required to be made on submittal of paid invoices to substantiate proof that disbursements have been made to laborers, material suppliers, mechanics, and subcontractors from the previous partial payment; and
(c) May establish prequalification standards and procedures as an alternative to those set forth in RCW 47.28.070, but the prequalification standards and procedures under RCW 47.28.070 shall always be sufficient.

(3) The department of transportation shall comply with such goals and rules as may be adopted by the office of minority and women's business enterprises to implement chapter 39.19 RCW with respect to contracts entered into under this chapter. The department may adopt such rules as may be necessary to comply with the rules adopted by the office of minority and women's business enterprises under chapter 39.19 RCW.

(4)(a) For the period of March 15, ((2010)) 2014, through June 30, 2014, work for less than one hundred twenty thousand dollars may be performed on ferry vessels and terminals by state forces.

(b) The department shall hire a disinterested, third party to conduct an independent analysis to identify methods of reducing out-of-service times for vessel maintenance, preservation, and improvement projects. The analysis must include options that consider consolidating work while vessels are at shipyards by having state forces perform services traditionally performed at Eagle Harbor at the shipyard and decreasing the allowable time at shipyards. The analysis must also compare the out-of-service vessel times of performing services by state forces versus contracting out those services which in turn must be used to form a recommendation as to what the threshold of work performed on ferry vessels and terminals by state forces should be. This analysis must be presented to the transportation committees of the senate and house of representatives by December 1, 2010.

(c) The department shall develop a proposed ferry vessel maintenance, preservation, and improvement program and present it to the transportation committees of the senate and house of
representatives by December 1, 2010. The proposed program must:

(i) Improve the basis for budgeting vessel maintenance, preservation, and improvement costs and for projecting those costs into a sixteen-year financial plan;

(ii) Limit the amount of planned out-of-service time to the greatest extent possible, including options associated with department staff as well as commercial shipyards; and

(iii) Be based on the service plan in the capital plan, recognizing that vessel preservation and improvement needs may vary by route.

(d) In developing the proposed ferry vessel maintenance, preservation, and improvement program, the department shall consider the following, related to reducing vessel out-of-service time:

(i) The costs compared to benefits of Eagle Harbor repair and maintenance facility operations options to include staffing costs and benefits in terms of reduced out-of-service time;

(ii) The maintenance requirements for on-vessel staff, including the benefits of a systemwide standard;

(iii) The costs compared to benefits of staff performing preservation or maintenance work, or both, while the vessel is underway, tied up between sailings, or not deployed;

(iv) A review of the department’s vessel maintenance, preservation, and improvement program contracting process and contractual requirements;

(v) The costs compared to benefits of allowing for increased costs associated with expedited delivery;

(vi) A method for comparing the anticipated out-of-service time of proposed projects and other projects planned during the same construction period;

(vii) Coordination with required United States coast guard dry dockings;

(viii) A method for comparing how proposed projects relate to the service requirements of the route on which the vessel normally operates; and

(ix) A method for evaluating the ongoing maintenance and preservation costs associated with proposed improvement projects.

Sec. 702. RCW 81.53.281 and 2003 c 190 s 3 are each amended to read as follows:

There is hereby created in the state treasury a “grade crossing protective fund” to carry out the provisions of RCW 81.53.261, 81.53.271, 81.53.281, 81.53.291, and 81.53.295; for grants and/or subsidies to public, private, and nonprofit entities for rail safety projects authorized or ordered by the commission; and for personnel and associated costs related to supervising and administering rail safety grants and/or subsidies. During the 2013-2015 fiscal biennium, funds in this account may also be used to conduct the study required under section 102 of this act. The commission shall transfer from the public service revolving fund’s miscellaneous fees and penalties accounts moneys appropriated for these purposes as needed. At the time the commission makes each allocation of cost to said grade crossing protective fund, it shall certify that such cost shall be payable out of said fund. When federal-aid highway funds are involved, the department of transportation shall, upon entry of an order by the commission requiring the installation or upgrading of a grade crossing protective device, submit to the commission an estimate for the cost of the proposed installation and related work. Upon receipt of the estimate the commission shall pay to the department of transportation the percentage of the estimate specified in RCW 81.53.295, as now or hereafter amended, to be used as the grade crossing protective fund portion of the cost of the installation and related work.

The commission may adopt rules for the allocation of money from the grade crossing protective fund.

NEW SECTION  Sec. 703. A new section is added to 2013 c 306 (uncodified) to read as follows:

The office of the state treasurer shall explore the fiscal implications with respect to outstanding motor vehicle fuel transportation bonds and to future transportation bond sales, relating to any reduction, refunding, crediting, or repeal of the motor vehicle fuel tax, in whole or in part, that may occur in a transition to a potential road usage charge by which transportation activities may be funded in the future. The exploration of fiscal implications must examine possible effects on the state credit rating, interest rates, and other factors that affect the cost of financing transportation projects. The draft report of this work must be shared with the transportation committees of the legislature, the transportation commission, and the office of financial management by September 1, 2014. A final report must be provided to the transportation committees of the legislature, the transportation commission, and the office of financial management by December 31, 2014.

Sec. 704. RCW 82.70.020 and 2013 c 306 s 718 are each amended to read as follows:

(1) Employers in this state who are taxable under chapter 82.04 or 82.16 RCW and provide financial incentives to their own or other employees for ride sharing, or for using public transportation, for using car sharing, or for using nonmotorized commuting before July 1, (2014) 2015, are allowed a credit against taxes payable under chapters 82.04 and 82.16 RCW for amounts paid to or on behalf of employees for ride sharing in vehicles carrying two or more persons, for using public transportation, for using car sharing, or for using nonmotorized commuting, not to exceed sixty dollars per employee per fiscal year.

(2) Property managers who are taxable under chapter 82.04 or 82.16 RCW and provide financial incentives to persons employed at a worksite in this state managed by the property manager for ride sharing, for using public transportation, for using car sharing, or for using nonmotorized commuting before July 1, (2014) 2015, are allowed a credit against taxes payable under chapters 82.04 and 82.16 RCW for amounts paid to or on behalf of employees for ride sharing in vehicles carrying two or more persons, for using public transportation, for using car sharing, or for using nonmotorized commuting, not to exceed sixty dollars per person per fiscal year.

(3) The credit under this section is equal to the amount paid to or on behalf of each employee multiplied by fifty percent, but may not exceed sixty dollars per employee per fiscal year. No refunds may be granted for credits under this section.

(4) A person may not receive credit under this section for amounts paid to or on behalf of the same employee under both chapters 82.04 and 82.16 RCW.

(5) A person may not take a credit under this section for amounts claimed for credit by other persons.

Sec. 705. RCW 82.70.040 and 2013 c 306 s 719 are each amended to read as follows:

(1) A person may not receive credit under this section for amounts paid to or on behalf of the same employee under both chapters 82.04 and 82.16 RCW.

(2) A person may not take a credit under this section for amounts received for the same person under both chapters 82.04 and 82.16 RCW.

(3) The commission shall keep a running total of all credits allowed under RCW 82.70.020 during each fiscal year. The department shall not allow any credits that would cause the total amount allowed to exceed two million seven hundred fifty thousand dollars in any fiscal year. This limitation includes any deferred credits carried forward under subsection (2)(b)(i) of this section from prior years.

(4) The department shall keep a running total of all credits allowed under RCW 82.70.020 during each fiscal year. The department shall not allow any credits that would cause the total amount allowed to exceed two million seven hundred fifty thousand dollars in any fiscal year. This limitation includes any deferred credits carried forward under subsection (2)(b)(ii) of this section from prior years.

(5) If the total amount of credit applied for by all applicants in any year exceeds the limit in this subsection, the department shall prorate the amount of credit allowed for all applicants so that the limit in this subsection is not exceeded. If a credit is reduced
under this subsection, the amount of the reduction may not be carried forward and claimed in subsequent fiscal years.

(2)(a) Tax credits under RCW 82.70.020 may not be claimed in excess of the amount of tax otherwise due under chapter 82.04 or 82.16 RCW.

(b)(i) Through June 30, 2005, a person with taxes equal to or in excess of the credit under RCW 82.70.020, and therefore not subject to the limitation in (a) of this subsection, may elect to defer tax credits for a period of not more than three years after the year in which the credits accrue. No credits deferred under this subsection (2)(b)(i) may be used after June 30, 2008. A person deferring tax credits under this subsection (2)(b)(i) must submit an application as provided in RCW 82.70.025 in the year in which the deferred tax credits will be used. This application is subject to the provisions of subsection (1) of this section for the year in which the tax credits will be applied. If a deferred credit is reduced under subsection (1)(b) of this section, the amount of deferred credit disallowed because of the reduction may be carried forward as long as the period of deferral does not exceed three years after the year in which the credit was earned.

(ii) For credits approved by the department after June 30, 2005, the approved credit may be carried forward to subsequent years until used. Credits carried forward as authorized by this subsection are subject to the limitation in subsection (1)(a) of this section for the fiscal year for which the credits were originally approved.

(3) No person shall be approved for tax credits under RCW 82.70.020 in excess of two hundred thousand dollars in any fiscal year. This limitation does not apply to credits carried forward from prior years under subsection (2)(b) of this section.

(4) No person may claim tax credits after June 30, 2015.

(5) Credits may not be carried forward other than as authorized in subsection (2)(b) of this section.

(6) No person is eligible for tax credits under RCW 82.70.020 if the additional revenues for the multimodal transportation account created by Engrossed Substitute House Bill No. 2231 are terminated.

Sec. 706.  RCW 82.70.050 and 2003 c 364 s 5 are each amended to read as follows:

(1) During the 2013-2015 fiscal biennium, the director shall on the 25th of February, May, August, and November of each year advise the state treasurer of the amount of credit taken under RCW 82.70.020 during the preceding calendar quarter ending on the last day of December, March, June, and September, respectively.

(2) On the last day of March, June, September, and December of each year, the state treasurer, based upon information provided by the department, shall deposit to the general fund a sum equal to the dollar amount of the credit provided under RCW 82.70.020 from the multimodal transportation account.

Sec. 707.  RCW 82.70.900 and 2013 c 306 s 720 are each amended to read as follows:

This chapter expires ((July 1, 2014, except for RCW 82.70.050, which expires January 1, 2015)) June 30, 2015.

Sec. 708.  RCW 90.03.525 and 2005 c 319 s 140 are each amended to read as follows:

(1) The rate charged by a local government utility to the department of transportation with respect to state highway right-of-way or any section of state highway right-of-way for the construction, operation, and maintenance of storm water control facilities designed to control surface water or storm water runoff from state highway right-of-way.

(2) Charges paid under subsection (1) of this section by the department of transportation must be used solely for storm water control facilities that directly reduce ((state highway)) runoff impacts or implementation of best management practices that will reduce the need for such facilities. ((By January 1st of each year, beginning with calendar year 1997, the local government utility, in coordination with the department, shall develop a plan for the expenditure of the charges for that calendar year. The plan must be consistent with the objectives identified in RCW 90.78.010. In addition, beginning with the submittal for 1998, the utility shall provide a progress report on the use of charges assessed for the prior year. No charges may be paid until the plan and report have been submitted to the department.))

(3) The utility imposing the charge and the department of transportation may, however, agree to either higher or lower rates with respect to the construction, operation, or maintenance of any specific storm water control facilities ((based upon the annual plan prescribed in subsection (2) of this section)). If, after mediation, the local government utility and the department of transportation cannot agree upon the proper rate, either may commence an action in the superior court for the county in which the state highway right-of-way is located to establish the proper rate. The court in establishing the proper rate shall take into account the extent and adequacy of storm water control facilities constructed by the department and the actual benefits to the sections of state highway right-of-way from storm water control facilities constructed, operated, and maintained by the local government utility. Control of surface water runoff and storm water runoff from state highway right-of-way shall be deemed an actual benefit to the state highway right-of-way. The rate for sections of state highway right-of-way as determined by the court shall be set forth in terms of the percentage of the rate for comparable real property, but shall in no event exceed the rate charged for comparable city street or county road right-of-way within the same jurisdiction.

(4) The legislature finds that the federal clean water act (national pollutant discharge elimination system, 40 C.F.R. parts 122-124), the state water pollution control act, chapter 90.48 RCW, and the highway runoff program under chapter 90.71 RCW, mandate the treatment and control of storm water runoff from state highway right-of-way owned by the department of transportation. Appropriations made by the legislature to the department of transportation for the construction, operation, and maintenance of storm water control facilities are intended to address applicable federal and state mandates related to storm water control and treatment. This section is not intended to limit opportunities for sharing the costs of storm water improvements between cities, counties, and the state.

BARBARA BAKER, Chief Clerk
The House passed ENGROSSED SUBSTITUTE SENATE BILL NO. 6440 with the following amendment(s): 6440-S.E AMH HUNT H4547.4

Strike everything after the enacting clause and insert the following:

"PART I

Tax Performance Statement

NEW SECTION. Sec. 101. (1) The legislature finds that current law taxes natural gas as a traditional home heating or electric generation fuel while not taking into account the benefits of natural gas use as a transportation fuel. The legislature further finds that the construction and operation of a natural gas liquefaction plant and compressed natural gas refueling stations as well as the ongoing use of compressed and liquefied natural gas will lead to positive job creation, economic development, environmental benefits, lower fuel costs, and increased tax revenues to the state. The legislature further finds that it is sound tax policy to provide uniform tax treatment of natural gas used as a transportation fuel, regardless of whether the taxpayer providing the natural gas is a gas distribution business or not, so as to prevent any particular entity from receiving a competitive advantage solely through a structural inefficiency in the tax code.

(2)(a) This subsection is the tax performance statement for this act. The performance statement is only intended to be used for subsequent evaluation of the tax changes made in this act. It is not intended to create a private right of action by any party or be used to determine eligibility for preferential tax treatment.

(b) The legislature categorizes the tax changes in this act as changes intended to accomplish the general purposes indicated in RCW 82.32.808(2) (c) and (d).

(c) It is the legislature's specific public policy objectives to promote job creation and positive economic development; lower carbon dioxide, sulfur dioxide, nitrogen dioxide, and particulate emissions; and secure optimal liquefied natural gas pricing for the state of Washington and other public entities.

(d) To measure the effectiveness of the exemption provided in this act in achieving the specific public policy objective described in (c) of this subsection, the joint legislative audit and review committee must evaluate the following:

(i) The number of employment positions and wages at a natural gas liquefaction facility located in Washington and operated by a gas distribution business where some or all of the liquefied natural gas is sold for use as a transportation fuel. If the average number of employment positions at the liquefaction facility once it is operationally complete equals or exceeds eighteen and average annual wages for employment positions at the facility exceed thirty-five thousand dollars, it is presumed that the public policy objective of job creation has been achieved.

(ii) The estimated total cost of construction of a liquefaction plant by a gas distribution company, including costs for machinery and equipment. If the total cost equals or exceeds two hundred fifty million dollars, it is presumed that the public policy objective of positive economic development has been achieved.

(iii) The estimated fuel savings by the Washington state ferry system and other public entities through the use of liquefied natural gas purchased from a gas distribution business.

(iv) The estimated reduction in carbon dioxide, sulfur dioxide, nitrogen dioxide, and particulate emissions, resulting from the use of liquefied natural gas and compressed natural gas as a transportation fuel where the natural gas is sold by a gas distribution business. The emissions of liquefied and compressed natural gas must be specifically compared with an equivalent amount of diesel fuel. If the estimated annual reduction in emissions exceeds the following benchmarks, it is presumed that the public policy objective of reducing emissions has been achieved:

(A) Three hundred million pounds of carbon dioxide;

(B) Two hundred thousand pounds of particulates;

(C) Four hundred thousand pounds of sulfur dioxide; and

(D) Four hundred fifty thousand pounds of nitrogen dioxide.

(e)(i) The following data sources are intended to provide the informational basis for the evaluation under (d) of this subsection:

(A) Employment data provided by the state employment security department;

(B) Ferry fuel purchasing data provided by the state department of transportation;

(C) Diesel and other energy pricing data found on the United States energy information administration's web site; and

(D) Information provided by a gas distribution business on the annual report required under RCW 82.32.534.

(ii) In addition to the data source described under (e)(i) of this subsection, the joint legislative audit and review committee may use any other data it deems necessary in performing the evaluation under (d) of this subsection.

(3) A gas distribution business claiming the exemption under RCW 82.08.02565 or 82.12.02565 must file the annual report under RCW 82.32.534 or any successor document. In addition to the information contained in the report, the report must also include the amount of liquefied natural gas and compressed natural gas sold by the gas distribution business as a transportation fuel. A gas distribution business is not required to file the annual survey under RCW 82.32.585, as would otherwise be required under RCW 82.32.808(5).

(4) The joint legislative audit and review committee must perform the review required in this section in a manner consistent with its tax preference review process under chapter 43.136 RCW. The committee must perform the review in calendar year 2025.

PART II

Fuel Taxes and Sales Taxes

Sec. 201. RCW 82.38.030 and 2013 c 225 s 103 are each amended to read as follows:

(1) There is levied and imposed upon fuel licensees a tax at the rate of twenty-three cents per each gallon of fuel((or each one hundred cubic feet of compressed natural gas)), measured at standard pressure and temperature.

(2) Beginning July 1, 2003, an additional and cumulative tax rate of five cents per each gallon of fuel((or each one hundred cubic feet of compressed natural gas)), measured at standard pressure and temperature is imposed on fuel licensees. This subsection (2) expires when the bonds issued for transportation 2003 projects are retired.

(3) Beginning July 1, 2005, an additional and cumulative tax rate of three cents per each gallon of fuel((or each one hundred cubic feet of compressed natural gas)), measured at standard pressure and temperature is imposed on fuel licensees.

(4) Beginning July 1, 2006, an additional and cumulative tax rate of three cents per each gallon of fuel((or each one hundred cubic feet of compressed natural gas)), measured at standard pressure and temperature is imposed on fuel licensees.

(5) Beginning July 1, 2007, an additional and cumulative tax rate of two cents per each gallon of fuel((or each one hundred cubic feet of compressed natural gas)), measured at standard pressure and temperature is imposed on fuel licensees.
(6) Beginning July 1, 2008, an additional and cumulative tax rate of one and one-half cents per each gallon of fuel((or each one hundred cubic feet of compressed natural gas)), measured at standard pressure and temperature is imposed on fuel licensees.

(7) Taxes are imposed when:

(a) Fuel is removed in this state from a terminal if the fuel is removed at the rack unless the removal is by a licensed supplier or distributor for direct delivery to a destination outside of the state, or the removal is by a fuel supplier for direct delivery to an international fuel tax agreement licensee under RCW 82.38.320;

(b) Fuel is removed in this state from a refinery if either of the following applies:

   (i) The removal is by bulk transfer and the refiner or the owner of the fuel immediately before the removal is not a licensed supplier; or

   (ii) The removal is at the refinery rack unless the removal is to a licensed supplier or distributor for direct delivery to a destination outside of the state, or the removal is to a licensed supplier for direct delivery to an international fuel tax agreement licensee under RCW 82.38.320;

(c) Fuel enters into this state for sale, consumption, use, or storage, unless the fuel enters this state for direct delivery to an international fuel tax agreement licensee under RCW 82.38.320, if either of the following applies:

   (i) The entry is by bulk transfer and the importer is not a licensed supplier; or

   (ii) The entry is not by bulk transfer;

(d) Fuel enters this state by means outside the bulk transfer-terminal system and is delivered directly to a licensed terminal unless the owner is a licensed distributor or supplier;

(e) Fuel is sold or removed in this state to an unlicensed entity unless there was a prior taxable removal, entry, or sale of the fuel;

(f) Blended fuel is removed or sold in this state by the blender of the fuel. The number of gallons of blended fuel subject to tax is the difference between the total number of gallons of blended fuel removed or sold and the number of gallons of previously taxed fuel used to produce the blended fuel;

(g) Dyed special fuel is used on a highway, as authorized by the internal revenue code, unless the use is exempt from the fuel tax;

(h) Dyed special fuel is held for sale, sold, used, or is intended to be used in violation of this chapter;

(i) Special fuel purchased by an international fuel tax agreement licensee under RCW 82.38.320 is used on a highway; and

(j) Fuel is sold by a licensed fuel supplier to a fuel distributor or fuel blender and the fuel is not removed from the bulk transfer-terminal system.

Sec. 202. RCW 82.38.075 and 2013 c 225 s 110 are each amended to read as follows:

1. To encourage the use of nonpollutng fuels, an annual license fee in lieu of the tax imposed by RCW 82.38.030 is imposed upon the use of liquefied natural gas, compressed natural gas, or propane used in any motor vehicle. The annual license fee must be based upon the following schedule and formula:

<table>
<thead>
<tr>
<th>VEHICLE TONNAGE (GVW)</th>
<th>FEE</th>
</tr>
</thead>
<tbody>
<tr>
<td>0 - 6,000</td>
<td>$45</td>
</tr>
<tr>
<td>6,001 - 10,000</td>
<td>$45</td>
</tr>
<tr>
<td>10,001 - 18,000</td>
<td>$80</td>
</tr>
<tr>
<td>18,001 - 28,000</td>
<td>$110</td>
</tr>
<tr>
<td>28,001 - 36,000</td>
<td>$150</td>
</tr>
</tbody>
</table>

36,001 and above      $250

2. To determine the annual license fee for a registration year, the appropriate dollar amount in the schedule is multiplied by the fuel tax rate per gallon effective on July 1st of the preceding calendar year and the product is divided by 12 cents.

3. The department, in addition to the resulting fee, must charge an additional fee of five dollars as a handling charge for each license issued.

4. The vehicle tonnage fee must be prorated so the annual license will correspond with the staggered vehicle licensing system.

5. A decal or other identifying device issued upon payment of the annual fee must be displayed as prescribed by the department as authority to purchase this fuel.

6. Persons selling or dispensing natural gas or propane may not sell or dispense this fuel for their own use or sale or into tanks of vehicles powered by this fuel which do not display a valid decal or other identifying device.

7. Commercial motor vehicles registered in a foreign jurisdiction under the provisions of the international registration plan are subject to the annual fee.

8. Motor vehicles registered in a foreign jurisdiction, except those registered under the international registration plan under chapter 46.87 RCW, are exempt from this section.

9. Vehicles registered in jurisdictions outside the state of Washington are exempt from this section.

10. Any person selling or dispensing liquefied natural gas, compressed natural gas, or propane into the tank of a motor vehicle powered by this fuel, except as prescribed in this chapter, is subject to the penalty provisions of this chapter.

Sec. 401. RCW 82.08.02565 and 2011 c 23 s 2 are each amended to read as follows:

(1)(a) The tax levied by RCW 82.08.020 does not apply to sales to a manufacturer or processor for hire of machinery and equipment used directly in a manufacturing operation or research and development operation, to sales to a person engaged in testing for a manufacturer or processor for hire of machinery and equipment used directly in a testing operation, or to sales of or charges made for labor and services rendered in respect to installing, repairing, cleaning, altering, or improving the machinery and equipment.

(b) Except as provided in (c) of this subsection, sellers making tax-exempt sales under this section must obtain from the purchaser an exemption certificate in a form and manner prescribed by the department by rule. The seller must retain a copy of the certificate for the seller's files.

(c)(i) The exemption under this section is in the form of a remittance for a gas distribution business, as defined in RCW 82.16.010, claiming the exemption for machinery and equipment used for the production of compressed natural gas or liquefied natural gas for use as a transportation fuel.

(ii) A gas distribution business claiming an exemption from state and local tax in the form of a remittance under this section must pay the tax under RCW 82.08.020 and all applicable local sales taxes. Beginning July 1, 2017, the gas distribution business may then apply to the department for remittance of state and local sales and use taxes. A gas distribution business may not apply for a remittance more frequently than once a quarter. The gas distribution business must specify the amount of exempted tax claimed and the qualifying purchases for which the exemption is claimed. The gas distribution business must retain, in adequate detail, records to enable the department to determine whether the business is entitled to an exemption under this section, including: Invoices; proof of tax paid; and documents describing the machinery and equipment.

(iii) The department must determine eligibility under this section based on the information provided by the gas distribution business, which is subject to audit verification by the department. The department must on a quarterly basis remit exempted amounts to qualifying businesses who submitted applications during the previous quarter.

(iv) Beginning July 1, 2028, a gas distribution business may not apply for a refund under this section or RCW 82.12.02565.

(2) For purposes of this section and RCW 82.12.02565:

(a) "Machinery and equipment" means industrial fixtures, devices, and support facilities, and tangible personal property that becomes an ingredient or component thereof, including repair parts and replacement parts. "Machinery and equipment" includes pollution control equipment installed and used in a manufacturing operation, testing operation, or research and development operation to prevent air pollution, water pollution, or contamination that might otherwise result from the manufacturing operation, testing operation, or research and development operation. "Machinery and equipment" also includes digital goods.

(b) "Machinery and equipment" does not include:

(i) Hand-powered tools;

(ii) Property with a useful life of less than one year;

(iii) Buildings, other than machinery and equipment that is permanently affixed to or becomes a physical part of a building; and

(iv) Building fixtures that are not integral to the manufacturing operation, testing operation, or research and development operation that are permanently affixed to and become a physical part of a building, such as utility systems for heating, ventilation, air conditioning, communications, plumbing, or electrical.

(c) Machinery and equipment is "used directly" in a manufacturing operation, testing operation, or research and development operation if the machinery and equipment:

(i) Acts upon or interacts with an item of tangible personal property;

(ii) Conveys, transports, handles, or temporarily stores an item of tangible personal property at the manufacturing site or testing site;

(iii) Controls, guides, measures, verifies, aligns, regulates, or tests tangible personal property at the site or away from the site;

(iv) Provides physical support for or access to tangible personal property;

(v) Produces power for, or lubricates machinery and equipment;

(vi) Produces another item of tangible personal property for use in the manufacturing operation, testing operation, or research and development operation;

(vii) Places tangible personal property in the container, package, or wrapping in which the tangible personal property is normally sold or transported; or

(viii) Is integral to research and development as defined in RCW 82.63.010.

(d) "Manufacturer" means a person that qualifies as a manufacturer under RCW 82.04.110. "Manufacturer" also includes a person that prints newspapers or other materials.

"Manufacturing"
also includes printing newspapers or other materials. An activity is not taxed as manufacturing or processing for hire under chapter 82.04 RCW if the activity is within the purview of chapter 82.16 RCW.

(f) "Manufacturing operation" means the manufacturing of articles, substances, or commodities for sale as tangible personal property. A manufacturing operation begins at the point where the raw materials enter the manufacturing site and ends at the point where the processed material leaves the manufacturing site. With respect to the production of class A or exceptional quality biosolids by a wastewater treatment facility, the manufacturing operation begins at the point where class B biosolids undergo additional processing to achieve class A or exceptional quality standards. Notwithstanding anything to the contrary in this section, the term also includes that portion of a cogeneration project that is used to generate power for consumption within the manufacturing site of which the cogeneration project is an integral part. The term does not include the preparation of food products on the premises of a person selling food products at retail.

Sec. 402. RCW 82.12.02565 and 2003 c 5 s 5 are each amended to read as follows:

The remainder of any portion of any tax authorized by this chapter that is collected by the department of revenue must be deposited by the state department of revenue in the local sales and use tax account unless deposited by the state treasurer on January 1, 2013, the department of revenue must make deposits in the local sales and use tax account on a monthly basis on the last business day of the month in which distributions required in (a) of this subsection are due. Moneys in the local sales and use tax account may be withdrawn only for:

(a) Distribution to counties, cities, transportation authorities, public facilities districts, public transportation benefit areas, regional transportation investment districts, and transportation benefit districts imposing a sales and use tax; and

(b) Making refunds of taxes imposed under the authority of this chapter and RCW 81.104.170 and exempted under RCW 82.08.962 ((and)), 82.12.962, 82.08.02565, and 82.12.02565.

(2) All administrative provisions in chapters 82.03, 82.08, 82.12, and 82.32 RCW, as they now exist or may hereafter be amended, insofar as they are applicable to state sales and use taxes, are applicable to taxes imposed pursuant to this chapter.

(3) Counties, cities, transportation authorities, public facilities districts, and regional transportation investment districts may not conduct independent sales or use tax audits of sellers registered under the streamlined sales tax agreement.

(4) Except as provided in RCW 43.08.190 and subsection (5) of this section, all earnings of investments of balances in the local sales and use tax account must be credited to the local sales and use tax account and distributed to the counties, cities, transportation authorities, public facilities districts, public transportation benefit areas, regional transportation investment districts, and transportation benefit districts monthly.

(5) Beginning January 1, 2013, the state treasurer must determine the amount of earnings on investments that would have been credited to the local sales and use tax account if the collections had been deposited in the account over the prior month. When distributions are made under subsection (1)(a) of this section, the state treasurer must transfer this amount from the state general fund to the local sales and use tax account and must distribute such sums to the counties, cities, transportation authorities, public facilities districts, public transportation benefit areas, regional transportation investment districts, and transportation benefit districts.

Sec. 404. RCW 82.14.060 and 2009 c 469 s 108 are each amended to read as follows:

(1) Monthly, the state treasurer must distribute from the local sales and use tax account to the counties, cities, transportation authorities, public facilities districts, and transportation benefit districts the amount of tax collected on behalf of each taxing authority, less:

(i) The deduction provided for in RCW 82.14.050; and

(ii) The amount of any refunds of local sales and use taxes exempted under RCW 82.08.962 ((and)), 82.12.962, 82.08.02565, and 82.12.02565, which must be made without appropriation.

(b) The state treasurer ((shall)) must make the distribution under this section without appropriation.

(2) In the event that any ordinance or resolution imposes a sales and use tax at a rate in excess of the applicable limits contained herein, such ordinance or resolution ((shall)) may not be considered void in toto, but only with respect to that portion of the rate which is in excess of the applicable limits contained herein.

Sec. 405. RCW 82.08.0261 and 1980 c 37 s 28 are each amended to read as follows:

(1) Except as otherwise provided in this section, the tax levied by RCW 82.08.020 ((shall)) does not apply to sales of tangible personal property (other than the type referred to in RCW 82.08.0262) for use by the purchaser in connection with the business of operating as a private or common carrier by air, rail, or water in interstate or foreign commerce((PROVIDED, That)). However,
any actual use of such property in this state ((shall)) is, at the time of such actual use, ((be)) subject to the tax imposed by chapter 82.12 RCW.

(2)(a) With respect to the sale of liquefied natural gas to a business operating as a private or common carrier by water in interstate or foreign commerce, the buyer is entitled to a partial exemption from the tax levied by RCW 82.08.020 and the associated local sales taxes. The exemption under this subsection (2) is for the state and local retail sales taxes on ninety percent of the amount of the liquefied natural gas transported and consumed outside this state by the buyer.

(b) Sellers are relieved of the obligation to collect the state and local retail sales taxes on sales eligible for the partial exemption provided in this subsection (2) to buyers who are registered with the department if the seller:

(i) Obtains a completed exemption certificate from the buyer, which must include the buyer's tax registration number with the department; or

(ii) Captures the relevant data elements as allowed under the streamlined sales and use tax agreement, including the buyer's tax registration number with the department.

(c) Buyers entitled to a partial exemption under this subsection (2) must either:

(i) Pay the full amount of state and local retail sales tax to the seller on the sale, including the amount of tax qualifying for exemption under this subsection (2), and then request a refund of the exempted portion of the tax from the department within the time allowed for making refunds under RCW 82.32.060; or

(ii) If the seller did not collect the retail sales tax from the buyer, remit to the department the state and local retail sales taxes due on all liquefied natural gas consumed in this state and on ten percent of the liquefied natural gas that is transported and consumed outside of this state.

(3) This section does not apply to the sale of liquefied natural gas on or after July 1, 2028, for use as fuel in any marine vessel.

**NEW SECTION.** Sec. 406. A new section is added to chapter 46.68 RCW to read as follows:

(1) The finished fuel account is created in the state treasury. Money received from revenues transferred under section 407 of this act must be deposited into the account. Money in the account may be spent only after appropriation. Funds may be used only to construct, improve, repair, or rehabilitate Washington state ferry boat vessels, or to convert such vessels to operate using special fuels other than diesel fuel or using other alternative energy sources.

(2) This section expires July 1, 2028.

**NEW SECTION.** Sec. 407. A new section is added to chapter 82.32 RCW to read as follows:

(1) By the last workday of the second and fourth calendar quarters, the state treasurer must transfer the amount specified in subsection (2) of this section from the general fund to the finished fuel account created in section 406 of this act. The first transfer under this subsection must occur by December 31, 2017.

(2) By December 15th and by June 15th of each year, the department must estimate the increase in state general fund revenues from the taxes collected under RCW 82.08.0261(2)(a) on the nonexempt portion of liquefied natural gas sales in the current and prior calendar quarters and notify the state treasurer of the increase.

(3) This section expires July 1, 2028.

**NEW SECTION.** Sec. 408. A new section is added to chapter 43.135 RCW to read as follows:

(1) RCW 43.135.034(4) does not apply to the transfers under section 407 of this act.

(2) This section expires July 1, 2028.

**NEW SECTION.** Sec. 409. A new section is added to chapter 39.42 RCW to read as follows:

(1) The purpose of eliminating a portion of the sales exemption under RCW 82.08.0261 for liquefied natural gas sold for use as a marine vessel transportation fuel is to fund improvements to Washington state ferries. For this reason, general state revenues transferred under section 407 of this act to the finished fuel account are excluded from the calculation of general state revenues for purposes of Article VIII, section 1 of the state Constitution and RCW 39.42.130 and 39.42.140.

(2) This section expires July 1, 2028.

**Utility Law Change**

**Sec. 501.** RCW 80.28.280 and 1991 c 199 s 216 are each amended to read as follows:

(1) The legislature finds that compressed natural gas and liquefied natural gas offers significant potential to reduce vehicle and vessel emissions and to significantly decrease dependence on petroleum-based fuels. The legislature also finds that well-developed and convenient refueling systems are imperative if compressed natural gas ((is)) and liquefied natural gas are to be widely used by the public. The legislature declares that the development of compressed natural gas ((refueling stations are in the public interest)) and liquefied natural gas motor vehicle refueling stations and vessel refueling facilities are in the public interest. Except as provided in subsection (2) of this section, nothing in this section and RCW 80.28.290 is intended to alter the regulatory practices of the commission or allow the subsidization of one ratepayer class by another.

(2) When a liquefied natural gas facility owned by a natural gas company serves both a private customer operating marine vessels and the Washington state ferries or any other public entity, the rate charged by the natural gas company to the Washington state ferries or other public entity may not be more than the rate charged to the private customer operating marine vessels.

NEW SECTION. Sec. 5. A new section is added to chapter 71.24 RCW to read as follows:

(1) The secretary shall purchase mental health and chemical dependency treatment services primarily through managed care contracting, but may continue to purchase behavioral health services directly from tribal clinics and other tribal providers.

Any responding entity that submits a detailed plan that demonstrates that it can meet the requirements of this section must be awarded the contract to serve as the behavioral health organization.

(b)(i) For purposes of responding to the request for a detailed plan under (a) of this subsection, the entities from which a plan will be requested are:

(A) A county in a single county regional service area that currently serves as the regional support network for that area;

(B) In the event that a county has made a decision prior to January 1, 2014, not to contract as a regional support network, any private entity that serves as the regional support network for that area;

(C) All counties within a regional service area that includes more than one county, which shall form a responding entity through the adoption of an interlocal agreement. The interlocal agreement must specify the terms by which the responding entity shall serve as the behavioral health organization within the regional service area.

(ii) In the event that a regional service area is comprised of multiple counties including one that has made a decision prior to January 1, 2014, not to contract as a regional support network the counties shall adopt an interlocal agreement and may respond to the request for a detailed plan under (a) of this subsection and the
private entity may also respond to the request for a detailed plan. If both responding entities meet the requirements of this section, the responding entities shall follow the department's procurement process established in subsection (3) of this section.

(3) If an entity that has received a request under this section to submit a detailed plan does not respond to the request, a responding entity under subsection (1) of this section is unable to substantially meet the requirements of the request for a detailed plan, or more than one responding entity substantially meets the requirements for the request for a detailed plan, the department shall use a procurement process in which other entities recognized by the secretary may bid to serve as the behavioral health organization in that regional service area.

(4) Contracts for behavioral health organizations must begin on April 1, 2016.

(5) Upon request of all of the county authorities in a regional service area, the department and the health care authority may jointly purchase behavioral health services through an integrated medical and behavioral health services contract with a behavioral health organization or a managed health care system as defined in RCW 74.09.522, pursuant to standards to be developed jointly by the secretary and the health care authority. Any contract for such a purchase must comply with all federal medicaid and state law requirements related to managed health care contracting.

(6) As an incentive to county authorities to become early adopters of fully integrated purchasing of medical and behavioral health services, the standards adopted by the secretary and the health care authority under subsection (5) of this section shall provide for an incentive payment to counties which elect to move to full integration by January 1, 2016. Subject to federal approval, the incentive payment shall be targeted at ten percent of savings realized by the state within the regional service area in which the fully integrated purchasing takes place. Savings shall be calculated in alignment with the outcome and performance measures established in RCW 43.20A.895, 70.320.020, and 71.36.025, and incentive payments for early adopter counties shall be made available for up to a six-year period, or until full integration of medical and behavioral health services is accomplished statewide, whichever comes sooner, according to rules to be developed by the secretary and health care authority.

Sec. 6. RCW 71.24.015 and 2005 c 503 s 1 are each amended to read as follows:

It is the intent of the legislature to establish a community mental health program which shall help people experiencing mental illness to retain a respected and productive position in the community. This will be accomplished through programs that focus on resilience and recovery, and practices that are evidence-based, research-based, consensus-based, or, where these do not exist, promising or emerging best practices, which provide for:

(1) Access to mental health services for adults ((of the state who are acutely mentally ill, chronically mentally ill, or seriously disturbed)) with mental illness and children ((of the state who are acutely mentally ill, severely emotionally disturbed, or seriously disturbed.)) with mental illness or emotional disturbances who meet access to care standards which services recognize the special needs of underserved populations, including minorities, children, the elderly, (disabled)) individuals with disabilities, and low-income persons. Access to mental health services shall not be limited by a person's history of confinement in a state, federal, or local correctional facility. It is also the purpose of this chapter to promote the early identification of ((mentally ill)) children with mental illness and to ensure that they receive the mental health care and treatment which is appropriate to their developmental level. This care should improve home, school, and community functioning, maintain children in a safe and nurturing home environment, and should enable treatment decisions to be made in response to clinical needs in accordance with sound professional judgment while also recognizing parents' rights to participate in treatment decisions for their children.

(2) The involvement of persons with mental illness, their family members, and advocates in designing and implementing mental health services that reduce unnecessary hospitalization and incarceration and promote the recovery and employment of persons with mental illness. To improve the quality of services available and promote the rehabilitation, recovery, and reintegration of persons with mental illness, consumer and advocate participation in mental health services is an integral part of the community mental health system and shall be supported;

(3) Accountability of efficient and effective services through state-of-the-art outcome and performance measures and statewide standards for monitoring client and system outcomes, performance, and reporting of client and system outcome information. These processes shall be designed so as to maximize the use of available resources for direct care of people with a mental illness and to assure uniform data collection across the state;

(4) Minimum service delivery standards;

(5) Priorities for the use of available resources for the care of ((mentally ill)) individuals with mental illness consistent with the priorities defined in the statute;

(6) Coordination of services within the department, including those divisions within the department that provide services to children, between the department and the office of the superintendent of public instruction, and among state mental hospitals, county authorities, (regional support networks) behavioral health organizations, community mental health services, and other support services, which shall to the maximum extent feasible also include the families of ((mentally ill)) individuals with mental illness, and other service providers; and

(7) Coordination of services aimed at reducing duplication in service delivery and promoting complementary services among all entities that provide mental health services to adults and children.

It is the policy of the state to encourage the provision of a full range of treatment and rehabilitation services in the state for mental disorders including services operated by consumers and advocates. The legislature intends to encourage the development of regional mental health services with adequate local flexibility to assure eligible people in need of care access to the least-restrictive treatment alternative appropriate to their needs, and the availability of treatment components to assure continuity of care. To this end, counties ((are encouraged to)) must enter into joint operating agreements with other counties to form regional systems of care that are consistent with the regional service areas established under section 2 of this act. Regional systems of care, whether operated by a county, group of counties, or another entity shall integrate planning, administration, and service delivery duties under chapters 71.05 and 71.24 RCW to consolidate administration, reduce administrative layering, and reduce administrative costs. The legislature hereby finds and declares that sound fiscal management requires vigilance to ensure that funds appropriated by the legislature for the provision of needed community mental health programs and services are ultimately expended solely for the purpose for which they were appropriated, and not for any other purpose.

It is further the intent of the legislature to integrate the provision of services to provide continuity of care through all phases of treatment. To this end, the legislature intends to promote active engagement with ((mentally ill)) persons with mental illness and collaboration between families and service providers.

Sec. 7. RCW 71.24.016 and 2006 c 333 s 102 are each amended to read as follows:

(1) The legislature intends that eastern and western state hospitals shall operate as clinical centers for handling the most
complicated long-term care needs of patients with a primary diagnosis of mental disorder. It is further the intent of the legislature that the community mental health service delivery system focus on maintaining ("mentally ill") individuals with mental illness in the community. The program shall be evaluated and managed through a limited number of outcome and performance measures ((designed to hold each regional support network accountable for program success)), as provided in RCW 43.20A.895, 70.320.020, and 71.36.025.

(2) The legislature intends to address the needs of people with mental disorders with a targeted, coordinated, and comprehensive set of evidence-based practices that are effective in serving individuals in their community and will reduce the need for placements in state mental hospitals. The legislature further intends to explicitly hold ((regional support networks)) behavioral health organizations accountable for serving people with mental disorders within the boundaries of their ((geographic boundaries)) regional service area and for not exceeding their allocation of state hospital beds. "Within funds appropriated by the legislature for this purpose, regional support networks shall develop the means to serve the needs of people with mental disorders within their geographic boundaries." Elements of the program may include:

- (a) Crisis triage;
- (b) Evaluation and treatment and community hospital beds;
- (c) Residential beds;
- (d) Programs for community treatment teams; and
- (e) Outpatient services.

(2) The regional support network shall have the flexibility, within the funds appropriated by the legislature for this purpose, to design the mix of services that will be most effective within their service area of meeting the needs of people with mental disorders and avoiding placement of such individuals at the state mental hospital. Regional support networks are encouraged to maximize the use of evidence-based practices and alternative resources with the goal of substantially reducing and potentially eliminating the use of institutions for mental diseases.

NEW SECTION. Sec. 8. A new section is added to chapter 71.24 RCW to read as follows:

(1) By December 1, 2018, the department and the health care authority shall report to the governor and the legislature regarding the preparedness of each regional service area to provide mental health services, chemical dependency services, and medical care services to medicaid clients under a fully integrated managed care health system.

(2) By January 1, 2020, the community behavioral health program must be fully integrated in a managed care health system that provides mental health services, chemical dependency services, and medical care services to medicaid clients.

NEW SECTION. Sec. 9. A new section is added to chapter 71.24 RCW to read as follows:

(1) Within funds appropriated by the legislature for this purpose, behavioral health organizations shall develop the means to serve the needs of people with mental disorders residing within the boundaries of their regional service area. Elements of the program may include:

- (a) Crisis diversion services;
- (b) Evaluation and treatment and community hospital beds;
- (c) Residential treatment;
- (d) Programs for intensive community treatment;
- (e) Outpatient services;
- (f) Peer support services;
- (g) Community support services;
- (h) Resource management services; and
- (i) Supported housing and supported employment services.

(2) The behavioral health organization shall have the flexibility, within the funds appropriated by the legislature for this purpose and the terms of their contract, to design the mix of services that will be most effective within their service area of meeting the needs of people with mental disorders and avoiding placement of such individuals at the state mental hospital. Behavioral health organizations are encouraged to maximize the use of evidence-based practices and alternative resources with the goal of substantially reducing and potentially eliminating the use of institutions for mental diseases.

Sec. 26. RCW 70.96A.085 and 1989 c 270 s 12 are each amended to read as follows:

A city, town, or county that does not have its own facility or program for the treatment and rehabilitation of ((alcoholics and other drug addicts)) persons with substance use disorders may share in the use of a facility or program maintained by another city or county so long as it contributes no less than two percent of its share of liquor taxes and profits to the support of the facility or program.

Sec. 27. RCW 70.96A.100 and 1989 c 270 s 23 are each amended to read as follows:

The secretary shall adopt and may amend and repeal rules for acceptance of persons into the approved treatment program, considering available treatment resources and facilities, for the purpose of early and effective treatment of ((alcoholics and other drug addicts)) persons with substance use disorders, persons incapacitated by alcohol or other psychoactive chemicals, and intoxicated persons. In establishing the rules, the secretary shall be guided by the following standards:

(1) If possible a patient shall be treated on a voluntary rather than an involuntary basis.

(2) A patient shall be initially assigned or transferred to outpatient treatment, unless he or she is found to require residential treatment.

(3) A person shall not be denied treatment solely because he or she has withdrawn from treatment against medical advice on a prior occasion or because he or she has relapsed after earlier treatment.
(4) An individualized treatment plan shall be prepared and maintained on a current basis for each patient.

(5) Provision shall be made for a continuum of coordinated treatment services, so that a person who leaves a facility or a form of treatment will have available and use other appropriate treatment.

Sec. 28. RCW 70.96A.110 and 1990 c 151 s 7 are each amended to read as follows:

(1) ((An alcoholic or other drug addict)) An individual with a substance use disorder may apply for voluntary treatment directly to an approved treatment program. If the proposed patient is a minor or an incompetent person, he or she, a parent, a legal guardian, or other legal representative may make the application.

(2) Subject to rules adopted by the secretary, the administrator in charge of an approved treatment program may determine who shall be admitted for treatment. If a person is refused admission to an approved treatment program, the administrator, subject to rules adopted by the secretary, shall refer the person to another approved treatment program for treatment if possible and appropriate.

(3) If a patient receiving inpatient care leaves an approved treatment program, he or she shall be encouraged to consent to appropriate outpatient treatment. If it appears to the administrator in charge of the treatment program that the patient is ((an alcoholic or other drug addict)) an individual with a substance use disorder who requires help, the department may arrange for assistance in obtaining supportive services and residential programs.

(4) If a patient leaves an approved public treatment program, with or against the advice of the administrator in charge of the program, the department may make reasonable provisions for his or her transportation to another program or to his or her home. If the patient has no home he or she should be assisted in obtaining shelter. If the patient is less than fourteen years of age or an incompetent person the request for discharge from an inpatient program shall be made by a parent, legal guardian, or other legal representative or by the minor or incompetent if he or she was the original applicant.

Sec. 29. RCW 70.96A.140 and 2001 c 13 s 3 are each amended to read as follows:

(1) When a designated chemical dependency specialist receives information alleging that a person presents a likelihood of serious harm or is gravely disabled as a result of chemical dependency, the designated chemical dependency specialist, after investigation and evaluation of the specific facts alleged and of the reliability and credibility of the information, may file a petition for commitment of such person with the superior court, district court, or in another court permitted by court rule.

If a petition for commitment is not filed in the case of a minor, the parent, guardian, or custodian who has custody of the minor may seek review of that decision made by the designated chemical dependency specialist in superior or district court. The parent, guardian, or custodian shall file notice with the court and provide a copy of the designated chemical dependency specialist's report.

If the designated chemical dependency specialist finds that the initial needs of such person would be better served by placement within the mental health system, the person shall be referred to either a ((county)) designated mental health professional or an evaluation and treatment facility as defined in RCW 71.05.020 or 71.34.020. If placement in a chemical dependency program is available and deemed appropriate, the petition shall allege that:

The person is chemically dependent and presents a likelihood of serious harm or is gravely disabled as a result of chemical dependency, or that the person has twice before in the preceding twelve months been admitted for ((detoxification)) withdrawal management, sobering services, or chemical dependency treatment pursuant to RCW 70.96A.110 or 70.96A.120, and is in need of a more sustained treatment program, or that the person is chemically dependent and has threatened, attempted, or inflicted physical harm on another and is likely to inflict physical harm on another unless committed. A refusal to undergo treatment, by itself, does not constitute evidence of lack of judgment as to the need for treatment. The petition shall be accompanied by a certificate of a licensed physician who has examined the person within five days before submission of the petition, unless the person whose commitment is sought has refused to submit to a medical examination, in which case the fact of refusal shall be alleged in the petition. The certificate shall set forth the licensed physician's findings in support of the allegations of the petition. A physician employed by the petitioning program or the department is eligible to be the certifying physician.

(2) Upon filing the petition, the court shall fix a date for a hearing no less than two and no more than seven days after the date the petition was filed unless the person petitioned against is presently being detained in a program, pursuant to RCW 70.96A.120, 71.05.210, or ((71.34.1050)) 71.34.710, in which case the hearing shall be held within seventy-two hours of the filing of the petition: PROVIDED, HOWEVER, That the above specified seventy-two hours shall be computed by excluding Saturdays, Sundays, and holidays; PROVIDED FURTHER, That, the court may upon motion of the person whose commitment is sought, or his or her counsel and, upon good cause shown, extend the date for the hearing. A copy of the petition and of the notice of the hearing, including the date fixed by the court, shall be served by the designated chemical dependency specialist on the person whose commitment is sought, his or her next of kin, a parent or his or her legal guardian if he or she is a minor, and any other person the court believes advisable. A copy of the petition and certificate shall be delivered to each person notified.

(3) At the hearing the court shall hear all relevant testimony, including, if possible, the testimony, which may be telephonic, of at least one licensed physician who has examined the person whose commitment is sought. Communications otherwise deemed privileged under the laws of this state are deemed to be waived in proceedings under this chapter when a court of competent jurisdiction in its discretion determines that the waiver is necessary to protect either the detained person or the public. The waiver of a privilege under this section is limited to records or testimony relevant to evaluation of the detained person for purposes of a proceeding under this chapter. Upon motion by the detained person, or on its own motion, the court shall examine a record or testimony sought by a petitioner to determine whether it is within the scope of the waiver.

The record maker shall not be required to testify in order to introduce medical, nursing, or psychological records of detained persons so long as the requirements of RCW 5.45.020 are met, except that portions of the record that contain opinions as to whether the detained person is chemically dependent shall be deleted from the records unless the person offering the opinions is available for cross-examination. The person shall be present unless the court believes that his or her presence is likely to be injurious to him or her; in this event the court may deem it appropriate to appoint a guardian ad litem to represent him or her throughout the proceeding. If deemed advisable, the court may examine the person out of courtroom. If the person has refused to be examined by a licensed physician, he or she shall be given an opportunity to be examined by a court appointed licensed physician. If he or she refuses and there is sufficient evidence to believe that the allegations of the petition are true, or if the court believes that more medical evidence is necessary, the court may make a temporary order committing him or her to the department for a period of not more than five days for purposes of a diagnostic examination.

(4) If after hearing all relevant evidence, including the results of any diagnostic examination, the court finds that grounds for involuntary commitment have been established by clear, cogent, and convincing proof, it shall make an order of commitment to an
approved treatment program. It shall not order commitment of a person unless it determines that an approved treatment program is available and able to provide adequate and appropriate treatment for him or her.

(5) A person committed under this section shall remain in the program for treatment for a period of sixty days unless sooner discharged. At the end of the sixty-day period, he or she shall be discharged automatically unless the program, before expiration of the period, files a petition for his or her recommitment upon the grounds set forth in subsection (1) of this section for a further period of ninety days unless sooner discharged.

If a petition for recommitment is not filed in the case of a minor, the parent, guardian, or custodian who has custody of the minor may seek review of that decision made by the designated chemical dependency specialist in superior or district court. The parent, guardian, or custodian shall file notice with the court and provide a copy of the treatment progress report.

If a person has been committed because he or she is chemically dependent and likely to inflict physical harm on another, the program shall apply for recommitment if after examination it is determined that the likelihood still exists.

(6) Upon the filing of a petition for recommitment under subsection (5) of this section, the court shall fix a date for hearing no less than two and no more than seven days after the date the petition was filed: PROVIDED, That, the court may, upon motion of the person whose commitment is sought and upon good cause shown, extend the date for the hearing. A copy of the petition and of the notice of hearing, including the date fixed by the court, shall be served by the treatment program on the person whose commitment is sought, his or her next of kin, the original petitioner under subsection (1) of this section for recommitment, one of his or her parents or his or her legal guardian if he or she is a minor, and his or her attorney and any other person the court believes advisable. At the hearing the court shall proceed as provided in subsection (3) of this section.

(7) The approved treatment program shall provide for adequate and appropriate treatment of a person committed to its custody. A person committed under this section may be transferred from one approved public treatment program to another if transfer is medically advisable.

(8) A person committed to the custody of a program for treatment shall be discharged at any time before the end of the period for which he or she has been committed and he or she shall be discharged by order of the court if either of the following conditions are met:

(a) In case of a chemically dependent person committed on the grounds of likelihood of infliction of physical harm upon himself, herself, or another, the likelihood no longer exists; or further treatment will not be likely to bring about significant improvement in the person's condition, or treatment is no longer adequate or appropriate.

(b) In case of a chemically dependent person committed on the grounds of the need of treatment and incapacity, that the incapacity no longer exists.

(9) The court shall inform the person whose commitment or recommitment is sought of his or her right to contest the application, be represented by counsel at every stage of any proceedings relating to his or her commitment and recommitment, and have counsel appointed by the court or provided by the court, if he or she wants the assistance of counsel and is unable to obtain counsel. If the court believes that the person needs the assistance of counsel, the court shall require, by appointment if necessary, counsel for him or her regardless of his or her wishes. The person shall, if he or she is financially able, bear the costs of such legal service; otherwise such legal service shall be at public expense. The person whose commitment or recommitment is sought shall be informed of his or her right to be examined by a licensed physician of his or her choice. If the person is unable to obtain a licensed physician and requests examination by a physician, the court shall employ a licensed physician.

(10) A person committed under this chapter may at any time seek to be discharged from commitment by writ of habeas corpus in a court of competent jurisdiction.

(11) The venue for proceedings under this section is the county in which person to be committed resides or is present.

(12) When in the opinion of the professional person in charge of the program providing involuntary treatment under this chapter, the committed patient can be appropriately served by less restrictive treatment before expiration of the period of commitment, then the less restrictive care may be required as a condition for early release for a period which, when added to the initial treatment period, does not exceed the period of commitment. If the program designated to provide the more restrictive treatment is other than the program providing the initial involuntary treatment, the program so designated must agree in writing to assume such responsibility. A copy of the conditions for early release shall be given to the patient, the designated chemical dependency specialist of original commitment, and the court of original commitment. The program designated to provide less restrictive care may modify the conditions for continued release when the modifications are in the best interests of the patient. If the program providing less restrictive care and the designated chemical dependency specialist determine that a conditionally released patient is failing to adhere to the terms and conditions of his or her release, or that substantial deterioration in the patient's functioning has occurred, then the designated chemical dependency specialist shall notify the court of original commitment and request a hearing to be held no less than two and no more than seven days after the date of the request to determine whether or not the person should be returned to more restrictive care. The designated chemical dependency specialist shall file a petition with the court stating the facts substantiating the need for the hearing along with the treatment recommendations. The patient shall have the same rights with respect to notice, hearing, and counsel as for the original involuntary treatment proceedings. The issues to be determined at the hearing are whether the conditionally released patient did or did not adhere to the terms and conditions of his or her release to less restrictive care or that substantial deterioration of the patient's functioning has occurred and whether the conditions of release should be modified or the person should be returned to a more restrictive program. The hearing may be waived by the patient and his or her counsel and his or her guardian or conservator, if any, but may not be waived unless all such persons agree to the waiver. Upon waiver, the person may be returned for involuntary treatment or continued on conditional release on the same or modified conditions.

(2) No county, municipality, or other political subdivision may interpret or apply any law of general application to circumvent the provision of subsection (1) of this section.

machinery, or other equipment, or regarding the sale, purchase, dispensing, possessing, or use of alcoholic beverages or other psychoactive chemicals at stated times and places or by a particular class of persons; nor shall evidence of intoxication affect, other than as a defense, the application of any law, ordinance, resolution, or rule to conduct otherwise establishing the elements of an offense.

Sec. 31. RCW 70.96A.300 and 1989 c 270 s 15 are each amended to read as follows:

Members of the board shall be representative of the community, shall include at least one-quarter recovered ((alcoholics or other recovered drug addicts)) persons with substance use disorders, and shall include minority group representation. No member may be a provider of alcoholism and other drug addiction treatment services. No more than four elected or appointed city or county officials may serve on the board at the same time. Members of the board shall serve three-year terms and hold office until their successors are appointed and qualified. They shall not be compensated for the performance of their duties as members of the board, but may be reimbursed for travel expenses.

(3) The pilot programs established by this section shall begin providing services by March 1, 2006.

Sec. 34. RCW 71.24.049 and 2001 c 323 s 13 are each amended to read as follows:

By January 1st of each odd-numbered year, the ((regional support network)) behavioral health organization shall identify: (1) The number of children in each priority group, as defined by this chapter, who are receiving mental health services funded in part or in whole under this chapter, (2) the amount of funds under this chapter used for children's mental health services, (3) an estimate of the number of unserved children in each priority group, and (4) the estimated cost of serving these additional children and their families.

(2) To the extent that funds are specifically appropriated for this purpose or that nonstate funds are available, a children's mental health evidence-based practice institute shall be established at the University of Washington division of public behavioral health and justice policy. The institute shall closely collaborate with entities currently engaged in evaluating and promoting the use of evidence-based, research-based, promising, or consensus-based practices in children's mental health treatment, including but not limited to the University of Washington department of psychiatry and behavioral sciences, children's hospital and regional medical center, the University of Washington school of nursing, the University of Washington school of social work, and the Washington state institute for public policy. To ensure that funds appropriated are used to the greatest extent possible for their intended purpose, the University of Washington's indirect costs of administration shall not exceed ten percent of appropriated funding. The institute shall:

(a) Improve the implementation of evidence-based and research-based practices by providing sustained and effective training and consultation to licensed children's mental health providers and child-serving agencies who are implementing evidence-based or researched-based practices for treatment of children's emotional or behavioral disorders, or who are interested in adapting these practices to better serve ethnically or culturally diverse children. Efforts under this subsection should include a focus on appropriate oversight of implementation of evidence-based practices to ensure fidelity to these practices and thereby achieve positive outcomes;

(b) Continue the successful implementation of the “partnerships for success” model by consulting with communities so they may select, implement, and continually evaluate the success of evidence-based practices that are relevant to the needs of children, youth, and families in their community;

(e) Serve as a statewide resource to the department and other entities on child and adolescent evidence-based, research-based, promising, or consensus-based practices for children's mental health treatment, maintaining a working knowledge through ongoing review of academic and professional literature, and knowledge of other evidence-based practice implementation efforts in Washington and other states.

(3) To the extent that funds are specifically appropriated for this purpose, the department in collaboration with the evidence-based practice institute shall implement a pilot program to support primary care providers in the assessment and provision of appropriate diagnosis and treatment of children with mental and behavioral health disorders and track outcomes of this program. The program shall be designed to promote more accurate diagnoses and treatment through timely case consultation between primary care providers and child psychiatric specialists, and focused educational learning collaboratives with primary care providers.

Sec. 36. RCW 71.24.155 and 2001 c 323 s 14 are each amended to read as follows:

Grants shall be made by the department to ((regional support network)) behavioral health organizations for community mental health programs totaling not less than ninety-five percent of available resources. The ((regional support network)) behavioral health organizations shall make satisfactory showing to the secretary that state funds shall in no case be used to replace local funds from any source being used to finance mental health services prior to January 1, 1990. Maintenance of effort funds devoted to juvenile justice services for success model by consulting with communities so they may select, implement, and continually evaluate the success of evidence-based practices that are relevant to the needs of children, youth, and families in their community;

Sec. 38. RCW 71.24.250 and 2001 c 323 s 16 are each amended to read as follows:

The ((regional support network)) behavioral health organization may accept and expend gifts and grants received from private, county, state, and federal sources.

Sec. 39. RCW 71.24.300 and 2008 c 261 s 4 are each amended to read as follows:

(1) Upon the request of a tribal authority or authorities within a ((regional support network)) behavioral health organization the joint operating agreement or the county authority shall allow for the
inclusion of the tribal authority to be represented as a party to the ((regional support network)) behavioral health organization.

2) The roles and responsibilities of the county and tribal authorities shall be determined by the terms of that agreement including a determination of membership on the governing board and advisory committees, the number of tribal representatives to be party to the agreement, and the provisions of law and shall assure the provision of culturally competent services to the tribes served.

3) The state mental health authority may not determine the roles and responsibilities of county authorities as to each other under ((regional support networks)) behavioral health organizations by rule, except to assure that all duties required of ((regional support networks)) behavioral health organizations are assigned and that counties and the ((regional support network)) behavioral health organization do not duplicate functions and that a single authority has final responsibility for all available resources and performance under the ((regional support network)) behavioral health organization's contract with the secretary.

4) If a ((regional support network)) behavioral health organization is a private entity, the department shall allow for the inclusion of the tribal authority to be represented as a party to the ((regional support network)) behavioral health organization.

5) The roles and responsibilities of the private entity and the tribal authorities shall be determined by the department, through negotiation with the tribal authority.

6) ((Regional support networks)) Behavioral health organizations shall submit an overall six-year operating and capital plan, timeline, and budget and submit progress reports and an updated two-year plan biennially thereafter, to assume available resources all of the following duties:

(a) Administer and provide for the availability of all resource management services, residential services, and community support services.

(b) Administer and provide for the availability of all investigation, transportation, court-related, and other services provided by the state or counties pursuant to chapter 71.05 RCW.

(c) Provide within the boundaries of each ((regional support network)) behavioral health organization evaluation and treatment services for at least ninety percent of persons detained or committed for periods up to seventeen days according to chapter 71.05 RCW.  ((Regional support networks)) Behavioral health organizations may contract to purchase evaluation and treatment services from other ((networks)) organizations if they are unable to provide for appropriate resources within their boundaries.  Insofar as the original intent of serving persons in the community is maintained, the secretary is authorized to approve exceptions on a case-by-case basis to the requirement to provide evaluation and treatment services within the boundaries of each ((regional support network)) behavioral health organization.  Such exceptions are limited to:

(i) Contracts with neighboring or contiguous regions; or

(ii) Individual, detained or committed for periods up to seventeen days at the state hospitals at the discretion of the secretary.

(d) Administer and provide for the availability of all other mental health services, which shall include patient counseling, day treatment, consultation, education services, employment services as ((defined)) described in RCW 71.24.035, and mental health services to children.

(e) Establish standards and procedures for reviewing individual service plans and determining when that person may be discharged from resource management services.

7) A ((regional support network)) behavioral health organization may request that any state-owned land, building, facility, or other capital asset which was ever purchased, deeded, given, or placed in trust for the care of the persons with mental illness and which is within the boundaries of a ((regional support network)) behavioral health organization be made available to support the operations of the ((regional support network)) behavioral health organization.  State agencies managing such capital assets shall give first priority to requests for their use pursuant to this chapter.

8) Each ((regional support network)) behavioral health organization shall appoint a mental health advisory board which shall review and provide comments on plans and policies developed under this chapter, provide local oversight regarding the activities of the ((regional support network)) behavioral health organization, and work with the ((regional support network)) behavioral health organization to resolve significant concerns regarding service delivery and outcomes.  The department shall establish statewide procedures for the operation of regional advisory committees including mechanisms for advisory board feedback to the department regarding ((regional support network)) behavioral health organization performance.  The composition of the board shall be broadly representative of the demographic character of the region and shall include, but not be limited to, representatives of consumers and families, law enforcement, and where the county is not the ((regional support network)) behavioral health organization, county elected officials.  Composition and length of terms of board members may differ between ((regional support networks)) behavioral health organizations but shall be included in each ((regional support network)) behavioral health organization's contract and approved by the secretary.

9) ((Regional support networks)) Behavioral health organizations shall assume all duties specified in their plans and joint operating agreements through biennial contractual agreements with the secretary.

10) ((Regional support networks)) Behavioral health organizations may receive technical assistance from the housing trust fund and may identify and submit projects for housing and housing support services to the housing trust fund established under chapter 43.185 RCW.  Projects identified or submitted under this subsection must be fully integrated with the ((regional support network)) behavioral health organization six-year operating and capital plan, timeline, and budget required by subsection (6) of this section.

Sec. 40. RCW 71.24.310 and 2013 2nd sp.s c 4 s 994 are each amended to read as follows:

The legislature finds that administration of chapter 71.05 RCW and this chapter can be most efficiently and effectively implemented as part of the ((regional support network)) behavioral health organization defined in RCW 71.24.025.  For this reason, the legislature intends that the department and the ((regional support networks)) behavioral health organizations work together to implement chapter 71.05 RCW as follows:

(1) By June 1, 2006, ((regional support networks)) behavioral health organizations shall recommend to the department the number of state hospital beds that should be allocated for use by each ((regional support network)) behavioral health organization.  The statewide total allocation shall not exceed the number of state hospital beds offering long-term inpatient care, as defined in this chapter, for which funding is provided in the biennial appropriations act.

(2) If there is consensus among the ((regional support networks)) behavioral health organizations regarding the number of state hospital beds that should be allocated for use by each ((regional support network)) behavioral health organization, the department shall contract with each ((regional support network)) behavioral health organization accordingly.

(3) If there is not consensus among the ((regional support networks)) behavioral health organizations regarding the number of beds that should be allocated for use by each ((regional support network)) behavioral health organization, the department shall establish by emergency rule the number of state hospital beds that...
are available for use by each ((regional support network)) behavioral health organization. The emergency rule shall be effective September 1, 2006. The primary factor used in the allocation shall be the estimated number of adults with acute and chronic mental illness in each ((regional support network)) behavioral health organization area, based upon population-adjusted incidence and utilization.

(4) The allocation formula shall be updated at least every three years to reflect demographic changes, and new evidence regarding the incidence of acute and chronic mental illness and the need for long-term inpatient care. In the updates, the statewide total allocation shall include (a) all state hospital beds offering long-term inpatient care for which funding is provided in the biennial appropriations act; plus (b) the estimated equivalent number of beds or comparable diversion services contracted in accordance with subsection (5) of this section.

(5) The department is encouraged to enter performance-based contracts with ((regional support networks)) behavioral health organizations to provide some or all of the ((regional support networks)) behavioral health organization's allocated long-term inpatient treatment capacity in the community, rather than in the state hospital. The performance contracts shall specify the number of patient days of care available for use by the ((regional support network)) behavioral health organization in the state hospital.

(6) If a ((regional support network)) behavioral health organization uses more state hospital patient days of care than it has been allocated under subsection (3) or (4) of this section, or than it has contracted to use under subsection (5) of this section, whichever is less, it shall reimburse the department for that care, except during the period of July 1, 2012, through December 31, 2013, where reimbursements may be temporarily altered per section 204, chapter 4, Laws of 2013 2nd sp. sess. The reimbursement rate per day shall be the hospital's total annual budget for long-term inpatient care, divided by the total patient days of care assumed in development of that budget.

(7) One-half of any reimbursements received pursuant to subsection (6) of this section shall be used to support the cost of operating the state hospital and, during the 2007-2009 fiscal biennium, implementing new services that will enable a ((regional support network)) behavioral health organization to reduce its utilization of the state hospital. The department shall distribute the remaining half of such reimbursements among ((regional support networks)) behavioral health organizations that have used less than their allocated or contracted patient days of care at that hospital, proportional to the number of patient days of care not used.

Sec. 41. RCW 71.24.350 and 2013 c 23 s 189 are each amended to read as follows:

The department shall require each ((regional support network)) behavioral health organization to provide for a separately funded mental health ombuds office in each ((regional support network)) behavioral health organization that is independent of the ((regional support network)) behavioral health organization. The ombuds office shall maximize the use of consumer advocates.

Sec. 42. RCW 71.24.370 and 2006 c 333 s 103 are each amended to read as follows:

(1) Except for monetary damage claims which have been reduced to final judgment by a superior court, this section applies to all claims against the state, state agencies, state officials, or state employees that exist on or arise after March 29, 2006.

(2) Except as expressly provided in contracts entered into between the department and the ((regional support networks)) behavioral health organizations after March 29, 2006, the entities identified in subsection (3) of this section shall have no claim for declaratory relief, injunctive relief, judicial review under chapter 34.05 RCW, or civil liability against the state or state agencies for actions or inactions performed pursuant to the administration of this chapter with regard to the following: (a) The allocation or payment of federal or state funds; (b) the use or allocation of state hospital beds; or (c) financial responsibility for the provision of inpatient mental health care.

(3) This section applies to counties, ((regional support networks)) behavioral health organizations, and entities which contract to provide ((regional support network)) behavioral health organization services and their subcontractors, agents, or employees.

Sec. 43. RCW 71.24.455 and 1997 c 342 s 2 are each amended to read as follows:

(1) The secretary shall select and contract with a ((regional support network)) behavioral health organization or private provider to provide specialized access and services to ((mentally ill)) offenders with mental illness upon release from total confinement within the department of corrections who have been identified by the department of corrections and selected by the ((regional support network)) behavioral health organization or private provider as high-priority clients for services and who meet service program entrance criteria. The program shall enroll no more than twenty-five offenders at any one time, or a number of offenders that can be accommodated within the appropriated funding level, and shall seek to fill any vacancies that occur.

(2) Criteria shall include a determination by department of corrections staff that:

(a) The offender suffers from a major mental illness and needs continued mental health treatment;

(b) The offender's previous crime or crimes have been determined by either the court or department of corrections staff to have been substantially influenced by the offender's mental illness;

(c) It is believed the offender will be less likely to commit further criminal acts if provided ongoing mental health care;

(d) The offender is unable or unlikely to obtain housing and/or treatment from other sources for any reason; and

(e) The offender has at least one year remaining before his or her sentence expires but is within six months of release to community housing and is currently housed within a work release facility or any department of corrections' division of prisons facility.

(3) The ((regional support network)) behavioral health organization or private provider shall provide specialized access and services to the selected offenders. The services shall be aimed at lowering the risk of recidivism. An oversight committee composed of a representative of the department, a representative of the selected ((regional support network)) behavioral health organization or private provider, and a representative of the department of corrections shall develop policies to guide the pilot program, provide dispute resolution including making determinations as to when entrance criteria or required services may be waived in individual cases, advise the department of corrections and the ((regional support network)) behavioral health organization or private provider on the selection of eligible offenders, and set minimum requirements for service contracts. The selected ((regional support network)) behavioral health organization or private provider shall implement the policies and service contracts. The following services shall be provided:

(a) Intensive case management to include a full range of intensive community support and treatment in client-to-staff ratios of not more than ten offenders per case manager including: (i) A minimum of weekly group and weekly individual counseling; (ii) home visits by the program manager at least two times per month; and (iii) counseling focusing on relapse prevention and past, current, or future behavior of the offender.

(b) The case manager shall attempt to locate and procure housing appropriate to the living and clinical needs of the offender.
and as needed to maintain the psychiatric stability of the offender. The entire range of emergency, transitional, and permanent housing and involuntary hospitalization must be considered as available housing options. A housing subsidy may be provided to offenders to defray housing costs up to a maximum of six thousand six hundred dollars per offender per year and be administered by the case manager. Additional funding sources may be used to offset these costs when available.

(c) The case manager shall collaborate with the assigned prison, work release, or community corrections staff during release planning, prior to discharge, and in ongoing supervision of the offender while under the authority of the department of corrections.

(d) Medications including the full range of psychotropic medications including atypical antipsychotic medications may be required as a condition of the program. Medication prescription, medication monitoring, and counseling to support offender understanding, acceptance, and compliance with prescribed medication regimens must be included.

(e) A systematic effort to engage offenders to continuously involve themselves in current and long-term treatment and appropriate habilitative activities shall be made.

(f) Classes appropriate to the clinical and living needs of the offender and appropriate to his or her level of understanding.

(g) The case manager shall assist the offender in the application and qualification for entitlement funding, including Medicaid, state assistance, and other available government and private assistance at any point that the offender is qualified and resources are available.

(h) The offender shall be provided access to daily activities such as drop-in centers, prevocational and vocational training and jobs, and volunteer activities.

(4) Once an offender has been selected into the pilot program, the offender shall remain in the program until the end of his or her sentence or unless the offender is released from the pilot program earlier by the department of corrections.

(5) Specialized training in the management and supervision of high-crime risk (mentally ill) offenders with mental illness shall be provided to all participating mental health providers by the department and the department of corrections prior to their participation in the program and as requested thereafter.

(6) The pilot program provided for in this section must be providing services by July 1, 1998.

Sec. 44. RCW 71.24.470 and 2009 c 319 s 1 are each amended to read as follows:

(1) The secretary shall contract, to the extent that funds are appropriated for this purpose, for case management services and such other services as the secretary deems necessary to assist offenders identified under RCW 72.09.370 for participation in the offender reentry community safety program. The contracts may be with behavioral health organizations or any other qualified and appropriate entities.

(2) The case manager has the authority to assist these offenders in obtaining the services, as set forth in the plan created under RCW 72.09.370(2), for up to five years. The services may include coordination of mental health services, assistance with unfunded medical expenses, obtaining chemical dependency treatment, housing, employment services, educational or vocational training, independent living skills, parenting education, anger management services, and such other services as the case manager deems necessary.

(3) The legislature intends that funds appropriated for the purposes of RCW 72.09.370, 71.05.145, and 71.05.212, and this section and distributed to the behavioral health organizations are to supplement and not to supplant general funding. Funds appropriated to implement RCW 72.09.370, 71.05.145, and 71.05.212, and this section are not to be considered available resources as defined in RCW 71.24.025 and are not subject to the priorities, terms, or conditions in the appropriations act established pursuant to RCW 71.24.035.

(4) The offender reentry community safety program was formerly known as the community integration assistance program.

Sec. 45. RCW 71.24.480 and 2009 c 319 s 2 are each amended to read as follows:

(1) A licensed service provider or behavioral health organization, acting in the course of the provider's or organization's duties under this chapter, is not liable for civil damages resulting from the injury or death of another caused by a participant in the offender reentry community safety program who is a client of the provider or organization, unless the act or omission of the provider or organization constitutes:

(a) Gross negligence;

(b) Willful or wanton misconduct;

(c) A breach of the duty to warn of and protect from a client's threatened violent behavior if the client has communicated a serious threat of physical violence against a reasonably ascertainable victim or victims.

(2) In addition to any other requirements to report violations, the licensed service provider and behavioral health organization shall report an offender's expressions of intent to harm or other predatory behavior, regardless of whether there is an ascertainable victim, in progress reports and other established processes that enable courts and supervising entities to assess and address the progress and appropriateness of treatment.

(3) A licensed service provider or behavioral health organization's mere act of treating a participant in the offender reentry community safety program is not negligence. Nothing in this subsection alters the obligation of the provider to report duties under this chapter.

(4) The limited liability provided by this section applies only to the conduct of licensed service providers and behavioral health organizations and does not apply to conduct of the state.

(5) For purposes of this section, "participate in the offender reentry community safety program" means a person who has been identified under RCW 72.09.370 as an offender who: (a) Is reasonably believed to be dangerous to himself or herself or others; and (b) has a mental disorder.

Sec. 46. RCW 71.24.845 and 2013 c 230 s 1 are each amended to read as follows:

The behavioral health organizations shall jointly develop a uniform transfer agreement to govern the transfer of clients between behavioral health organizations. By September 1, 2013, the behavioral health organizations shall submit the uniform transfer agreement to the department. By December 1, 2013, the department shall establish guidelines to implement the uniform transfer agreement and may modify the uniform transfer agreement as necessary to avoid impacts on state administrative systems.

Sec. 47. RCW 71.24.055 and 2007 c 359 s 4 are each amended to read as follows:

As part of the system transformation initiative, the department of social and health services shall undertake the following activities related specifically to children's mental health services:

(1) The development of recommended revisions to the access to care standards for children. The recommended revisions shall reflect the policies and principles set out in RCW 71.36.005, 71.36.010, and 71.36.025, and recognize that early identification, intervention and prevention services, and brief intervention services may be provided outside of the behavioral health organization system. Revised access to care
standards shall assess a child's need for mental health services based
upon the child's diagnosis and its negative impact upon his or her
persistent impaired functioning in family, school, or the community,
and should not solely condition the receipt of services upon a
determination that a child is engaged in high risk behavior or is in
imminent need of hospitalization or out-of-home placement.
Assessment and diagnosis for children under five years of age shall
determined using a nationally accepted assessment tool designed
specifically for children of that age. The recommendations shall
also address whether amendments to RCW 71.24.025 (((26) and))
(27) and (28) and 71.24.035(5) are necessary to implement revised
access to care standards;

(2) Development of a revised children's mental health benefit
package. The department shall ensure that services included in the
children's mental health benefit package reflect the policies and
principles included in RCW 71.36.005 and 71.36.025, to the extent
allowable under medicaid, Title XIX of the federal social security
act. Strong consideration shall be given to developmentally
appropriate evidence-based and research-based practices,
family-based interventions, the use of natural and peer supports, and
community support services. This effort shall include a review of
other states' efforts to fund family-centered children's mental health
services through their medicaid programs;

(3) Consistent with the timeline developed for the system
transformation initiative, recommendations for revisions to the
children's access to care standards and the children's mental health
services benefits package shall be presented to the legislature by
January 1, 2009.

Sec. 48. RCW 71.24.065 and 2007 c 359 s 10 are each
amended to read as follows:

To the extent funds are specifically appropriated for this
purpose, the department of social and health services shall contract
for implementation of a wraparound model of integrated children's
mental health services delivery in up to four (((regional support
network)) behavioral health organization) regions in Washington
state in which wraparound programs are not currently operating, and
in up to two (((regional support network)) behavioral health
organization) regions in which wraparound programs are currently
operating. Contracts in regions with existing wraparound programs
shall be for the purpose of expanding the number of children served.

(1) Funding provided may be expended for: Costs associated
with a request for proposal and contracting process; administrative
costs associated with successful bidders' operation of the
wraparound model; the evaluation under subsection (5) of this
section; and funding for services needed by children served in
wraparound model sites that are not otherwise covered under
existing state programs. The services provided through the
wraparound model sites shall include, but not be limited to, services
covered under the medicaid program. The department shall
maximize the use of medicaid and other existing state-
funded programs as a funding source. However, state funds provided
may be used to develop a broader service package to meet needs
identified in a child's care plan. Amounts provided shall
supplement, and not supplant, state, local, or other funding for
services that a child being served through a wraparound site would
otherwise be eligible to receive.

(2) The wraparound model sites shall serve children with
serious emotional or behavioral disturbances who are at high risk of
residential or correctional placement or psychiatric hospitalization,
and who have been referred for services from the department, a
county juvenile court, a tribal court, a school, or a licensed mental
health provider or agency.

(3) Through a request for proposal process, the department shall
contract, with (((regional support network)) behavioral health
organizations, alone or in partnership with either educational service
districts or entities licensed to provide mental health services to
children with serious emotional or behavioral disturbances, to
operate the wraparound model sites. The contractor shall provide
care coordination and facilitate the delivery of services and other
supports to families using a strength-based, highly individualized
wraparound process. The request for proposal shall require that:

(a) The (((regional support network)) behavioral health
organization agree to use its medicaid revenues to fund services
included in the existing (((regional support network)) behavioral
health organization's benefit package that a medicaid-eligible child
participating in the wraparound model site is determined to need;

(b) The contractor provide evidence of commitments from at
least the following entities to participate in wraparound care plan
development and service provision when appropriate: Community
mental health agencies, schools, the department of social and health
services children's administration, juvenile courts, the department
of social and health services juvenile rehabilitation administration,
and managed health care systems contracting with the department
under RCW 74.09.522; and

(c) The contractor will operate the wraparound model site in a
manner that maintains fidelity to the wraparound process as defined
in RCW 71.36.010.

(4) Contracts for operation of the wraparound model sites shall be
executed on or before April 1, 2008, with enrollment and service
delivery beginning on or before July 1, 2008.

(5) The evidence-based practice institute established in RCW
71.24.061 shall evaluate the wraparound model sites, measuring
outcomes for children served. Outcomes measured shall include,
but are not limited to: Increased out-of-home placement,
including residential, group, and foster care, and increased stability
of such placements, school attendance, school performance,
recidivism, emergency room utilization, involvement with the
juvenile justice system, decreased use of psychotropic medication,
and decreased hospitalization.

(6) The evidence-based practice institute shall provide a report
and recommendations to the appropriate committees of the
legislature by December 1, 2010.

Sec. 49. RCW 71.24.240 and 2005 c 503 s 10 are each
amended to read as follows:

In order to establish eligibility for funding under this chapter,
any (((regional support network)) behavioral health organization
seeking to obtain federal funds for the support of any aspect of a
community mental health program as defined in this chapter shall
submit program plans to the secretary for prior review and approval
before such plans are submitted to any federal agency.

Sec. 50. RCW 71.24.320 and 2008 c 261 s 5 are each
amended to read as follows:

(1) If an existing (((regional support network)) behavioral health
organization chooses not to respond to a request for
(((qualifications)) a detailed plan, or is unable to substantially meet
the requirements of a request for (((qualifications)) a detailed plan, or
notifies the department of social and health services it will no longer
serve as a (((regional support network)) behavioral health
organization), the department shall utilize a procurement process in
which other entities recognized by the secretary may bid to serve as
the (((regional support network)) behavioral health organization.

(a) The request for proposal shall include a scoring factor for
proposals that include additional financial resources beyond that
provided by state appropriation or allocation.

(b) The department shall provide detailed briefings to all bidders
in accordance with department and state procurement policies.

(c) The request for proposal shall also include a scoring factor for
proposals submitted by nonprofit entities that include a
component to maximize the utilization of state provided resources
and the leverage of other funds for the support of mental health services to persons with mental illness.

(2) A ((regional support network)) behavioral health organization that voluntarily terminates, refuses to renew, or refuses to sign a mandatory amendment to its contract to act as a ((regional support network)) behavioral health organization is prohibited from responding to a procurement under this section or serving as a ((regional support network)) behavioral health organization for five years from the date that the department signs a contract with the entity that will serve as the ((regional support network)) behavioral health organization.

Sec. 51. RCW 71.24.330 and 2013 c 320 s 9 are each amended to read as follows:

(1)(a) Contracts between a ((regional support network)) behavioral health organization and the department shall include mechanisms for monitoring performance under the contract and remedies for failure to substantially comply with the requirements of the contract including, but not limited to, financial penalties, termination of the contract, and reprocurement of the contract.

(b) The department shall incorporate the criteria to measure the performance of service coordination organizations into contracts with ((regional support network)) behavioral health organizations as provided in chapter 70.320 RCW.

(2) The ((regional support network)) behavioral health organization procurement processes shall encourage the maintenance of job stability and community mental health service delivery system, the maintenance of linkages between other services and delivery systems, and maximization of the use of available funds for services versus profits. However, a ((regional support network)) behavioral health organization selected through the procurement process is not required to contract for services with any county-owned or operated facility. The ((regional support network)) behavioral health organization procurement process shall provide that public funds appropriated by the legislature shall not be used to promote or deter, encourage, or discourage employees from exercising their rights under Title 29, chapter 7, subchapter II, United States Code or chapter 41.56 RCW.

(3) In addition to the requirements of RCW 71.24.035, contracts shall:

(a) Define administrative costs and ensure that the ((regional support network)) behavioral health organization does not exceed an administrative cost of ten percent of available funds;

(b) Require effective collaboration with law enforcement, criminal justice agencies, and the chemical dependency treatment system;

(c) Require substantial implementation of department adopted integrated screening and assessment process and matrix of best practices;

(d) Maintain the decision-making independence of designated mental health professionals;

(e) Except at the discretion of the secretary or as specified in the biennial budget, require ((regional support networks)) behavioral health organizations to pay the state for the costs associated with individuals who are being served on the grounds of the state hospitals and who are not receiving long-term inpatient care as defined in RCW 71.24.025;

(f) Include a negotiated alternative dispute resolution clause; and

(g) Include a provision requiring either party to provide one hundred eighty days' notice of any issue that may cause either party to voluntarily terminate, refuse to renew, or refuse to sign a mandatory amendment to the contract to act as a ((regional support network)) behavioral health organization. If either party decides to voluntarily terminate, refuse to renew, or refuse to sign a mandatory amendment to the contract to serve as a ((regional support network)) behavioral health organization they shall provide ninety days' advance notice in writing to the other party.

Sec. 52. RCW 71.24.360 and 2012 c 91 s 1 are each amended to read as follows:

(1) The department may establish new ((regional support network)) behavioral health organization boundaries in any part of the state:

(a) Where more than one ((network)) organization chooses not to respond to, or is unable to substantially meet the requirements of, the request for ((qualifications)) a detailed plan under RCW 71.24.320;

(b) Where a ((regional support network)) behavioral health organization is subject to reprocurement under RCW 71.24.330; or

(c) Where two or more ((regional support networks)) behavioral health organizations propose to reconfigure themselves to achieve consolidation, in which case the procurement process described in RCW 71.24.320 and 71.24.330(2) does not apply.

(2) The department may establish no fewer than six and no more than fourteen ((regional support networks)) behavioral health organizations under this chapter. No entity shall be responsible for more than three ((regional support networks)) behavioral health organizations.

Sec. 53. RCW 71.24.405 and 2001 c 323 s 19 are each amended to read as follows:

The department shall establish a comprehensive and collaborative effort within ((regional support networks)) behavioral health organizations and with local mental health service providers aimed at creating innovative and streamlined community mental health service delivery systems, in order to carry out the purposes set forth in RCW 71.24.400 and to capture the diversity of the community mental health service delivery system.

The department must accomplish the following:

(1) Identification, review, and cataloging of all rules, regulations, duplicative administrative and monitoring functions, and other requirements that currently lead to inefficiencies in the community mental health service delivery system and, if possible, eliminate the requirements;

(2) The systematic and incremental development of a single system of accountability for all federal, state, and local funds provided to the community mental health service delivery system. Systematic efforts should be made to include federal and local funds into the single system of accountability;

(3) The elimination of process regulations and related contract and reporting requirements. In place of the regulations and requirements, a set of outcomes for mental health adult and children clients according to chapter 71.24 RCW must be used to measure the performance of mental health service providers and ((regional support networks)) behavioral health organizations. Such outcomes shall focus on stabilizing out-of-home and hospital care, increasing stable community living, increasing age-appropriate activities, achieving family and consumer satisfaction with services, and system efficiencies;

(4) Evaluation of the feasibility of contractual agreements between the department of social and health services and ((regional support networks)) behavioral health organizations and mental health service providers that link financial incentives to the success or failure of mental health service providers and ((regional support networks)) behavioral health organizations to meet outcomes established for mental health service clients;

(5) The involvement of mental health consumers and their representatives. Mental health consumers and their representatives will be involved in the development of outcome standards for mental health clients under section 5 of this act; and

(6) An independent evaluation component to measure the success of the department in fully implementing the provisions of RCW 71.24.400 and this section.
Sec. 54. RCW 71.24.430 and 2001 c 323 s 3 are each amended to read as follows:

(1) The department shall ensure the coordination of allied services for mental health clients. The department shall implement strategies for resolving organizational, regulatory, and funding issues at all levels of the system, including the state, the regional support networks, behavioral health organizations, and local service providers.

(2) The department shall propose, in operating budget requests, transfers of funding among programs to support collaborative service delivery to persons who require services from multiple department programs. The department shall report annually to the appropriate committees of the senate and house of representatives on actions and projects it has taken to promote collaborative service delivery.

Sec. 55. RCW 74.09.522 and 2013 2nd sp.s. c 17 s 13 are each amended to read as follows:

(1) For the purposes of this section:

(a) "Managed health care system" means any health care organization, including health care providers, insurers, health care service contractors, health maintenance organizations, health insuring organizations, or any combination thereof, that provides directly or by contract health care services covered under this chapter and rendered by licensed providers, on a prepaid capitated basis and that meets the requirements of section 1903(m)(1)(A) of Title XIX of the federal social security act or federal demonstration waivers granted under section 1115(a) of Title XI of the federal social security act;

(b) "Nonparticipating provider" means a person, health care provider, practitioner, facility, or entity, acting within their scope of practice, that does not have a written contract to participate in a managed health care system's provider network, but provides health care services to enrollees of programs authorized under this chapter whose health care services are provided by the managed health care system.

(2) The authority shall enter into agreements with managed health care systems to provide health care services to recipients of temporary assistance for needy families under the following conditions:

(a) Agreements shall be made for at least thirty thousand recipients statewide;

(b) Agreements in at least one county shall include enrollment of all recipients of temporary assistance for needy families;

(c) To the extent that this provision is consistent with section 1903(m) of Title XIX of the federal social security act or federal demonstration waivers granted under section 1115(a) of Title XI of the federal social security act, recipients shall have a choice of systems in which to enroll and shall have the right to terminate their enrollment in a system: PROVIDED, That the authority may limit recipient termination of enrollment without cause to the first month of a period of enrollment, which period shall not exceed twelve months: AND PROVIDED FURTHER, That the authority shall not restrict a recipient's right to terminate enrollment in a system for good cause as established by the authority by rule;

(d) To the extent that this provision is consistent with section 1903(m) of Title XIX of the federal social security act, participating managed health care systems shall not enroll a disproportionate number of medical assistance recipients within the total numbers of persons served by the managed health care systems, except as authorized by the authority under federal demonstration waivers granted under section 1115(a) of Title XI of the federal social security act;

(e)(i) In negotiating with managed health care systems the authority shall adopt a uniform procedure to enter into contractual arrangements, to be included in contracts issued or renewed on or after January 1, 2015, including:

(A) Standards regarding the quality of services to be provided;

(B) The financial integrity of the responding system;

(C) Provider reimbursement methods that incentivize chronic care management within health homes, including comprehensive medication management services for patients with multiple chronic conditions consistent with the findings and goals established in RCW 74.09.5223;

(D) Provider reimbursement methods that reward health homes that, by using chronic care management, reduce emergency department and inpatient use;

(E) Promoting provider participation in the program of training and technical assistance regarding care of people with chronic conditions described in RCW 43.70.533, including allocation of funds to support provider participation in the training, unless the managed care system is an integrated health delivery system that has programs in place for chronic care management;

(F) Provider reimbursement methods within the medical billing processes that incentivize pharmacists or other qualified providers licensed in Washington state to provide comprehensive medication management services consistent with the findings and goals established in RCW 74.09.5223;

(G) Evaluation and reporting on the impact of comprehensive medication management services on patient clinical outcomes and total health care costs, including reductions in emergency department utilization, hospitalization, and drug costs; and

(H) Established consistent processes to incentivize integration of behavioral health services in the primary care setting, promoting care that is integrated, collaborative, co-located, and preventive.

(i)(A) Health home services contracted for under this subsection may be prioritized to enrollees with complex, high cost, or multiple chronic conditions.

(B) Contracts that include the items in (e)(i)(C) through (G) of this subsection must not exceed the rates that would be paid in the absence of these provisions;

(f) The authority shall seek waivers from federal requirements as necessary to implement this chapter;

(g) The authority shall, wherever possible, enter into prepaid capitation contracts that include inpatient care. However, if this is not possible or feasible, the authority may enter into prepaid capitation contracts that do not include inpatient care;

(h) The authority shall define those circumstances under which a managed health care system is responsible for out-of-plan services and assure that recipients shall not be charged for such services;

(i) Nothing in this section prevents the authority from entering into similar agreements for other groups of people eligible to receive services under this chapter; and

(j) The authority must consult with the federal center for medicare and medicaid innovation and seek funding opportunities to support health homes.

(3) The authority shall ensure that publicly supported community health centers and providers in rural areas, who show serious intent and apparent capability to participate as managed health care systems are seriously considered as contractors. The authority shall coordinate its managed care activities with activities under chapter 70.47 RCW.

(4) The authority shall work jointly with the state of Oregon and other states in this geographical region in order to develop recommendations to be presented to the appropriate federal agencies and the United States congress for improving health care of the poor, while controlling related costs.

(5) The legislature finds that competition in the managed health care marketplace is enhanced, in the long term, by the existence of a large number of managed health care system options for medicaid
clients. In a managed care delivery system, whose goal is to focus on prevention, primary care, and improved enrollee health status, continuity in care relationships is of substantial importance, and disruption to clients and health care providers should be minimized. To help ensure these goals are met, the following principles shall guide the authority in its healthy options managed health care purchasing efforts:

(a) All managed health care systems should have an opportunity to contract with the authority to the extent that minimum contracting requirements defined by the authority are met, at payment rates that enable the authority to operate as far below appropriated spending levels as possible, consistent with the principles established in this section.

(b) Managed health care systems should compete for the award of contracts and assignment of Medicaid beneficiaries who do not voluntarily select a contracting system, based upon:

(i) Demonstrated commitment to or experience in serving low-income populations;

(ii) Quality of services provided to enrollees;

(iii) Accessibility, including appropriate utilization, of services offered to enrollees;

(iv) Demonstrated capability to perform contracted services, including ability to supply an adequate provider network;

(v) Payment rates; and

(vi) The ability to meet other specifically defined contract requirements established by the authority, including consideration of past and current performance and participation in other state or federal health programs as a contractor.

(c) Consideration should be given to using multiple year contracting periods.

(d) Quality, accessibility, and demonstrated commitment to serving low-income populations shall be given significant weight in the contracting, evaluation, and assignment process.

(e) All contractors that are regulated health carriers must meet state minimum net worth requirements as defined in applicable state laws. The authority shall adopt rules establishing the minimum net worth requirements for contractors that are not regulated health carriers. This subsection does not limit the authority of the Washington state health care authority to take action under a contract upon finding that a contractor's financial status seriously jeopardizes the contractor's ability to meet its contract obligations.

(f) Procedures for resolution of disputes between the authority and contract bidders or the authority and contracting carriers related to the award of, or failure to award, a managed care contract must be clearly set out in the procurement document.

(6) The authority may apply the principles set forth in subsection (5) of this section to its managed health care purchasing efforts on behalf of clients receiving supplemental security income benefits to the extent appropriate.

(7) By April 1, 2016, any contract with a managed health care system to provide services to medical assistance enrollees shall require that managed health care systems offer contracts to behavioral health organizations, mental health providers, or chemical dependency treatment providers to provide access to primary care services integrated into behavioral health clinical settings, for individuals with behavioral health and medical comorbidities.

(8) Managed health care system contracts effective on or after April 1, 2016, shall serve geographic areas that correspond to the regional service areas established in section 2 of this act.

(9) A managed health care system shall pay a nonparticipating provider that provides a service covered under this chapter to the system's enrollee no more than the lowest amount paid for that service under the managed health care system's contracts with similar providers in the state.

(10) For services covered under this chapter to medical assistance or Medicaid contracts, enrollees and providers are required to provide services to covered providers.

(11) Pursuant to federal managed care access standards, 42 C.F.R. Sec. 438, managed health care systems must maintain a network of appropriate providers that is supported by written agreements sufficient to provide adequate access to all services covered under the contract with the authority, including hospital-based physician services. The authority will monitor and periodically report on the proportion of services provided by contracted providers and nonparticipating providers, by county, for each managed health care system to ensure that managed health care systems are meeting network adequacy requirements. No later than January 1st of each year, the authority will review and report its findings to the appropriate policy and fiscal committees of the legislature for the preceding state fiscal year.

(12) Payments under RCW 74.60.130 are exempt from this section.

(13) Subsections (7) through (11) of this section expire July 1, 2016.

Sec. 56. RCW 94.11.280 and 2009 c 453 s 1 are each amended to read as follows:

The court shall send notice of the revocation to the department of licensing, and the city, town, or county which issued the license.

Upon the arrest of a person at least twelve years of age and not more than twenty-one years of age for violating subsection (1)(a) of this section, the person shall be detained or confined in a juvenile or adult facility for up to seventy-two hours. The designated mental health professional may determine whether to refer the person to the county-designated chemical dependency specialist for examination and evaluation in accordance with chapter 70.96A RCW. The county-designated chemical dependency specialist shall examine the person subject to the provisions of chapter 70.96A RCW. The examination shall occur at the facility in which the person is detained or confined. If the person has been released on probation, bond, or bail, the examination shall occur wherever is appropriate.

Upon completion of any examination by the designated mental health professional or the county-designated chemical dependency specialist, the results of the examination shall be sent to the court, and the court shall consider those results in making any determination about the person.

The designated mental health professional and county-designated chemical dependency specialist shall, to the extent permitted by law, notify a parent or guardian of the person that an examination and evaluation has taken place and the results of the examination. Nothing in this subsection prohibits the delivery of additional, appropriate mental health examinations to the person while the person is detained or confined.

If the designated mental health professional determines it is appropriate, the designated mental health professional may refer the person to the local ((regional support network)) behavioral health organization for follow-up services or the department of social and health services or other community providers for other services to the family and individual.

(3) Subsection (1) of this section does not apply to:

(a) Any student or employee of a private military academy when on the property of the academy;

However, a person who is not a commissioned law enforcement officer and who provides school security services under the direction of a school administrator may not possess a device listed in subsection (1)(f) of this section unless he or she has successfully completed training in the use of such devices that is equivalent to the training received by commissioned law enforcement officers;

(g) Any nonstudent at least eighteen years of age who is in lawful possession of an unloaded firearm, secured in a vehicle while conducting legitimate business at the school; or
(h) Any law enforcement officer of the federal, state, or local government agency.

(4) Subsections (1)(c) and (d) of this section do not apply to any person who possesses non-chu-ka sticks, throwing stars, or other dangerous weapons to be used in martial arts classes authorized to be conducted on the school premises.

(5) Subsection (1)(f)(i) of this section does not apply to any person who possesses a device listed in subsection (1)(f)(i) of this section, if the device is possessed and used solely for the purpose approved by a school for use in a school authorized event, lecture, or activity conducted on the school premises.

6) Except as provided in subsection (3)(b), (c), (f), and (h) of this section, firearms are not permitted in a public or private school building.

Sec. 57.
RCW 10.31.110 and 2011 c 305 s 7 and 2011 c 148 s 3 are each reenacted and amended to read as follows:

(1) When a police officer has reasonable cause to believe that the individual has committed acts constituting a felony crime that is not a serious offense as defined in RCW 10.77.092 and the individual is known by history or consultation with the ((regional support network)) behavioral health organization to suffer from a mental disorder, the arresting officer may:

(a) Take the individual to a crisis stabilization unit as defined in RCW 71.05.020(6). Individuals delivered to a crisis stabilization unit pursuant to this section may be held by the facility for a period of up to twelve hours. The individual must be examined by a mental health professional within three hours of arrival;
(b) Take the individual to a triage facility as defined in RCW 71.05.020. An individual delivered to a triage facility which has elected to operate as an involuntary facility may be held up to a period of twelve hours. The individual must be examined by a mental health professional within three hours of arrival;
(c) Refer the individual to a mental health professional for evaluation for initial detention and proceeding under chapter 71.05 RCW;
(d) Release the individual upon agreement to voluntary participation in outpatient treatment.

(2) If the individual is released to the community, the mental health provider shall inform the arresting officer of the release within a reasonable period of time after the release if the arresting officer has specifically requested notification and provided contact information to the provider.

(3) In deciding whether to refer the individual to treatment under this section, the police officer shall be guided by standards mutually agreed upon with the prosecuting authority, which address, at a minimum, the length, seriousness, and recency of the known criminal history of the individual, the mental health history of the individual, where available, and the circumstances surrounding the commission of the alleged offense.
(4) Any agreement to participate in treatment shall not require individuals to stipulate to any of the alleged facts regarding the criminal activity as a prerequisite to participation in a mental health treatment alternative. The agreement is inadmissible in any criminal or civil proceeding. The agreement does not create immunity from prosecution for the alleged criminal activity.

(5) If an individual violates such agreement and the mental health treatment alternative is no longer appropriate:
   (a) The mental health provider shall inform the referring law enforcement agency of the violation; and
   (b) The original charges may be filed or referred to the prosecutor, as appropriate, and the matter may proceed accordingly.

(6) The police officer is immune from liability for any good faith conduct under this section.

(b) A health care facility if (i) the facility primarily provides or will provide inpatient health services, (ii) the facility is or will be controlled, directly or indirectly, by a health maintenance organization or a combination of health maintenance organizations which has, in the service area of the organization or service areas of the organizations in the combination, an enrollment of at least fifty thousand individuals, (iii) the facility is or will be geographically located so that the service will be reasonably accessible to such enrolled individuals, and (iv) at least seventy-five percent of the patients who can reasonably be expected to receive the tertiary health service will be individuals enrolled with such organization or organizations in the combination; or

obligation by a nursing home as the department may require to determine if the organization or combination meets the requirements of subsection (1) of this section or the facility meets or will meet such requirements; and

(c) The department approves such application. The department shall approve or disapprove an application for exemption within thirty days of receipt of a completed application. In the case of a proposed health care facility (or portion thereof) which has not begun to provide tertiary health services on the date an application is submitted under this subsection with respect to such facility (or portion), the facility (or portion) shall meet the applicable requirements of subsection (1) of this section when the facility first provides such services. The department shall approve an application submitted under this subsection if it determines that the applicable requirements of subsection (1) of this section are met.

(3) A health care facility (or any part thereof) with respect to which an exemption was granted under subsection (1) of this section may not be sold or leased and a controlling interest in such facility or in a lease of such facility may not be acquired and a health care facility described in (1)(c) which was granted an exemption under subsection (1) of this section may not be used by any person other than the lessee described in (1)(c) unless:

(a) The department issues a certificate of need approving the sale, lease, acquisition, or use; or

(b) The department determines, upon application, that (i) the entity to which the facility is proposed to be sold or leased, which intends to acquire the controlling interest, or which intends to use the facility is a health maintenance organization or a combination of health maintenance organizations which meets the requirements of (1)(a)(i), and (ii) with respect to such facility, meets the requirements of (1)(a)(ii) or (iii) or the requirements of (1)(b)(i) and (ii).

(4) In the case of a health maintenance organization, an ambulatory care facility, or a health care facility, which ambulatory or health care facility is controlled, directly or indirectly, by a health maintenance organization or a combination of health maintenance organizations, the department may under the program apply its certificate of need requirements to the offering of inpatient tertiary health services to the extent that such offering is not exempt under the provisions of this section or RCW 70.38.105(7).

(5)(a) The department shall not require a certificate of need for the construction, development, or other establishment of a nursing home, or the addition of beds to an existing nursing home, that is owned and operated by a continuing care retirement community that:

(i) Offers services only to contractual members;

(ii) Provides its members a contractually guaranteed range of services from independent living through skilled nursing, including some assistance with daily living activities;

(iii) Contractually assumes responsibility for the cost of services exceeding the member’s financial responsibility under the contract, so that no third party, with the exception of insurance purchased by the retirement community or its members, but including the medicaid program, is liable for costs of care even if the member depletes his or her personal resources;

(iv) Has offered continuing care contracts and operated a nursing home continuously since January 1, 1988, or has obtained a certificate of need to establish a nursing home;

(v) Maintains a binding agreement with the state assuring that financial liability for services to members, including nursing home services, will not fall upon the state;

(vi) Does not operate, and has not undertaken a project that would result in a number of nursing home beds in excess of one for every four living units operated by the continuing care retirement community, exclusive of nursing home beds; and

(vii) Has obtained a professional review of pricing and long-term solvency within the prior five years which was fully disclosed to members.

(b) A continuing care retirement community shall not be exempt under this subsection from obtaining a certificate of need unless:

(i) It has submitted an application for exemption at least thirty days prior to commencing construction of, is submitting an application for the licensure of, or is commencing operation of a nursing home, whichever comes first; and

(ii) The application documents to the department that the continuing care retirement community qualifies for exemption.

(c) The sale, lease, acquisition, or use of part or all of a continuing care retirement community nursing home that qualifies for exemption under this subsection shall require prior certificate of need approval to qualify for licensure as a nursing home unless the department determines such sale, lease, acquisition, or use is by a continuing care retirement community that meets the conditions of (a) of this subsection.

(6) A rural hospital, as defined by the department, reducing the number of licensed beds to become a rural primary care hospital under the provisions of Part A Title XVIII of the Social Security Act Section 1820, 42 U.S.C., 1395c et seq. may, within three years of the reduction of beds licensed under chapter 70.41 RCW, increase the number of licensed beds to no more than the previously licensed number without being subject to the provisions of this chapter.

(7) A rural health care facility licensed under RCW 70.175.100 formerly licensed as a hospital under chapter 70.41 RCW may, within three years of the effective date of the rural health care facility license, apply to the department for a hospital license and not be subject to the requirements of RCW 70.38.105(4)(a) as the construction, development, or other establishment of a new hospital, provided there is no increase in the number of beds previously licensed under chapter 70.41 RCW and there is no redistribution in the number of beds used for acute care or long-term care, the rural health care facility has been in continuous operation, and the rural health care facility has not been purchased or leased.

(8)(a) A nursing home that voluntarily reduces the number of its licensed beds to provide assisted living, licensed assisted living facility care, adult day care, adult day health, respite care, hospice, outpatient therapy services, congregate meals, home health, or senior wellness clinic, or to reduce to one or two the number of beds per room or to otherwise enhance the quality of life for residents in the nursing home, may convert the original facility or portion of the facility back, and thereby increase the number of nursing home beds to no more than the previously licensed number of nursing home beds without obtaining a certificate of need under this chapter, provided the facility has been in continuous operation and has not been purchased or leased. Any conversion to the original licensed bed capacity, or to any portion thereof, shall comply with the same life and safety code requirements as existed at the time the nursing home voluntarily reduced its licensed beds; unless waivers from such requirements were issued, in which case the converted beds shall reflect the conditions or standards that then existed pursuant to the approved waivers.

(b) To convert beds back to nursing home beds under this subsection, the nursing home must:

(i) Give notice of its intent to preserve conversion options to the department of health no later than thirty days after the effective date of the license reduction; and

(ii) Give notice to the department of health and to the department of social and health services of the intent to convert beds back. If construction is required for the conversion of beds back, the notice of intent to convert beds back must be given, at a minimum, one year prior to the effective date of license modification reflecting the restored beds; otherwise, the notice must be given a minimum of ninety days prior to the effective date of
license modification reflecting the restored beds. Prior to any license modification to convert beds back to nursing home beds under this section, the licensee must demonstrate that the nursing home meets the certificate of need exemption requirements of this section.

The term "construction," as used in (b)(ii) of this subsection, is limited to those projects that are expected to equal or exceed the expenditure minimum amount, as determined under this chapter.

(c) Conversion of beds back under this subsection must be completed no later than four years after the effective date of the license reduction. However, for good cause shown, the four-year period for conversion may be extended by the department of health for one additional four-year period.

(d) Nursing home beds that have been voluntarily reduced under this section shall be counted as available nursing home beds for the purpose of evaluating need under RCW 70.38.115(2) (a) and (k) so long as the facility retains the ability to convert them back to nursing home use under the terms of this section.

(e) When a building owner has secured an interest in the nursing home beds, which are intended to be voluntarily reduced by the licensee under (a) of this subsection, the applicant shall provide the department with a written statement indicating the building owner's approval of the bed reduction.

9(a) The department shall not require a certificate of need for a hospice agency if:

(i) The hospice agency is designed to serve the unique religious or cultural needs of a religious group or an ethnic minority and commits to furnishing hospice services in a manner specifically aimed at meeting the unique religious or cultural needs of the religious group or ethnic minority;

(ii) The hospice agency is operated by an organization that:

(A) Operates a facility, or group of facilities, that offers a comprehensive continuum of long-term care services, including, at a minimum, a licensed, medicare-certified nursing home, assisted living, independent living, day health, and various community-based support services, designed to meet the unique social, cultural, and religious needs of a specific cultural and ethnic minority group;

(B) Has operated the facility or group of facilities for at least ten continuous years prior to the establishment of the hospice agency;

(iii) The hospice agency commits to coordinating with existing hospice programs in its community when appropriate;

(iv) The hospice agency has a census of no more than forty patients;

(v) The hospice agency commits to obtaining and maintaining medicare certification;

(vi) The hospice agency only serves patients located in the same county as the majority of the long-term care services offered by the organization that operates the agency; and

(vii) The hospice agency is not sold or transferred to another agency.

(b) The department shall include the patient census for an agency exempted under this subsection (9) in its calculations for future certificate of need applications.

10 To alleviate the need to board psychiatric patients in emergency departments, for fiscal year 2015 the department shall suspend the certificate of need requirement for a hospital licensed under chapter 70.41 RCW that changes the use of licensed beds to increase the number of beds to provide psychiatric services, including involuntary treatment services. A certificate of need exemption under this section shall be valid for two years.

Sec. 107. RCW 70.320.020 and 2013 c 320 s 2 are each amended to read as follows:

(1) The authority and the department shall base contract performance measures developed under RCW 70.320.030 on the following outcomes when contracting with service contracting entities: Improvements in client health status and wellness; increases in client participation in meaningful activities; reductions in client involvement with criminal justice systems; reductions in avoidable costs in hospitals, emergency rooms, crisis services, and jails and prisons; increases in stable housing in the community; improvements in client satisfaction with quality of life; and reductions in population-level health disparities.

(2) The performance measures must demonstrate the manner in which the following principles are achieved within each of the outcomes under subsection (1) of this section:

(a) Maximization of the use of evidence-based practices will be given priority over the use of research-based and promising practices, and research-based practices will be given priority over the use of promising practices. The agencies will develop strategies to identify programs that are effective with ethnically diverse clients and to consult with tribal governments, experts within ethnically diverse communities and community organizations that serve diverse communities;

(b) The maximization of the client's independence, recovery, and employment;

(c) The maximization of the client's participation in treatment decisions; and

(d) The collaboration between consumer-based support programs in providing services to the client.

(3) In developing performance measures under RCW 70.320.030, the authority and the department shall consider expected outcomes relevant to the general populations that each agency serves. The authority and the department may adapt the outcomes to account for the unique needs and characteristics of discrete subcategories of populations receiving services, including ethnically diverse communities.

(4) The authority and the department shall coordinate the establishment of the expected outcomes and the performance measures between each agency as well as each program to identify expected outcomes and performance measures that are common to the clients enrolled in multiple programs and to eliminate conflicting standards among the agencies and programs.

(5)(a) The authority and the department shall establish timelines and mechanisms for service contracting entities to report data related to performance measures and outcomes, including phased implementation of public reporting of outcome and performance measures in a form that allows for comparison of performance measures and levels of improvement between geographic regions of Washington.

(b) The authority and the department may not release any public reports of client outcomes unless the data have been deidentified and aggregated in such a way that the identity of individual clients cannot be determined through directly identifiable data or the combination of multiple data elements.

Sec. 108. RCW 18.205.040 and 2008 c 135 s 17 are each amended to read as follows:

(1) Except as provided in subsection (2) of this section, nothing in this chapter shall be construed to authorize the use of the title "certified chemical dependency professional" or "certified chemical dependency professional trainee" when treating patients in settings other than programs approved under chapter 70.96A RCW.

(2) A person who holds a credential as a "certified chemical dependency professional" or a "certified chemical dependency professional trainee" may use such title when treating patients in settings other than programs approved under chapter 70.96A RCW if the person also holds a license as: An advanced registered nurse practitioner under chapter 18.79 RCW; a marriage and family therapist, mental health counselor, advanced social worker, or independent clinical social health worker under chapter 18.225
RCW; a psychologist under chapter 18.83 RCW; an osteopathic physician under chapter 18.57 RCW; an osteopathic physician assistant under chapter 18.57A RCW; a physician under chapter 18.71 RCW; or a physician assistant under chapter 18.71A RCW.

NEW SECTION. Sec. 109. A new section is added to chapter 70.320 RCW to read as follows:

The authority, the department, and service contracting entities shall establish record retention schedules for maintaining data reported by service contracting entities under RCW 70.320.020. For data elements related to the identity of individual clients, the schedules may not allow the retention of data for longer than required by law unless the authority, the department, or service contracting entities require the data for purposes contemplated by RCW 70.320.020 or to meet other service requirements. Regardless of how long data reported by service contracting entities under RCW 70.320.020 is kept, it must be protected in a way that prevents improper use or disclosure of confidential client information.

NEW SECTION. Sec. 110. A new section is added to chapter 71.24 RCW to read as follows:

(1) The department and the health care authority shall develop a plan to provide integrated managed health and mental health care for foster children receiving care through the medical assistance program. The plan shall detail the steps necessary to implement and operate a fully integrated program for foster children, including development of a service delivery system, benefit design, reimbursement mechanisms, and standards for contracting with health plans. The plan must be designed so that all of the requirements for providing mental health services to children under the T.R. v. Dreyfus and Porter settlement are met. The plan shall include an implementation timeline and funding estimate. The department and the health care authority shall submit the plan to the legislature by December 1, 2014.

(2) This section expires July 1, 2015.

NEW SECTION. Sec. 111. Section 1 of this act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect immediately.

NEW SECTION. Sec. 112. Sections 7, 10, 13 through 54, 56 through 84, and 86 through 104 of this act take effect April 1, 2016.

NEW SECTION. Sec. 113. Section 85 of this act takes effect July 1, 2018. Correct the title, and the same are herewith transmitted.

RULING BY THE PRESIDENT

President Owen: “In response to Senator Padden’s parliamentary inquiry regarding the number of votes required to pass House Bill No. 2798, the President finds and rules as follows:

Initiative 502 provided that a certain percent of the excise taxes be placed into the Basic Health Plan Stabilization Account, along with other funds already in the account.

The bill allows an expanded use of funds in the account. Merely because the initiative directs some funds into an existing account, does not make alteration of the purposes for which the account can be used an amendment of the initiative.

For these reasons the President finds that House Bill No. 2798 requires only a constitutional majority of 25 votes on final passage.

MESSAGE FROM THE HOUSE

March 12, 2014

MR. PRESIDENT:
The House passed ENGROSSED SUBSTITUTE SENATE BILL NO. 6040 with the following amendment(s): 6040-S.E AMH APP H4471.1

Strike everything after the enacting clause and insert the following:

"PART 1

INVASIVE SPECIES—MANAGEMENT"

NEW SECTION. Sec. 101. The legislature finds that:

(1) The state's fish, wildlife, and habitat also provide exceptionally valuable economic, cultural, and recreational resources. These include hydroelectric power, agriculture, forests, water supplies, commercial and recreational fisheries, aquaculture, and public access to outdoor recreational opportunities.

(2) Invasive species pose a grave threat to these environmental and economic resources, especially to salmon recovery and state and federally listed threatened and endangered species. Because of the significant harm invasive species can cause, invasive species constitute a public nuisance.

(3) If allowed to become established, invasive species can threaten human health and cause environmental and economic disasters affecting not only our state, but other states and nations.

(4) The risk of invasive species spreading into Washington increases as travel and commerce grows in volume and efficiency.

(5) Prevention of invasive species is a cost-effective, successful, and proven management strategy. Prevention is the state's highest management priority with an emphasis on education and outreach, inspections, and rapid response.

(6) The integrated management of invasive species through pathways regulated by the department is critical to preventing the introduction and spread of a broad range of such species, including plants, diseases, and parasites.

(7) Washington's citizens must work together to protect the state from invasive species.

(8) Public and private partnerships, cooperative agreements, and compacts are important for preventing new arrivals and managing existing populations of invasive species, and coordinating these actions on local, state, national, and international levels.

(9) The department requires authority for this mission to effectively counter the unpredictable nature of invasive species' introductions and spread, enable the utilization of new advances in invasive ecology science, and implement applicable techniques and technology to address invasive species.

(10) An integrated management approach provides the best way for the state to manage invasive species and includes opportunities for creating an informed public, encouraging public involvement, and striving for local, regional, national, and international cooperation and consistency on management standards. An integrated management approach also applies sound science to minimize the chance that invasive species used for beneficial purposes will result in environmental harm.

(11) This chapter provides authority for the department to effectively address invasive species using an integrated management approach.

(12) The department of fish and wildlife currently has sufficient statutory authority to effectively address invasive species risks posed through discharge of ballast water under chapter 77.120 RCW and by private sector shellfish aquaculture operations regulated under chapter 77.115 RCW. The programs developed by the department under these chapters embody the principles of prevention as the highest priority, integrated management of pathways, public-private partnerships, clean and drain principles, and rapid response capabilities.

NEW SECTION. Sec. 102. The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Aquatic conveyance" means transportable personal property having the potential to move an aquatic invasive species from one aquatic environment to another. Aquatic conveyances include but are not limited to watercraft and associated equipment, float planes, construction equipment, fish tanker trucks, hydroelectric and irrigation equipment, personal fishing and hunting gear, and materials used for aquatic habitat mitigation or restoration.

(2) "Aquatic invasive species" means an invasive species of the animal kingdom with a life cycle that is at least partly dependent
upon fresh, brackish, or marine waters. Examples include nutria, waterfowl, amphibians, fish, and shellfish.

(3) "Aquatic plant" means a native or nonnative emergent, submersed, partially submersed, free-floating, or floating-leaved plant species that is dependent upon fresh, brackish, or marine water ecosystems and includes all stages of development and parts.

(4) "Certificate of inspection" means a department-approved document that declares, to the extent technically or measurably possible, that an aquatic conveyance does not carry or contain an invasive species. Certification may be in the form of a decal, label, rubber stamp imprint, tag, permit, locking seal, or written statement.

(5) "Clean and drain" means to remove the following from areas or within an aquatic conveyance to the extent technically and measurably possible:

(a) Visible native and nonnative aquatic animals, plants, or other organisms; and

(b) Raw water.

(6) "Commercial watercraft" means a management category of aquatic conveyances:

(a) Required to have valid marine documentation as a vessel of the United States or similar required documentation for a country other than the United States; and

(b) Not subject to watercraft registration requirements under chapter 88.02 RCW or ballast water requirements under chapter 77.120 RCW.

(7) "Cryptogenic species" means a species that scientists cannot commonly agree are native or nonnative or are part of the animal kingdom.

(8) "Decontaminate" means, to the extent technically and measurably possible, the application of a treatment to kill, destroy, remove, or otherwise eliminate all known or suspected invasive species carried on or contained within an aquatic conveyance or structural property by use of physical, chemical, or other methods. Decontamination treatments may include drying an aquatic conveyance for a time sufficient to kill aquatic invasive species through desiccation.

(9) "Detect" means the verification of invasive species' presence as defined by the department.

(10) "Eradicate" means, to the extent technically and measurably possible, to kill, destroy, remove, or otherwise eliminate an invasive species from a water body or property using physical, chemical, or other methods.

(11) "Infested site management" means management actions as provided under section 109 of this act involving the containment or eradication of an invasive species.

(12) "Introduce" means to intentionally or unintentionally release, place, or allow the escape, dissemination, or establishment of an invasive species or into a water body or property as a result of human activity or a failure to act.

(13) "Invasive species" means nonnative species of the animal kingdom that are not naturally occurring in Washington for purposes of breeding, resting, or foraging, and that pose an invasive risk of harming or threatening the state's environmental, economic, or human resources. Invasive species include all stages of species development and body parts. They may also include genetically modified or cryptogenic species.

(14) "Invasive species council" means the Washington invasive species council established in RCW 79A.25.310 or a similar collaborative state agency forum. The term includes the council and all of its officers, employees, agents, and contractors.

(15) "Mandatory check station" means a location where a person transporting an aquatic conveyance must stop and allow the conveyance to be inspected for aquatic invasive species.

(16) "Possess" means to have authority over the use of an invasive species or use of an aquatic conveyance that may carry or contain an invasive species. For the purposes of this subsection, "authority over" includes the ability to intentionally or unintentionally hold, import, export, transport, purchase, sell, barter, distribute, or propagate an invasive species.

(17) "Prohibited species" means a classification category of nonnative species as provided in section 104 of this act.

(18) "Property" means both real and personal property.

(19) "Quarantine declaration" means a management action as provided under section 107 of this act involving the prohibition or conditioning of the movement of aquatic conveyances and waters from a place or an area that is likely to contain a prohibited species.

(20) "Rapid response" means expedited management actions as provided under section 108 of this act triggered when invasive species are detected, for the time-sensitive purpose of containing or eradicating the species before it spreads or becomes further established.

(21) "Raw water" means water from a water body and held on or within property. "Raw water" does not include water from precipitation that is captured in a conveyance, structure, or depression that is not otherwise intended to function as a water body, or water from a potable water supply system, unless the water contains visible aquatic organisms.

(22) "Regulated species" means a classification category of nonnative species as provided in section 104 of this act.

(23) "Registered watercraft" means a management category of aquatic conveyances required to register as vessels under RCW 88.02.550 or similar requirements for a state other than Washington or a country other than the United States.

(24) "Seaplane" means a management category of aquatic conveyances capable of landing on or taking off from water and required to register as an aircraft under RCW 47.68.250 or similar registration in a state other than Washington or a country other than the United States.

(25) "Small watercraft" means a management category of aquatic conveyances:

(a) Including inflatable and hard-shell watercraft used or capable of being used as a means of transportation on the water, such as kayaks, canoes, sailboats, and rafts that:

(i) Do not meet watercraft registration requirements under chapter 88.02 RCW; and

(ii) Are ten feet or more in length with or without mechanical propulsion or less than ten feet in length and fitted with mechanical propulsion.

(b) Excluding nonmotorized aquatic conveyances of any size not designed or modified to be used as a means of transportation on the water, such as inflatable air mattresses and tubes, beach and water toys, surf boards, and paddle boards.

(26) "Water body" means an area that carries or contains a collection of water, regardless of whether the feature carrying or containing the water is natural or nonnatural. Examples include basins, bays, coves, streams, rivers, springs, lakes, wetlands, reservoirs, ponds, tanks, irrigation canals, and ditches.

NEW SECTION. Sec. 103. (1) The department is the lead agency for managing invasive species of the animal kingdom statewide. This lead responsibility excludes pests, domesticated animals, or livestock managed by the department of agriculture under Titles 15, 16, and 17 RCW, forest invasive insect and disease species managed by the department of natural resources under Title 76 RCW, and mosquito and algae control and shellfish sanitation managed by the department of health under Titles 69, 70, and 90 RCW.

(2) Subject to the availability of funding for these specific purposes, the department may:

(a) Develop and implement integrated invasive species management actions and programs authorized by this chapter,
including rapid response, early detection and monitoring, prevention, containment, control, eradication, and enforcement;

(b) Establish and maintain an invasive species outreach and education program, in coordination with the Washington invasive species council, that covers public, commercial, and professional pathways and interests;

(c) Align management classifications, standards, and enforcement provisions by rule with regional, national, and international standards and enforcement provisions;

(d) Manage invasive species to support the preservation of native species, salmon recovery, and the overall protection of threatened or endangered species;

(e) Participate in local, state, regional, national, and international efforts regarding invasive species to support the intent of this chapter;

(f) Provide technical assistance or other support to tribes, federal agencies, local governments, and private groups to promote an informed public and assist the department in meeting the intent of this chapter;

(g) Research and develop invasive species management tools, including standard methods for decontaminating aquatic conveyances and controlling or eradicating invasive species from water bodies and properties;

(h) Post invasive species signs and information at port districts, privately or publicly owned marinas, state parks, and all boat launches owned or leased by state agencies or political subdivisions; and

(i) Adopt rules as needed to implement the provisions of this chapter.

(3) The department may delegate selected and clearly identified elements of its authorities and duties to another agency of the state with appropriate expertise or administrative capacity upon cooperative agreement with that agency. This delegation may include provisions of funding for implementation of the delegations. The department retains primary authority and responsibility for all requirements of this chapter unless otherwise directed in this chapter.

(4) This chapter does not apply to the possession or introduction of nonnative aquatic animal species by:

(a) Ballast water held or discharged by vessels regulated under chapter 77.120 RCW; or

(b) Private sector aquaculture operations, transfers, or conveyances regulated under chapter 77.115 RCW.

(5) This chapter does not preempt or replace other department species classification systems or other management requirements under this title. However, the department must streamline invasive species requirements under this chapter into existing permits and cooperative agreements as possible.

NEW SECTION. Sec. 104. (1) The department, in consultation with the invasive species council, may classify or reclassify and list by rule nonnative aquatic animal species as prohibited level 1, level 2, or level 3, based on the degree of invasive risk, the type of management action required, and resources available to conduct the management action.

(a) Species classified as prohibited level 1 pose a high invasive risk and are a priority for prevention and expedite rapid response management actions.

(b) Species classified as prohibited level 2 pose a high invasive risk and are a priority for long-term infested site management actions.

(c) Species classified as prohibited level 3 pose a moderate to high invasive risk and may be appropriate for prevention, rapid response, or other prohibited species management plan actions by the department, another agency, a local government, tribes, or the public.

(2) The department, in consultation with the invasive species council, may classify and list by rule regulated type A species. This classification is used for nonnative aquatic animal species that pose a low to moderate invasive risk that can be managed based on intended use or geographic scope of introduction, have a beneficial use, and are a priority for department-led or department-approved management of the species' beneficial use and invasive risks.

(3) Nonnative aquatic animal species not classified as prohibited level 1, level 2, or level 3 under subsection (1) of this section, or as regulated type A species under subsection (2) of this section, are automatically managed statewide as regulated type B species or regulated type C species and do not require listing by rule.

(a) Species managed as regulated type B pose a low or unknown invasive risk and are possessed for personal or commercial purposes, such as for aquaria, live food markets, or as nondomesticated pets.

(b) Species managed as regulated type C pose a low or unknown invasive risk and include all other species that do not meet the criteria for management as a regulated type B invasive species.

(4) Classification of prohibited and regulated species:

(a) May be by individual species or larger taxonomic groups up to the family name;

(b) Must align, as practical and appropriate, with regional and national classification levels;

(c) Must be statewide unless otherwise designated by a water body, property, or other geographic region or area; and

(d) May define general possession and introduction conditions acceptable under department authorization, a permit, or as otherwise provided by rule.

(5) Prior to or at the time of classifying species by rule as prohibited or regulated under subsections (1) and (2) of this section, the department, in consultation with the invasive species council, must adopt rules establishing standards for determining invasive risk levels and criteria for determining beneficial use that take into consideration environmental impacts, and especially effects on the preservation of native species, salmon recovery, and threatened or endangered species.

NEW SECTION. Sec. 105. (1) Until the department adopts rules classifying species pursuant to chapter 77.120 RCW (the new chapter created in section 121 of this act), species and classifications identified in this section are automatically managed as follows:

(a) Zebra mussels (Dreissena polymorpha), quagga mussels (Dreissena rostriformis bugensis), European green crab (Carcinus maenas), and all members of the genus Eriocheir (including Chinese mitten crab), all members of the walking catfish family (Clariidae), all members of the snakehead family (Channidae), largescale silver carp (Hypophthalmichthys molitrix), black carp (Mylopharyngodon piceus), and bighead carp (Hypophthalmichthys nobilis) are prohibited level 1 species statewide;

(b) Prohibited aquatic animal species classified under WAC 220-12-090(1), in effect on July 1, 2014, except those as noted in this subsection are prohibited level 3 species statewide;

(c) Regulated aquatic animal species classified under WAC 220-12-090(2), in effect on July 1, 2014, are regulated type A species statewide; and

(d) Nonnative aquatic animal species classified as game fish under WAC 232-12-019, in effect on July 1, 2014, or food fish under WAC 220-12-010, in effect on July 1, 2014, are regulated type A species statewide.

(2) The department, in consultation with the invasive species council, may change these classifications by rule.

NEW SECTION. Sec. 106. (1) Prohibited level 1, level 2, and level 3 species may not be possessed, introduced on or into a
water body or property, or trafficked, without department authorization, a permit, or as otherwise provided by rule.

(2) Regulated type A, type B, and type C species may not be introduced on or into a water body or property without department authorization, a permit, or as otherwise provided by rule.

(3) Regulated type B species, when being actively used for commercial purposes, must be readily and clearly identified in writing by taxonomic species name or subspecies name to distinguish the subspecies from another prohibited species or a regulated type A species. Nothing in this section precludes using additional descriptive language or trade names to describe regulated type B species as long as the labeling requirements of this section are met.

NEW SECTION. Sec. 107. (1) If the department determines it is necessary to protect the environmental, economic, or human health interests of the state from the threat of a prohibited level 1 or level 2 species, the department may declare a quarantine against a water body, property, or region within the state. The department may prohibit or condition the movement of aquatic conveyances and waters from such a quarantined place or area that are likely to contain a prohibited species.

(2) A quarantine declaration under this section may be implemented separately or in conjunction with rapid response management actions under section 108 of this act and infested site management actions under section 109 of this act in a manner and for a duration necessary to protect the interests of the state from the threat of a prohibited level 1 or level 2 species. A quarantine declaration must include:

(a) The reasons for the action including the prohibited level 1 or level 2 species triggering the quarantine;
(b) The boundaries of the area affected;
(c) The action timeline;
(d) Types of aquatic conveyances and waters affected by the quarantine and any prohibition or conditions on the movement of those aquatic conveyances and waters from the quarantine area; and
(e) Inspection and decontamination requirements for aquatic conveyances.

NEW SECTION. Sec. 108. (1) The department may implement rapid response management actions where a prohibited level 1 species is detected in or on a water body or property. Rapid response management actions may: Include expedited actions to contain, control, or eradicate the prohibited species; and, if applicable, be implemented in conjunction with a quarantine declaration. Rapid response management actions must be terminated by the department when it determines that the targeted prohibited level 1 species are:

(a) Eradicated;
(b) Contained or controlled without need for further management actions;
(c) Reclassified for that water body;
(d) Being managed under infested site management actions pursuant to section 109 of this act.

(2) If a rapid response management action exceeds seven days, the department may implement an incident command system for rapid response management including scope, duration, and types of actions and to support mutual assistance and cooperation between the department and other affected state and federal agencies, tribes, local governments, and private water body or property owners. The purpose of this system is to coordinate a rapid, effective, and efficient response to contain, control, and eradicate if feasible, a prohibited level 1 species. Mutual assistance and coordination by other state agencies is especially important to assist the department in expediting necessary state and federal environmental permits.

(3) The department may enter into cooperative agreements with national, regional, state, and local rapid response management action partners to establish incident command system structures, secure or prepare submission-ready environmental permits, and identify mutual assistance commitments in preparation for potential future actions.

(4) The department may perform simulated rapid response exercises, testing, or other training activities to prepare for future rapid response management actions.

(5) In implementing rapid response management actions, the department may enter upon property consistent with the process established under section 119 of this act.

NEW SECTION. Sec. 109. (1) The department may implement infested site management actions where a prohibited level 2 species is detected in or on a water body or property. Infested site management actions may: Include long-term actions to contain, control, or eradicate the prohibited species; and, if applicable, be implemented in conjunction with a quarantine declaration. Infested site management actions must be terminated by the department when it determines that the targeted prohibited level 2 species are:

(a) Eradicated;
(b) Contained or controlled without need for further management actions; or
(c) Reclassified for that water body.

(2) The department must consult with affected state and federal agencies, tribes, local governments, and private water body or property owners prior to implementing infested site management actions. The purpose of the consultation is to support mutual assistance and cooperation in providing an effective and efficient response to contain, control, and eradicate, if feasible, a prohibited level 2 species.

(3) The department may enter into cooperative agreements with national, regional, state, and local infested site management action partners to establish management responsibilities, secure or prepare submission-ready environmental permits, and identify mutual assistance commitments.

(4) In implementing infested site management actions, the department may enter upon property consistent with the process established under section 119 of this act.

NEW SECTION. Sec. 110. (1) To the extent possible, the department’s quarantine declarations under section 107 of this act, rapid response management actions under section 108 of this act, and infested site management actions under section 109 of this act must be implemented in a manner best suited to contain, control, and eradicate prohibited level 1 and level 2 species while protecting human safety, minimizing adverse environmental impacts to a water body or property, and minimizing adverse economic impacts to owners of an affected water body or property.

(2) The department is the lead agency for quarantine declarations, rapid response, and infested site management actions. Where the infested water body is subject to tribal, federal, or other sovereign jurisdiction, the department:

(a) Must consult with appropriate federal agencies, tribal governments, other states, and Canadian government entities to develop and implement coordinated management actions on affected water bodies under shared jurisdiction;
(b) May assist in infested site management actions where these actions may prevent the spread of prohibited species into state water bodies; and
(c) May assist other states and Canadian government entities, in the Columbia river basin, in management actions on affected water bodies outside of the state where these actions may prevent the spread of the species into state water bodies.

(3)(a) The department must provide notice of quarantine declarations, rapid response, and infested site management actions to owners of an affected water body or property. Notice may be
provided by any reasonable means, such as in person, by United States postal service, by publication in a local newspaper, by electronic publication including social media or postings on the department's public web site, or by posting signs at the water body.

(b) The department must provide updates to owners of an affected water body or property based on management action type as follows:

(i) Every seven days for a rapid response management action and, if applicable, a quarantine declaration implemented in conjunction with a rapid response management action;

(ii) Every six months for a separate quarantine declaration;

(iii) Annually for the duration of an infested site management action and, if applicable, a quarantine declaration implemented in conjunction with an infested site management action; and

(iv) A final update at the conclusion of any management action.

(c) In addition to owners of an affected water body or property, the department must provide notice of a quarantine declaration to members of the public by any reasonable means for an area subject to a quarantine declaration, such as by publication in a local newspaper, by electronic publication including social media or postings on the department's public web site, or by posting signs at the water body. The department must provide updates at reasonable intervals and a final update at the conclusion of the quarantine declaration.

(d) The department must publicly list those water bodies or portions of water bodies in which a prohibited level 1 or level 2 species has been detected. The department may list those areas in which a prohibited level 3 species has been detected.

(e) When posting signs at a water body or property where a prohibited species has been detected, the department must consult with owners of the affected water body or property regarding placement of those signs.

NEW SECTION. Sec. 111. (1) If the director finds that there exists an imminent danger of a prohibited level 1 or level 2 species detection that seriously endangers or threatens the environment, economy, human health, or well-being of the state of Washington, the director must ask the governor to order, under RCW 43.06.010(14), the director may consult with the department's public web site, or by posting signs at the water body. The department must provide updates at reasonable intervals and a final update at the conclusion of the quarantine declaration.

(2) If an emergency is declared pursuant to RCW 43.06.010(14), the director may consult with the invasive species council to advise the governor on emergency measures necessary under RCW 43.06.010(14) and this section, and make subsequent recommendations to the governor. The invasive species council must involve owners of the affected water body or property, state and local government, federal agencies, tribes, public health interests, technical service providers, and environmental organizations, as appropriate.

(3) Upon the governor's approval of emergency measures, the director may implement these measures to prevent, contain, control, or eradicate invasive species that are the subject of the emergency order, notwithstanding the provisions of chapter 15.58 or 17.21 RCW or any other statute. These measures, after evaluation of all other alternatives, may include the surface and aerial application of pesticides.

(4) The director must continually evaluate the effects of the emergency measures and report these to the governor at intervals of not less than ten days. The director must immediately advise the governor if the director finds that the emergency no longer exists or if certain emergency measures should be discontinued.

NEW SECTION. Sec. 112. (1) A person in possession of an aquatic conveyance who enters Washington by road, air, or water is required to have a certificate of inspection. A person must provide this certificate of inspection upon request by a fish and wildlife officer or ex officio fish and wildlife officer.

(2) The department must adopt rules to implement this section including:

(a) Types of aquatic conveyances required to have a certificate of inspection;

(b) Allowable certificate of inspection forms including passport type systems and integration with existing similar permits;

(c) Situations when authorization can be obtained for transporting an aquatic conveyance not meeting inspection requirements to a specified location within the state where certificate of inspection requirements can be provided; and

(d) Situations where aquatic conveyances are using shared boundary waters of the state, such as portions of the Columbia river, lake Osoyoos, and the Puget Sound.

NEW SECTION. Sec. 113. (1) A person in possession of an aquatic conveyance must meet clean and drain requirements after the conveyance's use in or on a water body or property. A certificate of inspection is not needed to meet clean and drain requirements.

(2) A fish and wildlife officer or ex officio fish and wildlife officer may order a person transporting an aquatic conveyance not meeting clean and drain requirements to:

(a) Clean and drain the conveyance at the discovery site, if the department determines there are sufficient resources available; or

(b) Transport the conveyance to a reasonably close location where resources are sufficient to meet the clean and drain requirements.

(3) This section may be enforced immediately on the transportation of aquatic plants by registered watercraft, small watercraft, seaplanes, and commercial watercraft. The department must adopt rules to implement all other aspects of clean and drain requirements, including:

(a) Other types of aquatic conveyances subject to this requirement;

(b) When transport of an aquatic conveyance is authorized if clean and drain services are not readily available at the last water body used; and

(c) Exemptions to clean and drain requirements where the department determines there is minimal risk of spreading invasive species.

NEW SECTION. Sec. 114. (1) The department may establish mandatory check stations to inspect aquatic conveyances for clean and drain requirements and aquatic invasive species. The check stations must be operated by at least one fish and wildlife officer, an ex officio fish and wildlife officer in coordination with the department, or department-authorized representative, and must be plainly marked by signs and operated in a safe manner.

(2) Aquatic conveyances required to stop at mandatory check stations include registered watercraft, commercial watercraft, and small watercraft. The department may establish rules governing other types of aquatic conveyances that must stop at mandatory check stations. The rules must provide sufficient guidance so that a person transporting the aquatic conveyance readily understands that he or she is required to stop.

(3) A person who encounters a mandatory check station while transporting an aquatic conveyance must:

(a) Stop at the mandatory check station;

(b) Allow the aquatic conveyance to be inspected for clean and drain requirements and aquatic invasive species;

(c) Follow clean and drain orders if clean and drain requirements are not met pursuant to section 113 of this act; and
(d) Follow decontamination orders pursuant to section 115 of this act if an aquatic invasive species is found.

(4) A person who complies with the department directives under this section is exempt from criminal penalties under sections 205 and 206 of this act, civil penalties under RCW 77.15.160(4), and civil forfeiture under RCW 77.15.070, unless the person has a prior conviction for an invasive species violation within the past five years.

NEW SECTION. Sec. 115. (1) Upon discovery of an aquatic conveyance that carries or contains an aquatic invasive species without department authorization, a permit, or as otherwise provided by rule, a fish and wildlife officer or ex officio fish and wildlife officer may issue a decontamination order:

(a) Requiring decontamination at the discovery site, if the situation presents a low risk of aquatic invasive species introduction, and sufficient department resources are available at the discovery site;

(b) Prohibiting the launch of the aquatic conveyance in a water body until decontamination is completed and certified, if the situation presents a low risk of aquatic invasive species introduction, and sufficient department resources are not available at the discovery site;

(c) Requiring immediate transport of the conveyance to an approved decontamination station, and prohibiting the launch of the conveyance in a water body until decontamination is completed and certified, if the situation presents a moderate risk of aquatic invasive species introduction, and sufficient department resources are not available at the discovery site; or

(d) Seizing and transporting the aquatic conveyance to an approved decontamination station until decontamination is completed and certified, if the situation presents a high risk of aquatic invasive species introduction, and sufficient department resources are not available at the discovery site.

(2) The person possessing the aquatic conveyance that is subject to orders issued under subsection (1)(b) through (d) of this section must bear any costs for seizure, transportation, or decontamination.

(3) Orders issued under subsection (1)(b) through (d) of this section must be in writing and must include notice of the opportunity for a hearing pursuant to section 116 of this act to determine the validity of the orders.

(4) If a decontamination order is issued under subsection (1)(d) of this section, the department may seize the aquatic conveyance for two working days or a reasonable additional period of time thereafter as needed to meet decontamination requirements. The decontamination period must be based on factors including conveyance size and complexity, type and number of aquatic invasive species present, and decontamination station resource capacity.

(5) If an aquatic conveyance is subject to forfeiture under RCW 77.15.070, the timelines and other provisions under that section apply to the seizure.

(6) Upon decontamination and issuing a certificate of inspection, an aquatic conveyance must be released to the person in possession of the aquatic conveyance at the time the decontamination order was issued, or to the owner of the aquatic conveyance.

NEW SECTION. Sec. 116. (1) A person aggrieved or adversely affected by a quarantine declaration under section 107 of this act, a rapid response management action under section 108 of this act, an infested site management action under section 109 of this act, or a decontamination order under section 115 of this act may contest the validity of the department's actions by requesting a hearing in writing within twenty days of the department's actions.

(2) Hearings must be conducted pursuant to chapter 34.05 RCW and the burden of demonstrating the invalidity of agency action is on the party asserting invalidity. The hearing may be conducted by the director or the director's designee and may occur telephonically.

(3) A hearing on a decontamination order is limited to the issues of whether decontamination was necessary and the reasonableness of costs assessed for any seizure, transportation, and decontamination. If the person in possession of the aquatic conveyance that was decontaminated prevails at the hearing, the person is entitled to reimbursement by the department for any costs assessed by the department for decontamination station operator for the seizure, transportation, and decontamination. If the department prevails at the hearing, the department is not responsible for and may not reimburse any costs.

NEW SECTION. Sec. 117. (1) The department may operate aquatic conveyance inspection and decontamination stations statewide for voluntary use by the public or for mandatory use where directed by the department to meet inspection and decontamination requirements of this chapter. Decontamination stations can be part of or separate from inspection stations. Inspection and decontamination stations are separate from commercial vehicle weigh stations operated by the Washington state patrol.

(2) Inspection station staff must inspect aquatic conveyances to determine whether the conveyances carry or contain aquatic invasive species. If a conveyance is free of aquatic invasive species, then inspection station staff must issue a certificate of inspection. A certificate of inspection is valid until the conveyance's next use in a water body.

(3) If a conveyance carries or contains aquatic invasive species, then inspection station staff must require the conveyance's decontamination before issuing a certificate of inspection. The certificate of inspection is valid until the conveyance's next use in a water body.

(4) The department must identify, in a way that is readily available to the public, the location and contact information for inspection and decontamination stations.

(5) The department must adopt by rule standards for inspection and decontamination that, where practical and appropriate, align with regional, national, and international standards.

NEW SECTION. Sec. 118. (1) The department may authorize representatives to operate its inspection and decontamination stations and mandatory check stations. Department-authorized representatives may be department volunteers, other law enforcement agencies, or independent businesses.

(2) The department must adopt rules governing the types of services that department-authorized representatives may perform under this chapter.

(3) Department-authorized representatives must have official identification, training, and administrative capacity to fulfill their responsibilities under this section.

(4) Within two years of the effective date of this section, the department must provide the legislature with recommendations for a fee schedule that department-authorized representatives may charge users whose aquatic conveyances receive inspection and decontamination services.

NEW SECTION. Sec. 119. (1) The department may enter upon a property or water body at any reasonable time for the purpose of administering this chapter, including inspecting and decontaminating aquatic conveyances, collecting invasive species samples, implementing rapid response management actions or infested site management actions, and containing, controlling, or eradicating invasive species.

(2) Prior to entering the property or water body, the department shall make a reasonable attempt to notify the owner of the property or water body as to the purpose and need for the entry. Should the
department be denied access to any property or water body where access is sought for the purposes set forth in this chapter, the department may apply to any court of competent jurisdiction for a warrant authorizing access to the property.

(3) Upon such an application, the court may issue the warrant for the purposes requested where the court finds reasonable cause to believe it is necessary to achieve the purposes of this chapter.

NEW SECTION. Sec. 120. The provisions of this chapter must be liberally construed to carry out the intent of the legislature.

NEW SECTION. Sec. 121. Sections 102 through 104 and 106 through 120 of this act constitute a new chapter in Title 77 RCW.

PART 2

INVASIVE SPECIES—ENFORCEMENT

NEW SECTION. Sec. 201. A new section is added to chapter 77.15 RCW to read as follows:

(1) Based upon reasonable suspicion that a person possesses an aquatic conveyance that has not been cleaned and drained or carries or contains aquatic invasive species in violation of this title, fish and wildlife officers or ex officio fish and wildlife officers may temporarily stop the person and inspect the aquatic conveyance for compliance with the requirements of this title.

(2) Unless the context clearly requires otherwise, the definitions in both RCW 77.08.010 and section 102 of this act apply throughout this section.

NEW SECTION. Sec. 202. A new section is added to chapter 77.15 RCW to read as follows:

(1) Upon a showing of probable cause that there has been a violation of an invasive species law of the state of Washington, or upon a showing of probable cause to believe that evidence of such a violation may be found at a place, a court must issue a search warrant or arrest warrant. Fish and wildlife officers or ex officio fish and wildlife officers may execute any such search or arrest warrant reasonably necessary to carry out their duties under this title with regard to an invasive species law and may seize invasive species or any evidence of a crime and the fruits or instrumentalities of a crime as provided by warrant. PERSONAL PRIVILEGE

Senator Hobbs: “Mr. President, I just want to notify this body that a great committee coordinator, Alison Mendiola received a job with Seattle Light. So she’ll be leaving us and I just want to let her know because I know she is listening in and she has been a great public servant to this Legislature and she will be sorely missed. I for one wish her well. I wish she would stay here but I understand that it’s a long drive for her and it’s better opportunities for her with Seattle City Light. If you don’t mind Mr. President, if I could just ask the body to give a round of applause to her? I know she’s listening right now. Thank you Alison for everything you’ve done for the Senate.”

PERSONAL PRIVILEGE

Senator Baumgartner: “I just want to let everybody know that I saw Senator Pridemore outside. I haven’t seen him since he left the body. I thought Craig was a good guy and hope people take the chance to go say hello to him. Oh, today is his birthday, so Happy Birthday Senator Pridemore.”

PERSONAL PRIVILEGE
Senator Benton: “Thank you Mr. President. I too want to echo my colleague, Senator Hobbs’ comment. Alison came as a session only help one year and she was so outstanding that I went down and saw the then Secretary of the Senate, Tom Hoemann. I said, ‘My goodness we’ve got to find a permanent position for this lady. She is really good.’ And we were fortunate enough to get her on staff. She has been tremendous, both sides of the aisle, everybody knows that who has worked with her knows how diligent she is and I got the news with mixed emotions. I was devastated and thrilled. Thrilled for her, devastated for all us because that kind of dedication and talent is hard to find. We’re very lucky that we were able to keep her as long as we did. I knew that she would eventually find a better opportunity and move forward in her career but I just want to say Mr. President it will be a great loss to the Senate. We wish Alison the very best in all of her future endeavors. Thank you Mr. President.”

Senator Angel: “Thank you Mr. President. I just want to add my two cents on with Alison. She has been amazing and Alison I know you’re watching, those emails when I would shoot through on a Sunday and you would instantly reply, you are a rock star. I just wish you the very best and blessings in your new position. You will be sadly missed. Thank you Mr. President.”

PERSONAL PRIVILEGE

Senator Kline: “Just want you to know that Alison is a graduate of the University of Maryland Law School. Thank you. Go Terps!”

MESSAGE FROM THE HOUSE

March 12, 2014

MR. PRESIDENT:
The House passed ENGROSSED SECOND SUBSTITUTE SENATE BILL NO. 6552 with the following amendment(s): 6552-S2.E AMH ENGR H4469.E

Strike everything after the enacting clause and insert the following:

“NEW SECTION. Sec. 1. The legislature recognizes that preparing students to be successful in postsecondary education, gainful employment, and citizenship requires increased rigor and achievement, including attaining a meaningful high school diploma with the opportunity to earn twenty-four credits. The legislature finds that an investment was made in the 2013-2015 omnibus appropriations act to implement an increase in instructional hours in the 2014-2015 school year. School districts informed the legislature that the funding as provided in the 2013-2015 omnibus appropriations act would result in only a few minutes being added onto each class period and would not result in a meaningful increase in instruction that would have the positive impact on student learning that the legislature expects. The school districts suggested that it would be a better educational policy to use the funds to implement the requirement of twenty-four credits for high school graduation, which will result in a meaningful increase of instructional hours. Based on input from school districts across the state, the legislature recognizes the need to provide flexibility for school districts to implement the increase in instructional hours while still moving towards an increase in the high school graduation requirements. Therefore, the legislature intends to shift the focus and intent of the investments from compliance with the minimum instructional hours offering to assisting school districts to provide an opportunity for students to earn twenty-four credits for high school graduation and obtain a meaningful diploma, beginning with the graduating class of 2019, with the opportunity for school districts to request a waiver for up to two years.

PART I

CAREER AND TECHNICAL EQUIVALENCIES

Sec. 101. RCW 28A.700.070 and 2008 c 170 s 201 are each amended to read as follows:

(1) The office of the superintendent of public instruction shall support school district efforts under RCW 28A.230.097 to adopt course equivalencies for career and technical courses by:

(a) Recommending career and technical curriculum suitable for course equivalencies;

(b) Publicizing best practices for high schools and school districts in developing and adopting course equivalencies; and

(c) In consultation with the Washington association for career and technical education, providing professional development, technical assistance, and guidance for school districts seeking to expand their lists of equivalent courses.

(2) The office of the superintendent of public instruction shall provide professional development, technical assistance, and guidance for school districts to develop career and technical course equivalencies that also qualify as advanced placement courses.

(3) The office of the superintendent of public instruction, in consultation with one or more technical working groups convened for this purpose, shall develop curriculum frameworks for a selected list of career and technical courses that may be offered by high schools or school districts whose content in science, technology, engineering, and mathematics is considered equivalent in full or in part to science or mathematics courses that meet high school graduation requirements. The content of the courses must be aligned with state essential academic learning requirements in mathematics as adopted by the superintendent of public instruction in July 2011 and the essential academic learning requirements in science as adopted in October 2013, and industry standards. The office shall submit the list of equivalent career and technical courses and their curriculum frameworks to the state board of education for review, an opportunity for public comment, and approval. The first list of courses under this subsection must be developed and approved before the 2015-16 school year. Thereafter, the office may periodically update or revise the list of courses using the process in this subsection.

(4) Subject to funds appropriated for this purpose, the office of the superintendent of public instruction shall allocate grant funds to school districts to increase the integration and rigor of academic instruction in career and technical courses. Grant recipients are encouraged to use grant funds to support teams of academic and technical teachers using a research-based professional development model supported by the national research center for career and technical education. The office of the superintendent of public instruction may require that grant recipients provide matching resources using federal Carl Perkins funds or other fund sources.

Sec. 102. RCW 28A.230.097 and 2013 c 241 s 2 are each amended to read as follows:

(1) Each high school or school district board of directors shall adopt course equivalencies for career and technical high school courses offered to students in high schools and skill centers. A career and technical course equivalency may be for whole or partial credit. Each school district board of directors shall develop a course equivalency approval procedure. Boards of directors must approve AP computer science courses as equivalent to high school mathematics or science, and must denote on a student’s transcript that AP computer science qualifies as a math-based quantitative course for students who take the course in their senior year. In
order for a board to approve AP computer science as equivalent to high school mathematics, the student must be concurrently enrolled in or have successfully completed algebra II. Beginning no later than the 2015-16 school year, a school district board of directors must, at a minimum, grant academic course equivalency in mathematics or science for a high school career and technical course from the list of courses approved by the state board of education under RCW 28A.700.070, but is not limited to the courses on the list. If the list of courses is revised after the 2015-16 school year, the school district board of directors must grant academic course equivalency based on the revised list beginning with the school year immediately following the revision.

(2) Career and technical courses determined to be equivalent to academic core courses, in full or in part, by the high school or school district shall be accepted as meeting core requirements, including graduation requirements, if the courses are recorded on the student’s transcript using the equivalent academic high school department designation and title. Full or partial credit shall be recorded as appropriate. The high school or school district shall also issue and keep record of course completion certificates that demonstrate that the career and technical courses were successfully completed as needed for industry certification, college credit, or preapprenticeship, as applicable. The certificate shall be either part of the student’s high school and beyond plan or the student’s culminating project, as determined by the student. The office of the superintendent of public instruction shall develop and make available electronic samples of certificates of course completion.

SEC. 103. RCW 28A.230.010 and 2003 c 49 s 1 are each amended to read as follows:

(1) School district boards of directors shall identify and offer courses with content that meet or exceed: (((4))) (a) The basic education skills identified in RCW 28A.150.210; (((5))) (b) the graduation requirements under RCW 28A.230.090; (((6))) (c) the courses required to meet the minimum college entrance requirements under RCW 28A.230.130; and (((7))) (d) the course options for career development under RCW 28A.230.130. Such courses may be applied or theoretical, academic, or vocational.

(2) School district boards of directors must provide high school students with the opportunity to access at least one career and technical education course that is considered equivalent to a mathematics course or at least one career and technical education course that is considered equivalent to a science course as determined by the office of the superintendent of public instruction and the state board of education in RCW 28A.700.070. Students may access such courses at high schools, interdistrict cooperatives, skill centers or branch or satellite skill centers, or through online learning or applicable running start vocational courses.

(3) School district boards of directors of school districts with fewer than two thousand students may apply to the state board of education for a waiver from the provisions of subsection (2) of this section.

NEW SECTION. Sec. 104. A new section is added to chapter 28A.305 RCW to read as follows:

The program established under this section shall be the minimum instructional program of basic education offered by school districts.

(2) Each school district shall make available to students the following minimum instructional offering each school year:

(a) For students enrolled in grades one through twelve, at least a district-wide annual average of one thousand hours, which shall be increased beginning in the 2015-16 school year to at least one thousand eighty instructional hours for students enrolled in ((each of)) grades nine through twelve and at least one thousand instructional hours for students in ((each of)) grades one through six according to an implementation schedule adopted by the legislature, but not before the 2014-15 school year) eight, all of which may be calculated by a school district using a district-wide annual average of instructional hours over grades one through twelve; and

(b) For students enrolled in kindergarten, at least four hundred fifty instructional hours, which shall be increased to at least one thousand instructional hours according to the implementation schedule under RCW 28A.150.315.

(3) The instructional program of basic education provided by each school district shall include:

(a) Instruction in the essential academic learning requirements under RCW 28A.655.070;

(b) Instruction that provides students the opportunity to complete twenty-four credits for high school graduation, (subject to a phased-in implementation of the twenty-four credits established by the legislature) beginning with the graduating class of 2019 or as otherwise provided in RCW 28A.230.090. Course distribution requirements may be established by the state board of education under RCW 28A.230.090;

(c) If the essential academic learning requirements include a requirement of languages other than English, the requirement may be met by students receiving instruction in one or more American Indian languages;

(d) Supplemental instruction and services for underachieving students through the learning assistance program under RCW 28A.165.005 through 28A.165.065;

(e) Supplemental instruction and services for eligible and enrolled students and exited students whose primary language is other than English through the transitional bilingual instruction program under RCW 28A.180.010 through 28A.180.080;

(f) The opportunity for an appropriate education at public expense as defined by RCW 28A.155.020 for all eligible students with disabilities as defined in RCW 28A.155.020; and

(g) Programs for highly capable students under RCW 28A.185.010 through 28A.185.030.

(4) Nothing contained in this section shall be construed to require individual students to attend school for any particular number of hours per day or to take any particular courses.

(5)(a) Each school district’s kindergarten through twelfth grade basic educational program shall be accessible to all students who are five years of age, as provided by RCW 28A.225.160, and less than twenty-one years of age and shall consist of a minimum of one hundred eighty school days per school year in such grades as are conducted by a school district, and one hundred eighty half-days of instruction, or equivalent, in kindergarten, to be increased to a minimum of one hundred eighty school days per school year according to the implementation schedule under RCW 28A.150.315.

(b) Schools administering the Washington kindergarten inventory of developing skills may use up to three school days at the beginning of the school year to meet with parents and families as
required in the parent involvement component of the inventory.

(c) In the case of students who are graduating from high school, a school district may schedule the last five school days of the one hundred (100) eighty day school year for noninstructional purposes (in the case of students who are graduating from high school) including, but not limited to, the observance of graduation and early release from school upon the request of a student((, and)). All such students may be claimed as a full-time equivalent student to the extent they could otherwise have been so claimed for the purposes of RCW 28A.150.250 and 28A.150.260. Any hours scheduled by a school district for noninstructional purposes during the last five school days for such students shall count toward the instructional hours requirement in subsection (2)(a) of this section.

(6) Nothing in this section precludes a school district from enriching the instructional program of basic education, such as offering additional instruction or providing additional services, programs, or activities that the school district determines to be appropriate for the education of the school district’s students.

(7) The state board of education shall adopt rules to implement and ensure compliance with the program requirements imposed by this section, RCW 28A.150.250 and 28A.150.260, and related supplemental program approval requirements as the state board may establish.

Sec. 202. RCW 28A.230.090 and 2011 c 203 s 2 are each amended to read as follows:

(1) The state board of education shall establish high school graduation requirements or equivalencies for students, except as provided in RCW 28A.230.122 and except those equivalencies established by local high schools or school districts under RCW 28A.230.097. The purpose of a high school diploma is to declare that a student is ready for success in postsecondary education, gainful employment, and citizenship, and is equipped with the skills to be a lifelong learner.

(a) Any course in Washington state history and government used to fulfill high school graduation requirements shall consider including information on the culture, history, and government of the American Indian peoples who were the first inhabitants of the state.

(b) The certificate of academic achievement requirements under RCW 28A.655.061 or the certificate of individual achievement requirements under RCW 28A.155.045 are required for graduation from a public high school but are not the only requirements for graduation.

(c) Any decision on whether a student has met the state board’s high school graduation requirements for a high school and beyond plan shall remain at the local level. Effective with the graduating class of 2015, the state board of education may not establish a requirement for students to complete a culminating project for graduation.

(d)(i) The state board of education shall adopt rules to implement the career and college ready graduation requirement proposal adopted under board resolution on November 10, 2010, and revised on January 9, 2014, to take effect beginning with the graduating class of 2019 or as otherwise provided in this subsection (1)(d). The rules must include authorization for a school district to waive up to two credits for individual students based on unusual circumstances and in accordance with written policies that must be adopted by each board of directors of a school district that grants diplomas. The rules must also provide that the content of the third credit of mathematics and the content of the third credit of science may be chosen by the student based on the student’s interests and high school and beyond plan with agreement of the student’s parent or guardian or agreement of the school counselor or principal.

(ii) School districts may apply to the state board of education for a waiver to implement the career and college ready graduation requirement proposal beginning with the graduating class of 2020 or 2021 instead of the graduating class of 2019. In the application, a school district must describe why the waiver is being requested, the specific impediments preventing timely implementation, and efforts that will be taken to achieve implementation with the graduating class proposed under the waiver. The state board of education shall grant a waiver under this subsection (1)(d) to an applying school district at the next subsequent meeting of the board after receiving an application.

(2)(a) In recognition of the statutory authority of the state board of education to establish and enforce minimum high school graduation requirements, the state board shall periodically reevaluate the graduation requirements and shall report such findings to the legislature in a timely manner as determined by the state board.

(b) The state board shall reevaluate the graduation requirements for students enrolled in vocationally intensive and rigorous career and technical education programs, particularly those programs that lead to a certificate or credential that is state or nationally recognized. The purpose of the evaluation is to ensure that students enrolled in these programs have sufficient opportunity to earn a certificate of academic achievement, complete the program and earn the program’s certificate or credential, and complete other state and local graduation requirements.

(c) The state board shall forward any proposed changes to the high school graduation requirements to the education committees of the legislature for review and to the quality education council established under RCW 28A.290.010. The legislature shall have the opportunity to act during a regular legislative session before the changes are adopted through administrative rule by the state board. Changes that have a fiscal impact on school districts, as identified by a fiscal analysis prepared by the office of the superintendent of public instruction, shall take effect only if formally authorized and funded by the legislature through the omnibus appropriations act or other enacted legislation.

(3) Pursuant to any requirement for instruction in languages other than English established by the state board of education or a local school district, or both, for purposes of high school graduation, students who receive instruction in American sign language or one or more American Indian languages shall be considered to have satisfied the state or local school district graduation requirement for instruction in one or more languages other than English.

(4) If requested by the student and his or her family, a student who has completed high school courses before attending high school shall be given high school credit which shall be applied to fulfilling high school graduation requirements if:

(a) The course was taken with high school students, if the academic level of the course exceeds the requirements for seventh and eighth grade classes, and the student has successfully passed by completing the same course requirements and examinations as the high school students enrolled in the class; or

(b) The academic level of the course exceeds the requirements for seventh and eighth grade classes and the course would qualify for high school credit, because the course is similar or equivalent to a course offered at a high school in the district as determined by the school district board of directors.

(5) Students who have taken and successfully completed high school courses under the circumstances in subsection (4) of this section shall not be required to take an additional competency examination or perform any other additional assignment to receive credit.

(6) At the college or university level, five quarter or three semester hours equals one high school credit.

NEW SECTION. Sec. 203. The Washington state school directors’ association shall adopt a model policy and procedure that
school districts may use for granting waivers to individual students of up to two credits required for high school graduation based on unusual circumstances. The purpose of the model policy and procedure is to assist school districts in providing all students the opportunity to complete graduation requirements without discrimination and without disparate impact on groups of students. The model policy must take into consideration the unique limitations of a student that may be associated with such circumstances as homelessness, limited English proficiency, medical conditions that impair a student's opportunity to learn, or disabilities, regardless of whether the student has an individualized education program or a plan under section 504 of the federal rehabilitation act of 1973. The model policy must also address waivers if the student has not been provided with an opportunity to retake classes or enroll in remedial classes free of charge during the first four years of high school. The Washington state school directors' association must distribute the model policy and procedure to all school districts in the state that grant high school diplomas by June 30, 2015.

Sec. 204. RCW 28A.230.097 and 2013 c 241 s 2 are each amended to read as follows:

(1) Each high school or school district board of directors shall adopt course equivalencies for career and technical high school courses offered to students in high schools and skill centers. A career and technical course equivalency may be for whole or partial credit. Each school district board of directors shall develop a course equivalency approval procedure. Boards of directors must approve AP computer science courses as equivalent to high school mathematics or science, and must denote on a student's transcript that AP computer science qualifies as a math-based quantitative course for students who take the course in their senior year. In order for a board to approve AP computer science as equivalent to high school mathematics, the student must be concurrently enrolled in or have successfully completed algebra II.

(2) Career and technical courses determined to be equivalent to academic core courses, in full or in part, by the high school or school district shall be accepted as meeting core requirements, including graduation requirements, if the courses are recorded on the student's transcript using the equivalent academic high school department designation and title. Full or partial credit shall be recorded as appropriate. The high school or school district shall also issue and keep record of course completion certificates that demonstrate that the career and technical courses were successfully completed as needed for industry certification, college credit, or preapprenticeship, as applicable. The certificate shall be either part of the student's high school and beyond plan (for the student's culminating project as determined by the student). The office of the superintendent of public instruction shall develop and make available electronic samples of certificates of course completion.

Sec. 205. RCW 28A.320.240 and 2006 c 263 s 914 are each amended to read as follows:

(1) The purpose of this section is to identify quality criteria for school library media programs that support the student learning goals under RCW 28A.150.210, the essential academic learning requirements under RCW 28A.655.070, and high school graduation requirements adopted under RCW 28A.230.090.

(2) Every board of directors shall provide for the operation and stocking of such libraries as the board deems necessary for the proper education of the district's students or as otherwise required by law or rule of the superintendent of public instruction.

(3) "Teacher-librarian" means a certified teacher with a library media endorsement under rules adopted by the professional educator standards board.

(4) "School-library media program" means a school-based program that is staffed by a certificated teacher-librarian and provides a variety of resources that support student mastery of the essential academic learning requirements in all subject areas and the implementation of the district's school improvement plan.

(5) The teacher-librarian, through the school-library media program, shall collaborate as an instructional partner to help all students meet the content goals in all subject areas, and assist high school students completing ((the culminating project and)) high school and beyond plans required for graduation.

Sec. 206. RCW 28A.150.260 and 2011 1st sp.s. c 27 s 2 are each amended to read as follows:

The purpose of this section is to provide for the allocation of state funding that the legislature deems necessary to support school districts in offering the minimum instructional program of basic education under RCW 28A.150.220. The allocation shall be determined as follows:

(1) The governor shall and the superintendent of public instruction may recommend to the legislature a formula for the distribution of a basic education instructional allocation for each common school district.

(2) The distribution formula under this section shall be for allocation purposes only. Except as may be required under chapter 28A.155, 28A.165, 28A.180, or 28A.185 RCW, or federal laws and regulations, nothing in this section requires school districts to use basic education instructional funds to implement a particular instructional approach or service. Nothing in this section requires school districts to maintain a particular classroom teacher-to-student ratio or other staff-to-student ratio or to use allocated funds to pay for particular types or classifications of staff. Nothing in this section entitles an individual teacher to a particular teacher planning period.

(3)(a) To the extent the technical details of the formula have been adopted by the legislature and except when specifically provided as a school district allocation, the distribution formula for the basic education instructional allocation shall be based on minimum staffing and nonstaff costs the legislature deems necessary to support instruction and operations in prototypical schools serving high, middle, and elementary school students as provided in this section. The use of prototypical schools for the distribution formula does not constitute legislative intent that schools should be operated or structured in a similar fashion as the prototypes. Prototypical schools illustrate the level of resources needed to operate a school of a particular size with particular types and grade levels of students using commonly understood terms and inputs, such as class size, hours of instruction, and various categories of school staff. It is the intent that the funding allocations to school districts be adjusted from the school prototypes based on the actual number of average full-time equivalent students in each grade level at each school in the district and not based on the grade-level configuration of the school to the extent that data is available. The allocations shall be further adjusted from the school prototypes with minimum allocations for small schools and to reflect other factors identified in the omnibus appropriations act.

(b) For the purposes of this section, prototypical schools are defined as follows:

(i) A prototypical high school has six hundred average full-time equivalent students in grades nine through twelve;

(ii) A prototypical middle school has four hundred thirty-two average annual full-time equivalent students in grades seven and eight; and

(iii) A prototypical elementary school has four hundred average annual full-time equivalent students in grades kindergarten through six.

(4)(a)(i) The minimum allocation for each level of prototypical school shall be based on the number of full-time equivalent classroom teachers needed to provide instruction over the minimum required annual instructional hours under RCW 28A.150.220 and
provide at least one teacher planning period per school day, and
based on the following general education average class size of
full-time equivalent students per teacher:

General education
average class size
Grades K-3................................................. 25.23
Grade 4 .................................................. 27.00
Grades 5-6................................................ 27.00
Grades 7-8............................................. 28.53
Grades 9-12........................................... 28.74

(ii) The minimum class size allocation for each prototypical
high school shall also provide for enhanced funding for class size
reduction for two laboratory science classes within grades nine
through twelve per full-time equivalent high school student
multiplied by a laboratory science course factor of 0.0833, based on
the number of full-time equivalent classroom teachers needed to
provide instruction over the minimum required annual instructional
hours in RCW 28A.150.220, and providing at least one teacher
planning period per school day:

Laboratory science
average class size
Grades 9-12...............................................19.98
(b) During the 2011-2013 biennium and beginning with schools
with the highest percentage of students eligible for free and
reduced-price meals in the prior school year, the general education
average class size for grades K-3 shall be reduced until the average

class size funded under this subsection (4) is no more than 17.0
full-time equivalent students per teacher beginning in the 2017-18
school year.

(c) The minimum allocation for each prototypical middle and
high school shall also provide for full-time equivalent classroom
teachers based on the following number of full-time equivalent
students per teacher in career and technical education:

Career and technical
education average
class size
Approved career and technical education offered at
the middle school and high school level......................26.57
Skill center programs meeting the standards established
by the office of the superintendent of public
instruction..................................................22.76

(d) In addition, the omnibus appropriations act shall at a
minimum specify:

(i) A high-poverty average class size in schools where more
than fifty percent of the students are eligible for free and
reduced-price meals; and

(ii) A specialty average class size for ((laboratory science))
advanced placement((i)) and international baccalaureate courses.

(5) The minimum allocation for each level of prototypical
school shall include allocations for the following types of staff in
addition to classroom teachers:

(9) In addition to the amounts provided in subsection (8) of this section, the omnibus appropriations act shall provide an amount based on full-time equivalent student enrollment in each of the following:

(a) Exploratory career and technical education courses for students in grades seven through twelve;

(b) (Laboratory science courses for students in grades nine through twelve;

(c) Preparatory career and technical education courses for students in grades nine through twelve offered in a high school; and

(d) Preparatory career and technical education courses for students in grades eleven and twelve offered through a skill center.

(10) In addition to the allocations otherwise provided under this section, amounts shall be provided to support the following programs and services:

(a) To provide supplemental instruction and services for underachieving students through the learning assistance program under RCW 28A.165.005 through 28A.165.065, allocations shall be based on the district percentage of students in grades K-12 who were eligible for free or reduced-price meals in the prior school year. The minimum allocation for the program shall provide for each level of prototypical school resources to provide, on a statewide average, 1,5156 hours per week in extra instruction with a class size of fifteen learning assistance program students per teacher.

(b) To provide supplemental instruction and services for students whose primary language is other than English, allocations shall be based on the head count number of students in each school who are eligible for and enrolled in the transitional bilingual instruction program under RCW 28A.180.010 through 28A.180.080. The minimum allocation for each level of prototypical school shall provide resources to provide, on a statewide average, 4,7780 hours per week in extra instruction with fifteen transitional bilingual instruction program students per teacher. Notwithstanding other provisions of this subsection (10), the actual per-student allocation may be scaled to provide a larger allocation for students needing more intensive intervention and a commensurate reduced allocation for students needing less intensive intervention, as detailed in the omnibus appropriations act.

(c) To provide additional allocations to support programs for highly capable students under RCW 28A.185.010 through 28A.185.030, allocations shall be based on two and three hundred fourteen one-thousandths percent of each school district's full-time equivalent basic education enrollment. The minimum allocation for the programs shall provide resources to provide, on a statewide average, 2,1590 hours per week in extra instruction with fifteen highly capable program students per teacher.

(11) The allocations under subsections (4)(a) and (b), (5), (6), and (8) of this section shall be enhanced as provided under RCW 28A.150.390 on an excess cost basis to provide supplemental instructional resources for students with disabilities.

(12)(a) For the purposes of allocations for prototypical high schools and middle schools under subsections (4) and (10) of this section that are based on the percent of students in the school who are eligible for free and reduced-price meals, the actual percent of such students in a school shall be adjusted by a factor identified in the omnibus appropriations act to reflect underreporting of free and reduced-price meal eligibility among middle and high school students.

(b) Allocations or enhancements provided under subsections (4), (7), and (9) of this section for exploratory and preparatory career and technical education courses shall be provided only for courses approved by the office of the superintendent of public instruction under chapter 28A.700 RCW.

(13)(a) This formula for distribution of basic education funds shall be reviewed biennially by the superintendent and governor. The recommended formula shall be subject to approval, amendment or rejection by the legislature.

(b) In the event the legislature rejects the distribution formula recommended by the governor, without adopting a new distribution formula, the distribution formula for the previous school year shall remain in effect.

(c) The enrollment of any district shall be the annual average number of full-time equivalent students and part-time students as provided in RCW 28A.150.350, enrolled on the first school day of each month, including students who are in attendance pursuant to RCW 28A.335.160 and 28A.225.250 who do not reside within the servicing school district. The definition of full-time equivalent student shall be determined by rules of the superintendent of public instruction and shall be included as part of the superintendent's biennial budget request. The definition shall be based on the minimum instructional hour offerings required under RCW 28A.150.220. Any revision of the present definition shall not take effect until approved by the house ways and means committee and the senate ways and means committee.
NEW SECTION. A new section is added to chapter 43.06B RCW to read as follows:

(1) The office of the education ombuds shall convene a task force on success for students with special needs:

(a) Define and assess barriers that students with special needs face in earning a high school diploma and fully accessing the educational program provided by the public schools, including but not limited to students with disabilities, dyslexia, and other physical or emotional conditions for which students do not have an individualized education program or section 504 plan but that create limitations to their ability to succeed in school;

(b) Outline recommendations for systemic changes to address barriers identified and successful models for the delivery of education and supportive services for students with special needs;

(c) Recommend steps for coordination of delivery of early learning through postsecondary education and career preparation for students with special needs through ongoing efforts of various state and local education and workforce agencies, including strategies for earlier assessment and identification of disabilities or barriers to learning in early learning programs and in kindergarten through third grade; and

(d) Identify options for state assistance to help school districts develop course equivalencies for competency-based education or similar systems of personalized learning where students master specific knowledge and skills at their own pace.

(2) The task force shall be composed of at least the following members:

(a) One representative each from the office of the superintendent of public instruction, the workforce training and education coordinating board, the Washington state school directors' association, a statewide organization representing teachers and other certificated instructional staff, the student achievement council, the state board of education, the department of early learning, the educational opportunity gap oversight and accountability committee, a nonprofit organization providing professional development and resources for educators and parents regarding dyslexia, a nonprofit organization of special education parents and teachers, and the Washington association for career and technical education, each to be selected by the appropriate agency or organization; and

(b) At least one faculty member from a public institution of higher education, at least one special education teacher, at least one general education teacher, and at least three parent representatives from special needs families, each to be appointed by the education ombuds.

MOTION

At 12:35 p.m., on motion of Senator Fain, the Senate was declared to be at ease subject to the call of the President.

The Senate was called to order at 3:25 p.m. by President Owen.

REMARKS BY THE PRESIDENT

President Owen: “Thank you and I don’t want to delay things but it looks like nothing happening. Well things are happening, I don’t mean that. I mean that we can do this. I have served a long time here with a number of very, very good Readers and some that they sounded great and others that didn’t last all that long. I have never served with a reader that has not only been as competent as Ken but as knowledgeable of the process as this gentleman has for us for years. I don’t know if you know but Ken is a retired history teacher. Married to Barbara. He lives in Puyallup. It’s his thirteenth regular session. He was security staff in his first session in 2002. In 2003 to 2006 he was security and back up Reader for four years and, to our great pleasure, you know he has served from 2007-2014 as not only as security but our Reader so for eight years. Now I understand to our chagrin that he is looking at retirement. Now I, so the Secretary has mentioned that he will continue his relentless, the Secretary of the Senate will continue his relentless pursuit of persuading Ken to return for one more session. However, however, should we fail in this pursuit and he does something like retiring and having fun and being able to go somewhere in January, February, March and April of the year, then the President sincerely wants to wish him the absolute best retirement and give him the most sincere and expression of appreciation for an incredible job. Well done. Thank you Ken.”

PERSONAL PRIVILEGE

Senator Hargrove: “Well, I want to say a few about Ken too. So, a couple of things, first of all not only is he excellent at what he does but his inflection and his voice quality really makes our resolutions sound good. When he read the Seahawks resolution it was really, really good. I do have to bring up one time when he was going on and on and the President was not paying attention and I said ‘Last line’ and he stopped. So, I got you once Ken. We hope you come back.”

PERSONAL PRIVILEGE

Senator Pedersen: “Well, I will just add that although I’ve been in this chamber for only two months I have known Ken for probably about forty years, which may seem astounding to many of you, but I had the great pleasure of growing up at Mountain View Lutheran Church with Ken and his family. And his daughter Kari was in my sister’s Kari’s class all through school. Ken, it has been an incredible joy these last few years to be able to serve with you and have the pleasure of your company and I will certainly miss you.”

PERSONAL PRIVILEGE

Senator Hewitt: “Thank you Mr. President. Ken, I also want to say congratulations. It’s been wonderful knowing you the last fourteen years. You’re a wonderful person. What I really want to bring back, and Senator Hargrove is not on the floor unfortunately. I want you to remind him of the night he made you go, read third reading to sit there and go on and on and on and that was Senator Hargrove’s motion. Thank you Mr. President.”
PERSONAL PRIVILEGE

Senator Baumgartner: “I just want to point out, it’s just more than people in this fine body that Ken’s good work has touched. You know, my father retired now, is an avid watcher of TVW and what we do out here. I just remember off hand him saying, ‘Boy, that guy looks like a class act.’ So, people over in even in Pullman and Spokane Washington are paying attention, thinking you’re doing a great job as well.”

PERSONAL PRIVILEGE

Senator Dammeier: “So, I would like to echo Senator Pedersen’s comments. Ken is a legend back in our community for what he did there before he came down here and then what he’s done since he’s come down here. I’m not exactly sure how many other Puyallup people he has recruited into service in Olympia but there’s been a few. I’ll tell you for me since my service in the other chamber and here I just, when you walk in early in the morning and there’s Ken standing in the intersection in Cherberg and he greets you with that great ‘Good morning,’ it gets your day off to a great start. That’s even beyond the fantastic job he does here in this chamber. So, Ken, thank you very much for all your support for us and the citizens of Puyallup.”

PERSONAL PRIVILEGE

Senator Benton: “Thank you Mr. President. Ken, I want to apologize to you. I have made you read my name more than anybody else’s name on the floor of the Senate because I am the most likely not answer the first time you call. That’s been going on, I think the President can verify that with some awards he’s given out in the past but the fact is I’ve been here twenty years and you normally have to call my name at least twice. I apologize for that. I’m not sure that I’m going to be able, my ear has been trained to your voice. So, whether I am speaking with constituents in the wings or working even outside with one of the lobbyists and I hear your voice and I hear my name I know I’ve got to get in there and vote. So, I’m going to have to completely retrain my hearing if you’re not going to be here calling the names on the roll. I very much appreciated the opportunity to serve with you. I echo Senator Dammeier’s comments that in addition to your job here when we’re actually in session you have been a bright and cheery face that greets us in the morning when we come to work and often times you’re here too when we leave. I just tell you it’s going to be kind of weird getting used to this place without you sir. I will miss you.”

PERSONAL PRIVILEGE

Senator Becker: “Thank you Mr. President. Ken, don’t leave! I remember my first day I walked in the intersection as Senator Dammeier referred to and Ken said, ‘Good morning Senator’ and I turned around and I had to realize that was what my title was at that time and when I’d miss a vote and he looked at me and I realized that I was supposed to vote. You have been an amazing person here and I know from my perspective you sure made me feel welcome and sure made me feel like a part of this institution. Just for that I thank you but for the fact that everybody has talked about your voice. I told my husband about your voice and he told me to quit talking about you in that way, manner. So, I hope you decide to stay one more year but if you decide to retire I wish you the very best.”

REMARKS BY THE PRESIDENT

President Owen: “So, the President had not called us back to order but I did want to get that out of the way so you can continue to mingle I guess, Senator Fain. I will say this: Ken if you change your mind and you come back, if you change your mind you wouldn’t be the first person in this chamber to do that. I can guarantee you that it’s okay to acknowledge all these great things that have been said and still come back next year anyway. Good luck.”

MOTION

On motion of Senator Fain, the Senate advanced to the seventh order of business.

PERSONAL PRIVILEGE

Senator Roach: “Thank you Mr. President, members of the senate. Before we get too far into our business today, our important work of closing up, I did want to recognize another person whom I’ve worked with a number of years. I don’t even know how many and that would be Senator Adam Kline who also will not be with us next year. He’s elected to spend time with his family, his lovely grand-daughter and others. This is a strange thing here. I’m fairly concerned Republican and I count on Senator Kline to be my progressive Seattle liberal and he has fulfilled all my wishes for him. He is the greatest. So, with the permission of the President?”

REPLY BY THE PRESIDENT

President Owen: “Senator Roach. I assume that you’re under a point of personal privilege?”

Senator Roach: “Point of Personal Privilege. I have a gift here for Senator Kline and for those of you that can’t see and I did the art work myself. I had to get a book to look at it. I had no idea what this stuff really looks like. Would you indulge us and come over and unveil your gift? So Senator Kline and I have had a lot of fun things we’ve done together and other things not so fun but we always are friends and I appreciate that. Senator Kline, I am going to let you unwrap this for us and then show it to the crowd.”

Senator Kline: “Mr. President, I just hope this is going to be with the rules.”

REMARKS BY THE PRESIDENT

President Owen: “Well, let’s just cross our fingers.”

Senator Roach: “He does this really well. Look how nice and neat. He’s always so neat. Look at that. Don’t rip the paper.”

REMARKS BY THE PRESIDENT

President Owen: “If it’s a lousy picture he’s just going to frame the outside.”

Senator Roach: “Yea, he can frame the art, that’s right. Alright, there it is. This is Senator Adam Kline. I have a picture of him holding a AK-47 out at the Black Diamond Gun Club. He’s with Brian Judy, the Chief of, West Coast Lobbyist for the NRA.”

PERSONAL PRIVILEGE
Senator Kline: "I'm very happy that this is now known to the public after my last election."

THIRD READING

MESSAGE FROM THE HOUSE

March 12, 2014

MR. PRESIDENT:

and the same is herewith transmitted.

BARBARA BAKER, Chief Clerk

MOTION

Senator Hatfield moved that the Senate recede from its position in the Senate amendment(s) to Substitute House Bill No. 1260 by voice vote.

MOTION

On motion of Senator Hatfield, the rules were suspended and Substitute House Bill No. 1260 was returned to second reading for the purposes of amendment.

SECOND READING
SUBSTITUTE HOUSE BILL NO. 1260, by House Committee on Capital Budget (originally sponsored by Representatives Warnick and Stanford)

Concerning public facilities' grants and loans.

The measure was read the second time.

MOTION

Senator Hatfield moved that the following striking amendment by Senator Hatfield and others be adopted:

Strike everything after the enacting clause and insert the following:

"Sec. 1. RCW 43.160.010 and 2012 c 225 s 2 are each amended to read as follows:

(1) The legislature finds that it is the ((public)) policy of the state of Washington to ((direct financial resources toward the fostering of economic development through the stimulation of investment and job opportunities and the retention of sustainable existing employment)) employ state and federal resources to foster economic development to promote private investment and to create or retain job opportunities for the general welfare of the inhabitants of the state. Reducing unemployment and reducing the time citizens remain jobless ((is)) are important for the economic welfare of the state.

(2) The legislature finds that a valuable means of fostering economic development is the construction of public facilities which contribute to the stability and growth of the state's economic base. Expenditures made for these purposes as authorized in this chapter are declared to be in the public interest, and constitute a proper use of public funds. ((A community economic revitalization board is needed which shall aid the development of economic opportunities. The general objectives of the board should include:

(a) Strengthening the economies of areas of the state which have experienced or are expected to experience chronically high unemployment rates or below average growth in their economies;

(b) Encouraging the diversification of the economies of the state and regions within the state in order to provide greater seasonal and cyclical stability of income and employment;

(c) Encouraging wider access to financial resources for both large and small industrial development projects;

(d) Encouraging new economic development or expansion to maximize employment;

(e) Encouraging the retention of viable existing firms and employment;

(f) Providing incentives for expansion of employment opportunities for groups of state residents that have been less successful relative to other groups in efforts to gain permanent employment; and

(g) Enhancing job and business growth through facility development and other improvements in innovation partnership zones designated under RCW 43.330.270.

(2)) (3) The legislature also finds that the state's economic
development efforts can be enhanced by, in certain instances, providing funds to improve state highways, county roads, or city streets for industries considering locating or expanding in this state.

((4)(d)) (4) The legislature finds it desirable to provide a process whereby the need for diverse public works improvements necessitated by planned economic development can be addressed in a timely fashion and with coordination among all responsible governmental entities.

((4)(e)) (5) The legislature also finds that the state's economic development efforts can be enhanced by, in certain instances, providing funds to assist development of telecommunications infrastructure that supports business development, retention, and expansion in the state.

((4)(f)) (6) The legislature also finds that the state's economic development efforts can be enhanced by providing funds to improve markets for those recyclable materials representing a large fraction of the waste stream. The legislature finds that the construction or rehabilitation of public facilities (which result in private construction of processing or remanufacturing facilities for recyclable materials (are)) is eligible for consideration from the board.

((4)(g)) (7) The legislature finds that sharing economic growth statewide is important to the welfare of the state. The ability of communities to pursue business and job retention, expansion, and development opportunities depends on their capacity to ready necessary economic development project plans, sites, permits, and infrastructure for private investments. Project-specific planning, predevelopment, and infrastructure are critical ingredients for economic development. (Therefore, the intent of the legislature to increase the amount of funding available through the community economic revitalization board and to authorize flexibility for available resources in these areas to help fund planning, predevelopment, and construction costs of infrastructure and facilities and sites that foster economic vitality and diversification.)

(8) It is, therefore, the intent of the legislature to create a community economic revitalization board to aid the development of economic opportunities. The general objectives of the board should include:

(a) Strengthening the economies of areas of the state which have experienced or are expected to experience chronically high unemployment rates or below average growth in their economies;

(b) Encouraging the diversification of the economies of the state and regions within the state in order to provide greater stability of income and employment;

(c) Encouraging greater access to financial resources for both large and small industrial development projects;

(d) Encouraging new economic development or expansions to maximize employment;

(e) Encouraging the retention of viable existing firms and promoting employment within these firms;

(f) Providing incentives for expansion of employment opportunities for groups of state residents that have been less successful relative to other groups in efforts to gain permanent employment; and

(g) Enhancing job and business growth through facility development and other improvements in innovation partnership zones designated under RCW 43.330.270.

NEW SECTION. Sec. 2. A new section is added to chapter 43.16 RCW to read as follows:

The legislature finds that the community economic revitalization board has successfully acted as an economic development infrastructure financier for local governments. Management services, including fiscal and contract services, must be provided by the department to assist the board in implementing this chapter.

NEW SECTION. Sec. 7. A new section is added to chapter 43.160 RCW to read as follows:

In order to assist political subdivisions of the state and federally recognized Indian tribes in financing the cost of public facilities, the board:

(a) Must manage the public facilities construction loan revolving account in such a way as to ensure its sustainability.

(b) Must execute contracts or otherwise financially obligate funds from the public facilities construction loan revolving account for projects approved for funding by the board under the following programs:

(i) Committed private sector partner construction;

(ii) Prospective development construction;

(iii) Planning; and

(iv) Any other program authorized by the legislature.

(c) Must provide loans to political subdivisions and federally recognized Indian tribes for the purposes of financing the cost of public facilities.

(ii) The board may provide reasonable terms and conditions for repayment for loans, including partial forgiveness of loan principal and interest payments on projects located in rural communities as defined by the board, or rural counties. The loans may not exceed twenty years in duration.

(iii) In general, the board must require borrowers to begin repaying loans within one year of final contract execution. The board may authorize borrowers to defer initiating loan repayments for up to five years. A borrower must submit a deferral request to the board in writing and must include justification as to the need.

(d) May provide grants for purposes designated in this chapter, but only when, and to the extent that, a loan is not reasonably possible, given the limited resources of the political subdivision or the federally recognized Indian tribe and the finding by the board that financial circumstances require grant assistance to enable the project to move forward.

(2) No more than twenty-five percent of all financial assistance approved by the board in any biennium may consist of grants to political subdivisions and federally recognized Indian tribes.

(3) Except as authorized to the contrary under subsection (4) of this section, from all funds available to the board for financial assistance in a biennium under this chapter, the board must approve at least seventy-five percent of the first twenty million dollars of funds available and at least fifty percent of any additional funds for financial assistance for projects in rural counties or board defined rural communities.

(4) If at any time during the last six months of a biennium the board finds that the actual and anticipated applications for qualified projects in rural counties or board defined rural communities are clearly insufficient to use up the allocations under subsection (3) of this section, the board must estimate the amount of the insufficiency and during the remainder of the biennium may use that amount of the allocation for financial assistance to projects not located in rural counties or board defined rural communities.

(5) The board may elect to reserve up to one million dollars of its biennial appropriation to use as state match for federal grant awards. The purpose and use of the federal funds must be consistent with the board's purpose of financing economic development infrastructure. Reserved board funds must be matched, at a minimum, dollar for dollar by federal funds. If the set aside funds are not fully utilized for federal grant match by the 18th month of the biennium, the board may use those funds for other eligible projects as stated in this chapter.

NEW SECTION. Sec. 8. A new section is added to chapter 43.160 RCW to read as follows:

NEW SECTION. Sec. 9. A new section is added to chapter 43.160 RCW to read as follows:

(1) Under the committed private sector partner construction program, the board may only provide financial assistance to a project that demonstrates convincing evidence that a specific private sector development or expansion is ready to occur or will occur only if the public facility improvement is made.

(2) Under the prospective development construction program, the board may only provide financial assistance to a project that can demonstrate project feasibility using standard economic principles.

(3)(a) Projects applying under either the committed private sector partner construction program or the prospective development construction program must submit evidence comparing the median hourly wage of the private sector jobs to be created after the project is completed with the countywide median hourly wage for private sector jobs.

(b) The board must award a minimum of fifty percent of the moneys appropriated to it in the omnibus capital appropriations act to projects that are able to demonstrate convincing evidence that the median hourly wage of the private sector jobs created after the project is completed will exceed the countywide median hourly wage for private sector jobs.

(4) The board must give funding priority to eligible projects applying under the committed private sector partner construction program.

NEW SECTION. Sec. 10. A new section is added to chapter 43.160 RCW to read as follows:

(1) The board must prioritize awards for committed private sector partner construction and prospective development construction projects by considering at a minimum the following criteria:

(a) The number of jobs created by the expected business creation or expansion and the average wage of those expected jobs. In evaluating proposals for their job creation potential, the board may adjust the job estimates in applications based on the board’s judgment of the credibility of the job estimates;

(b) The need for job creation based on the unemployment rate of the county or counties in which the project is located. When evaluating the jobs created by the project, the board may consider the area labor supply and readily available skill sets of the labor pool in the county or counties surrounding the project location;

(c) How the expected business creation or expansion fits within the region’s preferred economic growth strategy as indicated by the efforts of nearby innovation partnership zones, industry clusters, future export prospects, or local government if available;

(d) The speed with which the project can begin construction;

(e) Whether the proposed project offers a health insurance plan for employees that includes an option for dependents of employees;

(f) Whether the public facility investment will increase existing capacity necessary to accommodate projected population and employment growth in a manner that supports infill and redevelopment of existing urban or industrial areas served by adequate public facilities;

(g) The extent that the project leverages nonstate funds, and achieves overall the greatest benefit in job creation at good wages for the amount of money provided.

(2) The board may not provide financial assistance:

(a) For a project the primary purpose of which is to facilitate or promote a retail shopping development or expansion;

(b) For any project for which evidence exists that would result in a development or expansion that would displace jobs in any other community in the state;

(c) For a project the primary purpose of which is to facilitate or promote gambling; or

(d) For a project located outside the jurisdiction of the applicant political subdivision or federally recognized Indian tribe.

Sec. 11. RCW 43.160.076 and 2011 c 180 s 301 are each amended to read as follows:

‘‘(1) Except as authorized to the contrary under subsection (2) of this section, from all funds available to the board for financial assistance in a biennium under this chapter, the board shall approve at least seventy-five percent of the first twenty million dollars of funds available and at least fifty percent of any additional funds for financial assistance for projects in rural counties.

(2) If at any time during the last six months of a biennium the board finds that the actual and anticipated applications for qualified projects in rural counties are clearly insufficient to use up the allocations under subsection (1) of this section, then the board shall estimate the amount of the insufficiency and during the remainder of the biennium may use that amount of the allocation for financial assistance to projects not located in rural counties.

(3)’’ The board ((shall)) must solicit qualifying projects to plan, design, and construct public facilities needed to attract new industrial and commercial activities in areas impacted by the closure or potential closure of large coal-fired electric generation facilities, which for the purposes of this section means a facility that emitted more than one million tons of greenhouse gases in any calendar year prior to 2008. The projects should be consistent with any applicable plans for major industrial activity on lands formerly used or designated for surface coal mining and supporting uses under RCW 36.70A.368. When the board receives timely and eligible project applications from a political subdivision of the state for financial assistance for such projects, the board from available funds ((shall)) must give priority consideration to such projects.

In order to maintain an effective expenditure and revenue control, the public facilities construction loan revolving account ((shall)) is subject in all respects to chapter 43.88 RCW. During the 2009-2011 biennium, sums in the public facilities construction loan revolving account may be used for community economic revitalization board export assistance grants and loans in section 1018, chapter 36, Laws of 2010 1st sp. sess. and for matching funds for the federal energy regional innovation cluster in section 1017, chapter 36, Laws of 2010 1st sp. sess.

(2) The moneys in the public facilities construction loan revolving account must be used solely to fulfill commitments arising from financial assistance authorized in this chapter. The total outstanding amount, which the board must dispense at any time pursuant to this section, may not exceed the moneys available from the account.

(3) Repayments of loans made from the public facilities construction loan revolving account under the contracts for public facilities construction loans must be paid into the public facilities construction loan revolving account.

Sec. 13. RCW 43.160.900 and 2008 c 327 s 9 are each amended to read as follows:

Each project; the actual number and cost of jobs created or retained by each project; the wages and health benefits associated with the jobs; the amount of state funds and total capital invested in projects; the number and types of businesses assisted by funded projects; the location of funded projects; the transportation infrastructure available for completed projects; the local match and local participation obtained; the number of delinquent loans; and the number of project terminations. The evaluations may also include additional performance measures and recommendations for programmatic changes.

((The initial evaluation must be submitted by December 31, 2010.))

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. (1) The legislature finds that the state of Washington has an opportunity to transform its health care delivery system.

(2) The state health care innovation plan establishes the following primary drivers of health transformation, each with individual key actions that are necessary to achieve the objective:

(a) Improve health overall by stressing prevention and early detection of disease and integration of behavioral health;

(b) Developing linkages between the health care delivery system and community; and

(c) Supporting regional collaboratives for communities and populations, improve health care quality, and lower costs.

NEW SECTION. Sec. 2. (1) The health care authority is responsible for coordination, implementation, and administration of interagency efforts and local collaborations of public and private organizations to implement the state health care innovation plan.

(2) Prior to the authority submitting a grant application for innovation plan funding, the authority must consult a neutral actuarial firm not currently contracted with the agency to review the estimated savings with the innovation plan prior to application submission. The plan and the actuarial information must be presented to the joint select committee on health care oversight, including the scope and details of the grant application and any request for proposal, prior to an application submission. The joint committee must review the application in a timely fashion that enables the grant application, if approved, to be submitted within the required time frame.

(3) The grant application cannot commit the state to any financial obligations beyond the actual grant award amount.

(4) All required federal reporting related to a grant award must be shared with the joint committee at the same time it is submitted to the federal government.

(5) By January 1, 2015, and January 1st of each year through January 1, 2019, the health care authority shall coordinate and submit a status report to the appropriate committees of the legislature regarding implementation of the innovation plan. The report must summarize any actions taken to implement the innovation plan, progress toward achieving the aims of the innovation plan, and anticipated future implementation efforts. In addition, the health care authority shall submit any recommendations for legislation necessary to implement the innovation plan.

NEW SECTION. Sec. 3. (1) The joint select committee on health care oversight is established in statute, continuing the committee created in Engrossed Substitute Senate Concurrent Resolution No. 8401 passed in 2013.

(2) The membership of the joint select committee on health care oversight must consist of the following: (a) The chairs of the health care committees of the senate and the house of representatives, who must serve as cochairs; (b) four additional members of the senate, two each appointed by the leadership of the two largest political parties in the senate; and (c) four additional members of the house of representatives, two each appointed by the leadership of the two largest political parties in the house of representatives. The governor must be invited to appoint, as a liaison to the joint select committee, a person who must be a nonvoting member.

(3) The joint select committee on health care oversight must provide oversight between the health care authority, health benefit exchange, the office of the insurance commissioner, the department of health, and the department of social and health services. The goal must be to ensure that these entities are not duplicating their efforts and are working toward a goal of increased quality of services which will lead to reduced costs to the health care consumer.

(4) The joint select committee on health care oversight must, as necessary, propose legislation to the health care committees and budget recommendations to the ways and means committees of the legislature that aids in their coordination of activities and that leads to better quality and cost savings.

(ii) Distribute tools and resources from the health extension program created in section 5 of this act.

(3) In awarding grants under this section, the authority shall consider the extent to which the applicant will:

(a) Base decisions on public input and an active collaboration among key community partners, which can include, but are not limited to, local governments, housing providers, school districts, early learning regional coalitions, large and small businesses, labor organizations, health and human service organizations, tribal governments, health carriers, providers, hospitals, public health agencies, and consumers;

(b) Match the grant funding with funds from other sources; and

(c) Demonstrate capability for sustainability without reliance on state general fund appropriations.

(4) The authority may prioritize applications that commit to providing at least one dollar in matching funds for each grant dollar awarded.

(5) Before grant funds are disbursed, the authority and the applicant must agree on performance requirements.

NEW SECTION. Sec. 5. A new section is added to chapter 43.70 RCW to read as follows:

(1) Subject to the availability of amounts appropriated for this specific purpose, the department shall establish a health extension program to provide training, tools, and technical assistance to primary care, behavioral health, and other providers. The program must emphasize high quality preventive, chronic disease, and behavioral health care that is comprehensive and evidence-based.

(2) The health extension program must coordinate dissemination of evidence-based tools and resources that promote:

(a) Integration of physical and behavioral health;

(b) Clinical decision support to promote evidence-based care;

(c) Reports of the Robert Bree collaborative created by RCW 70.250.050 and findings of health technology assessments under RCW 70.14.080 through 70.14.130;

(d) Methods of formal assessment;

(e) Support for patients managing their own conditions;

(f) Identification and use of resources that are available in the community for patients and their families, including community health workers; and

(g) Identification of evidence-based models to effectively treat depression and other conditions in primary care settings, such as the program advancing integrated mental health solutions, and others.

(3) The department may adopt rules necessary to implement this section, but may not adopt rules, policies, or procedures beyond the scope of authority granted in this section.

NEW SECTION. Sec. 6. A new section is added to chapter 41.05 RCW to read as follows:

(1) There is created a performance measures committee, the purpose of which is to identify and recommend standard statewide measures of health performance to inform public and private health care purchasers and to propose benchmarks to track costs and improvements in health outcomes.

(2) Members of the committee must include representation from state agencies, small and large employers, health plans, patient groups, federally recognized tribes, consumers, academic experts on health care measurement, hospitals, physicians, and other providers. The governor shall appoint the members of the committee, except that a statewide association representing hospitals may appoint a member representing hospitals, and a statewide association representing physicians may appoint a member representing physicians. The governor shall ensure that members represent diverse geographic locations and both rural and urban communities. The chief executive officer of the lead organization must also serve on the committee. The committee must be chaired by the director of the authority.

(3) The committee shall develop a transparent process for selecting performance measures, and the process must include opportunities for public comment.

(4) By January 1, 2015, the committee shall submit the performance measures to the authority. The measures must include dimensions of:

(a) Prevention and screening;

(b) Effective management of chronic conditions;

(c) Key health outcomes;

(d) Care coordination and patient safety; and

(e) Use of the lowest cost, highest quality care for preventive care and acute and chronic conditions.

(5) The committee shall develop a measure set that:

(a) Is of manageable size;

(b) Is based on readily available claims and clinical data;

(c) Gives preference to nationally reported measures and, where nationally reported measures may not be appropriate, measures used by state agencies that purchase health care or commercial health plans;

(d) Focuses on the overall performance of the system, including outcomes and total cost;

(e) Is aligned with the governor’s performance management system measures and common measure requirements specific to Medicaid delivery systems under RCW 70.320.020 and 43.20A.895;

(f) Considers the needs of different stakeholders and the populations served; and

(g) Is usable by multiple payers, providers, hospitals, purchasers, public health, and communities as part of health improvement, care improvement, provider payment systems, benefit design, and administrative simplification for providers and hospitals.

(6) State agencies shall use the measure set developed under this section to inform purchasing decisions and set benchmarks.

(7) The committee shall establish a public process to periodically evaluate the measure set and make additions or changes to the measure set as needed.

NEW SECTION. Sec. 7. A new section is added to chapter 74.09 RCW to read as follows:

(1) The authority and the department may restructure Medicaid procurement of health care services and agreements with managed care systems on a phased basis to better support integrated physical health, mental health, and chemical dependency treatment, consistent with assumptions in Second Substitute Senate Bill No. 6312, Laws of 2014, and recommendations provided by the behavioral health task force. The authority and the department may develop and utilize innovative mechanisms to promote and sustain integrated clinical models of physical and behavioral health care.

(2) The authority and the department may incorporate the following principles into future Medicaid procurement efforts aimed at integrating the delivery of physical and behavioral health services:

(a) Medicaid purchasing must support delivery of integrated, person-centered care that addresses the spectrum of individuals’ health needs in the context of the communities in which they live and with the availability of care continuity as their health needs change;
Accountability for the client outcomes established in RCW 43.43.20A.895 and 71.36.025 and performance measures linked to those outcomes;

Medicaid benefit design must recognize that adequate preventive care, crisis intervention, and support services promote a recovery-focused approach;

Evidence-based care interventions and continuous quality improvement must be enforced through contract specifications and performance measures that provide meaningful integration at the patient care level with broadly distributed accountability for results;

Active purchasing and oversight of managed care contracts is a state responsibility;

A deliberate and flexible system change plan with identified benchmarks to promote system stability, provide continuity of treatment for patients, and protect essential existing behavioral health system infrastructure and capacity; and

Community and organizational readiness are key determinants of implementation timing; a phased approach is therefore desirable.

The principles identified in subsection (2) of this section are not intended to create an individual entitlement to services.

The authority shall increase the use of value based contracting, alternative quality contracting, and other payment incentives that promote quality, efficiency, cost savings, and health improvement, for Medicaid and public employee purchasing. The authority shall also implement additional chronic disease management techniques that reduce the subsequent need for hospitalization or readmissions. It is the intent of the legislature that the reforms the authority implements under this subsection are anticipated to reduce extraneous medical costs, across all medical programs, when fully phased in by fiscal year 2017 to generate budget savings identified in the omnibus appropriations act.

NEW SECTION. Sec. 8. The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Authority" means the health care authority.

(2) "Carrier" and "health carrier" have the same meaning as in RCW 48.43.005.

(3) "Claims data" means the data required by section 11 of this act to be submitted to the database, as defined by the director in rule. "Claims data" includes, but is not limited to, claims data related to health care coverage and services funded, in whole or in part, in the omnibus appropriations act, including coverage and services funded by appropriated and nonappropriated state and federal moneys, for Medicaid programs and the public employees benefits board program.

(4) "Database" means the statewide all-payer health care claims database established in section 10 of this act.

(5) "Director" means the director of financial management.

(6) "Lead organization" means the organization selected under section 10 of this act.

(7) "Office" means the office of financial management.

NEW SECTION. Sec. 9. The legislature finds that:

(1) The activities authorized by this chapter will require collaboration among state agencies and local governments that purchase health care, private health carriers, third-party purchasers, health care providers, and hospitals. These activities will identify strategies to increase the quality and effectiveness of health care delivered in Washington state and are therefore in the best interest of the public.

(2) The benefits of collaboration, together with active state supervision, outweigh potential adverse impacts. Therefore, the legislature intends to exempt from state antitrust laws, and provide immunity through the state action doctrine from federal antitrust laws, activities that are undertaken, reviewed, and approved by the office pursuant to this chapter that might otherwise be constrained by such laws. The legislature does not intend and does not authorize any person or entity to engage in activities not provided for by this chapter, and the legislature neither exempts nor provides immunity for such activities including, but not limited to, agreements among competing providers or carriers to set prices or specific levels of reimbursement for health care services.

NEW SECTION. Sec. 10. (1) The office shall establish a statewide all-payer health care claims database to support transparent public reporting of health care information. The database must improve transparency to: Assist patients, providers, and hospitals to make informed choices about care; enable providers, hospitals, and communities to improve by benchmarking their performance against that of others by focusing on best practices; enable purchasers to identify value, build expectations into their purchasing strategy, and reward improvements over time; and promote competition based on quality and cost.

(2) The director shall select a lead organization to coordinate and manage the database. The lead organization is responsible for internal governance, management, funding, and operations of the database. At the direction of the office, the lead organization shall:

(a) Collect claims data from data suppliers as provided in section 11 of this act;

(b) Design data collection mechanisms with consideration for the time and cost involved in collection and the benefits that measurement would achieve;

(c) Ensure protection of collected data and store and use any data with patient-specific information in a manner that protects patient privacy;

(d) Consistent with the requirements of this chapter, make information from the database available as a resource for public and private entities, including carriers, employers, providers, hospitals, and purchasers of health care;

(e) Report performance on cost and quality pursuant to section 14 of this act using, but not limited to, the performance measures developed under section 6 of this act;

(f) Develop protocols and policies to ensure the quality of data releases;

(g) Develop a plan for the financial sustainability of the database and charge fees not to exceed five thousand dollars for reports and data files as needed to fund the database. Any fees must be approved by the office and must be comparable across data requesters and users; and

(h) Convene advisory committees with the approval and participation of the office, including: (i) A committee on data policy development; and (ii) a committee to establish a data release process consistent with the requirements of this chapter and to provide advice regarding formal data release requests. The advisory committees must include representation from key provider, hospital, payer, public health, health maintenance organization, purchaser, and consumer organizations.

(3) The lead organization governance structure and advisory committees must include representation of the third-party administrator of the uniform medical plan. A payer, health maintenance organization, or third-party administrator must be a data supplier to the all-payer health care claims database to be represented on the lead organization governance structure or advisory committees.

NEW SECTION. Sec. 11. (1) Data suppliers must submit claims data to the database within the time frames established by the director in rule and in accordance with procedures established by the lead organization.

(2) An entity that is not a data supplier but that chooses to participate in the database shall require any third-party administrator utilized by the entity's plan to release, at no additional cost, any claims data related to persons receiving health coverage from the plan.
NEW SECTION. Sec. 12. (1) The claims data provided to the database, the database itself, including the data compilation, and any raw data received from the database are not public records and are exempt from public disclosure under chapter 42.56 RCW.

(2) Claims data obtained in the course of activities undertaken pursuant to or supported under this chapter are not subject to subpoena or similar compulsory process in any civil or criminal, judicial, or administrative proceeding, nor may any individual or organization with lawful access to data under this chapter be compelled to testify with regard to such data, except that data pertaining to a party in litigation may be subject to subpoena or similar compulsory process in an action brought by or on behalf of such individual to enforce any liability arising under this chapter.

NEW SECTION. Sec. 13. (1) Except as otherwise required by law, claims or other data from the database shall only be available for retrieval in original or processed form to public and private requesters pursuant to this section and shall be made available within a reasonable time after the request.

(2) Except as otherwise required by law, the office shall direct the lead organization to maintain the confidentiality of claims or other data it collects for the database that include direct and indirect patient identifiers. Any agency, researcher, or other person that receives claims or other data under this section containing direct or indirect patient identifiers must also maintain confidentiality and may not release such claims or other data except as consistent with this section. The office shall oversee the lead organization’s release of data as follows:

(a) Claims or other data that include direct or indirect patient identifiers, as specifically defined in rule, may be released to:

(i) Federal, state, and local government agencies upon receipt of a signed data use agreement with the office and the lead organization; and

(ii) Researchers with approval of an institutional review board upon receipt of a signed confidentiality agreement with the office and the lead organization.

(b) Claims or other data that do not contain direct patient identifiers but that may contain indirect patient identifiers may be released to agencies, researchers, and other persons upon receipt of a signed data use agreement with the lead organization.

(c) Claims or other data that do not contain direct or indirect patient identifiers may be released upon request.

(3) Recipients of claims or other data under subsection (2)(a) or (b) of this section must agree in a data use agreement that:

(a) Take steps to protect direct and indirect patient identifying information as described in the agreement; and

(b) Not redisclose the data except as authorized in the agreement consistent with the purpose of the agreement or as otherwise required by law.

(4) Recipients of the claims or other data under subsection (2)(b) of this section must not attempt to determine the identity of persons whose information is included in the data set or use the claims or other data in any manner that identifies the individuals or their families.

(5) For purposes of this section, the following definitions apply unless the context clearly requires otherwise.

(a) "Direct patient identifier" means information that identifies a patient.

(b) "Indirect patient identifier" means information that may identify a patient when combined with other information.

NEW SECTION. Sec. 14. (1) Under the supervision of the office, the lead organization shall prepare health care data reports using the database and the statewide health performance and quality measure set, including only those measures that can be completed with readily available claims data. Prior to releasing any health care data reports that use claims data, the lead organization must submit the reports to the office for review and approval.

(2)(a) Health care data reports prepared by the lead organization that use claims data must assist the legislature and the public with awareness and promotion of transparency in the health care market by reporting on:

(i) Whether providers and health systems deliver efficient, high quality care; and

(ii) Geographic and other variations in medical care and costs as demonstrated by data available to the lead organization.

(b) Measures in the health care data reports should be stratified by demography, income, language, health status, and geography when feasible with available data to identify disparities in care and successful efforts to reduce disparities.

(c) Comparisons of costs among providers and health care systems must account for differences in acuity of patients, as appropriate and feasible, and must take into consideration the cost impact of subsidization for uninsured and governmental patients, as well as teaching expenses, when feasible with available data.

(3) The lead organization may not publish any data or health care data reports that:

(a) Directly or indirectly identify patients; or

(b) Disclose specific terms of contracts, discounts, or fixed reimbursement arrangements or other specific reimbursement arrangements between an individual provider and a specific payer.

(4) The lead organization may not release a report that compares and identifies providers, hospitals, or data suppliers unless it:

(a) Allows the data supplier, the hospital, or the provider to verify the accuracy of the information submitted to the lead organization and submit to the lead organization any corrections of errors with supporting evidence and comments within forty-five days of receipt of the report; and

(b) Corrects data found to be in error within a reasonable amount of time.

(5) The office and the lead organization may use claims data to identify and make available information on payers, providers, and facilities, but may not use claims data to recommend or incentivize direct contracting between providers and employers.

(6) The lead organization shall ensure that no individual data supplier comprises more than twenty-five percent of the claims data used in any report or other analysis generated from the database. For purposes of this subsection, a "data supplier" means a carrier and any self-insured employer that uses the carrier’s provider contracts.

NEW SECTION. Sec. 15. (1) The director shall adopt any rules necessary to implement this chapter, including:

(a) Definitions of claim and data files that data suppliers must submit to the database, including: Files for covered medical services, pharmacy claims, and dental claims; member eligibility and enrollment data; and provider data with necessary identifiers;

(b) Deadlines for submission of claim files;

(c) Penalties for failure to submit claim files as required;

(d) Procedures for ensuring that all data received from data suppliers are securely collected and stored in compliance with state and federal law; and

(e) Procedures for ensuring compliance with state and federal privacy laws.

(2) The director may not adopt rules, policies, or procedures beyond the authority granted in this chapter.
NEW SECTION. Sec. 16. A new section is added to chapter 48.02 RCW to read as follows:

(1) The commissioner may not use data acquired from the statewide all-payer health care claims database created in section 10 of this act for purposes of reviewing rates pursuant to this title.

(2) The commissioner's authority to access data from any other source for rate review pursuant to this title is not otherwise curtailed, even if that data may have been separately submitted to the statewide all-payer health claims database.

(ii) For notice purposes only, agencies providing exempt records under this subsection (3) to other agencies may mark any exempt records as "exempt" so that the receiving agency is aware of the exemption, however whether or not a record is marked exempt does not affect whether the record is actually exempt from disclosure.

Senators Conway and Kohl-Welles spoke in favor of passage of the bill.

PARLIAMENTARY INQUIRY

Senator Benton: “I’m looking for some paperwork on this bill and I can’t seem to find it. I apologize for that but was it amended here on the floor? Are there amendments? I didn’t see any amendments. Is this a conference report? How do we know exactly what’s in this bill? I don’t see it in my bill book and I think it’s been changed from that point anyway. So, I’m just wondering if there is some paperwork on this bill that had been distributed sometime today?”

I don’t know if this particular bill is there because it just came over from the House. I’ve noted that Senator Benton’s point is a good one though. We have not had copies of the bills, many of the bills we’ve been doing and that happens on sine die. I think we all get a little frustrated but with the speed of bills going back and forth, that’s what happens.”

In preparing the report, the office of financial management shall consult with the department of social and health services, representatives of individual home care providers, and agency home care providers.

Along with a summary of the current method of providing benefits, the report must include an analysis of the policy and fiscal implications of accessing health benefits through the Washington health benefits exchange. The report must also provide an analysis of a medicaid section 1115 waiver with the federal centers for medicare and medicaid services that would provide additional medicaid matching funds for individual provider home care workers who are provided with health care benefits through a collective bargaining agreement negotiated with the state under chapter 74.39A RCW, but would otherwise be eligible for medicaid under the federal expanded eligibility provisions that take effect January 1, 2014.

The report must be submitted to the appropriate fiscal committees of the legislature by January 6, 2014.

(2) $350,000 of the general fund--state appropriation for fiscal year 2014 is provided solely for implementation of Engrossed Second Substitute Senate Bill No. 5802 (greenhouse gas emissions). If the bill is not enacted by June 30, 2013, the amount provided in this subsection shall lapse.

(3) $536,000 of the general fund--state appropriation for fiscal year 2014 is provided solely for a study of the state's medical and public assistance eligibility systems and infrastructure with the goal of simplifying procedures, improving customer service, and reducing state expenditures. The study must also examine which state entities play various roles in the eligibility and data verification processes in order to determine if eligibility processes can be further streamlined in light of changes related to the federal affordable care act. The study must identify how costs will be allocated between state and federal funding sources and options for maximizing federal participation. The office of financial management shall provide a report on its findings and recommendations to the relevant policy and fiscal committees of the legislature by January 1, 2014.

(4)(a) The legislature finds that the state's nationally recognized student achievement initiative has led to significant improvements at two-year institutions of higher education. With the goal of creating such efficiencies within the four-year institutions of higher education, the office of financial management shall convene, in coordination with the joint committee on higher education and the student achievement council, a technical incentive funding model task force to propose an incentive funding model for the four-year institutions of higher education. The model will provide new incentive funding to four-year institutions of higher education that demonstrate improvement on existing performance measures and control resident undergraduate tuition growth. Participation in the program is voluntary; however, funding appropriated for this program shall only be available to those institutions that have chosen to participate in the program.

(b) The task force must include the following members:

(i) One representative from the student achievement council;
(ii) One representative from the education data center;
(iii) One representative from each of the four-year institutions of higher education.

(c) The program shall include, but shall not be limited to:

(A) Performance in specific metrics;
(B) Control and reduction where possible of resident undergraduate and graduate tuition; and
(C) Efficient utilization of classrooms, laboratories, and online and other high technology instructional methods;
(ii) A methodology for allocating funding for performance as specified in (c)(i)(A) of this subsection that is based on performance metrics reported in the accountability monitoring and reporting system established in RCW 28B.77.090 and that recognizes each institution's unique mission by measuring each institution's performance in these metrics against its past performance;
(iii) A methodology for investing any unallocated incentive funds to the state need grant program created in chapter 28B.92 RCW to expand access to low-income and underserved student populations; and
(iv) A methodology for establishing a baseline level of state funding that:
(A) Fully supports the state's need for an increasing portion of its citizens to gain post-secondary education and qualifications;
(B) Recognizes the acute need of the state's high-technology economy for a sufficient number of graduates in high employer demand programs of study;
(C) Achieves a more equitable share of support between the state and students and their families; and
(D) Provides for funding enhancements based on demonstrated improvements in institutional performance within the educational achievement and tuition reduction incentive program.

(d) The workgroup shall submit a final report containing an incentive funding model to the governor and higher education and fiscal committees of the legislature by December 31, 2013.
