SUBSTITUTE HOUSE BILL NO. 2990, as amended by the Senate, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

The President declared that Senate to be on the seventh order of business.

The Senate resumed consideration of Engrossed Substitute Senate Bill No. 6614 which had been deferred earlier in the day.

RULING BY THE PRESIDENT

President Habib: “The Senate will now return to consideration of now Engrossed Senate Bill 6614. In the interest of time we will be, I’ll just be ruling orally and then we have, we’ll be writing up and distributing at a later time the, the, the, the more formal ruling but to rule on the point of order raised by Senator Braun as to whether Engrossed Substitute Senate Bill 6614 violates the single subject rule, the President finds, first it’s important to determine what the contents of the bill, now as amended through the striking amendment, seeks to do and it is stated in the title both to reduce property taxes, reduce one, one revenue source and then also to make provision for the allocation of, of certain revenue. And while these are, as Senator Braun pointed out, these are separate and may in fact appeal to different distinct Senators for different reasons, the President finds that the rational unifying theme, which is what the State Supreme Court and Lieutenant Governor Owen have determined to be the test here, what the rational unifying theme is between these two is the making of, the provision for making for unexpected revenue in the 2019, fiscal year 2019. In other words there is more revenue coming in 2019 than had been expected. A policy has been drafted to make provision for that unexpectedly high amount of revenue. That policy prescription that’s being proposed in this bill contains the reduction of taxes and also the allocation of some, of that money to the Education Legacy Trust account and while those are two different elements they, nevertheless, share a rational unifying theme, which is the disposition of these funds which had been unexpected at, by previous legislatures.”

WRITTEN RULING: In responding to the Point of Order raised by Senator Braun as to whether Engrossed Substitute Senate Bill 6614 violates Senate Rule 25, the single subject rule, the President finds and rules as follows:

Article II, Section 19 of the State Constitution and Senate Rule 25 mandate that “[n]o bill shall embrace more than one subject and that shall be expressed in the title.” Precedential rulings by Lieutenant Governor Brad Owen articulate that in complying with the single subject rule, there must be some “rational unity” between the general subject of a bill and its incidental subdivisions.

As to whether ESSB 6614 violates the single subject rule, the President finds it is important, as an initial matter, to determine what the bill seeks to do. Here, ESSB 6614 both reduces property taxes and provides for the allocation of certain revenue. As Senator Braun noted, these are dual objectives. However, the President finds there is a rational unifying theme between the two, which is the provision of unexpected state revenue.

The Legislature is faced with unanticipated excess revenue in fiscal year 2019, and must address and dispose of these funds. The policy prescription chosen in ESSB 6614 is the reduction of taxes and the allocation of some of the remaining funds to the Education Legacy Trust Account. While these respective policy choices may be more amenable to some members than to others, they nevertheless share a rational unifying theme, which is the disposition of unanticipated state revenue.

As such, the President finds that the measure does not violate Senate Rule 25.

POINT OF ORDER

Senator Braun: “Thank you Mr. President. So I, I appreciate your, your, prompt ruling on these two matters. I do want to ask your indulgence and point out a couple of misstatements you made in your earlier ruling. Mr. President you made the claim that no state property tax from the state property tax increase made last session has gone to the general fund. Mr. President that’s not accurate. It started as, as of the first of January of this year and the estimate is about five hundred million dollars will go into the general fund between now and the end of the fiscal year. So, and the other thing you said, Mr. President, is you made the claim that there was no extraordinary revenue and that it was all triggered from the state property tax levy imposed last year. So, Mr. President, I just want to clarify that when we did the budget last year that state property tax was imposed and that state property tax was imposed, those funds were budgeted and, and, and, the resulting known estimate of extraordinary revenue growth was known and included in the budget we passed here last June. Since then we’ve had an additional 2.3 billion dollars in revenue growth thanks to our strong economy. 1.6 of which would go, as provided in the constitution, into the general fund and 700 of which would ultimately go into the extraordinary revenue growth into the rainy day fund at the end of the biennium. So, Mr. President, I don’t intend to challenge your ruling. I think there are other parts of the ruling that would lead you to the same conclusion, ultimately, but I would just ask you, Mr. President, that you would consider this in any written ruling that you ultimately make and publish and if you’d like additional details I would be happy to provide them to you.”

REPLY BY THE PRESIDENT

President Habib: “Thank you, thank you Senator Braun and, and, I agree, this is, this is not the time to hash out the details but I, I will say that the, to the extent that the order mentioned the funds not having been deposited in the general fund that, that portion of the order relates to the funds addressed in the striking amendment so, if that wasn’t clear or if it seemed like a broader proposition was being made in the ruling then certainly that will be clarified. Again, that’s, that wasn’t the nature of the point of parliamentary inquiry raised by Senator Baumgartner since as you yourself just pointed out, the, the, in any case, no money was being extracted from or appropriated from the, the rainy day fund.”

Senators Mullet and Ranker spoke in favor of passage of the bill.

Senator Braun spoke against passage of the bill.

REMARKS BY THE PRESIDENT
President Habib: “Senator Ranker? Senator Ranker, I’m gonna ask this, I’m gonna ask this of you. I’m gonna ask this of other members: You all know which, how to, how to incite personalities and how to, to lead us down a rabbit hole, and I would appreciate if, in keeping with your rules, an avoidance of personalities, we, we unnecessarily, we avoid unnecessarily needling one another with terms like ‘Republican property tax,’ et cetera. It’s just not necessary.”

Senator Frockt spoke in favor of passage of the bill. Senators Schoesler, Zeiger and O’Ban spoke against passage of the bill.

POINT OF ORDER

Senator Braun: “Thank you Mr. President. The previous speaker just made a factual error. We offered a striking amendment on the floor and it fully funded McCleary. Thank you Mr. President.”

Senator Frockt again to speak in favor of passage of the bill. Senators Ericksen, Angel, Sheldon, Baumgartner, Padden and Fortunato spoke against passage of the bill.

Senator Honeyford spoke on final passage of the bill.

ENGROSSED HOUSE BILL NO. 2750, by Representatives Tharinger, Johnson, Cody, Stonier, Slatter, Robinson, Jinkins, Appleton, Muri and Gregerson

Concerning quality in assisted living facilities.
The measure was read the second time.

MOTION

Senator Cleveland moved that the following committee amendment by the Committee on Ways & Means be adopted:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature finds that:

(1) Washington state is ranked number one in the nation in offering quality choices in its long-term services and supports system. Assisted living facilities are an important part of the state's long-term services and supports plan;

(2) Consumers should have access to current information about assisted living facilities to make informed choices;

(3) Washingtonians choose to live in assisted living facilities for many different reasons including safety, access to care, socialization, rehabilitation, and community;

(4) Deciding where to live and what kind of facility to live in are big decisions for potential residents and families. They deserve to have access to all information collected by the state to use in making their decisions. Providing transparency will allow for more informed consumer choices;

(5) Consumers already have access to information on nursing homes and adult family homes. This act would bring assisted living facilities in line with other settings; and

(6) Assisted living facilities need to be held accountable for the residents in their care and the fine structure should be reflective of that responsibility.

NEW SECTION. Sec. 2. A new section is added to chapter 18.20 RCW to read as follows:

The department shall provide information to consumers about assisted living facilities. This information must be made available online and must include information related to site visits, substantiated inspection and complaint investigation reports, including any citation and remedy imposed, and a listing of licensed assisted living facilities by geographic location.

NEW SECTION. Sec. 3. A new section is added to chapter 18.20 RCW to read as follows:

(1) The department shall facilitate a work group process to recommend quality metrics for assisted living facilities. The department shall keep a public record of comments submitted by stakeholders throughout the work group process.

(2) The work group shall consist of representatives from the department, assisted living provider associations, the long-term care ombuds; organizations with expertise in serving persons with mental health needs in an institutional setting, as selected by the department; organizations with expertise in serving persons with developmental disability needs in an institutional setting, as selected by the department; organizations with expertise in serving culturally diverse and non-English-speaking persons in an institutional setting, as selected by the department; health care professionals with experience caring for diverse and non-English-speaking patients, as selected by the department; licensed health care professionals with experience caring for geriatric patients, as selected by the department; and an Alzheimer's advocacy organization. The work group may solicit input from individuals with additional expertise, if necessary.

(3) The work group shall make an interim report by September 1, 2019, and final recommendations to the appropriate legislative committees by September 1, 2020, and shall include a dissent
report if agreement is not achieved among stakeholders and the department.

(4) The work group must submit recommendations for a quality metric system, propose a process for monitoring and tracking performance, and recommend a process to inform consumers.

(5) The department shall include at least one meeting dedicated to review and analysis of other states with quality metric methodologies for assisted living and must include information on how well each state is achieving quality care outcomes. In addressing data metrics the work group shall consider whether the data that must be reported reflect and promote quality of care and whether reporting the data is unnecessarily burdensome upon assisted living facilities.

Sec. 4. RCW 18.20.190 and 2012 c 10 s 13 are each amended to read as follows:

(1) The department of social and health services is authorized to take one or more of the actions listed in subsection (2) of this section in any case in which the department finds that an assisted living facility provider has:

(a) Failed or refused to comply with the requirements of this chapter or the rules adopted under this chapter;

(b) Operated an assisted living facility without a license or under a revoked license;

(c) Knowingly, or with reason to know, made a false statement of material fact on his or her application for license or any data attached thereto, or in any matter under investigation by the department;

(d) Willfully prevented or interfered with any inspection or investigation by the department.

(2) When authorized by subsection (1) of this section, the department may take one or more of the following actions, using a tiered sanction grid that considers the extent of harm from the deficiency and the regularity of the occurrence of the deficiency when imposing civil fines:

(a) Refuse to issue a license;

(b) Impose reasonable conditions on a license, such as correction within a specified time, training, and limits on the type of clients the provider may admit or serve;

(c) Impose civil penalties of (not more than) at least one hundred dollars per day per violation. Until July 1, 2019, the civil penalties may not exceed one thousand dollars per day per violation. Beginning July 1, 2019, through June 30, 2020, the civil penalties may not exceed two thousand dollars per day per violation. Beginning July 1, 2020, the civil penalties may not exceed three thousand dollars per day per violation;

(d) Impose civil penalties of up to ten thousand dollars for a current or former licensed provider who is operating an unlicensed facility:

(1) Refuse to issue a license;

(2) Impose reasonable conditions on a license, such as correction within a specified time, training, and limits on the type of clients the provider may admit or serve;

(3) Impose civil penalties of (not more than) at least one hundred dollars per day per violation. Until July 1, 2019, the civil penalties may not exceed one thousand dollars per day per violation. Beginning July 1, 2019, through June 30, 2020, the civil penalties may not exceed two thousand dollars per day per violation. Beginning July 1, 2020, the civil penalties may not exceed three thousand dollars per day per violation;

(e) Suspend, revoke, or refuse to renew a license;

(1) Suspend admissions to the assisted living facility by imposing stop placement; or

(2) Suspend admission of a specific category or categories of residents as related to the violation by imposing a limited stop placement.

(3) When the department orders stop placement or a limited stop placement, the facility shall not admit any new resident until the stop placement or limited stop placement order is terminated. The department may approve readmission of a resident to the facility from a hospital or nursing home during the stop placement or limited stop placement. The department shall terminate the stop placement or limited stop placement when: (a) The violations necessitating the stop placement or limited stop placement have been corrected; and (b) the provider exhibits the capacity to maintain correction of the violations previously found deficient. However, if upon the revisit the department finds new violations that the department reasonably believes will result in a new stop placement or new limited stop placement, the previous stop placement or limited stop placement shall remain in effect until the new stop placement or new limited stop placement is imposed.

(4) After a department finding of a violation for which a stop placement or limited stop placement has been imposed, the department shall make an on-site revisit of the provider within fifteen working days from the request for revisit, to ensure correction of the violation. For violations that are serious or recurring or uncorrected following a previous citation, and create actual or threatened harm to one or more residents' well-being, including violations of residents' rights, the department shall make an on-site revisit as soon as appropriate to ensure correction of the violation. Verification of correction of all other violations may be made by either a department on-site revisit or by written or photographic documentation found by the department to be credible. This subsection does not prevent the department from enforcing license suspensions or revocations. Nothing in this subsection shall interfere with or diminish the department's authority and duty to ensure that the provider adequately cares for residents, including to make departmental on-site revisits as needed to ensure that the provider protects residents, and to enforce compliance with this chapter.

(5) RCW 43.20A.205 governs notice of a license denial, revocation, suspension, or modification. Chapter 34.05 RCW applies to department actions under this section, except that orders of the department imposing license suspension, stop placement, limited stop placement, or conditions for continuation of a license are effective immediately upon notice and shall continue pending any hearing.

(6) All receipts from civil penalties imposed under this chapter must be deposited in the assisted living facility temporary management account created in RCW 18.20.430.

(2) For the purposes of this section, "limited stop placement" means the ability to suspend admission of a specific category or categories of residents.

Sec. 5. RCW 18.20.430 and 2016 sp.s. c 36 s 912 are each amended to read as follows:

The assisted living facility temporary management account is created in the custody of the state treasurer. All receipts from civil penalties imposed under this chapter must be deposited into the account. Only the director or the director's designee may authorize expenditures from the account. The account is subject to allotment procedures under chapter 43.88 RCW, but an appropriation is not required for expenditures. Expenditures from the account may be used only for the protection of the health, safety, welfare, or property of residents of assisted living facilities found to be deficient. Uses of the account include, but are not limited to:

(1) Payment for the costs of relocation of residents to other facilities;

(2) Payment to maintain operation of an assisted living facility pending correction of deficiencies or closure, including payment of costs associated with temporary management authorized under this chapter; (and)

(3) Reimbursement of residents for personal funds or property lost or stolen when the resident's personal funds or property cannot be recovered from the assisted living facility or third-party insurer; and

(4) The protection of the health, safety, welfare, and property of residents of assisted living facilities found to be noncompliant with licensing standards.

(4) During the 2015-2017 fiscal biennium, the account may be expended for funding the costs associated with the assisted living program.)"

MR. PRESIDENT:

The House has passed:

ENGROSSED SUBSTITUTE SENATE BILL NO. 1506, Under suspension of the rules, the bill was returned to second reading for the purposes of amendment(s). The House adopted the following amendment(s): 6054-S.E: AMH DEBO SMIL 132, and passed the bill as amended by the House.

Strike everything after the enacting clause and insert the following:

“NEW SECTION. Sec. 1. A new section is added to chapter 54.16 RCW to read as follows:

1. The definitions in this subsection apply throughout this section unless the context clearly requires otherwise.

(a) "Broadband" means high-speed internet access and other advanced telecommunications services.

(b) "Broadband network" means networks of deployed telecommunications equipment and technologies necessary to provide broadband.

(c) "Inadequate" means internet retail service that does not meet one hundred percent of the standards detailed in the service level agreement.

(d) "Partnership payment structure" means a group of or individual property owners who agree to pay a term payment structure for infrastructure improvements to their property.

(e) "Petition" means a formal written request for retail internet service by property owners on the public utility district broadband network.

(f) "Retail internet service" means the provision of broadband to end users.

(g) "Service level agreement" means a standard agreement, adopted during an open public meeting, between the retail internet service provider and the public utility that describes the required percentage of broadband download and upload speed and system availability, customer service, and transmission time.

(2) Any public utility district that, as of the effective date of this section, provides only water, sewer, and wholesale telecommunications services in a county with an area less than five hundred square miles and is located west of the Puget Sound may provide retail internet service on the public utility district's broadband network located within the public utility district boundaries only when all of the existing providers of end-user internet service on the public utility district's broadband network cease to provide end-user service or provide adequate end-user service as determined in the manner prescribed by this section.

The authority provided in this subsection expires five years after the effective date of this act for any public utility district that has not either entered into a partnership payment structure to finance broadband deployment or been petitioned to provide retail internet service within that time period.

(3) Upon receiving a petition meeting the requirements of subsection (4) of this section, a public utility district board of commissioners may hold up to three meetings to:

(a) Verify the signature or signatures of the property owners on the petition and certify the petition;

(b) Determine and submit findings that the retail internet service available to the petitioners served by the public utility district's broadband network is either nonexistent or inadequate as defined in the service level agreement adopted by the commissioners for all existing internet service providers on the public utility district's broadband network;

(c) Receive, and either reject or accept any recommendations or adjustments to, a business case plan developed in accordance with subsection (7) of this section; and

(d) By resolution, authorize the public utility district to provide retail internet service on the public utility district's broadband network.

(4) A petition meets the requirements of subsection (3) of this section if it is delivered to a public utility district board of commissioners, declares that the signatories on the public utility district's broadband network have no or inadequate retail internet service providers, requests the public utility district to provide the retail internet service, and is signed by one of the following:

(a) A majority of a group, including homeowners' associations, of any geographical area within the public utility district, who
have developed a partnership payment structure to finance broadband deployment with the public utility district; or

(b) Any individual who has developed a partnership payment structure to finance broadband deployment with the public utility district.

(5) For the purposes of this section, the adequacy of retail internet service is determined by measuring retail internet service to end users on the public utility district's broadband network and comparing it with service standards in the public utility district service level agreement used for all public utility district network providers. Measurement of the existing retail internet service provider's service must be quantified by measuring the service with speed and capacity devices and software. Additionally, a retail internet service provider may submit its own assessment of its service level for consideration by the commission within thirty days of the first meeting conducted under subsection (3) of this section.

(6) The commissioners of a public utility district may by resolution authorize the public utility district to provide or contract for provision of retail internet services on the public utility district's broadband network:

(a) After development of a business case plan in accordance with subsection (7) of this section; and

(b) When it is determined that no service or inadequate service exists for the individual or petitioners identified in subsection (4) of this section.

(7) The business case plan under subsection (6) of this section must be reviewed by an independent qualified consultant. The review must include the use of public funds in the provision of retail internet service. Any recommendations or adjustments to the business case plan made during third-party review must be received and either rejected or accepted by the district board of commissioners in an open meeting.

(8)(a) Except as provided in subsection (9) of this section, in case of failure to reach an agreement on the adequacy of retail internet service, the commissioners must request an appointment of an administrative law judge under Title 34 RCW to hear the dispute.

(b) The commissioners must provide a written notice, together with a copy of the dispute, and may require the disputing parties to attend a hearing before the administrative law judge, at a time and place to be specified in the written notice.

(c) The place of any such hearing may be the office of the commissioners or another place designated by the commissioners. The disputed information must be presented at the hearing.

(d) Upon review and consideration of all of the evidence, the administrative law judge must determine if the retail internet service is inadequate or nonexistent as defined in this section. Upon making a determination, the administrative law judge must state findings of fact and must issue and file a determination with the commissioners.

(9) If a provider of end-user service is a company regulated by the utilities and transportation commission, the company may choose to have the commission resolve disputes concerning the service level agreement under the process established in RCW 54.16.340. For the purposes of this subsection, "company" includes subsidiaries or affiliates.

(10) Any public utility district providing cable television service under this section must secure a cable television franchise, pay franchise fees, and any applicable taxes to the local cable franchise authority as required by federal law.

(11) Except as provided in subsection (9) of this section, nothing in this section may be construed or is intended to confer upon the utilities and transportation commission any authority to exercise jurisdiction over locally regulated utilities.

(12) All rates for retail internet services offered by a public utility district under this section must be just, fair, and reasonable, except the public utility district may set tiers of service charges based on service demands of the end user, including commercial and residential rates.

(13) A public utility district must not condition the availability or cost of other services upon the purchase or use of retail internet service.

(14) A public utility district authorized to provide retail internet service within a specific geographical area must, upon reasonable notice, furnish to all persons and entities within that geographical area meeting the provisions of subsections (2) and (4) of this section proper facilities and connections for retail internet service as requested.

(15) A public utility district providing retail internet service must separately account for any revenues and expenditures for those services according to standards established by the state auditor pursuant to its authority in chapter 43.09 RCW and consistent with the provisions of this title.

NEW SECTION. Sec. 2. A new section is added to chapter 34.12 RCW to read as follows:

When requested by the public utility district commissioners, the chief administrative law judge shall assign an administrative law judge to conduct proceedings under section 1 of this act.

NEW SECTION. Sec. 3. A new section is added to chapter 54.16 RCW to read as follows:

(1) Property owned by a public utility district that is exempt from property tax under RCW 84.36.010 is subject to an annual payment in lieu of property taxes if the property consists of a broadband network used in providing retail internet service.

(2)(a) The amount of the payment must be determined jointly and in good faith negotiation between the public utility district that owns the property and the county or counties in which the property is located.

(b) The amount agreed upon may not exceed the property tax amount that would be owed on the property comprising the broadband network used in providing retail internet service calculated by the department of revenue. The public utility district must provide information necessary for the department of revenue to make the required valuation under this subsection. The department of revenue must provide the amount of property tax that would be owed on the property to the county or counties in which the broadband network is located on an annual basis.

(c) If the public utility district and a county cannot agree on the amount of the payment in lieu of taxes, either party may invoke binding arbitration by providing written notice to the other party. In the event that the amount of payment in lieu of taxes is submitted to binding arbitration, the arbitrators must consider the government services available to the public utility district's broadband network used in providing retail internet service. The public utility district and county must each select one arbitrator, the two of whom must pick a third arbitrator. Costs of the arbitration, including compensation for the arbitrators' services, must be borne equally by the parties participating in the arbitration.

(3) By April 30th of each year, a public utility district must remit the annual payment to the county treasurer of each county in which the public utility district's broadband network used in providing retail internet service is located in a form and manner required by the county treasurer.

(4) The county must distribute the amounts received under this section to all property taxing districts, including the state, in appropriate tax code areas in the same proportion as it would distribute property taxes from taxable property.
and the same is herewith transmitted.

ENGROSSED HOUSE BILL NO. 2008, by Representatives Kagi, Jinkins and Senn

Addressing the budgeting process for core state services for children.

MOTION

Senator Frockt moved that the following striking amendment no. 950 by Senator Frockt be adopted:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature finds that effective planning for and implementation of core state services for children requires predictability and stability in the budgeting process for these services. For these reasons, the legislature intends that costs for behavioral rehabilitation services, child protective services staff, and contracted visitation services be included in the state budgeting process at maintenance level. By implementing consistent statewide assessments, forecasting program caseloads, and incorporating forecast-based program costs into the maintenance level budget, the state can ensure predictable funding levels for this program.

NEW SECTION. Sec. 2. (1) The children and families services program of the department of social and health services through June 30, 2018, and of the department of children, youth, and families effective July 1, 2018, shall facilitate a stakeholder work group in a collaborative effort to design a behavioral rehabilitation services rate payment methodology that is based on actual provider costs of care. The work group may consider the findings of a contracted rate analysis in designing the methodology. By November 30, 2018, and in compliance with RCW 43.01.036, the department of children, youth, and families must submit a report with the final work group findings and recommendations to the appropriate legislative committees.

(2) This section expires December 31, 2018.

NEW SECTION. Sec. 3. A new section is added to chapter 74.13 RCW to read as follows:

The office of innovation, alignment, and accountability must develop a single validated tool to assess the care needs of foster children. Once the validated tool is available for use on a statewide basis, the department of children, youth, and families must use the tool for assessing the care needs of foster children, including but not limited to whether the department should provide foster children with behavioral rehabilitation services. The department must notify the caseload forecast council, the office of financial management, and the appropriate fiscal committees of the legislature when it begins statewide use of the validated tool.

Sec. 4. RCW 43.88C.010 and 2015 c 128 s 2 are each amended to read as follows:

(1) The caseload forecast council is hereby created. The council shall consist of two individuals appointed by the governor and four individuals, one of whom is appointed by the chair of each of the two largest political caucuses in the senate and house of representatives. The chair of the council shall be selected from among the four caucus appointees. The council may select such other officers as the members deem necessary.

(2) The council shall employ a caseload forecast supervisor to supervise the preparation of all caseload forecasts. As used in this chapter, "supervisor" means the caseload forecast supervisor.

(3) Approval by an affirmative vote of at least five members of the council is required for any decisions regarding employment of the supervisor. Employment of the supervisor shall terminate after each term of three years. At the end of the first year of each three-year term the council shall consider extension of the supervisor's term by one year. The council may fix the compensation of the supervisor. The supervisor shall employ staff sufficient to accomplish the purposes of this section.

(4) The caseload forecast council shall oversee the preparation of and approve, by an affirmative vote of at least four members, the official state caseload forecasts prepared under RCW 43.88C.020. If the council is unable to approve a forecast before a date required in RCW 43.88C.020, the supervisor shall submit the forecast without approval and the forecast shall have the same effect as if approved by the council.

(5) A councilmember who does not cast an affirmative vote for approval of the official caseload forecast may request, and the supervisor shall provide, an alternative forecast based on assumptions specified by the member.

(6) Members of the caseload forecast council shall serve without additional compensation but shall be reimbursed for travel expenses in accordance with RCW 44.04.120 while attending sessions of the council or on official business authorized by the council. Nonlegislative members of the council shall be reimbursed for travel expenses in accordance with RCW 43.03.050 and 43.03.060.

(7) "Caseload," as used in this chapter, means:

(a) The number of persons expected to meet entitlement requirements and require the services of public assistance programs, state correctional institutions, state correctional noninstitutional supervision, state institutions for juvenile offenders, the common school system, long-term care, medical assistance, foster care, and adoption support;
(b) The number of students who are eligible for the Washington
college bound scholarship program and are expected to attend an
institution of higher education as defined in RCW 28B.92.030;
(c) The number of children who are eligible, as defined in
RCW ((43.215.405)) 43.216.505, to participate in, and the

(8) The caseload forecast council shall forecast the temporary
assistance for needy families and the working connections child

RCW 74.13.031 separately from other children who are residing
in foster care and who are under eighteen years of age.
(10) The caseload forecast council shall forecast the number of
youth expected to receive behavioral rehabilitation services while
involved in the foster care system and the number of screened in
reports of child abuse or neglect.
(11) Unless the context clearly requires otherwise, the

March 1, 2018

To the Honorable President and Members,
The Senate of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval, Engrossed Senate Bill No. 6617 entitled:
"AN ACT Relating to records disclosure obligations of the legislative branch."

At the request of a number of lawmakers, I am vetoing Engrossed Senate Bill 6617 in its entirety so that the Legislature can engage with the public and stakeholders in a transparent process to discuss and consider legislative public records issue.

While a wide majority of lawmakers voted for Engrossed Senate Bill 6617 as a genuine effort to create clarity and increase transparency, the process was seriously flawed. I applaud Washingtonians for making their voices heard as well as legislators' thoughtful reconsideration.

For these reasons I have vetoed Engrossed Senate Bill No. 6617 in its entirety.

Respectfully submitted,

/s/
Jay Inslee
Governor

REMARKS BY SENATOR LIIAS

Senator Liias: “Thank you Mr. President. I know the members have likely seen the news but some members of our Washington state family were killed in a tragic traffic accident in the early hours of this morning on Interstate 5 and it shut down the interstate completely. It sounds like there was a hit and run accident and three innocent people lost their lives in that so I know we send our thoughts and our prayers and best wishes to those families. And Mr. President, as a result, some of our members are still having difficulty getting to the capitol as traffic continues to be a problem.”

EDITOR’S NOTE: A series of traffic accidents, shortly after 2:00 o’clock a.m., March 8, 2018, in both directions of Interstate 5 near Lakewood closed all southbound lanes and three northbound lanes of the Interstate. The crashes were initiated by a hit-and-run collision that was responsible for three innocent deaths. A Dupont Police Department office who had responded to assist the Washington State Patrol suffered minor injuries when their patrol car was struck by a semi at the scene. All lanes were re-opened by 7:30 a.m. Traffic remained congested for several hours.

**REPORT OF THE CONFERENCE COMMITTEE**

Engrossed House Bill No. 2519

March 7, 2018

MR. PRESIDENT:

We of your conference committee, to whom was referred Engrossed House Bill No. 2519, addressing concealed pistol license eligibility, have had the same under consideration and recommend that all previous amendments not be adopted and that the following striking amendment be adopted:

Strike everything after the enacting clause and insert the following:

"Sec. 1. RCW 9.41.345 and 2015 c 130 s 2 are each amended to read as follows:

1. Before a law enforcement agency returns a privately owned firearm, the law enforcement agency must:
   a. Confirm that the individual to whom the firearm will be returned is the individual from whom the firearm was obtained or an authorized representative of that person;
   b. Confirm that the individual to whom the firearm will be returned is eligible to possess a firearm pursuant to RCW 9.41.040;
   c. Ensure that the firearm is not otherwise required to be held in custody or otherwise prohibited from being released; and
   d. Ensure that twenty-four hours have elapsed from the time the firearm was obtained by law enforcement.

2. (a) Once the requirements in subsections (1) and (3) of this section have been met, a law enforcement agency must release a firearm to the individual from whom it was obtained or an authorized representative of that person upon request without unnecessary delay.
   (i) If a firearm cannot be returned because it is required to be held in custody or is otherwise prohibited from being released, a law enforcement agency must provide written notice to the individual from whom it was obtained within five business days of the individual requesting return of his or her firearm and specify the reason the firearm must be held in custody.
   (ii) Notification may be made via email, text message, mail service, or personal service. For methods other than personal service, service shall be considered complete once the notification..."
(3) If a family or household member has requested to be notified pursuant to RCW 9.41.340, a law enforcement agency must:

(a) Provide notice to the family or household member within one business day of verifying that the requirements in subsection (1) of this section have been met; and

(b) Hold the firearm in custody for seventy-two hours from the time notification has been provided.

(4)(a) A law enforcement agency may not return a concealed pistol license that has been surrendered to or impounded by the law enforcement agency for any reason to the licensee unless the law enforcement agency determines the licensee is eligible to possess a firearm under state and federal law and meets the other eligibility requirements for a concealed pistol license under RCW 9.41.070.

(b) A law enforcement agency must release a concealed pistol license to the licensee without unnecessary delay, and in no case longer than five business days, after the law enforcement agency determines the requirements of (a) of this subsection have been met.

(5) The provisions of chapter 130, Laws of 2015 and subsection (4) of this section shall not apply to circumstances where a law enforcement officer has momentarily obtained a firearm or concealed pistol license from an individual and would otherwise immediately return the firearm or concealed pistol license to the individual during the same interaction.

Sec. 2. RCW 9.41.070 and 2017 c 282 s 1 and 2017 C 174 s 1 are each reenacted and amended to read as follows:

(1) The chief of police of a municipality or the sheriff of a county shall within thirty days after the filing of an application of any person, issue a license to such person to carry a pistol concealed on his or her person within this state for five years from date of issue, for the purposes of protection or while engaged in business, sport, or while traveling. However, if the applicant does not have a valid permanent Washington driver's license or Washington state identification card or has not been a resident of the state for the previous consecutive ninety days, the issuing authority shall have up to sixty days after the filing of the application to issue a license. The issuing authority shall not refuse to accept completed applications for concealed pistol licenses during regular business hours.

The applicant's constitutional right to bear arms shall not be denied, unless:

(a) He or she is ineligible to possess a firearm under the provisions of RCW 9.41.040 or 9.41.045, or is prohibited from possessing a firearm under federal law;

(b) The applicant's concealed pistol license is in a revoked status;

(c) He or she is under twenty-one years of age;

(d) He or she is subject to a court order or injunction regarding firearms pursuant to chapters 7.90, 7.92, or 7.94 RCW, or RCW 9A.46.080, 10.14.080, 10.99.040, 10.99.045, 26.09.050, 26.09.060, 26.10.040, 26.10.115, 26.26.130, 26.50.060, 26.50.070, or 26.26.590;

(e) He or she is free on bond or personal recognizance pending trial, appeal, or sentencing for a felony offense;

(f) He or she has an outstanding warrant for his or her arrest from any court of competent jurisdiction for a felony or misdemeanor; or

(g) He or she has been ordered to forfeit a firearm under RCW 9.41.098(1)(e) within one year before filing an application to carry a pistol concealed on his or her person.

No person convicted of a felony may have his or her right to possess firearms restored or his or her privilege to carry a concealed pistol restored, unless the person has been granted relief from disabilities by the attorney general under 18 U.S.C. Sec. 925(c), or RCW 9.41.040 (3) or (4) applies.

(2)(a) The issuing authority shall conduct a check through the national instant criminal background check system, the Washington state patrol electronic database, the department of social and health services electronic database, and with other agencies or resources as appropriate, to determine whether the applicant is ineligible under RCW 9.41.040 or 9.41.045 to possess a firearm, or is prohibited from possessing a firearm under federal law, and therefore ineligible for a concealed pistol license.

(b) The issuing authority shall deny a permit to anyone who is found to be prohibited from possessing a firearm under federal or state law.

(c) This subsection applies whether the applicant is applying for a new concealed pistol license or to renew a concealed pistol license.

(3) Any person whose firearms rights have been restricted and who has been granted relief from disabilities by the attorney general under 18 U.S.C. Sec. 925(c) or who is exempt under 18 U.S.C. Sec. 921(a)(20)(A) shall have his or her right to acquire, receive, transfer, ship, transport, carry, and possess firearms in accordance with Washington state law restored except as otherwise prohibited by this chapter.

(4) The license application shall bear the full name, residential address, telephone number at the option of the applicant, email address at the option of the applicant, date and place of birth, race, gender, description, a complete set of fingerprints, and signature of the licensee, and the licensee's driver's license number or state identification card number if used for identification in applying for the license. A signed application for a concealed pistol license shall constitute a waiver of confidentiality and written request that the department of social and health services, mental health institutions, and other health care facilities release information relevant to the applicant's eligibility for a concealed pistol license to an inquiring court or law enforcement agency.

The application for an original license shall include a complete set of fingerprints to be forwarded to the Washington state patrol.

The license and application shall contain a warning substantially as follows:

CAUTION: Although state and local laws do not differ, federal law and state law on the possession of firearms differ. If you are prohibited by federal law from possessing a firearm, you may be prosecuted in federal court. A state license is not a defense to a federal prosecution.

The license shall contain a description of the major differences between state and federal law and an explanation of the fact that local laws and ordinances on firearms are preempted by state law and must be consistent with state law.

The application shall contain questions about the applicant's eligibility under RCW 9.41.040 and federal law to possess a pistol, the applicant's place of birth, and whether the applicant is a United States citizen. If the applicant is not a United States citizen, the applicant must provide the applicant's country of citizenship, United States issued alien number or admission number, and the basis on which the applicant claims to be exempt from federal prohibitions on firearm possession by aliens. The applicant shall not be required to produce a birth certificate or other evidence of citizenship. A person who is not a citizen of the United States shall, if applicable, meet the additional requirements of RCW 9.41.173 and produce proof of compliance with RCW 9.41.173 upon application. The license may be in
triplicate or in a form to be prescribed by the department of licensing.

A photograph of the applicant may be required as part of the application and printed on the face of the license.

The original thereof shall be delivered to the licensee, the duplicate shall within seven days be sent to the director of licensing and the triplicate shall be preserved for six years, by the authority issuing the license.

The department of licensing shall make available to law enforcement and corrections agencies, in an on-line format, all information received under this subsection.

(5) The nonrefundable fee, paid upon application, for the original five-year license shall be thirty-six dollars plus additional charges imposed by the federal bureau of investigation that are passed on to the applicant. No other state or local branch or unit of government may impose any additional charges on the applicant for the issuance of the license.

The fee shall be distributed as follows:
(a) Fifteen dollars shall be paid to the state general fund;
(b) Four dollars shall be paid to the agency taking the fingerprints of the person licensed;
(c) Fourteen dollars shall be paid to the issuing authority for the purpose of enforcing this chapter;
(d) Two dollars and sixteen cents to the firearms range account in the general fund; and
(e) Eighty-four cents to the concealed pistol license renewal notification account created in RCW 43.79.540.

(6) The nonrefundable fee for the renewal of such license shall be thirty-two dollars. No other branch or unit of government may impose any additional charges on the applicant for the renewal of the license.

The renewal fee shall be distributed as follows:
(a) Fifteen dollars shall be paid to the state general fund;
(b) Four dollars shall be paid to the agency taking the fingerprints of the person licensed;
(c) Two dollars and sixteen cents to the firearms range account in the general fund; and
(d) Eighty-four cents to the concealed pistol license renewal notification account created in RCW 43.79.540.

(7) The nonrefundable fee for replacement of lost or damaged licenses is ten dollars to be paid to the issuing authority.

(8) Payment shall be by cash, check, or money order at the option of the applicant. Additional methods of payment may be allowed at the option of the issuing authority.

(9)(a) A licensee may renew a license if the licensee applies for renewal within ninety days before or after the expiration date of the license. A license so renewed shall take effect on the expiration date of the prior license. A licensee renewing after the expiration date of the license must pay a late renewal penalty of ten dollars in addition to the renewal fee specified in subsection (6) of this section. The fee shall be distributed as follows:
(i) Three dollars shall be deposited in the state wildlife account and used exclusively first for the printing and distribution of a pamphlet on the legal limits of the use of firearms, firearms safety, and the preemptive nature of state law, and subsequently the support of volunteer instructors in the basic firearms training program conducted by the department of fish and wildlife. The pamphlet shall be given to each applicant for a license; and
(ii) Seven dollars shall be paid to the issuing authority for the purpose of enforcing this chapter.
(b) Beginning with concealed pistol licenses that expire on or after August 1, 2018, the department of licensing shall mail a renewal notice approximately ninety days before the license expiration date to the licensee at the address listed on the concealed pistol license application, or to the licensee's new address if the licensee has notified the department of licensing of a change of address. Alternatively, if the licensee provides an email address at the time of license application, the department of licensing may send the renewal notice to the licensee's email address. The notice must contain the date the concealed pistol license will expire, the amount of renewal fee, the penalty for late renewal, and instructions on how to renew the license.

(10) Notwithstanding the requirements of subsections (1) through (9) of this section, the chief of police of the municipality or the sheriff of the county of the applicant's residence may issue a temporary emergency license for good cause pending review under subsection (1) of this section. However, a temporary emergency license issued under this subsection shall not exempt the holder of the license from any records check requirement. Temporary emergency licenses shall be easily distinguishable from regular licenses.

(11) A political subdivision of the state shall not modify the requirements of this section or chapter, nor may a political subdivision ask the applicant to voluntarily submit any information not required by this section.

(12) A person who knowingly makes a false statement regarding citizenship or identity on an application for a concealed pistol license is guilty of false swearing under RCW 9A.72.040. In addition to any other penalty provided for by law, the concealed pistol license of a person who knowingly makes a false statement shall be revoked, and the person shall be permanently ineligible for a concealed pistol license.

(13) A person may apply for a concealed pistol license:
(a) To the municipality or to the county in which the applicant resides if the applicant resides in a municipality;
(b) To the county in which the applicant resides if the applicant resides in an unincorporated area; or
(c) Anywhere in the state if the applicant is a nonresident.

(14) Any person who, as a member of the armed forces, including the national guard and armed forces reserves, is unable to renew his or her license within ninety days after the person returns to this state from out-of-state military service, if the person provides the following to the issuing authority no later than ninety days after the person's date of discharge or assignment, reassignment, or deployment back to this state: (a) A copy of the person's original order designating the specific period of assignment, reassignment, or deployment for out-of-state military service may renew his or her license within ninety days after the person returns to this state from out-of-state military service, if the person provides the following to the issuing authority no later than ninety days after the person's date of discharge or assignment, reassignment, or deployment back to this state: (a) A copy of the person's original order designating the specific period of assignment, reassignment, or deployment for out-of-state military service, and
(b) if appropriate, a copy of the person's discharge or amended or subsequent assignment, reassignment, or deployment order back to this state. A license so renewed under this subsection (14) shall take effect on the expiration date of the prior license. A licensee renewing after the expiration date of the license under this subsection (14) shall pay only the renewal fee specified in subsection (6) of this section and shall not be required to pay a late renewal penalty in addition to the renewal fee."

On page 1, line 2 of the title, after "requirements;" strike the remainder of the title and insert "amending RCW 9.41.345; and reenacting and amending RCW 9.41.070."

(6) $666,000 of the high occupancy toll lanes operations account—state appropriation, $11,527,000 of the state route number 520 corridor account—state appropriation, $4,955,000 of the Tacoma Narrows toll bridge account—state appropriation, $4,286,000 of the Interstate 405 express toll lanes operations account—state appropriation, and $6,506,000 of the Alaskan Way viaduct replacement project account—state appropriation are provided solely for the department to implement a new tolling customer service toll collection system, and are subject to the conditions, limitations, and review provided in section 701 ([of this act]), chapter 313, Laws of 2017.

(a) The office of financial management shall place $2,000,000 of the amounts provided in this subsection in unallotted status, to be distributed between the facilities using the account proportions in this subsection. If the vendors selected as the successful bidders for the new tolling customer service toll collection system or the operator of the new system are different than the vendor as of January 1, 2017, the office of financial management may release portions of this amount as transition costs.

(b) The funds provided in this subsection from the Alaskan Way viaduct replacement project account—state appropriation are provided through a transfer from the motor vehicle account—state in section 408(26) ([of this act]), chapter 313, Laws of 2017. These funds are a loan to the Alaskan Way viaduct replacement project account—state, and the legislature assumes that these funds will be reimbursed to the motor vehicle account—state at a later date when the portion of state route number 99 that is the deep bore tunnel is operational.

(c) The department must provide a project status report to the office of financial management and the transportation committees of the legislature on at least a calendar quarterly basis. The report must include, but is not limited to:

(i) Detailed information about the planned and actual scope, schedule, and budget;

(ii) Status of key vendor and other project deliverables; and

(iii) A description of significant changes to planned deliverables or system functions over the life of the project.

(d) The department shall continue to work with the office of financial management, office of the chief information officer, and the transportation committees of the legislature on the project management plan that includes a provision for independent verification and validation of contract deliverables from the successful bidder and a provision for quality assurance that includes reporting independently to the office of the chief information officer on an ongoing basis during system implementation.

(7) The department shall make detailed quarterly reports to the governor and the transportation committees of the legislature on the following:

(a) The use of consultants in the tolling program, including the name of the contractor, the scope of work, the type of contract, timelines, deliverables, any new task orders, and any extensions to existing consultant contracts;

(b) The nonvendor costs of administering toll operations, including the costs of staffing the division, consultants and other personal service contracts required for technical oversight and management assistance, insurance, payments related to credit card processing, transponder purchases and inventory management, facility operations and maintenance, and other miscellaneous nonvendor costs; and

(8) ($13,617,000) $13,179,000 of the Interstate 405 express toll lanes operations account—state appropriation is provided solely for operational costs related to the express toll lane facility. (9) In 2021, toll equipment on the Tacoma Narrows Bridge will have reached the end of its operational life. During the 2017-2019 fiscal biennium, the department plans to issue a request for proposals as the first stage of a competitive procurement process that will replace the toll equipment and select a new tolling operator for the Tacoma Narrows Bridge. The request for proposals and subsequent competitive procurement must incorporate elements that prioritize the overall goal of lowering costs per transaction for the facility, such as incentives for innovative approaches which result in lower transactional costs, requests for efficiencies on the part of the bidder that lower operational costs, and incorporation of technologies such as self-serve credit card machines or point-of-payment technologies that lower costs or improve operational efficiencies.

(10) $5,583,000 of the Alaskan Way viaduct replacement project account—state appropriation is provided solely for the new state route number 99 tunnel toll facility's expected proportional share of collecting toll revenues, operating customer services, and maintaining toll collection systems for the last seven months of the biennium. Due to the uncertainty of the new state route number 99 tunnel toll facility timeline, the legislature is holding the other tolled facilities' administrative cost shares constant for this biennium. The legislature expects to see appropriate reductions to the other toll facility accounts once tolling on the new state route number 99 tunnel toll facility commences and any previously incurred costs for start-up of the new facility are charged back to the Alaskan Way viaduct replacement project account. The office of financial management shall closely monitor the application of the cost allocation model and ensure that the new state route number 99 tunnel toll facility is adequately sharing costs and the other toll facility accounts are not being overspent or subsidizing the new state route number 99 tunnel toll facility.

(11) $1,849,000 of the Alaskan Way viaduct replacement project account—state appropriation is provided solely for the costs associated with the sale of transponders for the opening of the new state route number 99 toll facility in Seattle. The office of financial management shall place $510,000 of the amount provided in this subsection in unallotted status. The office of financial management may only release the funds to the department if it determines the transponder inventory will otherwise not be sufficient for facility ramp up.

Sec. 210. 2017 c 313 s 210 (uncodified) is amended to read as follows:

FOR THE DEPARTMENT OF TRANSPORTATION—AVIATION—PROGRAM F
Aeronautics Account—State Appropriation .... ($6,219,000) $7,326,000
Aeronautics Account—Federal Appropriation ($4,500,000) $6,855,000
Aeronautics Account—Private/Local Appropriation $171,000
The appropriations in this section are subject to the following conditions and limitations:

1. $300,000 of the motor vehicle account—state appropriation is provided solely for the completion of property value determinations for surplus properties to be sold. The value determinations must be completed by agency staff if available; otherwise, the agency may contract out for these services. The real estate services division of the department must recover the cost of its efforts from the sale of surplus property. Proceeds for surplus property sales must fund additional future sales, and the real estate services division shall prioritize staff resources to meet revenue assumptions for surplus property sales.

2. The legislature recognizes that the trail known as the Rocky Reach Trail, and its extensions, serve to separate motor vehicle traffic from pedestrians and bicyclists, increasing motor vehicle safety on state route number 2 and the coincident section of state route number 97. Consistent with chapter 47.30 RCW and pursuant to RCW 47.12.080, the legislature declares that transferring portions of WSDOT Inventory Control (IC) No. 2-09-04686 containing the trail and associated buffer areas to the Washington state parks and recreation commission is consistent with the public interest. The legislature directs the department to transfer the property to the Washington state parks and recreation commission.

(a) The department must be paid fair market value for any portions of the transferred real property that is later abandoned, vacated, or ceases to be publicly maintained for trail purposes.

(b) Prior to completing the transfer in this subsection (2), the department must ensure that provisions are made to accommodate private and public utilities and any facilities that predate the department's acquisition of the property, at no cost to those entities. Prior to completing the transfer, the department shall also ensure that provisions, by fair market assessment, are made to accommodate other private and public utilities and any facilities that have been legally allowed by permit or other instrument.

(c) The department may sell any adjoining property that is not necessary to support the Rocky Reach Trail and adjacent buffer areas only after the transfer of trail-related property to the Washington state parks and recreation commission is complete. Adjoining property owners must be given the first opportunity to acquire such property that abuts their property, and applicable boundary line or other adjustments must be made to the legal descriptions for recording purposes.

The SR 520 Bridge Replacement and HOV project (8BI1003) is supported over time from multiple sources, including a $300,000,000 TIFIA loan, $924,615,000 in Garvee bonds, toll revenues, state bonds, interest earnings, and other miscellaneous sources. $(14)(16)(a)$ of the transportation partnership account—state appropriation $(16)(a)$, $12,296,000 of the motor vehicle account—federal appropriation, and $232,000 of the motor vehicle account—local appropriation are provided solely for the SR 520 Bridge Replacement and HOV project (8BI1003). $(14)(16)(b)$ The secretary of transportation must develop a memorandum of understanding with local project stakeholders for either project.

(b) ($44,311,000) $78,958,000 of the transportation partnership account—state appropriation $(16)(a)$, $12,296,000 of the motor vehicle account—federal appropriation, and $232,000 of the motor vehicle account—local appropriation are provided solely for the SR 520 Bridge Replacement and HOV project (8BI1003). $(14)(16)(c)$ When developing the financial plan for the project, the department shall assume that all maintenance and operation costs for the new facility are to be covered by tolls collected on the toll facility and not by the motor vehicle account.

The department shall itemize all future requests for the construction of buildings on a project list and submit them through the transportation executive information system as part of the department’s annual budget submittal. It is the intent of the legislature that new facility construction must be transparent and not appropriated within larger highway construction projects.

Any advisory group that the department convenes during the 2017-2019 fiscal biennium must consider the interests of the entire state of Washington. $(18)$ It is the intent of the legislature that for the I-5 JBLM Corridor Improvements project (M00100R), the department shall actively pursue $50,000,000 in federal funds to pay for this project to supplant state funds in the future. $50,000,000 in connecting Washington account funding must be held in unallotted status during the 2021-2023 fiscal biennium. These funds may only be used after the department has provided notice to the office of financial management that it has exhausted all efforts to secure federal funds from the federal highway administration and the department of defense.

$(19)$ $93,500,000 of the connecting Washington account—state appropriation is provided solely for the SR 167/SR 509 Puget Sound Gateway project (M00600R). $(19)(a)$ Any savings on the project must stay on the Puget Sound Gateway corridor until the project is complete.

(b) Proceeds from the sale of any surplus real property acquired for the purpose of building the SR 167/SR 509 Puget Sound Gateway (M00600R) project must be deposited into the motor vehicle account for the purpose of constructing the project.

In making budget allocations to the Puget Sound Gateway project, the department shall implement the project’s construction as a single corridor investment. The department shall develop a coordinated corridor construction and implementation plan for state route number 167 and state route number 509 in collaboration with affected stakeholders. Specific funding allocations must be based on where and when specific project segments are ready for construction to move forward and investments can be best optimized for timely project completion. Emphasis must be placed on avoiding gaps in fund expenditures for either project.

The secretary of transportation must develop a memorandum of understanding with local project stakeholders that identifies a schedule for stakeholders to provide local matching funds for the Puget Sound Gateway project. Criteria for eligibility of local match includes matching funds and equivalent in-kind contributions including, but not limited to, land donations. The memorandum of understanding must be finalized by July 1, 2018. The department must submit a copy of the memorandum of understanding to the transportation committees of the legislature and report regularly on the status of the requirements outlined in this subsection.

During the course of developing the memorandum of understanding, the department must evaluate the project schedules to determine if there are any benefits to be gained by moving the project schedule forward. The department must consider completing it. It is the legislature's intent that if the department identifies any savings after the funding gap on the base project is closed as part of the proposal to expedite the project, that these cost savings shall go toward construction of a full single-point urban interchange at the junction of state route number 161 (Meridian avenue) and state route number 167 and a full single-point urban interchange at the junction of state route number 509 and 188th Street. If the department receives additional funds from an outside source for this project after the funding gap on the base project is closed, the funds must be applied toward the completion of these two full single-point urban interchanges.

For the SR 167/SR 509 Puget Sound Gateway project (M00600R) the department is strongly encouraged to work to relocate any significant businesses currently located within the planned path of the state route number 509/Interstate 5 undercrossing to a location within the Kent city limits. The department shall provide regular updates on its progress to the joint transportation committee and affected stakeholders.

In designing the state route number 509/state route number 516 interchange component of the SR 167/SR 509 Puget Sound Gateway project (M00600R), the department shall make every effort to utilize the preferred "4B" design.

It is the intent of the legislature that, for the I-5/North Lewis County Interchange project (L2000204), the department develop and design the project with the objective of significantly improving access to the industrially zoned properties in north Lewis county. The design must consider the county’s process of investigating alternatives to improve such access from Interstate 5 that began in March 2015.

The department shall develop the IJR in close collaboration with affected local jurisdictions, including Snohomish county and the cities of Everett, Lake Stevens, Marysville, Snohomish, and Monroe.

Within the amount provided for the IJR, the department must address public outreach and the overall operational approval of the IJR.

The department shall complete the IJR and submit the final report to the governor and the transportation committees of the legislature by July 1, 2018.

The legislature recognizes that the city of Mercer Island has unique access issues that require the use of Interstate 90 to leave the island and that this access may be affected by the I-90/Two-Way Transit and HOV Improvements project. One of the most heavily traveled on-ramps from Mercer Island to the westbound Interstate 90 general purpose lanes is from Island Crest Way. The department must continue to consult with the city of Mercer Island and the other signatories to the 1976 memorandum of agreement to preserve access provided to Mercer Island to the westbound Interstate 90 general purpose lanes is from Island Crest Way.
Island by the Island Crest Way on-ramp, and thus grandfather in the current use of the on-ramp for both high occupancy vehicles as well as vehicles seeking to access the general purpose lanes of Interstate 90. The department must consider all reasonable access solutions, including allowing all vehicles to use the Island Crest Way on-ramp to access the new high occupancy vehicle lane with a reasonable and safe distance provided for single-occupancy vehicles to merge into the general purpose lanes.

(b) A final access solution for Mercer Island must consider the following criteria: Safety; operational effects on all users, including maintaining historic access to Interstate 90 provided from Mercer Island by Island Crest Way; enforcement requirements; and compliance with state and federal law.

c) The department may not restrict by occupancy the westbound on-ramp from Island Crest Way until a final access solution that meets the criteria in (b) of this subsection has been reached.

(((24) $2,000,000.00)) (25) $3,258,000 of the Interstate 405 express toll lanes operations account—state appropriation is provided solely for the I-405 NB Hard Shoulder Running – SR 527 to I-5 project (L10000163).

(((25)) (26) The legislature finds that there are sixteen companies involved in wood preserving in the state that employ four hundred workers and have an annual payroll of fifteen million dollars. Before the department's switch to steel guardrails, ninety percent of the twenty-five hundred mile guardrail system was constructed of preserved wood and one hundred ten thousand wood guardrail posts were produced annually for state use. Moreover, the policy of using steel posts requires the state to use imported steel. Given these findings, where practicable, and until June 30, 2019, the department shall include the design option to use wood guardrail posts, in addition to steel posts, in new guardrail installations. The selection of posts must be consistent with the agency design manual policy that existed before December 2009.

(((26)) (27) For the SR 526 Corridor Improvements project (N52600R), the department shall look holistically at the state route number 526 corridor from the state route number 526/Interstate 5 interchange at the east end to the southwest Everett industrial area and Boeing's west access road on the west end. The department, working with affected jurisdictions and stakeholders, shall select project elements that best maximize mobility and congestion relief in the corridor and draw from project elements identified in a practical solutions process.

(((27)) It is the intent of the legislature that for the I-5/Slater Road – Interchange Improvements project (L1000099), $2,000,000 of connecting Washington account—state funds be added in the 2021-2023 fiscal biennium and $40,000,000 of connecting Washington account—state funds be added in the 2023-2025 fiscal biennium, and that the LEAP transportation document referenced in subsection (1) of this section be updated accordingly.)

(28) For projects funded as part of the 2015 connecting Washington transportation package listed on the LEAP transportation document identified in subsection (1) of this section, if the department expects to have substantial reappropriations for the 2019-2021 fiscal biennium, the department may, on a pilot basis, apply funding from a project with an appropriation that cannot be used for the current fiscal biennium to advance one or more of the following projects:
(i) SR 20/Sharpes Corner Vicinity Intersection (L1000112);
(ii) I-5/Minivan Road/SR 510 Interchange (L1001101);
(iii) I-5/Northbound On-ramp at Bakerview (L2000119);

(b) At least ten business days before advancing a project pursuant to this subsection, the department must notify the office of financial management and the transportation committees of the legislature. The advancement of a project may not hinder the delivery of the projects for which the reappropriations are necessary for the 2019-2021 fiscal biennium.

(29) Within existing resources and in consultation with local communities, the department shall begin planning efforts, including traffic data collection, analysis and evaluation, scoping, and environmental review, for roundabouts at the intersection of state route number 90 and SE May Valley Road and at the intersection of state route number 169 and Cedar Grove Road SE.

(30) (Among the options studied as part of the SR 410 Corridor Study project (L1000074), the department shall examine the mobility and safety benefits of replacing or expanding the White River bridge between Enumclaw and Buckley to four lanes and removing the trestle.) The legislature continues to prioritize the replacement of the state's aging infrastructure and recognizes the importance of reusing and recycling construction aggregate and recycled concrete materials in our transportation system.

To accomplish Washington state's sustainability goals in transportation and in accordance with RCW 70.95.805, the legislature reaffirms its direction to the department to lead the way in advancing the reuse and recycling of construction aggregate and recycled concrete materials whenever readily available, to use these recycled products when cost competitive, and to work with industry implementation partners to remove obstacles that unnecessarily preclude or inhibit their use and implement strategies for the reuse and recycling of construction aggregate and recycled concrete materials.

Specific steps and efforts made to achieve these objectives and accomplishments shall be included in the annual report to the legislature as required by RCW 70.95.807.

(31) Within existing resources, the department shall implement a safety program to evaluate and mitigate options for the state route number 167 between the intersections with 50th Ave F and E Fourth Street in Pierce county to prevent vehicles from leaving the roadway and entering private property below the grade of the highway.

(32) $350,000 of the motor vehicle account—state appropriation is provided solely for implementation of chapter 288 (Substitute Senate Bill No. 5806), Laws of 2017 (I-5 Columbia river bridge), listed as Replacement Bridge on Interstate 5 across the Columbia River project number (L2000259).

(33) For the SR 520 Seattle Corridor Improvements – West End project (M00400R), the legislature recognizes the department must acquire the entirety of parcel number 1-23190 for construction of the project. The department shall work with its design-build contractor to ensure to the maximum extent practicable that the building housing any grocery store or market currently located on parcel number 1-23190 will be preserved. The legislature recognizes the city of Seattle has requirements in
the project area that the department must address and that those requirements may affect the use of parcel number 1-23190 and may affect the ability of the department to preserve any grocery store or market currently located on the property. The department shall meet and confer regularly with residents in the vicinity of the parcel regarding the status of the project and its effects on any grocery store or market currently located on the property. The legislature strongly encourages the city to utilize maximum flexibility in how the department meets the city’s requirements and to be an equal partner in efforts to preserve any grocery store or market on parcel number 1-23190.

## IMPLEMENTING PROVISIONS

Sec. 601. 2017 c 313 s 601 (uncodified) is amended to read as follows:

### FUND TRANSFERS

(1) The 2005 transportation partnership projects or improvements and 2015 connecting Washington projects or improvements are listed in the LEAP Transportation Document ((2017-1)) 2018-1 as developed ((April 20, 2017)) March 5, 2018, which consists of a list of specific projects by fund source and amount over a sixteen-year period. Current fiscal biennium funding for each project is a line-item appropriation, while the outer year funding allocations represent a sixteen-year plan. The department of transportation is expected to use the flexibility provided in this section to assist in the delivery and completion of all transportation partnership account and connecting Washington account projects on the LEAP transportation document referenced in this subsection. For the 2017-2019 project appropriations, unless otherwise provided in this act, the director of the office of financial management may provide written authorization for a transfer of appropriation authority between projects funded with transportation partnership account appropriations or connecting Washington account appropriations to manage project spending and efficiently deliver all projects in the respective program under the following conditions and limitations:

(a) Transfers may only be made within each specific fund source referenced on the respective project list;

(b) Transfers from a project may not be made as a result of the reduction of the scope of a project or be made to support increases in the scope of a project;

(c) Transfers from a project may be made if the funds appropriated to the project are in excess of the amount needed in the current fiscal biennium;

(d) Transfers may not occur for projects not identified on the applicable project list;

(e) Transfers may not be made while the legislature is in session;

(f) Transfers to a project may not be made with funds designated as attributable to practical design savings as described in RCW 47.01.480;

(g) Each transfer between projects may only occur if the director of the office of financial management finds that any resulting change will not hinder the completion of the projects as approved by the legislature. Until the legislature reconvenes to consider the 2018 supplemental omnibus transportation appropriations act, any unexpended 2015-2017 appropriation balance as approved by the office of financial management, in consultation with the legislative staff of the house of representatives and senate transportation committees, may be considered when transferring funds between projects; and

(h) Transfers between projects may be made by the department of transportation without the formal written approval provided under this subsection (1), provided that the transfer amount does not exceed two hundred fifty thousand dollars or ten percent of the total project, whichever is less. These transfers must be reported quarterly to the director of the office of financial management and the chairs of the house of representatives and senate transportation committees.

(2) The department of transportation must submit quarterly all transfers authorized under this section in the transportation executive information system. The office of financial management must maintain a legislative baseline project list identified in the LEAP transportation documents referenced in this act, and update that project list with all authorized transfers under this section.
(3) At the time the department submits a request to transfer funds under this section, a copy of the request must be submitted to the transportation committees of the legislature.

(4) Before approval, the office of financial management shall work with legislative staff of the house of representatives and senate transportation committees to review the requested transfers in a timely manner.

(5) No fewer than ten days after the receipt of a project transfer request, the director of the office of financial management must provide written notification to the department of any decision regarding project transfers, with copies submitted to the transportation committees of the legislature.

(6) The department must submit annually as part of its budget submittal a report detailing all transfers made pursuant to this section.

Sec. 602. 2017 c 313 s 606 (uncodified) is amended to read as follows:

(1) By November 15, 2017, and annually thereafter, the department of transportation must report on amounts expended to benefit transit, bicycle, or pedestrian elements within all connecting Washington projects in programs I, P, and Z identified in LEAP Transportation Document ((2017-2)) 2018-2 ALL PROJECTS as developed ((April 20, 2017)) March 5, 2018. The report must address each modal category separately and identify if eighteenth amendment protected funds have been used and, if not, the source of funding.

(2) To facilitate the report in subsection (1) of this section, the department of transportation must require that all bids on connecting Washington projects include an estimate on the cost to implement any transit, bicycle, or pedestrian project elements.

(4) The commission may provide trainings, alone or in partnership with private parties or law enforcement agencies, authorize private parties or law enforcement agencies to provide trainings, or any combination thereof. The entity providing the training may charge a reasonable fee.

PART V
ESTABLISHING LAW ENFORCEMENT OFFICERS' DUTY TO RENDER FIRST AID

NEW SECTION. Sec. 6. A new section is added to chapter 36.28A RCW to read as follows:

(1) It is the policy of the state of Washington that all law enforcement personnel must provide or facilitate first aid such that it is rendered at the earliest safe opportunity to injured persons at a scene controlled by law enforcement.

(2) Within one year after the effective date of this section, the Washington state criminal justice training commission, in consultation with the Washington state patrol, the Washington association of sheriffs and police chiefs, organizations representing state and local law enforcement officers, health providers and/or health policy organizations, tribes, and community stakeholders, shall develop guidelines for implementing the duty to render first aid adopted in this section. The guidelines must: (a) Adopt first aid training requirements; (b) address best practices for securing a scene to facilitate the safe, swift, and effective provision of first aid to anyone injured in a scene controlled by law enforcement or as a result of law enforcement action; and (c) assist agencies and law enforcement officers in balancing the many essential duties of officers with the solemn duty to preserve the life of persons with whom officers come into direct contact.

PART VI
ADOPTING A "GOOD FAITH" STANDARD FOR LAW ENFORCEMENT OFFICER USE OF DEADLY FORCE

Sec. 7. RCW 9A.16.040 and 1986 c 209 s 2 are each amended to read as follows:

(1) Homicide or the use of deadly force is justifiable in the following cases:

(a) When a public officer applies deadly force ((is acting)) in obedience to the judgment of a competent court; or

(b) When necessarily used by a peace officer meeting the good faith standard of this section to overcome actual resistance to the execution of the legal process, mandate, or order of a court or officer, or in the discharge of a legal duty((.)); or

(c) When necessarily used by a peace officer meeting the good faith standard of this section or person acting under the officer's command and in the officer's aid:

(i) To arrest or apprehend a person who the officer reasonably believes has committed, has attempted to commit, is committing, or is attempting to commit a felony;

(ii) To prevent the escape of a person from a federal or state correctional facility or in retaking a person who escapes from such a facility; ((au))

(iii) To prevent the escape of a person from a county or city jail or holding facility if the person has been arrested for, charged with, or convicted of a felony; or

(iv) To lawfully suppress a riot if the actor or another participant is armed with a deadly weapon.

(2) In considering whether to use deadly force under subsection (1)(c) of this section, to arrest or apprehend any person for the commission of any crime, the peace officer must have probable cause to believe that the suspect, if not apprehended, poses a threat of serious physical harm to the officer or a threat of serious physical harm to others. Among the circumstances which may be considered by peace officers as a "threat of serious physical harm" are the following:
(a) The suspect threatens a peace officer with a weapon or displays a weapon in a manner that could reasonably be construed as threatening; or

(b) There is probable cause to believe that the suspect has committed any crime involving the infliction or threatened infliction of serious physical harm.

Under these circumstances deadly force may also be used if necessary to prevent escape from the officer, where, if feasible, some warning is given, provided the officer meets the good faith standard of this section.

(3) A public officer (or peace officer) covered by subsection (1)(a) of this section shall not be held criminally liable for using deadly force without malice and with a good faith belief that such act is justifiable pursuant to this section.

(4) A peace officer shall not be held criminally liable for using deadly force in good faith, where “good faith” is an objective standard which shall consider all the facts, circumstances, and information known to the officer at the time to determine whether a similarly situated reasonable officer would have believed that the use of deadly force was necessary to prevent death or serious physical harm to the officer or another individual.

(5) This section shall not be construed as:

(a) Affecting the permissible use of force by a person acting under the authority of RCW 9A.16.020 or 9A.16.050; or

(b) Preventing a law enforcement agency from adopting standards pertaining to its use of deadly force that are more restrictive than this section.

PART VII
MISCELLANEOUS

NEW SECTION. Sec. 8. The provisions of this act are to be liberally construed to effectuate the intent, policies, and purposes of this act. Nothing in this act precludes local jurisdictions or law enforcement agencies from enacting additional training requirements or requiring law enforcement officers to provide first aid in more circumstances than required by this act or guidelines adopted under this act.

NEW SECTION. Sec. 9. (1) Except where a different timeline is provided in this act, the Washington state criminal justice training commission must adopt any rules necessary for carrying out the requirements of this act within one year after the effective date of this section. In carrying out all rule making under this act, the commission shall seek input from the attorney general, law enforcement agencies, the Washington council of police and sheriffs, the Washington state fraternal order of police, the council of metropolitan police and sheriffs, the Washington state patrol troopers association, at least one association representing law enforcement who represent traditionally underrepresented communities including the black law enforcement association of Washington, de-escalate Washington, tribes, and community stakeholders. The commission shall consider the use of negotiated rule making.

(2) Where this act requires involvement of community stakeholders, input must be sought from organizations advocating for: Persons with disabilities; members of the lesbian, gay, bisexual, transgender, and queer community; persons of color; immigrants; non-citizens; native Americans; youth; and formerly incarcerated persons.

NEW SECTION. Sec. 10. Except as required by federal consent decree, federal settlement agreement, or federal court order, where the use of deadly force by a peace officer results in death, substantial bodily harm, or great bodily harm, an independent investigation must be completed to inform any determination of whether the use of deadly force met the good faith standard established in RCW 9A.16.040 and satisfied other applicable laws and policies. The investigation must be completely independent of the agency whose officer was involved in the use of deadly force. The criminal justice training commission must adopt rules establishing criteria to determine what qualifies as an independent investigation pursuant to this section.

NEW SECTION. Sec. 11. Whenever a law enforcement officer's application of force results in the death of a person who is an enrolled member of a federally recognized Indian tribe, the law enforcement agency must notify the governor's office of Indian affairs. Notice by the law enforcement agency to the governor's office of Indian affairs must be made within a reasonable period of time, but not more than twenty-four hours after the law enforcement agency has good reason to believe that the person was an enrolled member of a federally recognized Indian tribe. Notice provided under this section must include sufficient information for the governor's office of Indian affairs to attempt to identify the deceased person and his or her tribal affiliation. Nothing in this section requires a law enforcement agency to disclose any information that could compromise the integrity of any criminal investigation. The governor's office of Indian affairs must establish a means to receive the notice required under this section, including outside of regular business hours, and must immediately notify the tribe of which the person was enrolled.

NEW SECTION. Sec. 12. A new section is added to chapter 9A.16 RCW to read as follows:

(1) When a peace officer who is charged with a crime is found not guilty or charges are dismissed by reason of justifiable homicide or use of deadly force under RCW 9A.16.040, or by reason of self-defense, for actions taken while on duty or otherwise within the scope of his or her authority as a peace officer, the state of Washington shall reimburse the defendant for all reasonable costs, including loss of time, legal fees incurred, and other expenses involved in his or her defense. This reimbursement is not an independent cause of action.

(2) If the trier of fact makes a determination of justifiable homicide, justifiable use of deadly force, or self-defense, the judge shall determine the amount of the award.

(3) Whenever the issue of justifiable homicide, justifiable use of deadly force, or self-defense under this section is decided by a judge, or whenever charges against a peace officer are dismissed based on the merits, the judge shall consider the same questions as must be answered in the special verdict under subsection (4) of this section.

(4) Whenever the issue of justifiable homicide, justifiable use of deadly force, or self-defense under this section has been submitted to a jury, and the jury has found the defendant not guilty, the court shall instruct the jury to return a special verdict in substantially the following form:

 answering

1. Was the defendant on duty or otherwise acting within the scope of his or her authority as a peace officer?

2. Was the finding of not guilty based upon justifiable homicide, justifiable use of deadly force, or self-defense?

(5) Nothing in this section precludes the legislature from using the sundry claims process to grant an award where none was granted under this section or otherwise where the charge was dismissed prior to trial, or to grant a higher award than one granted under this section.
NEW SECTION. Sec. 13. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected.

NEW SECTION. Sec. 14. Sections 10 and 11 of this act constitute a new chapter in Title 10 RCW.

NEW SECTION. Sec. 15. For constitutional purposes, the subject of this act is "law enforcement."

NEW SECTION. Sec. 16. This act is the alternative to Initiative 940, which has been proposed to the legislature. The secretary of state is directed to place this act on the ballot in conjunction with Initiative 940, pursuant to Article II, section 1(a) of the state Constitution.

On page 1, line 1 of the title, after "enforcement;" strike the remainder of the title and insert "amending RCW 9A.16.040; adding new sections to chapter 43.101 RCW; adding a new section to chapter 36.28A RCW; adding a new section to chapter 9A.16 RCW; adding a new chapter to Title 10 RCW; creating new sections; and providing for submission of this act to a vote of the people."

Senators Padden, Fain, Baumgartner, Angel, Sheldon, Becker and Fortunato spoke in favor of adoption of the striking amendment.

Senators Pedersen, O'Ban, Chase and Hasegawa spoke against adoption of the striking amendment.

MOTION

Senator Padden demanded a roll call.

The President declared that one-sixth of the members supported the demand and the demand was sustained.

The President declared the question before the Senate to be the adoption of the striking amendment by Senator Padden to Engrossed Substitute House Bill No. 3003.

ROLL CALL

The Secretary called the roll on the adoption of the striking amendment by Senator Padden and the striking amendment was not adopted by the following vote: Yea, 23; Nay, 25; Absent, 1; Excused, 0.

Voting nay: Senators Billig, Carlyle, Chase, Cleveland, Conway, Darneille, Dingra, Frockpt, Hasegawa, Hobbs, Hunt, Keiser, Kuderer, Liias, McCoy, Mullet, Nelson, Palumbo, Pedersen, Ranker, Rolfs, Saldaña, Takko, Van De Wege and Wellman

Absent: Senator Ericksen.

MOTION

On motion of Senator Pedersen, the rules were suspended, Engrossed Substitute House Bill No. 3003 was advanced to third reading, the second reading considered the third and the bill was placed on final passage.

POINT OF ORDER

Senator Baumgartner: “Thank you Mr. President. I rise to a point of order of: How many votes is required to pass this bill?”

President Habib: “Senator Baumgartner.”

Senator Baumgartner: “Thank you Mr. President. This bill clearly amends an initiative which requires a two-thirds vote in the plain reading of the constitution. I would ask for you to rule on that.”

President Habib: “Senator Pedersen.”

Senator Pedersen: “Well, thank you very much Mr. President. I think this is a good teachable moment for everyone to understand exactly what Article 2, Section 41 of the Constitution says. May I read Mr. President?”

President Habib: “Proceed.”

Senator Pedersen: “It says, in relevant part, ‘No act, law, or bill approved by a majority of the electors voting thereon shall be amended or repealed by the legislature within a period of two years following such enactment: Provided, That any such act, law, or bill may be amended within two years after such enactment at any regular or special session of the legislature by a vote of two-thirds of all the members elected to each house with full compliance with section 12, Article III, of the Washington Constitution’ et cetera. The point being, I guess Mr. President, that initiatives to the legislature are different from initiatives voted on by the people. Initiatives to the legislature may be amended immediately after enactment just like any other public law. The constitution provides the special protection only to measures that have been enacted by the people. Thank you.”

President Habib: “One moment Senator Baumgartner. Senator Pedersen, just stay standing for a quick question. I just want to know, for the President’s information, so then is it your argument that this is amending an initiative to the legislature? That’s what Engrossed Substitute House Bill 3003 is seeking to do, is amend I-940 and, therefore, because it’s initiative legislation before the legislature, it, according to you, would require a simple majority, not the two-thirds?”

Senator Pedersen: “Mr. President, that is correct. The bill is contingent on, goes into effect only if Initiative 940 is enacted by the legislature, is not subject to a referendum challenge, and goes into effect in June after that, a day later, this bill would become effective, if we enact it.”

President Habib: “So you’re saying that constitutes amending the initiative?”

Senator Pedersen: “That constitutes a subsequent amendment of the initiative. Thank you.”

President Habib: “There have been remarks, Senator Baumgartner. Unless you have another point, my practice has been to allow one speech on either side of this so we don’t have a whole parliamentary debate on the floor.”

Senator Baumgartner: “If that’s the way we want to do it.”

President Habib: “But you are obviously able to communicate through your Counsel. Senator Liias, the President just needs a few moments to consider this question.”
On motion of Senator Liias, the Senate reverted to the fourth order of business.

Appropriations made in this act to the department of social and health services shall initially be allotted as required by this act. Subsequent allotment
modifications shall not include transfers of moneys between sections of this act except as expressly provided in this act, nor shall allotment modifications permit moneys that are provided solely for a specified purpose to be used for other than that purpose.

(2) The department of social and health services shall not initiate any services that require expenditure of state general fund moneys unless expressly authorized in this act or other law. The department may seek, receive, and spend, under RCW 43.79.260 through 43.79.282, federal moneys not anticipated in this act as long as the federal funding does not require expenditure of state moneys for the program in excess of amounts anticipated in this act. If the department receives unanticipated unrestricted federal moneys, those moneys shall be spent for services authorized in this act or in any other legislation providing appropriation authority, and an equal amount of appropriated state general fund moneys shall lapse. Upon the lapsing of any moneys under this subsection, the office of financial management shall notify the legislative fiscal committees. As used in this subsection, "unrestricted federal moneys" includes block grants and other funds that federal law does not require to be spent on specifically defined projects or matched on a formula basis by state funds.

(3) The legislature finds that medicaid payment rates, as calculated by the department pursuant to the appropriations in this act, bear a reasonable relationship to the costs incurred by efficiently and economically operated facilities for providing quality services and will be sufficient to enlist enough providers so that care and services are available to the extent that such care and services are available to the general population in the geographic area. The legislature finds that cost reports, payment data from the federal government, historical utilization, economic data, and clinical input constitute reliable data upon which to determine the payment rates.

(4) The department shall to the maximum extent practicable use the same system for delivery of spoken-language interpreter services for social services appointments as the one established for medical appointments in the health care authority. When contracting directly with an individual to deliver spoken language interpreter services, the department shall only contract with language access providers who are working at a location in the state and who are state-certified or state-authorized, except that when such a provider is not available, the department may use a language access provider who meets other certifications or standards deemed to meet state standards, including interpreters in other states.

(5) Information technology projects or investments and proposed projects or investments impacting time capture, payroll and payment processes and systems, eligibility, case management, and authorization systems within the department of social and health services are subject to technical oversight by the office of the chief information officer.

(6)(a) The department shall facilitate enrollment under the medicaid expansion for clients applying for or receiving state funded services from the department and its contractors. Prior to open enrollment, the department shall coordinate with the health care authority to provide referrals to the Washington health benefit exchange for clients that will be ineligible for medicaid.

(b) To facilitate a single point of entry across public and medical assistance programs, and to maximize the use of federal funding, the health care authority, the department of social and health services, and the health benefit exchange will coordinate efforts to expand HealthPlanfinder access to public assistance and medical eligibility staff. The department shall complete medicaid applications in the HealthPlanfinder for households receiving or applying for public assistance benefits.

(7) In accordance with RCW 71.24.380, the health care authority and the department are authorized to purchase medical and behavioral health services through integrated contracts upon request of all of the county authorities in a regional service area to become an early adopter of fully integrated purchasing of medical and behavioral health services. The department may combine and transfer such amounts appropriated under sections 204, 208, and 213 of this act as may be necessary to fund early adopter contracts. The amount of medicaid funding transferred from each program may not exceed the average per capita cost assumed in this act for individuals covered by that program, actuarially adjusted for the health condition of persons enrolled, times the number of clients enrolled. The amount of non-medicaid funding transferred from sections 204 and 208 may not exceed the amount that would have been contracted with a behavioral health organization if the county authorities had not requested to become an early adopter of fully integrated purchasing. These limits do not apply to the amounts provided in section 204(1)(s) of this act. If any funding that this act provides solely for a specific purpose is transferred under this subsection, that funding must be used consistently with the provisions and conditions for which it was provided.

(8) In accordance with RCW 71.24.380, the department is authorized to purchase mental health and substance use disorder services through integrated contracts with behavioral health organizations. The department may combine and transfer such amounts appropriated under sections 204 and 208 of this act as may be necessary to finance these behavioral health organization contracts. If any funding that this act provides solely for a specific purpose is transferred under this subsection, that funding must be used consistently with the provisions and conditions for which it was provided.

(9)(a) The appropriations to the department of social and health services in this act must be expended for the programs and in the amounts specified in this act. However, after May 1, 2018, unless prohibited by this act, the department may transfer general fund—state appropriations for fiscal year 2018 among programs and subprograms after approval by the director of the office of financial management. However, the department may not transfer state appropriations that are provided solely for a specified purpose except as expressly provided in (b) through (d) of this subsection.

(b) To the extent that transfers under (a) of this subsection are insufficient to fund actual expenditures in excess of fiscal year 2018 caseload forecasts and utilization assumptions in the long-term care, developmental disabilities, foster care, adoption support, and public assistance programs, the department may transfer state appropriations that are provided solely for a specified purpose.

(c) Within the mental health program, the department may transfer appropriations that are provided solely for a specified purpose within and between subprograms as needed to fund actual expenditures through the end of fiscal year 2018.

(d) Within the developmental disabilities program, the department may transfer appropriations that are provided solely for a specified purpose within and between subprograms as needed to fund actual expenditures through the end of fiscal year 2018.

(e) The department may not transfer appropriations, and the director of the office of financial management may not approve the transfer, unless the transfer is consistent with the objective of conserving, to the maximum extent possible, the expenditure of state funds. The director of the office of financial management shall notify the appropriate fiscal committees of the senate and house of representatives in writing seven days prior to approving.
any allotment modifications or transfers under this subsection. The written notification shall include a narrative explanation and justification of the changes, along with expenditures and allotments by budget unit and appropriation, both before and after any allotment modifications or transfers.

The committee will be co-chaired by the juvenile rehabilitation administration and the juvenile courts, who will also have the ability to change members of the committee as needed to achieve its purpose. The committee may make changes to the formula categories in (b) of this subsection if it determines the changes will increase statewide service delivery or effectiveness of evidence-based program or disposition alternative resulting in increased cost/benefit savings to the state, including long-term cost/benefit savings. The committee must also consider these outcomes in determining when evidence-based expansion or special sex offender disposition alternative funds should be included in the block grant or left separate.

Additionally, behavioral health organizations may use a portion of the state funds allocated in accordance with (((i))) (f) of this subsection to earn additional medicaid match, but only to the extent that the application of such funds to medicaid services does not diminish the level of crisis and commitment, community inpatient, residential care, and outpatient services presently available to persons not eligible for medicaid.

(((o))) (k) $2,291,000 of the general fund—state appropriation for fiscal year 2018 ((and $2,291,000 of the general fund—state appropriation for fiscal year 2019 are)) is provided solely for the department to contract with community behavioral health organizations. (c) At least one committee meeting must be devoted to the exploration of legislation that would allow family members to provide personal care services to persons with developmental disabilities or long-term care needs under a voluntary consumer-directed Medicaid service program. During the meeting, the committee should hear testimony from as many impacted parties as possible, including clients, providers, advocacy groups, and staff from state agencies. (b) In developing payment metrics for Medicaid-covered services, staff and service requirements must be reviewed for assisted living, adult residential care, and enhanced adult residential care as described in chapters 74.39A and 18.20 RCW. At a minimum, the proposed rate methodology must include a component that recognizes staffing for intermittent nursing and personal care services. Service area adjustments based on population density must be reviewed and compared with other
options to recognize high-cost areas. The most recent and complete wage data available through the bureau of labor statistics must also be included for review and consideration. The methodology work group must consider operational requirements and indirect services in developing the model. The work group must include a rate component that recognizes statutory and regulatory physical plant requirements. (a) ($256,643,000) $268,117,000 of the general fund—state appropriation for fiscal year 2018 and $264,704,000 of the general fund—state appropriation for fiscal year 2019 are provided solely for the authority to implement a single, standard medicaid preferred drug list to be used by all contracted medicaid managed health care systems, on or before January 1, 2018. The preferred drug list shall be developed in consultation with all contracted managed health care systems and the state pharmacy and therapeutics committee or drug utilization review board and shall further the goals and objectives of the medicaid program.

The list shall be designed to maximize federal rebates and supplemental rebates and ensure access to clinically effective and appropriate drug therapies under each class. Entities eligible for 340B drug pricing shall continue to operate under their current pricing agreement, unless otherwise required by federal laws or regulations. The authority may utilize external consultants with expertise in evidence-based drug class reviews, pharmacy benefit management, and purchasing to assist with the completion of this development and implementation. The authority shall require each managed care organization that has contracted with the authority to provide care to medicaid beneficiaries to use the established preferred drug list; and shall prohibit each managed care organization and any of its agents from negotiating or collecting rebates for any medications listed in the state's medicaid single preferred drug list whether preferred or nonpreferred. To assist in the implementation of the single preferred drug list, contracted medicaid managed health care systems shall provide the authority drug-specific financial information in a format and frequency determined by the authority to include the actual amounts paid to pharmacies for prescription drugs dispensed to covered individuals compared to the cost invoiced to the health plan and individual rebates collected for prescription drugs dispensed to medicaid members.

(b) ($118,813,000) $113,356,000 of the general fund—state appropriation for fiscal year 2018 and ($120,265,000) $140,578,000 of the general fund—state appropriation for fiscal year 2019 are provided solely for (holding) managed care capitation (rates flat at calendar year 2017 levels in state fiscal years and calendar years 2018 and 2019) payments.

(c) $122,244,000 of the general fund—state appropriation for fiscal year 2018 and $116,038,000 of the general fund—state appropriation for fiscal year 2019 are provided solely for the authority through the competitive procurement process, to contract with licensed dental health plans or managed health care plans on a prepaid or fixed-sum risk basis to provide carved-out managed dental care services on a statewide basis that will result in greater efficiency and will facilitate better access and oral health outcomes for medicaid enrollees. Except in areas where only a single plan is available, the authority must contract with at least two plans. The authority shall include in the contracts: (i) Quarterly reporting requirements to include medicaid utilization and encounter data by current dental technology (CDT) code; (ii) a direction to increase the dental provider network; (iii) a commitment to retain innovative programs that improve access and care such as the access to baby and child dentistry program; (iv) a program to reduce emergency room use for dental purposes; (v) a requirement to ensure that dental care is being coordinated with the primary care provider of the patient to ensure integrated care; (vi) a provision that no less than eighty-five percent of the contracting fee be used to directly offset the cost of providing direct patient care as opposed to administrative costs; and (vii) a provision to ensure the contracting fee shall be sufficient to compensate county health departments and federally qualified health centers for dental patient care. The plan(s) awarded this
contract must absorb all start-up costs associated with moving the program from fee-for-service to managed care and shall commit to achieving an overall savings to the program based on 2016 fee-for-service experience. In order to comply with state insurance underwriting standards, the authority shall ensure that savings offered by dental plans are actuarially sound. Starting January 31, 2019, and every year thereafter through December 2024, the authority shall submit an annual report to the governor and the appropriate committees of the legislature detailing how the contracted entities have met the requirements of the contract. The report shall include specific information to include utilization, how the contracted entities have increased their dental provider networks, how the emergency room use for dental purposes has been reduced, and how dental care has been integrated with patients' primary care providers. If after the end of five years the data reported does not demonstrate sufficient progress to address the stated contracted goals, the legislature will reevaluate whether carved-out dental managed care needs to be replaced with a different delivery model. The authority is authorized to seek any necessary state plan amendments or federal waivers to implement this subsection. Additional dental program savings achieved by the plans beyond those assumed in the 2017-2019 omnibus appropriations act will be used to increase dental provider reimbursement rates. By October 30, 2018, the authority shall report to the governor and the appropriate committees of the legislature anticipated savings related to reduction in dental emergency department visits and utilization once managed care dental coverage begins.

To ensure compliance with legislative directive budget requirements and terms and conditions of the waiver, the authority shall implement the waiver and reporting requirements with oversight from the office of financial management. The legislature finds that appropriate management of the innovation waiver requires better analytic capability, transparency, consistency, timeliness, accuracy, and lack of redundancy with other established measures and that the patient must be considered first and foremost in the implementation and execution of the demonstration waiver. In order to effectuate these goals, the authority shall: (i) Require the Dr. Robert Bree collaborative and the health technology assessment program to reduce the administrative burden upon providers by only requiring performance measures that are nonduplicative of other nationally established measures. The joint select committee on health care oversight will evaluate the measures chosen by the collaborative and the health technology assessment program for effectiveness and appropriateness; (ii) develop a patient satisfaction survey with the goal to gather information about whether it was beneficial for the patient to use the center of excellence location in exchange for additional out-of-pocket savings; (iii) ensure patients and health care providers have significant input into the implementation of the demonstration waiver, in order to ensure improved patient health outcomes; and (iv) in cooperation with the department of social and health services, consult with and provide notification of work on applications for federal waivers, including details on waiver duration, financial implications, and potential future impacts on the state budget, to the joint select committee on health care oversight prior to submitting waivers for federal approval. By federal standard, the medicaid transformation demonstration waiver shall not exceed the duration originally granted by the centers for medicare and medicaid services and any programs created or funded by this waiver do not create an entitlement.

(e) No more than (($479,600,000)) $486,683,000 of the general fund—federal appropriation and no more than (($14,289,000)) $129,103,000 of the general fund—local appropriation may be expended for transformation through accountable communities of health described in initiative 1 of the medicaid transformation demonstration waiver under healthier Washington, including preventing youth drug use, opioid prevention and treatment, and physical and behavioral health integration. Under this initiative, the authority shall take into account local input regarding community needs. In order to ensure transparency to the appropriate fiscal committees of the legislature, the authority shall provide fiscal staff of the legislature query ability into any database of the fiscal intermediary that authority staff would be authorized to access. The authority shall not increase general fund—state expenditures under this initiative. The director shall report to the joint select committee on health care oversight, no less than quarterly, and include details for each accountable community of health, on the financial status and measurable health outcomes. The director shall also report to the fiscal committees of the legislature all of the expenditures under this subsection and shall provide such fiscal data in the time, manner, and form requested by the legislative fiscal committees. (((i))) (i) The legislature finds that Medicaid payment rates, as calculated by the health care authority pursuant to the appropriations in this act, bear a reasonable relationship to the costs incurred by efficiently and economically operated facilities for providing quality services and will be sufficient to enlist enough providers so that care and services are available to the extent that such care and services are available to the general population in the geographic area. The legislature finds that the cost reports, payment data from the federal government, historical utilization, economic data, and clinical input constitute reliable data upon which to determine the payment rates.

(((j))) (j) Based on quarterly expenditure reports and caseload forecasts, if the health care authority estimates that expenditures for the medical assistance program will exceed the appropriations, the health care authority shall take steps including but not limited to reduction of rates or elimination of optional services to reduce expenditures so that total program costs do not exceed the annual appropriation authority.

It is the legislature's intent that the payments shall be supplemental to and shall not in any way offset or reduce the payments calculated and provided in accordance with part E of chapter 74.46 RCW. It is the legislature's further intent that costs otherwise allowable for rate-setting and settlement against payments under chapter 74.46 RCW shall not be disallowed solely because such costs have been paid by revenues retained by the nursing home from these supplemental payments. The supplemental payments are subject to retrospective interim and final cost settlements based on the nursing homes' as-filed and final Medicare cost reports. The timing of the interim and final cost settlements shall be at the health care authority's discretion. During either the interim cost settlement or the final cost settlement, the health care authority shall recoup from the public hospital districts the supplemental payments that exceed the Medicaid cost limit and/or the Medicare upper payment limit. During fiscal years 2018 and 2019, hospitals in the program shall be paid and shall retain one hundred percent of the federal portion of the allowable hospital cost for each Medicaid inpatient fee-for-service claim payable by medical assistance and one hundred percent of the federal portion of the maximum disproportionate share hospital payment allowable under federal regulations. Inpatient Medicaid payments shall be established using an allowable methodology that approximates the cost of claims submitted by the hospitals. Payments made to each hospital in the program in each fiscal year of the biennium shall be compared to a baseline amount. The baseline amount will be determined by the total of (i) the inpatient claim payment amounts that would have been paid during the fiscal year had the hospital not been in the CPE program based on the reimbursement rates developed, implemented, and consistent with policies approved in the 2017-2019 biennial operating appropriations act and in effect on July 1, 2015, (ii) one-half of the indigent assistance disproportionate share hospital payment amounts paid to and retained by each hospital during fiscal year 2005, and (iii) all of the other disproportionate share hospital payment amounts paid to and retained by each hospital during fiscal year 2005 to the extent the same disproportionate share hospital programs exist in the 2017-2019 fiscal biennium. The grants will be recalculated and redistributed as the baseline is updated during the fiscal year.

(a) Allocations for school building-level certificated administrative staff salaries for the 2017-18 and 2018-19 school years for general education students are determined using the formula-generated staff units provided in RCW 28A.150.260 and pursuant to this subsection, and adjusted based on each district's annual average full-time equivalent student enrollment in each grade.

(b) Students in approved career and technical education and skill center programs generate certificated school building-level administrator staff units at per student rates that are a multiple of the general education rate in (a) of this subsection by the following factors: Career and Technical Education students 1.025 Skill Center students 1.198

(4) CLASSIFIED STAFF ALLOCATIONS

Allocations for classified staff units providing school building-level and district-wide support services for the 2017-18 and 2018-19 school years are determined using the formula-generated staff units provided in RCW 28A.150.260 and pursuant to this subsection, and adjusted based on each district's annual average full-time equivalent student enrollment in each grade.

(5) CENTRAL OFFICE ALLOCATIONS

In addition to classified and administrative staff units allocated in subsections (3) and (4) of this section, classified and administrative staff units are provided for the 2017-18 and 2018-19 school years for the central office administrative costs of operating a school district, at the following rates:

(a) The total central office staff units provided in this subsection (5) are calculated by first multiplying the total number of eligible certificated instructional, certificated administrative, and classified staff units providing school-based or district-wide support services, as identified in RCW 28A.150.260(6)(b) and the increased allocations provided pursuant to subsections (2) and (4) of this section, by 5.3 percent.

(b) Of the central office staff units calculated in (a) of this subsection, 74.53 percent are allocated as classified staff units, as generated in subsection (4) of this section, and 25.47 percent shall be allocated as administrative staff units, as generated in subsection (3) of this section.

(c) Staff units generated as enhancements outside the program of basic education to the minimum requirements of RCW 28A.150.260, and staff units generated by skill center and career-technical students, are excluded from the total central office staff units calculation in (a) of this subsection.

(d) For students in approved career-technical and skill center programs, central office classified units are allocated at the same student per student rate as those generated for general education students of the same grade in this subsection (5), and central office administrative staff units are allocated at staff unit per student rates that exceed the general education rate established for students in the same grade in this subsection (5) by 12.29 percent in the 2017-18 school year and 12.29 percent in the 2018-19 school year for career and technical education students, and 17.61 percent in the 2017-18 school year and 17.61 percent in the 2018-19 school year for skill center students.

(6) FRINGE BENEFIT ALLOCATIONS

Fringe benefit allocations shall be calculated at a rate of 23.49 percent in the 2017-18 school year and 24.67 percent in the 2018-19 school year for certificated salary allocations provided under subsections (2), (3), and (5) of this section, and a rate of 24.60 percent in the 2017-18 school year and 24.66 percent in the 2018-19 school year for classified salary allocations provided under subsections (4) and (5) of this section.

(7) INSURANCE BENEFIT ALLOCATIONS

Insurance benefit allocations shall be calculated at the maintenance rate specified in section 504 of this act, based on the number of benefit units determined as follows:

(a) The number of certificated staff units determined in subsections (2), (3), and (5) of this section; and

(b) The number of classified staff units determined in subsections (4) and (5) of this section multiplied by 1.152. This factor is intended to adjust allocations so that, for the purpose of
distributing insurance benefits, full-time equivalent classified employees may be calculated on the basis of 1,440 hours of work per year, with no individual employee counted as more than one full-time equivalent.

(8) MATERIALS, SUPPLIES, AND OPERATING COSTS (MSOC) ALLOCATIONS
Funding is allocated per annual average full-time equivalent student for the materials, supplies, and operating costs (MSOC) incurred by school districts, consistent with the requirements of RCW 28A.150.260.

Unless otherwise provided in chapter 4, Laws of 2015 2nd sp. sess., all marijuana excise taxes collected from sales of marijuana, useable marijuana, marijuana concentrates, and marijuana-infused products under RCW 69.50.535, and the license fees, penalties, and forfeitures derived under this chapter from marijuana producer, marijuana processor, marijuana researcher, and marijuana retailer licenses, must be deposited in the account. Moneys in the account may only be spent after appropriation. During the 2015-2017 and 2017-2019 fiscal biennia, the legislature may transfer from the dedicated marijuana account to the basic health plan trust account such amounts as reflect the excess fund balance of the account.

(g) At the end of each fiscal year, the treasurer must transfer any amounts in the dedicated marijuana account that are not appropriated pursuant to subsection (1) of this section and this subsection (2) into the general fund, except as provided in (g)(i) of this subsection (2).

(i) Beginning in fiscal year 2018, if marijuana excise tax collections deposited into the general fund in the prior fiscal year exceed twenty-five million dollars, then each fiscal year the legislature must appropriate an amount equal to thirty percent of all marijuana excise taxes deposited into the general fund the prior fiscal year to the treasurer for distribution to counties, cities, and towns as follows:

(A) Thirty percent must be distributed to counties, cities, and towns where licensed marijuana retailers are physically located. For purposes of this subsection (2)(g)(i)(A), one hundred percent of the proportional amount attributed to a retailer physically located in a city or town must be distributed to the city or town.

(B) Seventy percent must be distributed to counties, cities, and towns ratably on a per capita basis. (iv) The total share of marijuana excise tax revenues distributed to counties and cities in (g)(i) of this subsection (2) may not exceed ((sixty-six)) fifteen million dollars in fiscal years 2018 and 2019 and twenty million dollars per fiscal year thereafter. ((However, if the February 2018 forecast of state revenues for the general fund in the 2017-2019 fiscal biennium exceeds the amount estimated in the June 2017 revenue forecast by over eighteen million dollars; after adjusting for changes directly related to legislation adopted in the 2017 legislative session, the total share of marijuana excise tax revenue distributed to counties and cities in (g)(i) of this subsection (2) may not exceed fifteen million dollars in fiscal years 2018 and 2019.) It is the intent of the legislature that the policy for the maximum distributions in the subsequent fiscal biennium will be no more than ((sixty-six)) fifteen million dollars per fiscal year.

For the purposes of this section, "marijuana products" means "usable marijuana," "marijuana concentrates," and "marijuana-infused products" as those terms are defined in RCW 69.50.101.

(1) Extended grant agreements entered into under (((ω))) (c)(i) of this subsection;
(2) Remedial actions, including planning for adaptive reuse of properties as provided for under (((ο))) (c)(iv) of this subsection.

The department must prioritize funding of remedial actions at:
(A) Facilities on the department's hazardous sites list with a high hazard ranking for which there is an approved remedial action work plan or an equivalent document under federal cleanup law;
(B) Brownfield properties within a redevelopment opportunity zone if the local government is a prospective purchaser of the property and there is a department-approved remedial action work plan or equivalent document under the federal cleanup law;

(c) During the 2013-2015 fiscal biennium, the legible local toxics control account may also be used for local government stormwater planning and implementation activities.
(d) During the 2013-2015 fiscal biennium, the legislature may transfer from the local toxics control account to the state general fund, such amounts as reflect the excess fund balance in the account.
(e) To expedite cleanups throughout the state, the department may use the following strategies when providing grants to local governments under this subsection:
(i) Enter into an extended grant agreement with a local government conducting remedial actions at a facility where those actions extend over multiple biennia and the total eligible cost of those actions exceeds twenty million dollars. The agreement is subject to the following limitations:
(A) The initial duration of such an agreement may not exceed ten years. The department may extend the duration of such an agreement upon finding substantial progress has been made on remedial actions at the facility;
B) Extended grant agreements may not exceed fifty percent of the total eligible remedial action costs at the facility; and

C) The department may not allocate future funding to an extended grant agreement unless the local government has demonstrated to the department that funds awarded under the agreement during the previous biennium have been substantially expended or contracts have been entered into to substantially expend the funds;

(ii) Enter into a grant agreement with a local government conducting a remedial action that provides for periodic reimbursement of remedial action costs as they are incurred as established in the agreement;

(iii) Enter into a grant agreement with a local government prior to it acquiring a property or obtaining necessary access to conduct remedial actions, provided the agreement is conditioned upon the local government acquiring the property or obtaining the access in accordance with a schedule specified in the agreement;

(iv) Provide integrated planning grants to local governments to fund studies necessary to facilitate remedial actions at brownfield properties and adaptive reuse of properties following remediation. Eligible activities include, but are not limited to: Environmental site assessments; remedial investigations; health assessments; feasibility studies; site planning; community involvement; land use and regulatory analyses; building and infrastructure assessments; economic and fiscal analyses; and any environmental analyses under chapter 43.21C RCW;

(v) Provide grants to local governments for remedial actions related to area-wide groundwater contamination. To receive the funding, the local government does not need to be a potentially liable person or be required to seek reimbursement of grant funds from a potentially liable person;

(vi) The director may alter grant matching requirements to create incentives for local governments to expedite cleanups when one of the following conditions exists:

(A) Funding would prevent or mitigate unfair economic hardship imposed by the clean-up liability;

(B) Funding would create new substantial economic development, public recreational opportunities, or habitat restoration opportunities that would not otherwise occur; or

(C) Funding would create an opportunity for acquisition and redevelopment of brownfield property under RCW 70.105D.040(5) that would not otherwise occur;

(vii) When pending grant applications under (e)(iv) and (v) of this subsection (4) exceed the amount of funds available, designated redevelopment opportunity zones must receive priority for distribution of available funds.

(f) To expedite multiparty clean-up efforts, the department may purchase remedial action cost-cap insurance. For the 2013-2015 fiscal biennium, moneys in the local toxics control account may be spent on projects in sections 3024, 3035, 3036, and 3059, chapter 19, Laws of 2013 2nd sp. sess. using the expedited procedures in RCW 34.05.353. To ensure the adoption of rules will not delay financial assistance, the department may administer the award of financial assistance through interpretive guidance pending the adoption of rules through July 1, 2014.

9) Except as provided under subsection (3)(k) and (q) of this section, nothing in chapter 1, Laws of 2013 2nd sp. sess. affects the ability of a potentially liable person to receive public funding.

10) During the 2015-2017 fiscal biennium the local toxics control account may also be used for the centennial clean water program and for the stormwater financial assistance program administered by the department of ecology.

11) During the 2017-2019 fiscal biennium;

(a) The state toxics control account, the local toxics control account, and the environmental legacy stewardship account may be used for interchangeable purposes and funds may be transferred between accounts to accomplish those purposes.

(b) The legislature may direct the state treasurer to make transfers of moneys in the state toxics control account to the water pollution control revolving account.

Sec. 912. RCW 76.04.610 and 2012 2nd sp. s. c 7 s 922 are each amended to read as follows:

1(a) If any owner of forestland within a forest protection zone neglects or fails to provide adequate fire protection as required by RCW 76.04.600, the department shall provide such protection and shall annually impose the following assessments on each parcel of such land: (i) A flat fee assessment of seventeen dollars and fifty cents; and (ii) twenty-seven cents on each acre exceeding fifty acres.

(b) Assessors may, at their option, collect the assessment on tax exempt lands. If the assessor elects not to collect the assessment, the department may bill the landowner directly.

2) An owner who has paid assessments on two or more parcels, each containing fewer than fifty acres and each within the same county, may obtain the following refund:

(a) If all the parcels together contain less than fifty acres, then the refund is equal to the flat fee assessments paid, reduced by the total of (i) seventeen dollars and (ii) the total of the amounts retained by the county from such assessments under subsection (5) of this section.

(b) If all the parcels together contain fifty or more acres, then the refund is equal to the flat fee assessments paid, reduced by the total of (i) seventeen dollars, (ii) twenty-seven cents for each acre exceeding fifty acres, and (iii) the total of the amounts retained by the county from such assessments under subsection (5) of this section.
Applications for refunds shall be submitted to the department on a form prescribed by the department and in the same year in which the assessments were paid. The department may not provide refunds to applicants who do not provide verification that all assessments and property taxes on the property have been paid. Applications may be made by mail.

In addition to the procedures under this subsection, property owners with multiple parcels in a single county who qualify for a refund under this section may apply to the department on an application listing all the parcels owned in order to have the assessment computed on all parcels but billed to a single parcel. Property owners with the following number of parcels may apply to the department in the year indicated:

<table>
<thead>
<tr>
<th>Year</th>
<th>Number of Parcels</th>
</tr>
</thead>
<tbody>
<tr>
<td>2002</td>
<td>10 or more parcels</td>
</tr>
<tr>
<td>2003</td>
<td>8 or more parcels</td>
</tr>
<tr>
<td>2004 and thereafter</td>
<td>6 or more parcels</td>
</tr>
</tbody>
</table>

The department must compute the correct assessment and allocate one parcel in the county to use to collect the assessment. The county must then bill the forest fire protection assessment on that one allocated identified parcel. The landowner is responsible for notifying the department of any changes in parcel ownership.

(3) Beginning January 1, 1991, under the administration and at the discretion of the department up to two hundred thousand dollars per year of this assessment shall be used in support of those rural fire districts assisting the department in fire protection services on forestlands.

(4) For the purpose of this chapter, the department may divide the forestlands of the state, or any part thereof, into districts, for fire protection and assessment purposes, may classify lands according to the character of timber prevailing, and the fire hazard existing, and place unprotected lands under the administration of the proper district. Amounts paid or contracted to be paid by the department for protection of forestlands from funds at its disposal shall be a lien upon the property protected, unless reimbursed by the owner within ten days after October 1st of the year in which they were incurred. The department shall be prepared to make statement thereof, upon request, to a forest owner whose own protection has not been previously approved as to its adequacy, the department shall report the same to the assessor of the county in which the property is situated. The assessor shall extend the amounts upon the tax rolls covering the property, and upon authorization from the department shall levy the forest protection assessment against the amounts of unimproved land as shown in each ownership on the county assessor’s records. The assessor may then segregate on the records to provide that the improved assessment against the amounts of unimproved land as shown in each ownership on the county assessor’s records. The assessor may then segregate on the records to provide that the improved land and improvements thereon carry the millage levy designed to support the rural fire protection districts as provided for in RCW 52.16.170.

(5) The amounts assessed shall be collected at the time, in the same manner, by the same procedure, and with the same penalties attached that general state and county taxes on the same property are collected, except that errors in assessments may be corrected at any time by the department certifying them to the treasurer of the county in which the land involved is situated. Assessments shall be known and designated as assessments of the year in which the amounts became reimbursable. Upon the collection of assessments the county treasurer shall place fifty cents of the total assessments paid on a parcel for fire protection into the county current expense fund to defray the costs of listing, billing, and collecting these assessments. The treasurer shall then transmit the balance to the department. Collections shall be applied against expenses incurred in carrying out the provisions of this section, including necessary and reasonable administrative costs incurred by the department in the enforcement of these provisions. The department may also expend sums collected from owners of forestlands or received from any other source for necessary administrative costs in connection with the enforcement of RCW 76.04.660. During the 2017-2019 fiscal biennium, the legislature may appropriate money from the account for department of natural resources wildfire response and forest health activities.

(6) When land against which forest protection assessments are outstanding is acquired for delinquent taxes and sold at public auction, the state shall have a prior lien on the proceeds of sale over and above the amount necessary to satisfy the county’s delinquent tax judgment. The county treasurer, in case the proceeds of sale exceed the amount of the delinquent tax judgment, shall immediately remit to the department the amount of the outstanding forest protection assessments.

(7) All nonfederal public bodies owning or administering forestland included in a forest protection zone shall pay the forest protection assessments provided in this section and the special forest fire suppression account assessments under RCW 76.04.630. The forest protection assessments and special forest fire suppression account assessments shall be payable by nonfederal public bodies from available funds within thirty days following receipt of the written notice from the department which is given after October 1st of the year in which the protection was provided. Unpaid assessments are not a lien against the nonfederal public body which the nonfederal public body to the department and are subject to interest charges at the legal rate. During the 2011-2013 fiscal biennium, the forest fire protection assessment account may be appropriated to The Evergreen State College for analysis and recommendations to improve the efficiency and effectiveness of the state’s mechanisms for funding fire prevention and suppression activities.

(8) A public body, having failed to previously pay the forest protection assessments required of it by this section, which fails to suppress a fire on or originating from forestlands owned or administered by it, is liable for the costs of suppression incurred by the department or its agent and is not entitled to reimbursement of costs incurred by the public body in the suppression activities.

(9) The department may adopt rules to implement this section, including, but not limited to, rules on levying and collecting forest protection assessments.

And the bill do pass as recommended by the conference committee.

Signed by Senators Billig and Rolfes; Representatives Ormsby and Robinson.

MOTION

Senator Rolfes moved that the Report of the Conference Committee on Senate Bill No. 6032 be adopted.

The President Pro Tempore declared the question before the Senate to be the motion by Senator Rolfes that the Report of the Conference Committee on Senate Bill No. 6032 be adopted.

The motion by Senator Rolfes carried and the Report of the Conference Committee was adopted by voice vote.

Senators Rolfes, Ranker and Billig spoke in favor of passage of the bill.

The President resumed the chair.

POINT OF ORDER

Senator Braun: “Thank you Mr. President. I know you pointed out yesterday that you don’t regulate the truth on the floor of the Senate, but there was an incorrect statement made a moment ago. Our budget proposal was for a billion dollars in property tax relief. It is very clearly documented. It is not the same as $385,000,000.00. Thank you Mr. President.”

REMARKS BY THE PRESIDENT

President Habib: “Senator Braun, you have spoken once before, and again, if you have a point of order, if senators have a point of order they can raise a point of order, but please don’t use parliamentary maneuvers to sneak in an additional remark. Again, these are the rules that you all have.”

PARLIAMENTARY INQUIRY

Senator Braun: “Thank you Mr. President. Mr. President could you give us some guidance how we are to appropriately respond when there are factually incorrect statements made on the floor of the Senate. I don’t understand how we can have honest and robust debate if we don’t present the facts correctly and I am unsure how to respond in these situations.”

REPLY BY THE PRESIDENT

President Habib: “Senator Braun, I can not tell you how best to get your message out or respond to other messages, other senators. The way to do that is to use the debate on third reading. According to the vote of the Senate, debate on third reading and debate generally today has been limited in the ways you know it has been. That is not my ruling, its what’s happened pursuant to the rules and so I have no other guidance to give you on the question of how to contradict what another senator has said on the floor with respect to fact or fiction.”

Senator Rivers spoke against passage of the bill.

PARLIAMENTARY INQUIRY

Senator Ericksen: “Thank you Mr. President. Is it possible for a member to yield their three minutes of speaking time allotted through this very limited debate process that we have on the budget to another member? Is that allowed?”

RULING BY THE PRESIDENT

President Habib: “Senator Ericksen, in response to your question, there is no rule that specifically addresses that question. However, when the motion was made by Senator Liias, the language of the motion specifically said that the debate would be limited in such a way that each senator would have three minutes to speak themselves with the exception of, each senator would have three minutes to speak. There was, he did not say there would be three minutes per senator allowed in debate. It was made, the motion was made in such a way that each senator was given an allotment of time and so there is no reason, there is no rule that would indicate transferability.”

Senator Frockt spoke in favor of passage of the bill.

POINT OF ORDER

Senator Baumgartner: “Thank you Mr. President. I think it is important that we have a full and honest debate here so I would like to know how I can make a motion so we could remove the three minute rule so people of the state could be given the accurate facts about this budget. So can I make a motion that we remove the three minute rule? Is that in order Mr. President?”

REPLY BY THE PRESIDENT

President Habib: “You just made that motion Senator Baumgartner. Just to be clear on what your motion is, is you motion to roll back the entire, Senator Liias entire motion or …?”

Senator Baumgartner: “Yes, Mr. President, it is. I am moving that we remove the three minute rule.”
President Habib: “That is only part of it.

Senator Baumgartner: “Excuse me Mr. President, let me clarify. I am moving that we remove the rule as adopted by Senator Liias today limiting debate on the Senate floor for the purpose of having an honest discussion on this budget.”

President Habib: “Okay.”

MOTION

Senator Baumgartner demanded a roll call. The President declared that one-sixth of the members supported the demand and the demand was sustained.

Senator Ericksen spoke in favor of adoption of the motion.

Senator Liias spoke against adoption of the motion.

The President declared the question before the Senate to be the motion by Senator Baumgartner that the limits on debate pursuant to Rule 29 adopted earlier in the day be dispensed with and the Senate return to the regular order of debate.

ROLL CALL

The Secretary called the roll on the motion by Senator Baumgartner that the limits on debate pursuant to Rule 29 adopted earlier in the day be dispensed with and the motion did not carry by the following vote: Yeas, 23; Nays, 26; Absent, 0; Excused, 0.

Voting nay: Senators Billig, Carlyle, Chase, Cleveland, Conway, Darnelle, Dingha, Frockt, Hasegawa, Hawkins, Hobbs, Hunt, Keiser, Kuderer, Liias, McCoy, Mullet, Nelson, Palumbo, Pedersen, Ranker, Rolfsé, Saldaña, Takko, Van De Wege and Wellman

The President declared the question before the Senate to be the final passage of Engrossed Substitute Senate Bill No. 6032, as recommended by the Conference Committee.

The Secretary called the roll on the final passage of Engrossed Substitute Senate Bill No. 6032, as recommended by the Conference Committee, and the bill passed the Senate by the following vote: Yeas, 25; Nays, 24; Absent, 0; Excused, 0.

Voting yea: Senators Billig, Carlyle, Chase, Cleveland, Conway, Darnelle, Dingha, Frockt, Hasegawa, Hobbs, Hunt, Keiser, Kuderer, Liias, McCoy, Mullet, Nelson, Palumbo, Pedersen, Ranker, Rolfsé, Saldaña, Takko, Van De Wege and Wellman

PERSONAL PRIVILEGE

Senator Rolfsé: “I want to first of all thank my caucus for trusting me to write this budget this year. I would also like to thank Senator Braun and Senator Brown for the work that they did. Although I am sure Senator Braun doesn’t want me to say this, his fingerprints are actually all over the workings of this budget. He was extremely helpful, mentoring me when I first started this job, and offered really insightful comments and history that were valuable in constructing this. More importantly though than thanking my colleagues, is thanking the staff that worked so hard on this budget. I think that what people don’t recognize is that not only does the Ways & Means staff write the budget that we see here today, but they write shadow budgets, versions of the budgets, secret amendments and things that actually never see the light of day because their job is to work for all of us, not just the budget writer. And they have been up, who knows how many hours of sleep they haven’t had while they supported every single member of this body. So, Mr. President, I’d actually like to read their names out loud, I’m confident that they’re watching because they are waiting for this. They are waiting for this to get adopted.”

President Habib: “Please proceed.”

Senator Rolfsé: “I would like to particularly thank Michael Beanson and Clint McCarter who were the leaders of the staff that wrote this budget. Also, Richard Ramsey, Jeff Mitchell, Julie Murray, Amanda Cecil, Claire Goodwin, Jed Herman, Maria Hovde, Alia Kennedy, James Kettel, Danny Masterson, Jeff Naas, Sarian Scott, Sandy Sith, Travis Sugarman, Jasmin Adams, Heidi Buyak, and Peter Lindgren. And I would like to ask the body to give them a round of applause.”

The Senate rose and recognized the work of the staff of the Committee on Ways & Means.

Senator Rolfsé: “I would also like the body to thank Matt Bridges, who is the Senate Democratic budget caucus staff as well as Ryan Moore who was the Republican caucus staff on this budget because they were also worn ragged supporting us. And both of them also have provided a ton of input and intelligent remarks in crafting this budget. So Ryan and Matt, I know that they are here, thank you.

Finally, Mr. President, I would like to say that notwithstanding the personal beating that I just endured on this budget, I very much look forward to working with everybody next year, if I am in this role again next year, but hopefully working, all working together again for the benefit of the entire state of Washington.”

PERSONAL PRIVILEGE

Senator Braun: “Thank you Mr. President. So, I appreciate you letting Senator Rolfsé go first because she rose for the exact same reason I did and she did a much better job than I would do. So she thanked everyone in the room pretty much and she did it very well and they are all very much deserving of the thanks. I would just like to thank her. I, as previously stated, have some concerns about the budget but I very much appreciated working with Senator Rolfsé. She is highly competent, professional and kind, and just a pleasure to work with. The same thing to Senator Frockt, the Vice Chair. As I have stated, I think we have to figure out a way to be, to disagree in this chamber without being disagreeable and they both set a high standard there and I appreciate it. And then I would like to quickly chime in on her thanks for the staff, the Ways & Means staff, and our partisan staff..."
have done an amazing job. They had some real tough challenges. I am very proud to work with them. As I said before, they really are a credit to this institution and the state of Washington. Thank you Mr. President.”

MOTION

At 1:22 p.m., on motion of Senator Liias, the Senate was declared to be at ease subject to the call of the President.

Senator McCoy announced a meeting of the Committee on Facilities & Operations at 1:40 p.m. in the Office of the Majority Leader.

AFTERNOON SESSION

The Senate was called to order at 2:50 p.m. by President Habib.

ENGROSSED SUBSTITUTE HOUSE BILL NO. 2658,
On motion of Senator Lias, the Senate advanced to the seventh order of business.

RULING BY THE PRESIDENT

President Habib: “A point of order was raised by Senator Baumgartner on the question of how many votes this bill will require for passage, for final passage. Once again, we will write a formal opinion, but given how much is going on today on the final day of the regular session we, I am going to rule from the rostrum for the time being.

The President wants to point out, first of all, there were a number of constitutional questions that were discussed by members during the striking amendment debate. The only question brought before the President was a parliamentary question about the vote threshold for final passage. And the question, the point of inquiry only requires the President to look to the constitution in so far as the constitution gives guidance around the vote threshold. When it comes to the issue of initiatives, the only, the only instance in which a particular vote threshold is articulated is in the event of an initiative to the people. Meaning the language used refers to a majority of electors having voted. And in that instance, the initiative may not be amended for two years unless it is amended by a two-thirds vote of each, of the houses of the legislature. There is no mention made of any vote threshold for amendments to initiatives brought to the legislature. So, in the absence of any articulated guidance to the President, that would articulate a different vote threshold, the President looks to the default vote threshold for a bill, which is in Article II, section 22 which is a constitutional majority, so in this body that would be 25 votes.”

WRITTEN RULING: Formal Ruling issued by the President of the Senate - In responding to the Point of Parliamentary Inquiry raised by Senator Baumgartner as to the number of votes required for final passage of ESHB 3003, the President finds and rules as follows:

Article II, Section 1 of the Constitution provides for two kinds of initiatives: initiatives to the people and initiatives to the Legislature. Article II, Section 41 of the Constitution provides that an initiative to the people may not be amended or repealed by the legislature within two years following enactment, except by a two-thirds vote of the members of the House and Senate. The Constitution is silent as to the number of votes required to amend an initiative to the Legislature.

In his comments, Senator Baumgartner noted that ESHB 3003 effectively amends Initiative 940, an initiative to the Legislature. He then argued that ESHB 3003 therefore required a two-thirds vote.

The President, in ruling on the vote threshold for the passage of ESHB 3003, need not decide whether it seeks to amend Initiative 940. This is because, in either case, the vote threshold is clearly a constitutional majority of 25. In the case that ESHB 3003 does seek to amend Initiative 940, the Constitution does not provide a higher vote threshold for amending initiatives to the Legislature, and so the conclusion must be that the vote threshold is the default of a constitutional majority: 25 votes. Alternatively, if ESHB 3003 does not seek to amend Initiative 940, it should then be treated as any other bill, meaning the vote requirement is again only a constitutional majority of 25 as laid out in Article II, Section 22 of the Washington Constitution.

The President therefore finds that the number of votes required for the final passage of ESHB 3003 is 25.

PERSONAL PRIVILEGE

Senator Baumgartner: “Thank you Mr. President. I would encourage, that if possible, I appreciate that you are going to provide a written ruling, perhaps it might be in order and a good standard for this Senate if there was an ability to include with that a dissenting opinion from the maker of the motion or the person inquiring, so just some thought on that in the future, just for the record and the benefit of public discourse.”

REPLY BY THE PRESIDENT

President Habib: “Senator Baumgartner, we will be happy to, and have in the past, not consistently, but we’re happy to summarize the remarks that you made, or I believe Senator Ericksen actually if I am not mistaken, maybe made, in, maybe it was you, in support of your position. As well as that of Senator Pedersen. Summarize those for articulating the ruling of the President. We would be happy to do that to give the, future readers insight into what the two parties believed.”

The Senate resumed consideration of Engrossed Substitute House Bill No. 3003 which had been deferred earlier in the day on the day’s third reading calendar.

PARLIAMENTARY INQUIRY

Senator Ericksen: “So, what is our current policy with regards to the use of cellular devices for video recording from the wings and on the floor while we are engaged in floor action? By nonmembers of the media?”

President Habib: “You mean by senators?”

Senator Ericksen: “By senators, people in the wings, people not in the gallery, and people not involved in the media?”

RULING BY THE PRESIDENT

President Habib: “Senator Ericksen, so Senator Ericksen has asked the President regarding the Senate’s own rules concerning the use of mobile devices for video recording and there are two, two sources of authority here in the rules. One is, there has been a slight liberalization with respect to the use of cell phones but, even under the more liberal rules that you all adopted earlier this year, the use of cell phones is to be respectful and so the President believes that not only means keeping on silent, a gentle reminder about that, but also to that respectful use does not include using it for video recording of other members. And the other, the other issue that the President would remind members is the issue of decorum. Indecorous conduct and you know I, I don’t want to, much as some might believe, I don’t enjoy having to bring these issues up all the time but the President does find that you are as dignified as you behave. And so, whether it is taking photos of each other or videos of each other during speeches, tearing up copies of our constitution, whatever it might be, I think we all need to think about the behavior that we exhibit. The speech of course, we want to be as permissive as possible, senators’ speech.

One final note, is with regard to the wings, the President believes that a very limited, if there is a situation where a member of staff would like to take an isolated photo for some reason that there is some leeway there but the President, if there is an issue in the wings where it’s creating disruption, videos, et cetera, then the President will ask that conduct be ceased, just as I do when it comes to excessive speaking and noise in the wings. So, Senator Ericksen, I hope that answers your question.”

(22) "Tuition unit contract" means a contract between an eligible purchaser and the governing body, or a successor agency appointed for administration of this chapter, for the purchase of tuition units in the advanced college tuition payment program for a specified beneficiary that may be redeemed at a later date for an equal number of tuition units, except as provided in RCW 28B.95.030 (7) and (8).

(23) "Unit cash value price" means the total value of assets under management in the advanced college tuition payment program on a date to be determined by the committee, divided by the total number of outstanding units purchased by eligible purchasers before July 1, 2015, and any outstanding units accrued by eligible purchasers as a result of the July 2017 unit rebate. For purposes of this calculation, the total market value of assets shall exclude the total accumulated market value of proceeds from units purchased after June 30, 2015.

(24) "Unit purchase price" means the minimum cost to purchase one tuition unit in the advanced college tuition payment program for an eligible beneficiary. Generally, the minimum purchase price is one percent of the undergraduate tuition and fees for the current year, rounded to the nearest whole dollar, adjusted for the costs of administration and adjusted to ensure the actuarial soundness of the account. The analysis for price setting shall also include, but not be limited to consideration of past and projected patterns of tuition increases, program liability, past and projected investment returns, and the need for a prudent stabilization reserve.
Sec. 2. RCW 28B.95.030 and 2016 c 69 s 4 are each amended to read as follows:

(1) The Washington advanced college tuition payment program shall be administered by the committee on advanced tuition payment which shall be chaired by the director of the office. The committee shall be supported by staff of the office.

(2)(a) The Washington advanced college tuition payment program shall consist of the sale of tuition units, which may be redeemed by the beneficiary at a future date for an equal number of tuition units regardless of any increase in the price of tuition, that may have occurred in the interval, except as provided in subsections (7) and (8) of this section.

(b) Each purchase shall be worth a specific number of or fraction of tuition units at each state institution of higher education as determined by the governing body, except as provided in subsections (7) and (8) of this section.

(c) The number of tuition units necessary to pay for a full year's, full-time undergraduate tuition and fee charges at a state institution of higher education shall be set by the governing body at the time a purchaser enters into a tuition unit contract, except as provided in subsections (7) and (8) of this section.

(d) The governing body may limit the number of tuition units purchased by any one purchaser or on behalf of any one beneficiary, however, no limit may be imposed that is less than that necessary to achieve four years of full-time, undergraduate tuition charges at a state institution of higher education. The governing body also may, at its discretion, limit the number of participants, if needed, to ensure the actuarial soundness and integrity of the program.

(e) While the Washington advanced college tuition payment program is designed to help all citizens of the state of Washington, the governing body may determine residency requirements for eligible purchasers and eligible beneficiaries to ensure the actuarial soundness and integrity of the program.

(3)(a) No tuition unit may be redeemed until two years after the purchase of the unit.

(b) Units may be redeemed for enrollment at any institution of higher education that is recognized by the internal revenue service under chapter 529 of the internal revenue code. Units may also be redeemed to pay for dual credit fees.

(c) Units redeemed at a nonstate institution of higher education or for graduate enrollment shall be redeemed at the rate for state public institutions in effect at the time of redemption.

(4) The governing body shall determine the conditions under which the tuition benefit may be transferred to another family member. In permitting such transfers, the governing body may not allow the tuition benefit to be bought, sold, bartered, or otherwise exchanged for goods and services by either the beneficiary or the purchaser.

(5) The governing body shall administer the Washington advanced college tuition payment program in a manner reasonably designed to be actuarially sound, such that the assets of the trust will be sufficient to defray the obligations of the trust including the costs of administration. The governing body may, at its discretion, discount the minimum purchase price for certain kinds of purchases such as those from families with young children, as long as the actuarial soundness of the account is not jeopardized.

(6) The governing body shall annually determine current value of a tuition unit.

(7) For the 2015-16 and 2016-17 academic years only, the governing body shall set the payout value for units redeemed during that academic year only at one hundred seventeen dollars and eighty-two cents per unit. For academic years after the 2016-17 academic year, the governing body shall make program adjustments it deems necessary and appropriate to ensure that the total payout value of each account on October 9, 2015, is not decreased or diluted as a result of the initial application of any changes in tuition under section 3, chapter 36, Laws of 2015 3rd sp. sess. In the event the committee or governing body provides additional units under chapter 36, Laws of 2015 3rd sp. sess., the committee and governing body shall also increase the maximum number of units that can be redeemed in any year to mitigate the reduction in available account value during any year as a result of chapter 36, Laws of 2015 3rd sp. sess. The governing body must notify holders of tuition units after the adjustment in this subsection is made and must include a statement concerning the adjustment.

(8) The governing body shall allow account owners who purchased units before July 1, 2015, to redeem such units at the unit cash value price provided that all the redeemed funds are deposited immediately into an eligible Washington college savings program account established by the governing body. Within ninety days of the effective date of this section, the committee, in consultation with the state actuary and state investment board, shall:

(a) Establish a period that is not less than ninety days during which eligible purchasers may redeem units at the unit cash value price for the purposes of this subsection and provide at least thirty days' notice prior to the ninety-day window to all eligible account holders about the redemption option; and

(b) Establish the unit cash value price. The committee, in consultation with the state actuary and the state investment board, may revalue the unit cash value price established in this subsection (8)(b) up to three times during the ninety-day period in which eligible purchasers may redeem units for the unit cash value price.

(9)(a) After the governing body completes the requirements of subsection (8) of this section, the governing body shall adjust, by March 1, 2019, all remaining unredeemed units purchased before July 1, 2015, as follows:

(i) First, the governing body shall take the difference between the average unit purchase price in each individual's account and the 2016-17 unit payout value and increase the number of units in each individual's account by a number of units of equivalent total value at the 2017-18 unit purchase price, if the average unit purchase price is more than the 2016-17 unit payout value; and

(ii) Second, after (a)(i) of this subsection is completed, the governing body, with assistance from the state actuary, shall grant an additional number of units to each account holder with unredeemed and purchased units before July 1, 2015, in order to lower the best-estimate funded status of the program to one hundred twenty-five percent, subject to a limit of an increase of fifteen percent of unredeemed and purchased units per account holder. The state actuary shall select the measurement date, assumptions, and methods necessary to perform an actuarial measurement consistent with the purpose of this subsection.

(b) For the purpose of this subsection (9), and for account holders with uncompleted custom monthly contracts, the governing body shall only include purchased and unredeemed units before July 1, 2015.

(10) The governing body shall collect an amortization fee as a component of each future unit sold whenever the governing body determines amortization fees are necessary to increase the best-estimate funded status of the program.

(11) The governing body shall promote, advertise, and publicize the Washington advanced college tuition payment program. Materials and online publications advertising the Washington advanced college tuition payment program shall include a disclaimer that the Washington advanced college tuition
payment program's guarantee is that one hundred tuition units will equal one year of full-time, resident, undergraduate tuition at the most expensive state institution of higher education, and that if resident, undergraduate tuition is reduced, a tuition unit may lose monetary value.

((99)) In addition to any other powers conferred by this chapter, the governing body may:
(a) Impose reasonable limits on the number of tuition units or units that may be used in any one year;
(b) Determine and set any time limits, if necessary, for the use of benefits under this chapter;
(c) Impose and collect administrative fees and charges in connection with any transaction under this chapter;
(d) Appoint and use advisory committees and the state actuary as needed to provide program direction and guidance;
(e) Formulate and adopt all other policies and rules necessary for the efficient administration of the program;
(f) Consider the addition of an advanced payment program for room and board contracts and also consider a college savings program;
(g) Purchase insurance from insurers licensed to do business in the state, to provide for coverage against any loss in connection with the account's property, assets, or activities or to further insure the value of the tuition units;
(h) Make, execute, and deliver contracts, conveyances, and other instruments necessary to the exercise and discharge of its powers and duties under this chapter;
(i) Contract for the provision for all or part of the services necessary for the management and operation of the program with other state or nonstate entities authorized to do business in the state;
(j) Contract for other services or for goods needed by the governing body in the conduct of its business under this chapter;
(k) Contract with financial consultants, actuaries, auditors, and other consultants as necessary to carry out its responsibilities under this chapter;
(l) Solicit and accept cash donations and grants from any person, governmental agency, private business, or organization;
and
(m) Perform all acts necessary and proper to carry out the duties and responsibilities of this program under this chapter.

Sec. 3. RCW 28B.95.045 and 2016 c 69 s 6 are each amended to read as follows:
1. The committee shall create an expedited process by which owners can complete a direct rollover or investment change of a 529 account from a:
(a) ((a)) State-sponsored prepaid tuition plan to a state-sponsored college savings plan((i));
(b) ((a)) State-sponsored college savings plan to a state-sponsored prepaid tuition plan((i)) or
(c) ((a)) State-sponsored prepaid tuition plan or a state-sponsored college savings plan to an out-of-state eligible 529 plan.
2. The committee shall report annually to the governor and the appropriate committees of the legislature on (a) the number of accounts that have been rolled into the Washington college savings program from out of state and (b) the number of accounts rolled out of the Washington college savings program to 529 plans into other states.

NEW SECTION. Sec. 4. This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect April 15, 2018."

The motion by Senator Kuderer carried and the Senate concurred in the House amendment(s) to Substitute Senate Bill No. 5746 by voice vote.

The President declared the question before the Senate to be the final passage of Substitute Senate Bill No. 5746, as amended by the House.
5. Great place to stop for lunch or breakfast. But Cy sold eggs for twenty years nearly. Which is pretty interesting, again kind of a blue collar job. He retired from that and went to work as the custodian at the Winlock High School for ten years. And he loved it there. He loved being part of the community, being part of the school district, being close to the children. And he was a great role model for the children. He worked there all through the 80s. Technically retired in the 90s. Although I never seen Cy, technically, actually look like he was retired. From there he went directly in to work in his community and he did all kinds of stuff. He worked for the Lions; with the booster club; with Little League. He served on the school board. He served as a council member. He ultimately became mayor in the early 2000s and that’s actually when I met Cy. He was the mayor and this is a gentleman at the time in his 80s. He was Mayor of Winlock. And I first met him when I was on the school, Timberland Library Board at the time and we were down there taking a look at the Winlock Library. And the Winlock Library is a very nice library, of course I am very proud of all the Timberland Libraries, but it is nothing like what you would see like in the city of Seattle. It is a fairly modest building. But you couldn’t find a person more proud to have a library in the town of Winlock. And so proud of his community and so eager to help the folks in his community succeed. It’s just inspiring. That’s the first time I met Cy. It felt, from that day on, it felt like I’d known him forever. And I’d seen him off and on. As I said, I often see him at Republican events but for him, and I just want to mention that for him, he was a very staunch Republican but for him it was actually the sort of thing, you know, perhaps on both sides of the aisle, there are times when we are not as proud of our partisan affiliations as we would like to be. But when you met Cy it made you proud ’cause he was just a good guy. He’s a great American. He’s a good friend. And he lived a great life. The type of life I think we all could be inspired by and I want to thank Governor Gregoire for ultimately nominating him to be one of our Washington Generals. It is a great program. It is great that they honor people like this. Thank you Mr. President.”

MOTION

At 3:56 p.m., on motion of Senator Liias, the Senate was declared to be at ease subject to the call of the President for the purposes of caucuses.

Senator Fain announced a meeting of the Republican Caucus immediately upon going at ease.

EVENING SESSION

The Senate was called to order at 4:59 p.m. by President Habib.

REMARKS BY THE PRESIDENT

President Habib: “The President would like to take a moment, and I’ve already asked her if she would like to address the Senate, but I just want to take the President’s Privilege of just saying one thing about Representative Clibborn which is that I, my first experience in the Legislature, ever coming to the legislature testifying on, in support of then Representative Carlyle’s bill on distracted driving, in the House Transportation Committee, I was in front of Judy Clibborn, and you all would be unsurprised to know that I went long and did not have a green light prompt that obviously made any difference to me, or red light. So, I kept talking and she very gently gave me the last line treatment and when I went back as Lieutenant Governor a week or two ago for one of my bills that we just passed earlier today, I was very sure to be brief in my remarks. But you know she, I came in replacing I think her best friend, or one of her best friends, Deb Eddy, and I had some concern about how she would feel about me taking her place but she was just so gracious and welcoming as all these stories today have indicated of bringing me into the eastside legislators community.

And one final point I want to make, and she’ll correct me if I am wrong, but I believe Judy was the first woman to represent at least the core east side. I know there was Kathleen Drew who represented the 4th, 48th, and 45th which now has an entire female delegation, all nine legislators that touch Lake Washington on the east side there are women now but when she was first elected I believe you were the first to hold that distinction and she is just a trailblazer in so many ways. And Representative Clibborn, please know that if it weren’t sine die it wouldn’t have been one-third of the senators speaking it would be every single one of the senators speaking. But please know
how much this body appreciates you, respects you and now if you would do us the great honor of taking the podium and just speaking to us from the President’s desk."

With the permission of the senate, business was suspended to allow Representative Clibborn to make remarks.

**REMARKS BY REPRESENTATIVE CLIBBORN**

Representative Clibborn: So, I wasn’t prepared for this. I am overwhelmed and I am so appreciative. Here we are, the last day. We don’t have a lot of time and we are all sitting here talking about some of my favorite stories. And I wasn’t the first woman, I replaced Ida Balassiotes, but I was the first Democrat. So, that was, yeah. But it doesn’t matter, I like everyone, and I like to work with everyone. It has been so overwhelming and I am so moved by your stories. I know each of you. I know those stories and I think about you. Some of you have been my inspiration. I have learned so much from all of you. I didn’t start out being patient and I didn’t start out being able to hear all sides. I had to learn to do that and so one thing I have been saying is as we look at how we work with each other, as we learn from each other, I hope that we continue to work together because that is what made us so able to do the things that you’re all talking about. If we weren’t together, we wouldn’t have had the package. And you are all my friends and I just appreciate this so much. I can’t say enough. Thank you.”

**MOTION**

On motion of Senator Liias, the Senate reverted to the fourth order of business.

**PERSONAL PRIVILEGE**

Senator Keiser: “I’d just like to note that today is International Women’s Day and this has been an international celebration since 2008, yeah 2008. No 1908. It is a very old celebration. And I just wanted to notice that we have had a lot to celebrate in this chamber this year when it comes to women’s rights because we’ve done some really good work and passed some very good bills. And I want to thank all of the members here but, especially, I would like to thank some people who don’t usually get much attention. A lot of times in these celebrations we talk about the very famous and sometimes the very notorious women in the world, but today I would just like to read the first names of the women who work on our custodial staff and clean up after our messes. Because as you know, we make a lot of mess around here. So I would like to thank on this International Women’s Day our custodial staff people including Shelly, Swoon, LeAnn, Mong, and yes that is her real name, Cena, Cassie, Doris number one, Doris number two, Kim, Annette, and Larissa. And the next time you see them would you please say, ‘Thank you?’ Thank you very much.”

**MOTION**

On motion of Senator Liias, the Senate advanced to the sixth order of business.

**SECOND READING**

ENGROSSED HOUSE BILL NO. 2444, by Representatives Slatter, Robinson, McBride, Clibborn, Appleton, Tharinger, Klober, Doglio and Tarleton

Providing a real estate excise tax exemption for certain transfers of low-income housing.

The measure was read the second time.

**MOTION**

Senator Frockt moved that the following committee striking amendment by the Committee on Ways & Means be adopted:

Strike everything after the enacting clause and insert the following:

"Sec. 1. RCW 82.45.010 and 2014 c 58 s 24 are each amended to read as follows:

(1) As used in this chapter, the term "sale" has its ordinary meaning and includes any conveyance, grant, assignment, quitclaim, or transfer of the ownership of or title to real property, including standing timber, or any estate or interest therein for a valuable consideration, and any contract for such conveyance, grant, assignment, quitclaim, or transfer, and any lease with an option to purchase real property, including standing timber, or any estate or interest therein or other contract under which possession of the property is given to the purchaser, or any other person at the purchaser's direction, and title to the property is retained by the vendor as security for the payment of the purchase price. The term also includes the grant, assignment, quitclaim, sale, or transfer of improvements constructed upon leased land.

(2)(a) The term "sale" also includes the transfer or acquisition within any twelve-month period of a controlling interest in any entity with an interest in real property located in this state for a valuable consideration.

(b) For the sole purpose of determining whether, pursuant to the exercise of an option, a controlling interest was transferred or acquired within a twelve-month period, the date that the option agreement was executed is the date on which the transfer or acquisition of the controlling interest is deemed to occur. For all other purposes under this chapter, the date upon which the option is exercised is the date of the transfer or acquisition of the controlling interest.

(c) For purposes of this subsection, all acquisitions of persons acting in concert must be aggregated for purposes of determining whether a transfer or acquisition of a controlling interest has taken place. The department must adopt standards by rule to determine when persons are acting in concert. In adopting a rule for this purpose, the department must consider the following:

(i) Persons must be treated as acting in concert when they have a relationship with each other such that one person influences or controls the actions of another through common ownership; and

(ii) When persons are not commonly owned or controlled, they must be treated as acting in concert only when the unity of which the purchasers have negotiated and will consummate the transfer of ownership interests supports a finding that they are acting as a single entity. If the acquisitions are completely independent, with each purchaser buying without regard to the identity of the other purchasers, then the acquisitions are considered separate acquisitions.

(3) The term "sale" does not include:

(a) A transfer by gift, devise, or inheritance.

(b) A transfer by transfer on death deed, to the extent that it is not in satisfaction of a contractual obligation of the decedent owed to the recipient of the property.

(c) A transfer of any leasehold interest other than of the type mentioned above.

(d) A cancellation or forfeiture of a vendee's interest in a contract for the sale of real property, whether or not such contract
contains a forfeiture clause, or deed in lieu of foreclosure of a mortgage.

(e) The partition of property by tenants in common by agreement or as the result of a court decree.

(f) The assignment of property or interest in property from one spouse or one domestic partner to the other spouse or other domestic partner in accordance with the terms of a decree of dissolution of marriage or state registered domestic partnership or in fulfillment of a property settlement agreement.

(g) The assignment or other transfer of a vendor's interest in a contract for the sale of real property, even though accompanied by a conveyance of the vendor's interest in the real property involved.

(h) Transfers by appropriation or decree in condemnation proceedings brought by the United States, the state or any political subdivision thereof, or a municipal corporation.

(i) A mortgage or other transfer of an interest in real property merely to secure a debt, or the assignment thereof.

(j) Any transfer or conveyance made pursuant to a deed of trust or an order of sale by the court in any mortgage, deed of trust, or lien foreclosure proceeding or upon execution of a judgment, or deed in lieu of foreclosure to satisfy a mortgage or deed of trust.

(k) A conveyance to the federal housing administration or veterans administration by an authorized mortgagee made pursuant to a contract of insurance or guaranty with the federal administration or veterans administration.

(l) A transfer in compliance with the terms of any lease or contract upon which the tax as imposed by this chapter has been paid or where the lease or contract was entered into prior to the date this tax was first imposed.

(m) The sale of any grave or lot in an established cemetery.

(n) A sale by the United States, this state or any political subdivision thereof, or a municipal corporation of this state.

(o) A sale to a regional transit authority or public corporation under RCW 81.112.320 under a sale/leaseback agreement under RCW 81.112.300.

(p) A transfer of real property, however effected, if it consists of a mere change in identity or form of ownership of an entity where there is no change in the beneficial ownership. These include transfers to a corporation or partnership which is wholly owned by the transferee and/or the transferee's spouse or domestic partner or children of the transferee or the transferee's spouse or domestic partner. However, if thereafter such transferee corporation or partnership voluntarily transfers such real property, or such transferee, spouse or domestic partner, or children of the transferee or the transferee's spouse or domestic partner voluntarily transfer stock in the transferee corporation or interest in the transferee partnership capital, as the case may be, to other than (i) the transferee and/or the transferee's spouse or domestic partner or children of the transferee or the transferee's spouse or domestic partner, (ii) a trust having the transferee and/or the transferee's spouse or domestic partner or children of the transferee or the transferee's spouse or domestic partner as the only beneficiaries at the time of the transfer to the trust, or (iii) a corporation or partnership wholly owned by the original transferee and/or the transferee's spouse or domestic partner or children of the transferee or the transferee's spouse or domestic partner, within three years of the original transfer to which this exemption applies, and the tax on the subsequent transfer has not been paid within sixty days of becoming due, excise taxes become due and payable on the original transfer as otherwise provided by law.

(q)(i) A transfer that for federal income tax purposes does not involve the recognition of gain or loss for entity formation, liquidation or dissolution, and reorganization, including but not limited to nonrecognition of gain or loss because of application of 26 U.S.C. Sec. 332, 337, 351, 368(a)(1), 721, or 731 of the internal revenue code of 1986, as amended.

(ii) However, the transfer described in (q)(i) of this subsection cannot be preceded or followed within a twelve-month period by another transfer or series of transfers, that, when combined with the otherwise exempt transfer or transfers described in (q)(i) of this subsection, results in the transfer of a controlling interest in the entity for valuable consideration, and in which one or more persons previously holding a controlling interest in the entity receive cash or property in exchange for any interest the person or persons acting in concert hold in the entity. This subsection (3) (q)(ii) does not apply to that part of the transfer involving property received that is the real property interest that the person or persons originally contributed to the entity or when one or more persons who did not contribute real property or belong to the entity at a time when real property was purchased receive cash or personal property in exchange for that person or persons' interest in the entity. The real estate excise tax under this subsection (3)(q)(ii) is imposed upon the person or persons who previously held a controlling interest in the entity.

(r) A qualified sale of a manufactured/mobile home community, as defined in RCW 59.20.030, that takes place on or after June 12, 2008, but before December 31, 2018.

(s)(i) A transfer of a qualified low-income housing development or controlling interest in a qualified low-income housing development, unless, due to noncompliance with federal statutory requirements, the seller is subject to recapture, in whole or in part, of its allocated federal low-income housing tax credits within the four years prior to the date of transfer.

(ii) For purposes of this subsection (3)(s), "qualified low-income housing development" means real property and improvements in respect to which the seller or, in the case of a transfer of a controlling interest, the owner or beneficial owner, was allocated federal low-income housing tax credits authorized under 26 U.S.C. Sec. 42 or successor statute, by the Washington state housing finance commission or successor state-authorized tax credit allocating agency.

NEW SECTION. Sec. 2. This act applies with respect to transfers occurring before, on, or after the effective date of this section. However, this act may not be construed by the department of revenue, state board of tax appeals, or any court as authorizing the refund of any tax liability imposed or authorized under chapter 82.45 or 82.46 RCW and properly paid before the effective date of section 1 of this act with respect to a transfer of qualified low-income housing as defined in RCW 82.45.010(3)(s).

NEW SECTION. Sec. 3. This act takes effect July 1, 2018." On page 1, line 2 of the title, after "housing;" strike the remainder of the title and insert "amending RCW 82.45.010; creating a new section; and providing an effective date."

MOTION

Senator Lias moved that the following amendment no. 952 by Senator Carlyle be adopted:

On page 5, after line 4 of the amendment, insert the following:

"(iii) This subsection (3)(s) does not apply to transfers of a qualified low-income housing development or controlling interest in a qualified low-income housing development occurring on or after July 1, 2035.

(iv) The Washington state housing finance commission, in consultation with the department, must gather data on: (A) The fiscal savings, if any, accruing to transferees as a result of the
exemption provided in this subsection (3)(s); (B) the extent to which transferors of qualified low-income housing developments receive consideration, including any assumption of debt, as part of a transfer subject to the exemption provided in this subsection (3)(s); and (C) the continued use of the property for low-income housing. The Washington state housing finance commission must provide this information to the joint legislative audit and review committee. The committee must conduct a review of the tax preference created under this subsection (3)(s) in calendar year 2033, as required under chapter 43.136 RCW."

MESSAGES FROM THE HOUSE

March 8, 2018

MR. PRESIDENT:
The House has passed:
ENGROSSED SUBSTITUTE SENATE BILL NO. 6614, and the same is herewith transmitted.

NONA SNELL, Deputy Chief Clerk

March 8, 2018

MR. PRESIDENT:
The House passed ENGROSSED SECOND SUBSTITUTE SENATE BILL NO. 6362 with the following amendment(s):
6362-82.E AMH ENGR H5190.E
Strike every thing after the enacting clause and insert the following:

"PART I: PROGRAM FUNDING

Sec. 101. RCW 28A.150.260 and 2017 3rd sp.s. c 13 s 402 are each amended to read as follows:
The purpose of this section is to provide for the allocation of state funding that the legislature deems necessary to support school districts in offering the minimum instructional program of basic education under RCW 28A.150.220. The allocation shall be determined as follows:

(1) The governor shall and the superintendent of public instruction may recommend to the legislature a formula for the distribution of a basic education instructional allocation for each common school district.

(2)(a) The distribution formula under this section shall be for allocation purposes only. Except as may be required under subsections (4)(b) and (c) and (9) of this section, chapter 28A.155, 28A.165, 28A.180, or 28A.185 RCW, or federal laws and regulations, nothing in this section requires school districts to use basic education instructional funds to implement a particular instructional approach or service. Nothing in this section requires school districts to maintain a particular classroom teacher-to-student ratio or other staff-to-student ratio or to use allocated funds to pay for particular types or classifications of staff. Nothing in this section entitles an individual teacher to a particular teacher planning period.

(b) To promote transparency in state funding allocations, the superintendent of public instruction must report state per-pupil allocations for each school district for the general apportionment, special education, learning assistance, transitional bilingual, highly capable, and career and technical education programs. The superintendent must also report state general apportionment per-pupil allocations by grade for each school district. The superintendent must report this information in a user-friendly format on the main page of the office's web site and on school district apportionment reports. School districts must include a link to the superintendent's per-pupil allocations report on the main page of the school district's web site. In addition, the budget documents published by the legislature for the enacted omnibus operating appropriations act must report statewide average per-pupil allocations for general apportionment and the categorical programs listed in this subsection.

(3)(a) To the extent the technical details of the formula have been adopted by the legislature and except when specifically provided as a school district allocation, the distribution formula for the basic education instructional allocation shall be based on minimum staffing and nonstaff costs the legislature deems necessary to support instruction and operations in prototypical schools serving high, middle, and elementary school students as provided in this section. The use of prototypical schools for the distribution formula does not constitute legislative intent that schools should be operated or structured in a similar fashion as the prototypes. Prototypical schools illustrate the level of resources needed to operate a school of a particular size with particular types and grade levels of students using commonly understood terms and inputs, such as class size, hours of instruction, and various categories of school staff. It is the intent that the funding allocations to school districts be adjusted from the school prototypes based on the actual number of annual average full-time equivalent students in each grade level at each school in the district and not based on the grade-level configuration of the school to the extent that data is available. The allocations shall be further adjusted from the school prototypes with minimum allocations for small schools and to reflect other factors identified in the omnibus appropriations act.

(b) For the purposes of this section, prototypical schools are defined as follows:
(i) A prototypical high school has six hundred average annual full-time equivalent students in grades nine through twelve;
(ii) A prototypical middle school has four hundred thirty-two average annual full-time equivalent students in grades seven and eight; and
(iii) A prototypical elementary school has four hundred average annual full-time equivalent students in grades kindergarten through six.

(4)(a)(i) The minimum allocation for each level of prototypical school shall be based on the number of full-time equivalent classroom teachers needed to provide instruction over the minimum required annual instructional hours under RCW 28A.150.220 and provide at least one teacher planning period per school day, and based on the following general education average class size of full-time equivalent students per teacher:

(b) In addition to the amounts provided in (a) of this subsection, beginning in the 2014-15 school year, the omnibus appropriations act shall provide the following minimum allocation for each annual average full-time equivalent student in grades nine through twelve for the following materials, supplies, and operating costs, to be adjusted annually for inflation:

- Per annual average full-time equivalent student in grades 9-12: Technology $36.35, Curriculum and textbooks $39.02, Other supplies (and library materials) $77.28, Library materials $5.56, Instructional professional development for certificated and classified staff $6.04.

(9) In addition to the amounts provided in subsection (8) of this section and subject to RCW 28A.150.265, the omnibus appropriations act shall provide an amount based on full-time equivalent student enrollment in each of the following:

(a) Exploratory career and technical education courses for students in grades seven through twelve;
(b) Preparatory career and technical education courses for students in grades nine through twelve offered in a high school;
(c) Preparatory career and technical education courses for students in grades eleven and twelve offered through a skill center.

(10) In addition to the allocations otherwise provided under this section, amounts shall be provided to support the following programs and services:

(a)(i) To provide supplemental instruction and services for students who are not meeting academic standards through the learning assistance program under RCW 28A.165.005 through 28A.165.065, allocations shall be based on the district percentage of students in grades K-12 who were eligible for free or reduced-price meals in the prior school year. The minimum allocation for the program shall provide for each level of prototypical school resources to provide, on a statewide average, 2.3975 hours per week in extra instruction with a class size of fifteen learning assistance program students per teacher.
(ii) In addition to funding allocated under (a)(i) of this subsection, to provide supplemental instruction and services for students who are not meeting academic standards in ((schools where at least fifty percent of students are eligible for free and reduced-price meals)) qualifying schools. A qualifying school means a school in which the three-year rolling average of the prior year total annual average enrollment that qualifies for free or reduced-price meals equals or exceeds fifty percent or more of its total annual average enrollment. The minimum allocation for this additional high poverty-based allocation must provide for each level of prototypical school resources to provide, on a statewide average, 1.1 hours per week in extra instruction with a class size of fifteen learning assistance program students per teacher, under RCW 28A.165.055, school districts must distribute the high poverty-based allocation to the schools that generated the funding allocation.

(b)(i) To provide supplemental instruction and services for students whose primary language is other than English, allocations shall be based on the head count number of students in each school who are eligible for and enrolled in the transitional bilingual instruction program under RCW 28A.180.010 through 28A.180.080. The minimum allocation for each level of prototypical school shall provide resources to provide, on a statewide average, 4.7780 hours per week in extra instruction for students in grades kindergarten through six and 6.7780 hours per week in extra instruction for students in grades seven through twelve, with fifteen transitional bilingual instruction program students per teacher. Notwithstanding other provisions of this subsection (10), the actual per-student allocation may be scaled to provide a larger allocation for students needing more intensive intervention and a commensurate reduced allocation for students needing less intensive intervention, as detailed in the omnibus appropriations act.
(ii) To provide supplemental instruction and services for students who have exited the transitional bilingual program, allocations shall be based on the head count number of students in each school who have exited the transitional bilingual program within the previous two years based on their performance on the English proficiency assessment and are eligible for and enrolled in the transitional bilingual instruction program under RCW 28A.180.040(1)(g). The minimum allocation for each prototypical school shall provide resources to provide, on a statewide average, 3.0 hours per week in extra instruction with fifteen exited students per teacher.
(c) To provide additional allocations to support programs for highly capable students under RCW 28A.185.010 through 28A.185.030, allocations shall be based on 5.0 percent of each school district's full-time equivalent basic education enrollment. The minimum allocation for the programs shall provide resources to provide, on a statewide average, 2.1590 hours per week in extra instruction with fifteen highly capable program students per teacher.

(11) The allocations under subsections (4)(a), (5), (6), and (8) of this section shall be enhanced as provided under RCW 28A.150.390 on an excess cost basis to provide supplemental instructional resources for students with disabilities.

(12)(a) For the purposes of allocations for prototypical high schools and middle schools under subsections (4) and (10) of this section that are based on the percent of students in the school who are eligible for free and reduced-price meals, the actual percent of such students in a school shall be adjusted by a factor identified in the omnibus appropriations act to reflect underreporting of free and reduced-price meal eligibility among middle and high school students.
(b) Allocations or enhancements provided under subsections (4), (7), and (9) of this section for exploratory and preparatory career and technical education courses shall be provided only for courses approved by the office of the superintendent of public instruction under chapter 28A.700 RCW.

(13)(a) This formula for distribution of basic education funds shall be reviewed biennially by the superintendent and governor. The recommended formula shall be subject to annual amendment or rejection by the legislature.
(b) In the event the legislature rejects the distribution formula recommended by the governor, without adopting a new distribution formula, the distribution formula for the previous school year shall remain in effect.
(c) The enrollment of any district shall be the annual average number of full-time equivalent students and part-time students as provided in RCW 28A.150.350, enrolled on the first school day of each month, including students who are in attendance pursuant to RCW 28A.335.160 and 28A.225.250 who do not reside within the servicing school district. The definition of full-time equivalent student shall be determined by rules of the superintendent of public instruction and shall be included as part of the superintendent's biennial budget request. The definition shall be based on the minimum instructional hour offerings required under RCW 28A.150.220. Any revision of the present definition shall not take effect until approved by the house ways and means committee and the senate ways and means committee.
(d) The office of financial management shall make a monthly review of the superintendent's reported full-time equivalent students in the common schools in conjunction with RCW 43.62.050.

Sec. 102. RCW 28A.150.390 and 2017 3rd sp.s. c 13 s 406 are each amended to read as follows:

(1) The superintendent of public instruction shall submit to each regular session of the legislature during an odd-numbered year a programmed budget request for special education programs for students with disabilities. Funding for programs operated by local school districts shall be on an excess cost basis from appropriations provided by the legislature for special education programs for students with disabilities and shall take account of state funds accruing through RCW 28A.150.260 (4)(a), (5), (6), and (8) and 28A.150.415.

(2) The excess cost allocation to school districts shall be based on the following:
   (a) A district's annual average headcount enrollment of students ages birth through four and those five year olds not yet enrolled in kindergarten who are eligible for and enrolled in special education, multiplied by the district's base allocation per full-time equivalent student, multiplied by 1.15; and
   (b) A district's annual average full-time equivalent basic education enrollment, multiplied by the district's funded enrollment percent, multiplied by the district's base allocation per full-time equivalent student, multiplied by 0.9609.

(3) As used in this section:
   (a) "Base allocation" means the total state allocation to all schools in the district generated by the distribution formula under RCW 28A.150.260 (4)(a), (5), (6), and (8) and 28A.150.415, to be divided by the district's full-time equivalent enrollment.
   (b) "Basic education enrollment" means enrollment of resident students including nonresident students enrolled under RCW 28A.225.225 and students from nonhigh districts enrolled under RCW 28A.225.210 and excluding students residing in another district enrolled as part of an interdistrict cooperative program under RCW 28A.225.250.
   (c) "Enrollment percent" means the district's resident special education annual average enrollment, excluding students ages birth through four and those five year olds not yet enrolled in kindergarten, as a percent of the district's annual average full-time equivalent basic education enrollment.
   (d) "Funded enrollment percent" means the lesser of the district's actual enrollment percent or thirteen and five-tenths percent.

NEW SECTION. Sec. 103. A new section is added to chapter 28A.160 RCW to read as follows:

(1) Subject to the availability of amounts appropriated for this specific purpose, a transportation alternate funding grant program is created.

(2) As part of the award process for the grants, the superintendent of public instruction must include a review of the school district's efficiency rating, key performance indicators, and local school district characteristics such as unique geographic constraints, low enrollment, geographic density of students, the percentage of students served under the McKinney-Vento homeless assistance act from outside the district, or whether the district is a nonhigh district.

Sec. 104. RCW 28A.165.055 and 2017 3rd sp.s. c 13 s 405 are each amended to read as follows:

(1) The funds for the learning assistance program shall be appropriated in accordance with RCW 28A.150.260 and the omnibus appropriations act. The distribution formula is for school district allocation purposes only, except as provided in RCW 28A.150.260(10)(a)(ii), but all funds appropriated for the learning assistance program must be expended for the purposes of RCW 28A.165.005 through 28A.165.065.

(2) A district's high poverty-based allocation is generated by its qualifying schools as defined in RCW 28A.150.260(10) and must be expended by the district for those schools. This funding must supplement and not supplant the district's expenditures under this chapter for those schools.

NEW SECTION. Sec. 105. A new section is added to chapter 28A.300 RCW to read as follows:

(1) The superintendent of public instruction must require school districts to have identification procedures for their highly capable programs that are clearly stated and implemented by school districts using the following criteria:
   (a) Districts must use multiple objective criteria to identify students who are among the most highly capable. Multiple pathways for qualifications must be available and no single criterion may disqualify a student from identification;
   (b) Highly capable selection decisions must be based on consideration of criteria benchmarked on local norms, but local norms may not be used as a more restrictive criteria than national norms at the same percentile;
   (c) Subjective measures such as teacher recommendations or report card grades may not be used to screen out a student from assessment. These data points may be used alongside other criteria during selection to support identification, but may not be used to disqualify a student from being identified; and
   (d) To the extent practicable, screening and assessments must be given in the native language of the student. If native language screening and assessments are not available, a nonverbal screening and assessment must be used.

(2) The superintendent of public instruction must disseminate guidance on referral, screening, assessment, selection, and placement best practices for highly capable programs. The guidance must be regularly updated and aligned with evidence-based practices.

Sec. 106. RCW 28A.150.392 and 2017 3rd sp.s. c 13 s 407 are each amended to read as follows:

(1)(a) To the extent necessary, funds shall be made available for safety net awards for districts with demonstrated needs for special education funding beyond the amounts provided through the special education funding formula under RCW 28A.150.390.
   (b) If the federal safety net awards based on the federal eligibility threshold exceed the federal appropriation in any fiscal year, then the superintendent shall expend all available federal discretionary funds necessary to meet this need.

(2) Safety net funds shall be awarded by the state safety net oversight committee subject to the following conditions and limitations:
   (a) The committee shall award additional funds for districts that can convincingly demonstrate that all legitimate expenditures for special education exceed all available revenues from state funding formulas.
   (b) In the determination of need, the committee shall consider additional available revenues from federal sources.
   (c) Differences in program costs attributable to district philosophy, service delivery choice, or accounting practices are not a legitimate basis for safety net awards.
   (d) In the determination of need, the committee shall require that districts demonstrate that they are maximizing their eligibility for all state revenues related to services for special education-eligible students and all federal revenues from federal impact aid, medicaid, and the individuals with disabilities education act-Part
B and appropriate special projects. Awards associated with (e) and (f) of this subsection shall not exceed the total of a district's specific determination of need.

(e) The committee shall then consider the extraordinary high cost needs of one or more individual special education students. Differences in costs attributable to district philosophy, service delivery choice, or accounting practices are not a legitimate basis for safety net awards.

(f) Using criteria developed by the committee, the committee shall then consider extraordinary costs associated with communities that draw a larger number of families with children in need of special education services, which may include consideration of proximity to group homes, military bases, and regional hospitals. Safety net awards under this subsection (2)(f) shall be adjusted to reflect amounts awarded under (e) of this subsection.

(g) The committee shall then consider the extraordinary high cost needs of one or more individual special education students served in residential schools as defined in RCW 28A.190.020, programs for juveniles under the department of corrections, and programs for juveniles operated by city and county jails to the extent they are providing a program of education for students enrolled in special education.

(h) The maximum allowable indirect cost for calculating safety net eligibility may not exceed the federal restricted indirect cost rate for the district plus one percent.

(i) Safety net awards shall be adjusted based on the percent of potential medicaid eligible students billed as calculated by the superintendent of public instruction in accordance with chapter 318, Laws of 1999.

(j) Safety net awards must be adjusted for any audit findings or exceptions related to special education funding.

(3) The superintendent of public instruction shall adopt such rules and procedures as are necessary to administer the special education funding and safety net award process. By September 1, 2018, the superintendent shall review and revise the rules to achieve full and complete implementation of the requirements of this subsection and subsection (4) of this section including revisions to rules that provide additional flexibility to access community impact awards. Before revising any standards, procedures, or rules, the superintendent shall consult with the office of financial management and the fiscal committees of the legislature. In adopting and revising the rules, the superintendent shall ensure the application process to access safety net funding is streamlined, timelines for submission are not in conflict, feedback to school districts is timely and provides sufficient information to allow school districts to understand how to correct any deficiencies in a safety net application, and that there is consistency between awards approved by school district and by application period. The office of the superintendent of public instruction shall also provide technical assistance to school districts in preparing and submitting special education safety net applications.

(4) On an annual basis, the superintendent shall survey districts regarding their satisfaction with the safety net process and consider feedback from districts to improve the safety net process. Each year by December 1st, the superintendent shall prepare and submit a report to the office of financial management and the appropriate policy and fiscal committees of the legislature that summarizes the survey results and those changes made to the safety net process as a result of the school district feedback.

(5) The safety net oversight committee appointed by the superintendent of public instruction shall consist of:

(a) One staff member from the office of the superintendent of public instruction;

(b) Staff of the office of the state auditor who shall be nonvoting members of the committee; and

(c) One or more representatives from school districts or educational service districts knowledgeable of special education programs and funding.

**PART II: COMPENSATION**

**NEW SECTION.** Sec. 201. The legislature recognizes that Initiative Measure No. 1433 was approved by the voters of the state of Washington in 2016 requiring employers to provide paid sick leave to each of its employees. The legislature acknowledges that the enactment of this initiative contributes to the costs of operations of the state's public schools and intends to provide funding in the omnibus appropriations act to support school districts with these additional costs.

Sec. 202. RCW 28A.150.410 and 2017 3rd sp.s. c 13 s 101 are each amended to read as follows:

(1) Through the 2017-18 school year, the legislature shall establish for each school district in the appropriations act a statewide salary allocation schedule, for allocation purposes only, to be used to distribute funds for basic education certificated instructional staff salaries under RCW 28A.150.260. For the purposes of this section, the staff allocations for classroom teachers, teacher-librarians, guidance counselors, and student health services staff under RCW 28A.150.260 are considered allocations for certificated instructional staff.

(2) Through the 2017-18 school year, salary allocations for state-funded basic education certificated instructional staff shall be calculated by the superintendent of public instruction by determining the district's average salary for certificated instructional staff, using the statewide salary allocation schedule and related documents, conditions, and limitations established by the omnibus appropriations act.

(3) Through the 2017-18 school year, no more than ninety college quarter-hour credits received by any employee after the baccalaureate degree may be used to determine compensation allocations under the state salary allocation schedule and LEAP documents referenced in the omnibus appropriations act, or any replacement schedules and documents, unless:

(a) The employee has a master's degree; or

(b) The credits were used in generating state salary allocations before January 1, 1992.

(4) Beginning in the 2007-08 school year and through the 2017-18 school year, the calculation of years of service for occupational therapists, physical therapists, speech-language pathologists, audiologists, nurses, social workers, counselors, and psychologists regulated under Title 18 RCW may include experience in schools and other nonschool positions as occupational therapists, physical therapists, speech-language pathologists, audiologists, nurses, social workers, counselors, or psychologists. The calculation shall be that one year of service in a nonschool position counts as one year of service for purposes of this chapter, up to a limit of two years of nonschool service. Nonschool years of service included in calculations under this subsection shall not be applied to service credit totals for purposes of any retirement benefit under chapter 41.32, 41.35, or 41.40 RCW, or any other state retirement system benefits.

(5) By the (2019-20) 2018-19 school year, the minimum state allocation for salaries for certificated instructional staff in the basic education program must be increased; to provide a statewide average allocation of sixty-four thousand dollars adjusted for inflation from the 2017-18 school year.

(6) By the (2019-20) 2018-19 school year, the minimum state allocation for salaries for certificated administrative staff in the
basic education program must be increased ((beginning in the 2018-19 school year)) to provide a statewide average allocation of ninety-five thousand dollars adjusted for inflation from the 2017-18 school year.

(7) By the ((2019-20)) 2018-19 school year, the minimum state allocation for salaries for classified staff in the basic education program must be increased ((beginning in the 2018-19 school year)) to provide a statewide average allocation of forty-five thousand nine hundred twelve dollars adjusted by inflation from the 2017-18 school year.

(8) ((To implement the new minimum salary allocations in subsections (5) through (7) of this section, the legislature must fund fifty percent of the increased salary allocation in the 2018-19 school year and the entire increased salary allocation in the 2019-20 school year.)) For school year 2018-19, a district's minimum state allocation for salaries is the greater of the district's 2017-18 state salary allocation, adjusted for inflation, or the district's allocation based on the state salary level specified in subsections (5) through (7) of this section, as further specified in the omnibus appropriations act.

(9) Beginning with the 2018-19 school year, state allocations for salaries for certificated instructional staff, certificated administrative staff, and classified staff must be adjusted for regional differences in the cost of hiring staff. Adjustments for regional differences must be specified in the omnibus appropriations act for each school year through at least school year 2022-23. For school years 2018-19 through school year 2022-23, the school district regionalization factors are based on the median single-family residential value of each school district and proximate school district median single-family residential value as described in RCW 28A.150.412.

(10) Beginning with the 2023-24 school year and every ((six)) four years thereafter, the minimum state salary allocations and school district regionalization factors for certificated instructional staff, certificated administrative staff, and classified staff must be reviewed and rebased, as provided under RCW 28A.150.412, to ensure that state salary allocations continue to align with staffing costs for the state's program of basic education.

(11) For the purposes of this section, "inflation" has the meaning provided in RCW 28A.400.205 for "inflationary adjustment index."

Sec. 203. RCW 28A.150.412 and 2017 3rd sp.s. c 13 s 104 are each amended to read as follows:

(1) Beginning with the 2023 regular legislative session, and every ((six)) four years thereafter, the legislature shall review and rebase state basic education compensation allocations compared to school district compensation data, regionalization factors, what inflationary measure is the most representative of actual market experience for school districts, and other economic information. The legislature shall revise the minimum allocations ((and)), regionalization factors, and inflationary measure if necessary to ensure that state basic education allocations continue to provide market-rate salaries and that regionalization adjustments reflect actual economic differences between school districts.

(2)(a) For school districts with single-family residential values above the statewide median residential value, regionalization factors for school years 2018-19 through school year 2022-23 are as follows:

(i) For school districts in tercile 1, state salary allocations for school district employees are regionalized by six percent;
(ii) For school districts in tercile 2, state salary allocations for school district employees are regionalized by twelve percent; and
(iii) For school districts in tercile 3, state salary allocations for school district employees are regionalized by eighteen percent.

(b) In addition to the regionalization factors specified in (a) of this subsection, school districts located west of the crest of the Cascade mountains and sharing a boundary with any school district with a regionalization factor more than one tercile higher, are regionalized by six additional percentage points.

(c) In addition to the regionalization factors specified in this subsection, for school districts that have certificated instructional staff median years of experience that exceed the statewide average certificated instructional staff years of experience and a ratio of certificated instructional staff advanced degrees to bachelor degrees above the statewide ratio, an experience factor of four percentage points is added to the regionalization factor, beginning in the 2019-20 school year.

(d) Additional school district adjustments are identified in the omnibus appropriations act, and these adjustments are partially reduced or eliminated by the 2022-23 school year as follows:

(i) Adjustments that increase the regionalization factor to a value that is greater than the tercile 3 regionalization factor must be reduced by two percentage points each school year beginning with school year 2020-21, through 2022-23.

(ii) Adjustments that increase the regionalization factor to a value that is less than or equal to the tercile 3 regionalization factor must be reduced by one percentage point each school year beginning with school year 2020-21, through 2022-23.

(3) To aid the legislature in reviewing and rebasing regionalization factors, the department of revenue shall, by November 1, 2022, and by November 1st every ((six)) four years thereafter, determine the median single-family residential value of each school district as well as the median value of proximate districts within fifteen miles of the boundary of the school district for which the median residential value is being calculated.

(4) No district may receive less state funding for the minimum state salary allocation as compared to its prior school year salary allocation as a result of adjustments that reflect updated regionalized salaries.

(5) The definitions in this subsection apply throughout this section unless the context clearly requires otherwise.

(a) "Median residential value of each school district" means the median value of all single-family residential parcels included within a school district and any other school district that is proximate to the school district.

(b) "Proximate to the school district" means within fifteen miles of the boundary of the school district for which the median residential value is being calculated.

(c) "School district employees" means state-funded certificated instructional staff, certificated administrative staff, and classified staff.

(d) "School districts in tercile 1" means school districts with median single-family residential values in the first tercile of districts with single-family residential values above the statewide median residential value.

(e) "School districts in tercile 2" means school districts with median single-family residential values in the second tercile of districts with single-family residential values above the statewide median residential value.

(f) "School districts in tercile 3" means school districts with median single-family residential values in the third tercile of districts with single-family residential values above the statewide median residential value.

(g) "Statewide median residential value" means the median value of single-family residential parcels located within all school districts, reduced by five percent.

Sec. 204. RCW 28A.400.006 and 2017 3rd sp.s. c 13 s 703 are each amended to read as follows:
(1) A school district may not ((provide any)) increase average total school district expenditures for certificated administrative staff ((with a percentage increase to total salary)) for the 2018-19 school year((, including supplemental contracts, that exceeds the previous calendar year's annual average consumer price index, using the official current base compiled by the bureau of labor statistics, United States department of labor, for the city of Seattle. However, if a district's average certificated administrative staff salary is less than the average certificated administrative salary allocated by the state for that year, the district may increase salaries not to exceed the point where the district's average certificated administrative staff salary equals the average certificated administrative staff salary allocated by the state)) in excess of the following:

(a) Annual salary inflationary adjustments based on the rate of the yearly increase of the previous calendar year's annual average consumer price index, using the official current base compiled by the bureau of labor statistics, United States department of labor, for the city of Seattle;

(b) Annual experience and education salary step increases according to what was the prior year's practice within the school district; or

(c) School districts with an average total certificated administrative staff salary less than the statewide average certificated administrative staff salary allocation used to distribute funds for basic education as estimated by the office of the superintendent of public instruction for the 2018-19 school year may provide salary increases up to the statewide average allocation.

(2) Changes to any terms of an employment contract for nonrepresented employees must comply with the same requirements established in this section.

(3) This section expires August 31, 2019.

Sec. 205. RCW 28A.400.200 and 2017 3rd sp.s. c 13 s 103 are each amended to read as follows:

1. Every school district board of directors shall fix, alter, allow, and order paid salaries and compensation for all district employees in conformance with this section.

2.(a) Through the 2017-18 school year, salaries for certificated instructional staff shall not be less than the salary provided in the appropriations act in the statewide salary allocation schedule for an employee with a baccalaureate degree and zero years of service;

(b) Salaries for certificated instructional staff with a master's degree shall not be less than the salary provided in the appropriations act in the statewide salary allocation schedule for an employee with a master's degree and zero years of service; and

(c) Beginning with the ((2019-20)) 2018-19 school year:

(i) Salaries for full-time certificated instructional staff must not be less than forty thousand dollars, to be adjusted for regional differences in the cost of hiring staff as specified in RCW 28A.150.410, and to be adjusted annually by the same inflationary measure as provided in RCW 28A.400.205;

(ii) Salaries for full-time certificated instructional staff at least five years of experience must exceed by at least ten percent the value specified in (c)(i) of this subsection;

(iii) A district may not pay full-time certificated instructional staff a salary that exceeds ninety thousand dollars, subject to adjustment for regional differences in the cost of hiring staff as specified in RCW 28A.150.410. This maximum salary is adjusted annually by the inflationary measure in RCW 28A.400.205;

(iv) These minimum and maximum salaries apply to the services provided as part of the state's statutory program of basic education and exclude supplemental contracts for additional time, responsibility, or incentive pursuant to this section or for enrichment pursuant to RCW 28A.150.276;

(v) A district may pay a salary that exceeds this maximum salary by up to ten percent for full-time certificated instructional staff: Who are educational staff associates; who teach in the subjects of science, technology, engineering, or math; or who teach in the transitional bilingual instruction or special education programs.

(3)(a)(i) Through the 2017-18 school year the actual average salary paid to certificated instructional staff shall not exceed the district's average certificated instructional staff salary paid for the state basic education allocations for that school year as determined pursuant to RCW 28A.150.410.

(ii) For the 2018-19 school year, salaries for certificated instructional staff are subject to the limitations in RCW 41.59.800.

(iii) Beginning with the 2019-20 school year, for purposes of subsection (4) of this section, RCW 28A.150.276, and 28A.505.100, each school district must annually identify the actual salary paid to each certificated instructional staff for services rendered as part of the state's program of basic education.

(b) Through the 2018-19 school year, fringe benefit contributions for certificated instructional staff shall be included as salary under (a)(i) of this subsection only to the extent that the district's actual average benefit contribution exceeds the amount of the insurance benefits allocation, less the amount remitted by districts to the health care authority for retiree subsidies, provided per certificated instructional staff unit in the state operating appropriations act in effect at the time the compensation is payable. For purposes of this section, fringe benefits shall not include payment for unused leave for illness or injury under RCW 28A.400.210; employer contributions for old age survivors insurance, workers' compensation, unemployment compensation, and retirement benefits under the Washington state retirement system; or employer contributions for health benefits in excess of the insurance benefits allocation provided per certificated instructional staff unit in the state operating appropriations act in effect at the time the compensation is payable. A school district may not use state funds to provide employer contributions for such excess health benefits.

(c) Salary and benefits for certificated instructional staff in programs other than basic education shall be consistent with the salary and benefits paid to certificated instructional staff in the basic education program.

(4)(a) Salaries and benefits for certificated instructional staff may exceed the limitations in subsection (3) of this section only by separate contract for additional time, for additional responsibilities, or for incentives. Supplemental contracts shall not cause the state to incur any present or future funding obligation. Supplemental contracts must be accounted for by a school district when the district is developing its four-year budget plan under RCW 28A.505.040.

(b) Supplemental contracts shall be subject to the collective bargaining provisions of chapter 41.59 RCW and the provisions of RCW 28A.405.240, shall not exceed one year, and if not renewed shall not constitute adverse change in accordance with RCW 28A.405.300 through 28A.405.380. No district may enter into a supplemental contract under this subsection for the provision of services which are a part of the basic education program required by Article IX, section 1 of the state Constitution and RCW 28A.150.220.

(c)(i) Beginning September 1, 2019, supplemental contracts for certificated instructional staff are subject to the following additional restrictions: School districts may enter into supplemental contracts only for enrichment activities as defined
in and subject to the limitations of RCW 28A.150.276. ((The rate the district pays under a supplemental contract may not exceed the hourly rate provided to that same instructional staff for services under the basic education salary identified pursuant to subsection (3)(a)(iii) of this section.))

(ii) For a supplemental contract, or portion of a supplemental contract, that is time-based, the hourly rate the district pays may not exceed the hourly rate provided to that same instructional staff for services under the basic education salary identified under subsection (3)(a)(iii) of this section. For a supplemental contract, or portion of a supplemental contract that is not time-based, the contract must document the additional duties, responsibilities, or incentives that are being funded in the contract.

(5) Employee benefit plans offered by any district shall comply with RCW 28A.400.350, 28A.400.275, and 28A.400.280.

Sec. 206. RCW 28A.400.205 and 2017 3rd sp.s. c 13 s 102 are each amended to read as follows:

(1) School district employees shall be provided an annual salary inflationary increase in accordance with this section.

(a) The inflationary increase shall be calculated by applying the rate of the yearly increase in the inflationary adjustment index to any state-funded salary base used in state funding formulas for teachers and other school district employees. Beginning with the (2020-21) 2019-20 school year, each school district shall be provided an inflationary adjustment allocation sufficient to grant this inflationary increase.

(b) A school district shall distribute its inflationary adjustment allocation for salaries and salary-related benefits in accordance with the district's collective bargaining agreements and compensation policies. No later than the end of the school year, each school district shall certify to the superintendent of public instruction that it has spent funds provided for inflationary increases on salaries and salary-related benefits.

(c) Any funded inflationary increase shall be included in the salary base used to determine inflationary increases for school employees in subsequent years. For teachers and other certificated instructional staff, the rate of the annual inflationary increase funded for certificated instructional staff shall be applied to the base salary used with the statewide salary allocation methodology established under RCW 28A.150.410 and to any other salary allocation methodologies used to recognize school district personnel costs.

(2) For the purposes of this section, "inflationary adjustment index" means, for any school year, the implicit price deflator for consumer prices as estimated by the office of economic analysis, United States department of commerce.

Sec. 207. RCW 41.56.800 and 2017 3rd sp.s. c 13 s 701 are each amended to read as follows:

(1) A school district collective bargaining agreement for certified staff that is executed or modified after July 6, 2017, and that is in effect for the 2018-19 school year may not ((provide school district certificated instructional staff with a percentage)) increase ((to)) average total salary for the 2018-19 school year, including supplemental contracts, ((that exceeds the previous calendar year's annual average consumer price index, using the official current base compiled by the bureau of labor statistics, United States department of labor, for the city of Seattle. However, if a district's average certificated instructional staff salary is less than the average certificated instructional staff salary allocated by the state for that year, the district may increase salaries not to exceed the point where the district's average certificated instructional staff salary equals the average classified instructional staff salary allocated by the state)) in excess of the following:

(a) Annual salary inflationary adjustments based on the rate of the yearly increase of the previous calendar year's annual average consumer price index, using the official current base compiled by the bureau of labor statistics, United States department of labor, for the city of Seattle;

(b) Annual experience and education salary step increases according to the salary schedule specified in the agreement;

(c) Salary changes for staffing increases due to enrollment growth or state-funded increases under RCW 28A.150.260;

(d) School districts with an average total classified staff salary less than the state average classified staff salary allocation used to distribute funds for basic education as estimated by the office of the superintendent of public instruction for the 2018-19 school year may provide salary increases up to the state average allocation;

(2) Changes to any terms of an employment contract for nonrepresented employees must comply with the same requirements established in this section.

(3) This section expires August 31, 2019.

The recommendations must consider: The professional responsibilities, time, and effort required to provide the state's statutory program of basic education that exceed the required number of instructional hours specified in RCW 28A.150.220, and duties covered by state salary allocations that may be outside of school instructional time including, but not limited to, direct instruction required in RCW 28A.150.220; the necessary preparations, planning, and coordination for that instruction; meeting with and collaborating with parents and other teachers or other staff regarding the program of basic education; and the necessary evaluation of student learning from that instruction. The superintendent shall report the recommendations to the education policy and operating budget committees of the legislature by January 14, 2019.

(2) A capital projects fund shall be established for major capital purposes. All statutory references to a "building fund" shall mean the capital projects fund so established. Money to be deposited into the capital projects fund shall include, but not be limited to, bond proceeds, proceeds from excess levies authorized by RCW 84.52.053, state apportionment proceeds as authorized by RCW 28A.150.270, earnings from capital projects fund investments as authorized by RCW 28A.320.310 and 28A.320.320, and state forest revenues transferred pursuant to subsection (3) of this section.

(ii) "Energy audit" means a survey of a building or complex which identifies the type, size, energy use level, and major energy using systems; which determines appropriate energy conservation maintenance or operating procedures and assesses any need for the acquisition and installation of energy conservation measures, including solar energy and renewable resource measures.

(iii) "Energy capital improvement" means the installation, or modification of the installation, of energy conservation measures in a building which measures are primarily intended to reduce energy consumption or allow the use of an alternative energy source.

The office of the superintendent of public instruction shall develop accounting guidelines for these transfers in accordance with internal revenue service regulations.

(g) Major equipment repair, painting of facilities, and other major preventative maintenance purposes. However, to the extent the funds are used for the purpose under this subsection (2)(g), the school district shall transfer to the district's general fund the portion of the capital projects fund used for this purpose. The office of the superintendent of public instruction shall develop accounting guidelines for these transfers in accordance with internal revenue service regulations. (1) Beginning in calendar year 2019 and each calendar year thereafter, the state must provide state local effort assistance funding to supplement school district enrichment levies as provided in this section.

(2) For an eligible school district, annual local effort assistance funding is equal to the school district's maximum local effort assistance multiplied by a fraction equal to the school district's actual enrichment levy divided by the school district's maximum allowable enrichment levy.

(3) The state local effort assistance funding provided under this section is not part of the state's program of basic education deemed by the legislature to comply with the requirements of Article IX, section 1 of the state Constitution.

(4) The definitions in this subsection apply throughout this section unless the context clearly requires otherwise.

(a) "Eligible school district" means a school district whose maximum allowable enrichment levy divided by the school district's total student enrollment in the prior school year is less than the state local effort assistance threshold.

(b) For the purpose of this section, "inflation" means ((inflation as defined in RCW 84.55.005)), for any school year, the rate of the yearly increase of the previous calendar year's annual average consumer price index for all urban consumers, Seattle area, using the official current base compiled by the bureau of labor statistics, United States department of labor.

(d) "Maximum local effort assistance" means ((the school district's student enrollment in the prior school year multiplied by)) the difference ((of)) between the following:

(i) The school district's actual prior school year enrollment multiplied by the state local effort assistance threshold; and ((a))

(ii) The school district's maximum allowable enrichment levy ((divided by the school district's student enrollment in the prior school year)).

(6) For school districts participating in an innovation academy cooperative established under RCW 28A.340.080, enrollments of students attending the academy shall be adjusted so that each participant district receives its proportional share of student enrollments for purposes of funding under this section.
Sec. 304. RCW 28A.505.240 and 2017 3rd sp.s. c 13 s 204 are each amended to read as follows:

(1) As required by RCW 84.52.053(4), before a school district may submit an enrichment levy ((including a transportation vehicle enrichment levy)) under RCW 84.52.053 to the voters, it must have received approval from the office of the superintendent of public instruction of an expenditure plan for the district's enrichment levy and other local revenues as defined in RCW 28A.150.276. Within thirty days after receiving the plan the office of the superintendent of public instruction must notify the school district whether the spending plan is approved. If the office of the superintendent of public instruction rejects a district's proposed spending plan, then the district may submit a revised spending plan, and the superintendent must approve or reject the revised submission within thirty days. The office of the superintendent of public instruction may approve a spending plan only if it determines that the enrichment levy and other local revenues as defined in RCW 28A.150.276(1) will be used solely for permitted enrichment activities as provided in RCW 28A.150.276(2).

(2)(a) Except as provided in (b) of this subsection, after a school district has received voter approval for a levy for an enrichment levy under RCW 84.52.053, a school district may change its spending plan for the voter-approved levy by submitting a revised spending plan to the office of the superintendent of public instruction for review and approval. To revise a previously approved spending plan, the district must provide notice and an opportunity for review and comment at an open meeting of the school board, and the board must adopt the revised spending plan by resolution. The board must then submit the plan to the office of the superintendent of public instruction. Within thirty days after receiving the revised spending plan the office must notify the school district whether the revised spending plan is approved. The office of the superintendent of public instruction may approve a revised spending plan only if it determines that the enrichment levy and other local revenues as defined in RCW 28A.150.276(1) will be used solely for permitted enrichment activities as provided in RCW 28A.150.276(2).

(b) If the superintendent has approved expenditures for specific purposes under (a) of this subsection, a district may change the relative amounts to be spent for those purposes within the affected school district maximum levy under RCW 28A.505.060.

(3) This section applies to taxes levied for collection beginning in calendar year 2020 and thereafter.

NEW SECTION. Sec. 305. A new section is added to chapter 84.52 RCW to read as follows:

For districts in a high/nonhigh relationship, if the high school district is subject to the maximum per pupil limit under RCW 84.52.0531, the high school district's maximum levy amount must be reduced by an amount equal to the estimated amount of the nonhigh payment due to the high school district under RCW 28A.545.030(3) and 28A.545.050 for the school year commencing the year of the levy.

Sec. 306. RCW 84.52.053 and 2017 3rd sp.s. c 13 s 201 are each amended to read as follows:

(1) The limitations imposed by RCW 84.52.053 through 84.52.056, and 84.52.043 shall not prevent the levy of taxes by school districts, when authorized so to do by the voters of such school district in the manner and for the purposes and number of years allowable under Article VII, section 2(a) and Article IX, section 1 of the Constitution of this state. Elections for such taxes shall be held in the year in which the levy is made or, in the case of propositions authorizing two-year through four-year levies for enrichment funding for a school district, authorizing two-year levies for transportation vehicle funds established in RCW 28A.160.130 ((through calendar year 2019, authorizing two year levies for transportation vehicle enrichment beginning with calendar year 2020)), or authorizing two-year through six-year levies to support the construction, modernization, or remodeling of school facilities, which includes the purposes of RCW 28A.320.330(2) (f) and (g), in the year in which the first annual levy is made.

(2)(a) Once additional tax levies have been authorized for enrichment funding for a school district for a two-year through four-year period as provided under subsection (1) of this section, no further additional tax levies for enrichment funding for the district for that period may be authorized, except for additional levies to provide for subsequently enacted increases affecting the district's maximum levy.

(b) Notwithstanding (a) of this subsection, any school district that is required to annex or receive territory pursuant to a dissolution of a financially insolvent school district pursuant to RCW 28A.315.225 may call either a replacement or supplemental levy election within the school district, including the territory annexed or transferred, as follows:

(i) An election for a proposition authorizing two-year through four-year levies for enrichment funding for a school district may be called and held before the effective date of dissolution to replace existing enrichment levies and to provide for increases due to the dissolution.

(ii) An election for a proposition authorizing additional tax levies may be called and held before the effective date of dissolution to provide for increases due to the dissolution.

(iii) In the event a replacement levy election under (b)(i) of this subsection is held but does not pass, the affected school district may subsequently hold a supplemental levy election pursuant to (b)(ii) of this subsection if the supplemental levy election is held before the effective date of dissolution. In the event a supplemental levy election is held under (b)(ii) of this subsection but does not pass, the affected school district may subsequently hold a replacement levy election pursuant to (b)(i) of this subsection if the replacement levy election is held before the effective date of dissolution. Failure of a replacement levy or supplemental levy election does not affect any previously approved and existing enrichment levy within the affected school district or districts.

(c) For the purpose of applying the limitation of this subsection (2), a two-year through six-year levy to support the construction, modernization, or remodeling of school facilities shall not be deemed to be a tax levy for enrichment funding for a school district.

(3) A special election may be called and the time therefor fixed by the board of school directors, by giving notice thereof by publication in the manner provided by law for giving notices of general elections, at which special election the proposition authorizing such excess levy shall be submitted in such form as to enable the voters favoring the proposition to vote "yes" and those opposed thereto to vote "no."

(4)(a) Beginning September 1, (2019) 2018, school districts may use enrichment levies ((and transportation vehicle enrichment levies)) solely to enrich the state's statutory program of basic education as authorized under RCW 28A.150.276.

(b) Beginning with propositions for enrichment levies ((and transportation vehicle enrichment levies)) for collection in calendar year 2020 and thereafter, a district must receive approval of an enrichment levy expenditure plan from the superintendent
of public instruction under RCW 28A.505.240 before submission of the proposition to the voters.

**Sec. 307.** RCW 84.52.0531 and 2017 3rd sp.s. c 13 s 203 are each amended to read as follows:

1. Beginning with taxes levied for collection in 2019, the maximum dollar amount which may be levied by or for any school district for enrichment levies under RCW 84.52.053 is equal to the lesser of one dollar and fifty cents per thousand dollars of the assessed value of property in the school district or the maximum per-pupil limit.

2. The definitions in this subsection apply to this section unless the context clearly requires otherwise.

   a. For the purpose of this section, "inflation" means (new inflation as defined in RCW 84.55.005) for any school year, the rate of the yearly increase of the previous calendar year's annual average consumer price index for all urban consumers, Seattle area, using the official current base compiled by the bureau of labor statistics, United States Department of Labor.

   b. "Maximum per-pupil limit" means two thousand five hundred dollars, multiplied by the number of average annual (resident) full-time equivalent students enrolled in the school district in the prior school year. Beginning with property taxes levied for collection in 2020, the maximum per-pupil limit shall be increased by inflation.

   c. "Prior school year" means the most recent school year completed prior to the year in which the levies are to be collected.

3. For districts in a high/nonhigh relationship, the enrollments of the nonhigh students attending the high school shall only be counted by the nonhigh school districts for purposes of funding under this section.

4. For school districts participating in an innovation academy cooperative established under RCW 28A.340.080, enrollments of students attending the academy shall be adjusted so that each participant district receives its proportional share of student enrollments for purposes of funding under this section.

5. Beginning with provisions for enrichment levies for collection in calendar year 2020 and thereafter, a district must receive approval of an enrichment levy expenditure plan under RCW 28A.505.240 before submission of the proposition to the voters.

6. The superintendent of public instruction shall develop rules and regulations and inform school districts of the pertinent data necessary to carry out the provisions of this section.

7. Beginning with taxes levied for collection in ((2020)) 2018, enrichment levy revenues must be deposited in a separate subfund of the school district's general fund pursuant to RCW 28A.320.330, and for the 2018-19 school year are subject to the restrictions of RCW 28A.150.276 and the audit requirements of RCW 43.09.2856.

8. Funds collected from ((transportation, vehicle enrichment levies shall not be subject to the levy limitations in)) levies for transportation vehicles, construction, modernization, or remodeling of school facilities as established in RCW 84.52.053 are not subject to the levy limitations in subsections (1) through (5) of this section.

**PART IV: OTHER POLICIES**

**NEW SECTION.** Sec. 401. (1) For the 2018-19 and 2019-20 school years, the office of the superintendent of public instruction shall allocate a hold-harmless payment to school districts if the sum of (b) of this subsection is greater than the sum of (a) of this subsection for either of the respective school years or if a school district meets the criteria under subsection (2) of this section.

(a) The current school year is calculated as the sum of (a)(i) through (iii) of this subsection using the enrollments and values in effect for that school year for the school district:

   i. Formula-driven state allocations in part V of the state omnibus appropriations act for these programs: General apportionment, employee compensation adjustments, pupil transportation, special education programs, institutional education programs, transitional bilingual programs, highly capable, and learning assistance programs;

   ii. Local effort assistance funding received under chapter 28A.500 RCW; and

   iii. The lesser of the school district's voter-approved enrichment levy collection or the maximum levy authority provided under RCW 84.52.0531 for the previous calendar year.

(b) The baseline school year is calculated as the sum of (b)(i) through (iii) of this subsection using the current school year enrollments and the values in effect during the 2017-18 school year for the school district's:

   i. Formula-driven state allocations in part V of the state omnibus appropriations act for these programs: General apportionment, employee compensation adjustments, pupil transportation, special education programs, institutional education programs, transitional bilingual programs, highly capable, and learning assistance programs;

   ii. Local effort assistance funding received under chapter 28A.500 RCW; and

   iii. Maintenance and operation levy collection under RCW 84.52.0531 in the 2017 calendar year.

2. From amounts appropriated in this act, the superintendent of public instruction must prioritize hold harmless payments to districts that meet both the following criteria:

(a) The sum of the school district's enrichment levy under RCW 84.52.0531 and 2017 3rd sp.s. c 13 s 203 and local effort assistance under RCW 28A.500.015 is less than half of the sum of the maintenance and operations levy and local effort assistance provided under law as it existed on January 1, 2017. For purposes of the calculation in this subsection, the maintenance and operations levy is limited to the lesser of the voter-approved levy as of January 1, 2017, or the maximum levy under law as of January 1, 2017; and

(b) The adjusted assessed value of property within the school district as calculated by the department of revenue is greater than twenty billion dollars in calendar year 2017.

3. Districts eligible for hold-harmless payments under subsection (1) of this section shall receive the difference between subsection (1)(b) and (a) of this section through the apportionment payment process in RCW 28A.510.250.

4. The voters of the school district must approve an enrichment levy under RCW 84.52.0531 to be eligible for a hold-harmless payment under this section.

**Sec. 402.** RCW 28A.150.415 and 2017 3rd sp.s. c 13 s 105 are each amended to read as follows:

1. Beginning with the (2018-19) 2019-20 school year, the legislature shall begin phasing in funding for professional learning days for certificated instructional staff. The state allocation must be used solely for the purpose of providing professional learning. At a minimum, the state must allocate funding for:

   a. One professional learning day in the (2018-19) 2019-20 school year;

   b. Two professional learning days in the (2019-20) 2020-21 school year; and

   c. Three professional learning days in the (2020-21) 2021-22 school year.
(2) The office of the superintendent of public instruction shall calculate each school district's professional learning allocation as provided in subsection (1) of this section separate from the minimum state allocation for salaries as specified in RCW 28A.150.410 and associated fringe benefits on the apportionment reports provided to each local educational agency. The professional learning allocation shall be equal to the proportional increase resulting from adding the professional learning days provided in subsection (1) of this section to the required minimum number of school days in RCW 28A.150.220(5)(a) applied to the school district's minimum state allocation for salaries and associated fringe benefits for certificated instructional staff as specified in the omnibus appropriations act. Professional learning allocations shall be included in per-pupil calculations for programs funded on a per student rate calculation.

(3) Nothing in this section entitles an individual certificated instructional staff to any particular number of professional learning days.

The professional learning days must meet the definitions and standards provided in RCW 28A.415.430, 28A.415.432, and 28A.415.434.

(5) The use of the funding provided under this section must be audited as part of the regular financial audits of school districts by the state auditor's office to ensure compliance with the limitations and conditions of this section.

Sec. 403. RCW 28A.710.280 and 2016 c 241 s 128 are each amended to read as follows:

(1) The legislature intends that state funding for charter schools be distributed equitably with state funding provided for other public schools.

(2) For eligible students enrolled in a charter school established and operating in accordance with this chapter, the superintendent of public instruction shall transmit to each charter school an amount calculated as provided in this section and based on the statewide average ((staff mix factor)) salaries set forth in RCW 28A.150.410 for certificated instructional staff adjusted by the regionalization factor that applies to the school district in which the charter school is geographically located, including any enrichment to those statutory formulae that is specified in the omnibus appropriations act. The amount must be the sum of (a) and (b) of this subsection((, as applicable)).

(a) The superintendent shall, for purposes of making distributions under this section, separately calculate and distribute to charter schools moneys appropriated for general apportionment under the same ratios as in RCW 28A.150.260.

(b) The superintendent also shall, for purposes of making distributions under this section, and in accordance with the applicable formulae for categorical programs specified in (b)(i) through (v) of this subsection (2) and any enrichment to those statutory formulae that is specified in the omnibus appropriations act, separately calculate and distribute moneys appropriated by the legislature to charter schools for:

(i) Supplemental instruction and services for underachieving students through the learning assistance program under RCW 28A.165.005 through 28A.165.065;

(ii) Supplemental instruction and services for eligible and enrolled students and exited students whose primary language is other than English through the transitional bilingual instruction program under RCW 28A.180.010 through 28A.180.080;

(iii) The opportunity for an appropriate education at public expense as defined by RCW 28A.155.020 for all eligible students with disabilities as defined in RCW 28A.155.020;

(iv) Programs for highly capable students under RCW 28A.185.010 through 28A.185.030; and

(v) Pupil transportation services to and from school in accordance with RCW 28A.160.150 through 28A.160.180. Distributions for pupil transportation must be calculated on a per eligible student basis based on the allocation for the previous school year to the school district in which the charter school is located.

(3) The superintendent of public instruction must adopt rules necessary for the distribution of funding required by this section and to comply with federal reporting requirements.

Sec. 404. RCW 28A.715.040 and 2013 c 242 s 5 are each amended to read as follows:

(1) A school that is the subject of a state-tribal education compact must report student enrollment. Reporting must be done in the same manner and use the same definitions of enrolled students and annual average full-time equivalent enrollment as is required of school districts. The reporting requirements in this subsection are required for a school to receive state or federal funding that is allocated based on student characteristics.

(2) Funding for a school that is the subject of a state-tribal education compact shall be apportioned by the superintendent of public instruction according to the schedule established under RCW 28A.510.250, including general apportionment, special education, categorical, and other nonbasic education moneys. Allocations for certificated instructional staff must be based on the statewide average (staff mix ratio of the school, as calculated by the superintendent of public instruction using the statewide salary allocation schedule and related documents, conditions, and limitations established by the omnibus appropriations act)) salary set forth in RCW 28A.150.410, adjusted by the regionalization factor that applies to the school district in which the school is located. Allocations for classified staff and certificated administrative staff must be based on the salary allocations of the school district in which the school is located((, subject to conditions and limitations established by the omnibus appropriations act)) as set forth in RCW 28A.150.410, adjusted by the regionalization factor that applies to the school district in which the school is located. Nothing in this section requires a school that is the subject of a state-tribal education compact to use the statewide salary allocation schedule. Such a school is eligible to apply for state grants on the same basis as a school district.

(3) Any moneys received by a school that is the subject of a state-tribal education compact from any source that remain in the school's accounts at the end of any budget year must remain in the school's accounts for use by the school during subsequent budget years.

Sec. 405. RCW 72.40.028 and 2009 c 381 s 7 are each amended to read as follows:

All teachers employed by the Washington state center for childhood deafness and hearing loss and the state school for the blind shall meet all certification requirements and the programs shall meet all accreditation requirements and conform to the standards defined by law or by rule of the Washington professional educator standards board or the office of the state superintendent of public instruction. The superintendent and the director, by rule, may adopt additional educational standards for their respective facilities. Salaries of all certificated employees shall be ((set so as to conform to and be contemporary with salaries paid to other certificated employees of similar background and experience in)) based on the statewide average salary set forth in RCW 28A.150.410, adjusted by the regionalization factor that applies to the school district in which the program or facility is located. The superintendent and the director may provide for provisional certification for teachers in
their respective facilities including certification for emergency, temporary, substitute, or provisional duty.

(2) If an audit under subsection (1) of this section results in findings that a school district has failed to comply with these requirements, then within ninety days of completing the audit the auditor must report the findings to the superintendent of public instruction, the office of financial management, and the education and operating budget committees of the legislature.

(3) The use of the state allocation provided for professional learning under RCW 28A.150.415 must be audited as part of the regular financial audits of school districts by the state auditor's office to ensure compliance with the limitations and conditions of RCW 28A.150.415.

(2) If the superintendent of public instruction determines upon a review of the budget of any district that said budget does not comply with the budget procedures established by this chapter or by rules adopted by the superintendent of public instruction, or the provisions of RCW 43.09.200, the superintendent shall give written notice of this determination to the board of directors of the local school district.

(3) The local school district, notwithstanding any other provision of law, shall, within thirty days from the date the superintendent of public instruction issues a notice pursuant to subsection (2) of this section, submit a revised budget which meets the requirements of RCW 43.09.200, this chapter, and the rules of the superintendent of public instruction.

NONA SNELL, Deputy Chief Clerk

MOTION

On motion of Senator Liias, the Senate advanced to the seventh order of business.

PERSONAL PRIVILEGE

Senator Becker: “Thank you Mr. President. I just wanted to talk about a couple of weeks ago, actually on February 12th, when I rose to two points of personal privilege. One to celebrate my 45th wedding anniversary with my colleagues and one to honor President Lincoln on his birthday. Both of those issues are really near and dear to my heart and every year I have raised and talked, stood up and talked about these things. And, every year, people have congratulated me on my, the length of my wedding, my marriage et cetera and we all had fun. Other people have done the same sort of thing and it’s been a really nice thing to be able to do. I think it’s fun for each of us when we are down here and it’s so serious and we actually take a few moments and celebrate with each other things that are important. Mr. President that’s a good thing and I’ve always felt that I could do that. And it helps, again, for each of us to learn about each other, understand their perspectives and appreciate everything that’s happened. However, Mr. President, on February 12th, after my points of personal privilege, I felt embarrassed and I was very upset Mr. President. My colleagues in the Senate were
appreciative, Mr. President but I did not feel that you were. Mr. President, you referred to me specifically when you decided to impugn, or, I felt you were impugning my motives by implying the points were ‘dilatory’ and not appropriate. You cited me Mr. President. Now I want to say that there’s, although you only cited one, Mr. President, there is no Senate rule on dilatory motions, but there is a rule in Reed’s. Mr. President may I read from rule 225 in Reed’s?”

President Habib: “You may proceed.”

Senator Becker: “It sometimes happens that in the forgetfulness of temper and of party feeling the very processes of the assembly created to transact business are so abused as to be in of themselves disorder. In that event the presiding officer should disregard such proceedings, after he has become entirely satisfied of their nature, and put only such motions as will expedite the declaration of the will of the assembly.” Underlined is: “Necessarily such a course is to be taken very rarely, and after the offense is clear to all,” Reed’s goes on to cite an example of that debate that went on for forty-three hours. Mr. President that’s hardly the same as my two points of personal privilege taking up less than six minutes that day. Mr. President, I wanted to express my feelings because during this entire time, my ten years down here, I have never felt embarrassed, other than by my stupid comments. And I have never felt that I have tried to undermine this Senate. This is a hard thing for me to do Mr. President but I think that it is absolutely necessary. The one thing that I feel very strongly about is that each of the members here are entitled to be treated with respect and each and every single one of us should, through our conduct, elevate the dignity of the Senate. And there have been times, and colleagues of yours on both sides of the aisle can tell you, there have been times where I personally apologized for times I think I, where I have fallen short of that. I apologize for times I think I, where I have fallen short of that. I have never felt that I have tried to undermine this Senate. This is a hard thing for me to do Mr. President but I think that it is absolutely necessary. The one thing that I feel very strongly about is that each of the members here are entitled to speak. And I ask that you honor the rules of the Senate appropriately. Thank you Mr. President.”

REMARKS BY THE PRESIDENT

President Habib: “Thank you Senator Becker and I appreciate you bringing that forward and I will tell you that I take it very seriously that you were, that you felt embarrassed or you felt uncomfortable. It is, you’re absolutely right that everybody in the Senate, every member of the Senate, myself included, all deserve to be treated with respect and each and every single one of us should, through our conduct, elevate the dignity of the Senate. And there have been times, and colleagues of yours on both sides of the aisle can tell you, there have been times where I personally apologized for times I think I, where I have fallen short of that. I recall not only congratulating you on your anniversary but actually making a joke about, because it also happened to be Senator Hobbs’ birthday, about whether it was possible maybe Senator Hobbs was born on that same day. I underestimated Senator Hobbs’ age by only a year or two. But I do want to clarify that the use of the points of personal privilege are precisely to be reserved for the use that you just made. And so, even though I don’t mind you, even though, I think ideally, you and I should discuss this privately, I think it is perfectly appropriate for you to use the point of personal privilege in the way that you just did. My remarks, to which you are referring, came after you and another senator had made a point of personal privilege to talk about President Lincoln and what I said at that time, because I think we were rushing through a number of bills and maybe cut off it was coming up, was to say that given the late hour of the night and how many bills we were doing, the use of the personal privilege, that point, a point of personal privilege, was becoming abusive by the Senate as a whole. And I did not mean either that you had abused it individually or to make any reference to your prior anniversary announcement and so I hope that that clarifies the point. I do think that points of personal privilege are important and we use them to celebrate, Senator Baumgartner, for example, yesterday. And we ought to be able to do that, but there is a definition of that term in the, in our own rules and it is made clear what that is.”

Senator Becker: “Thank you Mr. President. The reason I am standing up is because you specifically called me out when you were using that, but I will accept your apology on this and I will thank you for the acknowledgement. Thank you.”

MESSAGE FROM THE HOUSE

March 8, 2018

MR. PRESIDENT:
The House passed ENGROSSED SECOND SUBSTITUTE SENATE BILL NO. 6362 with the following amendment(s):
6362-S2.E AMH ENGR H5190.E

Strike everything after the enacting clause and insert the following:

"PART I: PROGRAM FUNDING

Sec. 101. RCW 28A.150.260 and 2017 3rd sp.s. c 13 s 402 are each amended to read as follows:

The purpose of this section is to provide for the allocation of state funding that the legislature deems necessary to support school districts in offering the minimum instructional program of basic education under RCW 28A.150.220. The allocation shall be determined as follows:

1) The governor shall and the superintendent of public instruction may recommend to the legislature a formula for the distribution of a basic education instructional allocation for each common school district.

2) (a) The distribution formula under this section shall be for allocation purposes only. Except as may be required under subsections (4)(b) and (c) and (9) of this section, chapter 28A.155, 28A.165, 28A.180, or 28A.185 RCW, or federal laws and regulations, nothing in this section requires school districts to use basic education instructional funds to implement a particular instructional approach or service. Nothing in this section requires school districts to maintain a particular classroom teacher-to-student ratio or other staff-to-student ratio or to use allocated funds to pay for particular types or classifications of staff. Nothing in this section entitles an individual teacher to a particular teacher planning period.

(b) To promote transparency in state funding allocations, the superintendent of public instruction must report state per-pupil allocations for each school district for the general apportionment, special education, learning assistance, transitional bilingual, highly capable, and career and technical education programs. The
superintendent must also report state general apportionment per-pupil allocations by grade for each school district. The superintendent must report this information in a user-friendly format on the main page of the office's web site and on school district apportionment reports. School districts must include a link to the superintendent's per-pupil allocations report on the main page of the school district's web site. In addition, the budget documents published by the legislature for the enacted omnibus operating appropriations act must report statewide average per-pupil allocations for general apportionment and the categorical programs listed in this subsection.

(3)(a) To the extent the technical details of the formula have been adopted by the legislature and except when specifically provided as a school district allocation, the distribution formula for the basic education instructional allocation shall be based on minimum staffing and nonstaff costs the legislature deems necessary to support instruction and operations in prototypical schools serving high, middle, and elementary school students as provided in this section. The use of prototypical schools for the distribution formula does not constitute legislative intent that schools should be operated or structured in a similar fashion as the prototypes. Prototypical schools illustrate the level of resources needed to operate a school of a particular size with particular types and grade levels of students using commonly understood terms and inputs, such as class size, hours of instruction, and various categories of school staff. It is the intent that the funding allocations to school districts be adjusted from the school prototypes based on the actual number of annual average full-time equivalent students in each grade level at each school in the district and not based on the grade-level configuration of the school to the extent that data is available. The allocations shall be further adjusted from the school prototypes with minimum allocations for small schools and to reflect other factors identified in the omnibus appropriations act.

(b) For the purposes of this section, prototypical schools are defined as follows:

(i) A prototypical high school has six hundred average annual full-time equivalent students in grades nine through twelve;
(ii) A prototypical middle school has four hundred thirty-two average annual full-time equivalent students in grades seven and eight; and
(iii) A prototypical elementary school has four hundred average annual full-time equivalent students in grades kindergarten through six.

(7) The distribution formula shall include staffing allocations to school districts for career and technical education and skill center administrative and other school-level certificated staff, as specified in the omnibus appropriations act.

(8)(a) Except as provided in (b) of this subsection, the minimum allocation for each school district shall include allocations per annual average full-time equivalent student for the following materials, supplies, and operating costs as provided in the 2017-18 school year, after which the allocations shall be adjusted annually for inflation as specified in the omnibus appropriations act:

- Per annual average full-time equivalent student in grades K-12:
  - Technology: $130.76
  - Utilities and insurance: $355.30
  - Curriculum and textbooks: $140.39
  - Other supplies (other than library materials): $278.05
  - Library materials: $20.00
  - Instructional professional development for certificated and classified staff: $21.71
  - Facilities maintenance: $176.01
  - Security and central office administration: $121.94

(b) In addition to the amounts provided in (a) of this subsection, beginning in the 2014-15 school year, the omnibus appropriations act shall provide the following minimum allocation for each annual average full-time equivalent student in grades nine through twelve for the following materials, supplies, and operating costs, to be adjusted annually for inflation:

- Per annual average full-time equivalent student in grades 9-12:
  - Technology: $36.35
  - Curriculum and textbooks: $39.02
  - Other supplies (other than library materials): $77.28
  - Library materials: $5.56
  - Instructional professional development for certificated and classified staff: $6.04

(9) In addition to the amounts provided in subsection (8) of this section and subject to RCW 28A.150.265, the omnibus appropriations act shall provide an amount based on full-time equivalent student enrollment in each of the following:

(a) Exploratory career and technical education courses for students in grades seven through twelve;
(b) Preparatory career and technical education courses for students in grades nine through twelve offered in a high school; and
(c) Preparatory career and technical education courses for students in grades eleven and twelve offered through a skill center.

(10) In addition to the allocations otherwise provided under this section, amounts shall be provided to support the following programs and services:

(a)(i) To provide supplemental instruction and services for students who are not meeting academic standards through the learning assistance program under RCW 28A.165.005 through 28A.165.065, allocations shall be based on the district percentage of students in grades K-12 who were eligible for free or reduced-price meals in the prior school year. The minimum allocation for the program shall provide for each level of prototypical school resources to provide, on a statewide average, 2.3975 hours per week in extra instruction with a class size of fifteen learning assistance program students per teacher.

(ii) In addition to funding allocated under (a)(i) of this subsection, to provide supplemental instruction and services for students who are not meeting academic standards in (schools where at least fifty percent of students are eligible for free and reduced price meals) qualifying schools. A qualifying school means a school in which the three-year rolling average of the prior year total annual average enrollment that qualifies for free or reduced-price meals equals or exceeds fifty percent or more of its total annual average enrollment. The minimum allocation for this additional high poverty-based allocation must provide for each level of prototypical school resources to provide, on a statewide average, 1.1 hours per week in extra instruction with a class size of fifteen learning assistance program students per teacher, under RCW 28A.165.055, school districts must distribute the high poverty-based allocation to the schools that generated the funding allocation.

(b)(i) To provide supplemental instruction and services for students whose primary language is other than English, allocations shall be based on the head count number of students in each school who are eligible for and enrolled in the transitional bilingual instruction program under RCW 28A.180.010 through 28A.180.080. The minimum allocation for each level of prototypical school shall provide resources to provide, on a statewide average, 4.7780 hours per week in extra instruction for students in grades kindergarten through six and 6.7780 hours per week in extra instruction for students in grades seven through twelve, with fifteen transitional bilingual instruction program students per teacher. Notwithstanding other provisions of this subsection (10), the actual per-student allocation may be scaled to provide a larger allocation for students needing more intensive intervention and a commensurate reduced allocation for students needing less intensive intervention, as detailed in the omnibus appropriations act.

(ii) To provide supplemental instruction and services for students who have exited the transitional bilingual program, allocations shall be based on the head count number of students in each school who have exited the transitional bilingual program within the previous two years based on their performance on the English proficiency assessment and are eligible for and enrolled in the transitional bilingual instruction program under RCW 28A.180.040(1)(g). The minimum allocation for each prototypical school shall provide resources to provide, on a statewide average, 3.0 hours per week in extra instruction with fifteen exited students per teacher.

(c) To provide additional allocations to support programs for highly capable students under RCW 28A.185.010 through 28A.185.030, allocations shall be based on 5.0 percent of each school district's full-time equivalent basic education enrollment. The minimum allocation for the programs shall provide resources to provide, on a statewide average, 2.1590 hours per week in extra instruction with fifteen highly capable program students per teacher.

(11) The allocations under subsections (4)(a), (5), (6), and (8) of this section shall be enhanced as provided under RCW 28A.150.390 on an excess cost basis to provide supplemental instructional resources for students with disabilities.
(12)(a) For the purposes of allocations for prototypical high schools and middle schools under subsections (4) and (10) of this section that are based on the percent of students in the school who are eligible for free and reduced-price meals, the actual percent of such students in a school shall be adjusted by a factor identified in the omnibus appropriations act to reflect underreporting of free and reduced-price meal eligibility among middle and high school students.

(b) Allocations or enhancements provided under subsections (4), (7), and (9) of this section for exploratory and preparatory career and technical education courses shall be provided only for courses approved by the office of the superintendent of public instruction under chapter 28A.700 RCW.

(13)(a) This formula for distribution of basic education funds shall be reviewed biennially by the superintendent and governor. The recommended formula shall be subject to approval, amendment or rejection by the legislature.

(b) In the event the legislature rejects the distribution formula recommended by the governor, without adopting a new distribution formula, the distribution formula for the previous school year shall remain in effect.

(c) The enrollment of any district shall be the annual average number of full-time equivalent students and part-time students as provided in RCW 28A.150.350, enrolled on the first school day of each month, including students who are in attendance pursuant to RCW 28A.335.160 and 28A.225.250 who do not reside within the servicing school district. The definition of full-time equivalent student shall be determined by rules of the superintendent of public instruction and shall be included as part of the superintendent's biennial budget request. The definition shall be based on the minimum instructional hour offerings required under RCW 28A.150.220. Any revision of the present definition shall not take effect until approved by the house ways and means committee and the senate ways and means committee.

(d) The office of financial management shall make a monthly review of the superintendent's reported full-time equivalent students in the common schools in conjunction with RCW 43.62.050.

Sec. 102. RCW 28A.150.390 and 2017 3rd sp.s.c 13 s 406 are each amended to read as follows:

1. The superintendent of public instruction shall submit to each regular session of the legislature during an odd-numbered year a programmed budget request for special education programs for students with disabilities. Funding for programs operated by local school districts shall be on an excess cost basis from appropriations provided by the legislature for special education programs for students with disabilities and shall take account of state funds accruing through RCW 28A.150.260 (4)(a), (5), (6), and (8) and 28A.150.415.

2. The excess cost allocation to school districts shall be based on the following:

(a) A district's annual average headcount enrollment of students ages birth through four and those five year olds not yet enrolled in kindergarten who are eligible for and enrolled in special education, multiplied by the district's base allocation per full-time equivalent student, multiplied by 1.15; and

(b) A district's annual average full-time equivalent basic education enrollment, multiplied by the district's funded enrollment percent, multiplied by the district's base allocation per full-time equivalent student, multiplied by (0.92881) 0.9609.

(3) As used in this section:

(a) "Base allocation" means the total state allocation to all schools in the district generated by the distribution formula under RCW 28A.150.260 (4)(a), (5), (6), and (8) and 28A.150.415, to be divided by the district's full-time equivalent enrollment.

(b) "Basic education enrollment" means enrollment of resident students including nonresident students enrolled under RCW 28A.225.225 and students from nonhigh districts enrolled under RCW 28A.225.210 and excluding students residing in another district enrolled as part of an interdistrict cooperative program under RCW 28A.225.250.

(c) "Enrollment percent" means the district's resident special education annual average enrollment, excluding students ages birth through four and those five year olds not yet enrolled in kindergarten, as a percent of the district's annual average full-time equivalent basic education enrollment.

(d) "Funded enrollment percent" means the lesser of the district's actual enrollment percent or thirteen and five-tenths percent.

NEW SECTION. Sec. 103. A new section is added to chapter 28A.160 RCW to read as follows:

1. Subject to the availability of amounts appropriated for this specific purpose, a transportation alternate funding grant program is created.

2. As part of the award process for the grants, the superintendent of public instruction must include a review of the school district's efficiency rating, key performance indicators, and local school district characteristics such as unique geographic constraints, low enrollment, geographic density of students, the percentage of students served under the McKinney-Vento homeless assistance act from outside the district, or whether the district is a nonhigh district.

Sec. 104. RCW 28A.165.055 and 2017 3rd sp.s.c 13 s 405 are each amended to read as follows:

1. The funds for the learning assistance program shall be appropriated in accordance with RCW 28A.150.260 and the omnibus appropriations act. The distribution formula is for school district allocation purposes only, except as provided in RCW 28A.150.260(10)(a)(ii), but all funds appropriated for the learning assistance program must be expended for the purposes of RCW 28A.165.005 through 28A.165.065.

2. A district's high poverty-based allocation is generated by its qualifying schools ((buildings)) as defined in RCW 28A.150.260(10) and must be expended by the district for those ((buildings)) schools. This funding must supplement and not supplant the district's expenditures under this chapter for those schools ((buildings)).

NEW SECTION. Sec. 105. A new section is added to chapter 28A.300 RCW to read as follows:

1. The superintendent of public instruction must require school districts to have identification procedures for their highly capable programs that are clearly stated and implemented by school districts using the following criteria:

(a) Districts must use multiple objective criteria to identify students who are among the most highly capable. Multiple pathways for qualifications must be available and no single criterion may disqualify a student from identification;

(b) Highly capable selection decisions must be based on consideration of criteria benchmarked on local norms, but local norms may not be used as a more restrictive criteria than national norms at the same percentile;

(c) Subjective measures such as teacher recommendations or report card grades may not be used to screen out a student from assessment. These data points may be used alongside other criteria during selection to support identification, but may not be used to disqualify a student from being identified; and

(d) To the extent practicable, screening and assessments must be given in the native language of the student. If native language
(2) The superintendent of public instruction must disseminate guidance on referral, screening, assessment, selection, and placement best practices for highly capable programs. The guidance must be regularly updated and aligned with evidence-based practices.

Sec. 106. RCW 28A.150.392 and 2017 3rd sp.s. c 13 s 407 are each amended to read as follows:

(1)(a) To the extent necessary, funds shall be made available for safety net awards for districts with demonstrated needs for special education funding beyond the amounts provided through the special education funding formula under RCW 28A.150.390.

(b) If the federal safety net awards based on the federal eligibility threshold exceed the federal appropriation in any fiscal year, then the superintendent shall expend all available federal discretionary funds necessary to meet this need.

(2) Safety net funds shall be awarded by the state safety net oversight committee subject to the following conditions and limitations:

(a) The committee shall award additional funds for districts that can convincingly demonstrate that all legitimate expenditures for special education exceed all available revenues from state funding formulas.

(b) In the determination of need, the committee shall consider additional available revenues from federal sources.

(c) Differences in program costs attributable to district philosophy, service delivery choice, or accounting practices are not a legitimate basis for safety net awards.

(d) In the determination of need, the committee shall require that districts demonstrate that they are maximizing their eligibility for all state revenues related to services for special education-eligible students and all federal revenues from federal impact aid, medicaid, and the individuals with disabilities education act-Part B and appropriate special projects. Awards associated with (e) and (f) of this subsection shall not exceed the total of a district’s specific determination of need.

(e) The committee shall then consider the extraordinary high cost needs of one or more individual special education students. Differences in costs attributable to district philosophy, service delivery choice, or accounting practices are not a legitimate basis for safety net awards.

(f) Using criteria developed by the committee, the committee shall then consider extraordinary costs associated with communities that draw a larger number of families with children in need of special education services, which may include consideration of proximity to group homes, military bases, and regional hospitals. Safety net awards under this subsection (2)(f) shall be adjusted to reflect amounts awarded under (e) of this subsection.

(g) The committee shall then consider the extraordinary high cost needs of one or more individual special education students served in residential schools as defined in RCW 28A.190.020, programs for juveniles under the department of corrections, and programs for juveniles operated by city and county jails to the extent they are providing a program of education for students enrolled in special education.

(h) The maximum allowable indirect cost for calculating safety net eligibility may not exceed the federal restricted indirect cost rate for the district plus one percent.

((((((i)))))) Safety net awards shall be adjusted based on the percent of potential medicaid eligible students billed as calculated by the superintendent of public instruction in accordance with chapter 318, Laws of 1999.

(((((j)))) Safety net awards must be adjusted for any audit findings or exceptions related to special education funding.

(3) The superintendent of public instruction shall adopt such rules and procedures as are necessary to administer the special education funding and safety net award process. By (September 1, 2018) December 1, 2018, the superintendent shall review and revise the rules to achieve full and complete implementation of the requirements of this subsection and subsection (4) of this section including revisions to rules that provide additional flexibility to access community impact awards. Before revising any standards, procedures, or rules, the superintendent shall consult with the office of financial management and the fiscal committees of the legislature. In adopting and revising the rules, the superintendent shall ensure the process to access safety net funding is streamlined, timelines for submission are not in conflict, feedback to school districts is timely and provides sufficient information to allow school districts to understand how to correct any deficiencies in a safety net application, and that there is consistency between awards approved by school district and by application period. The office of the superintendent of public instruction shall also provide technical assistance to school districts in preparing and submitting special education safety net applications.

(4) On an annual basis, the superintendent shall survey districts regarding their satisfaction with the safety net process and consider feedback from districts to improve the safety net process. Each year by December 1st, the superintendent shall prepare and submit a report to the office of financial management and the appropriate policy and fiscal committees of the legislature that summarizes the survey results and those changes made to the safety net process as a result of the school district feedback.

(5) The safety net oversight committee appointed by the superintendent of public instruction shall consist of:

(a) One staff member from the office of the superintendent of public instruction;

(b) Staff of the office of the state auditor who shall be nonvoting members of the committee; and

(c) One or more representatives from school districts or educational service districts knowledgeable of special education programs and funding.

PART II: COMPENSATION

NEW SECTION. Sec. 201. The legislature recognizes that Initiative Measure No. 1433 was approved by the voters of the state of Washington in 2016 requiring employers to provide paid sick leave to each of its employees. The legislature acknowledges that the enactment of this initiative contributes to the costs of operations of the state’s public schools and intends to provide funding in the omnibus appropriations act to support school districts with these additional costs.

Sec. 202. RCW 28A.150.410 and 2017 3rd sp.s. c 13 s 101 are each amended to read as follows:

(1) Through the 2017-18 school year, the legislature shall establish for each school year in the appropriations act a statewide salary schedule allocation, for allocation purposes only, to be used to distribute funds for basic education certificated instructional staff salaries under RCW 28A.150.260. For the purposes of this section, the staff allocations for classroom teachers, teacher-librarians, guidance counselors, and student health services staff under RCW 28A.150.260 are considered allocations for certificated instructional staff.

(2) Through the 2017-18 school year, salary allocations for state-funded basic education certificated instructional staff shall be calculated by the superintendent of public instruction by determining the district's average salary for certificated
instructional staff, using the statewide salary allocation schedule and related documents, conditions, and limitations established by the omnibus appropriations act.

3. Through the 2017-18 school year, no more than ninety college quarter-hour credits received by any employee after the baccalaureate degree may be used to determine compensation allocations under the state salary allocation schedule and LEAP documents referenced in the omnibus appropriations act, or any replacement schedules and documents, unless:
   (a) The employee has a master's degree; or
   (b) The credits were used in generating state salary allocations before January 1, 1992.

4. Beginning in the 2007-08 school year and through the 2017-18 school year, the calculation of years of service for occupational therapists, physical therapists, speech-language pathologists, audiologists, nurses, social workers, counselors, and psychologists regulated under Title 18 RCW may include experience in schools and other nonschool positions as occupational therapists, physical therapists, speech-language pathologists, audiologists, nurses, social workers, counselors, or psychologists. The calculation shall be that one year of service in a nonschool position counts as one year of service for purposes of this chapter, up to a limit of two years of nonschool service. Nonschool years of service included in calculations under this subsection shall not be applied to service credit totals for purposes of any retirement benefit under chapter 41.32, 41.35, or 41.40 RCW, or any other state retirement system benefits.

5. By the (2010-20) 2018-19 school year, the minimum state allocation for salaries for certificated instructional staff in the basic education program must be increased (beginning in the 2018-19 school year) to provide a statewide average allocation of sixty-four thousand dollars adjusted for inflation from the 2017-18 school year.

6. By the (2010-20) 2018-19 school year, the minimum state allocation for salaries for certificated administrative staff in the basic education program must be increased (beginning in the 2018-19 school year) to provide a statewide average allocation of ninety-five thousand dollars adjusted for inflation from the 2017-18 school year.

7. By the (2010-20) 2018-19 school year, the minimum state allocation for salaries for classified staff in the basic education program must be increased (beginning in the 2018-19 school year) to provide a statewide average allocation of forty-five thousand nine hundred twelve dollars adjusted for inflation from the 2017-18 school year.

8. (To implement the new minimum salary allocations in subsections (5) through (7) of this section, the legislature must fund fifty percent of the increased salary allocation in the 2018-19 school year and the entire increased salary allocation in the 2019-20 school year). For school year 2018-19, a district's minimum state allocation for salaries is the greater of the district's 2017-18 state salary allocation, adjusted for inflation, or the district's allocation based on the state salary level specified in subsections (5) through (7) of this section, and as further specified in the omnibus appropriations act.

9. Beginning with the 2018-19 school year, state allocations for salaries for certificated instructional staff, certificated administrative staff, and classified staff must be adjusted for regional differences in the cost of hiring staff. Adjustments for regional differences must be specified in the omnibus appropriations act for each school year through at least school year 2022-23. For school years 2018-19 through school year 2022-23, the school district regionalization factors are based on the median single-family residential value of each school district and proximate school district median single-family residential value as described in RCW 28A.150.412.

10. Beginning with the 2023-24 school year and every (six) four years thereafter, the minimum state salary allocations and school district regionalization factors for certificated instructional staff, certificated administrative staff, and classified staff must be reviewed and rebased, as provided under RCW 28A.150.412, to ensure that state salary allocations continue to align with staffing costs for the state's program of basic education.

11. For the purposes of this section, "inflation" has the meaning provided in RCW 28A.400.205 for "inflationary adjustment index."

Sec. 203. RCW 28A.150.412 and 2017 3rd sp.s. c 13 s 104 are each amended to read as follows:

1. Beginning with the 2023 regular legislative session, and every (six) four years thereafter, the legislature shall review and rebase state basic education compensation allocations compared to school district compensation data, regionalization factors, what inflationary measure is the most representative of actual market experience for school districts, and other economic information. The legislature shall revise the minimum allocations (a), regionalization factors, and inflationary measure if necessary to ensure that state basic education allocations continue to provide market-rate salaries and that regionalization adjustments reflect actual economic differences between school districts.

2(a) For school districts with single-family residential values above the statewide median residential value, regionalization factors for school years 2018-19 through school year 2022-23 are as follows:

(i) For school districts in tercile 1, state salary allocations for school district employees are regionalized by six percent;
(ii) For school districts in tercile 2, state salary allocations for school district employees are regionalized by twelve percent; and
(iii) For school districts in tercile 3, state salary allocations for school district employees are regionalized by eighteen percent.

(b) In addition to the regionalization factors specified in (a) of this subsection, school districts located west of the crest of the Cascade mountains and sharing a boundary with any school district with a regionalization factor more than one tercile higher, are regionalized by six additional percentage points.

(c) In addition to the regionalization factors specified in this subsection, for school districts that have certificated instructional staff median years of experience that exceed the statewide average certificated instructional staff years of experience and a ratio of certificated instructional staff advanced degrees to bachelor degrees above the statewide ratio, an experience factor of four percentage points is added to the regionalization factor, beginning in the 2019-20 school year.

(d) Additional school district adjustments are identified in the omnibus appropriations act, and these adjustments are partially reduced or eliminated by the 2022-23 school year as follows:

(i) Adjustments that increase the regionalization factor to a value that is greater than the tercile 3 regionalization factor must be reduced by two percentage points each school year beginning with school year 2020-21, through 2022-23.

(ii) Adjustments that increase the regionalization factor to a value that is less than or equal to the tercile 3 regionalization factor must be reduced by one percentage point each school year beginning with school year 2020-21, through 2022-23.

3. To aid the legislature in reviewing and rebasing regionalization factors, the department of revenue shall, by November 1, 2022, and by November 1st every (six) four years thereafter, determine the median single-family residential value of each school district as well as the median value of proximate districts within fifteen miles of the boundary of the school district for which the median residential value is being calculated.
(4) No district may receive less state funding for the minimum state salary allocation as compared to its prior school year salary allocation as a result of adjustments that reflect updated regionalized salaries.

(5) The definitions in this subsection apply throughout this section unless the context clearly requires otherwise.

(a) "Median residential value of each school district" means the median value of all single-family residential parcels included within a school district and any other school district that is proximate to the school district.

(b) "Proximate to the school district" means within fifteen miles of the boundary of the school district for which the median residential value is being calculated.

(c) "School district employees" means state-funded certificated instructional staff, certificated administrative staff, and classified staff.

(d) "School districts in tercile 1" means school districts with median single-family residential values in the first tercile of districts with single-family residential values above the statewide median residential value.

(e) "School districts in tercile 2" means school districts with median single-family residential values in the second tercile of districts with single-family residential values above the statewide median residential value.

(f) "School districts in tercile 3" means school districts with median single-family residential values in the third tercile of districts with single-family residential values above the statewide median residential value.

(g) "Statewide median residential value" means the median value of single-family residential parcels located within all school districts, reduced by five percent.

Sec. 204. RCW 28A.400.006 and 2017 3rd sp.s c 13 s 703 are each amended to read as follows:

(1) A school district may not ((provide any)) increase average total school district expenditures for certificated administrative staff ((with a percentage increase to total salary)) for the 2018-19 school year (including supplemental contracts, that exceeds the previous calendar year's annual average consumer price index, using the official current base compiled by the bureau of labor statistics, United States department of labor, for the city of Seattle. However, if a district's average certificated administrative staff salary is less than the average certificated administrative staff salary used for the state basic education allocations for that school year, the district may increase salaries not to exceed the point where the district's average certificated administrative staff salary equal, the average certificated administrative staff salary allocated by the state)) in excess of the following:

(a) Annual salary inflationary adjustments based on the rate of the yearly increase of the previous calendar year's annual average consumer price index, using the official current base compiled by the bureau of labor statistics, United States department of labor, for the city of Seattle;

(b) Annual experience and education salary step increases according to what was the prior year's practice within the school district; or

(c) School districts with an average total certificated administrative staff salary less than the statewide average certificated administrative staff salary allocation used to distribute funds for basic education as estimated by the office of the superintendent of public instruction for the 2018-19 school year may provide salary increases up to the statewide average allocation.

(2) Changes to any terms of an employment contract for nonteaching employees must comply with the same requirements established in this section.

Sec. 303. RCW 28A.500.015 and 2017 3rd sp.s. c 13 s 206 are each amended to read as follows:

(1) Beginning in calendar year 2019 and each calendar year thereafter, the state must provide state local effort assistance funding to supplement school district enrichment levies as provided in this section.

(2) For an eligible school district, annual local effort assistance funding is equal to the school district's maximum local effort assistance multiplied by a fraction equal to the school district's actual enrichment levy divided by the school district's maximum allowable enrichment levy.

(3) The state local effort assistance funding provided under this section is not part of the state's program of basic education deemed by the legislature to comply with the requirements of Article IX, section 1 of the state Constitution.

(4) The definitions in this subsection apply throughout this section unless the context clearly requires otherwise.

(a) "Eligible school district" means a school district whose maximum allowable enrichment levy divided by the school district's total student enrollment in the prior school year is less than the state local effort assistance threshold.

(6) For school districts participating in an innovation academy cooperative established under RCW 28A.340.080, enrollments of students attending the academy shall be adjusted so that each participant district receives its proportional share of student enrollments for purposes of funding under this section.

Sec. 304. RCW 28A.505.240 and 2017 3rd sp.s. c 13 s 204 are each amended to read as follows:
(1) As required by RCW 84.52.053(4), before a school district may submit an enrichment levy($(\text{including a transportation vehicle enrichment levy})$) under RCW 84.52.053 to the voters, it must have received approval from the office of the superintendent of public instruction of an expenditure plan for the district's enrichment levy and other local revenues as defined in RCW 28A.150.276. Within thirty days after receiving the plan the office of the superintendent of public instruction must notify the school district whether the spending plan is approved. If the office of the superintendent of public instruction rejects a district's proposed spending plan, then the district may submit a revised spending plan, and the superintendent must approve or reject the revised submission within thirty days. The office of the superintendent of public instruction may approve a spending plan only if it determines that the enrichment levy and other local revenues as defined in RCW 28A.150.276(1) will be used solely for permitted enrichment activities as provided in RCW 28A.150.276(2).
(2)(a) Except as provided in (b) of this subsection, after a school district has received voter approval for a levy for an enrichment levy under RCW 84.52.053, a school district may change its spending plan for the voter-approved levy by submitting a revised spending plan to the office of the superintendent of public instruction for review and approval. To revise a previously approved spending plan, the district must provide notice and an opportunity for review and comment at an open meeting of the school board, and the board must adopt the revised spending plan by resolution. The board must then submit the plan to the office of the superintendent of public instruction. Within thirty days after receiving the revised spending plan the office must notify the school district whether the revised spending plan is approved. The office of the superintendent of public instruction may approve a revised spending plan only if it determines that the enrichment levy and other local revenues as defined in RCW 28A.150.276(1) will be used solely for permitted enrichment activities as provided in RCW 28A.150.276(2).
(b) If the superintendent has approved expenditures for specific purposes under (a) of this subsection, a district may change the relative amounts to be spent for those respective purposes for the same levy in subsequent years without having to first receive approval for the change from the office of the superintendent of public instruction if the district adopts the change as part of its annual budget proposal after a public hearing under RCW 28A.505.060.
(3) This section applies to taxes levied for collection beginning in calendar year 2020 and thereafter.

NEW SECTION. Sec. 305. A new section is added to chapter 48.52 RCW to read as follows:
For districts in a high/nonhigh relationship, if the high school district is subject to the maximum per pupil limit under RCW 84.52.0531, the high school district's maximum levy amount must be reduced by an amount equal to the estimated amount of the nonhigh payment due to the high school district under RCW 28A.545.030(3) and 28A.545.050 for the school year commencing the year of the levy.

Sec. 306. RCW 84.52.053 and 2017 3rd sp.s. c 13 s 201 are each amended to read as follows:
(1) The limitations imposed by RCW 84.52.050 through 84.52.056, and 84.52.043 shall not prevent the levy of taxes by school districts, when authorized so to do by the voters of such school district in the manner and for the purposes and number of years allowable under Article VII, section 2(a) and Article IX, section 1 of the Constitution of this state. Elections for such taxes shall be held in the year in which the levy is made or, in the case of propositions authorizing two-year through four-year levies for enrichment funding for a school district, authorizing two-year levies for transportation vehicle funds established in RCW 28A.160.130 ($(\text{through calendar year 2019})$ authorizing two-year levies for transportation vehicle enrichment beginning with calendar year 2020,$)) or authorizing two-year through six-year levies to support the construction, modernization, or remodeling of school facilities, which includes the purposes of RCW 28A.320.330(2) $(f)$ and $(g),$ in the year in which the first annual levy is made.
(2)(a) Once additional tax levies have been authorized for enrichment funding for a school district for a two-year through four-year period as provided under subsection (1) of this section, no further additional tax levies for enrichment funding for the district for that period may be authorized, except for additional levies to provide for subsequently enacted increases affecting the district's maximum levy.
(b) Notwithstanding (a) of this subsection, any school district that is required to annex or receive territory pursuant to a dissolution of a financially insolvent school district pursuant to RCW 28A.315.225 may call either a replacement or supplemental levy election within the school district, including the territory annexed or transferred, as follows:
(i) An election for a proposition authorizing two-year through four-year levies for enrichment funding for a school district may be called and held before the effective date of dissolution to replace existing enrichment levies and to provide for increases due to the dissolution.
(ii) An election for a proposition authorizing additional tax levies may be called and held before the effective date of dissolution to provide for increases due to the dissolution.
(iii) In the event a replacement levy election under (b)(i) of this subsection is held but does not pass, the affected school district may subsequently hold a supplemental levy election pursuant to (b)(ii) of this subsection if the supplemental levy election is held before the effective date of dissolution. In the event a
supplemental levy election is held under (b)(ii) of this subsection but does not pass, the affected school district may subsequently hold a replacement levy election pursuant to (b)(i) of this subsection if the replacement levy election is held before the effective date of dissolution. Failure of a replacement levy or supplemental levy election does not affect any previously approved and existing enrichment levy within the affected school district or districts.

(c) For the purpose of applying the limitation of this subsection (2), a two-year through six-year levy to support the construction, modernization, or remodeling of school facilities shall not be deemed to be a tax levy for enrichment funding for a school district.

(3) A special election may be called and the time therefor fixed by the board of school directors, by giving notice thereof by publication in the manner provided by law for giving notices of general elections, at which special election the proposition authorizing such excess levy shall be submitted in such form as to enable the voters favoring the proposition to vote "yes" and those opposed thereto to vote "no."

(4)(a) Beginning September 1, (2019), 2018 school districts may use enrichment levies ((and transportation vehicle enrichment levies)) solely to enrich the state's statutory program of basic education as authorized under RCW 28A.150.276.

(b) Beginning with propositions for enrichment levies ((and transportation vehicle enrichment levies)) for collection in calendar year 2020 and thereafter, a district must receive approval of an enrichment levy expenditure plan from the superintendent of public instruction under RCW 28A.505.240 before submission of the proposition to the voters.

(b) "Maximum per-pupil limit" means two thousand five hundred dollars, multiplied by the number of average annual ((resident)) full-time equivalent students enrolled in the school district in the prior school year. Beginning with property taxes levied for collection in 2020, the maximum per-pupil limit shall be increased by inflation.

(c) "Prior school year" means the most recent school year completed prior to the year in which the levies are to be collected.

(3) For districts in a high/nonhigh relationship, the enrollments of the nonhigh students attending the high school shall only be counted by the nonhigh school districts for purposes of funding under this section.

(4) For school districts participating in an innovation academy cooperative established under RCW 28A.340.080, enrollments of students attending the academy shall be adjusted so that each participant district receives its proportional share of student enrollments for purposes of funding under this section.

(5) Beginning with propositions for enrichment levies for collection in calendar year 2020 and thereafter, a district must receive approval of an enrichment levy expenditure plan under RCW 28A.505.240 before submission of the proposition to the voters.

(8) Funds collected from ((transportation vehicle enrichment levies shall not be subject to the levy limitations in)) levies for transportation vehicles, construction, modernization, or remodeling of school facilities as established in RCW 84.52.053 are not subject to the levy limitations in subsections (1) through (5) of this section.

PART IV: OTHER POLICIES

NEW SECTION. Sec. 401. (1) For the 2018-19 and 2019-20 school years, the office of the superintendent of public instruction shall allocate a hold-harmless payment to school districts if the sum of (b) of this subsection is greater than the sum of (a) of this subsection for either of the respective school years or if a school district meets the criteria under subsection (2) of this section.

(a) The current school year is calculated as the sum of (a)(i) through (iii) of this subsection using the enrollments and values in effect for that school year for the school district's:

(i) Formula-driven state allocations in part V of the state omnibus appropriations act for these programs: General apportionment, employee compensation adjustments, pupil transportation, special education programs, institutional education programs, transitional bilingual programs, highly capable, and learning assistance programs;

(ii) Local effort assistance funding received under chapter 28A.500 RCW; and

(iii) The lesser of the school district's voter-approved enrichment levy collection or the maximum levy authority provided under RCW 84.52.0531 for the previous calendar year.

(b) The baseline school year is calculated as the sum of (b)(i) through (iii) of this subsection using the current school year enrollments and the values in effect during the 2017-18 school year for the school district's:

(i) Formula-driven state allocations in part V of the state omnibus appropriations act for these programs: General apportionment, employee compensation adjustments, pupil transportation, special education programs, institutional education programs, transitional bilingual programs, highly capable, and learning assistance programs;

(a) The sum of the school district's enrichment levy under RCW 84.52.0531 and 2017 3rd sp.s. c 13 s 203 and local effort assistance under RCW 28A.500.015 is less than half of the sum of the maintenance and operations levy and local effort assistance provided under law as it existed on January 1, 2017. For purposes of the calculation in this subsection, the maintenance and operations levy is limited to the lesser of the voter-approved levy
as of January 1, 2017, or the maximum levy under law as of January 1, 2017; and

(b) The adjusted assessed value of property within the school district as calculated by the department of revenue is greater than twenty billion dollars in calendar year 2017.

(1) Beginning with the ((2018-19)) 2019-20 school year, the legislature shall begin phasing in funding for professional learning days for certificated instructional staff. The state allocation must be used solely for the purpose of providing professional learning. At a minimum, the state must allocate funding for:

(a) One professional learning day in the ((2018-19)) 2019-20 school year;

(b) Two professional learning days in the ((2019-20)) 2020-21 school year; and

(c) Three professional learning days in the ((2020-21)) 2021-22 school year.

(2) The office of the superintendent of public instruction shall calculate each school district's professional learning allocation as provided in subsection (1) of this section separate from the minimum state allocation for salaries as specified in RCW 28A.150.410 and associated fringe benefits on the apportionment reports provided to each local educational agency. The professional learning allocation shall be equal to the proportional increase resulting from adding the professional learning days provided in subsection (1) of this section to the required minimum number of school days in RCW 28A.150.2205(a) applied to the school district's minimum state allocation for salaries and associated fringe benefits for certificated instructional staff as specified in the omnibus appropriations act. Professional learning allocations shall be included in per-pupil calculations for programs funded on a per student rate calculation.

(3) Nothing in this section entitles an individual certificated instructional staff to any particular number of professional learning days.

(1) The legislature intends that state funding for charter schools be distributed equitably with state funding provided for other public schools.

(2) For eligible students enrolled in a charter school established and operating in accordance with this chapter, the superintendent of public instruction shall transmit to each charter school an amount calculated as provided in this section and based on the statewide average (staff mix factor) salaries set forth in RCW 28A.150.410 for certificated instructional staff adjusted by the regionalization factor that applies to the school district in which the charter school is geographically located, including any enrichment to those statutory formulae that is specified in the omnibus appropriations act. The amount must be the sum of (a) and (b) of this subsection as applicable).

(a) The superintendent shall, for purposes of making distributions under this section, separately calculate and distribute to charter schools moneys appropriated for general apportionment under the same ratios as in RCW 28A.150.260.

(b) The superintendent also shall, for purposes of making distributions under this section, and in accordance with the applicable formulae for categorical programs specified in (b) through (v) of this subsection and any enrichment to those statutory formulae that is specified in the omnibus appropriations act, separately calculate and distribute moneys appropriated by the legislature to charter schools for:

Distributions for pupil transportation must be calculated on a per eligible student basis based on the allocation for the previous school year to the school district in which the charter school is located.

(3) The superintendent of public instruction must adopt rules necessary for the distribution of funding required by this section and to comply with federal reporting requirements.

Sec. 404. RCW 28A.715.040 and 2013 c 242 s 5 are each amended to read as follows:

(1) A school that is the subject of a state-tribal education compact must report student enrollment. Reporting must be done in the same manner and use the same definitions of enrolled students and annual average full-time equivalent enrollment as is required of school districts. The reporting requirements in this subsection are required for a school to receive state or federal funding that is allocated based on student characteristics.

(2) Funding for a school that is the subject of a state-tribal education compact shall be apportioned by the superintendent of public instruction according to the schedule established under RCW 28A.510.250, including general apportionment, special education, categorical, and other nonbasic education moneys. Allocations for certificated instructional staff must be based on the statewide average (staff mix ratio of the school, as calculated by the superintendent of public instruction using the statewide salary allocation schedule and related documents, conditions, and limitations established by the omnibus appropriations act) salary set forth in RCW 28A.150.410, adjusted by the regionalization factor that applies to the school district in which the school is located. Nothing in this section requires a school that is the subject of a state-tribal education compact to use
the statewide salary allocation schedule. Such a school is eligible to apply for state grants on the same basis as a school district.

(3) Any moneys received by a school that is the subject of a state-tribal education compact from any source that remain in the school's accounts at the end of any budget year must remain in the school's accounts for use by the school during subsequent budget years.

Sec. 405. RCW 72.40.028 and 2009 c 381 s 7 are each amended to read as follows:

(2) If an audit under subsection (1) of this section results in findings that a school district has failed to comply with these requirements, then within ninety days of completing the audit the auditor must report the findings to the superintendent of public instruction, the office of financial management, and the education and operating budget committees of the legislature.

(3) The use of the state allocation provided for professional learning under RCW 28A.150.415 must be audited as part of the regular financial audits of school districts by the state auditor's office to ensure compliance with the limitations and conditions of RCW 28A.150.415.

NEW SECTION. Sec. 407. The sum of twelve million dollars is appropriated for the fiscal year ending June 30, 2019, from the general fund to the superintendent of public instruction solely for hold harmless payments for purposes of section 401(2) of this act.

NONA SNELL, Deputy Chief Clerk
Senator Wellman moved that the Senate concur in the House amendment(s) to Engrossed Second Substitute Senate Bill No. 6362.

Senator Wellman spoke in favor of the motion. Senator Fain spoke against the motion.

The President declared the question before the Senate to be the motion by Senator Wellman that the Senate concur in the House amendment(s) to Engrossed Second Substitute Senate Bill No. 6362.

The motion by Senator Wellman carried and the Senate concurred in the House amendment(s) to Engrossed Second Substitute Senate Bill No. 6362 by a rising vote.

Senator Conway spoke in favor of passage of the bill.

The President resumed the chair.

Senators Baumgartner, Braun and Zeiger spoke against passage of the bill.

Senator Becker spoke on the passage of the bill.

POINT OF INQUIRY

Senator Padden: “Thank you Mr. President. Will the Senator from the 25th yield to a question?”

President Habib: “Senator Zeiger?”

Senator Zeiger: “I will.”

President Habib: “Please proceed.”

Senator Padden: “Senator Zeiger could you please relate to me because I’ve not been part of these negotiations, what the agreement was and what the difference from the agreement and what the bill is that we have in front of us?”

Senator Zeiger: “I would defer to the gentleman from the 20th District if that is alright?”

Senator Padden: “With your permission.”

President Habib: “Senator Padden, would you like to give remarks on this bill?”

Senator Padden: “I asked Senator Zeiger to yield to a question, Mr. President. He indicated that Senator Braun would be better able to answer the question.”

President Habib: “Senator Braun? Please proceed.”

Senator Braun: “Thank you Mr. President. So, it’s gone on for a while and I’m a little tired but I will try and relate the changes from memory. There were four things that we were working on. We started with one, ironically that one is the one that we didn’t even negotiate a change to and I got comfortable with that but we did three other things that my understanding is all four leads of the caucuses agreed on. And that is, we had a small change in the underlying language that said, there is a concern by the districts that it didn’t differentiate between paid supplemental, or time-based supplemental contracts and nontime-based supplemental contracts. I think the language allowed what we intended but it wasn’t as clear as it could be. There is an effort, I think originally with the Senate Democrats, to address that language and they got closer but it left an opening that could lead to the reinvention of tri or tri-like supplemental contracts.

We talked about and came up with good language to allow the school districts flexibility but doesn’t allow that to happen. And then the other two items are, one has to do with, and this is probably the biggest one from a legal perspective, has to do with reporting on salaries. Again this is as we tried to perfect the bill in the trailer bill. When you, the original bill started the full salaries in school year 19-20, as you know. We pulled that back and started full funding in 18-19 but what wasn’t done is pulling back the reporting that is required to go along with that. That’s very important, that the court understands that we are tracking those salaries and the state is fully funding those salaries. And while there is some confusion on this issue, ultimately we got a general understanding. And, then, frankly, once we all understood the issue, led to general agreement pretty quickly. And this is probably the biggest issue from a court perspective and from a McCleary perspective. The third one is simply a change from OSPI that says their vendor, that will put together the reporting on a different issue, can’t get it done by the date in ’18. We moved the date up from ’19 to ’18, when we fully funded. They could do part, this has to do with creating subaccounts for local money and for state money, they can do the work that creates the subaccounts and have that done by the new date but they’re not able to get the additional reporting coding done to do what the bill requires. So they simply asked that we bifurcate those tasks into one that can be done as asked, as requested in the bill, and one that can be done a year later when they expect the coding to be available. So these, as you can see Senator Padden, are relatively straight forward, just good blocking and tacking, good policy and I think we would have been better served both from a policy standpoint and an institutional standpoint to do these things. Thank you.”

Senators Ranker and Wellman spoke in favor of passage of the bill.

Senators Padden, Short and Honeyford spoke against passage of the bill.

Senator Bailey spoke on the passage of the bill.

Senator Becker requested that the measure be deferred and announced a meeting of the Republican Caucus immediately upon going at ease.

MOTION

At 7:48 p.m., on motion of Senator Liias, the Senate was declared to be at ease until 8:02 p.m.

-----

The Senate was called to order at 8:02 p.m. by President Habib.

Having concurred in the House amendment(s), the President declared the question before the Senate to be the final passage of Engrossed Second Substitute Senate Bill No. 6362 as amended by the House.

Senator Fain spoke against passage of the bill.

POINT OF ORDER

Senator Baumgartner: “Thank you Mr. President. I have great concern about this bill. Not knowing what is in it, … would it still be possible, do I have the right to have the entire bill read in full?”

RULING BY THE PRESIDENT
President Habib: “Senator Baumgartner, we are on, I actually want to be clear, and I wasn’t, so the norm is to not actually have any debate when a concurrence has happened. As you all know, you have been here, almost all of you, longer than I have. So, this was actually an extraordinary circumstance and so we’ve had the debate. It was very important to me and I know to all of us that we had the opportunity for members to learn about the changes in the House and so I’m glad we had the opportunity to do that. And Senator Fain gave remarks on behalf of your caucus and the question now before the…”

REMARKS BY THE PRESIDENT

President Habib: “You’ve not been recognized. … There’s a few things. … Number one, Senator Becker you’ve spoken on final passage, so has Senator Padden and I believe as I walked in, so has Senator Baumgartner. The one … Excuse me. I’m speaking right now. You’ve not been recognized. Now, now, excuse me. You are out of order. The agreement that was made, prior to the brief recess, was that every senator, and I feel very strongly that every senator should have the opportunity to learn the changes that were made. Things are very, moving very quickly, and I recognize that it is unfortunate that there was not more time. The agreement was made by the floor leader of the minority and majority party caucuses that there would be a maximum of one speech on each side. Recognizing there is no speakers on the Democratic side that want to speak…”

The President declared the question before the Senate to be the final passage of Engrossed Second Substitute Senate Bill No. 6362, as amended by the House.

ROLL CALL

FOR THE DEPARTMENT OF COMMERCE
Local and Community Projects 2016 (92000369)

The appropriation in this section is subject to the following conditions and limitations:

(1) Except as directed otherwise prior to the effective date of this section, the department may not expend the appropriation in this section unless and until the nonstate share of project costs have been either expended, or firmly committed, or both, in an amount sufficient to complete the project or a distinct phase of the project that is useable to the public for the purpose intended by the legislature. This requirement does not apply to projects where a share of the appropriation is released for design costs only.

(2) Prior to receiving funds, project recipients must demonstrate that the project site is under control for a minimum of ten years, either through ownership or a long-term lease. This requirement does not apply to appropriations for preconstruction activities or appropriations whose sole purpose is to purchase real property that does not include a construction or renovation component.

(3) Projects funded in this section may be required to comply with Washington's high performance building standards as required by chapter 39.35D RCW.

(4) Project funds are available on a reimbursement basis only, and shall not be advanced under any circumstances.

(5) Projects funded in this section must be held by the recipient for a minimum of ten years and used for the same purpose or purposes intended by the legislature as required in RCW 43.63A.125(6).

(6) Projects funded in this section, including those that are owned and operated by nonprofit organizations, are generally required to pay state prevailing wages.

(7) $2,209,000 of the appropriation in this section is provided solely for the Fairchild air force base protection and community empowerment project, including the purchase of twenty acres of land by Spokane county or the city of Airway Heights for development of affordable housing and the purchase of mobile home parks by Spokane county or the city of Airway Heights in order to reduce the use of the accident potential zone for residential purposes. There shall be no limitations on the sequence of the purchase of mobile home parks. If Spokane county or the city of Airway Heights subsequently rezones, develops, and leases the mobile home park property for commercial or industrial uses contrary to the allowed uses in the accident potential zone, Spokane county or the city of Airway Heights must repay to the state the amount spent on the purchase of mobile home parks in its entirety within ten years. Mobile home parks purchased under the provisions of this subsection may be sold by Spokane county or the city of Airway Heights, provided that the uses of the mobile home park property are not contrary to the allowed uses in the accident potential zone. Any moneys from this sale must be used to purchase other mobile home parks in the Fairchild air force base protection and community empowerment project. The twenty acres of land purchased under this subsection for development as affordable housing may be sold, in whole or in part, by the recipient, provided the property sold is used for affordable housing as required in the Fairchild air force base protection and community empowerment project. Recipients of funds provided under this subsection are not required to demonstrate that the project site is under their control for a minimum of ten years but they must demonstrate that the project site is under their control through ownership or long-term lease. Projects funded under this subsection are not required to meet the provisions of RCW 43.63A.125(6) and subsection (5) of this section.

Design solutions for flooding reductions in the lower White River must include a floodplain habitat design that both reduces flood risks and restores salmon habitat by reconnecting the river with its floodplain and a sustainable riparian corridor. Project designs and plans must also identify lands for acquisition needed for floodplain reconnection where pending or existing development eliminates the potential for riparian and aquatic habitat restoration. The city shall work cooperatively with the Muckleshoot Indian Tribe and the Puyallup Tribe of Indians, and develop a plan collaboratively to achieve both flood reduction and habitat restoration.

Sec. 3008. 2018 c 2 s 3025 (uncodified) is amended to read as follows:

FOR THE DEPARTMENT OF ECOLOGY

VW Settlement Funded Projects (40000018)

((The appropriation in this section is subject to the following conditions and limitations:

(1) The legislature finds that it is appropriate to provide a framework for the administration of mitigation funds provided to the state as a beneficiary under the terms of the consent decrees entered into by the United States, Volkswagen AG, and other participating parties that settle emissions related claims for 2.0 and 3.0 liter diesel vehicles of certain models and years. The legislature deems the department of ecology the responsible agency for the administration and expenditure of funds provided by the trustee under the terms of the consent decrees, including the development of a mitigation plan to guide the use of the funds, whether or not the department receives funds directly for projects included in the plan.

(2)(a) The department of ecology shall develop the mitigation plan through an open, transparent public process consistent with...))
direction in the consent decrees. The department shall provide ample opportunity using a variety of engagement options, as appropriate, for stakeholders and the public to shape, review, and comment throughout the development of the mitigation plan, including at least two meetings of the legislative advisory group as described in (c) of this subsection.

(b) The department of ecology shall work collaboratively with other agencies to develop and implement the elements of the mitigation plan that address categories of projects for which other agencies have already developed programs or expertise. In doing so, the department of ecology must consider and utilize, where appropriate and to the extent possible, the following existing programs for alternative fuels and zero-emission vehicles:

(i) The department of transportation’s electric vehicle infrastructure bank program;

(ii) The state alternative fuel commercial vehicle tax credit;

(iii) The state sales and use tax exemption for clean vehicles; and

(iv) Public transportation grant programs administered by the department of transportation.

c(i) For the purposes of providing legislative input and gathering public feedback on the development of the mitigation plan, a legislative advisory group is established. The advisory group is comprised of eight legislators, including the chairs and ranking members, or designees of the chairs and ranking members, of the transportation and capital budget committees in the House and in the Senate; the director of the department of ecology; and the secretary of the department of transportation.

(ii) The advisory group must select a chair from among its membership. Meetings of the advisory group must be open to the public and allow for public comment.

(iii) The advisory group must meet at least twice, once immediately prior to the date that the draft mitigation plan is released publicly, and again after public comment has been incorporated but before the department submits the plan to the trustee.

(iv) The office of program research and the senate committee services must provide staff support to the advisory group. The department of ecology staff must provide technical support, as needed. Legislative members of the advisory group are reimbursed for travel expenses in accordance with RCW 44.04.120. Nonlegislative members are not entitled to be reimbursed for travel expenses if they are elected officials or are participating on behalf of an employer, government entity, or other organization. Any reimbursement for other nonlegislative members is subject to chapter 44.03. RCW. Advisory group expenditures are subject to approval by the senate facilities and operations committee and the house of representatives executive rules committee, or their successor committees.

2. The mitigation plan and the stewardship of project implementation must adhere to the following principles:

(a) Maximize air quality and public health benefits relating to the reduction of nitrogen oxides emissions;

(b) Give priority to projects that improve air quality relating to the reduction of nitrogen oxides emissions in areas that bear a disproportionate share of the burden from nitrogen oxides emissions;

(c) Achieve substantial additional air quality benefits relating to the reduction of nitrogen oxides emissions beyond that which would already occur, absent trust funding;

(d) Investments in clean vehicles or investments in clean engine replacements must be shown to be cost-effective. For the purposes of leveraging funding, investments in clean vehicles may not exceed the incremental cost of the clean vehicle, relative to the cost of a similar conventionally fueled vehicle. To incentivize the replacement of standard engines, investments may be made up to the full cost of the clean engine replacement;

(e) Consideration must be given to investments across a range of fueling technologies and emissions-reduction technologies; and

(f) Priority must be given to projects that have the highest benefit-cost ratios, in terms of the amount of nitrogen oxides emissions reduced per dollar invested.

(4) Funding must be allocated to eligible projects under the terms of the consent decrees in the following manner:

(a) No more than thirty percent of funding provided during the 2017-2019 biennium for commercial vehicle class four through eight transit buses, shuttle buses, and school buses;

(b) No more than thirty percent of funding provided during the 2017-2019 biennium for commercial vehicle class eight local freight trucks and port drayage trucks;

(c) No more than twenty percent of funding provided during the 2017-2019 biennium for commercial vehicle class four through seven local freight trucks;

(d) No more than twenty percent of funding provided during the 2017-2019 biennium for airport ground support equipment;

(e) No more than twenty percent of funding provided during the 2017-2019 biennium for ocean-going vessels’ shore power;

(f) No more than fifteen percent of funding provided during the 2017-2019 biennium for light-duty, zero-emission vehicle supply equipment;

(g) No more than twenty percent of funding provided during the 2017-2019 biennium for nonfederal matching funds for projects eligible under the diesel emission reduction act option; and

(h) For each of the other categories of mitigation actions that are eligible under the consent decrees but not otherwise specified under this subsection (4)(a), no more than ten percent of funding provided during the 2017-2019 biennium.

(b) Projects that receive funding under subsection (4)(a)(ii) and (iii) of this section and ocean-going vessels shorepower projects that receive funding under subsection (4)(a)(viii) of this section must include electric technologies, if practicable.

(5) To the extent this section conflicts with the consent decrees, the consent decrees supersede it.

(6) The department of ecology may modify the mitigation plan as needed to comply with trustee requirements, including to the extent these modifications conflict with this section. In making any adjustments, the department of ecology shall consult with the department of transportation and the office of the superintendent of public instruction and provide notice to the steering committee of any significant changes to the plan submitted.

(7) The department of ecology shall provide a report to the governor and the appropriate committees of the legislature by January 1, 2018, and each year thereafter, on any plans or efforts to change the mitigation plan, its progress in implementing the mitigation plan, and the specific projects funded through these mitigation funds for the previous fiscal year.

(8) For the purposes of this section:

(a) “Project” means an eligible mitigation action under the terms of the consent decrees entered into by the United States, Volkswagen AG, and other participating parties that settle emissions-related claims for 2.0 and 3.0 liter diesel vehicles of certain models and years.

(b) “Trustee” means the entity selected under the terms of the consent decrees to administer the disbursement of funds to eligible projects for the purposes of mitigating nitrogen oxides emission pollution.

The appropriation in this section is subject to the following conditions and limitations:
The appropriation is provided solely to implement the requirements of the Volkswagen "clean diesel" marketing, sales practice, and products liability litigation settlement.

All expenditures from this appropriation must:
(a) Be consistent with the terms of this settlement;
(b) Be consistent with the state of Washington beneficiary mitigation plan adopted by the department and approved by the Volkswagen settlement trustee; and
(c) Help achieve the state's results Washington goal of fifty thousand electric vehicles on the road by 2020.

Fifteen percent of this appropriation must be spent on projects for the acquisition, installation, operation, and maintenance of new light duty zero emission vehicle supply equipment and infrastructure. The department of ecology shall work with the department of transportation to select projects and distribute funding contained in this subsection.

The remaining eighty-five percent of this appropriation must be spent on projects as defined by the eligible categories in attachment A, appendix D-2 of the Volkswagen settlement and upon approval by the settlement trustee. The department of ecology shall use a competitive process to identify and select projects that maximize total air pollution reduction and health benefits; improve air quality in areas disproportionately affected by air pollution; leverage additional matching funds; achieve substantial emission reductions beyond what would occur absent this funding; accelerate fleet turnover to the cleanest engines, and accelerate adoption of electric vehicles, equipment, and vessels.

The department of ecology shall work with the department of transportation as appropriate to select projects and distribute funding contained in this subsection.

The criteria used to determine the scoring and priority for funding must include, but are not limited to, the following:
(i) Contaminated sites must be within the urban growth area boundaries;

NEW SECTION. Sec. 7004. A new section is added to 2018 c 2 (uncodified) to read as follows:

(1) Subject to the availability of amounts appropriated for this specific purpose, the department of natural resources is authorized to develop and construct an irrigation system, known as the Paterson pipeline, to deliver water from existing water rights owned by the department from the Columbia River to common school trust lands.

(2)(a) The development and construction of the Paterson pipeline must be reviewed and approved by the board of natural resources; and

(b) Any investment in the Paterson pipeline with moneys belonging to an asset of the common school trust constitutes a loan from the common school trust and may be made only if first determined to be a prudent investment by the board of natural resources.

(3) The board of natural resources may set the terms of the loan with the following conditions and limitations:

(a) A payment of principal and annual interest of no less than three percent and up to six percent on remaining principal of the loan described in subsection (2)(b) of this section must be paid annually to be disbursed as follows:

(i) The principal portion of the payment shall be deposited into the natural resources real property replacement account and credited to the common school trust;

(ii) The interest portion of the payment shall be deposited into the common school construction account;

(b) Interest begins to accrue on a date determined by the board of natural resources, but no later than the earlier of two years after the date the Paterson pipeline is completed or the date of the execution of the lease; and

(c) Once interest begins to accrue, the annual payment is due and payable on July 1st, following the completion of the state fiscal year, until the principal is fully repaid.

(4) Revenues generated from leases of the irrigated acreage in the common school trust improved by the Paterson pipeline are assumed to be dedicated for the payments on the loan principal and interest described in subsection (3) of this section until the loan is paid in full.

Sec. 7005. RCW 79.17.210 and 2013 2nd sp.s. c 19 s 7041 are each amended to read as follows:

(1) The legislature finds that the department has a need to maintain the real property asset base it manages and needs an accounting mechanism to complete transactions without reducing the real property asset base.

(2) The natural resources real property replacement account is created in the state treasury. This account shall consist of funds transferred or paid for the disposal or transfer of real property by the department under RCW 79.17.200 and the transfer of state lands or state forestlands into community forest trust lands under RCW 79.155.040. The funds in this account shall be used solely for the acquisition of replacement real property and may be spent only when, and as, authorized by legislative appropriation.

During the 2013-2015 fiscal biennium, funds in the account may also be appropriated for the land purchase in section 3245, chapter 19, Laws of 2013 2nd sp. sess. under the provisions of section 3245, chapter 19, Laws of 2013 2nd sp. sess. and chapter 11, Laws of 2013 2nd sp. sess. During the 2017-2019 fiscal biennium, moneys in the account may also be appropriated for developing and constructing the pipeline in section 3061 of this act under the provisions of section 7004 of this act.

Sec. 7006. 2018 c 2 s 7007 (uncodified) is amended to read as follows:

(1) The office of financial management may authorize a transfer of appropriation authority provided for a capital project that is in excess of the amount required for the completion of such project to another capital project for which the appropriation is insufficient. No such transfer may be used to expand the capacity of any facility beyond that intended in making the appropriation. Such transfers may be effected only between capital appropriations to a specific department, commission, agency, or institution of higher education and only between capital projects that are funded from the same fund or account. No transfers may occur between projects to local government agencies except where the grants are provided within a single omnibus appropriation and where such transfers are specifically authorized by the implementing statutes that govern the grants.

(2) The office of financial management may find that an amount is in excess of the amount required for the completion of a project only if: (a) The project as defined in the notes to the budget document is substantially complete and there are funds remaining; or (b) bids have been let on a project and it appears to a substantial certainty that the project as defined in the notes to the budget document can be completed within the biennium for less than the amount appropriated in this act.

(3) For the purposes of this section, the intent is that each project be defined as proposed to the legislature in the governor's budget document, unless it clearly appears from the legislative history that the legislature intended to define the scope of a project in a different way.

(4) A report of any transfer effected under this section, except emergency projects or any transfer under $250,000, shall be filed with the legislative fiscal committees of the senate and house of representatives by the office of financial management at least thirty days before the date the transfer is effected. The office of financial management shall report all emergency or smaller transfers within thirty days from the date of transfer.
((5) The transfer authority granted in this section does not apply to appropriations for projects for the state parks and recreation commission. Appropriations for commission projects may be spent only for the specified projects, and funding may not be transferred from one commission project to another or from other sources to a commission project.))

(2) The office must submit a report with its findings and recommendations to the appropriate committees of the legislature by June 30, 2019.

Sec. 7013. RCW 43.88D.010 and 2017 c 52 s 15 are each amended to read as follows:

(1) By October 1st of each even-numbered year, the office of financial management shall complete an objective analysis and scoring of all capital budget projects proposed by the public four-year institutions of higher education and submit the results of the scoring process to the legislative fiscal committees and the four-year institutions. Each project must be reviewed and scored within one of the following categories, according to the project's principal purpose. Each project may be scored in only one category. The categories are:

(a) Access-related projects to accommodate enrollment growth at all campuses, at existing or new university centers, or through distance learning. Growth projects should provide significant additional student capacity. Proposed projects must demonstrate that they are based on solid enrollment demand projections, more cost-effectively provide enrollment access than alternatives such as university centers and distance learning, and make cost-effective use of existing and proposed new space;

(b) Projects that replace failing permanent buildings. Facilities that cannot be economically renovated are considered replacement projects. New space may be programmed for the same or a different use than the space being replaced and may include additions to improve access and enhance the relationship of program or support space;

(c) Projects that renovate facilities to restore building life and upgrade space to meet current program requirements. Renovation projects should represent a complete renovation of a total facility or an isolated wing of a facility. A reasonable renovation project should cost between sixty to eighty percent of current replacement value and restore the renovated area to at least twenty-five years of useful life. New space may be programmed for the same or a different use than the space being renovated and may include additions to improve access and enhance the relationship of program or support space;

(d) Major stand-alone campus infrastructure projects;

(e) Projects that promote economic growth and innovation through expanded research activity. The acquisition and installation of specialized equipment is authorized under this category;

(f) Other project categories as determined by the office of financial management in consultation with the legislative fiscal committees.

(2) The office of financial management, in consultation with the legislative fiscal committees, shall establish a scoring system and process for each four-year project category that is based on the framework used in the community and technical college system of prioritization. Staff from the state board for community and technical colleges and the four-year institutions shall provide technical assistance on the development of a scoring system and process.

(3) The office of financial management shall consult with the legislative fiscal committees in the scoring of four-year institution project proposals, and may also solicit participation by independent experts.

(a) For each four-year project category, the scoring system must, at a minimum, include an evaluation of enrollment trends, reasonableness of cost, the ability of the project to enhance specific strategic master plan goals, age and condition of the facility if applicable, and impact on space utilization.

(b) Each four-year project category may include projects at the predesign, design, or construction funding phase.

(c) To the extent possible, the objective analysis and scoring system of all capital budget projects shall occur within the context of any and all performance agreements between the office of financial management and the governing board of a public, four-year institution of higher education that aligns goals, priorities, desired outcomes, flexibility, institutional mission, accountability, and levels of resources.

(4) In evaluating and scoring four-year institution projects, the office of financial management shall take into consideration project schedules that result in realistic, balanced, and predictable expenditure patterns over the ensuing three biennia.

(5) The office of financial management shall distribute common definitions, the scoring system, and other information required for the project proposal and scoring process as part of its biennial budget instructions. The office of financial management, in consultation with the legislative fiscal committees, shall develop common definitions that four-year institutions must use in developing their project proposals and lists under this section.

(6) In developing any scoring system for capital projects proposed by the four-year institutions, the office of financial management:

(a) Shall be provided with all required information by the four-year institutions as deemed necessary by the office of financial management;

(b) May utilize independent services to verify, sample, or evaluate information provided to the office of financial management by the four-year institutions; and

(7) By August 1st of each even-numbered year each public four-year higher education institution shall prepare and submit prioritized lists of the individual projects proposed by the institution for the ensuing six-year period in each category. The lists must be submitted to the office of financial management and the legislative fiscal committees. The four-year institutions may aggregate minor works project proposals by primary purpose for ranking purposes. Proposed minor works projects must be prioritized within the aggregated proposal, and supporting documentation, including project descriptions and cost estimates, must be provided to the office of financial management and the legislative fiscal committees.

(8) For the 2017-2019 fiscal biennium, pursuant to subsection (1) of this section, by November 1, 2018, the office of financial management must score higher education capital project criteria with a rating scale that assesses how well a particular project satisfies those criteria. The office of financial management may not use a rating scale that weights the importance of those criteria.

(9) For the 2017-2019 fiscal biennium, pursuant to subsection (6)(a) of this section and in lieu of the requirements of subsection (7) of this section, by August 15, 2018, the institutions of higher education shall prepare and submit or resubmit to the office of financial management and the legislative fiscal committees:

(a) Individual project proposals developed pursuant to subsection (1) of this section;

(b) Individual project proposals scored in prior biennia pursuant to subsection (1) of this section; and

(c) A prioritized list of up to five project proposals submitted pursuant to (a) and (b) of this subsection.

(1) The council shall identify budget priorities and levels of funding for higher education, including the two and four-year
institutions of higher education and state financial aid programs. It is the intent of the legislature for the council to make budget recommendations for allocations for major policy changes in accordance with priorities set forth in the ten-year plan, but the legislature does not intend for the council to review and make recommendations on individual institutional budgets. It is the intent of the legislature that recommendations from the council prioritize funding needs for the overall system of higher education in accordance with priorities set forth in the ten-year plan. It is also the intent of the legislature that the council’s recommendations take into consideration the total per-student funding at similar public institutions of higher education in the global challenge states.

(2) By December of each odd-numbered year, the council shall outline the council's fiscal priorities under the ten-year plan that it must distribute to the institutions, the state board for community and technical colleges, the office of financial management, and the joint higher education committee.

(a) Capital budget outlines for the two-year institutions shall be submitted to the office of financial management by August 15th of each even-numbered year, and shall include the prioritized ranking of the capital projects being requested, a description of each capital project, and the amount and fund source being requested.

(b) Capital budget outlines for the four-year institutions must be submitted to the office of financial management by August 15th of each even-numbered year, and must include: The institutions' priority ranking of the project; the capital budget category within which the project will be submitted to the office of financial management in accordance with RCW 43.88D.010; a description of each capital project; and the amount and fund source being requested.

(c) The office of financial management shall reference these reporting requirements in its budget instructions.

(3) The council shall submit recommendations on the operating budget priorities to support the ten-year plan to the office of financial management by October 1st each year, and to the legislature by January 1st each year.

(4) (a) The office of financial management shall develop one prioritized list of capital projects for the legislature to consider that includes all of the projects requested by the four-year institutions of higher education that were scored by the office of financial management pursuant to chapter 43.88D RCW, including projects that were previously scored but not funded. The prioritized list of capital projects shall be based on the following priorities in the following order:

(i) Office of financial management scores pursuant to chapter 43.88D RCW;
(ii) Preserving assets;
(iii) Degree production; and
(iv) Maximizing efficient use of instructional space.

(b) The office of financial management shall include all of the capital projects requested by the four-year institutions of higher education, except for the minor works projects, in the prioritized list of capital projects provided to the legislature.

(c) The form of the prioritized list for capital projects requested by the four-year institutions of higher education shall be provided as one list, ranked in priority order with the highest priority project ranked number "1" through the lowest priority project numbered last. The ranking for the prioritized list of capital projects may not:

(i) Include subpriorities;
(ii) Be organized by category;
(iii) Assume any state bond or building account biennial funding level to prioritize the list; or
(iv) Assume any specific share of projects by institution in the priority list.

(5) Institutions and the state board for community and technical colleges shall submit any supplemental capital budget requests and revisions to the office of financial management by November 1st and to the legislature by January 1st.

(6) For the 2017-2019 fiscal biennium, pursuant to subsection (4) of this section, the office of financial management may, but is not obligated to, develop one prioritized list of capital projects for the legislature to consider that includes all of the projects requested by the four-year institutions of higher education that were scored by the office of financial management pursuant to chapter 43.88D RCW, including projects that were previously scored but not funded.

(2) The department must describe all trust lands, by trust, including timber lands, agricultural lands, commercial lands, and other lands, and identify revenues from leases or other sources for those lands. The department must briefly describe the income from these trust lands, and potential enhancements to income, including intergenerational income, from the asset bases of these trusts.

(3) The analysis must estimate the current fair market value of these lands for each trust beneficiary, including the separate beneficiaries of state lands as defined in RCW 79.02.010, and the beneficiaries of state forestlands as specified in chapter 79.22 RCW. (5) The department must provide a progress report to the legislature by December 1, 2018. Sec. 7016. RCW 43.17.200 and 2005 c 36 s 4 are each amended to read as follows:

PERSONAL PRIVILEGE

Senator Frockt: “Thank you, Mr. President. I wanted to express thanks to the budget negotiators. I also wanted to make sure that on the floor here tonight I expressed my thanks to the incredible Ways & Means staff who do both operating and capital budget, and they do it extremely well for us. Particularly for someone who, these last two years was a novice like me in this area, my only experience in working on the capital budget was making sure that Karen Keiser and who did we have before that was getting my stuff in the budget and so I didn’t really have any sense. So I had a lot to learn, but they were terrific. First of all, Richard Ramsey, our budget coordinator for the capital budget. And then all of these people who helped so much: Jasmin Adams, Jed Herman, Maria Hoyde, James Kettle, Danny Masterson, Julie Murray, Sandy Stith, and Travis Sugarman. And I also want to mention that those are our Ways & Means staff and they were incredible. And I also want to thank James Crandall on the Republican staff, who was incredibly professional and great to work with as well, and Noha Mahgoub, who was new to this and did a great job of learning and picking it up quickly and has a great future ahead of her as part of our team here on this side of the aisle. So, Mr. President, I want to thank you and thank the members of the body for all the good work and thank the staff again for helping us put together the capital budget of these last two years.”

The Senate rose and recognized the work of the staff of the Committee on Ways & Means and the Democratic and Republican Caucuses.

PERSONAL PRIVILEGE

Senator Nelson: “Thank you Mr. President. Well we are at sine die and I want to thank everyone in the chamber for this year in the sixty day session. I grew up in Hawaii, and there are some traditions there. So first and foremost, ‘Mahalo.’ Thank you all, both members and staff for all the work you’ve done. Many, many times its been on a nonpartisan basis and I appreciate that. And finally, as we all return home, there is always the other message from Hawaii, and that is, ‘Aloha.’ May you have safe travels, may you enjoy your families, and very shortly we will return to the floor for those of us who wish to, to adjourn sine die. Mahalo and Aloha.”

The Washington State Legislative Intern Program is an academic internship for college students from around Washington State. Interns are assigned to Senate offices and are mentored by members and staff as they conduct research, track legislation, and work with constituents. In addition to building professional experience through their office work, interns earn academic credit and take part in seminars and workshops with state policymakers to gain a first-hand understanding of the legislative process.

The 46 Senate interns in 2018 represented 16 college campuses, a wide range of majors, and communities all over Washington.

The Senate Page Program allows young students throughout Washington State the opportunity each year to take part in the legislative process and observe the Legislature and other branches of state government during the legislative session. The students also participate in the Page School learning about the legislative process, listening to guest speakers and developing their own legislation. The Program had 194 participants during the 2018 Regular Session.

MESSAGE FROM THE GOVERNOR
PARTIAL VETO ON SENATE BILL NO. 6058

March 21, 2018

To the Honorable President and Members,
The Senate of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Section 4, Senate Bill No. 6058 entitled:

"AN ACT Relating to write-in voting."

Section 4 creates an unintended extra administrative burden for some counties and is not needed for implementation purposes or to meet the intent of the bill.

For these reasons I have vetoed Section 4 of Senate Bill No. 6058.

With the exception of Section 4, Senate Bill No. 6058 is approved.

Respectfully Submitted,

MESSAGE FROM THE GOVERNOR
PARTIAL VETO ON ENGROSSED SUBSTITUTE SENATE BILL NO. 6032

March 27, 2018

To the Honorable President and Members,
The Senate of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Sections 119(8), 129(21), 135(4), 146(10), 307 lines 14-15, 308(21), 502(1)(h), 504(2), 606(23)(b), 908(3), 103(9), 122(3), 127(56), 135(6), 140(7), 141(4), 146(7), 148(10), 205(1)(w), 206(30), and 501(51), Engrossed Substitute Senate Bill No. 6032 entitled:

"AN ACT Relating to fiscal matters."

Section 119(8), page 19, Secretary of State, Automatic Voter Registration Study

This section includes funding for the Secretary of State to conduct a study related to automatic voter registration. The requirement to do this study was removed from Engrossed Second Substitute House Bill 2595 (automatic voter registration), but the funding proviso remained in the budget. Because the agency will not be doing this study, the funding is not needed. For this reason, I have vetoed Section 119(8).

Section 129(21), page 56, Office of Financial Management, 2020 Census

Funds are provided to the agency for staffing and support to prepare for the 2020 census in two identical provisos: Section 129(19) and Section 129(21). This is clearly a drafting error because funding for the double proviso is not included in the total appropriation authority. For this reason, I have vetoed Section 129(21).

Section 135(4), pages 59-60, Department of Revenue, Tax Database

The budget provides $150,000 to the department to create a publicly available online searchable database of all taxes and tax rates in the state for each taxing district. This is the same provision that was included in Senate Bill 6590 which had a fiscal note of $1,219,800 for creation of the database. This project cannot be done for the $150,000 provided in the budget. For this reason, I have vetoed Section 135(4).

Section 146(10), page 74, Department of Enterprise Services, Capitol Dome Access

This section directs the Department of Enterprise Services to allow individuals to access the top of the Capitol dome "under
approved supervision and guidelines developed by the department." The Olympia Fire Department has assessed this space in the past, and, among other issues, reported that it could not use a fireman's rescue technique in this space nor could it assist an injured party by using a gurney. The Department of Labor and Industries classifies the area as a "confined space" which means that it has restricted entry/exit and is not primarily designed for human occupancy. Access should be authorized only for individuals needed to do work on the dome. While the view is beautiful from the dome, there are too many risks involved with granting access to the public. For this reason, I have vetoed Section 146(10).

Section 307, page 261, lines 14-15, Department of Fish and Wildlife, FY 2018 General Fund- State Appropriation

The final budget reduces the department's FY 2018 General Fund-State appropriation by $1,739,000. Although the final budget provides an additional $1.5 million for Orca whale recovery efforts, it does not fully cover the costs of important work needed to begin the recovery of this iconic species. To support Orca recovery efforts, I am vetoing this reduction in appropriation and directing the department to use $650,000 of this amount to complete fish screen inventories, conduct public outreach and education, hire a recovery coordinator position, and support facilitation of the Southern Resident Killer Whale Task Force. I also am directing the agency to place the remaining amount in unallotted status. For this reason, I have vetoed Section 307, page 261, lines 14-15.

Section 308(21), page 274, Department of Natural Resources, SAFER Grant Match

One-time funding of $873,000 General Fund-State is provided to Kittitas County Fire District 7 for matching funds for its Staffing for Adequate Fire and Emergency Response (SAFER) grant from the Federal Emergency Management Agency. Despite the merits of the federal grant funding to provide firefighting staff to the district, the state should not provide the local match for these grants. Operational funding for fire districts is a local decision. Not only would providing the match through the state general fund set a precedent, it would be unfair to the other 19 fire districts across the state that were awarded a similar federal grant and provided their own local match. For these reasons, I have vetoed Section 308(21).

Section 502(1)(h), page 303, Office of Superintendent of Public Instruction for General Apportionment, Net Revenue Hold Harmless

Engrossed Second Substitute Senate Bill 6362 contains a more prescriptive hold harmless calculation than the language in the operating budget. The operating budget will hold districts harmless to a baseline that assumes the levy cliff would go into effect - a decision that the Legislature chose last year not to implement. We must ensure that no school district receives less funding in the 2018-19 school year. For this reason, I have vetoed Section 502(1)(h).

Section 504(2), page 318, Office of Superintendent of Public Instruction for School Employee Compensation Adjustments, Delay Professional Learning Day

The operating budget delays the implementation of state-funded professional learning days by one year. Research shows that time for job embedded professional learning and collaboration is linked to student success. Limiting practices that improve student achievement goes against our goal for a world-class education system. For these reasons, I have vetoed Section 504(2).

Section 606(23)(b), page 372, The Evergreen State College, Funding Options for the Legislature

This proviso allows the Office of Financial Management, State Board for Community and Technical Colleges, and Council of Presidents to use information from a Washington State Institute for Public Policy (WSIPP) study to present funding options to the Legislature. The WSIPP study is related to higher education funding methods in other states. This item directs two separate agencies and the Council of Presidents to perform work that does not naturally fit together with the WSIPP study. For this reason, I have vetoed Section 606(23)(b).

Section 908(3), page 417, Law Enforcement Officers' and Firefighters' Retirement System (LEOFF) Distribution

This language expresses the Legislature's intent that future distributions to the Local Law Enforcement Officers' and Firefighters' Retirement System Benefits Improvement Account may include transfers from the LEOFF 2 pension fund. I have consistently vetoed similar provisions in the past, and I remain concerned about the wisdom of such transfers from a retirement fund. For this reason, I have vetoed Section 908(3).

I am vetoing the following sections related to bills that did not pass the Legislature resulting in the lapse of funding. My veto of these sections will serve to clean up these unnecessary sections of the bill.

Section 103(9), page 5, Joint Legislative Audit & Review Committee, SHB 1154, Fishing and Seafood Processing.
MESSAGE FROM THE GOVERNOR
PARTIAL VETO ON ENGROSSED SUBSTITUTE SENATE BILL NO. 6095

March 27, 2018

To the Honorable President and Members,
The Senate of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Sections 3011(2), 3011(3), 3011(4), 4002, 7018, and 7019, Engrossed Substitute Senate Bill No. 6095 entitled:

"AN ACT Relating to the capital budget."

Sections 3011(2), (3) and (4), page 83, Department of Ecology, Water Availability (91000343)

I appreciate the bipartisan effort and support to pass Engrossed Substitute Senate Bill 6091 (ESSB 6091) and the accompanying appropriation of $20 million in the enacted capital budget. Together, these measures are important in allowing appropriate development to proceed in rural areas of our state while also ensuring the protection of instream flows. Negotiations on ESSB 6091 were both substantial and difficult. Sections 3011(2), (3) and (4) single out particular projects for funding. This is a departure from the planning and implementation processes established only weeks ago in ESSB 6091, and circumvents the Department of Ecology's efforts to prioritize and approve projects. For these reasons, I have vetoed Sections 3011(2), (3) and (4).

Section 4002, pages 110-112, Aviation Revitalization Loans (92000003)

This section contains amendments identical to Substitute House Bill 1656 (SHB 1656) and reduces the amount available
for loans by $2.5 million. Because I have vetoed SHB 1656 and I support the original $5 million appropriation, I have vetoed Section 4002.

Section 7018, page 153

Section 7018 repeals Section 13 of Substitute House Bill 1656 (SHB 1656). Because I have vetoed SHB 1656, there is no need to repeal a section in that bill. For this reason, I have vetoed Section 7018.

Section 7019, page 154

Section 7019 directs that Section 7018 takes effect when Substitute House Bill 1656 (SHB 1656) takes effect. Because I have vetoed Section 7018 and SHB 1656, this section is not necessary. For this reason, I have vetoed Section 7019.

For these reasons I have vetoed Sections 3011(2), 3011(3), 3011(4), 4002, 7018, and 7019 of Engrossed Substitute Senate Bill No. 6095.

With the exception of Sections 3011(2), 3011(3), 3011(4), 4002, 7018, and 7019, Engrossed Substitute Senate Bill No. 6095 is approved.

Respectfully Submitted,

MESSAGE FROM THE GOVERNOR
PARTIAL VETO ON ENGROSSED SUBSTITUTE SENATE BILL NO. 6106

March 27, 2018

To the Honorable President and Members,
The Senate of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Sections 208(19), 208(25), 208(26), 208(28), 208(29), 208(30), and 212(3), Engrossed Substitute Senate Bill No. 6106 entitled:

"AN ACT Relating to transportation funding and appropriations."

Section 208(19), Pages 23-24, Department of Licensing, Licensing Services Workgroup

Section 208(19) directs the department to convene a workgroup comprised of a county auditor, county licensing manager, and three subagent representatives to assess the current licensing services system and the establishment of a new licensing services partnership committee. The workgroup must consider and make recommendations on expanding services offered by subagents, establishing voluntary payment plans and automatic renewal options, and reviewing the current financial environment of subagents and county auditors. The department already has a specific licensing committee that meets twice a year. It also meets twice a year with the Washington Association of Vehicle Subagents. In addition, the proviso did not provide funding for this workgroup. While I encourage looking at ways to improve services to the public, this workgroup provides a forum for communication that already exists and funding is not provided to support the workgroup. For these reasons, I have vetoed Section 208(19).

I am vetoing the following sections related to bills that did not pass the legislature resulting in the lapse of funding. My veto of these sections will serve to clean up these unnecessary sections of the bill.

Section 208(25), page 25, Department of Licensing, HB 2653 Alternative Fuel Vehicle Exemption, or SB 6080, Electrification of Transportation

Section 208(26), page 25, Department of Licensing, SHB 2975, Snow Bikes

Section 208(28), page 26, Department of Licensing, SSB 6009, Issuance of Personalized Collector
Vehicle License Plates

Section 208(29), page 26, Department of Licensing, SSB 6107, Electric Motorcycle Registration Renewal Fees

Section 208(30), page 26, Department of Licensing, 2SSB 6189, Suspended or Revoked Driver's License Provisions

Section 212(3), page 35, Department of Transportation-Aviation, ESHB 2295, Electric Aircraft For these reasons I have vetoed Sections 208(19), 207(8), 208(1), 208(22), 208(25), 208(26), 208(28), 208(29), 208(30), and 212(3) of Engrossed Substitute Senate Bill No. 6106.

With the exception of Sections 208(19), 207(8), 208(1), 208(22), 208(25), 208(26), 208(28), 208(29), 208(30), and 212(3), Engrossed Substitute Senate Bill No. 6106 is approved.

MESSAGE FROM THE GOVERNOR
PARTIAL VETO ON ENGROSSED SECOND SUBSTITUTE SENATE BILL NO. 6362

March 27, 2018

To the Honorable President and Members,
The Senate of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Sections 402 and 408, Engrossed Second Substitute Senate Bill No. 6362 entitled:

"AN ACT Relating to modifying basic education funding provisions."

Section 402 delays the implementation of state-funded professional learning days. Research shows that time for job-embedded professional learning and collaboration is linked to student success. Limiting practices that improve student achievement goes against the intent of this bill and our goals. For this reason, I am vetoing Section 402.

Section 408 moves forward by one year the requirement for OSPI to develop rules and budgetary procedures to ensure school districts provide separate accounting of state and local revenues to expenditures. The work is underway to design and build the accounting systems required to implement this data transparency within the original timeline for school year 2019-20. Speeding up the development of the system will jeopardize the long-term reliability of the accounting system and suspend the development of all other systems work. For this reason I am vetoing Section 408.

For these reasons I have vetoed Sections 402 and 408 of Engrossed Second Substitute Senate Bill No. 6362.

Respectfully Submitted,
