Sec. 10. RCW 43.185C.240 and 2015 c 69 s 26 are each amended to read as follows:

(1) As a means of efficiently and cost-effectively providing housing assistance to very-low income and homeless households:
   (a) Any local government that has the authority to issue housing vouchers, directly or through a contractor, using document recording surcharge funds collected pursuant to RCW 36.22.178, 36.22.179, or 36.22.1791 must:
      (i) Maintain an interested landlord list, which at a minimum, includes information on rental properties in buildings with fewer than fifty units;
      (ii) Update the list at least once per quarter;
   (C) Distribute the list to agencies providing services to individuals and households receiving housing vouchers;
   (D) Ensure that a copy of the list or information for accessing the list online is provided with voucher paperwork; and
   (E) Communicate and interact with landlord and tenant associations located within its jurisdiction to facilitate development, maintenance, and distribution of the list to private rental housing landlords. The department must make reasonable efforts to ensure that local providers conduct outreach to private rental housing landlords each calendar quarter regarding opportunities to provide rental housing to the homeless and the availability of funds;

   (ii) Using cost-effective methods of communication, convene, on a semiannual or more frequent basis, landlords represented on the interested landlord list and agencies providing services to individuals and households receiving housing vouchers to identify successes, barriers, and process improvements. The local government is not required to reimburse any participants for expenses related to attendance;
   (iii) Produce data, limited to document recording fee uses and expenditures, on a ((calendar)) fiscal year basis in consultation with landlords represented on the interested landlord list and agencies providing services to individuals and households receiving housing vouchers, that include the following: Total amount expended from document recording fees; amount expended on, number of households that received, and number of housing vouchers issued in each of the private, public, and nonprofit markets; amount expended on, number of households that received, and number of housing placement payments provided in each of the private, public, and nonprofit markets; amount expended on and number of eviction prevention services provided in the private market; amount expended on and number of other tenant-based rent assistance services provided in the private market; and amount expended on and number of services provided to unaccompanied homeless youth. If these data elements are not readily available, the reporting government may request the department to use the sampling methodology established pursuant to (c)(iii) of this subsection to obtain the data; and

   (iv) Annually submit the ((calendar)) fiscal year data to the department ((by October 1st, with preliminary data submitted by October 1, 2012, and full calendar year data submitted beginning October 1, 2013)).

(b) Any local government receiving more than three million five hundred thousand dollars during the previous ((calendar)) fiscal year from document recording surcharge funds collected pursuant to RCW 36.22.178, 36.22.179, and 36.22.1791, must apply to the Washington state quality award program, or similar Baldridge assessment organization, for an independent assessment of its quality management, accountability, and performance system. The first assessment may be a lite assessment. After
submitting an application, a local government is required to reapply at least every two years.

(c) The department must:

(i) Require contractors that provide housing vouchers to distribute the interested landlord list created by the appropriate local government to individuals and households receiving the housing vouchers;

(ii) Convene a stakeholder group by March 1, 2017, consisting of landlords, homeless housing advocates, real estate industry representatives, cities, counties, and the department to meet to discuss long-term funding strategies for homeless housing programs that do not include a surcharge on document recording fees. The stakeholder group must provide a report of its findings to the legislature by December 1, 2017;

(iii) Develop a sampling methodology to obtain data required under this section when a local government or contractor does not have such information readily available. The process for developing the sampling methodology must include providing notification to and the opportunity for public comment by local governments issuing housing vouchers, landlord association representatives, and agencies providing services to individuals and households receiving housing vouchers;

The information in the report must include data submitted by local governments and data on all additional document recording fee activities for which the department contracted that were not otherwise reported. The data, samples, and sampling methodology used to develop the report must be made available upon request and for the audits required in this section;

(v) Annually submit the ((calendar)) fiscal year report to the legislature by December 15th, with a preliminary report submitted by December 15, 2012, and full calendar year reports submitted beginning December 15, 2013); 1st of each year; and

(vi) Work with the Washington state quality award program, local governments, and any other organizations to ensure the appropriate scheduling of assessments for all local governments meeting the criteria described in subsection (1)(b) of this section.

(d) The office of financial management must secure an independent audit of the department's data and expenditures of state funds received under RCW 36.22.179(1)(b) on an annual basis. The independent audit must review a random sample of local governments, contractors, and housing providers that is geographically and demographically diverse. The independent auditor must meet with the department and a landlord representative to review the preliminary audit and provide the department and the landlord representative with the opportunity to include written comments regarding the findings that must be included with the audit. The first audit of the department's data and expenditures will be for calendar year 2014 and is due July 1, 2015. Each audit thereafter will be due July 1st following the department's submission of the report to the legislature. If the independent audit finds that the department has failed to set aside at least forty-five percent of the funds received under RCW 36.22.179(1)(b) after June 12, 2014, for private rental housing payments, the independent auditor must notify the department and the office of financial management of its finding. (e) The office of financial management must contract with an independent auditor to conduct a performance audit of the programs funded by document recording surcharge funds collected pursuant to RCW 36.22.178, 36.22.179, and 36.22.179.1. The audit must provide findings to determine if the funds are being used effectively, efficiently, and for their intended purpose. The audit must review the department's performance in meeting all statutory requirements related to document recording surcharge funds including, but not limited to, the data the department collects, the timeliness and quality of required reports, and whether the data and required reports provide adequate information and accountability for the use of the document recording surcharge funds. The audit must include recommendations for policy and operational improvements to the use of document recording surcharges by counties and the department. The performance audit must be submitted to the legislature by December 1, 2016.

MOTION

Senator Wellman moved that the following committee striking amendment by the Committee on Ways & Means be adopted:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. (1) The legislature finds that students' unmet mental health needs pose barriers to learning and development, and ultimately student success in school. The legislature further finds that the need to identify and assist students struggling with emotional and mental health needs has reached a serious level statewide. In order to prioritize students' needs first, the legislature finds that the persons most qualified in the school setting to lead the effort in addressing this epidemic are the school counselor, school social worker, and school psychologist. The legislature further finds that the knowledge-levels and skill-levels of these nonacademic professionals must be increased in order to enhance mental health-related student support services.

(2) The legislature further finds that in chapter 175, Laws of 2007, appropriate acknowledgment was given to the fact that a professional school counselor is not just a course and career..."
guidance professional, but a certificated educator with unique qualifications and skills to address all students' academic, personal, social, and career development needs, and that school counselors serve a vital role in maximizing student achievement by supporting a safe learning environment and addressing the needs of all students through prevention and intervention programs that are part of a comprehensive school counseling program. The legislature finds, however, that despite the language in RCW 28A.410.043 that appropriately recognizes that the role of the school counselor is multifaceted, with a focus upon students' mental health needs as well as career guidance needs, the reality in the schools is that counselor staffing levels are well below the national recommendations of one counselor to every two hundred fifty students. As a result, there are not enough counselors in the schools and many school counselors have been tasked primarily with course and career guidance responsibilities at the expense of the mental health side of school counseling. Similarly, school psychologist staffing levels are below the national recommendations of one psychologist to every five hundred to seven hundred students when providing comprehensive school psychological services, and school social worker staffing levels are below the national recommendations of one school social worker to every two hundred fifty students, or one to every fifty students with intensive needs.

(3) The legislature further finds that school counselors, social workers, and psychologists interact with students on a daily basis, thus putting them in a good position to recognize the signs of emotional or behavioral distress and make appropriate referrals. The legislature finds that individuals entering these professions need proper preparation to respond to the mental health and safety needs of students. The legislature further finds that they need ongoing professional development to address students' mental health needs and get students the help they need. The legislature further finds that Engrossed Substitute House Bill No. 1336, which became chapter 197, Laws of 2013, increased the capacity of school districts and their personnel to recognize and respond to youth in need through comprehensive planning and additional training, but that additional opportunities for collaboration on a regular and ongoing basis are in order. By providing professional collaboration opportunities with local mental health service providers at the school district level to school counselors, social workers, and psychologists, the legislature intends to take the next step toward enabling these professionals to recognize and respond with skill and confidence to the signs of emotional or behavioral distress that they observe in students and make the appropriate referrals to evidence-based behavioral health services.

NEW SECTION. Sec. 2. A new section is added to chapter 28A.320 RCW to read as follows:

The school counselor works with developing and leading a comprehensive guidance and counseling program to focus on the academic, career, personal, and social needs of all students. School psychologists carry out special education evaluation duties, among other things. School social workers promote and support students' health, academic, and social success with counseling and support, and by providing and coordinating specialized services and resources. All of these professionals are also involved in multitiered systems of support for academic and behavioral skills. These professionals focus on student mental health, work with at-risk and marginalized students, perform risk assessments, and collaborate with mental health professionals to promote student achievement and create a safe learning environment. In order that school counselors, social workers, and psychologists have the time available to prioritize these functions, in addition to other activities requiring direct student contact, responsibilities such as data input and data tracking should be handled by nonlicensed, noncertified staff, where possible.

NEW SECTION. Sec. 3. A new section is added to chapter 28A.410 RCW to read as follows:

(1) A school psychologist is a professional educator who holds a valid school psychologist certification as defined by the professional educator standards board. Pursuant to the national association of school psychologists' model for comprehensive and integrated school psychological services, school psychologists deliver services across ten domains of practice. Two domains permeate all areas of service delivery: Data-based decision making; and consultation and collaboration. Five domains encompass direct and indirect services to children and their families: Student-level services, interventions, and instructional supports to develop academic skills; student-level interventions and mental health services to develop social and life skills; systems-level school-wide practices to promote learning; systems-level preventive and responsive services; and systems-level family school collaboration services. The three foundational domains include: Knowledge and skills related to diversity in development and learning; research and program evaluation; and legal and ethical practice.

(2) A school social worker is a professional in the fields of social work and education who holds a valid school social worker certification as defined by the professional educator standards board. The purpose and role of the school social worker is to provide an integral link between school, home, and community in helping students achieve academic and social success. This is accomplished by removing barriers and providing services that include: Mental health and academic counseling, support for students and parents, crisis prevention and intervention, professional case management, collaboration with other professionals, organizations, and community agencies, and advocacy for students and parents. School social workers work directly with school administrators as well as students and families, at various levels and as part of an interdisciplinary team in the educational system, including at the building, district, and state level. School social workers provide leadership and professional expertise regarding the formation of school discipline policies and procedures, and through school-based mental health services, crisis management, the implementation of social-emotional learning, and other support services that impact student academic and social-emotional success. School social workers also facilitate community involvement in the schools while advocating for student success.

NEW SECTION. Sec. 4. A new section is added to chapter 28A.320 RCW to read as follows:

(1) Within existing resources, beginning in the 2019-20 school year, first-class school districts must provide a minimum of six hours of professional collaboration per year, preferably in person, for school counselors, social workers, and psychologists that focuses on the following: Recognizing signs of emotional or behavioral distress in students, including but not limited to indicators of possible substance abuse, violence, and youth suicide, screening, accessing current resources, and making appropriate referrals. Teachers may also participate in this professional collaboration, as deemed appropriate and allowed by their building administrators. School districts that have mental health centers in their area shall collaborate with local licensed mental health service providers under chapter 71.24 RCW. Those districts without a mental health center in their area shall collaborate via telephone or other remote means that allow for dialogue and discussion. By collaborating with local providers in this manner, educational staff associates get to collaborate in short
but regular segments, in their own schools or near school district facilities, and school districts are not put in a position that they must obtain substitutes or otherwise expend additional funds. This local connection will also help foster a connection between school personnel and the mental health professionals in the community to whom school personnel may make referrals, in line with the legislative intent expressed throughout Engrossed Substitute House Bill No. 1336, chapter 197, Laws of 2013, to form partnerships with qualified health, mental health, and social services agencies in the community to coordinate and improve support for youth in need and the directive to the department of social and health services with respect to the provision of funds for mental health first-aid training targeted at teachers and educational staff.

(2) Second-class districts are encouraged, but not required, to collaborate and provide the professional collaboration as provided in subsection (1) of this section.

NEW SECTION. Sec. 5. (1) Subject to the availability of amounts appropriated for this specific purpose, the professional collaboration lighthouse grant program is established to assist school districts with early adoption and implementation of mental health professional collaboration time specified under section 4 of this act.

(2) The superintendent of public instruction shall designate at least two school districts as lighthouse school districts to serve as resources and examples of best practices in designing and operating a professional collaboration program for school counselors, school social workers, school psychologists, and local licensed mental health service providers. The program must focus on recognizing signs of emotional or behavioral distress in students, for example indicators of possible substance abuse, violence, and youth suicide, screening, accessing current resources, and making appropriate referrals.

(3) The superintendent shall award grants to:

(a) Each school district designated as a lighthouse district under subsection (2) of this section; and

(b) At least four school districts wishing to implement mental health professional collaboration time, as specified under section 4 of this act, in the 2018-19 school year. In awarding the grants, the superintendent must prioritize an even mix of rural school districts and urban or suburban school districts.

(4) Grant funds may be used for: Providing technical assistance to school districts implementing a professional collaboration program; designing and implementing a professional collaboration program; developing approaches for accessing resources external to a school district; collaborating with local licensed mental health service providers; identifying successful methods of communicating with students and parents; conducting site visits; and providing supplemental materials.

(5) This section expires August 1, 2020.

NEW SECTION. Sec. 6. This act does not create any civil liability on the part of the state or any state agency, officer, employee, agent, political subdivision, or school district.

On page 6, after line 9 of the title amendment, after "28A.410 RCW," insert "adding a new section to chapter 28A.210 RCW;"

"NEW SECTION. Sec. 1. It is the intent of the legislature that a regional transit authority receive additional approval from voters if the cost to complete a regional transit system plan approved by voters in 2016 increases beyond fifty-four billion dollars or any additions or subtractions of projects or significant project scope when compared to the system plan are made.

NEW SECTION. Sec. 2. A new section is added to chapter 81.112 RCW to read as follows:

(2) If the auditor hired under subsection (1) of this section determines remaining unspent funding elements are insufficient to complete the system plan as approved by the authority's voters in 2016, the authority must propose a ballot proposition to be submitted to the voters of the authority. The ballot proposition must seek approval for an authority to expend funds beyond those identified in the system plan as approved by the authority's voters in 2016. On page 1, line 10, after "(1)" strike "Before" and insert "Except as otherwise provided in this section, before"

On page 1, after line 20, insert the following:

"(3) A regional transit authority may contract with the department for the collection of a motor vehicle excise tax only if the authority has a directly elected board." 

On page 4, after line 34, insert the following:

"NEW SECTION. Sec. 7. A new section is added to chapter 81.112 RCW to read as follows:"

(1) A regional transit authority is governed by a board consisting of the secretary of the department of transportation, or his or her designee, who is a nonvoting member, and eleven directly elected nonpartisan members. One nonpartisan member must be elected from each of the eleven numbered districts in primary and general elections commencing with the elections held in 2018. Commencing with such elections, a person seeking election or serving on the board may not hold other public office and must be a registered voter residing in the relevant electoral district during the term in office and for a period from at least thirty days before filing a petition for candidacy.

(2) A five-member districting commission appointed by the governor must define the districts as soon as possible after the effective date of this section. Each commission member must reside in a different authority subarea. The districting commission has all reasonably necessary powers and must determine a reasonable budget, which must be funded upon its request, by an authority. The districting commission must promptly approve a plan for eleven numbered electoral districts in a service area, and publicize and file the plan with the county clerks of the counties within a service area. The plan must be drawn to ensure that the electoral districts: Have nearly equal populations in accordance with the one person, one vote principle; do not divide a precinct; are compact, convenient, and contiguous; do not exceed five electoral districts solely in one county; and minimize the number of districts that consist of portions of different counties or different authority subareas. An objection to the plan must commence within thirty days, and be heard within sixty days, of filing the plan.

(3) Upon certification of the 2018 general election, terms of office of an authority's board members expire, if any are existing on the effective date of this section, and the eleven elected nonpartisan members must take office. Each elected member must serve the remainder of 2018 plus an additional period of two or four years. Lots must be drawn to determine which six of the eleven elected members must serve an additional four years, and which five of the eleven elected members must serve an additional two years. All successors elected in subsequent elections in odd-numbered years must have terms of office for four years, commencing January 1st after the election.

(4) An authority's board positions become vacant upon failure to maintain residence or other qualification, recall, death, resignation, or adjudication of permanent disability. The nonpartisan vacancy must be filled as provided in chapter 42.12 RCW. The appointed temporary member must serve until a successor for the remainder of the vacated term is chosen in the next primary and general election.

(5) Local jurisdiction expenditures incurred through administering the election of the authority's board members must be reimbursed by the authority.

(6) Every decade, after the release of federal census information, the governor must appoint a new districting commission in accordance with subsection (2) of this section. The commission must operate in accordance with the standards provided in subsection (2) of this section and prepare a timetable for transition to any new districts.

(7) To allow staggered terms after a redistricting, a board member who has an uncompleted four-year term and no longer resides in his or her prior district solely due to redistricting must serve the remainder of the four-year term.

(8) Major decisions of the authority require a favorable vote of two-thirds of the entire membership. "Major decisions" include at least the following: System plan adoption and amendment, system phasing decisions, annual budget adoption, authorization of annexations, modification of board composition, and executive director employment.

(9) Each member of the board is eligible to be reimbursed for travel expenses in accordance with RCW 43.03.050 and 43.03.060 and to receive compensation up to ten thousand dollars per year.

Sec. 8. RCW 81.112.010 and 1992 c 101 s 1 are each amended to read as follows:

The legislature recognizes that existing transportation facilities in the central Puget Sound area are inadequate to address mobility needs of the area. The geography of the region, travel demand growth, and public resistance to new roadways combine to further necessitate the rapid development of alternative modes of travel.

The legislature finds that local governments have been effective in cooperatively planning a multicounty, high capacity transportation system. However, a continued multijurisdictional approach to funding, construction, and operation of a multicounty high capacity transportation system may impair the successful implementation of such a system.

The legislature finds that a single agency will be more effective than several local jurisdictions working collectively at planning, developing, operating, and funding a high capacity transportation system. The single agency's services must be carefully integrated
and coordinated with public transportation services currently provided. As the single agency’s services are established, any public transportation services currently provided that are duplicative should be eliminated. Further, the single agency must coordinate its activities with other agencies providing local and state roadway services, implementing comprehensive planning, and implementing transportation demand management programs and assist in developing infrastructure to support high capacity systems including but not limited to feeder systems, park and ride facilities, intermodal centers, and related roadway and operational facilities. Because the legislature finds a need to ensure that the single agency is accountable to the people, coordination can be best achieved through (common governance, such as integrated governing boards) direct election of board members.

It is therefore the policy of the state of Washington to empower counties in the state’s most populous region to create a local agency for planning and implementing a high capacity transportation system within that region. The authorization for such an agency, except as specifically provided in this chapter, is not intended to limit the powers of existing transit agencies.

Sec. 9. RCW 81.112.030 and 2007 c 509 s 3 are each amended to read as follows:

Two or more contiguous counties each having a population of four hundred thousand persons or more may establish a regional transit authority to develop and operate a high capacity transportation system as defined in chapter 81.104 RCW.

The authority shall be formed in the following manner:

1) The joint regional policy committee created pursuant to RCW 81.104.040 shall adopt a system and financing plan, including the definition of the service area. This action shall be completed by September 1, 1992, contingent upon satisfactory completion of the planning process defined in RCW 81.104.100. The final system plan shall be adopted no later than June 30, 1993. In addition to the requirements of RCW 81.104.100, the plan for the proposed system shall provide explicitly for a minimum portion of new tax revenues to be allocated to local transit agencies for interim express services. Upon adoption the joint regional policy committee shall immediately transmit the plan to the county legislative authorities within the adopted service area.

2) The legislative authorities of the counties within the service area shall decide by resolution whether to participate in the authority. This action shall be completed within forty-five days following receipt of the adopted plan or by August 13, 1993, whichever comes first.

3) Each county that chooses to participate in the authority shall appoint its board members as set forth in RCW 81.112.040, and shall submit its list of members to the secretary of the Washington state department of transportation. These actions must be completed within thirty days following each county’s decision to participate in the authority.

4) The secretary shall call the first meeting of the authority, to be held within thirty days following receipt of the (appointments) names of the elected board members. At its first meeting, the authority shall elect officers and provide for the adoption of rules and other operating procedures.

4a) The authority is formally constituted at its first meeting and the board shall begin taking steps toward implementation of the system and financing plan adopted by the joint regional policy committee. If the joint regional policy committee fails to adopt a plan by June 30, 1993, the authority shall proceed to do so based on the work completed by that date by the joint regional policy committee. Upon formation of the authority, the joint regional policy committee shall cease to exist. The authority may make minor modifications to the plan as deemed necessary and shall at a minimum review local transit agencies’ plans to ensure feeder service/high capacity transit service integration, ensure fare integration, and ensure avoidance of parallel competitive services. The authority shall also conduct a minimum thirty-day public comment period.

4b) If the authority determines that major modifications to the plan are necessary before the initial ballot proposition is submitted to the voters, the authority may make those modifications with a favorable vote of two-thirds of the entire membership. Any such modification shall be subject to the review process set forth in RCW 81.104.110. The modified plan shall be transmitted to the legislative authorities of the participating counties. The legislative authorities shall have forty-five days following receipt to act by motion or ordinance to confirm or rescind their continued participation in the authority.

4c) If any county opts to not participate in the authority, but two or more contiguous counties do choose to continue to participate, the authority’s board shall be revised accordingly. The authority shall, within forty-five days, redefine the system and financing plan to reflect elimination of one or more counties, and submit the redefined plan to the legislative authorities of the remaining counties for their decision as to whether to continue to participate. This action shall be completed within forty-five days following receipt of the redefined plan.

5) The authority shall place on the ballot within two years of the authority’s formation, a single ballot proposition to authorize the imposition of taxes to support the implementation of an appropriate phase of the plan within its service area. In addition to the system plan requirements contained in RCW 81.104.100(2)(d), the system plan approved by the authority’s board before the submittal of a proposition to the voters shall contain an equity element which:

(a) Identifies revenues anticipated to be generated by corridor and by county within the authority’s boundaries;

(b) Identifies the phasing of construction and operation of high capacity system facilities, services, and benefits in each corridor. Phasing decisions should give priority to jurisdictions which have adopted transit-supportive land use plans; and

(c) Identifies the degree to which revenues generated within each county will benefit the residents of that county, and identifies when such benefits will accrue.

A simple majority of those voting within the boundaries of the authority is required for approval. If the vote is affirmative, the authority shall begin implementation of the projects identified in the proposition. However, the authority may not submit any authorizing proposition for voter-approved taxes prior to July 1, 1993; nor may the authority issue bonds or form any local improvement district prior to July 1, 1993.

6) If the vote on a proposition fails, the board may redefine the proposition, make changes to the authority boundaries, and make corresponding changes to the composition of the board subject to section 7 of this act. The composition of the board is changed, the participating counties shall revise the membership of the board (accordingly) subject to section 7 of this act. The board may then submit the revised proposition or a different proposition to the voters. No single proposition may be submitted to the voters more than twice. Beginning no sooner than the 2007 general election, the authority may place additional propositions on the ballot to impose taxes to support additional phases of plan implementation.

7) At the 2007 general election, the authority shall submit a proposition to support a system and financing plan or additional implementation phases of the authority’s system and financing plan as part of a single ballot proposition that includes a plan to support a regional transportation investment plan developed under chapter 36.120 RCW. The authority’s plan shall
not be considered approved unless both a majority of the persons voting on the proposition residing within the authority vote in favor of the proposition and a majority of the persons voting on the proposition residing within the proposed regional transportation investment district vote in favor of the proposition.

(44) 10 Additional phases of plan implementation may include a transportation subarea equity element which (a) identifies the combined authority and regional transportation investment district revenues anticipated to be generated by corridor and by county within the authority's boundaries, and (b) identifies the degree to which the combined authority and regional transportation investment district revenues generated within each county will benefit the residents of that county, and identifies when such benefits will accrue. For purposes of the transportation subarea equity principle established under this subsection, the authority may use the five subareas within the authority's boundaries as identified in the authority's system plan adopted in May 1996.

(44) (11) If the authority is unable to achieve a positive vote on a proposition within two years from the date of the first election on a proposition, the board may, by resolution, reconstitute the authority as a single-county body. With a two-thirds vote of the entire membership of the voting members, the board may also dissolve the authority.

NEW SECTION. Sec. 10. RCW 81.112.040 (Board appointments—Voting—Expenses) and 1994 c 109 s 1 & 1992 c 101 s 4 are each repealed.

NEW SECTION. Sec. 11. This act is remedial in nature and applies to all regional transit authorities established before or after the effective date of this section.

NEW SECTION. Sec. 12. Section 10 of this act takes effect upon certification of the 2018 general election results as described under section 7(3) of this act.

POINT OF ORDER

Senator Schoesler: “Mr. President, there was clearly a call for a division. You did not recognize it. Please, Mr. President, there was a call for division.”

REPLY BY THE PRESIDENT

President Habib: “Senator Schoesler, I am telling you that the President heard the call for division. It was made once the ruling had already been made that the amendment had not been adopted. Had anybody said, when the no votes were cast, or when the yea votes were cast, at that time, ‘division’ then the President would have, one hundred percent, have accommodated that request. And, in fact, I have even done that with roll call votes that have come tardy, at that late point. I would have been glad to do that. The division call came after the President had announced the amendment was not adopted and the gavel was coming down and that is too late to make that. So, in the future, I would ask members, if you are concerned, then the time to do that is right when the voting is happening, if it is unclear.”

Senator Schoesler: “Mr. President, your gavel has to hit. I believe, perhaps, your hearing may be impaired tonight.”

President Habib: “Well, alright. I will take that challenge Senator Schoesler. In the meantime we are going to continue with the debate of these amendments.”

(3) Property taxes imposed under this section may be imposed for the period of time required to pay the cost to plan, design, construct, operate, and maintain the transit facilities set forth in the approved proposition. Property taxes pledged to repay bonds may be imposed at the pledged amount until the bonds are retired. After the bonds are retired, property taxes authorized under this section must be:
(a) Reduced to the level required to operate and maintain the regional transit authority's transit facilities; or

(1) Except as otherwise provided in this section, before a local government subject to this chapter may impose a motor vehicle excise tax, the local government must contract with the department for the collection of the tax. The department may charge a reasonable amount, not to exceed one percent of tax collections, for the administration and collection of the tax.

(2) A regional transit authority may contract with the department for the collection of a motor vehicle excise tax only if the authority has implemented a market value adjustment program as directed in section 2 of this act.

(3) Any contract entered into under this section must provide that the department receives amounts sufficient to fully cover the costs applicable to the tax collection and market value adjustment process, including (a) customer service-related costs, (b) information technology-related costs, (c) public announcement and education costs, and (d) any liability or other related risk assessment costs. The contract must also provide that any unforeseen future administrative costs are borne by the regional transit authority.

(4) If the department enters into a contract with a regional transit authority for the collection of a motor vehicle excise tax authorized in RCW 81.104.160(1) and, after the regional transit authority implements a market value adjustment program as directed in section 2 of this act, the department must clearly indicate, when notifying taxpayers of the expected tax due and when collecting the tax: The amount of tax owed under current law, the amount of any credit applied, and the net result.

NEW SECTION. Sec. 2. A new section is added to chapter 81.112 RCW to read as follows:

(1) A regional transit authority that includes portions of a county with a population of more than one million five hundred thousand and that imposes a motor vehicle excise tax under RCW 81.104.160(1) must establish a market value adjustment program to be implemented by December 31, 2018.

(2) Under the market value adjustment program, the authority must provide a credit against the total motor vehicle excise tax due in an amount equal to the tax due calculated using the vehicle valuation schedule in effect on the effective date of this section, less an amount calculated using an assumed motor vehicle excise tax of 0.5 percent and the value of a motor vehicle based on base model Kelley blue book values or national automobile dealers association values, whichever is lower, if the resulting difference is positive.

(3) Except for the property tax authorized in RCW 81.104.175 and for project schedule adjustments, the program may be funded by any resources available to the authority.

(4) The program must provide credit retroactive to the date that the authority first imposed the tax under RCW 81.104.160(1). The authority, in consultation with the department of licensing, must develop a system to issue refunds of credits with respect to vehicles for which the registrations were renewed before January 1, 2019.

(5) The program must be implemented in a manner that allows the delivery of the system and financing plan approved by the authority's voters in 2017 to the extent practicable. Building on past and ongoing cost-savings efforts, the agency must continue to evaluate measures that may be needed to reduce costs. These measures include, but are not limited to:

(a) Designing projects using the principles of practical design, as described for use by the department of transportation under RCW 47.01.480;

(b) Efficiencies realized in coordinating and integrating activities with other transit agencies and local governments, including through shared maintenance and operations, joint procurement, joint marketing, joint customer services, and joint capital projects; and

(c) Revising project contingency budgets, if practicable.

(6) Until the plan has been completed, the authority must submit, in compliance with RCW 43.01.036, an annual report to the transportation committees of the legislature by December 31st of each year on the status of the delivery of the plan. The report must include detail on the extent to and manner in which the authority has used cost savings to maintain the delivery of the plan as approved by the voters.

NEW SECTION. Sec. 3. This act must be construed to preclude a regional transit authority from defeasing any outstanding bond obligations.

NEW SECTION. Sec. 4. Section 2 of this act applies to vehicle registrations that are due or become due on or after January 1, 2019.
NEW SECTION. Sec. 5. This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect immediately."

(b) The president of the senate shall appoint two interested members from each of the two largest caucuses of the senate. The speaker of the house of representatives shall appoint two interested members from each of the two largest caucuses of the house of representatives.

(c) The commission may invite additional participation on an ongoing, recurring, or one-time basis from individuals representing additional state agencies, local and regional governments, local law enforcement agencies, transit authorities, state colleges and universities, autonomous vehicle technology developers, motor vehicle manufacturers, insurance associations, network providers, software development companies, and other relevant stakeholders as appropriate.

(2) To prepare for the use of autonomous vehicle technology in the state, the work group, while taking into account the transportation system policy goals established in RCW 47.04.280(1), must:

(a) Follow developments in autonomous vehicle technology, autonomous vehicle deployment, and federal, state, and local policies that relate to the operation of autonomous vehicles, including the federal government's recommendations related to vehicle performance guidance for autonomous vehicles, model state policy, and current and possible federal regulatory tools for the regulation of autonomous vehicles. The scope of the work must include autonomous commercial vehicles, in addition to autonomous passenger vehicles;

(b) Explore approaches to the modification of state policy, rules, and laws to further public safety and prepare the state for the emergence and deployment of autonomous vehicle technology. Areas for consideration may include, but are not limited to, manufacturer vehicle testing, vehicle registration and titling requirements, driver's license requirements, rules of the road, criminal law, roadway infrastructure, traffic management, transit, vehicle insurance, tort liability, cybersecurity, privacy, advertising, impacts to social services, and impacts to labor and small businesses;

(c) Disseminate information, as appropriate, to all interested stakeholders; and

(d) At the direction of the legislature, engage the public through surveys, focus groups, and other such means, in order to inform policymakers for the purposes of policy development.

(3)(a) The commission must develop and update recommendations annually based on the input provided by the work group. By November 15th of each year, the commission must provide a report to the governor and the relevant committees of the legislature that describes the progress made by the work group and the commission's recommendations.

(b) The recommendations made by the commission may include proposed modifications to state law and rules to address the emergence and deployment of autonomous vehicle technology in the state.

NEW SECTION. Sec. 2. Sections 1 and 3 of this act expire December 31, 2023.
NEW SECTION. Sec. 3. The legislature finds that autonomous vehicle technology is rapidly evolving and that the testing and deployment of this technology is advancing at a rapid pace. Washington state's policies, laws, and rules predate autonomous vehicle technology and largely have not been developed in consideration of the operation of this technology on roadways in the state. At both the federal and state level, efforts are underway to begin to establish a framework of policy guidance, laws, and rules that will organize and govern the use of autonomous vehicle technology in the United States. The legislature finds that establishing an autonomous vehicle work group, to be convened by the transportation commission, will facilitate state efforts to address the emergence of autonomous vehicle technology. It is the intent of the legislature for the transportation commission to develop recommendations for policy, laws, and rules for the operation of autonomous vehicles, with input from the autonomous vehicle work group, that enable Washington state to address the public policy changes necessitated by the emergence of this technology in an informed, thorough, and deliberate manner. This effort is required because robot cars are coming, but robot policy makers are not."

and sergeants ((as of July 1, 2016)) must be competitive with law
enforcement agencies within the boundaries of the state of
Washington, guided by the results of a survey undertaken in the
collective bargaining process during ((2016)) each biennium. The
salary levels ((as of July 1, 2017)) must be guided by the average
of compensation paid to the corresponding rank from the Seattle
county sheriff's office, Tacoma police
department, Snohomish county sheriff's office, Spokane police
department, and Vancouver police department. Compensation
must be calculated using base salary, premium pay (a pay
received by more than a majority of employees), education pay,
and longevity pay. The compensation comparison data is based
on the Washington state patrol and the law enforcement agencies
listed in this section ((as of July 1, 2016)). Increases in salary
levels for captains and lieutenants that are collectively bargained
must be proportionate to the increases in salaries for troopers and

in this section, the office of financial management must report to
the governor and transportation committees of the legislature on

SECOND READING

SUBSTITUTE HOUSE BILL NO. 2612, by House Committee on Transportation (originally sponsored by Representatives Condotta and Steele)

Concerning tow truck operators.

The measure was read the second time.

MOTION

Senator Hobbs moved that the following committee striking amendment by the Committee on Transportation be adopted:

"NEW SECTION. Sec. 1. (1) The legislature finds that efficiency and public safety is served by consolidating the multiple license plates currently required on the vehicles of registered tow truck operators. These registered tow truck operators currently have up to four separate license plates that are required to be displayed on the vehicle at all times. The operators have the highest training and qualifications of any towing operators in Washington state.

(2) The legislature further finds that a single unified license plate with separate endorsement tabs prevents confusion and allows for easy identification and review of tow trucks by law enforcement and the motoring public. The unified license plate also saves resources by reducing the need for license plate production and reduces fraud by limiting access to these commercial license plates.

(3) A unified license plate for registered tow truck operators serves the purposes of Washington residents, the motoring public, and law enforcement, and saves money as well.

NEW SECTION. Sec. 2. A new section is added to chapter 46.55 RCW to read as follows:

(1) If a tow truck, the registered owner of which is a registered tow truck operator, is to conduct transporter business under chapter 46.76 RCW, the license plate that is required to be displayed under RCW 46.16A.030 must contain an indicator tab that the vehicle is licensed to perform transporter services. The fee for an original transporter's license plate indicator tab for a tow truck, the registered owner of which is a registered tow truck operator, is twenty-five dollars. Vehicles that are used to conduct transporter business and are not owned by a registered tow truck operator must follow the requirements of chapter 46.76 RCW.

(2) If a tow truck, the registered owner of which is a registered tow truck operator, is used for a hulk hauler or scrap processor business under chapter 46.79 RCW, the license plate that is required under RCW 46.16A.030 must contain an indicator tab that the vehicle is licensed to perform hulk hauler or scrap processor purposes under the laws of the state of Washington. The fee for a hulk hauler or scrap processor business license plate indicator tab is five dollars for the original tab and two dollars for each additional tab. Vehicles that are used to conduct hulk hauler or scrap processor business and are not owned by a registered tow truck operator must follow the requirements of chapter 46.79 RCW.

(3) If a tow truck, the registered owner of which is a registered tow truck operator, is used for a wrecker business under chapter 46.80 RCW, the license plate displayed that is required under RCW 46.16A.030 must contain an indicator tab that the vehicle is licensed to perform wrecker services. The fee for a wrecker license plate indicator tab is five dollars for the original tab and two dollars for each additional tab. Vehicles that are used to conduct wrecker business and are not owned by a registered tow truck operator must follow the requirements of chapter 46.80 RCW.

(4)(a) The license plate indicator tabs must:

(i) Affix to the license plate required to be displayed under RCW 46.16A.030;
Upon receiving an application for transporter's license the director, if satisfied that the applicant is entitled thereto, shall issue a proper certificate of license registration and a distinctive director, if satisfied that the applicant is entitled thereto, shall be approved by the department.

Sec. 3. RCW 46.76.030 and 1967 c 32 s 92 are each amended to read as follows:

Transporter's license plates or indicator tabs pursuant to section 2 of this act shall be conspicuously displayed on all vehicles being delivered by the driveaway or towaway methods. These plates or indicator tabs shall not be loaned to or used by any person other than the holder of the license or his or her employees.

(4) Using transporter plates or indicator tabs for any purpose other than as provided under RCW 46.76.010; or

(5) Violation of provisions of this chapter or of rules and regulations adopted relating to enforcement and proper operation of this chapter.

Sec. 5. RCW 46.76.065 and 1977 ex.s. c 254 s 1 are each amended to read as follows:

Persons or organizations that do not have a valid permit or meet other requirements under chapter 81.80 RCW shall not be issued a transporter license or transporter plates or an indicator tab pursuant to section 2 of this act to transport mobile homes or other vehicles. RCW 46.76.065(5) applies to persons or organizations that have transporter licenses or plates or indicator tabs and do not meet the requirements of chapter 81.80 RCW.

Sec. 7. RCW 46.76.080 and 1979 ex.s. c 136 s 96 are each amended to read as follows:

The violation of any provision of this chapter is a traffic infraction. In addition to any other penalty imposed upon a violator of the provisions of this chapter, the director may confiscate any transporter license plates or indicator tabs used in connection with such violation.

Sec. 8. RCW 46.79.060 and 2010 c 8 s 9096 are each amended to read as follows:

The vehicle wrecker shall obtain a special set of license plates or an indicator tab pursuant to section 2 of this act in addition to the regular licenses and plates required for the operation of vehicles owned and/or operated by him or her and used in the conduct of his or her business. Regarding a curriculum for the prevention of sexual abuse of students.

The measure was read the second time.

MOTION

Senator Wellman moved that the following committee striking amendment by the Committee on Ways & Means be adopted:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. (1) The legislature recognizes that every child should experience emotional and physical development that is free from abuse and neglect. In 2015, Washington child protective services received reports screened in for investigation that alleged the sexual abuse or sexual exploitation, or both, of two thousand six hundred three children. Further, the legislature finds that most sexual assaults are unreported. The legislature also finds that a clear relationship exists between youth victimization and mental health problems and delinquent behavior.

(2) The legislature finds that thirty-one states have enacted Erin's laws. Erin's laws, named in honor of a childhood sexual assault survivor, are intended to help children, teachers, and parents identify sexual abuse, and to provide assistance, referral, or resource information for children and families who are victims of child sexual abuse. The legislation adopted in these states requires the study or development of age-appropriate child sexual abuse identification and prevention.

(3) The legislature finds that the federal every student succeeds act, P.L. 114-95, as signed into law by President Barack Obama on December 10, 2015, provides federal funding that can be used for the implementation of programs established in accordance with Erin's laws.

(4) The legislature, therefore, intends to incorporate curriculum for the prevention of sexual abuse of students in kindergarten through twelfth grade, such as Erin's law, into an existing statewide coordinated program for the prevention of child abuse and neglect.

Sec. 2. RCW 28A.300.150 and 2006 c 263 s 705 are each amended to read as follows:

(1) The superintendent of public instruction shall collect and disseminate to school districts information on and curricula for the coordinated program for the prevention of sexual abuse of students in kindergarten through twelfth grade, child abuse, and neglect ("prevention curriculum and") established in RCW 28A.300.160. The superintendent shall also adopt rules ("dealing with") addressing the prevention of sexual abuse of students in kindergarten through twelfth grade and child abuse for purposes of ("curriculum used") curricula used in ("the common") public schools.

(2) Effective July 1, 2018, the superintendent of public instruction and the ("departments of social and health services and community, trade, and economic development") department of children, youth, and families shall share relevant information in furtherance of this section.

(3) Subject to the availability of amounts appropriated for this specific purpose, the superintendent of public instruction must review any existing curricula related to the prevention of sexual abuse of students in kindergarten through twelfth grade. The review required by this subsection must evaluate the curricula for alignment with the provisions of RCW 28A.300.160(2).

Sec. 3. RCW 28A.300.160 and 1995 c 399 s 21 are each amended to read as follows:

(v) The center for children and youth justice;

(ix) Other relevant organizations.

(2) In developing the program, consideration shall be given to the following:

(iii) Appropriate to the geographic area served; and
(iv) Designed to help counteract common stereotypes about the sexual abuse of students in kindergarten through twelfth grade, child abuse victims, and offenders;

(b) Training for school-age children's parents and school staff, which includes:
(i) Physical and behavioral indicators of abuse;
(ii) Crisis counseling techniques;

SECOND READING

SUBSTITUTE HOUSE BILL NO. 2748, by House Committee on Education (originally sponsored by Representatives Santos, Stonier, Muri and Pollet)

Modifying the learning assistance program.

The measure was read the second time.

MOTION

Senator Wellman moved that the following committee striking amendment by the Committee on Early Learning & K-12 Education be adopted:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature acknowledges that the learning assistance program was developed to provide supplemental services for public school students who are not meeting academic standards. Initially, school districts were allowed to use learning assistance program funds in a flexible manner to support participating students. Over time, the legislature restricted and established priorities for the use of learning assistance program funds. The legislature finds that it is time to restore the flexibility of learning assistance program funds; however, local control must be balanced with local accountability for improvement in student academic achievement.

Sec. 2. RCW 28A.165.055 and 2017 3rd sp.s. c 13 s 405 are each amended to read as follows:

(1) While the state allocations for the learning assistance program under this chapter are intended to be flexible dollars within the control of the public school and school district, this local control must be balanced with local accountability for improvement in student achievement.

(2) The funds for the learning assistance program shall be appropriated in accordance with RCW 28A.150.260 and the omnibus appropriations act. The distribution formula is for school district allocation purposes only, except as provided in RCW 28A.150.260(10)(a)(ii), but all funds appropriated for the learning assistance program must be expended for the purposes of RCW 28A.165.005 through 28A.165.005.

Sec. 3. RCW 28A.165.005 and 2017 3rd sp.s. c 13 s 403 are each amended to read as follows:

(1) This chapter is designed to: (a) Promote the use of data when developing programs to assist students who are not meeting academic standards; and (b) guide school districts in providing the most effective and efficient practices when implementing supplemental instruction and services to assist students who are not meeting academic standards.

(2) School districts implementing a learning assistance program shall emphasize addressing the needs of students in grades kindergarten through four who are deficient in reading or reading readiness skills to improve reading literacy.

Sec. 4. RCW 28A.165.035 and 2016 c 72 s 803 are each amended to read as follows:

(1) Use of best practices that have been demonstrated through research to be associated with increased student achievement magnifies the opportunities for student success. ((To the extent they are included as a best practice or strategy in one of the state menus or an approved alternative under this section or RCW 28A.655.235.))

The office of the superintendent of public instruction shall publish the best practices and strategies by July 1, 2018, and update this publication by each July 1st thereafter.

(2) The following are services and activities that may be supported by the learning assistance program:

(a) Extended learning time opportunities occurring:

(i) Before or after the regular school day;

(ii) On Saturday; and

(iii) Beyond the regular school year;

(b) Services under RCW 28A.320.190;

(c) Intensive reading and literacy improvement strategies under RCW 28A.655.235;

(d) Professional development for certificated and classified staff that focuses on:

(i) The needs of a diverse student population;

(ii) Specific literacy and mathematics content and instructional strategies, and

(iii) The use of student work to guide effective instruction and appropriate assistance;

(e) Outreach activities and support for parents of participating students, including employing parent and family engagement coordinators; and

(f) Up to five percent of a district's learning assistance program allocation may be used for development of partnerships with community-based organizations, educational service districts, and other local agencies to deliver academic and nonacademic supports to participating students who are significantly at risk of not being successful in school to reduce barriers to learning, increase student engagement, and enhance students' readiness to learn. The school board must approve in an open meeting any community-based organization or local agency before learning assistance funds may be expended for partnerships.

(3) The office of the superintendent of public instruction shall convene a panel of experts((including the Washington state institute for public policy)) to develop additional (state menus of) best practices and strategies for use in the learning assistance program to assist struggling students at all grade levels in English language arts and mathematics ((and reduce disruptive behaviors in the classroom)).

The panel may consider ways to integrate student supports to promote students' academic success.

The office of the superintendent of public instruction shall publish the ((state menus)) best practices by July 1, 2015, and update the ((state menus)) best practices by each July 1st thereafter.

(3)(a) Beginning in the 2016-17 school year, except as provided in (b) of this subsection, school districts must use a
practice or strategy that is on a state menu developed under subsection (2) of this section or RCW 28A.655.235.

(b) Beginning in the 2016-17 school year, school districts may use a practice or strategy that is not on a state menu developed under subsection (2) of this section for two school years initially. If the district is able to demonstrate improved outcomes for participating students over the previous two school years at a level commensurate with the best practices and strategies on the state menu, the office of the superintendent of public instruction shall approve use of the alternative practice or strategy by the district for one additional school year. Subsequent annual approval by the superintendent of public instruction to use the alternative practice or strategy is dependent on the district continuing to demonstrate increased improved outcomes for participating students.

(c) Beginning in the 2016-17 school year, school districts may enter cooperative agreements with state agencies, local governments, or school districts for administrative or operational costs needed to provide services in accordance with the state menu developed under this section and RCW 28A.655.235.

(4) School districts are encouraged to implement the best practices and strategies ((from the state menu)) developed under this section (and RCW 28A.655.235 before the use is required).

Sec. 5. RCW 28A.165.100 and 2013 2nd sp.s. c 18 s 204 are each amended to read as follows:

(1) Beginning with the 2014-15 school year, school districts shall record in the statewide individual student data system annual entrance and exit performance data for each student participating in the learning assistance program according to specifications established by the office of the superintendent of public instruction.

(2) By August 1, 2014, and each August 1st thereafter, school districts shall report to the office of the superintendent of public instruction, using a common format prepared by the office:

(a) The amount of academic growth gained by students participating in the learning assistance program;

(b) The number of students who gain at least one year of academic growth; (and)

(c) The specific practices, activities, and programs used by each school building that received learning assistance program funding; and

(d) Other data required by the office of the superintendent of public instruction to demonstrate the efficacy of the learning assistance program expenditures to show student academic growth gains.

(3) Beginning November 1, 2018, and each November 1st thereafter, the office of the superintendent of public instruction shall compile the school district data reported as required by subsection (2) of this section, and report, in compliance with RCW 43.01.036, to the appropriate committees of the legislature with the annual and longitudinal gains for the specific practices, activities, and programs used by the school districts to show which are the most effective. The data must be disaggregated by student subgroups.

Sec. 6. RCW 28A.710.280 and 2016 c 241 s 128 are each amended to read as follows:

(1) The legislature intends that state funding for charter schools be distributed equitably with state funding provided for other public schools.

(2) For eligible students enrolled in a charter school established and operating in accordance with this chapter, the superintendent of public instruction shall transmit to each charter school an amount calculated as provided in this section and based on the statewide average staff mix factor for certificated instructional staff, including any enrichment to those statutory formulae that is specified in the omnibus appropriations act. The amount must be the sum of (a) and (b) of this subsection, as applicable.

(a) The superintendent shall, for purposes of making distributions under this section, separately calculate and distribute to charter schools moneys appropriated for general apportionment under the same ratios as in RCW 28A.150.260.

(b) The superintendent also shall, for purposes of making distributions under this section, and in accordance with the applicable formulae for categorical programs specified in (b)(i) through (v) of this subsection (2) and any enrichment to those statutory formulae that is specified in the omnibus appropriations act, separately calculate and distribute moneys appropriated by the legislature to charter schools for:

(i) Supplemental instruction and services for (underachieving) students who are not meeting academic standards through the learning assistance program under RCW 28A.165.005 through 28A.165.065;

(v) Pupil transportation services to and from school in accordance with RCW 28A.160.150 through 28A.160.180. Distributions for pupil transportation must be calculated on a per eligible student basis based on the allocation for the previous school year to the school district in which the charter school is located.

(3) The superintendent of public instruction must adopt rules necessary for the distribution of funding required by this section and to comply with federal reporting requirements.

Sec. 7. RCW 28A.300.139 and 2016 c 72 s 801 are each amended to read as follows:

(1) Subject to the availability of amounts appropriated for this specific purpose, the Washington integrated student supports protocol is established. The protocol shall be developed by the center for the improvement of student learning, established in RCW 28A.300.130, based on the framework described in this section. The purposes of the protocol include:

(a) Supporting a school-based approach to promoting the success of all students by coordinating academic and nonacademic supports to reduce barriers to academic achievement and educational attainment;

(b) Fulfilling a vision of public education where educators focus on education, students focus on learning, and auxiliary supports enable teaching and learning to occur unimpeded;

(c) Encouraging the creation, expansion, and quality improvement of community-based supports that can be integrated into the academic environment of schools and school districts;

(d) Increasing public awareness of the evidence showing that academic outcomes are a result of both academic and nonacademic factors; and

(2)(a) The Washington integrated student supports protocol must be sufficiently flexible to adapt to the unique needs of schools and districts across the state, yet sufficiently structured to
provide all students with the individual support they need for academic success.

(b) The essential framework of the Washington integrated student supports protocol includes:

(i) Needs assessments: A system-level needs assessment with resource mapping must be conducted in order to identify academic and nonacademic supports that are currently available or lacking in schools, school districts, and the community. A needs assessment must be conducted for all at-risk students in order to develop or identify the needed academic and nonacademic supports within the students' school and community. These supports must be coordinated to provide students with a package of mutually reinforcing supports designed to meet the individual needs of each student.

(ii) Integration and coordination: The school and district leadership and staff must develop close relationships with providers of academic and nonacademic supports to enhance the effectiveness of the protocol.

(iii) Community partnerships: Community partners must be engaged to provide nonacademic supports to reduce barriers to students' academic success, including supports to students' families.

(iv) Data driven: Students' needs and outcomes must be tracked over time to determine student progress and evolving needs.

(c) The framework must facilitate the ability of any academic or nonacademic provider to support the needs of at-risk students, including, but not limited to: Out-of-school providers, social workers, mental health counselors, physicians, dentists, speech therapists, and audiologists.

Sec. 8. RCW 28A.320.190 and 2009 c 578 s 2 are each amended to read as follows:

(2) Under the extended learning opportunities program and to the extent funds are available for that purpose, districts shall make available to students in grade twelve who have failed to meet one or more local or state graduation requirements the option of continuing enrollment in the school district in accordance with RCW 28A.225.160. Districts are authorized to use basic education program funding to provide instruction to eligible students under RCW 28A.150.220((4)) (5).

(3) Under the extended learning opportunities program, instructional services for eligible students can occur during the regular school day, evenings, on weekends, or at a time and location deemed appropriate by the school district, including the educational service district, in order to meet the needs of these students. Instructional services provided under this section do not include services offered at private schools. Instructional services can include, but are not limited to, the following:

Concerning authorizations of proposals for emergency medical care and service levies.

The measure was read the second time.

MOTION

Senator Liias moved that the following committee striking amendment by the Committee on Ways & Means be adopted:
Strike everything after the enacting clause and insert the following:

"Sec. 1. RCW 84.52.069 and 2012 c 115 s 1 are each amended to read as follows:

1. As used in this section, "taxing district" means a county, emergency medical service district, city or town, public hospital district, urban emergency medical service district, regional fire protection service authority, or fire protection district.

2. Except as provided in subsection (10) of this section, a taxing district may impose additional property tax levies on property located within its boundaries in an amount equal to fifty cents or less per thousand dollars of the assessed value of property in the taxing district. The tax is imposed (a) each year for six consecutive years, (b) each year for ten consecutive years, or (c) permanently. Except as otherwise provided in this subsection, a permanent tax levy under this section, or the initial imposition of a six-year or ten-year levy under this section, must be specifically authorized by a majority of at least three-fifths of the registered voters thereof approving a proposition authorizing the levies submitted at a general or special election, at which election the number of persons voting "yes" on the proposition ((shall)) must constitute three-fifths of a number equal to forty percent of the total number of voters voting in such taxing district at the last preceding general election when the number of registered voters voting on the proposition does not exceed forty percent of the total number of voters voting in such taxing district in the last preceding general election; or by a majority of at least three-fifths of the registered voters thereof voting on the proposition when the number of registered voters voting on the proposition exceeds forty percent of the total number of voters voting in such taxing district in the last preceding general election. The ((uninterrupted continuation)) subsequent approval of a six-year or ten-year tax levy under this section must be specifically authorized by a majority of the registered voters thereof approving a proposition authorizing the levies submitted at a general or special election. If the entire region comprising a newly formed regional fire protection service authority was subject to the levy authorized under this section immediately prior to the creation of the authority under chapter 52.26 RCW, the initial imposition of a six-year or ten-year tax levy under this section may be approved by a majority of the registered voters thereof approving the creation of the authority and the related service plan. Ballot propositions must conform with RCW 29A.36.210. A taxing district may not submit to the voters at the same election multiple propositions to impose a levy under this section.

3. A taxing district imposing a permanent levy under this section ((shall)) must provide for separate accounting of expenditures of the revenues generated by the levy. The taxing district must maintain a statement of the accounting which must be updated at least every two years and must be available to the public upon request at no charge.

(a) A taxing district imposing a permanent levy under this section must provide for a referendum procedure to apply to the ordinance or resolution imposing the tax. This referendum procedure must specify that a referendum petition may be filed at any time with a filing officer, as identified in the ordinance or resolution. Within ten days, the filing officer must confer with the petitioner concerning form and style of the petition, issue the petition an identification number, and secure an accurate, concise, and positive ballot title from the designated local official. The petitioner has thirty days in which to secure the signatures of not less than fifteen percent of the registered voters of the taxing district, as of the last general election, upon petition forms which contain the ballot title and the full text of the measure to be referred. The filing officer must verify the sufficiency of the signatures on the petition and, if sufficient valid signatures are properly submitted, must certify the referendum measure to the next election within the taxing district if one is to be held within one hundred eighty days from the date of filing of the referendum petition, or at a special election to be called for that purpose in accordance with RCW 29A.04.330.

(b) The referendum procedure provided in this subsection (4) is exclusive in all instances for any taxing district imposing the tax under this section and supersedes the procedures provided under all other statutory or charter provisions for initiative or referendum which might otherwise apply.

Any tax imposed under this section may be used only for the provision of emergency medical care or emergency medical services, including related personnel costs, training for such personnel, and related equipment, supplies, vehicles and structures needed for the provision of emergency medical care or emergency medical services.

If a county levies a tax under this section, no taxing district within the county may levy a tax under this section. If a regional fire protection service authority imposes a tax under this section, no other taxing district that is a participating fire protection jurisdiction in the regional fire protection service authority may levy a tax under this section. No other taxing district may levy a tax under this section if another taxing district has levied a tax under this section within its boundaries. PROVIDED, That if a county levies less than fifty cents per thousand dollars of the assessed value of property, then any other taxing district may levy a tax under this section equal to the difference between the rate of the levy by the county and fifty cents: PROVIDED FURTHER, That if a taxing district within a county levies this tax, and the voters of the county subsequently approve a levying of this tax, then the amount of the taxing district levy within the county must be reduced, when the combined levies exceed fifty cents. Whenever a tax is levied countywide, the service must, insofar as is feasible, be provided throughout the county: PROVIDED FURTHER, That no countywide levy proposal may be placed on the ballot without the approval of the legislative authority of (each city exceeding fifty thousand population within the county) a majority of at least seventy-five percent of all cities exceeding a population of fifty thousand within the county: AND PROVIDED FURTHER, That this section and RCW 36.32.480 ((shall)) may not prohibit any city or town from levying an annual excess levy to fund emergency medical services: AND PROVIDED, FURTHER, That if a county proposes to impose tax levies under this section, no other ballot proposition authorizing tax levies under this section by another taxing district in the county may be placed before the voters at the same election at which the county ballot proposition is placed: AND PROVIDED FURTHER, That any taxing district emergency medical service levy that is limited in duration and that is authorized subsequent to a county emergency medical service levy that is limited in duration, expires concurrently with the county emergency medical service levy. A fire protection district that has annexed a region comprising a newly formed regional fire protection service authority may be reduced, when the combined levies exceed fifty cents. Provided, That if a county imposes a levy under this section, any other tax not hereby authorized may be levied in a tax under this section if another taxing district has levied a tax under this section.

7. The limitations in RCW 84.52.043 do not apply to the tax levy authorized in this section.

8. If a ballot proposition approved under subsection (2) of this section did not impose the maximum allowable levy amount authorized for the taxing district under this section, any future increase up to the maximum allowable levy amount must be specifically authorized by the voters in accordance with subsection (2) of this section at a general or special election.
It, but I thought I too would like to share the record snow falls in my neck of the woods. Now, it’s unclear whether White Pass is in my district or Senator King’s district, but either way we do have record snow falls and while they’re not quite as significant as Mt. Baker it is still a fine place to go for your skiing pleasure once we wrap up here in about a week. So Thank you Mr. President.”

SECOND READING

SECOND SUBSTITUTE HOUSE BILL NO. 1896, by House Committee on Appropriations (originally sponsored by Representatives Dolan, Stonier, Lovick, Springer, Appleton, Bergquist, Manweller, Tarleton, Frame, Goodman and Ormsby)

The measure was read the second time.

MOTION

Senator Wellman moved that the following committee striking amendment by the Committee on Ways & Means be adopted:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature finds that effective civics education teaches students how to be active, informed, and engaged citizens. The legislature recognizes that RCW 28A.150.210 identifies civics as one component of a basic education and that one-half credit in civics is required for high school graduation. The required civics content, however, may be embedded in another social studies course.

Civics requirements are meant to ensure that every student receives a high-quality civics education from kindergarten through twelfth grade. The legislature also recognizes, however, that two factors limit the effectiveness of civics education.

First, when the one-half civics credit is embedded in other courses rather than taught in a stand-alone civics course, the required content is easily diluted or ignored altogether. Pressure to emphasize other areas of the curriculum can relegate civics education to a lesser role.

Second, professional development opportunities for teachers in civics education are rare. In many districts, due to limited budgets and competing demands for funding, opportunities for teachers to deepen instructional and curricular practices in civics do not exist.

The legislature, therefore, intends to: Require school districts to provide a mandatory stand-alone civics course for all high school students; and support the development of an in-depth and interactive teacher professional development program to improve the ability of teachers throughout the state to provide students with an effective civics education from kindergarten through twelfth grade. This expanded civics education program seeks to ensure that students have basic knowledge about national, state, tribal, and local governments, and that they develop the skills and dispositions needed to become informed and engaged citizens.

NEW SECTION. Sec. 2. A new section is added to chapter 28A.230 RCW to read as follows:

(1)(a) Beginning with or before the 2020-21 school year, each school district that operates a high school must provide
mandatory one-half credit stand-alone course in civics for each high school student. Except as provided by (c) of this subsection, civics content and instruction embedded in other social studies courses do not satisfy the requirements of this subsection.

(b) Credit awarded to students who complete the civics course must be applied to course credit requirements in social studies that are required for high school graduation.

(c) Civics content and instruction required by this section may be embedded in social studies courses that offer students the opportunity to earn both high school and postsecondary credit.

(2) The content of the civics course must include, but is not limited to:

(a) Federal, state, tribal, and local government organization and procedures;

(b) Rights and responsibilities of citizens addressed in the Washington state and United States Constitutions;

(c) Current issues addressed at each level of government;

(d) Electoral issues, including elections, ballot measures, initiatives, and referenda;

(e) The study and completion of the civics component of the federally administered naturalization test required of persons seeking to become naturalized United States citizens; and

(f) The importance in a free society of living the basic values and character traits specified in RCW 28A.150.211.

NEW SECTION. Sec. 3. A new section is added to chapter 28A.415 RCW to read as follows:

(1) Subject to the availability of amounts appropriated for this specific purpose, an expanded civics education teacher training program is established within the office of the superintendent of public instruction.

(2) The program must provide for the selection of a team of qualified social studies teachers, and when appropriate, civics education specialists, from across the state who will:

(a) Develop teacher training materials using existing open educational resources (OERs) that include civics information on national, state, tribal, and local government, and the civics component of the federally administered naturalization test required of persons seeking to become naturalized United States citizens;

(b) Provide teacher training across the state, consistent with provisions in this chapter, and using the tools established by the office of the superintendent of public instruction including the college, career, and civic life (C3) framework and the six proven instructional practices for enhancing civic education; and

(c) Provide professional learning opportunities as described in section 2(3), chapter 77, Laws of 2016, which states that professional learning shall incorporate differentiated, coherent, sustained, and evidence-based strategies that improve educator effectiveness and student achievement, including job-embedded coaching or other forms of assistance to support educators' transfer of new knowledge and skills into their practice.

(3) The program shall assure an increase in the number of:

(a) Teachers with the knowledge and skills to effectively engage students in civics education;

(b) Students who have a basic understanding of how governments work; and

(c) Students from every demographic and socioeconomic group who know their rights and responsibilities within society and are prepared to exercise them.

(4) The office of the superintendent of public instruction may accept gifts and grants to assist with the establishment and implementation of the program established in this section.

NEW SECTION. Sec. 4. A new section is added to chapter 28A.300 RCW to read as follows:

Subject to the availability of amounts appropriated for this specific purpose, the office of the superintendent of public instruction shall select two school districts that are diverse in size and in geographic and demographic makeup to serve as demonstration sites for enhanced civics education. These demonstration sites will:

(1) Implement and assess an in-depth civics education program that includes the six proven instructional practices for enhancing civic education in kindergarten through twelfth grade classrooms;

(2) Collaborate with programs and agencies in the local community in order to expand after-school and summer civics education opportunities;

(3) Monitor and report the level of penetration of civics education in school and out-of-school programs;

(4) Ensure that underserved students including rural, low-income, immigrant, and refugee students are prioritized in the implementation of programs;

(5) Develop evaluation standards and a procedure for endorsing civics education curriculum that can be recommended for use in other school districts and out-of-school programs; and

(6) Provide an annual report on the demonstration sites by December 1st each year to the governor and the committees of the legislature with oversight over K-12 education.

NEW SECTION. Sec. 5. RCW 28A.230.093 (Social studies course credits—Civics coursework) and 2009 c 223 s 3 are each repealed.

NEW SECTION. Sec. 6. If specific funding for the purposes of this act, referencing this act by bill or chapter number, is not provided by June 30, 2018, in the omnibus appropriations act, this act is null and void.

On page 4, beginning on line 17 of the amendment, strike all after "schools;" strike the remainder of the title and insert "adding a new section to chapter 28A.230 RCW; adding a new section to chapter 28A.415 RCW; adding a new section to chapter 28A.300 RCW; creating new sections; and repealing RCW 28A.230.093."

ENGROSSED SECOND SUBSTITUTE HOUSE BILL NO. 1439, by House Committee on Appropriations (originally sponsored by Representatives Pollet, Haler, Tarleton, Fey, Sells, Orwell, Ryu, Stanford and Dolan)

Regulating the institutions of higher education, including for-profit institutions and private vocational schools, to protect students from unfair business practices.

The measure was read the second time.

MOTION

Senator Ranker moved that the following committee striking amendment by the Committee on Ways & Means be adopted:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. (1) In 2016, the student achievement council contracted with the William D. Ruckelshaus center to conduct a two-part study analyzing the system of for-profit degree-granting institutions and private vocational schools in Washington. The Ruckelshaus center issued its first report in December 2016, followed by facilitated discussions amongst agencies and stakeholders that resulted in a second report issued in 2017. This act incorporates some of the findings and recommendations from the first phase of the report, including the benefits of ensuring that recruitment advertising and materials are consistent with state and federal verified data. In addition, this act incorporates findings regarding the need for a single student complaint portal and for agencies to have timely access to trust funds for tuition recovery and other methods of responding when schools close. This act also authorizes the second part of the study, as recommended by the center, that will include discussions of agency jurisdiction and consistency and how to improve the agencies' abilities to respond to school closures.

(2) The legislature finds that there are many private for-profit and nonprofit career colleges and degree-granting institutions providing Washington state residents with important postsecondary and career opportunities that contribute to the economic security of Washington residents and aid in meeting the needs of our state's growing economy. The legislature also recognizes that there have been high profile closures of, or federal and other state determinations regarding, some for-profit or formerly for-profit institutions that have damaged the reputation of the sector and impacted the expectations and financial stability of some students. It is the legislature's intent to provide a framework to ensure a level playing field exists for many institutions that provide disclosures to prospective students based on verifiable metrics, which allow prospective students to be able to make the best decisions on school and career choices and on financial aid and loans to finance their educational goals. The legislature also intends to ensure that students are provided the information they need to make the best decisions for their educational future and careers in event of closure or potential closure of an institution. In addition, the legislature intends to protect the state's interest in the integrity of its grant and aid programs, from private decisions to close schools or programs under circumstances that may prevent students from obtaining the degree or certificate and career services that the students expected upon enrollment.

NEW SECTION. Sec. 2. (1) Subject to the availability of amounts appropriated for this specific purpose, up to seventy-five thousand dollars, the student achievement council must continue administering the two-part study of for-profit degree-granting institutions and private vocational schools that was authorized under section 609, chapter 36, Laws of 2016 sp. sess.

(2) As part of the second part of the process, the study must contain findings and recommendations regarding the creation of an ombuds to serve students of degree-granting institutions and private vocational schools, including a recommendation on which state agency should house the position, and if there are other ombuds positions created by the legislature that can serve these students. The study must also contain recommendations on strengthening agencies' abilities to respond to, and protect student consumers from, school closures. Recommendations on agency responses include the use of trust funds and surety bonds for tuition recovery and other related losses.

(3) The student achievement council and the workforce training and education coordinating board must provide a report on the study to the legislature by December 31, 2018.

Sec. 3. RCW 28B.85.090 and 2012 c 229 s 550 are each amended to read as follows:

(1) Complaints may be filed with the council under this chapter by a person claiming loss of tuition or fees as a result of an unfair business practice ((may file a complaint with the council)). The complaint shall set forth the alleged violation and shall contain information required by the council. A complaint may also be filed with the council by an authorized staff member of the council or by the attorney general.

(2) The council shall investigate any complaint under this section and may attempt to bring about a settlement. The council may hold a hearing pursuant to the Administrative Procedure Act, chapter 34.05 RCW, in order to determine whether a violation has occurred. If the council prevails, the degree-granting institution shall pay the costs of the administrative hearing.
(3) If, after the hearing, the council finds that the institution or its agent engaged in or is engaging in any unfair business practice, the council shall issue and cause to be served upon the violator an order requiring the violator to cease and desist from the act or practice and may impose the penalties under RCW 28B.85.100 and section 4 of this act. If the council finds that the complainant has suffered loss as a result of the act or practice, the council may order full or partial restitution for the loss. The complainant is not bound by the council's determination of restitution and may pursue any other legal remedy.

NEW SECTION. Sec. 4. A new section is added to chapter 28B.85 RCW to read as follows:

(1)(a) The council may deny, revoke, or suspend the authorization of any degree-granting institution authorized to operate under this chapter that is found to be in violation of this chapter.

(b) The council may not delegate to any other state its authority to oversee and enforce compliance with this chapter or its authority to respond to complaints by students in this state, regardless of whether the institution is authorized by, or has its home in, another state. Under RCW 28B.85.020(1)(c), participation in interstate reciprocity agreements consistent with the purposes of this chapter does not delegate authority for compliance with this chapter or authority to respond to student complaints.

(2) It is a violation of this chapter for a degree-granting institution authorized to operate under this chapter or an agent employed by such a degree-granting institution to:

(a) Provide prospective students with any testimonial, endorsement, or other information that a reasonable person would find was likely to mislead or deceive prospective students or the public regarding current practices of the school, current conditions for employment opportunities, postgraduation employment by industry, or probable earnings in the occupation for which the education was designed, the likelihood of obtaining financial aid or low-interest loans for tuition, or the ability of graduates to repay loans;

(b) Use any official United States military logo in advertising or promotional materials; and

(c) Violate the provision of section 5(1)(b) of this act regarding the sale of, or inducing of students to obtain, specific consumer student loan products.

NEW SECTION. Sec. 5. A new section is added to chapter 28B.85 RCW to read as follows:

(1) A degree-granting institution authorized to operate under this chapter must:

(a) Present data about its completion rates, employment rates, loan or indebtedness metrics, or its graduates' median hourly and annual earnings, the posted data consistent with the data posted on the workforce training and education coordinating board's career bridge web site or the data posted by the United States department of education, if the board or the department of education has posted such data;

(b) Not engage in any practice regarding the sale of, or inducing of students to obtain, specific consumer student loan products to fund education that financially benefits any person or entity that has an ownership interest in the institution, unless the institution can demonstrate to the council that the student has exhausted all federal aid options and has been denied noninstitutional private commercial loan products. The prohibition in this subsection (1)(b) applies to any degree-granting institution authorized to operate under this chapter, and any agent of the institution, that has at least one hundred fifty students or more enrolled in the state in any given year or that has been operating in the state for less than two consecutive years. A financial benefit for purposes of this subsection (1)(b) does not include merely having an interest in students with loans enrolling in the institution or assisting students with financial aid matters. For purposes of this subsection (1)(b), "agent" means any employee, officer, or contractor working on behalf of the institution; and

(c) Disclose to the council regarding any pending investigations by an oversight entity, including the nature of that investigation, within thirty days of the degree-granting institution's first knowledge of the investigation. For the purposes of this subsection, "investigation" means any inquiry into possible violations of any applicable laws or accreditation standards. For the purposes of this subsection, "oversight entity" means all of the following:

(i) Any federal or state entity that provides financial aid to students of the institution or approves the institution for participation in a financial aid program;

(ii) Any state or federal attorney general's office or department of justice;

(iii) Any state or federal attorney general's office or department of justice;

(iv) Any regulator that approves the operation of the private vocational school;

(v) Any accrediting agency.

(2) A violation of any provision of this section is also a violation of RCW 19.86.020 of the consumer protection act. The penalties authorized pursuant to subsection (1) of this section do not preclude remedies available under the provisions of the consumer protection act.

Sec. 6. RCW 28C.10.050 and 2014 c 11 s 2 are each amended to read as follows:

(1) The agency shall adopt by rule minimum standards for entities operating private vocational schools. The minimum standards shall include, but not be limited to, requirements to assess whether a private vocational school is eligible to obtain and maintain a license in this state.

(2) The requirements adopted by the agency shall, at a minimum, require a private vocational school to:

(a) Disclose to the agency information about its ownership and financial position and (i)(ii) demonstrate to the agency that the school is financially viable and responsible and that it has sufficient financial resources to fulfill its commitments to students. Financial disclosures provided to the agency shall not be subject to public disclosure under chapter 42.56 RCW;

(b) Follow a uniform statewide cancellation and refund policy as specified by the agency;

(c) Disclose through use of a school catalog, web site, brochure, or other written material, necessary information to students so that students may make informed enrollment decisions. The agency shall specify what data and information (i) are required. To the extent that these web sites or materials present any data on the completion rates, employment rates, loan or indebtedness metrics, and its graduates' median hourly and annual earnings for any of the private vocational schools or its programs, the posted data must be consistent with the data posted on the agency's career bridge web site or the data posted by the United States department of education, if the agency or the department of education has posted such data. Nothing in this subsection requires the agency to make changes to the career bridge web site or add new elements or features to the career bridge web site;

(d) Use an enrollment contract or agreement that includes: (i) The school's cancellation and refund policy, (ii) a brief statement that the school is licensed under this chapter and that inquiries,
concerns, or complaints may be made to the agency, and (iii) other necessary information as determined by the agency;

(f) Comply with the requirements of RCW 28C.10.084;
(g) Asses the basic skills and relevant aptitudes of each potential student to determine that a potential student has the basic skills and relevant aptitudes necessary to complete and benefit from the program in which the student plans to enroll, including but not limited to administering a United States department of education-approved English as a second language exam before enrolling students for whom English is a second language unless the students provide proof of graduation from a United States high school or proof of completion of a high school equivalency certificate as provided in RCW 28B.50.536 in English or results of another academic assessment determined appropriate by the agency. Guidelines for such assessments shall be developed by the agency, in consultation with the schools;
(h) Discuss with each potential student the potential student's obligations in signing any enrollment contract and/or incurring any debt for educational purposes. The discussion shall include the inadvisability of acquiring an excessive educational debt burden that will be difficult to repay given employment opportunities and average starting salaries in the potential student's chosen occupation;
(i) Ensure that any enrollment contract between the private vocational school and its students has an attachment in a format provided by the agency. The attachment shall be signed by both the school and the student. The attachment shall stipulate that the school has complied with (h) of this subsection and that the student understands and accepts his or her responsibilities in signing any enrollment contract or debt application. The attachment shall also stipulate that the enrollment contract shall not be binding for at least five days, excluding Sundays and holidays, following signature of the enrollment contract by both parties; 
(j) Comply with the requirements related to qualifications of administrators and instructors; and
(k) Disclose to the agency regarding any pending investigations by an oversight entity, including the nature of that investigation, within thirty days of the school's first knowledge of the investigation. For the purposes of this subsection, "investigation" means any inquiry into possible violations of any applicable laws or accreditation standards. For the purposes of this subsection, "oversight entity" means all of the following:
(i) Any federal or state entity that provides financial aid to students of the institution or approves the school for participation in a financial aid program;

(iii) Any regulator that approves the operation of the private vocational school;
(iv) The federal consumer financial protection bureau or the federal securities and exchange commission; and
(v) Any accrediting agency.
(3) A private vocational school that has at least one hundred fifty students or more in the state during any given year, or that has been operating in the state for less than two consecutive years, or that has not had at least one of its programs recognized by the agency as an eligible training provider for at least two consecutive years, may not engage in any practice regarding the sale of, or inducing of students to obtain, specific consumer student loan products to fund education that financially benefits any person or entity that has an ownership interest in the institution, unless the institution can demonstrate to the agency that the student has exhausted all federal aid options and has been denied noninstitutional private commercial loan products. A financial benefit for purposes of this subsection does not include merely having an interest in students with loans enrolling in the institution or assisting students with financial aid matters. For purposes of this subsection, "agent" means any employee, officer, or contractor working on behalf of the institution.
(4) The agency may deny a private vocational school's application for licensure if the school fails to meet the requirements in this section.
(5) The agency may determine that a licensed private vocational school or a particular program of a private vocational school is at risk of closure or termination if:
(a) There is a pattern or history of substantiated student complaints filed with the agency pursuant to RCW 28C.10.120; or
(b) The private vocational school fails to meet minimum licensing requirements and has a pattern or history of failing to meet the minimum requirements.
(6) If the agency determines that a private vocational school or a particular program is at risk of closure or termination, the agency shall require the school to take corrective action.

(2) It is an unfair business practice for an entity operating a private vocational school or an agent employed by a private vocational school to:

MOTION

Senator Hunt moved that the following striking amendment no. 830 by Senator Hunt be adopted:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature finds that Native American women experience violence at much higher rates than other populations. A recent federal study reported that Native American women face murder rates over ten times the national average. However, many of these crimes often are unsolved and even unreported because there are also very high rates of disappearances among Native American women. Furthermore, there is no comprehensive data collection system for reporting or tracking missing Native American women. This gap in reporting and investigation places Native American women even more vulnerable to violence.

The legislature further finds that although violence against Native American women has been a neglected issue in society, there is a growing awareness of this crisis of violence against Native American women, and a recognition of the need for the criminal justice system to better serve and protect Native American women. The legislature intends to find ways to connect state, tribal, and federal resources to create partnerships in finding ways to solve this crisis facing Native American women in our state.

NEW SECTION. Sec. 2. (1) The Washington state patrol must conduct a study to determine how to increase state criminal justice protective and investigative resources for reporting and identifying missing Native American women in the state. The state patrol must work with the governor's office of Indian affairs to convene meetings with tribal and local law enforcement partners, federally recognized tribes, and urban Indian organizations to determine the scope of the problem, identify barriers, and find ways to create partnerships to increase reporting and investigation of missing Native American women. Consultation and collaboration with federally recognized tribes must be conducted in respect for government-to-government relations. The state patrol also must work with the federal department of justice to increase information sharing and coordinating resources that can focus on reporting and investigating missing Native American women in the state.

(2) By June 1, 2019, the state patrol must report to the legislature on the results of the study, including data and analysis of the number of missing Native American women in the state, identification of barriers in providing state resources to address the issue, and recommendations, including any proposed legislation that may be needed to address the problem.

PERSONAL PRIVILEGE

Senator King: “Well I wanted to wait until after we had taken a vote on that bill, the previous bill, and I listened to the conversations and I voted yes on this bill, and I voted yes because it is a very serious problem that needs to be addressed. My concern, and what I would ask the body is the Washington State Patrol can only take this so far. I listened to the speakers that said this is a national issue, there is problems in North Dakota and South Dakota, there’s problems in, in various ports. We need to get the FBI involved and we need to make sure that they’re aware of how big a problem this is. And I think it’s incumbent upon this body to try and do something, to work this beyond the State of Washington and get involvement and let’s truly try and solve this issue rather than just kind of putting a Band-Aid on it. So, I appreciate the time you gave me, Mr. President.”

The centennial of the passage of the Nineteenth Amendment to the United States Constitution, in 2020, offers still greater opportunities for Washingtonians to commemorate and educate themselves and future generations about the importance of voting and civic engagement. Therefore, the legislature finds it beneficial to begin the process of preparing for statewide commemoration from 2018 through 2020, of the centennial of the processes of congressional passage of and states' legislative ratification of the Nineteenth Amendment to the United States Constitution, which established the right to vote for American women.

The Washington state women's commission must provide staffing support to the interagency committee of state employed women, a volunteer organization that aims to better the lives of state employees by advising the governor and agencies on policies that affect state employed women.

NEW SECTION. Sec. 8. On August 26, 1920, with the action of the Tennessee legislature, the Nineteenth Amendment to the United States Constitution was ratified, establishing the right to vote for most American women. However, this right for some women occurred later: Native Americans generally by 1924; many Asians during the mid-twentieth century; and many others following enactment of voting rights legislation during the 1960s.

The introduction, passage, and ratification of the Nineteenth Amendment were the result of decades of work and struggle by women's voting rights advocates throughout the United States, with people from Washington state providing significant leadership. In 1854, six years after the landmark women's rights convention in Seneca Falls, New York, the Washington territorial legislature initially considered enacting women's right to vote. Susan B. Anthony visited Washington territory in 1871 and addressed the Washington territorial legislature, the first woman in the country to address a state legislative body in session. This spurred the creation of many women's right to vote associations in Washington and other states.

State women's right to vote legislation eventually passed the Washington territorial legislature twice, but each time was found unconstitutional by the territorial supreme court. With the 1910 approval of a state constitutional amendment by the male voters of the state, Washington became the first state in the twentieth century, and the fifth state overall, to enact women's right to vote at the state level.

In 2009, the state of Washington posthumously awarded its highest honor, the medal of merit, to the two key leaders of the Washington women's right to vote movement, Emma Smith DeVoe and May Arkwright Hutton.

The path to women's suffrage was blurred by western states. Washington's action (1910) followed Wyoming (1890), Colorado (1893), Utah (1870), and Idaho (1889). These successes were immediately followed by California (1911) and Oregon (1912), in establishing women's right to vote.

Washington was a major leader in the movement for nationwide women's right to vote. Washington was the first state in the twentieth century to fully enfranchise women and inspired the nationwide campaign that soon brought success in many western states and the territory of Alaska, culminating in the Nineteenth Amendment to the United States Constitution providing for American women throughout the country to vote.

In 2010, the Washington women's history consortium provided leadership for statewide commemoration of the centennial of Washington state women's right to vote, sponsoring and coordinating a wide range of statewide activities.

NEW SECTION. Sec. 9. (1) The women's commission must, subject to the availability of amounts appropriated for this specific purpose, work with the Washington women's history consortium to:

(a) Provide leadership for statewide commemoration from 2018 through 2020 of the centennial pertaining to the passage by congress of the Nineteenth Amendment and its subsequent ratification by three-fourths of the state legislatures in August 1920;

(b) Immediately begin preparations for this statewide commemoration, to include but not be limited to:

(i) Consulting with a wide variety of organizations, institutions, public agencies, educational agencies and institutions, tourism organizations, and the general public about the content and conduct of this statewide commemoration;

(ii) Developing and encouraging others to develop a broad range of widely available educational opportunities for Washingtonians generally, students, and visitors, including significant online educational resources, to:

(A) Learn about the importance of voting in the context of women gaining the right to vote;

(B) Consider the subsequent long-term impacts of women gaining the right to vote;

(C) Learn about the active leadership role of Washingtonians in achieving the nationwide right to vote for women;

(D) Honor the countless participants in the women's suffrage movement; and

(E) Inspire future generations to treasure their right to vote;

(ii) Planning, coordinating, and publicizing events and informational materials for Washingtonians and visitors throughout the state commemorating this centennial;

(c) Create and distribute a portfolio of public humanities programs, and encourage others to do so, to engage Washingtonians and visitors with important aspects of the women's right to vote movement;

(d) Encourage private organizations, schools, institutions of higher education, public agencies, and local governments to organize and participate in activities commemorating the centennial of the Nineteenth Amendment to the United States Constitution;

(e) Coordinate with the regional and national organizations and agencies with respect to their commemorative work;

(f) Coordinate with the national collaborative for women's history sites by contributing a Washington component to the development of a nationwide votes for women trail; and

(g) Administer a grant program for public agencies, educational institutions, and organizations exempt from taxation under Title 26 U.S.C. Sec. 501(c)(3) of the federal internal revenue code to assist with their commemoration activities.

(iii) The current trustee for the deed of trust;

(9) That, for owner-occupied residential real property, before the notice of the trustee's sale is recorded, transmitted, or served, the beneficiary has complied with RCW 61.24.031 and, if applicable, RCW 61.24.163;

(10) That, in the case when the mortgage servicer or trustee knows that the borrower or grantor is deceased, the notice required under subsection (8) of this section must be sent to any spouse, child, or parent of the borrower or grantor, and to any owner of record of the property, at any address provided to the trustee or mortgage servicer, and to the property addressed to the heirs and devisees of the borrower.

(a) If the name or address of any spouse, child, or parent of such deceased borrower or grantor cannot be ascertained with use of reasonable diligence, the trustee must execute and record with the notice of sale a declaration attesting to the same;

(b) Reasonable diligence for the purposes of this subsection (10) means the trustee shall search in the county where the property is located, the public records and information for any obituary, will, death certificate, or case in probate within the county for the borrower and grantor.

(11) Upon written notice identifying the property address and the name of the borrower to the servicer or trustee by someone claiming to be a successor in interest to the borrower's or grantor's property rights, but who is not a party to the loan or promissory note or other obligation secured by the deed of trust, a trustee shall not record a notice of sale pursuant to RCW 61.24.040 until the trustee or mortgage servicer completes the following:

(a) Acknowledges the notice in writing and requests reasonable documentation of the death of the borrower or grantor from the claimant including, but not limited to, a death certificate or other written evidence of the death of the borrower or grantor. The claimant must be allowed thirty days from the date of this request to present this documentation. If the trustee or mortgage servicer has already obtained sufficient proof of the borrower's death, it may proceed by acknowledging the claimant's notice in writing and issuing a request under (b) of this subsection.

(b) If the mortgage servicer or trustee obtains or receives written documentation of the death of the borrower or grantor from the claimant, or otherwise independently confirms the death of the borrower or grantor, then the servicer or trustee must request in writing documentation from the claimant demonstrating the ownership interest of the claimant in the real property. A claimant has sixty days from the date of the request to present this documentation.

(c) If the mortgage servicing or trustee receives written documentation demonstrating the ownership interest of the claimant prior to the expiration of the sixty days provided in (b) of this subsection, then the servicer or trustee must, within twenty days of receipt of proof of ownership interest, provide the claimant with, at a minimum, the loan balance, interest rate and interest reset dates and amounts, balloon payments if any, prepayment penalties if any, the basis for the default, the monthly payment amount, reinstatement amounts or conditions, payoff amounts, and information on how and where payments should be made. The mortgage servicers shall also provide the claimant application materials and information, or a description of the process, necessary to request a loan assumption and modification.

(e) There may be more than one successor in interest to the borrower's property rights. The trustee and mortgage servicer shall apply the provisions of this section to each successor in interest. In the case of multiple successors in interest, where one or more do not wish to assume the loan as coborrowers or coapplicants, a mortgage servicer may require any nonapplicant successor in interest to consent in writing to the application for loan assumption.

(f) The existence of a successor in interest under this section does not impose an affirmative duty on a mortgage servicer or alter any obligation the mortgage servicer has to provide a loan modification to the successor in interest. If a successor in interest assumes the loan, he or she may be required to otherwise qualify for available foreclosure prevention alternatives offered by the mortgage servicer.

(g) (c) of this subsection does not apply to association beneficiaries subject to chapter 64.32, 64.34, or 64.38 RCW; and

(12) Nothing in this section shall prejudice the right of the mortgage servicer or beneficiary from discontinuing any other allowed methods for pursuit of foreclosure of the security interest or deed of trust security interest.

Any new defaults not involving payment of money that occur after the date of this notice must also be cured in order to effect reinstatement. In addition, because some of the charges can only be estimated at this time, and because the amount necessary to reinstate or to pay off the entire indebtedness may include presently unknown expenditures required to preserve the property or to comply with state or local law, it will be necessary for you to contact the Trustee before the time you tender reinstatement or the payoff amount so that you may be advised of the exact amount you will be required to pay. You may contest this default by initiating court action in the Superior Court of the county in which the sale is to be held. In such action, you may raise any legitimate defenses you have to this default. A copy of your Deed of Trust and documents evidencing the obligation secured thereby are enclosed. You may wish to consult a lawyer. Legal action on your part may prevent or restrain the sale, but only if you persuade the court of the merits of your defense. You may contact the Department of Financial Institutions or the statewide civil legal aid hotline for possible assistance or referrals.

The court may grant a restraining order or injunction to restrain a trustee's sale pursuant to RCW 61.24.130 upon five days notice to the trustee of the time when, place where, and the judge before whom the application for the restraining order or injunction is to be made. This notice shall include copies of all pleadings and related documents to be given to the judge. Notice and other process may be served on the trustee at:

The effect of such sale will be to deprive you and all those who hold by, through or under you of all interest in the property:

(1) In addition, the trustee shall cause a copy of the notice of sale described in subsection (((1))) ((2))) ((3))) (2) of this section (excluding the acknowledgment) to be published in a legal newspaper in each county in which the property or any part thereof is situated, once on or between the thirty-fifth and twenty-eighth day before the date of sale, and once on or between the fourteenth and seventh day before the date of sale;

(2) In the case where no successor in interest has been established, and neither the beneficiary nor the trustee are able to ascertain the name and address of any spouse, child, or parent of the borrower or grantor in the manner described in RCW 61.24.030(10), then the trustee may, in addition to mailing notice to the property addressed to the unknown heirs and devisees of the grantor, serve the notice of sale by publication in a newspaper of general circulation in the county or city where the property is located once per week for three consecutive weeks. Upon this service by publication, to be completed not less than thirty days prior to the date the sale is conducted, all unknown heirs shall be deemed served with the notice of sale;

(3) If a servicer or trustee receives notification by someone claiming to be a successor in interest to the borrower or grantor, as under RCW 61.24.030(11), after the recording of the notice of sale, the trustee or servicer must request written documentation within five days demonstrating the ownership interest, provided that, the trustee may, but is not required to, postpone a trustee's sale upon receipt of such notification by someone claiming to be a successor in interest. Upon receipt of documentation establishing a claimant as a successor in interest, the servicer must provide the information in RCW 61.24.030(11)(c). Only if the servicer or trustee receives the documentation confirming someone as successor in interest more than forty-five days before the scheduled sale must the servicer then provide the information in RCW 61.24.030(11)(c) to the claimant not less than twenty days prior to the sale. amended to read as follows:
(1) Upon physical delivery of the trustee's deed to the
purchaser, or a different grantee as designated by the purchaser
following the trustee's sale, the trustee's deed shall convey all of
the right, title, and interest in the real and personal property sold
at the trustee's sale which the grantor had or had the power to
convey at the time of the execution of the deed of trust, and such
as the grantor may have thereafter acquired. Except as provided
in subsection (2) of this section, if the trustee accepts a bid, then
the trustee's sale is final as of the date and time of such acceptance
if the trustee's deed is recorded within fifteen days thereafter.
After a trustee's sale, no person shall have any right, by statute or
otherwise, to redeem the property sold at the trustee's sale.


(2)(a) Up to the eleventh day following the trustee's sale, the trustee, beneficiary, or authorized agent for the beneficiary may declare the trustee's sale and trustee's deed void for the following reasons:

(i) The trustee, beneficiary, or authorized agent for the beneficiary assert that there was an error with the trustee foreclosure sale process including, but not limited to, an erroneous opening bid amount made by or on behalf of the foreclosing beneficiary at the trustee's sale;

(ii) The borrower and beneficiary, or authorized agent for the beneficiary, had agreed prior to the trustee's sale to a loan modification agreement, forbearance plan, shared appreciation mortgage, or other loss mitigation agreement to postpone or discontinue the trustee's sale; or

(iii) The beneficiary or authorized agent for the beneficiary had accepted funds that fully reinstated or satisfied the loan even if the beneficiary or authorized agent for the beneficiary had no legal duty to do so.

(b) This subsection does not impose a duty upon the trustee any different than the obligations set forth under RCW 61.24.010(3) and (4).

(3) The trustee must refund the bid amount to the purchaser no later than the third day following the postmarked mailing of the rescission notice described under subsection (4) of this section.

(4) No later than fifteen days following the voided trustee's sale date, the trustee shall send a notice in substantially the following form by first-class mail and certified mail, return receipt requested, to all parties entitled to notice under RCW 61.24.040(l)(b) through (e):

NOTICE OF RESCISSION OF TRUSTEE'S SALE

NOTICE IS HEREBY GIVEN that the trustee's sale that occurred on (trustee's sale date) is rescinded and declared void because (insert the applicable reason(s) permitted under RCW 61.24.050(2)).

(Legal description)

Commonly known as (common property address)

(5) If the reason for the rescission stems from subsection (2)(a)(i) or (ii) of this section, the trustee may set a new sale date not less than forty-five days following the mailing of the notice of rescission of trustee's sale. The trustee shall:

(a) Comply with the requirements of RCW 61.24.040(1) (a) through (((4))) (c) at least thirty days before the new sale date; and

(b) Cause a copy of the notice of trustee's sale as provided in RCW 61.24.040(((4))) (2) to be published in a legal newspaper in each county in which the property or any part thereof is situated once between the thirty-fifth and twenty-eighth day before the sale and once between the fourteenth and seventh day before the sale.

Sec. 5. RCW 61.24.130 and 2008 c 153 s 5 are each amended to read as follows:

(1) Nothing contained in this chapter shall prejudice the right of the borrower, grantor, any guarantor, or any person who has an interest in, lien, or claim of lien against the property or some part thereof, to restrain, on any proper legal or equitable ground, a trustee's sale. The court shall require as a condition of granting the restraining order or injunction that the applicant pay to the clerk of the court the sums that would be due on the obligation secured by the deed of trust if the deed of trust was not being foreclosed:

(a) In the case of default in making the periodic payment of principal, interest, and reserves, such sums shall be the periodic payment of principal, interest, and reserves paid to the clerk of the court every thirty days.

(b) In the case of default in making payment of an obligation then fully payable by its terms, such sums shall be the amount of interest accruing monthly on said obligation at the nondefault rate, paid to the clerk of the court every thirty days.

In the case of default in performance of any nonmonetary obligation secured by the deed of trust, the court shall impose such conditions as it deems just.

In addition, the court may condition granting the restraining order or injunction upon the giving of security by the applicant, in such form and amount as the court deems proper, for the payment of such costs and damages, including attorneys' fees, as may be later found by the court to have been incurred or suffered by any party by reason of the restraining order or injunction. The court may consider, upon proper showing, the grantor's equity in the property in determining the amount of said security.

(2) No court may grant a restraining order or injunction to restrain a trustee's sale unless the person seeking the restraint gives five days notice to the trustee of the time when, place where, and the judge before whom the application for the restraining order or injunction is to be made. This notice shall include copies of all pleadings and related documents to be given to the judge. No judge may act upon such application unless it is accompanied by proof, evidenced by return of a sheriff, the sheriff's deputy, or by any person eighteen years of age or over who is competent to be a witness, that the notice has been served on the trustee.

(3) If the restraining order or injunction is dissolved after the date of the trustee's sale set forth in the notice as provided in RCW 61.24.040(((4))) (2), the court granting such restraining order or injunction, before whom the order or injunction is returnable, shall, at the request of the trustee, set a new sale date which shall be not less than forty-five days from the date of the order dissolving the restraining order. The trustee shall:

(a) Comply with the requirements of RCW 61.24.040(1) (a) through (((4))) (c) at least thirty days before the new sale date; and

(b) Cause a copy of the notice of trustee's sale as provided in RCW 61.24.040(((4))) (2) to be published in a legal newspaper in each county in which the property or any part thereof is situated once between the thirty-fifth and twenty-eighth day before the sale and once between the fourteenth and seventh day before the sale.

(4) If a trustee's sale has been stayed as a result of the filing of a petition in federal bankruptcy court and an order is entered in federal bankruptcy court granting relief from the stay or dismissing the case, or discharging the debtor with the effect of removing the stay, the trustee may set a new sale date which shall not be less than forty-five days after the date of the bankruptcy court order. The trustee shall:

(a) Comply with the requirements of RCW 61.24.040(1) (a) through (((4))) (c) at least thirty days before the new sale date; and

(b) Cause a copy of the notice of trustee's sale as provided in RCW 61.24.040(((4))) (2) to be published in a legal newspaper in each county in which the property or any part thereof is situated, once between the thirty-fifth and twenty-eighth day before the sale and once between the fourteenth and seventh day before the sale.

(5) Subsections (3) and (4) of this section are permissive only and do not prohibit the trustee from proceeding with a trustee's sale.
(f) The payment history and schedule for the preceding twelve months, or since default, whichever is longer, including a breakdown of all fees and charges claimed;

(g) All borrower-related and mortgage-related input data used in any net present values analysis. If no net present values analysis is required by the applicable federal mortgage relief program, then the input data required under the federal deposit insurance corporation and published in the federal deposit insurance corporation loan modification program guide, or if that calculation becomes unavailable, substantially similar input data as determined by the department;

(h) An explanation regarding any denial for a loan modification, forbearance, or other alternative to foreclosure in sufficient detail for a reasonable person to understand why the decision was made;

(i) Appraisal or other broker price opinion most recently relied upon by the beneficiary not more than ninety days old at the time of the scheduled mediation; and

(j) The portion or excerpt of the pooling and servicing agreement or other investor restriction that prohibits the beneficiary from implementing a modification, if the beneficiary claims it cannot implement a modification due to limitations in a pooling and servicing agreement or other investor restriction, and documentation or a statement detailing the efforts of the beneficiary to obtain a waiver of the pooling and servicing agreement or other investor restriction provisions.

6 Within seventy days of receiving the referral from the department, the mediator shall convene a mediation session in the county where the property is located, unless the parties agree on another location. The parties may agree to extend the time in which to schedule the mediation session. If the parties agree to extend the time, the beneficiary shall notify the trustee of the extension and the date the mediator is expected to issue the mediator’s certification.

7(a) The mediator may schedule phone conferences, consultations with the parties individually, and other communications to ensure that the parties have all the necessary information and documents to engage in a productive mediation.

(b) The mediator must send written notice of the time, date, and location of the mediation session to the borrower, the beneficiary, and the department at least thirty days prior to the mediation session. At a minimum, the notice must contain:

(i) A statement that the borrower may be represented in the mediation session by an attorney or other advocate;

(ii) A statement that a person with authority to agree to a resolution, including a proposed settlement, loan modification, or dismissal or continuation of the foreclosure proceeding, must be present either in person or on the telephone or videoconference during the mediation session; and

(iii) A statement that the parties have a duty to mediate in good faith and that failure to mediate in good faith may impair the beneficiary’s ability to foreclose on the property or the borrower’s ability to modify the loan or take advantage of other alternatives to foreclosure.

(b) After the mediation session commences, the mediator may continue the mediation session once, and any further continuances must be with the consent of the parties.

9 The participants in mediation must address the issues of foreclosure that may enable the borrower and the beneficiary to reach a resolution, including but not limited to reinstatement,
modification of the loan, restructuring of the debt, or some other workout plan. To assist the parties in addressing issues of foreclosure, the mediator may require the participants to consider the following:

(a) The borrower's current and future economic circumstances, including the borrower's current and future income, debts, and obligations for the previous sixty days or greater time period as determined by the mediator;

(b) The net present value of receiving payments pursuant to a modified mortgage loan as compared to the anticipated net recovery following foreclosure;

(c) Any affordable loan modification calculation and net present value calculation when required under any federal mortgage relief program (including the Home Affordable Modification Program (HAMP) as applicable to government-sponsored enterprise and non-government-sponsored enterprise loans) and any (HAMP-related) modification program (as applicable) related to loans insured by the federal housing administration, the veterans administration, and the rural housing service. If such a calculation is not provided or required, then the beneficiary must provide the net present value data inputs established by the federal deposit insurance corporation and published in the federal deposit insurance corporation loan modification program guide or other net present value data inputs as designated by the department. The mediator may run the calculation in order for a productive mediation to occur and to comply with the mediator certification requirement; and

(d) Any other loss mitigation guidelines to loans insured by the federal housing administration, the veterans administration, and the rural housing service, if applicable.

(10) A violation of the duty to mediate in good faith as required under this section may include:

(a) Failure to timely participate in mediation without good cause;

(b) Failure of the borrower or the beneficiary to provide the documentation required before mediation or pursuant to the mediator's instructions;

(c) Failure of a party to designate representatives with adequate authority to fully settle, compromise, or otherwise reach resolution with the borrower in mediation; and

(d) A request by a beneficiary that the borrower waive future claims he or she may have in connection with the deed of trust, as a condition of agreeing to a modification, except for rescission claims under the federal truth in lending act. Nothing in this section precludes a beneficiary from requesting that a borrower dismiss with prejudice any pending claims against the beneficiary, its agents, loan servicer, or trustee, arising from the underlying deed of trust, as a condition of modification.

(11) If the mediator reasonably believes a borrower will not attend a mediation session based on the borrower's conduct, such as the lack of response to the mediator's communications, the mediator may cancel a scheduled mediation session and send a written cancellation to the department and the trustee and send copies to the parties. The beneficiary may proceed with the foreclosure after receipt of the mediator's written confirmation of cancellation.

(12) Within seven business days after the conclusion of the mediation session, the mediator must send a written certification to the department and the trustee and send copies to the parties of:

(a) The date, time, and location of the mediation session;

(b) The names of all persons attending in person and by telephone or videoconference, at the mediation session;

(c) Whether a resolution was reached by the parties, including whether the default was cured by reinstatement, modification, or restructuring of the debt, or some other alternative to foreclosure was agreed upon by the parties;

(d) Whether the parties participated in the mediation in good faith; and

(e) If a written agreement was not reached, a description of any net present value test used, along with a copy of the inputs, including the result of any net present value test expressed in a dollar amount.

(13) If the parties are unable to reach an agreement, the beneficiary may proceed with the foreclosure after receipt of the mediator's written certification.

(14)(a) The mediator's certification that the beneficiary failed to act in good faith in mediation constitutes a defense to the nonjudicial foreclosure action that was the basis for initiating the mediation. In any action to enjoin the foreclosure, the beneficiary is entitled to rebut the allegation that it failed to act in good faith.

(b) The mediator's certification that the beneficiary failed to act in good faith during mediation does not constitute a defense to a judicial foreclosure or a future nonjudicial foreclosure action if a modification of the loan is agreed upon and the borrower subsequently defaults.

(c) If an affordable loan modification is not offered in the mediation or a written agreement was not reached and the mediator's certification shows that the net present value of the modified loan exceeds the anticipated net recovery at foreclosure, that showing in the certification constitutes a basis for the borrower to enjoin the foreclosure.

(15) The mediator's certification that the borrower failed to act in good faith in mediation authorizes the beneficiary to proceed with the foreclosure.

(16)(a) If a borrower has been referred to mediation before a notice of trustee sale has been recorded, a trustee may not record the notice of sale until the trustee receives the mediator's certification stating that the mediation has been completed. If the trustee does not receive the mediator's certification, the trustee may record the notice of sale after ten days from the date the certification to the trustee was due. If, after a notice of sale is recorded under this subsection (16)(a), the mediator subsequently issues a certification finding that the beneficiary violated the duty of good faith, the certification constitutes a basis for the borrower to enjoin the foreclosure.

(b) If a borrower has been referred to mediation after the notice of sale was recorded, the sale may not occur until the trustee receives the mediator's certification stating that the mediation has been completed.

(17) A mediator may charge reasonable fees as authorized by this subsection or as authorized by the department. Unless the fee is waived, the parties agree otherwise, or the department otherwise authorizes, a foreclosure mediator's fee may not exceed four hundred dollars for preparing, scheduling, and conducting a mediation session lasting between one hour and three hours. For a mediation session exceeding three hours, the foreclosure mediator may charge a reasonable fee, as authorized by the department. The mediator must provide an estimated fee before the mediation, and payment of the mediator's fee must be divided equally between the beneficiary and the borrower. The beneficiary and the borrower must tender the loan mediator's fee within thirty calendar days from receipt of the department's letter referring the parties to mediation or pursuant to the mediator's instructions.

(18) Beginning December 1, 2012, and every year thereafter, the department shall report annually to the legislature on:

(a) The performance of the program, including the numbers of borrowers who are referred to mediation by a housing counselor or attorney;

(b) The results of the mediation program, including the number of mediations requested by housing counselors and attorneys, the number of certifications of good faith issued, the number of
bidders and beneficiaries who failed to mediate in good faith, and the reasons for the failure to mediate in good faith, if known, the numbers of loans restructured or modified, the change in the borrower's monthly payment for principal and interest and the number of principal write-downs and interest rate reductions, and, to the extent practical, the number of borrowers who report a default within a year of restructuring or modification;

(c) The information received by housing counselors regarding outcomes of foreclosures; and

(d) Any recommendations for changes to the statutes regarding the mediation program.

Sec. 7. RCW 61.24.173 and 2016 c 196 s 2 are each amended to read as follows:

(2) For each notice of trustee's sale recorded on residential real property, the beneficiary on whose behalf the notice of trustee's sale has been recorded pursuant to RCW 61.24.040 on residential real property under this chapter must:

(a) Report to the department the number of notices of trustee's sale recorded for each residential property during the previous quarter;

(b) Remit the amount required under subsection (2) of this section; and

(c) Report and update beneficiary contact information for the person and group responsible for the beneficiary's compliance with the requirements of the foreclosure fairness act created in this chapter.

(3) Any adjustment to the amount of the fee, pursuant to the authority of subsection (2) of this section, shall be made by rule adopted by the department in accordance with the provisions of chapter 34.05 RCW.

(4) Reporting and payments under subsections (1) and (2) of this section are due within forty-five days of the end of each quarter.

(5) This section does not apply to any beneficiary or loan servicer that is a federally insured depository institution, as defined in 12 U.S.C. Sec. 461(b)(1)(A), and that certifies under penalty of perjury that fewer than fifty notices of trustee's sale were recorded on its behalf in the preceding year.

(6) This section does not apply to noncommercial loans on residential real property, but does not apply to the recording of an amended notice of trustee's sale. (If the beneficiary previously made a payment under RCW 61.24.173, and if there are no substantive allegations that seek damages from the trustee or seek to enjoin the foreclosure based on any alleged unlawful actions or omissions by the trustee, the beneficiary may file a declaration of nonmonetary status. The declaration must be served on the parties in the manner set forth in superior court civil rule (CR) 5.)

(7) For purposes of this section, "residential real property" includes residential real property with up to four dwelling units, whether or not the property or any part thereof is owner-occupied.
(7) In the event a party or parties elect not to or fail to timely object to the declaration of nonmonetary status, but later through discovery or otherwise determine that the trustee should participate in the action, the parties may file and serve on all parties and the trustee a motion pursuant to superior court civil rule (CR) 15. Upon the court's granting of the motion, the trustee must thereafter be required to participate in the action or proceeding, and the court must provide sufficient time before trial for the trustee to be able to respond to the complaint, to conduct discovery, and to bring other pretrial motions in accordance with Washington superior court civil rules.

(8) Upon the filing of the declaration of nonmonetary status, the time within which the trustee is required to file an answer or other responsive pleading is tolled for the period of time within which the opposing parties may respond to the declaration. Upon the timely service of an objection to the declaration on nonmonetary status, the trustee has ten days from the date of service within which to file an answer or other responsive pleading to the complaint or cross-complaint.

(9) For purposes of this section, "trustee" includes any agent or employee of the trustee who performs some or all the duties of a trustee under this chapter and includes substituted trustees and agents of the trustee.

(10) If upon objection to the trustee's declaration of nonmonetary status the court finds that the declaration was filed without sufficient support based upon the allegations made in the complaint, the court may award the plaintiff attorneys' fees and costs associated with the objection together with any actual nonmonetary status, the court finds that the declaration was filed.

Any award may be made after notice and costs associated with the objection together with any actual nonmonetary status, the court finds that the declaration was filed.

NEW SECTION. Sec. 9. A new section is added to chapter 61.12 RCW to read as follows:

(1) Before any mortgagee of residential real property commences any legal action under RCW 61.12.040 to foreclose any reverse residential mortgage, such person shall give the mortgagor notice of such intention at least thirty-three days in advance. For the purposes of this section "residential real property" means property consisting solely of a single-family residence, a two-to-four-unit owner occupied dwelling, a residential cooperative unit, a manufactured home, or a residential cooperative unit.

(2) Notice of intention to take action as specified in subsection (1) of this section must be in writing and sent to the resident mortgagor or, in case of the death of the last surviving mortgagor, addressed to any known surviving spouse or to "unknown heirs" of the residential mortgagor, by first-class and either certified or registered mail, return receipt requested, at his or her last known address and, if different, at the residence which is the subject of the residential mortgage.

(3) The written notice must be in English and Spanish, in a form to be published by the department of commerce, and must clearly and conspicuously state:

(a) The particular obligation or real estate security interest;
(b) The nature of the default claimed or the reason for acceleration of the mortgage;

Sec. 4. RCW 61.24.050 and 2012 c 185 s 14 are each amended to read as follows:

(1) Upon physical delivery of the trustee's deed to the purchaser, or a different grantee as designated by the purchaser following the trustee's sale, the trustee's deed shall convey all of the right, title, and interest in the real and personal property sold at the trustee's sale which the grantor had or had the power to convey at the time of the execution of the deed of trust, and such as the grantor may have thereafter acquired. Except as provided in subsection (2) of this section, if the trustee accepts a bid, then the trustee's sale is final as of the date and time of such acceptance if the trustee's deed is recorded within fifteen days thereafter. After a trustee's sale, no person shall have any right, by statute or otherwise, to redeem the property sold at the trustee's sale.

(2)(a) Up to the eleventh day following the trustee's sale, the trustee, beneficiary, or authorized agent for the beneficiary may declare the trustee's sale and trustee's deed void for the following reasons:

(i) The trustee, beneficiary, or authorized agent for the beneficiary assert that there was an error with the trustee foreclosure sale process including, but not limited to, an erroneous opening bid amount made by or on behalf of the foreclosing beneficiary at the trustee's sale;

(ii) The borrower and beneficiary, or authorized agent for the beneficiary, had agreed prior to the trustee's sale to a loan modification agreement, forbearance plan, shared appreciation mortgage, or other loss mitigation agreement to postpone or discontinue the trustee's sale; or

(iii) The beneficiary or authorized agent for the beneficiary had accepted funds that fully reinstated or satisfied the loan even if the beneficiary or authorized agent for the beneficiary had no legal duty to do so.

(b) This subsection does not impose a duty upon the trustee any different than the obligations set forth under RCW 61.24.010 (3) and (4).

(3) The trustee must refund the bid amount to the purchaser no later than the third day following the postmarked mailing of the rescission notice described under subsection (4) of this section.

(4) No later than fifteen days following the voided trustee's sale date, the trustee shall send a notice in substantially the following form by first-class mail and certified mail, return receipt requested, to all parties entitled to notice under RCW 61.24.040(1) (b) through (c):

NOTICE OF RESCISSION OF TRUSTEE'S SALE

NOTICE IS HEREBY GIVEN that the trustee's sale that occurred on (trustee's sale date) is rescinded and declared void because (insert the applicable reason(s) permitted under RCW 61.24.050(2)(a)).

The trustee's sale occurred pursuant to that certain Notice of Trustee's Sale dated . . . . . . , recorded . . . . . . , under Auditor's File No. . . . . . . , records of . . . . . . County, Washington, and that certain Deed of Trust dated . . . . . . , recorded . . . . . . , under Auditor's File No. . . . . . . , records of . . . . . . (Legal description)

Commonly known as (common property address)

(5) If the reason for the rescission stems from subsection (2)(a)(i) or (ii) of this section, the trustee may set a new sale date not less than forty-five days following the mailing of the notice of rescission of trustee's sale. The trustee shall:

(a) Comply with the requirements of RCW 61.24.040(1) (a) through (d) at least thirty days before the new sale date; and
Sec. 5. RCW 61.24.130 and 2008 c 153 s 5 are each amended to read as follows:

(1) Nothing contained in this chapter shall prejudice the right of the borrower, grantor, any guarantor, or any person who has an interest in, lien, or claim of lien against the property or some part thereof, to restrain, on any proper legal or equitable ground, a trustee's sale. The court shall require as a condition of granting the restraining order or injunction that the applicant pay to the clerk of the court the sums that would be due on the obligation secured by the deed of trust if the deed of trust was not being foreclosed:

(a) In the case of default in making the periodic payment of principal, interest, and reserves, such sums shall be the periodic payment of principal, interest, and reserves paid to the clerk of the court every thirty days.

(b) In the case of default in making payment of an obligation then fully payable by its terms, such sums shall be the amount of interest accruing monthly on said obligation at the nonevent default rate, paid to the clerk of the court every thirty days.

In the case of default in performance of any nonmonetary obligation secured by the deed of trust, the court shall impose such conditions as it deems just.

In addition, the court may condition granting the restraining order or injunction upon the giving of security by the applicant, in such form and amount as the court deems proper, for the payment of such costs and damages, including attorneys' fees, as may be later found by the court to have been incurred or suffered by any party by reason of the restraining order or injunction. The court may consider, upon proper showing, the grantor's equity in the property in determining the amount of said security.

(2) No court may grant a restraining order or injunction to restrain a trustee's sale unless the person seeking the restraint gives five days notice to the trustee of the time when, place where, and the judge before whom the application for the restraining order or injunction is to be made. This notice shall include copies of all pleadings and related documents to be given to the judge. No judge may act upon such application unless it is accompanied by proof, evidenced by return of a sheriff, the sheriff's deputy, or by any person eighteen years of age or over who is competent to be a witness, that the notice has been served on the trustee.

(3) If the restraining order or injunction is dissolved after the date of the trustee's sale set forth in the notice as provided in RCW 61.24.040((1)(f)) (2), the court granting such restraining order or injunction, or before whom the order or injunction is returnable, shall, at the request of the trustee, set a new sale date which shall be not less than forty-five days from the date of the order dissolving the restraining order. The trustee shall:

(a) Comply with the requirements of RCW 61.24.040(1) (a) through ((4)) (e) at least thirty days before the new sale date; and

(b) Cause a copy of the notice of trustee's sale as provided in RCW 61.24.040((1)(f)) (2) to be published in a legal newspaper in each county in which the property or any part thereof is situated once between the thirty-fifth and twenty-eighth day before the sale and once between the fourteenth and seventh day before the sale.

(4) If a trustee's sale has been stayed as a result of the filing of a petition in federal bankruptcy court and an order is entered in federal bankruptcy court granting relief from the stay or closing or dismissing the case, or discharging the debtor with the effect of removing the stay, the trustee may set a new sale date which shall not be less than forty-five days after the date of the bankruptcy court's order. The trustee shall:

(a) Comply with the requirements of RCW 61.24.040(1) (a) through ((4)) (e) at least thirty days before the new sale date; and

(b) Cause a copy of the notice of trustee's sale as provided in RCW 61.24.040((1)(f)) (2) to be published in a legal newspaper in each county in which the property or any part thereof is situated, once between the thirty-fifth and twenty-eighth day before the sale and once between the fourteenth and seventh day before the sale.

(5) Subsections (3) and (4) of this section are permissive only and do not prohibit the trustee from proceeding with a trustee's sale following termination of any injunction or stay on any date to which such sale has been properly continued in accordance with RCW 61.24.040((1)(f)) (10).

(6) The issuance of a restraining order or injunction shall not prohibit the trustee from continuing the sale as provided in RCW 61.24.040((1)(f)) (10).

Sec. 6. RCW 61.24.163 and 2014 c 164 s 3 are each amended to read as follows:

(1) The foreclosure mediation program established in this section applies only to borrowers who have been referred to mediation by a housing counselor or attorney. The referral to mediation may be made any time after a notice of default has been issued but no later than twenty days after the date a notice of sale has been recorded. If the borrower has failed to elect to mediate within the applicable time frame, the borrower and the beneficiary may, but are under no duty to, agree in writing to enter the foreclosure mediation program. The mediation program under this section is not governed by chapter 7.07 RCW and does not preclude mediation required by a court or other provision of law.

(2) A housing counselor or attorney referring a borrower to mediation shall send a notice to the borrower and the department, stating that mediation is appropriate.

(3) Within ten days of receiving the notice, the department shall:

(a) Send a notice to the beneficiary, the borrower, the housing counselor or attorney who referred the borrower, and the trustee stating that the parties have been referred to mediation. The notice must include the statements and list of documents and information described in subsections (4) and (5) of this section and a statement explaining each party's responsibility to pay the mediator's fee; and

(b) Select a mediator and notify the parties of the selection.

(4) Within twenty-three days of the department's notice that the parties have been referred to mediation, the borrower shall transmit the documents required for mediation to the mediator and the beneficiary. The required documents include an initial ((Making Home Affordable Application (HAMP) package or such other equivalent)) homeowner financial information worksheet as required by the department. ((In the event the department is required to create a worksheet)) The worksheet must include, at a minimum, the following information:

(a) The borrower's current and future income;
(b) Debts and obligations;
(c) Assets;
(d) Expenses;
(e) Tax returns for the previous two years;
(f) Hardship information;
(g) Other applicable information commonly required by any applicable federal mortgage relief program.

(5) Within twenty days of the beneficiary's receipt of the borrower's documents, the beneficiary shall transmit the
documents required for mediation to the mediator and the borrower. The required documents include:
   (a) An accurate statement containing the balance of the loan within thirty days of the date on which the beneficiary's
documents are due to the parties;
   (b) Copies of the note and deed of trust;
   (c) Proof that the entity claiming to be the beneficiary is the
owner of any promissory note or obligation secured by the deed
of trust. Sufficient proof may be a copy of the declaration
described in RCW 61.24.030(7)(a);
   (d) The best estimate of any arrearage and an itemized
statement of the arrearages;
   (e) An itemized list of the best estimate of fees and charges
outstanding;
   (f) The payment history and schedule for the preceding twelve
months, or since default, whichever is longer, including a
breakdown of all fees and charges claimed;
   (g) All borrower-related and mortgage-related input data used
in any net present values analysis. If no net present values analysis
is required by the applicable federal mortgage relief program,
then the input data required under the federal deposit insurance
corporation and published in the federal deposit insurance
corporation loan modification program guide, or if that
calculation becomes unavailable, substantially similar input data
as determined by the department;
   (h) An explanation regarding any denial for a loan
modification, forbearance, or other alternative to foreclosure in
sufficient detail for a reasonable person to understand why the
decision was made;
   (i) Appraisal or other broker price opinion most recently relied
upon by the beneficiary not more than ninety days old at the time
of the scheduled mediation; and
   (j) The portion or excerpt of the pooling and servicing
agreement or other investor restriction that prohibits the
beneficiary from implementing a modification, if the beneficiary
claims it cannot implement a modification due to limitations in a
pooling and servicing agreement or other investor restriction, and
documentation or a statement detailing the efforts of the
beneficiary to obtain a waiver of the pooling and servicing
agreement or other investor restriction provisions.

(6) Within seventy days of receiving the referral from the
department, the mediator shall convene a mediation session in the
county where the property is located, unless the parties agree on
another location. The parties may agree to extend the time in
which to schedule the mediation session. If the parties agree to
extend the time, the beneficiary shall notify the trustee of the
extension and the date the mediator is expected to issue the
mediator's certification.

(7)(a) The mediator may schedule phone conferences,
consultations with the parties individually, and other
communications to ensure that the parties have all the necessary
information and documents to engage in a productive mediation.

(b) The mediator must send written notice of the time, date, and
location of the mediation session to the borrower, the beneficiary,
and the department at least thirty days prior to the mediation
session. At a minimum, the notice must contain:
   (i) A statement that the borrower may be represented in the
mediation session by an attorney or other advocate;
   (ii) A statement that a person with authority to agree to a
resolution, including a proposed settlement, loan modification,
or dismissal or continuation of the foreclosure proceeding, must be
present either in person or on the telephone or videoconference
during the mediation session; and
   (iii) A statement that the parties have a duty to mediate in good
faith and that failure to mediate in good faith may impair the
beneficiary's ability to foreclose on the property or the borrower's
ability to modify the loan or take advantage of other alternatives
to foreclosure.

(8)(a) The borrower, the beneficiary or authorized agent, and
the mediator must meet in person for the mediation session.
However, a person with authority to agree to a resolution on
behalf of the beneficiary may be present over the telephone or
videoconference during the mediation session.

(b) After the mediation session commences, the mediator may
continue the mediation session once, and any further
continuances must be with the consent of the parties.

(9) The participants in mediation must address the issues of
foreclosure that may enable the borrower and the beneficiary to
reach a resolution, including but not limited to reinstatement,
modification of the loan, restructuring of the debt, or some other
workout plan. To assist the parties in addressing issues of
foreclosure, the mediator may require the participants to consider
the following:
   (a) The borrower's current and future economic circumstances,
including the borrower's current and future income, debts, and
obligations for the previous sixty days or greater time period as
determined by the mediator;
   (b) The net present value of receiving payments pursuant to a
modified mortgage loan as compared to the anticipated net
recovery following foreclosure;
   (c) Any affordable loan modification calculation and net
present value calculation when required under any federal
mortgage relief program((including the home affordable
modification program (HAMP) as applicable to government-
sponsored enterprise and nongovernment-sponsored enterprise
loans)) and any ((HAMP-related)) modification program
((applicable)) related to loans insured by the federal housing
administration, the veterans administration, and the rural housing
service. If such a calculation is not provided or required, then the
beneficiary must provide the net present value data inputs
established by the federal deposit insurance corporation and
published in the federal deposit insurance corporation loan
modification program guide or other net present value data inputs
as designated by the department. The mediator may run the
calculation in order for a productive mediation to occur and to
comply with the mediator certification requirement; and
   (d) Any other loss mitigation guidelines to loans insured by the
federal housing administration, the veterans administration, and
the rural housing service, if applicable.

(10) A violation of the duty to mediate in good faith as required
under this section may include:
   (a) Failure to timely participate in mediation without good
cause;
   (b) Failure of the borrower or the beneficiary to provide the
documentation required before mediation or pursuant to the
mediator's instructions;
   (c) Failure of a party to designate representatives with adequate
authority to fully settle, compromise, or otherwise reach
resolution with the borrower in mediation; and
   (d) A request by a beneficiary that the borrower waive future
claims he or she may have in connection with the deed of trust, as
a condition of agreeing to a modification, except for rescission
claims under the federal truth in lending act. Nothing in this
section precludes a beneficiary from requesting that a borrower
dismiss with prejudice any pending claims against the
beneficiary, its agents, loan servicer, or trustee, arising from the
underlying deed of trust, as a condition of modification.

(11) If the mediator reasonably believes a borrower will not
attend a mediation session based on the borrower's conduct, such
as the lack of response to the mediator's communications, the
mediator may cancel a scheduled mediation session and send a
written cancellation to the department and the trustee and send
copies to the parties. The beneficiary may proceed with the foreclosure after receipt of the mediator’s written confirmation of cancellation.

(12) Within seven business days after the conclusion of the mediation session, the mediator must send a written certification to the department and the trustee and send copies to the parties of:
(a) The date, time, and location of the mediation session;
(b) The names of all persons attending in person and by telephone or videoconference, at the mediation session;
(c) Whether a resolution was reached by the parties, including whether the default was cured by reinstatement, modification, or restructuring of the debt, or some other alternative to foreclosure was agreed upon by the parties;
(d) Whether the parties participated in the mediation in good faith; and
(e) If a written agreement was not reached, a description of any net present value test used, along with a copy of the inputs, including the result of any net present value test expressed in a dollar amount.

(13) If the parties are unable to reach an agreement, the beneficiary may proceed with the foreclosure after receipt of the mediator’s written certification.

(14)(a) The mediator’s certification that the beneficiary failed to act in good faith during mediation constitutes a defense to the nonjudicial foreclosure action that was the basis for initiating the mediation. In any action to enjoin the foreclosure, the beneficiary is entitled to rebut the allegation that it failed to act in good faith.
(b) The mediator’s certification that the beneficiary failed to act in good faith during mediation does not constitute a defense to a judicial foreclosure or a future nonjudicial foreclosure action if a modification of the loan is agreed upon and the borrower subsequently defaults.

(c) If an affordable loan modification is not offered in the mediation or a written agreement was not reached and the mediator’s certification shows that the net present value of the modified loan exceeds the anticipated net recovery at foreclosure, that showing in the certification constitutes a basis for the borrower to enjoin the foreclosure.

(15) The mediator’s certification that the borrower failed to act in good faith in mediation authorizes the beneficiary to proceed with the foreclosure.

(16)(a) If a borrower has been referred to mediation before a notice of trustee sale has been recorded, a trustee may not record the notice of sale until the trustee receives the mediator’s certification stating that the mediation has been completed. If the trustee does not receive the mediator’s certification, the trustee may record the notice of sale after ten days from the date the certification to the trustee was due. If, after a notice of sale is recorded under this subsection (16)(a), the mediator subsequently issues a certification finding that the beneficiary violated the duty of good faith, the certification constitutes a basis for the borrower to enjoin the foreclosure.
(b) If a borrower has been referred to mediation after the notice of sale was recorded, the sale may not occur until the trustee receives the mediator’s certification stating that the mediation has been completed.

(17) A mediator may charge reasonable fees as authorized by this subsection or as authorized by the department. Unless the fee is waived, the parties agree otherwise, or the department otherwise authorizes, a foreclosure mediator’s fee may not exceed four hundred dollars for preparing, scheduling, and conducting a mediation session lasting between one hour and three hours. For a mediation session exceeding three hours, the foreclosure mediator may charge a reasonable fee, as authorized by the department. The mediator must provide an estimated fee before the mediation, and payment of the mediator’s fee must be divided equally between the beneficiary and the borrower. The beneficiary and the borrower must tender the loan mediator’s fee within thirty calendar days from receipt of the department’s letter referring the parties to mediation or pursuant to the mediator’s instructions.

(18) Beginning December 1, 2012, and every year thereafter, the department shall report annually to the legislature on:
(a) The performance of the program, including the numbers of borrowers who are referred to mediation by a housing counselor or attorney;
(b) The results of the mediation program, including the number of mediations requested by housing counselors and attorneys, the number of certifications of good faith issued, the number of borrowers and beneficiaries who failed to mediate in good faith, and the reasons for the failure to mediate in good faith, if known, the numbers of loans restructured or modified, the change in the borrower’s monthly payment for principal and interest and the number of principal write-downs and interest rate reductions, and, to the extent practical, the number of borrowers who report a default within a year of restructuring or modification;
(c) The information received by housing counselors regarding outcomes of foreclosures; and
(d) Any recommendations for changes to the statutes regarding the mediation program.

Sec. 7. RCW 61.24.173 and 2016 c 196 s 2 are each amended to read as follows:
(1) Except as provided in subsections (((4) and)) (5) and (6) of this section, beginning July 1, 2016, and every quarter thereafter, every beneficiary on whose behalf a notice of trustee’s sale has been recorded pursuant to RCW 61.24.040 on residential real property under this chapter must:
(a) Report to the department the number of notices of trustee’s sale recorded for each residential property during the previous quarter;
(b) Remit the amount required under subsection (2) of this section; and
(c) Report and update beneficiary contact information for the person and work group responsible for the beneficiary’s compliance with the requirements of the foreclosure fairness act created in this chapter.

(2) For each notice of trustee’s sale recorded on residential real property, the beneficiary on whose behalf the notice of trustee’s sale has been recorded shall remit ((two)) three hundred ((twenty-five)) twenty-five dollar payment, as required under RCW 61.24.174, into the foreclosure fairness account. The ((two)) three hundred ((fifty)) twenty-five dollar payment is required for every recorded notice of trustee’s sale for noncommercial loans on residential real property, but does not apply to the recording of an amended notice of trustee’s sale. (If the beneficiary previously made a payment under RCW 61.24.174, as it existed prior to July 1, 2016, for a notice of default supporting the recorded notice of trustee’s sale, no payment is required under this section.) No later than January 1, 2020, the department may from time to time adjust the amount of the fee, not to exceed three hundred twenty-five dollars, at a sufficient level to defray the costs of the program. The beneficiary shall remit the total amount required in a lump sum each quarter.

(3) Any adjustment to the amount of the fee, pursuant to the authority of subsection (2) of this section, shall be made by rule adopted by the department in accordance with the provisions of chapter 34.05 RCW.

(4) Reporting and payments under subsections (1) and (2) of this section are due within forty-five days of the end of each quarter.
and if there are no substantive allegations that seek damages from an action or proceeding in which that deed of trust is the subject, the trustee or seek to enjoin the foreclosure based on any alleged unlawful actions or omissions by the trustee, including causes of action where the trustee is a codefendant alleged to be jointly or derivatively liable with respect to the trustee's conduct as to the borrower or the trustee's statutory obligations, not less than thirty-five days after service of the summons and complaint on the trustee, the trustee may file a declaration of nonmonetary status. The declaration must be served on the parties in the manner set forth in superior court civil rule (CR) 5.

NEW SECTION. Sec. 8. A new section is added to chapter 61.24 RCW to read as follows:

(1) If a trustee under a deed of trust is named as a defendant in an action or proceeding in which that deed of trust is the subject, and if there are no substantive allegations that seek damages from the trustee or seek to enjoin the foreclosure based on any alleged unlawful actions or omissions by the trustee, including causes of action where the trustee is a codefendant alleged to be jointly or derivatively liable with respect to the trustee's conduct as to the borrower or the trustee's statutory obligations, not less than thirty-five days after service of the summons and complaint on the trustee, the trustee may file a declaration of nonmonetary status. The declaration must be served on the parties in the manner set forth in superior court civil rule (CR) 5.

(2) The declaration of nonmonetary status must set forth:

(a) The status of the trustee as trustee under the deed of trust that is the subject of the action or proceeding;

(b) That the complaint or pleading does not assert any substantive allegations that seek damages from the trustee or seek to enjoin the foreclosure based on any alleged unlawful actions or omissions by the trustee;

(c) That it has been named as a defendant in the proceeding solely in its capacity as a trustee under the deed of trust and that the trustee agrees to be bound by whatever order or judgment is issued by the court regarding the subject deed of trust;

(d) A statement printed in no less than twelve-point font and bolded that reads:

"You have 30 days from service of this declaration to file and serve an objection with the court in compliance with RCW 61.24.--- (this section). If you do not timely object, the trustee will be deemed a nominal party to this action and you may not seek monetary relief against it. Your case may also be removed to federal court if the trustee was the only defendant domiciled in Washington."

(3) The parties who have appeared in the action or proceeding have thirty days from the service of the declaration by the trustee in which to object to the declaration of nonmonetary status of the trustee. Any objection must set forth the allegations against the trustee in a manner sufficient to satisfy the pleading standard of superior court civil rule (CR) 8(a).

(4) The objection must:

(a) Conform to superior court civil rule (CR) 10 and the caption must include the following identification: "Objection to Declaration of Nonmonetary Status of Defendant trustee;

(b) Contain a short and plain statement of the claim against defendant trustee as described in the complaint, showing that the plaintiff is entitled to relief. Allegations against the trustee may not be raised for the first time in the objection;

(c) Be filed with the court within thirty days of service of the trustee's declaration of nonmonetary status described in subsection (1) of this section;

(d) Be served on the trustee in the manner set forth in superior court civil rule (CR) 5.

(5) Upon filing of a timely objection with the court and timely service of the objection, the trustee must thereafter be required to participate in the action or proceeding.

(6) If an objection is not filed and served within the thirty-day objection period, the trustee: Is not required to participate any further in the action or proceeding; is not subject to any monetary awards as and for damages, attorneys’ fees, or costs; and is bound by any court order relating to the subject deed of trust that is the subject of the action or proceeding. The trustee's nonmonetary status is not established until the thirty-day objection period has passed without filing and service of an objection pursuant to subsection (5) of this section.

(7) In the event a party or parties elect not to or fail to timely object to the declaration of nonmonetary status, but later through discovery or otherwise determine that the trustee should participate in the action, the parties may file and serve on all parties and the trustee a motion pursuant to superior court civil rule (CR) 15. Upon the court's granting of the motion, the trustee must thereafter be required to participate in the action or proceeding, and the court must provide sufficient time before trial for the trustee to be able to respond to the complaint, to conduct discovery, and to bring other pretrial motions in accordance with Washington superior court civil rules.

(8) Upon the filing of the declaration of nonmonetary status, the time within which the trustee is required to file an answer or other responsive pleading is tolled for the period of time within which the opposing parties may object to the declaration. Upon the timely service of an objection to the declaration of nonmonetary status, the trustee has thirty days from the date of service within which to file an answer or other responsive pleading to the complaint or cross-complaint.

(9) For purposes of this section, "trustee" includes any agent or employee of the trustee who performs some or all the duties of a trustee under this chapter and includes substituted trustees and agents of the trustee.

(10) If upon objection to the trustee's declaration of nonmonetary status the court finds that the declaration was filed without sufficient support based upon the allegations made in the complaint, the court may award the plaintiff attorneys' fees and costs associated with the objection together with any actual damages demonstrated. Any award may be made after notice and hearing with submission of evidence of the attorneys' fees and damages.

NEW SECTION. Sec. 9. A new section is added to chapter 61.12 RCW to read as follows:

(1) Before any mortgagee of residential real property commences any legal action under RCW 61.12.040 to foreclose any reverse residential mortgage, such person shall give the mortgagor notice of such intention at least thirty-three days in advance. For the purposes of this section "residential real property" means property consisting solely of a single-family residence, a two-to-four-unit owner occupied dwelling, a residential condominium unit, a manufactured home, or a residential cooperative unit.

(2) Notice of intention to take action as specified in subsection (1) of this section must be in writing and sent to the resident mortgagor or, in case of the death of the last surviving mortgagor, addressed to any known surviving spouse or to "unknown heirs" of the residential mortgagor, by first-class and either certified or registered mail, return receipt requested, at his or her last known address and, if different, at the residence which is the subject of the residential mortgage.

(3) The written notice must be in English and Spanish, in a form to be published by the department of commerce, and must clearly and conspicuously state:
(a) The particular obligation or real estate security interest;
(b) The nature of the default claimed or the reason for acceleration of the mortgage;
(c) Except in cases where the acceleration is due to the death of the last surviving mortgagor, the right, if any, of the mortgagor to cure the default and exactly what performance, including what sum of money, if any, must be tendered to cure the default;

MOTION

Senator Nelson moved that the following striking amendment no. 832 by Senator Nelson be adopted:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature finds that despite existing equal pay laws, there continues to be a gap in wages and advancement opportunities among workers in Washington, especially women. Income disparities limit the ability of women to provide for their families, leading to higher rates of poverty among women and children. The legislature finds that in order to promote fairness among workers, employees must be compensated equitably. Further, policies that encourage retaliation or discipline towards workers who discuss or inquire about compensation prevent workers from moving forward.

The legislature intends to update the existing Washington state equal pay act, not modified since 1943, to address income disparities, employer discrimination, and retaliation practices, and to reflect the equal status of all workers in Washington state.

NEW SECTION. Sec. 2. The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Compensation" means discretionary and nondiscretionary wages and benefits provided by an employer to an employee as a result of the employment relationship.

(2) "Department" means the department of labor and industries.

(3) "Director" means the director of the department of labor and industries, or the director's designated representative.

(4) "Employee" means an employee who is employed in the business of the employee's employer whether by way of manual labor or otherwise.

(5) "Employer" means any person, firm, corporation, partnership, business trust, legal representative, or other business entity which engages in any business, industry, profession, or activity in this state and employs one or more employees, and includes the state, any state institution, state agency, political subdivisions of the state, and any municipal corporation or quasi-municipal corporation.

Sec. 3. RCW 49.12.175 and 1943 c 254 s 1 are each amended to read as follows:

(1) Any employer in this state((employing both males and females, who shall discriminate in any way in the payment of wages as between sexes or who shall pay any female a less wage, be it time or piece work, or salary, than is being paid to males)) who discriminates in any way in providing compensation based on gender between similarly employed((or in any employment formerly performed by males, shall be)) employees of the employer is guilty of a misdemeanor. If any ((female)) employee ((shall)) receives less compensation because of ((being discriminated against)) discrimination on account of ((her sex, and)) gender in violation of this section, ((she shall be)) that employee is entitled to ((recover in a civil action the full amount of compensation that she would have received had she not been discriminated against)) the remedies in sections 7 and 8 of this act. In such action, however, the employer shall be credited with any compensation which has been paid to ((her)) the employee upon account. ((A differential in wages between employees based in good faith on a factor or factors other than sex shall not constitute discrimination within the meaning of RCW 49.12.010 through 49.12.180.))

(2) For purposes of this section, employees are similarly employed if the individuals work for the same employer, the performance of the job requires similar skill, effort, and responsibility, and the jobs are performed under similar working conditions. Job titles alone are not determinative of whether employees are similarly employed.

(3)(a) Discrimination within the meaning of this section does not include a differential in compensation based in good faith on a bona fide job-related factor or factors that:

(i) Are consistent with business necessity;

(ii) Are not based on or derived from a gender-based differential; and

(iii) Account for the entire differential. More than one factor may account for the differential.

(b) Such bona fide factors include, but are not limited to:

(i) Education, training, or experience;

(ii) A seniority system;

(iii) A merit system;

(iv) A system that measures earnings by quantity or quality of production; or

(v) A bona fide regional difference in compensation levels.

(c) A differential in compensation based in good faith on a local government ordinance providing for a minimum wage different from state law does not constitute discrimination under this section.

(d) An individual's previous wage or salary history is not a defense under this section.
(e) The employer carries the burden of proof on these defenses.

NEW SECTION. Sec. 4. (1) The legislature finds that equality of opportunity for advancement is key to reducing income disparities based on gender. The legislature further finds that using gender as a factor in advancement contributes to pay inequity.

(2) An employer may not, on the basis of gender, limit or deprive an employee of career advancement opportunities that would otherwise be available.

(3) A differential in career advancement based on a bona fide job-related factor or factors that meet the criteria in RCW 49.12.175(3)(a) (i) through (iii) (as recodified by this act) does not constitute discrimination within the meaning of this section. Such bona fide factors include, but are not limited to, the factors specified in RCW 49.12.175(3)(b) (i) through (iv) (as recodified by this act).

(4)(a) If it is determined that an employer committed a pattern of violations of this section as to an employee or committed a violation of this section through application of a formal or informal employer policy or practice, the employee is entitled to the remedies in this section and in section 8 of this act.

(b) Upon complaint by an employee, the director must investigate to determine if there has been compliance with this section and the rules adopted to implement this section. The director, upon complaint, may also initiate an investigation on behalf of one or more employees for a violation of this section and the rules adopted to implement this section. The director may require the testimony of witnesses and production of documents as part of an investigation.

(c) If the director determines that a violation occurred, the director shall attempt to resolve the violation by conference and conciliation.

(d) If no agreement is reached to resolve the violation and the director determines that the employer committed a pattern of violations of this section as to an employee or committed a violation of this section through application of a formal or informal employer policy or practice, the director may issue a citation and notice of assessment and order:

(i) The employer to pay to the employee actual damages, statutory damages equal to the actual damages or five thousand dollars, whichever is greater, and interest of one percent per month on all compensation owed;

(ii) The employer to pay to the department the costs of investigation and enforcement; and

(iii) Any other appropriate relief.

(e) In addition to the citation and notice of assessment, if the director determines that the employer committed a pattern of violations of this section as to an employee or committed a violation of this section through application of a formal or informal employer policy or practice, the director may require payment to the department of a civil penalty. The violation as to each affected employee constitutes a separate violation.

(i) For a first violation, the civil penalty may not exceed five hundred dollars.

(ii) For a repeat violation, the civil penalty may not exceed one thousand dollars or ten percent of the damages, whichever is greater.

(f) Section 7 (3), (4), and (5) of this act applies to this section.

NEW SECTION. Sec. 5. (1) An employer may not:

(a) Require nondisclosure by an employee of his or her wages as a condition of employment; or

(b) Require an employee to sign a waiver or other document that prevents the employee from disclosing the amount of the employee's wages.

(2) An employer may not discharge or in any other manner retaliate against an employee for:

(a) Inquiring about, disclosing, comparing, or otherwise discussing the employee's wages or the wages of any other employee;

(b) Asking the employer to provide a reason for the employee's wages or lack of opportunity for advancement; or

(c) Aiding or encouraging an employee to exercise his or her rights under this section.

(3) An employer may prohibit an employee who has access to compensation information of other employees or applicants as part of such employee's essential job functions from disclosing the wages of the other employees or applicants to individuals who do not otherwise have access to such information, unless the disclosure is in response to a complaint or charge, in furtherance of an investigation, or consistent with the employer's legal duty to provide the information and the disclosure is part of the employee's essential job functions. An employee described in this subsection otherwise has the protections of this section, including to disclose the employee's wages without retaliation.

(4) This section does not require an employee to disclose the employee's compensation.

(5) This section does not permit an employee to violate the requirements in chapter 49.17 RCW and rules adopted under that chapter.

NEW SECTION. Sec. 6. An employer may not retaliate, discharge, or otherwise discriminate against an employee because the employee has filed any complaint, or instituted or caused to be instituted any proceeding under this chapter, or has testified or is about to testify in any such proceeding, or because of the exercise by such employee on behalf of himself or herself or others of any right afforded by this chapter.

NEW SECTION. Sec. 7. (1) Upon complaint by an employee, the director must investigate to determine if there has been compliance with RCW 49.12.175 (as recodified by this act), sections 5 and 6 of this act, and the rules adopted under this chapter. The director, upon complaint, may also initiate an investigation on behalf of one or more employees for a violation of RCW 49.12.175 (as recodified by this act), sections 5 and 6 of this act, and the rules adopted under this chapter. The director may require the testimony of witnesses and production of documents as part of an investigation.

(2) If the director determines that a violation occurred, the director shall attempt to resolve the violation by conference and conciliation.

(a) If no agreement is reached to resolve the violation, the director may issue a citation and notice of assessment and order the employer to pay to the complainant actual damages; statutory damages equal to the actual damages or five thousand dollars, whichever is greater; interest of one percent per month on all compensation owed; payment to the department of the costs of investigation and enforcement; and any other appropriate relief.

(b) In addition to the citation and notice of assessment, the director may order payment to the department of a civil penalty. For purposes of a civil penalty for violation of RCW 49.12.175 (as recodified by this act) and section 6 of this act, the violation as to each affected employee constitutes a separate violation.

(i) For a first violation, the civil penalty may not exceed five hundred dollars.

(ii) For a repeat violation, the civil penalty may not exceed one thousand dollars or ten percent of the damages, whichever is greater.

(f) Section 7 (3), (4), and (5) of this act applies to this section.
The court may also order reinstatement and injunctive relief. The requirements or benefits provided under this chapter.

The requirements of this chapter for any private employer; or

may not enact a charter, ordinance, regulation, rule, or resolution:

wages and interest owed must be calculated from ten years prior to the complaint.

NEW SECTION. Sec. 8. (1) Subject to subsection (2) of this section, an employee may bring a civil action against an employer for violation of RCW 49.12.175 (as recodified by this act) and sections 4 through 6 of this act for actual damages; statutory damages equal to the actual damages or five thousand dollars, whichever is greater; interest of one percent per month on all compensation owed; and costs and reasonable attorneys' fees. The court may also order reinstatement and injunctive relief. The employee must bring a civil action within three years of the date of the alleged violation of this chapter regardless of whether the employee pursued an administrative complaint. Recovery of any wages and interest owed must be calculated from ten years prior to the date of filing the civil action.

(2) An employee alleging a violation of section 4 of this act is entitled to relief only if the court determines that the employer committed a pattern of violations as to the employee or committed a violation through application of a formal or informal employer policy or practice.

(3) A city, code city, town, county, or political subdivision may not enact a charter, ordinance, regulation, rule, or resolution:

(a) Creating a gender pay equity program that alters or amends the requirements of this chapter for any private employer;

(b) Providing for local enforcement of the provisions of this chapter;

(c) Requiring private employers to supplement the requirements or benefits provided under this chapter or to take additional actions or refrain from actions beyond the requirements of this chapter.

MOTION

Senator Baumgartner demanded a roll call.

The President declared that one-sixth of the members supported the demand and the demand was sustained.

Senator Keiser spoke against adoption of the amendment to the striking amendment.

POINT OF INQUIRY

Senator Baumgartner: “Thank you Mr. President, would like to ask if Senator Keiser would yield to a question?”

President Habib: “Senator Keiser? She does not.”

Senator Baumgartner: “Okay, well I will make my comment as a rhetorical question to the people.”

President Habib: “You can make it to me.”

Senator Baumgartner: “To you Senator, excuse me, Mr., Mr. President. I hope and I question whether we can be sure that this important preemption amendment will remain as part of this underlying legislation so I would ask, Mr. President, if we had any sense of the level of confidence that we can be sure that this bill would pass in final form with preemption as part? That would be the question. Can we vote today against my striker knowing that we will have confidence, or against my amendment on preemption, knowing that we will have confidence that the underlying bill will maintain preemption if it passes in final form? That is the question I would have asked Senator Keiser. And I think it is germane to the debate. And I think this is the people’s house and you ought to stand up and answer questions in front of the people.”

The President declared the question before the Senate to be the adoption of amendment no. 838 by Senator Baumgartner on page 3, after line 12 to striking amendment no. 832.

President Habib: “No? Senator Baumgartner.”

Senator Baumgartner: “She’s standing. I think she’s yielding.”

Senator Keiser: “Yeah, I yield Mr. President.”

President Habib: “Alright, Senator Baumgartner please proceed.”

Senator Baumgartner: “Senator Keiser, there seems to be some confusion over this bill. Was this bill, subject to the striker, did it go through a public hearing process where people could weigh in on the striker?”

Senator Keiser: “As you know because you are on the Labor and Commerce Committee, we have had many many hearings on proposals, several different ones over the last three years on equal pay. This last striker, like many strikers that we had, was a culmination of many of those discussions and questions and concerns. But this is not Parliament. We don’t need to go through a question period.”

However, I will want to point out, Mr. President, the irony of the picture text I just received. Again, she is not listening to anything that is going on here tonight. (12) Should the recipient terminate his or her enrollment for any reason during the academic year, the unused portion of the scholarship tuition units shall revert to the Washington college bound scholarship account.

Sec. 2. RCW 28B.145.030 and 2014 c 208 s 3 are each amended to read as follows:

(1) The program administrator, under contract with the council, shall staff the board and shall have the duties and responsibilities provided in this chapter, including but not limited to publicizing the program, selecting participants for the opportunity scholarship award, distributing opportunity scholarship awards, and achieving the maximum possible rate of return on investment of the accounts in subsection (2) of this section, while ensuring transparency in the investment decisions and processes. Duties, exercised jointly with the board, include soliciting funds and setting annual fund-raising goals. The program administrator shall be paid an administrative fee as determined by the board.

(2) With respect to the opportunity scholarship program, the program administrator shall:

(a) Establish and manage two separate accounts into which to receive grants and contributions from private sources as well as state matching funds, and from which to disburse scholarship funds to participants;

(b) Solicit and accept grants and contributions from private sources, via direct payment, pledge agreement, or escrow account, of private sources for deposit into one or both of the two accounts created in this subsection (2)(b) in accordance with this subsection (2)(b):

(i) The "scholarship account," whose principal may be invaded, and from which scholarships must be disbursed beginning no later than December 1, 2011, if, by that date, state matching funds in the amount of five million dollars or more have been received. Thereafter, scholarships shall be disbursed on an annual basis beginning no later than May 1, 2012, and every October 1st thereafter;

(ii) The "endowment account," from which scholarship moneys may be disbursed from earnings only in years when:

(A) The state match has been made into both the scholarship and the endowment account;

(B) The state appropriations for the state need grant under RCW 28B.92.010 meet or exceed state appropriations for the state need grant made in the 2011-2013 biennium, adjusted for inflation, and eligibility for state need grant recipients is at least seventy percent of state median family income; and

(C) The state has demonstrated progress toward the goal of total per-student funding levels, from state appropriations plus tuition and fees, of at least the sixtieth percentile of total per-student funding at similar public institutions of higher education in the global challenge states, as defined, measured, and reported in RCW 28B.15.068. In any year in which the office of financial management reports that the state has not made progress toward this goal, no new scholarships may be awarded. In any year in which the office of financial management reports that the percentile of total per-student funding is less than the sixtieth percentile and at least five percent less than the prior year, pledges of future grants and contributions may, at the request of the donor, be released and grants and contributions already received refunded to the extent that opportunity scholarship awards already made can be fulfilled from the funds remaining in the endowment account. In fulfilling the requirements of this subsection, the office of financial management shall use resources that facilitate measurement and comparisons of the most recently completed academic year. These resources may include, but are not limited to, the data provided in a uniform dashboard format under RCW 28B.77.090 as the statewide public four-year dashboard and academic year reports prepared by the state board for community and technical colleges;

(iii) An amount equal to at least fifty percent of all grants and contributions must be deposited into the scholarship account until such time as twenty million dollars have been deposited into the account, after which time the private donors may designate whether their contributions must be deposited to the scholarship or the endowment account. The board and the program administrator must work to maximize private sector contributions to both the scholarship account and the endowment account, to maintain a robust scholarship program while simultaneously building the endowment, and to determine the division between the two accounts in the case of undesignated grants and contributions, taking into account the need for a long-term...
funding mechanism and the short-term needs of families and students in Washington. The first five million dollars in state match, as provided in RCW 28B.145.040, shall be deposited into the scholarship account and thereafter the state match shall be deposited into the two accounts in equal proportion to the private funds deposited in each account; and

(iv) Once moneys in the opportunity scholarship match transfer account are subject to an agreement under RCW 28B.145.050(5) and are deposited in the scholarship account or endowment account under this section, the state acts in a fiduciary rather than ownership capacity with regard to those assets. Assets in the scholarship account and endowment account are not considered state money, common cash, or revenue to the state;

(c) Provide proof of receipt of grants and contributions from private sources to the council, identifying the amounts received by name of private source and date, and whether the amounts received were deposited into the scholarship or the endowment account;

(d) In consultation with the council and the state board for community and technical colleges, make an assessment of the reasonable annual eligible expenses associated with eligible education programs identified by the board;

(e) Determine the dollar difference between tuition fees charged by institutions of higher education in the 2008-09 academic year and the academic year for which an opportunity scholarship is being distributed;

(f) Develop and implement an application, selection, and notification process for awarding opportunity scholarships;

(g) Determine the annual amount of the opportunity scholarship for each selected participant. The annual amount shall be at least one thousand dollars or the amount determined under (e) of this subsection, but may be increased on an income-based, sliding scale basis up to the amount necessary to cover all reasonable annual eligible expenses as assessed pursuant to (d) of this subsection, or to encourage participation in baccalaureate degree programs identified by the board;

(h) Distribute scholarship funds to selected participants. Once awarded, and to the extent funds are available for distribution, an opportunity scholarship shall be automatically renewed as long as the participant annually submits documentation of filing both a free application for federal student aid and for available federal education tax credits, including but not limited to the American opportunity tax credit, or if ineligible to apply for federal student aid, the participant annually submits documentation of filing a state financial aid application as approved by the office of student financial assistance; and until the participant withdraws from or is no longer attending the program, completes the program, or has taken the credit or clock hour equivalent of one hundred twenty-five percent of the published length of time of the participant's program, whichever occurs first; (f) and as long as the participant annually submits documentation of filing both a free application for federal student aid and for available federal education tax credits, including but not limited to the American opportunity tax credit; and

(i) Notify institutions of scholarship recipients who will attend their institutions and inform them of the terms of the students' eligibility.

(3) With respect to the opportunity expansion program, the program administrator shall:

(a) Assist the board in developing and implementing an application, selection, and notification process for making opportunity expansion awards; and

(b) Solicit and accept grants and contributions from private sources for opportunity expansion awards.

Establishing a reporting process for the department of natural resources regarding certain marbled murrelet habitat information.

The measure was read the second time.

MOTION

Senator Van De Wege moved that the following committee striking amendment by the Committee on Ways & Means be adopted:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. (1) The legislature finds that the 1997 state trust lands habitat conservation plan and the proposed amendment related to the conservation of the marbled murrelet, which provide certainty for beneficiaries of affected state lands and state forestlands, present an important and ongoing issue for the people of the state of Washington. The legislature further finds that complying with the endangered species act is a necessary aspect of managing state trust lands. The lands that are the subject of the 1997 habitat conservation plan are held by the state in trust for the trust beneficiaries, and the proposed amendment to the 1997 state trust lands habitat conservation plan presents an opportunity for the legislature to engage in its role as a fiduciary of those lands.

(2) The legislature intends that the process set forth in this act will serve as a model for future processes in the event that there are any subsequent amendments to the 1997 state trust lands habitat conservation plan beyond those envisioned in this act.

NEW SECTION. Sec. 2. A new section is added to chapter 43.30 RCW under the subchapter heading "powers and duties--general" to read as follows:

(1)(a) By December 1, 2018, and each December 1st until the year after the United States fish and wildlife service issues an incidental take permit on the state trust land habitat conservation plan for the long-term conservation strategy for the marbled murrelet, the department must provide a report to the legislature, consistent with RCW 43.01.036, as required in this section.
or more representatives from the following categories:

(c) Each regular legislative session, the standing committee with jurisdiction over state trust land management from the house of representatives and senate must each hold a meeting, which may be held as a joint meeting, on the report required in this section and the habitat conservation plan update process.

(2) The report required in this section must annually include an economic analysis of potential losses or gains from any proposed marbled murrelet long-term conservation strategy selected by the board of natural resources, forwarded to or approved by the United States fish and wildlife service, and subsequently adopted by the board.

(3) The initial report required under this section must also include recommendations relating to the following, to be updated as appropriate in subsequent reports:

(a) Actions that support maintaining or increasing family-wage timber and related jobs in the affected rural communities, taking into account, as appropriate, the role of other market factors;
(b) Strategies to ensure no net loss of revenues to the trust beneficiaries due to the implementation of additional marbled murrelet conservation measures;
(c) Additional means of financing county services; and
(d) Additional reasonable, incentive-based, nonregulatory conservation measures for the marbled murrelet that also provide economic benefits to rural communities.

NEW SECTION. Sec. 3. A new section is added to chapter 43.30 RCW under the subchapter heading "powers and duties--general" to read as follows:

(1) To assist the department in developing and providing the report to the legislature required in section 2 of this act, the commissioner must appoint a marbled murrelet advisory committee.

(2) The marbled murrelet advisory committee may include one or more representatives from the following categories:

(a) State trust lands beneficiaries;
(b) Impacted state forestlands beneficiaries, including counties;
(c) Junior taxing districts;
(d) Environmental organizations;
(e) Local governments or an association representing local governments;
(f) Milling interests or an association representing milling interests;
(g) Private forest landowners or a statewide association representing private forest landowners; and
(h) Local public interest groups.

(3) The advisory committee required under this section may consult with relevant state and federal agencies and tribes.

NEW SECTION. Sec. 4. (1) Sections 2 and 3 of this act expire at the end of the calendar year following the issuance by the United States fish and wildlife service of an incidental take permit on the long-term conservation strategy for the marbled murrelet under the state trust lands habitat conservation plan and subsequent adoption by the board of natural resources.

(2) The department of natural resources must notify the chief clerk of the house of representatives, the secretary of the senate, and the office of the code reviser when the conditional expiration date of sections 1 and 2 of this act is satisfied.

On page 1, line 3 of the title, after "information;" strike the remainder of the title and insert "adding new sections to chapter 43.30 RCW; creating a new section; and providing a contingent expiration date;"

Strike everything after the enacting clause and insert the following:

"Sec. 1. RCW 39.58.010 and 2016 c 152 s 1 are each amended to read as follows:

In this chapter, unless the context otherwise requires:
(1) "Capitalization" means the measure or measures of capitalization, other than net worth, of a depository applying for designation as or operating as a public depository pursuant to this chapter, based upon regulatory standards of financial institution capitalization adopted by rule or resolution of the commission after consultation with the director of the department of financial institutions;

(2) "Collateral" means the particular assets pledged as security to insure payment or performance of the obligations under this chapter as enumerated in RCW 39.58.050;

(3) "Commission" means the Washington public deposit protection commission created under RCW 39.58.030;

(4) "Commission report" means a formal accounting rendered by all public depositaries to the commission in response to a demand for specific information made by the commission detailing pertinent affairs of each public depository as of the close of business on a specified date, which is the "commission report date." "Commission report due date" is the last day for the timely filing of a commission report;

(5) "Depositary pledge agreement" means a tripartite agreement executed by the commission with a financial institution and its designated trustee. Such agreement shall be approved by the directors or the loan committee of the financial institution and shall continuously be a record of the financial institution. New securities may be pledged under this agreement in substitution of or in addition to securities originally pledged without executing a new agreement;

(6) "Director of the department of financial institutions" means the Washington state director of the department of financial institutions;

(7) "Eligible collateral" means the securities or letters of credit enumerated in RCW 39.58.050 (5), (6), and (7);

(8) "Financial institution" means any national or state chartered commercial bank or trust company, savings bank, ((44)) savings association, or federal or state chartered credit union, or branch or branches thereof, located in this state and lawfully engaged in business;

(9) "Investment deposits" means time deposits, money market deposit accounts, and savings deposits of public funds available for investment. "Investment deposits" do not include time deposits represented by a transferable or a negotiable certificate, instrument, passbook, or statement, or by book entry or otherwise;

(10) "Liquidity" means the measure or measures of liquidity of a depository applying for designation as or operating as a public depository pursuant to this chapter, based upon regulatory standards of financial institution liquidity adopted by rule or resolution of the commission after consultation with the director of the department of financial institutions;

(11) "Loss" means the issuance of an order by a regulatory or supervisory authority or a court of competent jurisdiction (a) restraining a public depository from making payments of deposit liabilities or (b) appointing a receiver for a public depository;

(12) "Maximum liability," with reference to a public depository's liability under this chapter for loss per occurrence by another public depository, on any given date means:

(a) A sum equal to ten percent of:

(i) All uninsured public deposits held by a public depository that has not incurred a loss by the then most recent commission report date; or

(ii) The average of the balances of said uninsured public deposits on the last four immediately preceding reports required pursuant to RCW 39.58.100, whichever amount is greater; or

(b) Such other sum or measure as the commission may from time to time set by resolution according to criteria established by rule, consistent with the commission's broad administrative discretion to achieve the objective of RCW 39.58.020.

As long as the uninsured public deposits of a public depository are one hundred percent collateralized by eligible collateral as provided for in RCW 39.58.050, the "maximum liability" of a public depository that has not incurred a loss may not exceed the amount set forth in (a) of this subsection.

This definition of "maximum liability" does not limit the authority of the commission to adjust the collateral requirements of public depositaries pursuant to RCW 39.58.040;

(13) "Net worth" of a public depository means (a) the equity capital as reported to its primary regulatory authority on the quarterly report of condition or statement of condition, or other required report required by its primary regulatory authority or federal deposit insurer, and may include capital notes and debentures which are subordinate to the interests of depositors, or (b) equity capital adjusted by rule or resolution of the commission after consultation with the director of the department of financial institutions;

(14) "Public deposit" means public funds on deposit with a public depository;

(15) "Public depository" means a financial institution that has been approved by the commission to hold public deposits, and has segregated, for the benefit of the commission, eligible collateral having a value of not less than its maximum liability (and, unless otherwise provided for in this chapter, does not claim exemption from the payment of any sales or compensating use or ad valorem taxes under the laws of this state);

(16) "Public funds" means moneys under the control of a treasurer, the state treasurer, or custodian belonging to, or held for the benefit of, the state or any of its political subdivisions, public corporations, municipal corporations, agencies, courts, boards, commissions, or committees, including moneys held as trustee, agent, or bailee belonging to, or held for the benefit of, the state or any of its political subdivisions, public corporations, municipal corporations, agencies, courts, boards, commissions, or committees;

(17) "Public funds available for investment" means such public funds as are in excess of the anticipated cash needs throughout the duration of the contemplated investment period;

(18) "State public depository" means a Washington state-chartered financial institution that is authorized as a public depository under this chapter;

(19) "State treasurer" means the treasurer of the state of Washington;

(20) "Treasurer" means a county treasurer, a city treasurer, a treasurer of any other municipal corporation, and any other custodian of public funds, except the state treasurer;

(21) "Trustee" means a third-party safekeeping agent which has completed a depositary pledge agreement with a public depository and the commission. Such third-party safekeeping agent may be a federal home loan bank, or such other third-party safekeeping agent approved by the commission.

Sec. 2. RCW 39.58.105 and 2016 c 152 s 3 are each amended to read as follows:

(1) The commission may require the state auditor or the director of the department of financial institutions, to the extent of their respective authority under applicable federal and Washington state law, to thoroughly investigate and report to it concerning the condition of any financial institution which makes application to become a public depository, and may also as often as it deems necessary require the state auditor or the director of the department of financial institutions, to the extent of their respective authority under applicable federal and Washington state law, to make such investigation and report concerning the condition of any financial institution which has been designated
as a public depository. The expense of all such investigations or reports shall be borne by the financial institution examined.

(1) The department is responsible for determining eligibility for referral for essential needs and housing support under RCW 43.185C.220. Persons eligible are persons who:

(a) Are incapacitated from gainful employment by reason of bodily or mental infirmity that will likely continue for a minimum of ninety days. The standard for incapacity in this subsection, as evidenced by the ninety-day duration standard, is not intended to be as stringent as federal supplemental security income disability standards;

(b) Are citizens or aliens lawfully admitted for permanent residence or otherwise residing in the United States under color of law;

(c) Have furnished the department their social security number. If the social security number cannot be furnished because it has not been issued or is not known, an application for a number must be made prior to authorization of benefits, and the social security number must be provided to the department upon receipt;

(d) Have countable income as described in RCW 74.04.005 at or below four hundred twenty-eight dollars for a married couple or at or below three hundred thirty-nine dollars for a single individual;

   (b) The process implementing the medical criteria must involve consideration of opinions of the treating or consulting physicians or health care professionals regarding incapacity, and any eligibility decision which rejects uncontroverted medical opinion must set forth clear and convincing reasons for doing so.

(5) For purposes of reviewing a person's continuing eligibility and in order to remain eligible for the program, persons who have been found to have an incapacity from gainful employment must demonstrate that there has been no material improvement in their medical or mental health condition. The department may discontinue benefits when there was specific error in the prior determination that found the person eligible by reason of incapacity.

(6) The department must review the cases of all persons who have received benefits under the essential needs and housing support program for twelve consecutive months, and at least annually after the first review, to determine whether they are eligible for the aged, blind, or disabled assistance program.

Such resolution shall state the fair market value or the rent or consideration to be paid and such other terms and conditions for such disposition as the legislative authority deems to be in the best public interest.

(2) The provisions of RCW 35.94.020 and 35.94.030 shall not apply to dispositions authorized by this section.

(3) All service rendered by, or property transferred from, one department, public improvement, undertaking, institution, or public service industry to another, shall be paid for at its true and full value by the department, public improvement, undertaking, institution, or public service industry receiving the same, and no department, public improvement, undertaking, institution, or public service industry shall benefit in any financial manner whatever by an appropriation or fund made for the support of another.

(4) All unexpended balances of appropriations shall be transferred to the fund from which appropriated, whenever the account with an appropriation is closed.

(5) This section does not apply to:

Sec. 6. RCW 43.43.115 and 1993 c 438 s 1 are each amended to read as follows:

Whenever real property owned by the state of Washington and under the jurisdiction of the Washington state patrol is no longer required, it may be sold at fair market value, or otherwise disposed as permitted under section 3 of this act. Any such sale or disposal must be in accordance with RCW 43.17.400. All proceeds received from the sale of real property, less any real estate broker commissions up to four percent of the sale price, shall be deposited into the state patrol highway account: PROVIDED, That if accounts or funds other than the state patrol highway account have contributed to the purchase or improvement of the real property, the office of financial management shall determine the proportional equity of each account or fund in the property and improvements, and shall direct the proceeds to be deposited proportionally therein.

Sec. 7. RCW 43.82.010 and 2015 c 99 s 1 are each amended to read as follows:

(1) The director of enterprise services, on behalf of the agency involved and after consultation with the office of financial management, shall purchase, lease, lease purchase, rent, or otherwise acquire all real estate, improved or unimproved, as may be required by elected state officials, institutions, departments, commissions, boards, and other state agencies, or federal agencies where joint state and federal activities are undertaken and may grant easements and transfer, exchange, sell, lease, or sublease all or part of any surplus real estate for those state agencies which do not otherwise have the specific authority to dispose of real estate. Any such transfer, exchange, or sale must comply with RCW 43.17.400, and may be made in accordance with section 3 of this act. This section does not transfer financial liability for the acquired property to the department of enterprise services.

(2) Except for real estate occupied by federal agencies, the director shall determine the location, size, and design of any real estate or improvements thereon acquired or held pursuant to subsection (1) of this section. Facilities acquired or held pursuant to this chapter, and any improvements thereon, shall conform to standards adopted by the director and approved by the office of financial management governing facility efficiency unless a specific exemption from such standards is provided by the director of enterprise services. The director of enterprise services shall report to the office of financial management and the appropriate committees of the legislature annually on any exemptions granted pursuant to this subsection.

(3) Except for leases permitted under subsection (4) of this section, the director of enterprise services may fix the terms and conditions of each lease entered into under this chapter, except that no lease shall extend greater than twenty years in duration. The director of enterprise services may enter into a long-term lease greater than ten years in duration upon a determination by the director of the office of financial management that the long-term lease provides a more favorable rate than would otherwise be available, it appears to a substantial certainty that the facility is necessary for use by the state for the full length of the lease term, and the facility meets the standards adopted pursuant to subsection (2) of this section. The director of enterprise services may enter into a long-term lease greater than ten years in duration if an analysis shows that the life-cycle cost of leasing the facility is less than the life-cycle cost of purchasing or constructing a facility in lieu of leasing the facility.

(4) The director of enterprise services may fix the terms of leases for property under the department of enterprise services' control at the former Northern State Hospital site for up to sixty years.

(5) Except as permitted under chapter 39.94 RCW, no lease for or on behalf of any state agency may be used or referred to as collateral or security for the payment of securities offered for sale through a public offering. Except as permitted under chapter 39.94 RCW, no lease for or on behalf of any state agency may be used or referred to as collateral or security for the payment of securities offered for sale through a public offering. Except as permitted under chapter 39.94 RCW, no lease for or on behalf of any state agency may be used or referred to as collateral or security for the payment of securities offered for sale through a private placement without the prior written approval of the state treasurer. However, this limitation shall not prevent a lessor from assigning or encumbering its interest in a lease as security for the repayment of a promissory note provided that the transaction would otherwise be an exempt transaction under RCW 21.20.320. The state treasurer shall adopt rules that establish the criteria under which any such approval may be granted. In establishing such criteria the state treasurer shall give primary consideration to the protection of the state's credit rating and the integrity of the state's debt management program. If it appears to the state treasurer that any lease has been used or referred to in violation of this subsection or rules adopted under this subsection, then he or she may recommend that the governor cause such lease to be terminated. The department of enterprise services shall promptly notify the state treasurer whenever it may appear to the
department that any lease has been used or referred to in violation of this subsection or rules adopted under this subsection.

(6) It is the policy of the state to encourage the colocation and consolidation of state services into single or adjacent facilities, whenever appropriate, to improve public service delivery, minimize duplication of facilities, increase efficiency of operations, and promote sound growth management planning.

(7) The director of enterprise services shall provide coordinated long-range planning services to identify and evaluate opportunities for colocating and consolidating state facilities. Upon the renewal of any lease, the inception of a new lease, or the purchase of a facility, the director of enterprise services shall determine whether an opportunity exists for colocalizing the agency or agencies in a single facility with other agencies located in the same geographic area. If a colocation opportunity exists, the director of enterprise services shall consult with the affected state agencies and the office of financial management to evaluate the impact colocation would have on the cost and delivery of agency programs, including whether program delivery would be enhanced due to the centralization of services. The director of enterprise services, in consultation with the office of financial management, shall develop procedures for implementing colocation and consolidation of state facilities.

(8) The director of enterprise services is authorized to purchase, lease, rent, or otherwise acquire improved or unimproved real estate as owner or lessee and to lease or sublet all or a part of such real estate to state or federal agencies. The director of enterprise services shall charge each using agency its proportionate rental which shall include an amount sufficient to pay all costs, including, but not limited to, those for utilities, janitorial and accounting services, and sufficient to provide for contingencies; which shall not exceed five percent of the average annual rental, to meet unforeseen expenses incident to management of the real estate.

(9) If the director of enterprise services determines that it is necessary or advisable to undertake any work, construction, alteration, repair, or improvement on any real estate acquired pursuant to subsection (1) or (8) of this section, the director shall cause plans and specifications thereof and an estimate of the cost thereof to be made and filed in his or her office and the state agency benefiting thereby is hereby authorized to pay for such work out of any available funds: PROVIDED, That the cost of such work to be made and filed in his or her office and the state agency benefiting thereby is hereby authorized to pay for such work out of any available funds: PROVIDED, That the cost of executing such work shall not exceed the sum of twenty-five thousand dollars. Work, construction, alteration, repair, or improvement in excess of twenty-five thousand dollars, other than that done by the owner of the property if other than the state, shall be performed in accordance with the public works law of this state.

(10) In order to obtain maximum utilization of space, the director of enterprise services shall make space utilization studies, and shall establish standards for use of space by state agencies. Such studies shall include the identification of opportunities for colocation and consolidation of state agency office and support facilities.

(11) The director of enterprise services may construct new buildings on, or improve existing facilities, and furnish and equip, all real estate under his or her management. Prior to the construction of new buildings or major improvements to existing facilities or acquisition of facilities using a lease purchase contract, the director of enterprise services shall conduct an evaluation of the facility design and budget using life-cycle cost analysis, value-engineering, and other techniques to maximize the long-term effectiveness and efficiency of the facility or improvement.

(12) All conveyances and contracts to purchase, lease, rent, transfer, exchange, or sell real estate and to grant and accept easements shall be approved as to form by the attorney general, signed by the director of enterprise services or the director's designee, and recorded with the county auditor of the county in which the property is located.

(13) The director of enterprise services may delegate any or all of the functions specified in this section to any agency upon such terms and conditions as the director deems advisable. By January 1st of each year, beginning January 1, 2008, the department shall submit an annual report to the office of financial management and the appropriate committees of the legislature on all delegated leases.

(14) This section does not apply to the acquisition of real estate by:

(a) The state college and universities for research or experimental purposes;
(b) The state liquor ((controlled)) and cannabis board for liquor stores and warehouses;
(c) The department of natural resources, the department of fish and wildlife, the department of transportation, and the state parks and recreation commission for purposes other than the leasing of offices, warehouses, and real estate for similar purposes; and
(d) The department of commerce for community college health career training programs, offices for the department of commerce or other appropriate state agencies, and other nonprofit community uses, including community meeting and training facilities, where the real estate is acquired during the 2013-2015 fiscal biennium.

(15) Notwithstanding any provision in this chapter to the contrary, the department of enterprise services may negotiate ground leases for public lands on which property is to be acquired under a financing contract pursuant to chapter 39.94 RCW under terms approved by the state finance committee.

(16) The department of enterprise services shall report annually to the office of financial management and the appropriate fiscal committees of the legislature on facility leases executed for all state agencies for the preceding year, lease terms, and annual lease costs. The report must include leases executed under RCW 43.82.045 and subsection (13) of this section."

MOTION

Senator Ranker moved that the following committee striking amendment be adopted: Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. (1) The legislature recognizes that:

(a) According to research from Georgetown University, by the year 2020, seventy percent of jobs in Washington state will require at least some education and training beyond high school, which aligns with Washington's educational attainment goals established under RCW 28B.77.020; and

(b) Research by the state board for community and technical colleges and other entities has found that attending college for at least one year and earning a credential results in a substantial boost in earnings for adults who enter a community college with a high school diploma or less.

(2) In addition, the legislature finds that:

(a) Rural counties face unique challenges to achieving full economic and community development in the face of societal trends that concentrate job and population growth in larger metropolitan areas. For example, seventy-five percent of the job growth in Washington by 2018 is projected to be confined to just five large counties. In addition, two-thirds of the state's recent population growth has occurred in the three largest counties and seven counties have actually lost population in recent years.

(b) One barrier to economic growth and investment in many rural counties is the lack of a trained, qualified workforce for the opportunities present in rural areas, particularly in science, technology, engineering, and mathematics (STEM) and health care fields of study. These opportunities often require specialized skills tailored for specific, regional employer needs. In many cases, employment opportunities are available in rural communities; however, some assistance is needed to help local residents acquire the skills necessary to access the opportunities in their own backyards.

(3) The legislature declares that opportunity, community vitality, quality of life, and prosperity are essential for all Washington communities. Therefore, the legislature intends to create a program to assist rural communities in growing the workforce the community needs to meet its specific industry sector demands.

Sec. 2. RCW 28B.145.020 and 2014 c 208 s 2 are each amended to read as follows:

(1) The opportunity scholarship board is created. The board consists of eleven members:

(a) Six members appointed by the governor. For three of the six appointments, the governor shall consider names from a list provided by the president of the senate and the speaker of the house of representatives; and

(b) Five foundation or business and industry representatives appointed by the governor from among the state's most productive industries such as aerospace, manufacturing, health care, information technology, engineering, agriculture, and others, as well as philanthropy. The foundation or business and industry representatives shall be selected from among nominations provided by the private sector donors to the opportunity scholarship and opportunity expansion programs. However, the governor may request, and the private sector donors shall provide, an additional list or lists from which the governor shall select these representatives.

(2) Board members shall hold their offices for a term of four years from the first day of September and until their successors are appointed. No more than the terms of two members may expire simultaneously on the last day of August in any one year.

(3) The members of the board shall elect one of the business and industry representatives to serve as chair.

(4) Seven members of the board constitute a quorum for the transaction of business. In case of a vacancy, or when an appointment is made after the date of expiration of the term, the governor or the president of the senate or the speaker of the house of representatives, depending upon which made the initial appointment to that position, shall fill the vacancy for the remainder of the term of the board member whose office has become vacant or expired.

(5) The board shall be staffed by the program administrator.

(6) The purpose of the board is to provide oversight and guidance for the opportunity expansion, the opportunity scholarship programs, and the rural jobs program, in light of established legislative priorities and to fulfill the duties and responsibilities under this chapter, including but not limited to determining eligible education programs for purposes of the opportunity scholarship program and the rural jobs program. Duties, exercised jointly with the program administrator, include soliciting funds and setting annual fund-raising goals.

(7) The board may report to the governor and the appropriate committees of the legislature with recommendations as to:

(a) Whether some or all of the scholarships should be changed to conditional scholarships that must be repaid in the event the participant does not complete the eligible education program; and

(b) A source or sources of funds for the opportunity expansion program in addition to the voluntary contributions of the high-tech research and development tax credit under RCW 82.32.800.

Sec. 3. RCW 28B.145.090 and 2014 c 208 s 4 are each amended to read as follows:

(1) The board may elect to have the state investment board invest the funds in the student support pathways account and the scholarship account and endowment account described under RCW 28B.145.030(2)(b). If the board so elects, the state investment board has the full power to invest, reinvest, manage, contract, sell, or exchange investment money in the accounts. All investment and operating costs associated with the investment of money shall be paid under RCW 43.84.160 and 43.84.160. With the exception of these expenses, the earnings from the investment of the money shall be retained by the accounts.

(2) All investments made by the state investment board shall be made with the exercise of that degree of judgment and care under RCW 43.33A.140 and the investment policy established by the state investment board.

(3) As deemed appropriate by the state investment board, money in the student support pathways account, scholarship
account, and endowment ((accounts)) account may be commingled for investment with other funds subject to investment by the state investment board.

(4) Members of the state investment board shall not be considered an insurer of the funds or assets and are not liable for any action or inaction.

(5) Members of the state investment board are not liable to the state, to the fund, or to any other person as a result of their activities as members, whether ministerial or discretionary, except for willful dishonesty or intentional violations of law. The state investment board in its discretion may purchase liability insurance for members.

(6) The authority to establish all policies relating to the student support pathways account, scholarship account, and ((accounts)) endowment account, other than the investment policies as provided in subsections (1) through (3) of this section, resides with the board and program administrator acting in accordance with the principles set forth in this chapter. With the exception of expenses of the state investment board in subsection (1) of this section, disbursements from the student support pathways account, scholarship account, and endowment account shall be made only on the authorization of the opportunity scholarship board or its designee, and moneys in the accounts may be spent only for the purposes specified in this chapter.

(7) The state investment board shall routinely consult and communicate with the board on the investment policy, earnings of the accounts, and related needs of the program.

(f) Notify institutions of higher education of the rural jobs program recipients who will attend their institutions of higher education and inform them of the scholarship fund amounts and terms of the awards; and

(g) Establish and manage an account as provided under section 5 of this act to receive donations, grants, contributions from private sources, and state matching funds, and from which to disburse scholarship funds to selected students.

(3) To be eligible for scholarship funds under the rural jobs program, a student must:

(b) Be a resident student as defined in RCW 28B.15.012;

(c) Be enrolled in a community or technical college established under chapter 28B.50 RCW located in an eligible county;

(e) Have a family income that does not exceed seventy percent of the state median family income adjusted for family size; and

(f) Demonstrate financial need according to the free application for federal student aid or the Washington application for state financial aid.

(4) To remain eligible for scholarship funds under the rural jobs program, the student must maintain a cumulative grade point average of 2.0.

(5) A scholarship award under the rural jobs program may not result in a reduction of any gift aid. Nothing in this section creates any right or entitlement.

NEW SECTION.  Sec. 5. A new section is added to chapter 28B.145 RCW to read as follows:

(1) For the purposes of the rural jobs program, the program administrator shall:

(2) The student support pathways account, whose principal may be invaded, must be created by the board from which scholarship funds will be disbursed beginning no later than the fall term of the 2020 academic year, if by that date, state matching funds have been received. (1) The rural jobs program match transfer account is created in the custody of the state treasurer as a nonappropriated account to be used solely and exclusively for the rural jobs program created in section 4 of this act. The purpose of the rural jobs program
match transfer account is to provide state matching funds for the rural jobs program.

(2) Revenues to the rural jobs program match transfer account shall consist of appropriations by the legislature into the rural jobs program match transfer account.

(3) No expenditures from the rural jobs program match transfer account may be made except upon receipt of proof, by the executive director of the council from the program administrator, of private contributions to the rural jobs program. Expenditures, in the form of matching funds, may not exceed the total amount of private contributions.

(4) Only the executive director of the council or the executive director's designee may authorize expenditures from the rural jobs program match transfer account. Such authorization must be made as soon as practicable following receipt of proof as required under this section.

(5)(a) The council shall enter into an appropriate agreement with the program administrator to demonstrate exchange of consideration for the matching funds.

(b) Once moneys in the rural jobs program match transfer account are subject to an agreement under this subsection and are deposited in the student support pathways account, the state acts in a fiduciary rather than ownership capacity with regard to those assets. Assets in the student support pathways account are not considered state money, common cash, or revenue to the state.

(6) The state match must not exceed one million dollars in a single fiscal biennium and must be based on donations and pledges received by the rural jobs program as of the date each official state caseload forecast is submitted by the caseload forecast council to the legislative fiscal committees, as provided under RCW 43.88C.020. NEW SECTION. Sec. 7. A new section is added to chapter 28B.145 RCW to read as follows:

(b) "Open educational resources" means freely accessible, openly licensed educational textbooks, documents, materials, and media that reside in the public domain for free use and repurposing for the intention of teaching, learning, assessing, and researching.

(2)(a) Subject to availability of amounts appropriated for this specific purpose, the student achievement council shall administer the open educational resources grant pilot program for the four-year institutions of higher education. A grant received under the pilot program must be used for either (a)(i) or (ii) of this subsection, or both:

(b) The student achievement council shall develop an application form for the grant, a process for reviewing and selecting grant applicants, a process for awarding grant funding, and a process for the grant awardee to report back to the student achievement council on the use of the grant. The student achievement council shall prioritize applications that estimate the highest cost reduction to students, whether it be on an individual basis or across a field of study or the institution.

(c) The student achievement council shall determine how many grants may be awarded based on the funding received for the pilot program.

(d) In addition to the grant program, the student achievement council shall conduct outreach to other states and higher education agencies to identify whether there is interest in establishing a multistate open educational resources network to facilitate and establish a platform for peer review, coordinating, and sharing of open educational resources.

(e) The student achievement council shall report to the appropriate committees of the legislature in accordance with the reporting requirements in RCW 43.01.036 by December 1, 2019, on the open educational resources grant pilot program and on the outreach conducted regarding a multistate open educational resources network. The report must include information on the number of grant applications received, the number of grants awarded, and an evaluation of how the grants were used to expand the use of open educational resources. In addition, the report must include how the student achievement council conducted outreach to other states on the concept of a multistate open educational resources network and the feedback from those states.

(3) By December 1, 2019, the Washington state institute for public policy shall conduct a study on the cost of textbooks and course materials and the use of open educational resources at four-year institutions of higher education across the state and submit a report to the appropriate committees of the legislature in accordance with RCW 43.01.036. (b) The use of open educational resources at four-year institutions of higher education and in specific degree programs or courses, or both; and

Sec. 5.  RCW 28B.145.005 and 2011 1st sp.s. c 13 s 1 are each amended to read as follows:

The legislature finds that, despite increases in degree production, there remain acute shortages in high employer demand programs of study, particularly in the science, technology, engineering, and mathematics (STEM) and health care fields of study. According to the workforce training and education coordinating board, seventeen percent of Washington businesses had difficulty finding job applicants in 2010. Eleven thousand employers did not fill a vacancy because they lacked qualified job applicants. Fifty-nine percent of projected job openings in Washington state from now until 2017 will require some form of postsecondary education and training.

It is the intent of the legislature to provide jobs and opportunity by making Washington the place where the world's most productive companies find the world's most talented people. The legislature intends to accomplish this through the creation of the opportunity scholarship and the opportunity expansion programs to help mitigate the impact of tuition increases, increase the number of baccalaureate degrees in high employer demand and other programs and advanced degrees in health professions needed in service obligation areas, and invest in programs and students to meet market demands for a knowledge-based economy while filling middle-income jobs with a sufficient supply of skilled workers.

In determining eligible advanced degree programs, the board shall consider advanced degree programs that lead to credentials in health professions that include, but are not limited to, primary care, dental care, behavioral health, and public health. (h) Distribute scholarship funds to selected participants. Once awarded, and to the extent funds are available for distribution, an opportunity scholarship shall be automatically renewed until the participant withdraws from or is no longer attending the program, completes the program, or has taken the credit or clock hour equivalent of one hundred twenty-five percent of the published length of time of the participant’s program, whichever occurs first, and as long as the participant annually submits documentation of filing both a free application for federal student aid and for available federal education tax credits, including but not limited to the American opportunity tax credit; ((and))

Sec. 5. RCW 28B.145.005 and 2011 1st sp.s. c 13 s 1 are each amended to read as follows:
The legislature finds that, despite increases in degree production, there remain acute shortages in high employer demand programs of study, particularly in the science, technology, engineering, and mathematics (STEM) and health care fields of study. According to the workforce training and education coordinating board, seventeen percent of Washington businesses had difficulty finding job applicants in 2010. Eleven thousand employers did not fill a vacancy because they lacked qualified job applicants. Fifty-nine percent of projected job openings in Washington state from now until 2017 will require some form of postsecondary education and training.
It is the intent of the legislature to provide jobs and opportunity by making Washington the place where the world's most productive companies find the world's most talented people. The legislature intends to accomplish this through the creation of the opportunity scholarship and the opportunity expansion programs to help mitigate the impact of tuition increases, increase the number of baccalaureate degrees in high employer demand and other programs and advanced degrees in health professions needed in service obligation areas, and invest in programs and students to meet market demands for a knowledge-based economy while filling middle-income jobs with a sufficient supply of skilled workers.

Sec. 6. RCW 28B.145.010 and 2014 c 208 s 1 are each amended to read as follows:

("(4+)\) (5) "Eligible expenses" means reasonable expenses associated with the costs of acquiring an education such as tuition, books, equipment, fees, room and board, and other expenses as determined by the program administrator in consultation with the council and the state board for community and technical colleges.

Sec. 7. RCW 28B.145.020 and 2014 c 208 s 2 are each amended to read as follows:

(1) The opportunity scholarship board is created. The board consists of eleven members:

In determining eligible advanced degree programs, the board shall consider advanced degree programs that lead to credentials in health professions that include, but are not limited to, primary care, dental care, behavioral health, and public health. Duties, exercised jointly with the program administrator, include soliciting funds and setting annual fund-raising goals.

(7) The board may report to the governor and the appropriate committees of the legislature with recommendations as to:

(1) The program administrator (who, under contract with the council, shall staff the board and)) shall ((have)) provide administrative support to execute the duties and responsibilities provided in this chapter, including but not limited to publicizing the program, selecting participants for the opportunity scholarship award, distributing opportunity scholarship awards, and achieving the maximum possible rate of return on investment of the accounts in subsection (2) of this section, while ensuring transparency in the investment decisions and processes. Duties, exercised jointly with the board, include soliciting funds and setting annual fund-raising goals. The program administrator shall be paid an administrative fee as determined by the board.

(2) With respect to the opportunity scholarship program, the program administrator shall:

(a) Establish and manage ((two)) separate accounts into which to receive grants and contributions from private sources as well as state matching funds, and from which to disburse scholarship funds to participants;

(b) Solicit and accept grants and contributions from private sources, via direct payment, pledge agreement, or escrow account, of private sources for deposit into ((one or both of the two)) any of the specified accounts created in this subsection (2)(b) upon the direction of the donor and in accordance with this subsection (2)(b):

(i) The "scholarship account," whose principal may be invaded, and from which scholarships must be disbursed for baccalaureate programs beginning no later than December 1, 2011, if, by that date, state matching funds in the amount of five million dollars or more have been received. Thereafter, scholarships shall be disbursed on an annual basis beginning no later than May 1, 2012, and every October 1st thereafter;

(ii) The "advanced degrees pathways account," whose principal may be invaded, and from which scholarships may be disbursed for eligible advanced degree programs in the fiscal year following appropriations of state matching funds. Thereafter, scholarships shall be disbursed on an annual basis;

(C) The state has demonstrated progress toward the goal of total per-student funding levels, from state appropriations plus tuition and fees, of at least the sixtieth percentile of total per-student funding at similar public institutions of higher education in the global challenge states, as defined, measured, and reported in RCW 28B.15.068. In any year in which the office of financial management reports that the state has not made progress toward this goal, no new scholarships may be awarded. In any year in which the office of financial management reports that the percentile of total per-student funding is less than the sixtieth percentile and at least five percent less than the prior year, pledges of future grants and contributions may, at the request of the donor, be released and grants and contributions already received refunded to the extent that opportunity scholarship awards already made can be fulfilled from the funds remaining in the endowment account. In fulfilling the requirements of this subsection, the office of financial management shall use resources that facilitate measurement and comparisons of the most recently completed academic year. These resources may include, but are not limited

to, the data provided in a uniform dashboard format under RCW 28B.77.090 as the statewide public four-year dashboard and academic year reports prepared by the state board for community and technical colleges;

(iii) ((iv)) (iv) An amount equal to at least fifty percent of all grants and contributions must be deposited into the scholarship account until such time as twenty million dollars have been deposited into the account, after which time the private donors may designate whether their contributions must be deposited to the scholarship, the advanced degrees pathways, or the endowment accounts. The board and the program administrator must work to maximize private sector contributions to ((both)) the scholarship account, the advanced degrees pathways account, and the endowment account, to maintain a robust scholarship program while simultaneously building the endowment, and to determine the division between the (two) scholarship, the advanced degrees pathways, and the endowment accounts in the case of undesignated grants and contributions, taking into account the need for a long-term funding mechanism and the short-term needs of families and students in Washington. The first five million dollars in state match, as provided in RCW 28B.145.040, shall be deposited into the scholarship account and thereafter the state match shall be deposited into the (two)) accounts in equal proportion to the private funds deposited in each account, except that no more than one million dollars in state match shall be deposited into the advanced degrees pathways account in a single fiscal biennium; and

((iiii)) (ix) Once moneys in the opportunity scholarship match transfer account are subject to an agreement under RCW 28B.145.050(5) and are deposited in the scholarship account, advanced degrees pathways account, or endowment account under this section, the state acts in a fiduciary rather than ownership capacity with regard to those assets. Assets in the scholarship account, advanced degrees pathways account, and endowment account are not considered state money, common cash, or revenue to the state;

(c) Provide proof of receipt of grants and contributions from private sources to the council, identifying the amounts received by name of private source and date, and whether the amounts received were deposited into the scholarship, advanced degrees pathways, or the endowment accounts;

(d) In consultation with the council and the state board for community and technical colleges, make an assessment of the reasonable annual eligible expenses associated with eligible education programs and eligible advanced degree programs identified by the board;

(e) Determine the dollar difference between tuition fees charged by institutions of higher education in the 2008-09 academic year and the academic year for which an opportunity scholarship is being distributed;

(f) Develop and implement an application, selection, and notification process for awarding opportunity scholarships;

(g) Determine the annual amount of the opportunity scholarship for each selected participant. The annual amount shall be at least one thousand dollars or the amount determined under (e) of this subsection, but may be increased on an income-based, sliding scale basis up to the amount necessary to cover all reasonable annual eligible expenses as assessed pursuant to (d) of this subsection, or to encourage participation in baccalaureate degree programs or eligible advanced degree programs identified by the board;

(h) Distribute scholarship funds to selected participants. Once awarded, and to the extent funds are available for distribution, an opportunity scholarship shall be automatically renewed as long as the participant annually submits documentation of filing both a
free application for federal student aid and for available federal education tax credits including, but not limited to, the American opportunity tax credit, or if ineligible to apply for federal student aid, the participant annually submits documentation of filing a state financial aid application as approved by the office of student financial assistance; and until the participant withdraws from or is no longer attending the program, completes the program, or has taken the credit or clock hour equivalent of one hundred twenty-five percent of the published length of time of the participant's program, whichever occurs first; and as long as the participant participates in any programs of study, including but not limited to high employer demand professions needed in service obligation areas, and encourages residents earn baccalaureate degrees in high employer demand professions, and establish a service obligation area; and

For eligible advanced degree programs, the board shall limit scholarships to eligible students enrolling in programs that lead to credentials in health professions needed in service obligation areas.

(4) The source of funds for the program shall be a combination of private grants and contributions and state matching funds. A state match may be earned under this section for private contributions made on or after June 6, 2011. A state match, up to a maximum of fifty million dollars annually, shall be provided beginning the later of January 1, 2014, or January 1st next following the end of the fiscal year in which collections of state retail sales and use tax, state business and occupation tax, and state public utility tax exceed, by ten percent the amounts collected from these tax resources in the fiscal year that ended June 30, 2008, as determined by the department of revenue.

Sec. 10. RCW 28B.145.090 and 2014 c 208 s 4 are each amended to read as follows:

(1) The board may elect to have the state investment board invest the funds in the scholarship account, the advanced degrees pathways account, and the endowment account described under RCW 28B.145.030(2)(b). If the board so elects, the state investment board has the power to invest, reinvest, manage, contract, sell, or exchange investment money in the accounts. All investment and operating costs associated with the investment of money shall be paid under RCW 43.33A.160 and 43.84.160. With the exception of these expenses, the earnings from the investment of the money shall be retained by the accounts.

(2) All investments made by the state investment board shall be made with the exercise of that degree of judgment and care under RCW 43.33A.140 and the investment policy established by the state investment board.

(3) As deemed appropriate by the state investment board, money in the scholarship, advanced degrees pathways, and endowment accounts may be commingled for investment with other funds subject to investment by the state investment board.

(4) Members of the state investment board shall not be considered an insurer of the funds or assets and are not liable for any action or inaction.

(5) Members of the state investment board are not liable to the state, to the fund, or to any other person as a result of their activities as members, whether ministerial or discretionary, except for willful dishonesty or intentional violations of law. The state investment board in its discretion may purchase liability insurance for members.

(6) The authority to establish all policies relating to the scholarship account, the advanced degrees pathways account, and the endowment account, other than the investment policies as provided in subsections (1) through (3) of this section, resides with the board and program administrator acting in accordance with the principles set forth in this chapter. With the exception of expenses of the state investment board in subsection (1) of this section, disbursements from the scholarship account, the advanced degrees pathways account, and the endowment account shall be made only on the authorization of the opportunity scholarship board or its designee, and moneys in the accounts may be spent only for the purposes specified in this chapter.

Increasing success in therapeutic courts.

The measure was read the second time.

MOTION

Senator Dhingra moved that the following committee striking amendment by the Committee on Ways & Means be adopted:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. Drug courts remove a defendant's or respondent's case from the criminal and civil court traditional trial track and allow those defendants or respondents the opportunity to obtain treatment services to address particular issues that may have contributed to the conduct that led to their arrest or other issues before the court. Such courts, by focusing on specific individuals' needs, provide treatment for the issues presented and ensure rapid and appropriate accountability for program violations, which decreases recidivism, improves the safety of the community, and improves the life of the program participant and the lives of the participant's family members by decreasing the severity and frequency of the specific behavior addressed by the therapeutic court. Therefore, the legislature finds compelling the research conducted by the Washington state institute for public policy and the research and data analysis division of the department of social and health services showing that providing recovery support services to clients in drug courts creates a benefit to the state of approximately seven dollars and sixty cents in reduced public expenditures and reduced costs of victimization for each dollar spent. Therefore, it is the intent of the legislature to allow the use of a portion of the criminal justice treatment account to provide such services to foster increased success in drug courts.

Sec. 2. RCW 71.24.580 and 2017 3rd sp.s.c 1 s 981 are each amended to read as follows:

(1) The criminal justice treatment account is created in the state treasury. Moneys in the account may be expended solely for: (a) Substance use disorder treatment and treatment support services for offenders with a substance use disorder that, if not treated, would result in addiction, against whom charges are filed by a prosecuting attorney in Washington state; (b) the provision of substance use disorder treatment services and treatment support services for nonviolent offenders within a drug court program; and (c) the administrative and overhead costs associated with the operation of a drug court. Amounts provided in this subsection must be used for treatment and recovery support services for criminally involved offenders and authorization of these services shall not be subject to determinations of medical necessity. During the 2015-2017 fiscal biennium, the legislature may transfer from the criminal justice treatment account to the state general fund amounts as reflect the state savings associated with the implementation of the medicaid expansion of the federal affordable care act the and excess fund balance of the account. During the 2017-2019 fiscal biennium, the legislature may direct the state treasurer to make transfers of moneys in the criminal justice treatment account to the state general fund. It is the intent of the legislature to continue((in future biennia)) in the 2019-2021 biennium the policy of transferring to the state general fund such amounts as reflect the excess fund balance of the account. Moneys in the account may be spent only after appropriation.

(2) For purposes of this section:

(a) "Treatment" means services that are critical to a participant's successful completion of his or her substance use disorder treatment program, (but does not include the following services: Housing other than that provided as part of an inpatient substance use disorder treatment program, vocational training, and mental health counseling)) including but not limited to the recovery support and other programmatic elements outlined in RCW 2.30.030 authorizing therapeutic courts; and

(b) "Treatment support" (("means")) includes transportation to or from inpatient or outpatient treatment services when no viable alternative exists, and child care services that are necessary to
ensure a participant’s ability to attend outpatient treatment sessions.

(3) Revenues to the criminal justice treatment account consist of: (a) Funds transferred to the account pursuant to this section; and (b) any other revenues appropriated to or deposited in the account.

(4)(a) For the fiscal year beginning July 1, 2005, and each subsequent fiscal year, the state treasurer shall transfer eight million two hundred fifty thousand dollars from the general fund to the criminal justice treatment account, divided into four equal quarterly payments. For the fiscal year beginning July 1, 2006, and each subsequent fiscal year, the amount transferred shall be increased on an annual basis by the implicit price deflator as published by the federal bureau of labor statistics.

(b) In each odd-numbered year, the legislature shall appropriate the amount transferred to the criminal justice treatment account in (a) of this subsection to the department for the purposes of subsection (5) of this section.

(5) Moneys appropriated to the department from the criminal justice treatment account shall be distributed as specified in this subsection. The department may retain up to three percent of the amount appropriated under subsection (4)(b) of this section for its administrative costs.

(a) Seventy percent of amounts appropriated to the department from the account shall be distributed to counties pursuant to the distribution formula adopted under this section. The division of alcohol and substance abuse, in consultation with the department of corrections, the Washington state association of counties, the Washington state association of drug court professionals, the superior court judges’ association, the Washington association of prosecuting attorneys, representatives of the criminal defense bar, representatives of substance use disorder treatment providers, and any other person deemed by the department to be necessary, shall establish a fair and reasonable methodology for distribution to counties of moneys in the criminal justice treatment account. County or regional plans submitted for the expenditure of formula funds must be approved by the panel established in (b) of this subsection.

(b) Thirty percent of the amounts appropriated to the department from the account shall be distributed as grants for purposes of treating offenders against whom charges are filed by a county prosecuting attorney. The department shall appoint a panel of representatives from the Washington association of prosecuting attorneys, the Washington association of sheriffs and police chiefs, the superior court judges’ association, the Washington state association of counties, the Washington defender’s association or the Washington association of criminal defense lawyers, the department of corrections, the Washington state association of drug court professionals, substance use disorder treatment providers, and the division. The panel shall review county or regional plans for funding under (a) of this subsection and grants approved under this subsection. The panel shall attempt to ensure that treatment as funded by the grants is available to offenders statewide.

(6) The county alcohol and drug coordinator, county prosecutor, county sheriff, county superior court, a substance abuse treatment provider appointed by the county legislative authority, a member of the criminal defense bar appointed by the county legislative authority, and, in counties with a drug court, a representative of the drug court shall jointly submit a plan, approved by the county legislative authority or authorities, to the panel established in subsection (5)(b) of this section, for disposition of all the funds provided from the criminal justice treatment account within that county. The funds shall be used solely to provide approved alcohol and substance abuse treatment pursuant to RCW 71.24.560(2) and treatment support services, and for the administrative and overhead costs associated with the operation of a drug court.

(a) No more than ten percent of the total moneys received under subsections (1) and (5) of this section by a county or group of counties participating in a regional agreement shall be spent on the administrative and overhead costs associated with the operation of a drug court.

(b) No more than ten percent of the total moneys received under subsections (4) and (5) of this section by a county or group of counties participating in a regional agreement shall be spent for treatment support services.

(7) Counties are encouraged to consider regional agreements and submit regional plans for the efficient delivery of treatment under this section.

(8) Moneys allocated under this section shall be used to supplement, not supplant, other federal, state, and local funds used for substance abuse treatment.

(9) Counties must meet the criteria established in RCW 2.30.030(3).

(((10) The authority under this section to use funds from the criminal justice treatment account for the administrative and overhead costs associated with the operation of a drug court expires June 30, 2015.))

"NEW SECTION. Sec. 1. A new section is added to chapter 36.28A RCW to read as follows:

(1) Subject to the availability of amounts appropriated for this specific purpose, the Washington association of sheriffs and police chiefs shall develop and implement a mental health field response grant program. The purpose of the program is to assist local law enforcement agencies to establish and expand mental health field response capabilities, utilizing mental health professionals to professionally, humanely, and safely respond to crises involving persons with behavioral health issues with treatment, diversion, and reduced incarceration time as primary goals. A portion of the grant funds may also be used to develop data management capability to support the program.

(2) Grants must be awarded to local law enforcement agencies based on locally developed proposals to incorporate mental health professionals into the agencies' mental health field response planning and response. Two or more agencies may submit a joint grant proposal to develop their mental health field response proposals. Proposals must provide a plan for improving mental health field response and diversion from incarceration through modifying or expanding law enforcement practices in partnership with mental health professionals. A peer review panel appointed by the Washington association of sheriffs and police chiefs in consultation with integrated managed care organizations and behavioral health organizations must review the grant applications. Once the Washington association of sheriffs and police chiefs certifies that the application satisfies the proposal criteria, the grant funds will be distributed. To the extent possible, at least one grant recipient agency should be from the east side of the state and one from the west side of the state with the crest of the Cascades being the dividing line. The Washington association of sheriffs and police chiefs may prioritize grant applications that include local matching funds.

Grant recipients must be selected and receiving funds no later than October 1, 2018.

Nothing in this subsection (3) limits the mental health professional's participation to field patrol. Grant recipients are encouraged to coordinate with local public safety answering points to maximize the goals of the program.

(4) Within existing resources, the Washington association of sheriffs and police chiefs shall:

(a) Consult with the department of social and health services research and data analysis unit to establish data collection and reporting guidelines for grant recipients. The data will be used to study and evaluate whether the use of mental health field response programs improves outcomes of interactions with persons experiencing behavioral health crises, including reducing rates of violence and harm, reduced arrests, and jail or emergency room usage;

(b) Consult with the department of social and health services behavioral health administration and the managed care system to develop requirements for participating mental health professionals; and

(c) Coordinate with public safety answering points, behavioral health, and the department of social and health services to develop and incorporate telephone triage criteria or dispatch protocols to assist with mental health, law enforcement, and emergency medical responses involving mental health situations.

(5) The Washington association of sheriffs and police chiefs shall submit an annual report to the governor and appropriate committees of the legislature on the program. The report must include information on grant recipients, use of funds, participation of mental health professionals, and feedback from the grant recipients by December 1st of each year the program is funded."
(6) Grant recipients shall develop and provide or arrange for training necessary for mental health professionals to operate successfully and competently in partnership with law enforcement agencies. The training must provide the professionals with a working knowledge of law enforcement procedures and tools sufficient to provide for the safety of the professionals, partnered law enforcement officers, and members of the public.

(7) Nothing in this section prohibits the Washington association of sheriffs and police chiefs from soliciting or accepting private funds to support the program created in this section.

FIFTY FOURTH DAY, MARCH 2, 2018

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. (1) The legislature finds that it is in the public interest that taxation of lodging not distort the market for different types of lodging and that all types of lodging participate in the funding of the public benefits supported with lodging tax revenue.

(2) The legislature further finds that, with respect to the lodging taxes levied under RCW 36.100.040 (4) and (5), the current significant disparity in the taxation of sales of lodging on premises having fewer than sixty lodging units compared to premises having sixty or more units is contrary to the public interest in both equitable taxation and adequately supporting the public benefits funded by lodging tax revenue.

(3) It is the intent of this act to equalize the taxation levied under RCW 36.100.040 (4) and (5) by applying it to all lodging, regardless of the number of lodging units in premises subject to such taxation.

Sec. 2. RCW 36.100.040 and 2015 3rd sp.s. c 24 s 702 are each amended to read as follows:

(1) A public facilities district may impose an excise tax on the sale of or charge made for the furnishing of lodging that is subject to tax under chapter 82.08 RCW, except that no such tax may be levied on any premises having fewer than forty lodging units. Except for any tax imposed under subsection (4) or (5) of this section, if a public facilities district has not imposed such an excise tax prior to December 31, 1995, the public facilities district may only impose the excise tax if a ballot proposition authorizing the imposition of the tax has been approved by a simple majority vote of voters of the public facilities district voting on the proposition.

(2) The rate of the tax may not exceed two percent and the proceeds of the tax may only be used for the acquisition, design, construction, remodeling, maintenance, equipping, reequipping, repairing, and operation of its public facilities. This excise tax may not be imposed until the district has approved the proposal to acquire, design, and construct the public facilities.

(3) Except for a public facilities district created within a county with a population of one million five hundred thousand or more for the purpose of acquiring, owning, and operating a convention and trade center, a public facilities district may not impose the tax authorized in this section if, after the tax authorized in this section was imposed, the effective combined rate of state and local excise taxes, including sales and use taxes and excise taxes on lodging, imposed on the sale of or charge made for furnishing of lodging in any jurisdiction in the public facilities district exceeds eleven and one-half percent.

(4)(a) To replace the tax authorized by RCW 67.40.090, a public facilities district created within a county with a population of one million five hundred thousand or more for the purpose of acquiring, owning, (including but not limited to any short-term rental) operating, renovating, and expanding a convention and trade center may impose an excise tax on the sale of or charge made for the furnishing of lodging that is subject to tax under chapter 82.08 RCW, except that no such tax may be levied on:

(i) Any premises:((ii))

(A) Having fewer than sixty lodging units if the premises is located in a town with a population less than three hundred; or

((iii))

(B) Classified as a hostel;

(ii) Any lodging that is concurrently subject to a tax on engaging in the business of being a short-term rental operator imposed by a city in which a convention and trade center is located; or

(iii) Any lodging that is operated by a university health care system exclusively for family members of patients.

(b) The rate of the tax may not exceed seven percent within the portion of the district that corresponds to the boundaries of the largest city within the public facilities district and may not exceed 2.8 percent in the remainder of the district. The tax imposed under this subsection (4) may not be collected prior to the transfer date defined in RCW 36.100.230.

(5) To replace the tax authorized by RCW 67.40.130, a public facilities district created within a county with a population of one million five hundred thousand or more for the purpose of acquiring, owning, (including but not limited to any short-term rental) and expanding a convention and trade center may impose an additional excise tax on the sale of or charge made for the furnishing of lodging (including but not limited to any short-term rental) that is subject to tax under chapter 82.08 RCW, except that no such tax may be levied on any premises: (a) Having fewer than sixty lodging units if the premises is located in a town with a population less than three hundred; or (b) classified as a hostel. The rate of the additional excise tax may not exceed two percent and may be imposed only within the portion of the district that corresponds to the boundaries of the largest city within the public facilities district and may not be imposed in the remainder of the district. The tax imposed under this subsection (5) may not be collected prior to the transfer date specified in RCW 36.100.230. The tax imposed under this subsection (5) must be credited against the amount of the tax otherwise due to the state from those same taxpayers under chapter 82.08 RCW. The tax under this subsection (5) may be imposed only for the purpose of paying or securing the payment of the principal of and interest on obligations issued or incurred by the public facilities district and paying annual payment amounts to the state under subsection (6)(a) of this section. The authority to impose the additional excise tax under this subsection (5) expires on the date that is the earlier of (((a) ii)) (i) July 1, 2029, or (((b) (ii))) (ii) the date on which all obligations issued or incurred by the public facilities district to implement any redemption, prepayment, or legal defeasance of outstanding obligations under RCW 36.100.230(3)(a) are no longer outstanding.

(6)(a) Commencing with the first full fiscal year of the state after the transfer date defined in RCW 36.100.230 and for so long as a public facilities district imposes a tax under subsection (5) of this section, the public facilities district must transfer to the state of Washington on June 30th of each state fiscal year an annual payment amount.

(b) For the purposes of this subsection (6), "annual payment amount" means an amount equal to revenues received by the public facilities district in the fiscal year from the additional excise tax imposed under subsection (5) of this section plus an interest charge calculated on one-half the annual payment amount times an interest rate equal to the average annual rate of return for the prior calendar year in the Washington state local government investment pool created in chapter 43.250 RCW.

(c)(i) If the public facilities district in any fiscal year is required to apply additional lodging excise tax revenues to the payment of principal and interest on obligations it issues or incurs, and the public facilities district is unable to pay all or any portion of the annual payment amount to the state, the deficiency is deemed to be a loan from the state to the public facilities district for the purpose of assisting the district in paying such principal and interest and must be repaid by the public facilities district to the state after providing for the payment of the principal of and interest on obligations issued or incurred by the public facilities district, all on terms established by an agreement between the state treasurer and the public facilities district executed prior to...
the transfer date. Any agreement between the state treasurer and the public facilities district must specify the term for the repayment of the deficiency in the annual payment amount with an interest rate equal to the twenty bond general obligation bond buyer index plus one percentage point.

(ii) Outstanding obligations to repay any loans deemed to have been made to the public facilities district as provided in any such agreements between the state treasurer and the public facilities district survive the expiration of the additional excise tax under subsection (5) of this section.

(iii) For the purposes of this subsection (6)(c), "additional lodging excise tax revenues" mean the tax revenues received by the public facilities district under subsection (5) of this section.

(7) A public facilities district is authorized to pledge any of its revenues, including without limitation revenues from the taxes authorized in this section, to pay or secure the payment of obligations issued or incurred by the public facilities district, subject to the terms established by the board of directors of the public facilities district. So long as a pledge of the taxes authorized under subsection (c) of this section applies in effect, the authority may not withdraw or modify the authority to levy and collect the taxes at the rates permitted under this section and may not increase the annual payment amount to be transferred to the state under subsection (6) of this section.

(8) The department of revenue must perform the collection of such taxes on behalf of the public facilities district at no cost to the district, and the state treasurer must distribute those taxes as available on a monthly basis to the district or, upon the direction of the district, to a fiscal agent, paying agent, or trustee for obligations issued or incurred by the district.

(9) Except as expressly provided in this chapter, all of the provisions contained in RCW 82.08.050 and 82.08.060 and chapter 82.32 RCW have full force and application with respect to taxes imposed under the provisions of this section.

(10) In determining the effective combined rate of tax for purposes of the limit in subsection (3) of this section, the tax rate under RCW 82.14.530 is not included.

(11) The taxes imposed in this section do not apply to sales of temporary medical housing exempt under RCW 82.08.997.

(12) (a) For the purposes of this subsection, the definitions in this subsection apply throughout this section unless the context clearly requires otherwise.

Hostel accommodations are supervised and must include at least one common area and at least one common kitchen for guest use.

"Hostel dormitory" means a single room, containing four or more standard beds designed for single-person occupancy, used exclusively as nonprivate communal sleeping quarters, generally for unrelated persons, where such persons independently acquire the right to occupy individual beds, with the operator supervising and determining which bed each person will occupy.

"Short-term rental" means a lodging use, that is not a hotel or motel, in which a dwelling unit, or portion thereof, that is offered or provided to a guest or guests by a short-term rental operator for a fee for fewer than thirty consecutive nights. The term "short-term rental" does not include:

(i) A dwelling unit, or portion thereof, that is used by the same person for thirty or more consecutive nights; and

(ii) A dwelling unit, or portion thereof, that is operated by an organization or government entity that is registered as a charitable organization with the secretary of state, state of Washington, and is classified by the federal internal revenue service as a public charity or a private foundation, and provides temporary housing to individuals who are being treated for trauma, injury, or disease and/or their family members.

(13) Taxes authorized under subsections (4) and (5) of this section are deemed to have been imposed on December 1, 2000, for the purposes of RCW 82.14.410.

(14)(a) Beginning on the date that the condition in (b) of this subsection is satisfied, a public facilities district created within a county with a population of one million five hundred thousand or more for the purpose of acquiring, owning, operating, renovating, and expanding a convention and trade center must make quarterly payments from tax revenue collected by a public facilities district as a result of the tax imposed in chapter . . ., Laws of 2018 (this act) to a city in which the convention and trade center is located that has authorized on or before December 31, 2017, a tax on engaging in the business of being a short-term rental operator. Such payments must be made no more than thirty days after the last day of each fiscal quarter and must equal the portion of the revenues received by the public facilities district during such fiscal quarter from the lodging taxes authorized under subsection (4) of this section that are determined by the department of revenue to be derived from the short-term rental activity within such city.

(b) The public facilities district is not required to make any payments under this subsection (14) unless the city has repealed any ordinance authorizing a tax on engaging in the business of being a short-term rental operator.

(c) The public facilities district is not required to make any payments to a city under this subsection (14), if the city, after satisfying the condition in (b) of this subsection imposes any tax specifically on the act of engaging in the business of being a short-term rental operator.

(d) The proceeds of any payments made by a public facilities district to a city under this subsection (14) must be used by the city to support community-initiated equitable development and affordable housing programs, as determined by the city in its sole discretion.

(15) Fifty percent of any tax revenue collected by a public facilities district as a result of the tax imposed in chapter . . ., Laws of 2018 (this act) must be distributed by the public facilities district to the county in which the convention and trade center is located. However, if a city has satisfied the condition in subsection (14)(b) of this section, payments made under this subsection to the county in which the convention and trade center is located must be calculated after deducting any payments made to a city under subsection (14) of this section from the total tax revenue received by the public facilities district as a result of the enactment of chapter . . ., Laws of 2018 (this act). The proceeds of such payments to a county under this subsection (15) must be used by the county to support affordable housing programs, as determined by the county, in its sole discretion.

Allowing property insurers to assist their insureds with risk mitigation goods or services.

The measure was read the second time.

MOTION

Senator Mullet moved that the following committee striking amendment by the Committee on Financial Institutions & Insurance be not adopted:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature finds that allowing property insurers to assist their insureds with either risk mitigation or prevention, or both, and goods and services could help prevent, or reduce the severity of claims and losses. The legislature further finds that property insurers engage in supporting insureds through disaster response activities when there is an imminent threat of damage to insured property, such as wildfire prevention defense efforts that provide fire retardants to homes in a wildfire area or send crews to combat wildfires to protect insureds’ homes. The legislature further finds that assisting insureds with risk mitigation and prevention and providing disaster response activities are both useful in preventing economic loss, and should be exempt from the prohibition against inducements under RCW 48.30.140 and 48.30.150.

NEW SECTION. Sec. 2. A new section is added to chapter 48.18 RCW to read as follows:

(1) With the prior approval of the commissioner, a property insurer may include the following goods and services intended to reduce either the probability of loss, or the extent of loss, or both, from a covered event as part of a policy of property insurance, except commercial property insurance:

(a) Goods, including a water monitor;

(b) Foundation strapping to mitigate losses due to earthquake;

(c) Other goods and services as the commissioner may identify by rule.

(2) Any goods provided are owned by the insured, even if the insurance is subsequently canceled.

(3) The value of goods and services to be provided is limited to one thousand five hundred dollars in value in the aggregate in any twelve-month period.

(4) In order to receive prior approval of the commissioner, and except as provided in subsection (6) of this section, the property insurer must include the following in its rate filing:

(a) A description of either the specific goods or services, or both, to be offered;

(b) A description of the method of delivering either the specific goods or services, or both, being offered; and

(c) The selection criteria for insureds receiving either the specific goods or services, or both, being offered.

(5) This section does not require the commissioner to approve any particular proposed benefit. The commissioner may disapprove any proposed noninsurance benefit that the commissioner determines may tend to promote or facilitate the..."
violation of any other section of this title. However, if the commissioner approves the inclusion of the goods and services in a policy of property insurance, except commercial property insurance, it does not constitute a violation of RCW 48.30.140 or 48.30.150.

(6)(a) A property insurer may conduct a pilot program as either a risk mitigation or prevention, or both, strategy through which the insurer offers or provides either risk mitigation or prevention, or both, or goods and services identified in subsection (1) of this section in connection with an insurance policy covering property risks, except commercial property insurance, in accordance with rules adopted by the commissioner.

(b) A property insurer offering or providing either risk mitigation or prevention, or both, or goods and services through a pilot program under this subsection is exempt from including information about either the risk mitigation or prevention, or both, or goods and services in its rate filing as is otherwise required under subsection (4) of this section and section 3 of this act.

(c) A property insurer's pilot program may last no longer than two years.

(7) This section does not apply to a disaster or emergency response program of a property insurer.

NEW SECTION. Sec. 3. A new section is added to chapter 48.19 RCW to read as follows:

(1) Except as provided in subsection (2) of this section, in addition to other information required by this chapter, a rate filing by a property insurer for a policy, except commercial property insurance, that includes either risk mitigation or prevention, or both, or goods and services under section 2 of this act, must demonstrate that its rates account for the expected costs of the goods and services and the reduction in expected claims costs resulting from the goods and services.

(2) This section does not apply to:

(a) A property insurer offering or providing either risk mitigation or prevention, or both, or goods and services through a pilot program established in section 2(6) of this act; or

(b) A disaster or emergency response program of a property insurer.

NEW SECTION. Sec. 4. A new section is added to chapter 48.18 RCW to read as follows:

The commissioner may adopt rules as necessary to implement sections 2 and 3 of this act, including but not limited to:

(1) Rules requiring a notice to insureds or potential insureds regarding their ability to opt out of receiving any risk mitigation or prevention, or both, or goods and services;

(2) Rules increasing the value of the goods and services permitted under section 2(1) of this act;

(3) Rules establishing requirements for pilot programs authorized under section 2(6) of this act; and

That we’re not getting lectures on how we should be acting and not. And you’re calling voice votes by volume and doing a really fair job and how much that’s appreciated. You’ve made us all feel respected and, and worthwhile out here Madam President. I just, I just think that everybody in here should know how some of us feel. I really like that we’ve been able to, you know, count on following the Senate Rules and that, that there’s an understanding. I know that you don’t like every second of it, and yet you do it professionally and, and, with, with, with courtesy. I genuinely appreciate that. I also wanted to remind you, Madam President, I believe that under our rules any of us can spell you so we’re standing by, if you need a brief relief we’re happy to help.”

PERSONAL PRIVILEGE

Senator Fain: “I was just going to remark, Madam President, that I also appreciate your job up there but it is my father’s 86th birthday tonight and we are having dinner. It starts five minutes ago. ((16)(a)) The SR 520 Bridge Replacement and HOV project (SB1003) is supported over time from multiple sources, including a $300,000,000 TIFIA loan, $924,615,000 in Garvee bonds, toll revenues, state bonds, interest earnings, and other miscellaneous sources.

(b) $78,958,000 of the transportation partnership account—state appropriation is provided solely for the SR 520 Bridge Replacement and HOV project (SB1003).

(c) When developing the financial plan for the project, the department shall assume that all maintenance and operation costs for the new facility are to be covered by tolls collected on the toll facility and not by the motor vehicle account.

((17)) The department shall itemize all future requests for the construction of buildings on a project list and submit them through the transportation executive information system as part of the department’s annual budget submittal. It is the intent of the legislature that new facility construction must be transparent and not appropriated within larger highway construction projects.

((18)) Any advisory group that the department convenes during the 2017-2019 fiscal biennium must consider the interests of the entire state of Washington.

((19)) It is the intent of the legislature that for the I-5 JBLM Corridor Improvements project (M00100R), the department shall actively pursue $50,000,000 in federal funds to pay for this project to supplant state funds in the future. $50,000,000 in connecting Washington account funding must be held in unallotted status during the 2021-2023 fiscal biennium. These funds may only be used after the department has provided notice to the office of financial management that it has exhausted all efforts to secure federal funds from the federal highway administration and the department of defense.

((20)) $93,561,000 of the connecting Washington account—state appropriation (is) and $600,000 of the motor vehicle account—state appropriation are provided solely for the SR 167/SR 509 Puget Sound Gateway project (M00600R). Any savings on the project must stay on the Puget Sound gateway corridor until the project is complete.

((21)(a)) In making budget allocations to the Puget Sound Gateway project, the department shall implement the project's construction as a single corridor investment. The department shall develop a coordinated corridor construction and implementation plan for state route number 167 and state route number 509 in collaboration with affected stakeholders. Specific funding allocations must be based on where and when specific project segments are ready for construction to move forward and investments can be best optimized for timely project completion. Emphasis must be placed on avoiding gaps in fund expenditures for either project.

(b) The secretary of transportation must develop a memorandum of understanding with local project stakeholders that identifies a schedule for stakeholders to provide local matching funds for the Puget Sound Gateway project. Criteria for eligibility of local match includes matching funds and equivalent in-kind contributions including, but not limited to, land donations. The memorandum of understanding must be finalized by July 1, 2018. The department must submit a copy of the memorandum of understanding to the transportation committees of the legislature and report regularly on the status of the requirements outlined in this subsection (21)(b) and (c) of this subsection.

(c) During the course of developing the memorandum of understanding, the department must evaluate the project schedules to determine if there are any benefits to be gained by moving the project schedule forward. (Additionally, the department must consider completion) It is the legislature's intent that if the department identifies any savings after the funding gap on the base project is closed as part of the proposal to expedite the project, that these cost savings shall go toward construction of a full single-point urban interchange at the junction of state route number 161 (Meridian avenue) and state route number 167 and a full single-point urban interchange at the junction of state route number 509 and 188th Street. If the department receives additional funds from an outside source for this project after the funding gap on the base project is closed, the funds must be applied toward the completion of these two single-point urban interchanges.

(d) $600,000 of the motor vehicle account—state appropriation provided in subsection (20) of this section is provided solely for planning and preliminary engineering for a full single-point urban interchange at the junction of state route number 161 (Meridian avenue) and state route number 167.

((22)) It is the intent of the legislature that, for the I-5/North Lewis County Interchange project (L2000204), the department develop and design the project with the objective of significantly improving access to the industrially zoned properties in north Lewis county. The design must consider the county's process of investigating alternatives to improve such access from Interstate 5 that began in March 2015.

((23)) $942,000 of the motor vehicle account—state appropriation is provided solely for the department to complete an interchange justification report (IJR) for the U.S. 2 trestle (L1000158), covering the state route number 204 and 20th Street interchanges at the end of the eastbound structure.

(a) The department shall develop the IJR in close collaboration with affected local jurisdictions, including Snohomish county and the cities of Everett, Lake Stevens, Marysville, Snohomish, and Monroe.

(b) Within the amount provided for the IJR, the department must address public outreach and the overall operational approval of the IJR.

(c) The department shall complete the IJR and submit the final report to the governor and the transportation committees of the legislature by July 1, 2018.

((24)(a)) The legislature recognizes that the city of Mercer Island has unique access issues that require the use of Interstate 90 to leave the island and that this access may be affected by the I-90/Two-Way Transit and HOV Improvements project. One of the most heavily traveled on-ramps from Mercer Island to the westbound Interstate 90 general purpose lanes is from Island Crest Way. The department must continue to consult with the city of Mercer Island and the other signatories to the 1976 memorandum of agreement to preserve access provided to Mercer Island by the Island Crest Way on-ramp, and thus grandfather in vehicles seeking to access the general purpose lanes of Interstate 90. The department must consider all reasonable access solutions, including allowing all vehicles to use the Island Crest...
Way on-ramp to access the new high occupancy vehicle lane with a reasonable and safe distance provided for single-occupancy vehicles to merge into the general purpose lanes.

(b) A final access solution for Mercer Island must consider the following criteria: Safety; operational effects on all users, including maintaining historic access to Interstate 90 provided from Mercer Island by Island Crest Way; enforcement requirements; and compliance with state and federal law.

(c) The department may not restrict by occupancy the westbound on-ramp from Island Crest Way until a final access solution that meets the criteria in (b) of this subsection has been reached.

((24) $2,000,000) (25) $3,258,000 of the Interstate 405 express toll lanes operations account—state appropriation is provided solely for the I-405 NB Hard Shoulder Running – SR 327 to I-5 project (L1000163).

((25)) (26) The legislature finds that there are sixteen companies involved in wood preserving in the state that employ four hundred workers and have an annual payroll of fifteen million dollars. Before the department's switch to steel guardrails, ninety percent of the twenty-five mile guardrail system was constructed of preserved wood and one hundred ten thousand wood guardrail posts were produced annually for state use. Moreover, the policy of using steel posts requires the state to use imported steel. Given these findings, where practicable, and until June 30, 2019, the department shall include the design option to use wood guardrail posts, in addition to steel posts, in new guardrail installations. The selection of posts must be consistent with the agency design manual policy that existed before December 2009.

((26)) (27) For the SR 526 Corridor Improvements project (N52600R), the department shall look holistically at the state route number 526 corridor from the state route number 526/Interstate 5 interchange at the east end to the southwest Everett industrial area and Boeing's west access road on the west end. The department, working with affected jurisdictions and stakeholders, shall select project elements that best maximize mobility and congestion relief in the corridor and draw from project elements identified in a practical solutions process.

((27)) It is the intent of the legislature that for the I 5 Slater Road Interchange - Improvements project (L1000099), $2,000,000 of connecting Washington account—state funds be added in the 2021-2023 fiscal biennium and $10,100,000 of connecting Washington account—state funds be added in the 2023-2025 fiscal biennium, and that the LEAP transportation document identified in subsection (1) of this section be updated accordingly.

(28)(a) For projects funded as part of the 2015 connecting Washington transportation package listed on the LEAP transportation document identified in subsection (1) of this section, and delivered utilizing the design-build method, may be advanced by the department subject to the following conditions:

(i) The department has provided notification of the request to advance the project as provided in (c) of this subsection;

(ii) The design-build project will be delivered in a more efficient or cost effective manner by advancing the timeline identified in the LEAP transportation document identified in subsection (1) of this section; and

(iii) The department has consulted with the office of financial management and the transportation committees of the legislature, and the director of the office of financial management has provided written authorization for the advancement.

(b) For the purpose of advancing projects eligible under (a) of this subsection, the department may apply amounts available from connecting Washington projects with an appropriation that would not otherwise be used for the current fiscal biennium. The advancement of a project may not hinder or delay the delivery of the projects for which reappropriations are necessary for the 2019-2021 fiscal biennium.

(c) At least thirty calendar days before advancing a project, the department must notify the office of financial management and the transportation committees of the legislature. The notification must include the projects being advanced and the projects with unused appropriation authority applied to advance projects pursuant to (b) of this subsection. The notification must also provide the rationale for timing changes for each advanced project and for each project with an appropriation that would not otherwise be used for the current fiscal biennium.

(32) Proceeds from the sale of any surplus real property acquired for the purpose of building the SR 167/SR 509 Puget Sound Gateway (M00600R) project must be deposited into the motor vehicle account for the purpose of constructing the project.

4. Within the motor vehicle account—state appropriation and motor vehicle account—federal appropriation, the department may transfer funds between programs I and P, except for funds that are otherwise restricted in this act. The department shall submit a report on fiscal year 2017 funds transferred using this subsection as part of the department's 2018 budget submittal.

5. The transportation 2003 account (nickel account)—state appropriation includes up to (($13,395,000)) $28,847,000 in proceeds from the sale of bonds authorized in RCW 47.10.861.

These amounts must be held in unallotted status, except that the director of the office of financial management may approve allotment of the funds upon fulfillment of the conditions of (b) of this subsection.

12. The department and the Washington state patrol shall jointly submit a prioritized list of weigh station projects to the office of financial management by October 1, 2017. Projects submitted must include estimated costs for preliminary engineering, rights-of-way, and construction and must also consider the timing of any available funding for weigh station projects.
The department must consult with the Washington state patrol and the office of financial management during the design phase of any improvement or preservation project that could impact Washington state patrol weigh station operations. During the design phase of any such project, the department must estimate the cost of designing around the affected weigh station's current operations, as well as the cost of moving the affected weigh station.

To achieve this goal, the department shall evaluate using highly energy efficient equipment and systems, and the most appropriate renewable energy systems for the needs and location of the terminal. To the extent practicable, the department shall avoid the closure of, or disruption to, any existing public access walkways in the vicinity of the terminal project during construction.

3. ($61,729,000) $94,671,000 of the Puget Sound capital construction account—federal appropriation, ($36,529,000) $46,919,000 of the connecting Washington account—state appropriation, ($31,531,000) $26,949,000 of the Puget Sound capital construction account—state appropriation, $2,734,000 of the multimodal transportation account—state appropriation, $2,811,000 of the Puget Sound capital construction account—state appropriation, and $679,000 of the transportation 2003 account—state appropriation are provided solely for the Seattle Terminal Replacement project (900010L).

(i) Identify changes in the demographics of users of the system;
(ii) Review route timetables and propose adjustments that take into consideration ridership volume, vessel load times, proposed and current passenger-only ferry system ridership, and other operational needs;
(iii) Review vessel needs by route and propose a vessel replacement schedule, vessel retirement schedule, and estimated number of vessels needed. This analysis should also articulate a reserve vessel strategy;
(iv) Identify the characteristics most appropriate for replacement vessels, such as passenger and car-carrying capacity, while taking into consideration other cost-driving factors. These factors should include:

   (ix) Identify operational changes that may reduce costs, such as nighttime tie-up locations.
(c) The department shall submit a status report on the long-range plan update to the governor and the transportation committees of the legislature by June 30, 2018, and a final report by January 1, 2019.

(7) $600,000 of the Puget Sound capital construction account—state appropriation is provided for development of a request for proposal to convert the three ferry vessels in the Jumbo Mark II class to hybrid electric propulsion and make associated necessary modifications to the Seattle, Bainbridge, Edmonds, and Kingston terminals. The department is directed to explore capital project financing options to include, but not be limited to, federal funding opportunities, private or local contributions, application for Volkswagen settlement funds, and energy-savings performance contracting to be repaid in whole or in part by fuel-cost savings. The department will report total capital cost estimates, optimal construction schedule, annual capital and operating savings or costs, and a recommended funding option to the governor and to the transportation committees of the legislature by June 30, 2019.

IMPLEMENTING PROVISIONS

Sec. 601. 2017 c 313 s 601 (uncodified) is amended to read as follows:

FUND TRANSFERS

(1) The 2005 transportation partnership projects or improvements and 2015 connecting Washington projects or improvements are listed in the LEAP Transportation Document (2017-1) 2018-1 as developed (April 20, 2017) February 18, 2018, which consists of a list of specific projects by fund source and amount over a sixteen-year period. Current fiscal biennium funding for each project is a line-item appropriation, while the outer year funding allocations represent a sixteen-year plan. The department of transportation is expected to use the flexibility provided in this section to assist in the delivery and completion of all transportation partnership account and connecting Washington account projects on the LEAP transportation document referenced in this subsection. For the 2017-2019 project appropriations, unless otherwise provided in this act, the director of the office of financial management may provide written authorization for a transfer of appropriation authority between projects funded with transportation partnership account appropriations or connecting Washington account appropriations to manage project spending and efficiently deliver all projects in the respective program under the following conditions and limitations:

(a) Transfers may only be made within each specific fund source referenced on the respective project list;
(b) Transfers from a project may not be made as a result of the reduction of the scope of a project or be made to support increases in the scope of a project;
(c) Transfers from a project may be made if the funds appropriated to the project are in excess of the amount needed in the current fiscal biennium;
(d) Transfers may not occur for projects not identified on the applicable project list;
(e) Transfers may not be made while the legislature is in session;
(f) Transfers to a project may not be made with funds designated as attributable to practical design savings as described in RCW 47.01.480;
(g) Each transfer between projects may only occur if the director of the office of financial management finds that any resulting change will not hinder the completion of the projects as approved by the legislature. Until the legislature reconvenes to consider the 2018 supplemental omnibus transportation appropriations act, any unexpended 2015-2017 appropriation balance as approved by the office of financial management, in consultation with the legislative staff of the house of representatives and senate transportation committees, may be considered when transferring funds between projects; and
(h) Transfers between projects may be made by the department of transportation without the formal written approval provided under this subsection (1), provided that the transfer amount does not exceed two hundred fifty thousand dollars or ten percent of the total project, whichever is less. These transfers must be reported quarterly to the director of the office of financial management and the chairs of the house of representatives and senate transportation committees.

(2) The department of transportation must submit quarterly all transfers authorized under this section in the transportation executive information system. The office of financial management must maintain a legislative baseline project list identified in the LEAP transportation documents referenced in this act, and update that project list with all authorized transfers under this section.

(3) At the time the department submits a request to transfer funds under this section, a copy of the request must be submitted to the transportation committees of the legislature.

(4) Before approval, the office of financial management shall work with legislative staff of the house of representatives and senate transportation committees to review the requested transfers in a timely manner.

(5) No fewer than ten days after the receipt of a project transfer request, the director of the office of financial management must provide written notification to the department of any decision regarding project transfers, with copies submitted to the transportation committees of the legislature.

(6) The department must submit annually as part of its budget submittal a report detailing all transfers made pursuant to this section.

Sec. 602. 2017 c 313 s 606 (uncodified) is amended to read as follows:

(1) By November 15, 2017, and annually thereafter, the department of transportation must report on amounts expended to benefit transit, bicycle, or pedestrian elements within all connecting Washington projects in programs I, P, and Z identified

in LEAP Transportation Document ((2017-2 ALL PROJECTS)) 2018-1 as developed ((April 20, 2017)) February 18, 2018. The report must address each modal category separately and identify if eighteenth amendment protected funds have been used and, if not, the source of funding.

(2) To facilitate the report in subsection (1) of this section, the department of transportation must require that all bids on connecting Washington projects include an estimate on the cost to implement any transit, bicycle, or pedestrian project elements.

MISCELLANEOUS 2017-2019 FISCAL BIENNIAL

Sec. 701. RCW 88.16.061 and 2008 c 128 s 17 are each amended to read as follows:

The account in the general fund designated in RCW 43.79.330(17) as the "Puget Sound pilotage account" is hereby redesignated as the "pilotage account".

The pilotage account is hereby redesignated as a nonappropriated account, and is therefore created in the custody of the state treasurer. All receipts designated, credited, or transferred to the pilotage account must be deposited into the account. Expenditures from the account may be used only for the purposes of the board of pilotage commissioners as prescribed under this chapter. Only the board or the board's designee may authorize expenditures from the account. During the 2017-2019 fiscal biennium, solely for the implementation of chapter . . . The account is subject to allotment procedures under chapter 43.88 RCW, but an appropriation is not required for expenditures.

PERSONAL PRIVILEGE

Senator Braun: “Thank you Mr. President. So, I just want to take a moment, Mr. President. I passed out, I asked to be passed out, an article about the passing of Orin Smith. Many of you may know, he was the long time the CEO and President of Starbucks. So, I got to know Orin some years ago. He was born and raised in Chehalis, actually born I think in Ryderwood. Raised in Chehalis, attended W. F. Wells High School. Very interesting. He played and was a key leader on the last state basketball team to win from W. F. West in 1959-1960. Amazing story there. I mean I could go on and on about the amazing stories in Orin’s life but, a team leader. Went to Centralia College, another graduate of our wonderful community and technical colleges. Went on to UW, and then eventually to Harvard where he earned an MBA. He worked in the private sector, came back and worked as the budget officer for both Governor Dixie Lee Ray and Governor Booth Gardner. Went back to the private sector, worked in a number of jobs, ultimately, in 1990 he went to Starbucks and eventually became the President and CEO. Amazing story from a beginning in poverty. A mother who raised her children as a single mom and this is where I first met Orin and got to know him a little bit. I was on the Timberland Regional Library Board. At the time, we were trying to build a new library in the city of Chehalis and Orin quietly came in, as was his habit, and offered to make a substantial contribution to the building of that library. And all he asked is that it ultimately be named after his mother, Vernetta Smith. And he would tell the story of how she would bring him and his brothers and sister to the library, regularly. That was a staple in their life and I could go on and probably would not do it justice. But a very inspiring story. And was the first in many contributions to his hometown, where he would quietly come in and support a variety of things from reconstruction of the new pool to, I had another chance to work with him closely as we built, a new food bank. And it was always the same in many ways, a very quiet offer to help, but you knew once you got to know him he was never going to help a little bit. Both financially of course but also in deeply involved in the thinking, and how do you, if we are going to do this, his commitment was always, ‘Let’s do it right. Let’s do it well. Let’s serve our community to the best of our ability.’ So much, much, more than simple financial support. And really inspiring in many ways. At any rate, Mr. President, I simply want to take a moment to recognize this amazing man in our state who served...
both in the public and private sector. The last thing I would mention because this is a place where I was personally inspired by him is his work at Starbucks. To really look after the employees, to bring, to provide benefits, to do everything we can to help folks be successful in their employment in the private sector. And drove policies and, really, changes in corporate and company approaches around the country. I am inspired by his example where he is very fiscally sound. He was a CPA, I think by training, and never lost track of the money but didn’t let that get in the way of doing the right thing for people and bringing people along. Truly, an inspiration to me and I think to many Washingtonians and I would just like to recognize him today. Thank you Mr. President.”

REMARKS BY THE PRESIDENT

President Habib: “And of course, Orin Smith, also in the spirit of your remarks, he also served and was confirmed by this body as a Regent of the University of Washington, so was a public servant throughout his life. Thank you Senator Braun.”

PERSONAL PRIVILEGE

Senator Carlyle: “Thank you Mr. President. I just want to thank the good gentleman from the 20th for raising this. He was a gentleman and a scholar and I think we all, those of us who had the opportunity to spend quality time with him were so deeply impressed by his personal values, his professional accomplishments and he really was a very special person. And I share the sentiment very much. And I think that he reflected both the best of the public sector and the private sector in the values of civic engagement and he was a friend. So thank you very much for your thoughts on him.”

Mr. Orin C. Smith, June 26, 1942, Ryderwood – March 1, 2018, Jackson, Wyoming.

**PART II**

**HUMAN SERVICES**

Sec. 201. 2017 3rd sp.s. c 1 s 201 (uncodified) is amended to read as follows:

**FOR THE DEPARTMENT OF SOCIAL AND HEALTH SERVICES**

(1) The appropriations to the department of social and health services in this act shall be expended for the programs and in the amounts specified in this act. Appropriations made in this act to the department of social and health services shall initially be allotted as required by this act. Subsequent allotment modifications shall not include transfers of moneys between sections of this act except as expressly provided in this act, nor shall allotment modifications permit moneys that are provided solely for a specified purpose to be used for other than that purpose.

(2) The department of social and health services shall not initiate any services that require expenditure of state general fund moneys unless expressly authorized in this act or other law. The department may seek, receive, and spend, under RCW 43.79.260 through 43.79.282, federal moneys not anticipated in this act as long as the federal funding does not require expenditure of state moneys for the program in excess of amounts anticipated in this act. If the department receives unanticipated unrestricted federal moneys, those moneys shall be spent for services authorized in this act or in any other legislation providing appropriation authority, and an equal amount of appropriated state general fund moneys shall lapse. Upon the lapsing of any moneys under this subsection, the office of financial management shall notify the legislative fiscal committees. As used in this subsection, "unrestricted federal moneys" includes block grants and other funds that federal law does not require to be spent on specifically defined projects or matched on a formula basis by state funds.

(3) The legislature finds that medicaid payment rates, as calculated by the department pursuant to the appropriations in this act, bear a reasonable relationship to the costs incurred by efficiently and economically operated facilities for providing quality services and will be sufficient to enlist enough providers so that care and services are available to the extent that such care and services are available to the general population in the geographic area. The legislature finds that cost reports, payment data from the federal government, historical utilization, economic data, and clinical input constitute reliable data upon which to determine the payment rates.

(4) The department shall to the maximum extent practicable use the same system for delivery of spoken-language interpreter services for social services appointments as the one established for medical appointments in the health care authority. When contracting directly with an individual to deliver spoken language interpreter services, the department shall only contract with language access providers who are working at a location in the state and who are state-certified or state-authorized, except that when such a provider is not available, the department may use a language access provider who meets other certifications or standards deemed to meet state standards, including interpreters in other states.

(5) Information technology projects or investments and proposed projects or investments impacting time capture, payroll and payment processes and systems, eligibility, case management, and authorization systems within the department of social and health services are subject to technical oversight by the office of the chief information officer.

(a) The department shall facilitate enrollment under the medicaid expansion for clients applying for or receiving state funded services from the department and its contractors. Prior to open enrollment, the department shall coordinate with the health care authority to provide referrals to the Washington health benefit exchange for clients that will be ineligible for medicaid.

(b) To facilitate a single point of entry across public and medical assistance programs, and to maximize the use of federal
funding, the health care authority, the department of social and health services, and the health benefit exchange will coordinate efforts to expand HealthPlanfinder access to public assistance and medical eligibility staff. The department shall complete medicaid applications in the HealthPlanfinder for households receiving or applying for public assistance benefits.

(7) In accordance with RCW 71.24.380, the health care authority and the department are authorized to purchase medical and behavioral health services through integrated contracts upon request of all of the county authorities in a regional service area to become an early adopter of fully integrated purchasing of medical and behavioral health services. The department may combine and transfer such amounts appropriated under sections 204, 208, and 213 of this act as may be necessary to fund early adopter contracts. The amount of medicaid funding transferred from each program may not exceed the average per capita cost assumed in this act for individuals covered by that program, actuarially adjusted for the health condition of persons enrolled, times the number of clients enrolled. The amount of non-medicaid funding transferred from sections 204 and 208 may not exceed the amount that would have been contracted with a behavioral health organization if the county authorities had not requested to become an early adopter of fully integrated purchasing. These limits do not apply to the amounts provided in section 204(1)(s) of this act. If any funding that this act provides solely for a specific purpose is transferred under this subsection, that funding must be used consistently with the provisions and conditions for which it was provided.

(8) In accordance with RCW 71.24.380, the department is authorized to purchase mental health and substance use disorder services through integrated contracts with behavioral health organizations. The department may combine and transfer such amounts appropriated under sections 204 and 208 of this act as may be necessary to finance these behavioral health organization contracts. If any funding that this act provides solely for a specific purpose is transferred under this subsection, that funding must be used consistently with the provisions and conditions for which it was provided.

(9)(a) The appropriations to the department of social and health services in this act must be expended for the programs and in the amounts specified in this act. However, after May 1, 2018, unless prohibited by this act, the department may transfer general fund—state appropriations for fiscal year 2018 among programs and subprograms after approval by the director of the office of financial management. However, the department may not transfer state appropriations that are provided solely for a specified purpose except as expressly provided in (b) through (d) of this subsection.

(b) To the extent that transfers under (a) of this subsection are insufficient to fund actual expenditures in excess of fiscal year 2018 caseload forecasts and utilization assumptions in the long-term care, development disabilities, foster care, adoption support, and public assistance programs, the department may transfer state appropriations that are provided solely for a specified purpose except as expressly provided in (b) through (d) of this subsection.

(c) Within the mental health program, the department may transfer appropriations that are provided solely for a specified purpose within and between subprograms as needed to fund actual expenditures through the end of fiscal year 2018.

(d) Within the developmental disabilities program, the department may transfer appropriations that are provided solely for a specified purpose within and between subprograms as needed to fund actual expenditures through the end of fiscal year 2018.

(e) The department may not transfer appropriations, and the director of the office of financial management may not approve the transfer, unless the transfer is consistent with the objective of conserving, to the maximum extent possible, the expenditure of state funds. The director of the office of financial management shall notify the appropriate fiscal committees of the senate and house of representatives in writing seven days prior to approving any allotment modifications or transfers under this subsection. The written notification shall include a narrative explanation and justification of the changes, along with expenditures and allotments by budget unit and appropriation, both before and after any allotment modifications or transfers.

(b) The juvenile rehabilitation administration shall administer a block grant to county juvenile courts for the purpose of serving youth as defined in RCW 13.40.510(4)(a) in the county juvenile justice system. Funds dedicated to the block grant include: Consolidated juvenile service (CJS) funds, community juvenile accountability act (CJAA) grants, chemical dependency/mental health disposition alternative (CDDA), and suspended disposition alternative (SDA). The juvenile rehabilitation administration shall follow the following formula and must prioritize evidence-based programs and disposition alternatives and take into account juvenile courts program-eligible youth in conjunction with the number of youth served in each approved evidence-based program or disposition alternative: (i) Thirty-seven and one-half percent for the at-risk population of youth ten to seventeen years old; (ii) fifteen percent for the assessment of low, moderate, and high-risk youth; (iii) twenty-five percent for evidence-based program participation; (iv) seventeen and one-half percent for minority populations; (v) three percent for the chemical dependency and mental health disposition alternative; and (vi) two percent for the suspended dispositional alternatives. The committee in (d) of this subsection must establish a minimum base level of funding for juvenile courts with lower numbers of at-risk youth age 10—17. The administration must report to the legislature by December 1, (2018) 2019, about how funding is used for referred youth and the impact of that use on overall use of funding. The purpose of this committee is to assess the ongoing implementation of the block grant funding formula, utilizing data-driven decision making and the most current available information. The committee will be co-chaired by the juvenile rehabilitation administration and the juvenile courts, who will also have the ability to change members of the committee as needed to achieve its purpose. The committee may make changes to the formula categories in (b) of this subsection if it determines the changes will increase statewide service delivery or effectiveness of evidence-based program or disposition alternative resulting in increased cost/benefit savings to the state, including long-term cost/benefit savings. The committee must also consider these outcomes in determining when evidence-based expansion or special sex offender disposition alternative funds should be included in the block grant or left separate.

(e) The juvenile courts and administrative office of the courts must collect and distribute information and provide access to the data systems to the juvenile rehabilitation administration and the Washington state institute for public policy related to program and outcome data. FOR THE DEPARTMENT OF SOCIAL AND HEALTH SERVICES—MENTAL HEALTH PROGRAM

(1) COMMUNITY SERVICES/BEHAVIORAL HEALTH ORGANIZATIONS

General Fund—State Appropriation (FY 2018)

($291,452,000) $381,760,000
behavioral health organizations for the use of these funds based on regional priorities. Services in these facilities may include crisis stabilization and intervention, individual counseling, peer support, medication management, education, and referral assistance. The department shall monitor each center's effectiveness at lowering the rate of state psychiatric hospital admissions.

((f)) $11,405,000 of the general fund—state appropriation for fiscal year 2018 is provided solely to assist behavioral health organizations with the costs of providing services to medicaid clients receiving services in psychiatric facilities classified as institutions of mental diseases. The department must distribute these amounts proportionate to the number of bed days for medicaid clients in institutions for mental diseases that were excluded from behavioral health organization fiscal year 2018 capitation rates because they exceeded the amounts allowed under federal regulations. The department must also use these amounts to directly pay for costs that are ineligible for medicaid reimbursement in institutions of mental disease facilities for American Indian and Alaska Natives who opt to receive medicaid services on a fee for service basis. The amounts used for these individuals must be reduced from the allocation of the behavioral health organization where the individual resides. If a behavioral health organization receives more funding through this subsection than is needed to pay for the cost of their medicaid clients in institutions for mental diseases, they must use the remainder of the amounts to provide other services not covered under the medicaid program. The department must apply for a waiver from the center for medicare and medicare services to allow for the full cost of stays in institutions of mental diseases to be included in fiscal year 2019 behavioral health organization capitation rates. The department may tailor the fiscal year 2019 waiver to specific populations for which the center for medicare and medicare services has indicated they are likely to approve and work to further expand the waiver to other populations in fiscal year 2020. The department must submit a report on the status of the waiver to the office of financial management and the appropriate committees of the legislature by December 1, 2017.

((g)) $81,930,000 of the general fund—state appropriation for fiscal year 2018 is provided solely for persons and services not covered under the medicare program. To the extent possible, levels of behavioral health organization spending shall be maintained in the following priority order: Crisis and commitment services; community inpatient services; and residential care services, including personal care and emergency housing assistance. These amounts must be distributed to behavioral health organizations proportionate to the fiscal year 2017 allocation of flexible nonmedicaid funds. The department must include the following language in medicare contracts with behavioral health organizations unless they are provided formal notification from the center for medicare and medicare services that the language will result in the loss of federal medicare participation: 'The contractor may voluntarily provide services that are in addition to those covered under the state plan, although the cost of these services cannot be included when determining payment rates unless including these costs are specifically allowed under federal law or an approved waiver.'

((h)) The department is authorized to continue to contract directly, rather than through contracts with behavioral health organizations for children's long-term inpatient facility services. $1,125,000 of the general fund—state appropriation for fiscal year 2018 is provided solely for the Spokane county behavioral health organization to implement services to reduce utilization and the census at eastern state hospital. Such services shall include:

(A) High intensity treatment team for persons who are high utilizers of psychiatric inpatient services, including those with co-occurring disorders and other special needs;

(B) Crisis outreach and diversion services to stabilize in the community individuals in crisis who are at risk of requiring inpatient care or jail services;

(C) Mental health services provided in nursing facilities to individuals with dementia, and consultation to facility staff treating those individuals; and

(D) Services at the sixteen-bed evaluation and treatment facility.

At least annually, the Spokane county behavioral health organization shall assess the effectiveness of these services in reducing utilization at eastern state hospital, identify services that are not optimally effective, and modify those services to improve their effectiveness.

((i)) $1,204,000 of the general fund—state appropriation for fiscal year 2018 is provided solely to reimburse Pierce and Spokane counties for the cost of conducting 180-day commitment hearings at the state psychiatric hospitals.

((j)) Behavioral health organizations may use local funds to earn additional federal medicaid match, provided the locally matched rate does not exceed the upper-bound of their federally allowable rate range, and provided that the enhanced funding is used only to provide medicaid state plan or waiver services to medicaid clients. Additionally, behavioral health organizations may use a portion of the state funds allocated in accordance with (g) of this subsection to earn additional medicaid match, but only to the extent that the application of such funds to medicaid services does not diminish the level of crisis and commitment, community inpatient, residential care, and outpatient services presently available to persons not eligible for medicaid.

((k)) $2,291,000 of the general fund—state appropriation for fiscal year 2018 is provided solely for mental health services for mentally ill offenders while confined in a county or city jail and for facilitating access to programs that offer mental health services upon release from confinement. The rate increase related to nonmedicaid clients must be done to maintain the provider at the same percentage as currently required under WAC 182-550-4800.

The department must seek proposals and contract directly for these services rather than contracting through behavioral health organizations. The department must coordinate with the department of social and health services in developing the contract requirements, selecting contractors, and establishing processes for identifying patients that will be admitted to these facilities. The department must not use any of the amounts provided under this subsection for contracts with facilities that are subject to federal funding restrictions that apply to institutions of mental diseases, unless they have received a waiver that allows for full federal participation in these facilities.

In contracting for community evaluation and treatment services, the department may not use these resources in facilities that meet the criteria to be classified under federal law as institutions for mental diseases. If the department is unable to come to a contract agreement with a designated behavioral health organization for any of the services identified above, it may consider contracting
for that service in another region that has the need for such service.

Except in areas where only a single plan is available, the authority must contract with at least two plans. The authority shall include in the contracts: (i) Quarterly reporting requirements to include medical utilization and encounter data by current dental technology (CDT) code; (ii) a direction to increase the dental provider network; (iii) a commitment to retain innovative programs that improve access and care such as the Access to Baby and Child Dentistry Program; (iv) a program to reduce emergency room use for dental purposes; (v) a requirement to ensure that dental care is being coordinated with the primary care provider of the patient to ensure integrated care; (vi) a provision that no less than eighty-five percent of the contracting fee shall be sufficient to provide direct patient care as opposed to administrative costs; and (vii) a provision to ensure the contracting fee shall be sufficient to compensate county health departments and federally qualified health centers for dental patient care. The plan(s) awarded this contract must absorb all start-up costs associated with moving the program from fee-for-service to managed care and shall commit to achieving an overall savings to the program based on 2016 fee-for-service experience. In order to comply with state insurance underwriting standards, the authority shall ensure that savings offered by dental plans are actuarially sound. Starting January 31, 2019, and every year thereafter through December 2024, the authority shall submit an annual report to the governor and the appropriate committees of the legislature detailing how the contracted entities have met the requirements of the contract. The report shall include specific information to include utilization, how the contracted entities have increased their dental provider networks, how the emergency room use for dental purposes has been reduced, and how dental care has been integrated with patients’ primary care providers. If after the end of five years the data reported does not demonstrate sufficient progress to address the stated contracted goals, the legislature will reevaluate whether carved-out dental managed care needs to be replaced with a different delivery model. To ensure compliance with legislative directive budget requirements and terms and conditions of the waiver, the authority shall implement the waiver and reporting requirements with oversight from the office of financial management. The legislature finds that appropriate management of the innovation waiver requires better analytic capability, transparency, consistency, timeliness, accuracy, and lack of redundancy with other established measures and that the patient must be considered first and foremost in the implementation and execution of the demonstration waiver. (((i))) (i) Sufficient amounts are appropriated in this subsection to implement the medicaid expansion as defined in the social security act, section 1902(a)(10)(A)(ii)(VIII).

(((j))) (j) The legislature finds that medicaid payment rates, as calculated by the health care authority pursuant to the appropriations in this act, bear a reasonable relationship to the costs incurred by efficiently and economically operated facilities for providing quality services and will be sufficient to enlist enough providers so that care and services are available to the extent that such care and services are available to the general population in the geographic area. The legislature finds that the cost reports, payment data from the federal government, historical utilization, economic data, and clinical input constitute reliable data upon which to determine the payment rates.

(((k))) (k) Based on quarterly expenditure reports and caseload forecasts, if the health care authority estimates that expenditures for the medical assistance program will exceed the appropriations, the health care authority shall take steps including but not limited to reduction of rates or elimination of optional services to reduce expenditures so that total program costs do not exceed the annual appropriation authority.

(((l))) (l) In determining financial eligibility for medicaid-funded services, the health care authority is authorized to disregard recoveries by Holocaust survivors of insurance proceeds or other assets, as defined in RCW 48.104.030.

(((p))) (p) Within the amounts appropriated in this section, the health care authority shall provide disproportionate share hospital payments to hospitals that provide services to children in the children's health program who are not eligible for services under Title XIX or XXI of the federal social security act due to their citizenship status.

(((q))) (q) $6,000,000 of the general fund—federal appropriation is provided solely for supplemental payments to nursing homes operated by public hospital districts. The public hospital district shall be responsible for providing the required nonfederal match for the supplemental payment, and the payments shall not exceed the maximum allowable under federal rules. It is the legislature's intent that the payments shall be supplemental to and shall not in any way offset or reduce the payments calculated and provided in accordance with part E of chapter 74.46 RCW. It is the legislature's further intent that costs otherwise allowable for rate-setting and settlement against payments under chapter 74.46 RCW shall not be disallowed solely because such costs have been paid by revenues retained by the nursing home from these supplemental payments. The supplemental payments are subject to retrospective interim and final cost settlements based on the nursing homes' as-filed and final federal cost reports. The timing of the interim and final cost settlements shall be at the health care authority's discretion. During either the interim cost settlement or the final cost settlement, the health care authority shall recoup from the public hospital districts the supplemental payments that exceed the medicaid cost limit and/or the medicaid upper payment limit. The health care authority shall submit reports to the governor and legislature by November 1, 2017, and by November 1, 2018, that evaluate whether savings continue to exceed costs for this program. If the certified public expenditures (CPE) program in its current form is no longer cost-effective to maintain, the health care authority shall submit a report to the governor and legislature detailing cost-effective alternative uses of local, state, and federal resources as a replacement for this program. During fiscal year 2018 and fiscal year 2019, hospitals in the program shall be paid and shall retain one hundred percent of the federal portion of the allowable hospital cost for each medicaid inpatient fee-for-service claim payable by medical assistance and one hundred percent of the federal portion of the maximum disproportionate share hospital payment allowable under federal regulations. Inpatient medicaid payments shall be established using an allowable methodology that approximates the cost of
claims submitted by the hospitals. Payments made to each hospital in the program in each fiscal year of the biennium shall be compared to a baseline amount. The baseline amount will be determined by the total of (i) the inpatient claim payment amounts that would have been paid during the fiscal year had the hospital not been in the CPE program based on the reimbursement rates developed, implemented, and consistent with policies approved in the 2017-2019 biennial operating appropriations act and in effect on July 1, 2015, (ii) one-half of the indigent assistance disproportionate share hospital payment amounts paid to and retained by each hospital during fiscal year 2005, and (iii) all of the other disproportionate share hospital payment amounts paid to and retained by each hospital during fiscal year 2005 to the extent the same disproportionate share hospital programs exist in the 2017-2019 fiscal biennium. If payments during the fiscal year exceed the hospital's baseline amount, no additional payments will be made to the hospital except the federal portion of allowable disproportionate share hospital payments for which the hospital can certify allowable match. If payments during the fiscal year are less than the baseline amount, the hospital will be paid a state grant equal to the difference between payments during the fiscal year and the applicable baseline amount. Payment of the state grant shall be made in the applicable fiscal year and distributed in monthly payments. The grants will be recalculated and redistributed as the baseline is updated during the fiscal year. The grant payments are subject to an interim settlement within eleven months after the end of the fiscal year. A final settlement shall be performed. To the extent that either settlement determines that a hospital has received funds in excess of what it would have received as described in this subsection, the hospital must repay the excess amounts to the state when requested. The appropriations in this section are subject to the following conditions and limitations:

(1) (a) Each general fund fiscal year appropriation includes such funds as are necessary to complete the school year ending in the fiscal year and for prior fiscal year adjustments.

(b) For the 2017-18 and 2018-19 school years, the superintendent shall allocate general apportionment funding to school districts as provided in the funding formulas and salary allocations in sections 502 and 503 of this act, excluding (c) of this subsection, and in House Bill No. 2242 (fully funding the program of basic education).

(c) From July 1, 2017, to August 31, 2017, the superintendent shall allocate general apportionment funding to school districts programs as provided in sections 502 and 503, chapter 4, Laws of 2015 3rd sp. sess., as amended.

(d) The enrollment of any district shall be the annual average number of full-time equivalent students and part-time students as provided in RCW 28A.150.350, enrolled on the fourth day of school in September and on the first school day of each month October through June, including students who are in attendance pursuant to RCW 28A.335.160 and 28A.225.250 who do not reside within the servicing school district. Any school district concluding its basic education program in May must report the enrollment of the last school day held in May in lieu of a June enrollment.
