PART II
HUMAN SERVICES

NEW SECTION. Sec. 201. FOR THE DEPARTMENT OF SOCIAL AND HEALTH SERVICES
(1) The appropriations to the department of social and health services in this act shall be expended for the programs and in the amounts specified in this act. Appropriations made in this act to the department of social and health services shall initially be allotted as required by this act. Subsequent allotment modifications shall not include transfers of moneys between sections of this act except as
expressly provided in this act, nor shall allotment modifications permit moneys that are provided solely for a specified purpose to be used for other than that purpose.

(2) The department of social and health services shall not initiate any services that require expenditure of state general fund moneys unless expressly authorized in this act or other law. The department may seek, receive, and spend, under RCW 43.79.260 through 43.79.282, federal moneys not anticipated in this act as long as the federal funding does not require expenditure of state moneys for the program in excess of amounts anticipated in this act. If the department receives unanticipated unrestricted federal moneys, those moneys shall be spent for services authorized in this act or in any other legislation providing appropriation authority, and an equal amount of appropriated state general fund moneys shall lapse. Upon the lapsing of any moneys under this subsection, the office of financial management shall notify the legislative fiscal committees. As used in this subsection, “unrestricted federal moneys” includes block grants and other funds that federal law does not require to be spent on specifically defined projects or matched on a formula basis by state funds.

(3)(a) The health care authority and the department are authorized to develop an integrated health care program designed to slow the progression of illness and disability and better manage medicaid expenditures for the aged and disabled population. Under the Washington medicare integration partnership (WMIP) and the medicare integrated care project (MICP), the health care authority and the department may combine and transfer such medicaid funds appropriated under sections 204, 206, 208, and 213 of this act as may be necessary to finance a unified health care plan for the WMIP and the MICP program enrollment. The WMIP pilot projects shall not exceed a daily enrollment of 6,000 persons, nor expand beyond one county during the 2013-2015 fiscal biennium.

The amount of funding assigned from each program may not exceed the average per capita cost assumed in this act for individuals covered by that program, actuarially adjusted for the health condition of persons enrolled, times the number of clients enrolled. In implementing the WMIP and the MICP, the health care authority and the department may: (i) Withhold from calculations of “available resources” as set forth in RCW 71.24.025 a sum equal to the capitated rate for enrolled individuals; and (ii) employ capitation financing and risk-sharing arrangements in collaboration with health care service contractors licensed by the office of the insurance commissioner and qualified to participate in both the medicaid and medicare programs.

(b) If Washington has been selected to participate in phase two of the federal demonstration project for persons dually-eligible for both medicare and medicaid, the department and the authority may initiate the MICP. Participation in the project shall be limited to persons who are eligible for both medicare and medicaid and to counties in which the county legislative authority has agreed to the terms and conditions under which it will operate. The purpose of the project shall be to demonstrate and evaluate ways to improve care while reducing state expenditures for persons enrolled both in medicare and medicaid. To that end, prior to initiating the project, the department and the authority shall assure that state expenditures shall be no greater on either a per person or total basis than the state would otherwise incur. Individuals who are solely eligible for medicaid may also participate if their participation is agreed to by the health care authority, the department, and the county legislative authority.

(4) The legislature finds that medicaid payment rates, as calculated by the department pursuant to the appropriations in this act, bear a reasonable relationship to the costs incurred by efficiently and economically operated facilities for providing quality services and will be sufficient to enlist enough providers so that care and services are available to the extent that such care and services are available to the general population in the geographic area. The legislature finds that cost reports, payment data from the federal government, historical utilization, economic data, and clinical input constitute reliable data upon which to determine the payment rates.

(5) The department shall to the maximum extent practicable use the same system for delivery of spoken-language interpreter services for social services appointments as the one established for medical appointments in section 213 of this act. When contracting directly with an individual to deliver spoken language interpreter services, the department shall only contract with language access providers who are working at a location in the state and who are state-certified or state-authorized, except that when such a provider is not available, the department may use a language access provider who meets other certifications or standards deemed to meet state standards, including interpreters in other states.

(6) The department shall facilitate enrollment under the medicaid expansion for clients applying for or receiving state funded services from the department and its contractors. Prior to open enrollment, the department shall coordinate with the health care authority to provide referrals to the Washington health benefit exchange for clients that will be ineligible for the medicaid expansion but are enrolled in coverage that will be eliminated in the transition to the medicaid expansion.

The reductions to appropriations in this subsection related to semi-secure crisis residential centers reflect a reduction to the number of beds for semi-secure crisis residential centers and not a reduction in rates. Any secure crisis residential center or semi-secure crisis residential center bed reduction shall not be based solely upon bed utilization. The department is to exercise its discretion in reducing the number of beds but to do so in a manner that maintains availability and geographic representation of semi-secure and secure crisis residential centers.

(2) The requirements of this subsection apply to the basic health plan. This subsection is null and void and has no further effect upon implementation of the Medicaid expansion under subsection (1) of this section.

(a) Within amounts appropriated in this section and sections 205 and 206 of this act, the health care authority shall continue to provide an enhanced basic health plan subsidy for foster parents licensed under chapter 74.15 RCW and workers in state-funded home care programs. The legislature finds that the cost reports, payment data from the federal government, historical utilization, economic data, and clinical input constitute reliable data upon which to determine the payment rates.

The supplemental payments are subject to retrospective interim and final cost settlements based on the nursing homes' as-filed and final medicare cost reports. The timing of the interim and final cost settlements shall be at the health care authority's discretion. The health care authority shall submit reports to the governor and legislature by November 1, 2013, and by November 1, 2014, that evaluate whether savings continue to exceed costs for this program. If the certified public expenditures (CPE) program in its current form is no longer cost-effective to maintain, the health care authority shall submit a report to the governor and legislature detailing cost-effective alternative uses of local, state, and federal resources as a replacement for this program. Inpatient Medicaid payments shall be established using an allowable methodology that approximates the cost of claims submitted by the hospitals. Payments made to each hospital in the program in each fiscal year of the biennium shall be compared to a baseline amount. The baseline amount will be determined by the total of (a) the inpatient claim payment amounts that would have been paid during the fiscal year had the hospital not been in the CPE program based on the reimbursement rates developed, implemented, and consistent with policies approved in the 2013-2015 biennial operating appropriations act and in effect on July 1, 2013; (b) one-half of the indigent assistance disproportionate share hospital payment amounts paid to and retained by each hospital during fiscal year 2005, and (c) all of the other disproportionate share hospital payment amounts paid to and retained by each hospital during fiscal year 2005 to the extent the same disproportionate share hospital payments exist in the 2013-2015 fiscal biennium. If payments during the fiscal year exceed the hospital's baseline amount, no additional payments will be made to the hospital except the federal portion of allowable disproportionate share hospital payments for which the hospital can certify allowable match. If payments during the fiscal year are less than the baseline amount, the hospital will be paid a state grant equal to the difference between payments during the fiscal year and the applicable baseline amount. Payment of the state grant shall be made in the applicable fiscal year and distributed in monthly payments. The grants will be recalculated and redistributed as the baseline is updated during the fiscal year. The grant payments are subject to an interim settlement within eleven months after the end of the fiscal year. A final settlement shall be performed. This section does not prohibit cooperation and coordination of bargaining between two or more exclusive bargaining representatives.

(b) This subsection (2) does not apply to exclusive bargaining representatives who represent employees of institutions of higher education, except when the institution of higher education has elected to exercise its option under subsection (4) of this section to have its negotiations conducted by the governor or governor's designee under the procedures provided for general government agencies in subsections (1) through (3) of this section.

(c) If five hundred or more employees of an independent state elected official listed in RCW 43.01.010 are organized in a bargaining unit or bargaining units under RCW 41.80.070, the official shall be consulted by the governor or the governor's designee before any agreement is reached under (a) of this subsection concerning supplemental bargaining of agency specific issues affecting the employees in such bargaining unit.

(3) The governor shall submit a request for funds necessary to implement the compensation and fringe benefit provisions in the master collective bargaining agreement or for legislation necessary to implement the agreement. Requests for funds necessary to implement the provisions of bargaining agreements shall not be submitted to the legislature by the governor unless such requests:
(a) Have been submitted to the director of the office of financial management by October 1 prior to the legislative session at which the requests are to be considered; and

(b) Have been certified by the director of the office of financial management as being feasible financially for the state.

The legislature shall approve or reject the submission of the request for funds as a whole. The legislature shall not consider a request for funds to implement a collective bargaining agreement unless the request is transmitted to the legislature as part of the governor's budget document submitted under RCW 43.88.030 and 43.88.060. If the legislature rejects or fails to act on the submission, either party may reopen all or part of the agreement or the exclusive bargaining representative may seek to implement the procedures provided for in RCW 41.80.090.

(4)(a)(i) For the purpose of negotiating agreements for institutions of higher education, the employer shall be the respective governing board of each of the universities, colleges, or community colleges or a designee chosen by the board to negotiate on its behalf.

(ii) A governing board of a university or college may elect to have its negotiations conducted by the governor or governor's designee under the procedures provided for general government agencies in subsections (1) through (3) of this section, except that:

(A) The governor or the governor's designee and an exclusive bargaining representative shall negotiate one master collective bargaining agreement for all of the bargaining units of employees of a university or college that the representative represents; or

(B) If the parties mutually agree, the governor or the governor's designee and an exclusive bargaining representative shall negotiate one master collective bargaining agreement for all of the bargaining units of employees of more than one university or college that the representative represents.

(iii) A governing board of a community college may elect to have its negotiations conducted by the governor or governor's designee under the procedures provided for general government agencies in subsections (1) through (3) of this section.

(b) Prior to entering into negotiations under this chapter, the institutions of higher education or their designees shall consult with the director of the office of financial management regarding the dollar amount expended on behalf of each employee agreed to under the provisions of this chapter, if appropriations are necessary to implement the agreements.

(c)(i) In the case of bargaining agreements reached between institutions of higher education other than the University of Washington and exclusive bargaining representatives agreed to under the provisions of this chapter, if appropriations are necessary to implement the compensation and fringe benefit provisions of the bargaining agreements, the governor shall submit a request for such funds to the legislature according to the provisions of subsection (3) of this section, except as provided in (c)(iii) of this subsection.

(ii) In the case of bargaining agreements reached between the University of Washington and exclusive bargaining representatives agreed to under the provisions of this chapter, if appropriations are necessary to implement the compensation and fringe benefit provisions of a bargaining agreement, the governor shall submit a request for such funds to the legislature according to the provisions of subsection (3) of this section, except as provided in this subsection (4)(c)(ii) and as provided in (c)(iii) of this subsection.

(A) If appropriations of less than ten thousand dollars are necessary to implement the provisions of a bargaining agreement, a request for such funds shall not be submitted to the legislature by the governor unless the request has been submitted to the director of the office of financial management by October 1 prior to the legislative session at which the request is to be considered.

(B) If appropriations of ten thousand dollars or more are necessary to implement the provisions of a bargaining agreement, a request for such funds shall not be submitted to the legislature by the governor unless the request:

(I) Has been submitted to the director of the office of financial management by October 1 prior to the legislative session at which the request is to be considered; and

(II) Has been certified by the director of the office of financial management as being feasible financially for the state.

(C) If the director of the office of financial management does not certify a request under (c)(ii)(B) of this subsection as being feasible financially for the state, the parties shall enter into collective bargaining solely for the purpose of reaching a mutually agreed upon modification of the agreement necessary to address the absence of those requested funds. The legislature may act upon the compensation and fringe benefit provisions of the modified collective bargaining agreement if those provisions are agreed upon and submitted to the office of financial management and legislative budget committees before final legislative action on the biennial or supplemental operating budget by the sitting legislature.

(iii) In the case of a bargaining unit of employees of institutions of higher education in which the exclusive bargaining representative is certified during or after the conclusion of a legislative session, the legislature may act upon the compensation and fringe benefit provisions of the agreement if those provisions are agreed upon and submitted to the office of financial management and legislative budget committees before final legislative action on the biennial or supplemental operating budget by the sitting legislature.

(5) There is hereby created a joint committee on employment relations, which consists of two members with leadership positions in the house of representatives, representing each of the two largest caucuses; the chair and ranking minority member of the house appropriations committee, or its successor, representing each of the two largest caucuses; two members with leadership positions in the senate, representing each of the two largest caucuses; and the chair and ranking minority member of the senate ways and means committee, or its successor, representing each of the two largest caucuses. The governor shall periodically consult with the committee regarding appropriations necessary to implement the collective bargaining agreements, and upon completion of negotiations, advise the committee on the elements of the agreements and on any legislation necessary to implement the agreements.

(6) If, after the compensation and fringe benefit provisions of an agreement are approved by the legislature, a significant revenue shortfall occurs resulting in reduced appropriations, as declared by proclamation of the governor or by resolution of the legislature, both parties shall immediately enter into collective bargaining for a mutually agreed upon modification of the agreement.

(7) After the expiration date of a collective bargaining agreement negotiated under this chapter, all of the terms and conditions specified in the collective bargaining agreement remain in effect until the effective date of a subsequently negotiated agreement, not to exceed one year from the expiration date stated in the agreement. Thereafter, the employer may unilaterally implement according to law.

(8) For the (2011-2013) 2013-2015 fiscal biennium, a collective bargaining agreement related to employee health care benefits negotiated between the employer and coalition pursuant to RCW 41.80.020(3) regarding the dollar amount expended on behalf of each employee shall be a separate agreement for which the governor may request funds necessary to implement the agreement. This agreement will supersede any terms and conditions of an expired 2009-2011 biennial master collective bargaining agreement under this chapter regarding health care benefits.

The legislature
may act upon a 2013-2015 collective bargaining agreement related to employee health care benefits if an agreement is reached and submitted to the office of financial management and legislative budget committees before final legislative action on the biennial or supplemental operating appropriations act by the sitting legislature.

Sec. 964. RCW 41.80.020 and 2011 1st sp.s. c 50 s 939 and 2011 1st sp.s. c 43 s 445 are each reenacted and amended to read as follows:

(3) Matters subject to bargaining include the number of names to be certified for vacancies, promotional preferences, and the dollar amount expended on behalf of each employee for health care benefits. However, except as provided otherwise in this subsection for institutions of higher education, negotiations regarding the number of names to be certified for vacancies, promotional preferences, and the dollar amount expended on behalf of each employee for health care benefits shall be conducted between the employer and one coalition of all the exclusive bargaining representatives subject to this chapter. The exclusive bargaining representatives for employees that are subject to chapter 47.64 RCW shall bargain the dollar amount expended on behalf of each employee for health care benefits with the employer as part of the coalition under this subsection. Any such provision agreed to by the employer and the coalition shall be included in all master collective bargaining agreements negotiated by the parties. For institutions of higher education, promotional preferences and the number of names to be certified for vacancies shall be bargained under the provisions of RCW 41.80.010(4). For agreements covering the (2011-2013) 2013-2015 fiscal biennium, any agreement between the employer and the coalition regarding the dollar amount expended on behalf of each employee for health care benefits is a separate agreement and shall not be included in the master collective bargaining agreements negotiated by the parties.

(4) The employer and the exclusive bargaining representative shall not agree to any proposal that would prevent the implementation of approved affirmative action plans or that would be inconsistent with the comparable worth agreement that provided the basis for the salary changes implemented beginning with the 1983-1985 biennium to achieve comparable worth.

(5) The employer and the exclusive bargaining representative shall not bargain over matters pertaining to management rights established in RCW 41.80.040.

(6) Except as otherwise provided in this chapter, if a conflict exists between an executive order, administrative rule, or agency policy relating to wages, hours, and terms and conditions of employment and a collective bargaining agreement negotiated under this chapter, the collective bargaining agreement shall prevail.

(7) This section does not prohibit bargaining that affects contracts authorized by RCW 41.06.142.

The allocation shall precede the distribution of the remaining earnings as prescribed under RCW 43.79A.040 and 43.84.092. The state treasurer shall establish a uniform allocation rate for all funds and accounts; except that the state treasurer may negotiate a different allocation rate with any state agency that has independent authority over funds not statutorily required to be held in the state treasury or in the custody of the state treasurer. In no event shall the rate be less than the actual costs incurred by the state treasurer's office. If no rate is separately negotiated, the default rate for any funds held shall be the rate set for funds held pursuant to statute.

During the 2009-2011 fiscal biennium and the 2011-2013 and 2013-2015 fiscal biennium, the legislature may transfer from the state treasurer's service fund to the state general fund such amounts as reflect the excess fund balance of the fund.

The tobacco settlement account is created in the state treasury. Sec. 973. RCW 43.82.010 and 2007 c 506 s 8 are each amended to read as follows:

(1) The director of ((general administration)) enterprise services, on behalf of the agency involved and after consultation with the chief financial officer, may enter into a lease, lease purchase, lease purchase, rent, or otherwise acquire all real estate, improved or unimproved, as may be required by elected state officials, institutions, departments, commissions, boards, and other state agencies, or federal agencies where joint state and federal activities are undertaken and may grant easements and transfer, exchange, sell, lease, or sublease all or part of any surplus real estate for those state agencies which do not otherwise have the specific authority to dispose of real estate. This section does not transfer financial liability for the acquired property to the department of ((general administration)) enterprise services.

(2) Except for real estate occupied by federal agencies, the director shall determine the location, size, and design of any real estate or improvements thereon acquired or held pursuant to subsection (1) of this section. Facilities acquired or held pursuant to this chapter, and any improvements thereon, shall conform to standards adopted by the director and approved by the office of financial management governing facility efficiency unless a specific exemption from such standards is provided by the director of ((general administration)) enterprise services. The director of ((general administration)) enterprise services shall report to the office of financial management and the appropriate committees of the legislature annually on any exemptions granted pursuant to this subsection.

(3) The director of ((general administration)) enterprise services may fix the terms and conditions of each lease entered into under this chapter, except that no lease shall extend greater than twenty years in duration. The director of ((general administration)) enterprise services may enter into a long-term lease greater than ten years in duration upon a determination by the director of the office of financial management that the long-term lease provides a more favorable rate than would otherwise be available, it appears to a substantial certainty that the facility is necessary for use by the state for the full length of the lease term, and the facility meets the standards adopted pursuant to subsection (2) of this section. The director of ((general administration)) enterprise services may enter into a long-term lease greater than ten years in duration if an analysis shows that the life-cycle cost of leasing the facility is less than the life-cycle cost of purchasing or constructing a facility in lieu of leasing the facility.

(4) Except as permitted under chapter 39.94 RCW, no lease for or on behalf of any state agency may be used or referred to as collateral or security for the payment of securities offered for sale through a public offering. Except as permitted under chapter 39.94 RCW, no lease for or on behalf of any state agency may be used or referred to as collateral or security for the payment of securities offered for sale through a private placement without the prior written approval of the state treasurer. However, this limitation shall not prevent a lessor from assigning or encumbering its interest in a lease as security for the repayment of a promissory note provided that the transaction would otherwise be an exempt transaction under RCW 21.20.320. The state treasurer shall adopt rules that establish the criteria under which any such approval may be granted. In establishing such criteria the state treasurer shall give primary consideration to the protection of the state's credit rating and the integrity of the state's debt management program. If it appears to the state treasurer that any lease has been used or referred to in violation of this subsection or rules adopted under this subsection, then he or she may recommend that the governor cause such lease to be terminated. The department of ((general administration)) enterprise services shall promptly notify the state treasurer whenever it may appear to the department that any lease has been used or referred to in violation of this subsection or rules adopted under this subsection.

(5) It is the policy of the state to encourage the colocation and consolidation of state services into single or adjacent facilities, whenever appropriate, to improve public service delivery, minimize duplication of facilities, increase efficiency of operations, and promote sound growth management planning.

(6) The director of ((general administration)) enterprise services shall provide coordinated long-range planning services to identify and evaluate opportunities for colocating and consolidating state facilities. Upon the renewal of any lease, or the purchase of a facility, the director of ((general administration)) enterprise services shall determine whether an opportunity exists for colocating the agency or agencies in a single facility with other agencies located in the same geographic area. If a colocation opportunity exists, the director of ((general administration)) enterprise services shall consult with the affected state agencies and the office of financial management to evaluate the impact colocating would have on the cost and delivery of agency programs, including whether program delivery would be enhanced due to the centralization of services. The director of ((general administration)) enterprise services, in consultation with the office of financial management, shall develop procedures for implementing colocation and consolidation of state facilities.

(7) The director of ((general administration)) enterprise services is authorized to purchase, lease, rent, or otherwise acquire improved or unimproved real estate as owner or lessee and to lease or sublet all or a portion of such real estate to state or federal agencies. The director of ((general administration)) enterprise services shall charge each using agency its proportionate rental which shall include an amount sufficient to pay all costs, including, but not limited to, those for utilities, janitorial and accounting services, and sufficient to provide for contingencies; which shall not exceed five percent of the average annual rental, to meet unforeseen expenses incident to management of the real estate.

(8) If the director of ((general administration)) enterprise services determines that it is necessary or advisable to undertake any work, construction, alteration, repair, or improvement on any real estate acquired pursuant to subsection (1) or (7) of this section, the director shall cause plans and specifications thereof and an estimate of the cost of such work to be made and filed in his or her office and the state agency benefiting thereby is hereby authorized to pay for such work out of any available funds: PROVIDED, That the cost of executing such work shall not exceed the sum of twenty-five thousand dollars. Work, construction, alteration, repair, or improvement in excess of twenty-five thousand dollars, other than that done by the owner of the property if other than the state, shall be performed in accordance with the public works law of this state.

(9) In order to obtain maximum utilization of space, the director of ((general administration)) enterprise services shall make space utilization studies, and shall establish standards for use of space by
state agencies. Such studies shall include the identification of opportunities for colocation and consolidation of state agency office and support facilities.

(10) The director of enterprise services may construct new buildings on, or improve existing facilities, and furnish and equip, all real estate under his or her management. Prior to the construction of new buildings or major improvements to existing facilities or acquisition of facilities using a lease purchase contract, the director of enterprise services shall conduct an evaluation of the facility design and budget using life-cycle cost analysis, value-engineering, and other techniques to maximize the long-term effectiveness and efficiency of the facility or improvement.

(11) All conveyances and contracts to purchase, lease, rent, transfer, exchange, or sell real estate and to grant and accept easements shall be approved as to form by the attorney general, signed by the director of enterprise services or the director's designee, and recorded with the county auditor of the county in which the property is located.

(12) The director of enterprise services may delegate any or all of the functions specified in this section to any agency upon such terms and conditions as the director deems advisable. By January 1st of each year, beginning January 1, 2008, the department shall submit an annual report to the office of financial management and the appropriate committees of the legislature on all delegated leases.

(13) This section does not apply to the acquisition of real estate by:
(a) The state college and universities for research or experimental purposes;
(b) The state liquor control board for liquor stores and warehouses; (and)
(c) The department of natural resources, the department of fish and wildlife, the department of transportation, and the state parks and recreation commission for purposes other than the leasing of offices, warehouses, and real estate for similar purposes; and
(d) The department of commerce for community college health career training programs, offices for the department of commerce or other appropriate state agencies, and other nonprofit community uses, including community meeting and training facilities, where the real estate is acquired during the 2013-2015 fiscal biennium.

(14) Notwithstanding any provision in this chapter to the contrary, the department of enterprise services may negotiate ground leases for public lands on which property is to be acquired under a financing contract pursuant to chapter 39.94 RCW under terms approved by the state finance committee.

(15) The department of enterprise services shall report annually to the office of financial management and the appropriate fiscal committees of the legislature on facility leases executed for all state agencies for the preceding year, lease terms, and annual lease costs. The report must include leases executed under RCW 43.82.045 and subsection (12) of this section.

(1) All law enforcement personnel, except volunteers, and reserve officers whether paid or unpaid, initially employed on or after January 1, 1978, shall engage in basic law enforcement training which complies with standards adopted by the commission pursuant to RCW 43.101.080. For personnel initially employed before January 1, 1990, such training shall be successfully completed during the first fifteen months of employment of such personnel unless otherwise extended or waived by the commission and shall be requisite to the continuation of such employment. Personnel initially employed on or after January 1, 1990, shall commence basic training during the first six months of employment unless the basic training requirement is otherwise waived or extended by the commission. Successful completion of basic training is requisite to the continuation of employment of such personnel initially employed on or after January 1, 1990.

(2) Except as otherwise provided in this chapter, the commission shall provide the aforementioned training together with necessary facilities, supplies, materials, and the board and room of noncommuting attendees for seven days per week, except during the fiscal biennia 2011-2013, 2013-2015 fiscal biennium when the employing, county, city, or state law enforcement agency shall reimburse the commission for twenty-five percent of the cost of training its personnel. Additionally, to the extent funds are provided for this purpose, the commission shall reimburse to participating law enforcement agencies with ten or less full-time commissioned patrol officers the cost of temporary replacement of each officer who is enrolled in basic law enforcement training: PROVIDED, That such reimbursement shall include only the actual cost of temporary replacement not to exceed the total amount of salary and benefits received by the replaced officer during his or her training period.

Money may be placed in the public works assistance account from the proceeds of bonds when authorized by the legislature or from any other lawful source. Money in the public works assistance account shall be used to make loans and to give financial guarantees to local governments for public works projects. FOR THE DEPARTMENT OF SOCIAL AND HEALTH SERVICES

(1) The appropriations to the department of social and health services in this act shall be expended for the programs and in the amounts specified in this act. Appropriations made in this act to the department of social and health services shall initially be allotted as required by this act. Subsequent allotment modifications shall not include transfers of moneys between sections of this act except as expressly provided in this act, nor shall allotment modifications permit moneys that are provided solely for a specified purpose to be used for other than that purpose.

(2) The department of social and health services shall not initiate any services that require expenditure of state general fund moneys unless expressly authorized in this act or other law. The department may seek, receive, and spend, under RCW 43.79.260 through 43.79.282, federal moneys not anticipated in this act as long as the federal funding does not require expenditure of state moneys for the program in excess of amounts anticipated in this act. If the department receives unanticipated unrestricted federal moneys, those moneys shall be spent for services authorized in this act or in any other legislation providing appropriation authority, and an equal amount of appropriated state general fund moneys shall lapse. Upon the lapsing of any moneys under this subsection, the office of financial management shall notify the legislative fiscal committees. As used in this subsection, “unrestricted federal moneys” includes block grants and other funds that federal law does not require to be spent on specifically defined projects or matched on a formula basis by state funds.

(3) (a) The health care authority and the department are authorized to develop an integrated health care program designed to slow the progression of illness and disability and better manage medicaid expenditures for the aged and disabled population. Under the Washington medicaid integration partnership (WMIP) and the medicare integrated care project (MICP), the health care authority and the department may combine and transfer such medicaid funds appropriated under sections 204, 206, 208, and 213 of this act as may be necessary to finance a unified health care plan for the WMIP and the MICP program enrollment. The WMIP pilot projects shall not exceed a daily enrollment of 6,000 persons, nor expand beyond one county during the 2011-2013 fiscal biennium. The amount of funding assigned from each program may not exceed the average per capita cost assumed in this act for individuals covered by that program, actuarially adjusted for the health condition of persons enrolled, times the number of clients enrolled. In implementing the WMIP and the MICP, the health care authority and the department may: (i) Withhold from calculations of “available resources” as set forth in RCW 71.24.025 a sum equal to the capitated rate for enrolled individuals; and (ii) employ capitation financing and risk-sharing arrangements in collaboration with health care service contractors licensed by the office of the insurance commissioner and qualified to participate in both the medicaid and medicare programs. The health care authority and the department shall conduct an evaluation of the WMIP by October 15, 2012, and of the MICP measuring changes in participant health outcomes, changes in patterns of service utilization, participant satisfaction, participant access to services, and the state fiscal impact.

(b) Effective January 1, 2013, if Washington has been selected to participate in phase two of the federal demonstration project for persons dually-eligible for both medicare and medicaid, the department and the authority may initiate the MICP. Participation in the project shall be limited to persons who are eligible for both medicare and medicaid and to counties in which the county legislative authority has agreed to the terms and conditions under which it will operate. The purpose of the project shall be to demonstrate and evaluate ways to improve care while reducing state expenditures for persons enrolled both in medicare and medicaid. To that end, prior to initiating the project, the department and the authority shall assure that state expenditures shall be no greater on either a per person or total basis than the state would otherwise incur. Individuals who are solely eligible for medicaid may also participate if their participation is agreed to by the health care authority, the department, and the county legislative authority.

(4) The legislature finds that Medicaid payment rates, as calculated by the department pursuant to the appropriations in this act, bear a reasonable relationship to the costs incurred by efficiently and economically operated facilities for providing quality services and will be sufficient to enlist enough providers so that care and services are available to the extent that such care and services are available to the general population in the geographic area. The legislature finds that cost reports, payment data from the federal government, historical utilization, economic data, and clinical input constitute reliable data upon which to determine the payment rates.

(5) The department shall to the maximum extent practicable use the same system for delivery of spoken-language interpreter services for social services appointments as the one established for medical appointments in section 213 of this act. When contracting directly with an individual to deliver spoken language interpreter services, the department shall only contract with language access providers who are working at a location in the state and who are state-certified or state-authorized, except that when such a provider is not available, the department may use a language access provider who meets other certifications or standards deemed to meet state standards, including interpreters in other states.

(6)(a) The appropriations to the department of social and health services in this act shall be expended for the programs and in the amounts specified in this act. However, after May 1, ((2013)) 2013, unless specifically prohibited by this act, the department may transfer general fund—state appropriations for fiscal year ((2013)) 2013 among programs after approval by the director of financial management. However, the department shall not transfer state moneys that are provided solely for a specified purpose except as expressly provided in (b) of this subsection.

(b) To the extent that transfers under (a) of this subsection are insufficient to fund actual expenditures in excess of fiscal year ((2013)) 2013 caseload forecasts and utilization assumptions in the long-term care, foster care, adoptions support, medical personal care, and child support programs, the department may transfer state moneys that are provided solely for a specified purpose. The department shall not transfer funds, and the director of financial management shall not approve the transfer, unless the transfer is consistent with the objective of conserving, to the maximum extent possible, the expenditure of state funds. The director of financial management shall notify the appropriate fiscal committees of the senate and house of representatives in writing seven days prior to approving any allotment modifications or transfers under this subsection. The written notification shall include a narrative explanation and justification of the changes, along with expenditures and allotments by budget unit and appropriation, both before and after any allotment modifications or transfers.

This $4,348,000 reduction shall be distributed among regional support networks proportional to each network’s share of the total state population. To the extent possible, levels of regional support network spending shall be maintained in the following priority order: (i) Crisis and commitment services; (ii) community inpatient services; and (iii) residential care services, including personal care and emergency housing assistance.

In determining the proportion of medicaid and nonmedicaid funding provided to regional support networks with PACT teams, the department shall consider the differences between regional support networks in the percentages of services and other costs associated with the teams that are not reimbursable under medicaid. The department may allow regional support networks which have nonmedicaid reimbursable costs that are higher than the nonmedicaid allocation they receive under this section to supplement these funds with local dollars or funds received under section 204(1)(a) of this act. The department and regional support networks shall maintain consistency with all essential elements of the PACT evidence-based practice model in programs funded under this section.

(c) $5,850,000 of the general fund--state appropriation for fiscal year 2012, $5,850,000 of the general fund--state appropriation for fiscal year 2013, and $1,300,000 of the general fund--federal appropriation are provided solely for the western Washington regional support networks to provide either community- or hospital-based incentive contracts to provide appropriate community support services for individuals with severe mental illness who were discharged from the state hospitals as part of the expanding community services initiative. (d) The number of nonforensic beds allocated for use by regional support networks at eastern state hospital shall be 192 per day. The number of nonforensic beds allocated for use by regional support networks at western state hospital shall be 557 per day.

(e) From the general fund--state appropriations in this subsection, the secretary of social and health services shall assure that regional support networks reimburse the aging and disability services administration for the general fund--state cost of medicaid personal care services that enrolled regional support network consumers use because of their psychiatric disability.

(f) The department is authorized to continue to contract directly, rather than through contracts with regional support networks, for children’s long-term inpatient facility services.

(g) $750,000 of the general fund--state appropriation for fiscal year 2012 and $750,000 of the general fund--state appropriation for fiscal year 2013 are provided solely to continue performance-based incentive contracts to provide appropriate community support services for individuals with severe mental illness who were discharged from the state hospitals as part of the expanding community services initiative. (j) Regional support networks may use local funds to earn additional federal medicaid match, provided the locally matched rate does not exceed the upper-bound of their federally allowable rate range, and provided that the enhanced funding is used only to provide medicaid state plan or waiver services to medicaid clients. Additionally, regional support networks may use a portion of the state funds allocated in accordance with (a) of this subsection to earn additional medicaid match, but only to the extent that the application of such funds to medicaid services does not diminish the level of crisis and commitment, community inpatient, residential care, and outpatient services presently available to persons not eligible for medicaid.

(k) Given the recent approval of federal medicaid matching funds for the disability lifestyle and the alcohol and drug abuse treatment support act programs, the department shall charge regional support networks for only the state share rather than the total cost of community psychiatric hospitalization for persons enrolled in those programs.

General Fund–State Appropriation (FY 2013) $802,115,000
General Fund–Federal Appropriation $1,686,998,000
General Fund–Private/Local Appropriation $27,517,000
Nursing Facility Quality Assurance Account–State Appropriation $3,388,000

The appropriations in this section are subject to the following conditions and limitations:

(1) For purposes of implementing chapter 74.46 RCW, the weighted average nursing facility payment rate shall not exceed $170.37 for fiscal year 2012 and shall not exceed $171.09 for fiscal year 2013, including the wage add-ons described in (a) and (b) of this subsection. However, if the waiver requested from the federal centers for medicare and medicaid services in relation to the safety net assessment created by Engrossed Substitute Senate Bill No. 5581 (nursing home payments) is for any reason not approved and implemented, the weighted average nursing facility payment rate shall not exceed $159.87 for fiscal year 2012 and shall not exceed $161.29 for fiscal year 2013. There will be no adjustments for economic trends and conditions in fiscal years 2012 and 2013. The economic trends and conditions factor or factors defined in the biennial appropriations act shall not be compounded with the economic trends and conditions factor or factors defined in any other biennial appropriations acts before applying it to the component rate allocations established in accordance with chapter 74.46 RCW. If the facility-based payment rate calculated on July 1, 2012, is smaller than the facility-based payment rate on June 30, 2010, then the difference shall be provided to the individual nursing facilities as an add-on payment per medicaid resident day.

(c) During the comparative analysis performed in subsection (b) of this section, if it is found that the direct care rate for any facility calculated using the payment methodology defined in chapter 74.46 RCW and as funded in the omnibus appropriations act, excluding the comparative add-on, acuity add-on, and safety net reimbursement, is greater than the direct care rate in effect on June 30, 2010, then the facility shall receive a ten percent direct care rate add-on to compensate that facility for taking on more acute clients than they have in the past.

(2) After examining actual nursing facility cost information, the legislature finds that the medicare nursing facility rates calculated pursuant to Engrossed Substitute Senate Bill No. 5581 (nursing home payments) provide sufficient reimbursement to efficiently and economically operating nursing facilities and bear a reasonable relationship to costs.

(3) In accordance with chapter 74.46 RCW, the department shall issue no additional certificates of capital authorization for fiscal year 2012 and no new certificates of capital authorization for fiscal year 2013 and shall grant no rate add-ons to payment rates for capital improvements not requiring a certificate of need and a certificate of capital authorization for fiscal years 2012 and 2013.

The cost per patient day for caring for these clients in a nursing home setting may be equal to or less than the cost of caring for these clients in a hospital setting.

(5) Amounts appropriated in this section reflect a reduction to funds appropriated for in-home care. The department shall reduce the number of in-home hours authorized. The reduction shall be scaled based on the acuity level of care recipients. Funding in this section for purposes other than the individual provider collective bargaining agreement cannot be used for the purposes of this subsection (7). It is the intent of the legislature that the funding provided in this subsection, including any repurposed funding, is sufficient to cover the costs of individual provider training and therefore tuition or other entrance fees are not necessary.

(7) $2,449,000 of the general fund--state appropriation for fiscal year 2012, $3,012,000 of the general fund--state appropriation for fiscal year 2013, and $5,463,000 of the general fund--federal appropriation are provided solely for the state's contribution to the training partnership, as provided in RCW 74.39A.360, for instructional costs associated with the training of individual providers. (4)(a) $1,200,000 of the general fund--state appropriation for fiscal year 2012 is provided solely to plan the implementation of a system of consolidated public school employee health benefits purchasing.

It is the intent of the legislature to improve the administration, transparency, and equity in delivering a K-12 employees' health benefits system. In addition, the legislature intends that any cost savings that result from changes to K-12 health benefits be dedicated to public schools.

To further this legislative intent, the state health care authority shall develop a plan to implement a consolidated health benefits system for K-12 employees for the 2013-14 school year. The health care authority shall deliver a report to the legislature by December 15, 2011, that sets forth the implementation plan to the ways and means committees of the house of representatives and the senate.

(vi) Recommendations regarding the use of incentives, including how changes to state health benefit allocations could provide employees with benefits that would encourage participation;
(vii) Recommendations regarding the implementation of a new K-12 employee benefit plan, with separate options for voluntary participation and mandatory statewide participation;
(viii) Recommendations regarding methods to reduce inequities between individual and family coverage;
(ix) Consolidation of the purchasing and budget accountability for school employee benefits to maximize administrative efficiency and leverage existing skills and resources; and
(x) Other details the health care authority deems necessary, including but not limited to recommendations on the following:

(A) Approaches for implementing the transition to a statewide pool, including administrative and statutory changes necessary to ensure a successful transition, and whether the pool should be separate from, or combined with, the public employees' benefits pool;

(B) The structure of a permanent governing group to provide ongoing oversight to the consolidated pool, in a manner similar to the public employees benefits board functions for employee health benefits, including statutory duties and authorities of the board; and

(C) Options for including potential changes to: Eligibility standardization, the public employees benefits risk pools, the movement of school employee retirees into the new K-12 pool or pools, and the movement of educational service district employees into the new K-12 pool or pools.

(i) School district enrollees must constitute an entire bargaining unit, or an entire group of nonrepresented employees;
(ii) Staffing and administration for benefits purchasing shall be provided by the health care authority; and

(e) The office of the superintendent of public instruction and the office of the insurance commissioner shall provide information and technical assistance to the health care authority as requested by the health care authority. The health care authority shall not implement the new school employee benefits pool until authorized to do so by the legislature.

(5) The administrator shall take at least the following actions to assure that persons participating in the basic health plan are eligible for the level of assistance they receive: (a) Require submission of (i) income tax returns, and recent pay history, from all applicants, or (ii) other verifiable evidence of earned and unearned income from those persons not required to file income tax returns; (b) check employment security payroll records at least once every twelve months on all enrollees; (c) require enrollees whose income as indicated by payroll records exceeds that upon which their subsidy is based to document their current income as a condition of continued eligibility; (d) require enrollees for whom employment security payroll records cannot be obtained to document their current income at least once every six months; (e) not reduce gross family income for self-employed persons by noncash-flow expenses such as, but not limited to, depreciation, amortization, and home office deductions, as defined by the United States internal revenue service; and (f) pursue repayment and civil penalties from persons who have received excessive subsidies, as provided in RCW 70.47.060(9).

(6) Enrollment in the subsidized basic health plan shall be limited to only include persons who qualify as subsidized enrollees as defined in RCW 70.47.020 and who (a) qualify for services under 1115 medicaid demonstration project number 11-W-00254/10; or (b) are foster parents licensed under chapter 74.15 RCW.

(7) $23,700,000 of the general fund--federal appropriation is provided solely for planning and implementation of a health benefit exchange under the federal patient protection and affordable care act. Within the amounts provided in this subsection, funds used by the authority for information technology projects are conditioned on the authority satisfying the requirements of Engrossed Second Substitute Senate Bill No. 5931 (central service agencies).

(8) Based on quarterly expenditure reports and caseload forecasts, if the health care authority estimates that expenditures for the medical assistance program will exceed the appropriations, the health care authority shall take steps including but not limited to reduction of rates or elimination of optional services to reduce expenditures so that total program costs do not exceed the annual appropriation authority.

(9) In determining financial eligibility for medicaid-funded services, the health care authority is authorized to disregard
recovered by the Holocaust survivors of insurance proceeds or other assets, as defined in RCW 48.104.030.

(10) The legislature affirms that it is in the state's interest for Harborview medical center to remain an economically viable component of the state's health care system.

(11) When a person is ineligible for medicaid solely because of reason of residence in an institution for mental diseases, the health care authority shall provide the person with the same benefits as he or she would receive if eligible for medicaid, using state-only funds to the extent necessary.

(12) $4,261,000 of the general fund--state appropriation for fiscal year 2012, $4,261,000 of the general fund--state appropriation for fiscal year 2013, and $8,522,000 of the general fund--federal appropriation are provided solely for low-income disproportionate share hospital payments (under RCW 74.09.730(1)(a)).

(13) $6,000,000 of the general fund--federal appropriation is provided solely for supplemental payments to nursing homes operated by public hospital districts. The public hospital district shall be responsible for providing the required nonfederal match for the supplemental payment, and the payments shall not exceed the maximum allowable under federal rules. It is the legislature's intent that the payments shall be supplemental to and shall not in any way offset or reduce the payments calculated and provided in accordance with part E of chapter 74.46 RCW. It is the legislature's further intent that costs otherwise allowable for rate-setting and settlement against payments under chapter 74.46 RCW shall not be disallowed solely because such costs have been paid by revenues retained by the nursing home from these supplemental payments. The supplemental payments are subject to retrospective interim and final cost settlements based on the nursing homes' as-filed and final medicare cost reports. The timing of the interim and final cost settlements shall be at the health care authority's discretion. During either the interim cost settlement or the final cost settlement, the health care authority shall recoup from the public hospital districts the supplemental payments that exceed the medicare cost limit and/or the medicare upper payment limit. The health care authority shall apply federal rules for identifying the eligible incurred medicare costs and the medicare upper payment limit.

(14) The health care authority shall continue the inpatient hospital certified public expenditures program for the 2011-2013 fiscal biennium. The program shall apply to all public hospitals, including those owned or operated by the state, except those classified as critical access hospitals or state psychiatric institutions. The health care authority shall submit reports to the governor and legislature by November 1, 2011, and by November 1, 2012, that evaluate whether savings continue to exceed costs for this program. If the certified public expenditures (CPE) program in its current form is no longer cost-effective to maintain, the health care authority shall submit a report to the governor and legislature detailing cost-effective alternative uses of local, state, and federal resources as a replacement for this program. During fiscal year 2012 and fiscal year 2013, hospitals in the program shall be paid and shall retain one hundred percent of the federal portion of the allowable hospital cost for each medicaid inpatient fee-for-service claim payable by medical assistance and one hundred percent of the federal portion of the maximum disproportionate share hospital payment allowable under federal regulations. Inpatient medicaid payments shall be established using an allowable methodology that approximates the cost of claims submitted by the hospitals. Payments made to each hospital in the program in each fiscal year of the biennium shall be compared to a baseline amount. The baseline amount will be determined by the total of (a) the inpatient claim payment amounts that would have been paid during the fiscal year had the hospital not been in the CPE program based on the reimbursement rates developed, implemented, and consistent with policies approved in the 2011-13 biennial operating appropriations act and in effect on July 1, 2011, (b) one half of the indigent assistance disproportionate share hospital payment amounts paid to and retained by each hospital during fiscal year 2005, and (c) all of the other disproportionate share hospital payment amounts paid to and retained by each hospital during fiscal year 2005 to the extent the same disproportionate share hospital programs exist in the 2011-13 biennium. If payments during the fiscal year exceed the hospital's baseline amount, no additional payments will be made to the hospital except the federal portion of allowable disproportionate share hospital payments for which the hospital can certify allowable match. If payments during the fiscal year are less than the baseline amount, the hospital will be paid a state grant equal to the difference between payments during the fiscal year and the applicable baseline amount. Payment of the state grant shall be made in the applicable fiscal year and distributed in monthly payments. The grants will be recalculated and redistributed as the baseline is updated during the fiscal year. The grant payments are subject to an interim settlement within eleven months after the end of the fiscal year. A final settlement shall be performed. To the extent that either settlement determines that a hospital has received funds in excess of what it would have received as described in this subsection, the hospital must repay the excess amounts to the state when requested.

$8,102,000 of the general fund--state appropriation for fiscal year 2012, of which $6,570,000 is appropriated in section 204(1) of this act, and (((3,162,000)) $10,722,000 of the general fund--state appropriation for fiscal year 2013, of which $6,570,000 is appropriated in section 204(1) of this act, are provided solely for state grants for the participating hospitals. CPE hospitals will receive the inpatient and outpatient reimbursement rate restorations in RCW 74.60.080 and rate increases in RCW 74.60.090 funded through the hospital safety net assessment fund rather than through the baseline mechanism specified in this subsection.

(15) The health care authority shall seek private-public partnerships and federal funds that are or may become available to provide on-going support for outreach and education efforts under the federal children's health insurance program reauthorization act of 2009.

(16) The health care authority shall target funding for maternity support services towards pregnant women with factors that lead to higher rates of poor birth outcomes, including hypertension, a preterm or low birth weight birth in the most recent previous birth, a cognitive deficit or developmental disability, substance abuse, severe mental illness, unhealthy weight or failure to gain weight, tobacco use, or African American or Native American race. The health care authority shall prioritize evidence-based practices for delivery of maternity support services. To the extent practicable, the health care authority shall develop a mechanism to increase federal funding for maternity support services by leveraging local public funding for those services.

(17) ((For children with family incomes above 200 percent of the federal poverty level in the state-funded children's health program for children who are not eligible for coverage under the federally funded children's health insurance program, premiums shall be set every two years in an amount equal to the average state-only share of the per capita cost of coverage in the state-funded children's health program for children in families with incomes at or less than two hundred percent of the federal poverty level.

(18)) Within the amounts appropriated in this section, the health care authority shall provide disproportionate share hospital payments to hospitals that provide services to children in the children's health program who are not eligible for services under Title XIX or XXI of the federal social security act due to their citizenship status.

(1) Notwithstanding the provisions of this section, the joint

necessary to efficiently manage workload.
(2) $332,000 of the medical aid account--state appropriation and $332,000 of the accident account--state appropriation are provided for the purposes of chapter 37, Laws of 2011 1st sp. sess. (workers' compensation).

(3) $323,000 of the performance audits of government account--state appropriation is provided for consultant and staff costs related to the economic analysis of tax preferences as directed by chapter 43.136 RCW.

(4) The committee shall conduct a study of the current methods of collecting legal financial obligations and compare those methods with other debt collection methods, including contracting for debt collection of legal financial obligations. The study shall include analysis of the costs and revenues of current methods and compare those to alternatives, and include analysis of the impact of current methods and alternatives to revenues received by the state. Included shall be an examination of costs and revenue generation before and after the implementation of chapter 379, Laws of 2003 (SSB 5990) and chapter 362, Laws of 2005 (SSB 5256) and analysis of whether these changes met the legislative goals of reducing costs and increasing collections. A report on the results of the analysis shall be presented to the appropriate committees of the legislature by December 2014.

(5) The committee shall conduct a study of economic development programs and projects supported by the state general fund in the department of commerce. The study shall first review the extent to which these programs: (a) Included specific economic development targets; (b) monitored economic development targets; (c) required for programs which provided support or services through contracts, whether the contracts were structured such that if economic development targets were not met, contracts were reviewed or revised; and (d) changed the economic development targets of associate development organizations relative to funding increases since 2007. The study will include the feasibility of determining how to isolate other factors, such as general economic trends, from the impacts of economic development programs. A complete report with study data and conclusions shall be provided to the appropriate committees of the legislature by December 1, 2014.

(6) The committee shall analyze the incidence and level of taxation and business incentives available to the financial services industry in Washington State, and identify the relative differences in taxes and business incentives compared to California. A report shall be provided to the appropriate committees of the legislature by December 1, 2014.

(7) The committee shall conduct an analysis of how school districts use school days. The analysis must include:

(a) How school districts define classroom time, nonclassroom time, instructional time, noninstructional time, and any other definitions of how the school day is divided or used;

(b) Estimates of time in each category;

(c) How noninstructional time is distributed over the annual number of school days;

(8) The committee shall conduct a review of the programs and services that are performed by state agencies to determine whether the program or service may be performed by the private sector in a more cost-efficient or effective manner than being performed by the agency. In conducting this review, the committee shall:

(a) Examine the existing activities currently being performed by state agencies, including but not limited to an examination of services, for their performance, staffing, capital requirements, and mission. Programs may be broken down into discrete services or activities or reviewed as a whole; and

(b) Examine the activities to determine which specific services are available in the marketplace and what potential for efficiency gains or savings exist.

(9) The committee shall review funding enhancement formulas that provide minimum staffing unit funding to small school districts and districts with school plants that have been judged by the state board of education to be remote and necessary. The committee will make an assessment of the current formulas and report any recommended adjustments to the legislative fiscal committees of the senate and the house of representatives by November 1, 2014. In assessing the current formulas, the committee may consider: Enhancements being made to basic education funding in the 2013-2015 omnibus appropriations act and committed to under Engrossed Substitute House Bill No. 2261 (chapter 548, Laws of 2009) and Substitute House Bill No. 2776 (chapter 236, Laws of 2010); developments in technology or educational service delivery since the formulas were established; practices in other states; districts’ ability to provide students with access to a program of education; and inter-district equity.

(10) The committee shall conduct a study of the effectiveness of the state agency performance indicators and performance measurement process established in chapter 43.88 RCW, the state budget and accounting act. The study will focus on the integration of performance measurements into the state budgeting process and the ability of the legislative fiscal committees to use effective performance indicators in developing the state budget. The committee shall present its findings and recommendations to the legislative fiscal committees in a public hearing during the 2014 legislative session.

(11) By June 30, 2014, the committee shall conduct a study of the electricity cost impacts for each qualifying utility to meet the 2016 and 2020 renewable resource and conservation targets under chapter 19.285 RCW. The study must also include an analysis of the impacts on each utility's commercial, industrial, and residential customers, including an additional analysis of the impacts on low-income residential customers.

(12) In carrying out the report required by RCW 44.28.157, the committee shall include an analysis of the impacts of using the Washington health benefit exchange established in chapter 43.71 RCW as a mechanism for providing health insurance for part-time certificated and classified K-12 public school employees. The analysis shall be conducted in coordination with the health care authority and shall include a review of how the exchange, federal health premium tax credits and subsidies for out-of-pocket expenses administered through the exchange, and Medicaid expansion have impacted, or could impact, health care costs for individuals, school districts, and the state. The analysis shall also include a review of the cost of stand-alone dental plans.

The department shall not transfer funds, and the director of financial management shall not approve the transfer, unless the transfer is consistent with the objective of conserving, to the maximum extent possible, the expenditure of state funds. The appropriations in this section are subject to the following conditions and limitations:

(1) Within amounts appropriated in this section and sections 205 and 206 of this act, the health care authority shall continue to provide an enhanced basic health plan subsidy for foster parents licensed under chapter 74.15 RCW and workers in state-funded home care programs through December 31, 2013. Under this enhanced subsidy option, foster parents eligible to participate in the basic health plan as subsidized enrollees and home care workers with family incomes below 200 percent of the federal poverty level shall be allowed to enroll in the basic health plan at the minimum premium amount charged to enrollees with incomes below sixty-five percent of the federal poverty level.

(2) The health care authority shall require organizations and individuals that are paid to deliver basic health plan services and that choose to sponsor enrollment in the subsidized basic health plan to pay 133 percent of the premium amount which would otherwise be due from the sponsored enrollees through December 31, 2013, unless medicaid expansion is not implemented.

(3) The administrator shall take at least the following actions to assure that persons participating in the basic health plan are eligible for the level of assistance they receive: (a) Require submission of (i) income tax returns, and recent pay history, from all applicants, or (ii) other verifiable evidence of earned and unearned income from those persons not required to file income tax returns; (b) check employment security payroll records at least once every twelve months on all enrollees; (c) require enrollees whose income as indicated by payroll records exceeds that upon which their subsidy is based to document their current income as a condition of continued eligibility; (d) require enrollees for whom employment security payroll records cannot be obtained to document their current income at least once every six months; (e) not reduce gross family income for self-employed persons by noncash-flow expenses such as, but not limited to, depreciation, amortization, and home office deductions, as defined by the United States internal revenue service; and (f) pursue repayment and civil penalties from persons who have received excessive subsidies, as provided in RCW 70.47.060(9).

(4) Until December 31, 2013, enrollment in the subsidized basic health plan shall be limited to only include persons who qualify as subsidized enrollees as defined in RCW 70.47.020 and who (a) qualify for services under 1115 medicaid demonstration project number 11-W-00254/10; or (b) are foster parents licensed under chapter 74.15 RCW.

(5) Based on quarterly expenditure reports and caseload forecasts, if the health care authority estimates that expenditures for the medical assistance program will exceed the appropriations, the health care authority shall take steps including but not limited to reduction of rates or elimination of optional services to reduce expenditures so that total program costs do not exceed the annual appropriation authority.

(6) When a person is ineligible for medicaid solely by reason of residence in an institution for mental diseases, the health care authority shall provide the person with the same benefits as he or she would receive if eligible for medicaid, using state-only funds to the extent necessary.

(7) $4,261,000 of the general fund--state appropriation for fiscal year 2014, $4,261,000 of the general fund--state appropriation for fiscal year 2015, and $8,522,000 of the general fund--federal appropriation are provided solely for low-income disproportionate share hospital payments under RCW 74.09.730(1)(a).

(8) $6,000,000 of the general fund--federal appropriation is provided solely for supplemental payments to nursing homes operated by public hospital districts. The public hospital district shall be responsible for providing the required nonfederal match for the supplemental payment, and the payments shall not exceed the maximum allowable under federal rules. It is the legislature's intent that the payments shall be supplemental to and shall not in any way offset or reduce the payments calculated and provided in accordance with part E of chapter 74.46 RCW. It is the legislature's further intent that costs otherwise allowable for rate-setting and settlement against payments under chapter 74.46 RCW shall not be disallowed solely because such costs have been paid by revenues retained by the nursing home from these supplemental payments. The supplemental payments are subject to retrospective interim and final cost settlements based on the nursing homes' as-filed and final medicare cost reports. The timing of the interim and final cost settlements shall be at the health care authority's discretion. During either the interim cost settlement or the final cost settlement, the health care authority shall recoup from the public hospital districts the supplemental payments that exceed the medicaid cost limit and/or the medicare upper payment limit. The health care authority shall apply federal rules for identifying the eligible incurred medicare costs and the medicare upper payment limit.

(9) The health care authority shall continue the inpatient hospital certified public expenditures program for the 2013-2015 fiscal biennium. The program shall apply to all public hospitals, including those owned or operated by the state, except those classified as critical access hospitals or state psychiatric institutions. The health care authority shall submit reports to the governor and legislature by November 1, 2013, and by November 1, 2014, that evaluate whether savings continue to exceed costs for this program. If the certified public expenditures (CPE) program in its current form is no longer cost-effective to maintain, the health care authority shall submit a report to the governor and legislature detailing cost-effective alternative uses of local, state, and federal resources as a replacement for this program. During fiscal year 2014 and fiscal year 2015, hospitals in the program shall be paid and
shall retain one hundred percent of the federal portion of the allowable hospital cost for each medicaid inpatient fee-for-service claim payable by medical assistance and one hundred percent of the federal portion of the maximum disproportionate share hospital payment allowable under federal regulations. Inpatient medicaid payments shall be established using an allowable methodology that approximates the cost of claims submitted by the hospitals. Payments made to each hospital in the program in each fiscal year of the biennium shall be compared to a baseline amount. The baseline amount will be determined by the total of (a) the inpatient claim payment amounts that would have been paid during the fiscal year had the hospital not been in the CPE program based on the reimbursement rates developed, implemented, and consistent with policies approved in the 2013-2015 biennial operating appropriations act and in effect on July 1, 2013, (b) one half of the indigent assistance disproportionate share hospital payment amounts paid to and retained by each hospital during fiscal year 2005; and (c) all of the other disproportionate share hospital payment amounts paid to and retained by each hospital during fiscal year 2005 to the extent the same disproportionate share hospital programs exist in the 2013-2015 fiscal biennium. If payments during the fiscal year exceed the hospital’s baseline amount, no additional payments will be made to the hospital except the federal portion of allowable disproportionate share hospital payments for which the hospital can certify allowable match. If payments during the fiscal year are less than the baseline amount, the hospital will be paid a state grant equal to the difference between payments during the fiscal year and the applicable baseline amount. Payment of the state grant shall be made in the applicable fiscal year and distributed in monthly payments. The grants will be recalculated and redistributed as the baseline is updated during the fiscal year. The grant payments are subject to an interim settlement within eleven months after the end of the fiscal year. A final settlement shall be performed. To the extent that either settlement determines that a hospital has received funds in excess of what it would have received as described in this subsection, the hospital must repay the excess amounts to the state when requested. $12,803,000 of the general fund—state appropriation for fiscal year 2014, of which $6,570,000 is appropriated in section 204(1) of this act, and $6,934,000 of the general fund—state appropriation for fiscal year 2015, of which $6,570,000 is appropriated in section 204(1) of this act, are provided solely for state grants for the participating hospitals. CPE hospitals will receive the inpatient and outpatient reimbursement rate restorations in RCW 74.60.080 and rate increases in RCW 74.60.090 funded through the hospital safety net assessment fund rather than through the baseline mechanism specified in this subsection.

Within the amounts appropriated in this section, the health care authority shall provide disproportionate share hospital payments to hospitals that provide services to children in the children's health program who are not eligible for services under Title XIX or XXI of the federal social security act due to their citizenship status.

The health care authority shall not initiate any services that require expenditure of state general fund moneys unless expressly authorized in this act or other law. The health care authority may seek, receive, and spend, under RCW 43.79.260 through 43.79.282, federal moneys not anticipated in this act as long as the federal funding does not require expenditure of state moneys for the program in excess of amounts anticipated in this act. If the health care authority receives unanticipated unrestricted federal moneys, those moneys shall be spent for services authorized in this act or in any other legislation providing appropriation authority, and an equal amount of appropriated state general fund moneys shall lapse. Upon the lapsing of any moneys under this subsection, the office of financial management shall notify the legislative fiscal committees. As used in this subsection, “unrestricted federal moneys” includes block grants and other funds that federal law does not require to be spent on specifically defined projects or matched on a formula basis by state funds.

The legislature finds that medicaid payment rates, as calculated by the health care authority pursuant to the appropriations in this act, bear a reasonable relationship to the costs incurred by efficiently and economically operated facilities for providing quality services and will be sufficient to enlist enough providers so that care and services are available to the extent that such care and services are available to the general population in the geographic area. The legislature finds that the cost reports, payment data from the federal government, historical utilization, economic data, and clinical input constitute reliable data upon which to determine the payment rates.

The health care authority administration account—state appropriation is provided solely for implementation of Engrossed Substitute Senate Bill No. 5811 (employee wellness program). If the bill is not enacted by June 30, 2013, the amount provided in this subsection shall lapse.

In determining financial eligibility for medicaid-funded services, the health care authority is authorized to disregard recoveries by Holocaust survivors of insurance proceeds or other assets, as defined in RCW 48.104.030.

The legislature affirms that it is in the state's interest for Harborview medical center to remain an economically viable component of the state's health care system.

The general fund—state appropriation for fiscal year 2014 and 2015 are provided solely to implement phase two of the project to create a single provider payment system that consolidates medicaid medical and social services payments and replaces the social service payment system.

Within the amounts appropriated in this section, the health care authority and the department of social and health services shall implement the state option to provide health homes for enrollees with chronic conditions under section 2703 of the federal affordable care act. The total state match for enrollees who are dually-eligible for both medicare and medicaid and not enrolled in managed care shall be no more than the net savings to the state from the enhanced match rate for its medicaid-only managed care enrollees under section 2703.

Effective January 1, 2014, the authority shall not pay monthly enhancements directly to federally qualified health clinics and rural health centers and shall instead include the full encounter payments in managed care contracts. The managed care contracts shall require the managed care plans to pay at least the full encounter payment to federally qualified health clinics and rural health centers. Managed care premiums shall be adjusted to reflect this increased payment. Effective January 1, 2015, the managed care premiums shall be calculated based on calendar year 2012 and 2013 federally qualified health clinic and rural health center utilization experience.

The appropriations in this section reflect savings and efficiencies by transferring children receiving medical care provided through fee-for-service to medical care provided through managed care.
The authority shall exclude antiretroviral drugs used to treat HIV/AIDS, anticancer medication that is used to kill or slow the growth of cancerous cells, anemophilic drugs, and transplant drugs from fail first limitations implemented to operate within the appropriations provided in this section.

The appropriations in this section reflect savings and efficiencies by modifying the dispensing methods of contraceptive drugs. The authority must make arrangements for all Medicaid programs offered through managed care plans or fee-for-service to require dispensing of contraceptive drugs with up to a one-year supply provided at one time. Contracts with managed care plans must allow on-site dispensing of the prescribed contraceptive drugs at family planning clinics. Dispensing practices must follow clinical guidelines for appropriate prescribing and dispensing to ensure the health of the patient while maximizing access to effective contraceptive drugs.

The amounts provided in this section are contingent on the health benefit exchange developing a self-sustaining methodology under which charges to enrollees and the state shall not exceed 1.8 percent of premiums paid.

$92,000 of the general fund—state appropriation for fiscal year 2014, $92,000 of the general fund—state appropriation for fiscal year 2015, and $184,000 of the general fund—federal appropriation are provided solely for the authority to build and enhance a financial oversight system of Medicaid managed care organizations and related costs. The authority's financial oversight system shall be able to monitor performance and financial data independently of outside organizations, have the systems and resources necessary to perform these functions, and understand how state and federal reforms will affect the state general fund.

(B) Districts must demonstrate compliance of the class sizes provided in (c)(ii)(A) of this subsection as a condition of receipt of funds.

(iii) Pursuant to RCW 28A.150.260(4)(a), the assumed teacher planning period, expressed as a percentage of a teacher work day, is 13.42 percent in grades K-6, and 16.67 percent in grades 7-12; and
(iv) Laboratory science, advanced placement, and international baccalaureate courses are funded at the same class size assumptions as general education schools in the same grade; and

(d)(i) Funding for teacher librarians, school nurses, social workers, school psychologists, and guidance counselors is allocated based on the school prototypes as provided in RCW 28A.150.260 and is considered certificated instructional staff, except as provided in (d)(ii) of this subsection.

(ii) Students in approved career and technical education and skill center programs generate certificated instructional staff units to provide for the services of teacher librarians, school nurses, social workers, school psychologists, and guidance counselors at the following combined rate per 1000 students:

Career and Technical Education
students ...................................... 2.02 per 1000 student FTE's
Skill Center students ...................................... 2.36 per 1000 student FTE's

(3) ADMINISTRATIVE STAFF ALLOCATIONS

(a) Allocations for school building-level certificated administrative staff salaries for the 2013-14 and 2014-15 school years for general education students are determined using the formula generated staff units calculated pursuant to this subsection. The superintendent shall make allocations to school districts based on the district's annual average full-time equivalent enrollment in each grade. The following prototypical school values shall determine the allocation for principals, assistance principals, and other certificated building level administrators:

(b) Students in approved career and technical education and skill center programs generate certificated school building-level administrator staff units at per student rates that are a multiple of the general education rate in (a) of this subsection by the following factors:

Career and Technical Education students ...................................... 1.025
Skill Center students ...................................... 1.198

(4) CLASSIFIED STAFF ALLOCATIONS

Allocations for classified staff units providing school building-level and district-wide support services for the 2013-14 and 2014-15 school years are determined using the formula-generated staff units provided in RCW 28A.150.260, and adjusted based on each district's annual average full-time equivalent student enrollment in each grade.

(5) CENTRAL OFFICE ALLOCATIONS

In addition to classified and administrative staff units allocated in subsections (3) and (4) of this section, classified and administrative staff units are provided for the 2013-14 and 2014-15 school year for the central office administrative costs of operating a school district, at the following rates:

(a) The total central office staff units provided in this subsection (5) are calculated by first multiplying the total number of eligible certificated instructional, certificated administrative, and classified staff units providing school-based or district-wide support services, as identified in RCW 28A.150.260(6)(b), by 5.3 percent.

(b) Of the central office staff units calculated in (a) of this subsection, 74.53 percent are allocated as classified staff units, as generated in subsection (4) of this section, and 25.47 percent shall be allocated as administrative staff units, as generated in subsection (3) of this section.

(c) Staff units generated as enhancements outside the program of basic education to the minimum requirements of RCW 28A.150.260, and staff units generated by skill center and career-technical students, are excluded from the total central office staff units calculation in (a) of this subsection.

(d) For students in approved career-technical and skill center programs, central office classified units are allocated at the same staff unit per student rate as those generated for general education students of the same grade in this subsection (5), and central office administrative staff units are allocated at staff unit per student rates that exceed the general education rate established for students in the same grade in this subsection (5) by 1.97 percent for career and technical education students, and 21.92 percent for skill center students.

(6) FRINGE BENEFIT ALLOCATIONS

Fringe benefit allocations shall be calculated at a rate of 18.68 percent in the 2013-14 school year and 18.68 percent in the 2014-15 school year for certificated salary allocations provided under subsections (2), (3), and (5) of this section, and a rate of 20.95 percent in the 2013-14 school year and 20.95 percent in the 2014-15 school year for classified salary allocations provided under subsections (4) and (5) of this section.

(7) INSURANCE BENEFIT ALLOCATIONS

Insurance benefit allocations shall be calculated at the rate specified in section 504 of this act, resulting from the incremental changes specified in section 504 of this act, based on the number of benefit units determined as follows:

(a) The number of certificated staff units determined in subsections (2), (3), and (5) of this section; and

(b) The number of classified staff units determined in subsections (4) and (5) of this section multiplied by 1.152. This factor is intended to adjust allocations so that, for the purposes of distributing insurance benefits, full-time equivalent classified employees may be calculated on the basis of 1440 hours of work per year, with no individual employee counted as more than one full-time equivalent.

(8) MATERIALS, SUPPLIES, AND OPERATING COSTS (MSOC) ALLOCATIONS

Funding is allocated per annual average full-time equivalent student for the materials, supplies, and operating costs (MSOC) incurred by school districts, consistent with the requirements of RCW 28A.150.260.

(a)(i) MSOC funding for general education students are allocated at the following per student rates:

MSOC RATES/STUDENT FTE
and FTE enrollment claimed for basic education, including separate counts of resident and nonresident students.

(11) VOLUNTARY FULL DAY KINDERGARTEN PROGRAMS

Funding in this section is sufficient to fund voluntary full day kindergarten programs in qualifying high poverty schools, pursuant to RCW 28A.150.220 and 28A.150.315. Each kindergarten student who enrolls for the voluntary full-day program in a qualifying school shall count as one-half of one full-time equivalent student for purpose of making allocations under this section. Funding in this section provides full-day kindergarten programs for 30 percent of kindergarten enrollment in the 2013-14 school year, and 35 percent in the 2014-15 school year. Funding priority shall be given to schools with the highest poverty levels, as measured by prior year free and reduced price lunch eligibility rates in each school.

(12) ADDITIONAL FUNDING FOR SMALL SCHOOL DISTRICTS AND REMOTE AND NECESSARY PLANTS

For small school districts and remote and necessary school plants within any district which have been judged to be remote and necessary by the superintendent of public instruction, additional staff units are provided to ensure a minimum level of staffing support. Additional administrative and certificated instructional staff units provided to districts in this subsection shall be reduced by the general education staff units, excluding career and technical education and skills center enhancement units, otherwise provided in subsections (2) through (5) of this section on a per district basis.

(a) For districts enrolling not more than twenty-five average annual full-time equivalent students in grades K-8, and for small school plants within any school district which have been judged to be remote and necessary by the superintendent of public instruction, and enroll not more than twenty-five average annual full-time equivalent students in grades K-8:

(i) For those enrolling no students in grades 7 and 8, 1.76 certificated instructional staff units and 0.24 certificated administrative staff units for enrollment of not more than five students, plus one-twentieth of a certificated instructional staff unit for each additional student enrolled; and

(ii) For those enrolling students in grades 7 or 8, 1.68 certificated instructional staff units and 0.32 certificated administrative staff units for enrollment of not more than five students, plus one-tenth of a certificated instructional staff unit for each additional student enrolled;

(b) For specified enrollments in districts enrolling more than twenty-five but not more than one hundred average annual full-time equivalent students in grades K-8, and for small school plants within any school district which enroll more than twenty-five average annual full-time equivalent students in grades K-8 and have been judged to be remote and necessary by the superintendent of public instruction:

(i) For enrollment of up to sixty annual average full-time equivalent students in grades K-6, 2.76 certificated instructional staff units and 0.24 certificated administrative staff units; and

(ii) For enrollment of up to twenty annual average full-time equivalent students in grades 7 and 8, 0.92 certificated instructional staff units and 0.08 certificated administrative staff units;

(c) For districts operating no more than two high schools with enrollments of less than three hundred average annual full-time equivalent students, for enrollment in grades 9-12 in each such school, other than alternative schools, except as noted in this subsection:

(i) For remote and necessary schools enrolling students in any grades 9-12 but no more than twenty-five average annual full-time equivalent students in grades K-12, four and one-half certificated
(15) $214,000 of the general fund—state appropriation for fiscal year 2014 and $218,000 of the general fund—state appropriation for fiscal year 2015 are provided solely for school district emergencies as certified by the superintendent of public instruction. At the close of the fiscal year the superintendent of public instruction shall report to the office of financial management and the appropriate fiscal committees of the legislature on the allocations provided to districts and the nature of the emergency.

(16) Funding in this section is sufficient to fund a maximum of 1.6 FTE enrollment for skills center students pursuant to chapter 463, Laws of 2007.

(17) Students participating in running start programs may be funded up to a combined maximum enrollment of 1.2 FTE including school district and institution of higher education enrollment. In calculating the combined 1.2 FTE, the office of the superintendent of public instruction may average the participating student’s September through June enrollment to account for differences in the start and end dates for courses provided by the high school and higher education institution. Additionally, the office of the superintendent of public instruction, in consultation with the state board for community and technical colleges, the student achievement council, and the education data center, shall annually track and report to the fiscal committees of the legislature on the combined FTE experience of students participating in the running start program, including course load analyses at both the high school and community and technical college system.

(18) If two or more school districts consolidate and each district was receiving additional basic education formula staff units pursuant to subsection (12) of this section, the following apply:

(a) For three school years following consolidation, the number of basic education formula staff units shall not be less than the number of basic education formula staff units received by the districts in the school year prior to the consolidation; and

(b) For the fourth through eighth school years following consolidation, the difference between the basic education formula staff units received by the districts for the school year prior to consolidation and the basic education formula staff units after consolidation pursuant to subsection (12) of this section shall be reduced in increments of twenty percent per year.

(19)(a) Indirect cost charges by a school district to approved career and technical education middle and secondary programs shall not exceed 15 percent of the combined basic education and career and technical education program enhancement allocations of state funds. Middle and secondary career and technical education programs are considered separate programs for funding and financial reporting purposes under this section.

(b) Career and technical education program full-time equivalent enrollment shall be reported on the same monthly basis as the enrollment for students eligible for basic support.

(20) The office of the superintendent of public instruction shall review career and technical education and skill center programs’ funding enhancement formulas, expenditure accounting systems, and reporting. The office will make recommendations for revising the funding formulas, including the possibility of conversion to a model that enhances basic education rates, potential revisions to accounting systems, and recommendations for improving reporting and transparency. The office shall submit recommendations to the appropriate fiscal committees of the legislature and the office of financial management by October 1, 2013.
(a) Salary allocations for certificated instructional staff units are determined for each district by multiplying the district's certificated instructional total base salary shown on LEAP Document 2 by the district's average staff mix factor for certificated instructional staff in that school year, computed using LEAP document 1; and
(b) Salary allocations for certificated administrative staff units and classified staff units for each district are determined based on the district's certificated administrative and classified salary allocation amounts shown on LEAP Document 2.

(2) For the purposes of this section:
(a) "LEAP Document 1" means the staff mix factors for certificated instructional staff according to education and years of experience, as developed by the legislative evaluation and accountability program committee on March 29, 2013, at 09:10 hours; and
(b) "LEAP Document 2" means the school year salary allocations for certificated administrative staff and classified staff and derived and total base salaries for certificated instructional staff as developed by the legislative evaluation and accountability program committee on March 29, 2013, at 11:16 hours.

(3) Incremental fringe benefit factors are applied to salary adjustments at a rate of 18.04 percent for school year 2013-14 and 18.04 percent for school year 2014-15 for certificated instructional and certificated administrative staff and 17.45 percent for school year 2013-14 and 17.45 percent for the 2014-15 school year for classified staff.

(4) Pursuant to RCW 28A.150.410, the following state-wide salary allocation schedules for certificated instructional staff are established for basic education salary allocations:

(b) As used in this subsection, the column headings "BA+(N)" refer to the number of credits earned since receiving the baccalaureate degree.

(c) For credits earned after the baccalaureate degree but before the masters degree, any credits in excess of forty-five credits may be counted after the masters degree. Thus, as used in this subsection, the column headings "MA+(N)" refer to the total of:

(i) Credits earned since receiving the masters degree; and

(ii) Any credits in excess of forty-five credits that were earned after the baccalaureate degree but before the masters degree.

(5) For the purposes of this section:

(a) "BA" means a baccalaureate degree.

(b) "MA" means a masters degree.

(c) "PHD" means a doctorate degree.

(d) "Years of service" shall be calculated under the same rules adopted by the superintendent of public instruction.

(e) "Credits" means college quarter hour credits and equivalent in-service credits computed in accordance with RCW 28A.415.020 and 28A.415.023.

(6) No more than ninety college quarter-hour credits received by any employee after the baccalaureate degree may be used to determine compensation allocations under the state salary allocation schedule and LEAP documents referenced in this part V, or any replacement schedules and documents, unless:

(a) The employee has a masters degree; or

(b) The credits were used in generating state salary allocations before January 1, 1992.

(7) The salary allocation schedules established in this section are for allocation purposes only except as provided in RCW 28A.400.200(2).

NEW SECTION, Sec. 504. FOR THE SUPERINTENDENT OF PUBLIC INSTRUCTION--FOR SCHOOL EMPLOYEE COMPENSATION ADJUSTMENTS

The appropriations in this part are subject to the following conditions and limitations:

(1)(a) Additional salary adjustments as necessary to fund the base salaries for certificated instructional staff as listed for each district in LEAP Document 2, defined in section 503(2)(b) of this act. Allocations for these salary adjustments shall be provided to all districts that are not grandfathered to receive salary allocations above the statewide salary allocation schedule, and to certain grandfathered districts to the extent necessary to ensure that salary allocations for districts that are currently grandfathered do not fall below the statewide salary allocation schedule.

(b) Additional salary adjustments to certain districts as necessary to fund the per full-time-equivalent salary allocations for certificated administrative staff as listed for each district in LEAP Document 2, defined in section 503(2)(b) of this act.
(c) Additional salary adjustments to certain districts as necessary to fund the per full-time-equivalent salary allocations for classified staff as listed for each district in LEAP Document 2, defined in section 503(2)(b) of this act.

(d) The appropriations in this subsection (1) include associated incremental fringe benefit allocations at 18.04 percent for the 2013-14 school year and 18.04 percent for the 2014-15 school year for certificated instructional and certificated administrative staff and 17.45 percent for the 2013-14 school year and 17.45 percent for the 2014-15 school year for classified staff.

(e) The appropriations in this section include the increased or decreased portion of salaries and incremental fringe benefits for all relevant state-funded school programs in part V of this act. Changes for general apportionment (basic education) are based on the salary allocation schedules and methodology in sections 502 and 503 of this act. Changes for special education result from changes in each district's basic education allocation per student. Changes for educational service districts and institutional education programs are determined by the superintendent of public instruction using the methodology for general apportionment salaries and benefits in sections 502 and 503 of this act.

(f) The appropriations in this section include no salary adjustments for substitute teachers.

(2) The maintenance rate for insurance benefit allocations is $768.00 per month for the 2013-14 and 2014-15 school years. The appropriations in this section reflect the incremental change in cost of allocating rates of $758.00 per month for the 2013-14 school year and $758.00 per month for the 2014-15 school year.

(3) The rates specified in this section are subject to revision each year by the legislature.

(4) The insurance benefit allocations reflect savings from assumed changes to health benefits eligibility criteria for part-time employees to align with the employer responsibility provisions of the federal affordable care act. Beginning July 1, 2014, employees with family incomes below 400 percent of the federal poverty level who are not offered employer health insurance coverage are eligible for federal premium credits and subsidies for out-of-pocket costs for health insurance purchased through the Washington health benefits exchange. (1) For the purpose of negotiating collective bargaining agreements under this chapter, the employer shall be represented by the governor or governor's designee, except as provided for institutions of higher education in subsection (4) of this section.

(2)(a) If an exclusive bargaining representative represents more than one bargaining unit, the exclusive bargaining representative shall negotiate with each employer representative as designated in subsection (1) of this section one master collective bargaining agreement on behalf of all the employees in bargaining units that the exclusive bargaining representative represents. For those exclusive bargaining representatives who represent fewer than a total of five hundred employees each, negotiation shall be by a coalition of all those exclusive bargaining representatives. The coalition shall bargain for a master collective bargaining agreement covering all of the employees represented by the coalition. The governor's designee and the exclusive bargaining representative or representatives are authorized to enter into supplemental bargaining of agency-specific issues for inclusion in or as an addendum to the master collective bargaining agreement, subject to the parties' agreement regarding the issues and procedures for supplemental bargaining. This section does not prohibit cooperation and coordination of bargaining between two or more exclusive bargaining representatives.

(b) This subsection (2) does not apply to exclusive bargaining representatives who represent employees of institutions of higher education, except when the institution of higher education has elected to exercise its option under subsection (4) of this section to have its negotiations conducted by the governor or governor's designee under the procedures provided for general government agencies in subsections (1) through (3) of this section.

(c) If five hundred or more employees of an independent state elected official listed in RCW 43.01.010 are organized in a bargaining unit or bargaining units under RCW 41.80.070, the official shall be consulted by the governor or the governor's designee before any agreement is reached under (a) of this subsection concerning supplemental bargaining of agency specific issues affecting the employees in such bargaining unit.

(3) The governor shall submit a request for funds necessary to implement the compensation and fringe benefit provisions in the master collective bargaining agreement or for legislation necessary to implement the agreement. Requests for funds necessary to implement the provisions of bargaining agreements shall not be submitted to the legislature by the governor unless such requests:

(a) Have been submitted to the director of the office of financial management by October 1 prior to the legislative session at which the requests are to be considered; and

(b) Have been certified by the director of the office of financial management as being feasible financially for the state.

The legislature shall approve or reject the submission of the request for funds as a whole. The legislature shall not consider a request for funds to implement a collective bargaining agreement unless the request is transmitted to the legislature as part of the governor's budget document submitted under RCW 43.88.030 and 43.88.060. If the legislature rejects or fails to act on the submission, either party may reopen all or part of the agreement or the exclusive bargaining representative may seek to implement the procedures provided for in RCW 41.80.090.

(4)(a)(i) For the purpose of negotiating agreements for institutions of higher education, the employer shall be the respective governing board of each of the universities, colleges, or community colleges or a designee chosen by the board to negotiate on its behalf.

(ii) A governing board of a university or college may elect to have its negotiations conducted by the governor or governor's designee under the procedures provided for general government agencies in subsections (1) through (3) of this section, except that:

(A) The governor or the governor's designee and an exclusive bargaining representative shall negotiate one master collective bargaining agreement for all of the bargaining units of employees of a university or college that the representative represents; or

(B) If the parties mutually agree, the governor or the governor's designee and an exclusive bargaining representative shall negotiate one master collective bargaining agreement for all of the bargaining units of employees of more than one university or college that the representative represents.

(iii) A governing board of a community college may elect to have its negotiations conducted by the governor or governor's designee under the procedures provided for general government agencies in subsections (1) through (3) of this section.

(b) Prior to entering into negotiations under this chapter, the institutions of higher education or their designees shall consult with the director of the office of financial management regarding financial and budgetary issues that are likely to arise in the impending negotiations.

(c)(i) In the case of bargaining agreements reached between institutions of higher education other than the University of Washington and exclusive bargaining representatives agreed to under the provisions of this chapter, if appropriations are necessary to implement the compensation and fringe benefit provisions of the bargaining agreements, the governor shall submit a request for such funds to the legislature according to the provisions of subsection (3) of this section, except as provided in (c)(iii) of this subsection.

(ii) In the case of bargaining agreements reached between the University of Washington and exclusive bargaining representatives agreed to under the provisions of this chapter, if appropriations are necessary to implement the compensation and fringe benefit provisions of a bargaining agreement, the governor shall submit a request for such funds to the legislature according to the provisions of subsection (3) of this section, except as provided in this subsection (4)(c)(ii) and as provided in (c)(iii) of this subsection.

(A) If appropriations of less than ten thousand dollars are necessary to implement the provisions of a bargaining agreement, a request for such funds shall not be submitted to the legislature by the
governor unless the request has been submitted to the director of the office of financial management by October 1 prior to the legislative session at which the request is to be considered.

(B) If appropriations of ten thousand dollars or more are necessary to implement the provisions of a bargaining agreement, a request for such funds shall not be submitted to the legislature by the governor unless the request:

(I) Has been submitted to the director of the office of financial management by October 1 prior to the legislative session at which the request is to be considered; and

(II) Has been certified by the director of the office of financial management as being feasible financially for the state.

(C) If the director of the office of financial management does not certify a request under (c)(ii)(B) of this subsection as being feasible financially for the state, the parties shall enter into collective bargaining solely for the purpose of reaching a mutually agreed upon modification of the agreement necessary to address the absence of those requested funds. The legislature may act upon the compensation and fringe benefit provisions of the modified collective bargaining agreement if those provisions are agreed upon and submitted to the office of financial management and legislative budget committees before the biennial or supplemental operating budget by the sitting legislature.

(iii) In the case of a bargaining unit of employees of institutions of higher education in which the exclusive bargaining representative is certified during or after the conclusion of a legislative session, the legislature may act upon the compensation and fringe benefit provisions of the unit’s initial collective bargaining agreement if those provisions are agreed upon and submitted to the office of financial management and legislative budget committees before the biennial or supplemental operating budget by the sitting legislature.

(5) There is hereby created a joint committee on employment relations, which consists of two members with leadership positions in the house of representatives, representing each of the two largest caucuses; the chair and ranking minority member of the house appropriations committee, or its successor, representing each of the two largest caucuses; two members with leadership positions in the senate, representing each of the two largest caucuses; and the chair and ranking minority member of the senate ways and means committee, or its successor, representing each of the two largest caucuses. The governor shall periodically consult with the committee regarding appropriations necessary to implement the compensation and fringe benefit provisions in the master collective bargaining agreements, and upon completion of negotiations, advise the committee on the elements of the agreements and on any legislation necessary to implement the agreements.

(6) If, after the compensation and fringe benefit provisions of an agreement are approved by the legislature, a significant revenue shortfall occurs resulting in reduced appropriations, as declared by proclamation of the governor or by resolution of the legislature, both parties shall immediately enter into collective bargaining for a mutually agreed upon modification of the agreement.

(7) After the expiration date of a collective bargaining agreement negotiated under this chapter, all of the terms and conditions specified in the collective bargaining agreement remain in effect until the effective date of a subsequently negotiated agreement, not to exceed one year from the expiration date stated in the agreement. Thereafter, the employer may unilaterally implement according to law.

(8) For the (2011-2013) 2013-2015 fiscal biennium, a collective bargaining agreement related to employee health care benefits negotiated between the employer and coalition pursuant to RCW 41.80.020(3) regarding the dollar amount expended on behalf of each employee shall be a separate agreement for which the governor may request funds necessary to implement the agreement.

(If such an agreement is negotiated and funded by the legislature, this agreement will supersede any terms and conditions of an expired 2009-2011 biennial master collective bargaining agreement under this chapter regarding health care benefits.) The legislature may act upon a 2013-2015 collective bargaining agreement related to employee health care benefits if an agreement is reached and submitted to the office of financial management and legislative budget committees before final legislative action on the biennial or supplemental operating appropriations act by the sitting legislature.

Sec. 960. RCW 41.80.020 and 2011 1st sp.s. c 50 s 939 and 2011 1st sp.s. c 43 s 445 are each reenacted and amended to read as follows:

(1) Except as otherwise provided in this chapter, the matters subject to bargaining include wages, hours, and other terms and conditions of employment, and the negotiation of any question arising under a collective bargaining agreement.

(a) Health care benefits or other employee insurance benefits, except as required in subsection (3) of this section;

(b) Any retirement system or retirement benefit;

(c) Rules of the human resources director, the director of enterprise services, or the Washington personnel resources board adopted under RCW 41.06.157.

(3) Matters subject to bargaining include the number of names to be certified for vacancies, promotional preferences, and the dollar amount expended on behalf of each employee for health care benefits. However, except as otherwise provided in this subsection for institutions of higher education, negotiations regarding the number of names to be certified for vacancies, promotional preferences, and the dollar amount expended on behalf of each employee for health care benefits shall be conducted between the employer and one coalition of all the exclusive bargaining representatives subject to this chapter. The exclusive bargaining representatives for employees that are subject to chapter 47.64 RCW shall bargain the dollar amount expended on behalf of each employee for health care benefits with the employer as part of the coalition under this subsection. Any such provision agreed to by the employer and the coalition shall be included in all master collective bargaining agreements negotiated by the parties. For institutions of higher education, promotional preferences and the number of names to be certified for vacancies shall be bargained under the provisions of RCW 41.80.010(4). For agreements covering the (2011-2013) 2013-2015 fiscal biennium, any agreement between the employer and the coalition regarding the dollar amount expended on behalf of each employee for health care benefits is a separate agreement and shall not be included in the master collective bargaining agreements negotiated by the parties.

(4) The employer and the exclusive bargaining representative shall not agree to any proposal that would prevent the implementation of approved affirmative action plans or that would be inconsistent with the comparable worth agreement that provided the basis for the salary changes implemented beginning with the 1983-1985 biennium to achieve comparable worth.

(5) The employer and the exclusive bargaining representative shall not bargain over matters pertaining to management rights established in RCW 41.80.040.

(6) Except as otherwise provided in this chapter, if a conflict exists between an executive order, administrative rule, or agency policy relating to wages, hours, and terms and conditions of employment and a collective bargaining agreement negotiated under this chapter, the collective bargaining agreement shall prevail. A provision of a collective bargaining agreement that conflicts with the terms of a statute is invalid and unenforceable.

(7) This section does not prohibit bargaining that affects contracts authorized by RCW 41.06.142.

The allocation shall precede the distribution of the remaining earnings as prescribed under RCW 43.79A.040 and 43.84.092. The state treasurer shall establish a uniform allocation rate for all funds and accounts; except that the state treasurer may negotiate a different allocation rate with any state agency that has independent authority over funds not statutorily required to be held in the state treasury or in the custody of the state treasurer. In no event shall the rate be less than the actual costs incurred by the state treasurer's office. If no rate is separately negotiated, the default rate for any funds held shall be the rate set for funds held pursuant to statute.

During the 2009-2011 fiscal biennium and the 2011-2013 and 2013-2015 fiscal (biennium) biennia, the legislature may transfer from the state treasurer's service fund to the state general fund such amounts as reflect the excess fund balance of the fund.

The performance audits of government account is hereby created in the custody of the state treasurer. Revenue identified in RCW 82.08.020(5) and 82.12.0201 shall be deposited in the account. Money in the account shall be used to fund the performance audits and follow-up performance audits under RCW 43.09.470 and shall be expended by the state auditor in accordance with chapter 1, Laws of 2006. Only the state auditor or the state auditor's designee may authorize expenditures from the account. The account is subject to allotment procedures under chapter 43.88 RCW, but an appropriation is not required for expenditures. During the 2009-2011 fiscal biennium, the legislature may transfer from the performance audits of government account to the state general fund such amounts as deemed to be appropriate or necessary. Sec. 987. RCW 82.14.310 and 2011 1st sp.s. c 50 s 970 are each amended to read as follows:

(1) The county criminal justice assistance account is created in the state treasury. Beginning in fiscal year 2000, the state treasurer must transfer into the county criminal justice assistance account from the general fund the sum of twenty-three million two hundred thousand dollars divided into four equal deposits occurring on July 1, October 1, January 1, and April 1. For each fiscal year thereafter, the state treasurer must increase the total transfer by the fiscal growth factor, as defined in RCW 43.135.025, forecast for that fiscal year by the office of financial management in November of the preceding year.

(2) The moneys deposited in the county criminal justice assistance account for distribution under this section, less any moneys appropriated for purposes under subsection (4) of this section, must be distributed at such times as distributions are made under RCW 82.44.150 and on the relative basis of each county’s funding factor as determined under this subsection:

(a) A county’s funding factor is the sum of:

(i) The population of the county, divided by one thousand, and multiplied by two-tenths;

(ii) The crime rate of the county, multiplied by three-tenths; and

(iii) The annual number of criminal cases filed in the county superior court, for each one thousand in population, multiplied by five-tenths.

(b) Under this section and RCW 82.14.320 and 82.14.330:

(i) The population of the county or city is as last determined by the office of financial management;

(ii) The crime rate of the county or city is the annual occurrence of specified criminal offenses, as calculated in the most recent annual report on crime in Washington state as published by the Washington association of sheriffs and police chiefs, for each one thousand in population;

(iii) The annual number of criminal cases filed in the county superior court must be determined by the most recent annual report of the courts of Washington, as published by the administrative office of the courts;

(iv) Distributions and eligibility for distributions in the 1989-1991 biennium must be based on 1988 figures for both the crime rate as described under (ii) of this subsection and the annual number of criminal cases that are filed as described under (iii) of this subsection. Future distributions must be based on the most recent figures for both the crime rate as described under (ii) of this subsection and the annual number of criminal cases that are filed as described under (iii) of this subsection.

(3) Moneys distributed under this section must be expended exclusively for criminal justice purposes and may not be used to replace or supplant existing funding. Criminal justice purposes are defined as activities that substantially assist the criminal justice system, which may include circumstances where ancillary benefit to the civil or juvenile justice system occurs, and which includes (a) domestic violence services, such as those provided by domestic violence programs, community advocates, and legal advocates, as defined in RCW 70.123.020, and (b) during the 2001-2003 fiscal biennium, juvenile dispositional hearings relating to petitions for at-risk youth, truancy, and children in need of services. Existing funding for purposes of this subsection is defined as calendar year 1989 actual operating expenditures for criminal justice purposes. Calendar year 1989 actual operating expenditures for criminal justice purposes exclude the following: Expenditures for extraordinary events not likely to reoccur, changes in contract provisions for criminal justice services, beyond the control of the local jurisdiction receiving the services, and major nonrecurring capital expenditures.
(4) Not more than five percent of the funds deposited to the county criminal justice assistance account may be available for appropriations for enhancements to the state patrol crime laboratory system and the continuing costs related to these enhancements. Funds appropriated from this account for such enhancements may not supplant existing funds from the state general fund.

(5) During the 2011-2013 fiscal biennium, the amount that would otherwise be transferred into the county criminal justice assistance account from the general fund under subsection (1) of this section must be reduced by 3.4 percent.

(6) During the 2013-2015 fiscal biennium, for the purposes of substance abuse and other programs for offenders, the legislature may appropriate from the county criminal justice assistance account such amounts as are in excess of the amounts necessary to fully meet the state's obligations to the counties and to the Washington state patrol. Excess amounts in this account are not the result of subsection (5) of this section.

Sec. 988. RCW 86.26.007 and 2012 2nd sp.s. c 7 s 932 are each amended to read as follows:

The flood control assistance account is hereby established in the state treasury. Each biennium thereafter the state treasurer shall transfer four million dollars from the general fund to the flood control assistance account, except that during the 2011-2013 fiscal biennium, the state treasurer shall transfer one million dollars from the general fund to the flood control assistance account. Moneys in the flood control assistance account may be spent only after appropriation for purposes specified under this chapter. 1. The appropriations in this section are for the operations and expenses of the department of enterprise services as established by Engrossed Substitute Senate Bill No. 5931 (central service functions of state government), effective October 1, 2011. Prior to October 1, 2011, the appropriations in this section may be expended for the continued operations and expenses of the office of financial management, the department of general administration, the department of information services, and the department of personnel, pursuant to the expenditure authority schedules produced by the office of financial management, in accordance with chapter 43.88 RCW.

The department shall maintain an interagency agreement with these agencies to establish performance standards, prioritization of preservation and capital improvement projects, and quality assurance provisions for the delivery of services under this subsection. The legislative agencies named in this subsection shall continue to enjoy all of the same rights of occupancy and space use on the capitol campus as historically established.

3. In accordance with RCW 46.08.172 and 43.135.055, the department is authorized to increase parking fees in fiscal years 2012 and 2013 as necessary to meet the actual costs of conducting business.

both medicare and medicaid, the department and the authority may initiate the MICP. Participation in the project shall be limited to persons who are eligible for both medicare and medicaid and to counties in which the county legislative authority has agreed to the terms and conditions under which it will operate. The purpose of the project shall be to demonstrate and evaluate ways to improve care while reducing state expenditures for persons enrolled both in medicare and medicaid. To that end, prior to initiating the project, the department and the authority shall assure that state expenditures shall be no greater on either a per person or total basis than the state would otherwise incur. Individuals who are solely eligible for medicaid may also participate if their participation is agreed to by the health care authority, the department, and the county legislative authority.

(4) The legislature finds that medicaid payment rates, as calculated by the department pursuant to the appropriations in this act, bear a reasonable relationship to the costs incurred by efficiently and economically operated facilities for providing quality services and will be sufficient to enlist enough providers so that care and services are available to the general population in the geographic area. The legislature finds that cost reports, payment data from the federal government, historical utilization, economic data, and clinical input constitute reliable data upon which to determine the payment rates.

(5) The department shall to the maximum extent practicable use the same system for delivery of spoken-language interpreter services for social services appointments as the one established for medical appointments in section 213 of this act. When contracting directly with an individual to deliver spoken language interpreter services, the department shall only contract with language access providers who are working at a location in the state and who are state-certified or state-authorized, except that when such a provider is not available, the department may use a language access provider who meets other certifications or standards deemed to meet state standards, including interpreters in other states.

(6(a) The appropriations to the department of social and health services in this act shall be expended for the programs and in the amounts specified in this act. However, after May 1, (2012) 2013, unless specifically prohibited by this act, the department may transfer general fund--state appropriations for fiscal year (2013) 2013 among programs after approval by the director of financial management. However, the department shall not transfer state moneys that are provided solely for a specified purpose except as expressly provided in (b) of this subsection.

(b) To the extent that transfers under (a) of this subsection are insufficient to fund actual expenditures in excess of fiscal year (2012) 2013 caseload forecasts and utilization assumptions in the long-term care, foster care, adoptions support, medicaid personal care, and child support programs, the department may transfer state moneys that are provided solely for a specified purpose. The department shall not transfer funds, and the director of financial management shall not approve the transfer, unless the transfer is consistent with the objective of conserving, to the maximum extent possible, the expenditure of state funds. The director of financial management shall notify the appropriate fiscal committees of the senate and house of representatives in writing seven days prior to approving any allotment modifications or transfers under this subsection. The written notification shall include a narrative explanation and justification of the changes, along with expenditures and allotments by budget unit and appropriation, both before and after any allotment modifications or transfers.

General Fund—Federal Appropriation ($449,593,000)
General Fund—Private/Local Appropriation $1,167,864,000
Hospital Safety Net Assessment Fund—State Appropriation $5,251,000
TOTAL APPROPRIATION $1,109,077,000

The appropriations in this subsection are subject to the following conditions and limitations:

(a) $109,342,000 of the general fund—state appropriation for fiscal year 2012 and $109,341,000 of the general fund—state appropriation for fiscal year 2013 are provided solely for persons and services not covered by the medicaid program. This is a reduction of $4,348,000 each fiscal year from the nonmedicaid funding that was allocated for expenditure by regional support networks during fiscal year 2011 prior to supplemental budget reductions. This $4,348,000 reduction shall be distributed among regional support networks proportional to each network's share of the total state population. To the extent possible, levels of regional support network spending shall be maintained in the following priority order: (i) Crisis and commitment services; (ii) community inpatient services; and (iii) residential care services, including personal care and emergency housing assistance.

(b) $6,590,000 of the general fund—state appropriation for fiscal year 2012, $6,590,000 of the general fund—federal appropriation for fiscal year 2013, and $7,620,000 of the general fund—federal appropriation are provided solely for the department and regional support networks to continue to contract for implementation of high-intensity programs for assertive community treatment (PACT) teams. In determining the proportion of medicaid and nonmedicaid funding provided to regional support networks with PACT teams, the department shall consider the differences between regional support networks in the percentages of services and other costs associated with the teams that are not reimbursable under medicaid. The department may allow regional support networks which have nonmedicaid reimbursable costs that are higher than the nonmedicaid allocation they receive under this section to supplement these funds with local dollars or funds received under section 204(1)(a) of this act. The department and regional support networks shall maintain consistency with all essential elements of the PACT evidence-based practice model in programs funded under this section.

(c) $5,850,000 of the general fund—state appropriation for fiscal year 2012, $5,850,000 of the general fund—state appropriation for fiscal year 2013, and $1,300,000 of the general fund—federal appropriation are provided solely for the western Washington regional support networks to provide either community- or hospital campus-based services for persons who require the level of care previously provided by the program for adaptive living skills (PALS) at western state hospital.

(d) The number of nonforensic beds allocated for use by regional support networks at eastern state hospital shall be 192 per day. The number of nonforensic beds allocated for use by regional support networks at western state hospital shall be 557 per day.

(e) From the general fund—state appropriations in this subsection, the secretary of social and health services shall assure that regional support networks reimburse the aging and disability services administration for the general fund—state cost of medicaid personal care services that enrolled regional support network consumers use because of their psychiatric disability.

(f) The number of nonforensic beds allocated for use by regional support networks, for children's long-term inpatient facility services.

(g) $70,000 of the general fund—state appropriation for fiscal year 2012 and $750,000 of the general fund—state appropriation for fiscal year 2013 are provided solely to continue performance-based incentive contracts to provide appropriate community support services for individuals with severe mental illness who were discharged from the state hospitals as part of the expanding community services initiative. These funds will be used to enhance community residential and support services provided by regional support networks through other state and federal funding.

(h) $1,125,000 of the general fund—state appropriation for fiscal year 2012 and $1,125,000 of the general fund—state appropriation for fiscal year 2013 are provided solely for the Spokane regional support network to implement services to reduce utilization and the census at eastern state hospital. Such services shall include:

(i) High intensity treatment team for persons who are high utilizers of psychiatric inpatient services, including those with co-occurring disorders and other special needs;

(ii) Crisis outreach and diversion services to stabilize in the community individuals in crisis who are at risk of requiring inpatient care or jail services;

(iii) Mental health services provided in nursing facilities to individuals with dementia, and consultation to facility staff treating those individuals; and

(iv) Services at the sixteen-bed evaluation and treatment facility.

At least annually, the Spokane regional support network shall assess the effectiveness of these services in reducing utilization at eastern state hospital, identify services that are not optimally effective, and modify those services to improve their effectiveness.

(j) $1,529,000 of the general fund—state appropriation for fiscal year 2012 and $1,529,000 of the general fund—state appropriation for fiscal year 2013 are provided solely to reimburse Pierce and Spokane counties for the cost of conducting 180-day commitment hearings at the state psychiatric hospitals.

(k) Regional support networks may use local funds to earn additional federal medicaid match, provided the locally matched rate does not exceed the upper-bound of their federally allowable rate range, and provided that the enhanced funding is used only to provide medicaid state plan or waiver services to medicaid clients. Additionally, regional support networks may use a portion of the state funds allocated in accordance with (a) of this subsection to earn additional medicaid match, but only to the extent that the application of such funds to medicaid services does not diminish the level of crisis and commitment, community inpatient, residential care, and
outpatient services presently available to persons not eligible for medicaid.

1. Given the recent approval of federal medicaid matching funds for the disability lifeline and the alcohol and drug abuse treatment support act programs, the department shall charge regional support networks for only the state share rather than the total cost of community psychiatric hospitalization for persons enrolled in those programs.

2. $750,000 of the general fund--state appropriation for fiscal year 2012, $750,000 of the general fund--state appropriation for fiscal year 2013, and $1,500,000 of the general fund--federal appropriation are provided solely to adjust regional support network capitation rates to account for the per diem rates actually paid for psychiatric care provided at hospitals participating in the certified public expenditure program operated pursuant to section 213 of this act.

3. The appropriations in this section reflect efficiencies to be achieved through voluntary consolidation of regional support networks in accordance with Substitute House Bill No. 2139 (regional support networks). The department's fee schedule shall have differential rates for providers with proof of accreditation from organizations that the department has determined to have substantially equivalent standards to those of the
department, including but not limited to the joint commission on accreditation of health care organizations, the commission on accreditation of rehabilitation facilities, and the council on accreditation. Sec. 1206. 2012 2nd sp.s. c 7 s 206 (uncodified) is amended to read as follows:

FOR THE DEPARTMENT OF SOCIAL AND HEALTH SERVICES--AGING AND ADULT SERVICES PROGRAM

General Fund--State Appropriation (FY 2012) $791,493,000
General Fund--State Appropriation (FY 2013) $(809,338,000)

General Fund--Federal Appropriation $(1,690,993,000)

General Fund--Private/Local Appropriation $(1,686,091,000)

General Fund--Private/Local Appropriation $(27,517,000)

Traumatic Brain Injury Account--State Appropriation $3,388,000

Nursing Facility Quality Assurance Account--State Appropriation $88,000,000

TOTAL APPROPRIATION $(3,410,729,000)

The appropriations in this section are subject to the following conditions and limitations:

(1) For purposes of implementing chapter 74.46 RCW, the weighted average nursing facility payment rate shall not exceed $170.37 for fiscal year 2012 and shall not exceed $171.43 for fiscal year 2013, including the rate add-ons described in (a) and (b) of this subsection. However, if the waiver requested from the federal centers for medicare and medicaid services in relation to the safety net assessment created by Engrossed Substitute Senate Bill No. 5581 (nursing home payments) is for any reason not approved and implemented, the weighted average nursing facility payment rate...
shall not exceed $159.87 for fiscal year 2012 and shall not exceed $160.93 for fiscal year 2013. There will be no adjustments for economic trends and conditions in fiscal years 2012 and 2013. The economic trends and conditions factor or factors defined in the biennial appropriations act shall not be compounded with the economic trends and conditions factor or factors defined in any other biennial appropriations acts before applying it to the component rate allocations established in accordance with chapter 74.46 RCW. When no economic trends and conditions factor for either fiscal year is defined in a biennial appropriations act, no economic trends and conditions factor or factors defined in any earlier biennial appropriations act shall be applied solely or compounded to the component rate allocations established in accordance with chapter 74.46 RCW.

(a) Within the funds provided, the department shall continue to provide an add-on per medicaid resident day per facility not to exceed $1.57. The add-on shall be used to increase wages, benefits, and/or staffing levels for certified nurse aides; or to increase wages and/or benefits for dietary aides, housekeepers, laundry aides, or any other category of worker whose statewide average dollars-per-hour wage was less than $15 in calendar year 2008, according to cost report data. The add-on may also be used to address resulting wage compression for related job classes immediately affected by wage increases to low-wage workers. The department shall continue reporting requirements and a settlement process to ensure that the funds are spent according to this subsection.

(b) The department shall do a comparative analysis of the facility-based payment rates calculated on July 1, 2012, using the payment methodology defined in chapter 74.46 RCW and as funded in the omnibus appropriations act, excluding the comparative add-on, acuity add-on, and safety net reimbursement, to the facility-based payment rates in effect June 30, 2010. If the facility-based payment rate calculated on July 1, 2012, is smaller than the facility-based payment rate on June 30, 2010, then the difference shall be provided to the individual nursing facilities as an add-on payment per medicaid resident day.

(c) During the comparative analysis performed in subsection (b) of this section, if it is found that the direct care rate for any facility calculated using the payment methodology defined in chapter 74.46 RCW and as funded in the omnibus appropriations act, excluding the comparative add-on, acuity add-on, and safety net reimbursement, is greater than the direct care rate in effect on June 30, 2010, then the facility shall receive a ten percent direct care rate add-on to compensate that facility for taking on more acute clients than they have in the past.

(d) The department shall provide a medicaid rate add-on to reimburse the medicaid share of the skilled nursing facility safety net assessment as a medicaid allowable cost. The nursing facility safety net rate add-on may not be included in the calculation of the annual statewide weighted average nursing facility payment rate.

(e) If the waiver requested from the federal centers for medicare and medicaid services in relation to the safety net assessment created by Engrossed Substitute Senate Bill No. 5581 (nursing home payments) is for any reason not approved and implemented, (b), (c), and (d) of this subsection do not apply.

(2) After examining actual nursing facility cost information, the legislature finds that the medicaid nursing facility rates calculated pursuant to Engrossed Substitute Senate Bill No. 5581 (nursing home payments) provide sufficient reimbursement to efficiently and economically operating nursing facilities and bear a reasonable relationship to costs.

(3) In accordance with chapter 74.46 RCW, the department shall issue no additional certificates of capital authorization for fiscal year 2012 and no new certificates of capital authorization for fiscal year 2013 and shall grant no rate add-ons to payment rates for capital improvements not requiring a certificate of need and a certificate of capital authorization for fiscal years 2012 and 2013.

(4) The long-term care program may develop and pay enhanced rates for exceptional care to nursing homes for persons with traumatic brain injuries who are transitioning from hospital care. The cost per patient day for caring for these clients in a nursing home setting may be equal to or less than the cost of caring for these clients in a hospital setting.

(5) Amounts appropriated in this section reflect a reduction to funds appropriated for in-home care. The department shall reduce the number of in-home hours authorized. The reduction shall be scaled based on the acuity level of care recipients. The largest hour reductions shall be to lower acuity patients and the smallest hour reductions shall be to higher acuity patients.

If payments during the fiscal year are less than the baseline amount, the hospital will be paid a state grant equal to the difference between payments during the fiscal year and the applicable baseline amount. Payment of the state grant shall be made in the applicable fiscal year and distributed in monthly payments. The grants will be recalculated and redistributed as the baseline is updated during the fiscal year. The grant payments are subject to an interim settlement within eleven months after the end of the fiscal year. A final settlement shall be performed. The best practices and performance measures shall consist of the following items:

(a) Adoption of a system to exchange patient information among emergency room departments on a regional or statewide basis;

The declaration must also give consent for the authority to disclose feedback reports and performance measures on its web site. The authority shall submit a list of declaring hospitals to the relevant policy and fiscal committees of the legislature by July 15, 2012.

If the authority does not receive by July 1, 2012, declarations from hospitals representing at least seventy-five percent of emergency room visits by medicaid clients in fiscal year 2010, the authority may implement a policy of nonpayment of medically unnecessary emergency room visits, with appropriate client and clinical safeguards such as exemptions and expedited prior authorization. The authority shall by January 15, 2013, perform a preliminary fiscal analysis of trends in implementing the best practices in this subsection, focusing on outlier hospitals with high rates of unnecessary visits by medicaid clients, high emergency room visit rates for patient review and coordination clients, low rates of completion of treatment plans for patient review and coordination clients assigned to the hospital, and high rates of prescribed long-acting opiates. In cooperation with the leadership of the hospital, medical, and emergency physician associations, additional efforts shall be focused on assisting those outlier hospitals and providers to achieve more substantial savings. The authority shall by January 15, 2013, will report to the legislature about whether assumed savings based on preliminary trend and forecasted data are on target and if additional best practices or other actions need to be implemented.

If necessary, pursuant to RCW 34.05.350(1)(c), the authority may employ emergency rulemaking to achieve the reductions assumed in the appropriations under this section.

Nothing in this subsection shall in any way impact the authority's ability to adopt and implement policies pertaining to the patient review and coordination program.

The department shall seek a medicaid state plan amendment to create a graduate medical education supplemental payment for services delivered to managed care recipients by University of Washington medicine and other public professional providers. This program shall be effective as soon as administratively possible and shall operate concurrently with the existing professional services supplemental payment program. Providers that participate in the graduate medical education supplemental payment program are not eligible to participate in the professional services supplemental payment program. The department shall apply federal rules for identifying the difference between current physician encounter and fee-for-service medicaid payments to participating providers and the applicable federal upper payment limit. Participating providers shall be solely responsible for providing the local funds required to obtain federal matching funds. Any incremental costs incurred by the department in the development, implementation, and maintenance of this program shall be the responsibility of the participating providers. Participating providers shall retain the full amount of supplemental payments provided under this program, net of any costs related to the program that are disallowed due to audits or litigation against the state.

The authority shall exclude antiretroviral drugs used to treat HIV/AIDS, antiviral medication that is used to kill or slow the growth of cancerous cells, antihemophilic drugs, insulin and other drugs to lower blood glucose, and immunosuppressive drugs from any formulary limitations implemented to operate within the appropriations provided in this section.

Within the amounts appropriated in this section, the health care authority and the department of social and health services shall implement the state option to provide health homes for enrollees with chronic conditions under section 2703 of the federal affordable care act. The total state match for enrollees who are dually-eligible for both medicare and medicaid and not enrolled in managed care shall be no more than the net savings to the state from the enhanced match rate for its medicare-only managed care enrollees under section 2703.

The health care authority shall not initiate any services that require expenditure of state general fund moneys unless expressly authorized in this act or other law. The health care authority may seek, receive, and spend, under RCW 43.79.260 through 43.79.282, federal moneys not anticipated in this act as long as the federal funding does not require expenditure of state moneys for the program in excess of amounts anticipated in this act. If the health care authority receives unanticipated unrestricted federal moneys, those moneys shall be spent for services authorized in this act or in any other legislation providing appropriation authority, and an equal amount of appropriated state general fund moneys shall lapse. Upon the lapsing of any moneys under this subsection, the office of financial management shall notify the legislative fiscal committees. As used in this subsection, “unrestricted federal moneys” includes block grants and other funds that federal law does not require to be spent on specifically defined projects or matched on a formula basis by state funds.

$66,000 of the general fund--state appropriation for fiscal year 2013 and $66,000 of the general fund--federal appropriation are provided solely to implement Engrossed Second Substitute House Bill No. 2536 (children services/delivery). The department of social and health services' programs responsible for administration of mental health, child welfare, and juvenile justice programs will coordinate with the health care authority on the
development of contract terms which facilitate efforts to meet requirements of the bill. If the bill is not enacted by June 30, 2012, the amounts provided in this subsection shall lapse.

((533a) (48) The health care authority shall participate in the work group established by the department of corrections in section 220(2) of this act to review release options for elderly and infirm offenders.

The authority shall withdraw the medicaid state plan amendment to implement a wrap-around drug formulay.
