Establishing an economic gardening pilot program.

The measure was read the second time.

MOTION

Senator Chase moved that the following striking amendment no. 651 by Senators Chase and Brown be adopted:

Strike everything after the enacting clause and insert the following:

NEW SECTION. Sec. 1. (1) The legislature finds that:

(a) Washington's unemployment rate during the recent recession created economic and social hardships for the people of the state;

(b) Local start-up companies and small businesses are likely, as they grow, to remain in their communities of origin, thereby creating local jobs and an economic multiplier effect with their payrolls and taxes while providing local economic stimuli, which increases the local tax base;

(c) Statewide economic prosperity and job creation are advanced significantly by creating, promoting, and retaining local start-up companies and small businesses with high growth potential;

(d) Entrepreneurs and small business owners of second-stage companies, which are those companies that are beyond the start-up stage but have not yet fully matured, with innovative products or services that satisfy market needs, have particular potential for
expansion and job creation;

(e) Such entrepreneurs and owners can benefit from specialized business assistance to refine core strategies and from access to in-depth market research, competitor analyses, geographic information systems, search engine optimization, and other strategic information, as well as from relationships with mentors and advisers;

(f) The aspects of economic gardening that incorporate these principles have proven successful in improving the entrepreneurial process and promoting economically sustainable local businesses; and

(g) It is important to the overall health and growth of the state's economy to promote favorable conditions for those expanding Washington businesses that demonstrate the ability to grow.

(2) In recognition of the foregoing findings and principles, it is the intent of the legislature to create a Washington economic gardening pilot project in the department of commerce.

NEW SECTION. Sec. 2. A new section is added to chapter 43.31 RCW to read as follows:

(1) There is hereby created within the department the economic gardening pilot project. The purpose of the pilot project is to stimulate Washington's economy and create good-paying, sustainable jobs by providing economic gardening strategic assistance services to second-stage companies in accordance with this section.

(2) The department must oversee and direct all resources for the execution of the pilot project. The department must work with chambers of commerce, associate development organizations, or other economic development organizations to implement the pilot project. The pilot project includes developing the processes for qualifying and selecting second-stage companies, identifying training components for economic development organizations implementing the pilot project, engaging trained and certified economic gardening private contractors as necessary, and providing economic gardening strategic assistance to companies participating in the pilot project.

(3)(a) On or before January 1, 2017, the department must initiate a program to provide or obtain all necessary credentials for high-impact strategic assistance for the economic development organizations participating in the pilot project.

(b) Prior to the date that strategic assistance is provided pursuant to this subsection (3):

(i) Economic development organizations participating in the pilot project must be certified in economic gardening by a nationally recognized certifying entity identified by the department; and

(ii) The department or economic development organizations participating in the pilot project must, as necessary, contract with trained and certified economic gardening private contractors.

(c) After pilot project staff members are certified under (b) of this subsection, the department must use the existing infrastructure of economic development organizations to promote the pilot project to second-stage companies and to those clients and referrals that show growth potential in jobs, sales, or export potential.

(4)(a) On or before January 1, 2017, the department and participating economic development organizations must publish criteria for a second-stage company to be selected to participate in the pilot project. The criteria must include job growth potential, sustainability, export potential, and a workforce comprised of at least fifty percent Washington residents. Application criteria must also include requirements for data collection, as specified by the department, to show the impacts of services provided through the pilot project. The department and participating economic development organizations must identify second-stage companies eligible to participate by utilizing existing strategic infrastructure and by consulting with local and regional economic development partners, such as chambers of commerce associate development organizations, and other local or regional economic development entities.

(b) In order to participate in the pilot project, a company selected for participation must pay a one-time fee of seven hundred fifty dollars, which moneys must be deposited into the economic gardening pilot project fund, created in subsection (5) of this section, for reinvestment in the pilot project.

(c) On or before March 1, 2017, the department and participating economic development organizations must select a minimum of twenty companies to participate in the pilot project.

(d) The department must oversee staff members certified pursuant to (b) of this subsection or certified private contractors to deploy strategic assistance to all pilot project participants. The department and participating economic development organizations must acquire any tools necessary to provide the strategic assistance, including database licenses, permits, and economic gardening certification.

(e) A participating company has twelve months from the date that the department and participating economic development organizations select the company to participate in the pilot project to use the strategic assistance and other economic gardening services offered pursuant to the pilot project.

(5) There is hereby created in the state treasury the economic gardening pilot project fund, to be administered by the department. The fund consists of all fees received under subsection (4)(b) of this section and any moneys appropriated by the legislature for the purposes of this section. The legislature must make annual appropriations of the moneys in the fund to the department for administering the pilot project. Any moneys in the fund not appropriated must remain in the fund and may not be transferred or revert to the general fund at the end of any fiscal year.

(6) On or before November 1, 2017, and on or before November 1st each year thereafter through November 1, 2019, and in compliance with RCW 43.01.036 the department must submit a report to the economic and workforce development committees of the legislature. The report must include, at a minimum:

PROFESSIONAL LEARNING DAYS"

"NEW SECTION. Sec. 501. The legislature finds that the Washington state institute for public policy reported that content-specific professional development is much more effective than general training. The goal of the legislature is to provide a sufficient number of professional learning days necessary to meet the needs in Washington's schools and to designate the professional learning days to be part of basic education.

Sec. 502. RCW 28A.150.200 and 2009 c 548 s 101 are each amended to read as follows:

(1) The program of basic education established under this chapter is deemed by the legislature to comply with the requirements of Article IX, section 1 of the state Constitution, which states that "It is the paramount duty of the state to make ample provision for the education of all children residing within its borders, without distinction or preference on account of race, color, caste, or sex," and is adopted pursuant to Article IX, section 2 of the state Constitution, which states that "The legislature shall provide for a general and uniform system of public schools."

(2) The legislature defines the program of basic education under this chapter as that which is necessary to provide the development and skills necessary to meet the state-established high school graduation requirements that are intended to allow students to have the opportunity to graduate with a meaningful diploma that prepares them for postsecondary education, gainful employment, and citizenship. Basic education by necessity is an evolving program of instruction intended to reflect the changing educational opportunities that are needed to equip students for their role as productive citizens and includes the following:

(a) The instructional program of basic education the minimum components of which are described in RCW 28A.150.220;

(b) The program of education provided by chapter 28A.190 RCW for students in residential schools as defined by RCW 28A.190.020 and for juveniles in detention facilities as identified by RCW 28A.190.010;

(a) Beginning in the 2016-17 school year, the legislature shall annually provide additional time and resources for high quality, content-specific, professional learning days for each state-funded certificated instructional staff, paraeducator, and school building-based administrator to increase knowledge and skills in the areas of current and future educational reforms. The minimum funding for a professional learning day must be equivalent to the aggregate amount provided for the state-funded salaries for each certificated instructional staff, paraeducator, and school-based administrator in the school district for one full school day. School districts must be required to expend the funds on professional learning activities but the learning is not required to be accomplished in one full school day and it may be organized in whatever time blocks the district chooses so long as the total time equates to one full school day. The learning improvement day must take place outside of the minimum one hundred eighty-day school calendar.

(b) For the 2016-17 school year, the funds provided for a professional learning day must be used for professional development that addresses either the school district or individual building goals.

(2) The superintendent of public instruction shall adopt rules to implement this section.

(3) The funding provided under this section shall be deemed to be part of the legislature's definition of basic education under Article IX of the state Constitution."

(2) Upon receipt of an application for a permit to establish or modify a solid waste handling facility, the jurisdictional health department shall refer one copy of the application to the department which shall report its findings to the jurisdictional health department. When the application is for a permit to establish or modify a solid waste handling facility located in an area that is not under a quarantine, as defined in RCW 17.24.007, and when the facility will receive material for composting from an area under a quarantine, the jurisdictional health department shall also provide a copy of the application to the department of agriculture. The department of agriculture shall review the application to determine whether it contains information demonstrating that the proposed facility presents a risk of spreading disease, plant pathogens, or pests to areas that are not under a quarantine. For the purposes of this subsection, "composting" means the biological degradation and transformation of organic solid waste under controlled conditions designed to promote aerobic decomposition.

(3) The jurisdictional health department shall investigate every application as may be necessary to determine whether a proposed or modified site and facilities meet all solid waste, air, and other applicable laws and regulations, and conforms with the approved comprehensive solid waste handling plan, and complies with all zoning requirements.

Sec. 6. RCW 70.95.300 and 1998 c 156 s 2 are each amended to read as follows:

(1) The department may by rule exempt a solid waste from the permitting requirements of this chapter for one or more beneficial uses. In adopting such rules, the department shall specify both the solid waste that is exempted from the permitting requirements and the beneficial use or uses for which the solid waste is so exempted. The department shall consider: (a) Whether the material will be beneficially used or reused; and (b) whether the beneficial use or reuse of the material will present threats to human health or the environment.

(2) The department may also exempt a solid waste from the permitting requirements of this chapter for one or more beneficial uses by approving an application for such an exemption. The department shall establish by rule procedures under which a person may apply to the department for such an exemption. The rules shall establish criteria for providing such an exemption, which shall include, but not be limited to: (a) The material will be beneficially used or reused; and (b) the beneficial use or reuse of the material will not present threats to human health or the environment. Rules adopted under this subsection shall identify the information that an application shall contain. Persons seeking such an exemption shall apply to the department under the procedures established by the rules adopted under this subsection.

(3) After receipt of an application filed under rules adopted under subsection (2) of this section, the department shall review the application to determine whether it is complete, and forward a copy of the completed application to all jurisdictional health departments and the department of agriculture for review and comment. Within forty-five days, the jurisdictional health departments and the department of agriculture shall forward to the department their comments and any other information they deem relevant to the department's decision to approve or disapprove the application. The department of agriculture's comments must be limited to addressing whether approving the application risks spreading disease, plant pathogens, or pests to areas that are not under a quarantine, as defined in RCW 17.24.007. Every complete application shall be approved or disapproved by the department within ninety days of receipt. If the application is approved by the department, the solid waste is exempt from the permitting requirements of this chapter when used anywhere in the state in the manner approved by the department. If the composition, use, or reuse of the solid waste is not consistent with the terms and conditions of the department's approval of the application, the use of the solid waste remains subject to the permitting requirements of this chapter.
(4) The department shall establish procedures by rule for providing to the public and the solid waste industry notice of and an opportunity to comment on each application for an exemption under subsection (2) of this section.

(5) Any jurisdictional health department or applicant may appeal the decision of the department to approve or disapprove an application under subsection (3) of this section. The appeal shall be made to the pollution control hearings board by filing with the hearings board a notice of appeal within thirty days of the decision of the department. The hearings board’s review of the decision shall be made in accordance with chapter 43.21B RCW and any subsequent appeal of a decision of the board shall be made in accordance with RCW 43.21B.180.

(6) This section shall not be deemed to invalidate the exemptions or determinations of nonapplicability in the department’s solid waste rules as they exist on June 11, 1998, which exemptions and determinations are recognized and confirmed subject to the department’s continuing authority to modify or revoke those exemptions or determinations by rule.

(b)(i) Maintain a funded reserve account for its obligations under its service contracts issued and outstanding in this state. The reserves shall not be less than forty percent of the gross consideration received, less claims paid, on the sale of the service contract for all in-force contracts. The reserve account shall be subject to examination and review by the commissioner; and

(ii) Place in trust with the commissioner a financial security deposit, having a value of not less than five percent of the gross consideration received, less claims paid, on the sale of the service contract for all service contracts issued and in force, but not less than twenty-five thousand dollars, consisting of one of the following:

If the service contract provider's parent company's form 10-K, form 20-F, or audited financial statements are filed with the commissioner to meet the service contract provider's financial stability requirement, then the parent company shall agree to guarantee the obligations of the service contract provider relating to service contracts sold by the service contract provider in this state. A copy of the guarantee shall be filed with the commissioner. The guarantee shall be irrevocable as long as there is in force in this state any contract or any obligation arising from service contracts guaranteed, unless the parent company has made arrangements approved by the commissioner to satisfy its obligations under the guarantee.

(3) Service contracts shall require the service contract provider to permit the service contract holder to return the service contract within twenty days of the date the service contract was mailed to the service contract holder or within ten days of delivery if the service contract is delivered to the service contract holder at the time of sale, or within a longer time period permitted under the service contract. (c) The service of process must be accomplished and processed in the manner prescribed under RCW 48.02.200.

(5) The commissioner may refuse to issue a registration if the commissioner determines that the protection product guarantee provider, or any individual responsible for the conduct of the affairs of the protection product guarantee provider under subsection (3)(a) of this section, is not competent, trustworthy, financially responsible, or has had a license as a protection product guarantee provider or similar license denied or revoked for cause by any state.

(6) A registration issued under this section is valid, unless surrendered, suspended, or revoked by the commissioner, or not renewed for so long as the protection product guarantee provider continues in business in this state and remains in compliance with this chapter.
