SECOND READING

ENGROSSED SUBSTITUTE HOUSE BILL NO. 1136, by
House Committee on Environment (originally sponsored by
Representatives Dye, Blake, Haler, Shea, Taylor, Farrell, Dent,
Nealey, Manweller, Short, Muri, Schmick, Ormsby, Fey, Young
and Buys)

Exempting short-line railroads that haul nonfuel oils from oil
spill contingency planning requirements.

The measure was read the second time.

MOTION

Senator Sheldon moved that the following committee striking
amendment by the Committee on Energy, Environment &
Telecommunications be adopted:

Strike everything after the enacting clause and insert the
following:

"Sec. 821. RCW 90.56.210 and 2015 c 274 s 5 are each
amended to read as follows:

(1) Each onshore and offshore facility shall have a
contingency plan for the containment and cleanup of oil spills
from the facility into the waters of the state and for the protection
of fisheries and wildlife, shellfish beds, natural resources, and
public and private property from such spills. The department shall
by rule adopt and periodically revise standards for the preparation
of contingency plans. The department shall require contingency
plans, at a minimum, to meet the following standards:
(a) Include full details of the method of response to spills of
various sizes from any facility which is covered by the plan;
(b) Be designed to be capable in terms of personnel, materials,
and equipment, of promptly and properly, to the maximum extent
practicable, as defined by the department removing oil and
minimizing any damage to the environment resulting from a
worst case spill;
(c) Provide a clear, precise, and detailed description of how
the plan relates to and is integrated into relevant contingency
plans which have been prepared by cooperatives, ports, regional
entities, the state, and the federal government;
(d) Provide procedures for early detection of oil spills and
timely notification of such spills to appropriate federal, state, and
local authorities under applicable state and federal law;
(e) State the number, training preparedness, and fitness of all
dedicated, prepositioned personnel assigned to direct and
implement the plan;
(f) Incorporate periodic training and drill programs to
evaluate whether personnel and equipment provided under the
plan are in a state of operational readiness at all times;
(g) Describe important features of the surrounding
environment, including fish and wildlife habitat, shellfish beds,
environmentally and archaeologically sensitive areas, and public
facilities. The departments of ecology, fish and wildlife, and
natural resources, and the department of archaeology and historic
preservation, upon request, shall provide information that they
have available to assist in preparing this description. The
description of archaeologically sensitive areas shall not be
required to be included in a contingency plan until it is reviewed
and updated pursuant to subsection (9) of this section;
(h) State the means of protecting and mitigating effects on the
environment, including fish, shellfish, marine mammals, and
other wildlife, and ensure that implementation of the plan does
not pose unacceptable risks to the public or the environment;
(i) Provide arrangements for the prepositioning of oil spill
containment and cleanup equipment and trained personnel at
strategic locations from which they can be deployed to the spill
site to promptly and properly remove the spilled oil;
(j) Provide arrangements for enlisting the use of qualified and
trained cleanup personnel to implement the plan;
(k) Provide for disposal of recovered spilled oil in accordance
with local, state, and federal laws;
(l) Until a spill prevention plan has been submitted pursuant
to RCW 90.56.200, state the measures that have been taken to
reduce the likelihood that a spill will occur, including but not
limited to, design and operation of a facility, training of
personnel, number of personnel, and backup systems designed to
prevent a spill;
(m) State the amount and type of equipment available to
respond to a spill, where the equipment is located, and the extent
to which other contingency plans rely on the same equipment; and
(n) If the department has adopted rules permitting the use of
dispersants, the circumstances, if any, and the manner for the
application of the dispersants in conformance with the
department's rules.

(2)(a) The following shall submit contingency plans to the
department within six months after the department adopts rules
establishing standards for contingency plans under subsection (1)
of this section:
(i) Offshore facilities.
(ii) Onshore facilities capable of storing one million gallons or
more of oil; and
(iii) Offshore facilities.
(b) Contingency plans for all other onshore and offshore
facilities shall be submitted to the department within eighteen
months after the department has adopted rules under subsection
(1) of this section. The department may adopt a schedule for
submission of plans within the eighteen-month period.

(3)(a) The department by rule shall determine the contingency
plan requirements for railroads transporting oil in bulk.
(b) For class III railroads transporting oil in bulk that is not
crude oil in an amount of forty-nine or more tank car loads per
year, the rules adopted under this subsection may not require
contingency plans to include:
(i) Contracted access to oil spill response equipment; or
(ii) The completion of more than a total of one basic table-top
drill every three years to test the contingency plans.
(c) For class III railroads transporting oil in bulk that is not
crude oil in an amount less than forty-nine tank car loads per
year, rules adopted under this subsection may only require railroads to
submit a basic contingency plan to the department. A basic
contingency plan filed under this subsection (3)(c) must be
limited to requiring the class III railroads to:
(i) Keep documentation of the basic contingency plan on file
with the department at the plan holder's principal place of
business and at dispatcher field offices of the railroad;
(ii) Identify and include contact information for the chain of
command and other personnel, including employees or spill
response contractors, who will be involved in the railroad's
response in the event of a spill;
(iii) Include information related to the relevant accident
insurance carried by the railroad and provide a certificate of
insurance upon request;
(iv) Develop a field document for use by personnel involved
in oil handling operations that includes time-critical information
regarding basic contingency plan procedures to be used in the
initial response to a spill or a threatened spill; and
(v) Annually review the plan for accuracy.
(d) Federal oil spill response plans created pursuant to 33 U.S.C. Sec. 1321 may be submitted in lieu of contingency plans (until state rules are adopted) by a class III railroad transporting oil in bulk that is not crude oil.

(e) For the purposes of this section, "class III railroad" has the same meaning as defined by the United States surface transportation board as of January 1, 2017.

(4)(a) The owner or operator of a facility shall submit the contingency plan for the facility.

(b) A person who has contracted with a facility to provide containment and cleanup services and who meets the standards established pursuant to RCW 90.56.240, may submit the plan for any facility for which the person is contractually obligated to provide services. Subject to conditions imposed by the department, the person may submit a single plan for more than one facility.

(5) A contingency plan prepared for an agency of the federal government or another state that satisfies the requirements of this section and rules adopted by the department may be accepted by the department as a contingency plan under this section. The department shall ensure that to the greatest extent possible, requirements for contingency plans under this section are consistent with the requirements for contingency plans under federal law.

(6) In reviewing the contingency plans required by this section, the department shall consider at least the following factors:

(a) The adequacy of containment and cleanup equipment, personnel, communications equipment, notification procedures and call down lists, response time, and logistical arrangements for coordination and implementation of response efforts to remove oil spills promptly and properly and to protect the environment;

(b) The nature and amount of vessel traffic within the area covered by the plan;

(c) The volume and type of oil being transported within the area covered by the plan;

(d) The existence of navigational hazards within the area covered by the plan;

(e) The history and circumstances surrounding prior spills of oil within the area covered by the plan;

(f) The sensitivity of fisheries, shellfish beds, and wildlife and other natural resources within the area covered by the plan;

(g) Relevant information on previous spills contained in on-scene coordinator reports prepared by the department; and

(h) The extent to which reasonable, cost-effective measures to prevent a likelihood that a spill will occur have been incorporated into the plan.

(7) The department shall approve a contingency plan only if it determines that the plan meets the requirements of this section and that, if implemented, the plan is capable, in terms of personnel, materials, and equipment, of removing oil promptly and properly and minimizing any damage to the environment.

(8) The approval of the contingency plan shall be valid for five years. Upon approval of a contingency plan, the department shall provide to the person submitting the plan a statement indicating that the plan has been approved, the facilities or vessels covered by the plan, and other information the department determines should be included.

(9) An owner or operator of a facility shall notify the department in writing immediately of any significant change of which it is aware affecting its contingency plan, including changes in any factor set forth in this section or in rules adopted by the department. The department may require the owner or operator to update a contingency plan as a result of these changes.

On page 1, line 2 of the title, after "requirements;" strike the remainder of the title and insert "and amending RCW 90.56.210."
