(2) The effort must include an analysis of the impacts of ending commercial marine net pen aquaculture of Atlantic salmon or other nonnative finfish in Washington concurrent with the expiration of applicable state-owned aquatic land leases in effect on the effective date of this section. The departments of ecology, natural resources, and fish and wildlife may collaborate with other relevant state agencies with subject matter expertise in order to effectuate the analysis. The analysis must consider the following:

(a) Natural resource impacts, both positive and negative;

(b) Projected job gains, losses, and broader economic impacts; and

(c) Impacts to other state programs and local governments, both positive and negative.

(3) The guidance, resources, and analysis must be completed by June 30, 2019.
