MESSAGE FROM THE HOUSE

April 6, 2021

MR. PRESIDENT:

The House passed SUBSTITUTE SENATE BILL NO. 5381 with the following amendment(s): 5381-S AMH ENVI H1302.1

Strike everything after the enacting clause and insert the following:

"Sec. 1. RCW 77.55.181 and 2020 c 166 s 1 are each amended to read as follows:

(1)(a) In order to receive the permit review and approval process created in this section, a fish habitat enhancement project must meet the criteria under this section and must be a project to accomplish one or more of the following tasks:

(i) Elimination of human-made or caused fish passage barriers, including:

(A) Culvert repair and replacement; and

(B) Fish passage barrier removal projects that comply with the forest practices rules, as the term "forest practices rules" is defined in RCW 76.09.020;

(ii) Restoration of an eroded or unstable stream bank employing the principle of bioengineering, including limited use of rock as a stabilization only at the toe of the bank, and with primary emphasis on using native vegetation to control the erosive forces of flowing water;

(iii) Placement of woody debris or other instream structures that benefit naturally reproducing fish stocks; or

(iv) Restoration of native kelp and eelgrass beds and restoring native oysters.

(b) The department shall develop size or scale threshold tests to determine if projects accomplishing any of these tasks should be evaluated under the process created in this section or under other project review and approval processes. A project proposal shall not be reviewed under the process created in this section if the department determines that the scale of the project raises concerns regarding public health and safety.

(c) A fish habitat enhancement project must be approved in one of the following ways in order to receive the permit review and approval process created in this section:

(i) By the department pursuant to chapter 77.95 or 77.100 RCW;

(ii) By the sponsor of a watershed restoration plan as provided in chapter 89.08 RCW;

(iii) By the department as a department-sponsored fish habitat enhancement or restoration project;

(iv) Through the review and approval process for the jobs for the environment program;

(v) By conservation districts as conservation district-sponsored fish habitat enhancement or restoration projects;

(vi) Through a formal grant program established by the legislature or the department for fish habitat enhancement or restoration;

(vii) By federally recognized tribes as tribally sponsored fish habitat enhancement projects or restoration projects;

(viii) Through the department of transportation's environmental retrofit program as a stand-alone fish passage barrier correction project, or the fish passage barrier correction portion of a larger transportation project;

(ix) Through a local, state, or federally approved fish barrier removal grant program designed to assist local governments in implementing stand-alone fish passage barrier corrections;

(x) By a city or county for a stand-alone fish passage barrier correction project funded by the city or county;

(xi) Through the approval process established for forest practices hydraulic projects in chapter 76.09 RCW; or

(xii) Through other formal review and approval processes established by the legislature.

(2) Fish habitat enhancement projects meeting the criteria of subsection (1) of this section are expected to result in beneficial impacts to the environment. Decisions pertaining to fish habitat enhancement projects meeting the criteria of subsection (1) of this section and being reviewed and approved according to the provisions of this section are not subject to the requirements of RCW 43.21C.030(2)(c).

(3)(a) A permit is required for projects that meet the criteria of subsection (1) of this section and are being reviewed and approved under this section. An applicant shall use a joint aquatic resource permit application form developed by the office of regulatory assistance to apply for approval under this chapter. The department of transportation shall use the department's online permit application system or a joint aquatic resource permit application form developed by the office of regulatory assistance to apply for approval under this chapter. On the same day, the applicant shall provide copies of the completed application form to the department and to each appropriate local government. Applicants for a forest practices hydraulic project that are not otherwise required to submit a joint aquatic resource permit application must submit a copy of their forest practices application to the appropriate local government on the same day that they submit the forest practices application to the department of natural resources.

(b) Local governments shall accept the application identified in this section as notice of the proposed project. A local government shall be provided with a fifteen-day 15-day comment period during which it may transmit comments regarding environmental impacts to the department or, for forest practices hydraulic projects, to the department of natural resources.

(c)(1) Except for forest practices hydraulic projects, the department shall, within 45 days, either issue a permit, with or without conditions, deny approval, or make a determination that the review and approval process created by this section is not appropriate for the proposed project. The department shall base this determination on identification during the comment period of adverse impacts that cannot be
mitigated by the conditioning of a permit. Permitting decisions over forest practices hydraulic approvals must be made consistent with chapter 76.09 RCW.

(ii) For department of transportation fish passage barrier correction projects, the department of fish and wildlife shall, within 30 days, either issue a permit, with or without conditions, deny approval, or make a determination that the review and approval process created by this section is not appropriate for the proposed project.

(d) If the department determines that the review and approval process created by this section is not appropriate for the proposed project, the department shall notify the applicant and the appropriate local governments of its determination. The applicant may reapply for approval of the project under other review and approval processes.

(e) Any person aggrieved by the approval, denial, conditioning, or modification of a permit other than a forest practices hydraulic project under this section may appeal the decision as provided in RCW 77.55.021(8). Appeals of a forest practices hydraulic project may be made as provided in chapter 76.09 RCW.

(4) No local government may require permits or charge fees for fish habitat enhancement projects that meet the criteria of subsection (1) of this section and that are reviewed and approved according to the provisions of this section, except that, pursuant to chapter 86.16 RCW, a local government may impose such requirements, or charge such fees, or both, only as may be necessary in order for the local government to administer the national flood insurance program regulation requirements.

(5) No civil liability may be imposed by any court on the state or its officers and employees for any adverse impacts resulting from a fish enhancement project permitted by the department or the department of natural resources under the criteria of this section except upon proof of gross negligence or willful or wanton misconduct.

Sec. 2. RCW 90.58.147 and 2019 c 150 s 2 are each amended to read as follows:

1. A public or private project that is designed to improve fish or wildlife habitat or fish passage shall be exempt from the substantial development permit requirements of this chapter when all of the following apply:

(a) The project has been approved by the department of fish and wildlife or, for forest practices hydraulic projects within the scope of RCW 77.55.181, the department of natural resources if the local government notification provisions of RCW 77.55.181 are satisfied;

(b) The project has received hydraulic project approval by the department of fish and wildlife pursuant to chapter 77.55 RCW or approval of a forest practices hydraulic project within the scope of RCW 77.55.181 from the department of natural resources if the local government notification provisions of RCW 77.55.181 are satisfied; and

(c) The local government has determined that the project is substantially consistent with the local shoreline master program. The local government shall make such determination in a timely manner and provide it by letter to the project proponent.

2. Fish habitat enhancement projects that conform to the provisions of RCW 77.55.181 are determined to be consistent with local shoreline master programs.

3. Public projects for the primary purpose of fish passage improvement or fish passage barrier removal are exempt from the substantial development permit requirements of this chapter.

Sec. 3. RCW 47.85.020 and 2015 3rd sp.s. c 17 s 3 are each amended to read as follows:

The department must streamline the permitting process by developing and maintaining positive relationships with the regulatory agencies and the Indian tribes. The department can reduce the time it takes to obtain permits by incorporating impact avoidance and minimization measures into project design and by developing complete permit applications. To streamline the permitting process, the department must:

1. Implement a multiagency permit program, commensurate with program funding levels, consisting of appropriate regulatory agency staff with oversight and management from the department.

(a) The multiagency permit program must provide early project coordination, expedited project review, project status updates, technical and regulatory guidance, and construction support to ensure compliance.

(b) The multiagency permit program staff must assist department project teams with developing complete biological assessments and permit applications, provide suggestions for how the project can avoid and minimize impacts, and provide input regarding mitigation for unavoidable impacts;

2. Establish, implement, and maintain programmatic agreements and permits with federal and state agencies to expedite the process of ensuring compliance with the endangered species act, section 106 of the national historic preservation act, hydraulic project approvals, the clean water act, and other federal acts as appropriate;

3. Collaborate with permitting staff from the United States army corps of engineers, Seattle district, department of ecology, and department of fish and wildlife to develop, implement, and maintain complete permit application guidance. The guidance must identify the information that is required for agencies to consider a permit application complete; 

4. Perform internal quality assurance and quality control to ensure that permit applications are complete before submitting them to the regulatory agencies; and

5. Implement a multiagency effort, in coordination with the department of ecology and the department of fish and wildlife, and work with the relevant federal environmental permitting agencies to streamline the acquisition of commonly needed environmental permits and approvals for department of transportation fish passage barrier correction projects. Expected results include developing programmatic permit options that simplify the application process, reduce paperwork, and reduce the amount of time and cost it takes to acquire these permits and approvals."

MESSAGE FROM THE HOUSE

April 9, 2021

MR. PRESIDENT:

The House passed SENATE BILL NO. 5430 with the following amendment(s): 5430 AMH CWD H1375.1

Strike everything after the enacting clause and insert the following:

"Sec. 1. RCW 28B.95.030 and 2018 c 188 s 2 are each amended to read as follows:

(1) The Washington advanced college tuition payment program shall be administered by the committee on advanced tuition payment which shall be chaired by the director of the office. The committee shall be supported by staff of the office.

(2)(a) The Washington advanced college tuition payment program shall consist of the sale of tuition units, which may be redeemed by the beneficiary at a future date for an equal number of tuition units regardless of any increase in the price of tuition, that may have occurred in the interval, except as provided in subsections (((7))) (9) and (((8))) (10) of this section.

(b) Each purchase shall be worth a specific number of or fraction of tuition units at each state institution of higher education as determined by the governing body, except as provided in subsections (((7))) (9) and (((8))) (10) of this section.

(c) The number of tuition units necessary to pay for a full year's, full-time undergraduate tuition and fee charges at a state institution of higher education shall be set by the governing body at the time a purchaser enters into a tuition unit contract, except as provided in subsections (((7))) (9) and (((8))) (10) of this section.

(d) The governing body may limit the number of tuition units purchased by any one purchaser or on behalf of any one
beneficiary, however, no limit may be imposed that is less than that necessary to achieve four years of full-time, undergraduate tuition charges at a state institution of higher education. The governing body also may, at its discretion, limit the number of participants, if needed, to ensure the actuarial soundness and integrity of the program.

(e) While the Washington advanced college tuition payment program is designed to help all citizens of the state of Washington, the governing body may determine residency requirements for eligible purchasers and eligible beneficiaries to ensure the actuarial soundness and integrity of the program.

(3)(a) No tuition unit may be redeemed until two years after the purchase of the unit.

(b) Units may be redeemed for enrollment at any institution of higher education that is recognized by the internal revenue service under chapter 529 of the internal revenue code. Units may also be redeemed to pay for dual credit fees.

(c) Units redeemed at a nonstate institution of higher education or for graduate enrollment shall be redeemed at the rate for state public institutions in effect at the time of redemption.

(4) The governing body shall determine the conditions under which the tuition benefit may be transferred to another family member. In permitting such transfers, the governing body may not allow the tuition benefit to be bought, sold, bartered, or otherwise exchanged for goods and services by either the beneficiary or the purchaser.

(5) The governing body shall administer the Washington advanced college tuition payment program in a manner reasonably designed to be actuarially sound, such that the assets of the trust will be sufficient to defray the obligations of the trust including the costs of administration. The governing body may, at its discretion, discount the minimum purchase price for certain kinds of purchases such as those from families with young children, as long as the actuarial soundness of the account is not jeopardized.

(6) The governing body shall annually determine current value of a tuition unit.

(7) The governing body shall adopt a unit price of no more than 10 percent, including administrative fees, above the current unit payout value if:

(a) The best estimate funded status of the program provided by the state actuary is in excess of at least 120 percent as of July 1st of each year; and

(b) Tuition and fee increases for the academic year immediately following the July 1st best estimate funded status will be no more than the average annual percentage growth rate in the median hourly wage for Washington for the previous 14 years as the wage is determined by the federal bureau of labor statistics.

(8) For units purchased at the 2020-21 unit price, the governing body shall grant additional units to each account holder equivalent to the difference between the 2020-21 unit price and the 2020-21 unit payout value, after adjusting the unit payout value 10 percent above the current price, including administrative fees, as determined by the governing body.

(9) For the 2015-16 and 2016-17 academic years only, the governing body shall set the payout value for units redeemed during that academic year only at one hundred seventeen dollars and eighty-two cents per unit. For academic years after the 2016-17 academic year, the governing body shall make program adjustments it deems necessary and appropriate to ensure that the total payout value of each account on October 9, 2015, is not decreased or diluted as a result of the initial application of any changes in tuition under section 3, chapter 36, Laws of 2015 3rd sp. sess. In the event the committee or governing body provides additional units under chapter 36, Laws of 2015 3rd sp. sess., the committee and governing body shall also increase the maximum number of units that can be redeemed in any year to mitigate the reduction in available account value during any year as a result of chapter 36, Laws of 2015 3rd sp. sess. The governing body must notify holders of tuition units after the adjustment in this subsection is made and must include a statement concerning the adjustment.

((40)) (10) The governing body shall allow account owners who purchased units before July 1, 2015, to redeem such units at the unit cash value price provided that all the redeemed funds are deposited immediately into an eligible Washington college savings program account established by the governing body. Within ninety days of April 15, 2018, the committee, in consultation with the state actuary and state investment board, shall:

(a) Establish a period that is not less than ninety days during which eligible purchasers may redeem units at the unit cash value price for the purposes of this subsection and provide at least thirty days' notice prior to the ninety-day window to all eligible account holders about the redemption option; and

(b) Establish the unit cash value price. The committee, in consultation with the state actuary and the state investment board, may revalue the unit cash value price established in this subsection ((40)) (10)(b) up to three times during the ninety-day period in which eligible purchasers may redeem units for the unit cash value price.

((40)) (11)(a) After the governing body completes the requirements of subsection ((40)) (10) of this section, the governing body shall adjust, by March 1, 2019, all remaining unredeemed units purchased before July 1, 2015, as follows:

(i) First, the governing body shall take the difference between the average unit purchase price in each individual's account and the 2016-17 unit payout value and increase the number of units in each individual's account by a number of units of equivalent total value at the 2017-18 unit purchase price, if the average unit purchase price is more than the 2016-17 unit payout value; and

(ii) Second, after (a)(i) of this subsection is completed, the governing body, with assistance from the state actuary, shall grant an additional number of units to each account holder with unredeemed and purchased units before July 1, 2015, in order to lower the best-estimate funded status of the program to one hundred twenty-five percent, subject to a limit of an increase of fifteen percent of unredeemed and purchased units per account holder. The state actuary shall select the measurement date, assumptions, and methods necessary to perform an actuarial measurement consistent with the purpose of this subsection.

(b) For the purpose of this subsection ((40)) (11), and for account holders with uncompleted custom monthly contracts, the governing body shall only include purchased and unredeemed units before July 1, 2015.

((40)) (12) The governing body shall collect an amortization fee as a component of each future unit sold whenever the governing body determines amortization fees are necessary to increase the best-estimate funded status of the program.

((40)) (13) The governing body shall promote, advertise, and publicize the Washington advanced college tuition payment program. Materials and online publications advertising the Washington advanced college tuition payment program shall include a disclaimer that the Washington advanced college tuition payment program's guarantee is that one hundred tuition units will equal one year of full-time, resident, undergraduate tuition at the most expensive state institution of higher education, and that if resident, undergraduate tuition is reduced, a tuition unit may lose monetary value.
In addition to any other powers conferred by this chapter, the governing body may:
(a) Impose reasonable limits on the number of tuition units or units that may be used in any one year;
(b) Determine and set any time limits, if necessary, for the use of benefits under this chapter;

(f) Consider the addition of an advanced payment program for room and board contracts and also consider a college savings program;
(g) Purchase insurance from insurers licensed to do business in the state, to provide for coverage against any loss in connection with the account's property, assets, or activities or to further insure the value of the tuition units;
(h) Make, execute, and deliver contracts, conveyances, and other instruments necessary to the exercise and discharge of its powers and duties under this chapter;
(i) Contract for the provision for all or part of the services necessary for the management and operation of the program with other state or nonstate entities authorized to do business in the state;
(j) Contract for other services or for goods needed by the governing body in the conduct of its business under this chapter;
(k) Contract with financial consultants, actuaries, auditors, and other consultants as necessary to carry out its responsibilities under this chapter;
(l) Solicit and accept cash donations and grants from any person, governmental agency, private business, or organization; and

April 6, 2021

MR. PRESIDENT:
The House passed ENGROSSED SUBSTITUTE SENATE BILL NO. 5432 with the following amendment(s): 5432-S.E AMH SGOV H1275.1

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. A new section is added to chapter 43.105 RCW to read as follows:
(1) The office of cybersecurity is created within the office of the chief information officer.
(2) The director shall appoint a state chief information security officer, who is the director of the office of cybersecurity.
(3) The primary duties of the office of cybersecurity are:
(a) To establish security standards and policies to protect the state's information technology systems and infrastructure, to provide appropriate governance and application of the standards and policies across information technology resources used by the state, and to ensure the confidentiality, availability, and integrity of the information transacted, stored, or processed in the state's information technology systems and infrastructure;
(b) To develop a centralized cybersecurity protocol for protecting and managing state information technology assets and infrastructure;
(c) To detect and respond to security incidents consistent with information security standards and policies;
(d) To create a model incident response plan for agency adoption, with the office of cybersecurity as the incident response coordinator for incidents that: (i) Impact multiple agencies; (ii) impact more than 10,000 citizens; (iii) involve a national actor; or (iv) are likely to be in the public domain;
(e) To ensure the continuity of state business and information resources that support the operations and assets of state agencies in the event of a security incident;
(f) To provide formal guidance to agencies on leading practices and applicable standards to ensure a whole government approach to cybersecurity, which shall include, but not be limited to, guidance regarding: (i) The configuration and architecture of agencies' information technology systems, infrastructure, and assets; (ii) governance, compliance, and oversight; and (iii) incident investigation and response;
(g) To serve as a resource for local and municipal governments in Washington in the area of cybersecurity;
(h) To develop a service catalog of cybersecurity services to be offered to state and local governments;
(i) To collaborate with state agencies in developing standards, functions, and services in order to ensure state agency regulatory environments are understood and considered as part of an enterprise cybersecurity response;
(j) To define core services that must be managed by agency information technology security programs; and
(k) To perform all other matters and things necessary to carry
out the purposes of this chapter.

(4) In performing its duties, the office of cybersecurity must address the highest levels of security required to protect confidential information transacted, stored, or processed in the state's information technology systems and infrastructure that is specifically protected from disclosure by state or federal law and for which strict handling requirements are required.

(5) In executing its duties under subsection (3) of this section, the office of cybersecurity shall use or rely upon existing, industry standard, widely adopted cybersecurity standards, with a preference for United States federal standards.

(6) Each state agency, institution of higher education, the legislature, and the judiciary must develop an information technology security program consistent with the office of cybersecurity's standards and policies.

(7)(a) Each state agency information technology security program must adhere to the office of cybersecurity's security standards and policies. Each state agency must review and update its program annually, certify to the office of cybersecurity that its program is in compliance with the office of cybersecurity's security standards and policies, and provide the office of cybersecurity with a list of the agency's cybersecurity business needs and agency program metrics.

(b) The office of cybersecurity shall require a state agency to obtain an independent compliance audit of its information technology security program and controls at least once every three years to determine whether the state agency's information technology security program is in compliance with the standards and policies established by the agency and that security controls identified by the state agency in its security program are operating efficiently.

(c) If a review or an audit conducted under (a) or (b) of this subsection identifies any failure to comply with the standards and policies of the office of cybersecurity or any other material cybersecurity risk, the office of cybersecurity must require the state agency to formulate and implement a plan to resolve the failure or risk. On an annual basis, the office of cybersecurity must provide a confidential report to the governor and appropriate committees of the legislature identifying and describing the cybersecurity risk or failure to comply with the office of cybersecurity's security policy or implementing cybersecurity standards and policies, as well as the agency's plan to resolve such failure or risk. Risks that are not mitigated are to be tracked by the office of cybersecurity and reviewed with the governor and the chair and ranking member of the appropriate committees of the legislature on a quarterly basis.

(d) The reports produced, and information compiled, pursuant to this subsection (7) are confidential and may not be disclosed under chapter 42.56 RCW.

(8) In the case of institutions of higher education, the judiciary, and the legislature, each information technology security program must be comparable to the intended outcomes of the office of cybersecurity's security standards and policies.

(3) To ensure alignment with enterprise information technology security strategy, the office of cybersecurity shall develop a process for reviewing and evaluating agency proposals for additional cybersecurity services consistent with RCW 43.105.255.

NEW SECTION. Sec. 3. A new section is added to chapter 43.105 RCW to read as follows:

(2) State agencies must provide the office of cybersecurity with contact information for any external parties who may have material information related to the cybersecurity incident.

(3) Once a cybersecurity incident is reported to the office of cybersecurity, the office of cybersecurity must investigate the incident to determine the degree of severity and facilitate any necessary incident response measures that need to be taken to protect the enterprise.

(4) The chief information security officer or the chief information security officer's designee shall serve as the state's point of contact for all major cybersecurity incidents.

(5) The office of cybersecurity must create policy to implement this section.

NEW SECTION. Sec. 4. (1) The office of cybersecurity, in collaboration with the office of privacy and data protection and the office of the attorney general, shall research and examine existing best practices for data governance, data protection, the sharing of data relating to cybersecurity, and the protection of state and local governments' information technology systems and infrastructure including, but not limited to, model terms for data-sharing contracts and adherence to privacy principles.

(2) The office of cybersecurity shall submit a report of its findings and identify specific recommendations to the governor and the appropriate committees of the legislature by December 1, 2021.

(3) This section expires December 31, 2021.

NEW SECTION. Sec. 5. A new section is added to chapter 39.26 RCW to read as follows:

(1) Before an agency shares with a contractor category 3 or higher data, as defined in policy established in accordance with RCW 43.105.054, a written data-sharing agreement must be in place. Such agreements shall conform to the policies for data sharing specified by the office of cybersecurity under the authority of RCW 43.105.054.

(2) Nothing in this section shall be construed as limiting audit authorities under chapter 43.09 RCW.

NEW SECTION. Sec. 6. A new section is added to chapter 39.34 RCW to read as follows:

(1) If a public agency is requesting from another public agency
category 3 or higher data, as defined in policy established in accordance with RCW 43.105.054, the requesting agency shall provide for a written agreement between the agencies that conforms to the policies of the office of cybersecurity.

(2) Nothing in this section shall be construed as limiting audit authorities under chapter 43.09 RCW.

NEW SECTION. Sec. 7. (1) The office of cybersecurity shall contract for an independent security assessment of the state agency information technology security program audits, required under section 1 of this act, that have been conducted since July 1, 2015. The independent assessment must be conducted in accordance with subsection (2) of this section. To the greatest extent practicable, the office of cybersecurity must contract for the independent security assessment using a department of enterprise services master contract or the competitive solicitation process described under chapter 39.26 RCW. If the office of cybersecurity conducts a competitive solicitation, the office of cybersecurity shall work with the department of enterprise services, office of minority and women's business enterprises, and the department of veterans affairs to engage in outreach to Washington small businesses, as defined in RCW 39.26.010, and certified veteran-owned businesses, as described in RCW 43.60A.190, and encourage these entities to submit a bid.

(2) The assessment must, at a minimum:
   (a) Review the state agency information technology security program audits, required under section 1 of this act, performed since July 1, 2015;

   (e) Include recommendations, based on best practices, for both short-term and long-term programs and strategies designed to implement audit findings.

(3) A report detailing the elements of the assessment described under subsection (2) of this section must be submitted to the governor and appropriate committees of the legislature by August 31, 2022. The report is confidential and may not be disclosed under chapter 42.56 RCW.

NEW SECTION. Sec. 8. A new section is added to chapter 42.56 RCW to read as follows:

MESSAGE FROM THE HOUSE

April 7, 2021

MR. PRESIDENT:
The House passed ENGROSSED SUBSTITUTE SENATE BILL NO. 5295 with the following amendment(s): 5295-S.E AMH ENGR H1406.E

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. (1) To provide clarity and certainty to stakeholders on the details of performance-based regulation, the utilities and transportation commission is directed to conduct a proceeding to develop a policy statement addressing alternatives to traditional cost of service rate making, including performance measures or goals, targets, performance incentives, and penalty mechanisms. As part of such a proceeding, the utilities and transportation commission must consider factors including, but not limited to, lowest reasonable cost planning, affordability, increases in energy burden, cost of service, customer satisfaction and engagement, service reliability, clean energy or renewable procurement, conservation acquisition, demand side management expansion, rate stability, timely execution of competitive procurement practices, attainment of state energy and emissions reduction policies, rapid integration of renewable energy resources, and fair compensation of utility employees.

(2) In developing its policy statement, the utilities and transportation commission must in its proceeding allow for participation and consultation with regulated utilities, the attorney general's office, and other interested stakeholders including, but not limited to, residential, industrial, commercial, and low-income customers and organizations, as well as environmental or community organizations and stakeholders.

(3) By January 1, 2022, the utilities and transportation..."
commission shall notify the chairs and ranking members of the
appropriate committees of the legislature of the process to date,
the expected duration of, and work plan associated with this
proceeding.

NEW SECTION. Sec. 2. A new section is added to chapter
80.28 RCW to read as follows:

(1) Beginning January 1, 2022, every general rate case filing of
a gas or electrical company must include a proposal for a
multiyear rate plan as provided in this chapter. The commission
may, by order after an adjudicative proceeding as provided by
chapter 34.05 RCW, approve, approve with conditions, or reject,

a multiyear rate plan proposal made by a gas or electrical
company or an alternative proposal made by one or more parties,
or any combination thereof. The commission's consideration of a
proposal for a multiyear rate plan is subject to the same standards
applicable to other rate filings made under this title, including the
public interest and fair, just, reasonable, and sufficient rates. In
determining the public interest, the commission may consider
such factors including, but not limited to, environmental health
and greenhouse gas emissions reductions, health and safety
concerns, economic development, and equity, to the extent such
factors affect the rates, services, and practices of a gas or electrical
company regulated by the commission.

(2) The commission may approve, disapprove, or approve with
modifications any proposal to recover from ratepayers up to five
percent of the total revenue requirement approved by the
commission for each year of a multiyear rate plan for tariffs that
reduce the energy burden of low-income residential customers
including, but not limited to: (a) Bill assistance programs; or (b)
one or more special rates. For any multiyear rate plan approved
under this section resulting in a rate increase, the commission
must approve an increase in the amount of low-income bill
assistance to take effect in each year of the rate plan where there
is a rate increase. At a minimum, the amount of such low-income
assistance increase must be equal to double the percentage
increase, if any, in the residential base rates approved for each
year of the rate plan. The commission may approve a larger
increase to low-income bill assistance based on an appropriate
record.

(3)(a) If it approves a multiyear rate plan, the commission shall
separately approve rates for each of the initial rate year, the
second rate year and, if applicable, the third rate year, and the
fourth rate year.

(b) The commission shall ascertain and determine the fair value
for rate-making purposes of the property of any gas or electrical
company that is or will be used and useful under RCW 80.04.250
for service in this state by or during each rate year of the multiyear
rate plan. For the initial rate year, the commission shall, at a
minimum, ascertain and determine the fair value for rate-making
purposes of the property of any gas or electrical company that is
used and useful for service in this state as of the rate effective
date. The commission may order refunds to customers if property
expected to be used and useful by the rate effective date when the
commission approves a multiyear rate plan is in fact not used and
useful by such a date.

(c) The commission shall ascertain and determine the revenues
and operating expenses for rate-making purposes of any gas or
electrical company for each rate year of the multiyear rate plan.

(d) In ascertaining and determining the fair value of property of
a gas or electrical company pursuant to (b) of this subsection
and projecting the revenues and operating expenses of a gas or
electrical company pursuant to (c) of this subsection, the
commission may use any standard, formula, method, or theory of
valuation reasonably calculated to arrive at fair, just, reasonable,
and sufficient rates.

(e) If the commission approves a multiyear rate plan with a
duration of three or four years, then the electrical company must
update its power costs as of the rate effective date of the third rate
year. The proceeding to update the electrical company's power
costs is subject to the same standards that apply to other rate
filings made under this title.

(4) Subject to subsection (5) of this section, the commission
may by order establish terms, conditions, and procedures for a
multiyear rate plan and ensure that rates remain fair, just,
reasonable, and sufficient during the course of the plan.

(5) Notwithstanding subsection (4) of this section, a gas or
electrical company is bound by the terms of the multiyear rate
plan approved by the commission for each of the initial rate year
and the second rate year. A gas or electrical company may file a
new multiyear rate plan in accordance with this section for the
third rate year and fourth rate year, if any, of a multiyear rate plan.

(6) If the annual commission basis report for a gas or electrical
company demonstrates that the reported rate of return on rate base
of the company for the 12-month period ending as of the end of
the period for which the annual commission basis report is filed
is more than .5 percent higher than the rate of return authorized
by the commission in the multiyear rate plan for such a company,
the company shall defer all revenues that are in excess of .5
percent higher than the rate of return authorized by the
commission for refunds to customers or another determination by
the commission in a subsequent adjudicative proceeding. If a
multistate electrical company with fewer than 250,000 customers
in Washington files a multiyear rate plan that provides for no
increases in base rates in consecutive years beyond the initial rate
year, the commission shall waive the requirements of this
subsection provided that such a waiver results in just and
reasonable rates.

(7) The commission must, in approving a multiyear rate plan,
determine a set of performance measures that will be used to
assess a gas or electrical company operating under a multiyear
rate plan. These performance measures may be based on
proposals made by the gas or electrical company in its initial
application, by any other party to the proceeding in its respon
siveness to the company's filing, or in the testimony and evidence
admitted in the proceeding. In developing performance measures,
incentives, and penalty mechanisms, the commission may
consider factors including, but not limited to, lowest reasonable
cost planning, affordability, increases in energy burden, cost of
service, customer satisfaction and engagement, service reliability,
clean energy or renewable procurement, conservation acquisition,
demand side management expansion, rate stability, timely
execution of competitive procurement practices, attainment of
state energy and emissions reduction policies, rapid integration of
renewable energy resources, and fair compensation of utility
employees.

(8) Nothing in this section precludes any gas or electrical
company from making filings required or permitted by the
commission.

(9) The commission shall align, to the extent practical, the
timing of approval of a multiyear rate plan of an electrical
company submitted pursuant to this section with the clean energy
implementation plan of the electrical company filed pursuant to
RCW 19.405.060.

(10) The provisions of this section may not be construed to
limit the existing rate-making authority of the commission.

Sec. 3. RCW 80.28.068 and 2009 c 32 s 1 are each amended
to read as follows:

((Upon)) (1) Upon its own motion, or upon request by an
electrical or gas company, or other party to a general rate case
hearing, or other proceeding to set rates, the commission may
approve rates, charges, services, and/or physical facilities at a
discount, or through grants, for low-income senior customers and
low-income customers. Expenses and lost revenues as a result of these discounts, grants, or other low-income assistance programs shall be included in the company’s cost of service and recovered in rates to other customers. Each gas or electrical company must propose a low-income assistance program comprised of a discount rate for low-income senior customers and low-income customers as well as grants and other low-income assistance programs. The commission shall approve, disapprove, or approve with modifications each gas or electrical company’s low-income assistance discount rate and grant program. The gas or electrical company must use reasonable and good faith efforts to seek approval for low-income program design, eligibility, operation, outreach, and funding proposals from its low-income and equity advisory groups in advance of filing such proposals with the commission. In order to remove barriers and to expedite assistance, low-income discounts or grants approved under this section must be provided in coordination with community-based organizations in the gas or electrical company’s service territory including, but not limited to, grantees of the department of commerce, community action agencies, and community-based nonprofit organizations. Nothing in this section may be construed as limiting the commission’s authority to approve or modify tariffs authorizing low-income discounts or grants.

(2) Eligibility for a low-income discount rate or grant established in this section may be established upon verification of a low-income customer’s receipt of any means-tested public benefit, or verification of eligibility for the low-income home energy assistance program, or its successor program, for which eligibility does not exceed the low-income definition set by the commission pursuant to RCW 19.405.020. The public benefits may include, but are not limited to, assistance that provides cash, housing, food, or medical care including, but not limited to, temporary assistance for needy families, supplemental security income, emergency assistance to elders, disabled, and children, supplemental nutrition assistance program benefits, public housing, federally subsidized or state-subsidized housing, the low-income home energy assistance program, veterans’ benefits, and similar benefits.

(3) Each gas or electrical company shall conduct substantial outreach efforts to make the low-income discounts or grants available to eligible customers and must provide annual reports to the commission as to the gas or electrical company’s outreach activities and results. Such outreach: (a) Shall be made at least semiannually to inform customers of available rebates, discounts, credits, and other cost-saving mechanisms that can help them lower their monthly bills for gas or electrical service; and (b) may be in the form of any customary and usual methods of communication or distribution including, without limitation, widely broadcast communications with customers, direct mailing, telephone calls, electronic communications, social media postings, in-person contacts, websites of the gas or electrical company, press releases, and print and electronic media, that are designed to increase access to and participation in bill assistance programs.

(4) Outreach may include establishing an automated program of matching customer accounts with lists of recipients of the means-tested public benefit programs and, based on the results of the matching program, to presumptively offer a low-income discount rate or grant to eligible customers so identified. However, the gas or electrical company must within 60 days of the presumptive enrollment inform such a low-income customer of the presumptive enrollment and all rights and obligations of a customer under the program, including the right to withdraw from the program without penalty.

(5) A residential customer eligible for a low-income discount rate must receive the service on demand.

(6) A residential customer may not be charged for initiating or terminating low-income discount rates, grants, or any other form of energy assistance.

(7) The definitions in this subsection apply throughout this section unless the context clearly requires otherwise.

(a) “Energy burden” has the same meaning as defined in RCW 19.405.020.

(b) “Low-income” has the same meaning as defined in RCW 19.405.020.

(c) “Physical facilities” includes, but may not be limited to, a community solar project as defined in RCW 80.28.370.

NEW SECTION. Sec. 4. A new section is added to chapter 80.28 RCW to read as follows:

(1) A gas company or electrical company shall, upon request, enter into one or more written agreements with organizations that represent broad customer interests in regulatory proceedings conducted by the commission, subject to commission approval in accordance with subsection (2) of this section, including but not limited to organizations representing low-income, commercial, and industrial customers, vulnerable populations, or highly impacted communities. The agreement must govern the manner in which financial assistance may be provided to the organization. More than one gas company, electrical company, or organization representing customer interests may join in a single agreement. Any agreement entered into under this section must be approved, approved with modifications, or rejected by the commission. The commission must consider whether the agreement is consistent with a reasonable allocation of financial assistance provided to organizations pursuant to this section among classes of customers of the gas or electrical company.

(2) Before administering an agreement entered into under subsection (1) of this section, the commission shall, by rule or order, determine:

(a) The amount of financial assistance, if any, that may be provided to any organization;

(b) The manner in which the financial assistance is distributed;

(c) The manner in which the financial assistance is recovered in the rates of the gas company or electrical company under subsection (3) of this section; and

(d) Other matters necessary to administer the agreement.

(3) The commission shall allow a gas company or electrical company that provides financial assistance under this section to recover the amounts provided in rates. The commission shall allow a gas company or electrical company to defer inclusion of those amounts in rates if the gas company or electrical company so elects. An agreement under this section may not provide for payment of any amounts to the commission.

(4) Organizations representing vulnerable populations or highly impacted communities must be prioritized for funding under this section.

Sec. 5. RCW 80.28.074 and 1988 c 166 s 1 are each amended to read as follows:

The legislature declares it is the policy of the state to:

(1) Preserve affordable ((natural gas and electric)) energy services to the residents of the state;

(2) Maintain and advance the efficiency and availability of ((natural gas and electric)) energy services to the residents of the state of Washington;

(3) Ensure that customers pay only reasonable charges for ((natural gas and electric)) energy services;

(4) Permit flexible pricing of ((natural gas and electric)) energy services.

NEW SECTION. Sec. 6. If any provision of this act or its application to any person or circumstance is held invalid, the
remainder of the act or the application of the provision to other persons or circumstances is not affected."
Correct the title.

MESSAGE FROM THE HOUSE

April 5, 2021

MR. PRESIDENT:
The House passed SENATE BILL NO. 5299 with the following amendment(s): 5299 AMH ED H1398.1

Strike everything after the enacting clause and insert the following:

"Sec. 1. RCW 28A.230.300 and 2019 c 180 s 2 are each amended to read as follows:
(1) Beginning no later than the 2022-23 school year, each school district that operates a high school must, at a minimum, provide an opportunity to access an elective computer science course that is available to all high school students. School districts are encouraged to consider community-based or public-private partnerships in establishing and administering a course, but any course offered in accordance with this section must be aligned to the state learning standards for computer science or mathematics.
(2) In accordance with the requirements of this section, beginning in the 2019-20 school year, school districts may award academic credit for computer science to students based on student completion of a competency examination that is aligned with the state learning standards for computer science or mathematics and course equivalency requirements adopted by the office of the superintendent of public instruction to implement this section. Each school district board of directors in districts that award credit under this subsection shall develop a written policy for awarding such credit that includes:
(a) A course equivalency approval procedure;
(b) Procedures for awarding competency-based credit for skills learned partially or wholly outside of a course; and
(c) An approval process for computer science courses taken before attending high school under RCW 28A.230.090 (4) and (5).
(3) Prior to the use of any competency examination under this section that may be used to award academic credit to students, the office of the superintendent of public instruction must review the examination to ensure its alignment with:
(a) The state learning standards for computer science or mathematics; and
(b) Course equivalency requirements adopted by the office of the superintendent of public instruction to implement this section.
(4)(a) For purposes of meeting graduation requirements under RCW 28A.230.090, a student may substitute a computer science course aligned to state computer science learning standards as an alternative to a third year mathematics or third year science course if:
(i) Prior to the substitution, the school counselor provides the student and the student's parent or guardian with written notification of the consequences of the substitution on postsecondary opportunities;
(ii) The student, the student's parent or guardian, and the student's school counselor or principal agree to the substitution; and
(iii) The substitution is aligned with the student's high school and beyond plan.
(b) A substitution permitted under this subsection (4) may only be used once per student.
Sec. 2. RCW 28A.230.090 and 2020 c 307 s 6 are each amended to read as follows:
(1) The state board of education shall establish high school graduation requirements or equivalencies for students, except as provided in RCW 28A.230.122 and 28A.655.250 and except those equivalencies established by local high schools or school districts under RCW 28A.230.097. The purpose of a high school diploma is to declare that a student is ready for success in postsecondary education, gainful employment, and citizenship, and is equipped with the skills to be a lifelong learner.
(a) Any course in Washington state history and government used to fulfill high school graduation requirements shall consider including information on the culture, history, and government of the American Indian peoples who were the first inhabitants of the state.
(b) Except as provided otherwise in this subsection, the certificate of academic achievement requirements under RCW 28A.655.061 or the certificate of individual achievement requirements under RCW 28A.155.045 are required for graduation from a public high school but are not the only requirements for graduation. The requirement to earn a certificate of academic achievement to qualify for graduation from a public high school concludes with the graduating class of 2019. The obligation of qualifying students to earn a certificate of individual achievement as a prerequisite for graduation from a public high school concludes with the graduating class of 2021.
guide the student's high school experience and inform course taking that is aligned with the student's goals for education or training and career after high school.

(ii)(A) A high school and beyond plan must be initiated for each student during the seventh or eighth grade. In preparation for initiating that plan, each student must first be administered a career interest and skills inventory.

(B) For students with an individualized education program, the high school and beyond plan must be developed in alignment with their individualized education program. The high school and beyond plan must be developed in a similar manner and with similar school personnel as for all other students.

(iii) (A) The high school and beyond plan must be updated to reflect high school assessment results in RCW 28A.655.070(3)(b) and to review transcripts, assess progress toward identified goals, and revised as necessary for changing interests, goals, and needs. The plan must identify available interventions and academic support, courses, or both, that are designed for students who are not on track to graduate, to enable them to fulfill high school graduation requirements. Each student's high school and beyond plan must be updated to inform junior year course taking.

(B) For students with an individualized education program, the high school and beyond plan must be updated in alignment with their school to postschool transition plan. The high school and beyond plan must be updated in a similar manner and with similar school personnel as for all other students.

(iv) School districts are encouraged to involve parents and guardians in the process of developing and updating the high school and beyond plan, and the plan must be provided to the students’ parents or guardians in their native language if that language is one of the two most frequently spoken non-English languages of students in the district. Nothing in this subsection (1)(c)(iv) prevents districts from providing high school and beyond plans to parents and guardians in additional languages that are not required by this subsection.

(v) All high school and beyond plans must, at a minimum, include the following elements:

(A) Identification of career goals, aided by a skills and interest assessment;

(B) Identification of educational goals;

(C) Identification of dual credit programs and the opportunities they create for students, including eligibility for automatic enrollment in advanced classes under RCW 28A.320.195, career and technical education programs, running start programs, AP courses, international baccalaureate programs, and college in the high school programs;

(D) Information about the college bound scholarship program established in chapter 28B.118 RCW;

(E) A four-year plan for course taking that:

(I) Includes information about options for satisfying state and local graduation requirements;

(II) Satisfies state and local graduation requirements;

(III) Aligns with the student's secondary and postsecondary goals, which can include education, training, and career;

(IV) Identifies course sequences to inform academic acceleration, as described in RCW 28A.320.195 that include dual credit courses or programs and are aligned with the student's goals; and

(V) Includes information about the college bound scholarship program, the Washington college grant, and other scholarship opportunities;

(F) Evidence that the student has received the following information on federal and state financial aid programs that help pay for the costs of a postsecondary program:

(I) Information about the documentation necessary for completing the applications; application timelines and submission deadlines; the importance of submitting applications early; information specific to students who are or have been in foster care; information specific to students who are, or are at risk of being, homeless; information specific to students whose family member or guardians will be required to provide financial and tax information necessary to complete applications; and

(II) Opportunities to participate in sessions that assist students and, when necessary, their family members or guardians, fill out financial aid applications; and

(G) By the end of the twelfth grade, a current resume or activity log that provides a written compilation of the student’s education, any work experience, and any community service and how the school district has recognized the community service pursuant to RCW 28A.320.193.

(d) Any decision on whether a student has met the state board's high school graduation requirements for a high school and beyond plan shall remain at the local level. Effective with the graduating class of 2015, the state board of education may not establish a requirement for students to complete a culminating project for graduation. A district may establish additional, local requirements for a high school and beyond plan to serve the needs and interests of its students and the purposes of this section.

(e)(i) The state board of education shall adopt rules to implement the career and college ready graduation requirement proposal adopted under board resolution on November 10, 2010, and revised on January 9, 2014, to take effect beginning with the graduating class of 2019 or as otherwise provided in this subsection (1)(e). The rules must include authorization for a school district to waive up to two credits for individual students based on a student’s circumstances, provided that none of the waived credits are identified as mandatory core credits by the state board of education. School districts must adhere to written policies authorizing the waivers that must be adopted by each board of directors of a school district that grants diplomas. The rules must also provide that the content of the third credit of mathematics and the content of the third credit of science may be chosen by the student based on the student's interests and high school and beyond plan with agreement of the student’s parent or guardian or agreement of the school counselor or principal, or as provided in RCW 28A.230.300(4).

(ii) School districts may apply to the state board of education for a waiver to implement the career and college ready graduation requirement proposal beginning with the graduating class of 2020 or 2021 instead of the graduating class of 2019. In the application, a school district must describe why the waiver is being requested, the specific impediments preventing timely implementation, and efforts that will be taken to achieve implementation with the graduating class proposed under the waiver. The state board of education shall grant a waiver under this subsection (1)(e) to an applying school district at the next subsequent meeting of the board after receiving an application.

(iii) A school district must update the high school and beyond plans for each student who has not earned a score of level 3 or level 4 on the middle school mathematics assessment identified in RCW 28A.655.070 by ninth grade, to ensure that the student takes a mathematics course in both ninth and tenth grades. This course may include career and technical education equivalencies in mathematics adopted pursuant to RCW 28A.230.097.

(2)(a) In recognition of the statutory authority of the state board of education to establish and enforce minimum high school graduation requirements, the state board shall periodically reevaluate the graduation requirements and shall report such findings to the legislature in a timely manner as determined by the state board.
(b) The state board shall reevaluate the graduation requirements for students enrolled in vocationally intensive and rigorous career and technical education programs, particularly those programs that lead to a certificate or credential that is state or nationally recognized. The purpose of the evaluation is to ensure that students enrolled in these programs have sufficient opportunity to earn a certificate of academic achievement, complete the program and earn the program's certificate or credential, and complete other state and local graduation requirements.

(c) The state board shall forward any proposed changes to the high school graduation requirements to the education committees of the legislature for review. The legislature shall have the opportunity to act during a regular legislative session before the changes are adopted through administrative rule by the state board. Changes that have a fiscal impact on school districts, as identified by a fiscal analysis prepared by the office of the superintendent of public instruction, shall take effect only if formally authorized and funded by the legislature through the omnibus appropriations act or other enacted legislation.

(3) Pursuant to any requirement for instruction in languages other than English established by the state board of education or a local school district, or both, for purposes of high school graduation, students who receive instruction in American sign language or one or more American Indian languages shall be considered to have satisfied the state or local school district graduation requirement for instruction in one or more languages other than English.

(4) Unless requested otherwise by the student and the student's family, a student who has completed high school courses before attending high school shall be given high school credit which shall be applied to fulfilling high school graduation requirements if:

(a) The course was taken with high school students, if the academic level of the course exceeds the requirements for seventh and eighth grade classes, and the student has successfully passed by completing the same course requirements and examinations as the high school students enrolled in the class; or

(b) The academic level of the course exceeds the requirements for seventh and eighth grade classes and the course would qualify for high school credit, because the course is similar or equivalent to a course offered at a high school in the district as determined by the school district board of directors.

(5) Students who have taken and successfully completed high school courses under the circumstances in subsection (4) of this section shall not be required to take an additional competency examination or perform any other additional assignment to receive credit.

(6) At the college or university level, five quarter or three semester hours equals one high school credit."

(1) By January 1, 2024, the rule-making authority for each health profession licensed under Title 18 RCW subject to continuing education requirements must adopt rules requiring a licensee to complete health equity continuing education training at least once every four years.

(2) Health equity continuing education courses may be taken in addition to or, if a rule making authority determines the course would qualify for high school credit, because the course is similar or equivalent to a course offered at a high school in the district as determined by the school district board of directors.

collaboratively to provide information to licensees about available courses. The secretary and rule-making authorities shall consult with patients or communities with lived experiences of health inequities or racism in the health care system and relevant professional organizations when developing the information and must make this information available by July 1, 2023. The information should include a course option that is free of charge to licensees. It is not required that courses be included in the information in order to fulfill the health equity continuing education requirement.

(b) By January 1, 2023, the department, in consultation with the boards and commissions, shall adopt model rules establishing the minimum standards for continuing education programs meeting the requirements of this section. The department shall consult with patients or communities with lived experience of health inequities or racism in the health care system, relevant professional organizations, and the rule-making authorities in the development of these rules.

(c) The minimum standards must include instruction on skills to address the structural factors, such as bias, racism, and poverty, that manifest as health inequities. These skills include individual-level and system-level intervention, and self-reflection to assess how the licensee's social position can influence their relationship with patients and their communities. These skills enable a health care professional to care effectively for patients from diverse cultures, groups, and communities, varying in race, ethnicity, gender identity, sexuality, religion, age, ability, socioeconomic status, and other categories of identity. The courses must assess the licensee's ability to apply health equity concepts into practice.

Course topics may include, but are not limited to:

(i) Strategies for recognizing patterns of health care disparities on an individual, institutional, and structural level and eliminating factors that influence them;
(ii) Intercultural communication skills training, including how to work effectively with an interpreter and how communication styles differ across cultures;
(iii) Implicit bias training to identify strategies to reduce bias during assessment and diagnosis;
(iv) Methods for addressing the emotional well-being of children and youth of diverse backgrounds;
(v) Ensuring equity and anticrime in care delivery pertaining to medical developments and emerging therapies;
(vi) Structural competency training addressing five core competencies:
(A) Recognizing the structures that shape clinical interactions;
(B) Developing an extraclinical language of structure;
(C) Rearticulating "cultural" formulations in structural terms;
(D) Observing and imagining structural interventions; and
(E) Developing structural humility; and
(vii) Cultural safety training.

(4) The rule-making authority may adopt rules to implement and administer this section, including rules to establish a process to determine if a continuing education course meets the health equity continuing education requirement established in this section.

(5) For purposes of this section the following definitions apply:
(a) "Rule-making authority" means the regulatory entities identified in RCW 18.130.040 and authorized to establish continuing education requirements for the health care professions governed by those regulatory entities.
(b) "Structural competency" means a shift in medical education away from pedagogic approaches to stigma and health inequities that emphasize cross-cultural understandings of individual patients, toward attention to forces that influence health outcomes at levels above individual interactions. Structural competency reviews existing structural approaches to stigma and health inequities developed outside of medicine and proposes changes to United States medical education that will infuse clinical training with a structural focus.

(c) "Cultural safety" means an examination by health care professionals of themselves and the potential impact of their own culture on clinical interactions and health care service delivery. This requires individual health care professionals and health care organizations to acknowledge and address their own biases, attitudes, assumptions, stereotypes, prejudices, structures, and characteristics that may affect the quality of care provided. In doing so, cultural safety encompasses a critical consciousness where health care professionals and health care organizations engage in ongoing self-reflection and self-awareness and hold themselves accountable for providing culturally safe care, as defined by the patient and their communities, and as measured through progress towards achieving health equity. Cultural safety requires health care professionals and their associated health care organizations to influence health care to reduce bias and achieve equity within the workforce and working environment.

Sec. 3. RCW 43.70.615 and 2006 c 237 s 2 are each amended to read as follows:

(1) For the purposes of this section, "multicultural health" means the provision of health care services with the knowledge and awareness of the causes and effects of the determinants of health that lead to disparities in health status between different genders and racial and ethnic populations and the practice skills necessary to respond appropriately.

(2) The department, in consultation with the disciplining authorities as defined in RCW 18.130.040, shall establish, within available department general funds, an ongoing multicultural health awareness and education program as an integral part of its health professions regulation. The purpose of the education program is to raise awareness and educate health care professionals regarding the knowledge, attitudes, and practice skills necessary to care for diverse populations to achieve a greater understanding of the relationship between culture and health. (The disciplining authorities having the authority to offer continuing education may provide training in the dynamics of providing culturally competent, multicultural health care to diverse populations.) Any such education shall be developed in collaboration with education programs that train students in that health profession. (A disciplining authority may require that instructors of continuing education or continuing competency programs integrate multicultural health into their curricula when it is appropriate to the subject matter of the instruction.) No funds from the health professions account may be utilized to fund activities under this section unless the disciplining authority authorizes expenditures from its proportions of the account. (A disciplining authority may defray costs by authorizing a fee to be charged for participants or materials relating to any sponsored program.)

(3) By July 1, 2008, each education program with a curriculum to train health professionals for employment in a profession credentialed by a disciplining authority under chapter 18.130 RCW shall integrate into the curriculum instruction in multicultural health as part of its basic education preparation curriculum. This rule shall also specify the conditions under which local courts may exercise discretion in assessing fines and penalties for traffic infractions. The legislature respectfully requests the supreme court to adjust this schedule every two years for inflation.

(4) There shall be a penalty of twenty-five dollars for failure to respond to a notice of traffic infraction except where the infraction relates to parking as defined by local law, ordinance, regulation, or resolution or failure to pay a monetary penalty imposed pursuant to this chapter. A local legislative body may set a monetary penalty not to exceed twenty-five dollars for failure to respond to a notice of traffic infraction relating to parking as defined by local law, ordinance, regulation, or resolution. The court may not reduce, waive, or suspend the additional penalty unless the court finds the offender to be indigent. If a court authorized community restitution program for offenders is available in the jurisdiction, the court shall allow offenders to offset all or a part of the penalty due under this subsection (8) by participation in the court authorized community restitution program.

(b) ((Eight dollars and fifty cents))) $12.50 of the additional penalty under (a) of this subsection shall be remitted to the state treasurer. The remaining revenue from the additional penalty must be remitted under chapters 2.08, 3.46, 3.50, 3.62, 10.82, and 35.20 RCW. (b)(i) After the expiration of the appropriate period, the person may make application for a new license as provided by law together with a reissue fee in the amount of seventy-five dollars. If the suspension is the result of a violation of RCW 46.20.308, 46.61.502, or 46.61.504, the reissue fee shall be one hundred seventy dollars. If the revocation is the result of a nonfelony violation of RCW 46.61.502 or 46.61.504, the department shall determine the person's eligibility for licensing based upon the reports provided by the substance use disorder agency or probation department designated under RCW 46.61.5056 and shall deny reissuance of a license, permit, or privilege to drive until enrollment and participation in an approved program has been established and the person is otherwise qualified. If the suspension is the result of a violation of RCW 46.61.502(6) or 46.61.504(6), the department shall determine the person's eligibility for licensing based upon the reports provided by the substance use disorder agency required under RCW 46.61.524 and shall deny reinstatement until satisfactory progress in an approved program has been established and the person is otherwise qualified. If the revocation is the result of a violation of RCW 46.61.502 or 46.61.504, and the person is required pursuant to RCW 46.20.720 to drive only a motor vehicle equipped with a functioning ignition interlock or other biological or technical device, the department shall determine the person's eligibility for licensing based upon written verification by a company doing business in the state that it has installed the required device on a vehicle owned or operated by the person applying for a new license. The department may waive the requirement for written verification under this subsection if it determines to its satisfaction that a device previously verified as having been installed on a vehicle owned or operated by the person is still installed and functioning as permitted by RCW 46.20.720(8).

(c) Except for a revocation under RCW 46.20.265, the department shall not issue a new license unless it is satisfied after investigation of the driving ability of the person that it will be safe to grant the privilege of driving a motor vehicle on the public highways, and until the person gives and thereafter maintains proof of financial responsibility for the future as provided in chapter 46.29 RCW. For a revocation under RCW 46.20.265, the department shall not issue a new license unless it is satisfied after investigation of the driving ability of the person that it will be safe to grant that person the privilege of driving a motor vehicle on the public highways.

(3)(a) Whenever the driver's license of any person is suspended pursuant to Article IV of the nonresident violators compact or RCW 46.23.020 or 46.20.289 or 46.20.291(5), the department shall not issue to the person any new or renewal license until the person pays a reissue fee of seventy-five dollars.

(b) Except as provided in subsection (4) of this section, if the suspension is the result of a violation of the laws of this or any other state, province, or other jurisdiction involving (i) the operation or physical control of a motor vehicle upon the public highways while under the influence of intoxicating liquor or drugs, or (ii) the refusal to submit to a chemical test of the driver's blood alcohol content, the reissue fee shall be one hundred seventy dollars.

(4) When the department reinstates a person's driver's license following a suspension, revocation, or denial under RCW 46.20.3101 or 46.61.5055, and the person is entitled to full day-for-day credit under RCW 46.20.3101(4) or 46.61.5055(9)(b)(ii) for an additional restriction arising from the same incident, the department shall impose no additional reissue fees under subsection (1)(e)(iii), (2)(b)(ii), or (3)(b) of this section associated with the additional restriction.

Sec. 9. RCW 46.20.342 and 2015 c 149 s 1 are each amended to read as follows:

(1) It is unlawful for any person to drive a motor vehicle in this state while that person is in a suspended or revoked status or when his or her privilege to drive is suspended or revoked in this or any other state. (d) For the purposes of this subsection, a person is not considered to be eligible to reinstate his or her driver's license or driving privilege if the person is eligible to obtain an ignition interlock driver's license but did not obtain such a license.

(2) Upon receiving a record of conviction of any person or upon receiving an order by any juvenile court or any duly authorized court officer of the conviction of any juvenile under this section, the department shall:

(a) For a conviction of driving while suspended or revoked in the first degree, as provided by subsection (1)(a) of this section, extend the period of administrative revocation imposed under chapter 46.65 RCW for an additional period of one year from and after the date the person would otherwise have been entitled to apply for a new license or have his or her driving privilege restored; or
(b) For a conviction of driving while suspended or revoked in the second degree, as provided by subsection (1)(b) of this section, not issue a new license or restore the driving privilege for an additional period of one year from and after the date the person would otherwise have been entitled to apply for a new license or have his or her driving privilege restored; or
(c) Not extend the period of suspension or revocation if the conviction was under subsection (1)(c) of this section. If the conviction was under subsection (1)(a) or (b) of this section and the court recommends against the extension and the convicted person has obtained a valid driver's license, the period of suspension or revocation shall not be extended.

MESSAGE FROM THE HOUSE

April 9, 2021

MR. PRESIDENT:
The House passed ENGROSSED SUBSTITUTE SENATE BILL NO. 5172 with the following amendment(s): 5172.S.E AMH

HOFF TANG 109

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. In order to stabilize, strengthen, and protect our state's agricultural workforce and economy, it is the intent of the legislature to pass the laws necessary to protect farmworkers and to provide agricultural employers with certainty and predictability.

The legislature intends to address the historical exceptions of agricultural work from overtime standards from both the federal fair labor standards act and the state minimum wage act when they were enacted over 60 years ago. Excluded from the opportunity to earn overtime pay, farmworkers across our state remain among our state's poorest workers. A United States department of labor study in 2016 found that nationally, 30 percent of farmworker families live below the poverty line, almost double the poverty rate of American families overall. The state department of health found that the current novel coronavirus pandemic has had a significant and disproportionate impact on farmworkers. The virus' risks to essential farmworkers from potential workplace exposures are compounded by systemic barriers to testing, prevention measures, and medical care.

The legislature also intends to avoid disruptions within the state's vital agricultural sector. While Washington is well known as the national leader in apple production, the state's agricultural sector is incredibly diverse: Over 300 crops are harvested, and a variety of livestock are raised on over 35,000 farms across the state. The robust size of our agricultural sector means our state overall ranks in the top 10 nationally in the size of our farm labor force. Agriculture is a cornerstone of our state economy. Uncertainty from recent legal decisions regarding overtime standards are compounding the pandemic's disruptions to the food
chain and the safety challenges of operating during a public health crisis.

The legislature intends to provide clear overtime standards to reduce litigation between parties in this key sector of the state’s economy during the challenges and additional costs brought on by the novel coronavirus and to protect the security of our food supply chain. This act’s transitional approach is reasonable to achieve the legislature’s purpose of increasing the safety of an at risk and essential workforce, increasing the public welfare of low-income individuals by removing a historical barrier to their earning potential, and maintaining the food security and economic security provided by a stable agricultural sector.

Sec. 2. RCW 49.46.130 and 2013 c 207 s 1 are each amended to read as follows:

(1) Except as otherwise provided in this section, no employer shall employ any of his or her employees for a work week longer than forty hours unless such employee receives compensation for his or her employment in excess of the hours above specified at a rate not less than one and one-half times the regular rate at which he or she is employed.

(2) This section does not apply to:

(a) Any person exempted pursuant to RCW 49.46.010(3). The payment of compensation or provision of compensatory time off in addition to a salary shall not be a factor in determining whether a person is exempted under RCW 49.46.010(3)(c);

(b) Employees who request compensating time off in lieu of overtime pay;

(c) Any individual employed as a seaman whether or not the seaman is employed on a vessel other than an American vessel;

(d) Seasonal employees who are employed at concessions and recreational establishments at agricultural fairs, including those seasonal employees employed by agricultural fairs, within the state provided that the period of employment for any seasonal employee at any or all agricultural fairs does not exceed fourteen working days a year;

(e) Any individual employed as a motion picture projectionist if that employee is covered by a contract or collective bargaining agreement which regulates hours of work and overtime pay;

(f) An individual employed as a truck or bus driver who is subject to the provisions of the Federal Motor Carrier Act (49 U.S.C. Sec. 3101 et seq. and 49 U.S.C. Sec. 10101 et seq.), if the compensation system under which the truck or bus driver is paid includes overtime pay, reasonably equivalent to that required by this subsection, for working longer than forty hours per week;

(3) The advisory committee must make recommendations and provide perspectives to the authority regarding:

(a) Reforms to state laws that align with the goal of treating substance use disorder as a disease, rather than a criminal behavior;
(b) Current regional capacity for existing public and private programs providing substance use disorder assessments, each of the American society of addiction medicine levels of care, and recovery support services;
(c) Barriers to accessing the existing health system for those populations chronically exposed to criminal legal system responses relating to complex behavioral health conditions and the consequences of trauma, and possible innovations that could reduce those barriers and improve the quality and accessibility of care for those populations;
(d) Evidence-based, research-based, and promising treatment and recovery services appropriate for target populations, to include, but not be limited to, field-based outreach and engagement, case management, mental and physical health care, contingency management, medication-assisted treatment and other innovative medication therapies, peer support services, family education, housing, job training and employment programs, and treatments that have not traditionally been covered by insurance;
(e) Workforce needs for the behavioral health services sector, including wage and retention challenges;
(f) Options for leveraging existing integrated managed care, medicaid waiver, American Indian or Alaska Native fee-for-service behavioral health benefits, and private insurance service capacity for substance use disorders, including but not limited to coordination with managed care organizations, behavioral health administrative services organizations, the Washington health benefit exchange, accountable communities of health, and the office of the insurance commissioner;
(g) Framework and design assistance for jurisdictions to assist in compliance with the requirements of RCW 10.31.110 for diversion of individuals with complex behavioral health conditions to community-based care whenever possible and appropriate, and identifying resource gaps that impede jurisdictions in fully realizing the potential impact of this approach;
(h) The design of a referral mechanism for referring people with substance use disorder or problematic behaviors resulting from drug use into the supportive services described in this section, including intercepting individuals who likely would otherwise be referred into the criminal legal system, with the express intention of ensuring that decriminalization of possession of personal use amounts does not inadvertently contribute to increased racial disparity among those who continue to be exposed to the criminal legal system due to income instability and involvement in the illicit economy to meet basic needs;
(i) The design of ongoing qualitative and quantitative research about the types of services desired by people with substance use disorders and barriers they experience in accessing existing and recommended services; and
(j) Proposing a funding framework in which, over time, resources are shifted from punishment sectors to community-based care interventions such that community-based care becomes the primary strategy for addressing and resolving public order issues related to behavioral health conditions.

(4) The authority shall submit a summary report of the substance use recovery services plan and recommended changes to the law to the appropriate committees of the legislature by October 1, 2022.

(5) This section expires December 31, 2023.

PERSONAL PRIVILEGE

Senator Sheldon: “Mr. President, it was with extreme sadness to hear Senator Liias say that Senator Paul Shin had passed on today. I served a long time with Senator Shin and admired him greatly. When you got to know Senator Shin and his personal story, it was impossible to have a bad day. He was such a kind gentleman. Took his role as a senator so seriously. And worked with people across the aisle and really around the country. He was really a rock star in Korea. Executive branch of our United States government used him, and he helped them in many ways in the contacts he made. So, it’s very sad to hear that he is gone but my Session Aide, Bev Bumley, worked for him for a long time as well, and we all admired Paul and certainly will miss his smiling face. And he always gave you a handshake when you talked to him during the day and when he said good morning to you. I’ll always remember that handshake, firm, and earnest. That was Paul Shin in my memory. Thank you, Mr. President.”

PERSONAL PRIVILEGE

Senator Keiser: “I want to thank Senator Sheldon for his comments, and I would ask for the Lieutenant Governor and presiding officer to call for a moment of silence. We’ve been very busy today. I believe it’s time for us to take a few minutes and center ourselves on the loss of a very valued colleague. Thank you.”
