(2) (a) Parents are the primary stakeholders in their children's upbringing.

When parents actively engage in their child's education, it enhances the student's academic performance, motivation, and overall development. Strong parental involvement also fosters a supportive learning environment, both at home and school, helping students develop confidence, resilience, and a sense of responsibility. Moreover, active participation from parents in their children's education builds a stronger school community, promotes positive behavior, and supports the creation of more equitable learning opportunities. Ultimately, when parents and schools work together, it benefits the individual student and strengthens society by nurturing educated, responsible, and engaged citizens.

(b) As used in this section, "parents" and "parental" means parents or legal guardians.

(ii) For ownership: At or below 100 percent of the median household income adjusted for household size, for the county where the household is located, as reported by the United States department of housing and urban development.

(c) "Moderate-income housing" has the same meaning as "moderate-income household" in RCW 36.70A.030.

(d) "Housing development regulations" means any development regulations related to the housing element requirements under RCW 36.70A.070(2) including, but not limited to, development regulations related to affordable housing, middle housing, co-living housing, accessory dwelling units, emergency shelters, transitional housing, emergency housing, permanent supportive housing, conversions of nonresidential buildings to residential use, and any zoning maps and zoning districts.

Sec. 2. RCW 36.70A.280 and 2023 c 334 s 7, 2023 c 332 s 6, and 2023 c 228 s 7 are each reenacted and amended to read as follows:

(1) The growth management hearings board shall hear and determine only those petitions alleging either:

(a) That, except as provided otherwise by this subsection, a state agency, county, or city planning under this chapter is not in compliance with the requirements of this chapter, chapter 90.58 RCW as it relates to the adoption of shoreline master programs or amendments thereto, or chapter 43.21C RCW as it relates to plans, development regulations, or amendments, adopted under RCW 36.70A.040 or chapter 90.58 RCW. Nothing in this subsection authorizes the board to hear petitions alleging noncompliance based on a city or county's actions taken to implement the requirements of RCW 36.70A.680 and 36.70A.681 within an urban growth area;

(b) That the 20-year growth management planning population projections adopted by the office of financial management pursuant to RCW 43.62.035 should be adjusted;

(f) That the department's final decision to approve or reject a proposed greenhouse gas emissions reduction subelement or amendments by a local government planning under RCW 36.70A.040 was not in compliance with the joint guidance issued by the department pursuant to RCW 70A.45.120; ~~((or))~~

(g) That the department's final decision to approve or reject actions by a city implementing RCW 36.70A.635 is clearly erroneous; or

(h) That the department's determination of compliance of a housing element and any related housing development regulations under section 1 of this act is clearly erroneous.

(2) A petition may be filed only by: (a) The state, or a county or city that plans under this chapter; (b) a person who has participated orally or in writing before the county or city regarding the matter on which a review is being requested; (c) a person who is certified by the governor within 60 days of filing the request with the board; or (d) a person qualified pursuant to RCW 34.05.530.

(3) For purposes of this section, "person" means any individual, partnership, corporation, association, state agency, governmental subdivision or unit thereof, or public or private organization or entity of any character.

(4) To establish participation standing under subsection (2)(b) of this section, a person must show that his or her participation before the county or city was reasonably related to the person's issue as presented to the board.

(5) When considering a possible adjustment to a growth management planning population projection prepared by the office of financial management, the board shall consider the implications of any such adjustment to the population forecast for the entire state.

The rationale for any adjustment that is adopted by the board must be documented and filed with the office of financial management within ten working days after adoption.

If adjusted by the board, a county growth management planning population projection shall only be used for the planning purposes set forth in this chapter and shall be known as the "board adjusted population projection." None of these changes shall affect the official state and county population forecasts prepared by the office of financial management, which shall continue to be used for state budget and planning purposes.

Sec. 3. RCW 36.70A.290 and 2011 c 277 s 1 are each amended to read as follows:

(1) All requests for review to the growth management hearings board shall be initiated by filing a petition that includes a detailed statement of issues presented for resolution by the board. The board shall render written decisions articulating the basis for its holdings. The board shall not issue advisory opinions on issues not presented to the board in the statement of issues, as modified by any prehearing order.

(2) All petitions relating to whether or not an adopted comprehensive plan, development regulation, or permanent amendment thereto, is in compliance with the goals and requirements of this chapter or chapter 90.58 or 43.21C RCW must be filed within sixty days after publication as provided in (a) through ~~((e))~~ (d) of this subsection.

(a) Except as provided in (c) and (d) of this subsection, the date of publication for a city shall be the date the city publishes the ordinance, or summary of the ordinance, adopting the comprehensive plan or development regulations, or amendment thereto, as is required to be published.

(b) Promptly after adoption, a county shall publish a notice that it has adopted the comprehensive plan or development regulations, or amendment thereto.

Except as provided in (c) and (d) of this subsection, for purposes of this section the date of publication for a county shall be the date the county publishes the notice that it has adopted the comprehensive plan or development regulations, or amendment thereto.

(c) For local governments planning under RCW 36.70A.040, promptly after approval or disapproval of a local government's shoreline master program or amendment thereto by the department of ecology as provided in RCW 90.58.090, the department of ecology shall publish a notice that the shoreline master program or amendment thereto has been approved or disapproved. For purposes of this section, the date of publication for the adoption or amendment of a shoreline master program is the date the

department of ecology publishes notice that the shoreline master program or amendment thereto has been approved or disapproved.

(d) For purposes of this section, the date of publication for a housing element and any housing development regulations submitted to the department for review under section 1 of this act is the date the department publishes its final decision on compliance in the Washington State Register or on the department's website, whichever is later.

(3)(a) All petitions relating to whether the department's final decision under section 1 of this act is clearly erroneous must be filed within 60 days after the department publishes its final decision in the Washington State Register or on the department's website, whichever is later.

(b) A decision of the board concerning an appeal of the department's final decision under section 1 of this act must be based solely on whether the relevant housing element or housing development regulations comply with the laws and regulations identified in section 1(7) of this act.

(4) Unless the board dismisses the petition as frivolous or finds that the person filing the petition lacks standing, or the parties have filed an agreement to have the case heard in superior court as provided in RCW 36.70A.295, the board shall, within ten days of receipt of the petition, set a time for hearing the matter.

~~((4))~~ (5) The board shall base its decision on the record developed by the city, county, or the state and supplemented with additional evidence if the board determines that such additional evidence would be necessary or of substantial assistance to the board in reaching its decision.

~~((5))~~ (6) The board, shall consolidate, when appropriate, all petitions involving the review of the same comprehensive plan or the same development regulation or regulations.

Sec. 4. RCW 36.70A.320 and 2023 c 228 s 8 are each amended to read as follows:

(1) Except as provided in subsections (5) ~~((and (6)))~~ through (7) of this section, comprehensive plans and development regulations, and amendments thereto, adopted under this chapter are presumed valid upon adoption.

(2) Except as otherwise provided in subsection (4) of this section, the burden is on the petitioner to demonstrate that any action taken by a state agency, county, or city under this chapter is not in compliance with the requirements of this chapter.

(3) In any petition under this chapter, the board, after full consideration of the petition, shall determine whether there is compliance with the requirements of this chapter. In making its determination, the board shall consider the criteria adopted by the department under RCW 36.70A.190(4). The board shall find compliance unless it determines that the action by the state agency, county, or city is clearly erroneous in view of the entire record before the board and in light of the goals and requirements of this chapter.

(4) A county or city subject to a determination of invalidity made under RCW 36.70A.300 or 36.70A.302 has the burden of demonstrating that the ordinance or resolution it has enacted in response to the determination of invalidity will no longer substantially interfere with the fulfillment of the goals of this chapter under the standard in RCW 36.70A.302(1).

(5) The shoreline element of a comprehensive plan and the applicable development regulations adopted by a county or city shall take effect as provided in chapter 90.58 RCW.

(6) The greenhouse gas emissions reduction subelement required by RCW 36.70A.070 shall take effect as provided in RCW 36.70A.096.

(7) Any housing element and any housing development regulations subject to review under section 1 of this act take effect as provided in section 1 of this act.

Sec. 5. RCW 36.70A.130 and 2024 c 17 s 1 are each amended to read as follows:

(1)(a) Each comprehensive land use plan and development regulations shall be subject to continuing review and evaluation by the county or city that adopted them. Except as otherwise provided, a county or city shall take legislative action to review and, if needed, revise its comprehensive land use plan and development regulations to ensure the plan and regulations comply with the requirements of this chapter according to the deadlines in subsections (4) and (5) of this section.

(b)(i) A city or town located within a county planning under RCW 36.70A.040 may opt out of a full review and revisions of its comprehensive plan established in this section if the city or town meets the following criteria:

(A) Has a population fewer than 500;

(B) Is not located within 10 miles of a city with a population over 100,000;

(C) Experienced a population growth rate of fewer than 10 percent in the preceding 10 years; and

(D) Has provided the department with notice of its intent to participate in a partial review and revision of its comprehensive plan.

(ii) The department shall review the population growth rate for a city or town participating in the partial review and revision of its comprehensive plan process at least three years before the periodic update is due as outlined in subsection (4) of this section and notify cities of their eligibility.

(iii) A city or town that opts out of a full review and revision of its comprehensive plan must update its critical areas regulations and its capital facilities element and its transportation element.

(c) Except as otherwise provided, a county or city not planning under RCW 36.70A.040 shall take action to review and, if needed, revise its policies and development regulations regarding critical areas and natural resource lands adopted according to this chapter to ensure these policies and regulations comply with the requirements of this chapter according to

the deadlines in subsections (4) and (5) of this section. Legislative action means the adoption of a resolution or ordinance following notice and a public hearing indicating at a minimum, a finding that a review and evaluation has occurred and identifying the revisions made, or that a revision was not needed and the reasons therefor.

(d) The review and evaluation required by this subsection shall include, but is not limited to, consideration of critical area ordinances and, if planning under RCW 36.70A.040, an analysis of the population allocated to a city or county from the most recent 10-year population forecast by the office of financial management.

(e) Any amendment of or revision to a comprehensive land use plan shall conform to this chapter. Any amendment of or revision to development regulations shall be consistent with and implement the comprehensive plan.

(2)(a) Each county and city shall establish and broadly disseminate to the public a public participation program consistent with RCW 36.70A.035 and 36.70A.140 that identifies procedures and schedules whereby updates, proposed amendments, or revisions of the comprehensive plan are considered by the governing body of the county or city no more frequently than once every year. "Updates" means to review and revise, if needed, according to subsection (1) of this section, and the deadlines in subsections (4) and (5) of this section or in accordance with the provisions of subsection (6) of this section. Amendments may be considered more frequently than once per year under the following circumstances:

(i) The initial adoption of a subarea plan. Subarea plans adopted under this subsection (2)(a)(i) must clarify, supplement, or implement jurisdiction-wide comprehensive plan policies, and may only be adopted if the cumulative impacts of the proposed plan are addressed by appropriate environmental review under chapter 43.21C RCW;

(ii) The development of an initial subarea plan for economic development located outside of the 100 year floodplain in a county that has completed a state-funded pilot project that is based on watershed characterization and local habitat assessment;

(iii) The adoption or amendment of a shoreline master program under the procedures set forth in chapter 90.58 RCW;

(iv) The amendment of the capital facilities element of a comprehensive plan that occurs concurrently with the adoption or amendment of a county or city budget; ~~((or))~~

(v) The adoption of comprehensive plan amendments necessary to enact a planned action under RCW 43.21C.440, provided that amendments are considered in accordance with the public participation program established by the county or city under this subsection (2)(a) and all persons who have requested notice of a comprehensive plan update are given notice of the amendments and an opportunity to comment; or

(vi) The adoption or amendment of any housing element necessary to receive a determination of compliance under section 1 of this act.

(b) Except as otherwise provided in (a) of this subsection, all proposals shall be considered by the governing body concurrently so the cumulative effect of the various proposals can be ascertained. However, after appropriate public participation a county or city may adopt amendments or revisions to its comprehensive plan that conform with this chapter whenever an emergency exists or to resolve an appeal of a comprehensive plan filed with the growth management hearings board or with the court.

(3)(a) Each county that designates urban growth areas under RCW 36.70A.110 shall review, according to the schedules established in subsections (4) and (5) of this section, its designated urban growth area or areas, patterns of development occurring within the urban growth area or areas, and the densities permitted within both the incorporated and unincorporated portions of each urban growth area. In conjunction with this review by the county, each city located within an urban growth area shall review the densities permitted within its boundaries, and the extent to which the urban growth occurring within the county has located within each city and the unincorporated portions of the urban growth areas.

(b) The county comprehensive plan designating urban growth areas, and the densities permitted in the urban growth areas by the comprehensive plans of the county and each city located within the urban growth areas, shall be revised to accommodate the urban growth projected to occur in the county for the succeeding 20-year period. The review required by this subsection may be combined with the review and evaluation required by RCW 36.70A.215.

(c) If, during the county's review under (a) of this subsection, the county determines revision of the urban growth area is not required to accommodate the urban growth projected to occur in the county for the succeeding 20-year period, but does determine that patterns of development have created pressure in areas that exceed available, developable lands within the urban growth area, the urban growth area or areas may be revised to accommodate identified patterns of development and likely future development pressure for the succeeding 20-year period if the following requirements are met:

(i) The revised urban growth area may not result in an increase in the total surface areas of the urban growth area or areas;

(ii) The areas added to the urban growth area are not or have not been designated as agricultural, forest, or mineral resource lands of long-term commercial significance;

(iii) Less than 15 percent of the areas added to the urban growth area are critical areas;

(iv) The areas added to the urban growth areas are suitable for urban growth;

(v) The transportation element and capital facility plan element have identified the transportation facilities,

and public facilities and services needed to serve the urban growth area and the funding to provide the transportation facilities and public facilities and services;

(vi) The urban growth area is not larger than needed to accommodate the growth planned for the succeeding 20-year planning period and a reasonable land market supply factor;

(vii) The areas removed from the urban growth area do not include urban growth or urban densities; and

(viii) The revised urban growth area is contiguous, does not include holes or gaps, and will not increase pressures to urbanize rural or natural resource lands.

(4) Except as otherwise provided in subsections (6) and (8) of this section, counties and cities shall take action to review and, if needed, revise their comprehensive plans and development regulations to ensure the plan and regulations comply with the requirements of this chapter as follows:

(a) On or before June 30, 2015, for King, Pierce, and Snohomish counties and the cities within those counties;

(b) On or before June 30, 2016, for Clallam, Clark, Island, Jefferson, Kitsap, Mason, San Juan, Skagit, Thurston, and Whatcom counties and the cities within those counties;

(c) On or before June 30, 2017, for Benton, Chelan, Cowlitz, Douglas, Kittitas, Lewis, Skamania, Spokane, and Yakima counties and the cities within those counties; and

(d) On or before June 30, 2018, for Adams, Asotin, Columbia, Ferry, Franklin, Garfield, Grant, Grays Harbor, Klickitat, Lincoln, Okanogan, Pacific, Pend Oreille, Stevens, Wahkiakum, Walla Walla, and Whitman counties and the cities within those counties.

(5) Except as otherwise provided in subsections (6) and (8) of this section, following the review of comprehensive plans and development regulations required by subsection (4) of this section, counties and cities shall take action to review and, if needed, revise their comprehensive plans and development regulations to ensure the plan and regulations comply with the requirements of this chapter as follows:

(a) Except as provided in subsection (10) of this section, on or before December 31, 2024, with the following review and, if needed, revision on or before June 30, 2034, and then every 10 years thereafter, for King, Kitsap, Pierce, and Snohomish counties and the cities within those counties;

(b) On or before December 31, 2025, with the following review and, if needed, revision on or before June 30, 2035, and then every 10 years thereafter, for Clallam, Clark, Island, Jefferson, Lewis, Mason, San Juan, Skagit, Thurston, and Whatcom counties and the cities within those counties;

(c) On or before June 30, 2026, and every 10 years thereafter, for Benton, Chelan, Cowlitz, Douglas, Franklin, Kittitas, Skamania, Spokane, Walla Walla, and Yakima counties and the cities within those counties; and

(d) On or before June 30, 2027, and every 10 years thereafter, for Adams, Asotin,

Columbia, Ferry, Garfield, Grant, Grays Harbor, Klickitat, Lincoln, Okanogan, Pacific, Pend Oreille, Stevens, Wahkiakum, and Whitman counties and the cities within those counties.

(6)(a) Nothing in this section precludes a county or city from conducting the review and evaluation required by this section before the deadlines established in subsections (4) and (5) of this section. Counties and cities may begin this process early and may be eligible for grants from the department, subject to available funding, if they elect to do so.

(b) A county that is subject to a deadline established in subsection (5)(b) through (d) of this section and meets the following criteria may comply with the requirements of this section at any time within the 24 months following the deadline established in subsection (5) of this section: The county has a population of less than 50,000 and has had its population increase by no more than 17 percent in the 10 years preceding the deadline established in subsection (5) of this section as of that date.

(c) A city that is subject to a deadline established in subsection (5)(b) through (d) of this section and meets the following criteria may comply with the requirements of this section at any time within the 24 months following the deadline established in subsection (5) of this section: The city has a population of no more than 5,000 and has had its population increase by the greater of either no more than 100 persons or no more than 17 percent in the 10 years preceding the deadline established in subsection (5) of this section as of that date.

(d) State agencies are encouraged to provide technical assistance to the counties and cities in the review of critical area ordinances, comprehensive plans, and development regulations.

(7)(a) The requirements imposed on counties and cities under this section shall be considered "requirements of this chapter" under the terms of RCW 36.70A.040(1). Only those counties and cities that meet the following criteria may receive grants, loans, pledges, or financial guarantees under chapter 43.155 or 70A.135 RCW:

(i) ~~((Complying))~~ The county or city is in compliance with the deadlines in this section; ~~((or))~~

(ii) ~~((Demonstrating))~~ The county or city demonstrates substantial progress towards compliance with the ~~((schedules))~~ deadlines in this section for development regulations that protect critical areas. ~~((b) A)~~ For the purposes of this subsection (7)(a)(ii), a county or city that is fewer than 12 months out of compliance with the ~~((schedules))~~ deadlines in this section for development regulations that protect critical areas is making substantial progress towards compliance with the deadlines in this section; or

(iii) The county or city demonstrates substantial progress towards compliance with the deadlines in this section for any housing element and any housing development regulations required to be submitted to the department for review under section 1 of

this act. For the purposes of this subsection (7)(a)(iii), a county or city that applies to the department for review within the timelines specified under section 1 of this act demonstrates substantial progress towards compliance with the deadlines in this section and is eligible for grants, loans, pledges, or financial guarantees under chapter 43.155 or 70A.135 RCW until the department or the growth management hearings board issues a final decision determining that the county's or city's housing element or any related housing development regulations are not in compliance with the laws and regulations identified in section 1(7) of this act.

(b) Only those counties and cities in compliance with the schedules in this section may receive preference for grants or loans subject to the provisions of RCW 43.17.250.

(8)(a) Except as otherwise provided in (c) of this subsection, if a participating watershed is achieving benchmarks and goals for the protection of critical areas functions and values, the county is not required to update development regulations to protect critical areas as they specifically apply to agricultural activities in that watershed.

(b) A county that has made the election under RCW 36.70A.710(1) may only adopt or amend development regulations to protect critical areas as they specifically apply to agricultural activities in a participating watershed if:

(i) A work plan has been approved for that watershed in accordance with RCW 36.70A.725;

(ii) The local watershed group for that watershed has requested the county to adopt or amend development regulations as part of a work plan developed under RCW 36.70A.720;

(iii) The adoption or amendment of the development regulations is necessary to enable the county to respond to an order of the growth management hearings board or court;

(iv) The adoption or amendment of development regulations is necessary to address a threat to human health or safety; or

(v) Three or more years have elapsed since the receipt of funding.

(c) Beginning 10 years from the date of receipt of funding, a county that has made the election under RCW 36.70A.710(1) must review and, if necessary, revise development regulations to protect critical areas as they specifically apply to agricultural activities in a participating watershed in accordance with the review and revision requirements and timeline in subsection (5) of this section. This subsection (8)(c) does not apply to a participating watershed that has determined under RCW 36.70A.720(2)(c) (ii) that the watershed's goals and benchmarks for protection have been met.

(9)(a) Counties subject to planning deadlines established in subsection (5) of this section that are required or that choose to plan under RCW 36.70A.040 and that meet either criteria of (a)(i) or (ii) of this subsection, and cities with a population of more than 6,000 as of April 1, 2021, within those counties, must provide to

the department an implementation progress report detailing the progress they have achieved in implementing their comprehensive plan five years after the review and revision of their comprehensive plan. Once a county meets the criteria in (a)(i) or (ii) of this subsection, the implementation progress report requirements remain in effect thereafter for that county and the cities therein with populations greater than 6,000 as of April 1, 2021, even if the county later no longer meets either or both criteria. A county is subject to the implementation progress report requirement if it meets either of the following criteria on or after April 1, 2021:

(i) The county has a population density of at least 100 people per square mile and a population of at least 200,000; or

(ii) The county has a population density of at least 75 people per square mile and an annual growth rate of at least 1.75 percent as determined by the office of financial management.

(b) The department shall adopt guidelines for indicators, measures, milestones, and criteria for use by counties and cities in the implementation progress report that must cover:

(i) The implementation of previously adopted changes to the housing element and any effect those changes have had on housing affordability and availability within the jurisdiction;

(ii) Permit processing timelines; and

(iii) Progress toward implementing any actions required to achieve reductions to meet greenhouse gas and vehicle miles traveled requirements as provided for in any element of the comprehensive plan under RCW 36.70A.070.

(c) If a city or county required to provide an implementation progress report under this subsection (9) has not implemented any specifically identified regulations, zoning and land use changes, or taken other legislative or administrative action necessary to implement any changes in the most recent periodic update in their comprehensive plan by the due date for the implementation progress report, the city or county must identify the need for such action in the implementation progress report. Cities and counties must adopt a work plan to implement any necessary regulations, zoning and land use changes, or take other legislative or administrative action identified in the implementation progress report and complete all work necessary for implementation within two years of submission of the implementation progress report.

(10) Any county or city that is required by RCW 36.70A.095 to include in its comprehensive plan a climate change and resiliency element and that is also required by subsection (5)(a) of this section to review and, if necessary, revise its comprehensive plan on or before December 31, 2024, must update its transportation element and incorporate a climate change and resiliency element into its comprehensive plan as part of the first implementation progress report required by subsection (9) of this section if funds are appropriated

and distributed by December 31, 2027, as required under RCW 36.70A.070(10).

Sec. 6. RCW 43.21C.495 and 2023 c 334 s 6 and 2023 c 332 s 8 are each reenacted and amended to read as follows:

(1) Adoption of ordinances, development regulations and amendments to such regulations, and other nonproject actions taken by a city to implement: The actions specified in section 2, chapter 246, Laws of 2022 unless the adoption of such ordinances, development regulations and amendments to such regulations, or other nonproject actions has a probable significant adverse impact on fish habitat; and the increased residential building capacity actions identified in RCW 36.70A.600(1), with the exception of the action specified in RCW 36.70A.600(1)(f), are not subject to administrative or judicial appeals under this chapter.

(2) Amendments to development regulations and other nonproject actions taken by a city to implement the requirements under RCW 36.70A.635 pursuant to RCW 36.70A.636(3)(b) are not subject to administrative or judicial appeals under this chapter.

(3) Adoption of ordinances, development regulations and amendments to such regulations, and other nonproject actions taken by a city or county consistent with the requirements of RCW 36.70A.680 and 36.70A.681 are not subject to administrative or judicial appeals under this chapter.

(4) Adoption of ordinances, development regulations and amendments to such regulations, and other nonproject actions by a city or county to implement the housing element requirements set forth in RCW 36.70A.070(2) are not subject to administrative or judicial appeals under this chapter.

NEW SECTION. Sec. 7. A new section is added to chapter 36.70A RCW to read as follows:

The state, through the department and the attorney general, shall represent its interest before agencies of the United States, interstate agencies, and the courts with regard to comprehensive plans, regulations, activities, or uses approved under this act. Where federal or interstate agency plans, activities, or procedures conflict with state policies, all reasonable steps available shall be taken by the state to preserve the integrity of its policies.

NEW SECTION. Sec. 8. This act may be known and cited as the housing accountability act.

All duties and obligations under this chapter that are specified to begin on or after July 1, 2029, are conditional upon the legislature amending this chapter to provide such new direction and authority.

(i) The impact of the proposed program on the consumer prices of covered materials and items sold with covered materials; and

(ii) The impacts of the proposed program on environmental justice, as defined in RCW 70A.02.010, and on the availability and convenience of recycling, composting, and reuse services, including specific analysis of the availability and convenience of recycling, composting, and reuse services used by socially vulnerable populations and in overburdened communities.

(b) The department must solicit and consider input from the advisory council and equity subcommittee in selecting the independent consultant under this subsection (1). The department is prohibited from selecting an independent consultant under this subsection that has been selected by the department for other studies or tasks under this chapter or that has been previously selected by the department for contracts related to the design of an extended producer responsibility program for paper products and packaging.

(c) The analysis must be informed by input from stakeholders and informed by experience from other jurisdictions.

(d) The analysis must be completed and submitted to the department by January 15, 2029.

(e) The department's contract with the independent consultant must allow the consultant to begin its analysis prior to the submission of the draft plan on October 1, 2028. The department must require a producer responsibility organization to cooperate and share information with the independent consultant hired by the department to facilitate the consultant being able to complete its analysis in time to allow for consideration by the 2029 legislature.

Amendment (1182) to the committee striking amendment was not adopted.

Representative Couture moved the adoption of amendment (1179) to the committee striking amendment:

On page 1, beginning on line 3 of the striking amendment, after "(1)" strike all material through "commission" on page 2, line 3, and insert "The legislature finds that Washington is experiencing an affordability crisis. Washington is the eighth most expensive state to raise a child. Parents spend nearly \$28,000 per year on essentials like food, housing, child care, healthcare, and on transportation, about \$5,000 more than the national average. According to the latest data from the U.S. census bureau household pulse survey, Washingtonians spend the fourth most amount on groceries. In a recent survey, more than 42 percent of adults said they were very stressed about price increases. Thirty-five percent of Washington households self-report living paycheck to paycheck. Recent surveys reveal that more than half of Washingtonians report food insecurity, with many struggling to afford basic groceries. Between August and October 2024, 78 percent of respondents noticed price increases, and 70 percent of food insecure households reported cutting back on both the quantity and quality of food. Many residents must rely on food assistance programs to make ends meet. One in seven children in Washington face hunger.

(2) The legislature also finds that extended producer responsibility (EPR) programs that place new costs on product producers increase the costs of the products that consumers buy. The legislature acknowledges that state estimates of business and occupation tax revenue collections from producer responsibility organizations charged with managing paper and plastic packaging and beverage containers are based on revenue generated from hundreds of millions of dollars in new fees paid by producers to those organizations each year. The legislature recognizes that these EPR programs will create a tsunami of new costs passed on to the products Washingtonians purchase at the grocery store, because our groceries and beverages are shipped and packaged in cardboard, paper, plastic, aluminum and glass.

(3) The legislature nonetheless chooses to increase the price of groceries at this time of an affordability crisis in order to, if successful, marginally improve Washington state's top ten recycling rate performance

through a costly and cumbersome state centralization of solid waste management"

Representatives Couture, Abbarno and Dufault spoke in favor of the adoption of the amendment to the committee striking amendment.

Representative Berry spoke against the adoption of the amendment to the committee striking amendment.

Representative Couture moved the adoption of amendment (1181) to the committee striking amendment:

On page 1, beginning on line 3 of the striking amendment, after "(1)" strike all material though "commission" on page 2, line 3, and insert "The legislature finds that Washington state's solid waste management system places the primary responsibility for solid waste management on county and city government. Under the current system, municipal solid waste plans are developed and adopted by locally elected officials

under circumstances in which government decision making is open to the public through the public records act and open public meeting laws.

(2) Today, the legislature finds it appropriate to break that system and break trust with the public. The legislature intends to shield decision-making from the public about solid waste management by handing collection responsibilities for important waste streams like paper, plastic, and glass over to a nonprofit. The decision-making of this nonprofit will not be subject to open public meeting requirements. The decision-making of this nonprofit will not be subject to the scrutiny afforded by the protections of the public records act. The identity of this nonprofit and its board will be unknown to the public at the time lawmakers grant it incredible authority and responsibilities through this legislation. The public will have no mechanism to hold this nonprofit accountable—the nonprofit and its board never face voters. This nonprofit will be able to control valuable streams of commodities, enter into exclusive contracts, and collect hundreds of millions in fees, and yet it will be immune from traditional consumer protection laws like the prohibition on anticompetitive behavior that exists in state antitrust law.

(3) The legislature intends to reverse its position on solid waste policy and traditional notions of open and transparent government, to achieve, in a best-case scenario, modest recycling rate gains over a long period of time as infrastructure is built out at an all-in cost to the public and consumers that remains unknown but are projected at hundreds of millions of dollars in the first years. The legislature intends to take this step to legalize anti-competitive conduct and anti-transparent governance of solid waste without first conducting a county-by-county needs assessment even though assessing costs before proceeding further was the policy option that had unanimous support in the environment and energy committee. Therefore, the legislature overrides these long-held notions of consumer protection, cost-benefit analysis, transparency, and open government"

Representatives Couture and Abell spoke in favor of the adoption of the amendment to the committee striking amendment.

Representative Berry spoke against the adoption of the amendment to the committee striking amendment.

(2) The study and report must analyze:

(a) The responsibilities and functions in solid waste management that this act allocates to private producer responsibility organizations that have traditionally been

done by public employees or that are capable of being done by public employees;

(b) The staffing levels anticipated for producer responsibility organizations over the first ten years of program implementation after registration with the department of ecology under 70A.--- RCW (the new chapter created in section 401 of this act) and how many full time equivalent public employees that staffing level would translate to if the duties of a producer responsibility organization were instead carried out by state or local agencies; and

(c) Any challenges or barriers that would prevent any duties assigned to a producer responsibility organization under this act from being done by employees of state or local agencies.

(3) The Washington state institute for public policy must, in its report to the legislature, propose an alternate structure for extended producer responsibility for covered materials under 70A.--- RCW (the new chapter created in section 401 of this act) that would accomplish the recycling targets and other program outcomes without assigning the roles and responsibilities for policy development, fee setting and collection, and program enforcement to a private entity."

Beginning on page 1, line 3, strike all material through "RCW." on page 78, line 15 and insert the following:

**"PART 1
INTENT"**

NEW SECTION. Sec. 101. INTENT. (1) The legislature finds that:

(a) Washington state has been a leader in recycling policy, reaching the goal of 50 percent recycling set by the legislature in RCW 70A.205.005. The legislature further finds that, since meeting the state's goal to achieve a 50 percent recycling rate, global market conditions have caused the recycling rate to fall below 50 percent, demonstrating the dependence of recycling rates on reliable, consistent recycling markets for recyclable materials;

(b) New goals and target recycling rates must be established and a comprehensive statewide infrastructure analysis, cost and opportunity evaluation of Washington's recycling system is necessary to implement improvements to Washington's existing recycling system to reach those goals;

(c) Programs, activities, or projects that reduce greenhouse gas emissions from the solid waste sector, including a comprehensive statewide infrastructure analysis, cost and opportunity evaluation, are intended to be funded from the climate commitment account;

(d) 88 percent of Washington residents living in single-family homes and 77 percent living in multifamily residences have access to curbside recycling services through a robust regulatory structure that ensures equal access to services at affordable rates; and

(e) The investments in infrastructure by Washington companies has led to the development of materials sorting and processing superior to most other states.

(2)(a) The legislature finds that contamination in the recycling stream is a major impediment to higher recovery rates.

(b) It is the intent of the legislature to implement proven strategies to address these challenges, including:

(i) The establishment of a single statewide list of materials for recyclables collected through Washington's curbside recycling system to reduce confusion and increase participation;

(ii) A robust infrastructure analysis, cost and opportunity evaluation unique to Washington state to determine costs and investments necessary to achieve a 65 percent overall recycling rate for packaging;

(iii) Study the use of recycling symbols on packaging that cannot be readily recycled through Washington's recycling system; and

(iv) The expansion of the successful recycled content requirements to ensure more materials are manufactured with postconsumer material.

(3) It is the intent of the legislature that:

(a) Producers increase the use of postconsumer recycled content in their products, to achieve the goals in RCW 70A.520.010(2) and to create strong markets for recycled materials and achieve environmental benefits; and

(b) Through design and innovation, producers will reduce the use and climate

impact of consumer packaging and paper products and increase the use of postconsumer recycled content.

(4) Finally, it is the intent of the legislature that Washington should maintain the successful public-private partnership between state, local government, and solid waste and recycling service providers. The legislature does not intend to diminish or displace the primary role of the utilities and transportation commission and local governments in regulating or contracting directly with service providers for the curbside collection of residential recyclables. Local governments maintain their existing authority to collect, contract for collection with solid waste and recycling service providers, or defer to solid waste collection services regulated by the utilities and transportation commission.

(5) Therefore, it is the intent of the legislature to implement proven strategies to address these challenges, including a robust comprehensive statewide infrastructure analysis, cost and opportunity evaluation unique to Washington state to determine costs and investments necessary to achieve a 65 percent overall recycling rate for packaging.

(b) Stakeholders, jurisdictions planning under chapter 70A.205 RCW, and the advisory committee must have the opportunity to review and comment on the draft comprehensive analysis and evaluation at least 90 days prior to its completion. The advisory committee must have the opportunity to review drafts of the comprehensive analysis and evaluation and accompanying data used in the comprehensive analysis and evaluation.

(2) The comprehensive statewide infrastructure analysis, cost and opportunity evaluation must be:

(a) Informed by highest achievable recycling rates and recommended targets in the 2023 performance rates study identified

(3) The comprehensive statewide infrastructure analysis, cost and opportunity evaluation must:

(a) For each jurisdiction planning under chapter 70A.205 RCW, evaluate the capacity, costs, gaps, and needs for the following factors necessary to achieve recycling performance rate recommendations to reach the goal identified under section 202 of this act:

(i) Evaluate what services related to the requirements of this chapter are currently being delivered in each county and city planning under chapter 70A.205 RCW and what the costs are for those existing services;

(A) Availability and types of recycling services for covered products for residents in single-family and multifamily residences, including whether current services are considered residential or commercial and whether any gaps, costs, or needs are specific to either commercial or residential customer service;

(B) The current methods and infrastructure for serving residents, including curbside recycling service areas and material drop-off locations;

(C) Any densely populated areas within each jurisdiction in which curbside recycling services for covered products identified by the department on the list developed and published under section 203 of this act are not available or are only partially available;

(D) Any areas within each jurisdiction where curbside garbage collection services are offered to residents in single-family and multifamily residences but curbside recycling services are not offered;

(ii) Evaluate what new or expanded services and infrastructure are needed in each county and city planning under chapter 70A.205 RCW to meet the target performance rates and what the anticipated costs are for those additional services and infrastructure;

(iii) Education and outreach activities, which may include digital mediums on packaging;

(iv) Availability and performance of collection, transport, and processing capacity and infrastructure, including consideration of material quality and contamination;

(v) Necessary capital investments to existing reuse and recycling infrastructure, and how to maximize the use of existing infrastructure;

including costs for various service methods recommended by stakeholders during the study scoping process;

(c) Estimate the total costs of investments necessary to reach target rates, within each jurisdiction, as well as ongoing program costs related to labor, equipment, and maintenance. Cost factors and variables to be considered in the estimates include:

(i) Population size and density of a local jurisdiction;

(ii) Types of households serviced and collection method used;

(iii) Distance from a local jurisdiction to the nearest recycling facility;

(iv) Whether a jurisdiction pays for transportation and sorting of collected materials and whether it receives a commodity value from processed materials;

(vi) Cost increases over time; and

(vii) Any other factors as determined to be necessary by the department, with input from stakeholders;

(d)(i) Identify cost factors and other variables to be considered in the development of funding estimates for government entities for any services other than curbside collection to be carried out by government entities that may be needed to achieve performance rates developed under section 202 of this act;

(ii) Identify methods to consider greenhouse gas emissions and other environmental outcomes associated with potential expansions of curbside recycling services to rural or sparsely populated areas;

(e) Compile relevant information to be considered in the development of criteria by the department to determine whether a covered product is recyclable, reusable, or compostable through Washington's curbside recycling collection system. The relevant information to be compiled may include whether covered product materials are:

(i) Or may be, collected, separated, and processed in sufficient quantity and quality into a marketable feedstock that can be used in the production of new products; or

(ii) Designed in a way that is problematic for reuse, recycling, or composting;

(f) Evaluate how the state's existing recycling system can be improved in a socially just manner as it relates to activities required under this chapter. The assessment must:

(i) Include meaningful consultation with overburdened communities and vulnerable populations;

(ii) Determine conditions and make recommendations including, at minimum:

(A) Improving access to the recycling system for women and minority individuals;

(B) The sufficiency of local government requirements related to multifamily recycling services and their implementation;

(D) Improving the sufficiency of recycling education and outreach programs relative to desired socially just management outcomes;

(E) Recommendations for improving socially just management practices and outcomes in the state's recycling system; and

(F) Evaluate the extent to which covered products contribute to litter and marine debris. The assessment should draw on available data, assess gaps, and identify strategies for improving prevention and cleanup of litter and marine debris from covered products;

(g) Compile information from available data sources on the presence of toxic substances in covered products and their potential negative impacts on reuse, recycling, and composting systems. The information compiled is intended to inform the development of ecomodulation factors that incentivize the reduction of toxic substances that have potentially negative impacts when covered products are managed through reuse, recycling, and composting systems; and

(h) Conduct voluntary interviews with service providers of curbside recycling services or recycling processing services within a jurisdiction on costs for additional infrastructure, vehicles, staff, equipment, and other investments to achieve the recycling performance goal established under section 202 of this act.
