There being no objection, Substitute House Bill No. 1842 was substituted for House Bill No. 1842 and the substitute bill was placed on the second reading calendar.

SUBSTITUTE HOUSE BILL NO. 1842 was read the second time.

Representative Farrell moved the adoption of amendment (564):

Strike everything after the enacting clause and insert the following:

"NEW SECTION. **Sec. 1.** The central Puget Sound is projected to grow considerably, in both population and jobs, over the course of the next several decades. It is thus critical that all its transportation infrastructure be well planned and coordinated, including its transit systems. It is the intent of the legislature to encourage this planning and coordination on the part of central Puget Sound transit systems in order to improve the user experience, increase ridership, and make the most effective use of tax dollars.

Sec. 2. RCW 35.58.2796 and 2011 c 371 s 2 are each amended to read as follows:

(1)(a) The department of transportation shall develop an annual report summarizing the status of public transportation systems in the state for the previous calendar year. By December 1st of each year, the report must be made available to the transportation committees of the legislature and to each municipality, as defined in RCW 35.58.272, and to individual members of the municipality's legislative authority.

((2)) (b) To assist the department with preparation of the report, each municipality shall file a system report by September 1st of each year with the state department of transportation identifying its public transportation services for the previous calendar year and its objectives for improving the efficiency and effectiveness of those services. The system report shall address those items required for each public transportation system in the department's report.

((3)) (c) The department report shall describe individual public transportation systems, including contracted transportation services and dial-a-ride services, and include a statewide summary of public transportation issues and data. The descriptions shall include the following elements and such other elements as the department deems appropriate after consultation with the municipalities and the transportation committees of the legislature:

((4)) (i) Equipment and facilities, including vehicle replacement standards;

((5)) (ii) Services and service standards;

((6)) (iii) Revenues, expenses, and ending balances, by fund source;

((7)) (iv) Policy issues and system improvement objectives, including community participation in development of those objectives and how those objectives address statewide transportation priorities;

((8)) (v) Operating indicators applied to public transportation services, revenues, and expenses. Operating indicators shall include operating cost per passenger trip, operating cost per revenue vehicle service hour, passenger trips per revenue service hour, passenger trips per vehicle service mile, vehicle service hours per employee, and farebox revenue as a percent of operating costs.

((9)) (d) To the extent that information is available, the department report must include descriptive information on any other modes of public transportation, the impact of public transportation on transportation system performance, and how public transportation helps the state meet the transportation system policy goals described in RCW 47.04.280.

(2)(a) The department of transportation shall develop an annual report summarizing the status of public transportation system coordination in and between counties with a population of seven hundred thousand or more that border Puget Sound for the previous calendar year. By December 1st of each year, the report must be made available to the transportation committees of the

legislature and to each municipality, as defined in RCW 35.58.272, located in a county with a population of seven hundred thousand or more that borders Puget Sound and to individual members of the municipality's legislative authority.

(b) To assist the department with preparation of the report required under this subsection, each municipality, as defined in RCW 35.58.272, located in a county with a population of seven hundred thousand or more that borders Puget Sound shall file a report by September 1st of each year with the department identifying its coordination efforts in the previous calendar year with other municipalities, as defined in RCW 35.58.272, located in counties with a population of seven hundred thousand or more that border Puget Sound in the following areas:

(i) Integrating marketing efforts;

(ii) Aligning fare structures;

(iii) Integrating service planning;

(iv) Coordinating long-range planning, including capital projects planning and implementation;

(v) Integrating other administrative functions and internal business processes as appropriate; and

(vi) Integrating certain customer-focused tools and initiatives.

Sec. 3. RCW 47.66.030 and 2005 c 318 s 4 are each amended to read as follows:

(1)(a) The department shall establish a regional mobility grant program. The purpose of the grant program is to aid local governments in funding projects such as intercounty connectivity service, park and ride lots, rush hour transit service, and capital projects that improve the connectivity and efficiency of our transportation system. The department shall identify cost-effective projects that reduce delay for people and goods and improve connectivity between counties and regional population centers. The department shall submit a prioritized list of all projects requesting funding to the legislature by December 1st of each year.

(b) Once the department has a prioritized list, pursuant to (a) of this subsection and RCW 47.66.040, of all projects requesting funding, the department shall reprioritize the projects in counties with a population of seven hundred thousand or more that border Puget Sound based on the same criteria used for the prioritized list as well as the additional criteria of coordination and integration. After this reprioritization, the department shall integrate these reprioritized projects with the prioritized projects from all other counties while ensuring that the prioritized projects from all other counties do not move to a lower relative position on this integrated list or, if a prioritized project from all other counties is in the funded portion of the prioritized list, out of the funded portion of this integrated list.

(2) The department may establish an advisory committee to carry out the mandates of this chapter.

(3) The department must report annually to the transportation committees of the legislature on the status of any grants projects funded by the program created under this section.

NEW SECTION. Sec. 4. A new section is added to chapter 47.66 RCW to read as follows:

(1) The transit coordination grant program is created in the department. The purpose of the transit coordination grant program is to encourage joint planning and coordination on the part of central Puget Sound transit systems in order to improve the user experience, increase ridership, and make the most effective use of tax dollars. The department shall oversee, manage, score, select, and evaluate transit coordination grant program project applications, and shall select transit coordination grant recipients annually. A transit agency located in a county or counties with a population of seven hundred thousand or more that border Puget Sound is eligible to apply to the department for transit coordination grants.

(2) Projects eligible for transit coordination grants include, but are not limited to, projects that:

(a) Integrate marketing efforts;

(b) Align fare structures;

(c) Integrate service planning;

(d) Coordinate long-range planning, including capital projects planning and implementation;

(e) Integrate other administrative functions and internal business processes as appropriate; and

(f) Integrate certain customer-focused tools and initiatives.

(3) Transit coordination grants must, at a minimum, be proposed jointly by two or more eligible transit agencies and must include a description of the:

(a) Issue or problem to be addressed;

(b) Specific solution and measurable outcomes;

(c) Benefits such as cost savings, travel time improvements, improved coordination, and improved customer experience; and

(d) Performance measurements and an evaluation plan that includes the identification of milestones towards successful completion of the project.

(4) Transit coordination grant applications must include measurable outcomes for the project including, but not limited to, the following:

(a) Impacts on service, such as increased service, improved service delivery, and improved transfers and coordination across transit service;

(b) Impacts on customer service, such as: Improved reliability; improved outreach and coordination with customers, employers, and communities; improvements in customer service functions, such as customer response time and web-based and other communications; and

(c) Impacts on administration, such as improved marketing and outreach efforts, integrated customer-focused tools, and improved cross-agency communications.

(5) Transit coordination grant applications must also include:

(a) Project budget and cost details; and

(b) A commitment and description of local matching funding of at least ten percent of the project cost.

(6) Upon completion of the project, transit coordination grant recipients must provide a report to the department that includes an overview of the project, how the grant funds were spent, and the extent to which the identified project outcomes were met. In addition, such reports must include a description of best practices that could be transferred to other transit agencies faced with similar issues to those addressed by the transit coordination grant recipient. The department must report annually to the transportation committees of the legislature on the transit coordination grants that were awarded, and the report must include data to determine if completed transit coordination grant projects produced the anticipated outcomes included in the grant applications.

(7) This section expires July 1, 2020.

NEW SECTION. Sec. 5. This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect immediately."

SECOND READING

SUBSTITUTE HOUSE BILL NO. 2012, by House Committee on Transportation (originally sponsored by Representatives Orcutt, Clibborn, Hargrove, Hayes, Pike, Zeiger, Muri and Wilson)

Concerning the implementation of practical design by the department of transportation.

The bill was read the second time.

Representative Clibborn moved the adoption of amendment (562):

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 6. A new section is added to chapter 47.01 RCW to read as follows:

(1)(a) For projects identified as connecting Washington projects and supported by revenues under chapter . . . (Engrossed Substitute Senate Bill No. 5987), Laws of 2015 3rd sp. sess., it is the priority of the legislature that the department deliver the named projects. The legislature encourages the department to continue to institutionalize innovation and collaboration in design and project delivery with an eye toward the most efficient use of resources. In doing so, the legislature expects that, for some projects, costs will be reduced during the project design phase due to the application of practical design. However, significant changes to a project title or scope arising from the application of practical design requires legislative approval. The legislature will utilize existing mechanisms and processes to ensure timely and efficient approval. Practical design-related changes to the scope may be proposed by the department, for the legislature's approval, only if the project's intended performance is substantially unchanged and the local governments and interested stakeholders impacted by the project have been consulted and have reviewed the proposed changes.

(b) To the greatest extent practicable, a contract for the construction of a project with any change to the title or scope, whether significant or not, arising from the application of practical design must not be let until the department has provided a detailed notice describing the change to the chairs and ranking members of the house of representatives and senate transportation committees or, if during the interim, to the joint transportation committee.

(c) To determine the savings attributable to practical design, each connecting Washington project must be evaluated. For design-bid-build projects, the evaluation must occur at the end of the project design phase. For design-build projects, the evaluation must occur at the completion of thirty percent design. Each year as a part of its annual budget submittal, the department must include a detailed summary of how practical design has been applied and the associated savings gained. The annual summary must also include for each project: Details regarding any savings gained specifically through changes in the cost of materials, changes in the scope of a project and associated impacts on risk, the retirement of any risk reserves, and unused contingency funds.

(2)(a) The transportation future funding program is intended to provide for future emergent transportation projects, accelerating the schedule for existing connecting Washington projects, and highway preservation investments, beginning in fiscal year 2024, based on savings accrued from the application of practical design and any retired risk or unused contingency funding on connecting Washington projects.

(b) Beginning July 1, 2016, the department must submit a report to the state treasurer and the transportation committees of the legislature once every six months identifying the amount of savings attributable to the application of practical design, retired risk, and unused contingency funding, and report when the savings become available. The state treasurer must transfer the available amounts identified in the report to the transportation future funding program account created in section 2 of this act.

(c) Beginning in fiscal year 2024, as a part of its budget submittal, the department may provide a list of highway improvement projects or preservation investments for potential legislative approval as part of the transportation future funding program. Highway improvement projects considered for inclusion under the transportation future funding program may include new connecting Washington projects, or accelerate the schedule for existing connecting Washington projects, and must: Address significant safety concerns; alleviate congestion and advance mobility; provide compelling economic development gains; leverage partnership funds from local, federal, or other sources; or

require a next phase of funding to build upon initial investments provided by the legislature.

(d) It is the intent of the legislature that if savings attributable to the application of practical design are used to accelerate existing connecting Washington projects, savings must also be used for new connecting Washington projects of equal cost.

NEW SECTION. Sec. 7. A new section is added to chapter 46.68 RCW to read as follows:

The transportation future funding program account is created in the connecting Washington account established in chapter . . . (Engrossed Substitute Senate Bill No. 5987), Laws of 2015 3rd sp. sess. Moneys in the account may be spent only after appropriation. Expenditures from the account must be used only for preservation projects, to accelerate the schedule of connecting Washington projects identified in chapter . . . (Engrossed Substitute Senate Bill No. 5988), Laws of 2015 3rd sp. sess., for new connecting Washington projects, and for principal and interest on bonds authorized for the projects. It is the legislature's intent that moneys not be appropriated from the account until 2024 and that moneys in the account be expended in equal amounts between preservation and improvement projects. Moneys in the account may not be expended on the state route number 99 Alaskan Way viaduct replacement project.

Sec. 8. RCW 43.84.092 and 2014 c 112 s 106, 2014 c 74 s 5, and 2014 c 32 s 6 are each reenacted and amended to read as follows:

(1) All earnings of investments of surplus balances in the state treasury shall be deposited to the treasury income account, which account is hereby established in the state treasury.

(2) The treasury income account shall be utilized to pay or receive funds associated with federal programs as required by the federal cash management improvement act of 1990. The treasury income account is subject in all respects to chapter 43.88 RCW, but no appropriation is required for refunds or allocations of interest earnings required by the cash management improvement act. Refunds of interest to the federal treasury required under the cash management improvement act fall under RCW 43.88.180 and shall not require appropriation. The office of financial management shall determine the amounts due to or from the federal government pursuant to the cash management improvement act. The office of financial management may direct transfers of funds between accounts as deemed necessary to implement the provisions of the cash management improvement act, and this subsection. Refunds or allocations shall occur prior to the distributions of earnings set forth in subsection (4) of this section.

(3) Except for the provisions of RCW 43.84.160, the treasury income account may be utilized for the payment of purchased banking services on behalf of treasury funds including, but not limited to, depository, safekeeping, and disbursement functions for the state treasury and affected state agencies. The treasury income account is subject in all respects to chapter 43.88 RCW, but no appropriation is required for payments to financial institutions. Payments shall occur prior to distribution of earnings set forth in subsection (4) of this section.

(4) Monthly, the state treasurer shall distribute the earnings credited to the treasury income account. The state treasurer shall credit the general fund with all the earnings credited to the treasury income account except:

(a) The following accounts and funds shall receive their proportionate share of earnings based upon each account's and fund's average daily balance for the period: The aeronautics account, the aircraft search and rescue account, the Alaskan Way viaduct replacement project account, the brownfield redevelopment trust fund account, the budget stabilization account, the capital vessel replacement account, the capitol building construction account, the Cedar River channel construction and

ENGROSSED SUBSTITUTE HOUSE BILL NO. 2012, having received the necessary constitutional majority, was declared passed.

SECOND READING

ENGROSSED HOUSE BILL NO. 2266, by Representative Sullivan

Deferring implementation of class size reduction and school employee staffing formula changes.

The bill was read the second time.

Representative Sullivan moved the adoption of amendment (555):

On page 1, after line 5, insert the following:

"**NEW SECTION. Sec. 1.** At the 2014 general election, the voters approved Initiative 1351, which proposed to amend the formulas by which the state allocates funding for state-funded school district employees. Initiative 1351 increased the state's obligation to fund teachers for class size reduction in excess of the class size reduction in grades K-3 already enacted by the legislature in chapter 548, Laws of 2009 (ESHB 2261) and chapter 236, Laws of 2010 (SHB 2776). Initiative 1351 also increased the state's obligation to

provide funding for other types of school district employees beyond teachers.

In 2012, the state supreme court ruled in *McCleary v. State* that the state has failed to comply with its Article IX duty to make ample provision for the state's program of basic education. In its ruling, the court declared that ESHB 2261 constituted a "promising reform" that would bring the state into compliance with Article IX "if fully funded[.]" In the time since the original *McCleary* ruling, the state has continued to implement ESHB 2261 and SHB 2776, with full implementation scheduled for the statutory deadline of 2018.

For two sets of educational reasons, the legislature finds that it is appropriate to delay implementation of Initiative 1351 for four years.

First, the legislature finds, based on research reviewed by the Basic Education Funding Task Force and the Quality Education Council, that the greatest improvements in student outcomes in the common schools can be achieved in the near term by focusing the investment of state fiscal resources in the areas identified in ESHB 2261 and SHB 2776, which emphasize fund class size reduction in early grades. The legislature further finds that the court in its *McCleary* ruling and orders has identified investments in these areas as the funding reforms that are needed to bring the state into compliance with its Article IX obligations, which provides an educational reason for focusing on funding the reforms of ESHB 2261 and SHB 2776 in the 2015-17 and 2017-19 fiscal biennia.

Second, the legislature finds that there are practical educational reasons to temporarily defer implementation of increased staffing ratios and the portion of class size reduction that is beyond the reductions called for in SHB 2776. Data from the Superintendent of Public Instruction and the Professional Educator Standards Board indicate that Washington's teacher education programs are not estimated to produce sufficient teachers to achieve the class size reductions on the schedule established by Initiative 1351. Further, the experience of other states indicates that the need to hire teachers quickly for rapid implementation of class size reductions may exacerbate recruiting difficulties for schools or districts that are at a relative disadvantage in attracting staff. Finally, implementing class size reduction requires time to plan and build new classrooms.

For these reasons, the legislature intends to temporarily defer implementation of Initiative 1351."
