Emergency.

SEC. 3. This act is necessary for the immediate preservation of public peace, health and safety, for the support of the state government and its existing public institutions, and shall take effect immediately.

Passed the Senate March 10, 1957.

Passed the House March 14, 1957.

Approved by the Governor March 26, 1957, with the exception of certain items which are vetoed.

Veto message, excerpt from.

Note: Excerpt of Governor's veto message reads as follows:

"I disapprove and veto the item 'Printing and Distributing Temporary Session Laws \$14,200.00' for the reason that House Bill No. 398, already approved, provides for this activity.

"I disapprove and veto the item 'To provide Copies of Revised Code and Supplements to Certain Members of the Legislature \$6,000.00' for the reason that furnishing copies of the code to members of the legislature desiring the same, should be paid for from appropriations for legislative expense instead of being charged as a cost of the Permanent Statute Law Committee.

"I disapprove and veto the item 'FOR THE ASSOCIATION OF SUPERIOR COURT JUDGES: Operations \$5,000.00' for the reason that House Bill No. 57, already approved, provides for an annual meeting of the judges and includes its own appropriation to carry out the provisions of that act.

"I disapprove and veto the item 'FROM THE PERSONNEL REVOLVING FUND. FOR THE STATE PERSONNEL BOARD: Salaries, Wages and Operations: To carry out the provisions of Senate Bill No. 402 \$1,056,432.00' for the reason that Senate Bill No. 402 failed of passage.

"I disapprove and veto the item 'Indemnities for Condemnation and Slaughter of Bovine Animals Infected with Highly Contagious or Communicable Diseases Other than Tuberculosis and Bang's Disease, to be Paid in Accordance with RCW 16.40.080 \$50,000.00' for the reason that this is a duplication of the appropriation contained in House Bill No. 453, already approved.

"I disapprove and veto the item 'To Conduct Studies of the Construction of a Plant or Plants for the Generation of Electricity by Steam, including but not Limited to Engineering, Financial, Economic and Legal: PROVIDED, That this Appropriation shall become available only after the Director of Conservation and Development has Determined that the Undertaking is Feasible and that the Appropriation Should be Drawn upon, Preceding Revenue Bonds or other Utility Financing: PROVIDED FURTHER, That any Expenditures from this Appropriation shall be Repaid by the Constructing Agency from the Proceeds of Revenue Bond or other Utility Financing as soon as Practicable after such Financing \$275,000.00' for the reason that this is a duplication of the appropriation contained in House Bill No. 47, already approved.

"I disapprove and veto the item 'Purchase of Land \$75,000' for the reason that Substitute Senate Bill No. 468 makes provision for the construction and equipment and purchase of land for the Laboratory School at the Eastern College of Education, the only

request for land included in the budget submitted by the institution.

"I disapprove and veto the item 'FOR THE GOVERNOR: Contingency, Salaries, Wages and Operations to be Allotted to the Colleges of Education on the Basis of \$465.50 for each Student in Excess of the Following Full Time (15 credit hours) Equivalent Basis as Shown by the Certificate of each President of his Respective Institution as being in Attendance on the Eleventh Day of Instruction of the Fall Quarter of the Respective Years:

Central Washington College of Education:

1957 1730 Students

1958 1730 Students

Eastern Washington College of Education:

1957 1548 Students

1958 1548 Students

Western Washington College of Education:

1957 2229 Students

1958 2282 Students

\$550,000.00' for the reason that it would appear that ample provision has been made in the appropriations for each college of education to cover the normal expected increase in enrollment. Should the enrollment exceed present expectations to such a degree that existing appropriations would prove to be inadequate, consideration will be given to meeting the financial needs from emergency funds at the disposal of the Governor.

"I disapprove and veto the item 'FROM THE GENERAL FUND—PENITENTIARY REVOLVING ACCOUNT. To General Fund—State Institutional Revolving Account \$50,000.00 (Transfers to be made in such amounts as the Governor shall determine)' for the reason that Senate Bill No. 205, already approved, has abolished the Penitentiary Revolving Account in the General Fund and makes this transfer unnecessary.

"With the exception of the foregoing items, which are vetoed, the remainder of Substitute Senate Bill No. 400 is approved."
