ESB 5652 Prime Sponsor, Senator Angel: Concerning actions by the boundary review board. Reported by Committee on Local Government

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

"Sec. 1. RCW 36.93.150 and 2012 c 212 s 1 are each amended to read as follows:

The board, upon review of any proposed action, shall take such of the following actions as it deems necessary to best carry out the intent of this chapter:

(1) Approve the proposal as submitted.

(2) Subject to RCW 35.02.170, modify the proposal by adjusting boundaries to add or delete territory. Subject to the requirements of this chapter, a board may modify a proposal by adding territory that would increase the total area of the proposal before the board. A board, however, may not modify a proposal for annexation of territory to a city or town by adding an amount of territory that constitutes more than one hundred percent

of the total area of the proposal before the board. Any modifications shall not interfere with the authority of a city, town, or special purpose district to require or not require preannexation agreements, covenants, or petitions. A board shall not modify the proposed incorporation of a city with an estimated population of seven thousand five hundred or more by removing territory from the proposal, or adding territory to the proposal, that constitutes ten percent or more of the total area included within the proposal before the board. However, a board shall remove territory in the proposed incorporation that is located outside of an urban growth area or is annexed by a city or town, and may remove territory in the proposed incorporation if a petition or resolution proposing the annexation is filed or adopted that has priority over the proposed incorporation, before the area is established that is subject to this ten percent restriction on removing or adding territory. A board shall not modify the proposed incorporation of a city with a population of seven thousand five hundred or more to reduce the territory in such a manner as to reduce the population below seven thousand five hundred.

(3) Determine a division of assets and liabilities between two or more governmental units where relevant.

(4) Determine whether, or the extent to which, functions of a special purpose district are to be assumed by an incorporated city or town, metropolitan municipal corporation, or another existing special purpose district.

(5) Allow all affected jurisdictions to enter into any agreements necessary to address conflicts with the board's factors and objectives prior to ruling on the annexation proposal.

(6) Disapprove the proposal except that the board shall not have jurisdiction: (a) To disapprove the dissolution or disincorporation of a special purpose district which is not providing services but shall have jurisdiction over the determination of a division of the assets and liabilities of a dissolved or disincorporated special purpose district; (b) over the division of assets and liabilities of a special purpose district that is dissolved or disincorporated pursuant to chapter 36.96 RCW; nor (c) to disapprove the incorporation of a city with an estimated population of seven thousand five hundred

or more, but the board may recommend against the proposed incorporation of a city with such an estimated population.

Unless the board disapproves a proposal, it shall be presented under the appropriate statute for approval of a public body and, if required, a vote of the people. A proposal that has been modified shall be presented under the appropriate statute for approval of a public body and if required, a vote of the people. If a proposal, other than that for a city, town, or special purpose district annexation, after modification does not contain enough signatures of persons within the modified area, as are required by law, then the initiating party, parties or governmental unit has thirty days after the modification decision to secure enough signatures to satisfy the legal requirement. If the signatures cannot be secured then the proposal may be submitted to a vote of the people, as required by law.

The addition or deletion of property by the board shall not invalidate a petition which had previously satisfied the sufficiency of signature provisions of RCW 35.13.130 or 35A.14.120. When the board, after due proceedings held, disapproves a proposed action, such proposed action shall be unavailable, the proposing agency shall be without power to initiate the same or substantially the same as determined by the board, and any succeeding acts intended to or tending to effectuate that action shall be void, but such action may be reinitiated after a period of twelve months from date of disapproval and shall again be subject to the same consideration.

The board shall not modify or deny a proposed action unless there is evidence on the record to support a conclusion that the action is inconsistent with one or more of the objectives under RCW 36.93.180. The board may not increase the area of a city or town annexation unless it holds a separate public hearing on the proposed increase and provides ten or more days' notice of the hearing to the registered voters and property owners residing within the area subject to the proposed increase. Every such determination to modify or deny a proposed action shall be made in writing pursuant to a motion, and shall be supported by appropriate written findings and conclusions, based on the record.

Sec. 2. RCW 36.93.170 and 1997 c 429 s 39 are each amended to read as follows:

In reaching a decision on a proposal or an alternative, the board shall consider the factors affecting such proposal, which shall include, but not be limited to the following:

(1) Population and territory; population density; land area and land uses; comprehensive plans and zoning, as adopted under chapter 35.63, 35A.63, or 36.70 RCW; comprehensive plans and development regulations adopted under chapter 36.70A RCW; applicable service agreements entered into under chapter 36.115 or 39.34 RCW; applicable interlocal annexation agreements between a county and its cities; per capita assessed valuation; topography, natural boundaries and drainage basins, proximity to other populated areas; the existence and preservation of prime agricultural soils and productive agricultural uses; the likelihood of significant growth in the area and in adjacent incorporated and unincorporated areas during the next ten years; location and most desirable future location of community facilities;

(2) Municipal services; need for municipal services; effect of ordinances, governmental codes, regulations and resolutions on existing uses; present cost and adequacy of governmental services and controls in area; prospects of governmental services from other sources; probable future needs for such services and controls; probable effect of proposal or alternative on cost and adequacy of services and controls in area and adjacent area; the effect on the ((finances)) revenues, expenses, debt structure, and contractual obligations and rights of all affected governmental units; ((and))

(3) The effect of the proposal or alternative on adjacent areas, on mutual economic, fiscal, and social interests, and on the local governmental structure of the county; and

(4) The logical and reasonable nature of the annexation boundaries to ensure that they do not create unincorporated islands or peninsulas.

The provisions of chapter 43.21C RCW, State Environmental Policy, shall not apply to incorporation proceedings covered by chapter 35.02 RCW."

SB 5762 Prime Sponsor, Senator Hunt: Concerning financing of the mercury-containing light stewardship program. Reported by Committee on Environment

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

"Sec. 1. RCW 70.275.050 and 2014 c 119 s 5 are each amended to read as follows:

(1) Each stewardship organization must recommend to the department an environmental handling charge to be added to the price of each mercury-containing light sold in or into the state of Washington for sale at retail. The environmental handling charge must be designed to provide revenue necessary and sufficient to cover all administrative and operational costs associated with the stewardship program described in the department-approved product stewardship plan for that organization, including the department's annual fee required by subsection (5) of this section, and a prudent reserve. The stewardship organization must consult with collectors, retailers, recyclers, and each of its participating producers in developing its recommended environmental handling charge. The environmental handling charge may, but is not required to, vary by the type of mercury-containing light. In developing its recommended environmental handling charge, the stewardship organization must take into consideration and report to the department:

(a) The anticipated number of mercury-containing lights that will be sold to covered entities in the state at retail during the relevant period;

(b) The number of unwanted mercury-containing lights delivered from covered entities expected to be recycled during the relevant period;

(c) The operational costs of the stewardship organization as described in RCW 70.275.030(2);

(d) The administrative costs of the stewardship organization including the department's annual fee, described in subsection (5) of this section; and

(e) The cost of other stewardship program elements including public outreach.

(2) The department must review, adjust if necessary, and approve the stewardship organization's recommended environmental handling charge within sixty days of submittal. In making its determination, the department shall review the product stewardship plan and may consult with the producers, the stewardship organization, retailers, collectors, recyclers, and other entities.

(3) No sooner than January 1, 2015:

(a) The mercury-containing light environmental handling charge must be added to the purchase price of all mercury-containing lights sold to Washington retailers for sale at retail, and each Washington retailer shall add the charge to the purchase price of all mercury-containing lights sold at retail in this state, and the producer shall remit the environmental handling charge to the stewardship organization in the manner provided for in the stewardship plan; or

(b) Each Washington retailer must add the mercury-containing light environmental handling charge to the purchase price of all mercury-containing lights sold at retail in this state, where the retailer, by voluntary binding agreement with the producer, arranges to remit the environmental handling charge to the stewardship organization on behalf of the producer in the manner provided for in the stewardship plan. Producers may not require retailers to opt for this provision via contract, marketing practice, or any other means. The stewardship organization must allow retailers to retain a portion of the environmental handling charge as reimbursement for any costs associated with the collection and remittance of the charge.

(4) At any time, a stewardship organization may submit to the department a recommendation for an adjusted environmental handling charge for the department's review, adjustment, if necessary, and approval under subsection (2) of this section to ensure that there is sufficient revenue to fund the cost of the program, current deficits, or projected needed reserves for the next year. The department must review the stewardship organization's recommended environmental handling charge and must adjust or approve the recommended charge within thirty days of submittal if the department determines that the charge is reasonably designed to meet the criteria described in subsection (1) of this section.

(5) Beginning March 1, 2015, and each year thereafter, each stewardship organization shall pay to the department an annual fee equivalent to ((five)) three thousand dollars for each participating producer to cover the department's administrative and enforcement costs. The amount paid under this section must be deposited into the product stewardship programs account created in RCW 70.275.130.

Sec. 2. RCW 70.275.040 and 2014 c 119 s 4 are each amended to read as follows:

(1) On June 1st of the year prior to implementation, each producer must ensure that a stewardship organization submits a proposed product stewardship plan on the producer's behalf to the department for approval. Plans approved by the department must be implemented by January 1st of the following calendar year.

(2) The department shall establish rules for plan content. Plans must include but are not limited to:

(a) All necessary information to inform the department about the plan operator and participating producers and their brands;

(b) The management and organization of the product stewardship program that will oversee the collection, transportation, and processing services;

(c) The identity of collection, transportation, and processing service providers, including a description of the consideration given to existing residential curbside collection infrastructure and mail-back systems as an appropriate collection mechanism;

(d) How the product stewardship program will seek to use businesses within the state, including transportation services, retailers, collection sites and services, existing curbside collection services, existing mail-back services, and processing facilities;

(e) A description of how the public will be informed about the product stewardship program, including how consumers will be provided with information describing collection opportunities for unwanted mercury-containing lights from covered entities and safe handling of mercury-containing lights, waste prevention, and recycling. The description must also include information to make consumers aware that an environmental handling charge has been added to the purchase price of mercury-containing lights sold at retail to fund the mercury-containing light stewardship programs in the state. The environmental handling charge may not be described as a department recycling fee or charge at the point of retail sale;

(f) A description of the financing system required under RCW 70.275.050;

(g) How mercury and other hazardous substances will be handled for collection through final disposition;

(h) A public review and comment process; and

(i) Any other information deemed necessary by the department to ensure an effective mercury light product stewardship program that is in compliance with all applicable laws and rules.

(3) All plans submitted to the department must be made available for public review on the department's web site and at the department's headquarters.

(4) At least two years from the start of the product stewardship program and once every four years thereafter, each stewardship organization operating a product stewardship program must update its product stewardship plan and submit the updated plan to the department for review and approval according to rules adopted by the department.

(5) By June 1, 2016, and each June 1st thereafter, each stewardship organization must submit an annual report to the department describing the results of implementing the stewardship

organization's plan for the prior calendar year, including an independent financial audit once every two years. The department may adopt rules for reporting requirements. Financial information included in the annual report must include but is not limited to:

(a) The amount of the environmental handling charge assessed on mercury-containing lights and the revenue generated;

(b) Identification of confidential information pursuant to RCW 43.21A.160 submitted in the annual report; and

(c) The cost of the mercury-containing lights product stewardship program, including line item costs for:

(i) Program operations;

(ii) Communications, including media, printing and fulfillment, public relations, and other education and outreach projects;

(iii) Administration, including administrative personnel costs, travel, compliance and auditing, legal services, banking services, insurance, and other administrative services and supplies, and stewardship organization corporate expenses; and

(iv) Amount of unallocated reserve funds.

(6) Beginning in 2023 every stewardship organization must include in its annual report an analysis of the percent of total sales of lights sold at retail to covered entities in Washington that mercury-containing lights constitute, the estimated number of mercury-containing lights in use by covered entities in the state, and the projected number of unwanted mercury-containing lights to be recycled in future years.

(7) All plans and reports submitted to the department must be made available for public review, excluding sections determined to be confidential pursuant to RCW 43.21A.160, on the department's web site and at the department's headquarters.

Sec. 3. RCW 70.275.130 and 2010 c 130 s 13 are each amended to read as follows:

The product stewardship programs account is created in the custody of the state treasurer. All funds received from producers under this chapter and penalties collected under this chapter

must be deposited in the account. Expenditures from the account may be used only for administering this chapter. The department may not retain fees in excess of the estimated amount necessary to cover the agency's administrative costs over the coming year related to the mercury light stewardship program under this chapter. Beginning with the state fiscal year 2018, by October 1st after the closing of each state fiscal year, the department shall refund any fees collected in excess of its estimated administrative costs to any approved stewardship organization under this chapter. Only the director of the department or the director's designee may authorize expenditures from the account. The account is subject to the allotment procedures under chapter 43.88 RCW, but an appropriation is not required for expenditures.

Sec. 4. RCW 43.131.422 and 2014 c 119 s 8 are each amended to read as follows:

The following acts or parts of acts, as now existing or hereafter amended, are each repealed, effective July 1, 2026:

SB 5325

Prime Sponsor, Senator Zeiger: Clarifying the authority of a nurse working in a school setting. Reported by Committee on Education

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. (1) The legislature finds that:

(a) A registered nurse or an advanced registered nurse practitioner working in a school setting is authorized and responsible for the nursing care of students to the extent that the care is within the practice of nursing. A school administrator may supervise a registered nurse or an advanced registered nurse practitioner in aspects of employment other than the practice of nursing;

(b) Nursing is governed by specific laws and regulations and requires a unique license to practice. Clinical supervision of a nurse is based on knowledge of the laws, regulations, and rules governing nursing practice, nursing practice standards, and nursing performance standards;

(c) Student health needs have changed dramatically over the last twenty years. The number of students with special health care needs has risen exponentially;

(d) School nurses are held accountable through chapter 18.79 RCW and the uniform disciplinary act, chapter 18.130 RCW, for errors in nursing judgment and actions;

(e) Individuals who are not nurses are unqualified to make nursing judgments and assessments;

(f) The independent nature of nursing has been recognized in both statute and rule. For example, under RCW 18.79.040, "registered nursing practice" includes the "administration, supervision, delegation, and evaluation of nursing practice." Furthermore, continuing competency rules recently adopted by the nursing care quality assurance commission recognize and acknowledge the independent nature of nursing; and

(g) The ability of a nurse to practice nursing without the supervision of a nonnurse supervisor is particularly important given the primacy of the nurse-patient relationship.

(2) It is therefore the intent of the legislature to reaffirm the authority of a licensed nurse working in a school setting to practice nursing without the supervision of a person who is not a licensed nurse.

(3) It is not the intent of the legislature to:

(a) Prohibit a nonnurse from supervising a licensed nurse working in a school setting with respect to matters other than the practice of nursing, such as matters of administration, terms and conditions of employment, and employee performance; or

(b) Require a school to provide clinical supervision for a licensed nurse working in a school setting.

NEW SECTION. Sec. 2. A new section is added to chapter 28A.210 RCW to read as follows:

(1)(a) A registered nurse or an advanced registered nurse practitioner licensed under chapter 18.79 RCW working in a school setting is authorized and responsible for the nursing care of students to the extent that the care is within the practice of nursing as defined in this section.

(b) A school administrator may supervise a registered nurse or an advanced registered nurse practitioner licensed under chapter 18.79 RCW in aspects of employment other than the practice of nursing as defined in this section.

(c) Only a registered nurse or an advanced registered nurse practitioner licensed under chapter 18.79 RCW may supervise, direct, or evaluate a licensed nurse working in a school setting with

respect to the practice of nursing as defined in this section.

(2) Nothing in this section:

(a) Prohibits a nonnurse supervisor from supervising, directing, or evaluating a licensed nurse working in a school setting with respect to matters other than the practice of nursing;

(b) Requires a registered nurse or an advanced registered nurse practitioner to be clinically supervised in a school setting; or

(c) Prohibits a nonnurse supervisor from conferring with a licensed nurse working in a school setting with respect to the practice of nursing.

(3) Within existing funds, the superintendent of public instruction shall notify each school district in this state of the requirements of this section.

(4) For purposes of this section, "practice of nursing" means:

(a) Registered nursing practice as defined in RCW 18.79.040, advanced registered nursing practice as defined in RCW 18.79.050, and licensed practical nursing practice as defined in RCW 18.79.060, including, but not limited to:

(i) The administration of medication pursuant to a medication or treatment order; and

(ii) The decision to summon emergency medical assistance; and

(b) Compliance with any state or federal statute or administrative rule specifically regulating licensed nurses, including any statute or rule defining or establishing standards of patient care or professional conduct or practice."

Strike everything after the enacting clause and insert the following:

"Sec. 1. RCW 13.38.070 and 2011 c 309 s 7 are each amended to read as follows:

(1) In any involuntary child custody proceeding seeking the foster care placement of, or the termination of parental rights to, a child in which the petitioning party or the court knows, or has reason to know, that the child is or may be an Indian child as defined in this chapter, the petitioning party shall notify the parent or Indian custodian and the Indian child's tribe or tribes, by certified mail, return receipt requested, and by use of a mandatory Indian child welfare act notice addressed to the tribal agent designated by the Indian child's tribe or tribes for receipt of Indian child welfare act notice, as published by the bureau of Indian affairs in the federal register. If the identity or location of the parent or Indian custodian and the tribe cannot be determined, such notice shall be given to the secretary of the interior by registered mail, return receipt requested, in accordance with the regulations of the bureau of Indian affairs. The secretary of the interior has fifteen days after receipt to provide the requisite notice to the parent or Indian custodian and the tribe. No foster care placement or termination of parental rights proceeding shall be held until at least ten days after receipt of notice by the parent or Indian custodian and the tribe. The parent or Indian custodian or the tribe shall, upon request, be granted up to twenty additional days to prepare for the proceeding.

(2) The determination of the Indian status of a child shall be made as soon as practicable in order to serve the best interests of the Indian child and protect the interests of the child's tribe.

(3)(a) A written determination by an Indian tribe that a child is a member of or eligible for membership in that tribe, or testimony by the tribe attesting to such status shall be conclusive that the child is an Indian child;

(b) A written determination by an Indian tribe that a child is not a member of or eligible for membership in that tribe, or testimony by the tribe attesting to such status shall be conclusive that the child is not a member or eligible for membership in that tribe. Such determinations are presumptively those of the tribe where submitted in the form of a tribal resolution, or signed by or testified to by the person(s)

authorized by the tribe's governing body to speak for the tribe, or by the tribe's agent designated to receive notice under the federal Indian child welfare act where such designation is published in the federal register;

(c) Where a tribe provides no response to notice under ((RCW 13.38.070)) this section, such nonresponse shall not constitute evidence that the child is not a member or eligible for membership. Provided, however, that under such circumstances the party asserting application of the federal Indian child welfare act, or this chapter, will have the burden of proving by a preponderance of the evidence that the child is an Indian child.

(4)(a) Where a child has been determined not to be an Indian child, any party to the proceeding, or an Indian tribe that subsequently determines the child is a member, may, during the pendency of any child custody proceeding to which this chapter or the federal Indian child welfare act applies, move the court for redetermination of the child's Indian status based upon new evidence, redetermination by the child's tribe, or newly conferred federal recognition of the tribe.

(b) This subsection (4) does not affect the rights afforded under 25 U.S.C. Sec. 1914.

Sec. 2. RCW 26.44.100 and 2005 c 512 s 1 are each amended to read as follows:

(1) The legislature finds parents and children often are not aware of their due process rights when agencies are investigating allegations of child abuse and neglect. The legislature reaffirms that all citizens, including parents, shall be afforded due process, that protection of children remains the priority of the legislature, and that this protection includes protecting the family unit from unnecessary disruption. To facilitate this goal, the legislature wishes to ensure that parents and children be advised in writing and orally, if feasible, of their basic rights and other specific information as set forth in this chapter, provided that nothing contained in this chapter shall cause any delay in protective custody action.

(2) The department shall notify the parent, guardian, or legal custodian of a child of any allegations of child abuse or neglect made against such person at

the initial point of contact with such person, in a manner consistent with the laws maintaining the confidentiality of the persons making the complaints or allegations. Investigations of child abuse and neglect should be conducted in a manner that will not jeopardize the safety or protection of the child or the integrity of the investigation process.

Whenever the department completes an investigation of a child abuse or neglect report under this chapter ((26.44 RCW)), the department shall notify the subject of the report of the department's investigative findings. The notice shall also advise the subject of the report that:

(a) A written response to the report may be provided to the department and that such response will be filed in the record following receipt by the department;

(b) Information in the department's record may be considered in subsequent investigations or proceedings related to child protection or child custody;

(c) Founded reports of child abuse and neglect may be considered in determining whether the person is disqualified from being licensed to provide child care, employed by a licensed child care agency, or authorized by the department to care for children; and

(d) A subject named in a founded report of child abuse or neglect has the right to seek review of the finding as provided in this chapter.

(3) The founded finding notification required by this section shall be made by certified mail, return receipt requested, to the person's last known address.

(4) The unfounded finding notification required by this section must be made by regular mail to the person's last known address or by email.

(5) The duty of notification created by this section is subject to the ability of the department to ascertain the location of the person to be notified. The department shall exercise reasonable, good-faith efforts to ascertain the location of persons entitled to notification under this section.

((5)) (6) The department shall provide training to all department personnel who conduct investigations

under this section that shall include, but is not limited to, training regarding the legal duties of the department from the initial time of contact during investigation through treatment in order to protect children and families.

The initial notice shall set forth the amount the department has determined that such estate is able to pay, not to exceed the charge as fixed in accordance with RCW 43.20B.420, and the responsibility for payment to the department shall commence twenty-eight days after ((personal)) service of such notice and finding of responsibility. Service of the initial notice shall be in the manner prescribed for the service of a summons in a civil action or may be served by certified mail, return receipt requested. The return receipt signed by addressee only is prima facie evidence of service. An application for an adjudicative proceeding from the determination of responsibility may be made to the secretary by the guardian of the resident's estate, or if no guardian has been appointed then by the resident, the resident's spouse, or other person acting in a representative capacity and having property in his or her possession belonging to a resident of a state school, within such twenty-eight day period. The application must be written and served on the secretary by registered or certified mail, or by personal service. If no application is filed, the notice and finding of responsibility shall become final. If an application is filed, the execution of notice and finding of responsibility shall be stayed pending the final adjudicative order. The hearing shall be conducted in a local department office or other location in Washington convenient to the appellant. The proceeding is governed by the Administrative Procedure Act, chapter 34.05 RCW.

Sec. 4. RCW 43.20B.435 and 1979 c 141 s 240 are each amended to read as follows:

The secretary, upon application of the guardian of the estate of the resident, and after investigation, or upon investigation without application, may, if satisfied of the financial ability or inability of such person to make payments in accordance with the ((original)) initial finding of responsibility as provided for in RCW 43.20B.430, modify or vacate such ((original)) initial finding of responsibility, and enter a new finding of responsibility. The secretary's determination to modify or vacate findings of responsibility shall be served ((and)) by regular mail. A new finding of responsibility shall be appealable in the same manner and in accordance with the same procedure for appeals of ((original)) initial findings of responsibility.

Sec. 5. RCW 43.20B.635 and 1990 c 100 s 1 are each amended to read as follows:

(1) After service of a notice of debt for an overpayment as provided for in RCW 43.20B.630, stating the debt accrued, the secretary may issue to any person, firm, corporation, association, political subdivision, or department of the state, an order to withhold and deliver property of any kind including, but not restricted to, earnings which are due, owing, or belonging to the debtor, when the secretary has reason to believe that there is in the possession of such person, firm, corporation, association, political subdivision, or department of the state property which is due, owing, or belonging to the debtor.

(2)(a) The order to withhold and deliver shall state the amount of the debt, and shall state in summary the terms of this section, RCW 6.27.150 and 6.27.160, chapters 6.13 and 6.15 RCW, 15 U.S.C. 1673, and other state or federal exemption laws applicable generally to debtors.

(b) The order to withhold and deliver shall be served ((in the manner prescribed for the service of a summons in a civil action or by certified mail, return receipt requested)) by regular mail or, with a party's agreement, electronically.

(3)(a) Any person, firm, corporation, association, political subdivision, or department of the state upon whom service has been made shall answer the order to

withhold and deliver within twenty days, exclusive of the day of service, under oath and in writing, and shall make true answers to the matters inquired of therein.

(b) The secretary may require further and additional answers to be completed by the person, firm, corporation, association, political subdivision, or department of the state.

(c) If any such person, firm, corporation, association, political subdivision, or department of the state possesses any property which may be subject to the claim of the department of social and health services, such property shall be withheld immediately upon receipt of the order to withhold and deliver and shall, after the twenty-day period, upon demand, be delivered forthwith to the secretary.

(d) The secretary shall hold the property in trust for application on the indebtedness involved or for return, without interest, in accordance with final determination of liability or nonliability. In the alternative, there may be furnished to the secretary a good and sufficient bond, satisfactory to the secretary, conditioned upon final determination of liability.

(e) Where money is due and owing under any contract of employment, express or implied, or is held by any person, firm, corporation, association, political subdivision, or department of the state subject to withdrawal by the debtor, such money shall be delivered by remittance payable to the order of the secretary. The state also warrants and represents that it shall defend and hold harmless for such actions persons withholding money or property pursuant to this chapter.

(4)(a) The secretary shall also, on or before the date of service of the order to withhold and deliver, mail or cause to

be mailed ((by certified mail)) a copy of the order to withhold and deliver to the debtor at the debtor's last known post office address(,) or, ((in the alternative, a copy of the order to withhold and deliver shall be served on the debtor in the same manner as a summons in a civil action on or before the date of service of the order or within two days thereafter)) with a party's agreement serve the order upon the debtor electronically on or before the date of service of the order to withhold and deliver.

(b) The copy of the order shall be mailed or served together with a concise explanation of the right to petition for a hearing on any issue related to the collection. This requirement is not jurisdictional, but, if the copy is not mailed or served as provided in this section, or if any irregularity appears with respect to the mailing or service electronically, the superior court, on its discretion on motion of the debtor promptly made and supported by affidavit showing that the debtor has suffered substantial injury due to the failure to mail the copy or serve the copy electronically, may set aside the order to withhold and deliver and award to the debtor an amount equal to the damages resulting from the secretary's failure to serve on or mail to the debtor the copy.

Sec. 6. RCW 74.20A.320 and 2009 c 408 s 1 are each amended to read as follows:

(1) The department may serve upon a responsible parent a notice informing the responsible parent of the department's intent to submit the parent's name to the department of licensing and any appropriate licensing entity as a licensee who is not in compliance with a child support order. ((The department shall attach a copy of the responsible parent's child support order to the notice.))

(a) If the support order establishing or modifying the child support obligation includes a statement required under RCW 26.23.050 that the responsible parent's privileges to obtain and maintain a license may not be renewed or may be suspended if the parent is not in compliance with a support order, the department may send the notice required by this section to the responsible parent by regular mail, addressed to the responsible parent's last known mailing address on file with the department or by personal service. Notice by regular mail

is deemed served three days from the date the notice was deposited with the United States postal service.

(b) If the support order does not include a statement as required under RCW 26.23.050 that the responsible parent's privileges to obtain and maintain a license may not be renewed or may be suspended if the parent is not in compliance with a support order, service of the notice required by this section to the responsible parent must be by certified mail, return receipt requested. The department must attach a copy of the responsible parent's child support order to the notice. If service by certified mail is not successful, service shall be by personal service.

(2) The notice of noncompliance must include the following information:

(a) The address and telephone number of the department's division of child support office that issued the notice;

(b) That in order to prevent the department from certifying the parent's name to the department of licensing or any other licensing entity, the parent has twenty days from receipt of the notice to contact the department and:

(i) Pay the overdue support amount in full;

(ii) Request an adjudicative proceeding as provided in RCW 74.20A.322;

(iii) Agree to a payment schedule with the department as provided in RCW 74.20A.326; or

(iv) File an action to modify the child support order with the appropriate court or administrative forum, in which case the department will stay the certification process up to six months;

(c) That failure to contact the department within twenty days of receipt of the notice will result in certification of the responsible parent's name to the department of licensing and any other appropriate licensing entity for noncompliance with a child support order. Upon receipt of the notice:

(i) The licensing entity will suspend or not renew the parent's license and the department of licensing will suspend or not renew any driver's license that the parent holds until the parent provides the department of licensing and the licensing entity with a release from the

department stating that the responsible parent is in compliance with the child support order;

(ii) The department of fish and wildlife will suspend a fishing license, hunting license, occupational licenses, such as a commercial fishing license, or any other license issued under chapter 77.32 RCW that the responsible parent may possess, and suspension of a license by the department of fish and wildlife may also affect the parent's ability to obtain permits, such as special hunting permits, issued by the department. Notice from the department of licensing that a responsible parent's driver's license has been suspended shall serve as notice of the suspension of a license issued under chapter 77.32 RCW;

(d) That suspension of a license will affect insurability if the responsible parent's insurance policy excludes coverage for acts occurring after the suspension of a license;

(e) If the responsible parent subsequently comes into compliance with the child support order, the department will promptly provide the parent and the appropriate licensing entities with a release stating that the parent is in compliance with the order.

(3) When a responsible parent who is served notice under subsection (1) of this section subsequently complies with the child support order, a copy of a release stating that the responsible parent is in compliance with the order shall be transmitted by the department to the appropriate licensing entities.

(4) The department of licensing and a licensing entity may renew, reinstate, or otherwise extend a license in accordance with the licensing entity's or the department of licensing's rules after the licensing entity or the department of licensing receives a copy of the release specified in subsection (3) of this section. The department of licensing and a licensing entity may waive any applicable requirement for reissuance, renewal, or other extension if it determines that the imposition of that requirement places an undue burden on the person and that waiver of the requirement is consistent with the public interest."

"NEW SECTION. Sec. 1. The legislature finds that, as a matter of human dignity, all persons are to be informed of emergency notifications in a manner in which they can understand. It is the intent of the legislature that all persons who may be in harm's way in an emergency are informed of their peril, and informed of appropriate actions they should take to protect themselves and their families.

NEW SECTION. Sec. 2. A new section is added to chapter 38.52 RCW to read as follows:

(1) When an emergency is proclaimed by the governor, state agencies required by

law or rule to provide life safety information shall provide life safety information in a language or manner that can be understood to significant population segments as defined in RCW 38.52.070, unless technologically infeasible.

(2) When an emergency is proclaimed by a political subdivision, the proclaiming political subdivision shall provide life safety information in a language or manner that can be understood to significant population segments as defined in RCW 38.52.070, unless technologically infeasible.

Sec. 3. RCW 38.52.010 and 2015 c 61 s 1 are each reenacted and amended to read as follows:

As used in this chapter:

(1) "Communication plan," as used in RCW 38.52.070, means a section in a local comprehensive emergency management plan that addresses emergency notification of life safety information.

(2) "Continuity of operations planning" means the internal effort of an organization to assure that the capability exists to continue essential functions and services in response to a comprehensive array of potential emergencies or disasters.

((2)) (3) "Department" means the state military department.

((3)) (4) "Director" means the adjutant general.

((4)) (5) "Emergency management" or "comprehensive emergency management" means the preparation for and the carrying out of all emergency functions, other than functions for which the military forces are primarily responsible, to mitigate, prepare for, respond to, and recover from emergencies and disasters, and to aid victims suffering from injury or damage, resulting from disasters caused by all hazards, whether natural, technological, or human caused, and to provide support for search and rescue operations for persons and property in distress. However, "emergency management" or "comprehensive emergency management" does not mean preparation for emergency evacuation or relocation of residents in anticipation of nuclear attack.

((5)) (6) (a) "Emergency or disaster" as used in all sections of this chapter except RCW 38.52.430 shall mean an event

or set of circumstances which: (i) Demands immediate action to preserve public health, protect life, protect public property, or to provide relief to any stricken community overtaken by such occurrences, or (ii) reaches such a dimension or degree of destructiveness as to warrant the governor declaring a state of emergency pursuant to RCW 43.06.010.

(b) "Emergency" as used in RCW 38.52.430 means an incident that requires a normal police, coroner, fire, rescue, emergency medical services, or utility response as a result of a violation of one of the statutes enumerated in RCW 38.52.430.

((6)) (7) "Emergency response" as used in RCW 38.52.430 means a public agency's use of emergency services during an emergency or disaster as defined in subsection ((5)) (6)(b) of this section.

((7)) (8) "Emergency worker" means any person who is registered with a local emergency management organization or the department and holds an identification card issued by the local emergency management director or the department for the purpose of engaging in authorized emergency management activities or is an employee of the state of Washington or any political subdivision thereof who is called upon to perform emergency management activities.

((8)) (9) "Executive head" and "executive heads" means the county executive in those charter counties with an elective office of county executive, however designated, and, in the case of other counties, the county legislative authority. In the case of cities and towns, it means the mayor in those cities and towns with mayor-council or commission forms of government, where the mayor is directly elected, and it means the city manager in those cities and towns with council manager forms of government. Cities and towns may also designate an executive head for the purposes of this chapter by ordinance.

((9)) (10) "Expense of an emergency response" as used in RCW 38.52.430 means reasonable costs incurred by a public agency in reasonably making an appropriate emergency response to the incident, but shall only include those costs directly arising from the response to the particular incident. Reasonable costs shall include the costs of providing police, coroner, firefighting,

rescue, emergency medical services, or utility response at the scene of the incident, as well as the salaries of the personnel responding to the incident.

((10)) (11) "Incident command system" means: (a) An all-hazards, on-scene functional management system that establishes common standards in organization, terminology, and procedures; provides a means (unified command) for the establishment of a common set of incident objectives and strategies during multiagency/multijurisdiction operations while maintaining individual agency/jurisdiction authority, responsibility, and accountability; and is a component of the national interagency incident management system; or (b) an equivalent and compatible all-hazards, on-scene functional management system.

((11)) (12) "Injury" as used in this chapter shall mean and include accidental injuries and/or occupational diseases arising out of emergency management activities.

((12)) (13) "Life safety information" means information or instructions provided to people to reduce their risk of harm and to keep them safe in response to life-threatening events. ((14)) (16) "Political subdivision" means any county, city or town.

((15)) (17) "Public agency" means the state, and a city, county, municipal corporation, district, town, or public authority located, in whole or in part, within this state which provides or may provide firefighting, police, ambulance, medical, or other emergency services.

((16)) (18) "Radio communications service company" has the meaning ascribed to it in RCW 82.14B.020.

((17)) (19) "Search and rescue" means the acts of searching for, rescuing, or recovering by means of ground, marine, or air activity any person who becomes lost, injured, or is killed while outdoors or as a result of a natural, technological, or human caused disaster, including instances involving searches for downed aircraft when ground personnel are used. Nothing in this section shall affect appropriate activity by the department of transportation under chapter 47.68 RCW.

Sec. 4. RCW 38.52.070 and 1997 c 49 s 4 are each amended to read as follows:

(1) Each political subdivision of this state is hereby authorized and directed to establish a local organization or to be a member of a joint local organization for emergency management in accordance with the state comprehensive emergency management plan and program: PROVIDED, That a political subdivision proposing such establishment shall submit its plan and program for emergency management to the state director and secure his or her recommendations thereon, and verification of consistency with the state comprehensive emergency management plan, in order that the plan of the local organization for emergency management may be coordinated with the plan and program of the state. Local comprehensive emergency management plans must specify the use of the incident command system for multiagency/multijurisdiction operations. No political subdivision may be required to include in its plan provisions for the emergency evacuation or relocation of residents in anticipation of nuclear attack. If the director's recommendations are adverse to the plan as submitted, and, if the local organization does not agree to the director's recommendations for modification to the proposal, the matter shall be referred to the council for final action. The director may authorize two or more political subdivisions to join in the establishment and operation of a joint local organization for emergency management as circumstances may warrant, in which case each political subdivision shall contribute to the cost of emergency management upon such fair and equitable basis as may be determined upon by the executive heads of the constituent subdivisions. If in any case

the executive heads cannot agree upon the proper division of cost the matter shall be referred to the council for arbitration and its decision shall be final. When two or more political subdivisions join in the establishment and operation of a joint local organization for emergency management each shall pay its share of the cost into a special pooled fund to be administered by the treasurer of the most populous subdivision, which fund shall be known as the emergency management fund. Each local organization or joint local organization for emergency management shall have a director who shall be appointed by the executive head of the political subdivision, and who shall have direct responsibility for the organization, administration, and operation of such local organization for emergency management, subject to the direction and control of such executive officer or officers. In the case of a joint local organization for emergency management, the director shall be appointed by the joint action of the executive heads of the constituent political subdivisions. Each local organization or joint local organization for emergency management shall perform emergency management functions within the territorial limits of the political subdivision within which it is organized, and, in addition, shall conduct such functions outside of such territorial limits as may be required pursuant to the provisions of this chapter.

(2) In carrying out the provisions of this chapter each political subdivision, in which any disaster as described in RCW 38.52.020 occurs, shall have the power to enter into contracts and incur obligations necessary to combat such disaster, protecting the health and safety of persons and property, and providing emergency assistance to the victims of such disaster. Each political subdivision is authorized to exercise the powers vested under this section in the light of the exigencies of an extreme emergency situation without regard to time-consuming procedures and formalities prescribed by law (excepting mandatory constitutional requirements), including, but not limited to, budget law limitations, requirements of competitive bidding and publication of notices, provisions pertaining to the performance of public work, entering into contracts, the incurring of obligations, the employment of temporary workers, the

rental of equipment, the purchase of supplies and materials, the levying of taxes, and the appropriation and expenditures of public funds.

(3)(a) Each local organization or joint local organization for emergency management that produces a local comprehensive emergency management plan must include a communication plan for notifying significant population segments of life safety information during an emergency. Local organizations and joint local organizations are encouraged to consult with affected community organizations in the development of the communication plans.

(i) In developing communication plans, local organizations and joint organizations should consider, as part of their determination of the extent of the obligation to provide emergency notification to significant population segments, the following factors: The number or proportion of the limited English proficiency persons eligible to be served or likely to be encountered; the frequency with which limited English proficiency individuals come in contact with the emergency notification; the nature and importance of the emergency notification, service, or program to people's lives; and the resources available to the political subdivision to provide emergency notifications.

(ii) "Significant population segment" means, for the purposes of this subsection (3), each limited English proficiency language group that constitutes five percent or one thousand residents, whichever is less, of the population of persons eligible to be served or likely to be affected within a city, town, or county. The office of financial management forecasting division's limited English proficiency population estimates are the demographic data set for determining eligible limited English proficiency language groups.

(b) Local organizations and joint local organizations must submit the plans produced under (a) of this subsection to the Washington military department emergency management division. An initial communication plan must be submitted with the local organization or joint local organization's next local emergency management plan update following the effective date of this section, and subsequent plans must be reviewed in accordance with the director's schedule. For any instance in

which a local organization or joint local organization has deployed its communication plan since its last reporting, the information as described in (c)(ii) of this subsection must also be provided.

(c) Beginning on December 1, 2019, the Washington military department emergency management division must submit a report every five years to the relevant committees of the legislature with the following information with respect to each local organization or joint local organization:

(i) Compliance with the communication plan requirement in (a) of this subsection; and

(ii) Information describing any instance in which a communication plan was deployed, including the nature of the emergency and the efficacy of the communications.

Sec. 16. RCW 28A.410.062 and 2011 1st sp.s. c 23 s 1 are each amended to read as follows:

PARAEDUCATOR CERTIFICATE FEES.

(1) The legislature finds that the current economic environment requires that the state, when appropriate, charge for some of the services provided directly to the users of those services. The office of the superintendent of public instruction is currently supported with state funds to process certification fees. In addition, the legislature finds that the processing of certifications should be moved to an online system that allows educators to manage their certifications and provides better information to policymakers. The legislature intends to assess a certification processing fee to eliminate state-funded support of the cost to issue educator certificates.

(2) In addition to the certification fee established under RCW 28A.410.060 for certificated instructional staff as defined in RCW 28A.150.203, the superintendent of public instruction shall charge an application processing fee for initial educator certificates and subsequent actions, and paraeducator certificates and subsequent actions. The superintendent of public instruction shall establish the amount of the fee by rule under chapter 34.05 RCW. The superintendent shall set the fee at a sufficient level to defray the costs of administering the educator certification program under RCW 28A.300.040(9) and the paraeducator certificate program under the chapter created in section 21 of this act. Revenue generated through the processing fee shall be deposited in the educator certification processing account.

(3) The educator certification processing account is established in the custody of the state treasurer. The superintendent of public instruction shall deposit in the account all moneys received from the fees collected in subsection (2) of this section. Moneys in the account may be spent only for the processing of educator certificates and subsequent actions and paraeducator certificates and subsequent actions. Disbursements from the account shall be on authorization of the superintendent of public instruction or the superintendent's designee. The account is subject to the allotment procedure provided under chapter 43.88 RCW, but no appropriation is required for disbursements.

Sec. 17. RCW 28A.630.400 and 2011 1st sp.s. c 11 s 132 are each amended to read as follows:

PARAEDUCATOR ASSOCIATE OF ARTS.

(1) The professional educator standards board and the state board for community and technical colleges, in consultation with the superintendent of public instruction, the state apprenticeship training council, and community colleges, shall adopt rules as necessary under chapter 34.05 RCW to implement the paraeducator associate of arts degree.

(2) As used in this section, a "paraeducator" is an individual who has completed an associate of arts degree for a paraeducator. The paraeducator may be hired by a school district to assist

certificated instructional staff in the direct instruction of children in small and large groups, individualized instruction, testing of children, recordkeeping, and preparation of materials. The paraeducator shall work under the direction of instructional certificated staff.

(3)(a) The training program for a paraeducator associate of arts degree shall include, but is not limited to, the general requirements for receipt of an associate of arts degree and training in the areas of introduction to childhood education, orientation to children with disabilities, fundamentals of childhood education, creative activities for children, instructional materials for children, fine art experiences for children, the psychology of learning, introduction to education, child health and safety, child development and guidance, first aid, and a practicum in a school setting.

(b) Subject to the availability of amounts appropriated for this specific purpose, by September 1, 2018, the training program for a paraeducator associate of arts degree must incorporate the state paraeducator standards of practice adopted by the paraeducator board under section 6 of this act.

(4) Consideration shall be given to transferability of credit earned in this program to teacher preparation programs at colleges and universities.

Sec. 18. RCW 28A.660.040 and 2010 c 235 s 504 are each amended to read as follows:

(1) Alternative route programs operating route one programs shall enroll currently employed classified instructional employees with transferable associate degrees seeking residency teacher certification with ((endorsements in special education,

bilingual education, or English as a second language)) an endorsement in subject matter shortage areas, as defined by the professional educator standards board. In addition, partnership programs shall uphold entry requirements for candidates that include:

(a) District or building validation of qualifications, including one year of successful student interaction and leadership as a classified instructional employee;

requirements adopted by rule for teachers; and

(e) Successful passage of the statewide basic skills exam.

(3) Alternative route programs seeking funds to operate route three programs shall enroll individuals with baccalaureate degrees, who are not employed in the district at the time of application. When selecting candidates for certification through route three, districts and approved preparation program providers shall give priority to individuals who are seeking residency teacher certification in subject matter shortage areas or shortages due to geographic locations. Cohorts of candidates for this route shall attend an intensive summer teaching academy, followed by a full year employed by a district in a mentored internship, followed, if necessary, by a second summer teaching academy. In addition, partnership programs shall uphold entry requirements for candidates that include:

(a) A baccalaureate degree from a regionally accredited institution of higher education. The individual's grade point average may be considered as a selection factor;

(b) Successful completion of the subject matter assessment required by RCW 28A.410.220(3);

(c) External validation of qualifications, including demonstrated successful experience with students or children, such as reference letters and letters of support from previous employers;

(e) Successful passage of statewide basic skills exam.

(4) Alternative route programs operating route four programs shall enroll individuals with baccalaureate degrees, who are employed in the district at the time of application, or who hold conditional teaching certificates or emergency substitute certificates. Cohorts of candidates for this route shall attend an intensive summer teaching academy, followed by a full year employed by a district in a mentored internship. If employed on a conditional certificate,

the intern may serve as the teacher of record, supported by a well-trained mentor. In addition, partnership programs shall uphold entry requirements for candidates that include:

(a) A baccalaureate degree from a regionally accredited institution of higher education. The individual's grade point average may be considered as a selection factor;

(b) Successful completion of the subject matter assessment required by RCW 28A.410.220(3);

(c) External validation of qualifications, including demonstrated successful experience with students or children, such as reference letters and letters of support from previous employers;

(e) Successful passage of statewide basic skills exam.

(5) Applicants for alternative route programs who are eligible veterans or national guard members and who meet the entry requirements for the alternative route program for which application is made shall be given preference in admission.

Sec. 19. RCW 28A.660.042 and 2007 c 396 s 6 are each amended to read as follows:

PIPELINE FOR PARAEDUCATORS SCHOLARSHIP.

(1) The pipeline for paraeducators conditional scholarship program is created. Participation is limited to paraeducators without a college degree who have at least three years of classroom experience. It is anticipated that candidates enrolled in this program will complete their associate of arts degree at a community and technical college in two years or less and become eligible for ((a mathematics, special education, or English as a second language endorsement)) an endorsement in a subject matter shortage area, as defined by the professional educator standards board, via route one in the alternative routes to teacher certification program provided in this chapter.

(2) Entry requirements for candidates include district or building validation of qualifications, including three years of successful student interaction and leadership as a classified instructional employee.

Subject to the availability of amounts appropriated for this specific purpose, by September 1, 2018, the paraeducator apprenticeship and certificate programs must also incorporate the state paraeducator standards of practice adopted by the paraeducator board under section 6 of this act.

Prime Sponsor, Committee on Energy, Environment & Telecommunications:
Concerning independent remedial actions under the model toxics control act.
Reported by Committee on Environment

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

"Sec. 1. RCW 70.105D.090 and 2003 c 39 s 30 are each amended to read as follows:

(1) A person conducting an independent remedial action for which the person has obtained a joint voluntary remedial action plan from the department, a remedial action at a facility under a consent decree, order, or agreed order, and the department when it conducts a remedial action, are exempt from the procedural requirements of chapters 70.94, 70.95, 70.105, 77.55, 90.48, and 90.58 RCW, and the procedural requirements of any laws requiring or authorizing local government permits or approvals for the remedial action. For a remedial action conducted under a consent decree, order, or agreed order, or when the department conducts a remedial action, the department shall ensure compliance with the substantive provisions of chapters 70.94, 70.95, 70.105, 77.55, 90.48, and 90.58 RCW, and the substantive provisions of any laws requiring or authorizing local government permits ((of)) or approvals. The department shall establish procedures for ensuring that such remedial actions comply with the substantive requirements adopted pursuant to such laws, and shall consult with the state agencies and local governments charged with implementing these laws. The procedures ensuring the compliance of independent remedial actions for which a person has obtained a joint voluntary remedial action plan must be consistent with section 9 of this act. The procedures shall provide an opportunity for comment by the public and by the state agencies and local governments that would otherwise implement the laws referenced in this section. Nothing in this section is intended to prohibit implementing agencies from charging a fee to the person conducting the remedial action to defray the costs of services rendered relating to the substantive requirements for the remedial action.

(2) An exemption in this section or in RCW 70.94.335, 70.95.270, 70.105.116, ((77.55.030)) 77.55.061, 90.48.039, and 90.58.355 shall not apply if the department determines that the exemption would result in loss of approval from a federal agency necessary for the state to administer any federal law, including the federal resource conservation and recovery act, the federal clean water act, the federal clean air act, and the

federal coastal zone management act. Such a determination by the department shall not affect the applicability of the exemptions to other statutes specified in this section.

Sec. 2. RCW 70.105D.030 and 2013 2nd sp.s. c 1 s 6 are each amended to read as follows:

(1) The department may exercise the following powers in addition to any other powers granted by law:

(a) Investigate, provide for investigating, or require potentially liable persons to investigate any releases or threatened releases of hazardous substances, including but not limited to inspecting, sampling, or testing to determine the nature or extent of any release or threatened release. If there is a reasonable basis to believe that a release or threatened release of a hazardous substance may exist, the department's authorized employees, agents, or contractors may enter upon any property and conduct investigations. The department shall give reasonable notice before entering property unless an emergency prevents such notice. The department may by subpoena require the attendance or testimony of witnesses and the production of documents or other information that the department deems necessary;

(b) Conduct, provide for conducting, or require potentially liable persons to conduct remedial actions (including investigations under (a) of this subsection) to remedy releases or threatened releases of hazardous substances. In carrying out such powers, the department's authorized employees, agents, or contractors may enter upon property. The department shall give reasonable notice before entering property unless an emergency prevents such notice. In conducting, providing for, or requiring remedial action, the department shall give preference to permanent solutions to the maximum extent practicable and shall provide for or require adequate monitoring to ensure the effectiveness of the remedial action;

(c) Indemnify contractors retained by the department for carrying out investigations and remedial actions, but not for any contractor's reckless or willful misconduct;

(d) Carry out all state programs authorized under the federal cleanup law and the federal resource, conservation,

and recovery act, 42 U.S.C. Sec. 6901 et seq., as amended;

(e) Classify substances as hazardous substances for purposes of RCW 70.105D.020 and classify substances and products as hazardous substances for purposes of RCW 82.21.020(1);

(f) Issue orders or enter into consent decrees or agreed orders that include, or issue written opinions under (i) of this subsection that may be conditioned upon, environmental covenants where necessary to protect human health and the environment from a release or threatened release of a hazardous substance from a facility. Prior to establishing an environmental covenant under this subsection, the department shall consult with and seek comment from a city or county department with land use planning authority for real property subject to the environmental covenant;

(g) Enforce the application of permanent and effective institutional controls that are necessary for a remedial action to be protective of human health and the environment and the notification requirements established in RCW 70.105D.110, and impose penalties for violations of that section consistent with RCW 70.105D.050;

(h) Require holders to conduct remedial actions necessary to abate an imminent or substantial endangerment pursuant to RCW 70.105D.020(22)(b)(ii)(C);

(i) Provide informal advice and assistance to persons regarding the administrative and technical requirements of this chapter. This may include site-specific advice to persons who are conducting or otherwise interested in independent remedial actions. It may also include site-specific advice, and advice and assistance relating to the requirements of RCW 70.105D.090 and chapters 70.94, 70.95, 70.105, 77.55, 90.48, and 90.58 RCW, to persons who are conducting or otherwise interested in independent remedial actions for which the person has obtained a joint voluntary remedial action plan from the department. Any such advice or assistance shall be advisory only, and shall not be binding on the department. As a part of providing this advice and assistance for independent remedial actions, the department may prepare written opinions regarding whether the independent remedial actions

or proposals for those actions meet the substantive requirements of this chapter or whether the department believes further remedial action is necessary at the facility. Nothing in this chapter may be construed to preclude the department from issuing a written opinion on whether further remedial action is necessary at any portion of the real property located within a facility, even if further remedial action is still necessary elsewhere at the same facility. Such a written opinion on a portion of a facility must also provide an opinion on the status of the facility as a whole. The department may collect, from persons requesting advice and assistance, the costs incurred by the department in providing such advice and assistance; however, the department shall, where appropriate, waive collection of costs in order to provide an appropriate level of technical assistance in support of public participation. The state, the department, and officers and employees of the state are immune from all liability, and no cause of action of any nature may arise from any act or omission in providing, or failing to provide, informal advice and assistance. The department must track the number of requests for reviews of planned or completed independent remedial actions and establish performance measures to track how quickly the department is able to respond to those requests((. By November 1, 2015, the department must submit to the governor and the appropriate legislative fiscal and policy committees a report on achieving the performance measures and provide recommendations for improving performance, including staffing needs));

(j) In fulfilling the objectives of this chapter, the department shall allocate staffing and financial assistance in a manner that considers both the reduction of human and environmental risks and the land reuse potential and planning for the facilities to be cleaned up. This does not preclude the department from allocating resources to a facility based solely on human or environmental risks;

(k) Establish model remedies for common categories of facilities, types of hazardous substances, types of media, or geographic areas to streamline and accelerate the selection of remedies for routine types of cleanups at facilities;

(i) When establishing a model remedy, the department shall:

(A) Identify the requirements for characterizing a facility to select a model remedy, the applicability of the model remedy for use at a facility, and monitoring requirements;

(B) Describe how the model remedy meets clean-up standards and the requirements for selecting a remedy established by the department under this chapter; and

(C) Provide public notice and an opportunity to comment on the proposed model remedy and the conditions under which it may be used at a facility;

(ii) When developing model remedies, the department shall solicit and consider proposals from qualified persons. The proposals must, in addition to describing the model remedy, provide the information required under (k) (i) (A) and (B) of this subsection;

(iii) If a facility meets the requirements for use of a model remedy, an analysis of the feasibility of alternative remedies is not required under this chapter. For department-conducted and department-supervised remedial actions, the department must provide public notice and consider public comments on the proposed use of a model remedy at a facility. The department may waive collection of its costs for providing a written opinion under (i) of this subsection on a cleanup that qualifies for and appropriately uses a model remedy; and

(1) Take any other actions necessary to carry out the provisions of this chapter, including the power to adopt rules under chapter 34.05 RCW.

(2) The department shall immediately implement all provisions of this chapter to the maximum extent practicable, including investigative and remedial actions where appropriate. The department shall adopt, and thereafter enforce, rules under chapter 34.05 RCW to:

(a) Provide for public participation, including at least (i) public notice of the development of investigative plans or remedial plans for releases or threatened releases and (ii) concurrent public notice of all compliance orders, agreed orders, enforcement orders, or notices of violation;

(b) Establish a hazard ranking system for hazardous waste sites;

(c) Provide for requiring the reporting by an owner or operator of releases of hazardous substances to the environment that may be a threat to human health or the environment within ninety days of discovery, including such exemptions from reporting as the department deems appropriate, however this requirement shall not modify any existing requirements provided for under other laws;

(d) Establish reasonable deadlines not to exceed ninety days for initiating an investigation of a hazardous waste site after the department receives notice or otherwise receives information that the site may pose a threat to human health or the environment and other reasonable deadlines for remedying releases or threatened releases at the site;

(e) Publish and periodically update minimum clean-up standards for remedial actions at least as stringent as the clean-up standards under section 121 of the federal cleanup law, 42 U.S.C. Sec. 9621, and at least as stringent as all applicable state and federal laws, including health-based standards under state and federal law; and

(f) Apply industrial clean-up standards at industrial properties. Rules adopted under this subsection shall ensure that industrial properties cleaned up to industrial standards cannot be converted to nonindustrial uses without approval from the department. The department may require that a property cleaned up to industrial standards is cleaned up to a more stringent applicable standard as a condition of conversion to a nonindustrial use. Industrial clean-up standards may not be applied to industrial properties where hazardous substances remaining at the property after remedial action pose a threat to human health or the environment in adjacent nonindustrial areas.

(3) To achieve and protect the state's long-term ecological health, the department shall plan to clean up hazardous waste sites and prevent the creation of future hazards due to improper disposal of toxic wastes at a pace that matches the estimated cash resources in the state and local toxics control accounts and the environmental legacy stewardship account created in RCW 70.105D.170. Estimated cash resources

must consider the annual cash flow requirements of major projects that receive appropriations expected to cross multiple biennia. To effectively monitor toxic accounts expenditures, the department shall develop a comprehensive ten-year financing report that identifies long-term remedial action project costs, tracks expenses, and projects future needs.

(4) By November 1, 2016, the department must submit to the governor and the appropriate legislative committees a report on the status of developing model remedies and their use under this chapter. The report must include: The number and types of model remedies identified by the department under subsection (1)(k) of this section; the number and types of model remedy proposals prepared by qualified private sector engineers, consultants, or contractors that were accepted or rejected under subsection (1)(k) of this section and the reasons for rejection; and the success of model remedies in accelerating the cleanup as measured by the number of jobs created by the cleanup, where this information is available to the department, acres of land restored, and the number and types of hazardous waste sites successfully remediated using model remedies.

(5) Before September 20th of each even-numbered year, the department shall:

(a) Develop a comprehensive ten-year financing report in coordination with all local governments with clean-up responsibilities that identifies the projected biennial hazardous waste site remedial action needs that are eligible for funding from the state and local toxics control account and the environmental legacy stewardship account;

(b) Work with local governments to develop working capital reserves to be incorporated in the ten-year financing report;

(c) Identify the projected remedial action needs for orphaned, abandoned, and other clean-up sites that are eligible for funding from the state toxics control account;

(d) Project the remedial action need, cost, revenue, and any recommended working capital reserve estimate to the next biennium's long-term remedial action needs from both the local and

state toxics control account and the environmental legacy stewardship account, and submit this information to the appropriate standing fiscal and environmental committees of the senate and house of representatives. This submittal must also include a ranked list of such remedial action projects for both accounts. The submittal must also identify separate budget estimates for large, multibiennia clean-up projects that exceed ten million dollars. The department shall prepare its ten-year capital budget plan that is submitted to the office of financial management to reflect the separate budget estimates for these large clean-up projects and include information on the anticipated private and public funding obligations for completion of the relevant projects.

(6) By December 1st of each odd-numbered year, the department must provide the legislature and the public a report of the department's activities supported by appropriations from the state and local toxics control accounts and the environmental legacy stewardship account. The report must be prepared and displayed in a manner that allows the legislature and the public to easily determine the statewide and local progress made in cleaning up hazardous waste sites under this chapter. The report must include, at a minimum:

(a) The name, location, hazardous waste ranking, and a short description of each site on the hazardous sites list, and the date the site was placed on the hazardous waste sites list; and

(b) For sites where there are state contracts, grants, loans, or direct investments by the state:

(i) The amount of money from the state and local toxics control accounts and the environmental legacy stewardship account used to conduct remedial actions at the site and the amount of that money recovered from potentially liable persons;

(ii) The actual or estimated start and end dates and the actual or estimated expenditures of funds authorized under this chapter for the following project phases:

(A) Emergency or interim actions, if needed;

(B) Remedial investigation;

(C) Feasibility study and selection of a remedy;

(D) Engineering design and construction of the selected remedy;

(E) Operation and maintenance or monitoring of the constructed remedy; and

(F) The final completion date.

(7) The department shall establish a program to identify potential hazardous waste sites and to encourage persons to provide information about hazardous waste sites.

(8) For all facilities where an environmental covenant has been required under subsection (1)(f) of this section, including all facilities where the department has required an environmental covenant under an order, agreed order, or consent decree, or as a condition of a written opinion issued under the authority of subsection (1)(i) of this section, the department shall periodically review the environmental covenant for effectiveness. Except as otherwise provided in (c) of this subsection, the department shall conduct a review at least once every five years after an environmental covenant is recorded.

(a) The review shall consist of, at a minimum:

(i) A review of the title of the real property subject to the environmental covenant to determine whether the environmental covenant was properly recorded and, if applicable, amended or terminated;

(ii) A physical inspection of the real property subject to the environmental covenant to determine compliance with the environmental covenant, including whether any development or redevelopment of the real property has violated the terms of the environmental covenant; and

(iii) A review of the effectiveness of the environmental covenant in limiting or prohibiting activities that may interfere with the integrity of the remedial action or that may result in exposure to or migration of hazardous substances. This shall include a review of available monitoring data.

(b) If an environmental covenant has been amended or terminated without proper authority, or if the terms of an environmental covenant have been violated, or if the environmental

covenant is no longer effective in limiting or prohibiting activities that may interfere with the integrity of the remedial action or that may result in exposure to or migration of hazardous substances, then the department shall take any and all appropriate actions necessary to ensure compliance with the environmental covenant and the policies and requirements of this chapter.

(c) For facilities where an environmental covenant required by the department under subsection (1)(f) of this section was required before July 1, 2007, the department shall:

(i) Enter all required information about the environmental covenant into the registry established under RCW 64.70.120 by June 30, 2008;

(ii) For those facilities where more than five years has elapsed since the environmental covenant was required and the department has yet to conduct a review, conduct an initial review according to the following schedule:

(A) By December 30, 2008, fifty facilities;

(B) By June 30, 2009, fifty additional facilities; and

(C) By June 30, 2010, the remainder of the facilities;

(iii) Once this initial review has been completed, conduct subsequent reviews at least once every five years.

NEW SECTION. Sec. 9. A new section is added to chapter 70.105D RCW to read as follows:

(b) For each joint voluntary remedial action plan, the department shall forward the information included in the consolidated application to all appropriate local governments. The local governments have thirty days in which to communicate to the department the site-specific requirements associated with any statutes, administrative rules, ordinances, or development regulations administered by the local governments.

(4) Beginning January 1, 2019, any person wishing to conduct an independent remedial action has the option of completing a consolidated application under subsection (3) of this section and receiving from the department a joint voluntary remedial action plan.

(5) A person who obtains a joint voluntary remedial action plan from the department is exempt from the procedural requirements of chapters 70.94, 70.95, 70.105, 77.55, 90.48, and 90.58 RCW, and the procedural requirements of any laws requiring or authorizing local government permits or approvals for the remedial action.

(6) A joint voluntary remedial action plan neither reduces nor enlarges a person's legal obligations under any state and local land use and environmental statute, administrative

rule, ordinance, or development regulation applicable to the property that is the subject of the independent remedial action. A joint voluntary remedial action plan may not serve as the basis of a cause of action under this chapter or under any state or local land use or environmental statute, administrative rule, ordinance, or development regulation that may be addressed in the joint voluntary remedial action plan."

"PART 1

CREATING THE DEPARTMENT OF CORRECTIONS OMBUDS

NEW SECTION. Sec. 1. The legislature intends to create an independent and impartial office of the corrections

ombuds to assist in strengthening procedures and practices that lessen the possibility of actions occurring within the department of corrections that may adversely impact the health, safety, welfare, and rehabilitation of offenders, and that will effectively reduce the exposure of the department to litigation.

NEW SECTION. Sec. 2. Subject to the availability of amounts appropriated for this specific purpose, the office of the corrections ombuds is created for the purpose of providing information to inmates, family members, representatives of inmates, department employees, and others regarding the rights of inmates; providing technical assistance to support inmate self-advocacy; identifying systemic issues and responses for the governor and the legislature to act upon; reporting to the legislature; and ensuring compliance with relevant statutes, rules, and policies pertaining to conditions of correctional facilities, services, and treatment of inmates under the jurisdiction of the department.

NEW SECTION. Sec. 3. The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Abuse" means any act or failure to act by a department employee, subcontractor, or volunteer which was performed, or which was failed to be performed, knowingly, recklessly, or intentionally, and which caused, or may have caused, injury or death to an inmate.

(2) "Corrections ombuds" or "ombuds" means the corrections ombuds, staff of the corrections ombuds, and volunteers with the office of the corrections ombuds.

(3) "Council" means the ombuds advisory council established in section 4(1) of this act.

(4) "Department" means the department of corrections.

(5) "Inmate" means a person committed to the physical custody of the department, including persons residing in a correctional institution or facility and persons received from another state, another state agency, a county, or the federal government.

(6) "Neglect" means a negligent act or omission by any department employee, subcontractor, or volunteer which caused, or may have caused, injury or death to an inmate.

(7) "Office" means the office of the corrections ombuds.

(8) "Organization" means the private nonprofit organization that operates the office of the corrections ombuds.

NEW SECTION. Sec. 4. (1) Subject to the availability of amounts appropriated for this specific purpose, no later than August 1, 2017, the governor shall convene an ombuds advisory council with several purposes in support of the ombuds function. The council shall participate in a priority setting process for the purpose of developing priority recommendations to the ombuds, review data collected by the ombuds, review reports issued by the ombuds prior to their release, and make recommendations to the ombuds regarding the accomplishment of its purposes. The council also has authority to issue its own reports and recommendations. The council must biannually review ombuds performance, reporting to the governor and the legislature regarding its findings. The council must provide the legislature with recommendations regarding the ombuds budget and changes in the law that would enhance ombuds effectiveness.

(2) The council consists of the following members, appointed by the governor:

(a) Two former inmates who have successfully reintegrated into the community and are no longer in the custody of the department;

(b) Two family members of current inmates;

(c) One expert with significant criminal justice or correctional experience who is not an employee or contractor with the state of Washington;

(d) A community member with extensive knowledge and experience in issues related to racial, ethnic, or religious diversity within the correctional system;

(e) A community member with extensive knowledge and experience in the accommodation needs of individuals with disabilities; and

(f) A community member with dispute resolution training who has experience working in the criminal justice or corrections field.

(3) The council also includes:

(a) The department staff serving as the internal ombuds, if any;

(b) A bargaining unit representative; and

(c) A representative of the governor's office.

(4) After the full membership is attained, the council shall develop a process for replacing members in case of resignation or expiration of terms.

(5) Councilmembers serve a term of two years, except that the council shall create and implement a system of staggered terms, and no member other than the department staff serving as the internal ombuds may serve more than two consecutive terms. The council shall convene at least quarterly. Councilmembers will serve without compensation, except that funds appropriated for the implementation of this chapter may be used to reimburse members who are not employees of Washington state for expenses necessary to the performance of their duties.

NEW SECTION. Sec. 5. (1) Subject to the availability of amounts appropriated for this specific purpose, the department of commerce shall designate, by a competitive bidding process, the nonprofit organization that will contract to operate the office of the corrections ombuds. The contract must last for a period of two years and may be renewed at the end of the term. The department of commerce shall select an organization that possesses, directly or through subcontracts, significant legal expertise, competence with mediation and alternative dispute resolution, and experience working within criminal justice and correctional environments. Other relevant experience may include, but is not limited to, addressing issues relating to chemical dependency treatment, disability and disability-related accommodation, respect for racial, ethnic, and religious diversity, and other civil rights and conditions issues. The selected organization must have experience and the capacity to communicate effectively regarding criminal justice issues with policymakers, stakeholders, and the

general public, and must be prepared and able to provide all program and staff support necessary, directly or through subcontracts, to carry out all duties of the office.

(2) The organization and its subcontractors, if any, are not state agencies or departments, but instead are private, independent entities operating under contract with the state.

(3) The organization must be an objective and neutral entity that will impartially investigate complaints.

(4) The organization is subject to financial and other audits by the state auditor's office, and its employees must abide by the provisions of chapter 42.52 RCW.

NEW SECTION. Sec. 6. (1) The ombuds shall:

(a) Establish priorities for use of the limited resources appropriated to implement this chapter;

(b) Develop policies for responding to records requests from the public. These policies shall be similar in scope to the requirements in the public records act except that identifying information about complainants or witnesses must be protected and nondisclosable unless the complainant or witness waives confidentiality;

(c) Maintain a statewide toll-free telephone number, a collect telephone number, a web site, and a mailing address for the receipt of complaints and inquiries;

(d) Provide information, as appropriate, to inmates, family members, representatives of inmates, department employees, and others regarding the rights of inmates;

(e) Provide technical assistance to support inmate participation in self-advocacy;

(f) Monitor department compliance with applicable federal, state, and local laws, rules, regulations, and policies with a view toward the appropriate health, safety, welfare, and rehabilitation of inmates;

(g) Monitor and participate in legislative and policy developments affecting correctional facilities;

(h) Establish a statewide uniform reporting system to collect and analyze

data related to complaints regarding the department;

(i) Establish procedures to receive, investigate, and resolve complaints;

(j) Submit annually to the council, the governor's office, and the legislature, by November 1st of each year, a report analyzing the work of the office, including any recommendations; and

(k) Adopt and comply with rules, policies, and procedures necessary to implement this chapter.

(2)(a) The ombuds may initiate and attempt to resolve an investigation upon his or her own initiative, or upon receipt of a complaint from an inmate, a family member, a representative of an inmate, a department employee, or others, regarding:

(i) Abuse or neglect;

(ii) Department decisions or administrative actions;

(iii) Inactions or omissions;

(iv) Policies, rules, or procedures; or

(v) Alleged violations of law by the department that may adversely affect the health, safety, welfare, and rights of inmates.

(b) Prior to filing a complaint with the ombuds, a person shall have reasonably pursued resolution of the complaint through the internal grievance, administrative, or appellate procedures with the department. However, in no event may an inmate be prevented from filing a complaint more than ninety business days after filing an internal grievance, regardless of whether the department has completed the grievance process. This subsection (2)(b) does not apply to complaints related to threats of bodily harm including, but not limited to, sexual or physical assaults or the denial of necessary medical treatment.

(c) The ombuds may decline to investigate any complaint as provided by the rules adopted under this chapter.

(d) If the ombuds does not investigate a complaint, the ombuds shall notify the complainant of the decision not to investigate and the reasons for the decision.

(e) The ombuds may not investigate any complaints relating to an inmate's underlying criminal conviction.

(f) The ombuds may not investigate a complaint from a department employee that relates to the employee's employment relationship with the department.

(g) The ombuds may refer complainants and others to appropriate resources, agencies, or departments.

(h) The ombuds may not levy any fees for the submission or investigation of complaints.

(i) At the conclusion of an investigation of a complaint, the ombuds must render a public decision on the merits of each complaint, except that the documents supporting the decision are subject to the confidentiality provisions of section 8 of this act. The ombuds must communicate the decision to the inmate, if any, and to the department. The ombuds must state their recommendations and reasoning if, in the ombuds' opinion, the department or any employee thereof should:

- (i) Consider the matter further;
- (ii) Modify or cancel any action;
- (iii) Alter a rule, practice, or ruling;
- (iv) Explain in detail the administrative action in question;
- (v) Rectify an omission; or
- (vi) Take any other action.

(j) If the ombuds so requests, the department must, within the time specified, inform the ombuds about any action taken on the recommendations or the reasons for not complying with the recommendations.

(k) If the ombuds believes, based on the investigation, that there has been or continues to be a significant inmate health, safety, welfare, or rehabilitation issue, the ombuds must report the finding to the governor and the appropriate committees of the legislature.

(l) Before announcing a conclusion or recommendation that expressly, or by implication, criticizes a person or the department, the ombuds shall consult with that person or the department. The ombuds may request to be notified by the department, within a specified time, of

any action taken on any recommendation presented. The ombuds must notify the inmate, if any, of the actions taken by the department in response to the ombuds' recommendations.

(3) This chapter does not require inmates to file a complaint with the ombuds in order to exhaust available administrative remedies for purposes of the prison litigation reform act of 1995, P.L. 104-134.

NEW SECTION. Sec. 7. (1) The department must permit the ombuds to enter and inspect, at any reasonable time, any correctional facility for the purpose of carrying out its duties under this chapter. The ombuds may inspect, view, photograph, and video record all areas of the facility that are used by inmates or are accessible to inmates. Before releasing any photographs or video recordings taken within a correctional facility, the ombuds must consult with the department concerning any safety or security issues.

(2) The department must allow the ombuds reasonable access to inmates, which includes the opportunity to meet and communicate privately and confidentially with individuals regularly, both formally and informally, by telephone, mail, and in person.

(3) Upon the ombuds' request, the department shall grant the ombuds the right to access, inspect, and copy all relevant information, records, or documents in the possession or control of the department that the ombuds considers necessary in an investigation of a complaint filed under this chapter, and must assist the ombuds in obtaining the necessary releases of documents that are specifically restricted or privileged for use by the ombuds.

(4) Following notification from the ombuds with a written demand for access to agency records, the delegated department staff must respond to the ombuds within five business days of the department's receipt of a request by:

- (a) Making the requested documentation available; or
- (b) Acknowledging receipt of the request and providing a reasonable estimate of the time needed to respond.

(5) A state or local government agency or entity that has records that are relevant to a complaint or an

investigation conducted by the ombuds must provide the ombuds with access to such records.

(6) The department may not hinder the lawful actions of the ombuds or employees of the office, or willfully refuse to comply with lawful demands of the office.

(7) The ombuds must work with the department to minimize disruption to the operations of the department due to ombuds activities, and must comply with the department's security clearance processes, provided these processes do not impede the activities outlined in this chapter.

NEW SECTION. Sec. 8. (1) Correspondence and communication with the office is confidential and must be protected as privileged correspondence in the same manner as legal correspondence or communication.

(2) The office shall establish confidentiality rules and procedures for all information maintained by the office.

(3) The office shall preserve the confidentiality of information obtained while providing services, including general information, technical assistance, and investigations, to individuals, including inmates, family members and representatives of inmates, department employees, and others. Confidential information may not be disclosed unless the individual gives informed consent, the disclosure is impliedly authorized in order to carry out ombuds services, or the disclosure is authorized by subsection (4) of this section.

(4) To the extent the ombuds reasonably believes necessary, the ombuds:

(a) Must reveal information obtained in the course of providing ombuds services to prevent reasonably certain death or substantial bodily harm; and

(b) May reveal information obtained in the course of providing ombuds services to prevent the commission of a crime.

(5) If the ombuds receives personally identifying information about individual corrections staff during the course of an investigation that the ombuds determines is unrelated or unnecessary to the subject of the investigation or recommendation for action, the ombuds will not further disclose such information. If the ombuds determines

that such disclosure is necessary to an investigation or recommendation, the ombuds will contact the staff member as well as the bargaining unit representative before any disclosure.

NEW SECTION. Sec. 9. (1) A civil action may not be brought against any employee of the office for good faith performance of responsibilities under this chapter.

(2) No discriminatory, disciplinary, or retaliatory action may be taken against a department employee, subcontractor, or volunteer, an inmate, or a family member or representative of an inmate for any communication made, or information given or disclosed, to aid the office in carrying out its responsibilities, unless the communication or information is made, given, or disclosed maliciously or without good faith.

(3) This section is not intended to infringe on the rights of an employer to supervise, discipline, or terminate an employee for other reasons.

PART 2

DEPARTMENT OF CORRECTIONS

Sec. 10. RCW 72.09.010 and 1995 1st sp.s. c 19 s 2 are each amended to read as follows:

It is the intent of the legislature to establish a comprehensive system of corrections for convicted law violators within the state of Washington to accomplish the following objectives.

(1) The ((system should)) highest duty of the department and the secretary is to ensure the public safety. The system should be designed and managed to provide the maximum feasible safety for the persons and property of the general public, the staff, and the inmates.

(2) The system should punish the offender for violating the laws of the state of Washington. This punishment should generally be limited to the denial of liberty of the offender.

(3) The system should positively impact offenders by stressing personal responsibility and accountability and by discouraging recidivism.

(4) The system should treat all offenders fairly and equitably without regard to race, religion, sex, national origin, residence, or social condition.

(5) The system, as much as possible, should reflect the values of the community including:

(a) Avoiding idleness. Idleness is not only wasteful but destructive to the individual and to the community.

(b) Adoption of the work ethic. It is the community expectation that all individuals should work and through their efforts benefit both themselves and the community.

(c) Providing opportunities for self improvement. All individuals should have opportunities to grow and expand their skills and abilities so as to fulfill their role in the community.

(d) Linking the receipt or denial of privileges to responsible behavior and accomplishments. The individual who works to improve himself or herself and the community should be rewarded for these efforts. As a corollary, there should be no rewards for no effort.

(e) Sharing in the obligations of the community. All citizens, the public and inmates alike, have a personal and fiscal obligation in the corrections system. All communities must share in the responsibility of the corrections system.

(6) The system should provide for prudent management of resources. The avoidance of unnecessary or inefficient public expenditures on the part of offenders and the department is essential. Offenders must be accountable to the department, and the department to the public and the legislature. The human and fiscal resources of the community are limited. The management and use of these resources can be enhanced by wise investment, productive programs, the reduction of duplication and waste, and the joining together of all involved parties in a common endeavor. Since most offenders return to the community, it is wise for the state and the communities to make an investment in effective rehabilitation programs for offenders and the wise use of resources.

(7) The system should provide for restitution. Those who have damaged others, persons or property, have a responsibility to make restitution for these damages.

(8) The system should be accountable to the citizens of the state. In return, the individual citizens and local units

of government must meet their responsibilities to make the corrections system effective.

(9) The system should meet those national standards which the state determines to be appropriate.

NEW SECTION. Sec. 11. A new section is added to chapter 72.09 RCW to read as follows:

To ensure public safety and the administration of justice, if the department has actual knowledge or reason to believe that a computer calculation error is or has caused an error in the calculation of the release date for any prisoner, the department shall immediately manually calculate the release date of that prisoner as well as the release dates of any similarly sentenced prisoners.

NEW SECTION. Sec. 12. A new section is added to chapter 72.09 RCW to read as follows:

On December 1st of each year, and in compliance with RCW 43.01.036, the department must submit a report to the governor and relevant policy and fiscal committees of the legislature that details any information technology backlog at the department along with specific requirements and plans to address such backlog.

PART 3

JOINT LEGISLATIVE AUDIT AND REVIEW COMMITTEE

NEW SECTION. Sec. 13. (1) Pursuant to chapter 43.09 RCW, the joint legislative audit and review committee must conduct a performance audit of the information technology and records related units at the department of corrections, including:

(a) The administrative structure of the units, including whether the units should be restructured to respond efficiently to changes in sentencing laws and other emergent issues;

(b) The sufficiency of staffing levels and expertise at each of the units; and

(c) An evaluation of the advance corrections project's impact on workload and staff resources at each of the units.

(2) The joint legislative audit and review committee shall report its findings to the governor and relevant

policy and fiscal committees of the legislature by December 1, 2018.

PART 4

SENTENCING REFORM

NEW SECTION. Sec. 14. A new section is added to chapter 9.94A RCW to read as follows:

In consultation with the administrative office of the courts, superior court judges' association, Washington association of prosecuting attorneys, Washington association of criminal defense lawyers, Washington public defenders' association, and Washington association of county clerks, the department shall develop a mandatory sentencing elements worksheet. The worksheet shall be used to identify and record the elements of the court's order that are required by the department to calculate an offender's confinement term, and community custody term when ordered. The Washington administrative office of the courts must include the mandatory sentencing elements worksheet in a specific section within its felony judgment and sentence forms.

Sec. 15. RCW 9.94A.480 and 2011 1st sp.s. c 40 s 27 are each amended to read as follows:

(1) A current, newly created or reworked judgment and sentence document for each felony sentencing shall record any and all recommended sentencing agreements or plea agreements and the sentences for any and all felony crimes kept as public records under RCW 9.94A.475 shall contain the clearly printed name and legal signature of the sentencing judge. The judgment and sentence document as defined in this section shall also provide additional space for the sentencing judge's reasons for going either above or below the presumptive sentence range for any and all felony crimes covered as public records under RCW 9.94A.475. In addition, each felony judgment and sentence document must contain in a specific section the mandatory sentencing elements worksheet developed by the department of corrections in section 14 of this act. Both the sentencing judge and the prosecuting attorney's office shall each retain or receive a completed copy of each sentencing document as defined in this section for their own records.

(2) The caseload forecast council shall be sent a completed copy of the judgment and sentence document upon conviction for each felony sentencing under subsection (1) of this section.

(3) If any completed judgment and sentence document as defined in subsection (1) of this section is not sent to the caseload forecast council as required in subsection (2) of this section, the caseload forecast council shall have the authority and shall undertake reasonable and necessary steps to assure that all past, current, and future sentencing documents as defined in subsection (1) of this section are received by the caseload forecast council.

Sec. 16. RCW 9.94A.585 and 2002 c 290 s 19 are each amended to read as follows:

(1) A sentence within the standard sentence range, under RCW 9.94A.510 or 9.94A.517, for an offense shall not be appealed. For purposes of this section, a sentence imposed on a first-time offender under RCW 9.94A.650 shall also be deemed to be within the standard sentence range for the offense and shall not be appealed.

(2) A sentence outside the standard sentence range for the offense is subject to appeal by the defendant or the state. The appeal shall be to the court of appeals in accordance with rules adopted by the supreme court.

(3) Pending review of the sentence, the sentencing court or the court of appeals may order the defendant confined or placed on conditional release, including bond.

(4) To reverse a sentence which is outside the standard sentence range, the reviewing court must find: (a) Either that the reasons supplied by the sentencing court are not supported by the record which was before the judge or that those reasons do not justify a sentence outside the standard sentence range for that offense; or (b) that the sentence imposed was clearly excessive or clearly too lenient.

(5) A review under this section shall be made solely upon the record that was before the sentencing court. Written briefs shall not be required and the review and decision shall be made in an expedited manner according to rules adopted by the supreme court.

(6) The court of appeals shall issue a written opinion in support of its decision whenever the judgment of the sentencing court is reversed and may issue written opinions in any other case where the court believes that a written opinion would provide guidance to sentencing courts and others in implementing this chapter and in developing a common law of sentencing within the state.

(7) The department may petition for a review of a sentence committing an offender to the custody or jurisdiction of the department. The review shall be limited to errors of law or to address a missing, incomplete, or illegible mandatory sentencing elements section required pursuant to RCW 9.94A.480(1). Such petition shall be filed with the court of appeals no later than ninety days after the department has actual knowledge of terms of the sentence. The petition shall include a certification by the department that all reasonable efforts to resolve the dispute at the superior court level have been exhausted.

NEW SECTION. Sec. 17. (1) Subject to the availability of amounts appropriated for this specific purpose, the sentencing guidelines commission shall contract for the services of one or more external consultants to evaluate the state's sentencing laws and practices. The consultant must have demonstrated experience in conducting significant research studies and demonstrated successful experience in evaluating sentencing systems or practices. The evaluation must include:

(a) Recommendations for changing and improving sentencing laws and practices to:

- (i) Reduce complexity and implementation challenges;
 - (ii) Reduce unwarranted disparity;
 - (iii) Increase postconviction review;
 - (iv) Reduce costs to taxpayers;
 - (v) Promote fairness and equity;
 - (vi) Reduce unintended and unnecessary impacts on the community; and
 - (vii) Achieve the intended purposes of sentencing as set forth in RCW 9.94A.010;
- (b) Recommendations for:

(i) A phased prospective and retroactive implementation of any proposed changes; and

(ii) Establishing an ongoing review of sentencing laws and practices; and

(c) An assessment of:

(i) Sentence lengths among different categories of offenders;

(ii) Whether those sentences conform to current research literature on the relationship between sentence lengths and recidivism;

(iii) Sentencing changes adopted by the legislature since 1981, including frequency, nature, and impact;

(iv) Disparity in sentencing laws between similarly situated offenders, including the rationale for such disparities;

(v) The impact of the elimination of the parole system; and

(vi) The state's sentencing laws and practices as compared to other states and other sentencing models.

(2) The consultant shall work cooperatively with the sentencing guidelines commission members to obtain any additional recommendations or input consistent with the purposes of this section. Recommendations from the sentencing guidelines commission shall be included in the consultant's final report.

(3) The consultant shall complete its evaluation and submit a report to the commission, the joint legislative task force on criminal sentencing under section 18 of this act, the appropriate committees of the legislature, and the governor by September 1, 2018. The contract for services must include a requirement for three briefings before the legislature to take place during the 2018 interim and 2019 regular legislative session, including for the joint legislative task force on sentencing, the house of representatives, and the senate.

(4) This section expires July 1, 2019.

NEW SECTION. Sec. 18. (1) A joint legislative task force on criminal sentencing is established.

(2) The task force is composed of members as provided in this subsection.

(a) The president of the senate shall appoint one member from each of the two largest caucuses of the senate.

(b) The speaker of the house of representatives shall appoint one member from each of the two largest caucuses of the house of representatives.

(c) The president of the senate and the speaker of the house of representatives jointly shall appoint members representing the:

(i) Washington association of sheriffs and police chiefs;

(ii) Washington state patrol;

(iii) Caseload forecast council;

(ix) Sentencing guidelines commission;

(x) Department of corrections;

(xi) Superior court judges' association; and

(3) The task force shall review sentencing laws after consideration of the study under section 17 of this act and the consultant's recommendations. The task force shall develop recommendations to reduce sentencing implementation complexities and errors, improve the effectiveness and fairness of the sentencing system, and promote public safety. The task force shall submit a report, including findings and recommendations, to the governor and the appropriate committees of the legislature by December 1, 2019.

(4) The legislative membership shall convene the initial meeting of the task force no later than September 2018. All meetings of the task force must be scheduled and conducted in accordance with the requirements of both the senate and the house of representatives.

(5) The legislative members of the task force shall choose the task force's cochair, which must include one senator and one representative from among the legislative membership of the task force.

(6) Staff support for the task force must be provided by the senate committee services and the house office of program research.

(9) This section expires July 1, 2020.

Reported by Committee on Labor & Workplace Standards

MAJORITY recommendation: Do pass as amended.

"NEW SECTION. Sec. 1. The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Criminal record" includes any record about a citation or arrest for criminal conduct, including records relating to probable cause to arrest, and includes any record about a criminal or juvenile case filed with any court, whether or not the case resulted in a finding of guilt.

(2) "Employer" includes public agencies, private individuals, businesses and corporations, contractors, temporary staffing agencies, training and apprenticeship programs, and job placement, referral, and employment agencies.

(3) "Otherwise qualified" means that the applicant meets the basic criteria for the position as set out in the advertisement or job description without consideration of a criminal record.

NEW SECTION. Sec. 2. (1) An employer may not include any question on any application for employment, inquire either orally or in writing, receive information through a criminal history background check, or otherwise obtain information about an applicant's criminal record until after the employer initially determines that the applicant is otherwise qualified for the position. Once the employer has initially determined that the applicant is otherwise qualified, the employer may

inquire into or obtain information about a criminal record and consider an applicant's criminal record in a hiring decision.

(2) An employer may not advertise employment openings in a way that excludes people with criminal records from applying. Ads that state "no felons," "no criminal background," or otherwise convey similar messages are prohibited.

(3) An employer may not implement any policy or practice that automatically or categorically excludes individuals with a criminal record from consideration prior to an initial determination that the applicant is otherwise qualified for the position. Prohibited policies and practices include rejecting an applicant for failure to disclose a criminal record prior to initially determining the applicant is otherwise qualified for the position.

(4) This section does not apply to:

(a) Any employer hiring a person who will or may have unsupervised access to children under the age of eighteen, a vulnerable adult as defined in chapter 74.34 RCW, or a vulnerable person as defined in RCW 9.96A.060;

(d) Employment by a general or limited authority Washington law enforcement agency as defined in RCW 10.93.020 or by a criminal justice agency as defined in RCW 10.97.030(5)(b); or

(e) To an employer seeking a nonemployee volunteer.

NEW SECTION. Sec. 3. (1) This chapter may not be interpreted or applied to

diminish or conflict with any requirements of state or federal law, including Title VII of the civil rights act of 1964; the federal fair credit reporting act, 15 U.S.C. Sec. 1681; the Washington state fair credit reporting act, chapter 19.182 RCW; and state laws regarding unsupervised access to children or vulnerable persons, RCW 43.43.830 through 43.43.845.

(2) This chapter may not be interpreted or applied as imposing an obligation on the part of an employer to provide accommodations or job modifications in order to facilitate the employment or continued employment of an applicant or employee with a criminal record or who is facing pending criminal charges.

(3) This chapter may not be construed to prohibit an employer from declining to hire an applicant with a criminal record or from terminating the employment of an employee with a criminal record.

(4) This chapter may not be construed to discourage or prohibit an employer from adopting employment policies that are more protective of employees and job applicants than the requirements of this chapter.

(5) This chapter may not be construed to create a private right of action to seek damages or remedies of any kind. The exclusive remedy available under this chapter is enforcement described in section 4 of this act. This chapter does not create any additional liability for employers beyond that enumerated in this chapter.

NEW SECTION. Sec. 4. (1) The state attorney general's office shall enforce this chapter. Its powers to enforce this chapter include the authority to:

(a) Investigate violations of this chapter on its own initiative;

(b) Investigate violations of this chapter in response to complaints and seek remedial relief for the complainant;

(e) Adopt rules implementing this chapter including rules specifying applicable penalties; and

(f) Pursue administrative sanctions or a lawsuit in the courts for penalties, costs, and attorneys' fees.

(2) In exercising its powers, the attorney general's office shall utilize a stepped enforcement approach, by first educating violators, then warning them, then taking legal, including administrative, action. Maximum penalties are as follows: A notice of violation and offer of agency assistance for the first violation, which must allow a ninety-day period to correct the violation before a second violation is assessed; a monetary penalty of up to seven hundred fifty dollars for the second violation; and a monetary penalty of up to one thousand dollars for each subsequent violation.

NEW SECTION. Sec. 5. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected.

NEW SECTION. Sec. 6. If any part of this act is found to be in conflict with federal requirements that are a prescribed condition to the allocation of federal funds to the state, the conflicting part of this act is inoperative solely to the extent of the conflict and with respect to the agencies directly affected, and this finding does not affect the operation of the remainder of this act in its application to the agencies concerned. Rules adopted under this act must meet federal requirements that are a necessary condition to the receipt of federal funds by the state.

NEW SECTION. Sec. 7. Sections 1 through 4, 6, and 8 of this act constitute a new chapter in Title 49 RCW.

SB 5315 Prime Sponsor, Senator King: Concerning home site leases on lands managed by the department of natural resources. Reported by Committee on Agriculture & Natural Resources

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature finds that decades ago the department of natural resources allowed agricultural lease holders to build homes on state-owned trust land. The department of natural resources issued separate, home site leases, for the residential portion of the land. Many of these leases remain, estimated at about fifty in number. In some cases, the department of natural resources has determined that continued management of particular home sites is not in the best interest of the trust. The legislature intends to promote the efficient and effective management of trust lands by providing the board of natural resources with the authority to sell the lands that are the subject of these home site leases in a manner that provides current home site lessees with an option to match the highest bid obtained during a public auction of the home site, while also reducing the likelihood that the department of natural resources will incur additional costs to dispose of improvements that may be attached to such lands.

NEW SECTION. Sec. 2. A new section is added to chapter 79.11 RCW to read as follows:

At the conclusion of any auction of state lands that are the subject of an existing home site lease, the current lessee of such lands has the right to purchase such lands for an amount equal to the final sale price obtained through the auction process, as long as the lessee participated as an active bidder during the auction."

ESSB 5393 Prime Sponsor, Committee on Natural Resources & Parks: Including fish passage barrier removal projects that comply with the forest practices rules in the streamlined permit process provided in RCW 77.55.181. Reported by Committee on Agriculture & Natural Resources

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

"Sec. 1. RCW 77.55.181 and 2014 c 120 s 1 are each amended to read as follows:

(1) (a) In order to receive the permit review and approval process created in this section, a fish habitat enhancement project must meet the criteria under this section and must be a project to accomplish one or more of the following tasks:

(i) Elimination of human-made or caused fish passage barriers, including:

(A) Culvert repair and replacement; and

(B) Fish passage barrier removal projects that comply with the forest practices rules, as the term "forest practices rules" is defined in RCW 76.09.020;

(ii) Restoration of an eroded or unstable stream bank employing the principle of bioengineering, including limited use of rock as a stabilization only at the toe of the bank, and with primary emphasis on using native vegetation to control the erosive forces of flowing water; or

(iii) Placement of woody debris or other instream structures that benefit naturally reproducing fish stocks.

(b) The department shall develop size or scale threshold tests to determine if projects accomplishing any of these tasks should be evaluated under the process created in this section or under other project review and approval processes. A project proposal shall not be reviewed under the process created in this section if the department determines that the scale of the project raises concerns regarding public health and safety.

(c) A fish habitat enhancement project must be approved in one of the following ways in order to receive the permit review and approval process created in this section:

(i) By the department pursuant to chapter 77.95 or 77.100 RCW;

(ii) By the sponsor of a watershed restoration plan as provided in chapter 89.08 RCW;

(iii) By the department as a department-sponsored fish habitat enhancement or restoration project;

(iv) Through the review and approval process for the jobs for the environment program;

(v) Through the review and approval process for conservation district-sponsored projects, where the project complies with design standards established by the conservation commission through interagency agreement with the United States fish and wildlife service and the natural resource conservation service;

(vi) Through a formal grant program established by the legislature or the department for fish habitat enhancement or restoration;

(vii) Through the department of transportation's environmental retrofit program as a stand-alone fish passage barrier correction project;

(viii) Through a local, state, or federally approved fish barrier removal grant program designed to assist local governments in implementing stand-alone fish passage barrier corrections;

(ix) By a city or county for a stand-alone fish passage barrier correction project funded by the city or county; ((and))

(x) Through the approval process established for forest practices hydraulic projects in chapter 76.09 RCW; or

(xi) Through other formal review and approval processes established by the legislature.

(2) Fish habitat enhancement projects meeting the criteria of subsection (1) of this section are expected to result in beneficial impacts to the environment. Decisions pertaining to fish habitat enhancement projects meeting the criteria of subsection (1) of this

section and being reviewed and approved according to the provisions of this section are not subject to the requirements of RCW 43.21C.030(2)(c).

(3)(a) A permit is required for projects that meet the criteria of subsection (1) of this section and are being reviewed and approved under this section. An applicant shall use a joint aquatic resource permit application form developed by the office of regulatory assistance to apply for approval under this chapter. On the same day, the applicant shall provide copies of the completed application form to the department and to each appropriate local government.

For applicants for a forest practices hydraulic project that are not otherwise required to submit a joint aquatic resource permit application, the department of natural resources must forward a copy of the submitted forest practices application to the appropriate local government consistent with RCW 76.09.490.

(b) Local governments shall accept the application identified in this section as notice of the proposed project. ((The department)) A local government shall ((provide)) be provided with a fifteen-day comment period during which it ((will receive)) may transmit comments regarding environmental impacts to the department or, for forest practices hydraulic projects, to the department of natural resources.

(c) ((Within forty-five days)) Except for forest practices hydraulic projects, the department shall either issue a permit, with or without conditions, deny approval, or make a determination that the review and approval process created by this section is not appropriate for the proposed project within forty-five days. The department shall base this determination on identification during the comment period of adverse impacts that cannot be mitigated by the conditioning of a permit. Permitting decisions over forest practices hydraulic approvals must be made consistent with chapter 76.09 RCW.

(d) If the department determines that the review and approval process created by this section is not appropriate for the proposed project, the department shall notify the applicant and the appropriate local governments of its determination. The applicant may reapply

for approval of the project under other review and approval processes.

(e) Any person aggrieved by the approval, denial, conditioning, or modification of a permit other than a forest practices hydraulic project under this section may appeal the decision as provided in RCW 77.55.021(8). Appeals of a forest practices hydraulic project may be made as provided in chapter 76.09 RCW.

(4) No local government may require permits or charge fees for fish habitat enhancement projects that meet the criteria of subsection (1) of this section and that are reviewed and approved according to the provisions of this section.

(5) No civil liability may be imposed by any court on the state or its officers and employees for any adverse impacts resulting from a fish enhancement project permitted by the department or the department of natural resources under the criteria of this section except upon proof of gross negligence or willful or wanton misconduct.

Sec. 2. RCW 76.09.490 and 2012 1st sp.s. c 1 s 202 are each amended to read as follows:

(1) The department may request information and technical assistance from the department of fish and wildlife regarding any forest practices hydraulic project regulated under this chapter.

(2) A concurrence review process is established for certain forest practices hydraulic projects, as follow[s]:

(a) After receiving an application under RCW 76.09.050 that includes a forest practices hydraulic project involving one or more water crossing structures meeting the criteria of (b) of this subsection, the department shall provide all necessary information provided by the applicant to the department of fish and wildlife for concurrence review consistent with RCW 77.55.361(3). The required information must be transmitted by the department to the department of fish and wildlife as soon as practicable following the receipt of a complete application.

(b) The concurrence review process applies only to:

(i) Culvert installation or replacement, and repair at or below the bankfull width, as that term is defined in WAC 222-16-010 on July 10, 2012, in

fish bearing rivers and streams that exceed five percent gradient;

(ii) Bridge construction or replacement, and repair at or below the bankfull width, of fish bearing unconfined streams; or

(iii) Fill within the flood level - 100 year, as that term is defined in WAC 222-16-010, as it existed on July 10, 2012, of fish bearing unconfined streams.

(3) After receiving an application under RCW 76.09.050 that includes a forest practices hydraulic project involving one or more fish passage barrier removals, the department must provide a copy of that application to the appropriate local government for the purposes of providing notification under RCW 77.55.181. The copy of the application must be forwarded within forty-eight hours in the manner deemed most efficient by the department. This may include notification through web-based or other electronic notification systems."

(2) Participation in a graduation ceremony and receipt of a certificate of

attendance under this section does not preclude a student from continuing to receive special education and related services under an individualized education program beyond the graduation ceremony.

(3) A student's participation in a graduation ceremony and receipt of a certificate of attendance under this section shall not be construed as the student's receipt of ((either:

(a)) a high school diploma pursuant to RCW 28A.230.120(; or

(b) A certificate of individual achievement pursuant to RCW 28A.155.045)).

Sec. 103. RCW 28A.230.090 and 2016 c 162 s 2 are each amended to read as follows:

(1) The state board of education shall establish high school graduation requirements or equivalencies for students, except as provided in RCW 28A.230.122 and except those equivalencies established by local high schools or school districts under RCW 28A.230.097. The purpose of a high school diploma is to declare that a student is ready for success in postsecondary education, gainful employment, and citizenship, and is equipped with the skills to be a lifelong learner.

(a) Any course in Washington state history and government used to fulfill high school graduation requirements shall consider including information on the culture, history, and government of the American Indian peoples who were the first inhabitants of the state.

(b) ((The certificate of academic achievement requirements under RCW 28A.655.061 or the certificate of individual achievement requirements under RCW 28A.155.045 are required for graduation from a public high school but are not the only requirements for graduation.

(c)) Any decision on whether a student has met the state board's high school graduation requirements for a high school and beyond plan shall remain at the local level. Effective with the graduating class of 2015, the state board of education may not establish a requirement for students to complete a culminating project for graduation.

((d)) (c)(i) The state board of education shall adopt rules to implement

the career and college ready graduation requirement proposal adopted under board resolution on November 10, 2010, and revised on January 9, 2014, to take effect beginning with the graduating class of 2019 or as otherwise provided in this subsection (1)((d)) (c). The rules must include authorization for a school district to waive up to two credits for individual students based on unusual circumstances and in accordance with written policies that must be adopted by each board of directors of a school district that grants diplomas. The rules must also provide that the content of the third credit of mathematics and the content of the third credit of science may be chosen by the student based on the student's interests and high school and beyond plan with agreement of the student's parent or guardian or agreement of the school counselor or principal.

(ii) School districts may apply to the state board of education for a waiver to implement the career and college ready graduation requirement proposal beginning with the graduating class of 2020 or 2021 instead of the graduating class of 2019. In the application, a school district must describe why the waiver is being requested, the specific impediments preventing timely implementation, and efforts that will be taken to achieve implementation with the graduating class proposed under the waiver. The state board of education shall grant a waiver under this subsection (1)((d)) (c) to an applying school district at the next subsequent meeting of the board after receiving an application.

(2) (a) In recognition of the statutory authority of the state board of education to establish and enforce minimum high school graduation requirements, the state board shall periodically reevaluate the graduation requirements and shall report such findings to the legislature in a timely manner as determined by the state board.

(b) The state board shall reevaluate the graduation requirements for students enrolled in vocationally intensive and rigorous career and technical education programs, particularly those programs that lead to a certificate or credential that is state or nationally recognized. The purpose of the evaluation is to ensure that students enrolled in these programs have sufficient opportunity to ((earn a certificate of academic

achievement,)) complete the program and earn the program's certificate or credential, and complete other state and local graduation requirements.

(c) The state board shall forward any proposed changes to the high school graduation requirements to the education committees of the legislature for review. The legislature shall have the opportunity to act during a regular legislative session before the changes are adopted through administrative rule by the state board. Changes that have a fiscal impact on school districts, as identified by a fiscal analysis prepared by the office of the superintendent of public instruction, shall take effect only if formally authorized and funded by the legislature through the omnibus appropriations act or other enacted legislation.

(3) Pursuant to any requirement for instruction in languages other than English established by the state board of education or a local school district, or both, for purposes of high school graduation, students who receive instruction in American sign language or one or more American Indian languages shall be considered to have satisfied the state or local school district graduation requirement for instruction in one or more languages other than English.

(4) If requested by the student and his or her family, a student who has completed high school courses before attending high school shall be given high school credit which shall be applied to fulfilling high school graduation requirements if:

(a) The course was taken with high school students, if the academic level of the course exceeds the requirements for seventh and eighth grade classes, and the student has successfully passed by completing the same course requirements and examinations as the high school students enrolled in the class; or

(b) The academic level of the course exceeds the requirements for seventh and eighth grade classes and the course would qualify for high school credit, because the course is similar or equivalent to a course offered at a high school in the district as determined by the school district board of directors.

(5) Students who have taken and successfully completed high school courses under the circumstances in subsection (4) of this section shall not

be required to take an additional competency examination or perform any other additional assignment to receive credit.

(6) At the college or university level, five quarter or three semester hours equals one high school credit.

Sec. 104. RCW 28A.230.122 and 2011 c 203 s 1 are each amended to read as follows:

(1) A student who fulfills the requirements specified in subsection (3) of this section toward completion of an international baccalaureate diploma programme is considered to have satisfied state minimum requirements for graduation from a public high school, except that(:

(a) The provisions of RCW 28A.655.061 regarding the certificate of academic achievement or RCW 28A.155.045 regarding the certificate of individual achievement apply to students under this section; and

(b)) the provisions of RCW 28A.230.170 regarding study of the United States Constitution and the Washington state Constitution apply to students under this section.

(2) School districts may require students under this section to complete local graduation requirements that are in addition to state minimum requirements before issuing a high school diploma under RCW 28A.230.120. However, school districts are encouraged to waive local requirements as necessary to encourage students to pursue an international baccalaureate diploma.

(3) To receive a high school diploma under this section, a student must complete and pass all required international baccalaureate diploma programme courses as scored at the local level; pass all internal assessments as scored at the local level; successfully complete all required projects and products as scored at the local level; and complete the final examinations administered by the international baccalaureate organization in each of the required subjects under the diploma programme.

Sec. 105. RCW 28A.230.125 and 2014 c 102 s 3 are each amended to read as follows:

(1) The superintendent of public instruction, in consultation with the

four-year institutions as defined in RCW 28B.76.020, the state board for community and technical colleges, and the workforce training and education coordinating board, shall develop for use by all public school districts a standardized high school transcript. The superintendent shall establish clear definitions for the terms "credits" and "hours" so that school programs operating on the quarter, semester, or trimester system can be compared.

(2) ((The standardized high school transcript shall include a notation of whether the student has earned a certificate of individual achievement or a certificate of academic achievement.

(3)) The standardized high school transcript may include a notation of whether the student has earned the Washington state seal of biliteracy established under RCW 28A.300.575.

Sec. 106. RCW 28A.655.070 and 2015 c 211 s 3 are each amended to read as follows:

(1) The superintendent of public instruction shall develop essential academic learning requirements that identify the knowledge and skills all public school students need to know and be able to do based on the student learning goals in RCW 28A.150.210, develop student assessments, and implement the accountability recommendations and requests regarding assistance, rewards, and recognition of the state board of education.

(2) The superintendent of public instruction shall:

(a) Periodically revise the essential academic learning requirements, as needed, based on the student learning goals in RCW 28A.150.210. Goals one and two shall be considered primary. To the maximum extent possible, the superintendent shall integrate goal four and the knowledge and skill areas in the other goals in the essential academic learning requirements; and

(b) Review and prioritize the essential academic learning requirements and identify, with clear and concise descriptions, the grade level content expectations to be assessed on the statewide student assessment and used for state or federal accountability purposes. The review, prioritization, and identification shall result in more focus and targeting with an emphasis on

depth over breadth in the number of grade level content expectations assessed at each grade level. Grade level content expectations shall be articulated over the grades as a sequence of expectations and performances that are logical, build with increasing depth after foundational knowledge and skills are acquired, and reflect, where appropriate, the sequential nature of the discipline. The office of the superintendent of public instruction, within seven working days, shall post on its web site any grade level content expectations provided to an assessment vendor for use in constructing the statewide student assessment.

(3) (a) In consultation with the state board of education, the superintendent of public instruction shall maintain and continue to develop and revise a statewide academic assessment system in the content areas of reading, writing, mathematics, and science for use in the elementary, middle, and high school years designed to determine if each student has mastered the essential academic learning requirements identified in subsection (1) of this section. School districts shall administer the assessments under guidelines adopted by the superintendent of public instruction. The academic assessment system may include a variety of assessment methods, including criterion-referenced and performance-based measures.

(b) Effective with the 2009 administration of the Washington assessment of student learning and continuing with the statewide student assessment, the superintendent shall redesign the assessment in the content areas of reading, mathematics, and science in all grades except high school by shortening test administration and reducing the number of short answer and extended response questions.

(c) By the 2014-15 school year, the superintendent of public instruction, in consultation with the state board of education, shall modify the statewide student assessment system to transition to assessments developed with a multistate consortium, as provided in this subsection:

(i) The assessments developed with a multistate consortium to assess student proficiency in English language arts and mathematics shall be administered beginning in the 2014-15 school year. The reading and writing assessments shall not be administered by the superintendent of

public instruction or schools after the 2013-14 school year.

(ii) The high school assessments in English language arts and mathematics in (c)(i) of this subsection shall be used for ((the purposes of earning a certificate of academic achievement for high school graduation under the timeline established in RCW 28A.655.061 and for)) assessing student career and college readiness.

((iii) During the transition period specified in RCW 28A.655.061, the superintendent of public instruction shall use test items and other resources from the consortium assessment to develop and administer a tenth grade high school English language arts assessment, an end-of-course mathematics assessment to assess the standards common to algebra I and integrated mathematics I, and an end-of-course mathematics assessment to assess the standards common to geometry and integrated mathematics II.))

(4) If the superintendent proposes any modification to the essential academic learning requirements or the statewide assessments, then the superintendent shall, upon request, provide opportunities for the education committees of the house of representatives and the senate to review the assessments and proposed modifications to the essential academic learning requirements before the modifications are adopted.

(5) The assessment system shall be designed so that the results under the assessment system are used by educators as tools to evaluate instructional practices, and to initiate appropriate educational support for students who have not mastered the essential academic learning requirements at the appropriate periods in the student's educational development.

(6) By September 2007, the results for reading and mathematics shall be reported in a format that will allow parents and teachers to determine the academic gain a student has acquired in those content areas from one school year to the next.

(7) To assist parents and teachers in their efforts to provide educational support to individual students, the superintendent of public instruction shall provide as much individual student performance information as possible within the constraints of the assessment

system's item bank. The superintendent shall also provide to school districts:

(a) Information on classroom-based and other assessments that may provide additional achievement information for individual students; and

(b) A collection of diagnostic tools that educators may use to evaluate the academic status of individual students. The tools shall be designed to be inexpensive, easily administered, and quickly and easily scored, with results provided in a format that may be easily shared with parents and students.

(8) To the maximum extent possible, the superintendent shall integrate knowledge and skill areas in development of the assessments.

(9) Assessments for goals three and four of RCW 28A.150.210 shall be integrated in the essential academic learning requirements and assessments for goals one and two.

(10) The superintendent shall develop assessments that are directly related to the essential academic learning requirements, and are not biased toward persons with different learning styles, racial or ethnic backgrounds, or on the basis of gender.

(11) The superintendent shall consider methods to address the unique needs of special education students when developing the assessments under this section.

(12) The superintendent shall consider methods to address the unique needs of highly capable students when developing the assessments under this section.

(13) The superintendent shall post on the superintendent's web site lists of resources and model assessments in social studies, the arts, and health and fitness.

(14) The superintendent shall integrate financial education skills and content knowledge into the state learning standards pursuant to RCW 28A.300.460(2)(d).

The office of the superintendent of public instruction and the state board for community and technical colleges shall jointly develop a program plan to provide a continuing education option for students who are eligible for the state transitional bilingual instruction program and who need more time to develop language proficiency but who are more age-appropriately suited for a postsecondary learning environment than for a high school. In developing the plan, the superintendent of public instruction shall consider options to formally recognize the accomplishments of students in the state transitional bilingual instruction program who have completed the twelfth grade but have not ((earned a certificate of academic achievement)) met all applicable graduation requirements. By December 1, 2004, the agencies shall report to the legislative education and fiscal committees with any recommendations for legislative action and any resources necessary to implement the plan.

Principals of private schools or superintendents of private school districts shall file each year with the state superintendent of public instruction a statement certifying that the minimum requirements hereinafter set forth are being met, noting any deviations. After review of the statement, the state superintendent will notify schools or school districts of those deviations which must be corrected. In case of major deviations, the school or school district may request and the state board of education may grant provisional status for one year in order that the school or school district may take action to meet the requirements. The state board of education shall not require private school students to meet the student learning goals, ((obtain a

certificate of academic achievement, or a certificate of individual achievement to graduate from high school,)) to master the essential academic learning requirements, or to be assessed pursuant to RCW ((28A.655.061)) 28A.655.070. Annual written statements shall be submitted to the office of the superintendent of public instruction reporting and explaining such circumstances.

(4) An approved private school may operate an extension program for parents, guardians, or persons having legal custody of a child to teach children in their custody. The extension program shall require at a minimum that:

(a) The parent, guardian, or custodian be under the supervision of an employee of the approved private school who is certified under chapter 28A.410 RCW;

(b) The planning by the certified person and the parent, guardian, or person having legal custody include objectives consistent with this

subsection and subsections (1), (2), (5), (6), and (7) of this section;

(c) The certified person spend a minimum average each month of one contact hour per week with each student under his or her supervision who is enrolled in the approved private school extension program;

(d) Each student's progress be evaluated by the certified person; and

(e) The certified employee shall not supervise more than thirty students enrolled in the approved private school's extension program.

(5) Appropriate measures shall be taken to safeguard all permanent records against loss or damage.

(6) The physical facilities of the school or district shall be adequate to meet the program offered by the school or district: PROVIDED, That each school building shall meet reasonable health and fire safety requirements. Sec. 203. RCW 28A.200.010 and 2004 c 19 s 107 are each amended to read as follows:

(1) Each parent whose child is receiving home-based instruction under

RCW 28A.225.010(4) shall have the duty to:

(a) File annually a signed declaration of intent that he or she is planning to cause his or her child to receive home-based instruction. The statement shall include the name and age of the child, shall specify whether a certificated person will be supervising the instruction, and shall be written in a format prescribed by the superintendent of public instruction. Each parent shall file the statement by September 15th of the school year or within two weeks of the beginning of any public school quarter, trimester, or semester with the superintendent of the public school district within which the parent resides or the district that accepts the transfer, and the student shall be deemed a transfer student of the nonresident district. Parents may apply for transfer under RCW 28A.225.220;

(b) Ensure that test scores or annual academic progress assessments and immunization records, together with any other records that are kept relating to the instructional and educational activities provided, are forwarded to any other public or private school to which the child transfers. At the time of a transfer to a public school, the superintendent of the local school district in which the child enrolls may require a standardized achievement test to be administered and shall have the authority to determine the appropriate grade and course level placement of the child after consultation with parents and review of the child's records; and

(c) Ensure that a standardized achievement test approved by the state board of education is administered annually to the child by a qualified individual or that an annual assessment of the student's academic progress is written by a certificated person who is currently working in the field of education. The state board of education shall not require these children to meet the student learning goals((,)) or master the essential academic learning requirements, to take the assessments((, or to obtain a certificate of academic achievement or a certificate of individual achievement pursuant to RCW 28A.655.061 and 28A.155.045)). The standardized test administered or the annual academic progress assessment written shall be made a part of the child's permanent records. If, as a

result of the annual test or assessment, it is determined that the child is not making reasonable progress consistent with his or her age or stage of development, the parent shall make a good faith effort to remedy any deficiency.

(2) Failure of a parent to comply with the duties in this section shall be deemed a failure of such parent's child to attend school without valid justification under RCW 28A.225.020. Parents who do comply with the duties set forth in this section shall be presumed to be providing home-based instruction as set forth in RCW 28A.225.010(4).

Sec. 204. RCW 28A.305.130 and 2013 2nd sp.s. c 22 s 7 are each amended to read as follows:

The purpose of the state board of education is to provide advocacy and strategic oversight of public education; implement a standards-based accountability framework that creates a unified system of increasing levels of support for schools in order to improve student academic achievement; provide leadership in the creation of a system that personalizes education for each student and respects diverse cultures, abilities, and learning styles; and promote achievement of the goals of RCW 28A.150.210. In addition to any other powers and duties as provided by law, the state board of education shall:

(1) Hold regularly scheduled meetings at such time and place within the state as the board shall determine and may hold such special meetings as may be deemed necessary for the transaction of public business;

(2) Form committees as necessary to effectively and efficiently conduct the work of the board;

(3) Seek advice from the public and interested parties regarding the work of the board;

(4) For purposes of statewide accountability:

(a) Adopt and revise performance improvement goals in reading, writing, science, and mathematics, by subject and grade level, once assessments in these subjects are required statewide; academic and technical skills, as appropriate, in secondary career and technical education programs; and student attendance, as the board deems appropriate to improve student learning.

The goals shall be consistent with student privacy protection provisions of RCW 28A.655.090(7) and shall not conflict with requirements contained in Title I of the federal elementary and secondary education act of 1965, or the requirements of the Carl D. Perkins vocational education act of 1998, each as amended. The goals may be established for all students, economically disadvantaged students, limited English proficient students, students with disabilities, and students from disproportionately academically underachieving racial and ethnic backgrounds. The board may establish school and school district goals addressing high school graduation rates and dropout reduction goals for students in grades seven through twelve. The board shall adopt the goals by rule. However, before each goal is implemented, the board shall present the goal to the education committees of the house of representatives and the senate for the committees' review and comment in a time frame that will permit the legislature to take statutory action on the goal if such action is deemed warranted by the legislature;

(b)(i) Identify the scores students must achieve in order to meet the standard on the statewide student assessment ((and, for high school students, to obtain a certificate of academic achievement)). The board shall also determine student scores that identify levels of student performance below and beyond the standard. ((The board shall consider the incorporation of the standard error of measurement into the decision regarding the award of the certificates.)) The board shall set such performance standards and levels in consultation with the superintendent of public instruction and after consideration of any recommendations that may be developed by any advisory committees that may be established for this purpose.

(ii) ((By the end of the 2014-15 school year, establish the scores students must achieve to meet the standard and earn a certificate of academic achievement on the tenth grade English language arts assessment and the end-of-course mathematics assessments developed in accordance with RCW 28A.655.070 to be used as the state transitions to high school assessments developed with a multistate consortium.

(iii) By the end of the 2014-15 school year, establish the scores students must achieve to meet the standard and earn a certificate of academic achievement on the high school English language arts assessment and the comprehensive mathematics assessment developed with a multistate consortium in accordance with RCW 28A.655.070. To determine the appropriate score, the state board shall review the transition experience of Washington students to the consortium-developed assessments, examine the student scores used in other states that are administering the consortium-developed assessments, and review the scores in other states that require passage of an eleventh grade assessment as a high school graduation requirement. The scores established by the state board of education for the purposes of earning a certificate of academic achievement and graduation from high school may be different from the scores used for the purpose of determining a student's career and college readiness.

(iv)) The legislature shall be advised of the initial performance standards for the high school statewide student assessment. Any changes recommended by the board in the performance standards for the high school assessment shall be presented to the education committees of the house of representatives and the senate by November 30th of the school year in which the changes will take place to permit the legislature to take statutory action before the changes are implemented if such action is deemed warranted by the legislature. The legislature shall be advised of the initial performance standards and any changes made to the elementary level performance standards and the middle school level performance standards. The board must provide an explanation of and rationale for all initial performance standards and any changes, for all grade levels of the statewide student assessment. If the board changes the performance standards for any grade level or subject, the superintendent of public instruction must recalculate the results from the previous ten years of administering that assessment regarding students below, meeting, and beyond the state standard, to the extent that this data is available, and post a comparison of the original and recalculated results on the superintendent's web site;

(c) Annually review the assessment reporting system to ensure fairness, accuracy, timeliness, and equity of opportunity, especially with regard to schools with special circumstances and unique populations of students, and a recommendation to the superintendent of public instruction of any improvements needed to the system; and

(d) Include in the biennial report required under RCW 28A.305.035, information on the progress that has been made in achieving goals adopted by the board;

(5) Accredite, subject to such accreditation standards and procedures as may be established by the state board of education, all private schools that apply for accreditation, and approve, subject to the provisions of RCW 28A.195.010, private schools carrying out a program for any or all of the grades kindergarten through twelve. However, no private school may be approved that operates a kindergarten program only and no private school shall be placed upon the list of accredited schools so long as secret societies are knowingly allowed to exist among its students by school officials;

(6) Articulate with the institutions of higher education, workforce representatives, and early learning policymakers and providers to coordinate and unify the work of the public school system;

(7) Hire an executive director and an administrative assistant to reside in the office of the superintendent of public instruction for administrative purposes. Any other personnel of the board shall be appointed as provided by RCW 28A.300.020. The board may delegate to the executive director by resolution such duties as deemed necessary to efficiently carry on the business of the board including, but not limited to, the authority to employ necessary personnel and the authority to enter into, amend, and terminate contracts on behalf of the board. The executive director, administrative assistant, and all but one of the other personnel of the board are exempt from civil service, together with other staff as now or hereafter designated as exempt in accordance with chapter 41.06 RCW; and

(8) Adopt a seal that shall be kept in the office of the superintendent of public instruction.

The information may be provided when the student is enrolled, contained in the student or parent handbook, or posted on the school district's web site. The notification must include the following:

(a) When each assessment will be administered;

(b) ((Which assessments will be required for graduation and what options students have to meet graduation requirements if they do not pass a given assessment;

(c)) Whether the results of the assessment will be used for program placement or grade-level advancement;

((d)) (c) When the assessment results will be released to parents or guardians and whether there will be an opportunity for parents and teachers to discuss strategic adjustments; and

((e)) (d) Whether the assessment is required by the school district, state, federal government, or more than one of these entities.

(2) The office of the superintendent of public instruction shall provide information to the school districts to enable the districts to provide the information to the parents and guardians in accordance with subsection (1) of this section.

(1)(a) Eleventh and twelfth grade students or students who have not yet received the credits required for the award of a high school diploma and are eligible to be in the eleventh or twelfth grades may apply to a participating institution of higher education to enroll in courses or programs offered by the institution of higher education.

(b) The course sections and programs offered as running start courses must also be open for registration to matriculated students at the participating institution of higher education and may not be a course consisting solely of high school students offered at a high school campus.

(c) A student receiving home-based instruction enrolling in a public high school for the sole purpose of participating in courses or programs offered by institutions of higher education shall not be counted by the school district in any required state or federal accountability reporting if the student's parents or guardians filed a declaration of intent to provide home-based instruction and the student received home-based instruction during the school year before the school year in which the student intends to participate in courses or programs offered by the institution of higher education. Students receiving home-based instruction under chapter 28A.200 RCW and students attending private schools approved under chapter 28A.195 RCW shall not be required to meet the student learning goals(, obtain a certificate of academic achievement or a certificate of individual achievement to graduate from high school,) or to master the essential academic learning requirements. However, students are eligible to enroll in courses or programs in participating universities only if the board of directors of the student's school district has decided to participate in the program. Participating institutions of higher education, in consultation with school districts, may establish admission standards for these students. If the institution of higher education accepts a secondary school pupil for enrollment under this section, the institution of higher education shall send written notice to the pupil and the pupil's school district within ten days of acceptance. The notice shall indicate the course and hours of enrollment for that pupil.

(2)(a) In lieu of tuition and fees, as defined in RCW 28B.15.020 and 28B.15.041:

(i) Running start students shall pay to the community or technical college all other mandatory fees as established by each community or technical college and, in addition, the state board for community and technical colleges may authorize a fee of up to ten percent of tuition and fees as defined in RCW 28B.15.020 and 28B.15.041; and

(ii) All other institutions of higher education operating a running start program may charge running start students a fee of up to ten percent of tuition and fees as defined in RCW 28B.15.020 and 28B.15.041 in addition to technology fees.

(b) The fees charged under this subsection (2) shall be prorated based on credit load.

(c) Students may pay fees under this subsection with advanced college tuition payment program tuition units at a rate set by the advanced college tuition payment program governing body under chapter 28B.95 RCW.

(3)(a) The institutions of higher education must make available fee waivers for low-income running start students. Each institution must establish a written policy for the determination of low-income students before offering the fee waiver. A student shall be considered low income and eligible for a fee waiver upon proof that the student is currently qualified to receive free or reduced-price lunch. Acceptable documentation of low-income status may also include, but is not limited to, documentation that a student has been deemed eligible for free or reduced-price lunches in the last five years, or other criteria established in the institution's policy.

(b) Institutions of higher education, in collaboration with relevant student associations, shall aim to have students who can benefit from fee waivers take advantage of these waivers. Institutions shall make every effort to communicate to students and their families the benefits of the waivers and provide assistance to students and their families on how to apply. Information about waivers shall, to the greatest extent possible, be incorporated into financial aid counseling, admission information, and individual billing statements. Institutions also shall, to the greatest extent possible, use all means of

communication, including but not limited to web sites, online catalogues, admission and registration forms, mass email messaging, social media, and outside marketing to ensure that information about waivers is visible, compelling, and reaches the maximum number of students and families that can benefit.

(4) The pupil's school district shall transmit to the institution of higher education an amount per each full-time equivalent college student at statewide uniform rates for vocational and nonvocational students. The superintendent of public instruction shall separately calculate and allocate moneys appropriated for basic education under RCW 28A.150.260 to school districts for purposes of making such payments and for granting school districts seven percent thereof to offset program related costs. The calculations and allocations shall be based upon the estimated statewide annual average per full-time equivalent high school student allocations under RCW 28A.150.260, excluding small high school enhancements, and applicable rules adopted under chapter 34.05 RCW. The superintendent of public instruction, participating institutions of higher education, and the state board for community and technical colleges shall consult on the calculation and distribution of the funds. The funds received by the institution of higher education from the school district shall not be deemed tuition or operating fees and may be retained by the institution of higher education. A student enrolled under this subsection shall be counted for the purpose of meeting enrollment targets in accordance with terms and conditions specified in the omnibus appropriations act.

NEW SECTION. Sec. 303. A new section is added to chapter 28A.655 RCW to read as follows:

To help assure continued progress in academic achievement as a foundation for high school graduation and to assure that students are on track for high school graduation, each school district must prepare plans for and notify students and their parents or legal guardians as provided in this section. Student learning plans are required for eighth grade students who were not successful on any or all of the content areas of the state assessment during the previous

school year or who may not be on track to graduate due to credit deficiencies or absences. The parent or legal guardian must be notified about the information in the student learning plan, preferably through a parent conference and at least annually. To the extent feasible, schools serving English language learner students and their parents must translate the plan into the primary language of the family. The plan must include the following information as applicable:

(1) The student's results on the state assessment;

(2) If the student is in the transitional bilingual instruction program, the score on his or her Washington language proficiency test II;

(3) Any credit deficiencies;

(4) The student's attendance rates over the previous two years;

(5) The student's progress toward meeting state and local graduation requirements;

(6) The courses, competencies, and other steps needed to be taken by the student to meet state academic standards and stay on track for graduation;

(7) Remediation strategies and alternative education options available to students, including informing students of the option to continue to receive instructional services after grade twelve or until the age of twenty-one;

(8) School district programs, high school courses, and career and technical education options available for students to meet graduation requirements; and

(9) Available programs offered through skill centers or community and technical colleges, including the college high school diploma options under RCW 28B.50.535.

SSB 5790 Prime Sponsor, Committee on Local Government: Concerning the economic development element of the growth management act. Reported by Committee on Environment

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. This act may be known and cited as the economic revitalization act.

NEW SECTION. Sec. 2. Section 1 of the growth management act of 1990 clearly states the act is to provide for sustainable economic development, and that it is in the public interest that economic development programs be shared with communities experiencing insufficient economic growth. Through this act, it is the intent of the legislature to provide additional tools to help local governments provide family wage jobs, increase incomes, and increase economic opportunities for all taxpayers and residents in communities with deteriorating economies.

Sec. 3. RCW 36.70A.070 and 2015 c 241 s 2 are each amended to read as follows:

The comprehensive plan of a county or city that is required or chooses to plan under RCW 36.70A.040 shall consist of a map or maps, and descriptive text covering objectives, principles, and standards used to develop the comprehensive plan. The plan shall be an internally consistent document and all elements shall be consistent with the future land use map. A comprehensive plan shall be adopted and amended with public participation as provided in RCW 36.70A.140. Each comprehensive plan shall include a plan, scheme, or design for each of the following:

(1) A land use element designating the proposed general distribution and general location and extent of the uses of land, where appropriate, for agriculture, timber production, housing, commerce, industry, recreation, open spaces, general aviation airports, public utilities, public facilities, and other land uses. The land use element shall include population densities, building intensities, and estimates of future population growth. The land use element shall provide for protection of the quality and quantity of groundwater used for public water supplies. Wherever possible, the land use element should consider utilizing urban planning approaches that promote physical activity. Where applicable, the land use element shall review drainage, flooding, and storm water run-off in the area and nearby jurisdictions and provide guidance for corrective actions to mitigate or cleanse those discharges that pollute waters of the state, including

Puget Sound or waters entering Puget Sound.

(2) A housing element ensuring the vitality and character of established residential neighborhoods that: (a) Includes an inventory and analysis of existing and projected housing needs that identifies the number of housing units necessary to manage projected growth; (b) includes a statement of goals, policies, objectives, and mandatory provisions for the preservation, improvement, and development of housing, including single-family residences; (c) identifies sufficient land for housing, including, but not limited to, government-assisted housing, housing for low-income families, manufactured housing, multifamily housing, and group homes and foster care facilities; and (d) makes adequate provisions for existing and projected needs of all economic segments of the community.

(3) A capital facilities plan element consisting of: (a) An inventory of existing capital facilities owned by public entities, showing the locations and capacities of the capital facilities; (b) a forecast of the future needs for such capital facilities; (c) the proposed locations and capacities of expanded or new capital facilities; (d) at least a six-year plan that will finance such capital facilities within projected funding capacities and clearly identifies sources of public money for such purposes; and (e) a requirement to reassess the land use element if probable funding falls short of meeting existing needs and to ensure that the land use element, capital facilities plan element, and financing plan within the capital facilities plan element are coordinated and consistent. Park and recreation facilities shall be included in the capital facilities plan element.

(4) A utilities element consisting of the general location, proposed location, and capacity of all existing and proposed utilities, including, but not limited to, electrical lines, telecommunication lines, and natural gas lines.

(5) Rural element. Counties shall include a rural element including lands that are not designated for urban growth, agriculture, forest, or mineral resources. The following provisions shall apply to the rural element:

(a) Growth management act goals and local circumstances. Because

circumstances vary from county to county, in establishing patterns of rural densities and uses, a county may consider local circumstances, but shall develop a written record explaining how the rural element harmonizes the planning goals in RCW 36.70A.020 and meets the requirements of this chapter.

(b) Rural development. The rural element shall permit rural development, forestry, and agriculture in rural areas. The rural element shall provide for a variety of rural densities, uses, essential public facilities, and rural governmental services needed to serve the permitted densities and uses. To achieve a variety of rural densities and uses, counties may provide for clustering, density transfer, design guidelines, conservation easements, and other innovative techniques that will accommodate appropriate rural densities and uses that are not characterized by urban growth and that are consistent with rural character.

(c) Measures governing rural development. The rural element shall include measures that apply to rural development and protect the rural character of the area, as established by the county, by:

(i) Containing or otherwise controlling rural development;

(ii) Assuring visual compatibility of rural development with the surrounding rural area;

(iii) Reducing the inappropriate conversion of undeveloped land into sprawling, low-density development in the rural area;

(iv) Protecting critical areas, as provided in RCW 36.70A.060, and surface water and groundwater resources; and

(v) Protecting against conflicts with the use of agricultural, forest, and mineral resource lands designated under RCW 36.70A.170.

(d) Limited areas of more intensive rural development. Subject to the requirements of this subsection and except as otherwise specifically provided in this subsection (5)(d), the rural element may allow for limited areas of more intensive rural development, including necessary public facilities and public services to serve the limited area as follows:

(i) Rural development consisting of the infill, development, or redevelopment of existing commercial, industrial, residential, or mixed-use areas, whether characterized as shoreline development, villages, hamlets, rural activity centers, or crossroads developments.

(A) A commercial, industrial, residential, shoreline, or mixed-use area are subject to the requirements of (d)(iv) of this subsection, but are not subject to the requirements of (c)(ii) and (iii) of this subsection.

(B) Any development or redevelopment other than an industrial area or an industrial use within a mixed-use area or an industrial area under this subsection (5)(d)(i) must be principally designed to serve the existing and projected rural population.

(C) Any development or redevelopment in terms of building size, scale, use, or intensity shall be consistent with the character of the existing areas. Development and redevelopment may include changes in use from vacant land or a previously existing use so long as the new use conforms to the requirements of this subsection (5);

(ii) The intensification of development on lots containing, or new development of, small-scale recreational or tourist uses, including commercial facilities to serve those recreational or tourist uses, that rely on a rural location and setting, but that do not include new residential development. A small-scale recreation or tourist use is not required to be principally designed to serve the existing and projected rural population. Public services and public facilities shall be limited to those necessary to serve the recreation or tourist use and shall be provided in a manner that does not permit low-density sprawl;

(iii) The intensification of development on lots containing isolated nonresidential uses or new development of isolated cottage industries and isolated small-scale businesses that are not principally designed to serve the existing and projected rural population and nonresidential uses, but do provide job opportunities for rural residents. Rural counties may allow the expansion of small-scale businesses as long as those small-scale businesses conform with the rural character of the area as defined by

the local government according to RCW 36.70A.030(15). Rural counties may also allow new small-scale businesses to utilize a site previously occupied by an existing business as long as the new small-scale business conforms to the rural character of the area as defined by the local government according to RCW 36.70A.030(15). Public services and public facilities shall be limited to those necessary to serve the isolated nonresidential use and shall be provided in a manner that does not permit low-density sprawl;

(iv) A county shall adopt measures to minimize and contain the existing areas or uses of more intensive rural development, as appropriate, authorized under this subsection. Lands included in such existing areas or uses shall not extend beyond the logical outer boundary of the existing area or use, thereby allowing a new pattern of low-density sprawl. Existing areas are those that are clearly identifiable and contained and where there is a logical boundary delineated predominately by the built environment, but that may also include undeveloped lands if limited as provided in this subsection. The county shall establish the logical outer boundary of an area of more intensive rural development. In establishing the logical outer boundary, the county shall address (A) the need to preserve the character of existing natural neighborhoods and communities, (B) physical boundaries, such as bodies of water, streets and highways, and land forms and contours, (C) the prevention of abnormally irregular boundaries, and (D) the ability to provide public facilities and public services in a manner that does not permit low-density sprawl;

(v) For purposes of (d) of this subsection, an existing area or existing use is one that was in existence:

(A) On July 1, 1990, in a county that was initially required to plan under all of the provisions of this chapter;

(B) On the date the county adopted a resolution under RCW 36.70A.040(2), in a county that is planning under all of the provisions of this chapter under RCW 36.70A.040(2); or

(C) On the date the office of financial management certifies the county's population as provided in RCW 36.70A.040(5), in a county that is planning under all of the provisions of

this chapter pursuant to RCW 36.70A.040(5).

(e) Exception. This subsection shall not be interpreted to permit in the rural area a major industrial development or a master planned resort unless otherwise specifically permitted under RCW 36.70A.360 and 36.70A.365.

(6) A transportation element that implements, and is consistent with, the land use element.

(a) The transportation element shall include the following subelements:

(i) Land use assumptions used in estimating travel;

(ii) Estimated traffic impacts to state-owned transportation facilities resulting from land use assumptions to assist the department of transportation in monitoring the performance of state facilities, to plan improvements for the facilities, and to assess the impact of land-use decisions on state-owned transportation facilities;

(iii) Facilities and services needs, including:

(A) An inventory of air, water, and ground transportation facilities and services, including transit alignments and general aviation airport facilities, to define existing capital facilities and travel levels as a basis for future planning. This inventory must include state-owned transportation facilities within the city or county's jurisdictional boundaries;

(B) Level of service standards for all locally owned arterials and transit routes to serve as a gauge to judge performance of the system. These standards should be regionally coordinated;

(C) For state-owned transportation facilities, level of service standards for highways, as prescribed in chapters 47.06 and 47.80 RCW, to gauge the performance of the system. The purposes of reflecting level of service standards for state highways in the local comprehensive plan are to monitor the performance of the system, to evaluate improvement strategies, and to facilitate coordination between the county's or city's six-year street, road, or transit program and the office of financial management's ten-year investment program. The concurrency requirements of (b) of this subsection do

not apply to transportation facilities and services of statewide significance except for counties consisting of islands whose only connection to the mainland are state highways or ferry routes. In these island counties, state highways and ferry route capacity must be a factor in meeting the concurrency requirements in (b) of this subsection;

(D) Specific actions and requirements for bringing into compliance locally owned transportation facilities or services that are below an established level of service standard;

(E) Forecasts of traffic for at least ten years based on the adopted land use plan to provide information on the location, timing, and capacity needs of future growth;

(F) Identification of state and local system needs to meet current and future demands. Identified needs on state-owned transportation facilities must be consistent with the statewide multimodal transportation plan required under chapter 47.06 RCW;

(iv) Finance, including:

(A) An analysis of funding capability to judge needs against probable funding resources;

(B) A multiyear financing plan based on the needs identified in the comprehensive plan, the appropriate parts of which shall serve as the basis for the six-year street, road, or transit program required by RCW 35.77.010 for cities, RCW 36.81.121 for counties, and RCW 35.58.2795 for public transportation systems. The multiyear financing plan should be coordinated with the ten-year investment program developed by the office of financial management as required by RCW 47.05.030;

(C) If probable funding falls short of meeting identified needs, a discussion of how additional funding will be raised, or how land use assumptions will be reassessed to ensure that level of service standards will be met;

(v) Intergovernmental coordination efforts, including an assessment of the impacts of the transportation plan and land use assumptions on the transportation systems of adjacent jurisdictions;

(vi) Demand-management strategies;

(vii) Pedestrian and bicycle component to include collaborative efforts to identify and designate planned improvements for pedestrian and bicycle facilities and corridors that address and encourage enhanced community access and promote healthy lifestyles.

(b) After adoption of the comprehensive plan by jurisdictions required to plan or who choose to plan under RCW 36.70A.040, local jurisdictions must adopt and enforce ordinances which prohibit development approval if the development causes the level of service on a locally owned transportation facility to decline below the standards adopted in the transportation element of the comprehensive plan, unless transportation improvements or strategies to accommodate the impacts of development are made concurrent with the development. These strategies may include increased public transportation service, ride sharing programs, demand management, and other transportation systems management strategies. For the purposes of this subsection (6), "concurrent with the development" means that improvements or strategies are in place at the time of development, or that a financial commitment is in place to complete the improvements or strategies within six years. If the collection of impact fees is delayed under RCW 82.02.050(3), the six-year period required by this subsection (6)(b) must begin after full payment of all impact fees is due to the county or city.

(c) The transportation element described in this subsection (6), the six-year plans required by RCW 35.77.010 for cities, RCW 36.81.121 for counties, and RCW 35.58.2795 for public transportation systems, and the ten-year investment program required by RCW 47.05.030 for the state, must be consistent.

(7) An economic development element establishing local goals, policies, objectives, and provisions for economic growth and vitality and a high quality of life. The element ((shall)) may include(: (a) A summary of the local economy such as population, employment, payroll, sectors, businesses, sales, and other information as appropriate; (b) a summary of the strengths and weaknesses of the local economy defined as the commercial and industrial sectors and supporting factors such as land use,

transportation, utilities, education, workforce, housing, and natural/cultural resources; and (c) an identification of policies, programs, and projects to foster economic growth and development and to address future needs)) the provisions in section 4 of this act. A city that has chosen to be a residential community is exempt from the economic development element requirement of this subsection.

(8) A park and recreation element that implements, and is consistent with, the capital facilities plan element as it relates to park and recreation facilities. The element shall include: (a) Estimates of park and recreation demand for at least a ten-year period; (b) an evaluation of facilities and service needs; and (c) an evaluation of intergovernmental coordination opportunities to provide regional approaches for meeting park and recreational demand.

(9) It is the intent that new or amended elements required after January 1, 2002, be adopted concurrent with the scheduled update provided in RCW 36.70A.130. Requirements to incorporate any such new or amended elements shall be null and void until funds sufficient to cover applicable local government costs are appropriated and distributed by the state at least two years before local government must update comprehensive plans as required in RCW 36.70A.130.

NEW SECTION. Sec. 4. A new section is added to chapter 36.70A RCW to read as follows:

(1)(a) The economic development element required by RCW 36.70A.070(7) may include the following:

(i) A summary of the local economy, such as population, employment, payroll, sectors, businesses, sales, and other information as appropriate;

(ii) A summary of the strengths and weaknesses of the local economy, including the commercial, industrial, manufacturing, natural resource, and other locally significant economic sectors and supporting factors such as land use, transportation, utilities, education, workforce, housing, and natural/cultural resources;

(iii) An identification of policies, programs, and projects to foster economic growth and development and to address future needs; and

(iv) An evaluation of whether there has been economic growth of the local economy during the prior eight years, including whether the city, town, or county median household income is above or below the state average.

(b) The economic development element should include the following:

(i) Policies and programs to promote increases in family, individual, and business incomes;

(ii) An examination of whether sites planned for economic development have adequate public facilities and services, and, as appropriate, a plan for any needed public facilities and services;

(iii) Policies and programs to encourage access to education and training for family wage jobs; and

(iv) Policies and programs to address economic development opportunities including existing industries and businesses, value added manufacturing of locally produced natural resources, and the use of locally produced energy and other natural resources.

(2) Each county and city planning under RCW 36.70A.040 is encouraged to adopt comprehensive plans and development regulations that promote economic development in urban and rural areas, and evaluate economic performance in the jurisdiction in the time since the most recent update to the comprehensive plan. Each county and city planning under RCW 36.70A.040 may make findings regarding the economic condition of the jurisdiction, including whether economic deterioration exists in the county or city. If there is stagnation or economic deterioration during the period of time since the most recent update to the comprehensive plan, the comprehensive plan and development regulations may be modified to increase economic development opportunities.

(3)(a) Rural counties, as defined in RCW 82.14.370(5), that are planning under RCW 36.70A.040, and the cities within those counties, may identify policies, programs, and development opportunities to address the potential for economic deterioration and to seize economic development opportunities.

(b) Until January 1, 2019, a rural county, as defined in RCW 82.14.370(5), may designate a limited area of more intensive rural development consistent

with the requirements of RCW 36.70A.070(5) (d) (i) through (iv) and (e) if the county:

(i) Is planning under RCW 36.70A.040;

(ii) Had a population of less than fifty thousand as of January 1, 2017;

(iii) Has had a population increase of less than seventeen percent in the previous ten years; and

(iv) Has issued a finding of economic deterioration consistent with subsection (2) of this section.

(c) A limited area of more intensive rural development designated by a county under this subsection (3) must apply only to an existing area or existing use that was in existence as of July 1, 1990, or as of January 1, 2017. A limited area of more intensive rural development designated under this subsection (3) is not subject to the definitions of existing area or existing use in RCW 36.70A.070(5) (d) (v). Through the designation of a limited area of more intensive rural development under this subsection (3), a county may authorize use of a type that is different from the existing area or existing use as of July 1, 1990, or January 1, 2017.

(4) For purposes of this section, economic deterioration is exemplified by, but not limited to, any combination of the following performance outcomes:

(a) Incomes that are at least ten thousand dollars less than the statewide median household income for the same year as established by the office of financial management;

(b) A decrease in the county's household median income during any year within the prior eight years;

(c) The inability of the jurisdiction to add new full-time jobs in sufficient quantities to provide for population increases;

(d) Decreases or stagnation of economic start-ups during multiple years within the prior eight years;

(e) Unemployment rates that are higher than the national and statewide averages over multiple years within the prior eight years; and

(f) Decreases or stagnation in the issuance of commercial building permits during multiple years in the time since the comprehensive plan was last updated.

(5) A petition for review of a designation of a local area of more intense rural development under subsection (3) of this section must be directly reviewed by the superior court. The requirements of RCW 36.70A.295 (3) through (7) apply to a superior court review of a petition for review under this subsection."

2SSB 5201 Prime Sponsor, Committee on Ways & Means: Concerning individuals receiving both employment and community access services. Reported by Committee on Early Learning & Human Services

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature recognizes the need for person-centered services that enable developmentally disabled clients to have greater access to their community regardless of the degree of each client's disability or level of acuity. The legislature further recognizes that employment is highly effective for many and should be encouraged and offered at the outset for individuals age twenty-one and older. However, for others with significant barriers to employment the state likewise recognizes the need for the availability of community access services to enhance employment discovery prospects, provide skills development, or provide community involvement and meaningful activities.

The legislature intends to maximize the benefits that clients receive through supported employment through accountability measures. These transparency measures will allow supported employment providers to demonstrate successes and provide data on client outcomes.

Sec. 2. RCW 71A.12.290 and 2012 c 49 s 1 are each amended to read as follows:

(1) Clients age twenty-one and older who are receiving employment services must be offered the choice to transition to a community access program after nine months of enrollment in an employment program, and the option to transition from a community access program to an employment program at any time. Enrollment in an employment program begins at the time the client is authorized to receive employment.

(2) (a) Prior approval by the department shall not be required to effectuate the client's choice to transition from an employment program to community access services after

verifying nine months of participation in employment-related services.

(b) The department shall permit clients to enroll in a community access program without first engaging in nine months of employment services when:

(i) Medical or behavioral health records document a condition or a combination of conditions that prevent the client from successfully participating in, engaging in, and completing nine consecutive months of supported employment services;

(ii) Employment services were not provided to the client within ninety days of referral; or

(iii) The department otherwise determines that the client should be provided an exception to engaging in nine months of employment services.

(3) The department shall inform clients and their legal representatives of all available options for employment and day services, including the opportunity to request an exception from enrollment in an employment program. The department shall inform clients and their legal representatives of the ability to request an exception to the employment services participation requirement and describe the process for requesting such an exception to clients in writing. The department shall provide a written response to clients who have requested such an exception within sixty days. This written response from the department shall include a description of the reason or reasons why the request was granted or denied. Information provided to the client and the client's legal representative must include the types of activities each service option provides, and the amount, scope, and duration of service for which the client would be eligible under each service option. An individual client may be authorized for only one service option, either employment services or community access services. Clients may not participate in more than one of these services at any given time.

(4) The department shall work with counties and stakeholders to strengthen and expand ((the existing community access program, including the consideration of options that allow for alternative service settings outside of the client's residence. The program should emphasize support for the clients so that they are able to participate in

activities that integrate them into their community and support independent living and skills)) employment services and other community access services. Community access services shall emphasize supports and activities that increase community involvement, maintain or improve skills and independence, and meet the diversity of person-centered needs.

((5) The department shall develop rules to allow for an exception to the requirement that a client participate in an employment program for nine months prior to transitioning to a community access program)) (a) Beginning July 1, 2019, the department shall allow clients age twenty-one and older who are assessed as high acuity clients to transition into the community access program after ninety days of enrollment in an employment program and subject to federal waiver approval. The department shall inform clients assessed as high acuity of the ability to transition into the community access program no later than ten days after enrollment in an employment program. For purposes of this section, "high acuity clients" means clients of the department who are receiving developmental disability services; require support in the community at all times to maintain his or her health and safety; experience significant barriers to employment or community participation; and require frequent supervision, training, or full physical assistance with community activities most of the time.

(b) The department shall permit clients assessed as high acuity clients to enroll in a community access program without first engaging in ninety days of employment services when:

(i) Medical or behavioral health records document a condition or a combination of conditions that prevent the client from successfully participating in, engaging in, and completing ninety consecutive days of supported employment services;

(ii) Employment services were not provided to the client within ninety days of referral; or

(iii) The department otherwise determines that the client should be provided an exception to engaging in ninety days of employment services.

NEW SECTION. Sec. 3. A new section is added to chapter 71A.12 RCW to read as follows:

(1) By December 1, 2017, the department shall adopt accountability and outcome measures to determine whether supported employment providers are achieving the employment goals of the clients that they serve. At a minimum, these accountability and outcome measures must include the following information provided annually:

(a) A description of the supported employment services provided;

(b) The number of service hours billed per client;

(c) The number of clients who obtained employment; and

(d) Of those clients who obtained employment:

(i) The number of service hours provided to the client;

(ii) The number of service hours involving direct interaction with the client while employment was being secured;

(iii) The number of hours per month clients were employed;

(iv) The amount of wages earned; and

(v) The occupation types secured by clients.

(2) By July 1, 2019, the department shall require that counties entering into new contracts for supported employment services or renewing supported employment contracts include provisions in their contracts that incorporate the accountability and outcome measures adopted by the department pursuant to this section and mechanisms for reporting data to support the accountability and outcome measures.

NEW SECTION. Sec. 4. A new section is added to chapter 71A.12 RCW to read as follows:

(1) By December 1, 2017, the department shall report to the appropriate committees of the legislature and the governor the accountability measures that were adopted for ensuring that supported employment providers achieve the employment goals of the clients that they serve pursuant to section 3 of this act.

(2) This section expires July 1, 2018.

NEW SECTION. Sec. 5. A new section is added to chapter 71A.12 RCW to read as follows:

(1) Within existing resources, the department shall consult with the office of the superintendent of public instruction to identify best practices within schools for offering transition services and employment-related services to individuals with developmental disabilities. By December 1, 2017, the department shall post the results of this consultation on its web site, as appropriate.

(2) This section expires July 1, 2018."

"Sec. 1. RCW 10.31.100 and 2016 c 203 s 9 and 2016 c 113 s 1 are each reenacted and amended to read as follows:

A police officer having probable cause to believe that a person has committed or is committing a felony shall have the authority to arrest the person without a warrant. A police officer may arrest a person without a warrant for committing a misdemeanor or gross misdemeanor only when the offense is committed in the presence of an officer, except as provided in subsections (1) through ((12)) (11) of this section.

(1) Any police officer having probable cause to believe that a person has committed or is committing a misdemeanor or gross misdemeanor, involving physical harm or threats of harm to any person or property or the unlawful taking of property or involving the use or possession of cannabis, or involving the acquisition, possession, or consumption of alcohol by a person under the age of twenty-one years under RCW 66.44.270, or involving criminal trespass under RCW 9A.52.070 or 9A.52.080, shall have the authority to arrest the person.

(2) A police officer shall arrest and take into custody, pending release on bail, personal recognizance, or court order, a person without a warrant when the officer has probable cause to believe that:

(a) An order has been issued of which the person has knowledge under RCW 26.44.063, or chapter 7.92, 7.90, 9A.46, 10.99, 26.09, 26.10, 26.26, 26.50, or 74.34 RCW restraining the person and the person has violated the terms of the order restraining the person from acts or threats of violence, or restraining the person from going onto the grounds of or entering a residence, workplace, school, or day care, or prohibiting the person from knowingly coming within, or knowingly remaining within, a specified distance of a location or, in the case of an order issued under RCW 26.44.063, imposing any other restrictions or conditions upon the person; or

(b) A foreign protection order, as defined in RCW 26.52.010, has been issued of which the person under restraint has knowledge and the person under restraint

has violated a provision of the foreign protection order prohibiting the person under restraint from contacting or communicating with another person, or excluding the person under restraint from a residence, workplace, school, or day care, or prohibiting the person from knowingly coming within, or knowingly remaining within, a specified distance of a location, or a violation of any provision for which the foreign protection order specifically indicates that a violation will be a crime; or

(c) The person is eighteen years or older and within the preceding four hours has assaulted a family or household member as defined in RCW 10.99.020 and the officer believes: (i) A felonious assault has occurred; (ii) an assault has occurred which has resulted in bodily injury to the victim, whether the injury is observable by the responding officer or not; or (iii) that any physical action has occurred which was intended to cause another person reasonably to fear imminent serious bodily injury or death. Bodily injury means physical pain, illness, or an impairment of physical condition. When the officer has probable cause to believe that family or household members have assaulted each other, the officer is not required to arrest both persons. The officer shall arrest the person whom the officer believes to be the primary physical aggressor. In making this determination, the officer shall make every reasonable effort to consider: (A) The intent to protect victims of domestic violence under RCW 10.99.010; (B) the comparative extent of injuries inflicted or serious threats creating fear of physical injury; and (C) the history of domestic violence of each person involved, including whether the conduct was part of an ongoing pattern of abuse.

(3) ((A police officer shall, at the request of a parent or guardian, arrest the sixteen or seventeen year old child of that parent or guardian if the officer has probable cause to believe that the child has assaulted a family or household member as defined in RCW 10.99.020 in the preceding four hours. Nothing in this subsection removes a police officer's existing authority provided in this section to make an arrest.

(4)) Any police officer having probable cause to believe that a person has committed or is committing a violation of any of the following traffic

laws shall have the authority to arrest the person:

(a) RCW 46.52.010, relating to duty on striking an unattended car or other property;

((6)) (5)(a) A law enforcement officer investigating at the scene of a motor vessel accident may arrest the operator of a motor vessel involved in the accident if the officer has probable cause to believe that the operator has committed, in connection with the accident, a criminal violation of chapter 79A.60 RCW.

((9)) (8) Any police officer having probable cause to believe that a person has committed or is committing any act of indecent exposure, as defined in RCW 9A.88.010, may arrest the person.

((10)) (9) A police officer may arrest and take into custody, pending release on bail, personal recognizance, or court order, a person without a warrant when the officer has probable cause to believe that an order has been issued of which the person has knowledge under chapter 10.14 RCW and the person has violated the terms of that order.

((11)) (10) Any police officer having probable cause to believe that a person has, within twenty-four hours of the alleged violation, committed a violation of RCW 9A.50.020 may arrest such person.

For purposes of this subsection, the term "firearm" has the meaning defined in RCW 9.41.010 and the term "dangerous weapon" has the meaning defined in RCW 9.41.250 and 9.41.280(1) (c) through (e).

((14)) (13) A law enforcement officer having probable cause to believe that a person has committed a criminal violation under RCW 77.15.809 or 77.15.811 may arrest the person in connection with the violation.

((15)) (14) Except as specifically provided in subsections (2), (3), (4), ((5),) and ((8)) (7) of this section,

nothing in this section extends or otherwise affects the powers of arrest prescribed in Title 46 RCW.

((16)) (15) No police officer may be held criminally or civilly liable for making an arrest pursuant to subsection (2) or ((10)) (9) of this section if the police officer acts in good faith and without malice.

((17)) (16) (a) Except as provided in (b) of this subsection, a police officer shall arrest and keep in custody, until release by a judicial officer on bail, personal recognizance, or court order, a person without a warrant when the officer has probable cause to believe that the person has violated RCW 46.61.502 or 46.61.504 or an equivalent local ordinance and the police officer has knowledge that the person has a prior offense as defined in RCW 46.61.5055 within ten years.

(b) A police officer is not required to keep in custody a person under (a) of this subsection if the person requires immediate medical attention and is admitted to a hospital.

2SSB 5749 Prime Sponsor, Committee on Ways & Means: Concerning paperwork reduction in order to improve the availability of mental health services to protect children and families. Reported by Committee on Early Learning & Human Services

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature finds that a prioritized recommendation of the children's mental health work group, as reported in December 2016, is to reduce burdensome and duplicative paperwork requirements for providers of children's mental health services. This recommendation is consistent with the recommendations of the behavioral health workforce assessment of the workforce training and education coordinating board to reduce time-consuming documentation requirements and the behavioral and primary health regulatory alignment task force to streamline regulations and reduce the time spent responding to inefficient and excessive audits.

The legislature further finds that duplicative and overly prescriptive documentation and audit requirements negatively impact the adequacy of the provider network by reducing workforce morale and limiting the time available for patient care. Such requirements create costly barriers to the efficient provision of services for children and

their families. The legislature also finds that current state regulations are often duplicative or conflicting with research-based models and other state-mandated treatment models intended to improve the quality of services and ensure positive outcomes. These barriers can be reduced while creating a greater emphasis on quality, outcomes, and safety.

The legislature further finds that social workers serving children are encumbered by burdensome paperwork requirements which can interfere with the effective delivery of services.

Therefore, the legislature intends to require the department of social and health services to take steps to reduce paperwork, documentation, and audit requirements that are inefficient or duplicative for social workers who serve children and for providers of mental health services to children and families, and to encourage the use of effective treatment models to improve the quality of services.

NEW SECTION. Sec. 2. A new section is added to chapter 71.24 RCW to read as follows:

(1) Subject to the availability of amounts appropriated for this specific purpose, the department must immediately perform a review of its rules, policies, and procedures related to the documentation requirements for behavioral health services. Rules adopted by the department relating to the provision of behavioral health services must:

(a) Identify areas in which duplicative or inefficient documentation requirements can be eliminated or streamlined for providers;

(b) Limit prescriptive requirements for individual initial assessments to allow clinicians to exercise professional judgment to conduct age-appropriate, strength-based psychosocial assessments, including current needs and relevant history according to current best practices;

(c) By April 1, 2018, provide a single set of regulations for agencies to follow that provide mental health, substance use disorder, and co-occurring treatment services;

(d) Exempt providers from duplicative state documentation requirements when

the provider is following documentation requirements of an evidence-based, research-based, or state-mandated program that provides adequate protection for patient safety; and

(e) Be clear and not unduly burdensome in order to maximize the time available for the provision of care.

(2) Subject to the availability of amounts appropriated for this specific purpose, audits conducted by the department relating to provision of behavioral health services must:

(a) Rely on a sampling methodology to conduct reviews of personnel files and clinical records based on written guidelines established by the department that are consistent with the standards of other licensing and accrediting bodies;

(b) Treat organizations with multiple locations as a single entity. The department must not require annual visits at all locations operated by a single entity when a sample of records may be reviewed from a centralized location;

(c) Share audit results with behavioral health organizations to assist with their review process and, when appropriate, take steps to coordinate and combine audit activities;

PART II

HUMAN SERVICES

NEW SECTION. Sec. 201. FOR THE DEPARTMENT OF SOCIAL AND HEALTH SERVICES

(1) The appropriations to the department of social and health services in this act shall be expended for the programs and in the amounts specified in this act. Appropriations made in this act to the department of social and health services shall initially be allotted as required by this act. Subsequent allotment modifications shall not include transfers of moneys between sections of this act except as expressly provided in this act, nor shall allotment modifications permit moneys that are provided solely for a specified purpose to be used for other than that purpose.

(2) The department of social and health services shall not initiate any services that require expenditure of state general fund moneys unless expressly authorized in this act or other law. The department may seek, receive, and spend, under RCW 43.79.260 through 43.79.282, federal moneys not anticipated in this act as long as the federal funding does not require expenditure of state moneys for the program in excess of amounts anticipated in this act. If the department receives unanticipated unrestricted federal moneys, those moneys shall be spent for services authorized in this act or in any other legislation providing appropriation authority, and an equal amount of appropriated state general fund moneys shall lapse. Upon the lapsing of any moneys under this subsection, the office of financial management shall notify the legislative fiscal committees. As used in this subsection, "unrestricted federal moneys" includes block grants and other funds that federal law does not require to be spent on specifically defined projects or matched on a formula basis by state funds.

(3) The legislature finds that medicaid payment rates, as calculated by the department pursuant to the appropriations in this act, bear a reasonable

relationship to the costs incurred by efficiently and economically operated facilities for providing quality services and will be sufficient to enlist enough providers so that care and services are available to the extent that such care and services are available to the general population in the geographic area. The legislature finds that cost reports, payment data from the federal government, historical utilization, economic data, and clinical input constitute reliable data upon which to determine the payment rates.

(4) The department shall to the maximum extent practicable use the same system for delivery of spoken-language interpreter services for social services appointments as the one established for medical appointments in the health care authority. When contracting directly with an individual to deliver spoken language interpreter services, the department shall only contract with language access providers who are working at a location in the state and who are state-certified or state-authorized, except that when such a provider is not available, the department may use a language access provider who meets other certifications or standards deemed to meet state standards, including interpreters in other states.

(5) Information technology projects or investments and proposed projects or investments impacting time capture, payroll and payment processes and systems, eligibility, case management, and authorization systems within the department of social and health services are subject to technical oversight by the office of the chief information officer.

(6)(a) The department shall facilitate enrollment under the medicaid expansion for clients applying for or receiving state funded services from the department and its contractors. Prior to open enrollment, the department shall coordinate with the health care authority to provide referrals to the Washington health benefit exchange for clients that will be ineligible for medicaid.

(b) To facilitate a single point of entry across public and medical assistance programs, and to maximize the use of federal funding, the health care authority, the department of social and health services, and the health benefit exchange will coordinate efforts to expand HealthPlanfinder access to public assistance and medical eligibility staff. The department shall complete medicaid applications in the HealthPlanfinder for

households receiving or applying for public assistance benefits.

The committee in (d) of this subsection must establish a minimum base level of funding for juvenile courts with lower numbers of at-risk youth age 10 - 17. The administration must report to the legislature by December 1, 2018, about how funding is used for referred youth and the impact of that use on overall use of funding. The committee will be co-chaired by the juvenile rehabilitation administration and the juvenile courts, who will also have the ability to change members of the committee as needed to achieve its purpose. The committee may make changes to the formula categories in (b) of this subsection if it determines the changes will increase statewide service delivery or effectiveness of evidence-based program or disposition alternative resulting in increased cost/benefit savings to the state,

TOTAL APPROPRIATION \$20,014,090,000

The appropriations in this section are subject to the following conditions and limitations:

(a) PHYSICAL HEALTH CARE

(i) Sufficient amounts are appropriated in this subsection to implement the medicaid expansion as defined in the social security act, section 1902(a)(10)(A)(i)(VIII).

(ii) Medicaid payment rates, as calculated by the health care authority pursuant to the appropriations in this act, bear a reasonable relationship to the costs incurred by efficiently and economically operated facilities for providing quality services and will be sufficient to enlist enough providers so that care and services are available to the extent that such care and services are available to the general population in the geographic area. The legislature finds that the cost reports, payment data from the federal government, historical utilization, economic data, and clinical input constitute reliable data upon which to determine the payment rates.

(iii) Based on quarterly expenditure reports and caseload forecasts, if the health care authority estimates that expenditures for the medical assistance program will exceed the appropriations, the health care authority shall take steps including but not limited to reduction of rates or elimination of optional services to reduce expenditures so that total program costs do not exceed the annual appropriation authority.

(iv) In determining financial eligibility for medicaid-funded services, the health care authority is authorized to disregard recoveries by Holocaust survivors of insurance proceeds or other assets, as defined in RCW 48.104.030.

(v) It is in the state's interest for Harborview medical center to remain an economically viable component of the state's health care system.

(vi) When a person is ineligible for medicaid solely by reason of residence in an institution for mental diseases, the health care authority shall provide the person with the same benefits as he or she would receive if eligible for medicaid, using state-only funds to the extent necessary.

(vii) \$4,261,000 of the general fund-state appropriation for fiscal year 2018, \$4,261,000 of the general fund-state appropriation for fiscal year 2019, and \$8,522,000 of the general fund-federal appropriation are provided solely for low-income disproportionate share hospital payments.

(viii) Within the amounts appropriated in this section, the health care authority shall provide disproportionate share hospital payments to hospitals that provide services to children in the children's health program who are not eligible for services under Title XIX or XXI of the federal social security act due to their citizenship status.

(ix) \$6,000,000 of the general fund-federal appropriation is provided solely for supplemental payments to nursing homes operated by public hospital districts. The public hospital district shall be responsible for providing the required nonfederal match for the supplemental payment, and the payments shall not exceed the maximum allowable under federal rules. It is the legislature's intent that the payments shall be supplemental to and shall not in any way offset or reduce the payments calculated and provided in accordance with part E of chapter 74.46 RCW. It is the legislature's further intent that costs otherwise allowable for rate-setting and settlement against payments under chapter 74.46 RCW shall not be disallowed solely because such costs have been paid by revenues retained by the nursing home from these supplemental payments. The supplemental payments are subject to retrospective interim and final cost settlements based on the nursing homes' as-filed and final medicare cost reports. The timing of the interim and final cost settlements shall be at the health care authority's discretion. During either the interim cost settlement or the final cost settlement, the health care authority shall recoup from the public hospital districts the supplemental payments that exceed the medicaid cost limit and/or the medicare upper payment limit. The health care authority shall apply federal rules for identifying the eligible incurred medicaid costs and the medicare upper payment limit.

(x) The health care authority shall continue the inpatient hospital certified public expenditures program for the 2017-2019 fiscal biennium. The program shall apply to all public hospitals, including those owned or operated by the state,

except those classified as critical access hospitals or state psychiatric institutions. The health care authority shall submit reports to the governor and legislature by November 1, 2017, and by November 1, 2018, that evaluate whether savings continue to exceed costs for this program. If the certified public expenditures (CPE) program in its current form is no longer cost-effective to maintain, the health care authority shall submit a report to the governor and legislature detailing cost-effective alternative uses of local, state, and federal resources as a replacement for this program. During fiscal year 2018 and fiscal year 2019, hospitals in the program shall be paid and shall retain one hundred percent of the federal portion of the allowable hospital cost for each medicaid inpatient fee-for-service claim payable by medical assistance and one hundred percent of the federal portion of the maximum disproportionate share hospital payment allowable under federal regulations. Inpatient medicaid payments shall be established using an allowable methodology that approximates the cost of claims submitted by the hospitals. Payments made to each hospital in the program in each fiscal year of the biennium shall be compared to a baseline amount. The baseline amount will be determined by the total of: (A) The inpatient claim payment amounts that would have been paid during the fiscal year had the hospital not been in the CPE program based on the reimbursement rates developed, implemented, and consistent with policies approved in the 2017-2019 biennial operating appropriations act and in effect on July 1, 2017; (B) one-half of the indigent assistance disproportionate share hospital payment amounts paid to and retained by each hospital during fiscal year 2005; and (C) all of the other disproportionate share hospital payment amounts paid to and retained by each hospital during fiscal year 2005 to the extent the same disproportionate share hospital programs exist in the 2017-2019 fiscal biennium. If payments during the fiscal year exceed the hospital's baseline amount, no additional payments will be made to the hospital except the federal portion of allowable disproportionate share hospital payments for which the hospital can certify allowable match. If payments during the fiscal year are less than the baseline amount, the hospital will be paid a state grant equal to the difference between payments during the fiscal year and the applicable baseline

amount. Payment of the state grant shall be made in the applicable fiscal year and distributed in monthly payments. The grants will be recalculated and redistributed as the baseline is updated during the fiscal year. The grant payments are subject to an interim settlement within eleven months after the end of the fiscal year. A final settlement shall be performed. To the extent that either settlement determines that a hospital has received funds in excess of what it would have received as described in this subsection, the hospital must repay the excess amounts to the state when requested. \$10,575,000 of the general fund-state appropriation for fiscal year 2018 and \$13,185,000 of the general fund-state appropriation for fiscal year 2019 are provided solely for state grants for the participating hospitals.

(xi) The health care authority shall seek public-private partnerships and federal funds that are or may become available to provide on-going support for outreach and education efforts under the federal children's health insurance program reauthorization act of 2009.

(xii) The health care authority shall target funding for maternity support services towards pregnant women with factors that lead to higher rates of poor birth outcomes, including hypertension, a preterm or low birth weight birth in the most recent previous birth, a cognitive deficit or developmental disability, substance abuse, severe mental illness, unhealthy weight or failure to gain weight, tobacco use, or African American or Native American race. The health care authority shall prioritize evidence-based practices for delivery of maternity support services. To the extent practicable, the health care authority shall develop a mechanism to increase federal funding for maternity support services by leveraging local public funding for those services.

(xiii) Managed care contracts must incorporate accountability measures that monitor patient health and improved health outcomes, and shall include an expectation that each patient receive a wellness examination that documents the baseline health status and allows for monitoring of health improvements and outcome measures.

(xix) Within the amounts appropriated in this section, the authority shall reimburse for primary care services provided by naturopathic physicians.

(xx) Within the amounts appropriated in this section, the authority shall continue to provide coverage for pregnant teens that qualify under existing pregnancy medical programs, but whose eligibility for pregnancy related services would otherwise end due to the application of the new modified adjusted gross income eligibility standard.

(xxi) Sufficient amounts are appropriated in this section to remove the mental health visit limit and to provide the shingles vaccine and screening, brief intervention, and referral to treatment benefits that are available in the medicaid alternative benefit plan in the classic medicaid benefit plan.

(xxii) The authority shall use revenue appropriated from the dedicated marijuana

fund for contracts with community health centers under RCW 69.50.540 in lieu of general fund-state payments to community health centers for services provided to medical assistance clients, and it is the intent of the legislature that this policy will be continued in subsequent fiscal biennia.

(xxiii) The authority shall submit reports to the governor and the legislature by September 15, 2018, and by September 15, 2019, that delineate the number of individuals in medicaid managed care, by carrier, age, gender, and eligibility category, receiving preventative services and vaccinations. The reports should include baseline and benchmark information from the previous two fiscal years and should be inclusive of, but not limited to, services recommended under the United States preventative services task force, advisory committee on immunization practices, early and periodic screening, diagnostic, and treatment (EPSDT) guidelines, and other relevant preventative and vaccination medicaid guidelines and requirements.

This increased rate is applicable in both fee-for-service settings and is the minimum allowable rate in a managed care setting. The authority shall report to the governor and appropriate committees of the legislature by October 15, 2018, on updated information regarding access to care, improvements to the Cesarean section rate, and savings outcomes for utilizing birth centers as an alternative to hospitals.

(xxv) Within the amounts appropriated within this section, the authority shall implement the plan to show how improved access to home health nursing reduces potentially preventable readmissions, increases access to care, reduces hospital length of stay, and prevents overall hospital admissions for clients receiving private duty nursing, medically intensive care, or home health benefits as described in their report to the legislature dated December 15, 2016, entitled "home health nursing." The authority shall report to the governor and appropriate committees of the legislature by December 31, 2017,

information regarding the effect of the ten-dollar rate increases for skilled nursing care delivered via private duty nursing or home health nursing, and how the rate changes impacted the utilization and cost of emergency room visits, reduced the length of stay for initial hospital admissions, and reduced utilization and costs of preventable hospital readmissions. The report will quantify potential cost saving opportunities that may exist through improved access to private duty and home health nursing statewide.

The authority must model the pilot on the access to baby and child dentistry program. The pilot program must include enhanced reimbursement rates for participating dental providers, including denturists licensed under chapter 18.30 RCW, and an increase in the allowable number of periodontal treatments to up to four per calendar year. Additionally, behavioral health organizations may use a portion of the state funds allocated in accordance with (b)(x) of this subsection to earn

additional medicaid match, but only to the extent that the application of such funds to medicaid services does not diminish the level of crisis and commitment, community inpatient, residential care, and outpatient services presently available to persons not eligible for medicaid.

The department of health and the state board of health shall not implement any new or amended rules pertaining to primary and secondary school facilities until the rules and a final cost estimate have been presented to the legislature, and the legislature has formally funded implementation of the rules through the omnibus appropriations act or by statute. The department may seek, receive, and spend, under RCW 43.79.260 through 43.79.282, federal moneys not anticipated in this act as long as the federal funding does not require expenditure of state moneys for the program in excess of amounts anticipated in this act. If the department receives unanticipated unrestricted federal moneys, those moneys shall be spent for services authorized in this act or in any other legislation that provides appropriation authority, and an equal amount of appropriated state moneys shall lapse. Upon the lapsing of any moneys under this subsection, the office of financial management shall notify the legislative fiscal committees. As used in this subsection, "unrestricted federal moneys" includes block grants and other funds that federal law does not require to be spent on specifically defined projects or matched on a formula basis by state funds.

(2) During the 2017-2019 fiscal biennium, each person subject to RCW 43.70.110(3)(c) is required to pay only one surcharge of up to twenty-five dollars annually for the purposes of RCW 43.70.112, regardless of how many professional licenses the person holds.

The department's fee schedule shall have differential rates for providers with proof of accreditation from

organizations that the department has determined to have substantially equivalent standards to those of the department, including but not limited to the joint commission on accreditation of health care organizations, the commission on accreditation of rehabilitation facilities, and the council on accreditation. To reflect the reduced costs associated with regulation of accredited programs, the department's fees for organizations with such proof of accreditation must reflect the lower costs of licensing for these programs than for other organizations which are not accredited.

(4) In accordance with RCW 70.96A.090, 71.24.035, 43.20B.110, and 43.135.055, the department is authorized to adopt fees for the review and approval of mental health and substance use disorder treatment programs in fiscal years 2018 and 2019 as necessary to support the costs of the regulatory program. The department's fee schedule shall have differential rates for providers with proof of accreditation from organizations that the department has determined to have substantially equivalent standards to those of the department, including but not limited to the joint commission on accreditation of health care organizations, the commission on accreditation of rehabilitation facilities, and the council on accreditation. To reflect the reduced costs associated with regulation of accredited programs, the department's fees for organizations with such proof of accreditation must reflect the lower cost of licensing for these programs than for other organizations which are not accredited. To the extent that the fees charged in fiscal year 2018 are not expected to fully cover the cost of the program, the department must submit a report to the office of financial management and the appropriate fiscal committees of the legislature identifying what further increases would be required and the differential impact on providers. This report must be submitted by December 1, 2017.

(A) Of the funds appropriated under (a) (i) of this subsection for new programs and new services, at least eighty-five percent must be directed to evidence-based or research-based programs and practices that produce objectively measurable results and, by September 1, 2020, are cost-beneficial; and

(B) Up to fifteen percent of the funds appropriated under (a) (i) of this subsection for new programs and new services may be directed to proven and tested practices, emerging best practices, or promising practices.

does not solely advocate an abstinence-only approach;

(II) A grants program for local health departments or other local community agencies that supports development and implementation of coordinated intervention strategies for the prevention and reduction of marijuana use by youth; and

(III) Media-based education campaigns across television, internet, radio, print, and out-of-home advertising, separately targeting youth and adults, that provide medically and scientifically accurate information about the health and safety risks posed by marijuana use;

(B) The Washington poison control center; and

(C) During the 2015-2017 fiscal biennium, the funds appropriated under this subsection (2) (b) may be used for prevention activities that target youth and populations with a high incidence of tobacco use.

(c) (i) Up to six-tenths of one percent to the University of Washington and four-tenths of one percent to Washington State University for research on the short and long-term effects of marijuana use, to include but not be limited to formal and informal methods for estimating and measuring intoxication and impairment, and for the dissemination of such research.

(ii) For the fiscal year beginning July 1, 2016, the legislature must appropriate a minimum of two hundred seven thousand dollars and for each subsequent fiscal year, the legislature must appropriate a minimum of one million twenty-one thousand dollars to the University of Washington. For the fiscal year beginning July 1, 2016, the legislature must appropriate a minimum of one hundred thirty-eight thousand dollars and for each subsequent fiscal year thereafter, a minimum of six hundred eighty-one thousand dollars to Washington State University under this subsection (2) (c);

(d) Fifty percent to the state basic health plan trust account to be

administered by the Washington basic health plan administrator and used as provided under chapter 70.47 RCW;

(e) Five percent to the Washington state health care authority to be expended exclusively through contracts with community health centers to provide primary health and dental care services, migrant health services, and maternity health care services as provided under RCW 41.05.220;

(f)(i) Up to three-tenths of one percent to the office of the superintendent of public instruction to fund grants to building bridges programs under chapter 28A.175 RCW.

(ii) For the fiscal year beginning July 1, 2016, and each subsequent fiscal year, the legislature must appropriate a minimum of five hundred eleven thousand dollars to the office of the superintendent of public instruction under this subsection (2)(f); and

(g) At the end of each fiscal year, the treasurer must transfer any amounts in the dedicated marijuana account that are not appropriated pursuant to subsection (1) of this section and this subsection (2) into the general fund, except as provided in (g)(i) of this subsection (2).

(i) Beginning in fiscal year 2018, if marijuana excise tax collections deposited into the general fund in the prior fiscal year exceed twenty-five million dollars, then each fiscal year the legislature must appropriate an amount equal to thirty percent of all marijuana excise taxes deposited into the general fund the prior fiscal year to the treasurer for distribution to counties, cities, and towns as follows:

(A) Thirty percent must be distributed to counties, cities, and towns where licensed marijuana retailers are physically located. Each jurisdiction must receive a share of the revenue distribution under this subsection (2)(g)(i)(A) based on the proportional share of the total revenues generated in the individual jurisdiction from the taxes collected under RCW 69.50.535, from licensed marijuana retailers physically located in each jurisdiction. For purposes of this subsection (2)(g)(i)(A), one hundred percent of the proportional amount attributed to a retailer physically located in a city or town must be distributed to the city or town.

(B) Seventy percent must be distributed to counties, cities, and towns ratably on a per capita basis. Counties must receive sixty percent of the distribution, which must be disbursed based on each county's total proportional population. Funds may only be distributed to jurisdictions that do not prohibit the siting of any state licensed marijuana producer, processor, or retailer.

(ii) Distribution amounts allocated to each county, city, and town must be distributed in four installments by the last day of each fiscal quarter.

(iii) By September 15th of each year, the state liquor and cannabis board must provide the state treasurer the annual distribution amount, if any, for each county and city as determined in (g)(i) of this subsection (2).

(iv) The total share of marijuana excise tax revenues distributed to counties and cities in (g)(i) of this subsection (2) may not exceed ~~((fifteen))~~ six million dollars in fiscal years 2018 and 2019 and twenty million dollars per fiscal year thereafter. However, if forecasted state revenues for the general fund in the 2017-2019 fiscal biennium exceed the amount estimated in the March 2017 revenue forecast by over eighteen million dollars after adjusting for changes directly related to legislation adopted in the 2017 legislative session, the total share of marijuana excise tax revenue distributed to counties and cities in (g)(i) of this subsection (2) may not exceed fifteen million dollars in fiscal years 2018 and 2019. It is the intent of the legislature that the policy for the maximum distributions in the subsequent fiscal biennia will be no more than \$6 million per fiscal year.

For the purposes of this section, "marijuana products" means "useable marijuana," "marijuana concentrates," and "marijuana-infused products" as those terms are defined in RCW 69.50.101.

Sec. 963. RCW 70.105D.070 and 2016 sp.s. c 36 s 943 are each amended to read as follows:

(4)(a) The department shall use moneys deposited in the local toxics control account for grants or loans to local governments for the following purposes in descending order of priority:

(i) Extended grant agreements entered into under (e)(i) of this subsection;

(ii) Remedial actions, including planning for adaptive reuse of properties as provided for under (e)(iv) of this subsection. The department must prioritize funding of remedial actions at:

(A) Facilities on the department's hazardous sites list with a high hazard ranking for which there is an approved remedial action work plan or an equivalent document under federal cleanup law;

(B) Brownfield properties within a redevelopment opportunity zone if the local government is a prospective purchaser of the property and there is a department-approved remedial action work plan or equivalent document under the federal cleanup law;

(b) Funds for plans and programs must be allocated consistent with the priorities and matching requirements established in chapters 70.105, 70.95C, 70.95I, and 70.95 RCW.

(c) During the 2013-2015 fiscal biennium, the local toxics control account may also be used for local government storm water planning and implementation activities.

(d) During the 2013-2015 fiscal biennium, the legislature may transfer from the local toxics control account to the state general fund, such amounts as reflect the excess fund balance in the account.

(e) To expedite cleanups throughout the state, the department may use the following strategies when providing grants to local governments under this subsection:

(i) Enter into an extended grant agreement with a local government conducting remedial actions at a facility where those actions extend over multiple biennia and the total eligible cost of those actions exceeds twenty million dollars. The agreement is subject to the following limitations:

(A) The initial duration of such an agreement may not exceed ten years. The department may extend the duration of such an agreement upon finding substantial progress has been made on remedial actions at the facility;

(B) Extended grant agreements may not exceed fifty percent of the total eligible remedial action costs at the facility; and

(C) The department may not allocate future funding to an extended grant agreement unless the local government has demonstrated to the department that funds awarded under the agreement during the previous biennium have been substantially expended or contracts have been entered into to substantially expend the funds;

(ii) Enter into a grant agreement with a local government conducting a remedial action that provides for periodic reimbursement of remedial action costs as they are incurred as established in the agreement;

(iii) Enter into a grant agreement with a local government prior to it acquiring a property or obtaining necessary access to conduct remedial actions, provided the agreement is conditioned upon the local government acquiring the property or obtaining the access in accordance with a schedule specified in the agreement;

(iv) Provide integrated planning grants to local governments to fund studies necessary to facilitate remedial actions at brownfield properties and adaptive reuse of properties following remediation. Eligible activities include, but are not limited to: Environmental site assessments; remedial investigations; health assessments; feasibility studies; site planning; community involvement; land use and regulatory analyses; building and infrastructure assessments; economic and fiscal analyses; and any environmental analyses under chapter 43.21C RCW;

(v) Provide grants to local governments for remedial actions related to area-wide groundwater contamination. To receive the funding, the local government does not need to be a potentially liable person or be required to seek reimbursement of grant funds from a potentially liable person;

(vi) The director may alter grant matching requirements to create incentives for local governments to expedite cleanups when one of the following conditions exists:

(A) Funding would prevent or mitigate unfair economic hardship imposed by the clean-up liability;

(B) Funding would create new substantial economic development, public recreational opportunities, or habitat restoration opportunities that would not otherwise occur; or

(C) Funding would create an opportunity for acquisition and redevelopment of brownfield property under RCW 70.105D.040(5) that would not otherwise occur;

(vii) When pending grant applications under (e)(iv) and (v) of this subsection (4) exceed the amount of funds available, designated redevelopment opportunity zones must receive priority for distribution of available funds.

(f) To expedite multiparty clean-up efforts, the department may purchase remedial action cost-cap insurance. For the 2013-2015 fiscal biennium, moneys in the local toxics control account may be spent on projects in sections 3024, 3035, 3036, and 3059, chapter 19, Laws of 2013 2nd sp. sess.

(5) Except for unanticipated receipts under RCW 43.79.260 through 43.79.282, moneys in the state and local toxics control accounts may be spent only after appropriation by statute.

(6) No moneys deposited into either the state or local toxics control account may be used for: Natural disasters where there is no hazardous substance contamination; high performance buildings; solid waste incinerator facility feasibility studies, construction, maintenance, or operation; or after January 1, 2010, for projects designed to address the restoration of Puget Sound, funded in a competitive grant process, that are in conflict with the action agenda developed by the Puget Sound partnership under RCW 90.71.310. However, this subsection does not prevent an appropriation from the state toxics control account to the department of revenue to enforce compliance with the hazardous substance tax imposed in chapter 82.21 RCW.

(7) Except during the 2011-2013 and the 2015-2017 fiscal biennia, one percent of the moneys collected under RCW 82.21.030 shall be allocated only for public participation grants to persons who may be adversely affected by a release or threatened release of a hazardous substance and to not-for-profit public

interest organizations. The primary purpose of these grants is to facilitate the participation by persons and organizations in the investigation and remedying of releases or threatened releases of hazardous substances and to implement the state's solid and hazardous waste management priorities. No grant may exceed sixty thousand dollars. Grants may be renewed annually. Moneys appropriated for public participation that are not expended at the close of any biennium revert to the state toxics control account.

(8) The department shall adopt rules for grant or loan issuance and performance. To accelerate both remedial action and economic recovery, the department may expedite the adoption of rules necessary to implement chapter 1, Laws of 2013 2nd sp. sess. using the expedited procedures in RCW 34.05.353. The department shall initiate the award of financial assistance by August 1, 2013. To ensure the adoption of rules will not delay financial assistance, the department may administer the award of financial assistance through interpretive guidance pending the adoption of rules through July 1, 2014.

(9) Except as provided under subsection (3)(k) and (q) of this section, nothing in chapter 1, Laws of 2013 2nd sp. sess. affects the ability of a potentially liable person to receive public funding.

(10) During the 2015-2017 fiscal biennium the local toxics control account may also be used for the centennial clean water program and for the storm water financial assistance program administered by the department of ecology.

Sec. 964. RCW 71.24.580 and 2016 sp.s. c 29 s 511 are each amended to read as follows:

(1) The criminal justice treatment account is created in the state treasury. Moneys in the account may be expended solely for: (a) Substance use disorder treatment and treatment support services for offenders with a substance use disorder that, if not treated, would result in addiction, against whom charges are filed by a prosecuting attorney in Washington state; (b) the provision of substance use disorder treatment services and treatment support services for nonviolent offenders within a drug court program; and (c) the administrative and overhead costs associated with the operation of a drug court. During the

2015-2017 fiscal biennium, the legislature may transfer from the criminal justice treatment account to the state general fund amounts as reflect the state savings associated with the implementation of the medicaid expansion of the federal affordable care act and the excess fund balance of the account. During the 2017-2019 fiscal biennium, the legislature may direct the state treasurer to make transfers of moneys in the criminal justice treatment account to the state general fund. It is the intent of the legislature that this policy be continued in future biennia. Moneys in the account may be spent only after appropriation.

(2) For purposes of this section:

(a) "Treatment" means services that are critical to a participant's successful completion of his or her substance use disorder treatment program, but does not include the following services: Housing other than that provided as part of an inpatient substance use disorder treatment program, vocational training, and mental health counseling; and

(b) "Treatment support" means transportation to or from inpatient or outpatient treatment services when no viable alternative exists, and child care services that are necessary to ensure a participant's ability to attend outpatient treatment sessions.

(3) Revenues to the criminal justice treatment account consist of: (a) Funds transferred to the account pursuant to this section; and (b) any other revenues appropriated to or deposited in the account.

(4)(a) For the fiscal year beginning July 1, 2006, and each subsequent fiscal year, the amount transferred shall be increased on an annual basis by the implicit price deflator as published by the federal bureau of labor statistics.

(b) In each odd-numbered year, the legislature shall appropriate the amount transferred to the criminal justice treatment account in (a) of this subsection to the department for the purposes of subsection (5) of this section.

(5) Moneys appropriated to the department from the criminal justice treatment account shall be distributed as specified in this subsection. The department may retain up to three percent of the amount appropriated under

subsection (4)(b) of this section for its administrative costs.

(a) Seventy percent of amounts appropriated to the department from the account shall be distributed to counties pursuant to the distribution formula adopted under this section. The division of alcohol and substance abuse, in consultation with the department of corrections, the Washington state association of counties, the Washington state association of drug court professionals, the superior court judges' association, the Washington association of prosecuting attorneys, representatives of the criminal defense bar, representatives of substance use disorder treatment providers, and any other person deemed by the department to be necessary, shall establish a fair and reasonable methodology for distribution to counties of moneys in the criminal justice treatment account. County or regional plans submitted for the expenditure of formula funds must be approved by the panel established in (b) of this subsection.

(b) Thirty percent of the amounts appropriated to the department from the account shall be distributed as grants for purposes of treating offenders against whom charges are filed by a county prosecuting attorney. The department shall appoint a panel of representatives from the Washington association of prosecuting attorneys, the Washington association of sheriffs and police chiefs, the superior court judges' association, the Washington state association of counties, the Washington defender's association or the Washington association of criminal defense lawyers, the department of corrections, the Washington state association of drug court professionals, substance use disorder treatment providers, and the division. The panel shall review county or regional plans for funding under (a) of this subsection and grants approved under this subsection. The panel shall attempt to ensure that treatment as funded by the grants is available to offenders statewide.

(6) The county alcohol and drug coordinator, county prosecutor, county sheriff, county superior court, a substance abuse treatment provider appointed by the county legislative authority, a member of the criminal defense bar appointed by the county legislative authority, and, in counties with a drug court, a representative of the

drug court shall jointly submit a plan, approved by the county legislative authority or authorities, to the panel established in subsection (5)(b) of this section, for disposition of all the funds provided from the criminal justice treatment account within that county. The funds shall be used solely to provide approved alcohol and substance abuse treatment pursuant to RCW 71.24.560, treatment support services, and for the administrative and overhead costs associated with the operation of a drug court.

(a) No more than ten percent of the total moneys received under subsections (4) and (5) of this section by a county or group of counties participating in a regional agreement shall be spent on the administrative and overhead costs associated with the operation of a drug court.

(b) No more than ten percent of the total moneys received under subsections (4) and (5) of this section by a county or group of counties participating in a regional agreement shall be spent for treatment support services.

(7) Counties are encouraged to consider regional agreements and submit regional plans for the efficient delivery of treatment under this section.

(8) Moneys allocated under this section shall be used to supplement, not supplant, other federal, state, and local funds used for substance abuse treatment.

(9) Counties must meet the criteria established in RCW 2.30.030(3).

(10) The authority under this section to use funds from the criminal justice treatment account for the administrative and overhead costs associated with the operation of a drug court expires June 30, 2015.

Sec. 965. RCW 74.13.621 and 2015 3rd sp.s. c 4 s 970 are each amended to read as follows:

(1) Within existing resources, the department shall establish an oversight committee to monitor, guide, and report on kinship care recommendations and implementation activities. The committee shall:

(a) Draft a kinship care definition that is restricted to persons related by blood, marriage, or adoption, including marriages that have been dissolved, or for a minor defined as an "Indian child" under

the federal Indian child welfare act (25 U.S.C. Sec. 1901 et seq.), the definition of "extended family member" under the federal Indian child welfare act, and a set of principles. If the committee concludes that one or more programs or services would be more efficiently and effectively delivered under a different definition of kin, it shall state what definition is needed, and identify the program or service in the report. It shall also provide evidence of how the program or service will be more efficiently and effectively delivered under the different definition. The department shall not adopt rules or policies changing the definition of kin without authorizing legislation;

(b) Monitor and provide consultation on the implementation of recommendations contained in the 2002 kinship care report, including but not limited to the recommendations relating to legal and respite care services and resources;

(c) Partner with nonprofit organizations and private sector businesses to guide a public education awareness campaign; and

(d) Assist with developing future recommendations on kinship care issues.

(2) The department shall consult with the oversight committee on its efforts to better collaborate and coordinate services to benefit kinship care families.

(3) The oversight committee must consist of a minimum of thirty percent kinship caregivers, who shall represent a diversity of kinship families. Statewide representation with geographic, ethnic, and gender diversity is required. Other members shall include representatives of the department, representatives of relevant state agencies, representatives of the private nonprofit and business sectors, child advocates, representatives of Washington state Indian tribes as defined under the federal Indian welfare act (25 U.S.C. Sec. 1901 et seq.), and representatives of the legal or judicial field. Birth parents, foster parents, and others who have an interest in these issues may also be included.

(4) To the extent funding is available, the department may reimburse nondepartmental members of the oversight committee for costs incurred in participating in the meetings of the oversight committee.

(5) The kinship care oversight committee shall update the legislature and

governor annually on committee activities, with the first update due by January 1, 2006.

(6) This section expires June 30, (~~2017~~) 2019.

Sec. 966. RCW 74.39A.270 and 2016 sp.s. c 30 s 1 are each amended to read as follows:

(1) Solely for the purposes of collective bargaining and as expressly limited under subsections (2) and (3) of this section, the governor is the public employer, as defined in chapter 41.56 RCW, of individual providers, who, solely for the purposes of collective bargaining, are public employees as defined in chapter 41.56 RCW. To accommodate the role of the state as payor for the community-based services provided under this chapter and to ensure coordination with state employee collective bargaining under chapter 41.80 RCW and the coordination necessary to implement RCW 74.39A.300, the public employer shall be represented for bargaining purposes by the governor or the governor's designee appointed under chapter 41.80 RCW. The governor or governor's designee shall periodically consult with the authority during the collective bargaining process to allow the authority to communicate issues relating to the long-term in-home care services received by consumers. The department shall solicit input from the developmental disabilities council, the governor's committee on disability issues and employment, the state council on aging, and other consumer advocacy organizations to obtain informed input from consumers on their interests, including impacts on consumer choice, for all issues proposed for collective bargaining under subsections (5) and (6) of this section.

(2) Chapter 41.56 RCW governs the collective bargaining relationship between the governor and individual providers, except as otherwise expressly provided in this chapter and except as follows:

(a) The only unit appropriate for the purpose of collective bargaining under RCW 41.56.060 is a statewide unit of all individual providers;

(b) The showing of interest required to request an election under RCW 41.56.060 is ten percent of the unit, and any intervener seeking to appear on the ballot must make the same showing of interest;

(c) The mediation and interest arbitration provisions of RCW 41.56.430 through 41.56.470 and 41.56.480 apply, except that:

(i) With respect to commencement of negotiations between the governor and the bargaining representative of individual providers, negotiations shall be commenced by May 1st of any year prior to the year in which an existing collective bargaining agreement expires; and

(ii) The decision of the arbitration panel is not binding on the legislature and, if the legislature does not approve the request for funds necessary to implement the compensation and fringe benefit provisions of the arbitrated collective bargaining agreement, is not binding on the authority or the state;

(d) Individual providers do not have the right to strike; and

(e) Individual providers who are related to, or family members of, consumers or prospective consumers are not, for that reason, exempt from this chapter or chapter 41.56 RCW.

(3) Individual providers who are public employees solely for the purposes of collective bargaining under subsection (1) of this section are not, for that reason, employees of the state, its political subdivisions, or an area agency on aging for any purpose. Chapter 41.56 RCW applies only to the governance of the collective bargaining relationship between the employer and individual providers as provided in subsections (1) and (2) of this section.

(4) Consumers and prospective consumers retain the right to select, hire, supervise the work of, and terminate any individual provider providing services to them. Consumers may elect to receive long-term in-home care services from individual providers who are not referred to them by the authority.

(5) Except as expressly limited in this section and RCW 74.39A.300, the wages, hours, and working conditions of individual providers are determined solely through collective bargaining as provided in this chapter. Except as described in subsection (9) of this section, no agency or department of the state may establish policies or rules governing the wages or hours of individual providers. This subsection does not modify:

(a) The department's authority to establish a plan of care for each consumer or its core responsibility to manage long-term in-home care services under this chapter, including determination of the level of care that each consumer is eligible to receive. However, at the request of the exclusive bargaining representative, the governor or the governor's designee appointed under chapter 41.80 RCW shall engage in collective bargaining, as defined in RCW 41.56.030(4), with the exclusive bargaining representative over how the department's core responsibility affects hours of work for individual providers. This subsection shall not be interpreted to require collective bargaining over an individual consumer's plan of care;

(b)(i) The requirement that the number of hours the department may pay any single individual provider is limited to:

(A) Sixty hours each workweek if the individual provider was working an average number of hours in excess of forty hours for the workweeks during January 2016, except for fiscal years 2016 ~~((and))~~, 2017, and 2018, the limit is sixty-five hours each workweek; or

(B) Forty hours each workweek if the individual provider was not working an average number of hours in excess of forty hours for the workweeks during January 2016, or had no reported hours for the month of January 2016.

(ii) Additional hours may be authorized under criteria established by rules adopted by the department under subsection (9) of this section.

(iii) Additional hours may be authorized for required training under RCW 74.39A.074, 74.39A.076, and 74.39A.341.

(iv) An individual provider may appeal to the department for qualification for the hour limitation in (b)(i)(A) of this subsection if the average weekly hours the ~~((individual))~~ individual provider was working in January 2016 materially underrepresent the average weekly hours worked by the individual provider during the first three months of 2016.

(v) No individual provider is subject to the hour limitations in (b)(i)(A) of this subsection until the department has conducted a review of the plan of care for the consumers served by the ~~((individual))~~ individual provider. The department shall review plans of care expeditiously, starting with consumers

connected with the most individual provider overtime;

(c) The requirement that the total number of additional hours in excess of forty hours authorized under (b) of this subsection and subsection (9) of this section are limited by the total hours as provided in subsection (10) of this section;

(d) The department's authority to terminate its contracts with individual providers who are not adequately meeting the needs of a particular consumer, or to deny a contract under RCW 74.39A.095(8);

(e) The consumer's right to assign hours to one or more individual providers consistent with the rules adopted under this chapter and his or her plan of care;

(f) The consumer's right to select, hire, terminate, supervise the work of, and determine the conditions of employment for each individual provider providing services to the consumer under this chapter;

(g) The department's obligation to comply with the federal medicaid statute and regulations and the terms of any community-based waiver granted by the federal department of health and human services and to ensure federal financial participation in the provision of the services; and

(h) The legislature's right to make programmatic modifications to the delivery of state services under this title, including standards of eligibility of consumers and individual providers participating in the programs under this title, and the nature of services provided. The governor shall not enter into, extend, or renew any agreement under this chapter that does not expressly reserve the legislative rights described in this subsection (5) (h).

(6) At the request of the exclusive bargaining representative, the governor or the governor's designee appointed under chapter 41.80 RCW shall engage in collective bargaining, as defined in RCW 41.56.030(4), with the exclusive bargaining representative over employer contributions to the training partnership for the costs of: (a) Meeting all training and peer mentoring required under this chapter; and (b) other training intended to promote the career development of individual providers.

(7) The state, the department, the area agencies on aging, or their contractors under this chapter may not be held vicariously or jointly liable for the action or inaction of any individual provider or prospective individual provider, whether or not that individual provider or prospective individual provider was included on the referral registry or referred to a consumer or prospective consumer. The existence of a collective bargaining agreement, the placement of an individual provider on the referral registry, or the development or approval of a plan of care for a consumer who chooses to use the services of an individual provider and the provision of case management services to that consumer, by the department or an area agency on aging, does not constitute a special relationship with the consumer.

(8) Nothing in this section affects the state's responsibility with respect to unemployment insurance for individual providers. However, individual providers are not to be considered, as a result of the state assuming this responsibility, employees of the state.

(9) The department may not pay any single individual provider more than the hours listed in subsection (5) (b) of this section unless the department authorizes additional hours under criteria established by rule. The criteria must be limited in scope to reduce the state's exposure to payment of overtime, address travel time from worksite to worksite, and address the following needs of consumers:

(a) Ensuring that consumers are not at increased risk for institutionalization;

(b) When there is a limited number of (~~individual~~) individual providers within the geographic region of the consumer;

(c) When there is a limited number of (~~individual~~) individual providers available to support a consumer with complex medical and behavioral needs or specific language needs;

(d) Emergencies that could pose a health and safety risk for consumers; and

(e) Instances where the cost of the allowed hour is less than other alternatives to provide care to a consumer, distinct from any increased risk of institutionalization.

(10) (a) Each fiscal year, the department shall establish a spending plan

and a system to monitor the authorization and cost of hours in excess of forty hours each workweek from subsections (5)(b) and (9) of this section beginning July 1, 2016, and each fiscal year thereafter. Expenditures for hours in excess of forty hours each workweek under subsections (5)(b) and (9) of this section shall not exceed 8.75 percent of the total average authorized personal care hours for the fiscal year as projected by the caseload forecast council. The caseload forecast council may adopt a temporary adjustment to the 8.75 percent of the total average hours projection for that fiscal year, up to a maximum of 10.0 percent, if it finds a higher percentage of overtime hours is necessitated by a shortage of individual providers to provide adequate client care, taking into consideration factors including the criteria in subsection (9) of this section. If the council elects to temporarily increase the limit, it may do so only upon a majority vote of the council.

(b) The department also shall provide expenditure reports beginning September 1, 2016, and on a quarterly basis thereafter. If the department determines, based upon quarterly expenditure reports, that the annual expenditures will exceed the limitation established in (a) of this subsection, the department shall take those actions necessary to ensure compliance with the limitation.

(c) The spending plan and expenditure reports must be submitted to the legislative fiscal committees and the joint legislative-executive overtime oversight task force. The joint legislative-executive overtime oversight task force members are as follows:

(i) Two members from each of the two largest caucuses of the senate, appointed by the respective caucus leaders.

(ii) The speaker of the house of representatives shall appoint two members from each of the two largest caucuses of the house of representatives.

(iii) The governor shall appoint members representing the department of social and health services and the office of financial management.

(iv) The governor shall appoint two members representing individual providers and two members representing consumers receiving personal care or respite care services from an individual provider.

(d) The task force shall meet at least annually, but may meet more frequently as desired by the task force. The task force shall choose cochairs, one from among the legislative members and one from among the executive branch members.

(e) The department is authorized to adopt rules, including emergency rules under RCW 34.05.350, to implement this subsection.

Sec. 967. RCW 77.12.201 and 2016 sp.s. c 36 s 947 are each amended to read as follows:

The legislative authority of a county may elect, by giving written notice to the director and the treasurer prior to January 1st of any year, to obtain for the following year an amount in lieu of real property taxes on game lands as provided in RCW 77.12.203. Upon the election, the county shall keep a record of all fines, forfeitures, reimbursements, and costs assessed and collected, in whole or in part, under this title for violations of law or rules adopted pursuant to this title, with the exception of the ~~((2011-2013, 2013-2015[,] and))~~ 2015-2017 and 2017-2019 fiscal biennia, and shall monthly remit an amount equal to the amount collected to the state treasurer for deposit in the state general fund. This amount may not be assessed or paid on department buildings, structures, facilities, game farms, fish hatcheries, water access sites, tidelands, or public fishing areas.

(2) "Game lands," as used in this section and RCW 77.12.201, means those

tracts, regardless of acreage, owned in fee by the department and used for wildlife habitat and public recreational purposes. All lands purchased for wildlife habitat, public access, or recreation purposes with federal funds in the Snake River drainage basin are considered game lands regardless of acreage.

(3) This section does not apply to lands transferred after April 23, 1990, to the department from other state agencies.

(4) The county must distribute the amount received under this section in lieu of real property taxes to all property taxing districts except the state in appropriate tax code areas the same way it would distribute local property taxes from private property. The county must distribute the amount received under this section for weed control to the appropriate weed district.

(5) For the ((~~2013-2015 and~~) 2015-2017 and 2017-2019 fiscal biennia, the director must pay by April 30th of each year on game lands in each county, if requested by an election under RCW 77.12.201, an amount in lieu of real property taxes and must be distributed as follows:

These amounts may not be assessed or paid on department buildings, structures, facilities, game farms, fish hatcheries, water access sites, tidelands, or public fishing areas.

Sec. 969. RCW 79.64.040 and 2015 3rd sp.s. c 4 s 972 are each amended to read as follows:

(1) The board shall determine the amount deemed necessary in order to achieve the purposes of this chapter and shall provide by rule for the deduction of this amount from the moneys received from all leases, sales, contracts, licenses, permits, easements, and rights-of-way issued by the department and affecting state lands and aquatic lands, provided that no deduction shall be made from the proceeds from agricultural college lands.

(2) Moneys received as deposits from successful bidders, advance payments, and security under RCW 79.15.100, 79.15.080, and 79.11.150 prior to December 1, 1981, which have not been subjected to deduction under this section are not subject to deduction under this section.

(3) Except as otherwise provided in subsection (5) of this section, the deductions authorized under this section shall not exceed twenty-five percent of the moneys received by the department in connection with any one transaction pertaining to state lands and aquatic lands other than second-class tide and shore lands and the beds of navigable waters, and fifty percent of the moneys received by the department pertaining to second-class tide and shore lands and the beds of navigable waters.

(4) In the event that the department sells logs using the contract harvesting process described in RCW 79.15.500 through 79.15.530, the moneys received subject to this section are the net proceeds from the contract harvesting sale.

(5) ((During the 2013-2015 fiscal biennium, the twenty-five percent limitation on deductions set in subsection (3) of this section may be increased up to thirty percent by the board.)) (a) For state forestlands acquired through RCW 79.22.040 or by exchange for lands acquired through RCW 79.22.040:

(i) The expense incurred by the state for administration, reforestation, and protection, not to exceed twenty-five percent, which rate of percentage shall be determined by the board, must be returned to the forest development account created in RCW 79.64.100. During the 2015-2017 and 2017-2019 fiscal (~~(biennium)~~) biennia, the board may increase the twenty-five percent limitation up to twenty-seven percent.

(iv) With regard to moneys remaining under this subsection (1)(a), within seven working days of receipt of these moneys, the department shall certify to the state treasurer the amounts to be distributed to the counties. The state treasurer shall distribute funds to the counties four times per month, with no more than ten days between each payment date.

(b) For state forestlands acquired through RCW 79.22.010 or by exchange for lands acquired through RCW 79.22.010, except as provided in RCW 79.64.120:

(ii) Fifty percent shall be prorated and distributed to the state general fund, to be dedicated for the benefit of the public schools, to the county in which the land is located or, for counties participating in a land pool created under RCW 79.22.140, to each participating county proportionate to its contribution of asset value to the land pool as determined by the board, and according to the relative proportions of tax levies of all taxing districts in the county. The

portion to be distributed to the state general fund shall be based on the regular school levy rate under RCW 84.52.065 and the levy rate for any maintenance and operation special school levies. With regard to the portion to be distributed to the counties, the department shall certify to the state treasurer the amounts to be distributed within seven working days of receipt of the money. The county assessor and county legislative authority shall assist in determining the appropriate calculation of the amount of tax that would be due. However, in the 2017-2019 fiscal biennium, the treasurer must distribute payments under this section in the amount specified by the legislature in the omnibus operating appropriations act. The county shall distribute the amount received under this section in lieu of real property taxes to all property taxing districts except the state in appropriate tax code areas the same way it would distribute local property taxes from private property. The county assessor and county legislative authority shall assist in determining the appropriate calculation of the amount of tax that would be due. However, in the 2017-2019 fiscal biennium, the treasurer must distribute payments under this section in the amount specified by the legislature in the omnibus operating appropriations act. The county shall distribute the amount received under this section in lieu of real property taxes to all property taxing districts except the state in appropriate tax code areas the same way it would distribute local property taxes from private property. After appropriation, these funds shall be used solely for aquatic lands enhancement projects; for the purchase, improvement, or protection of aquatic lands for public purposes; for providing and improving access to the lands; and for volunteer cooperative fish and game projects. During the 2013-2015 (~~and~~), 2015-2017, and 2017-2019 fiscal biennia, the aquatic lands enhancement account may be used to support the shellfish program, the ballast water program, hatcheries, the Puget Sound toxic sampling program and steelhead mortality research at the department of fish and wildlife, the knotweed program at the department of agriculture, actions at the University of Washington for reducing ocean acidification, which may include the creation of a center on ocean acidification, (~~and~~) the Puget SoundCorps program, and support of the marine resource advisory council and the

PART XII

HUMAN SERVICES

Sec. 1201. 2016 sp.s. c 36 s 201 (uncodified) is amended to read as follows:

FOR THE DEPARTMENT OF SOCIAL AND HEALTH SERVICES

(1) The appropriations to the department of social and health services in this act shall be expended for the programs and in the amounts specified in this act. Appropriations made in this act to the department of social and health services shall initially be allotted as required by this act. Subsequent allotment modifications shall not include transfers of moneys between sections of this act except as expressly provided in this act, nor shall allotment modifications permit moneys that are provided solely for a specified purpose to be used for other than that purpose.

(2) The department of social and health services shall not initiate any services that require expenditure of state general fund moneys unless expressly authorized in this act or other law. The department may seek, receive, and spend, under RCW 43.79.260 through 43.79.282, federal moneys not anticipated in this act as long as the federal funding does not require expenditure of state moneys for the program in excess of amounts anticipated in this act. If the department receives unanticipated unrestricted federal moneys, those moneys shall be spent for services authorized in this act or in any other legislation providing appropriation authority, and an equal amount of appropriated state general fund moneys

shall lapse. Upon the lapsing of any moneys under this subsection, the office of financial management shall notify the legislative fiscal committees. As used in this subsection, "unrestricted federal moneys" includes block grants and other funds that federal law does not require to be spent on specifically defined projects or matched on a formula basis by state funds.

(3) The legislature finds that medicaid payment rates, as calculated by the department pursuant to the appropriations in this act, bear a reasonable relationship to the costs incurred by efficiently and economically operated facilities for providing quality services and will be sufficient to enlist enough providers so that care and services are available to the extent that such care and services are available to the general population in the geographic area. The legislature finds that cost reports, payment data from the federal government, historical utilization, economic data, and clinical input constitute reliable data upon which to determine the payment rates.

(4) The department shall to the maximum extent practicable use the same system for delivery of spoken-language interpreter services for social services appointments as the one established for medical appointments in the health care authority. When contracting directly with an individual to deliver spoken language interpreter services, the department shall only contract with language access providers who are working at a location in the state and who are state-certified or state-authorized, except that when such a provider is not available, the department may use a language access provider who meets other certifications or standards deemed to meet state standards, including interpreters in other states.

(5) Information technology projects or investments and proposed projects or investments impacting time capture, payroll and payment processes and systems, eligibility, case management, and authorization systems within the department of social and health services are subject to technical oversight by the office of the chief information officer.

(6)(a) The department shall facilitate enrollment under the medicaid expansion for clients applying for or receiving state funded services from the department and its contractors. Prior to open enrollment, the department shall coordinate with the health care authority

to provide referrals to the Washington health benefit exchange for clients that will be ineligible for medicaid.

(b) To facilitate a single point of entry across public and medical assistance programs, and to maximize the use of federal funding, the health care authority, the department of social and health services, and the health benefit exchange will coordinate efforts to expand HealthPlanfinder access to public assistance and medical eligibility staff. No later than October 1, 2015, the department shall complete medicaid applications in the HealthPlanfinder for households receiving or applying for public assistance benefits.

(c) The department, in coordination with the health care authority, shall pursue a federal waiver to use supplemental nutrition assistance program eligibility, aged, blind, or disabled program eligibility, or temporary assistance for needy families eligibility, to enroll eligible persons into medicaid.

(7) In accordance with RCW 71.24.380, the health care authority and the department are authorized to purchase medical and behavioral health services through integrated contracts upon request of all of the county authorities in a regional service area to become an early adopter of fully integrated purchasing of medical and behavioral health services. The department may combine and transfer such amounts appropriated under sections 204, 208, and 213 of this act as may be necessary to fund early adopter contracts. The amount of medicaid funding transferred from each program may not exceed the average per capita cost assumed in this act for individuals covered by that program, actuarially adjusted for the health condition of persons enrolled, times the number of clients enrolled. The amount of non-medicaid funding transferred from sections 204 and 208 may not exceed the amount that would have been contracted with a behavioral health organization if the county authorities had not requested to become an early adopter of fully integrated purchasing. These limits do not apply to the amounts provided in section 204(1)(s) of this act. If any funding that this act provides solely for a specific purpose is transferred under this subsection, that funding must be used consistently with the provisions and conditions for which it was provided.

(8) In accordance with RCW 71.24.380, the department is authorized to purchase

mental health and substance use disorder services through integrated contracts with behavioral health organizations. The department may combine and transfer such amounts appropriated under sections 204 and 208 of this act as may be necessary to finance these behavioral health organization contracts. If any funding that this act provides solely for a specific purpose is transferred under this subsection, that funding must be used consistently with the provisions and conditions for which it was provided.

(9)(a) The appropriations to the department of social and health services in this act shall be expended for the programs and in the amounts specified in this act. However, after May 1, ~~((2016))~~ 2017, unless prohibited by this act, the department may transfer general fund-state appropriations for fiscal year ~~((2016))~~ 2017 among programs after approval by the director of financial management. However, the department shall not transfer state moneys that are provided solely for a specified purpose except as expressly provided in (b) of this subsection.

(b) To the extent that transfers under (a) of this subsection are insufficient to fund actual expenditures in excess of fiscal year ~~((2016))~~ 2017 caseload forecasts and utilization assumptions in the long-term care, foster care, adoptions support, medical personal care, and child support programs, the department may transfer state moneys that are provided solely for a specified purpose. The department shall not transfer funds, and the director of financial management shall not approve the transfer, unless the transfer is consistent with the objective of conserving, to the maximum extent possible, the expenditure of state funds. The director of financial management shall notify the appropriate fiscal committees of the senate and house of representatives in writing seven days prior to approving any allotment modifications or transfers under this subsection. The written notification shall include a narrative explanation and justification of the changes, along with expenditures and allotments by budget unit and appropriation, both before and after any allotment modifications or transfers.

(10) To facilitate the authority provided in subsection (7) and (8) of this section, and to ensure a new accounting structure is in place as of July 1, 2017, the department is authorized to create a new program for accounting purposes only

that combines the mental health program and alcohol and substance abuse program allotments and expenditures.

The appropriations in this subsection are subject to the following conditions and limitations:

(a) For the purposes of this subsection, the term "regional support networks," includes, effective April 1, 2016, behavioral health organizations which assume the duties of regional support networks pursuant to chapter 225, Laws of 2014 (2SSB 6312).

(b) \$12,204,000 of the general fund-state appropriation for fiscal year 2016, (~~(\$13,761,000)~~) \$8,921,000 of the general fund-state appropriation for fiscal year 2017, and (~~(\$17,918,000)~~) \$15,312,000 of the general fund-federal appropriation are provided solely to reimburse regional support networks for increased utilization costs, as compared to utilization costs in fiscal year 2014, that are incurred in order to meet statutory obligations to provide individualized mental health treatment in appropriate settings to individuals who are detained or committed under the involuntary treatment act. Prior to distributing funds to a regional support network requesting reimbursement for costs relative to increased utilization, the department must receive adequate documentation of such increased utilization and costs. Regional support networks receiving funds for community hospitals or evaluation and treatment center beds under (p) of this subsection

are only eligible for reimbursement that exceeds the total of their utilization costs in fiscal year 2014 and the costs of services provided with additional funds received under (p) of this subsection.

(c) \$2,452,000 of the general fund–state appropriation for fiscal year 2016, \$2,264,000 of the general fund–state appropriation for fiscal year 2017, and \$2,653,000 of the general fund–federal appropriation are provided solely for implementation of chapter 258, Laws of 2015 (E2SSB 5269) (involuntary treatment act). Regional support networks must use these amounts for involuntary treatment costs associated with implementation of this bill.

(d) \$3,776,000 of the general fund–state appropriation for fiscal year 2016, \$5,780,000 of the general fund–state appropriation for fiscal year 2017, and \$6,054,000 of the general fund–federal appropriation are provided solely for implementation of chapter 250, Laws of 2015 (E2SHB 1450) (involuntary outpatient treatment). Regional support networks must use these amounts for increases in community mental health treatment associated with implementation of this bill.

(e) \$81,180,000 of the general fund–state appropriation for fiscal year 2016 and \$81,180,000 of the general fund–state appropriation for fiscal year 2017 are provided solely for persons and services not covered by the medicaid program. To the extent possible, levels of regional support network spending shall be maintained in the following priority order: Crisis and commitment services; community inpatient services; and residential care services, including personal care and emergency housing assistance. These amounts includes a reduction of \$4,715,000 for fiscal year 2016 and \$4,715,000 for fiscal year 2017 associated with a funding shift that allows for increased federal participation for community inpatient stays that were previously ineligible for federal matching funds. This reduction will be distributed to regional support networks based on the same proportions that were added to regional support network capitation ranges specific to the waiver that allowed for federal funds to be used for community inpatient stays that were previously ineligible for federal matching funds. The department must allow regional support networks to use medicaid capitation payments to provide services to medicaid

enrollees that are in addition to those covered under the state plan in accordance with the conditions established under federal regulations governing medicaid managed care contracts and subject to federal approval by the center for medicaid and medicare services.

(f) \$6,590,000 of the general fund–state appropriation for fiscal year 2016, \$6,590,000 of the general fund–state appropriation for fiscal year 2017, and \$7,620,000 of the general fund–federal appropriation are provided solely for the department and regional support networks to continue to contract for implementation of high-intensity programs for assertive community treatment (PACT) teams. In determining the proportion of medicaid and nonmedicaid funding provided to regional support networks with PACT teams, the department shall consider the differences between regional support networks in the percentages of services and other costs associated with the teams that are not reimbursable under medicaid. The department may allow regional support networks which have nonmedicaid reimbursable costs that are higher than the nonmedicaid allocation they receive under this section to supplement these funds with local dollars or funds received under section 204(1)(e) of this act. The department and regional support networks shall maintain consistency with all essential elements of the PACT evidence-based practice model in programs funded under this section.

(g) The number of nonforensic beds allocated for use by regional support networks at eastern state hospital shall be 192 per day. The number of nonforensic beds allocated for use by regional support networks at western state hospital shall be 587 per day in fiscal year 2016. Pursuant to Engrossed Second Substitute House Bill No. 2453 (state hospital oversight) or Substitute Senate Bill No. 6656 (state hospital practices), the department must transition and divert enough patients with long term care needs from western state hospital by January 1, 2017, to reduce the capacity needed for this population by 30 beds and the department must reduce the number of nonforensic beds allocated for use by regional support networks at western state hospital to 557. The department may contract through a regional support network for up to 30 local community hospital beds to provide treatment to individuals on a 90 day involuntary commitment order and must lower that

regional support network's allocation of beds by the number of contracted beds.

(h) From the general fund-state appropriations in this subsection, the secretary of social and health services shall assure that regional support networks reimburse the aging and disability services administration for the general fund-state cost of medicaid personal care services that enrolled regional support network consumers use because of their psychiatric disability.

(i) The department is authorized to continue to contract directly, rather than through contracts with regional support networks, for children's long-term inpatient facility services.

(j) \$750,000 of the general fund-state appropriation for fiscal year 2016 and \$750,000 of the general fund-state appropriation for fiscal year 2017 are provided solely to continue performance-based incentive contracts to provide appropriate community support services for individuals with severe mental illness who were discharged from the state hospitals as part of the expanding community services initiative. These funds will be used to enhance community residential and support services provided by regional support networks through other state and federal funding.

(k) \$1,125,000 of the general fund-state appropriation for fiscal year 2016 and \$1,125,000 of the general fund-state appropriation for fiscal year 2017 are provided solely for the Spokane regional support network to implement services to reduce utilization and the census at eastern state hospital. Such services shall include:

(i) High intensity treatment team for persons who are high utilizers of psychiatric inpatient services, including those with co-occurring disorders and other special needs;

(ii) Crisis outreach and diversion services to stabilize in the community individuals in crisis who are at risk of requiring inpatient care or jail services;

(iii) Mental health services provided in nursing facilities to individuals with dementia, and consultation to facility staff treating those individuals; and

(iv) Services at the sixteen-bed evaluation and treatment facility.

At least annually, the Spokane regional support network shall assess the

effectiveness of these services in reducing utilization at eastern state hospital, identify services that are not optimally effective, and modify those services to improve their effectiveness.

(l) \$1,204,000 of the general fund-state appropriation for fiscal year 2016 and \$1,204,000 of the general fund-state appropriation for fiscal year 2017 are provided solely to reimburse Pierce and Spokane counties for the cost of conducting 180-day commitment hearings at the state psychiatric hospitals.

(m) Regional support networks may use local funds to earn additional federal medicaid match, provided the locally matched rate does not exceed the upper-bound of their federally allowable rate range, and provided that the enhanced funding is used only to provide medicaid state plan or waiver services to medicaid clients. Additionally, regional support networks may use a portion of the state funds allocated in accordance with (e) of this subsection to earn additional medicaid match, but only to the extent that the application of such funds to medicaid services does not diminish the level of crisis and commitment, community inpatient, residential care, and outpatient services presently available to persons not eligible for medicaid.

(n) \$2,291,000 of the general fund-state appropriation for fiscal year 2016 and \$2,291,000 of the general fund-state appropriation for fiscal year 2017 are provided solely for mental health services for mentally ill offenders while confined in a county or city jail and for facilitating access to programs that offer mental health services upon release from confinement.

(o) Within the amounts appropriated in this section, funding is provided for the department to develop and phase in intensive mental health services for high needs youth consistent with the settlement agreement in *T.R. v. Dreyfus and Porter*.

(p) \$9,184,000 of the general fund-state appropriation for fiscal year 2016, \$11,405,000 of the general fund-state appropriation for fiscal year 2017, and \$17,680,000 of the general fund-federal appropriation are provided solely for enhancement of community mental health services. The department must contract these funds for the operation of community programs in which the department determines there is a need for capacity that allows individuals to be diverted or

transitioned from the state hospitals including but not limited to: (i) Community hospital or free standing evaluation and treatment services providing short-term detention and commitment services under the involuntary treatment act to be located in the geographic areas of the King regional support network, the Spokane regional support network outside of Spokane county, and the Thurston Mason regional support network; (ii) one new full program of an assertive community treatment team in the King regional support network and two new half programs of assertive community treatment teams in the Spokane regional support network and the Pierce regional support network; and (iii) three new recovery support services programs in the Grays Harbor regional support network, the greater Columbia regional support network, and the north sound regional support network. In contracting for community evaluation and treatment services, the department may not use these resources in facilities that meet the criteria to be classified under federal law as institutions for mental diseases. If the department is unable to come to a contract agreement with a designated regional support network for any of the services identified above, it may consider contracting for that service in another regional support network that has the need for such service.

(q) The appropriations in this section include a reduction of \$16,462,000 in general fund-state and \$16,468,000 of general fund-federal expenditure authority. This reduction must be achieved by reducing regional support network medicaid rates for disabled adults, nondisabled adults, disabled children, and nondisabled children. No regional support network rate may be lowered below the low end of the rate range that is certified as actuarially sound. The department must work to develop updated minimum and maximum reserve levels that reflect the changes in the number of medicaid eligible individuals since reserve levels were originally set as well as the integration of substance use disorder services into managed care contracts funded within the amounts appropriated in this section. The department must submit a report to the office of financial management and the appropriate fiscal committees of the legislature by December 1, 2015, that includes the revised minimum and maximum reserve levels for medicaid and

nonmedicaid behavioral health organization contracts.

(r) \$300,000 of the general fund-state appropriation for fiscal year 2016, \$1,394,000 of the general fund-state appropriation for fiscal year 2017, and \$2,020,000 of the general fund-federal appropriation are provided solely for implementation of chapter 7, Laws of 2015 1st sp. sess. (2E2SSB 5177) (timeliness of competency evaluation and restoration services). Regional support networks must use the amounts for outpatient mental health treatment costs associated with implementation of the bill.

(s) \$1,500,000 of the general fund-state appropriation for fiscal year 2017 is provided solely to support the southwest Washington region in transitioning to become an early adopter for full integration of physical and behavioral health care. These amounts must be used to provide a reserve for nonmedicaid services in the region and to stabilize the new crisis services system. The department and the health care authority must develop a memorandum of understanding on the use of these funds.

(t) By April 1, 2016, the department must establish minimum and maximum funding levels for all reserves allowed under behavioral health organization contracts and insert contract language that clearly states the requirements and limitations. The department must monitor and ensure that behavioral health organization reserves do not exceed maximum levels. The department must monitor behavioral health organization revenue and expenditure reports and must require a behavioral health organization to submit a corrective action plan on how it will spend its excess reserves within a reasonable period of time, when its reported reserves exceed maximum levels established under the contract. The department must review and approve such plans and monitor to ensure compliance. If the department determines that a behavioral health organization has failed to provide an adequate excess reserve corrective action plan or is not complying with an approved plan, the department must reduce payments to the behavioral health organization in accordance with remedial actions provisions included in the contract. These reductions in payments must continue until the department determines that the behavioral health organization has come into substantial compliance with an

approved excess reserve corrective action plan.

(u) \$2,000,000 of the general fund-state appropriation for fiscal year 2017 and \$762,000 of the general fund-federal appropriation for fiscal year 2017 are provided solely for four housing support and step down services teams.

(v) \$1,760,000 of the general fund-federal appropriation is provided solely for a pilot project to put peer bridging staff into each regional support network as part of the state psychiatric liaison teams to promote continuity of service as individuals return to their communities. The appropriations in this section are subject to the following conditions and limitations:

(1) For purposes of implementing chapter 74.46 RCW, the weighted average nursing facility payment rate shall not exceed \$178.87 for fiscal year 2016 and shall not exceed (~~(\$197.33)~~) \$196.41 for fiscal year 2017. There will be no adjustments for economic trends and conditions in fiscal years 2016 and 2017. The economic trends and conditions factor or factors defined in the biennial appropriations act shall not be compounded with the economic trends and conditions factor or factors defined in any other biennial appropriations acts before applying it to the component rate allocations established in accordance with chapter 74.46 RCW. (a) For fiscal year 2016 within the funds provided, the department shall continue to provide an add-on per medicaid resident day per facility not to exceed \$1.57. The add-on shall be used to increase wages, benefits, and/or staffing levels for certified nurse aides; or to increase wages and/or benefits for dietary aides, housekeepers, laundry aides, or any other category of worker whose statewide average dollars-per-hour wage was less than \$15 in calendar year 2008, according to cost report data. The add-on may also be used to address resulting wage compression for related job classes immediately affected by wage increases to low-wage workers. For fiscal year 2016 within funds provided, the department shall provide an additional add-on per medicaid resident day per facility not to exceed the industry weighted average rate of \$2.44. The add-on shall be used to increase wages, benefits, and/or staffing levels for certified nurse aides; or to increase wages and/or benefits for dietary aides, housekeepers, laundry aides, or any other category of worker whose statewide average dollars-per-hour wage was less than \$17 in calendar year 2012, according to cost report data. The department shall continue reporting requirements and a settlement process to ensure that the funds are spent according to this subsection.

(b) The department shall do a comparative analysis of the facility-based payment rates calculated on July 1, 2015,

using the payment methodology defined in chapter 74.46 RCW and as funded in the omnibus appropriations act, excluding the low wage worker add-on found in (a) of this subsection, the rate add-ons for direct care, support services, and therapy care found in (g) of this subsection, the comparative add-on, acuity add-on, and safety net reimbursement, to the facility-based payment rates in effect June 30, 2010. For fiscal year 2016, if the facility-based payment rate calculated on July 1, 2015, is smaller than the facility-based payment rate on June 30, 2010, then the difference shall be provided to the individual nursing facilities as an add-on payment per medicaid resident day.

(c) During the comparative analysis performed in subsection (b) of this section, for fiscal year 2016, if it is found that the direct care rate for any facility calculated using the payment methodology defined in chapter 74.46 RCW and as funded in the omnibus appropriations act, excluding the low wage worker add-on found in (a) of this subsection, the rate add-ons for direct care, support services, and therapy care found in (g) of this subsection, the comparative add-on, acuity add-on, and safety net reimbursement, is greater than the direct care rate in effect on June 30, 2010, then the facility shall receive a ten percent direct care rate add-on to compensate that facility for taking on more acute clients than they have in the past.

(d) The department shall provide a medicaid rate add-on to reimburse the medicaid share of the skilled nursing facility safety net assessment as a medicaid allowable cost. The nursing facility safety net rate add-on may not be included in the calculation of the annual statewide weighted average nursing facility payment rate.

(e) The rate add-on provided in (c) of this subsection is subject to the reconciliation and settlement process provided in RCW 74.46.022(6).

(f) If the waiver requested from the federal centers for medicare and medicaid services in relation to the safety net assessment is for any reason disapproved, (b), (c), (d), (g), and the fiscal year 2016 additional add-on in (a) of this subsection do not apply.

(g) For fiscal year 2016, the department shall provide the following rate add-ons per medicaid resident day:

This subsection (1)(g) is subject to the reconciliation and settlement process provided in RCW 74.46.022(6).

(h) Beginning July 1, 2016, a nursing home provider's direct care rate shall be set so that it does not exceed one hundred and eighteen percent of its base year's direct care allowable costs except if the provider is below the minimum staffing standard established in RCW 74.42.360(2).

(2) In accordance with chapter 74.46 RCW, the department shall issue no additional certificates of capital authorization for fiscal year 2016 and no new certificates of capital authorization for fiscal year 2017 and shall grant no rate add-ons to payment rates for capital improvements not requiring a certificate of need and a certificate of capital authorization for fiscal years 2016 and 2017.

(a) The current annual renewal license fee for adult family homes shall be \$225 per bed beginning in fiscal year 2016 and \$225 per bed beginning in fiscal year 2017. A processing fee of \$2,750 shall be charged to each adult family home when the home is initially licensed. This fee is nonrefundable.

Nursing homes shall be required to notify the department's identified home and community services division contact within 30 days of a medicaid resident being identified in one of the five lowest resource utilization group categories (beginning with PA1 through PC1). The department shall complete an assessment of those residents who desire to transition into a community setting. The department shall identify within 30 days whether an alternate setting of the client's choosing is available to meet the resident's needs. Nursing homes shall work collaboratively with the department to transition into the community at least ninety-six residents, assessed in the five lowest acuity resource utilization group categories (PA1 through PC1). For the first two quarters of fiscal year 2017, the downward adjustment shall be no greater than thirteen percent. If, after the first two quarters of fiscal year 2017, the department determines the nursing homes are not making sufficient progress towards moving ninety-six residents from the five lowest resource utilization group categories (PA1 through PC1) into the community, the department is authorized to increase the downward adjustment to no greater than twenty percent for the lowest four resource utilization group categories (PA1 through PB2).

By August 1, 2016, the authority shall present the progress made on the initiative to the joint select committee on health care, identifying any possible changes in statute needed to achieve the goal and the possible impacts on clients. The authority shall complete the plan and

report to the appropriate committees of the legislature by October 1, 2016.

(c) \$1,894,672,000 of the general fund—state appropriation for fiscal year 2016 and \$1,915,233,000 of the general fund—state appropriation for fiscal year 2017 are provided solely for medicaid services and the medicaid program. However, the authority shall not accept or expend any federal funds received under a medicaid transformation demonstration waiver currently being sought under healthier Washington, except as described in (d) through (g) of this subsection, until specifically approved and appropriated by the legislature.

(d) No more than ~~((~~\$127,336,000~~))~~ \$121,050,000 of the general fund—federal appropriation and \$12,226,000 of the general fund—local appropriation may be expended for transformation through accountable communities of health described in initiative 1 of the medicaid transformation demonstration waiver currently being sought under healthier Washington, including preventing youth drug use. The authority shall not increase general fund—state expenditures on this initiative. The authority shall report to the fiscal committees of the legislature all expenditures under this subsection and shall provide such fiscal data in the manner, form, and time requested by the legislative fiscal committees.

(e) ((No more than \$5,223,000 of the general fund—federal appropriation may be expended for tailored support for older adults and medicaid alternative care described in initiative 2 of the medicaid transformation demonstration waiver currently being sought under healthier Washington. The authority shall not increase general fund—state expenditures on this initiative. The authority shall report to the fiscal committees of the legislature all expenditures under this subsection and shall provide such fiscal data in the manner, form, and time requested by the legislative fiscal committees.

~~(f))~~ No more than ~~((~~\$9,425,000~~))~~ \$5,392,000 of the general fund—federal appropriation may be expended for supportive housing and supportive employment services described in initiative 3 ~~((~~(a)~~))~~ of the medicaid transformation demonstration waiver currently being sought under healthier Washington. The authority shall not increase general fund—state expenditures on this initiative. The authority shall

report to the fiscal committees of the legislature all expenditures under this subsection and shall provide such fiscal data in the manner, form, and time requested by the legislative fiscal committees.

((g)) No more than \$5,567,000 of the general fund-federal appropriation may be expended for supportive employment services described in initiative 3(b) of the medicaid transformation demonstration waiver currently being sought under healthier Washington. The authority shall not increase general fund-state expenditures on this initiative. The authority shall report to the fiscal committees of the legislature all expenditures under this subsection and shall provide such fiscal data in the manner, form, and time requested by the legislative fiscal committees.

~~((h))~~ (f) Sufficient amounts are appropriated in this subsection to implement the medicaid expansion as defined in the social security act, section 1902(a)(10)(A)(i)(VIII).

~~((i))~~ (g) The legislature finds that medicaid payment rates, as calculated by the health care authority pursuant to the appropriations in this act, bear a reasonable relationship to the costs incurred by efficiently and economically operated facilities for providing quality services and will be sufficient to enlist enough providers so that care and services are available to the extent that such care and services are available to the general population in the geographic area. The legislature finds that the cost reports, payment data from the federal government, historical utilization, economic data, and clinical input constitute reliable data upon which to determine the payment rates.

~~((j))~~ (h) Based on quarterly expenditure reports and caseload forecasts, if the health care authority estimates that expenditures for the medical assistance program will exceed the appropriations, the health care authority shall take steps including but not limited to reduction of rates or elimination of optional services to reduce expenditures so that total program costs do not exceed the annual appropriation authority.

~~((k))~~ (i) In determining financial eligibility for medicaid-funded services, the health care authority is authorized to disregard recoveries by Holocaust survivors of insurance proceeds or other assets, as defined in RCW 48.104.030.

~~((l))~~ (j) The legislature affirms that it is in the state's interest for Harborview medical center to remain an economically viable component of the state's health care system.

~~((m))~~ (k) When a person is ineligible for medicaid solely by reason of residence in an institution for mental diseases, the health care authority shall provide the person with the same benefits as he or she would receive if eligible for medicaid, using state-only funds to the extent necessary.

~~((n))~~ (l) \$4,261,000 of the general fund-state appropriation for fiscal year 2016, \$4,261,000 of the general fund-state appropriation for fiscal year 2017, and \$8,522,000 of the general fund-federal appropriation are provided solely for low-income disproportionate share hospital payments.

~~((o))~~ (m) Within the amounts appropriated in this section, the health care authority shall provide disproportionate share hospital payments to hospitals that provide services to children in the children's health program who are not eligible for services under Title XIX or XXI of the federal social security act due to their citizenship status.

~~((p))~~ (n) \$6,000,000 of the general fund-federal appropriation is provided solely for supplemental payments to nursing homes operated by public hospital districts. The public hospital district shall be responsible for providing the required nonfederal match for the supplemental payment, and the payments shall not exceed the maximum allowable under federal rules. It is the legislature's intent that the payments shall be supplemental to and shall not in any way offset or reduce the payments calculated and provided in accordance with part E of chapter 74.46 RCW. It is the legislature's further intent that costs otherwise allowable for rate-setting and settlement against payments under chapter 74.46 RCW shall not be disallowed solely because such costs have been paid by revenues retained by the nursing home from these supplemental payments. The supplemental payments are subject to retrospective interim and final cost settlements based on the nursing homes' as-filed and final medicare cost reports. The timing of the interim and final cost settlements shall be at the health care authority's discretion. During either the interim cost settlement or the final cost

settlement, the health care authority shall recoup from the public hospital districts the supplemental payments that exceed the medicaid cost limit and/or the medicare upper payment limit. The health care authority shall apply federal rules for identifying the eligible incurred medicaid costs and the medicare upper payment limit.

~~((+))~~ (o) The health care authority shall continue the inpatient hospital certified public expenditures program for the 2015-2017 fiscal biennium. The program shall apply to all public hospitals, including those owned or operated by the state, except those classified as critical access hospitals or state psychiatric institutions. The health care authority shall submit reports to the governor and legislature by November 1, 2015, and by November 1, 2016, that evaluate whether savings continue to exceed costs for this program. If the certified public expenditures (CPE) program in its current form is no longer cost-effective to maintain, the health care authority shall submit a report to the governor and legislature detailing cost-effective alternative uses of local, state, and federal resources as a replacement for this program. During fiscal year 2016 and fiscal year 2017, hospitals in the program shall be paid and shall retain one hundred percent of the federal portion of the allowable hospital cost for each medicaid inpatient fee-for-service claim payable by medical assistance and one hundred percent of the federal portion of the maximum disproportionate share hospital payment allowable under federal regulations. Inpatient medicaid payments shall be established using an allowable methodology that approximates the cost of claims submitted by the hospitals. Payments made to each hospital in the program in each fiscal year of the biennium shall be compared to a baseline amount. The baseline amount will be determined by the total of (a) the inpatient claim payment amounts that would have been paid during the fiscal year had the hospital not been in the CPE program based on the reimbursement rates developed, implemented, and consistent with policies approved in the 2015-2017 biennial operating appropriations act and in effect on July 1, 2015, (b) one-half of the indigent assistance disproportionate share hospital payment amounts paid to and retained by each hospital during fiscal year 2005, and (c) all of the other disproportionate share hospital payment

amounts paid to and retained by each hospital during fiscal year 2005 to the extent the same disproportionate share hospital programs exist in the 2015-2017 fiscal biennium. If payments during the fiscal year exceed the hospital's baseline amount, no additional payments will be made to the hospital except the federal portion of allowable disproportionate share hospital payments for which the hospital can certify allowable match. If payments during the fiscal year are less than the baseline amount, the hospital will be paid a state grant equal to the difference between payments during the fiscal year and the applicable baseline amount. Payment of the state grant shall be made in the applicable fiscal year and distributed in monthly payments. The grants will be recalculated and redistributed as the baseline is updated during the fiscal year. The grant payments are subject to an interim settlement within eleven months after the end of the fiscal year. A final settlement shall be performed. To the extent that either settlement determines that a hospital has received funds in excess of what it would have received as described in this subsection, the hospital must repay the excess amounts to the state when requested. \$14,014,000 of the general fund-state appropriation for fiscal year 2016 and ~~((9,700,000))~~ \$9,855,000 of the general fund-state appropriation for fiscal year 2017 are provided solely for state grants for the participating hospitals.

~~((+))~~ (p) The health care authority shall seek public-private partnerships and federal funds that are or may become available to provide on-going support for outreach and education efforts under the federal children's health insurance program reauthorization act of 2009.

~~((+))~~ (q) The health care authority shall target funding for maternity support services towards pregnant women with factors that lead to higher rates of poor birth outcomes, including hypertension, a preterm or low birth weight birth in the most recent previous birth, a cognitive deficit or developmental disability, substance abuse, severe mental illness, unhealthy weight or failure to gain weight, tobacco use, or African American or Native American race. The health care authority shall prioritize evidence-based practices for delivery of maternity support services. To the extent practicable, the health care authority shall develop a mechanism to increase

federal funding for maternity support services by leveraging local public funding for those services.

~~((t))~~ (r) Within the amounts appropriated in this section, the authority shall identify strategies to improve patient adherence to treatment plans for diabetes and implement these strategies as a pilot through one health home program to be identified by the authority. The authority shall report to the governor and legislature in December 2015 on patient outcomes and cost savings derived from new adherence strategies in the health home model and make recommendations for improving the strategies.

~~((u))~~ (s) Managed care contracts must incorporate accountability measures that monitor patient health and improved health outcomes, and shall include an expectation that each patient receive a wellness examination that documents the baseline health status and allows for monitoring of health improvements and outcome measures.

~~((v))~~ (t) \$88,000 of the medicaid fraud penalty account-state appropriation and \$567,000 of the general fund-federal appropriation are provided solely to implement the conversion to the tenth version of the world health organization's international classification of diseases.

~~((w))~~ (u) Sufficient amounts are appropriated in this section for the authority to provide an adult dental benefit.

~~((x))~~ (v) The health care authority shall coordinate with the department of social and health services to provide referrals to the Washington health benefit exchange for clients that will be ineligible for medicaid.

~~((y))~~ (w) To facilitate a single point of entry across public and medical assistance programs, and to maximize the use of federal funding, the health care authority, the department of social and health services, and the health benefit exchange will coordinate efforts to expand HealthPlanfinder access to public assistance and medical eligibility staff. No later than October 1, 2015, the health care authority shall complete medicaid applications in the HealthPlanfinder for households receiving or applying for medical assistance benefits.

program for adults with diabetes and pregnant women. A report summarizing the authority's implementation plan and an estimation of cost savings must be submitted to the governor and the appropriate committees of the legislature by December 1, 2015.

~~((hh))~~ (ff) No more than \$452,000 of the general fund-state appropriation for fiscal year 2016 and no more than \$723,000 of the general fund-state appropriation for fiscal year 2017 may be expended for reimbursement for nonhospital based rural health clinics auditing costs to complete annual payment reconciliations for calendar years 2011-2013 as required under 42 U.S.C. Sec. 1396a (bb) (5) (A). The department shall use the agreed-upon procedures to complete the reconciliations. Nonhospital-based clinics shall be reimbursed for the cost of auditing using the agreed-upon procedures for payment reconciliation for this time period only.

~~((jj))~~ (hh) Pursuant to RCW 41.06.142(3), the authority shall implement a pilot program within existing resources to understand the nature and depth of potential fraud, waste, and abuse and the creation of operational efficiencies within the provider and beneficiary system. The pilot program shall examine streamlining provider enrollment and compliance within the current affordable care act screening requirements and include a post-enrollment review of those currently enrolled in medicaid to determine if there have been changes in demographics, including but not limited to becoming deceased, incarcerated, or residing out of state. The pilot program shall be conducted by the authority in partnership with a third-party vendor that uses national public records data as well as provider-specific data. The authority shall prepare a report to the governor and legislative fiscal committees by December 15, 2015.

~~((kk))~~ (ii) Within amounts appropriated in this section, the health care authority shall conduct a review of

its federally qualified health center encounter rates and rural health center encounter rates in comparison to current uniform medical plan rates for the same or similar services. The authority shall consult with the centers for medicare and medicaid services to determine whether federally qualified encounter rates may be adjusted to uniform medical plan rates as a reasonable proxy to cost. The authority must submit a report to the governor and the appropriate committees of the legislature that includes which encounter rates exceed uniform medical rates, the amount by which the rates are exceeded, and the annual cost of paying above uniform medical rates. The report shall also include the steps the authority has taken with the centers for medicare and medicaid services to ensure that rates bear a reasonable relationship to costs incurred by efficiently and economically operated facilities, including whether uniform medical plan or commercial rates may be considered a reasonable proxy to cost. The report must be submitted by January 1, 2016. By September 15, 2016, the authority is directed to directly consult with the centers for medicaid and medicare services to determine whether federally qualified encounter rates may be adjusted to uniform medical plan rates as a reasonable proxy to cost and resubmit the report to include the results of this consultation.

The collaborative may invite the participation of other persons with expertise that may assist the collaborative in its responsibilities. The collaborative shall adopt a transparent process that allows for public comment prior to the final adoption of any evidence-based practice.

(iii) The collaborative shall:

(A) Identify and develop evidence-based practices to improve care to patients with bleeding disorders with specific attention to health care cost reduction. To the extent that evidence-based practices are unavailable, the collaborative shall research and create the practices or compile the necessary information. In the event that research on evidence is incomplete, the collaborative may consider research-based practices or emerging best practices;

(B) Make recommendations regarding the dissemination of the evidence-based practices to relevant health care professionals and support service providers and propose options for incorporating evidence-based practices into their treatment regimens; and

(C) Assist the authority in the development of a cost-benefit analysis regarding the use of evidence-based practices for specific populations in state-purchased health care programs.

(iv) The authority shall report to the governor and the legislature by September 1, 2016, regarding the evidence-based practices that have been developed, the clinical and fiscal implications of their implementation, and a strategy for disseminating the practices and incorporating their use among health care professionals in various state-financed health care programs.

payments to community health centers for services provided to medical assistance clients, and it is the intent of the legislature that this policy will be continued in subsequent fiscal biennia.

~~((pp))~~ (nn) In collaboration with the state hospital association, the authority shall develop and implement a process to review hospital cost report information for new, in-state hospital psychiatric inpatient services that have not had provider specific costs and determine the hospital-specific per diem rate as currently defined for existing providers of psychiatric inpatient services. As a result of this action, the authority shall not incur expenditures in the current biennium. The authority shall report to the office of financial management and appropriate committees of the legislature the following information no later than October 1, 2017:

(Engrossed Substitute Senate Bill No. 6052).

~~((tt))~~ (rr) Within amounts appropriated within this section, the authority is directed to increase reimbursement rates for licensed practical nurses and registered nurses providing skilled nursing services in a home setting by \$10.00 per hour. This increase shall be offset by decreases in inpatient hospitalization. The authority is directed to work in collaboration with the home health association and the Washington state hospital association to develop a plan to show how improved access to home health nursing reduces potentially preventable readmissions, increases access to care, reduces hospital length of stay, and prevents overall hospital admissions for clients receiving private-duty nursing, medically intensive care, or home health benefits. The authority shall also review options to include contracting with one or more medicaid managed care plans or a third-party administrator. The report summarizing the authority's implementation plan and an estimate of the cost to execute this plan must be submitted to the governor and the appropriate committees of the legislature by December 1, 2016. The plan shall not be implemented until specifically authorized by the legislature.

(iii) The authority shall monitor PAL plus service outcomes, including, but not limited to:

The final report must include recommendations on sustainability and leveraging funds through behavioral health and managed care organizations.

(a) During the 2015-2017 fiscal biennium, when contracts are established or renewed for offender pay phone and other telephone services provided to inmates, the department shall select the contractor or contractors primarily based on the following factors: (i) The lowest rate charged to both the inmate and the person paying for the telephone call; and (ii) the lowest commission rates paid to the department, while providing reasonable compensation to cover the costs of the department to provide the telephone services to inmates and provide sufficient revenues for the activities funded from the institutional welfare betterment account.

(b) The department may contract for up to 300 beds statewide to the extent that it is at no net cost to the department. The department shall calculate and report the average cost per offender per day, inclusive of all services, on an annual basis for a facility that is representative of average medium or lower offender costs. The duration of the contracts may be for up to four years. The department shall not pay a rate greater than \$65 per day per offender for all costs associated with the offender while in the local correctional facility to include programming and health care costs, or the equivalent of \$65 per day per bed including programming and health care costs for full units. The capacity provided at local correctional facilities must be for offenders whom the department of corrections defines as medium or lower security offenders. Programming provided for inmates held in local jurisdictions is included in the rate, and details regarding the type and amount of programming, and any conditions regarding transferring offenders must be negotiated with the department as part of any contract. Local jurisdictions must provide health care to offenders that meet standards set by the department. The local jail must provide all medical care including unexpected emergent care. The department must utilize a screening process to ensure that offenders with existing extraordinary medical/mental health needs are not transferred to local jail facilities. (e) The department shall review its policies and procedures for overtime usage throughout its prison custody system to identify efficiencies and best practices that will control costs. The department shall provide to the appropriate committees of the legislature by November 15, 2015, a report that makes recommendations to reduce the department's overtime usage and reduces overall costs for prison personnel.

(f) In an effort to reduce its need for medium security beds, the department shall review options to meet capacity needs in the most cost-efficient manner without compromising safety. The department shall at a minimum review its policies that determine custody levels, including examining other states' policies and determine costs to convert any empty prison beds to medium security and possibilities to utilize local jail beds for this purpose. The appropriations in this section are subject to the following conditions and limitations:

(1)(a) Funding for special education programs is provided on an excess cost basis, pursuant to RCW 28A.150.390. School districts shall ensure that special education students as a class receive

their full share of the general apportionment allocation accruing through sections 502 and 504 of this act. To the extent a school district cannot provide an appropriate education for special education students under chapter 28A.155 RCW through the general apportionment allocation, it shall provide services through the special education excess cost allocation funded in this section.

(b) Funding provided within this section is sufficient for districts to provide school principals and lead special education teachers annual professional development on the best-practices for special education instruction and strategies for implementation. Districts shall annually provide a summary of professional development activities to the office of the superintendent of public instruction.

(2)(a) The superintendent of public instruction shall ensure that:

(i) Special education students are basic education students first;

(ii) As a class, special education students are entitled to the full basic education allocation; and

(iii) Special education students are basic education students for the entire school day.

(b) The superintendent of public instruction shall continue to implement the full cost method of excess cost accounting, as designed by the committee and recommended by the superintendent, pursuant to section 501(1)(k), chapter 372, Laws of 2006.

(6) At the request of any interdistrict cooperative of at least 15 districts in which all excess cost services for special education students of the districts are provided by the cooperative, the maximum enrollment percent shall be calculated in accordance with RCW 28A.150.390(3) (c) and (d), and shall be calculated in the aggregate rather than individual district units. For purposes of this subsection, the average basic education allocation per full-time equivalent student shall be calculated in the aggregate rather than individual district units.

POINT OF ORDER

Representative Tarleton requested a scope and object ruling on amendment (385) to the striking amendment (330) to ENGROSSED SUBSTITUTE SENATE BILL NO. 5048.

SPEAKER'S RULING

Mr. Speaker (Representative Lovick presiding): *The bill before us is the operating budget. It makes appropriations for the 2017-19 biennium.*

The scope and object of a budget bill does not extend to permanent changes in substantive law.

Amendment 385 directs the Department of Health to adopt certain rules, but does not limit the application of those rules to the 2017-19 biennium.

The Speaker therefore finds and rules that the amendment is beyond the scope and object of the bill and that the point of order is well taken.

Representative Smith moved the adoption of amendment (391) to the striking amendment (330):

On page 105, line 18, increase the general fund-state appropriation for fiscal year 2018 by \$43,000

The child safety policy shall be for all organizations that provide recreational programming to individuals under age eighteen, including local government organizations and organizations that contract with local governments to provide such programming. The child safety policy must contain minimum standards that address the following: (i) screening and selection of employees and volunteers; (ii) guidelines for interactions between individuals; (iii) monitoring the behavior of employees, volunteers, and participants; (iv) ensuring safe environments; (v) responding to inappropriate behavior, breaches in policy, and allegations; and (vi) training about child sexual abuse prevention.

(b) The department shall encourage the contracted nongovernmental organization to work with organizations that provide recreational programming for individuals under age eighteen to establish the minimum standards, and these standards shall be used to approve the child safety policies of such organizations. The minimum standards must be developed and made available on the department's public web site by December 1, 2017.

(c) Beginning December 1, 2017, the department shall select a region of two contiguous counties, with a combined population between three hundred thousand and three hundred fifty thousand, for a pilot program, whereby participants are trained regarding the child safety policy developed by the nongovernmental organization. Under the pilot program, the department shall collaborate with the contracted nongovernmental organization and local governments of the two counties to ensure that, by June 30, 2018, all local government organizations within the two-county region that provide recreational programming for individuals under age eighteen have established and implemented a child safety policy that meets the minimum standards.

(d) By December 1, 2018, the department shall report the following to the appropriate committees of the legislature: (i) a description of the pilot program and of the child safety policy requirements; (ii) recommendations regarding implementation of the minimum standards statewide, in all organizations that provide recreational programming to individuals under age eighteen; and (iii) after consultation with the department of early learning, recommendations for any modifications to implement a child safety policy appropriate for child care providers."

"NEW SECTION. Sec. 756. FOR THE DEPARTMENT OF ENTERPRISE SERVICES OFFICE OF RISK MANAGEMENT--VOLK LIABILITY AND INDEMNIFICATION

General Fund--State Appropriation (FY 2018)	\$. \$5,00,000
General Fund--State Appropriation (FY 2019)	\$. \$5,00,000
TOTAL APPROPRIATION	\$. \$10,000,000

(1) The legislature finds that there is an important state interest in promoting provision of behavioral health

care services in a variety of practice settings. The legislature further finds that the 2016 decision of the state supreme court in *Volk v. DeMeerleer* will impair access to these services due to broader tort liability for behavioral health care professionals who provide care in an outpatient setting, the consequent impact on these professionals' ability to secure insurance, and the resulting increased costs that will be borne by consumers and taxpayers. To mitigate these effects on access to behavioral health care, the legislature establishes the behavioral health care professionals indemnity pool. In addition, *Volk* may create new tort liability for the state, and ultimately the taxpayers, through the state's employment of, contracts with, or licensure of, behavioral health care professionals. This requires the legislature to account for these risks in the state's self-insurance liability program.

(2) Of the amounts provided in this section, \$4,500,000 of the general fund--state appropriation for fiscal year 2018 and \$4,500,000 of the general fund--state appropriation for fiscal year 2019 are provided solely for expenditure into the behavioral health care professionals indemnity pool account for purposes of subsection (3) of this section.

(3) (a) The behavioral health care professionals indemnity pool account is created in the custody of the state treasurer. Only the director of the office of risk management of the department of enterprise services or the director's designee may authorize expenditures from the account. An appropriation is not required for expenditures.

(b) If a final judgment is entered against a behavioral health care professional, and if the director determines that all or a portion of the judgment is based on the standards established in *Volk* for a special relationship and failure to warn foreseeable victims in an outpatient setting, then the director may authorize expenditures from the behavioral health care professionals indemnity account to wholly or partially indemnify the professional. If the director determines that the judgment is partially based on *Volk* and partially on other legal bases, then the director may provide partial indemnification in proportion to the portion of the judgment that the director

determines is attributable to Volk liability. However, the director may not provide indemnification if the director determines that the judgment is based on the behavioral health professional's failure to warn when there was an actual threat of physical violence that posed a serious or imminent threat to the health or safety of a reasonably identifiable person or persons.

(4) Of the amounts provided in this section, \$500,000 of the general fund--state appropriation for fiscal year 2018 and \$500,000 of the general fund--state appropriation are provided solely for expenditure into the state self-insurance liability account. This funding is provided to account for future state liability under the Volk standard for behavioral health care professionals employed, contracted, or licensed by the state.

(5) For purposes of this section, "behavioral health care professional" means:

(a) An adviser or counselor certified under chapter 18.19 RCW;

(b) A chemical dependency professional licensed under chapter 18.205 RCW;

(c) A marriage and family therapist licensed under chapter 18.225 RCW;

(d) A mental health counselor licensed under chapter 18.225 RCW;

(e) A physician licensed under chapter 18.71 RCW who is board-certified in psychiatry;

(f) An osteopathic physician licensed under chapter 18.57 RCW who is board-certified in psychiatry;

(g) An advanced registered nurse practitioner licensed under chapter 18.79 RCW who is board certified in advanced practice psychiatric and mental health nursing;

(h) An physician assistant licensed under chapter 18.71A RCW working with a supervising psychiatrist;

(i) An osteopathic physician assistant licensed under chapter 18.57A RCW working with a supervising psychiatrist;

(j) A psychologist licensed under chapter 18.83 RCW;

Representative Pike moved the adoption of amendment (372) to the striking amendment (330):

On page 116, after line 3, insert the following:

"The appropriations in this subsection are subject to the following conditions and limitations: In addition to the requirements of RCW 72.09.100, the department of corrections shall elect workers' compensation and pay any workers' compensation premiums or costs due for

offenders under the custody of the department working or performing services for a local government or nonprofit organization under a class IV or class V correctional industries work program adopted by the department. \$193,000 of the general fund-state appropriation for fiscal year 2018 and \$210,000 of the general fund-state appropriation for fiscal year 2019 are provided solely for these purposes.

(a) In addition to the requirements of RCW 51.12.045, when an offender under the department's jurisdiction provides services to a public benefit nonprofit or local government entity, the department's payment of offender labor and industries workers' compensation premiums does not in any way establish the department as the employer for department of labor and industries purposes and statutes. Therefore, the department will not be required to behave as the employer, which includes, but is not limited to, supervising the work performed by offenders, training offenders for a specific work project, or ensuring work site compliance with department of labor and industries workplace safety standards.

(b) The legislature intends to make these changes to correctional industries practice permanent in future biennia in order to allow the department of corrections to maintain cost-effective business practices, provide cost-saving work services to local communities, and continue to effectively reduce recidivism by allowing maximum statewide participation in correctional industries work programs."

On page 284, after line 21, insert the following:

"**Sec. 961.** RCW 51.12.045 and 2002 c 175 s 40 are each amended to read as follows:

In the case of an offender who is under the custody of the state, any premiums or assessments due under this title for community work shall be the obligation of and be paid for by the state agency that has custody of the offender. Coverage commences when ((a))the state agency, county, city, town, or nonprofit organization has given notice to the director that it ((wishes to cover)) is covering offenders performing community restitution before the occurrence of an injury or contraction of an occupational disease."

On page 298, after line 28, insert the following:

"**Sec. 965.** RCW 72.09.100 and 2012 c 220 s 2 are each amended to read as follows:

It is the intent of the legislature to vest in the department the power to provide for a comprehensive inmate work program and to remove statutory and other restrictions which have limited work programs in the past. It is also the intent of the legislature to ensure that the department, in developing and selecting correctional industries work programs, does not encourage the development of, or provide for selection of or contracting for, or the significant expansion of, any new or existing class I correctional industries work programs that unfairly compete with Washington businesses. The legislature intends that the requirements relating to fair competition in the correctional industries work programs be liberally construed by the department to protect Washington businesses from unfair competition. For purposes of establishing such a comprehensive program, the legislature recommends that the department consider adopting any or all, or any variation of, the following classes of work programs:

(1) CLASS I: FREE VENTURE INDUSTRIES.

(a) The employer model industries in this class shall be operated and managed in total or in part by any profit or nonprofit organization pursuant to an agreement between the organization and the department. The organization shall produce goods or services for sale to both the public and private sector.

(b) The customer model industries in this class shall be operated and managed by the department to provide Washington state manufacturers or businesses with products or services currently produced or provided by out-of-state or foreign suppliers.

(c) The department shall review these proposed industries, including any potential new class I industries work program or the significant expansion of an existing class I industries work program, before the department contracts to provide such products or services. The review shall include the analysis required under RCW 72.09.115 to determine if the proposed correctional industries work program will compete with any Washington business. An agreement for a new class I correctional industries work program, or an agreement for a significant expansion of an existing class I correctional industries work program, that unfairly competes with any Washington business is prohibited.

(d) The department shall supply appropriate security and custody services without charge to the participating firms.

(e) Inmates who work in free venture industries shall do so at their own choice. They shall be paid a wage comparable to the wage paid for work of a similar nature in the locality in which the industry is located, as determined by the director of correctional industries. If the director cannot reasonably determine the comparable wage, then the pay shall not be less than the federal minimum wage.

(f) An inmate who is employed in the class I program of correctional industries shall not be eligible for unemployment compensation benefits pursuant to any of the provisions of Title 50 RCW until released on parole or discharged.

(2) CLASS II: TAX REDUCTION INDUSTRIES.

(a) Industries in this class shall be state-owned and operated enterprises designed primarily to reduce the costs for goods and services for tax-supported agencies and for nonprofit organizations.

(b)(i) The industries selected for development within this class shall, as much as possible, match the available pool of inmate work skills and aptitudes with the work opportunities in the free community. The industries shall be closely patterned after private sector industries but with the objective of reducing public support costs rather than making a profit.

(ii) Except as provided in *RCW 43.19.534(3) and this section, the products and services of this industry, including purchased products and services necessary for a complete product line, may be sold to the following:

(A) Public agencies;

(B) Nonprofit organizations;

(C) Private contractors when the goods purchased will be ultimately used by a public agency or a nonprofit organization;

(D) An employee and immediate family members of an employee of the department;

(E) A person under the supervision of the department and his or her immediate family members; and

(F) A licensed health professional for the sole purpose of providing eyeglasses to enrollees of the state medical program at no more than the health professional's cost of acquisition.

(iii) The department shall authorize the type and quantity of items that may be purchased and sold under (b)(ii)(D) and (E) of this subsection.

(iv) It is prohibited to purchase any item purchased under (b)(ii)(D) and (E) of this subsection for the purpose of resale.

(v) Clothing manufactured by an industry in this class may be donated to nonprofit organizations that provide clothing free of charge to low-income persons.

(c) Under no circumstance shall offenders under the custody of the department of corrections make or assemble uniforms to be worn by correctional officers employed with the department.

(d)(i) Class II correctional industries products and services shall be reviewed by the department before offering such products and services for sale to private contractors.

(ii) The secretary shall conduct a yearly marketing review of the products and services offered under this subsection. Such review shall include an analysis of the potential impact of the proposed products and services on the Washington state business community. To avoid waste or spoilage and consequent loss to the state, when there is no public sector market for such goods, by-products and surpluses of timber, agricultural, and animal husbandry enterprises may be sold to private persons, at private sale.

Surplus by-products and surpluses of timber, agricultural and animal husbandry enterprises that cannot be sold to public agencies or to private persons may be donated to nonprofit organizations. All sales of surplus products shall be carried out in accordance with rules prescribed by the secretary.

(e) Security and custody services shall be provided without charge by the department.

(f) Inmates working in this class of industries shall do so at their own choice and shall be paid for their work on a gratuity scale which shall not exceed the wage paid for work of a similar nature in the locality in which the industry is located and which is approved by the director of correctional industries.

(g) Provisions of RCW 41.06.142 shall not apply to contracts with Washington state businesses entered into by the department through class II industries.

(3) CLASS III: INSTITUTIONAL SUPPORT INDUSTRIES.

(a) Industries in this class shall be operated by the department. They shall be designed and managed to accomplish the following objectives:

(i) Whenever possible, to provide basic work training and experience so that the inmate will be able to qualify for better work both within correctional industries and the free community. It is not intended that an inmate's work within this class of industries should be his or her final and total work experience as an inmate.

(ii) Whenever possible, to provide forty hours of work or work training per week.

(iii) Whenever possible, to offset tax and other public support costs.

(b) Class III correctional industries shall be reviewed by the department to set policy for work crews. The department shall prepare quarterly detail statements showing where work crews worked, what correctional industry class, and the hours worked.

(c) Supervising, management, and custody staff shall be employees of the department.

(d) All able and eligible inmates who are assigned work and who are not working in other classes of industries shall work in this class.

(e) Except for inmates who work in work training programs, inmates in this class shall be paid for their work in accordance with an inmate gratuity scale. The scale shall be adopted by the secretary of corrections.

(4) CLASS IV: COMMUNITY WORK INDUSTRIES.

(a) Industries in this class shall be operated by the department. They shall be designed and managed to provide services in the inmate's resident community at a reduced cost. The services shall be provided to public agencies, to persons who are poor or infirm, or to nonprofit organizations.

(b) Class IV correctional industries shall be reviewed by the department to set policy for work crews. The department shall prepare quarterly detail statements showing where work crews worked, what correctional industry class, and the hours worked. Class IV correctional industries operated in work camps established pursuant to RCW 72.64.050 are exempt from the requirements of this subsection (4) (b).

(c) Inmates in this program shall reside in facilities owned by, contracted for, or licensed by the department. A unit of local government shall provide work supervision services without charge to the state and shall pay the inmate's wage.

(d) ((The department shall reimburse participating units of local government for liability and workers compensation insurance costs.

~~(e))~~ Inmates who work in this class of industries shall do so at their own choice and shall receive a gratuity which shall not exceed the wage paid for work of a similar nature in the locality in which the industry is located.

(5) CLASS V: COMMUNITY RESTITUTION PROGRAMS.

(a) Programs in this class shall be subject to supervision by the department. The purpose of this class of industries is to enable an inmate, placed on community supervision, to work off all or part of a community restitution order as ordered by the sentencing court.

(b) Employment shall be in a community restitution program operated by the state, local units of government, or a nonprofit agency.

((c) To the extent that funds are specifically made available for such purposes, the department shall reimburse nonprofit agencies for workers compensation insurance costs.))"

Appropriations made in this act to the department of social and health services shall initially be allotted as required by this act. Subsequent allotment modifications shall not include transfers of moneys between sections of this act except as expressly provided in this act, nor shall allotment modifications permit moneys that are provided solely for a specified purpose to be used for other than that purpose.

(2) The department of social and health services shall not initiate any services that require expenditure of state general fund moneys unless expressly authorized in this act or other law. The department may seek, receive, and spend, under RCW 43.79.260 through 43.79.282, federal moneys not anticipated in this act as long as the federal funding does not require expenditure of state moneys for the program in excess of amounts anticipated in this act. If the department receives unanticipated unrestricted federal moneys, those moneys shall be spent for services authorized in this act or in any other legislation providing appropriation authority, and an equal amount of appropriated state general fund moneys shall lapse. Upon the lapsing of any moneys under this subsection, the office of financial management shall notify the legislative fiscal committees. As used in

The legislature finds that cost reports, payment data from the federal government, historical utilization, economic data, and clinical input constitute reliable data upon which to determine the payment rates.

(4) The department shall to the maximum extent practicable use the same system for delivery of spoken-language interpreter services for social services appointments as the one established for medical appointments in the health care authority. When contracting directly with an individual to deliver spoken language interpreter services, the department shall only contract with language access providers who are working at a location in the state and who are state-certified or state-authorized, except that when such a provider is not available, the department may use a language access provider who meets other certifications or standards deemed to meet state standards, including interpreters in other states.

(5) Information technology projects or investments and proposed projects or investments impacting time capture, payroll and payment processes and systems, eligibility, case management, and authorization systems within the department of social and health services are subject to technical oversight by the office of the chief information officer.

Additional funding for this purpose is provided through an interagency agreement with the health care authority. County juvenile courts shall

apply to the juvenile rehabilitation administration for funding for program-specific participation and the administration shall provide grants to the courts consistent with the per-participant treatment costs identified by the institute.

(3) \$1,537,000 of the general fund-state appropriation for fiscal year 2018 and \$1,537,000 of the general fund-state appropriation for fiscal year 2019 are provided solely for expansion of the following juvenile justice treatments and therapies in juvenile rehabilitation administration programs identified by the Washington state institute for public policy in its report: "Inventory of Evidence-based, Research-based, and Promising Practices for Prevention and Intervention Services for Children and Juveniles in the Child Welfare, Juvenile Justice, and Mental Health Systems." The administration may concentrate delivery of these treatments and therapies at a limited number of programs to deliver the treatments in a cost-effective manner.

(4)(a) \$6,198,000 of the general fund-state appropriation for fiscal year 2018 and \$6,198,000 of the general fund-state appropriation for fiscal year 2019 are provided solely to implement evidence- and research-based programs through community juvenile accountability grants, administration of the grants, and evaluations of programs funded by the grants. (b) The juvenile rehabilitation administration shall administer a block grant to county juvenile courts for the purpose of serving youth as defined in RCW 13.40.510(4)(a) in the county juvenile justice system. Funds dedicated to the block grant include: Consolidated juvenile service (CJS) funds, community juvenile accountability act (CJAA) grants, chemical dependency/mental health disposition alternative (CDDA), and suspended disposition alternative (SDA). The juvenile rehabilitation administration shall follow the following formula and must prioritize evidence-based programs and disposition alternatives and take into account juvenile courts program-eligible youth in conjunction with the number of youth served in each approved evidence-based program or disposition alternative:

The committee in (d) of this subsection must establish a minimum base level of funding for juvenile courts with lower numbers of at-risk youth age 10 - 17. The administration must report to the legislature by December 1, 2018, about how funding is used for referred youth and the impact of that use on overall use of funding. (d) The juvenile rehabilitation administration and the juvenile courts shall establish a block grant funding formula oversight committee with equal representation from the juvenile rehabilitation administration and the juvenile courts. The purpose of this committee is to assess the ongoing implementation of the block grant funding formula, utilizing data-driven decision making and the most current available information. The committee will be co-chaired by the juvenile rehabilitation administration and the juvenile courts,

who will also have the ability to change members of the committee as needed to achieve its purpose. The committee may make changes to the formula categories in (b) of this subsection if it determines the changes will increase statewide service delivery or effectiveness of evidence-based program or disposition alternative resulting in increased cost/benefit savings to the state, including long-term cost/benefit savings. The committee must also consider these outcomes in determining when evidence-based expansion or special sex offender disposition alternative funds should be included in the block grant or left separate.

(e) The juvenile courts and administrative office of the courts must collect and distribute information and provide access to the data systems to the juvenile rehabilitation administration and the Washington state institute for public policy related to program and outcome data. The appropriations in this section are subject to the following conditions and limitations:

(a) PHYSICAL HEALTH CARE

(i) Sufficient amounts are appropriated in this subsection to implement the medicaid expansion as defined in the social security act, section 1902(a)(10)(A)(i)(VIII).

(ii) Medicaid payment rates, as calculated by the health care authority pursuant to the appropriations in this act, bear a reasonable relationship to the costs incurred by efficiently and economically operated facilities for providing quality services and will be sufficient to enlist enough providers so that care and services are available to the extent that such care and services are available to the general population in the geographic area. The legislature finds that the cost reports, payment data from the federal government, historical utilization, economic data, and clinical input constitute reliable data upon which to determine the payment rates.

(iii) Based on quarterly expenditure reports and caseload forecasts, if the health care authority estimates that expenditures for the medical assistance program will exceed the appropriations, the health care authority shall take steps including but not limited to reduction of rates or elimination of optional services to reduce expenditures so that total program costs do not exceed the annual appropriation authority.

(iv) In determining financial eligibility for medicaid-funded services, the health care authority is authorized to

disregard recoveries by Holocaust survivors of insurance proceeds or other assets, as defined in RCW 48.104.030.

(v) It is in the state's interest for Harborview medical center to remain an economically viable component of the state's health care system.

(vi) When a person is ineligible for medicaid solely by reason of residence in an institution for mental diseases, the health care authority shall provide the person with the same benefits as he or she would receive if eligible for medicaid, using state-only funds to the extent necessary.

(vii) \$4,261,000 of the general fund-state appropriation for fiscal year 2018, \$4,261,000 of the general fund-state appropriation for fiscal year 2019, and \$8,522,000 of the general fund-federal appropriation are provided solely for low-income disproportionate share hospital payments.

(viii) Within the amounts appropriated in this section, the health care authority shall provide disproportionate share hospital payments to hospitals that provide services to children in the children's health program who are not eligible for services under Title XIX or XXI of the federal social security act due to their citizenship status.

(ix) \$6,000,000 of the general fund-federal appropriation is provided solely for supplemental payments to nursing homes operated by public hospital districts. The public hospital district shall be responsible for providing the required nonfederal match for the supplemental payment, and the payments shall not exceed the maximum allowable under federal rules. It is the legislature's intent that the payments shall be supplemental to and shall not in any way offset or reduce the payments calculated and provided in accordance with part E of chapter 74.46 RCW. It is the legislature's further intent that costs otherwise allowable for rate-setting and settlement against payments under chapter 74.46 RCW shall not be disallowed solely because such costs have been paid by revenues retained by the nursing home from these supplemental payments. The supplemental payments are subject to retrospective interim and final cost settlements based on the nursing homes' as-filed and final medicare cost reports. The timing of the interim and final cost settlements shall be at the health care authority's discretion. During

either the interim cost settlement or the final cost settlement, the health care authority shall recoup from the public hospital districts the supplemental payments that exceed the medicaid cost limit and/or the medicare upper payment limit. The health care authority shall apply federal rules for identifying the eligible incurred medicaid costs and the medicare upper payment limit.

(x) The health care authority shall continue the inpatient hospital certified public expenditures program for the 2017-2019 fiscal biennium. The program shall apply to all public hospitals, including those owned or operated by the state, except those classified as critical access hospitals or state psychiatric institutions. The health care authority shall submit reports to the governor and legislature by November 1, 2017, and by November 1, 2018, that evaluate whether savings continue to exceed costs for this program. If the certified public expenditures (CPE) program in its current form is no longer cost-effective to maintain, the health care authority shall submit a report to the governor and legislature detailing cost-effective alternative uses of local, state, and federal resources as a replacement for this program. During fiscal year 2018 and fiscal year 2019, hospitals in the program shall be paid and shall retain one hundred percent of the federal portion of the allowable hospital cost for each medicaid inpatient fee-for-service claim payable by medical assistance and one hundred percent of the federal portion of the maximum disproportionate share hospital payment allowable under federal regulations. Inpatient medicaid payments shall be established using an allowable methodology that approximates the cost of claims submitted by the hospitals. Payments made to each hospital in the program in each fiscal year of the biennium shall be compared to a baseline amount. The baseline amount will be determined by the total of: (A) The inpatient claim payment amounts that would have been paid during the fiscal year had the hospital not been in the CPE program based on the reimbursement rates developed, implemented, and consistent with policies approved in the 2017-2019 biennial operating appropriations act and in effect on July 1, 2017; (B) one-half of the indigent assistance disproportionate share hospital payment amounts paid to and retained by each hospital during fiscal year 2005; and (C) all of the other

disproportionate share hospital payment amounts paid to and retained by each hospital during fiscal year 2005 to the extent the same disproportionate share hospital programs exist in the 2017-2019 fiscal biennium. If payments during the fiscal year exceed the hospital's baseline amount, no additional payments will be made to the hospital except the federal portion of allowable disproportionate share hospital payments for which the hospital can certify allowable match. If payments during the fiscal year are less than the baseline amount, the hospital will be paid a state grant equal to the difference between payments during the fiscal year and the applicable baseline amount. Payment of the state grant shall be made in the applicable fiscal year and distributed in monthly payments. The grants will be recalculated and redistributed as the baseline is updated during the fiscal year. The grant payments are subject to an interim settlement within eleven months after the end of the fiscal year. A final settlement shall be performed. To the extent that either settlement determines that a hospital has received funds in excess of what it would have received as described in this subsection, the hospital must repay the excess amounts to the state when requested. \$10,575,000 of the general fund-state appropriation for fiscal year 2018 and \$13,185,000 of the general fund-state appropriation for fiscal year 2019 are provided solely for state grants for the participating hospitals.

(xi) The health care authority shall seek public-private partnerships and federal funds that are or may become available to provide on-going support for outreach and education efforts under the federal children's health insurance program reauthorization act of 2009.

(xii) The health care authority shall target funding for maternity support services towards pregnant women with factors that lead to higher rates of poor birth outcomes, including hypertension, a preterm or low birth weight birth in the most recent previous birth, a cognitive deficit or developmental disability, substance abuse, severe mental illness, unhealthy weight or failure to gain weight, tobacco use, or African American or Native American race. The health care authority shall prioritize evidence-based practices for delivery of maternity support services. To the extent practicable, the health care authority shall develop a mechanism to increase

federal funding for maternity support services by leveraging local public funding for those services.

(xiii) Managed care contracts must incorporate accountability measures that monitor patient health and improved health outcomes, and shall include an expectation that each patient receive a wellness examination that documents the baseline health status and allows for monitoring of health improvements and outcome measures.

(xiv) Sufficient amounts are appropriated in this section for the authority to provide an adult dental benefit.

(xv) The health care authority shall coordinate with the department of social and health services to provide referrals to the Washington health benefit exchange for clients that will be ineligible for medicaid.

(xvi) To facilitate a single point of entry across public and medical assistance programs, and to maximize the use of federal funding, the health care authority, the department of social and health services, and the health benefit exchange will coordinate efforts to expand HealthPlanfinder access to public assistance and medical eligibility staff. The health care authority shall complete medicaid applications in the HealthPlanfinder for households receiving or applying for medical assistance benefits.

(xvii) \$90,000 of the general fund-state appropriation for fiscal year 2018, \$90,000 of the general fund-state appropriation for fiscal year 2019, and \$180,000 of the general fund-federal appropriation are provided solely to continue operation by a nonprofit organization of a toll-free hotline that assists families to learn about and enroll in the apple health for kids program.

(xix) Within the amounts appropriated in this section, the authority shall reimburse for primary care services provided by naturopathic physicians.

(xx) Within the amounts appropriated in this section, the authority shall continue to provide coverage for pregnant teens

that qualify under existing pregnancy medical programs, but whose eligibility for pregnancy related services would otherwise end due to the application of the new modified adjusted gross income eligibility standard.

(xxi) Sufficient amounts are appropriated in this section to remove the mental health visit limit and to provide the shingles vaccine and screening, brief intervention, and referral to treatment benefits that are available in the medicaid alternative benefit plan in the classic medicaid benefit plan.

(xxii) The authority shall use revenue appropriated from the dedicated marijuana fund for contracts with community health centers under RCW 69.50.540 in lieu of general fund-state payments to community health centers for services provided to medical assistance clients, and it is the intent of the legislature that this policy will be continued in subsequent fiscal biennia.

(xxiii) The authority shall submit reports to the governor and the legislature by September 15, 2018, and by September 15, 2019, that delineate the number of individuals in medicaid managed care, by carrier, age, gender, and eligibility category, receiving preventative services and vaccinations. The reports should include baseline and benchmark information from the previous two fiscal years and should be inclusive of, but not limited to, services recommended under the United States preventative services task force, advisory committee on immunization practices, early and periodic screening, diagnostic, and treatment (EPSDT) guidelines, and other relevant preventative and vaccination medicaid guidelines and requirements.

(xxiv) Within the amounts appropriated within this section, beginning July 1, 2017, the authority must increase facility fees for birth centers to the amount listed on page 2 of their report to the legislature dated October 15, 2016, entitled "reimbursement for births performed at birth centers." This increased rate is applicable in both fee-for-service settings and is the minimum allowable rate in a managed care setting. The authority shall report to the governor and appropriate committees of the legislature by October 15, 2018, on updated information regarding access to care, improvements to the Cesarean section rate, and savings outcomes for utilizing

birth centers as an alternative to hospitals.

(xxv) Within the amounts appropriated within this section, the authority shall implement the plan to show how improved access to home health nursing reduces potentially preventable readmissions, increases access to care, reduces hospital length of stay, and prevents overall hospital admissions for clients receiving private duty nursing, medically intensive care, or home health benefits as described in their report to the legislature dated December 15, 2016, entitled "home health nursing." The authority shall report to the governor and appropriate committees of the legislature by December 31, 2017, information regarding the effect of the ten-dollar rate increases for skilled nursing care delivered via private duty nursing or home health nursing, and how the rate changes impacted the utilization and cost of emergency room visits, reduced the length of stay for initial hospital admissions, and reduced utilization and costs of preventable hospital readmissions. The report will quantify potential cost saving opportunities that may exist through improved access to private duty and home health nursing statewide.

(xxvi) \$165,000 of the general fund-state appropriation for fiscal year 2018, \$329,000 of the general fund-state appropriation for fiscal year 2019, and \$604,000 of the general fund-federal appropriation are provided solely for implementation of Engrossed Second Substitute House Bill No. 1713 (children's mental health). (xxviii) \$696,000 of the general fund-state appropriation for fiscal year 2018 and \$1,006,000 of the general fund-state appropriation for fiscal year 2019 are provided solely for implementation of Substitute House Bill No. 1291 (Pacific Islander health care). If the bill is not

enacted by June 30, 2017, the amounts provided in this subsection shall lapse.

(xxix) \$347,000 of the general fund-state appropriation for fiscal year 2018, \$839,000 of the general fund-state appropriation for fiscal year 2019, and \$943,000 of the general fund-federal appropriation are provided solely for implementation of Substitute House Bill No. 1520 (hospital payment methodology). If the bill is not enacted by June 30, 2017, the amounts provided in this subsection shall lapse.

(xxx) Sufficient amounts are appropriated in this section for the implementation of Substitute House Bill No. 1358 (community assistance referral programs).

(xxxi) Within the amounts appropriated in this section, the authority shall reimburse for manipulative therapy services provided by chiropractors to eligible medicaid clients. Nothing in this subsection shall constitute the expansion of the current manipulative therapy benefit or its application to nonmedicaid eligible individuals.

(xxxii) \$450,000 of the general fund-state appropriation for fiscal year 2018, \$450,000 of the general fund-state appropriation for fiscal year 2019, and \$1,058,000 of the general fund-federal appropriation are provided solely for the authority to hire ten nurse case managers to coordinate medically assisted treatment and movements to medical homes for those being treated for opioid use disorder. Nurses shall be located in areas and provider settings with the highest concentration of opioid use disorder patients.

(xxxiv) \$500,000 of the general fund-state appropriation for fiscal year 2018 and \$500,000 of the general fund-state appropriation for fiscal year 2019 are provided solely to increase payments for health home services.

(xxxv) The authority and the department of social and health services shall convene a work group consisting of representatives of skilled nursing facilities, adult family homes, assisted living facilities, managers of in-home long-term care, hospitals, and managed health care systems. The work group shall

identify barriers that may prevent skilled nursing facilities from accepting and admitting clients from acute care hospitals in a timely and appropriate manner. The work group shall consider what additional resources are needed to allow for faster transfers of enrollees, including those with complex needs. By December 1, 2017, the authority shall report the work group's findings to the governor and the appropriate committees of the legislature.

(xxxvi) Sufficient amounts are appropriated in this section to increase the daily rate by \$155.20 for skilled nursing performed by licensed practical nurses and registered nurses who serve medically intensive children's program clients who reside in a group home setting.

By July 1, 2018, the authority shall issue a request for proposals (RFP) if recommended at the conclusion of the RFI process. The RFP shall be consistent with recommendations informed by the RFI.

(xxxviii) \$500,000 of the general fund—state appropriation for fiscal year 2019 and \$500,000 of the general fund—federal appropriation are provided solely for the authority to implement the oral health connections pilot project in collaboration with Washington dental service foundation. The purpose of the three-year pilot is to test the effect that enhanced dental benefits for adult medicaid clients with diabetes and pregnant women have on access to dental care, health outcomes, and medical care costs. The authority must model the pilot on the access to baby and child dentistry program. The pilot program must include enhanced reimbursement rates for participating dental providers, including denturists licensed under chapter 18.30 RCW, and an increase in the allowable number of periodontal treatments to up to four per calendar year. Diabetic or pregnant adult medicaid clients who are receiving dental care within the pilot region(s), regardless of location of the service within the pilot region(s), are eligible for the increased number of periodontal treatments. The Washington dental service foundation shall partner with the authority and provide wraparound services to link patients to care. The authority and Washington dental service foundation shall jointly develop the program. The authority and foundation shall provide a joint progress report to the appropriate committees of the legislature on December 1, 2017, and December 1, 2018.

(xxxix) Beginning no later than January 1, 2018, for any service eligible under the medicaid state plan for encounter payments, managed care organizations at the request of a rural health clinic shall pay the full published encounter rate directly to the clinic. Managed care organizations do not have any risk for or right to the supplemental portion of the claim. Payments must be reconciled on at

least an annual basis between the managed care organization and the authority, with final review and approval by the authority. By September 31, 2017, the authority shall report to the legislature on its progress implementing this subsection.

(xxxx) Within the amounts appropriated in this section, and in consultation with appropriate parties, including the rural health clinic association of Washington and the centers for medicare and medicaid services, by December 1, 2017, the authority shall submit a report to the governor and appropriate committees of the legislature evaluating legislative and administrative options to reduce or eliminate any amounts owed by a rural health clinic under the payment reconciliation process established in the medicaid state plan.

Sufficient amounts are provided in this subsection to increase managed care rates in calendar year 2018 and calendar year 2019 by 2 percent on a one-time basis.

(xxxixii) \$259,313,000 of the general fund—state appropriation for fiscal year 2018 and \$271,550,000 of the general fund—state appropriation for fiscal year 2019 are provided solely for the authority to implement a single, standard state preferred drug list to be used by all contracted medicaid managed health care systems, on or before January 1, 2018. The preferred drug list shall be developed in consultation with all contracted managed health care systems and the state pharmacy and therapeutics committee. The list shall be designed to maximize federal rebates and supplemental rebates and ensure access to clinically effective and appropriate drug therapies under each class. The authority may utilize external consultants with expertise in evidence based drug class reviews, pharmacy benefit management, and purchasing to assist with the completion of this development and implementation. To assist in the implementation of the single preferred drug list, contracted medicaid managed health care systems shall provide the authority drug specific financial information in a format and frequency

determined by the authority to include: The actual amounts paid to pharmacies for prescription drugs dispensed to covered individuals compared to the cost invoiced to the health plan and individual rebates collected for prescription drugs dispensed to medicaid members. The administration of the prescription drug benefit for medicaid managed health care systems shall be carried out by a single pharmacy benefits manager under the prescription drug purchasing consortium with full transparency of all rebates, supplemental rebates, and associated administrative costs. The authority shall provide a report to the governor and appropriate committees of the legislature by November 15, 2018, and no later than November 15, 2019, including a comparison of the amount spent in the previous two fiscal years to expenditures under the new system by, at a minimum, fund source, total expenditure, drug class, and top twenty-five drugs.

(b) BEHAVIORAL HEALTH

(i) For the purposes of this subsection, amounts provided for behavioral health organizations shall also be available for the authority to contract with entities that assume the responsibilities of behavioral health organizations in regions in which the authority is purchasing medical and behavioral health services through fully integrated contracts pursuant to RCW 71.24.380.

(ii) The authority shall evaluate adding a tele-psychiatry consultation benefit for medicaid covered individuals. The authority shall submit a report with the cost associated with adding such a benefit to the governor and appropriate committees of the legislature by October 1, 2017.

(iii) \$6,590,000 of the general fund-state appropriation for fiscal year 2018, \$6,590,000 of the general fund-state appropriation for fiscal year 2019, and \$7,620,000 of the general fund-federal

appropriation are provided solely for the authority and behavioral health organizations to continue to contract for implementation of high-intensity programs for assertive community treatment (PACT) teams. In determining the proportion of medicaid and nonmedicaid funding provided to behavioral health organizations with PACT teams, the authority shall consider the differences between behavioral health organizations in the percentages of services and other costs associated with the teams that are not reimbursable under medicaid. The authority may allow behavioral health organizations which have nonmedicaid reimbursable costs that are higher than the nonmedicaid allocation they receive under this section to supplement these funds with local dollars or funds received under section 212(1)(b)(xvi) of this act. The authority and behavioral health organizations shall maintain consistency with all essential elements of the PACT evidence-based practice model in programs funded under this section.

(iv) From the general fund-state appropriations in this subsection, the authority shall assure that behavioral health organizations reimburse the department of social and health services aging and long term support administration for the general fund-state cost of medicaid personal care services that enrolled behavioral health organization consumers use because of their psychiatric disability.

(v) \$3,520,000 of the general fund-federal appropriation is provided solely for the authority to maintain a pilot project to put peer bridging staff into each behavioral health organization as part of the state psychiatric liaison teams to promote continuity of service as individuals return to their communities. The authority must collect data and submit a report to the office of financial management and the appropriate committees of the legislature on the impact of peer staff on state hospital discharges and community placements by December 1, 2017.

These amounts must be used for new crisis triage centers, mobile crisis teams, and housing and recovery support

programs. The authority must seek proposals from behavioral health organizations for the use of these funds based on regional priorities. The authority must not use any of these amounts for services in facilities that are subject to federal funding restrictions that apply to institutions for mental diseases.

(vii) \$29,134,000 of the general fund-state appropriation for fiscal year 2018 and \$29,134,000 of the general fund-state appropriation for fiscal year 2019 are provided solely to assist behavioral health organizations with the costs of providing services to medicaid clients receiving services in psychiatric facilities classified as institutions of mental diseases. In fiscal year 2018, the authority must distribute these amounts proportionate to the number of bed days for medicaid clients in institutions for mental diseases that were excluded from behavioral health organization fiscal year 2018 capitation rates because they exceeded the amounts allowed under federal regulations. In fiscal year 2019, the authority must distribute these funds based on a formula in which seventy-five percent are distributed proportionate to the number of bed days for medicaid clients in institutions for mental diseases that were excluded from behavioral health organization fiscal year 2019 capitation rates because they exceeded the amounts allowed under federal regulations and twenty-five percent are distributed proportionate to the estimated medicaid caseload of the behavioral health organizations. The authority must also use these amounts to directly pay for costs in institutions of mental disease facilities for American Indian and Alaska Natives who opt to receive behavioral health services on a fee for service basis. The amounts used for these individuals must be reduced from the allocation of the behavioral health organization where the individual resides. If a behavioral health organization receives more funding through this subsection than is needed to pay for the cost of their medicaid clients in institutions for mental diseases, they must use the remainder of the amounts to provide other services not covered under the medicaid program.

(viii) \$830,000 of the general fund-state appropriation for fiscal year 2018 and \$830,000 of the general fund-state appropriation for fiscal year 2019 are provided solely for behavioral health organizations to contract with local

entities to develop a street outreach program. This program will utilize peer supports to engage adults with mental health illness who may have not yet been engaged in mental health treatment with the goal of reducing jail admissions and involuntary commitments.

(ix) \$3,278,000 of the dedicated marijuana account-state appropriation for fiscal year 2018 and \$3,278,000 of the dedicated marijuana account-state appropriation for fiscal year 2019 are provided solely for a memorandum of understanding with the department of social and health services juvenile rehabilitation administration to provide substance abuse treatment programs for juvenile offenders. Of the amounts provided in this subsection:

(A) \$1,130,000 of the dedicated marijuana account-state appropriation for fiscal year 2018 and \$1,130,000 of the dedicated marijuana account-state appropriation for fiscal year 2019 are provided solely for alcohol and substance abuse treatment programs for locally committed offenders. The juvenile rehabilitation administration shall award these funds as described in section 203(4) of this act.

(B) \$282,000 of the dedicated marijuana account-state appropriation for fiscal year 2017 and \$282,000 of the dedicated marijuana account-state appropriation for fiscal year 2019 are provided solely for the expansion of evidence-based treatments and therapies as described in section 203(2) of this act.

(x) During the 2017-19 fiscal biennium, any amounts provided in this section that are used for case management services for pregnant and parenting women must be contracted directly between the authority and providers rather than through contracts with behavioral health organizations.

(xi) \$81,930,000 of the general fund-state appropriation for fiscal year 2018 and \$81,930,000 of the general fund-state appropriation for fiscal year 2019 are provided solely for persons and services not covered by the medicaid program. To the extent possible, levels of behavioral health organization spending shall be maintained in the following priority order: Crisis and commitment services; community inpatient services; and residential care services, including personal care and emergency housing assistance. These amounts must be

distributed to behavioral health organizations proportionate to the fiscal year 2017 allocation of flexible nonmedicaid funds. The authority must include the following language in medicaid contracts with behavioral health organizations unless they are provided formal notification from the center for medicaid and medicare services that the language will result in the loss of federal medicaid participation: "The contractor may voluntarily provide services that are in addition to those covered under the state plan, although the cost of these services cannot be included when determining payment rates unless including these costs are specifically allowed under federal law or an approved waiver."

(xii) The authority is authorized to continue to contract directly, rather than through contracts with behavioral health organizations for children's long-term inpatient facility services.

(xiii) \$1,125,000 of the general fund-state appropriation for fiscal year 2018 and \$1,125,000 of the general fund-state appropriation for fiscal year 2019 are provided solely for the Spokane county behavioral health organization to implement services to reduce utilization and the census at eastern state hospital. Such services shall include:

(A) High intensity treatment team for persons who are high utilizers of psychiatric inpatient services, including those with co-occurring disorders and other special needs;

(B) Crisis outreach and diversion services to stabilize in the community individuals in crisis who are at risk of requiring inpatient care or jail services;

(C) Mental health services provided in nursing facilities to individuals with dementia, and consultation to facility staff treating those individuals; and

(D) Services at the sixteen-bed evaluation and treatment facility.

At least annually, the Spokane county behavioral health organization shall assess the effectiveness of these services in reducing utilization at eastern state hospital, identify services that are not optimally effective, and modify those services to improve their effectiveness.

(xiv) \$1,204,000 of the general fund-state appropriation for fiscal year 2018 and \$1,204,000 of the general fund-state

appropriation for fiscal year 2019 are provided solely to reimburse Pierce and Spokane counties for the cost of conducting 180-day commitment hearings at the state psychiatric hospitals.

(xv) Behavioral health organizations may use local funds to earn additional federal medicaid match, provided the locally matched rate does not exceed the upper-bound of their federally allowable rate range, and provided that the enhanced funding is used only to provide medicaid state plan or waiver services to medicaid clients. Additionally, behavioral health organizations may use a portion of the state funds allocated in accordance with (b)(x) of this subsection to earn additional medicaid match, but only to the extent that the application of such funds to medicaid services does not diminish the level of crisis and commitment, community inpatient, residential care, and outpatient services presently available to persons not eligible for medicaid.

(xvi) \$2,291,000 of the general fund-state appropriation for fiscal year 2018 and \$2,291,000 of the general fund-state appropriation for fiscal year 2019 are provided solely for mental health services for mentally ill offenders while confined in a county or city jail and for facilitating access to programs that offer mental health services upon release from confinement. The authority must collect information from the behavioral health organizations on their plan for using these funds, the numbers of individuals served, and the types of services provided and submit a report to the office of financial management and the appropriate fiscal committees of the legislature by December 1st of each year of the biennium.

(xvii) Within the amounts appropriated in this section, funding is provided for the authority to develop and phase in intensive mental health services for high needs youth consistent with the settlement agreement in *T.R. v. Dreyfus and Porter*.

(xviii) The authority must establish minimum and maximum funding levels for all reserves allowed under behavioral health organization contracts and insert contract language that clearly states the requirements and limitations. The authority must monitor and ensure that behavioral health organization reserves do not exceed maximum levels. The authority must monitor behavioral health organization revenue and expenditure reports and must require a behavioral health organization to submit a corrective

action plan on how it will spend its excess reserves within a reasonable period of time, when its reported reserves exceed maximum levels established under the contract. The authority must review and approve such plans and monitor to ensure compliance.
