MOTION

Senator Randall moved that the following striking amendment no. 557 by Senator Randall be adopted:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature finds and declares that:

(1) The existence of accessible and affordable health care services that are responsive to the needs of the community is an important public policy goal.

(2) The COVID-19 pandemic laid bare both the crucial importance of our health care systems and the inequities that exist and exacerbate harm to marginalized communities, including in access to and delivery of affordable, quality care.

(3) Health entity mergers, acquisitions, and contracting affiliations impact cost, quality, and access to health care, and affect working conditions and employee benefits.

(4) Health entity mergers, acquisitions, and contracting affiliations have been shown to result in anticompetitive consequences, including higher prices and a lack of any meaningful choice among health care providers within a community or geographic region. These negative outcomes are exacerbated for those in rural areas with few health care providers.

(5) The legislature is committed to ensuring that Washingtonians have access to the full range of reproductive, end-of-life, and gender affirming health care services. Yet, Washingtonians continue to experience difficulty accessing gender affirming care, and health entity mergers and acquisitions in Washington state have resulted in material reductions in

reproductive and end-of-life health care services, to the detriment of communities and patients.

(6) Health entity mergers, acquisitions, and contracting affiliations must improve rather than harm access to affordable quality health care.

Sec. 2. RCW 19.390.010 and 2019 c 267 s 1 are each amended to read as follows:

(1) It is the intent of the legislature to ensure that competition beneficial to consumers in health care markets across Washington remains vigorous and robust and that health care be affordable and accessible. The legislature supports ((that intent)) these intents through this chapter, which provides the attorney general with notice of all material health care transactions in this state so that the attorney general has the information necessary to determine whether an investigation under the consumer protection act is warranted for potential anticompetitive conduct and consumer harm. This chapter is intended to supplement the federal Hart-Scott-Rodino antitrust improvements act, Title 15 U.S.C. Sec. 18a, by requiring notice of transactions not reportable under Hart-Scott-Rodino reporting thresholds and by providing the attorney general with a copy of any filings made pursuant to the Hart-Scott-Rodino act. In addition to ensuring vigorous and robust competition in health care markets, this chapter is also intended to ensure material change transactions result in the affected communities having the same or greater access to quality, affordable care, including emergency care, primary care, reproductive care, end-of-life care including services provided in accordance with chapter 70.245 RCW, and gender affirming care.

(2) Notwithstanding the language in this chapter regarding the attorney general's authority to determine the effect of a material change transaction on access to care, nothing in this chapter is intended to derogate from or otherwise affect in any way the attorney general's authority to conduct an investigation, or the process of any investigation, under chapter 19.86 RCW. Nothing in this section is intended to change or affect in any way any substantive law regarding the antitrust analysis of a material change transaction.

Sec. 3. RCW 19.390.020 and 2019 c 267 s 2 are each amended to read as follows:

The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(b) A hospital and any entity affiliated with such hospital ~~((through ownership)).~~

~~((9))~~ (11) "Merger" means a consolidation of two or more organizations, including two or more organizations joining through a common parent organization or two or more organizations forming a new organization, but does not include a corporate reorganization.

~~((10))~~ (12) "Person" means, where applicable, natural persons, corporations, trusts, and partnerships.

~~((11))~~ (13) "Provider" means a natural person who practices a profession identified in RCW 18.130.040.

~~((12))~~ (14) "Provider organization" means a corporation, partnership, business trust, association, or organized group of persons, whether incorporated or not, which is in the business of health care delivery or management and that represents seven or more health care providers in contracting with carriers or third-party administrators for the payments of health care services. A "provider organization" includes physician organizations, physician-hospital organizations, independent practice associations, provider networks, and accountable care organizations.

~~((13))~~ (15) "Reproductive health care" means any medical services or treatments, including pharmaceutical and preventive care services or treatments, directly involved in the reproductive system and its processes, functions, and organs involved in reproduction, in all stages of life.

(16) "Successor persons" means persons formed by, resulting from, or surviving any material change transaction under this chapter.

(17) "Third-party administrator" means an entity that administers payments for health care services on behalf of a client in exchange for an administrative fee.

Sec. 4. RCW 19.390.030 and 2019 c 267 s 3 are each amended to read as follows:

NEW SECTION. Sec. 9. (1) No material change transaction under this chapter may take place if it would detrimentally affect the continued existence of accessible, affordable health care in Washington state for at least 10 years after the transaction occurs. To this end the material change transaction must result in the affected communities having the same or greater access to quality, affordable care, including but not limited to emergency care, primary care, reproductive health care, gender affirming care, and end-of-life care including services provided in accordance with chapter 70.245 RCW.

(2) The material change transaction must also result in:

(c) Rectifying historical and contemporary factors contributing to a lack of health equities or access to services; or

(3) The material change transaction must not result in the revocation of hospital privileges and must establish sufficient safeguards to maintain appropriate capacity for health provider education.

(4) The material change transaction must not result in a reduction in staffing capacity for the provision of medically necessary services to the extent such reductions would diminish patients' access to quality care.

(5) In determining whether a material change transaction fulfills the requirements of subsections (1) through (4) of this section, the attorney general shall take into consideration whether the material change transaction is necessary to maintain the solvency of an entity involved in the transaction. However, the attorney general may not determine that a material change transaction is necessary to maintain the solvency of an entity without first having an independent contractor prepare a financial

assessment of the entity. Such assessment must include possible alternatives to the material change transaction, and the likely impact of those alternatives, if implemented, on the entity's solvency.

(6) Nothing in this chapter is intended to derogate from or otherwise affect in any way the attorney general's authority to conduct an investigation, or the process of any investigation, under chapter 19.86 RCW. Nothing in this section is intended to change or affect in any way any substantive law regarding the antitrust analysis of a material change transaction.

NEW SECTION. Sec. 10. (1) For all material change transactions included under RCW 19.390.040(3), the attorney general shall conduct a preliminary review of the completed notice to determine if the material change transaction will fulfill the requirements under section 9 of this act. The review must include, but is not limited to, an analysis of the information and documentation provided under RCW 19.390.040 and one public hearing.

(2) After conducting the preliminary review, if the attorney general determines that the material change transaction is likely to fulfill the requirements under section 9 of this act, the attorney general may not conduct a comprehensive review of the material change transaction as provided under sections 11, 13, and 14 of this act.

(3) The attorney general shall, within 60 days of receiving a completed notice, inform parties to a material change transaction as to whether a comprehensive review of the material change transaction is required as provided under sections 11, 13, and 14 of this act.

(4) Nothing in this chapter is intended to derogate from or otherwise affect in any way the attorney general's authority to conduct an investigation, or the process of any investigation, under chapter 19.86 RCW. Nothing in this section is intended to change or affect in any way any substantive law regarding the antitrust analysis of a material change transaction.

(1) For all material change transactions included under RCW 19.390.040(3) that are not limited to the preliminary review under section 10 of this act, the attorney general shall review the completed notice and conduct a comprehensive review. After conducting a comprehensive review, the attorney general shall within 120 days of receiving the completed notice:

(a) Approve the material change transaction in writing. The approval of a material change transaction pursuant to this chapter does not constitute approval for the purpose of RCW 19.86.170, or any other provision of state or federal consumer protection or antitrust law. Such approval pursuant to this chapter does not preclude the attorney general from taking any action to enforce state or federal consumer protection or antitrust law;

(b) Impose conditions or modifications on the material change transaction to ensure the requirements of section 9 of this act are met and that sufficient safeguards are in place to ensure communities have continued or improved access to affordable quality care. The imposition of such conditions or modifications shall be in writing and constitute a final decision subject to all appellate rights contained within this chapter; or

(c) Disapprove the material change transaction in writing with written justification, which shall constitute a final decision subject to all appellate rights contained within this act.

(2) Within 30 days after a final decision of the attorney general either denying or approving with modifications a material change transaction, any party to the material change transaction may appeal the decision to the superior court. An appeal to the superior court shall be to the superior court of a county in which the material change transaction is to have occurred or to the superior

court for Thurston county. Such appeal shall be perfected by filing with the clerk of the court a notice of appeal and by serving a copy thereof by mail, or personally, on the attorney general or their appointed designee. The attorney general shall, in all cases within 15 days after the receipt of such notice of appeal, serve and file its notice of appearance and such appeal shall thereupon be deemed at issue. The attorney general shall serve upon the appealing party and file with the clerk of the court within 30 days of the filing of the appeal, a certified copy of the attorney general's official record which shall include the final decision, and all accompanying documents, subject to the same confidentiality protections provided to such documents in the underlying act. These shall become the record in the case subject to leave of the court. The superior court shall review the final decision of the attorney general, subject to the statutory requirements of the underlying act and chapter 34.05 RCW.

(3) The attorney general may not make its decision to disapprove the material change transaction subject to any condition not directly and rationally related to the requirements under section 9 of this act and any condition or modification must bear a direct and rational relationship to the notice under review and the requirements under section 9 of this act.

(4) Nothing in this chapter is intended to derogate from or otherwise affect in any way the attorney general's authority to conduct an investigation, or the process of any investigation, under chapter 19.86 RCW. Nothing in this section is intended to change or affect in any way any substantive law regarding the antitrust analysis of a material change transaction.

If a material change transaction undergoes the comprehensive review process as provided for under sections 11, 13, and 14 of this act, the attorney general may conduct additional public hearings. At the hearings, anyone may file written comments and exhibits or appear and make a statement. The attorney general may subpoena additional information or witnesses, require and administer oaths, require sworn statements, take depositions, and use related discovery procedures for purposes of the hearing and at any time prior to making a decision on the material change transaction.

(1) The first public hearing must be held no later than 30 days after the attorney general receives a completed notice.

(2) At least 15 days prior to the public hearing, the attorney general shall provide notice of the time and place of the hearing on its website and to any person who has requested notice of the hearing in writing.

(3)(a) At least 15 days prior to the public hearing, the parties to the material change transaction shall provide notice of the time and place of the hearing. The notice must be provided:

(6) Nothing in this chapter is intended to derogate from or otherwise affect in any way the attorney general's authority to conduct an investigation, or the process of any investigation, under chapter 19.86 RCW. Nothing in this section is intended to change or affect in any way any substantive law regarding the antitrust analysis of a material change transaction.

NEW SECTION. Sec. 13. (1) For any material change transactions included under RCW 19.390.040(3), which are not limited to the preliminary review under section 10 of this act, the attorney general must hire an independent contractor to prepare a health equity assessment. The independent contractor shall be screened for any conflicts of interest in advance, agree to maintain confidentiality of information pursuant to this chapter, agree to charge a reasonable market-rate fee, and have necessary experience and expertise. In creating a health equity assessment, the independent contractor must engage with and provide input in the assessment from the department of health, local public health jurisdictions, emergency health care coalitions, health care entities, public health experts, organizations representing employees of the applicant, health care advocates, community members who reside in the service areas of the parties to the material change transaction, the parties to the material change transaction, and other individuals or organizations the attorney general, secretary of health, or independent contractor determine should be consulted. SECOND SUBSTITUTE SENATE BILL NO. 6175, by Committee on Ways & Means (originally sponsored by Senators Trudeau, Billig, Frame, Kuderer, Mullet, Nguyen, Nobles, Randall, Saldaña, Valdez, and C. Wilson)

Revised for Second Substitute: Providing a sales and use tax incentive for existing structures.

Senator Trudeau moved that the following striking amendment no. 629 by Senator Trudeau be adopted:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature finds that:

(1) Many cities in Washington are actively planning for growth under the growth management act, chapter 36.70A RCW, and through tax incentives, the private market can assist Washington in meeting its housing goals;

(2) Many downtown centers lack available affordable housing, which results in long commutes that increase greenhouse gas emissions and by using existing buildings to create affordable housing units, units can be available more quickly and with a reduced impact on waste streams and the environment compared to newly constructed units;

(3) The construction industry provides living wage jobs for families across Washington;

(4) In the current economic climate, the creation of additional affordable housing units is essential to the economic health of our cities and our state;

(5) It is critical that Washington state promote its cities and its property owners that will provide affordable housing;

(6) Constructing new housing units can take years, and many existing buildings can be repurposed quickly to meet the state's workforce and affordable housing needs;

(7) Many existing buildings are located in downtown centers, near work and services where there is limited land available for new construction;

(8) In downtowns across the state, there is a high level of open commercial space, which will likely remain, due to changes in

THIRTY THIRD DAY, FEBRUARY 9, 2024

how businesses use office space following the COVID-19 pandemic;

(9) A meaningful, fair, and predictable economic incentive should be created to stimulate the redevelopment of underutilized commercial property in targeted urban areas through a limited sales and use tax deferral program as provided by this chapter; and

(10) This limited tax deferral will help the owners achieve the highest and best use of land and enable cities to more fully realize their planning goals.

NEW SECTION. Sec. 2. It is the purpose of this chapter to encourage the redevelopment of underutilized commercial property in targeted urban areas, thereby increasing affordable housing, employment opportunities, and helping accomplish the other planning goals of Washington cities. The legislative authorities of cities to which this chapter applies may authorize a sales and use tax deferral for an investment project within the city if the legislative authority of the city finds that there are significant areas of underutilized commercial property and a lack of affordable housing in areas proximate to the land. If a conditional recipient maintains the property for qualifying purposes for at least 10 years, deferred sales and use taxes need not be repaid.

NEW SECTION. Sec. 3. The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Affordable housing" means:

(a) Homeownership housing intended for owner occupancy to low-income households whose monthly housing costs, including utilities other than telephone, do not exceed 30 percent of the household's monthly income;

(b) "Rental housing" for low-income households whose monthly housing costs, including utilities other than telephone, do not exceed 30 percent of the household's monthly income.

(2) "Applicant" means an owner of commercial property.

(3) "City" means any city or town, including a code city.

(4) "Conditional recipient" means an owner of commercial property granted a conditional certificate of program approval under this chapter, which includes any successor owner of the property.

(5) "County median price" means the most recently published quarterly data of median home prices by the Washington center for real estate research.

(6) "Eligible investment project" means an investment project that is located in a city and receiving a conditional certificate of program approval.

(7) "Fair market rent" means the fair market rents within counties as published by the federal department of housing and urban development.

(8) "Governing authority" means the local legislative authority of a city having jurisdiction over the property for which a deferral may be granted under this chapter.

(9) "Household" means a single person, family, or unrelated persons living together.

(10)(a) "Initiation of construction" means the date that a building permit is issued under the building code adopted under RCW 19.27.031 for construction of the qualified building, if the underlying ownership of the building vests exclusively with the person receiving the economic benefit of the deferral.

(b) "Initiation of construction" does not include soil testing, site clearing and grading, site preparation, or any other related activities that are initiated before the issuance of a building permit for the construction of the foundation of the building.

(c) If the investment project is a phased project, "initiation of construction" applies separately to each phase.

(11) "Investment project" means an investment in multifamily housing, including labor, services, and materials incorporated in the planning, installation, and construction of the project. "Investment project" includes investment in related facilities such as playgrounds and sidewalks as well as facilities used for business use for mixed-use development.

(12) "Low-income household" means a single person, family, or unrelated persons living together whose adjusted income is at or below 80 percent of the median family income adjusted for family size, for the county, city, or metropolitan statistical area, where the project is located, as reported by the United States department of housing and urban development.

(13) "Multifamily housing" means a building or a group of buildings having four or more dwelling units not designed or used as transient accommodations and not including hotels and motels. Multifamily units may result from rehabilitation or conversion of vacant, underutilized, or substandard buildings to multifamily housing.

(14) "Owner" means the property owner of record.

(15) "Underutilized commercial property" means an entire property, or portion thereof, currently used or intended to be used by a business for retailing or office-related or administrative activities. If the property is used partly for a qualifying use and partly for other purposes, the applicable tax deferral must be determined by apportionment of the costs of construction under rules adopted by the department. For the purposes of this subsection, "qualifying use" means used or intended to be used by a business for retailing or office-related or administrative activities.

NEW SECTION. Sec. 4. (1) For the purpose of creating a sales and use tax deferral program for conversion of a commercial building to provide affordable housing under this chapter, the governing authority must adopt a resolution of intention to create a sales and use tax deferral program as generally described in the resolution. The resolution must state the time and place of a hearing to be held by the governing authority to consider the creation of the tax deferral program and may include such other information pertaining to the creation of the deferral program as the governing authority determines to be appropriate to apprise the public of the action intended. However, the resolution must provide information pertaining to:

(a) The application process;

(b) The approval process;

(c) The appeals process for applications denied approval; and

(d) Additional requirements, conditions, and obligations that must be followed postapproval of an application.

(2) The governing authority must give notice of a hearing held under this chapter by publication of the notice once each week for two consecutive weeks, not less than seven days, nor more than 30 days before the date of the hearing in a paper having a general circulation in the city. The notice must state the time, date, place, and purpose of the hearing.

(3) Following the hearing or a continuance of the hearing, the governing authority may authorize the creation of the program.

NEW SECTION. Sec. 5. An owner of underutilized commercial property seeking a sales and use tax deferral for conversion of a commercial building to provide affordable housing under this chapter on an investment project must complete the following procedures:

(1) The owner must apply to the city on forms adopted by the governing authority. The application must contain the following:

(a) Information setting forth the grounds supporting the requested deferral including information indicated on the application form or in the guidelines;

(b) A description of the investment project and site plan, and other information requested;

(c) A statement of the expected number of affordable housing units to be created;

(d) A statement that the applicant is aware of the potential tax liability involved if the investment project ceases to be used for eligible uses under this chapter;

(e) A statement that the applicant is aware that the investment project must be completed within three years from the date of approval of the application;

(f) A statement that the applicant is aware that the governing authority or the city official authorized by the governing authority may extend the deadline for completion of construction or rehabilitation for a period not to exceed 24 consecutive months; and

(g) A statement that the applicant would not have built in this location but for the availability of the tax deferral under this chapter;

(2) The applicant must verify the application by oath or affirmation; and

(3) The application must be accompanied by the application fee, if any, required under this chapter. The duly authorized administrative official or committee of the city may permit the applicant to revise an application before final action by the duly authorized administrative official or committee of the city.

NEW SECTION. Sec. 6. The duly authorized administrative official or committee of the city may approve the application and grant a conditional certificate of program approval if it finds that:

(1)(a) The investment project is set aside primarily for multifamily housing units and the applicant commits to renting or selling at least 10 percent of the units as affordable housing to low-income households. In a mixed use project, only the ground floor of a building may be used for commercial purposes with the remainder dedicated to multifamily housing units;

(b) At least 50 percent of the investment project set aside for multifamily housing units will be rented at a price at or below fair market rent for the county or sold at a price at or below county median price; and

(c) The applicant commits to any additional affordability and income eligibility conditions adopted by the local government under this chapter not otherwise inconsistent with this chapter;

(2) The investment project is, or will be, at the time of completion, in conformance with all local plans and regulations that apply at the time the application is approved;

(3) The investment project will occur on land that constitutes, at the time of application, underutilized commercial property;

(4) The area where the investment project will occur is located within an area zoned for residential or mixed uses;

(5) The terms and conditions of the implementation of the development meets the requirements of this chapter and any requirements of the city that are not otherwise inconsistent with this chapter;

(6) The land where the investment project will occur was not acquired through a condemnation proceeding under Title 8 RCW; and

(7) All other requirements of this chapter have been satisfied as well as any other requirements of the city that are not otherwise inconsistent with this chapter.

NEW SECTION. Sec. 7. (1) The duly authorized administrative official or committee of the city must approve or deny an application filed under this chapter within 90 days after receipt of the application.

(2) If the application is approved, the city must issue the applicant a conditional certificate of program approval. The certificate must contain a statement by a duly authorized

administrative official of the governing authority that the investment project as described in the application will comply with the required criteria of this chapter.

(3) If the application is denied by the city, the city must state in writing the reasons for denial and send the notice to the applicant at the applicant's last known address within 10 days of the denial.

(4) Upon denial by the city, an applicant may appeal the denial to the city's governing authority or a city official designated by the city to hear such appeals within 30 days after receipt of the denial. The appeal before the city's governing authority or designated city official must be based upon the record made before the city with the burden of proof on the applicant to show that there was no substantial evidence to support the city's decision. The decision of the city on the appeal is final.

NEW SECTION. Sec. 8. The governing authority may establish an application fee. This fee may not exceed an amount determined to be required to cover the cost to be incurred by the governing authority in administering the program under this chapter. The application fee must be paid at the time the application for program approval is filed.

NEW SECTION. Sec. 9. (1) Within 30 days of the issuance of a certificate of occupancy for an eligible investment project, the conditional recipient must file with the city the following:

(a) A description of the work that has been completed and a statement that the eligible investment project qualifies the property for a sales and use tax deferral under this chapter;

(b) A statement of the new affordable housing to be offered as a result of the conversion of underutilized commercial property to multifamily housing; and

(c) A statement that the work has been completed within three years of the issuance of the conditional certificate of program approval.

(2) Within 30 days after receipt of the statements required under subsection (1) of this section, the city must determine and notify the conditional recipient as to whether the work completed and the affordable housing to be offered are consistent with the application and the contract approved by the city, and the investment project continues to qualify for a tax deferral under this chapter. The conditional recipient must notify the department within 30 days from receiving the city's determination to report the project is operationally complete so the department can certify the project and determine the qualifying deferred taxes. The department must determine the amount of sales and use taxes qualifying for the deferral. If the department determines that purchases were not eligible for deferral it must assess interest, but not penalties, on the nonqualifying amounts.

(3) The city must notify the conditional recipient within 30 days that a tax deferral under this chapter is denied if the city determines that:

(a) The work was not completed within three years of the application date;

(b) The work was not constructed consistent with the application or other applicable requirements;

(c) The affordable housing units to be offered are not consistent with the application and criteria of this chapter; or

(d) The owner's property is otherwise not qualified for a sales and use tax deferral under this chapter.

(4) If the city finds that the work was not completed within the required time period due to circumstances beyond the control of the conditional recipient and that the conditional recipient has been acting and could reasonably be expected to act in good faith and with due diligence, the governing authority may extend the deadline for completion of the work for a period not to exceed 24 consecutive months, and must notify the department of the extension.

THIRTY THIRD DAY, FEBRUARY 9, 2024

(5) The city's governing authority may enact an ordinance to provide a process for a conditional recipient to appeal a decision by the city that the conditional recipient is not entitled to a deferral of sales and use taxes. The conditional recipient may appeal a decision by the city to deny a deferral of sales and use taxes in superior court under RCW 34.05.510 through 34.05.598, if the appeal is filed within 30 days of notification by the city to the conditional recipient.

(6) A city denying a conditional recipient of a sales and use tax deferral under subsection (3) of this section must notify the department and taxes deferred under this chapter are immediately due and payable, subject to any appeal by the conditional recipient. The department must assess interest at the rate provided for delinquent taxes, but not penalties, retroactively to the date of deferral. A debt for deferred taxes will not be extinguished by insolvency or other failure of the recipient.

NEW SECTION. Sec. 10. (1) Thirty days after the anniversary of the date of issuance of the certificate of occupancy and each year thereafter for 10 years, the conditional recipient must file with a designated authorized representative of the city an annual report indicating the following:

(a) A statement of the affordable housing units constructed on the property as of the anniversary date;

(b) A certification by the conditional recipient that the property has not changed use;

(c) A description of changes or improvements constructed after issuance of the certificate of occupancy; and

(d) Any additional information requested by the city.

(2) The conditional recipient of a deferral of taxes under this chapter must file a complete annual tax performance report with the department pursuant to RCW 82.32.534 beginning the year the certificate of occupancy is issued and each year thereafter for 10 years.

(3) A city that issues a certificate of program approval under this chapter must report annually by December 31st of each year, beginning in 2025, to the department of commerce. The report must include the following information:

(a) The number of program approval certificates granted;

(b) The total number and type of buildings converted;

(c) The number of affordable housing units resulting from the conversion of underutilized commercial property to multifamily housing; and

(d) The estimated value of the sales and use tax deferral for each investment project receiving a program approval and the total estimated value of sales and use tax deferrals granted.

NEW SECTION. Sec. 11. (1) A conditional recipient must submit an application to the department before initiation of the construction of the investment project. In the case of an investment project involving multiple qualified buildings, applications must be made for, and before the initiation of construction of, each qualified building. The application must be made to the department in a form and manner prescribed by the department. The application must include a copy of the conditional certificate of program approval issued by the city, estimated construction costs, time schedules for completion and operation, and any other information required by the department. The department must rule on the application within 60 days.

(2) The department must provide information to the conditional recipient regarding documentation that must be retained by the conditional recipient in order to substantiate the amount of sales and use tax actually deferred under this chapter.

(3) The department may not accept applications for the deferral under this chapter after June 30, 2034.

(4) The application must include a waiver by the conditional recipient of the four-year limitation under RCW 82.32.100.

(5) This section expires July 1, 2034.

NEW SECTION. Sec. 12. (1) After receiving the conditional certificate of program approval issued by the city and approval of an application by the department as provided in section 11(1) of this act, the department must issue a sales and use tax deferral certificate for state and local sales and use taxes due under chapters 82.08, 82.12, 82.14, and 81.104 RCW on each eligible investment project.

(2) The department must keep a running total of all estimated sales and use tax deferrals provided under this chapter during each fiscal biennium.

(3) The deferral certificate is valid during active construction of a qualified investment project and expires on the day the city issues a certificate of occupancy for the investment project for which a deferral certificate was issued.

(4) This section expires July 1, 2034.

NEW SECTION. Sec. 13. (1) If a conditional recipient voluntarily opts to discontinue compliance with the requirements of this chapter, the recipient must notify the city and department within 60 days of the change in use or intended discontinuance.

(2) If, after the department has issued a sales and use tax deferral certificate and the conditional recipient has received a certificate of occupancy, the city finds that a portion of an investment project is changed or will be changed to disqualify the recipient for sales and use tax deferral eligibility under this chapter, the city must notify the department and all deferred sales and use taxes are immediately due and payable. The department must assess interest at the rate provided for delinquent taxes, but not penalties, retroactively to the date of deferral. A debt for deferred taxes will not be extinguished by insolvency or other failure of the recipient.

(3) This section does not apply after 10 years from the date of the certificate of occupancy.

NEW SECTION. Sec. 14. (1) Transfer of investment project ownership does not terminate the deferral. The deferral is transferred subject to the successor meeting the eligibility requirements of this chapter.

(2) The transferor of an eligible project must notify the city and the department of such transfer. The city must certify to the department that the successor meets the requirements of the deferral. The transferor must provide the information necessary for the department to transfer the deferral. If the transferor fails to notify the city and the department, all deferred sales and use taxes are immediately due and payable. NEW SECTION. Sec. 4. A new section is added to chapter 44.90 RCW to read as follows:

(1) As provided by this chapter, the commission or the court shall determine all questions described by this chapter as under the commission's authority. However, such authority may not result in an order or rule that intrudes upon or interferes with the legislature's core function of efficient and effective law making or the essential operation of the legislature, including that an order or rule may not:

(a) Require the legislature to reinstate an employee;

(b) Modify any matter relating to the qualifications and elections of members of the legislature, or the holding of office of members of the legislature;

(c) Modify any matter relating to the legislature or each house thereof choosing its officers, adopting rules for its proceedings, selecting committees necessary for the conduct of business, considering or enacting legislation, or otherwise exercising the legislative power of this state;

(d) Modify any matter relating to legislative calendars, schedules, and deadlines of the legislature; or

(e) Modify laws, rules, policies, or procedures regarding ethics or conflicts of interest.

(2) No member of the legislature may be compelled by subpoena or other means to attend a proceeding related to matters covered by this chapter during a legislative session, committee assembly days, or for 15 days before commencement of each session.

Sec. 5. RCW 44.90.050 and 2022 c 283 s 5 are each amended to read as follows:

(1) Except as may be specifically limited by this chapter, legislative employees shall have the right to self-organization, to form, join, or assist employee organizations, and to bargain collectively through representatives of their own choosing for the purpose of collective bargaining free from interference, restraint,

or coercion. Legislative employees shall also have the right to refrain from any or all such activities.

(2) Except as may be specifically limited by this chapter, the commission shall determine all questions pertaining to ascertaining exclusive bargaining representatives for legislative employees and collectively bargaining under this chapter. However, no employee organization shall be recognized or certified as the exclusive bargaining representative of a bargaining unit of employees of the legislative branch unless it receives the votes of a majority of employees in the petitioned for bargaining unit voting in a secret election (~~by mail ballot~~) administered by the commission. The commission's process must allow for an employee, group of employees, employee organizations, employer, or their agents to have the right to petition on any question concerning representation.

~~(3) ((The employer and the exclusive bargaining representative of a bargaining unit of legislative employees may not enter into a collective bargaining agreement that requires the employer to deduct, from the salary or wages of an employee, contributions for payments for political action committees sponsored by employee organizations with legislative employees as members.))~~
The commission must adopt rules that provide for at least the following:

- (a) Secret balloting;
- (b) Consulting with employee organizations;
- (c) Access to lists of employees, job titles, work locations, and home mailing addresses;
- (d) Absentee voting;
- (e) Procedures for the greatest possible participation in voting;
- (f) Campaigning on the employer's property during working hours; and
- (g) Election observers.

(4)(a) If an employee organization has been certified as the exclusive bargaining representative of the employees of multiple bargaining units, the employee organization may act for and negotiate a master collective bargaining agreement that includes within the coverage of the agreement all covered employees in the bargaining units.

(b) If a master collective bargaining agreement is in effect for the newly certified exclusive bargaining representative, it applies to the bargaining unit for which the new certification has been issued. Nothing in this subsection (4)(b) requires the parties to engage in new negotiations during the term of that agreement.

(5) The certified exclusive bargaining representative is responsible for representing the interests of all the employees in the bargaining unit. This section may not be construed to limit an exclusive bargaining representative's right to exercise its discretion to refuse to process grievances of employees that are unmeritorious.

(6) No question concerning representation may be raised if:
(a) Fewer than 12 months have elapsed since the last certification or election; or

(b) A valid collective bargaining agreement exists covering the unit, except for that period of no more than 120 calendar days nor less than 90 calendar days before the expiration of the contract.

NEW SECTION. Sec. 6. A new section is added to chapter 44.90 RCW to read as follows:

(1) The commission, after hearing upon reasonable notice to all interested parties, shall decide, in each application for certification as an exclusive bargaining representative, the unit appropriate for certification. In determining the new units or modifications of existing units, the commission must consider: The duties, skills, and working conditions of the employees; the history of collective bargaining; the extent of organization among the employees; the desires of the employees; and the avoidance

of excessive fragmentation. However, a unit is not appropriate if it includes:

(a) Both supervisors and nonsupervisory employees. A unit that includes only supervisors may be considered appropriate if a majority of the supervisory employees indicates by vote that they desire to be included in such a unit; or

(b) Both house of representatives and senate employees.

(2) If a single employee organization is the exclusive bargaining representative for two or more units, upon petition by the employee organization, the units may be consolidated into a single larger unit if the commission considers the larger unit to be appropriate. If consolidation is appropriate, the commission shall certify the employee organization as the exclusive bargaining representative of the new unit.

NEW SECTION. Sec. 7. A new section is added to chapter 44.90 RCW to read as follows:

(1) The parties to a collective bargaining agreement must reduce the agreement to writing and both execute it.

(2) Except as provided in this chapter, a collective bargaining agreement must contain provisions that provide for a grievance procedure of all disputes arising over the interpretation or application of the collective bargaining agreement and that is valid and enforceable under its terms when entered into in accordance with this chapter.

(3) RCW 41.56.037 applies to this chapter.

(4)(a) If a collective bargaining agreement between an employer and an exclusive bargaining representative is concluded after the termination date of the previous collective bargaining agreement between the employer and an employee organization representing the same bargaining units, the effective date of the collective bargaining agreement may be the day after the termination of the previous collective bargaining agreement, and all benefits included in the new collective bargaining agreement, including wage or salary increases, may accrue beginning with that effective date.

(b) If a collective bargaining agreement between an employer and an exclusive bargaining representative is concluded after the termination date of the previous collective bargaining agreement between the employer and the exclusive bargaining representative representing different bargaining units, the effective date of the collective bargaining agreement may be the day after the termination date of whichever previous collective bargaining agreement covering one or more of the units terminated first, and all benefits included in the new collective bargaining agreement, including wage or salary increases, may accrue beginning with that effective date.

(5) The employer and the exclusive bargaining representative of a bargaining unit of legislative employees may not enter into a collective bargaining agreement that requires the employer to deduct, from the salary or wages of an employee, contributions for payments for political action committees sponsored by employee organizations with legislative employees as members.

Sec. 8. RCW 44.90.060 and 2022 c 283 s 6 are each amended to read as follows:

~~((During a legislative session or committee assembly days, nothing))~~ **Nothing** contained in this chapter permits or grants to any legislative employee the right to strike, participate in a work stoppage, or refuse to perform their official duties.

Sec. 9. RCW 44.90.070 and 2022 c 283 s 7 are each amended to read as follows:

(1) Collective bargaining negotiations under this chapter must commence no later than July 1st of each even-numbered year after a bargaining unit has been certified.

(2) The duration of any collective bargaining agreement shall not exceed one fiscal biennium.

THIRTY THIRD DAY, FEBRUARY 9, 2024

(3)(a) The director must submit ratified collective bargaining agreements, with cost estimates, to the employer by October 1st before the legislative session at which the request for funds are to be considered. The transmission by the legislature to the governor under RCW 43.88.090 must include a request for funds necessary to implement the provisions of all collective bargaining agreements covering legislative employees.

(b) If the legislature or governor fail to provide the funds for a collective bargaining agreement for legislative employees, either party may reopen all or part of the agreement or the exclusive bargaining representative may seek to implement the procedures provided for in section 10 of this act.

(4) Negotiation for economic terms will be by a coalition of all exclusive bargaining representatives. Any such provisions agreed to by the employer and the coalition must be included in all collective bargaining agreements negotiated by the parties. The director and the exclusive bargaining representative or representatives are authorized to enter into supplemental bargaining of bargaining unit specific issues for inclusion in the collective bargaining agreement, subject to the parties' agreement regarding the issues and procedures for supplemental bargaining. This subsection does not prohibit cooperation and coordination of bargaining between two or more exclusive bargaining representatives.

(5) If a significant revenue shortfall occurs resulting in reduced appropriations, as declared by proclamation of the governor or by resolution of the legislature, both parties must immediately enter into collective bargaining for a mutually agreed upon modification of the agreement.

NEW SECTION. Sec. 10. A new section is added to chapter 44.90 RCW to read as follows:

(1) Should the parties fail to reach agreement in negotiating a collective bargaining agreement, either party may request of the commission the assistance of an impartial third party to mediate the negotiations. If a collective bargaining agreement previously negotiated under this chapter expires while negotiations are underway, the terms and conditions specified in the collective bargaining agreement remain in effect for a period not to exceed one year from the expiration date stated in the agreement. Thereafter, the employer may unilaterally implement according to law.

(2) Nothing in this section may be construed to prohibit an employer and an exclusive bargaining representative from agreeing to substitute, at their own expense, their own procedure for resolving impasses in collective bargaining for that provided in this section or from agreeing to utilize for the purposes of this section any other governmental or other agency or person in lieu of the commission.

(3) The commission shall bear costs for mediator services.

Sec. 11. RCW 44.90.080 and 2022 c 283 s 8 are each amended to read as follows:

(1) It is an unfair labor practice for an employer in the legislative branch of state government:

(a) To interfere with, restrain, or coerce employees in the exercise of the rights guaranteed by this chapter;

(b) To dominate or interfere with the formation or administration of any employee organization or contribute financial or other support to it: PROVIDED, That subject to rules adopted by the commission, an employer shall not be prohibited from permitting employees to confer with it or its representatives or agents during working hours without loss of time or pay;

(c) To encourage or discourage membership in any employee organization by discrimination in regard to hire, tenure of employment, or any term or condition of employment;

(d) To discharge or discriminate otherwise against an employee because that employee has filed charges or given testimony under this chapter;

(e) To refuse to bargain collectively with the exclusive bargaining representatives of its employees.

(2) Notwithstanding any other law, the expression of any views, arguments, or opinions, or the dissemination thereof in any form, by a member of the legislature related to this chapter or matters within the scope of representation, shall not constitute, or be evidence of, an unfair labor practice unless the employer has authorized the member to express that view, argument, or opinion on behalf of the employer or as an employer.

(3) It is an unfair labor practice for an employee organization:

(a) To restrain or coerce an employee in the exercise of the rights guaranteed by this chapter: PROVIDED, That this subsection shall not impair the right of an employee organization to prescribe its own rules with respect to the acquisition or retention of membership in the employee organization or to an employer in the selection of its representatives for the purpose of bargaining or the adjustment of grievances;

(b) To cause or attempt to cause an employer to discriminate against an employee in violation of subsection (1)(c) of this section;

(c) To discriminate against an employee because that employee has filed charges or given testimony under this chapter;

(d) To refuse to bargain collectively with an employer.

~~((3))~~ (4) The expressing of any views, arguments, or opinion, or the dissemination thereof to the public, whether in written, printed, graphic, or visual form, shall not constitute or be evidence of an unfair labor practice under this chapter, if such expression contains no threat of reprisal or force or promise of benefit.

NEW SECTION. Sec. 12. A new section is added to chapter 44.90 RCW to read as follows:

(1) The commission is empowered and directed to prevent any unfair labor practice and to issue appropriate remedial orders. However, a complaint may not be processed for any unfair labor practice occurring more than six months before the filing of the complaint with the commission or in Thurston county superior court. This power may not be affected or impaired by any means of adjustment, mediation, or conciliation in labor disputes that have been or may hereafter be established by law.

(2) Except as may be specifically limited by this chapter, if the commission or court determines that any person has engaged in or is engaging in an unfair labor practice, the commission or court shall issue and cause to be served upon the person an order requiring the person to cease and desist from such unfair labor practice, and to take such affirmative action as will effectuate the purposes and policy of this chapter, such as the payment of damages.

(3) The commission may petition the Thurston county superior court for the enforcement of its order and for appropriate temporary relief.

Sec. 13. RCW 44.90.090 and 2022 c 283 s 9 are each amended to read as follows:

(1) Except as otherwise provided in this chapter, the matters subject to bargaining include wages, hours, terms, and conditions of employment, and the negotiation of any question arising under a collective bargaining agreement.

(2) The employer shall not bargain over rights of management which, in addition to all powers, duties, and rights established by constitutional provision or statute, shall include, but not be limited to, the following:

~~((e))~~ (g) The employer's right to hire, terminate, and promote employees. Subject to any collective bargaining agreement, legislative employees hold their positions at the employer's pleasure;

(h) Health care benefits and other employee insurance benefits. The amount paid by a legislative employee for health care premiums must be the same as that paid by a represented state employee covered by RCW 41.80.020(3);

(i) The right to take whatever actions are deemed necessary to carry out the mission of the legislature and its agencies during emergencies; and

(j) Retirement plans and retirement benefits.

~~((2))~~ (3) Except for an applicable code of conduct policy adopted by a chamber of the legislature or a legislative agency, if a conflict exists between policies adopted by the legislature relating to wages, hours, and terms and conditions of employment and a provision of a collective bargaining agreement negotiated under this chapter, the collective bargaining agreement shall prevail. A provision of a collective bargaining agreement that conflicts with a statute or an applicable term of a code of conduct policy adopted by a chamber of the legislature or a legislative agency is invalid and unenforceable.

NEW SECTION. Sec. 14. A new section is added to chapter 44.90 RCW to read as follows:

(1) Upon authorization of an employee within the bargaining unit and after the certification or recognition of the bargaining unit's exclusive bargaining representative, the employer must deduct from the payments to the employee the monthly amount of dues as certified by the secretary of the exclusive bargaining representative and must transmit the same to the treasurer of the exclusive bargaining representative.

(f) The employer must rely on information provided by the exclusive bargaining representative regarding the authorization and revocation of deductions.

NEW SECTION. Sec. 15. A new section is added to chapter 44.90 RCW to read as follows:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. **Sec. 1.** A new section is added to chapter 43.92 RCW to read as follows:

(1) The geological survey shall compile and maintain a comprehensive database of publicly available subsurface geologic information relating to Washington state. The geological

survey must make the database available to the public in a searchable format via the geological survey's website.

(2) The subsurface geologic information contained on the website should include, but is not limited to, the following:

- (a) Temperature gradient logs;
- (b) Geothermal well records;
- (c) High resolution magnetotelluric surveys;
- (d) High resolution gravity surveys;
- (e) Geothermal play fairway studies;
- (f) Three-dimensional reflection seismic surveys; and
- (g) Rock properties databases.

(3) The geological survey must:

- (a) Coordinate with federal, state, and local agencies to compile existing subsurface geologic information;
- (b) Acquire, process, and analyze new subsurface geologic data and update deficient data using the best practicable technology;
- (c) Using available data, characterize the hazard of induced seismicity for high-potential geothermal play areas. Results of induced seismicity hazard studies must be made publicly available and updated as new information is available; and
- (d) Provide technical assistance on the proper interpretation and application of subsurface geologic data and hazard assessments.

Sec. 2. RCW 79.13.530 and 2003 c 334 s 465 are each amended to read as follows:

(1) In an effort to increase potential revenue to the geothermal account, the department shall, by December 1, 1991, adopt rules providing guidelines and procedures for leasing state-owned land for the development of geothermal resources.

(2)(a) By September 30, 2024, the department must commence rule making to update its geothermal resources lease rates. The updated geothermal resources lease rates must comply with the terms established in this section.

(b) Geothermal resources lease rates must be competitive with geothermal resources lease rates adopted by the federal government and by other states in the western portion of the United States.

(c) The goal of the updated geothermal resources lease rates must be to optimize the state's competitiveness at attracting geothermal exploration and development projects while balancing the state's obligation to trust beneficiaries.

NEW SECTION. **Sec. 3.** A new section is added to chapter 43.31 RCW to read as follows:

(1) Subject to the availability of amounts appropriated for this specific purpose, a competitive geothermal exploration cost-share grant program is established in order to incentivize deep exploratory drilling to identify locations suitable for the development of geothermal energy.

(2) Grants may be awarded to offset the direct costs associated with the expense of conducting deep exploratory drilling for the purpose of identifying locations in Washington suitable for the development of geothermal energy.

(3) The department of commerce must consult with the Washington geological survey to develop a method and criteria for the allocation of grants, subject to the following:

(a) Proposed exploratory drilling projects should be located in areas of high geothermal potential;

(b) Grant applicants should possess, or should demonstrate a partnership or other form of relationship with entities who possess, demonstrated expertise in successful geothermal exploration;

(c) Grant applicants should meet high labor standards, including family sustaining wages, providing benefits including health care and employer-contributed retirement plans, career

development opportunities, and must maximize access to economic benefits from exploratory projects for local workers;

(d) Selection and implementation of exploratory drilling projects should align with equity and environmental justice principles as established in chapter 70A.02 RCW;

(e) Grant awards must be available to private, public, and federally recognized tribal applicants. Grant awards to private grant applicants should be for no more than one-half of the overall cost of the project and grant awards to public grant applicants should be for no more than two-thirds of the overall cost of the project;

(f) Grant applicants must demonstrate that they have, or that they will have by the time of the execution of a grant agreement, site control of the site that is the subject of the exploration effort, either through an ownership interest or through a lease agreement that provides access to the site and the right to drill to the proposed depth;

(g) The grant application must demonstrate the applicant's engagement efforts with the local community to provide information about the potential project;

(h) If any fluid is proposed to be injected as part of the exploratory drilling, the grant applicant must:

(i) Include an analysis of any potential for induced seismicity as a result of the injection, as well as a plan for the management of the risk of induced seismicity; and

(ii) Consult with the department of ecology and, if applicable, comply with underground injection control standards and groundwater antidegradation standards as directed in chapter 90.48 RCW;

(i) The award of grants will seek to broaden the state's knowledge of geothermal resources, with a preference given to high impact projects in favorable geologic settings that have been comparatively underexplored; and

(j) All results of any exploratory drilling performed with grant funds must be made publicly available and must be submitted to the Washington geological survey for inclusion in the database created pursuant to section 1 of this act.

(4) In the course of administering the geothermal exploration cost-share grant program, the department of commerce shall make a reasonable effort to utilize the United States department of energy recommendations and guidelines concerning enhanced geothermal demonstration projects in the western states.

NEW SECTION. Sec. 4. (1) The department of ecology, in consultation with the department of commerce, the department of natural resources, the department of fish and wildlife, and the department of archaeology and historic preservation, shall engage in a collaborative process to identify opportunities and risks associated with the development of geothermal resources in three locations with the highest geothermal potential in Washington. The department of natural resources must identify these three locations.

(2)(a) As part of the geothermal resources collaborative process, the department of ecology must engage in meaningful government-to-government consultation with potentially affected federally recognized Indian tribes by learning from each participating tribe about their communication protocols for consultation and must seek participation from the department of archaeology and historic preservation, other state agencies as appropriate, local governments, state research institutions, participants in Washington's electrical generation, transmission, and distribution sector, and environmental organizations. At the request of potentially affected federally recognized Indian tribes, the department of ecology may include additional participation with independent subject matter expertise.

(b) Subject to the availability of amounts appropriated for this specific purpose, the department of ecology shall provide grants to potentially affected federally recognized Indian tribes to support their evaluation of the cultural, natural resource, and other impacts of geothermal electricity development and to support their participation in the collaborative process established in this section.

(3) The geothermal resources collaborative process must address, at a minimum, the following topics:

(a) The potential impacts of geothermal resources development, including impacts to:

(i) Rights, interests, and resources, including tribal cultural resources, of potentially affected federally recognized Indian tribes;

(ii) State or federal endangered species act listed species in Washington; and

(iii) Overburdened communities;

(b) The development of factors to guide the identification of preferable sites for the development of geothermal resources including, but not limited to, geologic suitability, proximity to electrical transmission and distribution infrastructure, and continuity between groundwater and surface water resources; and

(c) The capacity for geothermal resources in Washington to help the state meet its clean energy generation requirements and greenhouse gas emissions limits.

(4) The department of ecology must commence the geothermal resources collaborative process by November 30, 2024. The department of ecology must provide the appropriate committees of the legislature an update on the status of the collaborative process by June 30, 2026. The department of ecology must provide the appropriate committees of the legislature with a final report on the collaborative process by June 30, 2027.

(5) The interagency clean energy siting coordinating council must support the department of ecology during the collaborative process. The interagency clean energy siting coordinating council must consider the findings of the interim update and final report and make recommendations to the legislature and governor on potential actions regarding the development of geothermal energy, as appropriate. Based on the findings of the collaborative process, the interagency clean energy siting coordinating council must identify key factors for consideration in planning and siting of geothermal facilities. These key factors include, but are not limited to, geologic suitability, water resource impacts, and proximity to electrical transmission and distribution infrastructure."

On page 1, line 2 of the title, after "resources;" strike the remainder of the title and insert "amending RCW 79.13.530; adding a new section to chapter 43.92 RCW; adding a new section to chapter 43.31 RCW; and creating a new section."

If one health care benefit manager has a contract with more than one carrier, the health care benefit manager must complete only one application providing the details necessary for each contract.

(3) All receipts from fees collected by the commissioner under this section must be deposited into the insurance commissioner's regulatory account created in RCW 48.02.190.

(1) Upon notifying a carrier or health care benefit manager of an inquiry or complaint filed with the commissioner pertaining to the conduct of a health care benefit manager identified in the inquiry or complaint, the commissioner must provide notice of the inquiry or complaint ~~((concurrently))~~ to the health care benefit manager ~~((and))~~. Notice must also be sent to any carrier to which the inquiry or complaint pertains. The commissioner shall respond to and investigate complaints related to the conduct of a health care benefit manager subject to this chapter directly, without requiring that the complaint be pursued exclusively through a contracting carrier.

(2) Upon receipt of an inquiry from the commissioner, a health care benefit manager must provide to the commissioner within fifteen business days, in the form and manner required by the commissioner, a complete response to that inquiry including, but not limited to, providing a statement or testimony, producing its

(3) Subject to chapter 48.04 RCW, if the commissioner finds that a health care benefit manager or any person responsible for the conduct of the health care benefit manager's affairs has:

(f) Had a health care benefit manager registration, or its equivalent, denied, suspended, or revoked in any other state, province, district, or territory;

the commissioner may take any combination of the following actions against a health care benefit manager or any person responsible for the conduct of the health care benefit manager's affairs, other than an employee benefits program:

(i) Place on probation, suspend, revoke, or refuse to issue or renew the health care benefit manager's registration;

(ii) Issue a cease and desist order against the health care benefit manager ~~((and))~~, contracting carrier, or both;

(iii) Fine the health care benefit manager up to five thousand dollars per violation, and the contracting carrier is subject to a fine for acts conducted under the contract;

(iv) Issue an order requiring corrective action against the health care benefit manager, the contracting carrier acting with the health care benefit manager, or both the health care benefit manager and the contracting carrier acting with the health care benefit manager; and

(v) Temporarily suspend the health care benefit manager's registration by an order served by mail or by personal service upon the health care benefit manager not less than three days prior to the suspension effective date. The order must contain a notice of revocation and include a finding that the public safety or welfare requires emergency action. A temporary suspension under this subsection (3)(f)(v) continues until proceedings for revocation are concluded.

(4) A stay of action is not available for actions the commissioner takes by cease and desist order, by order on hearing, or by temporary suspension.

(5)(a) Health carriers and employee benefits programs are responsible for the compliance of any person or organization acting directly or indirectly on behalf of or at the direction of the carrier or program, or acting pursuant to carrier or program standards or requirements concerning the coverage of, payment for, or provision of health care benefits, services, drugs, and supplies.

(b) A carrier or program contracting with a health care benefit manager is responsible for the health care benefit manager's violations of this chapter, including a health care benefit manager's failure to produce records requested or required by the commissioner.

(c) No carrier or program may offer as a defense to a violation of any provision of this chapter that the violation arose from the act or omission of a health care benefit manager, or other person acting on behalf of or at the direction of the carrier or program,

SECOND READING

SENATE BILL NO. 6179, by Senators MacEwen, Keiser, and Nguyen

THIRTY SIXTH DAY, FEBRUARY 12, 2024

Concerning the use of biometric age verification by liquor licensees.

MOTIONS

On motion of Senator MacEwen, Substitute Senate Bill No. 6179 was substituted for Senate Bill No. 6179 and the substitute bill was placed on the second reading and read the second time.

SUBSTITUTE SENATE BILL NO. 6179, by Senate Committee on Labor & Commerce (originally sponsored by MacEwen, Keiser, and Nguyen)

Senator MacEwen moved that the following striking amendment no. 642 by Senator MacEwen be adopted:

Strike everything after the enacting clause and insert the following:

"Sec. 1. RCW 66.20.170 and 2016 c 235 s 7 are each amended to read as follows:

(1) A card of identification may for the purpose of this title and for the purpose of procuring liquor, be accepted (~~(as an identification card)~~) by any licensee (~~and~~) as evidence of legal age of the person presenting such card, provided the licensee complies with the conditions and procedures prescribed herein and such regulations as may be made by the board.

(2)(a) A biometric age verification system may for the purpose of this title and for the purpose of procuring liquor, be relied upon by any licensee as evidence of legal age of the person using the biometric age verification system, provided the licensee complies with the conditions and procedures prescribed herein and such regulations as may be made by the board.

(b) A biometric age verification system must:

(i) Use a biometric system;

(ii) Use an electronic authorization process and processes to verify the validity of a card of identification and the identity of the holder of such card of identification;

(iii) Verify the person enrolling in the biometric system is the same as the card of identification holder and securely store the data captured from the card of identification in the biometric system;

(iv) Provide an indication that the card of identification holder meets the age eligibility requirement upon future scans of the biometric characteristic used in the biometric system; and

(v) Maintain records as established by the board.

(c) Use of a biometric age verification system is a mitigating circumstance the board may consider to impose a different penalty than the standard penalties established by the board.

(d) The use of a biometric age verification system is optional for a licensee and a person procuring liquor. Any licensee that relies on a biometric age verification system shall post near its entrance a notice visible to the public that a card of identification may be presented as evidence of legal age of a person instead of participation in the biometric age verification system. When a purchase of liquor occurs separate from a physical point of sale location, the notice must be provided wherever consumers are directed to a biometric age verification system.

(3) A licensee may not collect a person's biometric identifiers to be used in a biometric age verification system except with consent from the person. The consent required under this section must be obtained before enrolling in the biometric system. Consumers must be informed of the categories of data that will be collected, including the specific ways in which it will be used

consistent with this chapter, and how a consumer may withdraw consent and request deletion of the data collected.

(4) No person may utilize any data collected for a biometric age verification system pursuant to this section for any purpose other than for age verification for the purchase of liquor. Such transaction may include the purchase of other products and services concurrently with the purchase of liquor.

(5) The legislature finds that the practices regarding biometric age verification systems covered by this section are matters vitally affecting the public interest for the purpose of applying the consumer protection act, chapter 19.86 RCW. A violation of this section by a biometric age verification system provider is not reasonable in relation to the development and preservation of business and is an unfair or deceptive act in trade or commerce and an unfair method of competition for purposes of applying the consumer protection act, chapter 19.86 RCW. This section related to biometric age verification systems may be enforced solely by the attorney general under the consumer protection act, chapter 19.86 RCW.

NEW SECTION. Sec. 2. A new section is added to chapter 66.20 RCW to read as follows:

The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Biometric identifier" means data that is generated from the measurement or technological processing of an individual's biological characteristics and that identifies a consumer including, but not limited to, retina or iris scans, scans of face geometry, fingerprint or palmprint mapping, and voiceprints that are used to identify a specific individual. "Biometric identifier" does not include a physical or digital photograph, video or audio recording or data generated therefrom, or information collected, used, or stored for health care treatment, payment, or operations under the federal health insurance portability and accountability act of 1996.

(2) "Biometric system" means an automated identification system used to capture, process, and store a biometric identifier, compare the biometric identifier to one or more references, and match the biometric identifier to a specific individual.

(3) "Card of identification" means identification issued by any United States state, United States territory, or the District of Columbia, tribal or federal government, as well as any physical identification document issued by a foreign government that contains the holder's photos, date of birth, and signature except on United States federally issued identification where a visible signature is not required.

(4) "Consent" means a clear affirmative act that signifies a consumer's freely given, specific, informed, voluntary, and unambiguous agreement, which may include written consent provided by electronic means. "Consent" may not be obtained by:

(a) A consumer's acceptance of a general or broad terms of use agreement or a similar document that contains descriptions of personal data processing along with other unrelated information; or

(b) A consumer's agreement obtained through the use of deceptive designs.

(5) "Deceptive designs" means a user interface designed or manipulated with the effect of subverting or impairing user autonomy, decision making, or choice."

On page 1, line 2 of the title, after "licensees;" strike the remainder of the title and insert "amending RCW 66.20.170; and adding a new section to chapter 66.20 RCW."

Senators MacEwen and Keiser spoke in favor of adoption of the striking amendment.

ROLL CALL

The President declared the question before the Senate to be the adoption of striking amendment no. 642 by Senator MacEwen to Substitute Senate Bill No. 6179.

The motion by Senator MacEwen carried and striking amendment no. 642 was adopted by voice vote.

MOTION

On motion of Senator MacEwen, the rules were suspended, Engrossed Substitute Senate Bill No. 6179 was advanced to third reading, the second reading considered the third and the bill was placed on final passage.

(2) (~~(Beginning)~~) (a)(i) Except for qualified individuals residing outside of Washington as provided in (a)(ii) of this subsection, beginning July 1, 2026, a qualified individual may become an eligible beneficiary by filing an application with the department of social and health services and undergoing an eligibility determination which includes an evaluation that the

individual requires assistance with at least three activities of daily living(~~(-)~~), as defined by the department of social and health services for long-term services and supports programs, which is expected to last for at least 90 days.

(ii) For a qualified individual residing outside of Washington, beginning January 1, 2030, the out-of-state qualified individual may become an eligible beneficiary by filing an application with the department of social and health services and undergoing an eligibility determination. The eligibility determination must include an evaluation that the individual either (A) is unable to perform, without substantial assistance from another individual, at least two of the following activities of daily living for a period of at least 90 days due to a loss of functional capacity: Eating, toileting, transferring, bathing, dressing, or continence, or (B) requires substantial supervision to protect such individual from threats to health and safety due to severe cognitive impairments.

(b) The department of social and health services must engage sufficient qualified assessor capacity, including via contract, so that the determination may be made within 45 days from receipt of a request by a beneficiary to use a benefit.

(3)(a) An eligible beneficiary may receive approved services and benefits through the program in the form of a benefit unit payable to a (~~(registered)~~) long-term services and supports provider.

(b) Except as limited in RCW 50B.04.050(2), an eligible beneficiary may not receive more than the dollar equivalent of 365 benefit units over the course of the eligible beneficiary's lifetime.

(i) If the department of social and health services reimburses a long-term services and supports provider for approved services provided to an eligible beneficiary and the payment is less than the benefit unit, only the portion of the benefit unit that is used shall be taken into consideration when calculating the person's remaining lifetime limit on receipt of benefits.

(ii) Eligible beneficiaries may combine benefit units to receive more approved services per day as long as the total number of lifetime benefit units has not been exceeded.

Sec. 8. RCW 50B.04.070 and 2019 c 363 s 8 are each amended to read as follows:

(1)(a) Benefits provided under this chapter shall be paid periodically and promptly to (~~(registered)~~) long-term services and supports providers(~~(-~~

~~(2))~~) who provide approved services to:

(i) Eligible beneficiaries in Washington if the long-term services and supports provider is registered with the department of social and health services; and

(ii) Eligible beneficiaries outside Washington if the long-term services and supports providers meet minimum standards established by the department.

(b) The department of social and health services may contract with a third party to administer payments to long-term services and supports providers providing services to eligible beneficiaries whether inside or outside of Washington.

(c) Qualified family members may be paid for approved personal care services in the same way as individual providers, through a licensed home care agency, or through a third option if recommended by the commission and adopted by the department of social and health services.

(2) The department of social and health services shall establish payment methods and procedures that are most appropriate and efficient for the different categories of service providers identified in subsection (1) of this section, including collaboration with other agencies and contracting with third parties, as necessary.

Sec. 9. RCW 50B.04.100 and 2019 c 363 s 11 are each amended to read as follows:

(1) The long-term services and supports trust account is created in the custody of the state treasurer. All receipts from employers under RCW 50B.04.080 and from out-of-state participants under section 1 of this act, delinquent premiums, penalties, and interest received pursuant to sections 10 and 11 of this act, and any funds attributable to savings derived through a waiver with the federal centers for medicare and medicaid services pursuant to RCW 50B.04.130 must be deposited in the account. Expenditures from the account may be used for the administrative activities of the department of social and health services, the health care authority, and the employment security department. Benefits associated with the program must be disbursed from the account by the department of social and health services. Only the secretary of the department of social and health services or the secretary's designee may authorize disbursements from the account. The account is subject to the allotment procedures under chapter 43.88 RCW. An appropriation is required for administrative expenses, but not for benefit payments. The account must provide reimbursement of any amounts from other sources that may have been used for the initial establishment of the program.

(2) The revenue generated pursuant to this chapter shall be utilized to expand long-term care in the state. These funds may not be used either in whole or in part to supplant existing state or county funds for programs that meet the definition of approved services.

(3) The moneys deposited in the account must remain in the account until expended in accordance with the requirements of this chapter. If moneys are appropriated for any purpose other than supporting the long-term services and supports program, the legislature shall notify each qualified individual by mail that the person's premiums have been appropriated for an alternate use, describe the alternate use, and state its plan for restoring the funds so that premiums are not increased and benefits are not reduced.

NEW SECTION. Sec. 10. A new section is added to chapter 50B.04 RCW to read as follows:

(1) In the form and at the times specified in this chapter and by the commissioner of the employment security department, an employer shall make reports, furnish information, and collect and remit premiums as required by this chapter to the employment security department. If the employer is a temporary help company that provides employees on a temporary basis to its customers, the temporary help company is considered the employer for purposes of this section.

(2)(a) An employer must keep at the employer's place of business a record of employment, for a period of six years, from which the information needed by the employment security department for purposes of this chapter may be obtained. This record shall at all times be open to the inspection of the commissioner of the employment security department.

(b) Information obtained under this chapter from employer records is confidential and not open to public inspection, other than to public employees in the performance of their official duties. An interested party, however, shall be supplied with information from employer records to the extent necessary for the proper presentation of the case in question. An employer may authorize inspection of the employer's records by written consent.

(3) The requirements relating to the collection of long-term services and supports trust program premiums are as provided in this chapter. Before issuing a warning letter or collecting penalties, the employment security department shall enforce the collection of premiums through conference and conciliation. These requirements apply to:

(a) An employer that fails under this chapter to make the required reports, or fails to remit the full amount of the premiums when due;

(b) An employer that willfully makes a false statement or misrepresentation regarding a material fact, or willfully fails to report a material fact, to avoid making the required reports or remitting the full amount of the premiums when due under this chapter;

(c) A successor in the manner specified in employment security department rules; and

(d) An officer, member, or owner having control or supervision of payment or reporting of long-term services and supports trust program premiums, or who is charged with the responsibility for the filing of returns, in the manner specified in subsection (4) of this section.

(4)(a) An employer who willfully fails to make the required reports is subject to penalties as follows: (i) For the second occurrence, the penalty is \$75; (ii) for the third occurrence, the penalty is \$150; and (iii) for the fourth occurrence and for each occurrence thereafter, the penalty is \$250.

(b) An employer who willfully fails to remit the full amount of the premiums when due is liable, in addition to the full amount of premiums due and amounts assessed as interest under subsection (5) of this section, to a penalty equal to the premiums and interest.

(c) Any penalties under this section shall be deposited into the account.

(d) For the purposes of this subsection, "willful" means a knowing and intentional action that is neither accidental nor the result of a bona fide dispute.

(e) The employment security department shall enforce the collection of penalties through conference and conciliation.

(5) Appeals of actions under this section are governed by RCW 50B.04.120.

NEW SECTION. Sec. 11. A new section is added to chapter 50B.04 RCW to read as follows:

(1) At any time after the commissioner of the employment security department finds that any premiums, interest, or penalties have become delinquent, the commissioner of the employment security department may issue an order and notice of assessment specifying the amount due. The order and notice of assessment shall be served upon the delinquent employer in the manner prescribed for the service of a summons in a civil action, or using a method by which the mailing can be tracked or the delivery can be confirmed. Failure of the employer to receive the notice or order, whether served or mailed, shall not release the employer from any tax, or any interest or penalties.

(2) If the commissioner of the employment security department has reason to believe that an employer is insolvent or if any reason exists why the collection of any premiums accrued will be jeopardized by delaying collection, the commissioner of the employment security department may make an immediate assessment of the premiums and may proceed to enforce collection immediately, but interest and penalties shall not begin to accrue upon any premiums until the date when such premiums would normally have become delinquent.

(3) If premiums are not paid on the date on which they are due and payable as prescribed by the commissioner of the employment security department, the whole or part thereof remaining unpaid shall bear interest at the rate of one percent per month or fraction thereof from and after such date until payment plus accrued interest is received by the commissioner of the employment security department. The date as of which payment of premiums, if mailed, is deemed to have been received may be determined by such regulations as the commissioner of the employment security department may prescribe. Interest collected pursuant to this section shall be paid into the account. Interest shall not accrue on premiums from any estate in the hands of a receiver, executor, administrator, trustee in bankruptcy,

THIRTY SIXTH DAY, FEBRUARY 12, 2024

common law assignee, or other liquidating officer subsequent to the date when such receiver, executor, administrator, trustee in bankruptcy, common law assignee, or other liquidating officer qualifies as such, but premiums accruing with respect to employment of persons by any receiver, executor, administrator, trustee in bankruptcy, common law assignee, or other liquidating officer shall become due and shall draw interest in the same manner as premiums due from other employers. Where adequate information has been furnished to the employment security department and the employment security department has failed to act or has advised the employer of no liability or inability to decide the issue, interest may be waived.

(4)(a) If the amount of premiums, interest, or penalties assessed by the commissioner of the employment security department by order and notice of assessment provided in this chapter is not paid within 10 days after the service or mailing of the order and notice of assessment, the commissioner of the employment security department or a duly authorized representative may collect the amount stated in the assessment by the distraint, seizure, and sale of the property, goods, chattels, and effects of the delinquent employer. Goods and property that are exempt from execution under the laws of this state are exempt from distraint and sale under this section.

(b) The commissioner of the employment security department, upon making a distraint, shall seize the property and shall make an inventory of the distrained property, a copy of which shall be mailed to the owner of the property or personally delivered to the owner, and shall specify the time and place when the property shall be sold. A notice specifying the property to be sold and the time and place of sale shall be posted in at least two public places in the county in which the seizure has been made. The time of sale shall be not less than 10 nor more than 20 days from the date of posting of the notices. The sale may be adjourned from time to time at the discretion of the commissioner of the employment security department, but not for a time to exceed a total of 60 days. The sale shall be conducted by the commissioner of the employment security department or a representative who shall proceed to sell the property by parcel or by lot at a public auction, and who may set a minimum price to include the expenses of making a levy and of advertising the sale, and if the amount bid for such property at the sale is not equal to the minimum price so fixed, the commissioner of the employment security department or a representative may declare the property to be purchased by the employment security department for the minimum price. In such event the delinquent account shall be credited with the amount for which the property has been sold. Property acquired by the employment security department as prescribed in this subsection (4) may be sold by the commissioner of the employment security department or a representative at public or private sale, and the amount realized shall be placed in the account. In all cases of sale under this subsection (4), the commissioner of the employment security department shall issue a bill of sale or a deed to the purchaser and the bill of sale or deed shall be prima facie evidence of the right of the commissioner of the employment security department to make the sale and conclusive evidence of the regularity of the commissioner of the employment security department proceeding in making the sale, and shall transfer to the purchaser all right, title, and interest of the delinquent employer in the property. The proceeds of any sale under this subsection (4), except in those cases in which the property has been acquired by the employment security department, shall be first applied by the commissioner of the employment security department in satisfaction of the delinquent account, and out of any sum received in excess of the amount of delinquent premiums, interest, and penalties the account shall be

reimbursed for the costs of distraint and sale. Any excess amounts held by the commissioner of the employment security department shall be refunded to the delinquent employer. Amounts held by the commissioner of the employment security department that are refundable to a delinquent employer may be subject to seizure or distraint by any other taxing authority of the state or its political subdivisions.

(5) The commissioner of the employment security department may issue to any person, firm, corporation, political subdivision, or department of the state, a notice and order to withhold and deliver property of any kind when the commissioner of the employment security department has reason to believe that there is in the possession of such person, firm, corporation, political subdivision, or department, property which is due, owing, or belonging to any person, firm, or corporation upon whom the employment security department has served a notice and order of assessment for premiums, interest, or penalties. The effect of a notice to withhold and deliver shall be continuous from the date the notice and order to withhold and deliver is first made until the liability is satisfied or becomes unenforceable because of a lapse of time. The notice and order to withhold and deliver shall be served by the sheriff or the sheriff's deputy of the county in which the service is made, using a method by which the mailing can be tracked or the delivery can be confirmed, or by any duly authorized representative of the commissioner of the employment security department. Any person, firm, corporation, political subdivision, or department upon whom service has been made must answer the notice within 20 days exclusive of the day of service, under oath and in writing, and must truthfully answer the matters inquired of in the notice. In the event there is in the possession of any such person, firm, corporation, political subdivision, or department, any property which may be subject to the claim of the employment security department of the state, the property must be delivered immediately to the commissioner of the employment security department or a representative upon demand to be held in trust by the commissioner of the employment security department for application on the indebtedness involved or for return, without interest, in accordance with final determination of liability or nonliability, or in the alternative, a good and sufficient bond satisfactory to the commissioner of the employment security department must be provided conditioned upon final determination of liability. If any person, firm, or corporation fails to answer an order to withhold and deliver within the time prescribed in this subsection (5), it shall be lawful for the court, after the time to answer the order has expired, to render judgment by default against such person, firm, or corporation for the full amount claimed by the commissioner in the notice to withhold and deliver, together with costs.

(6) Whenever any order and notice of assessment or jeopardy assessment has become final in accordance with the provisions of this chapter the commissioner of the employment security department may file with the clerk of any county within the state a warrant in the amount of the notice of assessment plus interest, penalties, and a filing fee under RCW 36.18.012(10). The clerk of the county in which the warrant is filed shall immediately designate a superior court cause number for the warrant, and the clerk shall cause to be entered in the judgment docket under the superior court cause number assigned to the warrant, the name of the employer mentioned in the warrant, the amount of the tax, interest, penalties, and filing fee and the date when such warrant was filed. The aggregate amount of the warrant as docketed shall become a lien upon the title to, and interest in all real and personal property of the employer against whom the warrant is issued, the same as a judgment in a civil case duly docketed in the office of such clerk. The warrant so docketed shall be sufficient to support

the issuance of writs of execution and writs of garnishment in favor of the state in the manner provided by law in the case of civil judgment, wholly or partially unsatisfied. The clerk of the court shall be entitled to a filing fee under RCW 36.18.012(10), which shall be added to the amount of the warrant, and charged by the commissioner of the employment security department to the employer. A copy of the warrant shall be mailed to the employer using a method by which the mailing can be tracked or the delivery can be confirmed within five days of filing with the clerk.

(7) The claim of the employment security department for any premiums, interest, or penalties not paid when due, shall be a lien prior to all other liens or claims and on a parity with prior tax liens against all property and rights to property, whether real or personal, belonging to the employer. In order to avail itself of the lien hereby created, the employment security department shall file with any county auditor where property of the employer is located a statement and claim of lien specifying the amount of delinquent premiums, interest, and penalties claimed by the employment security department. From the time of filing for record, the amount required to be paid shall constitute a lien upon all property and rights to property, whether real or personal, in the county, owned by the employer or acquired by the employer. The lien shall not be valid against any purchaser, holder of a security interest, mechanic's lien, or judgment lien creditor until notice thereof has been filed with the county auditor. This lien shall be separate and apart from, and in addition to, any other lien or claim created by, or provided for in, this chapter. When any such notice of lien has been so filed, the commissioner of the employment security department may release the lien by filing a certificate of release when it appears that the amount of delinquent premiums, interest, and penalties have been paid, or when the assurance of payment shall be made as the commissioner of the employment security department may deem to be adequate. Fees for filing and releasing the lien provided herein may be charged to the employer and may be collected from the employer utilizing the remedies provided in this chapter for the collection of premiums.

(8) In the event of any distribution of an employer's assets pursuant to an order of any court, including any receivership, probate, legal dissolution, or similar proceeding, or in case of any assignment for the benefit of creditors, composition, or similar proceeding, premiums, interest, or penalties due shall be a lien upon all the assets of such employer. The lien is prior to all other liens or claims except prior tax liens, other liens provided by this chapter, and claims for remuneration for services of not more than \$250 to each claimant earned within six months of the commencement of the proceeding. The mere existence of a condition of insolvency or the institution of any judicial proceeding for legal dissolution or of any proceeding for distribution of assets shall cause such a lien to attach without action on behalf of the commissioner of the employment security department or the state. In the event of an employer's adjudication in bankruptcy, judicially confirmed extension proposal, or composition, under the federal bankruptcy act of 1898, as amended, premiums, interest, or penalties due shall be entitled to such priority as provided in that act, as amended.

(9)(a) If after due notice, any employer defaults in any payment of premiums, interest, or penalties, the amount due may be collected by civil action in the name of the state, and the employer adjudged in default shall pay the cost of such action. Any lien created by this chapter may be foreclosed by decree of the court in any such action. Civil actions brought under this chapter to collect premiums, interest, or penalties from an employer shall be heard by the court at the earliest possible date and shall be entitled to preference upon the calendar of the court over all other civil

actions except petitions for judicial review under this chapter, cases arising under the unemployment compensation laws of this state, and cases arising under the industrial insurance laws of this state.

(b) Any employer that is not a resident of this state and that exercises the privilege of having one or more individuals perform service for it within this state, and any resident employer that exercises that privilege and thereafter removes from this state, shall be deemed thereby to appoint the secretary of state as its agent and attorney for the acceptance of process in any action under this chapter. In instituting such an action against any such employer the commissioner of the employment security department shall cause process or notice to be filed with the secretary of state and the service shall be sufficient service upon the employer, and shall be of the same force and validity as if served upon it personally within this state: PROVIDED, That the commissioner of the employment security department shall immediately send notice of the service of the process or notice, together with a copy thereof, by registered mail, return receipt requested, to such employer at its last known address and the return receipt, the commissioner's affidavit of compliance with the provisions of this section, and a copy of the notice of service shall be appended to the original of the process filed in the court in which such action is pending.

(10) Any employer who is delinquent in the payment of premiums, interest, or penalties may be enjoined upon the suit of the state of Washington from continuing in business in this state or employing persons herein until the delinquent premiums, interest, and penalties have been paid, or until the employer has furnished a good and sufficient bond in a sum equal to double the amount of premiums, interest, and penalties already delinquent, plus further sums as the court deems adequate to protect the employment security department in the collection of premiums, interest, and penalties which will become due from the employer during the next ensuing calendar year, the bond to be conditioned upon payment of all premiums, interest, and penalties due and owing within thirty days after the expiration of the next ensuing calendar year or at an earlier date as the court may fix. Action under this section may be instituted in the superior court of any county of the state in which the employer resides, has its principal place of business, or where it has anyone performing services for it, whether or not those services constitute employment.

(11) The commissioner of the employment security department may compromise any claim for premiums, interest, or penalties due and owing from an employer, and any amount owed by an individual because of benefit overpayments existing or arising under this chapter in any case in which collection of the full amount due and owing, whether reduced to judgment or otherwise, would be against equity and good conscience. Whenever a compromise is made by the commissioner of the employment security department in the case of a claim for premiums, interest, or penalties, whether reduced to judgment or otherwise, the employment security department shall file a statement of the amount of premiums, interest, and penalties imposed by law and claimed due, attorneys' fees and costs, if any, a complete record of the compromise agreement, and the amount actually paid in accordance with the terms of the compromise agreement. If any such compromise is accepted by the commissioner of the employment security department, within the time stated in the compromise or agreed to, that compromise shall be final and conclusive and except upon showing of fraud or malfeasance or misrepresentation of a material fact the case shall not be reopened as to the agreed upon matters. In any suit, action, or proceeding, such agreement or any determination, collection, payment, adjustment, refund, or credit made in accordance

THIRTY SIXTH DAY, FEBRUARY 12, 2024

therewith shall not be annulled, modified, set aside, or disregarded.

(12) The commissioner of the employment security department may charge off as uncollectible and no longer an asset of the account, any delinquent premiums, interest, penalties, credits, or benefit overpayments if the commissioner of the employment security department is satisfied that there are no cost-effective means of collecting the premiums, interest, penalties, credits, or benefit overpayments.

NEW SECTION. Sec. 12. A new section is added to chapter 50B.04 RCW to read as follows:

(1) When a qualified individual applies for benefits as provided in RCW 50B.040.060, the department of social and health services must: (a) Ask whether the qualified individual has supplemental long-term care insurance as provided in chapter 48.-- RCW (the new chapter created in section 37 of this act); and (b) request written consent and the policy issuer's contact information from the qualified individual to share information with the policy issuer for any potential care coordination.

(2) If the individual provides written consent and the policy issuer's contact information, the department of social and health services must notify the policy issuer that the qualified individual has applied for benefits under this chapter and may share information for any potential care coordination.

(3) Only basic demographic information that would allow a person to be identified in the program may be shared if the qualified individual consents to sharing information. No health information or data on claims may be shared.

NEW SECTION. Sec. 13. (1) The department of social and health services, the employment security department, and the health care authority may design and conduct a pilot project to assess the administrative processes and system capabilities for managing eligibility determinations for qualified individuals and distributing payments to long-term services and supports providers. The pilot project may identify persons who are eligible to be qualified individuals and offer them access to benefit units under the program in return for their participation in the pilot project. The pilot project may only be conducted between January 1, 2026, and June 30, 2026. The pilot project may not have more than 500 participants.

(2) When designing and implementing the pilot project, the agencies identified in subsection (1) of this section must provide regular updates to and consider recommendations from the long-term services and supports trust commission. Upon completion of the pilot project, the agencies must provide a summary of the pilot project, including key operational challenges, to the commission. The commission may include any outstanding concerns identified by the pilot project that require a legislative response in the commission's 2027 report.

(3) The employment security department may adopt rules necessary to implement this section.

(4) This section expires July 1, 2027.

NEW SECTION. Sec. 14. The intent of this chapter is to promote the public interest, support the availability of supplemental long-term care coverage, establish standards for supplemental long-term care coverage, facilitate public understanding and comparison of supplemental long-term care contract benefits, protect persons insured under supplemental long-term care insurance policies and certificates, protect applicants for supplemental long-term care policies from unfair or deceptive sales or enrollment practices, and provide for flexibility and innovation in the development of supplemental long-term care insurance coverage.

NEW SECTION. Sec. 15. (1) This chapter applies to all supplemental long-term care insurance policies, contracts, or

riders delivered or issued for delivery in this state on or after January 1, 2026. This chapter does not supersede the obligations of entities subject to this chapter to comply with other applicable laws to the extent that they do not conflict with this chapter, except that laws and regulations designed and intended to apply to medicare supplement insurance policies shall not be applied to supplemental long-term care insurance.

(2) Coverage advertised, marketed, or offered as supplemental long-term care insurance must comply with this chapter. Any coverage, policy, or rider advertised, marketed, or offered as supplemental long-term care or nursing home insurance shall comply with this chapter.

(3) This chapter is not intended to prohibit approval of supplemental long-term care funded through life insurance policies, contracts, or riders, provided the policy meets the definition of supplemental long-term care insurance and provides all required benefits of this chapter.

NEW SECTION. Sec. 16. The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Applicant" means: (a) In the case of an individual supplemental long-term care insurance policy, the person who seeks to contract for benefits; and (b) in the case of a group supplemental long-term care insurance policy, the proposed certificate holder.

(2) "Certificate" includes any certificate issued under a group supplemental long-term care insurance policy that has been delivered or issued for delivery in this state.

(3) "Commissioner" means the insurance commissioner of Washington state.

(4) "Issuer" includes insurance companies, fraternal benefit societies, health care service contractors, health maintenance organizations, or other entity delivering or issuing for delivery any supplemental long-term care insurance policy, contract, or rider.

(5) "Group supplemental long-term care insurance" means a supplemental long-term care insurance policy or contract that is delivered or issued for delivery in this state and is issued to:

(a) One or more employers; one or more labor organizations; or a trust or the trustees of a fund established by one or more employers or labor organizations for current or former employees, current or former members of the labor organizations, or a combination of current and former employees or members, or a combination of such employers, labor organizations, trusts, or trustees; or

(b) A professional, trade, or occupational association for its members or former or retired members, if the association:

(i) Is composed of persons who are or were all actively engaged in the same profession, trade, or occupation; and

(ii) Has been maintained in good faith for purposes other than obtaining insurance; or

(c)(i) An association, trust, or the trustees of a fund established, created, or maintained for the benefit of members of one or more associations. Before advertising, marketing, or offering supplemental long-term care coverage in this state, the association or associations, or the insurer of the association or associations, must file evidence with the commissioner that the association or associations have at the time of such filing at least 100 persons who are members and that the association or associations have been organized and maintained in good faith for purposes other than that of obtaining insurance; have been in active existence for at least one year; and have a constitution and bylaws that provide that:

(A) The association or associations hold regular meetings at least annually to further the purposes of the members; or

(B) Except for credit unions, the association or associations collect dues or solicit contributions from members; and

(C) The members have voting privileges and representation on the governing board and committees of the association.

(ii) Thirty days after filing the evidence in accordance with this section, the association or associations will be deemed to have satisfied the organizational requirements, unless the commissioner makes a finding that the association or associations do not satisfy those organizational requirements; or

(d) A group other than as described in (a), (b), or (c) of this subsection subject to a finding by the commissioner that:

(i) The issuance of the group policy is not contrary to the best interest of the public;

(ii) The issuance of the group policy would result in economies of acquisition or administration; and

(iii) The benefits are reasonable in relation to the premiums charged.

(6) "Policy" includes a document such as an insurance policy, contract, subscriber agreement, rider, or endorsement delivered or issued for delivery in this state by an insurer, fraternal benefit society, health care service contractor, health maintenance organization, or any similar entity authorized by the insurance commissioner to transact the business of supplemental long-term care insurance.

(7) "Qualified supplemental long-term care insurance contract" or "federally tax-qualified supplemental long-term care insurance contract" means:

(a) An individual or group insurance contract that meets the requirements of section 7702B(b) of the internal revenue code of 1986, as amended; or

(b) The portion of a life insurance contract that provides supplemental long-term care insurance coverage by rider or as part of the contract and that satisfies the requirements of sections 7702B(b) and (e) of the internal revenue code of 1986, as amended.

(8) "Supplemental long-term care insurance" means an insurance policy, contract, or rider that is advertised, marketed, offered, or designed to provide coverage for at least 12 consecutive months for a covered person after benefits provided under chapter 50B.04 RCW have been exhausted. Supplemental long-term care insurance may be on an expense incurred, indemnity, prepaid, or other basis, for one or more necessary or medically necessary diagnostic, preventive, therapeutic, rehabilitative, maintenance, or personal care services, provided in a setting other than an acute care unit of a hospital. Supplemental long-term care insurance includes any policy, contract, or rider that provides for payment of benefits based upon cognitive impairment or the loss of functional capacity that supplements benefits provided in chapter 50B.04 RCW.

(a) Supplemental long-term care insurance includes group and individual annuities and life insurance policies or riders that provide directly or supplement long-term care insurance and that supplements benefits provided in chapter 50B.04 RCW. However, supplemental long-term care insurance does not include life insurance policies that: (i) Accelerate the death benefit specifically for one or more of the qualifying events of terminal illness, medical conditions requiring extraordinary medical intervention, or permanent institutional confinement; (ii) provide the option of a lump sum payment for those benefits; and (iii) do not condition the benefits or the eligibility for the benefits upon the receipt of long-term care.

(b) Supplemental long-term care insurance also includes qualified supplemental long-term care insurance contracts.

(c) Supplemental long-term care insurance does not include any insurance policy, contract, or rider that is offered primarily to

provide coverage for basic medicare supplement, basic hospital expense, basic medical-surgical expense, hospital confinement indemnity, major medical expense, disability income, related income, asset protection, accident only, specified disease, specified accident, or limited benefit health. These may not be marketed to consumers as providing coverage that is supplemental to the long-term care benefits provided in chapter 50B.04 RCW.

NEW SECTION. Sec. 17. A group supplemental long-term care insurance policy may not be offered to a resident of this state under a group policy issued in another state to a group described in section 16(5)(d) of this act, unless this state or another state having statutory and regulatory supplemental long-term care insurance requirements substantially similar to those adopted in this state has made a determination that such requirements have been met.

NEW SECTION. Sec. 18. (1) A supplemental long-term care insurance policy or certificate may not define "preexisting condition" more restrictively than as a condition for which medical advice or treatment was recommended by or received from a provider of health care services, within six months preceding the effective date of coverage of an insured person, unless the policy or certificate applies to group supplemental long-term care insurance under section 16(5) (a), (b), or (c) of this act.

(2) A supplemental long-term care insurance policy or certificate may not exclude coverage for a loss or confinement that is the result of a preexisting condition unless the loss or confinement begins within six months following the effective date of coverage of an insured person, unless the policy or certificate applies to a group as defined in section 16(5)(a) of this act.

(3) The commissioner may extend the limitation periods for specific age group categories in specific policy forms upon finding that the extension is in the best interest of the public.

(4) An issuer may use an application form designed to elicit the complete health history of an applicant and underwrite in accordance with that issuer's established underwriting standards, based on the answers on that application. Unless otherwise provided in the policy or certificate and regardless of whether it is disclosed on the application, a preexisting condition need not be covered until the waiting period expires.

(5) A supplemental long-term care insurance policy or certificate may not exclude or use waivers or riders to exclude, limit, or reduce coverage or benefits for specifically named or described preexisting diseases or physical conditions beyond the waiting period.

NEW SECTION. Sec. 19. (1) No supplemental long-term care insurance policy may:

(a) Be canceled, nonrenewed, or otherwise terminated on the grounds of the age or the deterioration of the mental or physical health of the insured individual or certificate holder;

(b) Contain a provision establishing a new waiting period in the event existing coverage is converted to or replaced by a new or other form within the same company, except with respect to an increase in benefits voluntarily selected by the insured individual or group policyholder;

(f) Condition eligibility for any benefits other than waiver of premium, postconfinement, postacute care, or recuperative benefits on a prior institutionalization requirement;

(g) Include a postconfinement, postacute care, or recuperative benefit unless:

(i)(i) Provide for a deductible that is greater than the maximum dollar equivalent provided in RCW 50B.04.060(3)(b), including inflation adjustments provided in RCW 50B.04.010(3), without the limitation provided in RCW 50B.04.050(2). The issuer may provide for a deductible that is less than the maximum dollar equivalent provided in RCW 50B.04.060(3)(b), especially for a policyholder born before 1968;

(ii) The issuer must accept notice from the department of social and health services that the policyholder has exhausted the benefits provided under chapter 50B.04 RCW as evidence of satisfying the deductible. However, for a policyholder born before 1968, the department must provide the amount of benefits paid under chapter 50B.04 RCW as evidence of payment toward the deductible;

(j) Include an elimination period of greater than 12 months. Any period of time the policyholder is considered an eligible beneficiary as defined in RCW 50B.04.010 must count toward any elimination period in a supplemental long-term care insurance policy. If the policy includes a deductible and an elimination period, the policy may provide that the elimination period is satisfied after the later of when the deductible or the elimination period has been met; and

(k) Require a policyholder to undergo a functional assessment to satisfy a benefit trigger to determine that the elimination period has begun or ended. However, the issuer may require the policyholder to undergo a functional assessment and apply a benefit trigger for purposes of approving a claim and authorizing benefits.

(2) A supplemental long-term care insurance policy or certificate may be field-issued if the compensation to the field issuer is not based on the number of policies or certificates issued. For purposes of this section, "field-issued" means a policy or certificate issued by a producer or a third-party administrator of the policy pursuant to the underwriting authority by an issuer and using the issuer's underwriting guidelines.

NEW SECTION. Sec. 20. (1) Supplemental long-term care insurance applicants may return a policy or certificate for any reason within 30 days after its delivery and to have the premium refunded.

(4) This section does not apply to certificates issued pursuant to a policy issued to a group defined in section 16(5)(a) of this act.

NEW SECTION. Sec. 21. (1) An outline of coverage must be delivered to a prospective applicant for supplemental long-term care insurance at the time of initial solicitation through means that

prominently direct the attention of the recipient to the document and its purpose.

(a) The commissioner must prescribe a standard format, including style, arrangement, overall appearance, and the content of an outline of coverage. The outline of coverage must also include a disclosure:

(i) Of how the supplemental long-term care insurance interacts with benefits provided in chapter 50B.04 RCW and any potential gaps in coverage or discontinuities of care between benefits provided under chapter 50B.04 RCW and the policy;

(ii) That the premiums may increase over time and an explanation of the conditions that may result in an increase in premiums;

(iii) If the policyholder's circumstances change or premiums increase and the policyholder is unable or unwilling to pay the increased premiums, the options available to the consumer, including a reduction in benefits and nonforfeiture of premiums;

(c) In a direct response solicitation, the outline of coverage must be presented with an application or enrollment form. The disclosures required under (a) of this subsection are required in any marketing materials.

(d) If a policy is issued to a group as defined in section 16(5)(a) of this act, an outline of coverage is not required to be delivered, if the information that the commissioner requires to be included in the outline of coverage is in other materials relating to enrollment. Upon request, any such materials must be made available to the commissioner.

(2) If an issuer approves an application for a supplemental long-term care insurance contract or certificate, the issuer must deliver the contract or certificate of insurance to the applicant within 30 days after the date of approval. A policy summary must be delivered with an individual life insurance policy that provides supplemental long-term care benefits within the policy or by rider. In a direct response solicitation, the issuer must deliver the policy summary, upon request, before delivery of the policy, if the applicant requests a summary.

(a) The policy summary must include:

(i) An explanation of how the supplemental long-term care benefit interacts with other components of the policy, including deductions from any applicable death benefits;

(ii) An illustration of the amount of benefits, the length of benefits, and the guaranteed lifetime benefits if any, for each covered person;

(iii) Any exclusions, reductions, and limitations on benefits of supplemental long-term care;

(iv) A statement that any supplemental long-term care inflation protection option required by section 27 of this act is not available under this policy unless the policy or rider provides for such inflation protections; and

(v) If applicable to the policy type, the summary must also include:

(A) A disclosure of the effects of exercising other rights under the policy;

(B) A disclosure of guarantees related to long-term care costs of insurance charges; and

(C) Current and projected maximum lifetime benefits.

(b) The provisions of the policy summary may be incorporated into a basic illustration required under chapter 48.23A RCW, or

into the policy summary which is required under rules adopted by the commissioner.

NEW SECTION. Sec. 22. A supplemental long-term care insurance policy, contract, or rider must:

(1) Allow the policyholder options for reduction of benefits or nonforfeiture of premiums as provided in section 28 of this act if the premiums increase or the policyholder's circumstances change and the policyholder is unable or unwilling to pay the increased premiums;

(2) Allow for continuity of coverage of care settings and providers, including family providers, that the policyholder was receiving as benefits under the program provided in chapter 50B.04 RCW unless there is substantial clinical or other information showing that the current care setting or provider cannot meet the care and safety needs of the policyholder. If the issuer makes a determination that the care setting or providers are not suited to meeting the care and safety needs of the policyholder, the issuer may require a change of care setting or provider under the policy, effective 90 days after the transition from the benefits provided under chapter 50B.04 RCW. The policyholder may appeal the determination through an independent third-party review as tracked by the commissioner. The issuer may audit for fraudulent claims where the care being claimed is not being provided; and

(3) Cover family providers, provided they are suited to meet the care and safety needs of the policyholder.

NEW SECTION. Sec. 23. (1) When a policyholder purchases a supplemental long-term care insurance policy, the issuer must request written consent from the policyholder to share information with the department of social and health services. If the policyholder provides written consent, the issuer must inform the department of social and health services that the policyholder has purchased a supplemental long-term care insurance policy and share any information with the department for the purposes of any potential care coordination.

(2) Only basic demographic information that would allow a person to be identified in the program provided in chapter 50B.04 RCW may be shared if the individual consents to sharing information. No health care information as defined in RCW 70.02.010 or data on claims may be shared.

NEW SECTION. Sec. 24. If a supplemental long-term care benefit funded through a life insurance policy by the acceleration of the death benefit is in benefit payment status, a monthly report must be provided to the policyholder. The report must include:

(1) A record of all supplemental long-term care benefits paid out during the month;

(2) An explanation of any changes in the policy resulting from paying the supplemental long-term care benefits, such as a change in the death benefit or cash values; and

(3) The amount of supplemental long-term care benefits that remain to be paid.

NEW SECTION. Sec. 25. (1) Within 30 calendar days after receipt of a written claim for benefits under a policy made by a policyholder or certificate holder, or the policyholder's representative, an insurer must:

(a) Pay benefits pursuant to the terms of the policy or certificate;

(b) Request additional information; or

(c) Deny the claim.

(2) Within 30 calendar days after receipt of all the additional information requested as provided in subsection (1)(b) of this section, an insurer must pay a claim for benefits pursuant to the terms of the policy or certificate or deny the claim.

(3) All denials of supplemental long-term care claims by the issuer must provide a written explanation of the reasons for the

denial and make available to the policyholder or certificate holder all information directly related to the denial.

NEW SECTION. Sec. 26. (1) An issuer may rescind a supplemental long-term care insurance policy or certificate or deny an otherwise valid supplemental long-term care insurance claim if:

(a) A policy or certificate has been in force for less than six months and upon a showing of misrepresentation that is material to the acceptance for coverage; or

(b) A policy or certificate has been in force for at least six months but less than two years, upon a showing of misrepresentation that is both material to the acceptance for coverage and that pertains to the condition for which benefits are sought.

(2) After a policy or certificate has been in force for two years it is not contestable upon the grounds of misrepresentation alone. Such a policy or certificate may be contested only upon a showing that the insured knowingly and intentionally misrepresented relevant facts relating to the insured's health.

(3) An issuer's payments for benefits under a supplemental long-term care insurance policy or certificate may not be recovered by the issuer if the policy or certificate is rescinded.

(4) This section does not apply to the remaining death benefit of a life insurance policy that accelerates benefits for supplemental long-term care that are governed by RCW 48.23.050 the state's life insurance incontestability clause. In all other situations, this section applies to life insurance policies that accelerate benefits for supplemental long-term care.

NEW SECTION. Sec. 27. (1) The commissioner must establish minimum standards for inflation protection features.

(2) An issuer must comply with the rules adopted by the commissioner that establish minimum standards for inflation protection features.

(3) In addition to complying with the rules adopted under this section, no issuer may offer a supplemental long-term care insurance policy in this state unless the issuer also offers to the policyholder, in addition to any other inflation protection, the option to purchase a policy that provides for benefit levels to increase by at least three percent annually.

(4) The inflation protections provided in this section do not apply to an individual life insurance policy that provides supplemental long-term care benefits within the policy or by rider. However, an insurer may provide inflation protections in an individual life insurance policy that provides supplemental long-term care benefits within the policy or by rider.

NEW SECTION. Sec. 28. (1) Except as provided by this section, a supplemental long-term care insurance policy may not be delivered or issued for delivery in this state unless the policyholder or certificate holder has been offered the option of purchasing a policy or certificate that includes a nonforfeiture benefit. The offer of a nonforfeiture benefit may be in the form of a rider that is attached to the policy. If a policyholder or certificate holder declines the nonforfeiture benefit, the issuer must provide a contingent benefit upon lapse that is available for a specified period of time following a substantial increase in premium rates.

(2) If a group supplemental long-term care insurance policy is issued, the offer required in subsection (1) of this section must be made to the group policyholder. However, if the policy is issued as group supplemental long-term care insurance as defined in section 16(5)(d) of this act other than to a continuing care retirement community or other similar entity, the offering must be made to each proposed certificate holder.

(3) The commissioner must adopt rules specifying the type or types of nonforfeiture benefits to be offered as part of supplemental long-term care insurance policies and certificates,

THIRTY SIXTH DAY, FEBRUARY 12, 2024

the standards for nonforfeiture benefits, and the rules regarding contingent benefit upon lapse, including a determination of the specified period of time during which a contingent benefit upon lapse will be available and the substantial premium rate increase that triggers a contingent benefit upon lapse.

NEW SECTION. Sec. 29. A person may not sell, solicit, or negotiate supplemental long-term care insurance unless the person is appropriately licensed as an insurance producer and has successfully completed supplemental long-term care coverage education that meets the requirements of this section.

(1) All supplemental long-term care education required by this chapter must meet the requirements of chapter 48.17 RCW and rules adopted by the commissioner.

(2)(a) Before soliciting, selling, or negotiating supplemental long-term care insurance coverage, an insurance producer must successfully complete a one-time education course consisting of no fewer than eight hours on long-term care coverage, the provisions of chapter 50B.04 RCW and any rules adopted to implement the program, long-term care services, other state and federal regulations and requirements for long-term care and qualified long-term care insurance coverage, changes or improvements in long-term care services or providers, alternatives to the purchase of long-term care insurance coverage, the effect of inflation on benefits and the importance of inflation protection, and consumer suitability standards and guidelines.

(4) Issuers must obtain verification that an insurance producer receives training required by this section before that producer is permitted to sell, solicit, or otherwise negotiate the issuer's supplemental long-term care insurance products.

(5) Issuers must maintain records subject to the state's record retention requirements and make evidence of that verification available to the commissioner upon request.

(6)(a) Issuers must maintain records with respect to the training of its producers concerning the distribution of its long-term care partnership policies that will allow the commissioner to provide

(b) These records must be maintained in accordance with the state's record retention requirements and be made available to the commissioner upon request.

NEW SECTION. Sec. 30. (1) Issuers and their agents, if any, must determine whether issuing supplemental long-term care insurance coverage to a particular person is appropriate, except in the case of a life insurance policy that accelerates benefits for supplemental long-term care.

(2) An issuer must:

(a) Develop and use suitability standards to determine whether the purchase or replacement of supplemental long-term care coverage is appropriate for the needs of the applicant or insured, using a best interest standard. The issuers and their agents must act in the best interests of the applicant or policyholder under the circumstances known at the time the recommendation is made, without putting the issuer or agent's financial interests ahead of the interests of the applicant or policyholder;

(b) Train its agents in the use of the issuer's suitability standards; and

(c) Maintain a copy of its suitability standards and make the standards available for inspection, upon request.

(3) The following must be considered when determining whether the applicant meets the issuer's suitability standards:

(b) The applicant's goals and needs with respect to supplemental long-term care and the advantages and disadvantages of supplemental long-term care coverage to meet those goals or needs; and

(c) The values, benefits, and costs of the applicant's existing health or long-term care coverage, if any, when compared to the values, benefits, and costs of the recommended purchase or replacement.

(4) The sale or transfer of any suitability information provided to the issuer or agent by the applicant to any other person or business entity is prohibited.

(5)(a) The commissioner must adopt rules on forms of consumer-friendly personal worksheets that issuers and their agents must use for applications for supplemental long-term care coverage.

(b) The commissioner may require each issuer to file its current forms of suitability standards and personal worksheets with the commissioner.

NEW SECTION. Sec. 31. A person engaged in the issuance or solicitation of supplemental long-term care coverage may not engage in unfair methods of competition or unfair or deceptive acts or practices, as such methods, acts, or practices are defined in chapter 48.30 RCW, or as defined by the commissioner.

NEW SECTION. Sec. 32. NEW SECTION. Sec. 33. (3) The commissioner must adopt by rule prompt payment requirements for supplemental long-term care insurance. The rules must include a definition of a "claim" and a definition of "clean claim." In adopting the rules, the commissioner must consider the prompt payment requirements in long-term care insurance model acts developed by the national association of insurance commissioners.

(4) The commissioner may adopt reasonable rules to carry out this chapter.

NEW SECTION. Sec. 34. (1) The commissioner must:

(a) Develop a consumer education guide designed to educate consumers and help them make informed decisions as to the purchase of supplemental long-term care insurance policies provided under this chapter; and

(2) The awareness campaign must focus on increasing awareness of the prevalence of hepatitis B and hepatitis C, the potential treatments and cures for hepatitis B and hepatitis C, and aim to reduce the stigmas surrounding hepatitis B and hepatitis C.

(3) This section expires December 31, 2027.

Sec. 3. RCW 43.70.613 and 2021 c 276 s 2 are each amended to read as follows:

(1) By January 1, 2024, the rule-making authority for each health profession licensed under Title 18 RCW subject to continuing education requirements must adopt rules requiring a licensee to complete health equity continuing education training at least once every four years.

(2) Health equity continuing education courses may be taken in addition to or, if a rule-making authority determines the course fulfills existing continuing education requirements, in place of other continuing education requirements imposed by the rule-making authority.

(3)(a) The secretary and the rule-making authorities must work collaboratively to provide information to licensees about available courses. The secretary and rule-making authorities shall consult with patients or communities with lived experiences of health inequities or racism in the health care system and relevant professional organizations when developing the information and must make this information available by July 1, 2023. The information should include a course option that is free of charge to licensees. It is not required that courses be included in the information in order to fulfill the health equity continuing education requirement.

(b) By January 1, 2023, the department, in consultation with the boards and commissions, shall adopt model rules establishing the minimum standards for continuing education programs meeting the requirements of this section. The department shall consult with patients or communities with lived experience of health inequities or racism in the health care system, relevant professional organizations, and the rule-making authorities in the development of these rules.

(c) The minimum standards must include instruction on skills to address the structural factors, such as bias, racism, and poverty, that manifest as health inequities. These skills include individual-level and system-level intervention, and self-reflection to assess how the licensee's social position can influence their relationship with patients and their communities. These skills enable a health care professional to care effectively for patients from diverse cultures, groups, and communities, varying in race, ethnicity, gender identity, sexuality, religion, age, ability, socioeconomic

status, and other categories of identity. The courses must assess the licensee's ability to apply health equity concepts into practice. Course topics may include, but are not limited to:

(i) Strategies for recognizing patterns of health care disparities on an individual, institutional, and structural level and eliminating factors that influence them;

(ii) Intercultural communication skills training, including how to work effectively with an interpreter and how communication styles differ across cultures;

(iii) Implicit bias training to identify strategies to reduce bias during assessment and diagnosis;

(iv) Methods for addressing the emotional well-being of children and youth of diverse backgrounds;

(v) Ensuring equity and antiracism in care delivery pertaining to medical developments and emerging therapies;

(vi) Structural competency training addressing five core competencies:

(A) Recognizing the structures that shape clinical interactions;

(B) Developing an extraclinical language of structure;

(C) Rearticulating "cultural" formulations in structural terms;

(D) Observing and imagining structural interventions; and

(E) Developing structural humility; ~~(and)~~

(vii) Cultural safety training; and

(viii) Viral hepatitis screening and treatment, including courses related to recommendations from the federal centers for disease control and prevention and the United States preventive services task force.

(4) The rule-making authority may adopt rules to implement and administer this section, including rules to establish a process to determine if a continuing education course meets the health equity continuing education requirement established in this section.

(5) For purposes of this section the following definitions apply:

(a) "Rule-making authority" means the regulatory entities identified in RCW 18.130.040 and authorized to establish continuing education requirements for the health care professions governed by those regulatory entities.

(b) "Structural competency" means a shift in medical education away from pedagogic approaches to stigma and inequalities that emphasize cross-cultural understandings of individual patients, toward attention to forces that influence health outcomes at levels above individual interactions. Structural competency reviews existing structural approaches to stigma and health inequities developed outside of medicine and proposes changes to United States medical education that will infuse clinical training with a structural focus.

(c) "Cultural safety" means an examination by health care professionals of themselves and the potential impact of their own culture on clinical interactions and health care service delivery. This requires individual health care professionals and health care organizations to acknowledge and address their own biases, attitudes, assumptions, stereotypes, prejudices, structures, and characteristics that may affect the quality of care provided. In doing so, cultural safety encompasses a critical consciousness where health care professionals and health care organizations engage in ongoing self-reflection and self-awareness and hold themselves accountable for providing culturally safe care, as defined by the patient and their communities, and as measured through progress towards achieving health equity. Cultural safety requires health care professionals and their associated health care organizations to influence health care to reduce bias and achieve equity within the workforce and working environment."

On page 1, line 2 of the title, after "services;" strike the remainder of the title and insert "amending RCW 43.70.613;

The definitions in this section apply throughout RCW 28A.175.100 through 28A.175.110 unless the context clearly requires otherwise:

(1) "Dropout reengagement program" means an educational program that offers at least the following instruction and services:

(a) Academic instruction, including but not limited to preparation to earn a high school equivalency certificate as provided in RCW 28B.50.536 in accordance with rules adopted under RCW 28A.305.190, academic skills instruction, and college and work readiness preparation, that generates credits that can be applied to a high school diploma from the student's school district or from a community or technical college under RCW 28B.50.535 and has the goal of enabling the student to obtain the academic and work readiness skills necessary for employment or postsecondary study. A dropout reengagement program is not required to offer instruction in only those subject areas where a student is deficient in accumulated credits. Academic instruction must be provided by teachers certified by the Washington professional educator standards board or by instructors employed by a community or technical college whose required credentials are established by the college;

(b) Case management, academic and career counseling, and assistance with accessing services and resources that support at-risk youth and reduce barriers to educational success, such as:

(i) Academic related supports, such as covering test fees, calculators, and laboratory and other school supplies;

(ii) Nonacademic supports, such as adequate and appropriate clothing; adequate and reliable access to food and nutrition; and transportation, including bus passes, gas vouchers, and subsidized parking; and

(iii) Connecting students to behavioral and physical health supports; and

(c) If the program provider is a community or technical college, the opportunity for qualified students to enroll in college courses that lead to a postsecondary degree or certificate. The college may not charge an eligible student tuition for such enrollment.

(2) "Eligible student" means a student who:

(a) Is at least sixteen but less than twenty-one years of age at the beginning of the school year;

(b) Is not accumulating sufficient credits toward a high school diploma to reasonably complete a high school diploma from a public school before the age of twenty-one or is recommended for the program by case managers from the department of social and health services or the juvenile justice system; and

(c) Is enrolled or enrolls in the school district in which the student resides, or is enrolled or enrolls in an institutional education program as defined in RCW 28A.190.005 or a nonresident school district under RCW 28A.225.220 through 28A.225.230.

(3) "Full-time equivalent eligible student" means an eligible student whose enrollment and attendance meet criteria adopted by the office of the superintendent of public instruction specifically for dropout reengagement programs. The criteria shall be:

(a) Based on the community or technical college credits generated by the student if the program provider is a community or technical college; and

(b) Based on a minimum amount of planned programming or instruction and minimum attendance by the student rather than hours of seat time if the program provider is a community-based organization."

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature finds that school districts may have school facilities with significant building systems deficiencies that are not adequately served by a large construction project program like the school construction assistance program or a small construction project program like the small school district and state-tribal education compact school modernization program. Therefore, the legislature finds it would be beneficial to local tax payers to establish a low interest loan program that would allow school districts to fund midsize projects through existing resources rather than paying all project costs upfront.

NEW SECTION. Sec. 2. A new section is added to chapter 28A.525 RCW to read as follows:

(1) Subject to the availability of amounts appropriated for this specific purpose, the office of the superintendent of public instruction, in coordination with the office of the state treasurer, must administer a modernization loan program for school districts and state-tribal education compact schools with significant building system deficiencies. The office of the superintendent of public instruction and the office of the state treasurer may adopt rules to implement this section.

(2) The office of the superintendent of public instruction must assist school districts and state-tribal education compact schools interested in seeking modernization loans by providing technical assistance and planning grants. The superintendent of public instruction may prioritize planning grants for school districts and state-tribal education compact schools with the most serious building deficiencies and the most limited financial capacity. Planning grants may not exceed \$75,000 per applicant.

(3)(a) An advisory committee with the following membership must assist the office of the superintendent of public instruction in designing the loan application process, developing the prioritization criteria, and evaluating the grant applications:

(i) Four members of the legislature of the state of Washington, one of whom is appointed by the chairperson of each of the two largest political caucuses in the senate and house of representatives; and

(ii) Three members who have experience in financing and managing school facilities, as appointed by the superintendent of public instruction.

(b) Advisory committee members may not be involved in developing projects or applying for loans funded under this section.

(c) The office of the superintendent of public instruction must provide administrative and staff support to the advisory committee.

(4) The superintendent of public instruction must submit a list of modernization projects, as prioritized by the advisory committee, to the governor and legislature by January 8, 2025, and every November 1st thereafter. The list must include: (a) A description of the project; (b) the proposed state funding level, not to exceed \$6,000,000 or 10 percent of the amount appropriated for this purpose, whichever is greater; (c) estimated total project costs; and (d) local funding resources used as repayment. Loan funds may be awarded only after the legislature approves the list of projects.

(5) The office of the state treasurer must administer the loans approved by the legislature under subsection (4) of this section.

(a) Modernization loans provided pursuant to this section may not exceed a one percent interest rate or a period of 20 years.

(b) Funds collected as repayment of loans issued under this section must be deposited in the common school construction fund.

(6) For projects in this section that are also eligible for funding through the school construction assistance program, the office of the superintendent of public instruction must expedite and streamline the administrative requirements, timelines, and matching requirements for the funds provided under this section to be used promptly. Funds provided under this section plus state funds provided in the school construction assistance program grant must not exceed total project costs minus available local resources."

MOTIONS

SECOND SUBSTITUTE SENATE BILL NO. 5955, by Senate Committee on Ways & Means (originally sponsored by Keiser, Hasegawa, Kauffman, Nguyen, and Wilson, C.)

Senator Keiser moved that the following striking amendment no. 639 by Senator Keiser be adopted:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. Airports are an important part of Washington's economy. Airports enable travel for business or recreation, allow for the transportation of cargo, and provide thousands of jobs for the people of the state.

For those living near an airport, there can also be adverse impacts from aircraft operations. In King county, the majority of people identifying as Black, Hispanic, Native Hawaiian, or Pacific Islander live within 10 miles of Seattle-Tacoma international airport.

Large port districts operating commercial service airports that administer aircraft noise mitigation programming have expressed a desire and intention to repair or replace aircraft noise mitigation equipment that has been found to be no longer working as intended or is reported to have caused additional hazards or structural damage to the property. Large port districts are restricted to use local, nonairport resources to address such equipment due to limitations imposed by federal regulations.

Ensuring the efficacy of existing noise mitigation equipment, and the repair or replacement of equipment that has caused hazards or structural damage to the property serves a fundamental governmental purpose and thereby provides wider public benefit to the citizens of Washington.

The legislature intends to partner with port districts operating large airports in the state and impacted areas to provide resources to repair or replace noise mitigation equipment that has been found to be no longer working as intended, or is found to have caused additional hazards or structural damage to the property, and to address the impacts of aircraft operations that are faced by impacted areas.

With this partnership and resources large airports can be more responsive, more effectively and quickly address relevant noise mitigation equipment, and help uphold the values of respect, antiracism, equity, and stewardship.

Sec. 2. RCW 53.54.020 and 2020 c 105 s 2 are each amended to read as follows:

(1) Prior to initiating programs as authorized in this chapter, the port commission shall undertake the investigation and monitoring of aircraft noise impact to determine the nature and extent of the impact. The port commission shall adopt a program of noise impact abatement based upon the investigations and as amended periodically to conform to needs demonstrated by the monitoring programs. In no case may the port district undertake any of the programs prescribed in this chapter in an area that is:

(a) More than ~~((ten))~~ 10 miles beyond the paved north end of any runway;

(b) More than ~~((thirteen))~~ 13 miles beyond the paved south end of any runway; or

(c) More than two miles from the centerline of any runway ~~((ten))~~ 10 miles north and ~~((thirteen))~~ 13 miles south from the paved end of such runway.

(2) ~~((Such areas as determined in this section,))~~ Areas within which a port district may undertake a program authorized in this chapter shall be known as "impacted areas."

Sec. 3. RCW 53.54.030 and 2021 c 65 s 3 are each amended to read as follows:

(1) For the purposes of this chapter, in developing a remedial program, the port commission may take steps as appropriate including, but not limited to, one or more of the following programs:

(a) Acquisition of property or property rights within the impacted area, which shall be deemed necessary to accomplish a port purpose. The port district may purchase such property or property rights by time payment notwithstanding the time limitations provided for in RCW 53.08.010. The port district may mortgage or otherwise pledge any such properties acquired to secure such transactions. The port district may assume any outstanding mortgages.

(b) Transaction assistance programs, including assistance with real estate fees and mortgage assistance, and other neighborhood remedial programs as compensation for impacts due to aircraft noise and noise associated conditions. Any such programs shall be in connection with properties located within an impacted area and shall be provided upon terms and conditions as the port district shall determine appropriate.

(c) Programs of soundproofing structures located within an impacted area. Such programs may be executed without regard to the ownership, provided the owner waives damages and conveys an easement for the operation of aircraft, and for noise and noise associated conditions therewith, to the port district.

(d) Mortgage insurance of private owners of lands or improvements within such noise impacted area where such private owners are unable to obtain mortgage insurance solely because of noise impact. In this regard, the port district may establish reasonable regulations and may impose reasonable conditions and charges upon the granting of such mortgage insurance. Such mortgage insurance fees and charges shall at no time exceed fees established for federal mortgage insurance programs for like service.

(e) Management of all lands, easements, or development rights acquired, including but not limited to the following:

(i) Rental of any or all lands or structures acquired;

(ii) Redevelopment of any such lands for any economic use consistent with airport operations, local zoning and the state environmental policy;

(iii) Sale of such properties for cash or for time payment and subjection of such property to mortgage or other security transaction: PROVIDED, That any such sale shall reserve to the port district by covenant an unconditional right of easement for the operation of all aircraft and for all noise or noise conditions associated therewith.

(2)(a) An individual property may be provided benefits by the port district under each of the programs described in subsection (1) of this section. However, an individual property may not be provided benefits under any one of these programs more than once, unless the property:

(i) Is subjected to increased aircraft noise or differing aircraft noise impacts that would have afforded different levels of mitigation, even if the property owner had waived all damages and conveyed a full and unrestricted easement; or

Senator Hasegawa moved adoption of the following resolution:

SENATE RESOLUTION

8677

By Senator Hasegawa

WHEREAS, On February 19, 1942, President Franklin D. Roosevelt issued Executive Order 9066, which authorized the United States military to forcibly remove and incarcerate more than 120,000 persons of Japanese ancestry from the West Coast, including 12,000 Japanese-American residents of Washington State; and

WHEREAS, The first civilian evacuation order gave Japanese-Americans from Bainbridge Island, Washington less than one week to leave behind homes, personal belongings, farms, businesses, friends, and family and report to detention centers like Camp Harmony on the grounds of the Washington State fair in Puyallup, where hastily converted horse stables housed the evacuated families; and

WHEREAS, These detention centers were temporary quarters for the evacuees while the United States military department constructed ten mass incarceration sites for Japanese-Americans located in remote inland areas of the United States; and

WHEREAS, This drastic policy of removal and relocation allegedly aimed to prevent acts of espionage and sabotage by Japanese-Americans who were deemed untrustworthy and disloyal to the United States; and

WHEREAS, On March 23, 1943, the War Department organized a segregated unit of Japanese-Americans, the 442nd Regimental Combat Team, most of whom reported for military duty from the concentration camps in which they and their families were held as prisoners surrounded by barbed wire and armed guards; and

WHEREAS, More than 12,000 volunteers responded to questions about their loyalty and patriotism by amassing a battle record unparalleled in United States military history with a casualty rate of 314% and earning a collective 7 Presidential Unit Citations, 21 Medals of Honor, 29 Distinguished Service Crosses, 1 Distinguished Service Medal, 588 Silver Stars, more than 4,000 Bronze Stars, 22 Legion of Merit Medals, 145 Soldier's Medals, 9,486 Purple Hearts, 16 decorations from France and Italy, and, in 2010, the Congressional Gold Medal; and

WHEREAS, Equally loyal and patriotic Japanese-Americans fought to protect our constitutional rights and liberties through dissent, like University of Washington student and Auburn native Gordon Hirabayashi who was arrested, convicted, and imprisoned for defying the military curfew on select civilians and refusing to evacuate when ordered; and

WHEREAS, In 1982, the Congressional commission on wartime relocation and internment of civilians found "no military or security reason for the internment" of persons of Japanese ancestry, but determined the cause of the incarceration as "racial prejudice, war hysteria, and a failure of political leadership"; and

WHEREAS, Through this travesty of justice, Japanese-Americans suffered immense economic loss of property and assets, experienced immeasurable physical and psychological harm as individuals and collectively as a community, and were deprived of their constitutional liberties without due process of law; and

WHEREAS, In 1979, Washington State Congressman Mike Lowry introduced H.R. 5977 to provide reparations and an apology to the Japanese-American incarcerated, thus initiating a 10-year legislative quest that ended when President Ronald Reagan signed the Civil Liberties Act of 1988; and

WHEREAS, Vowing *Nidoto Nai Yoni* – Let it Not Happen Again, the Japanese-American community now wields the lessons of this experience to fight for equity and justice in solidarity with all Americans who seek to protect and preserve the civil liberties we are guaranteed;

NOW, THEREFORE, BE IT RESOLVED, That the Washington State Senate pause to acknowledge the 82nd anniversary of the signing of Executive Order 9066; to recognize and remember Japanese-American veterans, incarcerated, and civil rights activists from the State of Washington, and to reflect on, and honor the lessons, blessings, and responsibilities of the phrase, "...with liberty and justice for all"; and

BE IT FURTHER RESOLVED, That copies of this resolution be immediately transmitted by the Secretary of the Senate to the Nisei Veterans Committee, Densho, the Japanese-American Citizens League, the Japanese Cultural and Community Center of Washington State, and the Wing Luke Museum of the Asian Pacific American Experience.

Senators Hasegawa, Wagoner, Kauffman and Conway spoke in favor of adoption of the resolution.

The President declared the question before the Senate to be the adoption of Senate Resolution No. 8677.

SUBSTITUTE HOUSE BILL NO. 2295, by House Committee on Health Care & Wellness (originally sponsored by Bateman, Hutchins, Riccelli, Bronoske, Reed, Orwall, Davis, Tharinger, Simmons, Callan, and Macri)

Concerning hospital at-home services.

FORTY SIXTH DAY, FEBRUARY 22, 2024

The measure was read the second time.

MOTION

Senator Cleveland moved that the following committee striking amendment by the Committee on Health & Long Term Care be adopted:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. (1) The legislature finds that:

(a) "Hospital at home" is a service that provides safe and effective care, improves outcomes, and benefits patients. It was developed by Johns Hopkins healthcare solutions and has been used by the veteran's health administration and medical centers in the United States and around the world;

(b) Washington hospitals began offering this service following the launch of the centers for medicare and medicaid services acute hospital care at-home program in response to the COVID-19 pandemic. Since that time, participating Washington patients have experienced fewer readmissions and shorter treatment periods and report high rates of satisfaction;

(c) Authorizing the continuation of this service would benefit patients in Washington, a state with one of the lowest number of beds per patient population in the country and a track record of providing high quality inpatient care; and

(d) Immediate authorization of this service is necessary to preserve continuity of care and provision of services without disruption.

(2) It is the intent of the legislature to authorize acute care hospitals licensed under this chapter to continue providing hospital at-home services and direct the department to adopt rules including those services among those that may be offered by such hospitals.

NEW SECTION. Sec. 2. A new section is added to chapter 70.41 RCW to read as follows:

(1) Hospitals subject to this chapter may provide hospital at-home services if they have an active federal program waiver prior to when the department adopts rules pursuant to this section. Hospitals that have an active federal program waiver and intend to operate hospital at-home services within Washington state shall notify the department within 30 days of receiving the waiver.

(2)(a) The department shall adopt rules by December 31, 2025, to implement this act and add hospital at-home services to those services that may be provided by an acute care hospital licensed under this chapter. The rules shall establish standards for the operation of a hospital at-home program. In establishing the initial standards, the department shall consider the provisions of the federal program and endeavor to make the standards substantially similar. The standards may not include requirements that would make a hospital ineligible for or preclude a hospital from complying with the requirements of the federal program. The department may adopt additional standards to promote safe care and treatment of patients as needed.

(b) In the event that the federal program expires before the department establishes rules, hospitals shall continue to follow federal program requirements that were in effect as of the date of the federal program's expiration and the department shall enforce such requirements until the department adopts rules.

(c) Once rules are established, hospitals that intend to offer or continue offering hospital at-home services shall apply to the department for approval to add hospital at-home services as a hospital service line. Hospitals that have secured a federal program waiver prior to rule adoption may provide hospital at-home services while applying for approval. The department shall

approve a hospital to provide hospital at-home services if the application is consistent with the standards established in rule. RCW 43.70.115 and chapter 34.05 RCW govern notice and adjudicative proceedings related to denial of an application. The department may set a one-time application fee in rule. The application fees charged shall not exceed the actual cost of staff time to review. The administration of the program must be covered by licensing fees set by the department under the authority of RCW 70.41.100 and 43.70.250.

(3) Hospital at-home services are not subject to chapter 70.126 or 70.127 RCW.

(4) Hospital at-home services do not count as an increase in the number of the hospital's licensed beds and are not subject to chapter 70.38 RCW.

(5) The definitions in this subsection apply throughout this section unless the context clearly requires otherwise.

(a) "Hospital at-home services" means acute care services provided by a licensed acute care hospital to a patient outside of the hospital's licensed facility and within a home or any location determined by the patient receiving the service.

(b) "Federal program" means the acute hospital care at-home program established by the federal centers for medicare and medicaid services under 42 U.S.C. Sec. 1320b-5 and extended by 42 U.S.C. Sec. 1395cc-7, or any successor program.

NEW SECTION. Sec. 3. A new section is added to chapter 70.126 RCW to read as follows:

This chapter does not apply to hospital at-home services provided by an acute care hospital licensed under chapter 70.41 RCW.

Sec. 4. RCW 70.127.040 and 2020 c 258 s 2 are each amended to read as follows:

(c) A health care facility (or portion thereof) if (i) the facility is or will be leased by a health maintenance organization or combination of health maintenance organizations which has, in the service area of the organization or the service areas of the

(2) A health maintenance organization, combination of health maintenance organizations, or health care facility shall not be exempt under subsection (1) of this section from obtaining a certificate of need before offering a tertiary health service unless:

(b) The application contains such information respecting the organization, combination, or facility and the proposed offering or obligation by a nursing home as the department may require to determine if the organization or combination meets the requirements of subsection (1) of this section or the facility meets or will meet such requirements; and

In the case of a proposed health care facility (or portion thereof) which has not begun to provide tertiary health services on the date an application is submitted under this subsection with respect to such facility (or portion), the facility (or portion) shall meet the applicable requirements of subsection (1) of this section when the facility first provides such services. (4) In the case of a health maintenance organization, an ambulatory care facility, or a health care facility, which ambulatory or health care facility is controlled, directly or indirectly, by a health maintenance organization or a combination of health maintenance organizations, the department may under the program apply its certificate of need requirements to the offering of inpatient tertiary health services to the extent that such offering is not exempt under the provisions of this section or RCW 70.38.105(7).

FORTY SIXTH DAY, FEBRUARY 22, 2024

(5)(a) The department shall not require a certificate of need for the construction, development, or other establishment of a nursing home, or the addition of beds to an existing nursing home, that is owned and operated by a continuing care retirement community that:

- (i) Offers services only to contractual members;
- (ii) Provides its members a contractually guaranteed range of services from independent living through skilled nursing, including some assistance with daily living activities;
- (iii) Contractually assumes responsibility for the cost of services exceeding the member's financial responsibility under the contract, so that no third party, with the exception of insurance purchased by the retirement community or its members, but including the medicaid program, is liable for costs of care even if the member depletes his or her personal resources;
- (iv) Has offered continuing care contracts and operated a nursing home continuously since January 1, 1988, or has obtained a certificate of need to establish a nursing home;
- (v) Maintains a binding agreement with the state assuring that financial liability for services to members, including nursing home services, will not fall upon the state;
- (vi) Does not operate, and has not undertaken a project that would result in a number of nursing home beds in excess of one for every four living units operated by the continuing care retirement community, exclusive of nursing home beds; and
- (vii) Has obtained a professional review of pricing and long-term solvency within the prior five years which was fully disclosed to members.

(b) A continuing care retirement community shall not be exempt under this subsection from obtaining a certificate of need unless:

- (i) It has submitted an application for exemption at least thirty days prior to commencing construction of, is submitting an application for the licensure of, or is commencing operation of a nursing home, whichever comes first; and
- (ii) The application documents to the department that the continuing care retirement community qualifies for exemption.
- (c) The sale, lease, acquisition, or use of part or all of a continuing care retirement community nursing home that qualifies for exemption under this subsection shall require prior certificate of need approval to qualify for licensure as a nursing home unless the department determines such sale, lease, acquisition, or use is by a continuing care retirement community that meets the conditions of (a) of this subsection.

(6) A rural hospital, as defined by the department, reducing the number of licensed beds to become a rural primary care hospital under the provisions of Part A Title XVIII of the Social Security Act Section 1820, 42 U.S.C., 1395c et seq. may, within three years of the reduction of beds licensed under chapter 70.41 RCW, increase the number of licensed beds to no more than the previously licensed number without being subject to the provisions of this chapter.

(7) A rural health care facility licensed under RCW 70.175.100 formerly licensed as a hospital under chapter 70.41 RCW may, within three years of the effective date of the rural health care facility license, apply to the department for a hospital license and not be subject to the requirements of RCW 70.38.105(4)(a) as the construction, development, or other establishment of a new hospital, provided there is no increase in the number of beds previously licensed under chapter 70.41 RCW and there is no redistribution in the number of beds used for acute care or long-term care, the rural health care facility has been in continuous operation, and the rural health care facility has not been purchased or leased.

(8) A rural hospital determined to no longer meet critical access hospital status for state law purposes as a result of participation in the Washington rural health access preservation pilot identified by the state office of rural health and formerly licensed as a hospital under chapter 70.41 RCW may apply to the department to renew its hospital license and not be subject to the requirements of RCW 70.38.105(4)(a) as the construction, development, or other establishment of a new hospital, provided there is no increase in the number of beds previously licensed under chapter 70.41 RCW. If all or part of a formerly licensed rural hospital is sold, purchased, or leased during the period the rural hospital does not meet critical access hospital status as a result of participation in the Washington rural health access preservation pilot and the new owner or lessor applies to renew the rural hospital's license, then the sale, purchase, or lease of part or all of the rural hospital is subject to the provisions of this chapter.

(9)(a) A nursing home that voluntarily reduces the number of its licensed beds to provide assisted living, licensed assisted living facility care, adult day care, adult day health, respite care, hospice, outpatient therapy services, congregate meals, home health, or senior wellness clinic, or to reduce to one or two the number of beds per room or to otherwise enhance the quality of life for residents in the nursing home, may convert the original facility or portion of the facility back, and thereby increase the number of nursing home beds to no more than the previously licensed number of nursing home beds without obtaining a certificate of need under this chapter, provided the facility has been in continuous operation and has not been purchased or leased. Any conversion to the original licensed bed capacity, or to any portion thereof, shall comply with the same life and safety code requirements as existed at the time the nursing home voluntarily reduced its licensed beds; unless waivers from such requirements were issued, in which case the converted beds shall reflect the conditions or standards that then existed pursuant to the approved waivers.

(b) To convert beds back to nursing home beds under this subsection, the nursing home must:

- (i) Give notice of its intent to preserve conversion options to the department of health no later than thirty days after the effective date of the license reduction; and
- (ii) Give notice to the department of health and to the department of social and health services of the intent to convert beds back. If construction is required for the conversion of beds back, the notice of intent to convert beds back must be given, at a minimum, one year prior to the effective date of license modification reflecting the restored beds; otherwise, the notice must be given a minimum of ninety days prior to the effective date of license modification reflecting the restored beds. Prior to any license modification to convert beds back to nursing home beds under this section, the licensee must demonstrate that the nursing home meets the certificate of need exemption requirements of this section.

The term "construction," as used in (b)(ii) of this subsection, is limited to those projects that are expected to equal or exceed the expenditure minimum amount, as determined under this chapter.

(c) Conversion of beds back under this subsection must be completed no later than four years after the effective date of the license reduction. However, for good cause shown, the four-year period for conversion may be extended by the department of health for one additional four-year period.

(d) Nursing home beds that have been voluntarily reduced under this section shall be counted as available nursing home beds for the purpose of evaluating need under RCW 70.38.115(2) (a) and (k) so long as the facility retains the ability to convert them back to nursing home use under the terms of this section.

(e) When a building owner has secured an interest in the nursing home beds, which are intended to be voluntarily reduced by the licensee under (a) of this subsection, the applicant shall provide the department with a written statement indicating the building owner's approval of the bed reduction.

(10)(a) The department shall not require a certificate of need for a hospice agency if:

(i) The hospice agency is designed to serve the unique religious or cultural needs of a religious group or an ethnic minority and commits to furnishing hospice services in a manner specifically aimed at meeting the unique religious or cultural needs of the religious group or ethnic minority;

(ii) The hospice agency is operated by an organization that:

(A) Operates a facility, or group of facilities, that offers a comprehensive continuum of long-term care services, including, at a minimum, a licensed, medicare-certified nursing home, assisted living, independent living, day health, and various community-based support services, designed to meet the unique social, cultural, and religious needs of a specific cultural and ethnic minority group;

(B) Has operated the facility or group of facilities for at least ten continuous years prior to the establishment of the hospice agency;

(iii) The hospice agency commits to coordinating with existing hospice programs in its community when appropriate;

(iv) The hospice agency has a census of no more than forty patients;

(v) The hospice agency commits to obtaining and maintaining medicare certification;

(vi) The hospice agency only serves patients located in the same county as the majority of the long-term care services offered by the organization that operates the agency; and

(vii) The hospice agency is not sold or transferred to another agency.

(b) The department shall include the patient census for an agency exempted under this subsection (10) in its calculations for future certificate of need applications.

(11) To alleviate the need to board psychiatric patients in emergency departments and increase capacity of hospitals to serve individuals on ninety-day or one hundred eighty-day commitment orders, for the period of time from May 5, 2017, through June 30, 2023:

(a) The department shall suspend the certificate of need requirement for a hospital licensed under chapter 70.41 RCW that changes the use of licensed beds to increase the number of beds to provide psychiatric services, including involuntary treatment services. A certificate of need exemption under this subsection (11)(a) shall be valid for two years.

(b) The department may not require a certificate of need for:

(i) The addition of beds as described in RCW 70.38.260 (2) and (3); or

(ii) The construction, development, or establishment of a psychiatric hospital licensed as an establishment under chapter 71.12 RCW that will have no more than sixteen beds and provide treatment to adults on ninety or one hundred eighty-day involuntary commitment orders, as described in RCW 70.38.260(4).

(12)(a) An ambulatory surgical facility is exempt from all certificate of need requirements if the facility:

(i) Is an individual or group practice and, if the facility is a group practice, the privilege of using the facility is not extended to physicians outside the group practice;

(ii) Operated or received approval to operate, prior to January 19, 2018; and

(iii) Was exempt from certificate of need requirements prior to January 19, 2018, because the facility either:

(A) Was determined to be exempt from certificate of need requirements pursuant to a determination of reviewability issued by the department; or

(B) Was a single-specialty endoscopy center in existence prior to January 14, 2003, when the department determined that endoscopy procedures were surgeries for purposes of certificate of need.

(b) The exemption under this subsection:

(i) Applies regardless of future changes of ownership, corporate structure, or affiliations of the individual or group practice as long as the use of the facility remains limited to physicians in the group practice; and

(ii) Does not apply to changes in services, specialties, or number of operating rooms.

(13) A rural health clinic providing health services in a home health shortage area as declared by the department pursuant to 42 C.F.R. Sec. 405.2416 is not subject to certificate of need review under this chapter.

(14) Hospital at-home services, as defined in section 2 of this act, are not subject to certificate of need review under this chapter.

PERSONAL PRIVILEGE

Senator Fortunato: "It's fortunate that you're up there as President today because you will remember a few years ago I stood on this Senate floor and reported that the City of Wilkeson had a \$56,000 bill that was not paid. And currently, with interest, it was five million and something dollars. Today, Madam President, we now have a display of that very letter in the Secretary of State's Office. Together, with some pictures of the quarry and the building, the Capitol building – coming up on our hundredth anniversary. One of those pictures, if you really look

in detail, has a gentleman doing the fine work, the fine sculpting. And that gentleman is Ralph Munro's grandfather. So, I invite everybody here to go and check out the display. It's a small display, not quite – I wanted the entire wall – but they gave me a little display in the display case. So, please enjoy it and help support that Wilkeson stone bill. Thank you Madam President."

EDITOR'S NOTE: The Honorable Ralph Munro served five terms as Washington's thirteenth Secretary of State from 1981 – 2001.

Concerning construction crane safety.

The measure was read the second time.

MOTION

Senator Keiser moved that the following striking amendment no. 723 by Senator Keiser be adopted:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature finds that there is significant opportunity to improve worker and public safety in tower crane assembly, disassembly, and reconfiguration. The Seattle tower crane incident on April 27, 2019, killing two members of the public, Sarah Pantip Wong and Alan Jay Justad, and two iron workers, Travis Daniel Corbet and Andrew W. Yoder, exposed weaknesses in construction safety efforts. Requirements for permitting, street closures, and penalties are created to ensure that assembly, disassembly, and reconfiguration of tower cranes proceed safely.

NEW SECTION. Sec. 2. A new section is added to chapter 49.17 RCW to read as follows:

Sections 3 through 10 of this act apply to construction crane safety.

Sec. 3. RCW 49.17.400 and 2007 c 27 s 2 are each amended to read as follows:

The definitions in this section apply throughout ~~((RCW 49.17.400 through 49.17.430))~~ this section and sections 4 through 7 of this act unless the context clearly requires otherwise.

(1) "Apprentice operator or trainee" means a crane operator who has not met requirements established by the department under RCW 49.17.430.

(2) "Attachments" includes, but is not limited to, crane-attached or suspended hooks, magnets, grapples, clamshell buckets, orange peel buckets, concrete buckets, drag lines, personnel platforms, augers, or drills and pile-driving equipment.

(4) "Construction" means all or any part of excavation, construction, erection, alteration, repair, demolition, and dismantling of buildings and other structures and all related operations; the excavation, construction, alteration, and repair of sewers, trenches, caissons, conduits, pipelines, roads, and all related operations; the moving of buildings and other structures, and the construction, alteration, repair, or removal of wharfs, docks, bridges, culverts, trestles, piers, abutments, or any other related construction, alteration, repair, or removal work. "Construction" does not include manufacturing facilities or powerhouses.

(5) "Crane" means power-operated equipment used in construction that can hoist, lower, and horizontally move a suspended load. "Crane" includes, but is not limited to: Articulating cranes, such as knuckle-boom cranes; crawler cranes; floating cranes; cranes on barges; locomotive cranes; mobile cranes, such as wheel-mounted, rough-terrain, all-terrain, commercial truck mounted, and boom truck cranes; multipurpose machines when ~~((configured))~~ used to ~~((hoist))~~ lift and lower ~~((by means of a winch or hook and))~~ a suspended load, or horizontally move a suspended load; industrial cranes, such as carry-deck cranes; dedicated pile drivers; service/mechanic trucks with a hoisting device; a crane on a monorail; tower cranes, such as fixed jib, hammerhead boom, luffing boom, and self-erecting; pedestal cranes; portal cranes; overhead and gantry cranes; straddle cranes; side-boom tractors; derricks; and variations of such equipment.

(11) "Assembly/disassembly work zone" is applicable to tower cranes and means the total area that the crane and/or components or attachments could reach if the crane were to collapse. Height of the crane, length of boom, attachments, and loads, shall all be considered to calculate the area, which can shrink or grow as the work progresses.

(12) "Crane owner" means the company or entity that has custodial control of a crane by virtue of lease or ownership.

(13) "Prime contractor" means the person or entity that has overall responsibility for the construction of the project, its planning, quality, and completion and serves as the site supervisor.

(i) Require the department to inspect permitted activities for the tower crane once assembled, following any reconfiguration, or any other permitted activities; and

(j) Require that if the department identifies deficiencies that directly affect the structural integrity or safe operation of a tower crane, the deficiencies be addressed immediately, and the tower crane not be operated until the deficiencies are corrected.

(3) Beginning January 1, 2026, a prime contractor must obtain a permit from the department, as established under this section, prior to performing or allowing the performance of any work involving the operation, assembly, disassembly, or reconfiguration of a tower crane. guidelines, and recommended best practices. The department must establish the information and materials required to be submitted prior to the safety conference, the information and material required to be reviewed at the safety conference, and the required attendees at the safety conference.

(b) During the safety conference, at a minimum the following items must be evaluated:

(i) The potential risks of the procedures, including those addressed in the crane operating manual, as well as specific measures to be taken by the permit applicant and all entities required in the operation, assembly, disassembly, and reconfiguration of the tower crane to minimize these risks;

(ii) The written accident prevention programs of the permit applicant and all entities involved in the operation, assembly, disassembly, and reconfiguration of the tower crane;

Sec. 5. RCW 49.17.420 and 2007 c 27 s 4 are each amended to read as follows:

(1) The department shall establish, by rule, a crane certification program for cranes used in construction. In establishing rules, the department shall consult nationally recognized crane standards.

(2) The crane certification program must include, at a minimum, the following:

(a) The department shall establish certification requirements for crane inspectors, including an experience requirement, an education requirement, a training requirement, and other necessary requirements determined by the director;

The department must maintain a crew dedicated solely to collecting and disposing of garbage, clearing debris or hazardous material, and implementing safety improvements where hazards exist to the traveling public, department employees, or people encamped upon department-owned rights-of-way. The department may request assistance from the Washington state patrol as necessary in order for both agencies to provide enhanced safety-related activities regarding the emergency hazards along state highway rights-of-way in the Seattle area.

~~(((\$7))~~ (6) \$1,015,000 of the motor vehicle account—state appropriation is provided solely for a partnership program between the department and the city of Tacoma, to be administered in conjunction with subsection ~~((4))~~ (3) of this section. However, the amount provided in this subsection must be placed in unallotted status and may not be spent prior to November 1, 2023. If, after November 1, 2023, the department, in consultation with the office of financial management, determines that the department fully spent the \$2,000,000 appropriated in section 216(10), chapter 186, Laws of 2022, within the 2021-2023 fiscal biennium for this purpose, the amount provided in this subsection must remain in unallotted status and unspent. If the department did not fully spend the \$2,000,000 within the 2021-2023 fiscal biennium, the department may only spend from the appropriation in this subsection an amount not in excess of the amount unspent from the \$2,000,000 within the 2021-2023 fiscal biennium, with any remaining amount to remain in unallotted status and unspent. TOTAL APPROPRIATION	(\$100,879,000) <u>\$106,948,000</u>

The appropriations in this section are subject to the following conditions and limitations:

(1) \$6,000,000 of the motor vehicle account—state appropriation is provided solely for low-cost enhancements. The department shall give priority to low-cost enhancement projects that improve safety or provide congestion relief. By December 15th of each odd-numbered year, the department shall provide a report to the legislature listing all low-cost enhancement projects completed in the prior fiscal biennium.

(2)(a) During the 2023-2025 fiscal biennium, the department shall continue a pilot program that expands private transportation providers' access to high occupancy vehicle lanes. Under the pilot program, when the department reserves a portion of a highway based on the number of passengers in a vehicle, the following vehicles must be authorized to use the reserved portion of the highway if the vehicle has the capacity to carry eight or more passengers, regardless of the number of passengers in the vehicle: (i) Auto transportation company vehicles regulated under chapter 81.68 RCW; (ii) passenger charter carrier vehicles regulated under chapter 81.70 RCW, except marked or unmarked stretch limousines and stretch sport utility vehicles as defined under department of licensing rules; (iii) private nonprofit transportation provider vehicles regulated under chapter 81.66 RCW; and (iv) private employer transportation service vehicles. For purposes of this subsection, "private employer transportation service" means regularly scheduled, fixed-route transportation service that is offered by an employer for the benefit of its employees. Nothing in this subsection is intended to authorize the conversion of public infrastructure to private, for-profit purposes or to otherwise create an entitlement or other claim by private users to public infrastructure.

(b) The department shall expand the high occupancy vehicle lane access pilot program to vehicles that deliver or collect blood, tissue, or blood components for a blood-collecting or distributing establishment regulated under chapter 70.335 RCW. Under the pilot program, when the department reserves a portion of a highway based on the number of passengers in a vehicle, blood-collecting or distributing establishment vehicles that are clearly and identifiably marked as such on all sides of the vehicle are considered emergency vehicles and must be authorized to use the reserved portion of the highway.

(c) The department shall expand the high occupancy vehicle lane access pilot program to for hire nonemergency medical transportation vehicles, when in use for medical purposes, as described in section 208(~~((24) of this act))~~(20), chapter 472, Laws of 2023. Under the pilot program, when the department reserves a portion of a highway based on the number of passengers in a vehicle, nonemergency medical transportation vehicles that meet the requirements identified in section 208(~~((24) of this act))~~(20), chapter 472, Laws of 2023 must be authorized to use the reserved portion of the highway.

(d) Nothing in this subsection is intended to exempt these vehicles from paying tolls when they do not meet the occupancy requirements established by the department for express toll lanes.

(3) The appropriations in this section assume implementation of additional cost recovery mechanisms to recoup at least \$100,000 in credit card and other financial transaction costs related to the collection of fees imposed under RCW 46.17.400, 46.44.090, and 46.44.0941 for driver and vehicle fee transactions beginning January 1, 2023. The department may recover transaction fees incurred through credit card transactions.

(4) The department shall promote safety messages encouraging drivers to slow down and move over and pay attention when emergency lights are flashing on the side of the road and other suitable safety messages on electronic message boards the department operates across the state. The messages must be promoted through June 30, 2025. The department may coordinate such messaging with any statewide public awareness campaigns being developed by the department of licensing or the Washington state traffic safety commission, or both.

(5) \$5,000,000 of the multimodal transportation account—state appropriation is provided solely for the department to address emergent issues related to safety for pedestrians and bicyclists. Funds may only be spent after approval from the office of financial management. By December 15th of each odd-numbered year, the department shall provide a report to the legislature listing all emergent issues addressed in the prior fiscal biennium.

~~((7))~~ (6) \$3,529,000 of the highway safety account—state appropriation is provided solely for implementation of chapter 17, Laws of 2023 (speed safety cameras). If chapter 17, Laws of 2023 is not enacted by June 30, 2023, the amount provided in this subsection lapses.

~~((8))~~ (7) \$1,279,000 of the move ahead WA account—state appropriation is provided solely for maintenance and operations of the virtual coordination center. The department is encouraged to apply for federal grant funds for the virtual coordination center and may use state funds as a match. By December 1, 2023, the department shall report to the transportation committees of the legislature: (a) Recommendations to expand the center's operations, including specific additional jurisdictions and corridors across the state; and (b) amounts received and dates of receipt of any new cash and in-kind matches from virtual coordination center partners including, but not limited to, the city of Seattle, King county, other state and local jurisdictions, and private sector partners.

~~((9))~~ (8) \$100,000 of the motor vehicle account—state appropriation is provided solely for the department to prepare and submit a report to the transportation committees of the legislature by December 1, 2024, with a prioritized list of recommendations for improving safety and mobility on Interstate 90 between North Bend and Cle Elum during winter weather events, including estimated costs. The recommendations must include, but are not limited to, options to improve compliance with traction tire and chain requirements and reduce snow-related closures.

~~((11))~~ (9)(a) \$5,000,000 of the motor vehicle account—state appropriation is provided solely for the department, in

coordination with the independent review team of the joint transportation committee, to conduct an analysis of highway, road, and freight rail transportation needs, options, and impacts from shifting the movement of freight and goods that currently move by barge through the lower Snake river dams to highways, other roads, and rail. The study should generate volume estimates and evaluate scenarios for changes in infrastructure and operations that would be necessary to address those additional volumes. The assessment must include quantitative analysis based on available data in terms of both financial and carbon emission costs; and qualitative input gathered from tribal governments, local governments, freight interests, and other key stakeholders, including impacts on disadvantaged/underserved communities. The analysis must include a robust public engagement process to solicit feedback from interested stakeholders including but not limited to: Residents and officials in affected cities and counties; stakeholders involved in railroad, agriculture, fishing, trucking, shipping and other related industries; appropriate Native American tribes; representatives of advocacy and community organizations; and transportation, public works, and economic development organizations in the affected areas, federal highway administration and army corps of engineers. The analysis must be informed by the work of the joint transportation committee's independent review team, and must include the following:

- (i) Existing volumes and traffic patterns;
- (ii) Potential changes in volumes and traffic patterns immediately following the loss of freight movement by barge and over the following 20 years, including the carbon emissions impact of this mode shift;
- (iii) Identification of whether regional geography, land availability, and state and federal regulatory processes would allow for rail and road expansions and increased capacity;
- (iv) Identification of potential infrastructure and operational improvements to existing highways, other roads, and rail, including additional access to facilities, needed to accommodate the higher freight volumes and impacts and potential opportunities to mitigate impacts on shipping rates;
- (v) Identification of rail line development options, including impacts and potential opportunities to mitigate impacts on grain storage and handling facilities at regional unit train yards and port export facilities;
- (vi) An assessment of costs associated with mitigating potential slope failure and stabilization necessitated by the drawdown of the river. An assessment of impacts and potential opportunities to mitigate impacts on adjacent roads, bridges, railroads, and utility corridors shall be included;
- (vii) Both financial and carbon cost estimates for development and implementation of identified needs and options, including planning, design, and construction;
- (viii) Analysis of the impacts and potential opportunities to mitigate impacts of these infrastructure changes on environmental justice and disadvantaged/underserved communities during construction, as well as from future operations;
- (ix) Analysis of safety impacts and potential opportunities to mitigate impacts for a shift from barge transportation to rail or truck, including increases in rural community traffic and consistency with the Washington State Strategic Highway Safety Plan: Target Zero;
- (x) Impacts and potential opportunities to mitigate impacts on highly affected commodities, including agriculture, petroleum, project cargo, and wind energy components;
- (xi) Analysis of the impacts and potential opportunities to mitigate impacts that reduced competition resulting from removing barging of agricultural products on the Snake river

would have on Washington's agricultural industry along with impacts modal shifts would have on the entire supply chain, including export facilities and ports on the Lower Columbia River; and

(xii) Determination of the feasibility that additional east-west freight rail capacity can be achieved, particularly through Columbia River Gorge, and the alternative routes that exist in the event that adding more infrastructure on these routes is not feasible.

(b) The department shall provide status updates on a quarterly basis in coordination with the joint transportation committee. The legislature intends to require a final report to the governor and the transportation committees of the legislature by December 31, 2026.

(10) \$4,000,000 of the highway safety account—state appropriation is provided solely for the department, in consultation with the Washington traffic safety commission, to evaluate and identify between 10 to 20 geographical locations in both urban and rural highway settings to install and implement wrong-way driving prevention strategies. Such prevention strategies may include improved signage and pavement markings as recommended by the traffic safety commission's report on wrong-way driving, "Strategies and Technologies to Prevent and Respond to Wrong-Way Driving Crashes." The department must report to the legislature any crash data or wrong-way violations that occur at the selected locations by June 30, 2025.

(11) \$1,000,000 of the motor vehicle account—state appropriation is provided solely for the department to develop an automated highway speed safety camera pilot program to test two to three automated traffic safety cameras technologies on state highways in no more than three testing locations, with at least one location on each side of the Cascade mountains. The goals of the automated highway speed safety camera pilot program are to test existing speed camera technology, determine the impact on speeding behavior in testing locations, and compile public response to the use of traffic safety cameras on highways. The department must work with the Washington state patrol and the traffic safety commission to develop the pilot program including, but not limited to: Selection of technology; placement of cameras in high speed, collision, or fatality locations; establishment of public notification and warning signs before entering into an area with a speed safety camera; outreach and public engagement in the program development and site selection process; and a process to collect and report data including rates of speed before, during, and after the presence of speed safety cameras and public response to cameras. The Washington state patrol is responsible for selecting testing locations and must use accident reports, including department and traffic safety commission crash data as needed, to identify high speed and high collision areas. Automated traffic safety cameras may only take pictures of the vehicle and the vehicle license plates, and the ticketing of violators is prohibited during the pilot program. The department may notify drivers of their rates of speed. The department shall provide a pilot program progress report to the governor and transportation committees of the legislature by September 30, 2024, to include public input to safety cameras, evaluation of technologies, and changes in speeding behavior.

The appropriations in this section are subject to the following conditions and limitations:

(1) Except as provided otherwise in this section, the entire connecting Washington account—state appropriation, the entire move ahead WA account—federal appropriation, the entire move ahead WA account—state appropriation, and the entire transportation partnership account—state appropriation are provided solely for the projects and activities as listed by fund, project, and amount in LEAP Transportation Document ((2023-4)) 2024-1 as developed ((April 21, 2023)) February 20, 2024, Program - Highway Improvements Program (I). However, limited transfers of specific line-item project appropriations may occur between projects for those amounts listed subject to the conditions and limitations in section 601 ((of this act)), chapter 472, Laws of 2023.

(2) Except as provided otherwise in this section, the entire motor vehicle account—state appropriation and motor vehicle account—federal appropriation are provided solely for the projects and activities listed in LEAP Transportation Document ((2023-2)) 2024-2 ALL PROJECTS as developed ((April 21, 2023)) February 20, 2024, Program - Highway Improvements

Program (I). Any federal funds gained through efficiencies, adjustments to the federal funds forecast, or the federal funds redistribution process must then be applied to highway and bridge preservation activities.

(3) Within the motor vehicle account—state appropriation and motor vehicle account—federal appropriation, the department may transfer appropriation authority between programs I and P, except for appropriation authority that is otherwise restricted in this act, as follows:

(a) Ten days prior to any transfer, the department must submit its request to the office of financial management and the transportation committees of the legislature and consider any concerns raised.

(b) The director of the office of financial management must first provide written authorization for such transfer to the department and the transportation committees of the legislature.

(c) The department shall submit a report on appropriation authority transferred in the prior fiscal year using this subsection as part of the department's annual budget submittal.

(4) The connecting Washington account—state appropriation includes up to ((~~\$1,737,009,000~~)) \$1,350,479,000 in proceeds from the sale of bonds authorized in RCW 47.10.889.

(5) The special category C account—state appropriation includes up to \$118,773,000 in proceeds from the sale of bonds authorized in RCW 47.10.812.

(6) The transportation partnership account—state appropriation includes up to \$32,643,000 in proceeds from the sale of bonds authorized in RCW 47.10.873.

(7) The appropriations in this section include savings due to anticipated project underruns; however, it is unknown which projects will provide savings. The legislature intends to provide sufficient flexibility for the department to manage to this savings target. To provide this flexibility, the office of financial management may authorize, through an allotment modification, reductions in the amounts that are provided solely for a particular purpose within this section subject to the following conditions and limitations:

(a) The department must confirm that any modification requested under this subsection of amounts provided solely for a specific purpose are not expected to be used for that purpose in this fiscal biennium;

(b) Allotment modifications authorized under this subsection may not result in increased funding for any project beyond the amount provided for that project in the 2023-2025 fiscal biennium in LEAP Transportation Document ((2023-2)) 2024-2 ALL PROJECTS as developed ((April 21, 2023)) February 20, 2024;

(c) Allotment modifications authorized under this subsection apply only to amounts appropriated in this section from the following accounts: Connecting Washington account—state, and move ahead WA account—state; and

(d) The office of financial management must provide notice of allotment modifications authorized under this subsection within 10 working days to the transportation committees of the legislature. By December 1, 2023, and December 1, 2024, the department must submit a report to the transportation committees of the legislature regarding the actions taken to date under this subsection.

(8) The department shall itemize all future requests for the construction of buildings on a project list and submit them through the transportation executive information system as part of the department's annual budget submittal. It is the intent of the legislature that new facility construction must be transparent and not appropriated within larger highway construction projects.

(9) The legislature continues to prioritize the replacement of the state's aging infrastructure and recognizes the importance of

reusing and recycling construction aggregate and recycled concrete materials in our transportation system. To accomplish Washington state's sustainability goals in transportation and in accordance with RCW 70A.205.700, the legislature reaffirms its determination that recycled concrete aggregate and other transportation building materials are natural resource construction materials that are too valuable to be wasted and landfilled, and are a commodity as defined in WAC 173-350-100.

(10) By June 30, 2025, to the extent practicable, the department shall decommission the facilities for the Lacey project engineering office and the Tumwater project engineering office at the end of their lease terms and consolidate the Lacey project engineering office and the Tumwater project engineering office into the department's Olympic regional headquarters.

(11) The legislature intends that any savings realized on the following projects will not be attributable to the application of practical design, retired risk, or unused contingency funding for the purposes of RCW 47.01.480:

- (a) I-5/Marvin Road/SR 510 Interchange (L1100110); and
- (b) I-82/EB WB On and Off Ramps (L2000123).

(12)(a) ~~(\$300,000,000)~~ \$337,114,000 of the coronavirus state fiscal recovery fund—federal appropriation, ~~(\$312,653,000)~~ \$110,439,000 of the motor vehicle account—federal appropriation, ~~(\$427,459,000)~~ \$576,827,000 of the move ahead WA account—state appropriation, and ~~(\$1,293,000)~~ \$8,329,000 of the motor vehicle account—state appropriation are provided solely for the Fish Passage Barrier Removal project (OBI4001) with the intent of fully complying with the federal *U.S. v. Washington* court injunction by 2030.

(b) The fish passage barrier removal program, in consultation with the office of innovative partnerships, shall explore opportunities to employ innovative delivery methods to ensure compliance with the court injunction including, but not limited to, public-private partnerships and batched contracts. It is the intent of the legislature that appropriations for this purpose may be used to jointly leverage state and local funds for match requirements in applying for competitive federal aid grants provided in the infrastructure investment and jobs act for removals of fish passage barriers under the national culvert removal, replacement, and restoration program. State funds used for the purpose described in this subsection must not compromise full compliance with the court injunction by 2030.

(c) The department shall coordinate with the Brian Abbott fish passage barrier removal board to use a watershed approach by replacing both state and local culverts guided by the principle of providing the greatest fish habitat gain at the earliest time. The department shall deliver high habitat value fish passage barrier corrections that it has identified, guided by the following factors: Opportunity to bundle projects, tribal priorities, ability to leverage investments by others, presence of other barriers, project readiness, culvert conditions, other transportation projects in the area, and transportation impacts. The department and Brian Abbott fish barrier removal board must provide updates on the implementation of the statewide culvert remediation plan to the legislature by November 1, 2023, and June 1, 2024.

(d) The department must keep track of, for each barrier removed: (i) The location; (ii) the amount of fish habitat gain; and (iii) the amount spent to comply with the injunction.

(e) During the 2023-2025 fiscal biennium, the department shall provide reports of the amounts of federal funding received for this project to the governor and transportation committees of the legislature by November 1, 2023, and semiannually thereafter.

(13)(a) ~~(\$6,000,000 of the move ahead WA account—state appropriation)~~ \$15,000,000 of the model toxics control stormwater account—state appropriation is provided solely for

the Stormwater Retrofits and Improvements project (L4000040). It is the intent of the legislature, over the 16-year move ahead WA investment program, to provide \$500,000,000 for this program.

(b) ~~(The appropriation in this subsection)~~ Of the amounts provided in this subsection, \$6,000,000 is provided solely for the Urban Stormwater Partnership - I-5 Ship-Canal Bridge Pilot (Seattle) project.

(c) The funding provided for stormwater retrofits and improvements must enhance stormwater runoff treatment from existing roads and infrastructure with an emphasis on green infrastructure retrofits. Projects must be prioritized based on benefits to salmon recovery and ecosystem health, reducing toxic pollution, addressing health disparities, and cost-effectiveness. The department of transportation must submit progress reports on its efforts to reduce the toxicity of stormwater runoff from existing infrastructure, recommendations for addressing barriers to innovative solutions, and anticipated demand for funding each fiscal biennium.

(14)(a) ~~(\$35,465,000)~~ \$25,067,000 of the connecting Washington account—state appropriation is provided solely for the SR 3 Freight Corridor (T30400R) project. The legislature intends to provide a total of \$78,910,000 for this project, including an increase of \$12,000,000 in future biennia to safeguard against inflation and supply/labor interruptions and ensure that:

(i) The northern terminus remains at Lake Flora Road and the southern terminus at the intersection of SR 3/SR 302;

(ii) Multimodal safety improvements at the southern terminus remain in the project to provide connections to North Mason school district and provide safe routes to schools; and

(iii) Intersections on the freight corridor are constructed at Romance Hill and Log Yard road.

(b) With respect to right-of-way acquisition and the construction of the SR 3 Freight Corridor project (T30400R), tribal consultation with the Suquamish tribe shall begin at the earliest stage of planning, including without limitation on all funding decisions and funding programs, to provide a government-to-government mechanism for the tribe to evaluate, identify, and expressly notify governmental entities of any potential impacts to tribal cultural resources, archaeological sites, sacred sites, fisheries, or other rights and interests in tribal lands and lands within which the tribe possesses rights reserved or protected by federal treaty, statute, or executive order. The consultation is independent of, and in addition to, any public participation process required under state law, or by a state agency, including the requirements of Executive Order 21-02 related to archaeological and cultural resources, and regardless of whether the agency receives a request for consultation from the Suquamish tribe. Regularly scheduled tribal consultation meetings with the Suquamish tribe shall continue throughout the duration of any funding or program decisions and proposed project approval.

(15) \$6,000,000 of the move ahead WA account—state appropriation and \$10,000,000 of the move ahead WA account—federal appropriation are provided solely for the SR 3/Gorst Area - Widening project (L4000017). Tribal consultation with the Suquamish tribe must begin at the earliest stage of planning, including, without limitation, all funding decisions and funding programs, to provide a government-to-government mechanism for the tribe to evaluate, identify, and expressly notify governmental entities of any potential impacts to tribal cultural resources, archaeological sites, sacred sites, fisheries, or other rights and interests in tribal lands and lands within which the tribe possesses rights reserved or protected by federal treaty, statute, or executive order. The consultation is independent of, and in

FIFTY FIRST DAY, FEBRUARY 27, 2024

addition to, any public participation process required under state law, or by a state agency, including the requirements of Executive Order 21-02 related to archaeological and cultural resources, and regardless of whether the agency receives a request for consultation from the Suquamish tribe. Regularly scheduled tribal consultation meetings with the Suquamish tribe must continue throughout the duration of any funding program and proposed project approval.

(16)(a) ~~(\$84,500,000)~~ \$94,500,000 of the move ahead WA account—federal appropriation, \$137,500,000 of the move ahead WA account—private/local appropriation, and ~~(\$53,000,000)~~ \$43,000,000 of the move ahead WA account—state appropriation are provided solely for the I-5 Columbia river bridge project (L4000054). The legislature finds that the replacement of the I-5 Columbia river bridge is a project of national significance and is critical for the movement of freight. One span is now 105 years old, at risk for collapse in the event of a major earthquake, and no longer satisfies the needs of commerce and travel. Replacing the aging interstate bridge with a modern, seismically resilient, multimodal structure that provides improved mobility for people, goods, and services is a high priority. Therefore, the legislature intends to support the replacement of the I-5 Columbia river bridge with an investment of \$1,000,000,000 over the 16-year move ahead WA investment program.

(b) The legislature recognizes the importance of the I-5/Mill Plain Boulevard project (L2000099) and intends to provide funding for reconstruction of the existing interchange in coordination with construction of the Interstate 5 bridge over the Columbia river.

(c) The department shall provide regular updates on the status of ongoing coordination with the state of Oregon on any bistate agreements regarding sharing of revenues, use of revenues, and fiscal responsibilities of each state. Prior to finalizing any such agreement, the department shall provide a draft of the agreement to the transportation committees of the legislature for review and input. Additionally, the department shall advise on the status of any bistate agreements to the joint transportation committee beginning in September 2023 and quarterly thereafter until any agreements are finalized.

(17) The legislature recognizes the importance of the US-12/Walla Walla Corridor Improvements project (T20900R) and intends to advance funding to provide matching funds if competitive federal funding is awarded for the final remaining four-lane section between Wallula and Nine Mile Hill. The department, in consultation with local governments in the vicinity, must pursue any federal funding available.

(18) \$2,642,000 of the move ahead WA account—state appropriation is provided solely for the US 101/Simdars Bypass project (L4000013).

(19) ~~(\$570,842,000)~~ \$338,512,000 of the connecting Washington account—state appropriation, ~~(\$155,000)~~ \$3,109,000 of the multimodal transportation account—state appropriation, ~~(\$26,537,000)~~ \$27,201,000 of the motor vehicle account—private/local appropriation, ~~(\$200,800,000)~~ \$178,543,000 of the move ahead WA account—federal appropriation, ~~(\$68,191,000)~~ \$36,370,000 of the move ahead WA account—state appropriation, and ~~(\$6,980,000)~~ \$211,131,000 of the motor vehicle account—federal appropriation are provided solely for the SR 167/SR 509 Puget Sound Gateway project (M00600R).

(a) Any savings on the project must stay on the Puget Sound Gateway corridor until the project is complete.

(b) In making budget allocations to the Puget Sound Gateway project, the department shall implement the project's construction as a single corridor investment. The department shall continue to

collaborate with the affected stakeholders as it implements the corridor construction and implementation plan for state route number 167 and state route number 509. Specific funding allocations must be based on where and when specific project segments are ready for construction to move forward and investments can be best optimized for timely project completion. Emphasis must be placed on avoiding gaps in fund expenditures for either project.

(c) The entire multimodal transportation account—state appropriation in this subsection is for:

(i) The design phase of the Puyallup to Tacoma multiuse trail along the state route number 167 right-of-way acquired for the project to connect a network of new and existing trails from Mount Rainier to Point Defiance Park; and

(ii) Segment 2 of the state route number 167 completion project shared-use path to provide connections to the interchange of state route number 167 at 54th to the intersection of state route number 509 and Taylor Way in Tacoma.

(20) \$2,213,000 of the connecting Washington account—state appropriation is provided solely for the SR 224/Red Mountain Vicinity Improvement project (L1000291). The department shall provide funding to the city of West Richland to complete the project within the project scope identified by the legislature and within the total amount provided by the legislature. The department shall not amend the project's scope of work to add pavement preservation on state route number 224 from the West Richland city limits to Antinori Road.

(21)(a) ~~(\$394,963,000)~~ \$409,667,000 of the connecting Washington account—state appropriation, ~~(\$400,000)~~ \$500,000 of the state route number 520 corridor account—state appropriation, and ~~(\$4,496,000)~~ \$5,592,000 of the motor vehicle account—private/local appropriation are provided solely for the SR 520 Seattle Corridor Improvements - West End project (M00400R).

(b) Upon completion of the Montlake Phase of the West End project (~~current anticipated contract completion of 2023~~), the department shall sell or transfer that portion of the property not ~~(used)~~ necessary for ~~(permanent)~~ transportation ~~(improvements)~~ purposes, and shall initiate a process to convey ~~(that)~~ or transfer such portion of the surplus property to a subsequent owner.

(c) Of the amounts provided in this subsection, \$400,000 of the state route number 520 corridor account—state appropriation is provided solely for noise mitigation activities. It is the intent of the legislature to provide an additional \$600,000 for noise mitigation activities.

(d) Pursuant to section 2, chapter . . . (Senate Bill No. 6316), Laws of 2024, the department shall apply for a sales tax deferral for construction work on the SR 520 Seattle Corridor Improvements - West End project (M00400R).

(22)(a) \$750,000 of the transportation partnership account—state appropriation is provided solely for the state route number 520 bridge replacement and HOV (8B11003) to implement signage for the state route number 520 interchange with Montlake Boulevard as a result of public engagement.

(b) The amounts appropriated in this subsection must be used for the following:

(i) Removal of an existing sign bridge on Montlake Boulevard, located immediately south of the Lake Washington Boulevard intersection;

(ii) Replacement of the sign bridge with a pole with mast arm structure bearing appropriate directional signs for northbound motorists, and installation of a similar, advance-notice sign pole and mast arm for northbound motorists on Montlake Blvd at 24th Avenue;

(iii) Repainting, as necessary, an existing sign bridge on the newly constructed Montlake lid with a color decided upon through a public process; and

(iv) Fabrication and installation of a third pole with mast arm structure on southbound Montlake Boulevard immediately north of the west bound state route number 520 bridge onramp with signs directing southbound motorists.

~~((21))~~ (23) \$450,000 of the motor vehicle account—state appropriation is provided solely for the SR 900 Safety Improvements project (L2021118). The department must: (a) Work in collaboration with King county and the Skyway coalition to align community assets, transportation infrastructure needs, and initial design for safety improvements along state route number 900; and (b) work with the Skyway coalition to lead community planning engagement and active transportation activities.

~~((22))~~ (24) \$25,000,000 of the motor vehicle account—federal appropriation is provided solely for a federal fund exchange pilot program. The pilot program must allow exchanges of federal surface transportation block grant population funding and state funds at an exchange rate of 95 cents in state funds per \$1.00 in federal funds. The projects receiving the exchanged federal funds must adhere to all federal requirements, including the applicable disadvantaged business enterprise goals. The entirety of the appropriation in this subsection must be held in unallotted status until surface transportation block grant population funding has been offered to the state, and the department determines that a federalized project or projects funded in this section is eligible to spend the surface transportation block grant population funding. ~~(\$22,500,000)~~ \$23,750,000 from existing state appropriations identified elsewhere within this section are available to be used as part of the exchange. Upon determination that a project or projects funded in this section is eligible to spend the offered surface transportation block grant population funding, state funds appropriated in this section for the eligible state project or projects in an amount equal to 100 percent of the offered surface transportation block grant population funding must be placed in unallotted status. The legislature intends to evaluate the utility and efficacy of the pilot program in the 2025 legislative session while reappropriating any remaining funds into the 2025-2027 fiscal biennium. Therefore, the department may issue additional calls for projects with any remaining funds provided in this subsection.

~~((23) \$5,000,000)~~ (25) \$9,593,000 of the motor vehicle account—state appropriation, ~~(\$5,000,000)~~ \$552,000 of the connecting Washington account—state appropriation, and ~~(\$5,000,000)~~ \$209,000 of the move ahead WA account—state appropriation are provided solely for the SR 522/Paradise Lk Rd Interchange & Widening on SR 522 (Design/Engineering) project (NPARADI), specifically for design of, preliminary engineering, and right-of-way acquisition for the interchange and widening as a single project. The department must consider reserving portions of state route number 522, including designated lanes or ramps, for the exclusive or preferential use of public transportation vehicles, privately owned buses, motorcycles, private motor vehicles carrying not less than a specified number of passengers, or private transportation provider vehicles pursuant to RCW 47.52.025.

(26) Prior to initiating new requests for qualifications for projects N00900R, N52600R, M00800R, L1000199, 0BP2001, and M00600R, the department shall convene an expert review panel to review the planned procurement methods for these projects. The panel must consist of up to five representatives of the contracting community with expertise in multiple procurement methods. The panel shall provide recommendations

on procurement methods to the office of financial management, the department, and the transportation committees of the legislature for each project stated in this subsection. After the panel's recommendations have been provided, the department may initiate new requests for qualifications incorporating the recommendations as appropriate.

(27) \$750,000 of the motor vehicle account—state appropriation is provided solely for the Grady Way Overpass at Rainier Avenue South I-405 BRT Access study (L1000333).

(28) \$2,972,000 of the connecting Washington account—state appropriation is provided solely for the I-5/North Lewis County Interchange project (L2000204) in the 2023-2025 fiscal biennium. It is the intent of the legislature that the total amounts provided for this project on the list in subsection (1) of this section be reduced in future biennia by \$2,500,000.

Sec. 305. 2023 c 472 s 306 (uncodified) is amended to read as follows:

transportation partnership account—state appropriation are provided solely for the projects and activities as listed by fund, project, and amount in LEAP Transportation Document ((2023-4)) 2024-1 as developed ((April 21, 2023)) February 20, 2024, Program - Highway Preservation Program (P). However, limited transfers of specific line-item project appropriations may occur between projects for those amounts listed subject to the conditions and limitations in section 601 ((of this act)), chapter 472, Laws of 2023.

(2) Except as provided otherwise in this section, the entire motor vehicle account—state appropriation and motor vehicle account—federal appropriation are provided solely for the projects and activities listed in LEAP Transportation Document ((2023-2)) 2024-2 ALL PROJECTS as developed ((April 21, 2023)) February 20, 2024, Program - Highway Preservation Program (P). Any federal funds gained through efficiencies, adjustments to the federal funds forecast, or the federal funds redistribution process must then be applied to highway and bridge preservation activities.

(3) Within the motor vehicle account—state appropriation and motor vehicle account—federal appropriation, the department may transfer appropriation authority between programs I and P, except for appropriation authority that is otherwise restricted in this act, as follows:

(a) Ten days prior to any transfer, the department must submit its request to the office of financial management and the transportation committees of the legislature and consider any concerns raised.

The amount provided in this subsection must be held in unallotted status until the department submits a request to the office of financial management that includes documentation detailing litigation-related expenses. The office of financial management may release the funds only when it determines that all other funds designated for litigation awards, settlements, and dispute mitigation activities have been exhausted.

(6) Within the connecting Washington account—state appropriation, the department may transfer funds from Highway System Preservation (L1100071) to other preservation projects listed in the LEAP transportation document identified in subsection (1) of this section, if it is determined necessary for completion of these high priority preservation projects. The department's next budget submittal after using this subsection must appropriately reflect the transfer.

(9) \$16,800,000 of the climate active transportation account—state appropriation is provided solely for the statewide school-based bicycle education grant program (L1000309). The department may partner with a statewide nonprofit to deliver programs.

(10) \$25,000,000 of the climate active transportation account—state appropriation is provided solely for the Sandy Williams connecting communities pilot program (L1000308) to deliver projects to reconnect communities that have been bifurcated by state highways. Snohomish county, in partnership with Washington State University, shall plan and establish facilities to evaluate, qualify or certify, and research technologies that can minimize the impact of aviation on human health and the environment. Funds may be used for, but

are not limited to, planning, construction, and land acquisition for sustainable aviation fuel (SAF) qualification testing (ASTM D4054), research on the impact of SAF on the environment and human health, and SAF storage for the purpose of advancing sustainable aviation. At a minimum, three sustainable aviation platforms must be considered:

- (a) Sustainable aviation fuel (SAF);
- (b) Hydrogen; and
- (c) Battery electric energy storage mechanisms.

(13) The legislature intends to fund the Ballard and Magnolia Bridge project (L4000123) ~~((and the Aurora Avenue North Safety Improvements project (L4000154)))~~, as described in section 911(18) and (19) ~~((of this act))~~, chapter 472, Laws of 2023.

The Seattle office of planning and community development shall conduct ongoing community engagement with underrepresented constituencies to support the technical work of this study and raise public awareness of opportunities of I-5 lids. Focus should be given to low-income households living and working in the I-5 lid study areas in central Seattle.

(15) \$1,000,000 of the multimodal transportation account—state appropriation is provided solely for the department to award grants to local jurisdictions to implement network-wide traffic conflict screening programs using video analytics in controlled intersections with a disproportionate number of traffic violations and injuries to active transportation users (L2021149). Grants must be awarded proportionally across the state and include controlled intersections in both urban and rural environments and along state highways and county roads. Grant recipients must report back to the department all traffic violation and active transportation facility data acquired during the grant period and provide the department with appropriate next steps for the state and the local jurisdiction to improve traffic safety for active transportation users in such intersections. The department must report such findings and recommendations to the transportation committees of the legislature by December 1, 2024.

(16)(a)(i) \$5,000,000 of the carbon emissions reduction account—state appropriation is provided solely for the department to establish a program for providing rebates to qualifying persons who purchase e-bikes and qualifying equipment and services from a qualifying retailer. (ii) To qualify for and use the rebate under this subsection, a person must be a resident of Washington state and purchase an e-bike and qualifying equipment and services, if any, from a qualifying retailer in this state. Qualifying equipment and services must be purchased as part of the same transaction as the e-bike.

(B) For all other persons who are at least 16 years of age, the amount of the rebate is up to \$300 on the sale of an e-bike and any qualifying equipment and services.

(C) No more than one rebate may be awarded per household.

(iv)(A) The department must establish application procedures for e-bike retailers to participate in the rebate program, and

application and award procedures for applicants to participate in the program. If an applicant qualifies for a rebate amount and there is sufficient funds to award the applicant with the appropriate rebate amount, the department must provide the qualifying individual the rebate amount in a format that can be redeemed at the time of purchase at a qualifying retailer.

(B) An applicant must provide contact information, including a physical address, email address, and phone number, and demographic information, including the applicant's age, gender, race, and ethnicity, to the department on a form provided by the department at the time of applying for the rebate. The department may share or provide access to such information with the University of Washington to provide the University of Washington an opportunity to ask program applicants and recipients to fill out a survey collecting information only to the extent to inform its report described under (d) of this subsection.

(v) A qualifying retailer must register with the department before participating in the rebate program. A qualifying retailer must:

(A) Verify the identity of the qualifying individual at the time of purchase; and

(B) Calculate and apply the rebate at the time of purchase.

(vi) The department must reimburse a qualifying retailer that accepts a rebate from a qualifying individual no later than 30 days after the rebate is redeemed.

(vii) For purposes of this subsection (16)(a):

(C) "Qualifying retailer" means a retail business establishment with one or more physical retail locations in this state that provides on-site e-bike sales, service, and repair and has registered with the department to participate in the rebate program established under this subsection.

(b) For fiscal year 2025, \$2,000,000 of the carbon emissions reduction account—state appropriation is provided solely for the department to establish an e-bike lending library and ownership grant program. The department may accept grant applications from other state entities, local governments, and tribes that administer or plan to administer an e-bike lending library or ownership program for their employees for commute trip reduction purposes. The department may also accept grant applications from nonprofit organizations or tribal governments that serve persons who are low-income or reside in overburdened communities and that administer or plan to administer an e-bike lending library or ownership program for qualifying persons. Grant recipients must report program information and participation data to the University of Washington to inform its report described under (d) of this subsection.

(c) It is the intent of the legislature that funding provided in (a) and (b) of this subsection continue to be appropriated in the 2025-2027 and 2027-2029 fiscal biennia.

(d) Of the amounts provided in this subsection (16), \$90,000 is for the department to contract with the University of Washington's sustainable transportation lab to publish a general policy brief that provides innovative e-bike rebate and lending library or ownership grant program models and recommendations, a report on survey results based on data and demographic information collected under the e-bike rebate program established in (a) of this subsection, and a report on program information and data collected under the e-bike lending library and ownership grant program established in (b) of this

(20) ~~(\$750,000 of the motor vehicle account state appropriation is provided solely for the Grady Way overpass at Rainier Avenue South I-405 BRT Access study (L1000333).~~

~~(21))~~ The appropriations in this section include savings due to anticipated project underruns; however, it is unknown which projects will provide savings. The legislature intends to provide sufficient flexibility for the department to manage to this savings target. To provide this flexibility, the office of financial management may authorize, through an allotment modification, reductions in the amounts that are provided solely for a particular purpose within this section subject to the following conditions and limitations:

(a) The department must confirm that any modification requested under this subsection of amounts provided solely for a specific purpose are not expected to be used for that purpose in this fiscal biennium;

(b) Allotment modifications authorized under this subsection may not result in increased funding for any project beyond the amount provided for that project in the 2023-2025 fiscal biennium in LEAP Transportation Document ~~((2023-2))~~ 2024-2 ALL PROJECTS as developed ((April 21, 2023)) February 20, 2024;

(c) Allotment modifications authorized under this subsection apply only to amounts appropriated in this section from the following accounts: Connecting Washington account—state, and move ahead WA account—state; and

IMPLEMENTING PROVISIONS

Sec. 501. 2023 c 472 s 601 (uncodified) is amended to read as
follows:

**MANAGEMENT OF TRANSPORTATION FUNDS
WHEN THE LEGISLATURE IS NOT IN SESSION**

(1) The 2005 transportation partnership projects or
improvements and 2015 connecting Washington projects or
improvements are listed in the LEAP Transportation Document
~~((2023-1))~~ 2024-1 as developed ~~((April 21, 2023))~~ February 20,
2024, which consists of a list of specific projects by fund source
and amount over multiple biennia. Current fiscal biennium
funding for each project is a line-item appropriation, while the
outer year funding allocations represent a 16-year plan. The
department of transportation is expected to use the flexibility
provided in this section to assist in the delivery and completion of
all transportation partnership account and connecting Washington
account projects on the LEAP transportation document
referenced in this subsection. For the 2023-2025 project
appropriations, unless otherwise provided in this act, the director
of the office of financial management may provide written
authorization for a transfer of appropriation authority between
projects funded with transportation partnership account
appropriations or connecting Washington account appropriations
to manage project spending and efficiently deliver all projects in
the respective program under the following conditions and
limitations:

(a) Transfers may only be made within each specific fund
source referenced on the respective project list;

(b) Transfers from a project may not be made as a result of the
reduction of the scope of a project or be made to support increases
in the scope of a project;

(c) Transfers from a project may be made if the funds
appropriated to the project are in excess of the amount needed in
the current fiscal biennium;

(d) Transfers may not occur for projects not identified on the
applicable project list;

(e) Transfers to a project may not occur if that project is a
programmatic funding item described in broad general terms on
the applicable project list without referencing a specific state
route number;

(f) Transfers may not be made while the legislature is in
session;

(g) Transfers to a project may not be made with funds
designated as attributable to practical design savings as described
in RCW 47.01.480;

(h) Except for transfers made under (l) of this subsection,
transfers may only be made in fiscal year 2024;

(i) The total amount of transfers under this section may not exceed \$50,000,000;

(j) Except as otherwise provided in (l) of this subsection, transfers made to a single project may not cumulatively total more than \$20,000,000 per fiscal biennium;

(k) Each transfer between projects may only occur if the director of the office of financial management finds that any resulting change will not hinder the completion of the projects as approved by the legislature; and

(l) Transfers between projects may be made by the department of transportation without the formal written approval provided under this subsection (1), provided that the transfer amount to a single project does not exceed \$250,000 or 10 percent of the total project per fiscal biennium, whichever is less. These transfers must be reported quarterly to the director of the office of financial management and the chairs of the house of representatives and senate transportation committees.

(2) The department of transportation must submit quarterly all transfers authorized under this section in the transportation executive information system. The office of financial management must maintain a legislative baseline project list identified in the LEAP transportation documents referenced in this act, and update that project list with all authorized transfers under this section, including any effects to the total project budgets and schedules beyond the current fiscal biennium.

(3) At the time the department submits a request to transfer funds under this section, a copy of the request must be submitted to the chairs and ranking members of the transportation committees of the legislature.

(4) Before approval, the office of financial management shall work with legislative staff of the house of representatives and senate transportation committees to review the requested transfers in a timely manner and address any concerns raised by the chairs and ranking members of the transportation committees.

(5) No fewer than 10 days after the receipt of a project transfer request, the director of the office of financial management must provide written notification to the department of any decision regarding project transfers, with copies submitted to the transportation committees of the legislature.

(6) The department must submit annually as part of its budget submittal a report detailing all transfers made pursuant to this section, including any effects to the total project budgets and schedules beyond the current fiscal biennium.

Sec. 502. 2023 c 472 s 606 (uncodified) is amended to read as follows:

TRANSIT, BICYCLE, AND PEDESTRIAN ELEMENTS REPORTING

By November 15th of each year, the department of transportation must report on amounts expended to benefit transit, bicycle, or pedestrian elements within all connecting Washington projects in programs I, P, and Z identified in LEAP Transportation Document ((2023-2)) 2024-2 ALL PROJECTS as developed ((April 21, 2023)) February 20, 2024, in a manner consistent with past practices as specified in section 602, chapter 186, Laws of 2022.

"NEW SECTION. Sec. 1. A new section is added to chapter 19.27 RCW to read as follows:

(1) The legislature finds that lowering the cost of middle and multiplex housing construction will increase the housing supply and help address the state's shortage of affordable housing. It further finds that home builders and residentially focused architects are more familiar with the provisions of the international residential code. Allowing middle and multiplex housing to be built according to the standards of the international residential code will result in housing being easier to build and more affordable without sacrificing quality and safety. Therefore, the legislature intends to simplify the production of middle and multiplex housing by allowing more types of housing to use provisions of the international residential code.

(2) The state building code council shall convene a technical advisory group for the purpose of recommending the additions or amendments to rules or codes that are necessary for the council to apply the Washington state residential code to multiplex housing. The technical advisory group shall determine the most efficient mechanism to implement these changes in the Washington state residential code. These recommendations must include those code changes necessary to ensure public health and safety in multifamily housing under the international residential code and must consider the life safety systems and accessibility requirements for multiplex housing from the Washington state building code.

(3) The advisory group shall provide its recommendations to the council in time for the council to adopt or amend rules or codes as necessary for implementation in the 2024 international building code. The council shall take action to adopt additions and amendments to rules or codes as necessary to apply the international residential code to multiplex housing by November 1, 2026.

(4) For the purposes of this section, "multiplex housing" means a building with up to six dwelling units consolidated into a single structure with common walls and floors and a functional primary street entrance, or a building of up to three stories containing up to six dwelling units consolidated into a single structure.

NEW SECTION. Sec. 2. A new section is added to chapter 19.27 RCW to read as follows:

(1) The state building code council shall convene a technical advisory group for the purpose of recommending amendments to the international building code that would allow for a minimum dwelling unit size that is less than the requirements for an efficiency dwelling unit in the international building code. The technical advisory group shall consider aligning the state building code sections related to interior environment with the relevant sections of the national healthy housing standard published by the national center for healthy housing. When developing the recommendations, the technical advisory group must review the differences between the state building code and the national healthy housing standard and allow experts in public health and fire safety to comment during the process.

(2) The technical advisory group shall provide its recommendations to the council in time for the council to adopt or amend rules or codes as necessary for implementation in the 2024 international building code. The council shall take action to adopt additions and amendments to rules or codes as necessary by November 1, 2026.

NEW SECTION. Sec. 3. The office of regulatory innovation and assistance shall contract with a qualified external consultant or entity to develop a standard energy code plan set demonstrating a prescriptive compliance pathway that will meet or exceed all

FIFTY FIRST DAY, FEBRUARY 27, 2024

energy code regulations for residential housing in the state subject to the international residential code. The standard energy code plan set may be used, but is not required, by local governments and building industries. In developing the standard energy code plan set, the consultant shall, at a minimum, seek feedback from cities, counties, building industries, and building officials. The standard energy code plan set must be completed by June 30, 2025."

(i) Filed within 60 days of each other; or

(ii) If the permits are not filed within 60 days of each other and the environmental board issues a stay of the appeal of the permit following the applicant's request. Such a stay must include a stay of the construction of the project pending appeal pursuant to RCW 43.21B.320, to allow other anticipated appeals of permits for the same underlying project to be filed with the environmental boards to accommodate consolidation pursuant to this section, but the environmental board may set a deadline after which an appeal

(b) The presiding officer determines that the following three criteria have been met:

(i) Consolidation will expedite disposition of the appeals;

(ii) Consolidation will avoid duplication of testimony; and

(iii) Consolidation will not prejudice the rights of the parties.

(2) When all appeals of individual permits consolidated pursuant to this section are within the jurisdiction of the pollution control hearings board, the pollution control hearings board shall retain jurisdiction over the consolidated matter. In no case may the time period in (b) of this subsection be extended for a period greater than 30 days unless the time period is waived by all parties.

Sec. 4. RCW 90.58.180 and 2011 c 277 s 4 are each amended to read as follows:

(7) A decision of the board on the validity of a rule, regulation, or guideline shall be subject to review in superior court, if authorized pursuant to chapter 34.05 RCW. A petition for review of the decision of the shorelines hearings board on a rule, regulation, or guideline shall be filed within ~~((thirty))~~ 30 days after the date of final decision by the shorelines hearings board.

(8) Where multiple permits for the same underlying clean energy project, as defined in RCW 43.158.010, have been appealed to one or more of the environmental boards, as identified in RCW 43.21B.005, the presiding officer shall consolidate the appeals, including appeals to the shorelines hearings board, pursuant to section 3 of this act.

(1) The director shall adopt rules, pursuant to this section, to address safety and health issues specific to workers performing construction activities who menstruate or express milk, or both. The rules must be included in the rules governing construction safety standards and must be applicable only to employers in the construction industry.

(2) The rules adopted pursuant to this section must require employers in the construction industry to provide workers, performing construction activities and who menstruate, with:

(a) A minimum size bathroom, accessible on the worksite, that is equivalent to a standard sized portable chemical toilet, or access to a permanent structure with a bathroom. The bathroom must have an internal latch to be secured from inadvertent entry;

Menstrual hygiene products must either be located in all gender-neutral bathrooms and bathrooms designated for workers who menstruate, or provided in kits for each worker who needs such product.

(3) The rules adopted pursuant to this section must require employers in the construction industry to provide reasonable accommodations for workers performing construction activities to express milk. The department must identify minimum reasonable accommodations that include alternatives for worksites of varying numbers of employees. Reasonable accommodations means providing:

(a) Flexible work scheduling, including scheduling breaks and permitting work patterns that provide time for the expression of milk;

(b) A location, other than a bathroom, that is convenient and sanitary for the worker to express milk. The location must be private and lockable, if possible, and free from intrusion;

(c) Convenient hygienic refrigeration on the worksite for the storage of milk; and

(4) On multi-employer worksites, each employer is responsible for ensuring that facilities for their own workers are provided.

(5)(a) Until thirty days after the date the department's adopted rule is filed with the code reviser, or July 1, 2025, whichever date is later, the department may not impose any monetary penalties for violations of this section. This subsection does not prohibit the department from receiving complaints, conducting inspections, issuing citations with no assessed penalty, and fixing reasonable time for abatement of the violation.

(b) When the department's final rules under this section are published by the code reviser in the State Register, the department, in partnership with relevant labor organizations and the office of minority and women's business enterprises, shall conduct educational outreach to construction employers on the rights and responsibilities established in this section."

"NEW SECTION. Sec. 1. The legislature finds that fish barriers are a serious impediment to salmon and steelhead recovery. The legislature further finds that the state has limited financial resources to address its many challenges and that community members and businesses may want to offer their help in partnership with the state for the removal of fish barriers that are on lands owned by state or local governments. The legislature also finds that it is desirable to coordinate any such private donations with existing fish barrier removal projects on lands owned by state or local governments.

Therefore, the legislature intends to facilitate the removal of fish barriers on lands owned by state or local governments by creating the adopt a fish passage program through which state or local governments may receive such donations and to acknowledge project donors through appropriate public signage.

NEW SECTION. Sec. 2. A new section is added to chapter 77.95 RCW to read as follows:

(3) Signs installed under subsection (2) of this section must be of a uniform design approved by the recreation and conservation office and may only include the words "adopt-a-fish passage," the names of project donors, and the species of fish affected by the project. Signage is also subject to the following limitations:

(a) The donor's name may not be displayed more predominantly than the remainder of the sign message.

(b) Trademarks or business logos may be displayed.

(c) To the extent that the Washington state department of transportation and local governments determine that the number of donors for individual projects would interfere with the signage requirements of subsection (2) of this section or the requirements of RCW 47.40.105, the Washington state department of transportation and local governments may determine the number of donors listed on signs but must endeavor to recognize the donors that provide the largest donations.

(d) The Washington state department of transportation and local governments receiving private donations under this section

must only install signage pursuant to this section for individual donations that are equal in value to at least \$10,000.

(e) Notwithstanding other provisions of this subsection, a donor is not eligible to have their name displayed on the sign if the applicant's name: (i) Endorses or opposes a particular candidate for public office; (ii) advocates a position on a specific political issue, initiative, referendum, or piece of legislation; (iii) includes a reference to a political party; or (iv) includes a reference to anything that may be considered or construed to be obscene or offensive to the general public.

(4) To the extent feasible and with the goal of expediting fish barrier removals, the Washington state department of transportation, counties, cities, and towns receiving donations under this section must coordinate donations with any grant applications made for state grant funding for fish barrier removal pursuant to RCW 77.95.170. The recreation and conservation office must publish and maintain a list of fish barrier removal projects that are suited to receiving private donations pursuant to this section. Donations received under this section are eligible for use as match for other funding sources, including state and federal grants.

(5) Upon completion of a project funded with private donations pursuant to this section, the Washington state department of transportation or local government that owns the completed project must notify the recreation and conservation office. Upon receiving such a notification, the recreation and conservation office must gather information regarding the project sponsors, location, fish species affected, and the amounts of individual donations that supported the project. The recreation and conservation office must publish and maintain this information with the project list under subsection (4) of this section.

(6) For each individual donation equal to at least \$100,000 in value pursuant to this section, the recreation and conservation office must provide to the donor a recognition plaque that meets the following criteria: (a) The plaque must be signed by the governor; and (b) the plaque must include the name of the donor, the words "adopt-a-fish passage program," the location and name of the project funded, the amount and year of the donation, and the fish species affected.

Sec. 3. RCW 47.40.105 and 1990 c 258 s 3 are each amended to read as follows:

Local government legislative authorities may enact local "adopt-a-highway sign" and "adopt-a-fish passage" programs which are not inconsistent with state or federal law.

(7) Planning grant requirements and prioritization. Subject to the availability of amounts appropriated for this specific purpose, the office of the superintendent of public instruction must assist eligible school districts that are interested in applying for a construction grant under this section by providing technical assistance and planning grants. School districts seeking planning grants under this section must provide a brief statement describing existing school conditions, building system and site deficiencies, current and five-year projected student headcount enrollment, student achievement measures, and financial constraints. (8) Construction grant requirements and prioritization.

(a) School districts applying for a construction grant under this section must have received and completed a planning grant under subsection (7) of this section or have completed construction documents including drawings, specifications, total project cost estimates, contract and procurement requirements, and other materials required by the advisory committee, as part of the construction grant application process.

(b) Subject to the availability of amounts appropriated for this specific purpose, the advisory committee must prioritize applications from school districts with the lowest remaining debt

capacity, most significant building deficiencies, and lowest headcount enrollment. The advisory committee may weigh these factors as appropriate given the pool of applicants and the extent each factor deviates from the statewide average.

(9) Eligibility and prioritization recommendations. The advisory committee may propose changes to the eligibility threshold and grant application prioritization criteria to the legislature as they learn more about the characteristics of school districts that are unable to replace or modernize their aging school facilities.

(10) Share of project costs. School districts receiving a grant under this section must provide a district share in accordance with the following requirements:

(a) Except as provided for under (b) and (c) of this subsection, to receive a grant under this section a school district must provide, for each grant awarded, a district share of project cost equal to at least 50 percent of the district's remaining debt capacity pursuant to RCW 39.36.020.

(b) To the extent that the district share requirement under (a) of this subsection would, at the time of application, require the estimated school district property tax rate increment associated with the grant to exceed a threshold of \$1.75 per \$1,000 of assessed property value, the office of the superintendent of public instruction must reduce the required district share to achieve an estimated property tax rate equal to this threshold.

(c) A school district may use federal funding, other nonstate grant funding, and private donations to pay for its share under this subsection. When calculating a district's share requirement under (a) of this subsection, the superintendent of public instruction must reduce the district's required share in a manner directly proportionate to the amount of nonstate and nonschool district funding provided to support the state grant.

(d) To determine the property tax rate threshold under (b) of this subsection, the office of the superintendent of public instruction must calculate the property tax rate increment associated with the grant based on the estimated annualized debt service costs for general obligation bonds issued with an average maturity of no less than 20 years and the interest rate for state of Washington general obligation bonds issued most closely to the date of application for the grant.

(11) Coordination with the school construction assistance program and local cost share. To the extent that a school district awarded a grant under this section is also eligible for funding under the school construction assistance program provided by RCW 28A.525.162 through 28A.525.180, the office of the superintendent of public instruction must coordinate grant funding between the programs and ensure that total state funding from a grant under this section and a school construction assistance program grant does not exceed total project costs minus the school district's share calculated under subsection (10) of this section. School districts that receive grants under this section may use the grant to fund the required local funding equal to or greater than the difference between the total approved project cost and the amount of state funding assistance computed provided by RCW 28A.525.162 through 28A.525.180. However, school districts coordinating grants provided in this section with school construction assistance program funding are required to contribute not less than the school district's required share as calculated under subsection (10) of this section.

(12) Disbursement of grant funds and reporting requirements. The office of the superintendent of public instruction must award grants under this section to school districts. The grants must not be awarded until the recipient has identified available local and other resources sufficient to complete the approved project

considering the amount of state grant funding. The grant must specify reporting requirements for the district and must include:

(a) Updating all school inventory and condition data considered necessary by the office of the superintendent of public instruction;

(b) Submitting a final project report as specified by the office of the superintendent of public instruction in consultation with the advisory committee and approved by the school facilities citizen advisory panel created under RCW 28A.525.025; and

(c) Implementing and maintaining an asset preservation program for the facility receiving grant funding as required by the office of the superintendent of public instruction's asset preservation program.

(13) For the purposes of this section, "advisory committee" means the advisory committee created under RCW 28A.525.159.

Sec. 3. RCW 28A.525.159 and 2020 c 299 s 1 are each amended to read as follows:

(1) School construction assistance program grants for small school districts and state-tribal education compact schools must be determined in accordance with this section.

(2) Eligibility. School districts and state-tribal education compact schools with enrollments that are less than or equal to one thousand students are eligible for small school district modernization grants. The advisory committee specified in subsection (4)(a) of this section may recommend amendments to the eligibility threshold as they learn more about the characteristics of school districts and state-tribal education compact schools that are unable to modernize their aging school facilities. Districts with incomplete information in the inventory and condition of schools data system are not eligible to apply for construction grants but may apply for planning grants.

(3) The office of the superintendent of public instruction must assist eligible school districts and state-tribal education compact schools that are interested in applying for a small school district modernization grant under this section by providing technical assistance and planning grants within appropriations for this purpose. Districts and state-tribal education compact schools seeking planning grants must provide a brief statement of the school condition, its deficiencies, student enrollment, student achievement measures, and financial limitations of the district or state-tribal education compact school. If applications for planning grants exceed funds available, the office of the superintendent of public instruction may prioritize the recipients of planning grants in order to help districts and state-tribal education compact schools with the most serious apparent building deficiencies, and the most limited financial capacity.

(4) Prioritized construction grants and advisory committee.

(a) The superintendent of public instruction must propose a list of prioritized grants to the governor by September 1st of even-numbered years. The superintendent of public instruction must appoint an advisory committee to separately prioritize applications from small school districts and state-tribal education compact schools and from financially distressed school districts for grants under section 2 of this act. Committee members must have experience in financing, managing, repairing, and improving school facilities in small school districts or state-tribal education compact schools but must not be involved in ~~((a small school district modernization program))~~ grant request under this section or section 2 of this act for the biennium under consideration. The office of the superintendent of public instruction must provide administrative and staff support to the ~~((advisory))~~ advisory committee and coordinate activities to minimize costs to the extent practicable. The office of the superintendent of public instruction in consultation with the advisory committee must design a grant application process with specific criteria for prioritizing grant requests.

(b) The advisory committee created in (a) of this subsection must evaluate final applications from eligible school districts and state-tribal education compact schools. The advisory committee must submit a prioritized list of grants to the superintendent of public instruction. The list must prioritize applications to achieve the greatest improvement of school facilities, in the districts and state-tribal education compact schools with the most limited financial capacity, for projects that are likely to improve student health, safety, and academic performance for the largest number of students for the amount of state grant support. The advisory committee must develop specific criteria to achieve the prioritization. The submitted prioritized list must describe the project, the proposed state funding level, and the estimated total project cost including other funding and in-kind resources. The list must also indicate student achievement measures that will be used to evaluate the benefits of the project. The superintendent of public instruction and the governor may determine the level of funding in their omnibus capital appropriations act requests to support small school district modernization grants, but their funding requests must follow the prioritized list prepared by the advisory committee unless new information determines that a specific project is no longer viable as proposed.

(5) Coordination with the school construction assistance program.

(a) The full administrative and procedural process of school construction assistance program funding under RCW 28A.525.162 through 28A.525.180 may be streamlined by the office of the superintendent of public instruction in order to coordinate eligible school construction assistance program funding with the small school district modernization grants. Such coordination must ensure that total state funding from both grants does not exceed total project costs minus available local resources.

(b) Projects seeking small school district modernization grants must meet the requirements for a school construction assistance program grant except for the following: (i) The estimated cost of the project may be less than forty percent of the estimated replacement value of the facility, and (ii) local funding assistance percentage requirements of the school construction assistance program do not apply. However, available district and state-tribal education compact school resources are considered in prioritizing small school district modernization grants.

(6) Disbursement of grant funds and reporting requirements. The office of the superintendent of public instruction must award grants to school districts and state-tribal education compact schools. The grant must not be awarded until the district or state-tribal education compact school has identified available local and other resources sufficient to complete the approved project considering the amount of the state grant. The grant must specify reporting requirements from the district or state-tribal education compact school, which must include updating all pertinent information in the inventory and condition of schools data system and submitting a final project report as specified by the office of the superintendent of public instruction in consultation with the school facilities ~~((citizens [citizen]))~~ citizen advisory panel specified in RCW 28A.525.025.

Sec. 4. RCW 28A.515.320 and 2023 c 470 s 2006 are each amended to read as follows:

(1) The common school construction fund is to be used exclusively for the purpose of financing the construction of facilities for the common schools. The sources of said fund shall be: ~~((+))~~ (a) Those proceeds derived from sale or appropriation of timber and other crops from school and state land other than those granted for specific purposes; ~~((2))~~ (b) the interest accruing on the permanent common school fund less the

allocations to the state treasurer's service fund pursuant to RCW 43.08.190 and the state investment board expense account pursuant to RCW 43.33A.160 together with all rentals and other revenue derived therefrom and from land and other property devoted to the permanent common school fund; ~~((3))~~ (c) all moneys received by the state from the United States under the provisions of section 191, Title 30, United States Code, Annotated, and under section 810, chapter 12, Title 16, (Conservation), United States Code, Annotated, except moneys received before June 30, 2001, and when thirty megawatts of geothermal power is certified as commercially available by the receiving utilities and the department of commerce, eighty percent of such moneys, under the Geothermal Steam Act of 1970 pursuant to RCW 43.140.030; and ~~((4))~~ (d) such other sources as the legislature may direct. That portion of the common school construction fund derived from interest on the permanent common school fund may be used to retire such bonds as may be authorized by law for the purpose of financing the construction of facilities for the common schools.

(2) The interest accruing on the permanent common school fund less the allocations to the state treasurer's service fund pursuant to RCW 43.08.190 and the state investment board expense account pursuant to RCW 43.33A.160 together with all rentals and other revenues accruing thereto pursuant to subsection ~~((2))~~ (1)(b) of this section prior to July 1, 1967, shall be exclusively applied to the current use of the common schools.

(3) To the extent that the moneys in the common school construction fund are in excess of the amount necessary to allow fulfillment of the purpose of said fund, the excess shall be available for deposit to the credit of the permanent common school fund or available for the current use of the common schools, as the legislature may direct. Any money from the common school construction fund which is made available for the current use of the common schools shall be restored to the fund by appropriation, including interest income forgone, before the end of the next fiscal biennium following such use.

(4) Appropriations for the small school districts project prioritized list submitted under RCW 28A.525.159 are the first priority of appropriations from the common school construction fund, after payment of principal and interest on the bonds authorized in RCW 28A.527.040 from that portion of the common school construction fund derived from interest on the permanent common school fund. Appropriations from the common school construction fund must be prioritized as follows, as fund balance allows:

(a) Beginning with appropriations enacted for the 2025-2027 fiscal biennium, no less than \$60,000,000 of new appropriations in the biennial capital budget must be used to fund the small school districts project prioritized list, and any remaining amounts in the common school construction fund may be appropriated for other common school construction purposes.

(b) Beginning with appropriations enacted for the 2027-2029 fiscal biennium, no less than \$70,000,000 of new appropriations in the biennial capital budget must be used to fund the small school districts project prioritized list, and any remaining amounts in the common school construction fund may be appropriated for other common school construction purposes.

(c) Beginning with appropriations enacted for the 2029-2031 fiscal biennium and each biennium thereafter, no less than \$80,000,000 of new appropriations in the biennial capital budget must be used to fund the small school districts project prioritized list, and any remaining amounts in the common school construction fund may be appropriated for other common school construction purposes."

Addressing fentanyl and other substance use prevention education.

The measure was read the second time.

MOTION

Senator Wellman moved that the following committee striking amendment by the Committee on Ways & Means be adopted:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. (1) The legislature finds that overdoses and overdose deaths, particularly from synthetic opioids, have increased in recent years. According to the federal centers for disease control and prevention, among persons aged 14 through 18, overdose deaths increased 94 percent from 2019 to 2020 and 20 percent from 2020 to 2021. In 2021, over 75 percent of all drug overdose deaths involved opioids, with synthetic opioids, including fentanyl, accounting for nearly 88 percent of those deaths. Between 2022 and 2023, Washington saw the largest increase in overdose deaths of any state at 40 percent.

(2) The legislature recognizes that fatal overdose risk among adolescents is increasing due to widespread availability of illicitly

manufactured fentanyl, proliferation of counterfeit pills resembling prescription drugs but containing illicit drugs, and ease of purchasing pills through social media. The United States drug enforcement administration states that there is significant risk that illegal drugs have been intentionally contaminated with fentanyl. As a result, many young people may ingest a lethal dose without knowing that they are consuming fentanyl.

(3) The legislature acknowledges that the level of public health crisis created by use of fentanyl and other synthetic opioids requires an immediate, substantial, and coordinated effort by national, state, and local public health, social service, and educational agencies working together.

(4) The legislature also acknowledges that the popularity of drugs grows and wanes forming distinct drug epidemics, similar to disease epidemics. As the popularity and availability of synthetic opioids wanes, it is likely that some other substance will pose the next acute public health crisis.

(5) Therefore, in order to combat the current public health crisis of abuse of fentanyl and other synthetic opioids, and to be prepared to address the next drug epidemic before it reaches crisis level, the legislature intends to direct the state department of health to deploy a statewide substance use prevention and awareness campaign that evolves to address the substance or substances with the greatest impact on the health of Washington youth and their families, diverse regions and communities, and the broader public. The legislature also intends for the public education system to actively incorporate campaign messages and materials in classrooms, as well as in family and community communications.

NEW SECTION. Sec. 2. A new section is added to chapter 43.70 RCW to read as follows:

(1) The department shall develop, implement, and maintain a statewide drug overdose prevention and awareness campaign to address the drug overdose epidemic.

(2)(a) The campaign must educate the public about the dangers of methamphetamines and opioids, including fentanyl, and the harms caused by drug use. The campaign must include outreach to both youth and adults aimed at preventing substance use and overdose deaths.

(b) The department, in consultation with the health care authority, may also include messaging focused on substance use disorder and overdose death prevention, resources for addiction treatment and services, and information on immunity for people who seek medical assistance in a drug overdose situation pursuant to RCW 69.50.315.

(3) The 2024 and 2025 campaigns must focus on increasing the awareness of the dangers of fentanyl and other synthetic opioids, including the high possibility that other drugs are contaminated with synthetic opioids and that even trace amounts of synthetic opioids can be lethal.

(4) Beginning June 30, 2025, and each year thereafter, the department must submit a report to the appropriate committees of the legislature on the content and distribution of the statewide drug overdose prevention and awareness campaign. The report must include a summary of the messages distributed during the campaign, the mediums through which the campaign was operated, and data on how many individuals received information through the campaign. The department must identify measurable benchmarks to determine the effectiveness of the campaign and recommend whether the campaign should continue and if any changes should be made to the campaign. The report must be submitted in compliance with RCW 43.01.036.

NEW SECTION. Sec. 3. A new section is added to chapter 28A.300 RCW to read as follows:

(1) The office of the superintendent of public instruction shall collaborate with the department of health, the health care authority, other state agencies, and educational service districts to develop age-appropriate substance use prevention and awareness materials for school and classroom uses. These materials must be periodically updated to align with substance use prevention and awareness campaigns implemented by the department of health and the health care authority.

(2) The office of the superintendent of public instruction shall actively distribute the materials developed under subsection (1) of this section to school districts, public schools, educational service districts, and community-based organizations that provide extended learning opportunities, and strongly encourage the incorporation of age-appropriate materials in classrooms, as well as in family and community communications.

NEW SECTION. Sec. 4. (1) The office of the superintendent of public instruction shall collaborate with the department of health, the health care authority, other state agencies, and educational service districts to develop school and classroom materials on the lethality of fentanyl and other opioids in coordination with the public health campaign created in section 2 of this act. The office of the superintendent of public instruction must make these materials available to school districts and public schools.

(2) By December 1, 2025, the office of the superintendent of public instruction shall adjust the state health and physical education learning standards for middle and high school students to add opioids to the list of drugs included in drug-related education and update the school and classroom materials developed under subsection (1) of this section to reflect the adjusted standards required by this subsection (2). The office of the superintendent of public instruction must make these materials available to school districts and public schools.

(3) This section expires July 1, 2026.

NEW SECTION. Sec. 5. This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect immediately.

NEW SECTION. Sec. 6. If specific funding for the purposes of this act, referencing this act by bill or chapter number, is not provided by June 30, 2024, in the omnibus appropriations act, this act is null and void.

NEW SECTION. Sec. 7. This act may be known and cited as the Lucas Petty act."

On page 1, line 2 of the title, after "education;" strike the remainder of the title and insert "adding a new section to chapter 43.70 RCW; adding a new section to chapter 28A.300 RCW; creating new sections; providing an expiration date; and declaring an emergency."

Concerning agriculture pest and disease response.

The measure was read the second time.

MOTION

Senator Van De Wege moved that the following committee striking amendment by the Committee on Agriculture, Water, Natural Resources & Parks be adopted:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. (1) The legislature finds that Washington agriculture is complex and highly diverse, producing more than 300 agricultural commodities on over 35,900 farms. Agricultural production in Washington is highly valued, generating \$12,800,000,000 per year in production value, not including over \$17,000,000,000 in food and agricultural products that pass through Washington's ports annually.

(2) The legislature also finds that the Washington state department of agriculture's statutory duties include monitoring and responding to new, emerging, and transboundary plant and animal pests and diseases. Pest and disease challenges, to the state's food systems, public health, and the environment, have increased in frequency and severity due to changing climate patterns and global trade flows.

(3) In order to better protect Washington's food and agricultural economy, public health, and the environment, the legislature intends to provide more reliable and readily available funding to

prevent, quickly detect, and rapidly respond to emerging threats from agricultural pests and diseases.

NEW SECTION. Sec. 2. (1) The agricultural pest and disease response account is created in the state treasury. All receipts from moneys received pursuant to section 3 of this act, moneys appropriated to the account by the legislature, or moneys directed to the account from any other lawful source, for the purpose of funding emerging agricultural pest and disease response activities, must be deposited into the account. Moneys in the account may be spent only after appropriation.

(2) Following a declaration of emergency under RCW 17.24.171 or issuance of a quarantine order under RCW 16.36.010 or 17.24.041, expenditures from the account may be used only for activities necessary to respond to emerging agricultural pest and disease threats in order to protect the food and agricultural economy of the state, the public health of the state, or the environment of the state including, but not limited to, actions authorized under this chapter and chapters 15.08, 16.36, 16.38, and 17.24 RCW.

(3) By October 1st following any fiscal year in which expenditures were made from the account, the department must provide the director of the office of financial management with a close-out cost summary of expenditures authorized for that fiscal year.

NEW SECTION. Sec. 3. Upon the issuance of a declaration of emergency under RCW 17.24.171 or a quarantine order under RCW 16.36.010 or 17.24.041, the state treasurer shall transfer from the general fund to the agricultural pest and disease response account created in section 2 of this act those amounts necessary to bring the balance of the agricultural pest and disease response account to \$2,000,000, based upon the determination of the transfer amount from the office of financial management. The office of financial management must determine the fund balance of the agricultural pest and disease response account as of the previous fiscal month before the issuance of a declaration of emergency or a quarantine order. The office of financial management must promptly notify the state treasurer and the department of the account balance and the necessary transfer amount once a determination is made. A transfer based on the determination by the office of financial management may be made only once every fiscal year.

Sec. 4. RCW 17.24.171 and 2003 c 314 s 6 are each amended to read as follows:

(1) If the director determines that there exists an imminent danger of an infestation of plant pests or plant diseases that seriously endangers the agricultural or horticultural industries of the state, or that seriously threatens life, health, economic well-being, or the environment, the director shall request the governor to order emergency measures to control the pests or plant diseases under RCW 43.06.010(13). The director's findings shall contain an evaluation of the affect of the emergency measures on public health.

(2) If an emergency is declared pursuant to RCW 43.06.010(13), the director may appoint a committee to advise the governor through the director and to review emergency measures necessary under the authority of RCW 43.06.010(13) and this section and make subsequent recommendations to the governor. ~~((The committee shall include representatives of the agricultural industries, state and local government, public health interests, technical service providers, and environmental organizations.))~~ Invitations to participate on the committee must include representatives of the affected agricultural industries, state and local government, federally recognized tribes, public health interests, technical service providers, and environmental organizations.

FIFTY THIRD DAY, FEBRUARY 29, 2024

(3) Upon the order of the governor of the use of emergency measures, the director is authorized to implement the emergency measures to prevent, control, or eradicate plant pests or plant diseases that are the subject of the emergency order. Such measures, after thorough evaluation of all other alternatives, may include the aerial application of pesticides.

(4) Upon the order of the governor of the use of emergency measures, the director is authorized to enter into agreements with individuals, companies, or agencies, to accomplish the prevention, control, or eradication of plant pests or plant diseases, notwithstanding the provisions of chapter 15.58 or 17.21 RCW, or any other statute.

(5) The director shall continually evaluate the emergency measures taken and report to the governor at intervals of not less than ~~((ten))~~ 60 days. The director shall immediately advise the governor if he or she finds that the emergency no longer exists or if certain emergency measures should be discontinued.

NEW SECTION. Sec. 5. Sections 2 and 3 of this act are each added to chapter 43.23 RCW."

On page 1, line 1 of the title, after "response;" strike the remainder of the title and insert "amending RCW 17.24.171; adding new sections to chapter 43.23 RCW; and creating a new section."

ENGROSSED SUBSTITUTE HOUSE BILL NO. 1589, by House Committee on Environment & Energy (originally sponsored by Representatives Doglio, Fitzgibbon, Berry, Alvarado, Bateman, Ramel, Peterson, Lekanoff, Hackney, Macri, and Kloba)

Supporting Washington's clean energy economy and transitioning to a clean, affordable, and reliable energy future.

The measure was read the second time.

MOTION

Senator Nguyen moved that the following committee striking amendment by the Committee on Environment, Energy & Technology be adopted:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. (1) The legislature finds that the state's gas and electrical companies face transformational change brought on by new technology, emerging opportunities for customers, and state clean energy laws. Chapter 19.405 RCW, the Washington clean energy transformation act, and chapter 70A.65 RCW, the Washington climate commitment act, require these companies to find innovative and creative solutions to equitably serve their customers, provide clean energy, reduce emissions, and keep rates fair, just, reasonable, and sufficient.

(2) Gas companies that serve over 500,000 gas customers in Washington state, which are also electrical companies, or large combination utilities, play an important role in providing affordable and reliable heating and other energy services, and in leading the implementation of state climate policies. As the state transitions to cleaner sources of energy, large combination utilities are an important partner in helping their customers make smart energy choices, including actively supporting the replacement of fossil fuel-based space and water heating equipment and other fossil fuel-based equipment with high-efficiency nonemitting equipment. Programs to accelerate the adoption of efficient, nonemitting appliances have the potential to allow large combination utilities to optimize the use of energy infrastructure, improve the management of energy loads, better manage the integration of variable renewable energy resources, reduce greenhouse gas emissions from the buildings sector, mitigate the environmental impacts of utility operations and power purchases, and improve health outcomes for occupants. Legislative clarity is important for utilities to offer programs and services, including incentives, in the decarbonization of homes and buildings for their customers.

(3) In order to meet the statewide greenhouse gas limits in the energy sectors of the economy, more resources must be directed toward achieving decarbonization of residential and commercial heating loads and other loads that are served with fossil fuels, while continuing to protect all customers, but especially low-income customers, vulnerable populations, highly impacted communities, and overburdened communities. The legislature finds that regulatory innovation may be needed to remove barriers that large combination utilities may face to meet the state's public policy objectives and expectations. The enactment of chapter 188, Laws of 2021 (Engrossed Substitute Senate Bill No. 5295) began that regulatory transition from traditional cost-of-service regulation, with investor-owned gas and electrical companies using forward-looking multiyear rate plans and taking steps toward performance-based regulation. These steps are intended to

FIFTY THIRD DAY, FEBRUARY 29, 2024

provide certainty and stability to both customers and to investor-owned gas and electrical companies, aligning public policy objectives with investments, safety, and reliability.

(4) The legislature finds that as Washington transitions to 100 percent clean electricity and as the state implements the Washington climate commitment act, switching from fossil fuel-based heating equipment and other fossil fuel-based appliances to high-efficiency nonemitting equipment will reduce climate impacts and fuel price risks for customers in the long term. This new paradigm requires a thoughtful transition to decarbonize the energy system to ensure that all customers benefit from the transition, that customers are protected, are not subject to sudden price shocks, and continue to receive needed energy services, with an equitable allocation of benefits and burdens. This transition will require careful and integrated planning by and between utilities, the commission, and customers, as well as new regulatory tools.

(5) It is the intent of the legislature to require large combination utilities to decarbonize their systems by: (a) Prioritizing efficient and cost-effective measures to transition customers off of the direct use of fossil fuels at the lowest reasonable cost to customers; (b) investing in the energy supply, storage, delivery, and demand-side resources that will be needed to serve any increase in electrical demand affordably and reliably; (c) maintaining safety and reliability as the gas system undergoes transformational changes; (d) integrating zero-carbon and carbon-neutral fuels to serve high heat and industrial loads where electrification may not be technically feasible; (e) managing peak demand of the electric system; and (f) ensuring an equitable distribution of benefits to, and reduction of burdens for, vulnerable populations, highly impacted communities, and overburdened communities that have historically been underserved by utility energy efficiency programs, and may be disproportionately impacted by rising fuel and equipment costs or experience high energy burden.

(6) It is the intent of the legislature to support this transition by adopting requirements for large combination utilities to conduct integrated system planning to develop specific actions supporting gas system decarbonization and electrification, and reduction in the gas rate base.

(7) It is the intent of the legislature to encourage a robust competitive wholesale market for generation, storage, and demand-side resources to serve the state's electrical companies, other electric utilities, and end-users that secure their own power supply.

(30) "Supply side resource" means, as applicable: (a) Any resource that can provide capacity, electricity, or ancillary services to the large combination utility's electric delivery system; or (b) any resource that can provide conventional or nonconventional gas supplies to the large combination utility's gas delivery system.

(31) "System cost" means actual direct costs or an estimate of all direct costs of a project or resource over its effective life including, if applicable: The costs of transmission and distribution to the customers; waste disposal costs; permitting, siting, mitigation, and end-of-cycle decommissioning and remediation costs; fuel costs, including projected increases; resource integration and balancing costs; and such quantifiable environmental costs and benefits and other energy and nonenergy benefits as are directly attributable to the project or resource, including flexibility, resilience, reliability, greenhouse gas emissions reductions, and air quality.

(32) "Vulnerable populations" has the same meaning as provided in RCW 19.405.020.

NEW SECTION. Sec. 3. (1) The legislature finds that large combination utilities are subject to a range of reporting and planning requirements as part of the clean energy transition. The legislature further finds that current natural gas integrated resource plans under development might not yield optimal results for timely and cost-effective decarbonization. To reduce regulatory barriers, achieve equitable and transparent outcomes, and integrate planning requirements, the commission may consolidate a large combination utility's planning requirements for both gas and electric operations, including consolidation into a single integrated system plan that is approved by the commission.

(2)(a) By July 1, 2025, the commission shall complete a rule-making proceeding to implement consolidated planning requirements for gas and electric services for large combination utilities that may include, but are not limited to, plans required under: (i) Chapter 19.280 RCW; (ii) chapter 19.285 RCW; (iii) chapter 19.405 RCW; (iv) chapter 70A.65 RCW; (v) RCW 80.28.380; (vi) RCW 80.28.365; (vii) RCW 80.28.425; (viii)

existing pipeline safety and replacement plans; and (ix) planning requirements ordered by the commission, such as electrification and decarbonization plans. The commission may consider exemptions from any rules necessary to facilitate integrated system planning for large combination utilities. The commission may extend the rule-making proceeding for 90 days for good cause shown. The large combination utilities' filing deadline required in subsection (4) of this section will be extended commensurate to the rule-making extension period set by the commission. Subsequent planning requirements for future integrated system plans must be fulfilled on a timeline set by the commission. Large combination utilities that file integrated system plans are no longer required to file plans consolidated into the integrated system plan. The statutorily required contents of any plan consolidated into an integrated system plan must be met by the integrated system plan.

(b) In its order adopting rules or issuing a policy statement approving the consolidation of planning requirements, the commission shall include a compliance checklist and any additional guidance that is necessary to assist the large combination utility in meeting the minimum requirements of all relevant statutes and rules.

(3) Upon request by a large combination utility, the commission may issue an order extending the filing and reporting requirements of a large combination utility under chapters 19.405 and 19.280 RCW, and requiring the large combination utility to file an integrated system plan pursuant to subsection (4) of this section if the commission finds that the large combination utility has made public a work plan that demonstrates reasonable progress toward meeting the standards under RCW 19.405.040(1) and 19.405.050(1) and achieving equity goals. The commission's approval of an extension of filing and reporting requirements does not relieve the large combination utility from the obligation to demonstrate progress towards meeting the standards under RCW 19.405.040(1) and 19.405.050(1) and the interim targets approved in its most recent clean energy implementation plan. Commission approval of an extension under this section fulfills the large combination utilities statutory filing deadlines under RCW 19.405.060(1).

(4) By January 1, 2027, and on a timeline set by the commission thereafter, large combination utilities shall file an integrated system plan demonstrating how the large combination utilities' plans are consistent with the requirements of this chapter and any rules and guidance adopted by the commission, and which:

(a) Achieve the obligations of all plans consolidated into the integrated system plan;

(b) Provide a range of forecasts, for at least the next 20 years, of projected customer demand that takes into account econometric data and addresses changes in the number, type, and efficiency of customer usage;

(c) Include scenarios that achieve emissions reductions for both gas and electric operations equal to at least their proportional share of emissions reductions required under RCW 70A.45.020;

(d) Include scenarios with emissions reduction targets for both gas and electric operations for each emissions reduction period that account for the interactions between gas and electric systems;

(e) Achieve two percent of electric load annually with conservation and energy efficiency resources, unless the commission finds that a higher target is cost effective. However, the commission may accept a lower level of achievement if it determines that the requirement in this subsection (4)(e) is neither technically nor commercially feasible during the applicable emissions reduction period;

FIFTY THIRD DAY, FEBRUARY 29, 2024

(f) Assess commercially available conservation and efficiency resources, including demand response and load management, to achieve the conservation and energy efficiency requirements in (e) of this subsection, and as informed by the assessment for conservation potential under RCW 19.285.040 for the planning horizon consistent with (b) of this subsection. Such an assessment may include, as appropriate, opportunities for development of combined heat and power as an energy and capacity resource, demand response and load management programs, and currently employed and new policies and programs needed to obtain the conservation and efficiency resources. The value of recoverable waste heat resulting from combined heat and power must be reflected in analyses of cost effectiveness under this subsection;

(g) Achieve annual demand response and demand flexibility equal to or greater than 10 percent of winter and summer peak electric demand, unless the commission finds that a higher target is cost effective. However, the commission may accept a lower level of achievement if it determines that the requirement in this subsection (4)(g) is neither technically nor commercially feasible during the applicable emissions reduction period;

(h) Achieve all cost-effective electrification of end uses currently served by natural gas identified through an assessment of alternatives to known and planned gas infrastructure projects, including nonpipeline alternatives, rebates and incentives, and geographically targeted electrification;

(i) Include low-income electrification programs that must:

(i) Include rebates and incentives to low-income customers and customers experiencing high energy burden for the deployment of high-efficiency electric-only heat pumps in homes and buildings currently heating with wood, oil, propane, electric resistance, or gas;

(ii) Provide demonstrated material benefits to low-income participants including, but not limited to, decreased energy burden, the addition of air conditioning, and backup heat sources or energy storage systems, if necessary to protect health and safety in areas with frequent outages, or improved indoor air quality;

(iii) Enroll customers in energy assistance programs or provide bill assistance;

(iv) Provide dedicated funding for electrification readiness;

(v) Include low-income customer protections to mitigate energy burden, if electrification measures will increase a low-income participant's energy burden; and

(vi) Coordinate with community-based organizations in the gas or electrical company's service territory including, but not limited to, grantees of the department of commerce, community action agencies, and community-based nonprofit organizations, to remove barriers and effectively serve low-income customers;

(j) Accept as proof of eligibility for energy assistance enrollment in any means-tested public benefit, or low-income energy assistance program, for which eligibility does not exceed the low-income definition set by the commission pursuant to RCW 19.405.020;

(k) Assess the potential for geographically targeted electrification including, but not limited to, in overburdened communities, on gas plant that is fully depreciated or gas plant that is included in a proposal for geographically targeted electrification that requires accelerating depreciation pursuant to section 7(1) of this act for the gas plant subject to such electrification proposal;

(l) Assess commercially available supply side resources, including a comparison of the benefits and risks of purchasing electricity or gas or building new resources;

(m) Assess nonpipeline alternatives, including geographically targeted electrification and demand response, as an alternative to

replacing aging gas infrastructure or expanded gas capacity. Assessments must involve, at a minimum:

(i) Identifying all known and planned gas infrastructure projects, including those without a fully defined scope or cost estimate, for at least the 10 years following the filing;

(ii) Estimating programmatic expenses of maintaining that portion of the gas system for at least the 10 years following the filing; and

(iii) Ranking all gas pipeline segments for their suitability for nonpipeline alternatives;

(n) Assess distributed energy resources that meets the requirements of RCW 19.280.100;

(o) Provide an assessment and 20-year forecast of the availability of and requirements for regional supply side resource and delivery system capacity to provide and deliver electricity and gas to the large combination utility's customers and to meet, as applicable, the requirements of chapter 19.405 RCW and the state's greenhouse gas emissions reduction limits in RCW 70A.45.020. The delivery system assessment must identify the large combination utility's expected needs to acquire new long-term firm rights, develop new, or expand or upgrade existing, delivery system facilities consistent with the requirements of this section and reliability standards and take into account opportunities to make more effective use of existing delivery facility capacity through improved delivery system operating practices, conservation and efficiency resources, distributed energy resources, demand response, grid modernization, nonwires solutions, and other programs if applicable;

(p) Assess methods, commercially available technologies, or facilities for integrating renewable resources and nonemitting electric generation including, but not limited to, battery storage and pumped storage, and addressing overgeneration events, if applicable to the large combination utility's resource portfolio;

(q) Provide a comparative evaluation of supply side resources, delivery system resources, and conservation and efficiency resources using lowest reasonable cost as a criterion;

(r) Include a determination of resource adequacy metrics for the integrated system plan consistent with the forecasts;

(s) Forecast distributed energy resources that may be installed by the large combination utility's customers and an assessment of their effect on the large combination utility's load and operations;

(t) Identify an appropriate resource adequacy requirement and measurement metric consistent with prudent utility practice in implementing RCW 19.405.030 through 19.405.050;

(u) Integrate demand forecasts, resource evaluations, and resource adequacy requirements into a long-range assessment describing the mix of supply side resources and conservation and efficiency resources that will meet current and projected needs, including mitigating overgeneration events and implementing RCW 19.405.030 through 19.405.050, at the lowest reasonable cost and risk to the large combination utility and its customers, while maintaining and protecting the safety, reliable operation, and balancing of the energy system of the large combination utility;

(v) Include an assessment, informed by the cumulative impact analysis conducted under RCW 19.405.140, of: Energy and nonenergy benefits and the avoidance and reductions of burdens to vulnerable populations and highly impacted communities; long-term and short-term public health and environmental benefits, costs, and risks; and energy security and risk;

(w) Include a 10-year clean energy action plan for implementing RCW 19.405.030 through 19.405.050 at the lowest reasonable cost, and at an acceptable resource adequacy standard;

(x) Include an analysis of how the integrated system plan accounts for:

(i) Model load forecast scenarios that consider the anticipated levels of zero emissions vehicle use in a large combination utility's service area, including anticipated levels of zero emissions vehicle use in the large combination utility's service area provided in RCW 47.01.520, if feasible;

(ii) Analysis, research, findings, recommendations, actions, and any other relevant information found in the electrification of transportation plans submitted under RCW 80.28.365; and

(iii) Assumed use case forecasts and the associated energy impacts, which may use the forecasts generated by the mapping and forecasting tool created in RCW 47.01.520;

(y) Establish that the large combination utility has:

(i) Consigned to auction for the benefit of ratepayers the minimum required number of allowances allocated to the large combination utility for the applicable compliance period pursuant to RCW 70A.65.130, consistent with the climate commitment act, chapter 70A.65 RCW, and rules adopted pursuant to the climate commitment act; and

(ii) Prioritized, to the maximum extent permissible under the climate commitment act, chapter 70A.65 RCW, revenues derived from the auction of allowances allocated to the utility for the applicable compliance period pursuant to RCW 70A.65.130, first to programs that eliminate the cost burden for low-income ratepayers, such as bill assistance, nonvolumetric credits on ratepayer utility bills, or electrification programs, and second to electrification programs benefiting residential and small commercial customers;

(z) Propose an action plan outlining the specific actions to be taken by the large combination utility in implementing the integrated system plan following submission; and

(aa) Report on the large combination utility's progress towards implementing the recommendations contained in its previously filed integrated system plan.

(5) In evaluating the lowest reasonable cost of decarbonization measures included in an integrated system plan, large combination utilities must apply a risk reduction premium that must account for the applicable allowance ceiling price approved by the department of ecology pursuant to the climate commitment act, chapter 70A.65 RCW. For the purpose of this chapter, the risk reduction premium is necessary to ensure that a large combination utility is making appropriate long-term investments to mitigate against the allowance and fuel price risks to customers of the large combination utility.

(6) The clean energy action plan must:

(a) Identify and be informed by the large combination utility's 10-year cost-effective conservation potential assessment as determined under RCW 19.285.040, if applicable;

(b) Establish a resource adequacy requirement;

(c) Identify the potential cost-effective demand response and load management programs that may be acquired;

(d) Identify renewable resources, nonemitting electric generation, and distributed energy resources that may be acquired and evaluate how each identified resource may be expected to contribute to meeting the large combination utility's resource adequacy requirement;

(e) Identify any need to develop new, or expand or upgrade existing, bulk transmission and distribution facilities and document existing and planned efforts by the large combination utility to make more effective use of existing transmission capacity and secure additional transmission capacity consistent with the requirements of subsection (4)(o) of this section; and

(f) Identify the nature and possible extent to which the large combination utility may need to rely on alternative compliance options under RCW 19.405.040(1)(b), if appropriate.

(7) A large combination utility shall consider the social cost of greenhouse gas emissions, as determined by the commission pursuant to RCW 80.28.405, when developing integrated system plans and clean energy action plans. A large combination utility must incorporate the social cost of greenhouse gas emissions as a cost adder when:

(a) Evaluating and selecting conservation policies, programs, and targets;

(b) Developing integrated system plans and clean energy action plans; and

(c) Evaluating and selecting intermediate term and long-term resource options.

(8) Plans developed under this section must be updated on a regular basis, on intervals approved by the commission.

(9)(a) To maximize transparency, the commission may require a large combination utility to make the utility's data input files available in a native format. Each large combination utility shall publish its final plan either as part of an annual report or as a separate document available to the public. The report may be in an electronic form.

(b) Nothing in this subsection limits the protection of records containing commercial information under RCW 80.04.095.

(10) The commission shall establish by rule a cost test for emissions reduction measures achieved by large combination utilities to comply with state clean energy and climate policies. The cost test must be used by large combination utilities under this chapter for the purpose of determining the lowest reasonable cost of decarbonization and electrification measures in integrated system plans, at the portfolio level, and for any other purpose determined by the commission by rule.

(11) The commission must approve, reject, or approve with conditions an integrated system plan within 12 months of the filing of such an integrated system plan. The commission may for good cause shown extend the time by 90 days for a decision on an integrated system plan filed on or before January 1, 2027, as such date is extended pursuant to subsection (2)(a) of this section.

(12) In determining whether to approve the integrated system plan, reject the integrated system plan, or approve the integrated system plan with conditions, the commission must evaluate whether the plan is in the public interest, and includes the following:

(a) The equitable distribution and prioritization of energy benefits and reduction of burdens to vulnerable populations, highly impacted communities, and overburdened communities;

(b) Long-term and short-term public health, economic, and environmental benefits and the reduction of costs and risks;

(c) Health and safety concerns;

(d) Economic development;

(e) Equity;

(f) Energy security and resiliency;

(g) Whether the integrated system plan:

(i) Would achieve a proportional share of reductions in greenhouse gas emissions for each emissions reduction period on the gas and electric systems;

(ii) Would achieve the energy efficiency and demand response targets in subsection (4)(e) and (g) of this section;

(iii) Would achieve cost-effective electrification of end uses as required by subsection (4)(h) of this section;

(iv) Results in a reasonable cost to customers, and projects the rate impacts of specific actions, programs, and investments on customers;

(v) Would maintain system reliability and reduces long-term costs and risks to customers;

(vi) Would lead to new construction career opportunities and prioritizes a transition of natural gas and electricity utility workers

FIFTY THIRD DAY, FEBRUARY 29, 2024

to perform work on construction and maintenance of new and existing renewable energy infrastructure; and

(vii) Describes specific actions that the large combination utility plans to take to achieve the requirements of the integrated system plan.

NEW SECTION. Sec. 4. Large combination utilities shall work in good faith with other utilities, independent power producers, power marketers, end-use customers, and interested parties in the region to develop market structures and mechanisms that require the sale of wholesale electricity from generating resources in a manner that allows the greenhouse gas attributes of those resources to be accounted for when they are sold into organized markets.

NEW SECTION. Sec. 5. (1) Concurrent with an application for an integrated system plan pursuant to section 3 of this act, a large combination utility may propose to construct a new renewable or nonemitting electric generation or transmission facility, make a significant investment in an existing renewable or nonemitting electric generation or transmission facility, purchase an existing renewable or nonemitting electric generation or transmission facility, or enter into a power purchase agreement for the purchase of renewable or nonemitting electric energy or capacity for a period of five years or longer. The large combination utility may submit an application to the commission seeking a certificate of necessity for that construction, investment, or purchase, including entering into a power purchase agreement, if that construction, investment, or purchase costs \$100,000,000 or more, requires the utility to begin incurring significant portions of those costs more than five years before the facility is estimated to be in service, and all or a portion of the costs would be allocable to retail customers in this state. A significant investment may include a group of investments undertaken jointly and located on the same site for a singular purpose, such as increasing the capacity of an existing renewable or nonemitting electric generation or transmission plant. Applications must be submitted in conjunction with a large combination utility's integrated system plan. However, a large combination utility may submit an application outside of the integrated system plan process for a time-sensitive project.

(2) A large combination utility submitting an application under this section may request one or more of the following:

(a) A certificate of necessity that the electric energy or capacity to be supplied or transmitted as a result of the proposed construction, investment, or purchase, including entering into a power purchase agreement, is needed;

(b) A certificate of necessity that the size, fuel type, and other design characteristics of the existing or proposed electric generation or transmission facility or the terms of the power purchase agreement represent the most appropriate and reasonable means of meeting that power need;

(c) A certificate of necessity that the estimated purchase or capital costs of and the financing plan for the existing or proposed electric generation or transmission facility including, but not limited to, the costs of siting and licensing a new facility and the estimated cost of power from the new or proposed electric generation facility, or the cost of transmission on the new or proposed electric transmission facility, are reasonable; or

(d) A request to: (i) Recognize, accrue, and defer the allowance for funds used during construction; and (ii) recover financing interest costs in base rates on construction work in progress for capital improvements approved under this section prior to the assets being considered used and useful.

(3) The commission may approve, reject, or approve with conditions an application under this section if it is in the public interest.

(4) In a certificate of necessity under this section, the commission may specify the estimated costs included for the construction of or significant investment in the electric generation or transmission facility, the estimated price included for the purchase of the existing electric generation or transmission facility, or the estimated price included for the purchase of power pursuant to the terms of the power purchase agreement.

(5) The large combination utility shall file reports to the commission regarding the status of any project for which a certificate of necessity has been granted under this section, including an update concerning the cost and schedule of that project at intervals determined by the commission.

(6) If the commission denies any of the relief requested by a large combination utility, the large combination utility may withdraw its application or proceed with the proposed construction, purchase, investment, or power purchase agreement without a certificate and the assurance granted under this section under its ordinary course of business.

(7) If the assumptions underlying an approved certificate of necessity materially change, a large combination utility shall request, or the commission or potential intervenor on its own motion may initiate, a proceeding to review whether it is reasonable to complete an unfinished project for which a certificate of necessity has been granted. The commission shall list the assumptions underlying an approved certificate in the order approving the certificate. If the commission finds that the completion of the project is no longer reasonable, the commission may modify or cancel approval of the certificate of necessity. The commission may allow recovery of reasonable costs already incurred or committed to by contract. Once the commission finds that completion of the project is no longer reasonable, the commission may limit future cost recovery to those costs that could not be reasonably avoided. Nothing in this subsection may be construed as amending, modifying, or repealing any existing authority of the commission to ascertain and determine the fair value for rate-making purposes of the property of any large combination utility.

(8) A proposed or existing supplier of electric generation capacity that seeks to provide electric generation energy or capacity resources to the large combination utility may submit a written proposal directly to the commission as an alternative to the construction, investment, or purchase, including entering into a power purchase agreement, for which the certificate of necessity is sought under this section. The entity submitting an alternative proposal under this subsection has standing to intervene and the commission may allow reasonable discovery in the contested case proceeding conducted under this subsection. In evaluating an alternative proposal, the commission may consider the cost of the alternative proposal and the submitting entity's qualifications, technical competence, capability, reliability, creditworthiness, and past performance. In reviewing an application, the commission may consider any alternative proposals submitted under this subsection. This subsection does not limit the ability of any other person to submit to the commission an alternative proposal to the construction, investment, or purchase, including entering into a power purchase agreement, for which a certificate of necessity is sought under this subsection and to petition for and be granted leave to intervene in the contested case proceeding conducted under this subsection under the rules of practice and procedure of the commission. This subsection does not authorize the commission to order or otherwise require a large combination utility to adopt any alternative proposal submitted under this subsection.

NEW SECTION. Sec. 6. (1) Large combination utilities must include the following in calculating the emissions baseline and

projected cumulative emissions for an emissions reduction period, consistent with reporting of greenhouse gas emissions pursuant to the Washington clean air act, chapter 70A.15 RCW:

(a) Methane leaked from the transportation and delivery of gas from the gas distribution and service pipelines from the city gate to customer end use;

(b) Greenhouse gas emissions resulting from the combustion of gas by customers not otherwise subject to federal greenhouse gas emissions reporting and excluding all transport customers; and

(c) Emissions of methane resulting from leakage from delivery of gas to other gas companies.

(2) In calculating an emissions reduction target, a large combination utility must show its emissions baseline and projected cumulative greenhouse gas emissions for the applicable emissions reduction period separately and must show that the total emissions reductions are projected to make progress toward the achievement of the emissions reduction targets identified in the applicable integrated system plan. The final calculation must be presented on a carbon dioxide equivalent basis.

(3) All emissions are metric tons of carbon dioxide equivalent as reported to the federal environmental protection agency pursuant to 40 C.F.R. 98, either subpart W (methane) or subpart NN (carbon dioxide), or successor reporting requirements.

NEW SECTION. Sec. 7. (1) In any multiyear rate plan filed by a large combination utility pursuant to RCW 80.28.425 and in accordance with this chapter, the large combination utility must include an updated depreciation study that reduces the gas rate base consistent with an approved integrated system plan, and the commission may adopt depreciation schedules that accelerate cost recovery and reduce the rate base for any gas plant. The commission shall approve a depreciation schedule that depreciates all gas plants in service as of July 1, 2024, by a date no later than January 1, 2050, in any multiyear rate plan, but the commission may adjust depreciation schedules for gas plants as necessary when considering future multiyear rate plans to address affordability provided all plants in service as of July 1, 2024, are fully depreciated by 2050.

(2) In any multiyear rate plan proposed by a large combination utility, the company may propose a merger of regulated gas and electric operations into a single rate base. The commission may approve the merger of electric and gas rate bases if the commission finds that the proposal will result in a net benefit to customers of the large combination utility and includes reasonable rate protections for low-income natural gas and electric customers. In approving a merger of a gas and electric rate base, the commission must avoid commercial and residential rate classes subsidizing industrial rate classes.

(3) For a large combination utility that has merged gas and electricity rate bases, the large combination utility must monetize benefits received from any applicable federal and state tax and other incentives for the benefit of customers. These benefits must be separately accounted for and amortized on a schedule designed to mitigate the rate impacts to customers after the rate bases are combined. These credits may not be used for any other purpose, unless directed by the commission.

(4) For the first multiyear rate plan proposed by a large combination utility following commission approval or approval with conditions of the initial integrated system plan identified in section 3 of this act, the commission may for good cause shown extend the deadline for a decision set forth under RCW 80.04.130 by up to 60 days.

NEW SECTION. Sec. 8. (1) Beginning January 1, 2025, no large combination utility may offer any form of rebate, incentive, or other inducement to residential gas customers to purchase any natural gas appliance or equipment. Until January 1, 2031, rebates

and incentives for commercial and industrial gas customers are not included in this requirement. Rebates and incentives for electric heat pumps that include natural gas backups may be offered until January 1, 2031.

(2) By November 1, 2025, a large combination utility must initiate and maintain an effort to educate its ratepayers about the benefits of electrification and the availability of rebates, incentives, or other inducements to purchase energy efficient electric appliances and equipment including, but not limited to, the maintenance of an educational website and the inclusion of educational materials in monthly billing statements.

(3) Beginning January 1, 2031, a large combination utility may not include electric air source heat pumps with gas backups as part of its electrification programs.

Sec. 9. RCW 19.280.030 and 2023 c 229 s 2 are each amended to read as follows:

Each electric utility must develop a plan consistent with this section.

(1) Utilities with more than 25,000 customers that are not full requirements customers must develop or update an integrated resource plan by September 1, 2008. At a minimum, progress reports reflecting changing conditions and the progress of the integrated resource plan must be produced every two years thereafter. An updated integrated resource plan must be developed at least every four years subsequent to the 2008 integrated resource plan. The integrated resource plan, at a minimum, must include:

(a) A range of forecasts, for at least the next 10 years or longer, of projected customer demand which takes into account econometric data and customer usage;

(b) An assessment of commercially available conservation and efficiency resources, as informed, as applicable, by the assessment for conservation potential under RCW 19.285.040 for the planning horizon consistent with (a) of this subsection. Such assessment may include, as appropriate, opportunities for development of combined heat and power as an energy and capacity resource, demand response and load management programs, and currently employed and new policies and programs needed to obtain the conservation and efficiency resources;

(c) An assessment of commercially available, utility scale renewable and nonrenewable generating technologies including a comparison of the benefits and risks of purchasing power or building new resources;

The transmission assessment must identify the utility's expected needs to acquire new long-term firm rights, develop new, or expand or upgrade existing, bulk transmission facilities consistent with the requirements of this section and reliability standards;

(i) If an electric utility operates transmission assets rated at 115,000 volts or greater, the transmission assessment must take into account opportunities to make more effective use of existing

FIFTY THIRD DAY, FEBRUARY 29, 2024

(ii) An electric utility that relies entirely or primarily on a contract for transmission service to provide necessary transmission services may comply with the transmission requirements of this subsection by requesting that the counterparty to the transmission service contract include the provisions of chapter 288, Laws of 2019 and chapter 70A.45 RCW as public policy mandates in the transmission service provider's process for assessing transmission need, and planning and acquiring necessary transmission capacity;

(iii) An electric utility may comply with the requirements of this subsection (1)(f) by relying on and incorporating the results of a separate transmission assessment process, conducted individually or jointly with other utilities and transmission system users, if that assessment process meets the requirements of this subsection;

(k) An assessment, informed by the cumulative impact analysis conducted under RCW 19.405.140, of: Energy and nonenergy benefits and the avoidance and reductions of burdens to vulnerable populations and highly impacted communities; long-term and short-term public health and environmental benefits, costs, and risks; and energy security and risk;

(l) A 10-year clean energy action plan for implementing RCW 19.405.030 through 19.405.050 at the lowest reasonable cost, and at an acceptable resource adequacy standard, that identifies the specific actions to be taken by the utility consistent with the long-range integrated resource plan; and

(m) An analysis of how the plan accounts for:

(i) Modeled load forecast scenarios that consider the anticipated levels of zero emissions vehicle use in a utility's service area, including anticipated levels of zero emissions vehicle use in the utility's service area provided in RCW 47.01.520, if feasible;

(ii) Analysis, research, findings, recommendations, actions, and any other relevant information found in the electrification of transportation plans submitted under RCW 35.92.450, 54.16.430, and 80.28.365; and

(iii) Assumed use case forecasts and the associated energy impacts. Electric utilities may, but are not required to, use the forecasts generated by the mapping and forecasting tool created in RCW 47.01.520. This subsection (1)(m)(iii) applies only to plans due to be filed after September 1, 2023.

(2) The clean energy action plan must:

(a) Identify and be informed by the utility's 10-year cost-effective conservation potential assessment as determined under RCW 19.285.040, if applicable;

(b) Establish a resource adequacy requirement;

(c) Identify the potential cost-effective demand response and load management programs that may be acquired;

(d) Identify renewable resources, nonemitting electric generation, and distributed energy resources that may be acquired and evaluate how each identified resource may be expected to contribute to meeting the utility's resource adequacy requirement;

(e) Identify any need to develop new, or expand or upgrade existing, bulk transmission and distribution facilities and document existing and planned efforts by the utility to make more effective use of existing transmission capacity and secure additional transmission capacity consistent with the requirements of subsection (1)(f) of this section; and

(f) Identify the nature and possible extent to which the utility may need to rely on alternative compliance options under RCW 19.405.040(1)(b), if appropriate.

(3)(a) An electric or large combination utility shall consider the social cost of greenhouse gas emissions, as determined by the commission for investor-owned utilities pursuant to RCW 80.28.405 and the department for consumer-owned utilities, when developing integrated resource plans and clean energy action plans. An electric utility must incorporate the social cost of greenhouse gas emissions as a cost adder when:

(i) Evaluating and selecting conservation policies, programs, and targets;

(ii) Developing integrated resource plans and clean energy action plans; and

(iii) Evaluating and selecting intermediate term and long-term resource options.

(b) For the purposes of this subsection (3): (i) Gas consisting largely of methane and other hydrocarbons derived from the decomposition of organic material in landfills, wastewater treatment facilities, and anaerobic digesters must be considered a nonemitting resource; and (ii) qualified biomass energy must be considered a nonemitting resource.

(4) To facilitate broad, equitable, and efficient implementation of chapter 288, Laws of 2019, a consumer-owned energy utility may enter into an agreement with a joint operating agency organized under chapter 43.52 RCW or other nonprofit organization to develop and implement a joint clean energy action plan in collaboration with other utilities.

(5) All other utilities may elect to develop a full integrated resource plan as set forth in subsection (1) of this section or, at a minimum, shall develop a resource plan that:

(a) Estimates loads for the next five and 10 years;

(b) Enumerates the resources that will be maintained and/or acquired to serve those loads;

(c) Explains why the resources in (b) of this subsection were chosen and, if the resources chosen are not: (i) Renewable resources; (ii) methods, commercially available technologies, or facilities for integrating renewable resources, including addressing any overgeneration event; or (iii) conservation and efficiency resources, why such a decision was made;

(d) By December 31, 2020, and in every resource plan thereafter, identifies how the utility plans over a 10-year period to implement RCW 19.405.040 and 19.405.050; and

(e) Accounts for:

(i) Modeled load forecast scenarios that consider the anticipated levels of zero emissions vehicle use in a utility's service area, including anticipated levels of zero emissions vehicle use in the utility's service area provided in RCW 47.01.520, if feasible;

(ii) Analysis, research, findings, recommendations, actions, and any other relevant information found in the electrification of transportation plans submitted under RCW 35.92.450, 54.16.430, and 80.28.365; and

(iii) Assumed use case forecasts and the associated energy impacts. Electric utilities may, but are not required to, use the forecasts generated by the mapping and forecasting tool created in RCW 47.01.520. This subsection (5)(e)(iii) applies only to plans due to be filed after September 1, 2023.

(6) Assessments for demand-side resources included in an integrated resource plan may include combined heat and power systems as one of the measures in a conservation supply curve. The value of recoverable waste heat resulting from combined heat and power must be reflected in analyses of cost-effectiveness under this subsection.

(7) An electric utility that is required to develop a resource plan under this section must complete its initial plan by September 1, 2008.

(8) Plans developed under this section must be updated on a regular basis, on intervals approved by the commission or the department, or at a minimum on intervals of two years.

(9)(a) Plans shall not be a basis to bring legal action against electric utilities. However, nothing in this subsection (9)(a) may be construed as limiting the commission or any party from bringing any action pursuant to Title 80 RCW, this chapter, or chapter 19.405 RCW against any large combination utility related to an integrated system plan submitted pursuant to section 3 of this act.

(b) The commission may approve, reject, or approve with conditions, any integrated system plans submitted by a large combination utility as defined in section 2 of this act.

(10)(a) To maximize transparency, the commission, for investor-owned utilities, or the governing body, for consumer-owned utilities, may require an electric utility to make the utility's data input files available in a native format. Each electric utility shall publish its final plan either as part of an annual report or as a separate document available to the public. The report may be in an electronic form.

(b) Nothing in this subsection limits the protection of records containing commercial information under RCW 80.04.095.

Sec. 10. RCW 80.28.110 and 2021 c 65 s 97 are each amended to read as follows:

Every gas company, electrical company, wastewater company, or water company, engaged in the sale and distribution of gas, electricity, or water or the provision of wastewater company services, shall, upon reasonable notice, furnish to all persons and corporations who may apply therefor and be reasonably entitled thereto, suitable facilities for furnishing and furnish all available gas, electricity, wastewater company services, and water as demanded, except that a water company may not furnish water contrary to the provisions of water system plans approved under chapter 43.20 or 70A.100 RCW and wastewater companies may not provide services contrary to the approved general sewer plan. A large combination utility may provide a customer with any approved nonemitting energy including, but not limited to, renewable natural gas, green hydrogen, thermal energy networks, or other sources as described in an approved filing.

NEW SECTION. Sec. 11. (1) When an integrated system plan of a large combination utility proposes geographically targeted electrification of all or a portion of a service area in which the large combination utility provides gas service to such a service area and one or more consumer-owned utilities provide electric service to such a service area, the integrated system plan of the large combination utility must include a process for outreach by the large combination utility to all consumer-owned utilities

providing electric service to such a service area. As part of that outreach, the large combination utility shall provide gas delivery data of sufficient granularity for the consumer-owned electric company to assess the sufficiency of the capacity of the electric distribution system to accommodate the additional load from electrification at the circuit level. This data must be provided at least one plan cycle prior to electrification actions by the large combination utility to allow affected consumer-owned electric companies sufficient time to upgrade electrical distribution equipment and materials as needed to preserve system reliability.

(2) Consumer-owned utilities are encouraged to:

(a) Work with large combination utilities providing gas service within their service areas to identify opportunities for electrification and mitigating grid impacts by the large combination utility;

(b) Account for the costs of greenhouse gas emissions, set total energy savings and greenhouse gas emissions reduction goals, and develop and implement electrification programs in collaboration with large combination utilities providing gas service in service areas of consumer-owned utilities; and

(c) Include an electrification plan or transportation electrification program as part of collaboration with large combination utilities.

(3) Nothing in this section may be construed as expanding or contracting the authority of any electric utility with regard to the designation of the boundaries of adjoining service areas that each electric utility must observe.

NEW SECTION. Sec. 12. (1) For any project in an integrated system plan of a large combination utility that is part of a competitive solicitation and with a cost of more than \$10,000,000, the large combination utility must certify to the commission that any work associated with such a project will be constructed by a prime contractor and its subcontractors in a way that includes community workforce agreements or project labor agreements and the payment of area standard prevailing wages and apprenticeship utilization requirements, provided the following apply:

(a) The large combination utility and the prime contractor and all of its subcontractors, regardless of tier, have the absolute right to select any qualified and responsible bidder for the award of contracts on a specified project without reference to the existence or nonexistence of any agreements between such a bidder and any party to such a project labor agreement, and only when such a bidder is willing, ready, and able to become a party to, signs a letter of assent, and complies with such an agreement or agreements, should it be designated the successful bidder; and

(b) It is understood that this is a self-contained, stand-alone agreement, and that by virtue of having become bound to such an agreement or agreements, neither the prime contractor nor the subcontractors are obligated to sign any other local, area, or national agreement.

(2) Nothing in this section supersedes RCW 19.28.091 or 19.28.261 or chapter 49.17 RCW, without regard to project cost.

NEW SECTION. Sec. 13. The commission may adopt rules to ensure the proper implementation and enforcement of this act.

Sec. 14. RCW 80.24.010 and 2022 c 159 s 1 are each amended to read as follows:

Every public service company subject to regulation by the commission shall, on or before the date specified by the commission for filing annual reports under RCW 80.04.080, file with the commission a statement on oath showing its gross operating revenue from intrastate operations for the preceding calendar year or portion thereof and pay to the commission a fee equal to one-tenth of one percent of the first ~~((fifty thousand dollars))~~ \$50,000 of gross operating revenue, plus four-tenths of

PROVIDED, That the commission may, by rule, set minimum fees that do not exceed the cost of collecting the fees. The commission may by rule waive any or all of the minimum fee established pursuant to this section.

The percentage rates of gross operating revenue to be paid in any year may be decreased by the commission for any class of companies subject to the payment of such fees, by general order entered before March 1st of such year, and for such purpose such companies shall be classified as follows:

Electrical, gas, water, telecommunications, and irrigation companies shall constitute class one. Every other company subject to regulation by the commission, for which regulatory fees are not otherwise fixed by law shall pay fees as herein provided and shall constitute additional classes according to kinds of businesses engaged in.

Any payment of the fee imposed by this section made after its due date shall include a late fee of two percent of the amount due. Delinquent fees shall accrue interest at the rate of one percent per month.

NEW SECTION. Sec. 15. This chapter may be known and cited as the Washington decarbonization act for large combination utilities.

NEW SECTION. Sec. 16. Sections 2 through 8, 11 through 13 and 15 of this act constitute a new chapter in Title 80 RCW.

NEW SECTION. Sec. 17. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act is invalid.

The President declared the question before the Senate to be the adoption of the committee striking amendment by the Committee on Environment, Energy & Technology as amended to Engrossed Substitute House Bill No. 1589.

The motion by Senator Nguyen carried and the committee striking amendment as amended was adopted by voice vote.

MOTION

On motion of Senator Nguyen, the rules were suspended, Engrossed Substitute House Bill No. 1589 as amended by the Senate was advanced to third reading, the second reading considered the third and the bill was placed on final passage.

POINT OF ORDER

Senator Short: "Mr. President, Engrossed Substitute House Bill No. 1589 as amended violates Senate Rule No. 26 because the bill amends existing law by reference without setting them forth in full. I can offer you Mr. President, if I might, a brief argument to that point?"

President Heck: "Please proceed."

Senator Short: "Thank you Mr. President. Senate Rule No. 26 forbids us from amending laws by reference and requires us to make sure amended laws are set forth in full length. This bill violates that rule. And I want to direct your attention, Mr. President, to section 3 of the bill, which empowers the UTC [Utilities & Transportation Commission] to consolidate for a large combination utility several different statutory planning and regulatory processes that are laid out in chapters, and I will outline those chapters: 19.280, 19.285, 19.405, 70A.65, 80.28 RCW.

Now the bill does not make the necessary amendments to those or other chapters. Thus, showing the effect of consolidation on preexisting statutes, Mr. President, that a utility must meet. This means that they impermissibly add or amend several statutes by mere reference without fully showing the effective changes of those laws.

It is important because neither the Legislature nor the public will be able to discern which provisions of current law will apply to large combination utilities unless those laws are shown as amended. But it also, State, our Supreme Court has recently held that the prohibition against amending by reference helps make

sure that the effect of new legislation, and this is new legislation Mr. President, is clear. And to avoid confusion, ambiguity, and uncertainty in the statutory law through the existing of separate and disconnected legislative provisions scattered throughout our law.

Mr. President, I respectfully request a ruling that Engrossed Substitute House Bill No. 1589 as amended violates Senate Rule No. 26 because it amends several statutes by reference without setting them forth at full length, thus concealing the full effect of the bill. Thank you Mr. President."

President Heck: "Senator Pedersen."

Senator Pedersen: "Thank you very much Mr. President. I think we are also full supportive of Article II, Section 37 of the Constitution and Rule No. 26. However, Mr. President, I believe strongly that the bill does not actually amend any of those chapters to which the Gentledady from the 7th District referred. Mr. President, I would direct your attention to section 3, sub. 2A, at the last sentence. And, may I read from the striking amendment Mr. President?"

President Heck: "Please."

Senator Pedersen: "The last sentence says, 'the statutorily required contents of any plan consolidated into an integrated system plan must be met by the integrated system plan.' In other words, the consolidation is going to leave the plan subject to all of the existing requirements stacked on top of each other. And, of course, it will be up to the Commission to work through how to, how they interact with each other. But that is exactly the case under existing law. So, Mr. President, there is no amendment, let alone an amendment by reference and I think the point of order, encourage you to find, that the point of order is not well taken."

MOTION

At 1:21 p.m., on motion of Senator Pedersen, the Senate was declared to be at ease subject to the call of the President for the purposes of a brief meeting of the Committee on Rules immediately at the rostrum, a lunch break and caucuses.

AFTERNOON SESSION

The Senate was called to order at 3:46 p.m. by the President of the Senate, Lt. Governor Heck presiding.

The Senate immediately resumed consideration of Engrossed Substitute House Bill No. 1589.

THIRD READING

ENGROSSED SUBSTITUTE HOUSE BILL NO. 1589, by House Committee on Environment & Energy (originally sponsored by Doglio, Fitzgibbon, Berry, Alvarado, Bateman, Ramel, Peterson, Lekanoff, Hackney, Macri, and Kloba)

Supporting Washington's clean energy economy and transitioning to a clean, affordable, and reliable energy future.

RULING BY THE PRESIDENT

President Heck: "In ruling on the point of order by Senator Short that Engrossed Substitute House Bill No. 1589 is

improperly before the Senate, as it violates Senate Rule 26, the President finds and rules as follows:

Senate Rule 26 is identical to Article II, Section 37 of our Washington State Constitution, and provides that, 'No act shall ever be revised or amended by mere reference to its title, but the act revised or the section amended shall be set forth at full length.'

Please bear with the President, as it appears that this is a matter of first impression, and this will be a lengthy explanation.

First, and most importantly, the President believes that everyone on this floor can agree that our Legislature has some of the finest professional drafters anywhere. The following remarks have nothing to do with Legislative staff or their work.

There is no other way of saying this clearly. The President is troubled as he observes that the drafting and construction of this bill is very simply a hot mess.

Courts looking at potential violations of the prohibition on amending by reference have used the following test:

1. Is the new bill such a complete act that the scope of the rights or duties created or affected by the bill can be determined without referring to any other statute?; and
2. Would a straightforward determination of the scope of rights or duties under the existing statutes be rendered erroneous by the new enactment?

So now turning to Engrossed Substitute House Bill No. 1589:

There are multiple planning requirements for utilities located in various statutes spread across the RCW's. Section 3 of Engrossed Substitute House Bill No. 1589 authorizes the utilities and transportation commission (UTC) to allow the consolidation of these multiple planning requirements into a single plan approved by the UTC, but only for 'large combination utilities'.

Critically, these large combination utilities are no longer required to file the individual plans that become part of this consolidation. The various other planning statutes continue to provide that the individual plans are required for all utilities – with no exemption for large combination utilities. Their very specific requirements and timelines remain in statute without amendment in this bill.

While Section 3, Subsection 2(a) provides that, "The statutorily required contents of any plan consolidated into an integrated system plan must be met by the integrated system plan," the President is troubled that the existing planning requirements still remain unamended in the various RCWs.

Turning to the first question for whether a bill is attempting to amend without setting forth provisions in full – Is Engrossed Substitute House Bill No. 1589 so complete that one can determine the rights and duties without referring to other statutes? The answer is no. Section 3 calls out a number of statutory chapters that 'may' be affected and says that the statutes affected are not limited to that very list. The President simply cannot look at Engrossed Substitute House Bill No. 1589 and know which plans the UTC is being given the authority to consolidate, and which statutory requirements will be waived based on this new rulemaking.

On question two – would any of the rights or duties under existing statutes be rendered erroneous by Engrossed Substitute House Bill No. 1589? The answer is yes. There are plans in various statutes. These statutes provide requirements for filing and there is nothing in the bill that amends those statutes to allow the UTC to consolidate the plans and remove the requirement for a large combination utility to file the plan.

Again, the purpose of the rule is not to restrict the Senate as to content. The goals of this bill can certainly be achieved by the Senate, by this Senate, but it must be drafted correctly.

The President would like to emphasize that there is a way to repair this bill. It merely needs to be drafted to include those

sections of law that Engrossed Substitute House Bill No. 1589 proposes to amend, and clearly amend them to allow the UTC to do rule making to consolidate the plans for large combination utilities.

The President also cautions that this opinion is not an opening to object to every bill on this basis. Many bills affect the reading of other statutes in some way, but do not rise to the level of a violation of Rule 26. This bill is unique. It is simply outside the boundaries of normal drafting standards. The President encourages those who endeavor to draft legislation to listen to the advice of our legislative staff.

For these reasons the President finds that Senator Short's point is well taken, and that Engrossed Substitute House Bill No. 1589 in its current form is in violation of Senate Rule No. 26 and is not properly before the Senate."

MOTIONS

On motion of Senator Pedersen, the rules were suspended and Engrossed Substitute House Bill No. 1589 was returned to second reading for the purposes of amendment.

On motion of Senator Pedersen, further consideration of Engrossed Substitute House Bill No. 1589 was deferred and the bill held its place on the second reading calendar.

On motion of Senator Pedersen, the Senate reverted to the fourth order of business.

Concerning high THC cannabis products.

The measure was read the second time.

MOTION

Senator Salomon moved that the following committee striking amendment by the Committee on Labor & Commerce be adopted:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature finds that there is a growing body of research evidencing that consuming cannabis with high concentrations of THC may be harmful to some people, including younger persons and persons who have or are at risk for developing certain mental health conditions or psychotic disorders. Products like THC-infused vape oils, shatter, and dabs can contain close to 100 percent THC, and may carry risks not commonly associated with consumption of useable cannabis flower or other cannabis products with relatively lower THC concentrations. In the interest of public health, the legislature intends to review studies and consider increasing the minimum legal age of sale of high THC cannabis products to age 25, and the legislature intends to require caution notices, developed by the department of health, to be posted at the point of sale in cannabis retail outlets to raise awareness about possible health impacts and risks associated with high THC cannabis. The legislature further intends to implement and study health interventions, gather data, and ensure that new research, data, and information concerning the impacts of high THC cannabis continues to be incorporated into state policy.

NEW SECTION. Sec. 2. The legislature intends to provide the department of health with recurring funding available each fiscal year, beginning in fiscal year 2025, to allow the department of health to issue requests for proposals and contract for targeted public health messages and social marketing campaigns directed toward individuals most likely to suffer negative impacts of high THC products including persons under 25 years of age and persons living with mental health challenges. Messages and media campaigns funded must include information about risks, comparative dosing of cannabis products, and resources for persons seeking support for quitting or decreasing their intake of tetrahydrocannabinol. The content of public health messages and social marketing campaigns must be developed in partnership with persons targeted by the messages and campaigns and in consultation with professionals proficient in public health communication and in cannabis research.

NEW SECTION. Sec. 3. By July 1, 2025, the department of health must develop an optional training that cannabis retail staff may complete to better understand the health and safety impacts of high THC cannabis products. In developing the optional training, the department of health must consult with cannabis retail staff, cannabis consumers, persons who have been harmed by high THC products, health care providers, prevention professionals, researchers with relevant expertise, behavioral health providers, and representatives of licensed cannabis businesses.

Sec. 4. RCW 69.50.357 and 2022 c 16 s 71 are each amended to read as follows:

(1)(a) Retail outlets may not sell products or services other than cannabis concentrates, useable cannabis, cannabis-infused products, or paraphernalia intended for the storage or use of cannabis concentrates, useable cannabis, or cannabis-infused products.

(b)(i) Retail outlets may receive lockable boxes, intended for the secure storage of cannabis products and paraphernalia, and related literature as a donation from another person or entity, that is not a cannabis producer, processor, or retailer, for donation to their customers.

(ii) Retail outlets may donate the lockable boxes and provide the related literature to any person eligible to purchase cannabis products under subsection (2) of this section. Retail outlets may not use the donation of lockable boxes or literature as an incentive

or as a condition of a recipient's purchase of a cannabis product or paraphernalia.

(iii) Retail outlets may also purchase and sell lockable boxes, provided that the sales price is not less than the cost of acquisition.

(2) Licensed cannabis retailers may not employ persons under twenty-one years of age or allow persons under twenty-one years of age to enter or remain on the premises of a retail outlet. However, qualifying patients between eighteen and twenty-one years of age with a recognition card may enter and remain on the premises of a retail outlet holding a medical cannabis endorsement and may purchase products for their personal medical use. Qualifying patients who are under the age of eighteen with a recognition card and who accompany their designated providers may enter and remain on the premises of a retail outlet holding a medical cannabis endorsement, but may not purchase products for their personal medical use.

(3)(a) Licensed cannabis retailers must ensure that all employees are trained on the rules adopted to implement this chapter, identification of persons under the age of twenty-one, and other requirements adopted by the board to ensure that persons under the age of twenty-one are not permitted to enter or remain on the premises of a retail outlet.

(b) Licensed cannabis retailers with a medical cannabis endorsement must ensure that all employees are trained on the subjects required by (a) of this subsection as well as identification of authorizations and recognition cards. Employees must also be trained to permit qualifying patients who hold recognition cards and are between the ages of eighteen and twenty-one to enter the premises and purchase cannabis for their personal medical use and to permit qualifying patients who are under the age of eighteen with a recognition card to enter the premises if accompanied by their designated providers.

(4) Except for the purposes of disposal as authorized by the board, no licensed cannabis retailer or employee of a retail outlet may open or consume, or allow to be opened or consumed, any cannabis concentrates, useable cannabis, or cannabis-infused product on the outlet premises.

(5)(a) By December 31, 2024, licensed cannabis retailers shall post a conspicuous notice at the point of sale in retail outlets with information about: (i) The potential health risks and adverse health impacts that may be associated with the consumption of high THC cannabis; (ii) the potentially much higher risks that may be present for younger persons under age 25 as well as for persons who have or are at risk for developing certain mental health conditions or psychotic disorders; and (iii) where to find help in case of negative effects and resources for quitting or reducing cannabis consumption. The notice must be the same or substantially the same as the notice developed by the department of health under this subsection (5).

(b) The department of health shall develop the notice required under this section and make it available to licensed cannabis retailers. The notice must, at a minimum, identify the information specified in (a)(i) through (iii) of this subsection, and may include additional information.

(6) The board must fine a licensee one thousand dollars for each violation of any subsection of this section. Fines collected under this section must be deposited into the dedicated cannabis account created under RCW 69.50.530.

NEW SECTION. Sec. 5. A new section is added to chapter 28B.20 RCW to read as follows:

Revised for first substitute: Improving the consistency and quality of the implementation of the fundamental course of study for paraeducators.

The measure was read the second time.

MOTION

Senator Wellman moved that the following committee striking amendment by the Committee on Early Learning & K-12 Education be adopted:

Strike everything after the enacting clause and insert the following:

NEW SECTION. Sec. 1. (1) The legislature acknowledges that it created the paraeducator board to adopt standards of practice and required school districts to provide to paraeducators a four-day fundamental course of study on the standards to paraeducators. The legislature finds that it required that at least one day of the fundamental course of study be provided in person due to the benefits of in-person instruction, including that instructors can confirm the participant's application of learning objectives.

(2) The legislature recognizes that paraeducators benefit from in-person training that is part of the hiring and onboarding process. The legislature intends to expand this benefit by generally requiring two days of the fundamental course of study be provided to paraeducators in person. The legislature recognizes that an exemption from this in-person requirement is necessary for some small school districts that experience barriers to providing the fundamental course of study in person due to long commute times for paraeducators, irregular hiring dates in small school districts, and other extenuating circumstances.

(3) However, it is the intent of the legislature to ensure that all paraeducators in Washington receive high quality and consistent professional development through the fundamental course of study, with a significant majority of paraeducators being trained in person.

NEW SECTION. Sec. 2. A new section is added to chapter 28A.413 RCW to read as follows:

(1) By July 1, 2025, the board must update rules on the implementation of the fundamental course of study under RCW 28A.413.060 to require that a significant majority of paraeducators are provided with the course in person. Under the rules, the board may grant an exemption from the in-person requirement of RCW 28A.413.060 for second-class school districts hiring paraeducators after the beginning of the school year.

(2) By July 1, 2025, the board must publish guidance for school districts on how to provide the fundamental course of study under

FIFTY THIRD DAY, FEBRUARY 29, 2024

RCW 28A.413.060 to improve the consistency and quality of staff development.

Sec. 3. RCW 28A.413.060 and 2019 c 268 s 3 are each amended to read as follows:

(1) School districts must implement this section only in school years for which state funding is appropriated specifically for the purposes of this section and only for the number of days that are funded by the appropriation.

(2)(a) School districts must provide a four-day fundamental course of study on the state standards of practice, as defined by the board, to paraeducators who have not completed the course, either in the district or in another district within the state. ~~((At least one day of the fundamental course of study must be provided in person.))~~

(b) School districts must use best efforts to provide the fundamental course of study before the paraeducator begins to work with students and their families, and at a minimum by the following deadlines ~~((provided in subsection (3) of this section.~~

~~((3) Except as provided in (b) of this subsection, school districts must provide the fundamental course of study required in subsection (2) of this section by the deadlines provided in (a) of this subsection)):~~

~~((a))~~(i) For paraeducators hired ~~((on or))~~ before ~~((September 1st))~~ the beginning of the school year, the first two days of the fundamental course of study must be provided ~~((by September 30th of that year))~~ in person before the beginning of the school year and the second two days of the fundamental course of study must be provided within six months of the date of hire ~~((; regardless of the size of the district))~~; and

(ii) For paraeducators hired after ~~((September 1st))~~ the beginning of the school year:

(A) For paraeducators hired by first-class districts ~~((with ten thousand or more students))~~, the first two days of the fundamental course of study must be provided in person within four months of the date of hire and the second two days of the fundamental course of study must be provided within six months of the date of hire or by September 1st of the following year, whichever is sooner; and

(B) For paraeducators hired by second-class districts ~~((with fewer than ten thousand students))~~, the four-day fundamental course of study must be provided no later than September 1st of the following year, with two of the days provided in person unless the district has applied for and received an exemption under section 2 of this act.

~~((b))~~(i) For paraeducators hired for the 2018-19 school year, by September 1, 2020; and

~~((ii) For paraeducators not hired for the 2018-19 school year, but hired for the 2019-20 school year, by September 1, 2021.~~

The measure was read the second time.

FIFTY THIRD DAY, FEBRUARY 29, 2024

MOTION

Senator Wellman moved that the following committee striking amendment by the Committee on Early Learning & K-12 Education be adopted:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. (1) The legislature recognizes that career and technical education core plus programs have demonstrated innovation and success in providing meaningful benefits to students and employers through collaborative partnerships that serve as a model for work-integrated learning in Washington. For more than a decade, these programs, and the rigorous career and technical education curricula they incorporate, have prepared students for structured pathways to employment, and presented employers with an expanded pool of candidates with relevant skills and abilities.

(2) Career and technical education core plus programs have been established in three high-demand economic sectors that provide numerous livable wage employment opportunities: Aerospace and advanced manufacturing; construction; and maritime. These programs, which were originally based in manufacturing, but have evolved in response to ever-changing education and economic needs, have been strongly supported by leaders in vital Washington industries, have provided unprecedented education and work-integrated learning opportunities to students. The legislature finds that these successes should be expanded to include an allied health professions program, with a curriculum that is inherently different from that of previously established career and technical education core plus programs, and that related efforts should consider options for future programs that reflect student, teacher, community, and employer needs, including programs in the information technology and natural resources sectors.

(3) Regardless of the sector, continual collaboration between education and industry partners has guided the establishment and operation of career and technical education core plus programs. These joint efforts, and the corresponding financial support from the state and industry partners, have: Focused on developing age-appropriate and developmentally appropriate curricula that is technically focused and academically rigorous; featured employer-supported professional development for teachers; and featured employer-provided worksite-based learning experiences for students and teachers. These elements are instrumental to the success of ongoing programs and offer a strong framework for establishing programs in other industry sectors.

(4) The legislature, therefore, intends to initiate a process for: (a) Soliciting expert recommendations for a career and technical education core plus model framework that can guide: The establishment and operation of successful programs in other high-demand sectors with livable wages and entry-level employment opportunities; and the expansion of operational programs; and (b) establishing a career and technical education program for allied health professions that is responsive to the needs of students, teachers, employers, and communities.

Concerning pupil transportation.

The measure was read the second time.

MOTION

Senator Wellman moved that the following committee striking amendment by the Committee on Early Learning & K-12 Education be adopted:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature recognizes that school bus drivers play a crucial role in ensuring students' safe passage to and from school, preventing absences, and extending a positive school climate beyond the classroom. By delivering this essential service, school bus drivers provide a significant time and convenience benefit to thousands of Washington families, remove cars from the road, reduce overall emissions, and increase traffic safety. However, a recent national survey revealed that 94 percent of bus contractors experience driver shortages, with 21 percent reporting their shortages as severe. With this act, the state of Washington intends to encourage the retention of bus drivers who provide vital services to local communities.

Sec. 2. RCW 28A.160.140 and 1990 c 33 s 140 are each amended to read as follows:

(1) As a condition of entering into a pupil transportation services contract with a private nongovernmental entity, each school district shall engage in an open competitive process at least once every five years. This requirement shall not be construed to prohibit a district from entering into a pupil transportation services contract of less than five years in duration with a district option to renew, extend, or terminate the contract, if the district engages in an open competitive process at least once every five years after July 26, 1987.

(2)(a) A school district may only enter into, renew, or extend a pupil transportation services contract with a private nongovernmental entity if that entity provides the following to, or on behalf of, its employees who choose to opt in for coverage:

(i) An employer health benefits contribution equal to the employer payment dollar amount in effect for the first year of the contract for health care benefit rates (cockle rates), published annually by the health care authority, for the school employees' benefits board program for school employees; and

(ii) An amount equivalent to the salaries of the employees of the private nongovernmental entity multiplied by the employer normal cost contribution rate determined under the entry age cost method for the school employees' retirement system, as published in the most recent actuarial valuation report from the office of the state actuary for the first year of the contract.

(b) All pupil transportation service contracts entered into or modified after the effective date of this section must include a detailed explanation of any contract cost increase by year, expenditure type, and amount, including any increases in cost that result from providing the benefits required under this section.

(c) For contracts entered into, renewed, or extended in the 2024 calendar year, the benefits required under this section must be provided to employees by the beginning of the 2025-26 school year.

(3) As used in this section:

~~((+))~~ (a) "Employees" means in-state employees of the private nongovernmental entity working sufficient compensated hours performing services pursuant to the contract with the school district to meet the eligibility requirements for the school employees' benefits board program if the employees were directly employed by a school district;

(b) "Open competitive process" means either one of the following, at the choice of the school district:

~~((+))~~ (i) The solicitation of bids or quotations and the award of contracts under RCW 28A.335.190; or

~~((b))~~ (ii) The competitive solicitation of proposals and their evaluation consistent with the process and criteria recommended or required, as the case may be, by the office of financial management for state agency acquisition of personal service contractors;

~~((2))~~ (c) "Pupil transportation services contract" means a contract for the operation of privately owned or school district owned school buses, and the services of drivers or operators, management and supervisory personnel, and their support personnel such as secretaries, dispatchers, and mechanics, or any combination thereof, to provide students with transportation to and from school on a regular basis; and

~~((3))~~ (d) "School bus" means a motor vehicle as defined in RCW 46.04.521 and under the rules of the superintendent of public instruction.

NEW SECTION. Sec. 3. A new section is added to chapter 28A.160 RCW to read as follows:

(1) A school district that experiences an increase in costs to a pupil transportation services contract as compared to prior year contract costs as a result of the provisions in RCW 28A.160.140 is eligible for supplemental transportation allocations as described in this section.

(2) Beginning September 1, 2024, school districts that provide pupil transportation through a contract with a nongovernmental entity under RCW 28A.160.140 must annually provide the office of the superintendent of public instruction with the following information:

(a) A breakdown of the total contract cost increase, including a detailed explanation of the increase by expenditure type demonstrating dollar equivalency as required in RCW 28A.160.140(2)(a)(i) and percentage equivalency as required in RCW 28A.160.140(2)(a)(ii), as defined by the office of the superintendent of public instruction, and amount;

(b) A breakdown of cost from the contractor that shows the cost to provide health care and pension benefits to employees prior to the effective date of this section and the cost to provide health care and pension benefits to employees after the implementation of benefits as described in RCW 28A.160.140;

(c) The amount of funding received through transportation allocations under RCW 28A.160.150 through 28A.160.192 prior to the implementation of school employee benefits under chapter 41.05 RCW and the amount of funding received through the same transportation allocations for the period immediately following the implementation of school employee benefits under chapter 41.05 RCW, to determine the amount of funding for health care that is already being included in allocations.

(3) The office of the superintendent of public instruction may suspend the reporting requirements under subsection (2) of this section on or after September 1, 2027, for districts that do not request supplemental transportation allocations under this section.

(4) Subject to the availability of amounts appropriated for this specific purpose, the office of the superintendent of public instruction must reimburse a school district for the increased cost that is directly attributable to increased benefits as required under this act, using the following formula: The total contract cost increase, less any amounts not attributable to benefits required under RCW 28A.160.140, less the amount the allocation was increased based on the actual cost increase through the transportation funding formula."

On page 1, line 1 of the title, after "transportation;" strike the remainder of the title and insert "amending RCW 28A.160.140; adding a new section to chapter 28A.160 RCW; and creating a new section."

Sec. 5. RCW 84.52.010 and 2023 c 28 s 3 are each amended to read as follows:

(1) Except as is permitted under RCW 84.55.050, all taxes must be levied or voted in specific amounts.

(a) The full certified rates of tax levy for state, county, county road district, regional transit authority, and city or town purposes must be extended on the tax rolls in amounts not exceeding the limitations established by law; however, any state levy takes precedence over all other levies and may not be reduced for any purpose other than that required by RCW 84.55.010. If, as a result of the levies imposed under RCW 36.54.130, 36.69.145 by a park and recreation district described under (a)(viii) of this subsection (3), 84.34.230, 84.52.069, 84.52.105, 36.62.090, the portion of the levy by a metropolitan park district that was protected under RCW 84.52.120, 84.52.125, 84.52.135, and 84.52.140, the portion of the levy by a flood control zone district that was protected under RCW 84.52.816, and any portion of a levy resulting from the correction of a levy error under RCW 84.52.085(3), the combined rate of regular property tax levies that are subject to the one percent limitation exceeds one percent of the true and fair value of any property, then these levies must be reduced as follows:

(i) The portion of any levy resulting from the correction of a levy error under RCW 84.52.085(3) must be reduced until the combined rate no longer exceeds one percent of the true and fair value of any property or must be eliminated;

(ii) If the combined rate of regular property tax levies that are subject to the one percent limitation still exceeds one percent of the true and fair value of any property, the portion of the levy by a flood control zone district that was protected under RCW 84.52.816 must be reduced until the combined rate no longer exceeds one percent of the true and fair value of any property or must be eliminated;

(iii) If the combined rate of regular property tax levies that are subject to the one percent limitation still exceeds one percent of the true and fair value of any property, the levy imposed by a county under RCW 84.52.140 must be reduced until the combined rate no longer exceeds one percent of the true and fair value of any property or must be eliminated;

(iv) If the combined rate of regular property tax levies that are subject to the one percent limitation still exceeds one percent of the true and fair value of any property, the portion of the levy by a fire protection district or regional fire protection service authority that is protected under RCW 84.52.125 must be reduced until the combined rate no longer exceeds one percent of the true and fair value of any property or must be eliminated;

(v) If the combined rate of regular property tax levies that are subject to the one percent limitation still exceeds one percent of the true and fair value of any property, the levy imposed by a county under RCW 84.52.135 must be reduced until the combined rate no longer exceeds one percent of the true and fair value of any property or must be eliminated;

(vi) If the combined rate of regular property tax levies that are subject to the one percent limitation still exceeds one percent of the true and fair value of any property, the levy imposed by a ferry district under RCW 36.54.130 must be reduced until the combined rate no longer exceeds one percent of the true and fair value of any property or must be eliminated;

(vii) If the combined rate of regular property tax levies that are subject to the one percent limitation still exceeds one percent of the true and fair value of any property, the portion of the levy by a metropolitan park district that is protected under RCW 84.52.120 must be reduced until the combined rate no longer exceeds one percent of the true and fair value of any property or must be eliminated;

(viii) If the combined rate of regular property tax levies that are subject to the one percent limitation still exceeds one percent of the true and fair value of any property, then the levies imposed under RCW 36.69.145 must be reduced until the combined rate no longer exceeds one percent of the true and fair value of any property or must be eliminated. This subsection (3)(a)(viii) only applies to a park and recreation district located on an island and within a county with a population exceeding 2,000,000;

(ix) If the combined rate of regular property tax levies that are subject to the one percent limitation still exceeds one percent of the true and fair value of any property, then the levies imposed under RCW 84.34.230, 84.52.105, 36.62.090, and any portion of the levy imposed under RCW 84.52.069 that is in excess of 30 cents per \$1,000 of assessed value, must be reduced on a pro rata basis until the combined rate no longer exceeds one percent of the true and fair value of any property or must be eliminated; and

(x) If the combined rate of regular property tax levies that are subject to the one percent limitation still exceeds one percent of the true and fair value of any property, then the 30 cents per \$1,000 of assessed value of tax levy imposed under RCW 84.52.069 must be reduced until the combined rate no longer exceeds one percent of the true and fair value of any property or eliminated.

(i) First, the certified property tax levy authorized under RCW 84.52.821 must be reduced on a pro rata basis or eliminated;

(ii) Second, if the consolidated tax levy rate still exceeds these limitations, the certified property tax levy rates of those junior taxing districts authorized under RCW 36.68.525, 36.69.145 except a park and recreation district described under (a)(viii) of this subsection, 35.95A.100, and 67.38.130 must be reduced on a pro rata basis or eliminated;

(iii) Third, if the consolidated tax levy rate still exceeds these limitations, the certified property tax levy rates of flood control zone districts other than the portion of a levy protected under RCW 84.52.816 must be reduced on a pro rata basis or eliminated;

(iv) Fourth, if the consolidated tax levy rate still exceeds these limitations, the certified property tax levy rates of all other junior taxing districts, other than fire protection districts, regional fire protection service authorities, library districts, the first 50 cents per \$1,000 of assessed valuation levies for metropolitan park districts, and the first 50 cents per \$1,000 of assessed valuation levies for public hospital districts, must be reduced on a pro rata basis or eliminated;

(v) Fifth, if the consolidated tax levy rate still exceeds these limitations, the first 50 cents per \$1,000 of assessed valuation

levies for metropolitan park districts created on or after January 1, 2002, must be reduced on a pro rata basis or eliminated;

(vi) Sixth, if the consolidated tax levy rate still exceeds these limitations, the certified property tax levy rates authorized to fire protection districts under RCW 52.16.140 and 52.16.160 and regional fire protection service authorities under RCW 52.26.140(1) (b) and (c) must be reduced on a pro rata basis or eliminated; and

ENGROSSED SUBSTITUTE HOUSE BILL NO. 2384, by House Committee on Transportation (originally sponsored by Representatives Donaghy, Fitzgibbon, Walen, and Pollet)

Concerning automated traffic safety cameras.

The measure was read the second time.

MOTION

Senator Liias moved that the following committee striking amendment by the Committee on Transportation be not adopted:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. A new section is added to chapter 46.63 RCW to read as follows:

The definitions in this section apply throughout this section and sections 2 through 6 of this act unless the context clearly requires otherwise.

(1) "Automated traffic safety camera" means a device that uses a vehicle sensor installed to work in conjunction with an intersection traffic control system, a railroad grade crossing

control system, or a speed measuring device, and a camera synchronized to automatically record one or more sequenced photographs, microphotographs, or electronic images of the front or rear of a motor vehicle at the time the vehicle fails to stop when facing a steady red traffic control signal or an activated railroad grade crossing control signal, or exceeds a speed limit as detected by a speed measuring device. "Automated traffic safety camera" also includes a device used to detect stopping at intersection or crosswalk violations; stopping when traffic obstructed violations; public transportation only lane violations; stopping or traveling in restricted lane violations; and public transportation bus stop zone violations detected from a public transportation vehicle-mounted system.

(2) "Hospital speed zone" means the marked area within hospital property and extending 300 feet from the border of the hospital property (a) consistent with hospital use; and (b) where signs are posted to indicate the location is within a hospital speed zone, where "hospital" has the same meaning as in RCW 70.41.020.

(3) "Public park speed zone" means the marked area within public park property and extending 300 feet from the border of the public park property (a) consistent with active park use; and (b) where signs are posted to indicate the location is within a public park speed zone.

(4) "Public transportation vehicle" means any motor vehicle, streetcar, train, trolley vehicle, ferry boat, or any other device, vessel, or vehicle that is owned or operated by a transit authority or an entity providing service on behalf of a transit authority that is used for the purpose of carrying passengers and that operates on established routes. "Transit authority" has the same meaning as provided in RCW 9.91.025.

(5) "Roadway work zone" means an area of any city roadway, including state highways that are also classified as city streets under chapter 47.24 RCW, or county road as defined in RCW 46.04.150, with construction, maintenance, or utility work with a duration of 30 calendar days or more. A roadway work zone is identified by the placement of temporary traffic control devices that may include signs, channelizing devices, barriers, pavement markings, and/or work vehicles with warning lights. A roadway work zone extends from the first warning sign or high intensity rotating, flashing, oscillating, or strobe lights on a vehicle to the end road work sign or the last temporary traffic control device or vehicle.

(6) "School speed zone" has the same meaning as described in RCW 46.61.440 (1) and (2).

(7) "School walk zone" means a roadway identified under RCW 28A.160.160 or roadways within a one-mile radius of a school that students use to travel to school by foot, bicycle, or other means of active transportation.

NEW SECTION. Sec. 2. A new section is added to chapter 46.63 RCW to read as follows:

(1) Nothing in this section prohibits a law enforcement officer from issuing a notice of traffic infraction to a person in control of a vehicle at the time a violation occurs under RCW 46.63.030(1) (a), (b), or (c).

(2) Any city or county may authorize the use of automated traffic safety cameras and must adopt an ordinance authorizing such use through its local legislative authority.

(3) The local legislative authority must prepare an analysis of the locations within the jurisdiction where automated traffic safety cameras are proposed to be located before adding traffic safety cameras to a new location or relocating any existing camera to a new location within the jurisdiction. The analysis must include equity considerations including the impact of the camera placement on livability, accessibility, economics, education, and

FIFTY THIRD DAY, FEBRUARY 29, 2024

environmental health when identifying where to locate an automated traffic safety camera. The analysis must also show a demonstrated need for traffic cameras based on one or more of the following in the vicinity of the proposed camera location: Travel by vulnerable road users, evidence of vehicles speeding, rates of collision, reports showing near collisions, and anticipated or actual ineffectiveness or infeasibility of other mitigation measures.

(4) Automated traffic safety cameras may not be used on an on-ramp to a limited access facility as defined in RCW 47.52.010.

(5) A city may use automated traffic safety cameras to enforce traffic ordinances in this section on state highways that are also classified as city streets under chapter 47.24 RCW. A city government must notify the department of transportation when it installs an automated traffic safety camera to enforce traffic ordinances as authorized in this subsection.

(6)(a) At a minimum, a local ordinance adopted pursuant to this section must contain the restrictions described in this section and provisions for public notice and signage. Cities and counties must also post such restrictions and other automated traffic safety camera policies on the city's or county's website. Cities and counties using automated traffic safety cameras before July 24, 2005, are subject to the restrictions described in this section, but are not required to adopt an authorizing ordinance.

(b)(i) Cities and counties using automated traffic safety cameras must post an annual report on the city's or county's website of the number of traffic crashes that occurred at each location where an automated traffic safety camera is located, as well as the number of notices of infraction issued for each camera. Beginning July 1, 2026, the annual report must include the percentage of revenues received from fines issued from automated traffic safety camera infractions that were used to pay for the costs of the automated traffic safety camera program and must describe the uses of revenues that exceeded the costs of operation and administration of the automated traffic safety camera program by the city or county.

(ii) The Washington traffic safety commission must provide an annual report to the transportation committees of the legislature, and post the report to its website for public access, beginning July 1, 2026, that includes aggregated information on the use of automated traffic safety cameras in the state that includes an assessment of the impact of their use, information required in city and county annual reports under (b)(i) of this subsection, and information on the number of automated traffic safety cameras in use by type and location, with an analysis of camera placement in the context of area demographics and household incomes. Cities and counties using automated traffic safety cameras must provide the commission with the data it requests for the report required under this subsection in a form and manner specified by the commission.

(7) All locations where an automated traffic safety camera is used on roadways or intersections must be clearly marked by placing signs at least 30 days prior to activation of the camera in locations that clearly indicate to a driver either that: (a) The driver is within an area where automated traffic safety cameras are authorized; or (b) the driver is entering an area where violations are enforced by an automated traffic safety camera. The signs must be readily visible to a driver approaching an automated traffic safety camera. Signs placed in automated traffic safety camera locations after June 7, 2012, must follow the specifications and guidelines under the manual of uniform traffic control devices for streets and highways as adopted by the department of transportation under chapter 47.36 RCW. All public transportation vehicles utilizing a vehicle-mounted system must post a sign on the rear of the vehicle indicating to drivers

that the vehicle is equipped with an automated traffic safety camera to enforce bus stop zone violations.

(8) Automated traffic safety cameras may only record images of the vehicle and vehicle license plate and only while an infraction is occurring. The image must not reveal the face of the driver or of passengers in the vehicle. The primary purpose of camera placement is to record images of the vehicle and vehicle license plate when an infraction is occurring. Cities and counties must consider installing automated traffic safety cameras in a manner that minimizes the impact of camera flash on drivers.

(9) A notice of infraction must be mailed to the registered owner of the vehicle within 14 days of the violation, or to the renter of a vehicle within 14 days of establishing the renter's name and address under subsection (17) of this section. The notice of infraction must include with it a certificate or facsimile thereof, based upon inspection of photographs, microphotographs, or electronic images produced by an automated traffic safety camera, stating the facts supporting the notice of infraction. This certificate or facsimile is prima facie evidence of the facts contained in it and is admissible in a proceeding charging a violation under this chapter. The photographs, microphotographs, or electronic images evidencing the violation must be available for inspection and admission into evidence in a proceeding to adjudicate the liability for the infraction. A person receiving a notice of infraction based on evidence detected by an automated traffic safety camera may respond to the notice by mail.

(10) The registered owner of a vehicle is responsible for an infraction under RCW 46.63.030(1)(d) unless the registered owner overcomes the presumption in RCW 46.63.075, or, in the case of a rental car business, satisfies the conditions under subsection (17) of this section. If appropriate under the circumstances, a renter identified under subsection (17)(a) of this section is responsible for an infraction.

(11) Notwithstanding any other provision of law, all photographs, microphotographs, or electronic images, or any other personally identifying data prepared under this section are for the exclusive use of authorized city or county employees, as specified in RCW 46.63.030(1)(d), in the discharge of duties under this section and are not open to the public and may not be used in a court in a pending action or proceeding unless the action or proceeding relates to a violation under this section. No photograph, microphotograph, or electronic image, or any other personally identifying data may be used for any purpose other than enforcement of violations under this section nor retained longer than necessary to enforce this section. Transit authorities must provide to the appropriate local jurisdiction that has authorized traffic safety camera use under section 6(2) of this act any images or evidence collected establishing that a violation of stopping, standing, or parking in a bus stop zone has occurred for infraction processing purposes consistent with this section.

(12) If a county or city has established an automated traffic safety camera program as authorized under this section, the compensation paid to the manufacturer or vendor of the equipment used must be based only upon the value of the equipment and services provided or rendered in support of the system and may not be based upon a portion of the fine or civil penalty imposed or the revenue generated by the equipment. If the contract between the city or county and manufacturer or vendor of the equipment does not provide for performance or quality control measures regarding camera images, the city or county must perform a performance audit of the manufacturer or vendor of the equipment every three years to review and ensure that images produced from automated traffic safety cameras are sufficient for evidentiary purposes as described in subsection (9) of this section.

(13)(a) Except as provided in (c) of this subsection, a county or a city may only use revenue generated by an automated traffic safety camera program as authorized under this section for:

(i) Traffic safety activities related to construction and preservation projects and maintenance and operations purposes including, but not limited to, projects designed to implement the complete streets approach as defined in RCW 47.04.010, changes in physical infrastructure to reduce speeds through road design, and changes to improve safety for active transportation users, including improvements to access and safety for road users with mobility, sight, or other disabilities; and

(ii) The cost to administer, install, operate, and maintain the automated traffic safety cameras, including the cost of processing infractions.

(b)(i) The automated traffic safety camera program revenue used by a county or city with a population of 10,000 or more for purposes described in (a)(i) of this subsection must include the use of revenue in census tracts of the city or county that have household incomes in the lowest quartile determined by the most currently available census data and areas that experience rates of injury crashes that are above average for the city or county. Funding contributed from traffic safety program revenue must be, at a minimum, proportionate to the share of the population of the county or city who are residents of these low-income communities and communities experiencing high injury crash rates. This share must be directed to investments that provide direct and meaningful traffic safety benefits to these communities. Revenue used to administer, install, operate, and maintain automated traffic safety cameras, including the cost of processing infractions, are excluded from determination of the proportionate share of revenues under this subsection (13)(b).

(ii) The automated traffic safety camera program revenue used by a city or county with a population under 10,000 for traffic safety capital improvement projects must be informed by the department of health's environmental health disparities map.

(c)(i) Except as provided in (c)(ii) of this subsection, jurisdictions that have automated traffic safety camera programs in effect before January 1, 2024, for which an ordinance in effect as of January 1, 2024, directs the manner in which revenue generated from automated traffic safety cameras authorized under section 3 or 5(2)(c) of this act must be used, may continue to allocate revenue for these types of infractions in accordance with that ordinance as determined by that jurisdiction, as well as for the purposes established in (a) and (b) of this subsection.

(ii)(A) Beginning four years after an automated traffic safety camera authorized under this section is initially placed and in use after the effective date of this section, 25 percent of the noninterest money received for infractions issued by such cameras in excess of the cost to administer, install, operate, and maintain the cameras, including the cost of processing infractions, must be deposited into the Cooper Jones active transportation safety account created in RCW 46.68.480. The revenue distribution requirements under this subsection (13)(c)(ii)(A) do not apply to automated traffic safety camera programs in effect before January 1, 2024, for which an ordinance in effect as of January 1, 2024, directs the manner in which revenue generated from automated traffic safety cameras authorized under section 3 or 5(2)(c) of this act must be used, or if the camera initially placed and in use after the effective date of this section is relocated within the four-year period.

(B) Jurisdictions with an automated traffic safety program in effect before January 1, 2024, for which an ordinance in effect as of January 1, 2024, directs the manner in which revenue generated from any automated traffic safety cameras authorized under sections 4, 5 (2) (a), (b), (d), (e), and (f), (3), and 6 of this act must

be used, may continue to allocate revenue from these types of infractions in accordance with that ordinance, as well as for the purposes established in (a) and (b) of this subsection, by up to a 10 percent increase in the number of traffic cameras authorized to detect violations as authorized in section 4, 5 (2) (a), (b), (d), (e), or (f), (3), or 6 of this act.

(14) A county or city may adopt the use of an online ability-to-pay calculator to process and grant requests for reduced fines or reduced civil penalties for automated traffic safety camera violations.

(15) Registered owners of vehicles who receive notices of infraction for automated traffic safety camera-enforced infractions and are recipients of public assistance under Title 74 RCW or participants in the Washington women, infants, and children program, and who request reduced penalties for infractions detected through the use of automated traffic safety camera violations, must be granted reduced penalty amounts of 25 percent of what would otherwise be assessed. Registered owners of vehicles who receive notices of infraction must be provided with information on their eligibility and the opportunity to apply for a reduction in penalty amounts through the mail or internet.

(16) Infractions detected through the use of automated traffic safety cameras are not part of the registered owner's driving record under RCW 46.52.101 and 46.52.120. Additionally, infractions generated by the use of automated traffic safety cameras under this section must be processed in the same manner as parking infractions, including for the purposes of RCW 3.50.100, 35.20.220, 46.16A.120, and 46.20.270(2). The amount of the fine issued for an infraction generated through the use of an automated traffic safety camera may not exceed \$145, as adjusted for inflation by the office of financial management every five years, beginning January 1, 2029, based upon changes in the consumer price index during that time period.

(17) If the registered owner of the vehicle is a rental car business, the issuing agency must, before a notice of infraction being issued under this section, provide a written notice to the rental car business that a notice of infraction may be issued to the rental car business if the rental car business does not, within 18 days of receiving the written notice, provide to the issuing agency by return mail:

(a) A statement under oath stating the name and known mailing address of the individual driving or renting the vehicle when the infraction occurred; or

(b) A statement under oath that the business is unable to determine who was driving or renting the vehicle at the time the infraction occurred because the vehicle was stolen at the time of the infraction. A statement provided under this subsection must be accompanied by a copy of a filed police report regarding the vehicle theft; or

(c) In lieu of identifying the vehicle operator, the rental car business may pay the applicable penalty. Timely mailing of this statement to the issuing agency relieves a rental car business of any liability under this chapter for the notice of infraction.

NEW SECTION. Sec. 3. A new section is added to chapter 46.63 RCW to read as follows:

(1) Automated traffic safety cameras may be used to detect stoplight violations, subject to section 2 of this act.

(2) Automated traffic safety cameras used to detect stoplight violations are restricted to intersections of two or more arterials with traffic control signals that have yellow change interval durations in accordance with RCW 47.36.022, which interval durations may not be reduced after placement of the camera.

NEW SECTION. Sec. 4. A new section is added to chapter 46.63 RCW to read as follows:

FIFTY THIRD DAY, FEBRUARY 29, 2024

(1) Automated traffic safety cameras may be used to detect railroad grade crossing violations, subject to section 2 of this act.

(2) Automated traffic safety cameras at railroad grade crossings may be used only to detect instances when a vehicle fails to stop when facing an activated railroad grade crossing control signal.

NEW SECTION. Sec. 5. A new section is added to chapter 46.63 RCW to read as follows:

(1) Automated traffic safety cameras may be used to detect speed violations, subject to section 2 of this act.

(2) Automated traffic safety cameras may be used to detect speed violations within the following locations:

- (a) Hospital speed zones;
- (b) Public park speed zones;
- (c) School speed zones;
- (d) School walk zones;

(e) Roadway work zones, except that a notice of infraction may only be issued if an automated traffic safety camera captures a speed violation when workers are present; and

(f) State highways within city limits that are classified as city streets under chapter 47.24 RCW.

(3) In addition to the automated traffic safety cameras that may be authorized for specified zones or roads in subsection (2) of this section, the local legislative authority may authorize the use of one additional automated traffic safety camera per 10,000 population to detect speed violations in locations deemed by the local legislative authority to experience higher crash risks due to excessive vehicle speeds. For automated traffic safety cameras authorized to detect speed violations as part of a pilot program prior to the effective date of this section, the location must be deemed by a local legislative authority to have experienced higher crash risks due to excessive vehicle speeds prior to installation of the automated traffic safety camera.

NEW SECTION. Sec. 6. A new section is added to chapter 46.63 RCW to read as follows:

(1) Subject to section 2 of this act and subsection (5) of this section, automated traffic safety cameras may be used in cities with populations of more than 500,000 residents to detect one or more of the following violations:

- (a) Stopping when traffic obstructed violations;
- (b) Stopping at intersection or crosswalk violations;
- (c) Public transportation only lane violations; or
- (d) Stopping or traveling in restricted lane violations.

(2) Subject to section 2 of this act, automated traffic safety cameras may also be used in cities with a bus rapid transit corridor or routes to detect public transportation only lane violations.

(3) Subject to section 2 of this act, automated traffic safety cameras that are part of a public transportation vehicle-mounted system may be used by a transit authority within a county with a population of more than 1,500,000 residents to detect stopping, standing, or parking in bus stop zone violations if authorized by the local legislative authority with jurisdiction over the transit authority.

(4) Subject to section 2 of this act, and in consultation with the department of transportation, automated traffic safety cameras may be used to detect ferry queue violations under RCW 46.61.735.

(5) Use of automated traffic safety cameras as authorized in subsection (1) of this section is restricted to the following locations only: Intersections as described in section 3(2) of this act; railroad grade crossings; school speed zones; school walk zones; public park speed zones; hospital speed zones; and midblock on arterials. The use of such automated traffic safety cameras is further limited to the following:

(a) The portion of state and local roadways in downtown areas of the city used for office and commercial activities, as well as

retail shopping and support services, and that may include mixed residential uses;

(b) The portion of state and local roadways in areas in the city within one-half mile north of the boundary of the area described in (a) of this subsection;

(c) Portions of roadway systems in the city that travel into and out of (b) of this subsection that are designated by the Washington state department of transportation as noninterstate freeways for up to four miles; and

(d) Portions of roadway systems in the city connected to the portions of the noninterstate freeways identified in (c) of this subsection that are designated by the Washington state department of transportation as arterial roadways for up to one mile from the intersection of the arterial roadway and the noninterstate freeway.

(6) A transit authority may not take disciplinary action regarding a warning or infraction issued pursuant to subsections (1) through (3) of this section against an employee who was operating a public transportation vehicle at the time the violation that was the basis of the warning or infraction was detected.

Sec. 7. RCW 46.16A.120 and 2012 c 83 s 5 are each amended to read as follows:

(1) Each court and government agency located in this state having jurisdiction over standing, stopping, and parking violations, the use of a photo toll system under RCW 46.63.160, the use of automated traffic safety cameras under (~~RCW 46.63.170~~) sections 2 through 6 of this act, and the use of automated school bus safety cameras under RCW 46.63.180 may forward to the department any outstanding:

(a) Standing, stopping, and parking violations;

(b) Civil penalties for toll nonpayment detected through the use of photo toll systems issued under RCW 46.63.160;

(c) Automated traffic safety camera infractions issued under RCW 46.63.030(1)(d); and

(d) Automated school bus safety camera infractions issued under RCW 46.63.030(1)(e).

(3) The department shall:

(a) Record the violations, civil penalties, and infractions on the matching vehicle records; and

(b) Send notice approximately (~~(one hundred twenty)~~) 120 days in advance of the current vehicle registration expiration date to the registered owner listing the dates and jurisdictions in which the violations, civil penalties, and infractions occurred, the amounts of unpaid fines and penalties, and the surcharge to be collected. Only those violations, civil penalties, and infractions received by the department (~~(one hundred twenty)~~) 120 days or more before the current vehicle registration expiration date will be included in the notice. Violations, civil penalties, and infractions received by the department later than (~~(one hundred twenty)~~) 120 days before the current vehicle registration expiration date that are not satisfied will be delayed until the next vehicle registration expiration date.

(4) The department, county auditor or other agent, or subagent appointed by the director shall not renew a vehicle registration if there are any outstanding standing, stopping, and parking violations, and other civil penalties issued under RCW 46.63.160 for the vehicle unless:

Sec. 8. RCW 46.63.030 and 2023 c 17 s 1 are each amended to read as follows:

(1) A law enforcement officer has the authority to issue a notice of traffic infraction:

(a) When the infraction is committed in the officer's presence, except as provided in RCW 46.09.485;

(b) When the officer is acting upon the request of a law enforcement officer in whose presence the traffic infraction was committed;

(c) If an officer investigating at the scene of a motor vehicle accident has reasonable cause to believe that the driver of a motor vehicle involved in the accident has committed a traffic infraction;

(d) When the infraction is detected through the use of an automated traffic safety camera under ~~((RCW 46.63.170))~~ sections 2 through 6 of this act. A trained and authorized civilian employee of a general authority Washington law enforcement agency, as defined in RCW 10.93.020, or an employee of a local public works or transportation department performing under the supervision of a qualified traffic engineer and as designated by a city or county, has the authority to review infractions detected through the use of an automated traffic safety camera under sections 2 through 6 of this act and to issue notices of infraction consistent with section 2(9) of this act. Nothing in this subsection impairs decision and effects collective bargaining rights under chapter 41.56 RCW;

(e) When the infraction is detected through the use of an automated school bus safety camera under RCW 46.63.180. A trained and authorized civilian employee of a general authority Washington law enforcement agency, as defined in RCW 10.93.020, or an employee of a local public works or transportation department performing under the supervision of a qualified traffic engineer and as designated by a city or county, has the authority to review infractions detected through the use of an automated school bus safety camera under RCW 46.63.180 and to issue notices of infraction consistent with RCW 46.63.180(1)(b). These employees must be sufficiently trained and certified in reviewing infractions and issuing notices of infraction by qualified peace officers or by traffic engineers employed in the jurisdiction's public works or transportation department. Nothing in this subsection impairs decision and effects collective bargaining rights under chapter 41.56 RCW; or

(f) When the infraction is detected through the use of a speed safety camera system under RCW 46.63.200.

(2) A court may issue a notice of traffic infraction upon receipt of a written statement of the officer that there is reasonable cause to believe that an infraction was committed.

(3) If any motor vehicle without a driver is found parked, standing, or stopped in violation of this title or an equivalent administrative regulation or local law, ordinance, regulation, or resolution, the officer finding the vehicle shall take its registration

number and may take any other information displayed on the vehicle which may identify its user, and shall conspicuously affix to the vehicle a notice of traffic infraction.

(4) In the case of failure to redeem an abandoned vehicle under RCW 46.55.120, upon receiving a complaint by a registered tow truck operator that has incurred costs in removing, storing, and disposing of an abandoned vehicle, an officer of the law enforcement agency responsible for directing the removal of the vehicle shall send a notice of infraction by certified mail to the last known address of the person responsible under RCW 46.55.105. The notice must be entitled "Littering—Abandoned Vehicle" and give notice of the monetary penalty. The officer shall append to the notice of infraction, on a form prescribed by the department of licensing, a notice indicating the amount of costs incurred as a result of removing, storing, and disposing of the abandoned vehicle, less any amount realized at auction, and a statement that monetary penalties for the infraction will not be considered as having been paid until the monetary penalty payable under this chapter has been paid and the court is satisfied that the person has made restitution in the amount of the deficiency remaining after disposal of the vehicle.

Sec. 9. RCW 46.63.180 and 2013 c 306 s 716 are each amended to read as follows:

(1) School districts may install and operate automated school bus safety cameras on school buses to be used for the detection of violations of RCW 46.61.370(1) if the use of the cameras is approved by a vote of the school district board of directors. School districts are not required to take school buses out of service if the buses are not equipped with automated school bus safety cameras or functional automated safety cameras. Further, school districts shall be held harmless from and not liable for any criminal or civil liability arising under the provisions of this section.

(a) Automated school bus safety cameras may only take pictures of the vehicle and vehicle license plate and only while an infraction is occurring. The picture must not reveal the face of the driver or of passengers in the vehicle.

(b) A notice of infraction must be mailed to the registered owner of the vehicle within ~~((fourteen))~~ 14 days of the violation, or to the renter of a vehicle within ~~((fourteen))~~ 14 days of establishing the renter's name and address under subsection (2)(a)(i) of this section. ~~The ((law enforcement officer issuing the))~~ notice of infraction ~~((shall))~~ must also include a certificate or facsimile of the notice, based upon inspection of photographs, microphotographs, or electronic images produced by an automated school bus safety camera, stating the facts supporting the notice of infraction. This certificate or facsimile is prima facie evidence of the facts contained in it and is admissible in a proceeding charging a violation under this chapter. The photographs, microphotographs, or electronic images evidencing the violation must be available for inspection and admission into evidence in a proceeding to adjudicate the liability for the infraction. A person receiving a notice of infraction based on evidence detected by an automated school bus safety camera may respond to the notice by mail.

(c) The registered owner of a vehicle is responsible for an infraction under RCW 46.63.030(1)(e) unless the registered owner overcomes the presumption in RCW 46.63.075, or, in the case of a rental car business, satisfies the conditions under subsection (2) of this section. If appropriate under the circumstances, a renter identified under subsection (2)(a)(i) of this section is responsible for an infraction.

(d) Notwithstanding any other provision of law, all photographs, microphotographs, or electronic images prepared under this section are for the exclusive use of ~~((law enforcement))~~

FIFTY THIRD DAY, FEBRUARY 29, 2024

authorized city or county employees, as specified in RCW 46.63.030(1)(e), in the discharge of duties under this section and are not open to the public and may not be used in a court in a pending action or proceeding unless the action or proceeding relates to a violation under this section. No photograph, microphotograph, or electronic image may be used for any purpose other than enforcement of violations under this section nor retained longer than necessary to enforce this section.

(e) If a school district installs and operates an automated school bus safety camera under this section, the compensation paid to the manufacturer or vendor of the equipment used must be based only upon the value of the equipment and services provided or rendered in support of the system, and may not be based upon a portion of the fine or civil penalty imposed or the revenue generated by the equipment. Further, any repair, replacement, or administrative work costs related to installing or repairing automated school bus safety cameras must be solely paid for by the manufacturer or vendor of the cameras. Before entering into a contract with the manufacturer or vendor of the equipment used under this subsection (1)(e), the school district must follow the competitive bid process as outlined in RCW 28A.335.190(1).

(f) Any revenue collected from infractions detected through the use of automated school bus safety cameras, less the administration and operating costs of the cameras, must be remitted to school districts for school zone safety projects as determined by the school district using the automated school bus safety cameras. The administration and operating costs of the cameras includes infraction enforcement and processing costs that are incurred by local law enforcement or local courts. During the 2013-2015 fiscal biennium, the infraction revenue may also be used for school bus safety projects by those school districts eligible to apply for funding from the school zone safety account appropriation in section 201, chapter 306, Laws of 2013.

(2)(a) If the registered owner of the vehicle is a rental car business, the ~~((law enforcement))~~ issuing agency shall, before a notice of infraction is issued under this section, provide a written notice to the rental car business that a notice of infraction may be issued to the rental car business if the rental car business does not, within ~~((eighteen))~~ 18 days of receiving the written notice, provide to the issuing agency by return mail:

(i) A statement under oath stating the name and known mailing address of the individual driving or renting the vehicle when the infraction occurred;

(ii) A statement under oath that the business is unable to determine who was driving or renting the vehicle at the time the infraction occurred because the vehicle was stolen at the time of the infraction. A statement provided under this subsection (2)(a)(ii) must be accompanied by a copy of a filed police report regarding the vehicle theft; or

(iii) In lieu of identifying the vehicle operator, the rental car business may pay the applicable penalty.

(b) Timely mailing of a statement under this subsection to the issuing ~~((law enforcement))~~ agency relieves a rental car business of any liability under this chapter for the notice of infraction.

(3) For purposes of this section, "automated school bus safety camera" means a device that is affixed to a school bus that is synchronized to automatically record one or more sequenced photographs, microphotographs, or electronic images of the rear of a vehicle at the time the vehicle is detected for an infraction identified in RCW 46.61.370(1).

Sec. 10. RCW 46.63.075 and 2023 c 17 s 2 are each amended to read as follows:

(1) In a traffic infraction case involving an infraction detected through the use of an automated traffic safety camera under ~~((RCW 46.63.170))~~ sections 2 through 6 of this act, detected

through the use of a speed safety camera system under RCW 46.63.200, or detected through the use of an automated school bus safety camera under RCW 46.63.180, proof that the particular vehicle described in the notice of traffic infraction was in violation of any such provision of sections 2 through 6 of this act or RCW ~~((46.63.170,))~~ 46.63.200~~((,))~~ and 46.63.180, together with proof that the person named in the notice of traffic infraction was at the time of the violation the registered owner of the vehicle, constitutes in evidence a prima facie presumption that the registered owner of the vehicle was the person in control of the vehicle at the point where, and for the time during which, the violation occurred.

(2) This presumption may be overcome only if the registered owner states, under oath, in a written statement to the court or in testimony before the court that the vehicle involved was, at the time, stolen or in the care, custody, or control of some person other than the registered owner.

Sec. 11. RCW 46.68.480 and 2023 c 431 s 8 are each amended to read as follows:

The Cooper Jones active transportation safety account is created in the state treasury. All receipts from penalties collected under ~~((RCW 46.63.170))~~ section 2(13)(c)(ii)(A) of this act and funds designated by the legislature shall be deposited into the account. Expenditures from the account may be used only to fund grant projects or programs for bicycle, pedestrian, and nonmotorist safety improvement administered by the Washington traffic safety commission. By December 1, 2024, and every two years thereafter, the commission shall report to the transportation committees of the legislature regarding the activities funded from the account. The account is subject to allotment procedures under chapter 43.88 RCW. Moneys in the account may be spent only after appropriation.

NEW SECTION. **Sec. 12.** RCW 46.63.170 (Automated traffic safety cameras—Definition) and 2022 c 182 s 424, 2022 c 182 s 423, 2020 c 224 s 1, 2015 3rd sp.s. c 44 s 406, 2015 1st sp.s. c 10 s 702, & 2013 c 306 s 711 are each repealed."

On page 1, line 1 of the title, after "cameras;" strike the remainder of the title and insert "amending RCW 46.16A.120, 46.63.030, 46.63.180, 46.63.075, and 46.68.480; adding new sections to chapter 46.63 RCW; and repealing RCW 46.63.170."

Senator Liias spoke in favor of not adopting the committee striking amendment.

The President declared the question before the Senate to be the motion to not adopt the committee striking amendment by the Committee on Transportation to Engrossed Substitute House Bill No. 2384.

The motion by Senator Liias carried and the committee striking amendment was not adopted by voice vote.

MOTION

Senator Liias moved that the following striking amendment no. 803 by Senator Liias be adopted:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. **Sec. 1.** A new section is added to chapter 46.63 RCW to read as follows:

The definitions in this section apply throughout this section and sections 2 through 6 of this act unless the context clearly requires otherwise.

(1) "Automated traffic safety camera" means a device that uses a vehicle sensor installed to work in conjunction with an intersection traffic control system, a railroad grade crossing

control system, or a speed measuring device, and a camera synchronized to automatically record one or more sequenced photographs, microphotographs, or electronic images of the front or rear of a motor vehicle at the time the vehicle fails to stop when facing a steady red traffic control signal or an activated railroad grade crossing control signal, or exceeds a speed limit as detected by a speed measuring device. "Automated traffic safety camera" also includes a device used to detect stopping at intersection or crosswalk violations; stopping when traffic obstructed violations; public transportation only lane violations; stopping or traveling in restricted lane violations; and public transportation bus stop zone violations detected by a public transportation vehicle-mounted system.

(2) "Hospital speed zone" means the marked area within hospital property and extending 300 feet from the border of the hospital property (a) consistent with hospital use; and (b) where signs are posted to indicate the location is within a hospital speed zone, where "hospital" has the same meaning as in RCW 70.41.020.

(3) "Public park speed zone" means the marked area within public park property and extending 300 feet from the border of the public park property (a) consistent with active park use; and (b) where signs are posted to indicate the location is within a public park speed zone.

(4) "Public transportation vehicle" means any motor vehicle, streetcar, train, trolley vehicle, ferry boat, or any other device, vessel, or vehicle that is owned or operated by a transit authority or an entity providing service on behalf of a transit authority that is used for the purpose of carrying passengers and that operates on established routes. "Transit authority" has the same meaning as provided in RCW 9.91.025.

(5) "Roadway work zone" means an area of any city roadway, including state highways that are also classified as city streets under chapter 47.24 RCW, or county road as defined in RCW 46.04.150, with construction, maintenance, or utility work with a duration of 30 calendar days or more. A roadway work zone is identified by the placement of temporary traffic control devices that may include signs, channelizing devices, barriers, pavement markings, and/or work vehicles with warning lights. A roadway work zone extends from the first warning sign or high intensity rotating, flashing, oscillating, or strobe lights on a vehicle to the end road work sign or the last temporary traffic control device or vehicle.

(6) "School speed zone" has the same meaning as described in RCW 46.61.440 (1) and (2).

(7) "School walk zone" means a roadway identified under RCW 28A.160.160 or roadways within a one-mile radius of a school that students use to travel to school by foot, bicycle, or other means of active transportation.

NEW SECTION. Sec. 2. A new section is added to chapter 46.63 RCW to read as follows:

(1) Nothing in this section prohibits a law enforcement officer from issuing a notice of traffic infraction to a person in control of a vehicle at the time a violation occurs under RCW 46.63.030(1) (a), (b), or (c).

(2) Any city or county may authorize the use of automated traffic safety cameras and must adopt an ordinance authorizing such use through its local legislative authority.

(3) The local legislative authority must prepare an analysis of the locations within the jurisdiction where automated traffic safety cameras are proposed to be located before adding traffic safety cameras to a new location or relocating any existing camera to a new location within the jurisdiction. The analysis must include equity considerations including the impact of the camera placement on livability, accessibility, economics, education, and

environmental health when identifying where to locate an automated traffic safety camera. The analysis must also show a demonstrated need for traffic cameras based on one or more of the following in the vicinity of the proposed camera location: Travel by vulnerable road users, evidence of vehicles speeding, rates of collision, reports showing near collisions, and anticipated or actual ineffectiveness or infeasibility of other mitigation measures.

(4) Automated traffic safety cameras may not be used on an on-ramp to a limited access facility as defined in RCW 47.52.010.

(5) A city may use automated traffic safety cameras to enforce traffic ordinances in this section on state highways that are also classified as city streets under chapter 47.24 RCW. A city government must notify the department of transportation when it installs an automated traffic safety camera to enforce traffic ordinances as authorized in this subsection.

(6)(a) At a minimum, a local ordinance adopted pursuant to this section must contain the restrictions described in this section and provisions for public notice and signage. Cities and counties must also post such restrictions and other automated traffic safety camera policies on the city's or county's website. Cities and counties using automated traffic safety cameras before July 24, 2005, are subject to the restrictions described in this section, but are not required to adopt an authorizing ordinance.

(b)(i) Cities and counties using automated traffic safety cameras must post an annual report on the city's or county's website of the number of traffic crashes that occurred at each location where an automated traffic safety camera is located, as well as the number of notices of infraction issued for each camera. Beginning January 1, 2026, the annual report must include the percentage of revenues received from fines issued from automated traffic safety camera infractions that were used to pay for the costs of the automated traffic safety camera program and must describe the uses of revenues that exceeded the costs of operation and administration of the automated traffic safety camera program by the city or county.

(ii) The Washington traffic safety commission must provide an annual report to the transportation committees of the legislature, and post the report to its website for public access, beginning July 1, 2026, that includes aggregated information on the use of automated traffic safety cameras in the state that includes an assessment of the impact of their use, information required in city and county annual reports under (b)(i) of this subsection, and information on the number of automated traffic safety cameras in use by type and location, with an analysis of camera placement in the context of area demographics and household incomes. Cities and counties using automated traffic safety cameras must provide the commission with the data it requests for the report required under this subsection in a form and manner specified by the commission.

(7) All locations where an automated traffic safety camera is used on roadways or intersections must be clearly marked by placing signs at least 30 days prior to activation of the camera in locations that clearly indicate to a driver either that: (a) The driver is within an area where automated traffic safety cameras are authorized; or (b) the driver is entering an area where violations are enforced by an automated traffic safety camera. The signs must be readily visible to a driver approaching an automated traffic safety camera. Signs placed in automated traffic safety camera locations after June 7, 2012, must follow the specifications and guidelines under the manual of uniform traffic control devices for streets and highways as adopted by the department of transportation under chapter 47.36 RCW. All public transportation vehicles utilizing a vehicle-mounted system must post a sign on the rear of the vehicle indicating to drivers

FIFTY THIRD DAY, FEBRUARY 29, 2024

that the vehicle is equipped with an automated traffic safety camera to enforce bus stop zone violations.

(8) Automated traffic safety cameras may only record images of the vehicle and vehicle license plate and only while an infraction is occurring. The image must not reveal the face of the driver or of passengers in the vehicle. The primary purpose of camera placement is to record images of the vehicle and vehicle license plate when an infraction is occurring. Cities and counties must consider installing automated traffic safety cameras in a manner that minimizes the impact of camera flash on drivers.

(9) A notice of infraction must be mailed to the registered owner of the vehicle within 14 days of the violation, or to the renter of a vehicle within 14 days of establishing the renter's name and address under subsection (17) of this section. The notice of infraction must include with it a certificate or facsimile thereof, based upon inspection of photographs, microphotographs, or electronic images produced by an automated traffic safety camera, stating the facts supporting the notice of infraction. This certificate or facsimile is prima facie evidence of the facts contained in it and is admissible in a proceeding charging a violation under this chapter. The photographs, microphotographs, or electronic images evidencing the violation must be available for inspection and admission into evidence in a proceeding to adjudicate the liability for the infraction. A person receiving a notice of infraction based on evidence detected by an automated traffic safety camera may respond to the notice by mail.

(10) The registered owner of a vehicle is responsible for an infraction under RCW 46.63.030(1)(d) unless the registered owner overcomes the presumption in RCW 46.63.075, or, in the case of a rental car business, satisfies the conditions under subsection (17) of this section. If appropriate under the circumstances, a renter identified under subsection (17)(a) of this section is responsible for an infraction.

(11) Notwithstanding any other provision of law, all photographs, microphotographs, or electronic images, or any other personally identifying data prepared under this section are for the exclusive use of authorized city or county employees, as specified in RCW 46.63.030(1)(d), in the discharge of duties under this section and are not open to the public and may not be used in a court in a pending action or proceeding unless the action or proceeding relates to a violation under this section. No photograph, microphotograph, or electronic image, or any other personally identifying data may be used for any purpose other than enforcement of violations under this section nor retained longer than necessary to enforce this section. Transit authorities must provide to the appropriate local jurisdiction that has authorized traffic safety camera use under section 6(2) of this act any images or evidence collected establishing that a violation of stopping, standing, or parking in a bus stop zone has occurred for infraction processing purposes consistent with this section.

(12) If a county or city has established an automated traffic safety camera program as authorized under this section, the compensation paid to the manufacturer or vendor of the equipment used must be based only upon the value of the equipment and services provided or rendered in support of the system and may not be based upon a portion of the fine or civil penalty imposed or the revenue generated by the equipment. If the contract between the city or county and manufacturer or vendor of the equipment does not provide for performance or quality control measures regarding camera images, the city or county must perform a performance audit of the manufacturer or vendor of the equipment every three years to review and ensure that images produced from automated traffic safety cameras are sufficient for evidentiary purposes as described in subsection (9) of this section.

(13)(a) Except as provided in (d) of this subsection, a county or a city may only use revenue generated by an automated traffic safety camera program as authorized under this section for:

(i) Traffic safety activities related to construction and preservation projects and maintenance and operations purposes including, but not limited to, projects designed to implement the complete streets approach as defined in RCW 47.04.010, changes in physical infrastructure to reduce speeds through road design, and changes to improve safety for active transportation users, including improvements to access and safety for road users with mobility, sight, or other disabilities; and

(ii) The cost to administer, install, operate, and maintain the automated traffic safety cameras, including the cost of processing infractions.

(b) Except as provided in (d) of this subsection:

(i) The automated traffic safety camera program revenue used by a county or city with a population of 10,000 or more for purposes described in (a)(i) of this subsection must include the use of revenue in census tracts of the city or county that have household incomes in the lowest quartile determined by the most currently available census data and areas that experience rates of injury crashes that are above average for the city or county. Funding contributed from traffic safety program revenue must be, at a minimum, proportionate to the share of the population of the county or city who are residents of these low-income communities and communities experiencing high injury crash rates. This share must be directed to investments that provide direct and meaningful traffic safety benefits to these communities. Revenue used to administer, install, operate, and maintain automated traffic safety cameras, including the cost of processing infractions, are excluded from determination of the proportionate share of revenues under this subsection (13)(b); and

(ii) The automated traffic safety camera program revenue used by a city or county with a population under 10,000 for traffic safety activities under (a)(i) of this subsection must be informed by the department of health's environmental health disparities map.

(c) Except as provided in (d) of this subsection, beginning four years after an automated traffic safety camera authorized under this section is initially placed and in use after the effective date of this section, 25 percent of the noninterest money received for infractions issued by such cameras in excess of the cost to administer, install, operate, and maintain the cameras, including the cost of processing infractions, must be deposited into the Cooper Jones active transportation safety account created in RCW 46.68.480.

(d)(i)(A) Jurisdictions with an automated traffic safety camera program in effect before January 1, 2024, may continue to allocate revenue generated from automated traffic safety cameras authorized under sections 3 and 5(2)(c) of this act as determined by the jurisdiction, as well as for the purposes established in (a) through (c) of this subsection, by:

(I) Up to a 10 percent increase in the number of traffic safety camera locations authorized to detect violations for automated traffic safety cameras authorized under section 3 of this act; and

(II) Up to a 10 percent increase in the number of traffic safety camera locations authorized to detect violations for automated traffic safety cameras authorized under section 5(2)(c) of this act.

(B)(I) Any automated traffic safety camera program in effect before January 1, 2024, with fewer than 10 traffic safety camera locations for automated traffic safety cameras authorized under section 3 of this act, which adds automated traffic safety cameras to one additional location for the use of cameras authorized under section 3 of this act, may continue to allocate revenue generated from automated traffic safety cameras authorized under section 3

of this act as determined by the jurisdiction, as well as for the purposes established in (a) through (c) of this subsection.

(II) Any automated traffic safety camera program in effect before January 1, 2024, with fewer than 10 traffic safety camera locations for automated traffic safety cameras authorized under section 5(2)(c) of this act as of January 1, 2024, which adds automated traffic safety cameras to one additional location for the use of cameras authorized under section 5(2)(c) of this act, may continue to allocate revenue generated from automated traffic safety cameras authorized under section 5(2)(c) of this act as determined by the jurisdiction, as well as for the purposes established in (a) through (c) of this subsection.

(C) For the purposes of this subsection (13)(d)(i), a location is:

(I) An intersection for automated traffic safety cameras authorized under section 3 of this act where cameras authorized under section 3 of this act are in use; and

(II) A school speed zone for automated traffic safety cameras authorized under section 5(2)(c) of this act where cameras authorized under section 5(2)(c) of this act are in use.

(ii) The revenue distribution requirements under (a) through (c) of this subsection do not apply to automated traffic safety camera programs in effect before January 1, 2024, for which an ordinance in effect as of January 1, 2024, directs the manner in which revenue generated from automated traffic safety cameras authorized under section 3 or 5(2)(c) of this act must be used.

(14) A county or city may adopt the use of an online ability-to-pay calculator to process and grant requests for reduced fines or reduced civil penalties for automated traffic safety camera violations.

(15) Except as provided in this subsection, registered owners of vehicles who receive notices of infraction for automated traffic safety camera-enforced infractions and are recipients of public assistance under Title 74 RCW or participants in the Washington women, infants, and children program, and who request reduced penalties for infractions detected through the use of automated traffic safety camera violations, must be granted reduced penalty amounts of 25 percent of what would otherwise be assessed. Eligibility for medicaid under RCW 74.09.510 is not a qualifying criterion under this subsection. Registered owners of vehicles who receive notices of infraction must be provided with information on their eligibility and the opportunity to apply for a reduction in penalty amounts through the mail or internet.

(16) Infractions detected through the use of automated traffic safety cameras are not part of the registered owner's driving record under RCW 46.52.101 and 46.52.120. Additionally, infractions generated by the use of automated traffic safety cameras under this section must be processed in the same manner as parking infractions, including for the purposes of RCW 3.50.100, 35.20.220, 46.16A.120, and 46.20.270(2). The amount of the fine issued for an infraction generated through the use of an automated traffic safety camera may not exceed \$145, as adjusted for inflation by the office of financial management every five years, beginning January 1, 2029, based upon changes in the consumer price index during that time period, but may be doubled for a school speed zone infraction generated through the use of an automated traffic safety camera.

(17) If the registered owner of the vehicle is a rental car business, the issuing agency must, before a notice of infraction being issued under this section, provide a written notice to the rental car business that a notice of infraction may be issued to the rental car business if the rental car business does not, within 18 days of receiving the written notice, provide to the issuing agency by return mail:

(a) A statement under oath stating the name and known mailing address of the individual driving or renting the vehicle when the infraction occurred; or

(b) A statement under oath that the business is unable to determine who was driving or renting the vehicle at the time the infraction occurred because the vehicle was stolen at the time of the infraction. A statement provided under this subsection must be accompanied by a copy of a filed police report regarding the vehicle theft; or

(c) In lieu of identifying the vehicle operator, the rental car business may pay the applicable penalty. Timely mailing of this statement to the issuing agency relieves a rental car business of any liability under this chapter for the notice of infraction.

NEW SECTION. Sec. 3. A new section is added to chapter 46.63 RCW to read as follows:

(1) Automated traffic safety cameras may be used to detect stoplight violations, subject to section 2 of this act.

(2) Automated traffic safety cameras used to detect stoplight violations are restricted to intersections of two or more arterials with traffic control signals that have yellow change interval durations in accordance with RCW 47.36.022, which interval durations may not be reduced after placement of the camera.

NEW SECTION. Sec. 4. A new section is added to chapter 46.63 RCW to read as follows:

(1) Automated traffic safety cameras may be used to detect railroad grade crossing violations, subject to section 2 of this act.

(2) Automated traffic safety cameras at railroad grade crossings may be used only to detect instances when a vehicle fails to stop when facing an activated railroad grade crossing control signal.

NEW SECTION. Sec. 5. A new section is added to chapter 46.63 RCW to read as follows:

(1) Automated traffic safety cameras may be used to detect speed violations, subject to section 2 of this act.

(2) Automated traffic safety cameras may be used to detect speed violations within the following locations:

- (a) Hospital speed zones;
- (b) Public park speed zones;
- (c) School speed zones;
- (d) School walk zones;

(e) Roadway work zones, except that a notice of infraction may only be issued if an automated traffic safety camera captures a speed violation when workers are present; and

(f) State highways within city limits that are classified as city streets under chapter 47.24 RCW.

(3) In addition to the automated traffic safety cameras that may be authorized for specified zones or roads in subsection (2) of this section, the local legislative authority may authorize the use of one additional automated traffic safety camera per 10,000 population to detect speed violations in locations deemed by the local legislative authority to experience higher crash risks due to excessive vehicle speeds. For automated traffic safety cameras authorized to detect speed violations as part of a pilot program prior to the effective date of this section, the location must be deemed by a local legislative authority to have experienced higher crash risks due to excessive vehicle speeds prior to installation of the automated traffic safety camera.

NEW SECTION. Sec. 6. A new section is added to chapter 46.63 RCW to read as follows:

(1)(a) Subject to section 2 of this act and as limited in this subsection, automated traffic safety cameras may be used in cities with populations of more than 500,000 residents to detect one or more of the following violations:

- (i) Stopping when traffic obstructed violations;
- (ii) Stopping at intersection or crosswalk violations;
- (iii) Public transportation only lane violations; or

FIFTY THIRD DAY, FEBRUARY 29, 2024

- (iv) Stopping or traveling in restricted lane violations.
- (b) Use of automated traffic safety cameras as authorized in this subsection (1) is restricted to the following locations only: Intersections as described in section 3(2) of this act; railroad grade crossings; school speed zones; school walk zones; public park speed zones; hospital speed zones; and midblock on arterials. The use of such automated traffic safety cameras is further limited to the following:
- (i) The portion of state and local roadways in downtown areas of the city used for office and commercial activities, as well as retail shopping and support services, and that may include mixed residential uses;
- (ii) The portion of state and local roadways in areas in the city within one-half mile north of the boundary of the area described in (b)(i) of this subsection;
- (iii) Portions of roadway systems in the city that travel into and out of (b)(ii) of this subsection that are designated by the Washington state department of transportation as noninterstate freeways for up to four miles; and
- (iv) Portions of roadway systems in the city connected to the portions of the noninterstate freeways identified in (b)(iii) of this subsection that are designated by the Washington state department of transportation as arterial roadways for up to one mile from the intersection of the arterial roadway and the noninterstate freeway.
- (2) Subject to section 2 of this act, automated traffic safety cameras may also be used in cities with a bus rapid transit corridor or routes to detect public transportation only lane violations.
- (3) Subject to section 2 of this act, automated traffic safety cameras that are part of a public transportation vehicle-mounted system may be used by a transit authority within a county with a population of more than 1,500,000 residents to detect stopping, standing, or parking in bus stop zone violations if authorized by the local legislative authority with jurisdiction over the transit authority.

Sec. 9. RCW 46.63.180 and 2013 c 306 s 716 are each amended to read as follows:

(1) School districts may install and operate automated school bus safety cameras on school buses to be used for the detection of violations of RCW 46.61.370(1) if the use of the cameras is approved by a vote of the school district board of directors. School districts are not required to take school buses out of service if the buses are not equipped with automated school bus safety cameras or functional automated safety cameras. Further, school districts shall be held harmless from and not liable for any criminal or civil liability arising under the provisions of this section.

(a) Automated school bus safety cameras may only take pictures of the vehicle and vehicle license plate and only while an infraction is occurring. The picture must not reveal the face of the driver or of passengers in the vehicle.

(b) A notice of infraction must be mailed to the registered owner of the vehicle within ~~((fourteen))~~ 14 days of the violation, or to the renter of a vehicle within ~~((fourteen))~~ 14 days of

establishing the renter's name and address under subsection (2)(a)(i) of this section. The ~~((law enforcement officer issuing the))~~ notice of infraction ~~((shall))~~ must also include a certificate or facsimile of the notice, based upon inspection of photographs, microphotographs, or electronic images produced by an automated school bus safety camera, stating the facts supporting the notice of infraction. This certificate or facsimile is prima facie evidence of the facts contained in it and is admissible in a proceeding charging a violation under this chapter. The photographs, microphotographs, or electronic images evidencing the violation must be available for inspection and admission into evidence in a proceeding to adjudicate the liability for the infraction. A person receiving a notice of infraction based on evidence detected by an automated school bus safety camera may respond to the notice by mail.

(c) The registered owner of a vehicle is responsible for an infraction under RCW 46.63.030(1)(e) unless the registered owner overcomes the presumption in RCW 46.63.075, or, in the case of a rental car business, satisfies the conditions under subsection (2) of this section. If appropriate under the circumstances, a renter identified under subsection (2)(a)(i) of this section is responsible for an infraction.

(d) Notwithstanding any other provision of law, all photographs, microphotographs, or electronic images prepared under this section are for the exclusive use of ~~((law enforcement))~~ authorized city or county employees, as specified in RCW 46.63.030(1)(e), in the discharge of duties under this section and are not open to the public and may not be used in a court in a pending action or proceeding unless the action or proceeding relates to a violation under this section. No photograph, microphotograph, or electronic image may be used for any purpose other than enforcement of violations under this section nor retained longer than necessary to enforce this section.

(e) If a school district installs and operates an automated school bus safety camera under this section, the compensation paid to the manufacturer or vendor of the equipment used must be based only upon the value of the equipment and services provided or rendered in support of the system, and may not be based upon a portion of the fine or civil penalty imposed or the revenue generated by the equipment. Further, any repair, replacement, or administrative work costs related to installing or repairing automated school bus safety cameras must be solely paid for by the manufacturer or vendor of the cameras. Before entering into a contract with the manufacturer or vendor of the equipment used under this subsection (1)(e), the school district must follow the competitive bid process as outlined in RCW 28A.335.190(1).

(f) Any revenue collected from infractions detected through the use of automated school bus safety cameras, less the administration and operating costs of the cameras, must be remitted to school districts for school zone safety projects as determined by the school district using the automated school bus safety cameras. The administration and operating costs of the cameras includes infraction enforcement and processing costs that are incurred by local law enforcement or local courts. During the 2013-2015 fiscal biennium, the infraction revenue may also be used for school bus safety projects by those school districts eligible to apply for funding from the school zone safety account appropriation in section 201, chapter 306, Laws of 2013.

(2)(a) If the registered owner of the vehicle is a rental car business, the ~~((law enforcement))~~ issuing agency shall, before a notice of infraction is issued under this section, provide a written notice to the rental car business that a notice of infraction may be issued to the rental car business if the rental car business does not, within ~~((eighteen))~~ 18 days of receiving the written notice, provide to the issuing agency by return mail:

FIFTY THIRD DAY, FEBRUARY 29, 2024

(i) A statement under oath stating the name and known mailing address of the individual driving or renting the vehicle when the infraction occurred;

(ii) A statement under oath that the business is unable to determine who was driving or renting the vehicle at the time the infraction occurred because the vehicle was stolen at the time of the infraction. A statement provided under this subsection (2)(a)(ii) must be accompanied by a copy of a filed police report regarding the vehicle theft; or

(iii) In lieu of identifying the vehicle operator, the rental car business may pay the applicable penalty.

(b) Timely mailing of a statement under this subsection to the issuing ~~((law enforcement))~~ agency relieves a rental car business of any liability under this chapter for the notice of infraction.

(3) For purposes of this section, "automated school bus safety camera" means a device that is affixed to a school bus that is synchronized to automatically record one or more sequenced photographs, microphotographs, or electronic images of the rear of a vehicle at the time the vehicle is detected for an infraction identified in RCW 46.61.370(1).

Sec. 10. RCW 46.63.075 and 2023 c 17 s 2 are each amended to read as follows:

(1) In a traffic infraction case involving an infraction detected through the use of an automated traffic safety camera under ~~((RCW 46.63.170))~~ sections 2 through 6 of this act, detected through the use of a speed safety camera system under RCW 46.63.200, or detected through the use of an automated school bus safety camera under RCW 46.63.180, proof that the particular vehicle described in the notice of traffic infraction was in violation of any such provision of sections 2 through 6 of this act or RCW ~~((46.63.170,))~~ 46.63.200~~(7)~~ and 46.63.180, together with proof that the person named in the notice of traffic infraction was at the time of the violation the registered owner of the vehicle, constitutes in evidence a prima facie presumption that the registered owner of the vehicle was the person in control of the vehicle at the point where, and for the time during which, the violation occurred.

(2) This presumption may be overcome only if the registered owner states, under oath, in a written statement to the court or in testimony before the court that the vehicle involved was, at the time, stolen or in the care, custody, or control of some person other than the registered owner.

Sec. 11. RCW 46.68.480 and 2023 c 431 s 8 are each amended to read as follows:

(a) Does not have a prior conviction under RCW 46.61.520, 46.61.522, 46.61.502(6), or 46.61.504(6); and either

(c) Is convicted of felony physical control of a vehicle while under the influence of intoxicating liquor or any drug under RCW 46.61.504(6)(a).

(2) A motion for a special drug offender sentencing alternative for driving under the influence may be made by the court, the offender, or the state if the midpoint of the standard sentence range is 26 months or less. If an offender has a higher midpoint, a motion for a special drug offender sentencing alternative for driving under the influence can only be made by joint agreement of the state and offender.

(3) If the sentencing court determines that the offender is eligible for an alternative sentence under this section and that the alternative sentence is appropriate, the court shall waive imposition of a sentence within the standard sentence range and:

(a) Impose a sentence equivalent to a prison-based alternative under RCW 9.94A.662, and subject to the same requirements and restrictions as are established in that section, if the low end of the standard sentence range is greater than 24 months; or

(b) Impose a sentence consisting of a residential treatment-based alternative consistent with this section if the low end of the standard sentence range is 24 months or less.

(4)(a) To assist the court in making its determination, the court may order the department to complete either a risk assessment report or a substance use disorder screening report as provided in RCW 9.94A.500, or both.

(b) If the court is considering imposing a sentence under the residential substance use disorder treatment-based alternative, the court may order an examination of the offender by the department. The examination shall, at a minimum, address the following issues:

(i) Whether the offender suffers from a substance use disorder;

(ii) Whether effective treatment for the offender's substance use disorder is available from a provider that has been licensed or certified by the department of health; and

(iii) Whether the offender and the community will benefit from the use of the alternative.

(5) An offender who is eligible for a residential treatment-based alternative under this section shall be sentenced as follows:

(a) If necessary, an indeterminate term of confinement of no more than 30 days in a facility operated, licensed, or utilized under contract, by the county in order to facilitate direct transfer to a residential substance use disorder treatment facility;

(d) Twelve months of community custody.

(6)(a) During any period of partial confinement or community custody, the court shall impose treatment and other conditions as provided in RCW 9.94A.703 or as the court considers appropriate.

(b) The department may impose conditions and sanctions as authorized in RCW 9.94A.704 and 9.94A.737.

(d) An offender sentenced to community custody under subsection (3)(a) of this section as part of the prison-based alternative or under subsection (3)(b) of this section as part of the residential treatment-based alternative may be required to pay \$30 per month while on community custody to offset the cost of monitoring for alcohol or controlled substances.

(7)(a) If the court imposes a sentence under subsection (3)(b) of this section, the treatment provider must send the treatment plan to the court within 30 days of the offender's arrival to the residential substance use disorder treatment program.

(b) Upon receipt of the plan, the court shall schedule a progress hearing during the period of treatment and schedule a treatment termination hearing for three months before the expiration of the term of community custody.

(c) Before the progress hearing and treatment termination hearing, the treatment provider and the department shall submit written reports to the court and parties regarding the offender's compliance with treatment and monitoring requirements and recommendations regarding termination from treatment.

(8) At a progress hearing or treatment termination hearing, the court may:

(a) Authorize the department to terminate the offender's community custody status on the expiration date determined under subsection (7) of this section;

(b) Continue the hearing to a date before the expiration date of community custody, with or without modifying the conditions of partial confinement or community custody; or

(c) Impose a term of total confinement equal to one-half the midpoint of the standard sentence range, followed by a term of community custody under RCW 9.94A.701.

(9)(a) The court may bring any offender sentenced under subsection (3)(a) or (b) of this section back into court at any time on its own initiative to evaluate the offender's progress in treatment or to determine if any violations of the conditions of the sentence have occurred.

(b) If the offender is brought back to court, the court may modify the conditions of partial confinement or community

custody or order the offender to serve a term of total confinement within the standard sentence range of the offender's current offense at any time during the period of partial confinement or community custody if the offender violates the conditions or requirements of the sentence or if the offender is failing to make satisfactory progress in treatment.

(c) An offender ordered to serve a term of total confinement under (b) of this subsection shall receive credit for any time previously served in total confinement or residential treatment under this section and shall receive 50 percent credit for any time previously served in partial confinement or community custody under this section.

(10) In serving a term of community custody imposed upon failure to complete, or administrative termination from, the special drug offender sentencing alternative program for driving under the influence under this section, the offender shall receive no credit for time served in community custody prior to termination of the offender's participation in the program.

(11) An offender sentenced under this section shall be subject to all rules relating to earned release time with respect to any period served in total or partial confinement.

(2) "Collect," or any derivative thereof, "collect and remit," or "collect and deliver," when used with reference to the department, means that the department, either directly or through a collection agreement authorized by RCW 9.94A.760, is responsible for monitoring and enforcing the offender's sentence with regard to the legal financial obligation, receiving payment thereof from the offender, and, consistent with current law, delivering daily the entire payment to the superior court clerk without depositing it in a departmental account.

(c) The determination of a defendant's criminal history is distinct from the determination of an offender score. A prior conviction that was not included in an offender score calculated pursuant to a former version of the sentencing reform act remains part of the defendant's criminal history.

(3) If the court imposes a sentence requiring confinement of 30 days or less, the court may, in its discretion, specify that the sentence be served on consecutive or intermittent days. A sentence requiring more than 30 days of confinement shall be served on consecutive days. Local jail administrators may schedule court-ordered intermittent sentences as space permits.

Sec. 6. RCW 9.94A.525 and 2023 c 415 s 2 are each amended to read as follows:

The offender score is measured on the horizontal axis of the sentencing grid. The offender score rules are as follows:

The offender score is the sum of points accrued under this section rounded down to the nearest whole number.

(1)(a) A prior conviction is a conviction which exists before the date of sentencing for the offense for which the offender score is being computed. Convictions entered or sentenced on the same date as the conviction for which the offender score is being computed shall be deemed "other current offenses" within the meaning of RCW 9.94A.589.

(b) For the purposes of this section, adjudications of guilt pursuant to Title 13 RCW which are not murder in the first or second degree or class A felony sex offenses may not be included in the offender score.

(2)(a) Class A and sex prior felony convictions shall always be included in the offender score.

(b) Class B prior felony convictions other than sex offenses shall not be included in the offender score, if since the last date of release from confinement (including full-time residential treatment) pursuant to a felony conviction, if any, or entry of judgment and sentence, the offender had spent ~~((ten))~~ 10 consecutive years in the community without committing any crime that subsequently results in a conviction.

(c) Except as provided in (e) of this subsection, class C prior felony convictions other than sex offenses shall not be included in the offender score if, since the last date of release from confinement (including full-time residential treatment) pursuant to a felony conviction, if any, or entry of judgment and sentence, the offender had spent five consecutive years in the community without committing any crime that subsequently results in a conviction.

(d) Except as provided in (e) of this subsection, serious traffic convictions shall not be included in the offender score if, since the last date of release from confinement (including full-time residential treatment) pursuant to a conviction, if any, or entry of judgment and sentence, the offender spent five years in the community without committing any crime that subsequently results in a conviction.

(e) If the present conviction is felony driving while under the influence of intoxicating liquor or any drug (RCW 46.61.502(6)) or felony physical control of a vehicle while under the influence of intoxicating liquor or any drug (RCW 46.61.504(6)), all predicate crimes for the offense as defined by RCW 46.61.5055(14) shall be included in the offender score, and prior convictions for felony driving while under the influence of intoxicating liquor or any drug (RCW 46.61.502(6)) or felony physical control of a vehicle while under the influence of intoxicating liquor or any drug (RCW 46.61.504(6)) shall always be included in the offender score. All other convictions of the defendant shall be scored according to this section.

(f) Prior convictions for a repetitive domestic violence offense, as defined in RCW 9.94A.030, shall not be included in the offender score if, since the last date of release from confinement or entry of judgment and sentence, the offender had spent ~~((ten))~~ 10 consecutive years in the community without committing any crime that subsequently results in a conviction.

(g) This subsection applies to both prior adult convictions and prior juvenile adjudications.

(3) Out-of-state convictions for offenses shall be classified according to the comparable offense definitions and sentences provided by Washington law. Federal convictions for offenses shall be classified according to the comparable offense definitions and sentences provided by Washington law. Neither out-of-state or federal convictions which would have been presumptively adjudicated in juvenile court under Washington law may be included in the offender score unless they are comparable to murder in the first or second degree or a class A felony sex offense. If there is no clearly comparable offense under Washington law or the offense is one that is usually considered subject to exclusive federal jurisdiction, the offense shall be scored as a class C felony equivalent if it was a felony under the relevant federal statute.

(4) Score prior convictions for felony anticipatory offenses (attempts, criminal solicitations, and criminal conspiracies) the same as if they were convictions for completed offenses.

(5)(a) In the case of multiple prior convictions, for the purpose of computing the offender score, count all convictions separately, except:

(i) Prior offenses which were found, under RCW 9.94A.589(1)(a), to encompass the same criminal conduct, shall be counted as one offense, the offense that yields the highest offender score. The current sentencing court shall determine with respect to other prior adult offenses for which sentences were served concurrently or prior juvenile offenses for which sentences were served consecutively, whether those offenses shall be counted as one offense or as separate offenses using the "same criminal conduct" analysis found in RCW 9.94A.589(1)(a), and if the court finds that they shall be counted as one offense, then the offense that yields the highest offender score shall be used. The current sentencing court may presume that such other prior offenses were not the same criminal conduct from sentences imposed on separate dates, or in separate counties or jurisdictions, or in separate complaints, indictments, or informations;

(ii) In the case of multiple prior convictions for offenses committed before July 1, 1986, for the purpose of computing the offender score, count all convictions or adjudications served

concurrently as one offense. Use the conviction for the offense that yields the highest offender score.

(b) As used in this subsection (5), "served concurrently" means that: (i) The latter sentence was imposed with specific reference to the former; (ii) the concurrent relationship of the sentences was judicially imposed; and (iii) the concurrent timing of the sentences was not the result of a probation or parole revocation on the former offense.

(6) If the present conviction is one of the anticipatory offenses of criminal attempt, solicitation, or conspiracy, count each prior conviction as if the present conviction were for a completed offense. When these convictions are used as criminal history, score them the same as a completed crime.

(7) If the present conviction is for a nonviolent offense and not covered by subsection (11), (12), or (13) of this section, count one point for each adult prior felony conviction and one point for each juvenile prior violent felony conviction which is scorable under subsection (1)(b) of this section.

(8) If the present conviction is for a violent offense and not covered in subsection (9), (10), (11), (12), or (13) of this section, count two points for each prior adult violent felony conviction and juvenile violent felony conviction which is scorable under subsection (1)(b) of this section, and one point for each prior adult nonviolent felony conviction.

(9) If the present conviction is for a serious violent offense, count three points for prior adult convictions and juvenile convictions which are scorable under subsection (1)(b) of this section for crimes in this category, two points for each prior adult and scorable juvenile violent conviction (not already counted), and one point for each prior adult nonviolent felony conviction.

(10) If the present conviction is for Burglary 1, count prior convictions as in subsection (8) of this section; however count two points for each prior Burglary 2 or residential burglary conviction.

(11) If the present conviction is for a felony traffic offense count two points for each prior conviction for Vehicular Homicide or Vehicular Assault; for each felony offense count one point for each adult prior conviction and 1/2 point for each juvenile prior conviction which is scorable under subsection (1)(b) of this section; for each serious traffic offense, other than those used for an enhancement pursuant to RCW 46.61.520(2), count one point for each adult prior conviction and 1/2 point for each juvenile prior conviction which is scorable under subsection (1)(b) of this section; count one point for each adult prior conviction for operation of a vessel while under the influence of intoxicating liquor or any drug; count one point for a deferred prosecution granted under chapter 10.05 RCW for a second or subsequent violation of RCW 46.61.502 or 46.61.504, or an equivalent local ordinance.

(12) If the present conviction is for homicide by watercraft or assault by watercraft count two points for each adult prior conviction for homicide by watercraft or assault by watercraft; for each felony offense count one point for each adult prior conviction and 1/2 point for each juvenile prior conviction which would be scorable under subsection (1)(b) of this section; count one point for each adult prior conviction for driving under the influence of intoxicating liquor or any drug, actual physical control of a motor vehicle while under the influence of intoxicating liquor or any drug, or operation of a vessel while under the influence of intoxicating liquor or any drug.

(13) If the present conviction is for manufacture of methamphetamine count three points for each adult prior manufacture of methamphetamine conviction. If the present conviction is for a drug offense and the offender has a criminal history that includes a sex offense or serious violent offense,

count three points for each adult prior felony drug offense conviction. All other felonies are scored as in subsection (8) of this section if the current drug offense is violent, or as in subsection (7) of this section if the current drug offense is nonviolent.

(14) If the present conviction is for Escape from Community Custody, RCW 72.09.310, count only adult prior escape convictions in the offender score. Count prior escape convictions as one point.

(15) If the present conviction is for Escape 1, RCW 9A.76.110, or Escape 2, RCW 9A.76.120, count adult prior convictions as one point and juvenile prior convictions which are scorable under subsection (1)(b) of this section as 1/2 point.

(16) If the present conviction is for Burglary 2 or residential burglary, count priors as in subsection (7) of this section; however, count two points for each prior Burglary 1 conviction, and two points for each prior Burglary 2 or residential burglary conviction.

(17) If the present conviction is for a sex offense, count priors as in subsections (7) through (11) and (13) through (16) of this section; however, count three points for each adult prior sex offense conviction and juvenile prior class A felony sex offense adjudication.

(18) If the present conviction is for failure to register as a sex offender under RCW 9A.44.130 or 9A.44.132, count priors as in subsections (7) through (11) and (13) through (16) of this section; however, count three points for each adult prior sex offense conviction and juvenile prior sex offense conviction which is scorable under subsection (1)(b) of this section, excluding adult prior convictions for failure to register as a sex offender under RCW 9A.44.130 or 9A.44.132, which shall count as one point.

(19) If the present conviction is for an offense committed while the offender was under community custody, add one point. For purposes of this subsection, community custody includes community placement or postrelease supervision, as defined in chapter 9.94B RCW.

(20) If the present conviction is for Theft of a Motor Vehicle, Possession of a Stolen Vehicle, Taking a Motor Vehicle Without Permission 1, or Taking a Motor Vehicle Without Permission 2, count priors as in subsections (7) through (18) of this section; however count one point for prior convictions of Vehicle Prowling 2, and three points for each adult prior Theft 1 (of a motor vehicle), Theft 2 (of a motor vehicle), Possession of Stolen Property 1 (of a motor vehicle), Possession of Stolen Property 2 (of a motor vehicle), Theft of a Motor Vehicle, Possession of a Stolen Vehicle, Taking a Motor Vehicle Without Permission 1, or Taking a Motor Vehicle Without Permission 2 conviction.

(21) If the present conviction is for a felony domestic violence offense where domestic violence as defined in RCW 9.94A.030 was pleaded and proven, count priors as in subsections (7) through (20) of this section; however, count points as follows:

(a) Count two points for each adult prior conviction where domestic violence as defined in RCW 9.94A.030 was pleaded and proven after August 1, 2011, for any of the following offenses: A felony violation of a no-contact or protection order (RCW 7.105.450 or former RCW 26.50.110), felony Harassment (RCW 9A.46.020(2)(b)), felony Stalking (RCW 9A.46.110(5)(b)), Burglary 1 (RCW 9A.52.020), Kidnapping 1 (RCW 9A.40.020), Kidnapping 2 (RCW 9A.40.030), Unlawful imprisonment (RCW 9A.40.040), Robbery 1 (RCW 9A.56.200), Robbery 2 (RCW 9A.56.210), Assault 1 (RCW 9A.36.011), Assault 2 (RCW 9A.36.021), Assault 3 (RCW 9A.36.031), Arson 1 (RCW 9A.48.020), or Arson 2 (RCW 9A.48.030);

In a jurisdiction without a probation department, the court may appoint an appropriate person or agency to supervise the petitioner. A supervisor appointed under this section shall be required to do at least the following:

(1) If the charge for which deferral is granted relates to operation of a motor vehicle, at least once every ~~((six))~~ three months request ~~((from the department of licensing))~~ an abstract of the petitioner's driving record; ~~((and))~~

(1) Upon receipt of an abstract indicating a deferred prosecution has been granted under RCW 10.05.060, or upon receipt of a notice of conviction of RCW 46.61.502 or 46.61.504, the department of licensing shall issue notice that 45 days after receipt, the person must apply for a probationary license, and order the person to surrender any nonprobationary Washington state driver's license that may be in his or her possession. ~~((The department shall revoke the license, permit, or privilege to drive of any person who fails to surrender it as required by this section for one year, unless the license has been previously surrendered to the department, a law enforcement officer, or a court, or the person has completed an affidavit of lost, stolen, destroyed, or previously surrendered license, such revocation to take effect thirty days after notice is given of the requirement for license surrender.))~~

(2) The department shall place a person's driving privilege in probationary status as required by RCW 10.05.060 or 46.61.5055 for a period of five years from the date the probationary status is required to go into effect.

(3) Following receipt of an abstract indicating a deferred prosecution has been granted under RCW 10.05.060, or upon reinstatement or reissuance of a driver's license suspended or revoked as the result of a conviction of RCW 46.61.502 or 46.61.504, the department shall require the person to obtain a probationary license in order to operate a motor vehicle in the state of Washington, except as otherwise exempt under RCW 46.20.025. The department shall not issue the probationary license unless the person is otherwise qualified for licensing, and the person must renew the probationary license on the same cycle as the person's regular license would have been renewed until the expiration of the five-year probationary status period imposed under subsection (2) of this section.

(4) If a person is eligible for full credit under RCW 46.61.5055(9)(b)(ii) and, by the date specified in the notice issued under RCW 46.20.245, has completed the requirements under RCW 46.20.311 and paid the fee under subsection (5) of this section, the department shall issue a probationary license on the date specified in the notice with no further action required of the person.

(5) For each original issue or renewal of a probationary license under this section, the department shall charge a fee of ~~((fifty dollars))~~ **\$50** in addition to any other licensing fees required. Except for when renewing a probationary license, the department shall waive the requirement to obtain an additional probationary license and the ~~((fifty dollar))~~ **\$50** fee if the person has a probationary license in his or her possession at the time a new probationary license is required.

(6) A probationary license shall enable the department and law enforcement personnel to determine that the person is on probationary status. The fact that a person's driving privilege is in probationary status or that the person has been issued a probationary license shall not be a part of the person's record that is available to insurance companies.

Sec. 27. RCW 46.20.385 and 2020 c 330 s 9 are each amended to read as follows:

(1)(a) Any person licensed under this chapter or who has a valid driver's license from another state, who is convicted of: (i) A violation of RCW 46.61.502 or 46.61.504 or an equivalent local

or out-of-state statute or ordinance, or (ii) a violation of RCW 46.61.520(1)(a) or an equivalent local or out-of-state statute or ordinance, or (iii) a conviction for a violation of RCW 46.61.520(1) (b) or (c) if the conviction is the result of a charge that was originally filed as a violation of RCW 46.61.520(1)(a), or (iv) RCW 46.61.522(1)(b) or an equivalent local or out-of-state statute or ordinance, or (v) RCW 46.61.522(1) (a) or (c) if the conviction is the result of a charge that was originally filed as a violation of RCW 46.61.522(1)(b) committed while under the influence of intoxicating liquor or any drug, or (vi) who has had or will have his or her license suspended, revoked, or denied under RCW 46.20.3101, or has had his or her license suspended, revoked, or denied under RCW 46.61.5055(11)(c)(i), or who is otherwise permitted under subsection (8) of this section, may submit to the department an application for an ignition interlock driver's license. The department, upon receipt of the prescribed fee and upon determining that the petitioner is eligible to receive the license, may issue an ignition interlock driver's license.

(b) A person may apply for an ignition interlock driver's license anytime, including immediately after receiving the notices under RCW 46.20.308 or after his or her license is suspended, revoked, or denied.

(c) An applicant under this subsection shall provide proof to the satisfaction of the department that a functioning ignition interlock device has been installed on all vehicles operated by the person.

(i) The department shall require the person to maintain the device on all vehicles operated by the person and shall restrict the person to operating only vehicles equipped with the device, for the remainder of the period of suspension, revocation, or denial, unless otherwise permitted under RCW 46.20.720(6).

(ii) Subject to any periodic renewal requirements established by the department under this section and subject to any applicable compliance requirements under this chapter or other law, an ignition interlock driver's license granted upon a suspension or revocation under RCW 46.61.5055 or 46.20.3101 extends through the remaining portion of any concurrent or consecutive suspension or revocation that may be imposed as the result of administrative action and criminal conviction arising out of the same incident.

(2) An applicant for an ignition interlock driver's license who qualifies under subsection (1) of this section is eligible to receive a license only if the applicant files satisfactory proof of financial responsibility under chapter 46.29 RCW.

(3) Upon receipt of evidence that a holder of an ignition interlock driver's license granted under this subsection no longer has a functioning ignition interlock device installed on all vehicles operated by the driver, the director shall give written notice by first-class mail to the driver that the ignition interlock driver's license shall be canceled. If at any time before the cancellation goes into effect the driver submits evidence that a functioning ignition interlock device has been installed on all vehicles operated by the driver, the cancellation shall be stayed. If the cancellation becomes effective, the driver may obtain, at no additional charge, a new ignition interlock driver's license upon submittal of evidence that a functioning ignition interlock device has been installed on all vehicles operated by the driver.

(4) A person aggrieved by the decision of the department on the application for an ignition interlock driver's license may request a hearing as provided by rule of the department.

(5) The director shall cancel an ignition interlock driver's license after receiving notice that the holder thereof has been convicted of operating a motor vehicle in violation of its restrictions, no longer meets the eligibility requirements, or has been convicted of or found to have committed a separate offense

or any other act or omission that under this chapter would warrant suspension or revocation of a regular driver's license. The department must give notice of the cancellation as provided under RCW 46.20.245. A person whose ignition interlock driver's license has been canceled under this section may reapply for a new ignition interlock driver's license if he or she is otherwise qualified under this section and pays the fee required under RCW 46.20.380.

(6)(a) Unless costs are waived by the ignition interlock company or the person is indigent under RCW 10.101.010, the applicant shall pay the cost of installing, removing, and leasing the ignition interlock device and shall pay an additional fee of twenty-one dollars per month. Payments shall be made directly to the ignition interlock company. The company shall remit the additional fee to the department, except that the company may retain ~~((twenty-five))~~ 25 cents per month of the additional fee to cover the expenses associated with administering the fee.

(b) The department shall deposit the proceeds of the twenty-one dollar fee into the ignition interlock device revolving account. Expenditures from the account may be used only to administer and operate the ignition interlock device revolving account program. The department shall adopt rules to provide monetary assistance according to greatest need and when funds are available.

(7) The department shall adopt rules to implement ignition interlock licensing. The department shall consult with the administrative office of the courts, the state patrol, the Washington association of sheriffs and police chiefs, ignition interlock companies, and any other organization or entity the department deems appropriate.

(8)(a) Any person licensed under this chapter who is convicted of a violation of RCW 46.61.500 when the charge was originally filed as a violation of RCW 46.61.502 or 46.61.504, or an equivalent local ordinance, may submit to the department an application for an ignition interlock driver's license under this section.

(b) A person who does not have any driver's license under this chapter, but who would otherwise be eligible under this section to apply for an ignition interlock license, may submit to the department an application for an ignition interlock license. The department may require the person to take any driver's licensing examination under this chapter and may require the person to also apply and qualify for a temporary restricted driver's license under RCW 46.20.391.

Sec. 28. RCW 46.20.720 and 2020 c 330 s 10 are each amended to read as follows:

(1) **Ignition interlock restriction.** The department shall require that a person may drive only a motor vehicle equipped with a functioning ignition interlock device:

(a) **Pretrial release.** Upon receipt of notice from a court that an ignition interlock device restriction has been imposed under RCW 10.21.055;

(b) **Ignition interlock driver's license.** As required for issuance of an ignition interlock driver's license under RCW 46.20.385;

(c) **Deferred prosecution.** Upon receipt of notice from a court that the person is participating in a deferred prosecution program under RCW 10.05.020 for a violation of:

(i) RCW 46.61.502 or 46.61.504 or an equivalent local ordinance; or

(ii) RCW 46.61.5249 or 46.61.500 or an equivalent local ordinance if the person would be required under RCW 46.61.5249(4) or 46.61.500(3) (a) or (b) to install an ignition interlock device on all vehicles operated by the person in the event of a conviction;

(d) **Post conviction.** After any applicable period of mandatory suspension, revocation, or denial of driving privileges, or upon fulfillment of day-for-day credit under RCW 46.61.5055(9)(b)(ii) for a suspension, revocation, or denial of driving privileges:

(i) Due to a conviction of a violation of RCW 46.61.502 or 46.61.504 or an equivalent local or out-of-state statute or ordinance; or

(ii) Due to a conviction of a violation of RCW 46.61.5249 or 46.61.500 or an equivalent local ordinance if the person is required under RCW 46.61.5249(4) or 46.61.500(3) (a) or (b) to install an ignition interlock device on all vehicles operated by the person; or

(e) **Court order.** Upon receipt of an order by a court having jurisdiction that a person charged or convicted of any offense involving the use, consumption, or possession of alcohol while operating a motor vehicle may drive only a motor vehicle equipped with a functioning ignition interlock. The court shall establish a specific alcohol set point at which the ignition interlock will prevent the vehicle from being started. The court shall also establish the period of time for which ignition interlock use will be required.

(2) **Alcohol set point.** Unless otherwise specified by the court for a restriction imposed under subsection (1)(e) of this section, the ignition interlock device shall have an alcohol set point that prevents the motor vehicle from being started when the breath sample provided has an alcohol concentration of 0.020 or more.

(3) **Duration of restriction.** A restriction imposed under:

(a) Subsection (1)(a) of this section shall remain in effect until:

(i) The court has authorized the removal of the device under RCW 10.21.055; or

(ii) The department has imposed a restriction under subsection (1)(b), (c), or (d) of this section arising out of the same incident.

(b) Subsection (1)(b) of this section remains in effect during the validity of any ignition interlock driver's license that has been issued to the person.

(c) Subsection (1)(c)(i) or (d)(i) of this section shall be for no less than:

(i) For a person who has not previously been restricted under this subsection, a period of one year;

(ii) For a person who has previously been restricted under (c)(i) of this subsection, a period of five years;

(iii) For a person who has previously been restricted under (c)(ii) of this subsection, a period of ~~((ten))~~ 10 years.

The restriction of a person who is convicted of a violation of RCW 46.61.502 or 46.61.504 or an equivalent local ordinance and who committed the offense while one or more passengers under the age of ~~((sixteen))~~ 16 were in the vehicle shall be extended for an additional period as required by RCW 46.61.5055(6)(a).

For purposes of determining a period of restriction for a person restricted pursuant to a conviction under (d) of this subsection, a restriction based on a deferred prosecution under subsection (1)(c) of this section arising out of the same incident is not considered a prior restriction for purposes of this subsection.

(d) Subsection (1)(c)(ii) or (d)(ii) of this section shall be for a period of no less than six months.

(e) The period of restriction under (c) or (d) of this subsection shall be extended by ~~((one hundred eighty))~~ 180 days whenever the department receives notice that the restricted person has been convicted under RCW 46.20.740 or 46.20.750. If the period of restriction under (c) or (d) of this subsection has been fulfilled and cannot be extended, the department must add a new ~~((one hundred eighty-day))~~ 180-day restriction that is imposed from the date of conviction and is subject to the requirements for removal under subsection (4) of this section.

FIFTY THIRD DAY, FEBRUARY 29, 2024

(f) Subsection (1)(e) of this section shall remain in effect for the period of time specified by the court.

(g) The period of restriction under (c) and (d) of this subsection based on incidents occurring on or after June 9, 2016, must be tolled for any period in which the person does not have an ignition interlock device installed on a vehicle owned or operated by the person unless the person receives a determination from the department that the person is unable to operate an ignition interlock device due to a physical disability. For all drivers restricted under this section with incidents and restriction start dates prior to June 9, 2016, a driver may apply to waive the restriction by applying for a determination from the department that the person is unable to operate an ignition interlock device due to a physical disability. The department's determination that a person is unable to operate an ignition interlock device must be reasonable and be based upon good and substantial evidence. This determination is subject to review by a court of competent jurisdiction. The department may charge a person seeking a medical exemption under this subsection a reasonable fee for the assessment.

(4) Requirements for removal. A restriction imposed under subsection (1)(c) or (d) of this section shall remain in effect until the department receives a declaration from the person's ignition interlock device vendor, in a form provided or approved by the department, certifying the following:

(a) That there have been none of the following incidents in the ~~((one hundred eighty))~~ 180 consecutive days prior to the date of release:

(i) Any attempt to start the vehicle with a breath alcohol concentration of 0.04 or more unless a subsequent test performed within ~~((ten))~~ 10 minutes registers a breath alcohol concentration lower than 0.04 and the digital image confirms the same person provided both samples;

(ii) Failure to take any random test unless a review of the digital image confirms that the vehicle was not occupied by the driver at the time of the missed test;

(iii) Failure to pass any random retest with a breath alcohol concentration of lower than 0.020 unless a subsequent test performed within ~~((ten))~~ 10 minutes registers a breath alcohol concentration lower than 0.020, and the digital image confirms the same person provided both samples;

(iv) Failure of the person to appear at the ignition interlock device vendor when required for maintenance, repair, calibration, monitoring, inspection, or replacement of the device; or

(v) Removal of the ignition interlock device by a person other than an ignition interlock technician certified by the Washington state patrol; and

(b) That the ignition interlock device was inspected at the conclusion of the ~~((one hundred eighty day))~~ 180-day period by an ignition interlock technician certified by the Washington state patrol and no evidence was found that the device was tampered with in the manner described in RCW 46.20.750.

(5) Day-for-day credit. (a) The time period during which a person has an ignition interlock device installed in order to meet the requirements of subsection (1)(b) of this section shall apply on a day-for-day basis toward satisfying the period of time the ignition interlock device restriction is imposed under subsection (1)(c) or (d) of this section arising out of the same incident.

(b) The department must also give the person a day-for-day credit for any time period, beginning from the date of the incident, during which the person kept an ignition interlock device installed on all vehicles the person operates, other than those subject to the employer exemption under subsection (6) of this section.

(c) If the day-for-day credit granted under this subsection equals or exceeds the period of time the ignition interlock device

restriction is imposed under subsection (1)(c) or (d) of this section arising out of the same incident, and the person has already met the requirements for removal of the device under subsection (4) of this section, the department may waive the requirement that a device be installed or that the person again meet the requirements for removal.

(6) Employer exemption. (a) Except as provided in (b) of this subsection, the installation of an ignition interlock device is not necessary on vehicles owned, leased, or rented by a person's employer and on those vehicles whose care and/or maintenance is the temporary responsibility of the employer, and driven at the direction of a person's employer as a requirement of employment during working hours. The person must provide the department with a declaration pursuant to chapter 5.50 RCW from his or her employer stating that the person's employment requires the person to operate a vehicle owned by the employer or other persons during working hours. When the department receives a declaration under this subsection, it shall attach or imprint a notation on the person's driving record stating that the employer exemption applies.

(b) The employer exemption does not apply when the employer's vehicle is assigned exclusively to the restricted driver and used solely for commuting to and from employment.

(c) The employer exemption does not apply to a person who is self-employed unless the person's vehicle is used exclusively for the person's employment.

(7) Ignition interlock device revolving account. In addition to any other costs associated with the use of an ignition interlock device imposed on the person restricted under this section, the person shall pay an additional fee of ~~((twenty one dollars))~~ \$21 per month. Payments must be made directly to the ignition interlock company. The company shall remit the additional fee to the department to be deposited into the ignition interlock device revolving account, except that the company may retain ~~((twenty five))~~ 25 cents per month of the additional fee to cover the expenses associated with administering the fee. The department may waive the monthly fee if the person is indigent under RCW 10.101.010.

(8) Foreign jurisdiction. For a person restricted under this section who is residing outside of the state of Washington, the department may accept verification of installation of an ignition interlock device by an ignition interlock company authorized to do business in the jurisdiction in which the person resides, provided the device meets any applicable requirements of that jurisdiction. The department may waive one or more requirements for removal under subsection (4) of this section if compliance with the requirement or requirements would be impractical in the case of a person residing in another jurisdiction, provided the person is in compliance with any equivalent requirement of that jurisdiction. The department may waive the monthly fee required by subsection (7) of this section if collection of the fee would be impractical in the case of a person residing in another jurisdiction.

Sec. 29. RCW 46.20.740 and 2020 c 330 s 11 are each amended to read as follows:

(1) The department shall attach or imprint a notation on the driving record of any person restricted under RCW 46.20.720, 46.61.5055, or 10.05.140 stating that the person may operate only a motor vehicle equipped with a functioning ignition interlock device. The department shall determine the person's eligibility for licensing based upon written verification by a company doing business in the state that it has installed the required device on a vehicle owned or operated by the person seeking reinstatement. If, based upon notification from the interlock provider or otherwise, the department determines that an ignition interlock

required under this section is no longer installed or functioning as required, the department shall suspend the person's license or privilege to drive. Whenever the license or driving privilege of any person is suspended or revoked as a result of noncompliance with an ignition interlock requirement, the suspension shall remain in effect until the person provides notice issued by a company doing business in the state that a vehicle owned or operated by the person is equipped with a functioning ignition interlock device.

(2) It is a gross misdemeanor for a person with such a notation on his or her driving record to operate a motor vehicle that is not so equipped, unless the notation resulted from a restriction imposed as a condition of release and the restriction has been released by the court prior to driving. Any time a person is convicted under this section, the court shall immediately notify the department for purposes of RCW 46.20.720(3)(e).
