(4) In addition, the director of financial management, as agent of the governor, shall:

No payments shall be made in advance for any equipment maintenance services to be performed more than twelve months after such payment except that institutions of higher education as defined in RCW 28B.10.016 may make payments in advance for equipment maintenance services to be performed up to sixty months after such payment. Any such bond so furnished shall be conditioned that the person, firm or corporation receiving the advance payment will apply it toward performance of the contract. The responsibility for recovery of erroneous or improper payments made under this section shall lie with the agency head or the agency head's designee in accordance with rules issued pursuant to this chapter. Nothing in this section shall be construed to permit a public body to advance funds to a private service provider pursuant to a grant or loan before services have been rendered or material furnished.

(6) The state auditor shall:

The state auditor is authorized to perform or participate in performance verifications and performance audits as expressly authorized by the legislature in the omnibus biennial appropriations acts or in the performance audit work plan approved by the joint legislative audit and review committee. The state auditor, upon completing an audit for legal and financial compliance under chapter 43.09 RCW or a performance verification, may report to the joint legislative audit and review committee or other appropriate committees of the legislature, in a manner prescribed by the joint legislative audit and review committee, on facts relating to the management or performance of governmental programs where such facts are discovered incidental to the legal and financial audit or performance verification. The auditor may make such a report to a legislative committee only if the auditor has determined that the agency has been given an opportunity and has failed to resolve the management or performance issues raised by the auditor. If the auditor makes a report to a legislative committee, the agency may submit to the committee a response to the report. This subsection (6) shall not be construed to authorize the auditor to allocate other than de minimis resources to performance audits except as expressly authorized in the appropriations acts or in the performance audit work plan. The results of a performance audit conducted by the state auditor that has been requested by the joint legislative audit and review committee must only be transmitted to the joint legislative audit and review committee.

(d) Be empowered to take exception to specific expenditures that have been incurred by any agency or to take exception to other practices related in any way to the agency's financial transactions and to cause such exceptions to be made a matter of public record, including disclosure to the agency concerned and to the director of financial management. It shall be the duty of the director of financial management to cause corrective action to be taken within six months, such action to include, as appropriate, the withholding of funds as provided in RCW 43.88.110. The director of financial management shall annually report by December 31st the status of audit resolution to the appropriate committees of the legislature, the state auditor, and the attorney general. In addition to the authority given to the state auditor in this subsection (6), the state auditor is authorized to conduct performance audits identified in RCW 43.09.470. Nothing in this subsection (6) shall limit, impede, or restrict the state auditor from conducting performance audits identified in RCW 43.09.470.

(7) The joint legislative audit and review committee may:

(a) Make post audits of the financial transactions of any agency and management surveys and program reviews as provided for in chapter 44.28 RCW as well as performance audits and program evaluations. To this end the joint committee may in its discretion examine the books, accounts, and other records of any agency, official, or employee.

(b) Give information to the legislature or any legislative committee whenever required upon any subject relating to the performance and management of state agencies.

(c) Make a report to the legislature which shall include at least the following:

employees in the bargaining unit and shall represent all such employees fairly.

(2) A ferry employee organization or organizations and the governor may each designate any individual as its representative to engage in collective bargaining negotiations.

(6)(a) Within ten working days after the first Monday in September of every odd-numbered year, the parties shall attempt to agree on an interest arbitrator to be used if the parties are not successful in negotiating a comprehensive collective bargaining agreement. If the parties cannot agree on an arbitrator within the ten-day period, either party may request a list of seven arbitrators from the federal mediation and conciliation service. The parties shall select an interest arbitrator using the coin toss/alternate strike method within thirty calendar days of receipt of the list. Immediately upon selecting an interest arbitrator, the parties shall cooperate to reserve dates with the arbitrator for potential arbitration between August 1st and September 15th of the following even-numbered year. The parties shall also prepare a schedule of at least five negotiation dates for the following year, absent an agreement to the contrary. The parties shall execute a written agreement before November 1st of each odd-numbered year setting forth the name of the arbitrator and the dates reserved for bargaining and arbitration. This subsection (6)(a) imposes minimum obligations only and is not intended to define or limit a party's full, good faith bargaining obligation under other sections of this chapter.

(b) The negotiation of a proposed collective bargaining agreement by representatives of the employer and a ferry employee organization shall commence on or about February 1st of every even-numbered year.

(c) For negotiations covering the 2009-2011 biennium and subsequent biennia, the time periods specified in this section, and in RCW 47.64.210 and 47.64.300 through 47.64.320, must ensure conclusion of all agreements on or before October 1st of the even-numbered year next preceding the biennial budget period during which the agreement should take effect. These time periods may only be altered by mutual agreement of the parties in writing. Any such agreement and any impasse procedures agreed to by the parties under RCW 47.64.200 must include an agreement regarding the new time periods that will allow final resolution by negotiations or arbitration by October 1st of each even-numbered year.

(7) It is the intent of this section that the collective bargaining agreement or arbitrator's award shall commence on July 1st of each odd-numbered year and shall terminate on June 30th of the next odd-numbered year to coincide with the ensuing biennial budget year, as defined by RCW 43.88.020(7), to the extent practical. It is further the intent of this section that all collective bargaining agreements be concluded by October 1st of the even-numbered year before the commencement of the biennial budget year during which the agreements are to be in effect. The legislature shall not consider a request for funds to implement a collective bargaining agreement or arbitration award unless the request is transmitted to the legislature as part of the governor's budget document submitted under RCW 43.88.030 and 43.88.060. If the legislature rejects or fails to act on the submission, either party may reopen all or part of the agreement and award or the exclusive bargaining representative may seek to implement the procedures provided for in RCW 47.64.210 and 47.64.300.

(10) If, after the compensation and fringe benefit provisions of an agreement are approved by the legislature, a significant revenue shortfall occurs resulting in reduced appropriations, as declared by proclamation of the governor or by resolution of the legislature, both parties shall immediately enter into collective bargaining for a mutually agreed upon modification of the agreement.

(11)(a) For the collective bargaining agreements negotiated for the 2011-2013 fiscal biennium, the legislature may consider a request for funds to implement a collective bargaining agreement even if the request for funds was not received by the office of financial management by October 1st and was not transmitted to the legislature as part of the governor's budget document submitted under RCW 43.88.030 and 43.88.060.

(c) For the collective bargaining agreements negotiated for the 2013-2015 fiscal biennium, the legislature may consider a request for funds to implement a collective bargaining agreement reached after October 1st after a determination of financial infeasibility by the director of the office of financial management if the request for funds is transmitted to the legislature as part of the governor's budget document submitted under RCW 43.88.030 and 43.88.060.

Under this subsection, "sick leave" also includes leave accrued pursuant to RCW 28A.400.300((2))(1)(b) or 28A.310.240(1) with compensation for illness, injury, and emergencies.

(5) Transfers of leave made by an agency head under subsections (3) and (4) of this section shall not exceed the requested amount.

(6) Leave transferred under this section may be transferred from employees of one agency to an employee of the same agency or, with the approval of the heads of both agencies, to an employee of another state agency.

(7) While an employee is on leave transferred under this section, he or she shall continue to be classified as a state employee and shall receive the same treatment in respect to salary, wages, and employee benefits as the employee would normally receive if using accrued annual leave or sick leave.

(a) All salary and wage payments made to employees while on leave transferred under this section shall be made by the agency employing the person receiving the leave. The value of leave transferred shall be based upon the leave value of the person receiving the leave.

(b) In the case of leave transferred by an employee of one agency to an employee of another agency, the agencies involved shall arrange for the transfer of funds and credit for the appropriate value of leave.

(i) Pursuant to rules adopted by the office of financial management, funds shall not be transferred under this section if the transfer would violate any constitutional or statutory restrictions on the funds being transferred.

(ii) The office of financial management may adjust the appropriation authority of an agency receiving funds under this

section only if and to the extent that the agency's existing appropriation authority would prevent it from expending the funds received.

(iii) Where any questions arise in the transfer of funds or the adjustment of appropriation authority, the director of financial management shall determine the appropriate transfer or adjustment.

(8) Leave transferred under this section shall not be used in any calculation to determine an agency's allocation of full time equivalent staff positions.

(9) The value of any leave transferred under this section which remains unused shall be returned at its original value to the employee or employees who transferred the leave when the agency head finds that the leave is no longer needed or will not be needed at a future time in connection with the illness or injury for which the leave was transferred or for any other qualifying condition. Before the agency head makes a determination to return unused leave in connection with an illness or injury, or any other qualifying condition, he or she must receive from the affected employee a statement from the employee's doctor verifying that the illness or injury is resolved. To the extent administratively feasible, the value of unused leave which was transferred by more than one employee shall be returned on a pro rata basis.

(10) An employee who uses leave that is transferred to him or her under this section may not be required to repay the value of the leave that he or she used.

(11) The (~~human resources~~) director of financial management may adopt rules as necessary to implement subsection (2) of this section.

Sec. 206. RCW 41.04.680 and 2011 1st sp.s. c 43 s 437 are each amended to read as follows:

The office of financial management and other personnel authorities shall adopt rules or policies governing the accumulation and use of sick leave for state agency and department employees, expressly for the establishment of a plan allowing participating employees to pool sick leave and allowing any sick leave thus pooled to be used by any participating employee who has used all of the sick leave, annual leave, and compensatory leave that has been personally accrued by him or her. Each department or agency of the state may allow employees to participate in a sick leave pool established by the office of financial management and other personnel authorities.

(1) For purposes of calculating maximum sick leave that may be donated or received by any one employee, pooled sick leave:

(a) Is counted and converted in the same manner as sick leave under the Washington state leave sharing program as provided in this chapter; and

(b) Does not create a right to sick leave in addition to the amount that may be donated or received under the Washington state leave sharing program as provided in this chapter.

(2) The office of financial management and other personnel authorities, except the personnel authorities for higher education institutions, shall adopt rules which provide:

(a) That employees are eligible to participate in the sick leave pool after one year of employment with the state or agency of the state if the employee has accrued a minimum amount of unused sick leave, to be established by rule;

(b) That participation in the sick leave pool shall, at all times, be voluntary on the part of the employees;

(c) That any sick leave pooled shall be removed from the personally accumulated sick leave balance of the employee contributing the leave;

(d) That any sick leave in the pool that is used by a participating employee may be used only for the employee's personal illness, accident, or injury;

(e) That a participating employee is not eligible to use sick leave accumulated in the pool until all of his or her personally accrued sick, annual, and compensatory leave has been used;

(f) A maximum number of days of sick leave in the pool that any one employee may use;

(g) That a participating employee who uses sick leave from the pool is not required to recontribute such sick leave to the pool, except as otherwise provided in this section;

(h) That an employee who cancels his or her membership in the sick leave pool is not eligible to withdraw the days of sick leave contributed by that employee to the pool;

(i) That an employee who transfers from one position in state government to another position in state government may transfer from one pool to another if the eligibility criteria of the pools are comparable and the administrators of the pools have agreed on a formula for transfer of credits;

(j) That alleged abuse of the use of the sick leave pool shall be investigated, and, on a finding of wrongdoing, the employee shall repay all of the sick leave credits drawn from the sick leave pool and shall be subject to such other disciplinary action as is determined by the agency head;

(k) That sick leave credits may be drawn from the sick leave pool by a part-time employee on a pro rata basis; and

(l) That each department or agency shall maintain accurate and reliable records showing the amount of sick leave which has been accumulated and is unused by employees, in accordance with guidelines established by the ~~((department of personnel))~~ office of financial management.

(3) Personnel authorities for higher education institutions shall adopt policies consistent with the needs of the employees under their respective jurisdictions.

(1) When the commissioner determines that other market conduct actions identified in RCW 48.37.040(4)(a) have not sufficiently addressed issues raised concerning company activities in Washington state, the commissioner has the discretion to conduct market conduct examinations in accordance with the NAIC market conduct uniform examination procedures and the NAIC market regulation handbook.

(2)(a) In lieu of an examination of an insurer licensed in this state, the commissioner shall accept an examination report of another state, unless the commissioner determines that the other state does not have laws substantially similar to those of this state, or does not have a market oversight system that is comparable to the market conduct oversight system set forth in this law.

(b) The commissioner's determination under (a) of this subsection is discretionary with the commissioner and is not subject to appeal.

(c) If the insurer to be examined is part of an insurance holding company system, the commissioner may also seek to simultaneously examine any affiliates of the insurer under common control and management which are licensed to write the same lines of business in this state.

(3) Before commencement of a market conduct examination, market conduct oversight personnel shall prepare a work plan consisting of the following:

- (a) The name and address of the insurer being examined;

(i) A budget for the examination if the cost of the examination is billed to the insurer; and

(j) An identification of factors that will be included in the billing if the cost of the examination is billed to the insurer.

(4)(a) Within ten days of the receipt of the information contained in subsection (3) of this section, insurers may request the commissioner's discretionary review of any alleged conflict of interest, pursuant to RCW 48.37.090(2), of market conduct oversight personnel and noninsurance department personnel assigned to a market conduct examination. The request for review shall specifically describe the alleged conflict of interest in the proposed assignment of any person to the examination.

(b) Within five business days of receiving a request for discretionary review of any alleged conflict of interest in the proposed assignment of any person to a market conduct examination, the commissioner or designee shall notify the insurer of any action regarding the assignment of personnel to a market conduct examination based on the insurer's allegation of conflict of interest.

(5) Market conduct examinations shall, to the extent feasible, use desk examinations and data requests before an on-site examination.

(6) Market conduct examinations shall be conducted in accordance with the provisions set forth in the NAIC market regulation handbook and the NAIC market conduct uniform examinations procedures, subject to the precedence of the provisions of chapter 82, Laws of 2007.

(7) The commissioner shall use the NAIC standard data request.

(8) Announcement of the examination shall be sent to the insurer and posted on the NAIC's examination tracking system as soon as possible but in no case later than sixty days before the estimated commencement of the examination, except where the examination is conducted in response to extraordinary circumstances as described in RCW 48.37.050(2)(a). The announcement sent to the insurer shall contain the examination work plan and a request for the insurer to name its examination coordinator.

(9) If an examination is expanded significantly beyond the original reasons provided to the insurer in the notice of the examination required by subsection (3) of this section, the commissioner shall provide written notice to the insurer, explaining the expansion and reasons for the expansion. The commissioner shall provide a revised work plan if the expansion results in significant changes to the items presented in the original work plan required by subsection (3) of this section.

(10) The commissioner shall conduct a preexamination conference with the insurer examination coordinator and key personnel to clarify expectations at least thirty days before commencement of the examination, unless otherwise agreed by the insurer and the commissioner.

(11) Before the conclusion of the field work for market conduct examination, the examiner-in-charge shall review examination findings to date with insurer personnel and schedule an exit conference with the insurer, in accordance with procedures in the NAIC market regulation handbook.

(12)(a) No later than sixty days after completion of each market conduct examination, the commissioner shall make a full written report of each market conduct examination containing only facts ascertained from the accounts, records, and documents examined and from the sworn testimony of individuals, and such conclusions and recommendations as may reasonably be warranted from such facts.

(b) The report shall be certified by the commissioner or by the examiner-in-charge of the examination, and shall be filed in the commissioner's office subject to (c) of this subsection.

(c) The commissioner shall furnish a copy of the market conduct examination report to the person examined not less than ten days and, unless the time is extended by the commissioner, not more than thirty days prior to the filing of the report for public inspection in the commissioner's office. If the person so requests in writing within such period, the commissioner shall hold a hearing to consider objections of such person to the report as proposed, and shall not so file the report until after such hearing and until after any modifications in the report deemed necessary by the commissioner have been made.

(d) Within thirty days of the end of the period described in (c) of this subsection, unless extended by order of the commissioner, the commissioner shall consider the report, together with any written submissions or rebuttals and any relevant portions of the examiner's work papers and enter an order:

(i) Adopting the market conduct examination report as filed or with modification or corrections. If the market conduct examination report reveals that the company is operating in violation of any law, rule, or order of the commissioner, the commissioner may order the company to take any action the commissioner considers necessary and appropriate to cure that violation;

(ii) Rejecting the market conduct examination report with directions to the examiners to reopen the examination for purposes of obtaining additional data, documentation, or information, and refiling under this subsection; or

(iii) Calling for an investigatory hearing with no less than twenty days' notice to the company for purposes of obtaining additional documentation, data, information, and testimony.

(e) All orders entered under (d) of this subsection must be accompanied by findings and conclusions resulting from the commissioner's consideration and review of the market conduct examination report, relevant examiner work papers, and any written submissions or rebuttals. The order is considered a final administrative decision and may be appealed under the administrative procedure act, chapter 34.05 RCW, and must be served upon the company by certified mail or certifiable electronic means, together with a copy of the adopted examination report. A copy of the adopted examination report must be sent by certified mail or certifiable electronic means to each director at the director's residential address or to a personal e-mail account.

(f)(i) Upon the adoption of the market conduct examination report under (d) of this subsection, the commissioner shall continue to hold the content of the examination report as private and confidential information for a period of five days except that the order may be disclosed to the person examined. Thereafter, the commissioner may open the report for public inspection so long as no court of competent jurisdiction has stayed its publication.

(ii) If the commissioner determines that regulatory action is appropriate as a result of any market conduct examination, he or she may initiate any proceedings or actions as provided by law.

(iii) Nothing contained in this subsection requires the commissioner to disclose any information or records that would indicate or show the existence or content of any investigation or activity of a criminal justice agency.

(g) The insurer's response shall be included in the commissioner's order adopting the final report as an exhibit to the order. The insurer is not obligated to submit a response.

(13) The commissioner may withhold from public inspection any examination or investigation report for so long as he or she deems it advisable.

(14)(a) Market conduct examinations within this state of any insurer domiciled or having its home offices in this state, other than a title insurer, made by the commissioner or the commissioner's

examiners and employees shall, except as to fees, mileage, and expense incurred as to witnesses, be at the expense of the state.

(b) Every other examination, whatsoever, or any part of the market conduct examination of any person domiciled or having its home offices in this state requiring travel and services outside this state, shall be made by the commissioner or by examiners designated by the commissioner and shall be at the expense of the person examined; but a domestic insurer shall not be liable for the compensation of examiners employed by the commissioner for such services outside this state.

(c) When making a market conduct examination under this chapter, the commissioner may contract, in accordance with applicable state contracting procedures, for qualified attorneys, appraisers, independent certified public accountants, contract actuaries, and other similar individuals who are independently practicing their professions, even though those persons may from time to time be similarly employed or retained by persons subject to examination under this chapter, as examiners as the commissioner deems necessary for the efficient conduct of a particular examination. The compensation and per diem allowances paid to such contract persons shall be reasonable in the market and time incurred, shall not exceed one hundred twenty-five percent of the compensation and per diem allowances for examiners set forth in the guidelines adopted by the national association of insurance commissioners, unless the commissioner demonstrates that one hundred twenty-five percent is inadequate under the circumstances of the examination, and subject to the provisions of (a) of this subsection.

(d)(i) The person examined and liable shall reimburse the state upon presentation of an itemized statement thereof, for the actual travel expenses of the commissioner's examiners, their reasonable living expenses allowance, and their per diem compensation, including salary and the employer's cost of employee benefits, at a reasonable rate approved by the commissioner, incurred on account of the examination. Per diem, salary, and expenses for employees examining insurers domiciled outside the state of Washington shall be established by the commissioner on the basis of the national association of insurance commissioner's recommended salary and expense schedule for zone examiners, or the salary schedule ~~((established by the human resources director))~~ and the expense schedule established by the office of financial management, whichever is higher. A domestic title insurer shall pay the examination expense and costs to the commissioner as itemized and billed by the commissioner.

(ii) The commissioner or the commissioner's examiners shall not receive or accept any additional emolument on account of any examination.

(iii) Market conduct examination fees subject to being reimbursed by an insurer shall be itemized and bills shall be provided to the insurer on a monthly basis for review prior to submission for payment, or as otherwise provided by state law.

(e) Nothing contained in this chapter limits the commissioner's authority to terminate or suspend any examination in order to pursue other legal or regulatory action under the insurance laws of this state. Findings of fact and conclusions made pursuant to any examination are prima facie evidence in any legal or regulatory action.

(f) The commissioner shall maintain active management and oversight of market conduct examination costs, including costs associated with the commissioner's own examiners, and with retaining qualified contract examiners necessary to perform an examination. Any agreement with a contract examiner shall:

(i) Clearly identify the types of functions to be subject to outsourcing;

(ii) Provide specific timelines for completion of the outsourced review;

(iii) Require disclosure to the insurer of contract examiners' recommendations;

This copayment shall be deposited into the revolving fund to be used for the purposes in subsection (1) of this section. It is the intent of the legislature to appropriate to the revolving fund such moneys as necessary to cover the costs for transport, maintenance, and depreciation of data equipment located at the individual public institutions, maintenance and depreciation of the K-20 network backbone, and services provided to the network under RCW 43.41A.085 (as recodified by this act).

Sec. 504. RCW 43.88.160 and 2012 c 230 s 1 are each amended to read as follows:

This section sets forth the major fiscal duties and responsibilities of officers and agencies of the executive branch. The regulations issued by the governor pursuant to this chapter shall provide for a comprehensive, orderly basis for fiscal management and control, including efficient accounting and reporting therefor, for the executive branch of the state government and may include, in addition, such requirements as will generally promote more efficient public management in the state.

(1) Governor; director of financial management. The governor, through the director of financial management, shall devise and supervise a modern and complete accounting system for each agency to the end that all revenues, expenditures, receipts, disbursements, resources, and obligations of the state shall be properly and systematically accounted for. The accounting system shall include the development of accurate, timely records and reports of all financial affairs of the state. The system shall also provide for central accounts in the office of financial management at the level of detail deemed necessary by the director to perform central financial management. The director of financial management shall adopt and periodically update an accounting procedures manual. Any agency maintaining its own accounting and reporting system shall comply with the updated accounting procedures manual and the rules of the director adopted under this chapter. An agency may receive a waiver from complying with this requirement if the waiver is approved by the director. Waivers expire at the end of the fiscal biennium for which they are granted. The director shall forward notice of waivers granted to the appropriate legislative fiscal committees. The director of financial management may require such financial, statistical, and other reports as the director deems necessary from all agencies covering any period.

(2) Except as provided in chapter 43.88C RCW, the director of financial management is responsible for quarterly reporting of primary operating budget drivers such as applicable workloads, caseload estimates, and appropriate unit cost data. These reports shall be transmitted to the legislative fiscal committees or by electronic means to the legislative evaluation and accountability program committee. Quarterly reports shall include actual monthly data and the variance between actual and estimated data to date. The reports shall also include estimates of these items for the remainder of the budget period.

(3) The director of financial management shall report at least annually to the appropriate legislative committees regarding the status of all appropriated capital projects, including transportation projects, showing significant cost overruns or underruns. If funds are shifted from one project to another, the office of financial management shall also reflect this in the annual variance report. Once a project is complete, the report shall provide a final summary showing estimated start and completion dates of each project phase compared to actual dates, estimated costs of each project phase compared to actual costs, and whether or not there are any outstanding liabilities or unsettled claims at the time of completion.

(4) In addition, the director of financial management, as agent of the governor, shall:

(a) Develop and maintain a system of internal controls and internal audits comprising methods and procedures to be adopted by each agency that will safeguard its assets, check the accuracy and reliability of its accounting data, promote operational efficiency, and encourage adherence to prescribed managerial policies for accounting and financial controls. The system developed by the director shall include criteria for determining the scope and comprehensiveness of internal controls required by classes of agencies, depending on the level of resources at risk.

Each agency head or authorized designee shall be assigned the responsibility and authority for establishing and maintaining

internal audits following the standards of internal auditing of the institute of internal auditors;

(b) Make surveys and analyses of agencies with the object of determining better methods and increased effectiveness in the use of manpower and materials; and the director shall authorize expenditures for employee training to the end that the state may benefit from training facilities made available to state employees;

(c) Establish policies for allowing the contracting of child care services;

(d) Report to the governor with regard to duplication of effort or lack of coordination among agencies;

(e) Review any pay and classification plans, and changes thereunder, developed by any agency for their fiscal impact: PROVIDED, That none of the provisions of this subsection shall affect merit systems of personnel management now existing or hereafter established by statute relating to the fixing of qualifications requirements for recruitment, appointment, or promotion of employees of any agency. The director shall advise and confer with agencies including appropriate standing committees of the legislature as may be designated by the speaker of the house and the president of the senate regarding the fiscal impact of such plans and may amend or alter the plans, except that for the following agencies no amendment or alteration of the plans may be made without the approval of the agency concerned: Agencies headed by elective officials;

(f) Fix the number and classes of positions or authorized employee years of employment for each agency and during the fiscal period amend the determinations previously fixed by the director except that the director shall not be empowered to fix the number or the classes for the following: Agencies headed by elective officials;

(g) Adopt rules to effectuate provisions contained in (a) through (f) of this subsection.

(5) The treasurer shall:

(a) Receive, keep, and disburse all public funds of the state not expressly required by law to be received, kept, and disbursed by some other persons: PROVIDED, That this subsection shall not apply to those public funds of the institutions of higher learning which are not subject to appropriation;

(b) Receive, disburse, or transfer public funds under the treasurer's supervision or custody;

(c) Keep a correct and current account of all moneys received and disbursed by the treasurer, classified by fund or account;

(d) Coordinate agencies' acceptance and use of credit cards and other payment methods, if the agencies have received authorization under RCW 43.41.180;

(e) Perform such other duties as may be required by law or by regulations issued pursuant to this law.

It shall be unlawful for the treasurer to disburse public funds in the treasury except upon forms or by alternative means duly prescribed by the director of financial management. These forms or alternative means shall provide for authentication and certification by the agency head or the agency head's designee that the services have been rendered or the materials have been furnished; or, in the case of loans or grants, that the loans or grants are authorized by law; or, in the case of payments for periodic maintenance services to be performed on state owned equipment, that a written contract for such periodic maintenance services is currently in effect; and the treasurer shall not be liable under the treasurer's surety bond for erroneous or improper payments so made. When services are lawfully paid for in advance of full performance by any private individual or business entity other than equipment maintenance providers or as provided for by RCW 42.24.035, such individual or entity other than central stores rendering such services shall make a cash deposit or furnish surety bond coverage to the state as shall be fixed in an amount by law, or if not fixed by law, then in such amounts as shall be fixed by the director of the department of

enterprise services but in no case shall such required cash deposit or surety bond be less than an amount which will fully indemnify the state against any and all losses on account of breach of promise to fully perform such services. No payments shall be made in advance for any equipment maintenance services to be performed more than twelve months after such payment except that institutions of higher education as defined in RCW 28B.10.016 and the consolidated technology services agency created in RCW 43.105.006 may make payments in advance for equipment maintenance services to be performed up to sixty months after such payment. Any such bond so furnished shall be conditioned that the person, firm or corporation receiving the advance payment will apply it toward performance of the contract. The responsibility for recovery of erroneous or improper payments made under this section shall lie with the agency head or the agency head's designee in accordance with rules issued pursuant to this chapter. Nothing in this section shall be construed to permit a public body to advance funds to a private service provider pursuant to a grant or loan before services have been rendered or material furnished.

(6) The state auditor shall:

(a) Report to the legislature the results of current post audits that have been made of the financial transactions of each agency; to this end the auditor may, in the auditor's discretion, examine the books and accounts of any agency, official, or employee charged with the receipt, custody, or safekeeping of public funds. Where feasible in conducting examinations, the auditor shall utilize data and findings from the internal control system prescribed by the office of financial management. The current post audit of each agency may include a section on recommendations to the legislature as provided in (c) of this subsection.

(b) Give information to the legislature, whenever required, upon any subject relating to the financial affairs of the state.

(c) Make the auditor's official report on or before the thirty-first of December which precedes the meeting of the legislature. The report shall be for the last complete fiscal period and shall include determinations as to whether agencies, in making expenditures, complied with the laws of this state. The state auditor is authorized to perform or participate in performance verifications and performance audits as expressly authorized by the legislature in the omnibus biennial appropriations acts or in the performance audit work plan approved by the joint legislative audit and review committee. The state auditor, upon completing an audit for legal and financial compliance under chapter 43.09 RCW or a performance verification, may report to the joint legislative audit and review committee or other appropriate committees of the legislature, in a manner prescribed by the joint legislative audit and review committee, on facts relating to the management or performance of governmental programs where such facts are discovered incidental to the legal and financial audit or performance verification. The auditor may make such a report to a legislative committee only if the auditor has determined that the agency has been given an opportunity and has failed to resolve the management or performance issues raised by the auditor. If the auditor makes a report to a legislative committee, the agency may submit to the committee a response to the report. This subsection (6) shall not be construed to authorize the auditor to allocate other than de minimis resources to performance audits except as expressly authorized in the appropriations acts or in the performance audit work plan. The results of a performance audit conducted by the state auditor that has been requested by the joint legislative audit and review committee must only be transmitted to the joint legislative audit and review committee.

(d) Be empowered to take exception to specific expenditures that have been incurred by any agency or to take exception to other practices related in any way to the agency's financial transactions and to cause such exceptions to be made a matter of public record,

including disclosure to the agency concerned and to the director of financial management. It shall be the duty of the director of financial management to cause corrective action to be taken within six months, such action to include, as appropriate, the withholding of funds as provided in RCW 43.88.110. The director of financial management shall annually report by December 31st the status of audit resolution to the appropriate committees of the legislature, the state auditor, and the attorney general. The director of financial management shall include in the audit resolution report actions taken as a result of an audit including, but not limited to, types of personnel actions, costs and types of litigation, and value of recouped goods or services.

(e) Promptly report any irregularities to the attorney general.

(f) Investigate improper governmental activity under chapter 42.40 RCW.

In addition to the authority given to the state auditor in this subsection (6), the state auditor is authorized to conduct performance audits identified in RCW 43.09.470. Nothing in this subsection (6) shall limit, impede, or restrict the state auditor from conducting performance audits identified in RCW 43.09.470.

(7) The joint legislative audit and review committee may:

(a) Make post audits of the financial transactions of any agency and management surveys and program reviews as provided for in chapter 44.28 RCW as well as performance audits and program evaluations. To this end the joint committee may in its discretion examine the books, accounts, and other records of any agency, official, or employee.

(b) Give information to the legislature or any legislative committee whenever required upon any subject relating to the performance and management of state agencies.

(c) Make a report to the legislature which shall include at least the following:

(i) Determinations as to the extent to which agencies in making expenditures have complied with the will of the legislature and in this connection, may take exception to specific expenditures or financial practices of any agencies; and

(k) Increment increases within the series of steps for each pay grade based on length of service for all employees whose standards of performance are such as to permit them to retain job status in the classified service. From February 18, 2009, through June 30, 2013, a salary or wage increase shall not be granted to any exempt position under this chapter, except that a salary or wage increase may be granted to employees pursuant to collective bargaining agreements negotiated under chapter 28B.52, 41.56, 47.64, or 41.76 RCW, and except that increases may be granted for positions for which the employer has demonstrated difficulty retaining qualified employees if the following conditions are met:

(i) The salary increase can be paid within existing resources;

(ii) The salary increase will not adversely impact the provision of client services; and

(iii) For any state agency of the executive branch, not including institutions of higher education, the salary increase is approved by the director of the office of financial management;

Any agency granting a salary increase from February 15, 2010, through June 30, 2011, to a position exempt under this chapter shall submit a report to the fiscal committees of the legislature no later than July 31, 2011, detailing the positions for which salary increases were granted, the size of the increases, and the reasons for giving the increases;

Any agency granting a salary increase from July 1, 2011, through June 30, 2013, to a position exempt under this chapter shall submit a report to the fiscal committees of the legislature by July 31, 2012, and July 31, 2013, detailing the positions for which salary increases were granted during the preceding fiscal year, the size of the increases, and the reasons for giving the increases;

(l) Optional lump sum relocation compensation approved by the agency director, whenever it is reasonably necessary that a person make a domiciliary move in accepting a transfer or other employment with the state. An agency must provide lump sum compensation within existing resources. If the person receiving the relocation payment terminates or causes termination with the state, for reasons other than layoff, disability separation, or other good cause as determined by an agency director, within one year of the date of the employment, the state is entitled to reimbursement of the lump sum compensation from the person;

(m) Providing for veteran's preference as required by existing statutes, with recognition of preference in regard to layoffs and subsequent reemployment for veterans and their surviving spouses by giving such eligible veterans and their surviving spouses additional credit in computing their seniority by adding to their unbroken state service, as defined by the director, the veteran's service in the military not to exceed five years. For the purposes of this section, "veteran" means any person who has one or more years of active military service in any branch of the armed forces of the United States or who has less than one year's service and is discharged with a disability incurred in the line of duty or is discharged at the convenience of the government and who, upon termination of such service, has received an honorable discharge, a discharge for physical reasons with an honorable record, or a release from active military service with evidence of service other than that for which an undesirable, bad conduct, or dishonorable discharge shall be given. However, the surviving spouse of a veteran is entitled to the benefits of this section regardless of the veteran's length of active military service. For the purposes of this section, "veteran" does not include any person who has voluntarily retired with twenty or more years of active military service and whose military retirement pay is in excess of five hundred dollars per month.

(2) Rules adopted under this section by the director shall provide for local administration and management by the institutions of higher education and related boards, subject to periodic audit and review by the director.

(3) Rules adopted by the director under this section may be superseded by the provisions of a collective bargaining agreement negotiated under RCW 41.80.001 and 41.80.010 through 41.80.130. The supersession of such rules shall only affect employees in the respective collective bargaining units.

(4)(a) The director shall require that each state agency report annually the following data:

(i) The number of classified, Washington management service, and exempt employees in the agency and the change compared to the previous report;

(ii) The number of bonuses and performance-based incentives awarded to agency staff and the base wages of such employees; and

(iii) The cost of each bonus or incentive awarded.

(b) A report that compiles the data in (a) of this subsection for all agencies will be provided annually to the governor and the appropriate committees of the legislature and must be posted for the public on the office of financial management's agency web site.

(c) No later than January 1, 2016, the report must be incorporated into the state expenditure information web site maintained by the legislative evaluation and accountability program committee under RCW 44.48.150.

(5) From February 15, 2010, until June 30, 2013, no monetary performance-based awards or incentives may be granted by the director or employers to employees covered by rules adopted under this section. This subsection does not prohibit the payment of awards provided for in chapter 41.60 RCW.

From July 1, 2011, until June 30, 2013, no performance-based awards or incentives may be granted by the director or employers to employees pursuant to a performance management confirmation granted by the department of personnel under WAC 357-37-055.

Sec. 812. RCW 39.19.060 and 1996 c 288 s 28 are each amended to read as follows:

(1) Each state agency and educational institution shall comply with the annual goals established for that agency or institution under this chapter for public works and procuring goods or services. This chapter applies to all public works and procurement by state agencies and educational institutions, including all contracts and other procurement under chapters 28B.10, 39.04, (~~39.29~~) 39.26, 43.19, and 47.28 RCW.

(2) Each state agency shall adopt a plan, developed in consultation with the director and the advisory committee, to insure that minority and women-owned businesses are afforded the maximum practicable opportunity to directly and meaningfully participate in the execution of public contracts for public works and goods and services. The plan shall include specific measures the agency will undertake to increase the participation of certified minority and women-owned businesses.

(3) Of all state agencies and educational institutions, the office must annually identify those: (a) In the lowest quintile of utilization of minority and women-owned contractors as a percentage of all contracts issued by the agency; (b) in the lowest quintile of the dollar value awarded to minority and women-owned contractors as a percentage of the dollar value of all contracts issued by the agency; and (c) that are performing significantly below their established goals, as determined by the office. The office must meet with each identified agency to review its plan and identify available tools and actions for increasing participation.

(4) The office shall annually notify the governor, the state auditor, and the joint legislative audit and review committee of all agencies and educational institutions not in compliance with this chapter.

(5) No later than January 1, 2016, the office must maintain a web site of the information compiled in subsection (3) of this section and the list of agencies and educational institutions not in compliance with this chapter that is accessible to the public.

NEW SECTION. Sec. 813. A new section is added to chapter 39.26 RCW to read as follows:

Agencies must annually submit to the department a list of performance-based incentives, bonuses, or awards paid under contract to contractors. "Contracts," for the purposes of this section, does not include purchase orders. The department must maintain the web site with a publicly available list of all performance-based incentives, bonuses, or awards paid under contract to contractors by agencies during each fiscal year, except that contracts for the employment of expert witnesses for the purposes of litigation shall not be made publicly available to the extent that information is exempt from disclosure under state law. Except as otherwise exempt, the data must identify the contracting agency; the

contractor; the purpose of the contract; effective dates and periods of performance; a description of the performance incentive, bonus, or award clause; and the amount paid.

NEW SECTION. Sec. 814. A new section is added to chapter 43.88 RCW to read as follows:

(1) In order to facilitate public understanding, the office of financial management must prepare summaries of compensation and fringe benefits provided to nonrepresented employees of executive branch agencies, excluding institutions of higher education. A summary must be prepared for employees who are members of the Washington management service and a separate summary must be prepared for employees who are exempt from civil service. The summaries must contain the following information:

(a) The number of employees by agency as of the month in which the information is posted;

(b) Base compensation;

(c) Eligibility for and rate of overtime pay;

(d) Eligibility for and rate of compensatory time;

(e) Eligibility for and rate of any other compensation, including but not limited to shift premium pay, on-call pay, standby pay, assignment pay, special pay, or employer-provided housing or meals;

(f) Eligibility for and rate of pay for each paid leave provision;

(g) Eligibility for and rate of pay for any cash out provisions for compensatory time or paid leave;

(h) Temporary layoff provision;

(i) Employer and employee health care benefits expressed as a percentage of cost or as a dollar amount; and

(j) A brief description of each component and the biennial cost of any across-the-board increase in compensation and fringe benefits.

(2) Information may include links to salary schedules, pay ranges, and other information on state or federal agency web sites to summarize information.

(3) The first summaries must be posted on the office's web site within sixty days of the beginning of each fiscal biennium. The summary must be updated each fiscal biennium thereafter or whenever any action is taken that affects subsection (1)(b) through (j) of this section.

(4) No later than January 1, 2016, the information under this section must be incorporated into the state expenditure information web site maintained by the legislative evaluation and accountability program committee under RCW 44.48.150.

NEW SECTION. Sec. 815. A new section is added to chapter 39.26 RCW to read as follows:

(1) In order to facilitate public understanding of state expenditures related to vendors, prior to issuing a solicitation for the purchase of services from a private sector vendor or nonprofit organization for services that have been customarily and historically provided by a public employee or employees, an agency must conduct a comprehensive cost to benefit assessment that either identifies a savings improvement or an efficiency improvement that is greater than the additional cost to purchase the service.

(a) To assist the agency in determining whether the decision to contract out is beneficial, the comprehensive assessment must include the following:

(i) An estimate of the cost of performance of the service by public employees including the fully allocated costs of the service, the cost of the employees' salaries and benefits, space, equipment, materials, and other costs necessary to perform the function. The estimate shall not include the state's indirect overhead costs unless those costs can be attributed directly to the function in question and would not exist if that function were not performed in state service;

(ii) An estimate of the cost of performance of the services if contracted out, including the cost of allocating sufficient public

employee staff time and resources to monitor the contract and ensure its proper performance by the vendor; and

(iii) A statement of the performance objectives to be achieved by contracting with a private sector or nonprofit vendor.

(b) The comprehensive assessment may also include an assessment of the potential adverse impacts on the public from outsourcing the contract, such as loss of employment, effect on social services and public assistance programs, economic impacts on local businesses and local tax revenues, and environmental impacts.

(2)(a) An agency must prepare a written record of the basis of the decision to contract out a service that has been customarily and historically provided by public employees, which must include the comprehensive cost to benefit assessment required under subsection (1) of this section, as well as an itemization of performance standards contained in the contract. The written record shall be submitted for posting on the department's web site.

(b) Every five years or upon completion of the contract, whichever comes first, the agency must prepare and file with the department a report, which must include at a minimum the following information:

(i) Documentation of the vendor's performance as measured by the itemized performance standards;

(ii) Itemization of any contract extensions or change orders that resulted in a change in the dollar value or cost of the contract; and

(iii) A report of any remedial actions that were taken to enforce compliance with the contract, together with an estimate of the cost incurred by the public in enforcing such compliance.

(3) In addition to any other terms required by law, the terms of any agreement to contract out a service that has been customarily and historically provided by public employees must include the following:

(a) A cancellation clause allowing the state agency to cancel a contract if the vendor fails to meet quality standards or budget specifications;

(b) Terms ensuring periodic review of performance of the contract;

(c) Terms requiring the vendor to compensate the agency for public sector employees' hours expended in achieving full performance of a contract that has failed inspection, that the contractor has failed to complete on schedule, or that has not been completed in a manner that is consistent with quality standards;

(d) A term requiring the vendor to make available to the agency the following information at the start of the contract's term and updated each fiscal year:

(i) The name and license number, if applicable, of the contractor and all subcontractors; and

(ii) A list of individuals or entities performing the services under the contract, reflected as full-time equivalent positions, including the hourly wage rate for each position, and the status of the individual as an employee, subcontractor, independent contractor, or consultant; and

(e) A waiver of confidentiality of, and agreement to provide to the agency upon request, basic financial information related to the contract, other than financial, commercial, or proprietary information specifically exempted from disclosure to the public under RCW 42.56.270.

Sec. 816. RCW 43.19.008 and 2011 1st sp.s. c 43 s 104 are each amended to read as follows:

(1) The executive powers and management of the department shall be administered as described in this section.

(2) The executive head and appointing authority of the department is the director. The director is appointed by the governor, subject to confirmation by the senate. The director serves at the pleasure of the governor. The director is paid a salary fixed by the governor in accordance with RCW 43.03.040. If a vacancy occurs

in the position of director while the senate is not in session, the governor shall make a temporary appointment until the next meeting of the senate at which time he or she shall present to that body his or her nomination for the position.

(3) The director may employ staff members, who are exempt from chapter 41.06 RCW, and any additional staff members as are necessary to administer this chapter, and such other duties as may be authorized by law. The director may delegate any power or duty vested in him or her by chapter 43, Laws of 2011 1st sp. sess. or other law, including authority to make final decisions and enter final orders in hearings conducted under chapter 34.05 RCW.

(4) The internal affairs of the department are under the control of the director in order that the director may manage the department in a flexible and intelligent manner as dictated by changing contemporary circumstances. Unless specifically limited by law, the director has complete charge and supervisory powers over the department. The director may create the administrative structures as the director deems appropriate, except as otherwise specified by law, and the director may employ personnel as may be necessary in accordance with chapter 41.06 RCW, except as otherwise provided by law.

(5) Until June 30, 2018, at the beginning of each fiscal biennium, the office of financial management shall conduct a review of the programs and services that are performed by the department to determine whether the program or service may be performed by the private sector in a more cost-efficient and effective manner than being performed by the department. In conducting this review, the office of financial management shall:

(a) Examine the existing activities currently being performed by the department, including but not limited to an examination of services for their performance, staffing, capital requirements, and mission. Programs may be broken down into discrete services or activities or reviewed as a whole; and

(b) Examine the activities to determine which specific services are available in the marketplace and what potential for efficiency gains or savings exist.

(i) As part of the review in this subsection (5), the office of financial management shall select up to six activities or services that have been determined as an activity that may be provided by the private sector in a cost-effective and efficient manner, including for the 2011-2013 fiscal biennium the bulk printing services. The office of financial management may consult with affected industry stakeholders in making its decision on which activities to contract for services. Priority for selection shall be given to agency activities or services that are significant, ongoing functions.

(ii) The office of financial management must consider the consequences and potential mitigation of improper or failed performance by the contractor.

(iii) For each of the selected activities, the department shall use a request for information, request for proposal, or other procurement process to determine if a contract for the activity would result in the activity being provided at a reduced cost and with greater efficiency. This must include, but is not limited to, consideration of the cost of the agency staff time and resources that may be required to monitor and ensure proper performance of the contract by the vendor.

(iv) The request for information, request for proposal, or other procurement process must contain measurable standards for the performance of the contract.

(v) The department may contract with one or more vendors to provide the service as a result of the procurement process.

(vi) If the office of financial management determines via the procurement process that the activity cannot be provided by the private sector at a reduced cost and greater efficiency, the department of enterprise services may cancel the procurement without entering into a contract and shall promptly notify the legislative fiscal committees of such a decision.

(vii) The department of enterprise services, in consultation with the office of financial management, must establish a contract monitoring process to measure contract performance, costs, service delivery quality, and other contract standards, and to cancel contracts that do not meet those standards. No contracts may be renewed without a review of these measures.

(viii) The office of financial management shall prepare a biennial report summarizing the results of the examination of the agency's programs and services. In addition to the programs and services examined and the result of the examination, the report shall provide information on any procurement process that does not result in a contract for the services. During each regular legislative session held in odd-numbered years, the legislative fiscal committees shall hold a public hearing on the report and the department's activities under this section.

(ix) The joint legislative audit and review committee shall conduct an audit of the implementation of this subsection (5), and report to the legislature by January 1, 2018, on the results of the audit. The report must include an analysis and estimate of additional costs or savings to taxpayers as a result of the contracting out provisions. This analysis must, at a minimum, include the following:

(A) An estimate of the cost of performance of the selected activities if the activities had been performed by public employees, including the fully allocated costs of the service, the cost of the employees' salaries and benefits, space, equipment, materials, and other costs necessary to perform the function. The estimate shall not include the state's indirect overhead costs unless those costs can be attributed directly to the function in question and would not exist if that function were not performed in state service;

(B) An estimate of the cost of performance of the contract by the vendor, including the cost of any change orders or contract revisions and the costs of allocating sufficient public employee staff time and resources to monitor the contract and ensure its proper performance by the vendor;

(C) An analysis of the extent to which performance objectives were achieved by outsourcing the contract; and

(D) An assessment of adverse impacts on the public of outsourcing the contract."

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

"**Sec. 817.** RCW 46.20.270 and 2013 2nd sp.s. c 35 s 17 are each amended to read as follows:

(1) Every court having jurisdiction over offenses committed under this chapter, or any other act of this state or municipal ordinance adopted by a local authority regulating the operation of motor vehicles on highways, or any federal authority having jurisdiction over offenses substantially the same as those set forth in this title which occur on federal installations within this state, shall immediately forward to the department a forfeiture of bail or collateral deposited to secure the defendant's appearance in court, a payment of a fine, penalty, or court cost, a plea of guilty or nolo contendere or a finding of guilt, or a finding that any person has committed a traffic infraction an abstract of the court record in the form prescribed by rule of the supreme court, showing the conviction of any person or the finding that any person has committed a traffic infraction in said court for a violation of any said laws other than regulations governing standing, stopping, parking, and pedestrian offenses.

(2) Every state agency or municipality having jurisdiction over offenses committed under this chapter, or under any other act of this state or municipal ordinance adopted by a state or local authority regulating the operation of motor vehicles on highways, may forward to the department within ten days of failure to respond, failure to pay a penalty, failure to appear at a hearing to contest the determination that a violation of any statute, ordinance, or regulation relating to standing, stopping, parking, or civil penalties issued under RCW 46.63.160 has been committed, or failure to appear at a hearing to explain mitigating circumstances, an abstract of the citation record in the form prescribed by rule of the department, showing the finding by such municipality that two or more violations of laws governing standing, stopping, and parking or one or more civil penalties issued under RCW 46.63.160 have been committed and indicating the nature of the defendant's failure to act. Such violations or infractions may not have occurred while the vehicle is stolen from the registered owner (~~or is leased or rented under a bona fide commercial vehicle lease or rental agreement between a lessor engaged in the business of leasing vehicles and a lessee who is not the vehicle's registered owner~~). The department may enter into agreements of reciprocity with the duly authorized representatives of the states for reporting to each other violations of laws governing standing, stopping, and parking.

(3) For the purposes of this title and except as defined in RCW 46.25.010, "conviction" means a final conviction in a state or municipal court or by any federal authority having jurisdiction over offenses substantially the same as those set forth in this title which occur on federal installations in this state, an unvacated forfeiture of bail or collateral deposited to secure a defendant's appearance in court, the payment of a fine or court cost, a plea of guilty or nolo contendere, or a finding of guilt on a traffic law violation charge, regardless of whether the imposition of sentence or sanctions are

deferred or the penalty is suspended, but not including entry into a deferred prosecution agreement under chapter 10.05 RCW.

(4) Perfection of a notice of appeal shall stay the execution of the sentence pertaining to the withholding of the driving privilege.

(5) For the purposes of this title, "finding that a traffic infraction has been committed" means a failure to respond to a notice of infraction or a determination made by a court pursuant to this chapter. Payment of a monetary penalty made pursuant to RCW 46.63.070(2) is deemed equivalent to such a finding.

Sec. 818. RCW 46.63.073 and 2007 c 372 s 1 are each amended to read as follows:

(1) In the event a traffic infraction is based on a vehicle's identification, and the registered owner of the vehicle is a rental car business, the law enforcement agency shall, before a notice of infraction may be issued, provide a written notice to the rental car business that a notice of infraction may be issued to the rental car business if the rental car business does not, within thirty days of receiving the written notice, provide to the issuing agency by return mail:

(a) A statement under oath stating the name and known mailing address of the individual driving or renting the vehicle when the infraction occurred; or

(b) A statement under oath that the business is unable to determine who was driving or renting the vehicle at the time the infraction occurred because the vehicle was stolen at the time of the infraction. A statement provided under this subsection must be accompanied by a copy of a filed police report regarding the vehicle theft.

Timely mailing of this statement to the issuing law enforcement agency relieves a rental car business of any liability under this chapter for the notice of infraction. In lieu of identifying the vehicle operator, the rental car business may pay the applicable penalty. If appropriate under the circumstances, a renter identified under (a) of this subsection is responsible for an infraction. For the purpose of this subsection, a "traffic infraction based on a vehicle's identification" includes, but is not limited to, parking infractions, high occupancy toll lane violations, and violations recorded by automated traffic safety cameras.

(2) In the event a parking infraction is issued by a private parking facility and is based on a vehicle's identification, and the registered owner of the vehicle is a rental car business, the parking facility shall, before a notice of infraction may be issued, provide a written notice to the rental car business that a notice of infraction may be issued to the rental car business if the rental car business does not, within thirty days of receiving the written notice, provide to the parking facility by return mail:

(a) A statement under oath stating the name and known mailing address of the individual driving or renting the vehicle when the infraction occurred; or

(b) A statement under oath that the business is unable to determine who was driving or renting the vehicle at the time the infraction occurred because the vehicle was stolen at the time of the infraction. A statement provided under this subsection must be accompanied by a copy of a filed police report regarding the vehicle theft.

Timely mailing of this statement to the parking facility relieves a rental car business of any liability under this chapter for the notice of infraction. In lieu of identifying the vehicle operator, the rental car business may pay the applicable penalty. For the purpose of this subsection, a "parking infraction based on a vehicle's identification" is limited to parking infractions occurring on a private parking facility's premises."

SSB 5113 Prime Sponsor, Committee on Energy, Environment & Telecommunications: Requiring the department of commerce to coordinate and advance the siting and manufacturing of small modular reactors in the state to meet future energy supply, environmental, and energy security needs. Reported by Committee on Technology & Economic Development

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 823. (1) The legislature finds that the promotion and advancement of new technologies, particularly in the clean technology sector, is an important aspect of Washington's economic development. The commercialization and deployment of

small modular reactor technologies has been identified by the federal government as a means to meet clean energy targets and as a key element in its nuclear energy research and development roadmap. Washington has the potential to become a leader in the advancement of small modular reactor technologies by leveraging its experience as an incubator of new and innovative technologies, its world class universities, and its highly skilled workforce to attract manufacturers of small modular reactors. The legislature finds that advancing the manufacturing of small modular reactors may help the state meet future energy supply, environmental, and energy security needs.

(2) The legislature finds that because Washington's students are the foundation for providing the diverse and highly skilled workforce for the clean technology sector, including the manufacturing of small modular reactors, it is in the public interest to provide students the opportunity to strengthen their knowledge of the fundamentals of the energy sciences, including physics, chemistry, mathematics, and related disciplines.

(3) The legislature also finds that while all powers, duties, and functions of the state energy office relating to implementing energy education were transferred to Washington State University in 1996, the goals of advancing the manufacturing of small modular reactors in the state and providing students with an education in the energy sciences are mutually reinforcing. Therefore, the legislature intends that the department of commerce shall provide support to the office of the superintendent of public instruction for the purpose of developing a clean energy education program as it relates to training and education on clean technologies, including manufacturing of small modular reactors.

(4) The legislature finds that:

ESB 5153 Prime Sponsor, Senator Billig: Increasing transparency of campaign contributions. Reported by Committee on State Government

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

"**NEW SECTION. Sec. 828.** The legislature finds that the public has the right to know who is contributing to election campaigns in Washington state and that campaign finance disclosure deters corruption, increases public confidence in Washington state elections, and strengthens our representative democracy.

The legislature finds that campaign finance disclosure is overwhelmingly supported by the citizens of Washington state as evidenced by the two initiatives that largely established Washington's current campaign finance system. Both passed with over seventy-two percent of the popular vote, as well as winning margins in every county in the state.

The legislature finds that nonprofit organizations are increasingly engaging in campaign activities in Washington state and across the country, including taking a more active role in contributing to candidate and ballot proposition campaigns. In some

cases, these activities are occurring without adequate public disclosure due to loopholes in campaign finance regulations.

Therefore, the legislature intends to increase transparency and accountability, deter corruption, and strengthen confidence in the election process by closing campaign finance disclosure loopholes and requiring the disclosure of contributions and expenditures by nonprofit organizations that participate significantly in Washington state elections.

Sec. 832. RCW 42.17A.235 and 2011 c 60 s 23 are each amended to read as follows:

(1) In addition to the information required under RCW 42.17A.205 and 42.17A.210, on the day the treasurer is designated, each candidate or political committee must file with the commission a report of all contributions received and expenditures made prior to that date, if any. In addition to the information required under RCW 42.17A.205 and 42.17A.210 on the day an incidental committee files a statement of organization with the commission, each incidental committee must file with the commission a report of any expenditures under RCW 42.17A.240(6), as well as the ten largest aggregate contributions received in the current calendar year from a single person of ten thousand dollars or greater, including any persons tied as the tenth largest source of contributions received, if any, and all aggregate contributions received in the current calendar year from a single person with a value of one hundred thousand dollars or greater.

(2) Each treasurer of a political committee, or incidental committee required to file a statement of organization under this chapter shall file with the commission a report containing the information required by RCW 42.17A.240 at the following intervals:

(b) On the tenth day of the first month after the election; and

(c) On the tenth day of each month in which no other reports are required to be filed under this section;

(i) For a political committee, only if the committee has received a contribution or made an expenditure in the preceding calendar month and either the total contributions received or total expenditures made since the last such report exceed two hundred dollars; or

Upon submitting a final report, the duties of the treasurer shall cease and there is no obligation to make any further reports.

(9) By December 31, 2015, the commission shall adopt rules for the dissolution of incidental committees.

E2SSB 5177

Prime Sponsor, Committee on Ways & Means: Improving timeliness of competency evaluation and restoration services. Reported by Committee on Judiciary

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 837. (1) The legislature finds that there are currently no alternatives to competency restoration provided in the state hospitals and there is insufficient capacity within the state hospitals to meet the projected service needs of the state. Subject to the availability of amounts appropriated for this specific purpose, the legislature encourages the department of social and health services to develop, on a phased-in basis, alternative locations and increased access to competency restoration services under chapter 10.77 RCW for individuals who do not require inpatient psychiatric hospitalization level services.

(2) The department shall work with counties and the courts to develop a screening process to determine which individuals are safe to receive competency restoration treatment outside the state hospitals. The department also must develop a plan to sufficiently increase capacity to meet the projected ten-year need for both forensic and civil mental health bed demand.

Sec. 838. RCW 10.77.084 and 2012 c 256 s 5 are each amended to read as follows:

(1)(a) If at any time during the pendency of an action and prior to judgment the court finds, following a report as provided in RCW 10.77.060, a defendant is incompetent to stand trial, the court shall order the proceedings against the defendant be stayed except as provided in subsection (4) of this section.

(b) The court may order a defendant who has been found to be incompetent to stand trial to undergo competency restoration treatment at a facility designated by the department if the defendant is eligible under RCW 10.77.086 or 10.77.088. At the end of ((the mental health treatment and)) each competency restoration period((, if any,)) or at any time a professional person determines competency has been, or is unlikely to be, restored, the facility shall return the defendant ((shall be returned)) to court for a hearing((-), except that if the opinion of the professional person is that the defendant remains incompetent and the hearing is held before the expiration of the current competency restoration period, the parties may agree to waive the defendant's presence ((or)), to remote participation by the defendant at a hearing, or to presentation of an agreed order ((if the recommendation of the evaluator is for the continuation of the stay

~~of criminal proceedings, or if the opinion of the evaluator is that the defendant remains incompetent and there is no remaining restoration period, and the hearing is held prior to expiration of the defendant's authorized period of commitment, in which case) in lieu of a hearing. The ((department)) facility shall promptly notify the court and all parties of the date ((of the defendant's admission and expiration of commitment)) on which the competency restoration period commences and expires so that a timely hearing date may be scheduled.~~

~~(c) If, ((after)) following notice and hearing((;)) or entry of an agreed order under (b) of this subsection, the court finds that competency has been restored, the court shall lift the stay entered under (a) of this subsection ((shall be lifted)). If the court finds that competency has not been restored, the court shall dismiss the proceedings ((shall be dismissed)) without prejudice((. If the court concludes that competency has not been restored, but)), except that the court may order a further period of competency restoration treatment if it finds that further treatment within the time limits established by RCW 10.77.086 or 10.77.088 is likely to restore competency, ((the court may order that treatment for purposes of competency restoration be continued. Such treatment may not extend beyond the combination of time provided for in)) and a further period of treatment is allowed under RCW 10.77.086 or 10.77.088.~~

~~((;)) (d) If at any time during the proceeding the court finds, following notice and hearing, a defendant is not likely to regain competency, the court shall dismiss the proceedings ((shall be dismissed)) without prejudice and refer the defendant ((shall be evaluated)) for civil commitment evaluation or proceedings if appropriate under RCW 10.77.065, 10.77.086, or 10.77.088.~~

(2) If the defendant is referred for evaluation by a designated mental health professional under this chapter, the designated mental health professional shall provide prompt written notification of the results of the evaluation and whether the person was detained. The notification shall be provided to the court in which the criminal action was pending, the prosecutor, the defense attorney in the criminal action, and the facility that evaluated the defendant for competency.

(3) The fact that the defendant is unfit to proceed does not preclude any pretrial proceedings which do not require the personal participation of the defendant.

(4) A defendant receiving medication for either physical or mental problems shall not be prohibited from standing trial, if the medication either enables the defendant to understand the proceedings against him or her and to assist in his or her own defense, or does not disable him or her from so understanding and assisting in his or her own defense.

(5) At or before the conclusion of any commitment period provided for by this section, the facility providing evaluation and treatment shall provide to the court a written report of evaluation which meets the requirements of RCW 10.77.060(3). For defendants charged with a felony, the report following the second competency restoration period or first competency restoration period if the defendant's incompetence is determined to be solely due to a developmental disability or the evaluator concludes that the defendant is not likely to regain competency must include an assessment of the defendant's future dangerousness which is evidence-based regarding predictive validity.

Sec. 839. RCW 10.77.086 and 2013 c 289 s 2 are each amended to read as follows:

(1)(a)(i) If the defendant is charged with a felony and determined to be incompetent, until he or she has regained the competency necessary to understand the proceedings against him or her and assist in his or her own defense, ~~((or has been determined unlikely to regain competency pursuant to RCW 10.77.084(1)(b),))~~ but in any event for a period of no longer than ninety days, the court:

~~((;)) (A) Shall commit the defendant to the custody of the secretary who shall place such defendant in an appropriate facility of the department for evaluation and treatment; or~~

~~((;)) (B) May alternatively order the defendant to undergo evaluation and treatment at some other facility as determined by the department, or under the guidance and control of a professional person. The facilities may include community mental health providers or other local facilities that contract with the department and are willing and able to provide treatment under this section. During the 2015-2017 fiscal biennium, the department may contract with one or more cities or counties to provide competency restoration services in a city or county jail if the city or county jail is willing and able to serve as a location for competency restoration services and if the secretary determines that there is an emergent need for beds and documents the justification, including a plan to address the emergency. Patients receiving competency restoration services in a city or county jail must be physically separated from other populations at the jail, the model of restoration treatment services must be substantially equivalent to that provided at the state hospitals, and restoration treatment services must be provided as much as possible within a therapeutic environment and performed by staff and professionals who have the skills and qualifications necessary to provide restoration treatment services comparable to those provided at a state hospital.~~

~~((i)) The ninety day period for evaluation and treatment under this subsection (1) includes only the time the defendant is actually at the facility and is in addition to reasonable time for transport to or from the facility.~~

(b) For a defendant whose highest charge is a class C felony, or a class B felony that is not classified as violent under RCW 9.94A.030, the maximum time allowed for the initial period of commitment for competency restoration is forty-five days. The forty-five day period includes only the time the defendant is actually at the facility and is in addition to reasonable time for transport to or from the facility.

(c) If the court determines that the defendant is unlikely to regain competency, the court may dismiss the charges without prejudice without ordering the defendant to undergo restoration treatment, in which case the court shall order that the defendant be referred for evaluation for civil commitment in the manner provided in subsection (4) of this section.

(2) On or before expiration of the initial period of commitment under subsection (1) of this section the court shall conduct a hearing, at which it shall determine whether or not the defendant is incompetent.

(3) If the court finds by a preponderance of the evidence that a defendant charged with a felony is incompetent, the court shall have the option of extending the order of commitment or alternative treatment for an additional period of ninety days, but the court must at the time of extension set a date for a prompt hearing to determine the defendant's competency before the expiration of the second restoration period. The defendant, the defendant's attorney, or the prosecutor has the right to demand that the hearing be before a jury. No extension shall be ordered for a second or third restoration period as provided in subsection (4) of this section if the defendant's incompetence has been determined by the secretary to be solely the result of a developmental disability which is such that competence is not reasonably likely to be regained during an extension. The ninety-day period includes only the time the defendant is actually at the facility and is in addition to reasonable time for transport to or from the facility.

(4) For persons charged with a felony, at the hearing upon the expiration of the second restoration period, or at the end of the first restoration period((;)) in the case of a defendant with a developmental disability, if the jury or court finds that the defendant is incompetent, or if the court or jury at any stage finds that the

defendant is incompetent and the court determines that the defendant is unlikely to regain competency, the charges shall be dismissed without prejudice, and the court shall order the defendant be committed to a state hospital as defined in RCW 72.23.010 for up to seventy-two hours starting from admission to the facility, excluding Saturdays, Sundays, and holidays, for evaluation for the purpose of filing a civil commitment petition under chapter 71.05 RCW. The criminal charges shall not be dismissed if the court or jury finds that: (a) The defendant (i) is a substantial danger to other persons; or (ii) presents a substantial likelihood of committing criminal acts jeopardizing public safety or security; and (b) there is a substantial probability that the defendant will regain competency within a reasonable period of time. In the event that the court or jury makes such a finding, the court may extend the period of commitment for up to an additional six months. The six-month period includes only the time the defendant is actually at the facility and is in addition to reasonable time for transport to or from the facility.

Sec. 840. RCW 10.77.088 and 2007 c 375 s 5 are each amended to read as follows:

(1)(a) If the defendant is charged with a nonfelony crime which is a serious offense as identified in RCW 10.77.092 and found by the court to be not competent, then the court ~~((shall order the secretary to place the defendant))~~:

(i) ~~((At a secure mental health facility in the custody of the department or an agency designated by the department for mental health treatment and restoration of competency.))~~ Shall commit the defendant to the custody of the secretary who shall place such defendant in an appropriate facility of the department for evaluation and treatment;

(ii) May alternatively order the defendant to undergo evaluation and treatment at some other facility as determined by the department, or under the guidance and control of a professional person. The facilities may include community mental health providers or other local facilities that contract with the department and are willing and able to provide treatment under this section. During the 2015-2017 fiscal biennium, the department may contract with one or more cities or counties to provide competency restoration services in a city or county jail if the city or county jail is willing and able to serve as a location for competency restoration services and if the secretary determines that there is an emergent need for beds and documents the justification, including a plan to address the emergency. Patients receiving competency restoration services in a city or county jail must be physically separated from other populations at the jail, the model of restoration treatment services must be substantially equivalent to that provided at the state hospitals, and restoration treatment services must be provided as much as possible within a therapeutic environment and performed by staff and professionals who have the skills and qualifications necessary to provide restoration treatment services comparable to those provided at a state hospital. The placement under (a)(i) and (ii) of this subsection shall not exceed fourteen days in addition to any unused time of the evaluation under RCW 10.77.060. The court shall compute this total period and include its computation in the order. The fourteen-day period plus any unused time of the evaluation under RCW 10.77.060 shall be considered to include only the time the defendant is actually at the facility and shall be in addition to reasonable time for transport to or from the facility;

~~((iii))~~ (iii) May alternatively order that the defendant be placed on conditional release for up to ninety days for mental health treatment and restoration of competency; or

~~((iii))~~ (iv) May order any combination of this subsection.

(b) If the court has determined that the defendant is unlikely to regain competency, the court may dismiss the charges without prejudice without ordering the defendant to undergo restoration treatment, in which case the court shall order that the defendant be

referred for evaluation for civil commitment in the manner provided in (c) of this subsection.

(c)(i) If the proceedings are dismissed under RCW 10.77.084 and the defendant was on conditional release at the time of dismissal, the court shall order the designated mental health professional within that county to evaluate the defendant pursuant to chapter 71.05 RCW. The evaluation may be conducted in any location chosen by the professional.

(ii) If the defendant was in custody and not on conditional release at the time of dismissal, the defendant shall be detained and sent to an evaluation and treatment facility for up to seventy-two hours, excluding Saturdays, Sundays, and holidays, for evaluation for purposes of filing a petition under chapter 71.05 RCW. The seventy-two-hour period shall commence upon the next nonholiday weekday following the court order and shall run to the end of the last nonholiday weekday within the seventy-two-hour period.

(2) If the defendant is charged with a nonfelony crime that is not a serious offense as defined in RCW 10.77.092:

The court may stay or dismiss proceedings and detain the defendant for sufficient time to allow the designated mental health professional to evaluate the defendant and consider initial detention proceedings under chapter 71.05 RCW. The court must give notice to all parties at least twenty-four hours before the dismissal of any proceeding under this subsection, and provide an opportunity for a hearing on whether to dismiss the proceedings.

Sec. 841. RCW 10.77.073 and 2013 c 284 s 1 are each amended to read as follows:

(1) The department shall reimburse a county for the cost of appointing a qualified expert or professional person under RCW 10.77.060(1)(a) subject to subsections (2) through (4) of this section if, at the time of a referral for an evaluation of competency to stand trial in a jail for an in-custody defendant, the department ~~((has not met))~~; (a) During the most recent quarter, did not perform at least one-third of the number of jail-based competency evaluations for in-custody defendants as were performed by qualified experts or professional persons appointed by the court in the referring county; or (b) did not meet the performance target for timely completion of competency evaluations under RCW 10.77.068(1)(a)((#)) (iii) during the most recent quarter in fifty percent of cases submitted by the referring county, as documented in the most recent quarterly report under RCW 10.77.068(3) or confirmed by records maintained by the department~~((the department shall reimburse the county for the cost of appointing a qualified expert or professional person under RCW 10.77.060(1)(a) subject to subsections (2) and (3) of this section))~~.

(2) Appointment of a qualified expert or professional person under this section must be from a list of qualified experts or professional persons assembled with participation by representatives of the prosecuting attorney and the defense bar of the county. The qualified expert or professional person shall complete an evaluation and report that includes the components specified in RCW 10.77.060(3).

(3) The county shall provide a copy of the evaluation report to the applicable state hospital upon referral of the defendant for admission to the state hospital. The county shall:

(a) In consultation with the department, develop and maintain critical data elements, including data on the timeliness of competency evaluations completed under this section; and

(b) Share this data with the department upon the department's request.

(4) A qualified expert or professional person appointed by a court under this section must be compensated for competency evaluations in an amount that will encourage in-depth evaluation reports. Subject to the availability of amounts appropriated for this specific purpose, the department shall reimburse the county in an amount determined by the department to be fair and reasonable with

the county paying any excess costs. The amount of reimbursement established by the department must at least meet the equivalent amount for evaluations conducted by the department.

~~((4)-(5))~~ (5) Nothing in this section precludes either party from objecting to the appointment of an evaluator on the basis that an inpatient evaluation is appropriate under RCW 10.77.060(1)(d).

~~((5)-(6))~~ (6) This section expires June 30, ~~((2016))~~ 2018.

Sec. 842. RCW 10.77.091 and 2010 c 263 s 2 are each amended to read as follows:

(1) If the secretary determines in writing that a person committed to the custody of the secretary for treatment as criminally insane presents an unreasonable safety risk which, based on behavior, clinical history, and facility security is not manageable in a state hospital setting, and the secretary has given consideration to reasonable alternatives that would be effective to manage the behavior, the secretary may place the person in any secure facility operated by the secretary or the secretary of the department of corrections. The secretary's written decision and reasoning must be documented in the patient's medical file. Any person affected by this provision shall receive appropriate mental health treatment governed by a formalized treatment plan targeted at mental health rehabilitation needs and shall be afforded his or her rights under RCW 10.77.140, 10.77.150, and 10.77.200. The secretary of the department of social and health services shall retain legal custody of any person placed under this section and review any placement outside of a department mental health hospital every three months, or sooner if warranted by the person's mental health status, to determine if the placement remains appropriate.

(2) Beginning December 1, 2010, and every six months thereafter, the secretary shall report to the governor and the appropriate committees of the legislature regarding the use of the authority under this section to transfer persons to a secure facility. The report shall include information related to the number of persons who have been placed in a secure facility operated by the secretary or the secretary of the department of corrections, and the length of time that each such person has been in the secure facility.

~~((3) This section expires June 30, 2015.)~~

Sec. 843. RCW 10.77.220 and 1982 c 112 s 3 are each amended to read as follows:

No person who is criminally insane confined pursuant to this chapter shall be incarcerated in a state correctional institution or facility ~~((- PROVIDED, That nothing herein shall prohibit))~~. This section does not apply to confinement in a mental health facility located wholly within a correctional institution. Confinement of a person who is criminally insane in a county jail or other local facility while awaiting either placement in a treatment program or a court hearing pursuant to this chapter is permitted for no more than seven days.

NEW SECTION. Sec. 844. A new section is added to chapter 10.77 RCW to read as follows:

(1) If the defendant is charged with a nonfelony offense, and the issue of competency to stand trial is raised by the court or a party under RCW 10.77.060, the prosecutor may continue with the competency process or dismiss the charges without prejudice and refer the defendant for assessment by a mental health professional, chemical dependency professional, or developmental disabilities professional to determine the appropriate service needs for the defendant.

(2) This section does not apply to defendants with a current charge or prior conviction for a serious violent offense or sex offense as defined in RCW 9.94A.030.

NEW SECTION. Sec. 845. A new section is added to chapter 10.77 RCW to read as follows:

(1) In order to prioritize goals of accuracy, prompt service to the court, quality assurance, and integration with other services, an office of forensic mental health services is established within the

Sec. 846. RCW 71.05.235 and 2008 c 213 s 5 are each amended to read as follows:

(1) If an individual is referred to a designated mental health professional under RCW 10.77.088(1)~~((b))~~ (c)(i), the designated mental health professional shall examine the individual within forty-eight hours. If the designated mental health professional determines it is not appropriate to detain the individual or petition for a ninety-day less restrictive alternative under RCW 71.05.230(4), that decision shall be immediately presented to the superior court for hearing. The court shall hold a hearing to consider the decision of the designated mental health professional not later than the next judicial day. At the hearing the superior court shall review the determination of the designated mental health professional and determine whether an order should be entered requiring the person to be evaluated at an evaluation and treatment facility. No person referred to an evaluation and treatment facility may be held at the facility longer than seventy-two hours.

(2) If an individual is placed in an evaluation and treatment facility under RCW 10.77.088(1)~~((b))~~ (c)(ii), a professional person shall evaluate the individual for purposes of determining whether to file a ninety-day inpatient or outpatient petition under chapter 71.05 RCW. Before expiration of the seventy-two hour evaluation period authorized under RCW 10.77.088(1)~~((b))~~ (c)(ii), the professional person shall file a petition or, if the recommendation of the professional person is to release the individual, present his or her recommendation to the superior court of the county in which the criminal charge was dismissed. The superior court shall review the recommendation not later than forty-eight hours, excluding Saturdays, Sundays, and holidays, after the recommendation is presented. If the court rejects the recommendation to unconditionally release the individual, the court may order the individual detained at a designated evaluation and treatment facility for not more than a seventy-two hour evaluation and treatment period and direct the individual to appear at a surety hearing before that court within seventy-two hours, or the court may release the individual but direct the individual to appear at a surety hearing set

before that court within eleven days, at which time the prosecutor may file a petition under this chapter for ninety-day inpatient or outpatient treatment. If a petition is filed by the prosecutor, the court may order that the person named in the petition be detained at the evaluation and treatment facility that performed the evaluation under this subsection or order the respondent to be in outpatient treatment. If a petition is filed but the individual fails to appear in court for the surety hearing, the court shall order that a mental health professional or peace officer shall take such person or cause such person to be taken into custody and placed in an evaluation and treatment facility to be brought before the court the next judicial day after detention. Upon the individual's first appearance in court after a petition has been filed, proceedings under RCW 71.05.310 and 71.05.320 shall commence. For an individual subject to this subsection, the prosecutor or professional person may directly file a petition for ninety-day inpatient or outpatient treatment and no petition for initial detention or fourteen-day detention is required before such a petition may be filed.

The court shall conduct the hearing on the petition filed under this subsection within five judicial days of the date the petition is filed. The court may continue the hearing upon the written request of the person named in the petition or the person's attorney, for good cause shown, which continuance shall not exceed five additional judicial days. If the person named in the petition requests a jury trial, the trial shall commence within ten judicial days of the date of the filing of the petition. The burden of proof shall be by clear, cogent, and convincing evidence and shall be upon the petitioner. The person shall be present at such proceeding, which shall in all respects accord with the constitutional guarantees of due process of law and the rules of evidence pursuant to RCW 71.05.360 (8) and (9).

During the proceeding the person named in the petition shall continue to be detained and treated until released by order of the court. If no order has been made within thirty days after the filing of the petition, not including any extensions of time requested by the detained person or his or her attorney, the detained person shall be released.

(3) If a designated mental health professional or the professional person and prosecuting attorney for the county in which the criminal charge was dismissed or attorney general, as appropriate, stipulate that the individual does not present a likelihood of serious harm or is not gravely disabled, the hearing under this section is not required and the individual, if in custody, shall be released.

(4) The individual shall have the rights specified in RCW 71.05.360 (8) and (9).

Sec. 847. RCW 10.77.065 and 2014 c 10 s 3 are each amended to read as follows:

(1)(a)(i) The expert conducting the evaluation shall provide his or her report and recommendation to the court in which the criminal proceeding is pending. For a competency evaluation of a defendant who is released from custody, if the evaluation cannot be completed within twenty-one days due to a lack of cooperation by the defendant, the evaluator shall notify the court that he or she is unable to complete the evaluation because of such lack of cooperation.

(ii) A copy of the report and recommendation shall be provided to the designated mental health professional, the prosecuting attorney, the defense attorney, and the professional person at the local correctional facility where the defendant is being held, or if there is no professional person, to the person designated under (a)(iv) of this subsection. Upon request, the evaluator shall also provide copies of any source documents relevant to the evaluation to the designated mental health professional.

(iii) Any facility providing inpatient services related to competency shall discharge the defendant as soon as the facility determines that the defendant is competent to stand trial. Discharge

shall not be postponed during the writing and distribution of the evaluation report. Distribution of an evaluation report by a facility providing inpatient services shall ordinarily be accomplished within two working days or less following the final evaluation of the defendant. If the defendant is discharged to the custody of a local correctional facility, the local correctional facility must continue the medication regimen prescribed by the facility, when clinically appropriate, unless the defendant refuses to cooperate with medication and an involuntary medication order by the court has not been entered.

(iv) If there is no professional person at the local correctional facility, the local correctional facility shall designate a professional person as defined in RCW 71.05.020 or, in cooperation with the regional support network, a professional person at the regional support network to receive the report and recommendation.

(v) Upon commencement of a defendant's evaluation in the local correctional facility, the local correctional facility must notify the evaluator of the name of the professional person, or person designated under (a)(iv) of this subsection, to receive the report and recommendation.

(b) If the evaluator concludes, under RCW 10.77.060(3)(f), the person should be evaluated by a designated mental health professional under chapter 71.05 RCW, the court shall order such evaluation be conducted prior to release from confinement when the person is acquitted or convicted and sentenced to confinement for twenty-four months or less, or when charges are dismissed pursuant to a finding of incompetent to stand trial.

(2) The designated mental health professional shall provide written notification within twenty-four hours of the results of the determination whether to commence proceedings under chapter 71.05 RCW. The notification shall be provided to the persons identified in subsection (1)(a) of this section.

(3) The prosecuting attorney shall provide a copy of the results of any proceedings commenced by the designated mental health professional under subsection (2) of this section to the secretary.

(4) A facility conducting a civil commitment evaluation under RCW 10.77.086(4) or 10.77.088(1)(~~bb~~) (c)(ii) that makes a determination to release the person instead of filing a civil commitment petition must provide written notice to the prosecutor and defense attorney at least twenty-four hours prior to release. The notice may be given by electronic mail, facsimile, or other means reasonably likely to communicate the information immediately.

(5) The fact of admission and all information and records compiled, obtained, or maintained in the course of providing services under this chapter may also be disclosed to the courts solely to prevent the entry of any evaluation or treatment order that is inconsistent with any order entered under chapter 71.05 RCW.

Sec. 848. RCW 10.77.065 and 2014 c 225 s 59 and 2014 c 10 s 3 are each reenacted and amended to read as follows:

(v) Upon commencement of a defendant's evaluation in the local correctional facility, the local correctional facility must notify the evaluator of the name of the professional person, or person designated under (a)(iv) of this subsection, to receive the report and recommendation.

(b) If the evaluator concludes, under RCW 10.77.060(3)(f), the person should be evaluated by a designated mental health professional under chapter 71.05 RCW, the court shall order such evaluation be conducted prior to release from confinement when the person is acquitted or convicted and sentenced to confinement for twenty-four months or less, or when charges are dismissed pursuant to a finding of incompetent to stand trial.

"**Sec. 853.** RCW 9A.52.010 and 2011 c 336 s 369 are each reenacted and amended to read as follows:

The following definitions apply in this chapter:

(1) "Access" means to approach, instruct, communicate with, store data in, retrieve data from, or otherwise make use of any resources of a computer, directly or by electronic means.

(2) "Computer program" means an ordered set of data representing coded instructions or statements that when executed by a computer cause the computer to process data.

(3) "Data" means a representation of information, knowledge, facts, concepts, or instructions that are being prepared or have been prepared in a formalized manner and are intended for use in a computer.

(4) "Enter." The word "enter" when constituting an element or part of a crime, shall include the entrance of the person, or the insertion of any part of his or her body, or any instrument or weapon held in his or her hand and used or intended to be used to threaten or intimidate a person or to detach or remove property.

(5) "Enters or remains unlawfully." A person "enters or remains unlawfully" in or upon premises when he or she is not then licensed, invited, or otherwise privileged to so enter or remain.

A license or privilege to enter or remain in a building which is only partly open to the public is not a license or privilege to enter or remain in that part of a building which is not open to the public. A person who enters or remains upon unimproved and apparently unused land, which is neither fenced, gated, nor otherwise enclosed in a manner designed to exclude intruders, does so with license and privilege unless notice against trespass is personally communicated to him or her by the owner of the land or some other authorized person, or unless notice is given by posting in a conspicuous manner. Land that is used for commercial aquaculture or for growing an agricultural crop or crops, other than timber, is not unimproved and apparently unused land if a crop or any other sign

of cultivation is clearly visible or if notice is given by posting in a conspicuous manner. Similarly, a field fenced in any manner is not unimproved and apparently unused land. A license or privilege to enter or remain on improved and apparently used land that is open to the public at particular times, which is neither fenced nor otherwise enclosed in a manner to exclude intruders, is not a license or privilege to enter or remain on the land at other times if notice of prohibited times of entry is posted in a conspicuous manner.

(6) "Posting in a conspicuous manner" may include: Posting a sign or signs reasonably likely to come to the attention of intruders, indicating that entry is restricted; if the property is located outside of urban growth areas and incorporated cities or towns, the placement of identifying fluorescent orange paint marks on trees or posts on property; or a combination of signs and identifying fluorescent orange paint marks.

(a) Identifying fluorescent orange paint marks must be:

(i) Vertical lines approximately twelve inches in length and not less than one inch in width;

(ii) Placed so that the bottom of the mark is between three and five feet from the ground; and

(iii) Placed at locations that are readily visible to any person approaching the property and no more than one hundred feet apart on forest land, as defined in RCW 76.09.020, or one thousand feet apart on land other than forest land.

(b) Identifying fluorescent orange paint marks alone may not be used for posting in a conspicuous manner on a road or driveway approved by the owner for motorized access where vehicles can enter the property.

(7) "Premises" includes any building, dwelling, structure used for commercial aquaculture, or any real property.

NEW SECTION. Sec. 854. The department of fish and wildlife, the department of natural resources, and the state parks and recreation commission are encouraged to use their web sites and appropriate publications to inform the public that as of July 1, 2016, vertical orange marks on trees or posts may indicate a private boundary line and that crossing that line without first securing the owner's permission could constitute trespassing.

NEW SECTION. Sec. 855. Section 1 of this act takes effect July 1, 2016."

(b) An agency shall take reasonable steps to assure the security of its records and prevent tampering with them; and

(c) An agency shall make reasonable efforts to insure the completeness of its records, including action taken by other agencies with respect to matters in its files.

(4) Each juvenile justice or care agency shall implement procedures consistent with the provisions of this chapter to facilitate inquiries concerning records.

(5) Any person who has reasonable cause to believe information concerning that person is included in the records of a juvenile justice or care agency and who has been denied access to those records by the agency may make a motion to the court for an order authorizing that person to inspect the juvenile justice or care agency record concerning that person. The court shall grant the motion to examine records unless it finds that in the interests of justice or in the best interests of the juvenile the records or parts of them should remain confidential.

(6) A juvenile, or his or her parents, or any person who has reasonable cause to believe information concerning that person is included in the records of a juvenile justice or care agency may make a motion to the court challenging the accuracy of any information concerning the moving party in the record or challenging the continued possession of the record by the agency. If the court grants the motion, it shall order the record or information to be corrected or destroyed.

(7) The person making a motion under subsection (5) or (6) of this section shall give reasonable notice of the motion to all parties

to the original action and to any agency whose records will be affected by the motion.

(8) The court may permit inspection of records by, or release of information to, any clinic, hospital, or agency which has the subject person under care or treatment. The court may also permit inspection by or release to individuals or agencies, including juvenile justice advisory committees of county law and justice councils, engaged in legitimate research for educational, scientific, or public purposes. Each person granted permission to inspect juvenile justice or care agency records for research purposes shall present a notarized statement to the court stating that the names of juveniles and parents will remain confidential.

(9) The court shall release to the caseload forecast council the records needed for its research and data-gathering functions. Access to caseload forecast data may be permitted by the council for research purposes only if the anonymity of all persons mentioned in the records or information will be preserved.

(10) Juvenile detention facilities shall release records to the caseload forecast council upon request. The commission shall not disclose the names of any juveniles or parents mentioned in the records without the named individual's written permission.

(11) Requirements in this chapter relating to the court's authority to compel disclosure shall not apply to the legislative children's oversight committee or the office of the family and children's ombuds.

(12) For the purpose of research only, the administrative office of the courts shall maintain an electronic research copy of all records in the judicial information system related to juveniles. Access to the research copy is restricted to the Washington state center for court research. The Washington state center for court research shall maintain the confidentiality of all confidential records and shall preserve the anonymity of all persons identified in the research copy. The research copy may not be subject to any records retention schedule and must include records destroyed or removed from the judicial information system pursuant to RCW 13.50.270 and 13.50.100(3).

(13) The court shall release to the Washington state office of public defense records needed to implement the agency's oversight, technical assistance, and other functions as required by RCW 2.70.020. Access to the records used as a basis for oversight, technical assistance, or other agency functions is restricted to the Washington state office of public defense. SSB 5298 Prime Sponsor, Committee on Agriculture, Water & Rural Economic Development: Concerning the diversion of certain municipal waters. Reported by Committee on Agriculture & Natural Resources

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 863. (1) The legislature finds that foreign water is a unique commodity that does not naturally contribute as a source of water supply to a river, river basin, or groundwater in a basin where the foreign water is imported or developed and used. The legislature recognizes that opportunities to use foreign water as a domestic water source are rare but have the potential for great environmental benefits. Further, the legislature recognizes that the city of Lynden is uniquely positioned to use foreign water for domestic use. Further, the legislature recognizes that the city of Lynden is actively pursuing implementation of a major salmon habitat restoration project on Pepin creek, a tributary of the Nooksack river, that will improve habitat for several endangered species in the Nooksack river.

(2) The legislature further recognizes that the implementation of this act does not alleviate the need to fully evaluate the water rights throughout the Nooksack river basin and develop a comprehensive solution to adequate water supply for all parties, and in particular, native tribes.

Sec. 864. RCW 90.03.397 and 2011 c 117 s 1 are each amended to read as follows:

(1) The department may approve a change of the point of diversion prescribed in a permit to appropriate surface water for a beneficial use if the ownership, purpose of use, season of use, and place of use of the permit remain the same to an approved intake structure with capacity to transport the additional diversion to either: (a) A point of diversion that is located downstream; or (b) a point of diversion located between Columbia river miles 215.6 and 292, if the existing point of diversion is contained therein.

(2) This section may not be construed as limiting in any manner whatsoever other authorities of the department under RCW 90.03.380 or other changes that may be approved under RCW 90.03.380 under authorities existing before July 25, 1999.

(3)(a) Except as otherwise provided in this section, the legislature finds that it will clearly serve overriding considerations of the public interest for the department to make uninterrupted supplies of water available for appropriation for a municipal water supplier, notwithstanding any minimum instream flows or levels established under chapter 90.22 or 90.54 RCW, when all of the following conditions are satisfied:

(i) For both the instantaneous rate of the diversion, as measured on a daily basis, and the annual volume of the diversion, a quantity of foreign water that is equivalent to or greater than the quantity of water diverted by the municipal water supplier is introduced:

(A) Into the Nooksack river, between river mile seventeen and river mile nineteen; and

(B) Less than one mile downstream from the point of diversion;
(ii) The instantaneous diversion represents no more than 0.1 percent of adopted minimum instream flows or levels;

(iii) The total volume diverted and the total volume of foreign water introduced are measured and reported to the department no less than four times per year; and

(iv) The introduction of foreign water complies with all applicable water quality regulations for receiving water and all local, state, and federal permitting requirements.

(b) For the purposes of this subsection, "foreign water" means water that does not naturally contribute as a source of water supply that would reach the river, river basin, or groundwater associated with the location of the diversion.

(c) Nothing in this section:

(i) Allows the instantaneous diversion of foreign water between river mile seventeen and river mile nineteen on the Nooksack river at any time when the amount of water in the Nooksack river is at or below any minimum instream flows or levels established by the department;

(ii) Allows the instantaneous diversion of foreign water between river mile seventeen and river mile nineteen on the

Nooksack river at any time when the diversion would cause the amount of water in the Nooksack river to fall below any minimum instream flows or levels established by the department;

(iii) Limits the ability of the legislature to reconsider its finding relating to the overriding consideration of public interest as described in this section in the event of future changed circumstances; and

(iv) May be construed to affect, constrain, or otherwise limit the authority of the department to determine that overriding considerations of the public interest have been met in approving new withdrawals under RCW 90.54.020(3)."

ESSB 5347 Prime Sponsor, Committee on Ways & Means: Creating demonstration projects for preserving agricultural land and public infrastructure in flood plains. Reported by Committee on Agriculture & Natural Resources

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

"**NEW SECTION. Sec. 865.** (1) The legislature intends for the state conservation commission and the departments of ecology, agriculture, fish and wildlife, and natural resources to work together cooperatively, efficiently, and productively to facilitate the intent of this act.

(2) The legislature further intends that the collaborative process created by the stakeholder group required in section 3 of this act, including the participation of local stakeholders, will be used as a model for river management throughout the state.

(3) The legislature finds that floodplain management must address multiple benefits including:

(a) Reducing flood hazard to public infrastructure and other land uses caused by sediment accumulation or for other causes;

(b) Improving fish and wildlife habitat;

(c) Sustaining agriculture; and

(d) Maintaining and enhancing public access.

NEW SECTION. Sec. 866. (1) The state conservation commission and the departments of agriculture, natural resources, fish and wildlife, and ecology must jointly identify and assess three demonstration projects. One demonstration project must be located primarily in Whatcom county, one must be located primarily in Snohomish county, and one must be located primarily in Grays Harbor county.

(2) The demonstration projects must be designed to test the effectiveness and costs of river management by using various management strategies and techniques, as applied, to accomplish the following goals:

(a) Protection of agricultural lands;

(b) Restoration or enhancement of fish runs; and

(c) Protection of public infrastructure and recreational access.

(3) In developing the demonstration projects, the state conservation commission and the departments must, in consultation with the stakeholder group required by section 3 of this act:

(a) Examine studies and reports related to sediment management conducted in the Fraser river, British Columbia, Canada, to assess whether and how the Fraser river experience applies to the goals of this section, and include any potentially applicable practices in the development of the demonstration projects; and

(b) Set benchmarks and a timetable for progress toward achievement of the goals of this act.

(4) The development and assessment of the demonstration projects must also consider the disposition of any state-owned gravel resources removed as a result of the demonstration projects. The presumed disposition must be consistent with chapter 79.140 RCW. However, the process for developing and assessing the pilot project may consider:

(a) Using the gravel resources, at the discretion of the departments, in projects related to fish enhancement programs in the local area of the project or by property owners adjacent to the project;

(b) Making gravel resources available to local tribes for their use; or

(c) Selling the gravel resources and using the proceeds to fund the demonstration projects.

(5) At a minimum, the demonstration projects must be designed to collectively examine the following management strategies and techniques:

(a) Providing deeper, cooler holes for fish life;

(b) Removing excess sediment and gravel that causes diversion of water and erosion of river banks and farmland;

(c) Providing off-channels for habitat as refuge during high flows;

(d) Ensuring that any management activities leave sufficient gravel and sediment for fish spawning and rearing;

(e) Providing stable river banks that will allow for long-term growth of riparian enhancement efforts, such as planting shade trees and hedgerows;

(f) Protecting existing mature treed riparian zones that cool the waters;

(g) Restoring previously existing bank contours that protect the land from erosion caused by more intense and more frequent flooding;

(h) Developing management practices that reduce the amount of gravel, sediment, and woody debris deposited into farm fields; and

(i) Setting back levees and other measures in segments of rivers upstream from the delta to accommodate high flow.

NEW SECTION. Sec. 867. (1) The state conservation commission must convene a stakeholder group to assist in the

development and assessment of the demonstration projects required under section 2 of this act.

(2) The stakeholder group must consist of representatives from:

(a) The departments of agriculture, natural resources, fish and wildlife, and ecology;

(b) Local and statewide agricultural organizations;

(c) Land conservation organizations; and

(d) Local governments with interest and experience in floodplain management techniques.

(3) In addition to the participants on the stakeholder group, the state conservation commission and the departments responsible for implementing section 2 of this act must also consult with, and obtain the views of, any federally recognized tribe that may be affected by each demonstration project.

(4) The stakeholder group required by this section must be staffed by the state conservation commission with assistance, as requested, from the departments responsible for implementing section 2 of this act.

(5) Each member of the stakeholder group not employed by the state of Washington shall serve without compensation but may be reimbursed for travel expenses as authorized in RCW 43.03.050 and 43.03.060.

(6) Any costs for the implementation of this section, including the participation costs for nonagency participants, must be shared among the agencies responsible for implementing this act. The state conservation commission shall coordinate and manage these costs through interagency agreements with all of the affected agencies.

NEW SECTION. Sec. 868. (1) The state conservation commission and the departments responsible for implementing section 2 of this act must submit a report to the legislature, consistent with RCW 43.01.036, by October 31, 2016.

(2) The report must include:

(a) An examination and findings of the applicability of the Fraser river experience to the goals of this act;

(b) Information regarding the benchmarks and timetables required under section 2 of this act;

(c) Any decisions made in developing and assessing the projects required in this section;

(d) Any recommendations for extending or changing the process required in section 2 of this act or moving into the demonstration project implementation phase; and

(e) Any recommendations for funding the implementation of demonstration projects from federal grants, federal loans, state grants and loans, and private donations, or if other funding sources are not available or complete, the submission of the three demonstration projects for consideration in the biennial capital budget request to the governor and the legislature.

NEW SECTION. Sec. 869. If funding is identified for the implementation of the demonstration projects developed under section 2 of this act from sources other than specific state appropriations, and the implementation of the demonstration projects can occur within the existing authority of all affected parties, the legislature intends for the state conservation commission and the departments responsible for implementing section 2 of this act to coordinate with the stakeholder group required in section 3 of this act to cooperatively, efficiently, and productively initiate the implementation of the demonstration projects, including the joint and contemporaneous expediting of any necessary permits related to the demonstration projects.

NEW SECTION. Sec. 870. All requirements in this act are subject to the availability of amounts appropriated for the specific purposes described.

NEW SECTION. Sec. 871. This act expires July 1, 2017."

NEW SECTION. Sec. 1209. EXECUTION OF ENTITY FILING. (1) Any person who executes a record the person knows is false in any material respect with the intent the record be an entity filing is guilty of a gross misdemeanor punishable under chapter 9A.20 RCW.

(2) A person that executes an entity filing as an agent or legal representative thereby affirms as a fact that the person is authorized to execute the entity filing.

NEW SECTION. Sec. 1210. EXECUTION AND FILING PURSUANT TO JUDICIAL ORDER. (1) If a person required by the entity's organic law to execute a record that is to be an entity filing or to make an entity filing does not do so, any other person that is aggrieved may petition the superior court to order:

(a) The person to execute the record;

(b) The person to make the entity filing; or

(c) The secretary of state to file the entity filing unexecuted.

(2) If the petitioner under subsection (1) of this section is not the entity to which the entity filing pertains, the petitioner shall make the entity a party to the action.

(3) A filed record created under subsection (1)(c) of this section is effective without being executed.

NEW SECTION. Sec. 1211. DELIVERY BY SECRETARY OF STATE. Except as otherwise provided by section 1411 of this act or by law of this state other than this chapter, the secretary of state may deliver a record to a person by delivering it:

(1) In person to the person that submitted it for filing;

(2) To the address of the person's registered agent;

(3) To the principal office address of the person; or

(4) To another address the person provides to the secretary of state for delivery.

NEW SECTION. Sec. 1212. ANNUAL REPORT FOR SECRETARY OF STATE. (1) A domestic entity other than a limited liability partnership or nonprofit corporation shall, within one hundred twenty days of the date on which its public organic record became effective, deliver to the secretary of state for filing an initial report that states the information required under subsection (2) of this section.

(2) A domestic entity or registered foreign entity shall deliver to the secretary of state for filing an annual report that states:

(a) The name of the entity and its jurisdiction of formation;

(b) The name and street and mailing addresses of the entity's registered agent in this state;

(4) Annual reports must be delivered to the secretary of state on a date determined by the secretary of state and at such additional times as the entity elects.

(5) If an initial or annual report does not contain the information required by this section, the secretary of state promptly shall notify the reporting entity in a record and return the report for correction.

(6) If an initial or annual report contains the name or address of a registered agent that differs from the information shown in the records of the secretary of state immediately before the annual report becomes effective, the differing information in the initial or annual report is considered a statement of change under section 1407 of this act.

(7) The secretary of state shall send to each domestic entity and registered foreign entity, not less than thirty or more than ninety

days prior to the expiration date of the entity's annual renewal, a notice that the entity's annual report must be filed as required by this chapter and that any applicable annual renewal fee must be paid, and stating that if the entity fails to file its annual report or pay the annual renewal fee it will be administratively dissolved. The notice may be sent by postal or electronic mail as elected by the entity, addressed to its registered agent within the state, or to an electronic address designated by the entity in a record retained by the secretary of state. Failure of the secretary of state to provide any such notice does not relieve a domestic entity or registered foreign entity from its obligations to file the annual report required by this chapter or to pay any applicable annual renewal fee. The option to receive the notice provided under this section by electronic mail may be selected only when the secretary of state makes the option available.

NEW SECTION. Sec. 1213. FEES. (1) Except as provided in subsection (2) of this section, the secretary of state shall adopt rules in accordance with chapter 34.05 RCW setting:

(e) Filing annual reports when submitted concurrently with the payment of annual license fees.

(3) The withdrawal under section 1204 of this act of a filed record before it is effective or the correction of a filed record under section 1205 of this act does not entitle the person on whose behalf the record was filed to a refund of the filing fee.

(4) The secretary of state shall establish the fee schedule authorized under this section in a manner that is consistent with the fee schedule applicable to the various entities that is in effect on the effective date of this section. The amounts of fees, charges, and penalties established under this section may be no greater than the amounts applicable to entity filings, penalties, and other charges in effect on the effective date of this section. Fees may be adjusted by rule only in an amount that does not exceed the average biennial increase in the cost of providing service. This must be determined in a biennial cost study performed by the secretary of state.

(5) All fees collected by the secretary of state shall be deposited with the state treasurer pursuant to law or deposited in the secretary of state's revolving fund as provided in RCW 43.07.130.

NEW SECTION. Sec. 1214. WAIVER OF PENALTY FEES. The secretary of state may, where exigent or mitigating circumstances are presented, waive penalty fees due from any entity previously in good standing which would otherwise be penalized or lose its active status. An entity desiring to seek relief under this section must, within fifteen days of discovery of the missed filing or lapse, notify the secretary of state in writing. The notification must include the name and mailing address of the entity, the governor or other entity official to whom correspondence should be sent, and a statement under oath by a governor or other entity official, setting forth the nature of the missed filing or lapse, the circumstances giving rise to the missed filing or lapse, and the relief sought. If the secretary of state is satisfied that sufficient exigent or mitigating circumstances exist, that the entity has demonstrated good faith and

a reasonable attempt to comply with the applicable statutes of this state, the secretary of state may issue an order allowing relief from the penalty. If the secretary of state determines the request does not comply with the requirements for relief, the secretary of state shall deny the relief and state the reasons for the denial. Any denial of relief by the secretary of state is not reviewable notwithstanding the provisions of chapter 34.05 RCW.

NEW SECTION. Sec. 1403. ADDRESSES IN FILING. If a provision of this chapter other than section 1410(1)(d) of this act requires that a record state an address, the record must state:

(1) A street address in this state; and

(2) A mailing address in this state, if different from the address described in subsection (1) of this section.

NEW SECTION. Sec. 1404. DESIGNATION OF REGISTERED AGENT. (1) A registered agent filing must be executed by the represented entity and state:

(a) The name of the entity's commercial registered agent; or

(b) If the entity does not have a commercial registered agent:

(2) A registered agent shall not be appointed without having given prior consent in a record to the appointment. The consent shall be delivered to the secretary of state in such form as the secretary of state may prescribe. The consent shall be filed with or as a part of the record first appointing a registered agent. In the event any individual or entity has been appointed registered agent without consent, that individual or entity may deliver to the secretary of state a notarized statement attesting to that fact, and the name shall immediately be removed from the records of the secretary of state.

NEW SECTION. Sec. 1405. LISTING OF COMMERCIAL REGISTERED AGENT. (1) A person may become listed as a commercial registered agent by delivering to the secretary of state for filing a commercial-registered-agent listing statement executed by the person which states:

(a) The name of the individual or the name of the entity, type of entity, and jurisdiction of formation of the entity;

(b) That the person is in the business of serving as a commercial registered agent in this state; and

(4) The secretary of state shall note the filing of a commercial-registered-agent listing statement in the records maintained by the secretary of state for each entity represented by the agent at the time of the filing. The statement has the effect of amending the registered agent filing for each of those entities to:

(b) Delete the name and address of the former agent from the registered agent filing of each of those entities.

(4) When a commercial-registered-agent termination statement takes effect, the commercial registered agent ceases to be the registered agent for each entity formerly represented by it. Until an entity formerly represented by a terminated commercial registered agent designates a new registered agent, service of process may be made on the entity pursuant to section 1411 of this act. Termination of the listing of a commercial registered agent under this section does not affect any contractual rights a represented entity has against the agent or that the agent has against the entity.

NEW SECTION. Sec. 1407. CHANGE OF REGISTERED AGENT BY ENTITY. (1) A represented entity may change its registered agent or other information on file under section 1404(1) of this act by delivering to the secretary of state for filing a statement of change executed by the entity which states:

(i) If the type of entity of the agent has changed, the new type of entity; and

(ii) If the jurisdiction of formation of the agent has changed, the new jurisdiction of formation.

(2) The filing by the secretary of state of a statement of change under subsection (1) of this section is effective to change the information regarding the agent with respect to each entity represented by the agent.

(3) A commercial registered agent promptly shall furnish to each entity represented by it a notice in a record of the filing by the secretary of state of a statement of change relating to the name or address of the agent and the changes made in the statement.

(4) If a commercial registered agent changes its address without delivering for filing a statement of change as required by this section, the secretary of state may cancel the listing of the agent under section 1405 of this act. A cancellation under this subsection has the same effect as a termination under section 1406 of this act. Promptly after canceling the listing of an agent, the secretary of state shall serve notice in a record in the manner provided in section 1411 (2) or (3) of this act on:

(a) Each entity represented by the agent, stating that the agent has ceased to be the registered agent for the entity and that, until the entity designates a new registered agent, service of process may be made on the entity as provided in section 1411 of this act; and

(b) The agent, stating that the listing of the agent has been canceled under this section.

NEW SECTION. Sec. 1410. RESIGNATION OF REGISTERED AGENT. (1) A registered agent may resign as agent for a represented entity by delivering to the secretary of state for filing a statement of resignation executed by the agent which states:

(2) A statement of resignation takes effect on the earlier of:

(a) The 31st day after the day on which it is filed by the secretary of state; or

(b) The designation of a new registered agent for the represented entity.

(3) A registered agent promptly shall furnish to the represented entity notice in a record of the date on which a statement of resignation was filed.

NEW SECTION. Sec. 1411. SERVICE OF PROCESS, NOTICE, OR DEMAND ON ENTITY. (1) A represented entity may be served with any process, notice, or demand required or permitted by law by serving its registered agent.

(2) If a represented entity ceases to have a registered agent, or if its registered agent cannot with reasonable diligence be served, the entity may be served by registered or certified mail, return receipt requested, or by similar commercial delivery service, addressed to the entity at the entity's principal office. The address of the principal office must be as shown in the entity's most recent annual report filed by the secretary of state. Service is effected under this subsection on the earliest of:

(a) The date the entity receives the mail or delivery by the commercial delivery service;

(b) The date shown on the return receipt, if executed by the entity; or

(c) Five days after its deposit with the United States Postal Service or commercial delivery service, if correctly addressed and with sufficient postage or payment.

(3) If process, notice, or demand cannot be served on an entity pursuant to subsection (1) or (2) of this section, service may be made

by handing a copy to the individual in charge of any regular place of business or activity of the entity if the individual served is not a plaintiff in the action.

(4) The secretary of state shall be an agent of the entity for service of process if process, notice, or demand cannot be served on an entity pursuant to subsection (1), (2), or (3) of this section.

(5) Service of process, notice, or demand on a registered agent must be in a written record, but service may be made on a commercial registered agent in other forms, and subject to such requirements, as the agent has stated in its listing under section 1405 of this act that it will accept.

(6) Service of process, notice, or demand may be made by other means under law other than this chapter.

NEW SECTION. Sec. 1412. DUTIES OF REGISTERED AGENT. The only duties under this chapter of a registered agent that has complied with this chapter are:

(1) To forward to the represented entity at the address most recently supplied to the agent by the entity any process, notice, or demand pertaining to the entity which is served on or received by the agent;

(2) To provide the notices required by this chapter to the entity at the address most recently supplied to the agent by the entity;

(3) If the agent is a noncommercial registered agent, to keep current the information required by section 1404(1) of this act in the most recent registered agent filing for the entity; and

(4) If the agent is a commercial registered agent, to keep current the information listed for it under section 1405(1) of this act.

NEW SECTION. Sec. 1413. JURISDICTION AND VENUE. The designation or maintenance in this state of a registered agent does not by itself create the basis for personal jurisdiction over the represented entity in this state. The address of the agent does not determine venue in an action or a proceeding involving the entity.

ARTICLE 5

FOREIGN ENTITIES

NEW SECTION. Sec. 1501. GOVERNING LAW. (1) Part I of this act does not authorize this state to regulate the organization or internal affairs of a foreign entity registered to do business in this state, or govern the liability that a person has as an interest holder or governor for a debt, obligation, or other liability of the foreign entity.

(2) A foreign entity is not precluded from registering to do business in this state because of any difference between the law of the entity's jurisdiction of formation and the law of this state.

(3) Registration of a foreign entity to do business in this state does not authorize the foreign entity to engage in any activity or exercise any power that a domestic entity of the same type may not engage in or exercise in this state. Except as otherwise provided in this chapter or other applicable law of this state, a foreign entity is subject to the same duties, restrictions, penalties, and liabilities now or later imposed on a domestic entity of the same type.

NEW SECTION. Sec. 1502. REGISTRATION TO DO BUSINESS IN THIS STATE. (1) A foreign entity may not do business in this state until it registers with the secretary of state under this chapter.

(2) A foreign entity doing business in this state may not maintain an action or proceeding in this state unless it is registered to do business in this state and has paid to this state all fees and penalties for the years, or parts thereof, during which it did business in this state without having registered.

(3) The successor to a foreign entity that transacted business in this state without a certificate of registration and the assignee of a cause of action arising out of that business may not maintain a proceeding based on that cause of action in any court in this state until the foreign entity, or its successor, obtains a certificate of registration.

(4) A court may stay a proceeding commenced by a foreign entity, its successor, or assignee until it determines whether the foreign entity, or its successor, requires a certificate of registration. If it so determines, the court may further stay the proceeding until the foreign entity, or its successor, obtains the certificate of registration.

(5) A foreign entity that transacts business in this state without a certificate of registration is liable to this state, for the years or parts thereof during which it transacted business in this state without a certificate of registration, in an amount equal to all fees which would have been imposed by this chapter upon the entity had it applied for and received a certificate of registration to transact business in this state and thereafter filed all reports required by this chapter, plus all penalties imposed by this chapter for failure to pay such fees.

(6) The failure of a foreign entity to register to do business in this state does not: (a) Impair the validity of a contract or act of the foreign entity; (b) impair the right of any other party to the contract to maintain any action, suit, or proceeding on the contract; or (c) preclude the foreign entity from defending an action or proceeding in this state.

(7) A limitation on the liability of an interest holder or governor of a foreign entity is not waived solely because the foreign entity does business in this state without registering.

(2) If a domestic entity, not later than sixty days after service of the notice required by subsection (1) of this section, does not cure or demonstrate to the satisfaction of the secretary of state the nonexistence of each ground determined by the secretary of state, the secretary of state shall administratively dissolve the entity by executing a statement of administrative dissolution that recites the grounds for dissolution and the effective date of dissolution. The secretary of state shall file the statement and serve a copy on the entity pursuant to section 1211 of this act.

(2) Permissible means of transmission.

Oral notice may be communicated in person, by telephone, wire, or wireless equipment which does not transmit a facsimile of the notice, or by any electronic means which does not create a record. If these forms of oral notice are impracticable, oral notice may be communicated by radio, television, or other form of public broadcast communication.

(b) Notice provided in a tangible medium. Notice may be provided in a tangible medium and be transmitted by mail, private carrier, or personal delivery; telegraph or teletype; or telephone, wire, or wireless equipment which transmits a facsimile of the notice. If these forms of notice in a tangible medium are impracticable, notice in a tangible medium may be transmitted by an advertisement in a newspaper of general circulation in the area where published.

(c) Notice provided in an electronic transmission.

(i) Notice may be provided in an electronic transmission and be electronically transmitted.

(ii) Notice to shareholders or directors in an electronic transmission is effective only with respect to shareholders and directors that have consented, in the form of a record, to receive electronically transmitted notices under this title and designated in the consent the address, location, or system to which these notices may be electronically transmitted and with respect to a notice that otherwise complies with any other requirements of this title and applicable federal law.

The inadvertent failure by the corporation to treat this inability as a revocation does not invalidate any meeting or other corporate action.

(iii) Notice to shareholders or directors who have consented to receipt of electronically transmitted notices may be provided by (A) posting the notice on an electronic network and (B) delivering to the shareholder or director a separate record of the posting, together with comprehensible instructions regarding how to obtain access to the posting on the electronic network.

Notwithstanding anything to the contrary in this section or any other section of this title, if this title requires that a notice to shareholders be accompanied by certain material, a public company may satisfy such a requirement, whether or not a shareholder has consented to receive electronically transmitted notice, by (i) posting the material on an electronic network (either separate from, or in combination or as part of, any other materials the public company has posted on the electronic network in compliance with applicable federal law) at or prior to the time that the notice is delivered to the public company's shareholders entitled to receive the notice, and (ii) delivering to the public company's shareholders entitled to receive the notice a separate record of the posting (which record may accompany, or be contained in, the notice), together with comprehensible instructions regarding how to obtain access to the posting on the electronic network. In such a case, the material is deemed to have been delivered to the public company's shareholders at the time the notice to the shareholders is effective under this section. A public company that elects pursuant to this section to post on an electronic network any material required by this title to accompany a notice to shareholders is required, at its expense, to provide a copy of the material in a tangible medium (alone or in combination or as part of any other materials the public company has posted on the electronic network in compliance with federal law) to any shareholder entitled to such a notice who so requests.

Notice provided in an electronic transmission, if in comprehensible form, is effective when it: (i) Is electronically transmitted to an address, location, or system designated by the recipient for that purpose; or (ii) has been posted on an electronic network and a separate record

of the posting has been delivered to the recipient together with comprehensible instructions regarding how to obtain access to the posting on the electronic network.

Sec. 2147. RCW 23B.19.020 and 1996 c 155 s 1 are each amended to read as follows:

The definitions in this section apply throughout this chapter.

(1) "Acquiring person" means a person or group of persons, other than the target corporation or a subsidiary of the target corporation, who beneficially owns ten percent or more of the outstanding voting shares of the target corporation. The term "acquiring person" does not include a person who (a) beneficially owned ten percent or more of the outstanding voting shares of the target corporation on March 23, 1988; (b) acquires its shares by gift, inheritance, or in a transaction in which no consideration is exchanged; (c) exceeds the ten percent threshold as a result of action taken solely by the target corporation, such as redemption of shares, unless that person, by its own action, acquires additional shares of the target corporation; (d) beneficially was the owner of ten percent or more of the outstanding voting shares prior to the time the target corporation had a class of voting shares registered with the securities and exchange commission pursuant to section 12 or 15 of the exchange act; or (e) beneficially was the owner of ten percent or more of the outstanding voting shares prior to the time the target corporation amended its articles of incorporation to provide that the corporation shall be subject to the provisions of this chapter. An agent, bank, broker, nominee, or trustee for another person, if the other person is not an acquiring person, who acts in good faith and not for the purpose of circumventing this chapter, is not an acquiring person. For the purpose of determining whether a person is an acquiring person, the number of voting shares of the target corporation that are outstanding shall include shares beneficially owned by the person through application of subsection (4) of this section, but shall not include any other unissued voting shares of the target corporation which may be issuable pursuant to any agreement, arrangement, or understanding; or upon exercise of conversion rights, warrants, or options; or otherwise.

(2) "Affiliate" means a person who directly or indirectly controls, or is controlled by, or is under common control with, a person.

(3) "Announcement date," when used in reference to any significant business transaction, means the date of the first public announcement of the final, definitive proposal for such a significant business transaction.

(4) "Associate" means (a) a domestic or foreign corporation or organization of which a person is an officer, director, member, or partner or in which a person performs a similar function; (b) a direct or indirect beneficial owner of ten percent or more of any class of equity securities of a person; (c) a trust or estate in which a person has a beneficial interest or as to which a person serves as trustee or in a similar fiduciary capacity; and (d) the spouse or a parent or sibling of a person or a child, grandchild, sibling, parent, or spouse of any thereof, of a person or an individual having the same home as a person.

(5) "Beneficial ownership," when used with respect to any shares, means ownership by a person:

(a) Who, individually or with or through any of its affiliates or associates, beneficially owns such shares, directly or indirectly; or

(b) Who, individually or with or through any of its affiliates or associates, has (i) the right to acquire the shares, whether the right is exercisable immediately or only after the passage of time, pursuant to any agreement, arrangement, or understanding, whether or not in writing, or upon the exercise of conversion rights, exchange rights, warrants or options, or otherwise. A person is not the beneficial owner of shares tendered pursuant to a tender or exchange offer made by the person or any of the person's affiliates or associates until the tendered shares are accepted for purchase or

exchange; or (ii) the right to vote the shares pursuant to any agreement, arrangement, or understanding, whether or not in writing. A person is not the beneficial owner of any shares under (b)(ii) of this subsection if the agreement, arrangement, or understanding to vote the shares arises solely from a revocable proxy or consent given in response to a proxy or consent solicitation made in accordance with the applicable rules and regulations under the exchange act and is not then reportable on schedule 13D under the exchange act, or any comparable or successor report; or

(c) Who has any agreement, arrangement, or understanding, whether or not in writing, for the purpose of acquiring, holding, voting, except voting pursuant to a revocable proxy or consent as described in (b)(ii) of this subsection, or disposing of the shares with any other person who beneficially owns, or whose affiliates or associates beneficially own, directly or indirectly, the shares.

(6) "Common shares" means any shares other than preferred shares.

(7) "Consummation date," with respect to any significant business transaction, means the date of consummation of such a significant business transaction, or, in the case of a significant business transaction as to which a shareholder vote is taken, the later of the business day prior to the vote or twenty days prior to the date of consummation of such a significant business transaction.

(8) "Control," "controlling," "controlled by," and "under common control with," means the possession, directly or indirectly, of the power to direct or cause the direction of the management and policies of a person, whether through the ownership of voting shares, by contract, or otherwise. A person's beneficial ownership of ten percent or more of a domestic or foreign corporation's outstanding voting shares shall create a rebuttable presumption that such person has control of such corporation. However, a person does not have control of a domestic or foreign corporation if the person holds voting shares, in good faith and not for the purpose of circumventing this chapter, as an agent, bank, broker, nominee, custodian, or trustee for one or more beneficial owners who do not individually or as a group have control of such corporation.

(9) "Domestic corporation" means an issuer of voting shares which is organized under chapter 23B.02 RCW or any predecessor provision.

(13) "Preferred shares" means any class or series of shares of a target corporation which under the bylaws or articles of incorporation of such a corporation is entitled to receive payment of dividends prior to any payment of dividends on some other class or series of shares, or is entitled in the event of any voluntary liquidation, dissolution, or winding up of the target corporation to receive payment or distribution of a preferential amount before any payments or distributions are received by some other class or series of shares.

(14) "Shares" means any:

(a) Shares or similar security, any certificate of interest, any participation in any profit sharing agreement, any voting trust certificate, or any certificate of deposit for shares; and

(b) Security convertible, with or without consideration, into shares, or any warrant, call, or other option or privilege of buying

shares without being bound to do so, or any other security carrying any right to acquire, subscribe to, or purchase shares.

(15) "Significant business transaction" means:

(a) A merger, share exchange, or consolidation of a target corporation or a subsidiary of a target corporation with (i) an acquiring person, or (ii) any other domestic or foreign corporation which is, or after the merger, share exchange, or consolidation would be, an affiliate or associate of the acquiring person;

(b) A sale, lease, exchange, mortgage, pledge, transfer, or other disposition or encumbrance, whether in one transaction or a series of transactions, to or with an acquiring person or an affiliate or associate of an acquiring person of assets of a target corporation or a subsidiary of a target corporation (i) having an aggregate market value equal to five percent or more of the aggregate market value of all the assets, determined on a consolidated basis, of the target corporation, (ii) having an aggregate market value equal to five percent or more of the aggregate market value of all the outstanding shares of the target corporation, or (iii) representing five percent or more of the earning power or net income, determined on a consolidated basis, of the target corporation;

(c) The termination, while the corporation has an acquiring person and as a result of the acquiring person's acquisition of ten percent or more of the shares of the corporation, of five percent or more of the employees of the target corporation or its subsidiaries employed in this state, whether at one time or over the five-year period following the share acquisition time. For the purposes of (c) of this subsection, a termination other than an employee's death or disability or bona fide voluntary retirement, transfer, resignation, termination for cause under applicable common law principles, or leave of absence shall be presumed to be a termination resulting from the acquiring person's acquisition of shares, which presumption is rebuttable. A bona fide voluntary transfer of employees between the target corporation and its subsidiaries or between its subsidiaries is not a termination for the purposes of (c) of this subsection;

(d) The issuance, transfer, or redemption by a target corporation or a subsidiary of a target corporation, whether in one transaction or a series of transactions, of shares or of options, warrants, or rights to acquire shares of a target corporation or a subsidiary of a target corporation to or beneficially owned by an acquiring person or an affiliate or associate of an acquiring person except pursuant to the exercise of warrants or rights to purchase shares offered, or a dividend, distribution, or redemption paid or made pro rata to, all shareholders or holders of options, warrants, or rights to acquire shares of the target corporation, and except for involuntary redemptions permitted by the target corporation's charter or by the law of this state or the state of incorporation;

(e) The liquidation or dissolution of a target corporation proposed by, or pursuant to an agreement, arrangement, or understanding, whether or not in writing, with an acquiring person or an affiliate or associate of an acquiring person;

(f) A reclassification of securities, including, without limitation, any shares split, shares dividend, or other distribution of shares in respect of stock, or any reverse shares split, or recapitalization of a target corporation, or a merger or consolidation of a target corporation with a subsidiary of the target corporation, or any other transaction, whether or not with or into or otherwise involving an acquiring person, proposed by, or pursuant to an agreement, arrangement, or understanding, whether or not in writing, with an acquiring person or an affiliate or associate of an acquiring person, that has the effect, directly or indirectly, of increasing the proportionate share of the outstanding shares of a class or series of voting shares or securities convertible into voting shares of a target corporation or a subsidiary of the target corporation that is directly or indirectly owned by an acquiring person or an affiliate or associate of an acquiring person, except as

a result of immaterial changes due to fractional share adjustments; or

(g) A receipt by an acquiring person or an affiliate or associate of an acquiring person of the benefit, directly or indirectly, except proportionately as a shareholder of a target corporation, of loans, advances, guarantees, pledges, or other financial assistance or tax credits or other tax advantages provided by or through a target corporation.

(16) "Share acquisition time" means the time at which a person first becomes an acquiring person of a target corporation.

(4) Except as otherwise provided in subsection (3) of this section and RCW 25.05.265 and 25.05.320, a person not a partner is not deemed to know of a limitation on the authority of a partner merely because the limitation is contained in a filed statement.

(i) If the landlord reasonably estimates the fair market value of the stored property to be more than one thousand dollars, the landlord shall arrange to sell the property in a commercially reasonable manner and may dispose of any property that remains unsold in a reasonable manner.

(ii) If the value of the stored property does not meet the threshold provided in (c)(i) of this subsection, the landlord may dispose of the property in a reasonable manner.

Any excess income derived from the sale of such property under this section must be held by the landlord for a period of one year from the date of sale, and if no claim is made for recovery of the excess income before the expiration of that one-year period, the balance must be treated as abandoned property and deposited by the landlord with the department of revenue pursuant to chapter 63.29 RCW.

(d) Personal papers and personal photographs that are not claimed by a tenant representative within ninety days after a sale or other disposition of the deceased tenant's other property shall be either destroyed or held for the benefit of any successor of the deceased tenant as defined in RCW 11.62.005.

Sec. 9126. RCW 59.18.310 and 2011 c 132 s 16 are each amended to read as follows:

(1) If the tenant defaults in the payment of rent and reasonably indicates by words or actions the intention not to resume tenancy, the tenant shall be liable for the following for such abandonment: PROVIDED, That upon learning of such abandonment of the premises the landlord shall make a reasonable effort to mitigate the damages resulting from such abandonment:

((1)) (a) When the tenancy is month-to-month, the tenant shall be liable for the rent for the thirty days following either the date the landlord learns of the abandonment, or the date the next regular rental payment would have become due, whichever first occurs.

((2)) (b) When the tenancy is for a term greater than month-to-month, the tenant shall be liable for the lesser of the following:

((a)) (i) The entire rent due for the remainder of the term; or

((b)) (ii) All rent accrued during the period reasonably necessary to rerent the premises at a fair rental, plus the difference between such fair rental and the rent agreed to in the prior agreement, plus actual costs incurred by the landlord in rerenting the premises together with statutory court costs and reasonable attorneys' fees.

(2) In the event of such abandonment of tenancy and an accompanying default in the payment of rent by the tenant, the landlord may immediately enter and take possession of any property of the tenant found on the premises and may store the same in any reasonably secure place. A landlord shall make reasonable efforts to provide the tenant with a notice containing the name and address of the landlord and the place where the property is stored and informing the tenant that a sale or disposition of the property shall take place pursuant to this section, and the date of the sale or disposal, and further informing the tenant of the right under RCW 59.18.230 to have the property returned prior to its sale or disposal. The landlord's efforts at notice under this subsection shall be satisfied by the mailing by first-class mail, postage prepaid, of such notice to the tenant's last known address and to any other address provided in writing by the tenant or actually known to the landlord where the tenant might receive the notice. The landlord shall return the property to the tenant after the tenant has paid the actual or reasonable drayage and storage costs whichever is less if the tenant makes a written request for the return of the property before the landlord has sold or disposed of the property. After forty-five days from the date the notice of such sale or disposal is mailed or

personally delivered to the tenant, the landlord may sell or dispose of such property, including personal papers, family pictures, and keepsakes. The landlord may apply any income derived therefrom against moneys due the landlord, including actual or reasonable costs whichever is less of drayage and storage of the property. If the property has a cumulative value of two hundred fifty dollars or less, the landlord may sell or dispose of the property in the manner provided in this section, except for personal papers, family pictures, and keepsakes, after seven days from the date the notice of sale or disposal is mailed or personally delivered to the tenant: PROVIDED, That the landlord shall make reasonable efforts, as defined in this section, to notify the tenant. Any excess income derived from the sale of such property under this section shall be held by the landlord for the benefit of the tenant for a period of one year from the date of sale, and if no claim is made or action commenced by the tenant for the recovery thereof prior to the expiration of that period of time, the balance shall be the property of the landlord, including any interest paid on the income.

Prime Sponsor, Committee on Human Services, Mental Health & Housing: Concerning the administration of a statewide network of community-based domestic violence victim services by the department of social and health services. Reported by Committee on Public Safety

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

"**Sec. 9128.** RCW 70.123.010 and 1979 ex.s. c 245 s 1 are each amended to read as follows:

(1) The legislature finds that domestic violence is an issue of ~~((growing))~~ serious concern at all levels of society and government and that there is a ~~((present and growing))~~ pressing need ~~((to develop))~~ for innovative strategies to address and prevent domestic violence and to strengthen services which will ameliorate and reduce the trauma of domestic violence and enhance survivors' resiliency and autonomy. ~~((Research findings show that domestic violence constitutes a significant percentage of homicides, aggravated assaults, and assaults and batteries in the United States. Domestic violence is a disruptive influence on personal and community life and is often interrelated with a number of other family problems and stresses.))~~

(2) The legislature finds that there are a wide range of consequences to domestic violence, including deaths, injuries, hospitalizations, homelessness, employment problems, property damage, and lifelong physical and psychological impacts on victims and their children. These impacts also affect victims' friends and families, neighbors, employers, landlords, law enforcement, the courts, the health care system, and Washington state and society as a whole. Advocacy and shelters for victims of domestic violence are essential to provide ~~((protection))~~ support to victims ~~((from))~~ in preventing further abuse ~~((and physical harm))~~ and to help ~~((the victim find))~~ victims assess and plan for their immediate and longer term safety, including finding long-range alternative living situations, if requested. ~~((Shelters provide safety, refuge, advocacy, and helping resources to victims who may not have access to such things if they remain in abusive situations.))~~

The legislature therefore recognizes the need for the statewide development and expansion of shelters for victims of domestic violence.))

(3) Thus, it is the intent of the legislature to:

(a) Provide for a statewide network of supportive services, emergency shelter services, and advocacy for victims of domestic violence and their dependents;

(b) Provide for culturally relevant and appropriate services for victims of domestic violence and their children from populations that have been traditionally unserved or underserved;

(c) Provide for a statewide domestic violence information and referral resource;

(ii) Shall impose a fine of fifteen dollars, in addition to any penalty or fine imposed, for a violation of a domestic violence protection order issued under this chapter. Revenue from the fifteen dollar fine must be remitted monthly to the state treasury for deposit in the domestic violence prevention account.

(2) A peace officer shall arrest without a warrant and take into custody a person whom the peace officer has probable cause to believe has violated an order issued under this chapter, chapter 7.92, 7.90, 9A.46, 9.94A, 10.99, 26.09, 26.10, 26.26, or 74.34 RCW, or a valid foreign protection order as defined in RCW 26.52.020, that

restrains the person or excludes the person from a residence, workplace, school, or day care, or prohibits the person from knowingly coming within, or knowingly remaining within, a specified distance of a location, if the person restrained knows of the order. Presence of the order in the law enforcement computer-based criminal intelligence information system is not the only means of establishing knowledge of the order.

(3) A violation of an order issued under this chapter, chapter 7.92, 7.90, 9A.46, 9.94A, 10.99, 26.09, 26.10, 26.26, or 74.34 RCW, or of a valid foreign protection order as defined in RCW 26.52.020, shall also constitute contempt of court, and is subject to the penalties prescribed by law.

(4) Any assault that is a violation of an order issued under this chapter, chapter 7.92, 7.90, 9A.46, 9.94A, 10.99, 26.09, 26.10, 26.26, or 74.34 RCW, or of a valid foreign protection order as defined in RCW 26.52.020, and that does not amount to assault in the first or second degree under RCW 9A.36.011 or 9A.36.021 is a class C felony, and any conduct in violation of such an order that is reckless and creates a substantial risk of death or serious physical injury to another person is a class C felony.

(5) A violation of a court order issued under this chapter, chapter 7.92, 7.90, 9A.46, 9.94A, 10.99, 26.09, 26.10, 26.26, or 74.34 RCW, or of a valid foreign protection order as defined in RCW 26.52.020, is a class C felony if the offender has at least two previous convictions for violating the provisions of an order issued under this chapter, chapter 7.90, 9A.46, 9.94A, 10.99, 26.09, 26.10, 26.26, or 74.34 RCW, or a valid foreign protection order as defined in RCW 26.52.020. The previous convictions may involve the same victim or other victims specifically protected by the orders the offender violated.

(6) Upon the filing of an affidavit by the petitioner or any peace officer alleging that the respondent has violated an order granted under this chapter, chapter 7.92, 7.90, 9A.46, 9.94A, 10.99, 26.09, 26.10, 26.26, or 74.34 RCW, or a valid foreign protection order as defined in RCW 26.52.020, the court may issue an order to the respondent, requiring the respondent to appear and show cause within fourteen days why the respondent should not be found in contempt of court and punished accordingly. The hearing may be held in the court of any county or municipality in which the petitioner or respondent temporarily or permanently resides at the time of the alleged violation.

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

"**Sec. 9144.** RCW 71.05.010 and 1998 c 297 s 2 are each amended to read as follows:

(1) The provisions of this chapter are intended by the legislature:

~~((4))~~ (a) To protect the health and safety of persons suffering from mental disorders and to protect public safety through use of the parens patriae and police powers of the state;

(b) To prevent inappropriate, indefinite commitment of mentally disordered persons and to eliminate legal disabilities that arise from such commitment;

~~((2))~~ (c) To provide prompt evaluation and timely and appropriate treatment of persons with serious mental disorders;

~~((3))~~ (d) To safeguard individual rights;

~~((4))~~ (e) To provide continuity of care for persons with serious mental disorders;

~~((5))~~ (f) To encourage the full use of all existing agencies, professional personnel, and public funds to prevent duplication of services and unnecessary expenditures; and

~~((6))~~ (g) To encourage, whenever appropriate, that services be provided within the community(~~;~~

~~(7) To protect the public safety).~~

(2) When construing the requirements of this chapter the court must focus on the merits of the petition, except where requirements have been totally disregarded, as provided in *In re C.W.*, 147 Wn.2d 259, 281 (2002). A presumption in favor of deciding petitions on their merits furthers both public and private interests because the mental and physical well-being of individuals as well as public safety may be implicated by the decision to release an individual and discontinue his or her treatment.

NEW SECTION. Sec. 9145. A new section is added to chapter 71.05 RCW to read as follows:

(1) The department may use a single bed certification process as outlined in rule to provide additional treatment capacity for a person suffering from a mental disorder for whom an evaluation and treatment bed is not available. The facility that is the proposed site of the single bed certification must be a facility that is willing and able to provide the person with timely and appropriate treatment either directly or by arrangement with other public or private agencies.

(2) A single bed certification must be specific to the patient receiving treatment.

(3) A designated mental health professional who submits an application for a single bed certification for treatment at a facility that is willing and able to provide timely and appropriate mental health treatment in good faith belief that the single bed certification is appropriate may presume that the single bed certification will be approved for the purpose of completing the detention process and responding to other emergency calls.

(4) The department may adopt rules implementing this section and continue to enforce rules it has already adopted except where inconsistent with this section.

NEW SECTION. Sec. 9146. A new section is added to chapter 71.05 RCW to read as follows:

(1) A designated mental health professional shall make a report to the department when he or she determines a person meets detention criteria under RCW 71.05.150, 71.05.153, 71.34.700, or 71.34.710 and there are not any beds available at an evaluation and treatment facility, the person has not been provisionally accepted for admission by a facility, and the person cannot be served on a single bed certification or less restrictive alternative. Starting at the time when the designated mental health professional determines a person meets detention criteria and the investigation has been completed, the designated mental health professional has twenty-four hours to submit a completed report to the department.

(2) The report required under subsection (1) of this section must contain at a minimum:

- (a) The date and time that the investigation was completed;
- (b) The identity of the responsible regional support network or behavioral health organization;
- (c) The county in which the person met detention criteria;
- (d) A list of facilities which refused to admit the person; and
- (e) Identifying information for the person, including age or date of birth.

(3) The department shall develop a standardized reporting form or modify the current form used for single bed certifications for the report required under subsection (2) of this section and may require additional reporting elements as it determines are necessary or supportive. The department shall also determine the method for the transmission of the completed report from the designated mental health professional to the department.

(4) The department shall create quarterly reports displayed on its web site that summarize the information reported under subsection (2) of this section. At a minimum, the reports must display data by county and by month. The reports must also include the number of single bed certifications granted by category. The categories must include all of the reasons that the department recognizes for issuing a single bed certification, as identified in rule.

(5) The reports provided according to this section may not display "protected health information" as that term is used in the federal health insurance portability and accountability act of 1996, nor information contained in "mental health treatment records" as that term is used in chapter 70.02 RCW or elsewhere in state law, and must otherwise be compliant with state and federal privacy laws.

(6) For purposes of this section, the term "single bed certification" means a situation in which an adult on a seventy-two hour detention, fourteen-day commitment, ninety-day commitment, or one hundred eighty-day commitment is detained to a facility that is:

- (a) Not certified as an inpatient evaluation and treatment facility; or
- (b) A certified inpatient evaluation and treatment facility that is already at capacity.

NEW SECTION. Sec. 9147. A new section is added to chapter 71.05 RCW to read as follows:

(1) The department shall promptly share reports it receives under section 3 of this act with the responsible regional support network or behavioral health organization. The regional support network or behavioral health organization receiving this notification must attempt to engage the person in appropriate services for which the person is eligible and report back within seven days to the department.

(2) The department shall track and analyze reports submitted under section 3 of this act. The department must initiate corrective action when appropriate to ensure that each regional support network or behavioral health organization has implemented an adequate plan to provide evaluation and treatment services. Corrective actions may include remedies under RCW 71.24.330 and 43.20A.894, including requiring expenditure of reserve funds. An adequate plan may include development of less restrictive alternatives to involuntary commitment such as crisis triage, crisis diversion, voluntary treatment, or prevention programs reasonably calculated to reduce demand for evaluation and treatment under this chapter.

Sec. 9148. RCW 71.05.050 and 2000 c 94 s 3 are each amended to read as follows:

(1) Nothing in this chapter shall be construed to limit the right of any person to apply voluntarily to any public or private agency or practitioner for treatment of a mental disorder, either by direct application or by referral. Any person voluntarily admitted for inpatient treatment to any public or private agency shall be released immediately upon his or her request. Any person voluntarily admitted for inpatient treatment to any public or private agency shall orally be advised of the right to immediate discharge, and further advised of such rights in writing as are secured to them pursuant to this chapter and their rights of access to attorneys, courts, and other legal redress. Their condition and status shall be reviewed at least once each one hundred eighty days for evaluation as to the need for further treatment or possible discharge, at which time they shall again be advised of their right to discharge upon request(~~(= PROVIDED HOWEVER, That)~~).

(2) If the professional staff of any public or private agency or hospital regards a person voluntarily admitted who requests discharge as presenting, as a result of a mental disorder, an imminent likelihood of serious harm, or is gravely disabled, they may detain such person for sufficient time to notify the ((~~county~~)) designated mental health professional of such person's condition to enable the ((~~county~~)) designated mental health professional to authorize such person being further held in custody or transported to an evaluation and treatment center pursuant to the provisions of this chapter, which shall in ordinary circumstances be no later than the next judicial day(~~(= PROVIDED FURTHER, That)~~).

(3) If a person is brought to the emergency room of a public or private agency or hospital for observation or treatment, the person refuses voluntary admission, and the professional staff of the public or private agency or hospital regard such person as presenting as a result of a mental disorder an imminent likelihood of serious harm, or as presenting an imminent danger because of grave disability, they may detain such person for sufficient time to notify the ((~~county~~)) designated mental health professional of such person's condition to enable the ((~~county~~)) designated mental health professional to authorize such person being further held in custody or transported to an evaluation treatment center pursuant to the conditions in this chapter, but which time shall be no more than six hours from the time the professional staff ((~~determine that an evaluation by~~)) notify the ((~~county~~)) designated mental health professional ((is necessary)) of the need for evaluation, not counting time periods prior to medical clearance.

(4) Dismissal of a commitment petition is not the appropriate remedy for a violation of the timeliness requirements of this section based on the intent of this chapter under RCW 71.05.010 except in

the few cases where the facility staff or designated mental health professional has totally disregarded the requirements of this section.

Sec. 9149. RCW 71.05.153 and 2011 c 305 s 8 and 2011 c 148 s 2 are each reenacted and amended to read as follows:

(1) When a designated mental health professional receives information alleging that a person, as the result of a mental disorder, presents an imminent likelihood of serious harm, or is in imminent danger because of being gravely disabled, after investigation and evaluation of the specific facts alleged and of the reliability and credibility of the person or persons providing the information if any, the designated mental health professional may take such person, or cause by oral or written order such person to be taken into emergency custody in an evaluation and treatment facility for not more than seventy-two hours as described in RCW 71.05.180.

(2) A peace officer may take or cause such person to be taken into custody and immediately delivered to a triage facility, crisis stabilization unit, evaluation and treatment facility, or the emergency department of a local hospital under the following circumstances:

(a) Pursuant to subsection (1) of this section; or

(b) When he or she has reasonable cause to believe that such person is suffering from a mental disorder and presents an imminent likelihood of serious harm or is in imminent danger because of being gravely disabled.

(3) Persons delivered to a crisis stabilization unit, evaluation and treatment facility, emergency department of a local hospital, or triage facility that has elected to operate as an involuntary facility by peace officers pursuant to subsection (2) of this section may be held by the facility for a period of up to twelve hours, not counting time periods prior to medical clearance.

(4) Within three hours ((~~of~~) after arrival, not counting time periods prior to medical clearance, the person must be examined by a mental health professional. Within twelve hours of ((~~arrival~~) notice of the need for evaluation, not counting time periods prior to medical clearance, the designated mental health professional must determine whether the individual meets detention criteria. If the individual is detained, the designated mental health professional shall file a petition for detention or a supplemental petition as appropriate and commence service on the designated attorney for the detained person. If the individual is released to the community, the mental health provider shall inform the peace officer of the release within a reasonable period of time after the release if the peace officer has specifically requested notification and provided contact information to the provider.

(5) Dismissal of a commitment petition is not the appropriate remedy for a violation of the timeliness requirements of this section based on the intent of this chapter under RCW 71.05.010 except in the few cases where the facility staff or designated mental health professional has totally disregarded the requirements of this section.

Sec. 9150. RCW 71.05.210 and 2009 c 217 s 1 are each amended to read as follows:

Each person involuntarily detained and accepted or admitted at an evaluation and treatment facility (1) shall, within twenty-four hours of his or her admission or acceptance at the facility, not counting time periods prior to medical clearance, be examined and evaluated by (a) a licensed physician who may be assisted by a physician assistant according to chapter 18.71A RCW and a mental health professional, (b) an advanced registered nurse practitioner according to chapter 18.79 RCW and a mental health professional, or (c) a licensed physician and a psychiatric advanced registered nurse practitioner and (2) shall receive such treatment and care as his or her condition requires including treatment on an outpatient basis for the period that he or she is detained, except that, beginning twenty-four hours prior to a trial or hearing pursuant to RCW 71.05.215, 71.05.240, 71.05.310, 71.05.320, 71.05.340, or 71.05.217, the individual may refuse psychiatric medications, but

may not refuse: (a) Any other medication previously prescribed by a person licensed under Title 18 RCW; or (b) emergency lifesaving treatment, and the individual shall be informed at an appropriate time of his or her right of such refusal. The person shall be detained up to seventy-two hours, if, in the opinion of the professional person in charge of the facility, or his or her professional designee, the person presents a likelihood of serious harm, or is gravely disabled. A person who has been detained for seventy-two hours shall no later than the end of such period be released, unless referred for further care on a voluntary basis, or detained pursuant to court order for further treatment as provided in this chapter.

If, after examination and evaluation, the mental health professional and licensed physician or psychiatric advanced registered nurse practitioner determine that the initial needs of the person would be better served by placement in a chemical dependency treatment facility, then the person shall be referred to an approved treatment program defined under RCW 70.96A.020.

An evaluation and treatment center admitting or accepting any person pursuant to this chapter whose physical condition reveals the need for hospitalization shall assure that such person is transferred to an appropriate hospital for evaluation or admission for treatment. Notice of such fact shall be given to the court, the designated attorney, and the designated mental health professional and the court shall order such continuance in proceedings under this chapter as may be necessary, but in no event may this continuance be more than fourteen days.

Sec. 9151. RCW 71.24.035 and 2014 c 225 s 11 are each amended to read as follows:

(1) The department is designated as the state mental health authority.

(2) The secretary shall provide for public, client, tribal, and licensed service provider participation in developing the state mental health program, developing contracts with behavioral health organizations, and any waiver request to the federal government under medicaid.

(3) The secretary shall provide for participation in developing the state mental health program for children and other underserved populations, by including representatives on any committee established to provide oversight to the state mental health program.

(8) The secretary may suspend, revoke, limit, or restrict a certification or license, or refuse to grant a certification or license for failure to conform to: (a) The law; (b) applicable rules and regulations; (c) applicable standards; or (d) state minimum standards.

(9) The superior court may restrain any behavioral health organization or service provider from operating without a contract, certification, or a license or any other violation of this section. (11) Notwithstanding the existence or pursuit of any other remedy, the secretary may file an action for an injunction or other process against any person or governmental unit to restrain or prevent the establishment, conduct, or operation of a behavioral health organization or service provider without a contract, certification, or a license under this chapter.

(12) The standards for certification or licensure of evaluation and treatment facilities shall include standards relating to maintenance of good physical and mental health and other services to be afforded persons pursuant to this chapter and chapters 71.05 and 71.34 RCW, and shall otherwise assure the effectuation of the purposes of these chapters.

Such responsibilities shall include those which would have been assigned to the nonparticipating counties in regions where there are not participating behavioral health organizations.

The behavioral health organizations, or the secretary's assumption of all responsibilities under chapters 71.05 and 71.34 RCW and this chapter, shall be included in all state and federal plans affecting the state mental health program including at least those required by this chapter, the medicaid program, and P.L. 99-660. Sec. 9152. RCW 71.24.300 and 2008 c 261 s 4 are each amended to read as follows:

(1) Upon the request of a tribal authority or authorities within a regional support network the joint operating agreement or the county authority shall allow for the inclusion of the tribal authority to be represented as a party to the regional support network.

(2) The roles and responsibilities of the county and tribal authorities shall be determined by the terms of that agreement including a determination of membership on the governing board and advisory committees, the number of tribal representatives to be party to the agreement, and the provisions of law and shall assure the provision of culturally competent services to the tribes served.

(3) The state mental health authority may not determine the roles and responsibilities of county authorities as to each other under regional support networks by rule, except to assure that all duties required of regional support networks are assigned and that counties and the regional support network do not duplicate functions and that a single authority has final responsibility for all available resources

and performance under the regional support network's contract with the secretary.

(4) If a regional support network is a private entity, the department shall allow for the inclusion of the tribal authority to be represented as a party to the regional support network.

(5) The roles and responsibilities of the private entity and the tribal authorities shall be determined by the department, through negotiation with the tribal authority.

(6) Regional support networks shall submit an overall six-year operating and capital plan, timeline, and budget and submit progress reports and an updated two-year plan biennially thereafter, to assume within available resources all of the following duties:

(a) Administer and provide for the availability of all resource management services, residential services, and community support services.

(c) Provide within the boundaries of each regional support network evaluation and treatment services for at least ninety percent of persons detained or committed for periods up to seventeen days according to chapter 71.05 RCW. Regional support networks may contract to purchase evaluation and treatment services from other networks if they are unable to provide for appropriate resources within their boundaries. Insofar as the original intent of serving persons in the community is maintained, the secretary is authorized to approve exceptions on a case-by-case basis to the requirement to provide evaluation and treatment services within the boundaries of each regional support network. Such exceptions are limited to:

(i) Contracts with neighboring or contiguous regions; or

(ii) Individuals detained or committed for periods up to seventeen days at the state hospitals at the discretion of the secretary.

(7) A regional support network may request that any state-owned land, building, facility, or other capital asset which was ever purchased, deeded, given, or placed in trust for the care of the persons with mental illness and which is within the boundaries of a regional support network be made available to support the operations of the regional support network. State agencies managing such capital assets shall give first priority to requests for their use pursuant to this chapter.

(8) Each regional support network shall appoint a mental health advisory board which shall review and provide comments on plans and policies developed under this chapter, provide local oversight regarding the activities of the regional support network, and work with the regional support network to resolve significant concerns regarding service delivery and outcomes. The department shall establish statewide procedures for the operation of regional advisory committees including mechanisms for advisory board feedback to the department regarding regional support network performance. The composition of the board shall be broadly representative of the demographic character of the region and shall include, but not be limited to, representatives of consumers and families, law enforcement, and where the county is not the regional support network, county elected officials. Composition and length of terms of board members may differ between regional support networks but

shall be included in each regional support network's contract and approved by the secretary.

(9) Regional support networks shall assume all duties specified in their plans and joint operating agreements through biennial contractual agreements with the secretary.

(10) Regional support networks may receive technical assistance from the housing trust fund and may identify and submit projects for housing and housing support services to the housing trust fund established under chapter 43.185 RCW. Projects identified or submitted under this subsection must be fully integrated with the regional support network six-year operating and capital plan, timeline, and budget required by subsection (6) of this section.

Sec. 9153. RCW 71.24.300 and 2014 c 225 s 39 are each amended to read as follows:

(1) Upon the request of a tribal authority or authorities within a behavioral health organization the joint operating agreement or the county authority shall allow for the inclusion of the tribal authority to be represented as a party to the behavioral health organization.

(2) The roles and responsibilities of the county and tribal authorities shall be determined by the terms of that agreement including a determination of membership on the governing board and advisory committees, the number of tribal representatives to be party to the agreement, and the provisions of law and shall assure the provision of culturally competent services to the tribes served.

(3) The state mental health authority may not determine the roles and responsibilities of county authorities as to each other under behavioral health organizations by rule, except to assure that all duties required of behavioral health organizations are assigned and that counties and the behavioral health organization do not duplicate functions and that a single authority has final responsibility for all available resources and performance under the behavioral health organization's contract with the secretary.

(4) If a behavioral health organization is a private entity, the department shall allow for the inclusion of the tribal authority to be represented as a party to the behavioral health organization.

(5) The roles and responsibilities of the private entity and the tribal authorities shall be determined by the department, through negotiation with the tribal authority.

(6) Behavioral health organizations shall submit an overall six-year operating and capital plan, timeline, and budget and submit progress reports and an updated two-year plan biennially thereafter, to assume within available resources all of the following duties:

(a) Administer and provide for the availability of all resource management services, residential services, and community support services.

(b) Administer and provide for the availability of an adequate network of evaluation and treatment services to ensure access to treatment, all investigation, transportation, court-related, and other services provided by the state or counties pursuant to chapter 71.05 RCW.

(c) Provide within the boundaries of each behavioral health organization evaluation and treatment services for at least ninety percent of persons detained or committed for periods up to seventeen days according to chapter 71.05 RCW. Behavioral health organizations may contract to purchase evaluation and treatment services from other organizations if they are unable to provide for appropriate resources within their boundaries. Insofar as the original intent of serving persons in the community is maintained, the secretary is authorized to approve exceptions on a case-by-case basis to the requirement to provide evaluation and treatment services within the boundaries of each behavioral health organization. Such exceptions are limited to:

(i) Contracts with neighboring or contiguous regions; or

(ii) Individuals detained or committed for periods up to seventeen days at the state hospitals at the discretion of the secretary.

(e) Establish standards and procedures for reviewing individual service plans and determining when that person may be discharged from resource management services.

(7) A behavioral health organization may request that any state-owned land, building, facility, or other capital asset which was ever purchased, deeded, given, or placed in trust for the care of the persons with mental illness and which is within the boundaries of a behavioral health organization be made available to support the operations of the behavioral health organization. State agencies managing such capital assets shall give first priority to requests for their use pursuant to this chapter.

(8) Each behavioral health organization shall appoint a mental health advisory board which shall review and provide comments on plans and policies developed under this chapter, provide local oversight regarding the activities of the behavioral health organization, and work with the behavioral health organization to resolve significant concerns regarding service delivery and outcomes. The department shall establish statewide procedures for the operation of regional advisory committees including mechanisms for advisory board feedback to the department regarding behavioral health organization performance. The composition of the board shall be broadly representative of the demographic character of the region and shall include, but not be limited to, representatives of consumers and families, law enforcement, and where the county is not the behavioral health organization, county elected officials. Composition and length of terms of board members may differ between behavioral health organizations but shall be included in each behavioral health organization's contract and approved by the secretary.

(9) Behavioral health organizations shall assume all duties specified in their plans and joint operating agreements through biennial contractual agreements with the secretary.

(10) Behavioral health organizations may receive technical assistance from the housing trust fund and may identify and submit projects for housing and housing support services to the housing trust fund established under chapter 43.185 RCW. Projects identified or submitted under this subsection must be fully integrated with the behavioral health organization six-year operating and capital plan, timeline, and budget required by subsection (6) of this section.

If a subsequent offer is received, the first offeror shall be informed by registered or certified mail sent to the address stated in his or her offer. The first offeror shall then have ten days, from the date of mailing the notice of the increased offer, in which to file with the designated state employee or real estate broker a higher offer than that of the subsequent offeror. (4) When selling real property pursuant to RCW 47.12.283, the department may withhold or withdraw the property from an auction when requested by one of the entities or persons listed in subsection (3) of this section and only after the receipt of a nonrefundable deposit equal to ten percent of the fair market value of the real property or five thousand dollars, whichever is less. This subsection does not prohibit the department from exercising its discretion to withhold or withdraw the real property from an auction if the department determines that the property is no longer surplus or chooses to sell the property through one of the other means listed in subsection (2) of this section. If a transaction under this subsection is not completed within sixty days, the real property must be put back up for sale.

ESSB 5826 Prime Sponsor, Committee on Ways & Means: Creating the Washington small business retirement marketplace. Reported by Committee on Appropriations

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

NEW SECTION. Sec. 9168. The legislature finds that there is a retirement savings access gap in Washington; that Americans reach the median salary four years later than they did in 1980 and therefore have four fewer years of savings opportunities; and that one in six Americans retire in poverty. Employees who are unable to effectively build their retirement savings risk living on low incomes in their elderly years and are more likely to become dependent on state services. Further, small businesses, which employ more than forty percent of private sector employees in Washington, often choose not to offer retirement plans to employees due to concerns about costs, administrative burdens, and potential liability that they believe such plans would place on their business. In response, the legislature recognizes the work of the federal government in addressing these issues by establishing the myRA program: A safe, affordable, and accessible retirement vehicle designed to remove barriers to retirement savings. In addition, the legislature recognizes that many private financial services firms in Washington currently offer high quality retirement options for small businesses and their employees.

The Washington small business retirement marketplace will remove barriers to entry into the retirement market for small businesses by educating small employers on plan availability and promoting, without mandated participation, qualified, low-cost, low-burden retirement savings vehicles and myRA. The marketplace furthers greater retirement plan access for the residents of Washington while ensuring that individuals participating in these retirement plans will have all the protections offered by the employee retirement income security act. Further, the Washington small business retirement marketplace will not pose any significant financial burden upon taxpayers. The Washington small business retirement marketplace will be the best way for Washington to close the retirement savings access gap, protect the fiscal stability of the state and its citizens well into the future, and further cement its place as a national leader in retirement and investor promotion and protection. The marketplace will educate and promote retirement saving among employees and in particular market to small employers with fifty or fewer employees.

NEW SECTION. Sec. 9169. The definitions in this section apply throughout this subchapter unless the context clearly requires otherwise.

(1) "Approved plans" means retirement plans offered by private sector financial services firms that meet the requirements of this chapter to participate in the marketplace.

(2) "Balanced fund" means a mutual fund that has an investment mandate to balance its portfolio holdings. The fund generally includes a mix of stocks and bonds in varying proportions according to the fund's investment outlook.

(3) "Eligible employer" means a self-employed individual, sole proprietor, or an employer with fewer than one hundred qualified employees at the time of enrollment.

(4) "Enrollee" means any employee who is voluntarily enrolled in an approved plan offered by an eligible employer through the Washington small business retirement marketplace.

(5) "myRA" means the myRA retirement program administered by the United States department of the treasury that is available to all employers and employees with no fees or no minimum contribution requirements. A myRA is a Roth IRA option and investments in these accounts are backed by the United States department of the treasury.

(6) "Participating employer" means any eligible employer with employees enrolled in an approved plan offered through the Washington small business retirement marketplace who chooses to participate in the marketplace and offers approved plans to employees for voluntary enrollment.

(7) "Private sector financial services firms" or "financial services firms" mean persons or entities licensed and in good standing by either the department of financial institutions or the office of the insurance commissioner and meeting all federal laws and regulations to offer retirement plans.

(8) "Qualified employee" means those workers who are defined by the federal internal revenue service to be eligible to participate in a specific qualified plan.

(9) "Target date or other similar fund" means a hybrid mutual fund that automatically resets the asset mix of stocks, bonds, and cash equivalents in its portfolio according to a selected time frame that is appropriate for a particular investor. A target date is structured to address a projected retirement date.

(10) "Washington small business retirement marketplace" or "marketplace" means the retirement savings program created to connect eligible employers and their employees with approved plans to increase retirement savings.

NEW SECTION. Sec. 9170. (1) The Washington small business retirement marketplace is created.

(2) Prior to connecting any eligible employer with an approved plan in the marketplace, the director shall design a plan for the operation of the marketplace.

(3) The director shall consult with the Washington state department of retirement systems, the Washington state investment board, and the department of financial institutions in designing and managing the marketplace.

(4) The director shall approve for participation in the marketplace all private sector financial services firms that meet the qualifications of this section and section 10 of this act. The director may remove approved plans that no longer meet the requirements of this chapter.

(5) A range of investment options must be provided to meet the needs of investors with various levels of risk tolerance and various ages. The director must approve a diverse array of private retirement plan options that are available to employers on a voluntary basis, including life insurance plans that are designed for retirement purposes, and at least two types of plans for eligible employer participation: (a) A SIMPLE IRA-type plan that provides for employer contributions to participating enrollee accounts; and (b) a payroll deduction individual retirement account type plan or workplace-based individual retirement accounts open to all workers in which the employer does not contribute to the employees' account.

(6) Prior to approving a plan to be offered on the marketplace, the department must receive verification from the department of

financial institutions and the office of the insurance commissioner pursuant to section 2(7) of this act that each plan meets the requirements of this section.

(7) The financial services firms participating in the marketplace must offer a minimum of two product options: (a) A target date or other similar fund, with asset allocations and maturities designed to coincide with the expected date of retirement and (b) a balanced fund. The marketplace must offer myRA.

(8) In order for the marketplace to operate, there must be at least two financial services firms offering approved plans on the marketplace; however, nothing in this subsection shall be construed to limit the number of private sector financial services firms with approved plans from participating in the marketplace.

(9) Approved plans must meet federal law or regulation for internal revenue service approved retirement plans.

(10) The approved plans must include the option for enrollees to roll pretax contributions into a different individual retirement account or another eligible retirement plan after ceasing participation in a plan approved by the Washington small business retirement marketplace.

(11) Financial services firms selected by the department to offer approved plans on the marketplace may not charge enrollees more than one hundred basis points in total annual fees and must provide information about their product's historical investment performance.

(12) Participation in the Washington small business retirement marketplace is voluntary for both eligible employers and qualified employees.

(13) Enrollment in any approved plan offered in the marketplace is not an entitlement.

NEW SECTION. Sec. 9171. (1) The director shall contract with a private sector entity to:

(a) Establish a protocol for reviewing and approving the qualifications of all private sector financial services firms that meet the qualifications to participate in the marketplace;

(b) Design and operate an internet web site that includes information about how eligible employers can voluntarily participate in the marketplace;

(c) Develop marketing materials about the marketplace that can be distributed electronically, posted on agency web sites that interact with eligible employers, or inserted into mail from the department of revenue, department of labor and industries, employment security department, the office of minority and women's business enterprises, department of licensing, and secretary of state's division of corporations;

(d) Identify and promote existing federal and state tax credits and benefits for employers and employees that are related to encouraging retirement savings or participating in retirement plans; and

(e) Promote the benefits of retirement savings and other information that promotes financial literacy.

(2) The director shall address how rollovers are handled for eligible Washington employers that have workers in other states, and whether out-of-state employees with existing IRA's can roll them into the plans offered through the Washington small business retirement marketplace.

(3) The director shall direct the entity retained pursuant to subsection (1) of this section to assure that licensed professionals who assist their eligible business clients or employees to enroll in a plan offered through the Washington small business retirement marketplace may receive routine, market-based commissions or other compensation for their services.

(4) The director shall ensure by rule that there is objective criteria in the protocol provided in subsection (1)(a) of this section and that the protocol does not provide unfair advantage to the private sector entity which establishes the protocol.

(5) The director shall encourage the participation of private sector financial services firms in the marketplace.

NEW SECTION. Sec. 9172. In addition to any appropriated funds, the director may use private funding sources, including private foundation grants, to pay for marketplace expenses. On behalf of the marketplace, the department shall seek federal and private grants and is authorized to accept any funds awarded to the department for use in the marketplace.

NEW SECTION. Sec. 9173. The department shall not expose the state of Washington as an employer or through administration of the marketplace to any potential liability under the federal employee retirement income act of 1974. As such, the department is specifically prohibited from offering and operating a state-based retirement plan for businesses or individuals who are not employed by the state of Washington.

NEW SECTION. Sec. 9174. Using funds specifically appropriated for this purpose, and funds provided by private foundations or other private sector entities, the director may provide incentive payments to participating employers that enroll in the marketplace.

NEW SECTION. Sec. 9175. The director shall report biennially to the legislature on the effectiveness and efficiency of the Washington small business retirement marketplace, including the levels of enrollment and the retirement savings levels of participating enrollees that are obtained in aggregate on a voluntary basis from private sector financial services firms that participate in the marketplace.

NEW SECTION. Sec. 9176. The director shall adopt rules necessary to allow the marketplace to operate as authorized by this subchapter. As part of the rule development process, the director shall consult with organizations representing eligible employers, qualified employees, private and nonprofit sector retirement plan administrators and providers, organizations representing private sector financial services firms, and any other individuals or entities that the director determines relevant to the development of an effective and efficient method for operating the marketplace. The rules must be proposed by January 1st of the year of implementation and rules shall not be adopted until after the end of the regular legislative session of that year.

NEW SECTION. Sec. 9177. A new section is added to chapter 43.320 RCW to read as follows:

The department of financial institutions, annually, or upon request of the department of commerce, must review individual retirement account products proposed for inclusion in the Washington small business retirement marketplace to confirm that the products comply with the requirements of section 3 of this act.

NEW SECTION. Sec. 9178. If any part of this act is found to be in conflict with federal requirements that are a prescribed condition to the allocation of federal funds to the state, the conflicting part of this act is inoperative solely to the extent of the conflict and with respect to the agencies directly affected, and this finding does not affect the operation of the remainder of this act in its application to the agencies concerned. Rules adopted under this act must meet federal requirements that are a necessary condition to the receipt of federal funds by the state.

NEW SECTION. Sec. 9179. Sections 1 through 9 of this act are each added to chapter 43.330 RCW and codified with the subchapter heading of "Washington small business retirement marketplace.""

(B) An evaluation of how the mitigation techniques are funded, monitored, enforced, evaluated to determine effectiveness, and modified if mitigation fails;

(f) An evaluation of all mitigation options that may be available for permit-exempt groundwater withdrawals in the areas covered under the instream resources protection program for the lower and upper Skagit river basin, water resource inventory areas 3 and 4, and a discussion of the advantages and disadvantages of employing each type of mitigation technique in those areas;

(g) An evaluation of how mitigation sequencing approaches may be utilized to encourage avoidance of impacts; and

(h) Any recommendations regarding mitigation options that will be available to landowners who are required to mitigate the impacts of permit-exempt groundwater withdrawals on instream flows.

(1) A presiding officer may not communicate, directly or indirectly, regarding any issue in the proceeding other than communications necessary to procedural aspects of maintaining an orderly process, with any person employed by the agency without notice and opportunity for all parties to participate, except as provided in this subsection:

(a) Where the ultimate legal authority of an agency is vested in a multimember body, and where that body presides at an adjudication, members of the body may communicate with one another regarding the proceeding;

(b) Any presiding officer may receive aid from legal counsel, or from staff assistants who are subject to the presiding officer's supervision; and

(c) Presiding officers may communicate with other employees or consultants of the agency who have not participated in the proceeding in any manner, and who are not engaged in any investigative or prosecutorial functions in the same or a factually related case; provided that no other employee or consultant of the agency may attempt to coerce or improperly influence the action of the presiding officer in reaching his or her decision in a proceeding. An agency head's expectation that a presiding officer will consider written agency policies during his or her decision making is not coercion or improper influence.

(d) This subsection does not apply to communications required for the disposition of ex parte matters specifically authorized by statute.

(2) Unless required for the disposition of ex parte matters specifically authorized by statute or unless necessary to procedural aspects of maintaining an orderly process, a presiding officer may not communicate, directly or indirectly, regarding any issue in the proceeding, with any person not employed by the agency who has a direct or indirect interest in the outcome of the proceeding, without notice and opportunity for all parties to participate.

(3) Unless necessary to procedural aspects of maintaining an orderly process, persons to whom a presiding officer may not communicate under subsections (1) and (2) of this section may not communicate with presiding officers without notice and opportunity for all parties to participate.

(4) If, before serving as presiding officer in an adjudicative proceeding, a person receives an ex parte communication of a type that could not properly be received while serving, the person, promptly after starting to serve, shall disclose the communication in the manner prescribed in subsection (5) of this section.

Upon request made within ten days after notice of the ex parte communication, any party desiring to rebut the communication shall be allowed to place a written rebuttal statement on the record. Portions of the record pertaining to ex parte communications or

rebuttal statements do not constitute evidence of any fact at issue in the matter unless a party moves the admission of any portion of the record for purposes of establishing a fact at issue and that portion is admitted pursuant to RCW 34.05.452.

(6) If necessary to eliminate the effect of an ex parte communication received in violation of this section, a presiding officer who receives the communication may be disqualified, and the portions of the record pertaining to the communication may be sealed by protective order.

ESB 6044 Prime Sponsor, Senator Ericksen: Requiring the consideration of public access when designing a transportation facility adjacent to or across a waterway. Reported by Committee on Transportation

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

"NEW SECTION. **Sec. 6.** The legislature recognizes that the department of transportation considers public access, including recreational trails and paths, when planning and designing new highway facilities consistent with chapters 47.30 and 90.58 RCW and RCW 79A.35.120. The legislature directs the department of transportation to explore the feasibility of providing access for water-related recreation.

NEW SECTION. **Sec. 7.** A new section is added to chapter 47.01 RCW to read as follows:

(1) The department must report on the feasibility of providing means of public access to a navigable waterway for public recreational purposes when conducting an environmental review of a major improvement project. The report must document whether the proposed project is in an area identified by state or local plans to be a priority for recreational access to waterways. If the proposed project is in an area identified by state or local plans to be a priority for recreational access to waterways, the department must coordinate with other relevant state agencies or local agencies to ensure consistency with the identified recreational plan.

(2) Any additional cost to a state highway project, including a major improvement project, due to providing public access to a waterway, including maintenance costs and any costs for parking infrastructure, must be paid for using nontransportation funding. The department may seek grants from the Washington wildlife and recreation coalition or any other agencies or entities that could provide funding for public access to a waterway. For purposes of this section, "nontransportation funding" means funding that has not been collected by the state for a transportation purpose.

(3) To the greatest extent practicable, when constructing a state highway project, including a major improvement project, the department must not adversely impact preexisting public access to a waterway.

(4) For the purposes of this section, a major improvement project is a state highway improvement project that requires an environmental impact statement or environmental assessment under the national environmental policy act (42 U.S.C. Sec. 4321 et seq.), excluding improvements to state ferry terminals and fully controlled limited access highways.

(5) A consideration of feasibility must include a description of the suitability for public use and implications associated with potential access. A consideration of feasibility must not alter the purpose and need for the proposed transportation project or create any legal obligation to modify existing recreational access from state highway facilities. If public access to waterways is deemed feasible, any subsequent development must be conclusively deemed for recreational purposes notwithstanding such facilities' relationship to transportation facilities. Findings that improvements are not feasible do not require the alteration of any existing or historic access.

(6) This section must not be interpreted to: Delay decision making or approvals on proposed state transportation improvement projects, or limit the department's entitlement to recreational immunity consistent with chapter 4.24 RCW."

Format changed to accommodate text

Strike everything after the enacting clause and insert the following:

NEW SECTION. Sec. 8. (1) A capital budget is hereby adopted and, subject to the provisions set forth in this act, the several dollar amounts hereinafter specified, or so much thereof as shall be sufficient to accomplish the purposes designated, are hereby appropriated and authorized to be incurred for capital projects during the period beginning with the effective date of this act and ending June 30, 2017, out of the several funds specified in this act.

(2) The definitions in this subsection apply throughout this act unless the context clearly requires otherwise.

(a) "Fiscal year 2016" or "FY 2016" means the period beginning July 1, 2015, and ending June 30, 2016.

(b) "Fiscal year 2017" or "FY 2017" means the period beginning July 1, 2016, and ending June 30, 2017.

(c) "Lapse" or "revert" means the amount shall return to an unappropriated status.

(d) "Provided solely" means the specified amount may be spent only for the specified purpose.

(3) Unless otherwise specifically authorized in this act, any portion of an amount provided solely for a specified purpose that is not expended subject to the specified conditions and limitations to fulfill the specified purpose shall lapse.

(4) The amounts shown under the headings "Prior Biennia," "Future Biennia," and "Total" in this act are for informational purposes only and do not constitute legislative approval of these amounts. "Prior biennia" typically refers to the immediate prior biennium for reappropriations, but may refer to multiple biennia in the case of specific projects. A "future biennia" amount is an estimate of what may be appropriated for the project or program in the 2017-2019 biennium and the following three biennia; an amount of zero does not necessarily constitute legislative intent to not provide funding for the project or program in the future.

(5) "Reappropriations" in this act are appropriations and, unless the context clearly provides otherwise, are subject to the relevant conditions and limitations applicable to appropriations. Reappropriations shall be limited to the unexpended balances remaining on June 30, 2015, from the 2013-2015 biennial appropriations for each project.

NEW SECTION. Sec. 3201. FOR THE DEPARTMENT OF NATURAL RESOURCES

Trust Land Transfer (30000200)

The appropriation in this section is subject to the following conditions and limitations:

(1) The appropriation is provided solely to the department to transfer from trust status, or enter into fifty year leases for, certain trust lands of statewide significance deemed appropriate for state park, fish and wildlife habitat, natural area preserve, natural resources conservation area, DNR community forest open space, or recreation purposes. The approved list of properties for lease or transfer is identified in the LEAP capital document No. 2015-4, developed March 27, 2015.

(2) Property transferred under this section must be appraised and transferred at fair market value. By September 30, 2015, the department must deposit in the common school construction account the portion of the appropriation in this section that represents the estimated value of the timber on the transferred properties. This transfer must be made in the same manner as timber revenues from other common school trust lands. No deduction may be made for the resource management cost account under RCW 79.64.040. The portion of the appropriation in this section that represents the value of the land transferred must be deposited in the natural resources real property replacement account.

(3) Property subject to lease agreements under this section must be appraised at fair market value. Lease terms must be fifty years with options to renew for an additional fifty years. Lease payments must be lump sum payments for the entire term of the lease at the beginning of the lease. The department shall calculate such lump sum payments using professional appraisal standards. These lease payments may not exceed the fee simple purchase price based on current fair market value and must be deposited by the department to the common school construction account in the same manner as lease revenues from other common school trust lands. No deduction may be made for the resource management cost account under RCW 79.64.040. No later than September 30, 2015, the department must transfer to the common school construction account the portion of the appropriation in this section that is attributable to receipts from lease payments.

(4) All reasonable costs incurred by the department to implement this section are authorized to be paid out of the appropriations. Authorized costs include the actual cost of appraisals, staff time, environmental reviews, surveys, and other similar costs and may not exceed one and nine-tenths percent of the appropriation.

(5) Intergrant exchanges between common school and other trust lands of equal value may occur if the exchange is in the interest of each trust, as determined by the board of natural resources.

(6) Prior to or concurrent with conveyance of these properties, the department, with full cooperation of the receiving agencies, shall execute and record a real property instrument that dedicates the transferred properties to the purposes identified in subsection (1) of this section. Fee transfer agreements for properties identified in subsection (1) of this section must include terms that perpetually restrict the use of the property to the intended purpose. Lease agreements for properties identified in subsection (1) of this section must include terms that restrict use of the property to the intended purpose for the term of the lease. Transfer and lease agreements may include provisions for receiving agencies to request alternative uses of the property, provided the alternative uses are compatible with the originally intended public purpose and the department and legislature approves such uses.

(7) The department and receiving agencies shall work in good faith to carry out the intent of this section. However, the department or receiving agencies may remove a property from the transfer list based on new, substantive information, if it is determined that transfer of the property is not in the statewide interest of either the common school trust or the receiving agency.

(8) \$26,422,000 of the appropriation must be deposited in the common school construction account by September 30, 2015. The department shall execute trust land transfers so that after the deduction of reasonable costs as provided in subsection (4) of this section on an aggregate basis eighty percent or more of the total appropriation value is timber value or lease payments and is deposited in the common school construction account. To achieve the eighty percent requirement, the department may choose to lease properties originally intended as transfers or transfer properties originally intended as leases.

(9) By June 30, 2017, the state treasurer shall transfer to the common school construction account any unexpended balance of the appropriation in this section.

The appropriation in this section is subject to the following conditions and limitations:

(1) The appropriation in this section is provided solely to the department to transfer from state forest land status to natural resources conservation area status certain state forest lands in counties with a population of twenty-five thousand or less which are subject to timber harvest deferrals greater than thirty years due to the presence of wildlife species listed as endangered or threatened under the federal endangered species act. The total appropriation is to be used equally for the transfer of qualifying state forest lands in the qualifying counties.

(2) Property transferred under this section must be appraised and transferred at fair market value, without consideration of management or regulatory encumbrances associated with wildlife species listed under the federal endangered species act. The value of the timber and other valuable materials transferred must be distributed as provided in RCW 79.64.110. The value of the land transferred must be deposited in the park land trust revolving account and be used solely to buy replacement state forest land, consistent with RCW 79.22.060.

These grants constitute the districts' local funding for purposes of eligibility for the school construction assistance program under RCW 28A.525.166. Subject to the terms in this section, school districts are eligible to receive grants if they have a special housing burden due to lack of sufficient space for science classrooms and labs to enable students to meet statutory graduation requirements.

(2) The superintendent shall award grants to eligible school districts under the following conditions:

(a) A district must demonstrate a lack of sufficient space of science classrooms and labs to facilitate meeting statutory graduation requirements;

(b) The district has secured private donations of cash, like-kind, or equipment in a value of no less than two-hundred fifty thousand dollars. Before the superintendent may provide funding assistance through the school construction assistance program, the district must provide verification of the donation to the superintendent;

(c) At least one grant award is made to school districts located in southwest Washington;

(d) At least one grant award is made to school districts located in the Puget Sound region; and

(e) At least two grant awards are made to school districts located east of the Cascade mountains.

(3) The superintendent, in consultation with the Washington STEM education innovation alliance, shall develop criteria for providing funding for specific projects to stay within the appropriation level provided in this section. The criteria must include, but are not limited to, the following:

(a) Priority for school districts that secure private donations of cash, like-kind, or equipment in value no less than two-hundred fifty thousand dollars weighted by the ratio of school district enrollments to value of donation;

(b) A district's ability to raise funds through levies or bonds in the prior ten-year period; and

(c) Priority for applicants with a high percentage of students who are eligible and enrolled in the free and reduced-price meals program.

(4) For purposes of grant applications made in the 2015-2017 biennium, additional square footage funded through this grant program is excluded from the school district's inventory of available educational space for determining eligibility for state assistance for new construction for (a) five years following acceptance of the project by the school district board of directors, or (b) the date of the final review of the latest study and survey of the affected school district following acceptance of the project by the school district board of directors; whichever date is earliest.

(5) Each school district is limited to one grant award of no more than \$3,000,000.

(6) The office of the superintendent of public instruction may charge fees consistent with capital budget guidelines established by the office of financial management for administering the grants.

(7) The superintendent of public instruction must report to the appropriate committees of the legislature and the office of financial management on the timing and use of the funds by the end of each fiscal year, until the funds are fully expended.

The appropriations in this section are subject to the following conditions and limitations:

(1) All expenditures from the state taxable building construction account—state appropriation in this section must be used for projects that provide a benefit to the public through development, demonstration, and deployment of clean energy technologies that save energy and reduce energy costs, reduce harmful air emissions or otherwise increase energy independence for the state. All expenditures must be used for projects that develop and acquire assets that have a useful life of at least thirteen years. These requirements must be specified in funding agreements issued by the department.

(2) For any project funded from the state taxable building construction account—state appropriation in this section, state funds must not exceed fifty percent of the estimated cost of a project, and funding preference must be provided to projects that offer a higher percentage of nonstate match funds.

(3)(a) \$15,000,000 of the state taxable building construction account—state appropriation in this section is provided solely to create a revolving loan fund to support the widespread use of proven building energy efficiency and renewable energy technologies now inhibited by lack of access to capital.

(b) To create the loan fund, the department shall provide grant funds to a competitively selected nonprofit lender that will provide matching private capital and will administer the loan fund. The department must select the loan fund administrator through a competitive process, with scoring conducted by a group of qualified experts, applying criteria specified by the department.

(c) The department must establish guidelines for the lender related to applicant eligibility, the screening process, and evaluation and selection criteria. The criteria must include requiring evidence of support for the proposed project from the impacted community and consistency with economic growth strategies and plans of the affected local governments. Applications for loans from the revolving fund must disclose all sources of public funding to be provided for a project. The nonprofit lender must use the revolving loan fund to make affordable loans for projects including, but not limited to: Residential and commercial energy retrofits, residential and community-scale solar installations, anaerobic digesters to treat dairy and organic waste, and combined heat and power projects using woody biomass as a fuel source.

(d) The department must conduct due diligence activities associated with the use of public funds, including oversight of the project selection process and project monitoring.

The department shall work with utilities to offer matching grants for projects that demonstrate new smart grid technologies. The department shall develop a grant application process to competitively select projects for grant awards, to include scoring conducted by a group of qualified experts with application of criteria specified by the department. Applications for grants must disclose all sources of public funding to be provided for a project. The grant funds must be used to fund projects that demonstrate how to: Integrate intermittent renewables through energy storage and information technology, dispatch energy storage resources from utility control rooms, use the thermal properties and electric load of commercial buildings and district energy systems to store energy, or otherwise improve the reliability and reduce the costs of intermittent or distributed renewable energy.

(5) \$6,000,000 of the state taxable building construction account—state appropriation in this section is provided solely for grants to match federal funds used to develop and demonstrate clean energy technologies. The department shall work with the University of Washington, Washington State University, and the Pacific Northwest National Laboratory to offer matching funds for projects including, but not limited to: Advancing energy storage and solar technologies, and federal manufacturing innovation centers related to use of light-weight carbon fiber components to advance energy efficiency in the aeronautical, automotive, and marine sectors.

(6) The department must report on number and results of projects funded through the clean energy fund, including the number of job hours created and the number of jobs maintained and created, to the governor and the legislature, by November 1, 2014.

(7) The energy recovery act account—federal appropriation in this section is provided solely for loans, loan guarantees, and grants that encourage the establishment of innovative and sustainable industries for renewable energy and energy efficiency technology, consistent with provisions of RCW 43.325.040 (energy freedom account).

NEW SECTION. Sec. 7003. (1) The legislature finds that use of life-cycle cost analysis will aid public entities, architects, engineers, and contractors in making design and construction decisions that positively impact both the initial construction cost and the ongoing operating and maintenance cost of a project. To ensure that the total cost of a project is accounted for and the most reasonable and cost efficient design is used, agencies shall develop life-cycle costs for any construction project over \$10,000,000. The life-cycle costs must represent the present value sum of capital costs, installation costs, operating costs, and maintenance costs over the life expectancy of the project. The legislature further finds the most effective approach to the life-cycle cost analysis is to integrate it into the early part of the design process.

(2) Agencies shall develop a minimum of three project alternatives for use in the life-cycle cost analysis. These alternatives must be both distinctly different and viable solutions to the issue being addressed. The chosen alternative must be the most reasonable and cost-effective solution. A brief description of each project alternative and why it was chosen must be included in the life-cycle cost analysis section of the predesign.

(3) The office of financial management shall: (a) Make available a life-cycle cost model to be used for analysis; (b) in consultation with the department of enterprise services, provide assistance in using the life-cycle cost model; and (c) update the life-cycle cost model annually including assumptions for inflation rates, discount rates, and energy rates.

(4) Agencies shall consider architectural and engineering firms' and general contractors' experience using life-cycle costs, operating costs, and energy efficiency measures when selecting an architectural and engineering firm, or when selecting contractors using alternative contracting methods.

NEW SECTION. Sec. 7004. To ensure that major construction projects are carried out in accordance with legislative and executive intent, appropriations in this act in excess of \$10,000,000 may not be expended or encumbered until the office of financial management has reviewed and approved the agency's predesign. The predesign document must include, but not be limited to, program, site, and cost analysis, including life-cycle cost, in accordance with the predesign manual adopted by the office of financial management. The results of life-cycle cost analysis must be a primary consideration in the selection of a building design. Construction may proceed only upon providing to the office of financial management the life-cycle costs. To improve monitoring of major construction projects, progress reports must be submitted by the agency administering the project to the office of financial management and to the fiscal committees of the house of representatives and senate. Reports must be submitted on July 1st and December 31st each year in a format to be developed by the office of financial management.

NEW SECTION. Sec. 7005. (1) Allotments for appropriations in this act shall be provided in accordance with the capital project review requirements adopted by the office of financial management and in compliance with RCW 43.88.110. Projects that will be employing alternative public works construction procedures under chapter 39.10 RCW are subject to the allotment procedures defined in this section and RCW 43.88.110.

(2) Each project is defined as proposed in the legislative budget notes or in the governor's budget document.

NEW SECTION. Sec. 7006. (1) The office of financial management may authorize a transfer of appropriation authority provided for a capital project that is in excess of the amount required for the completion of such project to another capital project for which the appropriation is insufficient. No such transfer may be used to expand the capacity of any facility beyond that intended in making the appropriation. Such transfers may be effected only between capital appropriations to a specific department, commission, agency, or institution of higher education and only between capital projects that are funded from the same fund or account. No transfers may occur between projects to local government agencies except where the grants are provided within a single omnibus appropriation and where such transfers are specifically authorized by the implementing statutes that govern the grants.

(2) The office of financial management may find that an amount is in excess of the amount required for the completion of a project only if: (a) The project as defined in the notes to the budget document is substantially complete and there are funds remaining; or (b) bids have been let on a project and it appears to a substantial certainty that the project as defined in the notes to the budget document can be completed within the biennium for less than the amount appropriated in this act.

(3) For the purposes of this section, the intent is that each project be defined as proposed to the legislature in the governor's budget document, unless it clearly appears from the legislative history that the legislature intended to define the scope of a project in a different way.

(4) A report of any transfer effected under this section, except emergency projects or any transfer under \$250,000, shall be filed with the legislative fiscal committees of the senate and house of representatives by the office of financial management at least thirty days before the date the transfer is effected. The office of financial management shall report all emergency or smaller transfers within thirty days from the date of transfer.

NEW SECTION. Sec. 7007. (1) It is expected that projects be ready to proceed in a timely manner depending on the type or phase of the project or program that is the subject of the appropriation in this act. Except for major projects that customarily may take more than two biennia to complete from predesign to the end of construction, or large infrastructure grant or loan programs supporting projects that often take more than two biennia to complete, the legislature generally does not intend to reappropriate funds more than once, particularly for smaller grant programs, local/community projects, and minor works.

(2) Agencies shall expedite the expenditure of reappropriations and appropriations in this act in order to: (a) Rehabilitate infrastructure resources; (b) accelerate environmental rehabilitation and restoration projects for the improvement of the state's natural environment; (c) reduce additional costs associated with acquisition and construction inflationary pressures; and (d) provide additional employment opportunities associated with capital expenditures.

(3) To the extent feasible, agencies are directed to accelerate expenditure rates at their current level of permanent employees and shall use contracted design and construction services wherever necessary to meet the goals of this section.

NEW SECTION. Sec. 7008. (1) Any building project that receives funding from the capital budget must be built to sustainable standards. "Sustainable building" means a building that integrates and optimizes all major high-performance building attributes, including energy efficiency, durability, life-cycle performance, and occupant productivity. The following design and construction attributes must be integrated into the building project:

(a) Employ integrated design principles: Use a collaborative, integrated planning and design process that initiates and maintains an integrated project team in all stages of a project's planning and delivery. Establish performance goals for siting, energy, water, materials, and indoor environmental quality along with other comprehensive design goals and ensures incorporation of these goals throughout the design and life-cycle of the building. Considers all stages of the building's life-cycle, including deconstruction.

(b) Commissioning: Employ commissioning practices tailored to the size and complexity of the building and its system components in order to verify performance of building components and systems and help ensure that design requirements are met. This should include an experienced commissioning provider, inclusion of commissioning requirements in construction documents, a commissioning plan, verification of the installation and performance of systems to be commissioned, and a commissioning report.

(c) Optimize energy performance: Establish a whole building performance target that takes into account the intended use, occupancy, operations, plug loads, other energy demands, and design to earn the ENERGY STAR targets for new construction and major renovation where applicable. For new construction target low energy use index. For major renovations, reduce the energy use by fifty percent below pre-renovations baseline.

(d) On-site renewable energy: Meet at least thirty percent of the hot water demand through the installation of solar hot water heaters, when life-cycle cost effective. Implement renewable energy generation projects on agency property for agency use, when life-cycle cost effective.

(e) Measurement and verification: Install building level electricity meters in new major construction and renovation projects to track and continuously optimize performance. Include equivalent meters for natural gas and steam, where natural gas and steam are used. Install dashboards inside buildings to display and incentivize occupants on energy use.

(f) Benchmarking: Compare actual performance data from the first year of operation with the energy design target. Verify that the building performance meets or exceeds the design target. For other building and space types, use an equivalent benchmarking tool for laboratory buildings. Web-based data collection and dashboards must also be provided.

NEW SECTION. Sec. 7009. State agencies, including institutions of higher education, shall allot and report full-time equivalent staff for capital projects in a manner comparable to staff reporting for operating expenditures.

NEW SECTION. Sec. 7010. Executive Order No. 05-05, archaeological and cultural resources, was issued effective November 10, 2005. Agencies and higher education institutions shall comply with the requirements set forth in this executive order.

NEW SECTION. Sec. 7011. PUGET SOUND PROTECTION AND RESTORATION. Consistent with RCW 90.71.340, when expending appropriations under this act that contribute to Puget Sound protection and recovery, agencies shall consult with the Puget Sound partnership to ensure that projects and expenditures are either in, or consistent with the 2020 action agenda. These consultations shall include the exchange of information on specific actions, projects, associated funding, performance measures, and other information necessary to track project implementation and ensure alignment with the action agenda. In situations where the Puget Sound partnership finds that a project is not in, or is not consistent with the action agenda, Puget Sound partnership shall document this finding and report back to the governor and legislative fiscal committees.

NEW SECTION. Sec. 7012. FOR THE ARTS COMMISSION—ART WORK ALLOWANCE. (1) One-half of one percent of moneys appropriated in this act for original construction of school plant facilities is provided solely for the purposes of RCW 28A.335.210.

(2) One-half of one percent of moneys appropriated in this act for original construction or any major renovation or remodel work exceeding \$200,000 by colleges or universities is provided solely for the purposes of RCW 28B.10.027.

(3) One-half of one percent of moneys appropriated in this act for original construction of any public building by a state agency identified in RCW 43.17.020 is provided solely for the purposes of RCW 43.17.200.

(4) At least eighty-five percent of the moneys spent by the Washington state arts commission during the 2015-2017 biennium for the purposes of RCW 28A.335.210, 28B.10.027, and 43.17.200 must be expended solely for direct acquisition of works of art. Art allocations not expended within the ensuing two biennia will lapse. The commission may use up to \$100,000 of this amount to conserve or maintain existing pieces in the state art collection pursuant to RCW 28A.335.210.

(5) The executive director of the arts commission shall appoint a study group to review the operations of the one-half of one percent for works of art purchased or commissioned as required by RCW 28A.335.210, 28B.10.027, and 43.17.200. The findings of the review must be reported annually to the office of financial management and the fiscal committees of the legislature by August 15th. The review must include, but is not limited to, the following: (a) Projects purchased or commissioned per biennium; (b) partner agencies; (c) funding sources by fiscal year; (d) artwork costs; (e) administrative costs; (f) collection care costs; and (g) project status.

NEW SECTION. Sec. 7013. It is confirmed that the director of the department of enterprise services is authorized under chapter 35A.14 RCW to petition for annexation of the former northern state hospital property to the city of Sedro-Woolley upon the director's determination that such annexation is appropriate and in furtherance of the interests of the state. The director shall consult with the office of financial management prior to making such determination.

Sec. 7014. RCW 27.34.330 and 2006 c 371 s 232 are each amended to read as follows:

The Washington state historical society shall establish a competitive process to solicit proposals for and prioritize heritage capital projects for potential funding in the state capital budget. The society shall adopt rules governing project eligibility and evaluation criteria. Application for funding of specific projects may be made to the society by local governments, public development authorities, nonprofit corporations, tribal governments, and other entities, as determined by the society. The society, with the advice of leaders in the heritage field, including but not limited to representatives from the office of the secretary of state, the eastern Washington state historical society, and the department of archaeology and historic preservation, shall establish and submit a prioritized list of heritage capital projects to the governor and the legislature in the society's biennial capital budget request. The list shall include a description of each project, the amount of recommended state funding, and documentation of nonstate funds to be used for the project. The total amount of recommended state funding for projects on a biennial project list shall not exceed ten million dollars. The prioritized list shall be developed through open and public meetings and the amount of state funding shall not exceed thirty-three ~~and thirty-three one hundredths~~ percent of the total cost of the project. The nonstate portion of the total project cost may include cash, the value of real property when acquired solely for the purpose of the project, and in-kind contributions. The department shall not sign contracts or otherwise financially obligate funds under this section until the legislature has approved a specific list of projects. In contracts for grants authorized under this section, the society shall include provisions requiring that capital improvements be held by the grantee for a specified period of time appropriate to the amount of the grant and that facilities be used for the express purpose of the grant. If the grantee is found to be out of compliance with provisions of the contract, the grantee shall repay to the state general fund the principal amount of the grant plus interest calculated at the rate of interest on state of Washington general obligation bonds issued most closely to the date of authorization of the grant.

NEW SECTION. Sec. 7015. To carry out the provisions of this act, the governor may assign responsibility for predesign, design, construction, and other related activities to any appropriate agency.

NEW SECTION. Sec. 7016. If any federal moneys appropriated by this act for capital projects are not received by the state, the department or agency to which the moneys were appropriated may replace the federal moneys with funds available from private or local sources. No replacement may occur under this section without the prior approval of the director of financial management in consultation with the senate ways and means committee and the house of representatives capital budget committee.

NEW SECTION. Sec. 7017. (1) Unless otherwise stated, for all appropriations under this act that require a match of nonstate money or in-kind contributions, the following requirement, consistent with RCW 43.88.150, shall apply: Expenditures of state money shall be timed so that the state share of project expenditures never exceeds the intended state share of total project costs.

(2) Provision of the full amount of required matching funds is not required to permit the expenditure of capital budget appropriations for phased projects if a proportional amount of the required matching funds is provided for each distinct, identifiable phase of the project.

Sec. 7018. RCW 28A.525.166 and 2013 2nd sp.s. c 18 s 514 are each amended to read as follows:

Allocations to school districts of state funds provided by RCW 28A.525.162 through 28A.525.180 shall be made by the superintendent of public instruction and the amount of state funding assistance to a school district in financing a school plant project shall be determined in the following manner:

(1) The boards of directors of the districts shall determine the total cost of the proposed project, which cost may include the cost of acquiring and preparing the site, the cost of constructing the building or of acquiring a building and preparing the same for school use, the cost of necessary equipment, taxes chargeable to the project, necessary architects' fees, and a reasonable amount for contingencies and for other necessary incidental expenses: PROVIDED, That the total cost of the project shall be subject to review and approval by the superintendent.

(2) The state funding assistance percentage for a school district shall be computed by the following formula:

The ratio of the school district's adjusted valuation per pupil divided by the ratio of the total state adjusted valuation per pupil shall be subtracted from three, and then the result of the foregoing shall be divided by three plus (the ratio of the school district's adjusted valuation per pupil divided by the ratio of the total state adjusted valuation per pupil).

$$\begin{array}{r} \text{Computed} \\ \text{State} \\ \text{Ratio} \end{array} = \frac{\begin{array}{r} \text{District adjusted} \\ \text{3-valuation} \\ \text{per pupil} \end{array}}{\begin{array}{r} \text{District adjusted} \\ \text{3+valuation} \\ \text{per pupil} \end{array}} \div \frac{\begin{array}{r} \text{Total state} \\ \text{adjusted valuation} \\ \text{per pupil} \end{array}}{\begin{array}{r} \text{Total state} \\ \text{adjusted valuation} \\ \text{per pupil} \end{array}} = \text{ - \% Funding} \\ \text{Assistance} \end{array}$$

PROVIDED, That in the event the state funding assistance percentage to any school district based on the above formula is less than twenty percent and such school district is otherwise eligible for state funding assistance under RCW 28A.525.162 through 28A.525.180, the superintendent may establish for such district a state funding assistance percentage not in excess of twenty percent of the approved cost of the project, if the superintendent finds that such additional assistance is necessary to provide minimum facilities for housing the pupils of the district.

(3) In addition to the computed state funding assistance percentage developed in subsection (2) of this section, a school district shall be entitled to additional percentage points determined by the average percentage of growth for the past three years. One percent shall be added to the computed state funding assistance percentage for each percent of growth, with a maximum of twenty percent.

(4) In computing the state funding assistance percentage in subsection (2) of this section and adjusting the percentage under subsection (3) of this section, students residing outside the school district who are enrolled in alternative learning experience courses under RCW 28A.232.010 shall be excluded from the count of total pupils. In lieu of the exclusion in this subsection, a district may submit an alternative calculation for excluding students enrolled in alternative learning experience courses. The alternative calculation must show the student headcount use of district classroom facilities on a regular basis for a reasonable duration by out-of-district alternative learning experience students subtracted by the headcount of in-district alternative learning experience students not using district classroom facilities on a regular basis for a reasonable duration. The alternative calculation must be submitted in a form approved by the office of the superintendent of public instruction. The office of the superintendent of public instruction must develop rules to define "regular basis" and "reasonable duration."

(5) The approved cost of the project determined in the manner prescribed in this section multiplied by the state funding assistance percentage derived as provided for in this section shall be the amount of state funding assistance to the district for the financing of the project: PROVIDED, That need therefor has been established to the satisfaction of the superintendent: PROVIDED, FURTHER, That additional state funding assistance may be allowed if it is found by the superintendent, considering policy recommendations from the school facilities citizen advisory panel that such assistance is necessary in order to meet (a) a school housing emergency resulting from the destruction of a school building by fire, the condemnation of a school building by properly constituted authorities, a sudden excessive and clearly foreseeable future increase in school population, or other conditions similarly emergent in nature; or (b) a special school housing burden resulting from projects of statewide significance or imposed by virtue of the admission of nonresident students into educational programs established, maintained and operated in conformity with the requirements of law; or (c) a deficiency in the capital funds of the district resulting from financing, subsequent to April 1, 1969, and without benefit of the state funding assistance provided by prior state assistance programs, the construction of a needed school building project or projects approved in conformity with the requirements of such programs, after having first applied for and been denied state funding assistance because of the inadequacy of state funds available for the purpose, or (d) a condition created by the fact that an excessive number of students live in state owned housing, or (e) a need for the construction of a school building to provide for improved school district organization or racial balance, or (f) conditions similar to those defined under (a), (b), (c), (d), and (e) of this subsection, creating a like emergency.

(6) For the 2015-2017 biennium, schools determined to have a lack of sufficient space to provide all-day kindergarten, reduce class sizes, or provide science classrooms or labs to meet the requirements of law, have a special housing burden condition similar to those defined under subsection (5)(b) of this section, creating a like emergency. For the 2015-2017 biennium, school districts are entitled to additional percentage points for school construction projects that have a special housing burden condition only. The additional percentage points are determined by (a) student enrollments in the free and reduced price meals program, and (b) donations of cash, like-kind, or equipment from private sources. The additional percentage points under (a) of this subsection are twenty percent of the percent of student enrollments eligible and enrolled in the free and reduced price meals program. The additional percentage points under (b) of this subsection are determined by enrollments of the school district and the value of the private donation as follows:

District Enrollments	\$250K-\$499K	Value of Donation \$500K-\$1M	>\$1M
	Less than 2,000	10	15
2,000-4,000	5	10	15
More than 4,000	0	5	10

Sec. 7019. RCW 28A.525.172 and 2006 c 263 s 314 are each amended to read as follows:

All applications by school districts for state assistance in providing school plant facilities shall be made to the superintendent of public instruction in conformity with rules adopted by the superintendent of public instruction, considering policy recommendations from the school facilities citizen advisory panel. Studies and surveys shall be conducted by the superintendent for the purpose of securing information relating to ~~((a)-(1))~~ (1) the kind and extent of the school plant facilities required and the urgency of need for such facilities in districts that seek state assistance, ~~((b)-(2))~~ (2) the ability of such districts to provide capital funds by local effort, ~~((c)-(3))~~ (3) the need for improvement

The board must attempt to assure a geographical balance in assigning priorities to projects. The board must consider at least the following factors in assigning a priority to a project:

(a) Whether the local government receiving assistance has experienced severe fiscal distress resulting from natural disaster or emergency public works needs;

(b) Except as otherwise conditioned by RCW 43.155.110, whether the entity receiving assistance is a Puget Sound partner, as defined in RCW 90.71.010;

(c) Whether the project is referenced in the action agenda developed by the Puget Sound partnership under RCW 90.71.310;

(d) Whether the project is critical in nature and would affect the health and safety of a great number of citizens;

(e) Whether the applicant's permitting process has been certified as streamlined by the office of regulatory assistance;

(f) Whether the applicant has developed and adhered to guidelines regarding its permitting process for those applying for development permits consistent with section 1(2), chapter 231, Laws of 2007;

(g) The cost of the project compared to the size of the local government and amount of loan money available;

(h) The number of communities served by or funding the project;

(i) Whether the project is located in an area of high unemployment, compared to the average state unemployment;

(j) Whether the project is the acquisition, expansion, improvement, or renovation by a local government of a public water system that is in violation of health and safety standards, including the cost of extending existing service to such a system;

(k) Except as otherwise conditioned by RCW 43.155.120, and effective one calendar year following the development of model evergreen community management plans and ordinances under RCW 35.105.050, whether the entity receiving assistance has been recognized, and what gradation of recognition was received, in the evergreen community recognition program created in RCW 35.105.030;

(l) The relative benefit of the project to the community, considering the present level of economic activity in the community and the existing local capacity to increase local economic activity in communities that have low economic growth; and

(5) For the ~~((2013-2015))~~ 2015-2017 fiscal biennium, in place of the criteria, ranking, and submission processes for construction loan lists provided in subsections (4) and (7) of this section:

(a) The board must develop a process for numerically ranking applications for construction loans submitted by local governments. The board must consider, at a minimum and in any order, the following factors in assigning a numerical ranking to a project:

(i) Whether the project is critical in nature and would affect the health and safety of many people;

(ii) The extent to which the project leverages nonstate funds;

(iii) The extent to which the project is ready to proceed to construction;

(iv) Whether the project is located in an area of high unemployment, compared to the average state unemployment;

(v) Whether the project promotes the sustainable use of resources and environmental quality;

(vi) Whether the project consolidates or regionalizes systems;

(vii) Whether the project encourages economic development through mixed-use and mixed income development consistent with chapter 36.70A RCW;

- (viii) Whether the system is being well-managed in the present and for long-term sustainability;
- (ix) Achieving equitable distribution of funds by geography and population;
- (x) The extent to which the project meets the following state policy objectives:
 - (A) Efficient use of state resources;
 - (B) Preservation and enhancement of health and safety;
 - (C) Abatement of pollution and protection of the environment;
 - (D) Creation of new, family wage jobs, and avoidance of shifting existing jobs from one Washington state community to another;
 - (E) Fostering economic development consistent with chapter 36.70A RCW;
 - (F) Efficiency in delivery of goods and services, public transit, and transportation;
 - (G) Avoidance of additional costs to state and local governments that adversely impact local residents and small businesses; and
 - (H) Reduction of the overall cost of public infrastructure; and
- (xi) Other criteria that the board considers necessary to achieve the purposes of this chapter.

(b) Before November 1, ~~((2014))~~ 2016, the board must develop and submit to the appropriate fiscal committees of the senate and house of representatives a ranked list of qualified public works projects which have been evaluated by the board and are recommended for funding by the legislature. The maximum amount of funding that the board may recommend for any jurisdiction is ten million dollars per biennium. For each project on the ranked list, as well as for eligible projects not recommended for funding, the board must document the numerical ranking that was assigned.

(6) Existing debt or financial obligations of local governments may not be refinanced under this chapter. Each local government applicant must provide documentation of attempts to secure additional local or other sources of funding for each public works project for which financial assistance is sought under this chapter.

(7) Before November 1st of each even-numbered year, the board must develop and submit to the appropriate fiscal committees of the senate and house of representatives a description of the loans made under RCW 43.155.065, 43.155.068, and subsection (10) of this section during the preceding fiscal year and a prioritized list of projects which are recommended for funding by the legislature, including one copy to the staff of each of the committees. The list must include, but not be limited to, a description of each project and recommended financing, the terms and conditions of the loan or financial guarantee, the local government jurisdiction and unemployment rate, demonstration of the jurisdiction's critical need for the project and documentation of local funds being used to finance the public works project. The list must also include measures of fiscal capacity for each jurisdiction recommended for financial assistance, compared to authorized limits and state averages, including local government sales taxes; real estate excise taxes; property taxes; and charges for or taxes on sewerage, water, garbage, and other utilities.

(8) The board may not sign contracts or otherwise financially obligate funds from the public works assistance account before the legislature has appropriated funds for a specific list of public works projects. The legislature may remove projects from the list recommended by the board. The legislature may not change the order of the priorities recommended for funding by the board.

(9) Subsection (8) of this section does not apply to loans made under RCW 43.155.065, 43.155.068, and subsection (10) of this section.

(10) Loans made for the purpose of capital facilities plans are exempted from subsection (8) of this section.

(11) To qualify for loans or pledges for solid waste or recycling facilities under this chapter, a city or county must demonstrate that the solid waste or recycling facility is consistent with and necessary to implement the comprehensive solid waste management plan adopted by the city or county under chapter 70.95 RCW.

(12) After January 1, 2010, any project designed to address the effects of storm water or wastewater on Puget Sound may be funded under this section only if the project is not in conflict with the action agenda developed by the Puget Sound partnership under RCW 90.71.310.

(13) During the ~~((2013-2015))~~ 2015-2017 fiscal biennium, for projects involving repair, replacement, or improvement of a wastewater treatment plant or other public works facility for which an investment grade efficiency audit is obtainable, the public works board must require as a contract condition that the project sponsor undertake an investment grade efficiency audit. The project sponsor may finance the costs of the audit as part of its public works assistance account program loan.

~~(14)(a) ((For public works assistance account application rounds conducted during the 2013-2015 fiscal biennium, the board must implement policies and procedures designed to maximize local government use of federally funded drinking water and clean water state revolving funds operated by the state departments of health and ecology. The board, department of ecology, and department of health must jointly develop evaluation criteria and application procedures that will increase access of eligible drinking water and wastewater projects to the public works assistance account for short-term preconstruction financing and to the federally funded state revolving funds for construction financing. The procedures must also strengthen coordinated funding of preconstruction and construction projects.)) For public works assistance account application rounds conducted during the 2015-2017 fiscal biennium, the board must implement policies and procedures designed to maximize local government use of federal funds to finance local infrastructure including, but not limited to, drinking water and clean water state revolving funds operated by the state departments of health and ecology.~~

(b) For all construction loan projects proposed to the legislature for funding during the ~~((2013-2015))~~ 2015-2017 fiscal biennium, the board must base interest rates on the average daily market interest rate for tax-exempt municipal bonds as published in the bond buyer's index for the period from sixty to thirty days before the start of the application cycle. For projects with a repayment period between five and twenty years, the rate must be sixty percent of the market rate. For projects with a repayment period under five years, the rate must be thirty percent of the market rate. The board must also provide reduced interest rates, extended repayment periods, or forgivable principal loans for projects that meet financial hardship criteria as measured by the affordability index or similar standard measure of financial hardship.

~~((c) By December 1, 2013, the board must recommend to the appropriate committees of the legislature statutory language to make permanent these new criteria, procedures, and financing policies.))~~

There shall be a fund in the state treasury known as the public facilities construction loan revolving account, which shall consist of all moneys collected under this chapter and any moneys appropriated to it by law. Disbursements from the revolving account shall be on authorization of the board. In order to maintain an effective expenditure and revenue control, the public facilities construction loan revolving account shall be subject in all respects to chapter 43.88 RCW. ~~((During the 2009-2011 biennium, sums in the public facilities construction loan revolving account may be used for community economic revitalization board export assistance grants and loans in section 1018, chapter~~

(x) For the 2013-2015 fiscal biennium, moneys in the state toxics control account may be transferred to the radioactive mixed waste account.

(4)(a) The department shall use moneys deposited in the local toxics control account for grants or loans to local governments for the following purposes in descending order of priority:

(i) Extended grant agreements entered into under ~~((e)(e)))~~ (e)(i) of this subsection;

(ii) Remedial actions, including planning for adaptive reuse of properties as provided for under ~~((e)-(f))~~ (e)(iv) of this subsection. The department must prioritize funding of remedial actions at:

(A) Facilities on the department's hazardous sites list with a high hazard ranking for which there is an approved remedial action work plan or an equivalent document under federal cleanup law;

(B) Brownfield properties within a redevelopment opportunity zone if the local government is a prospective purchaser of the property and there is a department-approved remedial action work plan or equivalent document under the federal cleanup law;

(iii) Storm water pollution source projects that: (A) Work in conjunction with a remedial action; (B) protect completed remedial actions against recontamination; or (C) prevent hazardous clean-up sites;

(iv) Hazardous waste plans and programs under chapter 70.105 RCW;

(v) Solid waste plans and programs under chapters 70.95, 70.95C, 70.95I, and 70.105 RCW;

(vii) Appropriations to the state toxics control account or the environmental legacy stewardship account created in RCW 70.105D.170, if the legislature determines that priorities for spending exceed available funds in those accounts.

(b) Funds for plans and programs must be allocated consistent with the priorities and matching requirements established in chapters 70.105, 70.95C, 70.95I, and 70.95 RCW.

(c) During the 2013-2015 fiscal biennium, the local toxics control account may also be used for local government storm water planning and implementation activities.

(d) During the 2013-2015 fiscal biennium, the legislature may transfer from the local toxics control account to the state general fund, such amounts as reflect the excess fund balance in the account.

(e) To expedite cleanups throughout the state, the department may use the following strategies when providing grants to local governments under this subsection:

(i) Enter into an extended grant agreement with a local government conducting remedial actions at a facility where those actions extend over multiple biennia and the total eligible cost of those actions exceeds twenty million dollars. The agreement is subject to the following limitations:

(A) The initial duration of such an agreement may not exceed ten years. The department may extend the duration of such an agreement upon finding substantial progress has been made on remedial actions at the facility;

(B) Extended grant agreements may not exceed fifty percent of the total eligible remedial action costs at the facility; and

(C) The department may not allocate future funding to an extended grant agreement unless the local government has demonstrated to the department that funds awarded under the agreement during the previous biennium have been substantially expended or contracts have been entered into to substantially expend the funds;

(ii) Enter into a grant agreement with a local government conducting a remedial action that provides for periodic reimbursement of remedial action costs as they are incurred as established in the agreement;

(iii) Enter into a grant agreement with a local government prior to it acquiring a property or obtaining necessary access to conduct remedial actions, provided the agreement is conditioned upon the local government acquiring the property or obtaining the access in accordance with a schedule specified in the agreement;

(iv) Provide integrated planning grants to local governments to fund studies necessary to facilitate remedial actions at brownfield properties and adaptive reuse of properties following remediation. Eligible activities include, but are not limited to: Environmental site assessments; remedial investigations; health assessments; feasibility studies; site planning; community involvement; land use and regulatory analyses; building and infrastructure assessments; economic and fiscal analyses; and any environmental analyses under chapter 43.21C RCW;

(v) Provide grants to local governments for remedial actions related to area-wide groundwater contamination. To receive the funding, the local government does not need to be a potentially liable person or be required to seek reimbursement of grant funds from a potentially liable person;

(vi) The director may alter grant matching requirements to create incentives for local governments to expedite cleanups when one of the following conditions exists:

(A) Funding would prevent or mitigate unfair economic hardship imposed by the clean-up liability;

(B) Funding would create new substantial economic development, public recreational opportunities, or habitat restoration opportunities that would not otherwise occur; or

(C) Funding would create an opportunity for acquisition and redevelopment of brownfield property under RCW 70.105D.040(5) that would not otherwise occur;

(vii) When pending grant applications under ~~((e)-(f))~~ (e)(iv) and (v) of this subsection (4) exceed the amount of funds available, designated redevelopment opportunity zones must receive priority for distribution of available funds.

~~((d)-(f))~~ (f) To expedite multiparty clean-up efforts, the department may purchase remedial action cost-cap insurance. For the 2013-2015 fiscal biennium, moneys in the local toxics control account may be spent on projects in sections 3024, 3035, 3036, and 3059, chapter 19, Laws of 2013 2nd sp. sess.

(5) Except for unanticipated receipts under RCW 43.79.260 through 43.79.282, moneys in the state and local toxics control accounts may be spent only after appropriation by statute.

(6) No moneys deposited into either the state or local toxics control account may be used for: Natural disasters where there is no hazardous substance contamination; high performance buildings; solid waste incinerator facility feasibility studies, construction, maintenance, or operation; or after January 1, 2010, for projects designed to address the restoration of Puget Sound, funded in a competitive grant process, that are in conflict with the action agenda developed by the Puget Sound partnership under RCW 90.71.310. However, this subsection does not prevent an appropriation from the state toxics control account to the department of revenue to enforce compliance with the hazardous substance tax imposed in chapter 82.21 RCW.

(7) Except during the 2011-2013 fiscal biennium, one percent of the moneys collected under RCW 82.21.030 shall be allocated only for public participation grants to persons who may be adversely affected by a release or threatened release of a hazardous substance and to not-for-profit public interest organizations. The primary purpose of these grants is to facilitate the participation by persons and organizations in the investigation and remedying of releases or threatened releases of hazardous substances and to implement the state's solid and hazardous

waste management priorities. No grant may exceed sixty thousand dollars. Grants may be renewed annually. Moneys appropriated for public participation that are not expended at the close of any biennium revert to the state toxics control account.

(8) The department shall adopt rules for grant or loan issuance and performance. To accelerate both remedial action and economic recovery, the department may expedite the adoption of rules necessary to implement chapter 1, Laws of 2013 2nd sp. sess. using the expedited procedures in RCW 34.05.353. The department shall initiate the award of financial assistance by August 1, 2013. To ensure the adoption of rules will not delay financial assistance, the department may administer the award of financial assistance through interpretive guidance pending the adoption of rules through July 1, 2014.

(9) Except as provided under subsection (3)(k) and (q) of this section, nothing in chapter 1, Laws of 2013 2nd sp. sess. effects [affects] the ability of a potentially liable person to receive public funding.

(10) During the ~~((2013-2015))~~ 2015-2017 fiscal biennium the local toxics control account may also be used for the centennial clean water program ~~((and for storm water grants))~~ and for the storm water financial assistance program administered by the department of ecology.

NEW SECTION. Sec. 7036. (1) Funds appropriated in this act for minor works may not be allotted until final project lists are submitted to the office of financial management. Revisions to the project lists are allowed for projects not anticipated at the time of budget development but must be submitted to the office of financial management, the house of representatives capital budget committee, and the senate ways and means committee for review and comment and must include an explanation of variances from the prior lists before funds may be expended on the revisions. Any project list revisions must be approved by the office of financial management before funds may be expended from the minor works appropriation.

(2)(a) Minor works project lists are single line appropriations that include multiple projects of a similar nature and that are valued between \$25,000 and \$1,000,000 each, with the exception of higher education minor works projects that may be valued up to \$2,000,000. All projects must meet the criteria included in this subsection (2)(a). These projects should be completed within two years of the appropriation with the funding provided. Agencies are prohibited from including projects on their minor works lists that are a phase of a larger project, and that if combined over a continuous period of time, would exceed \$1,000,000, or \$2,000,000 for higher education minor works projects. Improvements for accessibility in compliance with the Americans with disabilities act may be included in any of the minor works categories.

(b) Minor works appropriations may not be used for the following: Studies, except for technical or engineering reviews or designs that lead directly to and support a project on the same minor works list; planning; design outside the scope of work on a minor works list; moveable, temporary, and traditionally funded operating equipment not in compliance with the equipment criteria established by the office of financial management; software not dedicated to control of a specialized system; moving expenses; land or facility acquisition; rolling stock; computers; or to supplement funding for projects with funding shortfalls unless expressly authorized. The office of financial management may make an exception to the limitations described in this subsection (2)(b) for exigent circumstances after notifying the legislative fiscal committees and waiting ten days for comments by the legislature regarding the proposed exception.

(c) Minor works preservation projects may include program improvements of no more than twenty-five percent of the individual minor works preservation project cost.

SSB 5280 Prime Sponsor, Committee on Commerce & Labor: Concerning the sale of beer and cider by grocery store licensees. Reported by Committee on General Government & Information Technology

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

"**Sec. 7026.** RCW 66.24.360 and 2012 c 2 s 104 are each amended to read as follows:

(1) There is a grocery store license to sell wine and/or beer, including without limitation strong beer at retail in original containers, not to be consumed upon the premises where sold.

(2) There is a wine retailer reseller endorsement of a grocery store license, to sell wine at retail in original containers to retailers licensed to sell wine for consumption on the premises, for resale at their licensed premises according to the terms of the license. However, no single sale may exceed twenty-four liters, unless the sale is made by a licensee that was a contract liquor store manager of a contract-operated liquor store at the location from which such sales are made. For the purposes of this title, a grocery store license is a retail license, and a sale by a grocery store licensee with a reseller endorsement is a retail sale only if not for resale.

(3) Licensees obtaining a written endorsement from the board may also sell malt liquor in kegs or other containers capable of holding less than five and one-half gallons of liquid.

(4) The annual fee for the grocery store license is one hundred fifty dollars for each store.

(5) The annual fee for the wine retailer reseller endorsement is one hundred sixty-six dollars for each store.

(6)(a) Upon approval by the board, a grocery store licensee with revenues derived from beer and/or wine sales exceeding fifty percent of total revenues or that maintains an alcohol inventory of not less than fifteen thousand dollars may also receive an endorsement to permit the sale of beer and cider, as defined in RCW 66.24.210(6), in a sanitary container brought to the premises by the purchaser, or provided by the licensee or manufacturer, and filled at the tap by the licensee at the time of sale by an employee of the licensee holding a class 12 alcohol server permit.

(b) Pursuant to RCW 74.08.580(1)(f), a person may not use an electronic benefit transfer card for the purchase of any product authorized for sale under this section.

(7) The board must issue a restricted grocery store license authorizing the licensee to sell beer and only table wine, if the board finds upon issuance or renewal of the license that the sale of strong beer or fortified wine would be against the public interest. In determining the public interest, the board must consider at least the following factors:

(a) The likelihood that the applicant will sell strong beer or fortified wine to persons who are intoxicated;

(b) Law enforcement problems in the vicinity of the applicant's establishment that may arise from persons purchasing strong beer or fortified wine at the establishment; and

(c) Whether the sale of strong beer or fortified wine would be detrimental to or inconsistent with a government-operated or funded alcohol treatment or detoxification program in the area.

If the board receives no evidence or objection that the sale of strong beer or fortified wine would be against the public interest, it must issue or renew the license without restriction, as applicable. The burden of establishing that the sale of strong beer or fortified wine by the licensee would be against the public interest is on those persons objecting.

~~((7))~~ (8) Licensees holding a grocery store license must maintain a minimum three thousand dollar inventory of food products for human consumption, not including pop, beer, strong beer, or wine.

~~((8))~~ (9) A grocery store licensee with a wine retailer reseller endorsement may accept delivery of wine at its licensed premises or at one or more warehouse facilities registered with the board, which facilities may also warehouse and distribute nonliquor items, and from which it may deliver to its own licensed premises and, pursuant to sales permitted by this title, to other licensed premises, to other registered facilities, or to lawful purchasers outside the state. Facilities may be registered and utilized by associations, cooperatives, or comparable groups of grocery store licensees.

~~((9))~~ (10) Upon approval by the board, the grocery store licensee may also receive an endorsement to permit the international export of beer, strong beer, and wine.

(a) Any beer, strong beer, or wine sold under this endorsement must have been purchased from a licensed beer or wine distributor licensed to do business within the state of Washington.

(b) Any beer, strong beer, and wine sold under this endorsement must be intended for consumption outside the state of Washington and the United States and appropriate records must be maintained by the licensee.

(c) Any beer, strong beer, or wine sold under this endorsement must be sold at a price no less than the acquisition price paid by the holder of the license.

(d) The annual cost of this endorsement is five hundred dollars and is in addition to the license fees paid by the licensee for a grocery store license.

~~((10))~~ (11) A grocery store licensee holding a snack bar license under RCW 66.24.350 may receive an endorsement to allow the sale of confections containing more than one percent but not more than ten percent alcohol by weight to persons twenty-one years of age or older.

(12) The board may adopt rules to implement this section.

(13) Nothing in this section limits the authority of the board to regulate the sale of beer or cider or container sizes under rules adopted pursuant to RCW 66.08.030."

(2) The legislature further intends that the collaborative process created by the stakeholder group required in section 3 of this act, including the participation of local stakeholders, will be used as a model for river management throughout the state.

(3) The legislature finds that floodplain management must address multiple benefits including:

- (a) Reducing flood hazard to public infrastructure and other land uses caused by sediment accumulation or for other causes;
- (b) Improving fish and wildlife habitat;
- (c) Sustaining agriculture; and
- (d) Maintaining and enhancing public access.

NEW SECTION. Sec. 7028. (1) The state conservation commission and the departments of agriculture, natural resources, fish and wildlife, and ecology must jointly identify and assess three demonstration projects. One demonstration project must be located primarily in Whatcom county, one must be located primarily in Snohomish county, and one must be located primarily in Grays Harbor county.

(2) The demonstration projects must be designed to test the effectiveness and costs of river management by using various management strategies and techniques, as applied, to accomplish the following goals:

- (a) Protection of agricultural lands;
- (b) Restoration or enhancement of fish runs; and
- (c) Protection of public infrastructure and recreational access.

(3) In developing the demonstration projects, the state conservation commission and the departments must, in consultation with the stakeholder group required by section 3 of this act:

- (a) Examine studies and reports related to sediment management conducted in the Fraser river, British Columbia, Canada, to assess whether and how the Fraser river experience applies to the goals of this section, and include any potentially applicable practices in the development of the demonstration projects; and
- (b) Set benchmarks and a timetable for progress toward achievement of the goals of this act.

(4) The development and assessment of the demonstration projects must also consider the disposition of any state-owned gravel resources removed as a result of the demonstration projects. The presumed disposition must be consistent with chapter 79.140 RCW. However, the process for developing and assessing the pilot project may consider:

- (a) Using the gravel resources, at the discretion of the departments, in projects related to fish enhancement programs in the local area of the project or by property owners adjacent to the project;
- (b) Making gravel resources available to local tribes for their use; or
- (c) Selling the gravel resources and using the proceeds to fund the demonstration projects.

(5) At a minimum, the demonstration projects must be designed to collectively examine the following management strategies and techniques:

- (a) Providing deeper, cooler holes for fish life;

(b) Removing excess sediment and gravel that causes diversion of water and erosion of river banks and farmland;

(c) Providing off-channels for habitat as refuge during high flows;

(d) Ensuring that any management activities leave sufficient gravel and sediment for fish spawning and rearing;

(e) Providing stable river banks that will allow for long-term growth of riparian enhancement efforts, such as planting shade trees and hedgerows;

(f) Protecting existing mature treed riparian zones that cool the waters;

(g) Restoring previously existing bank contours that protect the land from erosion caused by more intense and more frequent flooding;

(h) Developing management practices that reduce the amount of gravel, sediment, and woody debris deposited into farm fields; and

(i) Setting back levees and other measures in segments of rivers upstream from the delta to accommodate high flow.

NEW SECTION. Sec. 7029. (1) The state conservation commission must convene a stakeholder group to assist in the development and assessment of the demonstration projects required under section 2 of this act.

(4) The stakeholder group required by this section must be staffed by the state conservation commission with assistance, as requested, from the departments responsible for implementing section 2 of this act.

(5) Each member of the stakeholder group not employed by the state of Washington shall serve without compensation but may be reimbursed for travel expenses as authorized in RCW 43.03.050 and 43.03.060.

(6) Any costs for the implementation of this section, including the participation costs for nonagency participants, must be shared among the agencies responsible for implementing this act. The state conservation commission shall coordinate and manage these costs through interagency agreements with all of the affected agencies.

NEW SECTION. Sec. 7030. (1) The state conservation commission and the departments responsible for implementing section 2 of this act must submit a report to the legislature, consistent with RCW 43.01.036, by October 31, 2016.

demonstration projects for consideration in the biennial capital budget request to the governor and the legislature.

NEW SECTION. Sec. 7031. If funding is identified for the implementation of the demonstration projects developed under section 2 of this act from sources other than specific state appropriations, and the implementation of the demonstration projects can occur within the existing authority of all affected parties, the legislature intends for the state conservation commission and the departments responsible for implementing section 2 of this act to coordinate with the stakeholder group required in section 3 of this act to cooperatively, efficiently, and productively initiate the implementation of the demonstration projects, including the joint and contemporaneous expediting of any necessary permits related to the demonstration projects.

NEW SECTION. Sec. 7032. All requirements in this act are subject to the availability of amounts appropriated for the specific purposes described.

NEW SECTION. Sec. 7033. This act expires July 1, 2017.

The state auditor shall review and analyze the economy, efficiency, and effectiveness of the policies, management, fiscal affairs, and operations of state and local governments, agencies, programs, and accounts. These performance audits shall be conducted in accordance with the United States general accounting office government auditing standards. The state auditor must consult with the office of performance management and the joint legislative audit and review committee to develop audit criteria and standards to audit the state performance management implementation plan.

The scope for each performance audit shall not be limited and shall include nine specific elements: (1) Identification of cost savings; (2) identification of services that can be reduced or eliminated; (3) identification of programs or services that can be transferred to the private sector; (4) analysis of gaps or overlaps in programs or services and recommendations to correct gaps or overlaps; (5) feasibility of pooling information technology systems within the department; (6) analysis of the roles and functions of the department, and recommendations to change or eliminate departmental roles or functions; (7) recommendations for statutory or regulatory changes that may be necessary for the department to properly carry out its functions; (8) analysis of departmental performance data, performance measures, and self-assessment systems; and (9) identification of best practices. Prime Sponsor, Committee on Agriculture, Water & Rural Economic Development: Evaluating mitigation options for impacts to base flows and minimum instream flows. Reported by Committee on General Government & Information Technology

MAJORITY recommendation: Do pass as amended by Committee on General Government & Information Technology and without amendment by Committee on Agriculture & Natural Resources.

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 7049. The legislature finds that rural economic development requires access to uninterrupted water supplies. However, water supplies are not unlimited due to senior water rights and regulations that establish base flows and minimum instream flows. When senior water rights and flow regulations limit additional out-of-stream uses, mitigation options may provide a viable option if they are readily available and well-understood. The legislature recognizes the importance of providing clarity regarding the range of available mitigation options to help provide economic opportunities in rural areas.

NEW SECTION. Sec. 7050. (1) The department of ecology must produce a report evaluating options for mitigating the effects of permit-exempt groundwater withdrawals on existing water rights, including base flows and minimum instream flows. For the

purposes of the report required in this section, the mitigation techniques that the department of ecology must evaluate include, but are not limited to:

- (a) Demand management strategies, such as household conservation and associated water use metering;
 - (b) Supply side strategies, such as use of rainwater collection, greywater, cisterns, bulk or hauled water, and the extension of water supply pipelines.
- (2) When preparing the report required under this section, the department of ecology must:
- (a) Consult with the office of the attorney general;
 - (b) Coordinate with the existing water resources advisory committee formed by the department of ecology to provide feedback on the development of the report and any final recommendations; and
 - (c) Make available a draft of the report on its web site for at least thirty days for public review prior to the completion of the report to allow sufficient opportunity to consider input that may be received.
- (3) The report required in this section must include:
- (a) An examination of scientific methods for establishing instream flows, including a discussion of methods regularly used by the department of ecology and the department of fish and wildlife for each element of the instream flows required to be protected under RCW 90.54.020(3);

Strike everything after the enacting clause and insert the
 following:

"**Sec. 7054.** RCW 90.56.005 and 2010 1st sp.s. c 7 s 72 are
 each amended to read as follows:

(1) The legislature declares that waterborne transportation as a
 source of supply for oil and hazardous substances poses special
 concern for the state of Washington. Each year billions of gallons of
 crude oil and refined petroleum products are transported as cargo
 and fuel by vessels on the navigable waters of the state. The
 movement of crude oil through rail corridors and over Washington
 waters creates safety and environmental risks. The sources and
 transport of crude oil bring risks to our communities along rail lines
 and to the Columbia river, Grays Harbor, and Puget Sound waters.
 These shipments are expected to increase in the coming years.
 Vessels and trains transporting oil into Washington travel on some
 of the most unique and special marine environments in the United
 States. These marine environments are a source of natural beauty,
 recreation, and economic livelihood for many residents of this state.
 As a result, the state has an obligation to ensure the citizens of the
 state that the waters of the state will be protected from oil spills.

(2) The legislature finds that prevention is the best method to
 protect the unique and special marine environments in this state. The
 technology for containing and cleaning up a spill of oil or hazardous
 substances is at best only partially effective. Preventing spills is
 more protective of the environment and more cost-effective when
 all the response and damage costs associated with responding to a
 spill are considered. Therefore, the legislature finds that the primary
 objective of the state is to achieve a zero spills strategy to prevent
 any oil or hazardous substances from entering waters of the state.

(3) The legislature also finds that:

(a) Recent accidents in Washington, Alaska, southern
 California, Texas, Pennsylvania, and other parts of the nation have
 shown that the transportation, transfer, and storage of oil have
 caused significant damage to the marine environment;

(b) Even with the best efforts, it is nearly impossible to remove
 all oil that is spilled into the water, and average removal rates are
 only fourteen percent;

(c) Washington's navigable waters are treasured environmental
 and economic resources that the state cannot afford to place at undue
 risk from an oil spill;

(d) The state has a fundamental responsibility, as the trustee of
 the state's natural resources and the protector of public health and
 the environment to prevent the spill of oil; and

(e) In section 5002 of the federal oil pollution act of 1990, the
 United States congress found that many people believed that
 complacency on the part of industry and government was one of the
 contributing factors to the Exxon Valdez spill and, further, that one
 method to combat this complacency is to involve local citizens in
 the monitoring and oversight of oil spill plans. Congress also found
 that a mechanism should be established that fosters the long-term
 partnership of industry, government, and local communities in
 overseeing compliance with environmental concerns in the
 operation of crude oil terminals. Moreover, congress concluded that,
 in addition to Alaska, a program of citizen monitoring and oversight
 should be established in other major crude oil terminals in the
 United States because recent oil spills indicate that the safe
 transportation of oil is a national problem.

(4) In order to establish a comprehensive prevention and response program to protect Washington's waters and natural resources from spills of oil, it is the purpose of this chapter:

(a) To establish state agency expertise in marine safety and to centralize state activities in spill prevention and response activities;

(b) To prevent spills of oil and to promote programs that reduce the risk of both catastrophic and small chronic spills;

(c) To ensure that responsible parties are liable, and have the resources and ability, to respond to spills and provide compensation for all costs and damages;

(d) To provide for state spill response and wildlife rescue planning and implementation;

(e) To support and complement the federal oil pollution act of 1990 and other federal law, especially those provisions relating to the national contingency plan for cleanup of oil spills and discharges, including provisions relating to the responsibilities of state agencies designated as natural resource trustees. The legislature intends this chapter to be interpreted and implemented in a manner consistent with federal law;

(f) To provide broad powers of regulation to the department of ecology relating to spill prevention and response;

(g) To provide for independent review on an ongoing basis the adequacy of oil spill prevention, preparedness, and response activities in this state; ~~(and)~~

(h) To provide an adequate funding source for state response and prevention programs; and

(i) To maintain the best achievable protection that can be obtained through the use of the best achievable technology and those staffing levels, training procedures, and operational methods that provide the greatest degree of protection achievable.

(1) The owner or operator for each onshore and offshore facility, except as determined in subsection (3) of this section, shall prepare and submit to the department an oil spill prevention plan in conformance with the requirements of this chapter. The plans shall

be submitted to the department in the time and manner directed by the department. The spill prevention plan may be consolidated with a spill contingency plan submitted pursuant to RCW 90.56.210. The department may accept plans prepared to comply with other state or federal law as spill prevention plans to the extent those plans comply with the requirements of this chapter. The department, by rule, shall establish standards for spill prevention plans.

(2) The spill prevention plan for an onshore or offshore facility shall:

(a) Establish compliance with the federal oil pollution act of 1990, if applicable, and financial responsibility requirements under federal and state law;

(b) Certify that supervisory and other key personnel in charge of transfer, storage, and handling of oil have received certification pursuant to RCW 90.56.220;

(c) Certify that the facility has an operations manual required by RCW 90.56.230;

(d) Certify the implementation of alcohol and drug use awareness programs;

(e) Describe the facility's maintenance and inspection program and contain a current maintenance and inspection record of the storage and transfer facilities and related equipment;

The department shall by rule adopt and periodically revise standards for the preparation of contingency plans. The department shall require contingency plans, at a minimum, to meet the following standards:

(a) Include full details of the method of response to spills of various sizes from any facility which is covered by the plan;

(b) Be designed to be capable in terms of personnel, materials, and equipment, of promptly and properly, to the maximum extent practicable, as defined by the department removing oil and minimizing any damage to the environment resulting from a worst case spill;

(c) Provide a clear, precise, and detailed description of how the plan relates to and is integrated into relevant contingency plans which have been prepared by cooperatives, ports, regional entities, the state, and the federal government;

(d) Provide procedures for early detection of oil spills and timely notification of such spills to appropriate federal, state, and local authorities under applicable state and federal law;

(e) State the number, training preparedness, and fitness of all dedicated, prepositioned personnel assigned to direct and implement the plan;

(f) Incorporate periodic training and drill programs to evaluate whether personnel and equipment provided under the plan are in a state of operational readiness at all times;

(g) Describe important features of the surrounding environment, including fish and wildlife habitat, shellfish beds, environmentally and archaeologically sensitive areas, and public facilities. The departments of ecology, fish and wildlife, and natural resources, and the ~~(office)~~ department of archaeology and historic preservation, upon request, shall provide information that they have available to assist in preparing this description. The description of archaeologically sensitive areas shall not be required to be included in a contingency plan until it is reviewed and updated pursuant to subsection (9) of this section;

(h) State the means of protecting and mitigating effects on the environment, including fish, shellfish, marine mammals, and other wildlife, and ensure that implementation of the plan does not pose unacceptable risks to the public or the environment;

(i) Provide arrangements for the repositioning of oil spill containment and cleanup equipment and trained personnel at strategic locations from which they can be deployed to the spill site to promptly and properly remove the spilled oil;

(j) Provide arrangements for enlisting the use of qualified and trained cleanup personnel to implement the plan;

(k) Provide for disposal of recovered spilled oil in accordance with local, state, and federal laws;

(l) Until a spill prevention plan has been submitted pursuant to RCW 90.56.200, state the measures that have been taken to reduce the likelihood that a spill will occur, including but not limited to, design and operation of a facility, training of personnel, number of personnel, and backup systems designed to prevent a spill;

(m) State the amount and type of equipment available to respond to a spill, where the equipment is located, and the extent to which other contingency plans rely on the same equipment; and

application of the dispersants in conformance with the department's rules.

(2)(a) The following shall submit contingency plans to the department within six months after the department adopts rules establishing standards for contingency plans under subsection (1) of this section:

(i) Onshore facilities capable of storing one million gallons or more of oil; and

(ii) Offshore facilities.

(b) Contingency plans for all other onshore and offshore facilities shall be submitted to the department within eighteen months after the department has adopted rules under subsection (1) of this section. The department may adopt a schedule for submission of plans within the eighteen-month period.

(3) The department by rule shall determine the contingency plan requirements for railroads transporting oil in bulk. Federal oil spill response plans created pursuant to 33 U.S.C. Sec. 1321 may be submitted in lieu of contingency plans until state rules are adopted.

(4)(a) The owner or operator of a facility shall submit the contingency plan for the facility.

(b) A person who has contracted with a facility to provide containment and cleanup services and who meets the standards established pursuant to RCW 90.56.240, may submit the plan for any facility for which the person is contractually obligated to provide services. Subject to conditions imposed by the department, the person may submit a single plan for more than one facility.

~~((4))~~ (5) A contingency plan prepared for an agency of the federal government or another state that satisfies the requirements of this section and rules adopted by the department may be accepted by the department as a contingency plan under this section. The department shall ensure that to the greatest extent possible, requirements for contingency plans under this section are consistent with the requirements for contingency plans under federal law.

~~((5))~~ (6) In reviewing the contingency plans required by this section, the department shall consider at least the following factors:

(a) The adequacy of containment and cleanup equipment, personnel, communications equipment, notification procedures and call down lists, response time, and logistical arrangements for coordination and implementation of response efforts to remove oil spills promptly and properly and to protect the environment;

(e) The history and circumstances surrounding prior spills of oil within the area covered by the plan;

(f) The sensitivity of fisheries, shellfish beds, and wildlife and other natural resources within the area covered by the plan;

(g) Relevant information on previous spills contained in on-scene coordinator reports prepared by the department; and

(h) The extent to which reasonable, cost-effective measures to prevent a likelihood that a spill will occur have been incorporated into the plan.

~~((6))~~ (7) The department shall approve a contingency plan only if it determines that the plan meets the requirements of this section and that, if implemented, the plan is capable, in terms of personnel, materials, and equipment, of removing oil promptly and properly and minimizing any damage to the environment.

~~((7))~~ (8) The approval of the contingency plan shall be valid for five years. Upon approval of a contingency plan, the department shall provide to the person submitting the plan a statement indicating that the plan has been approved, the facilities or vessels covered by the plan, and other information the department determines should be included.

~~((8))~~ (9) An owner or operator of a facility shall notify the department in writing immediately of any significant change of which it is aware affecting its contingency plan, including changes in any factor set forth in this section or in rules adopted by the department. The department may require the owner or operator to update a contingency plan as a result of these changes.

~~((10))~~ (11) Approval of a contingency plan by the department does not constitute an express assurance regarding the adequacy of the plan nor constitute a defense to liability imposed under this chapter or other state law.

Sec. 7059. RCW 90.56.500 and 2009 c 11 s 9 are each amended to read as follows:

(1) The state oil spill response account is created in the state treasury. All receipts from RCW 82.23B.020(1) shall be deposited in the account. All costs reimbursed to the state by a responsible party or any other person for responding to a spill of oil shall also be deposited in the account. Moneys in the account shall be spent only after appropriation. The account is subject to allotment procedures under chapter 43.88 RCW.

(2) The account shall be used exclusively to pay for:

(a) The costs associated with the response to spills or threats of spills of crude oil or petroleum products into the ~~((navigable))~~ waters of the state; and

(b) The costs associated with the department's use of ~~((the))~~ an emergency response towing vessel ~~((as described in RCW 88.46.135)).~~

(3) Payment of response costs under subsection (2)(a) of this section shall be limited to spills which the director has determined are likely to exceed ~~((fifty))~~ one thousand dollars.

(4) Before expending moneys from the account, but without delaying response activities, the director shall make reasonable efforts to obtain funding for response costs under subsection (2) of this section from the person responsible for the spill and from other sources, including the federal government.

(5) Reimbursement for response costs from this account shall be allowed only for costs which are not covered by funds appropriated to the agencies responsible for response activities. Costs associated with the response to spills of crude oil or petroleum products shall include:

(a) Natural resource damage assessment and related activities;

(b) Spill related response, containment, wildlife rescue, cleanup, disposal, and associated costs;

(c) Interagency coordination and public information related to a response; and

(d) Appropriate travel, goods and services, contracts, and equipment.

Sec. 7060. RCW 90.56.510 and 2000 c 69 s 22 are each amended to read as follows:

(1) The oil spill prevention account is created in the state treasury. All receipts from RCW 82.23B.020(2) shall be deposited in the account. Moneys from the account may be spent only after appropriation. The account is subject to allotment procedures under chapter 43.88 RCW. If, on the first day of any calendar month, the balance of the oil spill response account is greater than nine million dollars and the balance of the oil spill prevention account exceeds the unexpended appropriation for the current biennium, then the tax under RCW 82.23B.020(2) shall be suspended on the first day of the next calendar month until the beginning of the following biennium, provided that the tax shall not be suspended during the last six months of the biennium. If the tax imposed under RCW 82.23B.020(2) is suspended during two consecutive biennia, the department shall by November 1st after the end of the second biennium, recommend to the appropriate standing committees an

adjustment in the tax rate. For the biennium ending June 30, 1999, and the biennium ending June 30, 2001, the state treasurer may transfer a total of up to one million dollars from the oil spill response account to the oil spill prevention account to support appropriations made from the oil spill prevention account in the omnibus appropriations act adopted not later than June 30, 1999.

(2) Expenditures from the oil spill prevention account shall be used exclusively for the administrative costs related to the purposes of this chapter, and chapters 90.48, 88.40, and 88.46 RCW. In addition, until June 30, 2019, expenditures from the oil spill prevention account may be used for the development and annual review of local emergency planning committee emergency response plans in RCW 38.52.040(3). Starting with the 1995-1997 biennium, the legislature shall give activities of state agencies related to prevention of oil spills priority in funding from the oil spill prevention account. Costs of prevention include the costs of:

(a) Routine responses not covered under RCW 90.56.500;

(b) Management and staff development activities;

(c) Development of rules and policies and the statewide plan provided for in RCW 90.56.060;

(d) Facility and vessel plan review and approval, drills, inspections, investigations, enforcement, and litigation;

(e) Interagency coordination and public outreach and education;

(f) Collection and administration of the tax provided for in chapter 82.23B RCW; and

(g) Appropriate travel, goods and services, contracts, and equipment.

(3) Before expending moneys from the account for a response under subsection (2)(a) of this section, but without delaying response activities, the director shall make reasonable efforts to obtain funding for response costs under this section from the person responsible for the spill and from other sources, including the federal government.

NEW SECTION. Sec. 7061. A new section is added to chapter 90.56 RCW to read as follows:

(1)(A) A facility that receives crude oil from a railroad car must provide advance notice to the department that the facility will receive crude oil from a railroad car, as provided in this section. The advance notice must include the route taken to the facility within the state, if known, and the scheduled time, location, volume, and type of crude oil received. Each week, a facility that provides advance notice under this section must provide the required information regarding the scheduled arrival of railroad cars carrying crude oil to be received by the facility in the succeeding seven-day period. A facility is not required to provide advance notice when there is no receipt of crude oil from a railroad car scheduled for a seven-day period.

(b) Twice per year, pipelines must report to the department the following information about the crude oil transported by the pipeline through the state: The volume of crude oil, the type of crude oil, and the types of diluting agents used in the crude oil. This report must be submitted each year by July 31st for the period January 1st through June 30th and by January 31st for the period July 1st through December 31st.

(2) The department may share information provided by a facility through the advance notice system established in this section with the state emergency management division and any county, city, tribal, port, or local government emergency response agency upon request.

(3) The department must publish information collected under this section on a quarterly basis on the department's internet web site. With respect to the information reported under subsection (1)(a) of this section, the information published by the department must be aggregated on a statewide basis by route through the state, by week, and by type of crude oil. The report may also include other

information available to the department including, but not limited to, place of origin, modes of transport, number of railroad cars delivering crude oil, and number and volume of spills during transport and delivery.

(4)(a) A facility providing advance notice under this section is not responsible for meeting advance notice time frame requirements under subsection (1) of this section in the event that the schedule of arrivals of railroad cars carrying crude oil changes during a seven-day period.

(b) Twice per year, a facility must submit a report to the department that corrects inaccuracies in the advanced notices submitted under subsection (1) of this section. The facility is not required to correct in the report any insubstantial discrepancies between actual and scheduled train arrival times. The report must be submitted each year by July 31st for the period January 1st through June 30th and by January 31st for the period July 1st through December 31st.

(5) Consistent with the requirements of chapter 42.56 RCW, the department and any state, local, tribal, or public agency that receives information provided under this section may not disclose any such information to the public or to nongovernmental entities that is not aggregated and that contains proprietary, commercial, or financial information. The requirement for aggregating information does not apply when information is shared by the department with emergency response agencies as provided in subsection (2) of this section.

(6) The department shall adopt rules to implement this section. The advance notice system required in this section must be consistent with the oil transfer reporting system adopted by the department pursuant to RCW 88.46.165.

NEW SECTION. Sec. 7062. A new section is added to chapter 90.56 RCW to read as follows:

Sec. 7064. RCW 88.40.020 and 2003 c 91 s 3 and 2003 c 56 s 3 are each reenacted and amended to read as follows:

(1) Any barge that transports hazardous substances in bulk as cargo, using any port or place in the state of Washington or the navigable waters of the state shall establish evidence of financial responsibility in the amount of the greater of five million dollars, or three hundred dollars per gross ton of such vessel.

(2)(a) Except as provided in (b) or (c) of this subsection, a tank vessel that carries oil as cargo in bulk shall demonstrate financial responsibility to pay at least five hundred million dollars. The amount of financial responsibility required under this subsection is one billion dollars after January 1, 2004.

(b) The director by rule may establish a lesser standard of financial responsibility for tank vessels of three hundred gross tons or less. The standard shall set the level of financial responsibility based on the quantity of cargo the tank vessel is capable of carrying. The director shall not set the standard for tank vessels of three hundred gross tons or less below that required under federal law.

(c) The owner or operator of a tank vessel who is a member of an international protection and indemnity mutual organization and is covered for oil pollution risks up to the amounts required under this section is not required to demonstrate financial responsibility under this chapter. The director may require the owner or operator of a tank vessel to prove membership in such an organization.

(3)(a) A cargo vessel or passenger vessel that carries oil as fuel shall demonstrate financial responsibility to pay at least three hundred million dollars. However, a passenger vessel that transports passengers and vehicles between Washington state and a foreign country shall demonstrate financial responsibility to pay the greater of at least six hundred dollars per gross ton or five hundred thousand dollars.

(b) The owner or operator of a cargo vessel or passenger vessel who is a member of an international protection and indemnity mutual organization and is covered for oil pollution risks up to the amounts required under this section is not required to demonstrate financial responsibility under this chapter. The director may require the owner or operator of a cargo vessel or passenger vessel to prove membership in such an organization.

(4) A fishing vessel while on the navigable waters of the state must demonstrate financial responsibility in the following amounts:

(a) For a fishing vessel carrying predominantly nonpersistent product, one hundred thirty-three dollars and forty cents per incident, for each barrel of total oil storage capacity, persistent and nonpersistent product, on the vessel or one million three hundred thirty-four thousand dollars, whichever is greater; or (b) for a fishing vessel carrying predominantly persistent product, four hundred dollars and twenty cents per incident, for each barrel of total oil storage capacity, persistent product and nonpersistent product, on the vessel or six million six hundred seventy thousand dollars, whichever is greater.

(5) The ~~((documentation of financial responsibility shall demonstrate the ability of the document holder to meet state and~~

~~federal financial liability requirements for the actual costs for removal of oil spills, for natural resource damages, and for necessary expenses)) certificate of financial responsibility is conclusive evidence that the person or entity holding the certificate is the party responsible for the specified vessel, facility, or oil for purposes of determining liability pursuant to this chapter.~~

(6) This section shall not apply to a covered vessel owned or operated by the federal government or by a state or local government.

Sec. 7065. RCW 88.40.025 and 1991 c 200 s 704 are each amended to read as follows:

An onshore or offshore facility shall demonstrate financial responsibility in an amount determined by the department as necessary to compensate the state and affected counties and cities for damages that might occur during a reasonable worst case spill of oil from that facility into the navigable waters of the state. The department shall ~~((consider such matters as the amount of oil that could be spilled into the navigable waters from the facility, the cost of cleaning up the spilled oil, the frequency of operations at the facility, the damages that could result from the spill and the commercial availability and affordability of financial responsibility)) adopt by rule an amount that will be calculated by multiplying the reasonable per barrel cleanup and damage cost of spilled oil, times the reasonable worst case spill volume, as measured in barrels.~~ This section shall not apply to an onshore or offshore facility owned or operated by the federal government or by the state or local government.

Sec. 7066. RCW 88.40.030 and 2000 c 69 s 32 are each amended to read as follows:

(1) Financial responsibility required by this chapter may be established by any one of, or a combination of, the following methods acceptable to the department of ecology: ~~((1)) (a)~~ Evidence of insurance; ~~((2)) (b)~~ surety bonds; ~~((3)) (c)~~ qualification as a self-insurer; ~~((4)) (d)~~ guaranty; (e) letter of credit; (f) certificate of deposits; (g) protection and indemnity club membership; or (h) other evidence of financial responsibility. Any bond filed shall be issued by a bonding company authorized to do business in the United States. Documentation of such financial responsibility shall be kept on any covered vessel and filed with the department at least twenty-four hours before entry of the vessel into the navigable waters of the state. A covered vessel is not required to file documentation of financial responsibility twenty-four hours before entry of the vessel into the navigable waters of the state, if the vessel has filed documentation of financial responsibility with the federal government, and the level of financial responsibility required by the federal government is the same as or exceeds state requirements. The owner or operator of the vessel may file with the department a certificate evidencing compliance with the requirements of another state's or federal financial responsibility requirements if the state or federal government requires a level of financial responsibility the same as or greater than that required under this chapter.

(2) A certificate of financial responsibility may not have a term greater than one year.

Sec. 7067. RCW 88.40.040 and 2003 c 56 s 4 are each amended to read as follows:

(1) ~~((It is unlawful for any vessel required to have financial responsibility under this chapter to enter or operate on Washington waters without meeting the requirements of this chapter or rules adopted under this chapter, except)) A vessel or facility need not demonstrate financial responsibility under this chapter prior to using any port or place in the state of Washington or the navigable waters of the state when necessary to avoid injury to the vessel's or facility's crew or passengers. Any vessel owner or operator that does not meet the financial responsibility requirements of this chapter and any~~

rules prescribed thereunder or the federal oil pollution act of 1990 shall be reported by the department to the United States coast guard.

(2) ~~((The department shall enforce section 1016 of the federal oil pollution act of 1990 as authorized by section 1019 of the federal act.))~~ Upon notification of an oil spill or discharge or other action or potential liability, the director shall reevaluate the validity of the certificate of financial responsibility. If the director determines that, because of a spill outside of the state or some other action or potential liability, the holder of a certificate may not have the financial resources to pay damages for the oil spill or discharge or other action or potential liability and have resources remaining available to meet the requirements of this chapter, the director may suspend or revoke the certificate.

(3) An owner or operator of more than one covered vessel, more than one facility, or one or more vessels and facilities, is only required to obtain a single certificate of financial responsibility that applies to all of the owner or operator's vessels and facilities.

(4) If a person holds a certificate for more than one covered vessel or facility and a spill or spills occurs from one or more of those vessels or facilities for which the owner or operator may be liable for damages in an amount exceeding five percent of the financial resources reflected by the certificate, as determined by the director, the certificate is immediately considered inapplicable to any vessel or facility not associated with the spill. In that event, the owner or operator shall demonstrate to the satisfaction of the director the amount of financial ability required pursuant to this chapter, as well as the financial ability to pay all damages that arise or have arisen from the spill or spills that have occurred.

Sec. 7068. RCW 88.16.170 and 1991 c 200 s 601 are each amended to read as follows:

Because of the danger of spills, the legislature finds that the transportation of crude oil and refined petroleum products by tankers on the Columbia river, Grays Harbor, and on Puget Sound and adjacent waters creates a great potential hazard to important natural resources of the state and to jobs and incomes dependent on these resources.

The legislature recognizes that the Columbia river has many natural obstacles to navigation and shifting navigation channels that create the risk of an oil spill. The legislature also recognizes Grays Harbor and Puget Sound and adjacent waters are ((#)) relatively confined salt water environments with irregular shorelines and therefore there is a greater than usual likelihood of long-term damage from any large oil spill.

The legislature further recognizes that certain areas of the Columbia river, Grays Harbor, and Puget Sound and adjacent waters have limited space for maneuvering a large oil tanker and that these waters contain many natural navigational obstacles as well as a high density of commercial and pleasure boat traffic.

For these reasons, it is important that large oil tankers be piloted by highly skilled persons who are familiar with local waters and that such ~~((tankers))~~ vessels have sufficient capability for rapid maneuvering responses.

It is therefore the intent and purpose of RCW 88.16.180 and 88.16.190 to decrease the likelihood of oil spills on the Columbia river, Grays Harbor, and on Puget Sound and its shorelines by ~~((requiring all oil tankers above a certain size to employ licensed pilots and to be escorted by a tug or tugs while navigating on certain areas of Puget Sound and adjacent waters))~~ establishing safety requirements that comprehensively address spill risks, which may include the establishment of tug escorts and other measures to mitigate safety risks in certain state waters.

Sec. 7069. RCW 88.16.190 and 1994 c 52 s 1 are each amended to read as follows:

(1) ~~((Any oil tanker, whether enrolled or registered, of greater than one hundred and twenty five thousand deadweight tons shall be prohibited from proceeding beyond a point east of a line~~

~~extending from Discovery Island light south to New Dungeness light.~~

~~(2) An oil tanker, whether enrolled or registered, of forty to one hundred and twenty five thousand deadweight tons may proceed beyond the points enumerated in subsection (1) if such tanker possesses all of the following standard safety features:~~

~~(a) Shaft horsepower in the ratio of one horsepower to each two and one half deadweight tons; and~~

~~(b) Twin screws; and~~

~~(c) Double bottoms, underneath all oil and liquid cargo compartments; and~~

~~(d) Two radars in working order and operating, one of which must be collision avoidance radar; and~~

~~(e) Such other navigational position location systems as may be prescribed from time to time by the board of pilotage commissioners:~~

~~PROVIDED, That, if such forty to one hundred and twenty five thousand deadweight ton tanker is in ballast or is under escort of a tug or tugs with an aggregate shaft horsepower equivalent to five percent of the deadweight tons of that tanker, subsection (2) of this section shall not apply: PROVIDED FURTHER, That additional tug shaft horsepower equivalencies may be required under certain conditions as established by rule and regulation of the Washington utilities and transportation commission pursuant to chapter 34.05 RCW: PROVIDED FURTHER, That))~~ Except as provided in subsection (3) of this section, an oil tanker of greater than forty thousand deadweight tons may operate in the waters described in (a) of this subsection, to the extent that these waters are within the territorial boundaries of Washington, only if the oil tanker is under the escort of a tug or tugs in compliance with the requirements of subsection (5) of this section.

~~(a) Those waters east of a line extending from Discovery Island light south to New Dungeness light and all points in the Puget Sound area.~~

~~(b) The state board of pilotage commissioners, in consultation with the department of ecology and relying on the results of vessel traffic risk assessments, may write rules to implement this subsection (1)(b), but only after an event described in subsection (2) of this section takes place and only for the waters directly affected by the facility event. These rules may include tug escort requirements and other safety measures for oil tankers of greater than forty thousand deadweight tons, all articulated tug barges, and other towed waterborne vessels or barges that may apply in the following areas consistent with subsections (3)(a) and (5) of this section:~~

~~(i) Within a two-mile radius of the Grays Harbor pilotage district as defined in RCW 88.16.050;~~

~~(ii) Any inland portion of the Columbia river or within three miles of Cape Disappointment at the mouth of the Columbia river; or~~

~~(iii) The waters identified in (a) of this subsection.~~

~~(c) The state board of pilotage commissioners, in consultation with the department of ecology and relying on the results of vessel traffic risk assessments, shall adopt rules by June 30, 2017, to implement this subsection (1)(c). These rules may include tug escort requirements and other safety measures for oil tankers of greater than forty thousand deadweight tons, all articulated tug barges, and other towed waterborne vessels or barges and apply in the following areas consistent with subsections (3)(a) and (5) of this section: The waters described in (a) of this subsection, including all narrow channels of the San Juan Islands archipelago, Rosario Strait, Haro Strait, Boundary Pass, and connected waterways.~~

~~(2) The state board of pilotage commissioners may adopt rules under subsection (1)(b) of this section only after:~~

~~(a) The governor approves, after January 1, 2015, a recommendation of the energy facility site evaluation council~~

pursuant to RCW 80.50.100 to certify a facility meeting the criteria listed in RCW 80.50.020(12) (d) or (f);

(b) A state agency or a local jurisdiction makes a final determination or issues a final permit after January 1, 2015, to site a new facility required to have a contingency plan pursuant to chapter 90.56 RCW or to provide authority for the first time to process or receive crude oil, as defined in chapter 90.56 RCW, to an existing facility required to have a contingency plan pursuant to chapter 90.56 RCW, other than a facility that is:

(i) A transmission pipeline; or

(ii) A railroad facility; or

(c) The state of Oregon or any local jurisdiction in Oregon makes a final determination or issues a final permit to site a new facility in the watershed of the Columbia river that would be required to have a contingency plan pursuant to chapter 90.56 RCW if an identical facility were located in Washington, or to provide authority for the first time to process or receive crude oil, as defined in chapter 90.56 RCW, to an existing facility that would be required to have a contingency plan pursuant to chapter 90.56 RCW if an identical facility were located in Washington, other than a facility that is:

(i) A transmission pipeline; or

(ii) A railroad facility.

(3)(a) If an oil tanker, articulated tug barge, or other towed waterborne vessel or barge is in ballast, the tug requirements of subsection (1) of this section do not apply.

(b) If an oil tanker is a single-hulled oil tanker of greater than five thousand gross tons, the requirements of subsection (1)(a) of this section do not apply and the oil tanker must instead comply with 33 C.F.R. Part 168, as of the effective date of this section.

(4)(a) Prior to proceeding with rule making as authorized under subsection (1)(b) and (c) of this section, the state board of pilotage commissioners must collaborate with the United States coast guard, the Oregon board of maritime pilots, the Puget Sound, Grays Harbor, and Columbia river harbor safety committees, area tribes, public ports in Oregon and Washington, local governments, and other appropriate entities. In adopting rules, the state board of pilotage commissioners must take into account any tug escort or other maritime safety measures for a water body that were or are required as mitigation or as a condition of a facility siting decision by a state agency or local jurisdiction.

(b) The department may not adopt any rules under this subsection or under subsection (1)(b) and (c) of this section until a vessel traffic risk assessment has been completed for the waters subject to the rule making. In order to adopt a rule under this section or subsection (1)(b) and (c) of this section, the board of pilotage commissioners must determine that the results of a vessel traffic risk assessment provides evidence that the rules are necessary in order to achieve best achievable protection as defined in RCW 88.46.010. In order for the state board of pilotage commissioners to rely on a vessel traffic risk assessment that is conducted after January 1, 2015, the vessel traffic risk assessment must involve a simulation analysis of vessel traffic. A simulation analysis is not required of a vessel traffic risk assessment relied upon by the state board of pilotage commissioners that was conducted before January 1, 2015.

(5) Oil tankers of greater than forty thousand deadweight tons, all articulated tug barges, and other towed waterborne vessels or barges must ensure that any escort tugs they use have an aggregate shaft horsepower equivalent to at least five percent of the deadweight tons of the escorted oil tanker or articulated tug barge. The state board of pilotage commissioners may adopt rules to ensure that escort tugs have sufficient mechanical capabilities to provide for safe escort. Rules adopted on this subject must be designed to achieve best achievable protection as defined under RCW 88.46.010.

(6) A tanker assigned a deadweight of equal to or less than forty thousand deadweight tons at the time of construction or reconstruction as reported in Lloyd's Register of Ships is not subject to the provisions of RCW 88.16.170 through 88.16.190.

(7) The provisions of this section do not apply to pilotage for enrolled tankers.

(8) For the purposes of this section:

(a) "Articulated tug barge" means a tank barge and a towing vessel joined by hinged or articulated fixed mechanical equipment affixed or connecting to the stern of the tank barge.

(b) "Oil tanker" means a self-propelled deep draft tank vessel designed to transport oil in bulk. "Oil tanker" does not include an articulated tug barge tank vessel.

(c) "Waterborne vessel or barge" means any ship, barge, or other watercraft capable of traveling on the navigable waters of this state and capable of transporting any crude oil or petroleum product in quantities of ten thousand gallons or more for purposes other than providing fuel for its motor or engine.

Sec. 7070. RCW 82.23B.010 and 1992 c 73 s 6 are each amended to read as follows:

~~(Unless the context clearly requires otherwise.)~~ The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Barrel" means a unit of measurement of volume equal to forty-two United States gallons of crude oil or petroleum product.

(2) "Crude oil" means any naturally occurring liquid hydrocarbons at atmospheric temperature and pressure coming from the earth, including condensate and natural gasoline.

(3) "Department" means the department of revenue.

(4) "Marine terminal" means a facility of any kind, other than a waterborne vessel, that is used for transferring crude oil or petroleum products to or from a waterborne vessel or barge.

(5) "Navigable waters" means those waters of the state and their adjoining shorelines that are subject to the ebb and flow of the tide, including the Columbia and Snake rivers.

(6) "Person" has the meaning provided in RCW 82.04.030.

(7) "Petroleum product" means any liquid hydrocarbons at atmospheric temperature and pressure that are the product of the fractionation, distillation, or other refining or processing of crude oil, and that are used as, useable as, or may be refined as a fuel or fuel blendstock, including but not limited to, gasoline, diesel fuel, aviation fuel, bunker fuel, and fuels containing a blend of alcohol and petroleum.

(8) "Taxpayer" means the person owning crude oil or petroleum products immediately after receipt of the same into the storage tanks of a marine or bulk oil terminal in this state (~~from a waterborne vessel or barge~~) and who is liable for the taxes imposed by this chapter.

(9) "Waterborne vessel or barge" means any ship, barge, or other watercraft capable of (~~travelling~~) traveling on the navigable waters of this state and capable of transporting any crude oil or petroleum product in quantities of ten thousand gallons or more for purposes other than providing fuel for its motor or engine.

(10) "Bulk oil terminal" means a facility of any kind, other than a waterborne vessel, that is used for transferring crude oil or petroleum products from a tank car or pipeline.

(11) "Tank car" means a rail car, the body of which consists of a tank for transporting liquids.

Sec. 7071. RCW 82.23B.020 and 2006 c 256 s 2 are each amended to read as follows:

(1) An oil spill response tax is imposed on the privilege of receiving: (a) Crude oil or petroleum products at a marine terminal within this state from a waterborne vessel or barge operating on the navigable waters of this state; (b) crude oil or petroleum products at a bulk oil terminal within this state from a tank car; or (c) crude oil or petroleum products at a bulk oil terminal within this state from a

pipeline. The tax imposed in this section is levied upon the owner of the crude oil or petroleum products immediately after receipt of the same into the storage tanks of a marine or bulk oil terminal from a tank car, pipeline, or waterborne vessel or barge at the rate of one cent per barrel of crude oil or petroleum product received.

(2) In addition to the tax imposed in subsection (1) of this section, an oil spill administration tax is imposed on the privilege of receiving: (a) Crude oil or petroleum products at a marine terminal within this state from a waterborne vessel or barge operating on the navigable waters of this state; (b) crude oil or petroleum products at a bulk oil terminal within this state from a tank car; and (c) crude oil or petroleum products at a bulk oil terminal within this state from a pipeline. The tax imposed in this section is levied upon the owner of the crude oil or petroleum products immediately after receipt of the same into the storage tanks of a marine or bulk oil terminal from a tank car, pipeline, or waterborne vessel or barge at the rate of ~~((four))~~ eight cents per barrel of crude oil or petroleum product.

(3) The taxes imposed by this chapter ~~((shall))~~ must be collected by the marine or bulk oil terminal operator from the taxpayer. If any person charged with collecting the taxes fails to bill the taxpayer for the taxes, or in the alternative has not notified the taxpayer in writing of the ~~((imposition of the))~~ taxes imposed, or having collected the taxes, fails to pay them to the department in the manner prescribed by this chapter, whether such failure is the result of the person's own acts or the result of acts or conditions beyond the person's control, he or she ~~((shall))~~, nevertheless, ~~((be))~~ is personally liable to the state for the amount of the taxes. Payment of the taxes by the owner to a marine or bulk oil terminal operator ~~((shall))~~ relieves the owner from further liability for the taxes.

(4) Taxes collected under this chapter ~~((shall))~~ must be held in trust until paid to the department. Any person collecting the taxes who appropriates or converts the taxes collected ~~((shall be))~~ is guilty of a gross misdemeanor if the money required to be collected is not available for payment on the date payment is due. The taxes required by this chapter to be collected ~~((shall))~~ must be stated separately from other charges made by the marine or bulk oil terminal operator in any invoice or other statement of account provided to the taxpayer.

(5) If a taxpayer fails to pay the taxes imposed by this chapter to the person charged with collection of the taxes and the person charged with collection fails to pay the taxes to the department, the department may, in its discretion, proceed directly against the taxpayer for collection of the taxes.

(6) The taxes ~~((shall be))~~ are due from the marine or bulk oil terminal operator, along with reports and returns on forms prescribed by the department, within twenty-five days after the end of the month in which the taxable activity occurs.

(7) The amount of taxes, until paid by the taxpayer to the marine or bulk oil terminal operator or to the department, ~~((shall))~~ constitutes a debt from the taxpayer to the marine or bulk oil terminal operator. Any person required to collect the taxes under this chapter who, with intent to violate the provisions of this chapter, fails or refuses to do so as required and any taxpayer who refuses to pay any taxes due under this chapter, ~~((shall be))~~ is guilty of a misdemeanor as provided in chapter 9A.20 RCW.

(8) Upon prior approval of the department, the taxpayer may pay the taxes imposed by this chapter directly to the department. The department ~~((shall))~~ must give its approval for direct payment under this section whenever it appears, in the department's judgment, that direct payment will enhance the administration of the taxes imposed under this chapter. The department ~~((shall))~~ must provide by rule for the issuance of a direct payment certificate to any taxpayer qualifying for direct payment of the taxes. Good faith acceptance of a direct payment certificate by a terminal operator ~~((shall))~~ relieves the marine or bulk oil terminal operator from any liability for the collection or payment of the taxes imposed under this chapter.

(9) All receipts from the tax imposed in subsection (1) of this section ~~((shall))~~ must be deposited into the state oil spill response account. All receipts from the tax imposed in subsection (2) of this section shall be deposited into the oil spill prevention account.

(10) Within forty-five days after the end of each calendar quarter, the office of financial management ~~((shall))~~ must determine the balance of the oil spill response account as of the last day of that calendar quarter. Balance determinations by the office of financial management under this section are final and ~~((shall))~~ may not be used to challenge the validity of any tax imposed under this chapter. The office of financial management ~~((shall))~~ must promptly notify the departments of revenue and ecology of the account balance once a determination is made. For each subsequent calendar quarter, the tax imposed by subsection (1) of this section shall be imposed during the entire calendar quarter unless:

(a) Tax was imposed under subsection (1) of this section during the immediately preceding calendar quarter, and the most recent quarterly balance is more than nine million dollars; or

(b) Tax was not imposed under subsection (1) of this section during the immediately preceding calendar quarter, and the most recent quarterly balance is more than eight million dollars.

Sec. 7072. RCW 82.23B.030 and 1992 c 73 s 9 are each amended to read as follows:

The taxes imposed under this chapter ~~((shall))~~ only apply to the first receipt of crude oil or petroleum products at a marine or bulk oil terminal in this state and not to the later transporting and subsequent receipt of the same oil or petroleum product, whether in the form originally received at a marine or bulk oil terminal in this state or after refining or other processing.

Sec. 7073. RCW 82.23B.040 and 1992 c 73 s 10 are each amended to read as follows:

Credit ~~((shall))~~ must be allowed against the taxes imposed under this chapter for any crude oil or petroleum products received at a marine or bulk oil terminal and subsequently exported from or sold for export from the state.

Sec. 7074. RCW 38.52.040 and 2011 1st sp.s. c 21 s 27, 2011 c 336 s 789, and 2011 c 79 s 9 are each reenacted and amended to read as follows:

(1) There is hereby created the emergency management council (hereinafter called the council), to consist of not more than seventeen members who shall be appointed by the adjutant general. The membership of the council shall include, but not be limited to, representatives of city and county governments, sheriffs and police chiefs, the Washington state patrol, the military department, the department of ecology, state and local fire chiefs, seismic safety experts, state and local emergency management directors, search and rescue volunteers, medical professions who have expertise in emergency medical care, building officials, and private industry. The representatives of private industry shall include persons knowledgeable in emergency and hazardous materials management. The councilmembers shall elect a chair from within the council membership. The members of the council shall serve without compensation, but may be reimbursed for their travel expenses incurred in the performance of their duties in accordance with RCW 43.03.050 and 43.03.060 as now existing or hereafter amended.

(2) The emergency management council shall advise the governor and the director on all matters pertaining to state and local emergency management. The council may appoint such ad hoc committees, subcommittees, and working groups as are required to develop specific recommendations for the improvement of emergency management practices, standards, policies, or procedures. The council shall ensure that the governor receives an annual assessment of statewide emergency preparedness including, but not limited to, specific progress on hazard mitigation and reduction efforts, implementation of seismic safety improvements, reduction of flood hazards, and coordination of hazardous materials

planning and response activities. ~~((The council or a subcommittee thereof shall periodically convene in special session and serve during those sessions as the state emergency response commission required by P.L. 99-499, the emergency planning and community right to know act. When sitting in session as the state emergency response commission, the council shall confine its deliberations to those items specified in federal statutes and state administrative rules governing the coordination of hazardous materials policy.))~~ The council shall review administrative rules governing state and local emergency management practices and recommend necessary revisions to the director.

(3) The council or a council subcommittee shall serve and periodically convene in special session as the state emergency response commission required by the emergency planning and community right-to-know act (42 U.S.C. Sec. 11001 et seq.). The state emergency response commission shall conduct those activities specified in federal statutes and regulations and state administrative rules governing the coordination of hazardous materials policy including, but not limited to, review of local emergency planning committee emergency response plans for compliance with the planning requirements in the emergency planning and community right-to-know act (42 U.S.C. Sec. 11001 et seq.). Committees shall annually review their plans to address changed conditions, and submit their plans to the state emergency response commission for review when updated, but not less than at least once every five years. The department may employ staff to assist local emergency planning committees in the development and annual review of these emergency response plans, with an initial focus on the highest risk communities through which trains that transport oil in bulk travel. By March 1, 2018, the department shall report to the governor and legislature on progress towards compliance with planning requirements. The report must also provide budget and policy recommendations for continued support of local emergency planning.

(4)(a) The intrastate mutual aid committee is created and is a subcommittee of the emergency management council. The intrastate mutual aid committee consists of not more than five members who must be appointed by the council chair from council membership. The chair of the intrastate mutual aid committee is the military department representative appointed as a member of the council. Meetings of the intrastate mutual aid committee must be held at least annually.

(b) In support of the intrastate mutual aid system established in chapter 38.56 RCW, the intrastate mutual aid committee shall develop and update guidelines and procedures to facilitate implementation of the intrastate mutual aid system by member jurisdictions, including but not limited to the following: Projected or anticipated costs; checklists and forms for requesting and providing assistance; recordkeeping; reimbursement procedures; and other implementation issues. These guidelines and procedures are not subject to the rule-making requirements of chapter 34.05 RCW.

Sec. 7075. RCW 81.24.010 and 2007 c 234 s 21 are each amended to read as follows:

(1) Every company subject to regulation by the commission, except those listed in subsection (3) of this section, shall, on or before the date specified by the commission for filing annual reports under RCW 81.04.080, file with the commission a statement on oath showing its gross operating revenue from intrastate operations for the preceding calendar year, or portion thereof, and pay to the commission a fee equal to one-tenth of one percent of the first fifty thousand dollars of gross operating revenue, plus two-tenths of one percent of any gross operating revenue in excess of fifty thousand dollars, except railroad companies which shall each pay to the commission a fee equal to ~~((one))~~ two and one-half percent of its intrastate gross operating revenue. In the event that the sum total of intrastate gross operating revenues for the railroad companies

operating in Washington declines while the sum total of interstate gross operating revenues increases, the commission may assess a reasonable surcharge on railroad companies to enable collection of moneys up to the sum total of revenues collected in fiscal year 2017 from railroad companies operating in Washington. The commission must adopt a rule to implement the surcharge. The commission may, by rule, set minimum fees that do not exceed the cost of collecting the fees. The commission may by rule waive any or all of the minimum fee established pursuant to this section. Any railroad association that qualifies as a nonprofit charitable organization under the federal internal revenue code section 501(c)(3) is exempt from the fee required under this subsection.

(2) The percentage rates of gross operating revenue to be paid in any one year may be decreased by the commission for any class of companies subject to the payment of such fees, by general order entered before March 1st of such year, and for such purpose railroad companies are classified as class two. Every other company subject to regulation by the commission, for which regulatory fees are not otherwise fixed by law, shall pay fees as herein provided and shall constitute additional classes according to kinds of businesses engaged in.

(3) This section does not apply to private nonprofit transportation providers, auto transportation companies, charter party carriers and excursion service carriers, solid waste collection companies, motor freight carriers, household goods carriers, commercial ferries, and low-level radioactive waste storage facilities.

NEW SECTION. Sec. 7076. A new section is added to chapter 81.44 RCW to read as follows:

Commission employees certified by the federal railroad administration to perform hazardous materials inspections may enter the property of any business that receives, ships, or offers for shipment hazardous materials by rail. Entry shall be at a reasonable time and in a reasonable manner. The purpose of entry is limited to performing inspections, investigations, or surveillance of equipment, records, and operations relating to the packaging, loading, unloading, or transportation of hazardous materials by rail, pursuant only to the state participation program outlined in 49 C.F.R. Part 212. The term "business" is all inclusive and is not limited to common carriers or public service companies.

Sec. 7077. RCW 81.53.010 and 2013 c 23 s 302 are each amended to read as follows:

The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

~~((The term))~~ (1) "Commission(ç)" ~~((when used in this chapter.))~~ means the utilities and transportation commission of Washington.

~~((The term))~~ (2) "Highway(ç)" ~~((when used in this chapter.))~~ includes all state and county roads, streets, alleys, avenues, boulevards, parkways, and other public places actually open and in use, or to be opened and used, for travel by the public.

~~((The term))~~ (3) "Railroad(ç)" ~~((when used in this chapter.))~~ means every railroad, including interurban and suburban electric railroads, by whatsoever power operated, for the public use in the conveyance of persons or property for hire, with all bridges, ferries, tunnels, equipment, switches, spurs, sidings, tracks, stations, and terminal facilities of every kind, used, operated, controlled, managed, or owned by or in connection therewith. The ~~((said))~~ term ~~((shall))~~ also includes every logging and other industrial railway owned or operated primarily for the purpose of carrying the property of its owners or operators or of a limited class of persons, with all tracks, spurs, and sidings used in connection therewith. The ~~((said))~~ term ~~((shall))~~ does not include street railways operating within the limits of any incorporated city or town.

~~((The term))~~ (4) "Railroad company(ç)" ~~((when used in this chapter.))~~ includes every corporation, company, association, joint

stock association, partnership, or person, its, their, or his or her lessees, trustees, or receivers appointed by any court whatsoever, owning, operating, controlling, or managing any railroad (~~as that term is defined in this section~~).

~~((The term))~~ (5) "Over-crossing(~~(s)~~)" (~~((when used in this chapter,))~~) means any point or place where a highway crosses a railroad by passing above the same. "Over-crossing" also means any point or place where one railroad crosses another railroad not at grade.

~~((The term))~~ (6) "Under-crossing(~~(s)~~)" (~~((when used in this chapter,))~~) means any point or place where a highway crosses a railroad by passing under the same. "Under-crossing" also means any point or place where one railroad crosses another railroad not at grade.

~~The term))~~ (7) "Grade crossing(~~(s)~~)" (~~((when used in this chapter,))~~) means any point or place where a railroad crosses a highway or a highway crosses a railroad or one railroad crosses another, at a common grade.

(8) "Private crossing" means any point or place where a railroad crosses a private road at grade or a private road crosses a railroad at grade, where the private road is not a highway.

Sec. 7078. RCW 81.53.240 and 1984 c 7 s 375 are each amended to read as follows:

(1) Except to the extent necessary to permit participation by first-class cities in the grade crossing protective fund, when an election to participate is made as provided in RCW 81.53.261 through 81.53.291, or to the extent a first-class city requests to participate in the commission's crossing safety inspection program within the city, this chapter ((81.53 RCW)) is not operative within the limits of first-class cities, and does not apply to street railway lines operating on or across any street, alley, or other public place within the limits of any city, except that a streetcar line outside of cities of the first class shall not cross a railroad at grade without express authority from the commission. The commission may not change the location of a state highway without the approval of the secretary of transportation, or the location of any crossing thereon adopted or approved by the department of transportation, or grant a railroad authority to cross a state highway at grade without the consent of the secretary of transportation.

(2) Within thirty days of the effective date of this section, first-class cities must provide to the commission a list of all existing public crossings within the limits of a first-class city, including over and under-crossings, including the United States department of transportation number for the crossing. Within thirty days of modifying, closing, or opening a grade crossing within the limits of a first-class city, the city must notify the commission in writing of the action taken, identifying the crossing by United States department of transportation number.

NEW SECTION. Sec. 7079. A new section is added to chapter 81.53 RCW to read as follows:

(1) To address the potential public safety hazards presented by private crossings in the state and by the transportation of hazardous materials in the state, including crude oil, the commission is authorized to and must adopt rules governing safety standards for private crossings along the railroad tracks over which crude oil is transported in the state. The commission is also authorized to conduct inspections of the private crossings subject to this section, to order the railroads to make improvements at the private crossings, and enforce the orders.

(2) The commission must adopt rules governing private crossings along railroad tracks over which crude oil is transported in the state, establishing:

(a) Minimum safety standards for the private crossings subject to this section, including, but not limited to, requirements for signage;

(b) Criteria for prioritizing the inspection and improvements of the private crossings subject to this section; and

(c) Requirements governing the responsibilities of railroad companies to oversee the payment and completion of private crossing improvements.

(3) Nothing in this section modifies existing agreements between the railroad company and the landowner governing liability for injuries or damages occurring at the private crossing.

Sec. 7080. RCW 88.46.180 and 2011 c 122 s 2 are each amended to read as follows:

(1) The department shall evaluate and update planning standards for oil spill response equipment required under contingency plans required by this chapter, including aerial surveillance, in order to ensure access in the state to equipment that represents the best achievable protection to respond to a worst case spill and provide for continuous operation of oil spill response activities to the maximum extent practicable and without jeopardizing crew safety, as determined by the incident commander or the unified command.

(2) The department shall by rule update the planning standards at five-year intervals to ensure the maintenance of best available protection over time. Rule updates to covered nontank vessels shall minimize potential impacts to discretionary cargo moved through the state.

~~((3) The department shall evaluate and update planning standards for tank vessels by December 31, 2012.))~~

Sec. 7081. RCW 42.56.270 and 2014 c 192 s 6, 2014 c 174 s 5, and 2014 c 144 s 6 are each reenacted and amended to read as follows:

SB 5107 Prime Sponsor, Senator Padden: Encouraging the establishment of therapeutic courts. Reported by Committee on Appropriations

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 7093. (1) The legislature finds that judges in the trial courts throughout the state effectively utilize what are known as therapeutic courts to remove a defendant's or respondent's case from the criminal and civil court traditional trial track and allow those defendants or respondents the opportunity to obtain treatment services to address particular issues that may have contributed to the conduct that led to their arrest or other issues before the court. Trial courts have proved adept at creative approaches in fashioning a wide variety of therapeutic courts addressing the spectrum of social issues that can contribute to criminal activity and engagement with the child welfare system.

(2) The legislature further finds that by focusing on the specific individual's needs, providing treatment for the issues presented, and ensuring rapid and appropriate accountability for program violations, therapeutic courts may decrease recidivism, improve the safety of the community, and improve the life of the program participant and the lives of the participant's family members by decreasing the severity and frequency of the specific behavior addressed by the therapeutic court.

(3) The legislature recognizes the inherent authority of the judiciary under Article IV, section 1 of the state Constitution to establish therapeutic courts, and the outstanding contribution to the state and local communities made by the establishment of therapeutic courts and desires to provide a general provision in statute acknowledging and encouraging the judiciary to provide for therapeutic court programs to address the particular needs within a given judicial jurisdiction.

(4) Therapeutic court programs may include, but are not limited to:

- (a) Adult drug court;
- (b) Juvenile drug court;
- (c) Family dependency treatment court or family drug court;
- (d) Mental health court, which may include participants with developmental disabilities;
- (e) DUI court;
- (f) Veterans treatment court;
- (g) Truancy court;
- (h) Domestic violence court;
- (i) Gambling court;
- (j) Community court;
- (k) Homeless court;
- (l) Treatment, responsibility, and accountability on campus (Back on TRAC) court.

NEW SECTION. Sec. 7094. The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Emerging best practice" or "promising practice" means a program or practice that, based on statistical analyses or a well-established theory of change, shows potential for meeting the evidence-based or research-based criteria, which may include the use of a program that is evidence-based for outcomes other than those listed in this section.

(2) "Evidence-based" means a program or practice that: (a) Has been tested in heterogeneous or intended populations with multiple randomized, or statistically controlled evaluations, or both; or one large multiple site randomized, or statistically controlled evaluation, or both, where the weight of the evidence from a systemic review demonstrates sustained improvements in at least one outcome; or (b) may be implemented with a set of procedures to allow successful replication in Washington and, when possible, is determined to be cost-beneficial.

(3) "Government authority" means prosecutor or other representative initiating action leading to a proceeding in therapeutic court.

(4) "Participant" means an accused person, offender, or respondent in the judicial proceeding.

(5) "Research-based" means a program or practice that has been tested with a single randomized, or statistically controlled evaluation, or both, demonstrating sustained desirable outcomes; or where the weight of the evidence from a systemic review supports sustained outcomes as described in this subsection but does not meet the full criteria for evidence-based.

(6) "Specialty court" and "therapeutic court" both mean a court utilizing a program or programs structured to achieve both a reduction in recidivism and an increase in the likelihood of

rehabilitation, or to reduce child abuse and neglect, out-of-home placements of children, termination of parental rights, and substance abuse and mental health symptoms among parents or guardians and their children through continuous and intense judicially supervised treatment and the appropriate use of services, sanctions, and incentives.

(7) "Therapeutic court personnel" means the staff of a therapeutic court including, but not limited to: Court and clerk personnel with therapeutic court duties, prosecuting attorneys, the attorney general or his or her representatives, defense counsel, monitoring personnel, and others acting within the scope of therapeutic court duties.

(8) "Trial court" means a superior court authorized under Title 2 RCW or a district or municipal court authorized under Title 3 or 35 RCW.

NEW SECTION. Sec. 7095. (1) Every trial and juvenile court in the state of Washington is authorized and encouraged to establish and operate therapeutic courts. Therapeutic courts, in conjunction with the government authority and subject matter experts specific to the focus of the therapeutic court, develop and process cases in ways that depart from traditional judicial processes to allow defendants or respondents the opportunity to obtain treatment services to address particular issues that may have contributed to the conduct that led to their arrest or involvement in the child welfare system in exchange for resolution of the case or charges. In criminal cases, the consent of the prosecutor is required.

(2) While a therapeutic court judge retains the discretion to decline to accept a case into the therapeutic court, and while a therapeutic court retains discretion to establish processes and determine eligibility for admission to the therapeutic court process unique to their community and jurisdiction, the effectiveness and credibility of any therapeutic court will be enhanced when the court implements evidence-based practices, research-based practices, emerging best practices, or promising practices that have been identified and accepted at the state and national levels. Promising practices, emerging best practices, and/or research-based programs are authorized where determined by the court to be appropriate. As practices evolve, the trial court shall regularly assess the effectiveness of its program and the methods by which it implements and adopts new best practices.

(3) Except under special findings by the court, the following individuals are not eligible for participation in therapeutic courts:

(a) Individuals who are currently charged or who have been previously convicted of a serious violent offense or sex offense as defined in RCW 9.94A.030;

(b) Individuals who are currently charged with an offense alleging intentional discharge, threat to discharge, or attempt to discharge a firearm in furtherance of the offense;

(c) Individuals who are currently charged with or who have been previously convicted of vehicular homicide or an equivalent out-of-state offense; or

(d) Individuals who are currently charged with or who have been previously convicted of: An offense alleging substantial bodily harm or great bodily harm as defined in RCW 9A.04.110, or death of another person.

(4) Any jurisdiction establishing a therapeutic court shall endeavor to incorporate the therapeutic court principles of best practices as recognized by state and national therapeutic court organizations in structuring a particular program, which may include:

- (a) Determining the population;
- (b) Performing a clinical assessment;
- (c) Developing the treatment plan;

(d) Monitoring the participant, including any appropriate testing;

(e) Forging agency, organization, and community partnerships;

(f) Taking a judicial leadership role;

(g) Developing case management strategies;

(h) Addressing transportation, housing, and subsistence issues;

(i) Evaluating the program;

(j) Ensuring a sustainable program.

(5) Upon a showing of indigence under RCW 10.101.010, fees may be reduced or waived.

(6) The department of social and health services shall furnish services to therapeutic courts addressing dependency matters where substance abuse or mental health are an issue unless the court contracts with providers outside of the department.

(7) Any jurisdiction that has established more than one therapeutic court under this chapter may combine the functions of these courts into a single therapeutic court.

(8) Nothing in this section prohibits a district or municipal court from ordering treatment or other conditions of sentence or probation following a conviction, without the consent of either the prosecutor or defendant.

(9) No therapeutic or specialty court may be established specifically for the purpose of applying foreign law, including foreign criminal, civil, or religious law, that is otherwise not required by treaty.

(10) No therapeutic or specialty court established by court rule shall enforce a foreign law, if doing so would violate a right guaranteed by the Constitution of this state or of the United States.

NEW SECTION. Sec. 7096. Jurisdictions may seek federal funding available to support the operation of its therapeutic court and associated services and must match, on a dollar-for-dollar basis, state moneys allocated for therapeutic courts with local cash or in-kind resources. Moneys allocated by the state may be used to supplement, not supplant other federal, state, and local funds for therapeutic courts. However, until June 30, 2016, no match is required for state moneys expended for the administrative and overhead costs associated with the operation of a therapeutic court authorized under this chapter.

Sec. 7097. RCW 82.14.460 and 2012 c 180 s 1 are each amended to read as follows:

(1)(a) A county legislative authority may authorize, fix, and impose a sales and use tax in accordance with the terms of this chapter.

(b) If a county with a population over eight hundred thousand has not imposed the tax authorized under this subsection by January 1, 2011, any city with a population over thirty thousand located in that county may authorize, fix, and impose the sales and use tax in accordance with the terms of this chapter. The county must provide a credit against its tax for the full amount of tax imposed under this subsection (1)(b) by any city located in that county if the county imposes the tax after January 1, 2011.

(2) The tax authorized in this section is in addition to any other taxes authorized by law and must be collected from those persons who are taxable by the state under chapters 82.08 and 82.12 RCW upon the occurrence of any taxable event within the county for a county's tax and within a city for a city's tax. The rate of tax equals one-tenth of one percent of the selling price in the case of a sales tax, or value of the article used, in the case of a use tax.

(3) Moneys collected under this section must be used solely for the purpose of providing for the operation or delivery of chemical dependency or mental health treatment programs and services and for the operation or delivery of therapeutic court programs and

services. For the purposes of this section, "programs and services" includes, but is not limited to, treatment services, case management, transportation, and housing that are a component of a coordinated chemical dependency or mental health treatment program or service. Every county that authorizes the tax provided in this section shall, and every other county may, establish and operate a therapeutic court component for dependency proceedings designed to be effective for the court's size, location, and resources.

(4) All moneys collected under this section must be used solely for the purpose of providing new or expanded programs and services as provided in this section, except as follows:

(a) For a county with a population larger than twenty-five thousand or a city with a population over thirty thousand, which initially imposed the tax authorized under this section prior to January 1, 2012, a portion of moneys collected under this section may be used to supplant existing funding for these purposes as follows: Up to fifty percent may be used to supplant existing funding in calendar years 2011-2012; up to forty percent may be used to supplant existing funding in calendar year 2013; up to thirty percent may be used to supplant existing funding in calendar year 2014; up to twenty percent may be used to supplant existing funding in calendar year 2015; and up to ten percent may be used to supplant existing funding in calendar year 2016;

(b) For a county with a population larger than twenty-five thousand or a city with a population over thirty thousand, which initially imposes the tax authorized under this section after December 31, 2011, a portion of moneys collected under this section may be used to supplant existing funding for these purposes as follows: Up to fifty percent may be used to supplant existing funding for up to the first three calendar years following adoption; and up to twenty-five percent may be used to supplant existing funding for the fourth and fifth years after adoption;

(c) For a county with a population of less than twenty-five thousand, a portion of moneys collected under this section may be used to supplant existing funding for these purposes as follows: Up to eighty percent may be used to supplant existing funding in calendar years 2011-2012; up to sixty percent may be used to supplant existing funding in calendar year 2013; up to forty percent may be used to supplant existing funding in calendar year 2014; up to twenty percent may be used to supplant existing funding in calendar year 2015; and up to ten percent may be used to supplant existing funding in calendar year 2016; and

(d) Notwithstanding (a) through (c) of this subsection, moneys collected under this section may be used to support the cost of the judicial officer and support staff of a therapeutic court.

(5) Nothing in this section may be interpreted to prohibit the use of moneys collected under this section for the replacement of lapsed federal funding previously provided for the operation or delivery of services and programs as provided in this section.

NEW SECTION. Sec. 7098. Individual trial courts are authorized and encouraged to establish multijurisdictional partnerships and/or interlocal agreements under RCW 39.34.180 to enhance and expand the coverage area of the therapeutic court. Specifically, district and municipal courts may work cooperatively with each other and with the superior courts to identify and implement nontraditional case processing methods which can eliminate traditional barriers that decrease judicial efficiency.

NEW SECTION. Sec. 7099. Any therapeutic court meeting the definition of therapeutic court in section 2 of this act and existing on the effective date of this section continues to be authorized.

Sec. 7102. RCW 70.96A.350 and 2013 2nd sp.s. c 4 s 990 are each amended to read as follows:

(1) The criminal justice treatment account is created in the state treasury. Moneys in the account may be expended solely for: (a) Substance abuse treatment and treatment support services for offenders with an addiction or a substance abuse problem that, if not treated, would result in addiction, against whom charges are filed by a prosecuting attorney in Washington state; (b) the provision of drug and alcohol treatment services and treatment support services for nonviolent offenders within a drug court program; (c) the administrative and overhead costs associated with the operation of a drug court; and (d) during the 2011-2013

biennium, the legislature may appropriate up to three million dollars from the account in order to offset reductions in the state general fund for treatment services provided by counties. This amount is not subject to the requirements of subsections (5) through (9) of this section. During the 2013-2015 fiscal biennium, the legislature may transfer from the criminal justice treatment account to the state general fund amounts as reflect the state savings associated with the implementation of the medicaid expansion of the federal affordable care act. Moneys in the account may be spent only after appropriation.

(2) For purposes of this section:

(a) "Treatment" means services that are critical to a participant's successful completion of his or her substance abuse treatment program, but does not include the following services: Housing other than that provided as part of an inpatient substance abuse treatment program, vocational training, and mental health counseling; and

(b) "Treatment support" means transportation to or from inpatient or outpatient treatment services when no viable alternative exists, and child care services that are necessary to ensure a participant's ability to attend outpatient treatment sessions.

(3) Revenues to the criminal justice treatment account consist of: (a) Funds transferred to the account pursuant to this section; and (b) any other revenues appropriated to or deposited in the account.

(4)(a) For the fiscal biennium beginning July 1, 2003, the state treasurer shall transfer eight million nine hundred fifty thousand dollars from the general fund into the criminal justice treatment account, divided into eight equal quarterly payments. For the fiscal year beginning July 1, 2005, and each subsequent fiscal year, the state treasurer shall transfer eight million two hundred fifty thousand dollars from the general fund to the criminal justice treatment account, divided into four equal quarterly payments. For the fiscal year beginning July 1, 2006, and each subsequent fiscal year, the amount transferred shall be increased on an annual basis by the implicit price deflator as published by the federal bureau of labor statistics.

(b) In each odd-numbered year, the legislature shall appropriate the amount transferred to the criminal justice treatment account in (a) of this subsection to the division of alcohol and substance abuse for the purposes of subsection (5) of this section.

(5) Moneys appropriated to the division of alcohol and substance abuse from the criminal justice treatment account shall be distributed as specified in this subsection. The department shall serve as the fiscal agent for purposes of distribution. Until July 1, 2004, the department may not use moneys appropriated from the criminal justice treatment account for administrative expenses and shall distribute all amounts appropriated under subsection (4)(b) of this section in accordance with this subsection. Beginning in July 1, 2004, the department may retain up to three percent of the amount appropriated under subsection (4)(b) of this section for its administrative costs.

The division of alcohol and substance abuse, in consultation with the department of corrections, the Washington state association of counties, the Washington state association of drug court professionals, the superior court judges' association, the Washington association of prosecuting attorneys, representatives of the criminal defense bar, representatives of substance abuse treatment providers, and any other person deemed by the division to be necessary, shall establish a fair and reasonable methodology for distribution to counties of moneys in the criminal justice treatment account. County or regional plans submitted for the expenditure of formula

funds must be approved by the panel established in (b) of this subsection.

(b) Thirty percent of the amounts appropriated to the division from the account shall be distributed as grants for purposes of treating offenders against whom charges are filed by a county prosecuting attorney. "**NEW SECTION. Sec. 7109.** This act may be known and cited as Joel's Law.

NEW SECTION. Sec. 7110. A new section is added to chapter 71.05 RCW to read as follows:

(1) If a designated mental health professional decides not to detain a person for evaluation and treatment under RCW 71.05.150

or 71.05.153 or forty-eight hours have elapsed since a designated mental health professional received a request for investigation and the designated mental health professional has not taken action to have the person detained, an immediate family member or guardian or conservator of the person may petition the superior court for the person's initial detention.

(2)(a) The petition must be submitted on forms developed by the administrative office of the courts for this purpose. The petition must be accompanied by a sworn declaration from the petitioner, and other witnesses if desired, describing why the person should be detained for evaluation and treatment. The description of why the person should be detained may contain, but is not limited to, the information identified in RCW 71.05.212.

(b) The petition must contain:

(i) A description of the relationship between the petitioner and the person; and

(ii) The date on which an investigation was requested from the designated mental health professional.

(3) The court shall, within one judicial day, review the petition to determine whether the petition raises sufficient evidence to support the allegation. If the court so finds, it shall provide a copy of the petition to the designated mental health professional agency with an order for the agency to provide the court, within one judicial day, with a written sworn statement describing the basis for the decision not to seek initial detention and a copy of all information collected during the investigation.

(4) Following the filing of the petition and before the court reaches a decision, any person, including a mental health professional, may submit a sworn declaration to the court in support of or in opposition to initial detention.

(5) The court shall dismiss the petition at any time if it finds that a designated mental health professional has filed a petition for the person's initial detention under RCW 71.05.150 or 71.05.153 or that the person has voluntarily accepted appropriate treatment.

(6) The court must issue a final ruling on the petition within five judicial days after it is filed. After reviewing all of the information provided to the court, the court may enter an order for initial detention if the court finds that: (a) There is probable cause to support a petition for detention; and (b) the person has refused or failed to accept appropriate evaluation and treatment voluntarily. The court shall transmit its final decision to the petitioner.

(7) If the court enters an order for initial detention, it shall provide the order to the designated mental health professional agency, which shall execute the order without delay. An order for initial detention under this section expires one hundred eighty days from issuance.

(8) Except as otherwise expressly stated in this chapter, all procedures must be followed as if the order had been entered under RCW 71.05.150. RCW 71.05.160 does not apply if detention was initiated under the process set forth in this section.

(9) For purposes of this section, "immediate family member" means a spouse, domestic partner, child, stepchild, parent, stepparent, grandparent, or sibling.

NEW SECTION. Sec. 7111. A new section is added to chapter 71.05 RCW to read as follows:

(1) The department and each regional support network or agency employing designated mental health professionals shall publish information in an easily accessible format describing the process for an immediate family member, guardian, or conservator to petition for court review of a detention decision under section 2 of this act.

(2) A designated mental health professional or designated mental health professional agency that receives a request for investigation for possible detention under this chapter must inquire whether the request comes from an immediate family member, guardian, or conservator who would be eligible to petition under

section 2 of this act. If the designated mental health professional decides not to detain the person for evaluation and treatment under RCW 71.05.150 or 71.05.153 or forty-eight hours have elapsed since the request for investigation was received and the designated mental health professional has not taken action to have the person detained, the designated mental health professional or designated mental health professional agency must inform the immediate family member, guardian, or conservator who made the request for investigation about the process to petition for court review under section 2 of this act.

Sec. 7112. RCW 71.05.130 and 1998 c 297 s 7 are each amended to read as follows:

In any judicial proceeding for involuntary commitment or detention ~~except under section 2 of this act~~, or in any proceeding challenging ~~((such))~~ involuntary commitment or detention, the prosecuting attorney for the county in which the proceeding was initiated shall represent the individuals or agencies petitioning for commitment or detention and shall defend all challenges to such commitment or detention ~~(-PROVIDED)~~, except that the attorney general shall represent and provide legal services and advice to state hospitals or institutions with regard to all provisions of and proceedings under this chapter ~~((except in))~~ other than proceedings initiated by such hospitals and institutions seeking fourteen day detention."

E2SSB 5452 Prime Sponsor, Committee on Ways & Means:
 Improving quality in the early care and education
 system. Reported by Committee on
 Appropriations

MAJORITY recommendation: Do pass as amended by Committee on Appropriations and without amendment by Committee on Early Learning & Human Services.

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 7113. INTENT. (1) The legislature finds that quality early care and education builds the foundation for a child's success in school and in life. The legislature acknowledges that a quality framework is necessary for the early care and education system in Washington. The legislature recognizes that empirical evidence supports the conclusion that high quality programs consistently yield more positive outcomes for children, with the strongest positive impacts on the most vulnerable children. The legislature acknowledges that critical developmental windows exist in early childhood, and low quality child care has damaging effects for children. The legislature further understands that the proper dosage, duration of programming, and stability of care are critical to enhancing program quality and improving child outcomes. The legislature acknowledges that the early care and education system should strive to address the needs of Washington's culturally and linguistically diverse populations. The legislature understands that parental choice and provider diversity are guiding principles for early learning programs.

(2) The legislature intends to prioritize the integration of child care and preschool in an effort to promote full day programming. The legislature further intends to reward quality and create incentives for providers to participate in a quality rating and improvement system that will also provide valuable information to parents regarding the quality of care available in their communities.

Sec. 7114. RCW 43.215.100 and 2013 c 323 s 6 are each amended to read as follows:

EARLY ACHIEVERS, QUALITY RATING, AND IMPROVEMENT SYSTEM.

(1) ~~((Subject to the availability of amounts appropriated for this specific purpose.))~~ The department, in collaboration with tribal governments and community and statewide partners, shall implement a ~~((voluntary))~~ quality rating and improvement system, called the early achievers program~~((that))~~. The early achievers program provides a foundation of quality for the early care and education system. The early achievers program is applicable to licensed or certified child care centers and homes and early ~~((education))~~ learning programs such as working connections child care and early childhood education and assistance programs.

(2) The ~~((purpose))~~ objectives of the early achievers program ~~((is))~~ are to:

(a) ~~((To))~~ Improve short-term and long-term educational outcomes for children as measured by assessments including, but not limited to, the Washington kindergarten inventory of developing skills in RCW 28A.655.080;

(b) Give parents clear and easily accessible information about the quality of child care and early education programs~~((;))~~;

(c) Support improvement in early learning and child care programs throughout the state~~((;))~~;

(d) Increase the readiness of children for school~~((and))~~;

(e) Close the ~~((disparity))~~ disparities in access to quality care;

(f) Provide professional development and coaching opportunities to early child care and education providers; and ~~((to))~~

(g) Establish a common set of expectations and standards that define, measure, and improve the quality of early learning and child care settings.

(3)(a) Licensed or certified child care centers and homes serving nonschool age children and receiving state subsidy payments must participate in the early achievers program by the required deadlines established in RCW 43.215.135.

(b) Approved early childhood education and assistance program providers receiving state-funded support must participate in the early achievers program by the required deadlines established in RCW 43.215.415.

(c) Participation in the early achievers program is voluntary for;

(i) Licensed or certified child care centers and homes not receiving state subsidy payments; and

(ii) Early learning programs not receiving state funds.

(d) School age child care providers are exempt from participating in the early achievers program. By July 1, 2017, the department and the office of the superintendent of public instruction shall jointly design a plan to incorporate school age child care providers into the early achievers program or other appropriate quality improvement system. To test implementation of the early achievers system for school age child care providers the department and the office of the superintendent of public instruction shall implement a pilot program.

(4) ~~((By fiscal year 2015, Washington state preschool programs receiving state funds must enroll in the early achievers program and maintain a minimum score level.~~

~~((5) Before final implementation of the early achievers program, the department shall report on program progress, as defined within the race to the top federal grant award, and expenditures to the appropriate policy and fiscal committees of the legislature.))~~ There are five levels in the early achievers program. Participants are expected to actively engage and continually advance within the program.

(5) The department has the authority to determine the rating cycle for the early achievers program. The department shall streamline and eliminate duplication between early achievers standards and state child care rules in order to reduce costs associated with the early achievers rating cycle and child care licensing.

(a) Early achievers program participants may request to be rated at any time after the completion of all level 2 activities.

(b) The department shall provide an early achievers program participant an update on the participant's progress toward completing level 2 activities after the participant has been enrolled in the early achievers program for fifteen months.

(c) The first rating is free for early achievers program participants.

(d) Each subsequent rating within the established rating cycle is free for early achievers program participants.

(6)(a) Early achievers program participants may request to be rerated outside the established rating cycle.

(b) The department may charge a fee for optional rerating requests made by program participants that are outside the established rating cycle.

(c) Fees charged are based on, but may not exceed, the cost to the department for activities associated with the early achievers program.

(7)(a) The department must create a single source of information for parents and caregivers to access details on a provider's early achievers program rating level, licensing history, and other indicators of quality and safety that will help parents and caregivers make informed choices.

(b) The department shall publish to the department's web site, or offer a link on its web site to, the following information:

(i) By August 1, 2015, early achievers program rating levels 1 through 5 for all child care programs that receive state subsidy, early childhood education and assistance programs, and federal head start programs in Washington; and

(ii) New early achievers program ratings within thirty days after a program becomes licensed or certified, or receives a rating.

(c) The early achievers program rating levels shall be published in a manner that is easily accessible to parents and caregivers and takes into account the linguistic needs of parents and caregivers.

(d) The department must publish early achievers program rating levels for child care programs that do not receive state subsidy but have voluntarily joined the early achievers program.

(e) Early achievers program participants who have published rating levels on the department's web site or on a link on the department's web site may include a brief description of their program, contingent upon the review and approval by the department, as determined by established marketing standards.

(8)(a) The department shall create a professional development pathway for early achievers program participants to obtain a high school diploma or equivalency or higher education credential in early childhood education, early childhood studies, child development, or an academic field related to early care and education.

(b) The professional development pathway must include opportunities for scholarships and grants to assist early achievers program participants with the costs associated with obtaining an educational degree.

(c) The department shall address cultural and linguistic diversity when developing the professional development pathway.

(9) The early achievers quality improvement awards shall be reserved for participants offering programs to an enrollment population consisting of at least five percent of children receiving a state subsidy.

(10) In collaboration with tribal governments, community and statewide partners, and the early achievers review subcommittee created in RCW 43.215.090, the department shall develop a protocol for granting early achievers program participants an extension in meeting rating level requirement timelines outlined for the working connections child care program and the early childhood education and assistance program.

(a) The department may grant extensions only under exceptional circumstances, such as when early achievers program participants experience an unexpected life circumstance.

(b) Extensions shall not exceed six months, and early achievers program participants are only eligible for one extension in meeting rating level requirement timelines.

(c) Extensions may only be granted to early achievers program participants who have demonstrated engagement in the early achievers program.

(11)(a) The department shall accept national accreditation that meets the requirements of this subsection (11) as a qualification for the early achievers program ratings.

(b) Each national accreditation agency will be allowed to submit its most current standards of accreditation to establish potential credit earned in the early achievers program. The department shall grant credit to accreditation bodies that can demonstrate that their standards meet or exceed the current early achievers program standards.

(c) Licensed child care centers and child care home providers must meet national accreditation standards approved by the department for the early achievers program in order to be granted credit for the early achievers program standards. Eligibility for the early achievers program is not subject to bargaining, mediation, or interest arbitration under RCW 41.56.028, consistent with the legislative reservation of rights under RCW 41.56.028(4)(d).

(12) A child care or early learning program that is operated by a federally recognized tribe and receives state funds shall participate in the early achievers program. The tribe may choose to participate through an interlocal agreement between the tribe and the department. The interlocal agreement must reflect the government-to-government relationship between the state and the tribe, including recognition of tribal sovereignty. The interlocal agreement must provide that:

(a) Tribal child care facilities and early learning programs may volunteer, but are not required, to be licensed by the department;

(b) Tribal child care facilities and early learning programs are not required to have their early achievers program rating level published to the department's web site or through a link on the department's web site; and

(c) Tribal child care facilities and early learning programs must provide notification to parents or guardians who apply for or have been admitted into their program that early achievers program rating level information is available and provide the parents or guardians with the program's early achievers program rating level upon request.

(13) The department shall consult with the early achievers review subcommittee on all substantial policy changes to the early achievers program.

(14) Nothing in this section changes the department's responsibility to collectively bargain over mandatory subjects or limits the legislature's authority to make programmatic modifications to licensed child care and early learning programs under RCW 41.56.028(4)(d).

NEW SECTION. Sec. 7115. A new section is added to chapter 43.215 RCW to read as follows:

SINGLE SET OF LICENSING STANDARDS.

(1)(a) No later than July 1, 2016, the department shall implement a single set of licensing standards for child care and the early childhood education and assistance program. The department shall produce the single set of licensing standards within the department's available appropriations. The new licensing standards must:

(i) Provide minimum health and safety standards for child care and preschool programs;

(ii) Rely on the standards established in the early achievers program to address quality issues in participating early childhood programs;

(iii) Take into account the separate needs of family care providers and child care centers; and

(iv) Promote the continued safety of child care settings.

(b) By July 1, 2016, private schools that operate early learning programs and do not receive state subsidy payments shall be subject only to the minimum health and safety standards in subsection (1)(a)(i) of this section and the requirements necessary to assure a sufficient early childhood education to meet usual requirements

needed for transition into elementary school. The state, and any agency thereof, shall not restrict or dictate any specific educational or other programs for early learning programs operated by private schools except for programs that receive state subsidy payments.

Sec. 7116. RCW 43.215.200 and 2011 c 359 s 2 and 2011 c 253 s 3 are each reenacted and amended to read as follows:

DIRECTOR'S LICENSING DUTIES.

It shall be the director's duty with regard to licensing:

(1) In consultation and with the advice and assistance of persons representative of the various type agencies to be licensed, to designate categories of child care facilities for which separate or different requirements shall be developed as may be appropriate whether because of variations in the ages and other characteristics of the children served, variations in the purposes and services offered or size or structure of the agencies to be licensed, or because of any other factor relevant thereto;

(2) In consultation with the state fire marshal's office, the director shall use an interagency process to address health and safety requirements for child care programs that serve school-age children and are operated in buildings that contain public or private schools that safely serve children during times in which school is in session. For child care programs serving only school-age children and operating in the same facilities used by public or private schools, the director shall not impose additional health and safety licensing requirements related to the physical facility beyond the health and safety standards established by the state board of health for primary and secondary schools pursuant to its authority in RCW 43.20.050;

(3) In consultation and with the advice and assistance of parents or guardians, and persons representative of the various type agencies to be licensed, to adopt and publish minimum requirements for licensing applicable to each of the various categories of agencies to be licensed under this chapter;

(4) In consultation with law enforcement personnel, the director shall investigate the conviction record or pending charges of each agency and its staff seeking licensure or relicensure, and other persons having unsupervised access to children in care;

(5) To satisfy the shared background check requirements provided for in RCW 43.215.215 and 43.20A.710, the department of early learning and the department of social and health services shall share federal fingerprint-based background check results as permitted under the law. The purpose of this provision is to allow both departments to fulfill their joint background check responsibility of checking any individual who may have unsupervised access to vulnerable adults, children, or juveniles. Neither department may share the federal background check results with any other state agency or person;

(6) To issue, revoke, or deny licenses to agencies pursuant to this chapter. Licenses shall specify the category of care that an agency is authorized to render and the ages and number of children to be served;

(7) To prescribe the procedures and the form and contents of reports necessary for the administration of this chapter and to require regular reports from each licensee;

(8) To inspect agencies periodically to determine whether or not there is compliance with this chapter and the requirements adopted under this chapter;

(9) To review requirements adopted under this chapter at least every two years and to adopt appropriate changes after consultation with affected groups for child day care requirements; and

(10) To consult with public and private agencies in order to help them improve their methods and facilities for the care and early learning of children.

NEW SECTION. Sec. 7117. A new section is added to chapter 43.215 RCW to read as follows:

REDUCTION OF BARRIERS—LOW-INCOME PROVIDERS AND PROGRAMS—EARLY ACHIEVERS.

(1)(a) The department shall, in collaboration with tribal governments and community and statewide partners, implement a protocol to maximize and encourage participation in the early achievers program for culturally diverse and low-income center and family home child care providers. Amounts appropriated for the encouragement of culturally diverse and low-income center and family home child care provider participation shall be appropriated separately from the other funds appropriated for the department, are the only funds that may be used for the protocol, and may not be used for any other purposes. Funds appropriated for the protocol shall be considered an ongoing program for purposes of future departmental budget requests.

(b) During the first thirty months of implementation of the early achievers program the department shall prioritize the resources authorized in this section to assist providers rating at a level 2 in the early achievers program to help them reach a level 3 rating wherever access to subsidized care is at risk.

(2) The protocol should address barriers to early achievers program participation and include at a minimum the following:

(a) The creation of a substitute pool;

(b) The development of needs-based grants for providers at level 2 in the early achievers program to assist with purchasing curriculum development, instructional materials, supplies, and equipment to improve program quality. Priority for the needs-based grants shall be given to culturally diverse and low-income providers;

(c) The development of materials and assessments in a timely manner, and to the extent feasible, in the provider and family home languages; and

(d) The development of flexibility in technical assistance and coaching structures to provide differentiated types and amounts of support to providers based on individual need and cultural context.

Sec. 7118. RCW 43.215.135 and 2013 c 323 s 9 are each amended to read as follows:

WORKING CONNECTIONS CHILD CARE.

(1) The department shall establish and implement policies in the working connections child care program to promote stability and quality of care for children from low-income households. These policies shall focus on supporting school readiness for young learners. Policies for the expenditure of funds constituting the working connections child care program must be consistent with the outcome measures defined in RCW 74.08A.410 and the standards established in this section intended to promote ~~((continuity of care for children))~~ stability, quality, and continuity of early care and education programming.

SSB 5481 Prime Sponsor, Committee on Transportation:
Concerning tolling customer service reform.
Reported by Committee on Transportation

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

"**Sec. 7136.** RCW 46.63.160 and 2013 c 226 s 1 are each amended to read as follows:

(1) This section applies only to civil penalties for nonpayment of tolls detected through use of photo toll systems.

(2) Nothing in this section prohibits a law enforcement officer from issuing a notice of traffic infraction to a person in control of a

vehicle at the time a violation occurs under RCW 46.63.030(1) (a), (b), or (c).

(3) A notice of civil penalty may be issued by the department of transportation when a toll is assessed through use of a photo toll system and the toll is not paid by the toll payment due date, which is eighty days from the date the vehicle uses the toll facility and incurs the toll charge.

(4) Any registered owner or renter of a vehicle traveling upon a toll facility operated under chapter 47.56 or 47.46 RCW is subject to a civil penalty governed by the administrative procedures set forth in this section when the vehicle incurs a toll charge and the toll is not paid by the toll payment due date, which is eighty days from the date the vehicle uses the toll facility and incurs the toll charge.

(5)(a) The department shall develop rules to allow an individual who has been issued a notice of civil penalty to present evidence of mitigating circumstances as to why a toll bill was not timely paid. If an individual is able to present verifiable evidence to the department that a civil penalty was incurred due to hospitalization, military deployment, eviction, homelessness, death of the alleged violator or of an alleged violator's immediate family member, failure to receive the toll bill due to an incorrect address that has since been corrected, a prepaid electronic toll account error that has since been corrected, an error made by the department or an agent of the department, or other mitigating circumstances as determined by the department, the department may dismiss or reduce the civil penalty and associated fees.

(b)(i) Consistent with chapter 34.05 RCW, the department of transportation shall develop an administrative adjudication process to review appeals of civil penalties issued by the department of transportation for toll nonpayment detected through the use of a photo toll system under this section. The department of transportation shall submit to the transportation committees of the legislature an annual report on the number of times adjudicators reduce or dismiss the civil penalty as provided in (b)(ii) of this subsection and the total amount of the civil penalties dismissed. The report must be submitted by December 1st of each year.

~~((b))~~ (ii) During the adjudication process, the alleged violator must have an opportunity to explain mitigating circumstances as to why the toll bill was not timely paid. Hospitalization, a divorce decree or legal separation agreement resulting in a transfer of the vehicle, an active duty member of the military or national guard covered by the federal service members civil relief act, 50 U.S.C. Sec. 501 et seq., or state service members' civil relief act, chapter 38.42 RCW, eviction, homelessness, the death of the alleged violator or of an immediate family member, ~~((or)),~~ being switched to a different method of toll payment, if the alleged violator did not receive a toll charge bill or notice of civil penalty, or other mitigating circumstances as determined by the adjudicator are deemed valid mitigating circumstances. All of ~~((these))~~ the reasons that constitute mitigating circumstances must ~~((occur))~~ have occurred within a reasonable time of the alleged toll violation. In response to these circumstances, the adjudicator may reduce or dismiss the civil penalty and associated administrative fees.

(6) The use of a photo toll system is subject to the following requirements:

(a) Photo toll systems may take photographs, digital photographs, microphotographs, videotapes, or other recorded images of the vehicle and vehicle license plate only.

(b) A notice of civil penalty must include with it a certificate or facsimile thereof, based upon inspection of photographs, microphotographs, videotape, or other recorded images produced by a photo toll system, stating the facts supporting the notice of civil penalty. This certificate or facsimile is prima facie evidence of the facts contained in it and is admissible in a proceeding established under subsection (5) of this section. The photographs, digital photographs, microphotographs, videotape, or other recorded

images evidencing the toll nonpayment civil penalty must be available for inspection and admission into evidence in a proceeding to adjudicate the liability for the civil penalty.

(c)(i) By June 30, 2016, prior to issuing a notice of civil penalty to a registered owner of a vehicle listed on an active prepaid electronic toll account, the department of transportation must:

(A) Send an electronic mail notice to the email address provided in the prepaid electronic toll account of unpaid pay-by-mail toll bills at least ten days prior to a notice of civil penalty being issued for the associated pay-by-mail toll. The notice must be separate from any regular notice sent by the department; and

(B) Call the phone numbers provided in the account to provide notice of unpaid pay-by-mail toll bills at least ten days prior to a notice of civil penalty being issued for the associated pay-by-mail toll.

(ii) The department is relieved of its obligation to provide notice as required by this section if the customer has declined to receive communications from the department through such methods.

(d) Notwithstanding any other provision of law, all photographs, digital photographs, microphotographs, videotape, other recorded images, or other records identifying a specific instance of travel prepared under this section are for the exclusive use of the tolling agency for toll collection and enforcement purposes and are not open to the public and may not be used in a court in a pending action or proceeding unless the action or proceeding relates to a civil penalty under this section. No photograph, digital photograph, microphotograph, videotape, other recorded image, or other record identifying a specific instance of travel may be used for any purpose other than toll collection or enforcement of civil penalties under this section. Records identifying a specific instance of travel by a specific person or vehicle must be retained only as required to ensure payment and enforcement of tolls and to comply with state records retention policies.

~~((+))~~ (e) All locations where a photo toll system is used must be clearly marked by placing signs in locations that clearly indicate to a driver that he or she is entering a zone where tolls are assessed and enforced by a photo toll system.

~~((+))~~ (f) Within existing resources, the department of transportation shall conduct education and outreach efforts at least six months prior to activating an all-electronic photo toll system. Methods of outreach shall include a department presence at community meetings in the vicinity of a toll facility, signage, and information published in local media. Information provided shall include notice of when all electronic photo tolling shall begin and methods of payment. Additionally, the department shall provide quarterly reporting on education and outreach efforts and other data related to the issuance of civil penalties.

~~((+))~~ (g) The envelope containing a toll charge bill or related notice issued pursuant to RCW 47.46.105 or 47.56.795, or a notice of civil penalty issued under this section, must prominently indicate that the contents are time sensitive and related to a toll violation.

(7) Civil penalties for toll nonpayment detected through the use of photo toll systems must be issued to the registered owner of the vehicle identified by the photo toll system, but are not part of the registered owner's driving record under RCW 46.52.101 and 46.52.120.

(8) The civil penalty for toll nonpayment detected through the use of a photo toll system is forty dollars plus the photo toll and associated fees.

(9) Except as provided otherwise in this subsection, all civil penalties, including the photo toll and associated fees, collected under this section must be deposited into the toll facility account of the facility on which the toll was assessed. However, through June 30, 2013, civil penalties deposited into the Tacoma Narrows toll

bridge account created under RCW 47.56.165 that are in excess of amounts necessary to support the toll adjudication process applicable to toll collection on the Tacoma Narrows bridge must first be allocated toward repayment of operating loans and reserve payments provided to the account from the motor vehicle account under section 1005(15), chapter 518, Laws of 2007. Additionally, all civil penalties, resulting from nonpayment of tolls on the state route number 520 corridor, shall be deposited into the state route number 520 civil penalties account created under section 4, chapter 248, Laws of 2010 but only if chapter 248, Laws of 2010 is enacted by June 30, 2010.

(10) If the registered owner of the vehicle is a rental car business, the department of transportation shall, before a toll bill is issued, provide a written notice to the rental car business that a toll bill may be issued to the rental car business if the rental car business does not, within thirty days of the mailing of the written notice, provide to the issuing agency by return mail:

(a) A statement under oath stating the name and known mailing address of the individual driving or renting the vehicle when the toll was assessed; or

(b) A statement under oath that the business is unable to determine who was driving or renting the vehicle at the time the toll was assessed because the vehicle was stolen at the time the toll was assessed. A statement provided under this subsection must be accompanied by a copy of a filed police report regarding the vehicle theft; or

(c) In lieu of identifying the vehicle operator, the rental car business may pay the applicable toll and fee.

Timely mailing of this statement to the issuing agency relieves a rental car business of any liability under this section for the payment of the toll.

(11) It is the intent of the legislature that the department provide an educational opportunity when vehicle owners incur fees and penalties associated with late payment of tolls for the first time. As part of this educational opportunity, the department may waive penalties and fees if the issue that resulted in the toll not being timely paid has been resolved and the vehicle owner establishes an electronic toll account, if practicable. To aid in collecting tolls in a timely manner, the department may waive or reduce the outstanding amounts of fees and penalties assessed when tolls are not timely paid.

(12)(a) By June 30, 2016, the department of transportation must update its web site, and accommodate access to the web site from mobile platforms, to allow toll customers to efficiently manage all their tolling accounts, regardless of method of payment.

(b)(i) By June 30, 2016, the department of transportation must make available to the public a point of access that allows a third party to develop an application for mobile technologies that (A) securely accesses a user's toll account information and (B) allows the user to manage his or her toll account to the same extent possible through the department's web site.

(ii) If the department determines that it would be cost-effective and in the best interests of the citizens of Washington, it may also develop an application for mobile technologies that allows toll customers to manage all of their tolling accounts from a mobile platform.

(13) When acquiring a new photo toll system, the department of transportation must enable the new system to:

(a) Connect with the department of licensing's vehicle record system so that a prepaid electronic toll account can be updated automatically when a toll customer's vehicle record is updated, if the customer has consented to such updates; and

(b) Document when any toll is assessed for a vehicle listed in a prepaid electronic toll account in the monthly statement that is made available to the electronic toll account holder regardless of whether

the method of payment for the toll is via pay-by-mail or prepaid electronic toll account.

(14) Consistent with chapter 34.05 RCW, the department of transportation shall develop rules to implement this section.

~~((42))~~ (15) For the purposes of this section~~(5)~~:

(a) "Photo toll system" means the system defined in RCW 47.56.010 and 47.46.020.

(b) "Prepaid electronic toll account" means a prepaid toll account linked to a pass or license plate number, including "Good to Go!".

(16) If a customer's toll charge or civil penalty is waived pursuant to this section due to an error made by the department, or an agent of the department, in reading the customer's license plate, the secretary of transportation must send a letter to the customer apologizing for the error.

Sec. 7137. RCW 47.56.795 and 2010 c 249 s 3 are each amended to read as follows:

(1) A toll collection system may include, but is not limited to, electronic toll collection and photo tolling.

(2)(a) A photo toll system may take photographs, digital photographs, microphotographs, videotapes, or other recorded images of the vehicle and vehicle license plate only.

(b) Notwithstanding any other provision of law, all photographs, digital photographs, microphotographs, videotape, other recorded images, or other records identifying a specific instance of travel prepared under this chapter are for the exclusive use of the tolling agency for toll collection and enforcement purposes and are not open to the public and may not be used in a court in a pending action or proceeding unless the action or proceeding relates to a civil penalty under RCW 46.63.160. No photograph, digital photograph, microphotograph, videotape, other recorded image, or other record identifying a specific instance of travel may be used for any purpose other than toll collection or enforcement of civil penalties under RCW 46.63.160. Records identifying a specific instance of travel by a specific person or vehicle must be retained only as required to ensure payment and enforcement of tolls and to comply with state records retention policies. Aggregate records that do not identify an individual, vehicle, or account may be maintained.

(3) The department and its agents shall only use electronic toll collection system technology for toll collection purposes.

(4) Tolls may be collected and paid by the following methods:

(a) A customer may pay an electronic toll through an electronic toll collection account;

(b) A customer may pay a photo toll either through a customer-initiated payment or in response to a toll bill; or

(c) A customer may pay with cash on toll facilities that have a manual cash collection system.

(5) To the extent practicable, the department shall adopt electronic toll collection options, which allow for anonymous customer accounts and anonymous accounts that are not linked to a specific vehicle.

(6) The transportation commission shall adopt rules, in accordance with chapter 34.05 RCW, to assess administrative fees as appropriate for toll collection processes. Administrative fees must not exceed toll collection costs. All administrative fees collected under this section must be deposited into the toll facility account of the facility on which the toll was assessed.

(7) Failure to pay a photo toll by the toll payment due date is a violation for which a notice of civil penalty may be issued under RCW 46.63.160.

(8) For an electronic toll collection system that uses an in-vehicle device, such as a transponder, to identify a particular customer for the purposes of paying an electronic toll from that customer's toll collection account, the department must allow such in-vehicle devices to be offered for sale at vehicle dealers."

MAJORITY recommendation: Do pass as amended by

Strike everything after the enacting clause and insert the
 following:

"NEW SECTION. Sec. 18. The education of children is
 critically important. In order for children to be ready to learn and
 ready to ultimately enter the workforce prepared, they need to have
 academic, social, and emotional skills.

Responsible decision making, self management, healthy
 relationship skills, and self and social awareness are among the tools
 students need. These essential skills help improve school climate
 and reduce bullying, discipline issues, dropout rates, and the
 educational opportunity gap at the same time as they increase mental
 well-being, student engagement, and academic performance.

Schools teaching developmentally appropriate interpersonal
 and decision-making knowledge and skills of social and emotional
 learning see large increases in academic performance.

Students today experience unfathomable stresses. Over thirty
 thousand K-12 students are homeless. Thousands experience
 bullying, depression, abuse, or have witnessed domestic violence or

other violence in their communities. Many have lost a parent or suffered a traumatic experience.

Emotions and relationships directly affect how students learn and how they use that learning in other contexts. If a student is anxious, afraid, or worried about other stresses in his or her life, those emotions will interfere with attention, memory, and positive behaviors. By developing social and emotional skills, students will be equipped with tools to overcome barriers to their learning and even find solace in education and going to school.

The legislature is committed to investing in preventative strategies in schools to increase student mental health and well-being in order to support the education of our state's children.

NEW SECTION. Sec. 19. A new section is added to chapter 28A.300 RCW to read as follows:

(1) The department of student support services and the department of teaching and learning in the office of the superintendent of public instruction shall convene a work group to recommend comprehensive benchmarks for developmentally appropriate interpersonal and decision-making knowledge and skills of social and emotional learning for grades kindergarten through high school that build upon what is being done in early learning. These benchmarks must include, at every grade level, competencies for at least the following:

(a) Self management. Regulating one's emotions to handle stress, control impulses, and persevere in overcoming obstacles; achieving personal and academic goals; and expressing emotions appropriately;

(b) Self awareness. Accurately assessing one's feelings, interests, and strengths; maintaining a well-grounded sense of self-confidence;

(4) "Therapeutically equivalent" means a drug product of the identical base or salt as the specific drug product prescribed with essentially the same efficacy and toxicity when administered to an individual in the same dosage regimen; ((and))

(5) "Practitioner" means a physician, osteopathic physician and surgeon, dentist, veterinarian, or any other person authorized to prescribe drugs under the laws of this state;

Sec. 262(k)(4) as set forth in the federal food and drug administration's lists of licensed biological products with reference product exclusivity and biosimilarity or interchangeability valuations, sometimes referred to as the purple book.

Sec. 22. RCW 69.41.120 and 2000 c 8 s 3 are each amended to read as follows:

(1) Every drug prescription shall contain an instruction on whether or not a therapeutically equivalent generic drug or interchangeable biological product may be substituted in its place, unless substitution is permitted under a prior-consent authorization.

If a written prescription is involved, the prescription must be legible and the form shall have two signature lines at opposite ends on the bottom of the form. Under the line at the right side shall be clearly printed the words "DISPENSE AS WRITTEN". Under the line at the left side shall be clearly printed the words "SUBSTITUTION PERMITTED". The practitioner shall communicate the instructions to the pharmacist by signing the appropriate line. No prescription shall be valid without the signature of the practitioner on one of these lines. In the case of a prescription issued by a practitioner in another state that uses a one-line prescription form or variation thereof, the pharmacist may substitute a therapeutically equivalent generic drug or interchangeable biological product unless otherwise instructed by the practitioner through the use of the words "dispense as written", words of similar meaning, or some other indication.

(2) If an oral prescription is involved, the practitioner or the practitioner's agent shall instruct the pharmacist as to whether or not a therapeutically equivalent generic drug or interchangeable biological product may be substituted in its place. The pharmacist shall note the instructions on the file copy of the prescription.

(3) The pharmacist shall note the manufacturer of the drug dispensed on the file copy of a written or oral prescription.

(4) The pharmacist shall retain the file copy of a written or oral prescription for the same period of time specified in RCW 18.64.245 for retention of prescription records.

NEW SECTION. Sec. 23. A new section is added to chapter 69.41 RCW to read as follows:

Unless the prescribed biological product is requested by the patient or the patient's representative, if "substitution permitted" is marked on the prescription as provided in RCW 69.41.120, the pharmacist must substitute an interchangeable biological product that he or she has in stock for the biological product prescribed if

the wholesale price for the interchangeable biological product to the pharmacist is less than the wholesale price for the biological product prescribed.

NEW SECTION. Sec. 24. A new section is added to chapter 69.41 RCW to read as follows:

(1) Within five business days following the dispensing of a biological product, the dispensing pharmacist or the pharmacist's designee must make an entry of the specific product provided to the patient, including either the name of the product and the manufacturer or the federal food and drug administration's national drug code, into an interoperable electronic medical records system, through an electronic prescribing technology, through a pharmacy benefit management system, or through a pharmacy record that can be accessed electronically by practitioners. Entry into an electronic records system is presumed to provide notice to the prescriber. Otherwise, the pharmacist must communicate to the practitioner the specific product provided to the patient, including the name of the product and manufacturer, using facsimile, telephone, electronic transmission, or other prevailing means. No entry or communication pursuant to this section is required if:

(a) There is no interchangeable biological product for the product prescribed;

(b) A refill prescription is not changed from the product dispensed on the prior filling of the prescription; or

(c) The pharmacist or the pharmacist's designee and the practitioner communicated before dispensing and the communication included confirmation of the specific product to be provided to the patient, including the name of the product and the manufacturer.

(2) This section expires August 1, 2020.

(1) A practitioner who authorizes a prescribed drug shall not be liable for any side effects or adverse reactions caused by the manner or method by which a substituted drug product is selected or dispensed.

(2) A pharmacist who substitutes ~~((a))~~ a therapeutically equivalent drug product pursuant to RCW 69.41.100 through 69.41.180 as now or hereafter amended assumes no greater liability for selecting the dispensed drug product than would be incurred in filling a prescription for a drug product prescribed by its established name.

(3) A pharmacist who substitutes a preferred drug for a nonpreferred drug pursuant to RCW 69.41.190 assumes no greater liability for substituting the preferred drug than would be incurred in filling a prescription for the preferred drug when prescribed by name.

(4) A pharmacist who selects an interchangeable biological product to be dispensed pursuant to RCW 69.41.100 through 69.41.180, and the pharmacy for which the pharmacist is providing service, assumes no greater liability for selecting the interchangeable biological product than would be incurred in filling a prescription for the interchangeable biological product when prescribed by name. The prescribing practitioner is not liable for a pharmacist's act or omission in selecting, preparing, or dispensing an interchangeable biological product under this section.

Sec. 27. RCW 69.41.160 and 1979 c 110 s 6 are each amended to read as follows:

Creating a pedestrian safety advisory council.
Reported by Committee on Transportation

MAJORITY recommendation: Do pass as amended.

(1) Within amounts appropriated to the traffic safety commission, the commission must convene a pedestrian safety advisory council comprised of stakeholders who have a unique interest or expertise in pedestrian and road safety.

(2) The purpose of the council is to review and analyze data related to pedestrian fatalities and serious injuries to identify points at which the transportation system can be improved and to identify patterns in pedestrian fatalities and serious injuries.

(3)(a) The council may include, but is not limited to:

(i) A representative from the commission;

(ii) A coroner from the county in which the most pedestrian deaths have occurred;

(iii) A representative from the Washington association of sheriffs and police chiefs;

(iv) Multiple members of law enforcement who have investigated pedestrian fatalities;

(v) A representative from the department of transportation;

(vi) A representative of cities, and up to two stakeholders, chosen by the council, who represent municipalities in which at least one pedestrian fatality has occurred in the previous three years; and

(vii) A representative from a pedestrian advocacy group.

(b) The commission may invite other representatives of stakeholder groups to participate in the council as deemed appropriate by the commission. Additionally, the commission may invite a victim or family member of a victim to participate in the council.

(4) The council must meet at least quarterly. By December 31st of each year, the council must issue an annual report detailing any findings and recommendations to the governor and the transportation committees of the legislature. The commission must provide the annual report electronically to all municipal

governments and state agencies that participated in the council during that calendar year. Additionally, the council must report any budgetary or fiscal recommendations to the office of financial management and the legislature by August 1st on a biennial basis.

(5) As part of the review of pedestrian fatalities and serious injuries that occur in Washington, the council may review any available information, including accident information maintained in existing databases; statutes, rules, policies, or ordinances governing pedestrians and traffic related to the incidents; and any other relevant information. The council may make recommendations regarding changes in statutes, ordinances, rules, and policies that could improve pedestrian safety. Additionally, the council may make recommendations on how to improve traffic fatality and serious injury data quality.

(6)(a) Documents prepared by or for the council are inadmissible and may not be used in a civil or administrative proceeding, except that any document that exists before its use or consideration in a review by the council, or that is created independently of such review, does not become inadmissible merely because it is reviewed or used by the council. For confidential information, such as personally identifiable information and medical records, which are obtained by the council, neither the commission nor the council may publicly disclose such confidential information. No person who was in attendance at a meeting of the council or who participated in the creation, retention, collection, or maintenance of information or documents specifically for the commission or the council shall be permitted to testify in any civil action as to the content of such proceedings or of the documents and information prepared specifically as part of the activities of the council. However, recommendations from the council and the commission generally may be disclosed without personal identifiers.

(b) The council may review, only to the extent otherwise permitted by law or court rule when determined to be relevant and necessary: Any law enforcement incident documentation, such as incident reports, dispatch records, and victim, witness, and suspect statements; any supplemental reports, probable cause statements, and 911 call taker's reports; and any other information determined to be relevant to the review. The commission and the council must maintain the confidentiality of such information to the extent required by any applicable law.

(7) If acting in good faith, without malice, and within the parameters of and protocols established under this chapter, representatives of the commission and the council are immune from civil liability for an activity related to reviews of particular fatalities and serious injuries.

(8) This section must not be construed to provide a private civil cause of action.

(9)(a) The council may receive gifts, grants, or endowments from public or private sources that are made from time to time, in trust or otherwise, for the use and benefit of the purposes of the council and spend the gifts, grants, or endowments from the public or private sources according to their terms, unless the receipt of the gifts, grants, or endowments violates RCW 42.17A.560.

(b) Subject to the appropriation of funds for this specific purpose, the council may provide grants targeted at improving pedestrian safety in accordance with recommendations made by the council.

(10) By December 1, 2020, the council must report to the transportation committees of the legislature on the strategies that have been deployed to improve pedestrian safety by the council and make a recommendation as to whether the council should be continued and if there are any improvements the legislature can make to improve the council.

(11) For purposes of this section:

(a) "Council" means the pedestrian safety advisory council.

(b) "Pedestrian fatality" means any death of a pedestrian resulting from a collision with a vehicle, whether on a roadway, at an intersection, along an adjacent sidewalk, or on a path that is contiguous with a roadway.

(c) "Serious injury" means any injury other than a fatal injury that prevents the injured person from walking, driving, or normally continuing the activities the person was capable of performing before the injury occurred.

"**Sec. 29.** RCW 47.60.005 and 2008 c 124 s 1 are each amended to read as follows:

The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Adaptive management" means a systematic process for continually improving management policies and practices by learning from the outcomes of operational programs.

(2) "Capital plan" means the state ferry system plan developed by the department as described in RCW 47.06.050(2), reviewed by the commission, and reported to the transportation committees of the legislature by the ~~((commission))~~ department.

(3) "Capital project" has the same meaning as used in budget instructions developed by the office of financial management.

(4) "Commission" means the transportation commission created in RCW 47.01.051.

(5) "Improvement project" has the same meaning as in the budget instructions developed by the office of financial management. If the budget instructions do not define improvement project, then it has the same meaning as "program project" in the budget instructions. If a project meets both the improvement project and preservation project definitions in this section it must be defined as an improvement project. New vessel acquisitions must be defined as improvement projects.

(6) "Life-cycle cost model" means ~~((that portion of a capital asset inventory system which, among other things, is used to estimate future preservation needs))~~ the full cost over the life span of the vessel, including purchase price, installation costs, operating costs, maintenance and projected upgrade costs to meet safety standards, and decommissioning costs at the end of the vessel's service life. The analysis must include probabilistic analysis on known unknowns including, but not limited to, fuel costs, labor costs, and changing safety regulations.

(7) "Maintenance cost" has the same meaning as used in budget instructions developed by the office of financial management.

(8) "Preservation project" has the same meaning as used in budget instructions developed by the office of financial management.

(9) "Route" means all ferry sailings from one location to another, such as the Seattle to Bainbridge route or the Port Townsend to Keystone route.

(10) "Sailing" means an individual ferry sailing for a specific route, such as the 5:00 p.m. sailing from Seattle to Bremerton.

(11) "Travel shed" means one or more ferry routes with distinct characteristics as determined by the department.

(12) "Fixed price contract" means a contract that requires the contractor to deliver a specified project for a set price. Change orders on fixed price contracts are allowable but should be used on a very limited basis.

Sec. 30. RCW 47.60.010 and 2008 c 122 s 20 are each amended to read as follows:

The department is authorized to acquire by lease, charter, contract, purchase, condemnation, or construction, and partly by any or all of such means, and to thereafter operate, improve, and extend, a system of ferries on and crossing Puget Sound and any of its tributary waters and connections thereof, and connecting with the public streets and highways in the state. However, any new vessel planning, construction, purchase, analysis, or design work must be consistent with RCW 47.60.810. The system of ferries shall include such boats, vessels, wharves, docks, approaches, landings, franchises, licenses, and appurtenances as shall be determined by the department to be necessary or desirable for efficient operation of the ferry system and best serve the public. Subject to RCW 47.56.820, the department may in like manner acquire by purchase, condemnation, or construction and include in the ferry system such toll bridges, approaches, and connecting roadways as may be deemed by the department advantageous in channeling traffic to points served by the ferry system. In addition to the powers of acquisition granted by this section, the department is empowered to enter into any contracts, agreements, or leases with any person, firm, or corporation and to thereby provide, on such terms and conditions as it shall determine, for the operation of any ferry or ferries or system thereof, whether acquired by the department or not.

The authority of the department to sell and lease back any state ferry, for federal tax purposes only, as authorized by 26 U.S.C., Sec. 168(f)(8) is confirmed. Legal title and all incidents of legal title to any ferry sold and leased back (except for the federal tax benefits attributable to the ownership thereof) shall remain in the state of Washington.

Sec. 31. RCW 47.60.810 and 2001 c 226 s 4 are each amended to read as follows:

(1) The department ~~((may purchase new auto ferries through))~~ shall use ((øf)) a modified request for proposals process when purchasing new auto ferries, except for new 144-auto ferries purchased through an option on a contract executed before the effective date of this section, whereby the prevailing shipbuilder and the department engage in a design and build partnership for the design and construction of the auto ferries. The process consists of the three phases described in subsection ~~((2))~~ (3) of this section.

(2) Throughout the three phases described in subsection (3) of this section, the department shall employ an independent owners representative to serve as a third-party intermediary between the department and the proposers, and subsequently the successful proposer. However, this representative shall serve only during the development and construction of the first vessel constructed as part of a new class of vessels developed after the effective date of this section. The independent owners representative shall:

(a) Serve as the department's primary advocate and communicator with the proposers and successful proposer;

(b) Perform project quality oversight;

(c) Manage any change order requests;

(d) Ensure that the contract is adhered to and the department's best interests are considered in all decisions; and

(e) Possess knowledge of and experience with inland waterways, Puget Sound vessel operations, the propulsion system of the new vessels, and Washington state ferries operations.

(3) The definitions in this subsection apply throughout RCW 47.60.812 through 47.60.822.

(a) "Phase one" means the evaluation and selection of proposers to participate in development of technical proposals in phase two.

(b) "Phase two" means the preparation of technical proposals by the selected proposers in consultation with the department.

(c) "Phase three" means the submittal and evaluation of bids, the award of the contract to the successful proposer, and the design and construction of the auto ferries.

Sec. 32. RCW 47.60.814 and 2001 c 226 s 6 are each amended to read as follows:

Subject to legislative appropriation for the procurement of vessels, the department shall issue a request for proposals to interested parties that must include, at least, the following:

(1) Solicitation of a proposal to participate in a design and build partnership with the department to design and construct the auto ferries;

(2) Instructions on the prequalification process and procedures;

(3) A description of the modified request for proposals process.

Under this process, the department may modify any component of the request for proposals, including the outline specifications, by addendum at any time before the submittal of bids in phase three;

(4) A description of the design and build partnership process to be used for procurement of the vessels;

(5) Outline specifications that provide the requirements for the vessels including, but not limited to, items such as length, beam, displacement, speed, propulsion requirements, capacities for autos and passengers, passenger space characteristics, and crew size. The department will produce notional line drawings depicting hull geometry that will interface with Washington state ferries terminal facilities. Notional lines may be modified in phase two, subject to approval by the department;

(6) Instructions for the development of technical proposals in phase two, and information regarding confidentiality of technical proposals;

(7) The vessel delivery schedule, identification of the port on Puget Sound where delivery must take place, and the location where acceptance trials must be held;

(8) The estimated price range for the contract;

(9) Notification that the contract will be a fixed price contract;

(10) The form and amount of the required bid deposit and contract security;

~~((10))~~ (11) A copy of the contract that will be signed by the successful proposer;

~~((11))~~ (12) The date by which proposals in phase one must be received by the department in order to be considered;

~~((12))~~ (13) A description of information to be submitted in the proposals in phase one concerning each proposer's qualifications, capabilities, and experience;

~~((13))~~ (14) A statement of the maximum number of proposers that may be selected in phase one for development of technical proposals in phase two;

~~((14))~~ (15) Criteria that will be used for the phase one selection of proposers to participate in the phase two development of technical proposals;

~~((15))~~ (16) A description of the process that will be used for the phase three submittal and evaluation of bids, award of the contract, and postaward administrative activities;

~~((16))~~ (17) A requirement that the contractor comply with all applicable laws, rules, and regulations including but not limited to those pertaining to the environment, worker health and safety, and prevailing wages;

~~((17))~~ (18) A requirement that the vessels be constructed within the boundaries of the state of Washington except that equipment furnished by the state and components, products, and systems that are standard manufactured items are not subject to the in-state requirement under this subsection. For the purposes of this subsection, "constructed" means the fabrication, by the joining together by welding or fastening of all steel parts from which the total vessel is constructed, including, but not limited to, all shell frames, longitudinals, bulkheads, webs, piping runs, wire ways, and ducting. "Constructed" also means the installation of all components and systems, including, but not limited to, equipment and machinery, castings, electrical, electronics, deck covering, lining, paint, and joiner work required by the contract. "Constructed" also means the interconnection of all equipment, machinery, and services, such as piping, wiring, and ducting; ~~and~~

~~((18))~~ (19) A requirement that all vessel design specifications and drawings must be complete and, when applicable, meet United States coast guard standards before vessel construction begins; and

(20) A requirement that all warranty work on the vessel must be performed within the boundaries of the state of Washington, insofar as practical.

NEW SECTION. Sec. 33. A new section is added to chapter 47.60 RCW to read as follows:

If all responses to the initial request for proposals under RCW 47.60.814 are greater than five percent above the department's engineer's estimate for the project, the department must reject all proposals and issue a subsequent request for proposal that is not subject to RCW 47.60.814(18).

Sec. 34. RCW 47.60.820 and 2001 c 226 s 9 are each amended to read as follows:

Phase three consists of the submittal and evaluation of bids and the award of the contract to the successful proposer for the final design and construction of the auto ferries, as follows:

(1) The department shall request bids for detailed design and construction of the vessels after completion of the review of technical proposals in phase two. The department will review detailed design drawings in phase three for conformity with the technical proposals submitted in phase two. In no case may the department's review replace the builder's responsibility to deliver a product meeting the phase two technical proposal. The department may only consider bids from selected proposers that have qualified to bid by submitting technical proposals that have been approved by the department.

(2) Each qualified proposer must submit its total bid price for all vessels, including certification that the bid is based upon its approved technical proposal and the request for proposals.

(3) Bids constitute an offer and remain open for ninety days from the date of the bid opening. A deposit in cash, certified check, cashier's check, or surety bond in an amount specified in the request for proposals must accompany each bid and no bid may be considered unless the deposit is enclosed.

(4) The department shall evaluate the submitted bids. Upon completing the bid evaluation, the department may select the responsive and responsible proposer that offers the lowest total fixed price bid ~~((price))~~ for all vessels.

(5) The department may waive informalities in the proposal and bid process, accept a bid from the lowest responsive and responsible proposer, reject any or all bids, republish, and revise or cancel the request for proposals to serve the best interests of the department.

(6) The department may:

(a) Award the contract to the proposer that has been selected as the responsive and responsible proposer that has submitted the lowest total fixed price bid (~~(price)~~);

(b) If a contract cannot be signed with the apparent successful proposer, award the contract to the next lowest responsive and responsible proposer; or

(c) If necessary, repeat this procedure with each responsive and responsible proposer in order of rank until the list of those proposers has been exhausted.

(7) If the department awards a contract to a proposer under this section, and the proposer fails to enter into the contract and furnish satisfactory contract security as required by chapter 39.08 RCW within twenty days from the date of award, its deposit is forfeited to the state and will be deposited by the state treasurer to the credit of the Puget Sound capital construction account. Upon the execution of a ferry design and construction contract all proposal deposits will be returned.

(8) The department may provide an honorarium to reimburse each unsuccessful phase three proposer for a portion of its technical proposal preparation costs at a preset, fixed amount to be specified in the request for proposals. If the department rejects all bids, the department may provide the honoraria to all phase three proposers that submitted bids.

(9)(a) To accommodate change orders on a fixed price contract, the department shall request that the legislative appropriation for any auto ferry construction project include a contingency in the following amounts:

(i) For vessels designed to be powered by liquefied natural gas, the contingency may be no more than ten percent of the contract price;

(ii) For all other vessels, the contingency may be no more than five percent of the contract price.

(b) The contingency required by this subsection (9) must be identified in the funding request to the legislature and held in reserve until the department of transportation approves the expenditure.

Sec. 35. RCW 47.56.030 and 2008 c 122 s 8 are each amended to read as follows:

(1) Except as permitted under chapter 47.29 or 47.46 RCW:

(a) Unless otherwise delegated, and subject to RCW 47.56.820, the department of transportation shall have full charge of the planning, analysis, and construction of all toll bridges and other toll facilities including the Washington state ferries, and the operation and maintenance thereof.

(b) The transportation commission shall determine and establish the tolls and charges thereon.

(c) Unless otherwise delegated, and subject to RCW 47.56.820, the department shall have full charge of planning, analysis, and design of all toll facilities. The department may conduct the planning, analysis, and design of toll facilities as necessary to support the legislature's consideration of toll authorization.

(d) The department shall utilize and administer toll collection systems that are simple, unified, and interoperable. To the extent practicable, the department shall avoid the use of toll booths. The department shall set the statewide standards and protocols for all toll facilities within the state, including those authorized by local authorities.

(e) Except as provided in this section, the department shall proceed with the construction of such toll bridges and other facilities and the approaches thereto by contract in the manner of state highway construction immediately upon there being made available funds for such work and shall prosecute such work to completion as rapidly as practicable. The department is authorized to negotiate contracts for any amount without bid under (e)(i) and (ii) of this subsection:

(i) Emergency contracts, in order to make repairs to ferries or ferry terminal facilities or removal of such facilities whenever

continued use of ferries or ferry terminal facilities constitutes a real or immediate danger to the traveling public or precludes prudent use of such ferries or facilities; and

(ii) Single source contracts for vessel dry dockings, when there is clearly and legitimately only one available bidder to conduct dry dock-related work for a specific class or classes of vessels. The contracts may be entered into for a single vessel dry docking or for multiple vessel dry dockings for a period not to exceed two years.

(f) Any new vessel planning, construction, purchase, analysis, or design work must be consistent with RCW 47.60.810.

(2) The department shall proceed with the procurement of materials, supplies, services, and equipment needed for the support, maintenance, and use of a ferry, ferry terminal, or other facility operated by Washington state ferries, in accordance with chapter 43.19 RCW except as follows:

(a) When the secretary of the department of transportation determines in writing that the use of invitation for bid is either not practicable or not advantageous to the state and it may be necessary to make competitive evaluations, including technical or performance evaluations among acceptable proposals to complete the contract award, a contract may be entered into by use of a competitive sealed proposals method, and a formal request for proposals solicitation. Such formal request for proposals solicitation shall include a functional description of the needs and requirements of the state and the significant factors.

(b) When purchases are made through a formal request for proposals solicitation the contract shall be awarded to the responsible proposer whose competitive sealed proposal is determined in writing to be the most advantageous to the state taking into consideration price and other evaluation factors set forth in the request for proposals. No significant factors may be used in evaluating a proposal that are not specified in the request for proposals. Factors that may be considered in evaluating proposals include but are not limited to: Price; maintainability; reliability; commonality; performance levels; life cycle cost if applicable under this section; cost of transportation or delivery; delivery schedule offered; installation cost; cost of spare parts; availability of parts and service offered; and the following:

(i) The ability, capacity, and skill of the proposer to perform the contract or provide the service required;

(ii) The character, integrity, reputation, judgment, experience, and efficiency of the proposer;

(iii) Whether the proposer can perform the contract within the time specified;

(iv) The quality of performance of previous contracts or services;

(v) The previous and existing compliance by the proposer with laws relating to the contract or services;

(vi) Objective, measurable criteria defined in the request for proposal. These criteria may include but are not limited to items such as discounts, delivery costs, maintenance services costs, installation costs, and transportation costs; and

(vii) Such other information as may be secured having a bearing on the decision to award the contract.

(c) When purchases are made through a request for proposal process, proposals received shall be evaluated based on the evaluation factors set forth in the request for proposal. When issuing a request for proposal for the procurement of propulsion equipment or systems that include an engine, the request for proposal must specify the use of a life cycle cost analysis that includes an evaluation of fuel efficiency. When a life cycle cost analysis is used, the life cycle cost of a proposal shall be given at least the same relative importance as the initial price element specified in the request of proposal documents. The department may reject any and all proposals received. If the proposals are not rejected, the award shall be made to the proposer whose proposal is most advantageous

to the department, considering price and the other evaluation factors set forth in the request for proposal.

NEW SECTION. Sec. 36. RCW 47.56.780 (New ferry vessel construction for service on routes that require a vessel that carries no more than one hundred motor vehicles—How constructed—Warranty work) and 2008 c 4 s 2 are each repealed.

Strike everything after the enacting clause and insert the following:

"Sec. 39. RCW 90.58.355 and 2012 c 169 s 1 are each amended to read as follows:

Requirements to obtain a substantial development permit, conditional use permit, ~~((~~¶~~))~~ variance, letter of exemption, or other review conducted by a local government to implement this chapter shall not apply to ~~((any person))~~:

(1) Any person conducting a remedial action at a facility pursuant to a consent decree, order, or agreed order issued pursuant to chapter 70.105D RCW, or to the department of ecology when it conducts a remedial action under chapter 70.105D RCW. The department must ensure compliance with the substantive requirements of this chapter through the consent decree, order, or agreed order issued pursuant to chapter 70.105D RCW, or during the department-conducted remedial action, through the procedures developed by the department pursuant to RCW 70.105D.090; ~~((~~¶~~))~~

(2) Any person installing site improvements for storm water treatment in an existing boatyard facility to meet requirements of a national pollutant discharge elimination system storm water general permit. The department must ensure compliance with the substantive requirements of this chapter through the review of engineering reports, site plans, and other documents related to the installation of boatyard storm water treatment facilities;

(3)(a) Subject to the limitations specified in this subsection (3), normal maintenance or repair of existing structures or developments by the department of transportation, including maintenance or repair of damage caused by accident, fire, or the elements.

(b) For purposes of this subsection (3), the following definitions apply:

(i) "Normal maintenance" includes any usual acts to prevent a decline, lapse, or cessation from a lawfully established condition.

(ii) "Normal repair" means to restore a structure or development to a state comparable to its original condition including, but not limited to, restoring the development's size, shape, configuration, location, and external appearance, within a reasonable period after decay or partial destruction. Normal repair of a structure or development may not cause substantial adverse effects to shoreline resources or the shoreline environment. Replacement of a structure or development may be authorized as a normal repair if:

(A) Replacement is the common method of repair for the type of structure or development;

(B) The replacement structure or development is comparable to the original structure or development including, but not limited to, the size, shape, configuration, location, and external appearance of the original structure or development; and

(C) The replacement does not cause substantial adverse effects to shoreline resources or the shoreline environment.

(c) Normal maintenance or repair of an existing structure or development under this subsection (3) does not include the expansion of an existing structure or development, or the construction of a new structure or development that does not meet the criteria of a replacement structure or development under (b)(ii) of this subsection (3); or

(4) Construction or installation of safety structures and equipment by the department of transportation, including pavement marking, freeway surveillance and control systems, railroad protective devices not including grade-separated crossings, grooving, glare screen, safety barriers, energy attenuators, and hazardous or dangerous tree removal.

Sec. 40. RCW 90.58.140 and 2012 c 84 s 2 are each amended to read as follows:

(1) A development shall not be undertaken on the shorelines of the state unless it is consistent with the policy of this chapter and, after adoption or approval, as appropriate, the applicable guidelines, rules, or master program.

(2) A substantial development shall not be undertaken on shorelines of the state without first obtaining a permit from the government entity having administrative jurisdiction under this chapter.

A permit shall be granted:

(a) From June 1, 1971, until such time as an applicable master program has become effective, only when the development proposed is consistent with: (i) The policy of RCW 90.58.020; and (ii) after their adoption, the guidelines and rules of the department; and (iii) so far as can be ascertained, the master program being developed for the area;

(b) After adoption or approval, as appropriate, by the department of an applicable master program, only when the development proposed is consistent with the applicable master program and this chapter.

(3) The local government shall establish a program, consistent with rules adopted by the department, for the administration and enforcement of the permit system provided in this section. The administration of the system so established shall be performed exclusively by the local government.

(4) Except as otherwise specifically provided in subsection (1) of this section, the local government shall require notification of the public of all applications for permits governed by any permit system established pursuant to subsection (3) of this section by ensuring that notice of the application is given by at least one of the following methods:

(a) Mailing of the notice to the latest recorded real property owners as shown by the records of the county assessor within at least three hundred feet of the boundary of the property upon which the substantial development is proposed;

(b) Posting of the notice in a conspicuous manner on the property upon which the project is to be constructed; or

(c) Any other manner deemed appropriate by local authorities to accomplish the objectives of reasonable notice to adjacent landowners and the public.

The notices shall include a statement that any person desiring to submit written comments concerning an application, or desiring to receive notification of the final decision concerning an application as expeditiously as possible after the issuance of the decision, may submit the comments or requests for decisions to the local government within thirty days of the last date the notice is to be published pursuant to this subsection. The local government shall forward, in a timely manner following the issuance of a decision, a copy of the decision to each person who submits a request for the decision.

If a hearing is to be held on an application, notices of such a hearing shall include a statement that any person may submit oral or written comments on an application at the hearing.

(5) The system shall include provisions to assure that construction pursuant to a permit will not begin or be authorized until twenty-one days from the date the permit decision was filed as provided in subsection (6) of this section; or until all review proceedings are terminated if the proceedings were initiated within twenty-one days from the date of filing as defined in subsection (6) of this section except as follows:

(a) In the case of any permit issued to the state of Washington, department of transportation, for the construction and modification of SR 90 (I-90) on or adjacent to Lake Washington, the construction may begin after thirty days from the date of filing, and the permits are valid until December 31, 1995;

(b)(i) In the case of any permit or decision to issue any permit to the state of Washington, department of transportation, for the replacement of the floating bridge and landings of the state route number 520 Evergreen Point bridge on or adjacent to Lake Washington, the construction may begin twenty-one days from the date of filing. Any substantial development permit granted for the floating bridge and landings is deemed to have been granted on the date that the local government's decision to grant the permit is issued. This authorization to construct is limited to only those elements of the floating bridge and landings that do not preclude the department of transportation's selection of a four-lane alternative for state route number 520 between Interstate 5 and Medina. Additionally, the Washington state department of transportation shall not engage in or contract for any construction on any portion of state route number 520 between Interstate 5 and the western landing of the floating bridge until the legislature has authorized the imposition of tolls on the Interstate 90 floating bridge and/or other funding sufficient to complete construction of the state route number 520 bridge replacement and HOV program. For the purposes of this subsection (5)(b), the "western landing of the floating bridge" means the least amount of new construction necessary to connect the new floating bridge to the existing state route number 520 and anchor the west end of the new floating bridge;

(ii) Nothing in this subsection (5)(b) precludes the shorelines hearings board from concluding that the project or any element of the project is inconsistent with the goals and policies of the shoreline management act or the local shoreline master program;

(iii) This subsection (5)(b) applies retroactively to any appeals filed after January 1, 2012, and to any appeals filed on or after March 23, 2012, and expires June 30, 2014((c));

(c)(i) In the case of permits for projects addressing significant public safety risk, as defined by the department of transportation, it

is not in the public interest to delay construction until all review proceedings are terminated. In the case of any permit or decision to issue any permit for a Washington state department of transportation transportation project, construction may begin twenty-one days after the date of filing if the following requirements are met:

(A) The project qualifies as water-dependent or water-related as applied in this chapter and described in WAC 173-26-020, and the project, as supported by adequate findings supported by evidence in the record, requires an in-water or over-water location;

(B) All components of the project achieve a no net loss of shoreline ecological functions as defined by department guidelines adopted pursuant to RCW 90.58.060;

(C) The project proponent provides the department with an assessment of how the project affects shoreline ecological functions. This assessment must include specific actions for avoiding, minimizing, and mitigating impacts to shoreline ecological functions that ensure that there is no net loss of ecological functions;

(D) The department, after reviewing the assessment required in (c)(i)(C) of this subsection, determines that the project will result in no net loss of ecological functions. The department's determination must be completed before the final issuance of all appropriate shoreline permits and variances; and

(E) A performance bond is posted by the project proponent adequate to finance mitigation for impacts to ecological functions resulting from the project, and long-term reporting and monitoring of ecological functions;

(ii) Nothing in this subsection (5)(c) precludes the shorelines hearings board from concluding that the shoreline project or any element of the project is inconsistent with this chapter, the local shoreline master program, chapter 43.21C RCW and its implementing regulations, and the applicable shoreline regulations;

(iii) This subsection (5)(c) does not apply to permit decisions for the replacement of the floating bridge and landings of the state route number 520 Evergreen Point bridge on or adjacent to Lake Washington;

(d) Except as authorized in (b) and (c) of this subsection, construction may be commenced no sooner than thirty days after the date of the appeal of the board's decision is filed if a permit is granted by the local government and (i) the granting of the permit is appealed to the shorelines hearings board within twenty-one days of the date of filing, (ii) the hearings board approves the granting of the permit by the local government or approves a portion of the substantial development for which the local government issued the permit, and (iii) an appeal for judicial review of the hearings board decision is filed pursuant to chapter 34.05 RCW. The appellant may request, within ten days of the filing of the appeal with the court, a hearing before the court to determine whether construction pursuant to the permit approved by the hearings board or to a revised permit issued pursuant to the order of the hearings board should not commence. If, at the conclusion of the hearing, the court finds that construction pursuant to such a permit would involve a significant, irreversible damaging of the environment, the court shall prohibit the permittee from commencing the construction pursuant to the approved or revised permit until all review proceedings are final. Construction pursuant to a permit revised at the direction of the hearings board may begin only on that portion of the substantial development for which the local government had originally issued the permit, and construction pursuant to such a revised permit on other portions of the substantial development may not begin until after all review proceedings are terminated. In such a hearing before the court, the burden of proving whether the construction may involve significant irreversible damage to the environment and demonstrating whether such construction would or would not be appropriate is on the appellant;

((d)) (e) Except as authorized in (b) and (c) of this subsection, if the permit is for a substantial development meeting the

requirements of subsection (11) of this section, construction pursuant to that permit may not begin or be authorized until twenty-one days from the date the permit decision was filed as provided in subsection (6) of this section.

If a permittee begins construction pursuant to (a), (b), (c), (~~(d)~~) (d), or (e) of this subsection, the construction is begun at the permittee's own risk. If, as a result of judicial review, the courts order the removal of any portion of the construction or the restoration of any portion of the environment involved or require the alteration of any portion of a substantial development constructed pursuant to a permit, the permittee is barred from recovering damages or costs involved in adhering to such requirements from the local government that granted the permit, the hearings board, or any appellant or intervener.

(6) Any decision on an application for a permit under the authority of this section, whether it is an approval or a denial, shall, concurrently with the transmittal of the ruling to the applicant, be filed with the department and the attorney general. This shall be accomplished by return receipt requested mail. A petition for review of such a decision must be commenced within twenty-one days from the date of filing of the decision.

(a) With regard to a permit other than a permit governed by subsection (10) of this section, "date of filing" as used in this section refers to the date of actual receipt by the department of the local government's decision.

(b) With regard to a permit for a variance or a conditional use governed by subsection (10) of this section, "date of filing" means the date the decision of the department is transmitted by the department to the local government.

(c) When a local government simultaneously transmits to the department its decision on a shoreline substantial development with its approval of either a shoreline conditional use permit or variance, or both, "date of filing" has the same meaning as defined in (b) of this subsection.

(d) The department shall notify in writing the local government and the applicant of the date of filing by telephone or electronic means, followed by written communication as necessary, to ensure that the applicant has received the full written decision.

(7) Applicants for permits under this section have the burden of proving that a proposed substantial development is consistent with the criteria that must be met before a permit is granted. In any review of the granting or denial of an application for a permit as provided in RCW 90.58.180 (1) and (2), the person requesting the review has the burden of proof.

(8) Any permit may, after a hearing with adequate notice to the permittee and the public, be rescinded by the issuing authority upon the finding that a permittee has not complied with conditions of a permit. If the department is of the opinion that noncompliance exists, the department shall provide written notice to the local government and the permittee. If the department is of the opinion that the noncompliance continues to exist thirty days after the date of the notice, and the local government has taken no action to rescind the permit, the department may petition the hearings board for a rescission of the permit upon written notice of the petition to the local government and the permittee if the request by the department is made to the hearings board within fifteen days of the termination of the thirty-day notice to the local government.

(9) The holder of a certification from the governor pursuant to chapter 80.50 RCW shall not be required to obtain a permit under this section.

(10) Any permit for a variance or a conditional use issued with approval by a local government under their approved master program must be submitted to the department for its approval or disapproval.

(11)(a) An application for a substantial development permit for a limited utility extension or for the construction of a bulkhead or

other measures to protect a single-family residence and its appurtenant structures from shoreline erosion shall be subject to the following procedures:

(i) The public comment period under subsection (4) of this section shall be twenty days. The notice provided under subsection (4) of this section shall state the manner in which the public may obtain a copy of the local government decision on the application no later than two days following its issuance;

(ii) The local government shall issue its decision to grant or deny the permit within twenty-one days of the last day of the comment period specified in (a)(i) of this subsection; and

(iii) If there is an appeal of the decision to grant or deny the permit to the local government legislative authority, the appeal shall be finally determined by the legislative authority within thirty days.

(b) For purposes of this section, a limited utility extension means the extension of a utility service that:

(i) Is categorically exempt under chapter 43.21C RCW for one or more of the following: Natural gas, electricity, telephone, water, or sewer;

(ii) Will serve an existing use in compliance with this chapter; and

(iii) Will not extend more than twenty-five hundred linear feet within the shorelines of the state."

The policy goals established under this section are deemed consistent with the benchmark categories adopted by the state's blue ribbon commission on transportation on November 30, 2000. Public investments in transportation should support achievement of these policy goals:

(a) Economic vitality: To promote and develop transportation systems that stimulate, support, and enhance the movement of people and goods to ensure a prosperous economy;

(b) Preservation: To maintain, preserve, and extend the life and utility of prior investments in transportation systems and services;

(c) Safety: To provide for and improve the safety and security of transportation customers and the transportation system;

(d) Mobility: To improve the predictable movement of goods and people throughout Washington state, including congestion relief and improved freight mobility;

(e) Environment: To enhance Washington's quality of life through transportation investments that promote energy conservation, enhance healthy communities, and protect the environment; and

(f) Stewardship: To continuously improve the quality, effectiveness, and efficiency of the transportation system.

(2) The powers, duties, and functions of state transportation agencies must be performed in a manner consistent with the policy goals set forth in subsection (1) of this section.

(3) These policy goals are intended to be the basis for establishing detailed and measurable objectives and related performance measures.

(4) It is the intent of the legislature that the office of financial management establish objectives and performance measures for the department of transportation and other state agencies with transportation-related responsibilities to ensure transportation system performance at local, regional, and state government levels progresses toward the attainment of the policy goals set forth in subsection (1) of this section. The office of financial management shall submit initial objectives and performance measures to the legislature for its review and shall provide copies of the same to the commission during the 2008 legislative session. The office of financial management shall submit objectives and performance measures to the legislature for its review and shall provide copies of the same to the commission during each regular session of the legislature during an even-numbered year thereafter.

(5) A local or regional agency engaging in transportation planning may voluntarily establish objectives and performance measures to demonstrate progress toward the attainment of the policy goals set forth in subsection (1) of this section or any other transportation policy goals established by the local or regional agency. A local or regional agency engaging in transportation planning is encouraged to provide local and regional objectives and performance measures to be included with the objectives and performance measures submitted to the legislature pursuant to subsection (4) of this section.

(6) This section does not create a private right of action.

"NEW SECTION. Sec. 44. It is the intent of the legislature to achieve transportation regulatory reform that expedites the delivery of transportation projects through a streamlined approach to environmental decision making. The department of transportation should work cooperatively and proactively with state regulatory and natural resource agencies, public and private sector interests, and Indian tribes to avoid project delays. The department and state regulatory and natural resource agencies should continue to implement and improve upon the successful policies, guidance, tools, and procedures that were created as a result of transportation permit efficiency and accountability committee efforts. The department should expedite project delivery and routine maintenance activities through the use of programmatic agreements and permits where possible and seek new opportunities to eliminate duplicative processes.

NEW SECTION. Sec. 45. The legislature recognizes the value that tribal governments provide in the review of transportation projects. The legislature expects the department to continue its efforts to provide consistent consultation and communication during the environmental review of proposed transportation projects.

NEW SECTION. Sec. 46. The department must streamline the permitting process by developing and maintaining positive relationships with the regulatory agencies and the Indian tribes. The department can reduce the time it takes to obtain permits by incorporating impact avoidance and minimization measures into project design and by developing complete permit applications. To streamline the permitting process, the department must:

(1) Implement a multiagency permit program, commensurate with program funding levels, consisting of appropriate regulatory agency staff with oversight and management from the department.

(a) The multiagency permit program must provide early project coordination, expedited project review, project status updates, technical and regulatory guidance, and construction support to ensure compliance.

(b) The multiagency permit program staff must assist department project teams with developing complete biological assessments and permit applications, provide suggestions for how the project can avoid and minimize impacts, and provide input regarding mitigation for unavoidable impacts;

(2) Establish, implement, and maintain programmatic agreements and permits with federal and state agencies to expedite the process of ensuring compliance with the endangered species act, section 106 of the national historic preservation act, hydraulic project approvals, the clean water act, and other federal acts as appropriate;

(3) Collaborate with permitting staff from the United States army corps of engineers, Seattle district, department of ecology, and department of fish and wildlife to develop, implement, and maintain complete permit application guidance. The guidance must identify the information that is required for agencies to consider a permit application complete; and

(4) Perform internal quality assurance and quality control to ensure that permit applications are complete before submitting them to the regulatory agencies.

NEW SECTION. Sec. 47. The legislature finds that an essential component of streamlined permit decision making is the ability of the department to demonstrate the capacity to meet environmental responsibilities. Therefore, the legislature directs that:

(1) Qualified environmental staff within the department must supervise the development of all environmental documentation in accordance with the department's project delivery tools;

(2) The department must conduct special prebid meetings for projects that are environmentally complex. In addition, the department must review environmental requirements related to

these projects during the preconstruction meeting held with the contractor who is awarded the bid;

(3) Environmental staff at the department, or consultant staff hired directly by the department, must conduct field inspections to ensure that project activities comply with permit conditions and environmental commitments. These inspectors:

(a) Must notify the department's project engineer when compliance with permit conditions or environmental regulations are not being met; and

(b) Must immediately notify the regulatory agencies with jurisdiction over the nonconforming work; and

(4) When a project is not complying with a permit or environmental regulation, the project engineer must immediately order the contractor to stop all nonconforming work and implement measures necessary to bring the project into compliance with permits and regulations.

NEW SECTION. Sec. 48. The legislature expects the department to continue its efforts to improve training and compliance. The department must:

(1) Provide training in environmental procedures and permit requirements for those responsible for project delivery activities;

(2) Require wetland mitigation sites to be designed by qualified technical specialists that meet training requirements developed by the department in consultation with the department of ecology. Environmental mitigation site improvements must have oversight by environmental staff;

(3) Develop, implement, and maintain an environmental compliance data system to track permit conditions, environmental commitments, and violations;

(4) Continue to implement the environmental compliance assurance procedure to ensure that appropriate agencies are notified and that action is taken to remedy noncompliant work as soon as possible. When work occurs that does not comply with environmental permits or regulations, the project engineer must document the lessons learned to make other project teams within the department aware of the violation to prevent reoccurrence; and

(5) Provide an annual report summarizing violations of environmental permits and regulations to the department of ecology and the legislature on March 1st of each year for violations occurring during the preceding year.

NEW SECTION. Sec. 49. The legislature finds that local land use reviews under chapter 90.58 RCW need to be harmonized with the efficient accomplishment of necessary maintenance and improvement to state transportation facilities. Local land use review procedures are highly variable and pose distinct challenges for linear facility maintenance and improvement projects sponsored by the department. In particular, clearer procedures for local permitting under chapter 90.58 RCW are needed to meet the objectives of chapter 36.70A RCW regarding department facilities designated as essential public facilities.

NEW SECTION. Sec. 50. Nothing in this chapter may be interpreted to create a private right of action or right of review. Judicial review of the department's environmental review is limited to that available under chapter 43.21C RCW or applicable federal law.

NEW SECTION. Sec. 51. A new section is added to chapter 47.01 RCW to read as follows:

(1) The department shall submit a report to the transportation committees of the legislature detailing engineering errors on highway construction projects resulting in project cost increases in excess of five hundred thousand dollars. The department must submit a full report within ninety days of the negotiated change order resulting from the engineering error.

(2) The department's full report must include an assessment and review of:

(a) How the engineering error happened;

(b) The department of the employee or employees responsible for the engineering error, without disclosing the name of the employee or employees;

(c) What corrective action was taken;

(d) The estimated total cost of the engineering error and how the department plans to mitigate that cost;

(e) Whether the cost of the engineering error will impact the overall project financial plan; and

(f) What action the secretary has recommended to avoid similar engineering errors in the future.

NEW SECTION. Sec. 52. Sections 1 through 7 of this act constitute a new chapter in Title 47 RCW.

NEW SECTION. Sec. 53. This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect July 1, 2015.

NEW SECTION. Sec. 54. This act takes effect only if chapter ... (Engrossed Substitute Senate Bill No. 5987), Laws of 2015 is enacted by June 30, 2015."
