(a) For inpatient fee-for-service payments for prospective payment hospitals other than psychiatric or rehabilitation hospitals, twenty-nine million ~~((two hundred twenty five thousand))~~ one hundred sixty-two thousand five hundred dollars per state fiscal year ~~((in fiscal years 2014 and 2015, and then amounts reduced in equal increments per fiscal year until the supplemental payment amount is zero by July 1, 2019, from the fund,))~~ plus federal matching funds;

(b) For outpatient fee-for-service payments for prospective payment hospitals other than psychiatric or rehabilitation hospitals, thirty million dollars per state fiscal year ~~((in fiscal years 2014 and 2015, and then amounts reduced in equal increments per fiscal year until the supplemental payment amount is zero by July 1, 2019, from the fund,))~~ plus federal matching funds;

(c) For inpatient fee-for-service payments for psychiatric hospitals, ~~((six hundred twenty five thousand))~~ eight hundred seventy-five thousand dollars per state fiscal year ~~((in fiscal years 2014 and 2015, and then amounts reduced in equal increments per fiscal year until the supplemental payment amount is zero by July 1, 2019, from the fund,))~~ plus federal matching funds;

(d) For inpatient fee-for-service payments for rehabilitation hospitals, ~~((one hundred fifty thousand))~~ two hundred twenty-five thousand dollars per state fiscal year ~~((in fiscal years 2014 and 2015, and then amounts reduced in equal increments per fiscal year until the supplemental payment amount is zero by July 1, 2019, from the fund,))~~ plus federal matching funds;

(e) For inpatient fee-for-service payments for border hospitals, two hundred fifty thousand dollars per state fiscal year ~~((in fiscal years 2014 and 2015, and then amounts reduced in equal increments per fiscal year until the supplemental payment amount is zero by July 1, 2019, from the fund,))~~ plus federal matching funds; and

(f) For outpatient fee-for-service payments for border hospitals, two hundred fifty thousand dollars per state fiscal year ~~((in fiscal years 2014 and 2015, and then amounts reduced in equal increments per fiscal year until the supplemental payment amount is zero by July 1, 2019, from the fund,))~~ plus federal matching funds.

(2) If the amount of inpatient or outpatient payments under subsection (1) of this section, when combined with federal matching funds, exceeds the upper payment limit, payments to each category of hospital must be reduced proportionately to a level where the total payment amount is consistent with the upper payment limit. Funds under this chapter unable to be paid to hospitals under this section because of the upper payment limit must be paid to managed care organizations under RCW 74.60.130, subject to the limitations in this chapter.

(3) The amount of such fee-for-service inpatient payments to individual hospitals within each of the categories identified in subsection (1)(a), (c), (d), and (e) of this section must be determined by:

(a) Applying the medicaid fee-for-service rates in effect on July 1, 2009, without regard to the increases required by chapter 30, Laws of 2010 1st sp. sess. to each hospital's inpatient fee-for-services claims and medicaid managed care encounter data for the base year;

(b) Applying the medicaid fee-for-service rates in effect on July 1, 2009, without regard to the increases required by chapter 30, Laws of 2010 1st sp. sess. to all hospitals' inpatient fee-for-services claims and medicaid managed care encounter data for the base year; and

(c) Using the amounts calculated under (a) and (b) of this subsection to determine an individual hospital's percentage of the total amount to be distributed to each category of hospital.

(4) The amount of such fee-for-service outpatient payments to individual hospitals within each of the categories identified in subsection (1)(b) and (f) of this section must be determined by:

(a) Applying the medicaid fee-for-service rates in effect on July 1, 2009, without regard to the increases required by chapter 30, Laws of 2010 1st sp. sess. to each hospital's outpatient fee-for-services claims and medicaid managed care encounter data for the base year;

(b) Applying the medicaid fee-for-service rates in effect on July 1, 2009, without regard to the increases required by chapter 30, Laws of 2010 1st sp. sess. to all hospitals' outpatient fee-for-services claims and medicaid managed care encounter data for the base year; and

(c) Using the amounts calculated under (a) and (b) of this subsection to determine an individual hospital's percentage of the total amount to be distributed to each category of hospital.

(5) ~~((Thirty days before the initial payments and))~~ Sixty days before the first payment in each subsequent fiscal year, the authority shall provide each hospital and the Washington state hospital association with an explanation of how the amounts due to each hospital under this section were calculated.

(6) Payments must be made in quarterly installments on or about the last day of every quarter. ~~((The initial payment must be made within thirty days after satisfaction of the conditions in RCW 74.60.150(1) and must include all amounts due from July 1, 2013, to either: (a) The end of the calendar quarter prior to when the conditions in RCW 74.60.150(1) are satisfied if approval is received more than forty five days prior to the end of a quarter; or (b) the end of the calendar quarter after the satisfaction of the conditions in RCW 74.60.150(1) if approval is received within forty five days of the end of a quarter.))~~

(7) A prospective payment system hospital commencing operations after January 1, 2009, is eligible to receive payments in accordance with this section after becoming an eligible new prospective payment system hospital as defined in RCW 74.60.010.

(8) Payments under this section are supplemental to all other payments and do not reduce any other payments to hospitals.

Sec. 547. RCW 74.60.130 and 2014 c 143 s 3 are each amended to read as follows:

(1) For state fiscal year ~~((2014))~~ 2016 and for each subsequent fiscal year, commencing within thirty days after satisfaction of the conditions in RCW 74.60.150(1) and subsection ~~((6))~~ (5) of this section, ~~((and for the period of state fiscal years 2014 through 2019,))~~ the authority shall increase capitation payments in a manner consistent with federal contracting requirements to managed care organizations by an amount at least equal to the amount available from the fund after deducting disbursements authorized by RCW 74.60.020(4) (c) through (f) and payments required by RCW 74.60.080 through 74.60.120. The capitation payment under this subsection must be no less than one hundred ~~((fifty three))~~ million ~~((one hundred thirty one thousand six hundred))~~ dollars per state fiscal year ~~((in fiscal years 2014 and 2015, and then the increased capitation payment amounts are reduced in equal increments per fiscal year until the increased capitation payment amount is zero by July 1, 2019,))~~ plus the maximum available amount of federal matching funds. The initial payment following satisfaction of the conditions in RCW 74.60.150(1) must include all amounts due from July 1, ~~((2013))~~ 2015, to the end of the calendar month during which the conditions in RCW 74.60.150(1) are satisfied. Subsequent payments shall be made monthly.

~~((2)) ((In fiscal years 2015, 2016, and 2017, the authority shall use any additional federal matching funds for the increased managed care capitation payments under subsection (1) of this section available from medicaid expansion under the federal patient protection and affordable care act to substitute for assessment funds which otherwise would have been used to pay managed care plans under this section.~~

~~((3))~~ Payments to individual managed care organizations shall be determined by the authority based on each organization's or network's enrollment relative to the anticipated total enrollment in each program for the fiscal year in question, the anticipated utilization of hospital services by an organization's or network's medicaid enrollees, and such other factors as are reasonable and appropriate to ensure that purposes of this chapter are met.

~~((4))~~ (3) If the federal government determines that total payments to managed care organizations under this section exceed what is permitted under applicable medicaid laws and regulations, payments must be reduced to levels that meet such requirements, and the balance remaining must be applied as provided in RCW 74.60.050. Further, in the event a managed care organization is legally obligated to repay amounts distributed to hospitals under this section to the state or federal government, a managed care organization may recoup the amount it is obligated to repay under the medicaid program from individual hospitals by not more than the amount of overpayment each hospital received from that managed care organization.

~~((5))~~ (4) Payments under this section do not reduce the amounts that otherwise would be paid to managed care organizations: PROVIDED, That such payments are consistent with actuarial soundness certification and enrollment.

~~((6))~~ (5) Before making such payments, the authority shall require medicaid managed care organizations to comply with the following requirements:

(a) All payments to managed care organizations under this chapter must be expended for hospital services provided by Washington hospitals, which for purposes of this section includes psychiatric and rehabilitation hospitals, in a manner consistent with the purposes and provisions of this chapter, and must be equal to all increased capitation payments under this section received by the organization or network, consistent with actuarial certification and enrollment, less an allowance for any estimated premium taxes the organization is required to pay under Title 48 RCW associated with the payments under this chapter;

(b) Managed care organizations shall expend the increased capitation payments under this section in a manner consistent with the purposes of this chapter, with the initial expenditures to hospitals to be made within thirty days of receipt of payment from the authority. Subsequent expenditures by the managed care plans are to be made before the end of the quarter in which funds are received from the authority;

(c) Providing that any delegation or attempted delegation of an organization's or network's obligations under agreements with the authority do not relieve the organization or network of its obligations under this section and related contract provisions.

~~((7))~~ (6) No hospital or managed care organizations may use the payments under this section to gain advantage in negotiations.

~~((8))~~ (7) No hospital has a claim or cause of action against a managed care organization for monetary compensation based on the amount of payments under subsection ~~((6))~~ (5) of this section.

~~((9))~~ (8) If funds cannot be used to pay for services in accordance with this chapter the managed care organization or network must return the funds to the authority which shall return them to the hospital safety net assessment fund.

Sec. 548. RCW 74.60.150 and 2013 2nd sp.s. c 17 s 15 are each amended to read as follows:

(1) The assessment, collection, and disbursement of funds under this chapter shall be conditional upon:

(a) Final approval by the centers for medicare and medicaid services of any state plan amendments or waiver requests that are necessary in order to implement the applicable sections of this chapter including, if necessary, waiver of the broad-based or uniformity requirements as specified under section 1903(w)(3)(E) of the federal social security act and 42 C.F.R. 433.68(e);

(b) To the extent necessary, amendment of contracts between the authority and managed care organizations in order to implement this chapter; and

(c) Certification by the office of financial management that appropriations have been adopted that fully support the rates established in this chapter for the upcoming fiscal year.

(2) This chapter does not take effect or ceases to be imposed, and any moneys remaining in the fund shall be refunded to hospitals in proportion to the amounts paid by such hospitals, if and to the extent that any of the following conditions occur:

(a) The federal department of health and human services and a court of competent jurisdiction makes a final determination, with all appeals exhausted, that any element of this chapter, other than RCW 74.60.100, cannot be validly implemented;

(b) Funds generated by the assessment for payments to prospective payment hospitals or managed care organizations are determined to be not eligible for federal match;

(c) Other funding sufficient to maintain aggregate payment levels to hospitals for inpatient and outpatient services covered by medicaid, including fee-for-service and managed care, at least at the levels the state paid for those services on July 1, ~~((2009))~~ 2015, as adjusted for current enrollment and utilization ~~((, but without regard to payment increases resulting from chapter 30, Laws of 2010 1st sp. sess.))~~ is not appropriated or available;

(d) Payments required by this chapter are reduced, except as specifically authorized in this chapter, or payments are not made in substantial compliance with the time frames set forth in this chapter; or

(e) The fund is used as a substitute for or to supplant other funds, except as authorized by RCW 74.60.020.

Sec. 549. RCW 74.60.160 and 2013 2nd sp.s. c 17 s 17 are each amended to read as follows:

(1) The legislature intends to provide the hospitals with an opportunity to contract with the authority each fiscal biennium to protect the hospitals from future legislative action during the biennium that could result in hospitals receiving less from supplemental payments, increased managed care payments, disproportionate share hospital payments, or access payments than the hospitals expected to receive in return for the assessment based on the biennial appropriations and assessment legislation.

(2) Each odd-numbered year after enactment of the biennial omnibus operating appropriations act, the authority shall offer to enter into a contract or to extend an existing contract for the period of the fiscal biennium beginning July 1st with a hospital that is required to pay the assessment under this chapter. The contract must include the following terms:

(a) The authority must agree not to do any of the following:

(i) Increase the assessment from the level set by the authority pursuant to this chapter on the first day of the contract period for reasons other than those allowed under RCW 74.60.050~~((3))~~ (2)(e);

(ii) Reduce aggregate payment levels to hospitals for inpatient and outpatient services covered by medicaid, including fee-for-service and managed care, ~~((allowing for variations due to budget neutral rebasing and))~~ adjusting for changes in enrollment and utilization, from the levels the state paid for those services on the first day of the contract period;

(iii) For critical access hospitals only, reduce the levels of disproportionate share hospital payments under RCW 74.60.110 or access payments under RCW 74.60.100 for all critical access hospitals below the levels specified in those sections on the first day of the contract period;

(iv) For prospective payment system, psychiatric, and rehabilitation hospitals only, reduce the levels of supplemental payments under RCW 74.60.120 for all prospective payment system hospitals below the levels specified in that section on the first day of the contract period unless the supplemental payments are reduced under RCW 74.60.120(2);

(v) For prospective payment system, psychiatric, and rehabilitation hospitals only, reduce the increased capitation payments to managed care organizations under RCW 74.60.130 below the levels specified in that section on the first day of the contract period unless the managed care payments are reduced under RCW 74.60.130~~((4))~~ (3); or

(vi) Except as specified in this chapter, use assessment revenues for any other purpose than to secure federal medicaid matching funds to support payments to hospitals for medicaid services; and

(b) As long as payment levels are maintained as required under this chapter, the hospital must agree not to challenge the authority's reduction of hospital reimbursement rates to July 1, 2009, levels, which results from the elimination of assessment supported rate restorations and increases, under 42 U.S.C. Sec. 1396a(a)(30)(a) either through administrative appeals or in court during the period of the contract.

(3) If a court finds that the authority has breached an agreement with a hospital under subsection (2)(a) of this section, the authority:

(a) Must immediately refund any assessment payments made subsequent to the breach by that hospital upon receipt; and

(b) May discontinue supplemental payments, increased managed care payments, disproportionate share hospital payments, and access payments made subsequent to the breach for the hospital that are required under this chapter.

(4) The remedies provided in this section are not exclusive of any other remedies and rights that may be available to the hospital whether provided in this chapter or otherwise in law, equity, or statute.

Sec. 550. RCW 74.60.901 and 2013 2nd sp.s. c 17 s 19 are each amended to read as follows:

This chapter expires July 1, ~~((2017))~~ 2019.

MESSAGE FROM THE SENATE

April 15, 2015

MR. SPEAKER:

The Senate has passed ENGROSSED SUBSTITUTE HOUSE BILL NO. 1449, with the following amendment(s):

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 552. (1) Subject to the availability of amounts appropriated for this specific purpose, the department of ecology shall provide grants to emergency responders to assist with oil spill and hazardous materials response and firefighting equipment and resources needed to meet the requirements of this act.

(2) For the purposes of determining grant allocations, the department of ecology, in consultation with emergency first responders, oil spill response cooperatives, representatives from the oil and rail industries, and businesses that are recipients of liquid bulk crude oil shall: (a) Conduct an evaluation of oil spill and hazardous materials response and firefighting equipment and resources currently available for oil spill and hazardous materials response activities throughout the state; (b) review the local emergency management coordinating efforts for oil spill and hazardous materials response; (c) determine the need for additional, new, or updated equipment and resources; and (d) identify areas or regions of the state that are in greatest need of resources and oil spill and hazardous materials response and firefighting equipment.

(3) The department of ecology, in consultation with emergency first responders, oil spill response cooperatives, representatives from the oil and rail industries, and businesses that are recipients of liquid bulk crude oil shall review grant applications to prioritize grant awards using the evaluation of availability of oil spill and hazardous materials response and firefighting equipment and resources as determined in subsection (2) of this section.

(a) The application review must include evaluation of equipment and resource requests, funding requirements, and coordination with existing equipment and resources in the area.

(b) Funding must be prioritized for applicants from areas where the need for firefighting and oil spill and hazardous materials response equipment is the greatest as determined in subsection (2) of this section.

(c) Grants must be coordinated to maximize currently existing equipment and resources that have been put in place by first responders and industry.

Sec. 553. RCW 82.23B.010 and 1992 c 73 s 6 are each amended to read as follows:

~~((Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.))~~ The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Barrel" means a unit of measurement of volume equal to forty-two United States gallons of crude oil or petroleum product.

(2) "Bulk oil terminal" means a facility of any kind, other than a waterborne vessel, that is used for transferring crude oil from a tank car.

(3) "Crude oil" means any naturally occurring liquid hydrocarbons at atmospheric temperature and pressure coming from the earth, including condensate and natural gasoline.

~~((3))~~ (4) "Department" means the department of revenue.

~~((4))~~ (5) "Marine terminal" means a facility of any kind, other than a waterborne vessel, that is used for transferring crude oil or petroleum products to or from a waterborne vessel or barge.

~~((5))~~ (6) "Navigable waters" means those waters of the state and their adjoining shorelines that are subject to the ebb and flow of the tide, including the Columbia and Snake rivers.

~~((6))~~ (7) "Person" has the meaning provided in RCW 82.04.030.

~~((7))~~ (8) "Petroleum product" means any liquid hydrocarbons at atmospheric temperature and pressure that are the product of the

fractionation, distillation, or other refining or processing of crude oil, and that are used as, useable as, or may be refined as a fuel or fuel blendstock, including but not limited to, gasoline, diesel fuel, aviation fuel, bunker fuel, and fuels containing a blend of alcohol and petroleum.

~~((9))~~ (9) "Tank car" means a rail car, the body of which consists of a tank for transporting liquids.

(10) "Taxpayer" means the person owning crude oil or petroleum products immediately after receipt of the same into the storage tanks of a marine or bulk oil terminal in this state ~~((from a waterborne vessel or barge))~~ and who is liable for the taxes imposed by this chapter.

~~((9))~~ (11) "Waterborne vessel or barge" means any ship, barge, or other watercraft capable of travelling on the navigable waters of this state and capable of transporting any crude oil or petroleum product in quantities of ten thousand gallons or more for purposes other than providing fuel for its motor or engine.

Sec. 554. RCW 82.23B.020 and 2006 c 256 s 2 are each amended to read as follows:

(1) An oil spill response tax is imposed on the privilege of receiving: (a) Crude oil or petroleum products at a marine terminal within this state from a waterborne vessel or barge operating on the navigable waters of this state; and (b) crude oil at a bulk oil terminal within this state from a tank car. The tax imposed in this section is levied upon the owner of the crude oil or petroleum products immediately after receipt of the same into the storage tanks of a marine or bulk oil terminal from a tank car or waterborne vessel or barge at the rate of one cent per barrel of crude oil or petroleum product received.

(2) In addition to the tax imposed in subsection (1) of this section, an oil spill administration tax is imposed on the privilege of receiving: (a) Crude oil or petroleum products at a marine terminal within this state from a waterborne vessel or barge operating on the navigable waters of this state; and (b) crude oil at a bulk oil terminal within this state from a tank car. The tax imposed in this section is levied upon the owner of the crude oil or petroleum products immediately after receipt of the same into the storage tanks of a marine or bulk oil terminal from a tank car or waterborne vessel or barge at the rate of four cents per barrel of crude oil or petroleum product.

(3) The taxes imposed by this chapter ~~((shall))~~ must be collected by the marine or bulk oil terminal operator from the taxpayer. If any person charged with collecting the taxes fails to bill the taxpayer for the taxes, or in the alternative has not notified the taxpayer in writing of the ~~((imposition of the))~~ taxes imposed, or having collected the taxes, fails to pay them to the department in the manner prescribed by this chapter, whether such failure is the result of the person's own acts or the result of acts or conditions beyond the person's control, he or she ~~((shall))~~, nevertheless, ~~((be))~~ is personally liable to the state for the amount of the taxes. Payment of the taxes by the owner to a marine or bulk oil terminal operator ~~((shall))~~ must relieve the owner from further liability for the taxes.

(4) Taxes collected under this chapter ~~((shall))~~ must be held in trust until paid to the department. Any person collecting the taxes who appropriates or converts the taxes collected ~~((shall be))~~ is guilty of a gross misdemeanor if the money required to be collected is not available for payment on the date payment is due. The taxes required by this chapter to be collected ~~((shall))~~ must be stated separately from other charges made by the marine or bulk oil terminal operator in any invoice or other statement of account provided to the taxpayer.

(5) If a taxpayer fails to pay the taxes imposed by this chapter to the person charged with collection of the taxes and the person charged with collection fails to pay the taxes to the department, the department may, in its discretion, proceed directly against the taxpayer for collection of the taxes.

(6) The taxes ~~((shall be))~~ are due from the marine or bulk oil terminal operator, along with reports and returns on forms prescribed by the department, within twenty-five days after the end of the month in which the taxable activity occurs.

(7) The amount of taxes, until paid by the taxpayer to the marine or bulk oil terminal operator or to the department, ~~((shall))~~ constitute a debt from the taxpayer to the marine or bulk oil terminal operator. Any person required to collect the taxes under this chapter who, with intent to violate the provisions of this chapter, fails or refuses to do so as required and any taxpayer who refuses to pay any taxes due under this chapter ~~((shall be))~~ is guilty of a misdemeanor as provided in chapter 9A.20 RCW.

(8) Upon prior approval of the department, the taxpayer may pay the taxes imposed by this chapter directly to the department. The department ~~((shall))~~ must give its approval for direct payment under this section whenever it appears, in the department's judgment, that direct payment will enhance the administration of the taxes imposed under this chapter. The department ~~((shall))~~ must provide by rule for the issuance of a direct payment certificate to any taxpayer qualifying for direct payment of the taxes. Good faith acceptance of a direct payment certificate by a terminal operator ~~((shall))~~ must relieve the marine or bulk oil terminal operator from any liability for the collection or payment of the taxes imposed under this chapter.

(9) All receipts from the tax imposed in subsection (1) of this section ~~((shall))~~ must be deposited into the state oil spill response account. All receipts from the tax imposed in subsection (2) of this section shall be deposited into the oil spill prevention account.

(10) Within forty-five days after the end of each calendar quarter, the office of financial management ~~((shall))~~ must determine the balance of the oil spill response account as of the last day of that calendar quarter. Balance determinations by the office of financial management under this section are final and ~~((shall))~~ may not be used to challenge the validity of any tax imposed under this chapter. The office of financial management ~~((shall))~~ must promptly notify the departments of revenue and ecology of the account balance once a determination is made. For each subsequent calendar quarter, the tax imposed by subsection (1) of this section shall be imposed during the entire calendar quarter unless:

(a) Tax was imposed under subsection (1) of this section during the immediately preceding calendar quarter, and the most recent quarterly balance is more than nine million dollars; or

(b) Tax was not imposed under subsection (1) of this section during the immediately preceding calendar quarter, and the most recent quarterly balance is more than eight million dollars.

Sec. 555. RCW 82.23B.030 and 1992 c 73 s 9 are each amended to read as follows:

The taxes imposed under this chapter ~~((shall))~~ only apply to the first receipt of crude oil or petroleum products at a marine or bulk oil terminal in this state and not to the later transporting and subsequent receipt of the same oil or petroleum product, whether in the form originally received at a marine or bulk oil terminal in this state or after refining or other processing.

Sec. 556. RCW 82.23B.040 and 1992 c 73 s 10 are each amended to read as follows:

Credit ~~((shall))~~ must be allowed against the taxes imposed under this chapter for any crude oil or petroleum products received at a marine or bulk oil terminal and subsequently exported from or sold for export from the state.

NEW SECTION. Sec. 557. A new section is added to chapter 90.56 RCW to read as follows:

(1) A facility that receives crude oil from a railroad car must provide advance notice to the department that the facility will receive crude oil from a railroad car, as provided in this section. The advance notice must include the route taken to the facility within the state, if known, and the scheduled time, location, volume, region per bill of lading, and gravity of the oil, as measured by standards

developed by the American petroleum institute. Each week, a facility that provides advance notice under this section must provide the required information regarding the scheduled arrival of railroad cars carrying crude oil to be received by the facility in the succeeding seven-day period. A facility is not required to provide advance notice when there is no receipt of crude oil from a railroad car scheduled for a seven-day period.

(2) The department may share information provided by a facility through the advance notice system established in this section with the state emergency management division and any county, city, tribal, port, or local government emergency response agency upon request.

(3) The department must publish information collected under this section on a quarterly basis on the department's internet web site. The information published by the department must be aggregated on a statewide basis and may include other information available to the department including, but not limited to, place of origin, modes of transport, number of railroad cars delivering crude oil, and number and volume of spills during transport and delivery. The department must publish routes to facilities within the state, but may not include specific information about volume or gravity of oil, as measured by the standards developed by the American petroleum institute transported to any particular facility along the routes.

(4) A facility providing advance notice under this section is not responsible for meeting advance notice time frame requirements under subsection (1) of this section in the event that the schedule of arrivals of railroad cars carrying crude oil changes during a seven-day period.

(5) Consistent with the requirements of chapter 42.56 RCW, the department and any state, local, tribal, or public agency that receives information provided under this section may not disclose any such information to the public or to nongovernmental entities that is not aggregated and that contains proprietary, commercial, or financial information. The requirement for aggregating information does not apply when information is shared by the department with emergency response agencies as provided in subsection (2) of this section.

(6) The department shall adopt rules to implement this section. The advance notice system required in this section must be consistent with the oil transfer reporting system adopted by the department pursuant to RCW 88.46.165.

Sec. 558. RCW 88.40.011 and 2007 c 347 s 4 are each amended to read as follows:

The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Barge" means a vessel that is not self-propelled.

(2) "Cargo vessel" means a self-propelled ship in commerce, other than a tank vessel, fishing vessel, or a passenger vessel, of three hundred or more gross tons.

(3) "Bulk" means material that is stored or transported in a loose, unpackaged liquid, powder, or granular form capable of being conveyed by a pipe, bucket, chute, or belt system.

(4) "Covered vessel" means a tank vessel, cargo vessel, or passenger vessel.

(5) "Department" means the department of ecology.

(6) "Director" means the director of the department of ecology.

(7)(a) "Facility" means any structure, group of structures, equipment, pipeline, or device, other than a vessel, located on or near the navigable waters of the state that transfers oil in bulk to or from any vessel with an oil carrying capacity over two hundred fifty barrels or pipeline, that is used for producing, storing, handling, transferring, processing, or transporting oil in bulk.

If the director's recommendations are adverse to the plan as submitted, and, if the local organization does not agree to the director's recommendations for modification to the proposal, the matter shall be referred to the council for final action. The director may authorize two or more political subdivisions to join in the establishment and operation of a joint local organization for emergency management as circumstances may warrant, in which case each political subdivision shall contribute to the cost of emergency management upon such fair and equitable basis as may be determined upon by the executive heads of the constituent subdivisions. If in any case the executive heads cannot agree upon the proper division of cost

the matter shall be referred to the council for arbitration and its decision shall be final. When two or more political subdivisions join in the establishment and operation of a joint local organization for emergency management each shall pay its share of the cost into a special pooled fund to be administered by the treasurer of the most populous subdivision, which fund shall be known as the emergency management fund. Each local organization or joint local organization for emergency management shall have a director who shall be appointed by the executive head of the political subdivision, and who shall have direct responsibility for the organization, administration, and operation of such local organization for emergency management, subject to the direction and control of such executive officer or officers. In the case of a joint local organization for emergency management, the director shall be appointed by the joint action of the executive heads of the constituent political subdivisions. Each local organization or joint local organization for emergency management shall perform emergency management functions within the territorial limits of the political subdivision within which it is organized, and, in addition, shall conduct such functions outside of such territorial limits as may be required pursuant to the provisions of this chapter.

(2) In carrying out the provisions of this chapter each political subdivision, in which any disaster as described in RCW 38.52.020 occurs, shall have the power to enter into contracts and incur obligations necessary to combat such disaster, protecting the health and safety of persons and property, and providing emergency assistance to the victims of such disaster. Each political subdivision is authorized to exercise the powers vested under this section in the light of the exigencies of an extreme emergency situation without regard to time-consuming procedures and formalities prescribed by law (excepting mandatory constitutional requirements), including, but not limited to, budget law limitations, requirements of competitive bidding and publication of notices, provisions pertaining to the performance of public work, entering into contracts, the incurring of obligations, the employment of temporary workers, the rental of equipment, the purchase of supplies and materials, the levying of taxes, and the appropriation and expenditures of public funds.

Entry shall be at a reasonable time and in a reasonable manner. The purpose of entry is limited to performing inspections, investigations, or surveillance of equipment, records, and operations relating to the packaging, loading, unloading, or transportation of hazardous materials by rail, pursuant only to the state participation program outlined in 49 C.F.R. Part 212. The term "business" is all inclusive and is not limited to common carriers or public service companies.

(i) Purchases for the purpose of resale as tangible personal property in the regular course of business without intervening use by such person, but a purchase for the purpose of resale by a regional transit authority under RCW 81.112.300 is not a sale for resale; or

(ii) Installs, repairs, cleans, alters, imprints, improves, constructs, or decorates real or personal property of or for consumers, if such tangible personal property becomes an ingredient or component of such real or personal property without intervening use by such person; or

(iii) Purchases for the purpose of consuming the property purchased in producing for sale as a new article of tangible personal property or substance, of which such property becomes an ingredient or component or is a chemical used in processing, when the primary purpose of such chemical is to create a chemical reaction directly through contact with an ingredient of a new article being produced for sale; or

(iv) Purchases for the purpose of consuming the property purchased in producing ferrosilicon which is subsequently used in producing magnesium for sale, if the primary purpose of such property is to create a chemical reaction directly through contact with an ingredient of ferrosilicon; or

(v) Purchases for the purpose of providing the property to consumers as part of competitive telephone service, as defined in RCW 82.04.065; or

(vi) Purchases for the purpose of satisfying the person's obligations under an extended warranty as defined in subsection (7) of this section, if such tangible personal property replaces or becomes an ingredient or component of property covered by the extended warranty without intervening use by such person.

(b) The term includes every sale of tangible personal property that is used or consumed or to be used or consumed in the performance of any activity defined as a "sale at retail" or "retail sale" even though such property is resold or used as provided in (a)(i) through (vi) of this subsection following such use.

(c) The term also means every sale of tangible personal property to persons engaged in any business that is taxable under RCW 82.04.280(1) (a), (b), and (g), 82.04.290, and 82.04.2908.

(2) The term "sale at retail" or "retail sale" includes the sale of or charge made for tangible personal property consumed and/or for labor and services rendered in respect to the following:

(a) The installing, repairing, cleaning, altering, imprinting, or improving of tangible personal property of or for consumers, including charges made for the mere use of facilities in respect

(b) The constructing, repairing, decorating, or improving of new or existing buildings or other structures under, upon, or above real property of or for consumers, including the installing or attaching of any article of tangible personal property therein or thereto, whether or not such personal property becomes a part of the realty by virtue of installation, and also includes the sale of services or charges made for the clearing of land and the moving of earth excepting the mere leveling of land used in commercial farming or agriculture;

(f) The furnishing of lodging and all other services by a hotel, rooming house, tourist court, motel, trailer camp, and the granting of any similar license to use real property, as distinguished from the renting or leasing of real property, and it is presumed that the occupancy of real property for a continuous period of one month or more constitutes a rental or lease of real property and not a mere license to use or enjoy the same. For the purposes of this subsection, it is presumed that the sale of and charge made for the furnishing of lodging for a continuous period of one month or more to a person is a rental or lease of real property and not a mere license to enjoy the same;

(g) The installing, repairing, altering, or improving of digital goods for consumers;

(h) Persons taxable under (a), (b), (c), (d), (e), (f), and (g) of this subsection when such sales or charges are for property, labor and services which are used or consumed in whole or in part by such persons in the performance of any activity defined as a "sale at retail" or "retail sale" even though such property, labor and services may be resold after such use or consumption. Nothing contained in this subsection may be construed to modify subsection (1) of this section and nothing contained in subsection (1) of this section may be construed to modify this subsection.

(3) The term "sale at retail" or "retail sale" includes the sale of or charge made for personal, business, or professional services including amounts designated as interest, rents, fees, admission, and other service emoluments however designated, received by persons engaging in the following business activities:

~~(a)(i) Amusement and recreation services including but not limited to golf, pool, billiards, skating, bowling, ski lifts and tows, day trips for sightseeing purposes, and others, when provided to consumers.~~

~~(ii) Until July 1, 2017, amusement and recreation services do not include the opportunity to dance provided by an establishment in exchange for a cover charge.~~

~~(iii) For purposes of this subsection (3)(a):~~

~~(A) "Cover charge" means a charge, regardless of its label, to enter an establishment or added to the purchaser's bill by an establishment or otherwise collected after entrance to the establishment, and the purchaser is provided the opportunity to dance in exchange for payment of the charge.~~

~~(B) "Opportunity to dance" means that an establishment provides a designated physical space, on either a temporary or permanent basis, where customers are allowed to dance and the establishment either advertises or otherwise makes customers aware that it has an area for dancing;~~

~~(b)) Abstract, title insurance, and escrow services;~~

~~((e)) (b) Credit bureau services;~~

~~((d)) (c) Automobile parking and storage garage services;~~

~~((e)) (d) Landscape maintenance and horticultural services but excluding (i) horticultural services provided to farmers and (ii) pruning, trimming, repairing, removing, and clearing of trees and brush near electric transmission or distribution lines or equipment, if performed by or at the direction of an electric utility;~~

~~(g)(i) Operating an athletic or fitness facility, including all charges for the use of such a facility or for any associated services and amenities, except as provided in (g)(ii) of this subsection.~~

~~(ii) Notwithstanding anything to the contrary in (g)(i) of this subsection (3), the term "sale at retail" and "retail sale" under this subsection does not include:~~

~~(A) Separately stated charges for the use of an athletic or fitness facility where such use is primarily for a purpose other than engaging in or receiving instruction in a physical fitness activity;~~

~~(B) Separately stated charges for the use of a discrete portion of an athletic or fitness facility, other than a pool, where such discrete portion of the facility does not by itself meet the definition of "athletic or fitness facility" in this subsection;~~

~~(C) Separately stated charges for services, such as advertising, massage, nutritional consulting, and body composition testing, that do not require the customer to engage in physical fitness activities to receive the service. The exclusion in this subsection (3)(g)(ii)(C) does not apply to personal training services and instruction in a physical fitness activity;~~

~~(D) Separately stated charges for physical therapy provided by a physical therapist, as those terms are defined in RCW 18.74.010, or occupational therapy provided by an occupational therapy practitioner, as those terms are defined in RCW 18.59.020, when performed pursuant to a referral from an authorized health care practitioner or in consultation with an authorized health care practitioner. For the purposes of this subsection (3)(g)(ii)(D), an authorized health care practitioner means a health care practitioner licensed under chapter 18.83, 18.25, 18.36A, 18.57, 18.57A, 18.71, or 18.71A RCW;~~

(G) The provision of access to an athletic or fitness facility by an educational institution to its students and staff. However, charges made by an educational institution to its alumni or other members of the public for the use of any of the educational institution's athletic or fitness facilities are a retail sale under this subsection (3)(g). For purposes of this subsection (3)(g)(ii)(G), "educational institution" has the same meaning as in RCW 82.04.170; and

(H) Yoga, tai chi, or chi gong classes held at a community center, park, gymnasium, college or university, hospital or other medical facility, private residence, or any facility that is not primarily used for physical fitness activities other than yoga, tai chi, or chi gong classes.

(iii) Nothing in (g)(ii) of this subsection (3) may be construed to affect the taxation of sales made by the operator of an athletic or fitness facility, where such sales are defined as a retail sale under any provision of this section other than this subsection (3).

(iv) For the purposes of this subsection (3)(g), the following definitions apply:

(A) "Athletic or fitness facility" means an indoor or outdoor facility or portion of a facility that is primarily used for: Exercise classes; strength and conditioning programs; personal training services; tennis, racquetball, handball, squash, or pickleball; yoga; boxing, kickboxing, wrestling, martial arts, or mixed martial arts training; or other activities requiring the use of exercise or strength training equipment, such as treadmills, elliptical machines, stair climbers, stationary cycles, rowing machines, pilates equipment, balls, climbing ropes, jump ropes, and weightlifting equipment.

(B) "Physical fitness activities" means activities that involve physical exertion for the purpose of improving or maintaining the general fitness, strength, flexibility, conditioning, or health of the participant.

(4)(a) The term also includes the renting or leasing of tangible personal property to consumers.

(b) The term does not include the renting or leasing of tangible personal property where the lease or rental is for the purpose of sublease or subrent.

(5) The term also includes the providing of "competitive telephone service," "telecommunications service," or "ancillary services," as those terms are defined in RCW 82.04.065, to consumers.

(6)(a) The term also includes the sale of prewritten computer software to a consumer, regardless of the method of delivery to the end user. For purposes of this subsection (6)(a), the sale of prewritten computer software includes the sale of or charge made for a key or an enabling or activation code, where the key or code is required to activate prewritten computer software and put the software into use. There is no separate sale of the key or code from the prewritten computer software, regardless of how the sale may be characterized by the vendor or by the purchaser.

The term "retail sale" does not include the sale of or charge made for:

(i) Custom software; or

(ii) The customization of prewritten computer software.

(b)(i) The term also includes the charge made to consumers for the right to access and use prewritten computer software, where possession of the software is maintained by the seller or a third party, regardless of whether the charge for the service is on a per use, per user, per license, subscription, or some other basis.

(ii)(A) The service described in (b)(i) of this subsection (6) includes the right to access and use prewritten computer software to perform data processing.

(B) For purposes of this subsection (6)(b)(ii), "data processing" means the systematic performance of operations on data to extract the required information in an appropriate form or to convert the data to usable information. Data processing includes check

processing, image processing, form processing, survey processing, payroll processing, claim processing, and similar activities.

(7) The term also includes the sale of or charge made for an extended warranty to a consumer. For purposes of this subsection, "extended warranty" means an agreement for a specified duration to perform the replacement or repair of tangible personal property at no additional charge or a reduced charge for tangible personal property, labor, or both, or to provide indemnification for the replacement or repair of tangible personal property, based on the occurrence of specified events. The term "extended warranty" does not include an agreement, otherwise meeting the definition of extended warranty in this subsection, if no separate charge is made for the agreement and the value of the agreement is included in the sales price of the tangible personal property covered by the agreement. For purposes of this subsection, "sales price" has the same meaning as in RCW 82.08.010.

(8)(a) The term also includes the following sales to consumers of digital goods, digital codes, and digital automated services:

(i) Sales in which the seller has granted the purchaser the right of permanent use;

(ii) Sales in which the seller has granted the purchaser a right of use that is less than permanent;

(iii) Sales in which the purchaser is not obligated to make continued payment as a condition of the sale; and

(iv) Sales in which the purchaser is obligated to make continued payment as a condition of the sale.

(b) A retail sale of digital goods, digital codes, or digital automated services under this subsection (8) includes any services provided by the seller exclusively in connection with the digital goods, digital codes, or digital automated services, whether or not a separate charge is made for such services.

(c) For purposes of this subsection, "permanent" means perpetual or for an indefinite or unspecified length of time. A right of permanent use is presumed to have been granted unless the agreement between the seller and the purchaser specifies or the circumstances surrounding the transaction suggest or indicate that the right to use terminates on the occurrence of a condition subsequent.

(9) The term also includes the charge made for providing tangible personal property along with an operator for a fixed or indeterminate period of time. A consideration of this is that the operator is necessary for the tangible personal property to perform as designed. For the purpose of this subsection (9), an operator must do more than maintain, inspect, or set up the tangible personal property.

(10) The term does not include the sale of or charge made for labor and services rendered in respect to the building, repairing, or improving of any street, place, road, highway, easement, right-of-way, mass public transportation terminal or parking facility, bridge, tunnel, or trestle which is owned by a municipal corporation or political subdivision of the state or by the United States and which is used or to be used primarily for foot or vehicular traffic including mass transportation vehicles of any kind.

The term also includes, in addition to the purchase price, the amount of any tariff or duty paid with respect to the importation of the article used. In case the article used is acquired by lease or by gift or is extracted, produced, or manufactured by the person using the same or is sold under conditions wherein the purchase price does not represent the true value thereof, the value of the article used is determined as nearly as possible according to the retail selling price at place of use of similar products of like quality and character under such rules as the department may prescribe.

(b) In case the articles used are acquired by bailment, the value of the use of the articles so used must be in an amount representing a reasonable rental for the use of the articles so bailed, determined as nearly as possible according to the value of such use at the places of use of similar products of like quality and character under such rules as the department of revenue may prescribe. In case any such articles of tangible personal property are used in respect to the construction, repairing, decorating, or improving of, and which become or are to become an ingredient or component of, new or existing buildings or other structures under, upon, or above real property of or for the United States, any instrumentality thereof, or a county or city housing authority created pursuant to chapter 35.82 RCW, including the installing or attaching of any such articles therein or thereto, whether or not such personal property becomes a part of the realty by virtue of installation, then the value of the use of such articles so used is determined according to the retail selling price of such articles, or in the absence of such a selling price, as nearly as possible according to the retail selling price at place of use of similar products of like quality and character or, in the absence of either of these selling price measures, such value may be determined upon a cost basis, in any event under such rules as the department of revenue may prescribe.

(c) In the case of articles owned by a user engaged in business outside the state which are brought into the state for no more than one hundred eighty days in any period of three hundred sixty-five consecutive days and which are temporarily used for business purposes by the person in this state, the value of the article used must be an amount representing a reasonable rental for the use of the articles, unless the person has paid tax under this chapter or chapter 82.08 RCW upon the full value of the article used, as defined in (a) of this subsection.

(d) In the case of articles manufactured or produced by the user and used in the manufacture or production of products sold or to be

sold to the department of defense of the United States, the value of the articles used is determined according to the value of the ingredients of such articles.

(e) In the case of an article manufactured or produced for purposes of serving as a prototype for the development of a new or improved product, the value of the article used is determined by: (i) The retail selling price of such new or improved product when first offered for sale; or (ii) the value of materials incorporated into the prototype in cases in which the new or improved product is not offered for sale.

(f) In the case of an article purchased with a direct pay permit under RCW 82.32.087, the value of the article used is determined by the purchase price of such article if, but for the use of the direct pay permit, the transaction would have been subject to sales tax.

(8) "Value of the digital good or digital code used" means the purchase price for the digital good or digital code, the use of which is taxable under this chapter. If the digital good or digital code is acquired other than by purchase, the value of the digital good or digital code must be determined as nearly as possible according to the retail selling price at place of use of similar digital goods or digital codes of like quality and character under rules the department may prescribe.

(9) "Value of the extended warranty used" means the purchase price for the extended warranty, the use of which is taxable under this chapter. (10) "Value of the service used" means the purchase price for the digital automated service or other service, the use of which is taxable under this chapter. If the service is received by gift or under conditions wherein the purchase price does not represent the true value thereof, the value of the service used is determined as nearly as possible according to the retail selling price at place of use of similar services of like quality and character under rules the department may prescribe.

Sec. 579. RCW 82.12.020 and 2010 1st sp.s. c 23 s 206 are each amended to read as follows:

(1) There is levied and collected from every person in this state a tax or excise for the privilege of using within this state as a consumer any:

(a) Article of tangible personal property acquired by the user in any manner, including tangible personal property acquired at a casual or isolated sale, and including by-products used by the manufacturer thereof, except as otherwise provided in this chapter, irrespective of whether the article or similar articles are manufactured or are available for purchase within this state;

(b) Prewritten computer software, regardless of the method of delivery, but excluding prewritten computer software that is either provided free of charge or is provided for temporary use in viewing information, or both;

(c) Services defined as a retail sale in RCW 82.04.050 (2) (a) or (g)(~~(3)(a)~~) or (6)(b), excluding services defined as a retail sale in RCW 82.04.050(6)(b) that are provided free of charge;

(d) Extended warranty; or

(e)(i) Digital good, digital code, or digital automated service, including the use of any services provided by a seller exclusively in connection with digital goods, digital codes, or digital automated services, whether or not a separate charge is made for such services.

(ii) With respect to the use of digital goods, digital automated services, and digital codes acquired by purchase, the tax imposed in this subsection (1)(e) applies in respect to:

(A) Sales in which the seller has granted the purchaser the right of permanent use;

(B) Sales in which the seller has granted the purchaser a right of use that is less than permanent;

(C) Sales in which the purchaser is not obligated to make continued payment as a condition of the sale; and

(D) Sales in which the purchaser is obligated to make continued payment as a condition of the sale.

(iii) With respect to digital goods, digital automated services, and digital codes acquired other than by purchase, the tax imposed in this subsection (1)(e) applies regardless of whether or not the consumer has a right of permanent use or is obligated to make continued payment as a condition of use.

(2) The provisions of this chapter do not apply in respect to the use of any article of tangible personal property, extended warranty, digital good, digital code, digital automated service, or service taxable under RCW 82.04.050 (2) (a) or (g)(~~(3)(a)~~) or (6)(b), if the sale to, or the use by, the present user or the present user's bailor or donor has already been subjected to the tax under chapter 82.08 RCW or this chapter and the tax has been paid by the present user or by the present user's bailor or donor.

(3)(a) Except as provided in this section, payment of the tax imposed by this chapter or chapter 82.08 RCW by one purchaser or user of tangible personal property, extended warranty, digital good, digital code, digital automated service, or other service does not have the effect of exempting any other purchaser or user of the same property, extended warranty, digital good, digital code, digital automated service, or other service from the taxes imposed by such chapters.

(b) The tax imposed by this chapter does not apply:

(i) If the sale to, or the use by, the present user or his or her bailor or donor has already been subjected to the tax under chapter 82.08 RCW or this chapter and the tax has been paid by the present user or by his or her bailor or donor;

(ii) In respect to the use of any article of tangible personal property acquired by bailment and the tax has once been paid based on reasonable rental as determined by RCW 82.12.060 measured by the value of the article at time of first use multiplied by the tax rate imposed by chapter 82.08 RCW or this chapter as of the time of first use;

(iii) In respect to the use of any article of tangible personal property acquired by bailment, if the property was acquired by a previous bailee from the same bailor for use in the same general activity and the original bailment was prior to June 9, 1961; or

(iv) To the use of digital goods or digital automated services, which were obtained through the use of a digital code, if the sale of the digital code to, or the use of the digital code by, the present user or the present user's bailor or donor has already been subjected to the tax under chapter 82.08 RCW or this chapter and the tax has been paid by the present user or by the present user's bailor or donor.

(4)(a) Except as provided in (b) of this subsection (4), the tax is levied and must be collected in an amount equal to the value of the article used, value of the digital good or digital code used, value of the extended warranty used, or value of the service used by the taxpayer, multiplied by the applicable rates in effect for the retail sales tax under RCW 82.08.020.

(b) In the case of a seller required to collect use tax from the purchaser, the tax must be collected in an amount equal to the purchase price multiplied by the applicable rate in effect for the retail sales tax under RCW 82.08.020.

(5) For purposes of the tax imposed in this section, "person" includes anyone within the definition of "buyer," "purchaser," and "consumer" in RCW 82.08.010.

Sec. 580. RCW 82.12.02595 and 2009 c 535 s 615 are each amended to read as follows:

(1) This chapter does not apply to the use by a nonprofit charitable organization or state or local governmental entity of personal property that has been donated to the nonprofit charitable

good, digital code, digital automated service, service defined as a retail sale in RCW 82.04.050 (2) (a) or (g)~~((3)(a))~~ or (6)(b), or extended warranty, acquired from a federal credit union, foreign credit union, or out-of-state credit union as a result of a merger or conversion.

(2) For purposes of this section, the following definitions apply:

(a) "Federal credit union" means a credit union organized and operating under the laws of the United States.

(b) "Foreign credit union" means a credit union organized and operating under the laws of another country or other foreign jurisdiction.

(c) "Out-of-state credit union" means a credit union organized and operating under the laws of another state or United States territory or possession.

(d) "State credit union" means a credit union organized and operating under the laws of this state.

Sec. 584. RCW 82.32.087 and 2010 c 112 s 10 are each amended to read as follows:

(1) The director may grant a direct pay permit to a taxpayer who demonstrates, to the satisfaction of the director, that the taxpayer meets the requirements of this section. The direct pay permit allows the taxpayer to accrue and remit directly to the department use tax on the acquisition of tangible personal property or sales tax on the sale of or charges made for labor and/or services, in accordance with all of the applicable provisions of this title. Any taxpayer that uses a direct pay permit ~~((shall))~~ must remit state and local sales or use tax directly to the department. The agreement by the purchaser to remit tax directly to the department, rather than pay sales or use tax to the seller, relieves the seller of the obligation to collect sales or use tax and requires the buyer to pay use tax on the tangible personal property and sales tax on the sale of or charges made for labor and/or services.

(2)(a) A taxpayer may apply for a permit under this section if:

(i) The taxpayer's cumulative tax liability is reasonably expected to be two hundred forty thousand dollars or more in the current calendar year; or (ii) the taxpayer makes purchases subject to the taxes imposed under chapter 82.08 or 82.12 RCW in excess of ten million dollars per calendar year. For the purposes of this section, "tax liability" means the amount required to be remitted to the department for taxes administered under this chapter, except for the taxes imposed or authorized by chapters 82.14A, 82.14B, 82.24, 82.27, 82.29A, and 84.33 RCW.

(b) Application for a permit must be made in writing to the director in a form and manner prescribed by the department. A taxpayer who transacts business in two or more locations may submit one application to cover the multiple locations.

(c) The director must review a direct pay permit application in a timely manner and ~~((shall))~~ must notify the applicant, in writing, of the approval or denial of the application. The department must approve or deny an application based on the applicant's ability to comply with local government use tax coding capabilities and responsibilities; requirements for vendor notification; recordkeeping obligations; electronic data capabilities; and tax reporting procedures. Additionally, an application may be denied if the director determines that denial would be in the best interest of collecting taxes due under this title. The department must provide a direct pay permit to an approved applicant with the notice of approval. The direct pay permit ~~((shall))~~ must clearly state that the holder is solely responsible for the accrual and payment of the tax imposed under chapters 82.08 and 82.12 RCW and that the seller is relieved of liability to collect tax imposed under chapters 82.08 and 82.12 RCW on all sales to the direct pay permit holder. The taxpayer may petition the director for reconsideration of a denial.

(d) A taxpayer who uses a direct pay permit must continue to maintain records that are necessary to a determination of the tax

liability in accordance with this title. A direct pay permit is not transferable and the use of a direct pay permit may not be assigned to a third party.

(3) Taxes for which the direct pay permit is used are due and payable on the tax return for the reporting period in which the taxpayer (a) receives the tangible personal property purchased or in which the labor and/or services are performed or (b) receives an invoice for such property or such labor and/or services, whichever period is earlier.

(4) The holder of a direct pay permit must furnish a copy of the direct pay permit to each vendor with whom the taxpayer has opted to use a direct pay permit. Sellers who make sales upon which the sales or use tax is not collected by reason of the provisions of this section, in addition to existing requirements under this title, must maintain a copy of the direct pay permit and any such records or information as the department may specify.

(5) A direct pay permit is subject to revocation by the director at any time the department determines that the taxpayer has violated any provision of this section or that revocation would be in the best interests of collecting the taxes due under this title. The notice of revocation must be in writing and is effective either as of the end of the taxpayer's next normal reporting period or a date deemed appropriate by the director and identified in the revocation notice. The taxpayer may petition the director for reconsideration of a revocation and reinstatement of the permit.

(6) Any taxpayer who chooses to no longer use a direct pay permit or whose permit is revoked by the department, must return the permit to the department and immediately make a good faith effort to notify all vendors to whom the permit was given, advising them that the permit is no longer valid.

(7) Except as provided in this subsection, the direct pay permit may be used for any purchase of tangible personal property and any retail sale under RCW 82.04.050. The direct pay permit may not be used for:

(a) Purchases of meals or beverages;

(b) Purchases of motor vehicles, trailers, boats, airplanes, and other property subject to requirements for title transactions by the department of licensing;

(c) Purchases for which a reseller permit or other documentation authorized under RCW 82.04.470 may be used;

(d) Purchases that meet the definitions of RCW 82.04.050 (2) (e) and (f), (3) (a) through ~~((d))~~ (c), (e), (f), and (g), ((and)) (5), and (15); or

(e) Other activities subject to tax under chapter 82.08 or 82.12 RCW that the department by rule designates, consistent with the purposes of this section, as activities for which a direct pay permit is not appropriate and may not be used.

NEW SECTION. Sec. 585. RCW 82.12.02917 (Exemptions-Use of amusement and recreation services by nonprofit youth organization) and 1999 c 358 s 7 are each repealed.

NEW SECTION. Sec. 586. The repeal in section 12 of this act does not affect any existing right acquired or liability or obligation incurred under the statute repealed or under any rule or order adopted under that statute nor does it affect any proceedings instituted under the statute repealed.

NEW SECTION. Sec. 587. This act takes effect January 1, 2016."

On page 1, line 2 of the title, after "services;" strike the remainder of the title and insert "amending RCW 82.04.050, 82.04.060, 82.04.190, 82.08.0291, 82.12.020, 82.12.02595, 82.12.035, 82.12.040, 82.12.860, and 82.32.087; reenacting and amending RCW 82.12.010; creating a new section; repealing RCW 82.12.02917; and providing an effective date."

ENGROSSED SECOND SUBSTITUTE SENATE BILL NO. 5269, by Senate Committee on Ways & Means (originally sponsored by Senators O'Ban, Darneille, Rolfes, Dinsel, Miloscia, Pearson, Bailey, Padden, Becker, Frockt, Habib and Pedersen)

Concerning court review of detention decisions under the involuntary treatment act.

The bill was read the second time.

Representative Walkinshaw moved the adoption of amendment (498):

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 588. This act may be known and cited as Joel's Law.

NEW SECTION. Sec. 589. A new section is added to chapter 71.05 RCW to read as follows:

(1) If a designated mental health professional decides not to detain a person for evaluation and treatment under RCW 71.05.150 or 71.05.153 or forty-eight hours have elapsed since a designated mental health professional received a request for investigation and the designated mental health professional has not taken action to have the person detained, an immediate family member or guardian or conservator of the person may petition the superior court for the person's initial detention.

(2)(a) The petition must be submitted on forms developed by the administrative office of the courts for this purpose. The petition must be accompanied by a sworn declaration from the petitioner, and other witnesses if desired, describing why the person should be detained for evaluation and treatment. The description of why the person should be detained may contain, but is not limited to, the information identified in RCW 71.05.212.

(b) The petition must contain:

(i) A description of the relationship between the petitioner and the person; and

(ii) The date on which an investigation was requested from the designated mental health professional.

(3) The court shall, within one judicial day, review the petition to determine whether the petition raises sufficient evidence to support the allegation. If the court so finds, it shall provide a copy of the petition to the designated mental health professional agency with an order for the agency to provide the court, within one judicial day, with a written sworn statement describing the basis for the decision not to seek initial detention and a copy of all information material to the designated mental health professional's current decision.

(4) Following the filing of the petition and before the court reaches a decision, any person, including a mental health professional, may submit a sworn declaration to the court in support of or in opposition to initial detention.

(5) The court shall dismiss the petition at any time if it finds that a designated mental health professional has filed a petition for the person's initial detention under RCW 71.05.150 or 71.05.153 or that the person has voluntarily accepted appropriate treatment.

(6) The court must issue a final ruling on the petition within five judicial days after it is filed. After reviewing all of the information provided to the court, the court may enter an order for initial detention if the court finds that: (a) There is probable cause to support a petition for detention; and (b) the person has refused or failed to accept appropriate evaluation and treatment voluntarily. The court shall transmit its final decision to the petitioner.

(7) If the court enters an order for initial detention, it shall provide the order to the designated mental health professional agency, which shall execute the order without delay. An order for initial detention under this section expires one hundred eighty days from issuance.

(8) Except as otherwise expressly stated in this chapter, all procedures must be followed as if the order had been entered under

RCW 71.05.150. RCW 71.05.160 does not apply if detention was initiated under the process set forth in this section.

(9) For purposes of this section, "immediate family member" means a spouse, domestic partner, child, stepchild, parent, stepparent, grandparent, or sibling.

NEW SECTION. Sec. 590. A new section is added to chapter 71.05 RCW to read as follows:

(1) The department and each regional support network or agency employing designated mental health professionals shall publish information in an easily accessible format describing the process for an immediate family member, guardian, or conservator to petition for court review of a detention decision under section 2 of this act.

(2) A designated mental health professional or designated mental health professional agency that receives a request for investigation for possible detention under this chapter must inquire whether the request comes from an immediate family member, guardian, or conservator who would be eligible to petition under section 2 of this act. If the designated mental health professional decides not to detain the person for evaluation and treatment under RCW 71.05.150 or 71.05.153 or forty-eight hours have elapsed since the request for investigation was received and the designated mental health professional has not taken action to have the person detained, the designated mental health professional or designated mental health professional agency must inform the immediate family member, guardian, or conservator who made the request for investigation about the process to petition for court review under section 2 of this act.

Sec. 591. RCW 71.05.130 and 1998 c 297 s 7 are each amended to read as follows:

In any judicial proceeding for involuntary commitment or detention except under section 2 of this act, or in any proceeding challenging ~~((such))~~ involuntary commitment or detention, the prosecuting attorney for the county in which the proceeding was initiated shall represent the individuals or agencies petitioning for commitment or detention and shall defend all challenges to such commitment or detention ~~((= PROVIDED))~~, except that the attorney general shall represent and provide legal services and advice to state hospitals or institutions with regard to all provisions of and proceedings under this chapter ~~((except in))~~ other than proceedings initiated by such hospitals and institutions seeking fourteen day detention."

SECOND READING

ENGROSSED SUBSTITUTE SENATE BILL NO. 5884, by Senate Committee on Law & Justice (originally sponsored by Senators Kohl-Welles, Darneille, Padden, Keiser, Conway, Chase and Hasegawa)

Concerning the trafficking of persons.

The bill was read the second time.

Representative Orwall moved the adoption of amendment (499):

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 592. (1) The legislature has long been committed to increasing access to support services for human trafficking victims and promoting awareness of human trafficking throughout Washington state. In 2002, Washington was the first state to work on human trafficking by enacting new laws and by creating an antitrafficking task force. In 2003, Washington was the first state to enact a law making human trafficking a crime.

Since 2002, the Washington state legislature has enacted thirty-eight laws to combat human trafficking. In 2013 and 2014, Washington received top marks from two leading nongovernmental organizations for the strength of its antitrafficking laws. The polaris project gave Washington a perfect score of ten and Washington received an "A" report card from shared hope international's protected innocence challenge. In light of the 2010 winter olympic games taking place in Vancouver, British Columbia, the legislature enacted RCW 47.38.080, permitting an approved nonprofit to place informational human trafficking posters in restrooms located in rest areas along Interstate 5. Sporting events, such as the winter olympic games or the upcoming 2015 United States open golf tournament at Chambers Bay, provide lucrative opportunities for human traffickers to exploit adults and children for labor and sexual services. The legislature finds that an effective way to combat human trafficking is to increase awareness of human trafficking for both victims and the general public alike as well as who and how to contact for help and support services, for both victims and the general public alike.

(2) Human trafficking data are primarily obtained through a hotline reporting system in which victims and witnesses can report cases of human trafficking over the phone. Since 2007, there have been one thousand eight hundred fifty human trafficking calls made through the human trafficking victim hotline system in Washington state, and a total of four hundred thirty-two human trafficking cases reported. It is the intent of the legislature to facilitate an even wider scope of communication with human trafficking victims and

witnesses by requiring human trafficking information to be posted in all public restrooms.

NEW SECTION. Sec. 593. A new section is added to chapter 7.68 RCW to read as follows:

(1) The office of crime victims advocacy is designated as the single point of contact in state government regarding the trafficking of persons.

(2) The Washington state clearinghouse on human trafficking is created as an information portal to share and coordinate statewide efforts to combat the trafficking of persons. The clearinghouse will include an internet web site operated by the office of crime victims advocacy, and will serve the following functions:

(a) Coordinating information regarding all statewide task forces relating to the trafficking of persons including, but not limited to, sex trafficking, commercial sexual exploitation of children, and labor trafficking;

(b) Publishing the findings and legislative reports of all statewide task forces relating to the trafficking of persons;

(c) Providing a comprehensive directory of resources for victims of trafficking; and

(d) Collecting and disseminating up-to-date information regarding the trafficking of persons, including news and legislative efforts, both state and federal.

Sec. 594. RCW 7.68.350 and 2003 c 266 s 1 are each amended to read as follows:

MESSAGE FROM THE SENATE

April 22, 2015

Mr. Speaker:

HOUSE AMENDMENT TO SENATE BILL

There being no objection, the House receded from its amendment. The rules were suspended and SUBSTITUTE SENATE BILL NO. 5679 was returned to second reading for the purpose of amendment.

SECOND READING

SUBSTITUTE SENATE BILL NO. 5679, by Senate Committee on Early Learning & K-12 Education (originally sponsored by Senators McAuliffe, Litzow, Dammeier, Hasegawa, Liias, Chase, Rolfes, Jayapal, Parlette and Conway)

Concerning transition services for special education students.

The bill was read the second time.

Representative Santos moved the adoption of amendment (500):

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 598. The legislature finds that research continues to suggest that high expectations for students with disabilities is paramount to improving student outcomes. The legislature further finds that to increase the number of students with disabilities who are prepared for higher education, teachers and administrators in K-12 education should continue to improve their acceptance of students with disabilities as full-fledged learners for whom there are high expectations. The legislature also encourages continuous development in transition services to higher education opportunities for these students. The legislature recognizes that other states have authorized transition planning to postsecondary settings for students with disabilities as early as the age of fourteen. To remove barriers and obstacles for students with disabilities to access to postsecondary settings including higher education, the legislature intends to authorize transition planning for students with disabilities as soon as practicable when educationally and developmentally appropriate.

Sec. 599. RCW 28A.155.220 and 2014 c 47 s 1 are each amended to read as follows:

(1) The office of the superintendent of public instruction must establish interagency agreements with the department of social and health services, the department of services for the blind, and any other state agency that provides high school transition services for special education students. Such interagency agreements shall not interfere with existing individualized education programs, nor override any individualized education program team's decision-making power. The purpose of the interagency agreements is to foster effective collaboration among the multiple agencies providing transition services for individualized education ~~((plan))~~ program-eligible special education students from the beginning of transition planning, as soon as educationally and developmentally appropriate, through age twenty-one, or through high school graduation, whichever occurs first. Interagency agreements are also intended to streamline services and programs, promote efficiencies, and establish a uniform focus on improved outcomes related to self-sufficiency. ~~((This subsection does not require transition services plan development in addition to what exists on June 12, 2014.))~~

(2)(a) When educationally and developmentally appropriate, the interagency responsibilities and linkages with transition services under subsection (1) of this section must be addressed in a transition plan to a postsecondary setting in the individualized education program of a student with disabilities.

(b) Transition planning shall be based upon educationally and developmentally appropriate transition assessments that outline the student's individual needs, strengths, preferences, and interests. Transition assessments may include observations, interviews, inventories, situational assessments, formal and informal assessments, as well as academic assessments.

(c) The transition services that the transition plan must address include activities needed to assist the student in reaching postsecondary goals and courses of study to support postsecondary goals.

(d) Transition activities that the transition plan may address include instruction, related services, community experience, employment and other adult living objectives, daily living skills, and functional vocational evaluation.

(e) When educationally and developmentally appropriate, a discussion must take place with the student and parents, and others as needed, to determine the postsecondary goals or postschool vision for the student. This discussion may be included as part of an annual individualized education program review, high school and beyond plan meeting, or any other meeting that includes parents, students, and educators. The postsecondary goals included in the transition plan shall be goals that are measurable and must be based on appropriate transition assessments related to training, education, employment, and independent living skills, when necessary. The goals must also be based on the student's needs, while considering the strengths, preferences, and interests of the student.

(f) As the student gets older, changes in the transition plan may be noted in the annual update of the student's individualized education program.

(g) A student with disabilities who has a high school and beyond plan may use the plan to comply with the transition plan required under this subsection (2).

(3) To the extent that data is available through data-sharing agreements established by the education data center under RCW 43.41.400, the education data center must monitor the following outcomes for individualized education ~~((plan))~~ program-eligible special education students after high school graduation:

(a) The number of students who, within one year of high school graduation:

(i) Enter integrated employment paid at the greater of minimum wage or competitive wage for the type of employment, with access to related employment and health benefits; or

(ii) Enter a postsecondary education or training program focused on leading to integrated employment;

(b) The wages and number of hours worked per pay period;

(c) The impact of employment on any state and federal benefits for individuals with disabilities;

(d) Indicators of the types of settings in which students who previously received transition services primarily reside;

(e) Indicators of improved economic status and self-sufficiency;

(f) Data on those students for whom a postsecondary or integrated employment outcome does not occur within one year of high school graduation, including:

(i) Information on the reasons that the desired outcome has not occurred;

(ii) The number of months the student has not achieved the desired outcome; and

(iii) The efforts made to ensure the student achieves the desired outcome.

~~((3))~~ ~~((4))~~ (4) To the extent that the data elements in subsection ~~((3))~~ (3) of this section are available to the education data center through data-sharing agreements, the office of the superintendent of public instruction must prepare an annual report using existing resources and submit the report to the legislature."

MESSAGE FROM THE SENATE

April 15, 2015

Mr. Speaker:

The Senate has passed ENGROSSED SUBSTITUTE HOUSE BILL NO. 1126 with the following amendment:

Strike everything after the enacting clause and insert the following:

"**NEW SECTION. Sec. 600.** A new section is added to chapter 43.215 RCW to read as follows:

(1) For the purposes of this section, "near fatality" means an act that, as certified by a physician, places the child in serious or critical condition.

(2)(a) The department shall conduct a child fatality review if a child fatality occurs in an early learning program described in RCW 43.215.400 through 43.215.450 or a licensed child care center or a licensed child care home.

(b) The department shall convene a child fatality review committee and determine the membership of the review committee. The committee shall comprise individuals with appropriate expertise, including but not limited to experts from outside the department with knowledge of early learning licensing requirements and program standards, a law enforcement officer with investigative experience, a representative from a county or state health department, and a child advocate with expertise in child fatalities. The department shall invite one parent or guardian for membership on the child fatality review committee who has had a child die in a child care setting. The department shall ensure that the fatality review team is made up of individuals who had no previous involvement in the case.

(c) The department shall allow the parents or guardians whose child's death is being reviewed to testify before the child fatality review committee.

(d) The primary purpose of the fatality review shall be the development of recommendations to the department and legislature regarding changes in licensing requirements, practice, or policy to prevent fatalities and strengthen safety and health protections for children.

(e) Upon conclusion of a child fatality review required pursuant to this section, the department shall, within one hundred eighty days following the fatality, issue a report on the results of the review, unless an extension has been granted by the governor. Reports must be distributed to the appropriate committees of the legislature, and the department shall create a public web site where all child fatality review reports required under this section must be posted and maintained. A child fatality review report completed pursuant to this section is subject to public disclosure and must be posted on the public web site, except that confidential information may be redacted by the department consistent with the requirements of RCW 13.50.100, 68.50.105, and 74.13.500 through 74.13.525, chapter 42.56 RCW, and other applicable state and federal laws.

(3) The department shall consult with the office of the family and children's ombuds to determine if a review should be conducted in the case of a near child fatality that occurs in an early learning program described in RCW 43.215.400 through 43.215.450 or licensed child care center or licensed child care home.

(4) In any review of a child fatality or near fatality, the department and the fatality review team must have access to all records and files regarding the child or that are otherwise relevant to the review and that have been produced or retained by the early

education and assistance program provider or licensed child care center or licensed family home provider.

(5) The child fatality review committee shall coordinate with local law enforcement to ensure that the fatality or near fatality review does not interfere with any ongoing or potential criminal investigation.

(6)(a) A child fatality or near fatality review completed pursuant to this section is subject to discovery in a civil or administrative proceeding, but may not be admitted into evidence or otherwise used in a civil or administrative proceeding except pursuant to this section.

(b) A department employee responsible for conducting a child fatality or near fatality review, or member of a child fatality or near fatality review team, may not be examined in a civil or administrative proceeding regarding the following:

(i) The work of the child fatality or near fatality review team;

(ii) The incident under review;

(iii) The employee's or member's statements, deliberations, thoughts, analyses, or impressions relating to the work of the child fatality or near fatality review team or the incident under review; or

(iv) Statements, deliberations, thoughts, analyses, or impressions of any other member of the child fatality or near fatality review team, or any person who provided information to the child fatality or near fatality review team, relating to the work of the child fatality or near fatality review team or the incident under review.

(c) Documents prepared by or for a child fatality or near fatality review team are inadmissible and may not be used in a civil or administrative proceeding, except that any document that exists before its use or consideration in a child fatality or near fatality review, or that is created independently of such review, does not become inadmissible merely because it is reviewed or used by a child fatality or near fatality review team. A person is not unavailable as a witness merely because the person has been interviewed by or has provided a statement for a child fatality or near fatality review, but if called as a witness, a person may not be examined regarding the person's interactions with the child fatality or near fatality review including, without limitation, whether the person was interviewed during such review, the questions that were asked during such review, and the answers that the person provided during such review. This section may not be construed as restricting a person from testifying fully in any proceeding regarding his or her knowledge of the incident under review.

(d) The restrictions in this section do not apply in a licensing or disciplinary proceeding arising from an agency's effort to revoke or suspend the license of any licensed professional based in whole or in part upon allegations of wrongdoing in connection with a minor's death or near fatality reviewed by a child fatality or near fatality review team.

(7) The department shall develop and implement procedures to carry out the requirements of this section.

(8) Nothing in this section creates a duty for the office of the family and children's ombuds under RCW 43.06A.030 as related to children in the care of an early learning program described in RCW 43.215.400 through 43.215.450, a licensed child care center, or a licensed child care home.

Sec. 601. RCW 43.06A.100 and 2013 c 23 s 80 are each amended to read as follows:

(1) The department of social and health services and the department of early learning shall:

((+)) (a) Allow the ombuds or the ombuds's designee to communicate privately with any child in the custody of the department of social and health services, or any child who is part of a near fatality investigation by the department of early learning, for the purposes of carrying out its duties under this chapter;

((+)) (b) Permit the ombuds or the ombuds designee physical access to state institutions serving children, and state licensed

facilities or residences for the purpose of carrying out its duties under this chapter;

((+)) (c) Upon the ombuds's request, grant the ombuds or the ombuds's designee the right to access, inspect, and copy all relevant information, records, or documents in the possession or control of the department of social and health services or the department of early learning that the ombuds considers necessary in an investigation; and

((+)) (d) Grant the office of the family and children's ombuds unrestricted online access to the child welfare case ((and)) management information system ((CAMIS) or any successor) and the department of early learning data information system for the purpose of carrying out its duties under this chapter.

(2) For the purposes of this section, "near fatality" means an act that, as certified by a physician, places the child in serious or critical condition.

(3) Nothing in this section creates a duty for the office of the family and children's ombuds under RCW 43.06A.030 as related to children in the care of an early learning program described in RCW 43.215.400 through 43.215.450, a licensed child care center, or a licensed child care home.

ENGROSSED SUBSTITUTE HOUSE BILL NO. 1126, as amended by the Senate, having received the necessary constitutional majority, was declared passed.

MESSAGE FROM THE SENATE

April 21, 2015

Mr. Speaker:

The Senate has passed SUBSTITUTE HOUSE BILL NO. 1240 with the following amendment:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 603. The legislature finds that there is no educational or therapeutic benefit to children from physically restraining or isolating them as part of their public school programs when not necessary for immediate safety. The use of seclusion or restraints in nonemergency situations poses significant physical and psychological danger to students and school staff. The legislature declares that it is the policy of the state of Washington to prohibit the planned use of aversive interventions, to promote positive interventions when a student with disabilities is determined to need specially designed instruction to address behavior, and to prohibit schools from physically restraining or isolating any student except when the student's behavior poses an imminent likelihood of serious harm to that student or another person.

Sec. 604. RCW 28A.155.020 and 2007 c 115 s 2 are each amended to read as follows:

There is established in the office of the superintendent of public instruction an administrative section or unit for the education of children with disabilities who require special education.

Students with disabilities are those children whether enrolled in school or not who through an evaluation process are determined eligible for special education due to a disability.

In accordance with part B of the federal individuals with disabilities education improvement act and any other federal or state laws relating to the provision of special education services, the superintendent of public instruction shall require each school district in the state to insure an appropriate educational opportunity for all children with disabilities between the ages of three and twenty-one, but when the twenty-first birthday occurs during the school year, the educational program may be continued until the end of that school year. The superintendent of public instruction, by rule, shall establish for the purpose of excess cost funding, as provided in RCW 28A.150.390, 28A.160.030, and 28A.155.010 through 28A.155.160, functional definitions of special education, the various types of disabling conditions, and eligibility criteria for special education programs for children with disabilities, including referral procedures, use of ~~((aversive))~~ positive behavior interventions, the education curriculum and statewide or district-wide assessments, parent and district requests for special education due process hearings, and procedural safeguards. For the purposes of RCW 28A.155.010 through 28A.155.160, an appropriate education is defined as an education directed to the unique needs, abilities, and limitations of the children with disabilities who are enrolled either full time or part time in a school district. School districts are strongly encouraged to provide parental training in the care and education of the children and to involve parents in the classroom.

Nothing in this section shall prohibit the establishment or continuation of existing cooperative programs between school districts or contracts with other agencies approved by the superintendent of public instruction, which can meet the obligations of school districts to provide education for children with disabilities, or prohibit the continuation of needed related services to school districts by the department of social and health services.

This section shall not be construed as in any way limiting the powers of local school districts set forth in RCW 28A.155.070.

Sec. 605. RCW 28A.600.485 and 2013 c 202 s 2 are each amended to read as follows:

(1) The definitions in this subsection apply throughout this section unless the context clearly requires otherwise.

(a) "Isolation" means ~~((excluding a student from his or her regular instructional area and))~~ restricting the student alone within a room or any other form of enclosure, from which the student may not leave. It does not include a student's voluntary use of a quiet space for self-calming, or temporary removal of a student from his or her regular instructional area to an unlocked area for purposes of carrying out an appropriate positive behavior intervention plan.

(b) "Restraint" means physical intervention or force used to control a student, including the use of a restraint device to restrict a student's freedom of movement. It does not include appropriate use of a prescribed medical, orthopedic, or therapeutic device when used as intended, such as to achieve proper body position, balance, or alignment, or to permit a student to safely participate in activities.

(c) "Restraint device" means a device used to assist in controlling a student, including but not limited to metal handcuffs, plastic ties, ankle restraints, leather cuffs, other hospital-type restraints, pepper spray, tasers, or batons. Restraint device does not mean a seat harness used to safely transport students. This section shall not be construed as encouraging the use of these devices.

(2) The provisions of this section apply ~~((only to any restraint of a student who has an individualized education program or plan developed under section 504 of the rehabilitation act of 1973 that results in a physical injury to a student or a staff member, any restraint of a student who has an individualized education program or plan developed under section 504 of the rehabilitation act of 1973, and any isolation of a student who has))~~ to all students, including those who have an individualized education program or plan developed under section 504 of the rehabilitation act of 1973. The provisions of this section apply only to incidents of restraint or isolation that occur while a student ~~((who has an individualized education program or plan developed under section 504 of the rehabilitation act of 1973))~~ is participating in school-sponsored instruction or activities.

(3)(a) An individualized education program or plan developed under section 504 of the rehabilitation act of 1973 must not include the use of restraint or isolation as a planned behavior intervention unless a student's individual needs require more specific advanced educational planning and the student's parent or guardian agrees. All other plans may refer to the district policy developed under subsection (3)(b) of this section. Nothing in this section is intended to limit the provision of a free appropriate public education under Part B of the federal individuals with disabilities education improvement act or section 504 of the federal rehabilitation act of 1973.

(b) Restraint or isolation of any student is permitted only when reasonably necessary to control spontaneous behavior that poses an imminent likelihood of serious harm, as defined in RCW 70.96B.010. Restraint or isolation must be closely monitored to prevent harm to the student, and must be discontinued as soon as the likelihood of serious harm has dissipated. Each school district shall adopt a policy providing for the least amount of restraint or isolation appropriate to protect the safety of students and staff under such circumstances.

(4) Following the release of a student from the use of restraint or isolation, the school must implement follow-up procedures. These procedures must include: (a) Reviewing the incident with the student and the parent or guardian to address the behavior that precipitated the restraint or isolation and the appropriateness of the response; and (b) reviewing the incident with the staff member who administered the restraint or isolation to discuss whether proper procedures were followed and what training or support the staff member needs to help the student avoid similar incidents.

~~((4))~~ (5) Any school employee, resource officer, or school security officer who uses ~~((any chemical spray, mechanical))~~ isolation or restraint ~~((or physical force))~~ on a student during school-sponsored instruction or activities must inform the building administrator or building administrator's designee as soon as possible, and within two business days submit a written report of the incident to the district office. The written report ~~((should))~~ must include, at a minimum, the following information:

- (a) The date and time of the incident;
- (b) The name and job title of the individual who administered the restraint or isolation;
- (c) A description of the activity that led to the restraint or isolation;
- (d) The type of restraint or isolation used on the student, including the duration; ~~((and))~~
- (e) Whether the student or staff was physically injured during the restraint or isolation incident and any medical care provided; and
- (f) Any recommendations for changing the nature or amount of resources available to the student and staff members in order to avoid similar incidents.

~~((5))~~ (6) The principal or principal's designee must make a reasonable effort to verbally inform the student's parent or guardian within twenty-four hours of the incident, and must send written notification as soon as practical but postmarked no later than five business days after the restraint or isolation occurred. If the school or school district customarily provides the parent or guardian with school-related information in a language other than English, the written report under this section must be provided to the parent or guardian in that language.

(7)(a) Beginning January 1, 2016, and by January 1st annually, each school district shall summarize the written reports received under subsection (5) of this section and submit the summaries to the office of the superintendent of public instruction. For each school, the school district shall include the number of individual incidents of restraint and isolation, the number of students involved in the incidents, the number of injuries to students and staff, and the types of restraint or isolation used.

(b) No later than ninety days after receipt, the office of the superintendent of public instruction shall publish to its web site the data received by the districts. The office of the superintendent of public instruction may use this data to investigate the training, practices, and other efforts used by schools and districts to reduce the use of restraint and isolation."

On page 1, line 2 of the title, after "schools;" strike the remainder of the title and insert "amending RCW 28A.155.020 and 28A.600.485; and creating a new section."

MESSAGE FROM THE SENATE

April 15, 2015

Mr. Speaker:

The Senate has passed HOUSE BILL NO. 1389 with the following amendment:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 606. The legislature recognizes the vital role that our state's fire service personnel play in responding not just to fires but to disasters of varying types and kinds. The legislature further recognizes that the fire service mobilization plan may be a more effective tool for use in all emergencies and disasters to which fire departments, fire districts, and regional fire protection service authorities typically respond. It is the intent of the legislature that state fire service mobilization be allowed in all incidents to which fire departments, fire districts, and regional fire protection service authorities typically respond, so long as the mobilization meets the requirements identified in the Washington state fire service mobilization plan. It is the intent of the legislature to review the use of the fire mobilization plan for emergencies and disasters other than fire suppression to determine if this policy should continue or be modified.

Sec. 607. RCW 43.43.960 and 2003 c 405 s 1 are each amended to read as follows:

Unless the context clearly requires otherwise, the definitions in this section apply throughout this subchapter.

(1) "Chief" means the chief of the Washington state patrol.

(2) "State fire marshal" means the director of fire protection in the Washington state patrol.

(3) "Fire chief" includes the chief officer of a statutorily authorized fire agency, or the fire chief's authorized representative. Also included are the department of natural resources fire control chief, and the department of natural resources regional managers.

(4) "Jurisdiction" means state, county, city, fire district, regional fire protection service authority, or port district (~~firefighting~~) units, or other units covered by this chapter.

(5) "Mobilization" means that (~~firefighting~~) all risk resources regularly provided by fire departments, fire districts, and regional fire protection service authorities beyond those available through existing agreements will be requested and, when available, sent in response to an emergency or disaster situation that has exceeded the capabilities of available local resources. During a large scale emergency, mobilization includes the redistribution of regional or statewide (~~firefighting~~) risk resources to either direct emergency incident assignments or to assignment in communities where (~~firefighting~~) resources are needed. Fire department resources may not be mobilized to assist law enforcement with police activities during a civil protest or demonstration, however, fire departments, fire districts, and regional fire protection service authorities are not restricted from providing medical care or aid and firefighting when mobilized for any purpose.

When mobilization is declared and authorized as provided in this chapter, all (~~firefighting~~) risk resources regularly provided by fire departments, fire districts, and regional fire protection service authorities including those of the host fire protection authorities, i.e. incident jurisdiction, shall be deemed as mobilized under this chapter, including those that responded earlier under existing mutual aid or other agreement. All nonhost fire protection authorities providing (~~firefighting~~) resources in response to a mobilization declaration shall be eligible for expense reimbursement as provided by this chapter from the time of the mobilization declaration.

This chapter shall not reduce or suspend the authority or responsibility of the department of natural resources under chapter 76.04 RCW.

(6) "Mutual aid" means emergency interagency assistance provided without compensation under an agreement between jurisdictions under chapter 39.34 RCW.

(7) "All risk resources" means those resources regularly provided by fire departments, fire districts, and regional fire protection service authorities required to respond to natural or man-made incidents, including but not limited to:

- (a) Wild land fires;
- (b) Landslides;
- (c) Earthquakes;
- (d) Floods; and
- (e) Contagious diseases.

Sec. 608. RCW 43.43.961 and 2003 c 405 s 2 are each amended to read as follows:

Because of the possibility of the occurrence of disastrous fires or other disasters of unprecedented size and destructiveness, the need to insure that the state is adequately prepared to respond to such a fire or disaster, the need to establish a mechanism and a procedure to provide for reimbursement to state agencies and local (~~firefighting~~) agencies that respond to help others in time of need or to a host fire district that experiences expenses beyond the resources of the fire district, and generally to protect the public peace, health, safety, lives, and property of the people of Washington, it is hereby declared necessary to:

(1) Provide the policy and organizational structure for large scale mobilization of (~~firefighting~~) all risk resources in the state through creation of the Washington state fire services mobilization plan;

(2) Confer upon the chief the powers provided herein;

(3) Provide a means for reimbursement to state agencies and local fire jurisdictions that incur expenses when mobilized by the chief under the Washington state fire services mobilization plan; and

(4) Provide for reimbursement of the host fire department or fire protection district when it has: (a) Exhausted all of its resources; and (b) invoked its local mutual aid network and exhausted those resources. Upon implementation of state fire mobilization, the host district resources shall become state fire mobilization resources consistent with the fire mobilization plan.

It is the intent of the legislature that mutual aid and other interlocal agreements providing for enhanced emergency response be encouraged as essential to the public peace, safety, health, and welfare, and for the protection of the lives and property of the people of the state of Washington. If possible, mutual aid agreements should be without stated limitations as to resources available, time, or area. Nothing in this chapter shall be construed or interpreted to limit the eligibility of any nonhost fire protection authority for reimbursement of expenses incurred in providing (~~firefighting~~) all risk resources for mobilization provided that the mobilization must meet the requirements identified in the Washington state fire service mobilization plan.

NEW SECTION. Sec. 609. A new section is added to chapter 43.43 RCW to read as follows:

The chief of the Washington state patrol must report on an annual basis the following information for each emergency or disaster in which the Washington state fire service mobilization plan was used for purposes other than fire suppression, and reimbursement was made under RCW 43.43.961:

- (1) The type and nature of the disaster or emergency;
- (2) The reasons why the host jurisdiction and mutual aid resources were exhausted;
- (3) The additional risk resources provided under the mobilization plan;
- (4) The cost incurred by the state patrol;
- (5) The amount of reimbursement made under RCW 43.43.961 to the host jurisdiction and to each nonhost jurisdiction providing all risk resources; and

(6) An assessment and any recommendations of actions that can be taken by the host jurisdiction and its mutual aid network to prevent future use of the fire mobilization plan for similar disasters or emergencies.

NEW SECTION. Sec. 610. This act expires July 1, 2019."

On page 1, line 3 of the title, after "policies;" strike the remainder of the title and insert "amending RCW 43.43.960 and 43.43.961; adding a new section to chapter 43.43 RCW; creating a new section; and providing an expiration date."

SUBSTITUTE HOUSE BILL NO. 1503, as amended by the Senate, having received the necessary constitutional majority, was declared passed.

MESSAGE FROM THE SENATE

April 15, 2015

Mr. Speaker:

The Senate has passed ENGROSSED SECOND SUBSTITUTE HOUSE BILL NO. 1546 with the following amendment:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 614. The legislature finds that Washington has been a front-runner in dual credit innovation through the establishment of the running start and college in the high school programs, and has continued to expand student choices in dual credit programs.

In Washington, a range of dual credit or dual enrollment programs are available to students. Dual credit programs, such as running start, college in the high school, tech prep (course completion options), and AP and international baccalaureate and Cambridge (standardized exam options) offer academically prepared students the opportunity to earn college credits while still in high school. Students who participate in these programs achieve improved high school graduation rates and are more likely to continue on to college and complete a degree. In addition, dual credit and dual enrollment programs support students' individual college and career pathways.

The legislature further finds that through the development and implementation of the 2013 roadmap the student achievement council has identified key barriers that limit access to dual credit programs, particularly for low-income students. Removing these barriers is a critical step toward achieving the state educational attainment goals outlined in the roadmap.

The legislature recognizes that the decision to enroll in a dual credit program should be made by the student and the student's parents or guardians, in consultation with counselors or academic advisors, and based on the academic, cultural, and developmental needs and college and career goals of the student. The decision to choose one dual credit option over another should not be based on the difference in the costs of one option over another.

In the college in the high school program, credit is awarded based on successful course completion and ability to pay tuition and fees. Under the current college in the high school system, some

students may successfully complete the course but do not receive credit because they are unable to pay.

Students in the running start program face a different but equally challenging situation. Students in the running start program do not receive funding for books and transportation costs. These financial barriers decrease opportunities for lower income students to benefit from dual credit programs.

Therefore, the legislature intends to increase opportunities for academically prepared high school students to earn up to two years of college credit through dual credit programs, and to reduce disparities in access to, and completion of, these programs. This act provides a new funding model to support tuition in the college in the high school program, and provides flexibility in the academic acceleration incentive program to assist students with transportation and book expenses associated with the running start program. It is the intent of the legislature, once this new funding model is enacted and operational, to establish a distinction between the college in the high school program as a program occurring in high schools and the running start program as a program occurring on a college campus.

The legislature finds that dual credit opportunities are a valuable means of supporting students on their way to successful completion of college and career pathways. The legislature seeks additional recommendations to mitigate financial and other barriers for students enrolled in the running start program, and dual credit programs based on standardized exams.

Sec. 615. RCW 28A.320.196 and 2013 c 184 s 3 are each amended to read as follows:

(1) Subject to funds appropriated specifically for this purpose, the academic acceleration incentive program is established as provided in this section. The intent of the legislature is that the funds awarded under the program be used to support teacher training, curriculum, technology, examination fees, textbook fees, and other costs associated with offering dual credit courses to high school students, including transportation for running start students to and from the institution of higher education as defined in RCW 28A.600.300.

(2) The office of the superintendent of public instruction shall allocate half of the funds appropriated for the purposes of this section on a competitive basis to provide one-time grants for high schools to expand the availability of dual credit courses. To be eligible for a grant, a school district must have adopted an academic acceleration policy as provided under RCW 28A.320.195. In making grant awards, the office of the superintendent of public instruction must give priority to grants for high schools with a high proportion of low-income students and high schools seeking to develop new capacity for dual credit courses rather than proposing marginal expansion of current capacity.

(3) The office of the superintendent of public instruction shall allocate half of the funds appropriated for the purposes of this section to school districts as an incentive award for each student who earned dual high school and college credit, as described under subsection (4) of this section, for courses offered by the district's high schools during the previous school year. School districts must distribute the award to the high schools that generated the funds. The award amount for low-income students eligible to participate in the federal free and reduced-price meals program who earn dual credits must be set at one hundred twenty-five percent of the base award for other students. A student who earns more than one dual credit in the same school year counts only once for the purposes of the incentive award.

(4) For the purposes of this section, the following students are considered to have earned dual high school and college credit in a course offered by a high school:

(a) Students who achieve a score of three or higher on an AP examination;

(b) Students who achieve a score of four or higher on an examination of the international baccalaureate diploma programme;

(c) Students who successfully complete a Cambridge advanced international certificate of education examination;

(d) Students who successfully complete a course through the college in the high school program under RCW 28A.600.290 and are awarded credit by the partnering institution of higher education; and

(e) Students who satisfy the dual enrollment and class performance requirements to earn college credit through a tech prep course.

(5) If a high school provides access to online courses for students to earn dual high school and college credit at no cost to the student, such a course is considered to be offered by the high school. ~~((Students enrolled in the running start program under RCW 28A.600.300 do not generate an incentive award under this section.))~~

(6) The office of the superintendent of public instruction shall report to the education policy committees and the fiscal committees of the legislature, by January 1st of each year, information about the demographics of the students earning dual credits in the schools receiving grants under this section for the prior school year. Demographic data shall be disaggregated pursuant to RCW 28A.300.042.

Sec. 616. RCW 28A.600.290 and 2012 c 229 s 801 are each amended to read as follows:

(1) ~~((The superintendent of public instruction, the state board for community and technical colleges, and the public baccalaureate institutions shall jointly develop and each adopt rules governing the college in the high school program. The association of Washington school principals shall be consulted during the rules development. The rules shall be written to encourage the maximum use of the program and may not narrow or limit the enrollment options.~~

(2)) (a) Subject to the availability of amounts appropriated for this specific purpose and commencing with the 2015-16 school year, funding may be allocated at an amount per college credit for eleventh and twelfth grade students or students who have not yet received a high school diploma or its equivalent and are eligible to be in the eleventh or twelfth grade who are enrolled in college in the high school courses under this section as specified in the omnibus appropriations act and adjusted for inflation from the 2015-16 school year. The maximum annual number of allocated credits per participating student shall be specified in the omnibus appropriations act, which must not exceed ten credits. Funding shall be prioritized in the following order:

(i) High schools offering a running start in the high school program in school year 2014-15. These schools shall only receive prioritized funding in school year 2015-16;

(ii) Students whose residence or the high school in which they are enrolled is located twenty driving miles or more as measured by the most direct route from the nearest eligible institution of higher education offering a running start program, whichever is greater; and

(iii) High schools eligible for the small school funding enhancement in the omnibus appropriations act.

(b)(i) Subject to the availability of amounts appropriated for this specific purpose and commencing with the 2015-16 school year, and only after the programs in (a) of this subsection are funded, a subsidy may be provided per college credit for eleventh and twelfth grade students or students who have not yet received a high school diploma or its equivalent and are eligible to be in the eleventh or twelfth grade who have been deemed eligible for free or reduced-price lunch and are enrolled in college in the high school courses under this section as specified in the omnibus appropriations act and adjusted for inflation from the 2015-16 school year. The maximum annual number of subsidized credits per participating student shall

be specified in the omnibus appropriations act, which must not exceed five credits.

(ii) Districts wishing to participate in the subsidy program must apply to the office of the superintendent of public instruction by July 1st of each year and report the preliminary estimate of eligible students to receive the subsidy and the total number of projected credit hours.

(iii) The office of the superintendent of public instruction shall notify districts by September 1st of each school year if the district's students will receive the subsidy. If more districts apply than funding is available, the office of the superintendent of public instruction shall prioritize the district applications. The superintendent shall develop factors to determine priority including, but not limited to, the number of dual credit opportunities available for low-income students in the districts.

(c) Districts shall remit any allocations or subsidies on behalf of participating students under (a) and (b) of this subsection to the participating institution of higher education and those students shall not be required to pay for the credits.

(d) The minimum allocation and subsidy under this section is sixty-five dollars per quarter credit for credit-bearing postsecondary coursework. The office of the superintendent of public instruction, the student achievement council, the state board for community and technical colleges, and the public baccalaureate institutions shall review funding levels for the program every four years beginning in 2017 and recommend changes.

(e) Students may pay college in the high school fees with advanced college tuition payment program tuition units at a rate set by the advanced college tuition payment program governing body under chapter 28B.95 RCW.

(2) For the purposes of funding students enrolled in the college in the high school program in accordance with subsection (1) of this section, college in the high school is defined as a dual credit program located on a high school campus or in a high school environment in which a high school student is able to earn both high school and postsecondary credit by completing postsecondary level courses with a passing grade.

(3) College in the high school programs may include both academic and career and technical education.

(4) College in the high school programs shall each be governed by a local contract between the district and the participating institution of higher education, in compliance with the ~~((guidelines adopted by the superintendent of public instruction, the state board for community and technical colleges, and the public baccalaureate institutions))~~ rules adopted by the superintendent of public instruction under this section.

~~((3))~~ (5) The college in the high school program must include the provisions in this subsection.

(a) The high school and participating institution of higher education together shall define the criteria for student eligibility. The institution of higher education may charge tuition fees to participating students. If specific funding is provided in the omnibus appropriations act for the per credit allocations and per credit subsidies under subsection (1) of this section, the maximum per credit fee charged to any enrolled student may not exceed the amount of the per credit allocation or subsidy.

~~(b) ((School districts shall report no student for more than one full-time equivalent including college in the high school courses.~~

~~((b))~~ The funds received by the participating institution of higher education may not be deemed tuition or operating fees and may be retained by the institution of higher education.

~~((4))~~ (c) Enrollment information on persons registered under this section must be maintained by the institution of higher education separately from other enrollment information and may not be included in official enrollment reports, nor may such persons be

considered in any enrollment statistics that would affect higher education budgetary determinations.

~~((e))~~ (d) A school district must grant high school credit to a student enrolled in a program course if the student successfully completes the course. If no comparable course is offered by the school district, the school district superintendent shall determine how many credits to award for the course. The determination shall be made in writing before the student enrolls in the course. The credits shall be applied toward graduation requirements and subject area requirements. Evidence of successful completion of each program course shall be included in the student's secondary school records and transcript.

~~((f) A))~~ (e) A participating institution of higher education must grant college credit to a student enrolled in a program course if the student successfully completes the course. The college credit shall be applied toward general education requirements or ~~((major requirements. If no comparable course is offered by the college, the institution of higher education at which the teacher of the program course is employed shall determine how many credits to award for the course and whether the course fulfills general education or major))~~ degree requirements at institutions of higher education. Evidence of successful completion of each program course must be included in the student's college transcript.

~~((g))~~ (f) Tenth, eleventh, and twelfth grade students or students who have not yet received a high school diploma or its equivalent and are eligible to be in the tenth, eleventh, or twelfth grades may participate in the college in the high school program.

~~((h))~~ (g) Participating school districts must provide general information about the college in the high school program to all students in grades ~~((ten, eleven, and))~~ nine through twelve and to the parents and guardians of those students.

~~((i))~~ (h) Full-time and part-time faculty at institutions of higher education, including adjunct faculty, are eligible to teach program courses.

~~((j))~~ (6) The superintendent of public instruction shall adopt rules for the administration of this section. The rules shall be jointly developed by the superintendent of public instruction, the state board for community and technical colleges, the student achievement council, and the public baccalaureate institutions. The association of Washington school principals must be consulted during the rules development. The rules must outline quality and eligibility standards that are informed by nationally recognized standards or models. In addition, the rules must encourage the maximum use of the program and may not narrow or limit the enrollment options.

(7) The definitions in this subsection apply throughout this section.

(a) "Institution of higher education" has the ~~((meaning))~~ definition in RCW 28B.10.016, and also includes a public tribal college located in Washington and accredited by the Northwest commission on colleges and universities or another accrediting association recognized by the United States department of education.

(b) "Program course" means a college course offered in a high school under the college in the high school program.

Sec. 617. RCW 28A.600.310 and 2012 c 229 s 702 are each amended to read as follows:

(1)(a) Eleventh and twelfth grade students or students who have not yet received the credits required for the award of a high school diploma and are eligible to be in the eleventh or twelfth grades may apply to a participating institution of higher education to enroll in courses or programs offered by the institution of higher education.

(b) The course sections and programs offered as running start courses must also be open for registration to matriculated students at the participating institution of higher education and may not be a

course consisting solely of high school students offered at a high school campus.

(c) A student receiving home-based instruction enrolling in a public high school for the sole purpose of participating in courses or programs offered by institutions of higher education shall not be counted by the school district in any required state or federal accountability reporting if the student's parents or guardians filed a declaration of intent to provide home-based instruction and the student received home-based instruction during the school year before the school year in which the student intends to participate in courses or programs offered by the institution of higher education. Students receiving home-based instruction under chapter 28A.200 RCW and students attending private schools approved under chapter 28A.195 RCW shall not be required to meet the student learning goals, obtain a certificate of academic achievement or a certificate of individual achievement to graduate from high school, or to master the essential academic learning requirements. However, students are eligible to enroll in courses or programs in participating universities only if the board of directors of the student's school district has decided to participate in the program. Participating institutions of higher education, in consultation with school districts, may establish admission standards for these students. If the institution of higher education accepts a secondary school pupil for enrollment under this section, the institution of higher education shall send written notice to the pupil and the pupil's school district within ten days of acceptance. The notice shall indicate the course and hours of enrollment for that pupil.

(2)(a) In lieu of tuition and fees, as defined in RCW 28B.15.020 and 28B.15.041:

(i) Running start students shall pay to the community or technical college all other mandatory fees as established by each community or technical college and, in addition, the state board for community and technical colleges may authorize a fee of up to ten percent of tuition and fees as defined in RCW 28B.15.020 and 28B.15.041; and

(ii) All other institutions of higher education operating a running start program may charge running start students a fee of up to ten percent of tuition and fees as defined in RCW 28B.15.020 and 28B.15.041 in addition to technology fees.

(b) The fees charged under this subsection (2) shall be prorated based on credit load.

(c) Students may pay fees under this subsection with advanced college tuition payment program tuition units at a rate set by the advanced college tuition payment program governing body under chapter 28B.95 RCW.

(3)(a) The institutions of higher education must make available fee waivers for low-income running start students. Each institution must establish a written policy for the determination of low-income students before offering the fee waiver. A student shall be considered low income and eligible for a fee waiver upon proof that the student is currently qualified to receive free or reduced-price lunch. Acceptable documentation of low-income status may also include, but is not limited to, documentation that a student has been deemed eligible for free or reduced-price lunches in the last five years, or other criteria established in the institution's policy.

(b) Institutions of higher education, in collaboration with relevant student associations, shall aim to have students who can benefit from fee waivers take advantage of these waivers. Institutions shall make every effort to communicate to students and their families the benefits of the waivers and provide assistance to students and their families on how to apply. Information about waivers shall, to the greatest extent possible, be incorporated into financial aid counseling, admission information, and individual billing statements. Institutions also shall, to the greatest extent possible, use all means of communication, including but not limited to web sites, online catalogues, admission and registration forms,

mass email messaging, social media, and outside marketing to ensure that information about waivers is visible, compelling, and reaches the maximum number of students and families that can benefit.

(4) The pupil's school district shall transmit to the institution of higher education an amount per each full-time equivalent college student at statewide uniform rates for vocational and nonvocational students. The superintendent of public instruction shall separately calculate and allocate moneys appropriated for basic education under RCW 28A.150.260 to school districts for purposes of making such payments and for granting school districts seven percent thereof to offset program related costs. The calculations and allocations shall be based upon the estimated statewide annual average per full-time equivalent high school student allocations under RCW 28A.150.260, excluding small high school enhancements, and applicable rules adopted under chapter 34.05 RCW. The superintendent of public instruction, participating institutions of higher education, and the state board for community and technical colleges shall consult on the calculation and distribution of the funds. The funds received by the institution of higher education from the school district shall not be deemed tuition or operating fees and may be retained by the institution of higher education. A student enrolled under this subsection shall be counted for the purpose of meeting enrollment targets in accordance with terms and conditions specified in the omnibus appropriations act.

~~((5) The state board for community and technical colleges, in collaboration with the other institutions of higher education that participate in the running start program and the office of the superintendent of public instruction, shall identify, assess, and report on alternatives for providing ongoing and adequate financial support for the program. Such alternatives shall include but are not limited to student tuition, increased support from local school districts, and reallocation of existing state financial support among the community and technical college system to account for differential running start enrollment levels and impacts. The state board for community and technical colleges shall report the assessment of alternatives to the governor and to the appropriate fiscal and policy committees of the legislature by September 1, 2010.))~~

Sec. 618. RCW 28B.95.020 and 2012 c 229 s 606 are each reenacted and amended to read as follows:

~~((6))~~ (7) "Eligible purchaser" means an individual or organization that has entered into a tuition unit contract with the governing body for the purchase of tuition units for an eligible beneficiary. (c) The number of tuition units necessary to pay for a full year's, full-time undergraduate tuition and fee charges at a state institution of higher education shall be set by the governing body at the time a purchaser enters into a tuition unit contract.

(d) The governing body may limit the number of tuition units purchased by any one purchaser or on behalf of any one beneficiary, however, no limit may be imposed that is less than that necessary to achieve four years of full-time, undergraduate tuition charges at a state institution of higher education. The governing body also may, at its discretion, limit the number of participants, if needed, to ensure the actuarial soundness and integrity of the program.

(e) While the Washington advanced college tuition payment program is designed to help all citizens of the state of Washington, the governing body may determine residency requirements for eligible purchasers and eligible beneficiaries to ensure the actuarial soundness and integrity of the program.

(5) The governing body shall administer the Washington advanced college tuition payment program in a manner reasonably designed to be actuarially sound, such that the assets of the trust will be sufficient to defray the obligations of the trust including the costs of administration. The governing body may, at its discretion, discount the minimum purchase price for certain kinds of purchases such as those from families with young children, as long as the actuarial soundness of the account is not jeopardized.

(6) The governing body shall annually determine current value of a tuition unit.

(7) The governing body shall promote, advertise, and publicize the Washington advanced college tuition payment program.

(8) In addition to any other powers conferred by this chapter, the governing body may:

(a) Impose reasonable limits on the number of tuition units or units that may be used in any one year;

(b) Determine and set any time limits, if necessary, for the use of benefits under this chapter;

(c) Impose and collect administrative fees and charges in connection with any transaction under this chapter;

HOUSE BILL NO. 1599, as amended by the Senate, having received the necessary constitutional majority, was declared passed.

MESSAGE FROM THE SENATE

April 21, 2015

Mr. Speaker:

The Senate has passed ENGROSSED SUBSTITUTE HOUSE BILL NO. 1671 with the following amendment:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 622. (1) The legislature intends to reduce the number of lives lost to drug overdoses by encouraging the prescription, dispensing, and administration of opioid overdose medications.

(2) Overdoses of opioids, such as heroin and prescription painkillers, cause brain injury and death by slowing and eventually stopping a person's breathing. Since 2012, drug poisoning deaths in the United States have risen six percent, and deaths involving heroin have increased a staggering thirty-nine percent. In Washington state, the annual number of deaths involving heroin or prescription opiates increased from two hundred fifty-eight in 1995 to six hundred fifty-one in 2013. Over this period, a total of nine thousand four hundred thirty-nine people died from opioid-related drug overdoses. Opioid-related drug overdoses are a statewide phenomenon.

(3) When administered to a person experiencing an opioid-related drug overdose, an opioid overdose medication can save the person's life by restoring respiration. Increased access to opioid overdose medications reduced the time between when a victim is discovered and when he or she receives lifesaving assistance. Between 1996 and 2010, lay people across the country reversed over ten thousand overdoses.

(4) The legislature intends to increase access to opioid overdose medications by permitting health care practitioners to

administer, prescribe, and dispense, directly or by collaborative drug therapy agreement or standing order, opioid overdose medication to any person who may be present at an overdose - law enforcement, emergency medical technicians, family members, or service providers - and to permit those individuals to possess and administer opioid overdose medications prescribed by an authorized health care provider.

NEW SECTION. Sec. 623. A new section is added to chapter 69.41 RCW to read as follows:

(1)(a) A practitioner may prescribe, dispense, distribute, and deliver an opioid overdose medication: (i) Directly to a person at risk of experiencing an opioid-related overdose; or (ii) by collaborative drug therapy agreement, standing order, or protocol to a first responder, family member, or other person or entity in a position to assist a person at risk of experiencing an opioid-related overdose. Any such prescription or protocol order is issued for a legitimate medical purpose in the usual course of professional practice.

(b) At the time of prescribing, dispensing, distributing, or delivering the opioid overdose medication, the practitioner shall inform the recipient that as soon as possible after administration of the opioid overdose medication, the person at risk of experiencing an opioid-related overdose should be transported to a hospital or a first responder should be summoned.

(2) A pharmacist may dispense an opioid overdose medication pursuant to a prescription issued in accordance with this section and may administer an opioid overdose medication to a person at risk of experiencing an opioid-related overdose. At the time of dispensing an opioid overdose medication, a pharmacist shall provide written instructions on the proper response to an opioid-related overdose, including instructions for seeking immediate medical attention. The instructions to seek immediate medication attention must be conspicuously displayed.

(3) Any person or entity may lawfully possess, store, deliver, distribute, or administer an opioid overdose medication pursuant to a prescription or order issued by a practitioner in accordance with this section.

(4) The following individuals, if acting in good faith and with reasonable care, are not subject to criminal or civil liability or disciplinary action under chapter 18.130 RCW for any actions authorized by this section or the outcomes of any actions authorized by this section:

(a) A practitioner who prescribes, dispenses, distributes, or delivers an opioid overdose medication pursuant to subsection (1) of this section;

(b) A pharmacist who dispenses an opioid overdose medication pursuant to subsection (2) of this section;

(c) A person who possesses, stores, distributes, or administers an opioid overdose medication pursuant to subsection (3) of this section.

(5) For purposes of this section, the following terms have the following meanings unless the context clearly requires otherwise:

(a) "First responder" means: (i) A career or volunteer firefighter, law enforcement officer, paramedic as defined in RCW 18.71.200, or first responder or emergency medical technician as defined in RCW 18.73.030; and (ii) an entity that employs or supervises an individual listed in (a)(i) of this subsection, including a volunteer fire department.

(b) "Opioid overdose medication" means any drug used to reverse an opioid overdose that binds to opioid receptors and blocks or inhibits the effects of opioids acting on those receptors. It does not include intentional administration via the intravenous route.

(c) "Opioid-related overdose" means a condition including, but not limited to, extreme physical illness, decreased level of consciousness, respiratory depression, coma, or death that: (i) Results from the consumption or use of an opioid or another

substance with which an opioid was combined; or (ii) a lay person would reasonably believe to be an opioid-related overdose requiring medical assistance.

(d) "Practitioner" means a health care practitioner who is authorized under RCW 69.41.030 to prescribe legend drugs.

(e) "Standing order" or "protocol" means written or electronically recorded instructions, prepared by a prescriber, for distribution and administration of a drug by designated and trained staff or volunteers of an organization or entity, as well as other actions and interventions to be used upon the occurrence of clearly defined clinical events in order to improve patients' timely access to treatment.

Sec. 624. RCW 69.41.040 and 2003 c 53 s 324 are each amended to read as follows:

(1) A prescription, in order to be effective in legalizing the possession of legend drugs, must be issued for a legitimate medical purpose by one authorized to prescribe the use of such legend drugs. Except as provided in section 2 of this act, an order purporting to be a prescription issued to a drug abuser or habitual user of legend drugs, not in the course of professional treatment, is not a prescription within the meaning and intent of this section; and the person who knows or should know that he or she is filling such an order, as well as the person issuing it, may be charged with violation of this chapter. A legitimate medical purpose shall include use in the course of a bona fide research program in conjunction with a hospital or university.

(2) A violation of this section is a class B felony punishable according to chapter 9A.20 RCW.

Sec. 625. RCW 69.50.315 and 2010 c 9 s 2 are each amended to read as follows:

(1)~~((a))~~ A person acting in good faith who seeks medical assistance for someone experiencing a drug-related overdose shall not be charged or prosecuted for possession of a controlled substance pursuant to RCW 69.50.4013, or penalized under RCW 69.50.4014, if the evidence for the charge of possession of a controlled substance was obtained as a result of the person seeking medical assistance.

~~((b) A person acting in good faith may receive a naloxone prescription, possess naloxone, and administer naloxone to an individual suffering from an apparent opiate-related overdose.)~~

(2) A person who experiences a drug-related overdose and is in need of medical assistance shall not be charged or prosecuted for possession of a controlled substance pursuant to RCW 69.50.4013, or penalized under RCW 69.50.4014, if the evidence for the charge of possession of a controlled substance was obtained as a result of the overdose and the need for medical assistance.

(3) The protection in this section from prosecution for possession crimes under RCW 69.50.4013 shall not be grounds for suppression of evidence in other criminal charges.

NEW SECTION. Sec. 626. RCW 18.130.345 (Naloxone—Administering, dispensing, prescribing, purchasing, acquisition, possession, or use—Opiate-related overdose) and 2010 c 9 s 3 are each repealed."

On page 1, line 2 of the title, after "deaths;" strike the remainder of the title and insert "amending RCW 69.41.040 and 69.50.315; adding a new section to chapter 69.41 RCW; creating a new section; and repealing RCW 18.130.345."

and the same is herewith transmitted.

(b) When delay of performance of such work would jeopardize a state highway or constitute a danger to the traveling public, the work may be done by state forces when the estimated cost thereof is less than eighty thousand dollars and effective July 1, 2005, one hundred thousand dollars.

(c) When the department of transportation determines to do the work by state forces, it shall enter a statement upon its records to that effect, stating the reasons therefor.

(d) To enable a larger number of small businesses and veteran, minority, and women contractors to effectively compete for department of transportation contracts, the department may adopt rules providing for bids and award of contracts for the performance of work, or furnishing equipment, materials, supplies, or operating services whenever any work is to be performed and the engineer's estimate indicates the cost of the work would not exceed eighty thousand dollars and effective July 1, 2005, one hundred thousand dollars.

(2) The rules adopted under this section:

(a) Shall provide for competitive bids to the extent that competitive sources are available except when delay of performance would jeopardize life or property or inconvenience the traveling public; and

(b) Need not require the furnishing of a bid deposit nor a performance bond, but if a performance bond is not required then progress payments to the contractor may be required to be made based on submittal of paid invoices to substantiate proof that disbursements have been made to laborers, material suppliers, mechanics, and subcontractors from the previous partial payment; and

(c) May establish prequalification standards and procedures as an alternative to those set forth in RCW 47.28.070, but the prequalification standards and procedures under RCW 47.28.070 shall always be sufficient.

(3) The department of transportation shall comply with such goals and rules as may be adopted by the office of minority and women's business enterprises to implement chapter 39.19 RCW with respect to contracts entered into under this chapter. The department may adopt such rules as may be necessary to comply with the rules adopted by the office of minority and women's business enterprises under chapter 39.19 RCW.

(4)(a) ~~((For the period of March 15, 2014, through June 30, 2015,))~~ Work for less than one hundred ~~((twenty))~~ thousand dollars may be performed on ferry vessels and terminals by state forces.

(b) When the estimated cost of work to be performed on ferry vessels and terminals is between one hundred thousand dollars and two hundred thousand dollars, the department shall contact, by mail or electronic mail, contractors that appear on the department's small works roster as created pursuant to procedures in chapter 39.04 RCW to do specific work the contractors are qualified to do to determine if any contractor is interested and capable of doing the work. If there is a response of interest within seventy-two hours, the small works roster procedures commence. If no qualified contractors respond with interest and availability to do the work, the department may use its regular contracting procedures. If the secretary determines that the work to be completed is an emergency, procedures governing emergencies apply.

(c) The department shall hire a disinterested, third party to conduct an independent analysis to identify methods of reducing out-of-service times for vessel maintenance, preservation, and improvement projects. The analysis must include options that consider consolidating work while vessels are at shipyards by having state forces perform services traditionally performed at Eagle Harbor at the shipyard and decreasing the allowable time at shipyards. The analysis must also compare the out-of-service vessel times of performing services by state forces versus contracting out those services which in turn must be used to form a recommendation as to what the threshold of work performed on ferry vessels and terminals by state forces should be. This analysis must be presented to the transportation committees of the senate and house of representatives by December 1, 2010.

~~((e))~~ (d) The department shall develop a proposed ferry vessel maintenance, preservation, and improvement program and present it to the transportation committees of the senate and house of representatives by December 1, 2010. The proposed program must:

(i) Improve the basis for budgeting vessel maintenance, preservation, and improvement costs and for projecting those costs into a sixteen-year financial plan;

(ii) Limit the amount of planned out-of-service time to the greatest extent possible, including options associated with department staff as well as commercial shipyards; and

(iii) Be based on the service plan in the capital plan, recognizing that vessel preservation and improvement needs may vary by route.

~~((d))~~ (e) In developing the proposed ferry vessel maintenance, preservation, and improvement program, the department shall consider the following, related to reducing vessel out-of-service time:

(i) The costs compared to benefits of Eagle Harbor repair and maintenance facility operations options to include staffing costs and benefits in terms of reduced out-of-service time;

(ii) The maintenance requirements for on-vessel staff, including the benefits of a systemwide standard;

(iii) The costs compared to benefits of staff performing preservation or maintenance work, or both, while the vessel is underway, tied up between sailings, or not deployed;

(iv) A review of the department's vessel maintenance, preservation, and improvement program contracting process and contractual requirements;

(v) The costs compared to benefits of allowing for increased costs associated with expedited delivery;

(vi) A method for comparing the anticipated out-of-service time of proposed projects and other projects planned during the same construction period;

(vii) Coordination with required United States coast guard dry dockings;

(viii) A method for comparing how proposed projects relate to the service requirements of the route on which the vessel normally operates; and

(ix) A method for evaluating the ongoing maintenance and preservation costs associated with proposed improvement projects.

NEW SECTION. Sec. 628. This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect July 1, 2015."

SUBSTITUTE HOUSE BILL NO. 1879, as amended by the Senate, having received the necessary constitutional majority, was declared passed.

MESSAGE FROM THE SENATE

April 9, 2015

Mr. Speaker:

The Senate has passed ENGROSSED SUBSTITUTE HOUSE BILL NO. 1980 with the following amendment:

Strike everything after the enacting clause and insert the following:

"**Sec. 631.** RCW 13.34.100 and 2014 c 108 s 2 are each amended to read as follows:

(1) The court shall appoint a guardian ad litem for a child who is the subject of an action under this chapter, unless a court for good cause finds the appointment unnecessary. The requirement of a guardian ad litem may be deemed satisfied if the child is represented by an independent attorney in the proceedings. The court shall attempt to match a child with special needs with a guardian ad litem who has specific training or education related to the child's individual needs.

(2) If the court does not have available to it a guardian ad litem program with a sufficient number of volunteers, the court may appoint a suitable person to act as guardian ad litem for the child under this chapter. Another party to the proceeding or the party's employee or representative shall not be so appointed.

(3) Each guardian ad litem program shall maintain a background information record for each guardian ad litem in the program. The background information record shall include, but is not limited to, the following information:

- (a) Level of formal education;
- (b) General training related to the guardian ad litem's duties;
- (c) Specific training related to issues potentially faced by children in the dependency system;
- (d) Specific training or education related to child disability or developmental issues;
- (e) Number of years' experience as a guardian ad litem;
- (f) Number of appointments as a guardian ad litem and the county or counties of appointment;
- (g) The names of any counties in which the person was removed from a guardian ad litem registry pursuant to a grievance action, and the name of the court and the cause number of any case in which the court has removed the person for cause;

(h) Founded allegations of abuse or neglect as defined in RCW 26.44.020;

(i) The results of an examination of state and national criminal identification data. The examination shall consist of a background check as allowed through the Washington state criminal records privacy act under RCW 10.97.050, the Washington state patrol criminal identification system under RCW 43.43.832 through 43.43.834, and the federal bureau of investigation. The background check shall be done through the Washington state patrol criminal identification section and must include a national check from the federal bureau of investigation based on the submission of fingerprints; and

(j) Criminal history, as defined in RCW 9.94A.030, for the period covering ten years prior to the appointment.

The background information record shall be updated annually. As a condition of appointment, the guardian ad litem's background

information record shall be made available to the court. If the appointed guardian ad litem is not a member of a guardian ad litem program a suitable person appointed by the court to act as guardian ad litem shall provide the background information record to the court.

Upon appointment, the guardian ad litem, or guardian ad litem program, shall provide the parties or their attorneys with a copy of the background information record containing the results of the background check conducted through the Washington state patrol criminal identification system under RCW 43.43.832 through 43.43.834. The portion of the background information record containing the results of the criminal background check and the criminal history from the federal bureau of investigation shall not be disclosed to the parties or their attorneys. The background information record shall not include identifying information that may be used to harm a guardian ad litem, such as home addresses and home telephone numbers, and for volunteer guardians ad litem the court may allow the use of maiden names or pseudonyms as necessary for their safety.

(4) The appointment of the guardian ad litem shall remain in effect until the court discharges the appointment or no longer has jurisdiction, whichever comes first. The guardian ad litem may also be discharged upon entry of an order of guardianship.

(5) A guardian ad litem through an attorney, or as otherwise authorized by the court, shall have the right to present evidence, examine and cross-examine witnesses, and to be present at all hearings. A guardian ad litem shall receive copies of all pleadings and other documents filed or submitted to the court, and notice of all hearings according to court rules. The guardian ad litem shall receive all notice contemplated for a parent or other party in all proceedings under this chapter.

(6)(a) The court must appoint an attorney for a child in a dependency proceeding six months after granting a petition to terminate the parent and child relationship pursuant to RCW 13.34.180 and when there is no remaining parent with parental rights.

The court must appoint an attorney for a child when there is no remaining parent with parental rights for six months or longer prior to July 1, 2014, if the child is not already represented.

The court may appoint one attorney to a group of siblings, unless there is a conflict of interest, or such representation is otherwise inconsistent with the rules of professional conduct.

(b) Legal services provided by an attorney appointed pursuant to (a) of this subsection do not include representation of the child in any appellate proceedings relative to the termination of the parent and child relationship.

(c)(i) Subject to the availability of amounts appropriated for this specific purpose, the state shall pay the costs of legal services provided by an attorney appointed pursuant to (a) of this subsection, if the legal services are provided in accordance with the standards of practice, voluntary training, and caseload limits developed and recommended by the statewide children's representation work group pursuant to section 5, chapter 180, Laws of 2010. Caseload limits must be calculated pursuant to (c)(ii) of this subsection.

(ii) Counties are encouraged to set caseloads as low as possible and to account for the individual needs of the children in care. Notwithstanding the caseload limits developed and recommended by the statewide children's representation work group pursuant to section 5, chapter 180, Laws of 2010, when one attorney represents a sibling group, the first child is counted as one case, and each child thereafter is counted as one-half case to determine compliance with the caseload standards pursuant to (c)(i) of this subsection and RCW 2.53.045.

(iii) The office of civil legal aid is responsible for implementation of (c)(i) and (ii) of this subsection as provided in RCW 2.53.045.

(7)(a) The court may appoint an attorney to represent the child's position in any dependency action on its own initiative, or upon the request of a parent, the child, a guardian ad litem, a caregiver, or the department.

(b)(i) If the court has not already appointed an attorney for a child, or the child is not represented by a privately retained attorney:

(A) The child's caregiver, or any individual, may refer the child to an attorney for the purposes of filing a motion to request appointment of an attorney at public expense; or

(B) The child or any individual may retain an attorney for the child for the purposes of filing a motion to request appointment of an attorney at public expense.

(ii) Nothing in this subsection (7)(b) shall be construed to change or alter the confidentiality provisions of RCW 13.50.100.

(c) Pursuant to this subsection, the department or supervising agency and the child's guardian ad litem shall each notify a child of his or her right to request an attorney and shall ask the child whether he or she wishes to have an attorney. The department or supervising agency and the child's guardian ad litem shall notify the child and make this inquiry immediately after:

(i) The date of the child's twelfth birthday;

(ii) Assignment of a case involving a child age twelve or older; or

(iii) July 1, 2010, for a child who turned twelve years old before July 1, 2010.

(d) The department or supervising agency and the child's guardian ad litem shall repeat the notification and inquiry at least annually and upon the filing of any motion or petition affecting the child's placement, services, or familial relationships.

(e) The notification and inquiry is not required if the child has already been appointed an attorney.

(f) The department or supervising agency shall note in the child's individual service and safety plan, and the guardian ad litem shall note in his or her report to the court, that the child was notified of the right to request an attorney and indicate the child's position regarding appointment of an attorney.

(g) At the first regularly scheduled hearing after:

(i) The date of the child's twelfth birthday;

(ii) The date that a dependency petition is filed pursuant to this chapter on a child age twelve or older; or

(iii) July 1, 2010, for a child who turned twelve years old before July 1, 2010;

the court shall inquire whether the child has received notice of his or her right to request an attorney from the department or supervising agency and the child's guardian ad litem. The court shall make an additional inquiry at the first regularly scheduled hearing after the child's fifteenth birthday. No inquiry is necessary if the child has already been appointed an attorney.

(8) For the purposes of child abuse prevention and treatment act (42 U.S.C. Secs. 5101 et seq.) grants to this state under P.L. 93-247, or any related state or federal legislation, a person appointed pursuant to this section shall be deemed a guardian ad litem.

(9) When a court-appointed special advocate or volunteer guardian ad litem is requested on a case, the program shall give the court the name of the person it recommends. The program shall attempt to match a child with special needs with a guardian ad litem who has specific training or education related to the child's individual needs. The court shall immediately appoint the person recommended by the program.

(10) If a party in a case reasonably believes the court-appointed special advocate or volunteer guardian ad litem is inappropriate or unqualified, the party may request a review of the appointment by the program. The program must complete the review within five judicial days and remove any appointee for good cause. If the party seeking the review is not satisfied with the outcome of the review, the party may file a motion with the court for the removal of the

court-appointed special advocate or volunteer guardian ad litem on the grounds the advocate or volunteer is inappropriate or unqualified.

NEW SECTION. Sec. 638. A new section is added to chapter 43.30 RCW under the subchapter heading "organization" to read as follows:

(1) The commissioner must appoint a local wildland fire liaison that reports directly to the commissioner or the supervisor and generally represents the interests and concerns of landowners and the general public during any fire suppression activities of the department.

(2) The role of the local wildland fire liaison is to provide advice to the commissioner on issues such as access to land during fire suppression activities, the availability of local fire suppression assets, environmental concerns, and landowner interests.

(3) In appointing the local wildland fire liaison, the commissioner must consult with county legislative authorities either directly or through an organization that represents the interests of county legislative authorities.

(4) All requirements in this section are subject to the availability of amounts appropriated for the specific purposes described.

NEW SECTION. Sec. 639. (1) The local wildland fire liaison created in section 1 of this act must prepare a report to the commissioner of public lands by December 31, 2015, that provides recommendations regarding:

(a) Opportunities for the department of natural resources to increase training with local fire protection districts;

(b) The ability to quickly evaluate the availability of local fire district resources in a manner that allows the local resources to be more efficiently and effectively dispatched to wildland fires; and

(c) Opportunities to increase and maintain the viability of local fire suppression assets.

(2) The department of natural resources must issue a report to the legislature consistent with RCW 43.01.036 by October 31, 2016, that summarizes the recommendations of the local wildland fire liaison, details steps taken to implement the recommendations, and offers an analyses of the results on the ground.

(3) All requirements in this section are subject to the availability of amounts appropriated for the specific purposes described.

(4) This section expires July 1, 2017.

(1) The commissioner must appoint and maintain a wildland fire advisory committee to generally advise the commissioner on all matters related to wildland firefighting in the state. This includes, but is not limited to, developing recommendations regarding department capital budget requests related to wildland firefighting and developing strategies to enhance the safe and effective use of private and public wildland firefighting resources.

(2) The commissioner may appoint members to the wildland fire advisory committee as the commissioner determines is the most helpful in the discharge of the commissioner's duties. However, at a minimum, the commissioner must invite the following:

(7) The members of the wildland fire advisory committee, or individuals acting on their behalf, are immune from civil liability for official acts performed in the course of their duties.

(8) All requirements in this section are subject to the availability of amounts appropriated for the specific purposes described.

NEW SECTION. Sec. 641. A new section is added to chapter 76.04 RCW to read as follows:

(1)(a) An individual may, consistent with this section, enter privately owned or publicly owned land for the purposes of attempting to extinguish or control a wildland fire, regardless of whether the individual owns the land, when fighting the wildland fire in that particular time and location can be reasonably considered a public necessity due to an imminent danger.

(b) No civil or criminal liability may be imposed by any court on an individual acting pursuant to this section for any direct or proximate adverse impacts resulting from an individual's access to land for the purposes of attempting to extinguish or control a wildland fire when fighting the wildland fire in that particular time

and location can be reasonably considered a public necessity, except upon proof of gross negligence or willful or wanton misconduct by the individual.

(c) An individual may enter land under this subsection (1) only if:

- (i) There is an active fire on or in near proximity to the land;
- (ii) The individual has a reasonable belief that the local fire conditions are creating an emergency situation and that there is an imminent danger of a fire growing or spreading to or from the parcel of land being entered;
- (iii) The individual has a reasonable belief that preventive measures will extinguish or control the wildfire;
- (iv) The individual has a reasonable belief that he or she is capable of taking preventive measures;
- (v) The individual only undertakes measures that are reasonable and necessary until professional wildfire suppression personnel arrives;
- (vi) The individual does not continue to take suppression actions after specific direction to cease from the landowner;
- (vii) The individual takes preventive measures only for the period of time until efforts to control the wildfire have been assumed by professional wildfire suppression personnel, unless explicitly authorized by professional wildland firefighting personnel to remain engaged in suppressing the fire;
- (viii) The individual follows the instructions of professional wildland firefighting personnel, including ceasing to engage in firefighting activities, when directed to do so by professional wildland firefighting personnel; and
- (ix) The individual promptly notifies emergency personnel and the landowner, lessee, or occupant prior to entering the land or within a reasonable time after the individual attempts to extinguish or control the wildland fire.

(d) Nothing in this section authorizes any person to materially benefit from accessing land or retain any valuable materials that may be collected or harvested during the time the individual attempts to extinguish or control the wildland fire.

(e)(i) The authority to enter privately owned or publicly owned land under this subsection (1) is limited to the minimum necessary activities reasonably required to extinguish or control the wildland fire.

(ii) Activities that may be reasonable under this subsection (1) include, but are not limited to: Using hand tools to clear the ground of debris, operating readily available water hoses, clearing flammable materials from the vicinity of structures, unlocking or opening gates to assist firefighter access, and safely scouting and reporting fire behavior.

(iii) Activities that do not fall within the scope of this subsection (1)(e), due to the high potential for adverse consequences, include, but are not limited to: Lighting a fire in an attempt to stop the spread of another fire; using explosives as a firefighting technique; using aircraft for fire suppression; and directing other individuals to engage in firefighting.

(f) Nothing in this subsection (1) confers a legal or civil duty or obligation on a person to attempt to extinguish or control a wildfire.

(2)(a) No civil or criminal liability may be imposed by any court on the owner, lessee, or occupant of any land accessed as permitted under subsection (1) of this section for any direct or proximate adverse impacts resulting from the access to privately owned or publicly owned land allowed under subsection (1) of this section, except upon proof of willful or wanton misconduct by the owner, lessee, or occupant. The barriers to civil and criminal liability imposed by this subsection include, but are not limited to, impacts on:

(i) The individual accessing the privately owned or publicly owned land and the individual's personal property, including loss of life;

(ii) Any structures or land alterations constructed by individuals entering the privately owned or publicly owned land;

(iii) Other landholdings; and

(iv) Overall environmental resources.

(b) This subsection (2) does not apply in any case where liability for damages is provided under RCW 4.24.040.

(3) Nothing in this section limits or otherwise effects any other statutory or common law provisions relating to land access or the control of a conflagration.

Sec. 642. RCW 76.04.015 and 2012 c 38 s 1 are each amended to read as follows:

(1) The department may, at its discretion, appoint trained personnel possessing the necessary qualifications to carry out the duties and supporting functions of the department and may determine their respective salaries.

(2) The department shall have direct charge of and supervision of all matters pertaining to the forest fire service of the state.

(3) The department shall:

(a) Enforce all laws within this chapter;

(b) Be empowered to take charge of and direct the work of suppressing forest fires;

(c)(i) Investigate the origin and cause of all forest fires to determine whether either a criminal act or negligence by any person, firm, or corporation caused the starting, spreading, or existence of the fire. In conducting investigations, the department shall work cooperatively, to the extent possible, with utilities, property owners, and other interested parties to identify and preserve evidence. Except as provided otherwise in this subsection, the department in conducting investigations is authorized, without court order, to take possession or control of relevant evidence found in plain view and belonging to any person, firm, or corporation. To the extent possible, the department shall notify the person, firm, or corporation of its intent to take possession or control of the evidence. The person, firm, or corporation shall be afforded reasonable opportunity to view the evidence and, before the department takes possession or control of the evidence, also shall be afforded reasonable opportunity to examine, document, and photograph it. If the person, firm, or corporation objects in writing to the department's taking possession or control of the evidence, the department must either return the evidence within seven days after the day on which the department is provided with the written objections or obtain a court order authorizing the continued possession or control.

(ii) Absent a court order authorizing otherwise, the department may not take possession or control of evidence over the objection of the owner of the evidence if the evidence is used by the owner in conducting a business or in providing an electric utility service and the department's taking possession or control of the evidence would substantially and materially interfere with the operation of the business or provision of electric utility service.

(iii) Absent a court order authorizing otherwise, the department may not take possession or control of evidence over the objection of an electric utility when the evidence is not owned by the utility but has caused damage to property owned by the utility. However, this subsection (3)(c)(iii) does not apply if the department has notified the utility of its intent to take possession or control of the evidence and provided the utility with reasonable time to examine, document, and photograph the evidence.

(iv) Only personnel qualified to work on electrical equipment may take possession or control of evidence owned or controlled by an electric utility;

(d) Furnish notices or information to the public calling attention to forest fire dangers and the penalties for violation of this chapter;

(e) Be familiar with all timbered and cut-over areas of the state; ~~((and))~~

(f) Maximize the effective utilization of local fire suppression assets consistent with section 6 of this act; and

(g) Regulate and control the official actions of its employees, the wardens, and the rangers.

(4) The department may:

(a) Authorize all needful and proper expenditures for forest protection;

(b) Adopt rules consistent with this section for the prevention, control, and suppression of forest fires as it considers necessary including but not limited to: Fire equipment and materials; use of personnel; and fire prevention standards and operating conditions including a provision for reducing these conditions where justified by local factors such as location and weather;

(c) Remove at will the commission of any ranger or suspend the authority of any warden;

(d) Inquire into:

(i) The extent, kind, value, and condition of all timber lands within the state;

(ii) The extent to which timber lands are being destroyed by fire and the damage thereon;

(e) Provide fire detection, prevention, presuppression, or suppression services on nonforested public lands managed by the department or another state agency, but only to the extent that providing these services does not interfere with or detract from the obligations set forth in subsection (3) of this section. If the department provides fire detection, prevention, presuppression, or suppression services on nonforested public lands managed by another state agency, the department must be fully reimbursed for the work through a cooperative agreement as provided for in RCW 76.04.135(1).

(5) Any rules adopted under this section for the suppression of forest fires must include a mechanism by which a local fire mobilization radio frequency, consistent with RCW 43.43.963, is identified and made available during the initial response to any forest fire that crosses jurisdictional lines so that all responders have access to communications during the response. Different initial response frequencies may be identified and used as appropriate in different geographic response areas. If the fire radio communication needs escalate beyond the capability of the identified local radio frequency, the use of other available designated interoperability radio frequencies may be used.

(6) When the department considers it to be in the best interest of the state, it may cooperate with any agency of another state, the United States or any agency thereof, the Dominion of Canada or any agency or province thereof, and any county, town, corporation, individual, or Indian tribe within the state of Washington in forest firefighting and patrol.

NEW SECTION. Sec. 643. A new section is added to chapter 76.04 RCW to read as follows:

(1) To maximize the effective utilization of local fire suppression assets, the department is required to:

(a) Compile and annually update master lists of qualified wildland fire suppression contractors who have valid incident qualifications for the kind of contracted work to be performed. In order to be included on a master list of qualified wildland fire suppression contractors:

(i) Contractors providing fire engines, tenders, crews, or similar resources must have training and qualifications sufficient for federal wildland fire contractor eligibility, including possessing a valid incident qualification card, commonly called a red card; and

(ii) Contractors other than those identified in (a)(i) of this subsection must have training and qualifications evidenced by possession of a valid department qualification and safety document,

commonly called a blue card, issued to people cooperating with the department pursuant to an agreement;

(b) Provide timely advance notification of the dates and locations of department blue card training to all potential wildland fire suppression contractors known to the department and make the training available in several locations that are reasonably convenient for contractors;

(c) Make the lists of qualified wildland fire suppression contractors available to county legislative authorities, emergency management departments, and local fire districts;

(d) Cooperate with federal wildland firefighting agencies to maximize, based on predicted need, the efficient use of local resources in close proximity to wildland fire incidents;

(e) Enter into preemptive agreements with landowners in possession of firefighting capability that may be utilized in wildland fire suppression efforts, including the use of bulldozers, fallers, fuel tenders, potable water tenders, water sprayers, wash trailers, refrigeration units, and buses; and

(f) Conduct outreach to provide basic incident command system and wildland fire safety training to landowners in possession of firefighting capability to help ensure that any wildland fire suppression actions taken by private landowners on their own land are accomplished safely and in coordination with any related incident command structure.

(2) Nothing in subsection (1) of this section prohibits the department from conducting condensed safety training on the site of a wildland fire in order to utilize available contractors not included on a master list of qualified wildland fire suppression contractors.

(3) When entering into preemptive agreements with landowners under this section, the department must ensure that:

(a) All equipment and personnel satisfy department standards; and

(b) All contractors are, when engaged in fire suppression activities, under the supervision of recognized wildland fire personnel.

(4) No civil liability may be imposed by any court on the state or its officers and employees for any adverse impacts resulting from training provided by the department or preemptive agreements entered into by the department under the provisions of this section except upon proof of gross negligence or willful or wanton misconduct.

(5) All requirements in this section are subject to the availability of amounts appropriated for the specific purposes described.

MESSAGE FROM THE SENATE

April 15, 2015

Mr. Speaker:

The Senate has passed SUBSTITUTE HOUSE BILL NO. 1853 with the following amendment:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 645. (1) The legislature finds that the transportation sector is Washington's largest contributor to greenhouse emissions and hazardous air pollutants as defined by federal national ambient air quality standards and mobile source air toxics rules. The sector's portion is considerably higher than the national average because our state relies heavily on hydropower for electricity generation, unlike other states that rely on fossil fuels such as coal, petroleum, and natural gas to generate electricity.

(2) The legislature also finds that federal clean air act regulations and complementary Washington policies supporting renewable energy generation, energy efficiency, and energy conservation are likely to result in further reduction of emissions in the electricity and in the combined residential, commercial, and industrial sectors. The legislature finds that state policy can achieve the greatest return on investment in reducing greenhouse gas emissions and improving air quality by expediting the transition to alternative fuel vehicles, including electric vehicles.

(3) The legislature finds that utilities, who are traditionally responsible for understanding and engineering the electrical grid for safety and reliability, must be fully empowered and incentivized to be engaged in electrification of our transportation system. The legislature further finds that it has given utilities other policy directives to promote energy conservation which do not make the benefits of building out electric vehicle infrastructure, as well as any subsequent increase in energy consumption, readily apparent. Therefore the legislature intends to provide a clear policy directive and financial incentive to utilities for electric vehicle infrastructure build-out.

NEW SECTION. Sec. 646. A new section is added to chapter 80.28 RCW to read as follows:

(1) In establishing rates for each electrical company regulated under this title, the commission may allow an incentive rate of return on investment on capital expenditures for electric vehicle supply equipment that is deployed for the benefit of ratepayers, provided that the capital expenditures do not increase costs to ratepayers in excess of one-quarter of one percent. The commission must consider and may adopt other policies to improve access to and promote fair competition in the provision of electric vehicle supply equipment.

(2) An incentive rate of return on investment under this section may be allowed only if the company chooses to pursue capital investment in electric vehicle supply equipment on a fully regulated basis similar to other capital investments behind a customer's meter. In the case of an incentive rate of return on investment allowed under this section, an increment of up to two percent must be added to the rate of return on common equity allowed on the company's other investments.

(3) The incentive rate of return on investment authorized in subsection (2) of this section applies only to projects which have been installed after July 1, 2015, and which are reasonably expected, at the time they are placed in the rate base, to result in real and tangible benefits for rate payers by being installed and located where electric vehicles are most likely to be parked for intervals longer than two hours.

(4) The incentive rate of return on investment increment pursuant to this section may be earned only for a period up to the depreciable life of the electric vehicle supply equipment as defined in the depreciation schedules developed by the company and submitted to the commission for review. When the capital investment has fully depreciated, an electrical company may gift the electric vehicle supply equipment to the owner of the property on which it is located.

(5) By December 31, 2017, the commission must report to the appropriate committees of the legislature with regard to the use of any incentives allowed under this section, the quantifiable impacts of the incentives on actual electric vehicle deployment, and any recommendations to the legislature about utility participation in the electric vehicle market."

On page 1, line 2 of the title, after "build-out;" strike the remainder of the title and insert "adding a new section to chapter 80.28 RCW; and creating a new section."

and the same is herewith transmitted.

SENATE AMENDMENT TO HOUSE BILL

There being no objection, the House concurred in the Senate amendment to SUBSTITUTE HOUSE BILL NO. 1853 and advanced the bill as amended by the Senate to final passage.

FINAL PASSAGE OF HOUSE BILL AS SENATE AMENDED

Representatives Magendanz and Morris spoke in favor of the passage of the bill.

COLLOQUY

Representative Morris: "Section 2(2) of this bill specifies that an incentive rate of return on investment on capital expenditures for electric vehicle supply equipment may be allowed only if an electrical company chooses to make a capital investment on a fully regulated basis similar to other capital investments behind a customer's meter. Is it the intent of this section to allow an electrical company to earn an incentive rate of return on investment on capital expenditures funded by state or federal grants?"

Representative Magendanz: "No. Under existing regulatory practices, electrical companies may only earn a return on investments made with investor-supplied capital. Any grant funds which may be available are applied as credit against the company's rate bases on the other side of the balance sheet. It is the intent of this bill to allow an incentive rate of return that is consistent with existing regulatory practice, so therefore an electrical company may not earn an incentive rate of return on grant-funded capital expenditures for electric vehicle supply equipment"

The Speaker (Representative Moeller presiding) stated the question before the House to be the final passage of Substitute House Bill No. 1853, as amended by the Senate.

ROLL CALL

The Clerk called the roll on the final passage of Substitute House Bill No. 1853, as amended by the Senate, and the bill passed the House by the following vote: Yeas, 67; Nays, 31; Absent, 0; Excused, 0.

Voting yea: Representatives Appleton, Bergquist, Blake, Caldier, Carlyle, Clibborn, Cody, Condotta, Dunshee, Farrell, Fey, Fitzgibbon, Goodman, Gregerson, Gregory, Haler, Hansen, Harmsworth, Hawkins, Hudgins, Hunter, Hurst, Jinkins, Johnson, Kagi, Kilduff, Kirby, Kochmar, Lytton, MacEwen, Magendanz, Manweller, McBride, Moeller, Morris, Moscoso, Muri, Ormsby, Ortiz-Self, Orwall, Peterson, Pettigrew, Pollet, Reykdal, Riccelli, Robinson, Rodne, Ryu, S. Hunt, Santos, Sawyer, Sells, Senn, Smith, Springer, Stanford, Stokesbary, Sullivan, Takko, Tarleton,

Tharinger, Walkinshaw, Walsh, Wilcox, Wylie, Zeiger and Mr. Speaker.

SUBSTITUTE HOUSE BILL NO. 1853, as amended by the Senate, having received the necessary constitutional majority, was declared passed.

MESSAGE FROM THE SENATE

April 15, 2015

Mr. Speaker:

The Senate has passed ENGROSSED HOUSE BILL NO. 1943 with the following amendment:

Strike everything after the enacting clause and insert the following:

"Sec. 647. RCW 9.94A.030 and 2012 c 143 s 1 are each amended to read as follows:

Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

(1) "Board" means the indeterminate sentence review board created under chapter 9.95 RCW.

(2) "Collect," or any derivative thereof, "collect and remit," or "collect and deliver," when used with reference to the department, means that the department, either directly or through a collection agreement authorized by RCW 9.94A.760, is responsible for monitoring and enforcing the offender's sentence with regard to the legal financial obligation, receiving payment thereof from the offender, and, consistent with current law, delivering daily the entire payment to the superior court clerk without depositing it in a departmental account.

(3) "Commission" means the sentencing guidelines commission.

(4) "Community corrections officer" means an employee of the department who is responsible for carrying out specific duties in supervision of sentenced offenders and monitoring of sentence conditions.

(5) "Community custody" means that portion of an offender's sentence of confinement in lieu of earned release time or imposed as part of a sentence under this chapter and served in the community subject to controls placed on the offender's movement and activities by the department.

(6) "Community protection zone" means the area within eight hundred eighty feet of the facilities and grounds of a public or private school.

(7) "Community restitution" means compulsory service, without compensation, performed for the benefit of the community by the offender.

(8) "Confinement" means total or partial confinement.

(9) "Conviction" means an adjudication of guilt pursuant to Title 10 or 13 RCW and includes a verdict of guilty, a finding of guilty, and acceptance of a plea of guilty.

(10) "Crime-related prohibition" means an order of a court prohibiting conduct that directly relates to the circumstances of the crime for which the offender has been convicted, and shall not be construed to mean orders directing an offender affirmatively to participate in rehabilitative programs or to otherwise perform affirmative conduct. However, affirmative acts necessary to monitor compliance with the order of a court may be required by the department.

(11) "Criminal history" means the list of a defendant's prior convictions and juvenile adjudications, whether in this state, in federal court, or elsewhere.

(a) The history shall include, where known, for each conviction (i) whether the defendant has been placed on probation and the length and terms thereof; and (ii) whether the defendant has been incarcerated and the length of incarceration.

(b) A conviction may be removed from a defendant's criminal history only if it is vacated pursuant to RCW 9.96.060, 9.94A.640, 9.95.240, or a similar out-of-state statute, or if the conviction has been vacated pursuant to a governor's pardon.

(c) The determination of a defendant's criminal history is distinct from the determination of an offender score. A prior conviction that was not included in an offender score calculated pursuant to a former version of the sentencing reform act remains part of the defendant's criminal history.

(12) "Criminal street gang" means any ongoing organization, association, or group of three or more persons, whether formal or informal, having a common name or common identifying sign or symbol, having as one of its primary activities the commission of criminal acts, and whose members or associates individually or collectively engage in or have engaged in a pattern of criminal street gang activity. This definition does not apply to employees engaged in concerted activities for their mutual aid and protection, or to the activities of labor and bona fide nonprofit organizations or their members or agents.

(13) "Criminal street gang associate or member" means any person who actively participates in any criminal street gang and who intentionally promotes, furthers, or assists in any criminal act by the criminal street gang.

(14) "Criminal street gang-related offense" means any felony or misdemeanor offense, whether in this state or elsewhere, that is committed for the benefit of, at the direction of, or in association with any criminal street gang, or is committed with the intent to promote, further, or assist in any criminal conduct by the gang, or is committed for one or more of the following reasons:

(a) To gain admission, prestige, or promotion within the gang;

(b) To increase or maintain the gang's size, membership, prestige, dominance, or control in any geographical area;

(c) To exact revenge or retribution for the gang or any member of the gang;

(d) To obstruct justice, or intimidate or eliminate any witness against the gang or any member of the gang;

(e) To directly or indirectly cause any benefit, aggrandizement, gain, profit, or other advantage for the gang, its reputation, influence, or membership; or

(f) To provide the gang with any advantage in, or any control or dominance over any criminal market sector, including, but not limited to, manufacturing, delivering, or selling any controlled substance (chapter 69.50 RCW); arson (chapter 9A.48 RCW); trafficking in stolen property (chapter 9A.82 RCW); promoting prostitution (chapter 9A.88 RCW); human trafficking (RCW 9A.40.100); promoting commercial sexual abuse of a minor (RCW 9.68A.101); or promoting pornography (chapter 9.68 RCW).

(17) "Department" means the department of corrections.

(18) "Determinate sentence" means a sentence that states with exactitude the number of actual years, months, or days of total

confinement, of partial confinement, of community custody, the number of actual hours or days of community restitution work, or dollars or terms of a legal financial obligation. The fact that an offender through earned release can reduce the actual period of confinement shall not affect the classification of the sentence as a determinate sentence.

(19) "Disposable earnings" means that part of the earnings of an offender remaining after the deduction from those earnings of any amount required by law to be withheld. For the purposes of this definition, "earnings" means compensation paid or payable for personal services, whether denominated as wages, salary, commission, bonuses, or otherwise, and, notwithstanding any other provision of law making the payments exempt from garnishment, attachment, or other process to satisfy a court-ordered legal financial obligation, specifically includes periodic payments pursuant to pension or retirement programs, or insurance policies of any type, but does not include payments made under Title 50 RCW, except as provided in RCW 50.40.020 and 50.40.050, or Title 74 RCW.

(b) In issuing the order, the court shall consider the provisions of RCW 9.41.800.

(c) The no-contact order shall also be issued in writing as soon as possible, and shall state that it may be extended as provided in subsection (3) of this section. By January 1, 2011, the administrative office of the courts shall develop a pattern form for all no-contact orders issued under this chapter. A no-contact order issued under this chapter must substantially comply with the pattern form developed by the administrative office of the courts.

(3) At the time of arraignment the court shall determine whether a no-contact order shall be issued or extended. So long as the court finds probable cause, the court may issue or extend a no-contact order even if the defendant fails to appear at arraignment. The no-contact order shall terminate if the defendant is acquitted or the charges are dismissed. If a no-contact order is issued or extended, the court may also include in the conditions of release a requirement that the defendant submit to electronic monitoring as defined in RCW 9.94A.030. If electronic monitoring is ordered, the court shall specify who shall provide the monitoring services, and the terms under which the monitoring shall be performed. Upon conviction, the court may require as a condition of the sentence that the defendant reimburse the providing agency for the costs of the electronic monitoring.

(4)(a) Willful violation of a court order issued under subsection (2), (3), or (7) of this section is punishable under RCW 26.50.110.

(b) The written order releasing the person charged or arrested shall contain the court's directives and shall bear the legend: "Violation of this order is a criminal offense under chapter 26.50 RCW and will subject a violator to arrest; any assault, drive-by shooting, or reckless endangerment that is a violation of this order is a felony. You can be arrested even if any person protected by the order invites or allows you to violate the order's prohibitions. You have the sole responsibility to avoid or refrain from violating the order's provisions. Only the court can change the order."

(c) A certified copy of the order shall be provided to the victim.

(5) If a no-contact order has been issued prior to charging, that order shall expire at arraignment or within seventy-two hours if charges are not filed.

(6) Whenever a no-contact order is issued, modified, or terminated under subsection (2) or (3) of this section, the clerk of the court shall forward a copy of the order on or before the next judicial day to the appropriate law enforcement agency specified in the order. Upon receipt of the copy of the order the law enforcement agency shall enter the order for one year or until the expiration date specified on the order into any computer-based criminal intelligence information system available in this state used by law enforcement agencies to list outstanding warrants. Entry into the computer-based criminal intelligence information system constitutes notice to all law enforcement agencies of the existence of the order. The order is fully enforceable in any jurisdiction in the state. Upon receipt of notice that an order has been terminated under subsection (3) of this section, the law enforcement agency shall remove the order from the computer-based criminal intelligence information system.

(7) All courts shall develop policies and procedures by January 1, 2011, to grant victims a process to modify or rescind a no-contact order issued under this chapter. The administrative office of the courts shall develop a model policy to assist the courts in implementing the requirements of this subsection.

Sec. 656. RCW 9.94A.505 and 2010 c 224 s 4 are each amended to read as follows:

(1) When a person is convicted of a felony, the court shall impose punishment as provided in this chapter.

(2)(a) The court shall impose a sentence as provided in the following sections and as applicable in the case:

(i) Unless another term of confinement applies, a sentence within the standard sentence range established in RCW 9.94A.510 or 9.94A.517;

(ii) RCW 9.94A.701 and 9.94A.702, relating to community custody;

(iii) RCW 9.94A.570, relating to persistent offenders;

(iv) RCW 9.94A.540, relating to mandatory minimum terms;

(v) RCW 9.94A.650, relating to the first-time offender waiver;

(vi) RCW 9.94A.660, relating to the drug offender sentencing alternative;

(vii) RCW 9.94A.670, relating to the special sex offender sentencing alternative;

(viii) RCW 9.94A.655, relating to the parenting sentencing alternative;

(ix) RCW 9.94A.507, relating to certain sex offenses;

(x) RCW 9.94A.535, relating to exceptional sentences;

(xi) RCW 9.94A.589, relating to consecutive and concurrent sentences;

(xii) RCW 9.94A.603, relating to felony driving while under the influence of intoxicating liquor or any drug and felony physical control of a vehicle while under the influence of intoxicating liquor or any drug.

(b) If a standard sentence range has not been established for the offender's crime, the court shall impose a determinate sentence which may include not more than one year of confinement; community restitution work; a term of community custody under RCW 9.94A.702 not to exceed one year; and/or other legal financial obligations. The court may impose a sentence which provides more than one year of confinement and a community custody term under RCW 9.94A.701 if the court finds reasons justifying an exceptional sentence as provided in RCW 9.94A.535.

(3) If the court imposes a sentence requiring confinement of thirty days or less, the court may, in its discretion, specify that the sentence be served on consecutive or intermittent days. A sentence requiring more than thirty days of confinement shall be served on consecutive days. Local jail administrators may schedule court-ordered intermittent sentences as space permits.

(4) If a sentence imposed includes payment of a legal financial obligation, it shall be imposed as provided in RCW 9.94A.750, 9.94A.753, 9.94A.760, and 43.43.7541.

(5) Except as provided under RCW 9.94A.750(4) and 9.94A.753(4), a court may not impose a sentence providing for a term of confinement or community custody that exceeds the statutory maximum for the crime as provided in chapter 9A.20 RCW.

(6) The sentencing court shall give the offender credit for all confinement time served before the sentencing if that confinement was solely in regard to the offense for which the offender is being sentenced.

(7) The sentencing court shall not give the offender credit for any time the offender was required to comply with an electronic monitoring program prior to sentencing if the offender was convicted of one of the following offenses:

(a) A violent offense;

(b) Any sex offense;

(c) Any drug offense;

(d) Reckless burning in the first or second degree as defined in RCW 9A.48.040 or 9A.48.050;

(f) Assault of a child in the third degree;

(g) Unlawful imprisonment as defined in RCW 9A.40.040; or

(h) Harassment as defined in RCW 9A.46.020.

(8) The court shall order restitution as provided in RCW 9.94A.750 and 9.94A.753.

~~((9))~~ (9) As a part of any sentence, the court may impose and enforce crime-related prohibitions and affirmative conditions as provided in this chapter.

~~((9))~~ (10) In any sentence of partial confinement, the court may require the offender to serve the partial confinement in work release, in a program of home detention, on work crew, or in a combined program of work crew and home detention.

Sec. 657. RCW 9A.76.130 and 2011 c 336 s 403 are each amended to read as follows:

(1) A person is guilty of escape in the third degree if he or she:

(a) Escapes from custody; or

(b) Knowingly violates the terms of an electronic monitoring program.

(2) Escape in the third degree is a ~~((gross))~~ misdemeanor, except as provided in subsection (3) of this section.

(3)(a) If the person has one prior conviction for escape in the third degree, escape in the third degree is a gross misdemeanor.

(b) If the person has two or more prior convictions for escape in the third degree, escape in the third degree is a class C felony.

NEW SECTION. Sec. 658. A new section is added to chapter 10.21 RCW to read as follows:

A monitoring agency, as defined in section 3 of this act, may not agree to monitor pursuant to home detention or electronic monitoring an offender who is currently awaiting trial for a violent or sex offense, as defined in RCW 9.94A.030, unless the defendant's release before trial is secured with a payment of bail. If bail is revoked by the court or the bail bond agency, the court shall note the reason for the revocation in the court file.

NEW SECTION. Sec. 659. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected."

On page 1, line 1 of the title, after "Relating to" strike the remainder of the title and insert "electronic monitoring; amending RCW 9.94A.030, 9.94A.734, 10.21.030, 9.94A.704, 26.50.010, 10.99.040, 9.94A.505, and 9A.76.130; adding new sections to chapter 9.94A RCW; adding new sections to chapter 10.21 RCW; and prescribing penalties."

THIRD READING

MESSAGE FROM THE SENATE

April 24, 2015

Mr. Speaker:

The Senate has passed ENGROSSED SUBSTITUTE HOUSE BILL NO. 1449 with the following amendment:

Strike everything after the enacting clause and insert the following:

"**Sec. 660.** RCW 90.56.005 and 2010 1st sp.s. c 7 s 72 are each amended to read as follows:

(1) The legislature declares that waterborne transportation as a source of supply for oil and hazardous substances poses special concern for the state of Washington. Each year billions of gallons of crude oil and refined petroleum products are transported as cargo and fuel by vessels on the navigable waters of the state. The movement of crude oil through rail corridors and over Washington waters creates safety and environmental risks. The sources and transport of crude oil bring risks to our communities along rail lines and to the Columbia river, Grays Harbor, and Puget Sound waters.

These shipments are expected to increase in the coming years. Vessels and trains transporting oil into Washington travel on some of the most unique and special marine environments in the United States. These marine environments are a source of natural beauty, recreation, and economic livelihood for many residents of this state. As a result, the state has an obligation to ensure the citizens of the state that the waters of the state will be protected from oil spills.

(2) The legislature finds that prevention is the best method to protect the unique and special marine environments in this state. The technology for containing and cleaning up a spill of oil or hazardous substances is at best only partially effective. Preventing spills is more protective of the environment and more cost-effective when all the response and damage costs associated with responding to a spill are considered. Therefore, the legislature finds that the primary objective of the state is to achieve a zero spills strategy to prevent any oil or hazardous substances from entering waters of the state.

(3) The legislature also finds that:

(a) Recent accidents in Washington, Alaska, southern California, Texas, Pennsylvania, and other parts of the nation have shown that the transportation, transfer, and storage of oil have caused significant damage to the marine environment;

(b) Even with the best efforts, it is nearly impossible to remove all oil that is spilled into the water, and average removal rates are only fourteen percent;

(c) Washington's navigable waters are treasured environmental and economic resources that the state cannot afford to place at undue risk from an oil spill;

(d) The state has a fundamental responsibility, as the trustee of the state's natural resources and the protector of public health and the environment to prevent the spill of oil; and

(e) In section 5002 of the federal oil pollution act of 1990, the United States congress found that many people believed that complacency on the part of industry and government was one of the contributing factors to the Exxon Valdez spill and, further, that one method to combat this complacency is to involve local citizens in the monitoring and oversight of oil spill plans. Congress also found that a mechanism should be established that fosters the long-term partnership of industry, government, and local communities in overseeing compliance with environmental concerns in the operation of crude oil terminals. Moreover, congress concluded that, in addition to Alaska, a program of citizen monitoring and oversight should be established in other major crude oil terminals in the United States because recent oil spills indicate that the safe transportation of oil is a national problem.

(4) In order to establish a comprehensive prevention and response program to protect Washington's waters and natural resources from spills of oil, it is the purpose of this chapter:

(a) To establish state agency expertise in marine safety and to centralize state activities in spill prevention and response activities;

(b) To prevent spills of oil and to promote programs that reduce the risk of both catastrophic and small chronic spills;

(c) To ensure that responsible parties are liable, and have the resources and ability, to respond to spills and provide compensation for all costs and damages;

(d) To provide for state spill response and wildlife rescue planning and implementation;

(e) To support and complement the federal oil pollution act of 1990 and other federal law, especially those provisions relating to the national contingency plan for cleanup of oil spills and discharges, including provisions relating to the responsibilities of state agencies designated as natural resource trustees. The legislature intends this chapter to be interpreted and implemented in a manner consistent with federal law;

(f) To provide broad powers of regulation to the department of ecology relating to spill prevention and response;

(g) To provide for independent review on an ongoing basis the adequacy of oil spill prevention, preparedness, and response activities in this state; ~~(and)~~

(h) To provide an adequate funding source for state response and prevention programs; and

(i) To maintain the best achievable protection that can be obtained through the use of the best achievable technology and those staffing levels, training procedures, and operational methods that provide the greatest degree of protection achievable.

Sec. 661. RCW 88.46.010 and 2011 c 122 s 1 are each reenacted and amended to read as follows:

For the biennium ending June 30, 1999, and the biennium ending June 30, 2001, the state treasurer may transfer a total of up to one million dollars from the oil spill response account to the oil spill prevention account to support appropriations made from the oil spill prevention account in the omnibus appropriations act adopted not later than June 30, 1999.

(2) Expenditures from the oil spill prevention account shall be used exclusively for the administrative costs related to the purposes of this chapter, and chapters 90.48, 88.40, and 88.46 RCW. In addition, until June 30, 2019, expenditures from the oil spill prevention account may be used, subject to amounts appropriated specifically for this purpose, for the development and annual review of local emergency planning committee emergency response plans in RCW 38.52.040(3). With respect to the information reported under subsection (1)(a) of this section, the information published by the department must be aggregated on a statewide basis by route through the state, by week, and by type of crude oil. The report may also include other information available to the department including, but not limited to, place of origin, modes of transport, number of railroad cars delivering crude oil, and number and volume of spills during transport and delivery.

(4) A facility providing advance notice under this section is not responsible for meeting advance notice time frame requirements under subsection (1) of this section in the event that the schedule of arrivals of railroad cars carrying crude oil changes during a seven-day period.

(5) Consistent with the requirements of chapter 42.56 RCW, the department and any state, local, tribal, or public agency that receives information provided under this section may not disclose any such information to the public or to nongovernmental entities that contains proprietary, commercial, or financial information unless that information is aggregated. The requirement for aggregating information does not apply when information is shared

by the department with emergency response agencies as provided in subsection (2) of this section.

The information submitted to the commission must include a statement of whether the railroad has the ability to pay for damages resulting from a reasonable worst case spill of oil, as calculated by multiplying the reasonable per barrel cleanup and damage cost of spilled oil times the reasonable worst case spill volume as measured in barrels. A railroad company must include the information in the annual report submitted to the commission pursuant to RCW 81.04.080.

(2) The commission may not use the information submitted by a railroad company under this section as a basis for engaging in economic regulation of a railroad company.

(3) The commission may not use the information submitted by a railroad company under this section as a basis for penalizing a railroad company.

(4) Nothing in this section may be construed as assigning liability to a railroad company or establishing liquidated damages for a spill or accident involving the transport of crude oil by a railroad company.

(5) The commission may adopt rules for implementing this section consistent with the requirements of RCW 81.04.080.

NEW SECTION. Sec. 670. A new section is added to chapter 90.56 RCW to read as follows:

(1) The department must complete an evaluation and assessment of vessel traffic management and vessel traffic safety

within and near the mouth of the Columbia river. A draft evaluation and assessment must be completed and submitted to the legislature consistent with RCW 43.01.036 by December 15, 2017. A final evaluation and assessment must be completed by June 30, 2018. In conducting this evaluation, the department must consult with the United States coast guard, the Oregon board of maritime pilots, Columbia river harbor safety committee, the Columbia river bar pilots, the Columbia river pilots, area tribes, public ports in Oregon and Washington, local governments, and other appropriate entities.

(2) The evaluation and assessment completed under subsection (1) of this section must include, but is not limited to, an assessment and evaluation of: (a) The need for tug escorts for oil tankers, articulated tug barges, and other towed waterborne vessels or barges; (b) best achievable protection; and (c) required tug capabilities to ensure safe escort of vessels on the waters that are the subject of focus for each water body evaluated under subsection (1) of this section.

(3) The assessment and evaluations submitted to the legislature under subsection (1) of this section must include recommendations for vessel traffic management and vessel traffic safety on the Columbia river, including recommendations for tug escort requirements for vessels transporting oil as bulk cargo.

(4) All requirements in this section are subject to the availability of amounts appropriated for the specific purposes described.

(5) This section expires June 30, 2019.

NEW SECTION. Sec. 671. A new section is added to chapter 88.16 RCW to read as follows:

(1) The board of pilotage commissioners may adopt rules to implement this section. The rules may include tug escort requirements and other safety measures for oil tankers of greater than forty thousand deadweight tons, all articulated tug barges, and other towed waterborne vessels or barges within a two-mile radius of the Grays Harbor pilotage district as defined in RCW 88.16.050.

(2)(a) Prior to proposing a draft rule, the board of pilotage commissioners must consult with the department of ecology, the United States coast guard, the Grays Harbor safety committee, area tribes, public ports, local governments, and other appropriate entities. The board of pilotage commissioners may not adopt rules under this section unless a state agency or a local jurisdiction, for a facility within Grays Harbor that is required to have a contingency plan pursuant to chapter 90.56 RCW:

(i) Makes a final determination or issues a final permit after January 1, 2015, to site a new facility; or

(ii) Provides authority to an existing facility to process or receive crude oil for the first time.

(b) This subsection does not apply to a transmission pipeline or railroad facility.

(3) A rule adopted under this section must:

(a) Be designed to achieve best achievable protection as defined in RCW 88.46.010;

(b) Ensure that any escort tugs used have an aggregate shaft horsepower equivalent to at least five percent of the deadweight tons of the escorted oil tanker or articulated tug barge; and

(c) Ensure that escort tugs have sufficient mechanical capabilities to provide for safe escort.

(4) The provisions adopted under this section may not include rules affecting pilotage. This section does not affect any existing authority to establish pilotage requirements.

(5) The definitions in this subsection apply throughout this section unless the context clearly requires otherwise.

(a) "Articulated tug barge" means a tank barge and a towing vessel joined by hinged or articulated fixed mechanical equipment affixed or connecting to the stern of the tank barge.

(b) "Oil tanker" means a self-propelled deep draft tank vessel designed to transport oil in bulk. "Oil tanker" does not include an articulated tug barge tank vessel.

(c) "Waterborne vessel or barge" means any ship, barge, or other watercraft capable of traveling on the navigable waters of this state and capable of transporting any crude oil or petroleum product in quantities of ten thousand gallons or more for purposes other than providing fuel for its motor or engine.

Sec. 672. RCW 82.23B.010 and 1992 c 73 s 6 are each amended to read as follows:

~~(Unless the context clearly requires otherwise,)~~ The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Barrel" means a unit of measurement of volume equal to forty-two United States gallons of crude oil or petroleum product.

(2) "Crude oil" means any naturally occurring ~~((liquid)) hydrocarbons ((at atmospheric temperature and pressure coming from the earth, including condensate and natural gasoline))~~ coming from the earth that are liquid at twenty-five degrees Celsius and one atmosphere of pressure including, but not limited to, crude oil, bitumen and diluted bitumen, synthetic crude oil, and natural gas well condensate.

(3) "Department" means the department of revenue.

(4) "Marine terminal" means a facility of any kind, other than a waterborne vessel, that is used for transferring crude oil or petroleum products to or from a waterborne vessel or barge.

(5) "Navigable waters" means those waters of the state and their adjoining shorelines that are subject to the ebb and flow of the tide, including the Columbia and Snake rivers.

(6) "Person" has the meaning provided in RCW 82.04.030.

(7) "Petroleum product" means any liquid hydrocarbons at atmospheric temperature and pressure that are the product of the fractionation, distillation, or other refining or processing of crude oil, and that are used as, useable as, or may be refined as a fuel or fuel blendstock, including but not limited to, gasoline, diesel fuel, aviation fuel, bunker fuel, and fuels containing a blend of alcohol and petroleum.

(8) "Taxpayer" means the person owning crude oil or petroleum products immediately after receipt of the same into the storage tanks of a marine or bulk oil terminal in this state ~~((from a waterborne vessel or barge))~~ and who is liable for the taxes imposed by this chapter.

(9) "Waterborne vessel or barge" means any ship, barge, or other watercraft capable of ~~((travelling))~~ traveling on the navigable waters of this state and capable of transporting any crude oil or petroleum product in quantities of ten thousand gallons or more for purposes other than providing fuel for its motor or engine.

(10) "Bulk oil terminal" means a facility of any kind, other than a waterborne vessel, that is used for transferring crude oil or petroleum products from a tank car.

(11) "Tank car" means a rail car, the body of which consists of a tank for transporting liquids.

Sec. 673. RCW 82.23B.020 and 2006 c 256 s 2 are each amended to read as follows:

(1) An oil spill response tax is imposed on the privilege of receiving: (a) Crude oil or petroleum products at a marine terminal within this state from a waterborne vessel or barge operating on the navigable waters of this state; or (b) crude oil or petroleum products at a bulk oil terminal within this state from a tank car. The tax imposed in this section is levied upon the owner of the crude oil or petroleum products immediately after receipt of the same into the storage tanks of a marine or bulk oil terminal from a tank car or waterborne vessel or barge at the rate of one cent per barrel of crude oil or petroleum product received.

(2) In addition to the tax imposed in subsection (1) of this section, an oil spill administration tax is imposed on the privilege of

receiving: (a) Crude oil or petroleum products at a marine terminal within this state from a waterborne vessel or barge operating on the navigable waters of this state; or (b) crude oil or petroleum products at a bulk oil terminal within this state from a tank car. The tax imposed in this section is levied upon the owner of the crude oil or petroleum products immediately after receipt of the same into the storage tanks of a marine or bulk oil terminal from a tank car or waterborne vessel or barge at the rate of four cents per barrel of crude oil or petroleum product.

(3) The taxes imposed by this chapter ~~((shall))~~ must be collected by the marine or bulk oil terminal operator from the taxpayer. If any person charged with collecting the taxes fails to bill the taxpayer for the taxes, or in the alternative has not notified the taxpayer in writing of the ~~((imposition of the))~~ taxes imposed, or having collected the taxes, fails to pay them to the department in the manner prescribed by this chapter, whether such failure is the result of the person's own acts or the result of acts or conditions beyond the person's control, he or she ~~((shall))~~, nevertheless, ~~((be))~~ is personally liable to the state for the amount of the taxes. Payment of the taxes by the owner to a marine or bulk oil terminal operator ~~((shall))~~ relieves the owner from further liability for the taxes.

(4) Taxes collected under this chapter ~~((shall))~~ must be held in trust until paid to the department. Any person collecting the taxes who appropriates or converts the taxes collected ~~((shall be))~~ is guilty of a gross misdemeanor if the money required to be collected is not available for payment on the date payment is due. The taxes required by this chapter to be collected ~~((shall))~~ must be stated separately from other charges made by the marine or bulk oil terminal operator in any invoice or other statement of account provided to the taxpayer.

(5) If a taxpayer fails to pay the taxes imposed by this chapter to the person charged with collection of the taxes and the person charged with collection fails to pay the taxes to the department, the department may, in its discretion, proceed directly against the taxpayer for collection of the taxes.

(6) The taxes ~~((shall be))~~ are due from the marine or bulk oil terminal operator, along with reports and returns on forms prescribed by the department, within twenty-five days after the end of the month in which the taxable activity occurs.

(7) The amount of taxes, until paid by the taxpayer to the marine or bulk oil terminal operator or to the department, ~~((shall))~~ constitutes a debt from the taxpayer to the marine or bulk oil terminal operator. Any person required to collect the taxes under this chapter who, with intent to violate the provisions of this chapter, fails or refuses to do so as required and any taxpayer who refuses to pay any taxes due under this chapter, ~~((shall be))~~ is guilty of a misdemeanor as provided in chapter 9A.20 RCW.

(8) Upon prior approval of the department, the taxpayer may pay the taxes imposed by this chapter directly to the department. The department ~~((shall))~~ must give its approval for direct payment under this section whenever it appears, in the department's judgment, that direct payment will enhance the administration of the taxes imposed under this chapter. The department ~~((shall))~~ must provide by rule for the issuance of a direct payment certificate to any taxpayer qualifying for direct payment of the taxes. Good faith acceptance of a direct payment certificate by a terminal operator ~~((shall))~~ relieves the marine or bulk oil terminal operator from any liability for the collection or payment of the taxes imposed under this chapter.

(9) All receipts from the tax imposed in subsection (1) of this section ~~((shall))~~ must be deposited into the state oil spill response account. All receipts from the tax imposed in subsection (2) of this section shall be deposited into the oil spill prevention account.

(10) Within forty-five days after the end of each calendar quarter, the office of financial management ~~((shall))~~ must determine the balance of the oil spill response account as of the last day of that calendar quarter. Balance determinations by the office of financial

management under this section are final and ~~((shall))~~ may not be used to challenge the validity of any tax imposed under this chapter. The office of financial management ~~((shall))~~ must promptly notify the departments of revenue and ecology of the account balance once a determination is made. For each subsequent calendar quarter, the tax imposed by subsection (1) of this section shall be imposed during the entire calendar quarter unless:

(a) Tax was imposed under subsection (1) of this section during the immediately preceding calendar quarter, and the most recent quarterly balance is more than nine million dollars; or

(b) Tax was not imposed under subsection (1) of this section during the immediately preceding calendar quarter, and the most recent quarterly balance is more than eight million dollars.

Sec. 674. RCW 82.23B.030 and 1992 c 73 s 9 are each amended to read as follows:

The taxes imposed under this chapter ~~((shall))~~ only apply to the first receipt of crude oil or petroleum products at a marine or bulk oil terminal in this state and not to the later transporting and subsequent receipt of the same oil or petroleum product, whether in the form originally received at a marine or bulk oil terminal in this state or after refining or other processing.

Sec. 675. RCW 82.23B.040 and 1992 c 73 s 10 are each amended to read as follows:

Credit ~~((shall))~~ must be allowed against the taxes imposed under this chapter for any crude oil or petroleum products received at a marine or bulk oil terminal and subsequently exported from or sold for export from the state.

Sec. 676. RCW 38.52.040 and 2011 1st sp.s. c 21 s 27, 2011 c 336 s 789, and 2011 c 79 s 9 are each reenacted and amended to read as follows:

(1) There is hereby created the emergency management council (hereinafter called the council), to consist of not more than seventeen members who shall be appointed by the adjutant general. The membership of the council shall include, but not be limited to, representatives of city and county governments, sheriffs and police chiefs, the Washington state patrol, the military department, the department of ecology, state and local fire chiefs, seismic safety experts, state and local emergency management directors, search and rescue volunteers, medical professions who have expertise in emergency medical care, building officials, and private industry. The representatives of private industry shall include persons knowledgeable in emergency and hazardous materials management. The councilmembers shall elect a chair from within the council membership. The members of the council shall serve without compensation, but may be reimbursed for their travel expenses incurred in the performance of their duties in accordance with RCW 43.03.050 and 43.03.060 as now existing or hereafter amended.

(2) The emergency management council shall advise the governor and the director on all matters pertaining to state and local emergency management. The council may appoint such ad hoc committees, subcommittees, and working groups as are required to develop specific recommendations for the improvement of emergency management practices, standards, policies, or procedures. The council shall ensure that the governor receives an annual assessment of statewide emergency preparedness including, but not limited to, specific progress on hazard mitigation and reduction efforts, implementation of seismic safety improvements, reduction of flood hazards, and coordination of hazardous materials planning and response activities. ~~((The council or a subcommittee thereof shall periodically convene in special session and serve during those sessions as the state emergency response commission required by P.L. 99 499, the emergency planning and community right to know act. When sitting in session as the state emergency response commission, the council shall confine its deliberations to those items specified in federal statutes and state administrative rules governing the coordination of hazardous materials policy.))~~

The council shall review administrative rules governing state and local emergency management practices and recommend necessary revisions to the director.

(3) The council or a council subcommittee shall serve and periodically convene in special session as the state emergency response commission required by the emergency planning and community right-to-know act (42 U.S.C. Sec. 11001 et seq.). The state emergency response commission shall conduct those activities specified in federal statutes and regulations and state administrative rules governing the coordination of hazardous materials policy including, but not limited to, review of local emergency planning committee emergency response plans for compliance with the planning requirements in the emergency planning and community right-to-know act (42 U.S.C. Sec. 11001 et seq.). Committees shall annually review their plans to address changed conditions, and submit their plans to the state emergency response commission for review when updated, but not less than at least once every five years. The department may employ staff to assist local emergency planning committees in the development and annual review of these emergency response plans, with an initial focus on the highest risk communities through which trains that transport oil in bulk travel. By March 1, 2018, the department shall report to the governor and legislature on progress towards compliance with planning requirements. The report must also provide budget and policy recommendations for continued support of local emergency planning.

(4)(a) The intrastate mutual aid committee is created and is a subcommittee of the emergency management council. The intrastate mutual aid committee consists of not more than five members who must be appointed by the council chair from council membership. The chair of the intrastate mutual aid committee is the military department representative appointed as a member of the council. Meetings of the intrastate mutual aid committee must be held at least annually.

(b) In support of the intrastate mutual aid system established in chapter 38.56 RCW, the intrastate mutual aid committee shall develop and update guidelines and procedures to facilitate implementation of the intrastate mutual aid system by member jurisdictions, including but not limited to the following: Projected or anticipated costs; checklists and forms for requesting and providing assistance; recordkeeping; reimbursement procedures; and other implementation issues. These guidelines and procedures are not subject to the rule-making requirements of chapter 34.05 RCW.

Sec. 677. RCW 81.24.010 and 2007 c 234 s 21 are each amended to read as follows:

(1) Every company subject to regulation by the commission, except those listed in subsection (3) of this section, shall, on or before the date specified by the commission for filing annual reports under RCW 81.04.080, file with the commission a statement on oath showing its gross operating revenue from intrastate operations for the preceding calendar year, or portion thereof, and pay to the commission a fee equal to one-tenth of one percent of the first fifty thousand dollars of gross operating revenue, plus two-tenths of one percent of any gross operating revenue in excess of fifty thousand dollars, except railroad companies which shall each pay to the commission a fee ~~((equal))~~ of up to ((one)) two and one-half percent of its intrastate gross operating revenue. However, a class three railroad that does not haul crude oil must pay a fee equal to one and one-half percent of its intrastate gross operating revenue. The commission may, by rule, set minimum fees that do not exceed the cost of collecting the fees. The commission may by rule waive any or all of the minimum fee established pursuant to this section. Any railroad association that qualifies as a nonprofit charitable organization under the federal internal revenue code section 501(c)(3) is exempt from the fee required under this subsection.

(2) The percentage rates of gross operating revenue to be paid in any one year may be decreased by the commission for any class of companies subject to the payment of such fees, by general order entered before March 1st of such year, and for such purpose railroad companies are classified as class two. Every other company subject to regulation by the commission, for which regulatory fees are not otherwise fixed by law, shall pay fees as herein provided and shall constitute additional classes according to kinds of businesses engaged in.

(3) This section does not apply to private nonprofit transportation providers, auto transportation companies, charter party carriers and excursion service carriers, solid waste collection companies, motor freight carriers, household goods carriers, commercial ferries, and low-level radioactive waste storage facilities.

NEW SECTION. Sec. 678. A new section is added to chapter 81.44 RCW to read as follows:

Commission employees certified by the federal railroad administration to perform hazardous materials inspections may enter the property of any business that receives, ships, or offers for shipment hazardous materials by rail. Entry shall be at a reasonable time and in a reasonable manner. The purpose of entry is limited to performing inspections, investigations, or surveillance of equipment, records, and operations relating to the packaging, loading, unloading, or transportation of hazardous materials by rail, pursuant only to the state participation program outlined in 49 C.F.R. Part 212. The term "business" is all inclusive and is not limited to common carriers or public service companies.

NEW SECTION. Sec. 681. A new section is added to chapter 81.53 RCW to read as follows:

(1) To address the potential public safety hazards presented by private crossings in the state and by the transportation of hazardous materials in the state, including crude oil, the commission is authorized to and must adopt rules governing safety standards for private crossings along the railroad tracks over which crude oil is transported in the state. The commission is also authorized to conduct inspections of the private crossings subject to this section, to order the railroads to make improvements at the private crossings, and enforce the orders.

(2) The commission must adopt rules governing private crossings along railroad tracks over which crude oil is transported in the state, establishing:

(1) The department shall evaluate and update planning standards for oil spill response equipment required under contingency plans required by this chapter, including aerial

surveillance, in order to ensure access in the state to equipment that represents the best achievable protection to respond to a worst case spill and provide for continuous operation of oil spill response activities to the maximum extent practicable and without jeopardizing crew safety, as determined by the incident commander or the unified command.

(2) The department shall by rule update the planning standards at five-year intervals to ensure the maintenance of best available protection over time. Rule updates to covered nontank vessels shall minimize potential impacts to discretionary cargo moved through the state.

MESSAGE FROM THE SENATE

April 24, 2015

Mr. Speaker:

The Senate has passed HOUSE BILL NO. 2000 with the following amendment:

Strike everything after the enacting clause and insert the following:

"**NEW SECTION. Sec. 690.** A new section is added to chapter 43.06 RCW to read as follows:

The legislature intends to further the government-to-government relationship between the state of Washington and federally recognized Indian tribes in the state of Washington by authorizing the governor to enter into agreements concerning the regulation of marijuana. Such agreements may include provisions pertaining to: The lawful commercial production, processing, sale, and possession of marijuana for both recreational and medical purposes; marijuana-related research activities; law enforcement, both criminal and civil; and taxation. The legislature finds that these agreements will facilitate and promote a cooperative and mutually beneficial relationship between the state and the tribes regarding matters relating to the legalization of marijuana, particularly in light of the fact that federal Indian law precludes the state from enforcing its civil regulatory laws in Indian country. Such cooperative agreements will enhance public health and safety, ensure a lawful and well-regulated marijuana market, encourage economic development, and provide fiscal benefits to both the tribes and the state.

NEW SECTION. Sec. 691. A new section is added to chapter 43.06 RCW to read as follows:

(1) The governor may enter into agreements with federally recognized Indian tribes concerning marijuana. Marijuana

agreements may address any marijuana-related issue that involves both state and tribal interests or otherwise has an impact on tribal-state relations. Such agreements may include, but are not limited to, the following provisions and subject matter:

- (a) Criminal and civil law enforcement;
- (b) Regulatory issues related to the commercial production, processing, sale, and possession of marijuana, and processed marijuana products, for both recreational and medical purposes;
- (c) Medical and pharmaceutical research involving marijuana;
- (d) Taxation in accordance with subsection (2) of this section;
- (e) Any tribal immunities or preemption of state law regarding the production, processing, or marketing of marijuana; and
- (f) Dispute resolution, including the use of mediation or other nonjudicial process.

(2)(a) Each marijuana agreement adopted under this section must provide for a tribal marijuana tax that is at least one hundred percent of the state marijuana excise tax imposed under RCW 69.50.535 and state and local sales and use taxes on sales of marijuana. Marijuana agreements apply to sales in which tribes, tribal enterprises, or tribal member-owned businesses (i) deliver or cause delivery to be made to or receive delivery from a marijuana producer, processor, or retailer licensed under chapter 69.50 RCW or (ii) physically transfer possession of the marijuana from the seller to the buyer within Indian country.

(b) The tribe may allow an exemption from tax for sales to the tribe, tribal enterprises, tribal member-owned businesses, or tribal members on marijuana grown, produced, or processed within its Indian country, or for activities to the extent they are exempt under state or federal law from the state marijuana excise tax imposed under RCW 69.50.535 or state and local sales or use taxes on sales of marijuana. Medical marijuana products used in the course of medical treatments by a clinic, hospital, or similar facility owned and operated by a federally recognized Indian tribe within its Indian country may be exempted from tax under the terms of an agreement entered into under this section.

(3) Any marijuana agreement relating to the production, processing, and sale of marijuana in Indian country, whether for recreational or medical purposes, must address the following issues:

- (a) Preservation of public health and safety;
- (b) Ensuring the security of production, processing, retail, and research facilities; and
- (c) Cross-border commerce in marijuana.

(4) The governor may delegate the power to negotiate marijuana agreements to the state liquor control board. In conducting such negotiations, the state liquor control board must, when necessary, consult with the governor and/or the department of revenue.

(5) The definitions in this subsection apply throughout this section unless the context clearly requires otherwise.

(a) "Indian country" has the same meaning as in RCW 82.24.010.

(b) "Indian tribe" or "tribe" means a federally recognized Indian tribe located within the geographical boundaries of the state of Washington.

(c) "Marijuana" means "marijuana," "marijuana concentrates," "marijuana-infused products," and "useable marijuana," as those terms are defined in RCW 69.50.101.

NEW SECTION. Sec. 692. A new section is added to chapter 69.50 RCW to read as follows:

The taxes, fees, assessments, and other charges imposed by this chapter do not apply to commercial activities related to the production, processing, sale, and possession of marijuana, useable marijuana, marijuana concentrates, and marijuana-infused products covered by an agreement entered into under section 2 of this act.

NEW SECTION. Sec. 693. A new section is added to chapter 82.08 RCW to read as follows:

The taxes imposed by this chapter do not apply to the retail sale of marijuana, useable marijuana, marijuana concentrates, and marijuana-infused products covered by an agreement entered into under section 2 of this act. "Marijuana," "useable marijuana," "marijuana concentrates," and "marijuana-infused products" have the same meaning as defined in RCW 69.50.101.

NEW SECTION. Sec. 694. A new section is added to chapter 82.12 RCW to read as follows:

The taxes imposed by this chapter do not apply to the use of marijuana, useable marijuana, marijuana concentrates, and marijuana-infused products covered by an agreement entered into under section 2 of this act. "Marijuana," "useable marijuana," "marijuana concentrates," and "marijuana-infused products" have the same meaning as defined in RCW 69.50.101.

Sec. 695. RCW 69.50.360 and 2014 c 192 s 5 are each amended to read as follows:

The following acts, when performed by a validly licensed marijuana retailer or employee of a validly licensed retail outlet in compliance with rules adopted by the state liquor control board to implement and enforce chapter 3, Laws of 2013, ((shall)) do not constitute criminal or civil offenses under Washington state law:

(2) Possession of quantities of marijuana concentrates, useable marijuana, or marijuana-infused products that do not exceed the maximum amounts established by the state liquor control board under RCW 69.50.345(5); ((and))

(3) Delivery, distribution, and sale, on the premises of the retail outlet, of any combination of the following amounts of marijuana concentrates, useable marijuana, or marijuana-infused product to any person twenty-one years of age or older:

- (a) One ounce of useable marijuana;
- (b) Sixteen ounces of marijuana-infused product in solid form;
- (c) Seventy-two ounces of marijuana-infused product in liquid form; or

(4) Purchase and receipt of marijuana concentrates, useable marijuana, or marijuana-infused products that have been properly packaged and labeled from a federally recognized Indian tribe as permitted under an agreement between the state and the tribe entered into under section 2 of this act.

The following acts, when performed by a validly licensed marijuana processor or employee of a validly licensed marijuana processor in compliance with rules adopted by the state liquor control board to implement and enforce chapter 3, Laws of 2013, ((shall)) do not constitute criminal or civil offenses under Washington state law:

SECOND READING

ENGROSSED HOUSE BILL NO. 2151, by Representatives Jinkins, Schmick and Bergquist

Extending the hospital safety net assessment.

The bill was read the second time.

Representative Jinkins moved the adoption of amendment (501):

Strike everything after the enacting clause and insert the following:

"**Sec. 698.** RCW 74.60.005 and 2013 2nd sp.s. c 17 s 1 are each amended to read as follows:

(1) The purpose of this chapter is to provide for a safety net assessment on certain Washington hospitals, which will be used solely to augment funding from all other sources and thereby support additional payments to hospitals for medicaid services as specified in this chapter.

(2) The legislature finds that federal health care reform will result in an expansion of medicaid enrollment in this state and an increase in federal financial participation. ~~((As a result, the hospital safety net assessment and hospital safety net assessment fund created in this chapter will begin phasing down over a four year~~

~~period beginning in fiscal year 2016 as federal medicaid expansion is fully implemented. The state will end its reliance on the assessment and the fund by the end of fiscal year 2019.))~~

(3) In adopting this chapter, it is the intent of the legislature:

(a) To impose a hospital safety net assessment to be used solely for the purposes specified in this chapter;

(b) To generate approximately four hundred ~~((forty six million three hundred thirty eight thousand))~~ eighty-nine million dollars per state fiscal year ~~((in fiscal years 2014 and 2015, and then phasing down in equal increments to zero by the end of fiscal year 2019.))~~ in new state and federal funds by disbursing all of that amount to pay for medicaid hospital services and grants to certified public expenditure and critical access hospitals, except costs of administration as specified in this chapter, in the form of additional payments to hospitals and managed care plans, which may not be a substitute for payments from other sources;

(c) To generate ~~((one hundred ninety nine million eight hundred thousand))~~ two hundred eighty-three million dollars ~~((in the 2013-2015 biennium, phasing down to zero by the end of the 2017-2019 biennium.))~~ per biennium during the 2015-2017 and 2017-2019 biennia in new funds to be used in lieu of state general fund payments for medicaid hospital services;

(d) That the total amount assessed not exceed the amount needed, in combination with all other available funds, to support the payments authorized by this chapter; and

(e) To condition the assessment on receiving federal approval for receipt of additional federal financial participation and on continuation of other funding sufficient to maintain aggregate payment levels to hospitals for inpatient and outpatient services covered by medicaid, including fee-for-service and managed care, at least at the levels the state paid for those services on July 1, ~~((2009))~~ 2015, as adjusted for current enrollment and utilization, ~~((but without regard to payment increases resulting from chapter 30, Laws of 2010 1st sp. sess)).~~

Sec. 699. RCW 74.60.020 and 2013 2nd sp.s. c 17 s 3 are each amended to read as follows:

(1) A dedicated fund is hereby established within the state treasury to be known as the hospital safety net assessment fund. The purpose and use of the fund shall be to receive and disburse funds, together with accrued interest, in accordance with this chapter. Moneys in the fund, including interest earned, shall not be used or disbursed for any purposes other than those specified in this chapter. Any amounts expended from the fund that are later recouped by the authority on audit or otherwise shall be returned to the fund.

(a) Any unexpended balance in the fund at the end of a fiscal ~~((biennium))~~ year shall carry over into the following ~~((biennium))~~ fiscal year or that fiscal year and the following fiscal year and shall be applied to reduce the amount of the assessment under RCW 74.60.050(1)(c).

(b) Any amounts remaining in the fund after July 1, 2019, shall be refunded to hospitals, pro rata according to the amount paid by the hospital since July 1, 2013, subject to the limitations of federal law.

(2) All assessments, interest, and penalties collected by the authority under RCW 74.60.030 and 74.60.050 shall be deposited into the fund.

(3) Disbursements from the fund are conditioned upon appropriation and the continued availability of other funds sufficient to maintain aggregate payment levels to hospitals for inpatient and outpatient services covered by medicaid, including fee-for-service and managed care, at least at the levels the state paid for those services on July 1, ~~((2009))~~ 2015, as adjusted for current enrollment and utilization, ~~((but without regard to payment increases resulting from chapter 30, Laws of 2010 1st sp. sess)).~~

(4) Disbursements from the fund may be made only:

(a) To make payments to hospitals and managed care plans as specified in this chapter;

(b) To refund erroneous or excessive payments made by hospitals pursuant to this chapter;

(c) For one million dollars per biennium for payment of administrative expenses incurred by the authority in performing the activities authorized by this chapter;

(d) For ~~((one hundred ninety nine million eight hundred thousand))~~ two hundred eighty-three million dollars ~~((in the 2013-2015))~~ per biennium, ~~((phasing down to zero by the end of the 2017-2019 biennium))~~ to be used in lieu of state general fund payments for medicaid hospital services, provided that if the full amount of the payments required under RCW 74.60.120 and 74.60.130 cannot be distributed in a given fiscal year, this amount must be reduced proportionately;

(e) To repay the federal government for any excess payments made to hospitals from the fund if the assessments or payment increases set forth in this chapter are deemed out of compliance with federal statutes and regulations in a final determination by a court of competent jurisdiction with all appeals exhausted. In such a case, the authority may require hospitals receiving excess payments to refund the payments in question to the fund. The state in turn shall return funds to the federal government in the same proportion as the original financing. If a hospital is unable to refund payments, the state shall develop either a payment plan, or deduct moneys from future medicaid payments, or both;

(f) Beginning in state fiscal year 2015, to pay an amount sufficient, when combined with the maximum available amount of federal funds necessary to provide a one percent increase in medicaid hospital inpatient rates to hospitals eligible for quality improvement incentives under RCW 74.09.611.

Sec. 700. RCW 74.60.030 and 2014 c 143 s 1 are each amended to read as follows:

(1)(a) Upon satisfaction of the conditions in RCW 74.60.150(1), and so long as the conditions in RCW 74.60.150(2) have not occurred, an assessment is imposed as set forth in this subsection~~((, effective October 1, 2013))~~. ~~((Initial assessment notices must be sent to each hospital not earlier than thirty days after satisfaction of the conditions in RCW 74.60.150(1). Payment is due not sooner than thirty days thereafter. Except for the initial))~~ Assessment~~((s))~~ notices must be sent on or about thirty days prior to the end of each quarter and payment is due thirty days thereafter.

(b) Effective ~~((October 1, 2013))~~ July 1, 2015, and except as provided in RCW 74.60.050:

(i) ~~((For fiscal year 2014, an annual assessment for amounts determined as described in (b)(ii) through (iv) of this subsection is imposed for the time period of October 1, 2013, through June 30, 2014. The initial assessment notice must cover amounts due from October 1, 2013, through either: (A) The end of the calendar quarter prior to the satisfaction of the conditions in RCW 74.60.150(1) if federal approval is received more than forty five days prior to the end of a quarter; or (B) the end of the calendar quarter after the satisfaction of the conditions in RCW 74.60.150(1) if federal approval is received within forty five days of the end of a quarter. For subsequent assessments during fiscal year 2014, the authority shall calculate the amount due annually and shall issue assessments for the appropriate proportion of the annual amount due from each hospital;~~

~~((ii) After the assessments described in (b)(i) of this subsection,))~~ Each prospective payment system hospital, except psychiatric and rehabilitation hospitals, shall pay a quarterly assessment. Each quarterly assessment shall be no more than one quarter of three hundred ~~((forty four))~~ forty-five dollars for each annual nonmedicare hospital inpatient day, up to a maximum of fifty-four thousand days per year. For each nonmedicare hospital inpatient day in excess of fifty-four thousand days, each prospective

payment system hospital shall pay an assessment of one quarter of seven dollars for each such day;

~~((iii) After the assessments described in (b)(i) of this subsection,))~~ (ii) Each critical access hospital shall pay a quarterly assessment of one quarter of ten dollars for each annual nonmedicare hospital inpatient day;

~~((iv) After the assessments described in (b)(i) of this subsection,))~~ (iii) Each psychiatric hospital shall pay a quarterly assessment of no more than one quarter of ~~((sixty seven))~~ sixty-eight dollars for each annual nonmedicare hospital inpatient day; and

~~((v) After the assessments described in (b)(i) of this subsection,))~~ (iv) Each rehabilitation hospital shall pay a quarterly assessment of no more than one quarter of ~~((sixty seven))~~ sixty-eight dollars for each annual nonmedicare hospital inpatient day.

(2) The authority shall determine each hospital's annual nonmedicare hospital inpatient days by summing the total reported nonmedicare hospital inpatient days for each hospital that is not exempt from the assessment under RCW 74.60.040~~((, taken))~~. The authority shall obtain inpatient data from the hospital's 2552 cost report data file or successor data file available through the centers for medicare and medicaid services, as of a date to be determined by the authority. For state fiscal year ~~((2014))~~ 2016, the authority shall use cost report data for hospitals' fiscal years ending in ~~((2010))~~ 2012. For subsequent years, the hospitals' next succeeding fiscal year cost report data must be used.

(a) With the exception of a prospective payment system hospital commencing operations after January 1, 2009, for any hospital without a cost report for the relevant fiscal year, the authority shall work with the affected hospital to identify appropriate supplemental information that may be used to determine annual nonmedicare hospital inpatient days.

(b) A prospective payment system hospital commencing operations after January 1, 2009, must be assessed in accordance with this section after becoming an eligible new prospective payment system hospital as defined in RCW 74.60.010.

Sec. 701. RCW 74.60.050 and 2013 2nd sp.s. c 17 s 5 are each amended to read as follows:

(1) The authority, in cooperation with the office of financial management, shall develop rules for determining the amount to be assessed to individual hospitals, notifying individual hospitals of the assessed amount, and collecting the amounts due. Such rule making shall specifically include provision for:

(a) Transmittal of notices of assessment by the authority to each hospital informing the hospital of its nonmedicare hospital inpatient days and the assessment amount due and payable;

(b) Interest on delinquent assessments at the rate specified in RCW 82.32.050; and

(c) Adjustment of the assessment amounts in accordance with subsection~~((s))~~ (2) ~~((and (3)))~~ of this section.

(2) For state fiscal year ~~((2015))~~ 2016 and each subsequent state fiscal year, the assessment amounts established under RCW 74.60.030 must be adjusted as follows:

(a) If sufficient other funds, including federal funds, are available to make the payments required under this chapter and fund the state portion of the quality incentive payments under RCW 74.09.611 and 74.60.020(4)(f) without utilizing the full assessment under RCW 74.60.030, the authority shall reduce the amount of the assessment to the minimum levels necessary to support those payments;

(b) If the total amount of inpatient or outpatient supplemental payments under RCW 74.60.120 is in excess of the upper payment limit and the entire excess amount cannot be disbursed by additional payments to managed care organizations under RCW 74.60.130, the authority shall proportionately reduce future assessments on prospective payment hospitals to the level necessary to generate

additional payments to hospitals that are consistent with the upper payment limit plus the maximum permissible amount of additional payments to managed care organizations under RCW 74.60.130;

(c) If the amount of payments to managed care organizations under RCW 74.60.130 cannot be distributed because of failure to meet federal actuarial soundness or utilization requirements or other federal requirements, the authority shall apply the amount that cannot be distributed to reduce future assessments to the level necessary to generate additional payments to managed care organizations that are consistent with federal actuarial soundness or utilization requirements or other federal requirements;

(d) If required in order to obtain federal matching funds, the maximum number of nonmedicare inpatient days at the higher rate provided under RCW 74.60.030(1)(b)(i) may be adjusted in order to comply with federal requirements;

(e) If the number of nonmedicare inpatient days applied to the rates provided in RCW 74.60.030 will not produce sufficient funds to support the payments required under this chapter and the state portion of the quality incentive payments under RCW 74.09.611 and 74.60.020(4)(f), the assessment rates provided in RCW 74.60.030 may be increased proportionately by category of hospital to amounts no greater than necessary in order to produce the required level of funds needed to make the payments specified in this chapter and the state portion of the quality incentive payments under RCW 74.09.611 and 74.60.020(4)(f); and

(f) Any actual or estimated surplus remaining in the fund at the end of the fiscal year must be applied to reduce the assessment amount for the subsequent fiscal year or that fiscal year and the following fiscal years prior to and including fiscal year 2019.

(3) ~~((For each fiscal year after June 30, 2015, the assessment amounts established under RCW 74.60.030 must be adjusted as follows:~~

~~(a) In order to support the payments required in this chapter, the assessment amounts must be reduced in approximately equal yearly increments each fiscal year by category of hospital until the assessment amount is zero by July 1, 2019;~~

~~(b) If sufficient other funds, including federal funds, are available to make the payments required under this chapter and fund the state portion of the quality incentive payments under RCW 74.09.611 and 74.60.020(4)(f) without utilizing the full assessment under RCW 74.60.030, the authority shall reduce the amount of the assessment to the minimum levels necessary to support those payments;~~

~~(c) If in any fiscal year the total amount of inpatient or outpatient supplemental payments under RCW 74.60.120 is in excess of the upper payment limit and the entire excess amount cannot be disbursed by additional payments to managed care organizations under RCW 74.60.130, the authority shall proportionately reduce future assessments on prospective payment hospitals to the level necessary to generate additional payments to hospitals that are consistent with the upper payment limit plus the maximum permissible amount of additional payments to managed care organizations under RCW 74.60.130;~~

~~(d) If the amount of payments to managed care organizations under RCW 74.60.130 cannot be distributed because of failure to meet federal actuarial soundness or utilization requirements or other federal requirements, the authority shall apply the amount that cannot be distributed to reduce future assessments to the level necessary to generate additional payments to managed care organizations that are consistent with federal actuarial soundness or utilization requirements or other federal requirements;~~

~~(e) If required in order to obtain federal matching funds, the maximum number of nonmedicare inpatient days at the higher rate provided under RCW 74.60.030(1)(b)(i) may be adjusted in order to comply with federal requirements;~~

~~(f) If the number of nonmedicare inpatient days applied to the rates provided in RCW 74.60.030 will not produce sufficient funds to support the payments required under this chapter and the state portion of the quality incentive payments under RCW 74.09.611 and 74.60.020(4)(f), the assessment rates provided in RCW 74.60.030 may be increased proportionately by category of hospital to amounts no greater than necessary in order to produce the required level of funds needed to make the payments specified in this chapter and the state portion of the quality incentive payments under RCW 74.09.611 and 74.60.020(4)(f); and~~

~~(g) Any actual or estimated surplus remaining in the fund at the end of the fiscal year must be applied to reduce the assessment amount for the subsequent fiscal year.~~

~~(4))~~(a) Any adjustment to the assessment amounts pursuant to this section, and the data supporting such adjustment, including, but not limited to, relevant data listed in (b) of this subsection, must be submitted to the Washington state hospital association for review and comment at least sixty calendar days prior to implementation of such adjusted assessment amounts. Any review and comment provided by the Washington state hospital association does not limit the ability of the Washington state hospital association or its members to challenge an adjustment or other action by the authority that is not made in accordance with this chapter.

(b) The authority shall provide the following data to the Washington state hospital association sixty days before implementing any revised assessment levels, detailed by fiscal year, beginning with fiscal year 2011 and extending to the most recent fiscal year, except in connection with the initial assessment under this chapter:

(i) The fund balance;

(ii) The amount of assessment paid by each hospital;

(iii) The state share, federal share, and total annual medicaid fee-for-service payments for inpatient hospital services made to each hospital under RCW 74.60.120, and the data used to calculate the payments to individual hospitals under that section;

(iv) The state share, federal share, and total annual medicaid fee-for-service payments for outpatient hospital services made to each hospital under RCW 74.60.120, and the data used to calculate annual payments to individual hospitals under that section;

(v) The annual state share, federal share, and total payments made to each hospital under each of the following programs: Grants to certified public expenditure hospitals under RCW 74.60.090, for critical access hospital payments under RCW 74.60.100; and disproportionate share programs under RCW 74.60.110;

(vi) The data used to calculate annual payments to individual hospitals under (b)(v) of this subsection; and

(vii) The amount of payments made to managed care plans under RCW 74.60.130, including the amount representing additional premium tax, and the data used to calculate those payments.

(c) On a monthly basis, the authority shall provide the Washington state hospital association the amount of payments made to managed care plans under RCW 74.60.130, including the amount representing additional premium tax, and the data used to calculate those payments.

Sec. 702. RCW 74.60.090 and 2013 2nd sp.s. c 17 s 8 are each amended to read as follows:

(1) In each fiscal year commencing upon satisfaction of the applicable conditions in RCW 74.60.150(1), funds must be disbursed from the fund and the authority shall make grants to certified public expenditure hospitals, which shall not be considered payments for hospital services, as follows:

(a) University of Washington medical center: ~~((Three million three hundred thousand dollars per state fiscal year in fiscal years 2014 and 2015, and then reduced in approximately equal increments per fiscal year until the grant amount is zero by July 1,))~~ Four million

four hundred fifty-five thousand dollars in each state fiscal year 2016 through 2019;

(b) Harborview medical center: ~~((Seven million six hundred thousand dollars per state fiscal year in fiscal years 2014 and 2015, and then reduced in approximately equal increments per fiscal year until the grant amount is zero by July 1,))~~ Ten million two hundred sixty thousand dollars in each state fiscal year 2016 through 2019;

(c) All other certified public expenditure hospitals: ~~((Four million seven hundred thousand dollars per state fiscal year in fiscal years 2014 and 2015, and then reduced in approximately equal increments per fiscal year until the grant amount is zero by July 1,))~~ Six million three hundred forty-five thousand dollars in each state fiscal year 2016 through 2019. The amount of payments to individual hospitals under this subsection must be determined using a methodology that provides each hospital with a proportional allocation of the group's total amount of medicaid and state children's health insurance program payments determined from claims and encounter data using the same general methodology set forth in RCW 74.60.120 (3) and (4).

(2) Payments must be made quarterly, before the end of each quarter, taking the total disbursement amount and dividing by four to calculate the quarterly amount. ~~((The initial payment, which must include all amounts due from and after July 1, 2013, to the date of the initial payment, must be made within thirty days after satisfaction of the conditions in RCW 74.60.150(1).))~~ The authority shall provide a quarterly report of such payments to the Washington state hospital association.

Sec. 703. RCW 74.60.100 and 2013 2nd sp.s. c 17 s 9 are each amended to read as follows:

In each fiscal year commencing upon satisfaction of the conditions in RCW 74.60.150(1), the authority shall make access payments to critical access hospitals that do not qualify for or receive a small rural disproportionate share hospital payment in a given fiscal year in the total amount of ~~((five hundred twenty))~~ seven hundred two thousand dollars from the fund and to critical access hospitals that receive disproportionate share payments in the total amount of one million three hundred thirty-six thousand dollars. The amount of payments to individual hospitals under this section must be determined using a methodology that provides each hospital with a proportional allocation of the group's total amount of medicaid and state children's health insurance program payments determined from claims and encounter data using the same general methodology set forth in RCW 74.60.120 (3) and (4). Payments must be made after the authority determines a hospital's payments under RCW 74.60.110. These payments shall be in addition to any other amount payable with respect to services provided by critical access hospitals and shall not reduce any other payments to critical access hospitals. The authority shall provide a report of such payments to the Washington state hospital association within thirty days after payments are made.

Sec. 704. RCW 74.60.120 and 2014 c 143 s 2 are each amended to read as follows:

(1) ~~((Beginning))~~ In each state fiscal year ~~((2014)),~~ commencing ~~((thirty days after))~~ upon satisfaction of the applicable conditions in RCW 74.60.150(1), ~~((and for the period of state fiscal years 2014 through 2019,))~~ the authority shall make supplemental payments directly to Washington hospitals, separately for inpatient and outpatient fee-for-service medicaid services, as follows:

(a) For inpatient fee-for-service payments for prospective payment hospitals other than psychiatric or rehabilitation hospitals, ~~twenty-nine million ((two hundred twenty five thousand))~~ one hundred sixty-two thousand five hundred dollars per state fiscal year ~~((in fiscal years 2014 and 2015, and then amounts reduced in equal increments per fiscal year until the supplemental payment amount is zero by July 1, 2019, from the fund,))~~ plus federal matching funds;

(b) For outpatient fee-for-service payments for prospective payment hospitals other than psychiatric or rehabilitation hospitals, ~~thirty million dollars per state fiscal year ((in fiscal years 2014 and 2015, and then amounts reduced in equal increments per fiscal year until the supplemental payment amount is zero by July 1, 2019, from the fund,))~~ plus federal matching funds;

(c) For inpatient fee-for-service payments for psychiatric hospitals, ~~((six hundred twenty five thousand))~~ eight hundred seventy-five thousand dollars per state fiscal year ~~((in fiscal years 2014 and 2015, and then amounts reduced in equal increments per fiscal year until the supplemental payment amount is zero by July 1, 2019, from the fund,))~~ plus federal matching funds;

(d) For inpatient fee-for-service payments for rehabilitation hospitals, ~~((one hundred fifty thousand))~~ two hundred twenty-five thousand dollars per state fiscal year ~~((in fiscal years 2014 and 2015, and then amounts reduced in equal increments per fiscal year until the supplemental payment amount is zero by July 1, 2019, from the fund,))~~ plus federal matching funds;

(e) For inpatient fee-for-service payments for border hospitals, ~~two hundred fifty thousand dollars per state fiscal year ((in fiscal years 2014 and 2015, and then amounts reduced in equal increments per fiscal year until the supplemental payment amount is zero by July 1, 2019, from the fund,))~~ plus federal matching funds; and

(f) For outpatient fee-for-service payments for border hospitals, ~~two hundred fifty thousand dollars per state fiscal year ((in fiscal years 2014 and 2015, and then amounts reduced in equal increments per fiscal year until the supplemental payment amount is zero by July 1, 2019, from the fund,))~~ plus federal matching funds.

(2) If the amount of inpatient or outpatient payments under subsection (1) of this section, when combined with federal matching funds, exceeds the upper payment limit, payments to each category of hospital must be reduced proportionately to a level where the total payment amount is consistent with the upper payment limit. Funds under this chapter unable to be paid to hospitals under this section because of the upper payment limit must be paid to managed care organizations under RCW 74.60.130, subject to the limitations in this chapter.

(3) The amount of such fee-for-service inpatient payments to individual hospitals within each of the categories identified in subsection (1)(a), (c), (d), and (e) of this section must be determined by:

(a) Applying the medicaid fee-for-service rates in effect on July 1, 2009, without regard to the increases required by chapter 30, Laws of 2010 1st sp. sess. to each hospital's inpatient fee-for-services claims and medicaid managed care encounter data for the base year;

(b) Applying the medicaid fee-for-service rates in effect on July 1, 2009, without regard to the increases required by chapter 30, Laws of 2010 1st sp. sess. to all hospitals' inpatient fee-for-services claims and medicaid managed care encounter data for the base year; and

(c) Using the amounts calculated under (a) and (b) of this subsection to determine an individual hospital's percentage of the total amount to be distributed to each category of hospital.

(4) The amount of such fee-for-service outpatient payments to individual hospitals within each of the categories identified in subsection (1)(b) and (f) of this section must be determined by:

(a) Applying the medicaid fee-for-service rates in effect on July 1, 2009, without regard to the increases required by chapter 30, Laws of 2010 1st sp. sess. to each hospital's outpatient fee-for-services claims and medicaid managed care encounter data for the base year;

(b) Applying the medicaid fee-for-service rates in effect on July 1, 2009, without regard to the increases required by chapter 30, Laws of 2010 1st sp. sess. to all hospitals' outpatient fee-for-services

claims and medicaid managed care encounter data for the base year; and

(c) Using the amounts calculated under (a) and (b) of this subsection to determine an individual hospital's percentage of the total amount to be distributed to each category of hospital.

(5) ~~((Thirty days before the initial payments and))~~ Sixty days before the first payment in each subsequent fiscal year, the authority shall provide each hospital and the Washington state hospital association with an explanation of how the amounts due to each hospital under this section were calculated.

(6) Payments must be made in quarterly installments on or about the last day of every quarter. ~~((The initial payment must be made within thirty days after satisfaction of the conditions in RCW 74.60.150(1) and must include all amounts due from July 1, 2013, to either: (a) The end of the calendar quarter prior to when the conditions in RCW 70.60.150(1) [74.60.150(1)] are satisfied if approval is received more than forty five days prior to the end of a quarter; or (b) the end of the calendar quarter after the satisfaction of the conditions in RCW 74.60.150(1) if approval is received within forty five days of the end of a quarter.))~~

(7) A prospective payment system hospital commencing operations after January 1, 2009, is eligible to receive payments in accordance with this section after becoming an eligible new prospective payment system hospital as defined in RCW 74.60.010.

(8) Payments under this section are supplemental to all other payments and do not reduce any other payments to hospitals.

Sec. 705. RCW 74.60.130 and 2014 c 143 s 3 are each amended to read as follows:

(1) For state fiscal year ~~((2014))~~ 2016 and for each subsequent fiscal year, commencing within thirty days after satisfaction of the conditions in RCW 74.60.150(1) and subsection ~~((6))~~ (5) of this section, ~~((and for the period of state fiscal years 2014 through 2019.))~~ the authority shall increase capitation payments in a manner consistent with federal contracting requirements to managed care organizations by an amount at least equal to the amount available from the fund after deducting disbursements authorized by RCW 74.60.020(4) (c) through (f) and payments required by RCW 74.60.080 through 74.60.120. The capitation payment under this subsection must be no less than one hundred ~~((fifty three))~~ million ~~((one hundred thirty one thousand six hundred))~~ dollars per state fiscal year ~~((in fiscal years 2014 and 2015, and then the increased capitation payment amounts are reduced in equal increments per fiscal year until the increased capitation payment amount is zero by July 1, 2019.))~~ plus the maximum available amount of federal matching funds. The initial payment following satisfaction of the conditions in RCW 74.60.150(1) must include all amounts due from July 1, ~~((2013))~~ 2015, to the end of the calendar month during which the conditions in RCW 74.60.150(1) are satisfied. Subsequent payments shall be made monthly.

(2) ~~((In fiscal years 2015, 2016, and 2017, the authority shall use any additional federal matching funds for the increased managed care capitation payments under subsection (1) of this section available from medicaid expansion under the federal patient protection and affordable care act to substitute for assessment funds which otherwise would have been used to pay managed care plans under this section.))~~

~~((3))~~ Payments to individual managed care organizations shall be determined by the authority based on each organization's or network's enrollment relative to the anticipated total enrollment in each program for the fiscal year in question, the anticipated utilization of hospital services by an organization's or network's medicaid enrollees, and such other factors as are reasonable and appropriate to ensure that purposes of this chapter are met.

~~((4))~~ (3) If the federal government determines that total payments to managed care organizations under this section exceed what is permitted under applicable medicaid laws and regulations,

payments must be reduced to levels that meet such requirements, and the balance remaining must be applied as provided in RCW 74.60.050. Further, in the event a managed care organization is legally obligated to repay amounts distributed to hospitals under this section to the state or federal government, a managed care organization may recoup the amount it is obligated to repay under the medicaid program from individual hospitals by not more than the amount of overpayment each hospital received from that managed care organization.

~~((5))~~ (4) Payments under this section do not reduce the amounts that otherwise would be paid to managed care organizations: PROVIDED, That such payments are consistent with actuarial soundness certification and enrollment.

~~((6))~~ (5) Before making such payments, the authority shall require medicaid managed care organizations to comply with the following requirements:

(a) All payments to managed care organizations under this chapter must be expended for hospital services provided by Washington hospitals, which for purposes of this section includes psychiatric and rehabilitation hospitals, in a manner consistent with the purposes and provisions of this chapter, and must be equal to all increased capitation payments under this section received by the organization or network, consistent with actuarial certification and enrollment, less an allowance for any estimated premium taxes the organization is required to pay under Title 48 RCW associated with the payments under this chapter;

(b) Managed care organizations shall expend the increased capitation payments under this section in a manner consistent with the purposes of this chapter, with the initial expenditures to hospitals to be made within thirty days of receipt of payment from the authority. Subsequent expenditures by the managed care plans are to be made before the end of the quarter in which funds are received from the authority;

(c) Providing that any delegation or attempted delegation of an organization's or network's obligations under agreements with the authority do not relieve the organization or network of its obligations under this section and related contract provisions.

~~((7))~~ (6) No hospital or managed care organizations may use the payments under this section to gain advantage in negotiations.

~~((8))~~ (7) No hospital has a claim or cause of action against a managed care organization for monetary compensation based on the amount of payments under subsection ~~((6))~~ (5) of this section.

~~((9))~~ (8) If funds cannot be used to pay for services in accordance with this chapter the managed care organization or network must return the funds to the authority which shall return them to the hospital safety net assessment fund.

Sec. 706. RCW 74.60.150 and 2013 2nd sp.s. c 17 s 15 are each amended to read as follows:

(1) The assessment, collection, and disbursement of funds under this chapter shall be conditional upon:

(a) Final approval by the centers for medicare and medicaid services of any state plan amendments or waiver requests that are necessary in order to implement the applicable sections of this chapter including, if necessary, waiver of the broad-based or uniformity requirements as specified under section 1903(w)(3)(E) of the federal social security act and 42 C.F.R. 433.68(e);

(c) Certification by the office of financial management that appropriations have been adopted that fully support the rates established in this chapter for the upcoming fiscal year.

(2) This chapter does not take effect or ceases to be imposed, and any moneys remaining in the fund shall be refunded to hospitals in proportion to the amounts paid by such hospitals, if and to the extent that any of the following conditions occur:

(a) The federal department of health and human services and a court of competent jurisdiction makes a final determination, with all appeals exhausted, that any element of this chapter, other than RCW 74.60.100, cannot be validly implemented;

(b) Funds generated by the assessment for payments to prospective payment hospitals or managed care organizations are determined to be not eligible for federal match;

(c) Other funding sufficient to maintain aggregate payment levels to hospitals for inpatient and outpatient services covered by medicaid, including fee-for-service and managed care, at least at the levels the state paid for those services on July 1, ~~((2009))~~ 2015, as adjusted for current enrollment and utilization ~~((, but without regard to payment increases resulting from chapter 30, Laws of 2010 1st sp. sess.))~~ is not appropriated or available;

(d) Payments required by this chapter are reduced, except as specifically authorized in this chapter, or payments are not made in substantial compliance with the time frames set forth in this chapter; or

(e) The fund is used as a substitute for or to supplant other funds, except as authorized by RCW 74.60.020.

Sec. 707. RCW 74.60.160 and 2013 2nd sp.s. c 17 s 17 are each amended to read as follows:

(1) The legislature intends to provide the hospitals with an opportunity to contract with the authority each fiscal biennium to protect the hospitals from future legislative action during the biennium that could result in hospitals receiving less from supplemental payments, increased managed care payments, disproportionate share hospital payments, or access payments than the hospitals expected to receive in return for the assessment based on the biennial appropriations and assessment legislation.

(2) Each odd-numbered year after enactment of the biennial omnibus operating appropriations act, the authority shall offer to enter into a contract or to extend an existing contract for the period of the fiscal biennium beginning July 1st with a hospital that is required to pay the assessment under this chapter. The contract must include the following terms:

(a) The authority must agree not to do any of the following:

(i) Increase the assessment from the level set by the authority pursuant to this chapter on the first day of the contract period for reasons other than those allowed under RCW 74.60.050 ~~((2))~~ (2)(e);

(ii) Reduce aggregate payment levels to hospitals for inpatient and outpatient services covered by medicaid, including fee-for-service and managed care, ~~((allowing for variations due to budget-neutral rebasing and))~~ adjusting for changes in enrollment and utilization, from the levels the state paid for those services on the first day of the contract period;

(iii) For critical access hospitals only, reduce the levels of disproportionate share hospital payments under RCW 74.60.110 or access payments under RCW 74.60.100 for all critical access hospitals below the levels specified in those sections on the first day of the contract period;

(iv) For prospective payment system, psychiatric, and rehabilitation hospitals only, reduce the levels of supplemental payments under RCW 74.60.120 for all prospective payment system hospitals below the levels specified in that section on the first day of the contract period unless the supplemental payments are reduced under RCW 74.60.120(2);

(v) For prospective payment system, psychiatric, and rehabilitation hospitals only, reduce the increased capitation payments to managed care organizations under RCW 74.60.130 below the levels specified in that section on the first day of the contract period unless the managed care payments are reduced under RCW 74.60.130 ~~((4))~~ (3); or

(vi) Except as specified in this chapter, use assessment revenues for any other purpose than to secure federal medicaid

matching funds to support payments to hospitals for medicaid services; and

(b) As long as payment levels are maintained as required under this chapter, the hospital must agree not to challenge the authority's reduction of hospital reimbursement rates to July 1, 2009, levels, which results from the elimination of assessment supported rate restorations and increases, under 42 U.S.C. Sec. 1396a(a)(30)(a) either through administrative appeals or in court during the period of the contract.

(3) If a court finds that the authority has breached an agreement with a hospital under subsection (2)(a) of this section, the authority:

(a) Must immediately refund any assessment payments made subsequent to the breach by that hospital upon receipt; and

(b) May discontinue supplemental payments, increased managed care payments, disproportionate share hospital payments, and access payments made subsequent to the breach for the hospital that are required under this chapter.

(4) The remedies provided in this section are not exclusive of any other remedies and rights that may be available to the hospital whether provided in this chapter or otherwise in law, equity, or statute.

The appropriations in this section are subject to the following conditions and limitations:

(1) Except as provided otherwise in this section, the entire transportation 2003 account (nickel account) appropriation and the entire transportation partnership account appropriation are provided solely for the projects and activities as listed by fund, project, and amount in LEAP Transportation Document 2015-1 as developed May 26, 2015, Program - Highway Improvements Program (I). Any federal funds gained through efficiencies, adjustments to the federal funds forecast, additional congressional action not related to a specific project or purpose, or the federal funds redistribution process must then be applied to highway and bridge preservation activities. However, no additional federal funds may be allocated to the I-5/Columbia River Crossing project (400506A).

(3) Within the motor vehicle account—state appropriation and motor vehicle account—federal appropriation, the department may transfer funds between programs I and P, except for funds that are otherwise restricted in this act.

(9) Within existing resources, during the regular sessions of the legislature, the department of transportation shall participate in work sessions, before the transportation committees of the house of representatives and senate, on the Alaskan Way viaduct replacement project. These work sessions must include a report on current progress of the project, timelines for completion, outstanding claims, the financial status

of the project, and any other information necessary for the legislature to maintain appropriate oversight of the project. The parties invited to present may include the department of transportation, the Seattle tunnel partners, and other appropriate stakeholders.

Any future savings on the project must stay on the US 395/Interstate 90 corridor and be made available to the current phase of the North Spokane corridor project or any future phase of the project in 2015-2017.

(11) \$46,894,000 of the transportation partnership account—state appropriation, \$10,317,000 of the transportation 2003 account (nickel account)—state appropriation, and \$1,000 of the motor vehicle account—private/local appropriation are provided solely for the I-405/Kirkland Vicinity Stage 2 - Widening project (8BI1002). This project must be completed as soon as practicable as a design-build project. Any future savings on this project or other Interstate 405 corridor projects must stay on the Interstate 405 corridor and be made available to either the I-405/SR 167 Interchange - Direct Connector project (140504C) or the I-405 Renton to Bellevue project in the 2015-2017 fiscal biennium.

(12)(a) The SR 520 Bridge Replacement and HOV project (8BI1003) is supported over time from multiple sources, including a \$300,000,000 TIFIA loan, \$923,000,000 in Garvee bonds, toll revenues, state bonds, interest earnings, and other miscellaneous sources.

(b) The state route number 520 corridor account—state appropriation includes up to \$343,505,000 in proceeds from the sale of bonds authorized in RCW 47.10.879 and 47.10.886.

(c) The state route number 520 corridor account—federal appropriation includes up to \$104,801,000 in proceeds from the sale of bonds authorized in RCW 47.10.879 and 47.10.886.

(d) \$82,195,000 of the transportation partnership account—state appropriation, \$104,801,000 of the state route number 520 corridor account—federal appropriation, and \$367,792,000 of the state route number 520 corridor account—state appropriation are provided solely for the SR 520 Bridge Replacement and HOV project (8BI1003). Of the amounts appropriated in this subsection (12)(d), \$232,598,000 of the state route number 520 corridor account—state appropriation must be put into unallotted status and is subject to review by the office of financial management. The director of the office of financial management shall consult with the joint transportation committee prior to making a decision to allot these funds.

(e) When developing the financial plan for the project, the department shall assume that all maintenance and operation costs for the new facility are to be covered by tolls collected on the toll facility and not by the motor vehicle account.

(13) \$15,000,000 of the state route number 520 civil penalties account—state appropriation is provided solely for the department to continue to work with the Seattle department of transportation in their joint planning, design, right-of-way acquisition, outreach, and operation of the remaining west side elements including, but not limited to, the Montlake lid, the bicycle/pedestrian path, the effective network of transit connections, and the Portage Bay bridge of the SR 520 Bridge Replacement and HOV project.

(14) \$548,000 of the motor vehicle account—federal appropriation and \$19,000 of the motor vehicle account—state appropriation are provided solely for the 31st Ave SW Overpass Widening and Improvement project (L1100048).

(15) The legislature finds that there are sixteen companies involved in wood preserving in the state that employ four hundred workers and have an annual payroll of fifteen million dollars. Prior to the department's switch to steel guardrails, ninety percent of the twenty-five hundred mile guardrail system was constructed of preserved wood and one hundred ten thousand wood guardrail posts were produced annually for state use. Moreover, the policy of using steel posts requires the state to use imported steel. Given these findings, where practicable, and until June 30, 2017, the department shall include the design option to use wood guardrail posts, in addition to steel posts, in new guardrail installations. The selection of posts must be consistent with the agency design manual policy that existed before December 2009.

(16) For urban corridors that are all or partially within a metropolitan planning organization boundary, for which the department has not initiated environmental review, and that require an environmental impact statement, at least one alternative must be consistent with the goals set out in RCW 47.01.440.

(17) The department shall itemize all future requests for the construction of buildings on a project list and submit them through the transportation executive information system as part of the department's 2016 budget submittal. It is the intent of the legislature that new facility construction must be transparent and not appropriated within larger highway construction projects.

(18) \$59,438,000 of the motor vehicle account—federal appropriation, \$572,000 of the motor vehicle account—state appropriation, and \$388,000 of the motor vehicle account—private/local appropriation are provided solely for fish passage barrier and chronic deficiency improvements (OBI4001).

(19) Any new advisory group that the department convenes during the 2015-2017 fiscal biennium must consider the interests of the entire state of Washington.

(20) Practical design offers targeted benefits to a state transportation system within available fiscal resources. This delivers value not just for individual projects, but for the entire system. Applying practical design standards will also preserve and enhance safety and mobility. The department shall implement a practical design strategy for transportation design standards. By June 30, 2016, the department shall report to the governor and the house of representatives and senate transportation committees on where practical design has been applied or is intended to be applied in the department and the cost savings resulting from the use of practical design. This subsection takes effect if chapter . . . (Substitute House Bill No. 2012), Laws of 2015 is not enacted by June 30, 2015.

IMPLEMENTING PROVISIONS

NEW SECTION. Sec. 601. FUND TRANSFERS

(1) The transportation 2003 projects or improvements and the 2005 transportation partnership projects or improvements are listed in the LEAP list titled 2015-1 as developed May 26, 2015, which consists of a list of specific projects by fund source and amount over a ten-year period. Current fiscal biennium funding for each project is a line-item appropriation, while the outer year funding allocations represent a ten-year plan. The department is expected to use the flexibility provided in this section to assist in the delivery and completion of all transportation partnership account and transportation 2003 account (nickel account) projects on the LEAP transportation documents referenced in this act. However, this section does not apply to the I-5/Columbia River Crossing project (400506A). For the 2015-2017 project appropriations, unless otherwise provided in this act, the director of financial management may authorize a transfer of appropriation authority between projects funded with transportation 2003 account (nickel account) appropriations, or transportation partnership account appropriations, in order to manage project spending and efficiently deliver all projects in the respective program under the following conditions and limitations:

- (a) Transfers may only be made within each specific fund source referenced on the respective project list;
- (b) Transfers from a project may not be made as a result of the reduction of the scope of a project or be made to support increases in the scope of a project;
- (c) Each transfer between projects may only occur if the director of financial management finds that any resulting change will not hinder the completion of the projects as approved by the legislature. Until the legislature reconvenes to consider the 2016 supplemental omnibus transportation appropriations act, any unexpended 2013-2015 appropriation balance as approved by the office of financial management, in consultation with the legislative staff of the house of representatives and senate transportation committees, may be considered when transferring funds between projects;
- (d) Transfers from a project may be made if the funds appropriated to the project are in excess of the amount needed to complete the project;
- (e) Transfers may not occur for projects not identified on the applicable project list;
- (f) Transfers may not be made while the legislature is in session; and
- (g) Transfers between projects may be made, without the approval of the director of the office of financial management, by the department of transportation until the transfer amount by project exceeds two hundred fifty thousand dollars, or ten percent of the total project, whichever is less. These transfers must be reported quarterly to the director of financial management and the chairs of the house of representatives and senate transportation committees.

(2) At the time the department submits a request to transfer funds under this section, a copy of the request must be submitted to the transportation committees of the legislature.

(3) The office of financial management shall work with legislative staff of the house of representatives and senate transportation committees to review the requested transfers in a timely manner.

(4) The office of financial management shall document approved transfers and schedule changes in the transportation executive information system, compare changes to the legislative baseline funding and schedules identified by project identification number identified in the LEAP transportation documents referenced in this act, and transmit revised project lists to chairs of the transportation committees of the legislature on a quarterly basis.

NEW SECTION. Sec. 602. FOR THE DEPARTMENT OF TRANSPORTATION

As part of its 2016 supplemental budget submittal, the department shall provide a report to the legislature and the office of financial management that:

(1) Identifies, by capital project, the amount of state funding that has been reappropriated from the 2013-2015 fiscal biennium into the 2015-2017 fiscal biennium; and

(2) Identifies, for each project, the amount of cost savings or increases in funding that have been identified as compared to the 2013 enacted omnibus transportation appropriations act.

(3) As part of the agency request for capital programs, the department shall load reappropriations separately from funds that were assumed to be required for the 2015-2017 fiscal biennium into budgeting systems.

NEW SECTION. Sec. 603. FOR THE DEPARTMENT OF TRANSPORTATION

(1) The department shall submit a report to the transportation committees of the legislature detailing engineering errors on highway construction projects resulting in project cost increases in excess of five hundred thousand dollars. The department must submit a full report within ninety days of the negotiated change order resulting from the engineering error.

(2) The department's full report must include an assessment and review of:

(a) How the engineering error happened;

(b) The department of the employee or employees responsible for the engineering error, without disclosing the name of the employee or employees;

(c) What corrective action was taken;

(d) The estimated total cost of the engineering error and how the department plans to mitigate that cost;

(e) Whether the cost of the engineering error will impact the overall project financial plan; and

(f) What action the secretary has recommended to avoid similar engineering errors in the future.

NEW SECTION. Sec. 604. FOR THE DEPARTMENT OF TRANSPORTATION

The department of transportation may provide up to \$3,000,000 in toll credits to Kitsap Transit for its role in passenger-only ferry service and ferry corridor-related projects. The number of toll credits provided must be equal to, but no more than, the number sufficient to meet federal match requirements for grant funding for passenger-only ferry service, but must not exceed the amount authorized in this section.

NEW SECTION. Sec. 605. To the extent that any appropriation authorizes expenditures of state funds from the motor vehicle account, special category C account, Tacoma Narrows toll bridge account, transportation 2003 account (nickel account), transportation partnership account, transportation improvement account, Puget Sound capital construction account, multimodal transportation account, state route number 520 corridor account, or other transportation capital project account in the state treasury for a state transportation program that is specified to be funded with proceeds from the sale of bonds authorized in chapter 47.10 RCW, the legislature declares that any such expenditures made prior to the issue date of the applicable transportation bonds for that state transportation program are intended to be reimbursed from proceeds of those transportation bonds in a maximum amount equal to the amount of such appropriation.

NEW SECTION. Sec. 606. FOR THE DEPARTMENT OF TRANSPORTATION—WEB SITE REPORTING REQUIREMENTS

(1) The department of transportation shall post on its web site every report that is due from the department to the legislature during the 2015-2017 fiscal biennium on one web page. The department must post both completed reports and planned reports on a single web page.

(2) The department shall provide a web link for each change order that is more than five hundred thousand dollars on the affected project web page.

NEW SECTION. Sec. 607. VOLUNTARY RETIREMENT AND SEPARATION INCENTIVES

As a management tool to reduce costs and make more effective use of resources, while improving employee productivity and morale, agencies may implement a voluntary retirement and/or separation program that is cost neutral or results in cost savings, including costs to the state pension systems, over a two-year period following the commencement of the program, provided that the program is approved by the director of financial management. Agencies participating in this authorization may offer voluntary retirement and/or separation incentives and options according to procedures and guidelines established by the office of financial management, in consultation with the office of the state human resources director and the department of retirement systems. The options may include, but are not limited to, financial incentives for voluntary separation or retirement. An employee does not have any contractual right to a financial incentive offered pursuant to this section. Offers must be reviewed and monitored jointly by the office of the state human resources director and the department of retirement systems. Agencies must submit a report by June 30, 2017, to the legislature and the office of financial management on the outcome of their approved incentive program. The report should include information on the details of the program, including the incentive payment amount for each participant, the total cost to the state, and the projected or actual net dollar savings over the two-year period.

The department of retirement systems may collect from employers the actuarial cost of any incentive provided under this program, or any other incentive to retire provided by employers to members of the state's pension systems, for deposit in the appropriate pension account.

MISCELLANEOUS 2015-2017 FISCAL BIENNIUM

(1) Effective June 1, 2006, for agencies complying with the ultra-low sulfur diesel mandate of the United States environmental protection agency for on-highway diesel fuel, agencies shall use biodiesel as an additive to ultra-low sulfur diesel for lubricity, provided that the use of a lubricity additive is warranted and that the use of biodiesel is comparable in performance and cost with other available lubricity additives. The amount of biodiesel added to the ultra-low sulfur diesel fuel shall be not less than two percent.

(2) Except as provided in subsection (5) of this section, effective June 1, 2009, state agencies are required to use a minimum of twenty percent biodiesel as compared to total volume of all diesel purchases made by the agencies for the operation of the agencies' diesel-powered vessels, vehicles, and construction equipment.

(3) All state agencies using biodiesel fuel shall, beginning on July 1, 2006, file biannual reports with the department of enterprise services documenting the use of the fuel and a description of how any problems encountered were resolved.

(4) By December 1, 2009, the department of enterprise services shall:

(a) Report to the legislature on the average true price differential for biodiesel by blend and location; and

(b) Examine alternative fuel procurement methods that work to address potential market barriers for in-state biodiesel producers and report these findings to the legislature.

(5) During the 2011-2013 (~~and~~), 2013-2015, and 2015-2017 fiscal biennia, the Washington state ferries is required to use a minimum of five percent biodiesel as compared to total volume of all diesel purchases made by the Washington state ferries for the operation of the Washington state ferries diesel-powered vessels, as long as the price of a B5 biodiesel blend does not exceed the price of conventional diesel fuel by five percent or more.

Sec. 702. RCW 46.63.170 and 2013 c 306 s 711 are each amended to read as follows:

(1) The use of automated traffic safety cameras for issuance of notices of infraction is subject to the following requirements:

(a) The appropriate local legislative authority must prepare an analysis of the locations within the jurisdiction where automated traffic safety cameras are proposed to be located: (i) Before enacting an ordinance allowing for the initial use of automated traffic safety cameras; and (ii) before adding additional cameras or relocating any existing camera to a new location within the jurisdiction. Automated traffic safety cameras may be used to detect one or more of the following: Stoplight, railroad crossing, or school speed zone violations. At a minimum, the local ordinance must contain the restrictions described in this section and provisions for public notice and signage. Cities and counties using automated traffic safety cameras before July 24, 2005, are subject to the restrictions described in this section, but are not required to enact an authorizing ordinance. Beginning one year after June 7, 2012, cities and counties using automated traffic safety cameras must post an annual report of the number of traffic accidents that occurred at each location where an automated traffic safety camera is located as well as the number of notices of infraction issued for each camera and any other relevant information about the automated traffic safety cameras that the city or county deems appropriate on the city's or county's web site.

(b) Use of automated traffic safety cameras is restricted to the following locations only: (i) Intersections of two arterials with traffic control signals that have yellow change interval durations in accordance with RCW 47.36.022, which interval durations may not be reduced after placement of the camera; (ii) railroad crossings; and (iii) school speed zones.

(c) During the (~~2011-2013 and~~) 2013-2015 and 2015-2017 fiscal biennia, automated traffic safety cameras may be used to detect speed violations for the purposes of (~~section 201(2), chapter 367, Laws of 2011 and~~) section 201(4), chapter 306, Laws of 2013 and section 201(1) of this act if the local legislative authority first enacts an ordinance authorizing the use of cameras to detect speed violations.

(d) Automated traffic safety cameras may only take pictures of the vehicle and vehicle license plate and only while an infraction is occurring. The picture must not reveal the face of the driver or of passengers in the vehicle. The primary purpose of camera placement is to take pictures of the vehicle and vehicle license plate when an infraction is occurring. Cities and counties shall consider installing cameras in a manner that minimizes the impact of camera flash on drivers.

(e) A notice of infraction must be mailed to the registered owner of the vehicle within fourteen days of the violation, or to the renter of a vehicle within fourteen days of establishing the renter's name and address under subsection (3)(a) of this section. The law enforcement officer issuing the notice of infraction shall include with it a certificate or facsimile thereof, based upon inspection of photographs, microphotographs, or electronic images produced by an automated traffic safety camera, stating the facts supporting the notice of infraction. This certificate or facsimile is prima facie evidence of the facts contained in it and is admissible in a proceeding charging a violation under this chapter. The photographs, microphotographs, or electronic images evidencing the violation must be available for inspection and admission into evidence in a proceeding to adjudicate the liability for the infraction. A person receiving a notice of infraction based on evidence detected by an automated traffic safety camera may respond to the notice by mail.

(f) The registered owner of a vehicle is responsible for an infraction under RCW 46.63.030(1)(d) unless the registered owner overcomes the presumption in RCW 46.63.075, or, in the case of a rental car business, satisfies the conditions under subsection (3) of this section. If appropriate under the circumstances, a renter identified under subsection (3)(a) of this section is responsible for an infraction.

(g) Notwithstanding any other provision of law, all photographs, microphotographs, or electronic images prepared under this section are for the exclusive use of law enforcement in the discharge of duties under this section and are not open to the public and may not be used in a court in a pending action or proceeding unless the action or proceeding relates to a violation under this section. No photograph, microphotograph, or electronic image may be used for any purpose other than enforcement of violations under this section nor retained longer than necessary to enforce this section.

(h) All locations where an automated traffic safety camera is used must be clearly marked at least thirty days prior to activation of the camera by placing signs in locations that clearly indicate to a driver that he or she is entering a zone where traffic laws are enforced by an automated traffic safety camera. Signs placed in automated traffic safety camera locations after June 7, 2012, must follow the specifications and guidelines under the manual of uniform traffic control devices for streets and highways as adopted by the department of transportation under chapter 47.36 RCW.

(i) If a county or city has established an authorized automated traffic safety camera program under this section, the compensation paid to the manufacturer or vendor of the equipment used must be based only upon the value of the equipment and services provided or rendered in support of the system, and may not be based upon a portion of the fine or civil penalty imposed or the revenue generated by the equipment.

(2) Infractions detected through the use of automated traffic safety cameras are not part of the registered owner's driving record under RCW 46.52.101 and 46.52.120. Additionally, infractions generated by the use of automated traffic safety cameras under this section shall be processed in the same manner as parking infractions, including for the purposes of RCW 3.50.100, 35.20.220, 46.16A.120, and 46.20.270(~~(3))~~ (2). The amount of the fine issued for an infraction generated through the use of an automated traffic safety camera shall not exceed the amount of a fine issued for other parking infractions within the jurisdiction. However, the amount of the fine issued for a traffic control signal violation detected through the use of an automated traffic safety camera shall not exceed the monetary penalty for a violation of RCW 46.61.050 as provided under RCW 46.63.110, including all applicable statutory assessments.

(3) If the registered owner of the vehicle is a rental car business, the law enforcement agency shall, before a notice of infraction being issued under this section, provide a written notice to the rental car business that a notice of infraction may be issued to the rental car business if the rental car business does not, within eighteen days of receiving the written notice, provide to the issuing agency by return mail:

(a) A statement under oath stating the name and known mailing address of the individual driving or renting the vehicle when the infraction occurred; or

(b) A statement under oath that the business is unable to determine who was driving or renting the vehicle at the time the infraction occurred because the vehicle was stolen at the time of the infraction. A statement provided under this subsection must be accompanied by a copy of a filed police report regarding the vehicle theft; or

(c) In lieu of identifying the vehicle operator, the rental car business may pay the applicable penalty.

Timely mailing of this statement to the issuing law enforcement agency relieves a rental car business of any liability under this chapter for the notice of infraction.

(4) Nothing in this section prohibits a law enforcement officer from issuing a notice of traffic infraction to a person in control of a vehicle at the time a violation occurs under RCW 46.63.030(1) (a), (b), or (c).

(5) For the purposes of this section, "automated traffic safety camera" means a device that uses a vehicle sensor installed to work in conjunction with an intersection traffic control system, a railroad grade crossing control system, or a speed measuring device, and a camera synchronized to automatically record one or more sequenced photographs, microphotographs, or electronic images of the rear of a motor vehicle at the time the vehicle fails to stop when facing a steady red traffic control signal or an activated railroad grade crossing control signal, or exceeds a speed limit in a school speed zone as detected by a speed measuring device. During the ~~((2011-2013 and))~~ 2013-2015 and 2015-2017 fiscal biennia, an automated traffic safety camera includes a camera used to detect speed violations for the purposes of ~~((section 201(2), chapter 367, Laws of 2011 and))~~ section 201(4), chapter 306, Laws of 2013 and section 201(1) of this act.

(1) The department may provide for the establishment, construction, and operation of a pilot project of high occupancy toll lanes on state route 167 high occupancy vehicle lanes within King county. The department may issue, buy, and redeem bonds, and deposit and expend them; secure and remit financial and other assistance in the construction of high occupancy toll lanes, carry insurance, and handle any other matters pertaining to the high occupancy toll lane pilot project.

(2) Tolls for high occupancy toll lanes will be established as follows:

(a) The schedule of toll charges for high occupancy toll lanes must be established by the transportation commission and collected in a manner determined by the commission.

(b) Toll charges shall not be assessed on transit buses and vanpool vehicles owned or operated by any public agency.

(c) The department shall establish performance standards for the state route 167 high occupancy toll lane pilot project. The department must automatically adjust the toll charge, using dynamic tolling, to ensure that toll-paying single-occupant vehicle users are only permitted to enter the lane to the extent that average vehicle speeds in the lane remain above forty-five miles per hour at least ninety percent of the time during peak hours. The toll charge may vary in amount by time of day, level of traffic congestion within the highway facility, vehicle occupancy, or other criteria, as the commission may deem appropriate. The commission may also vary toll charges for single-occupant inherently low-emission vehicles such as those powered by electric batteries, natural gas, propane, or other clean burning fuels.

(d) The commission shall periodically review the toll charges to determine if the toll charges are effectively maintaining travel time, speed, and reliability on the highway facilities.

(3) The department shall monitor the state route 167 high occupancy toll lane pilot project and shall annually report to the transportation commission and the legislature on operations and findings. At a minimum, the department shall provide facility use data and review the impacts on:

- (a) Freeway efficiency and safety;
- (b) Effectiveness for transit;
- (c) Person and vehicle movements by mode;
- (d) Ability to finance improvements and transportation services through tolls; and

(e) The impacts on all highway users. The department shall analyze aggregate use data and conduct, as needed, separate surveys to assess usage of the facility in relation to geographic, socioeconomic, and demographic information within the corridor in order to ascertain actual and perceived questions of equitable use of the facility.

(4) The department shall modify the pilot project to address identified safety issues and mitigate negative impacts to high occupancy vehicle lane users.

(5) Authorization to impose high occupancy vehicle tolls for the state route 167 high occupancy toll pilot project expires if either of the following two conditions apply:

(a) If no contracts have been let by the department to begin construction of the toll facilities associated with this pilot project within four years of July 24, 2005; or

(b) If high occupancy vehicle tolls are being collected on June 30, ~~((2015))~~ 2017.

(6) The department of transportation shall adopt rules that allow automatic vehicle identification transponders used for electronic toll collection to be compatible with other electronic payment devices or transponders from the Washington state ferry system, other public transportation systems, or other toll collection systems to the extent that technology permits.

(7) The conversion of a single existing high occupancy vehicle lane to a high occupancy toll lane as proposed for SR-167 must be taken as the exception for this pilot project.

(8) A violation of the lane restrictions applicable to the high occupancy toll lanes established under this section is a traffic infraction.

(9) Procurement activity associated with this pilot project shall be open and competitive in accordance with chapter 39.29 RCW.

Moneys in the account may be spent only after appropriation. Expenditures from the account may be used to fund any project within the state route number 520 bridge replacement and HOV program, including mitigation. During the ~~((2011-2013 and))~~ 2013-2015 and 2015-2017 fiscal biennia, the legislature may transfer from the state route number 520 civil penalties account to the state route number 520 corridor account such amounts as reflect the excess fund balance of the state route number 520 civil penalties account. Sec. 707. RCW 47.64.170 and 2013 c 306 s 521 are each amended to read as follows:

(1) Any ferry employee organization certified as the bargaining representative shall be the exclusive representative of all ferry employees in the bargaining unit and shall represent all such employees fairly.

(2) A ferry employee organization or organizations and the governor may each designate any individual as its representative to engage in collective bargaining negotiations.

(3) Negotiating sessions, including strategy meetings of the employer or employee organizations, mediation, and the deliberative process of arbitrators are exempt from the provisions of chapter 42.30 RCW. Hearings conducted by arbitrators may be open to the public by mutual consent of the parties.

(4) Terms of any collective bargaining agreement may be enforced by civil action in Thurston county superior court upon the initiative of either party.

(5) Ferry system employees or any employee organization shall not negotiate or attempt to negotiate directly with anyone other than the person who has been appointed or authorized a bargaining representative for the purpose of bargaining with the ferry employees or their representative.

(6)(a) Within ten working days after the first Monday in September of every odd-numbered year, the parties shall attempt to agree on an interest arbitrator to be used if the parties are not successful in negotiating a comprehensive collective bargaining agreement. If the parties cannot agree on an arbitrator within the ten-day period, either party may request a list of seven arbitrators from the federal mediation and conciliation service. The parties shall select an interest arbitrator using the coin toss/alternate strike method within thirty calendar days of receipt of the list. Immediately upon selecting an interest arbitrator, the parties shall cooperate to reserve dates with the arbitrator for potential arbitration between August 1st and September 15th of the following even-numbered year. The parties shall also prepare a schedule of at least five negotiation dates for the following year, absent an agreement to the contrary. The parties shall execute a written agreement before November 1st of each odd-numbered year setting forth the name of the arbitrator and the dates reserved for bargaining and arbitration. This subsection (6)(a) imposes minimum obligations only and is not intended to define or limit a party's full, good faith bargaining obligation under other sections of this chapter.

(b) The negotiation of a proposed collective bargaining agreement by representatives of the employer and a ferry employee organization shall commence on or about February 1st of every even-numbered year.

(c) For negotiations covering the 2009-2011 biennium and subsequent biennia, the time periods specified in this section, and in RCW 47.64.210 and 47.64.300 through 47.64.320, must ensure conclusion of all agreements on or before October 1st of the even-numbered year next preceding the biennial budget period during which the agreement should take effect. These time periods may only be altered by mutual agreement of the parties in writing. Any such agreement and any impasse procedures agreed to by the parties under RCW 47.64.200 must include an agreement regarding the new time periods that will allow final resolution by negotiations or arbitration by October 1st of each even-numbered year.

(7) It is the intent of this section that the collective bargaining agreement or arbitrator's award shall commence on July 1st of each odd-numbered year and shall terminate on June 30th of the next odd-numbered year to coincide with the ensuing biennial budget year, as defined

by RCW 43.88.020(7), to the extent practical. It is further the intent of this section that all collective bargaining agreements be concluded by October 1st of the even-numbered year before the commencement of the biennial budget year during which the agreements are to be in effect. After the expiration date of a collective bargaining agreement negotiated under this chapter, except to the extent provided in subsection (11) of this section and RCW 47.64.270(4), all of the terms and conditions specified in the collective bargaining agreement remain in effect until the effective date of a subsequently negotiated agreement, not to exceed one year from the expiration date stated in the agreement. Thereafter, the employer may unilaterally implement according to law.

(8) The office of financial management shall conduct a salary survey, for use in collective bargaining and arbitration, which must be conducted through a contract with a firm nationally recognized in the field of human resources management consulting except during the 2015-2017 fiscal biennium.

(9) Except as provided in subsection (11) of this section:

(a) The governor shall submit a request either for funds necessary to implement the collective bargaining agreements including, but not limited to, the compensation and fringe benefit provisions or for legislation necessary to implement the agreement, or both. Requests for funds necessary to implement the collective bargaining agreements shall not be submitted to the legislature by the governor unless such requests:

(i) Have been submitted to the director of the office of financial management by October 1st before the legislative session at which the requests are to be considered; and

(ii) Have been certified by the director of the office of financial management as being feasible financially for the state.

(b) The governor shall submit a request either for funds necessary to implement the arbitration awards or for legislation necessary to implement the arbitration awards, or both. Requests for funds necessary to implement the arbitration awards shall not be submitted to the legislature by the governor unless such requests:

(i) Have been submitted to the director of the office of financial management by October 1st before the legislative session at which the requests are to be considered; and

(ii) Have been certified by the director of the office of financial management as being feasible financially for the state.

(c) The legislature shall approve or reject the submission of the request for funds necessary to implement the collective bargaining agreements or arbitration awards as a whole for each agreement or award. The legislature shall not consider a request for funds to implement a collective bargaining agreement or arbitration award unless the request is transmitted to the legislature as part of the governor's budget document submitted under RCW 43.88.030 and 43.88.060. If the legislature rejects or fails to act on the submission, either party may reopen all or part of the agreement and award or the exclusive bargaining representative may seek to implement the procedures provided for in RCW 47.64.210 and 47.64.300.

(10) If, after the compensation and fringe benefit provisions of an agreement are approved by the legislature, a significant revenue shortfall occurs resulting in reduced appropriations, as declared by proclamation of the governor or by resolution of the legislature, both parties shall immediately enter into collective bargaining for a mutually agreed upon modification of the agreement.

(11)(a) For the collective bargaining agreements negotiated for the 2011-2013 fiscal biennium, the legislature may consider a request for funds to implement a collective bargaining agreement even if the request for funds was not received by the office of financial management by October 1st and was not transmitted to the legislature as part of the governor's budget document submitted under RCW 43.88.030 and 43.88.060.

(b) For the 2013-2015 fiscal biennium, a collective bargaining agreement related to employee health care benefits negotiated between the employer and coalition pursuant to RCW 41.80.020(3) regarding the dollar amount expended on behalf of each employee must be a separate agreement for which the governor may request funds necessary to implement the agreement. The legislature may act upon a 2013-2015 collective bargaining agreement related to employee health care benefits if an agreement is reached and submitted to the office of financial management and legislative budget committees before final legislative action on the biennial or supplemental operating budget by the sitting legislature.

(c) For the collective bargaining agreements negotiated for the 2013-2015 fiscal biennium, the legislature may consider a request for funds to implement a collective bargaining agreement reached after October 1st after a determination of financial infeasibility by the director of the office of financial management if the request for funds is transmitted to the legislature as part of the governor's budget document submitted under RCW 43.88.030 and 43.88.060.

No credits deferred under this subsection (2)(b)(i) may be used after June 30, 2008. A person deferring tax credits under this subsection (2)(b)(i) must submit an application as provided in RCW 82.70.025 in the year in which the deferred tax credits will be used. This application is subject to the provisions of subsection (1) of this section for the year in which the tax credits will be applied. If a deferred credit is reduced under subsection (1)(b) of this section, the amount of deferred credit disallowed because of the reduction may be carried forward as long as the period of deferral does not exceed three years after the year in which the credit was earned.

(ii) For credits approved by the department after June 30, 2005, the approved credit may be carried forward to subsequent years until used. Credits carried forward as authorized by this subsection are subject to the limitation in subsection (1)(a) of this section for the fiscal year for which the credits were originally approved.

(3) No person shall be approved for tax credits under RCW 82.70.020 in excess of two hundred thousand dollars in any fiscal year. This limitation does not apply to credits carried forward from prior years under subsection (2)(b) of this section.

Sec. 905. 2014 c 222 s 205 (uncodified) is amended to read as follows:

FOR THE TRANSPORTATION COMMISSION

Motor Vehicle Account—State Appropriation	((\$3,516,000))
	<u>\$3,389,000</u>
Multimodal Transportation Account—State	
Appropriation.....	\$112,000
TOTAL APPROPRIATION	<u>\$3,628,000</u>
	<u>\$3,501,000</u>

The appropriations in this section are subject to the following conditions and limitations:

(1) Consistent with RCW 43.135.055, 47.60.290, and 47.60.315, during the 2013-2015 fiscal biennium, the legislature authorizes the transportation commission to periodically review and, if necessary, adjust the schedule of fares for the Washington state ferry system only in

amounts not greater than those sufficient to generate the amount of revenue required by the biennial transportation budget. When adjusting ferry fares, the commission must consider input from affected ferry users by public hearing and by review with the affected ferry advisory committees, in addition to the data gathered from the current ferry user survey.

(2) Consistent with RCW 43.135.055 and 47.46.100, during the 2013-2015 fiscal biennium, the legislature authorizes the transportation commission to periodically review and, if necessary, adjust the schedule of toll charges applicable to the Tacoma Narrows bridge only in amounts not greater than those sufficient to support (a) any required costs for operating and maintaining the toll bridge, including the cost of insurance, (b) any amount required by law to meet the redemption of bonds and applicable interest payments, and (c) repayment of the motor vehicle fund.

(3) Consistent with RCW 43.135.055 and 47.56.880, during the 2013-2015 fiscal biennium, the legislature authorizes the transportation commission to set, periodically review, and, if necessary, adjust the schedule of toll charges applicable to the Interstate 405 express toll lanes.

(4)(a) \$400,000 of the motor vehicle account—state appropriation is provided solely for the development of the business case for the transition to a road usage charge system as the basis for funding the state transportation system, from the current motor fuel tax system. The funds are provided for fiscal year 2014 only.

(b) The legislature finds that the efforts started in the 2011-2013 fiscal biennium regarding the transition to a road usage charge system represent an important first step in the policy and conceptual development of potential alternative systems to fund transportation projects, but that the governance for the development needs clarification. The legislature also finds that significant amounts of research and public education are occurring in similar efforts in several states and that these efforts can and should be leveraged to advance the evaluation in Washington. The legislature intends, therefore, that the commission and its staff lead the policy development of the business case for a road usage charge system, with the goal of providing the business case to the governor and the legislative committees of the legislature in time for inclusion in the 2014 supplemental omnibus transportation appropriations act. The legislature intends for additional oversight in the business case development, with guidance from a steering committee as provided in chapter 86, Laws of 2012, augmented with participation by the joint transportation committee. The legislature further intends that the department of transportation continue to address administrative, technical, and conceptual operational issues related to road usage charge systems, and that the department serve as a resource for information gleaned from other states on this topic for the commission's efforts.

(c) For the purposes of this subsection (4), the commission shall:

(i) Develop preliminary road usage charge policies that are necessary to develop the business case, as well as supporting research and data that will guide the potential application in Washington;

(ii) Develop the preferred operational concept or concepts that reflect the preliminary policies;

(iii) Evaluate the business case for the road usage charge system that would result from implementing the preliminary policies and preferred operational concept or concepts. The evaluation must assess likely financial outcomes if the system were to be implemented; and

(iv) Identify and document policy and other issues that are deemed important to further refine the preferred operational concept or concepts and to gain public acceptance. These identified issues should form the basis for continued work beyond this funding cycle.

(d) The commission shall convene a steering committee to guide the development of the business case. The membership must be the same as provided in chapter 86, Laws of 2012, except that the membership must also include the joint transportation committee executive members.

(e) The commission shall submit a report of the business case to the governor and the transportation committees of the legislature by December 15, 2013. The report must also include a proposed budget and work plan for fiscal year 2015. A progress report must be submitted to the governor and the joint transportation committee by November 1, 2013, including a presentation to the joint transportation committee.

(5) \$174,000 of the motor vehicle account—state appropriation is provided solely for the voice of Washington survey program. The funding must be utilized for continued program maintenance and two transportation surveys for the 2013-2015 fiscal biennium.

(6)(a) \$450,000 of the motor vehicle account—state appropriation is provided solely for a work plan to further develop the concept of a road usage charge system. The work plan must include: Refinement of initial policy analysis and development, a concept of operations that incorporates refined policy inputs, and a financial analysis evaluating the operational concept. The refinement of initial policy analysis and development funded under this subsection must be supplemented by the products of complementary policy refinement tasks delegated to the department of transportation in section 214 (~~of this act~~), chapter 222, Laws of 2014 and the office of the state treasurer in section 703 (~~of this act~~), chapter 222, Laws of 2014. It is the intent of the legislature that consideration for potential planning for a pilot project and any risk analysis occur in the 2015 legislative session.

(b)(i) For the purposes of the refinement of initial policy analysis and development, the work plan must consider phasing and staging of how a road usage charge would be implemented as it relates to the types of vehicles that would be subject to a road usage charge and the nature and manner of a transition period.

(ii) For the purposes of this subsection (6)(b), the legislature intends that the commission focus its analysis by assuming that the exemptions under a road usage charge would be the same as those under the motor vehicle fuel and special fuel taxes. In addition, the commission must engage the road usage charge steering committee, which was reauthorized in chapter 306, Laws of 2013 for fiscal year 2014 and is hereby reauthorized in this act with the same membership, to continue in its role and, at a minimum, to guide the work specified in (a) of this subsection, including the following: Assessing and recommending the type of vehicles that would be subject to the road usage charge, and assessing and recommending the options for the timing and duration of the transition period. The steering committee shall report its findings and guidance to the commission by December 1, 2014.

(c)(i) For the purposes of the development of the concept of operations, the development must incorporate the products of (b) of this subsection, and, to the extent practicable, the products of work conducted by the department of transportation in section 214 (~~of this act~~), chapter 222, Laws of 2014 and the office of the state treasurer in section 703 (~~of this act~~), chapter 222, Laws of 2014.

(ii) To reduce system development and operational costs, for road user charge options that rely on in-vehicle devices to record mileage, the work plan must recommend how the state can utilize the technology and back-office platforms that are scheduled to be provided by commercial account managers under the Oregon road usage charge program.

(iii) In addition to a time permit and an odometer charge, the concept of operations recommendation must be developed to include a means for periodic payments based on mileage reporting utilizing methods other than onboard diagnostic in-vehicle devices.

(d) The work plan and recommendations, along with a proposed work plan and budget for the 2015-2017 fiscal biennium, must be submitted by the commission to the transportation committees of the legislature by January 15, 2015.

(7) Within existing resources, the commission shall undertake a study of the urban and rural financial and equity implications of a potential road usage charge system in Washington. The commission shall work with the department of transportation and the department of licensing to conduct this analysis. For any survey work that is considered, the commission should utilize the existing voice of Washington survey panel and budget to inform the study. The results must be presented to the governor and the legislature by January 15, 2015.

Multimodal Transportation Account—State	
Appropriation.....	\$250,000
TOTAL APPROPRIATION	<u>\$49,437,000</u>
	<u>\$49,305,000</u>

The appropriations in this section are subject to the following conditions and limitations:

(1) \$4,423,000 of the motor vehicle account—state appropriation is provided solely for the department's compliance with its national pollution discharge elimination system permit.

(2) The real estate services division of the department must recover the cost of its efforts from sale proceeds and fund additional future sales from those proceeds.

(3) The legislature recognizes that the Dryden pit site (WSDOT Inventory Control (IC) No. 2-04-00103) is unused state-owned real property under the jurisdiction of the department, and that the public would benefit significantly from the complete enjoyment of the natural scenic beauty and recreational opportunities available at the site. Therefore, pursuant to RCW 47.12.080, the legislature declares that transferring the property to the department of fish and wildlife for recreational use and fish and wildlife restoration efforts is consistent with the public interest in order to preserve the area for the use of the public and the betterment of the natural environment. The department shall work with the department of fish and wildlife and transfer and convey the Dryden pit site to the department of fish and wildlife as-is for an adjusted fair market value reflecting site conditions, the proceeds of which must be deposited in the motor vehicle fund. The department is not responsible for any costs associated with the cleanup or transfer of this property. This subsection expires June 30, 2014.

(4) The legislature recognizes that the trail known as the Apple Capital Loop, and its extensions, serve to separate motor vehicle traffic from pedestrians and bicyclists, increasing motor vehicle safety on existing state route number 28. Consistent with chapter 47.30 RCW and pursuant to RCW 47.12.080, the legislature declares that transferring portions of WSDOT Inventory Control (IC) Nos. 2-09-04537 and 2-09-04569 to Douglas county and the city of East Wenatchee is consistent with the public interest. The legislature directs the department to transfer the property to Douglas county and the city of East Wenatchee. The department must be paid fair market value for any portions of the transferred real property that is later abandoned, vacated, or ceases to be publicly maintained for trail purposes. Douglas county and the city of East Wenatchee must agree to accept responsibility for trail segments within their respective jurisdictions and sign an agreement with the state that the transfer of these parcels to their respective jurisdictions extinguishes any state obligations to improve, maintain, or be in any way responsible for these assets. This subsection expires June 30, 2014.

(5) The legislature recognizes that the SR 20/Cook Road realignment and extension project in the city of Sedro-Woolley will enhance the state and local highway systems by providing a more direct route from state route number 20 and state route number 9 to Interstate 5, and will reduce traffic on state route number 20 and state route number 9, improving the capacity of each route. Furthermore, the legislature declares that certain portions of the department's property held for highway purposes located primarily to the north and west of state route number 20, between state route number 20 to the south and F and S Grade Road to the north, in the incorporated limits of Sedro-Woolley in Skagit county, can help facilitate completion of the project. Therefore, consistent with RCW 47.12.063, 47.12.080, and 47.12.120, it is the intent of the legislature that the department sell, transfer, or lease, as appropriate, to the city of Sedro-Woolley only those portions of the property necessary to construct the project, including necessary staging areas. However, any staging areas should revert to the department within three years of completion of the project.

(6) Within the amounts provided in this section, the department shall create a quality assurance position. This position must provide independent project quality assurance validation and ensure that quality assurance audit functions are accountable at the highest level of the organization.

~~((§))~~ (7) \$1,453,000 of the motor vehicle account—state appropriation is provided solely to support increased departmental efforts to dispose of surplus property as directed in subsection (2) of this section. These additional funds are expected to result in up to \$5,000,000 per fiscal biennium in additional revenues through increasing the sale of surplus property. By December 1, 2014, the department shall report to the governor and the chairs and ranking members of the senate and house of representatives transportation committees on the number of surplus property parcels sold and the amount of revenue generated from those sales during 2014.

Sec. 914. 2014 c 222 s 214 (uncodified) is amended to read as follows:

FOR THE DEPARTMENT OF TRANSPORTATION—ECONOMIC PARTNERSHIPS—PROGRAM K

Motor Vehicle Account—State Appropriation	((\$589,000))
	<u>\$588,000</u>

The appropriation in this section is subject to the following conditions and limitations:

(1) The legislature finds that the efforts started in the 2011-2013 fiscal biennium regarding the transition to a road usage charge system represent an important first step in the policy and conceptual development of potential alternative systems to fund transportation projects, but that the governance for the development needs clarification. The legislature also finds that significant amounts of research and public education are occurring in similar efforts in several states and that these efforts can and should be leveraged to advance the evaluation in Washington. The legislature intends, therefore, that the transportation commission and its staff lead the policy development of the business case for a road usage charge system, with the goal of providing the business case to the governor and the legislative committees of the legislature in time for inclusion in the 2014 supplemental omnibus transportation appropriations act. The legislature intends for additional oversight in the business case development, with guidance from a steering committee as provided in chapter 86, Laws of 2012 for the transportation commission, augmented with participation by the joint transportation committee. The legislature further intends that, through the economic partnerships program, the department continue to address administrative, technical, and conceptual operational issues related to road usage charge systems, and that the department serve as a resource for information gleaned from other states on this topic for the transportation commission's efforts.

(2) The economic partnerships program must continue to explore retail partnerships at state-owned park-and-ride facilities, as authorized in RCW 47.04.295.

(3) The department, in collaboration with the transportation commission, shall work with the office of the state treasurer and the state's bond counsel to explore legal approaches for ensuring that any reduction, refunding, crediting, or repeal of the motor vehicle fuel tax, in whole or in part, can be accomplished without unlawfully impairing the legal rights of motor vehicle fuel tax bond holders. The results of this work must be shared with the transportation committees of the legislature and the office of financial management by September 1, 2014.

(4) \$21,000 of the motor vehicle account—state appropriation is provided solely as matching funds for the department to partner with other transportation agencies located in the western region of North America to develop strategies and methods for reporting, collecting, crediting, and remitting road usage charges resulting from inter-jurisdictional travel. At least one partnering jurisdiction must share a common border with Washington. The results of this work must be reported to the governor, the transportation commission, and the transportation committees of the legislature by September 1, 2014.

- (2) \$2,605,000 of the motor vehicle account—state appropriation is provided solely for utility fees assessed by local governments as authorized under RCW 90.03.525 for the mitigation of storm water runoff from state highways.
- (3) The department shall submit a budget decision for the 2014 legislative session package that details all costs associated with utility fees assessed by local governments as authorized under RCW 90.03.525.
- (4) \$50,000 of the motor vehicle account—state appropriation is provided solely for clearing and pruning dangerous trees along state route number 542 between mile markers 43 and 48 to prevent safety hazards and delays.
- (5) \$2,277,000 of the motor vehicle account—state appropriation is provided solely to replace or rehabilitate critical equipment needed to perform snow and ice removal activities and roadway maintenance. These funds may not be used to purchase passenger cars as defined in RCW 46.04.382.

Motor Vehicle Account—Federal Appropriation	\$2,050,000
Motor Vehicle Account—Private/Local Appropriation.....	\$250,000
TOTAL APPROPRIATION	<u>\$52,355,000</u>
	<u>\$52,179,000</u>

The appropriations in this section are subject to the following conditions and limitations:

- (1) \$6,000,000 of the motor vehicle account—state appropriation is provided solely for low-cost enhancements. The department shall give priority to low-cost enhancement projects that improve safety or provide congestion relief. The department shall prioritize low-cost enhancement projects on a statewide rather than regional basis. By September 1st of each even-numbered year, the department shall provide a report to the legislature listing all low-cost enhancement projects prioritized on a statewide rather than regional basis completed in the prior year.
- (2) \$9,000,000 of the motor vehicle account—state appropriation is provided solely for the department's incident response program.
- (3) During the 2013-2015 fiscal biennium, the department shall continue a pilot program that expands private transportation providers' access to high occupancy vehicle lanes. Under the pilot program, when the department reserves a portion of a highway based on the number of passengers in a vehicle, the following vehicles must be authorized to use the reserved portion of the highway if the vehicle has the capacity to carry eight or more passengers, regardless of the number of passengers in the vehicle: (a) Auto transportation company vehicles regulated under chapter 81.68 RCW; (b) passenger charter carrier vehicles regulated under chapter 81.70 RCW, except marked or unmarked stretch limousines and stretch sport utility vehicles as defined under department of licensing rules; (c) private nonprofit transportation provider vehicles regulated under chapter 81.66 RCW; and (d) private employer transportation service vehicles. For purposes of this subsection, "private employer transportation service" means regularly scheduled, fixed-route transportation service that is offered by an employer for the benefit of its employees. Nothing in this subsection is intended to authorize the conversion of public infrastructure to private, for-profit purposes or to otherwise create an entitlement or other claim by private users to public infrastructure.
- (4) The department shall work with the cities of Lynnwood and Edmonds to provide traffic light synchronization on state route number 524.
- (5) The department, in consultation with the Washington state patrol, must continue a pilot program for the state patrol to issue infractions based on information from automated traffic safety cameras in roadway construction zones on state highways. For the purpose of this pilot program, during the 2013-2015 fiscal biennium, a roadway construction zone includes areas where public employees or private contractors may be present or where a driving condition exists that would make it unsafe to drive at higher speeds, such as, when the department is redirecting or realigning lanes on any public roadway pursuant to ongoing construction. The department shall use the following guidelines to administer the program:
 - (a) Automated traffic safety cameras may only take pictures of the vehicle and vehicle license plate and only while an infraction is occurring. The picture must not reveal the face of the driver or of passengers in the vehicle;
 - (b) The department shall plainly mark the locations where the automated traffic safety cameras are used by placing signs on locations that clearly indicate to a driver that he or she is entering a roadway construction zone where traffic laws are enforced by an automated traffic safety camera;
 - (c) Notices of infractions must be mailed to the registered owner of a vehicle within fourteen days of the infraction occurring;
 - (d) The owner of the vehicle is not responsible for the violation if the owner of the vehicle, within fourteen days of receiving notification of the violation, mails to the patrol, a declaration under penalty of perjury, stating that the vehicle involved was, at the time, stolen or in the care, custody, or control of some person other than the registered owner, or any other extenuating circumstances;
 - (e) For purposes of the 2013-2015 fiscal biennium pilot program, infractions detected through the use of automated traffic safety cameras are not part of the registered owner's driving record under RCW 46.52.101 and 46.52.120. Additionally, infractions generated by the use of automated traffic safety cameras must be processed in the same manner as parking infractions for the purposes of RCW 3.50.100, 35.20.220, 46.16A.120, and 46.20.270(3). However, the amount of the fine issued under this subsection (5) for an infraction generated through the use of an automated traffic safety camera is one hundred thirty-seven dollars. The court shall remit thirty-two dollars of the fine to the state treasurer for deposit into the state patrol highway account; and
 - (f) If a notice of infraction is sent to the registered owner and the registered owner is a rental car business, the infraction must be dismissed against the business if it mails to the patrol, within fourteen days of receiving the notice, a declaration under penalty of perjury of

the name and known mailing address of the individual driving or renting the vehicle when the infraction occurred. If the business is unable to determine who was driving or renting the vehicle at the time the infraction occurred, the business must sign a declaration under penalty of perjury to this effect. The declaration must be mailed to the patrol within fourteen days of receiving the notice of traffic infraction. Timely mailing of this declaration to the issuing agency relieves a rental car business of any liability under this section for the notice of infraction. A declaration form suitable for this purpose must be included with each automated traffic safety camera infraction notice issued, along with instructions for its completion and use.

(6) \$102,000 of the motor vehicle account—state appropriation is provided solely to replace or rehabilitate critical equipment needed to perform traffic control. These funds may not be used to purchase passenger cars as defined in RCW 46.04.382.

For purposes of this subsection, (i) "private transportation provider" means: An auto transportation company regulated under chapter 81.68 RCW; a passenger charter carrier regulated under chapter 81.70 RCW, except marked or unmarked stretch limousines and stretch sport utility vehicles as defined under department of licensing rules; a private nonprofit transportation provider regulated under chapter 81.66 RCW; or a private employer transportation service provider; and (ii) "private employer transportation service" means regularly scheduled, fixed-route transportation service that is offered by an employer for the benefit of its employees.
- (6) Funds provided for the commute trip reduction (CTR) program may also be used for the growth and transportation efficiency center program.

- (9) \$200,000 of the multimodal transportation account—state appropriation is contingent on the timely development of an annual report summarizing the status of public transportation systems as identified under RCW 35.58.2796.
- (10) \$160,000 of the motor vehicle account—federal appropriation is provided solely for King county metro to study demand potential for a state route number 18 and Interstate 90 park and ride location, to size the facilities appropriately, to perform site analysis, and to develop preliminary design concepts. When studying potential park and ride locations pursuant to this subsection, King county metro must take into consideration the effect of the traffic using the weigh station at the Interstate 90 and state route number 18 interchange at exit 25 and, to the

maximum extent practicable, choose a park and ride location that minimizes traffic impacts for the Interstate 90 and state route number 18 interchange and the weigh station.

FOR THE DEPARTMENT OF TRANSPORTATION—MARINE—PROGRAM X

Puget Sound Ferry Operations Account—State

Appropriation..... ((~~\$483,404,000~~))
\$475,915,000

Puget Sound Ferry Operations Account—Private/Local

Appropriation..... \$121,000

TOTAL APPROPRIATION ~~\$483,525,000~~
\$476,036,000

The appropriations in this section are subject to the following conditions and limitations:

(1) The office of financial management budget instructions require agencies to recast enacted budgets into activities. The Washington state ferries shall include a greater level of detail in its 2013-2015 supplemental and 2015-2017 omnibus transportation appropriations act requests, as determined jointly by the office of financial management, the Washington state ferries, and the transportation committees of the legislature. This level of detail must include the administrative functions in the operating as well as capital programs.

(2) Until a reservation system is operational on the San Juan islands inter-island route, the department shall provide the same priority loading benefits on the San Juan islands inter-island route to home health care workers as are currently provided to patients traveling for purposes of receiving medical treatment.

(3) For the 2013-2015 fiscal biennium, the department may enter into a distributor controlled fuel hedging program and other methods of hedging approved by the fuel hedging committee.

(4) ((~~\$113,157,000~~)) \$106,497,000 of the Puget Sound ferry operations account—state appropriation is provided solely for auto ferry vessel operating fuel in the 2013-2015 fiscal biennium, which reflect cost savings from a reduced biodiesel fuel requirement and, therefore, are contingent upon the enactment of section 701, chapter 306, Laws of 2013. The amount provided in this subsection represent the fuel budget for the purposes of calculating any ferry fare fuel surcharge. The department shall develop a fuel reduction plan to be submitted as part of its 2014 supplemental budget proposal. The plan must include fuel saving proposals, such as vessel modifications, vessel speed reductions, and changes to operating procedures, along with anticipated fuel saving estimates.

(5) \$100,000 of the Puget Sound ferry operations account—state appropriation is provided solely for the department's compliance with its national pollution discharge elimination system permit.

(6) When purchasing uniforms that are required by collective bargaining agreements, the department shall contract with the lowest cost provider.

(7) \$3,049,000 of the Puget Sound ferry operations account—state appropriation is provided solely for the operating program share of the \$7,259,000 in lease payments for the ferry division's headquarters building. Consistent with the 2012 facilities oversight plan, the department shall strive to consolidate office space in downtown Seattle by the end of 2015. The department shall consider renewing the lease for the ferry division's current headquarters building only if the lease rate is reduced at least ((~~fifty~~)) forty percent and analysis shows that this is the least cost and risk option for the department. Consolidation with other divisions or state agencies, or a reduction in leased space, must also be considered as part of any headquarters lease renewal analysis.

(8) \$5,000,000 of the Puget Sound ferry operations account—state appropriation is provided solely for the purchase of a 2013-2015 marine insurance policy. Within this amount, the department is expected to purchase a policy with the lowest deductible possible, while maintaining at least existing coverage levels for ferry vessels, and providing coverage for all terminals.

(9) Within existing resources, the department must evaluate the feasibility of using re-refined used motor oil processed in Washington state as a ferry fuel source. The evaluation must include, but is not limited to, research on existing entities currently using the process for re-refined fuel, any required combustible engine modifications, additional needed equipment on the vessels or fueling locations, cost analysis, compatibility with B-5 blended diesel, and meeting engine performance specifications. The department must establish an evaluation group that includes, but is not limited to, persons experienced in the re-refined motor oil industry. The department must deliver a report containing the results of the evaluation to the transportation committees of the legislature and the office of financial management by December 1, 2014.

(10) \$71,000 of the Puget Sound ferry operations account—state appropriation is provided solely for one traffic attendant for ferry terminal traffic control at the Fautleroy ferry terminal.

Sec. 922. 2014 c 222 s 222 (unclassified) is amended to read as follows:

\$45,963,000

Multimodal Transportation Account—Private/Local

TOTAL APPROPRIATION \$46,020,000

The appropriations in this section are subject to the following conditions and limitations:

(1) \$40,289,000 of the multimodal transportation account—state appropriation is provided solely for operating and maintaining state-supported passenger rail service. In recognition of the increased costs the state is expected to absorb due to changes in federal law, the department is directed to analyze the Amtrak contract proposal and find cost saving alternatives. The department shall report to the transportation committees of the legislature before the 2014 regular legislative session on its revisions to the Amtrak contract, including a review of the appropriate costs within the contract for concession services, policing, host railroad incentives, and station services and staffing needs. Within thirty days of each annual cost/revenue reconciliation under the Amtrak service contract, the department shall report any changes that would affect the state subsidy amount appropriated in this subsection. Through a competitive process, the department may contract with a private entity for services related to operations and maintenance of the Amtrak Cascades route, including, but not limited to, concession services.

(2) Amtrak Cascades runs may not be eliminated.

(3) The department shall continue a pilot program by partnering with the travel industry on the Amtrak Cascades service between Vancouver, British Columbia, and Seattle to test opportunities for increasing ridership, maximizing farebox recovery, and stimulating private investment. The pilot program must run from December 31, 2013, to December 31, 2014, and evaluate seasonal differences in the program and the effect of advertising. The department may offer to Washington universities an opportunity for business students to work as interns on the analysis of the pilot program process and results. The department shall report on the results of the pilot program to the office of financial management and the legislature by January 31, 2015.

(4) \$150,000 of the multimodal transportation account—state appropriation is provided solely for the department to develop an inventory of short line rail infrastructure that can be used to support a data-driven approach to identifying system needs. The department shall work with short line rail owners and operators within the state, provide status updates periodically to the joint transportation committee, submit a progress report of its findings to the transportation committees of the legislature and the office of financial management by December 15, 2014, submit a preliminary report of key findings and recommendations to the transportation committees of the legislature and the office of financial management by March 1, 2015, and submit a final report to the transportation committees of the legislature and the office of financial management by June 30, 2015.

Transportation Partnership Account—State

Appropriation..... ((~~\$14,390,000~~)) \$13,390,000

Motor Vehicle Account—State Appropriation \$9,469,000

TOTAL APPROPRIATION ~~\$23,859,000~~ \$22,859,000

The appropriations in this section are subject to the following conditions and limitations:

(1) The legislature recognizes that the Marginal Way site (King county parcel numbers 3024049182 & 5367202525) is surplus state-owned real property under the jurisdiction of the department and that the public would benefit significantly if this site is used to provide important social services. Therefore, the legislature declares that committing the Marginal Way site to this use is consistent with the public interest.

Pursuant to RCW 47.12.063, the department shall work with the owner of King county parcel number 7643400010, which abuts both parcels of the Marginal Way site, and shall convey the Marginal Way site to that abutting property owner for the appraised fair market value of the parcels, the proceeds of which must be deposited in the motor vehicle fund. The conveyance is conditional upon the purchaser's agreement to commit the use of the Marginal Way site to operations with the goal of ending hunger in western Washington. The department may not make this conveyance before September 1, 2013, and may not make this conveyance after September 1, 2014.

The Washington department of transportation is not responsible for any costs associated with the cleanup or transfer of the Marginal Way site.

(2) (~~\$14,390,000~~) \$13,390,000 of the transportation partnership account—state appropriation is provided solely for the construction of a new traffic management and emergency operations center on property owned by the department on Dayton Avenue in Shoreline (project 100010T). Consistent with the office of financial management's 2012 study, it is the intent of the legislature to appropriate no more than \$15,000,000 for the total construction costs. The department shall report to the transportation committees of the legislature and the office of financial management by June 30, 2014, on the progress of the construction of the traffic management and emergency operations center, including a schedule for terminating the current lease of the Goldsmith building in Seattle.

The appropriations in this section are subject to the following conditions and limitations:

(1) Except as provided otherwise in this section, the entire transportation 2003 account (nickel account) appropriation and the entire transportation partnership account appropriation are provided solely for the projects and activities as listed by fund, project, and amount in LEAP Transportation Document ((~~2014-1~~) 2015-1) as developed ((~~March 10, 2014~~) May 26, 2015), Program - Highway Improvements Program (I). However, limited transfers of specific line-item project appropriations may occur between projects for those amounts listed subject to the conditions and limitations in section ((~~601 of this act~~) 1201, chapter . . . (Engrossed Substitute House Bill No. 1299), Laws of 2015 1st sp. sess.

(2) Except as provided otherwise in this section, the entire motor vehicle account—state appropriation and motor vehicle account—federal appropriation are provided solely for the projects and activities listed in LEAP Transportation Document ((~~2014-2~~) 2015-2) ALL PROJECTS as developed ((~~March 10, 2014~~) May 26, 2015), Program - Highway Improvements Program (I). The department shall apply any federal funds gained through efficiencies or the redistribution process in an amount up to \$27,200,000 for cost overruns related to the pontoon design errors on the SR 520 Bridge Replacement and HOV project (8BI1003) as described in subsection (12)(f) of this section. Any federal funds gained through efficiencies or the redistribution process that are in excess of \$27,200,000 must then be applied to the "Contingency (Unfunded) Highway Preservation Projects" as identified in LEAP Transportation Document 2014-2 ALL PROJECTS as developed March 10, 2014, Program - Highway Preservation Program (P). However, no additional federal funds may be allocated to the I-5/Columbia River Crossing project (400506A).

(3) Within the motor vehicle account—state appropriation and motor vehicle account—federal appropriation, the department may transfer funds between programs I and P, except for funds that are otherwise restricted in this act.

(4) The transportation 2003 account (nickel account)—state appropriation includes up to ~~((\$246,710,000))~~ \$189,996,000 in proceeds from the sale of bonds authorized by RCW 47.10.861.

(5) The transportation partnership account—state appropriation includes up to ~~((\$811,595,000))~~ \$564,989,000 in proceeds from the sale of bonds authorized in RCW 47.10.873.

(6) The motor vehicle account—state appropriation includes up to ~~((\$30,000,000))~~ \$14,997,000 in proceeds from the sale of bonds authorized in RCW 47.10.843.

(7)(a) ~~((\$6,174,000))~~ \$1,514,000 of the motor vehicle account—federal appropriation and ~~((\$269,000))~~ \$21,000 of the motor vehicle account—state appropriation are provided solely for the I-90 Comprehensive Tolling Study and Environmental Review project (100067T). The department shall prepare a detailed environmental impact statement that complies with the national environmental policy act regarding tolling Interstate 90 between Interstate 5 and Interstate 405 for the purposes of both managing traffic and providing funding for the construction of the unfunded state route number 520 from Interstate 5 to Medina project. As part of the preparation of the statement, the department must review any impacts to the network of highways and roads surrounding Lake Washington. In developing this statement, the department must provide significant outreach to potential affected communities. The department may consider traffic management options that extend as far east as Issaquah.

(b)(i) As part of the project in this subsection (7), the department shall perform a study of all funding alternatives to tolling Interstate 90 to provide funding for construction of the unfunded state route number 520 and explore and evaluate options to mitigate the effect of tolling on affected residents and all other users of the network of highways and roads surrounding Lake Washington including, but not limited to:

(A) Allowing all Washington residents to traverse a portion of the tolled section of Interstate 90 without paying a toll. Residents may choose either (I) the portion of Interstate 90 between the easternmost landing west of Mercer Island and the westernmost landing on Mercer Island, or (II) the portion of Interstate 90 between the westernmost landing east of Mercer Island and the easternmost landing on Mercer Island;

(B) Assessing a toll only when a driver traverses, in either direction, the entire portion of Interstate 90 between the easternmost landing west of Mercer Island and the westernmost landing east of Mercer Island; and

(C) Allowing affected residents to choose one portion of the tolled section of Interstate 90 upon which they may travel without paying a toll. Residents may choose either (I) the portion of Interstate 90 between the easternmost landing west of Mercer Island and the westernmost landing on Mercer Island, or (II) the portion of Interstate 90 between the westernmost landing east of Mercer Island and the easternmost landing on Mercer Island.

(ii) The department may also consider any alternative mitigation options that conform to the purpose of this subsection (7).

(iii) For the purposes of this subsection (7), "affected resident" means anyone who must use a portion of Interstate 90 west of Interstate 405 upon which tolling is considered in order to access necessary medical services, such as a hospital.

(8) ~~((\$490,796,000))~~ \$203,317,000 of the transportation partnership account—state appropriation, ~~((\$156,979,000))~~ \$156,879,000 of the motor vehicle account—federal appropriation, ~~((\$132,191,000))~~ \$131,327,000 of the motor vehicle account—private/local appropriation, and ~~((\$123,305,000))~~ \$86,401,000 of the transportation 2003 account (nickel account)—state appropriation are provided solely for the SR 99/Alaskan Way Viaduct - Replacement project (809936Z). Amounts appropriated in this subsection may not be spent for the purpose of public transportation mitigation, except pursuant to an agreement or agreements between the department and King county as that agreement or agreements existed on January 1, 2013.

(9) The department shall reconvene an expert review panel of no more than three members as described under RCW 47.01.400 for the purpose of updating the work that was previously completed by the panel on the Alaskan Way viaduct replacement project and to ensure that an appropriate and viable financial plan is created and regularly reviewed. The expert review panel must be selected cooperatively by the chairs of the senate and house of representatives transportation committees, the secretary of transportation, and the governor. The expert review panel must report findings and recommendations to the transportation committees of the legislature, the governor's Alaskan Way viaduct project oversight committee, and the transportation commission annually until the project is operationally complete. This subsection takes effect if chapter ... (Substitute House Bill No. 1957), Laws of 2013 is not enacted by June 30, 2013.

(10) ~~((\$7,103,000))~~ \$6,955,000 of the transportation partnership account—state appropriation, ~~((\$22,774,000))~~ \$23,285,000 of the transportation 2003 account (nickel account)—state appropriation, ~~((\$1,000,000 of the multimodal transportation account—state appropriation))~~ \$3,776,000 of the motor vehicle account—state appropriation, \$70,000 of the motor vehicle account—private/local appropriation, and ~~((\$51,712,000))~~ \$45,688,000 of the motor vehicle account—federal appropriation are provided solely for the US 395/North Spokane Corridor projects (600010A & 600003A). Any future savings on the projects must stay on the US 395/Interstate 90 corridor and be made available to the current phase of the North Spokane corridor projects or any future phase of the projects.

(11) ~~((\$129,952,000))~~ \$115,807,000 of the transportation partnership account—state appropriation, \$145,000 of the motor vehicle account—private/local appropriation, and ~~((\$58,583,000))~~ \$48,227,000 of the transportation 2003 account (nickel account)—state appropriation are provided solely for the I-405/Kirkland Vicinity Stage 2 - Widening project (8BI1002). This project must be completed as soon as practicable as a design-build project. Any future savings on this project or other Interstate 405 corridor projects must stay on the Interstate 405 corridor and be made available to either the I-405/SR 167 Interchange - Direct Connector project (140504C) or the I-405 Renton to Bellevue project.

(12)(a) The SR 520 Bridge Replacement and HOV project (8BI1003) is supported over time from multiple sources, including a \$300,000,000 TIFIA loan, \$923,000,000 in Garvee bonds, toll revenues, state bonds, interest earnings, and other miscellaneous sources.

(b) The state route number 520 corridor account—state appropriation includes up to \$814,784,000 in proceeds from the sale of bonds authorized in RCW 47.10.879 and 47.10.886.

(c) The state route number 520 corridor account—federal appropriation includes up to \$300,000,000 in proceeds from the sale of bonds authorized in RCW 47.10.879 and 47.10.886.

(d) \$165,175,000 of the transportation partnership account—state appropriation, \$300,000,000 of the state route number 520 corridor account—federal appropriation, and \$880,111,000 of the state route number 520 corridor account—state appropriation are provided solely for the SR 520 Bridge Replacement and HOV project (8BI1003). Of the amounts appropriated in this subsection (12)(d), \$84,001,000 of the

state route number 520 corridor account—federal appropriation and \$354,411,000 of the state route number 520 corridor account—state appropriation must be put into unallotted status and are subject to review by the office of financial management. The director of the office of financial management shall consult with the joint transportation committee prior to making a decision to allot these funds.

(e) When developing the financial plan for the project, the department shall assume that all maintenance and operation costs for the new facility are to be covered by tolls collected on the toll facility and not by the motor vehicle account.

(f) The legislature finds that the most appropriate way to pay for the cost overruns related to change orders, additional sales tax, and future risks associated with pontoon design errors is for the state to issue triple pledge bonds in the 2015-2017 fiscal biennium resulting in \$110,961,000 in proceeds, and use efficiencies, including the use of least cost planning or practical design, and favorable bids in the highway construction program to generate an additional \$61,066,000 towards paying for the estimated project overruns. Of this additional \$61,066,000, \$33,866,000 should come from the transportation partnership account—state appropriation and \$27,200,000 should come from federal funds. As the department identifies savings in federal funds during the 2013-2015 fiscal biennium, the department shall prioritize the use of these funds towards the anticipated \$27,200,000 in federal funds needed to address cost overruns before expending state funds during this fiscal biennium. The legislature assumes that issuing bonds to complete this project as listed in LEAP Transportation Document 2014-1 as developed March 10, 2014, does not require a comprehensive financial plan for a project that completes the state route number 520 corridor to Interstate 5.

(g) The department's 2014 supplemental budget allotment submittal must include a project-specific plan detailing how the department will achieve the mandatory budget savings in (f) of this subsection, including the use of least cost planning or practical design as a means to generate savings, as referenced in subsection (23) of this section. The use of least cost planning or practical design may result in a reduction of project cost, but not a reduction of functional scope. The director of financial management shall notify the transportation committees of the legislature in writing seven days prior to approving any allotment modifications under this subsection.

(13) Within the amounts provided in this section, the department must continue to work with the Seattle department of transportation in their joint planning, design, outreach, and operation of the remaining west side elements including, but not limited to, the Montlake lid, the bicycle/pedestrian path, the effective network of transit connections, and the Portage Bay bridge of the SR 520 Bridge Replacement and HOV project.

(14) ~~(\$1,062,000)~~ \$514,000 of the motor vehicle account—federal appropriation ~~((\$))~~ and \$19,000 of the motor vehicle account—state appropriation are provided solely for the 31st Ave SW Overpass Widening and Improvement project (L1100048).

(15) ~~(\$25,243,000)~~ \$18,016,000 of the motor vehicle account—state appropriation is provided solely to advance the design, preliminary engineering, and rights-of-way acquisition for the priority projects identified in LEAP Transportation Document 2014-3 as developed March 10, 2014. Funds must be used to advance the emergent, initial development of these projects for the purpose of expediting delivery of the associated major investments when funding for such investments becomes available. Funding may be reallocated between projects to maximize the accomplishment of design and preliminary engineering work and rights-of-way acquisition, provided that all projects are addressed. It is the intent of the legislature that, while seeking to maximize the outcomes in this section, the department shall provide for continuity of both the state and consulting engineer workforce, while strategically utilizing private sector involvement to ensure consistency with the department's business plan for staffing in the highway construction program in the current fiscal biennium.

(16) If a planned roundabout in the vicinity of state route number 526 and 84th Street SW would divert commercial traffic onto neighborhood streets, the department may not proceed with improvements at state route number 526 and 84th Street SW until the traffic impacts in the vicinity of state route number 526 and 40th Avenue West are addressed.

(17) The legislature finds that there are sixteen companies involved in wood preserving in the state that employ four hundred workers and have an annual payroll of fifteen million dollars. Prior to the department's switch to steel guardrails, ninety percent of the twenty-five hundred mile guardrail system was constructed of preserved wood and one hundred ten thousand wood guardrail posts were produced annually for state use. Moreover, the policy of using steel posts requires the state to use imported steel. Given these findings, where practicable, and until June 30, 2015, the department shall include the design option to use wood guardrail posts, in addition to steel posts, in new guardrail installations. The selection of posts must be consistent with the agency design manual policy that existed before December 2009.

(18) The legislature finds that "right-sizing" is a lean, metric-based approach to determining project investments. This concept entails compromise between project cost and design, incorporating local community needs, desired outcomes, and available funding. Furthermore, the legislature finds that the concepts and principles the department has utilized in the safety analyst program have been effective tools to prioritize projects and reduce project costs. Therefore, the department shall establish a pilot project on the SR 3/Belfair Bypass - New Alignment (300344C) to begin implementing the concept of "right-sizing" in the highway construction program.

(19) For urban corridors that are all or partially within a metropolitan planning organization boundary, for which the department has not initiated environmental review, and that require an environmental impact statement, at least one alternative must be consistent with the goals set out in RCW 47.01.440.

(20) The department shall itemize all future requests for the construction of buildings on a project list and submit them through the transportation executive information system as part of the department's 2014 budget submittal. It is the intent of the legislature that new facility construction must be transparent and not appropriated within larger highway construction projects.

(21) \$19,513,000 of the motor vehicle account—state appropriation and \$9,450,000 of the motor vehicle account—federal appropriation are provided solely for improvement program support activities (095901X). \$18,000,000 of this amount must be held in unallotted status until the office of financial management certifies that the department's 2014 supplemental budget request conforms to the terms of subsection (20) of this section.

(22) Any new advisory group that the department convenes during the 2013-2015 fiscal biennium must be representative of the interests of the entire state of Washington.

(23) Practical design offers targeted benefits to a state transportation system within available fiscal resources. This delivers value not just for individual projects, but for the entire system. Applying practical design standards will also preserve and enhance safety and mobility. The department shall implement a practical design strategy for transportation design standards. By June 30, 2015, the department shall report to the governor and the house of representatives and senate transportation committees on where practical design has been applied or is intended to be applied in the department and the cost savings resulting from the use of practical design.

The appropriations in this section are subject to the following conditions and limitations:

(1) Except as provided otherwise in this section, the entire appropriations in this section are provided solely for the projects and activities as listed in LEAP Transportation Document ((~~2014-2~~) 2015-2 ALL PROJECTS) as developed ((~~March 10, 2014~~) May 26, 2015), Program - Washington State Ferries Capital Program (W).

(2) The Puget Sound capital construction account—state appropriation includes up to \$20,000,000 in proceeds from the sale of bonds authorized in RCW 47.10.843.

(3) ((~~\$137,425,000~~) \$136,957,000) of the transportation 2003 account (nickel account)—state appropriation, \$2,338,000 of the transportation partnership account—state appropriation, and ((~~\$300,000~~) \$768,000) of the Puget Sound capital construction account—federal appropriation are provided solely for the acquisition of two 144-car vessels ((~~projects~~) L2200038 and L2200039). The department shall use as much already procured equipment as practicable on the 144-car vessels.

(4) ((~~\$14,728,000~~) \$8,773,000) of the Puget Sound capital construction account—state appropriation, ((~~\$4,038,000~~) \$1,600,000) of the Puget Sound capital construction account—state appropriation, and ((~~\$1,535,000~~) \$490,000) of the multimodal transportation account—state appropriation are provided solely for the Mukilteo ferry terminal ((~~project~~) 952515P). To the greatest extent practicable, the department shall seek additional federal funding for this project. Within the multimodal transportation account—state appropriation amount provided in this subsection, the department shall lease to the city in which the project is located a portion of the department's property associated with this project to provide safe, temporary public access from the easterly terminus of First Street to the vicinity of Front Street. The department shall provide the lease at no cost in recognition of the impacts of this project to the city and require appropriate liability and maintenance coverage in the terms of the lease. Public access must be installed and removed at no cost to the state prior to construction of the multimodal terminal project.

(5) ((~~\$4,935,000~~) \$7,000,000) of the Puget Sound capital construction account—state appropriation is provided solely for emergency capital repair costs ((~~project~~) 999910K). Funds may only be spent after approval by the office of financial management.

(6) Consistent with RCW 47.60.662, which requires the Washington state ferry system to collaborate with passenger-only ferry and transit providers to provide service at existing terminals, the department shall ensure that multimodal access, including for passenger-only ferries and transit service providers, is not precluded by any future modifications at the terminal.

(7) ((~~\$4,026,000~~) \$4,788,000) of the Puget Sound capital construction account—state appropriation is provided solely for the reservation and communications system projects (L200041 & L200042).

(8) \$4,210,000 of the Puget Sound capital construction account—state appropriation is provided solely for the capital program share of \$7,259,000 in lease payments for the ferry division's headquarters building. Consistent with the 2012 facilities oversight plan, the department shall strive to consolidate office space in downtown Seattle by the end of 2015. The department shall consider renewing the lease for the ferry division's current headquarters building only if the lease rate is reduced at least ((~~fifty~~) forty) percent and analysis shows that this is the least cost and risk option for the department. Consolidation with other divisions or state agencies, or a reduction in leased space, must also be considered as part of any headquarters lease renewal analysis.

(9) ((~~\$23,737,000 of the total appropriation is for preservation work on the Hyak super class vessel (project 944431D), including installation of a power management system and more efficient propulsion systems, that in combination are anticipated to save up to twenty percent in fuel and reduce maintenance costs. Upon completion of this project, the department shall provide a report to the transportation committees of the legislature on the fuel and maintenance savings achieved for this vessel and the potential to save additional funds through other vessel conversions.~~)

((~~40~~)) The transportation 2003 account (nickel account)—state appropriation includes up to \$50,000,000 in proceeds from the sale of bonds authorized in RCW 47.10.861.

((~~11~~) 10) \$50,000,000 of the transportation 2003 account (nickel account)—state appropriation is provided solely for the acquisition of one 144-car vessel ((~~project~~) L1000063). If chapter . . . (Engrossed Second Substitute House Bill No. 1129), Laws of 2014 (ferry vessel replacement) is not enacted by June 30, 2014, the amount provided in the subsection lapses.

((~~12~~) 11) If the department pursues a conversion of the existing diesel powered Issaquah class fleet to a different fuel source or engine technology or the construction of a new vessel powered by a fuel source or engine technology that is not diesel powered, the department must use a design-build procurement process.

((~~13~~) 12) \$350,000 of the Puget Sound capital construction account—state appropriation is provided solely for the issuance of a request for proposals to convert the Issaquah class vessels to use liquefied natural gas and to provide a one-time stipend to the entity awarded the conversion contract. Of the amounts provided in this subsection:

(a) \$100,000 of the Puget Sound capital construction account—state appropriation is for the department to issue a request for proposals for a design-build contract consistent with RCW 47.20.780 to convert six Issaquah class vessels to be powered by liquefied natural gas. Consistent with RCW 47.56.030(2)(c), the legislature finds that the performance needs of the department in converting to liquefied natural gas are for engines with the lowest life-cycle costs, and the department must weigh this criteria as a priority when evaluating the proposals. To encourage cost saving ideas, the department shall limit prescribing design elements in the proposal to those approved or required by the United States coast guard in the liquefied natural gas waterways suitability assessment or those otherwise essential to provide clear direction to bidders. The request for proposals must include a process for evaluating proposals that may include alternative financing arrangements that are in compliance with state private financing law. When evaluating the financial merits of any liquefied natural gas conversion request for proposals, the department shall give consideration to the inability of the state to fund a liquefied natural gas conversion using currently available public resources. The department shall issue the request for proposals within forty-five days of rejecting the liquefied natural gas request for proposals issued under section 308(11), chapter 86, Laws of 2012 or receiving final findings from the United States coast guard on the liquefied natural gas waterways suitability assessment, whichever is later.

(b) \$250,000 of the Puget Sound capital construction account—state appropriation is for the entity awarded the contract pursuant to this subsection.

(b) Within the amounts provided in this section, \$7,669,000 of the transportation infrastructure account—state appropriation is for low-interest loans through the freight rail investment bank program identified in the LEAP transportation document referenced in (a) of this subsection. The department shall issue freight rail investment bank program loans with a repayment period of no more than ten years, and only so much interest as is necessary to recoup the department's costs to administer the loans.

(c) Within the amounts provided in this section, \$2,440,000 of the multimodal transportation account—state appropriation, \$1,250,000 of the transportation infrastructure account—state appropriation, and \$311,000 of the essential rail assistance account—state appropriation are for statewide emergent freight rail assistance projects identified in the LEAP transportation document referenced in (a) of this subsection.

(4) As allowable under federal rail authority rules and existing competitive bidding practices, when purchasing new train sets, the department shall give preference to bidders that propose train sets with characteristics and maintenance requirements most similar to those currently owned by the department.

(5) The department shall provide quarterly reports to the office of financial management and the transportation committees of the legislature regarding applications that the department submits for federal funds and the status of such applications.

(6)(a) \$709,000 of the essential rail assistance account—state appropriation, \$241,000 of the transportation infrastructure account—state appropriation, and \$1,893,000 of the multimodal transportation account—state appropriation are provided solely for the purpose of rehabilitation and maintenance of the Palouse river and Coulee City railroad line (project F01111B). The department shall complete an evaluation and assessment of future maintenance needs on the line to ensure appropriate levels of state investment.

(b) Expenditures from the essential rail assistance account—state appropriation in this section may not exceed the combined total of:

(i) Revenues deposited into the essential rail assistance account from leases and sale of property pursuant to RCW 47.76.290; and

IMPLEMENTING PROVISIONS

Sec. 1201. 2014 c 222 s 601 (uncodified) is amended to read as follows:

FUND TRANSFERS

(1) The transportation 2003 projects or improvements and the 2005 transportation partnership projects or improvements are listed in the LEAP list titled ((2014-1)) 2015-1 as developed ((March 10, 2014)) May 26, 2015, which consists of a list of specific projects by fund source and amount over a ten-year period. Current fiscal biennium funding for each project is a line-item appropriation, while the outer year funding allocations represent a ten-year plan. The department is expected to use the flexibility provided in this section to assist in the delivery and completion of all transportation partnership account and transportation 2003 account (nickel account) projects on the LEAP transportation documents referenced in this act. However, this section does not apply to the I-5/Columbia River Crossing project (400506A). For the 2011-2013 and 2013-2015 project appropriations, unless otherwise provided in this act, the director of financial management may authorize a transfer of appropriation authority between projects funded with transportation 2003 account (nickel account) appropriations, or transportation partnership account appropriations, in order to manage project spending and efficiently deliver all projects in the respective program under the following conditions and limitations:

(a) Transfers may only be made within each specific fund source referenced on the respective project list;

(b) Transfers from a project may not be made as a result of the reduction of the scope of a project or be made to support increases in the scope of a project;

(c) Each transfer between projects may only occur if the director of financial management finds that any resulting change will not hinder the completion of the projects as approved by the legislature. Until the legislature reconvenes to consider the 2014 supplemental omnibus transportation appropriations act, any unexpended 2011-2013 appropriation balance as approved by the office of financial management, in consultation with the legislative staff of the house of representatives and senate transportation committees, may be considered when transferring funds between projects;

(d) Transfers from a project may be made if the funds appropriated to the project are in excess of the amount needed to complete the project;

(e) Transfers may not occur for projects not identified on the applicable project list;

(f) Transfers may not be made while the legislature is in session; and

(g) Transfers between projects may be made, without the approval of the director of the office of financial management, by the department of transportation until the transfer amount by project exceeds two hundred fifty thousand dollars, or ten percent of the total project,

whichever is less. These transfers must be reported quarterly to the director of financial management and the chairs of the house of representatives and senate transportation committees.

(2) At the time the department submits a request to transfer funds under this section, a copy of the request must be submitted to the transportation committees of the legislature.

(3) The office of financial management shall work with legislative staff of the house of representatives and senate transportation committees to review the requested transfers in a timely manner.

(4) The office of financial management shall document approved transfers and schedule changes in the transportation executive information system, compare changes to the legislative baseline funding and schedules identified by project identification number identified in the LEAP transportation documents referenced in this act, and transmit revised project lists to chairs of the transportation committees of the legislature on a quarterly basis.

NEW SECTION. Sec. 1202. A new section is added to 2013 c 306 (uncodified) to read as follows:

The appropriations to the department of transportation in chapter 222, Laws of 2014 and this act must be expended for the programs and in the amounts specified in this act. However, after May 1, 2015, unless specifically prohibited, the department may transfer state appropriations for the 2013-2015 fiscal biennium among operating programs after approval by the director of the office of financial management. However, the department shall not transfer state moneys that are provided solely for a specific purpose. The department shall not transfer funds, and the director of the office of financial management shall not approve the transfer, unless the transfer is consistent with the objective of conserving, to the maximum extent possible, the expenditure of state funds and not federal funds. The director of the office of financial management shall notify the appropriate transportation committees of the legislature no fewer than ten business days before approving any allotment modifications or transfers under this section. The written notification must include a narrative explanation and justification of the changes, along with expenditures and allotments by program and appropriation, both before and after any allotment modifications or transfers.

MISCELLANEOUS

NEW SECTION. Sec. 1301. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected.

NEW SECTION. Sec. 1302. This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect immediately."

Increasing academic rigor and streamlining assessment requirements for high school students.

The bill was read the second time.

Representative Magendanz moved the adoption of amendment (503):

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1303. (1) The legislature finds that high school students in Washington have been required to meet a standard on high school assessments since 2008 to earn a certificate of academic achievement and graduate. The majority of high school students have taken these assessments for the first time by the conclusion of tenth grade. Over time, the state has adopted several alternative methods to allow students who do not meet the standard on the tenth grade assessment to demonstrate their competency to graduate. These alternatives include the opportunity to retake the assessment, a comparison of grades earned, collections of evidence, and college entrance or dual credit course exams.

(2) The legislature recognizes that, in today's competitive global economy, it is not enough for Washington's students to meet a minimum level of competency. Success in postsecondary education, gainful employment, and citizenship requires increased rigor and achievement. To that end, the state has recently adopted new, academically rigorous policies to better prepare students for future success. Starting in spring 2015, Washington students will be tested using a comprehensive assessment system developed with a multistate consortium. This system, the smarter balanced assessment, will evaluate students in grades three through eight and grade eleven on their college and career readiness based on the Washington state learning standards in English language arts and mathematics, and will be used for state and federal accountability purposes. In addition, students beginning with the graduating class of 2019 will also have the requirement to earn twenty-four credits for high school graduation to obtain a more meaningful diploma. Schools also have put a great deal of time and effort into ensuring quality instruction through the teacher and principal evaluation program, a four-tiered system that establishes eight new criteria for teachers' and principals' evaluations. Finally, Washington adopted new, academically rigorous next generation science standards (NGSS) in 2013. A comprehensive science assessment of the next generation science standards is being developed and is expected to become operational statewide in spring 2017 or 2018.

(3) The legislature further finds that the transition to the smarter balanced assessment system has markedly complicated the development and administration of the statewide assessment graduation requirement and the state's confusing array of alternative assessments. The classes of 2016 through 2018 are required to take end-of-course exams or comprehensive assessments in the tenth grade to fulfill graduation requirements for English language arts, mathematics, and biology. In addition, they are required to take the smarter balanced assessments in the eleventh grade to determine if they are college and career ready and for school and district accountability.

(4) The legislature finds that requiring schools to administer six high school assessments—the smarter balanced English language arts assessment, smarter balanced mathematics, the end-of-course assessment for biology, two mathematics end-of-course assessments, and the English language arts exit exam—creates a

costly system in which too much classroom time and too many state resources are devoted to taking and retaking tests for graduation purposes. The time and funding that are now invested in Washington's current state graduation assessments do not result in students meeting a college or career ready measure accepted by postsecondary institutions and organizations.

(5) The legislature further finds that locally directed remediation and intervention strategies, including twelfth grade transition courses, opportunities to retake courses, and more sustained focus on providing college and career guidance through students' high school and beyond plans, would better prepare students for postsecondary college and career opportunities. State and local resources that are now directed to develop and administer alternative graduation assessments should be redirected to courses and programs better suited for student needs during high school.

(6) The legislature further finds that taxpayers and tuition payers can save substantial money by avoiding remedial courses taught at public institutions of higher education. An unprecedented agreement among Washington's public institutions of higher education now ensures that high school graduates who meet the standard on the smarter balanced assessment or who successfully complete twelfth grade high school transition courses in English language arts and mathematics will move directly to college-level English and mathematics courses at participating institutions without remediation or additional placement testing.

(7)(a) The legislature therefore intends to eliminate the tenth grade assessments in reading, writing, and mathematics and the myriad of alternative assessments that students may use to obtain a certificate of academic achievement. In their place, students will be required to either meet the standard on the smarter balanced English language arts and mathematics assessments administered in high school, or demonstrate by the beginning of their senior year that they have met state standards using the SAT or ACT. The legislature further intends for students who fail to meet the standard to take and pass locally determined courses in their senior year that align with their college or career goals, including, when available, high school transition courses.

(b) The legislature recognizes that many students in the graduating class of 2016 have already satisfied current requirements for obtaining a certificate of academic achievement and does not intend that these efforts go for naught. The legislature intends to allow students in the graduating class of 2016 who have, by the beginning of the 2015-16 school year, already met the standard on the tenth grade assessments in reading, writing, and mathematics, or satisfied the alternative assessments, to earn a certificate of academic achievement by these means, by the means identified in section 101(3) of this act, or by a combination of the two in the event that a student has, by the beginning of the 2015-16 school year, already met the standard or satisfied an alternative in one, but not both, of the content areas.

(8) It is the intent of the legislature for Washington to administer only three statewide assessments for high school graduation: The smarter balanced assessment in English language arts; the smarter balanced assessment in mathematics; and the statewide assessment in science, including, when operational, the comprehensive next generation science standards assessment.

PART I

STUDENT ASSESSMENTS, GRADUATION, AND ASSOCIATED REQUIREMENTS—GENERAL PROVISIONS

NEW SECTION. **Sec. 101.** A new section is added to chapter 28A.655 RCW to read as follows:

(1) The high school assessment system shall include the statewide student assessment and opportunities for a student to retake the content areas of the assessment in which the student was not successful.

(2) Subject to the conditions in this section, students shall obtain a certificate of academic achievement as evidence that they have successfully met the state standard in the content areas included in the certificate. With the exception of students satisfying the provisions of RCW 28A.155.045, acquisition of the certificate is required for graduation from a public high school but is not the sole requirement for graduation.

(3) Beginning with the graduating class of 2016, a student shall earn a certificate of academic achievement if the student:

(a) Earns a score of level 3 or level 4 on the high school English language arts and mathematics assessments identified in RCW 28A.655.070;

(b) Before the beginning of the student's senior year, earns a score on the mathematics, reading or English, or writing portion of the SAT or the ACT that is identified by the state board of education as meeting the state standard in the relevant content area on the high school English language arts and mathematics assessments; or

(c) Takes and passes a locally determined course in English language arts or mathematics under RCW 28A.230.090(1)(e).

(4)(a) The state board of education shall identify the scores on the mathematics, reading or English, or writing portions of the SAT or ACT that are equivalent to a level 3 on both the high school English language arts and mathematics assessments identified in RCW 28A.655.070.

(b) The state board of education shall promptly notify school districts of the scores identified under (a) of this subsection.

(5) The state board of education may not require the acquisition of the certificate of academic achievement for students in home-based instruction under chapter 28A.200 RCW, for students enrolled in private schools under chapter 28A.195 RCW, or for students satisfying the provisions of RCW 28A.155.045.

(6)(a) If a student does not earn a score of level 3 or level 4 in one or more content areas required for the certificate of academic achievement, the student may retake the assessment in the content area at least once a year and at no charge to the student. If the student earns a score of level 3 or level 4 on a retake of the assessment, the student shall earn a certificate of academic achievement.

(b) School districts must make available to students at no charge, the following options:

(i) If the student is enrolled in a public school, retaking the high school English language arts and mathematics assessments identified in RCW 28A.655.070 at least once a year in the content areas in which the student did not earn a score of level 3 or level 4; or

(ii) If the student is enrolled in a high school completion program at a community or technical college, retaking the high school English language arts and mathematics assessments identified in RCW 28A.655.070 at least once a year in the content areas in which the student did not earn a score of level 3 or level 4. The superintendent of public instruction and the state board for community and technical colleges shall jointly identify means by which students in these programs can be assessed.

(c) Students who achieve the standard in a content area of the high school English language arts or mathematics assessments identified in RCW 28A.655.070, but who wish to improve their results, must be assessed a charge for retaking the assessment according to a uniform cost determined by the superintendent of public instruction.

(7) A student may retain and use the highest result from each successfully completed content area of the high school English language arts and mathematics assessments identified in RCW 28A.655.070.

Sec. 102. RCW 28A.230.090 and 2014 c 217 s 202 are each amended to read as follows:

(1) The state board of education shall establish high school graduation requirements or equivalencies for students, except as provided in RCW 28A.230.122 and except those equivalencies established by local high schools or school districts under RCW 28A.230.097. The purpose of a high school diploma is to declare that a student is ready for success in postsecondary education, gainful employment, and citizenship, and is equipped with the skills to be a lifelong learner.

(a) Any course in Washington state history and government used to fulfill high school graduation requirements shall consider including information on the culture, history, and government of the American Indian peoples who were the first inhabitants of the state.

(b) The certificate of academic achievement requirements under ~~(RCW 28A.655.064)~~ section 101 of this act or the certificate of individual achievement requirements under RCW 28A.155.045 are required for graduation from a public high school but are not the only requirements for graduation.

(c)(i) Each student must have a high school and beyond plan to guide the student's high school experience and prepare the student for postsecondary education or training and career.

(ii) A high school and beyond plan must be initiated for each student during the eighth grade. In preparation for initiating that plan, each student must first be administered a career interest and skills inventory.

(iii) The plan must be updated annually during the high school grades to review transcripts, assess progress toward identified goals, and revise as necessary for changing interests, goals, and needs. School districts are encouraged to involve parents and guardians in the process of developing and updating the high school and beyond plan.

(iv) All high school and beyond plans must, at a minimum, include the following elements:

(A) Identification of career goals, aided by a skills and interest assessment;

(B) Identification of educational goals;

(C) A four-year plan for course-taking that fulfills state and local graduation requirements and aligns with the student's career and educational goals;

(D) Identification of assessments needed to graduate from high school and achieve postsecondary goals identified in the high school and beyond plan; and

(E) By the end of the twelfth grade, a current resume or activity log that provides a written compilation of the student's education, any work experience, and any community service and how the school district has recognized the community service pursuant to RCW 28A.320.193.

(d) Any decision on whether a student has met the state board's high school graduation requirements for a high school and beyond plan shall remain at the local level. A district may establish additional, local requirements for a high school and beyond plan to serve the needs and interests of its students and the purposes of this section.

(e)(i)(A) Beginning in the 2015-16 school year, students who have not earned a certificate of academic achievement under section 101 or 201 of this act before the beginning of grade twelve must take and pass a locally determined course in the content area in which the student was not successful. The course shall be rigorous and consistent with the student's educational and career goals identified in his or her high school and beyond plan, and

may include career and technical education equivalencies in English language arts or mathematics adopted pursuant to RCW 28A.230.097.

(B) A course shall be deemed rigorous if it is at a higher course level than the student's most recent coursework in the content area in which the student received a passing grade of C or higher, or its equivalent.

(C) School districts should prioritize enrolling students who must take and pass locally determined courses under this subsection (1)(e)(i) in available high school transition courses.

(ii) School districts shall record students' participation in locally determined courses under this section in the statewide individual data system. Separate data codes must be provided for high school transition courses and other locally determined courses.

(iii) As used in this subsection (1)(e), "high school transition course" means an English language arts, mathematics, or science course offered in high school whose successful completion by a high school student will ensure the student college-level placement at participating institutions of higher education as defined in RCW 28B.10.016. High school transition courses must, in accordance with this section, satisfy core or elective credit graduation requirements established by the state board of education. A student's successful completion of a high school transition course does not entitle the student to be admitted to any institution of higher education as defined in RCW 28B.10.016.

(iv) This subsection (1)(e) does not apply to students satisfying the provisions of RCW 28A.155.045.

(f) Effective with the graduating class of 2015, the state board of education may not establish a requirement for students to complete a culminating project for graduation.

~~((4))~~ (g)(i) The state board of education shall adopt rules to implement the career and college ready graduation requirement proposal adopted under board resolution on November 10, 2010, and revised on January 9, 2014, to take effect beginning with the graduating class of 2019 or as otherwise provided in this subsection (1)((4)) (g). The rules must include authorization for a school district to waive up to two credits for individual students based on unusual circumstances and in accordance with written policies that must be adopted by each board of directors of a school district that grants diplomas. The rules must also provide that the content of the third credit of mathematics and the content of the third credit of science may be chosen by the student based on the student's interests and high school and beyond plan with agreement of the student's parent or guardian or agreement of the school counselor or principal.

(ii) School districts may apply to the state board of education for a waiver to implement the career and college ready graduation requirement proposal beginning with the graduating class of 2020 or 2021 instead of the graduating class of 2019. In the application, a school district must describe why the waiver is being requested, the specific impediments preventing timely implementation, and efforts that will be taken to achieve implementation with the graduating class proposed under the waiver. The state board of education shall grant a waiver under this subsection (1)((4)) (g) to an applying school district at the next subsequent meeting of the board after receiving an application.

(iii) A school district that has implemented the career and college ready graduation requirements must update the high school and beyond plans for each student in grade nine who failed to earn a score of level 3 or level 4 on the middle school mathematics assessment identified in RCW 28A.655.070 for the purpose of ensuring that the student takes one or more credits of mathematics coursework in each of grades nine, ten, and eleven. These courses may include career and technical education

equivalencies in mathematics adopted pursuant to RCW 28A.230.097.

(2)(a) In recognition of the statutory authority of the state board of education to establish and enforce minimum high school graduation requirements, the state board shall periodically reevaluate the graduation requirements and shall report such findings to the legislature in a timely manner as determined by the state board.

(b) The state board shall reevaluate the graduation requirements for students enrolled in vocationally intensive and rigorous career and technical education programs, particularly those programs that lead to a certificate or credential that is state or nationally recognized. The purpose of the evaluation is to ensure that students enrolled in these programs have sufficient opportunity to earn a certificate of academic achievement, complete the program and earn the program's certificate or credential, and complete other state and local graduation requirements.

(c) The state board shall forward any proposed changes to the high school graduation requirements to the education committees of the legislature for review and to the quality education council established under RCW 28A.290.010. The legislature shall have the opportunity to act during a regular legislative session before the changes are adopted through administrative rule by the state board. Changes that have a fiscal impact on school districts, as identified by a fiscal analysis prepared by the office of the superintendent of public instruction, shall take effect only if formally authorized and funded by the legislature through the omnibus appropriations act or other enacted legislation.

(3) Pursuant to any requirement for instruction in languages other than English established by the state board of education or a local school district, or both, for purposes of high school graduation, students who receive instruction in American sign language or one or more American Indian languages shall be considered to have satisfied the state or local school district graduation requirement for instruction in one or more languages other than English.

(4) If requested by the student and his or her family, a student who has completed high school courses before attending high school shall be given high school credit which shall be applied to fulfilling high school graduation requirements if:

(a) The course was taken with high school students, if the academic level of the course exceeds the requirements for seventh and eighth grade classes, and the student has successfully passed by completing the same course requirements and examinations as the high school students enrolled in the class; or

(b) The academic level of the course exceeds the requirements for seventh and eighth grade classes and the course would qualify for high school credit, because the course is similar or equivalent to a course offered at a high school in the district as determined by the school district board of directors.

(5) Students who have taken and successfully completed high school courses under the circumstances in subsection (4) of this section shall not be required to take an additional competency examination or perform any other additional assignment to receive credit.

(6) At the college or university level, five quarter or three semester hours equals one high school credit.

Sec. 103. RCW 28A.305.130 and 2013 2nd sp.s. c 22 s 7 are each amended to read as follows:

The purpose of the state board of education is to provide advocacy and strategic oversight of public education; implement a standards-based accountability framework that creates a unified system of increasing levels of support for schools in order to improve student academic achievement; provide leadership in the

creation of a system that personalizes education for each student and respects diverse cultures, abilities, and learning styles; and promote achievement of the goals of RCW 28A.150.210. In addition to any other powers and duties as provided by law, the state board of education shall:

(1) Hold regularly scheduled meetings at such time and place within the state as the board shall determine and may hold such special meetings as may be deemed necessary for the transaction of public business;

(2) Form committees as necessary to effectively and efficiently conduct the work of the board;

(3) Seek advice from the public and interested parties regarding the work of the board;

(4) For purposes of statewide accountability:

(a) Adopt and revise performance improvement goals in reading, writing, science, and mathematics, by subject and grade level, once assessments in these subjects are required statewide; academic and technical skills, as appropriate, in secondary career and technical education programs; and student attendance, as the board deems appropriate to improve student learning. The goals shall be consistent with student privacy protection provisions of RCW 28A.655.090(7) and shall not conflict with requirements contained in Title I of the federal elementary and secondary education act of 1965, or the requirements of the Carl D. Perkins vocational education act of 1998, each as amended. The goals may be established for all students, economically disadvantaged students, limited English proficient students, students with disabilities, and students from disproportionately academically underachieving racial and ethnic backgrounds. The board may establish school and school district goals addressing high school graduation rates and dropout reduction goals for students in grades seven through twelve. The board shall adopt the goals by rule. However, before each goal is implemented, the board shall present the goal to the education committees of the house of representatives and the senate for the committees' review and comment in a time frame that will permit the legislature to take statutory action on the goal if such action is deemed warranted by the legislature;

(b)(i) Identify the scores students must achieve in order to meet the standard on the statewide student assessment (~~and, for high school students, to obtain a certificate of academic achievement~~). The board shall also determine student scores that identify levels of student performance below and beyond the standard. (~~The board shall consider the incorporation of the standard error of measurement into the decision regarding the award of the certificates.~~) The board shall set such performance standards and levels in consultation with the superintendent of public instruction and after consideration of any recommendations that may be developed by any advisory committees that may be established for this purpose.

(ii) (~~By the end of the 2014-15 school year, establish the scores students must achieve to meet the standard and earn a certificate of academic achievement on the tenth grade English language arts assessment and the end of course mathematics assessments developed in accordance with RCW 28A.655.070 to be used as the state transitions to high school assessments developed with a multistate consortium.~~

(iii) ~~By the end of the 2014-15 school year, establish the scores students must achieve to meet the standard and earn a certificate of academic achievement on the high school English language arts assessment and the comprehensive mathematics assessment developed with a multistate consortium in accordance with RCW 28A.655.070. To determine the appropriate score, the state board shall review the transition experience of Washington students to the consortium developed assessments, examine the student scores used in other states that are administering the~~

~~consortium developed assessments, and review the scores in other states that require passage of an eleventh grade assessment as a high school graduation requirement. The scores established by the state board of education for the purposes of earning a certificate of academic achievement and graduation from high school may be different from the scores used for the purpose of determining a student's career and college readiness.~~

~~(iv) The legislature shall be advised of the initial performance standards for the high school statewide student assessment. Any changes recommended by the board in the performance standards for the high school assessment shall be presented to the education committees of the house of representatives and the senate by November 30th of the school year in which the changes will take place to permit the legislature to take statutory action before the changes are implemented if such action is deemed warranted by the legislature.)~~ The legislature shall be advised of the initial performance standards and any changes made to the elementary ~~((level performance standards and the))~~, middle, and high school level performance standards. The board must provide an explanation of and rationale for all initial performance standards and any changes, for all grade levels of the statewide student assessment. If the board changes the performance standards for any grade level or subject, the superintendent of public instruction must recalculate the results from the previous ten years of administering that assessment regarding students below, meeting, and beyond the state standard, to the extent that this data is available, and post a comparison of the original and recalculated results on the superintendent's web site;

(c) Annually review the assessment reporting system to ensure fairness, accuracy, timeliness, and equity of opportunity, especially with regard to schools with special circumstances and unique populations of students, and a recommendation to the superintendent of public instruction of any improvements needed to the system; and

(d) Include in the biennial report required under RCW 28A.305.035, information on the progress that has been made in achieving goals adopted by the board;

(1) Beginning in the 2011-12 school year, the statewide high school assessment in science shall be an end-of-course assessment for biology that measures the state standards for life sciences, in addition to systems, inquiry, and application as they pertain to life sciences.

(2)(a) The superintendent of public instruction may develop or adopt science end-of-course assessments or a comprehensive science assessment ~~((that includes subjects in addition to biology for purposes of RCW 28A.655.061-))~~ when so directed by the legislature. The legislature intends to transition from a biology end-of-course assessment to a more comprehensive science assessment in a manner consistent with the way in which the state transitioned to an English language arts assessment and a comprehensive mathematics assessment. ~~((The legislature further intends that the transition will include at least two years of using the student assessment results from either the biology end-of-course assessment or the more comprehensive assessment in order to provide students with reasonable opportunities to demonstrate high school competencies while being mindful of the increasing rigor of the new assessment.))~~

(b) The superintendent of public instruction shall develop or adopt a science assessment in accordance with RCW 28A.655.070(10) that is not biased toward persons with different learning styles, racial or ethnic backgrounds, or on the basis of gender.

~~((c) Before the next subsequent school year after the legislature directs the superintendent to develop or adopt a new science assessment, the superintendent of public instruction shall review the objective alternative assessments for the science assessment and make recommendations to the legislature regarding additional objective alternatives, if any.))~~

(3) The superintendent of public instruction may participate with consortia of multiple states as common student learning standards and assessments in science are developed. The superintendent of public instruction, in consultation with the state board of education, may modify the essential academic learning requirements and statewide student assessments in science, including the high school assessment, according to the multistate common student learning standards and assessments as long as the education committees of the legislature have opportunities for review before the modifications are adopted, as provided under RCW 28A.655.070.

(4) ~~((The statewide high school assessment under this section shall be used to demonstrate that a student meets the state standards in the science content area of the statewide student assessment for purposes of RCW 28A.655.061-))~~ After the superintendent of public instruction adopts a comprehensive science assessment under this section and RCW 28A.655.070, there shall be a two-year transition period, including one year to pilot the comprehensive science assessment and a second year to administer the assessment statewide, before students are required to meet the standard on the comprehensive assessment to earn a certificate of academic achievement.

Sec. 105. RCW 28A.655.070 and 2015 c 211 s 3 are each amended to read as follows:

(1) The superintendent of public instruction shall develop essential academic learning requirements that identify the knowledge and skills all public school students need to know and be able to do based on the student learning goals in RCW 28A.150.210, develop student assessments, and implement the accountability recommendations and requests regarding

assistance, rewards, and recognition of the state board of education.

(2) The superintendent of public instruction shall:

(a) Periodically revise the essential academic learning requirements, as needed, based on the student learning goals in RCW 28A.150.210. Goals one and two shall be considered primary. To the maximum extent possible, the superintendent shall integrate goal four and the knowledge and skill areas in the other goals in the essential academic learning requirements; and

(b) Review and prioritize the essential academic learning requirements and identify, with clear and concise descriptions, the grade level content expectations to be assessed on the statewide student assessment and used for state or federal accountability purposes. The review, prioritization, and identification shall result in more focus and targeting with an emphasis on depth over breadth in the number of grade level content expectations assessed at each grade level. Grade level content expectations shall be articulated over the grades as a sequence of expectations and performances that are logical, build with increasing depth after foundational knowledge and skills are acquired, and reflect, where appropriate, the sequential nature of the discipline. The office of the superintendent of public instruction, within seven working days, shall post on its web site any grade level content expectations provided to an assessment vendor for use in constructing the statewide student assessment.

(3)(a) In consultation with the state board of education, the superintendent of public instruction shall maintain and continue to develop and revise a statewide academic assessment system in the content areas of ~~((reading, writing))~~ English language arts, mathematics, and science for use in the elementary, middle, and high school years designed to determine if each student has mastered the essential academic learning requirements identified in subsection (1) of this section. School districts shall administer the assessments under guidelines adopted by the superintendent of public instruction. The academic assessment system may include a variety of assessment methods, including criterion-referenced and performance-based measures.

~~(b) ((Effective with the 2009 administration of the Washington assessment of student learning and continuing with the statewide student assessment, the superintendent shall redesign the assessment in the content areas of reading, mathematics, and science in all grades except high school by shortening test administration and reducing the number of short answer and extended response questions.~~

~~(c) By the 2014-15 school year,))~~ (i) The superintendent of public instruction, in consultation with the state board of education, shall modify the statewide student assessment system to transition to assessments developed with a multistate consortium ~~((, as provided in this subsection:~~

~~((i)),~~

(ii) The assessments developed with a multistate consortium to assess student proficiency in English language arts and mathematics shall be administered beginning in the 2014-15 school year. The reading and writing assessments shall not be administered by the superintendent of public instruction or schools after the 2013-14 school year.

~~((i)),~~ (iii) The high school ~~((assessments in))~~ English language arts and mathematics ~~((in (c)(i) of this subsection))~~ assessments developed with the multistate consortium shall be used for the purposes of earning a certificate of academic achievement for high school graduation under the timeline established in ~~((RCW 28A.655.061))~~ section 101 of this act and for assessing student career and college readiness.

~~((iii))~~ During the transition period specified in RCW 28A.655.061, the superintendent of public instruction shall use ~~test items and other resources from the consortium assessment to~~

~~develop and administer a tenth grade high school English language arts assessment, an end of course mathematics assessment to assess the standards common to algebra I and integrated mathematics I, and an end of course mathematics assessment to assess the standards common to geometry and integrated mathematics II.~~

(4) If the superintendent proposes any modification to the essential academic learning requirements or the statewide assessments, then the superintendent shall, upon request, provide opportunities for the superintendent committees of the house of representatives and the senate to review the assessments and proposed modifications to the essential academic learning requirements before the modifications are adopted.

(5) The assessment system shall be designed so that the results under the assessment system are used by educators as tools to evaluate instructional practices, and to initiate appropriate educational support for students who have not mastered the essential academic learning requirements at the appropriate periods in the student's educational development.

(6) By September 2007, the results for reading and mathematics shall be reported in a format that will allow parents and teachers to determine the academic gain a student has acquired in those content areas from one school year to the next.

(7) To assist parents and teachers in their efforts to provide educational support to individual students, the superintendent of public instruction shall provide as much individual student performance information as possible within the constraints of the assessment system's item bank. The superintendent shall also provide to school districts:

(a) Information on classroom-based and other assessments that may provide additional achievement information for individual students; and

(b) A collection of diagnostic tools that educators may use to evaluate the academic status of individual students. The tools shall be designed to be inexpensive, easily administered, and quickly and easily scored, with results provided in a format that may be easily shared with parents and students.

(8) To the maximum extent possible, the superintendent shall integrate knowledge and skill areas in development of the assessments.

(9) Assessments for goals three and four of RCW 28A.150.210 shall be integrated in the essential academic learning requirements and assessments for goals one and two.

(10) The superintendent shall develop assessments that are directly related to the essential academic learning requirements, and are not biased toward persons with different learning styles, racial or ethnic backgrounds, or on the basis of gender.

(11) The superintendent shall consider methods to address the unique needs of special education students when developing the assessments under this section.

(12) The superintendent shall consider methods to address the unique needs of highly capable students when developing the assessments under this section.

(13) The superintendent shall post on the superintendent's web site lists of resources and model assessments in social studies, the arts, and health and fitness.

(14) The superintendent shall integrate financial education skills and content knowledge into the state learning standards pursuant to RCW 28A.300.460(2)(d).

NEW SECTION. Sec. 106. A new section is added to chapter 28A.655 RCW to read as follows:

(1) Beginning with the graduating class of 2015, and until the first graduating class following the transition period identified in RCW 28A.655.068(4), a student is not required to meet the state standard in science in order to earn a certificate of academic achievement.

(2)(a) Beginning with the first graduating class following the transition period identified in RCW 28A.655.068(4), a student must meet the state standard on the comprehensive science assessment, in addition to the other content areas required under section 101 of this act, to earn a certificate of academic achievement.

(b)(i) Students in grade twelve who have not met the state standard on the comprehensive science assessment must take and pass a locally determined course in science to earn a certificate of academic achievement. The course shall be rigorous and consistent with the student's educational and career goals identified in his or her high school and beyond plan, and may include career and technical education equivalencies in science pursuant to RCW 28A.230.097.

(ii) For purposes of this subsection (2)(b), a course shall be deemed rigorous if it is at a higher course level than the student's most recent coursework in the content area in which the student received a passing grade of C or higher, or its equivalent.

(c) When available, school districts should prioritize enrolling students who must take and pass a locally determined course in science in a high school transition course.

(d) For the purpose of this section, "high school transition course" has the definition in RCW 28A.230.090(1)(e)(iii).

Sec. 107. RCW 28A.230.125 and 2014 c 102 s 3 are each amended to read as follows:

(1) The superintendent of public instruction, in consultation with the four-year institutions as defined in RCW 28B.76.020, the state board for community and technical colleges, and the workforce training and education coordinating board, shall develop for use by all public school districts a standardized high school transcript. The superintendent shall establish clear definitions for the terms "credits" and "hours" so that school programs operating on the quarter, semester, or trimester system can be compared.

(2) The standardized high school transcript shall include a notation of whether the student has earned a certificate of individual achievement or a certificate of academic achievement.

(3) The standardized high school transcript may include a notation of whether the student has earned the Washington state seal of biliteracy established under RCW 28A.300.575.

(4) If a student has earned a level 3 or level 4 score on the high school English language and mathematics assessments identified in RCW 28A.655.070, the student's standardized high school transcript must include a notation of "career and college ready high honors." School districts are encouraged to also include a notation of "career and college ready high honors" on the student's diploma.

NEW SECTION. Sec. 108. A new section is added to chapter 28A.300 RCW to read as follows:

(1) The superintendent of public instruction shall conduct a study of the locally determined courses in English language arts or mathematics under RCW 28A.230.090(1)(e) offered by school districts in the 2015-16 and 2016-17 school years to students in grade twelve who are participating in locally determined courses. The study shall analyze how the transition courses and other locally determined courses are aligned with the Washington state learning standards in English language arts and mathematics. The study shall also determine whether the state has an adequate number of certificated teachers qualified to teach transition courses and other locally determined courses aligned with the Washington state learning standards in English language arts and mathematics. The superintendent of public instruction shall submit a report on the results of this study to the legislature, in accordance with RCW 43.01.036, before January 1, 2018.

(2) Beginning in 2018, the superintendent of public instruction, in consultation with the education data center in RCW

43.41.400, shall annually produce a summary report of the outcomes of Washington state high school graduates who earned a certificate of academic achievement under section 101 of this act. The report must include data identifying students' employment, participation in higher education, and workforce training after a period of one year following graduation from high school. The report must also include data identifying remedial precollege coursework that students take in postsecondary institutions following graduation from high school. The data must be disaggregated into the following categories: (a) Students who earned a certificate of academic achievement by earning a level 3 or level 4 on the high school English language arts and mathematics assessments identified in RCW 28A.655.070; (b) students who earned a certificate of academic achievement by earning equivalent scores on the SAT or ACT; (c) students who earned a certificate of academic achievement by taking and passing transition courses in English language arts or mathematics in grade twelve; and (d) students who earned a certificate of academic achievement by taking and passing other locally determined courses in English language arts or mathematics in grade twelve.

Sec. 109. RCW 28A.320.195 and 2013 c 184 s 2 are each amended to read as follows:

(1) Each school district board of directors is encouraged to adopt an academic acceleration policy for high school students as provided under this section.

(2) Under an academic acceleration policy:

(a) The district automatically enrolls any student who meets the state standard on the high school statewide student assessment in the next most rigorous level of advanced courses offered by the high school. Students who successfully complete such an advanced course are then enrolled in the next most rigorous level of advanced course, with the objective that students will eventually be automatically enrolled in courses that offer the opportunity to earn dual credit for high school and college.

(b) The subject matter of the advanced courses in which the student is automatically enrolled depends on the content area or areas of the statewide student assessment where the student has met the state standard. Students who meet the state standard on (i) both end-of-course mathematics assessments or (ii) the high school mathematics assessment identified in RCW 28A.655.070 are considered to have met the state standard for high school mathematics. Students who meet the state standard ~~((in both reading and writing))~~ on the high school English language arts assessment identified in RCW 28A.655.070 are eligible for enrollment in advanced courses in English, social studies, humanities, and other related subjects.

(c) The district must notify students and parents or guardians regarding the academic acceleration policy and the advanced courses available to students.

(d) The district must provide a parent or guardian with an opportunity to opt out of the academic acceleration policy and enroll a student in an alternative course.

Sec. 110. RCW 28A.700.080 and 2008 c 170 s 301 are each amended to read as follows:

(1) Subject to funds appropriated for this purpose, the office of the superintendent of public instruction shall develop and conduct an ongoing campaign for career and technical education to increase awareness among teachers, counselors, students, parents, principals, school administrators, and the general public about the opportunities offered by rigorous career and technical education programs. Messages in the campaign shall emphasize career and technical education as a high quality educational pathway for students, including for students who seek advanced education that includes a bachelor's degree or beyond. In

(a) The model career and technical education programs of study developed under RCW 28A.700.060;

(b) Career and technical education course equivalencies and dual credit for high school and college;

(c) ~~((The career and technical education alternative assessment guidelines under RCW 28A.655.065;~~

~~(d))~~ The availability of scholarships for postsecondary workforce education, including the Washington award for vocational excellence, and apprenticeships through the opportunity grant program under RCW 28B.50.271, grants under RCW 28A.700.090, and other programs; and

~~((e))~~ (d) Education, apprenticeship, and career opportunities in emerging and high-demand programs.

(2) The office shall use multiple strategies in the campaign depending on available funds, including developing an interactive web site to encourage and facilitate career exploration; conducting training and orientation for guidance counselors and teachers; and developing and disseminating printed materials.

(3) The office shall seek advice, participation, and financial assistance from the workforce training and education coordinating board, higher education institutions, foundations, employers, apprenticeship and training councils, workforce development councils, and business and labor organizations for the campaign.

Increasing academic rigor and streamlining assessment requirements for high school students.

The bill was read the second time.

Representative Magendanz moved the adoption of amendment (508):

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 310. (1) The legislature finds that high school students in Washington have been required to meet a standard on high school assessments since 2008 to earn a certificate of academic achievement and graduate. The majority of high school students have taken these assessments for the first time by the conclusion of tenth grade. Over time, the state has adopted several alternative methods to allow students who do not meet the standard on the tenth grade assessment to demonstrate their competency to graduate. These alternatives include the opportunity to retake the assessment, a comparison of grades earned, collections of evidence, and college entrance or dual credit course exams.

(2) The legislature recognizes that, in today's competitive global economy, it is not enough for Washington's students to meet a minimum level of competency. Success in postsecondary education, gainful employment, and citizenship requires increased rigor and achievement. To that end, the state has recently adopted new, academically rigorous policies to better prepare students for future success. Starting in spring 2015, Washington students will be tested using a comprehensive assessment system developed with a multistate consortium. This system, the smarter balanced assessment, will evaluate students in grades three through eight and grade eleven on their college and career readiness based on the Washington state learning standards in English language arts and mathematics, and will be used for state and federal accountability purposes. In addition, students beginning with the graduating class of 2019 will also have the requirement to earn twenty-four credits for high school graduation to obtain a more meaningful diploma. Schools also have put a great deal of time and effort into ensuring quality instruction through the teacher and principal evaluation

program, a four-tiered system that establishes eight new criteria for teachers' and principals' evaluations. Finally, Washington adopted new, academically rigorous next generation science standards (NGSS) in 2013. A comprehensive science assessment of the next generation science standards is being developed and is expected to become operational statewide in spring 2017 or 2018.

(3) The legislature further finds that the transition to the smarter balanced assessment system has markedly complicated the development and administration of the statewide assessment graduation requirement and the state's confusing array of alternative assessments. The classes of 2016 through 2018 are required to take end-of-course exams or comprehensive assessments in the tenth grade to fulfill graduation requirements for English language arts, mathematics, and biology. In addition, they are required to take the smarter balanced assessments in the eleventh grade to determine if they are college and career ready and for school and district accountability.

(4) The legislature finds that requiring schools to administer six high school assessments—the smarter balanced English language arts assessment, smarter balanced mathematics, the end-of-course assessment for biology, two mathematics end-of-course assessments, and the English language arts exit exam—creates a costly system in which too much classroom time and too many state resources are devoted to taking and retaking tests for graduation purposes. The time and funding that are now invested in Washington's current state graduation assessments do not result in students meeting a college or career ready measure accepted by postsecondary institutions and organizations.

(5) The legislature further finds that locally directed remediation and intervention strategies, including twelfth grade transition courses, opportunities to retake courses, and more sustained focus on providing college and career guidance through students' high school and beyond plans, would better prepare students for postsecondary college and career opportunities. State and local resources that are now directed to develop and administer alternative graduation assessments should be redirected to courses and programs better suited for student needs during high school.

(6) The legislature further finds that taxpayers and tuition payers can save substantial money by avoiding remedial courses taught at public institutions of higher education. An unprecedented agreement among Washington's public institutions of higher education now ensures that high school graduates who meet the standard on the smarter balanced assessment or who successfully complete twelfth grade high school transition courses in English language arts and mathematics will move directly to college-level English and mathematics courses at participating institutions without remediation or additional placement testing.

(7)(a) The legislature therefore intends to eliminate the tenth grade assessments in reading, writing, and mathematics and the myriad of alternative assessments that students may use to obtain a certificate of academic achievement. In their place, students will be required to either meet the standard on the smarter balanced English language arts and mathematics assessments administered in high school, or demonstrate by the beginning of their senior year that they have met state standards using the SAT or ACT. The legislature further intends for students who fail to meet the standard to take and pass locally determined courses in their senior year that align with their college or career goals, including, when available, high school transition courses.

(b) The legislature recognizes that many students in the graduating class of 2016 have already satisfied current requirements for obtaining a certificate of academic achievement and does not intend that these efforts go for naught. The legislature intends to allow students in the graduating class of 2016 who have, by the beginning of the 2015-16 school year, already met the standard on the tenth grade assessments in reading, writing, and mathematics, or

satisfied the alternative assessments, to earn a certificate of academic achievement by these means, by the means identified in section 101(3) of this act, or by a combination of the two in the event that a student has, by the beginning of the 2015-16 school year, already met the standard or satisfied an alternative in one, but not both, of the content areas.

(8) It is the intent of the legislature for Washington to administer only three statewide assessments for high school graduation: The smarter balanced assessment in English language arts; the smarter balanced assessment in mathematics; and the statewide assessment in science, including, when operational, the comprehensive next generation science standards assessment.

PART I
STUDENT ASSESSMENTS, GRADUATION, AND
ASSOCIATED REQUIREMENTS—GENERAL
PROVISIONS

NEW SECTION. Sec. 101. A new section is added to chapter 28A.655 RCW to read as follows:

(1) The high school assessment system shall include the statewide student assessment and opportunities for a student to retake the content areas of the assessment in which the student was not successful.

(2) Subject to the conditions in this section, students shall obtain a certificate of academic achievement as evidence that they have successfully met the state standard in the content areas included in the certificate. With the exception of students satisfying the provisions of RCW 28A.155.045, acquisition of the certificate is required for graduation from a public high school but is not the sole requirement for graduation.

(3) Beginning with the graduating class of 2016, a student shall earn a certificate of academic achievement if the student:

(a) Earns a score of level 3 or level 4 on the high school English language arts and mathematics assessments identified in RCW 28A.655.070;

(b) Before the beginning of the student's senior year, earns a score on the mathematics, reading or English, or writing portion of the SAT or the ACT that is identified by the state board of education as meeting the state standard in the relevant content area on the high school English language arts and mathematics assessments; or

(c) Takes and passes a locally determined course in English language arts or mathematics under RCW 28A.230.090(1)(e).

(d) A student may use the means identified in (b) and (c) of this subsection for purposes of earning a certificate of academic achievement if the student has taken, at least once, the high school English language arts and mathematics assessments identified in RCW 28A.655.070.

(4)(a) The state board of education shall identify the scores on the mathematics, reading or English, or writing portions of the SAT or ACT that are equivalent to a level 3 on both the high school English language arts and mathematics assessments identified in RCW 28A.655.070.

(b) The state board of education shall promptly notify school districts of the scores identified under (a) of this subsection.

(5) The state board of education may not require the acquisition of the certificate of academic achievement for students in home-based instruction under chapter 28A.200 RCW, for students enrolled in private schools under chapter 28A.195 RCW, or for students satisfying the provisions of RCW 28A.155.045.

(6)(a) If a student does not earn a score of level 3 or level 4 in one or more content areas required for the certificate of academic achievement, the student may retake the assessment in the content area at least once a year and at no charge to the student. If the student earns a score of level 3 or level 4 on a retake of the assessment, the student shall earn a certificate of academic achievement.

(b) School districts must make available to students at no charge, the following options:

(i) If the student is enrolled in a public school, retaking the high school English language arts and mathematics assessments identified in RCW 28A.655.070 at least once a year in the content areas in which the student did not earn a score of level 3 or level 4; or

(ii) If the student is enrolled in a high school completion program at a community or technical college, retaking the high school English language arts and mathematics assessments identified in RCW 28A.655.070 at least once a year in the content areas in which the student did not earn a score of level 3 or level 4. The superintendent of public instruction and the state board for community and technical colleges shall jointly identify means by which students in these programs can be assessed.

(c) Students who achieve the standard in a content area of the high school English language arts or mathematics assessments identified in RCW 28A.655.070, but who wish to improve their results, must be assessed a charge for retaking the assessment according to a uniform cost determined by the superintendent of public instruction.

(7) A student may retain and use the highest result from each successfully completed content area of the high school English language arts and mathematics assessments identified in RCW 28A.655.070.

Sec. 102. RCW 28A.230.090 and 2014 c 217 s 202 are each amended to read as follows:

(1) The state board of education shall establish high school graduation requirements or equivalencies for students, except as provided in RCW 28A.230.122 and except those equivalencies established by local high schools or school districts under RCW 28A.230.097. The purpose of a high school diploma is to declare that a student is ready for success in postsecondary education, gainful employment, and citizenship, and is equipped with the skills to be a lifelong learner.

(a) Any course in Washington state history and government used to fulfill high school graduation requirements shall consider including information on the culture, history, and government of the American Indian peoples who were the first inhabitants of the state.

(b) The certificate of academic achievement requirements under (~~RCW 28A.655.064~~) section 101 of this act or the certificate of individual achievement requirements under RCW 28A.155.045 are required for graduation from a public high school but are not the only requirements for graduation.

(c)(i) Each student must have a high school and beyond plan to guide the student's high school experience and prepare the student for postsecondary education or training and career.

(ii) A high school and beyond plan must be initiated for each student during the eighth grade. In preparation for initiating that plan, each student must first be administered a career interest and skills inventory.

(iii) The plan must be updated annually during the high school grades to review transcripts, assess progress toward identified goals, and revise as necessary for changing interests, goals, and needs. School districts are encouraged to involve parents and guardians in the process of developing and updating the high school and beyond plan.

(iv) All high school and beyond plans must, at a minimum, include the following elements:

(A) Identification of career goals, aided by a skills and interest assessment;

(B) Identification of educational goals;

(C) A four-year plan for course-taking that fulfills state and local graduation requirements and aligns with the student's career and educational goals;

(D) Identification of assessments needed to graduate from high school and achieve postsecondary goals identified in the high school and beyond plan; and

(E) By the end of the twelfth grade, a current resume or activity log that provides a written compilation of the student's education, any work experience, and any community service and how the school district has recognized the community service pursuant to RCW 28A.320.193.

(d) Any decision on whether a student has met the state board's high school graduation requirements for a high school and beyond plan shall remain at the local level. A district may establish additional, local requirements for a high school and beyond plan to serve the needs and interests of its students and the purposes of this section.

(e)(i)(A) Beginning in the 2015-16 school year, students who have not earned a certificate of academic achievement under section 101 or 201 of this act before the beginning of grade twelve must take and pass a locally determined course in the content area in which the student was not successful. The course shall be rigorous and consistent with the student's educational and career goals identified in his or her high school and beyond plan, and may include career and technical education equivalencies in English language arts or mathematics adopted pursuant to RCW 28A.230.097.

(B) A course shall be deemed rigorous if it is at a higher course level than the student's most recent coursework in the content area in which the student received a passing grade of C or higher, or its equivalent.

(C) School districts should prioritize enrolling students who must take and pass locally determined courses under this subsection (1)(e)(i) in available high school transition courses.

(ii) School districts shall record students' participation in locally determined courses under this section in the statewide individual data system. Separate data codes must be provided for high school transition courses and other locally determined courses.

(iii) As used in this subsection (1)(e), "high school transition course" means an English language arts, mathematics, or science course offered in high school whose successful completion by a high school student will ensure the student college-level placement at participating institutions of higher education as defined in RCW 28B.10.016. High school transition courses must, in accordance with this section, satisfy core or elective credit graduation requirements established by the state board of education. A student's successful completion of a high school transition course does not entitle the student to be admitted to any institution of higher education as defined in RCW 28B.10.016.

(iv) This subsection (1)(e) does not apply to students satisfying the provisions of RCW 28A.155.045.

(f) Effective with the graduating class of 2015, the state board of education may not establish a requirement for students to complete a culminating project for graduation.

((~~+~~)) (g)(i) The state board of education shall adopt rules to implement the career and college ready graduation requirement proposal adopted under board resolution on November 10, 2010, and revised on January 9, 2014, to take effect beginning with the graduating class of 2019 or as otherwise provided in this subsection (1)((~~+~~)) (g). The rules must include authorization for a school district to waive up to two credits for individual students based on unusual circumstances and in accordance with written policies that must be adopted by each board of directors of a school district that grants diplomas. The rules must also provide that the content of the third credit of mathematics and the content of the third credit of science may be chosen by the student based on the student's interests and high school and beyond plan with agreement of the student's parent or guardian or agreement of the school counselor or principal.

(ii) School districts may apply to the state board of education for a waiver to implement the career and college ready graduation requirement proposal beginning with the graduating class of 2020 or 2021 instead of the graduating class of 2019. In the application, a school district must describe why the waiver is being requested, the

specific impediments preventing timely implementation, and efforts that will be taken to achieve implementation with the graduating class proposed under the waiver. The state board of education shall grant a waiver under this subsection (1)((~~+~~)) (g) to an applying school district at the next subsequent meeting of the board after receiving an application.

(iii) A school district that has implemented the career and college ready graduation requirements must update the high school and beyond plans for each student in grade nine who failed to earn a score of level 3 or level 4 on the middle school mathematics assessment identified in RCW 28A.655.070 for the purpose of ensuring that the student takes one or more credits of mathematics coursework in each of grades nine, ten, and eleven. These courses may include career and technical education equivalencies in mathematics adopted pursuant to RCW 28A.230.097.

(2)(a) In recognition of the statutory authority of the state board of education to establish and enforce minimum high school graduation requirements, the state board shall periodically reevaluate the graduation requirements and shall report such findings to the legislature in a timely manner as determined by the state board.

(b) The state board shall reevaluate the graduation requirements for students enrolled in vocationally intensive and rigorous career and technical education programs, particularly those programs that lead to a certificate or credential that is state or nationally recognized. The purpose of the evaluation is to ensure that students enrolled in these programs have sufficient opportunity to earn a certificate of academic achievement, complete the program and earn the program's certificate or credential, and complete other state and local graduation requirements.

(c) The state board shall forward any proposed changes to the high school graduation requirements to the education committees of the legislature for review and to the quality education council established under RCW 28A.290.010. The legislature shall have the opportunity to act during a regular legislative session before the changes are adopted through administrative rule by the state board. Changes that have a fiscal impact on school districts, as identified by a fiscal analysis prepared by the office of the superintendent of public instruction, shall take effect only if formally authorized and funded by the legislature through the omnibus appropriations act or other enacted legislation.

(3) Pursuant to any requirement for instruction in languages other than English established by the state board of education or a local school district, or both, for purposes of high school graduation, students who receive instruction in American sign language or one or more American Indian languages shall be considered to have satisfied the state or local school district graduation requirement for instruction in one or more languages other than English.

(4) If requested by the student and his or her family, a student who has completed high school courses before attending high school shall be given high school credit which shall be applied to fulfilling high school graduation requirements if:

Sec. 103. RCW 28A.305.130 and 2013 2nd sp.s. c 22 s 7 are each amended to read as follows:

The purpose of the state board of education is to provide advocacy and strategic oversight of public education; implement a standards-based accountability framework that creates a unified system of increasing levels of support for schools in order to improve student academic achievement; provide leadership in the creation of a system that personalizes education for each student and respects diverse cultures, abilities, and learning styles; and promote achievement of the goals of RCW 28A.150.210. In addition to any other powers and duties as provided by law, the state board of education shall:

(1) Hold regularly scheduled meetings at such time and place within the state as the board shall determine and may hold such special meetings as may be deemed necessary for the transaction of public business;

(2) Form committees as necessary to effectively and efficiently conduct the work of the board;

(3) Seek advice from the public and interested parties regarding the work of the board;

(4) For purposes of statewide accountability:

(a) Adopt and revise performance improvement goals in reading, writing, science, and mathematics, by subject and grade level, once assessments in these subjects are required statewide; academic and technical skills, as appropriate, in secondary career and technical education programs; and student attendance, as the board deems appropriate to improve student learning. The goals shall be consistent with student privacy protection provisions of RCW 28A.655.090(7) and shall not conflict with requirements contained in Title I of the federal elementary and secondary education act of 1965, or the requirements of the Carl D. Perkins vocational education act of 1998, each as amended. The goals may be established for all students, economically disadvantaged students, limited English proficient students, students with disabilities, and students from disproportionately academically underachieving racial and ethnic backgrounds. The board may establish school and school district goals addressing high school graduation rates and dropout reduction goals for students in grades seven through twelve. The board shall adopt the goals by rule. However, before each goal is implemented, the board shall present the goal to the education committees of the house of representatives and the senate for the committees' review and comment in a time frame that will permit the legislature to take statutory action on the goal if such action is deemed warranted by the legislature;

(b)(i) Identify the scores students must achieve in order to meet the standard on the statewide student assessment ~~((and, for high school students, to obtain a certificate of academic achievement))~~. The board shall also determine student scores that identify levels of student performance below and beyond the standard. ~~((The board shall consider the incorporation of the standard error of measurement into the decision regarding the award of the certificates.))~~ The board shall set such performance standards and levels in consultation with the superintendent of public instruction and after consideration of any recommendations that may be developed by any advisory committees that may be established for this purpose.

(ii) ~~((By the end of the 2014-15 school year, establish the scores students must achieve to meet the standard and earn a certificate of academic achievement on the tenth grade English language arts assessment and the end of course mathematics assessments developed in accordance with RCW 28A.655.070 to be used as the~~

~~((iii) By the end of the 2014-15 school year, establish the scores students must achieve to meet the standard and earn a certificate of academic achievement on the high school English language arts assessment and the comprehensive mathematics assessment developed with a multistate consortium in accordance with RCW 28A.655.070. To determine the appropriate score, the state board shall review the transition experience of Washington students to the consortium developed assessments, examine the student scores used in other states that are administering the consortium developed assessments, and review the scores in other states that require passage of an eleventh grade assessment as a high school graduation requirement. The scores established by the state board of education for the purposes of earning a certificate of academic achievement and graduation from high school may be different from the scores used for the purpose of determining a student's career and college readiness.~~

~~((iv) The legislature shall be advised of the initial performance standards for the high school statewide student assessment. Any changes recommended by the board in the performance standards for the high school assessment shall be presented to the education committees of the house of representatives and the senate by November 30th of the school year in which the changes will take place to permit the legislature to take statutory action before the changes are implemented if such action is deemed warranted by the legislature.))~~ The legislature shall be advised of the initial performance standards and any changes made to the elementary ~~((level performance standards and the)), middle, and high school level performance standards. The board must provide an explanation of and rationale for all initial performance standards and any changes, for all grade levels of the statewide student assessment. If the board changes the performance standards for any grade level or subject, the superintendent of public instruction must recalculate the results from the previous ten years of administering that assessment regarding students below, meeting, and beyond the state standard, to the extent that this data is available, and post a comparison of the original and recalculated results on the superintendent's web site;~~

(c) Annually review the assessment reporting system to ensure fairness, accuracy, timeliness, and equity of opportunity, especially with regard to schools with special circumstances and unique populations of students, and a recommendation to the superintendent of public instruction of any improvements needed to the system; and

(d) Include in the biennial report required under RCW 28A.305.035, information on the progress that has been made in achieving goals adopted by the board;

(5) Accredit, subject to such accreditation standards and procedures as may be established by the state board of education, all private schools that apply for accreditation, and approve, subject to the provisions of RCW 28A.195.010, private schools carrying out a program for any or all of the grades kindergarten through twelve. However, no private school may be approved that operates a kindergarten program only and no private school shall be placed upon the list of accredited schools so long as secret societies are knowingly allowed to exist among its students by school officials;

(6) Articulate with the institutions of higher education, workforce representatives, and early learning policymakers and providers to coordinate and unify the work of the public school system;

(7) Hire an executive director and an administrative assistant to reside in the office of the superintendent of public instruction for administrative purposes. Any other personnel of the board shall be appointed as provided by RCW 28A.300.020. The board may delegate to the executive director by resolution such duties as deemed necessary to efficiently carry on the business of the board

including, but not limited to, the authority to employ necessary personnel and the authority to enter into, amend, and terminate contracts on behalf of the board. The executive director, administrative assistant, and all but one of the other personnel of the board are exempt from civil service, together with other staff as now or hereafter designated as exempt in accordance with chapter 41.06 RCW; and

(8) Adopt a seal that shall be kept in the office of the superintendent of public instruction.

Sec. 104. RCW 28A.655.068 and 2013 2nd sp.s. c 22 s 4 are each amended to read as follows:

(1) Beginning in the 2011-12 school year, the statewide high school assessment in science shall be an end-of-course assessment for biology that measures the state standards for life sciences, in addition to systems, inquiry, and application as they pertain to life sciences.

(2)(a) The superintendent of public instruction may develop or adopt science end-of-course assessments or a comprehensive science assessment ~~((that includes subjects in addition to biology for purposes of RCW 28A.655.061-))~~ when so directed by the legislature. The legislature intends to transition from a biology end-of-course assessment to a more comprehensive science assessment in a manner consistent with the way in which the state transitioned to an English language arts assessment and a comprehensive mathematics assessment. ~~((The legislature further intends that the transition will include at least two years of using the student assessment results from either the biology end-of-course assessment or the more comprehensive assessment in order to provide students with reasonable opportunities to demonstrate high school competencies while being mindful of the increasing rigor of the new assessment.))~~

(b) The superintendent of public instruction shall develop or adopt a science assessment in accordance with RCW 28A.655.070(10) that is not biased toward persons with different learning styles, racial or ethnic backgrounds, or on the basis of gender.

~~((c) Before the next subsequent school year after the legislature directs the superintendent to develop or adopt a new science assessment, the superintendent of public instruction shall review the objective alternative assessments for the science assessment and make recommendations to the legislature regarding additional objective alternatives, if any.))~~

(3) The superintendent of public instruction may participate with consortia of multiple states as common student learning standards and assessments in science are developed. The superintendent of public instruction, in consultation with the state board of education, may modify the essential academic learning requirements and statewide student assessments in science, including the high school assessment, according to the multistate common student learning standards and assessments as long as the education committees of the legislature have opportunities for review before the modifications are adopted, as provided under RCW 28A.655.070.

(4) ~~((The statewide high school assessment under this section shall be used to demonstrate that a student meets the state standards in the science content area of the statewide student assessment for purposes of RCW 28A.655.061-))~~ After the superintendent of public instruction adopts a comprehensive science assessment under this section and RCW 28A.655.070, there shall be a two-year transition period, including one year to pilot the comprehensive science assessment and a second year to administer the assessment statewide, before students are required to meet the standard on the comprehensive assessment to earn a certificate of academic achievement.

Sec. 105. RCW 28A.655.070 and 2015 c 211 s 3 are each amended to read as follows:

(1) The superintendent of public instruction shall develop essential academic learning requirements that identify the knowledge and skills all public school students need to know and be able to do based on the student learning goals in RCW 28A.150.210, develop student assessments, and implement the accountability recommendations and requests regarding assistance, rewards, and recognition of the state board of education.

(2) The superintendent of public instruction shall:

(a) Periodically revise the essential academic learning requirements, as needed, based on the student learning goals in RCW 28A.150.210. Goals one and two shall be considered primary. To the maximum extent possible, the superintendent shall integrate goal four and the knowledge and skill areas in the other goals in the essential academic learning requirements; and

(b) Review and prioritize the essential academic learning requirements and identify, with clear and concise descriptions, the grade level content expectations to be assessed on the statewide student assessment and used for state or federal accountability purposes. The review, prioritization, and identification shall result in more focus and targeting with an emphasis on depth over breadth in the number of grade level content expectations assessed at each grade level. Grade level content expectations shall be articulated over the grades as a sequence of expectations and performances that are logical, build with increasing depth after foundational knowledge and skills are acquired, and reflect, where appropriate, the sequential nature of the discipline. The office of the superintendent of public instruction, within seven working days, shall post on its web site any grade level content expectations provided to an assessment vendor for use in constructing the statewide student assessment.

(3)(a) In consultation with the state board of education, the superintendent of public instruction shall maintain and continue to develop and revise a statewide academic assessment system in the content areas of ~~((reading, writing))~~ English language arts, mathematics, and science for use in the elementary, middle, and high school years designed to determine if each student has mastered the essential academic learning requirements identified in subsection (1) of this section. School districts shall administer the assessments under guidelines adopted by the superintendent of public instruction. The academic assessment system may include a variety of assessment methods, including criterion-referenced and performance-based measures.

~~(b) ((Effective with the 2009 administration of the Washington assessment of student learning and continuing with the statewide student assessment, the superintendent shall redesign the assessment in the content areas of reading, mathematics, and science in all grades except high school by shortening test administration and reducing the number of short answer and extended response questions.~~

~~(c) By the 2014-15 school year,))~~ (i) The superintendent of public instruction, in consultation with the state board of education, shall modify the statewide student assessment system to transition to assessments developed with a multistate consortium ~~((as provided in this subsection:~~

~~((i))~~

(ii) The assessments developed with a multistate consortium to assess student proficiency in English language arts and mathematics shall be administered beginning in the 2014-15 school year. The reading and writing assessments shall not be administered by the superintendent of public instruction or schools after the 2013-14 school year.

~~((ii))~~ (iii) The high school ~~((assessments in))~~ English language arts and mathematics ((in (e)(i) of this subsection)) assessments developed with the multistate consortium shall be used for the purposes of earning a certificate of academic achievement for high school graduation under the timeline established in ~~((RCW~~

28A.655.061)) section 101 of this act and for assessing student career and college readiness.

~~((iii) During the transition period specified in RCW 28A.655.061, the superintendent of public instruction shall use test items and other resources from the consortium assessment to develop and administer a tenth grade high school English language arts assessment, an end of course mathematics assessment to assess the standards common to algebra I and integrated mathematics I, and an end of course mathematics assessment to assess the standards common to geometry and integrated mathematics II.))~~

(4) If the superintendent proposes any modification to the essential academic learning requirements or the statewide assessments, then the superintendent shall, upon request, provide opportunities for the education committees of the house of representatives and the senate to review the assessments and proposed modifications to the essential academic learning requirements before the modifications are adopted.

(5) The assessment system shall be designed so that the results under the assessment system are used by educators as tools to evaluate instructional practices, and to initiate appropriate educational support for students who have not mastered the essential academic learning requirements at the appropriate periods in the student's educational development.

(6) By September 2007, the results for reading and mathematics shall be reported in a format that will allow parents and teachers to determine the academic gain a student has acquired in those content areas from one school year to the next.

(7) To assist parents and teachers in their efforts to provide educational support to individual students, the superintendent of public instruction shall provide as much individual student performance information as possible within the constraints of the assessment system's item bank. The superintendent shall also provide to school districts:

(a) Information on classroom-based and other assessments that may provide additional achievement information for individual students; and

(b) A collection of diagnostic tools that educators may use to evaluate the academic status of individual students. The tools shall be designed to be inexpensive, easily administered, and quickly and easily scored, with results provided in a format that may be easily shared with parents and students.

(8) To the maximum extent possible, the superintendent shall integrate knowledge and skill areas in development of the assessments.

(9) Assessments for goals three and four of RCW 28A.150.210 shall be integrated in the essential academic learning requirements and assessments for goals one and two.

(10) The superintendent shall develop assessments that are directly related to the essential academic learning requirements, and are not biased toward persons with different learning styles, racial or ethnic backgrounds, or on the basis of gender.

(11) The superintendent shall consider methods to address the unique needs of special education students when developing the assessments under this section.

(12) The superintendent shall consider methods to address the unique needs of highly capable students when developing the assessments under this section.

(13) The superintendent shall post on the superintendent's web site lists of resources and model assessments in social studies, the arts, and health and fitness.

(14) The superintendent shall integrate financial education skills and content knowledge into the state learning standards pursuant to RCW 28A.300.460(2)(d).

NEW SECTION. Sec. 106. A new section is added to chapter 28A.655 RCW to read as follows:

(1) Beginning with the graduating class of 2015, and until the first graduating class following the transition period identified in RCW 28A.655.068(4), a student is not required to meet the state standard in science in order to earn a certificate of academic achievement.

(2)(a) Beginning with the first graduating class following the transition period identified in RCW 28A.655.068(4), a student must meet the state standard on the comprehensive science assessment, in addition to the other content areas required under section 101 of this act, to earn a certificate of academic achievement.

(b)(i) Students in grade twelve who have not met the state standard on the comprehensive science assessment must take and pass a locally determined course in science to earn a certificate of academic achievement. The course shall be rigorous and consistent with the student's educational and career goals identified in his or her high school and beyond plan, and may include career and technical education equivalencies in science pursuant to RCW 28A.230.097.

(ii) For purposes of this subsection (2)(b), a course shall be deemed rigorous if it is at a higher course level than the student's most recent coursework in the content area in which the student received a passing grade of C or higher, or its equivalent.

(c) When available, school districts should prioritize enrolling students who must take and pass a locally determined course in science in a high school transition course.

(d) For the purpose of this section, "high school transition course" has the definition in RCW 28A.230.090(1)(e)(iii).

Sec. 107. RCW 28A.230.125 and 2014 c 102 s 3 are each amended to read as follows:

(1) The superintendent of public instruction, in consultation with the four-year institutions as defined in RCW 28B.76.020, the state board for community and technical colleges, and the workforce training and education coordinating board, shall develop for use by all public school districts a standardized high school transcript. The superintendent shall establish clear definitions for the terms "credits" and "hours" so that school programs operating on the quarter, semester, or trimester system can be compared.

(2) The standardized high school transcript shall include a notation of whether the student has earned a certificate of individual achievement or a certificate of academic achievement.

(3) The standardized high school transcript may include a notation of whether the student has earned the Washington state seal of biliteracy established under RCW 28A.300.575.

(4) If a student has earned a level 3 or level 4 score on the high school English language arts and mathematics assessments identified in RCW 28A.655.070, the student's standardized high school transcript must include a notation of "career and college ready high honors." School districts are encouraged to also include a notation of "career and college ready high honors" on the student's diploma.

NEW SECTION. Sec. 108. A new section is added to chapter 28A.300 RCW to read as follows:

(1) The superintendent of public instruction shall conduct a study of the locally determined courses in English language arts or mathematics under RCW 28A.230.090(1)(e) offered by school districts in the 2015-16 and 2016-17 school years to students in grade twelve who are participating in locally determined courses. The study shall analyze how the transition courses and other locally determined courses are aligned with the Washington state learning standards in English language arts and mathematics. The study shall also determine whether the state has an adequate number of certificated teachers qualified to teach transition courses and other locally determined courses aligned with the Washington state learning standards in English language arts and mathematics. The superintendent of public instruction shall submit a report on the

results of this study to the legislature, in accordance with RCW 43.01.036, before January 1, 2018.

(2) Beginning in 2018, the superintendent of public instruction, in consultation with the education data center in RCW 43.41.400, shall annually produce a summary report of the outcomes of Washington state high school graduates who earned a certificate of academic achievement under section 101 of this act. The report must include data identifying students' employment, participation in higher education, and workforce training after a period of one year following graduation from high school. The report must also include data identifying remedial precollege coursework that students take in postsecondary institutions following graduation from high school. The data must be disaggregated into the following categories: (a) Students who earned a certificate of academic achievement by earning a level 3 or level 4 on the high school English language arts and mathematics assessments identified in RCW 28A.655.070; (b) students who earned a certificate of academic achievement by earning equivalent scores on the SAT or ACT; (c) students who earned a certificate of academic achievement by taking and passing transition courses in English language arts or mathematics in grade twelve; and (d) students who earned a certificate of academic achievement by taking and passing other locally determined courses in English language arts or mathematics in grade twelve.

Sec. 109. RCW 28A.320.195 and 2013 c 184 s 2 are each amended to read as follows:

(1) Each school district board of directors is encouraged to adopt an academic acceleration policy for high school students as provided under this section.

(2) Under an academic acceleration policy:

(a) The district automatically enrolls any student who meets the state standard on the high school statewide student assessment in the next most rigorous level of advanced courses offered by the high school. Students who successfully complete such an advanced course are then enrolled in the next most rigorous level of advanced course, with the objective that students will eventually be automatically enrolled in courses that offer the opportunity to earn dual credit for high school and college.

(b) The subject matter of the advanced courses in which the student is automatically enrolled depends on the content area or areas of the statewide student assessment where the student has met the state standard. Students who meet the state standard on (i) both end-of-course mathematics assessments or (ii) the high school mathematics assessment identified in RCW 28A.655.070 are considered to have met the state standard for high school mathematics. Students who meet the state standard ~~((in both reading and writing))~~ on the high school English language arts assessment identified in RCW 28A.655.070 are eligible for enrollment in advanced courses in English, social studies, humanities, and other related subjects.

(c) The district must notify students and parents or guardians regarding the academic acceleration policy and the advanced courses available to students.

(d) The district must provide a parent or guardian with an opportunity to opt out of the academic acceleration policy and enroll a student in an alternative course.

Sec. 110. RCW 28A.700.080 and 2008 c 170 s 301 are each amended to read as follows:

(1) Subject to funds appropriated for this purpose, the office of the superintendent of public instruction shall develop and conduct an ongoing campaign for career and technical education to increase awareness among teachers, counselors, students, parents, principals, school administrators, and the general public about the opportunities offered by rigorous career and technical education programs. Messages in the campaign shall emphasize career and technical education as a high quality educational pathway for students,

including for students who seek advanced education that includes a bachelor's degree or beyond. In particular, the office shall provide information about the following:

(a) The model career and technical education programs of study developed under RCW 28A.700.060;

(b) Career and technical education course equivalencies and dual credit for high school and college;

~~(c) ((The career and technical education alternative assessment guidelines under RCW 28A.655.065;~~

~~(d))~~ The availability of scholarships for postsecondary workforce education, including the Washington award for vocational excellence, and apprenticeships through the opportunity grant program under RCW 28B.50.271, grants under RCW 28A.700.090, and other programs; and

~~((e))~~ (d) Education, apprenticeship, and career opportunities in emerging and high-demand programs.

(2) The office shall use multiple strategies in the campaign depending on available funds, including developing an interactive web site to encourage and facilitate career exploration; conducting training and orientation for guidance counselors and teachers; and developing and disseminating printed materials.

(3) The office shall seek advice, participation, and financial assistance from the workforce training and education coordinating board, higher education institutions, foundations, employers, apprenticeship and training councils, workforce development councils, and business and labor organizations for the campaign.

Concerning impaired driving.

The bill was read the second time.

Representative Klippert moved the adoption of amendment (511):

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 305. The legislature finds that impaired driving continues to be a significant cause of motor vehicle crashes and that additional measures need to be taken to identify people who are driving under the influence, provide appropriate sanctions, and ensure compliance with court-ordered restrictions. The legislature intends to increase the availability of forensic phlebotomists so that offenders can be appropriately and efficiently identified. The legislature further intends to require consecutive sentencing in certain cases to increase punishment and supervision of offenders. The legislature intends to clarify ignition interlock processes and requirements to ensure that those offenders ordered to have ignition interlock devices do not drive vehicles without the required devices.

Conditions of release—Requirements—Ignition interlock device—24/7 sobriety program monitoring

Sec. 306. RCW 10.21.055 and 2013 2nd sp.s. c 35 s 1 are each amended to read as follows:

(1)(a) When any person charged with ~~((or arrested for))~~ a violation of RCW 46.61.502, 46.61.504, 46.61.520, or 46.61.522, in which the person has a prior offense as defined in RCW 46.61.5055 and the current offense involves alcohol, is released from custody ~~((before))~~ at arraignment or trial on bail or personal recognizance, the court authorizing the release shall require, as a condition of release~~((:))~~ that person ~~((to (a)))~~ comply with one of the following four requirements:

(i) Have a functioning ignition interlock device installed on all motor vehicles operated by the person, with proof of installation filed with the court by the person or the certified interlock provider within five business days of the date of release from custody or as soon thereafter as determined by the court based on availability within the jurisdiction; or ~~((b))~~

(ii) Comply with 24/7 sobriety program monitoring, as defined in RCW 36.28A.330; or ~~((both))~~

(iii) Have an ignition interlock device on all motor vehicles operated by the person pursuant to (a)(i) of this subsection and submit to 24/7 sobriety program monitoring pursuant to (a)(ii) of this subsection, if available, or alcohol monitoring, at the expense of the person, as provided in RCW 46.61.5055(5) (b) and (c); or

(iv) Have an ignition interlock device on all motor vehicles operated by the person and that such person agrees not to operate any motor vehicle without an ignition interlock device as required by the court. Under this subsection (1)(a)(iv), the person must file a sworn statement with the court upon release at arraignment that states the person will not operate any motor vehicle without an ignition interlock device while the ignition interlock restriction is imposed by the court. Such person must also submit to 24/7 sobriety program monitoring pursuant to (a)(ii) of this subsection, if available, or alcohol monitoring, at the expense of the person, as provided in RCW 46.61.5055(5) (b) and (c).

(b) The court shall immediately notify the department of licensing when an ignition interlock restriction is imposed: (i) As a condition of release pursuant to (a) of this subsection; or (ii) in instances where a person is charged with, or convicted of, a violation of RCW 46.61.502, 46.61.504, 46.61.520, or 46.61.522, and the offense involves alcohol. If the court imposes an ignition interlock restriction, the department of licensing shall attach or imprint a notation on the driving record of any person restricted under this

section stating that the person may operate only a motor vehicle equipped with a functioning ignition interlock device.

(2)(a) Upon acquittal or dismissal of all pending or current charges relating to a violation of RCW 46.61.502, 46.61.504, 46.61.520, or 46.61.522, or equivalent local ordinance, the court shall authorize removal of the ignition interlock device and lift any requirement to comply with electronic alcohol/drug monitoring imposed under subsection (1) of this section. Nothing in this section limits the authority of the court or department under RCW 46.20.720.

(b) If the court authorizes removal of an ignition interlock device imposed under (a) of this subsection the court shall immediately notify the department of licensing regarding the lifting of the ignition interlock restriction and the department of licensing shall release any attachment, imprint, or notation on such person's driving record relating to the ignition interlock requirement imposed under this section.

Ignition interlock driver's license—Application—Eligibility—Cancellation—Costs—Rules

Sec. 307. RCW 46.20.385 and 2013 2nd sp.s. c 35 s 20 are each amended to read as follows:

(1)(a) ~~((Beginning January 1, 2009,))~~ Any person licensed under this chapter or who has a valid driver's license from another state, who is convicted of: (i) A violation of RCW 46.61.502 or 46.61.504 or an equivalent local or out-of-state statute or ordinance, or (ii) a violation of RCW 46.61.520(1)(a) or an equivalent local or out-of-state statute or ordinance, or (iii) a conviction for a violation of RCW 46.61.520(1) (b) or (c) if the conviction is the result of a charge that was originally filed as a violation of RCW 46.61.520(1)(a), or (iv) RCW 46.61.522(1)(b) or an equivalent local or out-of-state statute or ordinance, or (v) RCW 46.61.522(1) (a) or (c) if the conviction is the result of a charge that was originally filed as a violation of RCW 46.61.522(1)(b) committed while under the influence of intoxicating liquor or any drug, or (vi) who has had or will have his or her license suspended, revoked, or denied under RCW 46.20.3101, or who is otherwise permitted under subsection (8) of this section, may submit to the department an application for an ignition interlock driver's license. The department, upon receipt of the prescribed fee and upon determining that the petitioner is eligible to receive the license, may issue an ignition interlock driver's license.

(b) A person may apply for an ignition interlock driver's license anytime, including immediately after receiving the notices under RCW 46.20.308 or after his or her license is suspended, revoked, or denied. ~~((A person receiving an ignition interlock driver's license waives his or her right to a hearing or appeal under RCW 46.20.308.))~~

(c) An applicant under this subsection shall provide proof to the satisfaction of the department that a functioning ignition interlock device has been installed on all vehicles operated by the person.

(i) The department shall require the person to maintain the device on all vehicles operated by the person and shall restrict the person to operating only vehicles equipped with the device, for the remainder of the period of suspension, revocation, or denial. Subject to the provisions of RCW 46.20.720(3)(b)(ii), the installation of an ignition interlock device is not necessary on vehicles owned, leased, or rented by a person's employer and on those vehicles whose care and/or maintenance is the temporary responsibility of the employer, and driven at the direction of a person's employer as a requirement of employment during working hours. The person must provide the

department with a declaration pursuant to RCW 9A.72.085 from his or her employer stating that the person's employment requires the person to operate a vehicle owned by the employer or other persons during working hours.

(ii) Subject to any periodic renewal requirements established by the department under this section and subject to any applicable compliance requirements under this chapter or other law, an ignition interlock driver's license granted upon a suspension or revocation under RCW 46.61.5055 or 46.20.3101 extends through the remaining portion of any concurrent or consecutive suspension or revocation that may be imposed as the result of administrative action and criminal conviction arising out of the same incident.

(iii) The time period during which the person is licensed under this section shall apply on a day-for-day basis toward satisfying the period of time the ignition interlock device restriction is required under RCW 46.20.720 ~~((and))~~, 46.61.5055, 10.05.140, 46.61.500(3), and 46.61.5249(4). Beginning with incidents occurring on or after September 1, 2011, when calculating the period of time for the restriction under RCW 46.20.720 (2) or (3), the department must also give the person a day-for-day credit for the time period, beginning from the date of the incident, during which the person kept an ignition interlock device installed on all vehicles the person operates. For the purposes of this subsection (1)(c)(iii), the term "all vehicles" does not include vehicles that would be subject to the employer exception under RCW 46.20.720(3).

(2) An applicant for an ignition interlock driver's license who qualifies under subsection (1) of this section is eligible to receive a license only if the applicant files satisfactory proof of financial responsibility under chapter 46.29 RCW.

(3) Upon receipt of evidence that a holder of an ignition interlock driver's license granted under this subsection no longer has a functioning ignition interlock device installed on all vehicles operated by the driver, the director shall give written notice by first-class mail to the driver that the ignition interlock driver's license shall be canceled. If at any time before the cancellation goes into effect the driver submits evidence that a functioning ignition interlock device has been installed on all vehicles operated by the driver, the cancellation shall be stayed. If the cancellation becomes effective, the driver may obtain, at no additional charge, a new ignition interlock driver's license upon submittal of evidence that a functioning ignition interlock device has been installed on all vehicles operated by the driver.

(4) A person aggrieved by the decision of the department on the application for an ignition interlock driver's license may request a hearing as provided by rule of the department.

(5) The director shall cancel an ignition interlock driver's license after receiving notice that the holder thereof has been convicted of operating a motor vehicle in violation of its restrictions, no longer meets the eligibility requirements, or has been convicted of or found to have committed a separate offense or any other act or omission that under this chapter would warrant suspension or revocation of a regular driver's license. The department must give notice of the cancellation as provided under RCW 46.20.245. A person whose ignition interlock driver's license has been canceled under this section may reapply for a new ignition interlock driver's license if he or she is otherwise qualified under this section and pays the fee required under RCW 46.20.380.

(6)(a) Unless costs are waived by the ignition interlock company or the person is indigent under RCW 10.101.010, the applicant shall pay the cost of installing, removing, and leasing the ignition interlock device and shall pay an additional fee of twenty dollars per month. Payments shall be made directly to the ignition interlock company. The company shall remit the additional twenty dollar fee to the department.

(b) The department shall deposit the proceeds of the twenty dollar fee into the ignition interlock device revolving account.

Expenditures from the account may be used only to administer and operate the ignition interlock device revolving account program. The department shall adopt rules to provide monetary assistance according to greatest need and when funds are available.

(7) The department shall adopt rules to implement ignition interlock licensing. The department shall consult with the administrative office of the courts, the state patrol, the Washington association of sheriffs and police chiefs, ignition interlock companies, and any other organization or entity the department deems appropriate.

(8)(a) Any person licensed under this chapter who is convicted of a violation of RCW 46.61.500 when the charge was originally filed as a violation of RCW 46.61.502 or 46.61.504, or an equivalent local ordinance, may submit to the department an application for an ignition interlock driver's license under this section.

(b) A person who does not have any driver's license under this chapter, but who would otherwise be eligible under this section to apply for an ignition interlock license, may submit to the department an application for an ignition interlock license. The department may require the person to take any driver's licensing examination under this chapter and may require the person to also apply and qualify for a temporary restricted driver's license under RCW 46.20.391.

Notation on driving record—Verification of interlock—Penalty

Sec. 308. RCW 46.20.740 and 2010 c 269 s 8 are each amended to read as follows:

(1) The department shall attach or imprint a notation on the driving record of any person restricted under RCW 46.20.720, 46.61.5055, or 10.05.140 stating that the person may operate only a motor vehicle equipped with a functioning ignition interlock device. The department shall determine the person's eligibility for licensing based upon written verification by a company doing business in the state that it has installed the required device on a vehicle owned or operated by the person seeking reinstatement. If, based upon notification from the interlock provider or otherwise, the department determines that an ignition interlock required under this section is no longer installed or functioning as required, the department shall suspend the person's license or privilege to drive. Whenever the license or driving privilege of any person is suspended or revoked as a result of noncompliance with an ignition interlock requirement, the suspension shall remain in effect until the person provides notice issued by a company doing business in the state that a vehicle owned or operated by the person is equipped with a functioning ignition interlock device.

(2) It is a gross misdemeanor for a person with such a notation on his or her driving record to operate a motor vehicle that is not so equipped, unless the notation resulted from a restriction imposed as a condition of release and the restriction has been released by the court prior to driving.

(3) Any sentence imposed for a violation of subsection (2) of this section shall be served consecutively with any sentence imposed under RCW 46.20.750, 46.61.502, 46.61.504, or 46.61.5055.

Implied consent—Test refusal—Procedures

Sec. 309. RCW 46.20.308 and 2013 2nd sp.s. c 35 s 36 are each amended to read as follows:

(1) Any person who operates a motor vehicle within this state is deemed to have given consent, subject to the provisions of RCW 46.61.506, to a test or tests of his or her breath for the purpose of determining the alcohol concentration (~~(, THC concentration, or presence of any drug)~~) in his or her breath if arrested for any offense where, at the time of the arrest, the arresting officer has reasonable grounds to believe the person had been driving or was in actual physical control of a motor vehicle while under the influence of intoxicating liquor or any drug or was in violation of RCW 46.61.503. ~~((Neither consent nor this section precludes a police~~

~~officer from obtaining a search warrant for a person's breath or blood.))~~

(2) The test or tests of breath shall be administered at the direction of a law enforcement officer having reasonable grounds to believe the person to have been driving or in actual physical control of a motor vehicle within this state while under the influence of intoxicating liquor or any drug or the person to have been driving or in actual physical control of a motor vehicle while having alcohol ~~((or THC))~~ in a concentration in violation of RCW 46.61.503 in his or her system and being under the age of twenty-one. Prior to administering a breath test pursuant to this section, the officer shall inform the person of his or her right under this section to refuse the breath test, and of his or her right to have additional tests administered by any qualified person of his or her choosing as provided in RCW 46.61.506. The officer shall warn the driver, in substantially the following language, that:

(a) If the driver refuses to take the test, the driver's license, permit, or privilege to drive will be revoked or denied for at least one year; and

(b) If the driver refuses to take the test, the driver's refusal to take the test may be used in a criminal trial; and

(c) If the driver submits to the test and the test is administered, the driver's license, permit, or privilege to drive will be suspended, revoked, or denied for at least ninety days if:

(i) The driver is age twenty-one or over and the test indicates either that the alcohol concentration of the driver's breath is 0.08 or more ~~((or that the THC concentration of the driver's blood is 5.00 or more))~~; or

(ii) The driver is under age twenty-one and the test indicates either that the alcohol concentration of the driver's breath is 0.02 or more ~~((or that the THC concentration of the driver's blood is above 0.00))~~; or

(iii) The driver is under age twenty-one and the driver is in violation of RCW 46.61.502 or 46.61.504; and

(d) If the driver's license, permit, or privilege to drive is suspended, revoked, or denied the driver may be eligible to immediately apply for an ignition interlock driver's license.

~~(3) ((Except as provided in this section, the test administered shall be of the breath only. If an individual is unconscious or is under arrest for the crime of felony driving under the influence of intoxicating liquor or drugs under RCW 46.61.502(6), felony physical control of a motor vehicle while under the influence of intoxicating liquor or any drug under RCW 46.61.504(6), vehicular homicide as provided in RCW 46.61.520, or vehicular assault as provided in RCW 46.61.522, or if an individual is under arrest for the crime of driving while under the influence of intoxicating liquor or drugs as provided in RCW 46.61.502, which arrest results from an accident in which there has been serious bodily injury to another person, a breath or blood test may be administered without the consent of the individual so arrested pursuant to a search warrant, a valid waiver of the warrant requirement, or when exigent circumstances exist.~~

~~(4)) If, following his or her arrest and receipt of warnings under subsection (2) of this section, the person arrested ((refuses)) exercises the right, granted herein, by refusing upon the request of a law enforcement officer to submit to a test or tests of his or her breath, no test shall be given except as otherwise authorized by ((a search warrant)) law.~~

(4) Nothing in subsection (1), (2), or (3) of this section precludes a law enforcement officer from obtaining a person's blood to test for alcohol, marijuana, or any drug, pursuant to a search warrant, a valid waiver of the warrant requirement, when exigent circumstances exist, or under any other authority of law. Any blood drawn for the purpose of determining the person's alcohol, marijuana levels, or any drug, is drawn pursuant to this section when the officer has reasonable grounds to believe that the person is in

physical control or driving a vehicle under the influence or in violation of RCW 46.61.503.

(5) If, after arrest and after ~~((the))~~ any other applicable conditions and requirements of this section have been satisfied, a test or tests of the person's blood or breath is administered and the test results indicate that the alcohol concentration of the person's breath or blood is 0.08 or more, or the THC concentration of the person's blood is 5.00 or more, if the person is age twenty-one or over, or that the alcohol concentration of the person's breath or blood is 0.02 or more, or the THC concentration of the person's blood is above 0.00, if the person is under the age of twenty-one, or the person refuses to submit to a test, the arresting officer or other law enforcement officer at whose direction any test has been given, or the department, where applicable, if the arrest results in a test of the person's blood, shall:

(a) Serve notice in writing on the person on behalf of the department of its intention to suspend, revoke, or deny the person's license, permit, or privilege to drive as required by subsection (6) of this section;

(b) Serve notice in writing on the person on behalf of the department of his or her right to a hearing, specifying the steps he or she must take to obtain a hearing as provided by subsection (7) of this section ~~((and that the person waives the right to a hearing if he or she receives an ignition interlock driver's license))~~;

(c) Serve notice in writing that the license or permit, if any, is a temporary license that is valid for sixty days from the date of arrest or from the date notice has been given in the event notice is given by the department following a blood test, or until the suspension, revocation, or denial of the person's license, permit, or privilege to drive is sustained at a hearing pursuant to subsection (7) of this section, whichever occurs first. No temporary license is valid to any greater degree than the license or permit that it replaces; and

(d) Immediately notify the department of the arrest and transmit to the department within seventy-two hours, except as delayed as the result of a blood test, a sworn report or report under a declaration authorized by RCW 9A.72.085 that states:

(i) That the officer had reasonable grounds to believe the arrested person had been driving or was in actual physical control of a motor vehicle within this state while under the influence of intoxicating liquor or drugs, or both, or was under the age of twenty-one years and had been driving or was in actual physical control of a motor vehicle while having an alcohol or THC concentration in violation of RCW 46.61.503;

(ii) That after receipt of ~~((the))~~ any applicable warnings required by subsection (2) of this section the person refused to submit to a test of his or her breath, or a test was administered and the results indicated that the alcohol concentration of the person's breath or blood was 0.08 or more, or the THC concentration of the person's blood was 5.00 or more, if the person is age twenty-one or over, or that the alcohol concentration of the person's breath or blood was 0.02 or more, or the THC concentration of the person's blood was above 0.00, if the person is under the age of twenty-one; and

(iii) Any other information that the director may require by rule.

(6) The department of licensing, upon the receipt of a sworn report or report under a declaration authorized by RCW 9A.72.085 under subsection (5)(d) of this section, shall suspend, revoke, or deny the person's license, permit, or privilege to drive or any nonresident operating privilege, as provided in RCW 46.20.3101, such suspension, revocation, or denial to be effective beginning sixty days from the date of arrest or from the date notice has been given in the event notice is given by the department following a blood test, or when sustained at a hearing pursuant to subsection (7) of this section, whichever occurs first.

(7) A person receiving notification under subsection (5)(b) of this section may, within twenty days after the notice has been given,

request in writing a formal hearing before the department. The person shall pay a fee of three hundred seventy-five dollars as part of the request. If the request is mailed, it must be postmarked within twenty days after receipt of the notification. Upon timely receipt of such a request for a formal hearing, including receipt of the required three hundred seventy-five dollar fee, the department shall afford the person an opportunity for a hearing. The department may waive the required three hundred seventy-five dollar fee if the person is an indigent as defined in RCW 10.101.010. Except as otherwise provided in this section, the hearing is subject to and shall be scheduled and conducted in accordance with RCW 46.20.329 and 46.20.332. The hearing shall be conducted in the county of the arrest, except that all or part of the hearing may, at the discretion of the department, be conducted by telephone or other electronic means. The hearing shall be held within sixty days following the arrest or following the date notice has been given in the event notice is given by the department following a blood test, unless otherwise agreed to by the department and the person, in which case the action by the department shall be stayed, and any valid temporary license (~~marked~~) under subsection (5) of this section extended, if the person is otherwise eligible for licensing. For the purposes of this section, the scope of the hearing shall cover the issues of whether a law enforcement officer had reasonable grounds to believe the person had been driving or was in actual physical control of a motor vehicle within this state while under the influence of intoxicating liquor or any drug or had been driving or was in actual physical control of a motor vehicle within this state while having alcohol in his or her system in a concentration of 0.02 or more, or THC in his or her system in a concentration above 0.00, if the person was under the age of twenty-one, whether the person was placed under arrest, and (a) whether the person refused to submit to the test or tests upon request of the officer after having been informed that such refusal would result in the revocation of the person's license, permit, or privilege to drive, or (b) if a test or tests were administered, whether the applicable requirements of this section were satisfied before the administration of the test or tests, whether the person submitted to the test or tests, or whether a test was administered (~~without express consent~~) pursuant to a search warrant, a valid waiver of the warrant requirement, when exigent circumstances exist, or under any other authority of law as permitted under this section, and whether the test or tests indicated that the alcohol concentration of the person's breath or blood was 0.08 or more, or the THC concentration of the person's blood was 5.00 or more, if the person was age twenty-one or over at the time of the arrest, or that the alcohol concentration of the person's breath or blood was 0.02 or more, or the THC concentration of the person's blood was above 0.00, if the person was under the age of twenty-one at the time of the arrest. Where a person is found to be in actual physical control of a motor vehicle while under the influence of intoxicating liquor or any drug or was under the age of twenty-one at the time of the arrest and was in physical control of a motor vehicle while having alcohol in his or her system in a concentration of 0.02 or THC concentration above 0.00, the person may petition the hearing officer to apply the affirmative defense found in RCW 46.61.504(3) and 46.61.503(2). The driver has the burden to prove the affirmative defense by a preponderance of the evidence. The sworn report or report under a declaration authorized by RCW 9A.72.085 submitted by a law enforcement officer is prima facie evidence that the officer had reasonable grounds to believe the person had been driving or was in actual physical control of a motor vehicle within this state while under the influence of intoxicating liquor or drugs, or both, or the person had been driving or was in actual physical control of a motor vehicle within this state while having alcohol in his or her system in a concentration of 0.02 or more, or THC in his or her system in a concentration above 0.00, and was under the age of twenty-one and that the officer complied with the requirements of this section.

A hearing officer shall conduct the hearing, may issue subpoenas for the attendance of witnesses and the production of documents, and shall administer oaths to witnesses. The hearing officer shall not issue a subpoena for the attendance of a witness at the request of the person unless the request is accompanied by the fee required by RCW 5.56.010 for a witness in district court. The sworn report or report under a declaration authorized by RCW 9A.72.085 of the law enforcement officer and any other evidence accompanying the report shall be admissible without further evidentiary foundation and the certifications authorized by the criminal rules for courts of limited jurisdiction shall be admissible without further evidentiary foundation. The person may be represented by counsel, may question witnesses, may present evidence, and may testify. The department shall order that the suspension, revocation, or denial either be rescinded or sustained.

(8) If the suspension, revocation, or denial is sustained after such a hearing, the person whose license, privilege, or permit is suspended, revoked, or denied has the right to file a petition in the superior court of the county of arrest to review the final order of revocation by the department in the same manner as an appeal from a decision of a court of limited jurisdiction. Notice of appeal must be filed within thirty days after the date the final order is served or the right to appeal is waived. Notwithstanding RCW 46.20.334, RALJ 1.1, or other statutes or rules referencing de novo review, the appeal shall be limited to a review of the record of the administrative hearing. The appellant must pay the costs associated with obtaining the record of the hearing before the hearing officer. The filing of the appeal does not stay the effective date of the suspension, revocation, or denial. A petition filed under this subsection must include the petitioner's grounds for requesting review. Upon granting petitioner's request for review, the court shall review the department's final order of suspension, revocation, or denial as expeditiously as possible. The review must be limited to a determination of whether the department has committed any errors of law. The superior court shall accept those factual determinations supported by substantial evidence in the record: (a) That were expressly made by the department; or (b) that may reasonably be inferred from the final order of the department. The superior court may reverse, affirm, or modify the decision of the department or remand the case back to the department for further proceedings. The decision of the superior court must be in writing and filed in the clerk's office with the other papers in the case. The court shall state the reasons for the decision. If judicial relief is sought for a stay or other temporary remedy from the department's action, the court shall not grant such relief unless the court finds that the appellant is likely to prevail in the appeal and that without a stay the appellant will suffer irreparable injury. If the court stays the suspension, revocation, or denial it may impose conditions on such stay.

(9)(a) If a person whose driver's license, permit, or privilege to drive has been or will be suspended, revoked, or denied under subsection (6) of this section, other than as a result of a breath test refusal, and who has not committed an offense for which he or she was granted a deferred prosecution under chapter 10.05 RCW, petitions a court for a deferred prosecution on criminal charges arising out of the arrest for which action has been or will be taken under subsection (6) of this section, or notifies the department of licensing of the intent to seek such a deferred prosecution, then the license suspension or revocation shall be stayed pending entry of the deferred prosecution. The stay shall not be longer than one hundred fifty days after the date charges are filed, or two years after the date of the arrest, whichever time period is shorter. If the court stays the suspension, revocation, or denial, it may impose conditions on such stay. If the person is otherwise eligible for licensing, the department shall issue a temporary license, or extend any valid temporary license under subsection (5) of this section, for the period of the stay. If a deferred prosecution treatment plan is not recommended in the

report made under RCW 10.05.050, or if treatment is rejected by the court, or if the person declines to accept an offered treatment plan, or if the person violates any condition imposed by the court, then the court shall immediately direct the department to cancel the stay and any temporary (~~marked~~) license or extension of a temporary license issued under this subsection.

(b) A suspension, revocation, or denial imposed under this section, other than as a result of a breath test refusal, shall be stayed if the person is accepted for deferred prosecution as provided in chapter 10.05 RCW for the incident upon which the suspension, revocation, or denial is based. If the deferred prosecution is terminated, the stay shall be lifted and the suspension, revocation, or denial reinstated. If the deferred prosecution is completed, the stay shall be lifted and the suspension, revocation, or denial canceled.

(c) The provisions of (b) of this subsection relating to a stay of a suspension, revocation, or denial and the cancellation of any suspension, revocation, or denial do not apply to the suspension, revocation, denial, or disqualification of a person's commercial driver's license or privilege to operate a commercial motor vehicle.

(10) When it has been finally determined under the procedures of this section that a nonresident's privilege to operate a motor vehicle in this state has been suspended, revoked, or denied, the department shall give information in writing of the action taken to the motor vehicle administrator of the state of the person's residence and of any state in which he or she has a license.

Circumventing ignition interlock—Penalty

Sec. 310. RCW 46.20.750 and 2005 c 200 s 2 are each amended to read as follows:

(1) A person who is restricted to the use of a vehicle equipped with an ignition interlock device (~~and who tampers with the device or directs, authorizes, or requests another to tamper with the device, in order to circumvent the device by modifying, detaching, disconnecting, or otherwise disabling it,~~) is guilty of a gross misdemeanor if the restricted driver:

(a) Tampers with the device by modifying, detaching, disconnecting, or otherwise disabling it to allow the restricted driver to operate the vehicle;

(b) Uses or requests another person to use a filter or other device to circumvent the ignition interlock or to start or operate the vehicle to allow the restricted driver to operate the vehicle;

(c) Has, directs, authorizes, or requests another person to tamper with the device by modifying, detaching, disconnecting, or otherwise disabling it to allow the restricted driver to operate the vehicle; or

(d) Has, allows, directs, authorizes, or requests another person to blow or otherwise exhale into the device in order to circumvent the device to allow the restricted driver to operate the vehicle.

(2) A person who knowingly assists another person who is restricted to the use of a vehicle equipped with an ignition interlock device to circumvent the device or to start and operate that vehicle (~~in violation of a court order~~) is guilty of a gross misdemeanor. The provisions of this subsection do not apply if the starting of a motor vehicle, or the request to start a motor vehicle, equipped with an ignition interlock device is done for the purpose of safety or mechanical repair of the device or the vehicle and the person subject to the court order does not operate the vehicle.

(3) Any sentence imposed for a violation of subsection (1) of this section shall be served consecutively with any sentence imposed under RCW 46.20.740, 46.61.502, 46.61.504, 46.61.5055, 46.61.520(1)(a), or 46.61.522(1)(b).

Commercial vehicles—Test for alcohol or drugs—

Disqualification for refusal of test or positive test—Procedures

Sec. 311. RCW 46.25.120 and 2013 2nd sp.s. c 35 s 12 are each amended to read as follows:

(1) A person who drives a commercial motor vehicle within this state is deemed to have given consent, subject to RCW 46.61.506, to take a test or tests of that person's (~~blood or~~) breath for the purpose of determining that person's alcohol concentration (~~or the presence of other drugs~~).

(2) A test or tests may be administered at the direction of a law enforcement officer, who after stopping or detaining the commercial motor vehicle driver, has (~~probable cause~~) reasonable grounds to believe that driver was driving a commercial motor vehicle while having alcohol in his or her system or while under the influence of any drug.

(3) The law enforcement officer requesting the test under subsection (1) of this section shall warn the person requested to submit to the test that a refusal to submit will result in that person being disqualified from operating a commercial motor vehicle under RCW 46.25.090.

(4) A law enforcement officer who at the time of stopping or detaining a commercial motor vehicle driver has reasonable grounds to believe that driver was driving a commercial motor vehicle while having alcohol, marijuana, or any drug in his or her system or while under the influence of alcohol, marijuana, or any drug may obtain a blood test pursuant to a search warrant, a valid waiver of the warrant requirement, when exigent circumstances exist, or under any other authority of law.

(5) If the person refuses testing, or (~~submits to~~) a test is administered that discloses an alcohol concentration of 0.04 or more or any measurable amount of THC concentration, the law enforcement officer shall submit a sworn report to the department certifying that the test was requested pursuant to subsection (1) of this section or a blood test was administered pursuant to subsection (4) of this section and that the person refused to submit to testing, or (~~submitted to~~) a test was administered that disclosed an alcohol concentration of 0.04 or more or any measurable amount of THC concentration.

(~~(5)~~) (6) Upon receipt of the sworn report of a law enforcement officer under subsection (~~(4)~~) (5) of this section, the department shall disqualify the driver from driving a commercial motor vehicle under RCW 46.25.090, subject to the hearing provisions of RCW 46.20.329 and 46.20.332. The hearing shall be conducted in the county of the arrest. For the purposes of this section, the hearing shall cover the issues of whether a law enforcement officer had reasonable grounds to believe the person had been driving or was in actual physical control of a commercial motor vehicle within this state while having alcohol in the person's system or while under the influence of any drug, whether the person refused to submit to the test or tests upon request of the officer after having been informed that the refusal would result in the disqualification of the person from driving a commercial motor vehicle, if applicable, and, if the test was administered, whether the results indicated an alcohol concentration of 0.04 percent or more or any measurable amount of THC concentration. The department shall order that the disqualification of the person either be rescinded or sustained. Any decision by the department disqualifying a person from driving a commercial motor vehicle is stayed and does not take effect while a formal hearing is pending under this section or during the pendency of a subsequent appeal to superior court so long as there is no conviction for a moving violation or no finding that the person has committed a traffic infraction that is a moving violation during the pendency of the hearing and appeal. If the disqualification of the person is sustained after the hearing, the person who is disqualified may file a petition in the superior court of the county of arrest to review the final order of disqualification by the department in the manner provided in RCW 46.20.334.

(~~(6)~~) (7) If a motor carrier or employer who is required to have a testing program under 49 C.F.R. 382 knows that a commercial driver in his or her employ has refused to submit to

testing under this section and has not been disqualified from driving a commercial motor vehicle, the employer may notify law enforcement or his or her medical review officer or breath alcohol technician that the driver has refused to submit to the required testing.

((7)) (8) The hearing provisions of this section do not apply to those persons disqualified from driving a commercial motor vehicle under RCW 46.25.090(7).

Open container law for marijuana

NEW SECTION. Sec. 312. A new section is added to chapter 46.61 RCW to read as follows:

(1)(a) It is a traffic infraction:

(i) For the registered owner of a motor vehicle, or the driver if the registered owner is not then present, or passengers in the vehicle, to keep marijuana in a motor vehicle when the vehicle is upon a highway, unless it is (A) in the trunk of the vehicle, (B) in some other area of the vehicle not normally occupied or directly accessible by the driver or passengers if the vehicle does not have a trunk, or (C) in a package, container, or receptacle that has not been opened or the seal broken or contents partially removed. A utility compartment or glove compartment is deemed to be within the area occupied by the driver and passengers;

(ii) To consume marijuana in any manner including, but not limited to, smoking or ingesting in a motor vehicle when the vehicle is upon the public highway; or

(iii) To place marijuana in a container specifically labeled by the manufacturer of the container as containing a nonmarijuana substance and to then violate (a)(i) of this subsection.

(b) There is a rebuttable presumption that it is a traffic infraction if the original container of marijuana is incorrectly labeled and there is a subsequent violation of (a)(i) of this subsection.

(2) As used in this section, "marijuana" or "marihuana" means all parts of the plant *Cannabis*, whether growing or not; the seeds thereof; the resin extracted from any part of the plant; and every compound, manufacture, salt, derivative, mixture, or preparation of the plant, its seeds, or resin. The term does not include the mature stalks of the plant, fiber produced from the stalks, oil or cake made from the seeds of the plant, any other compound, manufacture, salt, derivative, mixture, or preparation of the mature stalks, except the resin extracted therefrom, fiber, oil, or cake, or the sterilized seed of the plant which is incapable of germination.

Alcohol and drug violators—Penalty schedule

Sec. 313. RCW 46.61.5055 and 2015 c 265 s 33 are each amended to read as follows:

(1) **No prior offenses in seven years.** Except as provided in RCW 46.61.502(6) or 46.61.504(6), a person who is convicted of a violation of RCW 46.61.502 or 46.61.504 and who has no prior offense within seven years shall be punished as follows:

(a) **Penalty for alcohol concentration less than 0.15.** In the case of a person whose alcohol concentration was less than 0.15, or for whom for reasons other than the person's refusal to take a test offered pursuant to RCW 46.20.308 there is no test result indicating the person's alcohol concentration:

(i) By imprisonment for not less than one day nor more than three hundred sixty-four days. Twenty-four consecutive hours of the imprisonment may not be suspended unless the court finds that the imposition of this mandatory minimum sentence would impose a substantial risk to the offender's physical or mental well-being. Whenever the mandatory minimum sentence is suspended, the court shall state in writing the reason for granting the suspension and the facts upon which the suspension is based. In lieu of the mandatory minimum term of imprisonment required under this subsection (1)(a)(i), the court may order not less than fifteen days of electronic home monitoring. The offender shall pay the cost of electronic home monitoring. The county or municipality in which the penalty is being imposed shall determine the cost. The court may also require

the offender's electronic home monitoring device or other separate alcohol monitoring device to include an alcohol detection breathalyzer, and the court may restrict the amount of alcohol the offender may consume during the time the offender is on electronic home monitoring; and

(ii) By a fine of not less than three hundred fifty dollars nor more than five thousand dollars. Three hundred fifty dollars of the fine may not be suspended unless the court finds the offender to be indigent; or

(b) **Penalty for alcohol concentration at least 0.15.** In the case of a person whose alcohol concentration was at least 0.15, or for whom by reason of the person's refusal to take a test offered pursuant to RCW 46.20.308 there is no test result indicating the person's alcohol concentration:

(i) By imprisonment for not less than two days nor more than three hundred sixty-four days. Forty-eight consecutive hours of the imprisonment may not be suspended unless the court finds that the imposition of this mandatory minimum sentence would impose a substantial risk to the offender's physical or mental well-being. Whenever the mandatory minimum sentence is suspended, the court shall state in writing the reason for granting the suspension and the facts upon which the suspension is based. In lieu of the mandatory minimum term of imprisonment required under this subsection (1)(b)(i), the court may order not less than thirty days of electronic home monitoring. The offender shall pay the cost of electronic home monitoring. The county or municipality in which the penalty is being imposed shall determine the cost. The court may also require the offender's electronic home monitoring device to include an alcohol detection breathalyzer or other separate alcohol monitoring device, and the court may restrict the amount of alcohol the offender may consume during the time the offender is on electronic home monitoring; and

The offender shall pay for the cost of the electronic monitoring. The county or municipality where the penalty is being imposed shall determine the cost. The court may also require the offender's electronic home monitoring device include an alcohol detection breathalyzer or other separate alcohol monitoring device, and may restrict the amount of alcohol the offender may consume during the time the offender is on electronic home monitoring. Thirty days of imprisonment and sixty days of electronic home monitoring may not be suspended unless the court finds that the imposition of this mandatory minimum sentence would impose a substantial risk to the offender's physical or mental well-being. Whenever the mandatory minimum sentence is suspended, the court shall state in writing the reason for granting the suspension and the facts upon which the suspension is based; and

(ii) By a fine of not less than five hundred dollars nor more than five thousand dollars. Five hundred dollars of the fine may not be suspended unless the court finds the offender to be indigent; or

The offender shall pay for the cost of the electronic monitoring. The county or municipality where the penalty is being imposed shall determine the cost. The court may also require the offender's electronic home monitoring device include an alcohol detection breathalyzer or other separate alcohol monitoring device, and may restrict the amount of alcohol the offender may consume during the time the offender is on electronic home monitoring. Forty-five days of imprisonment and ninety days of electronic home monitoring may not be suspended unless the court finds that the imposition of this mandatory minimum sentence would impose a substantial risk to the offender's physical or mental well-being. Whenever the mandatory minimum sentence is suspended, the court shall state in writing the reason for granting the suspension and the facts upon which the suspension is based; and

(ii) By a fine of not less than seven hundred fifty dollars nor more than five thousand dollars. Seven hundred fifty dollars of the fine may not be suspended unless the court finds the offender to be indigent.

(3) **Two or three prior offenses in seven years.** Except as provided in RCW 46.61.502(6) or 46.61.504(6), a person who is convicted of a violation of RCW 46.61.502 or 46.61.504 and who has two or three prior offenses within seven years shall be punished as follows:

In lieu of the mandatory minimum term of one hundred twenty days of electronic home monitoring, the court may order at least an additional eight days in jail. The court shall order an expanded alcohol assessment and treatment, if deemed appropriate by the assessment. The offender shall pay for the cost of the electronic monitoring. The county or municipality where the penalty is being imposed shall determine the cost. The court may also require the offender's electronic home monitoring device include an alcohol detection breathalyzer or other separate alcohol monitoring device, and may restrict the amount of alcohol the offender may consume during the time the offender is on electronic home monitoring. Ninety days of imprisonment and one hundred twenty days of electronic home monitoring may not be suspended unless the court finds that the imposition of this mandatory minimum sentence would impose a substantial risk to the offender's physical or mental well-being. Whenever the mandatory minimum sentence is suspended, the court shall state in writing the

reason for granting the suspension and the facts upon which the suspension is based; and

(ii) By a fine of not less than one thousand dollars nor more than five thousand dollars. One thousand dollars of the fine may not be suspended unless the court finds the offender to be indigent; or

(b) **Penalty for alcohol concentration at least 0.15.** In the case of a person whose alcohol concentration was at least 0.15, or for whom by reason of the person's refusal to take a test offered pursuant to RCW 46.20.308 there is no test result indicating the person's alcohol concentration:

(i) By imprisonment for not less than one hundred twenty days nor more than three hundred sixty-four days, if available in that county or city, a six-month period of 24/7 sobriety program monitoring pursuant to RCW 36.28A.300 through 36.28A.390, and one hundred fifty days of electronic home monitoring. In lieu of the mandatory minimum term of one hundred fifty days of electronic home monitoring, the court may order at least an additional ten days in jail. The offender shall pay for the cost of the electronic monitoring. The court shall order an expanded alcohol assessment and treatment, if deemed appropriate by the assessment. The county or municipality where the penalty is being imposed shall determine the cost. The court may also require the offender's electronic home monitoring device include an alcohol detection breathalyzer or other separate alcohol monitoring device, and may restrict the amount of alcohol the offender may consume during the time the offender is on electronic home monitoring. One hundred twenty days of imprisonment and one hundred fifty days of electronic home monitoring may not be suspended unless the court finds that the imposition of this mandatory minimum sentence would impose a substantial risk to the offender's physical or mental well-being. Whenever the mandatory minimum sentence is suspended, the court shall state in writing the reason for granting the suspension and the facts upon which the suspension is based; and

(ii) By a fine of not less than one thousand five hundred dollars nor more than five thousand dollars. One thousand five hundred dollars of the fine may not be suspended unless the court finds the offender to be indigent.

(4) **Four or more prior offenses in ten years.** A person who is convicted of a violation of RCW 46.61.502 or 46.61.504 shall be punished under chapter 9.94A RCW if:

(b) **Monitoring devices.** If the court orders that a person refrain from consuming any alcohol, the court may order the person to submit to alcohol monitoring through an alcohol detection breathalyzer device, transdermal sensor device, or other technology designed to detect alcohol in a person's system. The person shall pay for the cost of the monitoring, unless the court specifies that the cost of monitoring will be paid with funds that are available from an alternative source identified by the court. The county or

municipality where the penalty is being imposed shall determine the cost.

(c) **Ignition interlock device substituted for 24/7 sobriety program monitoring.** In any county or city where a 24/7 sobriety program is available and verified by the Washington association of sheriffs and police chiefs, the court shall:

(i) Order the person to install and use a functioning ignition interlock or other device in lieu of such period of 24/7 sobriety program monitoring;

(ii) Order the person to a period of 24/7 sobriety program monitoring pursuant to subsections (1) through (3) of this section; or

(iii) Order the person to install and use a functioning ignition interlock or other device in addition to a period of 24/7 sobriety program monitoring pursuant to subsections (1) through (3) of this section.

(6) **Penalty for having a minor passenger in vehicle.** If a person who is convicted of a violation of RCW 46.61.502 or 46.61.504 committed the offense while a passenger under the age of sixteen was in the vehicle, the court shall:

(a) Order the use of an ignition interlock or other device for an additional six months;

(b) In any case in which the person has no prior offenses within seven years, and except as provided in RCW 46.61.502(6) or 46.61.504(6), order an additional twenty-four hours of imprisonment and a fine of not less than one thousand dollars and not more than five thousand dollars. One thousand dollars of the fine may not be suspended unless the court finds the offender to be indigent;

(d) In any case in which the person has two or three prior offenses within seven years, and except as provided in RCW 46.61.502(6) or 46.61.504(6), order an additional ten days of imprisonment and a fine of not less than three thousand dollars and not more than ten thousand dollars. One thousand dollars of the fine may not be suspended unless the court finds the offender to be indigent.

(7) **Other items courts must consider while setting penalties.** In exercising its discretion in setting penalties within the limits allowed by this section, the court shall particularly consider the following:

(a) Whether the person's driving at the time of the offense was responsible for injury or damage to another or another's property;

(b) Whether at the time of the offense the person was driving or in physical control of a vehicle with one or more passengers;

(c) Whether the driver was driving in the opposite direction of the normal flow of traffic on a multiple lane highway, as defined by RCW 46.04.350, with a posted speed limit of forty-five miles per hour or greater; and

(8) **Treatment and information school.** An offender punishable under this section is subject to the alcohol assessment and treatment provisions of RCW 46.61.5056.

(9) **Driver's license privileges of the defendant.** The license, permit, or nonresident privilege of a person convicted of driving or being in physical control of a motor vehicle while under the influence of intoxicating liquor or drugs must:

(a) **Penalty for alcohol concentration less than 0.15.** If the person's alcohol concentration was less than 0.15, or if for reasons other than the person's refusal to take a test offered under RCW

46.20.308 there is no test result indicating the person's alcohol concentration:

(i) Where there has been no prior offense within seven years, be suspended or denied by the department for ninety days;

(ii) Where there has been one prior offense within seven years, be revoked or denied by the department for two years; or

(iii) Where there have been two or more prior offenses within seven years, be revoked or denied by the department for three years;

(b) **Penalty for alcohol concentration at least 0.15.** If the person's alcohol concentration was at least 0.15:

(i) Where there has been no prior offense within seven years, be revoked or denied by the department for one year;

(ii) Where there has been one prior offense within seven years, be revoked or denied by the department for nine hundred days; or

(iii) Where there have been two or more prior offenses within seven years, be revoked or denied by the department for four years; or

(i) Where there have been no prior offenses within seven years, be revoked or denied by the department for two years;

(ii) Where there has been one prior offense within seven years, be revoked or denied by the department for three years; or

(iii) Where there have been two or more previous offenses within seven years, be revoked or denied by the department for four years.

The department shall grant credit on a day-for-day basis for any portion of a suspension, revocation, or denial already served under this subsection for a suspension, revocation, or denial imposed under RCW 46.20.3101 arising out of the same incident.

Upon its own motion or upon motion by a person, a court may find, on the record, that notice to the department under RCW 46.20.270 has been delayed for three years or more as a result of a clerical or court error. If so, the court may order that the person's license, permit, or nonresident privilege shall not be revoked, suspended, or denied for that offense. The court shall send notice of the finding and order to the department and to the person. Upon receipt of the notice from the court, the department shall not revoke, suspend, or deny the license, permit, or nonresident privilege of the person for that offense.

For purposes of this subsection (9), the department shall refer to the driver's record maintained under RCW 46.52.120 when determining the existence of prior offenses.

(10) **Probation of driving privilege.** After expiration of any period of suspension, revocation, or denial of the offender's license, permit, or privilege to drive required by this section, the department shall place the offender's driving privilege in probationary status pursuant to RCW 46.20.355.

(11) **Conditions of probation.** (a) In addition to any nonsuspendable and nondeferrable jail sentence required by this section, whenever the court imposes up to three hundred sixty-four days in jail, the court shall also suspend but shall not defer a period of confinement for a period not exceeding five years. The court shall impose conditions of probation that include: (i) Not driving a motor vehicle within this state without a valid license to drive ~~((and))~~; (ii) not driving a motor vehicle within this state without proof of liability insurance or other financial responsibility for the future pursuant to RCW 46.30.020; ~~((and))~~ (iii) not driving or being in physical control of a motor vehicle within this state while having an alcohol concentration of 0.08 or more or a THC concentration of 5.00 nanograms per milliliter of whole blood or higher, within two hours after driving; ~~((and))~~ (iv) not refusing to submit to a test of his or her breath or blood to determine alcohol or drug concentration upon request of a law enforcement officer who has reasonable grounds to believe the person was driving or was in actual physical

control of a motor vehicle within this state while under the influence of intoxicating liquor or drug; and (v) not driving a motor vehicle in this state without a functioning ignition interlock device as required by the department under RCW 46.20.720(3). The court may impose conditions of probation that include nonrepetition, installation of an ignition interlock device on the probationer's motor vehicle, alcohol or drug treatment, supervised probation, or other conditions that may be appropriate. The sentence may be imposed in whole or in part upon violation of a condition of probation during the suspension period.

(b) For each violation of mandatory conditions of probation under (a)(i), (ii), ~~((viii))~~ (iii), (iv), or (v) of this subsection, the court shall order the convicted person to be confined for thirty days, which shall not be suspended or deferred.

(c) For each incident involving a violation of a mandatory condition of probation imposed under this subsection, the license, permit, or privilege to drive of the person shall be suspended by the court for thirty days or, if such license, permit, or privilege to drive already is suspended, revoked, or denied at the time the finding of probation violation is made, the suspension, revocation, or denial then in effect shall be extended by thirty days. The court shall notify the department of any suspension, revocation, or denial or any extension of a suspension, revocation, or denial imposed under this subsection.

(12) **Waiver of electronic home monitoring.** A court may waive the electronic home monitoring requirements of this chapter when:

(a) The offender does not have a dwelling, telephone service, or any other necessity to operate an electronic home monitoring system. However, if a court determines that an alcohol monitoring device utilizing wireless reporting technology is reasonably available, the court may require the person to obtain such a device during the period of required electronic home monitoring;

(b) The offender does not reside in the state of Washington; or

(c) The court determines that there is reason to believe that the offender would violate the conditions of the electronic home monitoring penalty.

Whenever the mandatory minimum term of electronic home monitoring is waived, the court shall state in writing the reason for granting the waiver and the facts upon which the waiver is based, and shall impose an alternative sentence with similar punitive consequences. The alternative sentence may include, but is not limited to, use of an ignition interlock device, the 24/7 sobriety program monitoring, additional jail time, work crew, or work camp.

Whenever the combination of jail time and electronic home monitoring or alternative sentence would exceed three hundred sixty-four days, the offender shall serve the jail portion of the sentence first, and the electronic home monitoring or alternative portion of the sentence shall be reduced so that the combination does not exceed three hundred sixty-four days.

(13) **Extraordinary medical placement.** An offender serving a sentence under this section, whether or not a mandatory minimum term has expired, may be granted an extraordinary medical placement by the jail administrator subject to the standards and limitations set forth in RCW 9.94A.728~~((3))~~ (1)(c).

Ignition interlock devices—Standards—Compliance

Sec. 315. RCW 43.43.395 and 2013 2nd sp.s. c 35 s 9 are each amended to read as follows:

(1) The state patrol shall by rule provide standards for the certification, installation, repair, maintenance, monitoring, inspection, and removal of ignition interlock devices, as defined under RCW 46.04.215, and equipment as outlined under this section, and may inspect the records and equipment of manufacturers and vendors during regular business hours for compliance with statutes and rules and may suspend or revoke certification for any noncompliance.

(2)(a) When a certified service provider or individual installer of ignition interlock devices is found to be out of compliance, the installation privileges of that certified service provider or individual installer may be suspended or revoked until the certified service provider or individual installer comes into compliance. During any suspension or revocation period, the certified service provider or individual installer is responsible for notifying affected customers of any changes in their service agreement.

(b) A certified service provider or individual installer whose certification is suspended or revoked for noncompliance has a right to an administrative hearing under chapter 34.05 RCW to contest the suspension or revocation, or both. For the administrative hearing, the procedure and rules of evidence are as specified in chapter 34.05 RCW, except as otherwise provided in this chapter. Any request for an administrative hearing must be made in writing and must be received by the state patrol within twenty days after the receipt of the notice of suspension or revocation.

(3)(a) An ignition interlock device must employ:

(i) Fuel cell technology. For the purposes of this subsection, "fuel cell technology" consists of the following electrochemical method: An electrolyte designed to oxidize the alcohol and release electrons to be collected by an active electrode; a current flow is generated within the electrode proportional to the amount of alcohol oxidized on the fuel cell surface; and the electrical current is measured and reported as breath alcohol concentration. Fuel cell technology is highly specific for alcohols((-

~~(b) When reasonably available in the area, as determined by the state patrol, an ignition interlock device must employ);~~

(ii) Technology capable of taking a photo identification of the user giving the breath sample and recording on the photo the time the breath sample was given; and

(iii) Technology capable of providing the global positioning coordinates at the time of each test sequence. Such coordinates must be displayed within the data log that is downloaded by the manufacturer and must be made available to the state patrol to be used for circumvention and tampering investigations.

~~((e))~~ (b) To be certified, an ignition interlock device must:

(i) Meet or exceed the minimum test standards according to rules adopted by the state patrol. Only a notarized statement from a laboratory that is accredited and certified ((by)) under the current edition of ISO (the international organization of standardization) 17025 standard for testing and calibration laboratories and is capable of performing the tests specified will be accepted as proof of meeting or exceeding the standards. The notarized statement must include the name and signature of the person in charge of the tests under the certification statement. The state patrol must adopt by rule the required language of the certification statement that must, at a minimum, outline that the testing meets or exceeds all specifications listed in the federal register adopted in rule by the state patrol; and

(ii) Be maintained in accordance with the rules and standards adopted by the state patrol.

A pending case includes criminal cases that have not reached a disposition by plea, stipulation, trial, or amended charge. An open

infraction or criminal case includes cases on probation, payment agreement or subject to, or in collections. Courts may charge a reasonable fee for the production and copying of the abstract for the individual.

(B) Release of an abstract of the driving record of an employee or prospective employee requires a statement signed by: (I) The employee or prospective employee that authorizes the release of the record; and (II) the employer attesting that the information is necessary for employment purposes related to driving by the individual as a condition of employment or otherwise at the direction of the employer. If the employer or prospective employer authorizes an agent to obtain this information on their behalf, this must be noted in the statement. (C) Upon request of the person named in the abstract provided under this subsection, and upon that same person furnishing copies of court records ruling that the person was not at fault in a motor vehicle accident, the department must indicate on any abstract provided under this subsection that the person was not at fault in the motor vehicle accident.

(D) No employer or prospective employer, nor any agent of an employer or prospective employer, may use information contained in the abstract related to an adjudication that is subject to a court order sealing the juvenile record of an employee or prospective employee for any purpose unless required by federal regulation or law. The employee or prospective employee must furnish a copy of the court order sealing the juvenile record to the employer or prospective employer, or the agent of the employer or prospective employer, as may be required to ensure the application of this subsection.

(ii) In addition to the methods described in (b)(i) of this subsection, the director may enter into a contractual agreement with an employer or its agent for the purpose of reviewing the driving records of existing employees for changes to the record during specified periods of time. The department shall establish a fee for this service, which must be deposited in the highway safety fund. The fee for this service must be set at a level that will not result in a net revenue loss to the state. Any information provided under this subsection must be treated in the same manner and is subject to the same restrictions as driving record abstracts.

(c) **Volunteer organizations.** (i) An abstract of the full driving record maintained by the department may be furnished to a volunteer organization or an agent for a volunteer organization for which the named individual has submitted an application for a position that would require driving by the individual at the direction of the volunteer organization.

(ii) Release of an abstract of the driving record of a prospective volunteer requires a statement signed by: (A) The prospective volunteer that authorizes the release of the record; and (B) the volunteer organization attesting that the information is necessary for purposes related to driving by the individual at the direction of the

volunteer organization. If the volunteer organization authorizes an agent to obtain this information on their behalf, this must be noted in the statement.

(d) **Transit authorities.** An abstract of the full driving record maintained by the department may be furnished to an employee or agent of a transit authority checking prospective volunteer vanpool drivers for insurance and risk management needs.

(e) **Insurance carriers.** (i) An abstract of the driving record maintained by the department covering the period of not more than the last three years may be furnished to an insurance company or its agent:

(C) That has insurance in effect covering the employer or a prospective employer of the named individual.

(ii) The abstract provided to the insurance company must:

(A) Not contain any information related to actions committed by law enforcement officers or firefighters, as both terms are defined in RCW 41.26.030, or by Washington state patrol officers, while driving official vehicles in the performance of their occupational duty. This does not apply to any situation where the vehicle was used in the commission of a misdemeanor or felony;

(B) Include convictions under RCW 46.61.5249 and 46.61.525, except that the abstract must report the convictions only as negligent driving without reference to whether they are for first or second degree negligent driving; and

(C) Exclude any deferred prosecution under RCW 10.05.060, except that if a person is removed from a deferred prosecution under RCW 10.05.090, the abstract must show the deferred prosecution as well as the removal.

(iii) Any policy of insurance may not be canceled, nonrenewed, denied, or have the rate increased on the basis of information regarding an accident included in the abstract of a driving record, unless the policyholder was determined to be at fault.

(iv) Any insurance company or its agent, for underwriting purposes relating to the operation of commercial motor vehicles, may not use any information contained in the abstract relative to any person's operation of motor vehicles while not engaged in such employment. (v) The director may enter into a contractual agreement with an insurance company or its agent for the limited purpose of reviewing the driving records of existing policyholders for changes to the record during specified periods of time. The department shall establish a fee for this service, which must be deposited in the highway safety fund. The fee for this service must be set at a level that will not result in a net revenue loss to the state. An abstract of the full driving record maintained by the department, including whether a recorded violation is an alcohol-related offense, as defined in RCW 46.01.260(2), that was originally charged as a violation of either RCW 46.61.502 or 46.61.504, may be furnished to city attorneys (~~or~~), county prosecuting attorneys, or the named individual's attorney of record. City attorneys (~~and~~), county prosecuting attorneys, or the named individual's attorney of record may provide the driving record to alcohol/drug assessment or treatment agencies approved by the department of social and health services to which the named individual has applied or been assigned for evaluation or treatment.

The superintendent or superintendent's designee may discuss information on the driving record with an authorized representative of the employing school district for employment and risk management purposes.

(3) **Release to third parties prohibited.** Any person or entity receiving an abstract of a person's driving record under subsection (2)(b) through (i) of this section shall use the abstract exclusively for his, her, or its own purposes or as otherwise expressly permitted under this section, and shall not divulge any information contained in the abstract to a third party.

(4) **Fee.** The director shall collect a thirteen dollar fee for each abstract of a person's driving record furnished by the department. Fifty percent of the fee must be deposited in the highway safety fund, and fifty percent of the fee must be deposited according to RCW 46.68.038.

(5) **Violation.** (a) Any negligent violation of this section is a gross misdemeanor.

(b) Any intentional violation of this section is a class C felony.

(6) Effective July 1, 2019, the contents of a driving abstract pursuant to this section shall not include any information related to sealed juvenile records unless that information is required by federal law or regulation.

Sec. 317. RCW 9.94A.589 and 2002 c 175 s 7 are each amended to read as follows:

(1)(a) Except as provided in (b) (~~or~~), (c), or (d) of this subsection, whenever a person is to be sentenced for two or more current offenses, the sentence range for each current offense shall be determined by using all other current and prior convictions as if they were prior convictions for the purpose of the offender score: PROVIDED, That if the court enters a finding that some or all of the current offenses encompass the same criminal conduct then those current offenses shall be counted as one crime. Sentences imposed under this subsection shall be served concurrently. Consecutive sentences may only be imposed under the exceptional sentence provisions of RCW 9.94A.535. "Same criminal conduct," as used in this subsection, means two or more crimes that require the same criminal intent, are committed at the same time and place, and involve the same victim. This definition applies in cases involving vehicular assault or vehicular homicide even if the victims occupied the same vehicle.

(b) Whenever a person is convicted of two or more serious violent offenses arising from separate and distinct criminal conduct, the standard sentence range for the offense with the highest seriousness level under RCW 9.94A.515 shall be determined using

the offender's prior convictions and other current convictions that are not serious violent offenses in the offender score and the standard sentence range for other serious violent offenses shall be determined by using an offender score of zero. The standard sentence range for any offenses that are not serious violent offenses shall be determined according to (a) of this subsection. All sentences imposed under (~~(b) or~~) this subsection (1)(b) shall be served consecutively to each other and concurrently with sentences imposed under (a) of this subsection.

(c) If an offender is convicted under RCW 9.41.040 for unlawful possession of a firearm in the first or second degree and for the felony crimes of theft of a firearm or possession of a stolen firearm, or both, the standard sentence range for each of these current offenses shall be determined by using all other current and prior convictions, except other current convictions for the felony crimes listed in this subsection (1)(c), as if they were prior convictions. The offender shall serve consecutive sentences for each conviction of the felony crimes listed in this subsection (1)(c), and for each firearm unlawfully possessed.

(d) All sentences imposed under RCW 46.61.502(6), 46.61.504(6), or 46.61.5055(4) shall be served consecutively to any sentences imposed under RCW 46.20.740 and 46.20.750.

(2)(a) Except as provided in (b) of this subsection, whenever a person while under sentence for conviction of a felony commits another felony and is sentenced to another term of confinement, the latter term shall not begin until expiration of all prior terms.

(b) Whenever a second or later felony conviction results in community supervision with conditions not currently in effect, under the prior sentence or sentences of community supervision the court may require that the conditions of community supervision contained in the second or later sentence begin during the immediate term of community supervision and continue throughout the duration of the consecutive term of community supervision.

(3) Subject to subsections (1) and (2) of this section, whenever a person is sentenced for a felony that was committed while the person was not under sentence for conviction of a felony, the sentence shall run concurrently with any felony sentence which has been imposed by any court in this or another state or by a federal court subsequent to the commission of the crime being sentenced unless the court pronouncing the current sentence expressly orders that they be served consecutively.

(4) Whenever any person granted probation under RCW 9.95.210 or 9.92.060, or both, has the probationary sentence revoked and a prison sentence imposed, that sentence shall run consecutively to any sentence imposed pursuant to this chapter, unless the court pronouncing the subsequent sentence expressly orders that they be served concurrently.

(5) In the case of consecutive sentences, all periods of total confinement shall be served before any partial confinement, community restitution, community supervision, or any other requirement or conditions of any of the sentences. Except for exceptional sentences as authorized under RCW 9.94A.535, if two or more sentences that run consecutively include periods of community supervision, the aggregate of the community supervision period shall not exceed twenty-four months.

Sec. 318. RCW 46.61.503 and 2013 c 3 s 34 are each amended to read as follows:

(1) Notwithstanding any other provision of this title, a person is guilty of driving or being in physical control of a motor vehicle after consuming alcohol or marijuana if the person operates or is in physical control of a motor vehicle within this state and the person:

(a) Is under the age of twenty-one; and

(b) Has, within two hours after operating or being in physical control of the motor vehicle, either:

(i) An alcohol concentration of at least 0.02 but less than the concentration specified in RCW 46.61.502, as shown by analysis of the person's breath or blood made under RCW 46.61.506; or

(ii) A THC concentration above 0.00 but less than the concentration specified in RCW 46.61.502, as shown by analysis of the person's blood made under RCW 46.61.506.

(2) It is an affirmative defense to a violation of subsection (1) of this section, which the defendant must prove by a preponderance of the evidence, that the defendant consumed a sufficient quantity of alcohol or marijuana after the time of driving or being in physical control and before the administration of an analysis of the person's breath or blood to cause the defendant's alcohol or THC concentration to be in violation of subsection (1) of this section within two hours after driving or being in physical control. Sec. 326. RCW 46.61.506 and 2013 c 3 s 37 are each amended to read as follows:

(1) Upon the trial of any civil or criminal action or proceeding arising out of acts alleged to have been committed by any person while driving or in actual physical control of a vehicle while under the influence of intoxicating liquor or any drug, if the person's alcohol concentration is less than 0.08 or the person's THC concentration is less than 5.00, it is evidence that may be considered with other competent evidence in determining whether the person was under the influence of intoxicating liquor or any drug.

(2)(a) The breath analysis of the person's alcohol concentration shall be based upon grams of alcohol per two hundred ten liters of breath.

(b) The blood analysis of the person's THC concentration shall be based upon nanograms per milliliter of whole blood.

(c) The foregoing provisions of this section shall not be construed as limiting the introduction of any other competent evidence bearing upon the question whether the person was under the influence of intoxicating liquor or any drug.

(3) Analysis of the person's blood or breath to be considered valid under the provisions of this section or RCW 46.61.502 or 46.61.504 shall have been performed according to methods

approved by the state toxicologist and by an individual possessing a valid permit issued by the state toxicologist for this purpose. The state toxicologist is directed to approve satisfactory techniques or methods, to supervise the examination of individuals to ascertain their qualifications and competence to conduct such analyses, and to issue permits which shall be subject to termination or revocation at the discretion of the state toxicologist.

(4)(a) A breath test performed by any instrument approved by the state toxicologist shall be admissible at trial or in an administrative proceeding if the prosecution or department produces prima facie evidence of the following:

(i) The person who performed the test was authorized to perform such test by the state toxicologist;

(ii) The person being tested did not vomit or have anything to eat, drink, or smoke for at least fifteen minutes prior to administration of the test;

(iii) The person being tested did not have any foreign substances, not to include dental work, fixed or removable, in his or her mouth at the beginning of the fifteen-minute observation period;

(v) The internal standard test resulted in the message "verified";

(vi) The two breath samples agree to within plus or minus ten percent of their mean to be determined by the method approved by the state toxicologist;

(vii) The result of the test of the liquid simulator solution external standard or dry gas external standard result did lie between .072 to .088 inclusive; and

(viii) All blank tests gave results of .000.

(b) For purposes of this section, "prima facie evidence" is evidence of sufficient circumstances that would support a logical and reasonable inference of the facts sought to be proved. In assessing whether there is sufficient evidence of the foundational facts, the court or administrative tribunal is to assume the truth of the prosecution's or department's evidence and all reasonable inferences from it in a light most favorable to the prosecution or department.

(c) Nothing in this section shall be deemed to prevent the subject of the test from challenging the reliability or accuracy of the test, the reliability or functioning of the instrument, or any maintenance procedures. Such challenges, however, shall not preclude the admissibility of the test once the prosecution or department has made a prima facie showing of the requirements contained in (a) of this subsection. Instead, such challenges may be considered by the trier of fact in determining what weight to give to the test result.

(5) When a blood test is administered under the provisions of RCW 46.20.308, the withdrawal of blood for the purpose of determining its alcoholic or drug content may be performed only by a physician(~~(, a registered nurse, a licensed practical nurse, a nursing assistant as defined in chapter 18.88A RCW, a physician assistant as defined in chapter 18.71A RCW, a first responder as defined in chapter 18.73 RCW, an emergency medical technician as defined in chapter 18.73 RCW, a health care assistant as defined in chapter 18.135 RCW, or any technician trained in withdrawing blood)) licensed under chapter 18.71 RCW; an osteopathic physician licensed under chapter 18.57 RCW; a registered nurse, licensed practical nurse, or advanced registered nurse practitioner licensed under chapter 18.79 RCW; a physician assistant licensed under chapter 18.71A RCW; an osteopathic physician assistant licensed under chapter 18.57A RCW; an advanced emergency medical technician or paramedic licensed under chapter 18.73 RCW; until July 1, 2016, a health care assistant certified under chapter 18.135 RCW; or a medical assistant-certified or medical assistant-~~

phlebotomist certified under chapter 18.360 RCW. This limitation shall not apply to the taking of breath specimens.

(6) The person tested may have a (~~(physician))~~ licensed or certified health care provider listed in subsection (5) of this section, or a qualified technician, chemist, (~~(registered nurse,))~~ or other qualified person of his or her own choosing administer one or more tests in addition to any administered at the direction of a law enforcement officer. The test will be admissible if the person establishes the general acceptability of the testing technique or method. The failure or inability to obtain an additional test by a person shall not preclude the admission of evidence relating to the test or tests taken at the direction of a law enforcement officer.

(7) Upon the request of the person who shall submit to a test or tests at the request of a law enforcement officer, full information concerning the test or tests shall be made available to him or her or his or her attorney.

Sec. 327. RCW 46.61.508 and 1977 ex.s. c 143 s 1 are each amended to read as follows:

(d) While the person is under the combined influence of or affected by intoxicating liquor and any drug.

(2) The fact that a person charged with a violation of this section is or has been entitled to use a drug under the laws of this state does not constitute a defense against any charge of violating this section. No person may be convicted under this section and it is an affirmative defense to any action pursuant to RCW 46.20.308 to suspend, revoke, or deny the privilege to drive if, prior to being

pursued by a law enforcement officer, the person has moved the vehicle safely off the roadway.

(3)(a) It is an affirmative defense to a violation of subsection (1)(a) of this section which the defendant must prove by a preponderance of the evidence that the defendant consumed a sufficient quantity of alcohol after the time of being in actual physical control of the vehicle and before the administration of an analysis of the person's breath or blood to cause the defendant's alcohol concentration to be 0.08 or more within two hours after being in such control. The court shall not admit evidence of this defense unless the defendant notifies the prosecution prior to the omnibus or pretrial hearing in the case of the defendant's intent to assert the affirmative defense.

(b) It is an affirmative defense to a violation of subsection (1)(b) of this section, which the defendant must prove by a preponderance of the evidence, that the defendant consumed a sufficient quantity of marijuana after the time of being in actual physical control of the vehicle and before the administration of an analysis of the person's blood to cause the defendant's THC concentration to be 5.00 or more within two hours after being in control of the vehicle. The court shall not admit evidence of this defense unless the defendant notifies the prosecution prior to the omnibus or pretrial hearing in the case of the defendant's intent to assert the affirmative defense.

(4)(a) Analyses of blood or breath samples obtained more than two hours after the alleged being in actual physical control of a vehicle may be used as evidence that within two hours of the alleged being in such control, a person had an alcohol concentration of 0.08 or more in violation of subsection (1)(a) of this section, and in any case in which the analysis shows an alcohol concentration above 0.00 may be used as evidence that a person was under the influence of or affected by intoxicating liquor or any drug in violation of subsection (1)(c) or (d) of this section.

(b) Analyses of blood samples obtained more than two hours after the alleged being in actual physical control of a vehicle may be used as evidence that within two hours of the alleged being in control of the vehicle, a person had a THC concentration of 5.00 or more in violation of subsection (1)(b) of this section, and in any case in which the analysis shows a THC concentration above 0.00 may be used as evidence that a person was under the influence of or affected by marijuana in violation of subsection (1)(c) or (d) of this section.

(5) Except as provided in subsection (6) of this section, a violation of this section is a gross misdemeanor.

(6) It is a class C felony punishable under chapter 9.94A RCW, or chapter 13.40 RCW if the person is a juvenile, if:

On page 2, after line 6, insert the following:

"**Sec. 3.** RCW 74.66.070 and 2012 c 241 s 207 are each amended to read as follows:

(1)(a) Subject to (b) of this subsection, if the attorney general proceeds with a qui tam action, the relator must receive at least fifteen percent but not more than twenty-five percent of the proceeds of the action or settlement of the claim, depending upon the extent to which the relator substantially contributed to the prosecution of the action.

(b) Where the action is one which the court finds to be based primarily on disclosures of specific information, other than information provided by the relator, relating to allegations or transactions in a criminal, civil, or administrative hearing, in a

legislative or administrative report, hearing, audit, or investigation, or from the news media, the court may award an amount it considers appropriate, but in no case more than ten percent of the proceeds, taking into account the significance of the information and the role of the relator in advancing the case to litigation.

(c) Any payment to a relator under (a) or (b) of this subsection must be made from the proceeds. The relator must also receive an amount for reasonable expenses which the court finds to have been necessarily incurred, plus reasonable attorneys' fees and costs. All expenses, fees, and costs must be awarded against the defendant.

(2) If the attorney general does not proceed with a qui tam action, the relator shall receive an amount which the court decides is reasonable for collecting the civil penalty and damages. The amount may not be less than twenty-five percent and not more than thirty percent of the proceeds of the action or settlement and must be paid out of the proceeds. The relator must also receive an amount for reasonable expenses, which the court finds to have been necessarily incurred, plus reasonable attorneys' fees and costs. All expenses, fees, and costs must be awarded against the defendant.

(3) Whether or not the attorney general proceeds with the qui tam action, if the court finds that the action was brought by a person who planned and initiated the violation of RCW 74.66.020 upon which the action was brought, then the court may, to the extent the court considers appropriate, reduce the share of the proceeds of the action which the person would otherwise receive under subsection (1) or (2) of this section, taking into account the role of that person in advancing the case to litigation and any relevant circumstances pertaining to the violation. If the person bringing the action is convicted of criminal conduct arising from his or her role in the violation of RCW 74.66.020, that person must be dismissed from the civil action and may not receive any share of the proceeds of the action. The dismissal may not prejudice the right of the state to continue the action, represented by the attorney general.

(4) If the attorney general does not proceed with the qui tam action and the relator conducts the action, the court ~~((may)) shall~~ award to the defendant reasonable attorneys' fees and expenses if the defendant prevails in the action ~~((and the court finds that the claim of the relator was clearly frivolous, clearly vexatious, or brought primarily for purposes of harassment))~~.

(5) Any funds recovered that remain after calculation and distribution under subsections (1) through (3) of this section must be deposited into the medicaid fraud penalty account established in RCW 74.09.215." Correct the title.

Representative Kilduff and Kilduff (again) spoke against the adoption of the amendment.

Amendment (523) was not adopted.

Sec. 2. RCW 74.66.100 and 2012 c 241 s 210 are each amended to read as follows:

(1) A subpoena requiring the attendance of a witness at a trial or hearing conducted under RCW 74.66.040 (~~or 74.66.050~~) may be served at any place in the state of Washington.

~~(3) ((If the attorney general elects to intervene and proceed with a qui tam action, the attorney general may file its own complaint or amend the complaint of a relator to clarify or add detail to the claims in which the attorney general is intervening and to add any additional claims with respect to which the attorney general contends it is entitled to relief.~~

~~((4))~~ (4) In any action brought under RCW 74.66.040 (~~or 74.66.050~~), the attorney general is required to prove all essential elements of the cause of action, including damages, by a preponderance of the evidence.

~~((5))~~ (4) Notwithstanding any other provision of law or the rules for superior court, a final judgment rendered in favor of the government entity in any criminal proceeding charging fraud or false statements, whether upon a verdict after trial or upon a plea of guilty or nolo contendere, estops the defendant from denying the essential elements of the offense in any action which involves the same transaction as in the criminal proceeding and which is brought under RCW 74.66.040 (~~or 74.66.050~~).

Sec. 3. RCW 74.66.110 and 2012 c 241 s 211 are each amended to read as follows:

(1) Any action under RCW 74.66.040 (~~or 74.66.050~~) may be brought in the superior court in any county in which the defendant or, in the case of multiple defendants, any one defendant can be found, resides, transacts business, or in which any act proscribed by RCW 74.66.020 occurred. The appropriate court must issue a summons as required by the superior court civil rules and service must occur at any place within the state of Washington.

(2) The superior courts have jurisdiction over any action brought under the laws of any city or county for the recovery of

funds paid by a government entity if the action arises from the same transaction or occurrence as an action brought under RCW 74.66.040 ~~((or 74.66.050.~~

~~(3) With respect to any local government that is named as a coplaintiff with the state in an action brought under RCW 74.66.050, a seal on the action ordered by the court under RCW 74.66.050 does not preclude the attorney general or the person bringing the action from serving the complaint, any other pleadings, or the written disclosure of substantially all material evidence and information possessed by the person bringing the action on the law enforcement authorities that are authorized under the law of the local government to investigate and prosecute the action on behalf of the local government, except that the seal applies to the law enforcement authorities so served to the same extent as the seal applies to other parties in the action).~~

Sec. 4. RCW 74.66.120 and 2012 c 241 s 212 are each amended to read as follows:

(1)(a) Whenever the attorney general, or a designee, for purposes of this section, has reason to believe that any person may be in possession, custody, or control of any documentary material or information relevant to a false claims act investigation, the attorney general, or a designee, may, before commencing a civil proceeding under RCW 74.66.040 ~~((or making an election under RCW 74.66.050)),~~ issue in writing and serve upon the person, a civil investigative demand requiring the person:

- (i) To produce the documentary material for inspection and copying;
- (ii) To answer in writing written interrogatories with respect to the documentary material or information;
- (iii) To give oral testimony concerning the documentary material or information; or
- (iv) To furnish any combination of such material, answers, or testimony.

(b) The attorney general may delegate the authority to issue civil investigative demands under this subsection (1). Whenever a civil investigative demand is an express demand for any product of discovery, the attorney general, the deputy attorney general, or an assistant attorney general must serve, in any manner authorized by this section, a copy of the demand upon the person from whom the discovery was obtained and must notify the person to whom the demand is issued of the date on which the copy was served. ~~((Any information obtained by the attorney general or a designee of the attorney general under this section may be shared with any qui tam relator if the attorney general or designee determines it is necessary as part of any false claims act investigation.))~~

(2)(a) Each civil investigative demand issued under subsection (1) of this section must state the nature of the conduct constituting the alleged violation of this chapter which is under investigation, and the applicable provision of law alleged to be violated.

(b) If the demand is for the production of documentary material, the demand must:

- (i) Describe each class of documentary material to be produced with such definiteness and certainty as to permit the material to be fairly identified;
- (ii) Prescribe a return date for each class which will provide a reasonable period of time within which the material so demanded may be assembled and made available for inspection and copying; and
- (iii) Identify the false claims act investigator to whom such material must be made available.

(c) If the demand is for answers to written interrogatories, the demand must:

- (i) Set forth with specificity the written interrogatories to be answered;

(ii) Prescribe dates at which time answers to written interrogatories must be submitted; and

(iii) Identify the false claims law investigator to whom such answers must be submitted.

(d) If the demand is for the giving of oral testimony, the demand must:

- (i) Prescribe a date, time, and place at which oral testimony must be commenced;
- (ii) Identify a false claims act investigator who must conduct the examination and the custodian to whom the transcript of the examination must be submitted;
- (iii) Specify that the attendance and testimony are necessary to the conduct of the investigation;
- (iv) Notify the person receiving the demand of the right to be accompanied by an attorney and any other representative; and
- (v) Describe the general purpose for which the demand is being issued and the general nature of the testimony, including the primary areas of inquiry, which will be taken pursuant to the demand.

(e) Any civil investigative demand issued under this section which is an express demand for any product of discovery is not due until thirty days after a copy of the demand has been served upon the person from whom the discovery was obtained.

(f) The date prescribed for the commencement of oral testimony pursuant to a civil investigative demand issued under this section may not be sooner than six days after the date on which demand is received, unless the attorney general or an assistant attorney general designated by the attorney general determines that exceptional circumstances are present which warrant the commencement of the testimony sooner.

(g) The attorney general may not authorize the issuance under this section of more than one civil investigative demand for oral testimony by the same person unless the person requests otherwise or unless the attorney general, after investigation, notifies that person in writing that an additional demand for oral testimony is necessary.

(3) A civil investigative demand issued under subsection (1) or (2) of this section may not require the production of any documentary material, the submission of any answers to written interrogatories, or the giving of any oral testimony if the material, answers, or testimony would be protected from disclosure under:

- (a) The standards applicable to subpoenas or subpoenas duces tecum issued by a court to aid in a special inquiry investigation; or
- (b) The standards applicable to discovery requests under the superior court civil rules, to the extent that the application of these standards to any demand is appropriate and consistent with the provisions and purposes of this section.

(4) Any demand which is an express demand for any product of discovery supersedes any inconsistent order, rule, or provision of law, other than this section, preventing or restraining disclosure of the product of discovery to any person. Disclosure of any product of discovery pursuant to any express demand does not constitute a waiver of any right or privilege which the person making such disclosure may be entitled to invoke to resist discovery of trial preparation materials.

(5) Any civil investigative demand issued under this section may be served by a false claims act investigator, or by a commissioned law enforcement official, at any place within the state of Washington.

(6) Service of any civil investigative demand issued under (a) of this subsection or of any petition filed under subsection (25) of this section may be made upon a partnership, corporation, association, or other legal entity by:

- (a) Delivering an executed copy of the demand or petition to any partner, executive officer, managing agent, or general agent

of the partnership, corporation, association, or entity, or to any agent authorized by appointment or by law to receive service of process on behalf of such partnership, corporation, association, or entity;

(b) Delivering an executed copy of the demand or petition to the principal office or place of business of the partnership, corporation, association, or entity; or

(c) Depositing an executed copy of the demand or petition in the United States mail by registered or certified mail, with a return receipt requested, addressed to such partnership, corporation, association, or entity at its principal office or place of business.

(7) Service of any demand or petition may be made upon any natural person by:

(a) Delivering an executed copy of the demand or petition to the person; or

(b) Depositing an executed copy of the demand or petition in the United States mail by registered or certified mail, with a return receipt requested, addressed to the person at the person's residence or principal office or place of business.

(8) A verified return by the individual serving any civil investigative demand issued under subsection (1) or (2) of this section or any petition filed under subsection (25) of this section setting forth the manner of the service constitutes proof of the service. In the case of service by registered or certified mail, the return must be accompanied by the return post office receipt of delivery of the demand.

(9)(a) The production of documentary material in response to a civil investigative demand served under this section must be made under a sworn certificate, in the form as the demand designates, by:

(i) In the case of a natural person, the person to whom the demand is directed; or

(ii) In the case of a person other than a natural person, a person having knowledge of the facts and circumstances relating to the production and authorized to act on behalf of the person.

(b) The certificate must state that all of the documentary material required by the demand and in the possession, custody, or control of the person to whom the demand is directed has been produced and made available to the false claims act investigator identified in the demand.

(10) Any person upon whom any civil investigative demand for the production of documentary material has been served under this section shall make such material available for inspection and copying to the false claims act investigator identified in the demand at the principal place of business of the person, or at another place as the false claims act investigator and the person thereafter may agree and prescribe in writing, or as the court may direct under subsection (25) of this section. The material must be made available on the return date specified in the demand, or on a later date as the false claims act investigator may prescribe in writing. The person may, upon written agreement between the person and the false claims act investigator, substitute copies for originals of all or any part of the material.

(11)(a) Each interrogatory in a civil investigative demand served under this section must be answered separately and fully in writing under oath and must be submitted under a sworn certificate, in the form as the demand designates, by:

(i) In the case of a natural person, the person to whom the demand is directed; or

(ii) In the case of a person other than a natural person, the person or persons responsible for answering each interrogatory.

(b) If any interrogatory is objected to, the reasons for the objection must be stated in the certificate instead of an answer. The certificate must state that all information required by the demand and in the possession, custody, control, or knowledge of the person

to whom the demand is directed has been submitted. To the extent that any information is not furnished, the information must be identified and reasons set forth with particularity regarding the reasons why the information was not furnished.

(12) The examination of any person pursuant to a civil investigative demand for oral testimony served under this section must be taken before an officer authorized to administer oaths and affirmations by the laws of the state of Washington or of the place where the examination is held. The officer before whom the testimony is to be taken must put the witness on oath or affirmation and must, personally or by someone acting under the direction of the officer and in the officer's presence, record the testimony of the witness. The testimony must be recorded and must be transcribed. When the testimony is fully transcribed, the officer before whom the testimony is taken shall promptly transmit a copy of the transcript of the testimony to the custodian. This subsection does not preclude the taking of testimony by any means authorized by, and in a manner consistent with, the superior court civil rules.

(13) The false claims act investigator conducting the examination shall exclude from the place where the examination is held all persons except the person giving the testimony, the attorney for and any other representative of the person giving the testimony, the attorney general, any person who may be agreed upon by the attorney for the government and the person giving the testimony, the officer before whom the testimony is to be taken, and any stenographer taking the testimony.

(14) The oral testimony of any person taken pursuant to a civil investigative demand served under this section must be taken in the county within which such person resides, is found, or transacts business, or in another place as may be agreed upon by the false claims act investigator conducting the examination and the person.

(15) When the testimony is fully transcribed, the false claims act investigator or the officer before whom the testimony is taken must afford the witness, who may be accompanied by counsel, a reasonable opportunity to examine and read the transcript, unless the examination and reading are waived by the witness. Any changes in form or substance which the witness desires to make must be entered and identified upon the transcript by the officer or the false claims act investigator, with a statement of the reasons given by the witness for making the changes. The transcript must then be signed by the witness, unless the witness in writing waives the signing, is ill, cannot be found, or refuses to sign. If the transcript is not signed by the witness within thirty days after being afforded a reasonable opportunity to examine it, the officer or the false claims act investigator must sign it and state on the record the fact of the waiver, illness, absence of the witness, or the refusal to sign, together with the reasons given.

(16) The officer before whom the testimony is taken must certify on the transcript that the witness was sworn by the officer and that the transcript is a true record of the testimony given by the witness, and the officer or false claims act investigator must promptly deliver the transcript, or send the transcript by registered or certified mail, to the custodian.

(17) Upon payment of reasonable charges therefor, the false claims act investigator must furnish a copy of the transcript to the witness only, except that the attorney general, the deputy attorney general, or an assistant attorney general may, for good cause, limit the witness to inspection of the official transcript of the witness' testimony.

(18)(a) Any person compelled to appear for oral testimony under a civil investigative demand issued under subsection (1) or (2) of this section may be accompanied, represented, and advised by counsel. Counsel may advise the person, in confidence, with respect to any question asked of the person. The person or counsel may object on the record to any question, in whole or in part, and

must briefly state for the record the reason for the objection. An objection may be made, received, and entered upon the record when it is claimed that the person is entitled to refuse to answer the question on the grounds of any constitutional or other legal right or privilege, including the privilege against self-incrimination. The person may not otherwise object to or refuse to answer any question, and may not directly or through counsel otherwise interrupt the oral examination. If the person refuses to answer any question, a special injury proceeding petition may be filed in the superior court under subsection (25) of this section for an order compelling the person to answer the question.

(b) If the person refuses to answer any question on the grounds of the privilege against self-incrimination, the testimony of the person may be compelled in accordance with the provisions of the superior court civil rules.

(19) Any person appearing for oral testimony under a civil investigative demand issued under subsection (1) or (2) of this section is entitled to the same fees and allowances which are paid to witnesses in the superior courts.

(20) The attorney general must designate a false claims act investigator to serve as custodian of documentary material, answers to interrogatories, and transcripts of oral testimony received under this section, and must designate such additional false claims act investigators as the attorney general determines from time to time to be necessary to serve as deputies to the custodian.

(21)(a) A false claims act investigator who receives any documentary material, answers to interrogatories, or transcripts of oral testimony under this section must transmit them to the custodian. The custodian shall take physical possession of the material, answers, or transcripts and is responsible for the use made of them and for the return of documentary material under subsection (23) of this section.

(b) The custodian may cause the preparation of the copies of the documentary material, answers to interrogatories, or transcripts of oral testimony as may be required for official use by any false claims act investigator, or employee of the attorney general. The material, answers, and transcripts may be used by any authorized false claims act investigator or other officer or employee in connection with the taking of oral testimony under this section.

(c)(i) Except as otherwise provided in this subsection (21), no documentary material, answers to interrogatories, or transcripts of oral testimony, or copies thereof, while in the possession of the custodian, may be available for examination by any individual other than a false claims act investigator or other officer or employee of the attorney general authorized under (b) of this subsection.

(ii) The prohibition in (c)(i) of this subsection on the availability of material, answers, or transcripts does not apply if consent is given by the person who produced the material, answers, or transcripts, or, in the case of any product of discovery produced pursuant to an express demand for the material, consent is given by the person from whom the discovery was obtained. Nothing in this subsection \\sanjuan\ATLASMAROS\DATA\2015 JOURNAL\Journal2015\LegDay027\21.doc(c)(ii) is intended to prevent disclosure to the legislature, including any committee or subcommittee for use by such an agency in furtherance of its statutory responsibilities.

(d) While in the possession of the custodian and under the reasonable terms and conditions as the attorney general shall prescribe:

(i) Documentary material and answers to interrogatories must be available for examination by the person who produced the material or answers, or by a representative of that person authorized by that person to examine the material and answers; and

(ii) Transcripts of oral testimony must be available for examination by the person who produced the testimony, or by a representative of that person authorized by that person to examine the transcripts.

(22) Whenever any official has been designated to appear before any court, special inquiry judge, or state administrative judge in any case or proceeding, the custodian of any documentary material, answers to interrogatories, or transcripts of oral testimony received under this section may deliver to the official the material, answers, or transcripts for official use in connection with any case or proceeding as the official determines to be required. Upon the completion of such a case or proceeding, the official must return to the custodian any material, answers, or transcripts so delivered which have not passed into the control of any court, grand jury, or agency through introduction into the record of such a case or proceeding.

(23) If any documentary material has been produced by any person in the course of any false claims act investigation pursuant to a civil investigative demand under this section, and:

(a) Any case or proceeding before the court or special inquiry judge arising out of the investigation, or any proceeding before any administrative judge involving the material, has been completed; or

(b) No case or proceeding in which the material may be used has been commenced within a reasonable time after completion of the examination and analysis of all documentary material and other information assembled in the course of the investigation:

Then, the custodian shall, upon written request of the person who produced the material, return to the person the material, other than copies furnished to the false claims act investigator under subsection (10) of this section or made for the attorney general under subsection (21)(b) of this section, which has not passed into the control of any court, grand jury, or agency through introduction into the record of the case or proceeding.

(24)(a) In the event of the death, disability, or separation from service of the attorney general of the custodian of any documentary material, answers to interrogatories, or transcripts of oral testimony produced pursuant to civil investigative demand under this section, or in the event of the official relief of the custodian from responsibility for the custody and control of the material, answers, or transcripts, the attorney general must promptly:

(i) Designate another false claims act investigator to serve as custodian of the material, answers, or transcripts; and

(ii) Transmit in writing to the person who produced the material, answers, or testimony notice of the identity and address of the successor so designated.

(b) Any person who is designated to be a successor under this subsection (24) has, with regard to the material, answers, or transcripts, the same duties and responsibilities as were imposed by this section upon that person's predecessor in office, except that the successor may not be held responsible for any default or dereliction which occurred before that designation.

(25) Whenever any person fails to comply with any civil investigative demand issued under subsection (1) or (2) of this section, or whenever satisfactory copying or reproduction of any material requested in the demand cannot be done and the person refuses to surrender the material, the attorney general may file, in any superior court of the state of Washington for any county in which the person resides, is found, or transacts business, and serve upon the person a petition for an order of the court for the enforcement of the civil investigative demand.

(26)(a) Any person who has received a civil investigative demand issued under subsection (1) or (2) of this section may file, in the superior court of the state of Washington for the county

within which the person resides, is found, or transacts business, and serve upon the false claims act investigator identified in the demand a petition for an order of the court to modify or set aside the demand. In the case of a petition addressed to an express demand for any product of discovery, a petition to modify or set aside the demand may be brought only in the district court of the United States for the judicial district in which the proceeding in which the discovery was obtained is or was last pending. Any petition filed under this subsection (26)(a) must be filed:

(i) Within thirty days after the date of service of the civil investigative demand, or at any time before the return date specified in the demand, whichever date is earlier; or

(ii) Within a longer period as may be prescribed in writing by any false claims act investigator identified in the demand.

(b) The petition must specify each ground upon which the petitioner relies in seeking relief under (a) of this subsection, and may be based upon any failure of the demand to comply with the provisions of this section or upon any constitutional or other legal right or privilege of the person. During the pendency of the petition in the court, the court may stay, as it deems proper, the running of the time allowed for compliance with the demand, in whole or in part, except that the person filing the petition shall comply with any portions of the demand not sought to be modified or set aside.

(27)(a) In the case of any civil investigative demand issued under subsection (1) or (2) of this section which is an express demand for any product of discovery, the person from whom the discovery was obtained may file, in the superior court of the state of Washington for the county in which the proceeding in which the discovery was obtained is or was last pending, and serve upon any false claims act investigator identified in the demand and upon the recipient of the demand, a petition for an order of the court to modify or set aside those portions of the demand requiring production of any product of discovery. Any petition under this subsection (27)(a) must be filed:

(i) Within twenty days after the date of service of the civil investigative demand, or at any time before the return date specified in the demand, whichever date is earlier; or

(ii) Within a longer period as may be prescribed in writing by any false claims act investigator identified in the demand.

(b) The petition must specify each ground upon which the petitioner relies in seeking relief under (a) of this subsection, and may be based upon any failure of the portions of the demand from which relief is sought to comply with the provisions of this section, or upon any constitutional or other legal right or privilege of the petitioner. During the pendency of the petition, the court may stay, as it deems proper, compliance with the demand and the running of the time allowed for compliance with the demand.

(28) At any time during which any custodian is in custody or control of any documentary material or answers to interrogatories produced, or transcripts of oral testimony given, by any person in compliance with any civil investigative demand issued under subsection (1) or (2) of this section, the person, and in the case of an express demand for any product of discovery, the person from whom the discovery was obtained, may file, in the superior court of the state of Washington for the county within which the office of the custodian is situated, and serve upon the custodian, a petition for an order of the court to require the performance by the custodian of any duty imposed upon the custodian by this section.

(29) Whenever any petition is filed in any superior court of the state of Washington under this section, the court has jurisdiction to hear and determine the matter so presented, and to enter an order or orders as may be required to carry out the provisions of this section. Any final order so entered is subject to appeal under the rules of appellate procedure. Any disobedience of

any final order entered under this section by any court must be punished as a contempt of the court.

(30) The superior court civil rules apply to any petition under this section, to the extent that the rules are not inconsistent with the provisions of this section.

(31) Any documentary material, answers to written interrogatories, or oral testimony provided under any civil investigative demand issued under subsection (1) or (2) of this section are exempt from disclosure under the public records act, chapter 42.56 RCW.

WHEREAS, Dr. Elson S. Floyd became the 10th president of Washington State University in 2007, after 29 years in higher education and presidencies at two other universities; and

WHEREAS, President Floyd epitomized the belief of his hardworking parents, particularly his mother, that education is the ticket to a better life, with his academic performance leading to scholarships at the University of North Carolina at Chapel Hill, in his home state; and

WHEREAS, President Floyd earned a bachelor of arts degree in political science, a master of education degree in adult education, and a doctorate in higher and adult education at the University of North Carolina before embarking on a career that included leadership posts at Eastern Washington University and the Washington State Higher Education Coordinating Board; and

WHEREAS, President Floyd was highly sought after for leadership positions at higher education institutions around the nation until he and his wife, Carmento, finally came back "home" to Washington eight years ago for what he called "the best job in the country"—that of leading Washington State University; and

WHEREAS, In Pullman, the man who became known affectionately as President "E Flo" recognized and acknowledged that there is something special about Washington State University and something even more special about being a Cougar, a quality that endeared himself to students and staff; and

WHEREAS, As an administrator, President Floyd expertly steered Washington State University through some of the most difficult financial times ever faced by the university, all while strengthening its academic programs, enhancing its reputation, and resolving to meet new levels of excellence; and

WHEREAS, President Floyd worked to eliminate boundaries to higher education, even when the barrier was a mountain range, expanding Washington State University's footprint beyond Pullman to reach every corner of the state—from Spokane and the Tri-Cities, to Vancouver and Everett—and increasing enrollment to record highs, including a record high number of students from diverse backgrounds; and

WHEREAS, President Floyd's tenure included many substantial accomplishments that will serve as lasting legacies for Washington State University, including the installation of the Edward R. Murrow College of Communication, the completion of the Ste. Michelle Wine Estates Wine Science Center, the opening of the Paul G. Allen School for Global Animal Health, and increasing research funding by an astounding 57.5 percent; and

WHEREAS, President Floyd's final contribution to Washington State University would prove to be his tireless and successful advocacy in Olympia for a change in the law that limited Washington to one medical school; and

WHEREAS, President Floyd undertook this initiative out of the belief that his adopted state would be better if more students could stay in Washington to attend medical school and have opportunities to learn and practice east of the Cascades, benefiting smaller communities where medical professionals are scarce; and

WHEREAS, It is now apparent that in recent months President Floyd served his beloved Cougar nation tirelessly while battling the disease that claimed his life so unexpectedly on June 20, 2015, just over two weeks after he took medical leave; and

WHEREAS, Even more importantly, President Floyd's devotion to his cherished wife Carmento, his children, his parents, and even his brothers will serve as his lasting personal legacy; and

WHEREAS, Great accomplishments aside, all who knew President Floyd knew him to be a genuine and kind man of strong faith who spoke his mind and treated those around him with the same respect and care, regardless of whether they were students, university staff, elected officials, or influential business leaders; and

WHEREAS, President Floyd always supported Washington State University in academics, community leadership, and athletics, and meant it when he said, "Go Cougs!";

NOW, THEREFORE, BE IT RESOLVED, That with great sadness the Washington State House of Representatives honor and remember the life and legacy of Dr. Elson S. Floyd, Washington State University president and dedicated public servant and leader, who will be missed by his family, friends, students, and colleagues more than words and a shout of "GO COUGS!" in his honor can convey; and

BE IT FURTHER RESOLVED, That copies of this resolution be immediately transmitted by the Chief Clerk of the House of Representatives to President Floyd's wife, Carmento Floyd; his two children, Jessica and Kenneth; his mother, Dorothy; and the Washington State University Board of Regents.

With the consent of the house, amendments (522), (524), (530) and (531) were withdrawn.

Representative Carlyle moved the adoption of amendment (532):

Strike everything after the enacting clause and insert the following:

"PART I

Intent and Tax Preference Performance Statement

NEW SECTION. **Sec. 101.** (1)(a) The legislature finds the implementation of Initiative Measure No. 502 has established a clearly disadvantaged regulated legal market with respect to prices and the ability to compete with the unregulated medical dispensary market and the illicit market. The legislature further finds that it is crucial that the state continues to ensure a safe, highly regulated system in Washington that protects valuable state revenues while continuing efforts towards disbanding the unregulated marijuana markets. The legislature further finds that ongoing evaluation on the impact of meaningful marijuana tax reform for the purpose of stabilizing revenues is crucial to the overall effort of protecting the citizens and resources of this state. The legislature further finds that a partnership with local jurisdictions in this effort is imperative to the success of the legislature's policy objective. The legislature further finds that sharing revenues to promote a successful partnership in achieving the legislature's intent should be transparent and hold local jurisdictions accountable for their use of state shared revenues. Therefore, the legislature intends to reform the current tax structure for the regulated legal marijuana system to create price parity with the large medical and illicit markets with the specific objective of increasing the market share of the legal and highly regulated marijuana market. The legislature further intends to share marijuana tax revenues with local jurisdictions for public safety

purposes and to facilitate the ongoing process of ensuring a safe regulated marijuana market in all communities across the state.

(b) The legislature further finds marijuana use for qualifying patients is a valid and necessary option health care professionals may recommend for their patients. The legislature further finds that while recognizing the difference between recreational and medical use of marijuana, it is also imperative to distinguish that the authorization for medical use of marijuana is different from a valid prescription provided by a doctor to a patient. The legislature further finds the authorization for medical use of marijuana is unlike over-the-counter medications that require no oversight by a health care professional. The legislature further finds that due to the unique characterization of authorizations for the medical use of marijuana, the policy of providing a tax preference benefit for patients using an authorization should in no way be construed as precedent for changes in the treatment of prescription medications or over-the-counter medications. Therefore, the legislature intends to provide qualifying patients and their designated providers a retail sales and use tax exemption on marijuana purchased or obtained for medical use when authorized by a health care professional.

(2)(a) This subsection is the tax preference performance statement for the retail sales and use tax exemption for marijuana purchased or obtained by qualifying patients or their designated providers provided in sections 207(1) and 208(1) of this act. The performance statement is only intended to be used for subsequent evaluation of the tax preference. It is not intended to create a private right of action by any party or be used to determine eligibility for preferential tax treatment.

(b) The legislature categorizes the tax preference as one intended to accomplish the general purposes indicated in RCW 82.32.808(2)(e).

(c) It is the legislature's specific public policy objective to provide qualifying patients and their designated providers a retail sales and use tax exemption on marijuana purchased or obtained for medical use when authorized by a health care professional.

(d) To measure the effectiveness of the exemption provided in this act in achieving the specific public policy objective described in (c) of this subsection, the department of revenue must provide the necessary data and assistance to the state liquor and cannabis board for the report required in RCW 69.50.535.

PART II

Marijuana Excise Tax, Exemptions, and Distribution of Revenues

Sec. 201. RCW 69.50.334 and 2013 c 3 s 7 are each amended to read as follows:

(1) The action, order, or decision of the state liquor (~~control~~) and cannabis board as to any denial of an application for the reissuance of a license to produce, process, or sell marijuana, or as to any revocation, suspension, or modification of any license to produce, process, or sell marijuana, (~~shall~~) or as to the administrative review of a notice of unpaid trust fund taxes under section 202 of this act, must be an adjudicative proceeding and subject to the applicable provisions of chapter 34.05 RCW.

~~((4))~~ (2) An opportunity for a hearing may be provided to an applicant for the reissuance of a license prior to the disposition of the application, and if no opportunity for a prior hearing is provided then an opportunity for a hearing to reconsider the application must be provided the applicant.

~~((2))~~ (3) An opportunity for a hearing must be provided to a licensee prior to a revocation or modification of any license and, except as provided in subsection ~~((4))~~ (6) of this section, prior to the suspension of any license.

~~((3))~~ (4) An opportunity for a hearing must be provided to any person issued a notice of unpaid trust fund taxes under section 202 of this act.

~~(5)~~ No hearing ~~((shall))~~ may be required under this section until demanded by the applicant ~~((or))~~, licensee, or person issued a notice of unpaid trust fund taxes under section 202 of this act.

~~((4))~~ (6) The state liquor ~~((control))~~ and cannabis board may summarily suspend a license for a period of up to one hundred eighty days without a prior hearing if it finds that public health, safety, or welfare imperatively require emergency action, and it incorporates a finding to that effect in its order. Proceedings for revocation or other action must be promptly instituted and determined. NEW SECTION. Sec. 202. A new section is added to chapter 69.50 RCW under the subchapter heading "article V" to read as follows:

(1) Whenever the board determines that a limited liability business entity has collected trust fund taxes and has failed to remit those taxes to the board and that business entity has been terminated, dissolved, or abandoned, or is insolvent, the board may pursue collection of the entity's unpaid trust fund taxes, including penalties on those taxes, against any or all of the responsible individuals. For purposes of this subsection, "insolvent" means the condition that results when the sum of the entity's debts exceeds the fair market value of its assets. The board may presume that an entity is insolvent if the entity refuses to disclose to the board the nature of its assets and liabilities.

(2)(a) For a responsible individual who is the current or a former chief executive or chief financial officer, liability under this section applies regardless of fault or whether the individual was or should have been aware of the unpaid trust fund tax liability of the limited liability business entity.

(b) For any other responsible individual, liability under this section applies only if he or she willfully failed to pay or to cause to be paid to the board the trust fund taxes due from the limited liability business entity.

(3)(a) Except as provided in this subsection (3)(a), a responsible individual who is the current or a former chief executive or chief financial officer is liable under this section only for trust fund tax liability accrued during the period that he or she was the chief executive or chief financial officer. However, if the responsible individual had the responsibility or duty to remit payment of the limited liability business entity's trust fund taxes to the board during any period of time that the person was not the chief executive or chief financial officer, that individual is also liable for trust fund tax liability that became due during the period that he or she had the duty to remit payment of the limited liability business entity's taxes to the board but was not the chief executive or chief financial officer.

(b) All other responsible individuals are liable under this section only for trust fund tax liability that became due during the period he or she had the responsibility or duty to remit payment of the limited liability business entity's taxes to the board.

(4) Persons described in subsection (3)(b) of this section are exempt from liability under this section in situations where nonpayment of the limited liability business entity's trust fund taxes was due to reasons beyond their control as determined by the board by rule.

(5) Any person having been issued a notice of unpaid trust fund taxes under this section is entitled to an administrative hearing under RCW 69.50.334 and any such rules the board may adopt.

(6) This section does not relieve the limited liability business entity of its trust fund tax liability or otherwise impair other tax collection remedies afforded by law.

(7) The definitions in this subsection apply throughout this section unless the context clearly requires otherwise.

(a) "Board" means the state liquor and cannabis board.

(b) "Chief executive" means: The president of a corporation or for other entities or organizations other than corporations or if the corporation does not have a president as one of its officers, the highest ranking executive manager or administrator in charge of the management of the company or organization.

Limited liability business entities include corporations, limited liability companies, limited liability partnerships, trusts, general partnerships and joint ventures in which one or more of the partners or parties are also limited liability business entities, and limited partnerships in which one or more of the general partners are also limited liability business entities.

(e) "Manager" has the same meaning as in RCW 25.15.005.

(h)(i) "Responsible individual" includes any current or former officer, manager, member, partner, or trustee of a limited liability business entity with unpaid trust fund tax liability.

(ii) "Responsible individual" also includes any current or former employee or other individual, but only if the individual had the responsibility or duty to remit payment of the limited liability business entity's unpaid trust fund tax liability.

(iii) Whenever any taxpayer has one or more limited liability business entities as a member, manager, or partner, "responsible individual" also includes any current and former officers, members, or managers of the limited liability business entity or entities or of any other limited liability business entity involved directly in the management of the taxpayer. For purposes of this subsection (7)(h)(iii), "taxpayer" means a limited liability business entity with unpaid trust fund taxes.

(e) "True value" means market value based on sales at comparable locations in this state of the same or similar product of like quality and character sold under comparable conditions of sale to comparable purchasers. (1)(a) Except as provided in (b) of this subsection, a retail sale of a bundled transaction that includes marijuana product is subject to the tax imposed under RCW 69.50.535 on the entire selling price of the bundled transaction.

(b) If the selling price is attributable to products that are taxable and products that are not taxable under RCW 69.50.535, the portion of the price attributable to the nontaxable products are subject to the tax imposed by RCW 69.50.535 unless the seller can identify by reasonable and verifiable standards the portion that is not subject to tax from its books and records that are kept in the regular course of business for other purposes including, but not limited to, nontax purposes.

(2) The definitions in this subsection apply throughout this section unless the context clearly requires otherwise.

(a) "Bundled transaction" means:

(c) "Marijuana product" means "useable marijuana," "marijuana concentrates," and "marijuana-infused products" as defined in RCW 69.50.101.

(d) "Selling price" has the same meaning as in RCW 82.08.010, except that when product is sold under circumstances where the total amount of consideration paid for the product is not indicative of its true value, "selling price" means the true value of the product sold.

(e) "True value" means market value based on sales at comparable locations in this state of the same or similar product of like quality and character sold under comparable conditions of sale to comparable purchasers. However, in the absence of such sales of the same or similar product, "true value" means the value of the

product sold as determined by all of the seller's direct and indirect costs attributable to the product.

NEW SECTION. Sec. 211. A new section is added to chapter 69.50 RCW to read as follows:

(1) Marijuana producers, processors, and retailers are prohibited from making sales of any marijuana or marijuana product, if the sale of the marijuana or marijuana product is conditioned upon the buyer's purchase of any service or nonmarijuana product. This subsection applies whether the buyer purchases such service or nonmarijuana product at the time of sale of the marijuana or marijuana product, or in a separate transaction.

(2) The definitions in this subsection apply throughout this section unless the context clearly requires otherwise.

(a) "Marijuana product" means "useable marijuana," "marijuana concentrates," and "marijuana-infused products," as those terms are defined in RCW 69.50.101.

(b) "Nonmarijuana product" includes paraphernalia, promotional items, lighters, bags, boxes, containers, and such other items as may be identified by the state liquor and cannabis board.

Sec. 301. RCW 69.50.331 and 2015 c 70 s 6 are each amended to read as follows:

(1) For the purpose of considering any application for a license to produce, process, research, transport, or deliver marijuana, useable marijuana, marijuana concentrates, or marijuana-infused products subject to the regulations established under section 502 of this act, or sell marijuana, or for the renewal of a license to produce, process, research, transport, or deliver marijuana, useable marijuana, marijuana concentrates, or marijuana-infused products subject to the regulations established under section 502 of this act, or sell marijuana, the state liquor and cannabis board must conduct a comprehensive, fair, and impartial evaluation of the applications timely received.

(a) The state liquor and cannabis board must develop a competitive, merit-based application process that includes, at a minimum, the opportunity for an applicant to demonstrate experience and qualifications in the marijuana industry. The state liquor and cannabis board ~~((shall))~~ **must** give preference between competing applications in the licensing process to applicants that have the following experience and qualifications, in the following order of priority:

(i) First priority is given to applicants who:

(A) Applied to the state liquor and cannabis board for a marijuana retailer license prior to July 1, 2014;

(B) Operated or were employed by a collective garden before January 1, 2013;

(C) Have maintained a state business license and a municipal business license, as applicable in the relevant jurisdiction; and

(D) Have had a history of paying all applicable state taxes and fees;

(ii) Second priority ~~((shall))~~ **must** be given to applicants who:

(b) The state liquor and cannabis board may cause an inspection of the premises to be made, and may inquire into all

matters in connection with the construction and operation of the premises. For the purpose of reviewing any application for a license and for considering the denial, suspension, revocation, or renewal or denial thereof, of any license, the state liquor and cannabis board may consider any prior criminal conduct of the applicant including an administrative violation history record with the state liquor and cannabis board and a criminal history record information check. The state liquor and cannabis board may submit the criminal history record information check to the Washington state patrol and to the identification division of the federal bureau of investigation in order that these agencies may search their records for prior arrests and convictions of the individual or individuals who filled out the forms. The state liquor and cannabis board ~~((shall))~~ **must** require fingerprinting of any applicant whose criminal history record information check is submitted to the federal bureau of investigation. The provisions of RCW 9.95.240 and of chapter 9.96A RCW ~~((shall))~~ **do** not apply to these cases. Subject to the provisions of this section, the state liquor and cannabis board may, in its discretion, grant or deny the renewal or license applied for. Denial may be based on, without limitation, the existence of chronic illegal activity documented in objections submitted pursuant to subsections (7)(c) and (9) of this section. Authority to approve an uncontested or unopposed license may be granted by the state liquor and cannabis board to any staff member the board designates in writing. Conditions for granting this authority ~~((shall))~~ **must** be adopted by rule.

(2)(a) The state liquor and cannabis board may, in its discretion, subject to the provisions of RCW 69.50.334, suspend or cancel any license; and all protections of the licensee from criminal or civil sanctions under state law for producing, processing, researching, or selling marijuana, marijuana concentrates, useable marijuana, or marijuana-infused products thereunder ~~((shall))~~ **must** be suspended or terminated, as the case may be.

(b) The state liquor and cannabis board ~~((shall))~~ **must** immediately suspend the license of a person who has been certified pursuant to RCW 74.20A.320 by the department of social and health services as a person who is not in compliance with a support order. If the person has continued to meet all other requirements for reinstatement during the suspension, reissuance of the license ~~((shall be))~~ **is** automatic upon the state liquor and cannabis board's receipt of a release issued by the department of social and health services stating that the licensee is in compliance with the order.

(c) The state liquor and cannabis board may request the appointment of administrative law judges under chapter 34.12 RCW who shall have power to administer oaths, issue subpoenas for the attendance of witnesses and the production of papers, books, accounts, documents, and testimony, examine witnesses, and to receive testimony in any inquiry, investigation, hearing, or proceeding in any part of the state, under rules and regulations the state liquor and cannabis board may adopt.

(d) Witnesses ~~((shall))~~ **must** be allowed fees and mileage each way to and from any inquiry, investigation, hearing, or proceeding at the rate authorized by RCW 34.05.446. Fees need not be paid in

advance of appearance of witnesses to testify or to produce books, records, or other legal evidence.

(e) In case of disobedience of any person to comply with the order of the state liquor and cannabis board or a subpoena issued by the state liquor and cannabis board, or any of its members, or administrative law judges, or on the refusal of a witness to testify to any matter regarding which he or she may be lawfully interrogated, the judge of the superior court of the county in which the person resides, on application of any member of the board or administrative law judge, ~~((shall))~~ compels obedience by contempt proceedings, as in the case of disobedience of the requirements of a subpoena issued from said court or a refusal to testify therein.

(3) Upon receipt of notice of the suspension or cancellation of a license, the licensee ~~((shall))~~ must forthwith deliver up the license to the state liquor and cannabis board. Where the license has been suspended only, the state liquor and cannabis board ~~((shall))~~ must return the license to the licensee at the expiration or termination of the period of suspension. The state liquor and cannabis board ~~((shall))~~ must notify all other licensees in the county where the subject licensee has its premises of the suspension or cancellation of the license; and no other licensee or employee of another licensee may allow or cause any marijuana, marijuana concentrates, useable marijuana, or marijuana-infused products to be delivered to or for any person at the premises of the subject licensee.

(b) The incorporated city or town through the official or employee selected by it, or the county legislative authority or the official or employee selected by it, ~~((shall have))~~ has the right to file with the state liquor and cannabis board within twenty days after the date of transmittal of the notice for applications, or at least thirty days prior to the expiration date for renewals, written objections against the applicant or against the premises for which the new or renewed license is asked. The state liquor and cannabis board may extend the time period for submitting written objections.

(c) The written objections ~~((shall))~~ must include a statement of all facts upon which the objections are based, and in case written objections are filed, the city or town or county legislative authority may request, and the state liquor and cannabis board may in its discretion hold, a hearing subject to the applicable provisions of Title 34 RCW. If the state liquor and cannabis board makes an initial decision to deny a license or renewal based on the written objections of an incorporated city or town or county legislative authority, the applicant may request a hearing subject to the applicable provisions of Title 34 RCW. If a hearing is held at the request of the applicant, state liquor and cannabis board representatives ~~((shall))~~ must present and defend the state liquor and cannabis board's initial decision to deny a license or renewal.

(d) Upon the granting of a license under this title the state liquor and cannabis board ~~((shall))~~ must send written notification to the

(b) A city, county, or town may permit the licensing of premises within one thousand feet but not less than one hundred feet of the facilities described in (a) of this subsection, except elementary schools, secondary schools, and playgrounds, by enacting an ordinance authorizing such distance reduction, provided that such distance reduction will not negatively impact the jurisdiction's civil regulatory enforcement, criminal law enforcement interests, public safety, or public health.

(c) A city, county, or town may permit the licensing of research premises allowed under RCW 69.50.--- (section 1, chapter 71, Laws of 2015) within one thousand feet but not less than one hundred feet of the facilities described in (a) of this subsection by enacting an ordinance authorizing such distance reduction, provided that the ordinance will not negatively impact the jurisdiction's civil regulatory enforcement, criminal law enforcement, public safety, or public health.

(2)(a) Any registered voter of a city, town, or county may submit a petition calling for the city, town, or county to prohibit the siting or operation of any business or facility to be used for the production, processing, researching, or retail sale of marijuana under this chapter. The petition must be signed by thirty percent or more of the voters of the jurisdiction and must be filed with the legislative authority of the applicable city, town, or county. With respect to petitions to be filed with a county under this subsection, only registered voters in the unincorporated area of the county may initiate and sign the petition.

(b) If the legislative authority determines the petition to be sufficient, it must, within sixty days of determining the petition to be sufficient, hold a public hearing on the petition and an implementing ordinance. Following the public hearing, the legislative authority of the city, town, or county must submit the question of prohibiting siting or operation of any business or facility to be used for the production, processing, researching, or retail sale of marijuana products under this chapter to the voters of the jurisdiction at a general election.

(c) If a majority of the voters of the city, town, or county voting in the election approves the prohibition, the prohibition will take effect on the date specified in the petition. If no effective date is specified in the petition, the prohibition takes effect sixty days after the election.

(3) As an alternative to the petition process established in subsection (2) of this section, the legislative authority of any city, town, or county may initiate an ordinance provided for in subsection (2) of this section by submitting a ballot proposition at a general election prohibiting the siting or operation of any business or facility to be used for the production, processing, researching, or retail sale of marijuana under this chapter. If a majority of the voters of the county, city, or town voting in the election approves the prohibition, the prohibition takes effect on the date specified in the ballot proposition. If no effective date is specified in the ballot proposition, the prohibition takes effect sixty days after the election.

(4) With respect to a county enacting an ordinance under this section, the ordinance may only apply to unincorporated areas of the county. No voters within the boundaries of an incorporated city or town may participate in a county election under this section.

(5) Following the passage of an ordinance under subsections (2) and (3) of this section, the state liquor control board may not issue or renew any license under RCW 69.50.325 or section 1501 of this act for the production, processing, researching, or retail sale of marijuana with respect to businesses that are either located or proposed to be located within an area subject to the ordinance.

(6) The legislative authority of a city, town, or county may, by ordinance, repeal a prohibition enacted under this section not less than two years after the prohibition's effective date. After a repeal under this subsection, the state liquor control board may issue and renew licenses under RCW 69.50.325 or section 1501 of this act within the area that had been subject to a prohibition.

(7) Nothing in this section may be construed to extend powers to cities, towns, or counties beyond the power to prohibit the siting or operation of any business or facility to be used for the production, processing, researching, or retail sale of marijuana.

NEW SECTION. Sec. 1602. A new section is added to chapter 36.01 RCW to read as follows:

"Eligible city" means any city or town in which sales of marijuana products are attributable to a marijuana retailer, as defined in RCW 69.50.101, located within the boundaries of the city or town.

(d) By September 15th of each year, the state liquor and cannabis board must provide the state treasurer the annual distribution amount, if any, for each county and city as determined in subsection (2) of this section.

Sec. 10. RCW 28A.230.090 and 2014 c 217 s 202 are each amended to read as follows:

(1) The state board of education shall establish high school graduation requirements or equivalencies for students, except as provided in RCW 28A.230.122 and except those equivalencies established by local high schools or school districts under RCW 28A.230.097. The purpose of a high school diploma is to declare that a student is ready for success in postsecondary education, gainful employment, and citizenship, and is equipped with the skills to be a lifelong learner.

(a) Any course in Washington state history and government used to fulfill high school graduation requirements shall consider including information on the culture, history, and government of the American Indian peoples who were the first inhabitants of the state.

(b) The certificate of academic achievement requirements under RCW 28A.655.061 or the certificate of individual

achievement requirements under RCW 28A.155.045 are required for graduation from a public high school but are not the only requirements for graduation.

(c) Any decision on whether a student has met the state board's high school graduation requirements for a high school and beyond plan shall remain at the local level. Effective with the graduating class of 2015, the state board of education may not establish a requirement for students to complete a culminating project for graduation.

(d)(i) The state board of education shall adopt rules to implement the career and college ready graduation requirement proposal adopted under board resolution on November 10, 2010, and revised on January 9, 2014, to take effect beginning with the graduating class of 2019 or as otherwise provided in this subsection (1)(d). The rules must include authorization for a school district to waive up to two credits for individual students based on unusual circumstances and in accordance with written policies that must be adopted by each board of directors of a school district that grants diplomas. The rules must also provide that the content of the third credit of mathematics and the content of the third credit of science may be chosen by the student based on the student's interests and high school and beyond plan with agreement of the student's parent or guardian or agreement of the school counselor or principal.

(ii) School districts may apply to the state board of education for a waiver to implement the career and college ready graduation requirement proposal beginning with the graduating class of 2020 or 2021 instead of the graduating class of 2019. In the application, a school district must describe why the waiver is being requested, the specific impediments preventing timely implementation, and efforts that will be taken to achieve implementation with the graduating class proposed under the waiver. The state board of education shall grant a waiver under this subsection (1)(d) to an applying school district at the next subsequent meeting of the board after receiving an application.

(2)(a) In recognition of the statutory authority of the state board of education to establish and enforce minimum high school graduation requirements, the state board shall periodically reevaluate the graduation requirements and shall report such findings to the legislature in a timely manner as determined by the state board.

(b) The state board shall reevaluate the graduation requirements for students enrolled in vocationally intensive and rigorous career and technical education programs, particularly those programs that lead to a certificate or credential that is state or nationally recognized. The purpose of the evaluation is to ensure that students enrolled in these programs have sufficient opportunity to earn a certificate of academic achievement, complete the program and earn the program's certificate or credential, and complete other state and local graduation requirements.

(c) The state board shall forward any proposed changes to the high school graduation requirements to the education committees of the legislature for review (~~and to the quality education council established under RCW 28A.290.010~~). The legislature shall have the opportunity to act during a regular legislative session before the changes are adopted through administrative rule by the state board. Changes that have a fiscal impact on school districts, as identified by a fiscal analysis prepared by the office of the superintendent of public instruction, shall take effect only if formally authorized and funded by the legislature through the omnibus appropriations act or other enacted legislation.

(3) Pursuant to any requirement for instruction in languages other than English established by the state board of education or a local school district, or both, for purposes of high school graduation, students who receive instruction in American

sign language or one or more American Indian languages shall be considered to have satisfied the state or local school district graduation requirement for instruction in one or more languages other than English.

(4) If requested by the student and his or her family, a student who has completed high school courses before attending high school shall be given high school credit which shall be applied to fulfilling high school graduation requirements if:

(a) The course was taken with high school students, if the academic level of the course exceeds the requirements for seventh and eighth grade classes, and the student has successfully passed by completing the same course requirements and examinations as the high school students enrolled in the class; or

(b) The academic level of the course exceeds the requirements for seventh and eighth grade classes and the course would qualify for high school credit, because the course is similar or equivalent to a course offered at a high school in the district as determined by the school district board of directors.

(5) Students who have taken and successfully completed high school courses under the circumstances in subsection (4) of this section shall not be required to take an additional competency examination or perform any other additional assignment to receive credit.

(6) At the college or university level, five quarter or three semester hours equals one high school credit.

(8) The superintendent of public instruction, the state board of education, and the professional educator standards board (~~and the quality education council~~) shall work collaboratively with the educational opportunity gap oversight and accountability committee to close the achievement gap.

Sec. 12. RCW 28A.400.201 and 2011 1st sp.s. c 43 s 468 are each amended to read as follows:

(1) The legislature recognizes that providing students with the opportunity to access a world-class educational system depends on our continuing ability to provide students with access to world-class educators. The legislature also understands that continuing to attract and retain the highest quality educators will require increased investments. The legislature intends to enhance the current salary allocation model and recognizes that changes to the current model cannot be imposed without great deliberation and input from teachers, administrators, and classified employees. Therefore, it is the intent of the legislature to begin the process of developing an enhanced salary allocation model that is collaboratively designed to ensure the rationality of any conclusions regarding what constitutes adequate compensation.

(2) Beginning July 1, 2011, the office of the superintendent of public instruction, in collaboration with the human resources director in the office of financial management, shall convene a technical working group to recommend the details of an enhanced salary allocation model that aligns state expectations for educator development and certification with the compensation system and establishes recommendations for a concurrent implementation schedule. In addition to any other details the technical working group deems necessary, the technical working group shall make recommendations on the following:

(a) How to reduce the number of tiers within the existing salary allocation model;

(b) How to account for labor market adjustments;

(c) How to account for different geographic regions of the state where districts may encounter difficulty recruiting and retaining teachers;

(d) The role of and types of bonuses available;

(e) Ways to accomplish salary equalization over a set number of years; and

(f) Initial fiscal estimates for implementing the recommendations including a recognition that staff on the existing salary allocation model would have the option to grandfather in permanently to the existing schedule.

(3) As part of its work, the technical working group shall conduct or contract for a preliminary comparative labor market analysis of salaries and other compensation for school district employees to be conducted and shall include the results in any reports to the legislature. For the purposes of this subsection, "salaries and other compensation" includes average base salaries, average total salaries, average employee basic benefits, and retirement benefits.

(4) The analysis required under subsection (1) of this section must:

(a) Examine salaries and other compensation for teachers, other certificated instructional staff, principals, and other building-level certificated administrators, and the types of classified employees for whom salaries are allocated;

(b) Be calculated at a statewide level that identifies labor markets in Washington through the use of data from the United States bureau of the census and the bureau of labor statistics; and

(c) Include a comparison of salaries and other compensation to the appropriate labor market for at least the following subgroups of educators: Beginning teachers and types of educational staff associates.

(5) The working group shall include representatives of the office of financial management, the professional educator standards board, the office of the superintendent of public instruction, the Washington education association, the Washington association of school administrators, the association of Washington school principals, the Washington state school directors' association, the public school employees of Washington, and other interested stakeholders with appropriate expertise in compensation related matters. The working group may convene advisory subgroups on specific topics as necessary to assure participation and input from a broad array of diverse stakeholders.

(6) The working group shall be monitored and overseen by the legislature (~~and the quality education council created in RCW 28A.290.010~~). The working group shall make an initial report to the legislature by June 30, 2012, and shall include in its report recommendations for whether additional further work of the group is necessary.

NEW SECTION. Sec. 13. The following acts or parts of acts are each repealed:

(1) RCW 28A.290.010 (Quality education council—Purpose—Membership and staffing—Reports) and 2013 2nd sp.s. c 25 s 7 & 2011 1st sp.s. c 21 s 54; and

(2) RCW 28A.290.020 (Funding formulas to support instructional program—Technical working group) and 2010 c 236 s 5 & 2009 c 548 s 112."

Renumber the remaining sections consecutively and correct any internal references accordingly.

Correct the title.

Representatives Lytton and Magendanz spoke in favor of the adoption of the amendment.

Amendment (526) was adopted.

Representative Magendanz moved the adoption of amendment (518):

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1706. INTENT. (1) In its January 2012 ruling in *McCleary v. State*, the state supreme court declared that Engrossed Substitute House Bill No. 2261 (chapter 548, Laws of 2009), "if fully funded," constituted a "promising reform" that would remedy deficiencies in the state's compliance with its paramount duty to make ample provision for the education of its children. In Engrossed Substitute House Bill No. 2261, the legislature revised its previous formulas to establish the prototypical school model, and it directed the quality education council and its technical working groups to recommend the details of necessary formula enhancements to the prototypical school model. The following year, the legislature enacted Substitute House Bill No. 2776 (chapter 236, Laws of 2010), which provided in statute quantification of the formula enhancements and established statutory deadlines for funding and implementation of these deadlines. Specifically, Substitute House Bill No. 2776 called for (a) full funding of the expected cost transportation formula by the 2013-2015 biennium, which the legislature implemented in the budget for the 2013-2015 biennium, fully funding the model in the 2014-15 school year; (b) full funding of the enhanced formula for materials, supplies, and operating costs by the 2015-16 school year, which both houses of the legislature have funded in the respective 2015-2017 proposed budgets that have passed each chamber; (c) full funding for all-day kindergarten by the 2017-18 school year, which both houses of the legislature have funded in the respective 2015-2017 budgets that have passed each chamber, one year ahead of the statutory deadline; and (d) full funding for K-3 class size reduction by the 2017-18 school year, which both houses of the legislature have funded in a phase-in schedule in the respective 2015-2017 proposed budgets that have passed each chamber, with full implementation planned for the 2017-18 school year.

(2) In its September 2014 order in *McCleary*, the court indicated that it expects the legislature to provide the court with a plan against which to measure the state's progress toward full implementation. As described in subsection (1) of this section, in Substitute House Bill No. 2776 the legislature enacted a comprehensive plan for funding the enhancements to the prototypical school formula, and the legislature has not failed to meet a statutorily prescribed deadline. These enhancements to the funding formula address transportation and materials, supplies, and operating costs, two of the areas identified by the court in which state funding allocations were insufficient to support the state's program of basic education, thereby causing school districts to rely on local levies for implementation of the state's basic education program.

(3) The 2012 *McCleary* ruling also identified a constitutional flaw in the funding formula that predated Engrossed Substitute House Bill No. 2261 and Substitute House Bill No. 2776: State allocations for state-funded staff salaries were insufficient to provide districts with adequate funding to hire and retain teachers for the state's program of basic education. To correct the identified inadequacies of the state salary allocation formulas, the legislature intends to review and quantify the need for additional state allocations so that the state may implement its new salary funding formula in the 2018-19 school year. As a starting point for this task, the legislature finds that the review process should begin with the assumption that the minimum salary cost for the state's program of basic education is the sum of total statewide salary allocations for state-funded employees in the 2014-15 school year plus eighty-five percent of the difference between that amount and total statewide

school district actual salary expenditures for state-funded employees in the 2014-15 school year.

(4) The legislature further finds that increased state salary allocations, while a necessary part of the solution, are not a complete solution. The legislature intends to correct the inadequate state salary allocations identified by the court, but it cannot do so without simultaneously addressing the use of and accountability for local levies for enrichments to the state-funded program of basic education, as well as state-funded levy equalization to mitigate the effect of above-average property tax rates for local levies. Revisions to local levy laws must consider sensitivity to tax rates for districts that have relatively low property values. The intricacies of these entwined topics mean that a piecemeal or interim solution is not feasible. Further, due to the complexity of any plan that requires changes to property taxes, a solution requires sufficient lead time to align local levy and state property tax revisions with school year allocations in the state budget.

(5) To fund the constitutionally required revisions to state salary allocations for state-funded employees, and to prevent local levies from being used for the state's program of basic education, the legislature must revise the state property tax while decreasing the amount that school districts may collect in local levies. The changes to total property tax collections must be revenue-neutral on a statewide basis.

(6) For these reasons, the legislature intends to enact a schedule for researching and enacting policies for fully funding all elements of Engrossed Substitute House Bill No. 2261 on September 1, 2018. As set forth in this act, the legislature intends to review and enact legislation on:

(a)(i) State salary allocations. The state must quantify the portion of salaries for state-funded employees that is part of the state's program of basic education. To ensure that each district receives sufficient state allocations to hire and retain state-funded staff without obligating the state to fund all districts at the highest district cost level, new state funding formulas must contain a localization mechanism. Further, new state funding formulas must eliminate the practice of "grandfathering" salary allocations based on outdated historical funding practices, and they must contain mechanisms for inflationary adjustment; and

(ii) State allocations and purchasing methods for health insurance benefits.

(b) Enrichment and TRI. The state must enact definitions of "enrichment" and authorized TRI that provide school districts with sufficient flexibility to implement local education priorities beyond the state's program of basic education while protecting the state's ability to demonstrate that its allocations fund the state's program of basic education.

(c) State property taxes and local levies. The state must enact new laws governing local levy collections, including local levy bases, rates, or lids, with reductions to local levies offset by changes to the state property tax that are revenue-neutral on a statewide basis. The new local levy system must eliminate the practice of "grandfathering" levy formulas based on outdated historical funding formulas.

(d) State levy equalization. The state must make corresponding changes to its system of levy equalization to mitigate the effect that above-average property tax rates for local levies have on districts' ability to fund enrichments beyond the state's program of basic education.

(e) Transparency and accountability. The state must establish accountability procedures to provide greater clarity and transparency for expenditures of state, federal, and local revenues, including expenditures for the state program of basic education and for local enrichment beyond this program.

PART I

WASHINGTON EDUCATION FUNDING COUNCIL

NEW SECTION. Sec. 101. DEFINITIONS. The definitions in this section apply throughout this chapter unless the context clearly requires otherwise. These definitions apply only for purposes of establishing the duties of the council and the legislature under this chapter. As provided elsewhere in this chapter, the legislature recognizes that some of the terms defined in this section are expressly intended to be redefined by the legislature in future legislation.

(1) "Council" means the Washington education funding council created in section 102 of this act.

(2) "Enrichment" means additional services, instruction, supplies, or similar expenditures that supplement and are not within the state's program of basic education, and that may be funded by local levies consistent with *Seattle School District v. State* (1978) and *McCleary v. State* (2012).

(3) "Levy equalization" means a state-funded program of aid that assists school districts in funding enrichment that supplements the state's program of basic education, and that is intended to mitigate the effect that variations in local property values might have on the ability to fund these supplements locally. The program of local effort assistance established in chapter 28A.500 RCW is an example of "levy equalization."

(4) "Local levies" means maintenance and operation levies collected by school districts under RCW 84.52.053 and 84.52.0531.

(5) "Localization" means a methodology for adjusting state salary allocations to reflect local or regional differences in the cost of salaries necessary to allow school districts to hire and retain state-funded employees for the state's program of basic education.

(6) "State-funded employees" means school district employees for which the state allocates funding pursuant to the prototypical school formula in RCW 28A.150.260 and the omnibus operating appropriations act.

(7) "State's program of basic education" means the instructional program of basic education defined in RCW 28A.150.220.

(8) "TRI" means separate contracts for additional time, responsibility, or incentive, which pursuant to RCW 28A.400.200, may not be used for the provision of services that are part of the state's program of basic education.

NEW SECTION. Sec. 102. WASHINGTON EDUCATION FUNDING COUNCIL CREATED. (1) The legislature intends to fulfill its obligations under Article IX of the state Constitution by completing its implementation of all aspects of chapter 548, Laws of 2009 by September 1, 2018. The funding formulas under chapter 28A.150 RCW to support the state's instructional program must be revised and fully implemented by that date under the schedule of annual benchmarks prescribed in this chapter.

(2) The Washington education funding council is created to advise the legislature as the state moves toward full implementation of the state's program of basic education established pursuant to chapter 548, Laws of 2009 and the financing and revenues necessary to support such program. The council must make recommendations on how the legislature should meet the requirements outlined in chapter 548, Laws of 2009 by September 1, 2018, thereby fulfilling the requirements of the state supreme court in *McCleary v. State*. As provided in this chapter, the council must submit to the legislature recommended changes to state salary allocation formulas and state tax laws to support the state's program of basic education as established under chapter 548, Laws of 2009, along with corresponding recommendations on the state property tax, local levy laws, levy equalization, and other state laws.

(3) As provided in sections 201 and 203 of this act, the council shall submit reports to the governor and the legislature detailing its recommendations, including recommendations for resolving issues or decisions requiring legislative action during the 2016 and 2017 legislative sessions, and recommendations for any funding necessary to complete development and implementation of chapter

548, Laws of 2009. The recommendations must also include the technical details for implementing the recommendations.

(4)(a) The council consists of the following members:

(i) Eight legislators, with two members from each of the two largest caucuses of the senate appointed by the president of the senate and two members from each of the two largest caucuses of the house of representatives appointed by the speaker of the house of representatives;

(ii) The governor, or the governor's designee; and

(iii) The state superintendent of public instruction, or the superintendent's designee.

(b) The council shall select cochairs from among its legislative members.

(c) The council is staffed by the house of representatives office of program research, senate committee services, and the office of financial management, with additional staff support provided by the state entities with representatives on the council.

(5) Recommendations of the council require the affirmative vote of seven of its members.

(6) Legislative members of the council must be reimbursed for travel expenses in accordance with RCW 44.04.120. Nonlegislative members, except those representing an employer or organization, are entitled to be reimbursed for travel expenses in accordance with RCW 43.03.050 and 43.03.060.

(7) The expenses of the council must be paid jointly by the senate and the house of representatives. Council expenditures are subject to approval by the senate facilities and operations committee and the house of representatives executive rules committee, or their successor committees.

NEW SECTION. Sec. 103. WASHINGTON EDUCATION FUNDING COUNCIL MAY ESTABLISH TECHNICAL WORKING GROUPS. (1) The council may also establish technical working groups to advise the task force on technical and practical aspects of proposed policies and formulas.

(2) The technical working group or groups may include representatives of the legislative evaluation and accountability program committee, school district and educational service district financial managers, the Washington association of school business officers, the Washington education association, the Washington association of school administrators, the association of Washington school principals, the Washington state school directors' association, the public school employees of Washington, and other interested stakeholders with expertise in education finance or state revenue.

PART II

Sec. 404. RCW 28A.400.201 and 2011 1st sp.s. c 43 s 468 are each amended to read as follows:

(1) The legislature recognizes that providing students with the opportunity to access a world-class educational system depends on our continuing ability to provide students with access to world-class educators. The legislature also understands that continuing to attract and retain the highest quality educators will require increased investments. The legislature intends to enhance the current salary allocation model and recognizes that changes to the current model cannot be imposed without great deliberation and input from teachers, administrators, and classified employees. Therefore, it is the intent of the legislature to begin the process of developing an enhanced salary allocation model that is collaboratively designed to ensure the rationality of any conclusions regarding what constitutes adequate compensation.

(2) Beginning July 1, 2011, the office of the superintendent of public instruction, in collaboration with the human resources director in the office of financial management, shall convene a technical working group to recommend the details of an enhanced salary allocation model that aligns state expectations for educator development and certification with the compensation system and establishes recommendations for a concurrent implementation schedule. In addition to any other details the technical working group deems necessary, the technical working group shall make recommendations on the following:

(a) How to reduce the number of tiers within the existing salary allocation model;

(b) How to account for labor market adjustments;

(c) How to account for different geographic regions of the state where districts may encounter difficulty recruiting and retaining teachers;

(d) The role of and types of bonuses available;

(e) Ways to accomplish salary equalization over a set number of years; and

(f) Initial fiscal estimates for implementing the recommendations including a recognition that staff on the existing salary allocation model would have the option to grandfather in permanently to the existing schedule.

(3) As part of its work, the technical working group shall conduct or contract for a preliminary comparative labor market analysis of salaries and other compensation for school district employees to be conducted and shall include the results in any reports to the legislature. For the purposes of this subsection, "salaries and other compensation" includes average base salaries,

average total salaries, average employee basic benefits, and retirement benefits.

(4) The analysis required under subsection (1) of this section must:

(a) Examine salaries and other compensation for teachers, other certificated instructional staff, principals, and other building-level certificated administrators, and the types of classified employees for whom salaries are allocated;

(b) Be calculated at a statewide level that identifies labor markets in Washington through the use of data from the United States bureau of the census and the bureau of labor statistics; and

(c) Include a comparison of salaries and other compensation to the appropriate labor market for at least the following subgroups of educators: Beginning teachers and types of educational staff associates.

(5) The working group shall include representatives of the office of financial management, the professional educator standards board, the office of the superintendent of public instruction, the Washington education association, the Washington association of school administrators, the association of Washington school principals, the Washington state school directors' association, the public school employees of Washington, and other interested stakeholders with appropriate expertise in compensation related matters. The working group may convene advisory subgroups on specific topics as necessary to assure participation and input from a broad array of diverse stakeholders.

(6) The working group shall be monitored and overseen by the legislature (~~and the quality education council created in RCW 28A.290.010~~). The working group shall make an initial report to the legislature by June 30, 2012, and shall include in its report recommendations for whether additional further work of the group is necessary.

NEW SECTION. Sec. 405. The following acts or parts of acts are each repealed:

(1) RCW 28A.290.010 (Quality education council—Purpose—Membership and staffing—Reports) and 2013 2nd sp.s. c 25 s 7 & 2011 1st sp.s. c 21 s 54; and

"NEW SECTION. Sec. 505. INTENT. (1) The legislature finds that quality early care and education builds the foundation for a child's success in school and in life. The legislature acknowledges that a quality framework is necessary for the early care and education system in Washington. The legislature recognizes that empirical evidence supports the conclusion that high quality programs consistently yield more positive outcomes for children, with the strongest positive impacts on the most vulnerable children. The legislature acknowledges that critical developmental windows exist in early childhood, and low quality child care has damaging effects for children. The legislature further understands that the proper dosage, duration of programming, and stability of care are critical to enhancing program quality and improving child outcomes. The legislature acknowledges that the early care and education system should strive to address the needs of Washington's culturally and linguistically diverse populations. The legislature understands that parental choice and provider diversity are guiding principles for early learning programs.

(2) The legislature intends to prioritize the integration of child care and preschool in an effort to promote full day programming. The legislature further intends to reward quality and create incentives for providers to participate in a quality rating and improvement system that will also provide valuable information to parents regarding the quality of care available in their communities.

Sec. 506. RCW 43.215.100 and 2013 c 323 s 6 are each amended to read as follows:

EARLY ACHIEVERS, QUALITY RATING, AND IMPROVEMENT SYSTEM.

(1) ~~((Subject to the availability of amounts appropriated for this specific purpose,))~~ The department, in collaboration with tribal governments and community and statewide partners, shall implement a ~~((voluntary))~~ quality rating and improvement system, called the early achievers program~~((, that))~~. The early achievers program provides a foundation of quality for the early care and education system. The early achievers program is applicable to licensed or certified child care centers and homes and early ~~((education))~~ learning programs such as working connections child care and early childhood education and assistance programs.

(2) The ~~((purpose))~~ objectives of the early achievers program ~~((is))~~ are to:

(a) ~~((To))~~ Improve short-term and long-term educational outcomes for children as measured by assessments including, but not limited to, the Washington kindergarten inventory of developing skills in RCW 28A.655.080;

(b) Give parents clear and easily accessible information about the quality of child care and early education programs~~((;))~~;

(c) Support improvement in early learning and child care programs throughout the state~~((;))~~;

(d) Increase the readiness of children for school~~((, and))~~;

(e) Close the ~~((disparity))~~ disparities in access to quality care;

(f) Provide professional development and coaching opportunities to early child care and education providers; and ~~((to))~~

(g) Establish a common set of expectations and standards that define, measure, and improve the quality of early learning and child care settings.

(3)(a) Licensed or certified child care centers and homes serving nonschool age children and receiving state subsidy payments must participate in the early achievers program by the required deadlines established in RCW 43.215.135.

(b) Approved early childhood education and assistance program providers receiving state-funded support must participate in the early achievers program by the required deadlines established in RCW 43.215.415.

(c) Participation in the early achievers program is voluntary for:

(i) Licensed or certified child care centers and homes not receiving state subsidy payments; and

(ii) Early learning programs not receiving state funds.

(d) School age child care providers are exempt from participating in the early achievers program. By July 1, 2017, the department and the office of the superintendent of public instruction shall jointly design a plan to incorporate school age child care providers into the early achievers program or other appropriate quality improvement system. To test implementation of the early achievers system for school age child care providers the department and the office of the superintendent of public instruction shall implement a pilot program.

~~(4) ((By fiscal year 2015, Washington state preschool programs receiving state funds must enroll in the early achievers program and maintain a minimum score level.~~

~~(5) Before final implementation of the early achievers program, the department shall report on program progress, as defined within the race to the top federal grant award, and expenditures to the appropriate policy and fiscal committees of the legislature.) There are five levels in the early achievers program. Participants are expected to actively engage and continually advance within the program.~~

(5) The department has the authority to determine the rating cycle for the early achievers program. The department shall streamline and eliminate duplication between early achievers standards and state child care rules in order to reduce costs associated with the early achievers rating cycle and child care licensing.

(a) Early achievers program participants may request to be rated at any time after the completion of all level 2 activities.

(b) The department shall provide an early achievers program participant an update on the participant's progress toward completing level 2 activities after the participant has been enrolled in the early achievers program for fifteen months.

(c) The first rating is free for early achievers program participants.

(d) Each subsequent rating within the established rating cycle is free for early achievers program participants.

(6)(a) Early achievers program participants may request to be rerated outside the established rating cycle.

(b) The department may charge a fee for optional rerating requests made by program participants that are outside the established rating cycle.

(c) Fees charged are based on, but may not exceed, the cost to the department for activities associated with the early achievers program.

(7)(a) The department must create a single source of information for parents and caregivers to access details on a provider's early achievers program rating level, licensing history, and other indicators of quality and safety that will help parents and caregivers make informed choices.

(b) The department shall publish to the department's web site, or offer a link on its web site to, the following information:

(i) By November 1, 2015, early achievers program rating levels 1 through 5 for all child care programs that receive state subsidy,

early childhood education and assistance programs, and federal head start programs in Washington; and

(ii) New early achievers program ratings within thirty days after a program becomes licensed or certified, or receives a rating.

(c) The early achievers program rating levels shall be published in a manner that is easily accessible to parents and caregivers and takes into account the linguistic needs of parents and caregivers.

(d) The department must publish early achievers program rating levels for child care programs that do not receive state subsidy but have voluntarily joined the early achievers program.

(e) Early achievers program participants who have published rating levels on the department's web site or on a link on the department's web site may include a brief description of their program, contingent upon the review and approval by the department, as determined by established marketing standards.

(8)(a) The department shall create a professional development pathway for early achievers program participants to obtain a high school diploma or equivalency or higher education credential in early childhood education, early childhood studies, child development, or an academic field related to early care and education.

(b) The professional development pathway must include opportunities for scholarships and grants to assist early achievers program participants with the costs associated with obtaining an educational degree.

(c) The department shall address cultural and linguistic diversity when developing the professional development pathway.

(9) The early achievers quality improvement awards shall be reserved for participants offering programs to an enrollment population consisting of at least five percent of children receiving a state subsidy.

(10) In collaboration with tribal governments, community and statewide partners, and the early achievers review subcommittee created in RCW 43.215.090, the department shall develop a protocol for granting early achievers program participants an extension in meeting rating level requirement timelines outlined for the working connections child care program and the early childhood education and assistance program.

(a) The department may grant extensions only under exceptional circumstances, such as when early achievers program participants experience an unexpected life circumstance.

(b) Extensions shall not exceed six months, and early achievers program participants are only eligible for one extension in meeting rating level requirement timelines.

(c) Extensions may only be granted to early achievers program participants who have demonstrated engagement in the early achievers program.

(11)(a) The department shall accept national accreditation that meets the requirements of this subsection (11) as a qualification for the early achievers program ratings.

(b) Each national accreditation agency will be allowed to submit its most current standards of accreditation to establish potential credit earned in the early achievers program. The department shall grant credit to accreditation bodies that can demonstrate that their standards meet or exceed the current early achievers program standards.

(c) Licensed child care centers and child care home providers must meet national accreditation standards approved by the department for the early achievers program in order to be granted credit for the early achievers program standards. Eligibility for the early achievers program is not subject to bargaining, mediation, or interest arbitration under RCW 41.56.028, consistent with the legislative reservation of rights under RCW 41.56.028(4)(d).

(12) The department shall explore the use of alternative quality assessment tools that meet the culturally specific needs of the federally recognized tribes in the state of Washington.

(13) A child care or early learning program that is operated by a federally recognized tribe and receives state funds shall participate in the early achievers program. The tribe may choose to participate through an interlocal agreement between the tribe and the department. The interlocal agreement must reflect the government-to-government relationship between the state and the tribe, including recognition of tribal sovereignty. The interlocal agreement must provide that:

(a) Tribal child care facilities and early learning programs may volunteer, but are not required, to be licensed by the department;

(b) Tribal child care facilities and early learning programs are not required to have their early achievers program rating level published to the department's web site or through a link on the department's web site; and

(c) Tribal child care facilities and early learning programs must provide notification to parents or guardians who apply for or have been admitted into their program that early achievers program rating level information is available and provide the parents or guardians with the program's early achievers program rating level upon request.

(14) The department shall consult with the early achievers review subcommittee on all substantial policy changes to the early achievers program.

(15) Nothing in this section changes the department's responsibility to collectively bargain over mandatory subjects or limits the legislature's authority to make programmatic modifications to licensed child care and early learning programs under RCW 41.56.028(4)(d).

NEW SECTION. Sec. 507. A new section is added to chapter 43.215 RCW to read as follows:

SINGLE SET OF LICENSING STANDARDS.

(1) No later than November 1, 2016, the department shall implement a single set of licensing standards for child care and the early childhood education and assistance program. The department shall produce the single set of licensing standards within the department's available appropriations. The new licensing standards must:

(a) Provide minimum health and safety standards for child care and preschool programs;

(b) Rely on the standards established in the early achievers program to address quality issues in participating early childhood programs;

(c) Take into account the separate needs of family care providers and child care centers; and

(d) Promote the continued safety of child care settings.

(2) Private schools that operate early learning programs and do not receive state subsidy payments shall be subject only to the minimum health and safety standards in subsection (1)(a) of this section and the requirements necessary to assure a sufficient early childhood education to meet usual requirements needed for transition into elementary school. The state, and any agency thereof, shall not restrict or dictate any specific educational or other programs for early learning programs operated by private schools except for programs that receive state subsidy payments.

Sec. 508. RCW 43.215.200 and 2011 c 359 s 2 and 2011 c 253 s 3 are each reenacted and amended to read as follows:

DIRECTOR'S LICENSING DUTIES.

It shall be the director's duty with regard to licensing:

(1) In consultation and with the advice and assistance of persons representative of the various type agencies to be licensed, to designate categories of child care facilities for which separate or different requirements shall be developed as may be appropriate whether because of variations in the ages and other characteristics of the children served, variations in the purposes and services offered or size or structure of the agencies to be licensed, or because of any other factor relevant thereto;

(2)(a) In consultation with the state fire marshal's office, the director shall use an interagency process to address health and safety requirements for child care programs that serve school age children and are operated in buildings that contain public or private schools that safely serve children during times in which school is in session;

(b) Any requirements in (a) of this subsection as they relate to the physical facility, including outdoor playgrounds, do not apply to before-school and after-school programs that serve only school age children and operate in the same facilities used by public or private schools;

(3) In consultation and with the advice and assistance of parents or guardians, and persons representative of the various type agencies to be licensed, to adopt and publish minimum requirements for licensing applicable to each of the various categories of agencies to be licensed under this chapter;

(4) In consultation with law enforcement personnel, the director shall investigate the conviction record or pending charges of each agency and its staff seeking licensure or relicensure, and other persons having unsupervised access to children in care;

(5) To satisfy the shared background check requirements provided for in RCW 43.215.215 and 43.20A.710, the department of early learning and the department of social and health services shall share federal fingerprint-based background check results as permitted under the law. The purpose of this provision is to allow both departments to fulfill their joint background check responsibility of checking any individual who may have unsupervised access to vulnerable adults, children, or juveniles. Neither department may share the federal background check results with any other state agency or person;

(6) To issue, revoke, or deny licenses to agencies pursuant to this chapter. Licenses shall specify the category of care that an agency is authorized to render and the ages and number of children to be served;

(7) To prescribe the procedures and the form and contents of reports necessary for the administration of this chapter and to require regular reports from each licensee;

(8) To inspect agencies periodically to determine whether or not there is compliance with this chapter and the requirements adopted under this chapter;

(9) To review requirements adopted under this chapter at least every two years and to adopt appropriate changes after consultation with affected groups for child day care requirements; and

(10) To consult with public and private agencies in order to help them improve their methods and facilities for the care and early learning of children.

(1)(a) The department shall, in collaboration with tribal governments and community and statewide partners, implement a protocol to maximize and encourage participation in the early achievers program for culturally diverse and low-income center and family home child care providers. Amounts appropriated for the encouragement of culturally diverse and low-income center and family home child care provider participation shall be appropriated separately from the other funds appropriated for the department, are the only funds that may be used for the protocol, and may not be used for any other purposes. Funds appropriated for the protocol shall be considered an ongoing program for purposes of future departmental budget requests.

(b) During the first thirty months of implementation of the early achievers program the department shall prioritize the resources authorized in this section to assist providers rating at a level 2 in the early achievers program to help them reach a level 3 rating wherever access to subsidized care is at risk.

(2) The protocol should address barriers to early achievers program participation and include at a minimum the following:

(a) The creation of a substitute pool;

(b) The development of needs-based grants for providers at level 2 in the early achievers program to assist with purchasing curriculum development, instructional materials, supplies, and equipment to improve program quality. Priority for the needs-based grants shall be given to culturally diverse and low-income providers;

(c) The development of materials and assessments in a timely manner, and to the extent feasible, in the provider and family home languages; and

WORKING CONNECTIONS CHILD CARE.

(1) The department shall establish and implement policies in the working connections child care program to promote stability and quality of care for children from low-income households. These policies shall focus on supporting school readiness for young learners. Policies for the expenditure of funds constituting the working connections child care program must be consistent with the outcome measures defined in RCW 74.08A.410 and the standards established in this section intended to promote ~~((continuity of care for children))~~ stability, quality, and continuity of early care and education programming.

(2) ~~((Beginning in fiscal year 2013,))~~ As recommended by Public Law 113-186, authorizations for the working connections child care subsidy shall be effective for twelve months ~~((unless a change in circumstances necessitates reauthorization sooner than twelve months. The twelve month certification applies only if the enrollments in the child care subsidy or working connections child care program are capped.~~

~~(3) Subject to the availability of amounts appropriated for this specific purpose, beginning September 1, 2013, working connections child care providers shall receive a five percent increase in the subsidy rate for enrolling in level 2 in the early achievers programs. Providers must complete level 2 and advance to level 3 within thirty months in order to maintain this increase))~~ beginning July 1, 2016, unless an earlier date is provided in the omnibus appropriations act.

(5) If a child care provider does not rate at a level 3 or higher following the remedial period, the provider is no longer eligible to receive state subsidy under this section.

(6) If a child care provider serving nonschool age children and receiving state subsidy payments has successfully completed all level 2 activities and is waiting to be rated by the deadline provided in this section, the provider may continue to receive a state subsidy pending the successful completion of the level 3 rating activity.

(7) The department shall implement tiered reimbursement for early achievers program participants in the working connections child care program rating at level 3, 4, or 5.

(8) The department shall account for a child care copayment collected by the provider from the family for each contracted slot and establish the copayment fee by rule.

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 534. The central Puget Sound is projected to grow considerably, in both population and jobs, over the course of the next several decades. It is thus critical that all its transportation infrastructure be well planned and coordinated, including its transit systems. It is the intent of the legislature to encourage this planning and coordination on the part of central Puget Sound transit systems in order to improve the user experience, increase ridership, and make the most effective use of tax dollars.

Sec. 535. RCW 35.58.2796 and 2011 c 371 s 2 are each amended to read as follows:

(1)(a) The department of transportation shall develop an annual report summarizing the status of public transportation systems in the state for the previous calendar year. By December 1st of each year, the report must be made available to the transportation committees of the legislature and to each municipality, as defined in RCW 35.58.272, and to individual members of the municipality's legislative authority.

~~((2))~~ (b) To assist the department with preparation of the report, each municipality shall file a system report by September 1st of each year with the state department of transportation identifying its public transportation services for the previous calendar year and its objectives for improving the efficiency and effectiveness of those services. The system report shall address those items required for each public transportation system in the department's report.

~~((3))~~ (c) The department report shall describe individual public transportation systems, including contracted transportation services and dial-a-ride services, and include a statewide summary of public transportation issues and data. The descriptions shall include the following elements and such other elements as the department deems appropriate after consultation with the municipalities and the transportation committees of the legislature:

~~((4))~~ (i) Equipment and facilities, including vehicle replacement standards;

~~((5))~~ (ii) Services and service standards;

~~((6))~~ (iii) Revenues, expenses, and ending balances, by fund source;

~~((7))~~ (iv) Policy issues and system improvement objectives, including community participation in development of those objectives and how those objectives address statewide transportation priorities;

~~((8))~~ (v) Operating indicators applied to public transportation services, revenues, and expenses. Operating indicators shall include operating cost per passenger trip, operating cost per revenue vehicle service hour, passenger trips per revenue service hour, passenger trips per vehicle service mile, vehicle service hours per employee, and farebox revenue as a percent of operating costs.

~~((9))~~ (d) To the extent that information is available, the department report must include descriptive information on any other modes of public transportation, the impact of public transportation on transportation system performance, and how public transportation helps the state meet the transportation system policy goals described in RCW 47.04.280.

(2)(a) The department of transportation shall develop an annual report summarizing the status of public transportation system coordination in and between counties with a population of seven hundred thousand or more that border Puget Sound for the previous calendar year. By December 1st of each year, the report must be made available to the transportation committees of the legislature and to each municipality, as defined in RCW 35.58.272, located in a county with a population of seven hundred thousand or more that borders Puget Sound and to individual members of the municipality's legislative authority.

(b) To assist the department with preparation of the report required under this subsection, each municipality, as defined in RCW 35.58.272, located in a county with a population of seven hundred thousand or more that borders Puget Sound shall file a report by September 1st of each year with the department identifying its coordination efforts in the previous calendar year with other municipalities, as defined in RCW 35.58.272, located in counties with a population of seven hundred thousand or more that border Puget Sound in the following areas:

(1)(a) The department shall establish a regional mobility grant program. The purpose of the grant program is to aid local

governments in funding projects such as intercounty connectivity service, park and ride lots, rush hour transit service, and capital projects that improve the connectivity and efficiency of our transportation system. The department shall identify cost-effective projects that reduce delay for people and goods and improve connectivity between counties and regional population centers. The department shall submit a prioritized list of all projects requesting funding to the legislature by December 1st of each year.

(b) Once the department has a prioritized list, pursuant to (a) of this subsection and RCW 47.66.040, of all projects requesting funding, the department shall reprioritize the projects in counties with a population of seven hundred thousand or more that border Puget Sound based on the same criteria used for the prioritized list as well as the additional criteria of coordination and integration. After this reprioritization, the department shall integrate these reprioritized projects with the prioritized projects from all other counties while ensuring that the prioritized projects from all other counties do not move to a lower relative position on this integrated list or, if a prioritized project from all other counties is in the funded portion of the prioritized list, out of the funded portion of this integrated list.

Concerning the implementation of practical design by the department of transportation.

The bill was read the second time.

Representative Clibborn moved the adoption of amendment (562):

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 539. A new section is added to chapter 47.01 RCW to read as follows:

(1)(a) For projects identified as connecting Washington projects and supported by revenues under chapter . . . (Engrossed Substitute Senate Bill No. 5987), Laws of 2015 3rd sp. sess., it is the priority of the legislature that the department deliver the named projects. The legislature encourages the department to continue to institutionalize innovation and collaboration in design and project delivery with an eye toward the most efficient use of resources. In doing so, the legislature expects that, for some projects, costs will be reduced during the project design phase due to the application of practical design. However, significant changes to a project title or scope arising from the application of practical design requires legislative approval. The legislature will utilize existing mechanisms and processes to ensure timely and efficient approval. Practical design-related changes to the scope may be proposed by the department, for the legislature's approval, only if the project's intended performance is substantially unchanged and the local governments and interested stakeholders impacted by the project have been consulted and have reviewed the proposed changes.

(b) To the greatest extent practicable, a contract for the construction of a project with any change to the title or scope, whether significant or not, arising from the application of practical design must not be let until the department has provided a detailed notice describing the change to the chairs and ranking members of the house of representatives and senate transportation committees or, if during the interim, to the joint transportation committee.

(c) To determine the savings attributable to practical design, each connecting Washington project must be evaluated. For design-bid-build projects, the evaluation must occur at the end of the project design phase. For design-build projects, the evaluation must occur

at the completion of thirty percent design. Each year as a part of its annual budget submittal, the department must include a detailed summary of how practical design has been applied and the associated savings gained. The annual summary must also include for each project: Details regarding any savings gained specifically through changes in the cost of materials, changes in the scope of a project and associated impacts on risk, the retirement of any risk reserves, and unused contingency funds.

(2)(a) The transportation future funding program is intended to provide for future emergent transportation projects, accelerating the schedule for existing connecting Washington projects, and highway preservation investments, beginning in fiscal year 2024, based on savings accrued from the application of practical design and any retired risk or unused contingency funding on connecting Washington projects.

(b) Beginning July 1, 2016, the department must submit a report to the state treasurer and the transportation committees of the legislature once every six months identifying the amount of savings attributable to the application of practical design, retired risk, and unused contingency funding, and report when the savings become available. The state treasurer must transfer the available amounts identified in the report to the transportation future funding program account created in section 2 of this act.

(c) Beginning in fiscal year 2024, as a part of its budget submittal, the department may provide a list of highway improvement projects or preservation investments for potential legislative approval as part of the transportation future funding program. Highway improvement projects considered for inclusion under the transportation future funding program may include new connecting Washington projects, or accelerate the schedule for existing connecting Washington projects, and must: Address significant safety concerns; alleviate congestion and advance mobility; provide compelling economic development gains; leverage partnership funds from local, federal, or other sources; or require a next phase of funding to build upon initial investments provided by the legislature.

(d) It is the intent of the legislature that if savings attributable to the application of practical design are used to accelerate existing connecting Washington projects, savings must also be used for new connecting Washington projects of equal cost.

NEW SECTION. Sec. 540. A new section is added to chapter 46.68 RCW to read as follows:

The transportation future funding program account is created in the connecting Washington account established in chapter . . . (Engrossed Substitute Senate Bill No. 5987), Laws of 2015 3rd sp. sess. Moneys in the account may be spent only after appropriation. Expenditures from the account must be used only for preservation projects, to accelerate the schedule of connecting Washington projects identified in chapter . . . (Engrossed Substitute Senate Bill No. 5988), Laws of 2015 3rd sp. sess., for new connecting Washington projects, and for principal and interest on bonds authorized for the projects. It is the legislature's intent that moneys not be appropriated from the account until 2024 and that moneys in the account be expended in equal amounts between preservation and improvement projects. Moneys in the account may not be expended on the state route number 99 Alaskan Way viaduct replacement project.

Sec. 541. RCW 43.84.092 and 2014 c 112 s 106, 2014 c 74 s 5, and 2014 c 32 s 6 are each reenacted and amended to read as follows:

SECOND READING

ENGROSSED HOUSE BILL NO. 2266, by Representative Sullivan

Deferring implementation of class size reduction and school employee staffing formula changes.

The bill was read the second time.

Representative Sullivan moved the adoption of amendment (555):

On page 1, after line 5, insert the following:

"NEW SECTION. Sec. 1. At the 2014 general election, the voters approved Initiative 1351, which proposed to amend the formulas by which the state allocates funding for state-funded school district employees. Initiative 1351 increased the state's obligation to fund teachers for class size reduction in excess of the class size reduction in grades K-3 already enacted by the legislature in chapter 548, Laws of 2009 (ESHB 2261) and chapter 236, Laws of 2010 (SHB 2776). Initiative 1351 also increased the state's obligation to provide funding for other types of school district employees beyond teachers.

In 2012, the state supreme court ruled in *McCleary v. State* that the state has failed to comply with its Article IX duty to make ample provision for the state's program of basic education. In its ruling, the court declared that ESHB 2261 constituted a "promising reform" that would bring the state into compliance with Article IX "if fully funded[.]" In the time since the original *McCleary* ruling, the state has continued to implement ESHB 2261 and SHB 2776, with full implementation scheduled for the statutory deadline of 2018.

For two sets of educational reasons, the legislature finds that it is appropriate to delay implementation of Initiative 1351 for four years.

First, the legislature finds, based on research reviewed by the Basic Education Funding Task Force and the Quality Education Council, that the greatest improvements in student outcomes in the common schools can be achieved in the near term by focusing the investment of state fiscal resources in the areas identified in ESHB 2261 and SHB 2776, which emphasize fund class size reduction in early grades. The legislature further finds that the court in its *McCleary* ruling and orders has identified investments in these areas as the funding reforms that are needed to bring the state into compliance with its Article IX obligations, which provides an educational reason for focusing on funding the reforms of ESHB 2261 and SHB 2776 in the 2015-17 and 2017-19 fiscal biennia.

Second, the legislature finds that there are practical educational reasons to temporarily defer implementation of increased staffing ratios and the portion of class size reduction that is beyond the reductions called for in SHB 2776. Data from the Superintendent of Public Instruction and the Professional Educator Standards Board indicate that Washington's teacher education programs are not estimated to produce sufficient teachers to achieve the class size reductions on the schedule established by Initiative 1351. Further, the experience of other states indicates that the need to hire teachers quickly for rapid implementation of class size reductions may exacerbate recruiting difficulties for schools or districts that are at a relative disadvantage in attracting staff. Finally, implementing class size reduction requires time to plan and build new classrooms.

For these reasons, the legislature intends to temporarily defer implementation of Initiative 1351."

Beginning on page 13, line 7, strike all of section 303 and insert the following:

"Sec. 303. RCW 41.05.050 and 2009 c 537 s 5 are each amended to read as follows:

(1) Every: (a) Department, division, or separate agency of state government; (b) county, municipal, school district, educational service district, or other political subdivisions; and (c) tribal governments as are covered by this chapter, shall provide contributions to insurance and health care plans for its employees and their dependents, the content of such plans to be determined by the authority. Contributions, paid by the county, the municipality, other political subdivision, or a tribal government for their employees, ~~((shall))~~ must include an amount determined by the authority to pay such administrative expenses of the authority as are necessary to administer the plans for employees of those groups, except as provided in subsection (4) of this section.

(2) ~~((If the authority at any time determines that the participation of a county, municipal, other political subdivision, or a tribal government covered under this chapter adversely impacts insurance rates for state employees, the authority shall implement limitations on the participation of additional county, municipal, other political subdivisions, or a tribal government.))~~ To account for increased cost of benefits for the state and state employees the authority may develop a rate surcharge applicable to participating counties, municipalities, other political subdivisions, and tribal governments.

(3) The contributions of any: (a) Department, division, or separate agency of the state government; (b) county, municipal, or other political subdivisions; and (c) any tribal government as are covered by this chapter, shall be set by the authority, subject to the approval of the governor for availability of funds as specifically appropriated by the legislature for that purpose. Insurance and health care contributions for ferry employees shall be governed by RCW 47.64.270.

(4)(a) The authority ~~((shall))~~ must collect from each participating school district and educational service district an amount equal to the composite rate charged to state agencies, plus an amount equal to the employee premiums by plan and family size as would be charged to state employees, for groups of district employees enrolled in authority plans. The authority may collect these amounts in accordance with the district fiscal year, as described in RCW 28A.505.030.

(b) For all groups of district employees enrolling in authority plans for the first time after September 1, 2003, the authority shall collect from each participating school district an amount equal to the composite rate charged to state agencies, plus an amount equal to the employee premiums by plan and by family size as would be charged to state employees, only if the authority determines that this method of billing the districts will not result in a material difference between revenues from districts and expenditures made by the authority on behalf of districts and their employees. The authority may collect these amounts in accordance with the district fiscal year, as described in RCW 28A.505.030.

(c) If the authority determines at any time that the conditions in (b) of this subsection cannot be met, the authority shall offer enrollment to additional groups of district employees on a tiered rate structure until such time as the authority determines there would be no material difference between revenues and expenditures under a composite rate structure for all district employees enrolled in authority plans.

(d) The authority may charge districts a one-time set-up fee for employee groups enrolling in authority plans for the first time.

(e) For the purposes of this subsection:

(i) "District" means school district and educational service district; and

(ii) "Tiered rates" means the amounts the authority must pay to insuring entities by plan and by family size.

(f) Notwithstanding this subsection and RCW 41.05.065(4), the authority may allow districts enrolled on a tiered rate structure prior to September 1, 2002, to continue participation based on the

same rate structure and under the same conditions and eligibility criteria.

(5) The authority shall transmit a recommendation for the amount of the employer contribution to the governor and the director of financial management for inclusion in the proposed budgets submitted to the legislature."

Sec. 305. RCW 28A.660.050 and 2015 1st sp.s. c 3 s 4 are each amended to read as follows:

Subject to the availability of amounts appropriated for these purposes, the conditional scholarship programs in this chapter are created under the following guidelines:

(1) The programs shall be administered by the student achievement council. In administering the programs, the council has the following powers and duties:

(a) To adopt necessary rules and develop guidelines to administer the programs;

(b) To collect and manage repayments from participants who do not meet their service obligations; and

(c) To accept grants and donations from public and private sources for the programs.

(2) Requirements for participation in the conditional scholarship programs are as provided in this subsection (2).

(a) The alternative route conditional scholarship program is limited to interns of professional educator standards board-approved

alternative routes to teaching programs under RCW 28A.660.040. For fiscal year 2011, priority must be given to fiscal year 2010 participants in the alternative route partnership program. In order to receive conditional scholarship awards, recipients shall:

(iii) Receive no more than the annual amount of the scholarship, not to exceed eight thousand dollars, for the cost of tuition, fees, and educational expenses, including books, supplies, and transportation for the alternative route certification program in which the recipient is enrolled. The council may adjust the annual award by the average rate of resident undergraduate tuition and fee increases at the state universities as defined in RCW 28B.10.016.

(b) The pipeline for paraeducators conditional scholarship program is limited to qualified paraeducators as provided by RCW 28A.660.042. In order to receive conditional scholarship awards, recipients shall:

The student achievement council may adjust the annual award by the average rate of tuition and fee increases at the state community and technical colleges.

(c) The educator retooling conditional scholarship program is limited to current K-12 teachers. In order to receive conditional scholarship awards:

(i) Individuals currently employed as teachers shall pursue an endorsement in a subject or geographic endorsement shortage area, as defined by the professional educator standards board, including but not limited to, mathematics, science, special education, bilingual education, English language learner, computer science education, or environmental and sustainability education; or

(ii) Individuals who are certificated with an elementary education endorsement shall pursue an endorsement in a subject or geographic endorsement shortage area, as defined by the professional educator standards board, including but not limited to, mathematics, science, special education, bilingual education, English language learner, computer science education, or environmental and sustainability education; and

(iv) Individuals shall receive no more than the annual amount of the scholarship, not to exceed three thousand dollars, for the cost of tuition, test fees, and educational expenses, including books, supplies, and transportation for the endorsement pathway being pursued.

(3) The Washington professional educator standards board shall select individuals to receive conditional scholarships. In selecting recipients, preference shall be given to eligible veterans or national guard members. In awarding conditional scholarships to support additional bilingual education or English language learner endorsements, the board shall also give preference to teachers assigned to schools required under state or federal accountability measures to implement a plan for improvement, and to teachers assigned to schools whose enrollment of English language learner students has increased an average of more than five percent per year over the previous three years.

(4) For the purpose of this chapter, a conditional scholarship is a loan that is forgiven in whole or in part in exchange for service as a certificated teacher employed in a Washington state K-12 public school. The state shall forgive one year of loan obligation for every two years a recipient teaches in a public school. Recipients who fail to continue a course of study leading to residency teacher certification or cease to teach in a public school in the state of Washington in their endorsement area are required to repay the remaining loan principal with interest.

(5) Recipients who fail to fulfill the required teaching obligation are required to repay the remaining loan principal with interest and any other applicable fees. The student achievement council shall adopt rules to define the terms for repayment, including applicable interest rates, fees, and deferments.

(6) The student achievement council may deposit all appropriations, collections, and any other funds received for the program in this chapter in the future teachers conditional scholarship account authorized in RCW 28B.102.080."

"NEW SECTION. Sec. 306. For the purpose of providing funds to finance the projects described and authorized by the legislature in the omnibus capital and operating appropriations acts for the 2015-2017 fiscal biennium, and all costs incidental thereto, the state finance committee is authorized to issue general obligation bonds of the state of Washington in the sum of two billion three hundred thirty-two million four hundred fifty-six thousand dollars, or as much thereof as may be required, to finance these projects and all costs incidental thereto. Bonds authorized in this section may be sold at such price as the state finance committee shall determine. No bonds authorized in this section may be offered for sale without prior legislative appropriation of the net proceeds of the sale of the bonds.

NEW SECTION. Sec. 307. (1) The proceeds from the sale of bonds authorized in section 1 of this act shall be deposited in the state building construction account created by RCW 43.83.020. The proceeds shall be transferred as follows:

(a) Two billion one hundred eighty-five million five hundred sixty-two thousand dollars to remain in the state building construction account created by RCW 43.83.020;

(b) One hundred twenty-three million eight hundred thousand dollars to the state taxable building construction account. All receipts from taxable bonds issued are to be deposited into the account. If the state finance committee deems it necessary or advantageous to issue more than the amount specified in this subsection (1)(b) as taxable bonds in order to comply with federal internal revenue service rules and regulations pertaining to the use of nontaxable bond proceeds or in order to reduce the total financing costs for bonds issued, the proceeds of such additional taxable bonds shall be transferred to the state taxable building construction account in lieu of any transfer otherwise provided by this section. If the state finance committee determines that a portion of the amount specified in this subsection (1)(b) as taxable bonds may be issued as nontaxable bonds in compliance with federal internal revenue

service rules and regulations pertaining to the use of nontaxable bond proceeds, then such bond proceeds shall be transferred to the state building construction account in lieu of the transfer to the state taxable building construction account otherwise provided by this subsection (1)(b). The state treasurer shall submit written notice to the director of financial management if it is determined that any such additional transfer to the state taxable building construction account is necessary or that a transfer from the state taxable building construction account to the state building construction account may be made. Moneys in the account may be spent only after appropriation.

(c) The treasurer shall transfer bond proceeds deposited in the state building construction account into the outdoor recreation account created by RCW 79A.25.060, the habitat conservation account created by RCW 79A.15.020, the riparian protection account created by RCW 79A.15.120, and the farmlands preservation account created by RCW 79A.15.130 at various times and in various amounts necessary to support authorized expenditures from those accounts.

(2) These proceeds shall be used exclusively for the purposes specified in this section and for the payment of expenses incurred in the issuance and sale of the bonds issued for the purposes of this section, and shall be administered by the office of financial management subject to legislative appropriation.

NEW SECTION. Sec. 308. (1) The debt-limit general fund bond retirement account shall be used for the payment of the principal of and interest on the bonds authorized in section 2(1) (a) through (c) of this act.

(2) The state finance committee shall, on or before June 30th of each year, certify to the state treasurer the amount needed in the ensuing twelve months to meet the bond retirement and interest requirements on the bonds authorized in section 2(1) (a) through (c) of this act.

(3) On each date on which any interest or principal and interest payment is due on bonds issued for the purposes of section 2(1) (a) through (c) of this act the state treasurer shall withdraw from any general state revenues received in the state treasury and deposit in the debt-limit general fund bond retirement account an amount equal to the amount certified by the state finance committee to be due on the payment date.

NEW SECTION. Sec. 309. (1) Bonds issued under sections 1 through 3 of this act shall state that they are a general obligation of the state of Washington, shall pledge the full faith and credit of the state to the payment of the principal thereof and the interest thereon, and shall contain an unconditional promise to pay the principal and interest as the same shall become due.

(2) The owner and holder of each of the bonds or the trustee for the owner and holder of any of the bonds may by mandamus or other appropriate proceeding require the transfer and payment of funds as directed in this section.

NEW SECTION. Sec. 310. The legislature may provide additional means for raising moneys for the payment of the principal of and interest on the bonds authorized in section 1 of this act, and sections 2 and 3 of this act shall not be deemed to provide an exclusive method for the payment.

NEW SECTION. Sec. 311. Sections 1 through 5 of this act constitute a new chapter in Title 43 RCW.

NEW SECTION. Sec. 312. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected.

NEW SECTION. Sec. 313. This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect immediately."

Concerning the capital budget.

Representative Dunshee moved the adoption of amendment (582):

FORMATTING CHANGED TO ACCOMMODATE TEXT

Strike everything after the enacting clause and insert the following:

NEW SECTION. Sec. 314. (1) A capital budget is hereby adopted and, subject to the provisions set forth in this act, the several dollar amounts hereinafter specified, or so much thereof as shall be sufficient to accomplish the purposes designated, are hereby appropriated and authorized to be incurred for capital projects during the period beginning with the effective date of this act and ending June 30, 2017, out of the several funds specified in this act.

(2) The definitions in this subsection apply throughout this act unless the context clearly requires otherwise.

(a) "Fiscal year 2016" or "FY 2016" means the period beginning July 1, 2015, and ending June 30, 2016.

(b) "Fiscal year 2017" or "FY 2017" means the period beginning July 1, 2016, and ending June 30, 2017.

(c) "Lapse" or "revert" means the amount shall return to an unappropriated status.

(d) "Provided solely" means the specified amount may be spent only for the specified purpose.

(3) Unless otherwise specifically authorized in this act, any portion of an amount provided solely for a specified purpose that is not expended subject to the specified conditions and limitations to fulfill the specified purpose shall lapse.

(4) The amounts shown under the headings "Prior Biennia," "Future Biennia," and "Total" in this act are for informational purposes only and do not constitute legislative approval of these amounts. "Prior biennia" typically refers to the immediate prior biennium for reappropriations, but may refer to multiple biennia in the case of specific projects. A "future biennia" amount is an estimate of what may be appropriated for the project or program in the 2017-2019 biennium and the following three biennia; an amount of zero does not necessarily constitute legislative intent to not provide funding for the project or program in the future.

(5) "Reappropriations" in this act are appropriations and, unless the context clearly provides otherwise, are subject to the relevant conditions and limitations applicable to appropriations. Reappropriations shall be limited to the unexpended balances remaining on June 30, 2015, from the 2013-2015 biennial appropriations for each project.

Clean Energy and Energy Freedom Program (30000726)

The appropriations in this section are subject to the following conditions and limitations:

(1) The appropriations are provided solely for projects that provide a benefit to the public through development, demonstration, and deployment of clean energy technologies that save energy and reduce energy costs, reduce harmful air emissions or otherwise increase energy independence for the state.

(2) In soliciting and evaluating proposals, awarding contracts, and monitoring projects under this section, the department must:

- (a) Ensure that competitive bidding processes, rather than sole source contracting processes, are used to select all projects;
- (b) Require that all expenditures be used for projects that develop and acquire asset that have a useful life of at least thirteen years; and
- (c) Conduct due diligence activities associated with the use of public funds including, but not limited to, oversight of the project selection process, project monitoring and ensuring that all applications and contracts fully comply with all applicable laws including disclosure and conflict of interest statutes.

(3)(a) Pursuant to chapter 42.52 RCW, the ethics in public service act, the department must require an applicant to identify in application materials any state of Washington employees or former state employees employed or on the firm's governing board during the past twenty-four months. Application materials must identify the individual by name, the agency previously or currently employed by, job title or position held, and separation date. If it is determined by the department that a conflict of interest exists, the applicant may be disqualified from further consideration for award of a contract.

(b) If the department finds, after due notice and examination, that there is a violation of chapter 42.52 RCW, or any similar statute involving a contractor either in procuring or performing under the contract, the department in its sole discretion may terminate the contract by written notice. If the contract is terminated, the department must be entitled to pursue the same remedies against the contractor as it could pursue in the event of a breach of the contract by the contractor.

(4) The requirements in subsections (2) and (3) of this section must be specified in funding agreements issued by the department.

(5) The department may not obligate or expend any of the amounts provided in this section on new projects that involve the Snohomish county public utilities district or its subcontractors until the executive ethics board responds to the department's June 17, 2015, request for an advisory opinion on poststate employment.

(6)(a) \$10,000,000 of the state taxable building construction account is provided solely to create a revolving loan fund to support the widespread use of proven energy efficiency and renewable energy technologies now inhibited by lack of access to capital.

(b) The department shall provide grant funds to one or more competitively selected nonprofit lenders that will provide matching private capital and will administer the loan fund. The department must select the loan fund administrator or administrators through a competitive process, with scoring conducted by a group of qualified experts, applying criteria specified by the department.

(c) The department must establish guidelines that specify applicant eligibility, the screening process, and evaluation and selection criteria. The guidelines must be used by the nonprofit lenders.

(d) Loan applications must disclose all sources of public funds invested in the project. The nonprofit lender must make loans available to the following types of projects that include, but are not limited to: Residential, commercial, industrial, and agricultural energy retrofits, residential and community-scale solar installations, anaerobic digesters to treat dairy and organic waste, and combined heat and power projects using woody biomass as a fuel source.

(e) State funds may not exceed fifty percent of the estimated cost of a project, and funding preference must be provided to projects that offer a higher percentage of nonstate match funds.

(7) \$6,600,000 of the state taxable building construction account is provided solely for credit enhancements of advanced solar and renewable energy manufacturing within Washington state. The department shall develop an application process to competitively select projects.

(8)(a) \$13,000,000 of the state building construction account is provided solely for grants to advance clean and renewable energy technologies and advance transmission and distribution control system improvements for increased reliability, resiliency, and enabling integration of distributed and renewable resources and technology by public and private electrical utilities that serve retail customers in the state. Eligible utilities may partner with other public and private sector research organizations and businesses in applying for funding.

(b) The department shall develop a grant application process to competitively select projects for grant awards, to include scoring conducted by a group of qualified experts with application of criteria specified by the department. In development of the application criteria, the department shall, to the extent possible, allow smaller utilities or consortia of small utilities to apply for funding.

(c) The department shall convene an advisory panel of electric utility representatives to identify program objectives, near term priorities and long term goals.

(d) Applications for grants must disclose all sources of public funds invested in a project.

(e) Grant funds must be used for research, development, or demonstration projects that integrate intermittent renewables through energy storage, information technology or other smart grid technologies, dispatch energy storage resources from utility control rooms, use demand response, transactive control, or the thermal properties and electric load of commercial buildings and district energy systems to store energy, reduce transmission congestion or otherwise improve system reliability and resiliency and enable integration of distributed and renewable energy sources.

(9)(a) \$10,000,000 of the state building construction account is provided solely for grants to match federal funds or other nonstate funding sources used to research, develop, and demonstrate clean energy technologies.

(b) The department shall consult with the University of Washington, Washington State University, the Pacific Northwest national laboratory and other clean energy organizations to design the program. The program shall offer matching funds for competitively selected clean energy projects including, but not limited to: Advancing energy storage and solar technologies, advancing bioenergy, developing new lightweight materials, and advancing renewable energy and energy efficiency technologies.

(10) \$400,000 of the state building construction account—state is provided solely for capital funding of competitively selected wood energy conversion projects at public facilities.

(11) The department must report on number and results of projects that receive grants or loans through the clean energy fund, including the number of job hours created and the number of jobs maintained and created, to the governor and the legislature, by November 1, 2016.

(12) The department shall develop metrics that indicate the performance of energy efficiency efforts and provide a report of the metrics, including at a minimum the current energy used by the building, the energy use after efficiencies are completed, and cost of energy saved, to the house of representatives technology & economic development committee and the senate energy, environment & telecommunications committee. - (a) Whether the proposed design has demonstrated that the project will achieve net-zero energy use when fully occupied;
- (b) The life-cycle cost of the project;
- (c) That the project demonstrates a design, use of materials, and construction process that can be replicated by the Washington building industry;
- (d) The extent to which the project leverages nonstate funds;
- (e) The extent to which the project is ready to proceed to construction;

- (f) Whether the project promotes sustainable use of resources and environmental quality;

Energy Efficiency and Solar Grants (30000835)

The appropriation in this section is subject to the following conditions and limitations:

(1)(a) \$8,000,000 for fiscal year 2016 and \$8,000,000 for fiscal year 2017 is provided solely for grants to be awarded in competitive rounds to local agencies, public higher education institutions, school districts, and state agencies for operational cost savings improvements to facilities and related projects that result in energy and operational cost savings.

(b) At least ten percent of each competitive grant round must be awarded to small cities or towns with a population of five thousand or fewer residents.

(c) In each competitive round, the higher the leverage ratio of nonstate funding sources to state grant and the higher the energy savings, the higher the project ranking.

(d) For school district applicants, priority consideration must be given to school districts that demonstrate improved health and safety through (i) reduced exposure to polychlorinated biphenyl; or (ii) replacing outdated heating systems that use oil or propane as fuel sources as identified by the Washington State University extension energy program; (iii) prior grant award: Priority consideration must be given to applicants that did not receive grant awards from appropriations provided in section 5023, chapter 19, Laws of 2013 2nd sp. sess.

(2) \$5,775,000 is provided solely for grants to be awarded in competitive rounds to local agencies, public higher education institutions, school districts, and state agencies for projects that involve the purchase and installation of solar energy systems, including solar modules and inverters, with a preference for Washington-manufactured products.

(3) \$3,000,000 is provided solely for energy efficiency improvements to minor works and stand-alone projects at state-owned facilities that repair or replace existing building systems including but not limited to HVAC, lighting, insulation, windows, and other mechanical systems. Eligibility for this funding is dependent on an analysis using the office of financial management's life-cycle cost tool that compares project design alternatives for initial and long-term cost-effectiveness. Assuming a reasonable return on investment, the cost to improve the project's energy efficiency compared to the original project request will be added to the project appropriation after construction bids are received. The department of commerce shall coordinate with the office of financial management to develop a process for project submittal, review, approval criteria, tracking project budget adjustments, and performance measures.

(4) \$225,000 is provided solely for resource conservation managers in the department of enterprise services to coordinate with state agencies and school districts to assess and adjust existing building systems and operations to optimize the efficiency in use of energy and other resources in state-owned facilities. The department of commerce will oversee an interagency agreement with the department of enterprise services to fund the resource conservation managers.

(5) The department shall develop metrics that indicate the performance of energy efficiency efforts and provide a report of the metrics, including at a minimum the current energy used by the building, the energy use after efficiencies are completed, and cost of energy saved, to the house of representatives technology & economic development committee and the senate energy, environment & telecommunications committee. Local and Community Projects 2016 (92000369)

The appropriation in this section is subject to the following conditions and limitations:

(1) Except as directed otherwise prior to the effective date of this section, the department may not expend the appropriation in this section unless and until the nonstate share of project costs have been either expended, or firmly committed, or both, in an amount sufficient to complete the project or a distinct phase of the project that is useable to the public for the purpose intended by the legislature. This requirement does not apply to projects where a share of the appropriation is released for design costs only.
