**PART II

Sec. 201. 2023 c 475 s 201 (uncodified) is amended to read as follows:

FOR THE DEPARTMENT OF SOCIAL AND HEALTH SERVICES

(1) The appropriations to the department of social and health services in this act shall be expended for the programs and in the amounts specified in this act. Appropriations made in this act to the department of social and health services shall initially be allotted as required by this act. Subsequent allotment modifications shall not include transfers of moneys between sections of this act except as expressly provided in this act, nor shall allotment modifications permit moneys that are provided solely for a specified purpose to be used for other than that purpose.

(2) The department of social and health services shall not initiate any services that require expenditure of state general fund moneys unless expressly authorized in this act or other law. The department may seek, receive, and spend, under RCW 43.79.260 through 43.79.282, federal moneys not anticipated in this act as long as the federal funding does not

require expenditure of state moneys for the program in excess of amounts anticipated in this act. If the department receives unanticipated unrestricted federal moneys, those moneys shall be spent for services authorized in this act or in any other legislation providing appropriation authority, and an equal amount of appropriated state general fund moneys shall lapse. Upon the lapsing of any moneys under this subsection, the office of financial management shall notify the legislative fiscal committees. As used in this subsection, "unrestricted federal moneys" includes block grants and other funds that federal law does not require to be spent on specifically defined projects or matched on a formula basis by state funds.

(3) The legislature finds that medicaid payment rates, as calculated by the department pursuant to the appropriations in this act, bear a reasonable relationship to the costs incurred by efficiently and economically operated facilities for providing quality services and will be sufficient to enlist enough providers so that care and services are available to the extent that such care and services are available to the general population in the geographic area. The legislature finds that cost reports, payment data from the federal government, historical utilization, economic data, and clinical input constitute reliable data upon which to determine the payment rates.

(4) The department shall to the maximum extent practicable use the same system for delivery of spoken-language interpreter services for social services appointments as the one established for medical appointments in the health care authority. When contracting directly with an individual to deliver spoken language interpreter services, the department shall only contract with language access providers who are working at a location in the state and who are state-certified or state-authorized, except that when such a provider is not available, the department may use a language access provider who meets other certifications or standards deemed to meet state standards, including interpreters in other states.

(5) Information technology projects or investments and proposed projects or investments impacting time capture, payroll and payment processes and systems, eligibility, case management, and authorization systems within the department of social and health services are subject to technical oversight by the office of the chief information officer.

(6)(a) The department shall facilitate enrollment under the medicaid expansion for clients applying for or receiving state funded services from the department and its contractors. Prior to open enrollment, the department shall coordinate with the health care authority to provide referrals to the Washington health benefit exchange for clients that will be ineligible for medicaid.

(b) To facilitate a single point of entry across public and medical assistance programs, and to maximize the use of federal funding, the health care authority, the department of social and health services, and the health benefit exchange will coordinate efforts to expand HealthPlanfinder access to public assistance and medical eligibility staff. The department shall complete medicaid applications in the HealthPlanfinder for households receiving or applying for public assistance benefits.

(7) The health care authority, the health benefit exchange, the department of social and health services, the department of health, the department of corrections, and the department of children, youth, and families shall work together within existing resources to establish the health and human services enterprise coalition (the coalition). The coalition, led by the health care authority, must be a multi-organization collaborative that provides strategic direction and federal funding guidance for projects that have cross-organizational or enterprise impact, including information technology projects that affect organizations within the coalition. The office of the chief information officer shall maintain a statewide perspective when collaborating with the coalition to ensure that projects are planned for in a manner that ensures the efficient use of state resources, support the adoption of a cohesive technology and data architecture, and maximize federal financial participation. The work of the coalition is subject to the conditions, limitations, and review provided in section 701 of this act.

(8)(a) The appropriations to the department of social and health services in this act must be expended for the programs and in the amounts specified in this act. However, after May 1, 2024, unless prohibited by this act, the department may transfer general fund—state appropriations for fiscal year 2024 among programs and subprograms after approval by the director of the office of financial management. However, the department may not transfer state appropriations that are provided solely for a specified purpose except as expressly provided in (b) of this subsection.

(b) To the extent that transfers under (a) of this subsection are insufficient to fund actual expenditures in excess of fiscal year 2024 caseload forecasts and utilization assumptions in the long-term care, developmental disabilities, and public assistance programs, the department may transfer state appropriations that are provided solely for a specified purpose. The department may not transfer funds, and the director of the office of financial management may not approve the transfer, unless the transfer is consistent with the objective of conserving, to the maximum extent possible, the expenditure of state funds. The director of the office of financial management shall notify the appropriate fiscal committees of the legislature in writing seven days prior to approving any allotment modifications or transfers under this subsection. The written notification shall include a narrative explanation and justification of the changes, along with expenditures and allotments by budget unit and appropriation, both before and after any allotment modifications or transfers.

(9) The department may not transfer appropriations for the developmental disabilities program to any other program of the department of social and health services, or between subprograms of the developmental disabilities program itself.

If the health care authority receives unanticipated unrestricted federal moneys, those moneys shall be spent for services authorized in this act or in any other legislation providing appropriation authority, and an equal amount of appropriated state general fund moneys shall lapse. Upon the lapsing of any moneys under this subsection, the office of financial management shall notify the legislative fiscal committees. (3) (a) The health care authority, the health benefit exchange, the department of social and health services, the department of health, the department of corrections, and the department of children, youth, and families shall work together within existing resources to establish the health and human services enterprise coalition (the coalition). The office of the chief information officer shall maintain a statewide perspective when collaborating with the coalition to ensure that projects are planned for in a manner that ensures the efficient use of state resources, supports the adoption of a cohesive technology and data architecture, and maximizes federal financial participation. The work of the coalition and any project identified as a coalition project is subject to the conditions, limitations, and review provided in section 701 of this act.

(b) The health care authority must submit a report on November 1, 2023, and annually thereafter, to the fiscal committees of the legislature. The report must include, at a minimum:

For each project, the report must include which federal requirements each coalition project is working to satisfy, and when each project is anticipated to satisfy those requirements; and

The director of the office of financial management shall notify the appropriate fiscal committees of the legislature in writing seven days prior to approving any allotment modifications or transfers under this subsection. The written notification must include a narrative explanation and justification of changes, along with expenditures and allotments by budget unit and appropriation, both before and after any allotment modifications and transfers.

The patient must be considered first and foremost in the implementation and execution of the demonstration waiver. To accomplish these goals, the authority shall develop consistent performance measures that focus on population health and health outcomes. The authority shall limit the number of projects that accountable communities of health may participate in under initiative 1 to a maximum of six and shall seek to develop common performance measures when possible. The joint select committee on health care oversight will evaluate the measures chosen: (a) For effectiveness and appropriateness; and (b) to provide patients and health care providers with significant input into the implementation of the demonstration waiver to promote improved population health and patient health outcomes. In cooperation with the department of social and health services, the authority shall consult with and provide notification of work on applications for federal waivers, including details on waiver duration, financial implications, and potential future impacts on the state budget to the joint select committee on health care oversight prior to submitting these waivers for federal approval. Prior to final approval or acceptance of funds by the authority, the authority shall submit the special terms and conditions as submitted to the centers for medicare and medicaid services and the anticipated budget for the duration of the renewed waiver to the governor, the joint select committee on health care, and the fiscal committees of the legislature. By federal standard any programs created or funded by this waiver do not create an entitlement. The demonstration period for the waiver as described in subsections (2), (3), and (4) of this section begins July 1, 2023.

(2) (a) ((~~\$150,219,000~~)) \$342,398,000 of the general fund—federal appropriation and ((~~\$150,219,000~~)) \$213,592,000 of the general fund—local appropriation are provided solely for accountable communities of health described in initiative 1 of the 1115 demonstration waiver and this is the maximum amount that may be expended for this purpose. To provide transparency to the appropriate fiscal committees of the legislature, the authority shall provide fiscal staff of the legislature query ability into any database of the fiscal intermediary that authority staff would be authorized to access. The authority shall not supplement the amounts provided in this subsection with any general fund—state moneys appropriated in this section or any moneys that may be transferred pursuant to subsection (1) of this section. The authority may provide medicaid quality improvement program payments to apple health managed care organizations and their partnering providers as they meet designated milestones. Partnering providers and apple health managed care organizations must work together to achieve medicaid quality improvement program goals according to the performance period timelines and reporting deadlines as set forth by the authority. The authority may only use the medicaid quality improvement program to support initiatives 1, 2,

and 3 as described in the 1115 demonstration waiver and may not pursue its use for other purposes. Any programs created or funded by the medicaid quality improvement program do not constitute an entitlement for clients or providers. The authority shall not supplement the amounts provided in this subsection with any general fund—state, general fund—federal, or general fund—local moneys appropriated in this section or any moneys that may be transferred pursuant to subsection (1) of this section. The director shall report to the joint select committee on health care oversight not less than quarterly on financial and health outcomes. (4) (a) ~~(((\$54,912,000))~~ \$46,450,000 of the general fund—federal appropriation and ~~(((\$30,162,000))~~ \$21,432,000 of the general fund—local appropriation are provided solely for supported housing and employment services described in initiative 3a and 3b of the 1115 demonstration waiver and this is the maximum amount that may be expended for this purpose. Under this initiative, the authority and the department of social and health services shall ensure that allowable and necessary services are provided to eligible clients as identified by the department or its third-party administrator. The authority and the department, in consultation with the medical assistance expenditure forecast work group, shall ensure that reasonable reimbursements are established for services deemed necessary within an identified limit per individual. The authority shall not supplement the amounts provided in this subsection with any general fund—state moneys appropriated in this section or any moneys that may be transferred pursuant to subsection (1) of this section. The director shall report to the joint select committee on health care oversight no less than quarterly on financial and health outcomes. The director shall also report to the fiscal committees of the legislature all of the expenditures of this subsection and shall provide such fiscal data in the time, manner, and form requested by the legislative fiscal committees.

(b) ~~((The authority and the department shall seek))~~ \$28,156,000 of the general fund—federal appropriation and \$22,067,000 of the general fund—local appropriation are provided solely for additional ((flexibilities for)) housing supports ((through the centers for medicare and medicaid services and shall coordinate with the office of financial management and the department of commerce to ensure that services are not duplicated)) described in the 1115 demonstration waiver and this is the maximum amount that may be expended for this purpose. The authority shall not supplement the amounts provided in this subsection with any general fund—state moneys appropriated in this section or any moneys that may be transferred pursuant to subsection (1) of this section. The director shall report to the joint select committee on health care oversight no less than quarterly on financial and health outcomes. The director shall also report to the fiscal committees of the legislature all of the expenditures of this subsection and shall provide such fiscal data in the time, manner, and form requested by the legislative fiscal committees.

(c) The director shall report to the joint select committee on health care oversight no less than quarterly on utilization and caseload statistics for both supportive housing and employment services and its progress toward increasing uptake and availability for these services.

(5) \$1,432,000 of the general fund—state appropriation for fiscal year 2024 and \$3,008,000 of the general fund—state appropriation for fiscal year 2025 are provided solely for supported employment services and \$1,478,000 of the general fund—state appropriation for fiscal year 2024 and \$3,162,000 of the general fund—state appropriation for fiscal year 2025 are provided solely for supported housing services, similar to the services described in initiatives 3a and 3b of the 1115 demonstration waiver to individuals who are ineligible for medicaid. Under these initiatives, the authority and the department of social and health services shall ensure that allowable and necessary services are provided to eligible clients as identified by the authority or its third-party administrator. Before authorizing services,

eligibility for initiative 3a or 3b of the 1115 demonstration waiver must first be determined.

(6) Sufficient amounts are appropriated in this subsection to implement the medicaid expansion as defined in the social security act, section 1902(a)(10)(A)(i)(VIII).

(7) The legislature finds that medicaid payment rates, as calculated by the health care authority pursuant to the appropriations in this act, bear a reasonable relationship to the costs incurred by efficiently and economically operated facilities for providing quality services and will be sufficient to enlist enough providers so that care and services are available to the extent that such care and services are available to the general population in the geographic area. The legislature finds that the cost reports, payment data from the federal government, historical utilization, economic data, and clinical input constitute reliable data upon which to determine the payment rates.

(8) Based on quarterly expenditure reports and caseload forecasts, if the health care authority estimates that expenditures for the medical assistance program will exceed the appropriations, the health care authority shall take steps including but not limited to reduction of rates or elimination of optional services to reduce expenditures so that total program costs do not exceed the annual appropriation authority.

(9) In determining financial eligibility for medicaid-funded services, the health care authority is authorized to disregard recoveries by Holocaust survivors of insurance proceeds or other assets, as defined in RCW 48.104.030.

(10) The legislature affirms that it is in the state's interest for Harborview medical center to remain an economically viable component of the state's health care system.

(12) (~~(\$4,176,000)~~) \$4,261,000 of the general fund—state appropriation for fiscal year 2024, \$4,261,000 of the general fund—state appropriation for fiscal year 2025, and (~~(\$8,607,000)~~) \$8,522,000 of the general fund—federal appropriation are provided solely for low-income disproportionate share hospital payments.

(13) Within the amounts appropriated in this section, the health care authority shall provide disproportionate share hospital payments to hospitals that provide services to children in the children's health program who are not eligible for services under Title XIX or XXI of the federal social security act due to their citizenship status.

(14) \$7,000,000 of the general fund—federal appropriation is provided solely for supplemental payments to nursing homes operated by public hospital districts. The public hospital district shall be responsible for providing the required nonfederal match for the supplemental payment, and the payments shall not exceed the maximum allowable under federal rules. It is the legislature's intent that the payments shall be supplemental to and shall not in any way offset or reduce the payments calculated and provided in accordance with part E of chapter 74.46 RCW. It is the legislature's further intent that costs otherwise allowable for rate-setting and settlement against payments under chapter 74.46 RCW shall not be disallowed solely because such costs have been paid by revenues retained by the nursing home from these supplemental payments. The supplemental payments are subject to retrospective interim and final cost settlements based on the nursing homes' as-filed and final medicare cost reports. The timing of the interim and final cost settlements shall be at the health care authority's discretion. During either the interim cost settlement or the final cost settlement, the health care authority shall recoup from the public hospital districts the supplemental payments that exceed the medicaid cost limit and/or the medicare upper payment limit. The health care authority shall apply federal rules for identifying the eligible incurred medicaid costs and the medicare upper payment limit.

The health care authority shall submit reports to the governor and legislature by November 1, 2023, and by November 1, 2024, that evaluate whether savings continue to exceed costs for this program. If the certified public expenditures (CPE) program in its current form is no longer cost-effective to maintain, the health care authority shall submit a report to the governor and legislature detailing cost-effective alternative uses of local, state, and federal resources as a replacement for this program. During fiscal year 2024 and fiscal year 2025, hospitals in the program shall be paid and shall retain 100 percent of the federal portion of the allowable hospital cost for each medicaid inpatient fee-for-service claim payable by medical assistance and 100 percent of the federal portion of the maximum disproportionate share hospital payment allowable under federal regulations. For the purpose of determining the amount of any state grant under this subsection, payments will include the federal portion of medicaid program supplemental payments received by the hospitals. Inpatient medicaid payments shall be established using an allowable methodology that approximates the cost of claims submitted by the hospitals. Payments made to each hospital in the program in each fiscal year of the biennium shall be compared to a baseline amount. The baseline amount will be determined by the total of (a) the inpatient claim payment amounts that would have been paid during the fiscal year had the hospital not been in the CPE program based on the reimbursement rates developed, implemented, and consistent with policies approved in the 2023-2025 biennial operating appropriations act and in effect on July 1, 2015, (b) one-half of the indigent assistance disproportionate share hospital payment amounts paid to and retained by each

hospital during fiscal year 2005, and (c) all of the other disproportionate share hospital payment amounts paid to and retained by each hospital during fiscal year 2005 to the extent the same disproportionate share hospital programs exist in the 2019-2021 fiscal biennium. If payments during the fiscal year exceed the hospital's baseline amount, no additional payments will be made to the hospital except the federal portion of allowable disproportionate share hospital payments for which the hospital can certify allowable match. If payments during the fiscal year are less than the baseline amount, the hospital will be paid a state grant equal to the difference between payments during the fiscal year and the applicable baseline amount. Payment of the state grant shall be made in the applicable fiscal year and distributed in monthly payments. The grants will be recalculated and redistributed as the baseline is updated during the fiscal year. The grant payments are subject to an interim settlement within 11 months after the end of the fiscal year. A final settlement shall be performed. To the extent that either settlement determines that a hospital has received funds in excess of what it would have received as described in this subsection, the hospital must repay the excess amounts to the state when requested. (~~(\$237,000 of the general fund state appropriation for fiscal year 2024 and \$218,000 of the general fund state appropriation for fiscal year 2025 are provided solely for state grants for the participating hospitals.)~~)

The application shall be developed to allow for the delivery of wraparound supportive behavioral health services for

(13)(a) The authority must establish minimum and maximum funding levels for all reserves allowed under behavioral health administrative service organization contracts and include contract language that clearly states the requirements and limitations. The reserve levels must be informed by the types of risk carried by behavioral health administrative service organizations for mandatory services and also consider reasonable levels of operating reserves. The authority must monitor and ensure that behavioral health administrative service organization reserves do not exceed maximum levels. The authority must monitor revenue and expenditure reports and must require a behavioral health administrative service organization to submit a corrective action plan on how it will spend its excess reserves within a reasonable period of time, when its reported reserves exceed maximum levels established under the contract. The authority must review and approve such plans and monitor to ensure compliance. If the authority determines that a behavioral health administrative service organization has failed to provide an adequate excess reserve corrective action plan or is not complying with an approved plan, the authority must reduce payments to the entity in accordance with remedial actions provisions included in the contract. The assessment must consider available data to determine to what extent the costs of crisis and co-response services for clients of private insurance carriers, medicaid managed care organizations, and individuals enrolled in medicaid fee-for-service are being subsidized through state funded behavioral health administrative services organization contracts. The analysis shall examine crisis and co-response services provided by mobile crisis teams and co-response teams as well as facility-based services such as crisis triage and crisis stabilization units. **PART VII
SPECIAL APPROPRIATIONS**

Sec. 701. 2023 c 475 s 701 (uncodified) is amended to read as follows:

FOR THE OFFICE OF FINANCIAL MANAGEMENT—INFORMATION TECHNOLOGY INVESTMENT POOL

General Fund—State Appropriation (FY 2024)	\$26,470,000
General Fund—State Appropriation (FY 2025)	(\$9,022,000))
		\$12,356,000
Other Appropriated Funds	(\$6,559,000))
		\$18,198,000
TOTAL APPROPRIATION	(\$42,051,000))
		\$57,024,000

The appropriations in this section are subject to the following conditions and limitations:

(1) The appropriations are provided solely for expenditure into the information technology investment revolving account created in RCW 43.41.433. Amounts in the account are provided solely for the information technology projects shown in LEAP omnibus documents IT-2023, dated April 22, 2023, and IT-2024, dated March 4, 2024, which ~~((is))~~are hereby incorporated by reference. To facilitate the transfer of moneys from other funds and accounts that are associated with projects contained in LEAP omnibus documents IT-2023, dated April 22, 2023, and IT-2024, dated March 4, 2024, the state treasurer is directed to transfer moneys from other funds and accounts to the information technology investment revolving account in accordance with schedules provided by the office of financial management. Restricted federal funds may be transferred only to the extent permitted by law, and will otherwise remain outside the information technology investment account. The projects affected remain subject to the other provisions of this section.

(2) Agencies must apply to the office of the chief information officer for certification and release of funding for each gate of the project. When the office of the chief information officer certifies the key deliverables of the gate have been met, a current technology budget is approved; and if applicable to the stage or gate of the project, that the project is putting functioning software into production that addresses user needs, is in compliance with the quality assurance plan, and meets a defined set of industry best practices for code quality that the office of the chief information officer will post to their website by July 1, 2023, it must notify the office of financial management and the fiscal committees of the legislature. The office of financial management may not approve funding for the certified project gate any earlier than ten business days from the date of notification to the fiscal committees of the legislature.

(3) (a) Allocations and allotments of information technology investment revolving account must be made for discrete stages of projects as determined by the technology budget approved by the office of the chief information officer and the office of financial management.

(b) Fifteen percent of total funding allocated by the office of financial management, or another amount as defined jointly by the office of financial management and the office of the chief information officer, will be retained in the account, but remain allocated to that project. The retained funding will be released to the agency only after successful completion of that stage of the project and only after the office of the chief information officer certifies the stage as required in subsection (2) of this section. For the one Washington project, the amount retained is increased to at least twenty percent of total funding allocated for any stage of that project. If there is no significant risk to the project, the holdback does not apply to the final gate during a biennial close.

(4) (a) Each project must have a technology budget. The technology budget must have the detail by fiscal month for the 2023-2025 fiscal biennium. The technology budget must use a method similar to the state capital budget, identifying project costs, each fund source, and anticipated deliverables through each stage of the entire project investment and across fiscal periods and biennia from project onset through implementation and close out, as well as at least five years of maintenance and operations costs.

(b) As part of the development of a technology budget and at each request for funding, the agency shall submit an updated technology budget, if changes occurred, to include detailed financial information to the office of financial management and the office of the chief information officer. The technology budget must describe the total cost of the project, as well as maintenance and operations costs, to include and identify at least:

(i) Fund sources:

(A) If the project is funded from the information technology revolving account, the technology budget must include a worksheet that provides the fund sources that were transferred into the account by fiscal year;

(B) If the project is by a central service agency, and funds are driven out by the central service model, the technology budget must provide a statewide impact by agency by fund as a worksheet in the technology budget file;

(ii) Full time equivalent staffing level to include job classification assumptions. This is to assure that the project has adequate state staffing and agency support to ensure success, ensure user acceptance, and adequately test the functionality being delivered in each sprint before it is accepted by the agency's contracting officer or their representative. Key project functions that are deemed "critical" must be retained by state personnel and not outsourced, to ensure that knowledge is retained within state government and that the state can self-sufficiently support the system and make improvements without long-term dependence on a vendor;

(iii) Discrete financial budget codes to include at least the appropriation index and program index;

(iv) Object and subobject codes of expenditures;

(v) Anticipated deliverables to include software demonstration dates;

(vi) Historical budget and expenditure detail by fiscal year; and

(vii) Maintenance and operations costs by fiscal year for at least five years as a separate worksheet.

(c) If a project technology budget changes and a revised technology budget is completed, a comparison of the revised technology budget to the last approved technology budget must be posted to the dashboard, to include a narrative rationale on what changed, why, and how that impacts the project in scope, budget, and schedule.

(5) (a) Each project must have a project charter. The charter must include:

(i) An organizational chart of the project management team that identifies team members and their roles and responsibilities, and shows that the project is adequately staffed by state personnel in key functions to ensure success;

(ii) The office of the chief information officer staff assigned to the project;

(iii) A project roadmap that includes the problems the team is solving and the sequence in which the team intends to take on those problems, updated periodically to reflect what has been learned;

(iv) Metrics to support the project strategy and vision, to determine that the project is incrementally meeting user needs;

(v) An implementation schedule covering activities, critical milestones, and deliverables at each stage of the project for the life of the project at each agency affected by the project;

(vi) Performance measures used to determine that the project is on time, within budget, and meeting expectations for quality of work product;

(vii) Ongoing maintenance and operations cost of the project post implementation and close out delineated by agency staffing, contracted staffing, and service level agreements; and

(viii) Financial budget coding to include at least discrete financial coding for the project.

(b) If required by the office of the chief information officer, a project may also need to have an investment plan. The office of the chief information officer must:

(i) Base the requirement of an agency needing to have an investment plan on the complexity and risk of the project;

(ii) Establish requirements by project risk level in statewide technology policy, and publish the requirements by September 30, 2023; and

(iii) In collaboration with the department of enterprise services, define the circumstances under which the vendor will be terminated or replaced and establish the process by which the agency will transition to a new vendor with a minimal reduction in project productivity.

(6)(a) Projects with estimated costs greater than \$100,000,000 from initiation to completion and implementation may be divided into discrete subprojects as determined by the office of the chief information officer, except for the one Washington project which must be divided into the following discrete subprojects: Core financials, expanding financials and procurement, budget, and human resources. Each subproject must have a technology budget as provided in this section.

(b) If the project affects more than one agency:

(i) A separate technology budget and investment plan must be prepared by each agency; and

(ii) There must be a budget roll up that includes each affected agency at the subproject level.

(7) The office of the chief information officer shall maintain a statewide information technology project dashboard that provides updated information each fiscal month on projects subject to this section. The statewide dashboard must meet the requirements in section 155 of this act.

(8) For any project that exceeds \$2,000,000 in total funds to complete, requires more than one biennium to complete, or is financed through financial contracts, bonds, or other indebtedness:

(a) Independent quality assurance services for the project must report independently to the office of the chief information officer;

(b) The office of the chief information officer, based on project risk assessments, may require additional quality assurance services and independent verification and validation services;

(c) The office of the chief information officer must review, and, if necessary, revise the proposed project to ensure it is flexible and adaptable to advances in technology;

(d) The technology budget must specifically identify the uses of any financing proceeds. No more than thirty percent of the financing proceeds may be used for payroll-related costs for state employees assigned to project management, installation, testing, or training;

(e) The agency must consult with the office of the state treasurer during the competitive procurement process to evaluate early in the process whether products and services to be solicited and the responsive bids from a solicitation may be financed;

(f) The agency must consult with the contracting division of the department of enterprise services for a review of all contracts and agreements related to the project's information technology procurements;

(g) The agency and project must use an agile development model holding live demonstrations of functioning software, developed using incremental user research, held at the end of every two-week sprint, except for:

(i) Hardware or infrastructure projects; and

(ii) Projects that have implemented all phases and are now in maintenance and operations;

(h) The project solution must be capable of being continually updated, as necessary; and

(i) The agency and project must deploy usable functionality into production for users within 180 days from the date of an executed procurement contract in response to a competitive request for proposal.

(9) The office of the chief information officer must evaluate the project at each stage and certify whether the project is putting functioning software into production that addresses user needs, is projected to be completed within budget, is in compliance with the quality assurance plan, and meets a defined set of industry best practices for code quality, and whether the project is planned, managed, and meeting deliverable targets as defined in the project's approved technology budget and investment plan.

(10) The office of the chief information officer may suspend or terminate a project at any time if it determines that the project is not meeting or not expected to meet anticipated performance and technology outcomes. Once suspension or termination occurs, the agency shall unallot any unused funding and shall not make any expenditure for the project without the approval of the office of financial management. The office of the chief information officer must report on December 1 each calendar year any suspension or termination of a project in the previous 12-month period to the legislative fiscal committees.

(11) The office of the chief information officer, in consultation with the office of financial management, may identify additional projects to be subject to this section, including projects that are not separately identified within an agency budget. The office of the chief information officer must report on December 1 each calendar year any additional projects to be subjected to this section that were identified in the previous 12-month period to the legislative fiscal committees.

(12) Any cost to administer or implement this section for projects listed in subsection (1) of this section, must be paid from the information technology investment revolving account. For any other information technology project made subject to the conditions, limitations, and review of this section, the cost to implement this section must be paid from the funds for that project.

(13) The following information technology projects are subject to the conditions, limitations, and review of this section:

(a) The state network firewall replacement of the consolidated technology services agency;

(b) The resident portal of the consolidated technology services agency; and

(c) The resident identity and access management modernization project of the consolidated technology services agency.

Tribes without current written tribal officer certification agreements with the commission shall pay to the commission the full cost of providing such training. The commission shall place all money received under this section into the criminal justice training account.

Sec. 911. RCW 70A.65.250 and 2023 c 475 s 938 and 2023 c 435 s 12 are each reenacted and amended to read as follows:

(1)(a) The climate investment account is created in the state treasury. Except as otherwise provided in chapter 316, Laws of 2021, all receipts from the auction of allowances authorized in this chapter must be deposited into the account. Moneys in the account may be spent only after appropriation.

(b) Projects or activities funded from the account must meet high labor standards, including family sustaining wages, providing benefits including health care and employer-contributed retirement plans, career development opportunities, and maximize access to economic benefits from such projects for local workers and diverse businesses. Each contracting entity's proposal must be reviewed for equity and opportunity improvement efforts, including: (i) Employer paid sick leave programs; (ii) pay practices in relation to living wage indicators such as the federal poverty level; (iii) efforts to evaluate pay equity based on gender identity, race, and other protected status under Washington law; (iv) facilitating career development opportunities, such as apprenticeship programs, internships, job-shadowing, and on-the-job training; and (v) employment assistance and employment barriers for justice affected individuals.

(2) Moneys in the account may be used only for projects and programs that achieve the purposes of the greenhouse gas emissions cap and invest program established under this chapter and for tribal capacity grants under RCW 70A.65.305. During the 2023-2025 fiscal biennium, moneys in the account may also be used for tribal capacity grant activities supporting climate resilience and adaptation, developing tribal clean energy projects, applying for state or federal grant funding, and other related work; and for providing payments to agricultural fuel purchasers. Moneys in the account as described in this subsection must first be appropriated for the administration of the requirements of this chapter, in an amount not to exceed five percent of the total receipt of funds from allowance auction proceeds under this chapter. Beginning July 1, 2023, and annually thereafter, the

state treasurer shall distribute funds in the account that exceed the amounts appropriated for the purposes of this subsection (2) as follows:

(a) Seventy-five percent of the moneys to the climate commitment account created in RCW 70A.65.260; and

(b) Twenty-five percent of the moneys to the natural climate solutions account created in RCW 70A.65.270.

(3) The allocations specified in subsection (2)(a) and (b) of this section must be reviewed by the legislature on a biennial basis based on the changing needs of the state in meeting its clean economy and greenhouse gas reduction goals in a timely, economically advantageous, and equitable manner.

(4) During the 2023-2025 fiscal biennium, the legislature may direct the state treasurer to make transfers of moneys in the climate investment account to the carbon emissions reduction account, the climate commitment account, and the natural climate solutions account.

Sec. 912. RCW 70A.65.300 and 2021 c 316 s 46 are each amended to read as follows:

(1) The department shall prepare, post on the department website, and submit to the appropriate committees of the legislature an annual report that identifies all distributions of moneys from the accounts created in RCW 70A.65.240 through 70A.65.280.

(2) The report must identify, at a minimum, the recipient of the funding, the amount of the funding, the purpose of the funding, the actual end result or use of the funding, whether the project that received the funding produced any verifiable reduction in greenhouse gas emissions or other long-term impact to emissions, and if so, the quantity of reduced greenhouse gas emissions, the cost per carbon dioxide equivalent metric ton of reduced greenhouse gas emissions, and a comparison to other greenhouse gas emissions reduction projects in order to facilitate the development of cost-benefit ratios for greenhouse gas emissions reduction projects.

(3) The department shall require by rule that recipients of funds from the accounts created in RCW 70A.65.240 through 70A.65.280 report to the department, in a form and manner prescribed by the department, the information required for the department to carry out the department's duties established in this section.

(4) The department shall update its website with the information described in subsection (2) of this section as appropriate but no less frequently than once per calendar year.

(5) The department shall submit its report to the appropriate committees of the legislature with the information described in subsection (2) of this section no later than September 30 of each year. For fiscal year 2025, the report must be submitted no later than November 30, 2024.

NEW SECTION. **Sec. 913.** If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected.

NEW SECTION. **Sec. 914.** This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect immediately."

THIRD READING**MESSAGE FROM THE SENATE**

Wednesday, March 6, 2024

Mme. Speaker:

The Senate receded from its amendment(s) to SUBSTITUTE HOUSE BILL NO. 2357, and under suspension of the rules returned SUBSTITUTE HOUSE BILL NO. 2357 to second reading for purpose of amendment(s). The Senate further adopted amendment 2357-S AMS LIIA S5705.1 and passed the measure as amended.

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature finds that the Washington state patrol has made strides in its efforts to recruit new troopers and address the unprecedented levels of vacancies within its ranks. The legislature has supported those efforts by providing sign-on bonuses for cadets and lateral hires, retention bonuses for new troopers and lateral hires, and requiring parity of trooper salaries relative to other law enforcement agencies in the state of Washington. The legislature further finds that trooper and sergeant vacancies diminish the staff available to advance up through the ranks of commissioned staff to build the leadership team for the organization. The legislature further finds that increases in retirement-eligible staff, with 122

commissioned staff expected to have 25 years of service or more in 2024, means that more needs to be done in the near term to ensure the success of efforts to rebuild the commissioned ranks of the state patrol. Therefore, the legislature intends to strengthen the Washington state patrol's ability to retain senior, experienced commissioned staff with the establishment of a state patrol longevity bonus pilot program.

NEW SECTION. Sec. 2. A new section is added to chapter 43.43 RCW to read as follows:

(1) Beginning July 1, 2024, an eligible commissioned employee completing 26 or more years of service shall qualify for an annual state trooper longevity bonus of \$15,000 on the employee's anniversary date of state employment, which shall be paid in four equal quarterly payments.

(2) The establishment of the state trooper longevity bonus is subject to a change to the applicable collective bargaining agreements negotiated with the exclusive bargaining representatives.

(3) This section does not interfere with, impede, or in any way diminish the right of the officers of the Washington state patrol to bargain collectively with the state through the exclusive bargaining representatives as provided for in RCW 41.56.473.

(4) The state patrol longevity bonus created in this section is a time-limited incentive targeted at retaining senior personnel and is not intended to be included in salary or average final salary for calculation of pension benefits in this chapter.

(5) The benefits provided pursuant to this act are not provided to employees as a matter of contractual right. The legislature retains the right to alter or abolish these benefits at any time.

(6) Beginning July 15, 2024, and every three months thereafter, the Washington state patrol must submit a report showing the average filled positions in field force trooper positions in comparison to the 683 total authorized field force trooper positions in the prior fiscal quarter. The quarterly reports detailed must be submitted to the office of financial management and the transportation committees of the legislature. The authorized field force trooper level as the basis for this comparison may be adjusted as specified in the omnibus transportation appropriations act.

(7) For the purposes of this section, "eligible commissioned employee" means a Washington state patrol employee with 26 or more years of service in the Washington state patrol retirement system.

(8) This section expires June 30, 2029.

On or after July 1, 2017, salary shall exclude overtime earnings in excess of ~~((seventy))~~70 hours per year in total related to either RCW 47.46.040 or any voluntary overtime. On or after the effective date of this section, salary shall exclude earnings from the longevity bonus created in section 2 of this act.

(b) "Salary," for members commissioned from July 1, 2001, to December 31, 2002, shall exclude any overtime earnings related to RCW 47.46.040 or any voluntary overtime, earned prior to July 1, 2017, lump sum payments for deferred annual sick leave, or any form of severance pay. SUBSTITUTE HOUSE BILL NO. 2357, as amended by the Senate, having received the necessary constitutional majority, was declared passed.

MESSAGE FROM THE SENATE

Thursday, February 29, 2024

Mme. Speaker:

The Senate has passed SECOND SUBSTITUTE HOUSE BILL NO. 2320, with the following amendment(s): 2320-S2 AMS ENGR S5137.E

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature finds that there is a growing body of research evidencing that consuming cannabis with high concentrations of THC may be harmful to some people, including younger persons and persons who have or are at risk for developing certain mental health conditions or psychotic disorders. Products like THC-infused vape oils, shatter, and dabs can contain close to 100 percent THC, and may carry risks not commonly associated with consumption of useable cannabis flower or other cannabis products with relatively lower THC concentrations. In the interest of public health, the legislature intends to review studies and consider increasing the minimum legal age of sale of high THC cannabis products to age 25, and the legislature intends to require caution notices, developed by the department of health, to be posted at the point of sale in cannabis retail outlets to raise awareness about possible health impacts and risks associated with high THC cannabis. The legislature further intends to implement and study health interventions, gather data, and ensure that new research, data, and information concerning the impacts of high THC cannabis continues to be incorporated into state policy.

NEW SECTION. Sec. 2. The legislature intends to provide the department of health with recurring funding available each fiscal year, beginning in fiscal year 2025, to allow the department of health to issue requests for proposals and contract for targeted public health messages and social marketing campaigns directed toward individuals most likely to suffer negative impacts of high THC products including persons under 25 years of age and persons living with mental health challenges. Messages and media campaigns funded must include information about risks, comparative dosing of cannabis products, and resources for persons seeking support for quitting or decreasing their intake of tetrahydrocannabinol. The content of public health messages and social marketing campaigns must be developed in partnership with persons targeted by the messages and campaigns and in consultation with

professionals proficient in public health communication and in cannabis research.

NEW SECTION. Sec. 3. By July 1, 2025, the department of health must develop an optional training that cannabis retail staff may complete to better understand the health and safety impacts of high THC cannabis products. In developing the optional training, the department of health must consult with cannabis retail staff, cannabis consumers, persons who have been harmed by high THC products, health care providers, prevention professionals, researchers with relevant expertise, behavioral health providers, and representatives of licensed cannabis businesses.

Sec. 4. RCW 69.50.357 and 2022 c 16 s 71 are each amended to read as follows:

(1)(a) Retail outlets may not sell products or services other than cannabis concentrates, useable cannabis, cannabis-infused products, or paraphernalia intended for the storage or use of cannabis concentrates, useable cannabis, or cannabis-infused products.

(b)(i) Retail outlets may receive lockable boxes, intended for the secure storage of cannabis products and paraphernalia, and related literature as a donation from another person or entity, that is not a cannabis producer, processor, or retailer, for donation to their customers.

(ii) Retail outlets may donate the lockable boxes and provide the related literature to any person eligible to purchase cannabis products under subsection (2) of this section. Retail outlets may not use the donation of lockable boxes or literature as an incentive or as a condition of a recipient's purchase of a cannabis product or paraphernalia.

(iii) Retail outlets may also purchase and sell lockable boxes, provided that the sales price is not less than the cost of acquisition.

(2) Licensed cannabis retailers may not employ persons under twenty-one years of age or allow persons under twenty-one years of age to enter or remain on the premises of a retail outlet. However, qualifying patients between eighteen and twenty-one years of age with a recognition card may enter and remain on the premises of a retail outlet holding a medical cannabis endorsement and may purchase products for their personal medical use. Qualifying patients who are under the age of eighteen with a recognition card and who accompany their designated providers may enter and remain on the premises of a retail outlet holding a medical cannabis endorsement, but may not purchase products for their personal medical use.

(3)(a) Licensed cannabis retailers must ensure that all employees are trained on the rules adopted to implement this chapter, identification of persons under the age of twenty-one, and other requirements adopted by the board to ensure that persons under the age of twenty-one are not permitted to enter or remain on the premises of a retail outlet.

(b) Licensed cannabis retailers with a medical cannabis endorsement must ensure

that all employees are trained on the subjects required by (a) of this subsection as well as identification of authorizations and recognition cards. Employees must also be trained to permit qualifying patients who hold recognition cards and are between the ages of eighteen and twenty-one to enter the premises and purchase cannabis for their personal medical use and to permit qualifying patients who are under the age of eighteen with a recognition card to enter the premises if accompanied by their designated providers.

(4) Except for the purposes of disposal as authorized by the board, no licensed cannabis retailer or employee of a retail outlet may open or consume, or allow to be opened or consumed, any cannabis concentrates, useable cannabis, or cannabis-infused product on the outlet premises.

(5)(a) By December 31, 2024, licensed cannabis retailers shall post a conspicuous notice at the point of sale in retail outlets with information about: (i) The potential health risks and adverse health impacts that may be associated with the consumption of high THC cannabis; (ii) the potentially much higher risks that may be present for younger persons under age 25 as well as for persons who have or are at risk for developing certain mental health conditions or psychotic disorders; and (iii) where to find help in case of negative effects and resources for quitting or reducing cannabis consumption. The notice must be the same or substantially the same as the notice developed by the department of health under this subsection (5).

(b) The department of health shall develop the notice required under this section and make it available to licensed cannabis retailers. The notice must, at a minimum, identify the information specified in (a)(i) through (iii) of this subsection, and may include additional information.

Includes "New Item": YES

Madame Speaker:

We of your Conference Committee, to whom was referred SB 5180, adopting the interstate teacher mobility compact, have had the same under consideration and we recommend that:

All previous amendments not be adopted and that the attached striking amendment H-3510.1 be adopted

Strike everything after the enacting clause and insert the following:

**"ARTICLE I
PURPOSE**

NEW SECTION. **Sec. 1.** The purpose of this compact is to facilitate the mobility of teachers across the member states, with the goal of supporting teachers through a new pathway to licensure. Through this compact, the member states seek to establish a collective regulatory framework that

expedites and enhances the ability of teachers to move across state lines. This compact is intended to achieve the following objectives and should be interpreted accordingly. The member states hereby ratify the same intentions by subscribing hereto:

(1) Create a streamlined pathway to licensure mobility for teachers;

(2) Support the relocation of eligible military spouses;

(3) Facilitate and enhance the exchange of licensure, investigative, and disciplinary information between the member states;

(4) Enhance the power of state and district level education officials to hire qualified, competent teachers by removing barriers to the employment of out-of-state teachers;

(5) Support the retention of teachers in the profession by removing barriers to relicensure in a new state; and

(6) Maintain state sovereignty in the regulation of the teaching profession.

**ARTICLE II
DEFINITIONS**

NEW SECTION. **Sec. 2.** As used in this compact, and except as otherwise provided, the following definitions shall govern the terms herein:

(1) "Active military member" means any person with full-time duty status in the armed forces of the United States, including members of the national guard and reserve.

(2) "Adverse action" means any limitation or restriction imposed by a member state's licensing authority, such as revocation, suspension, reprimand, probation, or limitation on the licensee's ability to work as a teacher.

(3) "Bylaws" means those bylaws established by the commission.

(4) "Career and technical education license" means a current, valid authorization issued by a member state's licensing authority allowing an individual to serve as a teacher in prekindergarten through grade 12 public educational settings in a specific career and technical education area.

(5) "Charter member states" means a member state that has enacted legislation to adopt this compact where such legislation predates the initial meeting of the commission after the effective date of the compact.

(7) "Commissioner" means the delegate of a member state.

(8) "Eligible license" means a license to engage in the teaching profession which requires at least a bachelor's degree and the completion of a state approved program for teacher licensure.

(9) "Eligible military spouse" means the spouse of any individual in full-time duty status in the active armed forces of the United States, including members of the

national guard and reserve on active duty moving as a result of a military mission or military career progression requirements or are on their terminal move as a result of separation or retirement (to include surviving spouses of deceased military members).

ARTICLE III LICENSURE UNDER THE COMPACT

NEW SECTION. **Sec. 3.** (1) Licensure under this compact pertains only to the initial grant of a license by the receiving state. Nothing herein applies to any subsequent or ongoing compliance requirements that a receiving state might require for teachers.

(2) Each member state shall, in accordance with the rules of the commission, define, compile, and update as necessary, a list of eligible licenses and career and technical education licenses that the member state is willing to consider for equivalency under this compact and provide the list to

the commission. The list shall include those licenses that a receiving state is willing to grant to teachers from other member states, pending a determination of equivalency by the receiving state's licensing authority.

(3) Upon the receipt of an application for licensure by a teacher holding an unencumbered eligible license, the receiving state shall determine which of the receiving state's eligible licenses the teacher is qualified to hold and shall grant such a license or licenses to the applicant. Such a determination shall be made in the sole discretion of the receiving state's licensing authority and may include a determination that the applicant is not eligible for any of the receiving state's eligible licenses. For all teachers who hold an unencumbered license, the receiving state shall grant one or more unencumbered license(s) that, in the receiving state's sole discretion, are equivalent to the license(s) held by the teacher in any other member state.

(4) For active military members and eligible military spouses who hold a license that is not unencumbered, the receiving state shall grant an equivalent license or licenses that, in the receiving state's sole discretion, is equivalent to the license or licenses held by the teacher in any other member state, except where the receiving state does not have an equivalent license.

(5) For a teacher holding an unencumbered career and technical education license, the receiving state shall grant an unencumbered license equivalent to the career and technical education license held by the applying teacher and issued by another member state, as determined by the receiving state in its sole discretion, except where a career and technical education teacher does not hold a bachelor's degree and the receiving state requires a bachelor's degree for licenses to teach career and technical education. A receiving state may require career and technical education teachers to meet state industry recognized requirements, if required by law in the receiving state.

ARTICLE IV LICENSURE NOT UNDER THE COMPACT

NEW SECTION. **Sec. 4.** (1) Except as provided in section 3 of this act, nothing in this compact shall be construed to limit or inhibit the power of a member state to regulate licensure or endorsements overseen by the member state's licensing authority.

(2) When a teacher is required to renew a license received pursuant to this compact, the state granting such a license may require the teacher to complete state specific requirements as a condition of licensure renewal or advancement in that state.

(3) For the purposes of determining compensation, a receiving state may require additional information from teachers receiving a license under the provisions of this compact.

(4) Nothing in this compact shall be construed to limit the power of a member state to control and maintain ownership of

its information pertaining to teachers, or limit the application of a member state's laws or regulations governing the ownership, use, or dissemination of information pertaining to teachers.

(5) Nothing in this compact shall be construed to invalidate or alter any existing agreement or other cooperative arrangement which a member state may already be a party to, or limit the ability of a member state to participate in any future agreement or other cooperative arrangement to:

(a) Award teaching licenses or other benefits based on additional professional credentials including, but not limited to, national board certification;

**ARTICLE VI
DISCIPLINE/ADVERSE ACTIONS**

NEW SECTION. **Sec. 6.** (1) Nothing in this compact shall be deemed or construed to limit the authority of a member state to investigate or impose disciplinary measures on teachers according to the state practice laws thereof.

(2) Member states shall be authorized to receive, and shall provide, files and information regarding the investigation and discipline, if any, of teachers in other member states upon request. Any member state receiving such information or files shall protect and maintain the security and confidentiality thereof, in at least the same manner that it maintains its own investigatory or disciplinary files and information. Prior to disclosing any disciplinary or investigatory information received from another member state, the disclosing state shall communicate its

intention and purpose for such disclosure to the member state which originally provided that information.

**ARTICLE VII

(C) Current, threatened, or reasonably anticipated litigation;

(D) Negotiation of contracts for the purchase, lease, or sale of goods, services, or real estate;

(E) Accusing any person of a crime or formally censuring any person;

(v) The commission shall keep accurate accounts of all receipts and disbursements. The receipts and disbursements of the commission shall be subject to accounting procedures established under commission bylaws. All receipts and disbursements of funds of the commission shall be reviewed annually in accordance with commission bylaws, and a report of the review shall be included in and become part of the annual report of the commission.

(iii) The commission shall indemnify and hold harmless any member, officer, executive director, employee, or representative of the commission for the amount of any settlement or judgment obtained against that person arising out of any actual or alleged act, error, or omission that occurred within the scope of commission employment, duties, or responsibilities, or that such person had a reasonable basis for believing occurred within the scope of commission employment, duties, or responsibilities, provided that the actual or alleged act, error, or omission did not result from the intentional or willful or wanton misconduct of that person.

ARTICLE VIII RULE-MAKING

NEW SECTION.

Sec. 8.

(1) The commission shall exercise its rule-making powers pursuant to the criteria set forth in this interstate compact and the rules adopted thereunder. Rules and amendments shall become binding as of the date specified in each rule or amendment.

(2) The commission shall promulgate reasonable rules to achieve the intent and purpose of this interstate compact. In the event the commission exercises its rule-making authority in a manner that is beyond purpose and intent of this interstate compact, or the powers granted hereunder, then such an action by the commission shall be invalid and have no force and effect of law in the member states.

(3) If a majority of the legislatures of the member states rejects a rule, by enactment of a statute or resolution in the same manner used to adopt the compact within four years of the date of adoption of the rule, then such rule shall have no further force and effect in any member state.

(4) Rules or amendments to the rules shall be adopted or ratified at a regular or special meeting of the commission in accordance with commission rules and bylaws.

(5) Upon determination that an emergency exists, the commission may consider and adopt an emergency rule with 48 hours' notice, with opportunity to comment, provided that the usual rule-making procedures shall be retroactively applied to the rule as soon as reasonably possible, in no event later than 90 days after the effective date of the rule. For the purposes of this provision, an emergency rule is one that must be adopted immediately in order to:

(a) Meet an imminent threat to public health, safety, or welfare;

(b) Prevent a loss of commission or member state funds;

(c) Meet a deadline for the promulgation of an administrative rule that is established by federal law or rule of the commission; or

(d) Protect public health and safety.

**ARTICLE IX
FACILITATING INFORMATION EXCHANGE**

NEW SECTION. **Sec. 9.** (1) The commission shall provide for facilitating the exchange of information to administer and implement the provisions of this compact in accordance with the rules of the commission, consistent with generally accepted data protection principles.

(2) Nothing in this compact shall be deemed or construed to alter, limit, or inhibit the power of a member state to control and maintain ownership of its licensee information or alter, limit, or inhibit the laws or regulations governing licensee information in the member state.

**ARTICLE X
OVERSIGHT, DISPUTE RESOLUTION, AND
ENFORCEMENT**

NEW SECTION. **Sec. 10.** (1) Oversight.

(a) The executive and judicial branches of state government in each member state shall enforce this compact and take all actions necessary and appropriate to effectuate the compact's purposes and intent. The provisions of this compact shall have standing as statutory law.

(b) Venue is proper and judicial proceedings by or against the commission shall be brought solely and exclusively in a court of competent jurisdiction where the principal office of the commission is located. The commission may waive venue and jurisdictional defenses to the extent it adopts or consents to participate in alternative dispute resolution proceedings. Nothing herein shall affect or limit the selection or propriety of venue in any action against a licensee for professional malpractice, misconduct, or any such similar matter.

(c) All courts and all administrative agencies shall take judicial notice of the compact, the rules of the commission, and any information provided to a member state pursuant thereto in any judicial or quasi-judicial proceeding in a member state pertaining to the subject matter of this compact, or which may affect the powers, responsibilities, or actions of the commission.

(d) The commission shall be entitled to receive service of process in any proceeding regarding the enforcement or interpretation of the compact and shall have standing to intervene in such a proceeding for all purposes. Failure to provide the commission service of process shall render a judgment or order void as to the commission, this compact, or promulgated rules.

(2) Default, technical assistance, and termination. If the commission determines that a member state has defaulted in the

performance of its obligations or responsibilities under this compact or the promulgated rules, the commission shall:

(a) Provide written notice to the defaulting state and other member states of the nature of the default, the proposed means of curing the default or any other action to be taken by the commission; and

(b) Provide remedial training and specific technical assistance regarding the default.

(3) If a state in default fails to cure the default, the defaulting state may be terminated from the compact upon an affirmative vote of a majority of the commissioners of the member states, and all rights, privileges, and benefits conferred on that state by this compact may be terminated on the effective date of termination. A cure of the default does not relieve the offending state of obligations or liabilities incurred during the period of default.

(4) Termination of membership in the compact shall be imposed only after all other means of securing compliance have been exhausted. Notice of intent to suspend or terminate shall be given by the commission to the governor, the majority and minority leaders of the defaulting state's legislature, the state licensing authority, and each of the member states.

(5) A state that has been terminated is responsible for all assessments, obligations, and liabilities incurred through the effective date of termination, including obligations that extend beyond the effective date of termination.

(6) The commission shall not bear any costs related to a state that is found to be in default or that has been terminated from the compact, unless agreed upon in writing between the commission and the defaulting state.

(7) The defaulting state may appeal the action of the commission by petitioning the United States district court for the District of Columbia or the federal district where the commission has its principal offices. The prevailing party shall be awarded all costs of such litigation, including reasonable attorneys' fees.

(8) Dispute resolution.

(a) Upon request by a member state, the commission shall attempt to resolve disputes related to the compact that arise among member states and between member and nonmember states.

(b) The commission shall promulgate a rule providing for both binding and nonbinding alternative dispute resolution for disputes as appropriate.

(9) Enforcement.

(a) The commission, in the reasonable exercise of its discretion, shall enforce the provisions and rules of this compact.

(b) By majority vote, the commission may initiate legal action in the United States district court for the District of Columbia or the federal district where the commission has its principal offices against a member state in default to enforce compliance with the provisions of the compact and its promulgated rules and bylaws. The relief sought may include both injunctive relief and damages. In the event judicial

enforcement is necessary, the prevailing party shall be awarded all costs of such litigation, including reasonable attorneys' fees. The remedies herein shall not be the exclusive remedies of the commission. The commission may pursue any other remedies available under federal or state law.

**ARTICLE XI
EFFECTUATION, WITHDRAWAL, AND AMENDMENT**

NEW SECTION. **Sec. 11.** (1) The compact shall come into effect on the date on which the compact statute is enacted into law in the 10th member state.

(a) On or after the effective date of the compact, the commission shall convene and review the enactment of each of the charter member states to determine if the statute enacted by each such charter member state is materially different from the model compact statute.

(b) A charter member state whose enactment is found to be materially different from the model compact statute shall be entitled to the default process set forth in section 10 of this act.

(c) Member states enacting the compact subsequent to the charter member states shall be subject to the process set forth in section 7(3)(t) of this act to determine if their enactments are materially different from the model compact statute and whether they qualify for participation in the compact.

(2) If any member state is later found to be in default, or is terminated or withdraws from the compact, the commission shall remain in existence and the compact shall remain in effect even if the number of member states should be less than 10.

(3) Any state that joins the compact after the commission's initial adoption of the rules and bylaws shall be subject to the rules and bylaws as they exist on the date on which the compact becomes law in that state. Any rule that has been previously adopted by the commission shall have the full force and effect of law on the day the compact becomes law in that state, as the rules and bylaws may be amended as provided in this compact.

(4) Any member state may withdraw from this compact by enacting a statute repealing the same.

(a) A member state's withdrawal shall not take effect until six months after enactment of the repealing statute.

(b) Withdrawal shall not affect the continuing requirement of the withdrawing state's licensing authority to comply with the investigative and adverse action reporting requirements of this act prior to the effective date of withdrawal.

(5) This compact may be amended by the member states. No amendment to this compact shall become effective and binding upon any member state until it is enacted into the laws of all member states.

**ARTICLE XII
CONSTRUCTION AND SEVERABILITY**

NEW SECTION. **Sec. 12.** This compact shall be liberally construed to effectuate the purposes thereof. The provisions of this compact shall be severable and if any phrase, clause, sentence, or provision of this compact is declared to be contrary to the Constitution of any member state or a state seeking membership in the compact, or of the United States or the applicability thereof to any other government, agency, person, or circumstance is held invalid, the validity of the remainder of this compact and the applicability thereof to any government, agency, person, or circumstance shall not be affected thereby. **ARTICLE XIII
CONSISTENT EFFECT AND CONFLICT WITH OTHER
STATE LAWS**

NEW SECTION. **Sec. 13.** (1) Nothing herein shall prevent or inhibit the enforcement of any other law of a member state that is not inconsistent with the compact.

(2) Any laws, statutes, regulations, or other legal requirements in a member state in conflict with the compact are superseded to the extent of the conflict.

(3) All permissible agreements between the commission and the member states are binding in accordance with their terms.

Sec. 14. RCW 28A.405.220 and 2016 c 85 s 2 are each amended to read as follows:

(1) Notwithstanding the provisions of RCW 28A.405.210, every person employed by a school district in a teaching or other nonsupervisory certificated position shall be subject to nonrenewal of employment contract as provided in this section during the first three years of employment by such district, unless: (a) The employee has previously completed at least two years of certificated employment in another school district in the state of Washington, in which case the employee shall be subject to nonrenewal of employment contract pursuant to this section during the first year of employment with the new district; or (b) the employee has received an evaluation rating below level 2 on the four-level rating system established under RCW 28A.405.100 during the third year of employment, in which case the employee shall remain subject to the nonrenewal of the employment contract until the employee receives a level 2 rating; or (c) the school district superintendent may make a determination to remove an employee from provisional status if the employee has received one of the top two evaluation ratings during the second year of employment by the district. Employees as defined in this section shall hereinafter be referred to as "provisional employees."

(2) The superintendent of the school district may not renew the employment

contract of a provisional employee licensed under the interstate teacher mobility compact in chapter 28A.--- RCW (the new chapter created in section 15 of this act) for a third year if the provisional employee has not yet completed both the issues of abuse course described in RCW 28A.410.035 and the equity-based school practices requirements under RCW 28A.410.277.

(3) In the event the superintendent of the school district determines that the employment contract of any provisional employee should not be renewed by the district for the next ensuing term such provisional employee shall be notified thereof in writing on or before May 15th preceding the commencement of such school term, or if the omnibus appropriations act has not passed the legislature by the end of the regular legislative session for that year, then notification shall be no later than June 15th, which notification shall state the reason or reasons for such determination. Such notice shall be served upon the provisional employee personally, or by certified or registered mail, or by leaving a copy of the notice at the place of his or her usual abode with some person of suitable age and discretion then resident therein. The determination of the superintendent shall be subject to the evaluation requirements of RCW 28A.405.100.

~~((3))~~ (4) Every such provisional employee so notified, at his or her request made in writing and filed with the superintendent of the district within ten days after receiving such notice, shall be given the opportunity to meet informally with the superintendent for the purpose of requesting the superintendent to reconsider his or her decision. Such meeting shall be held no later than ten days following the receipt of such request, and the provisional employee shall be given written notice of the date, time and place of meeting at least three days prior thereto. At such meeting the provisional employee shall be given the opportunity to refute any facts upon which the superintendent's determination was based and to make any argument in support of his or her request for reconsideration.

~~((4))~~ (5) Within ten days following the meeting with the provisional employee, the superintendent shall either reinstate the provisional employee or shall submit to the school district board of directors for consideration at its next regular meeting a written report recommending that the employment contract of the provisional employee be nonrenewed and stating the reason or reasons therefor. A copy of such report shall be delivered to the provisional employee at least three days prior to the scheduled meeting of the board of directors. In taking action upon the recommendation of the superintendent, the board of directors shall consider any written communication which the provisional employee may file with the secretary of the board at any time prior to that meeting.

~~((5))~~ (6) The board of directors shall notify the provisional employee in writing of its final decision within ten days following the meeting at which the superintendent's recommendation was considered. The decision of the board of

directors to nonrenew the contract of a provisional employee shall be final and not subject to appeal.

~~((6))~~ (7) This section applies to any person employed by a school district in a teaching or other nonsupervisory certificated position after June 25, 1976. This section provides the exclusive means for nonrenewing the employment contract of a provisional employee and no other provision of law shall be applicable thereto, including, without limitation, RCW 28A.405.210 and chapter 28A.645 RCW.

Consistent with the geographical diversity element described in RCW 47.04.355(4), the legislature strongly encourages the department to consider implementing the pilot in both urban and rural communities if possible, to obtain valuable information on the needs of underserved communities located in different geographical locations in Washington.

~~((7))~~ (5) \$120,000,000 of the carbon emissions reduction account—state appropriation ~~((is))~~, and beginning January 1, 2025, \$10,000,000 of the carbon emissions reduction account—state appropriation, are provided solely for implementation of zero-emission ~~((commercial vehicle))~~ medium and heavy-duty vehicle and equipment infrastructure and incentive programs and for the replacement of school buses powered by fossil fuels with zero-emission school buses, including the purchase and installation of zero-emission school bus refueling infrastructure.

The appropriations in this section are subject to the following conditions and limitations:

(1) \$6,000,000 of the motor vehicle account—state appropriation is provided solely for low-cost enhancements. The department shall give priority to low-cost enhancement projects that improve safety or provide congestion relief. By December 15th of each odd-numbered year, the department shall provide a report to the legislature listing all low-cost enhancement projects completed in the prior fiscal biennium.

(2)(a) During the 2023-2025 fiscal biennium, the department shall continue a pilot program that expands private transportation providers' access to high occupancy vehicle lanes. Under the pilot program, when the department reserves a portion of a highway based on the number of passengers in a vehicle, the following vehicles must be authorized to use the reserved portion of the highway if the vehicle has the capacity to carry eight or more passengers, regardless of the number of passengers in the vehicle: (i) Auto transportation company vehicles regulated under chapter 81.68 RCW; (ii) passenger charter carrier vehicles regulated under chapter 81.70 RCW, except marked or unmarked stretch limousines and stretch sport utility vehicles as defined under department of licensing rules; (iii) private nonprofit transportation provider vehicles regulated under chapter 81.66 RCW; and (iv) private employer transportation service vehicles. For purposes of this subsection, "private employer transportation service" means regularly scheduled, fixed-route transportation service that is offered by an employer for the benefit of its employees. Nothing in this subsection is intended to authorize the conversion of public infrastructure to private, for-profit purposes or to otherwise create an entitlement or other claim by private users to public infrastructure.

(b) The department shall expand the high occupancy vehicle lane access pilot program

to vehicles that deliver or collect blood, tissue, or blood components for a blood-collecting or distributing establishment regulated under chapter 70.335 RCW. Under the pilot program, when the department reserves a portion of a highway based on the number of passengers in a vehicle, blood-collecting or distributing establishment vehicles that are clearly and identifiably marked as such on all sides of the vehicle are considered emergency vehicles and must be authorized to use the reserved portion of the highway.

(c) The department shall expand the high occupancy vehicle lane access pilot program to for hire nonemergency medical transportation vehicles, when in use for medical purposes, as described in section 208(~~((24) of this act))~~(20), chapter 472, Laws of 2023. Under the pilot program, when the department reserves a portion of a highway based on the number of passengers in a vehicle, nonemergency medical transportation vehicles that meet the requirements identified in section 208(~~((24) of this act))~~(20), chapter 472, Laws of 2023 must be authorized to use the reserved portion of the highway.

(d) Nothing in this subsection is intended to exempt these vehicles from paying tolls when they do not meet the occupancy requirements established by the department for express toll lanes.

(3) The appropriations in this section assume implementation of additional cost recovery mechanisms to recoup at least \$100,000 in credit card and other financial transaction costs related to the collection of fees imposed under RCW 46.17.400, 46.44.090, and 46.44.0941 for driver and vehicle fee transactions beginning January 1, 2023. The department may recover transaction fees incurred through credit card transactions.

(4) The department shall promote safety messages encouraging drivers to slow down and move over and pay attention when emergency lights are flashing on the side of the road and other suitable safety messages on electronic message boards the department operates across the state. The messages must be promoted through June 30, 2025. The department may coordinate such messaging with any statewide public awareness campaigns being developed by the department of licensing or the Washington state traffic safety commission, or both.

(5) \$5,000,000 of the multimodal transportation account—state appropriation is provided solely for the department to address emergent issues related to safety for pedestrians and bicyclists. Funds may only be spent after approval from the office of financial management. By December 15th of each odd-numbered year, the department shall provide a report to the legislature listing all emergent issues addressed in the prior fiscal biennium.

~~((7))~~(6) \$3,529,000 of the highway safety account—state appropriation is provided solely for implementation of chapter 17, Laws of 2023 (speed safety cameras). ~~((If chapter 17, Laws of 2023 is not enacted by June 30, 2023, the amount provided in this subsection lapses.~~

~~((8))~~(7) \$1,279,000 of the move ahead WA account—state appropriation is provided solely for maintenance and operations of the virtual coordination center. The department is encouraged to apply for federal grant funds for the virtual coordination center and may use state funds as a match. By December 1, 2023, the department shall report to the transportation committees of the legislature: (a) Recommendations to expand the center's operations, including specific additional jurisdictions and corridors across the state; and (b) amounts received and dates of receipt of any new cash and in-kind matches from virtual coordination center partners including, but not limited to, the city of Seattle, King county, other state and local jurisdictions, and private sector partners.

~~((9))~~(8) \$100,000 of the motor vehicle account—state appropriation is provided solely for the department to prepare and submit a report to the transportation committees of the legislature by December 1, 2024, with a prioritized list of recommendations for improving safety and mobility on Interstate 90 between North Bend and Cle Elum during winter weather events, including estimated costs. The recommendations must include, but are not limited to, options to improve compliance with traction tire and chain requirements and reduce snow-related closures.

~~((11))~~(9)(a) \$5,000,000 of the motor vehicle account—state appropriation is provided solely for the department, in coordination with the independent review team of the joint transportation committee, to conduct an analysis of highway, road, and freight rail transportation needs, options, and impacts from shifting the movement of freight and goods that currently move by barge through the lower Snake river dams to highways, other roads, and rail. The study should generate volume estimates and evaluate scenarios for changes in infrastructure and operations that would be necessary to address those additional volumes. The assessment must include quantitative analysis based on available data in terms of both financial and carbon emission costs; and qualitative input gathered from tribal governments, local governments, freight interests, and other key stakeholders, including impacts on disadvantaged/underserved communities. The analysis must include a robust public engagement process to solicit feedback from interested stakeholders including but not limited to: Residents and officials in affected cities and counties; stakeholders involved in railroad, agriculture, fishing, trucking, shipping and other related industries; appropriate Native American tribes; representatives of advocacy and community organizations; and transportation, public works, and economic development organizations in the affected areas, federal highway administration and army corps of engineers. The analysis must be informed by the work of the joint transportation committee's independent review team, and must include the following:

(i) Existing volumes and traffic patterns;

(ii) Potential changes in volumes and traffic patterns immediately following the loss of freight movement by barge and over the following 20 years, including the carbon emissions impact of this mode shift;

(iii) Identification of whether regional geography, land availability, and state and federal regulatory processes would allow for rail and road expansions and increased capacity;

(iv) Identification of potential infrastructure and operational improvements to existing highways, other roads, and rail, including additional access to facilities, needed to accommodate the higher freight volumes and impacts and potential opportunities to mitigate impacts on shipping rates;

(v) Identification of rail line development options, including impacts and potential opportunities to mitigate impacts on grain storage and handling facilities at regional unit train yards and port export facilities;

(vi) An assessment of costs associated with mitigating potential slope failure and stabilization necessitated by the drawdown of the river. An assessment of impacts and potential opportunities to mitigate impacts on adjacent roads, bridges, railroads, and utility corridors shall be included;

(vii) Both financial and carbon cost estimates for development and implementation of identified needs and options, including planning, design, and construction;

(viii) Analysis of the impacts and potential opportunities to mitigate impacts of these infrastructure changes on environmental justice and disadvantaged/underserved communities during construction, as well as from future operations;

(ix) Analysis of safety impacts and potential opportunities to mitigate impacts for a shift from barge transportation to rail or truck, including increases in rural community traffic and consistency with the Washington State Strategic Highway Safety Plan: Target Zero;

(x) Impacts and potential opportunities to mitigate impacts on highly affected commodities, including agriculture, petroleum, project cargo, and wind energy components;

(xi) Analysis of the impacts and potential opportunities to mitigate impacts that reduced competition resulting from removing barging of agricultural products on the Snake river would have on Washington's agricultural industry along with impacts modal shifts would have on the entire supply chain, including export facilities and ports on the Lower Columbia River; and

(xii) Determination of the feasibility that additional east-west freight rail capacity can be achieved, particularly through Columbia River Gorge, and the alternative routes that exist in the event that adding more infrastructure on these routes is not feasible.

(b) The department shall provide status updates on a quarterly basis in coordination with the joint transportation committee. The legislature intends to require a final report to the governor and the transportation committees of the legislature by December 31, 2026.

(10) \$2,000,000 of the highway safety account—state appropriation is provided solely for the department, in consultation with the Washington traffic safety commission, to evaluate and identify geographical locations in both urban and rural highway settings to install and implement wrong-way driving prevention strategies. Such prevention strategies may include improved signage and pavement markings as recommended by the traffic safety commission's report on wrong-way driving, "Strategies and Technologies to Prevent and Respond to Wrong-Way Driving Crashes." The department must report to the legislature any crash data or wrong-way violations that occur at the selected locations by June 30, 2025.

(11) \$1,000,000 of the motor vehicle account—state appropriation is provided solely for the department to develop an automated highway speed safety camera pilot program to test two to three automated traffic safety cameras on state highways. The goals of the automated highway speed safety camera pilot program are to test speed camera technology, determine the impact on speeding behavior in areas of testing, and compile public response to the use of traffic safety cameras on highways.

(a) The department must work with the Washington state patrol and the traffic safety commission to develop the pilot program to include, but not be limited to, the following program elements:

(i) Selection of technology;
(ii) Placement of cameras in high speed, collision, or fatality locations;
(iii) Establishment of public notification and warning signs prior to entering into an area with a speed safety camera;

(iv) Outreach and public engagement about the program and site selection process; and

(v) Development and implementation of a process to collect and report relevant pilot program data, including rates of speed prior to, during, and after the use of pilot program cameras, and public response to pilot program cameras.

(b) Automated traffic safety cameras may only take pictures of the vehicle and the vehicle license plates.

(c) Ticketing of violators using vehicle speed information captured by automated traffic safety cameras authorized under the pilot program is prohibited during the pilot program.

(d) As part of the pilot program, the department may inform registered vehicle owners of a vehicle's rate of speed exceeding the posted speed limit and the amount of the fine the law would have allowed to be imposed by providing notification by mail.

(e) The department is required to provide a program progress report to the governor and transportation committees of the legislature by September 30, 2024, to include a summary of public input on the use of safety cameras, including objections, evaluation of technologies used, and changes in speeding behavior.

(f) Photographs, microphotographs, electronic images, and other personally

identifying data captured and collected for the purposes of the pilot program are for the exclusive use of the Washington state patrol and department of transportation in carrying out the pilot program, are not open to the public, and may not be used in court in a pending action or proceeding.

(12) \$1,000,000 of the motor vehicle account—state appropriation is provided solely for implementation of chapter . . . (4) The connecting Washington account—state appropriation includes up to (((\$1,737,009,000))\$1,332,926,000 in proceeds from the sale of bonds authorized in RCW 47.10.889.

(5) The special category C account—state appropriation includes up to (((\$118,773,000))\$111,106,000 in proceeds from the sale of bonds authorized in RCW 47.10.812.

(6) The transportation partnership account—state appropriation includes up to (((\$32,643,000))\$46,899,000 in proceeds from the sale of bonds authorized in RCW 47.10.873.

(7) The appropriations in this section include savings due to anticipated project underruns; however, it is unknown which projects will provide savings. The legislature intends to provide sufficient flexibility for the department to manage to this savings target. To provide this flexibility, the office of financial management may authorize, through an ~~((allotment))~~ appropriation modification, reductions in the amounts that are provided solely for a particular purpose within this section subject to the following conditions and limitations:

(a) The department must confirm that any modification requested under this subsection of amounts provided solely for a specific purpose are not expected to be used for that purpose in this fiscal biennium;

(b) ~~((Allotment))~~ Appropriation modifications authorized under this subsection may not result in increased funding for any project beyond the amount provided for that project in the 2023-2025 fiscal biennium in LEAP Transportation Document ~~((2023-2))~~ 2024-2 ALL PROJECTS as developed ~~((April 21, 2023))~~ March 6, 2024;

(c) ~~((Allotment))~~ Appropriation modifications authorized under this subsection apply only to amounts appropriated in this section from the following accounts: Connecting Washington account—state, and move ahead WA account—state; and

(d) The office of financial management must provide notice of ~~((allotment))~~ appropriation modifications authorized under this subsection within 10 working days to the transportation committees of the legislature. By December 1, 2023, and December 1, 2024, the department must submit a report to the transportation committees of the legislature regarding the actions taken to date under this subsection.

(8) The department shall itemize all future requests for the construction of buildings on a project list and submit them through the transportation executive information system as part of the department's annual budget submittal. It is the intent of the legislature that new facility construction must be transparent and not appropriated within larger highway construction projects.

(9) The legislature continues to prioritize the replacement of the state's aging infrastructure and recognizes the importance of reusing and recycling construction aggregate and recycled concrete materials in our transportation system. To accomplish Washington state's sustainability goals in transportation and in accordance with RCW 70A.205.700, the legislature reaffirms its determination that recycled concrete aggregate and other transportation building materials are natural resource construction materials that are too valuable to be wasted and landfilled, and are a commodity as defined in WAC 173-350-100.

(10) By June 30, 2025, to the extent practicable, the department shall decommission the facilities for the Lacey project engineering office and the Tumwater project engineering office at the end of

their lease terms and consolidate the Lacey project engineering office and the Tumwater project engineering office into the department's Olympic regional headquarters.

(11) The legislature intends that any savings realized on the following projects will not be attributable to the application of practical design, retired risk, or unused contingency funding for the purposes of RCW 47.01.480:

(a) I-5/Marvin Road/SR 510 Interchange (L1100110); and

(b) I-82/EB WB On and Off Ramps (L2000123).

(12) (a) ~~((\$300,000,000))~~ \$337,114,000 of the coronavirus state fiscal recovery fund—federal appropriation, ~~((\$312,653,000))~~ \$110,439,000 of the motor vehicle account—federal appropriation, ~~((\$427,459,000))~~ \$576,827,000 of the move ahead WA account—state appropriation, and ~~((\$1,293,000))~~ \$8,329,000 of the motor vehicle account—state appropriation are provided solely for the Fish Passage Barrier Removal project (0BI4001) with the intent of fully complying with the federal *U.S. v. Washington* court injunction by 2030.

(b) The fish passage barrier removal program, in consultation with the office of innovative partnerships, shall explore opportunities to employ innovative delivery methods to ensure compliance with the court injunction including, but not limited to, public-private partnerships and batched contracts. It is the intent of the legislature that appropriations for this purpose may be used to jointly leverage state and local funds for match requirements in applying for competitive federal aid grants provided in the infrastructure investment and jobs act for removals of fish passage barriers under the national culvert removal, replacement, and restoration program. State funds used for the purpose described in this subsection must not compromise full compliance with the court injunction by 2030.

(c) The department shall coordinate with the Brian Abbott fish passage barrier removal board to use a watershed approach by replacing both state and local culverts guided by the principle of providing the greatest fish habitat gain at the earliest time. The department shall deliver high habitat value fish passage barrier corrections that it has identified, guided by the following factors: Opportunity to bundle projects, tribal priorities, ability to leverage investments by others, presence of other barriers, project readiness, culvert conditions, other transportation projects in the area, and transportation impacts. The department and Brian Abbott fish barrier removal board must provide updates on the implementation of the statewide culvert remediation plan to the legislature by November 1, 2023, and June 1, 2024.

(d) The department must keep track of, for each barrier removed: (i) The location; (ii) the amount of fish habitat gain; and (iii) the amount spent to comply with the injunction.

(e) During the 2023-2025 fiscal biennium, the department shall provide reports of the

amounts of federal funding received for this project to the governor and transportation committees of the legislature by November 1, 2023, and semiannually thereafter.

(13) (a) (~~(\$6,000,000 of the move ahead WA account—state appropriation)~~) \$15,000,000 of the model toxics control stormwater account—state appropriation is provided solely for the Stormwater Retrofits and Improvements project (L4000040). It is the intent of the legislature, over the 16-year move ahead WA investment program, to provide \$500,000,000 for this program.

(b) (~~(The appropriation in this subsection)~~) Of the amounts provided in this subsection, \$6,000,000 is provided solely for the Urban Stormwater Partnership - I-5 Ship-Canal Bridge Pilot (Seattle) project.

(c) The funding provided for stormwater retrofits and improvements must enhance stormwater runoff treatment from existing roads and infrastructure with an emphasis on green infrastructure retrofits. Projects must be prioritized based on benefits to salmon recovery and ecosystem health, reducing toxic pollution, addressing health disparities, and cost-effectiveness. The department of transportation must submit progress reports on its efforts to reduce the toxicity of stormwater runoff from existing infrastructure, recommendations for addressing barriers to innovative solutions, and anticipated demand for funding each fiscal biennium.

(14) (a) (~~(\$35,465,000)~~) \$25,067,000 of the connecting Washington account—state appropriation is provided solely for the SR 3 Freight Corridor (T30400R) project. The legislature intends to provide a total of \$78,910,000 for this project, including an increase of \$12,000,000 in future biennia to safeguard against inflation and supply/labor interruptions and ensure that:

(i) The northern terminus remains at Lake Flora Road and the southern terminus at the intersection of SR 3/SR 302; and

(ii) Multimodal safety improvements at the southern terminus remain in the project to provide connections to North Mason school district and provide safe routes to schools(~~and~~

~~(iii) Intersections on the freight corridor are constructed at Romance Hill and Log Yard road).~~

(b) With respect to right-of-way acquisition and the construction of the SR 3 Freight Corridor project (T30400R), tribal consultation with the Suquamish tribe shall begin at the earliest stage of planning, including without limitation on all funding decisions and funding programs, to provide a government-to-government mechanism for the tribe to evaluate, identify, and expressly notify governmental entities of any potential impacts to tribal cultural resources, archaeological sites, sacred sites, fisheries, or other rights and interests in tribal lands and lands within which the tribe possesses rights reserved or protected by federal treaty, statute, or executive order. The consultation is independent of, and in addition to, any public participation process required under state law, or by a state agency, including the requirements of Executive Order 21-02

related to archaeological and cultural resources, and regardless of whether the agency receives a request for consultation from the Suquamish tribe. Regularly scheduled tribal consultation meetings with the Suquamish tribe shall continue throughout the duration of any funding or program decisions and proposed project approval.

(15) \$6,000,000 of the move ahead WA account—state appropriation and \$10,000,000 of the move ahead WA account—federal appropriation are provided solely for the SR 3/Gorst Area - Widening project (L4000017). Tribal consultation with the Suquamish tribe must begin at the earliest stage of planning, including, without limitation, all funding decisions and funding programs, to provide a government-to-government mechanism for the tribe to evaluate, identify, and expressly notify governmental entities of any potential impacts to tribal cultural resources, archaeological sites, sacred sites, fisheries, or other rights and interests in tribal lands and lands within which the tribe possesses rights reserved or protected by federal treaty, statute, or executive order. The consultation is independent of, and in addition to, any public participation process required under state law, or by a state agency, including the requirements of Executive Order 21-02 related to archaeological and cultural resources, and regardless of whether the agency receives a request for consultation from the Suquamish tribe. Regularly scheduled tribal consultation meetings with the Suquamish tribe must continue throughout the duration of any funding program and proposed project approval.

(16) (a) (~~(\$84,500,000)~~) \$94,500,000 of the move ahead WA account—federal appropriation, \$137,500,000 of the move ahead WA account—private/local appropriation, and (~~(\$53,000,000)~~) \$43,000,000 of the move ahead WA account—state appropriation are provided solely for the I-5 Columbia river bridge project (L4000054). The legislature finds that the replacement of the I-5 Columbia river bridge is a project of national significance and is critical for the movement of freight. One span is now 105 years old, at risk for collapse in the event of a major earthquake, and no longer satisfies the needs of commerce and travel. Replacing the aging interstate bridge with a modern, seismically resilient, multimodal structure that provides improved mobility for people, goods, and services is a high priority. Therefore, the legislature intends to support the replacement of the I-5 Columbia river bridge with an investment of \$1,000,000,000 over the 16-year move ahead WA investment program.

(b) The legislature recognizes the importance of the I-5/Mill Plain Boulevard project (L2000099) and intends to provide funding for reconstruction of the existing interchange in coordination with construction of the Interstate 5 bridge over the Columbia river.

(c) The department shall provide regular updates on the status of ongoing coordination with the state of Oregon on any bistate agreements regarding sharing of

revenues, use of revenues, and fiscal responsibilities of each state. Prior to finalizing any such agreement, the department shall provide a draft of the agreement to the transportation committees of the legislature for review and input. Additionally, the department shall advise on the status of any bistate agreements to the joint transportation committee beginning in September 2023 and quarterly thereafter until any agreements are finalized.

(17) The legislature recognizes the importance of the US-12/Walla Walla Corridor Improvements project (T20900R) and intends to advance funding to provide matching funds if competitive federal funding is awarded for the final remaining four-lane section between Wallula and Nine Mile Hill. The department, in consultation with local governments in the vicinity, must pursue any federal funding available.

(18) \$2,642,000 of the move ahead WA account—state appropriation is provided solely for the US 101/Simdars Bypass project (L4000013).

(19) ~~(\$570,842,000)~~ \$338,512,000 of the connecting Washington account—state appropriation, ~~(\$155,000)~~ \$3,109,000 of the multimodal transportation account—state appropriation, ~~(\$26,537,000)~~ \$27,201,000 of the motor vehicle account—private/local appropriation, ~~(\$200,800,000)~~ \$178,543,000 of the move ahead WA account—federal appropriation, ~~(\$68,191,000)~~ \$36,370,000 of the move ahead WA account—state appropriation, and ~~(\$6,980,000)~~ \$211,131,000 of the motor vehicle account—federal appropriation are provided solely for the SR 167/SR 509 Puget Sound Gateway project (M00600R).

(a) Any savings on the project must stay on the Puget Sound Gateway corridor until the project is complete.

(b) In making budget allocations to the Puget Sound Gateway project, the department shall implement the project's construction as a single corridor investment. The department shall continue to collaborate with the affected stakeholders as it implements the corridor construction and implementation plan for state route number 167 and state route number 509. Specific funding allocations must be based on where and when specific project segments are ready for construction to move forward and investments can be best optimized for timely project completion. Emphasis must be placed on avoiding gaps in fund expenditures for either project.

(c) The entire multimodal transportation account—state appropriation in this subsection is for:

(i) The design phase of the Puyallup to Tacoma multiuse trail along the state route number 167 right-of-way acquired for the project to connect a network of new and existing trails from Mount Rainier to Point Defiance Park; and

(ii) Segment 2 of the state route number 167 completion project shared-use path to provide connections to the interchange of state route number 167 at 54th to the intersection of state route number 509 and Taylor Way in Tacoma.

(20) \$2,213,000 of the motor vehicle account—state appropriation and \$14,012,000 of the connecting Washington account—state appropriation are provided solely for the SR 224/Red Mountain Vicinity Improvement project (L1000291). The department shall provide funding to the city of West Richland to complete the project within the project scope identified by the legislature and within the total amount provided by the legislature. The department shall not amend the project's scope of work to add pavement preservation on state route number 224 from the West Richland city limits to Antinori Road.

~~((a) \$394,963,000)~~ (21) \$409,667,000 of the connecting Washington account—state appropriation, ~~(\$400,000)~~ \$500,000 of the state route number 520 corridor account—state appropriation, \$10,000,000 of the state route number 520 civil penalties account—state appropriation, \$52,000,000 of the JUDY transportation future funding program account—state appropriation, and ~~(\$4,496,000)~~ \$5,592,000 of the motor vehicle account—private/local appropriation are provided solely for the SR 520 Seattle Corridor Improvements - West End project (M00400R) and are subject to the following conditions and limitations:

(a) The department shall immediately proceed with awarding the bid for the Portage Bay Bridge and Roanoke Lid project to the team that submitted the proposal with the apparent best value in September 2023. Consistent with negotiated timelines, the legislature expects the award to be made by March 15, 2024, and assumes that the department shall expedite executing the contract with the awarded team. Once the contract is executed for this project, the department shall seek consequential cost reduction opportunities through value engineering and prioritizing functionality and usability of the Portage Bay Bridge and Roanoke Lid. The department shall report on the status of the project and cost reduction efforts to the transportation committees of the legislature by December 15, 2024.

(b) Upon completion of the Montlake Phase of the West End project (~~(current anticipated contract completion of 2023)~~), the department shall sell or transfer that portion of the property not (~~used~~) necessary for (~~permanent~~) transportation (~~improvements~~) purposes, and shall initiate a process to convey (~~that~~) or transfer such portion of the surplus property to a subsequent owner.

(c) Of the amounts provided in this subsection, (~~(\$400,000)~~ \$500,000 of the state route number 520 corridor account—state appropriation is provided solely for noise mitigation activities. It is the intent of the legislature to provide an additional \$600,000 for noise mitigation activities.

~~((22) \$25,000,000))~~ (23) \$7,500,000 of the motor vehicle account—federal appropriation is provided solely for a federal fund exchange pilot program. The pilot program must allow exchanges of federal surface transportation block grant population funding and state funds at an exchange rate of 95 cents in state funds per \$1.00 in federal funds. The projects receiving the exchanged federal funds must adhere to all federal requirements, including the applicable disadvantaged business enterprise goals. The entirety of the appropriation in this subsection must be held in unallotted status until surface transportation block grant population funding has been offered to the state, and the department determines that a federalized project or projects funded in this section is eligible to spend the surface transportation block grant population funding. ~~((22,500,000))~~ \$7,125,000 from existing state appropriations identified elsewhere within this section are available to be used as part of the exchange. Upon determination that a project or projects funded in this section is eligible to spend the offered surface transportation block grant population funding, state funds appropriated in this section for the eligible state project or projects in an amount equal to 100 percent of the offered surface transportation block grant population funding must be placed in unallotted status. The legislature intends to evaluate the utility and efficacy of the pilot program in the 2025 legislative session while reappropriating any remaining funds into the 2025-2027 fiscal biennium. Therefore, the department may issue additional calls for projects with any remaining funds provided in this subsection.

~~((23) \$5,000,000))~~ (24) \$9,593,000 of the motor vehicle account—state appropriation, ~~((5,000,000))~~ \$552,000 of the connecting Washington account—state appropriation, and ~~((5,000,000))~~ \$209,000 of the move ahead WA account—state appropriation are provided solely for the SR 522/Paradise Lk Rd Interchange & Widening on SR 522 (Design/Engineering) project (NPARADI), specifically for design of, preliminary engineering, and right-of-way acquisition for the interchange and widening as a single project. The board shall provide recommendations on procurement methods to the office of financial management, the department, and the transportation committees of the legislature for project L1000199 by July 1, 2024, and projects N52600R, N00900R, and M00800R by December 1, 2024. After the board provides recommendations, the department may initiate new advertisements and requests for qualifications, incorporating the recommendations as appropriate.

The department shall structure the advertisements, requests for qualifications, and requests for proposals, for projects referenced in this subsection, in a manner that provides a high degree of certainty that bids come in as expected according to engineer estimates made through the cost estimate valuation process. The department may request bid offers with alternatives for components of a larger project so that the department may present to the legislature modified options for projects to minimize project delays and stay within appropriated funding resources. If alternatives provided are at or below the engineer estimates, the department may proceed with the project award.

If bid proposals exceed engineer estimates by more than five percent or \$10,000,000, the department shall report this information to the transportation committees of the legislature within two weeks of receiving the bid proposals, and pause award and contract execution.

The department must report such findings and recommendations to the transportation committees of the legislature by December 1, 2024.

(v) A qualifying retailer must register with the department before participating in the rebate program. A qualifying retailer must:

(A) Verify the identity of the qualifying individual at the time of purchase; and

(B) Calculate and apply the rebate at the time of purchase.

(vi) The department must reimburse a qualifying retailer that accepts a rebate from a qualifying individual no later than 30 days after the rebate is redeemed.

Sec. 501. 2023 c 472 s 601 (uncodified) is amended to read as follows:
MANAGEMENT OF TRANSPORTATION FUNDS WHEN THE LEGISLATURE IS NOT IN SESSION

(1) The 2005 transportation partnership projects or improvements (~~and~~), 2015 connecting Washington projects or improvements, and move ahead WA projects or improvements are listed in the LEAP Transportation Document (~~((2023-1))~~) 2024-1 as developed (~~(April 21, 2023))~~ March 6, 2024, which consists of a list of specific projects by fund source and amount over multiple biennia. Current fiscal biennium funding for each project is a line-item appropriation, while the outer year funding allocations represent a 16-year plan. The department of transportation is expected to use the flexibility provided in this section to assist in the delivery and completion of all transportation partnership account (~~and~~), connecting Washington account, and move ahead WA account projects on the LEAP transportation document referenced in this subsection. For the 2023-2025 project appropriations, unless otherwise provided in this act, the director of the office of financial management may provide written authorization for a transfer of appropriation authority between projects funded with transportation partnership account appropriations (~~of~~), connecting Washington account appropriations, or move ahead WA account appropriations to manage project spending and efficiently deliver all projects in the respective program under the following conditions and limitations:

(a) Transfers may only be made within each specific fund source referenced on the respective project list;

(b) Transfers from a project may not be made as a result of the reduction of the scope of a project or be made to support increases in the scope of a project;

(c) Transfers from a project may be made if the funds appropriated to the project are in excess of the amount needed in the current fiscal biennium;

(d) Transfers may not occur for projects not identified on the applicable project list;

(e) Transfers to a project may not occur if that project is a programmatic funding item described in broad general terms on the applicable project list without referencing a specific state route number;

(f) Transfers may not be made while the legislature is in session;

(g) Transfers to a project may not be made with funds designated as attributable to practical design savings as described in RCW 47.01.480;

(h) (~~Except for transfers made under (l) of this subsection, transfers may only be made in fiscal year 2024;~~)

~~(i))~~ The total amount of transfers under this section may not exceed \$50,000,000;

~~((j))~~ (i) Except as otherwise provided in ~~((k))~~ (k) of this subsection, transfers made to a single project may not cumulatively total more than \$20,000,000 per fiscal biennium;

~~((k))~~ (j) Each transfer between projects may only occur if the director of the office of financial management finds that any resulting change will not hinder the completion of the projects as approved by the legislature; and

~~((l))~~ (k) Transfers between projects may be made by the department of transportation without the formal written approval provided under this subsection ~~((l))~~ (1) (k), provided that the transfer amount to a single project does not exceed \$250,000 or 10 percent of the total project per fiscal biennium, whichever is less. These transfers must be reported quarterly to the director of the office of financial management and the chairs of the house of representatives and senate transportation committees.

(2) The department of transportation must submit quarterly all transfers authorized under this section in the transportation executive information system. The office of financial management must maintain a legislative baseline project list identified in the LEAP transportation documents referenced in this act, and update that project list with all authorized transfers under this section, including any effects to the total project budgets and schedules beyond the current fiscal biennium.

(3) At the time the department submits a request to transfer funds under this section, a copy of the request must be submitted to the chairs and ranking members of the transportation committees of the legislature.

(4) Before approval, the office of financial management shall work with legislative staff of the house of representatives and senate transportation committees to review the requested transfers in a timely manner and address any concerns raised by the chairs and ranking members of the transportation committees.

(5) No fewer than 10 days after the receipt of a project transfer request, the director of the office of financial management must provide written notification to the department of any decision regarding project transfers, with copies submitted to the transportation committees of the legislature.

(6) The department must submit annually as part of its budget submittal a report detailing all transfers made pursuant to this section, including any effects to the total project budgets and schedules beyond the current fiscal biennium.

The assessment must also include strategies that can be used to mitigate these potential obstacles, including possible exceptions to, or substitutions for, a driver training education requirement in cases where access-related obstacles cannot be overcome, such as when a behind-the-wheel driver training program may not be available within a reasonable distance of a person's residence;

(4) A plan for broad and accessible public outreach and education to communicate to Washington state residents new driver training education requirements, including a plan for the development of tools to assist residents in accessing driver training

education courses that meet the new requirements;

(6) An examination of opportunities to address the financial need of persons for whom the cost of driver training education courses licensed by the department of licensing may pose a hardship, through a voucher or other financial assistance program. The examination must include quantified estimates of the extent to which the cost of driver training education could pose a significant obstacle, as well as possible approaches to help reduce or eliminate this obstacle;

(7) An examination, in consultation with the office of the superintendent of public instruction, of opportunities to address the financial need of students for whom the cost of driver training education offered as part of a traffic safety education program may pose a hardship, through a grant or other financial assistance program. The examination must include quantified estimates of the extent to which the cost of driver training education could pose a significant obstacle, as well as possible approaches to help reduce or eliminate this obstacle; and

(8) An assessment of approaches used by other states that require driver training by persons age 18 and older, including examination of how this has impacted traffic safety in the state and the extent to which the requirement may have decreased access to driver's licenses, including through examination of the rate of driver's license holders by age and other demographic characteristics compared to that of neighboring, or otherwise similarly situated, states.

~~(iv) Definitions for relevant terms;~~

~~(5) The report must include a summary of any statutory changes needed to address the considerations listed in subsection (4) of this section related to the collective bargaining process for legislative employees.)~~

NEW SECTION. Sec. 4. A new section is added to chapter 44.90 RCW to read as follows:

(1) As provided by this chapter, the commission or the court shall determine all questions described by this chapter as under the commission's authority. However, such authority may not result in an order or rule that intrudes upon or interferes with the legislature's core function of efficient and effective law making or the essential operation of the legislature, including that an order or rule may not:

(a) Modify any matter relating to the qualifications and elections of members of the legislature, or the holding of office of members of the legislature;

(b) Modify any matter relating to the legislature or each house thereof choosing its officers, adopting rules for its proceedings, selecting committees necessary for the conduct of business, considering or enacting legislation, or otherwise exercising the legislative power of this state;

(c) Modify any matter relating to legislative calendars, schedules, and deadlines of the legislature; or

(d) Modify laws, rules, policies, or procedures regarding ethics or conflicts of interest.

(2) No member of the legislature may be compelled by subpoena or other means to attend a proceeding related to matters covered by this chapter during a legislative session, committee assembly days, or for 15 days before commencement of each session.

Sec. 5. RCW 44.90.050 and 2022 c 283 s 5 are each amended to read as follows:

(1) Except as may be specifically limited by this chapter, legislative employees shall have the right to self-organization, to form, join, or assist employee organizations, and to bargain collectively through representatives of their own choosing for the purpose of collective bargaining free from interference, restraint, or coercion. Legislative employees shall also have the right to refrain from any or all such activities.

(2) Except as may be specifically limited by this chapter, the commission shall determine all questions pertaining to ascertaining exclusive bargaining representatives for legislative employees

and collectively bargaining under this chapter. However, no employee organization shall be recognized or certified as the exclusive bargaining representative of a bargaining unit of employees of the legislative branch unless it receives the votes of a majority of employees in the petitioned for bargaining unit voting in a secret election ((by mail ballot)) administered by the commission. The commission's process must allow for an employee, group of employees, employee organizations, employer, or their agents to have the right to petition on any question concerning representation.

(3) ~~((The employer and the exclusive bargaining representative of a bargaining unit of legislative employees may not enter into a collective bargaining agreement that requires the employer to deduct, from the salary or wages of an employee, contributions for payments for political action committees sponsored by employee organizations with legislative employees as members.))~~ The commission must adopt rules that provide for at least the following:

(a) Secret balloting;

(b) Consulting with employee organizations;

(c) Access to lists of employees, job titles, work locations, and home mailing addresses;

(d) Absentee voting;

(e) Procedures for the greatest possible participation in voting;

(f) Campaigning on the employer's property during working hours; and

(g) Election observers.

(4)(a) If an employee organization has been certified as the exclusive bargaining representative of the employees of multiple bargaining units, the employee organization may act for and negotiate a master collective bargaining agreement that includes within the coverage of the agreement all covered employees in the bargaining units.

(b) If a master collective bargaining agreement is in effect for the newly certified exclusive bargaining representative, it applies to the bargaining unit for which the new certification has been issued. Nothing in this subsection (4)(b) requires the parties to engage in new negotiations during the term of that agreement.

(5) The certified exclusive bargaining representative is responsible for representing the interests of all the employees in the bargaining unit. This section may not be construed to limit an exclusive bargaining representative's right to exercise its discretion to refuse to process grievances of employees that are unmeritorious.

(6) No question concerning representation may be raised if:

(a) Fewer than 12 months have elapsed since the last certification or election; or

(b) A valid collective bargaining agreement exists covering the unit, except for that period of no more than 120 calendar days nor less than 90 calendar days before the expiration of the contract.

NEW SECTION. Sec. 6. A new section is added to chapter 44.90 RCW to read as follows:

(1) The commission, after hearing upon reasonable notice to all interested parties, shall decide, in each application for certification as an exclusive bargaining representative, the unit appropriate for certification. In determining the new units or modifications of existing units, the commission must consider: The duties, skills, and working conditions of the employees; the history of collective bargaining; the extent of organization among the employees; the desires of the employees; and the avoidance of excessive fragmentation. However, a unit is not appropriate if it includes:

(a) Both supervisors and nonsupervisory employees. A unit that includes only supervisors may be considered appropriate if a majority of the supervisory employees indicates by vote that they desire to be included in such a unit;

(b) Both house of representatives and senate employees;

(c) Both partisan and nonpartisan employees;

(d) Employees of the majority party caucus and the minority party caucus, unless a majority of the employees of each caucus indicate by vote that they desire to be included together in the same unit; or

(e) Employees of the legislative service center, office of legislative support services, and the office of the code reviser, in any combination with each other or in any combination with employees of the house of representatives or employees of the senate.

(2) If a single employee organization is the exclusive bargaining representative for two or more units, upon petition by the employee organization, the units may be consolidated into a single larger unit if the commission considers the larger unit to be appropriate. If consolidation is appropriate, the commission shall certify the employee organization as the exclusive bargaining representative of the new unit.

NEW SECTION. Sec. 7. A new section is added to chapter 44.90 RCW to read as follows:

(1) The parties to a collective bargaining agreement must reduce the agreement to writing and both execute it.

(2) Except as provided in this chapter, a collective bargaining agreement must contain provisions that provide for a grievance procedure of all disputes arising over the interpretation or application of the collective bargaining agreement and that is valid and enforceable under its terms when entered into in accordance with this chapter.

(3) RCW 41.56.037 applies to this chapter.

(4)(a) If a collective bargaining agreement between an employer and an exclusive bargaining representative is concluded after the termination date of the previous collective bargaining agreement between the employer and an employee organization representing the same

bargaining units, the effective date of the collective bargaining agreement may be the day after the termination of the previous collective bargaining agreement, and all benefits included in the new collective bargaining agreement, including wage or salary increases, may accrue beginning with that effective date.

(b) If a collective bargaining agreement between an employer and an exclusive bargaining representative is concluded after the termination date of the previous collective bargaining agreement between the employer and the exclusive bargaining representative representing different bargaining units, the effective date of the collective bargaining agreement may be the day after the termination date of whichever previous collective bargaining agreement covering one or more of the units terminated first, and all benefits included in the new collective bargaining agreement, including wage or salary increases, may accrue beginning with that effective date.

(5) The employer and the exclusive bargaining representative of a bargaining unit of legislative employees may not enter into a collective bargaining agreement that requires the employer to deduct, from the salary or wages of an employee, contributions for payments for political action committees sponsored by employee organizations with legislative employees as members.

Sec. 8. RCW 44.90.060 and 2022 c 283 s 6 are each amended to read as follows:

~~((During a legislative session or committee assembly days, nothing))~~ Nothing contained in this chapter permits or grants to any legislative employee the right to strike, participate in a work stoppage, or refuse to perform their official duties.

Sec. 9. RCW 44.90.070 and 2022 c 283 s 7 are each amended to read as follows:

(1) Collective bargaining negotiations under this chapter must commence no later than July 1st of each even-numbered year after a bargaining unit has been certified.

(2) The duration of any collective bargaining agreement shall not exceed one fiscal biennium.

(3)(a) The director must submit ratified collective bargaining agreements, with cost estimates, to the employer by October 1st before the legislative session at which the request for funds is to be considered. The transmission by the legislature to the governor under RCW 43.88.090 must include a request for funds necessary to implement the provisions of all collective bargaining agreements covering legislative employees.

(b) If the legislature or governor fails to provide the funds for a collective bargaining agreement for legislative employees, either party may reopen all or part of the agreement or the exclusive bargaining representative may seek to implement the procedures provided for in section 10 of this act.

(4) Negotiation for economic terms will be by a coalition of all exclusive bargaining representatives. Any such provisions agreed to by the employer and the

coalition must be included in all collective bargaining agreements negotiated by the parties. The director and the exclusive bargaining representative or representatives are authorized to enter into supplemental bargaining of bargaining unit specific issues for inclusion in the collective bargaining agreement, subject to the parties' agreement regarding the issues and procedures for supplemental bargaining. This subsection does not prohibit cooperation and coordination of bargaining between two or more exclusive bargaining representatives.

(5) If a significant revenue shortfall occurs resulting in reduced appropriations, as declared by proclamation of the governor or by resolution of the legislature, both parties must immediately enter into collective bargaining for a mutually agreed upon modification of the agreement.

NEW SECTION. Sec. 10. A new section is added to chapter 44.90 RCW to read as follows:

(1) Should the parties fail to reach agreement in negotiating a collective bargaining agreement, either party may request of the commission the assistance of an impartial third party to mediate the negotiations. If a collective bargaining agreement previously negotiated under this chapter expires while negotiations are underway, the terms and conditions specified in the collective bargaining agreement remain in effect for a period not to exceed one year from the expiration date stated in the agreement. Thereafter, the employer may unilaterally implement according to law.

(2) Nothing in this section may be construed to prohibit an employer and an exclusive bargaining representative from agreeing to substitute, at their own expense, their own procedure for resolving impasses in collective bargaining for that provided in this section or from agreeing to utilize for the purposes of this section any other governmental or other agency or person in lieu of the commission.

(3) The commission shall bear costs for mediator services.

Sec. 11. RCW 44.90.080 and 2022 c 283 s 8 are each amended to read as follows:

(1) It is an unfair labor practice for an employer in the legislative branch of state government:

(a) To interfere with, restrain, or coerce employees in the exercise of the rights guaranteed by this chapter;

(b) To dominate or interfere with the formation or administration of any employee organization or contribute financial or other support to it: PROVIDED, That subject to rules adopted by the commission, an employer shall not be prohibited from permitting employees to confer with it or its representatives or agents during working hours without loss of time or pay;

(c) To encourage or discourage membership in any employee organization by discrimination in regard to hire, tenure of employment, or any term or condition of employment;

(d) To discharge or discriminate otherwise against an employee because that

employee has filed charges or given testimony under this chapter;

(e) To refuse to bargain collectively with the exclusive bargaining representatives of its employees.

(2) Notwithstanding any other law, the expression of any views, arguments, or opinions, or the dissemination thereof in any form, by a member of the legislature related to this chapter or matters within the scope of representation, shall not constitute, or be evidence of, an unfair labor practice unless the employer has authorized the member to express that view, argument, or opinion on behalf of the employer or as an employer.

(3) It is an unfair labor practice for an employee organization:

(a) To restrain or coerce an employee in the exercise of the rights guaranteed by this chapter: PROVIDED, That this subsection shall not impair the right of an employee organization to prescribe its own rules with respect to the acquisition or retention of membership in the employee organization or to an employer in the selection of its representatives for the purpose of bargaining or the adjustment of grievances;

(b) To cause or attempt to cause an employer to discriminate against an employee in violation of subsection (1)(c) of this section;

(c) To discriminate against an employee because that employee has filed charges or given testimony under this chapter;

(d) To refuse to bargain collectively with an employer.

~~((3))~~ (4) The expressing of any views, arguments, or opinion, or the dissemination thereof to the public, whether in written, printed, graphic, or visual form, shall not constitute or be evidence of an unfair labor practice under this chapter, if such expression contains no threat of reprisal or force or promise of benefit.

NEW SECTION. Sec. 12. A new section is added to chapter 44.90 RCW to read as follows:

(1) The commission is empowered and directed to prevent any unfair labor practice and to issue appropriate remedial orders. However, a complaint may not be processed for any unfair labor practice occurring more than six months before the filing of the complaint with the commission or in Thurston county superior court. This power may not be affected or impaired by any means of adjustment, mediation, or conciliation in labor disputes that have been or may hereafter be established by law.

(2) Except as may be specifically limited by this chapter, if the commission or court determines that any person has engaged in or is engaging in an unfair labor practice, the commission or court shall issue and cause to be served upon the person an order requiring the person to cease and desist from such unfair labor practice, and to take such affirmative action as will effectuate the purposes and policy of this chapter, such as the payment of damages.

(3) The commission may petition the Thurston county superior court for the

enforcement of its order and for appropriate temporary relief.

Sec. 13. RCW 44.90.090 and 2022 c 283 s 9 are each amended to read as follows:

(1) Except as otherwise provided in this chapter, the matters subject to bargaining include wages, hours, terms and conditions of employment, and the negotiation of any question arising under a collective bargaining agreement.

(2) The employer shall not bargain over rights of management which, in addition to all powers, duties, and rights established by constitutional provision or statute, shall include, but not be limited to, the following:

(a) Any item listed in section 4(1) of this act;

(b) The functions and programs of the employer, the use of technology, and the structure of the organization, including the size and composition of standing committees;

~~((b))~~(c) The employer's budget and the size of the employer's workforce, including determining the financial basis for layoffs;

~~((e))~~(d) The right to direct and supervise employees;

~~((d))~~(e) The hours of work during legislative session ((and the cutoff calendar for a legislative session)) and committee assembly days, and the hours of work during the 60 calendar days before the first day of legislative session and during the 20 calendar days after the last day of legislative session. This subsection (2)(e) does not prohibit bargaining over hours of work during any other period and bargaining over compensation for hours of work in excess of a 40-hour workweek, except that bargaining over hours of work during periods not otherwise prohibited and compensation for hours worked in excess of a 40-hour workweek may only occur for agreements that take effect after July 1, 2027; ((and

~~(e))~~(f) The cutoff calendar for a legislative session;

(g) The employer's authority to: (i) Lay off employees when there has been a change to the number of members in, or the makeup of, a caucus due to an election or appointment that necessitates a change in the number of staff; (ii) lay off an employee following an election, appointment, or resignation of a legislator; and (iii) terminate an employee for engaging in partisan activities that are incompatible with the employee's job duties or position;

(h) Health care benefits and other employee insurance benefits. The amount paid by a legislative employee for health care premiums must be the same as that paid by a represented state employee covered by RCW 41.80.020(3);

(i) The right to take whatever actions are deemed necessary to carry out the mission of the legislature and its agencies during emergencies; and

(j) Retirement plans and retirement benefits.

~~((2))~~(3) Except for an applicable code of conduct policy adopted by a chamber of the legislature or a legislative agency, if a conflict exists between policies adopted by the legislature relating to wages, hours,

and terms and conditions of employment and a provision of a collective bargaining agreement negotiated under this chapter, the collective bargaining agreement shall prevail. A provision of a collective bargaining agreement that conflicts with a statute or an applicable term of a code of conduct policy adopted by a chamber of the legislature or a legislative agency is invalid and unenforceable.

NEW SECTION. Sec. 14. A new section is added to chapter 44.90 RCW to read as follows:

(1) Upon authorization of an employee within the bargaining unit and after the certification or recognition of the bargaining unit's exclusive bargaining representative, the employer must deduct from the payments to the employee the monthly amount of dues as certified by the secretary of the exclusive bargaining representative and must transmit the same to the treasurer of the exclusive bargaining representative.

(2)(a) An employee's written, electronic, or recorded voice authorization to have the employer deduct membership dues from the employee's salary must be made by the employee to the exclusive bargaining representative. If the employer receives a request for authorization of deductions, the employer must, as soon as practicable, forward the request to the exclusive bargaining representative.

(b) Upon receiving notice of the employee's authorization, the employer must deduct from the employee's salary membership dues and remit the amounts to the exclusive bargaining representative.

(c) The employee's authorization remains in effect until expressly revoked by the employee in accordance with the terms and conditions of the authorization.

(d) An employee's request to revoke authorization for payroll deductions must be in writing and submitted by the employee to the exclusive bargaining representative in accordance with the terms and conditions of the authorization.

(e) After the employer receives confirmation from the exclusive bargaining representative that the employee has revoked authorization for deductions, the employer must end the deduction no later than the second payroll after receipt of the confirmation.

(f) The employer must rely on information provided by the exclusive bargaining representative regarding the authorization and revocation of deductions.

NEW SECTION. Sec. 15. A new section is added to chapter 44.90 RCW to read as follows:

(1) If the parties to a collective bargaining agreement negotiated under this chapter agree to final and binding arbitration under grievance procedures allowed by section 7 of this act, the parties may agree on one or more permanent umpires to serve as arbitrator, or may agree on any impartial person to serve as arbitrator, or may agree to select arbitrators from any source available to

them, including federal and private agencies, in addition to the staff and list of arbitrators maintained by the commission. If the parties cannot agree to the selection of an arbitrator, the commission must supply a list of names in accordance with the procedures established by the commission.

(2) The authority of an arbitrator shall be subject to the limits and restrictions specified under section 4 of this act.

(3) Except as limited by this chapter, an arbitrator may require any person to attend as a witness and to bring with them any book, record, document, or other evidence. The fees for such attendance must be paid by the party requesting issuance of the subpoena and must be the same as the fees of witnesses in the superior court. Arbitrators may administer oaths. Subpoenas must issue and be signed by the arbitrator and must be served in the same manner as subpoenas to testify before a court of record in this state. If any person so summoned to testify refuses or neglects to obey such subpoena, upon petition authorized by the arbitrator, the superior court may compel the attendance of the person before the arbitrator or punish the person for contempt in the same manner provided for the attendance of witnesses or the punishment of them in the courts of this state.

(4) Except as limited by this chapter, the arbitrator shall appoint a time and place for the hearing and notify the parties thereof, and may adjourn the hearing from time to time as may be necessary, and, on application of either party and for good cause, may postpone the hearing to a time not extending beyond the date fixed by the collective bargaining agreement for making the award. The arbitration award must be in writing and signed by the arbitrator. The arbitrator must, promptly upon its rendition, serve a true copy of the award on each of the parties or their attorneys of record.

(5) If a party to a collective bargaining agreement negotiated under this chapter that includes final and binding arbitration refuses to submit a grievance for arbitration, the other party to the collective bargaining agreement may invoke the jurisdiction of the superior court of Thurston county and the court shall have jurisdiction to issue an order compelling arbitration. Disputes concerning compliance with grievance procedures shall be reserved for determination by the arbitrator. Arbitration shall be ordered if the grievance states a claim that on its face is covered by the collective bargaining agreement. Doubts as to the coverage of the arbitration clause shall be resolved in favor of arbitration.

(6) If a party to a collective bargaining agreement negotiated under this chapter that includes final and binding arbitration refuses to comply with the award of an arbitrator determining a grievance arising under the collective bargaining agreement, the other party to the collective bargaining agreement may invoke the jurisdiction of the superior court of Thurston county and the court shall have jurisdiction to issue an order enforcing the arbitration award.

Sec. 16. RCW 41.58.010 and 2012 c 117 s 89 are each amended to read as follows:

(1) There is hereby created the public employment relations commission (hereafter called the "commission") to administer the provisions of this chapter. ~~((The))~~ Notwithstanding section 17 of this act, the commission shall consist of three members who shall be citizens appointed by the governor by and with the advice and consent of the senate. One of the original members shall be appointed for a term of three years, one for a term of four years, and one for a term of five years. Their successors shall be appointed for terms of five years each, except that any person chosen to fill a vacancy shall be appointed only for the unexpired term of the member whom he or she succeeds. Commission members shall be eligible for reappointment. The governor shall designate one member to serve as chair of the commission. Any member of the commission may be removed by the governor, upon notice and hearing, for neglect of duty or malfeasance in office, but for no other cause. Commission members shall not be eligible for state retirement under chapter 41.40 RCW by virtue of their service on the commission.

(2) In making citizen member appointments initially, and subsequently thereafter, the governor shall be cognizant of the desirability of appointing persons knowledgeable in the area of labor relations in the state.

(3) A vacancy in the commission shall not impair the right of the remaining members to exercise all of the powers of the commission, and two members of the commission shall, at all times, constitute a quorum of the commission.

(4) The commission shall at the close of each fiscal year make a report in writing to the legislature and to the governor stating the cases it has heard, the decisions it has rendered, the names, salaries, and duties of all employees and officers in the employ or under the supervision of the commission, and an account of all moneys it has disbursed.

NEW SECTION. **Sec. 17.** A new section is added to chapter 41.58 RCW to read as follows:

(1) (a) There is established a legislative commission (hereafter called "the legislative commission") exclusively for the purpose of certification of bargaining representatives, adjusting and settling complaints, grievances, and disputes arising out of employer-employee relations, and otherwise carrying out the duties required of the commission under chapter 44.90 RCW.

(b) The legislative commission shall consist of three members who shall be appointed as follows:

(i) One member shall be appointed by the speaker of the house of representatives;

(ii) One member shall be appointed by the president of the senate;

(iii) By mutual consent, the two appointed members shall appoint the third member who shall be the chair of the legislative commission.

(c) All appointments must be made by September 30, 2024. The members of the

legislative commission, and any person appointed to fill a vacancy, are appointed for the entire term until the legislative commission expires under subsection (9) of this section.

(d) Until all the members of the legislative commission are appointed, the duties required of the legislative commission under chapter 44.90 RCW shall be carried out by the commission created under RCW 41.58.010(1).

(2) The commission may delegate to the executive director authority with respect to, but not limited to, representation proceedings, unfair labor practice proceedings, mediation of labor disputes, arbitration of disputes concerning the interpretation or application of a collective bargaining agreement. Such delegation shall not eliminate a party's right of appeal to the legislative commission.

(3) Unless specifically provided, the legislative commission shall not be considered part of the commission created under RCW 41.58.010(1). The powers and duties granted in this chapter to the commission created under RCW 41.58.010(1) do not apply to the legislative commission, unless specifically provided.

(4) A member of the legislative commission may be removed by the speaker of the house of representatives and the president of the senate acting jointly, upon notice and hearing, for neglect of duty or malfeasance in office, but for no other cause.

(5) In making their appointments, the speaker of the house of representatives and the president of the senate shall be cognizant of the desirability of appointing a person who is knowledgeable in the area of labor relations and of the legislature.

(6) Members of the legislative commission are not eligible for state retirement under chapter 41.40 RCW by virtue of the member's service as a commissioner.

(7) The compensation and travel reimbursement provision under RCW 41.58.015(1) shall apply to members of the legislative commission.

(8) The legislative commission shall at the close of each fiscal year make a report in writing to the legislature stating the cases it has heard and decisions it has rendered.

(9)(a) The legislative commission expires December 31, 2027.

(b) After December 31, 2027, the duties required of the legislative commission under chapter 44.90 RCW shall be carried out by the commission created under RCW 41.58.010(1).

Sec. 18. RCW 41.58.015 and 1984 c 287 s 71 are each amended to read as follows:

(1) Each member of the commission shall be compensated in accordance with RCW 43.03.250. Members of the commission shall also be reimbursed for travel expenses incurred in the discharge of their official duties on the same basis as is provided in RCW 43.03.050 and 43.03.060.

(2) The commission shall appoint an executive director whose annual salary shall

be determined under the provisions of RCW 43.03.028. The executive director shall perform such duties and have such powers as the commission shall prescribe in order to implement and enforce the provisions of this chapter. In addition to the performance of administrative duties, the commission may delegate to the executive director authority with respect to, but not limited to, representation proceedings, unfair labor practice proceedings, mediation of labor disputes, arbitration of disputes concerning the interpretation or application of a collective bargaining agreement, and, in certain cases, fact-finding or arbitration of disputes concerning the terms of a collective bargaining agreement. Such delegation shall not eliminate a party's right of appeal to the commission. The executive director, with such assistance as may be provided by the attorney general and such additional legal assistance consistent with chapter 43.10 RCW, shall have authority on behalf of the commission, when necessary to carry out or enforce any action or decision of the commission, to petition any court of competent jurisdiction for an order requiring compliance with the action or decision.

(3)(a) The commission shall employ such employees as it may from time to time find necessary for the proper performance of its duties, consistent with the provisions of this chapter.

(b) The employees of the commission shall also provide staff support to the legislative commission in carrying out the legislative commission's duties under chapter 44.90 RCW until the legislative commission expires on December 31, 2027, under section 17 of this act.

(4) The payment of all of the expenses of the commission, including travel expenses incurred by the members or employees of the commission under its orders, shall be subject to the provisions of RCW 43.03.050 and 43.03.060.

NEW SECTION. Sec. 19. A new section is added to chapter 44.90 RCW to read as follows:

(1) The following activities conducted by or on behalf of legislative employees related to collective bargaining under this chapter are exempt from the restrictions contained in RCW 42.52.020 and 42.52.160:

(a) Using paid time and public resources by an employee to negotiate or administer a collective bargaining agreement under this chapter when the employee is assigned to negotiate or administer the collective bargaining agreement and the use of paid time and public resources does not include state purchased supplies or equipment, does not interfere with or distract from the conduct of state business, and is consistent with the employer's policy on the use of paid time;

(b) Lobbying conducted by an employee organization, lobbyist, association, or third party on behalf of legislative employees concerning legislation that directly impacts legislative workplace conditions;

(c) Communication with a prospective employee organization during nonwork hours and without the use of public resources; or

MESSAGE FROM THE SENATE

Thursday, March 7, 2024

Mme. Speaker:

The Senate receded from its amendment(s) to SECOND SUBSTITUTE HOUSE BILL NO. 2320, and under suspension of the rules returned SECOND SUBSTITUTE HOUSE BILL NO.

2320 to second reading for purpose of amendment(s). The Senate further adopted amendment 2320-S2 AMS KEIS S5709.1 and passed the measure as amended.

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature finds that there is a growing body of research evidencing that consuming cannabis with high concentrations of THC may be harmful to some people, including younger persons and persons who have or are at risk for developing certain mental health conditions or psychotic disorders. Products like THC-infused vape oils, shatter, and dabs can contain close to 100 percent THC, and may carry risks not commonly associated with consumption of useable cannabis flower or other cannabis products with relatively lower THC concentrations. In the interest of public health, the legislature intends to review studies and consider increasing the minimum legal age of sale of high THC cannabis products to age 25, and the legislature intends to require caution notices, developed by the department of health, to be posted at the point of sale in cannabis retail outlets to raise awareness about possible health impacts and risks associated with high THC cannabis. The legislature further intends to implement and study health interventions, gather data, and ensure that new research, data, and information concerning the impacts of high THC cannabis continues to be incorporated into state policy.

NEW SECTION. Sec. 2. The legislature intends to provide the department of health with recurring funding available each fiscal year, beginning in fiscal year 2025, to allow the department of health to issue requests for proposals and contract for targeted public health messages and social marketing campaigns directed toward individuals most likely to suffer negative impacts of high THC products including persons under 25 years of age and persons living with mental health challenges. Messages and media campaigns funded must include information about risks, comparative dosing of cannabis products, and resources for persons seeking support for quitting or decreasing their intake of tetrahydrocannabinol. The content of public health messages and social marketing campaigns must be developed in partnership with persons targeted by the messages and campaigns and in consultation with professionals proficient in public health communication and in cannabis research.

NEW SECTION. Sec. 3. By July 1, 2025, the department of health must develop an optional training that cannabis retail staff may complete to better understand the health and safety impacts of high THC cannabis products. In developing the optional training, the department of health must consult with cannabis retail staff, cannabis consumers, persons who have been harmed by high THC products, health care providers, prevention professionals, researchers with

relevant expertise, behavioral health providers, and representatives of licensed cannabis businesses.

Sec. 4. RCW 69.50.357 and 2022 c 16 s 71 are each amended to read as follows:

(1)(a) Retail outlets may not sell products or services other than cannabis concentrates, useable cannabis, cannabis-infused products, or paraphernalia intended for the storage or use of cannabis concentrates, useable cannabis, or cannabis-infused products.

(b)(i) Retail outlets may receive lockable boxes, intended for the secure storage of cannabis products and paraphernalia, and related literature as a donation from another person or entity, that is not a cannabis producer, processor, or retailer, for donation to their customers.

(ii) Retail outlets may donate the lockable boxes and provide the related literature to any person eligible to purchase cannabis products under subsection (2) of this section. Retail outlets may not use the donation of lockable boxes or literature as an incentive or as a condition of a recipient's purchase of a cannabis product or paraphernalia.

(iii) Retail outlets may also purchase and sell lockable boxes, provided that the sales price is not less than the cost of acquisition.

(2) Licensed cannabis retailers may not employ persons under twenty-one years of age or allow persons under twenty-one years of age to enter or remain on the premises of a retail outlet. However, qualifying patients between eighteen and twenty-one years of age with a recognition card may enter and remain on the premises of a retail outlet holding a medical cannabis endorsement and may purchase products for their personal medical use. Qualifying patients who are under the age of eighteen with a recognition card and who accompany their designated providers may enter and remain on the premises of a retail outlet holding a medical cannabis endorsement, but may not purchase products for their personal medical use.

(3)(a) Licensed cannabis retailers must ensure that all employees are trained on the rules adopted to implement this chapter, identification of persons under the age of twenty-one, and other requirements adopted by the board to ensure that persons under the age of twenty-one are not permitted to enter or remain on the premises of a retail outlet.

(b) Licensed cannabis retailers with a medical cannabis endorsement must ensure that all employees are trained on the subjects required by (a) of this subsection as well as identification of authorizations and recognition cards. Employees must also be trained to permit qualifying patients who hold recognition cards and are between the ages of eighteen and twenty-one to enter the premises and purchase cannabis for their personal medical use and to permit qualifying patients who are under the age of eighteen with a recognition card to enter the premises if accompanied by their designated providers.

(4) Except for the purposes of disposal as authorized by the board, no licensed cannabis retailer or employee of a retail outlet may open or consume, or allow to be opened or consumed, any cannabis concentrates, useable cannabis, or cannabis-infused product on the outlet premises.

(5)(a) By December 31, 2024, licensed cannabis retailers shall post a conspicuous notice at the point of sale in retail outlets with information about: (i) The potential health risks and adverse health impacts that may be associated with the consumption of high THC cannabis; (ii) the potentially much higher risks that may be present for younger persons under age 25 as well as for persons who have or are at risk for developing certain mental health conditions or psychotic disorders; and (iii) where to find help in case of negative effects and resources for quitting or reducing cannabis consumption. The notice must be the same or substantially the same as the notice developed by the department of health under this subsection (5).

(b) The department of health shall develop the notice required under this section and make it available to licensed cannabis retailers. The notice must, at a minimum, identify the information specified in (a)(i) through (iii) of this subsection, and may include additional information.

(6) The board must fine a licensee one thousand dollars for each violation of any subsection of this section. Fines collected under this section must be deposited into the dedicated cannabis account created under RCW 69.50.530.

NEW SECTION. Sec. 5. A new section is added to chapter 71.24 RCW to read as follows:

(1) Subject to amounts appropriated for this specific purpose, the health care authority must issue a request for proposal and contract with an entity to develop, implement, test, and evaluate guidance and health interventions for health care providers and patients at risk for developing serious complications due to cannabis consumption who are seeking care in emergency departments, primary care settings, behavioral health settings, other health care facilities, and for use by state poison control and recovery hotlines to promote cannabis use reduction and cessation for the following populations:

(a) Youth and adults at high risk of adverse mental health impacts from use of high THC cannabis;

(b) Youth and adults who have experienced a cannabis-induced first episode psychosis but do not have a diagnosis of a psychotic disorder; and

(c) Youth and adults who have a diagnosed psychotic disorder and use cannabis.

(2) The health care authority must submit a preliminary report to the appropriate committees of the legislature summarizing the progress toward developing and testing health interventions and recruiting patients and health care facilities to participate by December 1, 2025. The health care authority must provide a progress report on initial outcomes of the health interventions for

participating patients and health care facilities by July 1, 2027. The health care authority must submit a final report to the appropriate committees of the legislature summarizing the results of the interventions and any recommendations for implementation of health interventions by December 1, 2028.

(3) A contract entered under the authorization in this section must include, in the scope of work, data gathering on adverse health impacts occurring in Washington associated with consumption of high THC cannabis, and data gathered must be included in the reports submitted to the legislature under this section.

(4) This section expires December 31, 2028.

NEW SECTION. Sec. 6. (1) Beginning December 1, 2024, the liquor and cannabis board must collect data on the following information on cannabis products sold within Washington state:

(a) The amount of products being sold in the following categories: Usable cannabis, cannabis concentrates, and cannabis-infused products;

(b) The average THC concentration in usable cannabis and cannabis concentrates, and the average milligrams of THC per unit in cannabis-infused products; and

(c) The range of THC concentration in usable cannabis and cannabis concentrates.

(2) By November 14, 2025, the liquor and cannabis board must submit a report to the relevant committees of the legislature on the information collected under subsection (1) of this section.

(3) For the purposes of this section, "product" has the meaning provided in RCW 69.50.535.

(4) This section expires December 31, 2026.

NEW SECTION. Sec. 7. If specific funding for the purposes of this act, referencing this act by bill or chapter number, is not provided by June 30, 2024, in the omnibus appropriations act, this act is null and void."

On page 1, line 4 of the title, after "psychosis;" strike the remainder of the title and insert "amending RCW 69.50.357; adding a new section to chapter 71.24 RCW; creating new sections; and providing expiration dates."
