Record retention by hospitals: RCW 70.41.190.

70.02.005 Findings. The legislature finds that:

(1) Health care information is personal and sensitive information that if improperly used or released may do significant harm to a patient's interests in privacy, health care, or other interests.

(2) Patients need access to their own health care information as a matter of fairness to enable them to make informed decisions about their health care and correct inaccurate or incomplete information about themselves.

(3) In order to retain the full trust and confidence of patients, health care providers have an interest in assuring that health care information is not improperly disclosed and in having clear and certain rules for the disclosure of health care information.

(4) Persons other than health care providers obtain, use, and disclose health record information in many different contexts and for many different purposes. It is the public policy of this state that a patient's interest in the proper use and disclosure of the patient's health care information survives even when the information is held by persons other than health care providers.

(5) The movement of patients and their health care information across state lines, access to and exchange of health care information from automated data banks, and the emergence of multistate health care providers creates a compelling need for uniform law, rules, and procedures governing the use and disclosure of health care information. [1991 c 335 § 101.]

70.02.010 Definitions. As used in this chapter, unless the context otherwise requires:

(1) "Audit" means an assessment, evaluation, determination, or investigation of a health care provider by a person not employed by or affiliated with the provider to determine compliance with:

(a) Statutory, regulatory, fiscal, medical, or scientific standards;

(b) A private or public program of payments to a health care provider; or

(c) Requirements for licensing, accreditation, or certification.

(2) "Directory information" means information disclosing the presence, and for the purpose of identification, the name, residence, sex, and the general health condition of a particular patient who is a patient in a health care facility or who is currently receiving emergency health care in a health care facility.

(3) "General health condition" means the patient's health status described in terms of "critical," "poor," "fair," "good," "excellent," or terms denoting similar conditions.

(4) "Health care" means any care, service, or procedure provided by a health care provider:

(a) To diagnose, treat, or maintain a patient's physical or mental condition; or

(b) That affects the structure or any function of the human body.

(5) "Health care facility" means a hospital, clinic, nursing home, laboratory, office, or similar place where a health care provider provides health care to patients.

(6) "Health care information" means any information, whether oral or recorded in any form or medium, that identifies or can readily be associated with the identity of a patient and directly relates to the patient's health care. The term includes any record of disclosures of health care information.

(7) "Health care provider" means a person who is licensed, certified, registered, or otherwise authorized by the law of this state to provide health care in the ordinary course of business or practice of a profession.

(8) "Institutional review board" means any board, committee, or other group formally designated by an institution, or authorized under federal or state law, to review, approve the initiation of, or conduct periodic review of research programs to assure the protection of the rights and welfare of human research subjects.

(9) "Maintain," as related to health care information, means to hold, possess, preserve, retain, store, or control that information.

(10) "Patient" means an individual who receives or has received health care. The term includes a deceased individual who has received health care.

(11) "Person" means an individual, corporation, business trust, estate, trust, partnership, association, joint venture, government, governmental subdivision or agency, or any other legal or commercial entity.

(12) "Reasonable fee" means the charges for duplicating or searching the record, but shall not exceed sixty-five cents per page for the first thirty pages and fifty cents per page for all other pages. In addition, a clerical fee for searching and handling may be charged not to exceed fifteen dollars. These amounts shall be adjusted biennially in accordance with changes in the consumer price index, all consumers, for Seattle-Tacoma metropolitan statistical area as determined by the secretary of health. However, where editing of records by a health care provider is required by statute and is done by the provider personally, the fee may be the usual and customary charge for a basic office visit.

(13) "Third-party payor" means an insurer regulated under Title 48 RCW authorized to transact business in this state or other jurisdiction, including a health care service contractor, and health maintenance organization; or an employee welfare benefit plan; or a state or federal health benefit program. [1993 c 448 § 1; 1991 c 335 § 102.]

Effective date—1993 c 448: "This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and shall take effect July 1, 1993." [1993 c 448 § 9.]

70.02.020 Disclosure by health care provider. Except as authorized in RCW 70.02.050, a health care provider, an individual who assists a health care provider in the delivery of health care, or an agent and employee of a

health care provider may not disclose health care information about a patient to any other person without the patient's written authorization. A disclosure made under a patient's written authorization must conform to the authorization.

Health care providers or facilities shall chart all disclosures, except to third-party payors, of health care information, such as chartings to become part of the health care information. [1993 c 448 § 2; 1991 c 335 § 201.]

Effective date—1993 c 448: See note following RCW 70.02.010.

70.02.030 Patient authorization of disclosure. (1) A patient may authorize a health care provider to disclose the patient's health care information. A health care provider shall honor an authorization and, if requested, provide a copy of the recorded health care information unless the health care provider denies the patient access to health care information under RCW 70.02.090.

(2) A health care provider may charge a reasonable fee for providing the health care information and is not required to honor an authorization until the fee is paid.

(3) To be valid, a disclosure authorization to a health care provider shall:

- (a) Be in writing, dated, and signed by the patient;
- (b) Identify the nature of the information to be disclosed;
- (c) Identify the name, address, and institutional affiliation of the person to whom the information is to be disclosed;
- (d) Except for third-party payors, identify the provider who is to make the disclosure; and
- (e) Identify the patient.

(4) Except as provided by this chapter, the signing of an authorization by a patient is not a waiver of any rights a patient has under other statutes, the rules of evidence, or common law.

(5) A health care provider shall retain each authorization or revocation in conjunction with any health care information from which disclosures are made. This requirement shall not apply to disclosures to third-party payors.

(6) Except for authorizations given pursuant to an agreement with a treatment or monitoring program or disciplinary authority under chapter 18.71 or 18.130 RCW or to provide information to third-party payors, an authorization may not permit the release of health care information relating to future health care that the patient receives more than ninety days after the authorization was signed. Patients shall be advised of the period of validity of their authorization on the disclosure authorization form. If the authorization does not contain an expiration date, it expires ninety days after it is signed. [1994 sp.s. c 9 § 741; 1993 c 448 § 3; 1991 c 335 § 202.]

Severability—Headings and captions not law—Effective date—1994 sp.s. c 9: See RCW 18.79.900 through 18.79.902.

Effective date—1993 c 448: See note following RCW 70.02.010.

70.02.040 Patient's revocation of authorization for disclosure. A patient may revoke in writing a disclosure authorization to a health care provider at any time unless disclosure is required to effectuate payments for health care that has been provided or other substantial action has been taken in reliance on the authorization. A patient may not

maintain an action against the health care provider for disclosures made in good-faith reliance on an authorization if the health care provider had no actual notice of the revocation of the authorization. [1991 c 335 § 203.]

70.02.050 Disclosure without patient's authorization. (1) A health care provider may disclose health care information about a patient without the patient's authorization to the extent a recipient needs to know the information, if the disclosure is:

(a) To a person who the provider reasonably believes is providing health care to the patient;

(b) To any other person who requires health care information for health care education, or to provide planning, quality assurance, peer review, or administrative, legal, financial, or actuarial services to the health care provider; or for assisting the health care provider in the delivery of health care and the health care provider reasonably believes that the person:

(i) Will not use or disclose the health care information for any other purpose; and

(ii) Will take appropriate steps to protect the health care information;

(c) To any other health care provider reasonably believed to have previously provided health care to the patient, to the extent necessary to provide health care to the patient, unless the patient has instructed the health care provider in writing not to make the disclosure;

(d) To any person if the health care provider reasonably believes that disclosure will avoid or minimize an imminent danger to the health or safety of the patient or any other individual, however there is no obligation under this chapter on the part of the provider to so disclose;

(e) Oral, and made to immediate family members of the patient, or any other individual with whom the patient is known to have a close personal relationship, if made in accordance with good medical or other professional practice, unless the patient has instructed the health care provider in writing not to make the disclosure;

(f) To a health care provider who is the successor in interest to the health care provider maintaining the health care information;

(g) For use in a research project that an institutional review board has determined:

(i) Is of sufficient importance to outweigh the intrusion into the privacy of the patient that would result from the disclosure;

(ii) Is impracticable without the use or disclosure of the health care information in individually identifiable form;

(iii) Contains reasonable safeguards to protect the information from redisclosure;

(iv) Contains reasonable safeguards to protect against identifying, directly or indirectly, any patient in any report of the research project; and

(v) Contains procedures to remove or destroy at the earliest opportunity, consistent with the purposes of the project, information that would enable the patient to be identified, unless an institutional review board authorizes retention of identifying information for purposes of another research project;

(h) To a person who obtains information for purposes of an audit, if that person agrees in writing to:

(i) Remove or destroy, at the earliest opportunity consistent with the purpose of the audit, information that would enable the patient to be identified; and

(ii) Not to disclose the information further, except to accomplish the audit or report unlawful or improper conduct involving fraud in payment for health care by a health care provider or patient, or other unlawful conduct by the health care provider;

(i) To an official of a penal or other custodial institution in which the patient is detained;

(j) To provide directory information, unless the patient has instructed the health care provider not to make the disclosure;

(k) In the case of a hospital or health care provider to provide, in cases reported by fire, police, sheriff, or other public authority, name, residence, sex, age, occupation, condition, diagnosis, or extent and location of injuries as determined by a physician, and whether the patient was conscious when admitted.

(2) A health care provider shall disclose health care information about a patient without the patient's authorization if the disclosure is:

(a) To federal, state, or local public health authorities, to the extent the health care provider is required by law to report health care information; when needed to determine compliance with state or federal licensure, certification or registration rules or laws; or when needed to protect the public health;

(b) To federal, state, or local law enforcement authorities to the extent the health care provider is required by law;

(c) Pursuant to compulsory process in accordance with RCW 70.02.060.

(3) All state or local agencies obtaining patient health care information pursuant to this section shall adopt rules establishing their record acquisition, retention, and security policies that are consistent with this chapter. [1993 c 448 § 4; 1991 c 335 § 204.]

Effective date—1993 c 448: See note following RCW 70.02.010.

70.02.060 Discovery request or compulsory process.

(1) Before service of a discovery request or compulsory process on a health care provider for health care information, an attorney shall provide advance notice to the health care provider and the patient or the patient's attorney involved through service of process or first class mail, indicating the health care provider from whom the information is sought, what health care information is sought, and the date by which a protective order must be obtained to prevent the health care provider from complying. Such date shall give the patient and the health care provider adequate time to seek a protective order, but in no event be less than fourteen days since the date of service or delivery to the patient and the health care provider of the foregoing. Thereafter the request for discovery or compulsory process shall be served on the health care provider.

(2) Without the written consent of the patient, the health care provider may not disclose the health care information sought under subsection (1) of this section if the requestor has not complied with the requirements of subsection (1) of

this section. In the absence of a protective order issued by a court of competent jurisdiction forbidding compliance, the health care provider shall disclose the information in accordance with this chapter. In the case of compliance, the request for discovery or compulsory process shall be made a part of the patient record.

(3) Production of health care information under this section, in and of itself, does not constitute a waiver of any privilege, objection, or defense existing under other law or rule of evidence or procedure. [1991 c 335 § 205.]

70.02.070 Certification of record. Upon the request of the person requesting the record, the health care provider or facility shall certify the record furnished and may charge for such certification in accordance with RCW 36.18.016(5). No record need be certified until the fee is paid. The certification shall be affixed to the record and disclose:

(1) The identity of the patient;

(2) The kind of health care information involved;

(3) The identity of the person to whom the information is being furnished;

(4) The identity of the health care provider or facility furnishing the information;

(5) The number of pages of the health care information;

(6) The date on which the health care information is furnished; and

(7) That the certification is to fulfill and meet the requirements of this section. [1995 c 292 § 20; 1991 c 335 § 206.]

70.02.080 Patient's examination and copying—Requirements. (1) Upon receipt of a written request from a patient to examine or copy all or part of the patient's recorded health care information, a health care provider, as promptly as required under the circumstances, but no later than fifteen working days after receiving the request shall:

(a) Make the information available for examination during regular business hours and provide a copy, if requested, to the patient;

(b) Inform the patient if the information does not exist or cannot be found;

(c) If the health care provider does not maintain a record of the information, inform the patient and provide the name and address, if known, of the health care provider who maintains the record;

(d) If the information is in use or unusual circumstances have delayed handling the request, inform the patient and specify in writing the reasons for the delay and the earliest date, not later than twenty-one working days after receiving the request, when the information will be available for examination or copying or when the request will be otherwise disposed of; or

(e) Deny the request, in whole or in part, under RCW 70.02.090 and inform the patient.

(2) Upon request, the health care provider shall provide an explanation of any code or abbreviation used in the health care information. If a record of the particular health care information requested is not maintained by the health care provider in the requested form, the health care provider is not required to create a new record or reformulate an existing record to make the health care information available in

the requested form. The health care provider may charge a reasonable fee for providing the health care information and is not required to permit examination or copying until the fee is paid. [1993 c 448 § 5; 1991 c 335 § 301.]

Effective date—1993 c 448: See note following RCW 70.02.010.

70.02.090 Patient's request—Denial of examination and copying. (1) Subject to any conflicting requirement in the public disclosure act, chapter 42.17 RCW, a health care provider may deny access to health care information by a patient if the health care provider reasonably concludes that:

(a) Knowledge of the health care information would be injurious to the health of the patient;

(b) Knowledge of the health care information could reasonably be expected to lead to the patient's identification of an individual who provided the information in confidence and under circumstances in which confidentiality was appropriate;

(c) Knowledge of the health care information could reasonably be expected to cause danger to the life or safety of any individual;

(d) The health care information was compiled and is used solely for litigation, quality assurance, peer review, or administrative purposes; or

(e) Access to the health care information is otherwise prohibited by law.

(2) If a health care provider denies a request for examination and copying under this section, the provider, to the extent possible, shall segregate health care information for which access has been denied under subsection (1) of this section from information for which access cannot be denied and permit the patient to examine or copy the disclosable information.

(3) If a health care provider denies a patient's request for examination and copying, in whole or in part, under subsection (1) (a) or (c) of this section, the provider shall permit examination and copying of the record by another health care provider, selected by the patient, who is licensed, certified, registered, or otherwise authorized under the laws of this state to treat the patient for the same condition as the health care provider denying the request. The health care provider denying the request shall inform the patient of the patient's right to select another health care provider under this subsection. The patient shall be responsible for arranging for compensation of the other health care provider so selected. [1991 c 335 § 302.]

70.02.100 Correction or amendment of record. (1) For purposes of accuracy or completeness, a patient may request in writing that a health care provider correct or amend its record of the patient's health care information to which a patient has access under RCW 70.02.080.

(2) As promptly as required under the circumstances, but no later than ten days after receiving a request from a patient to correct or amend its record of the patient's health care information, the health care provider shall:

(a) Make the requested correction or amendment and inform the patient of the action;

(b) Inform the patient if the record no longer exists or cannot be found;

(c) If the health care provider does not maintain the record, inform the patient and provide the patient with the name and address, if known, of the person who maintains the record;

(d) If the record is in use or unusual circumstances have delayed the handling of the correction or amendment request, inform the patient and specify in writing, the earliest date, not later than twenty-one days after receiving the request, when the correction or amendment will be made or when the request will otherwise be disposed of; or

(e) Inform the patient in writing of the provider's refusal to correct or amend the record as requested and the patient's right to add a statement of disagreement. [1991 c 335 § 401.]

70.05.160 Moratorium on water, sewer hookups, or septic systems—Public hearing—Limitation on length. A local board of health that adopts a moratorium affecting water hookups, sewer hookups, or septic systems without holding a public hearing on the proposed moratorium, shall hold a public hearing on the adopted moratorium within at least sixty days of its adoption. If the board does not adopt findings of fact justifying its action before this hearing, then the board shall do so immediately after this public hearing. A moratorium adopted under this section may be effective for not longer than six months, but may be effective for up to one year if a work plan is developed for related studies providing for such a longer period. A moratorium may be renewed for one or more six-month periods if a subsequent public hearing is held and findings of fact are made prior to each renewal. [1992 c 207 § 7.]

70.05.170 Child mortality review. (1)(a) The legislature finds that the mortality rate in Washington state among infants and children less than eighteen years of age is unacceptably high, and that such mortality may be preventable. The legislature further finds that, through the

performance of child mortality reviews, preventable causes of child mortality can be identified and addressed, thereby reducing the infant and child mortality in Washington state.

(b) It is the intent of the legislature to encourage the performance of child death reviews by local health departments by providing necessary legal protections to the families of children whose deaths are studied, local health department officials and employees, and health care professionals participating in child mortality review committee activities.

(2) As used in this section, "child mortality review" means a process authorized by a local health department as such department is defined in RCW 70.05.010 for examining factors that contribute to deaths of children less than eighteen years of age. The process may include a systematic review of medical, clinical, and hospital records; home interviews of parents and caretakers of children who have died; analysis of individual case information; and review of this information by a team of professionals in order to identify modifiable medical, socioeconomic, public health, behavioral, administrative, educational, and environmental factors associated with each death.

(3) Local health departments are authorized to conduct child mortality reviews. In conducting such reviews, the following provisions shall apply:

(a) All medical records, reports, and statements procured by, furnished to, or maintained by a local health department pursuant to chapter 70.02 RCW for purposes of a child mortality review are confidential insofar as the identity of an individual child and his or her adoptive or natural parents is concerned. Such records may be used solely by local health departments for the purposes of the review. This section does not prevent a local health department from publishing statistical compilations and reports related to the child mortality review, if such compilations and reports do not identify individual cases and sources of information.

(b) Any records or documents supplied or maintained for the purposes of a child mortality review are not subject to discovery or subpoena in any administrative, civil, or criminal proceeding related to the death of a child reviewed. This provision shall not restrict or limit the discovery or subpoena from a health care provider of records or documents maintained by such health care provider in the ordinary course of business, whether or not such records or documents may have been supplied to a local health department pursuant to this section.

(c) Any summaries or analyses of records, documents, or records of interviews prepared exclusively for purposes of a child mortality review are not subject to discovery, subpoena, or introduction into evidence in any administrative, civil, or criminal proceeding related to the death of a child reviewed.

(d) No local health department official or employee, and no members of technical committees established to perform case reviews of selected child deaths may be examined in any administrative, civil, or criminal proceeding as to the existence or contents of documents assembled, prepared, or maintained for purposes of a child mortality review.

(e) This section shall not be construed to prohibit or restrict any person from reporting suspected child abuse or neglect under chapter 26.44 RCW nor to limit access to or use of any records, documents, information, or testimony in

any civil or criminal action arising out of any report made pursuant to chapter 26.44 RCW. [1993 c 41 § 1; 1992 c 179 § 1.]

State health care cost containment policies: RCW 43.41.160.

70.14.020 State agencies to identify alternative health care providers. Each of the agencies listed in *RCW 70.14.010, with the exception of the department of labor and industries, which expends more than five hundred thousand dollars annually of state funds for purchase of health care shall identify the availability and costs of nonfee for service providers of health care, including preferred provider organizations, health maintenance organizations, managed health care or case management systems, or other nonfee for service alternatives. In each case where feasible in which an alternative health care provider arrangement, of similar scope and quality, is available at lower cost than fee for service providers, such state agencies shall make the services of the alternative provider available to clients, consumers, or employees for whom state dollars are spent to purchase health care. As consistent with other state and federal law, requirements for copayments, deductibles, the scope of available services, or other incentives shall be used to encourage clients, consumers, or employees to use the lowest cost providers, except that copayments or deductibles shall not be required where they might have the impact of denying access to necessary health care in a timely manner. [1986 c 303 § 7.]

***Reviser's note:** RCW 70.14.010 was repealed by 1988 c 107 § 35, effective October 1, 1988.

Medical assistance—Agreements with managed health care systems: RCW 74.09.522.

70.14.030 Health care utilization review procedures. Plans for establishing or improving utilization review procedures for purchased health care services shall be developed by each agency listed in *RCW 70.14.010. The plans shall specifically address such utilization review procedures as prior authorization of services, hospital inpatient length of stay review, requirements for use of outpatient surgeries and the obtaining of second opinions for surgeries, review of invoices or claims submitted by service providers, and performance audit of providers. [1986 c 303 § 8.]

***Reviser's note:** RCW 70.14.010 was repealed by 1988 c 107 § 35, effective October 1, 1988.

70.14.040 Review of prospective rate setting methods. The state agencies listed in *RCW 70.14.010 shall

review the feasibility of establishing prospective payment approaches within their health care programs. Work plans or timetables shall be prepared for the development of prospective rates. The agencies shall identify legislative actions that may be necessary to facilitate the adoption of prospective rate setting methods. [1986 c 303 § 9.]

***Reviser's note:** RCW 70.14.010 was repealed by 1988 c 107 § 35, effective October 1, 1988.

70.14.050 Drug purchasing cost controls—Establishment of drug formularies. (1) Each agency listed in *RCW 70.14.010 shall individually or in cooperation with other agencies take any necessary actions to control costs without reducing the quality of care when reimbursing for or purchasing drugs. To accomplish this purpose, each agency shall investigate the feasibility of and may establish a drug formulary designating which drugs may be paid for through their health care programs. For purposes of this section, a drug formulary means a list of drugs, either inclusive or exclusive, that defines which drugs are eligible for reimbursement by the agency.

(2) In developing the drug formulary authorized by this section, agencies:

(a) Shall prohibit reimbursement for drugs that are determined to be ineffective by the United States food and drug administration;

(b) Shall adopt rules in order to ensure that less expensive generic drugs will be substituted for brand name drugs in those instances where the quality of care is not diminished;

(c) Where possible, may authorize reimbursement for drugs only in economical quantities;

(d) May limit the prices paid for drugs by such means as central purchasing, volume contracting, or setting maximum prices to be paid;

(e) Shall consider the approval of drugs with lower abuse potential in substitution for drugs with significant abuse potential; and

(f) May take other necessary measures to control costs of drugs without reducing the quality of care.

(3) Agencies may provide for reasonable exceptions to the drug formulary required by this section.

(4) Agencies may establish medical advisory committees, or utilize committees already established, to assist in the development of the drug formulary required by this section. [1986 c 303 § 10.]

***Reviser's note:** RCW 70.14.010 was repealed by 1988 c 107 § 35, effective October 1, 1988.

70.24.015 Legislative finding. The legislature declares that sexually transmitted diseases constitute a serious and sometimes fatal threat to the public and individual health and welfare of the people of the state. The legislature finds that the incidence of sexually transmitted diseases is rising at an alarming rate and that these diseases result in significant social, health, and economic costs, including infant and maternal mortality, temporary and lifelong disability, and premature death. The legislature further finds that sexually transmitted diseases, by their nature, involve sensitive issues of privacy, and it is the intent of the legislature that all programs designed to deal with these diseases afford patients privacy, confidentiality, and dignity. The legislature also finds that medical knowledge and

information about sexually transmitted diseases are rapidly changing. It is therefore the intent of the legislature to provide a program that is sufficiently flexible to meet emerging needs, deals efficiently and effectively with reducing the incidence of sexually transmitted diseases, and provides patients with a secure knowledge that information they provide will remain private and confidential. [1988 c 206 § 901.]

(1) The board shall adopt rules authorizing interviews and the state and local public health officers and their authorized representatives may interview, or cause to be interviewed, all persons infected with a sexually transmitted disease and all persons who, in accordance with standards adopted by the board by rule, are reasonably believed to be infected with such diseases for the purpose of investigating the source and spread of the diseases and for the purpose of ordering a person to submit to examination, counseling, or treatment as necessary for the protection of the public health and safety, subject to RCW 70.24.024.

(2) State and local public health officers or their authorized representatives shall investigate identified partners of persons infected with sexually transmitted diseases in accordance with procedures prescribed by the board.

(3) All information gathered in the course of contact investigation pursuant to this section shall be considered confidential.

(5) Any person who knowingly or maliciously disseminates any false information or report concerning the existence of any sexually transmitted disease under this section is guilty of a gross misdemeanor punishable as provided under RCW 9A.20.021. [1988 c 206 § 906.]

70.24.024 Orders for examinations and counseling—Restrictive measures—Investigation—Issuance of order—Confidential notice and hearing—Exception.

(1) Subject to the provisions of this chapter, the state and local public health officers or their authorized representatives may examine and counsel or cause to be examined and counseled persons reasonably believed to be infected with or to have been exposed to a sexually transmitted disease.

(2) Orders or restrictive measures directed to persons with a sexually transmitted disease shall be used as the last resort when other measures to protect the public health have failed, including reasonable efforts, which shall be documented, to obtain the voluntary cooperation of the person

who may be subject to such an order. The orders and measures shall be applied serially with the least intrusive measures used first. The burden of proof shall be on the state or local public health officer to show that specified grounds exist for the issuance of the orders or restrictive measures and that the terms and conditions imposed are no more restrictive than necessary to protect the public health.

(3) When the state or local public health officer within his or her respective jurisdiction knows or has reason to believe, because of direct medical knowledge or reliable testimony of others in a position to have direct knowledge of a person's behavior, that a person has a sexually transmitted disease and is engaging in specified conduct, as determined by the board by rule based upon generally accepted standards of medical and public health science, that endangers the public health, he or she shall conduct an investigation in accordance with procedures prescribed by the board to evaluate the specific facts alleged, if any, and the reliability and credibility of the person or persons providing such information and, if satisfied that the allegations are true, he or she may issue an order according to the following priority to:

(a) Order a person to submit to a medical examination or testing, seek counseling, or obtain medical treatment for curable diseases, or any combination of these, within a period of time determined by the public health officer, not to exceed fourteen days.

(b) Order a person to immediately cease and desist from specified conduct which endangers the health of others by imposing such restrictions upon the person as are necessary to prevent the specified conduct that endangers the health of others only if the public health officer has determined that clear and convincing evidence exists to believe that such person has been ordered to report for counseling as provided in (a) of this subsection and continues to demonstrate behavior which endangers the health of others. Any restriction shall be in writing, setting forth the name of the person to be restricted and the initial period of time, not to exceed three months, during which the order shall remain effective, the terms of the restrictions, and such other conditions as may be necessary to protect the public health. Restrictions shall be imposed in the least-restrictive manner necessary to protect the public health.

(4)(a) Upon the issuance of any order by the state or local public health officer or an authorized representative pursuant to subsection (3) of this section or RCW 70.24.340(4), such public health officer shall give written notice promptly, personally, and confidentially to the person who is the subject of the order stating the grounds and provisions of the order, including the factual bases therefor, the evidence relied upon for proof of infection and dangerous behavior, and the likelihood of repetition of such behaviors in the absence of such an order, and notifying the person who is the subject of the order that, if he or she contests the order, he or she may appear at a judicial hearing on the enforceability of the order, to be held in superior court. He or she may have an attorney appear on his or her behalf in the hearing at public expense, if necessary. The hearing shall be held within seventy-two hours of receipt of the notice, unless the person subject to the order agrees to comply. If the person contests the order, no invasive medical procedures shall be carried out prior to a hearing

being held pursuant to this subsection. If the person does not contest the order within seventy-two hours of receiving it, and the person does not comply with the order within the time period specified for compliance with the order, the state or local public health officer may request a warrant be issued by the superior court to insure appearance at the hearing. The hearing shall be within seventy-two hours of the expiration date of the time specified for compliance with the original order. The burden of proof shall be on the public health officer to show by clear and convincing evidence that the specified grounds exist for the issuance of the order and for the need for compliance and that the terms and conditions imposed therein are no more restrictive than necessary to protect the public health. Upon conclusion of the hearing, the court shall issue appropriate orders affirming, modifying, or dismissing the order.

(b) If the superior court dismisses the order of the public health officer, the fact that the order was issued shall be expunged from the records of the department or local department of health.

(5) Any hearing conducted pursuant to this section shall be closed and confidential unless a public hearing is requested by the person who is the subject of the order, in which case the hearing will be conducted in open court. Unless in open hearing, any transcripts or records relating thereto shall also be confidential and may be sealed by the order of the court. [1988 c 206 § 909.]

70.24.034 Detention—Grounds—Order—Hearing.

(1) When the procedures of RCW 70.24.024 have been exhausted and the state or local public health officer, within his or her respective jurisdiction, knows or has reason to believe, because of medical information, that a person has a sexually transmitted disease and that the person continues to engage in behaviors that present an imminent danger to the public health as defined by the board by rule based upon generally accepted standards of medical and public health science, the public health officer may bring an action in superior court to detain the person in a facility designated by the board for a period of time necessary to accomplish a program of counseling and education, excluding any coercive techniques or procedures, designed to get the person to adopt nondangerous behavior. In no case may the period exceed ninety days under each order. The board shall establish, by rule, standards for counseling and education under this subsection. The public health officer shall request the prosecuting attorney to file such action in superior court. During that period, reasonable efforts will be made in a noncoercive manner to get the person to adopt nondangerous behavior.

(2) If an action is filed as outlined in subsection (1) of this section, the superior court, upon the petition of the prosecuting attorney, shall issue other appropriate court orders including, but not limited to, an order to take the person into custody immediately, for a period not to exceed seventy-two hours, and place him or her in a facility designated or approved by the board. The person who is the subject of the order shall be given written notice of the order promptly, personally, and confidentially, stating the grounds and provisions of the order, including the factual bases therefor, the evidence relied upon for proof of infection and

dangerous behavior, and the likelihood of repetition of such behaviors in the absence of such an order, and notifying the person that if he or she refuses to comply with the order he or she may appear at a hearing to review the order and that he or she may have an attorney appear on his or her behalf in the hearing at public expense, if necessary. If the person contests testing or treatment, no invasive medical procedures shall be carried out prior to a hearing being held pursuant to subsection (3) of this section.

(3) The hearing shall be conducted no later than forty-eight hours after the receipt of the order. The person who is subject to the order has a right to be present at the hearing and may have an attorney appear on his or her behalf in the hearing, at public expense if necessary. If the order being contested includes detention for a period of fourteen days or longer, the person shall also have the right to a trial by jury upon request. Upon conclusion of the hearing or trial by jury, the court shall issue appropriate orders.

The court may continue the hearing upon the request of the person who is subject to the order for good cause shown for no more than five additional judicial days. If a trial by jury is requested, the court, upon motion, may continue the hearing for no more than ten additional judicial days. During the pendency of the continuance, the court may order that the person contesting the order remain in detention or may place terms and conditions upon the person which the court deems appropriate to protect public health.

(4) The burden of proof shall be on the state or local public health officer to show by clear and convincing evidence that grounds exist for the issuance of any court order pursuant to subsection (2) or (3) of this section. If the superior court dismisses the order, the fact that the order was issued shall be expunged from the records of the state or local department of health.

(5) Any hearing conducted by the superior court pursuant to subsection (2) or (3) of this section shall be closed and confidential unless a public hearing is requested by the person who is the subject of the order, in which case the hearing will be conducted in open court. Unless in open hearing, any transcripts or records relating thereto shall also be confidential and may be sealed by order of the court.

(6) Any order entered by the superior court pursuant to subsection (1) or (2) of this section shall impose terms and conditions no more restrictive than necessary to protect the public health. [1988 c 206 § 910.]

70.24.050 Diagnosis of sexually transmitted diseases—Confirmation—Anonymous prevalence reports.

Diagnosis of a sexually transmitted disease in every instance must be confirmed by laboratory tests or examinations in a laboratory approved or conducted in accordance with procedures and such other requirements as may be established by the board. Laboratories testing for HIV shall report anonymous HIV prevalence results to the department, for health statistics purposes, in a manner established by the board. [1988 c 206 § 907; 1919 c 114 § 6; RRS § 6105.]

70.24.070 Detention and treatment facilities. For the purpose of carrying out this chapter, the board shall have the power and authority to designate facilities for the detention and treatment of persons found to be infected with

a sexually transmitted disease and to designate any such facility in any hospital or other public or private institution, other than a jail or correctional facility, having, or which may be provided with, such necessary detention, segregation, isolation, clinic and hospital facilities as may be required and prescribed by the board, and to enter into arrangements for the conduct of such facilities with the public officials or persons, associations, or corporations in charge of or maintaining and operating such institutions. [1988 c 206 § 908; 1919 c 114 § 8; RRS § 6107.]

70.24.080 Penalty. Any person who shall violate any of the provisions of this chapter or any lawful rule adopted by the board pursuant to the authority herein granted, or who shall fail or refuse to obey any lawful order issued by any state, county or municipal public health officer, pursuant to the authority granted in this chapter, shall be deemed guilty of a gross misdemeanor punishable as provided under RCW 9A.20.021. [1988 c 206 § 911; 1919 c 114 § 5; RRS § 6104.]

70.24.084 Violations of chapter—Aggrieved persons—Right of action. (1) Any person aggrieved by a violation of this chapter shall have a right of action in superior court and may recover for each violation:

(a) Against any person who negligently violates a provision of this chapter, one thousand dollars, or actual damages, whichever is greater, for each violation.

(b) Against any person who intentionally or recklessly violates a provision of this chapter, two thousand dollars, or actual damages, whichever is greater, for each violation.

(c) Reasonable attorneys' fees and costs.

(d) Such other relief, including an injunction, as the court may deem appropriate.

(2) Any action under this chapter is barred unless the action is commenced within three years after the cause of action accrues.

(3) Nothing in this chapter limits the rights of the subject of a test for a sexually transmitted disease to recover damages or other relief under any other applicable law.

(4) Nothing in this chapter may be construed to impose civil liability or criminal sanction for disclosure of a test result for a sexually transmitted disease in accordance with any reporting requirement for a diagnosed case of sexually transmitted disease by the department or the centers for disease control of the United States public health service. [1988 c 206 § 914.]

70.24.090 Pregnant women—Test for syphilis.

Every physician attending a pregnant woman in the state of Washington during gestation shall, in the case of each woman so attended, take or cause to be taken a sample of blood of such woman at the time of first examination, and submit such sample to an approved laboratory for a standard serological test for syphilis. If the pregnant woman first presents herself for examination after the fifth month of gestation the physician or other attendant shall in addition to the above, advise and urge the patient to secure a medical examination and blood test before the fifth month of any subsequent pregnancies. [1939 c 165 § 1; RRS § 6002-1.]

70.24.095 Pregnant women—Drug treatment program participants—AIDS counseling. (1) Every health care practitioner attending a pregnant woman or a person seeking treatment of a sexually transmitted disease shall insure that AIDS counseling of the patient is conducted.

(2) AIDS counseling shall be provided to each person in a drug treatment program under *chapter 69.54 RCW. [1988 c 206 § 705.]

*Reviser's note: Chapter 69.54 RCW was repealed by 1989 c 270 § 35.

70.24.100 Syphilis laboratory tests. A standard serological test shall be a laboratory test for syphilis approved by the secretary of health and shall be performed either by a laboratory approved by the secretary of health for the performance of the particular serological test used or by the state department of health, on request of the physician free of charge. [1991 c 3 § 323; 1979 c 141 § 95; 1939 c 165 § 2; RRS § 6002-2.]

70.24.105 Disclosure of HIV antibody test or testing or treatment of sexually transmitted diseases—Exchange of medical information. (1) No person may disclose or be compelled to disclose the identity of any person who has investigated, considered, or requested a test or treatment for a sexually transmitted disease, except as authorized by this chapter.

(2) No person may disclose or be compelled to disclose the identity of any person upon whom an HIV antibody test is performed, or the results of such a test, nor may the result of a test for any other sexually transmitted disease when it is positive be disclosed. This protection against disclosure of test subject, diagnosis, or treatment also applies to any information relating to diagnosis of or treatment for HIV infection and for any other confirmed sexually transmitted disease. The following persons, however, may receive such information:

(a) The subject of the test or the subject's legal representative for health care decisions in accordance with RCW 7.70.065, with the exception of such a representative of a minor child over fourteen years of age and otherwise competent;

(b) Any person who secures a specific release of test results or information relating to HIV or confirmed diagnosis of or treatment for any other sexually transmitted disease executed by the subject or the subject's legal representative for health care decisions in accordance with RCW 7.70.065, with the exception of such a representative of a minor child over fourteen years of age and otherwise competent;

such record was obtained by means of court ordered HIV testing pursuant to RCW 70.24.340 or 70.24.024;

(f) A person allowed access to the record by a court order granted after application showing good cause therefor. In assessing good cause, the court shall weigh the public interest and the need for disclosure against the injury to the patient, to the physician-patient relationship, and to the treatment services. Upon the granting of the order, the court, in determining the extent to which any disclosure of all or any part of the record of any such test is necessary, shall impose appropriate safeguards against unauthorized disclosure. An order authorizing disclosure shall: (i) Limit disclosure to those parts of the patient's record deemed essential to fulfill the objective for which the order was granted; (ii) limit disclosure to those persons whose need for information is the basis for the order; and (iii) include any other appropriate measures to keep disclosure to a minimum for the protection of the patient, the physician-patient relationship, and the treatment services, including but not limited to the written statement set forth in subsection (5) of this section;

(g) Persons who, because of their behavioral interaction with the infected individual, have been placed at risk for acquisition of a sexually transmitted disease, as provided in RCW 70.24.022, if the health officer or authorized representative believes that the exposed person was unaware that a risk of disease exposure existed and that the disclosure of the identity of the infected person is necessary;

(h) A law enforcement officer, fire fighter, health care provider, health care facility staff person, or other persons as defined by the board in rule pursuant to RCW 70.24.340(4), who has requested a test of a person whose bodily fluids he or she has been substantially exposed to, pursuant to RCW 70.24.340(4), if a state or local public health officer performs the test;

(i) Claims management personnel employed by or associated with an insurer, health care service contractor, health maintenance organization, self-funded health plan, state-administered health care claims payer, or any other payer of health care claims where such disclosure is to be used solely for the prompt and accurate evaluation and payment of medical or related claims. Information released under this subsection shall be confidential and shall not be released or available to persons who are not involved in handling or determining medical claims payment; and

(j) A department of social and health services worker, a child placing agency worker, or a guardian ad litem who is responsible for making or reviewing placement or case-planning decisions or recommendations to the court regarding a child, who is less than fourteen years of age, has a sexually transmitted disease, and is in the custody of the department of social and health services or a licensed child placing agency; this information may also be received by a person responsible for providing residential care for such a child when the department of social and health services or a licensed child placing agency determines that it is necessary for the provision of child care services.

(3) No person to whom the results of a test for a sexually transmitted disease have been disclosed pursuant to subsection (2) of this section may disclose the test results to another person except as authorized by that subsection.

(4) The release of sexually transmitted disease information regarding an offender, except as provided in subsection (2)(e) of this section, shall be governed as follows:

(a) The sexually transmitted disease status of a department of corrections offender shall be made available by department of corrections health care providers to a department of corrections superintendent or administrator as necessary for disease prevention or control and for protection of the safety and security of the staff, offenders, and the public. The information may be submitted to transporting officers and receiving facilities, including facilities that are not under the department of correction's jurisdiction.

(b) The sexually transmitted disease status of a person detained in a jail shall be made available by the local public health officer to a jail administrator as necessary for disease prevention or control and for protection of the safety and security of the staff, offenders, and the public. The information may be submitted to transporting officers and receiving facilities.

(c) Information regarding a department of corrections offender's sexually transmitted disease status is confidential and may be disclosed by a correctional superintendent or administrator or local jail administrator only as necessary for disease prevention or control and for protection of the safety and security of the staff, offenders, and the public. Unauthorized disclosure of this information to any person may result in disciplinary action, in addition to any other penalties as may be prescribed by law.

(5) Whenever disclosure is made pursuant to this section, except for subsections (2)(a) and (6) of this section, it shall be accompanied by a statement in writing which includes the following or substantially similar language: "This information has been disclosed to you from records whose confidentiality is protected by state law. State law prohibits you from making any further disclosure of it without the specific written consent of the person to whom it pertains, or as otherwise permitted by state law. A general authorization for the release of medical or other information is NOT sufficient for this purpose." An oral disclosure shall be accompanied or followed by such a notice within ten days.

(6) The requirements of this section shall not apply to the customary methods utilized for the exchange of medical information among health care providers in order to provide health care services to the patient, nor shall they apply within health care facilities where there is a need for access to confidential medical information to fulfill professional duties.

(7) Upon request of the victim, disclosure of test results under this section to victims of sexual offenses under chapter 9A.44 RCW shall be made if the result is negative or positive. The county prosecuting attorney shall notify the victim of the right to such disclosure. consent to the furnishing of hospital, medical and surgical care related to the diagnosis or treatment of such disease. Such consent shall not be subject to disaffirmance because of minority. The consent of the parent, parents, or legal guardian of such minor shall not be necessary to authorize hospital, medical and surgical care related to such disease and such parent, parents, or legal guardian shall not be liable for payment for any care rendered pursuant to this section. [1988 c 206 § 912; 1969 ex.s. c 164 § 1.]

Sexually transmitted disease case investigators, upon specific authorization from a physician, are hereby authorized to perform venipuncture or skin puncture on a person for the sole purpose of withdrawing blood for use in sexually transmitted disease tests.

The term "sexually transmitted disease case investigator" shall mean only those persons who:

- (1) Are employed by public health authorities; and
- (2) Have been trained by a physician in proper procedures to be employed when withdrawing blood in accordance with training requirements established by the department of health; and
- (3) Possess a statement signed by the instructing physician that the training required by subsection (2) of this section has been successfully completed.

Rules may also be adopted by the department of health for the purposes of this chapter. The rules may include procedures for taking appropriate action, in addition to any other penalty under this chapter, with regard to health care facilities or health care providers which violate this chapter or the rules adopted under this chapter. The rules shall prescribe stringent safeguards to protect the confidentiality of the persons and records subject to this chapter. The procedures set forth in chapter 34.05 RCW apply to the administration of this chapter, except that in case of conflict between chapter 34.05 RCW and this chapter, the provisions of this chapter shall control. [1991 c 3 § 325; 1988 c 206 § 915.]

70.24.140 Certain infected persons—Sexual intercourse unlawful without notification. It is unlawful for any person who has a sexually transmitted disease, except HIV infection, when such person knows he or she is infected with such a disease and when such person has been informed that he or she may communicate the disease to another person through sexual intercourse, to have sexual intercourse

with any other person, unless such other person has been informed of the presence of the sexually transmitted disease. [1988 c 206 § 917.]

Effective date—1988 c 206 §§ 916, 917: See note following RCW 9A.36.021.

All material directed to children in grades kindergarten through twelve and providing education regarding any sexually transmitted disease that is written, published, distributed, or used by any public entity, and all such information paid for, in whole or in part, with any public moneys shall give emphasis to the importance of sexual abstinence outside lawful marriage and avoidance of substance abuse in controlling disease. [1988 c 206 § 202.]

Common school curriculum: RCW 28A.230.020.

70.24.220 AIDS education in public schools—Finding. The legislature finds that the public schools provide a unique and appropriate setting for educating young people about the pathology and prevention of acquired immunodeficiency syndrome (AIDS). The legislature recognizes that schools and communities vary throughout the state and that locally elected school directors should have a significant role in establishing a program of AIDS education in their districts. [1988 c 206 § 401.]

70.24.240 Clearinghouse for AIDS educational materials. The number of acquired immunodeficiency syndrome (AIDS) cases in the state may reach five thousand by 1991. This makes it necessary to provide our state's workforce with the resources and knowledge to deal with the epidemic. To ensure that accurate information is available to the state's work force, a clearinghouse for all technically correct educational materials related to AIDS should be created. [1988 c 206 § 601.]

The office on AIDS shall assist state agencies with information necessary to carry out the purposes of this chapter. The department shall work with state and county agencies and specific employee and professional groups to provide information appropriate to their needs, and shall make educational materials available to private employers and encourage them to distribute this information to their employees. [1988 c 206 § 602.]

The Washington personnel resources board and each unit of local government shall determine whether any employees under their jurisdiction have a substantial likelihood of exposure in the course of their employment to the human immunodeficiency virus. If so, the agency or unit of government shall adopt rules requiring appropriate training and education for the employees on the prevention, transmission, and treatment of AIDS. The rules shall specifically provide for such training and education for law enforcement, correctional, and health care workers. The Washington personnel resources board and each unit of local government shall work with the office on AIDS under RCW 70.24.250 to develop the educational and training material necessary for employees. [1993 c 281 § 60; 1988 c 206 § 607.]

Effective date—1993 c 281: See note following RCW 41.06.022.

(1) "Pretest counseling" means counseling aimed at helping the individual understand ways to reduce the risk of HIV infection, the nature and purpose of the tests, the significance of the results, and the potential dangers of the disease, and to assess the individual's ability to cope with the results.

(2) "Posttest counseling" means further counseling following testing usually directed toward increasing the individual's understanding of the human immunodeficiency virus infection, changing the individual's behavior, and, if necessary, encouraging the individual to notify persons with whom there has been contact capable of spreading HIV.

(3) "AIDS counseling" means counseling directed toward increasing the individual's understanding of acquired immunodeficiency syndrome and changing the individual's behavior.

(4) "HIV testing" means a test indicative of infection with the human immunodeficiency virus as specified by the board of health by rule. [1988 c 206 § 701.]

70.24.325 Counseling and testing—Insurance requirements. (1) This section shall apply to counseling and consent for HIV testing administered as part of an application for coverage authorized under Title 48 RCW.

(2) Persons subject to regulation under Title 48 RCW who are requesting an insured, a subscriber, or a potential insured or subscriber to furnish the results of an HIV test for underwriting purposes as a condition for obtaining or renewing coverage under an insurance contract, health care service contract, or health maintenance organization agreement shall:

(a) Provide written information to the individual prior to being tested which explains:

(i) What an HIV test is;

(ii) Behaviors that place a person at risk for HIV infection;

(iii) That the purpose of HIV testing in this setting is to determine eligibility for coverage;

(iv) The potential risks of HIV testing; and

(v) Where to obtain HIV pretest counseling.

(b) Obtain informed specific written consent for an HIV test. The written informed consent shall include:

(i) An explanation of the confidential treatment of the test results which limits access to the results to persons involved in handling or determining applications for coverage or claims of the applicant or claimant and to those persons designated under (c)(iii) of this subsection; and

(ii) Requirements under (c)(iii) of this subsection.

(c) Establish procedures to inform an applicant of the following:

(i) That post-test counseling, as specified under WAC 248-100-209(4), is required if an HIV test is positive or indeterminate;

(ii) That post-test counseling occurs at the time a positive or indeterminate HIV test result is given to the tested individual;

(iii) That the applicant may designate a health care provider or health care agency to whom the insurer, the health care service contractor, or health maintenance organization will provide positive or indeterminate test results for interpretation and post-test counseling. When an applicant does not identify a designated health care provider or health care agency and the applicant's test results are either positive or indeterminate, the insurer, the health care service contractor, or health maintenance organization shall provide the test results to the local health department for interpretation and post-test counseling; and

(iv) That positive or indeterminate HIV test results shall not be sent directly to the applicant. [1989 c 387 § 1.]

70.24.330 HIV testing—Consent, exceptions. No person may undergo HIV testing without the person's consent except:

(1) Pursuant to RCW 7.70.065 for incompetent persons;

(2) In seroprevalence studies where neither the persons whose blood is being tested know the test results nor the persons conducting the tests know who is undergoing testing;

(3) If the department of labor and industries determines that it is relevant, in which case payments made under Title 51 RCW may be conditioned on the taking of an HIV antibody test; or

(4) As otherwise expressly authorized by this chapter. [1988 c 206 § 702.]

70.24.340 Convicted persons—Mandatory testing and counseling for certain offenses—Employees substantial exposure to bodily fluids—Procedure. (1) Local health departments authorized under this chapter shall conduct or cause to be conducted pretest counseling, HIV testing, and posttest counseling of all persons:

(b) Convicted of prostitution or offenses relating to prostitution under chapter 9A.88 RCW; or

(c) Convicted of drug offenses under chapter 69.50 RCW if the court determines at the time of conviction that the related drug offense is one associated with the use of hypodermic needles.

(2) Such testing shall be conducted as soon as possible after sentencing and shall be so ordered by the sentencing judge.

(3) This section applies only to offenses committed after March 23, 1988.

(4) A law enforcement officer, fire fighter, health care provider, health care facility staff person, or other categories of employment determined by the board in rule to be at risk of substantial exposure to HIV, who has experienced a substantial exposure to another person's bodily fluids in the course of his or her employment, may request a state or local public health officer to order pretest counseling, HIV testing, and posttest counseling for the person whose bodily fluids he or she has been exposed to. The person who is subject to the order shall be given written notice of the order promptly, personally, and confidentially, stating the grounds and provisions of the order, including the factual basis therefor. If the person who is subject to the order refuses to comply, the state or local public health officer may petition the superior court for a hearing. The standard of review for the order is whether substantial exposure occurred and whether that exposure presents a possible risk of transmission of the HIV virus as defined by the board by rule. Upon conclusion of the hearing, the court shall issue the appropriate order. The state or local public health officer shall perform counseling and testing under this subsection if he or she finds that the exposure was substantial and presents a possible risk as defined by the board of health by rule. [1988 c 206 § 703.]

70.24.350 Prostitution and drug offenses—Voluntary testing and counseling. Services shall include educational materials that outline the seriousness of AIDS and encourage voluntary participation. [1988 c 206 § 704.]

70.24.360 Jail detainees—Testing and counseling of persons who present a possible risk. Jail administrators, with the approval of the local public health officer, may order pretest counseling, HIV testing, and posttest counseling for persons detained in the jail if the local public health officer determines that actual or threatened behavior presents a possible risk to the staff, general public, or other persons.

Approval of the local public health officer shall be based on RCW 70.24.024(3) and may be contested through RCW 70.24.024(4). The administrator shall establish, pursuant to RCW 70.48.071, a procedure to document the possible risk which is the basis for the HIV testing. "Possible risk," as used in this section, shall be defined by the board in rule. Documentation of the behavior, or threat thereof, shall be reviewed with the person to try to assure that the person understands the basis for testing. [1988 c 206 § 706.]

70.24.370 Correction facility inmates—Counseling and testing of persons who present a possible risk—Training for administrators and superintendents—Procedure. (1) Department of corrections facility administrators may order pretest counseling, HIV testing, and posttest counseling for inmates if the secretary of corrections or the secretary's designee determines that actual or threatened behavior presents a possible risk to the staff, general public, or other inmates. The department of corrections shall establish a procedure to document the possible risk which is the basis for the HIV testing. "Possible risk," as used in this section, shall be defined by the department of corrections after consultation with the board. Possible risk, as used in the documentation of the behavior, or threat thereof, shall be reviewed with the inmate.

(2) Department of corrections administrators and superintendents who are authorized to make decisions about testing and dissemination of test information shall, at least annually, participate in training seminars on public health considerations conducted by the assistant secretary for public health or her or his designee.

(3) Administrative hearing requirements set forth in chapter 34.05 RCW do not apply to the procedure developed by the department of corrections pursuant to this section. This section shall not be construed as requiring any hearing process except as may be required under existing federal constitutional law.

(4) RCW 70.24.340 does not apply to the department of corrections or to inmates in its custody or subject to its jurisdiction. [1988 c 206 § 707.]

70.24.380 Board of health—Rules for counseling and testing. The board of health shall adopt rules establishing minimum standards for pretest counseling, HIV testing, posttest counseling, and AIDS counseling. [1988 c 206 § 709.]

70.24.400 Department to establish regional AIDS service networks—Funding—Lead counties—Regional plans—University of Washington, center for AIDS education. The department shall establish a state-wide system of regional acquired immunodeficiency syndrome (AIDS) service networks as follows:

(1) The secretary of health shall direct that all state or federal funds, excluding those from federal Title XIX for services or other activities authorized in this chapter, shall be allocated to the office on AIDS established in RCW 70.24.250. The secretary shall further direct that all funds for services and activities specified in subsection (3) of this section shall be provided to lead counties through contractual agreements based on plans developed as provided in subsec-

tion (2) of this section, unless direction of such funds is explicitly prohibited by federal law, federal regulation, or federal policy. The department shall deny funding allocations to lead counties only if the denial is based upon documented incidents of nonfeasance, misfeasance, or malfeasance. However, the department shall give written notice and thirty days for corrective action in incidents of misfeasance or nonfeasance before funding may be denied. The department shall designate six AIDS service network regions encompassing the state. In doing so, the department shall use the boundaries of the regional structures in place for the community services administration on January 1, 1988.

(2) The department shall request that a lead county within each region, which shall be the county with the largest population, prepare, through a cooperative effort of local health departments within the region, a regional organizational and service plan, which meets the requirements set forth in subsection (3) of this section. Efforts should be made to use existing plans, where appropriate. The plan should place emphasis on contracting with existing hospitals, major voluntary organizations, or health care organizations within a region that have in the past provided quality services similar to those mentioned in subsection (3) of this section and that have demonstrated an interest in providing any of the components listed in subsection (3) of this section. If any of the counties within a region do not participate, it shall be the lead county's responsibility to develop the part of the plan for the nonparticipating county or counties. If all of the counties within a region do not participate, the department shall assume the responsibility.

(3) The regional AIDS service network plan shall include the following components:

(a) A designated single administrative or coordinating agency;

(b) A complement of services to include:

(i) Voluntary and anonymous counseling and testing;

(ii) Mandatory testing and/or counseling services for certain individuals, as required by law;

(iii) Notification of sexual partners of infected persons, as required by law;

(iv) Education for the general public, health professionals, and high-risk groups;

(v) Intervention strategies to reduce the incidence of HIV infection among high-risk groups, possibly including needle sterilization and methadone maintenance;

(vi) Related community outreach services for runaway youth;

(vii) Case management;

(viii) Strategies for the development of volunteer networks;

(ix) Strategies for the coordination of related agencies within the network; and

(x) Other necessary information, including needs particular to the region;

(c) A service delivery model that includes:

(i) Case management services; and

(ii) A community-based continuum-of-care model encompassing both medical, mental health, and social services with the goal of maintaining persons with AIDS in a home-like setting, to the extent possible, in the least-expensive manner; and

(d) Budget, caseload, and staffing projections.

(4) Efforts shall be made by both the counties and the department to use existing service delivery systems, where possible, in developing the networks.

(5) The University of Washington health science program, in cooperation with the office on AIDS may, within available resources, establish a center for AIDS education, which shall be linked to the networks. The center for AIDS education is not intended to engage in state-funded research related to HIV infection, AIDS, or HIV-related conditions. Its duties shall include providing the office on AIDS with the appropriate educational materials necessary to carry out that office's duties.

(6) The department shall implement this section, consistent with available funds, by October 1, 1988, by establishing six regional AIDS service networks whose combined jurisdictions shall include the entire state.

(a) Until June 30, 1991, available funding for each regional AIDS service network shall be allocated as follows:

(i) Seventy-five percent of the amount provided for regional AIDS service networks shall be allocated per capita based on the number of persons residing within each region, but in no case less than one hundred fifty thousand dollars for each regional AIDS service network per fiscal year. This amount shall be expended for testing, counseling, education, case management, notification of sexual partners of infected persons, planning, coordination, and other services required by law, except for those enumerated in (ii) of this subsection.

(ii) Twenty-five percent of the amount provided for regional AIDS service networks shall be allocated for intervention strategies specifically addressing groups that are at a high risk of being infected with the human immunodeficiency virus. The allocation shall be made by the office on AIDS based on documented need as specified in regional AIDS network plans.

(b) After June 30, 1991, the funding shall be allocated as provided by law. By December 15, 1990, the department shall report to the appropriate committees of the legislature on proposed methods of funding regional AIDS service networks.

(7) The regional AIDS service networks shall be the official state regional agencies for AIDS information education and coordination of services. The state public health officer, as designated by the secretary of health, shall make adequate efforts to publicize the existence and functions of the networks.

(8) If the department is not able to establish a network by an agreement solely with counties, it may contract with nonprofit agencies for any or all of the designated network responsibilities.

(9) The department, in establishing the networks, shall study mechanisms that could lead to reduced costs and/or increased access to services. The methods shall include capitation.

(10) The department shall reflect in its departmental biennial budget request the funds necessary to implement this section.

(11) The department shall submit an implementation plan to the appropriate committees of the legislature by July 1, 1988.

(12) The use of appropriate materials may be authorized by regional AIDS service networks in the prevention or

control of HIV infection. [1991 c 3 § 327; 1988 c 206 § 801.]

70.24.420 Additional local funding of treatment programs not required. Nothing in this chapter may be construed to require additional local funding of programs to treat communicable disease established as of March 23, 1988. [1988 c 206 § 919.]

70.24.430 Application of chapter to persons subject to jurisdiction of department of corrections. [1988 c 206 § 920.]

70.24.900 Severability—1988 c 206. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected. [1988 c 206 § 1001.]

70.28.005 Health officials, broad powers to protect public health. (1) Tuberculosis has been and continues to be a threat to the public's health in the state of Washington.

(2) While it is important to respect the rights of individuals, the legitimate public interest in protecting the public health and welfare from the spread of a deadly infectious disease outweighs incidental curtailment of individual rights that may occur in implementing effective testing, treatment, and infection control strategies.

(3) To protect the public's health, it is the intent of the legislature that local health officials provide culturally sensitive and medically appropriate early diagnosis, treatment, education, and follow-up to prevent tuberculosis. Further, it is imperative that public health officials and their staff have the necessary authority and discretion to take actions as are necessary to protect the health and welfare of the public, subject to the constitutional protection required under the federal and state constitutions. Nothing in this chapter shall be construed as in any way limiting the broad powers of health officials to act as necessary to protect the public health. [1994 c 145 § 1.]

70.28.010 Physicians required to report cases. All practicing physicians in the state are hereby required to report to the local boards of health in writing, the name, age, sex, occupation and residence of every person having tuberculosis who has been attended by, or who has come under the observation of such physician within one day thereof. [1996 c 209 § 1; 1967 c 54 § 1; 1899 c 71 § 1; RRS § 6109.]

Severability—1967 c 54: "If any provision of this act, or its application to any person or circumstance is held invalid, the remainder of the act, or the application of the provision to other persons or circumstances is not affected." [1967 c 54 § 20.] For codification of 1967 c 54, see Codification Tables, Volume 0.

70.28.020 Record of reports. All local boards of health in this state are hereby required to receive and keep a permanent record of the reports required by RCW 70.28.010 to be made to them; such records shall not be open to public inspection, but shall be submitted to the proper inspection of other local and state boards of health alone, and such records shall not be published nor made public. [1967 c 54 § 2; 1899 c 71 § 2; RRS § 6110.]

70.28.031 Powers and duties of health officers. Each health officer is hereby directed to use every available means to ascertain the existence of, and immediately to investigate, all reported or suspected cases of tuberculosis in the infectious stages within his or her jurisdiction and to ascertain the sources of such infections. In carrying out such investigations, each health officer is hereby invested with full powers of inspection, examination, treatment, and quarantine or isolation of all persons known to be infected with tuberculosis in an infectious stage or persons who have been previously diagnosed as having tuberculosis and who are under medical orders for treatment or periodic follow-up examinations and is hereby directed:

(a) To make such examinations as are deemed necessary of persons reasonably suspected of having tuberculosis in an infectious stage and to isolate and treat or isolate, treat, and quarantine such persons, whenever deemed necessary for the protection of the public health.

(b) To make such examinations as deemed necessary of persons who have been previously diagnosed as having tuberculosis and who are under medical orders for periodic follow-up examinations.

(c) Follow local rules and regulations regarding examinations, treatment, quarantine, or isolation, and all rules, regulations, and orders of the state board and of the depart-

ment in carrying out such examination, treatment, quarantine, or isolation.

(d) Whenever the health officer shall determine on reasonable grounds that an examination or treatment of any person is necessary for the preservation and protection of the public health, he or she shall make an examination order in writing, setting forth the name of the person to be examined, the time and place of the examination, the treatment, and such other terms and conditions as may be necessary to protect the public health. Nothing contained in this subdivision shall be construed to prevent any person whom the health officer determines should have an examination or treatment for infectious tuberculosis from having such an examination or treatment made by a physician of his or her own choice who is licensed to practice osteopathic medicine and surgery under chapter 18.57 RCW or medicine and surgery under chapter 18.71 RCW under such terms and conditions as the health officer shall determine on reasonable grounds to be necessary to protect the public health.

(e) Whenever the health officer shall determine that quarantine, treatment, or isolation in a particular case is necessary for the preservation and protection of the public health, he or she shall make an order to that effect in writing, setting forth the name of the person, the period of time during which the order shall remain effective, the place of treatment, isolation, or quarantine, and such other terms and conditions as may be necessary to protect the public health.

(f) Upon the making of an examination, treatment, isolation, or quarantine order as provided in this section, a copy of such order shall be served upon the person named in such order.

(g) Upon the receipt of information that any examination, treatment, quarantine, or isolation order, made and served as herein provided, has been violated, the health officer shall advise the prosecuting attorney of the county in which such violation has occurred, in writing, and shall submit to such prosecuting attorney the information in his or her possession relating to the subject matter of such examination, treatment, isolation, or quarantine order, and of such violation or violations thereof.

(h) Any and all orders authorized under this section shall be made by the health officer or his or her tuberculosis control officer.

(i) Nothing in this chapter shall be construed to abridge the right of any person to rely exclusively on spiritual means alone through prayer to treat tuberculosis in accordance with the tenets and practice of any well-recognized church or religious denomination, nor shall anything in this chapter be deemed to prohibit a person who is inflicted with tuberculosis from being isolated or quarantined in a private place of his own choice, provided, it is approved by the local health officer, and all laws, rules and regulations governing control, sanitation, isolation, and quarantine are complied with. [1996 c 209 § 2; 1996 c 178 § 21; 1967 c 54 § 4.]

Reviser's note: This section was amended by 1996 c 178 § 21 and by 1996 c 209 § 2, each without reference to the other. Both amendments are incorporated in the publication of this section under RCW 1.12.025(2). For rule of construction, see RCW 1.12.025(1).

Effective date—1996 c 178: See note following RCW 18.35.110.

70.28.032 Due process standards for testing, treating, detaining—Reporting requirements—Training and scope for skin test administration. (1) The state board of health shall adopt rules establishing the requirements for:

(a) Reporting confirmed or suspected cases of tuberculosis by health care providers and reporting of laboratory results consistent with tuberculosis by medical test sites;

(b) Due process standards for health officers exercising their authority to involuntarily detain, test, treat, or isolate persons with suspected or confirmed tuberculosis under RCW 70.28.031 and 70.05.070 that provide for release from any involuntary detention, testing, treatment, or isolation as soon as the health officer determines the patient no longer represents a risk to the public's health;

(c) Training of persons to perform tuberculosis skin testing and to administer tuberculosis medications.

(2) Notwithstanding any other provision of law, persons trained under subsection (1)(c) of this section may perform skin testing and administer medications if doing so as part of a program established by a state or local health officer to control tuberculosis. [1996 c 209 § 3; 1994 c 145 § 2.]

70.28.033 Treatment, isolation, or examination order of health officer—Violation—Penalty. Inasmuch as the order provided for by RCW 70.28.031 is for the protection of the public health, any person who, after service upon him or her of an order of a health officer directing his or her treatment, isolation, or examination as provided for in RCW 70.28.031, violates or fails to comply with the same or any provision thereof, is guilty of a misdemeanor, and, upon conviction thereof, in addition to any and all other penalties which may be imposed by law upon such conviction, may be ordered by the court confined until such order of such health officer shall have been fully complied with or terminated by such health officer, but not exceeding six months from the date of passing judgment upon such conviction: PROVIDED, That the court, upon suitable assurances that such order of such health officer will be complied with, may place any person convicted of a violation of such order of such health officer upon probation for a period not to exceed two years, upon condition that the said order of said health officer be fully complied with: AND PROVIDED FURTHER, That upon any subsequent violation of such order of such health officer, such probation shall be terminated and confinement as herein provided ordered by the court. [1996 c 209 § 4; 1967 c 54 § 5.]

70.28.035 Order of health officer—Refusal to obey—Application for superior court order. In addition to the proceedings set forth in RCW 70.28.031, where a local health officer has reasonable cause to believe that an individual has tuberculosis as defined in the rules and regulations of the state board of health, and the individual refuses to obey the order of the local health officer to appear for an initial examination or a follow-up examination or an order for treatment, isolation, or quarantine, the health officer may apply to the superior court for an order requiring the individual to comply with the order of the local health officer. [1996 c 209 § 5; 1967 c 54 § 6.]

70.28.037 Superior court order for confinement of individuals having active tuberculosis. Where it has been determined after an examination as prescribed above, that an individual has active tuberculosis, and he resides in a county in which no tuberculosis facility is located, upon application to the superior court by the local health officer, the superior court may order the sheriff to transport said individual to a designated tuberculosis facility for isolation, treatment and care until such time as the medical director of the hospital determines that his condition is such that it is safe for him to be discharged from the facility. [1967 c 54 § 7.]

70.28.040 Penalty. Any practicing physician who shall wilfully fail to comply with the provisions of RCW 70.28.010 shall be guilty of a misdemeanor, and on conviction thereof may be fined for the first offense not exceeding five dollars, and for any subsequent offense not exceeding one hundred dollars. [1899 c 71 § 4; RRS § 6112.]

70.28.050 Enforcement of regulations. It is hereby made the duty of every person having tuberculosis and of every one attending such person, and of the authorities of public and private institutions, hospitals or dispensaries, to observe and enforce the sanitary rules and regulations prescribed from time to time by the local boards of health and by the state board of health for the prevention of the spread of pulmonary tuberculosis. [1967 c 54 § 3; 1899 c 71 § 5; RRS § 6113.]

70.37.010 Declaration of public policies—Purpose.

The good health of the people of our state is a most important public concern. The state has a direct interest in seeing to it that health care facilities adequate for good public health are established and maintained in sufficient numbers and in proper locations. The rising costs of care of the infirm constitute a grave challenge not only to health care providers but to our state and the people of our state who will seek such care. It is hereby declared to be the public policy of the state of Washington to assist and encourage the building, providing and utilization of modern, well equipped and reasonably priced health care facilities, and the improvement, expansion and modernization of health care facilities in a manner that will minimize the capital costs of construction, financing and use thereof and thereby the costs to the public of the use of such facilities, and to contribute to improving the quality of health care available to our citizens. In order to accomplish these and related purposes this chapter is adopted and shall be liberally construed to carry out its purposes and objects. [1974 ex.s. c 147 § 1.]

70.37.040 Washington health care facilities authority—Powers—Special fund bonds—Revenue bonds. (1)

The authority is hereby empowered to issue bonds for the construction, purchase, acquisition, rental, leasing or use by participants of projects for which bonds to provide funds therefor have been approved by the authority. Such bonds shall be issued in the name of the authority. They shall not be obligations of the state of Washington or general obligations of the authority but shall be payable only from the special funds created by the authority for their payment. They shall contain a recital on their face that their payment and the payment of interest thereon shall be a valid claim only as against the special fund relating thereto derived by the authority in whole or in part from the revenues received by the authority from the operation by the participant of the health care facilities for which the bonds are issued but that they shall constitute a prior charge over all other charges or claims whatever against such special fund. The lien of any such pledge on such revenues shall attach thereto immediately on their receipt by the authority and shall be valid and binding as against parties having claims of any kind in tort, contract or otherwise against the participant, without recordation thereof and whether or not they have notice thereof. For inclusion in such special funds and for other uses in or for such projects of participants the authority is empowered to accept and receive funds, grants, gifts, pledges, guarantees, mortgages, trust deeds and other security instruments, and property from the federal government or the state of Washington or other public body, entity or agency and from any public or private institution, association, corporation or organization, including participants, except that it shall not accept or receive from the state or any taxing agency any money derived from taxes save money to be devoted to the purposes of a project of the state or taxing agency.

(2) For the purposes outlined in subsection (1) of this section the authority is empowered to provide for the issuance of its special fund bonds and other limited obligation security instruments subordinate to the first and prior lien bonds, if any, relating to a project or projects of a participant and to create special funds relating thereto against which such subordinate securities shall be liens, but the authority shall not have power to incur general obligations with respect thereto.

(3) The authority may also issue special fund bonds to redeem or to fund or refund outstanding bonds or any part thereof at maturity, or before maturity if subject to prior redemption, with the right in the authority to include various series and issues of such outstanding special fund bonds in a single issue of funding or refunding special fund bonds and to pay any redemption premiums out of the proceeds thereto. Such funding or refunding bonds shall be limited special fund bonds issued in accordance with the provisions of this chapter, including this section and shall not be general obligations of the authority.

(4) Such special fund bonds of either first lien or subordinate lien nature may also be issued by the authority, the proceeds of which may be used to refund already existing mortgages or other obligations on health care facilities already constructed and operating incurred by a participant in the construction, purchase or acquisition thereof.

(5) The authority may also lease to participants, lease to them with option to purchase, or sell to them, facilities which it has acquired by construction, purchase, devise, gift, or leasing: PROVIDED, That the terms thereof shall at least fully reimburse the authority for its costs with respect to such facilities, including costs of financing, and provide fully for the debt service on any bonds issued by the authority to finance acquisition by it of the facilities. To pay the cost of acquiring or improving such facilities or to refund any bonds issued for such purpose, the authority may issue its revenue bonds secured solely by revenues derived from the sale or lease of the facility, but which may additionally be secured by mortgage, lease, pledge or assignment, trust agreement or other security device. Such bonds and such security devices shall not be obligations of the state of Washington or general obligations of the authority but shall be payable only from the special funds created by the authority for their payment. Such health care facilities may be acquired, constructed, reconstructed, and improved and may be leased, sold or otherwise disposed of in the manner determined by the authority in its sole discretion and any requirement of competitive bidding, lease performance bonds or other restriction imposed on the procedure for award of contracts for such purpose or the lease, sale or other disposition of property of the state, or any agency thereof, is not applicable to any action so taken by the authority. [1974 ex.s. c 147 § 4.]

70.37.050 Requests for financing—Financing plan—Bond issue, special fund authorized.

The authority shall establish rules concerning its exercise of the powers authorized by this chapter. The authority shall receive from applicants requests for the providing of bonds for financing of health care facilities and shall investigate and determine the need and the feasibility of providing such bonds. Whenever the authority deems it necessary or advisable for the benefit of the public health to provide financing for a health care facility, it shall adopt a financing plan therefor and shall declare the estimated cost thereof, as near as may be, including as part of such cost funds necessary for the expenses incurred in the financing as well as in the construction or purchase or other acquisition or in connection with the rental or other payment for the use thereof, interest during construction, reserve funds and any funds necessary

for initial start-up costs, and shall issue and sell its bonds for the purposes of carrying out the proposed financing plan: PROVIDED, That if a certificate of need is required for the proposed project, no such financing plan shall be adopted until such certificate has been issued pursuant to chapter 70.38 RCW by the secretary of the department of social and health services. The authority shall have power as a part of such plan to create a special fund or funds for the purpose of defraying the cost of such project and for other projects of the same participant subsequently or at the same time approved by it and for their maintenance, improvement, reconstruction, remodeling and rehabilitation, into which special fund or funds it shall obligate and bind the participant to set aside and pay from the gross revenues of the project or from other sources an amount sufficient to pay the principal and interest of the bonds being issued, reserves and other requirements of the special fund and to issue and sell bonds payable as to both principal and interest out of such fund or funds relating to the project or projects of such participant.

Such bonds shall bear such date or dates, mature at such time or times, be in such denominations, be in such form, either coupon or registered, or both, as provided in RCW 39.46.030, carry such registration privileges, be made transferable, exchangeable, and interchangeable, be payable in such medium of payment, at such place or places, be subject to such terms of redemption, bear such fixed or variable rate or rates of interest, and be sold in such manner, at such price, as the authority shall determine. Such bonds shall be executed by the chairman, by either its duly elected secretary or its executive director, and by the trustee if the authority determines to utilize a trustee for the bonds. Execution of the bonds may be by manual or facsimile signature: PROVIDED, That at least one signature placed thereon shall be manually subscribed. Any interest coupons appurtenant to the bonds shall be executed by facsimile or manual signature or signatures, as the authority shall determine. [1983 c 210 § 2; 1983 c 167 § 171; 1981 c 121 § 1; 1974 ex.s. c 147 § 5.]

Reviser's note: This section was amended by 1983 c 167 § 171 and by 1983 c 210 § 2, each without reference to the other. Both amendments are incorporated in the publication of this section pursuant to RCW 1.12.025(2). For rule of construction, see RCW 1.12.025(1).

Liberal construction—Severability—1983 c 167: See RCW 39.46.010 and note following.

70.37.060 Bond issues—Terms—Payment—Legal investment, etc. The bonds of the authority shall be subject to such terms, conditions and covenants and protective provisions as shall be found necessary or desirable by the authority, which may include but shall not be limited to provisions for the establishment and maintenance by the participant of rates for health services of the project, fees and other charges of every kind and nature sufficient in amount and adequate, over and above costs of operation and maintenance and all other costs other than costs and expenses of capital, associated with the project, to pay the principal of and interest on the bonds payable out of the special fund or funds of the project, to set aside and maintain reserves as determined by the authority to secure the payment of such principal and interest, to set aside and maintain reserves for repairs and replacement, to maintain coverage which may be

agreed upon over and above the requirements of payment of principal and interest, and for other needs found by the authority to be required for the security of the bonds. When issuing bonds the authority may provide for the future issuance of additional bonds on a parity with outstanding bonds, and the terms and conditions of their issuance.

All bonds issued under the authority of this chapter shall constitute legal investments for trustees and other fiduciaries and for savings and loan associations, banks, and insurance companies doing business in this state. All such bonds and all coupons appertaining thereto shall be negotiable instruments within the meaning of and for all purposes of the negotiable instruments law of this state. [1974 ex.s. c 147 § 6.]

70.37.070 Bond issues—Special trust fund—Payments—Status—Administration of fund. All revenues received by the authority from a participant derived from a particular project of such participant to be applied on principal and interest of bonds or for other bond requirements such as reserves and all other funds for the bond requirements of a particular project received from contributions or grants or in any other form shall be deposited by the authority in qualified public depositories to the credit of a special trust fund to be designated as the authority special bond fund for the particular project or projects producing such revenue or to which the contribution or grant relates. Such fund shall not be or constitute funds of the state of Washington but at all times shall be kept segregated and set apart from other funds. From such funds, the authority shall make payment of principal and interest of the bonds of the particular project or projects; and the authority may set up subaccounts in the bond fund for reserve accounts for payment of principal and interest, for repairs and replacement and for other special requirements of the bonds of the project or projects as determined by the authority. In lieu of itself receiving and handling these moneys as here outlined the authority may appoint trustees, depositories and paying agents to perform the functions outlined and to receive, hold, disburse, invest and reinvest such funds on its behalf and for the protection of the bondholders. [1974 ex.s. c 147 § 7.]

70.37.080 Bond issues—Disposition of proceeds—Special fund. Proceeds from the sale of all bonds of a project issued under the provisions of this chapter received by the authority shall be deposited forthwith by the authority in qualified public depositories in a special fund for the particular project for which the bonds were issued and sold, which money shall not be funds of the state of Washington. Such fund shall at all times be segregated and set apart from all other funds and in trust for the purposes of purchase, construction, acquisition, leasing, or use of a project or projects, and for other special needs of the project declared by the authority, including the manner of disposition of any money not finally needed in the construction, purchase, or other acquisition. Money other than bond sale proceeds received by the authority for these same purposes, such as contributions from a participant or a grant from the federal government may be deposited in the same project fund. Proceeds received from the sale of the bonds may also be used to defray the expenses of the authority in connection

with and incidental to the issuance and sale of bonds for the project, as well as expenses for studies, surveys, estimates, inspections and examinations of or relating to the particular project, and other costs advanced therefor by the participant or by the authority. In lieu of itself receiving and handling these moneys in the manner here outlined the authority may appoint trustees, depositories and paying agents to perform the functions outlined and to receive, hold, disburse, invest and reinvest such funds on its behalf and for the protection of the participants and of bondholders. [1974 ex.s. c 147 § 8.]

70.37.090 Payment of authority for expenses incurred in investigating and financing projects. The authority shall have power to require persons applying for its assistance in connection with the investigation and financing of projects to pay fees and charges to provide the authority with funds for investigation, financial feasibility studies, expenses of issuance and sale of bonds and other charges for services provided by the authority in connection with such projects. All other expenses of the authority including compensation of its employees and consultants, expenses of administration and conduct of its work and business and other expenses shall be paid out of such fees and charges, out of contributions and grants to it, out of the proceeds of bonds issued for projects of participants or out of revenues of such projects; none by the state of Washington. The authority shall have power to establish special funds into which such money shall be received and out of which it may be disbursed by the persons and with the procedure and in the manner established by the authority. [1974 ex.s. c 147 § 9.]

70.37.100 Powers of authority. The authority may make contracts, employ or engage engineers, architects, attorneys, an executive director, and other technical or professional assistants, and such other personnel as are necessary. It may delegate to the executive director or other appropriate persons the power to execute legal instruments on its behalf. It may enter into contracts with the United States, accept gifts for its purposes, and exercise any other power reasonably required to implement the principal powers granted in this chapter. No provision of this chapter shall be construed so as to limit the power of the authority to provide bond financing to more than one participant and/or project by means of a single issue of revenue bonds utilizing a single bond fund and/or a single special fund into which proceeds of such bonds are deposited. The authority shall have no power to levy any taxes of any kind or nature and no power to incur obligations on behalf of the state of Washington. [1982 c 10 § 14. Prior: 1981 c 121 § 2; 1981 c 31 § 1; 1974 ex.s. c 147 § 10.]

70.38.015 Declaration of public policy. It is declared to be the public policy of this state:

(1) That health planning to promote, maintain, and assure the health of all citizens in the state, to provide accessible health services, health manpower, health facilities, and other resources while controlling excessive increases in costs, and to recognize prevention as a high priority in health programs, is essential to the health, safety, and welfare of the people of the state. Health planning should be responsive to changing health and social needs and conditions. Involvement in health planning from both consumers and providers throughout the state should be encouraged;

(2) That the development of health services and resources, including the construction, modernization, and conversion of health facilities, should be accomplished in a planned,

orderly fashion, consistent with identified priorities and without unnecessary duplication or fragmentation;

(3) That the development and maintenance of adequate health care information, statistics and projections of need for health facilities and services is essential to effective health planning and resources development;

(4) That the development of nonregulatory approaches to health care cost containment should be considered, including the strengthening of price competition; and

(5) That health planning should be concerned with public health and health care financing, access, and quality, recognizing their close interrelationship and emphasizing cost control of health services, including cost-effectiveness and cost-benefit analysis. [1989 1st ex.s. c 9 § 601; 1983 c 235 § 1; 1980 c 139 § 1; 1979 ex.s. c 161 § 1.]

70.38.025 Definitions. When used in this chapter, the terms defined in this section shall have the meanings indicated.

(1) "Board of health" means the state board of health created pursuant to chapter 43.20 RCW.

(2) "Capital expenditure" is an expenditure, including a force account expenditure (i.e., an expenditure for a construction project undertaken by a nursing home facility as its own contractor) which, under generally accepted accounting principles, is not properly chargeable as an expense of operation or maintenance. Where a person makes an acquisition under lease or comparable arrangement, or through donation, which would have required review if the acquisition had been made by purchase, such expenditure shall be deemed a capital expenditure. Capital expenditures include donations of equipment or facilities to a nursing home facility which if acquired directly by such facility would be subject to certificate of need review under the provisions of this chapter and transfer of equipment or facilities for less than fair market value if a transfer of the equipment or facilities at fair market value would be subject to such review. The cost of any studies, surveys, designs, plans, working drawings, specifications, and other activities essential to the acquisition, improvement, expansion, or replacement of any plant or equipment with respect to which such expenditure is made shall be included in determining the amount of the expenditure.

(3) "Continuing care retirement community" means an entity which provides shelter and services under continuing care contracts with its members and which sponsors or includes a health care facility or a health service. A "continuing care contract" means a contract to provide a person, for the duration of that person's life or for a term in excess of one year, shelter along with nursing, medical, health-related, or personal care services, which is conditioned upon the transfer of property, the payment of an entrance fee to the provider of such services, or the payment of periodic charges for the care and services involved. A continuing care contract is not excluded from this definition because the contract is mutually terminable or because shelter and services are not provided at the same location.

(4) "Department" means the department of health.

(5) "Expenditure minimum" means, for the purposes of the certificate of need program, one million dollars adjusted by the department by rule to reflect changes in the United

States department of commerce composite construction cost index; or a lesser amount required by federal law and established by the department by rule.

(6) "Health care facility" means hospices, hospitals, psychiatric hospitals, nursing homes, kidney disease treatment centers, ambulatory surgical facilities, and home health agencies, and includes such facilities when owned and operated by a political subdivision or instrumentality of the state and such other facilities as required by federal law and implementing regulations, but does not include Christian Science sanatoriums operated, listed, or certified by the First Church of Christ Scientist, Boston, Massachusetts. In addition, the term does not include any nonprofit hospital: (a) Which is operated exclusively to provide health care services for children; (b) which does not charge fees for such services; and (c) if not contrary to federal law as necessary to the receipt of federal funds by the state.

(7) "Health maintenance organization" means a public or private organization, organized under the laws of the state, which:

(a) Is a qualified health maintenance organization under Title XIII, section 1310(d) of the Public Health Services Act; or

(b)(i) Provides or otherwise makes available to enrolled participants health care services, including at least the following basic health care services: Usual physician services, hospitalization, laboratory, x-ray, emergency, and preventive services, and out-of-area coverage; (ii) is compensated (except for copayments) for the provision of the basic health care services listed in (b)(i) to enrolled participants by a payment which is paid on a periodic basis without regard to the date the health care services are provided and which is fixed without regard to the frequency, extent, or kind of health service actually provided; and (iii) provides physicians' services primarily (A) directly through physicians who are either employees or partners of such organization, or (B) through arrangements with individual physicians or one or more groups of physicians (organized on a group practice or individual practice basis).

(8) "Health services" means clinically related (i.e., preventive, diagnostic, curative, rehabilitative, or palliative) services and includes alcoholism, drug abuse, and mental health services and as defined in federal law.

(9) "Health service area" means a geographic region appropriate for effective health planning which includes a broad range of health services.

(10) "Person" means an individual, a trust or estate, a partnership, a corporation (including associations, joint stock companies, and insurance companies), the state, or a political subdivision or instrumentality of the state, including a municipal corporation or a hospital district.

(11) "Provider" generally means a health care professional or an organization, institution, or other entity providing health care but the precise definition for this term shall be established by rule of the department, consistent with federal law.

(12) "Public health" means the level of well-being of the general population; those actions in a community necessary to preserve, protect, and promote the health of the people for which government is responsible; and the governmental system developed to guarantee the preservation of the health of the people.

(13) "Secretary" means the secretary of health or the secretary's designee.

(14) "Tertiary health service" means a specialized service that meets complicated medical needs of people and requires sufficient patient volume to optimize provider effectiveness, quality of service, and improved outcomes of care.

(15) "Hospital" means any health care institution which is required to qualify for a license under RCW 70.41.020(2); or as a psychiatric hospital under chapter 71.12 RCW. [1991 c 158 § 1; 1989 1st ex.s. c 9 § 602; 1988 c 20 § 1; 1983 1st ex.s. c 41 § 43; 1983 c 235 § 2; 1982 c 119 § 1; 1980 c 139 § 2; 1979 ex.s. c 161 § 2.]

Severability—1983 1st ex.s. c 41: See note following RCW 26.09.060.

A health systems agency shall be considered a "public agency" for the sole purpose of complying with the "Open Public Meetings Act of 1971", chapter 42.30 RCW. [1979 ex.s. c 161 § 9.]

70.38.105 Health services and facilities requiring certificate of need—Fees. (1) The department is authorized and directed to implement the certificate of need program in this state pursuant to the provisions of this chapter.

(2) There shall be a state certificate of need program which is administered consistent with the requirements of federal law as necessary to the receipt of federal funds by the state.

(3) No person shall engage in any undertaking which is subject to certificate of need review under subsection (4) of this section without first having received from the department either a certificate of need or an exception granted in accordance with this chapter.

(d) Any capital expenditure for the construction, renovation, or alteration of a nursing home which exceeds the expenditure minimum as defined by RCW 70.38.025. However, a capital expenditure which is not subject to certificate of need review under (a), (b), (c), or (e) of this subsection and which is solely for any one or more of the following is not subject to certificate of need review:

(f) Any new tertiary health services which are offered in or through a health care facility or rural health care facility licensed under RCW 70.175.100, and which were not offered on a regular basis by, in, or through such health care facility or rural health care facility within the twelve-month period prior to the time such services would be offered;

(g) Any expenditure for the construction, renovation, or alteration of a nursing home or change in nursing home services in excess of the expenditure minimum made in preparation for any undertaking under subsection (4) of this section and any arrangement or commitment made for financing such undertaking. Expenditures of preparation shall include expenditures for architectural designs, plans, working drawings, and specifications. 70.38.111 Certificates of need—Exemptions. (1) The department shall not require a certificate of need for the offering of an inpatient tertiary health service by:

(a) A health maintenance organization or a combination of health maintenance organizations if (i) the organization or combination of organizations has, in the service area of the organization or the service areas of the organizations in the combination, an enrollment of at least fifty thousand individuals, (ii) the facility in which the service will be provided is or will be geographically located so that the service will be reasonably accessible to such enrolled individuals, and (iii) at least seventy-five percent of the patients who can reasonably be expected to receive the tertiary health service will be individuals enrolled with such organization or organizations in the combination;

(b) A health care facility if (i) the facility primarily provides or will provide inpatient health services, (ii) the facility is or will be controlled, directly or indirectly, by a health maintenance organization or a combination of health maintenance organizations which has, in the service area of the organization or service areas of the organizations in the combination, an enrollment of at least fifty thousand individuals, (iii) the facility is or will be geographically located so that the service will be reasonably accessible to such enrolled individuals, and (iv) at least seventy-five percent of the patients who can reasonably be expected to receive the tertiary health service will be individuals enrolled with such organization or organizations in the combination; or

(c) A health care facility (or portion thereof) if (i) the facility is or will be leased by a health maintenance organization or combination of health maintenance organizations which has, in the service area of the organization or the service areas of the organizations in the combination, an enrollment of at least fifty thousand individuals and, on the date the application is submitted under subsection (2) of this section, at least fifteen years remain in the term of the lease, (ii) the facility is or will be geographically located so that the service will be reasonably accessible to such enrolled individuals, and (iii) at least seventy-five percent of the patients who can reasonably be expected to receive the tertiary health service will be individuals enrolled with such organization;

if, with respect to such offering or obligation by a nursing home, the department has, upon application under subsection (2) of this section, granted an exemption from such requirement to the organization, combination of organizations, or facility.

(2) A health maintenance organization, combination of health maintenance organizations, or health care facility shall not be exempt under subsection (1) of this section from obtaining a certificate of need before offering a tertiary health service unless:

(a) It has submitted at least thirty days prior to the offering of services reviewable under RCW 70.38.105(4)(d) an application for such exemption; and

(b) The application contains such information respecting the organization, combination, or facility and the proposed offering or obligation by a nursing home as the department may require to determine if the organization or combination

meets the requirements of subsection (1) of this section or the facility meets or will meet such requirements; and

(c) The department approves such application. The department shall approve or disapprove an application for exemption within thirty days of receipt of a completed application. In the case of a proposed health care facility (or portion thereof) which has not begun to provide tertiary health services on the date an application is submitted under this subsection with respect to such facility (or portion), the facility (or portion) shall meet the applicable requirements of subsection (1) of this section when the facility first provides such services. The department shall approve an application submitted under this subsection if it determines that the applicable requirements of subsection (1) of this section are met.

(3) A health care facility (or any part thereof) with respect to which an exemption was granted under subsection (1) of this section may not be sold or leased and a controlling interest in such facility or in a lease of such facility may not be acquired and a health care facility described in (1)(c) which was granted an exemption under subsection (1) of this section may not be used by any person other than the lessee described in (1)(c) unless:

(a) The department issues a certificate of need approving the sale, lease, acquisition, or use; or

(b) The department determines, upon application, that (i) the entity to which the facility is proposed to be sold or leased, which intends to acquire the controlling interest, or which intends to use the facility is a health maintenance organization or a combination of health maintenance organizations which meets the requirements of (1)(a)(i), and (ii) with respect to such facility, meets the requirements of (1)(a)(ii) or (iii) or the requirements of (1)(b)(i) and (ii).

(4) In the case of a health maintenance organization, an ambulatory care facility, or a health care facility, which ambulatory or health care facility is controlled, directly or indirectly, by a health maintenance organization or a combination of health maintenance organizations, the department may under the program apply its certificate of need requirements only to the offering of inpatient tertiary health services and then only to the extent that such offering is not exempt under the provisions of this section.

(5)(a) The department shall not require a certificate of need for the construction, development, or other establishment of a nursing home, or the addition of beds to an existing nursing home, that is owned and operated by a continuing care retirement community that:

(i) Offers services only to contractual members;

(ii) Provides its members a contractually guaranteed range of services from independent living through skilled nursing, including some assistance with daily living activities;

(iii) Contractually assumes responsibility for the cost of services exceeding the member's financial responsibility under the contract, so that no third party, with the exception of insurance purchased by the retirement community or its members, but including the medicaid program, is liable for costs of care even if the member depletes his or her personal resources;

(iv) Has offered continuing care contracts and operated a nursing home continuously since January 1, 1988, or has obtained a certificate of need to establish a nursing home;

(v) Maintains a binding agreement with the state assuring that financial liability for services to members, including nursing home services, will not fall upon the state;

(vi) Does not operate, and has not undertaken a project that would result in a number of nursing home beds in excess of one for every four living units operated by the continuing care retirement community, exclusive of nursing home beds; and

(vii) Has obtained a professional review of pricing and long-term solvency within the prior five years which was fully disclosed to members.

(b) A continuing care retirement community shall not be exempt under this subsection from obtaining a certificate of need unless:

(i) It has submitted an application for exemption at least thirty days prior to commencing construction of, is submitting an application for the licensure of, or is commencing operation of a nursing home, whichever comes first; and

(ii) The application documents to the department that the continuing care retirement community qualifies for exemption.

(c) The sale, lease, acquisition, or use of part or all of a continuing care retirement community nursing home that qualifies for exemption under this subsection shall require prior certificate of need approval to qualify for licensure as a nursing home unless the department determines such sale, lease, acquisition, or use is by a continuing care retirement community that meets the conditions of (a) of this subsection.

(6) A rural hospital, as defined by the department, reducing the number of licensed beds to become a rural primary care hospital under the provisions of Part A Title XVIII of the Social Security Act Section 1820, 42 U.S.C., 1395c et seq. may, within three years of the reduction of beds licensed under chapter 70.41 RCW, increase the number of licensed beds to no more than the previously licensed number without being subject to the provisions of this chapter.

(7) A rural health care facility licensed under RCW 70.175.100 formerly licensed as a hospital under chapter 70.41 RCW may, within three years of the effective date of the rural health care facility license, apply to the department for a hospital license and not be subject to the requirements of RCW 70.38.105(4)(a) as the construction, development, or other establishment of a new hospital, provided there is no increase in the number of beds previously licensed under chapter 70.41 RCW and there is no redistribution in the number of beds used for acute care or long-term care, the rural health care facility has been in continuous operation, and the rural health care facility has not been purchased or leased.

(8)(a) A nursing home that voluntarily reduces the number of its licensed beds to provide assisted living, licensed boarding home care, adult day care, adult day health, respite care, hospice, outpatient therapy services, congregate meals, home health, or senior wellness clinic, or to reduce to one or two the number of beds per room or to otherwise enhance the quality of life for residents in the nursing home, may convert the original facility or portion of the facility back, and thereby increase the number of nursing home beds to no more than the previously licensed number of nursing home beds without obtaining a certificate of need

under this chapter, provided the facility has been in continuous operation and has not been purchased or leased. Any conversion to the original licensed bed capacity, or to any portion thereof, shall comply with the same life and safety code requirements as existed at the time the nursing home voluntarily reduced its licensed beds; unless waivers from such requirements were issued, in which case the converted beds shall reflect the conditions or standards that then existed pursuant to the approved waivers.

(b) To convert beds back to nursing home beds under this subsection, the nursing home must:

(i) Give notice of its intent to preserve conversion options to the department of health no later than thirty days after the effective date of the license reduction; and

(ii) Give notice to the department of health and to the department of social and health services of the intent to convert beds back. If construction is required for the conversion of beds back, the notice of intent to convert beds back must be given no later than two years prior to the effective date of license modification reflecting the restored beds; otherwise, the notice must be given no later than one year prior to the effective date of license modification reflecting the restored beds.

(c) Conversion of beds back under this subsection must be completed no later than four years after the effective date of the license reduction. However, for good cause shown, the four-year period for conversion may be extended by the department of health for one additional four-year period.

(d) Nursing home beds that have been voluntarily reduced under this section shall be counted as available nursing home beds for the purpose of evaluating need under RCW 70.38.115(2) (a) and (k) so long as the facility retains the ability to convert them back to nursing home use under the terms of this section.

(e) When a building owner has secured an interest in the nursing home beds, which are intended to be voluntarily reduced by the licensee under (a) of this subsection, the applicant shall provide the department with a written statement indicating the building owner's approval of the bed reduction. 70.38.115 Certificates of need—Procedures—Rules—Criteria for review—Conditional certificates of need—Concurrent review—Review periods—Hearing—Adjudicative proceeding—Amended certificates of need.

(1) Certificates of need shall be issued, denied, suspended, or revoked by the designee of the secretary in accord with the provisions of this chapter and rules of the department which establish review procedures and criteria for the certificate of need program.

(2) Criteria for the review of certificate of need applications, except as provided in subsection (3) of this section for health maintenance organizations, shall include but not be limited to consideration of the following:

(a) The need that the population served or to be served by such services has for such services;

(b) The availability of less costly or more effective alternative methods of providing such services;

(c) The financial feasibility and the probable impact of the proposal on the cost of and charges for providing health services in the community to be served;

(d) In the case of health services to be provided, (i) the availability of alternative uses of project resources for the provision of other health services, (ii) the extent to which such proposed services will be accessible to all residents of the area to be served, and (iii) the need for and the availability in the community of services and facilities for osteopathic physicians and surgeons and allopathic physicians and their patients. The department shall consider the application in terms of its impact on existing and proposed institutional training programs for doctors of osteopathic medicine and surgery and medicine at the student, internship, and residency training levels;

(e) In the case of a construction project, the costs and methods of the proposed construction, including the cost and methods of energy provision, and the probable impact of the construction project reviewed (i) on the cost of providing health services by the person proposing such construction project and (ii) on the cost and charges to the public of providing health services by other persons;

(f) The special needs and circumstances of osteopathic hospitals, nonallopathic services and children's hospitals;

(g) Improvements or innovations in the financing and delivery of health services which foster cost containment and serve to promote quality assurance and cost-effectiveness;

(h) In the case of health services proposed to be provided, the efficiency and appropriateness of the use of existing services and facilities similar to those proposed;

(i) In the case of existing services or facilities, the quality of care provided by such services or facilities in the past;

(j) In the case of hospital certificate of need applications, whether the hospital meets or exceeds the regional average level of charity care, as determined by the secretary; and

(k) In the case of nursing home applications:

(i) The availability of other nursing home beds in the planning area to be served; and

(ii) The availability of other services in the community to be served. Data used to determine the availability of other services will include but not be limited to data provided by the department of social and health services.

(3) A certificate of need application of a health maintenance organization or a health care facility which is controlled, directly or indirectly, by a health maintenance organization, shall be approved by the department if the department finds:

(a) Approval of such application is required to meet the needs of the members of the health maintenance organization and of the new members which such organization can reasonably be expected to enroll; and

(b) The health maintenance organization is unable to provide, through services or facilities which can reasonably be expected to be available to the organization, its health services in a reasonable and cost-effective manner which is consistent with the basic method of operation of the organi-

zation and which makes such services available on a long-term basis through physicians and other health professionals associated with it.

A health care facility, or any part thereof, with respect to which a certificate of need was issued under this subsection may not be sold or leased and a controlling interest in such facility or in a lease of such facility may not be acquired unless the department issues a certificate of need approving the sale, acquisition, or lease.

(4) Until the final expiration of the state health plan as provided under RCW 70.38.919, the decision of the department on a certificate of need application shall be consistent with the state health plan in effect, except in emergency circumstances which pose a threat to the public health. The department in making its final decision may issue a conditional certificate of need if it finds that the project is justified only under specific circumstances. The conditions shall directly relate to the project being reviewed. The conditions may be released if it can be substantiated that the conditions are no longer valid and the release of such conditions would be consistent with the purposes of this chapter.

(5) Criteria adopted for review in accordance with subsection (2) of this section may vary according to the purpose for which the particular review is being conducted or the type of health service reviewed.

(6) The department shall specify information to be required for certificate of need applications. Within fifteen days of receipt of the application, the department shall request additional information considered necessary to the application or start the review process. Applicants may decline to submit requested information through written notice to the department, in which case review starts on the date of receipt of the notice. Applications may be denied or limited because of failure to submit required and necessary information.

(7) Concurrent review is for the purpose of comparative analysis and evaluation of competing or similar projects in order to determine which of the projects may best meet identified needs. Categories of projects subject to concurrent review include at least new health care facilities, new services, and expansion of existing health care facilities. The department shall specify time periods for the submission of applications for certificates of need subject to concurrent review, which shall not exceed ninety days. Review of concurrent applications shall start fifteen days after the conclusion of the time period for submission of applications subject to concurrent review. Concurrent review periods shall be limited to one hundred fifty days, except as provided for in rules adopted by the department authorizing and limiting amendment during the course of the review, or for an unresolved pivotal issue declared by the department.

(8) Review periods for certificate of need applications other than those subject to concurrent review shall be limited to ninety days. Review periods may be extended up to thirty days if needed by a review agency, and for unresolved pivotal issues the department may extend up to an additional thirty days. A review may be extended in any case if the applicant agrees to the extension.

(9) The department or its designee, shall conduct a public hearing on a certificate of need application if requested unless the review is expedited or subject to emergency review. The department by rule shall specify the period of

time within which a public hearing must be requested and requirements related to public notice of the hearing, procedures, recordkeeping and related matters.

(10)(a) Any applicant denied a certificate of need or whose certificate of need has been suspended or revoked has the right to an adjudicative proceeding. The proceeding is governed by chapter 34.05 RCW, the Administrative Procedure Act.

(b) Any health care facility or health maintenance organization that: (i) Provides services similar to the services provided by the applicant and under review pursuant to this subsection; (ii) is located within the applicant's health service area; and (iii) testified or submitted evidence at a public hearing held pursuant to subsection (9) of this section, shall be provided an opportunity to present oral or written testimony and argument in a proceeding under this subsection: PROVIDED, That the health care facility or health maintenance organization had, in writing, requested to be informed of the department's decisions.

(c) If the department desires to settle with the applicant prior to the conclusion of the adjudicative proceeding, the department shall so inform the health care facility or health maintenance organization and afford them an opportunity to comment, in advance, on the proposed settlement.

(11) An amended certificate of need shall be required for the following modifications of an approved project:

(a) A new service requiring review under this chapter;

(b) An expansion of a service subject to review beyond that originally approved;

(c) An increase in bed capacity;

(d) A significant reduction in the scope of a nursing home project without a commensurate reduction in the cost of the nursing home project, or a cost increase (as represented in bids on a nursing home construction project or final cost estimates acceptable to the person to whom the certificate of need was issued) if the total of such increases exceeds twelve percent or fifty thousand dollars, whichever is greater, over the maximum capital expenditure approved. The review of reductions or cost increases shall be restricted to the continued conformance of the nursing home project with the review criteria pertaining to financial feasibility and cost containment.

(12) An application for a certificate of need for a nursing home capital expenditure which is determined by the department to be required to eliminate or prevent imminent safety hazards or correct violations of applicable licensure and accreditation standards shall be approved.

(13)(a) Replacement of existing nursing home beds in the same planning area by an existing licensee who has operated the beds for at least one year shall not require a certificate of need under this chapter. The licensee shall give written notice of its intent to replace the existing nursing home beds to the department and shall provide the department with information as may be required pursuant to rule. Replacement of the beds by a party other than the licensee is subject to certificate of need review under this chapter, except as otherwise permitted by subsection (14) of this section.

(b) When an entire nursing home ceases operation, the licensee or any other party who has secured an interest in the beds may reserve his or her interest in the beds for eight years or until a certificate of need to replace them is issued,

whichever occurs first. However, the nursing home, licensee, or any other party who has secured an interest in the beds must give notice of its intent to retain the beds to the department of health no later than thirty days after the effective date of the facility's closure. Certificate of need review shall be required for any party who has reserved the nursing home beds except that the need criteria shall be deemed met when the applicant is the licensee who had operated the beds for at least one year, who has operated the beds for at least one year immediately preceding the reservation of the beds, and who is replacing the beds in the same planning area.

(14) In the event that a licensee, who has provided the department with notice of his or her intent to replace nursing home beds under subsection (13)(a) of this section, engages in unprofessional conduct or becomes unable to practice with reasonable skill and safety by reason of mental or physical condition, pursuant to chapter 18.130 RCW, or dies, the building owner shall be permitted to complete the nursing home bed replacement project, provided the building owner has secured an interest in the beds. One six-month extension may be made if it can be substantiated that substantial and continuing progress toward commencement of the project has been made as defined by regulations to be adopted pursuant to this chapter.

(2) A project for which a certificate of need has been issued shall be commenced during the validity period for the certificate of need.

(3) The department shall monitor the approved projects to assure conformance with certificates of need that have been issued. Rules and regulations adopted shall specify when changes in the project require reevaluation of the project. The department may require applicants to submit periodic progress reports on approved projects or other information as may be necessary to effectuate its monitoring responsibilities.

(4) The secretary, in the case of a new health facility, shall not issue any license unless and until a prior certificate of need shall have been issued by the department for the offering or development of such new health facility.

(5) Any person who engages in any undertaking which requires certificate of need review without first having received from the department either a certificate of need or an exception granted in accordance with this chapter shall be liable to the state in an amount not to exceed one hundred

dollars a day for each day of such unauthorized offering or development. Such amounts of money shall be recoverable in an action brought by the attorney general on behalf of the state in the superior court of any county in which the unauthorized undertaking occurred. Any amounts of money so recovered by the attorney general shall be deposited in the state general fund.

(6) The department may bring any action to enjoin a violation or the threatened violation of the provisions of this chapter or any rules and regulations adopted pursuant to this chapter, or may bring any legal proceeding authorized by law, including but not limited to the special proceedings authorized in Title 7 RCW, in the superior court in the county in which such violation occurs or is about to occur, or in the superior court of Thurston county. 70.38.220 Ethnic minorities—Nursing home beds that reflect cultural differences. (1) The legislature recognizes that in this state ethnic minorities currently use nursing home care at a lower rate than the general population. The legislature also recognizes and supports the federal mandate that nursing homes receiving federal funds provide residents with a homelike environment. The legislature finds that certain ethnic minorities have special cultural, language, dietary, and other needs not generally met by existing nursing homes which are intended to serve the general population. Accordingly, the legislature further finds that there is a need to foster the development of nursing homes designed to serve the special cultural, language, dietary, and other needs of ethnic minorities.

(2) The department shall establish a separate pool of no more than two hundred fifty beds for nursing homes designed to serve the special needs of ethnic minorities. The pool shall be made up of nursing home beds that become available on or after March 15, 1991, due to:

(a) Loss of license or reduction in licensed bed capacity if the beds are not otherwise obligated for replacement; or
(b) Expiration of a certificate of need.

(3) The department shall develop procedures for the fair and efficient award of beds from the special pool. In making its decisions regarding the award of beds from the pool, the department shall consider at least the following:

- (a) The relative degree to which the long-term care needs of an ethnic minority are not otherwise being met;
- (b) The percentage of low-income persons who would be served by the proposed nursing home;
- (c) The financial feasibility of the proposed nursing home; and
- (d) The impact of the proposal on the area's total need for nursing home beds.

(4) To be eligible to apply for or receive an award of beds from the special pool, an application must be to build a new nursing home, or add beds to a nursing home, that:

- (a) Will be owned and operated by a nonprofit corporation, and at least fifty percent of the board of directors of the corporation are members of the ethnic minority the nursing home is intended to serve;
- (b) Will be designed, managed, and administered to serve the special cultural, language, dietary, and other needs of an ethnic minority; and
- (c) Will not discriminate in admissions against persons who are not members of the ethnic minority whose special needs the nursing home is designed to serve.

(5) If a nursing home or portion of a nursing home that is built as a result of an award from the special pool is sold or leased within ten years to a party not eligible under subsection (4) of this section:

- (a) The purchaser or lessee may not operate those beds as nursing home beds without first obtaining a certificate of need for new beds under this chapter; and
- (b) The beds that had been awarded from the special pool shall be returned to the special pool.
- (6) The department shall initially award up to one hundred beds before that number of beds are actually in the special pool, provided that the number of beds so awarded are subtracted from the total of two hundred fifty beds that can be awarded from the special pool. [1991 c 271 § 1.]

70.38.905 Conflict with federal law—Construction. In any case where the provisions of this chapter may directly conflict with federal law, or regulations promulgated thereunder, the federal law shall supersede and be paramount as necessary to the receipt of federal funds by the state. [1983 c 235 § 12; 1979 ex.s. c 161 § 16.]

70.38.910 Severability—1983 c 235; 1979 ex.s. c 161. 70.41.235 Doctor of osteopathic medicine and surgery—Discrimination based on board certification is prohibited. 70.41.250 Cost disclosure to health care providers.

(1) The legislature finds that the spiraling costs of health care continue to surmount efforts to contain them, increasing at approximately twice the inflationary rate. The causes of this phenomenon are complex. By making physicians and other health care providers with hospital admitting privileges more aware of the cost consequences of health care services for consumers, these providers may be inclined to exercise more restraint in providing only the most relevant and cost-beneficial hospital services, with a potential for reducing the utilization of those services. The requirement of the hospital to inform physicians and other health care providers of the charges of the health care services that they order may have a positive effect on containing health costs. Further, the option of the physician or other health care provider to inform the patient of these charges may strengthen the necessary dialogue in the provider-patient relationship that tends to be diminished by intervening third-party payers.

(2) The chief executive officer of a hospital licensed under this chapter and the superintendent of a state hospital shall establish and maintain a procedure for disclosing to physicians and other health care providers with admitting privileges the charges of all health care services ordered for their patients. Copies of hospital charges shall be made available to any physician and/or other health care provider ordering care in hospital inpatient/outpatient services. The physician and/or other health care provider may inform the patient of these charges and may specifically review them. Hospitals are also directed to study methods for making daily charges available to prescribing physicians through the use of interactive software and/or computerized information thereby allowing physicians and other health care providers to review not only the costs of present and past services but also future contemplated costs for additional diagnostic studies and therapeutic medications. effective use of long-term care services by developing and distributing to hospitals and other appropriate health care settings information on the various chronic long-term care programs that it administers directly or through contract. The information developed by the department of social and health services shall, at a minimum, include the following:

(i) An identification and detailed description of each long-term care service available in the state;

(ii) Functional, cognitive, and medicaid eligibility criteria that may be required for placement or admission to each long-term care service; and

(iii) A long-term care services resource manual for each hospital, that identifies the long-term care services operating within each hospital's patient service area. The long-term care services resource manual shall, at a minimum, identify the name, address, and telephone number of each entity known to be providing long-term care services; a brief description of the programs or services provided by each of the identified entities; and the name or names of a person or persons who may be contacted for further information or assistance in accessing the programs or services at each of the identified entities.

(b) The information required in (a) of this subsection shall be periodically updated and distributed to hospitals by the department of social and health services so that the information reflects current long-term care service options available within each hospital's patient service area.

(2) To the extent that a patient will have continuing care needs, once discharged from the hospital setting, hospitals shall, during the course of the patient's hospital stay, promote each patient's family member's and/or legal representative's understanding of available long-term care service discharge options by, at a minimum:

(a) Discussing the various and relevant long-term care services available, including eligibility criteria;

(b) Making available, to patients, their family members, and/or legal representative, a copy of the most current long-term care services resource manual;

(c) Responding to long-term care questions posed by patients, their family members, and/or legal representative;

(d) Assisting the patient, their family members, and/or legal representative in contacting appropriate persons or entities to respond to the question or questions posed; and

(e) Linking the patient and family to the local, state-designated aging and long-term care network to ensure effective transitions to appropriate levels of care and ongoing support. [1995 1st sp.s. c 18 § 3.]

(b) Establish and maintain a system for discharge planning and designate a person responsible for system management and implementation.

(c) Establish written policies and procedures to:

(i) Identify patients needing further nursing, therapy, or supportive care following discharge from the hospital;

(ii) Develop a documented discharge plan for each identified patient, including relevant patient history, specific care requirements, and date such follow-up care is to be initiated;

(iii) Coordinate with patient, family, caregiver, and appropriate members of the health care team;

(iv) Provide any patient, regardless of income status, written information and verbal consultation regarding the array of long-term care options available in the community, including the relative cost, eligibility criteria, location, and contact persons;

(v) Promote an informed choice of long-term care services on the part of patients, family members, and legal representatives; and

(vi) Coordinate with the department and specialized case management agencies, including area agencies on aging and other appropriate long-term care providers, as necessary, to ensure timely transition to appropriate home, community residential, or nursing facility care.

(d) Work in cooperation with the department which is responsible for ensuring that patients eligible for medicaid long-term care receive prompt assessment and appropriate service authorization.

(2) In partnership with selected hospitals, the department of social and health services shall develop and implement pilot projects in up to three areas of the state with the goal of providing information about appropriate in-home and community services to individuals and their families early during the individual's hospital stay.

The department shall not delay hospital discharges but shall assist and support the activities of hospital discharge planners. The department also shall coordinate with home health and hospice agencies whenever appropriate. The role of the department is to assist the hospital and to assist patients and their families in making informed choices by providing information regarding home and community options.

The department shall by December 12, 1995, report to the house of representatives health care committee and the senate health and long-term care committee regarding the progress and results of the pilot projects along with recommendations regarding continuation or modification of the pilot projects.

In conducting the pilot projects, the department shall:

(a) Assess and offer information regarding appropriate in-home and community services to individuals who are medicaid clients or applicants; and

(b) Offer assessment and information regarding appropriate in-home and community services to individuals who are reasonably expected to become medicaid recipients within one hundred eighty days of admission to a nursing facility. [1995 1st sp.s. c 18 § 5.]

The legislature also intends to meet the requirements of federal laws licensing and regulating medical testing.

The legislature intends that nothing in this chapter shall be interpreted to place any liability whatsoever on the state for the action or inaction of test sites or test site personnel. The legislature further intends that nothing in this chapter shall be interpreted to expand the state's role regarding medical testing beyond the provisions of this chapter. [1989 c 386 § 1.]

*Reviser's note: 1989 1st ex.s. c 14 created the department of health.

70.42.020 License required. After July 1, 1990, no person may advertise, operate, manage, own, conduct, open, or maintain a test site without first obtaining a license for the tests to be performed, except as provided in RCW 70.42.030. [1989 c 386 § 3.]

70.42.030 Waiver of license—Conditions. (1) As a part of the application for licensure, a test site may request a waiver from licensure under this chapter if the test site performs only examinations which are determined to have insignificant risk of an erroneous result, including those which (a) are approved by the federal food and drug administration for home use; (b) are so simple and accurate as to render the likelihood of erroneous results negligible; or (c) pose no reasonable risk of harm to the patient if performed incorrectly.

(2) The department shall determine by rule which tests meet the criteria in subsection (1) of this section and shall be exempt from coverage of this chapter. The standards applied in developing the list shall be consistent with federal law and regulations.

(3) The department shall grant a waiver from licensure for two years for a valid request based on subsections (1) and (2) of this section.

(4) Any test site which has received a waiver under subsection (3) of this section shall report to the department any changes in the type of tests it intends to perform thirty days in advance of the changes. In no case shall a test site with a waiver perform tests which require a license under this chapter. [1989 c 386 § 4.]

70.42.040 Sites approved under federal law—Automatic licensure. Test sites accredited, certified, or licensed by an organization or agency approved by the department consistent with federal law and regulations shall receive a license under RCW 70.42.110. [1989 c 386 § 5.]

70.42.050 Permission to perform tests not covered by license—License amendment. A licensee that desires to perform tests for which it is not currently licensed shall notify the department. To the extent allowed by federal law and regulations, upon notification and pending the department's determination, the department shall grant the licensee temporary permission to perform the additional tests. The department shall amend the license if it determines that the licensee meets all applicable requirements. [1989 c 386 § 6.]

70.42.060 Quality control, quality assurance, recordkeeping, and personnel standards. The department shall adopt standards established in rule governing test sites for quality control, quality assurance, recordkeeping, and personnel consistent with federal laws and regulations. "Recordkeeping" for purposes of this chapter means books, files, or records necessary to show compliance with the quality control and quality assurance requirements adopted by the department. [1989 c 386 § 7.]

70.42.070 Proficiency testing program. (1) Except where there is no reasonable proficiency test, each licensed test site must participate in a department-approved proficiency testing program appropriate to the test or tests which it performs. The department may approve proficiency testing programs offered by private or public organizations when the program meets the standards set by the department. Testing shall be conducted quarterly except as otherwise provided for in rule.

(2) The department shall establish proficiency testing standards by rule which include a measure of acceptable performance for tests, and a system for grading proficiency testing performance for tests. The standards may include an evaluation of the personnel performing tests. [1989 c 386 § 8.]

70.42.080 Test site supervisor. A test site shall have a designated test site supervisor who shall meet the qualifications determined by the department in rule. The designated test site supervisor shall be responsible for the testing functions of the test site. [1989 c 386 § 9.]

70.42.090 Fees—Account. (1) The department shall establish a schedule of fees for license applications, renewals, amendments, and waivers. In fixing said fees, the department shall set the fees at a sufficient level to defray the cost of administering the licensure program. All such fees shall be fixed by rule adopted in accordance with the provisions of the administrative procedure act, chapter 34.05 RCW. In determining the fee schedule, the department shall consider the following: (a) Complexity of the license required; (b) number and type of tests performed at the test site; (c) degree of supervision required from the department staff; (d) whether the license is granted under RCW

70.42.040; and (e) general administrative costs of the test site licensing program established under this chapter. For each category of license, fees charged shall be related to program costs.

(2) The medical test site licensure account is created in the state treasury. The state treasurer shall transfer into the medical test site licensure account all revenue received from medical test site license fees. Funds for this account may only be appropriated for the support of the activities defined under this chapter.

A license issued under this chapter shall not be transferred or assigned without thirty days' prior notice to the department and the department's timely approval. A license, unless suspended or revoked, shall be effective for a period of two years. When the department has reason to believe a waived site is conducting tests requiring a license, the department may conduct an on-site review of the waived site in order to determine compliance. The department may also examine and audit records necessary to determine compliance with this chapter. The right to conduct an on-site review and audit and examination of records shall extend to any premises and records of persons whom the department has reason to believe are opening, owning, conducting, maintaining, managing, or otherwise operating a test site without a license.

The hearing on such petition may be adjourned from time to time; not exceeding four weeks in all. If upon the final hearing the board of county commissioners shall find that any lands have been unjustly or improperly included within the proposed public hospital district the said board shall change and fix the boundary lines in such manner as it shall deem reasonable and just and conducive to the welfare and convenience, and make and enter an order establishing and defining the boundary lines of the proposed public hospital district: PROVIDED, That no lands shall be included within the boundaries so fixed lying outside the boundaries described in the petition, except upon the written request of the owners of such lands. Thereafter the same procedure shall be followed as prescribed in this chapter for the formation of a public hospital district including an entire county, except that the petition and election shall be confined solely to the lesser public hospital district. [1945 c 264 § 4; Rem. Supp. 1945 § 6090-33.]

70.44.035 Petition for district lying in more than one county—Procedure. Any petition for the formation of a public hospital district may describe an area lying in more than one county, the boundaries of which shall follow the then existing precinct boundaries and not divide a voting precinct; and if a petition is filed with the county auditor of the respective counties in which a portion of the proposed district is located, containing not less than ten percent of the voters of that area of each county of the proposed district who voted at the last general election, certified by the said respective auditors in like manner as for a county-wide

district, the board of county commissioners of each of the counties in which a portion of the proposed district is located shall fix a date for a hearing on the petition, and shall publish the petition, without the signatures thereto appended, for two weeks prior to the hearing, together with a notice stating the time of the meeting when the petition will be heard. The publication required by this chapter shall be in a newspaper published in the portion of each county lying within the proposed district, or if there be no such newspaper published in any such portion of a county, then in one published in the county wherein such portion of said district is situated, and of general circulation in the county. The hearing before the respective county commissioners may be adjourned from time to time not exceeding four weeks in all. If upon the final hearing the respective boards of county commissioners find that any land has been unjustly or improperly included within the proposed district they may change and fix the boundary lines of the portion of said district located within their respective counties in such manner as they deem reasonable and just and conducive to the welfare and convenience, and enter an order establishing and defining the boundary lines of the proposed district located within their respective counties: PROVIDED, That no lands shall be included within the boundaries so fixed lying outside the boundaries described in the petition, except upon the written request of the owners of the land to be so included. Thereafter the same procedure shall be followed as prescribed for the formation of a district including an entire county, except that the petition and election shall be confined solely to the portions of each county lying within the proposed district. [1953 c 267 § 1.]

70.44.040 Elections—Commissioners, terms, districts. (1) The provisions of Title 29 RCW relating to elections shall govern public hospital districts, except as provided in this chapter.

A public hospital district shall be created when the ballot proposition authorizing the creation of the district is approved by a simple majority vote of the voters of the proposed district voting on the proposition and the total vote cast upon the proposition exceeds forty percent of the total number of votes cast in the proposed district at the preceding state general election.

At the election at which the proposition is submitted to the voters as to whether a district shall be formed, three commissioners shall be elected. The election of the initial commissioners shall be null and void if the district is not authorized to be created.

No primary shall be held. A special filing period shall be opened as provided in RCW 29.15.170 and 29.15.180. The person receiving the greatest number of votes for the commissioner of each commissioner district shall be elected as the commissioner of that district. The terms of office of the initial public hospital district commissioners shall be staggered as follows: (a) The person who is elected receiving the greatest number of votes shall be elected to a six-year term of office if the election is held in an odd-numbered year or a five-year term of office if the election is held in an even-numbered year; (b) the person who is elected receiving the next greatest number of votes shall be elected to a four-year term of office if the election is held in an odd-

numbered year or a three-year term of office if the election is held in an even-numbered year; and (c) the other person who is elected shall be elected to a two-year term of office if the election is held in an odd-numbered year or a one-year term of office if the election is held in an even-numbered year. The initial commissioners shall take office immediately when they are elected and qualified, but the length of such terms shall be computed from the first day of January in the year following this election. The term of office of each successor shall be six years. Each commissioner shall serve until a successor is elected and qualified and assumes office in accordance with RCW 29.04.170.

(2) Commissioner districts shall be used as follows: (a) Only a registered voter who resides in a commissioner district may be a candidate for, or hold office as, a commissioner of the commissioner district; and (b) only voters of a commissioner district may vote at a primary to nominate candidates for a commissioner of the commissioner district. Voters of the entire public hospital district may vote at a general election to elect a person as a commissioner of the commissioner district.

If the proposed public hospital district is county-wide, and the county has three county legislative authority districts, the county legislative authority districts shall be used as public hospital district commissioner districts. In all other instances the county auditor of the county in which all or the largest portion of the proposed public hospital district is located shall draw the initial three public hospital district commissioner districts, each of which shall constitute as nearly as possible one-third of the total population of the proposed public hospital district and number the districts one, two, and three. Each of the three commissioner positions shall be numbered one through three and associated with the district of the same number.

The public hospital district commissioners may redraw commissioner districts, if the public hospital district has boundaries that are not coterminous with the boundaries of a county with three county legislative authority districts, so that each district comprises as nearly as possible one-third of the total population of the public hospital district. The commissioners of a public hospital district that is not coterminous with the boundaries of a county that has three county legislative authority districts shall redraw hospital district commissioner boundaries as provided in chapter 29.70 RCW. [1994 c 223 § 78; 1990 c 259 § 39; 1979 ex.s. c 126 § 41; 1957 c 11 § 1; 1955 c 82 § 1; 1953 c 267 § 2; 1947 c 229 § 1; 1945 c 264 § 5; Rem. Supp. 1947 § 6090-34.]

Purpose—1979 ex.s. c 126: See RCW 29.04.170(1).

70.44.042 Commissioner districts may be abolished—Residence of candidates for positions. Notwithstanding any provision in RCW 70.44.040 to the contrary, any board of public hospital district commissioners may, by resolution, abolish commissioner districts and permit candidates for any position on the board to reside anywhere in the public hospital district. [1967 c 227 § 2.]

70.44.045 Commissioners—Vacancies. A vacancy in the office of commissioner shall occur as provided in chapter 42.12 RCW or by nonattendance at meetings of the commis-

sion for sixty days, unless excused by the commission. A vacancy shall be filled as provided in chapter 42.12 RCW. [1994 c 223 § 79; 1982 c 84 § 13; 1955 c 82 § 2.]

70.44.050 Commissioners—Compensation—Waiver of compensation—Expenses—Insurance—Resolutions by majority vote—Officers—Rules—Seal—Records. A district shall provide by resolution for the payment of compensation to each of its commissioners at a rate of fifty dollars for each day or portion thereof devoted to the business of the district, and days upon which he or she attends meetings of the commission of his or her own district, or meetings attended by one or more commissioners of two or more districts called to consider business common to them, except that the total compensation paid to such commissioner during any one year shall not exceed four thousand eight hundred dollars: PROVIDED, That commissioners may not be compensated for services performed of a ministerial or professional nature.

Any commissioner may waive all or any portion of his or her compensation payable under this section as to any month or months during his or her term of office, by a written waiver filed with the district as provided in this section. The waiver, to be effective, must be filed any time after the commissioner's election and prior to the date on which the compensation would otherwise be paid. The waiver shall specify the month or period of months for which it is made.

Any district providing group insurance for its employees, covering them, their immediate family, and dependents, may provide insurance for its commissioners with the same coverage. Each commissioner shall be reimbursed for reasonable expenses actually incurred in connection with such business and meetings, including his subsistence and lodging and travel while away from his place of residence. No resolution shall be adopted without a majority vote of the whole commission. The commission shall organize by election of its own members of a president and secretary, shall by resolution adopt rules governing the transaction of its business and shall adopt an official seal. All proceedings of the commission shall be by motion or resolution recorded in a book or books kept for such purpose, which shall be public records. [1985 c 330 § 7; 1982 c 84 § 14; 1975 c 42 § 1; 1965 c 157 § 1; 1945 c 264 § 15; Rem. Supp. 1945 § 6090-44.]

70.44.053 Increase in number of commissioners—Proposition to voters—Redistricting—Election of additional commissioners. At any general or special election which may be called for that purpose the board of public hospital district commissioners may, or on petition of ten percent of the voters based on the total vote cast in the last district general election in the public hospital district shall, by resolution, submit to the voters of the district the proposition increasing the number of commissioners to either five or seven members. The petition or resolution shall specify whether it is proposed to increase the number of commissioners to either five or seven members.

If the voters of the district approve the ballot proposition authorizing the increase in the number of commissioners to either five or seven members, the board of commissioners

shall redistrict the public hospital district into the appropriate number of commissioner districts. The additional commissioners shall be elected from commissioner districts in which no existing commissioner resides at the next state general election occurring one hundred twenty days or more after the date of the election at which the voters of the district approved the ballot proposition authorizing the increase in the number of commissioners. If needed, special filing periods shall be authorized as provided in RCW 29.15.170 and 29.15.180 for qualified persons to file for the vacant office. A primary shall be held to nominate candidates if sufficient time exists to hold a primary and more than two candidates file for the vacant office. Otherwise, a primary shall not be held and the candidate receiving the greatest number of votes for each position shall be elected. Except for the initial terms of office, persons elected to each of these additional commissioner positions shall be elected to a six-year term.

Where the number of commissioners is increased from three to five, the initial terms of the two new commissioners shall be staggered so that the person who is elected receiving the greatest number of votes shall be elected to a six-year term of office if the election is held in an odd-numbered year or a five-year term if the election is held in an even-numbered year, and the other person elected shall be elected to a four-year term of office if the election is held in an odd-numbered year or a three-year term if the election is held in an even-numbered year. The newly elected commissioners shall assume office as provided in RCW 29.04.170.

Where the number of commissioners is increased from three or five to seven, the county auditor of the county in which all or the largest portion of the hospital district is located shall cause the initial terms of office of the additional commissioners to be staggered over the next three district general elections so that two commissioners would normally be elected at the first district general election following the election where the additional commissioners are elected, two commissioners are normally elected at the second district general election after the election of the additional commissioners, and three commissioners are normally elected at the third district general election following the election of the additional commissioners. The newly elected commissioners shall assume office as provided in RCW 29.04.170. [1994 c 223 § 80; 1967 c 77 § 2.]

70.44.059 Chaplains—Authority to employ. Public hospital districts may employ chaplains for their hospitals, health care facilities, and hospice programs. [1993 c 234 § 1.]

Contingent effective date—1993 c 234: "This act shall take effect on January 1, 1994, if the proposed amendment to Article I, section 11 of the state Constitution authorizing the legislature to permit public hospital districts to employ chaplains is validly submitted to and is approved and ratified by the voters at the next general election held. If the proposed amendment is not so approved and ratified, this act is void in its entirety." [1993 c 234 § 2.] House Joint Resolution No. 4200 was approved by the voters on November 2, 1993.

(4) For the purpose aforesaid, it shall be lawful for any district so organized to take, condemn and purchase, lease, or acquire, any and all property, and property rights, including state and county lands, for any of the purposes aforesaid, and any and all other facilities necessary or convenient, and in connection with the construction, maintenance, and operation of any such hospitals and other health care facilities, subject, however, to the applicable limitations provided in subsection (2) of this section.

Although public hospital districts are authorized to impose two separate regular property tax levies, the levies shall be considered to be a single levy for purposes of the one hundred six percent limitation provided for in chapter 84.55 RCW. Public hospital districts are authorized to levy such a general tax in excess of their regular property taxes when authorized so to do at a special election conducted in accordance with and subject to all of the requirements of the Constitution and the laws of the state of Washington now in force or hereafter enacted governing the limitation of tax levies. The said board of district commissioners is authorized and empowered to call a special election for the purpose of submitting to the qualified voters of the hospital district a proposition or propositions to levy taxes in excess of its regular property taxes. On the first Monday in October the commission shall hold a public hearing on said proposed budget at which any taxpayer may appear and be heard against the whole or any part of the proposed budget. Upon the conclusion of said hearing, the commission shall, by resolution, adopt the budget as finally determined and fix the final amount of expenditures for the ensuing year. Taxes levied by the commission shall be certified to and collected by the proper county officer of the county in which such public hospital district is located in the same manner as is or may be provided by law for the certification and collection of port district taxes. The commission is authorized, prior to the receipt of taxes raised by levy, to borrow money or issue warrants of the district in anticipation of the revenue to be derived by such district

from the levy of taxes for the purpose of such district, and such warrants shall be redeemed from the first money available from such taxes when collected, and such warrants shall not exceed the anticipated revenues of one year, and shall bear interest at a rate or rates as authorized by the commission.

Lien on public works, retained percentage of contractor's earnings: Chapter 60.28 RCW.

70.44.171 Treasurer—Duties—Funds—Depositaries—Surety bonds, cost. The treasurer of the county in which a public hospital district is located shall be treasurer of the district, except that the commission by resolution may designate some other person having experi-

ence in financial or fiscal matters as treasurer of the district. If the treasurer is not the county treasurer, the commission shall require a bond, with a surety company authorized to do business in the state of Washington, in an amount and under the terms and conditions which the commission by resolution from time to time finds will protect the district against loss. The premium on any such bond shall be paid by the district.

All district funds shall be paid to the treasurer and shall be disbursed by him only on warrants issued by an auditor appointed by the commission, upon orders or vouchers approved by it. The treasurer shall establish a public hospital district fund, into which shall be paid all district funds, and he shall maintain such special funds as may be created by the commission, into which he shall place all money as the commission may, by resolution, direct.

If the treasurer of the district is the treasurer of the county all district funds shall be deposited with the county depositories under the same restrictions, contracts, and security as provided for county depositories. If the treasurer of the district is some other person, all funds shall be deposited in such bank or banks authorized to do business in this state as the commission by resolution shall designate, and with surety bond to the district or securities in lieu thereof of the kind, no less in amount, as provided in *RCW 36.48.020 for deposit of county funds. Such surety bond or securities in lieu thereof shall be filed or deposited with the treasurer of the district, and approved by resolution of the commission.

All interest collected on district funds shall belong to the district and be deposited to its credit in the proper district funds.

A district may provide and require a reasonable bond of any other person handling moneys or securities of the district. The district may pay the premium on such bond. [1967 c 227 § 1.]

*Reviser's note: RCW 36.48.020 was repealed by 1984 c 177 § 21.

70.44.185 Change of district boundary lines to allow farm units to be wholly within one hospital district—
Notice. Notwithstanding any other provision of law, including RCW 70.44.040, whenever the boundary line between contiguous hospital districts bisects an irrigation block unit placing part of the unit in one hospital district and the balance thereof in another such district, the county auditor, upon his approval of a request therefor after public hearing thereon, shall change the hospital district boundary lines so that the entire farm unit of the person so requesting shall be wholly in one of such hospital districts and give notice thereof to those hospital district and county officials as he shall deem appropriate therefor. [1971 ex.s. c 218 § 4.]

70.44.190 Consolidation of districts. Two or more contiguous hospital districts, whether the territory therein lies in one or more counties, may consolidate by following the procedure outlined in chapter 35.10 RCW with reference to consolidation of cities and towns. [1953 c 267 § 3.]

70.44.200 Annexation of territory. (1) A public hospital district may annex territory outside the existing boundaries of such district and contiguous thereto, whether

the territory lies in one or more counties, in accordance with this section.

(2) A petition for annexation of territory contiguous to a public hospital district may be filed with the commission of the district to which annexation is proposed. The petition must be signed by the owners, as prescribed by RCW 35A.01.040(9) (a) through (e), of not less than sixty percent of the area of land within the territory proposed to be annexed. Such petition shall describe the boundaries of the territory proposed to be annexed and shall be accompanied by a map which outlines the boundaries of such territory.

(3) Whenever such a petition for annexation is filed with the commission of a public hospital district, the commission may entertain the same, fix a date for public hearing thereon, and cause notice of the hearing to be published once a week for at least two consecutive weeks in a newspaper of general circulation within the territory proposed to be annexed. The notice shall also be posted in three public places within the territory proposed to be annexed, shall contain a description of the boundaries of such territory, and shall specify the time and place of hearing and invite interested persons to appear and voice approval or disapproval of the annexation.

(4) Following the hearing, if the commission of the district determines to accomplish the annexation, it shall do so by resolution. The resolution may annex all or any portion of the proposed territory but may not include in the annexation any property not described in the petition. Upon passage of the annexation resolution, the territory annexed shall become part of the district and a certified copy of such resolution shall be filed with the legislative authority of the county or counties in which the annexed property is located.

(5) If the petition for annexation and the annexation resolution so provide, as the commission may require, and such petition has been signed by the owners of all the land within the boundaries of the territory being annexed, the annexed property shall assume and be assessed and taxed to pay for all or any portion of the outstanding indebtedness of the district to which it is annexed at the same rates as other property within such district. Unless so provided in the petition and resolution, property within the boundaries of the territory annexed shall not be assessed or taxed to pay for all or any portion of the indebtedness of the district to which it is annexed that was contracted prior to or which existed at the date of annexation. In no event shall any such annexed property be released from any assessments or taxes previously levied against it or from its existing liability for the payment of outstanding bonds or warrants issued prior to such annexation.

(6) The annexation procedure provided for in this section shall be an alternative method of annexation applicable only if at the time the annexation petition is filed either there are no registered voters residing in the territory proposed to be annexed or the petition is also signed by all of the registered voters residing in the territory proposed to be annexed. [1993 c 489 § 1; 1979 ex.s. c 143 § 1; 1953 c 267 § 4.]

Severability—1979 ex.s. c 143: "If any provision of this amendatory act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected." [1979 ex.s. c 143 § 3.]

70.44.210 Alternate method of annexation—Contents of resolution calling for election. As an alternate method of annexation to public hospital districts, any territory adjacent to a public hospital district may be annexed thereto by vote of the qualified electors residing in the territory to be annexed, in the manner provided in RCW 70.44.210 through 70.44.230. An election to annex such territory may be called pursuant to a resolution calling for such an election adopted by the district commissioners.

Any resolution calling for such an election shall describe the boundaries of the territory to be annexed, state that the annexation of such territory to the public hospital district will be conducive to the welfare and benefit of the persons or property within the district and within the territory proposed to be annexed, and fix the date, time and place for a public hearing thereon which date shall be not more than sixty nor less than forty days following the adoption of such resolution. [1967 c 227 § 6.]

70.44.220 Alternate method of annexation—Publication and contents of notice of hearing—Hearing—Resolution—Special election. Notice of such hearing shall be published once a week for at least two consecutive weeks in one or more newspapers of general circulation within the territory proposed to be annexed. The notice shall contain a description of the boundaries of the territory proposed to be annexed and shall state the time and place of the hearing thereon and the fact that any changes in the boundaries of such territory will be considered at such time and place. At such hearing or any continuation thereof, any interested person may appear and be heard on all matters relating to the proposed annexation. The district commissioners may make such changes in the boundaries of the territory proposed to be annexed as it shall deem reasonable and proper, but may not delete any portion of the proposed area which will create an island of included or excluded lands. If the district commissioners shall determine that any additional territory should be included in the territory to be annexed, a second hearing shall be held and notice given in the same manner as for the original hearing. The district commissioners may adjourn the hearing on the proposed annexation from time to time not exceeding thirty days in all. At the next regular meeting following the conclusion of such hearing, the district commissioners shall, if it finds that the annexation of such territory will be conducive to the welfare and benefit of the persons and property therein and the welfare and benefit of the persons and property within the public hospital district, adopt a resolution fixing the boundaries of the territory to be annexed and causing to be called a special election on such annexation to be held not more than one hundred twenty days nor less than sixty days following the adoption of such resolution. [1967 c 227 § 7.]

70.44.230 Alternate method of annexation—Conduct and canvass of election—Notice—Ballot. An election on the annexation of territory to a public hospital district shall be conducted and canvassed in the same manner as provided for the conduct of an election on the formation of a public hospital district except that notice of such election shall be published in one or more newspapers of general circulation in the territory proposed to be annexed

and the ballot proposition shall be in substantially the following form:

ANNEXATION TO (herein insert name of public hospital district)

"Shall the territory described in a resolution of the public hospital district commissioners of (here insert name of public hospital district) adopted on . . . , . . . , 19. . . , be annexed to such district?"

YES
NO

If a majority of those voting on such proposition vote in favor thereof, the territory shall thereupon be annexed to the public hospital district. [1967 c 227 § 8.]

70.44.235 Withdrawal or reannexation of areas. (1) As provided in this section, a public hospital district may withdraw areas from its boundaries, or reannex areas into the public hospital district that previously had been withdrawn from the public hospital district under this section.

(2) The withdrawal of an area shall be authorized upon: (a) Adoption of a resolution by the hospital district commissioners requesting the withdrawal and finding that, in the opinion of the commissioners, inclusion of this area within the public hospital district will result in a reduction of the district's tax levy rate under the provisions of RCW 84.52.010; and (b) adoption of a resolution by the city or town council approving the withdrawal, if the area is located within the city or town, or adoption of a resolution by the county legislative authority of the county within which the area is located approving the withdrawal, if the area is located outside of a city or town. A withdrawal shall be effective at the end of the day on the thirty-first day of December in the year in which the resolutions are adopted, but for purposes of establishing boundaries for property tax purposes, the boundaries shall be established immediately upon the adoption of the second resolution.

The withdrawal of an area from the boundaries of a public hospital district shall not exempt any property therein from taxation for the purpose of paying the costs of redeeming any indebtedness of the public hospital district existing at the time of the withdrawal.

(3) An area that has been withdrawn from the boundaries of a public hospital district under this section may be reannexed into the public hospital district upon: (a) Adoption of a resolution by the hospital district commissioners proposing the reannexation; and (b) adoption of a resolution by the city or town council approving the reannexation, if the area is located within the city or town, or adoption of a resolution by the county legislative authority of the county within which the area is located approving the reannexation, if the area is located outside of a city or town. The reannexation shall be effective at the end of the day on the thirty-first day of December in the year in which the adoption of the second resolution occurs, but for purposes of establishing boundaries for property tax purposes, the boundaries shall be established immediately upon the adoption of the second resolution. Referendum action on the proposed reannexation may be taken by the voters of the area proposed to be reannexed if a petition calling for a referendum is filed with the city or town council, or county legislative authority,

within a thirty-day period after the adoption of the second resolution, which petition has been signed by registered voters of the area proposed to be reannexed equal in number to ten percent of the total number of the registered voters residing in that area.

If a valid petition signed by the requisite number of registered voters has been so filed, the effect of the resolutions shall be held in abeyance and a ballot proposition to authorize the reannexation shall be submitted to the voters of the area at the next special election date specified in *RCW 29.13.020 that occurs forty-five or more days after the petitions have been validated. Approval of the ballot proposition authorizing the reannexation by a simple majority vote shall authorize the reannexation. [1987 c 138 § 4.]

***Reviser's note:** As enacted by 1987 c 138 § 4, this section contained an apparently erroneous reference to RCW 29.13.030, a section repealed in 1965. Pursuant to RCW 1.08.015, this reference has been changed to RCW 29.13.020, a later enactment of the section repealed.

70.44.240 Contracting or joining with other districts, hospitals, corporations, or individuals to provide services or facilities. Any public hospital district may contract or join with any other public hospital district, any publicly owned hospital, any nonprofit hospital, any corporation, or individual to acquire or provide services or facilities to be used by individuals, districts, hospitals, or others, including the providing of health maintenance services. [1982 c 84 § 19; 1974 ex.s. c 165 § 4; 1967 c 227 § 3.]

70.44.260 Contracts for purchase of real or personal property. Any public hospital district may execute an executory conditional sales contract with any other municipal corporation, the state, or any of its political subdivisions, the government of the United States, or any private party for the purchase of any real or personal property, or property rights, in connection with the exercise of any powers or duties which such districts now or hereafter are authorized to exercise, if the entire amount of the purchase price specified in such contract does not result in a total indebtedness in excess of the limitation imposed by RCW 39.36.020, as now or hereafter amended, to be incurred without the assent of the voters of the district: PROVIDED, That if such a proposed contract would result in a total indebtedness in excess of three-fourths of one percent of the value of taxable property in such public hospital district, a proposition in regard to whether or not such a contract may be executed shall be submitted to the voters for approval or rejection in the same manner that bond issues for capital purposes are submitted to the voters. The term "value of taxable property" shall have the meaning set forth in RCW 39.36.015. [1975-'76 2nd ex.s. c 78 § 1.]

70.44.300 Sale of surplus real property. (1) The board of commissioners of any public hospital district may sell and convey at public or private sale real property of the district which the board has determined by resolution is no longer required for public hospital district purposes. Such sale and conveyance may be by deed or real estate contract.

(2) Any sale of district real property authorized pursuant to this section shall be preceded, not more than one year prior to the date of sale, by market value appraisals by three

licensed real estate brokers or professionally designated real estate appraisers as defined in RCW 74.46.020 selected by the board of commissioners, and no sale shall take place if the sale price would be less than ninety percent of the average of such appraisals.

(3) When the board of commissioners of any public hospital district proposes a sale of district real property pursuant to this section and the value of the property exceeds one hundred thousand dollars, the board shall publish a notice of its intention to sell the property. The notice shall be published at least once each week during two consecutive weeks in a legal newspaper of general circulation within the public hospital district. The notice shall describe the property to be sold and designate the place where and the day and hour when a hearing will be held. The board shall hold a public hearing upon the proposal to dispose of the public hospital district property at the place and the day and hour fixed in the notice and consider evidence offered for and against the propriety and advisability of the proposed sale.

(4) If in the judgment of the board of commissioners of any district the sale of any district real property not needed for public hospital district purposes would be facilitated and greater value realized through use of the services of licensed real estate brokers, a contract for such services may be negotiated and concluded. The fee or commissions charged for any broker service shall not exceed seven percent of the resulting sale price for a single parcel. No licensed real estate broker or professionally designated real estate appraisers as defined in RCW 74.46.020 selected by the board to appraise the market value of a parcel of property to be sold may be a party to any contract with the public hospital district to sell such property for a period of three years after the appraisal. [1984 c 103 § 4; 1982 c 84 § 2.]

70.44.310 Lease of surplus real property. The board of commissioners of any public hospital district may lease or rent out real property of the district which the board has determined by resolution presently is not required for public hospital district purposes in such manner and upon such terms and conditions as the board in its discretion finds to be in the best interest of the district. [1982 c 84 § 3.]

70.44.320 Disposal of surplus personal property. The board of commissioners of any public hospital district may sell or otherwise dispose of surplus personal property of the district which the board has determined by resolution is no longer required for public hospital district purposes in such manner and upon such terms and conditions as the board in its discretion finds to be in the best interest of the district. [1982 c 84 § 4.]

70.44.350 Dividing a district. An existing public hospital district upon resolution of its board of commissioners may be divided into two new public hospital districts, in the manner provided in RCW 70.44.350 through 70.44.380, subject to the approval of the plan therefor by the superior court in the county where such district is located and by a majority of the voters voting on the proposition for such approval at a special election to be held in each of the proposed new districts. The board of commissioners of an

existing district shall by resolution or resolutions find that such division is in the public interest; adopt and approve a plan of division; authorize the filing of a petition in the superior court in the county in which the district is located to obtain court approval of the plan of division; request the calling of a special election to be held, following such court approval, for the purpose of submitting to the voters in each of the proposed new districts the proposition of whether the plan of division should be approved and carried out; and direct all officers and employees of the existing district to take whatever actions are reasonable and necessary in order to carry out the division, subject to the approval of the plan therefor by the court and the voters. [1982 c 84 § 5.]

70.44.360 Dividing a district—Plan. The plan of division authorized by RCW 70.44.350 shall include: Proposed names for the new districts; a description of the boundaries of the new districts, which boundaries shall follow insofar as reasonably possible the then-existing precinct boundaries and include all of the territory encompassed by the existing district; a division of all the assets of the existing district between the resulting new districts, including funds, rights, and property, both real and personal; the assumption of all the outstanding obligations of the existing district by the resulting new districts, including general obligation and revenue bonds, contracts, and any other liabilities or indebtedness; the establishing and constituting of new boards of three commissioners for each of the new districts, including fixing the boundaries of commissioner districts within such new districts following insofar as reasonably possible the then-existing precinct boundaries; and such other matters as the board of commissioners of the existing district may deem appropriate. Unless the plan of division provides otherwise, all the area and property of the existing district shall remain subject to the outstanding obligations of that district, and the boards of commissioners of the new districts shall make such levies or charges for services as may be necessary to pay such outstanding obligations in accordance with their terms from the sources originally pledged or otherwise liable for that purpose. [1982 c 84 § 6.]

70.44.370 Dividing a district—Petition to court, hearing, order. After adoption of a resolution approving the plan of division by the board of commissioners of an existing district pursuant to RCW 70.44.350 through 70.44.380, the district shall petition the superior court in the county where such district is located requesting court approval of the plan. The court shall conduct a hearing on the plan of division, after reasonable and proper notice of such hearing (including notice to bondholders) is given in the manner fixed and directed by such court. At the conclusion of the hearing, the court may enter its order approving the division of the existing district and of its assets and outstanding obligations in the manner provided by the plan after finding such division to be fair and equitable and in the public interest. [1982 c 84 § 7.]

70.44.380 Dividing a district—Election—Creation of new districts—Challenges. Following the entry of the court order pursuant to RCW 70.44.370, the county officer

authorized to call and conduct elections in the county in which the existing district is located shall call a special election as provided by the resolution of the board of commissioners of such district for the purpose of submitting to the voters in each of the proposed new districts the proposition of whether the plan of division should be approved and carried out. Notice of the election describing the boundaries of the proposed new districts and stating the objects of the election shall be given and the election conducted in accordance with the general election laws. The proposition expressed on the ballots at such election shall be substantially as follows:

"Shall the plan of division of public hospital district No. . . . , approved by the Superior Court on (insert date), be approved and carried out?"

Yes No

At such election three commissioners for each of the proposed new districts nominated by petition pursuant to RCW 54.12.010 shall be elected to hold office pursuant to RCW 70.44.040. If at such election a majority of the voters voting on the proposition in each of the proposed new districts shall vote in favor of the plan of division, the county canvassing board shall so declare in its canvass of the returns of such election and upon the filing of the certificate of such canvass: The division of the existing district shall be effective; such original district shall cease to exist; the creation of the two new public hospital districts shall be complete; all assets of the original district shall vest in and become the property of the new districts, respectively, pursuant to the plan of division; all the outstanding obligations of the original district shall be assumed by the new districts, respectively, pursuant to such plan; the commissioners of the original district shall cease to hold office; and the affairs of the new districts shall be governed by the newly elected commissioners of such respective new districts. Unless commenced within thirty days after the date of the filing of the certificate of the canvass of such election, no lawsuit whatever may be maintained challenging in any way the legal existence of the resulting new districts, the validity of the proceedings had for the organization and creation thereof, or the lawfulness of the plan of division. Upon the petition of either or both new districts, the superior court in the county where they are located may take whatever actions are reasonable and necessary to complete or confirm the carrying out of such plan. [1982 c 84 § 8.]

70.44.400 Withdrawal of territory from public hospital district. Territory within a public hospital district may be withdrawn therefrom in the same manner provided by law for withdrawal of territory from water districts, as provided by chapter 57.28 RCW. For purposes of conforming with such procedure, the public hospital district shall be deemed to be the water district and the public hospital board of commissioners shall be deemed to be the water district board of commissioners. [1984 c 100 § 1.]

70.44.450 Rural public hospital districts—Cooperative agreements and contracts. In addition to other powers granted to public hospital districts by chapter 39.34 RCW, rural public hospital districts may enter into

cooperative agreements and contracts with other rural public hospital districts in order to provide for the health care needs of the people served by the hospital districts. These agreements and contracts are specifically authorized to include:

(1) Allocation of health care services among the different facilities owned and operated by the districts;

(2) Combined purchases and allocations of medical equipment and technologies;

(3) Joint agreements and contracts for health care service delivery and payment with public and private entities; and

(4) Other cooperative arrangements consistent with the intent of chapter 161, Laws of 1992. The provisions of chapter 39.34 RCW shall apply to the development and implementation of the cooperative contracts and agreements. [1992 c 161 § 3.]

Intent—1992 c 161: "The legislature finds that maintaining the viability of health care service delivery in rural areas of Washington is a primary goal of state health policy. The legislature also finds that most hospitals located in rural Washington are operated by public hospital districts authorized under chapter 70.44 RCW and declares that it is not cost-effective, practical, or desirable to provide quality health and hospital care services in rural areas on a competitive basis because of limited patient volume and geographic isolation. It is the intent of this act to foster the development of cooperative and collaborative arrangements among rural public hospital districts by specifically authorizing cooperative agreements and contracts for these entities under the interlocal cooperation act." [1992 c 161 § 1.]

70.44.460 Rural public hospital district defined.

Unless the context clearly requires otherwise, the definition in this section applies throughout RCW 70.44.450.

"Rural public hospital district" means a public hospital district authorized under chapter 70.44 RCW whose geographic boundaries do not include a city with a population greater than thirty thousand. [1992 c 161 § 2.]

Intent—1992 c 161: See note following RCW 70.44.450.

70.44.900 Severability—Construction—1945 c 264.

Adjudication of invalidity of any section, clause or part of a section of this act [1945 c 264] shall not impair or otherwise affect the validity of the act as a whole or any other part thereof. The rule of strict construction shall have no application to this act, but the same shall be liberally construed, in order to carry out the purposes and objects for which this act is intended. When this act comes in conflict with any provisions, limitation or restriction in any other law, this act shall govern and control. [1945 c 264 § 21; no RRS.]

70.44.901 Severability—Construction—1974 ex.s. c 165. If any section, clause, or other provision of this 1974 amendatory act, or its application to any person or circumstance, is held invalid, the remainder of such 1974 amendatory act, or the application of such section, clause, or provision to other persons or circumstances, shall not be affected. The rule of strict construction shall have no application to this 1974 amendatory act, but the same shall be liberally construed, in order to carry out the purposes and objects for which this 1974 amendatory act is intended. When this 1974 amendatory act comes in conflict with any provision, limitation, or restriction in any other law, this

1974 amendatory act shall govern and control. [1974 ex.s. c 165 § 6.]

70.44.902 Severability—1982 c 84. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected. [1982 c 84 § 21.]

70.44.903 Savings—1982 c 84. All debts, contracts, and obligations made or incurred prior to June 10, 1982, by or in favor of any public hospital district, and all bonds, warrants, or other obligations issued by such district, and all other actions and proceedings relating thereto done or taken by such public hospital districts or by their respective officers within their authority are hereby declared to be legal and valid and of full force and effect from the date thereof. [1982 c 84 § 11.]

70.44.910 Construction—1945 c 264. This act [1945 c 264 § 22] shall not be deemed or construed to repeal or affect any existing act, or any part thereof, relating to the construction, operation and maintenance of public hospitals, but shall be supplemental thereto and concurrent therewith. [1945 c 264 § 22; no RRS.]

All references to the administrator of the Washington basic health plan in the Revised Code of Washington shall be construed to mean the administrator of the Washington state health care authority. 70.47.010 Legislative findings—Purpose—Administrator and department of social and health services to coordinate eligibility. (1) The legislature finds that:

(a) A significant percentage of the population of this state does not have reasonably available insurance or other coverage of the costs of necessary basic health care services;

(b) This lack of basic health care coverage is detrimental to the health of the individuals lacking coverage and to the public welfare, and results in substantial expenditures for emergency and remedial health care, often at the expense of health care providers, health care facilities, and all purchasers of health care, including the state; and

(c) The use of managed health care systems has significant potential to reduce the growth of health care costs incurred by the people of this state generally, and by low-income pregnant women, and at-risk children and adolescents who need greater access to managed health care.

(2) The purpose of this chapter is to provide or make more readily available necessary basic health care services in an appropriate setting to working persons and others who lack coverage, at a cost to these persons that does not create barriers to the utilization of necessary health care services. To that end, this chapter establishes a program to be made available to those residents not eligible for medicare who share in a portion of the cost or who pay the full cost of receiving basic health care services from a managed health care system.

(3) It is not the intent of this chapter to provide health care services for those persons who are presently covered through private employer-based health plans, nor to replace employer-based health plans. However, the legislature recognizes that cost-effective and affordable health plans may not always be available to small business employers. Further, it is the intent of the legislature to expand, wherever possible, the availability of private health care coverage and to discourage the decline of employer-based coverage.

(4)(a) It is the purpose of this chapter to acknowledge the initial success of this program that has (i) assisted thousands of families in their search for affordable health care; (ii) demonstrated that low-income, uninsured families are willing to pay for their own health care coverage to the

extent of their ability to pay; and (iii) proved that local health care providers are willing to enter into a public-private partnership as a managed care system.

(b) As a consequence, the legislature intends to extend an option to enroll to certain citizens above two hundred percent of the federal poverty guidelines within the state who reside in communities where the plan is operational and who collectively or individually wish to exercise the opportunity to purchase health care coverage through the basic health plan if the purchase is done at no cost to the state. It is also the intent of the legislature to allow employers and other financial sponsors to financially assist such individuals to purchase health care through the program so long as such purchase does not result in a lower standard of coverage for employees.

(c) The legislature intends that, to the extent of available funds, the program be available throughout Washington state to subsidized and nonsubsidized enrollees. It is also the intent of the legislature to enroll subsidized enrollees first, to the maximum extent feasible.

(d) The legislature directs that the basic health plan administrator identify enrollees who are likely to be eligible for medical assistance and assist these individuals in applying for and receiving medical assistance. The administrator and the department of social and health services shall implement a seamless system to coordinate eligibility determinations and benefit coverage for enrollees of the basic health plan and medical assistance recipients. [1993 c 492 § 208; 1987 1st ex.s. c 5 § 3.]

Findings—Intent—1993 c 492: See notes following RCW 43.20.050.

Short title—Severability—Savings—Captions not law—Reservation of legislative power—Effective dates—1993 c 492: See RCW 43.72.910 through 43.72.915.

70.47.015 Expanded enrollment—Findings—Intent—Enrollee premium share—Expedited application and enrollment process—Commission for agents and brokers. (1) The legislature finds that the basic health plan has been an effective program in providing health coverage for uninsured residents. Further, since 1993, substantial amounts of public funds have been allocated for subsidized basic health plan enrollment.

(2) It is the intent of the legislature that the basic health plan enrollment be expanded expeditiously, consistent with funds available in the health services account, with the goal of two hundred thousand adult subsidized basic health plan enrollees and one hundred thirty thousand children covered through expanded medical assistance services by June 30, 1997, with the priority of providing needed health services to children in conjunction with other public programs.

(3) Effective January 1, 1996, basic health plan enrollees whose income is less than one hundred twenty-five percent of the federal poverty level shall pay at least a ten-dollar premium share.

(4) No later than July 1, 1996, the administrator shall implement procedures whereby hospitals licensed under chapters 70.41 and 71.12 RCW, health carrier, rural health care facilities regulated under chapter 70.175 RCW, and community and migrant health centers funded under RCW 41.05.220, may expeditiously assist patients and their families in applying for basic health plan or medical assistance coverage, and in submitting such applications directly

to the health care authority or the department of social and health services. The health care authority and the department of social and health services shall make every effort to simplify and expedite the application and enrollment process.

(5) No later than July 1, 1996, the administrator shall implement procedures whereby health insurance agents and brokers, licensed under chapter 48.17 RCW, may expeditiously assist patients and their families in applying for basic health plan or medical assistance coverage, and in submitting such applications directly to the health care authority or the department of social and health services. Brokers and agents shall be entitled to receive a commission for each individual sale of the basic health plan to anyone not at anytime previously signed up and a commission for each group sale of the basic health plan. No commission shall be provided upon a renewal. Commissions shall be determined based on the estimated annual cost of the basic health plan, however, commissions shall not result in a reduction in the premium amount paid to health carriers. For purposes of this section "health carrier" is as defined in RCW 48.43.005. The health care authority and the department of social and health services shall make every effort to simplify and expedite the application and enrollment process. [1995 c 265 § 1.]

However, with respect to coverage for groups of subsidized enrollees who are eligible to receive prenatal and postnatal services through the medical assistance program under chapter 74.09 RCW, the administrator shall not contract for such services except to the extent that such services are necessary over not more than a one-month period in order to maintain continuity of care after diagnosis of pregnancy by the managed care provider. The schedule of services shall also include a separate schedule of basic health care services for children, eighteen years of age and younger, for those subsidized or nonsubsidized enrollees who choose to secure basic coverage through the plan only for their dependent children. In designing and revising the schedule of services, the administrator shall consider the guidelines for assessing health services under the mandated benefits act of 1984, RCW 48.42.080, and such other factors as the administrator deems appropriate. On and after ~~(July 1)~~ December 31, 1995, the uniform benefits package adopted and from time to time revised by the Washington health services commission pursuant to *RCW 43.72.130 shall be implemented by the administrator as the schedule of covered basic health care services. However, with respect to coverage for subsidized enrollees who are eligible to receive prenatal and postnatal services through the medical assistance program under chapter 74.09 RCW, the administrator shall not contract for such services except to the extent that the services are necessary over not more than a one-month period in order to maintain continuity of care after diagnosis of pregnancy by the managed care provider.

(2)(a) To design and implement a structure of periodic premiums due the administrator from subsidized enrollees that is based upon gross family income, giving appropriate consideration to family size and the ages of all family members. The enrollment of children shall not require the enrollment of their parent or parents who are eligible for the plan. The structure of periodic premiums shall be applied to subsidized enrollees entering the plan as individuals pursuant to subsection (9) of this section and to the share of the cost of the plan due from subsidized enrollees entering the plan as employees pursuant to subsection (10) of this section.

(b) To determine the periodic premiums due the administrator from nonsubsidized enrollees. Premiums due from nonsubsidized enrollees shall be in an amount equal to the cost charged by the managed health care system provider to the state for the plan plus the administrative cost of providing the plan to those enrollees and the premium tax under RCW 48.14.0201.

(c) An employer or other financial sponsor may, with the prior approval of the administrator, pay the premium, rate, or any other amount on behalf of a subsidized or nonsubsidized enrollee, by arrangement with the enrollee and through a mechanism acceptable to the administrator, but in no case shall the payment made on behalf of the enrollee exceed the total premiums due from the enrollee.

(3) To design and implement a structure of copayments due a managed health care system from subsidized and nonsubsidized enrollees. The structure shall discourage inappropriate enrollee utilization of health care services, but shall not be so costly to enrollees as to constitute a barrier to appropriate utilization of necessary health care services. On and after July 1, 1995, the administrator shall endeavor to make the copayments structure of the plan consistent with enrollee point of service cost-sharing levels adopted by the Washington health services commission, giving consideration to funding available to the plan.

(4) To limit enrollment of persons who qualify for subsidies so as to prevent an overexpenditure of appropriations for such purposes. Whenever the administrator finds that there is danger of such an overexpenditure, the administrator shall close enrollment until the administrator finds the danger no longer exists.

(5) To limit the payment of subsidies to subsidized enrollees, as defined in RCW 70.47.020.

(6) To adopt a schedule for the orderly development of the delivery of services and availability of the plan to residents of the state, subject to the limitations contained in RCW 70.47.080 or any act appropriating funds for the plan.

(7) To solicit and accept applications from managed health care systems, as defined in this chapter, for inclusion as eligible basic health care providers under the plan. The administrator shall endeavor to assure that covered basic health care services are available to any enrollee of the plan from among a selection of two or more participating managed health care systems. In adopting any rules or procedures applicable to managed health

care systems and in its dealings with such systems, the administrator shall consider and make suitable allowance for the need for health care services and the differences in local availability of health care resources, along with other resources, within and among the several areas of the state. Contracts with participating managed health care systems shall ensure that basic health plan enrollees who become eligible for medical assistance may, at their option, continue to receive services from their existing providers within the managed health care system if such providers have entered into provider agreements with the department of social and health services.

(8) To receive periodic premiums from or on behalf of subsidized and nonsubsidized enrollees, deposit them in the basic health plan operating account, keep records of enrollee status, and authorize periodic payments to managed health care systems on the basis of the number of enrollees participating in the respective managed health care systems.

(9) To accept applications from individuals residing in areas served by the plan, on behalf of themselves and their spouses and dependent children, for enrollment in the Washington basic health plan as subsidized or nonsubsidized enrollees, to establish appropriate minimum-enrollment periods for enrollees as may be necessary, and to determine, upon application and at least semiannually thereafter, or at the request of any enrollee, eligibility due to current gross family income for sliding scale premiums. No subsidy may be paid with respect to any enrollee whose current gross family income exceeds twice the federal poverty level or, subject to RCW 70.47.110, who is a recipient of medical assistance or medical care services under chapter 74.09 RCW. If, as a result of an eligibility review, the administrator determines that a subsidized enrollee's income exceeds twice the federal poverty level and that the enrollee knowingly failed to inform the plan of such increase in income, the administrator may bill the enrollee for the subsidy paid on the enrollee's behalf during the period of time that the enrollee's income exceeded twice the federal poverty level. If a number of enrollees drop their enrollment for no apparent good cause, the administrator may establish appropriate rules or requirements that are applicable to such individuals before they will be allowed to reenroll in the plan.

(10) To accept applications from business owners on behalf of themselves and their employees, spouses, and dependent children, as subsidized or nonsubsidized enrollees, who reside in an area served by the plan. The administrator may require all or the substantial majority of the eligible employees of such businesses to enroll in the plan and establish those procedures necessary to facilitate the orderly enrollment of groups in the plan and into a managed health care system. The administrator shall require that a business owner pay at least fifty percent of the nonsubsidized premium cost of the plan on behalf of each employee enrolled in the plan. Enrollment is limited to those not eligible for medicare who wish to enroll in the plan and choose to obtain the basic health care coverage and services from a managed care system participating in the plan. The administrator shall adjust the amount determined to be due on behalf of or from all such enrollees whenever the amount negotiated by the administrator with the participating managed health care system or systems is modified or the administrative cost of providing the plan to such enrollees changes.

(11) To determine the rate to be paid to each participating managed health care system in return for the provision of covered basic health care services to enrollees in the system. Although the schedule of covered basic health care services will be the same for similar enrollees, the rates negotiated with participating managed health care systems may vary among the systems. In negotiating rates with participating systems, the administrator shall consider the characteristics of the populations served by the respective systems, economic circumstances of the local area, the need to conserve the resources of the basic health plan trust account, and other factors the administrator finds relevant.

(12) To monitor the provision of covered services to enrollees by participating managed health care systems in order to assure enrollee access to good quality basic health care, to require periodic data reports concerning the utilization of health care services rendered to enrollees in order to provide adequate information for evaluation, and to inspect the books and records of participating managed health care systems to assure compliance with the purposes of this chapter. In requiring reports from participating managed health care systems, including data on services rendered enrollees, the administrator shall endeavor to minimize costs, both to the managed health care systems and to the plan. The administrator shall coordinate any such reporting requirements with other state agencies, such as the insurance commissioner and the department of health, to minimize duplication of effort.

(13) To evaluate the effects this chapter has on private employer-based health care coverage and to take appropriate measures consistent with state

and federal statutes that will discourage the reduction of such coverage in the state.

(14) To develop a program of proven preventive health measures and to integrate it into the plan wherever possible and consistent with this chapter.

(15) To provide, consistent with available funding, assistance for rural residents, underserved populations, and persons of color. [1995 c 2 § 4; 1994 c 309 § 5; 1993 c 492 § 212; 1992 c 232 § 908. Prior: 1991 sp.s. c 4 § 2; 1991 c 3 § 339; 1987 1st ex.s. c 5 § 8.]

*Reviser's note: RCW 43.72.130 was repealed by 1995 c 265 § 27, effective July 1, 1995.

Effective date—1995 c 2: See note following RCW 43.72.090.

70.47.060 Powers and duties of administrator—Schedule of services—Premiums, copayments, subsidies—Enrollment (as amended by 1995 c 266). The administrator has the following powers and duties:

(1) To design and from time to time revise a schedule of covered basic health care services, including physician services, inpatient and outpatient hospital services, prescription drugs and medications, and other services that may be necessary for basic health care (~~(-which)~~). In addition, the administrator may offer as basic health plan services chemical dependency services, mental health services and organ transplant services; however, no one service or any combination of these three services shall increase the actuarial value of the basic health plan benefits by more than five percent excluding inflation, as determined by the office of financial management. All subsidized and nonsubsidized enrollees in any participating managed health care system under the Washington basic health plan shall be entitled to receive in return for premium payments to the plan. The schedule of services shall emphasize proven preventive and primary health care and shall include all services necessary for prenatal, postnatal, and well-child care. However, with respect to coverage for groups of subsidized enrollees who are eligible to receive prenatal and postnatal services through the medical assistance program under chapter 74.09 RCW, the administrator shall not contract for such services except to the extent that such services are necessary over not more than a one-month period in order to maintain continuity of care after diagnosis of pregnancy by the managed care provider. The schedule of services shall also include a separate schedule of basic health care services for children, eighteen years of age and younger, for those subsidized or nonsubsidized enrollees who choose to secure basic coverage through the plan only for their dependent children. In designing and revising the schedule of services, the administrator shall consider the guidelines for assessing health services under the mandated benefits act of 1984, RCW 48.42.080, and such other factors as the administrator deems appropriate. ~~((On and after July 1, 1995, the uniform benefits package adopted and from time to time revised by the Washington health services commission pursuant to RCW 43.72.130 shall be implemented by the administrator as the schedule of covered basic health care services.))~~

However, with respect to coverage for subsidized enrollees who are eligible to receive prenatal and postnatal services through the medical assistance program under chapter 74.09 RCW, the administrator shall not contract for such services except to the extent that the services are necessary over not more than a one-month period in order to maintain continuity of care after diagnosis of pregnancy by the managed care provider.

(2)(a) To design and implement a structure of periodic premiums due the administrator from subsidized enrollees that is based upon gross family income, giving appropriate consideration to family size and the ages of all family members. The enrollment of children shall not require the enrollment of their parent or parents who are eligible for the plan. The structure of periodic premiums shall be applied to subsidized enrollees entering the plan as individuals pursuant to subsection (9) of this section and to the share of the cost of the plan due from subsidized enrollees entering the plan as employees pursuant to subsection (10) of this section.

(b) To determine the periodic premiums due the administrator from nonsubsidized enrollees. Premiums due from nonsubsidized enrollees shall be in an amount equal to the cost charged by the managed health care system provider to the state for the plan plus the administrative cost of providing the plan to those enrollees and the premium tax under RCW 48.14.0201.

(c) An employer or other financial sponsor may, with the prior approval of the administrator, pay the premium, rate, or any other amount on behalf of a subsidized or nonsubsidized enrollee, by arrangement with the enrollee and through a mechanism acceptable to the administrator, but in no case shall the payment made on behalf of the enrollee exceed the total premiums due from the enrollee.

(d) To develop, as an offering by all health carriers providing coverage identical to the basic health plan, a model plan benefits package with uniformity in enrollee cost-sharing requirements.

(3) To design and implement a structure of ((copayments)) enrollee cost sharing due a managed health care system from subsidized and nonsubsidized enrollees. The structure shall discourage inappropriate enrollee utilization of health care services, and may utilize copayments, deductibles, and other cost-sharing mechanisms, but shall not be so costly to enrollees as to constitute a barrier to appropriate utilization of necessary health care services. ((On and after July 1, 1995, the administrator shall endeavor to make the copayments structure of the plan consistent with enrollee point of service cost sharing levels adopted by the Washington health services commission, giving consideration to funding available to the plan.))

(4) To limit enrollment of persons who qualify for subsidies so as to prevent an overexpenditure of appropriations for such purposes. Whenever the administrator finds that there is danger of such an overexpenditure, the administrator shall close enrollment until the administrator finds the danger no longer exists.

(5) To limit the payment of subsidies to subsidized enrollees, as defined in RCW 70.47.020. The level of subsidy provided to persons who qualify may be based on the lowest cost plans, as defined by the administrator.

(6) To adopt a schedule for the orderly development of the delivery of services and availability of the plan to residents of the state, subject to the limitations contained in RCW 70.47.080 or any act appropriating funds for the plan.

(7) To solicit and accept applications from managed health care systems, as defined in this chapter, for inclusion as eligible basic health care providers under the plan. The administrator shall endeavor to assure that covered basic health care services are available to any enrollee of the plan from among a selection of two or more participating managed health care systems. In adopting any rules or procedures applicable to managed health care systems and in its dealings with such systems, the administrator shall consider and make suitable allowance for the need for health care services and the differences in local availability of health care resources, along with other resources, within and among the several areas of the state. Contracts with participating managed health care systems shall ensure that basic health plan enrollees who become eligible for medical assistance may, at their option, continue to receive services from their existing providers within the managed health care system if such providers have entered into provider agreements with the department of social and health services.

(8) To receive periodic premiums from or on behalf of subsidized and nonsubsidized enrollees; deposit them in the basic health plan operating account, keep records of enrollee status, and authorize periodic payments to managed health care systems on the basis of the number of enrollees participating in the respective managed health care systems.

(9) To accept applications from individuals residing in areas served by the plan, on behalf of themselves and their spouses and dependent children, for enrollment in the Washington basic health plan as subsidized or nonsubsidized enrollees, to establish appropriate minimum-enrollment periods for enrollees as may be necessary, and to determine, upon application and ((at least semiannually thereafter)) on a reasonable schedule defined by the authority, or at the request of any enrollee, eligibility due to current gross family income for sliding scale premiums. No subsidy may be paid with respect to any enrollee whose current gross family income exceeds twice the federal poverty level or, subject to RCW 70.47.110, who is a recipient of medical assistance or medical care services under chapter 74.09 RCW. If, as a result of an eligibility review, the administrator determines that a subsidized enrollee's income exceeds twice the federal poverty level and that the enrollee knowingly failed to inform the plan of such increase in income, the administrator may bill the enrollee for the subsidy paid on the enrollee's behalf during the period of time that the enrollee's income exceeded twice the federal poverty level. If a number of enrollees drop their enrollment for no apparent good cause, the administrator may establish appropriate rules or requirements that are applicable to such individuals before they will be allowed to reenroll in the plan.

(10) To accept applications from business owners on behalf of themselves and their employees, spouses, and dependent children, as subsidized or nonsubsidized enrollees, who reside in an area served by the plan. The administrator may require all or the substantial majority of the eligible employees of such businesses to enroll in the plan and establish those procedures necessary to facilitate the orderly enrollment of groups in the plan and into a managed health care system. The administrator ((shall)) may require that a business owner pay at least ((fifty percent of the nonsubsidized)) an amount equal to what the employee pays after the state

pays its portion of the subsidized premium cost of the plan on behalf of each employee enrolled in the plan. Enrollment is limited to those not eligible for medicare who wish to enroll in the plan and choose to obtain the basic health care coverage and services from a managed care system participating in the plan. The administrator shall adjust the amount determined to be due on behalf of or from all such enrollees whenever the amount negotiated by the administrator with the participating managed health care system or systems is modified or the administrative cost of providing the plan to such enrollees changes.

(11) To determine the rate to be paid to each participating managed health care system in return for the provision of covered basic health care services to enrollees in the system. Although the schedule of covered basic health care services will be the same for similar enrollees, the rates negotiated with participating managed health care systems may vary among the systems. In negotiating rates with participating systems, the administrator shall consider the characteristics of the populations served by the respective systems, economic circumstances of the local area, the need to conserve the resources of the basic health plan trust account, and other factors the administrator finds relevant.

(12) To monitor the provision of covered services to enrollees by participating managed health care systems in order to assure enrollee access to good quality basic health care, to require periodic data reports concerning the utilization of health care services rendered to enrollees in order to provide adequate information for evaluation, and to inspect the books and records of participating managed health care systems to assure compliance with the purposes of this chapter. In requiring reports from participating managed health care systems, including data on services rendered enrollees, the administrator shall endeavor to minimize costs, both to the managed health care systems and to the plan. The administrator shall coordinate any such reporting requirements with other state agencies, such as the insurance commissioner and the department of health, to minimize duplication of effort.

(13) To evaluate the effects this chapter has on private employer-based health care coverage and to take appropriate measures consistent with state and federal statutes that will discourage the reduction of such coverage in the state.

(14) To develop a program of proven preventive health measures and to integrate it into the plan wherever possible and consistent with this chapter.

(15) To provide, consistent with available funding, assistance for rural residents, underserved populations, and persons of color. [1995 c 266 § 1; 1994 c 309 § 5; 1993 c 492 § 212; 1992 c 232 § 908. Prior: 1991 sp.s. c 4 § 2; 1991 c 3 § 339; 1987 1st ex.s. c 5 § 8.]

Reviser's note: RCW 70.47.060 was amended twice during the 1995 legislative session, each without reference to the other. For rule of construction concerning sections amended more than once during the same legislative session, see RCW 1.12.025.

Effective date—1995 c 266: "This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and shall take effect July 1, 1995." [1995 c 266 § 5.]

Contingency—1994 c 309 §§ 5 and 6: "If a court in a permanent injunction, permanent order, or final decision determines that the amendments made by sections 5 and 6, chapter 309, Laws of 1994, must be submitted to the people for their adoption and ratification, or rejection, as a result of section 13, chapter 2, Laws of 1994, the amendments made by sections 5 and 6, chapter 309, Laws of 1994, shall be null and void." 70.47.070 Benefits from other coverages not reduced. The benefits available under the plan shall be subject to RCW 48.21.200 and shall be excess to the benefits payable under the terms of any insurance policy issued to or on the behalf of an enrollee that provides payments toward medical expenses without a determination of liability for the injury. [1987 1st ex.s. c 5 § 9.]

70.47.080 Enrollment of applicants—Participation limitations. On and after July 1, 1988, the administrator shall accept for enrollment applicants eligible to receive covered basic health care services from the respective managed health care systems which are then participating in the plan.

Thereafter, total subsidized enrollment shall not result in expenditures that exceed the total amount that has been made available by the legislature in any act appropriating funds to the plan. To the extent that new funding is appropriated for expansion, the administrator shall endeavor to secure participation contracts from managed health care systems in geographic areas of the state that are unserved by the plan at the time at which the new funding is appropriated. In the selection of any such areas the administrator shall take into account the levels and rates of unemployment in different areas of the state, the need to provide basic health care coverage to a population reasonably representative of the portion of the state's population that lacks such coverage, and the need for geographic, demographic, and economic diversity.

The administrator shall at all times closely monitor growth patterns of enrollment so as not to exceed that consistent with the orderly development of the plan as a whole, in any area of the state or in any participating managed health care system. The annual or biennial enrollment limitations derived from operation of the plan under this section do not apply to nonsubsidized enrollees as defined in RCW 70.47.020(5). [1993 c 492 § 213; 1987 1st ex.s. c 5 § 10.]

Findings—Intent—1993 c 492: See notes following RCW 43.20.050.

Short title—Severability—Savings—Captions not law—Reservation of legislative power—Effective dates—1993 c 492: See RCW 43.72.910 through 43.72.915.

70.47.090 Removal of enrollees. Any enrollee whose premium payments to the plan are delinquent or who moves his or her residence out of an area served by the plan may be dropped from enrollment status. An enrollee whose premium is the responsibility of the department of social and health services under RCW 70.47.110 may not be dropped solely because of nonpayment by the department. The administrator shall provide delinquent enrollees with advance written notice of their removal from the plan and shall provide for a hearing under chapters 34.05 and 34.12 RCW for any enrollee who contests the decision to drop the enrollee from the plan. Upon removal of an enrollee from the plan, the administrator shall promptly notify the managed health care system in which the enrollee has been enrolled, and shall not be responsible for payment for health care services provided to the enrollee (including, if applicable, members of the enrollee's family) after the date of notification. A managed health care system may contest the denial of payment for coverage of an enrollee through a hearing under chapters 34.05 and 34.12 RCW. [1987 1st ex.s. c 5 § 11.]

70.47.100 Participation by managed health care systems. Managed health care systems participating in the plan shall do so by contract with the administrator and shall provide, directly or by contract with other health care pro-

viders, covered basic health care services to each enrollee as long as payments from the administrator on behalf of the enrollee are current. A participating managed health care system may offer, without additional cost, health care benefits or services not included in the schedule of covered services under the plan. A participating managed health care system shall not give preference in enrollment to enrollees who accept such additional health care benefits or services. Managed health care systems participating in the plan shall not discriminate against any potential or current enrollee based upon health status, sex, race, ethnicity, or religion. The administrator may receive and act upon complaints from enrollees regarding failure to provide covered services or efforts to obtain payment, other than authorized copayments, for covered services directly from enrollees, but nothing in this chapter empowers the administrator to impose any sanctions under Title 18 RCW or any other professional or facility licensing statute.

The plan shall allow, at least annually, an opportunity for enrollees to transfer their enrollments among participating managed health care systems serving their respective areas. The administrator shall establish a period of at least twenty days in a given year when this opportunity is afforded enrollees, and in those areas served by more than one participating managed health care system the administrator shall endeavor to establish a uniform period for such opportunity. The plan shall allow enrollees to transfer their enrollment to another participating managed health care system at any time upon a showing of good cause for the transfer.

Any contract between a hospital and a participating managed health care system under this chapter is subject to the requirements of *RCW 70.39.140(1) regarding negotiated rates.

Prior to negotiating with any managed health care system, the administrator shall determine, on an actuarially sound basis, the reasonable cost of providing the schedule of basic health care services, expressed in terms of upper and lower limits, and recognizing variations in the cost of providing the services through the various systems and in different areas of the state. In negotiating with managed health care systems for participation in the plan, the administrator shall adopt a uniform procedure that includes at least the following:

(1) The administrator shall issue a request for proposals, including standards regarding the quality of services to be provided; financial integrity of the responding systems; and responsiveness to the unmet health care needs of the local communities or populations that may be served;

(2) The administrator shall then review responsive proposals and may negotiate with respondents to the extent necessary to refine any proposals;

(3) The administrator may then select one or more systems to provide the covered services within a local area; and

(4) The administrator may adopt a policy that gives preference to respondents, such as nonprofit community health clinics, that have a history of providing quality health care services to low-income persons. [1987 1st ex.s. c 5 § 12.]

*Reviser's note: RCW 70.39.140 was repealed by 1982 c 223 § 10, effective June 30, 1990.

70.47.110 Enrollment of medical assistance recipients. The department of social and health services may make payments to the administrator or to participating managed health care systems on behalf of any enrollee who is a recipient of medical care under chapter 74.09 RCW, at the maximum rate allowable for federal matching purposes under Title XIX of the social security act. Any enrollee on whose behalf the department of social and health services makes such payments may continue as an enrollee, making premium payments based on the enrollee's own income as determined under the sliding scale, after eligibility for coverage under chapter 74.09 RCW has ended, as long as the enrollee remains eligible under this chapter. Nothing in this section affects the right of any person eligible for coverage under chapter 74.09 RCW to receive the services offered to other persons under that chapter but not included in the schedule of basic health care services covered by the plan. The administrator shall seek to determine which enrollees or prospective enrollees may be eligible for medical care under chapter 74.09 RCW and may require these individuals to complete the eligibility determination process under chapter 74.09 RCW prior to enrollment or continued participation in the plan. The administrator and the department of social and health services shall cooperatively adopt procedures to facilitate the transition of plan enrollees and payments on their behalf between the plan and the programs established under chapter 74.09 RCW. [1991 sp.s. c 4 § 3; 1987 1st ex.s. c 5 § 13.]

Effective date—1991 sp.s. c 4: See note following RCW 70.47.030.

70.47.115 Enrollment of persons in timber impact areas. (1) The administrator, when specific funding is provided and where feasible, shall make the basic health plan available in timber impact areas. The administrator shall prioritize making the plan available under this section to the timber impact areas meeting the following criteria, as determined by the employment security department: (a) A lumber and wood products employment location quotient at or above the state average; (b) a direct lumber and wood products job loss of one hundred positions or more; and (c) an annual unemployment rate twenty percent above the state average.

(2) Persons assisted under this section shall meet the requirements of enrollee as defined in RCW 70.47.020(4).

(3) For purposes of this section, "timber impact area" means:

(a) A county having a population of less than five hundred thousand, or a city or town located within a county having a population of less than five hundred thousand, and meeting two of the following three criteria, as determined by the employment security department, for the most recent year such data is available: (i) A lumber and wood products employment location quotient at or above the state average; (ii) projected or actual direct lumber and wood products job losses of one hundred positions or more, except counties having a population greater than two hundred thousand but less than five hundred thousand must have direct lumber and wood products job losses of one thousand positions or more; or (iii) an annual unemployment rate twenty percent or more above the state average; or

(b) Additional communities as the economic recovery coordinating board, established in *RCW 43.31.631, designates based on a finding by the board that each designated community is socially and economically integrated with areas that meet the definition of a timber impact area under (a) of this subsection. [1992 c 21 § 7; 1991 c 315 § 22.]

***Reviser's note:** RCW 43.31.631 was repealed by 1995 c 226 § 33 and 1995 c 269 § 1902, effective July 1, 1995.

Intent—1991 c 315: See note following RCW 50.12.270.

Severability—Conflict with federal requirements—Effective date—1991 c 315: See RCW 50.70.900 through 50.70.902.

70.47.120 Administrator—Contracts for services. In addition to the powers and duties specified in RCW 70.47.040 and 70.47.060, the administrator has the power to enter into contracts for the following functions and services:

(1) With public or private agencies, to assist the administrator in her or his duties to design or revise the schedule of covered basic health care services, and/or to monitor or evaluate the performance of participating managed health care systems.

(2) With public or private agencies, to provide technical or professional assistance to health care providers, particularly public or private nonprofit organizations and providers serving rural areas, who show serious intent and apparent capability to participate in the plan as managed health care systems.

(3) With public or private agencies, including health care service contractors registered under RCW 48.44.015, and doing business in the state, for marketing and administrative services in connection with participation of managed health care systems, enrollment of enrollees, billing and collection services to the administrator, and other administrative functions ordinarily performed by health care service contractors, other than insurance. Any activities of a health care service contractor pursuant to a contract with the administrator under this section shall be exempt from the provisions and requirements of Title 48 RCW. [1987 1st ex.s. c 5 § 14.]

70.47.130 Exemption from insurance code. The activities and operations of the Washington basic health plan under this chapter, including those of managed health care systems to the extent of their participation in the plan, are exempt from the provisions and requirements of Title 48 RCW, except as provided in RCW 70.47.070 and that the premium and prepayment tax imposed under RCW 48.14.0201 shall apply to amounts paid to a managed health care system by the basic health plan for participating in the basic health plan and providing health care services for nonsubsidized enrollees in the basic health plan. The purpose of the 1994 amendatory language to this section in chapter 309, Laws of 1994 is to clarify the intent of the legislature that premiums paid on behalf of nonsubsidized enrollees in the basic health plan are subject to the premium and prepayment tax. The legislature does not consider this clarifying language to either raise existing taxes nor to impose a tax that did not exist previously. [1994 c 309 § 6; 1987 1st ex.s. c 5 § 15.]

Contingency—1994 c 309 §§ 5 and 6: See note following RCW 70.47.060.

70.47.140 Reservation of legislative power. The legislature reserves the right to amend or repeal all or any part of this chapter at any time and there shall be no vested private right of any kind against such amendment or repeal. All the rights, privileges, or immunities conferred by this chapter or any acts done pursuant thereto shall exist subject to the power of the legislature to amend or repeal this chapter at any time. [1987 1st ex.s. c 5 § 2.]

70.47.150 Public disclosure. Notwithstanding the provisions of chapter 42.17 RCW, (1) records obtained, reviewed by, or on file with the plan containing information concerning medical treatment of individuals shall be exempt from public inspection and copying; and (2) actuarial formulas, statistics, and assumptions submitted in support of a rate filing by a managed health care system or submitted to the administrator upon his or her request shall be exempt from public inspection and copying in order to preserve trade secrets or prevent unfair competition. [1990 c 54 § 1.]

70.47.160 Right of individuals to receive services—Right of providers, carriers, and facilities to refuse to participate in or pay for services for reason of conscience or religion—Requirements. (1) The legislature recognizes that every individual possesses a fundamental right to exercise their religious beliefs and conscience. The legislature further recognizes that in developing public policy, conflicting religious and moral beliefs must be respected. Therefore, while recognizing the right of conscientious objection to participating in specific health services, the state shall also recognize the right of individuals enrolled with the basic health plan to receive the full range of services covered under the basic health plan.

(2)(a) No individual health care provider, religiously sponsored health carrier, or health care facility may be required by law or contract in any circumstances to participate in the provision of or payment for a specific service if they object to so doing for reason of conscience or religion. No person may be discriminated against in employment or professional privileges because of such objection.

(b) The provisions of this section are not intended to result in an enrollee being denied timely access to any service included in the basic health plan. Each health carrier shall:

(i) Provide written notice to enrollees, upon enrollment with the plan, listing services that the carrier refuses to cover for reason of conscience or religion;

(ii) Provide written information describing how an enrollee may directly access services in an expeditious manner; and

(iii) Ensure that enrollees refused services under this section have prompt access to the information developed pursuant to (b)(ii) of this subsection.

(c) The administrator shall establish a mechanism or mechanisms to recognize the right to exercise conscience while ensuring enrollees timely access to services and to assure prompt payment to service providers.

(3)(a) No individual or organization with a religious or moral tenet opposed to a specific service may be required to purchase coverage for that service or services if they object to doing so for reason of conscience or religion.

(b) The provisions of this section shall not result in an enrollee being denied coverage of, and timely access to, any service or services excluded from their benefits package as a result of their employer's or another individual's exercise of the conscience clause in (a) of this subsection.

(c) The administrator shall define the process through which health carriers may offer the basic health plan to individuals and organizations identified in (a) and (b) of this subsection in accordance with the provisions of subsection (2)(c) of this section.

(4) Nothing in this section requires the health care authority, health carriers, health care facilities, or health care providers to provide any basic health plan service without payment of appropriate premium share or enrollee cost sharing. [1995 c 266 § 3.]

Effective date—1995 c 266: See note following RCW 70.47.060.

70.47.900 Short title. This chapter shall be known and may be cited as the health care access act of 1987. [1987 1st ex.s. c 5 § 1.]

70.47.901 Severability—1987 1st ex.s. c 5. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected. [1987 1st ex.s. c 5 § 26.]

70.48.071 Standards for operation—Adoption by units of local government. All units of local government that own or operate adult correctional facilities shall, individually or collectively, adopt standards for the operation of those facilities no later than January 1, 1988. Cities and towns shall adopt the standards after considering guidelines established collectively by the cities and towns of the state; counties shall adopt the standards after considering guidelines established collectively by the counties of the state. These standards shall be the minimums necessary to meet federal and state constitutional requirements relating to health, safety, and welfare of inmates and staff, and specific state and federal statutory requirements, and to provide for the public's health, safety, and welfare. Local correctional facilities shall be operated in accordance with these standards. [1987 c 462 § 17.]

Effective dates—1987 c 462: See note following RCW 13.04.116.

70.48.090 Interlocal contracts for jail services—Responsibility for operation of jail—Departments of corrections authorized. (1) Contracts for jail services may be made between a county and city located within the boundaries of a county, and among counties. The contracts shall: Be in writing, give one governing unit the responsibility for the operation of the jails, specify the responsibilities of each governing unit involved, and include the applicable charges for custody of the prisoners as well as the basis for adjustments in the charges. The contracts may be terminated only by ninety days written notice to the governing units involved and to the office. The notice shall state the grounds for termination and the specific plans for accommodating the affected jail population.

(2) The contract authorized in subsection (1) of this section shall be for a minimum term of ten years when state funds are provided to construct or remodel a jail in one governing unit that will be used to house prisoners of other governing units. The contract may not be terminated prior to the end of the term without the office's approval. If the contract is terminated, or upon the expiration and nonrenewal of the contract, the governing unit whose jail facility was built or remodeled to hold the prisoners of other governing units shall pay to the state treasurer the amount set by the

*corrections standards board or office when it authorized disbursement of state funds for the remodeling or construction under **RCW 70.48.120. This amount shall be deposited in the local jail improvement and construction account and shall fairly represent the construction costs incurred in order to house prisoners from other governing units. The office may pay the funds to the governing units which had previously contracted for jail services under rules which the office may adopt. The acceptance of state funds for constructing or remodeling consolidated jail facilities constitutes agreement to the proportionate amounts set by the office. Notice of the proportionate amounts shall be given to all governing units involved.

(3) A city or county primarily responsible for the operation of a jail or jails may create a department of corrections to be in charge of such jail and of all persons confined therein by law, subject to the authority of the governing unit. If no such department of corrections is created, the chief law enforcement officer of the city or county primarily responsible for the operation of said jail shall have charge of the jail and of all persons confined therein. [1987 c 462 § 7; 1986 c 118 § 6; 1979 ex.s. c 232 § 15; 1977 ex.s. c 316 § 9.]

Reviser's note: *(1) The corrections standards board no longer exists. See 1987 c 462 § 21.

- (a) The name of each person confined in the jail with the hour, date and cause of the confinement; and
- (b) The hour, date and manner of each person's discharge.

(2) Except as provided in subsection (3) of this section the records of a person confined in jail shall be held in confidence and shall be made available only to criminal justice agencies as defined in RCW 43.43.705; or

(a) For use in inspections made pursuant to *RCW 70.48.070;

(b) In jail certification proceedings;

[1990 c 3 § 130; 1977 ex.s. c 316 § 10.]

Reviser's note: *(1) RCW 70.48.070 was repealed by 1987 c 462 § 23, effective January 1, 1988.

** (2) 1990 c 3 § 401 appears as a note following RCW 9A.44.130.

70.48.130 Emergency or necessary medical and health care for confined persons—Reimbursement procedures—Conditions—Limitations. It is the intent of the legislature that all jail inmates receive appropriate and cost-effective emergency and necessary medical care. Governing units, the department of social and health services, and medical care providers shall cooperate to achieve the best rates consistent with adequate care.

Payment for emergency or necessary health care shall be by the governing unit, except that the department of social and health services shall directly reimburse the provider pursuant to chapter 74.09 RCW, in accordance with the rates and benefits established by the department, if the confined person is eligible under the department's medical care programs as authorized under chapter 74.09 RCW. After payment by the department, the financial responsibility for any remaining balance, including unpaid client liabilities that are a condition of eligibility or participation under chapter 74.09 RCW, shall be borne by the medical care provider and the governing unit as may be mutually agreed upon between the medical care provider and the governing unit. In the absence of mutual agreement between the medical care provider and the governing unit, the financial responsibility for any remaining balance shall be borne equally between the medical care provider and the governing unit. Total payments from all sources to providers for care rendered to confined persons eligible under chapter 74.09 RCW shall not exceed the amounts that would be paid by the department for similar services provided under Title XIX medicaid, unless additional resources are obtained from the confined person.

As part of the screening process upon booking or preparation of an inmate into jail, general information concerning the inmate's ability to pay for medical care shall be identified, including insurance or other medical benefits or resources to which an inmate is entitled. This information shall be made available to the department, the governing unit, and any provider of health care services.

The governing unit or provider may obtain reimbursement from the confined person for the cost of health care services not provided under chapter 74.09 RCW, including reimbursement from any insurance program or from other medical benefit programs available to the confined person. Nothing in this chapter precludes civil or criminal remedies to recover the costs of medical care provided jail inmates or paid for on behalf of inmates by the governing unit. As part of a judgment and sentence, the courts are authorized to order defendants to repay all or part of the medical costs incurred by the governing unit or provider during confinement.

To the extent that a confined person is unable to be financially responsible for medical care and is ineligible for the department's medical care programs under chapter 74.09 RCW, or for coverage from private sources, and in the absence of an interlocal agreement or other contracts to the contrary, the governing unit may obtain reimbursement for the cost of such medical services from the unit of government whose law enforcement officers initiated the charges on

which the person is being held in the jail: PROVIDED, That reimbursement for the cost of such services shall be by the state for state prisoners being held in a jail who are accused of either escaping from a state facility or of committing an offense in a state facility.

There shall be no right of reimbursement to the governing unit from units of government whose law enforcement officers initiated the charges for which a person is being held in the jail for care provided after the charges are disposed of by sentencing or otherwise, unless by intergovernmental agreement pursuant to chapter 39.34 RCW.

Under no circumstance shall necessary medical services be denied or delayed because of disputes over the cost of medical care or a determination of financial responsibility for payment of the costs of medical care provided to confined persons.

Nothing in this section shall limit any existing right of any party, governing unit, or unit of government against the person receiving the care for the cost of the care provided. [1993 c 409 § 1; 1986 c 118 § 9; 1977 ex.s. c 316 § 13.]

Effective date—1993 c 409: "This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and shall take effect immediately [May 15, 1993]." [1993 c 409 § 2.]

Severability—1977 ex.s. c 316: See note following RCW 70.48.020.

70.48.140 Confinement pursuant to authority of the United States. A person having charge of a jail shall receive and keep in such jail, when room is available, all persons confined or committed thereto by process or order issued under authority of the United States until discharged according to law, the same as if such persons had been committed under process issued under authority of the state, if provision is made by the United States for the support of such persons confined, and for any additional personnel required. [1977 ex.s. c 316 § 14.]

Severability—1977 ex.s. c 316: See note following RCW 70.48.020.

70.48.160 Post-approval limitation on funding. Having received approval pursuant to *RCW 70.48.060, a governing unit shall not be eligible for further funding for physical plant standards for a period of ten years from the date of the completion of the approved project. A jail shall not be closed for noncompliance to physical plant standards within this same ten year period. This section does not apply if:

(1) The state elects to fund phased components of a jail project for which a governing unit has applied. In that instance, initially funded components do not constitute full funding within the meaning of *RCW 70.48.060(1) and **70.48.070(2) and the state may fund subsequent phases of the jail project;

(2) There is destruction of the facility because of an act of God or the result of a negligent and/or criminal act. [1987 c 462 § 9; 1986 c 118 § 10; 1981 c 276 § 3; 1977 ex.s. c 316 § 16.]

70.48.180 Authority to locate and operate jail facilities—Counties. Counties may acquire, build, operate, and maintain holding, detention, special detention, and correctional facilities as defined in RCW 70.48.020 at any place designated by the county legislative authority within the territorial limits of the county. The facilities shall comply with chapter 70.48 RCW and the rules adopted thereunder. [1983 c 165 § 37; 1979 ex.s. c 232 § 16.]

Legislative finding, intent—Effective dates—Severability—1983 c 165: See notes following RCW 46.20.308.

70.48.190 Authority to locate and operate jail facilities—Cities and towns. Cities and towns may acquire, build, operate, and maintain holding, detention, special detention, and correctional facilities as defined in RCW 70.48.020 at any place within the territorial limits of the county in which the city or town is situated, as may be selected by the legislative authority of the municipality. The facilities comply with the provisions of chapter 70.48 RCW and rules adopted thereunder. [1983 c 165 § 38; 1977 ex.s. c 316 § 19; 1965 c 7 § 35.21.330. Prior: 1917 c 103 § 1; RRS § 10204. Legislative finding, intent—Effective dates—Severability—1983 c 165: See notes following RCW 46.20.308.

Severability—1977 ex.s. c 316: See note following RCW 70.48.020.

70.48.210 Farms, camps, work release programs, and special detention facilities. (1) All cities and counties are authorized to establish and maintain farms, camps, and work release programs and facilities, as well as special detention facilities. The facilities shall meet the requirements of chapter 70.48 RCW and any rules adopted thereunder.

(2) Farms and camps may be established either inside or outside the territorial limits of a city or county. A sentence of confinement in a city or county jail may include placement in a farm or camp. Unless directed otherwise by court order, the chief law enforcement officer or department of corrections, may transfer the prisoner to a farm or camp. The sentencing court, chief law enforcement officer, or department of corrections may not transfer to a farm or camp a greater number of prisoners than can be furnished with constructive employment and can be reasonably accommodated.

(3) The city or county may establish a city or county work release program and housing facilities for the prisoners in the program. In such regard, factors such as employment conditions and the condition of jail facilities should be considered. When a work release program is established the following provisions apply:

(a) A person convicted of a felony and placed in a city or county jail is eligible for the work release program. A person sentenced to a city or county jail is eligible for the work release program. The program may be used as a condition of probation for a criminal offense. Good conduct is a condition of participation in the program.

(b) The court may permit a person who is currently, regularly employed to continue his or her employment. The chief law enforcement officer or department of corrections shall make all necessary arrangements if possible. The court may authorize the person to seek suitable employment and may authorize the chief law enforcement officer or department of corrections to make reasonable efforts to find suitable employment for the person. A person participating in the work release program may not work in an establishment where there is a labor dispute.

(c) The work release prisoner shall be confined in a work release facility or jail unless authorized to be absent from the facility for program-related purposes, unless the court directs otherwise.

(d) Each work release prisoner's earnings may be collected by the chief law enforcement officer or a designee. The chief law enforcement officer or a designee may deduct from the earnings moneys for the payments for the prisoner's board, personal expenses inside and outside the jail, a share of the administrative expenses of this section, court-ordered victim compensation, and court-ordered restitution. Support payments for the prisoner's dependents, if any, shall be made as directed by the court. With the prisoner's consent, the remaining funds may be used to pay the prisoner's preexisting debts. Any remaining balance shall be returned to the prisoner.

(e) The prisoner's sentence may be reduced by earned early release time in accordance with procedures that shall be developed and promulgated by the work release facility. The earned early release time shall be for good behavior and good performance as determined by the facility. The facility shall not credit the offender with earned early release credits in advance of the offender actually earning the credits. In the case of an offender convicted of a serious violent offense or a sex offense that is a class A felony committed on or after July 1, 1990, the aggregate earned early release time may not exceed fifteen percent of the sentence. In no other case may the aggregate earned early release time exceed one-third of the total sentence.

(f) If the work release prisoner violates the conditions of custody or employment, the prisoner shall be returned to the sentencing court. The sentencing court may require the prisoner to spend the remainder of the sentence in actual confinement and may cancel any earned reduction of the sentence.

(4) A special detention facility may be operated by a noncorrectional agency or by noncorrectional personnel by contract with the governing unit. The employees shall meet the standards of training and education established by the criminal justice training commission as authorized by RCW 43.101.080. The special detention facility may use combinations of features including, but not limited to, low-security or honor prisoner status, work farm, work release, community review, prisoner facility maintenance and food preparation, training programs, or alcohol or drug rehabilitation programs. Special detention facilities may establish a reasonable fee schedule to cover the cost of facility housing and programs. The schedule shall be on a sliding basis that reflects the person's ability to pay. [1990 c 3 § 203; 1989 c 248 § 3; 1985 c 298 § 1; 1983 c 165 § 39; 1979 ex.s. c 232 § 17.]

Legislative finding, intent—Effective dates—Severability—1983 c 165: See notes following RCW 46.20.308.

70.48.220 Confinement may be wherever jail services are contracted. A person convicted of an offense punishable by imprisonment in a city or county jail may be confined in the jail of any city or county contracting with the prosecuting city or county for jail services. [1979 ex.s. c 232 § 19.]

70.48.230 Transportation and temporary confinement of prisoners. The jurisdiction having immediate authority over a prisoner is responsible for the transportation expenses. The transporting officer shall have custody of the prisoner within any Washington county while being transported. Any jail within the state may be used for the temporary confinement of the prisoner with the only charge being for the reasonable cost of board. [1979 ex.s. c 232 § 18.]

70.48.240 Transfer of felons from jail to state institution—Time limit. A person imprisoned in a jail and sentenced to a state institution for a felony conviction shall be transferred to a state institution before the forty-first day from the date of sentencing.

This section does not apply to persons sentenced for a felony who are held in the facility as a condition of probation or who are specifically sentenced to confinement in the facility.

Payment for persons sentenced to state institutions and remaining in a jail from the eighth through the fortieth days following sentencing shall be in accordance with the procedure prescribed under this chapter. [1984 c 235 § 8; 1979 ex.s. c 232 § 20.]

section shall be considered by the courts in determining or applying the law to any blood transfusion occurring before June 10, 1971 and the court shall decide such case as though this section had not been passed. [1987 c 84 § 1; 1985 c 321 § 1; 1971 c 56 § 1.]

Severability—1971 c 56: "If any provision of this act, or its application to any person or circumstance is held invalid, the remainder of the act, or the application of the provision to other persons or circumstances is not affected." [1971 c 56 § 2.]

70.54.130 Laetrile—Legislative declaration. It is the intent of the legislature that passage of RCW 70.54.130 through 70.54.150 shall not constitute any endorsement whatever of the efficacy of amygdalin (Laetrile) in the treatment of cancer, but represents only the legislature's endorsement of a patient's freedom of choice, so long as the patient has been given sufficient information in writing to make an informed decision regarding his/her treatment and the substance is not proven to be directly detrimental to health. [1977 ex.s. c 122 § 1.]

70.54.140 Laetrile—Interference with physician/patient relationship by health facility—Board of pharmacy, duties. 70.54.150 Physicians not subject to disciplinary action for prescribing or administering laetrile—Conditions. No physician may be subject to disciplinary action by any entity of either the state of Washington or a professional association for prescribing or administering amygdalin (Laetrile) to a patient under his/her care who has requested the substance after having been given sufficient information in writing to make an informed decision.

It is not the intent of this section to shield a physician from acts or omissions which otherwise would constitute unprofessional conduct. [1986 c 259 § 150; 1977 ex.s. c 122 § 3.]

Severability—1986 c 259: See note following RCW 18.130.010.

70.54.180 Deaf persons access to emergency services—Telecommunication devices. (1) For the purpose of this section "telecommunication device" means an instrument for telecommunication in which speaking or hearing is not required for communicators.

(2) The county legislative authority of each county with a population of eighteen thousand or more and the governing body of each city with a population in excess of ten thousand shall provide by July 1, 1980, for a telecommunication device in their jurisdiction or through a central dispatch office that will assure access to police, fire, or other emergency services.

(3) The county legislative authority of each county with a population of eighteen thousand or less shall by July 1, 1980, make a determination of whether sufficient need exists with their respective counties to require installation of a telecommunication device. Reconsideration of such determination will be made at any future date when a deaf individual indicates a need for such an instrument. [1991 c 363 § 142; 1979 ex.s. c 63 § 2.]

Purpose—Captions not law—1991 c 363: See notes following RCW 2.32.180.

Purpose—1979 ex.s. c 63: "The legislature finds that many citizens of this state who are unable to utilize telephone services in a regular manner due to hearing defects are able to communicate by teletypewriters where hearing is not required for communication. Hence, it is the purpose of section 2 of this act [RCW 70.54.180] to require that telecommunication devices for the deaf be installed." [1979 ex.s. c 63 § 1.]

70.54.190 DMSO (dimethyl sulfoxide)—Use—Liability. Reviser's note: Although 1981 c 284 directs this section be added to chapter 74.04 RCW, codification here is considered more appropriate. The "department" referred to is apparently the department of social and health services.

70.54.220 Practitioners to provide information on prenatal testing. All persons licensed or certified by the state of Washington to provide prenatal care or to practice medicine shall provide information regarding the use and availability of prenatal tests to all pregnant women in their care within the time limits prescribed by department rules and in accordance with standards established by those rules. [1988 c 276 § 5.]

Intent—1990 c 280: "It is the intent of the legislature to establish a system to accurately monitor the incidence of cancer in the state of Washington for the purposes of understanding, controlling, and reducing the occurrence of cancer in this state. In order to accomplish this, the legislature has determined that cancer cases shall be reported to the department of health, and that there shall be established a state-wide population-based cancer registry." [1990 c 280 § 1.]

70.54.240 Cancer registry program—Reporting requirements. (1) The department of health shall adopt rules as to which types of cancer shall be reported, who shall report, and the form and timing of the reports.

(2) Every health care facility and independent clinical laboratory, and those physicians or others providing health care who diagnose or treat any patient with cancer who is not hospitalized within one month of diagnosis, will provide the contractor with the information required under subsection (1) of this section. The required information may be collected on a regional basis where such a system exists and forwarded to the contractor in a form suitable for the purposes of RCW 70.54.230 through 70.54.270. Such reporting arrangements shall be reduced to a written agreement between the contractor and any regional reporting agency which shall detail the manner, form, and timeliness of the reporting. [1990 c 280 § 3.]

Intent—1990 c 280: See note following RCW 70.54.230.

Intent—1990 c 280: See note following RCW 70.54.230.

70.54.260 Liability. Providing information required under RCW 70.54.240 or 70.54.250 shall not create any liability on the part of the provider nor shall it constitute a breach of confidentiality. The contractor shall, at the request of the provider, but not more frequently than once a year, sign an oath of confidentiality, which reads substantially as follows:

"As a condition of conducting research concerning persons who have received services from (name of the health care provider or facility), I, agree not to divulge, publish, or otherwise make known to unauthorized persons or the public any information obtained in the course of such research that could lead to identification of such persons receiving services, or to the identification of their health care providers. I recognize that unauthorized release of confidential information may subject me to civil liability under the provisions of state law."

[1990 c 280 § 5.]

Intent—1990 c 280: See note following RCW 70.54.230.

70.54.270 Rule making. The department shall adopt rules to implement RCW 70.54.230 through 70.54.260, including but not limited to a definition of cancer. [1990 c 280 § 6.]

Intent—1990 c 280: See note following RCW 70.54.230.

70.54.280 Bone marrow donor recruitment and education program—Generally—Target minority populations. The department of health shall establish a bone marrow donor recruitment and education program to educate residents of the state about:

- (1) The need for bone marrow donors;
- (2) The procedures required to become registered as a potential bone marrow donor, including procedures for determining a person's tissue type; and
- (3) The procedures a donor must undergo to donate bone marrow or other sources of blood stem cells.

The department of health shall make special efforts to educate and recruit citizens from minority populations to volunteer as potential bone marrow donors. Means of communication may include use of press, radio, and television, and placement of educational materials in appropriate health care facilities, blood banks, and state and local agencies. The department of health in conjunction with the department of licensing shall make educational materials available at all places where driver licenses are issued or renewed. [1992 c 109 § 2.]

Findings—1992 c 109: "The legislature finds that an estimated sixteen thousand American children and adults are stricken each year with leukemia, aplastic anemia, or other fatal blood diseases. For many of these individuals, bone marrow transplantation is the only chance for survival. Nearly seventy percent cannot find a suitable bone marrow match within their own families. The chance that a patient will find a matching, unrelated donor in the general population is between one in a hundred and one in a million.

The legislature further finds that because tissue types are inherited, and different tissue types are found in different ethnic groups, the chances of finding an unrelated donor vary according to the patient's ethnic and racial background. Patients from minority groups are therefore less likely to find matching, unrelated donors.

It is the intent of the legislature to establish a state-wide bone marrow donor education and recruitment program in order to increase the number of Washington residents who become bone marrow donors, and to increase the chance that patients in need of bone marrow transplants will find a suitable bone marrow match." [1992 c 109 § 1.]

70.54.290 Bone marrow donor recruitment and education program—State employees to be recruited.

The department of health shall make special efforts to educate and recruit state employees to volunteer as potential bone marrow donors. Such efforts shall include, but not be limited to, conducting a bone marrow donor drive to encourage state employees to volunteer as potential bone marrow donors. The drive shall include educational materials furnished by the national bone marrow donor program and presentations that explain the need for bone marrow donors, and the procedures for becoming registered as potential bone marrow donors. The cost of educational materials and presentations to state employees shall be borne by the national marrow donor program. [1992 c 109 § 3.]

Findings—1992 c 109: See note following RCW 70.54.280.

70.54.300 Bone marrow donor recruitment and education program—Private sector and community involvement.

In addition to educating and recruiting state employees, the department of health shall make special efforts to encourage community and private sector businesses and associations to initiate independent efforts to achieve the goals of chapter 109, Laws of 1992. [1992 c 109 § 4.]

Findings—1992 c 109: See note following RCW 70.54.280.

70.58.005 Definitions. Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

(1) "Department" means the department of health.

(2) "Vital records" means records of birth, death, fetal death, marriage, dissolution, annulment, and legal separation, as maintained under the supervision of the state registrar of vital statistics. [1991 c 3 § 342; 1987 c 223 § 1.]

70.58.010 Registration districts. Each city of the first class shall constitute a primary registration district and each county and the territory of counties jointly comprising a health district, exclusive of the portion included within cities of the first class, shall constitute a primary registration area. All other counties and municipal areas not included in the foregoing shall be divided into registration areas by the state registrar as he may deem essential to obtain the most efficient registration of vital events as provided by law. [1979 ex.s. c 52 § 2; 1951 c 106 § 4; 1915 c 180 § 1; 1907 c 83 § 2; RRS § 6019.]

70.58.020 Local registrars—Deputies. Under the direction and control of the state registrar, the health officer of each city of the first class shall be the local registrar in and for the primary registration district under his supervision as health officer and the health officer of each county and district health department shall be the local registrar in and

for the registration area which he supervises as health officer and shall serve as such as long as he performs the registration duties as prescribed by law. He may be removed as local registrar of the registration area which he serves by the state board of health upon its finding of evidence of neglect in the performance of his duties as such registrar. The state registrar shall appoint local registrars for those registration areas not included in the foregoing and also in areas where the state board of health has removed the health officer from this position as registrar.

Each local registrar, subject to the approval of the state registrar, shall appoint in writing a sufficient number of deputy registrars to administer the laws relating to vital statistics, and shall certify the appointment of such deputies to the state registrar. Deputy registrars shall act in the case of absence, death, illness or disability of the local registrar, or such other conditions as may be deemed sufficient cause to require their services. [1979 ex.s. c 52 § 3; 1961 ex.s. c 5 § 5; 1951 c 106 § 5; 1915 c 180 § 2; 1907 c 83 § 3; RRS § 6020.]

Director of combined city-county health department as registrar: RCW 70.08.060.

70.58.030 Duties of local registrars. The local registrar shall supply blank forms of certificates to such persons as require them. He or she shall carefully examine each certificate of birth, death, and fetal death when presented for record, and see that it has been made out in accordance with the provisions of law and the instructions of the state registrar. If any certificate of death is incomplete or unsatisfactory, the local registrar shall call attention to the defects in the return, and withhold issuing the burial-transit permit until it is corrected. If the certificate of death is properly executed and complete, he or she shall issue a burial-transit permit to the funeral director or person acting as such. If a certificate of a birth is incomplete, he or she shall immediately notify the informant, and require that the missing items be supplied if they can be obtained. He or she shall sign as local registrar to each certificate filed in attest of the date of filing in the office. He or she shall make a record of each birth, death, and fetal death certificate registered in such manner as directed by the state registrar. The local registrar shall transmit to the state registrar each original death or fetal death certificate no less than thirty days after the certificate was registered nor more than sixty days after the certificate was registered. On or before the fifteenth day and the last day of each month, each local registrar shall transmit to the state registrar all original birth certificates that were registered prior to that day and which had not been transmitted previously. A local registrar shall transmit an original certificate to the state registrar whenever the state registrar requests the transfer of the certificate from the local registrar. If no births or no deaths occurred in any month, he or she shall, on the tenth day of the following month, report that fact to the state registrar, on a card provided for this purpose. Local registrars in counties in which a first class city or a city of twenty-seven thousand or more population is located may retain an exact copy of the original and make certified copies of the exact copy. [1990 c 99 § 1; 1961 ex.s. c 5 § 6; 1907 c 83 § 18; RRS § 6035.]

70.58.040 Compensation of local registrars. A local registrar shall be paid the sum of one dollar for each birth, death, or fetal death certificate registered for his district which sum shall cover making out the burial-transit permit and record of the certificate to be filed and preserved in his office. If no births or deaths were registered during any month, the local registrar shall be paid the sum of one dollar for each report to that effect: PROVIDED, That all local health officers who are by statute required to serve as local registrars shall not be entitled to the fee of one dollar. Neither shall any members of their staffs be entitled to the above fee of one dollar when such persons serve as deputy registrars. All fees payable to local registrars shall be paid by the treasurer of the county or city, properly chargeable therewith, out of the funds of the county or city, upon warrants drawn by the auditor, or other proper officer of the county or city. No warrant shall be issued to a local registrar except upon a statement, signed by the state registrar, stating the names and addresses respectively of the local registrars entitled to fees from the county or city, and the number of certificates and reports of births, deaths, and fetal deaths, properly returned to the state registrar, by each local registrar, during three preceding calendar months prior to the date of the statement, and the amount of fees to which each local registrar is entitled, which statement the state registrar shall file with the proper officers during the months of January, April, July, and October of each year. Upon filing of the statement the auditor or other proper officer of the county or city shall issue warrants for the amount due each local registrar. [1961 ex.s. c 5 § 7; 1951 c 106 § 8; 1915 c 180 § 10; 1907 c 83 § 19; RRS § 6036.]

70.58.050 Duty to enforce law. The local registrars are hereby charged with the strict and thorough enforcement of the provisions of *this act in their districts, under the supervision and direction of the state registrar. And they shall make an immediate report to the state registrar of any violations of this law coming to their notice by observation or upon the complaint of any person, or otherwise. The state registrar is hereby charged with the thorough and efficient execution of the provisions of *this act in every part of the state, and with supervisory power over local registrars, to the end that all of the requirements shall be uniformly complied with. He shall have authority to investigate cases of irregularity or violation of law, personally or by accredited representative, and all local registrars shall aid him, upon request, in such investigation. When he shall deem it necessary he shall report cases of violation of any of the provisions of *this act to the prosecuting attorney of the proper county with a statement of the fact and circumstances; and when any such case is reported to them by the state registrar, all prosecuting attorneys or officials acting in such capacity shall forthwith initiate and promptly follow up the necessary court proceedings against the parties responsible for the alleged violations of law. In such cases, the department may bill local registrars for only direct line charges associated with accessing birth and death data bases. [1991 c 96 § 3.]

70.58.070 Registration of births required. All births that occur in the state shall be immediately registered in the districts in which they occur, as hereinafter provided. [1907 c 83 § 11; RRS § 6028.]

(6) If there is no attending physician or midwife, the father or mother of the child, householder or owner of the premises, manager or superintendent of the public or private institution in which the birth occurred, shall notify the local registrar, within ten days after the birth, of the fact of the birth, and the local registrar shall secure the necessary information and signature to make a proper certificate of birth.

(7) When an infant is found for whom no certificate of birth is known to be on file, a birth certificate shall be filed within the time and in the form prescribed by the state board of health.

(8) When no putative father is named on a birth certificate of a child born to an unwed mother the mother may give any surname she so desires to her child but shall designate in space provided for father's name on the birth certificate "None Named". [1989 c 55 § 2; 1961 ex.s. c 5 § 8; 1951 c 106 § 6; 1907 c 83 § 12; RRS § 6029.]

Implementation—1994 c 299: "The department of social and health services shall make a substantial effort to determine the identity of the noncustodial parent through consistent implementation of RCW 70.58.080. By December 1, 1994, the department of social and health services shall report to the fiscal committees of the legislature on the method for validating claims of good cause for refusing to establish paternity, the methods used in other states, and the national average rate of claims of good cause for refusing to establish paternity compared to the Washington state rate of claims of good cause for refusing to establish paternity, the reasons for differences in the rates, and steps that may be taken to reduce these differences." [1994 c 299 § 13.]

70.58.085 Birth certificates suitable for display—Issuance—Fee—Disposition of funds. (1) In addition to the original birth certificate, the state registrar shall issue upon request and upon payment of a fee of twenty-five dollars a birth certificate representing that the birth of the person named thereon is recorded in the office of the registrar. The certificate issued under this section shall be in a form consistent with the need to protect the integrity of vital records but shall be suitable for display. It may bear the seal of the state printed thereon and may be signed by the governor. It shall have the same status as evidence as the original birth certificate.

(2) Of the funds received under subsection (1) of this section, the amount needed to reimburse the registrar for expenses incurred in administering this section shall be credited to the state registrar account. The remainder shall be credited to the children's trust fund established under RCW 43.121.100. [1987 c 351 § 6.]

Legislative findings—1987 c 351: "The legislature finds that children are society's most valuable resource and that child abuse and neglect is a threat to the physical, mental, and emotional health of children. The legislature further finds that assisting community-based private nonprofit and public organizations, agencies, or school districts in identifying and establishing needed primary prevention programs will reduce the incidence of child abuse and neglect, and the necessity for costly subsequent intervention in family life by the state. Child abuse and neglect prevention programs can be most effectively and economically administered through the use of trained volunteers and the cooperative efforts of the communities, citizens, and the state. The legislature finds that the Washington council for prevention of child abuse is an effective counsel for reducing child abuse but limited resources have prevented the council from funding promising prevention concepts state-wide.

It is the intent of the legislature to establish a cost-neutral revenue system for the children's trust fund which is designed to fund primary prevention programs and innovative prevention related activities such as research or public awareness campaigns. The fund shall be supported through revenue created by the sale of heirloom birth certificates. This concept has proven to be a cost-effective approach to funding child abuse prevention in the state of Oregon. The legislature believes that this is an innovative way of using private dollars to supplement our public dollars to reduce child abuse and neglect." [1987 c 351 § 1.]

70.58.095 New certificate of birth—Legitimation, paternity—Substitution for original—Inspection of original, when—When delayed registration required. The state registrar of vital statistics shall establish a new certificate of birth for a person born in this state when he receives a request that a new certificate be established and such evidence as required by regulation of the state board of health proving that such person has been acknowledged, or that a court of competent jurisdiction has determined the paternity of such person. When a new certificate of birth is established, the actual place and date of birth shall be shown. It shall be substituted for the original certificate of birth. Thereafter, the original certificate and the evidence of paternity, or acknowledgment shall not be subject to inspection except upon order of a court of competent jurisdiction, or upon written request of the department of social and health services, the attorney general, or a prosecuting attorney, stating that the documents are being sought in furtherance of an action to enforce a duty of support. If no certificate of birth is on file for the person for whom a new certificate is to be established under this section, a delayed registration of birth shall be filed with the state registrar of vital statistics as provided in RCW 70.58.120. No fee may be demanded or required for furnishing certified copies of a birth, death, fetal death, marriage, divorce, annulment, or legal separation record for use in connection with a claim for compensation or pension pending before the veterans administration.

The department shall keep a true and correct account of all fees received and turn the fees over to the state treasurer on a weekly basis.

Local registrars shall charge the same fees as the state as hereinabove provided and as prescribed by department regulation, except that local registrars shall charge eleven dollars for the first copy of a death certificate and six dollars for each additional copy of the same death certificate when

All local registrars in cities and counties shall keep a true and correct account of all fees received under this section for the issuance of certified copies and shall turn three dollars of the fee over to the state treasurer on or before the first day of January, April, July, and October.

Three dollars of each fee imposed for the issuance of certified copies, except for copies suitable for display issued under RCW 70.58.085, at both the state and local levels shall be held by the state treasurer in the death investigations account established by RCW 43.79.445. The court shall fix a time for hearing the petition, and the state registrar shall be given notice at least twenty days prior to the date set for hearing in order that he may present at the hearing any information he believes will be useful to the court. If the court from the evidence presented to it finds that the petitioner was born in this state, the court shall issue an order to establish a record of birth. This order shall include the birth data to be registered. If the court orders the birth of a person born in this state registered, it shall be registered in the records of the state registrar. [1961 ex.s. c 5 § 20.]

70.58.150 "Fetal death," "evidence of life," defined. A fetal death means any product of conception that shows no evidence of life after complete expulsion or extraction from its mother. The words "evidence of life" include breathing, beating of the heart, pulsation of the umbilical cord, or definite movement of voluntary muscles. [1961 ex.s. c 5 § 11; 1945 c 159 § 5; Rem. A county coroner, medical examiner, or the prosecuting attorney having jurisdiction may issue a certificate of presumed death when the official issuing the certificate determines to the best of the official's knowledge and belief that there is sufficient circumstantial evidence to indicate that a person has in fact died in the county or in waters contiguous to the county as a result of an accident or natural disaster, such as a drowning, flood, earthquake, volcanic eruption, or similar occurrence, and that it is unlikely that the body will be recovered. The certificate shall recite, to the extent possible, the date, circumstances, and place of the death, and shall be the legally accepted fact of death.

The official issuing the certificate of presumed death shall file the certificate with the state registrar of vital statistics, and thereafter all persons and parties acting in good faith may rely thereon with acquittance. [1981 c 176 § 1.]

Magazines containing blasting caps and electric blasting caps shall be separated from other magazines containing like contents, or from magazines containing explosives by distances set in the quantity and distance tables adopted by the department of labor and industries by rule. The department of labor and industries shall adopt the quantity and distance tables promulgated by the federal bureau of alcohol, tobacco, and firearms unless the department determines the tables to be inappropriate. The tables shall be the basis on which applications for storage license[s] are made and storage licenses issued as provided in RCW 70.74.110 and 70.74.120. [1988 c 198 § 2; 1969 ex.s. c 137 § 11.]

70.74.110 Manufacturer's report—Inspection—License. All persons engaged in the manufacture of explosives, or any process involving explosives, or where explosives are used as a component part in the manufacture of any article or device, on August 11, 1969, shall within sixty days thereafter, and all persons engaging in the manufacture of explosives, or any process involving explosives, or where explosives are used as a component part in the manufacture of any article or device after August 11, 1969, shall, before so engaging, make an application in writing, subscribed to by such person or his agent, to the department of labor and industries, the application stating:

- (1) Location of place of manufacture or processing;
- (2) Kind of explosives manufactured, processed or used;
- (3) The distance that such explosives manufacturing building is located or intended to be located from the other factory buildings, magazines, inhabited buildings, railroads and highways and public utility transmission systems;

(9) Such other pertinent information as the director of labor and industries shall require to effectuate the purpose of this chapter.

There shall be kept in the main office on the premises of each explosives manufacturing plant a plan of said plant showing the location of all explosives manufacturing buildings and the distance they are located from other factory buildings where persons are employed and from magazines, and these plans shall at all times be open to inspection by duly authorized inspectors of the department of labor and industries. The superintendent of each plant shall upon demand of said inspector furnish the following information:

(a) The maximum amount and kind of explosive material which is or will be present in each building at one time.

(b) The nature and kind of work carried on in each building and whether or not said buildings are surrounded by natural or artificial barricades.

The department of labor and industries shall as soon as possible after receiving such application cause an inspection to be made of the explosives manufacturing plant, and if found to be in accordance with RCW 70.74.030 and 70.74.050 and 70.74.061, such department shall issue a license to the person applying therefor showing compliance with the provisions of this chapter if the applicant demonstrates that either the applicant or the officers, agents or employees of the applicant are sufficiently experienced in the manufacture of explosives and the applicant meets the qualifications for a license under RCW 70.74.360. Such license shall continue in full force and effect until expired, suspended, or revoked by the department pursuant to this chapter. [1988 c 198 § 5; 1969 ex.s. c 137 § 13; 1941 c 101 § 1; 1931 c 111 § 11; Rem. Supp. 1941 § 5440-1.]

notice. Failure to remove the explosives stored in said magazine or to dispossess oneself of the explosives as herein provided within the time specified in said notice shall constitute a violation of this chapter. The legislature finds that avalanche control is of vital importance to safety in ski areas and that the provisions of the Washington state explosives act contain restrictions which do not reflect special needs for the use of explosives as a means of clearing an area of serious avalanche risks. This 1985 act recognizes these needs while providing for a system of regulations designed to ensure that the use of explosives for avalanche control conforms to fundamental safety requirements." (2) Seizure of explosives, improvised devices, and components of explosives and improvised devices under subsection (1) of this section may be made if:

(a) The seizure is incident to arrest or a search under a search warrant;

(b) The explosives, improvised devices, or components have been the subject of a prior judgment in favor of the state in an injunction or forfeiture proceeding based upon this chapter;

(c) A law enforcement officer has probable cause to believe that the explosives, improvised devices, or compo-

nents are directly or indirectly dangerous to health or safety; or

(d) The law enforcement officer has probable cause to believe that the explosives, improvised devices, or components were used or were intended to be used in violation of this chapter.

(3) A law enforcement agency shall destroy explosives seized under this chapter when it is necessary to protect the public safety and welfare. When destruction is not necessary to protect the public safety and welfare, and the explosives are not being held for evidence, a seizure pursuant to this section commences proceedings for forfeiture.

(4) The law enforcement agency under whose authority the seizure was made shall issue a written notice of the seizure and commencement of the forfeiture proceedings to the person from whom the explosives were seized, to any known owner of the explosives, and to any person who has a known interest in the explosives. The notice shall be issued within fifteen days of the seizure. The notice of seizure and commencement of the forfeiture proceedings shall be served in the same manner as provided in RCW 4.28.080 for service of a summons. The law enforcement agency shall provide a form by which the person or persons may request a hearing before the law enforcement agency to contest the seizure.

(5) If no person notifies the seizing law enforcement agency in writing of the person's claim of ownership or right to possession of the explosives, improvised devices, or components within thirty days of the date the notice was issued, the seized explosives, devices, or components shall be deemed forfeited.

(6) If, within thirty days of the issuance of the notice, any person notifies the seizing law enforcement agency in writing of the person's claim of ownership or right to possession of items seized, the person or persons shall be afforded a reasonable opportunity to be heard as to the claim or right. The hearing shall be before the chief law enforcement or the officer's designee of the seizing agency, except that the person asserting the claim or right may remove the matter to a court of competent jurisdiction if the aggregate value of the items seized is more than five hundred dollars. The hearing and any appeal shall be conducted according to chapter 34.05 RCW. The seizing law enforcement agency shall bear the burden of proving that the person (a) has no lawful right of ownership or possession and (b) that the items seized were possessed, manufactured, stored, sold, purchased, transported, abandoned, detonated, or used in violation of a provision of this chapter with the person's knowledge or consent.

(7) The seizing law enforcement agency shall promptly return the items seized to the claimant upon a determination that the claimant is entitled to possession of the items seized.

(8) If the items seized are forfeited under this statute, the agency shall destroy the explosives. When explosives are destroyed either to protect public safety or because the explosives were forfeited, the person from whom the explosives were seized loses all rights of action against the law enforcement agency or its employees acting within the scope of their employment, or other governmental entity or employee involved with the seizure and destruction of explosives.

(9) This section is not intended to change the seizure and forfeiture powers, enforcement, and penalties available to the department of labor and industries pursuant to chapter 49.17 RCW as provided in RCW 70.74.390. [1993 c 293 § 8.]

Excessive steam in boilers, penalty: RCW 70.54.080.

State building code: Chapter 19.27 RCW.

70.79.010 Board of boiler rules—Members—Terms—Meetings. There is hereby created within this state a board of boiler rules, which shall hereafter be referred to as the board, consisting of five members who shall be appointed to the board by the governor, one for a term of one year, one for a term of two years, one for a term of three years, and two for a term of four years. At the expiration of their respective terms of office, they, or their successors identifiable with the same interests respectively as hereinafter provided, shall be appointed for terms of four years each. The governor may at any time remove any member of the board for inefficiency or neglect of duty in office. Upon the death or incapacity of any member the governor shall fill the vacancy for the remainder of the vacated term with a representative of the same interests with which his predecessor was identified. Of these five appointed members, one shall be representative of owners and users of boilers and unfired pressure vessels within the state, one

shall be representative of the boiler or unfired pressure vessel manufacturers within the state, one shall be a representative of a boiler insurance company licensed to do business within the state, one shall be a mechanical engineer on the faculty of a recognized engineering college or a graduate mechanical engineer having equivalent experience, and one shall be representative of the boilermakers or practical steam operating engineers. The board shall elect one of its members to serve as chairman and, at the call of the chairman, the board shall meet at least four times each year at the state capitol or other place designated by the board. [1951 c 32 § 1.]

70.79.020 Compensation and travel expenses. The members of the board shall be compensated in accordance with RCW 43.03.240 and shall receive travel expenses incurred while in the performance of their duties as members of the board, in accordance with RCW 43.03.050 and 43.03.060. [1984 c 287 § 105; 1975-'76 2nd ex.s. c 34 § 159; 1951 c 32 § 2.]

Legislative findings—Severability—Effective date—1984 c 287: See notes following RCW 43.03.220.

Effective date—Severability—1975-'76 2nd ex.s. c 34: See notes following RCW 2.08.115.

70.79.030 Duties of board—Make definitions, rules and regulations—Boiler construction code. The board shall formulate definitions, rules, and regulations for the safe and proper construction, installation, repair, use, and operation of boilers and for the safe and proper construction, installation, and repair of unfired pressure vessels in this state. The definitions, rules, and regulations so formulated shall be based upon, and, at all times, follow the generally accepted nationwide engineering standards, formulae, and practices established and pertaining to boiler and unfired pressure vessel construction and safety, and the board may by resolution adopt an existing published codification thereof, known as "The Boiler Construction Code of the American Society of Mechanical Engineers", with the amendments and interpretations thereto made and approved by the council of the society, and may likewise adopt the amendments and interpretations subsequently made and published by the same authority; and when so adopted the same shall be deemed incorporated into, and to constitute a part or the whole of the definitions, rules, and regulations of the board. Amendments and interpretations to the code so adopted shall be adopted immediately upon being promulgated, to the end that the definitions, rules, and regulations shall at all times follow the generally accepted nationwide engineering standards: PROVIDED, HOWEVER, That all rules and regulations promulgated by the board, including any or all of the boiler construction code of the American society of mechanical engineers with amendments and interpretations thereof, shall be adopted in compliance with the Administrative Procedure Act, chapter 34.05 RCW, as now or hereafter amended. All boilers and unfired pressure vessels subject to the jurisdiction of the board, which have been constructed or installed in accordance with the code of the American society of mechanical engineers shall be prima facie evidence of compliance with those provisions of this chapter and the rules of the board. [1972 ex.s. c 86 § 1; 1951 c 32 § 3.]

70.79.040 Rules and regulations—Scope. The board shall promulgate rules and regulations for the safe and proper installation, repair, use and operation of boilers, and for the safe and proper installation and repair of unfired pressure vessels which were in use or installed ready for use in this state prior to the date upon which the first rules and regulations under this chapter pertaining to existing installations became effective, or during the twelve months period immediately thereafter. [1951 c 32 § 4.]

70.79.050 Rules and regulations—Effect. (1) The rules and regulations formulated by the board shall have the force and effect of law, except that the rules applying to the construction of new boilers and unfired pressure vessels shall not be construed to prevent the installation thereof until twelve months after their approval by the director of the department of labor and industries.

(2) Subsequent amendments to the rules and regulations adopted by the board shall be permissive immediately and shall become mandatory twelve months after such approval. [1951 c 32 § 5.]

70.79.060 Construction, installation must conform to rules—Special installation and operating permits. (1) Except as provided in subsection (2) of this section, no power boiler, low pressure boiler, or unfired pressure vessel which does not conform to the rules and regulations formulated by the board governing new construction and installation shall be installed and operated in this state after twelve months from the date upon which the first rules and regulations under this chapter pertaining to new construction and installation shall have become effective, unless the boiler or unfired pressure vessel is of special design or construction, and is not covered by the rules and regulations, nor is in any way inconsistent with such rules and regulations, in which case a special installation and operating permit may at its discretion be granted by the board.

(2) A special permit may also be granted for boilers and pressure vessels manufactured before 1951 which do not comply with the code requirements of the American Society of Mechanical Engineers adopted under this chapter, if the boiler or pressure vessel is operated exclusively for the purposes of public exhibition, and the board finds, upon inspection, that operation of the boiler or pressure vessel for such purposes is not unsafe. [1984 c 93 § 1; 1951 c 32 § 6.]

70.79.070 Existing installations—Conformance required—Miniature hobby boilers. (1) All boilers and unfired pressure vessels which were in use, or installed ready for use in this state prior to the date upon which the first rules and regulations under this chapter pertaining to existing installations became effective, or during the twelve months period immediately thereafter, shall be made to conform to the rules and regulations of the board governing existing installations, and the formulae prescribed therein shall be used in determining the maximum allowable working pressure for such boilers and unfired pressure vessels.

(2) This chapter shall not be construed as in any way preventing the use or sale of boilers or unfired vessels as referred to in subsection (1) of this section, provided they have been made to conform to the rules and regulations of

the board governing existing installations, and provided, further, they have not been found upon inspection to be in an unsafe condition.

(3) A special permit may also be granted for miniature hobby boilers that do not comply with the code requirements of the American society of mechanical engineers adopted under this chapter and do not exceed any of the following limits:

- (a) Sixteen inches inside diameter of the shell;
- (b) Twenty square feet of total heating surface;
- (c) Five cubic feet of gross volume of vessel; and
- (d) One hundred fifty p.s.i.g. maximum allowable working pressure, and if the boiler is to be operated exclusively not for commercial or industrial use and the department of labor and industries finds, upon inspection, that operation of the boiler for such purposes is not unsafe. [1995 c 41 § 1; 1993 c 193 § 1; 1951 c 32 § 7.]

70.79.080 Exemptions from chapter. This chapter shall not apply to the following boilers, unfired pressure vessels and domestic hot water tanks:

(1) Boilers and unfired pressure vessels under federal regulation or operated by any railroad subject to the provisions of the interstate commerce act;

(2) Unfired pressure vessels meeting the requirements of the interstate commerce commission for shipment of liquids or gases under pressure;

(3) Air tanks located on vehicles operating under the rules of other state authorities and used for carrying passengers, or freight;

(4) Air tanks installed on the right of way of railroads and used directly in the operation of trains;

(5) Unfired pressure vessels having a volume of five cubic feet or less when not located in places of public assembly;

(6) Unfired pressure vessels designed for a pressure not exceeding fifteen pounds per square inch gauge when not located in place of public assembly;

(7) Tanks used in connection with heating water for domestic and/or residential purposes;

(8) Boilers and unfired pressure vessels in cities having ordinances which are enforced and which have requirements equal to or higher than those provided for under this chapter, covering the installation, operation, maintenance and inspection of boilers and unfired pressure vessels;

(9) Tanks containing water with no air cushion and no direct source of energy that operate at ambient temperature;

(10) Electric boilers:

(a) Having a tank volume of not more than one and one-half cubic feet;

(b) Having a maximum allowable working pressure of eighty pounds per square inch or less, with a pressure relief system to prevent excess pressure; and

(c) If constructed after June 10, 1994, constructed to American society of mechanical engineers code, or approved or otherwise certified by a nationally recognized or recognized foreign testing laboratory or construction code, including but not limited to Underwriters Laboratories, Edison Testing Laboratory, or Instituto Superiore Per La Prevenzione E La Sicurezza Del Lavoro;

(11) Electrical switchgear and control apparatus that have no external source of energy to maintain pressure and are located in restricted access areas under the control of an electric utility. [1996 c 72 § 1; 1994 c 64 § 2; 1986 c 97 § 1; 1951 c 32 § 8.]

Finding—Intent—1994 c 64: See note following RCW 70.79.095.

70.79.090 Exemptions from certain provisions. The following boilers and unfired pressure vessels shall be exempt from the requirements of RCW 70.79.220 and 70.79.240 through 70.79.330:

(1) Boilers or unfired pressure vessels located on farms and used solely for agricultural purposes;

(2) Unfired pressure vessels that are part of fertilizer applicator rigs designed and used exclusively for fertilization in the conduct of agricultural operations;

(3) Steam boilers used exclusively for heating purposes carrying a pressure of not more than fifteen pounds per square inch gauge and which are located in private residences or in apartment houses of less than six families;

(4) Hot water heating boilers carrying a pressure of not more than thirty pounds per square inch and which are located in private residences or in apartment houses of less than six families;

(5) Approved pressure vessels (hot water heaters listed by a nationally recognized testing agency), with approved safety devices including a pressure relief valve, with a nominal water containing capacity of one hundred twenty gallons or less having a heat input of two hundred thousand b.t.u.'s per hour or less, used for hot water supply at pressure of one hundred sixty pounds per square inch or less, and at temperatures of two hundred degrees Fahrenheit or less: PROVIDED, HOWEVER, That such pressure vessels are not installed in schools, child care centers, public and private hospitals, nursing and boarding homes, churches, public buildings owned or leased and maintained by the state or any political subdivision thereof, and assembly halls;

(6) Unfired pressure vessels containing only water under pressure for domestic supply purposes, including those containing air, the compression of which serves only as a cushion or airlift pumping systems, when located in private residences or in apartment houses of less than six families;

(7) Unfired pressure vessels containing liquified petroleum gases. [1988 c 254 § 20; 1983 c 3 § 174; 1972 ex.s. c 86 § 2; 1951 c 32 § 9.]

70.79.095 Espresso machines—Local regulation prohibited. A county, city, or other political subdivision of the state may not enforce any law specifically regulating the manufacture, installation, operation, maintenance, or inspection of any electric boiler exempt from this chapter by RCW 70.79.080(10). [1994 c 64 § 3.]

Finding—Intent—1994 c 64: "The legislature finds that small low-pressure boilers are found in devices such as espresso coffee machines and cleaning equipment common throughout Washington state. Such systems present little threat to public health and safety. Government regulation of such systems could impose a substantial burden on many small businesses and provide minimal public benefit. It is therefore the intent of the legislature to exempt these boilers from regulation under chapter 70.79 RCW and similar laws adopted by local governments." [1994 c 64 § 1.]

70.79.100 Chief inspector—Qualifications—Appointment, removal. (1) Within sixty days after the effective date of this chapter, and at any time thereafter that the office of the chief inspector may become vacant, the director of the department of labor and industries shall appoint a chief inspector who shall have had at the time of such appointment not less than ten years practical experience in the construction, maintenance, repair, or operation of high pressure boilers and unfired pressure vessels, as a mechanical engineer, steam engineer, boilermaker, or boiler inspector, and who shall have passed the same kind of examination as that prescribed for deputy or special inspectors in RCW 70.79.170 to be chief inspector until his successor shall have been appointed and qualified. Such chief inspector may be removed for cause after due investigation by the board and its recommendation to the director of the department of labor and industries. [1951 c 32 § 10.]

70.79.110 Chief inspector—Duties in general. The chief inspector, if authorized by the director of the department of labor and industries is hereby charged, directed and empowered:

(1) To cause the prosecution of all violators of the provisions of this chapter;

(2) To issue, or to suspend, or revoke for cause, inspection certificates as provided for in RCW 70.79.290;

(3) To take action necessary for the enforcement of the laws of the state governing the use of boilers and unfired pressure vessels and of the rules and regulations of the board;

(4) To keep a complete record of the type, dimensions, maximum allowable working pressure, age, condition, location, and date of the last recorded internal inspection of all boilers and unfired pressure vessels to which this chapter applies;

(5) To publish and distribute, among manufacturers and others requesting them, copies of the rules and regulations adopted by the board. [1951 c 32 § 11.]

70.79.120 Deputy inspectors—Qualifications—Employment. The director shall employ deputy inspectors who shall have had at time of appointment not less than five years practical experience in the construction, maintenance, repair, or operation of high pressure boilers and unfired pressure vessels as a mechanical engineer, steam engineer, boilermaker, or boiler inspector, and who shall have passed the examination provided for in RCW 70.79.170. [1994 c 164 § 27; 1951 c 32 § 12.]

70.79.130 Special inspectors—Qualifications—Commission. In addition to the deputy boiler inspectors authorized by RCW 70.79.120, the chief inspector shall, upon the request of any company authorized to insure against loss from explosion of boilers and unfired pressure vessels in this state, or upon the request of any company operating unfired pressure vessels in this state, issue to any inspectors of said company commissions as special inspectors, provided that each such inspector before receiving his commission shall satisfactorily pass the examination provided for in RCW 70.79.170, or, in lieu of such examination, shall hold a certificate of competency as an inspector of

boilers and unfired pressure vessels for a state that has a standard of examination substantially equal to that of this state or a certificate as an inspector of boilers from the national board of boiler and pressure vessel inspectors. A commission as a special inspector for a company operating unfired pressure vessels in this state shall be issued only if, in addition to meeting the requirements stated herein, the inspector is continuously employed by the company for the purpose of making inspections of unfired pressure vessels used, or to be used, by such company. [1951 c 32 § 13.]

70.79.140 Special inspectors—Compensation—Continuance of commission. Special inspectors shall receive no salary from, nor shall any of their expenses be paid by the state, and the continuance of a special inspector's commission shall be conditioned upon his continuing in the employ of a boiler insurance company duly authorized as aforesaid or upon continuing in the employ of a company operating unfired pressure vessels in this state and upon his maintenance of the standards imposed by this chapter. [1951 c 32 § 14.]

70.79.150 Special inspectors—Inspections—Exempts from inspection fees. Special inspectors shall inspect all boilers and unfired pressure vessels insured or all unfired pressure vessels operated by their respective companies and, when so inspected, the owners and users of such insured boilers and unfired pressure vessels shall be exempt from the payment to the state of the inspection fees as provided for in RCW 70.79.330. [1951 c 32 § 15.]

70.79.160 Report of inspection by special inspector—Filing. Each company employing special inspectors shall within thirty days following each internal boiler or unfired pressure vessel inspection made by such inspectors, file a report of such inspection with the chief inspector upon appropriate forms as promulgated by the American society of mechanical engineers. Reports of external inspections shall not be required except when such inspections disclose that the boiler or unfired pressure vessel is in dangerous condition. [1951 c 32 § 16.]

70.79.170 Examinations for inspector's appointment or commission—Reexamination. Examinations for chief, deputy, or special inspectors shall be in writing and shall be held by the board, or by at least two members of the board. Such examinations shall be confined to questions the answers to which will aid in determining the fitness and competency of the applicant for the intended service. In case an applicant for an inspector's appointment or commission fails to pass the examination, he may appeal to the board for another examination which shall be given by the board within ninety days. The record of an applicant's examination shall be accessible to said applicant and his employer. [1951 c 32 § 18.]

70.79.180 Suspension, revocation of inspector's commission—Grounds—Reinstatement. A commission may be suspended or revoked after due investigation and recommendation by the board to the director of the department of labor and industries for the incompetence or

untrustworthiness of the holder thereof, or for wilful falsification of any matter or statement contained in his application or in a report of any inspection. A person whose commission has been suspended or revoked, except for untrustworthiness, shall be entitled to apply to the board for reinstatement or, in the case of a revocation, for a new examination and commission after ninety days from such revocation. [1951 c 32 § 19.]

70.79.190 Suspension, revocation of commission—Appeal. A person whose commission has been suspended or revoked shall be entitled to an appeal as provided in RCW 70.79.360 and to be present in person and/or represented by counsel on the hearing of the appeal. [1951 c 32 § 20.]

70.79.200 Lost or destroyed certificate or commission. If a certificate or commission is lost or destroyed, a new certificate or commission shall be issued in its place without another examination. [1951 c 32 § 21.]

70.79.210 Inspectors—Performance bond required. The chief inspector shall furnish a bond in the sum of five thousand dollars and each of the deputy inspectors, employed and paid by the state, shall furnish a bond in the sum of two thousand dollars conditioned upon the faithful performance of their duties and upon a true account of moneys handled by them respectively and the payment thereof to the proper recipient. The cost of said bonds shall be paid by the state. [1951 c 32 § 35.]

70.79.220 Inspections—Who shall make. The inspections herein required shall be made by the chief inspector, by a deputy inspector, or by a special inspector provided for in this chapter. [1951 c 32 § 25.]

70.79.230 Access to premises by inspectors. The chief inspector, or any deputy or special inspector, shall have free access, during reasonable hours, to any premises in the state where a boiler or unfired pressure vessel is being constructed, or is being installed or operated, for the purpose of ascertaining whether such boiler or unfired pressure vessel is constructed, installed and operated in accordance with the provisions of this chapter. [1951 c 32 § 17.]

70.79.240 Inspection of boilers, unfired pressure vessels—Scope—Frequency. Each boiler and unfired pressure vessel used or proposed to be used within this state, except boilers or unfired pressure vessels exempt in RCW 70.79.080 and 70.79.090, shall be thoroughly inspected as to their construction, installation, condition and operation, as follows:

(1) Power boilers shall be inspected annually both internally and externally while not under pressure, except that the board may provide for longer periods between inspections where the contents, history, or operation of the power boiler or the material of which it is constructed warrant special consideration. Power boilers shall also be inspected annually externally while under pressure if possible;

(2) Low pressure heating boilers shall be inspected both internally and externally biennially where construction will permit;

(3) Unfired pressure vessels subject to internal corrosion shall be inspected both internally and externally biennially where construction will permit, except that the board may, in its discretion, provide for longer periods between inspections;

(4) Unfired pressure vessels not subject to internal corrosion shall be inspected externally at intervals set by the board, but internal inspections shall not be required of unfired pressure vessels, the contents of which are known to be noncorrosive to the material of which the shell, head, or fittings are constructed, either from the chemical composition of the contents or from evidence that the contents are adequately treated with a corrosion inhibitor, provided that such vessels are constructed in accordance with the rules and regulations of the board or in accordance with standards substantially equivalent to the rules and regulations of the board, in effect at the time of manufacture. [1993 c 391 § 1; 1951 c 32 § 22.]

70.79.250 Inspection—Frequency—Grace period. In the case of power boilers a grace period of not more than two months longer than the period established by the board under RCW 70.79.240(1) may elapse between internal inspections of a boiler while not under pressure or between external inspections of a boiler while under pressure; in the case of low pressure heating boilers not more than twenty-six months shall elapse between inspections, and in the case of unfired pressure vessels not more than two months longer than the period between inspections prescribed by the board shall elapse between internal inspections. [1993 c 391 § 2; 1951 c 32 § 23.]

70.79.260 Inspection—Frequency—Modification by rules. The rules and regulations formulated by the board applying to the inspection of unfired pressure vessels may be modified by the board to reduce or extend the interval between required inspections where the contents of the vessel or the material of which it is constructed warrant special consideration. [1951 c 32 § 24.]

70.79.270 Hydrostatic test. If at any time a hydrostatic test shall be deemed necessary to determine the safety of a boiler or unfired pressure vessel, [the] same shall be made, at the discretion of the inspector, by the owner or user thereof. [1951 c 32 § 26.]

70.79.280 Inspection during construction. All boilers and all unfired pressure vessels to be installed in this state after the twelve months period from the date upon which the rules and regulations of the board shall become effective shall be inspected during construction as required by the applicable rules and regulations of the board by an inspector authorized to inspect boilers in this state, or, if constructed outside of the state, by an inspector holding a certificate from the national board of boiler and pressure vessel inspectors, or a certificate of competency as an inspector of boilers for a state that has a standard of exami-

nation substantially equal to that of this state as provided in RCW 70.79.170. [1951 c 32 § 27.]

70.79.290 Inspection certificate—Contents—Posting—Fee. If, upon inspection, a boiler or pressure vessel is found to comply with the rules and regulations of the board, and upon the appropriate fee payment made directly to the chief inspector, as required by RCW 70.79.160 or 70.79.330, the chief inspector shall issue to the owner or user of such a boiler or pressure vessel an inspection certificate bearing the date of inspection and specifying the maximum pressure under which the boiler or pressure vessel may be operated. Such inspection certificate shall be valid for not more than fourteen months from its date in the case of power boilers and twenty-six months in the case of low pressure heating boilers, and for not more than two months longer than the authorized inspection period in the case of pressure vessels. Certificates shall be posted under glass in the room containing the boiler or pressure vessel inspected. If the boiler or pressure vessel is not located within a building, the certificate shall be posted in a location convenient to the boiler or pressure vessel inspected or, in the case of a portable boiler or pressure vessel, the certificate shall be kept in a protective container to be fastened to the boiler or pressure vessel or in a tool box accompanying the boiler or pressure vessel. [1977 ex.s. c 175 § 1; 1970 ex.s. c 21 § 1; 1951 c 32 § 28.]

70.79.300 Inspection certificate invalid on termination of insurance. No inspection certificate issued for an insured boiler or unfired pressure vessel inspected by a special inspector shall be valid after the boiler or unfired pressure vessel, for which it was issued, shall cease to be insured by a company duly authorized by this state to carry such insurance. [1951 c 32 § 29.]

70.79.310 Inspection certificate—Suspension—Reinstatement. ALCOHOL AND DRUG USE TREATMENT ASSOCIATED WITH PREGNANCY— FETAL ALCOHOL SYNDROME

Sections

- 70.83C.005 Intent.
- 70.83C.010 Definitions.
- 70.83C.020 Prevention strategies.

70.83C.005 Intent. The legislature recognizes that the use of alcohol and other drugs during pregnancy can cause medical, psychological, and social problems for women and infants. The legislature further recognizes that communities are increasingly concerned about this problem and the associated costs to the mothers, infants, and society as a whole. The legislature recognizes that the department of health and other agencies are focusing on primary prevention activities to reduce the use of alcohol or drugs during pregnancy but few efforts have focused on secondary prevention efforts aimed at intervening in the lives of women already involved in the use of alcohol or other drugs during pregnancy. The legislature recognizes that the best way to prevent problems for chemically dependent pregnant women and their resulting children is to engage the women in alcohol or drug treatment. The legislature acknowledges that treatment professionals find pretreatment services to clients to be important in engaging women in alcohol or drug treatment. The legislature further recognizes that pretreatment services should be provided at locations where chemically dependent women are likely to be found, including public health clinics and domestic violence or homeless

shelters. Therefore the legislature intends to prevent the detrimental effects of alcohol or other drug use to women and their resulting infants by promoting the establishment of local programs to help facilitate a woman's entry into alcohol or other drug treatment. These programs shall provide secondary prevention services and provision of opportunities for immediate treatment so that women who seek help are welcomed rather than ostracized. [1993 c 422 § 3.]

Finding—1993 c 422: See note following RCW 66.16.110.

70.83C.020 Prevention strategies. The secretary shall develop and promote state-wide secondary prevention strategies designed to increase the use of alcohol and drug treatment services by women of child-bearing age, before, during, and immediately after pregnancy. These efforts are conducted through the division of alcohol and substance abuse. The secretary shall:

(1) Promote development of three pilot demonstration projects in the state to be called pretreatment projects for women of child bearing age.

(2) Ensure that two of the projects are located in public health department clinics that provide maternity services and one is located with a domestic violence program.

The chemical dependency counselor for the domestic violence program shall also be trained in domestic violence issues.

(5) Ensure that administrative costs of the department are limited to ten percent of the funds appropriated for the project. [1993 c 422 § 5.]

Finding—1993 c 422: See note following RCW 66.16.110.

70.83D.005 Findings and policy. (*Expires June 30, 1999.*) (1) The legislature finds that:

(a) Each year in Washington approximately fifteen thousand teenage girls become pregnant;

(b) The public cost of adolescent pregnancy is substantial. Eighty percent of teen prenatal care and deliveries are publicly funded. Over fifty percent of the women on public assistance became mothers as teenagers; and

(c) The personal costs of adolescent pregnancy can be socially and economically overwhelming. These too young mothers are often unable to finish high school. Their economic potential is diminished, their probability of dependence on public assistance increases, and their children are more likely to grow up in poverty. The cycle of teen mothers raising children in poverty jeopardizes their future educational opportunity and economic viability of future generations.

(2) The legislature therefore declares that in the interest of health, welfare, and economics, it is the policy of the state to reduce the incidence of unplanned teen pregnancy. To reduce the rate of teen pregnancy in Washington, the legislature hereby:

(a) Establishes four-year projects to prevent teen pregnancy;

(b) Initiates a teen pregnancy prevention media campaign;

(c) Increases funding for family planning education, outreach, and services; and

(d) Expands medicaid eligibility for postpartum family planning services. [1993 c 407 § 1.]

Norplant: RCW 74.09.800.

70.83D.010 Definitions. (*Expires June 30, 1999.*) Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

(1) "Community" means an individual political subdivision of the state, a group of such political subdivisions, or a geographic area within a political subdivision.

(2) "Department" means the department of health. [1993 c 407 § 2.]

70.83D.020 Teen pregnancy prevention projects—Selection. (*Expires June 30, 1999.*) There is established in the department a program to coordinate and fund community-based teen pregnancy prevention projects. Selection of projects shall be made competitively based upon compliance with the requirements of RCW 70.83D.030 and 70.83D.040. To the extent practicable, the projects shall be geographically

distributed throughout the state. Criteria shall be established by the department in consultation with other state agencies and groups involved in teen pregnancy prevention. [1993 c 407 § 3.]

70.83D.030 Teen pregnancy prevention projects—Design—Funding—Evaluation. (*Expires June 30, 1999.*)

(1) Each project shall be designed to reduce the incidence of unplanned teen pregnancy in the defined community, and may include preteens.

(2) At least fifty percent of the funding for teen pregnancy prevention projects shall be community matching funds provided by private or public entities. In-kind contributions such as, but not limited to, staff, materials, supplies, or physical facilities may be considered as all or part of the funding provided by the communities.

(3) The department shall perform evaluations of the projects. Each project shall be evaluated solely on the rate by which the teen pregnancy rates in the community are reduced, measured from the rates prior to the implementation of the project. Projects that demonstrate by empirical evidence that they have been successful in reducing the teen pregnancy rate in their community shall be eligible for consideration if reauthorized funding becomes available. [1993 c 407 § 4.]

70.83D.040 Teen pregnancy prevention projects—Applications. (*Expires June 30, 1999.*) Applications for teen pregnancy prevention project funding shall:

(1) Define the community requesting funding;

(2) Designate a lead agency or organization for the project;

(3) Contain evidence of the active participation of entities in the community that will participate in the project;

(4) Demonstrate the participation of teens in the development of the project;

(5) Describe the specific activities that will be undertaken by the project;

(6) Identify the community matching funds required under RCW 70.83D.030;

(7) Include statistics on teen pregnancy rates in the community over at least the past five years;

(8) Include components that will demonstrate sensitivity to religious, cultural, and socioeconomic differences; and

(9) Include components giving emphasis to the importance of sexual abstinence as a method of pregnancy prevention, as provided in RCW 28A.230.070 and 70.24.210.

The department shall not discriminate against applicants for teen pregnancy prevention project funding based on the type of pregnancy prevention strategies and services included in the applicant's proposal. [1993 c 407 § 5.]

70.83D.050 Annual report on pregnancy rates. (*Expires June 30, 1999.*) The department shall submit an annual report on the state's teen pregnancy rates over the previous five years, both state-wide and in the specific communities in which teen pregnancy prevention projects are located, to the appropriate standing committees of the legislature in the years 1995 through 1999. [1993 c 407 § 6.]

70.83D.060 Teen pregnancy prevention media campaign. (*Expires June 30, 1999.*) The department shall develop a teen pregnancy prevention media campaign in collaboration with major media organizations and other organizations and corporations interested in playing a positive and constructive role in their communities. The media campaign shall be designed to reduce the incidence of teen pregnancies. The media campaign shall be directed to teens, their parents, and individuals and organizations working with teens. The department may subcontract all or part of the activities associated with the media campaign to qualified private, nonprofit organizations. [1993 c 407 § 7.]

The department shall send the notice by certified mail to the last known address of the owner or person. The notice shall inform the owner or person that a hearing may be requested pursuant to RCW 70.87.170.

(3) If the department has suspended or revoked a permit because of fraud or error, and a hearing is requested, the suspension or revocation shall be stayed until the hearing is concluded and a decision is issued.

If the department has revoked or suspended a permit because the conveyance is unsafe or is not constructed, installed, maintained, or repaired in accordance with this chapter, the suspension or revocation is effective immediately and shall not be stayed by a request for a hearing.

(4) The department shall remove a suspension or reinstate a revoked permit if a conveyance is repaired or modified to bring it into compliance with this chapter. [1983 c 123 § 10.]

70.87.140 Operation without permit enjoined. Whenever any conveyance is being operated without a permit required by this chapter, the attorney general or the prosecuting attorney of the county may apply to the superior court of the county in which the conveyance is located for a temporary restraining order or a temporary or permanent injunction restraining the operation of the conveyance until the department issues a permit for the conveyance. No bond may be required from the department in such proceedings. [1983 c 123 § 14; 1963 c 26 § 14.]

70.87.145 Order to discontinue operation—Notice—Conditions—Contents of order—Recision of order—Violation—Penalty. (1) An authorized representative of the department may order the owner or person operating a conveyance to discontinue the operation of a conveyance, and may place a notice that states that the conveyance may not be operated on a conspicuous place in the conveyance, if the conveyance:

(a) Has not been constructed, installed, maintained, or repaired in accordance with the requirements of this chapter; or

(b) Has otherwise become unsafe.

The order is effective immediately, and shall not be stayed by a request for a hearing.

(2) The department shall prescribe a form for the order to discontinue operation. The order shall specify why the conveyance violates this chapter or is otherwise unsafe, and shall inform the owner or operator that he or she may request a hearing pursuant to RCW 70.87.170. A request for a hearing does not stay the effect of the order.

(3) The department shall rescind the order to discontinue operation if the conveyance is fixed or modified to bring it into compliance with this chapter.

(4) An owner or a person that knowingly operates or allows the operation of a conveyance in contravention of an order to discontinue operation, or removes a notice not to operate, is:

(a) Guilty of a misdemeanor; and

(b) Subject to a civil penalty under RCW 70.87.185. [1983 c 123 § 15.]

70.87.170 Review of department action in accordance with administrative procedure act. (1) Any person aggrieved by an order or action of the department denying, suspending, revoking, or refusing to renew a permit; assessing a penalty for a violation of this chapter; or ordering the operation of a conveyance to be discontinued, may request a hearing within fifteen days after notice the department's order or action is received. The date the hearing was requested shall be the date the request for hearing was postmarked. The party requesting the hearing must accompany the request with a certified or cashier's check for two hundred dollars payable to the department. The department shall refund the two hundred dollars if the party requesting the hearing prevails at the hearing; otherwise, the department shall retain the two hundred dollars.

If the department does not receive a timely request for hearing, the department's order or action is final and may not be appealed.

(2) If the aggrieved party requests a hearing, the department shall ask an administrative law judge to preside over the hearing. The hearing shall be conducted in accordance with chapter 34.05 RCW. [1983 c 123 § 16; 1963 c 26 § 17.]

70.87.180 Violations. The construction, installation, relocation, alteration, or operation of a conveyance without a permit by any person owning or having the custody, management, or operation thereof, except as provided in RCW 70.87.080 and 70.87.090, is a misdemeanor. Each day of violation is a separate offense. No prosecution may be maintained where the issuance or renewal of a permit has been requested but upon which no action has been taken by the department. [1983 c 123 § 17; 1963 c 26 § 18.]

70.87.185 Penalty for violation of chapter—Rules—Notice. (1) The department may assess a penalty against a person violating a provision of this chapter. The penalty shall be not more than five hundred dollars. Each day that

the violation continues is a separate violation and is subject to a separate penalty.

(2) The department may not assess a penalty until it adopts rules describing the method it will use to calculate penalties for various violations.

(3) The department shall notify the violator of its action, and the reasons for its action, in writing. The department shall send the notice by certified mail to the violator's last known address. The notice shall inform the violator that a hearing may be requested under RCW 70.87.170. The hearing shall not stay the effect of the penalty. [1983 c 123 § 18.]

70.87.190 Accidents—Report and investigation—Cessation of use—Removal of damaged parts. The owner or the owner's duly authorized agent shall promptly notify the department of each accident to a person requiring the service of a physician or resulting in a disability exceeding one day, and shall afford the department every facility for investigating and inspecting the accident. The department shall without delay, after being notified, make an inspection and shall place on file a full and complete report of the accident. The report shall give in detail all material facts and information available and the cause or causes, so far as they can be determined. The report shall be open to public inspection at all reasonable hours. When an accident involves the failure or destruction of any part of the construction or the operating mechanism of a conveyance, the use of the conveyance is forbidden until it has been made safe; it has been reinspected and any repairs, changes, or alterations have been approved by the department; and a permit has been issued by the department. The removal of any part of the damaged construction or operating mechanism from the premises is forbidden until the department grants permission to do so. [1983 c 123 § 21; 1963 c 26 § 19.]

70.87.200 Exemptions. (1) The provisions of this chapter do not apply where:

(a) A conveyance is permanently removed from service or made effectively inoperative; or

(b) Lifts, man hoists, or material hoists are erected temporarily for use during construction work only and are of such a design that they must be operated by a workman stationed at the hoisting machine.

(2) Except as limited by RCW 70.87.050, municipalities having in effect an elevator code prior to June 13, 1963 may continue to assume jurisdiction over the operation, erection, installation, alteration, or repair of elevators, escalators, dumbwaiters, moving walks, manlifts, and parking elevators and may inspect, issue permits, collect fees, and prescribe minimum requirements for the construction, design, use, and maintenance of conveyances if the requirements are equal to the requirements of this chapter and to all rules pertaining to conveyances adopted and administered by the department. Upon the failure of a municipality having jurisdiction over conveyances to carry out the provisions of this chapter with regard to a conveyance, the department may assume jurisdiction over the conveyance. If a municipality elects not to maintain jurisdiction over certain conveyances located therein, it may enter into a written agreement with the

department transferring exclusive jurisdiction of the conveyances to the department. The city may not reassume jurisdiction after it enters into such an agreement with the department. [1983 c 123 § 22; 1969 ex.s. c 108 § 4; 1963 c 26 § 20.]

70.87.205 Resolution of disputes by arbitration—Appointment of arbitrators—Procedure—Decision—Enforcement. (1) Disputes arising under RCW 70.87.200(2) shall be resolved by arbitration. The request shall be sent by certified mail.

(2) The department shall appoint one arbitrator; the municipality shall appoint one arbitrator; and the arbitrators chosen by the department and the municipality shall appoint the third arbitrator. If the two arbitrators cannot agree on the third arbitrator, the presiding judge of the Thurston county superior court, or his or her designee, shall appoint the third arbitrator.

(3) The arbitration shall be held pursuant to the procedures in chapter 7.04 RCW, except that RCW 7.04.220 shall not apply. The decision of the arbitrators is final and binding on the parties. Neither party may appeal a decision to any court.

(4) A party may petition the Thurston county superior court to enforce a decision of the arbitrators. [1983 c 123 § 23.]

70.87.210 Disposition of revenue. All moneys received or collected under the terms of this chapter shall be deposited in the general fund. [1963 c 26 § 21.]

(1) The board shall adopt rules under the administrative procedure act, chapter 34.05 RCW, governing safety, sanitation, and water quality for water recreation facilities. The rules shall include but not be limited to requirements for design; operation; injury and illness reporting; biological and chemical contamination standards; water quality monitoring; inspection; permit application and issuance; and enforcement procedures. However, a water recreation facility intended for the exclusive use of residents of any apartment house complex or of a group of rental housing units of less than fifteen living units, or of a mobile home park, or of a condominium complex or any group or association of less than fifteen home owners shall not be subject to preconstruction design review, routine inspection, or permit or fee requirements; and water treatment of hydroelectric reservoirs or natural streams, creeks, lakes, or irrigation canals shall not be required.

(2) In adopting rules under subsection (1) of this section regarding the operation or design of a recreational water contact facility, the board shall review and consider any recommendations made by the recreational water contact facility advisory committee. [1987 c 222 § 5; 1986 c 236 § 3.]

Water recreation facilities existing on July 26, 1987, which do not comply with the design and construction requirements established by the state board of health under this chapter may continue to operate without modification to or replacement of the existing physical plant, provided the water quality, sanitation, and life saving equipment are in compliance with the requirements established under this chapter. 70.93.010 Legislative findings. (1) The legislature finds:

(a) Washington state is experiencing rapid population growth and its citizens are increasingly mobile;

(b) There is a fundamental need for a healthful, clean, and beautiful environment;

(c) The proliferation and accumulation of litter discarded throughout this state impairs this need and constitutes a public health hazard;

(d) There is a need to conserve energy and natural resources, and the effective litter control and recovery and recycling of litter materials will serve to accomplish such conservation;

(e) In addition to effective litter control, there must be effective programs to accomplish waste reduction, the state's highest waste management priority; and

(f) There must also be effective systems to accomplish all components of recycling, including collection, processing, and the marketing of recyclable materials and recycled content products.

(2) Recognizing the multifaceted nature of the state's solid waste management problems, the legislation enacted in 1971 and entitled the "Model Litter Control and Recycling Act" is hereby renamed the "waste reduction, recycling, and model litter control act." [1992 c 175 § 1; 1979 c 94 § 1; 1971 ex.s. c 307 § 1.]

70.93.020 Declaration of purpose—Department of ecology, clean Washington center, and state and local government duties. The purpose of this chapter is to accomplish litter control, increase waste reduction, and stimulate all components of recycling throughout this state by delegating to the department of ecology the authority to:

(1) Conduct a permanent and continuous program to control and remove litter from this state to the maximum practical extent possible;

(2) Recover and recycle waste materials related to litter and littering;

(3) Foster public and private recycling of recyclable materials; and

(4) Increase public awareness of the need for recycling and litter control.

It is further the intent and purpose of this chapter to promote markets for recyclable materials through programs of the clean Washington center and other means.

It is further the intent and purpose of this chapter to create jobs for employment of youth in litter cleanup and related activities and to stimulate and encourage small, private recycling centers. This program shall include the compatible goal of recovery of recyclable materials to conserve energy and natural resources wherever practicable.

Every other department of state government and all local governmental units and agencies of this state shall cooperate with the department of ecology in the administration and enforcement of this chapter. The intent of this chapter is to add to and to coordinate existing recycling and litter control and removal efforts and not terminate or supplant such efforts. Pollution Disclosure Act of 1971: Chapter 90.52 RCW.

Tax exemptions and credits for air pollution control facilities: Chapter 82.34 RCW.

Transfer of powers, duties, and functions with respect to air pollution under chapter 70.94 RCW to department of ecology: RCW 43.21A.060.

Washington clean indoor air act: Chapter 70.160 RCW.

70.94.011 Declaration of public policies and purpose. It is declared to be the public policy to preserve, protect, and enhance the air quality for current and future generations. Air is an essential resource that must be protected from harmful levels of pollution. Improving air quality is a matter of state-wide concern and is in the public interest. It is the intent of this chapter to secure and maintain levels of air quality that protect human health and safety, including the most sensitive members of the population, to comply with the requirements of the federal clean air act, to prevent injury to plant, animal life, and property, to foster the comfort and convenience of Washington's inhabitants, to promote the economic and social development of the state, and to facilitate the enjoyment of the natural attractions of the state.

It is further the intent of this chapter to protect the public welfare, to preserve visibility, to protect scenic, aesthetic, historic, and cultural values, and to prevent air pollution problems that interfere with the enjoyment of life, property, or natural attractions.

Because of the extent of the air pollution problem the legislature finds it necessary to return areas with poor air quality to levels adequate to protect health and the environment as expeditiously as possible but no later than December 31, 1995. Further, it is the intent of this chapter to prevent any areas of the state with acceptable air quality from reaching air contaminant levels that are not protective of human health and the environment.

The legislature recognizes that air pollution control projects may affect other environmental media. In selecting air pollution control strategies state and local agencies shall support those strategies that lessen the negative environmental impact of the project on all environmental media, including air, water, and land.

The legislature further recognizes that energy efficiency and energy conservation can help to reduce air pollution and shall therefore be considered when making decisions on air pollution control strategies and projects.

It is the policy of the state that the costs of protecting the air resource and operating state and local air pollution control programs shall be shared as equitably as possible among all sources whose emissions cause air pollution.

It is also declared as public policy that regional air pollution control programs are to be encouraged and supported to the extent practicable as essential instruments for the securing and maintenance of appropriate levels of air quality.

To these ends it is the purpose of this chapter to safeguard the public interest through an intensive, progressive, and coordinated state-wide program of air pollution prevention and control, to provide for an appropriate distribution of responsibilities, and to encourage coordination and cooperation between the state, regional, and local units of government, to improve cooperation between state and federal government, public and private organizations, and the concerned individual, as well as to provide for the use of all

known, available, and reasonable methods to reduce, prevent, and control air pollution.

The legislature recognizes that the problems and effects of air pollution cross political boundaries, are frequently regional or interjurisdictional in nature, and are dependent upon the existence of human activity in areas having common topography and weather conditions conducive to the buildup of air contaminants. In addition, the legislature recognizes that air pollution levels are aggravated and compounded by increased population, and its consequences. These changes often result in increasingly serious problems for the public and the environment.

The legislature further recognizes that air emissions from thousands of small individual sources are major contributors to air pollution in many regions of the state. As the population of a region grows, small sources may contribute an increasing proportion of that region's total air emissions. It is declared to be the policy of the state to achieve significant reductions in emissions from those small sources whose aggregate emissions constitute a significant contribution to air pollution in a particular region.

It is the intent of the legislature that air pollution goals be incorporated in the missions and actions of state agencies. [1991 c 199 § 102; 1973 1st ex.s. c 193 § 1; 1969 ex.s. c 168 § 1; 1967 c 238 § 1.]

Finding—1991 c 199: "The legislature finds that ambient air pollution is the most serious environmental threat in Washington state. Air pollution causes significant harm to human health; damages the environment, including trees, crops, and animals; causes deterioration of equipment and materials; contributes to water pollution; and degrades the quality of life.

Over three million residents of Washington state live where air pollution levels are considered unhealthy. Of all toxic chemicals released into the environment more than half enter our breathing air. Citizens of Washington state spend hundreds of millions of dollars annually to offset health, environmental, and material damage caused by air pollution. The legislature considers such air pollution levels, costs, and damages to be unacceptable.

It is the intent of this act that the implementation of programs and regulations to control air pollution shall be the primary responsibility of the department of ecology and local air pollution control authorities." [1991 c 199 § 101.]

Alternative fuel and solar powered vehicles—1991 c 199: "The department of ecology shall contract with Western Washington University for the biennium ending June 30, 1993, for research and development of alternative fuel and solar powered vehicles. A report on the progress of such research shall be presented to the standing environmental committees and the department by January 1, 1994." [1991 c 199 § 230.]

70.94.015 Air pollution control account—Air operating permit account. (1) The air pollution control account is established in the state treasury. All receipts collected by or on behalf of the department from RCW 70.94.151(2), and receipts from nonpermit program sources under RCW 70.94.152(1) and 70.94.154(7), and all receipts from RCW 70.94.650, 70.94.660, 82.44.020(3), and 82.50.405 shall be deposited into the account. Moneys in the account may be spent only after appropriation. Expenditures from the account may be used only to develop and implement the provisions of chapters 70.94 and 70.120 RCW.

(2) The amounts collected and allocated in accordance with this section shall be expended upon appropriation except as otherwise provided in this section and in accordance with the following limitations:

Portions of moneys received by the department of ecology from the air pollution control account shall be distributed by the department to local authorities based on:

(a) The level and extent of air quality problems within such authority's jurisdiction;

(b) The costs associated with implementing air pollution regulatory programs by such authority; and

(c) The amount of funding available to such authority from other sources, whether state, federal, or local, that could be used to implement such programs.

(3) The air operating permit account is created in the custody of the state treasurer. All receipts collected by or on behalf of the department from permit program sources under RCW 70.94.152(1), 70.94.161, 70.94.162, and 70.94.154(7) shall be deposited into the account. Expenditures from the account may be used only for the activities described in RCW 70.94.152(1), 70.94.161, 70.94.162, and 70.94.154(7). Moneys in the account may be spent only after appropriation. [1993 c 252 § 1; 1991 c 199 § 228.]

Finding—1991 c 199: See note following RCW 70.94.011.

70.94.025 Pollution control hearings board of the state of Washington as affecting chapter 70.94 RCW. See chapter 43.21B RCW.

70.94.030 Definitions. Unless a different meaning is plainly required by the context, the following words and phrases as hereinafter used in this chapter shall have the following meanings:

(1) "Air contaminant" means dust, fumes, mist, smoke, other particulate matter, vapor, gas, odorous substance, or any combination thereof.

(2) "Air pollution" is presence in the outdoor atmosphere of one or more air contaminants in sufficient quantities and of such characteristics and duration as is, or is likely to be, injurious to human health, plant or animal life, or property, or which unreasonably interfere with enjoyment of life and property. For the purpose of this chapter, air pollution shall not include air contaminants emitted in compliance with chapter 17.21 RCW.

(3) "Air quality standard" means an established concentration, exposure time, and frequency of occurrence of an air contaminant or multiple contaminants in the ambient air which shall not be exceeded.

(4) "Ambient air" means the surrounding outside air.

(5) "Authority" means any air pollution control agency whose jurisdictional boundaries are coextensive with the boundaries of one or more counties.

(6) "Best available control technology" (BACT) means an emission limitation based on the maximum degree of reduction for each air pollutant subject to regulation under this chapter emitted from or that results from any new or modified stationary source, that the permitting authority, on a case-by-case basis, taking into account energy, environmental, and economic impacts and other costs, determines is achievable for such a source or modification through application of production processes and available methods, systems, and techniques, including fuel cleaning, clean fuels, or treatment or innovative fuel combustion techniques for control of each such a pollutant. In no event shall application of "best available control technology" result in emissions

of any pollutants that will exceed the emissions allowed by any applicable standard under 40 C.F.R. Part 60 and Part 61, as they exist on July 25, 1993, or their later enactments as adopted by reference by the director by rule. Emissions from any source utilizing clean fuels, or any other means, to comply with this subsection shall not be allowed to increase above levels that would have been required under the definition of BACT as it existed prior to enactment of the [federal] clean air act amendments of 1990.

(7) "Best available retrofit technology" (BART) means an emission limitation based on the degree of reduction achievable through the application of the best system of continuous emission reduction for each pollutant that is emitted by an existing stationary facility. The emission limitation must be established, on a case-by-case basis, taking into consideration the technology available, the costs of compliance, the energy and nonair quality environmental impacts of compliance, any pollution control equipment in use or in existence at the source, the remaining useful life of the source, and the degree of improvement in visibility that might reasonably be anticipated to result from the use of the technology.

(8) "Board" means the board of directors of an authority.

(9) "Control officer" means the air pollution control officer of any authority.

(10) "Department" or "ecology" means the department of ecology.

(11) "Emission" means a release of air contaminants into the ambient air.

(12) "Emission standard" and "emission limitation" mean a requirement established under the federal clean air act or this chapter that limits the quantity, rate, or concentration of emissions of air contaminants on a continuous basis, including any requirement relating to the operation or maintenance of a source to assure continuous emission reduction, and any design, equipment, work practice, or operational standard adopted under the federal clean air act or this chapter.

(13) "Lowest achievable emission rate" (LAER) means for any source that rate of emissions that reflects:

(a) The most stringent emission limitation that is contained in the implementation plan of any state for such class or category of source, unless the owner or operator of the proposed source demonstrates that such limitations are not achievable; or

(b) The most stringent emission limitation that is achieved in practice by such class or category of source, whichever is more stringent.

In no event shall the application of this term permit a proposed new or modified source to emit any pollutant in excess of the amount allowable under applicable new source performance standards.

(14) "Modification" means any physical change in, or change in the method of operation of, a stationary source that increases the amount of any air contaminant emitted by such source or that results in the emission of any air contaminant not previously emitted. The term modification shall be construed consistent with the definition of modification in Section 7411, Title 42, United States Code, and with rules implementing that section.

(15) "Multicounty authority" means an authority which consists of two or more counties.

(16) "New source" means (a) the construction or modification of a stationary source that increases the amount of any air contaminant emitted by such source or that results in the emission of any air contaminant not previously emitted, and (b) any other project that constitutes a new source under the federal clean air act.

(17) "Permit program source" means a source required to apply for or to maintain an operating permit under RCW 70.94.161.

(18) "Person" means an individual, firm, public or private corporation, association, partnership, political subdivision of the state, municipality, or governmental agency.

(19) "Reasonably available control technology" (RACT) means the lowest emission limit that a particular source or source category is capable of meeting by the application of control technology that is reasonably available considering technological and economic feasibility. RACT is determined on a case-by-case basis for an individual source or source category taking into account the impact of the source upon air quality, the availability of additional controls, the emission reduction to be achieved by additional controls, the impact of additional controls on air quality, and the capital and operating costs of the additional controls. RACT requirements for a source or source category shall be adopted only after notice and opportunity for comment are afforded.

(20) "Silvicultural burning" means burning of wood fiber on forest land consistent with the provisions of RCW 70.94.660.

(21) "Source" means all of the emissions units including quantifiable fugitive emissions, that are located on one or more contiguous or adjacent properties, and are under the control of the same person, or persons under common control, whose activities are ancillary to the production of a single product or functionally related group of products.

(22) "Stationary source" means any building, structure, facility, or installation that emits or may emit any air contaminant. [1993 c 252 § 2; 1991 c 199 § 103; 1987 c 109 § 33; 1979 c 141 § 119; 1969 ex.s. c 168 § 2; 1967 ex.s. c 61 § 1; 1967 c 238 § 2; 1957 c 232 § 3.]

Purpose—Short title—Construction—Rules—Severability—Captions—1987 c 109: See notes following RCW 43.21B.001.

70.94.035 Technical assistance program for regulated community. The department shall establish a technical assistance unit within its air quality program, consistent with the federal clean air act, to provide the regulated community, especially small businesses with:

(1) Information on air pollution laws, rules, compliance methods, and technologies;

(2) Information on air pollution prevention methods and technologies, and prevention of accidental releases;

(3) Assistance in obtaining permits and developing emission reduction plans;

(4) Information on the health and environmental effects of air pollution.

No representatives of the department designated as part of the technical assistance unit created in this section may have any enforcement authority. Staff of the technical assistance unit who provide on-site consultation at an industrial or commercial facility and who observe violations of air quality rules shall immediately inform the owner or operator of the facility of such violations. On-site consultation visits shall not be regarded as an inspection or investigation and no notices or citations may be issued or civil penalties assessed during such a visit. However, violations shall be reported to the appropriate enforcement agency and the facility owner or operator shall be notified that the violations will be reported. No enforcement action shall be taken by the enforcement agency for violations reported by technical assistance unit staff unless and until the facility owner or operator has been provided reasonable time to correct the violation. Violations that place any person in imminent danger of death or substantial bodily harm or cause physical damage to the property of another in an amount exceeding one thousand dollars may result in immediate enforcement action by the appropriate enforcement agency. [1991 c 199 § 308.]

Finding—1991 c 199: See note following RCW 70.94.011.

70.94.037 Transportation activities—"Conformity" determination requirements. In areas subject to a state implementation plan, no state agency, metropolitan planning organization, or local government shall approve or fund a transportation plan, program, or project within or that affects a nonattainment area unless a determination has been made that the plan, program, or project conforms with the state implementation plan for air quality as required by the federal clean air act.

Conformity determination shall be made by the state or local government or metropolitan planning organization administering or developing the plan, program, or project.

No later than eighteen months after May 15, 1991, the director of the department of ecology and the secretary of transportation, in consultation with other state, regional, and local agencies as appropriate, shall adopt by rule criteria and guidance for demonstrating and assuring conformity of plans, programs, and projects that are wholly or partially federally funded.

A project with a scope that is limited to preservation or maintenance, or both, shall be exempted from a conformity determination requirement. [1991 c 199 § 219.]

Finding—1991 c 199: See note following RCW 70.94.011.

70.94.040 Causing or permitting air pollution unlawful—Exception. Except where specified in a variance permit, as provided in RCW 70.94.181, it shall be unlawful for any person to cause air pollution or permit it to be caused in violation of this chapter, or of any ordinance, resolution, rule or regulation validly promulgated hereunder. [1980 c 175 § 2; 1967 c 238 § 3; 1957 c 232 § 4.]

70.94.041 Exception—Burning wood at historic structure. Except as otherwise provided in this section, any building or structure listed on the national register of historic sites, structures, or buildings established pursuant to 80 Stat. 915, 16 U.S.C. Sec. 470a, or on the state register established

pursuant to RCW 27.34.220, shall be permitted to burn wood as it would have when it was a functioning facility as an authorized exception to the provisions of this chapter. Such burning of wood shall not be exempted from the provisions of RCW 70.94.710 through 70.94.730. [1991 c 199 § 506; 1983 c 3 § 175; 1977 ex.s. c 38 § 1.]

Finding—1991 c 199: See note following RCW 70.94.011.

70.94.053 Air pollution control authorities created—Activated authorities, composition, meetings—Delineation of air pollution regions, considerations. (1) In each county of the state there is hereby created an air pollution control authority, which shall bear the name of the county within which it is located. The boundaries of each authority shall be coextensive with the boundaries of the county within which it is located. An authority shall include all incorporated and unincorporated areas of the county within which it is located.

(2) Except as provided in RCW 70.94.262, all authorities which are presently activated authorities shall carry out the duties and exercise the powers provided in this chapter. Those activated authorities which encompass contiguous counties are declared to be and directed to function as a multicounty authority.

70.94.055 Air pollution control authority may be activated by counties, when. The legislative authority of any county may activate an air pollution control authority following a public hearing on its own motion, or upon a filing of a petition signed by one hundred property owners within the county. If the county legislative authority determines as a result of the public hearing that:

(1) Air pollution exists or is likely to occur; and

(2) The city or town ordinances, or county resolutions, or their enforcement, are inadequate to prevent or control air pollution,

it may by resolution activate an air pollution control authority or combine with a contiguous county or counties to form a multicounty air pollution control authority. [1995 c 135 § 6. Prior: 1991 c 363 § 144; 1991 c 199 § 702; 1967 c 238 § 5.]

Intent—1995 c 135: See note following RCW 29.04.160.

Purpose—Captions not law—1991 c 363: See notes following RCW 2.32.180.

Such resolution shall become effective only when a similar resolution is adopted by the other contiguous county or counties comprising the proposed authority. The boundaries of such authority shall be coextensive with the boundaries of the counties within which it is located. [1969 ex.s. c 168 § 3; 1967 c 238 § 11.]

70.94.069 Merger of active and inactive authorities to form multicounty or regional authority—Reorganization of board of directors—Rules and regulations. In the case of the merger of two or more activated authorities the rules and regulations of each authority shall continue in effect and shall be enforced within the jurisdiction of each until such time as the board of directors adopts rules and regulations applicable to the newly formed multicounty authority.

In the case of the merger of an inactive authority with an activated authority or authorities, upon approval of such merger by the board or boards of county commissioners of the county or counties comprising the existing activated authority or authorities, the rules and regulations of the activated authority or authorities shall remain in effect until superseded by the rules and regulations of the multicounty authority as provided in RCW 70.94.230. [1969 ex.s. c 168 § 4; 1967 c 238 § 12.]

The resolution or resolutions activating an air pollution authority shall specify the name of the authority and participating political bodies; the authority's principal place of business; the territory included within it; and the effective date upon which such authority shall begin to transact business and exercise its powers. In addition, such resolution or resolutions may specify the amount of money to be contributed annually by each political subdivision, or a method of

dividing expenses of the air pollution control program. Upon the adoption of a resolution or resolutions calling for the activation of an authority or the merger of an inactive or activated authority or several activated authorities to form a multicounty authority, the governing body of each shall cause a certified copy of each such ordinance or resolution to be filed in the office of the secretary of state of the state of Washington. From and after the date of filing with the secretary of state a certified copy of each such resolution, or resolutions, or the date specified in such resolution or resolutions, whichever is later, the authority may begin to function and may exercise its powers.

Nothing herein shall be construed to prevent holding the foregoing special election at the same time as that fixed for a general election. The expense of all special elections held pursuant to this section shall be paid by the authority. [1973 1st ex.s. c 195 § 84; 1969 ex.s. c 168 § 7; 1967 c 238 § 15.]

The activated authority budget shall contain adequate funding and provide for staff sufficient to carry out the provisions of all applicable ordinances, resolutions, and local regulations related to the reduction, prevention, and control of air pollution. The legislature acknowledges the need for the state to provide reasonable funding to local authorities to

carry out the requirements of this chapter. The budget shall contain an estimate of all revenues to be collected during the following budget year, including any surplus funds remaining unexpended from the preceding year. The remaining funds required to meet budget expenditures, if any, shall be designated as "supplemental income" and shall be obtained from the component cities, towns, and counties in the manner provided in this chapter. (a) Each component city or town shall pay such proportion of the supplemental income as the assessed valuation of property within its limits bears to the total assessed valuation of taxable property within the activated authority.

(b) Each component city or town shall pay such proportion of the supplemental income as the total population of such city or town bears to the total population of the activated authority. The population of the city or town shall be determined by the most recent census, estimate or survey by the federal bureau of census or any state board or commission authorized to make such a census, estimate or survey.

(c) A combination of the methods prescribed in (a) and (b) of this subsection: PROVIDED, That such combination shall be of fifty percent of the method prescribed in (a) of this subsection and fifty percent of the method prescribed in (b) of this subsection.

(a) Each component county shall pay such proportion of such supplemental income as the assessed valuation of the property within the unincorporated area of such county lying within the activated authority bears to the total assessed valuation of taxable property within the activated authority.

(b) Each component county shall pay such proportion of the supplemental income as the total population of the unincorporated area of such county bears to the total population of the activated authority. The population of the county shall be determined by the most recent census, estimate or survey by the federal bureau of census or any state board or commission authorized to make such a census, estimate or survey.

The board shall certify to each component city, town and county, prior to the fourth Monday in June of each year, the share of the supplemental income to be paid by such component city, town or county for the next calendar year. The latter shall then include such amount in its budget for the ensuing calendar year, and during such year shall pay to the activated authority, in equal quarterly installments, the amount of its supplemental share. 70.94.095 Assessed valuation of taxable property, certification by county assessors. It shall be the duty of the assessor of each component county to certify annually to the board the aggregate assessed valuation of all taxable property in all incorporated and unincorporated areas situated in any activated authority as the same appears from the last assessment roll of his county. Each mayor who chooses to participate in the balloting shall write in the choice for appointment, sign the ballot, and return the ballot to the county auditor. Each completed ballot shall be date-stamped upon receipt by the mayor or staff of the mayor of the city or town. (1) The department of ecology or board of any authority may require notice of the establishment of any proposed new sources except single family and duplex dwellings or de minimis new sources as defined in rules adopted under subsection (1) of this section. The department of ecology or board may require such notice to be accompanied by a fee and determine the amount of such fee: PROVIDED, That the amount of the fee may not exceed the cost of reviewing the plans, specifications, and other information and administering such notice: PROVIDED FURTHER, That any such notice given or notice of construction application submitted to either the board or to the department of ecology shall preclude a further submittal of a duplicate application to any board or to the department of ecology.

(2) The department shall, after opportunity for public review and comment, adopt rules that establish a workload-driven process for determination and review of the fee covering the direct and indirect costs of processing a notice of construction application and a methodology for tracking

revenues and expenditures. All new source fees collected by the delegated local air authorities from sources shall be deposited in the dedicated accounts of their respective treasuries. All new source fees collected by the department from sources shall be deposited in the air pollution control account.

(3) Within thirty days of receipt of a notice of construction application, the department of ecology or board may require, as a condition precedent to the establishment of the new source or sources covered thereby, the submission of plans, specifications, and such other information as it deems necessary to determine whether the proposed new source will be in accord with applicable rules and regulations in force under this chapter. If on the basis of plans, specifications, or other information required under this section the department of ecology or board determines that the proposed new source will not be in accord with this chapter or the applicable ordinances, resolutions, rules, and regulations adopted under this chapter, it shall issue an order denying permission to establish the new source. If on the basis of plans, specifications, or other information required under this section, the department of ecology or board determines that the proposed new source will be in accord with this chapter, and the applicable rules and regulations adopted under this chapter, it shall issue an order of approval for the establishment of the new source or sources, which order may provide such conditions as are reasonably necessary to assure the maintenance of compliance with this chapter and the applicable rules and regulations adopted under this chapter. Every order of approval under this chapter must be reviewed prior to issuance by a professional engineer or staff under the supervision of a professional engineer in the employ of the department of ecology or board.

(4) The determination required under subsection (3) of this section shall include a determination of whether the operation of the new air contaminant source at the location proposed will cause any ambient air quality standard to be exceeded.

(5) New source review of a modification shall be limited to the emission unit or units proposed to be modified and the air contaminants whose emissions would increase as a result of the modification.

(6) Nothing in this section shall be construed to authorize the department of ecology or board to require the use of emission control equipment or other equipment, machinery, or devices of any particular type, from any particular supplier, or produced by any particular manufacturer.

(7) Any features, machines, and devices constituting parts of or called for by plans, specifications, or other information submitted pursuant to subsection (1) or (3) of this section shall be maintained and operate in good working order.

(8) The absence of an ordinance, resolution, rule, or regulation, or the failure to issue an order pursuant to this section shall not relieve any person from his or her obligation to comply with applicable emission control requirements or with any other provision of law.

(9) Within thirty days of receipt of a notice of construction application the department of ecology or board shall either notify the applicant in writing that the application is complete or notify the applicant in writing of all additional information necessary to complete the application. Within

sixty days of receipt of a complete application the department or board shall either (a) issue a final decision on the application, or (b) for those projects subject to public notice, initiate notice and comment on a proposed decision, followed as promptly as possible by a final decision. A person seeking approval to construct or modify a source that requires an operating permit may elect to integrate review of the operating permit application or amendment required by RCW 70.94.161 and the notice of construction application required by this section. A notice of construction application designated for integrated review shall be processed in accordance with operating permit program procedures and deadlines.

(10) A notice of construction approval required under subsection (3) of this section shall include a determination that the new source will achieve best available control technology. If more stringent controls are required under federal law, the notice of construction shall include a determination that the new source will achieve the more stringent federal requirements. Nothing in this subsection is intended to diminish other state authorities under this chapter.

(11) No person is required to submit a notice of construction or receive approval for a new source that is deemed by the department of ecology or board to have de minimis impact on air quality. The department of ecology shall adopt and periodically update rules identifying categories of de minimis new sources. The department of ecology may identify de minimis new sources by category, size, or emission thresholds.

(12) For purposes of this section, "de minimis new sources" means new sources with trivial levels of emissions that do not pose a threat to human health or the environment. [1996 c 67 § 1; 1996 c 29 § 1; 1993 c 252 § 4; 1991 c 199 § 302; 1973 1st ex.s. c 193 § 2; 1969 ex.s. c 168 § 20; 1967 c 238 § 29.]

Reviser's note: This section was amended by 1996 c 29 § 1 and by 1996 c 67 § 1, each without reference to the other. Both amendments are incorporated in the publication of this section under RCW 1.12.025(2). For rule of construction, see RCW 1.12.025(1).

Finding—1991 c 199: See note following RCW 70.94.011.

Use of emission credits to be consistent with new source review program: RCW 70.94.850.

70.94.153 Existing stationary source—Replacement or substantial alteration of emission control technology. Any person proposing to replace or substantially alter the emission control technology installed on an existing stationary source emission unit shall file a notice of construction application with the jurisdictional permitting authority. For projects not otherwise reviewable under RCW 70.94.152, the permitting authority may (1) require that the owner or operator employ reasonably available control technology for the affected emission unit and (2) may prescribe reasonable operation and maintenance conditions for the control equipment. Within thirty days of receipt of an application for notice of construction under this section the permitting authority shall either notify the applicant in writing that the application is complete or notify the applicant in writing of all additional information necessary to complete the application. Within thirty days of receipt of a complete application the permitting authority shall either issue an order of

approval or a proposed RACT determination for the proposed project. Construction shall not commence on a project subject to review under this section until the permitting authority issues a final order of approval. However, any notice of construction application filed under this section shall be deemed to be approved without conditions if the permitting authority takes no action within thirty days of receipt of a complete application for a notice of construction. [1991 c 199 § 303.]

Finding—1991 c 199: See note following RCW 70.94.011.

70.94.154 RACT requirements. (1) RACT as defined in RCW 70.94.030 is required for existing sources except as otherwise provided in RCW 70.94.331(9).

(2) RACT for each source category containing three or more sources shall be determined by rule except as provided in subsection (3) of this section.

(3) Source-specific RACT determinations may be performed under any of the following circumstances:

(a) As authorized by RCW 70.94.153;

(b) When required by the federal clean air act;

(c) For sources in source categories containing fewer than three sources;

(d) When an air quality problem, for which the source is a contributor, justifies a source-specific RACT determination prior to development of a categorical RACT rule; or

(e) When a source-specific RACT determination is needed to address either specific air quality problems for which the source is a significant contributor or source-specific economic concerns.

(4) By January 1, 1994, ecology shall develop a list of sources and source categories requiring RACT review and a schedule for conducting that review. Ecology shall review the list and schedule within six months of receiving the initial operating permit applications and at least once every five years thereafter. In developing the list to determine the schedule of RACT review, ecology shall consider emission reductions achievable through the use of new available technologies and the impacts of those incremental reductions on air quality, the remaining useful life of previously installed control equipment, the impact of the source or source category on air quality, the number of years since the last BACT, RACT, or LAER determination for that source and other relevant factors. Prior to finalizing the list and schedule, ecology shall consult with local air authorities, the regulated community, environmental groups, and other interested individuals and organizations. The department and local authorities shall revise RACT requirements, as needed, based on the review conducted under this subsection.

(5) In determining RACT, ecology and local authorities shall utilize the factors set forth in RCW 70.94.030 and shall consider RACT determinations and guidance made by the federal environmental protection agency, other states and local authorities for similar sources, and other relevant factors. In establishing or revising RACT requirements, ecology and local authorities shall address, where practicable, all air contaminants deemed to be of concern for that source or source category.

(6) Emission standards and other requirements contained in rules or regulatory orders in effect at the time of operating permit issuance or renewal shall be considered RACT for

purposes of permit issuance or renewal. RACT determinations under subsections (2) and (3) of this section shall be incorporated into operating permits as provided in RCW 70.94.161 and rules implementing that section.

(7) The department and local air authorities are authorized to assess and collect a fee to cover the costs of developing, establishing, or reviewing categorical or case-by-case RACT requirements. The fee shall apply to determinations of RACT requirements as defined under this section and RCW 70.94.331(9). The amount of the fee may not exceed the direct and indirect costs of establishing the requirement for the particular source or the pro rata portion of the direct and indirect costs of establishing the requirement for the relevant source category. The department shall, after opportunity for public review and comment, adopt rules that establish a workload-driven process for determination and review of the fee covering the direct and indirect costs of its RACT determinations and a methodology for tracking revenues and expenditures. All such RACT determination fees collected by the delegated local air authorities from sources shall be deposited in the dedicated accounts of their respective treasuries. All such RACT fees collected by the department from sources shall be deposited in the air pollution control account. [1996 c 29 § 2; 1993 c 252 § 8.]

70.94.155 Control of emissions—Bubble concept—Schedules of compliance. (1) As used in subsection (3) of this section, the term "bubble" means an air pollution control system which permits aggregate measurements of allowable emissions, for a single category of pollutant, for emissions points from a specified emissions-generating facility or facilities. Individual point source emissions levels from such specified facility or facilities may be modified provided that the aggregate limit for the specified sources is not exceeded.

(2) Whenever any regulation relating to emission standards or other requirements for the control of emissions is adopted which provides for compliance with such standards or requirements no later than a specified time after the date of adoption of the regulation, the appropriate activated air pollution control authority or, if there be none, the department of ecology shall, by permit or regulatory order, issue to air contaminant sources subject to the standards or requirements, schedules of compliance setting forth timetables for the achievement of compliance as expeditiously as practicable, but in no case later than the time specified in the regulation. Interim dates in such schedules for the completion of steps of progress toward compliance shall be as enforceable as the final date for full compliance therein.

(3) Wherever requirements necessary for the attainment of air quality standards or, where such standards are not exceeded, for the maintenance of air quality can be achieved through the use of a control program involving the bubble concept, such program may be authorized by a regulatory order or orders or permit issued to the air contaminant source or sources involved. Such order or permit shall only be authorized after the control program involving the bubble concept is accepted by [the] United States environmental protection agency as part of an approved state implementation plan. Any such order or permit provision shall restrict total emissions within the bubble to no more than would otherwise be allowed in the aggregate for all emitting

processes covered. The orders or permits provided for by this subsection shall be issued by the department or the authority with jurisdiction. If the bubble involves interjurisdictional approval, concurrence in the total program must be secured from each regulatory entity concerned. [1991 c 199 § 305; 1981 c 224 § 1; 1973 1st ex.s. c 193 § 3.]

Finding—1991 c 199: See note following RCW 70.94.011.

Use of emission credits to be consistent with bubble program: RCW 70.94.850.

70.94.157 Preemption of uniform building and fire codes. The department and local air pollution control authorities shall preempt the application of chapter 9 of the uniform building code and article 80 of the uniform fire code by other state agencies and local governments for the purposes of controlling outdoor air pollution from industrial and commercial sources, except where authorized by *this act. Actions by other state agencies and local governments under article 80 of the uniform fire code to take immediate action in response to an emission that presents a physical hazard or imminent health hazard are not preempted. [1991 c 199 § 315.]

***Reviser's note:** For codification of "this act" [1991 c 199], see Codification Tables, Volume 0.

Finding—1991 c 199: See note following RCW 70.94.011.

70.94.161 Operating permits for air contaminant sources—Generally—Fees, report to legislature. The department of ecology, or board of an authority, shall require renewable permits for the operation of air contaminant sources subject to the following conditions and limitations:

(1) Permits shall be issued for a term of five years. A permit may be modified or amended during its term at the request of the permittee, or for any reason allowed by the federal clean air act. The rules adopted pursuant to subsection (2) of this section shall include rules for permit amendments and modifications. The terms and conditions of a permit shall remain in effect after the permit itself expires if the permittee submits a timely and complete application for permit renewal.

(2)(a) Rules establishing the elements for a state-wide operating permit program and the process for permit application and renewal consistent with federal requirements shall be established by the department by January 1, 1993. The rules shall provide that every proposed permit must be reviewed prior to issuance by a professional engineer or staff under the direct supervision of a professional engineer in the employ of the permitting authority. The permit program established by these rules shall be administered by the department and delegated local air authorities. Rules developed under this subsection shall not preclude a delegated local air authority from including in a permit its own more stringent emission standards and operating restrictions.

(b) The board of any local air pollution control authority may apply to the department of ecology for a delegation order authorizing the local authority to administer the operating permit program for sources under that authority's jurisdiction. The department shall, by order, approve such delegation, if the department finds that the local authority has the technical and financial resources, to discharge the

responsibilities of a permitting authority under the federal clean air act. A delegation request shall include adequate information about the local authority's resources to enable the department to make the findings required by this subsection; provided, any delegation order issued under this subsection shall take effect ninety days after the environmental protection agency authorizes the local authority to issue operating permits under the federal clean air act.

(c) Except for the authority granted the energy facility site evaluation council to issue permits for the new construction, reconstruction, or enlargement or operation of new energy facilities under chapter 80.50 RCW, the department may exercise the authority, as delegated by the environmental protection agency, to administer Title IV of the federal clean air act as amended and to delegate such administration to local authorities as applicable pursuant to (b) of this subsection.

(3) In establishing technical standards, defined in RCW 70.94.030, the permitting authority shall consider and, if found to be appropriate, give credit for waste reduction within the process.

(4) Operating permits shall apply to all sources (a) where required by the federal clean air act, and (b) for any source that may cause or contribute to air pollution in such quantity as to create a threat to the public health or welfare. Subsection (b) of this subsection is not intended to apply to small businesses except when both of the following limitations are satisfied: (i) The source is in an area exceeding or threatening to exceed federal or state air quality standards; and (ii) the department provides a reasonable justification that requiring a source to have a permit is necessary to meet a federal or state air quality standard, or to prevent exceeding a standard in an area threatening to exceed the standard. For purposes of this subsection "areas threatening to exceed air quality standards" shall mean areas projected by the department to exceed such standards within five years. Prior to identifying threatened areas the department shall hold a public hearing or hearings within the proposed areas.

(5) Sources operated by government agencies are not exempt under this section.

(6) Within one hundred eighty days after the United States environmental protection agency approves the state operating permit program, a person required to have a permit shall submit to the permitting authority a compliance plan and permit application, signed by a responsible official, certifying the accuracy of the information submitted. Until permits are issued, existing sources shall be allowed to operate under presently applicable standards and conditions provided that such sources submit complete and timely permit applications.

(7) All draft permits shall be subject to public notice and comment. The rules adopted pursuant to subsection (2) of this section shall specify procedures for public notice and comment. Such procedures shall provide the permitting agency with an opportunity to respond to comments received from interested parties prior to the time that the proposed permit is submitted to the environmental protection agency for review pursuant to section 505(a) of the federal clean air act. In the event that the environmental protection agency objects to a proposed permit pursuant to section 505(b) of the federal clean air act, the permitting authority shall not

issue the permit, unless the permittee consents to the changes required by the environmental protection agency.

(8) The procedures contained in chapter 43.21B RCW shall apply to permit appeals. The pollution control hearings board may stay the effectiveness of any permit issued under this section during the pendency of an appeal filed by the permittee, if the permittee demonstrates that compliance with the permit during the pendency of the appeal would require significant expenditures that would not be necessary in the event that the permittee prevailed on the merits of the appeal.

(9) After the effective date of any permit program promulgated under this section, it shall be unlawful for any person to: (a) Operate a permitted source in violation of any requirement of a permit issued under this section; or (b) fail to submit a permit application at the time required by rules adopted under subsection (2) of this section.

(10) Each air operating permit shall state the origin of and specific legal authority for each requirement included therein. Every requirement in an operating permit shall be based upon the most stringent of the following requirements:

(a) The federal clean air act and rules implementing that act, including provision of the approved state implementation plan;

(b) This chapter and rules adopted thereunder;

(c) In permits issued by a local air pollution control authority, the requirements of any order or regulation adopted by that authority;

(d) Chapter 70.98 RCW and rules adopted thereunder; and

(e) Chapter 80.50 RCW and rules adopted thereunder.

(11) Consistent with the provisions of the federal clean air act, the permitting authority may issue general permits covering categories of permitted sources, and temporary permits authorizing emissions from similar operations at multiple temporary locations.

(12) Permit program sources within the territorial jurisdiction of an authority delegated the operating permit program shall file their permit applications with that authority, except that permit applications for sources regulated on a state-wide basis pursuant to RCW 70.94.395 shall be filed with the department. Permit program sources outside the territorial jurisdiction of a delegated authority shall file their applications with the department. Permit program sources subject to chapter 80.50 RCW shall, irrespective of their location, file their applications with the energy facility site evaluation council.

(13) When issuing operating permits to coal fired electric generating plants, the permitting authority shall establish requirements consistent with Title IV of the federal clean air act.

(14)(a) The department and the local air authorities are authorized to assess and to collect, and each source emitting one hundred tons or more per year of a regulated pollutant shall pay an interim assessment to fund the development of the operating permit program during fiscal year 1994.

(b) The department shall conduct a workload analysis and prepare an operating permit program development budget for fiscal year 1994. The department shall allocate among all sources emitting one hundred tons or more per year of a regulated pollutant during calendar year 1992 the costs identified in its program development budget according

to a three-tiered model, with each of the three tiers being equally weighted, based upon:

(i) The number of sources;

(ii) The complexity of sources; and

(iii) The size of sources, as measured by the quantity of each regulated pollutant emitted by the source.

(c) Each local authority and the department shall collect from sources under their respective jurisdictions the interim fee determined by the department and shall remit the fee to the department.

(d) Each local authority may, in addition, allocate its fiscal year 1994 operating permit program development costs among the sources under its jurisdiction emitting one hundred tons or more per year of a regulated pollutant during calendar year 1992 and may collect an interim fee from these sources. A fee assessed pursuant to this subsection (14)(d) shall be collected at the same time as the fee assessed pursuant to (c) of this subsection.

(e) The fees assessed to a source under this subsection shall be limited to the first seven thousand five hundred tons for each regulated pollutant per year.

(15) The department shall determine the persons liable for the fee imposed by subsection (14) of this section, compute the fee, and provide by November 1 of 1993 the identity of the fee payer with the computation of the fee to each local authority and to the department of revenue for collection. The department of revenue shall collect the fee computed by the department from the fee payers under the jurisdiction of the department. The administrative, collection, and penalty provisions of chapter 82.32 RCW shall apply to the collection of the fee by the department of revenue. The department shall provide technical assistance to the department of revenue for decisions made by the department of revenue pursuant to RCW 82.32.160 and 82.32.170. All interim fees collected by the department of revenue on behalf of the department and all interim fees collected by local authorities on behalf of the department shall be deposited in the air operating permit account. The interim fees collected by the local air authorities to cover their permit program development costs under subsection (14)(d) of this section shall be deposited in the dedicated accounts of their respective treasuries.

All fees identified in this section shall be due and payable on March 1 of 1994, except that the local air pollution control authorities may adopt by rule an earlier date on which fees are to be due and payable. The section 5, chapter 252, Laws of 1993 amendments to RCW 70.94.161 do not have the effect of terminating, or in any way modifying, any liability, civil or criminal, incurred pursuant to the provisions of RCW 70.94.161 (15) and (17) as they existed prior to July 25, 1993.

(16) For sources or source categories not required to obtain permits under subsection (4) of this section, the department or local authority may establish by rule control technology requirements. If control technology rule revisions are made by the department or local authority under this subsection, the department or local authority shall consider the remaining useful life of control equipment previously installed on existing sources before requiring technology changes. The department or any local air authority may issue a general permit, as authorized under the federal clean air act, for such sources.

(17) RCW 70.94.151 shall not apply to any permit program source after the effective date of United States environmental protection agency approval of the state operating permit program. [1993 c 252 § 5; 1991 c 199 § 301.]

Finding—1991 c 199: See note following RCW 70.94.011.

Air operating permit account: RCW 70.94.015.

70.94.162 Annual fees from operating permit program source to cover cost of program. (1) The department and delegated local air authorities are authorized to determine, assess, and collect, and each permit program source shall pay, annual fees sufficient to cover the direct and indirect costs of implementing a state operating permit program approved by the United States environmental protection agency under the federal clean air act. However, a source that receives its operating permit from the United States environmental protection agency shall not be considered a permit program source so long as the environmental protection agency continues to act as the permitting authority for that source. Each permitting authority shall develop by rule a fee schedule allocating among its permit program sources the costs of the operating permit program, and may, by rule, establish a payment schedule whereby periodic installments of the annual fee are due and payable more frequently. All operating permit program fees collected by the department shall be deposited in the air operating permit account. All operating permit program fees collected by the delegated local air authorities shall be deposited in their respective air operating permit accounts or other accounts dedicated exclusively to support of the operating permit program. The fees assessed under this subsection shall first be due not less than forty-five days after the United States environmental protection agency delegates to the department the authority to administer the operating permit program and then annually thereafter.

The department shall establish, by rule, procedures for administrative appeals to the department regarding the fee assessed pursuant to this subsection.

(2) The fee schedule developed by each permitting authority shall fully cover and not exceed both its permit administration costs and the permitting authority's share of state-wide program development and oversight costs.

(a) Permit administration costs are those incurred by each permitting authority, including the department, in administering and enforcing the operating permit program with respect to sources under its jurisdiction. Costs associated with the following activities are fee eligible as these activities relate to the operating permit program and to the sources permitted by a permitting authority, including, where applicable, sources subject to a general permit:

(i) Preapplication assistance and review of an application and proposed compliance plan for a permit, permit revision, or renewal;

(ii) Source inspections, testing, and other data-gathering activities necessary for the development of a permit, permit revision, or renewal;

(iii) Acting on an application for a permit, permit revision, or renewal, including the costs of developing an applicable requirement as part of the processing of a permit, permit revision, or renewal, preparing a draft permit and fact sheet, and preparing a final permit, but excluding the costs

of developing BACT, LAER, BART, or RACT requirements for criteria and toxic air pollutants;

(iv) Notifying and soliciting, reviewing and responding to comment from the public and contiguous states and tribes, conducting public hearings regarding the issuance of a draft permit and other costs of providing information to the public regarding operating permits and the permit issuance process;

(v) Modeling necessary to establish permit limits or to determine compliance with permit limits;

(vi) Reviewing compliance certifications and emissions reports and conducting related compilation and reporting activities;

(vii) Conducting compliance inspections, complaint investigations, and other activities necessary to ensure that a source is complying with permit conditions;

(viii) Administrative enforcement activities and penalty assessment, excluding the costs of proceedings before the pollution control hearings board and all costs of judicial enforcement;

(ix) The share attributable to permitted sources of the development and maintenance of emissions inventories;

(x) The share attributable to permitted sources of ambient air quality monitoring and associated recording and reporting activities;

(xi) Training for permit administration and enforcement;

(xii) Fee determination, assessment, and collection, including the costs of necessary administrative dispute resolution and penalty collection;

(xiii) Required fiscal audits, periodic performance audits, and reporting activities;

(xiv) Tracking of time, revenues and expenditures, and accounting activities;

(xv) Administering the permit program including the costs of clerical support, supervision, and management;

(xvi) Provision of assistance to small businesses under the jurisdiction of the permitting authority as required under section 507 of the federal clean air act; and

(xvii) Other activities required by operating permit regulations issued by the United States environmental protection agency under the federal clean air act.

(b) Development and oversight costs are those incurred by the department in developing and administering the state operating permit program, and in overseeing the administration of the program by the delegated local permitting authorities. Costs associated with the following activities are fee eligible as these activities relate to the operating permit program:

(i) Review and determinations necessary for delegation of authority to administer and enforce a permit program to a local air authority under RCW 70.94.161(2) and 70.94.860;

(ii) Conducting fiscal audits and periodic performance audits of delegated local authorities, and other oversight functions required by the operating permit program;

(iii) Administrative enforcement actions taken by the department on behalf of a permitting authority, including those actions taken by the department under RCW 70.94.785, but excluding the costs of proceedings before the pollution control hearings board and all costs of judicial enforcement;

(iv) Determination and assessment with respect to each permitting authority of the fees covering its share of the costs of development and oversight;

(v) Training and assistance for permit program administration and oversight, including training and assistance regarding technical, administrative, and data management issues;

(vi) Development of generally applicable regulations or guidance regarding the permit program or its implementation or enforcement;

(vii) State codification of federal rules or standards for inclusion in operating permits;

(viii) Preparation of delegation package and other activities associated with submittal of the state permit program to the United States environmental protection agency for approval, including ongoing coordination activities;

(ix) General administration and coordination of the state permit program, related support activities, and other agency indirect costs, including necessary data management and quality assurance;

(x) Required fiscal audits and periodic performance audits of the department, and reporting activities;

(xi) Tracking of time, revenues and expenditures, and accounting activities;

(xii) Public education and outreach related to the operating permit program, including the maintenance of a permit register;

(xiii) The share attributable to permitted sources of compiling and maintaining emissions inventories;

(xiv) The share attributable to permitted sources of ambient air quality monitoring, related technical support, and associated recording activities;

(xv) The share attributable to permitted sources of modeling activities;

(xvi) Provision of assistance to small business as required under section 507 of the federal clean air act as it exists on July 25, 1993, or its later enactment as adopted by reference by the director by rule;

(xvii) Provision of services by the department of revenue and the office of the state attorney general and other state agencies in support of permit program administration;

(xviii) A one-time revision to the state implementation plan to make those administrative changes necessary to ensure coordination of the state implementation plan and the operating permit program; and

(xix) Other activities required by operating permit regulations issued by the United States environmental protection agency under the federal clean air act.

(3) The responsibility for operating permit fee determination, assessment, and collection is to be shared by the department and delegated local air authorities as follows:

(a) Each permitting authority, including the department, acting in its capacity as a permitting authority, shall develop a fee schedule and mechanism for collecting fees from the permit program sources under its jurisdiction; the fees collected by each authority shall be sufficient to cover its costs of permit administration and its share of the department's costs of development and oversight. Each delegated local authority shall remit to the department its share of the department's development and oversight costs.

(b) Only those local air authorities to whom the department has delegated the authority to administer the program pursuant to RCW 70.94.161(2) (b) and (c) and 70.94.860 shall have the authority to administer and collect operating

permit fees. The department shall retain the authority to administer and collect such fees with respect to the sources within the jurisdiction of a local air authority until the effective date of program delegation to that air authority.

(c) The department shall allocate its development and oversight costs among all permitting authorities, including the department, in proportion to the number of permit program sources under the jurisdiction of each authority, except that extraordinary costs or other costs readily attributable to a specific permitting authority may be assessed that authority. For purposes of this subsection, all sources covered by a single general permit shall be treated as one source.

(4) The department and each delegated local air authority shall adopt by rule a general permit fee schedule for sources under their respective jurisdictions after such time as the department adopts provisions for general permit issuance. Within ninety days of the time that the department adopts a general permit fee schedule, the department shall report to the relevant standing committees of the legislature regarding the general permit fee schedules adopted by the department and by the delegated local air authorities. The permit administration costs of each general permit shall be allocated equitably among only those sources subject to that general permit. The share of development and oversight costs attributable to each general permit shall be determined pursuant to subsection (3)(c) of this section.

(5) The fee schedule developed by the department shall allocate among the sources for whom the department acts as a permitting authority, other than sources subject to a general permit, those portions of the department's permit administration costs and the department's share of the development and oversight costs which the department does not plan to recover under its general permit fee schedule or schedules as follows:

(a) The department shall allocate its permit administration costs and its share of the development and oversight costs not recovered through general permit fees according to a three-tiered model based upon:

(i) The number of permit program sources under its jurisdiction;

(ii) The complexity of permit program sources under its jurisdiction; and

(iii) The size of permit program sources under its jurisdiction, as measured by the quantity of each regulated pollutant emitted by the source.

(b) Each of the three tiers shall be equally weighted.

(c) The department may, in addition, allocate activities-based costs readily attributable to a specific source to that source under RCW 70.94.152(1) and 70.94.154(7).

The quantity of each regulated pollutant emitted by a source shall be determined based on the annual emissions during the most recent calendar year for which data is available.

(6) The department shall, after opportunity for public review and comment, adopt rules that establish a process for development and review of its operating permit program fee schedule, a methodology for tracking program revenues and expenditures and, for both the department and the delegated local air authorities, a system of fiscal audits, reports, and periodic performance audits.

(a) The fee schedule development and review process shall include the following:

(i) The department shall conduct a biennial workload analysis. The department shall provide the opportunity for public review of and comment on the workload analysis. The department shall review and update its workload analysis during each biennial budget cycle, taking into account information gathered by tracking previous revenues, time, and expenditures and other information obtained through fiscal audits and performance audits.

(ii) The department shall prepare a biennial budget based upon the resource requirements identified in the workload analysis for that biennium. In preparing the budget, the department shall take into account the projected operating permit account balance at the start of the biennium. The department shall provide the opportunity for public review of and comment on the proposed budget. The department shall review and update its budget each biennium.

(iii) The department shall develop a fee schedule allocating the department's permit administration costs and its share of the development and oversight costs among the department's permit program sources using the methodology described in subsection (5) of this section. The department shall provide the opportunity for public review of and comment on the allocation methodology and fee schedule. The department shall provide procedures for administrative resolution of disputes regarding the source data on which allocation determinations are based; these procedures shall be designed such that resolution occurs prior to the completion of the allocation process. The department shall review and update its fee schedule annually.

(b) The methodology for tracking revenues and expenditures shall include the following:

(i) The department shall develop a system for tracking revenues and expenditures that provides the maximum practicable information. At a minimum, revenues from fees collected under the operating permit program shall be tracked on a source-specific basis and time and expenditures required to administer the program shall be tracked on the basis of source categories and functional categories. Each general permit will be treated as a separate source category for tracking and accounting purposes.

(ii) The department shall use the information obtained from tracking revenues, time, and expenditures to modify the workload analysis required in subsection (6)(a) of this section.

(iii) The information obtained from tracking revenues, time, and expenditures shall not provide a basis for challenge to the amount of an individual source's fee.

(iv) On or before December 1, 1996, the department shall report to the appropriate standing committees of the legislature recommendations on the administrative feasibility and benefits of source-specific tracking of time and expenditures. The report may include findings from demonstration projects wherein time and expenditures are tracked on a source-specific basis.

(c) The system of fiscal audits, reports, and periodic performance audits shall include the following:

(i) The department and the delegated local air authorities shall prepare annual reports and shall submit the reports to, respectively, the appropriate standing committees of the

legislature and the board of directors of the local air authority.

(ii) The department shall arrange for fiscal audits and routine performance audits and for periodic intensive performance audits of each permitting authority and of the department.

(7) Each local air authority requesting delegation shall, after opportunity for public review and comment, publish regulations which establish a process for development and review of its operating permit program fee schedule, and a methodology for tracking its revenues and expenditures. These regulations shall be submitted to the department for review and approval as part of the local authority's delegation request.

(8) As used in this section and in RCW 70.94.161(14), "regulated pollutant" shall have the same meaning as defined in section 502(b) of the federal clean air act as it exists on July 25, 1993, or its later enactment as adopted by reference by the director by rule.

(9) The department shall report to the appropriate standing committees of the legislature by December 1, 1995, regarding the appropriateness of the fee structures authorized under this section for those sources not subject to permit program requirements as of July 25, 1993, but which later become subject to such permit program requirements. In preparing the report, the department shall consult with representatives of such sources, local air authorities, environmental groups, and other interested parties. Fee structures as authorized under this section shall remain in effect until such time as the legislature authorizes an alternative structure following receipt of the report required by this subsection. [1993 c 252 § 6.]

70.94.163 Source categories not required to have a permit—Recommendations. The department shall prepare recommendations to reduce air emissions for source categories not generally required to have a permit under RCW 70.94.161. Such recommendations shall not require any action by the owner or operator of a source and shall be consistent with rules adopted under chapter 70.95C RCW. The recommendations shall include but not be limited to: Process changes, product substitution, equipment modifications, hazardous substance use reduction, recycling, and energy efficiency. [1991 c 199 § 304.]

Finding—1991 c 199: See note following RCW 70.94.011.

70.94.165 Gasoline recovery devices—Limitation on requiring. (1) A gasoline vapor recovery device that captures vapors during vehicle fueling may only be required at a service station, or any other gasoline dispensing facility supplying fuel to the general public, in any of the following circumstances:

(a) The facility sells in excess of six hundred thousand gallons of gasoline per year and is located in a county, any part of which is designated as nonattainment for ozone under the federal clean air act, 42 U.S.C. Sec. 7407; or

(b) The facility sells in excess of six hundred thousand gallons of gasoline per year and is located in a county where a maintenance plan has been adopted by a local air pollution control authority or the department of ecology that includes gasoline vapor recovery devices as a control strategy; or

(c) From March 30, 1996, until December 31, 1998, in any facility that sells in excess of one million two hundred thousand gallons of gasoline per year and is located in an ozone-contributing county. For purposes of this section, an ozone-contributing county means a county in which the emissions have contributed to the formation of ozone in any county where violations of federal ozone standards have been measured, and includes: Cowlitz, Island, Kitsap, Lewis, Skagit, Thurston, Wahkiakum, and Whatcom counties; or

(d) After December 31, 1998, in any facility that sells in excess of eight hundred forty thousand gallons of gasoline per year and is located in any county, no part of which is designated as nonattainment for ozone under the federal clean air act, 42 U.S.C. Sec. 7407, provided that the department of ecology determines by December 31, 1997, that the use of gasoline vapor control devices in the county is important to achieving or maintaining attainment status in any other county.

(2) This section does not preclude the department of ecology or any local air pollution authority from requiring a gasoline vapor recovery device that captures vapors during vehicle refueling as part of the regulation of sources as provided in RCW 70.94.152, 70.94.331, or 70.94.141 or where required under 42 U.S.C. Sec. 7412. [1996 c 294 § 1.]

Effective date—1996 c 294: "This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and shall take effect immediately [March 30, 1996]." [1996 c 294 § 2.]

70.94.170 Air pollution control authority control officer. Any activated authority which has adopted an ordinance, resolution, or valid rules and regulations as provided herein for the control and prevention of air pollution shall appoint a full time control officer, whose sole responsibility shall be to observe and enforce the provisions of this chapter and all orders, ordinances, resolutions, or rules and regulations of such activated authority pertaining to the control and prevention of air pollution. [1991 c 199 § 707; 1969 ex.s. c 168 § 21; 1967 c 238 § 30; 1957 c 232 § 17.]

Finding—1991 c 199: See note following RCW 70.94.011.

70.94.181 Variances—Application for—Considerations—Limitations—Renewals—Review. (1) Any person who owns or is in control of any plant, building, structure, establishment, process or equipment may apply to the department of ecology or appropriate local authority board for a variance from rules or regulations governing the quality, nature, duration or extent of discharges of air contaminants. The application shall be accompanied by such information and data as the department of ecology or board may require. The department of ecology or board may grant such variance, provided that variances to state rules shall require the department's approval prior to being issued by a local authority board. The total time period for a variance and renewal of such variance shall not exceed one year. Variances may be issued by either the department or a local board but only after public hearing or due notice, if the department or board finds that:

(a) The emissions occurring or proposed to occur do not endanger public health or safety or the environment; and

(b) Compliance with the rules or regulations from which variance is sought would produce serious hardship without equal or greater benefits to the public.

(2) No variance shall be granted pursuant to this section until the department of ecology or board has considered the relative interests of the applicant, other owners of property likely to be affected by the discharges, and the general public.

(3) Any variance or renewal thereof shall be granted within the requirements of subsection (1) of this section and under conditions consistent with the reasons therefor, and within the following limitations:

(a) If the variance is granted on the ground that there is no practicable means known or available for the adequate prevention, abatement or control of the pollution involved, it shall be only until the necessary means for prevention, abatement or control become known and available, and subject to the taking of any substitute or alternate measures that the department of ecology or board may prescribe.

(b) If the variance is granted on the ground that compliance with the particular requirement or requirements from which variance is sought will require the taking of measures which, because of their extent or cost, must be spread over a considerable period of time, it shall be for a period not to exceed such reasonable time as, in the view of the department of ecology or board is requisite for the taking of the necessary measures. A variance granted on the ground specified herein shall contain a timetable for the taking of action in an expeditious manner and shall be conditioned on adherence to such timetable.

(c) If the variance is granted on the ground that it is justified to relieve or prevent hardship of a kind other than that provided for in (a) and (b) of this subsection, it shall be for not more than one year.

(4) Any variance granted pursuant to this section may be renewed on terms and conditions and for periods which would be appropriate on initial granting of a variance. If complaint is made to the department of ecology or board on account of the variance, no renewal thereof shall be granted unless following a public hearing on the complaint on due notice the department or board finds that renewal is justified. No renewal shall be granted except on application therefor. Any such application shall be made at least sixty days prior to the expiration of the variance. Immediately upon receipt of an application for renewal, the department of ecology or board shall give public notice of such application in accordance with rules of the department of ecology or board.

(5) A variance or renewal shall not be a right of the applicant or holder thereof but shall be granted at the discretion of the department of ecology or board. However, any applicant adversely affected by the denial or the terms and conditions of the granting of an application for a variance or renewal of a variance by the department of ecology or board may obtain judicial review thereof under the provisions of chapter 34.05 RCW as now or hereafter amended.

(6) Nothing in this section and no variance or renewal granted pursuant hereto shall be construed to prevent or limit the application of the emergency provisions and procedures

of RCW 70.94.710 through 70.94.730 to any person or his or her property.

(7) An application for a variance, or for the renewal thereof, submitted to the department of ecology or board pursuant to this section shall be approved or disapproved by the department or board within sixty-five days of receipt unless the applicant and the department of ecology or board agree to a continuance.

(8) Variances approved under this section shall not be included in orders or permits provided for in RCW 70.94.161 or 70.94.152 until such time as the variance has been accepted by the United States environmental protection agency as part of an approved state implementation plan. [1991 c 199 § 306; 1983 c 3 § 176; 1974 ex.s. c 59 § 1; 1969 ex.s. c 168 § 22; 1967 c 238 § 31.]

Finding—1991 c 199: See note following RCW 70.94.011.

70.94.200 Investigation of conditions by control officer or department—Entering private, public property. For the purpose of investigating conditions specific to the control, recovery or release of air contaminants into the atmosphere, a control officer, the department, or their duly authorized representatives, shall have the power to enter at reasonable times upon any private or public property, excepting nonmultiple unit private dwellings housing two families or less. No person shall refuse entry or access to any control officer, the department, or their duly authorized representatives, who requests entry for the purpose of inspection, and who presents appropriate credentials; nor shall any person obstruct, hamper or interfere with any such inspection. [1987 c 109 § 38; 1979 c 141 § 121; 1967 c 238 § 32; 1957 c 232 § 20.]

70.94.205 Confidentiality of records and information. Whenever any records or other information, other than ambient air quality data or emission data, furnished to or obtained by the department of ecology or the board of any authority under this chapter, relate to processes or production unique to the owner or operator, or is likely to affect adversely the competitive position of such owner or operator if released to the public or to a competitor, and the owner or operator of such processes or production so certifies, such records or information shall be only for the confidential use of the department of ecology or board. Nothing herein shall be construed to prevent the use of records or information by the department of ecology or board in compiling or publishing analyses or summaries relating to the general condition of the outdoor atmosphere: PROVIDED, That such analyses or summaries do not reveal any information otherwise confidential under the provisions of this section: PROVIDED FURTHER, That emission data furnished to or obtained by the department of ecology or board shall be correlated with applicable emission limitations and other control measures and shall be available for public inspection during normal business hours at offices of the department of ecology or board. [1991 c 199 § 307; 1973 1st ex.s. c 193 § 4; 1969 ex.s. c 168 § 23; 1967 c 238 § 33.]

70.94.211 Enforcement actions by air authority—Notice to violators. At least thirty days prior to the commencement of any formal enforcement action under RCW 70.94.430 or 70.94.431 a local air authority shall cause written notice to be served upon the alleged violator or violators. The notice shall specify the provision of this chapter or the rule or regulation alleged to be violated, and the facts alleged to constitute a violation thereof, and may include an order directing that necessary corrective action be taken within a reasonable time. In lieu of an order, the board or the control officer may require that the alleged violator or violators appear before the board for a hearing. Every notice of violation shall offer to the alleged violator an opportunity to meet with the local air authority prior to the commencement of enforcement action. [1991 c 199 § 309; 1974 ex.s. c 69 § 4; 1970 ex.s. c 62 § 57; 1969 ex.s. c 168 § 24; 1967 c 238 § 34.]

70.94.230 Rules of authority supersede local rules, regulations, etc.—Exceptions. The rules and regulations hereafter adopted by an authority under the provisions of this chapter shall supersede the existing rules, regulations, resolutions and ordinances of any of the component bodies included within said authority in all matters relating to the control and enforcement of air pollution as contemplated by this chapter: PROVIDED, HOWEVER, That existing rules, regulations, resolutions and ordinances shall remain in effect until such rules, regulations, resolutions and ordinances are superseded as provided in this section: PROVIDED FURTHER, That nothing herein shall be construed to supersede any local county, or city ordinance or resolution, or any provision of the statutory or common law pertaining to nuisance; nor to affect any aspect of employer-employee relationship relating to conditions in a place of work, including without limitation, statutes, rules or regulations governing industrial health and safety standards or performance standards incorporated in zoning ordinances or resolutions of the component bodies where such standards relating to air pollution control or air quality containing requirements not less stringent than those of the authority. [1969 ex.s. c 168 § 28; 1967 c 238 § 38; 1957 c 232 § 23.]

70.94.231 Air pollution control authority—Dissolution of prior districts—Continuation of rules and regulations until superseded. Upon the date that an authority begins to exercise its powers and functions, all rules and regulations in force on such date shall remain in effect until superseded by the rules and regulations of the authority

as provided in RCW 70.94.230. [1991 c 199 § 708; 1969 ex.s. c 168 § 29; 1967 c 238 § 39.]

Finding—1991 c 199: See note following RCW 70.94.011.

70.94.240 Air pollution control advisory council.

The board of any authority may appoint an air pollution control advisory council to advise and consult with such board, and the control officer in effectuating the purposes of this chapter. The council shall consist of at least five appointed members who are residents of the authority and who are preferably skilled and experienced in the field of air pollution control, chemistry, meteorology, public health, or a related field, at least one of whom shall serve as a representative of industry and one of whom shall serve as a representative of the environmental community. The chair of the board of any such authority shall serve as ex officio member of the council and be its chair. Each member of the council shall receive from the authority per diem and travel expenses in an amount not to exceed that provided for the state board in this chapter (but not to exceed one thousand dollars per year) for each full day spent in the performance of his or her duties under this chapter. [1991 c 199 § 709; 1969 ex.s. c 168 § 30; 1967 c 238 § 41; 1957 c 232 § 24.]

Finding—1991 c 199: See note following RCW 70.94.011.

70.94.260 Dissolution of authority—Deactivation of authority. An air pollution control authority may be deactivated prior to the term provided in the original or subsequent agreement by the county or counties comprising such authority upon the adoption by the board, following a hearing held upon ten days notice, to said counties, of a resolution for dissolution or deactivation and upon the approval by the legislative authority of each county comprising the authority. In such event, the board shall proceed to wind up the affairs of the authority and pay all indebtedness thereof. Any surplus of funds shall be paid over to the counties comprising the authority in proportion to their last contribution. Upon the completion of the process of closing the affairs of the authority, the board shall by resolution entered in its minutes declare the authority deactivated and a certified copy of such resolution shall be filed with the secretary of state and the authority shall be deemed inactive. [1979 ex.s. c 30 § 12; 1969 ex.s. c 168 § 31; 1967 c 238 § 43; 1957 c 232 § 26.]

70.94.262 Withdrawal from multicounty authority.

(1) Any county that is part of a multicounty authority, pursuant to RCW 70.94.053, may withdraw from the multicounty authority after January 1, 1992, if the county wishes to provide for air quality protection and regulation by an alternate air quality authority. A withdrawing county shall:

- (a) Create its own single county authority;
- (b) Join another existing multicounty authority with which its boundaries are contiguous;
- (c) Join with one or more contiguous inactive authorities to operate as a new multicounty authority; or
- (d) Become an inactive authority and subject to regulation by the department of ecology.

(2) In order to withdraw from an existing multicounty authority, a county shall make arrangements, by interlocal

agreement, for division of assets and liabilities and the appropriate release of any and all interest in assets of the multicounty authority.

(3) In order to effectuate any of the alternate arrangements in subsection (1) of this section, the procedures of this chapter to create an air pollution control authority shall be met and the actions must be taken at least six months prior to the effective date of withdrawal. The rules of the original multicounty authority shall continue in force for the withdrawing county until such time as all conditions to create an air pollution control authority have been met.

(4) At the effective date of a county's withdrawal, the remaining counties shall reorganize and reconstitute the legislative authority pursuant to this chapter. The air pollution control regulations of the existing multicounty authority shall remain in force and effect after the reorganization.

(5) If a county elects to withdraw from an existing multicounty authority, the air pollution control regulations shall remain in effect for the withdrawing county until suspended by the adoption of rules, regulations, or ordinances adopted under one of the alternatives of subsection (1) of this section. A county shall initiate proceedings to adopt such rules, regulations, or ordinances on or before the effective date of the county's withdrawal. [1991 c 125 § 2.]

70.94.305 Powers, duties and functions of state air pollution control board, executive director thereof, transferred to department of ecology. See RCW 43.21A.060.

70.94.331 Powers and duties of department. (1) The department shall have all the powers as provided in RCW 70.94.141.

(2) The department, in addition to any other powers vested in it by law after consideration at a public hearing held in accordance with chapters 42.30 and 34.05 RCW shall:

(a) Adopt rules establishing air quality objectives and air quality standards;

(b) Adopt emission standards which shall constitute minimum emission standards throughout the state. An authority may enact more stringent emission standards, except for emission performance standards for new wood stoves and opacity levels for residential solid fuel burning devices which shall be state-wide, but in no event may less stringent standards be enacted by an authority without the prior approval of the department after public hearing and due notice to interested parties;

(c) Adopt by rule air quality standards and emission standards for the control or prohibition of emissions to the outdoor atmosphere of radionuclides, dust, fumes, mist, smoke, other particulate matter, vapor, gas, odorous substances, or any combination thereof. Such requirements may be based upon a system of classification by types of emissions or types of sources of emissions, or combinations thereof, which it determines most feasible for the purposes of this chapter. However, an industry, or the air pollution control authority having jurisdiction, can choose, subject to the submittal of appropriate data that the industry has quantified, to have any limit on the opacity of emissions

from a source whose emission standard is stated in terms of a weight of particulate per unit volume of air (e.g., grains per dry standard cubic foot) be based on the applicable particulate emission standard for that source, such that any violation of the opacity limit accurately indicates a violation of the applicable particulate emission standard. Any alternative opacity limit provided by this section that would result in increasing air contaminants emissions in any nonattainment area shall only be granted if equal or greater emission reductions are provided for by the same source obtaining the revised opacity limit. A reasonable fee may be assessed to the industry to which the alternate opacity standard would apply. The fee shall cover only those costs to the air pollution control authority which are directly related to the determination on the acceptability of the alternate opacity standard, including testing, oversight and review of data.

(3) The air quality standards and emission standards may be for the state as a whole or may vary from area to area or source to source, except that emission performance standards for new wood stoves and opacity levels for residential solid fuel burning devices shall be state-wide, as may be appropriate to facilitate the accomplishment of the objectives of this chapter and to take necessary or desirable account of varying local conditions of population concentration, the existence of actual or reasonably foreseeable air pollution, topographic and meteorologic conditions and other pertinent variables.

(4) The department is directed to cooperate with the appropriate agencies of the United States or other states or any interstate agencies or international agencies with respect to the control of air pollution and air contamination, or for the formulation for the submission to the legislature of interstate air pollution control compacts or agreements.

(5) The department is directed to conduct or cause to be conducted a continuous surveillance program to monitor the quality of the ambient atmosphere as to concentrations and movements of air contaminants and conduct or cause to be conducted a program to determine the quantity of emissions to the atmosphere.

(6) The department shall enforce the air quality standards and emission standards throughout the state except where a local authority is enforcing the state regulations or its own regulations which are more stringent than those of the state.

(7) The department shall encourage local units of government to handle air pollution problems within their respective jurisdictions; and, on a cooperative basis provide technical and consultative assistance therefor.

(8) The department shall have the power to require the addition to or deletion of a county or counties from an existing authority in order to carry out the purposes of this chapter. No such addition or deletion shall be made without the concurrence of any existing authority involved. Such action shall only be taken after a public hearing held pursuant to the provisions of chapter 34.05 RCW.

(9) The department shall establish rules requiring sources or source categories to apply reasonable and available control methods. Such rules shall apply to those sources or source categories that individually or collectively contribute the majority of state-wide air emissions of each regulated pollutant. The department shall review, and if

necessary, update its rules every five years to ensure consistency with current reasonable and available control methods. The department shall have adopted rules required under this subsection for all sources by July 1, 1996.

For the purposes of this section, "reasonable and available control methods" shall include but not be limited to, changes in technology, processes, or other control strategies. [1991 c 199 § 710; 1988 c 106 § 1. Prior: 1987 c 405 § 13; 1987 c 109 § 39; 1985 c 372 § 4; 1969 ex.s. c 168 § 34; 1967 c 238 § 46.]

70.94.332 Enforcement actions by department—Notice to violators. At least thirty days prior to the commencement of any formal enforcement action under RCW 70.94.430 and 70.94.431, the department of ecology shall cause written notice to be served upon the alleged violator or violators. The notice shall specify the provision of this chapter or the rule or regulation alleged to be violated, and the facts alleged to constitute a violation thereof, and may include an order that necessary corrective action be taken within a reasonable time. In lieu of an order, the department may require that the alleged violator or violators appear before it for the purpose of providing the department information pertaining to the violation or the charges complained of. Every notice of violation shall offer to the alleged violator an opportunity to meet with the department prior to the commencement of enforcement action. 70.94.335 Hazardous substance remedial actions—Procedural requirements not applicable. The procedural requirements of this chapter shall not apply to any person conducting a remedial action at a facility pursuant to a consent decree, order, or agreed order issued pursuant to chapter 70.105D RCW, or to the department of ecology when it conducts a remedial action under chapter 70.105D RCW. The department of ecology shall ensure compliance with the substantive requirements of this chapter through the consent decree, order, or agreed order issued pursuant to chapter 70.105D RCW, or during the department-conducted remedial action, through the procedures developed by the department pursuant to RCW 70.105D.090. 70.94.350 Contracts, agreements for use of personnel by department—Reimbursement—Merit system regulations waived. The department is authorized to contract for or otherwise agree to the use of personnel of municipal corporations or other agencies or private persons; and the department is further authorized to reimburse such

municipal corporations or agencies for the employment of such personnel. Merit system regulations or standards for the employment of personnel may be waived for personnel hired under contract as provided for in this section. The department shall provide, within available appropriations, for the scientific, technical, legal, administrative, and other necessary services and facilities for performing the functions under this chapter. 70.94.370 Powers and rights of governmental units and persons are not limited by act or recommendations. No provision of this chapter or any recommendation of the state board or of any local or regional air pollution program is a limitation:

(1) On the power of any city, town or county to declare, prohibit and abate nuisances.

(2) On the power of the secretary of social and health services to provide for the protection of the public health under any authority presently vested in that office or which may be hereafter prescribed by law.

(3) On the power of a state agency in the enforcement, or administration of any provision of law which it is specifically permitted or required to enforce or administer.

(4) On the right of any person to maintain at any time any appropriate action for relief against any air pollution. [1979 c 141 § 123; 1967 c 238 § 59; 1961 c 188 § 8.]

70.94.380 Emission control requirements. (1) Every activated authority operating an air pollution control program shall have requirements for the control of emissions which are no less stringent than those adopted by the department of ecology for the geographic area in which such air pollution control program is located. Less stringent requirements than compelled by this section may be included in a local or regional air pollution control program only after approval by the department of ecology following demonstration to the satisfaction of the department of ecology that the proposed requirements are consistent with the purposes of this chapter: PROVIDED, That such approval shall be preceded by public hearing, of which notice has been given in accordance with chapter 42.30 RCW. The department of ecology, upon receiving evidence that conditions have changed or that additional information is relevant to a decision with respect to the requirements for emission control, may, after public hearing on due notice, withdraw any approval previously given to a less stringent local or regional requirement.

[(2)] Nothing in this chapter shall be construed to prevent a local or regional air pollution control authority from adopting and enforcing more stringent emission control requirements than those adopted by the department of ecology and applicable within the jurisdiction of the local or regional air pollution control authority, except that the emission performance standards for new wood stoves and the opacity levels for residential solid fuel burning devices shall be state-wide. [1987 c 405 § 14; 1979 ex.s. c 30 § 13; 1969 ex.s. c 168 § 36; 1967 c 238 § 50.]

Severability—1987 c 405: See note following RCW 70.94.450.

70.94.385 State financial aid—Application for—Requirements. (1) Any authority may apply to the department for state financial aid. The department shall annually establish the amount of state funds available for the local authorities taking into consideration available federal and state funds. The establishment of funding amounts shall be consistent with federal requirements and local maintenance of effort necessary to carry out the provisions of this chapter. Any such aid shall be expended from the general fund or from other appropriations as the legislature may provide for this purpose: PROVIDED, That federal funds shall be utilized to the maximum unless otherwise approved by the department: PROVIDED FURTHER, That the amount of state funds provided to local authorities during the previous year shall not be reduced without a public notice or public hearing held by the department if requested by the affected local authority, unless such changes are the direct result of a reduction in the available federal funds for air pollution control programs.

(2) Before any such application is approved and financial aid is given or approved by the department, the authority shall demonstrate to the satisfaction of the department that it is fulfilling the requirements of this chapter. If the department has not adopted ambient air quality standards and objectives as permitted by RCW 70.94.331, the authority shall demonstrate to the satisfaction of the department that it is acting in good faith and doing all that is possible and reasonable to control and prevent air pollution within its jurisdictional boundaries and to carry out the purposes of this chapter.

(3) The department shall adopt rules requiring the submission of such information by each authority including the submission of its proposed budget and a description of its program in support of the application for state financial aid as necessary to enable the department to determine the need for state aid. [1991 c 199 § 712; 1987 c 109 § 41; 1969 ex.s. c 168 § 37; 1967 c 238 § 51.]

Finding—1991 c 199: See note following RCW 70.94.011.

70.94.390 Hearing upon activation of authority—Finding—Assumption of jurisdiction by department—Expenses. The department may, at any time and on its own motion, hold a hearing to determine if the activation of an authority is necessary for the prevention, abatement and control of air pollution which exists or is likely to exist in any area of the state. Notice of such hearing shall be conducted in accordance with chapter 42.30 RCW and chapter 34.05 RCW. If at such hearing the department finds that air pollution exists or is likely to occur in a particular area, and that the purposes of this chapter and the public interest will be best served by the activation of an authority it shall designate the boundaries of such area and set forth in a report to the appropriate county or counties recommendations for the activation of an authority: PROVIDED, That if at such hearing the department determines that the activation of an authority is not practical or feasible for the reason that a local or regional air pollution control program cannot be successfully established or operated due to unusual circumstances and conditions, but that the control and/or

prevention of air pollution is necessary for the purposes of this chapter and the public interest, it may assume jurisdiction and so declare by order. Such order shall designate the geographic area in which, and the effective date upon which, the department will exercise jurisdiction for the control and/or prevention of air pollution. The department shall exercise its powers and duties in the same manner as if it had assumed authority under RCW 70.94.410.

All expenses incurred by the department in the control and prevention of air pollution in any county pursuant to the provisions of RCW 70.94.390 and 70.94.410 shall constitute a claim against such county. The department shall certify the expenses to the auditor of the county, who promptly shall issue his warrant on the county treasurer payable out of the current expense fund of the county. In the event that the amount in the current expense fund of the county is not adequate to meet the expenses incurred by the department, the department shall certify to the state treasurer that they have a prior claim on any money in the "liquor excise tax fund" that is to be apportioned to that county by the state treasurer as provided in RCW 82.08.170. In the event that the amount in the "liquor excise tax fund" that is to be apportioned to that county by the state treasurer is not adequate to meet the expenses incurred by the department, the department shall certify to the state treasurer that they have a prior claim on any excess funds from the liquor revolving fund that are to be distributed to that county as provided in RCW 66.08.190 through 66.08.220. All moneys that are collected as provided in this section shall be placed in the general fund in the account of the office of air programs of the department. [1987 c 109 § 42; 1969 ex.s. c 168 § 38; 1967 c 238 § 52.]

70.94.395 Air contaminant sources—Regulation by department; authorities may be more stringent—Hearing—Standards. If the department finds, after public hearing upon due notice to all interested parties, that the emissions from a particular type or class of air contaminant source should be regulated on a state-wide basis in the public interest and for the protection of the welfare of the citizens of the state, it may adopt and enforce rules to control and/or prevent the emission of air contaminants from such source. An authority may, after public hearing and a finding by the board of a need for more stringent rules than those adopted by the department under this section, propose the adoption of such rules by the department for the control of emissions from the particular type or class of air contaminant source within the geographical area of the authority. The department shall hold a public hearing and shall adopt the proposed rules within the area of the requesting authority, unless it finds that the proposed rules are inconsistent with the rules adopted by the department under this section. When such standards are adopted by the department it shall delegate solely to the requesting authority all powers necessary for their enforcement at the request of the authority. If after public hearing the department finds that the regulation on a state-wide basis of a particular type or class of air contaminant source is no longer required for the public interest and the protection of the welfare of the citizens of the state, the department may relinquish exclusive jurisdic-

tion over such source. [1991 c 199 § 713; 1987 c 109 § 43; 1969 ex.s. c 168 § 39; 1967 c 238 § 53.]

Finding—1991 c 199: See note following RCW 70.94.011.

Purpose—Short title—Construction—Rules—Severability—Captions—1987 c 109: See notes following RCW 43.21B.001.

70.94.400 Order activating authority—Filing—Hearing—Amendment of order. If, at the end of ninety days after the department issues a report as provided for in RCW 70.94.390, to appropriate county or counties recommending the activation of an authority such county or counties have not performed those actions recommended by the department, and the department is still of the opinion that the activation of an authority is necessary for the prevention, abatement and control of air pollution which exists or is likely to exist, then the department may, at its discretion, issue an order activating an authority. Such order, a certified copy of which shall be filed with the secretary of state, shall specify the participating county or counties and the effective date by which the authority shall begin to function and exercise its powers. Any authority activated by order of the department shall choose the members of its board as provided in RCW 70.94.100 and begin to function in the same manner as if it had been activated by resolutions of the county or counties included within its boundaries. The department may, upon due notice to all interested parties, conduct a hearing in accordance with chapter 42.30 RCW and chapter 34.05 RCW within six months after the order was issued to review such order and to ascertain if such order is being carried out in good faith. At such time the department may amend any such order issued if it is determined by the department that such order is being carried out in bad faith or the department may take the appropriate action as is provided in RCW 70.94.410. [1987 c 109 § 44; 1969 ex.s. c 168 § 40; 1967 c 238 § 54.]

Purpose—Short title—Construction—Rules—Severability—Captions—1987 c 109: See notes following RCW 43.21B.001.

70.94.405 Air pollution control authority—Review by department of program. At any time after an authority has been activated for no less than one year, the department may, on its own motion, conduct a hearing held in accordance with chapters 42.30 and 34.05 RCW, to determine whether or not the air pollution prevention and control program of such authority is being carried out in good faith and is as effective as possible. If at such hearing the department finds that such authority is not carrying out its air pollution control or prevention program in good faith, is not doing all that is possible and reasonable to control and/or prevent air pollution within the geographical area over which it has jurisdiction, or is not carrying out the provisions of this chapter, it shall set forth in a report or order to the appropriate authority: (1) Its recommendations as to how air pollution prevention and/or control might be more effectively accomplished; and (2) guidelines which will assist the authority in carrying out the recommendations of the department. [1991 c 199 § 714; 1987 c 109 § 45; 1969 ex.s. c 168 § 41; 1967 c 238 § 55.]

Finding—1991 c 199: See note following RCW 70.94.011.

Purpose—Short title—Construction—Rules—Severability—Captions—1987 c 109: See notes following RCW 43.21B.001.

70.94.410 Air pollution control authority—Assumption of control by department. (1) If, after thirty days from the time that the department issues a report or order to an authority under RCW 70.94.400 and 70.94.405, such authority has not taken action which indicates that it is attempting in good faith to implement the recommendations or actions of the department as set forth in the report or order, the department may, by order, declare as null and void any or all ordinances, resolutions, rules or regulations of such authority relating to the control and/or prevention of air pollution, and at such time the department shall become the sole body with authority to make and enforce rules and regulations for the control and/or prevention of air pollution within the geographical area of such authority. If this occurs, the department may assume all those powers which are given to it by law to effectuate the purposes of this chapter. The department may, by order, continue in effect and enforce provisions of the ordinances, resolutions, or rules of such authority which are not less stringent than those requirements which the department may have found applicable to the area under RCW 70.94.331, until such time as the department adopts its own rules. Any rules promulgated by the department shall be subject to the provisions of chapter 34.05 RCW. Any enforcement actions shall be subject to RCW 43.21B.300 or 43.21B.310.

(2) No provision of this chapter is intended to prohibit any authority from reestablishing its air pollution control program which meets with the approval of the department and which complies with the purposes of this chapter and with applicable rules and orders of the department.

(3) Nothing in this chapter shall prevent the department from withdrawing the exercise of its jurisdiction over an authority upon its own motion if the department has found at a hearing held in accordance with chapters 42.30 and 34.05 RCW, that the air pollution prevention and control program of such authority will be carried out in good faith, that such program will do all that is possible and reasonable to control and/or prevent air pollution within the geographical area over which it has jurisdiction, and that the program complies with the provisions of this chapter. Upon the withdrawal of the department, the department shall prescribe certain recommendations as to how air pollution prevention and/or control is to be effectively accomplished and guidelines which will assist the authority in carrying out the recommendations of the department. [1991 c 199 § 715; 1987 c 109 § 46; 1969 ex.s. c 168 § 42; 1967 c 238 § 56.]

70.94.420 State departments and agencies to cooperate with department and authorities. It is declared to be the intent of the legislature of the state of Washington that any state department or agency having jurisdiction over any building, installation, other property, or other activity creating or likely to create significant air pollution shall cooperate with the department and with air pollution control agencies in preventing and/or controlling the pollution of the air in any area insofar as the discharge of air contaminants from or by such building, installation, other property, or activity may cause or contribute to pollution of the air in

such area. Such state department or agency shall comply with the provisions of this chapter and with any ordinance, resolution, rule or regulation issued hereunder in the same manner as any other person subject to such laws or rules. [1991 c 199 § 716; 1987 c 109 § 47; 1969 ex.s. c 168 § 44; 1967 c 238 § 58.]

Finding—1991 c 199: See note following RCW 70.94.011.

70.94.422 Department of health powers regarding radionuclides—Energy facility site evaluation council authority over permit program sources. (1) The department of health shall have all the enforcement powers as provided in RCW 70.94.332, 70.94.425, 70.94.430, 70.94.431 (1) through (7), and 70.94.435 with respect to emissions of radionuclides. This section does not preclude the department of ecology from exercising its authority under this chapter.

(2) Permits for energy facilities subject to chapter 80.50 RCW shall be issued by the energy facility site evaluation council. However, the permits become effective only if the governor approves an application for certification and executes a certification agreement under chapter 80.50 RCW. The council shall have all powers necessary to administer an operating permits program pertaining to such facilities, consistent with applicable air quality standards established by the department or local air pollution control authorities, or both, and to obtain the approval of the United States environmental protection agency. The council's powers include, but are not limited to, all of the enforcement powers provided in RCW 70.94.332, 70.94.425, 70.94.430, 70.94.431 (1) through (7), and 70.94.435 with respect to permit program sources required to obtain certification from the council under chapter 80.50 RCW. To the extent not covered under RCW 80.50.071, the council may collect fees as granted to delegated local air authorities under RCW 70.94.152, 70.94.161 (14) and (15), 70.94.162, and 70.94.154(7) with respect to permit program sources required to obtain certification from the council under chapter 80.50 RCW. The council and the department shall each establish procedures that provide maximum coordination and avoid duplication between the two agencies in carrying out the requirements of this chapter. [1993 c 252 § 7.]

70.94.425 Restraining orders—Injunctions. Notwithstanding the existence or use of any other remedy, whenever any person has engaged in, or is about to engage in, any acts or practices which constitute or will constitute a violation of any provision of this chapter, or any rule, regulation or order issued thereunder, the governing body or board or the department, after notice to such person and an opportunity to comply, may petition the superior court of the county wherein the violation is alleged to be occurring or to have occurred for a restraining order or a temporary or permanent injunction or another appropriate order. [1987 c 109 § 48; 1967 c 238 § 60.]

Purpose—Short title—Construction—Rules—Severability—Captions—1987 c 109: See notes following RCW 43.21B.001.

70.94.430 Penalties. (1) Any person who knowingly violates any of the provisions of chapter 70.94 or 70.120 RCW, or any ordinance, resolution, or regulation in force pursuant thereto shall be guilty of a crime and upon conviction thereof shall be punished by a fine of not more than ten thousand dollars, or by imprisonment in the county jail for not more than one year, or by both for each separate violation.

(2) Any person who negligently releases into the ambient air any substance listed by the department of ecology as a hazardous air pollutant, other than in compliance with the terms of an applicable permit or emission limit, and who at the time negligently places another person in imminent danger of death or substantial bodily harm shall be guilty of a crime and shall, upon conviction, be punished by a fine of not more than ten thousand dollars, or by imprisonment for not more than one year, or both.

(3) Any person who knowingly releases into the ambient air any substance listed by the department of ecology as a hazardous air pollutant, other than in compliance with the terms of an applicable permit or emission limit, and who knows at the time that he or she thereby places another person in imminent danger of death or substantial bodily harm, shall be guilty of a crime and shall, upon conviction, be punished by a fine of not less than fifty thousand dollars, or by imprisonment for not more than five years, or both.

(4) Any person who knowingly fails to disclose a potential conflict of interest under RCW 70.94.100 shall be guilty of a gross misdemeanor, and upon conviction thereof shall be punished by a fine or not more than five thousand dollars. [1991 c 199 § 310; 1984 c 255 § 1; 1973 1st ex.s. c 176 § 1; 1967 c 238 § 61.]

Finding—1991 c 199: See note following RCW 70.94.011.

70.94.431 Civil penalties—Excusable excess emissions. (1) Except as provided in RCW 43.05.060 through 43.05.080 and 43.05.150, and in addition to or as an alternate to any other penalty provided by law, any person who violates any of the provisions of chapter 70.94 RCW, chapter 70.120 RCW, or any of the rules in force under such chapters may incur a civil penalty in an amount not to exceed ten thousand dollars per day for each violation. Each such violation shall be a separate and distinct offense, and in case of a continuing violation, each day's continuance shall be a separate and distinct violation.

Any person who fails to take action as specified by an order issued pursuant to this chapter shall be liable for a civil penalty of not more than ten thousand dollars for each day of continued noncompliance.

(2) Penalties incurred but not paid shall accrue interest, beginning on the ninety-first day following the date that the penalty becomes due and payable, at the highest rate allowed by RCW 19.52.020 on the date that the penalty becomes due and payable. If violations or penalties are appealed, interest shall not begin to accrue until the thirty-first day following final resolution of the appeal.

The maximum penalty amounts established in this section may be increased annually to account for inflation as determined by the state office of the economic and revenue forecast council.

(3) Each act of commission or omission which procures, aids or abets in the violation shall be considered a violation under the provisions of this section and subject to the same penalty. The penalties provided in this section shall be imposed pursuant to RCW 43.21B.300.

(4) All penalties recovered under this section by the department shall be paid into the state treasury and credited to the air pollution control account established in RCW 70.94.015 or, if recovered by the authority, shall be paid into the treasury of the authority and credited to its funds. If a prior penalty for the same violation has been paid to a local authority, the penalty imposed by the department under subsection (1) of this section shall be reduced by the amount of the payment.

(5) To secure the penalty incurred under this section, the state or the authority shall have a lien on any vessel used or operated in violation of this chapter which shall be enforced as provided in RCW 60.36.050.

(6) Public or private entities that are recipients or potential recipients of department grants, whether for air quality related activities or not, may have such grants rescinded or withheld by the department for failure to comply with provisions of this chapter.

(7) In addition to other penalties provided by this chapter, persons knowingly under-reporting emissions or other information used to set fees, or persons required to pay emission or permit fees who are more than ninety days late with such payments may be subject to a penalty equal to three times the amount of the original fee owed.

(8) By January 1, 1992, the department shall develop rules for excusing excess emissions from enforcement action if such excess emissions are unavoidable. The rules shall specify the criteria and procedures for the department and local air authorities to determine whether a period of excess emissions is excusable in accordance with the state implementation plan. [1995 c 403 § 630; 1991 c 199 § 311; 1990 c 157 § 1; 1987 c 109 § 19; 1984 c 255 § 2; 1973 1st ex.s. c 176 § 2; 1969 ex.s. c 168 § 53.]

70.94.435 Additional means for enforcement of chapter. As an additional means of enforcing this chapter, the governing body or board may accept an assurance of discontinuance of any act or practice deemed in violation of this chapter or of any ordinance, resolution, rule or regulation adopted pursuant hereto, from any person engaging in, or who has engaged in, such act or practice. Any such assurance shall specify a time limit during which such discontinuance is to be accomplished. Failure to perform the terms of any such assurance shall constitute prima facie proof of a violation of this chapter or the ordinances, resolutions, rules or regulations, or order issued pursuant thereto, which make the alleged act or practice unlawful for the purpose of securing any injunction or other relief from the superior court as provided in RCW 70.94.425. [1967 c 238 § 62.]

70.94.440 Short title. This chapter may be known and cited as the "Washington Clean Air Act". [1967 c 238 § 63.]

70.94.445 Air pollution control facilities—Tax exemptions and credits. See chapter 82.34 RCW.

70.94.450 Wood stoves—Policy. In the interest of the public health and welfare and in keeping with the objectives of RCW 70.94.011, the legislature declares it to be the public policy of the state to control, reduce, and prevent air pollution caused by wood stove emissions. It is the state's policy to reduce wood stove emissions by encouraging the department of ecology to continue efforts to educate the public about the effects of wood stove emissions, other heating alternatives, and the desirability of achieving better emission performance and heating efficiency from wood stoves. The legislature further declares that: (1) The purchase of certified wood stoves will not solve the problem of pollution caused by wood stove emissions; and (2) the reduction of air pollution caused by wood stove emissions will only occur when wood stove users adopt proper methods of wood burning. [1987 c 405 § 1.]

Severability—1987 c 405: "If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected." [1987 c 405 § 18.]

70.94.453 Wood stoves—Definitions. Unless the context clearly requires otherwise, the definitions in this section apply throughout RCW 70.94.453 through *70.94.487:

(1) "Department" means the department of ecology.

(2) "Wood stove" means a solid fuel burning device other than a fireplace not meeting the requirements of RCW 70.94.457, including any fireplace insert, wood stove, wood burning heater, wood stick boiler, coal-fired furnace, coal stove, or similar device burning any solid fuel used for aesthetic or space-heating purposes in a private residence or commercial establishment, which has a heat input less than one million British thermal units per hour. The term "wood stove" does not include wood cook stoves.

(3) "Fireplace" means: (a) Any permanently installed masonry fireplace; or (b) any factory-built metal solid fuel burning device designed to be used with an open combustion chamber and without features to control the air to fuel ratio.

(4) "New wood stove" means: (a) A wood stove that is sold at retail, bargained, exchanged, or given away for the first time by the manufacturer, the manufacturer's dealer or agency, or a retailer; and (b) has not been so used to have become what is commonly known as "second hand" within the ordinary meaning of that term.

(5) "Solid fuel burning device" means any device for burning wood, coal, or any other nongaseous and nonliquid fuel, including a wood stove and fireplace.

(6) "Authority" means any air pollution control agency whose jurisdictional boundaries are coextensive with the boundaries of one or more counties.

(7) "Opacity" means the degree to which an object seen through a plume is obscured, stated as a percentage. The

methods approved by the department in accordance with RCW 70.94.331 shall be used to establish opacity for the purposes of this chapter. [1987 c 405 § 2.]

***Reviser's note:** RCW 70.94.487 was repealed by 1988 c 186 § 16, effective June 30, 1988.

Severability—1987 c 405: See note following RCW 70.94.450.

70.94.455 Residential and commercial construction—Burning and heating device standards. After January 1, 1992, no used solid fuel burning device shall be installed in new or existing buildings unless such device is either Oregon department of environmental quality phase II or United States environmental protection agency certified or a pellet stove either certified or exempt from certification by the United States environmental protection agency.

(1) By July 1, 1992, the state building code council shall adopt rules requiring an adequate source of heat other than wood stoves in all new and substantially remodeled residential and commercial construction. This rule shall apply (a) to areas designated by a county to be an urban growth area under chapter 36.70A RCW; and (b) to areas designated by the environmental protection agency as being in nonattainment for particulate matter.

(2) For purposes of this section, "substantially remodeled" means any alteration or restoration of a building exceeding sixty percent of the appraised value of such building within a twelve-month period. [1991 c 199 § 503.]

Finding—1991 c 199: See note following RCW 70.94.011.

70.94.457 Solid fuel burning devices—Emission performance standards. The department of ecology shall establish by rule under chapter 34.05 RCW:

(1) State-wide emission performance standards for new solid fuel burning devices. Notwithstanding any other provision of this chapter which allows an authority to adopt more stringent emission standards, no authority shall adopt any emission standard for new solid fuel burning devices other than the state-wide standard adopted by the department under this section.

(a) After January 1, 1995, no solid fuel burning device shall be offered for sale in this state to residents of this state that does not meet the following particulate air contaminant emission standards under the test methodology of the United States environmental protection agency in effect on January 1, 1991, or an equivalent standard under any test methodology adopted by the United States environmental protection agency subsequent to such date: (i) Two and one-half grams per hour for catalytic wood stoves; and (ii) four and one-half grams per hour for all other solid fuel burning devices. For purposes of this subsection, "equivalent" shall mean the emissions limits specified in this subsection multiplied by a statistically reliable conversion factor determined by the department that compares the difference between the emission test methodology established by the United States environmental protection agency prior to May 15, 1991, with the test methodology adopted subsequently by the agency. Subsection (a) of this subsection does not apply to fireplaces.

(b) After January 1, 1997, no fireplace, except masonry fireplaces, shall be offered for sale unless such fireplace meets the 1990 United States environmental protection agency standards for wood stoves or equivalent standard that

may be established by the state building code council by rule. Prior to January 1, 1997, the state building code council shall establish by rule a methodology for the testing of factory-built fireplaces. The methodology shall be designed to achieve a particulate air emission standard equivalent to the 1990 United States environmental protection agency standard for wood stoves. In developing the rules, the council shall include on the technical advisory committee at least one representative from the masonry fireplace builders and at least one representative of the factory-built fireplace manufacturers.

(c) Prior to January 1, 1997, the state building code council shall establish by rule design standards for the construction of new masonry fireplaces in Washington state. In developing the rules, the council shall include on the technical advisory committee at least one representative from the masonry fireplace builders and at least one representative of the factory-built fireplace manufacturers. It shall be the goal of the council to develop design standards that generally achieve reductions in particulate air contaminant emissions commensurate with the reductions being achieved by factory-built fireplaces at the time the standard is established.

(d) Actions of the department and local air pollution control authorities under this section shall preempt actions of other state agencies and local governments for the purposes of controlling air pollution from solid fuel burning devices, except where authorized by chapter 199, Laws of 1991.

(e) Subsection (1)(a) of this section shall not apply to fireplaces.

(f) Notwithstanding (a) of this subsection, the department is authorized to adopt, by rule, emission standards adopted by the United States environmental protection agency for new wood stoves sold at retail. For solid fuel burning devices for which the United States environmental protection agency has not established emission standards, the department may exempt or establish, by rule, state-wide standards including emission levels and test procedures for such devices and such emission levels and test procedures shall be equivalent to emission levels per pound per hour burned for other new wood stoves and fireplaces regulated under this subsection.

(2) A program to:

(a) Determine whether a new solid fuel burning device complies with the state-wide emission performance standards established in subsection (1) of this section; and

(b) Approve the sale of devices that comply with the state-wide emission performance standards. [1995 c 205 § 3; 1991 c 199 § 501; 1987 c 405 § 4.]

70.94.510 Policy to cooperate with federal government. It is declared to be the policy of the state of Washington through the department of ecology to cooperate with the federal government in order to insure the coordination of the provisions of the federal and state clean air acts, and the department is authorized and directed to implement and enforce the provisions of this chapter in carrying out this policy as follows:

(1) To accept and administer grants from the federal government for carrying out the provisions of this chapter.

(2) To take all action necessary to secure to the state the benefits of the federal clean air act. [1987 c 109 § 49; 1969 ex.s. c 168 § 45.]

Purpose—Short title—Construction—Rules—Severability—Captions—1987 c 109: See notes following RCW 43.21B.001.

70.94.521 Transportation demand management—Findings. The legislature finds that automotive traffic in Washington's metropolitan areas is the major source of emissions of air contaminants. This air pollution causes significant harm to public health, causes damage to trees, plants, structures, and materials and degrades the quality of the environment.

Increasing automotive traffic is also aggravating traffic congestion in Washington's metropolitan areas. This traffic congestion imposes significant costs on Washington's businesses, governmental agencies, and individuals in terms of lost working hours and delays in the delivery of goods and services. Traffic congestion worsens automobile-related air pollution, increases the consumption of fuel, and degrades the habitability of many of Washington's cities and suburban areas. The capital and environmental costs of fully accommodating the existing and projected automobile traffic on roads and highways are prohibitive. Decreasing the demand for vehicle trips is significantly less costly and at least as effective in reducing traffic congestion and its impacts as constructing new transportation facilities such as roads and bridges, to accommodate increased traffic volumes.

The legislature also finds that increasing automotive transportation is a major factor in increasing consumption of gasoline and, thereby, increasing reliance on imported sources of petroleum. Moderating the growth in automotive travel is essential to stabilizing and reducing dependence on imported petroleum and improving the nation's energy security.

The legislature further finds that reducing the number of commute trips to work made via single-occupant cars and light trucks is an effective way of reducing automobile-related air pollution, traffic congestion, and energy use. Major employers have significant opportunities to encourage and facilitate reducing single-occupant vehicle commuting by employees.

The intent of this chapter is to require local governments in those counties experiencing the greatest automobile-

related air pollution and traffic congestion to develop and implement plans to reduce single-occupant vehicle commute trips. Such plans shall require major employers and employers at major worksites to implement programs to reduce single-occupant vehicle commuting by employees at major worksites. Local governments in counties experiencing significant but less severe automobile-related air pollution and traffic congestion may implement such plans. State agencies shall implement programs to reduce single-occupant vehicle commuting at all major worksites throughout the state. [1991 c 202 § 10.]

70.94.524 Transportation demand management—Definitions. Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

(1) "A major employer" means a private or public employer that employs one hundred or more full-time employees at a single worksite who begin their regular work day between 6:00 a.m. and 9:00 a.m. on weekdays for at least twelve continuous months during the year.

(2) "Major worksite" means a building or group of buildings that are on physically contiguous parcels of land or on parcels separated solely by private or public roadways or rights of way, and at which there are one hundred or more full-time employees of one or more employers, who begin their regular work day between 6:00 a.m. and 9:00 a.m. on weekdays, for at least twelve continuous months.

(3) "Commute trip reduction zones" mean areas, such as census tracts or combinations of census tracts, within a jurisdiction that are characterized by similar employment density, population density, level of transit service, parking availability, access to high occupancy vehicle facilities, and other factors that are determined to affect the level of single occupancy vehicle commuting.

(4) "Commute trip" means trips made from a worker's home to a worksite during the peak period of 6:00 a.m. to 9:00 a.m. on weekdays.

(5) "Proportion of single-occupant vehicle commute trips" means the number of commute trips made by single-occupant automobiles divided by the number of full-time employees.

(6) "Commute trip vehicle miles traveled per employee" means the sum of the individual vehicle commute trip lengths in miles over a set period divided by the number of full-time employees during that period.

(7) "Base year" means the year January 1, 1992, through December 31, 1992, on which goals for vehicle miles traveled and single-occupant vehicle trips shall be based. Base year goals may be determined using the 1990 journey-to-work census data projected to the year 1992 and shall be consistent with the growth management act. The task force shall establish a method to be used by jurisdictions to determine reductions of vehicle miles traveled. [1991 c 202 § 11.]

70.94.527 Transportation demand management—Requirements for counties and cities. (1) Each county with a population over one hundred fifty thousand, and each city or town within those counties containing a major employer shall, by October 1, 1992, adopt by ordinance and implement a commute trip reduction plan for all major employers. The plan shall be developed in cooperation with local transit agencies, regional transportation planning organizations as established in RCW 47.80.020, major employers, and the owners of and employers at major worksites. The plan shall be designed to achieve reductions in the proportion of single-occupant vehicle commute trips and the commute trip vehicle miles traveled per employee by employees of major public and private sector employers in the jurisdiction.

(2) All other counties, and cities and towns in those counties, may adopt and implement a commute trip reduction plan.

(3) The department of ecology may, after consultation with the department of transportation, as part of the state implementation plan for areas that do not attain the national ambient air quality standards for carbon monoxide or ozone, require municipalities other than those identified in subsection (1) of this section to adopt and implement commute trip reduction plans if the department determines that such plans are necessary for attainment of said standards.

(4) A commute trip reduction plan shall be consistent with the guidelines established under RCW 70.94.537 and shall include but is not limited to (a) goals for reductions in the proportion of single-occupant vehicle commute trips and the commute trip vehicle miles traveled per employee; (b) designation of commute trip reduction zones; (c) requirements for major public and private sector employers to implement commute trip reduction programs; (d) a commute trip reduction program for employees of the county, city, or town; (e) a review of local parking policies and ordinances as they relate to employers and major worksites and any revisions necessary to comply with commute trip reduction goals and guidelines; (f) an appeals process by which major employers, who as a result of special characteristics of their business or its locations would be unable to meet the requirements of a commute trip reduction plan, may obtain waiver or modification of those requirements; and (g) means for determining base year values of the proportion of single-occupant vehicle commute trips and the commute trip vehicle miles traveled per employee and progress toward meeting commute trip reduction plan goals on an annual basis. Goals which are established shall take into account existing transportation demand management efforts which are made by major employers. Each jurisdiction shall ensure that employers shall receive full credit for the results of transportation demand management efforts and commute trip reduction programs which have been implemented by major employers prior to the base year. The goals for miles traveled per employee for all major employers shall not be less than a fifteen percent reduction from the base year value of the commute trip reduction zone in which their worksite is located by January 1, 1995, twenty-five percent reduction from the base year values by January 1, 1997, and thirty-five percent reduction from the base year values by January 1, 1999.

(5) A county, city, or town may, as part of its commute trip reduction plan, require commute trip reduction programs for employers with ten or more full time employees at major worksites in federally designated nonattainment areas for carbon monoxide and ozone. The county, city or town shall develop the programs in cooperation with affected employers and provide technical assistance to the employers in implementing such programs.

(6) The commute trip reduction plans adopted by counties, cities, and towns under this chapter shall be consistent with and may be incorporated in applicable state or regional transportation plans and local comprehensive plans and shall be coordinated, and consistent with, the commute trip reduction plans of counties, cities, or towns with which the county, city, or town has, in part, common borders or related regional issues. Such regional issues shall include assuring consistency in the treatment of employers who have worksites subject to the requirements of this chapter in more than one jurisdiction. Counties, cities, or towns adopting commute trip reduction plans may enter into agreements through the interlocal cooperation act or by resolution or ordinance as appropriate with other jurisdictions, local transit agencies, or regional transportation planning organizations to coordinate the development and implementation of such plans. Counties, cities, or towns adopting a commute trip reduction plan shall review it annually and revise it as necessary to be consistent with applicable plans developed under RCW 36.70A.070.

(7) Each county, city, or town implementing a commute trip reduction program shall, within thirty days submit a summary of its plan along with certification of adoption to the commute trip reduction task force established under RCW 70.94.537.

(8) Each county, city, or town implementing a commute trip reduction program shall submit an annual progress report to the commute trip reduction task force established under RCW 70.94.537. The report shall be due July 1, 1994, and each July 1 thereafter through July 1, 2000. The report shall describe progress in attaining the applicable commute trip reduction goals for each commute trip reduction zone and shall highlight any problems being encountered in achieving the goals. The information shall be reported in a form established by the commute trip reduction task force.

(9) Any waivers or modifications of the requirements of a commute trip reduction plan granted by a jurisdiction shall be submitted for review to the commute trip reduction task force established under RCW 70.94.537. The commute trip reduction task force may not deny the granting of a waiver or modification of the requirements of a commute trip reduction plan by a jurisdiction but they may notify the jurisdiction of any comments or objections.

(10) Each county, city, or town implementing a commute trip reduction program shall count commute trips eliminated through work-at-home options or alternate work schedules as one and two-tenths vehicle trips eliminated for the purpose of meeting trip reduction goals.

(11) Plans implemented under this section shall not apply to commute trips for seasonal agricultural employees.

(12) Plans implemented under this section shall not apply to construction worksites when the expected duration of the construction project is less than two years. [1996 c 186 § 513; 1991 c 202 § 12.]

70.94.534 Transportation demand management—Jurisdictions' review and penalties. (1) Each jurisdiction implementing a commute trip reduction plan under this chapter or as part of a plan or ordinance developed under RCW 36.70A.070 shall review each employer's initial commute trip reduction program to determine if the program is likely to meet the applicable commute trip reduction goals. The employer shall be notified by the jurisdiction of its findings. If the jurisdiction finds that the program is not likely to meet the applicable commute trip reduction goals, the jurisdiction will work with the employer to modify the program as necessary. The jurisdiction shall complete review of each employer's initial commute trip reduction program within three months of receipt.

(2) Each jurisdiction shall annually review each employer's progress toward meeting the applicable commute trip reduction goals. If it appears an employer is not likely to meet the applicable commute trip reduction goals, the jurisdiction shall work with the employer to make modifications to the commute trip reduction program.

(f) Three representatives from cities and towns appointed by the governor from a list of at least six recommended by the association of Washington cities;

(g) Three representatives from transit agencies appointed by the governor from a list of at least six recommended by the Washington state transit association;

(h) Six representatives of employers at or owners of major worksites in Washington appointed by the governor from a list of at least twelve recommended by the association of Washington business; and

(i) Three citizens appointed by the governor.

Members of the commute trip reduction task force shall serve without compensation but shall be reimbursed for travel expenses as provided in RCW 43.03.050 and 43.03.060. Members appointed by the governor shall be compensated in accordance with RCW 43.03.220. The task force has all powers necessary to carry out its duties as prescribed by this chapter. The task force shall be dissolved on July 1, 2000.

(2) By March 1, 1992, the commute trip reduction task force shall establish guidelines for commute trip reduction plans. The guidelines are intended to ensure consistency in commute trip reduction plans and goals among jurisdictions while fairly taking into account differences in employment and housing density, employer size, existing and anticipated levels of transit service, special employer circumstances, and other factors the task force determines to be relevant. The guidelines shall include:

(a) Criteria for establishing commute trip reduction zones;

(b) Methods and information requirements for determining base year values of the proportion of single-occupant vehicle commute trips and the commute trip vehicle miles traveled per employee and progress toward meeting commute trip reduction plan goals;

(c) Model commute trip reduction ordinances;

(d) Methods for assuring consistency in the treatment of employers who have worksites subject to the requirements of this chapter in more than one jurisdiction;

(e) An appeals process by which major employers, who as a result of special characteristics of their business or its locations would be unable to meet the requirements of a commute trip reduction plan, may obtain a waiver or modification of those requirements and criteria for determining eligibility for waiver or modification;

(f) Methods to ensure that employers shall receive full credit for the results of transportation demand management

efforts and commute trip reduction programs which have been implemented by major employers prior to the base year;

(g) Alternative commute trip reduction goals for major employers which cannot meet the goals of this chapter because of the unique nature of their business; and

(h) Alternative commute trip reduction goals for major employers whose worksites change and who contribute substantially to traffic congestion in a trip reduction zone.

(3) The task force shall assess the commute trip reduction options available to employers other than major employers and make recommendations to the legislature by October 1, 1992. The recommendations shall include the minimum size of employer who shall be required to implement trip reduction programs and the appropriate methods those employers can use to accomplish trip reduction goals.

(4) The task force shall review progress toward implementing commute trip reduction plans and programs and the costs and benefits of commute trip reduction plans and programs and shall make recommendations to the legislature by December 1, 1995, and December 1, 1999. In assessing the costs and benefits, the task force shall consider the costs of not having implemented commute trip reduction plans and programs. The task force shall examine other transportation demand management programs nationally and incorporate its findings into its recommendations to the legislature. The recommendations shall address the need for continuation, modification, or termination or any or all requirements of this chapter. The recommendations made December 1, 1995, shall include recommendations regarding extension of the requirements of this chapter to employers with fifty or more full-time employees at a single worksite who begin their regular work day between 6:00 a.m. and 9:00 a.m. on weekdays for more than twelve continuous months. [1996 c 186 § 514; 1995 c 399 § 188; 1991 c 202 § 15.]

70.94.541 Transportation demand management—Technical assistance team. (1) A technical assistance team shall be established under the direction of the department of transportation and include representatives of the department of ecology. The team shall provide staff support to the commute trip reduction task force in carrying out the requirements of RCW 70.94.537 and to the department of general administration in carrying out the requirements of RCW 70.94.551.

(2) The team shall provide technical assistance to counties, cities, and towns, the department of general administration, other state agencies, and other employers in developing and implementing commute trip reduction plans and programs. The technical assistance shall include: (a) Guidance in determining base and subsequent year values of single-occupant vehicle commuting proportion and commute trip reduction vehicle miles traveled to be used in determining progress in attaining plan goals; (b) developing model plans and programs appropriate to different situations; and (c) providing consistent training and informational materials for the implementation of commute trip reduction programs. Model plans and programs, training and informa-

tional materials shall be developed in cooperation with representatives of local governments, transit agencies, and employers.

(3) In carrying out this section the department of transportation may contract with state-wide associations representing cities, towns, and counties to assist cities, towns, and counties in implementing commute trip reduction plans and programs. [1996 c 186 § 515; 1991 c 202 § 16.]

70.94.544 Transportation demand management—Use of funds. A portion of the funds made available for the purposes of this chapter shall be used to fund the commute trip reduction task force in carrying out the responsibilities of RCW 70.94.541, and the interagency technical assistance team, including the activities authorized under RCW 70.94.541(2), and to assist counties, cities, and towns implementing commute trip reduction plans. Funds shall be provided to the counties in proportion to the number of major employers and major worksites in each county. The counties shall provide funds to cities and towns within the county which are implementing commute trip reduction plans in proportion to the number of major employers and major worksites within the city or town. [1991 c 202 § 17.]

Captions not law—Effective date—Severability—1991 c 202: See notes following RCW 47.50.010.

70.94.547 Transportation demand management—Intent—State leadership. The legislature hereby recognizes the state's crucial leadership role in establishing and implementing effective commute trip reduction programs. Therefore, it is the policy of the state that the department of general administration and other state agencies shall aggressively develop substantive programs to reduce commute trips by state employees. Implementation of these programs will reduce energy consumption, congestion in urban areas, and air and water pollution associated with automobile travel. [1991 c 202 § 18.]

Captions not law—Effective date—Severability—1991 c 202: See notes following RCW 47.50.010.

70.94.551 Transportation demand management—State agency plan. (1) The director of general administration, with the concurrence of an interagency task force established for the purposes of this section, shall coordinate a commute trip reduction plan for state agencies which are phase 1 major employers by January 1, 1993. The task force shall include representatives of the departments of transportation and ecology and such other departments as the director of general administration determines to be necessary to be generally representative of state agencies. The state agency plan shall be consistent with the requirements of RCW 70.94.527 and 70.94.531 and shall be developed in consultation with state employees, local and regional governments, local transit agencies, the business community, and other interested groups. The plan shall consider and recommend policies applicable to all state agencies including but not limited to policies regarding parking and parking charges, employee incentives for commuting by other than single-

occupant automobiles, flexible and alternative work schedules, alternative worksites, and the use of state-owned vehicles for car and van pools. The plan shall also consider the costs and benefits to state agencies of achieving commute trip reductions and consider mechanisms for funding state agency commute trip reduction programs. The department shall, within thirty days, submit a summary of its plan along with certification of adoption to the commute trip reduction task force established under RCW 70.94.537.

(2) Not more than three months after the adoption of the commute trip reduction plan, each state agency shall, for each facility which is a major employer, develop a commute trip reduction program. The program shall be designed to meet the goals of the commute trip reduction plan of the county, city, or town or, if there is no local commute trip reduction plan, the state. The program shall be consistent with the policies of the state commute trip reduction plan and RCW 70.94.531. The agency shall submit a description of that program to the local jurisdiction implementing a commute trip reduction plan or, if there is no local commute trip reduction plan, to the department of general administration. The program shall be implemented not more than three months after submission to the department. Annual reports required in RCW 70.94.531(2)(c) shall be submitted to the local jurisdiction implementing a commute trip reduction plan and to the department of general administration. An agency which is not meeting the applicable commute trip reduction goals shall, to the extent possible, modify its program to comply with the recommendations of the local jurisdiction or the department of general administration.

(3) State agencies sharing a common location may develop and implement a joint commute trip reduction program or may delegate the development and implementation of the commute trip reduction program to the department of general administration.

(4) The department of general administration in consultation with the state technical assistance team shall review the initial commute trip reduction program of each state agency subject to the commute trip reduction plan for state agencies to determine if the program is likely to meet the applicable commute trip reduction goals and notify the agency of any deficiencies. If it is found that the program is not likely to meet the applicable commute trip reduction goals, the team will work with the agency to modify the program as necessary.

(5) For each agency subject to the state agency commute trip reduction plan, the department of general administration in consultation with the technical assistance team shall annually review progress toward meeting the applicable commute trip reduction goals. If it appears an agency is not meeting or is not likely to meet the applicable commute trip reduction goals, the team shall work with the agency to make modifications to the commute trip reduction program.

(6) The department of general administration shall submit an annual progress report for state agencies subject to the state agency commute trip reduction plan to the commute trip reduction task force established under RCW 70.94.537. The report shall be due April 1, 1993, and each April 1 through 2000. The report shall report progress in attaining the applicable commute trip reduction goals for each commute trip reduction zone and shall highlight any problems being encountered in achieving the goals. The

information shall be reported in a form established by the commute trip reduction task force. [1996 c 186 § 516; 1991 c 202 § 19.]

70.94.600 Reports of authorities to department of ecology—Contents. All authorities in the state shall submit quarterly reports to the department of ecology detailing the current status of air pollution control regulations in the authority and, by county, the progress made toward bringing all sources in the authority into compliance with authority standards. [1979 ex.s. c 30 § 14; 1969 ex.s. c 168 § 52.]

70.94.610 Burning used oil fuel in land-based facilities. (1) Except as provided in subsection (2) of this section, a person may not burn used oil as fuel in a land-based facility or in state waters unless the used oil meets the following standards:

- (a) Cadmium: 2 ppm maximum
- (b) Chromium: 10 ppm maximum
- (c) Lead: 100 ppm maximum
- (d) Arsenic: 5 ppm maximum
- (e) Total halogens: 1000 ppm maximum
- (f) Polychlorinated biphenyls: 2 ppm maximum
- (g) Ash: .1 percent maximum
- (h) Sulfur: 1.0 percent maximum
- (i) Flash point: 100 degrees Fahrenheit minimum.

(2) This section shall not apply to: (a) Used oil burned in space heaters if the space heater has a maximum heat output of not greater than 0.5 million btu's per hour or used oil burned in facilities permitted by the department or a local air pollution control authority; or (b) ocean-going vessels.

(3) This section shall not apply to persons in the business of collecting used oil from residences when under authorization by a city, county, or the utilities and transportation commission. [1991 c 319 § 311.]

70.94.620 Metals mining and milling operations permits—Inspections by department of ecology. If a metals mining and milling operation is issued a permit pursuant to this chapter, then it will be subject to special inspection requirements. The department of ecology shall inspect these mining operations at least quarterly in order to ensure that the operation is in compliance with the conditions of any permit issued to it pursuant to this chapter. The department shall conduct additional inspections during the construction phase of the mining and milling operation in order to ensure compliance with this chapter. [1994 c 232 § 18.]

70.94.640 Odors caused by agricultural activities consistent with good agricultural practices exempt from chapter. (1) Odors caused by agricultural activity consistent

with good agricultural practices on agricultural land are exempt from the requirements of this chapter unless they have a substantial adverse effect on public health. In determining whether agricultural activity is consistent with good agricultural practices, the department of ecology or board of any authority shall consult with a recognized third-party expert in the activity prior to issuing any notice of violation.

(2) Any notice of violation issued under this chapter pertaining to odors caused by agricultural activity shall include a statement as to why the activity is inconsistent with good agricultural practices, or a statement that the odors have substantial adverse effect on public health.

(3) In any appeal to the pollution control hearings board or any judicial appeal, the agency issuing a final order pertaining to odors caused by agricultural activity shall prove the activity is inconsistent with good agricultural practices or that the odors have a substantial adverse impact on public health.

(4) If a person engaged in agricultural activity on a contiguous piece of agricultural land sells or has sold a portion of that land for residential purposes, the exemption of this section shall not apply.

(5) As used in this section:

(a) "Agricultural activity" means the growing, raising, or production of horticultural or viticultural crops, berries, poultry, livestock, grain, mint, hay, and dairy products.

(b) "Good agricultural practices" means economically feasible practices which are customary among or appropriate to farms and ranches of a similar nature in the local area.

(c) "Agricultural land" means at least five acres of land devoted primarily to the commercial production of livestock or agricultural commodities. [1981 c 297 § 30.]

Legislative finding, intent—1981 c 297: "The legislature finds that agricultural land is essential to providing citizens with food and fiber and to insuring aesthetic values through the preservation of open spaces in our state. The legislature further finds that government regulations can cause agricultural land to be converted to nonagricultural uses. The legislature intends that agricultural activity consistent with good practices be protected from government over-regulation." [1981 c 297 § 29.]

Reviser's note: The above legislative finding and intent section apparently applies to sections 30 and 31 of chapter 297, Laws of 1981, which sections have been codified pursuant to legislative direction as RCW 70.94.640 and 90.48.450, respectively.

Severability—1981 c 297: See note following RCW 15.36.201.

70.94.645 Ammonia emissions from use as agricultural or silvicultural fertilizer—Regulation prohibited. The department shall not regulate ammonia emissions resulting from the storage, distribution, transport, or application of ammonia for use as an agricultural or silvicultural fertilizer. [1996 c 204 § 2.]

70.94.650 Burning permits for weed abatement, fire fighting instruction, or agriculture activities—Issuance—Agricultural burning practices and research task force—Exemption for aircraft crash fire rescue training activities—Expiration of subsection. (1) Any person who proposes to set fires in the course of:

(a) Weed abatement;

(b) Instruction in methods of fire fighting, except training to fight structural fires as provided in RCW 52.12.150 or training to fight aircraft crash rescue fires as

provided in subsection (5) of this section, and except forest fire training; or

(c) Agricultural activities, shall obtain a permit from an air pollution control authority, the department of ecology, or a local entity delegated permitting authority under RCW 70.94.654. General permit criteria of state-wide applicability shall be established by the department, by rule, after consultation with the various air pollution control authorities. Permits shall be issued under this section based on seasonal operations or by individual operations, or both. All permits shall be conditioned to insure that the public interest in air, water, and land pollution and safety to life and property is fully considered. In addition to any other requirements established by the department to protect air quality pursuant to other laws, applicants for permits must show that the setting of fires as requested is the most reasonable procedure to follow in safeguarding life or property under all circumstances or is otherwise reasonably necessary to successfully carry out the enterprise in which the applicant is engaged, or both. All burning permits will be designed to minimize air pollution insofar as practical. Nothing in this section shall relieve the applicant from obtaining permits, licenses, or other approvals required by any other law. An application for a permit to set fires in the course of agricultural burning for controlling diseases, insects, weed abatement or development of physiological conditions conducive to increased crop yield, shall be acted upon within seven days from the date such application is filed. The department of ecology and local air authorities shall provide convenient methods for issuance and oversight of agricultural burning permits. The department and local air authorities shall, through agreement, work with counties and cities to provide convenient methods for granting permission for agricultural burning, including telephone, facsimile transmission, issuance from local city or county offices, or other methods. A local air authority administering the permit program under this subsection (1)(c) shall not limit the number of days of allowable agricultural burning, but may consider the time of year, meteorological conditions, and other criteria specified in rules adopted by the department to implement this subsection (1)(c).

(2) Permit fees shall be assessed for burning under this section and shall be collected by the department of ecology, the appropriate local air authority, or a local entity delegated permitting authority pursuant to RCW 70.94.654 at the time the permit is issued. All fees collected shall be deposited in the air pollution control account created in RCW 70.94.015, except for that portion of the fee necessary to cover local costs of administering a permit issued under this section. Fees shall be set by rule by the permitting agency at the level determined by the task force created by subsection (4) of this section, but shall not exceed two dollars and fifty cents per acre to be burned. After fees are established by rule, any increases in such fees shall be limited to annual inflation adjustments as determined by the state office of the economic and revenue forecast council.

(3) Conservation districts and the Washington State University agricultural extension program in conjunction with the department shall develop public education material for the agricultural community identifying the health and environmental effects of agricultural outdoor burning and

providing technical assistance in alternatives to agricultural outdoor burning.

(4) An agricultural burning practices and research task force shall be established under the direction of the department. The task force shall be composed of a representative from the department who shall serve as chair; one representative of eastern Washington local air authorities; three representatives of the agricultural community from different agricultural pursuits; one representative of the department of agriculture; two representatives from universities or colleges knowledgeable in agricultural issues; one representative of the public health or medical community; and one representative of the conservation districts. The task force shall identify best management practices for reducing air contaminant emissions from agricultural activities and provide such information to the department and local air authorities. The task force shall determine the level of fees to be assessed by the permitting agency pursuant to subsection (2) of this section, based upon the level necessary to cover the costs of administering and enforcing the permit programs, to provide funds for research into alternative methods to reduce emissions from such burning, and to the extent possible be consistent with fees charged for such burning permits in neighboring states. The fee level shall provide, to the extent possible, for lesser fees for permittees who use best management practices to minimize air contaminant emissions. The task force shall identify research needs related to minimizing emissions from agricultural burning and alternatives to such burning. Further, the task force shall make recommendations to the department on priorities for spending funds provided through this chapter for research into alternative methods to reduce emissions from agricultural burning.

(5) A permit is not required under this section, or under RCW 70.94.743 through 70.94.780, from an air pollution control authority, the department, or any local entity with delegated permit authority, for aircraft crash rescue fire training activities meeting the following conditions:

(a) Fire fighters participating in the training fires must be limited to those who provide fire fighting support to an airport that is either certified by the federal aviation administration or operated in support of military or governmental activities;

(b) The fire training may not be conducted during an air pollution episode or any stage of impaired air quality declared under RCW 70.94.715 for the area where training is to be conducted;

(c) The number of training fires allowed per year without a permit shall be the minimum number necessary to meet federal aviation administration or other federal safety requirements; and

(d) Prior to the commencement of the aircraft fire training, the organization conducting training shall notify both the: (i) Local fire district or fire department; and (ii) air pollution control authority, department of ecology, or local entity delegated permitting authority under RCW 70.94.654, having jurisdiction within the area where training is to be conducted.

Aircraft crash rescue fire training activities conducted in compliance with this subsection are not subject to the prohibition, in RCW 70.94.775(1), of outdoor fires containing petroleum products.

(6) Subsection (5) of this section shall expire on the earlier of the following dates: (a) July 1, 1998; or (b) the date upon which the North Bend fire training center is fully operational for aircraft crash rescue fire training activities. [1995 c 362 § 1; 1995 c 58 § 1; 1994 c 28 § 2; 1993 c 353 § 1; 1991 c 199 § 408; 1971 ex.s. c 232 § 1.]

Reviser's note: This section was amended by 1995 c 58 § 1 and by 1995 c 362 § 1, each without reference to the other. Both amendments are incorporated in the publication of this section pursuant to RCW 1.12.025(2). For rule of construction, see RCW 1.12.025(1).

70.94.651 Burning permits for regeneration of rare and endangered plants; Indian ceremonies. Nothing contained in this chapter shall prohibit fires necessary: (1) To promote the regeneration of rare and endangered plants found within natural area preserves as identified under chapter 79.70 RCW; and (2) for Indian ceremonies or for the sending of smoke signals if part of a religious ritual. Permits issued for burning under this section shall be drafted to minimize emissions including denial of permission to burn during periods of adverse meteorological conditions. [1991 c 199 § 407.]

Finding—1991 c 199: See note following RCW 70.94.011.

70.94.654 Delegation of permit issuance and enforcement to political subdivisions. Whenever an air pollution control authority, or the department of ecology for areas outside the jurisdictional boundaries of an activated air pollution control authority, shall find that any fire protection agency, county, or conservation district is capable of effectively administering the issuance and enforcement of permits for any or all of the kinds of burning identified in RCW 70.94.650 and desirous of doing so, the authority or the department of ecology, as appropriate, may delegate powers necessary for the issuance or enforcement, or both, of permits for any or all of the kinds of burning to the fire protection agency, county, or conservation district. Such delegation may be withdrawn by the authority or the department of ecology upon finding that the fire protection agency, county, or conservation district is not effectively administering the permit program. [1993 c 353 § 2; 1991 c 199 § 409; 1973 1st ex.s. c 193 § 6.]

Finding—1991 c 199: See note following RCW 70.94.011.

70.94.656 Open burning of grasses grown for seed—Alternatives—Studies—Deposit of permit fees in special grass seed burning account—Procedures—Limitations—Report to legislature. It is hereby declared to be the policy of this state that strong efforts should be made to minimize adverse effects on air quality from the open burning of field and turf grasses grown for seed. To such end this section is intended to promote the development of economical and practical alternate agricultural practices to such burning, and to provide for interim regulation of such burning until practical alternates are found.

(1) The department shall approve of a study or studies for the exploration and identification of economical and practical alternate agricultural practices to the open burning of field and turf grasses grown for seed. Any study conducted pursuant to this section shall be conducted by Washington

State University. The university may not charge more than eight percent for administrative overhead. Prior to the issuance of any permit for such burning under RCW 70.94.650, there shall be collected a fee not to exceed one dollar per acre of crop to be burned. Any such fees received by any authority shall be transferred to the department of ecology. The department of ecology shall deposit all such acreage fees in a special grass seed burning research account, hereby created, in the state treasury.

(2) The department shall allocate moneys annually from this account for the support of any approved study or studies as provided for in subsection (1) of this section. Whenever the department of ecology shall conclude that sufficient reasonably available alternates to open burning have been developed, and at such time as all costs of any studies have been paid, the grass seed burning research account shall be dissolved, and any money remaining therein shall revert to the general fund. The fee collected under subsection (1) of this section shall constitute the research portion of fees required under RCW 70.94.650 for open burning of grass grown for seed.

(3) Whenever on the basis of information available to it, the department after public hearings have been conducted wherein testimony will be received and considered from interested parties wishing to testify shall conclude that any procedure, program, technique, or device constitutes a practical alternate agricultural practice to the open burning of field or turf grasses grown for seed, the department shall, by order, certify approval of such alternate. Thereafter, in any case which any such approved alternate is reasonably available, the open burning of field and turf grasses grown for seed shall be disallowed and no permit shall issue therefor.

(4) Until approved alternates become available, the department or the authority may limit the number of acres on a pro rata basis among those affected for which permits to burn will be issued in order to effectively control emissions from this source.

(5) Permits issued for burning of field and turf grasses may be conditioned to minimize emissions insofar as practical, including denial of permission to burn during periods of adverse meteorological conditions.

(6) By November 1, 1996, and every two years thereafter until grass seed burning is prohibited, Washington State University shall submit to the appropriate standing committees of the legislature a brief report assessing the potential of the university's research to result in economical and practical alternatives to grass seed burning. [1995 c 261 § 1; 1991 sp.s. c 13 § 28; 1991 c 199 § 413; 1990 c 113 § 1; 1985 c 57 § 69; 1973 1st ex.s. c 193 § 7.]

70.94.660 Burning permits for abating or prevention of forest fire hazards, management of ecosystems, instruction or silvicultural operations—Issuance. (1) The department of natural resources shall have the responsibility for issuing and regulating burning permits required by it

relating to the following activities for the protection of life or property and/or for the public health, safety, and welfare:

- (a) Abating a forest fire hazard;
- (b) Prevention of a fire hazard;
- (c) Instruction of public officials in methods of forest fire fighting;
- (d) Any silvicultural operation to improve the forest lands of the state; and
- (e) Silvicultural burning used to improve or maintain fire dependent ecosystems for rare plants or animals within state, federal, and private natural area preserves, natural resource conservation areas, parks, and other wildlife areas.

(2) The department of natural resources shall not retain such authority, but it shall be the responsibility of the appropriate fire protection agency for permitting and regulating outdoor burning on lands where the department of natural resources does not have fire protection responsibility.

(3) Permit fees shall be assessed for silvicultural burning under the jurisdiction of the department of natural resources and collected by the department of natural resources as provided for in this section. All fees shall be deposited in the air pollution control account, created in RCW 70.94.015. The legislature shall appropriate to the department of natural resources funds from the air pollution control account to enforce and administer the program under RCW 70.94.665 and 70.94.660, 70.94.670, and 70.94.690. Fees shall be set by rule by the department of natural resources at the level necessary to cover the costs of the program after receiving recommendations on such fees from the public and the forest fire advisory board established by RCW 76.04.145. [1991 c 199 § 404; 1971 ex.s. c 232 § 2.]

70.94.665 Silvicultural forest burning—Reduce state-wide emissions—Exemption—Monitoring program.

(1) The department of natural resources shall administer a program to reduce state-wide emissions from silvicultural forest burning so as to achieve the following minimum objectives:

(a) Twenty percent reduction by December 31, 1994 providing a ceiling for emissions until December 31, 2000; and

(b) Fifty percent reduction by December 31, 2000 providing a ceiling for emissions thereafter.

Reductions shall be calculated from the average annual emissions level from calendar years 1985 to 1989, using the same methodology for both reduction and base year calculations.

(2) The department of natural resources, within twelve months after May 15, 1991, shall develop a plan, based upon the existing smoke management agreement to carry out the programs as described in this section in the most efficient, cost-effective manner possible. The plan shall be developed in consultation with the department of ecology, public and private landowners engaged in silvicultural forest burning, and representatives of the public.

The plan shall recognize the variations in silvicultural forest burning including, but not limited to, a landowner's responsibility to abate an extreme fire hazard under chapter

76.04 RCW and other objectives of burning, including abating and preventing a fire hazard, geographic region, climate, elevation and slope, proximity to populated areas, and diversity of land ownership. The plan shall establish priorities that the department of natural resources shall use to allocate allowable emissions, including but not limited to, silvicultural burning used to improve or maintain fire dependent ecosystems for rare plants or animals within state, federal, and private natural area preserves, natural resource conservation areas, parks, and other wildlife areas. The plan shall also recognize the real costs of the emissions program and recommend equitable fees to cover the costs of the program.

The emission reductions in this section are to apply to all forest lands including those owned and managed by the United States. If the United States does not participate in implementing the plan, the departments of natural resources and ecology shall use all appropriate and available methods or enforcement powers to ensure participation.

The plan shall include a tracking system designed to measure the degree of progress toward the emission reductions goals set in this section. The department of natural resources shall report annually to the department of ecology and the legislature on the status of the plan, emission reductions and progress toward meeting the objectives specified in this section, and the goals of this chapter and chapter 76.04 RCW.

(3) If the December 31, 1994, emission reductions targets in this section are not met, the department of natural resources, in consultation with the department of ecology, shall use its authority granted in this chapter and chapter 76.04 RCW to immediately limit emissions from such burning to the 1994 target levels and limit silvicultural forest burning in subsequent years to achieve equal annual incremental reductions so as to achieve the December 31, 2000, target level. If, as a result of the program established in this section, the emission reductions are met in 1994, but are not met by December 31, 2000, the department of natural resources in consultation with the department of ecology shall immediately limit silvicultural forest burning to reduce emissions from such burning to the December 31, 2000, target level in all subsequent years.

(4) Emissions from silvicultural burning in eastern Washington that is conducted for the purpose of restoring forest health or preventing the additional deterioration of forest health are exempt from the reduction targets and calculations in this section if the following conditions are met:

(a) The landowner submits a written request to the department identifying the location of the proposed burning and the nature of the forest health problem to be corrected. The request shall include a brief description of alternatives to silvicultural burning and reasons why the landowner believes the alternatives not to be appropriate.

(b) The department determines that the proposed silvicultural burning operation is being conducted to restore forest health or prevent additional deterioration to forest health; meets the requirements of the state smoke management plan to protect public health, visibility, and the environment; and will not be conducted during an air pollution episode or during periods of impaired air quality in the vicinity of the proposed burn.

(c) Upon approval of the request by the department and before burning, the landowner is encouraged to notify the public in the vicinity of the burn of the general location and approximate time of ignition.

(5) The department of ecology may conduct a limited, seasonal ambient air quality monitoring program to measure the effects of forest health burning conducted under subsection (4) of this section. The monitoring program may be developed in consultation with the department of natural resources, private and public forest landowners, academic experts in forest health issues, and the general public. [1995 c 143 § 1; 1991 c 199 § 403.]

Finding—1991 c 199: See note following RCW 70.94.011.

70.94.670 Burning permits for abating or prevention of forest fire hazards, management of ecosystems, instruction or silvicultural operations—Conditions for issuance and use of permits—Air quality standards to be met—Alternate methods to lessen forest debris. The department of natural resources in granting burning permits for fires for the purposes set forth in RCW 70.94.660 shall condition the issuance and use of such permits to comply with air quality standards established by the department of ecology after full consultation with the department of natural resources. Such burning shall not cause the state air quality standards to be exceeded in the ambient air up to two thousand feet above ground level over critical areas designated by the department of ecology, otherwise subject to air pollution from other sources. Air quality standards shall be established and published by the department of ecology which shall also establish a procedure for advising the department of natural resources when and where air contaminant levels exceed or threaten to exceed the ambient air standards over such critical areas. The air quality shall be quantitatively measured by the department of ecology or the appropriate local air pollution control authority at established monitoring stations over such designated areas. Further, such permitted burning shall not cause damage to public health or the environment. All permits issued under this section shall be subject to all applicable fees, permitting, penalty, and enforcement provisions of this chapter. The department of natural resources shall set forth smoke dispersal objectives designed consistent with this section to minimize any air pollution from such burning and the procedures necessary to meet those objectives.

The department of natural resources shall encourage more intense utilization in logging and alternative silviculture practices to reduce the need for burning. The department of natural resources shall, whenever practical, encourage landowners to develop and use alternative acceptable disposal methods subject to the following priorities: (1) Slash production minimization, (2) slash utilization, (3) nonburning disposal, (4) silvicultural burning. Such alternative methods shall be evaluated as to the relative impact on air, water, and land pollution, public health, and their financial feasibility.

The department of natural resources shall not issue burning permits and shall revoke previously issued permits at any time in any area where the department of ecology or local board has declared a stage of impaired air quality as

defined in RCW 70.94.473. [1991 c 199 § 405; 1971 ex.s. c 232 § 3.]

Finding—1991 c 199: See note following RCW 70.94.011.

70.94.690 Cooperation between department of natural resources and state, local, or regional air pollution authorities—Withholding of permits. In the regulation of outdoor burning not included in RCW 70.94.660 requiring permits from the department of natural resources, said department and the state, local, or regional air pollution control authorities will cooperate in regulating such burning so as to minimize insofar as possible duplicate inspections and separate permits while still accomplishing the objectives and responsibilities of the respective agencies. The department of natural resources shall include any local authority's burning regulations with permits issued where applicable pursuant to RCW *70.94.740 through 70.94.775. The department shall develop agreements with all local authorities to coordinate regulations.

Permits shall be withheld by the department of natural resources when so requested by the department of ecology if a forecast, alert, warning, or emergency condition exists as defined in the episode criteria of the department of ecology. [1991 c 199 § 406; 1971 ex.s. c 232 § 5.]

*Reviser's note: RCW 70.94.740 was repealed by 1991 c 199 § 718.

Finding—1991 c 199: See note following RCW 70.94.011.

70.94.700 Rules and regulations. The department of natural resources and the department of ecology may adopt rules and regulations necessary to implement their respective responsibilities under the provisions of RCW 70.94.650 through 70.94.700. [1971 ex.s. c 232 § 6.]

70.94.710 Air pollution episodes—Legislative finding—Declaration of policy. The legislature finds that whenever meteorological conditions occur which reduce the effective volume of air into which air contaminants are introduced, there is a high danger that normal operations at air contaminant sources in the area affected will be detrimental to public health or safety. Whenever such conditions, herein denominated as air pollution episodes, are forecast, there is a need for rapid short-term emission reduction in order to avoid adverse health or safety consequences.

Therefore, it is declared to be the policy of this state that an episode avoidance plan should be developed and implemented for the temporary reduction of emissions during air pollution episodes.

It is further declared that power should be vested in the governor to issue emergency orders for the reduction or discontinuance of emissions when such emissions and weather combine to create conditions imminently dangerous to public health and safety. [1971 ex.s. c 194 § 1.]

70.94.715 Air pollution episodes—Episode avoidance plan—Contents—Source emission reduction plans—Authority—Considered orders. The department of ecology is hereby authorized to develop an episode avoidance plan providing for the phased reduction of emissions wherever and whenever an air pollution episode is forecast. Such an episode avoidance plan shall conform with any applicable federal standards and shall be effective state-wide. The

episode avoidance plan may be implemented on an area basis in accordance with the occurrence of air pollution episodes in any given area.

The department of ecology may delegate authority to adopt source emission reduction plans and authority to implement all stages of occurrence up to and including the warning stage, and all intermediate stages up to the warning stage, in any area of the state, to the air pollution control authority with jurisdiction therein.

The episode avoidance plan, which shall be established by regulation in accordance with chapter 34.05 RCW, shall include, but not be limited to the following:

(1) The designation of episode criteria and stages, the occurrence of which will require the carrying out of pre-planned episode avoidance procedures. The stages of occurrence shall be (a) forecast, (b) alert, (c) warning, (d) emergency, and such intermediate stages as the department shall designate. "Forecast" means the presence of meteorological conditions that are conducive to accumulation of air contaminants and is the first stage of an episode. The department shall not call a forecast episode prior to the department or an authority calling a first stage impaired air quality condition as provided by RCW 70.94.473(1)(b) or calling a single-stage impaired air quality condition as provided by *RCW 70.94.473(2). "Alert" means concentration of air contaminants at levels at which short-term health effects may occur, and is the second stage of an episode. "Warning" means concentrations are continuing to degrade, contaminant concentrations have reached a level which, if maintained, can result in damage to health, and additional control actions are needed and is the third level of an episode. "Emergency" means the air quality is posing an imminent and substantial endangerment to public health and is the fourth level of an episode;

(2) The requirement that persons responsible for the operation of air contaminant sources prepare and obtain approval from the director of source emission reduction plans, consistent with good operating practice and safe operating procedures, for reducing emissions during designated episode stages;

(3) Provision for the director of the department of ecology or his authorized representative, or the air pollution control officer if implementation has been delegated, on the satisfaction of applicable criteria, to declare and terminate the forecast, alert, warning and all intermediate stages, up to the warning episode stage, such declarations constituting orders for action in accordance with applicable source emission reduction plans;

(4) Provision for the governor to declare and terminate the emergency stage and all intermediate stages above the warning episode stage, such declarations constituting orders in accordance with applicable source emission reduction plans;

(5) Provisions for enforcement by state and local police, personnel of the departments of ecology and social and health services, and personnel of local air pollution control agencies; and

(6) Provisions for reduction or discontinuance of emissions immediately, consistent with good operating practice and safe operating procedures, under an air pollution emergency as provided in RCW 70.94.720.

Source emission reduction plans shall be considered orders of the department and shall be subject to appeal to the pollution control hearings board according to the procedure in chapter 43.21B RCW. [1990 c 128 § 4; 1971 ex.s. c 194 § 2.]

*Reviser's note: RCW 70.94.473 was amended by 1995 c 205 § 1, which deleted subsection (2).

70.94.720 Air pollution episodes—Declaration of air pollution emergency by governor. Whenever the governor finds that emissions from the operation of one or more air contaminant sources is causing imminent danger to public health or safety, he may declare an air pollution emergency and may order the person or persons responsible for the operation of such air contaminant source or sources to reduce or discontinue emissions consistent with good operating practice, safe operating procedures and source emission reduction plans, if any, adopted by the department of ecology or any local air pollution control authority to which the department of ecology has delegated authority to adopt emission reduction plans. Orders authorized by this section shall be in writing and may be issued without prior notice or hearing. In the absence of the governor, any findings, declarations and orders authorized by this section may be made and issued by his authorized representative. [1971 ex.s. c 194 § 3.]

70.94.725 Air pollution episodes—Restraining orders, temporary injunctions to enforce orders—Procedure. Whenever any order has been issued pursuant to RCW 70.94.710 through 70.94.730, the attorney general, upon request from the governor, the director of the department of ecology, an authorized representative of either, or the attorney for a local air pollution control authority upon request of the control officer, shall petition the superior court of the county in which is located the air contaminant source for which such order was issued for a temporary restraining order requiring the immediate reduction or discontinuance of emissions from such source.

Upon request of the party to whom a temporary restraining order is directed, the court shall schedule a hearing thereon at its earliest convenience, at which time the court may withdraw the restraining order or grant such temporary injunction as is reasonably necessary to prevent injury to the public health or safety. [1971 ex.s. c 194 § 4.]

70.94.730 Air pollution episodes—Orders to be effective immediately. Orders issued to declare any stage of an air pollution episode avoidance plan under RCW 70.94.715, and to declare an air pollution emergency, under RCW 70.94.720, and orders to persons responsible for the operation of an air contaminant source to reduce or discontinue emissions, according to RCW 70.94.715 and 70.94.720 shall be effective immediately and shall not be stayed pending completion of review. [1971 ex.s. c 194 § 5.]

70.94.743 Outdoor burning—Areas where prohibited—Silvicultural burning. (1) Consistent with the policy of the state to reduce outdoor burning to the greatest extent practical:

(a) Outdoor burning shall not be allowed in any area of the state where federal or state ambient air quality standards are exceeded for pollutants emitted by outdoor burning.

(b) Outdoor burning shall not be allowed in any urban growth area as defined by RCW 36.70A.030, or any city of the state having a population greater than ten thousand people if such cities are threatened to exceed state or federal air quality standards, and alternative disposal practices consistent with good solid waste management are reasonably available or practices eliminating production of organic refuse are reasonably available. In no event shall such burning be allowed after December 31, 2000.

(2) "Outdoor burning" means the combustion of material of any type in an open fire or in an outdoor container without providing for the control of combustion or the control of emissions from the combustion.

(3) This section shall not apply to silvicultural burning used to improve or maintain fire dependent ecosystems for rare plants or animals within state, federal, and private natural area preserves, natural resource conservation areas, parks, and other wildlife areas. [1991 c 199 § 402.]

Finding—1991 c 199: See note following RCW 70.94.011.

70.94.745 Limited outdoor burning—Program—Exceptions. (1) It shall be the responsibility and duty of the department of natural resources, department of ecology, department of agriculture, fire districts, and local air pollution control authorities to establish, through regulations, ordinances, or policy, a limited burning permit program.

(2) The permit program shall apply to residential and land clearing burning in the following areas:

(a) In the nonurban areas of any county with an unincorporated population of greater than fifty thousand; and

(b) In any city and urban growth area that is not otherwise prohibited from burning pursuant to RCW 70.94.743.

(3) The permit program shall apply only to land clearing burning in the nonurban areas of any county with an unincorporated population of less than fifty thousand.

(4) The permit program may be limited to a general permit by rule, or by verbal, written, or electronic approval by the permitting entity.

(5) Notwithstanding any other provision of this section, neither a permit nor the payment of a fee shall be required for outdoor burning for the purpose of disposal of tumbleweeds blown by wind. Such burning shall not be conducted during an air pollution episode or any stage of impaired air quality declared under *RCW 70.94.714. This subsection (5) shall only apply within counties with a population less than two hundred fifty thousand.

(6) Burning shall be prohibited in an area when an alternate technology or method of disposing of the organic refuse is available, reasonably economical, and less harmful to the environment. It is the policy of this state to foster and encourage development of alternate methods or technology for disposing of or reducing the amount of organic refuse.

(7) Incidental agricultural burning must be allowed without applying for any permit and without the payment of any fee if:

(a) The burning is incidental to commercial agricultural activities;

(b) The operator notifies the local fire department within the area where the burning is to be conducted;

(c) The burning does not occur during an air pollution episode or any stage of impaired air quality declared under RCW 70.94.715; and

(d) Only the following items are burned:

(i) Orchard prunings;

(ii) Organic debris along fence lines or irrigation or drainage ditches; or

(iii) Organic debris blown by wind.

(8) As used in this section, "nonurban areas" are unincorporated areas within a county that is not designated as an urban growth area under chapter 36.70A RCW.

(9) Nothing in this section shall require fire districts to enforce air quality requirements related to outdoor burning, unless the fire district enters into an agreement with the department of ecology, department of natural resources, a local air pollution control authority, or other appropriate entity to provide such enforcement. [1995 c 206 § 1; 1991 c 199 § 401; 1972 ex.s. c 136 § 2.]

***Reviser's note:** The reference to RCW 70.94.714 appears erroneous. Reference to RCW 70.94.715 was apparently intended.

Finding—1991 c 199: See note following RCW 70.94.011.

70.94.750 Limited outdoor burning—Permits issued by political subdivisions—Types of fires permitted. The following outdoor fires described in this section may be burned subject to the provisions of this chapter and also subject to city ordinances, county resolutions, rules of fire districts and laws, and rules enforced by the department of natural resources if a permit has been issued by a fire protection agency, county, or conservation district:

(1) Fires consisting of leaves, clippings, prunings and other yard and gardening refuse originating on lands immediately adjacent and in close proximity to a human dwelling and burned on such lands by the property owner or his or her designee.

(2) Fires consisting of residue of a natural character such as trees, stumps, shrubbery or other natural vegetation arising from land clearing projects or agricultural pursuits for pest or disease control; provided the fires described in this subsection may be prohibited in those areas having a general population density of one thousand or more persons per square mile. [1991 c 199 § 412; 1972 ex.s. c 136 § 3.]

Finding—1991 c 199: See note following RCW 70.94.011.

70.94.755 Limited outdoor burning—Establishment of program. Each activated air pollution control authority, and the department of ecology in those areas outside the jurisdictional boundaries of an activated air pollution control authority, shall establish, through regulations, ordinances or policy, a program implementing the limited burning policy authorized by RCW *70.94.740 through 70.94.765. [1972 ex.s. c 136 § 4.]

***Reviser's note:** RCW 70.94.740 was repealed by 1991 c 199 § 718.

70.94.760 Limited outdoor burning—Construction. Nothing contained in RCW *70.94.740 through 70.94.765 is intended to alter or change the provisions of RCW 70.94.660, 70.94.710 through 70.94.730, and 76.04.205. [1986 c 100 § 55; 1972 ex.s. c 136 § 5.]

***Reviser's note:** RCW 70.94.740 was repealed by 1991 c 199 § 718.

70.94.765 Limited outdoor burning—Authority of local air pollution control authority or department of ecology to allow outdoor fires not restricted. Nothing in RCW *70.94.740 through 70.94.765 shall be construed as prohibiting a local air pollution control authority or the department of ecology in those areas outside the jurisdictional boundaries of an activated pollution control authority from allowing the burning of outdoor fires. [1972 ex.s. c 136 § 6.]

***Reviser's note:** RCW 70.94.740 was repealed by 1991 c 199 § 718.

70.94.775 Outdoor burning—Fires prohibited—Exceptions. Except as provided in RCW 70.94.650(5), no person shall cause or allow any outdoor fire:

(1) Containing garbage, dead animals, asphalt, petroleum products, paints, rubber products, plastics, or any substance other than natural vegetation that normally emits dense smoke or obnoxious odors. Agricultural heating devices that otherwise meet the requirements of this chapter shall not be considered outdoor fires under this section;

(2) During a forecast, alert, warning or emergency condition as defined in RCW 70.94.715 or impaired air quality condition as defined in RCW 70.94.473. [1995 c 362 § 2; 1991 c 199 § 410; 1974 ex.s. c 164 § 1; 1973 2nd ex.s. c 11 § 1; 1973 1st ex.s. c 193 § 9.]

Finding—1991 c 199: See note following RCW 70.94.011.

70.94.780 Outdoor burning—Permits issued by political subdivisions. In addition to any other powers granted to them by law, the fire protection agency, county, or conservation district issuing burning permits shall regulate or prohibit outdoor burning as necessary to prevent or abate the nuisances caused by such burning. No fire protection agency, county, or conservation district may issue a burning permit in an area where the department or local board has declared any stage of impaired air quality per RCW 70.94.473 or any stage of an air pollution episode. All burning permits issued shall be subject to all applicable fee, permitting, penalty, and enforcement provisions of this chapter. The permitted burning shall not cause damage to public health or the environment.

Any entity issuing a permit under this section may charge a fee at the level necessary to recover the costs of administering and enforcing the permit program. [1991 c 199 § 411; 1973 1st ex.s. c 193 § 10.]

Finding—1991 c 199: See note following RCW 70.94.011.

70.94.785 Plans approved pursuant to federal clean air act—Enforcement authority. Notwithstanding any provision of the law to the contrary, except RCW 70.94.660 through 70.94.690, the department of ecology, upon its approval of any plan (or part thereof) required or permitted under the federal clean air act, shall have the authority to enforce all regulatory provisions within such plan (or part thereof): PROVIDED, That departmental enforcement of any such provision which is within the power of an activated authority to enforce shall be initiated only, when with respect to any source, the authority is not enforcing the provisions

and then only after written notice is given the authority. [1973 1st ex.s. c 193 § 11.]

70.94.800 Legislative declaration—Intent. The legislature recognizes that:

(1) Acid deposition resulting from commercial, industrial or other emissions of sulphur dioxide and nitrogen oxides pose a threat to the delicate balance of the state's ecological systems, particularly in alpine lakes that are known to be highly sensitive to acidification;

(2) Failure to act promptly and decisively to mitigate or eliminate this danger may soon result in untold and irreparable damage to the fish, forest, wildlife, agricultural, water, and recreational resources of this state;

(3) There is a direct correlation between emissions of sulphur dioxides and nitrogen oxides and increases in acid deposition;

(4) Acidification is cumulative; and

(5) Once an environment is acidified, it is difficult, if not impossible, to restore the natural balance.

It is therefore the intent of the legislature to provide for early detection of acidification and the resulting environmental degradation through continued monitoring of acid deposition levels and trends, and major source changes, so that the legislature can take any necessary action to prevent environmental degradation resulting from acid deposition. [1985 c 456 § 1; 1984 c 277 § 1.]

70.94.805 Definitions. As used in RCW 70.94.800 through *70.94.825, the following terms have the following meanings.

(1) "Acid deposition" means wet or dry deposition from the atmosphere of chemical compounds with a pH of less than 5.6.

(2) "Critical level of acid deposition and lake, stream, and soil acidification" means the level at which irreparable damage may occur unless corrective action is taken. [1985 c 456 § 2; 1984 c 277 § 2.]

*Reviser's note: RCW 70.94.810 through 70.94.825 were repealed by 1991 c 199 § 718.

70.94.820 Monitoring by department of ecology. The department of ecology shall maintain a program of periodic monitoring of acid rain deposition and lake, stream, and soil acidification to ensure early detection of acidification and environmental degradation. [1987 c 505 § 61; 1985 c 456 § 5; 1984 c 277 § 6.]

70.94.850 Emission credits banking program—Amount of credit. The department of ecology and the local boards may implement an emission credits banking program. For the purposes of this section, an emission credits banking program means a program whereby an air contaminant source which reduces emissions of a given air contaminant by an amount greater than that required by applicable law, regulation, or order is granted credit for a given amount, which credit shall be administered by a credit bank operated by the appropriate agency. The amount of the credit shall be determined by the department or local board with jurisdiction, but it shall be less than the amount of the emissions reduction. The credit may be used, traded, sold, or other-

wise expended for purposes established by regulation of state or local agencies consistent with the provisions of the prevention of significant deterioration program under RCW 70.94.860, the bubble program under RCW 70.94.155, and the new source review program under RCW 70.94.152, if there will be no net adverse impact on air quality. [1984 c 164 § 1.]

70.94.860 Department of ecology may accept delegation of programs. The department of ecology may accept delegation of programs as provided for in the federal clean air act. Subject to federal approval, the department may, in turn, delegate such programs to the local authority with jurisdiction in a given area. [1991 c 199 § 312; 1984 c 164 § 2.]

Finding—1991 c 199: See note following RCW 70.94.011.

70.94.875 Evaluation of information on acid deposition in Pacific Northwest—Establishment of critical levels—Notification of legislature. The department of ecology, in consultation with the appropriate committees of the house of representatives and of the senate, shall:

(1) Continue evaluation of information and research on acid deposition in the Pacific Northwest region;

(2) Establish critical levels of acid deposition and lake, stream, and soil acidification; and

(3) Notify the legislature if acid deposition or lake, stream, and soil acidification reaches the levels established under subsection (2) of this section. [1991 c 199 § 313; 1985 c 456 § 3.]

Finding—1991 c 199: See note following RCW 70.94.011.

70.94.880 Establishment of critical deposition and acidification levels—Considerations. In establishing critical levels of acid deposition and lake, stream, and soil acidification, the department of ecology shall consider:

(1) Current acid deposition and lake, stream, and soil acidification levels;

(2) Changes in acid deposition and lake, stream, and soil acidification levels;

(3) Effects of acid deposition and lake, stream, and soil acidification on the environment; and

(4) The need to prevent environmental degradation. [1985 c 456 § 4.]

70.94.901 Construction—1967 c 238. This 1967 amendatory act shall not be construed to create in any way nor to enlarge, diminish or otherwise affect in any way any private rights in any civil action for damages. Any determination that there has been a violation of the provisions of this 1967 amendatory act or of any ordinance, rule, regulation or order issued pursuant thereto, shall not create by reason thereof any presumption or finding of fact or of law for use in any lawsuit brought by a private citizen. [1967 c 238 § 65.]

70.94.902 Construction, repeal of RCW 70.94.061 through 70.94.066—Saving. The following acts or parts of acts are each repealed:

(1) Section 7, chapter 238, Laws of 1967, and RCW 70.94.061;

(2) Section 8, chapter 238, Laws of 1967, and RCW 70.94.062;

(3) Section 9, chapter 238, Laws of 1967, and RCW 70.94.064; and

(4) Section 10, chapter 238, Laws of 1967, and RCW 70.94.066.

Such repeals shall not be construed as affecting any authority in existence on April 24, 1969, nor as affecting any action, activities or proceedings initiated by such authority prior hereto, nor as affecting any civil or criminal proceedings instituted by such authority, nor any rule, regulation, resolution, ordinance, or order promulgated by such authority, nor any administrative action taken by such authority, nor the term of office, or appointment or employment of any person appointed or employed by such authority. [1969 ex.s. c 168 § 46.]

70.94.904 Effective dates—1991 c 199. Sections 602 and 603 of this act shall take effect July 1, 1992. Sections 202 through 209 of this act shall take effect January 1, 1993. Sections 210 and 505 of this act shall take effect January 1, 1992.

The remainder of this act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and shall take effect immediately. [1991 c 199 § 717.]

70.94.905 Severability—1991 c 199. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected. [1991 c 199 § 719.]

70.94.906 Captions not law. Captions and headings as used in this act constitute no part of the law. [1991 c 199 § 720.]

70.94.911 Severability—1967 c 238. If any phrase, clause, subsection or section of this 1967 amendatory act shall be declared unconstitutional or invalid by any court of competent jurisdiction, it shall be conclusively presumed that the legislature would have enacted this act without the phrase, clause, subsection or section so held unconstitutional or invalid and the remainder of the act shall not be affected as a result of said part being held unconstitutional or invalid. [1967 c 238 § 64.]

70.94.950 Disincorporation of district located in county with a population of two hundred ten thousand or more and inactive for five years. See chapter 57.90 RCW.

70.94.960 Clean fuel matching grants for public transit, vehicle mechanics, and refueling infrastructure. The department may disburse matching grants from funds provided by the legislature from the air pollution control account, created in RCW 70.94.015, to units of local government to partially offset the additional cost of purchasing "clean fuel" and/or operating "clean-fuel vehicles"

provided that such vehicles are used for public transit. Publicly owned school buses are considered public transit for the purposes of this section. The department may also disburse grants to vocational-technical institutes for the purpose of establishing programs to certify clean-fuel vehicle mechanics. The department may also distribute grants to Washington State University for the purpose of furthering the establishment of clean fuel refueling infrastructure. [1996 c 186 § 517; 1991 c 199 § 218.]

Findings—Intent—Part headings not law—Effective date—1996 c 186: See notes following RCW 43.330.904.

Finding—1991 c 199: See note following RCW 70.94.011.

(2) A person who services or repairs or disposes of a motor vehicle air conditioning system; commercial or industrial air conditioning, heating, or refrigeration system; or consumer appliance shall use refrigerant extraction equipment to recover regulated refrigerant that would otherwise be released into the atmosphere. This subsection does not apply to off-road commercial equipment.

(3) Upon request, the department shall provide information and assistance to persons interested in collecting, transporting, or recycling regulated refrigerants.

(4) The willful release of regulated refrigerant from a source listed in subsection (2) of this section is prohibited. [1991 c 199 § 602.]

Finding—1991 c 199: "The legislature finds that:

(2) The technology and equipment to extract and recover chlorofluorocarbons and other ozone-depleting chemicals from air conditioners, refrigerators, and other appliances are available;

(3) A number of nonessential consumer products contain ozone-depleting chemicals; and

(4) Unnecessary releases of chlorofluorocarbons and other ozone-depleting chemicals from these sources should be eliminated." [1991 c 199 § 601.]

70.95.010 Legislative finding—Priorities—Goal.

The legislature finds:

(1) Continuing technological changes in methods of manufacture, packaging, and marketing of consumer products, together with the economic and population growth of this state, the rising affluence of its citizens, and its expanding industrial activity have created new and ever-mounting problems involving disposal of garbage, refuse, and solid waste materials resulting from domestic, agricultural, and industrial activities.

(2) Traditional methods of disposing of solid wastes in this state are no longer adequate to meet the ever-increasing problem. Improper methods and practices of handling and disposal of solid wastes pollute our land, air and water resources, blight our countryside, adversely affect land values, and damage the overall quality of our environment.

(3) Considerations of natural resource limitations, energy shortages, economics and the environment make necessary the development and implementation of solid waste recovery and/or recycling plans and programs.

(4) Waste reduction must become a fundamental strategy of solid waste management. It is therefore necessary to change manufacturing and purchasing practices and waste generation behaviors to reduce the amount of waste that becomes a governmental responsibility.

(5) Source separation of waste must become a fundamental strategy of solid waste management. Collection and handling strategies should have, as an ultimate goal, the source separation of all materials with resource value or environmental hazard.

(6)(a) It is the responsibility of every person to minimize his or her production of wastes and to separate recyclable or hazardous materials from mixed waste.

(b) It is the responsibility of state, county, and city governments to provide for a waste management infrastructure to fully implement waste reduction and source separation strategies and to process and dispose of remaining wastes in a manner that is environmentally safe and economically sound. It is further the responsibility of state, county, and city governments to monitor the cost-effectiveness and environmental safety of combusting separated waste, processing mixed waste, and recycling programs.

(c) It is the responsibility of county and city governments to assume primary responsibility for solid waste management and to develop and implement aggressive and effective waste reduction and source separation strategies.

(d) It is the responsibility of state government to ensure that local governments are providing adequate source reduction and separation opportunities and incentives to all,

including persons in both rural and urban areas, and nonresidential waste generators such as commercial, industrial, and institutional entities, recognizing the need to provide flexibility to accommodate differing population densities, distances to and availability of recycling markets, and collection and disposal costs in each community; and to provide county and city governments with adequate technical resources to accomplish this responsibility.

(7) Environmental and economic considerations in solving the state's solid waste management problems requires strong consideration by local governments of regional solutions and intergovernmental cooperation.

(8) The following priorities for the collection, handling, and management of solid waste are necessary and should be followed in descending order as applicable:

- (a) Waste reduction;
- (b) Recycling, with source separation of recyclable materials as the preferred method;
- (c) Energy recovery, incineration, or landfill of separated waste;
- (d) Energy recovery, incineration, or landfilling of mixed wastes.

(9) It is the state's goal to achieve a fifty percent recycling rate by 1995.

(10) Steps should be taken to make recycling at least as affordable and convenient to the ratepayer as mixed waste disposal.

(11) It is necessary to compile and maintain adequate data on the types and quantities of solid waste that are being generated and to monitor how the various types of solid waste are being managed.

(12) Vehicle batteries should be recycled and the disposal of vehicle batteries into landfills or incinerators should be discontinued.

(13) Excessive and nonrecyclable packaging of products should be avoided.

(14) Comprehensive education should be conducted throughout the state so that people are informed of the need to reduce, source separate, and recycle solid waste.

(15) All governmental entities in the state should set an example by implementing aggressive waste reduction and recycling programs at their workplaces and by purchasing products that are made from recycled materials and are recyclable.

(16) To ensure the safe and efficient operations of solid waste disposal facilities, it is necessary for operators and regulators of landfills and incinerators to receive training and certification.

(17) It is necessary to provide adequate funding to all levels of government so that successful waste reduction and recycling programs can be implemented.

(18) The development of stable and expanding markets for recyclable materials is critical to the long-term success of the state's recycling goals. Market development must be encouraged on a state, regional, and national basis to maximize its effectiveness. The state shall assume primary responsibility for the development of a multifaceted market development program to carry out the purposes of this act.

(19) There is an imperative need to anticipate, plan for, and accomplish effective storage, control, recovery, and recycling of discarded tires and other problem wastes with the subsequent conservation of resources and energy. [1989

c 431 § 1; 1985 c 345 § 1; 1984 c 123 § 1; 1975-'76 2nd ex.s. c 41 § 1; 1969 ex.s. c 134 § 1.]

***Reviser's note:** For codification of "this act" [1989 c 431], see Codification Tables, Volume 0.

70.95.020 Purpose. The purpose of this chapter is to establish a comprehensive state-wide program for solid waste handling, and solid waste recovery and/or recycling which will prevent land, air, and water pollution and conserve the natural, economic, and energy resources of this state. To this end it is the purpose of this chapter:

(1) To assign primary responsibility for adequate solid waste handling to local government, reserving to the state, however, those functions necessary to assure effective programs throughout the state;

(2) To provide for adequate planning for solid waste handling by local government;

(3) To provide for the adoption and enforcement of basic minimum performance standards for solid waste handling;

(4) To provide technical and financial assistance to local governments in the planning, development, and conduct of solid waste handling programs;

(5) To encourage storage, proper disposal, and recycling of discarded vehicle tires and to stimulate private recycling programs throughout the state.

It is the intent of the legislature that local governments be encouraged to use the expertise of private industry and to contract with private industry to the fullest extent possible to carry out solid waste recovery and/or recycling programs. [1985 c 345 § 2; 1975-'76 2nd ex.s. c 41 § 2; 1969 ex.s. c 134 § 2.]

Such plan may cover two or more counties.

Each city shall:

- (1) Prepare and deliver to the county auditor of the county in which it is located its plan for its own solid waste management for integration into the comprehensive county plan; or

of its intent, a city in one county may enter into an agreement with a city in an adjoining county, or with an adjoining county, or both, to prepare a joint plan for solid waste management to become part of the comprehensive plan of both counties.

After consultation with representatives of the cities and counties, the department shall establish a schedule for the development of the comprehensive plans for solid waste management. In preparing such a schedule, the department shall take into account the probable cost of such plans to the cities and counties.

Local governments shall not be required to include a hazardous waste element in their solid waste management plans. [1985 c 448 § 17; 1969 ex.s. c 134 § 8.]

(b) Any city solid waste operation within the county and the boundaries of such operation;

(c) The population density of each area serviced by a city operation or by a franchised operation within the respective jurisdictions;

(d) The projected solid waste collection needs for the respective jurisdictions for the next six years.

(6) A comprehensive waste reduction and recycling element that, in accordance with the priorities established in RCW 70.95.010, provides programs that (a) reduce the amount of waste generated, (b) provide incentives and mechanisms for source separation, and (c) establish recycling opportunities for the source separated waste.

(7) The waste reduction and recycling element shall include the following:

(a) Waste reduction strategies;

(b) Source separation strategies, including:

(i) Programs for the collection of source separated materials from residences in urban and rural areas. In urban areas, these programs shall include collection of source separated recyclable materials from single and multiple family residences, unless the department approves an alternative program, according to the criteria in the planning guidelines. Such criteria shall include: Anticipated recovery rates and levels of public participation, availability of environmentally sound disposal capacity, access to markets for recyclable materials, unreasonable cost impacts on the ratepayer over the six-year planning period, utilization of environmentally sound waste reduction and recycling technologies, and other factors as appropriate. In rural areas, these programs shall include but not be limited to drop-off boxes, buy-back centers, or a combination of both, at each solid waste transfer, processing, or disposal site, or at locations convenient to the residents of the county. The drop-off boxes and buy-back centers may be owned or operated by public, nonprofit, or private persons;

(ii) Programs to monitor the collection of source separated waste at nonresidential sites where there is sufficient density to sustain a program;

(iii) Programs to collect yard waste, if the county or city submitting the plan finds that there are adequate markets or capacity for composted yard waste within or near the service area to consume the majority of the material collected; and

(iv) Programs to educate and promote the concepts of waste reduction and recycling;

(c) Recycling strategies, including a description of markets for recyclables, a review of waste generation trends, a description of waste composition, a discussion and description of existing programs and any additional programs needed to assist public and private sector recycling, and an implementation schedule for the designation of specific materials to be collected for recycling, and for the provision of recycling collection services;

(d) Other information the county or city submitting the plan determines is necessary.

(8) An assessment of the plan's impact on the costs of solid waste collection. The assessment shall be prepared in conformance with guidelines established by the utilities and transportation commission. The commission shall cooperate with the Washington state association of counties and the association of Washington cities in establishing such guidelines.

(9) A review of potential areas that meet the criteria as outlined in RCW 70.95.165. [1991 c 298 § 3; 1989 c 431 § 3; 1984 c 123 § 5; 1971 ex.s. c 293 § 1; 1969 ex.s. c 134 § 9.]

Finding—1991 c 298: See note following RCW 70.95.030.

Certain provisions not to detract from utilities and transportation commission powers, duties, and functions: RCW 80.01.300.

70.95.092 County and city comprehensive solid waste management plans—Levels of service, reduction and recycling. Levels of service shall be defined in the waste reduction and recycling element of each local compre-

hensive solid waste management plan and shall include the services set forth in RCW 70.95.090. In determining which service level is provided to residential and nonresidential waste generators in each community, counties and cities shall develop clear criteria for designating areas as urban or rural. In designating urban areas, local governments shall consider the planning guidelines adopted by the department, total population, population density, and any applicable land use or utility service plans. [1989 c 431 § 4.]

70.95.094 County and city comprehensive solid waste management plans—Review and approval process.

(1) The department and local governments preparing plans are encouraged to work cooperatively during plan development. Each county and city preparing a comprehensive solid waste management plan shall submit a preliminary draft plan to the department for technical review. The department shall review and comment on the draft plan within one hundred twenty days of receipt. The department's comments shall state specific actions or revisions that must be completed for plan approval.

(2) Each final draft solid waste management plan shall be submitted to the department for approval. The department will limit its comments on the final draft plans to those issues identified during its review of the draft plan and any other changes made between submittal of the preliminary draft and final draft plans. Disapproval of the local comprehensive solid waste management plan shall be supported by specific findings. A final draft plan shall be deemed approved if the department does not disapprove it within forty-five days of receipt.

(3) If the department disapproves a plan or any plan amendments, the submitting entity may appeal the decision under the procedures of Part IV of chapter 34.05 RCW. An administrative law judge shall preside over the appeal. The appeal shall be limited to review of the specific findings which supported the disapproval under subsection (2) of this section. [1989 c 431 § 8.]

70.95.096 Utilities and transportation commission to review local plan's assessment of cost impacts on rates.

Upon receipt, the department shall immediately provide the utilities and transportation commission with a copy of each preliminary draft local comprehensive solid waste management plan. Within forty-five days after receiving a plan, the commission shall have reviewed the plan's assessment of solid waste collection cost impacts on rates charged by solid waste collection companies regulated under chapter 81.77 RCW and shall advise the county or city submitting the plan and the department of the probable effect of the plan's recommendations on those rates. [1989 c 431 § 12.]

70.95.100 Technical assistance for plan preparation—Guidelines—Informational materials and programs.

(1) The department or the commission, as appropriate, shall provide to counties and cities technical assistance including, but not limited to, planning guidelines, in the preparation, review, and revision of solid waste management plans required by this chapter. Guidelines prepared under this section shall be consistent with the provisions of this chapter. Guidelines for the preparation of the waste reduction and

recycling element of the comprehensive solid waste management plan shall be completed by the department by March 15, 1990. These guidelines shall provide recommendations to local government on materials to be considered for designation as recyclable materials. The state solid waste management plan prepared pursuant to RCW 70.95.260 shall be consistent with these guidelines.

(2) The department shall be responsible for development and implementation of a comprehensive state-wide public information program designed to encourage waste reduction, source separation, and recycling by the public. The department shall operate a toll free hotline to provide the public information on waste reduction and recycling.

(3) The department shall provide technical assistance to local governments in the development and dissemination of informational materials and related activities to assure recognition of unique local waste reduction and recycling programs.

(4) Local governments shall make all materials and information developed with the assistance grants provided under RCW 70.95.130 available to the department for potential use in other areas of the state. [1989 c 431 § 6; 1984 c 123 § 6; 1969 ex.s. c 134 § 10.]

70.95.110 Maintenance of plans—Review, revisions—Implementation of source separation programs.

(1) The comprehensive county solid waste management plans and any comprehensive city solid waste management plans prepared in accordance with RCW 70.95.080 shall be maintained in a current condition and reviewed and revised periodically by counties and cities as may be required by the department. Upon each review such plans shall be extended to show long-range needs for solid waste handling facilities for twenty years in the future, and a revised construction and capital acquisition program for six years in the future. Each revised solid waste management plan shall be submitted to the department.

Each plan shall be reviewed and revised within five years of July 1, 1984, and thereafter shall be reviewed, and revised if necessary according to the schedule provided in subsection (2) of this section.

(2) Cities and counties preparing solid waste management plans shall submit the waste reduction and recycling element required in RCW 70.95.090 and any revisions to other elements of its comprehensive solid waste management plan to the department no later than:

(a) July 1, 1991, for class one areas: PROVIDED, That portions relating to multiple family residences shall be submitted no later than July 1, 1992;

(b) July 1, 1992, for class two areas; and

(c) July 1, 1994, for class three areas.

Thereafter, each plan shall be reviewed and revised, if necessary, at least every five years. Nothing in chapter 431, Laws of 1989 shall prohibit local governments from submitting a plan prior to the dates listed in this subsection.

(3) The classes of areas are defined as follows:

(a) Class one areas are the counties of Spokane, Snohomish, King, Pierce, and Kitsap and all the cities therein.

(b) Class two areas are all other counties located west of the crest of the Cascade mountains and all the cities therein.

(c) Class three areas are the counties east of the crest of the Cascade mountains and all the cities therein, except for Spokane county.

(4) Cities and counties shall begin implementing the programs to collect source separated materials no later than one year following the adoption and approval of the waste reduction and recycling element and these programs shall be fully implemented within two years of approval. [1991 c 298 § 4; 1989 c 431 § 5; 1984 c 123 § 7; 1969 ex.s. c 134 § 11.]

Finding—1991 c 298: See note following RCW 70.95.030.

70.95.130 Financial aid to counties and cities. Any county may apply to the department on a form prescribed thereby for financial aid for the preparation of the comprehensive county plan for solid waste management required by RCW 70.95.080. Any city electing to prepare an independent city plan, a joint city plan, or a joint county-city plan for solid waste management for inclusion in the county comprehensive plan may apply for financial aid for such purpose through the county. Every city application for financial aid for planning shall be filed with the county auditor and shall be included as a part of the county's application for financial aid. Any city preparing an independent plan shall provide for disposal sites wholly within its jurisdiction.

The department shall allocate to the counties and cities applying for financial aid for planning, such funds as may be available pursuant to legislative appropriations or from any federal grants for such purpose.

The department shall determine priorities and allocate available funds among the counties and cities applying for aid according to criteria established by regulations of the department considering population, urban development, environmental effects of waste disposal, existing waste handling practices, and the local justification of their proposed expenditures. [1969 ex.s. c 134 § 13.]

70.95.140 Matching requirements. Counties and cities shall match their planning aid allocated by the director by an amount not less than twenty-five percent of the estimated cost of such planning. Any federal planning aid made directly to a county or city shall not be considered either a state or local contribution in determining local matching requirements. Counties and cities may meet their share of planning costs by cash and contributed services. [1969 ex.s. c 134 § 14.]

70.95.150 Contracts with counties to assure proper expenditures. Upon the allocation of planning funds as provided in RCW 70.95.130, the department shall enter into a contract with each county receiving a planning grant. The contract shall include such provisions as the director may deem necessary to assure the proper expenditure of such funds including allocations made to cities. The sum allocated to a county shall be paid to the treasurer of such county. [1969 ex.s. c 134 § 15.]

70.95.160 Local board of health regulations to implement the comprehensive plan—Section not to be construed to authorize counties to operate system. Each county, or any city, or jurisdictional board of health shall adopt regulations or ordinances governing solid waste handling implementing the comprehensive solid waste management plan covering storage, collection, transportation, treatment, utilization, processing and final disposal including but not limited to the issuance of permits and the establishment of minimum levels and types of service for any aspect of solid waste handling. County regulations or ordinances adopted regarding levels and types of service shall not apply within the limits of any city where the city has by local ordinance determined that the county shall not exercise such powers within the corporate limits of the city. Such regulations or ordinances shall assure that solid waste storage and disposal facilities are located, maintained, and operated in a manner so as properly to protect the public health, prevent air and water pollution, are consistent with the priorities established in RCW 70.95.010, and avoid the creation of nuisances. Such regulations or ordinances may be more stringent than the minimum functional standards adopted by the department. Regulations or ordinances adopted by counties, cities, or jurisdictional boards of health shall be filed with the department.

Nothing in this section shall be construed to authorize the operation of a solid waste collection system by counties. [1989 c 431 § 10; 1988 c 127 § 29; 1969 ex.s. c 134 § 16.]

70.95.163 Local health departments may contract with the department of ecology. Any jurisdictional health department and the department of ecology may enter into an agreement providing for the exercise by the department of ecology of any power that is specified in the contract and that is granted to the jurisdictional health department under this chapter. However, the jurisdictional health department shall have the approval of the legislative authority or authorities it serves before entering into any such agreement with the department of ecology. [1989 c 431 § 16.]

70.95.165 Solid waste disposal facility siting—Site review—Local solid waste advisory committees—Membership. (1) Each county or city siting a solid waste disposal facility shall review each potential site for conformance with the standards as set by the department for:

- (a) Geology;
- (b) Ground water;
- (c) Soil;
- (d) Flooding;
- (e) Surface water;
- (f) Slope;
- (g) Cover material;
- (h) Capacity;
- (i) Climatic factors;
- (j) Land use;
- (k) Toxic air emissions; and
- (l) Other factors as determined by the department.

(2) The standards in subsection (1) of this section shall be designed to use the best available technology to protect the environment and human health, and shall be revised periodically to reflect new technology and information.

(3) Each county shall establish a local solid waste advisory committee to assist in the development of programs and policies concerning solid waste handling and disposal and to review and comment upon proposed rules, policies, or ordinances prior to their adoption. Such committees shall consist of a minimum of nine members and shall represent a balance of interests including, but not limited to, citizens, public interest groups, business, the waste management industry, and local elected public officials. The members shall be appointed by the county legislative authority. A county or city shall not apply for funds from the state and local improvements revolving account, Waste Disposal Facilities, 1980, under chapter 43.99F RCW, for the preparation, update, or major amendment of a comprehensive solid waste management plan unless the plan or revision has been prepared with the active assistance and participation of a local solid waste advisory committee. [1989 c 431 § 11; 1984 c 123 § 4.]

70.95.167 Private businesses involvement in source separated materials—Local solid waste advisory committee to examine. (1) Each local solid waste advisory committee shall conduct one or more meetings for the purpose of determining how local private recycling and solid waste collection businesses may participate in the development and implementation of programs to collect source separated materials from residences, and to process and market materials collected for recycling. The meetings shall include local private recycling businesses, private solid waste collection companies operating within the jurisdiction, and the local solid waste planning agencies. The meetings shall be held during the development of the waste reduction and recycling element or no later than one year prior to the date that a jurisdiction is required [to] submit the element under RCW 70.95.110(2).

(2) The meeting requirement under subsection (1) of this section shall apply whenever a city or county develops or amends the waste reduction and recycling element required under this chapter. Jurisdictions having approved waste reduction and recycling elements or having initiated a process for the selection of a service provider as of May 21, 1991, do not have to comply with the requirements of subsection (1) of this section until the next revisions to the waste reduction and recycling element are made or required.

(3) After the waste reduction and recycling element is approved by the local legislative authority but before it is submitted to the department for approval, the local solid waste advisory committee shall hold at least one additional meeting to review the element.

(4) For the purpose of this section, "private recycling business" means any private for-profit or private not-for-profit business that engages in the processing and marketing of recyclable materials. [1991 c 319 § 402.]

Severability—Part headings not law—1991 c 319: See RCW 70.95F.900 and 70.95F.901.

70.95.170 Permit for solid waste disposal site or facilities—Required. After approval of the comprehensive solid waste plan by the department no solid waste disposal site or disposal site facilities shall be maintained, established, substantially altered, expanded, or improved until the county,

city, or other person operating such site has obtained a permit from the jurisdictional health department pursuant to the provisions of RCW 70.95.180. [1969 ex.s. c 134 § 17.]

70.95.180 Permit for solid waste disposal site or facilities—Applications, fee. (1) Applications for permits to operate new or existing solid waste disposal sites shall be on forms prescribed by the department and shall contain a description of the proposed and existing facilities and operations at the site, plans and specifications for any new or additional facilities to be constructed, and such other information as the jurisdictional health department may deem necessary in order to determine whether the site and solid waste disposal facilities located thereon will comply with local and state regulations.

(2) Upon receipt of an application for a permit to establish, alter, expand, improve, or continue in use a solid waste disposal site, the jurisdictional health department shall refer one copy of the application to the department which shall report its findings to the jurisdictional health department.

(3) The jurisdictional health department shall investigate every application as may be necessary to determine whether an existing or proposed site and facilities meet all applicable laws and regulations, and conforms with the approved comprehensive solid waste handling plan, and complies with all zoning requirements.

(4) When the jurisdictional health department finds that the permit should be issued, it shall issue such permit. Every application shall be approved or disapproved within ninety days after its receipt by the jurisdictional health department.

(5) The jurisdictional board of health may establish reasonable fees for permits and renewal of permits. All permit fees collected by the health department shall be deposited in the treasury and to the account from which the health department's operating expenses are paid. [1988 c 127 § 30; 1969 ex.s. c 134 § 18.]

70.95.185 Permit for solid waste disposal site or facilities—Review by department—Appeal of issuance—Validity of permits issued after June 7, 1984. Every permit issued by a jurisdictional health department under RCW 70.95.180 shall be reviewed by the department to ensure that the proposed site or facility conforms with:

(1) All applicable laws and regulations including the minimal functional standards for solid waste handling; and

(2) The approved comprehensive solid waste management plan.

The department shall review the permit within thirty days after the issuance of the permit by the jurisdictional health department. The department may appeal the issuance of the permit by the jurisdictional health department to the pollution control hearings board, as described in chapter 43.21B RCW, for noncompliance with subsection (1) or (2) of this section.

No permit issued pursuant to RCW 70.95.180 after June 7, 1984, shall be considered valid unless it has been reviewed by the department. [1984 c 123 § 8.]

70.95.190 Permit for solid waste disposal site or facilities—Renewal—Appeal—Validity of renewal. Every permit for a solid waste disposal site shall be renewed annually on a date to be established by the jurisdictional health department having jurisdiction of the site. Prior to renewing a permit, the health department shall conduct such inspections as it deems necessary to assure that the solid waste disposal site and facilities located on the site meet minimum functional standards of the department, applicable local regulations, and are not in conflict with the approved solid waste management plan. The department shall review and may appeal the renewal as set forth for the approval of permits in RCW 70.95.185.

A renewal issued under this section shall not be considered valid unless it has been reviewed by the department. [1984 c 123 § 9; 1969 ex.s. c 134 § 19.]

70.95.200 Permit for solid waste disposal site or facilities—Suspension. Any permit for a solid waste disposal site issued as provided herein shall be subject to suspension at any time the jurisdictional health department determines that the site or the solid waste disposal facilities located on the site are being operated in violation of this chapter, or the regulations of the department or local laws and regulations. [1969 ex.s. c 134 § 20.]

70.95.210 Hearing—Appeal. Whenever the jurisdictional health department denies a permit or suspends a permit for a solid waste disposal site, it shall, upon request of the applicant or holder of the permit, grant a hearing on such denial or suspension within thirty days after the request therefor is made. Notice of the hearing shall be given all interested parties including the county or city having jurisdiction over the site and the department. Within thirty days after the hearing, the health officer shall notify the applicant or the holder of the permit in writing of his determination and the reasons therefor. Any party aggrieved by such determination may appeal to the pollution control hearings board by filing with the hearings board a notice of appeal within thirty days after receipt of notice of the determination of the health officer. The hearings board shall hold a hearing in accordance with the provisions of the Administrative Procedure Act, chapter 34.05 RCW, as now or hereafter amended. [1987 c 109 § 21; 1969 ex.s. c 134 § 21.]

Purpose—Short title—Construction—Rules—Severability—Captions—1987 c 109: See notes following RCW 43.21B.001.

70.95.212 Solid waste collection companies—Notice of changes in tipping fees and disposal rate schedules. To provide solid waste collection companies with sufficient time to prepare and submit tariffs and rate filings for public comment and commission approval, the owner or operator of a transfer station, landfill, or facility used to burn solid waste shall provide seventy-five days' notice to solid waste collection companies of any change in tipping fees and disposal rate schedules. The notice period shall begin on the date individual notice to a collection company is delivered to the company or is postmarked.

A collection company may agree to a shorter notice period: PROVIDED, That such agreement by a company

shall not affect the notice requirements for rate filings under RCW 81.28.050.

The owner of a transfer station, landfill or facility used to burn solid waste may agree to provide companies with a longer notice period.

"Solid waste collection companies" as used in this section means the companies regulated by the commission pursuant to chapter 81.77 RCW. [1993 c 300 § 3.]

70.95.215 Landfill disposal facilities—Reserve accounts required by July 1, 1987—Exception—Rules.

(1) By July 1, 1987, each holder or applicant of a permit for a landfill disposal facility issued under this chapter shall establish a reserve account to cover the costs of closing the facility in accordance with state and federal regulations. The account shall be designed to ensure that there will be adequate revenue available by the projected date of closure. Landfill disposal facilities maintained on private property for the sole use of the entity owning the site shall not be required to establish a reserve account if, to the satisfaction of the department, they provide another form of financial assurance adequate to comply with the requirements of this section.

(2) By July 1, 1986, the department shall adopt rules under chapter 34.05 RCW to implement subsection (1) of this section. The rules shall include but not be limited to:

(a) Methods to estimate closure costs, including postclosure monitoring, pollution prevention measures, and any other procedures required under state and federal regulations;

(b) Methods to ensure that reserve accounts receive adequate funds, including:

(i) Requirements that the reserve account be generated by user fees. However, the department may waive this requirement for existing landfills if user fees would be prohibitively high;

(ii) Requirements that moneys be placed in the reserve account on a regular basis and that the reserve account be kept separate from all other accounts; and

(iii) Procedures for the department to verify that adequate sums are deposited in the reserve account; and

(c) Methods to ensure that other types of financial assurance provided in accordance with subsection (1) of this section are adequate to cover the costs of closing the facility. [1985 c 436 § 1.]

70.95.217 Waste generated outside the state—Findings. The legislature finds that:

(1) The state of Washington has responded to the increasing challenges of safe, affordable disposal of solid waste by an ambitious program of waste reduction, recycling and reuse, as well as strict standards to ensure the safe handling, transportation, and disposal of solid waste;

(2) All communities in Washington participate in these programs through locally available recycling services, increased source separation and material recovery requirements, programs for waste reduction and product reuse, and performance standards that apply to all solid waste disposal facilities in the state;

(3) New requirements for the siting and performance of disposal facilities have greatly decreased the number of such

facilities in Washington, and the state has a significant interest in ensuring adequate disposal capacity within the state;

(4) The landfilling, incineration, and other disposal of solid waste may adversely impact public health and environmental quality, and the state has a significant interest in decreasing volumes of the waste stream destined for disposal;

(5) Because of the decreasing number of disposal facilities and other reasons, solid waste is being transported greater distances, often beyond the community where generated and is increasingly being transported between states;

(6) Washington's waste management priorities and programs are a balanced approach of increased reuse, recycling and waste reduction, the strengthening of markets for recycled content products, and the safe disposal of the remaining waste stream, with the costs of these programs shared equitably by all persons generating waste in the state;

(7) Those residing in other states who generate waste destined for disposal within Washington should also share the costs of waste diversion and management of Washington's disposal facilities, so that the risks of waste disposal and the costs of mitigating those risks are shared equitably by all waste generators, regardless of their location;

(8) Because Washington state may not directly regulate waste handling, reduction, and recycling activities beyond its state boundaries, the only reasonable alternative to ensure this equitable treatment of waste being disposed within Washington is to implement a program of reviewing such activities as to waste originating outside of Washington, and to assign the additional costs, when necessary, to ensure that the waste meets standards substantially equivalent to those applicable to waste generated within the state, and, in some cases, to prohibit disposal of waste where its generation and management is not subject to standards substantially equivalent to those applicable to waste generated within the state. [1993 c 286 § 1.]

Severability—1993 c 286: "If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected." [1993 c 286 § 3.]

Effective date—1993 c 286: "This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and shall take effect immediately [May 12, 1993]." [1993 c 286 § 4.]

70.95.218 Waste generated outside the state—Solid waste disposal site facility reporting requirements—Fees.

(1) At least sixty days prior to receiving solid waste generated from outside of the state, the operator of a solid waste disposal site facility shall report to the department the types and quantities of waste to be received from an out-of-state source. The department shall develop guidelines for reporting this information. The guidelines shall provide for less than sixty days notice for shipments of waste made on a short-term or emergency basis. The requirements of this subsection shall take effect upon completion of the guidelines.

(2) Upon notice under subsection (1) of this section, the department shall identify all activities and costs necessary to ensure that solid waste generated out-of-state meets standards

relating to solid waste reduction, recycling, and management substantially equivalent to those required of solid waste generated within the state. The department may assess a fee on the out-of-state waste sufficient to recover the actual costs incurred in ensuring that the out-of-state waste meets equivalent state standards. The department may delegate, to a local health department, authority to implement the activities identified by the department under this subsection. All money received from fees imposed under this subsection shall be deposited into the solid waste management account created by RCW 70.95.800, and shall be used solely for the activities required by this section.

(3) The department may prohibit in-state disposal of solid waste generated from outside of the state, unless the generators of the waste meet: (a) Waste reduction and recycling requirements substantially equivalent to those applicable in Washington state; and (b) solid waste handling standards substantially equivalent to those applicable in Washington state.

(4) The department may adopt rules to implement this section. [1993 c 286 § 2.]

Severability—Effective date—1993 c 286: See notes following RCW 70.95.217.

70.95.220 Financial aid to jurisdictional health departments—Applications—Allocations. Any jurisdictional health department may apply to the department for financial aid for the enforcement of rules and regulations promulgated under this chapter. Such application shall contain such information, including budget and program description, as may be prescribed by regulations of the department.

After receipt of such applications the department may allocate available funds according to criteria established by regulations of the department considering population, urban development, the number of the disposal sites, and geographical area.

The sum allocated to a jurisdictional health department shall be paid to the treasury from which the operating expenses of the health department are paid, and shall be used exclusively for inspections and administrative expenses necessary to enforce applicable regulations. [1969 ex.s. c 134 § 22.]

70.95.230 Financial aid to jurisdictional health departments—Matching funds requirements. The jurisdictional health department applying for state assistance for the enforcement of this chapter shall match such aid allocated by the department in an amount not less than twenty-five percent of the total amount spent for such enforcement activity during the year. The local share of enforcement costs may be met by cash and contributed services. [1969 ex.s. c 134 § 23.]

70.95.235 Diversion of recyclable material—Penalty.
(1) No person may divert to personal use any recyclable material placed in a container as part of a recycling program, without the consent of the generator of such recyclable material or the solid waste collection company operating under the authority of a town, city, county, or the utilities and transportation commission, and no person may divert to

commercial use any recyclable material placed in a container as part of a recycling program, without the consent of the person owning or operating such container.

(2) A violation of subsection (1) of this section is a class 1 civil infraction under chapter 7.80 RCW. Each violation of this section shall be a separate infraction. [1991 c 319 § 407.]

Severability—Part headings not law—1991 c 319: See RCW 70.95F.900 and 70.95F.901.

70.95.240 Unlawful to dump or deposit solid waste without permit—Penalties. (1) After the adoption of regulations or ordinances by any county, city, or jurisdictional board of health providing for the issuance of permits as provided in RCW 70.95.160, it shall be unlawful for any person to dump or deposit or permit the dumping or depositing of any solid waste onto or under the surface of the ground or into the waters of this state except at a solid waste disposal site for which there is a valid permit. This section shall not prohibit a person from dumping or depositing solid waste resulting from his own activities onto or under the surface of ground owned or leased by him when such action does not violate statutes or ordinances, or create a nuisance.

(2)(a) It is a class 3 civil infraction as defined in RCW 7.80.120 for a person to litter in an amount less than or equal to one cubic foot.

(b) It is a class 1 civil infraction as defined in RCW 7.80.120 for a person to litter in an amount greater than one cubic foot. Unless suspended or modified by a court, the person shall also pay a litter cleanup fee of twenty-five dollars per cubic foot of litter. The court may, in addition to or in lieu of part or all of the cleanup fee, order the person to pick up and remove litter from the property, with prior permission of the legal owner or, in the case of public property, of the agency managing the property. [1993 c 292 § 3; 1969 ex.s. c 134 § 24.]

70.95A.010 Legislative declaration—Liberal construction. The legislature finds:

- (1) That environmental damage seriously endangers the public health and welfare;
- (2) That such environmental damage results from air, water, and other resources pollution and from solid waste disposal, noise and other environmental problems;
- (3) That to abate or control such environmental damage antipollution devices, equipment, and facilities must be acquired, constructed and installed;
- (4) That the tax exempt financing permitted by Section 103 of the Internal Revenue Code of 1954, as amended, and authorized by this chapter results in lower costs of installation of pollution control facilities;
- (5) That such lower costs benefit the public with no measurable cost impact;
- (6) That the method of financing provided in this chapter is in the public interest and its use serves a public purpose in (a) protecting and promoting the health and welfare of the citizens of the cities, towns, counties, and port districts and of this state by encouraging and accelerating the installation of facilities for abating or controlling and preventing environmental damage and (b) in attracting and retaining environmentally sound industry in this state which reduces unemployment and provides a more diversified tax base.
- (7) For the reasons set forth in subsection (6) of this section, the provisions of this chapter relating to port districts and all proceedings heretofore or hereafter taken by port districts pursuant thereto are, and shall be deemed to be, for industrial development as authorized by Article 8, section 8 of the Washington state Constitution.

This chapter shall be liberally construed to accomplish the intentions expressed in this section. [1975 c 6 § 1; 1973 c 132 § 2.]

- (3) "Pollution" shall mean any form of environmental pollution, including but not limited to water pollution, air pollution, land pollution, solid waste disposal, thermal pollution, radiation contamination, or noise pollution;

- (5) "Mortgage" shall mean a mortgage or a mortgage and deed of trust or other security device; and
- (6) "Department" shall mean the state department of ecology. [1973 c 132 § 3.]

70.95A.030 Municipalities—Powers. In addition to any other powers which it may now have, each municipality shall have the following powers:

- (1) To acquire, whether by construction, purchase, devise, gift or lease, or any one or more of such methods, one or more facilities which shall be located within, or partially within the municipality;
- (2) To lease, lease with option to purchase, sell or sell by installment sale, any or all of the facilities upon such terms and conditions as the governing body may deem advisable but which shall at least fully reimburse the municipality for all debt service on any bonds issued to finance the facilities and for all costs incurred by the municipality in financing and operating the facilities and as shall not conflict with the provisions of this chapter;
- (3) To issue revenue bonds for the purpose of defraying the cost of acquiring or improving any facility or facilities or refunding any bonds issued for such purpose and to secure the payment of such bonds as provided in this chapter. Revenue bonds may be issued in one or more series or issues where deemed advisable, and each such series or issue may have the same or different maturity dates, interest rates, priorities on revenues available for payment of such bonds and priorities on security available for assuring payment thereof, and such other differing terms and conditions as are deemed necessary and are not in conflict with the provisions of this chapter. [1973 c 132 § 4.]

70.95A.035 Actions by municipalities validated. All actions heretofore taken by any municipality in conformity with the provisions of this chapter and the provisions of chapter 6, Laws of 1975 hereby made applicable thereto relating to pollution control facilities, including but not limited to all bonds issued for such purposes, are hereby declared to be valid, legal and binding in all respects. [1975 c 6 § 4.]

Port districts—Pollution control facilities or other industrial development—Validation: RCW 53.08.041.

70.95A.040 Municipalities—Revenue bonds for pollution control facilities—Authorized—Construction—Sale, conditions—Form, terms. (1) All bonds issued by a municipality under the authority of this chapter shall be secured solely by revenues derived from the lease or sale of the facility. Bonds and any interest coupons issued under the authority of this chapter shall not constitute nor give rise to a pecuniary liability of the municipality or a charge against its general credit or taxing powers. Such limitation shall be plainly stated upon the face of each of such bonds. The use of the municipality's name on revenue bonds authorized hereunder shall not be construed to be the giving or lending of the municipality's financial guarantee or pledge, i.e. credit to any private person, firm, or corporation as the term credit is used in Article 8, section 7 of the Washington state Constitution.

(2) The bonds referred to in subsection (1) of this section, may (a) be executed and delivered at any time and from time to time, (b) be in such form and denominations, (c) be of such tenor, (d) be in bearer or registered form either as to principal or interest or both, as provided in RCW 39.46.030, and may provide for conversion between registered and coupon bonds of varying denominations, (e) be payable in such installments and at such time or times not exceeding forty years from their date, (f) be payable at such place or places, (g) bear interest at such rate or rates as may be determined by the governing body, payable at such place or places within or without this state and evidenced in such manner, (h) be redeemable prior to maturity, with or without premium, and (i) contain such provisions not inconsistent herewith, as shall be deemed for the best interest of the municipality and provided for in the proceedings of the governing body whereunder the bonds shall be authorized to be issued.

(3) Any bonds issued under the authority of this chapter, may be sold at public or private sale in such manner and at such time or times as may be determined by the governing body to be most advantageous. The municipality may pay all expenses, premiums and commissions which the governing body may deem necessary or advantageous in connection with the authorization, sale and issuance thereof from the proceeds of the sale of said bonds or from the revenues of the facilities.

(4) All bonds issued under the authority of this chapter, and any interest coupons applicable thereto shall be investment securities within the meaning of the uniform commercial code and shall be deemed to be issued by a political subdivision of the state.

(5) The proceeds from any bonds issued under this chapter shall be used only for purposes qualifying under Section 103(c)(4)(f) of the Internal Revenue Code of 1954, as amended.

(6) Notwithstanding subsections (2) and (3) of this section, such bonds may be issued and sold in accordance with chapter 39.46 RCW. [1983 c 167 § 174; 1975 c 6 § 3; 1973 c 132 § 5.]

Liberal construction—Severability—1983 c 167: See RCW 39.46.010 and note following.

Port districts—Pollution control facilities or other industrial development—Validation: RCW 53.08.041.

70.95A.045 Proceeds of bonds are separate trust funds—Municipal treasurer, compensation. The proceeds of any bonds heretofore or hereafter issued in conformity with the authority of this chapter, together with interest and premiums thereon, and any revenues used to pay or redeem any of such bonds, together with interest and any premiums thereon, shall be separate trust funds and used only for the purposes permitted herein and shall not be considered to be money of the municipality. The services of the treasurer of a municipality, if such treasurer is or has been used, were and are intended to be for the administrative convenience of receipt and payment of nonpublic moneys only for which reasonable compensation may be charged by such treasurer or municipality. [1975 c 6 § 2.]

Port districts—Pollution control facilities or other industrial development—Validation: RCW 53.08.041.

70.95A.050 Revenue bonds—Security—Scope—Default—Authorization proceedings. (1) The principal of and interest on any bonds issued under the authority of this chapter (a) shall be secured by a pledge of the revenues derived from the sale or lease of the facilities out of which such bonds shall be made payable, (b) may be secured by a mortgage covering all or any part of the facilities, (c) may be secured by a pledge or assignment of the lease of such facilities, or (d) may be secured by a trust agreement or such other security device as may be deemed most advantageous by the governing body.

(2) The proceedings under which the bonds are authorized to be issued under the provisions of this chapter, and any mortgage given to secure the same may contain any agreements and provisions customarily contained in instruments securing bonds, including, without limiting the generality of the foregoing, provisions respecting (a) the fixing and collection of rents for any facilities covered by such proceedings or mortgage, (b) the terms to be incorporated in the lease of such facilities, (c) the maintenance and insurance of such facilities, (d) the creation and maintenance of special funds from the revenues of such facilities, and (e) the rights and remedies available in the event of a default to the bond owners or to the trustee under a mortgage or trust agreement, all as the governing body shall deem advisable and as shall not be in conflict with the provisions of this chapter: PROVIDED, That in making any such agreements or provisions a municipality shall not have the power to obligate itself except with respect to the facilities and the application of the revenues therefrom, and shall not have the power to incur a pecuniary liability or a charge upon its general credit or against its taxing powers.

(3) The proceedings authorizing any bonds under the provisions of this chapter and any mortgage securing such bonds may provide that, in the event of a default in the payment of the principal of or the interest on such bonds or in the performance of any agreement contained in such proceedings or mortgage, such payment and performance may be enforced by mandamus or by the appointment of a receiver in equity with power to charge and collect rents and to apply the revenues from the facilities in accordance with such proceedings or the provisions of such mortgage.

(4) Any mortgage made under the provisions of this chapter, to secure bonds issued thereunder, may also provide that, in the event of a default in the payment thereof or the

violation of any agreement contained in the mortgage, the mortgage may be foreclosed and the mortgaged property sold under proceedings in equity or in any other manner now or hereafter permitted by law. Such mortgage may also provide that any trustee under such mortgage or the owner of any of the bonds secured thereby may become the purchaser at any foreclosure sale if the highest bidder therefor. No breach of any such agreement shall impose any pecuniary liability upon a municipality or any charge upon their general credit or against their taxing powers.

(5) The proceedings authorizing the issuance of bonds hereunder may provide for the appointment of a trustee or trustees for the protection of the owners of the bonds, whether or not a mortgage is entered into as security for such bonds. Any such trustee may be a bank with trust powers or a trust company and shall be located in the United States, within or without the state of Washington, shall have the immunities, powers and duties provided in said proceedings, and may, to the extent permitted by such proceedings, hold and invest funds deposited with it in direct obligations of the United States, obligations guaranteed by the United States or certificates of deposit of a bank (including the trustee) which are continuously secured by such obligations of or guaranteed by the United States. Any bank acting as such trustee may, to the extent permitted by such proceedings, buy bonds issued hereunder to the same extent as if it were not such trustee. Said proceedings may provide for one or more co-trustees, and any co-trustee may be any competent individual over the age of twenty-one years or a bank having trust powers or trust company within or without the state. The proceedings authorizing the bonds may provide that some or all of the proceeds of the sale of the bonds, the revenues of any facilities, the proceeds of the sale of any part of a facility, of any insurance policy or of any condemnation award be deposited with the trustee or a co-trustee and applied as provided in said proceedings. [1983 c 167 § 175; 1973 c 132 § 6.]

Liberal construction—Severability—1983 c 167: See RCW 39.46.010 and note following.

70.95A.060 Facilities—Leases authorized. Prior to the issuance of the bonds authorized by this chapter, the municipality may lease the facilities to a lessee or lessees under an agreement providing for payment to the municipality of such rentals as will be sufficient (a) to pay the principal of and interest on the bonds issued to finance the facilities, (b) to pay the taxes on the facilities, (c) to build up and maintain any reserves deemed by the governing body to be advisable in connection therewith, and (d) unless the agreement of lease obligates the lessees to pay for the maintenance and insurance of the facilities, to pay the costs of maintaining the facilities in good repair and keeping the same properly insured. Subject to the limitations of this chapter, the lease or extensions or modifications thereof may contain such other terms and conditions as may be mutually acceptable to the parties, and notwithstanding any other provisions of law relating to the sale of property owned by municipalities, such lease may contain an option for the lessees to purchase the facilities on such terms and conditions with or without consideration as may be mutually acceptable to the parties. [1973 c 132 § 7.]

70.95A.070 Facilities—Revenue bonds—Refunding provisions. Any bonds issued under the provisions of this chapter and at any time outstanding may at any time and from time to time be refunded by a municipality by the issuance of its refunding bonds in such amount as the governing body may deem necessary but not exceeding an amount sufficient to refund the principal of the bonds to be so refunded, together with any unpaid interest thereon and any premiums and commissions necessary to be paid in connection therewith: PROVIDED, That an issue of refunding bonds may be combined with an issue of additional revenue bonds on any facilities. Any such refunding may be effected whether the bonds to be refunded shall have then matured or shall thereafter mature, either by sale of the refunding bonds and the application of the proceeds thereof for the payment of the bonds to be refunded thereby, or by exchange of the refunding bonds for the bonds to be refunded thereby: PROVIDED FURTHER, That the owners of any bonds to be so refunded shall not be compelled without their consent to surrender their bonds for payment or exchange except on the terms expressed on the face thereof. Any refunding bonds issued under the authority of this chapter shall be subject to the provisions contained in RCW 70.95A.040 and may be secured in accordance with the provisions of RCW 70.95A.050. The cost of acquiring or improving any facilities shall be deemed to include the following: The actual cost of acquiring or improving real estate for any facilities; the actual cost of construction of all or any part of the facilities which may be constructed, including architects' and engineers' fees, all expenses in connection with the authorization, sale and issuance of the bonds to finance such acquisition or improvements; and the interest on such bonds for a reasonable time prior to construction, during construction, and for a time not exceeding six months after completion of construction. [1973 c 132 § 9.]

The facilities shall be constructed, reconstructed, and improved and shall be leased, sold or otherwise disposed of in the manner determined by the governing body in its sole discretion and any requirement of competitive bidding, lease performance bonds or other restriction imposed on the procedure for award of contracts for such purpose or the lease, sale or other disposi-

tion of property of a municipality is not applicable to any action taken under authority of this chapter. [1973 c 132 § 10.]

70.95A.100 Facilities—Department of ecology certification. Upon request by a municipality or by a user of the facilities the department of ecology may in relation to chapter 54, Laws of 1972 ex. sess. and this chapter issue its certificate stating that the facilities (1) as designed are in furtherance of the purpose of abating, controlling or preventing pollution, and/or (2) as designed or as operated meet state and local requirements for the control of pollution. This section shall not be construed as modifying the provisions of RCW 82.34.030; chapter 70.94 RCW; or chapter 90.48 RCW. [1973 c 132 § 11.]

70.95A.910 Construction—1973 c 132. Nothing in this chapter shall be construed as a restriction or limitation upon any powers which a municipality might otherwise have under any laws of this state, but shall be construed as cumulative. [1973 c 132 § 12.]

70.95B.010 Legislative declaration. The legislature declares that competent operation of waste treatment plants plays an important part in the protection of the environment of the state and therefore it is of vital interest to the public. In order to protect the public health and to conserve and protect the water resources of the state, it is necessary to provide for the classifying of all domestic wastewater treatment plants; to require the examination and certification of the persons responsible for the supervision and operation of such systems; and to provide for the promulgation of rules and regulations to carry out this chapter. [1973 c 139 § 1.]

If a wastewater treatment plant is operated on more than one daily shift, the operator in charge of each shift shall be certified at a level no lower than one level lower than the classification rating of the plant being operated and shall be subordinate to the operator in responsible charge who is certified at a level equal to or higher than the plant. This requirement for shift operator certification shall be met by January 1, 1989.

Operators not required to be certified by this chapter are encouraged to become certified on a voluntary basis. [1987 c 357 § 2; 1973 c 139 § 3.]

70.95C.010 Legislative findings. The legislature finds that land disposal and incineration of solid and hazardous waste can be both harmful to the environment and costly to those who must dispose of the waste. In order to address this problem in the most cost-effective and environmentally sound manner, and to implement the highest waste management priority as articulated in RCW 70.95.010 and 70.105.150, public and private efforts should focus on reducing the generation of waste. Waste reduction can be achieved by encouraging voluntary efforts to redesign industrial, commercial, production, and other processes to result in the reduction or elimination of waste byproducts and to maximize the in-process reuse or reclamation of valuable spent material.

In the interest of protecting the public health, safety, and the environment, the legislature declares that it is the policy of the state of Washington to encourage reduction in the use of hazardous substances and reduction in the generation of hazardous waste whenever economically and technically practicable.

The legislature finds that hazardous wastes are generated by numerous different sources including, but not limited to, large and small business, households, and state and local government. The legislature further finds that a goal against which efforts at waste reduction may be measured is essential for an effective hazardous waste reduction program. The Pacific Northwest hazardous waste advisory council has endorsed a goal of reducing, through hazardous substance use reduction and waste reduction techniques, the generation of hazardous waste by fifty percent by 1995. The legislature adopts this as a policy goal for the state of Washington. The legislature recognizes that many individual businesses have already reduced the generation of hazardous waste through appropriate hazardous waste reduction techniques. The legislature also recognizes that there are some basic industrial processes which by their nature have limited potential for significantly reducing the use of certain raw materials or substantially reducing the generation of hazardous wastes. Therefore, the goal of reducing hazardous waste generation by fifty percent cannot be applied as a regulatory requirement. [1990 c 114 § 1; 1988 c 177 § 1.]

70.95C.110 Waste reduction and recycling program to promote activities by state agencies—Recycled paper goal. The legislature finds and declares that the buildings and facilities owned and leased by state government produce significant amounts of solid and hazardous wastes, and actions must be taken to reduce and recycle these wastes and thus reduce the costs associated with their disposal. In order for the operations of state government to provide the citizens of the state an example of positive waste management, the legislature further finds and declares that state government

should undertake an aggressive program designed to reduce and recycle solid and hazardous wastes produced in the operations of state buildings and facilities to the maximum extent possible.

The office of waste reduction, in cooperation with the department of general administration, shall establish an intensive waste reduction and recycling program to promote the reduction of waste produced by state agencies and to promote the source separation and recovery of recyclable and reusable materials.

All state agencies, including but not limited to, colleges, community colleges, universities, offices of elected and appointed officers, the supreme court, court of appeals, and administrative departments of state government shall fully cooperate with the office of waste reduction and recycling in all phases of implementing the provisions of this section. The office shall establish a coordinated state plan identifying each agency's participation in waste reduction and recycling. The office shall develop the plan in cooperation with a multi-agency committee on waste reduction and recycling. Appointments to the committee shall be made by the director of the department of general administration. The director shall notify each agency of the committee, which shall implement the applicable waste reduction and recycling plan elements. All state agencies are to use maximum efforts to achieve a goal of increasing the use of recycled paper by fifty percent by July 1, 1993. [1989 c 431 § 53.]

70.95C.120 Waste reduction and recycling awards program in K-12 public schools. The office of waste reduction shall develop, in consultation with the superintendent of public instruction, an awards program to achieve waste reduction and recycling in the public schools, grades kindergarten through high school. The office shall develop guidelines for program development and implementation. Each public school shall implement a waste reduction and recycling program conforming to guidelines developed by the office.

For the purpose of granting awards, the office may group schools into not more than three classes, based upon student population, distance to markets for recyclable materials, and other criteria, as deemed appropriate by the office. Except as otherwise provided, five or more awards shall be granted to each of the three classes. Each award shall be a sum of not less than two thousand dollars nor more than five thousand dollars. Awards shall be granted each year to the schools that achieve the greatest levels of waste reduction and recycling. A single award of not less than five thousand dollars shall be presented to the school having the best recycling program as measured by the total amount of materials recycled, including materials generated outside of the school. A single award of not less than five thousand dollars shall be presented to the school having the best waste reduction program as determined by the office.

The superintendent of public instruction shall distribute guidelines and other materials developed by the office to implement programs to reduce and recycle waste generated in administrative offices, classrooms, laboratories, cafeterias, and maintenance operations. [1991 c 319 § 114; 1989 c 431 § 54.]

70.95C.200 Hazardous waste generators and users—Voluntary reduction plan. (1) Each hazardous waste generator who generates more than two thousand six hundred forty pounds of hazardous waste per year and each hazardous substance user, except for those facilities that are primarily permitted treatment, storage, and disposal facilities or recycling facilities, shall prepare a plan for the voluntary reduction of the use of hazardous substances and the generation of hazardous wastes. Hazardous waste generated and recycled for beneficial use, including initial amount of hazardous substances introduced into a process and subsequently recycled for beneficial use, shall not be used in the calculation of hazardous waste generated for purposes of this section. The department may develop reporting requirements, consistent with existing reporting, to establish recycling for beneficial use under this section. Used oil to be rerefined or burned for energy or heat recovery shall not be used in the calculation of hazardous wastes generated for purposes of this section, and is not required to be addressed by plans prepared under this section. A person with multiple interrelated facilities where the processes in the facilities are substantially similar, may prepare a single plan covering one or more of those facilities.

(2) Each user or generator required to write a plan is encouraged to advise its employees of the planning process and solicit comments or suggestions from its employees on hazardous substance use and waste reduction options.

(3) The department shall adopt by April 1, 1991, rules for preparation of plans. The rules shall require the plan to address the following options, according to the following order of priorities: Hazardous substance use reduction, waste reduction, recycling, and treatment. Recycling options may be considered only after hazardous substance use reduction options and waste reduction options have been thoroughly researched and shown to be inappropriate. Treatment options may be considered only after hazardous substance use reduction, waste reduction, and recycling options have been thoroughly researched and shown to be inappropriate. Documentation of the research shall be available to the department upon request. The rules shall also require the plans to discuss the hazardous substance use reduction, waste reduction, and closed loop recycling options separately from other recycling and treatment options. All plans shall be written in conformance with the format prescribed in the rules adopted under this section. The rules shall require the plans to include, but not be limited to:

(a) A written policy articulating management and corporate support for the plan and a commitment to implementing planned activities and achieving established goals;

(e) A selection of options to be implemented in accordance with the priorities established in this section;

(f) An analysis of impediments to implementing the options. Impediments that shall be considered acceptable include, but are not limited to: Adverse impacts on product quality, legal or contractual obligations, economic practicality, and technical feasibility;

(g) A written policy stating that in implementing the selected options, whenever technically and economically practicable, risks will not be shifted from one part of a process, environmental media, or product to another;

70.95C.210 Voluntary reduction plan—Exemption.

A person required to prepare a plan under RCW 70.95C.200 because of the quantity of hazardous waste generated may petition the director to be excused from this requirement. The person must demonstrate to the satisfaction of the director that the quantity of hazardous waste generated was due to unique circumstances not likely to be repeated and that the person is unlikely to generate sufficient hazardous waste to require a plan in the next five years. [1990 c 114 § 7.]

Severability—1990 c 114: See RCW 70.95E.900.

70.95C.220 Voluntary reduction plan, executive summary, or progress report—Department review. (1)

The department may review a plan, executive summary, or an annual progress report to determine whether the plan, executive summary, or annual progress report is adequate pursuant to the rules developed under this section and with the provisions of RCW 70.95C.200. In determining the adequacy of any plan, executive summary, or annual progress report, the department shall base its determination solely on whether the plan, executive summary, or annual progress report is complete and prepared in accordance with the provisions of RCW 70.95C.200.

(2) Plans developed under RCW 70.95C.200 shall be retained at the facility of the hazardous substance user or hazardous waste generator preparing a plan. The plan is not a public record under the public disclosure laws of the state of Washington contained in chapter 42.17 RCW. A user or generator required to prepare a plan shall permit the director or a representative of the director to review the plan to determine its adequacy. No visit made by the director or a representative of the director to a facility for the purposes of this subsection may be regarded as an inspection or investigation, and no notices or citations may be issued, nor any civil penalty assessed, upon such a visit.

(3) If a hazardous substance user or hazardous waste generator fails to complete an adequate plan, executive summary, or annual progress report, the department shall notify the user or generator of the inadequacy, identifying specific deficiencies. For the purposes of this section, a deficiency may include failure to develop a plan, failure to submit an executive summary pursuant to the schedule provided in RCW 70.95C.200(5), and failure to submit an annual progress report pursuant to the rules developed under RCW 70.95C.200(6). The department shall specify a reasonable time frame, of not less than ninety days, within which the user or generator shall complete a modified plan, executive summary, or annual progress report addressing the specified deficiencies.

(4) If the department determines that a modified plan, executive summary, or annual progress report is inadequate, the department may, within its discretion, either require further modification or enter an order pursuant to subsection (5)(a) of this section.

(5)(a) If, after having received a list of specified deficiencies from the department, a hazardous substance user or hazardous waste generator required to prepare a plan fails to complete modification of a plan, executive summary, or annual progress report within the time period specified by the department, the department may enter an order pursuant to chapter 34.05 RCW finding the user or generator not in compliance with the requirements of RCW 70.95C.200. When the order is final, the department shall notify the department of revenue to charge a penalty fee. The penalty fee shall be the greater of one thousand dollars or three times the amount of the user's or generator's previous year's fee, in addition to the current year's fee. If no fee was assessed the previous year, the penalty shall be the greater of one thousand dollars or three times the amount of the current year's fee. The penalty assessed under this subsection shall be collected each year after the year for which the penalty was assessed until an adequate plan or executive summary is completed.

(b) If a hazardous substance user or hazardous waste generator required to prepare a plan fails to complete an adequate plan, executive summary, or annual progress report after the department has levied against the user or generator the penalty provided in (a) of this subsection, the user or generator shall be required to pay a surcharge to the department whenever the user or generator disposes of a hazardous waste at any hazardous waste incinerator or hazardous waste landfill facility located in Washington state, until a plan, executive summary, or annual progress report is completed and determined to be adequate by the department. The surcharge shall be equal to three times the fee charged for

disposal. The department shall furnish the incinerator and landfill facilities in this state with a list of environmental protection agency/state identification numbers of the hazardous waste generators that are not in compliance with the requirements of RCW 70.95C.200. [1990 c 114 § 8.]

Severability—1990 c 114: See RCW 70.95E.900.

70.95C.230 Appeal of department order or surcharge. A user or generator may appeal from a department order or a surcharge under RCW 70.95C.220 to the pollution control hearings board pursuant to chapter 43.21B RCW. [1990 c 114 § 9.]

Severability—1990 c 114: See RCW 70.95E.900.

70.95C.240 Public inspection of plans, summaries, progress reports. (1) The department shall make available for public inspection any executive summary or annual progress report submitted to the department. Any hazardous substance user or hazardous waste generator required to prepare an executive summary or annual progress report who believes that disclosure of any information contained in the executive summary or annual progress report may adversely affect the competitive position of the user or generator may request the department pursuant to RCW 43.21A.160 to delete from the public record those portions of the executive summary or annual progress report that may affect the user's or generator's competitive position. The department shall not disclose any information contained in an executive summary or annual progress report pending a determination of whether the department will delete any information contained in the report from the public record.

(2) Any ten persons residing within ten miles of a hazardous substance user or hazardous waste generator required to prepare a plan may file with the department a petition requesting the department to examine a plan to determine its adequacy. The department shall report its determination of adequacy to the petitioners and to the user or generator within a reasonable time. The department may deny a petition if the department has within the previous year determined the plan of the user or generator named in the petition to be adequate.

(3) The department shall maintain a record of each plan, executive summary, or annual progress report it reviews, and a list of all plans, executive summaries, or annual progress reports the department has determined to be inadequate, including descriptions of corrective actions taken. This information shall be made available to the public. [1990 c 114 § 10.]

Severability—1990 c 114: See RCW 70.95E.900.

70.95C.250 Multimedia permit pilot program—Air, water, hazardous waste management. (1) Not later than January 1, 1995, the department shall designate an industry type and up to ten individual facilities within that industry type to be the focus of a pilot multimedia program. The program shall be designed to coordinate department actions related to environmental permits, plans, approvals, certificates, registrations, technical assistance, and inspections. The program shall also investigate the feasibility of issuing facility-wide permits. The director shall determine the industry type and facilities based on:

(a) A review of at least three industry types; and
 (b) Criteria which shall include at least the following factors:

(i) The potential for the industry to serve as a state-wide model for multimedia environmental programs including pollution prevention;

(ii) Whether the industry type is subject to regulatory requirements relating to at least two of the following subject areas: Air quality, water quality, or hazardous waste management;

(iii) The existence within the industry type of a range of business sizes; and

(iv) Voluntary participation in the program.

(2) Not later than January 1, 1997, the department shall submit to the governor and the appropriate standing committees of the legislature:

(a) A report evaluating the pilot multimedia program. The report shall consider the program's effect on the efficiency and effectiveness of program delivery and shall evaluate the feasibility of expanding the program to other industry types; and

(b) A report analyzing the feasibility of a facility-wide permit program.

(3) In developing the program, the department shall consult with and seek the cooperation of the environmental protection agency.

(4) For purposes of this section, "facility-wide permit" means a single multimedia permit issued by the department to the owner or operator of a facility incorporating the permits and any other relevant department approvals previously issued to the owner or operator or currently required by the department. [1994 c 248 § 1.]

Conflict with federal requirements—1994 c 248: "If any part of this act is found to be in conflict with federal requirements, the conflicting part of this act is inoperative solely to the extent of the conflict and with respect to the agencies directly affected, and this finding does not affect the operation of the remainder of this act in its application to the agencies concerned." [1994 c 248 § 5.]

The annual amount of the fee shall be thirty-five dollars upon every hazardous waste generator doing business in Washington in the current calendar year or any part thereof. This fee shall be collected by the department or its designee. A hazardous waste generator shall be exempt from the fee imposed under this section if the value of products, gross proceeds of sales, or gross income of the business, from all business activities of the hazardous waste generator, is less than twelve thousand dollars in the current calendar year. The department shall, subject to appropriation, use the funds collected from the fees assessed in this subsection to support the activities of the office of waste reduction as specified in RCW 70.95C.030. 70.95C.200 and 70.95C.040. These fees are to be used by the department, subject to appropriation, for plan review, technical assistance to facilities that are required to prepare plans, other activities related to plan development and implementation, and associated indirect costs. The total fees collected under this subsection shall not exceed the department's costs of implementing RCW 70.95C.200 and 70.95C.040 and shall not exceed one million dollars per year. The annual fee for a facility shall not exceed ten thousand dollars per year. Any facility that generates less than two thousand six hundred forty pounds of hazardous waste per waste generation site in the previous calendar year shall be exempt from the fee imposed by this section. The annual fee for a facility generating at least two thousand six hundred forty pounds but not more than four thousand pounds of hazardous waste per waste generation site in the previous calendar year shall not exceed fifty dollars. A person that develops a plan covering more than one interrelated facility as provided for in RCW 70.95C.200 shall be assessed fees only for the number of plans prepared. The department shall adopt a fee schedule by rule after consultation with typical affected businesses and other interested parties. Hazardous waste generated and recycled for beneficial use, including initial amount of hazardous substances introduced into a process and subsequently recycled for beneficial use, shall not be used in the calculations of hazardous waste generated for purposes of this section.

The annual fee imposed by this section shall be first due on July 1 of the year prior to the year that the facility is required to prepare a plan, and by July 1 of each year thereafter. [1994 c 136 § 3; 1990 c 114 § 13.]

70.95E.040 Fees—Generally. On an annual basis, the department shall adjust the fees provided for in RCW 70.95E.020 and 70.95E.030, including the maximum annual fee, and maximum total fees, by conducting the calculation in subsection (1) of this section and taking the actions set forth in subsection (2) of this section:

(1) In November of each year, the fees, annual fee, and maximum total fees imposed in RCW 70.95E.020 and 70.95E.030, or as subsequently adjusted by this section, shall be multiplied by a factor equal to the most current quarterly "price deflator" available, divided by the "price deflator" used in the numerator the previous year. However, the "price deflator" used in the denominator for the first adjustment shall be defined by the second quarter "price deflator" for 1990.

(2) Each year by March 1 the fee schedule, as adjusted in subsection (1) of this section will be published. The department will round the published fees to the nearest dollar. [1990 c 114 § 14.]

70.95E.050 Administration of fees. In administration of this chapter for the enforcement and collection of the fees due and owing under RCW 70.95E.020 and 70.95E.030, the department may apply RCW 43.17.240. [1995 c 207 § 3; 1994 c 136 § 4; 1990 c 114 § 15.]

in chapter 70.95E RCW and report its findings to the legislature not later than July 1, 1995. [1990 c 114 § 17.]

***Reviser's note:** The "legislation budget committee" was redesignated the "joint legislative audit and review committee" by 1996 c 288 § 3.

70.95E.080 Hazardous waste assistance account. The hazardous waste assistance account is hereby created in the state treasury. The following moneys shall be deposited into the hazardous waste assistance account:

(1) Those revenues which are raised by the fees imposed under RCW 70.95E.020 and 70.95E.030;

(2) Penalties and surcharges collected under chapter 70.95C RCW and this chapter; and

Effective dates—Severability—1991 sp.s. c 13: See notes following RCW 18.08.240.

70.95E.090 Technical assistance and compliance education—Grants. The department may use funds in the hazardous waste assistance account to provide technical assistance and compliance education assistance to hazardous substance users and waste generators, to provide grants to local governments, and for administration of this chapter.

Technical assistance may include the activities authorized under chapter 70.95C RCW and RCW 70.105.170 to encourage hazardous waste reduction and hazardous use reduction and the assistance provided for by RCW 70.105.100(2).

Compliance education may include the activities authorized under RCW 70.105.100(2) to train local agency officials and to inform hazardous substance users and hazardous waste generators and owners and operators of hazardous waste management facilities of the requirements of chapter 70.105 RCW and related federal laws and regulations. To the extent practicable, the department shall contract with private businesses to provide compliance education.

Grants to local governments shall be used for small quantity generator technical assistance and compliance education components of their moderate risk waste plans as required by RCW 70.105.220. [1995 c 207 § 4; 1990 c 114 § 19.]

Effective date—1995 c 207: See note following RCW 70.95E.010.

70.95E.100 Exclusion from chapter. Nothing in this chapter relates to radioactive wastes or substances composed of both radioactive and hazardous components, and the department is precluded from using the funds of the hazardous waste assistance account for the regulation and control of such wastes. [1990 c 114 § 20.]

70.95E.900 Severability—1990 c 114. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected. [1990 c 114 § 23.]

70.95G.900 Severability—Part headings not law—1991 c 319.

70.95G.005 Finding. The legislature finds and declares that:

(1) The management of solid waste can pose a wide range of hazards to public health and safety and to the environment;

(2) Packaging comprises a significant percentage of the overall solid waste stream;

(3) The presence of heavy metals in packaging is a part of the total concern in light of their likely presence in emissions or ash when packaging is incinerated, or in leachate when packaging is landfilled;

(4) Lead, mercury, cadmium, and hexavalent chromium, on the basis of available scientific and medical evidence, are of particular concern;

(5) The intent of this chapter is to achieve a reduction in toxicity without impeding or discouraging the expanded use of postconsumer materials in the production of packaging and its components. [1991 c 319 § 106.]

Report to legislature—1991 c 319: "By July 1, 1993, the solid waste advisory committee created under chapter 70.95 RCW shall report to the appropriate standing committees of the legislature on the need to further

reduce toxic metals from packaging. The report shall contain recommendations to add other toxic substances contained in packaging to the list set forth in this chapter, including but not limited to mutagens, carcinogens, and teratogens, in order to further reduce the toxicity of packaging waste, and shall contain a recommendation regarding imposition of penalty for violation of section 108 of this act." [1991 c 319 § 113.]

70.95G.010 Definitions. Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

(1) "Package" means a container providing a means of marketing, protecting, or handling a product and shall include a unit package, an intermediate package, and a shipping container. "Package" also means and includes unsealed receptacles such as carrying cases, crates, cups, pails, rigid foil and other trays, wrappers and wrapping films, bags, and tubs.

(2) "Manufacturer" means a person, firm, or corporation that applies a package to a product for distribution or sale.

(3) "Packaging component" means an individual assembled part of a package such as, but not limited to, any interior or exterior blocking, bracing, cushioning, weather-proofing, exterior strapping, coatings, closures, inks, and labels. [1991 c 319 § 107.]

70.95G.020 Concentration levels. The sum of the concentration levels of lead, cadmium, mercury, and hexavalent chromium present in any package or packaging component shall not exceed the following:

(1) Six hundred parts per million by weight effective July 1, 1993;

(2) Two hundred fifty parts per million by weight effective July 1, 1994; and

(3) One hundred parts per million by weight effective July 1, 1995.

This section shall apply only to lead, cadmium, mercury, and hexavalent chromium that has been intentionally introduced as an element during manufacturing or distribution. [1992 c 131 § 1; 1991 c 319 § 108.]

70.95G.030 Exemptions. All packages and packaging components shall be subject to this chapter except the following:

(1) Those packages or package components with a code indicating date of manufacture that were manufactured prior to May 21, 1991;

(2) Those packages or packaging components that have been purchased by, delivered to, or are possessed by a retailer on or before twenty-four months following May 21, 1991, to permit opportunity to clear existing inventory of the proscribed packaging material;

(3) Those packages or packaging components to which lead, cadmium, mercury, or hexavalent chromium have been added in the manufacturing, forming, printing, or distribution process in order to comply with health or safety requirements of federal law or for which there is no feasible alternative; or

(4) Those packages and packaging components that would not exceed the maximum contaminant levels set forth in RCW 70.95G.020(1) but for the addition of postconsumer materials; and provided that the exemption for this subsec-

tion shall expire six years after May 21, 1991. [1991 c 319 § 109.]

70.95G.040 Certificate of compliance. By July 1, 1993, a certificate of compliance stating that a package or packaging component is in compliance with the requirements of this chapter shall be developed by its manufacturer. If compliance is achieved under the exemption or exemptions provided in RCW 70.95G.030 (3) or (4), the certificate shall state the specific basis upon which the exemption is claimed. The certificate of compliance shall be signed by an authorized official of the manufacturing company. The certificate of compliance shall be kept on file by the manufacturer for as long as the package or packaging component is in use, and for three years from the date of the last sale or distribution by the manufacturer. Certificates of compliance, or copies thereof, shall be furnished to the department of ecology upon request within sixty days. If manufacturers are required under any other state statute to provide a certificate of compliance, one certificate may be developed containing all required information.

If the manufacturer or supplier of the package or packaging component reformulates or creates a new package or packaging component, the manufacturer shall develop an amended or new certificate of compliance for the reformulated or new package or packaging component. [1991 c 319 § 110.]

70.95G.050 Certificate of compliance—Public access. Requests from a member of the public for any certificate of compliance shall be:

(1) Made in writing to the department of ecology;

(2) Made specific as to package or packaging component information requested; and

(3) Responded to by the department of ecology within ninety days. [1991 c 319 § 111.]

70.95G.060 Prohibition of sale of package. The department of ecology may prohibit the sale of any package for which a manufacturer has failed to respond to a request by the department for a certificate of compliance within the allotted period of time pursuant to RCW 70.95G.040. [1991 c 319 § 112.]

70.95H.902 Severability—Part headings not law—1991 c 319.

70.95H.005 Finding. (1) The legislature finds that:

(a) Recycling conserves energy and landfill space, provides jobs and valuable feedstock materials to industry, and promotes health and environmental protection;

(b) Seventy-eight percent of the citizens of the state actively participate in recycling programs and Washington currently has the highest recycling rate in the nation;

(c) The current supply of many recycled commodities far exceeds the demand for such commodities;

(d) Many local governments and private entities cumulatively affect, and are affected by, the market for recycled commodities but have limited jurisdiction and cannot adequately address the problems of market development that are complex, wide-ranging, and regional in nature; and

(e) The private sector has the greatest capacity for creating and expanding markets for recycled commodities, and the development of private markets for recycled commodities is in the public interest.

(2) It is therefore the policy of the state to create a single entity to be known as the clean Washington center to develop new, and expand existing, markets for recycled commodities. [1991 c 319 § 201.]

70.95H.007 Center created. There is created the clean Washington center within the department of community, trade, and economic development. As used in this chapter, "center" means the clean Washington center. [1995 c 399 § 192; 1991 c 319 § 202.]

70.95H.010 Purpose—Market development defined. The purpose of the center is to provide or facilitate business assistance, basic and applied research and development, marketing, public education, and policy analysis in furthering the development of markets for recycled products. As used in this chapter, market development consists of public and private activities that are used to overcome impediments preventing full use of secondary materials diverted from the waste stream, and that encourage and expand use of those materials and subsequent products. In fulfilling this mission the center shall primarily direct its services to businesses that transform or remanufacture waste materials into usable or marketable materials or products for use other than landfill disposal or incineration. [1991 c 319 § 203.]

70.95H.020 Policy board. (1) The center's activities shall be conducted with the assistance of a policy board. Except as otherwise provided, policy board members shall be appointed by the directors of the department of community, trade, and economic development and department of ecology as follows:

(a) Two representatives of the legislature, one appointed by the speaker of the house of representatives and one appointed by the president of the senate;

(b) One member to represent cities;

(c) One member to represent counties;

(d) Five private sector members to represent the end users and marketers of postconsumer recovered materials, including one member to represent recycling businesses;

(e) The directors of the departments of community, trade, and economic development and ecology shall represent the executive branch as nonvoting members; and

(f) Nonvoting, temporary appointments to the board can be made by the chair where specific expertise is needed.

(2) The initial appointments of the five private sector members will be two members with three-year terms and three members with two-year terms. Thereafter, members shall serve two-year renewable terms. Vacancies shall be filled by the chair with majority consent from the members.

(3) Members of the board, exclusive of those representing the legislative or executive branches, shall be reimbursed for travel expenses as provided in RCW 43.03.050 and 43.03.060.

(4) The board shall meet at least quarterly.

(5) The chair shall be elected from among the members by a simple majority vote.

(6) The board may adopt and exercise bylaws for the regulation of its business for the purposes of this chapter. [1995 c 399 § 193; 1991 c 319 § 204.]

70.95H.030 Duties and responsibilities. The center shall:

(1) Provide targeted business assistance to recycling businesses, including:

(a) Development of business plans;

(b) Market research and planning information;

(c) Access to financing programs;

(d) Referral and information on market conditions; and

(e) Information on new technology and product development;

(2) Negotiate voluntary agreements with manufacturers to increase the use of recycled materials in product development;

(3) Support and provide research and development to stimulate and commercialize new and existing technologies and products using recycled materials;

(4) Undertake an integrated, comprehensive education effort directed to recycling businesses to promote processing, manufacturing, and purchase of recycled products, including:

(a) Provide information to recycling businesses on the availability and benefits of using recycled materials;

(b) Provide information and referral services on recycled material markets;

(c) Provide information on new research and technologies that may be used by local businesses and governments; and

(d) Participate in projects to demonstrate new market uses or applications for recycled products;

(5) Assist the departments of ecology and general administration in the development of consistent definitions and standards on recycled content, product performance, and availability;

(6) Undertake studies on the unmet capital needs of reprocessing and manufacturing firms using recycled materials;

(7) Undertake and participate in marketing promotions for the purposes of achieving expanded market penetration for recycled content products;

(8) Coordinate with the department of ecology to ensure that the education programs of both are mutually reinforcing, with the center acting as the lead entity with respect to recycling businesses, and the department as the lead entity with respect to the general public and retailers;

(9) Develop an annual work plan. The plan shall describe actions and recommendations for developing markets for commodities comprising a significant percentage of the waste stream and having potential for use as an industrial or commercial feedstock. The initial plan shall address, but not be limited to, mixed waste paper, waste tires, yard and food waste, and plastics; and

(10) Represent the state in regional and national market development issues. [1992 c 131 § 2; 1991 c 319 § 205.]

70.95H.040 Authority. In order to carry out its responsibilities under this chapter, the center may:

(1) Receive such gifts, grants, funds, fees, and endowments, in trust or otherwise, for the use and benefit of the purposes of the center. The center may expend the same or any income therefrom according to the terms of the gifts, grants, or endowments;

(2) Initiate, conduct, or contract for studies and searches relating to market development for recyclable materials, including but not limited to applied research, technology transfer, and pilot demonstration projects;

(3) Obtain and disseminate information relating to market development for recyclable materials from other state and local agencies;

(4) Enter into, amend, and terminate contracts with individuals, corporations, trade associations, and research institutions for the purposes of this chapter;

(5) Provide grants to local governments or other public institutions to further the development of recycling markets;

(6) Provide business and marketing assistance to public and private sector entities within the state; and

(7) Evaluate, analyze, and make recommendations on state policies that may affect markets for recyclable materials. [1991 c 319 § 206.]

70.95H.050 Funding. The center shall solicit financial contributions and support from manufacturing industries and other private sector sources, foundations, and grants from governmental sources to assist in conducting its activities. It may also use separately appropriated funds of the department of community, trade, and economic development for the center's activities. [1995 c 399 § 194; 1991 c 319 § 207.]

70.95H.800 Clean Washington account. There is created an account within the state treasury to be known as the clean Washington account. Moneys deposited in the clean Washington account shall be subject to appropriation and shall be used for the administration and implementation of the clean Washington center established under RCW 70.95H.020. [1991 c 319 § 212.]

Reviser's note: 1991 c 319 directed that this section be added to chapter 70.93 RCW. The placement appears inappropriate and the section has been codified as part of chapter 70.95H RCW.

70.95H.900 Termination. The center shall terminate on June 30, 1997. [1991 c 319 § 209.]

70.95I.005 Finding. (1) The legislature finds that:

(a) Millions of gallons of used oil are generated each year in this state, and used oil is a valuable petroleum resource that can be recycled;

(b) The improper collection, transportation, recycling, use, or disposal of used oil contributes to the pollution of air, water, and land, and endangers public health and welfare;

(c) The private sector is a vital resource in the collection and recycling of used oil and should be involved in its collection and recycling whenever practicable.

(2) In light of the harmful consequences of improper disposal and use of used oil, and its value as a resource, the legislature declares that the collection, recycling, and reuse of used oil is in the public interest.

(3) The department, when appropriate, should promote the rerefining of used oil in its grants, public education, regulatory, and other programs. [1991 c 319 § 301.]

Hazardous waste: Chapter 70.95C RCW.

70.95I.010 Definitions. Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

(1) "Rerefining used oil" means the reclaiming of base lube stock from used oil for use again in the production of lube stock. Rerefining used oil does not mean combustion or landfilling.

(2) "Used oil" means (a) lubricating fluids that have been removed from an engine crankcase, transmission, gearbox, hydraulic device, or differential of an automobile, bus, truck, vessel, plane, heavy equipment, or machinery powered by an internal combustion engine; (b) any oil that has been refined from crude oil, used, and as a result of use, has been contaminated with physical or chemical impurities; and (c) any oil that has been refined from crude oil and, as a consequence of extended storage, spillage, or contamination, is no longer useful to the original purchaser. "Used oil" does not include used oil to which hazardous wastes have been added.

(3) "Public used oil collection site" means a site where a used oil collection tank has been placed for the purpose of collecting household generated used oil. "Public used oil

collection site" also means a vehicle designed or operated to collect used oil from the public.

(4) "Lubricating oil" means any oil designed for use in, or maintenance of, a vehicle, including, but not limited to, motor oil, gear oil, and hydraulic oil. "Lubricating oil" does not mean petroleum hydrocarbons with a flash point below one hundred degrees Centigrade.

(5) "Vehicle" includes every device physically capable of being moved upon a public or private highway, road, street, watercourse, or trail, and in, upon, or by which any person or property is or may be transported or drawn upon a public or private highway, road, street, watercourse, or trail, except devices moved by human or animal power.

(6) "Department" means the department of ecology.

(7) "Local government" means a city or county developing a local hazardous waste plan under RCW 70.105.220. [1991 c 319 § 302.]

70.95I.020 Used oil recycling element. (1) Each local government and its local hazardous waste plan under RCW 70.105.220 is required to include a used oil recycling element. This element shall include:

(a) A plan to reach the local goals for household used oil recycling established by the local government and the department under RCW 70.95I.030. The plan shall, to the maximum extent possible, incorporate voluntary agreements with the private sector and state agencies to provide sites for the collection of used oil. Where provided, the plan shall also incorporate residential collection of used oil;

(b) A plan for enforcing the sign and container ordinances required by RCW 70.95I.040;

(c) A plan for public education on used oil recycling; and

(d) An estimate of funding needed to implement the requirements of this chapter. This estimate shall include a budget reserve for disposal of contaminated oil detected at any public used oil collection site administered by the local government.

(2) By July 1, 1993, each local government or combination of contiguous local governments shall submit its used oil recycling element to the department. The department shall approve or disapprove the used oil recycling element by January 1, 1994, or within ninety days of submission, whichever is later. The department shall approve or disapprove the used oil recycling element if it determines that the element is consistent with this chapter and the guidelines developed by the department under RCW 70.95I.030.

(3) Each local government, or combination of contiguous local governments, shall submit an annual statement to the department describing the number of used oil collection sites and the quantity of household used oil recycled for the jurisdiction during the previous calendar year. The first statement shall be due April 1, 1994. Subsequent statements shall be due April 1st of each year.

Nothing in this section shall be construed to require a city or county to construct or operate a public used oil collection site. [1991 c 319 § 303.]

70.95I.030 Used oil recycling element guidelines—Waiver—State-wide goals. (1) By July 1, 1992, the department shall, in consultation with local governments,

prepare guidelines for the used oil recycling elements required by RCW 70.95I.020. The guidelines shall:

(a) Require development of local collection and rerefining goals for household used oil for each entity preparing a used oil recycling element under RCW 70.95I.020;

(b) Require local government to recommend the number of used oil collection sites needed to meet the local goals. The department shall establish criteria regarding minimum levels of used oil collection sites;

(c) Require local government to identify locations suitable as public used oil collection sites as described under RCW 70.95I.020(1)(a).

(2) The department may waive all or part of the specific requirements of RCW 70.95I.020 if a local government demonstrates to the satisfaction of the department that the objectives of this chapter have been met.

(3) The department may prepare and implement a used oil recycling plan for any local government failing to complete the used oil recycling element of the plan.

(4) The department shall develop state-wide collection and rerefining goals for household used oil for each calendar year beginning with calendar year 1994. Goals shall be based on the estimated state-wide collection and rerefining rate for calendar year 1993, and shall increase each year until calendar year 1996, when the rate shall be eighty percent.

(5) By July 1, 1993, the department shall prepare guidelines establishing state-wide equipment and operating standards for public used oil collection sites. Standards shall:

(a) Allow the use of used oil collection igloos and other types of portable used oil collection tanks;

(b) Prohibit the disposal of nonhousehold-generated used oil;

(c) Limit the amount of used oil deposited to five gallons per household per day;

(d) Ensure adequate protection against leaks and spills; and

(e) Include other requirements deemed appropriate by the department. [1991 c 319 § 304.]

70.95I.040 Oil sellers—Education responsibility—Penalty. (1) A person annually selling one thousand or more gallons of lubricating oil to ultimate consumers for use or installation off the premises, or five hundred or more vehicle oil filters to ultimate consumers for use or installation off the premises within a city or county having an approved used oil recycling element, shall:

(a) Post and maintain at or near the point of sale, durable and legible signs informing the public of the importance of used oil recycling and how and where used oil may be properly recycled; and

(b) Provide for sale at or near the display location of the lubricating oil or vehicle oil filters, household used oil recycling containers. The department shall design and print the signs required by this section, and shall make them available to local governments and retail outlets.

(2) A person, who, after notice, violates this section is guilty of a misdemeanor and on conviction is subject to a fine not to exceed one thousand dollars.

(3) The department is responsible for notifying retailers subject to this section.

(4) A city or county may adopt household used oil recycling container standards in order to ensure compatibility with local recycling programs.

(5) Each local government preparing a used oil recycling element of a local hazardous waste plan pursuant to RCW 70.95I.020 shall adopt ordinances within its jurisdiction to enforce subsections (1) and (4) of this section. [1991 c 319 § 305.]

70.95I.050 State-wide education. The department shall conduct a public education program to inform the public of the needs for and benefits of collecting and recycling used oil in order to conserve resources and protect the environment. As part of this program, the department shall:

(1) Establish and maintain a state-wide list of public used oil collection sites, and a list of all persons coordinating local government used oil programs;

(2) Establish a state-wide media campaign describing used oil recycling;

(3) Assist local governments in providing public education and awareness programs concerning used oil by providing technical assistance and education materials; and

(4) Encourage the establishment of voluntary used oil collection and recycling programs, including public-private partnerships, and provide technical assistance to persons organizing such programs. [1991 c 319 § 306.]

70.95I.060 Disposal of used oil—Penalty. (1) Effective January 1, 1992, the use of used oil for dust suppression or weed abatement is prohibited.

(2) Effective July 1, 1992, no person may sell or distribute absorbent-based kits, intended for home use, as a means for collecting, recycling, or disposing of used oil.

(4) Effective January 1, 1994, no owner or operator of a solid waste landfill may knowingly accept used oil for disposal in the landfill.

(5) A person who violates this section is guilty of a misdemeanor. [1991 c 319 § 307.]

70.95I.070 Used oil transporter and processor requirements—Civil penalties. (1) By January 1, 1993, the department shall adopt rules requiring any transporter of used oil to comply with minimum notification, invoicing, recordkeeping, and reporting requirements. For the purpose of this section, a transporter means a person engaged in the off-site transportation of used oil in quantities greater than twenty-five gallons per day.

(2) By January 1, 1993, the department shall adopt minimum standards for used oil that is blended into fuels. Standards shall, at a minimum, establish testing and recordkeeping requirements. Unless otherwise exempted, a processor is any person involved in the marketing, blending, mixing, or processing of used oil to produce fuel to be burned for energy recovery.

(3) Any person who knowingly transports used oil without meeting the requirements of this section shall be subject to civil penalties under chapter 70.105 RCW.

(4) Rules developed under this section shall not require a manifest from individual residences served by a waste oil curbside collection program. [1991 c 319 § 308.]

70.95I.080 Above-ground used oil collection tanks. By January 1, 1987, the state fire protection board, in cooperation with the department of ecology, shall develop a state-wide standard for the placement of above-ground tanks to collect used oil from private individuals for recycling purposes. 70.95J.005 Findings—Municipal sewage sludge as a beneficial commodity. (1) The legislature finds that:

(a) Municipal sewage sludge is an unavoidable byproduct of the wastewater treatment process;

(b) Population increases and technological improvements in wastewater treatment processes will double the amount of sludge generated within the next ten years;

(c) Sludge management is often a financial burden to municipalities and to ratepayers;

(d) Properly managed municipal sewage sludge is a valuable commodity and can be beneficially used in agriculture, silviculture, and in landscapes as a soil conditioner; and

(e) Municipal sewage sludge can contain metals and microorganisms that, under certain circumstances, may pose a risk to public health.

(2) The legislature declares that a program shall be established to manage municipal sewage sludge and that the program shall, to the maximum extent possible, ensure that municipal sewage sludge is reused as a beneficial commodity

and is managed in a manner that minimizes risk to public health and the environment. [1992 c 174 § 1.]

70.95J.007 Purpose—Federal requirements. The purpose of this chapter is to provide the department of ecology and local governments with the authority and direction to meet federal regulatory requirements for municipal sewage sludge. The department of ecology may seek delegation and administer the sludge permit program required by the federal clean water act as it existed February 4, 1987. [1992 c 174 § 2.]

70.95J.010 Definitions. Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

(1) "Biosolids" means municipal sewage sludge that is a primarily organic, semisolid product resulting from the wastewater treatment process, that can be beneficially recycled and meets all requirements under this chapter. For the purposes of this chapter, "biosolids" includes septic tank sludge, also known as septage, that can be beneficially recycled and meets all requirements under this chapter.

(2) "Department" means the department of ecology.

(3) "Local health department" has the same meaning as "jurisdictional health department" in RCW 70.95.030.

(4) "Municipal sewage sludge" means a semisolid substance consisting of settled sewage solids combined with varying amounts of water and dissolved materials generated from a publicly owned wastewater treatment plant. [1992 c 174 § 3.]

70.95J.020 Biosolid management program—Transportation of biosolids and sludge. (1) The department shall adopt rules to implement a biosolid management program within twelve months of the adoption of federal rules, 40 C.F.R. Sec. 503, relating to technical standards for the use and disposal of sewage sludge. The biosolid management program shall, at a minimum, conform with all applicable federal rules adopted pursuant to the federal clean water act as it existed on February 4, 1987.

(2) In addition to any federal requirements, the state biosolid management program may include, but not be limited to, an education program to provide relevant legal and scientific information to local governments and citizen groups.

(3) Rules adopted by the department under this section shall provide for public input and involvement for all state and local permits.

(4) Materials that have received a permit as a biosolid shall be regulated pursuant to this chapter.

(5) The transportation of biosolids and municipal sewage sludge shall be governed by Title 81 RCW. Certificates issued by the utilities and transportation commission before June 11, 1992, that include or authorize transportation of municipal sewage sludge shall continue in force and effect and be interpreted to include biosolids. [1992 c 174 § 4.]

70.95J.030 Beneficial uses for biosolids and glassified sewage sludge. The department may work with all appropriate state agencies, local governments, and private

entities to establish beneficial uses for biosolids and glassified sewage sludge. [1992 c 174 § 5.]

70.95J.040 Violations—Orders. If a person violates any provision of this chapter, or a permit issued or rule adopted pursuant to this chapter, the department may issue an appropriate order to assure compliance with the chapter, permit, or rule. [1992 c 174 § 6.]

70.95J.050 Enforcement of chapter. The department, with the assistance of the attorney general, may bring an action at law or in equity, including an action for injunctive relief, to enforce this chapter or a permit issued or rule adopted by the department pursuant to this chapter. [1992 c 174 § 7.]

70.95J.060 Violations—Punishment. A person who willfully violates, without sufficient cause, any of the provisions of this chapter, or a permit or order issued pursuant to this chapter, is guilty of a gross misdemeanor. Willful violation of this chapter, or a permit or order issued pursuant to this chapter is a gross misdemeanor punishable by a fine of up to ten thousand dollars and costs of prosecution, or by imprisonment for up to one year, or by both. Each day of violation may be deemed a separate violation. [1992 c 174 § 8.]

70.95J.070 Violations—Monetary penalty. In addition to any other penalty provided by law, a person who violates this chapter or rules or orders adopted or issued pursuant to it shall be subject to a penalty in an amount of up to five thousand dollars a day for each violation. Each violation shall be a separate violation. In the case of a continuing violation, each day of violation is a separate violation. An act of commission or omission that procures, aids, or abets in the violation shall be considered a violation under this section. [1992 c 174 § 9.]

70.95J.080 Delegation to local health department—Generally. The department may delegate to a local health department the powers necessary to issue and enforce permits to use or dispose of biosolids. A delegation may be withdrawn if the department finds that a local health department is not effectively administering the permit program. [1992 c 174 § 10.]

70.95J.090 Delegation to local health department—Review. (1) Any permit issued by a local health department under RCW 70.95J.080 may be reviewed by the department to ensure that the proposed site or facility conforms with all applicable laws, rules, and standards under this chapter.

(2) If the department does not approve or disapprove a permit within sixty days, the permit shall be considered approved.

(3) A local health department may appeal the department's decision to disapprove a permit to the pollution control hearings board, as provided in chapter 43.21B RCW. [1992 c 174 § 11.]

70.95K.005 Findings. The legislature finds and declares that:

(1) It is a matter of state-wide concern that biomedical waste be handled in a manner that protects the health, safety, and welfare of the public, the environment, and the workers who handle the waste.

(2) Infectious disease transmission has not been identified from improperly disposed biomedical waste, but the potential for such transmission may be present.

(3) A uniform, state-wide definition of biomedical waste will simplify compliance with local regulations while preserving local control of biomedical waste management. [1992 c 14 § 1.]

70.95K.010 Definitions. Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

(1) "Biomedical waste" means, and is limited to, the following types of waste:

(a) "Animal waste" is waste animal carcasses, body parts, and bedding of animals that are known to be infected with, or that have been inoculated with, human pathogenic microorganisms infectious to humans.

(b) "Biosafety level 4 disease waste" is waste contaminated with blood, excretions, exudates, or secretions from humans or animals who are isolated to protect others from highly communicable infectious diseases that are identified as pathogenic organisms assigned to biosafety level 4 by the centers for disease control, national institute of health, biosafety in microbiological and biomedical laboratories, current edition.

(c) "Cultures and stocks" are wastes infectious to humans and includes specimen cultures, cultures and stocks of etiologic agents, wastes from production of biologicals and serums, discarded live and attenuated vaccines, and laboratory waste that has come into contact with cultures and stocks of etiologic agents or blood specimens. Such waste includes but is not limited to culture dishes, blood specimen tubes, and devices used to transfer, inoculate, and mix cultures.

(d) "Human blood and blood products" is discarded waste human blood and blood components, and materials containing free-flowing blood and blood products.

(e) "Pathological waste" is waste human source biopsy materials, tissues, and anatomical parts that emanate from surgery, obstetrical procedures, and autopsy. "Pathological waste" does not include teeth, human corpses, remains, and anatomical parts that are intended for interment or cremation.

(f) "Sharps waste" is all hypodermic needles, syringes with needles attached, IV tubing with needles attached, scalpel blades, and lancets that have been removed from the original sterile package.

(2) "Local government" means city, town, or county.

(3) "Local health department" means the city, county, city-county, or district public health department.

(4) "Person" means an individual, firm, corporation, association, partnership, consortium, joint venture, commercial entity, state government agency, or local government.

(5) "Treatment" means incineration, sterilization, or other method, technique, or process that changes the character or composition of a biomedical waste so as to minimize the risk of transmitting an infectious disease.

(6) "Residential sharps waste" has the same meaning as "sharps waste" in subsection (1) of this section except that the sharps waste is generated and prepared for disposal at a residence, apartment, dwelling, or other noncommercial habitat.

(7) "Sharps waste container" means a leak-proof, rigid, puncture-resistant red container that is taped closed or tightly lidded to prevent the loss of the residential sharps waste.

(8) "Mail programs" means those programs that provide sharps users with a multiple barrier protection kit for the placement of a sharps container and subsequent mailing of the wastes to an approved disposal facility.

(9) "Pharmacy return programs" means those programs where sharps containers are returned by the user to designated return sites located at a pharmacy to be transported by a biomedical or solid waste collection company approved by the utilities and transportation commission.

(10) "Drop-off programs" means those program sites designated by the solid waste planning jurisdiction where sharps users may dispose of their sharps containers.

(11) "Source separation" has the same meaning as in RCW 70.95.030.

(12) "Unprotected sharps" means residential sharps waste that are not disposed of in a sharps waste container. [1994 c 165 § 2; 1992 c 14 § 2.]

Findings—Purpose—Intent—1994 c 165: "The legislature finds that the improper disposal and labeling of sharps waste from residences poses a potential health risk and perceived threat to the waste generators, public, and workers in the waste and recycling industry. The legislature further finds that a uniform method for handling sharps waste generated at residences will reduce confusion and injuries, and enhance public and waste worker confidence.

It is the purpose and intent of this act that residential generated sharps waste be contained in easily identified containers and separated from the regular solid waste stream to ensure worker safety and promote proper disposal of these wastes in a manner that is environmentally safe and economically sound." [1994 c 165 § 1.]

70.95K.011 State definition preempts local definitions. The definition of biomedical waste set forth in RCW 70.95K.010 shall be the sole state definition for biomedical waste within the state, and shall preempt biomedical waste definitions established by a local health department or local government. [1992 c 14 § 3.]

70.95K.020 Waste treatment technologies. (1) At the request of an applicant, the department of health, in consultation with the department of ecology and local health departments, may evaluate the environmental and public

health impacts of biomedical waste treatment technologies. The department shall make available the results of any evaluation to local health departments.

(2) All direct costs associated with the evaluation shall be paid by the applicant to the department of health or to a state or local entity designated by the department of health.

(3) For the purposes of this section, "applicant" means any person representing a biomedical waste treatment technology that seeks an evaluation under subsection (1) of this section.

(4) The department of health may adopt rules to implement this section. [1992 c 14 § 4.]

70.95K.030 Residential sharps—Disposal—Violation. (1) A person shall not intentionally place unprotected sharps or a sharps waste container into: (a) Recycling containers provided by a city, county, or solid waste collection company, or any other recycling collection site unless that site is specifically designated by a local health department as a drop-off site for sharps waste containers; or (b) cans, carts, drop boxes, or other containers in which refuse, trash, or solid waste has been placed for collection if a source separated collection service is provided for residential sharps waste.

(2) Local health departments shall enforce this section, primarily through an educational approach regarding proper disposal of residential sharps. On the first and second violation, the health department shall provide a warning to the person that includes information on proper disposal of residential sharps. A subsequent violation shall be a class 3 infraction under chapter 7.80 RCW.

(3) It is not a violation of this section to place a sharps waste container into a household refuse receptacle if the utilities and transportation commission determines that such placement is necessary to reduce the potential for theft of the sharps waste container. [1994 c 165 § 3.]

Effective date—1994 c 165 § 3: "Section 3 of this act shall take effect July 1, 1995." [1994 c 165 § 6.]

Findings—Purpose—Intent—1994 c 165: See note following RCW 70.95K.010.

70.95K.040 Residential sharps waste collection. (1) A public or private provider of solid waste collection service may provide a program to collect source separated residential sharps waste containers in conjunction with regular collection services.

(2) A company collecting source separated residential sharps waste containers shall notify the public, in writing, on the availability of this service. Notice shall occur at least forty-five days prior to the provision of this service and shall include the following information: (a) How to properly dispose of residential sharps waste; (b) how to obtain sharps waste containers; (c) the cost of the program; (d) options to home collection of sharps waste; and (e) the legal requirements of residential sharps waste disposal.

(3) A company under the jurisdiction of the utilities and transportation commission may provide the service authorized under subsection (1) of this section only under tariff.

The commission may require companies collecting sharps waste containers to implement practices that will protect the containers from theft. [1994 c 165 § 4.]

Findings—Purpose—Intent—1994 c 165: See note following RCW 70.95K.010.

70.95K.900 Section headings. Section headings as used in this chapter do not constitute any part of the law. [1992 c 14 § 5.]

70.95K.910 Severability—1992 c 14. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected. [1992 c 14 § 6.]

70.95K.920 Effective date—1992 c 14. (1) Sections 2 and 3 of this act are necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and shall take effect immediately [March 20, 1992].

(2) Section 4 of this act shall take effect October 1, 1992. [1992 c 14 § 7.]

DETERGENT PHOSPHORUS CONTENT

Sections

70.95L.005	Finding.
70.95L.010	Definitions.
70.95L.020	Phosphorus content regulated.
70.95L.030	Notice to distributors and wholesalers.
70.95L.040	Injunction.

70.95L.005 Finding. The legislature hereby finds and declares that:

(1) Phosphorus loading of surface waters can stimulate the growth of weeds and algae, and that such growth can have adverse environmental, health, and aesthetic effects;

(2) Household detergents contribute to phosphorus loading, and that a limit on detergents containing phosphorus can significantly reduce the discharge of phosphorus into the state's surface and ground waters;

(3) Household detergents containing no or very low phosphorus are readily available and that over thirty percent of the United States population lives in areas with a ban on detergents containing phosphorus; and

(4) Phosphorus limits on household detergents can significantly reduce treatment costs at those sewage treatment facilities that remove phosphorus from the waste stream.

It is therefore the intent of the legislature to impose a state-wide limit on the phosphorus content of household detergents. [1993 c 118 § 1.]

70.95L.010 Definitions. Unless the context clearly requires otherwise, the definitions in this section apply throughout RCW 70.95L.005 through 70.95L.030.

(1) "Department" means the department of ecology.

(2) "Dishwashing detergent" means a cleaning agent sold, used, or manufactured for the purpose of cleaning dishes, whether by hand or by household machine.

(3) "Laundry detergent" means a cleaning agent sold, used, or manufactured for the purpose of cleaning laundry, whether by hand or by household machine.

(4) "Person" means an individual, firm, association, copartnership, political subdivision, government agency, municipality, industry, public or private corporation, or any other entity whatsoever.

(5) "Phosphorus" means elemental phosphorus. [1993 c 118 § 2.]

70.95L.020 Phosphorus content regulated. (1) After July 1, 1994, a person may not sell or distribute for sale a laundry detergent that contains 0.5 percent or more phosphorus by weight.

(2) After July 1, 1994, a person may not sell or distribute for sale a dishwashing detergent that contains 8.7 percent or more phosphorous by weight.

(3) This section does not apply to the sale or distribution of detergents for commercial and industrial uses. [1993 c 118 § 3.]

70.95L.030 Notice to distributors and wholesalers. The department is responsible for notifying major distributors and wholesalers of the state-wide limit on phosphorus in detergents. [1993 c 118 § 4.]

70.95L.040 Injunction. The attorney general or appropriate city or county prosecuting attorney is authorized to bring an appropriate action to enjoin any violation of the provisions of RCW 70.95L.020. [1993 c 118 § 5.]

The department may limit admissions of such applicants or modify its programs in order to ensure that expenditures for services or programs do not exceed amounts appropriated by the legislature and are allocated by the department for such services or programs. The department may establish admission priorities in the event that the number of eligible applicants exceeds the limits set by the department. [1989 c 271 § 308; 1959 c 85 § 15.]

Alcoholism and drug addiction and support act: Chapter 74.50 RCW.

70.96A.010 Declaration of policy. It is the policy of this state that alcoholics and intoxicated persons may not be subjected to criminal prosecution solely because of their consumption of alcoholic beverages but rather should, within available funds, be afforded a continuum of treatment in order that they may lead normal lives as productive members of society. Within available funds, treatment should also be provided for drug addicts. [1989 c 271 § 304; 1972 ex.s. c 122 § 1.]

Severability—1989 c 271: See note following RCW 9.94A.310.

Chemical dependency benefit provisions

group disability contracts: RCW 48.21.160-48.21.190.

health care services contracts: RCW 48.44.240.

70.96A.011 Legislative finding and intent—Purpose of chapter. The legislature finds that the use of alcohol and other drugs has become a serious threat to the health of the citizens of the state of Washington. The use of psychoactive chemicals has been found to be a prime factor in the current AIDS epidemic. Therefore, a comprehensive statute to deal with alcoholism and other drug addiction is necessary.

The legislature agrees with the 1987 resolution of the American Medical Association that endorses the proposition that all chemical dependencies, including alcoholism, are diseases. It is the intent of the legislature to end the sharp distinctions between alcoholism services and other drug addiction services, to recognize that chemical dependency is a disease, and to insure that prevention and treatment services are available and are of high quality. It is the purpose of this chapter to provide the financial assistance necessary to enable the department of social and health services to provide a discrete program of alcoholism and other drug addiction services. [1989 c 270 § 1.]

70.96A.020 Definitions. For the purposes of this chapter the following words and phrases shall have the following meanings unless the context clearly requires otherwise:

(1) "Alcoholic" means a person who suffers from the disease of alcoholism.

(2) "Alcoholism" means a disease, characterized by a dependency on alcoholic beverages, loss of control over the amount and circumstances of use, symptoms of tolerance, physiological or psychological withdrawal, or both, if use is reduced or discontinued, and impairment of health or disruption of social or economic functioning.

(3) "Approved treatment program" means a discrete program of chemical dependency treatment provided by a treatment program certified by the department of social and health services as meeting standards adopted under this chapter.

(4) "Chemical dependency" means alcoholism or drug addiction, or dependence on alcohol and one or more other psychoactive chemicals, as the context requires.

(5) "Chemical dependency program" means expenditures and activities of the department designed and conducted to prevent or treat alcoholism and other drug addiction, including reasonable administration and overhead.

(6) "Department" means the department of social and health services.

(7) "Designated chemical dependency specialist" means a person designated by the county alcoholism and other drug addiction program coordinator designated under RCW 70.96A.310 to perform the commitment duties described in RCW 70.96A.140 and qualified to do so by meeting standards adopted by the department.

(8) "Director" means the person administering the chemical dependency program within the department.

(9) "Drug addict" means a person who suffers from the disease of drug addiction.

Reviser's note: This section was amended by 1996 c 133 § 33 and by 1996 c 178 § 23, each without reference to the other. Both amendments are incorporated in the publication of this section under RCW 1.12.025(2). For rule of construction, see RCW 1.12.025(1).

Effective date—1996 c 178: See note following RCW 18.35.110.

Findings—Short title—Intent—Construction—1996 c 133: See notes following RCW 13.32A.197.

Effective date—1994 c 231: "This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and shall take effect immediately [April 1, 1994]." [1994 c 231 § 3.]

Findings—1991 c 364: "The legislature finds that the use of alcohol and illicit drugs continues to be a primarycrippler of our youth. This translates into incredible costs to individuals, families, and society in terms of traffic fatalities, suicides, criminal activity including homicides, sexual promiscuity, familial incorrigibility, and conduct disorders, and educational fallout. Among children of all socioeconomic groups lower expectations for the future, low motivation and self-esteem, alienation, and depression are associated with alcohol and drug abuse.

Studies reveal that deaths from alcohol and other drug-related injuries rise sharply through adolescence, peaking in the early twenties. But second peak occurs in later life, where it accounts for three times as many deaths from chronic diseases. A young victim's life expectancy is likely to be reduced by an average of twenty-six years.

Yet the cost of treating alcohol and drug addicts can be recouped in the first three years of abstinence in health care savings alone. Public money spent on treatment saves not only the life of the chemical abuser, it makes us safer as individuals, and in the long-run costs less.

The legislature further finds that many children who abuse alcohol and other drugs may not require involuntary treatment, but still are not adequately served. These children remain at risk for future chemical dependency, and may become mentally ill or a juvenile offender or need out-of-home placement. Children placed at risk because of chemical abuse may be better served by the creation of a comprehensive integrated system for children in crisis.

The legislature declares that an emphasis on the treatment of youth will pay the largest dividend in terms of preventable costs to individuals themselves, their families, and to society. The provision of augmented involuntary alcohol treatment services to youths, as well as involuntary

treatment for youths addicted by other drugs, is in the interest of the public health and safety." [1991 c 364 § 7.]

Construction—1991 c 364 §§ 7-12: "The purpose of sections 7 through 12 of this act is solely to provide authority for the involuntary commitment of minors addicted by drugs within available funds and current programs and facilities. Nothing in sections 7 through 12 of this act shall be construed to require the addition of new facilities nor affect the department's authority for the uses of existing programs and facilities authorized by law. Nothing in sections 7 through 12 of this act shall prevent a parent or guardian from requesting the involuntary commitment of a minor through a county designated chemical dependency specialist on an ability to pay basis." [1991 c 364 § 13.]

Conflict with federal requirements—1991 c 364: "If any part of this act is found to be in conflict with federal requirements that are a prescribed condition to the allocation of federal funds to the state, the conflicting part of this act is inoperative solely to the extent of the conflict and with respect to the agencies directly affected, and this finding does not affect the operation of the remainder of this act in its application to the agencies concerned. The rules under this act shall meet federal requirements that are a necessary condition to the receipt of federal funds by the state." [1991 c 364 § 15.]

Severability—1989 c 271: See note following RCW 9.94A.310.

The consent of the minor child shall not be required for the application or admission. The certified treatment program shall accept the application and evaluate the child for admission. The ability of a parent to apply to a certified treatment program for the admission of his or her minor child does not create a right to obtain or benefit from any funds or resources of the state. However, the state may provide services for indigent minors to the extent that funds are available therefor.

(3) Any provider of outpatient treatment who provides outpatient treatment to a minor thirteen years of age or older shall provide notice of the minor's request for treatment to the minor's parents if: (a) The minor signs a written consent authorizing the disclosure; or (b) the treatment program director determines that the minor lacks capacity to make a rational choice regarding consenting to disclosure. The notice shall be made within seven days of the request for treatment, excluding Saturdays, Sundays, and holidays, and shall contain the name, location, and telephone number of the facility providing treatment, and the name of a professional person on the staff of the facility providing treatment who is designated to discuss the minor's need for treatment with the parent. (1) The admission of any child under RCW 70.96A.095 may be reviewed by the county-designated chemical dependency specialist between fifteen and thirty days following admission. The county-designated chemical dependency specialist may undertake the review on his or her own initiative and may seek reimbursement from the parents, their insurance, or medicaid for the expense of the review.

(2) The department shall ensure a review is conducted no later than sixty days following admission to determine whether it is medically appropriate to continue the child's treatment on an inpatient basis. The department may, subject to available funds, contract with a county for the conduct of the review conducted under this subsection and may seek reimbursement from the parents, their insurance, or medicaid for the expense of any review conducted by an agency under contract.

If the county-designated chemical dependency specialist determines that continued inpatient treatment of the child is no longer medically appropriate, the specialist shall notify the facility, the child, the child's parents, and the department of the finding within twenty-four hours of the determination.

(3) For purposes of eligibility for medical assistance under chapter 74.09 RCW, children in inpatient mental health or chemical dependency treatment shall be considered to be part of their parent's or legal guardian's household, unless the child has been assessed by the department of social and health services or its designee as likely to require such treatment for at least ninety consecutive days, or is in out-of-home care in accordance with chapter 13.34 RCW, or

the child's parents are found to not be exercising responsibility for care and control of the child. Payment for such care by the department of social and health services shall be made only in accordance with rules, guidelines, and clinical criteria applicable to inpatient treatment of minors established by the department. [1995 c 312 § 48.]

Short title—1995 c 312: See note following RCW 13.32A.010.

The secretary shall adopt and may amend and repeal rules for acceptance of persons into the approved treatment program, considering available treatment resources and facilities, for the purpose of early and effective treatment of alcoholics and other drug addicts, persons incapacitated by alcohol or other psychoactive chemicals, and intoxicated persons. In establishing the rules, the secretary shall be guided by the following standards:

(1) If possible a patient shall be treated on a voluntary rather than an involuntary basis.

(2) A patient shall be initially assigned or transferred to outpatient treatment, unless he or she is found to require residential treatment.

(3) A person shall not be denied treatment solely because he or she has withdrawn from treatment against medical advice on a prior occasion or because he or she has relapsed after earlier treatment.

(4) An individualized treatment plan shall be prepared and maintained on a current basis for each patient.

(5) Provision shall be made for a continuum of coordinated treatment services, so that a person who leaves a facility or a form of treatment will have available and use other appropriate treatment. [1989 c 270 § 23; 1972 ex.s. c 122 § 10.]

70.96A.110 Voluntary treatment of alcoholics or other drug addicts. (1) An alcoholic or other drug addict may apply for voluntary treatment directly to an approved treatment program. If the proposed patient is a minor or an incompetent person, he or she, a parent, a legal guardian, or other legal representative may make the application.

(2) Subject to rules adopted by the secretary, the administrator in charge of an approved treatment program may determine who shall be admitted for treatment. If a person is refused admission to an approved treatment program, the administrator, subject to rules adopted by the secretary, shall refer the person to another approved treatment program for treatment if possible and appropriate.

(3) If a patient receiving inpatient care leaves an approved treatment program, he or she shall be encouraged to consent to appropriate outpatient treatment. If it appears to the administrator in charge of the treatment program that the patient is an alcoholic or other drug addict who requires help, the department may arrange for assistance in obtaining supportive services and residential programs.

(4) If a patient leaves an approved public treatment program, with or against the advice of the administrator in charge of the program, the department may make reasonable provisions for his or her transportation to another program or to his or her home. If the patient has no home he or she should be assisted in obtaining shelter. If the patient is less than fourteen years of age or an incompetent person the

request for discharge from an inpatient program shall be made by a parent, legal guardian, or other legal representative or by the minor or incompetent if he or she was the original applicant. [1990 c 151 § 7; 1989 c 270 § 25; 1972 ex.s. c 122 § 11.]

(1) An intoxicated person may come voluntarily to an approved treatment program for treatment. A person who appears to be intoxicated in a public place and to be in need of help, if he or she consents to the proffered help, may be assisted to his or her home, an approved treatment program or other health facility.

(2) Except for a person who may be apprehended for possible violation of laws not relating to alcoholism, drug addiction, or intoxication and except for a person who may be apprehended for possible violation of laws relating to driving or being in physical control of a vehicle while under the influence of intoxicating liquor or any drug and except for a person who may wish to avail himself or herself of the provisions of RCW 46.20.308, a person who appears to be incapacitated or gravely disabled by alcohol or other drugs and who is in a public place or who has threatened, attempted, or inflicted physical harm on himself, herself, or another, shall be taken into protective custody by a peace officer or staff designated by the county and as soon as practicable, but in no event beyond eight hours brought to an approved treatment program for treatment. If no approved treatment program is readily available he or she shall be taken to an emergency medical service customarily used for incapacitated persons. The peace officer or staff designated by the county, in detaining the person and in taking him or her to an approved treatment program, is taking him or her into protective custody and shall make every reasonable effort to protect his or her health and safety. In taking the person into protective custody, the detaining peace officer or staff designated by the county may take reasonable steps including reasonable force if necessary to protect himself or herself or effect the custody. A taking into protective custody under this section is not an arrest. No entry or other record shall be made to indicate that the person has been arrested or charged with a crime.

(3) A person who comes voluntarily or is brought to an approved treatment program shall be examined by a qualified person. He or she may then be admitted as a patient or referred to another health facility, which provides emergency medical treatment, where it appears that such treatment may be necessary. The referring approved treatment program shall arrange for his or her transportation.

(4) A person who is found to be incapacitated or gravely disabled by alcohol or other drugs at the time of his or her admission or to have become incapacitated or gravely disabled at any time after his or her admission, may not be detained at the program for more than seventy-two hours after admission as a patient, unless a petition is filed under RCW 70.96A.140, as now or hereafter amended: PROVIDED, That the treatment personnel at an approved treatment program are authorized to use such reasonable physical restraint as may be necessary to retain an incapacitated or gravely disabled person for up to seventy-two hours

from the time of admission. The seventy-two hour periods specified in this section shall be computed by excluding Saturdays, Sundays, and holidays. A person may consent to remain in the program as long as the physician in charge believes appropriate.

(5) A person who is not admitted to an approved treatment program, is not referred to another health facility, and has no funds, may be taken to his or her home, if any. If he or she has no home, the approved treatment program shall provide him or her with information and assistance to access available community shelter resources.

(6) If a patient is admitted to an approved treatment program, his or her family or next of kin shall be notified as promptly as possible by the treatment program. If an adult patient who is not incapacitated requests that there be no notification, his or her request shall be respected.

(7) The peace officer, staff designated by the county, or treatment facility personnel, who act in compliance with this chapter and are performing in the course of their official duty are not criminally or civilly liable therefor.

(8) If the person in charge of the approved treatment program determines that appropriate treatment is available, the patient shall be encouraged to agree to further diagnosis and appropriate voluntary treatment. [1991 c 290 § 6; 1990 c 151 § 8; 1989 c 271 § 306; 1987 c 439 § 13; 1977 ex.s. c 62 § 1; 1974 ex.s. c 175 § 1; 1972 ex.s. c 122 § 12.]

Severability—1989 c 271: See note following RCW 9.94A.310.

70.96A.140 Involuntary commitment of persons incapacitated by chemical dependency. (1) When a designated chemical dependency specialist receives information alleging that a person is incapacitated as a result of chemical dependency, the designated chemical dependency specialist, after investigation and evaluation of the specific facts alleged and of the reliability and credibility of the information, may file a petition for commitment of such person with the superior court or district court.

If a petition for commitment is not filed in the case of a minor, the parent, guardian, or custodian who has custody of the minor may seek review of that decision made by the designated chemical dependency specialist in superior or district court. The parent, guardian, or custodian shall file notice with the court and provide a copy of the designated chemical dependency specialist's report.

If the designated chemical dependency specialist finds that the initial needs of such person would be better served by placement within the mental health system, the person shall be referred to an evaluation and treatment facility as defined in RCW 71.05.020 or 71.34.020. If placement in a chemical dependency program is available and deemed appropriate, the petition shall allege that: The person is chemically dependent and is incapacitated by alcohol or drug addiction, or that the person has twice before in the preceding twelve months been admitted for detoxification or chemical dependency treatment pursuant to RCW 70.96A.110, and is in need of a more sustained treatment program, or that the person is chemically dependent and has threatened, attempted, or inflicted physical harm on another and is likely to inflict physical harm on another unless committed. A refusal to undergo treatment, by itself, does not constitute evidence of lack of judgment as to the need

for treatment. The petition shall be accompanied by a certificate of a licensed physician who has examined the person within five days before submission of the petition, unless the person whose commitment is sought has refused to submit to a medical examination, in which case the fact of refusal shall be alleged in the petition. The certificate shall set forth the licensed physician's findings in support of the allegations of the petition. A physician employed by the petitioning program or the department is eligible to be the certifying physician.

(2) Upon filing the petition, the court shall fix a date for a hearing no less than two and no more than seven days after the date the petition was filed unless the person petitioned against is presently being detained in a program, pursuant to RCW 70.96A.120, 71.05.210, or 71.34.050, in which case the hearing shall be held within seventy-two hours of the filing of the petition: PROVIDED, HOWEVER, That the above specified seventy-two hours shall be computed by excluding Saturdays, Sundays, and holidays: PROVIDED FURTHER, That, the court may, upon motion of the person whose commitment is sought, or upon motion of petitioner with written permission of the person whose commitment is sought, or his or her counsel and, upon good cause shown, extend the date for the hearing. A copy of the petition and of the notice of the hearing, including the date fixed by the court, shall be served by the designated chemical dependency specialist on the person whose commitment is sought, his or her next of kin, a parent or his or her legal guardian if he or she is a minor, and any other person the court believes advisable. A copy of the petition and certificate shall be delivered to each person notified.

(3) At the hearing the court shall hear all relevant testimony, including, if possible, the testimony, which may be telephonic, of at least one licensed physician who has examined the person whose commitment is sought. Communications otherwise deemed privileged under the laws of this state are deemed to be waived in proceedings under this chapter when a court of competent jurisdiction in its discretion determines that the waiver is necessary to protect either the detained person or the public. The waiver of a privilege under this section is limited to records or testimony relevant to evaluation of the detained person for purposes of a proceeding under this chapter. Upon motion by the detained person, or on its own motion, the court shall examine a record or testimony sought by a petitioner to determine whether it is within the scope of the waiver.

The record maker shall not be required to testify in order to introduce medical, nursing, or psychological records of detained persons so long as the requirements of RCW 5.45.020 are met, except that portions of the record that contain opinions as to whether the detained person is chemically dependent shall be deleted from the records unless the person offering the opinions is available for cross-examination. The person shall be present unless the court believes that his or her presence is likely to be injurious to him or her; in this event the court may deem it appropriate to appoint a guardian ad litem to represent him or her throughout the proceeding. If deemed advisable, the court may examine the person out of courtroom. If the person has refused to be examined by a licensed physician, he or she shall be given an opportunity to be examined by a court appointed licensed physician. If he or she refuses and there

is sufficient evidence to believe that the allegations of the petition are true, or if the court believes that more medical evidence is necessary, the court may make a temporary order committing him or her to the department for a period of not more than five days for purposes of a diagnostic examination.

(4) If after hearing all relevant evidence, including the results of any diagnostic examination, the court finds that grounds for involuntary commitment have been established by clear, cogent, and convincing proof, it shall make an order of commitment to an approved treatment program. It shall not order commitment of a person unless it determines that an approved treatment program is available and able to provide adequate and appropriate treatment for him or her.

(5) A person committed under this section shall remain in the program for treatment for a period of sixty days unless sooner discharged. At the end of the sixty-day period, he or she shall be discharged automatically unless the program, before expiration of the period, files a petition for his or her recommitment upon the grounds set forth in subsection (1) of this section for a further period of ninety days unless sooner discharged.

If a petition for recommitment is not filed in the case of a minor, the parent, guardian, or custodian who has custody of the minor may seek review of that decision made by the designated chemical dependency specialist in superior or district court. The parent, guardian, or custodian shall file notice with the court and provide a copy of the treatment progress report.

If a person has been committed because he or she is chemically dependent and likely to inflict physical harm on another, the program shall apply for recommitment if after examination it is determined that the likelihood still exists.

(6) Upon the filing of a petition for recommitment under subsection (5) of this section, the court shall fix a date for hearing no less than two and no more than seven days after the date the petition was filed: PROVIDED, That, the court may, upon motion of the person whose commitment is sought and upon good cause shown, extend the date for the hearing. A copy of the petition and of the notice of hearing, including the date fixed by the court, shall be served by the treatment program on the person whose commitment is sought, his or her next of kin, the original petitioner under subsection (1) of this section if different from the petitioner for recommitment, one of his or her parents or his or her legal guardian if he or she is a minor, and his or her attorney and any other person the court believes advisable. At the hearing the court shall proceed as provided in subsection (3) of this section.

(7) The approved treatment program shall provide for adequate and appropriate treatment of a person committed to its custody. A person committed under this section may be transferred from one approved public treatment program to another if transfer is medically advisable.

(8) A person committed to the custody of a program for treatment shall be discharged at any time before the end of the period for which he or she has been committed and he or she shall be discharged by order of the court if either of the following conditions are met:

(a) In case of a chemically dependent person committed on the grounds of likelihood of infliction of physical harm upon himself, herself, or another, the likelihood no longer

exists; or further treatment will not be likely to bring about significant improvement in the person's condition, or treatment is no longer adequate or appropriate.

(b) In case of a chemically dependent person committed on the grounds of the need of treatment and incapacity, that the incapacity no longer exists.

(9) The court shall inform the person whose commitment or recommitment is sought of his or her right to contest the application, be represented by counsel at every stage of any proceedings relating to his or her commitment and recommitment, and have counsel appointed by the court or provided by the court, if he or she wants the assistance of counsel and is unable to obtain counsel. If the court believes that the person needs the assistance of counsel, the court shall require, by appointment if necessary, counsel for him or her regardless of his or her wishes. The person shall, if he or she is financially able, bear the costs of such legal service; otherwise such legal service shall be at public expense. The person whose commitment or recommitment is sought shall be informed of his or her right to be examined by a licensed physician of his or her choice. If the person is unable to obtain a licensed physician and requests examination by a physician, the court shall employ a licensed physician.

(10) A person committed under this chapter may at any time seek to be discharged from commitment by writ of habeas corpus in a court of competent jurisdiction.

(11) The venue for proceedings under this section is the county in which person to be committed resides or is present.

(12) When in the opinion of the professional person in charge of the program providing involuntary treatment under this chapter, the committed patient can be appropriately served by less restrictive treatment before expiration of the period of commitment, then the less restrictive care may be required as a condition for early release for a period which, when added to the initial treatment period, does not exceed the period of commitment. If the program designated to provide the less restrictive treatment is other than the program providing the initial involuntary treatment, the program so designated must agree in writing to assume such responsibility. A copy of the conditions for early release shall be given to the patient, the designated chemical dependency specialist of original commitment, and the court of original commitment. The program designated to provide less restrictive care may modify the conditions for continued release when the modifications are in the best interests of the patient. If the program providing less restrictive care and the designated chemical dependency specialist determine that a conditionally released patient is failing to adhere to the terms and conditions of his or her release, or that substantial deterioration in the patient's functioning has occurred, then the designated chemical dependency specialist shall notify the court of original commitment and request a hearing to be held no less than two and no more than seven days after the date of the request to determine whether or not the person should be returned to more restrictive care. The designated chemical dependency specialist shall file a petition with the court stating the facts substantiating the need for the hearing along with the treatment recommendations. The patient shall have the same rights with respect to notice, hearing, and counsel as for the original involuntary treatment proceedings.

The issues to be determined at the hearing are whether the conditionally released patient did or did not adhere to the terms and conditions of his or her release to less restrictive care or that substantial deterioration of the patient's functioning has occurred and whether the conditions of release should be modified or the person should be returned to a more restrictive program. The hearing may be waived by the patient and his or her counsel and his or her guardian or conservator, if any, but may not be waived unless all such persons agree to the waiver. Upon waiver, the person may be returned for involuntary treatment or continued on conditional release on the same or modified conditions. Purpose—Construction—1993 c 362: "The purpose of this act is solely to provide authority for the involuntary commitment of persons suffering from chemical dependency within available funds and current programs and facilities. Nothing in this act shall be construed to require the addition of new facilities nor affect the department of social and health services' authority for the uses of existing programs and facilities authorized by law." [1993 c 362 § 2.]

Findings—Construction—Conflict with federal requirements—1991 c 364: See notes following RCW 70.96A.020.

Severability—1989 c 271: See note following RCW 9.94A.310.

70.96A.145 Involuntary commitment proceedings—Prosecuting attorney may represent specialist or program. The prosecuting attorney of the county in which such action is taken may, at the discretion of the prosecuting attorney, represent the designated chemical dependency specialist or treatment program in judicial proceedings under RCW 70.96A.140 for the involuntary commitment or recommitment of an individual, including any judicial proceeding where the individual sought to be committed or recommitted challenges the action. [1993 c 137 § 1.]

70.96A.150 Records of alcoholics and intoxicated persons. (1) The registration and other records of treatment programs shall remain confidential. Records may be disclosed (a) in accordance with the prior written consent of the patient with respect to whom such record is maintained, (b) if authorized by an appropriate order of a court of competent jurisdiction granted after application showing good cause, (c) to comply with state laws mandating the reporting of suspected child abuse or neglect, or (d) when a patient commits a crime on program premises or against program personnel, or threatens to do so.

(2) Notwithstanding subsection (1) of this section, the secretary may receive information from patients' records for purposes of research into the causes and treatment of alcoholism and other drug addiction, verification of eligibility and appropriateness of reimbursement, and the evaluation of alcoholism and other drug treatment programs. Information under this subsection shall not be published in a way that discloses patients' names or otherwise discloses their identities.

(3) Nothing contained in this chapter relieves a person or firm from the requirements under federal regulations for the confidentiality of alcohol and drug abuse patient records. Obligations imposed on drug and alcohol treatment programs

and protections afforded alcohol and drug abuse patients under federal regulations apply to all programs approved by the department under RCW 70.96A.090. [1990 c 151 § 1; 1989 c 162 § 1; 1972 ex.s. c 122 § 15.]

70.96A.160 Visitation and communication with patients. (1) Subject to reasonable rules regarding hours of visitation which the secretary may adopt, patients in any approved treatment program shall be granted opportunities for adequate consultation with counsel, and for continuing contact with family and friends consistent with an effective treatment program.

(2) Neither mail nor other communication to or from a patient in any approved treatment program may be intercepted, read, or censored. The secretary may adopt reasonable rules regarding the use of telephone by patients in approved treatment programs. [1989 c 270 § 29; 1972 ex.s. c 122 § 16.]

70.96A.170 Emergency service patrol—Establishment—Rules. (1) The state and counties, cities, and other municipalities may establish or contract for emergency service patrols which are to be under the administration of the appropriate jurisdiction. A patrol consists of persons trained to give assistance in the streets and in other public places to persons who are intoxicated. Members of an emergency service patrol shall be capable of providing first aid in emergency situations and may transport intoxicated persons to their homes and to and from treatment programs.

(2) The secretary shall adopt rules pursuant to chapter 34.05 RCW for the establishment, training, and conduct of emergency service patrols. [1989 c 270 § 30; 1972 ex.s. c 122 § 17.]

70.96A.180 Payment for treatment—Financial ability of patients. (1) If treatment is provided by an approved treatment program and the patient has not paid or is unable to pay the charge therefor, the program is entitled to any payment (a) received by the patient or to which he may be entitled because of the services rendered, and (b) from any public or private source available to the program because of the treatment provided to the patient.

(2) A patient in a program, or the estate of the patient, or a person obligated to provide for the cost of treatment and having sufficient financial ability, is liable to the program for cost of maintenance and treatment of the patient therein in accordance with rates established.

(3) The secretary shall adopt rules governing financial ability that take into consideration the income, savings, and other personal and real property of the person required to pay, and any support being furnished by him to any person he is required by law to support. [1990 c 151 § 6; 1989 c 270 § 31; 1972 ex.s. c 122 § 18.]

70.96A.190 Criminal laws limitations. (1) No county, municipality, or other political subdivision may adopt or enforce a local law, ordinance, resolution, or rule having the force of law that includes drinking, being an alcoholic or drug addict, or being found in an intoxicated

condition as one of the elements of the offense giving rise to a criminal or civil penalty or sanction.

(2) No county, municipality, or other political subdivision may interpret or apply any law of general application to circumvent the provision of subsection (1) of this section.

(3) Nothing in this chapter affects any law, ordinance, resolution, or rule against drunken driving, driving under the influence of alcohol or other psychoactive chemicals, or other similar offense involving the operation of a vehicle, aircraft, boat, machinery, or other equipment, or regarding the sale, purchase, dispensing, possessing, or use of alcoholic beverages or other psychoactive chemicals at stated times and places or by a particular class of persons; nor shall evidence of intoxication affect, other than as a defense, the application of any law, ordinance, resolution, or rule to conduct otherwise establishing the elements of an offense. [1989 c 270 § 32; 1972 ex.s. c 122 § 19.]

70.96A.300 Counties may create alcoholism and other drug addiction board—Generally. (1) A county or combination of counties acting jointly by agreement, referred to as "county" in this chapter, may create an alcoholism and other drug addiction board. This board may also be designated as a board for other related purposes.

(2) The board shall be composed of not less than seven nor more than fifteen members, who shall be chosen for their demonstrated concern for alcoholism and other drug addiction problems. Members of the board shall be representative of the community, shall include at least one-quarter recovered alcoholics or other recovered drug addicts, and shall include minority group representation. No member may be a provider of alcoholism and other drug addiction treatment services. No more than four elected or appointed city or county officials may serve on the board at the same time. Members of the board shall serve three-year terms and hold office until their successors are appointed and qualified. They shall not be compensated for the performance of their duties as members of the board, but may be reimbursed for travel expenses.

(3) The alcoholism and other drug addiction board shall:

(a) Conduct public hearings and other investigations to determine the needs and priorities of county citizens;

(b) Prepare and recommend to the county legislative authority for approval, all plans, budgets, and applications by the county to the department and other state agencies on behalf of the county alcoholism and other drug addiction program;

(c) Monitor the implementation of the alcoholism and other drug addiction plan and evaluate the performance of the alcoholism and drug addiction program at least annually;

(d) Advise the county legislative authority and county alcoholism and other drug addiction program coordinator on matters relating to the alcoholism and other drug addiction program, including prevention and education;

(e) Nominate individuals to the county legislative authority for the position of county alcoholism and other drug addiction program coordinator. The nominees should have training and experience in the administration of alcoholism and other drug addiction services and shall meet the minimum qualifications established by rule of the department;

(f) Carry out other duties that the department may prescribe by rule. [1989 c 270 § 15.]

70.96A.310 County alcoholism and other drug addiction program—Chief executive officer of program to be program coordinator. (1) The chief executive officer of the county alcoholism and other drug addiction program shall be the county alcoholism and other drug addiction program coordinator. The coordinator shall:

(a) In consultation with the county alcoholism and other drug addiction board, provide general supervision over the county alcoholism and other drug addiction program;

(b) Prepare plans and applications for funds to support the alcoholism and other drug addiction program in consultation with the county alcoholism and other drug addiction board;

(c) Monitor the delivery of services to assure conformance with plans and contracts and, at the discretion of the board, but at least annually, report to the alcoholism and other drug addiction board the results of the monitoring;

(d) Provide staff support to the county alcoholism and other drug addiction board.

(2) The county alcoholism and other drug addiction program coordinator shall be appointed by the county legislative authority from nominations by the alcoholism and other drug addiction program board. The coordinator may serve on either a full-time or part-time basis. Only with the prior approval of the secretary may the coordinator be an employee of a government or private agency under contract with the department to provide alcoholism or other drug addiction services. [1989 c 270 § 16.]

70.96A.320 Alcoholism and other drug addiction program—Generally. (1) A county legislative authority, or two or more counties acting jointly, may establish an alcoholism and other drug addiction program. If two or more counties jointly establish the program, they shall designate one county to provide administrative and financial services.

(2) To be eligible for funds from the department for the support of the county alcoholism and other drug addiction program, the county legislative authority shall establish a county alcoholism and other drug addiction board under RCW 70.96A.300 and appoint a county alcoholism and other drug addiction program coordinator under RCW 70.96A.310.

(3) The county legislative authority may apply to the department for financial support for the county program of alcoholism and other drug addiction. To receive financial support, the county legislative authority shall submit a plan that meets the following conditions:

(a) It shall describe the services and activities to be provided;

(b) It shall include anticipated expenditures and revenues;

(c) It shall be prepared by the county alcoholism and other drug addiction program board and be adopted by the county legislative authority;

(d) It shall reflect maximum effective use of existing services and programs; and

(e) It shall meet other conditions that the secretary may require.

(4) The county may accept and spend gifts, grants, and fees, from public and private sources, to implement its program of alcoholism and other drug addiction.

(5) The county may subcontract for detoxification, residential treatment, or outpatient treatment with treatment programs that are approved treatment programs. The county may subcontract for other services with individuals or organizations approved by the department.

(6) To continue to be eligible for financial support from the department for the county alcoholism and other drug addiction program, an increase in state financial support shall not be used to supplant local funds from a source that was used to support the county alcoholism and other drug addiction program before the effective date of the increase. [1990 c 151 § 9; 1989 c 270 § 17.]

70.96A.400 Opiate substitution treatment—Declaration of regulation by state. The state of Washington declares that there is no fundamental right to opiate substitution treatment. The state of Washington further declares that while methadone and other like pharmacological drugs, used in the treatment of opiate dependency are addictive substances, that they nevertheless have several legal, important, and justified uses and that one of their appropriate and legal uses is, in conjunction with other required therapeutic procedures, in the treatment of persons addicted to or habituated to opioids.

Because methadone and other like pharmacological drugs, used in the treatment of opiate dependency are addictive and are listed as a schedule II controlled substance in chapter 69.50 RCW, the state of Washington and authorizing counties on behalf of their citizens have the legal obligation and right to regulate the use of opiate substitution treatment. The state of Washington declares its authority to control and regulate carefully, in cooperation with the authorizing counties, all clinical uses of methadone and other pharmacological drugs used in the treatment of opiate addiction.

Further, the state declares that the primary goal of opiate substitution treatment is total abstinence from chemical dependency for the individuals who participate in the treatment program. The state recognizes that a small percentage of persons who participate in opiate substitute [substitution] treatment programs require treatment for an extended period of time. Opiate substitution treatment programs shall provide a comprehensive transition program to eliminate chemical dependency; including opiate and opiate substitute addiction of program participants. [1995 c 321 § 1; 1989 c 270 § 20.]

70.96A.410 Opiate substitution treatment—Counties may restrict or limit—Definition of opiate substitution treatment. (1) A county legislative authority may prohibit opiate substitution treatment in that county. The department shall not certify an opiate substitution treatment program in a county where the county legislative authority has prohibited opiate substitution treatment. If a county legislative authority authorizes opiate substitution treatment programs, it shall limit by ordinance the number of opiate substitution treatment programs operating in that county by limiting the number of licenses granted in that county. If a county has

authorized opiate substitution treatment programs in that county, it shall only license opiate substitution treatment programs that comply with the department's operating and treatment standards under this section and RCW 70.96A.420. A county that authorizes opiate substitution treatment may operate the programs directly or through a local health department or health district or it may authorize certified opiate substitution treatment programs that the county licenses to provide the services within the county. Counties shall monitor opiate substitution treatment programs for compliance with the department's operating and treatment regulations under this section and RCW 70.96A.420.

(2) A county that authorizes opiate substitution treatment programs shall develop and enact by ordinance licensing standards, consistent with this chapter and the operating and treatment standards adopted under this chapter, that govern the application for, issuance of, renewal of, and revocation of the licenses. Certified programs existing before May 18, 1987, applying for renewal of licensure in subsequent years, that maintain certification and meet all other requirements for licensure, shall be given preference.

(3) In certifying programs, the department shall not discriminate against an opiate substitution treatment program on the basis of its corporate structure. In licensing programs, the county shall not discriminate against an opiate substitution treatment program on the basis of its corporate structure.

(4) A program applying for certification from the department and a program applying for a contract from a state agency that has been denied the certification or contract shall be provided with a written notice specifying the rationale and reasons for the denial. A program applying for a license or a contract from a county that has been denied the license or contract shall be provided with a written notice specifying the rationale and reasons for the denial.

(5) A license is effective for one calendar year from the date of issuance. The license shall be renewed in accordance with the provisions of this section for initial approval; the goals for treatment programs under RCW 70.96A.400; the standards set forth in RCW 70.96A.420; and the rules adopted by the secretary.

(6) For the purpose of this chapter, opiate substitution treatment means dispensing an opiate substitution drug approved by the federal drug administration for the treatment of opiate addiction and providing a comprehensive range of medical and rehabilitative services. [1995 c 321 § 2; 1989 c 270 § 21.]

70.96A.420 State-wide treatment and operating standards for opiate substitution programs—Evaluation and reports. (1) The department, in consultation with opiate substitution treatment service providers and counties authorizing opiate substitution treatment programs, shall establish state-wide treatment standards for opiate substitution treatment programs. The department and counties that authorize opiate substitution treatment programs shall enforce these treatment standards. The treatment standards shall include, but not be limited to, reasonable provisions for all appropriate and necessary medical procedures, counseling requirements, urinalysis, and other suitable tests as needed to ensure compliance with this chapter. A opiate substitution

treatment program shall not have a caseload in excess of three hundred fifty persons.

(2) The department, in consultation with opiate substitution treatment programs and counties authorizing opiate substitution treatment programs, shall establish state-wide operating standards for opiate substitution treatment programs. The department and counties that authorize opiate substitution treatment programs shall enforce these operating standards. The operating standards shall include, but not be limited to, reasonable provisions necessary to enable the department and authorizing counties to monitor certified and licensed opiate substitution treatment programs for compliance with this chapter and the treatment standards authorized by this chapter and to minimize the impact of the opiate substitution treatment programs upon the business and residential neighborhoods in which the program is located.

(3) The department shall establish criteria for evaluating the compliance of opiate substitute [substitution] treatment programs with the goals and standards established under this chapter. As a condition of certification, opiate substitution programs shall submit an annual report to the department and county legislative authority, including data as specified by the department necessary for outcome analysis. The department shall analyze and evaluate the data submitted by each treatment program and take corrective action where necessary to ensure compliance with the goals and standards enumerated under this chapter. Before January 1 of each year, the department shall submit an annual report to the legislature, including the outcome analysis of each treatment program. [1995 c 321 § 3; 1989 c 270 § 22.]

70.96A.430 Inability to contribute to cost no bar to admission—Department may limit admissions. The department shall not refuse admission for diagnosis, evaluation, guidance or treatment to any applicant because it is determined that the applicant is financially unable to contribute fully or in part to the cost of any services or facilities available under the program on alcoholism.

The department may limit admissions of such applicants or modify its programs in order to ensure that expenditures for services or programs do not exceed amounts appropriated by the legislature and are allocated by the department for such services or programs. The department may establish admission priorities in the event that the number of eligible applicants exceeds the limits set by the department. [1989 c 271 § 308; 1959 c 85 § 15. Formerly RCW 70.96.150.]

Reviser's note: This section was also repealed by 1989 c 270 § 35, without cognizance of its amendment by 1989 c 271 § 308; and subsequently recodified pursuant to 1993 c 131 § 1. For rule of construction concerning sections amended and repealed in the same legislative session, see RCW 1.12.025.

70.96A.500 Fetal alcohol screening and assessment services. (1) The department shall contract with the University of Washington fetal alcohol syndrome clinic to provide fetal alcohol exposure screening and assessment services. The University indirect charges shall not exceed ten percent of the total contract amount. The contract shall require the University of Washington fetal alcohol syndrome clinic to provide the following services:

(a) Training for health care staff in community-based fetal alcohol exposure clinics to ensure the accurate diagnosis of individuals with fetal alcohol exposure and the development and implementation of appropriate service referral plans;

(b) Development of written or visual educational materials for the individuals diagnosed with fetal alcohol exposure and their families or caregivers;

(c) Systematic information retrieval from each community clinic to (i) maintain diagnostic accuracy and reliability across all community clinics, (ii) facilitate the development of effective and efficient screening tools for population-based identification of individuals with fetal alcohol exposure, (iii) facilitate identification of the most clinically efficacious and cost-effective educational, social, vocational, and health service interventions for individuals with fetal alcohol exposure;

(d) Based on available funds, establishment of a network of community-based fetal alcohol exposure clinics across the state to meet the demand for fetal alcohol exposure diagnostic and referral services; and

(e) Preparation of an annual report for submission to the department of health, the department of social and health services, the department of corrections, and the office of the superintendent of public instruction which includes the information retrieved under subsection (1)(c) of this section.

(2) The department shall submit to the legislature, by January 1, 1996, a copy of the governor's fetal alcohol syndrome advisory board report. [1995 c 54 § 2.]

Findings—Purpose—1995 c 54: "The legislature finds that fetal alcohol exposure is among the leading known causes of mental retardation in the children of our state. The legislature further finds that individuals with undiagnosed fetal alcohol exposure suffer substantially from secondary disabilities such as child abuse and neglect, separation from families, multiple foster placements, depression, aggression, school failure, juvenile detention, and job instability. These secondary disabilities come at a high cost to the individuals, their family, and society. The legislature finds that these problems can be reduced substantially by early diagnosis and receipt of appropriate, effective intervention.

The purpose of this act is to support current public and private efforts directed at the early identification of and intervention into the problems associated with fetal alcohol exposure through the creation of a fetal alcohol exposure clinical network." [1995 c 54 § 1.]

70.96A.510 Interagency agreement on fetal alcohol exposure programs. The department of social and health services, the department of health, the department of corrections, and the office of the superintendent of public instruction shall execute an interagency agreement to ensure the coordination of identification, prevention, and intervention programs for children who have fetal alcohol exposure, and for women who are at high risk of having children with fetal alcohol exposure.

The interagency agreement shall provide a process for community advocacy groups to participate in the review and development of identification, prevention, and intervention programs administered or contracted for by the agencies executing this agreement. [1995 c 54 § 3.]

Findings—Purpose—1995 c 54: See note following RCW 70.96A.500.

70.96A.905 Uniform application of chapter—Training for county-designated mental health professionals. The department shall ensure that the provisions of this chapter are applied by the counties in a consistent and uniform manner. The department shall also ensure that, to the extent possible within available funds, the county-designated chemical dependency specialists are specifically trained in adolescent chemical dependency issues, the chemical

dependency commitment laws, and the criteria for commitment. [1992 c 205 § 306.]

Part headings not law—Severability—1992 c 205: See notes following RCW 13.40.010.

70.96A.910 Application and construction. This act shall be so applied and construed as to effectuate its general purpose to make uniform the law with respect to the subject of this act among those states which enact it. [1972 ex.s. c 122 § 22.]

70.96A.915 Department allocation of funds—Construction. The department is authorized to allocate appropriated funds in the manner that it determines best meets the purposes of this chapter. Nothing in this chapter shall be construed to entitle any individual to services authorized in this chapter, or to require the department or its contractors to reallocate funds in order to ensure that services are available to any eligible person upon demand. [1989 c 271 § 309.]

Severability—1989 c 271: See note following RCW 9.94A.310.

70.96A.920 Severability—1972 ex.s. c 122. If any provision of this act or the application thereof to any person or circumstance is held invalid, the invalidity does not affect other provisions or applications of the act which can be given effect without the invalid provision or application, and to this end the provisions of this act are severable. [1972 ex.s. c 122 § 20.]

70.96A.930 Section, subsection headings not part of law. Section or subsection headings as used in this chapter do not constitute any part of the law. [1972 ex.s. c 122 § 27.]

[1990 c 173 § 2; 1989 c 175 § 132; 1985 c 383 § 1; 1985 c 372 § 1; 1971 ex.s. c 189 § 10; 1970 ex.s. c 18 § 16; 1965 c 88 § 3; 1961 c 207 § 5.]

Finding—1990 c 173: "The legislature finds that concern has been raised over possible health effects resulting from exposure to nonionizing radiation, and specifically exposure to electric and magnetic fields. The legislature further finds that there is no clear responsibility in state government for following this issue and that this responsibility is best suited for the department of health." (1) The agency shall provide by rule or regulation for general or specific licensing of byproduct, source, special nuclear materials, or devices or equipment utilizing such materials, or other radioactive material occurring naturally or produced artificially. Such rule or regulation shall provide for amendment, suspension, or revocation of licenses. Such rule or regulation shall provide that:

(a) Each application for a specific license shall be in writing and shall state such information as the agency, by rule or regulation, may determine to be necessary to decide the technical, insurance, and financial qualifications, or any other qualification of the applicant as the agency may deem reasonable and necessary to protect the occupational and public health and safety. The agency may at any time after the filing of the application, and before the expiration of the license, require further written statements and shall make such inspections as the agency deems necessary in order to determine whether the license should be granted or denied or whether the license should be modified, suspended, or revoked. In no event shall the agency grant a specific license to any applicant who has never possessed a specific license issued by a recognized state or federal authority until the agency has conducted an inspection which insures that the applicant can meet the rules, regulations and standards adopted pursuant to this chapter. All applications and statements shall be signed by the applicant or licensee. The agency may require any applications or statements to be made under oath or affirmation;

(b) Each license shall be in such form and contain such terms and conditions as the agency may by rule or regulation prescribe;

(c) No license issued under the authority of this chapter and no right to possess or utilize sources of ionizing radiation granted by any license shall be assigned or in any manner disposed of; and

(d) The terms and conditions of all licenses shall be subject to amendment, revision, or modification by rules, regulations or orders issued in accordance with the provisions of this chapter.

(2) Before the agency issues a license to an applicant under this section, it shall give notice of such application to the chief executive officer of the incorporated city or town, if the application is for a license within an incorporated city or town, or to the county legislative authority, if the application is for a license outside the boundaries of incorporated cities or towns. The incorporated city or town, through the official or employee selected by it, or the county legislative authority or the official or employee selected by it, shall have the right to file with the agency within twenty days after date of transmittal of such notice, written objections against the applicant or against the activity for which the license is sought, and shall include with such objections a statement of all facts upon which such objections are based, and in case written objections are filed, may request and the agency may in its discretion hold a formal hearing under chapter 34.05 RCW. Upon the granting of a license under this section the agency shall send a duplicate of the license or written notification to the chief executive officer of the incorporated city or town in which the license is granted, or to the county legislative authority if the license is granted outside the boundaries of incorporated cities or towns.

This subsection shall not apply to activities conducted within the boundaries of the Hanford reservation.

(3) The agency may require registration of all sources of ionizing radiation.

(4) The agency may exempt certain sources of ionizing radiation or kinds of uses or users from the registration or licensing requirements set forth in this section when the agency makes a finding after approval of the technical advisory board that the exemption of such sources of ionizing radiation or kinds of uses or users will not constitute a significant risk to the health and safety of the public.

(5) In promulgating rules and regulations pursuant to this chapter the agency shall, insofar as practical, strive to avoid requiring dual licensing, and shall provide for such recognition of other state or federal licenses as the agency shall deem desirable, subject to such registration requirements as the agency may prescribe. [1984 c 96 § 1; 1965 c 88 § 5; 1961 c 207 § 8.]

70.98.085 Suspension and reinstatement of site use permits—Surveillance fee. (1) The agency is empowered to suspend and reinstate site use permits consistent with current regulatory practices and in coordination with the department of ecology, for generators, packagers, or brokers using the Hanford low-level radioactive waste disposal facility.

(2) The agency shall collect a surveillance fee as an added charge on each cubic foot of low level radioactive waste disposed of at the disposal site in this state which shall be set at a level that is sufficient to fund completely the

radiation control activities of the agency directly related to the disposal site, including but not limited to the management, licensing, monitoring, and regulation of the site. The surveillance fee shall not exceed five percent in 1990, six percent in 1991, and seven percent in 1992 of the basic minimum fee charged by an operator of a low-level radioactive waste disposal site in this state. The basic minimum fee consists of the disposal fee for the site operator, the fee for the perpetual care and maintenance fund administered by the state, the fee for the state closure fund, and the tax collected pursuant to chapter 82.04 RCW. Site use permit fees and surcharges collected under chapter 43.200 RCW are not part of the basic minimum fee. The fee shall also provide funds to the Washington state patrol for costs incurred from inspection of low-level radioactive waste shipments entering this state. Disbursements for this purpose shall be by authorization of the secretary of the department of health or the secretary's designee.

The agency may adopt such rules as are necessary to carry out its responsibilities under this section. [1990 c 21 § 7; 1989 c 106 § 1; 1986 c 2 § 2; 1985 c 383 § 3.]

The agency or its duly authorized representative shall have the power to enter at all reasonable times upon any private or public property for the purpose of determining whether or not there is compliance with or violation of the provisions of this chapter and rules and regulations issued thereunder. [1985 c 372 § 2; 1961 c 207 § 9.]

Severability—1985 c 372: See note following RCW 70.98.050.

70.98.095 Financial assurance—Noncompliance. (1) The radiation control agency may require any person who applies for, or holds, a license under this chapter to demonstrate that the person has financial assurance sufficient to assure that liability incurred as a result of licensed operations and activities can be fully satisfied. Financial assurance may be in the form of insurance, cash deposits, surety bonds, corporate guarantees, letters of credit, or other financial instruments or guarantees determined by the agency to be acceptable financial assurance. The agency may require financial assurance in an amount determined by the secretary pursuant to RCW 70.98.098.

(2) The radiation control agency shall refuse to issue a license or permit or suspend the license or permit of any person required by this section to demonstrate financial assurance who fails to demonstrate compliance with this section. The license or permit shall not be issued or reinstated until the person demonstrates compliance with this section.

(3) The radiation control agency shall require (a) that any person required to demonstrate financial assurance, maintain with the agency current copies of any insurance policies, certificates of insurance, letters of credit, surety bonds, or any other documents used to comply with this section, (b) that the agency be notified of any changes in the financial assurance or financial condition of the person, and (c) that the state be named as an insured party on any insurance policy used to comply with this section. [1992 c 61 § 3; 1990 c 82 § 4; 1986 c 191 § 3.]

70.98.098 Financial assurance—Generally. (1) In making the determination of the appropriate level of financial assurance, the secretary shall consider: (a) The report prepared by the department of ecology pursuant to RCW 43.200.200; (b) the potential cost of decontamination, treatment, disposal, decommissioning, and cleanup of facilities or equipment; (c) federal cleanup and decommissioning requirements; and (d) the legal defense cost, if any, that might be paid from the required financial assurance.

(2) The secretary may establish different levels of required financial assurance for various classes of permit or license holders.

(3) The secretary shall establish by rule the instruments or mechanisms by which a person may demonstrate financial assurance as required by RCW 70.98.095. [1992 c 61 § 4; 1990 c 82 § 3.]

70.98.100 Records. (1) The agency shall require each person who possesses or uses a source of ionizing radiation to maintain necessary records relating to its receipt, use, storage, transfer, or disposal and such other records as the agency may require which will permit the determination of the extent of occupational and public exposure from the radiation source. Copies of these records shall be submitted to the agency on request. These requirements are subject to such exemptions as may be provided by rules.

(2) The agency may by rule and regulation establish standards requiring that personnel monitoring be provided for any employee potentially exposed to ionizing radiation and may provide for the reporting to any employee of his radiation exposure record. [1961 c 207 § 10.]

70.98.110 Federal-state agreements—Authorized—Effect as to federal licenses. (1) The governor, on behalf of this state, is authorized to enter into agreements with the federal government providing for discontinuance of certain of the federal government's responsibilities with respect to sources of ionizing radiation and the assumption thereof by this state pursuant to this chapter.

(2) Any person who, on the effective date of an agreement under subsection (1) above, possesses a license issued by the federal government shall be deemed to possess the same pursuant to a license issued under this chapter which shall expire either ninety days after the receipt from the state radiation control agency of a notice of expiration of such license or on the date of expiration specified in the federal license, whichever is earlier. [1965 c 88 § 6; 1961 c 207 § 11.]

70.98.120 Inspection agreements and training programs. (1) The agency is authorized to enter into an agreement or agreements with the federal government, other states, or interstate agencies, whereby this state will perform on a cooperative basis with the federal government, other states, or interstate agencies, inspections or other functions relating to control of sources of ionizing radiation.

(2) The agency may institute training programs for the purpose of qualifying personnel to carry out the provisions

of this chapter and may make said personnel available for participation in any program or programs of the federal government, other states, or interstate agencies in furtherance of the purposes of this chapter. [1961 c 207 § 12.]

70.98.122 Department of ecology to seek federal funding for environmental radiation monitoring. The department of ecology shall seek federal funding, such as is available under the clean air act (42 U.S.C. Sec. 1857 et seq.) and the nuclear waste policy act (42 U.S.C. Sec. 10101 et seq.) to carry out the purposes of *RCW 70.98.050(4)(c). [1985 c 372 § 3.]

(1) The agency shall seek federal financial assistance as authorized by the nuclear waste policy act of 1982, P.L. 97-425 section 116(c), for activities related to the high-level radioactive waste program in the state of Washington. The activities for which federal funding is sought shall include, but are not limited to, the development of a radiological baseline for the Hanford reservation; the implementation of a program to monitor ionizing radiation emissions on the Hanford reservation; the collection of statistical data and epidemiological research, where available, on diseases that result from exposure to sources of ionizing radiation on the Hanford reservation.

(2) In the event the federal government refuses to grant financial assistance for the activities under subsection (1) of this section, the agency is directed to investigate potential legal action. [1985 c 383 § 2.]

70.98.130 Administrative procedure. In any proceeding under this chapter for the issuance or modification or repeal of rules relating to control of sources of ionizing radiation, the agency shall comply with the requirements of chapter 34.05 RCW, the Administrative Procedure Act.

Notwithstanding any other provision of this chapter, whenever the agency finds that an emergency exists requiring immediate action to protect the public health, safety, or general welfare, the agency may, in accordance with RCW 34.05.350 without notice or hearing, adopt a rule reciting the existence of such emergency and require that such action be taken as is necessary to meet the emergency. As specified in RCW 34.05.350, such rules are effective immediately. [1989 c 175 § 133; 1961 c 207 § 13.]

Effective date—1989 c 175: See note following RCW 34.05.010.

Notwithstanding the existence or use of any other remedy, whenever any person has engaged in, or is about to engage in, any acts or practices which constitute or will constitute a violation of any provision of this chapter, or any rule, regulation, or order issued thereunder, the attorney general upon the request of the agency, after notice to such person and opportunity to comply, may make application to the appropriate court for an order enjoining such acts or practices, or for an order directing compliance, and upon a showing by the agency that such person has engaged in, or is about to

engage in, any such acts or practices, a permanent or temporary injunction, restraining order, or other order may be granted. [1961 c 207 § 14.]

70.98.150 Prohibited uses. It shall be unlawful for any person to use, manufacture, produce, transport, transfer, receive, acquire, own, or possess any source of ionizing radiation unless licensed by or registered with, or exempted by the agency in accordance with the provisions of this chapter. Radioactive and hazardous waste emergency response programs, state coordinator: RCW 38.52.030.

Uranium and thorium mill tailings—Licensing and perpetual care: Chapter 70.121 RCW.

70.99.010 Finding. The people of the state of Washington find that:

(1) Radioactive wastes are highly dangerous, in that releases of radioactive materials and emissions to the environment are inimical to the health and welfare of the people of the state of Washington, and contribute to the occurrences of harmful diseases, including excessive cancer and leukemia. The dangers posed by the transportation and presence of radioactive wastes are increased further by the long time periods that the wastes remain radioactive and highly dangerous;

(2) Transporting, handling, storing, or otherwise caring for radioactive waste presents a hazard to the health, safety, and welfare of the individual citizens of the state of Washington because of the ever-present risk that an accident or incident will occur while the wastes are being cared for;

(3) The likelihood that an accident will occur in this state involving the release of radioactive wastes to the environment becomes greater as the volume of wastes transported, handled, stored, or otherwise cared for in this state increases;

(4) The effects of unplanned releases of radioactive wastes into the environment, especially into the air and water of the state, are potentially both widespread and harmful to the health, safety, and welfare of the citizens of this state.

The burdens and hazards posed by increasing the volume of radioactive wastes transported, handled, stored, or otherwise cared for in this state by the importation of such wastes from outside this state is not a hazard the state government may reasonably ask its citizens to bear. The people of the state of Washington believe that the principles of federalism do not require the sacrifice of the health, safety, and welfare of the people of one state for the convenience of other states or nations. [1981 c 1 § 1 (Initiative Measure No. 383, approved November 4, 1980).]

70.99.020 Definitions. The definitions set forth in this section apply throughout this chapter.

(1) "Radioactive waste" means unwanted radioactive material, including radioactive residues produced as a result of electric power generation or other reactor operation.

(2) "Medical waste" means radioactive waste from all therapy, diagnosis, or research in medical fields and radioactive waste which results from the production and manufacture of radioactive material used for therapy, diagnosis, or research in medical fields, except that "medical waste" does not include spent fuel or waste from the fuel of an isotope production reactor.

(3) "Radioactive waste generated or otherwise produced outside the geographic boundaries of the state of Washington" means radioactive waste which was located outside the state of Washington at the time of removal from a reactor vessel. [1981 c 1 § 2 (Initiative Measure No. 383, approved November 4, 1980).]

70.99.030 Storage of radioactive waste from outside the state prohibited—Exceptions. Notwithstanding any law, order, or regulation to the contrary, after July 1, 1981, no area within the geographic boundaries of the state of Washington may be used by any person or entity as a temporary, interim, or permanent storage site for radioactive waste, except medical waste, generated or otherwise produced outside the geographic boundaries of the state of Washington. This section does not apply to radioactive waste stored within the state of Washington prior to July 1, 1981. [1981 c 1 § 3 (Initiative Measure No. 383, approved November 4, 1980).]

70.99.040 Transportation of radioactive waste from outside the state for storage within the state prohibited—Exception. Notwithstanding any law, order, or regulation to the contrary, after July 1, 1981, no person or entity may

transport radioactive waste, except medical waste, generated or otherwise produced outside the geographic boundaries of the state of Washington to any site within the geographic boundaries of the state of Washington for temporary, interim, or permanent storage. [1981 c 1 § 4 (Initiative Measure No. 383, approved November 4, 1980).]

70.99.050 Violations—Penalties—Injunctions—Jurisdiction and venue—Fees and costs. (1) A violation of or failure to comply with the provisions of RCW 70.99.030 or 70.99.040 is a gross misdemeanor.

(2) Any person or entity that violates or fails to comply with the provisions of RCW 70.99.030 or 70.99.040 is subject to a civil penalty of one thousand dollars for each violation or failure to comply.

(3) Each day upon which a violation occurs constitutes a separate violation for the purposes of subsections (1) and (2) of this section.

(4) Any person or entity violating this chapter may be enjoined from continuing the violation. The attorney general or any person residing in the state of Washington may bring an action to enjoin violations of this chapter, on his or her own behalf and on the behalf of all persons similarly situated. Such action may be maintained in the person's own name or in the name of the state of Washington. No bond may be required as a condition to obtaining any injunctive relief. The superior courts have jurisdiction over actions brought under this section, and venue shall lie in the county of the plaintiff's residence, in the county in which the violation is alleged to occur, or in Thurston county. In addition to other relief, the court in its discretion may award attorney's and expert witness fees and costs of the suit to a party who demonstrates that a violation of this chapter has occurred. [1981 c 1 § 5 (Initiative Measure No. 383, approved November 4, 1980).]

70.99.060 Interstate compact for regional storage. Notwithstanding the other provisions of this chapter, the state of Washington may enter into an interstate compact, which will become effective upon ratification by a majority of both houses of the United States Congress, to provide for the regional storage of radioactive wastes. [1981 c 1 § 6 (Initiative Measure No. 383, approved November 4, 1980).]

Northwest Interstate Compact on Low-Level Radioactive Waste Management: Chapter 43.145 RCW.

70.99.900 Construction—1981 c 1. This chapter shall be liberally construed to protect the health, safety, and welfare of the individual citizens of the state of Washington. [1981 c 1 § 7 (Initiative Measure No. 383, approved November 4, 1980).]

70.99.905 Severability—1981 c 1. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected. [1981 c 1 § 8 (Initiative Measure No. 383, approved November 4, 1980).]

70.99.910 Short title. This act may be known as the Radioactive Waste Storage and Transportation Act of 1980.

[1981 c 1 § 9 (Initiative Measure No. 383, approved November 4, 1980).]

70.104.010 Declaration. The department of health has responsibility to protect and enhance the public health and welfare. As a consequence, it must be concerned with both natural and artificial environmental factors which may adversely affect the public health and welfare. Dangers to the public health and welfare related to the use of pesticides require specific legislative recognition of departmental authority and responsibility in this area. [1991 c 3 § 356; 1971 ex.s. c 41 § 1.]

70.104.020 "Pesticide" defined. For the purposes of this chapter pesticide means, but is not limited to:

- (1) Any substance or mixture of substances intended to prevent, destroy, control, repel, or mitigate any insect, rodent, nematode, snail, slug, fungus, weed and any other form of plant or animal life or virus, except virus on or in living man or other animal, which is normally considered to be a pest or which the director of agriculture may declare to be a pest; or
- (2) Any substance or mixture of substances intended to be used as a plant regulator, defoliant or desiccant; or
- (3) Any spray adjuvant, such as a wetting agent, spreading agent, deposit builder, adhesive, emulsifying agent, deflocculating agent, water modifier, or similar agent with or without toxic properties of its own intended to be used with any other pesticide as an aid to the application or effect thereof, and sold in a package or container separate from that of the pesticide with which it is to be used; or
- (4) Any fungicide, rodenticide, herbicide, insecticide, and nematocide. [1971 ex.s. c 41 § 2.]

70.104.030 Powers and duties of department of health. (1) The department of health shall investigate all suspected human cases of pesticide poisoning and such cases of suspected pesticide poisoning of animals that may relate to human illness. The department shall establish time periods by rule to determine investigation response time. Time periods shall range from immediate to forty-eight hours to initiate an investigation, depending on the severity of the case or suspected case of pesticide poisoning.

In order to adequately investigate such cases, the department shall have the power to:

- (a) Take all necessary samples and human or animal tissue specimens for diagnostic purposes: PROVIDED, That tissue, if taken from a living human, shall be taken from a living human only with the consent of a person legally qualified to give such consent;
- (b) Secure any and all such information as may be necessary to adequately determine the nature and causes of any case of pesticide poisoning.

(2) The department shall, by rule adopted pursuant to the Administrative Procedure Act, chapter 34.05 RCW, with

due notice and a hearing for the adoption of permanent rules, establish procedures for the prevention of any recurrence of poisoning and the department shall immediately notify the department of agriculture, the department of labor and industries, and other appropriate agencies of the results of its investigation for such action as the other departments or agencies deem appropriate. The notification of such investigations and their results may include recommendations for further action by the appropriate department or agency. [1991 c 3 § 357; 1989 c 380 § 71; 1971 ex.s. c 41 § 3.]

Effective date—1989 c 380 §§ 69, 71-73: See note following RCW 70.104.090.

70.104.040 Pesticide emergencies—Authority of department of agriculture not infringed upon. (1) In any case where an emergency relating to pesticides occurs that represents a hazard to the public due to toxicity of the material, the quantities involved or the environment in which the incident takes place, such emergencies including but not limited to fires, spillage, and accidental contamination, the person or agent of such person having actual or constructive control of the pesticides involved shall immediately notify the department of health by telephone or the fastest available method.

(2) Upon notification or discovery of any pesticide emergency the department of health shall:

(a) Make such orders and take such actions as are appropriate to assume control of the property and to dispose of hazardous substances, prevent further contamination, and restore any property involved to a nonhazardous condition. In the event of failure of any individual to obey and carry out orders pursuant to this section, the department shall have all power and authority to accomplish those things necessary to carry out such order. Any expenses incurred by the department as a result of intentional failure of any individual to obey its lawful orders shall be charged as a debt against such individual.

(3) In any case where the department of health has assumed control of property pursuant to this chapter, such property shall not be reoccupied or used until such time as written notification of its release for use is received from the secretary of the department or his or her designee. Such action shall take into consideration the economic hardship, if any, caused by having the department assume control of property, and release shall be accomplished as expeditiously as possible. Nothing in this chapter shall prevent a farmer from continuing to process his or her crops and/or animals provided that the processing does not endanger the public health.

(4) The department shall recognize the pesticide industry's responsibility and active role in minimizing the effect of pesticide emergencies and shall provide for maximum utilization of these services.

(5) Nothing in this chapter shall be construed in any way to infringe upon or negate the authority and responsibility of the department of agriculture in its application and enforcement of the Washington Pesticide Control Act, chapter 15.58 RCW and the Washington Pesticide Application Act, chapter 17.21 RCW. The department of health shall work closely with the department of agriculture in the

enforcement of this chapter and shall keep it appropriately advised. [1991 c 3 § 358; 1983 c 3 § 178; 1971 ex.s. c 41 § 4.]

The department of health shall investigate human exposure to pesticides, and in order to carry out such investigations shall have authority to secure and analyze appropriate specimens of human tissue and samples representing sources of possible exposure. [1991 c 3 § 359; 1971 ex.s. c 41 § 5.]

70.104.055 Pesticide poisonings—Reports. (1) Any attending physician or other health care provider recognized as primarily responsible for the diagnosis and treatment of a patient or, in the absence of a primary health care provider, the health care provider initiating diagnostic testing or therapy for a patient shall report a case or suspected case of pesticide poisoning to the department of health in the manner prescribed by, and within the reasonable time periods established by, rules of the state board of health. Time periods established by the board shall range from immediate reporting to reporting within seven days depending on the severity of the case or suspected case of pesticide poisoning. The reporting requirements shall be patterned after other board rules establishing requirements for reporting of diseases or conditions. Confidentiality requirements shall be the same as the confidentiality requirements established for other reportable diseases or conditions. The information to be reported may include information from relevant pesticide application records and shall include information required under board rules. Reports shall be made on forms provided to health care providers by the department of health. For purposes of any oral reporting, the department of health shall make available a toll-free telephone number.

(2) Within a reasonable time period as established by board rules, the department of health shall investigate the report of a case or suspected case of pesticide poisoning to document the incident. The department shall report the results of the investigation to the health care provider submitting the original report.

(3) Cases or suspected cases of pesticide poisoning shall be reported by the department of health to the pesticide reporting and tracking review panel within the time periods established by state board of health rules.

(4) Upon request of the primary health care provider, pesticide applicators or employers shall provide a copy of records of pesticide applications which may have affected the health of the provider's patient. This information is to be used only for the purposes of providing health care services to the patient.

(5) Any failure of the primary health care provider to make the reports required under this section may be cause for the department of health to submit information about such nonreporting to the applicable disciplining authority for the provider under RCW 18.130.040.

(6) No cause of action shall arise as the result of: (a) The failure to report under this section; or (b) any report submitted to the department of health under this section.

(7) For the purposes of this section, a suspected case of pesticide poisoning is a case in which the diagnosis is

thought more likely than not to be pesticide poisoning. [1992 c 173 § 4; 1991 c 3 § 360; 1989 c 380 § 72.]

Effective dates—1992 c 173: See note following RCW 17.21.100.

Effective date—1989 c 380 §§ 69, 71-73: See note following RCW 70.104.090.

70.104.057 Pesticide poisonings—Medical education program. The department of health, after seeking advice from the state board of health, local health officers, and state and local medical associations, shall develop a program of medical education to alert physicians and other health care providers to the symptoms, diagnosis, treatment, and reporting of pesticide poisonings. [1991 c 3 § 361; 1989 c 380 § 73.]

Effective date—1989 c 380 §§ 69, 71-73: See note following RCW 70.104.090.

Severability—1989 c 380: See RCW 15.58.942.

70.104.060 Technical assistance, consultations and services to physicians and agencies authorized. In order effectively to prevent human illness due to pesticides and to carry out the requirements of this chapter, the department of health is authorized to provide technical assistance and consultation regarding health effects of pesticides to physicians and other agencies, and is authorized to operate an analytical chemical laboratory and may provide analytical and laboratory services to physicians and other agencies to determine pesticide levels in human and other tissues, and appropriate environmental samples. [1991 c 3 § 362; 1971 ex.s. c 41 § 6.]

70.104.070 Pesticide incident reporting and tracking review panel—Intent. The legislature finds that heightened concern regarding health and environmental impacts from pesticide use and misuse has resulted in an increased demand for full-scale health investigations, assessment of resource damages, and health effects information. Increased reporting, comprehensive unbiased investigation capability, and enhanced community education efforts are required to maintain this state's responsibilities to provide for public health and safety.

It is the intent of the legislature that the various state agencies responsible for pesticide regulation coordinate their activities in a timely manner to ensure adequate monitoring of pesticide use and protection of workers and the public from the effects of pesticide misuse. [1989 c 380 § 67.]

Severability—1989 c 380: See RCW 15.58.942.

70.104.090 Pesticide panel—Responsibilities. The responsibilities of the review panel shall include, but not be limited to:

(1) Establishing guidelines for centralizing the receipt of information relating to actual or alleged health and environmental incidents involving pesticides;

(2) Reviewing and making recommendations for procedures for investigation of pesticide incidents, which shall be implemented by the appropriate agency unless a written statement providing the reasons for not adopting the recommendations is provided to the review panel;

(3) Monitoring the time periods required for response to reports of pesticide incidents by the departments of agriculture, health, and labor and industries;

(4) At the request of the chair or any panel member, reviewing pesticide incidents of unusual complexity or those that cannot be resolved;

(5) Identifying inadequacies in state and/or federal law that result in insufficient protection of public health and safety, with specific attention to advising the appropriate agencies on the adequacy of pesticide reentry intervals established by the federal environmental protection agency and registered pesticide labels to protect the health and safety of farmworkers. The panel shall establish a priority list for reviewing reentry intervals, which considers the following criteria:

(a) Whether the pesticide is being widely used in labor-intensive agriculture in Washington;

(b) Whether another state has established a reentry interval for the pesticide that is longer than the existing federal reentry interval;

(c) The toxicity category of the pesticide under federal law;

(d) Whether the pesticide has been identified by a federal or state agency or through a scientific review as presenting a risk of cancer, birth defects, genetic damage, neurological effects, blood disorders, sterility, menstrual

dysfunction, organ damage, or other chronic or subchronic effects; and

(e) Whether reports or complaints of ill effects from the pesticide have been filed following worker entry into fields to which the pesticide has been applied; and

(6) Reviewing and approving an annual report prepared by the department of health to the governor, agency heads, and members of the legislature, with the same available to the public. The report shall include, at a minimum:

(a) A summary of the year's activities;

(b) A synopsis of the cases reviewed;

(c) A separate descriptive listing of each case in which adverse health or environmental effects due to pesticides were found to occur;

(d) A tabulation of the data from each case;

(e) An assessment of the effects of pesticide exposure in the workplace;

(f) The identification of trends, issues, and needs; and

(g) Any recommendations for improved pesticide use practices. [1991 c 3 § 364; 1989 c 380 § 69.]

70.105.005 Legislative declaration. The legislature hereby finds and declares:

(1) The health and welfare of the people of the state depend on clean and pure environmental resources unaffected by hazardous waste contamination. At the same time, the quality of life of the people of the state is in part based upon a large variety of goods produced by the economy of the state. The complex industrial processes that produce these goods also generate waste byproducts, some of which are hazardous to the public health and the environment if improperly managed.

(2) Safe and responsible management of hazardous waste is necessary to prevent adverse effects on the environment and to protect public health and safety.

(3) The availability of safe, effective, economical, and environmentally sound facilities for the management of hazardous waste is essential to protect public health and the environment and to preserve the economic strength of the state.

(4) Strong and effective enforcement of federal and state hazardous waste laws and regulations is essential to protect the public health and the environment and to meet the public's concerns regarding the acceptance of needed new hazardous waste management facilities.

(5) Negotiation, mediation, and similar conflict resolution techniques are useful in resolving concerns over the local impacts of siting hazardous waste management facilities.

(6) Safe and responsible management of hazardous waste requires an effective planning process that involves local and state governments, the public, and industry.

(7) Public acceptance and successful siting of needed new hazardous waste management facilities depends on several factors, including:

(a) Public confidence in the safety of the facilities;

(b) Assurance that the hazardous waste management priorities established in this chapter are being carried out to the maximum degree practical;

(c) Recognition that all state citizens benefit from certain products whose manufacture results in the generation of hazardous byproducts, and that all state citizens must, therefore, share in the responsibility for finding safe and effective means to manage this hazardous waste; and

(d) Provision of adequate opportunities for citizens to meet with facility operators and resolve concerns about local hazardous waste management facilities.

(8) Due to the controversial and regional nature of facilities for the disposal and incineration of hazardous waste, the facilities have had difficulty in obtaining necessary local approvals. The legislature finds that there is a state-wide interest in assuring that such facilities can be sited.

It is therefore the intent of the legislature to preempt local government's authority to approve, deny, or otherwise regulate disposal and incineration facilities, and to vest in the department of ecology the sole authority among state, regional, and local agencies to approve, deny, and regulate preempted facilities, as defined in this chapter.

In addition, it is the intent of the legislature that such complete preemptive authority also be vested in the department for treatment and storage facilities, in addition to disposal and incineration facilities, if a local government fails to carry out its responsibilities established in RCW 70.105.225.

It is further the intent of the legislature that no local ordinance, permit requirement, other requirement, or decision shall prohibit on the basis of land use considerations the construction of a hazardous waste management facility within any zone designated and approved in accordance with this chapter, provided that the proposed site for the facility is consistent with applicable state siting criteria.

(9) With the exception of the disposal site authorized for acquisition under this chapter, the private sector has had the

primary role in providing hazardous waste management facilities and services in the state. It is the intent of the legislature that this role be encouraged and continue into the future to the extent feasible. Whether privately or publicly owned and operated, hazardous waste management facilities and services should be subject to strict governmental regulation as provided under this chapter.

(10) Wastes that are exempt or excluded from full regulation under this chapter due to their small quantity or household origin have the potential to pose significant risk to public health and the environment if not properly managed. It is the intent of the legislature that the specific risks posed by such waste be investigated and assessed and that programs be carried out as necessary to manage the waste appropriately. In addition, the legislature finds that, because local conditions vary substantially in regard to the quantities, risks, and management opportunities available for such wastes, local government is the appropriate level of government to plan for and carry out programs to manage moderate-risk waste, with assistance and coordination provided by the department. [1985 c 448 § 2.]

Severability—1985 c 448: "If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected." [1985 c 448 § 19.]

70.105.007 Purpose. The purpose of this chapter is to establish a comprehensive state-wide framework for the planning, regulation, control, and management of hazardous waste which will prevent land, air, and water pollution and conserve the natural, economic, and energy resources of the state. To this end it is the purpose of this chapter:

(1) To provide broad powers of regulation to the department of ecology relating to management of hazardous wastes and releases of hazardous substances;

(2) To promote waste reduction and to encourage other improvements in waste management practices;

(3) To promote cooperation between state and local governments by assigning responsibilities for planning for hazardous wastes to the state and planning for moderate-risk waste to local government;

(4) To provide for prevention of problems related to improper management of hazardous substances before such problems occur; and

(5) To assure that needed hazardous waste management facilities may be sited in the state, and to ensure the safe operation of the facilities. [1985 c 448 § 3.]

Severability—1985 c 448: See note following RCW 70.105.005.

(5) "Dangerous wastes" means any discarded, useless, unwanted, or abandoned substances, including but not limited to certain pesticides, or any residues or containers of such substances which are disposed of in such quantity or concentration as to pose a substantial present or potential hazard to human health, wildlife, or the environment because such wastes or constituents or combinations of such wastes:

(a) Have short-lived, toxic properties that may cause death, injury, or illness or have mutagenic, teratogenic, or carcinogenic properties; or

(b) Are corrosive, explosive, flammable, or may generate pressure through decomposition or other means.

(6) "Extremely hazardous waste" means any dangerous waste which

(a) will persist in a hazardous form for several years or more at a disposal site and which in its persistent form

(i) presents a significant environmental hazard and may be concentrated by living organisms through a food chain or may affect the genetic make-up of man or wildlife, and

(ii) is highly toxic to man or wildlife

(b) if disposed of at a disposal site in such quantities as would present an extreme hazard to man or the environment.

(7) "Person" means any person, firm, association, county, public or municipal or private corporation, agency, or other entity whatsoever.

(8) "Pesticide" shall have the meaning of the term as defined in RCW 15.58.030 as now or hereafter amended.

(16) "Local government" means a city, town, or county.

(17) "Moderate-risk waste" means (a) any waste that exhibits any of the properties of hazardous waste but is exempt from regulation under this chapter solely because the waste is generated in quantities below the threshold for regu-

lation, and (b) any household wastes which are generated from the disposal of substances identified by the department as hazardous household substances.

(18) "Service charge" means an assessment imposed under RCW 70.105.280 against those facilities that store, treat, incinerate, or dispose of dangerous or extremely hazardous waste that contains both a nonradioactive hazardous component and a radioactive component. Service charges shall also apply to facilities undergoing closure under this chapter in those instances where closure entails the physical characterization of remaining wastes which contain both a nonradioactive hazardous component and a radioactive component or the management of such wastes through treatment or removal, except any commercial low-level radioactive waste facility. [1989 c 376 § 1; 1987 c 488 § 1; 1985 c 448 § 1; 1975-'76 2nd ex.s. c 101 § 1.]

Severability—1989 c 376: "If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected." [1989 c 376 § 4.]

Severability—1985 c 448: See note following RCW 70.105.005.

70.105.020 Standards and regulations—Adoption—Notice and hearing—Consultation with other agencies. The department after notice and public hearing shall:

(1) Adopt regulations designating as extremely hazardous wastes subject to the provisions of this chapter those substances which exhibit characteristics consistent with the definition provided in RCW 70.105.010(6);

(2) Adopt and may revise when appropriate, minimum standards and regulations for disposal of extremely hazardous wastes to protect against hazards to the public, and to the environment. Before adoption of such standards and regulations, the department shall consult with appropriate agencies of interested local governments and secure technical assistance from the department of agriculture, the department of social and health services, the department of fish and wildlife, the department of natural resources, the department of labor and industries, and the department of community, trade, and economic development, through the director of fire protection. [1994 c 264 § 42; 1988 c 36 § 28; 1986 c 266 § 119; 1975-'76 2nd ex.s. c 101 § 2.]

Severability—1986 c 266: See note following RCW 38.52.005.

70.105.030 List and information to be furnished by depositor of hazardous waste—Rules and regulations. (1)

After the effective date of the regulations adopted by the department designating extremely hazardous wastes, any person planning to dispose of extremely hazardous waste as designated by the department shall provide the operator of the disposal site with a list setting forth the extremely hazardous wastes for disposal, the amount of such wastes, the general chemical and mineral composition of such waste listed by approximate maximum and minimum percentages, and the origin of any such waste. Such list, when appropriate, shall include information on antidotes, first aid, or safety measures to be taken in case of accidental contact with the particular extremely hazardous waste being disposed.

(2) The department shall adopt and enforce all rules and regulations including the form and content of the list, necessary and appropriate to accomplish the purposes of

subsection (1) of this section. [1975-'76 2nd ex.s. c 101 § 3.]

70.105.035 Solid wastes—Conditionally exempt from chapter. Solid wastes that designate as dangerous waste or extremely hazardous waste but do not designate as hazardous waste under federal law are conditionally exempt from the requirements of this chapter, if:

(1) The waste is generated pursuant to a consent decree issued under chapter 70.105D RCW;

(2) The consent decree characterizes the solid waste and specifies management practices and a department-approved treatment or disposal location;

(3) The management practices are consistent with RCW 70.105.150 and are protective of human health and the environment as determined by the department of ecology; and

(4) Waste treated or disposed of on-site will be managed in a manner determined by the department to be as protective of human health and the environment as clean-up standards pursuant to chapter 70.105D RCW.

This section shall not be interpreted to limit the ability of the department to apply any requirement of this chapter through a consent decree issued under chapter 70.105D RCW, if the department determines these requirements to be appropriate. Neither shall this section be interpreted to limit the application of this chapter to a cleanup conducted under the federal comprehensive environmental response, compensation, and liability act (42 U.S.C. Sec. 9601 et seq., as amended). [1994 c 254 § 5.]

70.105.040 Disposal site or facility—Acquisition—Disposal fee schedule. (1) The department through the department of general administration, is authorized to acquire interests in real property from the federal government on the Hanford Reservation by gift, purchase, lease, or other means, to be used for the purpose of developing, operating, and maintaining an extremely hazardous waste disposal site or facility by the department, either directly or by agreement with public or private persons or entities: PROVIDED, That lands acquired under this section shall not be inconsistent with a local comprehensive plan approved prior to January 1, 1976: AND PROVIDED FURTHER, That no lands acquired under this section shall be subject to land use regulation by a local government.

(2) The department may establish an appropriate fee schedule for use of such disposal facilities to offset the cost of administration of this chapter and the cost of development, operation, maintenance, and perpetual management of the disposal site. If operated by a private entity, the disposal fee may be such as to provide a reasonable profit. [1975-'76 2nd ex.s. c 101 § 4.]

70.105.050 Disposal at other than approved site prohibited—Disposal of radioactive wastes. (1) No person shall dispose of designated extremely hazardous wastes at any disposal site in the state other than the disposal site established and approved for such purpose under provisions of this chapter, except:

(a) When such wastes are going to a processing facility which will result in the waste being reclaimed, treated,

detoxified, neutralized, or otherwise processed to remove its harmful properties or characteristics; or

(b) When such wastes are managed on-site as part of a remedial action conducted by the department or by potentially liable persons under a consent decree issued by the department pursuant to chapter 70.105D RCW.

(2) Extremely hazardous wastes that contain radioactive components may be disposed at a radioactive waste disposal site that is (a) owned by the United States department of energy or a licensee of the nuclear regulatory commission and (b) permitted by the department and operated in compliance with the provisions of this chapter. However, prior to disposal, or as a part of disposal, all reasonable methods of treatment, detoxification, neutralization, or other waste management methodologies designed to mitigate hazards associated with these wastes shall be employed, as required by applicable federal and state laws and regulations. [1994 c 254 § 6; 1987 c 488 § 4; 1975-'76 2nd ex.s. c 101 § 5.]

70.105.060 Review of rules, regulations, criteria and fee schedules. All rules, regulations, criteria, and fee schedules adopted by the department to implement the provisions of this chapter shall be reviewed by the solid waste advisory committee for the purpose of recommending revisions, additions, or modifications thereto as provided for the review of solid waste regulations and standards pursuant to chapter 70.95 RCW. [1975-'76 2nd ex.s. c 101 § 6.]

70.105.070 Criteria for receiving waste at disposal site. The department may elect to receive dangerous waste at the site provided under this chapter, provided

(1) it is upon request of the owner, producer, or person having custody of the waste, and

(2) upon the payment of a fee to cover disposal

(3) it can be reasonably demonstrated that there is no other disposal sites in the state that will handle such dangerous waste, and

(4) the site is designed to handle such a request or can be modified to the extent necessary to adequately dispose of the waste, or

(5) if a demonstrable emergency and potential threat to the public health and safety exists. [1975-'76 2nd ex.s. c 101 § 7.]

70.105.080 Violations—Civil penalties. (1) Except as provided in RCW 43.05.060 through 43.05.080 and 43.05.150, every person who fails to comply with any provision of this chapter or of the rules adopted thereunder shall be subjected to a penalty in an amount of not more than ten thousand dollars per day for every such violation. Each and every such violation shall be a separate and distinct offense. In case of continuing violation, every day's continuance shall be a separate and distinct violation. Every person who, through an act of commission or omission, procures, aids, or abets in the violation shall be considered to have violated the provisions of this section and shall be subject to the penalty herein provided.

(2) The penalty provided for in this section shall be imposed pursuant to the procedures in RCW 43.21B.300. [1995 c 403 § 631; 1987 c 109 § 12; 1983 c 172 § 2; 1975-'76 2nd ex.s. c 101 § 8.]

Severability—1983 c 172: See note following RCW 70.105.097.

70.105.085 Violations—Criminal penalties. Any person who knowingly transports, treats, stores, handles, disposes of, or exports a hazardous substance in violation of this chapter is guilty of: (1) A class B felony if the person knows at the time that the conduct constituting the violation places another person in imminent danger of death or serious bodily injury; or (2) a class C felony if the person knows that the conduct constituting the violation places any property of another person or any natural resources owned by the state of Washington or any of its local governments in imminent danger of harm. As used in this section, "imminent danger" means that there is a substantial likelihood that harm will be experienced within a reasonable period of time should the danger not be eliminated. As used in this section, "knowingly" refers to an awareness of facts, not awareness of law. Violators shall be punished as provided under RCW 9A.20.021. [1989 c 2 § 15 (Initiative Measure No. 97, approved November 8, 1988).]

70.105.090 Violations—Gross misdemeanor. In addition to the penalties imposed pursuant to RCW 70.105.080, any person who violates any provisions of this chapter, or of the rules implementing this chapter, and any person who knowingly aids or abets another in conducting any violation of any provisions of this chapter, or of the rules implementing this chapter, shall be guilty of a gross misdemeanor and upon conviction thereof shall be punished by a fine of not less than one hundred dollars nor more than ten thousand dollars, and/or by imprisonment in the county jail for not more than one year, for each separate violation. Each and every such violation shall be a separate and distinct offense. In case of continuing violation, every day's continuance shall be a separate and distinct offense. [1984 c 237 § 1; 1983 c 172 § 3; 1975-'76 2nd ex.s. c 101 § 9.]

Severability—1983 c 172: See note following RCW 70.105.097.

70.105.095 Violations—Orders—Penalty for non-compliance—Appeal. (1) Whenever on the basis on any information the department determines that a person has violated or is about to violate any provision of this chapter, the department may issue an order requiring compliance either immediately or within a specified period of time. The order shall be delivered by registered mail or personally to the person against whom the order is directed.

(2) Any person who fails to take corrective action as specified in a compliance order shall be liable for a civil penalty of not more than ten thousand dollars for each day of continued noncompliance. In addition, the department may suspend or revoke any permits and/or certificates issued under the provisions of this chapter to a person who fails to comply with an order directed against him.

(3) Any order may be appealed pursuant to RCW 43.21B.310. [1987 c 109 § 16; 1983 c 172 § 4.]

70.105.097 Action for damages resulting from violation—Attorneys' fees. A person injured as a result of a violation of this chapter or the rules adopted thereunder may bring an action in superior court for the recovery of the damages. A conviction or imposition of a penalty under this chapter is not a prerequisite to an action under this section.

The court may award reasonable attorneys' fees to a prevailing injured party in an action under this section. [1983 c 172 § 1.]

Severability—1983 c 172: "If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected." [1983 c 172 § 5.]

70.105.100 Powers and duties of department. The department in performing its duties under this chapter may:

(1) Conduct studies and coordinate research programs pertaining to extremely hazardous waste management;

(2) Render technical assistance to generators of dangerous and extremely hazardous wastes and to state and local agencies in the planning and operation of hazardous waste programs;

(3) Encourage and provide technical assistance to waste generators to form and operate a "waste exchange" for the purpose of finding users for dangerous and extremely hazardous wastes that would otherwise be disposed of: PROVIDED, That such technical assistance shall not violate the confidentiality of manufacturing processes; and

(4) Provide for appropriate surveillance and monitoring of extremely hazardous waste disposal practices in the state. [1975-'76 2nd ex.s. c 101 § 10.]

70.105.105 Duty of department to regulate PCB waste. The department of ecology shall regulate under chapter 70.105 RCW, wastes generated from the salvaging, rebuilding, or discarding of transformers or capacitors that have been sold or otherwise transferred for salvage or disposal after the completion or termination of their useful lives and which contain polychlorinated biphenyls (PCB's) and whose disposal is not regulated under 40 CFR part 761. Nothing in this section shall prohibit such wastes from being incinerated or disposed of at facilities permitted to manage PCB wastes under 40 CFR part 761. [1985 c 65 § 1.]

70.105.109 Regulation of wastes with radioactive and hazardous components. The department of ecology may regulate all hazardous wastes, including those composed of both radioactive and hazardous components, to the extent it is not preempted by federal law. [1987 c 488 § 2.]

70.105.110 Regulation of dangerous wastes associated with energy facilities. (1) Nothing in this chapter shall alter, amend, or supersede the provisions of chapter 80.50 RCW, except that, notwithstanding any provision of chapter 80.50 RCW, regulation of dangerous wastes associated with

energy facilities from generation to disposal shall be solely by the department pursuant to chapter 70.105 RCW. In the implementation of said section, the department shall consult and cooperate with the energy facility site evaluation council and, in order to reduce duplication of effort and to provide necessary coordination of monitoring and on-site inspection programs at energy facility sites, any on-site inspection by the department that may be required for the purposes of this chapter shall be performed pursuant to an interagency coordination agreement with the council.

(2) To facilitate the implementation of this chapter, the energy facility site evaluation council may require certificate holders to remove from their energy facility sites any dangerous wastes, controlled by this chapter, within ninety days of their generation. [1987 c 488 § 3; 1984 c 237 § 3; 1975-'76 2nd ex.s. c 101 § 11.]

70.105.111 Radioactive wastes—Authority of department of social and health services. Nothing in this chapter diminishes the authority of the department of social and health services to regulate the radioactive portion of mixed wastes pursuant to chapter 70.98 RCW. [1987 c 488 § 5.]

70.105.112 Application of chapter to special incinerator ash. This chapter does not apply to special incinerator ash regulated under chapter 70.138 RCW except that, for purposes of RCW 4.22.070(3)(a), special incinerator ash shall be considered hazardous waste. [1987 c 528 § 9.]

Severability—1987 c 528: See RCW 70.138.902.

70.105.116 Hazardous substance remedial actions—Procedural requirements not applicable. The procedural requirements of this chapter shall not apply to any person conducting a remedial action at a facility pursuant to a consent decree, order, or agreed order issued pursuant to chapter 70.105D RCW, or to the department of ecology when it conducts a remedial action under chapter 70.105D RCW. The department of ecology shall ensure compliance with the substantive requirements of this chapter through the consent decree, order, or agreed order issued pursuant to chapter 70.105D RCW, or during the department-conducted remedial action, through the procedures developed by the department pursuant to RCW 70.105D.090. [1994 c 257 § 17.]

Severability—1994 c 257: See note following RCW 36.70A.270.

70.105.120 Authority of attorney general. At the request of the department, the attorney general is authorized to bring such injunctive, declaratory, or other actions to enforce any requirement of this chapter. [1980 c 144 § 2.]

70.105.130 Department's powers as designated agency under federal act. (1) The department is designated as the state agency for implementing the federal resource conservation and recovery act (42 U.S.C. Sec. 6901 et seq.).

(2) The power granted to the department by this section is the authority to:

(a) Establish a permit system for owners or operators of facilities which treat, store, or dispose of dangerous wastes:

PROVIDED, That spent containers of pesticides or herbicides which have been used in normal farm operations and which are not extremely hazardous wastes, shall not be subject to the permit system;

(b) Establish standards for the safe transport, treatment, storage, and disposal of dangerous wastes as may be necessary to protect human health and the environment;

(c) Establish, to implement this section:

(i) A manifest system to track dangerous wastes;

(ii) Reporting, monitoring, recordkeeping, labeling, sampling requirements; and

(iii) Owner, operator, and transporter responsibility;

(d) Enter at reasonable times establishments regulated under this section for the purposes of inspection, monitoring, and sampling; and

(e) Adopt rules necessary to implement this section. [1980 c 144 § 1.]

70.105.135 Copies of notification forms or annual reports to officials responsible for fire protection. Any person who generates, treats, stores, disposes, or otherwise handles dangerous or extremely hazardous wastes shall provide copies of any notification forms, or annual reports that are required pursuant to RCW 70.105.130 to the fire departments or fire districts that service the areas in which the wastes are handled upon the request of the fire departments or fire districts. In areas that are not serviced by a fire department or fire district, the forms or reports shall be provided to the sheriff or other county official designated pursuant to RCW 48.48.060 upon the request of the sheriff or other county official. This section shall not apply to the transportation of hazardous wastes. [1986 c 82 § 1.]

70.105.140 Rules implemented under RCW 70.105.130—Review. Rules implementing RCW 70.105.130 shall be submitted to the house and senate committees on ecology for review prior to being adopted in accordance with chapter 34.05 RCW. [1980 c 144 § 3.]

70.105.145 Department's authority to participate in and administer federal act. Notwithstanding any other provision of chapter 70.105 RCW, the department of ecology is empowered to participate fully in and is empowered to administer all aspects of the programs of the federal Resource Conservation and Recovery Act, as it exists on June 7, 1984, (42 U.S.C. Sec. 6901 et seq.), contemplated for participation and administration by a state under that act. [1984 c 237 § 2; 1983 c 270 § 2.]

Severability—1983 c 270: See note following RCW 90.48.260.

70.105.150 Declaration—Management of hazardous waste—Priorities—Definitions. The legislature hereby declares that:

(1) The health and welfare of the people of the state depend on clean and pure environmental resources unaffected by hazardous waste contamination. Management and regulation of hazardous waste disposal should encourage practices which result in the least amount of waste being produced. Towards that end, the legislature finds that the following priorities in the management of hazardous waste

are necessary and should be followed in order of descending priority as applicable:

- (a) Waste reduction;
- (b) Waste recycling;
- (c) Physical, chemical, and biological treatment;
- (d) Incineration;
- (e) Solidification/stabilization treatment;
- (f) Landfill.

(2) As used in this section:

(a) "Waste reduction" means reducing waste so that hazardous byproducts are not produced;

(b) "Waste recycling" means reusing waste materials and extracting valuable materials from a waste stream;

(c) "Physical, chemical, and biological treatment" means processing the waste to render it completely innocuous, produce a recyclable byproduct, reduce toxicity, or substantially reduce the volume of material requiring disposal;

(d) "Incineration" means reducing the volume or toxicity of wastes by use of an enclosed device using controlled flame combustion;

(e) "Solidification/stabilization treatment" means the use of encapsulation techniques to solidify wastes and make them less permeable or leachable; and

(f) "Landfill" means a disposal facility, or part of a facility, at which waste is placed in or on land and which is not a land treatment facility, surface impoundment, or injection well. [1983 1st ex.s. c 70 § 1.]

70.105.160 Waste management study—Public hearings—Adoption or modification of rules—Recommendations to legislature. The department shall conduct a study to determine the best management practices for categories of waste for the priority waste management methods established in RCW 70.105.150, with due consideration in the course of the study to sound environmental management and available technology. As an element of the study, the department shall review methods that will help achieve the priority of RCW 70.105.150(1)(a), waste reduction. Before issuing any proposed regulations, the department shall conduct public hearings regarding the best management practices for the various waste categories studied by the department. After conducting the study, the department shall prepare new rules or modify existing rules as appropriate to promote implementation of the priorities established in RCW 70.105.150 for management practices which assure use of sound environmental management techniques and available technology. The preliminary study shall be completed by July 1, 1986, and the rules shall be adopted by July 1, 1987. The solid waste advisory committee shall review the studies and the new or modified rules and submit recommendations to the legislature by January 1, 1988, regarding policy options (such as fee incentives, disposal bans, etc.) that will be used to reduce the production of dangerous and extremely hazardous waste in Washington state.

The studies shall be updated at least once every five years. The funding for these studies shall be from the hazardous waste control and elimination account, subject to legislative appropriation. [1984 c 254 § 2; 1983 1st ex.s. c 70 § 2.]

Severability—1984 c 254: "If any provision of this act or its application to any person or circumstance is held invalid, the remainder of [Title 70 RCW—page 262]

the act or the application of the provision to other persons or circumstances is not affected." [1984 c 254 § 3.]

70.105.165 Disposal of dangerous wastes at commercial off-site land disposal facilities—Limitations. (1) Independent of the processing or issuance of any or all federal, state, and local permits for disposal of dangerous wastes, no disposal of dangerous wastes at a commercial off-site land disposal facility may be undertaken prior to July 1, 1986, unless:

(a) The disposal results from actions taken under *RCW 70.105A.060 (2) and (3), or results from other emergency situations; or

(b) Studies undertaken by the department under RCW 70.105.160 to determine the best management practices for various waste categories under the priority waste management methods established in RCW 70.105.150 are completed for the particular wastes or waste categories to be disposed of and any regulatory revisions deemed necessary by the department are proposed and do not prohibit land disposal of such wastes; or

(c) Final regulations have been adopted by the department that allow for such disposal.

(2) Construction of facilities used solely for the purpose of disposal of wastes that have not met the requirements of subsection (1) of this section shall not be undertaken by any developer of a dangerous waste disposal facility.

(3) The department shall prioritize the studies of waste categories undertaken under RCW 70.105.160 to provide initial consideration of those categories most likely to be suitable for land disposal. Any regulatory changes deemed necessary by the department shall be proposed and subjected to the rule-making process by category as the study of each waste category is completed. All of the study shall be completed, and implementing regulations proposed, by July 1, 1986.

(4) Any final permit issued by the department before the adoption of rules promulgated as a result of the study conducted under RCW 70.105.160 shall be modified as necessary to be consistent with such rules. [1984 c 254 § 1.]

*Reviser's note: RCW 70.105A.060 was repealed by 1990 c 114 § 21.

Severability—1984 c 254: See note following RCW 70.105.160.

70.105.170 Waste management—Consultative services—Technical assistance—Confidentiality. Consistent with the purposes of RCW 70.105.150 and 70.105.160, the department is authorized to promote the priority waste management methods listed in RCW 70.105.150 by establishing or assisting in the establishment of: (1) Consultative services which, in conjunction with any business or industry requesting such service, study and recommend alternative waste management practices; and (2) technical assistance, such as a toll-free telephone service, to persons interested in waste management alternatives. Any person receiving such service or assistance may, in accordance with state law, request confidential treatment of information about their manufacturing or business practices. [1983 1st ex.s. c 70 § 3.]

70.105.180 Disposition of fines and penalties—Earnings. All fines and penalties collected under this chapter shall be deposited in the hazardous waste control and elimination account, which is hereby created in the state treasury. Moneys in the account collected from fines and penalties shall be expended exclusively by the department of ecology for the purposes of *this act, subject to legislative appropriation. Other sources of funds deposited in this account may also be used for the purposes of *this act. All earnings of investments of balances in the hazardous waste control and elimination account shall be credited to the general fund. [1985 c 57 § 70; 1983 1st ex.s. c 70 § 4.]

***Reviser's note:** "This act" [1983 1st ex.s. c 70] consists of RCW 70.105.150, 70.105.160, 70.105.170, and 70.105.180.

(b) A forecast of future hazardous waste generation;

(c) A description of the plan or program required by RCW 70.105.160 to promote the waste management priorities established in RCW 70.105.150;

(d) Siting criteria as appropriate for hazardous waste management facilities, including such criteria as may be appropriate for the designation of eligible zones for designated zone facilities. However, these criteria shall not prevent the continued operation, at or below the present level of waste management activity, of existing facilities on the basis of their location in areas other than those designated as eligible zones pursuant to RCW 70.105.225;

(e) Siting policies as deemed appropriate by the department; and

(f) A plan or program to provide appropriate public information and education relating to hazardous waste management. (2) The department shall seek, encourage, and assist participation in the development, revision, and implementation of the state hazardous waste management plan by interested citizens, local government, business and industry, environmental groups, and other entities as appropriate.

(3) Siting criteria shall be completed by December 31, 1986. Other plan components listed in subsection (1) of this section shall be completed by June 30, 1987.

(4) The department shall incorporate into the state hazardous waste management plan those elements of the local hazardous waste management plans that it deems necessary to assure effective and coordinated programs throughout the state. [1985 c 448 § 4.]

Severability—1985 c 448: See note following RCW 70.105.005.

70.105.210 Hazardous waste management facilities—Department to develop criteria for siting. By May

31, 1990, the department shall develop and adopt criteria for the siting of hazardous waste management facilities. These criteria will be part of the state hazardous waste management plan as described in RCW 70.105.200. To the extent practical, these criteria shall be designed to minimize the short-term and long-term risks and costs that may result from hazardous waste management facilities. These criteria may vary by type of facilities and may consider natural site characteristics and engineered protection. Criteria may be established for:

(1) Geology;

(2) Surface and groundwater hydrology;

(3) Soils;

(4) Flooding;

(5) Climatic factors;

(6) Unique or endangered flora and fauna;

(7) Transportation routes;

(8) Site access;

(9) Buffer zones;

(10) Availability of utilities and public services;

(11) Compatibility with existing uses of land;

(12) Shorelines and wetlands;

(13) Sole-source aquifers;

(14) Natural hazards; and

(15) Other factors as determined by the department.

[1989 1st ex.s. c 13 § 2; 1985 c 448 § 5.]

Severability—1985 c 448: See note following RCW 70.105.005.

70.105.215 Department to adopt rules for permits for hazardous substances treatment facilities. The legislature recognizes the need for new, modified, or expanded facilities to treat, incinerate, or otherwise process or dispose of hazardous substances safely. In order to encourage the development of such facilities, the department shall adopt rules as necessary regarding the permitting of such facilities to ensure the most expeditious permit processing possible consistent with the substantive requirements of applicable law. If owners and operators are not the same entity, the operator shall be the permit applicant and responsible for the development of the permit application and all accompanying materials, as long as the owner also signs the application and certifies its ownership of the real property described in the application, and acknowledges its awareness of the contents of the application and receipt of a copy thereof. [1986 c 210 § 3.]

70.105.217 Local government regulatory authority to prohibit or condition. Nothing in this chapter shall alter or affect the regulatory authority of a county, city, or jurisdictional health district to condition or prohibit the acceptance of hazardous waste in a county or city landfill. [1994 c 254 § 7.]

70.105.220 Local governments to prepare local hazardous waste plans—Basis—Elements required. (1) Each local government, or combination of contiguous local governments, is directed to prepare a local hazardous waste plan which shall be based on state guidelines and include the following elements:

(a) A plan or program to manage moderate-risk wastes that are generated or otherwise present within the jurisdiction.

tion. This element shall include an assessment of the quantities, types, generators, and fate of moderate-risk wastes in the jurisdiction. The purpose of this element is to develop a system of managing moderate-risk waste, appropriate to each local area, to ensure protection of the environment and public health;

(b) A plan or program to provide for ongoing public involvement and public education in regard to the management of moderate-risk waste. This element shall provide information regarding:

(i) The potential hazards to human health and the environment resulting from improper use and disposal of the waste; and

(ii) Proper methods of handling, reducing, recycling, and disposing of the waste;

(c) An inventory of all existing generators of hazardous waste and facilities managing hazardous waste within the jurisdiction. This inventory shall be based on data provided by the department;

(d) A description of the public involvement process used in developing the plan;

(e) A description of the eligible zones designated in accordance with RCW 70.105.225. However, the requirement to designate eligible zones shall not be considered part of the local hazardous waste planning requirements; and

(f) Other elements as deemed appropriate by local government.

(2) To the maximum extent practicable, the local hazardous waste plan shall be coordinated with other hazardous materials-related plans and policies in the jurisdiction.

(3) Local governments shall coordinate with those persons involved in providing privately owned hazardous and moderate-risk waste facilities and services as follows: If a local government determines that a moderate-risk waste will be or is adequately managed by one or more privately owned facilities or services at a reasonable price, the local government shall take actions to encourage the use of that private facility or service. Actions taken by a local government under this subsection may include, but are not limited to, restricting or prohibiting the land disposal of a moderate-risk waste at any transfer station or land disposal facility within its jurisdiction.

(4)(a) The department shall prepare guidelines for the development of local hazardous waste plans. The guidelines shall be prepared in consultation with local governments and shall be completed by December 31, 1986. The guidelines shall include a list of substances identified as hazardous household substances.

(b) In preparing the guidelines under (a) of this subsection, the department shall review and assess information on pilot projects that have been conducted for moderate-risk waste management. The department shall encourage additional pilot projects as needed to provide information to improve and update the guidelines.

(5) The department shall consult with retailers, trade associations, public interest groups, and appropriate units of local government to encourage the development of voluntary public education programs on the proper handling of hazardous household substances.

(6) Local hazardous waste plans shall be completed and submitted to the department no later than June 30, 1990.

Local governments may from time to time amend the local plan.

(7) Each local government, or combination of contiguous local governments, shall submit its local hazardous waste plan or amendments thereto to the department. The department shall approve or disapprove local hazardous waste plans or amendments by December 31, 1990, or within ninety days of submission, whichever is later. The department shall approve a local hazardous waste plan if it determines that the plan is consistent with this chapter and the guidelines under subsection (4) of this section. If approval is denied, the department shall submit its objections to the local government within ninety days of submission. However, for plans submitted between January 1, 1990, and June 30, 1990, the department shall have one hundred eighty days to submit its objections. No local government is eligible for grants under RCW 70.105.235 for implementing a local hazardous waste plan unless the plan for that jurisdiction has been approved by the department.

(8) Each local government, or combination of contiguous local governments, shall implement the local hazardous waste plan for its jurisdiction by December 31, 1991.

(9) The department may waive the specific requirements of this section for any local government if such local government demonstrates to the satisfaction of the department that the objectives of the planning requirements have been met. [1992 c 17 § 1; 1986 c 210 § 1; 1985 c 448 § 6.]

Severability—1985 c 448: See note following RCW 70.105.005.

Used oil recycling element: RCW 70.951.020.

70.105.221 Local governments to prepare local hazardous waste plans—Used oil recycling element. Local governments and combinations of local governments shall amend their local hazardous waste plans required under RCW 70.105.220 to comply with RCW 70.951.020. [1991 c 319 § 312.]

Severability—Part headings not law—1991 c 319: See RCW 70.95F.900 and 70.95F.901.

70.105.225 Local governments to designate zones—Departmental guidelines—Approval of local government zone designations or amendments—Exemption. (1) Each local government, or combination of contiguous local governments, is directed to: (a) Demonstrate to the satisfaction of the department that existing zoning allows designated zone facilities as permitted uses; or (b) designate land use zones within its jurisdiction in which designated zone facilities are permitted uses. The zone designations shall be consistent with the state siting criteria adopted in accordance with RCW 70.105.210, except as may be approved by the department in accordance with subsection (6) of this section.

(2) Local governments shall not prohibit the processing or handling of hazardous waste in zones in which the processing or handling of hazardous substances is not prohibited. This subsection does not apply in residential zones.

(3) The department shall prepare guidelines, as appropriate, for the designation of zones under this section. The guidelines shall be prepared in consultation with local governments and shall be completed by December 31, 1986.

(4) The initial designation of zones shall be completed or revised, and submitted to the department within eighteen months after the enactment of siting criteria in accordance with RCW 70.105.210. Local governments that do not comply with this submittal deadline shall be subject to the preemptive provisions of RCW 70.105.240(4) until such time as zone designations are completed and approved by the department. Local governments may from time to time amend their designated zones.

(5) Local governments without land use zoning provisions shall designate eligible geographic areas within their jurisdiction, based on siting criteria adopted in accordance with RCW 70.105.210. The area designation shall be subject to the same requirements as if they were zone designations.

(6) Each local government, or combination of contiguous local governments, shall submit its designation of zones or amendments thereto to the department. The department shall approve or disapprove zone designations or amendments within ninety days of submission. The department shall approve eligible zone designations if it determines that the proposed zone designations are consistent with this chapter, the applicable siting criteria, and guidelines for developing designated zones: PROVIDED, That the department shall consider local zoning in place as of January 1, 1985, or other special situations or conditions which may exist in the jurisdiction. If approval is denied, the department shall state within ninety days from the date of submission the facts upon which that decision is based and shall submit the statement to the local government together with any other comments or recommendations it deems appropriate. The local government shall have ninety days after it receives the statement from the department to make modifications designed to eliminate the inconsistencies and resubmit the designation to the department for approval. Any designations shall take effect when approved by the department.

(7) The department may exempt a local government from the requirements of this section if:

(a) Regulated quantities of hazardous waste have not been generated within the jurisdiction during the two calendar years immediately preceding the calendar year during which the exemption is requested; and

(b) The local government can demonstrate to the satisfaction of the department that no significant portion of land within the jurisdiction can meet the siting criteria adopted in accordance with RCW 70.105.210. [1989 1st ex.s. c 13 § 1; 1985 c 448 § 7.]

Severability—1985 c 448: See note following RCW 70.105.005.

70.105.230 Local governments to submit letter of intent to identify or designate zones and submit management plans—Department to prepare plan in event of failure to act. (1) Each local government is directed to submit to the director of the department by October 31, 1987, a letter of intent stating that it intends to (a) identify, or designate if necessary, eligible zones for designated zone facilities no later than June 30, 1988, and (b) submit a complete local hazardous waste management plan to the department no later than June 30, 1990. The letters shall also indicate whether these requirements will be completed in conjunction with other local governments.

(2) If any local government fails to submit a letter as provided in subsection (1)(b) of this section, or fails to adopt a local hazardous waste plan for its jurisdiction in accordance with the time schedule provided in this chapter, or fails to secure approval from the department for its local hazardous waste plan in accordance with the time schedule provided in this chapter, the department shall prepare a hazardous waste plan for the local jurisdiction. [1985 c 448 § 8.]

Severability—1985 c 448: See note following RCW 70.105.005.

70.105.235 Grants to local governments for plan preparation, implementation, and designation of zones—Matching funds—Qualifications. (1) Subject to legislative appropriations, the department may make and administer grants to local governments for (a) preparing and updating local hazardous waste plans, (b) implementing approved local hazardous waste plans, and (c) designating eligible zones for designated zone facilities as required under this chapter.

(2) Local governments shall match the funds provided by the department for planning or designating zones with an amount not less than twenty-five percent of the estimated cost of the work to be performed. Local governments may meet their share of costs with cash or contributed services. Local governments, or combination of contiguous local governments, conducting pilot projects pursuant to RCW 70.105.220(4) may subtract the cost of those pilot projects conducted for hazardous household substances from their share of the cost. If a pilot project has been conducted for all moderate-risk wastes, only the portion of the cost that applies to hazardous household substances shall be subtracted. The matching funds requirement under this subsection shall be waived for local governments, or combination of contiguous local governments, that complete and submit their local hazardous waste plans under RCW 70.105.220(6) prior to June 30, 1988.

(3) Recipients of grants shall meet such qualifications and follow such procedures in applying for and using grants as may be established by the department. [1986 c 210 § 2; 1985 c 448 § 9.]

70.105.240 State preemption—Department sole authority—Local requirements superseded—State authority over designated zone facilities. (1) As of July 28, 1985, the state preempts the field of state, regional, or local permitting and regulating of all preempted facilities as defined in this chapter. The department of ecology is designated the sole decision-making authority with respect to permitting and regulating such facilities and no other state agency, department, division, bureau, commission, or board, or any local or regional political subdivision of the state, shall have any permitting or regulatory authority with respect to such facilities including, but not limited to, the location, construction, and operation of such facilities. Permits issued by the department shall be in lieu of any and all permits, approvals, certifications, or conditions of any other state, regional, or local governmental authority which would otherwise apply.

(2) The department shall ensure that any permits issued under this chapter invoking the preemption authority of this section meet the substantive requirements of existing state laws and regulations to the extent such laws and regulations are not inconsistent or in conflict with any of the provisions of this chapter. In the event that any of the provisions of this chapter, or any of the regulations promulgated hereunder, are in conflict with any other state law or regulations, such other law or regulations shall be deemed superseded for purposes of this chapter.

(3) As of July 28, 1985, any ordinances, regulations, requirements, or restrictions of regional or local governmental authorities regarding the location, construction, or operation of preempted facilities shall be deemed superseded. However, in issuing permits under this section, the department shall consider local fire and building codes and condition such permits as appropriate in compliance therewith.

(4) Effective July 1, 1988, the department shall have the same preemptive authority as defined in subsections (1) through (3) of this section in regard to any designated zone facility that may be proposed in any jurisdiction where the designation of eligible zones pursuant to RCW 70.105.225 has not been completed and approved by the department. Unless otherwise preempted by this subsection, designated zone facilities shall be subject to all applicable state and local laws, regulations, plans, and other requirements. [1985 c 448 § 10.]

Severability—1985 c 448: See note following RCW 70.105.005.

70.105.260 Department to assist conflict resolution activities related to siting facilities—Agreements may constitute conditions for permit. (1) In order to promote identification, discussion, negotiation, and resolution of issues related to siting of hazardous waste management facilities, the department:

(a) Shall compile and maintain information on the use and availability of conflict resolution techniques and make this information available to industries, state and local government officials, and other citizens;

(b) Shall encourage and assist in facilitating conflict resolution activities, as appropriate, between facility proponents, host communities, and other interested persons;

(c) May adopt rules specifying procedures for facility proponents, host communities, and citizens to follow in providing opportunities for conflict resolution activities, including the use of dispute resolution centers established pursuant to chapter 7.75 RCW; and

(d) May expend funds to support such conflict resolution activities, and may adopt rules as appropriate to govern the support.

(2) Any agreements reached under the processes described in subsection (1) of this section and deemed valid by the department may be written as conditions binding on a permit issued under this chapter. [1985 c 448 § 14.]

70.105.280 Service charges. (1) The department may assess reasonable service charges against those facilities that store, treat, incinerate, or dispose of dangerous or extremely hazardous waste that contains both a nonradioactive hazardous component and a radioactive component or which are undergoing closure under this chapter in those instances where closure entails the physical characterization of remaining wastes which contain both a nonradioactive hazardous component and a radioactive component or the management of such wastes through treatment or removal, except any commercial low-level radioactive waste facility. Service charges may not exceed the costs to the department in carrying out the duties of this section.

(2) Program elements or activities for which service charges may be assessed include:

(a) Office, staff, and staff support for the purposes of facility or unit permit development, review, and issuance; and

(b) Actions taken to determine and ensure compliance with the state's hazardous waste management act.

(3) Moneys collected through the imposition of such service charges shall be deposited in the state toxics control account.

(4) The department shall adopt rules necessary to implement this section. Facilities that store, treat, incinerate, or dispose of dangerous or extremely hazardous waste that contains both a nonradioactive hazardous component and a radioactive component shall not be subject to service charges prior to such rule making. Facilities undergoing closure under this chapter in those instances where closure entails the physical characterization of remaining wastes which contain both a nonradioactive hazardous component and a

radioactive component or the management of such wastes through treatment or removal shall not be subject to service charges prior to such rule making. [1989 c 376 § 2.]

HAZARDOUS WASTE FEES

Sections

70.105A.035 Revision of fees to provide a waste reduction and recycling incentive.

Hazardous waste management: Chapter 70.105 RCW.

70.105A.035 Revision of fees to provide a waste reduction and recycling incentive. The legislature is encouraged to revise the hazardous waste fees prescribed in *RCW 70.105A.030 in a manner which provides an incentive for waste reduction and recycling. If prior to March 1, 1989, *RCW 70.105A.030 as it existed on August 1, 1987, has not been amended in a manner which specifically provides an incentive for hazardous waste reduction and recycling, then (1) the requirement to pay the fees prescribed in that section is eliminated solely for fees due and payable on June 30, 1989; and (2) the department of ecology shall prepare, and submit to the legislature by January 1, 1990, a proposed revision designed to provide an incentive for hazardous waste reduction and recycling. [1989 c 2 § 16 (Initiative Measure No. 97, approved November 8, 1988).]

70.105D.010 Declaration of policy. (1) Each person has a fundamental and inalienable right to a healthful environment, and each person has a responsibility to preserve and enhance that right. The beneficial stewardship of the land, air, and waters of the state is a solemn obligation of the present generation for the benefit of future generations.

(2) A healthful environment is now threatened by the irresponsible use and disposal of hazardous substances. There are hundreds of hazardous waste sites in this state, and more will be created if current waste practices continue. Hazardous waste sites threaten the state's water resources, including those used for public drinking water. Many of our municipal landfills are current or potential hazardous waste sites and present serious threats to human health and environment. The costs of eliminating these threats in many cases are beyond the financial means of our local governments and ratepayers. The main purpose of chapter 2, Laws of 1989 is to raise sufficient funds to clean up all hazardous waste sites and to prevent the creation of future hazards due to improper disposal of toxic wastes into the state's land and waters.

(3) Many farmers and small business owners who have followed the law with respect to their uses of pesticides and other chemicals nonetheless may face devastating economic consequences because their uses have contaminated the environment or the water supplies of their neighbors. With a source of funds, the state may assist these farmers and business owners, as well as those persons who sustain damages, such as the loss of their drinking water supplies, as a result of the contamination.

(4) It is in the public's interest to efficiently use our finite land base, to integrate our land use planning policies with our clean-up policies, and to clean up and reuse contaminated industrial properties in order to minimize industrial development pressures on undeveloped land and to make clean land available for future social use.

(5) Because it is often difficult or impossible to allocate responsibility among persons liable for hazardous waste sites and because it is essential that sites be cleaned up well and expeditiously, each responsible person should be liable jointly and severally. [1994 c 254 § 1; 1989 c 2 § 1 (Initiative Measure No. 97, approved November 8, 1988).]

70.105D.020 Definitions. (1) "Agreed order" means an order issued by the department under this chapter with which the potentially liable person receiving the order agrees to comply. An agreed order may be used to require or approve any cleanup or other remedial actions but it is not

a settlement under RCW 70.105D.040(4) and shall not contain a covenant not to sue, or provide protection from claims for contribution, or provide eligibility for public funding of remedial actions under RCW 70.105D.070(2)(d)(xi).

(2) "Department" means the department of ecology.

(3) "Director" means the director of ecology or the director's designee.

(4) "Facility" means (a) any building, structure, installation, equipment, pipe or pipeline (including any pipe into a sewer or publicly owned treatment works), well, pit, pond, lagoon, impoundment, ditch, landfill, storage container, motor vehicle, rolling stock, vessel, or aircraft, or (b) any site or area where a hazardous substance, other than a consumer product in consumer use, has been deposited, stored, disposed of, or placed, or otherwise come to be located.

(5) "Federal cleanup law" means the federal comprehensive environmental response, compensation, and liability act of 1980, 42 U.S.C. Sec. 9601 et seq., as amended by Public Law 99-499.

(6) "Foreclosure and its equivalents" means purchase at a foreclosure sale, acquisition, or assignment of title in lieu of foreclosure, termination of a lease, or other repossession, acquisition of a right to title or possession, an agreement in satisfaction of the obligation, or any other comparable formal or informal manner, whether pursuant to law or under warranties, covenants, conditions, representations, or promises from the borrower, by which the holder acquires title to or possession of a facility securing a loan or other obligation.

(7) "Hazardous substance" means:

(a) Any dangerous or extremely hazardous waste as defined in RCW 70.105.010 (5) and (6), or any dangerous or extremely dangerous waste designated by rule pursuant to chapter 70.105 RCW;

(b) Any hazardous substance as defined in RCW 70.105.010(14) or any hazardous substance as defined by rule pursuant to chapter 70.105 RCW;

(c) Any substance that, on March 1, 1989, is a hazardous substance under section 101(14) of the federal cleanup law, 42 U.S.C. Sec. 9601(14);

(d) Petroleum or petroleum products; and

(e) Any substance or category of substances, including solid waste decomposition products, determined by the director by rule to present a threat to human health or the environment if released into the environment.

The term hazardous substance does not include any of the following when contained in an underground storage tank from which there is not a release: Crude oil or any fraction thereof or petroleum, if the tank is in compliance with all applicable federal, state, and local law.

(8) "Holder" means a person who holds indicia of ownership primarily to protect a security interest. A holder includes the initial holder such as the loan originator, any subsequent holder such as a successor-in-interest or subsequent purchaser of the security interest on the secondary market, a guarantor of an obligation, surety, or any other person who holds indicia of ownership primarily to protect a security interest, or a receiver, court-appointed trustee, or other person who acts on behalf or for the benefit of a holder. A holder can be a public or privately owned

financial institution, receiver, conservator, loan guarantor, or other similar persons that loan money or guarantee repayment of a loan. Holders typically are banks or savings and loan institutions but may also include others such as insurance companies, pension funds, or private individuals that engage in loaning of money or credit.

(9) "Indicia of ownership" means evidence of a security interest, evidence of an interest in a security interest, or evidence of an interest in a facility securing a loan or other obligation, including any legal or equitable title to a facility acquired incident to foreclosure and its equivalents. Evidence of such interests include[s], mortgages, deeds of trust, sellers interest in a real estate contract, liens, surety bonds, and guaranties of obligations, title held pursuant to a lease financing transaction in which the lessor does not select initially the leased facility, or legal or equitable title obtained pursuant to foreclosure and their equivalents. Evidence of such interests also include[s] assignments, pledges, or other rights to or other forms of encumbrance against the facility that are held primarily to protect a security interest.

(10) "Operating a facility primarily to protect a security interest" occurs when all of the following are met: (a) Operating the facility where the borrower has defaulted on the loan or otherwise breached the security agreement; (b) operating the facility to preserve the value of the facility as an ongoing business; (c) the operation is being done in anticipation of a sale, transfer, or assignment of the facility; and (d) the operation is being done primarily to protect a security interest. Operating a facility for longer than one year prior to foreclosure or its equivalents shall be presumed to be operating the facility for other than to protect a security interest.

(11) "Owner or operator" means:

(a) Any person with any ownership interest in the facility or who exercises any control over the facility; or

(b) In the case of an abandoned facility, any person who had owned, or operated, or exercised control over the facility any time before its abandonment;

The term does not include:

(i) An agency of the state or unit of local government which acquired ownership or control involuntarily through bankruptcy, tax delinquency, abandonment, or circumstances in which the government involuntarily acquires title. This exclusion does not apply to an agency of the state or unit of local government which has caused or contributed to the release or threatened release of a hazardous substance from the facility; or

(ii) A person who, without participating in the management of a facility, holds indicia of ownership primarily to protect the person's security interest in the facility. Holders after foreclosure and its equivalent and holders who engage in any of the activities identified in subsection (12)(e) through (g) of this section shall not lose this exemption provided the holder complies with all of the following:

(A) The holder properly maintains the environmental compliance measures already in place at the facility;

(B) The holder complies with the reporting requirements in the rules adopted under this chapter;

(C) The holder complies with any order issued to the holder by the department to abate an imminent or substantial endangerment;

(D) The holder allows the department or potentially liable persons under an order, agreed order, or settlement agreement under this chapter access to the facility to conduct remedial actions and does not impede the conduct of such remedial actions;

(E) Any remedial actions conducted by the holder are in compliance with any preexisting requirements identified by the department, or, if the department has not identified such requirements for the facility, the remedial actions are conducted consistent with the rules adopted under this chapter; and

(F) The holder does not exacerbate an existing release.

The exemption in this subsection (11)(b)(ii) does not apply to holders who cause or contribute to a new release or threatened release or who are otherwise liable under RCW 70.105D.040(1) (b), (c), (d), and (e); provided, however, that a holder shall not lose this exemption if it establishes that any such new release has been remediated according to the requirements of this chapter and that any hazardous substances remaining at the facility after remediation of the new release are divisible from such new release.

(12) "Participation in management" means exercising decision-making control over the borrower's operation of the facility, environmental compliance, or assuming or manifesting responsibility for the overall management of the enterprise encompassing the day-to-day decision making of the enterprise.

The term does not include any of the following: (a) A holder with the mere capacity or ability to influence, or the unexercised right to control facility operations; (b) a holder who conducts or requires a borrower to conduct an environmental audit or an environmental site assessment at the facility for which indicia of ownership is held; (c) a holder who requires a borrower to come into compliance with any applicable laws or regulations at the facility for which indicia of ownership is held; (d) a holder who requires a borrower to conduct remedial actions including setting minimum requirements, but does not otherwise control or manage the borrower's remedial actions or the scope of the borrower's remedial actions except to prepare a facility for sale, transfer, or assignment; (e) a holder who engages in workout or policing activities primarily to protect the holder's security interest in the facility; (f) a holder who prepares a facility for sale, transfer, or assignment or requires a borrower to prepare a facility for sale, transfer, or assignment; (g) a holder who operates a facility primarily to protect a security interest, or requires a borrower to continue to operate, a facility primarily to protect a security interest; and (h) a prospective holder who, as a condition of becoming a holder, requires an owner or operator to conduct an environmental audit, conduct an environmental site assessment, come into compliance with any applicable laws or regulations, or conduct remedial actions prior to holding a security interest is not participating in the management of the facility.

(13) "Person" means an individual, firm, corporation, association, partnership, consortium, joint venture, commercial entity, state government agency, unit of local government, federal government agency, or Indian tribe.

(14) "Policing activities" means actions the holder takes to insure that the borrower complies with the terms of the loan or security interest or actions the holder takes or

requires the borrower to take to maintain the value of the security. Policing activities include: Requiring the borrower to conduct remedial actions at the facility during the term of the security interest; requiring the borrower to comply or come into compliance with applicable federal, state, and local environmental and other laws, regulations, and permits during the term of the security interest; securing or exercising authority to monitor or inspect the facility including on-site inspections, or to monitor or inspect the borrower's business or financial condition during the term of the security interest; or taking other actions necessary to adequately police the loan or security interest such as requiring a borrower to comply with any warranties, covenants, conditions, representations, or promises from the borrower.

(15) "Potentially liable person" means any person whom the department finds, based on credible evidence, to be liable under RCW 70.105D.040. The department shall give notice to any such person and allow an opportunity for comment before making the finding, unless an emergency requires otherwise.

(16) "Prepare a facility for sale, transfer, or assignment" means to secure access to the facility; perform routine maintenance on the facility; remove inventory, equipment, or structures; properly maintain environmental compliance measures already in place at the facility; conduct remedial actions to clean up releases at the facility; or to perform other similar activities intended to preserve the value of the facility where the borrower has defaulted on the loan or otherwise breached the security agreement or after foreclosure and its equivalents and in anticipation of a pending sale, transfer, or assignment, primarily to protect the holder's security interest in the facility. A holder can prepare a facility for sale, transfer, or assignment for up to one year prior to foreclosure and its equivalents and still stay within the security interest exemption in subsection (11)(b)(ii) of this section.

(17) "Primarily to protect a security interest" means the indicia of ownership is held primarily for the purpose of securing payment or performance of an obligation. The term does not include indicia of ownership held primarily for investment purposes nor indicia of ownership held primarily for purposes other than as protection for a security interest. A holder may have other, secondary reasons, for maintaining indicia of ownership, but the primary reason must be for protection of a security interest. Holding indicia of ownership after foreclosure or its equivalents for longer than five years shall be considered to be holding the indicia of ownership for purposes other than primarily to protect a security interest. For facilities that have been acquired through foreclosure or its equivalents prior to July 23, 1995, this five-year period shall begin as of July 23, 1995.

(18) "Public notice" means, at a minimum, adequate notice mailed to all persons who have made timely request of the department and to persons residing in the potentially affected vicinity of the proposed action; mailed to appropriate news media; published in the newspaper of largest circulation in the city or county of the proposed action; and opportunity for interested persons to comment.

(19) "Release" means any intentional or unintentional entry of any hazardous substance into the environment, including but not limited to the abandonment or disposal of containers of hazardous substances.

(20) "Remedy" or "remedial action" means any action or expenditure consistent with the purposes of this chapter to identify, eliminate, or minimize any threat or potential threat posed by hazardous substances to human health or the environment including any investigative and monitoring activities with respect to any release or threatened release of a hazardous substance and any health assessments or health effects studies conducted in order to determine the risk or potential risk to human health.

(21) "Security interest" means an interest in a facility created or established for the purpose of securing a loan or other obligation. Security interests include deeds of trusts, sellers interest in a real estate contract, liens, legal, or equitable title to a facility acquired incident to foreclosure and its equivalents, and title pursuant to lease financing transactions. Security interests may also arise from transactions such as sale and leasebacks, conditional sales, installment sales, trust receipt transactions, certain assignments, factoring agreements, accounts receivable financing arrangements, easements, and consignments, if the transaction creates or establishes an interest in a facility for the purpose of securing a loan or other obligation.

(22) "Industrial properties" means properties that are or have been characterized by, or are to be committed to, traditional industrial uses such as processing or manufacturing of materials, marine terminal and transportation areas and facilities, fabrication, assembly, treatment, or distribution of manufactured products, or storage of bulk materials, that are either:

(a) Zoned for industrial use by a city or county conducting land use planning under chapter 36.70A RCW; or

(b) For counties not planning under chapter 36.70A RCW and the cities within them, zoned for industrial use and adjacent to properties currently used or designated for industrial purposes.

(23) "Workout activities" means those actions by which a holder, at any time prior to foreclosure and its equivalents, seeks to prevent, cure, or mitigate a default by the borrower or obligor; or to preserve, or prevent the diminution of, the value of the security. Workout activities include: Restructuring or renegotiating the terms of the security interest; requiring payment of additional rent or interest; exercising forbearance; requiring or exercising rights pursuant to an assignment of accounts or other amounts owed to an obligor; requiring or exercising rights pursuant to an escrow agreement pertaining to amounts owed to an obligor; providing specific or general financial or other advice, suggestions, counseling, or guidance; and exercising any right or remedy the holder is entitled to by law or under any warranties, covenants, conditions, representations, or promises from the borrower. [1995 c 70 § 1; 1994 c 254 § 2; 1989 c 2 § 2 (Initiative Measure No. 97, approved November 8, 1988).]

70.105D.030 Department's powers and duties. (1) The department may exercise the following powers in addition to any other powers granted by law:

(a) Investigate, provide for investigating, or require potentially liable persons to investigate any releases or threatened releases of hazardous substances, including but not limited to inspecting, sampling, or testing to determine the nature or extent of any release or threatened release. If

there is a reasonable basis to believe that a release or threatened release of a hazardous substance may exist, the department's authorized employees, agents, or contractors may enter upon any property and conduct investigations. The department shall give reasonable notice before entering property unless an emergency prevents such notice. The department may by subpoena require the attendance or testimony of witnesses and the production of documents or other information that the department deems necessary;

(b) Conduct, provide for conducting, or require potentially liable persons to conduct remedial actions (including investigations under (a) of this subsection) to remedy releases or threatened releases of hazardous substances. In carrying out such powers, the department's authorized employees, agents, or contractors may enter upon property. The department shall give reasonable notice before entering property unless an emergency prevents such notice. In conducting, providing for, or requiring remedial action, the department shall give preference to permanent solutions to the maximum extent practicable and shall provide for or require adequate monitoring to ensure the effectiveness of the remedial action;

(c) Indemnify contractors retained by the department for carrying out investigations and remedial actions, but not for any contractor's reckless or wilful misconduct;

(d) Carry out all state programs authorized under the federal cleanup law and the federal resource, conservation, and recovery act, 42 U.S.C. Sec. 6901 et seq., as amended;

(e) Classify substances as hazardous substances for purposes of RCW 70.105D.020(7) and classify substances and products as hazardous substances for purposes of RCW 82.21.020(1);

(f) Issue orders or enter into consent decrees or agreed orders that include deed restrictions where necessary to protect human health and the environment from a release or threatened release of a hazardous substance from a facility. Prior to establishing a deed restriction under this subsection, the department shall notify and seek comment from a city or county department with land use planning authority for real property subject to a deed restriction;

(g) Enforce the application of permanent and effective institutional controls that are necessary for a remedial action to be protective of human health and the environment;

(h) Require holders to conduct remedial actions necessary to abate an imminent or substantial endangerment pursuant to RCW 70.105D.020(11)(b)(ii)(C); and

(i) Take any other actions necessary to carry out the provisions of this chapter, including the power to adopt rules under chapter 34.05 RCW.

(2) The department shall immediately implement all provisions of this chapter to the maximum extent practicable, including investigative and remedial actions where appropriate. The department shall adopt, and thereafter enforce, rules under chapter 34.05 RCW to:

(a) Provide for public participation, including at least (i) the establishment of regional citizen's advisory committees, (ii) public notice of the development of investigative plans or remedial plans for releases or threatened releases, and (iii) concurrent public notice of all compliance orders, agreed orders, enforcement orders, or notices of violation;

(b) Establish a hazard ranking system for hazardous waste sites;

(c) Establish reasonable deadlines not to exceed ninety days for initiating an investigation of a hazardous waste site after the department receives information that the site may pose a threat to human health or the environment and other reasonable deadlines for remedying releases or threatened releases at the site;

(d) Publish and periodically update minimum cleanup standards for remedial actions at least as stringent as the cleanup standards under section 121 of the federal cleanup law, 42 U.S.C. Sec. 9621, and at least as stringent as all applicable state and federal laws, including health-based standards under state and federal law; and

(e) Apply industrial clean-up standards at industrial properties. Rules adopted under this subsection shall ensure that industrial properties cleaned up to industrial standards cannot be converted to nonindustrial uses without approval from the department. The department may require that a property cleaned up to industrial standards is cleaned up to a more stringent applicable standard as a condition of conversion to a nonindustrial use. Industrial clean-up standards may not be applied to industrial properties where hazardous substances remaining at the property after remedial action pose a threat to human health or the environment in adjacent nonindustrial areas.

(3) Before November 1st of each even-numbered year, the department shall develop, with public notice and hearing, and submit to the ways and means and appropriate standing environmental committees of the senate and house of representatives a ranked list of projects and expenditures recommended for appropriation from both the state and local toxics control accounts. The department shall also provide the legislature and the public each year with an accounting of the department's activities supported by appropriations from the state toxics control account, including a list of known hazardous waste sites and their hazard rankings, actions taken and planned at each site, how the department is meeting its top two management priorities under RCW 70.105.150, and all funds expended under this chapter.

(4) The department shall establish a scientific advisory board to render advice to the department with respect to the hazard ranking system, cleanup standards, remedial actions, deadlines for remedial actions, monitoring, the classification of substances as hazardous substances for purposes of RCW 70.105D.020(7) and the classification of substances or products as hazardous substances for purposes of RCW 82.21.020(1). The board shall consist of five independent members to serve staggered three-year terms. No members may be employees of the department. Members shall be reimbursed for travel expenses as provided in RCW 43.03.050 and 43.03.060.

(5) The department shall establish a program to identify potential hazardous waste sites and to encourage persons to provide information about hazardous waste sites. [1995 c 70 § 2. Prior: 1994 c 257 § 11; 1994 c 254 § 3; 1989 c 2 § 3 (Initiative Measure No. 97, approved November 8, 1988).]

Severability—1994 c 257: See note following RCW 36.70A.270.

70.105D.040 Standard of liability—Settlement. (1) Except as provided in subsection (3) of this section, the following persons are liable with respect to a facility:

(a) The owner or operator of the facility;

(b) Any person who owned or operated the facility at the time of disposal or release of the hazardous substances;

(c) Any person who owned or possessed a hazardous substance and who by contract, agreement, or otherwise arranged for disposal or treatment of the hazardous substance at the facility, or arranged with a transporter for transport for disposal or treatment of the hazardous substances at the facility, or otherwise generated hazardous wastes disposed of or treated at the facility;

(d) Any person (i) who accepts or accepted any hazardous substance for transport to a disposal, treatment, or other facility selected by such person from which there is a release or a threatened release for which remedial action is required, unless such facility, at the time of disposal or treatment, could legally receive such substance; or (ii) who accepts a hazardous substance for transport to such a facility and has reasonable grounds to believe that such facility is not operated in accordance with chapter 70.105 RCW; and

(e) Any person who both sells a hazardous substance and is responsible for written instructions for its use if (i) the substance is used according to the instructions and (ii) the use constitutes a release for which remedial action is required at the facility.

(2) Each person who is liable under this section is strictly liable, jointly and severally, for all remedial action costs and for all natural resource damages resulting from the releases or threatened releases of hazardous substances. The attorney general, at the request of the department, is empowered to recover all costs and damages from persons liable therefor.

(3) The following persons are not liable under this section:

(a) Any person who can establish that the release or threatened release of a hazardous substance for which the person would be otherwise responsible was caused solely by:

(i) An act of God;

(ii) An act of war; or

(iii) An act or omission of a third party (including but not limited to a trespasser) other than (A) an employee or agent of the person asserting the defense, or (B) any person whose act or omission occurs in connection with a contractual relationship existing, directly or indirectly, with the person asserting this defense to liability. This defense only applies where the person asserting the defense has exercised the utmost care with respect to the hazardous substance, the foreseeable acts or omissions of the third party, and the foreseeable consequences of those acts or omissions;

(b) Any person who is an owner, past owner, or purchaser of a facility and who can establish by a preponderance of the evidence that at the time the facility was acquired by the person, the person had no knowledge or reason to know that any hazardous substance, the release or threatened release of which has resulted in or contributed to the need for the remedial action, was released or disposed of on, in, or at the facility. This subsection (b) is limited as follows:

(i) To establish that a person had no reason to know, the person must have undertaken, at the time of acquisition, all appropriate inquiry into the previous ownership and uses of the property, consistent with good commercial or customary practice in an effort to minimize liability. Any court interpreting this subsection (b) shall take into account any

specialized knowledge or experience on the part of the person, the relationship of the purchase price to the value of the property if uncontaminated, commonly known or reasonably ascertainable information about the property, the obviousness of the presence or likely presence of contamination at the property, and the ability to detect such contamination by appropriate inspection;

(ii) The defense contained in this subsection (b) is not available to any person who had actual knowledge of the release or threatened release of a hazardous substance when the person owned the real property and who subsequently transferred ownership of the property without first disclosing such knowledge to the transferee;

(iii) The defense contained in this subsection (b) is not available to any person who, by any act or omission, caused or contributed to the release or threatened release of a hazardous substance at the facility;

(c) Any natural person who uses a hazardous substance lawfully and without negligence for any personal or domestic purpose in or near a dwelling or accessory structure when that person is: (i) A resident of the dwelling; (ii) a person who, without compensation, assists the resident in the use of the substance; or (iii) a person who is employed by the resident, but who is not an independent contractor;

(d) Any person who, for the purpose of growing food crops, applies pesticides or fertilizers without negligence and in accordance with all applicable laws and regulations.

(4) There may be no settlement by the state with any person potentially liable under this chapter except in accordance with this section.

(a) The attorney general may agree to a settlement with any potentially liable person only if the department finds, after public notice and hearing, that the proposed settlement would lead to a more expeditious cleanup of hazardous substances in compliance with cleanup standards under RCW 70.105D.030(2)(d) and with any remedial orders issued by the department. Whenever practicable and in the public interest, the attorney general may expedite such a settlement with persons whose contribution is insignificant in amount and toxicity.

(b) A settlement agreement under this section shall be entered as a consent decree issued by a court of competent jurisdiction.

(c) A settlement agreement may contain a covenant not to sue only of a scope commensurate with the settlement agreement in favor of any person with whom the attorney general has settled under this section. Any covenant not to sue shall contain a reopener clause which requires the court to amend the covenant not to sue if factors not known at the time of entry of the settlement agreement are discovered and present a previously unknown threat to human health or the environment.

(d) A party who has resolved its liability to the state under this section shall not be liable for claims for contribution regarding matters addressed in the settlement. The settlement does not discharge any of the other liable parties but it reduces the total potential liability of the others to the state by the amount of the settlement.

(5) In addition to the settlement authority provided under subsection (4) of this section, the attorney general may agree to a settlement with a person not currently liable for

remedial action at a facility who proposes to purchase, redevelop, or reuse the facility, provided that:

(a) The settlement will provide a substantial public benefit, including but not limited to the reuse of a vacant or abandoned manufacturing or industrial facility, or the development of a facility by a governmental entity to address an important public purpose;

(b) The settlement will yield substantial new resources to facilitate cleanup;

(c) The settlement will expedite remedial action consistent with the rules adopted under this chapter; and

(d) Based on available information, the department determines that the redevelopment or reuse of the facility is not likely to contribute to the existing release or threatened release, interfere with remedial actions that may be needed at the site, or increase health risks to persons at or in the vicinity of the site.

(6) Nothing in this chapter affects or modifies in any way any person's right to seek or obtain relief under other statutes or under common law, including but not limited to damages for injury or loss resulting from a release or threatened release of a hazardous substance. No settlement by the department or remedial action ordered by a court or the department affects any person's right to obtain a remedy under common law or other statutes. [1994 c 254 § 4; 1989 c 2 § 4 (Initiative Measure No. 97, approved November 8, 1988).]

70.105D.050 Enforcement. (1) With respect to any release, or threatened release, for which the department does not conduct or contract for conducting remedial action and for which the department believes remedial action is in the public interest, the director shall issue orders or agreed orders requiring potentially liable persons to provide the remedial action. Any liable person who refuses, without sufficient cause, to comply with an order or agreed order of the director is liable in an action brought by the attorney general for:

(a) Up to three times the amount of any costs incurred by the state as a result of the party's refusal to comply; and

(b) A civil penalty of up to twenty-five thousand dollars for each day the party refuses to comply.

The treble damages and civil penalty under this subsection apply to all recovery actions filed on or after March 1, 1989.

(2) Any person who incurs costs complying with an order issued under subsection (1) of this section may petition the department for reimbursement of those costs. If the department refuses to grant reimbursement, the person may within thirty days thereafter file suit and recover costs by proving that he or she was not a liable person under RCW 70.105D.040 and that the costs incurred were reasonable.

(3) The attorney general shall seek, by filing an action if necessary, to recover the amounts spent by the department for investigative and remedial actions and orders, and agreed orders, including amounts spent prior to March 1, 1989.

(4) The attorney general may bring an action to secure such relief as is necessary to protect human health and the environment under this chapter.

(5)(a) Any person may commence a civil action to compel the department to perform any nondiscretionary duty under this chapter. At least thirty days before commencing

the action, the person must give notice of intent to sue, unless a substantial endangerment exists. The court may award attorneys' fees and other costs to the prevailing party in the action.

(b) Civil actions under this section and RCW 70.105D.060 may be brought in the superior court of Thurston county or of the county in which the release or threatened release exists. [1994 c 257 § 12; 1989 c 2 § 5 (Initiative Measure No. 97, approved November 8, 1988).]

Severability—1994 c 257: See note following RCW 36.70A.270.

70.105D.060 Timing of review. The department's investigative and remedial decisions under RCW 70.105D.030 and 70.105D.050 and its decisions regarding liable persons under RCW *70.105D.020(8) and 70.105D.040 shall be reviewable exclusively in superior court and only at the following times: (1) In a cost recovery suit under RCW 70.105D.050(3); (2) in a suit by the department to enforce an order or an agreed order, or seek a civil penalty under this chapter; (3) in a suit for reimbursement under RCW 70.105D.050(2); (4) in a suit by the department to compel investigative or remedial action; and (5) in a citizen's suit under RCW 70.105D.050(5). The court shall uphold the department's actions unless they were arbitrary and capricious. [1994 c 257 § 13; 1989 c 2 § 6 (Initiative Measure No. 97, approved November 8, 1988).]

***Reviser's note:** RCW 70.105D.020 was amended by 1994 c 254 § 2, changing subsection (8) to subsection (9); and was subsequently amended by 1995 c 70 § 1, changing subsection (9) to subsection (15).

Severability—1994 c 257: See note following RCW 36.70A.270.

70.105D.070 Toxics control accounts. (1) The state toxics control account and the local toxics control account are hereby created in the state treasury.

(2) The following moneys shall be deposited into the state toxics control account: (a) Those revenues which are raised by the tax imposed under RCW 82.21.030 and which are attributable to that portion of the rate equal to thirty-three one-hundredths of one percent; (b) the costs of remedial actions recovered under this chapter or chapter 70.105A RCW; (c) penalties collected or recovered under this chapter; and (d) any other money appropriated or transferred to the account by the legislature. Moneys in the account may be used only to carry out the purposes of this chapter, including but not limited to the following activities:

(i) The state's responsibility for hazardous waste planning, management, regulation, enforcement, technical assistance, and public education required under chapter 70.105 RCW;

(ii) The state's responsibility for solid waste planning, management, regulation, enforcement, technical assistance, and public education required under chapter 70.95 RCW;

(iii) The hazardous waste cleanup program required under this chapter;

(iv) State matching funds required under the federal cleanup law;

(v) Financial assistance for local programs in accordance with chapters 70.95, 70.95C, 70.95I, and 70.105 RCW;

(vi) State government programs for the safe reduction, recycling, or disposal of hazardous wastes from households, small businesses, and agriculture;

(vii) Hazardous materials emergency response training;

(viii) Water and environmental health protection and monitoring programs;

(ix) Programs authorized under chapter 70.146 RCW;

(x) A public participation program, including regional citizen advisory committees;

(xi) Public funding to assist potentially liable persons to pay for the costs of remedial action in compliance with cleanup standards under RCW 70.105D.030(2)(d) but only when the amount and terms of such funding are established under a settlement agreement under RCW 70.105D.040(4) and when the director has found that the funding will achieve both (A) a substantially more expeditious or enhanced cleanup than would otherwise occur, and (B) the prevention or mitigation of unfair economic hardship; and

(xii) Development and demonstration of alternative management technologies designed to carry out the top two hazardous waste management priorities of RCW 70.105.150.

(3) The following moneys shall be deposited into the local toxics control account: Those revenues which are raised by the tax imposed under RCW 82.21.030 and which are attributable to that portion of the rate equal to thirty-seven one-hundredths of one percent.

(a) Moneys deposited in the local toxics control account shall be used by the department for grants or loans to local governments for the following purposes in descending order of priority: (i) Remedial actions; (ii) hazardous waste plans and programs under chapter 70.105 RCW; and (iii) solid waste plans and programs under chapters 70.95, 70.95C, 70.95I, and 70.105 RCW. Funds for plans and programs shall be allocated consistent with the priorities and matching requirements established in chapters 70.105, 70.95C, 70.95I, and 70.95 RCW.

(b) Funds may also be appropriated to the department of health to implement programs to reduce testing requirements under the federal safe drinking water act for public water systems. The department of health shall reimburse the account from fees assessed under RCW 70.119A.115 by June 30, 1995.

(4) Except for unanticipated receipts under RCW 43.79.260 through 43.79.282, moneys in the state and local toxics control accounts may be spent only after appropriation by statute.

(5) One percent of the moneys deposited into the state and local toxics control accounts shall be allocated only for public participation grants to persons who may be adversely affected by a release or threatened release of a hazardous substance and to not-for-profit public interest organizations. The primary purpose of these grants is to facilitate the participation by persons and organizations in the investigation and remedying of releases or threatened releases of hazardous substances and to implement the state's solid and hazardous waste management priorities. No grant may exceed fifty thousand dollars though it may be renewed annually. Moneys appropriated for public participation from either account which are not expended at the close of any biennium shall revert to the state toxics control account.

(6) No moneys deposited into either the state or local toxics control account may be used for solid waste incinerator feasibility studies, construction, maintenance, or operation.

(7) The department shall adopt rules for grant or loan issuance and performance. [1994 c 252 § 5; 1991 sp.s. c 13 § 69; 1989 c 2 § 7 (Initiative Measure No. 97, approved November 8, 1988).]

Finding—Effective date—1994 c 252: See notes following RCW 70.119A.020.

Effective dates—Severability—1991 sp.s. c 13: See notes following RCW 18.08.240.

70.105D.080 Private right of action—Remedial action costs. Except as provided in RCW 70.105D.040(4)(d), a person may bring a private right of action, including a claim for contribution or for declaratory relief, against any other person liable under RCW 70.105D.040 for the recovery of remedial action costs. In the action, natural resource damages paid to the state under this chapter may also be recovered. Recovery shall be based on such equitable factors as the court determines are appropriate. Remedial action costs shall include reasonable attorneys' fees and expenses. Recovery of remedial action costs shall be limited to those remedial actions that, when evaluated as a whole, are the substantial equivalent of a department-conducted or department-supervised remedial action. Substantial equivalence shall be determined by the court with reference to the rules adopted by the department under this chapter. An action under this section may be brought after remedial action costs are incurred but must be brought within three years from the date remedial action confirms cleanup standards are met or within one year of May 12, 1993, whichever is later. The prevailing party in such an action shall recover its reasonable attorneys' fees and costs. This section applies to all causes of action regardless of when the cause of action may have arisen. To the extent a cause of action has arisen prior to May 12, 1993, this section applies retroactively, but in all other respects it applies prospectively. [1993 c 326 § 1.]

Effective date—1993 c 326: "This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and shall take effect immediately [May 12, 1993]." [1993 c 326 § 2.]

Severability—1993 c 326: "If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected." [1993 c 326 § 3.]

70.105D.090 Remedial actions—Exemption from procedural requirements. (1) A person conducting a remedial action at a facility under a consent decree, order, or agreed order, and the department when it conducts a remedial action, are exempt from the procedural requirements of chapters 70.94, 70.95, 70.105, 75.20, 90.48, and 90.58 RCW, and the procedural requirements of any laws requiring or authorizing local government permits or approvals for the remedial action. The department shall ensure compliance with the substantive provisions of chapters 70.94, 70.95, 70.105, 75.20, 90.48, and 90.58 RCW, and the substantive provisions of any laws requiring or authorizing local government permits or approvals. The department shall establish procedures for ensuring that such remedial actions comply with the substantive requirements adopted pursuant to such laws, and shall consult with the state agencies and local governments charged with implementing these laws. The

procedures shall provide an opportunity for comment by the public and by the state agencies and local governments that would otherwise implement the laws referenced in this section. Nothing in this section is intended to prohibit implementing agencies from charging a fee to the person conducting the remedial action to defray the costs of services rendered relating to the substantive requirements for the remedial action.

(2) An exemption in this section or in RCW 70.94.335, 70.95.270, 70.105.116, 75.20.025, 90.48.039, and 90.58.355 shall not apply if the department determines that the exemption would result in loss of approval from a federal agency necessary for the state to administer any federal law, including the federal resource conservation and recovery act, the federal clean water act, the federal clean air act, and the federal coastal zone management act. Such a determination by the department shall not affect the applicability of the exemptions to other statutes specified in this section. [1994 c 257 § 14.]

Severability—1994 c 257: See note following RCW 36.70A.270.

70.105D.900 Short title—1989 c 2. This act shall be known as "the model toxics control act." [1989 c 2 § 22 (Initiative Measure No. 97, approved November 8, 1988).]

70.105D.905 Captions—1989 c 2. As used in this act, captions constitute no part of the law. [1989 c 2 § 21 (Initiative Measure No. 97, approved November 8, 1988).]

70.105D.910 Construction—1989 c 2. The provisions of this act are to be liberally construed to effectuate the policies and purposes of this act. In the event of conflict between the provisions of this act and any other act, the provisions of this act shall govern. [1989 c 2 § 19 (Initiative Measure No. 97, approved November 8, 1988).]

70.105D.915 Existing agreements—1989 c 2. The consent orders and decrees in effect on March 1, 1989, shall remain valid and binding. [1989 c 2 § 20 (Initiative Measure No. 97, approved November 8, 1988).]

70.105D.920 Effective date—1989 c 2. (1) Sections 1 through 24 of this act shall take effect March 1, 1989, except that the director of ecology and the director of revenue may take whatever actions may be necessary to ensure that sections 1 through 24 of this act are implemented on their effective date.

*(2) This section does not apply and shall have no force or effect if (a) this act is passed by the legislature in the 1988 regular session or (b) no bill is enacted by the legislature involving hazardous substance cleanup (along with any other subject matter) between August 15, 1987, and January 1, 1988. [1989 c 2 § 26 (Initiative Measure No. 97, approved November 8, 1988).]

***Reviser's note:** Neither condition contained in subsection (2) was met.

70.105D.921 Severability—1989 c 2. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of

the provision to other persons or circumstances is not affected. [1989 c 2 § 18 (Initiative Measure No. 97, approved November 8, 1988).]

Radioactive and hazardous waste emergency response programs, state coordinator: RCW 38.52.030.

70.106.010 Purpose. The purpose of this chapter is to provide for special packaging to protect children from personal injury, serious illness or death resulting from handling, using or ingesting household substances, and to provide penalties. [1974 ex.s. c 49 § 1.]

70.106.020 Short title. This chapter shall be cited as the Washington Poison Prevention Act of 1974. [1974 ex.s. c 49 § 2.]

70.106.030 Definitions—Construction. The definitions in RCW 70.106.040 through 70.106.090 unless the context otherwise requires shall govern the construction of this chapter. [1974 ex.s. c 49 § 3.]

70.106.040 "Director" defined. "Director" means the director of the department of agriculture of the state of Washington, or his duly authorized representative. [1974 ex.s. c 49 § 4.]

70.106.050 "Sale" defined. "Sale" means to sell, offer for sale, hold for sale, handle or use as an inducement in the promotion of a household substance or the sale of another article or product. [1974 ex.s. c 49 § 5.]

70.106.060 "Household substance" defined. "Household substance" means any substance which is customarily produced or distributed for sale for consumption or use, or customarily stored, by individuals in or about the household and which is:

(1) A "hazardous substance", which means (a) any substance or mixture of substances or product which (i) is

toxic, (ii) is corrosive, (iii) is an irritant, (iv) is a strong sensitizer, (v) is flammable or combustible, or (vi) generates pressure through decomposition, heat, or other means, if such substance or mixture of substances may cause substantial personal injury or substantial illness during or as a proximate result of any customary or reasonably foreseeable handling or use, including reasonably foreseeable ingestion by children; (b) any substances which the director by regulation finds to meet the requirements of subsection (1)(a) of this section; (c) any radioactive substance, if, with respect to such substance as used in a particular class of article or as packaged, the director determines by regulation that the substance is sufficiently hazardous to require labeling in accordance with this chapter in order to protect the public health, safety or welfare; and (d) any toy or other article intended for use by children which the director by regulation determines presents an electrical, mechanical or thermal hazard.

(2) A pesticide as defined in the Washington Pesticide Control Act, chapter 15.58 RCW as now or hereafter amended;

(3) A food, drug, or cosmetic as those terms are defined in the Uniform Washington Food, Drug and Cosmetic Act, chapter 69.04 RCW as now or hereafter amended; or

(4) A substance intended for use as fuel when stored in portable containers and used in the heating, cooking, or refrigeration system of a house; or

(5) Any other substance which the director may declare to be a household substance subsequent to a hearing as provided for under the provisions of chapter 34.05 RCW, Administrative Procedure Act, for the adoption of rules. [1974 ex.s. c 49 § 6.]

70.106.070 "Package" defined. "Package" means the immediate container or wrapping in which any household substance is contained for consumption, use, or storage by individuals in or about the household, and, for purposes of RCW 70.106.110(1)(b), also means any outer container or wrapping used in the retail display of any such substance to consumers. Such term does not include:

(1) Any shipping container or wrapping used solely for the transportation of any household substance in bulk or in quantity to manufacturers, packers, or processors, or to wholesale or retail distributors thereof; or

(2) Any shipping container or outer wrapping used by retailers to ship or deliver any household substance to consumers unless it is the only such container or wrapping. [1974 ex.s. c 49 § 7.]

70.106.080 "Special packaging" defined. "Special packaging" means packaging that is designed or constructed to be significantly difficult for children under five years of age to open or obtain a toxic or harmful amount of the substance contained therein within a reasonable time and not difficult for normal adults to use properly, but does not mean packaging which all such children cannot open or obtain a toxic or harmful amount within a reasonable time. [1974 ex.s. c 49 § 8.]

70.106.090 "Labeling" defined. "Labeling" means all labels and other written, printed, or graphic matter upon any

household substance or its package, or accompanying such substance. [1974 ex.s. c 49 § 9.]

70.106.100 Standards for packaging. (1) The director may establish in accordance with the provisions of this chapter, by regulation, standards for the special packaging of any household substance if he finds that:

(a) The degree or nature of the hazard to children in the availability of such substance, by reason of its packaging is such that special packaging is required to protect children from serious personal injury or serious illness resulting from handling, using or ingesting such substance; and

(b) The special packaging to be required by such standard is technically feasible, practicable, and appropriate for such substance.

(2) In establishing a standard under this section, the director shall consider:

(a) The reasonableness of such standard;

(b) Available scientific, medical, and engineering data concerning special packaging and concerning childhood accidental ingestions, illness, and injury caused by household substances;

(c) The manufacturing practices of industries affected by this chapter; and

(d) The nature and use of the household substance.

(3) In carrying out the provisions of this chapter, the director shall publish his findings, his reasons therefor, and citation of the sections of statutes which authorize his action.

(4) Nothing in this chapter authorizes the director to prescribe specific packaging designs, product content, package quantity, or, with the exception of authority granted in RCW 70.106.110(1)(b), labeling. In the case of a household substance for which special packaging is required pursuant to a regulation under this section, the director may in such regulation prohibit the packaging of such substance in packages which he determines are unnecessarily attractive to children.

(5) The director shall cause the regulations promulgated under this chapter to conform with the requirements or exemptions of the Federal Hazardous Substances Act and with the regulations or interpretations promulgated pursuant thereto. [1974 ex.s. c 49 § 10.]

70.106.110 Exceptions from packaging standards.

(1) For the purpose of making any household substance which is subject to a standard established under RCW 70.106.100 readily available to elderly or handicapped persons unable to use such substance when packaged in compliance with such standard, the manufacturer or packer, as the case may be, may package any household substance, subject to such a standard, in packaging of a single size which does not comply with such standard if:

(a) The manufacturer or packer also supplies such substance in packages which comply with such standard; and

(b) The packages of such substance which do not meet such standard bear conspicuous labeling stating: "This package for households without young children"; except that the director may by regulation prescribe a substitute statement to the same effect for packaging too small to accommodate such labeling.

(2) In the case of a household substance which is subject to such a standard and which is dispensed pursuant to an order of a physician, dentist, or other licensed medical practitioner authorized to prescribe, such substance may be dispensed in noncomplying packages only when directed in such order or when requested by the purchaser.

(3) In the case of a household substance subject to such a standard which is packaged under subsection (1) of this section in a noncomplying package, if the director determines that such substance is not also being supplied by a manufacturer or packer in popular size packages which comply with such standard, he may, after giving the manufacturer or packer an opportunity to comply with the purposes of this chapter, by order require such substance to be packaged by such manufacturer or packer exclusively in special packaging complying with such standard if he finds, after opportunity for hearing, that such exclusive use of special packaging is necessary to accomplish the purposes of this chapter. [1974 ex.s. c 49 § 11.]

70.106.120 Adoption of rules and regulations under federal poison prevention packaging act.

One of the purposes of this chapter is to promote uniformity with the Poison Prevention Packaging Act of 1970 and rules and regulations adopted thereunder. In accordance with such declared purpose, all of the special packaging rules and regulations adopted under the Poison Prevention Packaging Act of 1970 (84 Stat. 1670; 7 U.S.C. Sec. 135; 15 U.S.C. Sec. 1261, 1471-1476; 21 U.S.C. Sec. 343, 352, 353, 362) on July 24, 1974, are hereby adopted as rules and regulations applicable to this chapter. In addition, any rule or regulation adopted hereafter under said Federal Poison Prevention Act of 1970 concerning special packaging and published in the federal register shall be deemed to have been adopted under the provisions of this chapter. The director may, however, within thirty days of the publication of the adoption of any such rule or regulation under the Federal Poison Prevention Packaging Act of 1970, give public notice that a hearing will be held to determine if such regulations shall not be applicable under the provisions of this chapter. Such hearing shall be conducted in accord with the provisions of chapter 34.05 RCW, Administrative Procedure Act, as now enacted or hereafter amended. [1974 ex.s. c 49 § 12.]

70.106.140 Penalties. Any person violating the provisions of this chapter or rules adopted hereunder is guilty of a misdemeanor and is guilty of a gross misdemeanor for any subsequent offense, however, any offense committed more than five years after a previous conviction shall be considered a first offense. [1974 ex.s. c 49 § 16.]

70.106.150 Authority to adopt regulations—Delegation of authority to board of pharmacy.

The authority to promulgate regulations for the efficient enforcement of this chapter is hereby vested in the director. However, the director shall designate the Washington state board of pharmacy to carry out all the provisions of this chapter pertaining to drugs and cosmetics, with authority to promulgate regulations for the efficient enforcement thereof. [1987 c 236 § 1.]

70.106.900 Severability—1974 ex.s. c 49. 70.107.910	Short title.

70.107.010 Purpose. The legislature finds that inadequately controlled noise adversely affects the health, safety and welfare of the people, the value of property, and the quality of the environment. Antinoise measures of the past have not adequately protected against the invasion of these interests by noise. There is a need, therefore, for an expansion of efforts state-wide directed toward the abatement and control of noise, considering the social and economic impact upon the community and the state. The purpose of this chapter is to provide authority for such an expansion of efforts, supplementing existing programs in the field. [1974 ex.s. c 183 § 1.]

70.107.020 Definitions. As used in this chapter, unless the context clearly indicates otherwise:

- (1) "Department" means the department of ecology.
- (2) "Director" means director of the department of ecology.
- (3) "Local government" means county or city government or any combination of the two.
- (4) "Noise" means the intensity, duration and character of sounds from any and all sources.
- (5) "Person" means any individual, corporation, partnership, association, governmental body, state, or other entity whatsoever. [1974 ex.s. c 183 § 2.]

70.107.030 Powers and duties of department. The department is empowered as follows:

(1) The department, after consultation with state agencies expressing an interest therein, shall adopt, by rule, maximum noise levels permissible in identified environments in order to protect against adverse affects of noise on the health, safety and welfare of the people, the value of property, and the quality of environment: PROVIDED, That in so doing the department shall take also into account the economic and practical benefits to be derived from the use of various products in each such environment, whether the source of the noise or the use of such products in each environment is permanent or temporary in nature, and the state of technology relative to the control of noise generated by all such sources of the noise or the products.

(2) At any time after the adoption of maximum noise levels under subsection (1) of this section the department shall, in consultation with state agencies and local governments expressing an interest therein, adopt rules, consistent with the Federal Noise Control Act of 1972 (86 Stat. 1234; 42 U.S.C. Sec. 4901-4918 and 49 U.S.C. Sec. 1431), for noise abatement and control in the state designed to achieve compliance with the noise level adopted in subsection (1) of this section, including reasonable implementation schedules where appropriate, to insure that the maximum noise levels are not exceeded and that application of the best practicable noise control technology and practice is provided. These rules may include, but shall not be limited to:

- (a) Performance standards setting allowable noise limits for the operation of products which produce noise;
- (b) Use standards regulating, as to time and place, the operation of individual products which produce noise above specified levels considering frequency spectrum and duration: PROVIDED; The rules shall provide for temporarily exceeding those standards for stated purposes; and
- (c) Public information requirements dealing with disclosure of levels and characteristics of noise produced by products.

(3) The department may, as desirable in the performance of its duties under this chapter, conduct surveys, studies and public education programs, and enter into contracts.

(4) The department is authorized to apply for and accept moneys from the federal government and other sources to assist in the implementation of this chapter.

(5) The legislature recognizes that the operation of motor vehicles on public highways as defined in RCW 46.09.020 contributes significantly to environmental noise levels and directs the department, in exercising the rule-making authority under the provisions of this section, to give first priority to the adoption of motor vehicle noise performance standards.

(6) Noise levels and rules adopted by the department pursuant to this chapter shall not be effective prior to March 31, 1975. [1974 ex.s. c 183 § 3.]

70.107.040 Technical advisory committee. The director shall name a technical advisory committee to assist the department in the implementation of this chapter. Committee members shall be entitled to reimbursement for travel expenses as provided in RCW 43.03.050 and 43.03.060, as now existing or hereafter amended. [1975-'76 2nd ex.s. c 34 § 164; 1974 ex.s. c 183 § 4.]

Effective date—Severability—1975-'76 2nd ex.s. c 34: See notes following RCW 2.08.115.

70.107.050 Civil penalties. (1) Any person who violates any rule adopted by the department under this chapter shall be subject to a civil penalty not to exceed one hundred dollars imposed by local government pursuant to this section. An action under this section shall not preclude enforcement of any provisions of the local government noise ordinance.

Penalties shall become due and payable thirty days from the date of receipt of a notice of penalty unless within such time said notice is appealed in accordance with the administrative procedures of the local government, or if it has no such administrative appeal, to the pollution control hearings board pursuant to the provisions of chapter 43.21B RCW and procedural rules adopted thereunder. In cases in which appeals are timely filed, penalties sustained by the local administrative agency or the pollution control hearings board shall become due and payable on the issuance of said agency or board's final order in the appeal.

(2) Whenever penalties incurred pursuant to this section have become due and payable but remain unpaid, the attorney for the local government may bring an action in the superior court of the county in which the violation occurred for recovery of penalties incurred. In all such actions the procedures and rules of evidence shall be the same as in any other civil action. [1987 c 103 § 2; 1974 ex.s. c 183 § 5.]

70.107.060 Other rights, remedies, powers, duties and functions—Local regulation—Approval—Procedure.

(1) Nothing in this chapter shall be construed to deny, abridge or alter alternative rights of action or remedies in equity or under common law or statutory law, criminal or civil.

(2) Nothing in this chapter shall deny, abridge or alter any powers, duties and functions relating to noise abatement and control now or hereafter vested in any state agency, nor shall this chapter be construed as granting jurisdiction over the industrial safety and health of employees in work places of the state, as now or hereafter vested in the department of labor and industries.

(3) Standards and other control measures adopted by the department under this chapter shall be exclusive except as hereinafter provided. A local government may impose limits or control sources differing from those adopted or controlled by the department upon a finding that such requirements are necessitated by special conditions. Noise limiting requirements of local government which differ from those adopted or controlled by the department shall be invalid unless first approved by the department. If the department of ecology fails to approve or disapprove standards submitted by local governmental jurisdictions within ninety days of submittal, such standards shall be deemed approved. If disapproved, the local government may appeal the decision to the pollution control hearings board which shall decide the appeal on the basis of the provisions of this chapter, and the applicable regulations, together with such briefs, testimony, and oral argument as the hearings board in its discretion may require. The department determination of whether to grant approval shall depend on the reasonableness and practicability of compliance. Particular attention shall be given to stationary sources located near jurisdictional boundaries, and temporary

noise producing operations which may operate across one or more jurisdictional boundaries.

(4) In carrying out the rule-making authority provided in this chapter, the department shall follow the procedures of the administrative procedure act, chapter 34.05 RCW, and shall take care that no rules adopted purport to exercise any powers preempted by the United States under federal law. [1987 c 103 § 1; 1974 ex.s. c 183 § 6.]

70.107.070 Rules relating to motor vehicles—Violations—Penalty.

Any rule adopted under this chapter relating to the operation of motor vehicles on public highways shall be administered according to testing and inspection procedures adopted by rule by the state patrol. Violation of any motor vehicle performance standard adopted pursuant to this chapter shall be a misdemeanor, enforced by such authorities and in such manner as violations of chapter 46.37 RCW. Violations subject to the provisions of this section shall be exempt from the provisions of RCW 70.107.050. [1987 c 330 § 749; 1974 ex.s. c 183 § 7.]

Construction—Application of rules—Severability—1987 c 330: See notes following RCW 28B.12.050.

70.107.080 Exemptions. The department shall, in the exercise of rule-making power under this chapter, provide exemptions or specially limited regulations relating to recreational shooting and emergency or law enforcement equipment where appropriate in the interests of public safety.

The department in the development of rules under this chapter, shall consult and take into consideration the land use policies and programs of local government. [1974 ex.s. c 183 § 8.]

70.107.900 Construction—Severability—1974 ex.s. c 183. (1) This chapter shall be liberally construed to carry out its broad purposes.

(2) If any provision of this chapter, or its application to any person or circumstance is held invalid, the remainder of the chapter, or the application of the provision to other persons or circumstances is not affected. [1974 ex.s. c 183 § 11.]

70.107.910 Short title. This chapter shall be known and may be cited as the "Noise Control Act of 1974". [1974 ex.s. c 183 § 12.]

Reviser's note: Throughout chapter 70.108 RCW the references to "this act" have been changed to "this chapter." "This act" [1971 ex.s. c 302] consists of this chapter, the 1971 amendments to RCW 9.40.110-9.40.130, 9.41.010, 9.41.070, 26.44.050, 70.74.135, 70.74.270, 70.74.280, and the enactment of RCW 9.27.015 and 9.91.110.

70.108.010 Legislative declaration. The legislature hereby declares it to be the public interest, and for the protection of the health, welfare and property of the residents of the state of Washington to provide for the orderly and lawful conduct of outdoor music festivals by assuring that proper sanitary, health, fire, safety, and police measures are provided and maintained. This invocation of the police power is prompted by and based upon prior experience with outdoor music festivals where the enforcement of the existing laws and regulations on dangerous and narcotic drugs, indecent exposure, intoxicating liquor, and sanitation has been rendered most difficult by the flagrant violations thereof by a large number of festival patrons. [1971 ex.s. c 302 § 19.]

Severability—1971 ex.s. c 302: See note following RCW 9.41.010.

Any denial shall set forth in detail the specific grounds therefor.

After the applicant has filed corrections and the issuing authority has thereafter again denied the permit, the applicant may within five days after receipt of such second denial seek judicial review of such denial by filing a petition in the superior court for the county of the issuing authority. The review shall take precedence over all other civil actions and shall be conducted by the court without a jury. The court shall, upon request, hear oral argument and receive written briefs and shall either affirm the denial or order that the permit be issued. An applicant may not use any other procedure to obtain judicial review of a denial. [1972 ex.s. c 123 § 2; 1971 ex.s. c 302 § 24.]

In addition, the promoter shall be required to furnish evidence that he has in full force and effect a one hundred thousand dollar liability property damage insurance policy covering any property damaged due to negligent failure by any officer or employee of the festival to carry out duties imposed by this chapter. The policy shall have the issuing authority of the permit as an additional named insured. [1972 ex.s. c 123 § 3; 1971 ex.s. c 302 § 26.]

Revocation of any permit granted pursuant to this chapter shall not preclude the imposition of penalties as provided for in this chapter and the laws of the state of Washington. Any permit granted pursuant to the provisions of this chapter to conduct a music festival shall be summarily revoked by the issuing authority when it finds that by reason of emergency the public peace, health, safety, morals or welfare can only be preserved and protected by such revocation.

Any permit granted pursuant to the provisions of this chapter to conduct a music festival may otherwise be revoked for any material violation of this chapter or the laws of the state of Washington after a hearing held upon not less than three days notice served upon the promoter personally or by certified mail.

Every permit issued under the provisions of this chapter shall state that such permit is issued as a measure to protect and preserve the public peace, health, safety, morals and welfare, and that the right of the appropriate authority to revoke such permit is a consideration of its issuance. [1971 ex.s. c 302 § 27.]

70.108.090 Drugs prohibited. No person, persons, partnership, corporation, association, society, fraternal or social organization to whom a music festival permit has been granted shall, during the time an outdoor music festival is in operation, knowingly permit or allow any person to bring upon the premises of said music festival, any narcotic or dangerous drug as defined by chapters *69.33 or 69.40 RCW, or knowingly permit or allow narcotic or dangerous drug to be consumed on the premises, and no person shall take or carry onto said premises any narcotic or dangerous drug. [1979 ex.s. c 136 § 104; 1971 ex.s. c 302 § 32.]

All preparations required to be made by the provisions of this chapter on the music festival site shall be completed thirty days prior to the first day scheduled for the festival. Upon such date or such earlier date when all preparations have been completed, the promoter shall notify the issuing authority thereof, and the issuing authority shall make an inspection of the festival site to determine if such preparations are in reasonably full compliance with plans submitted pursuant to RCW 70.108.040. If a material violation exists the issuing authority shall move to revoke the music festival permit in the manner provided by RCW 70.108.080. [1972 ex.s. c 123 § 6.]

70.108.170 Local regulations and ordinances not precluded. 70.111.010 Findings—Purpose—Intent. (1) The legislature finds all of the following:

(a) The disability and death of infants resulting from injuries sustained in crib accidents are a serious threat to the public health, welfare, and safety of the people of this state.

(b) Infants are an especially vulnerable class of people.

(c) The design and construction of a baby crib must ensure that it is safe to leave an infant unattended for extended periods of time. A parent or caregiver has a right to believe that the crib in use is a safe place to leave an infant.

(d) Over thirteen thousand infants are injured in unsafe cribs every year.

(e) In the past decade, six hundred twenty-two infants died (a rate of sixty-two infants each year) from injuries sustained in unsafe cribs.

(f) The United States consumer product safety commission estimates that the cost to society resulting from injuries and death due to unsafe cribs is two hundred thirty-five million dollars per year.

(g) Secondhand, hand-me-down, and heirloom cribs pose a special problem. There were four million infants born in this country last year, but only one million new cribs sold. As many as three out of four infants are placed in secondhand, hand-me-down, or heirloom cribs.

(h) Most injuries and deaths occur in secondhand, hand-me-down, or heirloom cribs.

(i) Existing state and federal legislation is inadequate to deal with this hazard.

(j) Prohibiting the remanufacture, retrofit, sale, contracting to sell or resell, leasing, or subletting of unsafe cribs, particularly unsafe secondhand, hand-me-down, or heirloom cribs, will prevent injuries and deaths caused by cribs.

(2) The purpose of this chapter is to prevent the occurrence of injuries and deaths to infants as a result of unsafe cribs by making it illegal to remanufacture, retrofit, sell, contract to sell or resell, lease, sublet, or otherwise place in the stream of commerce, after June 6, 1996, any full-size or nonfull-size crib that is unsafe for any infant using the crib.

(3) It is the intent of the legislature to encourage public and private collaboration in disseminating materials relative to the safety of baby cribs to parents, child care providers, and those who would be likely to place unsafe cribs in the stream of commerce. The legislature also intends that informational materials regarding baby crib safety be available to consumers through the department of health. [1996 c 158 § 1.]

70.111.020 Definitions. Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

70.114A.900 Severability—1995 c 220.
70.114A.901 Effective date—1995 c 220.

70.114A.010 Findings—Intent. The legislature finds that there is an inadequate supply of temporary and permanent housing for migrant and seasonal workers in this state. The legislature also finds that unclear, complex regulations related to the development, construction, and permitting of worker housing inhibit the development of this much needed housing. The legislature further finds that as a result, many workers are forced to obtain housing that is unsafe and unsanitary.

Therefore, it is the intent of the legislature to encourage the development of temporary and permanent housing for workers that is safe and sanitary by: Establishing a clear and concise set of regulations for temporary housing; establishing a streamlined permitting and administrative process that will be locally administered and encourage the development of such housing; and by providing technical assistance to organizations or individuals interested in the development of worker housing. [1995 c 220 § 1.]

70.114A.020 Definitions. The definitions in this section apply throughout this chapter.

(1) "Department" means the department of health.

(2) " Dwelling unit" means a shelter, building, or portion of a building, that may include cooking and eating facilities, that is:

However, if the legal title and the right to possession are in different persons, " operator" means a person having the lawful control or supervision over the temporary worker housing under a lease or other arrangement.

(6) " Temporary worker" means a person employed intermittently and not residing year-round at the same site.

(7) " Temporary worker housing" means a place, area, or piece of land where sleeping places or housing sites are provided by an employer for his or her employees or by another person, including a temporary worker housing operator, who is providing such accommodations for employees, for temporary, seasonal occupancy, and includes " labor camps" under RCW 70.54.110. [1995 c 220 § 2.]

70.114A.030 Application of chapter. Chapter 220, Laws of 1995, applies to temporary worker housing that consists of five or more dwelling units, or any combination of dwelling units, dormitories, or spaces that house ten or more occupants. [1995 c 220 § 3.]

70.114A.040 Responsibilities of department. The department is designated the single state agency responsible for encouraging the development of additional temporary worker housing, and shall be responsible for coordinating the activities of the various state and local agencies to assure a seamless, nonduplicative system for the development and operation of temporary worker housing. [1995 c 220 § 4.]

70.114A.050 Housing on rural worksites. Temporary worker housing located on a rural worksite, and used for workers employed on the worksite, shall be considered a permitted use at the rural worksite for the purposes of zoning or other land use review processes, subject only to height, setback, and road access requirements of the underlying zone. [1995 c 220 § 5.]

70.114A.060 Inspection of housing. The secretary of the department or authorized representative may inspect housing covered by chapter 220, Laws of 1995, to enforce temporary worker housing rules adopted by the state board of health, or when the secretary or representative has reasonable cause to believe that a violation of temporary worker housing rules adopted by the state board of health is occurring or is being maintained. If the buildings or premises are occupied as a residence, a reasonable effort shall be made to obtain permission from the resident. If the premises or building is unoccupied, a reasonable effort shall

be made to locate the owner or other person having charge or control of the building or premises and request entry. If consent for entry is not obtained, for whatever reason, the secretary or representative shall have recourse to every remedy provided by law to secure entry. [1995 c 220 § 6.]

70.114A.070 Technical assistance. The department of community, trade, and economic development shall contract with private, nonprofit corporations to provide technical assistance to any private individual or nonprofit organization wishing to construct temporary or permanent worker housing. The assistance may include information on state and local application and approval procedures, information or assistance in applying for federal, state, or local financial assistance, including tax incentives, information on cost-effective housing designs, or any other assistance the department of community, trade, and economic development may deem helpful in obtaining the active participation of private individuals or groups in constructing or operating temporary or permanent worker housing. [1995 c 220 § 7.]

70.114A.080 Temporary worker housing code. By December 1, 1996, the state building code council shall develop a temporary worker housing code, in conformance with the temporary worker housing standards developed under the Washington industrial safety and health act, chapter 49.17 RCW, the rules adopted by the state board of health under RCW 70.54.110, and the following guidelines:

(1) The code shall provide construction standards for shelter and associated facilities that are safe, secure, and capable of withstanding the stresses and loads associated with their designated use, and to which they are likely to be subjected by the elements.

(2) The code shall permit and facilitate designs and formats that allow for maximum affordability, consistent with the provision of decent, safe, and sanitary housing.

(3) In developing the code the council shall consider: (a) The need for dormitory type housing for groups of unrelated individuals; and (b) the need for housing to accommodate families.

(4) The code shall include construction standards for a variety of formats, including, but not limited to: (a) Tents and tent platforms; and (b) hard-shell, single exterior wall structures.

(5) The code shall include standards for temporary worker housing that is to be used only during periods when no auxiliary heat is required.

In developing the temporary worker housing code, it is the intent of the legislature that the building code council make exceptions to the codes listed in RCW 19.27.031, and chapter 19.27A RCW, in keeping with the guidelines set forth in this section.

The building code council shall appoint a technical advisory committee to assist in the development of the temporary worker housing code, which shall include representatives of industries that most frequently supply temporary housing to their employees. [1995 c 220 § 8.]

70.114A.090 Report to legislature. The department shall submit a report to the legislature containing short-term and long-term recommendations for the development of an

adequate supply and continuous improvement of temporary worker housing. The report shall include recommendations for optimum roles for state and local administration of temporary worker housing, including strategies for the development of a locally administered application, permitting, and compliance system. The report shall identify incentives for the development of temporary worker housing, including but not limited to:

- (1) Facility design options that are economical and appropriate for the worksite and length of seasonal employment but do not compromise health and safety of workers;
- (2) Streamlined, single-service-point permit application and review process;
- (3) Utilization of manufactured shelter units;
- (4) Appropriate building standards;
- (5) Financial incentives for operators;
- (6) Community-financed temporary worker housing; and
- (7) Shared housing arrangements among operators.

The report shall include recommendations for appropriate compliance strategies.

A preliminary report shall be submitted by December 1, 1995, together with any recommendations for legislation necessary to implement the findings and recommendations of the department at that point.

A final report, including recommendations for legislation, shall be submitted by December 1, 1996. [1995 c 220 § 9.]

The legislature hereby finds that an adequate supply of potable water for domestic, commercial, and industrial use is vital to the health and well-being of the people of the state. Readily available water for use in public water systems is limited and should be developed and used efficiently with a minimum of loss or waste.

In order to maximize efficient and effective development of the state's public water supply systems, the department of health shall assist water purveyors by providing a procedure to coordinate the planning of the public water supply systems. [1991 c 3 § 365; 1977 ex.s. c 142 § 1.]

70.116.020 Declaration of purpose. The purposes of this chapter are:

- (1) To provide for the establishment of critical water supply service areas related to water utility planning and development;
- (2) To provide for the development of minimum planning and design standards for critical water supply service areas to insure that water systems developed in these areas are consistent with regional needs;
- (3) To assist in the orderly and efficient administration of state financial assistance programs for public water systems; and
- (4) To assist public water systems to meet reasonable standards of quality, quantity and pressure. [1977 ex.s. c 142 § 2.]

70.116.030 Definitions. Unless the context clearly requires otherwise, the following terms when used in this chapter shall be defined as follows:

- (1) "Coordinated water system plan" means a plan for public water systems within a critical water supply service area which identifies the present and future needs of the systems and sets forth means for meeting those needs in the most efficient manner possible. Such a plan shall include

provisions for subsequently updating the plan. In areas where more than one water system exists, a coordinated plan may consist of either: (a) A new plan developed for the area following its designation as a critical water supply service area; or (b) a compilation of compatible water system plans existing at the time of such designation and containing such supplementary provisions as are necessary to satisfy the requirements of this chapter. Any such coordinated plan must include provisions regarding: Future service area designations; assessment of the feasibility of shared source, transmission, and storage facilities; emergency inter-ties; design standards; and other concerns related to the construction and operation of the water system facilities.

(2) "Critical water supply service area" means a geographical area which is characterized by a proliferation of small, inadequate water systems, or by water supply problems which threaten the present or future water quality or reliability of service in such a manner that efficient and orderly development may best be achieved through coordinated planning by the water utilities in the area.

(3) "Public water system" means any system providing water intended for, or used for, human consumption or other domestic uses. It includes, but is not limited to, the source, treatment for purifying purposes only, storage, transmission, pumping, and distribution facilities where water is furnished to any community, or number of individuals, or is made available to the public for human consumption or domestic use, but excluding water systems serving one single family residence. However, systems existing on September 21, 1977 which are owner operated and serve less than ten single family residences or which serve only one industrial plant shall be excluded from this definition and the provisions of this chapter.

(4) "Purveyor" means any agency or subdivision of the state or any municipal corporation, firm, company, mutual or cooperative association, institution, partnership, or person or any other entity, that owns or operates for wholesale or retail service a public water system. It also means the authorized agents of any such entities.

(5) "Secretary" means the secretary of the department of health or the secretary's authorized representative.

(6) "Service area" means a specific geographical area serviced or for which service is planned by a purveyor. [1991 c 3 § 366; 1977 ex.s. c 142 § 3.]

70.116.040 Critical water supply service area—Designation—Establishment or amendment of external boundaries—Procedures. (1) The secretary and the appropriate local planning agencies and purveyors, shall study geographical areas where water supply problems related to uncoordinated planning, inadequate water quality or unreliable service appear to exist. If the results of the study indicate that such water supply problems do exist, the secretary or the county legislative authority shall designate the area involved as being a critical water supply service area, consult with the appropriate local planning agencies and purveyors, and appoint a committee of not less than three representatives therefrom solely for the purpose of establishing the proposed external boundaries of the critical water supply service area. The committee shall include a representative from each purveyor serving more than fifty

customers, the county legislative authority, county planning agency, and health agencies. Such proposed boundaries shall be established within six months of the appointment of the committee.

During the six month period following the establishment of the proposed external boundaries of the critical water supply services areas, the county legislative authority shall conduct public hearings on the proposed boundaries and shall modify or ratify the proposed boundaries in accordance with the findings of the public hearings. The boundaries shall reflect the existing land usage, and permitted densities in county plans, ordinances, and/or growth policies. If the proposed boundaries are not modified during the six month period, the proposed boundaries shall be automatically ratified and be the critical water supply service area.

After establishment of the external boundaries of the critical water supply service area, no new public water systems may be approved within the boundary area unless an existing water purveyor is unable to provide water service.

(2) At the time a critical water supply service area is established, the external boundaries for such area shall not include any fractional part of a purveyor's existing contiguous service area.

(3) The external boundaries of the critical water supply service area may be amended in accordance with procedures prescribed in subsection (1) of this section for the establishment of the critical water supply service areas when such amendment is necessary to accomplish the purposes of this chapter. [1977 ex.s. c 142 § 4.]

70.116.050 Development of water system plans for critical water supply service areas. (1) Each purveyor within the boundaries of a critical water supply service area shall develop a water system plan for the purveyor's future service area if such a plan has not already been developed: PROVIDED, That nonmunicipally owned public water systems are exempt from the planning requirements of this chapter, except for the establishment of service area boundaries if they have no plans for water service beyond their existing service area: PROVIDED FURTHER, That if the county legislative authority permits a change in development that will increase the demand for water service of such a system beyond the existing system's ability to provide minimum water service, the purveyor shall develop a water system plan in accordance with this section. The establishment of future service area boundaries shall be in accordance with RCW 70.116.070.

(2) After the boundaries of a critical water supply service area have been established pursuant to RCW 70.116.040, the committee established in RCW 70.116.040 shall participate in the development of a coordinated water system plan for the designated area. Such a plan shall incorporate all water system plans developed pursuant to subsection (1) of this section. The plan shall provide for maximum integration and coordination of public water system facilities consistent with the protection and enhancement of the public health and well-being. Decisions of the committee shall be by majority vote of those present at meetings of the committee.

(3) Those portions of a critical water supply service area not yet served by a public water system shall have a coordi-

nated water system plan developed by existing purveyors based upon permitted densities in county plans, ordinances, and/or growth policies for a minimum of five years beyond the date of establishment of the boundaries of the critical water supply service area.

(4) To insure that the plan incorporates the proper designs to protect public health, the secretary shall adopt regulations pursuant to chapter 34.05 RCW concerning the scope and content of coordinated water system plans, and shall ensure, as minimum requirements, that such plans:

(a) Are reviewed by the appropriate local governmental agency to insure that the plan is not inconsistent with the land use plans, shoreline master programs, and/or developmental policies of the general purpose local government or governments whose jurisdiction the water system plan affects.

(b) Recognize all water resource plans, water quality plans, and water pollution control plans which have been adopted by units of local, regional, and state government.

(c) Incorporate the fire protection standards developed pursuant to RCW 70.116.080.

(d) Identify the future service area boundaries of the public water system or systems included in the plan within the critical water supply service area.

(e) Identify feasible emergency inter-ties between adjacent purveyors.

(f) Include satellite system management requirements consistent with RCW 70.116.134.

(g) Include policies and procedures that generally address failing water systems for which counties may become responsible under RCW 43.70.195.

(5) If a "water general plan" for a critical water supply service area or portion thereof has been prepared pursuant to chapter 36.94 RCW and such a plan meets the requirements of subsections (1) and (4) of this section, such a plan shall constitute the coordinated water system plan for the applicable geographical area.

(6) The committee established in RCW 70.116.040 may develop and utilize a mechanism for addressing disputes that arise in the development of the coordinated water system plan.

(7) Prior to the submission of a coordinated water system plan to the secretary for approval pursuant to RCW 70.116.060, the legislative authorities of the counties in which the critical water supply service area is located shall hold a public hearing thereon and shall determine the plan's consistency with subsection (4) of this section. If within sixty days of receipt of the plan, the legislative authorities find any segment of a proposed service area of a purveyor's plan or any segment of the coordinated water system plan to be inconsistent with any current land use plans, shoreline master programs, and/or developmental policies of the general purpose local government or governments whose jurisdiction the water system plan affects, the secretary shall not approve that portion of the plan until the inconsistency is resolved between the local government and the purveyor. If no comments have been received from the legislative authorities within sixty days of receipt of the plan, the secretary may consider the plan for approval.

(8) Any county legislative authority may adopt an abbreviated plan for the provision of water supplies within its boundaries that includes provisions for service area

boundaries, minimum design criteria, and review process. The elements of the abbreviated plan shall conform to the criteria established by the department under subsection (4) of this section and shall otherwise be consistent with other adopted land use and resource plans. The county legislative authority may, in lieu of the committee required under RCW 70.116.040, and the procedures authorized in this section, utilize an advisory committee that is representative of the water utilities and local governments within its jurisdiction to assist in the preparation of the abbreviated plan, which may be adopted by resolution and submitted to the secretary for approval. Purveyors within the boundaries covered by the abbreviated plan need not develop a water system plan, except to the extent required by the secretary or state board of health under other authority. Any abbreviated plan adopted by a county legislative authority pursuant to this subsection shall be subject to the same provisions contained in RCW 70.116.060 for coordinated water system plans that are approved by the secretary. [1995 c 376 § 7; 1977 ex.s. c 142 § 5.]

Findings—1995 c 376: See note following RCW 70.116.060.

70.116.060 Approval of coordinated water system plan—Limitations following approval—Dispute resolution mechanism—Update or revision of plan. (1) A coordinated water system plan shall be submitted to the secretary for design approval within two years of the establishment of the boundaries of a critical water supply service area.

(2) The secretary shall review the coordinated water system plan and, to the extent the plan is consistent with the requirements of this chapter and regulations adopted hereunder, shall approve the plan, provided that the secretary shall not approve those portions of a coordinated water system plan that fail to meet the requirements for future service area boundaries until any boundary dispute is resolved as set forth in RCW 70.116.070.

(3) Following the approval of a coordinated water system plan by the secretary:

(a) All purveyors constructing or proposing to construct public water system facilities within the area covered by the plan shall comply with the plan.

(b) No other purveyor shall establish a public water system within the area covered by the plan, unless the local legislative authority determines that existing purveyors are unable to provide the service in a timely and reasonable manner, pursuant to guidelines developed by the secretary. An existing purveyor is unable to provide the service in a timely manner if the water cannot be provided to an applicant for water within one hundred twenty days unless specified otherwise by the local legislative authority. If such a determination is made, the local legislative authority shall require the new public water system to be constructed in accordance with the construction standards and specifications embodied in the coordinated water system plan approved for the area. The service area boundaries in the coordinated plan for the affected utilities shall be revised to reflect the decision of the local legislative authority.

(4) The secretary may deny proposals to establish or to expand any public water system within a critical water supply service area for which there is not an approved coordinated water system plan at any time after two years of

the establishment of the critical water supply service area: PROVIDED, That service connections shall not be considered expansions.

(5) The affected legislative authorities may develop and utilize a mechanism for addressing disputes that arise in the implementation of the coordinated water system plan after the plan has been approved by the secretary.

(6) After adoption of the initial coordinated water system plan, the local legislative authority or the secretary may determine that the plan should be updated or revised. The legislative authority may initiate an update at any time, but the secretary may initiate an update no more frequently than once every five years. The update may encompass all or a portion of the plan, with the scope of the update to be determined by the secretary and the legislative authority. The process for the update shall be the one prescribed in RCW 70.116.050.

(7) The provisions of subsection (3) of this section shall not apply in any county for which a coordinated water system plan has not been approved under subsection (2) of this section.

(8) If the secretary initiates an update or revision of a coordinated water system plan, the state shall pay for the cost of updating or revising the plan. [1995 c 376 § 2; 1977 ex.s. c 142 § 6.]

Findings—1995 c 376: "The legislature finds that:

(1) Protection of the state's water resources, and utilization of such resources for provision of public water supplies, requires more efficient and effective management than is currently provided under state law;

(2) The provision of public water supplies to the people of the state should be undertaken in a manner that is consistent with the planning principles of the growth management act and the comprehensive plans adopted by local governments under the growth management act;

(3) Small water systems have inherent difficulties with proper planning, operation, financing, management and maintenance. The ability of such systems to provide safe and reliable supplies to their customers on a long-term basis needs to be assured through proper management and training of operators;

(4) New water quality standards and operational requirements for public water systems will soon generate higher rates for the customers of those systems, which may be difficult for customers to afford to pay. It is in the best interest of the people of this state that small systems maintain themselves in a financially viable condition;

(5) The drinking water 2000 task force has recommended maintaining a strong and properly funded state-wide drinking water program, retaining primary responsibility for administering the federal safe drinking water act in Washington. The task force has further recommended delegation of as many water system regulatory functions as possible to local governments, with provision of adequate resources and elimination of barriers to such delegation. In order to achieve these objectives, the state shall provide adequate funding from both general state funds and funding directly from the regulated water system;

(6) The public health services improvement plan recommends that the principal public health functions in Washington, including regulation of public water systems, should be fully funded by state revenues and undertaken by local jurisdictions with the capacity to perform them; and

(7) State government, local governments, water suppliers, and other interested parties should work for continuing economic growth of the state by maximizing the use of existing water supply management alternatives, including regional water systems, satellite management, and coordinated water system development." [1995 c 376 § 1.]

70.116.070 Service area boundaries within critical water supply area. (1) The proposed service area boundaries of public water systems within the critical water supply service area that are required to submit water system plans under this chapter shall be identified in the system's plan. The local legislative authority, or its planning department or

other designee, shall review the proposed boundaries to determine whether the proposed boundaries of one or more systems overlap. The boundaries determined by the local legislative authority not to overlap shall be incorporated into the coordinated water system plan. Where any overlap exists, the local legislative authority may attempt to resolve the conflict through procedures established under RCW 70.116.060(5).

(2) Any final decision by a local legislative authority regarding overlapping service areas, or any unresolved disputes regarding service area boundaries, may be appealed or referred to the secretary in writing for resolution. After receipt of an appeal or referral, the secretary shall hold a public hearing thereon. The secretary shall provide notice of the hearing by certified mail to each purveyor involved in the dispute, to each county legislative authority having jurisdiction in the area and to the public. The secretary shall provide public notice pursuant to the provisions of chapter 65.16 RCW. Such notice shall be given at least twenty days prior to the hearing. The hearing may be continued from time to time and, at the termination thereof, the secretary may restrict the expansion of service of any purveyor within the area if the secretary finds such restriction is necessary to provide the greatest protection of the public health and well-being. [1995 c 376 § 13; 1977 ex.s. c 142 § 7.]

Findings—1995 c 376: See note following RCW 70.116.060.

70.116.080 Performance standards relating to fire protection. The secretary shall adopt performance standards relating to fire protection to be incorporated into the design and construction of public water systems. The standards shall be consistent with recognized national standards. The secretary shall adopt regulations pertaining to the application and enforcement of the standards: PROVIDED, That the regulations shall require the application of the standards for new and expanding systems only. The standards shall apply in critical water supply service areas unless the approved coordinated plan provides for nonfire flow systems. [1977 ex.s. c 142 § 8.]

70.116.090 Assumption of jurisdiction or control of public water system by city, town, or code city. The assumption of jurisdiction or control of any public water system or systems by a city, town, or code city, shall be subject to the provisions of chapter 35.13A RCW, and the provisions of this chapter shall be superseded by the provisions of chapter 35.13A RCW regarding such an assumption of jurisdiction. [1977 ex.s. c 142 § 9.]

70.116.100 Bottled water exempt. Nothing in this chapter shall apply to water which is bottled or otherwise packaged in a container for human consumption or domestic use, or to the treatment, storage and transportation facilities used in the processing of the bottled water or the distribution of the bottles or containers of water. [1977 ex.s. c 142 § 10.]

70.116.110 Rate making authority preserved. Nothing in this chapter shall be construed to alter in any way the existing authority of purveyors and municipal corpora-

tions to establish, administer and apply water rates and rate provisions. [1977 ex.s. c 142 § 11.]

70.116.120 Short title. This chapter shall be known and may be cited as the "Public Water System Coordination Act of 1977". [1977 ex.s. c 142 § 12.]

70.116.134 Satellite system management agencies. (1) The secretary shall adopt rules pursuant to chapter 34.05 RCW establishing criteria for designating individuals or water purveyors as qualified satellite system management agencies. The criteria shall set forth minimum standards for designation as a satellite system management agency qualified to assume ownership, operation, or both, of an existing or proposed public water system. The criteria shall include demonstration of financial integrity and operational capability, and may require demonstration of previous experience in successful operation and management of a public water system.

(2) Each county shall identify potential satellite system management agencies to the secretary for areas where: (a) No purveyor has been designated a future service area pursuant to this chapter, or (b) an existing purveyor is unable or unwilling to provide service. Preference shall be given to public utilities or utility districts or to investor-owned utilities under the jurisdiction of the utilities and transportation commission.

(3) The secretary shall approve satellite system management agencies meeting the established criteria and shall maintain and make available to counties a list of approved agencies. Prior to the construction of a new public water system, the individual(s) proposing the new system or requesting service shall first be directed by the local agency responsible for issuing the construction or building permit to one or more qualified satellite system management agencies designated for the service area where the new system is proposed for the purpose of exploring the possibility of a satellite agency either owning or operating the proposed new water system.

(4) Approved satellite system management agencies shall be reviewed periodically by the secretary for continued compliance with established criteria. The secretary may require status reports and other information necessary for such review. Satellite system management agencies shall be subject to reapproval at the discretion of the secretary but not less than once every five years.

(5) The secretary may assess reasonable fees to process applications for initial approval and for periodic review of satellite system management agencies. A satellite system management account is hereby created in the custody of the state treasurer. All receipts from satellite system management agencies or applicants under subsection (4) of this section shall be deposited into the account. Funds in this account may be used only for administration of the satellite system management program. Expenditures from the account shall be authorized by the secretary or the secretary's designee. The account is subject to allotment procedures under chapter 43.88 RCW, but no appropriation is required for expenditures.

(6) For purposes of this section, "satellite system management agency" and "satellite agency" shall mean a

person or entity that is certified by the secretary to own or operate more than one public water system on a regional or county-wide basis, without the necessity for a physical connection between such systems. [1991 c 18 § 1.]

70.116.900 Severability—1977 ex.s. c 142. If any provision of this chapter, or its application to any person or circumstance is held invalid, the remainder of the chapter, or the application of the provision to other persons or circumstances is not affected. [1977 ex.s. c 142 § 13.]

Entrances to all machinery, operators', and attendants' rooms shall be posted to the effect that unauthorized persons are not permitted therein.

The sign "Working on Lift" or a similar warning sign shall be hung on the main disconnect switch and at control points for starting the auxiliary or prime mover when a person is working on the passenger tramway.

(2) All signs required for normal daytime operation shall be in place, and those pertaining to the tramway, lift, or tow operations shall be adequately lighted for night skiing.

(3) If a particular trail or run has been closed to the public by an operator, the operator shall place a notice thereof at the top of the trail or run involved, and no person shall ski on a run or trail which has been designated "Closed".

(4) An operator shall place a notice at the embarking terminal or terminals of a lift or tow which has been closed that the lift or tow has been closed and that a person embarking on such a lift or tow shall be considered to be a trespasser.

(5) Any snow making machines or equipment shall be clearly visible and clearly marked. Snow grooming equipment or any other vehicles shall be equipped with a yellow flashing light at any time the vehicle is moving on or in the vicinity of a ski run; however, low profile vehicles, such as snowmobiles, may be identified in the alternative with a flag on a mast of not less than six feet in height.

(6) The operator of any ski area shall maintain a readily visible sign on each rope tow, wire rope tow, j-bar, t-bar, ski lift, or other similar device, advising the users of the device that:

(a) Any person not familiar with the operation of the lift shall ask the operator thereof for assistance and/or instruction; and

(b) The skiing-ability level recommended for users of the lift and the runs served by the device shall be classified "easiest", "more difficult", and "most difficult". [1991 c 75 § 1; 1989 c 81 § 2; 1977 ex.s. c 139 § 1.]

Severability—1989 c 81: "If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected." [1989 c 81 § 6.]

70.117.020 Standard of conduct—Prohibited acts—Responsibility. (1) In addition to the specific requirements of this section, all skiers shall conduct themselves within the limits of their individual ability and shall not act in a manner that may contribute to the injury of themselves or any other person.

(2) No person shall:

(a) Embark or disembark upon a ski lift except at a designated area;

(b) Throw or expel any object from any tramway, ski lift, commercial skimobile, or other similar device while riding on the device;

(d) Wilfully engage in any type of conduct which may injure any person, or place any object in the uphill ski track which may cause another to fall, while traveling uphill on a ski lift; or

(e) Cross the uphill track of a j-bar, t-bar, rope tow, wire rope tow, or other similar device except at designated locations.

(3) Every person shall maintain control of his or her speed and course at all times, and shall stay clear of any snowgrooming equipment, any vehicle, any lift tower, and any other equipment on the mountain.

(4) A person shall be the sole judge of his or her ability to negotiate any trail, run, or uphill track and no action shall be maintained against any operator by reason of the condition of the track, trail, or run unless the condition results from the negligence of the operator.

(5) Any person who boards a rope tow, wire rope tow, j-bar, t-bar, ski lift, or other similar device shall be presumed to have sufficient abilities to use the device. No liability shall attach to any operator or attendant for failure to instruct the person on the use of the device, but a person shall follow any written or verbal instructions that are given regarding the use.

(6) Because of the inherent risks in the sport of skiing all persons using the ski hill shall exercise reasonable care for their own safety. However, the primary duty shall be on

the person skiing downhill to avoid any collision with any person or object below him or her.

(7) Any person skiing outside the confines of trails open for skiing or runs open for skiing within the ski area boundary shall be responsible for any injuries or losses resulting from his or her action.

(8) Any person on foot or on any type of sliding device shall be responsible for any collision whether the collision is with another person or with an object.

70.118.010 Legislative declaration. The legislature finds that over one million, two hundred thousand persons in the state are not served by sanitary sewers and that they must rely on septic tank systems. The failure of large numbers of such systems has resulted in significant health hazards, loss of property values, and water quality degradation. The legislature further finds that failure of such systems could be reduced by utilization of nonwater-carried sewage disposal systems, or other alternative methods of effluent disposal, as a correctional measure. Waste water volume diminution and disposal of most of the high bacterial waste through composting or other alternative methods of effluent disposal would result in restorative improvement or correction of existing substandard systems. [1977 ex.s. c 133 § 1.]

70.118.020 Definitions. As used in this chapter, the terms defined in this section shall have the meanings indicated unless the context clearly indicates otherwise.

(1) "Nonwater-carried sewage disposal devices" means any device that stores and treats nonwater-carried human urine and feces.

(2) "Alternative methods of effluent disposal" means systems approved by the department of health, including at least, mound systems, alternating drain fields, anaerobic filters, evapotranspiration systems, and aerobic systems.

(3) "Failure" means: (a) Effluent has been discharged on the surface of the ground prior to approved treatment; or (b) effluent has percolated to the surface of the ground; or (c) effluent has contaminated or threatens to contaminate a ground water supply.

(4) "Additive" means any commercial product intended to affect the performance or aesthetics of an on-site sewage disposal system.

(5) "Department" means the department of health.

(6) "On-site sewage disposal system" means any system of piping, treatment devices, or other facilities that convey, store, treat, or dispose of sewage on the property where it originates or on nearby property under the control of the user where the system is not connected to a public sewer system. For purposes of this chapter, an on-site sewage disposal system does not include indoor plumbing and associated fixtures.

(7) "Chemical additive" means those additives containing acids, bases, or other chemicals deemed unsafe by the department for use in an on-site sewage disposal system.

(8) "Additive manufacturer" means any person who manufactures, formulates, blends, packages, or repackages an additive product for sale, use, or distribution within the state. [1994 c 281 § 2; 1993 c 321 § 2; 1991 c 3 § 367; 1977 ex.s. c 133 § 2.]

Finding—Purpose—1994 c 281: "The legislature finds that chemical additives do, and that other types of additives may, contribute to septic (1996 Ed.)

system failure and ground water contamination. In order to determine which ingredients of nonchemically based additive products have adverse effects on public health or the environment, it is necessary to submit such products to a review procedure.

The purpose of this act is: (1) To establish a timely and orderly procedure for review and approval of on-site sewage disposal system additives; (2) to prohibit the use, sale, or distribution of additives having an adverse effect on public health or the water quality of the state; (3) to require the disclosure of the contents of additives that are advertised, sold, or distributed in the state; and (4) to provide for consumer protection." [1994 c 281 § 1.]

Effective date—1994 c 281: "This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and shall take effect immediately [April 1, 1994]." [1994 c 281 § 7.]

Intent—1993 c 321: See note following RCW 70.118.060.

70.118.030 Local boards of health—Duties. Local boards of health shall identify failing septic tank drainfield systems in the normal manner and will use reasonable effort to determine new failures. Discretionary judgment will be made in implementing corrections by specifying nonwater-carried sewage disposal devices or other alternative methods of treatment and effluent disposal as a measure of ameliorating existing substandard conditions. Local regulations shall be consistent with the intent and purposes stated herein. [1977 ex.s. c 133 § 3.]

70.118.040 Local boards of health—Authority to waive sections of local plumbing and/or building codes. With the advice of the secretary of the department of health, local boards of health are hereby authorized to waive applicable sections of local plumbing and/or building codes that might prohibit the use of an alternative method for correcting a failure. [1991 c 3 § 368; 1977 ex.s. c 133 § 4.]

70.118.050 Adoption of more restrictive standards. If the legislative authority of a county or city finds that more restrictive standards than those contained in *section 2 of this act or those adopted by the state board of health for systems allowed under *section 2 of this act or limitations on expansion of a residence are necessary to ensure protection of the public health, attainment of state water quality standards, and the protection of shellfish and other public resources, the legislative authority may adopt ordinances or resolutions setting standards as they may find necessary for implementing their findings. The legislative authority may identify the geographic areas where it is necessary to implement the more restrictive standards. In addition, the legislative authority may adopt standards for the design, construction, maintenance, and monitoring of sewage disposal systems. [1989 c 349 § 3.]

***Reviser's note:** "Section 2 of this act" did not become law. See effective date note following.

Effective date—1989 c 349: "(1) Except as provided in subsection (2) of this section, this act shall take effect November 1, 1989.

(2) *Section 2 of this act shall not take effect if the state board of health adopts standards for the replacement and repair of existing on-site sewage disposal systems located on property adjacent to marine waters by October 31, 1989." [1989 c 349 § 4.]

***Reviser's note:** Section 2 of this act did not take effect. See chapter 248-96 WAC.

70.118.060 Additive regulation. (1) After July 1, 1994, a person may not use, sell, or distribute a chemical additive to on-site sewage disposal systems.

(2) After January 1, 1996, no person shall use, sell, or distribute any on-site sewage disposal additive whose ingredients have not been approved by the department.

(3) Each manufacturer of an on-site sewage disposal system additive that is sold, advertised, or distributed in the state shall submit the following information to the department: (a) The name and address of the company; (b) the name of the product; (c) the complete product formulation; (d) the location where the product is manufactured; (e) the intended method of product application; and (f) a request that the product be reviewed.

(4) The department shall adopt rules providing the criteria, review, and decision-making procedures to be used in reviewing on-site sewage disposal additives for use, sale, or distribution in the state. The criteria shall be designed to determine whether the additive has an adverse effect on public health or water quality. The department may charge a fee sufficient to cover the costs of evaluating the additive, including the development of criteria and review procedures. The fee schedule shall be established by rule.

(5) The department shall issue a decision as to whether a product registered pursuant to subsection (3) of this section is approved or denied within forty-five days of receiving a complete evaluation as required pursuant to subsection (4) of this section.

(6) Manufacturers shall reregister their product as provided in subsection (3) of this section each time their product formulation changes. The department may require a new approval for products registered under this subsection prior to allowing the use, sale, or distribution within the state.

(7) The department may contract with private laboratories for the performance of any duties necessary to carry out the purpose of this section.

(8) The attorney general or appropriate city or county prosecuting attorney is authorized to bring an appropriate action to enjoin any violation of the prohibition on the sale or distribution of additives, or to enjoin any violation of the conditions in RCW 70.118.080.

(9) The department is responsible for providing written notification to additives manufacturers of the provisions of this section and RCW 70.118.070 and 70.118.080. The notification shall be provided no later than thirty days after April 1, 1994. Within thirty days of notification from the department, manufacturers shall provide the same notification to their distributors, wholesalers, and retail customers. [1994 c 281 § 3; 1993 c 321 § 3.]

Finding—Purpose—Effective date—1994 c 281: See notes following RCW 70.118.020.

Intent—1993 c 321: "The legislature finds that most additives do not have a positive effect on the operation of on-site systems and can contaminate ground water aquifers, render septic drainfields dysfunctional, and result in costly repairs to homeowners. It is therefore the intent of the legislature to ban the use, sale, and distribution of additives within the state unless an additive has been specifically approved by the department of health." [1993 c 321 § 1.]

70.118.070 Additives—Confidentiality. The department shall hold confidential any information obtained pursuant to RCW 70.118.060 when shown by any manu-

[Title 70 RCW—page 294]

facturer that such information, if made public, would divulge confidential business information, methods, or processes entitled to protection as trade secrets of the manufacturer. [1994 c 281 § 4.]

Finding—Purpose—Effective date—1994 c 281: See notes following RCW 70.118.020.

70.118.080 Additives—Unfair practices. (1) Each manufacturer of a certified and approved additive product advertised, sold, or distributed in the state shall:

(a) Make no claims relating to the elimination of the need for septic tank pumping or proper septic tank maintenance;

(b) List the components of additive products on the product label, along with information regarding instructions for use and precautions;

(c) Make no false statements, design, or graphic representation relative to an additive product that is inconsistent with RCW 70.118.060, 70.118.070, or this section; and

(d) Make no claims, either direct or implied, about the performance of the product based on state approval of its ingredients.

(2) A violation of this section is an unfair act or practice in violation of the consumer protection act, chapter 19.86 RCW. [1994 c 281 § 5.]

Finding—Purpose—Effective date—1994 c 281: See notes following RCW 70.118.020.

70.118.090 Funding. The department may not use funds appropriated to implement an element of the *Puget Sound water quality authority plan to conduct any activity required under chapter 281, Laws of 1994. [1994 c 281 § 6.]

***Reviser's note:** The Puget Sound water quality authority and its powers and duties, pursuant to the Sunset Act, chapter 43.131 RCW, were terminated June 30, 1995, and repealed June 30, 1996. See 1990 c 115 §§ 11 and 12. Powers, duties, and functions of the Puget Sound water quality authority pertaining to cleanup and protection of Puget Sound transferred to the Puget Sound action team by 1996 c 138 § 11. See RCW 90.71.903.

Finding—Purpose—Effective date—1994 c 281: See notes following RCW 70.118.020.

70.119.010 Legislative declaration. The legislature declares that competent operation of a public water system is necessary for the protection of the consumers' health, and therefore it is of vital interest to the public. In order to protect the public health and conserve and protect the water resources of the state, it is necessary to provide for the classifying of all public water systems; to require the examination and certification of the persons responsible for the technical operation of such systems; and to provide for the promulgation of rules and regulations to carry out this chapter. [1991 c 305 § 1; 1983 c 292 § 1; 1977 ex.s. c 99 § 1.]

70.119.020 Definitions. As used in this chapter unless context requires another meaning:

(1) "Certificate" means a certificate of competency issued by the secretary stating that the operator has met the requirements for the specified operator classification of the certification program.

(2) "Certified operator" means an individual holding a valid certificate and employed or appointed by any county, water district, municipality, public or private corporation, company, institution, person, or the state of Washington and who is designated by the employing or appointing officials as the person responsible for active daily technical operation.

(3) "Department" means the department of health.

(4) "Distribution system" means that portion of a public water system which stores, transmits, pumps and distributes water to consumers.

(5) "Ground water under the direct influence of surface water" means any water beneath the surface of the ground with:

(a) Significant occurrence of insects or other macro-organisms, algae, or large diameter pathogens such as giardia lamblia; or

(b) Significant and relatively rapid shifts in water characteristics such as turbidity, temperature, conductivity, or pH which closely correlate to climatological or surface water conditions.

(6) "Group A water system" means a system with fifteen or more service connections, regardless of the number of people; or a system serving an average of twenty-five or more people per day for sixty or more days within a calendar year, regardless of the number of service connections. Group A water system does not include a system serving fewer than fifteen single-family residences, regardless of the number of people.

(7) "Nationally recognized association of certification authorities" shall mean an organization which serves as an information center for certification activities, recommends minimum standards and guidelines for classification of potable water treatment plants, water distribution systems and waste water facilities and certification of operators, facilitates reciprocity between state programs and assists authorities in establishing new certification programs and updating existing ones.

(8) "Public water system" means any system, excluding a system serving only one single-family residence and a system with four or fewer connections all of which serve residences on the same farm, providing piped water for human consumption, including any collection, treatment,

storage, or distribution facilities under control of the purveyor or and used primarily in connection with the system; and collection or pretreatment storage facilities not under control of the purveyor but primarily used in connection with the system.

(9) "Purification plant" means that portion of a public water system which treats or improves the physical, chemical or bacteriological quality of the system's water to bring the water into compliance with state board of health standards.

(10) "Secretary" means the secretary of the department of health.

(11) "Service" means a connection to a public water system designed to serve a single-family residence, dwelling unit, or equivalent use. If the facility has group home or barracks-type accommodations, three persons will be considered equivalent to one service.

(12) "Surface water" means all water open to the atmosphere and subject to surface runoff. [1995 c 269 § 2904; 1991 c 305 § 2; 1991 c 3 § 369; 1983 c 292 § 2; 1977 ex.s. c 99 § 2.]

Effective date—1995 c 269: See note following RCW 13.40.025.

Part headings not law—Severability—1995 c 269: See notes following RCW 13.40.005.

Public water supply systems to comply with water quality standards: RCW 70.142.050.

70.119.030 Certified operators required for certain public water systems. (1) A public water system shall have a certified operator if:

(a) It is a group A water system; or

(b) It is a public water system using a surface water source or a ground water source under the direct influence of surface water.

(2) The certified operators shall be in charge of the technical direction of a water system's operation, or an operating shift of such a system, or a major segment of a system necessary for monitoring or improving the quality of water. The operator shall be certified as provided in RCW 70.119.050.

(3) A certified operator may provide required services to more than one system or to a group of systems. The amount of time that a certified operator shall be required to be present at any given system shall be based upon the time required to properly operate and maintain the public water system as designed and constructed in accordance with RCW 43.20.050. The employing or appointing officials shall designate the position or positions requiring mandatory certification within their individual systems and shall assure that such certified operators are responsible for the system's technical operation.

(4) The department shall, in establishing by rule or otherwise the requirements for public water systems with fewer than one hundred connections, phase in such requirements in order to assure that (a) an adequate number of certified operators are available to serve the additional systems, (b) the systems have adequate notice and time to plan for securing the services of a certified operator, (c) the department has the additional data and other administrative capacity, (d) adequate training is available to certify additional operators as necessary, and (e) any additional requirements under federal law are satisfied. The department shall not require a certified operator for a system with fewer than

one hundred connections unless that system is determined by the department to be in significant noncompliance with monitoring, or water quality standards which would put the public health at risk, as defined by the department by rule, or has, or is required to have, water treatment facilities other than simple disinfection.

(5) Any examination required by the department as a prerequisite for the issuance of a certificate under this chapter shall be offered in each region where the department has a regional office.

(6) Operators not required to be certified by this chapter are encouraged to become certified on a voluntary basis. [1995 c 376 § 6; 1991 c 305 § 3; 1983 c 292 § 3; 1977 ex.s. c 99 § 3.]

Findings—1995 c 376: See note following RCW 70.116.060.

70.119.040 Exclusions from chapter. Nothing in this chapter shall apply to:

(1) Industrial water supply systems which do not supply water to residences for domestic use and are under the jurisdictional requirements of the Washington Industrial Safety and Health Act of 1973, chapter 49.17 RCW, as now or hereafter amended; or

(2) The preparation, distribution, or sale of bottled water or water similarly packaged. [1977 ex.s. c 99 § 4.]

70.119.050 Rules and regulations—Secretary to adopt. The secretary shall adopt such rules and regulations as may be necessary for the administration of this chapter and shall enforce such rules and regulations. The rules and regulations shall include provisions establishing minimum qualifications and procedures for the certification of operators, criteria for determining the kind and nature of continuing educational requirements for renewal of certification under RCW 70.119.100(2), and provisions for classifying water purification plants and distribution systems.

Rules and regulations adopted under the provisions of this section shall be adopted in accordance with the provisions of chapter 34.05 RCW. [1995 c 269 § 2905; 1983 c 292 § 4; 1977 ex.s. c 99 § 5.]

70.119.060 Public water systems—Secretary to categorize. The secretary shall further categorize all public water systems with regard to the size, type, source of water, and other relevant physical conditions affecting purification plants and distribution systems to assist in identifying the skills, knowledge and experience required for the certification of operators for each category of such systems, to assure the protection of the public health and conservation and protection of the state's water resources as required under RCW 70.119.010, and to implement the provisions of the state safe drinking water act in chapter 70.119A RCW. In categorizing all public water systems for the purpose of implementing these provisions of state law, the secretary shall take into consideration economic impacts as well as the degree and nature of any public health risk. [1991 c 305 § 4; 1977 ex.s. c 99 § 6.]

(2) Certification shall be issued to persons certified by a governing body or owner of a public water system to have been the operators of a purification plant or distribution system on January 1, 1978, but only to those who are required to be certified under RCW 70.119.030(1). A certificate so issued shall be valid for operating any plant or system of the same classification and same type of water source.

(3) A nonrenewable certificate, temporary in nature, may be issued to an operator for a period not to exceed twelve months to fill a vacated position required to have a certified operator. Only one such certificate may be issued subsequent to each instance of vacation of any such position. [1991 c 305 § 5; 1983 c 292 § 7; 1977 ex.s. c 99 § 9.]

Effective date—1977 ex.s. c 99: See RCW 70.119.900.

70.119.100 Certificates—Issuance and renewal—Conditions. The issuance and renewal of a certificate shall be subject to the following conditions:

(1) Except as provided in RCW 70.119.090, a certificate shall be issued if the operator has satisfactorily passed a written examination, has paid the department an application fee as established by the department under RCW 70.119.160, and has met the requirements specified in the rules and regulations as authorized by this chapter.

(2) Every certificate shall be renewed annually upon the payment of a fee as established by the department under RCW 70.119.160 and satisfactory evidence is presented to the secretary that the operator has fulfilled the continuing education requirements as prescribed by rule of the department.

(3) The secretary shall notify operators who fail to renew their certificates before the end of the year that their

certificates are temporarily valid for two months following the end of the certificate year. Certificates not renewed during the two month period shall be invalid and the secretary shall so notify the holders of such certificates.

(4) An operator who has failed to renew a certificate pursuant to the provisions of this section, may reapply for certification and the secretary may require the operator to meet the requirements established for new applicants. 70.119.110 Certificates—Grounds for revocation.

The secretary may after conducting a hearing revoke a certificate found to have been obtained by fraud or deceit; or for gross negligence in the operation of a purification plant or distribution system; or for an intentional violation of the requirements of this chapter or any lawful rules, order, or regulation of the department. No person whose certificate is revoked under this section shall be eligible to apply for a certificate for one year from the effective date of the final order of revocation. [1995 c 269 § 2906; 1991 c 305 § 7; 1983 c 292 § 9; 1977 ex.s. c 99 § 11.]

70.119.130 Violations—Penalties. Any person, including any operator or any firm, association, corporation, municipal corporation, or other governmental subdivision or agency who, after thirty days' written notice, operates a public water system which is not in compliance with RCW 70.119.030(1), shall be guilty of a misdemeanor. Each month of such operation out of compliance with RCW 70.119.030(1) shall constitute a separate offense. Upon conviction, violators shall be fined an amount not exceeding one hundred dollars for each offense. It shall be the duty of the prosecuting attorney or the attorney general, as appropriate to secure injunctions of continuing violations of any provisions of this chapter or the rules and regulations adopted hereunder: PROVIDED, That, except in the case of fraud, deceit, or gross negligence under RCW 70.119.110, no revocation, citation or charge shall be made under RCW 70.119.110 and 70.119.130 until a proper written notice of violation is received and a reasonable opportunity for correction has been given. Operators certified by any state under provisions that, in the judgment of the secretary, are substantially equivalent to the requirements of this chapter and any rules and regulations promulgated hereunder, may be issued, upon application, a certificate without examination.

In making determinations pursuant to this section, the secretary shall consult with the *board and may consider any generally applicable criteria and guidelines developed by a nationally recognized association of certification authorities. [1977 ex.s. c 99 § 14.]

***Reviser's note:** RCW 70.95B.070, which created the water and wastewater operator certification board of examiners, was repealed by 1995 c 269 § 2907, effective July 1, 1995.

70.119.150 Waterworks operator certification account.

The waterworks operator certification account is created in the general fund of the state treasury. All fees paid pursuant to RCW 70.119.100, 70.119.120(3), and any other receipts realized in the administration of this chapter shall be deposited in the waterworks operator certification account. Moneys in the account shall be spent only after appropriation. Moneys from the account shall be used by the department of health to carry out the purposes of the waterworks operator certification program. [1993 c 306 § 3; 1977 ex.s. c 99 § 15.]

Public water systems. The department of health certifies individuals responsible for the active daily technical operation of public water supply systems and monitors public water supply systems to ensure that such systems comply with the requirements of this chapter and regulations implementing this chapter. The secretary shall establish a schedule of fees for certified operator applicants and renewal licenses and a separate schedule of fees for public water systems to support the waterworks operator certification program. The fees shall be set at a level sufficient for the department to recover the costs of the waterworks operator certification program and in accordance with the procedures established under RCW 43.70.250. [1993 c 306 § 4.]

70.119.900 Effective date—1977 ex.s. c 99. This act shall take effect on January 1, 1978. [1977 ex.s. c 99 § 17.]

Finding—1994 c 252: "The legislature finds that:

- (1) The federal safe drinking water act has imposed significant new costs on public water systems and that the state should seek maximum regulatory flexibility allowed under federal law;
- (2) There is a need to comprehensively assess and characterize the ground waters of the state to evaluate public health risks from organic and inorganic chemicals regulated under federal law;
- (3) That federal law provides a mechanism to significantly reduce testing and monitoring costs to public water systems through the use of area-wide waivers.

The legislature therefore directs the department of health to conduct a voluntary program to selectively test the ground waters of the state for organic and inorganic chemicals regulated under federal law for the purpose of granting area-wide waivers." [1994 c 252 § 1.]

Effective date—1994 c 252: "This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and shall take effect immediately [April 1, 1994]." [1994 c 252 § 6.]

Requirements effective upon adoption of rules—1991 c 304: See note following RCW 70.119A.100.

70.119A.030 Public health emergencies—Violations—Penalty. (1) The secretary or his or her designee or the local health officer may declare a public health emergency. As limited by RCW 70.119A.040, the department may impose penalties for violations of laws or regulations that are determined to be a public health emergency.

(2) As limited by RCW 70.119A.040, the department may impose penalties for violation of laws or rules regulating public water systems and administered by the department of health. [1993 c 305 § 1; 1991 c 304 § 3; 1989 c 422 § 6; 1986 c 271 § 3.]

Requirements effective upon adoption of rules—1991 c 304: See note following RCW 70.119A.100.

70.119A.040 Additional or alternative penalty—Informal resolution unless a public health emergency. (1)(a) In addition to or as an alternative to any other penalty or action allowed by law, a person who violates a law or rule regulating public water systems and administered by the department of health is subject to a penalty of not more than five thousand dollars per day for every such violation, or, in the case of a violation that has been determined to be a public health emergency, a penalty of not more than ten thousand dollars per day for every such violation. Every such violation shall be a separate and distinct offense. The

amount of fine shall reflect the health significance of the violation and the previous record of compliance on the part of the public water supplier. In case of continuing violation, every day's continuance shall be a separate and distinct violation.

(b) In addition, a person who constructs, modifies, or expands a public water system or who commences the construction, modification, or expansion of a public water system without first obtaining the required departmental approval is subject to penalties of not more than five thousand dollars per service connection, or, in the case of a system serving a transient population, a penalty of not more than four hundred dollars per person based on the highest average daily population the system serves or is anticipated to serve may be imposed. The total penalty that may be imposed pursuant to this subsection (1)(b) is five hundred thousand dollars. For the purpose of computing the penalty under this subsection, a service connection shall include any new service connection actually constructed, any anticipated service connection the system has been designed to serve, and, in the case of a system modification not involving expansions, each existing service connection that benefits or would benefit from the modification.

(c) Every person who, through an act of commission or omission, procures, aids, or abets a violation is considered to have violated the provisions of this section and is subject to the penalty provided in this section.

(2) The penalty provided for in this section shall be imposed by a notice in writing to the person against whom the civil penalty is assessed and shall describe the violation. The notice shall be personally served in the manner of service of a summons in a civil action or in a manner that shows proof of receipt. A penalty imposed by this section is due twenty-eight days after receipt of notice unless application for an adjudicative proceeding is filed as provided in subsection (3) of this section.

(3) Within twenty-eight days after notice is received, the person incurring the penalty may file an application for an adjudicative proceeding and may pursue subsequent review as provided in chapter 34.05 RCW and applicable rules of the department or board of health.

(4) A penalty imposed by a final administrative order is due upon service of the final administrative order. A person who fails to pay a penalty assessed by a final administrative order within thirty days of service of the final administrative order shall pay, in addition to the amount of the penalty, interest at the rate of one percent of the unpaid balance of the assessed penalty for each month or part of a month that the penalty remains unpaid, commencing with the month in which the notice of penalty was served and such reasonable attorney's fees as are incurred in securing the final administrative order.

(5) A person who institutes proceedings for judicial review of a final administrative order assessing a civil penalty under this chapter shall place the full amount of the penalty in an interest bearing account in the registry of the reviewing court. At the conclusion of the proceeding the court shall, as appropriate, enter a judgment on behalf of the department and order that the judgment be satisfied to the extent possible from moneys paid into the registry of the court or shall enter a judgment in favor of the person appealing the penalty assessment and order return of the

moneys paid into the registry of the court together with accrued interest to the person appealing. The judgment may award reasonable attorney's fees for the cost of the attorney general's office in representing the department.

(6) If no appeal is taken from a final administrative order assessing a civil penalty under this chapter, the department may file a certified copy of the final administrative order with the clerk of the superior court in which the public water system is located or in Thurston county, and the clerk shall enter judgment in the name of the department and in the amount of the penalty assessed in the final administrative order.

(7) A judgment entered under subsection (5) or (6) of this section shall have the same force and effect as, and is subject to all of the provisions of law relating to, a judgment in a civil action, and may be enforced in the same manner as any other judgment of the court in which it is entered.

(8) All penalties imposed under this section shall be payable to the state treasury and credited to the safe drinking water account, and shall be used by the department to provide training and technical assistance to system owners and operators.

(9) Except in cases of public health emergencies, the department may not impose monetary penalties under this section unless a prior effort has been made to resolve the violation informally. [1995 c 376 § 8; 1993 c 305 § 2; 1990 c 133 § 8; 1989 c 175 § 135; 1986 c 271 § 4.]

Each local board of health that is enforcing the regulations under an agreement with the department allocating state and local responsibility is authorized to impose and collect civil penalties for violations within the area of its responsibility under the same limitations and requirements imposed upon the department by RCW 70.119A.030 and 70.119A.040, except that judgment shall be entered in the name of the local board [and] penalties shall be placed into the general fund of the county, city, or town operating the local board of health. [1993 c 305 § 3; 1989 c 422 § 8; 1986 c 271 § 5.]

70.119A.060 Public water systems—Mandate—Conditions for approval or creation of new public water system—Department and local health jurisdiction duties.

(1) In order to assure safe and reliable public drinking water and to protect the public health, public water systems shall:

- (a) Protect the water sources used for drinking water;
- (b) Provide treatment adequate to assure that the public health is protected;
- (c) Provide and effectively operate and maintain public water system facilities;
- (d) Plan for future growth and assure the availability of safe and reliable drinking water;
- (e) Provide the department with the current names, addresses, and telephone numbers of the owners, operators, and emergency contact persons for the system, including any changes to this information, and provide to users the name

and twenty-four hour telephone number of an emergency contact person; and

(f) Take whatever investigative or corrective action is necessary to assure that a safe and reliable drinking water supply is continuously available to users.

(2) No new public water system may be approved or created unless: (a) It is owned or operated by a satellite system management agency established under RCW 70.116.134 and the satellite system management system complies with financial viability requirements of the department; or (b) a satellite management system is not available and it is determined that the new system has sufficient management and financial resources to provide safe and reliable service. The approval of any new system that is not owned by a satellite system management agency shall be conditioned upon future management or ownership by a satellite system management agency, if such management or ownership can be made with reasonable economy and efficiency, or upon periodic review of the system's operational history to determine its ability to meet the department's financial viability and other operating requirements. The department and local health jurisdictions shall enforce this requirement under authority provided under this chapter, chapter 70.116, or 70.05 RCW, or other authority governing the approval of new water systems by the department or a local jurisdiction.

(3) The department and local health jurisdictions shall carry out the rules and regulations of the state board of health adopted pursuant to RCW 43.20.050(2)(a) and other rules adopted by the department relating to public water systems. [1995 c 376 § 3; 1991 c 304 § 4; 1990 c 132 § 4; 1989 c 422 § 3.]

Findings—1995 c 376: See note following RCW 70.116.060.

70.119A.070 Department contracting authority.

The department may enter into contracts to carry out the purposes of this chapter. [1989 c 422 § 4.]

70.119A.080 Drinking water program.

(1) The department shall administer a drinking water program which includes, but is not limited to, those program elements necessary to assume primary enforcement responsibility for part B, and section 1428 of part C of the federal safe drinking water act. No rule promulgated or implemented by the department of health or the state board of health for the purpose of compliance with the requirements of the federal safe drinking water act, 42 U.S.C. Sec. 300f et seq., shall be applicable to public water systems to which that federal law is not applicable, unless the department or the state board determines that such rule is necessary for the protection of public health.

(2) The department shall enter into an agreement of administration with the department of ecology and any other appropriate agencies, to administer the federal safe drinking water act.

(3) The department is authorized to accept federal grants for the administration of a primary program. [1991 c 3 § 371; 1989 c 422 § 5.]

70.119A.100 Operating permits—Findings. The legislature finds that:

(1) The responsibility for ensuring that the citizens of this state have a safe and reliable drinking water supply is shared between local government and state government, and is the obligation of every public water system;

(2) A rapid increase in the number of public water systems supplying drinking water to the citizens of this state has significantly increased the burden on both local and state government to monitor and enforce compliance by these systems with state laws that govern planning, design, construction, operation, maintenance, financing, management, and emergency response;

(3) The federal safe drinking water act imposes on state and local governments and the public water systems of this state significant new responsibilities for monitoring, testing, and treating drinking water supplies; and

(4) Existing drinking water programs at both the state and local government level need additional authorities to enable them to more comprehensively and systematically address the needs of the public water systems of this state and assure that the public health and safety of its citizens are protected.

Therefore, annual operating permit requirements shall be established in accordance with this chapter. The operating permit requirements shall be administered by the department and shall be used as a means to assure that public water systems provide safe and reliable drinking water to the public. The department and local government shall conduct comprehensive and systematic evaluations to assess the adequacy and financial viability of public water systems. The department may impose permit conditions, requirements for system improvements, and compliance schedules in order to carry out the purpose of *this act. [1991 c 304 § 1.]

***Reviser's note:** For codification of "this act" [1991 c 304], see Codification Tables, Volume 0.

Requirements effective upon adoption of rules—1991 c 304: "The department shall adopt rules necessary to implement sections 5 through 7 of this act. The requirements of this act shall take effect upon adoption of rules pursuant to this act." [1991 c 304 § 8.]

70.119A.110 Operating permits—Application process—Phase-in of implementation—Satellite systems.

(1) No person may operate a group A public water system unless the person first submits an application to the department and receives an operating permit as provided in this section. A new application must be submitted upon any change in ownership of the system. Any person operating a public water system on July 28, 1991, may continue to operate the system until the department takes final action, including any time necessary for a hearing under subsection (3) of this section, on a permit application submitted by the person operating the system under the rules adopted by the department to implement this section.

(2) The department may require that each application include the information that is reasonable and necessary to determine that the system complies with applicable standards and requirements of the federal safe drinking water act, state

law, and rules adopted by the department or by the state board of health.

(3) Following its review of the application, its supporting material, and any information received by the department in its investigation of the application, the department shall issue or deny the operating permit. The department shall act on initial permit applications as expeditiously as possible, and shall in all cases either grant or deny the application within one hundred twenty days of receipt of the application or of any supplemental information required to complete the application. The applicant for a permit shall be entitled to file an appeal in accordance with chapter 34.05 RCW if the department denies the initial or subsequent applications or imposes conditions or requirements upon the operator. Any operator of a public water system that requests a hearing may continue to operate the system until a decision is issued after the hearing.

(4) At the time of initial permit application or at the time of permit renewal the department may impose such permit conditions, requirements for system improvements, and compliance schedules as it determines are reasonable and necessary to ensure that the system will provide a safe and reliable water supply to its users.

(5) Operating permits shall be issued for a term of one year, and shall be renewed annually, unless the operator fails to apply for a new permit or the department finds good cause to deny the application for renewal.

(6) Each application shall be accompanied by an annual fee as follows:

(a) The annual fee for public water supply systems serving fifteen to forty-nine service connections shall be twenty-five dollars.

(b) The annual fee for public water supply systems serving fifty to three thousand three hundred thirty-three service connections shall be based on a uniform per service connection fee of one dollar and fifty cents per service connection.

(c) The annual fee for public water supply systems serving three thousand three hundred thirty-four to fifty-three thousand three hundred thirty-three service connections shall be based on a uniform per service connection fee of one dollar and fifty cents per service connection plus ten cents for each service connection in excess of three thousand three hundred thirty-three service connections.

(d) The annual fee for public water supply systems serving fifty-three thousand three hundred thirty-four or more service connections shall be ten thousand dollars.

(e) In addition to the fees under (a) through (d) of this subsection, the department may charge an additional one-time fee of five dollars for each service connection in a new water system.

(7) The department may phase-in the implementation for any group of systems provided the schedule for implementation is established by rule. Prior to implementing the operating permit requirement on water systems having less than five hundred service connections, the department shall form a committee composed of persons operating these systems. The committee shall be composed of the department of health, two operators of water systems having under one hundred connections, two operators of water systems having between one hundred and two hundred service connections, two operators of water systems having between

two hundred and three hundred service connections, two operators of water systems having between three hundred and four hundred service connections, two operators of water systems having between four hundred and five hundred service connections, and two county public health officials. The members shall be chosen from different geographic regions of the state. This committee shall develop draft rules to implement this section. The draft rules will then be subject to the rule-making procedures in accordance with chapter 34.05 RCW.

(8) The department shall notify existing public water systems of the requirements of RCW 70.119A.030, 70.119A.060, and this section at least one hundred twenty days prior to the date that an application for a permit is required pursuant to RCW 70.119A.030, 70.119A.060, and this section.

(9) The department shall issue one operating permit to any approved satellite system management agency. Operating permit fees for approved satellite system management agencies shall be one dollar per connection per year for the total number of connections under the management of the approved satellite agency. The department shall define by rule the meaning of the term "satellite system management agency." If a statutory definition of this term exists, then the department shall adopt by rule a definition consistent with the statutory definition.

(10) For purposes of this section, "group A public water system" and "system" mean those water systems with fifteen or more service connections, regardless of the number of people; or a system serving an average of twenty-five or more people per day for sixty or more days within a calendar year, regardless of the number of service connections. [1991 c 304 § 5.]

Requirements effective upon adoption of rules—1991 c 304: See note following RCW 70.119A.100.

70.119A.115 Organic and inorganic chemicals—Area-wide waiver program. The department shall develop and implement a voluntary program sufficient to allow public water systems to be waived from full testing requirements for organic and inorganic chemicals under the federal safe drinking water act. The department shall pay the initial testing and programmatic costs for the area-wide waiver program. The department shall assess a fee using its authority under RCW 43.20B.020, sufficient to cover all testing and directly related costs to public water systems that apply for an area-wide waiver. The department shall adjust the amount of the fee based on the size of the public drinking water system. Fees charged by the department may not vary by more than a factor of ten. The department shall, to the maximum extent possible, use the services of local governments, local health departments, and private laboratories to implement the area-wide testing program. The department shall consult with the departments of agriculture and ecology for the purpose of exchanging water quality and other information. [1994 c 252 § 3.]

Finding—Effective date—1994 c 252: See notes following RCW 70.119A.020.

70.119A.120 Safe drinking water account. The safe drinking water account is created in the general fund of the

state treasury. All receipts from the operating permit fees required to be paid under RCW 70.119A.110 shall be deposited into the account. Moneys in the account may be spent only after appropriation. Expenditures from the account may be used by the department of health to carry out the purposes of chapter 304, Laws of 1991 and to carry out contracts with local governments in accordance with this chapter. [1991 c 304 § 6.]

Requirements effective upon adoption of rules—1991 c 304: See note following RCW 70.119A.100.

70.119A.130 Local government authority. Local governments may establish separate operating permit requirements for public water systems provided the operating permit requirements have been approved by the department. The department shall not approve local operating permit requirements unless the local system will result in an increased level of service to the public water system. There shall not be duplicate operating permit requirements imposed by local governments and the department. [1995 c 376 § 9; 1991 c 304 § 7.]

Effective date—1995 c 376 § 9: "Section 9 of this act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and shall take effect July 1, 1995." [1995 c 376 § 17.]

Findings—1995 c 376: See note following RCW 70.116.060.

Requirements effective upon adoption of rules—1991 c 304: See note following RCW 70.119A.100.

70.119A.140 Report by bottled water plant operator or water dealer of contaminant in water source. In such cases where a bottled water plant operator or water dealer knows or has reason to believe that a contaminant is present in the source water because of spill, release of a hazardous substance, or otherwise, and the contaminant's presence would create a potential health hazard to consumers, the plant operator or water dealer must report such an occurrence to the state's department of health. [1992 c 34 § 5.]

Severability—1992 c 34: See note following RCW 69.07.170.

For the purposes of this section, "premises under the control of a public water system" does not include the premises or private property of a customer of a public water system past the point on the system where the service connection is made.

(b) The secretary or his or her designee need not give prior notification to enter a premises under (a) of this subsection if the purpose of the entry is to ensure compliance by the public water system with a prior order of the department or if the secretary or the secretary's designee has reasonable cause to believe the public water system is

violating the law and poses a serious threat to public health and safety.

(2) The secretary or his or her designee may apply for an administrative search warrant to a court official authorized to issue a criminal search warrant. An administrative search warrant may be issued for the purposes of inspecting or examining property, buildings, premises, place, books, records, or other physical evidence, or conducting tests or taking samples. (b) The secretary or his or her designee has reason to believe that a violation of a law or rule administered by the department has occurred, is occurring, or may occur.

(3) The local health officer or the designee of a local health officer of a local board of health that is enforcing rules regulating public water systems under an agreement with the department allocating state and local responsibility is authorized to conduct investigations and to apply for, obtain, and execute administrative search warrants necessary to perform the local board's agreed-to responsibilities under the same limitations and requirements imposed on the department under this section. [1993 c 305 § 4.]

Membership on the committee shall reflect a broad range of interests in the regulation of public water supplies, including water utilities of all sizes, local governments, business groups, special purpose districts, local health jurisdictions, other state and federal agencies, financial institutions, environmental organizations, the legislature, and other groups substantially affected by the department's role in implementing state and federal requirements for public water systems. Members shall be appointed for fixed terms of no less than two years, and may be reappointed. Any members of an existing advisory committee to the drinking water program may remain as members of the water supply advisory committee. The committee shall provide advice to the department on the organization, functions, service delivery methods, and funding of the drinking water program. The committee shall also review the adequacy and necessity of the current and prospective funding for the drinking water program, and the results of the committees' review shall be forwarded to the department for inclusion in a report to the appropriate standing committees of the legislature no later than November 1, 1996. The report shall include a discussion of the extent to which the drinking water program has progressed toward achieving the objectives of the public health improvement plan, and an assessment of any changes to the program necessitated by modifications to the federal safe drinking water act. [1995 c 376 § 4.]

Findings—1995 c 376: See note following RCW 70.116.060.

70.119A.170 Drinking water assistance account. A drinking water assistance account is created in the state

treasury. The purpose of the account is to allow the state to take advantage of any federal funds that become available for safe drinking water. Expenditures from the account may only be made by the secretary or the public works board after appropriation. Moneys in the account may only be used to assist water systems to provide safe drinking water through a program administered through the department of health and the public works board. 70.120.020 Programs. (1) The department shall conduct a public educational program regarding the health effects of air pollution emitted by motor vehicles; the purpose, operation, and effect of emission control devices and systems; and the effect that proper maintenance of motor vehicle engines has on fuel economy and air pollution emission and a public notification program identifying the geographic areas of the state that are designated as being noncompliance areas and emission contributing areas and describing the requirements imposed under this chapter for those areas.

(2)(a) The department shall grant certificates of instruction to persons who successfully complete a course of study, under general requirements established by the director, in the maintenance of motor vehicle engines, the use of engine and exhaust analysis equipment, and the repair and maintenance of emission control devices. The director may establish and implement procedures for granting certification to persons who successfully complete other training programs or who have received certification from public and private organizations which meet the requirements established in this subsection, including programs on clean fuel technology and maintenance.

(b) The department shall make available to the public a list of those persons who have received certificates of instruction under subsection (2)(a) of this section. [1991 c 199 § 202; 1989 c 240 § 5; 1979 ex.s. c 163 § 2.]

Intent—1991 c 199: "(1) It is the intent of the legislature that the state take advantage of the best emission control systems available on new motor vehicles. The department shall conduct a study to determine if requiring new vehicles sold in the state to meet California vehicle emission standards will provide a significant benefit to attainment of ambient air quality standards in this state. The department shall report the findings of its study and its recommendations to the appropriate standing committees of the legislature. The department shall not adopt the California vehicle emission standards unless authorized by the legislature.

(2) In the event that California vehicle emission standards are adopted, the department shall not include a program for in-use testing and recall of vehicles required to meet California emission standards." [1991 c 199 § 229.]

Finding—1991 c 199: See note following RCW 70.94.011.

70.120.070 Vehicle inspections—Failed—Certificate of acceptance. (1) Any person:

(a) Whose motor vehicle is tested pursuant to this chapter and fails to comply with the emission standards established for the vehicle; and

(b) Who, following such a test, expends more than one hundred dollars on a 1980 or earlier model year motor vehicle or expends more than one hundred fifty dollars on a 1981 or later model year motor vehicle for repairs solely devoted to meeting the emission standards and that are performed by a certified emission specialist authorized by RCW 70.120.020(2)(a); and

(c) Whose vehicle fails a retest, may be issued a certificate of acceptance if (i) the vehicle has been in use for more than five years or fifty thousand miles, and (ii) any component of the vehicle installed by the manufacturer for the purpose of reducing emissions, or its appropriate replacement, is installed and operative.

To receive the certificate, the person must document compliance with (b) and (c) of this subsection to the satisfaction of the department.

Should any provision of (b) of this subsection be disapproved by the administrator of the United States environmental protection agency, all vehicles shall be required to expend at least four hundred fifty dollars to qualify for a certificate of acceptance.

(2) Persons who fail the initial tests shall be provided with information regarding the availability of federal warranties and certified emission specialists. [1991 c 199 § 203; 1989 c 240 § 6; 1980 c 176 § 4; 1979 ex.s. c 163 § 7.]

70.120.080 Vehicle inspections—Fleets. The director may authorize an owner or lessee of a fleet of motor vehicles, or the owner's or lessee's agent, to inspect the vehicles in the fleet and issue certificates of compliance for the vehicles in the fleet if the director determines that: (1) The director's inspection procedures will be complied with; and (2) certificates will be issued only to vehicles in the fleet that meet emission and equipment standards adopted under RCW 70.120.150 and only when appropriate.

In addition, the director may authorize an owner or lessee of one or more diesel motor vehicles with a gross vehicle weight rating in excess of eight thousand five hundred pounds, or the owner's or lessee's agent, to inspect the vehicles and issue certificates of compliance for the vehicles. The inspections shall be conducted in compliance with inspection procedures adopted by the department and certificates of compliance shall only be issued to vehicles that meet emission and equipment standards adopted under RCW 70.120.150.

The director shall establish by rule the fee for fleet or diesel inspections provided for in this section. The fee shall be set at an amount necessary to offset the department's cost to administer the fleet and diesel inspection program authorized by this section.

Owners, leaseholders, or their agents conducting inspections under this section shall pay only the fee estab-

lished in this section and not be subject to fees under RCW 70.120.170(4). [1991 c 199 § 205; 1979 ex.s. c 163 § 8.]

Severability—1979 ex.s. c 163: See note following RCW 70.120.010.

70.120.100 Vehicle inspections—Complaints. The department shall investigate complaints received regarding the operation of emission testing stations and shall require corrections or modifications in those operations when deemed necessary.

The department shall also review complaints received regarding the maintenance or repairs secured by owners of motor vehicles for the purpose of complying with the requirements of this chapter. When possible, the department shall assist such owners in determining the merits of the complaints. [1979 ex.s. c 163 § 10.]

Severability—1979 ex.s. c 163: See note following RCW 70.120.010.

70.120.120 Rules. The director shall adopt rules implementing and enforcing this chapter in accordance with chapter 34.05 RCW. The department shall take into account when considering proposed modifications of emission contributing boundaries, as provided for in RCW 70.120.150(6), alternative transportation control and motor vehicle emission reduction measures that are required by local municipal corporations for the purpose of satisfying federal emission guidelines. [1991 c 199 § 206; 1989 c 240 § 8; 1979 ex.s. c 163 § 13.]

Finding—1991 c 199: See note following RCW 70.94.011.

Severability—1979 ex.s. c 163: See note following RCW 70.120.010.

70.120.130 Authority. The authority granted by this chapter to the director and the department for controlling vehicle emissions is supplementary to the department's authority to control air pollution pursuant to chapter 70.94 RCW. [1979 ex.s. c 163 § 14.]

Severability—1979 ex.s. c 163: See note following RCW 70.120.010.

70.120.150 Vehicle emission and equipment standards—Designation of noncompliance areas and emission contributing areas. The director:

(1) Shall adopt motor vehicle emission and equipment standards to: Ensure that no less than seventy percent of the vehicles tested comply with the standards on the first inspection conducted, meet federal clean air act requirements, and protect human health and the environment.

(2) Shall adopt rules implementing the smoke opacity testing requirement for diesel vehicles that ensure that such test is objective and repeatable and that properly maintained engines that otherwise would meet the applicable federal emission standards, as measured by the new engine certification test, would not fail the smoke opacity test.

(3) Shall designate a geographic area as being a "non-compliance area" for motor vehicle emissions if (a) the department's analysis of emission and ambient air quality data, covering a period of no less than one year, indicates that the standard has or will probably be exceeded, and (b) the department determines that the primary source of the air contaminant is motor vehicle emissions.

(4) Shall reevaluate noncompliance areas if the United States environmental protection agency modifies the relevant air quality standards, and shall discontinue the program if compliance is indicated and if the department determines that the area would continue to be in compliance after the program is discontinued. The director shall notify persons residing in noncompliance areas of the reevaluation.

(5) Shall analyze information regarding the motor vehicle traffic in a noncompliance area to determine the smallest land area within whose boundaries are present registered motor vehicles that contribute significantly to the violation of motor vehicle-related air quality standards in the noncompliance area. The director shall declare the area to be an "emission contributing area." An emission contributing area established for a carbon monoxide or oxides of nitrogen noncompliance area must contain the noncompliance area within its boundaries. An emission contributing area established for an ozone noncompliance area located in this state need not contain the ozone noncompliance area within its boundaries if it can be proven that vehicles registered in the area contribute significantly to violations of the ozone air quality standard in the noncompliance area. An emission contributing area may be established in this state for violations of federal air quality standards for ozone in an adjacent state if (a) the United States environmental protection agency designates an area to be a "nonattainment area for ozone" under the provisions of the federal Clean Air Act (42 U.S.C. 7401 et. seq.), and (b) it can be proven that vehicles registered in this state contribute significantly to the violation of the federal air quality standards for ozone in the adjacent state's nonattainment area.

(6) Shall, after consultation with the appropriate local government entities, designate areas as being noncompliance areas or emission contributing areas, and shall establish the boundaries of such areas by rule. The director may also modify boundaries. In establishing the external boundaries of an emission contributing area, the director shall use the boundaries established for ZIP code service areas by the United States postal service.

(7) May make grants to units of government in support of planning efforts to reduce motor vehicle emissions. [1991 c 199 § 207; 1989 c 240 § 2.]

Finding—1991 c 199: See note following RCW 70.94.011.

Effective dates—Severability—Captions not law—1991 c 199: See RCW 70.94.904 through 70.94.906.

70.120.160 Noncompliance areas—Annual review.

(1) The director shall review annually the air quality and forecasted air quality of each area in the state designated as a noncompliance area for motor vehicle emissions.

(2) An area shall no longer be designated as a noncompliance area if the director determines that:

(a) Air quality standards for contaminants derived from motor vehicle emissions are no longer being violated in the noncompliance area; and

(b) The standards would not be violated if the emission inspection system in the emission contributing area was discontinued and the requirements of RCW 46.16.015 no longer applied. [1989 c 240 § 3.]

70.120.170 Motor vehicle emission inspections—Fees—Certificate of compliance—State and local agency vehicles.

(1) The department shall administer a system for emission inspections of all motor vehicles registered within the boundaries of each emission contributing area. Under such system a motor vehicle shall be inspected biennially except where an annual program would be required to meet federal law and prevent federal sanctions. In addition, motor vehicles shall be inspected at each change of registered owner of a licensed vehicle.

(2) The director shall:

(a) Adopt procedures for conducting emission inspections of motor vehicles. The inspections may include idle and high revolution per minute emission tests. The emission test for diesel vehicles shall consist solely of a smoke opacity test.

(b) Adopt criteria for calibrating emission testing equipment. Electronic equipment used to test for emissions standards provided for in this chapter shall be properly calibrated. The department shall examine frequently the calibration of the emission testing equipment used at the stations.

(c) Authorize, through contracts, the establishment and operation of inspection stations for conducting vehicle emission inspections authorized in this chapter. No person contracted to inspect motor vehicles may perform for compensation repairs on any vehicles. No public body may establish or operate contracted inspection stations. Any contracts must be let in accordance with the procedures established for competitive bids in chapter 43.19 RCW.

(3) Subsection (2)(c) of this section does not apply to volunteer motor vehicle inspections under RCW 70.120.020(1) if the inspections are conducted for the following purposes:

(a) Auditing;

(b) Contractor evaluation;

(c) Collection of data for establishing calibration and performance standards; or

(d) Public information and education.

(4)(a) The director shall establish by rule the fee to be charged for emission inspections. The inspection fee shall be a standard fee applicable state-wide or throughout an emission contributing area and shall be no greater than eighteen dollars. Surplus moneys collected from fees over the amount due the contractor shall be paid to the state and deposited in the general fund. Fees shall be set at the minimum whole dollar amount required to (i) compensate the contractor or inspection facility owner, and (ii) offset the general fund appropriation to the department to cover the administrative costs of the motor vehicle emission inspection program.

(b) Before each inspection, a person whose motor vehicle is to be inspected shall pay to the inspection station

the fee established under this section. The person whose motor vehicle is inspected shall receive the results of the inspection. If the inspected vehicle complies with the standards established by the director, the person shall receive a dated certificate of compliance. If the inspected vehicle does not comply with those standards, one reinspection of the vehicle shall be afforded without charge.

(5) All units of local government and agencies of the state with motor vehicles garaged or regularly operated in an emissions contributing area shall test the emissions of those vehicles annually to ensure that the vehicle's emissions comply with the emission standards established by the director. All state agencies outside of emission contributing areas with more than twenty motor vehicles housed at a single facility or contiguous facilities shall test the emissions of those vehicles annually to ensure that the vehicles' emissions comply with standards established by the director. A report of the results of the tests shall be submitted to the department. [1991 c 199 § 208; 1989 c 240 § 4.]

Finding—1991 c 199: See note following RCW 70.94.011.

Effective dates—Severability—Captions not law—1991 c 199: See RCW 70.94.904 through 70.94.906.

70.120.180 Studies. (1) The department shall identify expected carbon monoxide emission trends over the next five years after January 1, 1990, without the motor vehicle emission program and report to the appropriate standing committees of the legislature by January 1, 1991.

(2) The department shall examine available testing data to determine vehicle subpopulations and incremental emission increases associated with subpopulations failing the emission test. This information shall be reported to the appropriate standing committees of the legislature by January 1, 1992. [1989 c 240 § 10.]

70.120.190 Used vehicles. (1) Motor vehicle dealers selling a used vehicle not under a new vehicle warranty shall include a notice in each vehicle purchase order form that reads as follows: "The owner of a vehicle may be required to spend up to (a dollar amount established under RCW 70.120.070) for repairs if the vehicle does not meet the vehicle emission standards under this chapter. Unless expressly warranted by the motor vehicle dealer, the dealer is not warranting that this vehicle will pass any emission tests required by federal or state law."

(2) The signature of the purchaser on the notice required under subsection (1) of this section shall constitute a valid disclaimer of any implied warranty by the dealer as to a vehicle's compliance with any emission standards.

(3) The disclosure requirement of subsection (1) of this section applies to all motor vehicle dealers located in counties where state emission inspections are required. [1991 c 199 § 210.]

Finding—1991 c 199: See note following RCW 70.94.011.

Effective dates—Severability—Captions not law—1991 c 199: See RCW 70.94.904 through 70.94.906.

70.120.200 Engine conformance. Engine manufacturers shall certify that new engines conform with current exhaust emission standards of the federal environmental protection agency. [1991 c 199 § 211.]

Finding—1991 c 199: See note following RCW 70.94.011.

70.120.210 Clean-fuel performance and clean-fuel vehicle emissions specifications. By July 1, 1992, the department shall develop, in cooperation with the departments of general administration and transportation, and Washington State University, aggressive clean-fuel performance and clean-fuel vehicle emissions specifications including clean-fuel vehicle conversion equipment. To the extent possible, such specifications shall be equivalent for all fuel types. In developing such specifications the department shall consider the requirements of the clean air act and the findings of the environmental protection agency, other states, the American petroleum institute, the gas research institute, and the motor vehicles manufacturers association. Nuclear energy and radiation: Chapter 70.98 RCW.

Radioactive waste storage and transportation act of 1980: Chapter 70.99 RCW.

70.121.010 Legislative findings. The legislature finds that:

(1) The milling of uranium and thorium creates potential hazards to the health of the citizens of the state of Washington in that potentially hazardous radioactive isotopes, decay products of uranium and thorium, naturally occurring in relatively dispersed geologic formations, are brought to one location on the surface and pulverized in the process of mining and milling uranium and thorium.

(2) These radioactive isotopes, in addition to creating a field of gamma radiation in the vicinity of the tailings area, also exude potentially hazardous radioactive gas and particulates into the atmosphere from the tailings areas, and contaminate the milling facilities, thereby creating hazards which will be present for many generations.

(3) The public health and welfare of the citizens demands that the state assure that the public health be protected by requiring that: (a) Prior to the termination of any radioactive materials license, all milling facilities and associated tailings piles will be decommissioned in such a manner as to bring the potential public health hazard to a minimum; and (b) such environmental radiation monitoring as is necessary to verify the status of decommissioned facilities will be conducted. [1979 ex.s. c 110 § 1.]

Effective date—1979 ex.s. c 110: "This act shall take effect on January 1, 1980." [1979 ex.s. c 110 § 18.]

70.121.020 Definitions. Unless the context clearly requires a different meaning, the definitions in this section apply throughout this chapter.

- (1) "Department" means the department of health.
- (2) "Secretary" means the secretary of health.
- (3) "Site" means the restricted area as defined by the United States nuclear regulatory commission.
- (4) "Tailings" means the residue remaining after extraction of uranium or thorium from the ore whether or not

the residue is left in piles, but shall not include ore bodies nor ore stock piles.

(5) "License" means a radioactive materials license issued under chapter 70.98 RCW and the rules adopted under chapter 70.98 RCW.

(6) "Termination of license" means the cancellation of the license after permanent cessation of operations. Temporary interruptions or suspensions of production due to economic or other conditions are not a permanent cessation of operations.

(7) "Milling" means grinding, cutting, working, or concentrating ore which has been extracted from the earth by mechanical (conventional) or chemical (in situ) processes.

(8) "Obligor-licensee" means any person who obtains a license to operate a uranium or thorium mill in the state of Washington or any person who owns the property on which the mill operates and who owes money to the state for the licensing fee, for reclamation of the site, for perpetual surveillance and maintenance of the site, or for any other obligation owed the state under this chapter.

(9) "Statement of claim" means the document recorded or filed pursuant to this chapter, which names an obligor-licensee, names the state as obligee, describes the obligation owed to the state, and describes property owned by the obligor-licensee on which a lien will attach for the benefit of the state, and which creates the lien when filed. [1991 c 3 § 372; 1987 c 184 § 1; 1982 c 78 § 1; 1979 ex.s. c 110 § 2.]

Effective date—1979 ex.s. c 110: See note following RCW 70.121.010.

70.121.030 Licenses—Renewal—Hearings. (1) Any person who proposes to operate a uranium or thorium mill within the state of Washington after January 1, 1980, shall obtain a license from the department to mill thorium and uranium. The period of the license shall be determined by the secretary and shall be initially valid for not more than two years and renewable thereafter for periods of not more than five years. No license may be granted unless:

(a) The owner or operator of the mill submits to the department a plan for reclamation and disposal of tailings and for decommissioning the site that conforms to the criteria and standards then in effect for the protection of the public safety and health; and

(b) The owner of the mill agrees to transfer or revert to the appropriate state or federal agency upon termination of the license all lands, buildings, and grounds, and any interests therein, necessary to fulfill the purposes of this chapter except where the lands are held in trust for or are owned by any Indian tribe.

(2) Any person operating a uranium or thorium mill on January 1, 1980, shall, at the time of application for renewal of his license to mill thorium or uranium, comply with the following conditions for continued operation of the mill:

(a) The owner or operator of the mill shall submit to the department a plan for reclamation and disposal of tailings and for decommissioning the site that conforms to the criteria and standards then in effect for the protection of the public safety and health; and

(b) The owner of the mill shall agree to transfer or revert to the appropriate state or federal agency upon termination of the license all lands, buildings, and grounds, and any interests therein, necessary to fulfill the purposes of

this chapter except where the lands are held in trust for or are owned by any Indian tribe.

(3) The department shall, after public notice and opportunity for written comment, hold a public hearing to consider the adequacy of the proposed plan to protect the safety and health of the public required by subsections (1) and (2) of this section. The proceedings shall be recorded and transcribed. The public hearing shall provide the opportunity for cross-examination by both the department and the person proposing the plan required under this section. The department shall make a written determination as to the licensing of the mill which is based upon the findings included in the determination and upon the evidence presented during the public comment period. The determination is subject to judicial review. If a declaration of nonsignificance is issued for a license renewal application under rules adopted under chapter 43.21C RCW, the public hearing is not required.

(4) The department shall set a schedule of license and amendment fees predicated on the cost of reviewing the license application and of monitoring for compliance with the conditions of the license. A permit for construction of a uranium or thorium mill may be granted by the secretary prior to licensing. [1979 ex.s. c 110 § 3.]

Effective date—1979 ex.s. c 110: See note following RCW 70.121.010.

70.121.040 Facility operations and decommissioning—Monitoring. The secretary or his representative shall monitor the operations of the mill for compliance with the conditions of the license by the owner or operator. The mill owner or operator shall be responsible for compliance, both during the lifetime of the facility and at shutdown, including but not limited to such requirements as fencing and posting the site; contouring, covering, and stabilizing the pile; and for decommissioning the facility. [1979 ex.s. c 110 § 4.]

Effective date—1979 ex.s. c 110: See note following RCW 70.121.010.

70.121.050 Radiation perpetual maintenance fund—Licensee contributions—Disposition. On a quarterly basis on and after January 1, 1980, there shall be levied and the department shall collect a charge of five cents per pound on each pound of uranium or thorium compound milled out of the raw ore. All moneys paid to the department from these charges shall be deposited in a special security fund in the treasury of the state of Washington to be known as the "radiation perpetual maintenance fund". This security fund shall be used by the department when a licensee has ceased to operate and the site may still contain, or have associated with the site at which the licensed activity was conducted in spite of full compliance with RCW 70.121.030, radioactive material which will require further maintenance, surveillance, or other care. If, with respect to a licensee, the department determines that the estimated total of these charges will be less than or greater than that required to defray the estimated cost of administration of this responsibility, the department may prescribe such an increased or decreased charge as is considered necessary for this purpose. If, at termination of the license, the department determines that by the applicable standards and practices then in effect, the charges which

have been collected from the licensee and earnings generated therefrom are in excess of the amount required to defray the cost of this responsibility, the department may refund the excess portion to the licensee. If, at termination of the license or cessation of operation, the department determines, by the applicable standards and practices then in effect, that the charges which have been collected from the licensee and earnings generated therefrom are together insufficient to defray the cost of this responsibility, the department may collect the excess portion from the licensee.

Moneys in the radiation perpetual maintenance fund shall be invested by the state investment board in the manner as other state moneys. [1987 c 184 § 2; 1979 ex.s. c 110 § 5.]

Effective date—1979 ex.s. c 110: See note following RCW 70.121.010.

70.121.060 State authority to acquire property for surveillance sites. In order to provide for the proper care and surveillance of sites under RCW 70.121.050, the state may acquire by gift or transfer from any government agency, corporation, partnership, or person, all lands, buildings, and grounds necessary to fulfill the purposes of this chapter. Any such gift or transfer shall be subject to approval by the department. In exercising the authority of this section, the department shall take into consideration the status of the ownership of the land and interests therein and the ability of the licensee to transfer title and custody thereof to the state. [1979 ex.s. c 110 § 6.]

Effective date—1979 ex.s. c 110: See note following RCW 70.121.010.

70.121.070 Status of acquired state property for surveillance sites. Recognizing the uncertainty of the existence of a person or corporation in perpetuity, and recognizing that ultimate responsibility to protect the public health and safety must be reposed in a solvent government, without regard to the existence of any particular agency or department thereof, all lands, buildings, and grounds acquired by the state under RCW 70.121.060 shall be owned in fee simple by the state and dedicated in perpetuity to the purposes stated in RCW 70.121.060. All radioactive material received at a site and located therein at the time of acquisition of ownership by the state shall become the property of the state. [1979 ex.s. c 110 § 7.]

Effective date—1979 ex.s. c 110: See note following RCW 70.121.010.

70.121.080 Payment for transferred sites for surveillance. If a person licensed by any governmental agency other than the state or if any other governmental agency desires to transfer a site to the state for the purpose of administering or providing perpetual care, a lump sum payment shall be made to the radiation perpetual maintenance fund. The amount of the deposit shall be determined by the department taking into consideration the factors stated in RCW 70.121.050. [1979 ex.s. c 110 § 8.]

Effective date—1979 ex.s. c 110: See note following RCW 70.121.010.

70.121.090 Authority for on-site inspections and monitoring. Each licensee under this chapter, as a condition of his license, shall submit to whatever reasonable on-site inspections and on-site monitoring as required in order for the department to carry out its responsibilities and duties under this chapter. Such on-site inspections and monitoring shall be conducted without the necessity of any further approval or any permit or warrant therefor. [1979 ex.s. c 110 § 9.]

Effective date—1979 ex.s. c 110: See note following RCW 70.121.010.

70.121.100 Licensees' bond requirements. The secretary or the secretary's duly authorized representative shall require the posting of a bond by licensees to be used exclusively to provide funds in the event of abandonment, default, or other inability of the licensee to meet the requirements of the department. The secretary may establish bonding requirements by classes of licensees and by range of monetary amounts. In establishing these requirements, the secretary shall consider the potential for contamination, injury, cost of disposal, and reclamation of the property. The amount of the bond shall be sufficient to pay the costs of reclamation and perpetual maintenance. [1987 c 184 § 5; 1979 ex.s. c 110 § 10.]

Effective date—1979 ex.s. c 110: See note following RCW 70.121.010.

70.121.110 Acceptable bonds. A bond shall be accepted by the department if it is a bond issued by a fidelity or surety company admitted to do business in the state of Washington and the fidelity or surety company is found by the state finance commission to be financially secure at licensing and licensing renewals, if it is a personal bond secured by such collateral as the secretary deems satisfactory and in accordance with RCW 70.121.100, or if it is a cash bond. [1987 c 184 § 6; 1979 ex.s. c 110 § 11.]

[1979 ex.s. c 110 § 12.]

Effective date—1979 ex.s. c 110: See note following RCW 70.121.010.

70.121.130 Exemptions from bonding requirements. All state, local, or other governmental agencies, or subdivisions thereof, are exempt from the bonding requirements of this chapter. [1987 c 184 § 7; 1979 ex.s. c 110 § 13.]

70.121.140 Amounts owed to state—Lien created. If a licensee fails to pay the department within a reasonable time money owed to the state under this chapter, the obligation owed to the state shall constitute a lien on all proper-

ty, both real and personal, owned by the obligor-licensee when the department records or files, pursuant to this section, a statement of claim against the obligor-licensee. The statement of claim against the obligor-licensee shall name the obligor-licensee, name the state as obligee, describe the obligation, and describe the property to be held in security for the obligation.

Statements of claim creating a lien on real property, fixtures, timber, agricultural products, oil, gas, or minerals shall be recorded with the county auditor in each county where the property is located. Statements of claim creating a lien in personal property, whether tangible or intangible, shall be filed with the department of licensing.

A lien recorded or filed pursuant to this section has priority over any lien, interest, or other encumbrance previously or thereafter recorded or filed concerning any property described in the statement of claim, to the extent allowed by federal law.

A lien created pursuant to this section shall continue in force until extinguished by foreclosure or bankruptcy proceedings or until a release of the lien signed by the secretary is recorded or filed in the place where the statement of claim was recorded or filed. The secretary shall sign and record or file a release only after the obligation owed to the state under this chapter, together with accrued interest and costs of collection has been paid. [1987 c 184 § 3.]

70.121.150 Amounts owed to the state—Collection by attorney general. The attorney general shall use all available methods of obtaining funds owed to the state under this chapter. The attorney general shall foreclose on liens made pursuant to this section, obtain judgments against obligor-licensees and pursue assets of the obligor-licensees found outside the state, consider pursuing the assets of parent corporations and shareholders where an obligor-licensee corporation is an underfinanced corporation, and pursue any other legal remedy available. [1987 c 184 § 4.]

70.121.900 Construction. This chapter is cumulative and not exclusive, and no part of this chapter shall be construed to repeal any existing law specifically enacted for the protection of the public health and safety. [1979 ex.s. c 110 § 14.]

Futile treatment and emergency medical personnel: RCW 43.70.480.

70.122.010 Legislative findings. The legislature finds that adult persons have the fundamental right to control the decisions relating to the rendering of their own health care, including the decision to have life-sustaining treatment withheld or withdrawn in instances of a terminal condition or permanent unconscious condition.

The legislature further finds that modern medical technology has made possible the artificial prolongation of human life beyond natural limits.

The legislature further finds that, in the interest of protecting individual autonomy, such prolongation of the process of dying for persons with a terminal condition or permanent unconscious condition may cause loss of patient dignity, and unnecessary pain and suffering, while providing nothing medically necessary or beneficial to the patient. The legislature further believes that physicians and nurses should not withhold or unreasonably diminish pain medication for patients in a terminal condition where the primary intent of providing such medication is to alleviate pain and maintain or increase the patient's comfort.

The legislature further finds that there exists considerable uncertainty in the medical and legal professions as to the legality of terminating the use or application of life-sustaining treatment where the patient having the capacity to make health care decisions has voluntarily evidenced a desire that such treatment be withheld or withdrawn.

In recognition of the dignity and privacy which patients have a right to expect, the legislature hereby declares that the laws of the state of Washington shall recognize the right of an adult person to make a written directive instructing such person's physician to withhold or withdraw life-sustaining treatment in the event of a terminal condition or permanent unconscious condition. The legislature also recognizes that a person's right to control his or her health care may be exercised by an authorized representative who validly holds the person's durable power of attorney for health care. [1992 c 98 § 1; 1979 c 112 § 2.]

70.122.020 Definitions. Unless the context clearly requires otherwise, the definitions contained in this section shall apply throughout this chapter.

(1) "Adult person" means a person who has attained the age of majority as defined in RCW 26.28.010 and 26.28.015, and who has the capacity to make health care decisions.

(2) "Attending physician" means the physician selected by, or assigned to, the patient who has primary responsibility for the treatment and care of the patient.

(3) "Directive" means a written document voluntarily executed by the declarer generally consistent with the guidelines of RCW 70.122.030.

(4) "Health facility" means a hospital as defined in RCW 70.41.020(2) or a nursing home as defined in RCW 18.51.010, a home health agency or hospice agency as defined in RCW 70.126.010, or a boarding home as defined in RCW 18.20.020.

(5) "Life-sustaining treatment" means any medical or surgical intervention that uses mechanical or other artificial means, including artificially provided nutrition and hydration, to sustain, restore, or replace a vital function, which, when applied to a qualified patient, would serve only to prolong the process of dying. "Life-sustaining treatment" shall not include the administration of medication or the performance of any medical or surgical intervention deemed necessary solely to alleviate pain.

(6) "Permanent unconscious condition" means an incurable and irreversible condition in which the patient is medically assessed within reasonable medical judgment as having no reasonable probability of recovery from an irreversible coma or a persistent vegetative state.

(7) "Physician" means a person licensed under chapters 18.71 or 18.57 RCW.

(8) "Qualified patient" means an adult person who is a patient diagnosed in writing to have a terminal condition by the patient's attending physician, who has personally examined the patient, or a patient who is diagnosed in writing to be in a permanent unconscious condition in accordance with accepted medical standards by two physicians, one of whom is the patient's attending physician, and both of whom have personally examined the patient.

(9) "Terminal condition" means an incurable and irreversible condition caused by injury, disease, or illness, that, within reasonable medical judgment, will cause death within a reasonable period of time in accordance with accepted medical standards, and where the application of life-sustaining treatment serves only to prolong the process of dying. [1992 c 98 § 2; 1979 c 112 § 3.]

70.122.030 Directive to withhold or withdraw life-sustaining treatment. (1) Any adult person may execute a directive directing the withholding or withdrawal of life-sustaining treatment in a terminal condition or permanent unconscious condition. The directive shall be signed by the declarer in the presence of two witnesses not related to the declarer by blood or marriage and who would not be entitled to any portion of the estate of the declarer upon declarer's decease under any will of the declarer or codicil thereto then existing or, at the time of the directive, by operation of law then existing. In addition, a witness to a directive shall not be the attending physician, an employee of the attending

physician or a health facility in which the declarer is a patient, or any person who has a claim against any portion of the estate of the declarer upon declarer's decease at the time of the execution of the directive. The directive, or a copy thereof, shall be made part of the patient's medical records retained by the attending physician, a copy of which shall be forwarded by the custodian of the records to the health facility when the withholding or withdrawal of life-support treatment is contemplated. The directive may be in the following form, but in addition may include other specific directions:

Health Care Directive

Directive made this day of (month, year).

I, having the capacity to make health care decisions, willfully, and voluntarily make known my desire that my dying shall not be artificially prolonged under the circumstances set forth below, and do hereby declare that:

(a) If at any time I should be diagnosed in writing to be in a terminal condition by the attending physician, or in a permanent unconscious condition by two physicians, and where the application of life-sustaining treatment would serve only to artificially prolong the process of my dying, I direct that such treatment be withheld or withdrawn, and that I be permitted to die naturally. I understand by using this form that a terminal condition means an incurable and irreversible condition caused by injury, disease, or illness, that would within reasonable medical judgment cause death within a reasonable period of time in accordance with accepted medical standards, and where the application of life-sustaining treatment would serve only to prolong the process of dying. I further understand in using this form that a permanent unconscious condition means an incurable and irreversible condition in which I am medically assessed within reasonable medical judgment as having no reasonable probability of recovery from an irreversible coma or a persistent vegetative state.

(b) In the absence of my ability to give directions regarding the use of such life-sustaining treatment, it is my intention that this directive shall be honored by my family and physician(s) as the final expression of my legal right to refuse medical or surgical treatment and I accept the consequences of such refusal. If another person is appointed to make these decisions for me, whether through a durable power of attorney or otherwise, I request that the person be guided by this directive and any other clear expressions of my desires.

(c) If I am diagnosed to be in a terminal condition or in a permanent unconscious condition (check one):

I DO want to have artificially provided nutrition and hydration.

I DO NOT want to have artificially provided nutrition and hydration.

(d) If I have been diagnosed as pregnant and that diagnosis is known to my physician, this directive shall have no force or effect during the course of my pregnancy.

(e) I understand the full import of this directive and I am emotionally and mentally capable to make the health care decisions contained in this directive.

(f) I understand that before I sign this directive, I can add to or delete from or otherwise change the wording of this directive and that I may add to or delete from this

directive at any time and that any changes shall be consistent with Washington state law or federal constitutional law to be legally valid.

(g) It is my wish that every part of this directive be fully implemented. If for any reason any part is held invalid it is my wish that the remainder of my directive be implemented.

Signed

City, County, and State of Residence

The declarer has been personally known to me and I believe him or her to be capable of making health care decisions.

(2) Prior to withholding or withdrawing life-sustaining treatment, the diagnosis of a terminal condition by the attending physician or the diagnosis of a permanent unconscious state by two physicians shall be entered in writing and made a permanent part of the patient's medical records.

(3) A directive executed in another political jurisdiction is valid to the extent permitted by Washington state law and federal constitutional law. [1992 c 98 § 3; 1979 c 112 § 4.]

70.122.040 Revocation of directive. (1) A directive may be revoked at any time by the declarer, without regard to declarer's mental state or competency, by any of the following methods:

(a) By being canceled, defaced, obliterated, burned, torn, or otherwise destroyed by the declarer or by some person in declarer's presence and by declarer's direction.

(b) By a written revocation of the declarer expressing declarer's intent to revoke, signed, and dated by the declarer. Such revocation shall become effective only upon communication to the attending physician by the declarer or by a person acting on behalf of the declarer. The attending physician shall record in the patient's medical record the time and date when said physician received notification of the written revocation.

(c) By a verbal expression by the declarer of declarer's intent to revoke the directive. Such revocation shall become effective only upon communication to the attending physician by the declarer or by a person acting on behalf of the declarer. The attending physician shall record in the patient's medical record the time, date, and place of the revocation and the time, date, and place, if different, of when said physician received notification of the revocation.

(2) There shall be no criminal or civil liability on the part of any person for failure to act upon a revocation made pursuant to this section unless that person has actual or constructive knowledge of the revocation.

(3) If the declarer becomes comatose or is rendered incapable of communicating with the attending physician, the directive shall remain in effect for the duration of the comatose condition or until such time as the declarer's condition renders declarer able to communicate with the attending physician. [1979 c 112 § 5.]

70.122.051 Liability of health care provider or facility. Any physician, health care provider acting under the direction of a physician, or health facility and its person-

nel who participate in good faith in the withholding or withdrawal of life-sustaining treatment from a qualified patient in accordance with the requirements of this chapter, shall be immune from legal liability, including civil, criminal, or professional conduct sanctions, unless otherwise negligent. [1992 c 98 § 5.]

70.122.060 Procedures by physician—Health care facility or personnel may refuse to participate. (1) Prior to the withholding or withdrawal of life-sustaining treatment from a qualified patient pursuant to the directive, the attending physician shall make a reasonable effort to determine that the directive complies with RCW 70.122.030 and, if the patient is capable of making health care decisions, that the directive and all steps proposed by the attending physician to be undertaken are currently in accord with the desires of the qualified patient.

(2) The attending physician or health facility shall inform a patient or patient's authorized representative of the existence of any policy or practice that would preclude the honoring of the patient's directive at the time the physician or facility becomes aware of the existence of such a directive. If the patient, after being informed of such policy or directive, chooses to retain the physician or facility, the physician or facility with the patient or the patient's representative shall prepare a written plan to be filed with the patient's directive that sets forth the physician's or facilities' intended actions should the patient's medical status change so that the directive would become operative. The physician or facility under this subsection has no obligation to honor the patient's directive if they have complied with the requirements of this subsection, including compliance with the written plan required under this subsection.

(3) The directive shall be conclusively presumed, unless revoked, to be the directions of the patient regarding the withholding or withdrawal of life-sustaining treatment. No physician, health facility, or health personnel acting in good faith with the directive or in accordance with the written plan in subsection (2) of this section shall be criminally or civilly liable for failing to effectuate the directive of the qualified patient pursuant to this subsection.

(4) No nurse, physician, or other health care practitioner may be required by law or contract in any circumstances to participate in the withholding or withdrawal of life-sustaining treatment if such person objects to so doing. No person may be discriminated against in employment or professional privileges because of the person's participation or refusal to participate in the withholding or withdrawal of life-sustaining treatment. [1992 c 98 § 6; 1979 c 112 § 7.]

70.122.070 Effects of carrying out directive—Insurance. (1) The withholding or withdrawal of life-sustaining treatment from a qualified patient pursuant to the patient's directive in accordance with the provisions of this chapter shall not, for any purpose, constitute a suicide or a homicide.

(2) The making of a directive pursuant to RCW 70.122.030 shall not restrict, inhibit, or impair in any manner the sale, procurement, or issuance of any policy of life insurance, nor shall it be deemed to modify the terms of an existing policy of life insurance. No policy of life insurance

shall be legally impaired or invalidated in any manner by the withholding or withdrawal of life-sustaining treatment from an insured qualified patient, notwithstanding any term of the policy to the contrary.

(3) No physician, health facility, or other health provider, and no health care service plan, insurer issuing disability insurance, self-insured employee welfare benefit plan, or nonprofit hospital service plan, shall require any person to execute a directive as a condition for being insured for, or receiving, health care services. [1992 c 98 § 7; 1979 c 112 § 8.]

70.122.080 Effects of carrying out directive on cause of death. The act of withholding or withdrawing life-sustaining treatment, when done pursuant to a directive described in RCW 70.122.030 and which results in the death of the declarer, shall not be construed to be an intervening force or to affect the chain of proximate cause between the conduct of anyone that placed the declarer in a terminal condition or a permanent unconscious condition and the death of the declarer. [1992 c 98 § 8; 1979 c 112 § 10.]

70.122.090 Criminal conduct—Penalties. Any person who willfully conceals, cancels, defaces, obliterates, or damages the directive of another without such declarer's consent shall be guilty of a gross misdemeanor. Any person who falsifies or forges the directive of another, or willfully conceals or withholds personal knowledge of a revocation as provided in RCW 70.122.040 with the intent to cause a withholding or withdrawal of life-sustaining treatment contrary to the wishes of the declarer, and thereby, because of any such act, directly causes life-sustaining treatment to be withheld or withdrawn and death to thereby be hastened, shall be subject to prosecution for murder in the first degree as defined in RCW 9A.32.030. [1992 c 98 § 9; 1979 c 112 § 9.]

70.122.100 Mercy killing or physician-assisted suicide not authorized. Nothing in this chapter shall be construed to condone, authorize, or approve mercy killing or physician-assisted suicide, or to permit any affirmative or deliberate act or omission to end life other than to permit the natural process of dying. [1992 c 98 § 10; 1979 c 112 § 11.]

70.122.110 Discharge so that patient may die at home. If a qualified patient capable of making health care decisions indicates that he or she wishes to die at home, the patient shall be discharged as soon as reasonably possible. The health care provider or facility has an obligation to explain the medical risks of an immediate discharge to the qualified patient. If the provider or facility complies with the obligation to explain the medical risks of an immediate discharge to a qualified patient, there shall be no civil or criminal liability for claims arising from such discharge. [1992 c 98 § 4.]

70.122.120 Directive's validity assumed. Any person or health facility may assume that a directive complies with this chapter and is valid. [1992 c 98 § 12.]

70.122.900 Short title. This act shall be known and may be cited as the "Natural Death Act". [1979 c 112 § 1.]

70.122.905 Severability—1979 c 112. If any provision of this act or the application thereof to any person or circumstances is held invalid, such invalidity shall not affect other provisions or applications of the act which can be given effect without the invalid provisions or application, and to this end the provisions of this act are severable. [1979 c 112 § 13.]

70.122.910 Construction. This chapter shall not be construed as providing the exclusive means by which individuals may make decisions regarding their health treatment, including but not limited to, the withholding or withdrawal of life-sustaining treatment, nor limiting the means provided by case law more expansive than chapter 98, Laws of 1992. [1992 c 98 § 11.]

70.122.915 Application—1992 c 98. A directive executed anytime before June 11, 1992, which generally complies with chapter 98, Laws of 1992 is effective under chapter 98, Laws of 1992. [1992 c 98 § 13.]

70.122.920 Severability—1992 c 98. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected. [1992 c 98 § 17.]

Domestic violence—Official response: Chapter 10.99 RCW.

Domestic violence prevention: Chapter 26.50 RCW.

Donations of surplus state property: RCW 43.19.1920.

Public disclosure: RCW 42.17.310.

70.123.010 Legislative findings. The legislature finds that domestic violence is an issue of growing concern at all levels of government and that there is a present and growing need to develop innovative strategies and services which will ameliorate and reduce the trauma of domestic violence. Research findings show that domestic violence constitutes a

significant percentage of homicides, aggravated assaults, and assaults and batteries in the United States. Domestic violence is a disruptive influence on personal and community life and is often interrelated with a number of other family problems and stresses. Shelters for victims of domestic violence are essential to provide protection to victims from further abuse and physical harm and to help the victim find long-range alternative living situations, if requested. Shelters provide safety, refuge, advocacy, and helping resources to victims who may not have access to such things if they remain in abusive situations.

The legislature therefore recognizes the need for the state-wide development and expansion of shelters for victims of domestic violence. [1979 ex.s. c 245 § 1.]

(6) "Community advocate" means a person employed by a local domestic violence program to provide ongoing assistance to victims of domestic violence in assessing safety needs, documenting the incidents and the extent of violence for possible use in the legal system, making appropriate social service referrals, and developing protocols and maintaining ongoing contacts necessary for local systems coordination.

70.123.030 Departmental duties and responsibilities. The department of social and health services, in consultation with the state department of health, and individuals or groups

having experience and knowledge of the problems of victims of domestic violence, shall:

(1) Establish minimum standards for shelters applying for grants from the department under this chapter. Classifications may be made dependent upon size, geographic location, and population needs;

(2) Receive grant applications for the development and establishment of shelters for victims of domestic violence;

(3) Distribute funds, within forty-five days after approval, to those shelters meeting departmental standards;

(4) Evaluate biennially each shelter receiving departmental funds for compliance with the established minimum standards; and

Adult dependent or developmentally disabled persons, abuse: Chapter 26.44 RCW.

Persons over sixty, abuse: Chapter 74.34 RCW.

70.124.010 Legislative findings. (1) The Washington state legislature finds and declares that a reporting system is needed to protect nursing home and state hospital patients from abuse. Instances of nonaccidental injury, neglect, death, sexual abuse, and cruelty to such patients have occurred, and in the instance where such a patient is deprived of his or her right to conditions of minimal health and safety, the state is justified in emergency intervention based upon verified information. Therefore the Washington state legislature hereby provides for the reporting of such cases to the appropriate public authorities.

(2) It is the intent of the legislature that: (a) As a result of such reports, protective services shall be made available in an effort to prevent further abuses, and to safeguard the general welfare of the patients; and (b) such reports shall be maintained and disseminated with strictest regard for the privacy of the subjects of such reports and so as to safeguard against arbitrary, malicious, or erroneous information or actions. [1981 c 174 § 1; 1979 ex.s. c 228 § 1.]

Victims of crimes

compensation, assistance: Chapter 7.68 RCW.
survivors, witnesses: Chapter 7.69 RCW.

70.125.010 Short title. This chapter may be known and cited as the Victims of Sexual Assault Act. [1979 ex.s. c 219 § 1.]

Severability—1979 ex.s. c 219: "If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected." [1979 ex.s. c 219 § 22.]

70.125.020 Legislative findings—Program objectives. (1) The legislature hereby finds and declares that:

- (a) Sexual assault has become one of the most rapidly increasing violent crimes over the last decade;

(b) There is a lack of essential information and data concerning sexual assault;

(c) There is a lack of adequate training for law enforcement officers concerning sexual assault, the victim, the offender, and the investigation;

(d) There is a lack of community awareness and knowledge concerning sexual assault and the physical and psychological impact upon the victim;

(e) There is a lack of public information concerning sexual assault prevention and personal self-protection;

(f) Because of the lack of information, training, and services, the victims of sexual assault are not receiving the assistance they require in dealing with the physical and psychological trauma of a sexual assault;

(g) The criminal justice system and health care system should maintain close contact and cooperation with each other and with community rape crisis centers to expedite the disposition of sexual assault cases; and

(h) Persons who are victims of sexual assault will benefit directly from increased public awareness and education, increased prosecutions, and a criminal justice system which treats them in a humane manner.

(2) Therefore, a state-wide sexual assault education, training, and consultation program should be developed. Such a state-wide program should seek to improve treatment of victims through information-gathering, education, training, community awareness programs, and by increasing the efficiency of the criminal justice and health care systems as they relate to sexual assault. Such a program should serve a consultative and facilitative function for organizations which provide services to victims and potential victims of sexual assault. [1979 ex.s. c 219 § 2.]
