(xii) Development and demonstration of alternative management technologies designed to carry out the hazardous waste management priorities of RCW 70.105.150;

(3) The following moneys shall be deposited into the local toxics control account: Those revenues which are raised by the tax imposed under RCW 82.21.030 and which are attributable to that portion of the rate equal to thirty-seven one-hundredths of one percent.

(a) Moneys deposited in the local toxics control account shall be used by the department for grants or loans to local governments for the following purposes in descending order of priority:

- (i) Remedial actions;
- (ii) Hazardous waste plans and programs under chapter 70.105 RCW;

- (v) Cleanup and disposal of hazardous substances from abandoned or derelict vessels, defined for the purposes of this section as vessels that have little or no value and either have no identified owner or have an identified owner lacking financial resources to clean up and dispose of the vessel, that pose a threat to human health or the environment.

(b) Funds for plans and programs shall be allocated consistent with the priorities and matching requirements established in chapters 70.105, 70.95C, 70.95I, and 70.95 RCW, except that any applicant that is a Puget Sound partner, as defined in RCW 90.71.010, along with any project that is referenced in the action agenda developed by the Puget Sound partnership under RCW 90.71.310, shall, except as conditioned by RCW 70.105D.120, receive priority for any available funding for any grant or funding programs or sources that use a competitive bidding process. During the 2007-2009 fiscal biennium, moneys in the account may also be used for grants to local governments to retrofit public sector diesel equipment and for storm water planning and implementation activities.

(c) To expedite cleanups throughout the state, the department shall partner with local communities and liable parties for cleanups. The department is authorized to use the following additional strategies in order to ensure a healthful environment for future generations:

- (i) The director may alter grant-matching requirements to create incentives for local governments to expedite cleanups when one of the following conditions exists:
 - (A) Funding would prevent or mitigate unfair economic hardship imposed by the clean-up liability;
 - (B) Funding would create new substantial economic development, public recreational, or habitat restoration opportunities that would not otherwise occur; or
 - (C) Funding would create an opportunity for acquisition and redevelopment of vacant, orphaned, or abandoned property under RCW 70.105D.040(5) that would not otherwise occur;
 - (ii) The use of outside contracts to conduct necessary studies;
 - (iii) The purchase of remedial action cost-cap insurance, when necessary to expedite multiparty clean-up efforts.
- (d) To facilitate and expedite cleanups using funds from the local toxics control account, during the 2009-2011 fiscal biennium the director may establish grant-funded accounts to hold and disperse local toxics control account funds and funds from local governments to be used for remedial actions.

(4) Except for unanticipated receipts under RCW 43.79.260 through 43.79.282, moneys in the state and local toxics control accounts may be spent only after appropriation by statute.

(5) Except during the ~~((2009-2011))~~ 2011-2013 fiscal biennium, one percent of the moneys deposited into the state and local toxics control accounts shall be allocated only for public participation grants to persons who may be adversely affected by a release or threatened release of a hazardous substance and to not-for-profit public interest organizations. The primary purpose of these grants is to facilitate the participation by persons and organizations in the investigation and remedying of releases or threatened releases of hazardous substances and to implement the state's solid and hazardous waste management

priorities. No grant may exceed sixty thousand dollars. Grants may be renewed annually. Moneys appropriated for public participation from either account which are not expended at the close of any biennium shall revert to the state toxics control account.

(6) No moneys deposited into either the state or local toxics control account may be used for solid waste incinerator feasibility studies, construction, maintenance, or operation, or, after January 1, 2010, for projects designed to address the restoration of Puget Sound, funded in a competitive grant process, that are in conflict with the action agenda developed by the Puget Sound partnership under RCW 90.71.310.

(7) The department shall adopt rules for grant or loan issuance and performance.

(8) During the ~~((2007-2009 and 2009-2011))~~ 2011-2013 fiscal ~~((biennia))~~ biennium, the legislature may transfer from the local toxics control account to ~~((either))~~ the state ~~((general fund or the oil spill prevention account, or both))~~ toxics control account such amounts as reflect excess fund balance in the account.

~~((9))~~ During the 2009-2011 fiscal biennium, the local toxics control account may also be used for a standby rescue tug at Neah Bay, local government shoreline update grants, private and public sector diesel equipment retrofit, and oil spill prevention, preparedness, and response activities.

(10) During the 2009-2011 fiscal biennium, the legislature may transfer from the state toxics control account to the state general fund such amounts as reflect the excess fund balance in the account.

(11) ~~((9))~~ During the 2011-2013 fiscal biennium, the local toxics control account may also be used for local government shoreline update grants and actions for reducing public exposure to toxic air pollution.

Sec. 923. RCW 74.48.090 and 2011 1st sp.s. c 7 s 21 are each amended to read as follows:

(1) The department and the department of health, in consultation with the Washington state health care association, and aging services of Washington, shall design a system of skilled nursing facility quality incentive payments. The design of the system shall be submitted to the relevant policy and fiscal committees of the legislature by ~~((December 15, 2011))~~ January 1, 2013. For the 2011-2013 fiscal biennial budget period, the department shall not implement a system of skilled nursing facility quality incentive payments designed pursuant to this section. The system shall be based upon the following principles:

(a) Evidence-based treatment and processes shall be used to improve health care outcomes for skilled nursing facility residents;

(b) Effective purchasing strategies to improve the quality of health care services should involve the use of common quality improvement measures, while recognizing that some measures may not be appropriate for application to facilities with high bariatric, behaviorally challenged, or rehabilitation populations;

(c) Quality measures chosen for the system should be consistent with the standards that have been developed by national quality improvement organizations, such as the national quality forum, the federal centers for medicare and medicaid services, or the federal agency for healthcare research and quality. New reporting burdens to skilled nursing facilities should be minimized by giving priority to measures skilled nursing facilities that are currently required to report to governmental agencies, such as the nursing home compare measures collected by the federal centers for medicare and medicaid services;

(d) Benchmarks for each quality improvement measure should be set at levels that are feasible for skilled nursing facilities to achieve, yet represent real improvements in quality and performance for a majority of skilled nursing facilities in Washington state; and

(e) Skilled nursing facilities performance and incentive payments should be designed in a manner such that all facilities in Washington are able to receive the incentive payments if performance is at or

above the benchmark score set in the system established under this section.

(2) Pursuant to an appropriation by the legislature, for state fiscal year (~~(2013)~~ 2014 and each fiscal year thereafter, assessments may be increased to support an additional one percent increase in skilled nursing facility reimbursement rates for facilities that meet the quality incentive benchmarks established under this section.

Sec. 924. RCW 76.04.610 and 2007 c 110 s 1 are each amended to read as follows:

(1)(a) If any owner of forest land within a forest protection zone neglects or fails to provide adequate fire protection as required by RCW 76.04.600, the department shall provide such protection and shall annually impose the following assessments on each parcel of such land: (i) A flat fee assessment of seventeen dollars and fifty cents; and (ii) twenty-seven cents on each acre exceeding fifty acres.

(b) Assessors may, at their option, collect the assessment on tax exempt lands. If the assessor elects not to collect the assessment, the department may bill the landowner directly.

(2) An owner who has paid assessments on two or more parcels, each containing fewer than fifty acres and each within the same county, may obtain the following refund:

(a) If all the parcels together contain less than fifty acres, then the refund is equal to the flat fee assessments paid, reduced by the total of (i) seventeen dollars and (ii) the total of the amounts retained by the county from such assessments under subsection (5) of this section.

(b) If all the parcels together contain fifty or more acres, then the refund is equal to the flat fee assessments paid, reduced by the total of (i) seventeen dollars, (ii) twenty-seven cents for each acre exceeding fifty acres, and (iii) the total of the amounts retained by the county from such assessments under subsection (5) of this section.

Applications for refunds shall be submitted to the department on a form prescribed by the department and in the same year in which the assessments were paid. The department may not provide refunds to applicants who do not provide verification that all assessments and property taxes on the property have been paid. Applications may be made by mail.

In addition to the procedures under this subsection, property owners with multiple parcels in a single county who qualify for a refund under this section may apply to the department on an application listing all the parcels owned in order to have the assessment computed on all parcels but billed to a single parcel. Property owners with the following number of parcels may apply to the department in the year indicated:

Year	Number of Parcels
2002	10 or more parcels
2003	8 or more parcels
2004 and thereafter	6 or more parcels

The department must compute the correct assessment and allocate one parcel in the county to use to collect the assessment. The county must then bill the forest fire protection assessment on that one allocated identified parcel. The landowner is responsible for notifying the department of any changes in parcel ownership.

(3) Beginning January 1, 1991, under the administration and at the discretion of the department up to two hundred thousand dollars per year of this assessment shall be used in support of those rural fire districts assisting the department in fire protection services on forest lands.

(4) For the purpose of this chapter, the department may divide the forest lands of the state, or any part thereof, into districts, for fire

protection and assessment purposes, may classify lands according to the character of timber prevailing, and the fire hazard existing, and place unprotected lands under the administration of the proper district. Amounts paid or contracted to be paid by the department for protection of forest lands from funds at its disposal shall be a lien upon the property protected, unless reimbursed by the owner within ten days after October 1st of the year in which they were incurred. The department shall be prepared to make statement thereof, upon request, to a forest owner whose own protection has not been previously approved as to its adequacy, the department shall report the same to the assessor of the county in which the property is situated. The assessor shall extend the amounts upon the tax rolls covering the property, and upon authorization from the department shall levy the forest protection assessment against the amounts of unimproved land as shown in each ownership on the county assessor's records. The assessor may then segregate on the records to provide that the improved land and improvements thereon carry the millage levy designed to support the rural fire protection districts as provided for in RCW 52.16.170.

(5) The amounts assessed shall be collected at the time, in the same manner, by the same procedure, and with the same penalties attached that general state and county taxes on the same property are collected, except that errors in assessments may be corrected at any time by the department certifying them to the treasurer of the county in which the land involved is situated. Assessments shall be known and designated as assessments of the year in which the amounts became reimbursable. Upon the collection of assessments the county treasurer shall place fifty cents of the total assessments paid on a parcel for fire protection into the county current expense fund to defray the costs of listing, billing, and collecting these assessments. The treasurer shall then transmit the balance to the department. Collections shall be applied against expenses incurred in carrying out the provisions of this section, including necessary and reasonable administrative costs incurred by the department in the enforcement of these provisions. The department may also expend sums collected from owners of forest lands or received from any other source for necessary administrative costs in connection with the enforcement of RCW 76.04.660.

(6) When land against which forest protection assessments are outstanding is acquired for delinquent taxes and sold at public auction, the state shall have a prior lien on the proceeds of sale over and above the amount necessary to satisfy the county's delinquent tax judgment. The county treasurer, in case the proceeds of sale exceed the amount of the delinquent tax judgment, shall immediately remit to the department the amount of the outstanding forest protection assessments.

(7) All nonfederal public bodies owning or administering forest land included in a forest protection zone shall pay the forest protection assessments provided in this section and the special forest fire suppression account assessments under RCW 76.04.630. The forest protection assessments and special forest fire suppression account assessments shall be payable by nonfederal public bodies from available funds within thirty days following receipt of the written notice from the department which is given after October 1st of the year in which the protection was provided. Unpaid assessments are not a lien against the nonfederal publicly owned land but shall constitute a debt by the nonfederal public body to the department and are subject to interest charges at the legal rate. During the 2011-2013 fiscal biennium, the forest fire protection assessment account may be appropriated to the joint legislative audit review committee for analysis and recommendations to improve the efficiency and effectiveness of the state's mechanisms for funding fire prevention and suppression activities.

(8) A public body, having failed to previously pay the forest protection assessments required of it by this section, which fails to suppress a fire on or originating from forest lands owned or

administered by it, is liable for the costs of suppression incurred by the department or its agent and is not entitled to reimbursement of costs incurred by the public body in the suppression activities.

(9) The department may adopt rules to implement this section, including, but not limited to, rules on levying and collecting forest protection assessments.

Sec. 925. RCW 77.12.201 and 2009 c 479 s 63 are each amended to read as follows:

The legislative authority of a county may elect, by giving written notice to the director and the treasurer prior to January 1st of any year, to obtain for the following year an amount in lieu of real property taxes on game lands as provided in RCW 77.12.203. Upon the election, the county shall keep a record of all fines, forfeitures, reimbursements, and costs assessed and collected, in whole or in part, under this title for violations of law or rules adopted pursuant to this title, with the exception of the 2011-2013 fiscal biennium, and shall monthly remit an amount equal to the amount collected to the state treasurer for deposit in the state general fund. The election shall continue until the department is notified differently prior to January 1st of any year.

Sec. 926. RCW 77.12.203 and 2005 c 303 s 14 are each amended to read as follows:

(1) Except as provided in subsection (5) of this section and notwithstanding RCW 84.36.010 or other statutes to the contrary, the director shall pay by April 30th of each year on game lands in each county, if requested by an election under RCW 77.12.201, an amount in lieu of real property taxes equal to that amount paid on similar parcels of open space land taxable under chapter 84.34 RCW or the greater of seventy cents per acre per year or the amount paid in 1984 plus an additional amount for control of noxious weeds equal to that which would be paid if such lands were privately owned. This amount shall not be assessed or paid on department buildings, structures, facilities, game farms, fish hatcheries, tidelands, or public fishing areas of less than one hundred acres.

(2) "Game lands," as used in this section and RCW 77.12.201, means those tracts one hundred acres or larger owned in fee by the department and used for wildlife habitat and public recreational purposes. All lands purchased for wildlife habitat, public access or recreation purposes with federal funds in the Snake River drainage basin shall be considered game lands regardless of acreage.

(3) This section shall not apply to lands transferred after April 23, 1990, to the department from other state agencies.

(4) The county shall distribute the amount received under this section in lieu of real property taxes to all property taxing districts except the state in appropriate tax code areas the same way it would distribute local property taxes from private property. The county shall distribute the amount received under this section for weed control to the appropriate weed district.

(5) For the 2011-2013 fiscal biennium, the director shall pay by April 30th of each year on game lands in each county, if requested by an election under RCW 77.12.201, an amount in lieu of real property taxes and shall be distributed as follows:

Sec. 927. RCW 77.95.090 and 2009 c 340 s 4 are each amended to read as follows:

The dedicated regional fisheries enhancement group account is created in the custody of the state treasurer. Only the commission or the commission's designee may authorize expenditures from the account. The account is subject to allotment procedures under chapter 43.88 RCW, but no appropriation is required for expenditures.

A portion of each recreational fishing license fee shall be used as provided in RCW 77.32.440. A surcharge of one hundred dollars shall be collected on each commercial salmon fishery license, each salmon delivery license, and each salmon charter license sold in the state. All receipts shall be placed in the regional fisheries enhancement group account and shall be used exclusively for regional fisheries enhancement group projects for the purposes of RCW 77.95.110. For the 2011-2013 fiscal biennium, the regional fisheries enhancement group account may be used for the purposes of RCW 77.95.070 and hatcheries. Except as provided in RCW 77.95.320, funds from the regional fisheries enhancement group account shall not serve as replacement funding for department operated salmon projects that exist on January 1, 1991.

All revenue from the department's sale of salmon carcasses and eggs that return to group facilities shall be deposited in the regional fisheries enhancement group account for use by the regional fisheries enhancement group that produced the surplus. Sec. 928. RCW 79.22.010 and 2003 c 334 s 205 are each amended to read as follows:

(1) The department has the power to accept gifts and bequests of money or other property, made in its own name, or made in the name of the state, to promote generally the interests of reforestation or for a specific named purpose in connection with reforestation, and to acquire in the name of the state, by purchase or gift, any lands which by reason of their location, topography, or geological formation, are chiefly valuable for purpose of developing and growing timber, and to designate such lands and any lands of the same character belonging to the state as state forest lands; and may acquire by gift or purchase any lands of the same character.

(2) The department has the power to seed, plant, and develop forests on any lands, purchased, acquired, or designated by it as state forest

lands, and shall furnish such care and fire protection for such lands as it shall deem advisable.

(3) Upon approval of the board of county commissioners of the county in which the land is located such gift or donation of land may be accepted subject to delinquent general taxes thereon, and upon such acceptance of such gift or donation subject to such taxes, the department shall record the deed of conveyance thereof and file with the assessor and treasurer of the county wherein such land is situated, written notice of acquisition of such land, and that all delinquent general taxes thereon, except state taxes, shall be canceled, and the county treasurer shall thereupon proceed to make such cancellation in the records of the county treasurer. ~~((Thereafter, such lands))~~

(4)(a) Lands acquired under this section shall be held in trust, protected, managed, and administered upon, and the proceeds therefrom disposed of, under RCW 79.22.040.

(b) During the 2011-2013 fiscal biennium, the legislature may appropriate moneys derived subject to this section from the forest development account consistent with RCW 79.64.100.

Sec. 929. RCW 79.22.040 and 2003 c 334 s 206 are each amended to read as follows:

(1) If any land acquired by a county through foreclosure of tax liens, or otherwise, comes within the classification of land described in RCW 79.22.010 and can be used as state forest land and if the department deems such land necessary for the purposes of this chapter, the county shall, upon demand by the department, deed such land to the department and the land shall become a part of the state forest lands.

(2) Such land shall be held in trust and administered and protected by the department in the same manner as other state forest lands.

(3)(a) In the event that the department sells logs using the contract harvesting process described in RCW 79.15.500 through 79.15.530, the moneys derived subject to this section are the net proceeds from the contract harvesting sale.

(b) During the 2011-2013 fiscal biennium, the legislature may appropriate moneys derived subject to this section from the forest development account consistent with RCW 79.64.100.

Sec. 930. RCW 79.64.040 and 2011 1st sp.s. c 50 s 966 and 2011 c 216 s 16 are each reenacted and amended to read as follows:

(1) The board shall determine the amount deemed necessary in order to achieve the purposes of this chapter and shall provide by rule for the deduction of this amount from the moneys received from all leases, sales, contracts, licenses, permits, easements, and rights-of-way issued by the department and affecting state lands, community forest trust lands, and aquatic lands, provided that no deduction shall be made from the proceeds from agricultural college lands.

(2) Moneys received as deposits from successful bidders, advance payments, and security under RCW 79.15.100, 79.15.080, and 79.11.150 prior to December 1, 1981, which have not been subjected to deduction under this section are not subject to deduction under this section.

(3) Except as otherwise provided in subsections (4) and (6) of this section, the deductions authorized under this section shall not exceed twenty-five percent of the moneys received by the department in connection with any one transaction pertaining to state lands and aquatic lands other than second-class tide and shore lands and the beds of navigable waters, and fifty percent of the moneys received by the department pertaining to second-class tide and shore lands and the beds of navigable waters.

(4) Deductions authorized under this section for transactions pertaining to community forest trust lands must be established at a level sufficient to defray over time the management costs for activities prescribed in a parcel's management plan adopted pursuant to RCW 79.155.080, and, if deemed appropriate by the board consistent with RCW 79.155.090, to reimburse the state and any local entities' eligible financial contributions for acquisition of the parcel.

(5) In the event that the department sells logs using the contract harvesting process described in RCW 79.15.500 through 79.15.530, the moneys received subject to this section are the net proceeds from the contract harvesting sale.

(6) During the ~~((2009-2011))~~ 2011-2013 fiscal biennium ~~((and fiscal year 2012))~~, the twenty-five percent limitation on deductions set in subsection (3) of this section may be increased up to thirty percent by the board.

Sec. 931. RCW 79.64.100 and 2003 c 334 s 219 are each amended to read as follows:

There is created a forest development account in the state treasury. The state treasurer shall keep an account of all sums deposited therein and expended or withdrawn therefrom. Any sums placed in the forest development account shall be pledged for the purpose of paying interest and principal on the bonds issued by the department under RCW 79.22.080 and 79.22.090 and the provisions of this chapter, and for the purchase of land for growing timber. Any bonds issued shall constitute a first and prior claim and lien against the account for the payment of principal and interest. No sums for the above purposes shall be withdrawn or paid out of the account except upon approval of the department.

Appropriations may be made by the legislature from the forest development account to the department for the purpose of carrying on the activities of the department on state forest lands, lands managed on a sustained yield basis as provided for in RCW 79.10.320, and for reimbursement of expenditures that have been made or may be made from the resource management cost account in the management of state forest lands. For the 2011-2013 fiscal biennium, moneys from the forest development account shall be distributed as directed in section 706 of this act to the beneficiaries of the revenues derived from state forest lands. During the 2011-2013 fiscal biennium, the legislature may appropriate moneys in the forest development account to support emergency fire suppression activities in a manner that, at a maximum, represents the proportion of land that the department manages in comparison to the total land the department conducts emergency fire suppression activities on.

Sec. 932. RCW 79.105.150 and 2011 2nd sp.s. c 9 s 911 are each amended to read as follows:

(1) After deduction for management costs as provided in RCW 79.64.040 and payments to towns under RCW 79.115.150(2), all moneys received by the state from the sale or lease of state-owned aquatic lands and from the sale of valuable material from state-owned aquatic lands shall be deposited in the aquatic lands enhancement account which is hereby created in the state treasury. After appropriation, these funds shall be used solely for aquatic lands enhancement projects; for the purchase, improvement, or protection of aquatic lands for public purposes; for providing and improving access to the lands; and for volunteer cooperative fish and game projects. During the ~~((2009-2011 and))~~ 2011-2013 fiscal ~~((biennia))~~ biennium, the aquatic lands enhancement account may also be used for scientific research as part of the adaptive management process and for developing a planning report for McNeil Island. During the ~~((2009-2011 and))~~ 2011-2013 fiscal ~~((biennia))~~ biennium, the legislature may transfer from the aquatic lands enhancement account to the state general fund such amounts as reflect excess fund balance of the account. During the 2011-2013 fiscal biennium, the aquatic lands enhancement account may be used to support the shellfish program, the ballast water program, parks, hatcheries, and the Puget Sound toxic sampling program at the department of fish and wildlife, and the knotweed program at the department of agriculture.

(2) In providing grants for aquatic lands enhancement projects, the recreation and conservation funding board shall:

(a) Require grant recipients to incorporate the environmental benefits of the project into their grant applications;

(b) Utilize the statement of environmental benefits, consideration, except as provided in RCW 79.105.610, of whether the applicant is a

Puget Sound partner, as defined in RCW 90.71.010, whether a project is referenced in the action agenda developed by the Puget Sound partnership under RCW 90.71.310, and except as otherwise provided in RCW 79.105.630, and effective one calendar year following the development and statewide availability of model evergreen community management plans and ordinances under RCW 35.105.050, whether the applicant is an entity that has been recognized, and what gradation of recognition was received, in the evergreen community recognition program created in RCW 35.105.030 in its prioritization and selection process; and

(c) Develop appropriate outcome-focused performance measures to be used both for management and performance assessment of the grants.

(3) To the extent possible, the department should coordinate its performance measure system with other natural resource-related agencies as defined in RCW 43.41.270.

(4) The department shall consult with affected interest groups in implementing this section.

(5) After January 1, 2010, any project designed to address the restoration of Puget Sound may be funded under this chapter only if the project is not in conflict with the action agenda developed by the Puget Sound partnership under RCW 90.71.310.

Sec. 936. 2010 c 23 s 205 (uncodified) is amended to read as follows:

(1) The legislature finds that this state's tax policy with respect to the taxation of transactions between affiliated entities and the income derived from such transactions (intercompany transactions) has motivated some taxpayers to engage in transactions designed solely or primarily to minimize the tax effects of intercompany transactions. The legislature further finds that some intercompany transactions result from taxpayers that are required to establish affiliated entities to comply with regulatory mandates and that transactions between such affiliates effectively increases the tax burden in this state on the affiliated group of entities.

(2) Therefore, as existing resources allow, the department of revenue is directed to conduct a review of the state's tax policy with respect to the taxation of intercompany transactions. The review must include the impacts of such transactions under the state's business and occupation tax and state and local sales and use taxes. The department may include other taxes in the review as it deems appropriate.

(3) In conducting the review, the department must examine how this state's tax policy compares to the tax policy of other states with respect to the taxation of intercompany transactions. The department's review must include an analysis of potential alternatives to the current policy of taxing intercompany transactions, including their estimated revenue impacts if practicable.

(4) In conducting this review, the department may seek input from members of the business community and others as it deems appropriate.

(5) The department must report its findings to the fiscal committees of the house of representatives and senate by December 1, 2010. However, if the department has not completed its review by December 1, 2010, the department must provide the fiscal committees of the legislature with a brief status report by December 1, 2010, and the final report by December 1, ~~((2011))~~ 2012.

"In order to achieve the reductions in appropriations provided in this section, the authority, in consultation with the Washington state hospital association, the Washington state medical association, and the Washington chapter of the American college of emergency physicians shall designate best practices and performance measures to reduce medically unnecessary emergency room visits of medicaid clients. The Washington state hospital association, the Washington state medical association, and the Washington chapter of the

American college of emergency physicians will work with the authority to promote these best practices. The best practices and performance measures shall consist of the following items:

(a) Adoption of a system to exchange patient information among emergency room departments on a regional or statewide basis;

(b) Active dissemination of patient educational materials produced by the Washington state hospital association, Washington state medical association, and the Washington chapter of the American college of emergency physicians that instruct patients on appropriate facilities for non-emergent health care needs;

(c) Designation of hospital personnel and emergency room physician personnel to receive and appropriately disseminate information on clients participating in the medicaid patient review and coordination program and to review monthly utilization reports on those clients provided by the authority;

(d) A process to assist the authority's patient review and coordination program clients with their care plans. The process must include substantial efforts by hospitals to schedule an appointment with the client's assigned primary care provider within seventy-two hours of the client's medically unnecessary emergency room visit when appropriate under the client's care plan;

(e) Implementation of narcotic guidelines that incorporate the Washington chapter of the American college of emergency physician guidelines;

(f) Physician enrollment in the state's prescription monitoring program, as long as the program is funded; and

(g) Designation of a hospital emergency department physician responsible for reviewing the state's medicaid utilization management feedback reports, which will include defined performance measures. The emergency department physician and hospital will have a process to take appropriate action in response to the information in the feedback reports if performance measures are not met. The authority must develop feedback reports that include timely emergency room utilization data such as visit rates, medically unnecessary visit rates (by hospital and by client), emergency department imaging utilization rates, and other measures as needed. The authority may utilize the Robert Bree collaborative for assistance related to this best practice.

The requirements for best practices for a critical access hospital should not include adoption of a system to exchange patient information if doing so would pose a financial burden, and should not include requirements related to the authority's patient review and coordination program if the volume of those patients seen at the critical access hospital are small.

Hospitals participating in this medicaid best practices program shall submit to the authority a declaration from executive level leadership indicating hospital adoption of and compliance with the best practices enumerated above. In the declaration, hospitals will affirm that they have in place written policies, procedures, or guidelines to implement these best practices and are willing to share them upon request. The declaration must also give consent for the authority to disclose feedback reports and performance measures on its website. The authority shall submit a list of declaring hospitals to the relevant policy and fiscal committees of the legislature by July 15, 2012.

If the authority does not receive by July 1, 2012, declarations from hospitals representing at least seventy-five percent of emergency room visits by medicaid clients in fiscal year 2010, the authority may implement a policy of nonpayment of medically unnecessary emergency room visits, with appropriate client and clinical safeguards such as exemptions and expedited prior authorization. The authority shall by January 15, 2013, perform a preliminary fiscal analysis of trends in implementing the best practices in this subsection, focusing on outlier hospitals with high rates of unnecessary visits by Medicaid clients, high emergency room visit rates for patient review and coordination clients, low rates of completion of treatment plans for patient review and coordination clients assigned to the hospital, and

high rates of prescribed long-acting opiates. In cooperation with the leadership of the hospital, medical, and emergency physician associations, additional efforts shall be focused on assisting those outlier hospitals and providers to achieve more substantial savings. The authority by January 15, 2013, will report to the legislature about whether assumed savings based on preliminary trend and forecasted data are on target and if additional best practices or other actions need to be implemented.

If necessary, pursuant to RCW 34.05.350(1)(c), the authority may employ emergency rulemaking to achieve the reductions assumed in the appropriations under this section.

Nothing in this subsection shall in any way impact the authority's ability to adopt and implement policies pertaining to the patient review and coordination program."

TWENTY NINTH DAY

House Chamber, Olympia, Monday, April 9, 2012

The House was called to order at 10:00 a.m. by the Speaker (Representative Moeller presiding). The Clerk called the roll and a quorum was present.

The flags were escorted to the rostrum by a Sergeant at Arms Color Guard, Pages Brandon Vroman and Garrett Cooper. The Speaker (Representative Moeller presiding) led the Chamber in the Pledge of Allegiance. The prayer was offered by Representative Green, 28th District, Washington.

Reading of the Journal of the previous day was dispensed with and it was ordered to stand approved.

POINT OF PERSONAL PRIVILEGE

Representative Hargrove: "Thank you Mr. Speaker, I just wanted to take a couple of moments today to remind this body that today is the National Former Prisoner of War Day. In particular this day is the 70th birthday of the American ex-POW, ex-prisoners of war. Since WWI about 142,000 Americans have been prisoners of war from our country at various places around the world. Today just about 15,000 of them remain alive, that's from WWII, the Korean Conflict and Vietnam and actually twenty three from our most recent conflict.

I just want to make this a little more personal. I'd like to tell just a little bit about one of those prisoners of war, his name is Les Strup. He was in the Korean Conflict, often called the forgotten war. This gentleman, Les Strup, was not yet twenty years old when he found himself on a patrol in Korea and they realized they were surrounded by the enemy troops as he set about scuttling their equipment, destroying it so it would not be taken captive. He says that the bushes came alive as the enemy troops came down and took him captive. In the following 1,000 days as he was a prisoner of war, they were moved from camp to camp during the night only so they would be up all night walking fifteen or twenty miles. Of course they were ill equipped for the weather and so on as they were being moved around. He tells me that he saw fellow prisoners of war executed along the way when they could not keep up on these trying marches.

In particular there came a time when he and some of his fellow prisoners of war had come up with a plan for escaping the prisoner of war camp, and it was discovered. He was then taken to the edge of a ravine, had a gun pointed at his head, and told he was going to die. At that moment he did not realize that he was going to survive; he was going to come back to the United States, get married, have five children, and the youngest daughter of that family would at some point marry a nice young Air Force academy cadet, who would sixty years after that time when he was facing that terrible situation, sixty years after that he would be standing here today giving this speech to you.

Now as you can imagine when he came back to the United States there were some serious things to deal with, all of the emotional and psychological trauma that he had had to endure that he would have to overcome. Also of course his family had to put up with understanding those things that he was going through. Also there were physical demands too, when he left Korea he was

6'2" and he weighed 90 pounds, so there was a significant toll on his body. He for decades wore glasses that were kind of odd because they had to correct for his double vision that he faced there.

Another example I can think of the toll of that war is that I know for a fact, for decades that I've known him, that I have never seen a grain of rice in his house or on his plate at a restaurant. So anyway Mr. Speaker I just wanted to bring that personal example of one of the prisoners of war that are true heroes of our country. They sacrifice so much for us and we will do well to remember them today. Thank you Mr. Speaker."

BARBARA BAKER, Chief Clerk

THIRTIETH DAY

House Chamber, Olympia, Tuesday, April 10, 2012

The House was called to order at 10:00 a.m. by the Speaker (Representative Moeller presiding). The Clerk called the roll and a quorum was present.

The flags were escorted to the rostrum by a Sergeant at Arms Color Guard, Pages Allen Hayward and Lief Espedal. The Speaker (Representative Moeller presiding) invited Representative Alexander to share a point of personal privilege and lead the Chamber in the Pledge of Allegiance.

POINT OF PERSONAL PRIVILEGE

Representative Alexander: "Thank you Mr. Speaker. In the hopefully last day of session there will be a number of people that have been with me and this body for a long time that may not be here, including one of the gentlemen that just brought the flag up (Allen Hayward). Every morning we say the pledge of allegiance and then we have the opportunity to listen to some of the most powerful and influential prayers that I have ever heard. But this morning I'd like to take a minute and recognize the first thing we do in the morning, the pledge of allegiance. I'd like to relate to you a little story about the importance of what this pledge of allegiance means.

This is a story that was related by Senator John McCain; "As you may know I spent 5 ½ years as a prisoner of war during the Vietnam War. In the early years of our imprisonment the North Vietnamese Army kept us in solitary confinement, or two or three to a cell. In 1971 the North Vietnamese moved us from these conditions of isolation into a large room with as many as thirty to forty men to a room. This was, as you can imagine, a wonderful change and was a direct result of millions of Americans on the behalf of a few hundred POWs ten thousand miles from home.

One of the men that moved into my room was a young man named Mike Christian. Mike came from a small town near Selma, Alabama. He didn't wear a pair of shoes until he was thirteen years old. At seventeen, he enlisted in the U.S. Navy. He later earned a commission. He became a Naval flying officer and was shot down and captured in 1967. Mike had a keen and deep appreciation for the opportunities of this country and our military to provide for people who want to work and want to succeed.

As part of the change in treatment, the Vietnamese allowed some prisoners to receive packages from home. In some of these packages were handkerchiefs, scarves and other items of clothing. Mike got himself a pie bamboo needle. Over a period of a couple of months, he created an American flag and sewed it on the inside of his shirt.

Every afternoon, before we had a bowl of soup, we would hang Mike's shirt on the wall of our cell, and say the Pledge of Allegiance. I know the Pledge of Allegiance may not seem the most important part of our day now, but I can assure you that in that stark prison cell it was indeed the most important and meaningful event.

One day, the Vietnamese searched our cell as they did periodically and discovered Mike's shirt with the flag sewn inside, and removed it. That evening they returned, opened the door of

the cell, and for the benefit of all of us, beat Mike Christian severely for the next couple of hours.

Then they opened the door of the cell and threw him back inside. We cleaned him up as well as we could. The cell in which we lived had a concrete slab in the middle on which we slept. Four naked light bulbs hung in each corner of the room.

As I said we tried to clean up Mike as well as we could. After the excitement died down I looked into the corner of the room and sitting there beneath that dim light bulb, with a piece of red cloth, another shirt and his bamboo needle, was my friend, Mike Christian. Sitting there, with his eyes almost shut from the beating he had received, making another American flag. He was not making the flag because it made Mike Christian feel better. He was making that flag because he knew how important it was for us to be able to pledge our allegiance to our flag and country."

So the next time you say the pledge of allegiance you must not forget the sacrifice and courage that thousands of Americans have made to build our nation and promote freedom around the world. You must please remember our duty, our honor and our country, would you please join me in the pledge of allegiance."

The prayer was offered by Representative Smith, 20th District, Washington.

Reading of the Journal of the previous day was dispensed with and it was ordered to stand approved.

"**NEW SECTION. Sec. 1.** A new section is added to chapter 43.88 RCW to read as follows:

(1) The legislature must adopt a four-year balanced budget as follows:

(a) Beginning in the 2013-2015 fiscal biennium, the legislature shall enact a balanced omnibus operating appropriations bill that leaves, in total, a positive ending fund balance in the general fund and related funds.

(b) Beginning in the 2013-2015 fiscal biennium, the projected maintenance level of the omnibus appropriations bill enacted by the legislature shall not exceed the available fiscal resources for the next ensuing fiscal biennium.

(2) For purposes of this section:

(a) "Available fiscal resources" means the beginning general fund and related fund balances and any fiscal resources estimated for the general fund and related funds, adjusted for enacted legislation, and with forecasted revenues adjusted to the greater of (i) the official

general fund and related funds revenue forecast for the ensuing biennium, or (ii) the official general fund and related funds forecast for the second fiscal year of the current fiscal biennium, increased by 4.5 percent for each fiscal year of the ensuing biennium;

(b) "Projected maintenance level" means estimated appropriations necessary to maintain the continuing costs of program and service levels either funded in that appropriations bill or mandated by other state or federal law, and the amount of any general fund moneys projected to be transferred to the budget stabilization account pursuant to Article VII, section 12 of the state Constitution, but does not include in the 2013-2015 and 2015-2017 fiscal biennia the costs related to the enhanced funding under the new definition of basic education as established in chapter 548, Laws of 2009, and affirmed by the decision in *Mathew McCleary et al., v. (c) "Related funds," as used in this section, means the Washington opportunity pathways account and the education legacy trust account.

(3) Subsection (1)(a) and (b) of this section does not apply to an appropriations bill that makes net reductions in general fund and related funds appropriations and is enacted between July 1st and February 15th of any fiscal year.

(4) Subsection (1)(b) of this section does not apply in a fiscal biennium in which money is appropriated from the budget stabilization account.

THIRD READING

MESSAGE FROM THE SENATE

April 4, 2012

Mr. Speaker:

The Senate has passed HOUSE BILL NO. 2824 with the following amendment:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. (1) Legislation enacted in 2009 (chapter 548, Laws of 2009) and in 2010 (chapter 236, Laws of 2010) revised the definition of the program of basic education, established new methods for distributing state funds to school districts to support this program of basic education, and provided an outline of specific enhancements to the program of basic education that are required to be implemented by 2018. In order to meet the required deadlines to implement full funding of the enhancements, the joint task force in section 2 of this act is created to develop and recommend options for a permanent funding mechanism.

(2) Initiative Measure No. 728 (chapter 3, Laws of 2001) dedicated a portion of state revenues to fund class size reductions and other education improvements. Because class size reductions and

similar improvements are incorporated in the reforms that were enacted in chapter 548, Laws of 2009, and chapter 236, Laws of 2010, and that are being incrementally implemented through 2018, Initiative Measure No. 728 is repealed in order to make these dedicated revenues available for implementation of basic education reform and to facilitate the funding reform recommendations of the joint task force in section 2 of this act.

(3) Nothing in this act alters or amends the elements included in the school district levy base set forth in RCW 84.52.0531.

NEW SECTION. Sec. 2. (1) The joint task force on education funding is established. The task force shall make recommendations on how the legislature can meet the requirements outlined in chapter 548, Laws of 2009 and chapter 236, Laws of 2010. In particular, the task force shall develop a proposal for a reliable and dependable funding mechanism to support basic education programs. At a minimum, the proposed funding mechanism must support full implementation of the programmatic enhancements required in chapter 548, Laws of 2009, and chapter 236, Laws of 2010, including full-day kindergarten; reduced K-3 class size; increased allocations for maintenance, supplies, and operating costs; and a new pupil transportation formula. The task force shall also consider the specific recommendations for the transitional bilingual instructional program from the quality education council to the legislature dated January 6, 2012. It shall provide recommendations for: Implementation of a scaled funding formula based on levels of English language proficiency, a supplemental formula based on students exiting the program due to demonstrated English language proficiency, and implementing legislation.

(2)(a) The joint task force on education funding shall consist of the following members:

(i) Eight legislators, with two members from each of the two largest caucuses of the senate appointed by the president of the senate and two members from each of the two largest caucuses of the house of representatives appointed by the speaker of the house of representatives; and

(ii) Three individuals, to be appointed by the governor.

(b) The task force may recommend multiple options, but shall recommend one preferred alternative, including an outline of necessary implementing legislation. Should the task force recommend an option to fully fund the program of basic education with no new revenues, the task force must identify what areas already in the budget would be eliminated or reduced.

(c) The task force shall be staffed by the house of representatives office of program research, senate committee services, and the office of financial management, with assistance from the Washington state institute for public policy and other agencies as necessary.

(3) The task force shall submit a final report to the legislature by December 31, 2012.

Sec. 3. RCW 28A.150.380 and 2009 c 548 s 110 and 2009 c 479 s 16 are each reenacted and amended to read as follows:

(1) The state legislature shall, at each regular session in an odd-numbered year, appropriate for the current use of the common schools such amounts as needed for state support to school districts during the ensuing biennium for the program of basic education under RCW 28A.150.200.

(2) In addition to those state funds provided to school districts for basic education, the legislature may appropriate funds to be distributed to school districts for other factors and for other special programs to enhance or enrich the program of basic education.

~~((3) The state legislature shall also, at each regular session in an odd-numbered year, appropriate from the general fund and education construction fund for the purposes of and in accordance with the provisions of the student achievement act during the ensuing biennium.))~~

Sec. 4. RCW 28A.600.405 and 2007 c 355 s 4 are each amended to read as follows:

(1) For purposes of this section and RCW 28B.50.534, "eligible student" means a student who has completed all state and local high school graduation requirements except the certificate of academic achievement under RCW 28A.655.061 or the certificate of individual achievement under RCW 28A.155.045, who is less than age twenty-one as of September 1st of the academic year the student enrolls at a community and technical college under this section, and who meets the following criteria:

(a) Receives a level 2 (basic) score on the reading and writing content areas of the high school (~~Washington assessment of student learning~~) statewide student assessment;

(c) Has participated in assessment remediation; and

(d) Receives a recommendation to enroll in courses or a program of study made available under RCW 28B.50.534 from his or her high school principal.

(2) An eligible student may enroll in courses or a program of study made available by a community or technical college participating in the pilot program created under RCW 28B.50.534 for the purpose of obtaining a high school diploma.

(3) For eligible students in courses or programs delivered directly by the community or technical college participating in the pilot program under RCW 28B.50.534 and only for enrollment in courses that lead to a high school diploma, the superintendent of public instruction shall transmit to the colleges participating in the pilot program an amount per each full-time equivalent college student at statewide uniform rates. The amount shall be the sum of (a), (b), and ~~(c) and (d))~~ of this subsection, as applicable.

(4) The superintendent may adopt rules establishing enrollment reporting, recordkeeping, and accounting requirements necessary to ensure accountability for the use of basic education, learning assistance, and transitional bilingual program funds under this section for the pilot program created under RCW 28B.50.534.

(5) All school districts in the geographic area of the two community and technical colleges selected pursuant to section 8, chapter 355, Laws of 2007 to participate in the pilot program shall provide information about the high school completion option under RCW 28B.50.534 to students in grades ten, eleven, and twelve and the parents or guardians of those students.

Sec. 5. RCW 43.135.045 and 2011 1st sp.s. c 50 s 950 are each amended to read as follows:

The education construction fund is hereby created in the state treasury.

(1) Funds may be appropriated from the education construction fund exclusively for common school construction or higher education

construction. During the 2007-2009 fiscal biennium, funds may also be used for higher education facilities preservation and maintenance. During the 2009-2011 and 2011-2013 fiscal biennia, the legislature may transfer from the education construction fund to the state general fund such amounts as reflect the excess fund balance of the fund.

(2) Funds may be appropriated for any other purpose only if approved by a two-thirds vote of each house of the legislature and if approved by a vote of the people at the next general election. An appropriation approved by the people under this subsection shall result in an adjustment to the state expenditure limit only for the fiscal period for which the appropriation is made and shall not affect any subsequent fiscal period.

(3) ~~(Funds for the student achievement program in RCW 28A.505.210 and 28A.505.220 shall be appropriated to the superintendent of public instruction strictly for distribution to school districts to meet the provisions set out in the student achievement act. Allocations shall be made on an equal per full-time equivalent student basis to each school district.~~

—(4)) After July 1, 2010, the state treasurer shall transfer one hundred two million dollars from the general fund to the education construction fund by June 30th of each year.

Sec. 6. RCW 67.70.340 and 2010 1st sp.s. c 27 s 4 are each amended to read as follows:

(1) The legislature recognizes that creating a shared game lottery could result in less revenue being raised by the existing state lottery ticket sales. The legislature further recognizes that the fund most impacted by this potential event is the Washington opportunity pathways account. Therefore, it is the intent of the legislature to use some of the proceeds from the shared game lottery to make up the difference that the potential state lottery revenue loss would have on the Washington opportunity pathways account. The legislature further intends to use some of the proceeds from the shared game lottery to fund programs and services related to problem and pathological gambling.

(2) The Washington opportunity pathways account is expected to receive one hundred two million dollars annually from state lottery games other than the shared game lottery. For fiscal year 2011 and thereafter, if the amount of lottery revenues earmarked for the Washington opportunity pathways account is less than one hundred two million dollars, the commission, after making the transfer required under subsection (3) of this section, must transfer sufficient moneys from revenues derived from the shared game lottery into the Washington opportunity pathways account to bring the total revenue up to one hundred two million dollars.

(3)(a) The commission shall transfer, from revenue derived from the shared game lottery, to the problem gambling account created in RCW 43.20A.892, an amount equal to the percentage specified in (b) of this subsection of net receipts. For purposes of this subsection, "net receipts" means the difference between (i) revenue received from the sale of lottery tickets or shares and revenue received from the sale of shared game lottery tickets or shares; and (ii) the sum of payments made to winners.

(b) In fiscal year 2006, the percentage to be transferred to the problem gambling account is one-tenth of one percent. In fiscal year 2007 and subsequent fiscal years, the percentage to be transferred to the problem gambling account is thirteen one-hundredths of one percent.

(4) The commission shall transfer the remaining net revenues, if any, derived from the shared game lottery "Powerball" authorized in RCW 67.70.044(1) after the transfers pursuant to this section into the state general fund for ~~(the student achievement program under RCW 28A.505.220))~~ support for the program of basic education under RCW 28A.150.200.

(5) The remaining net revenues, if any, in the shared game lottery account after the transfers pursuant to this section shall be deposited into the Washington opportunity pathways account.

Sec. 7. RCW 83.100.230 and 2010 1st sp.s. c 37 s 953 are each amended to read as follows:

The education legacy trust account is created in the state treasury. Money in the account may be spent only after appropriation. Expenditures from the account may be used only for ~~((deposit into the student achievement fund))~~ support of the common schools, and for expanding access to higher education through funding for new enrollments and financial aid, and other educational improvement efforts. ~~((During the 2009-2011 fiscal biennium, moneys in the account may also be transferred into the state general fund.))~~

Sec. 8. RCW 84.52.0531 and 2010 c 237 s 1 and 2010 c 99 s 11 are each reenacted and amended to read as follows:

The maximum dollar amount which may be levied by or for any school district for maintenance and operation support under the provisions of RCW 84.52.053 shall be determined as follows:

(1) For excess levies for collection in calendar year 1997, the maximum dollar amount shall be calculated pursuant to the laws and rules in effect in November 1996.

(2) For excess levies for collection in calendar year 1998 and thereafter, the maximum dollar amount shall be the sum of (a) plus or minus (b), (c), and (d) of this subsection minus (e) of this subsection:

(b) For districts in a high/nonhigh relationship, the high school district's maximum levy amount shall be reduced and the nonhigh school district's maximum levy amount shall be increased by an amount equal to the estimated amount of the nonhigh payment due to the high school district under RCW 28A.545.030(3) and 28A.545.050 for the school year commencing the year of the levy;

(c) Except for nonhigh districts under (d) of this subsection, for districts in an interdistrict cooperative agreement, the nonresident school district's maximum levy amount shall be reduced and the resident school district's maximum levy amount shall be increased by an amount equal to the per pupil basic education allocation included in the nonresident district's levy base under subsection (3) of this section multiplied by:

(i) The number of full-time equivalent students served from the resident district in the prior school year; multiplied by:

(ii) The serving district's maximum levy percentage determined under subsection (6) of this section; increased by:

(iii) The percent increase per full-time equivalent student as stated in the state basic education appropriation section of the biennial budget between the prior school year and the current school year divided by fifty-five percent;

(e) The district's maximum levy amount shall be reduced by the maximum amount of state matching funds for which the district is eligible under RCW 28A.500.010.

(3) For excess levies for collection in calendar year 2005 and thereafter, a district's levy base shall be the sum of allocations in (a) through (c) of this subsection received by the district for the prior school year and the amounts determined under subsection (4) of this section, including allocations for compensation increases, plus the sum of such allocations multiplied by the percent increase per full time equivalent student as stated in the state basic education appropriation section of the biennial budget between the prior school year and the current school year and divided by fifty-five percent. A district's levy base shall not include local school district property tax levies or other local revenues, or state and federal allocations not identified in (a) through (c) of this subsection.

(a) The district's basic education allocation as determined pursuant to RCW 28A.150.250, 28A.150.260, and 28A.150.350;

(b) State and federal categorical allocations for the following programs:

(i) Pupil transportation;

(ii) Special education;

(iii) Education of highly capable students;

(iv) Compensatory education, including but not limited to learning assistance, migrant education, Indian education, refugee programs, and bilingual education;

(v) Food services; and

(vi) Statewide block grant programs; and

(a)(i) For levy collections in calendar year 2010, the difference between the allocation the district would have received in the current school year had RCW 84.52.068 not been amended by chapter 19, Laws of 2003 1st sp. sess. and the allocation the district received in the current school year pursuant to RCW 28A.505.220;

(ii) For levy collections in calendar years 2011 through 2017, ~~((the difference between))~~ the allocation rate the district would have received in the prior school year using the Initiative 728 rate ~~((and the allocation rate the district received in the prior school year pursuant to RCW 28A.505.220))~~ multiplied by the full-time equivalent student enrollment used to calculate the Initiative 728 allocation for the prior school year; and

(b) The difference between the allocations the district would have received the prior school year using the Initiative 732 base and the allocations the district actually received the prior school year pursuant to RCW 28A.400.205.

(5) For levy collections in calendar years 2011 through 2017, in addition to the allocations included under subsections (3)(a) through (c) and (4)(a) and (b) of this section, a district's levy base shall also include the difference between an allocation of fifty-three and two-tenths certificated instructional staff units per thousand full-time equivalent students in grades kindergarten through four enrolled in the prior school year and the allocation of certificated instructional staff units per thousand full-time equivalent students in grades kindergarten through four that the district actually received in the prior school year, except that the levy base for a school district whose allocation in the 2009-10 school year was less than fifty-three and two-tenths certificated instructional staff units per thousand full-time equivalent students in grades kindergarten through four shall include the difference between the allocation the district actually received in the 2009-10 school year and the allocation the district actually received in the prior school year.

If levy reduction funds are dependent on formula factors which would not be finalized until after the start of the current school year, the superintendent of public instruction shall estimate the total amount of levy reduction funds by using prior school year data in place of current school year data. Levy reduction funds shall not include moneys received by school districts from cities or counties.

The legislature finds that significant opportunities exist to modify programs that provide for management and protection of the state's natural resources, including the state's forests, fish, and wildlife, in order to streamline regulatory processes and achieve program efficiencies while at the same time increasing the sustainability of program funding and maintaining current levels of natural resource protection. The legislature intends to update provisions relating to natural resource management and regulatory programs including the hydraulic project approval program, forest

practices act, and state environmental policy act, in order to achieve these opportunities.

A permit for streambank stabilization projects to protect farm and agricultural land as defined in RCW 84.34.020 remains in effect without need for periodic renewal if the problem causing the need for the streambank stabilization occurs on an annual or more frequent basis. The permittee must notify the appropriate agency before commencing the construction or other work within the area covered by the permit.

~~((6))~~ (10) The department may, after consultation with the permittee, modify a permit due to changed conditions. A modification under this subsection is not subject to the fees provided under section 103 of this act. The modification is appealable as provided in subsection ~~((4))~~ (8) of this section. For a hydraulic project~~(s)~~ that diverts water for agricultural irrigation or stock watering purposes, ~~((e))~~ when the hydraulic project or other work is associated with streambank stabilization to protect farm and agricultural land as defined in RCW 84.34.020, the burden is on the

department to show that changed conditions warrant the modification in order to protect fish life.

~~((7))~~ (11) A permittee may request modification of a permit due to changed conditions. The request must be processed within forty-five calendar days of receipt of the written request and payment of applicable fees under section 103 of this act. A decision by the department is appealable as provided in subsection ~~((4))~~ (8) of this section. For a hydraulic project~~(s)~~ that diverts water for agricultural irrigation or stock watering purposes, ~~((e))~~ when the hydraulic project or other work is associated with streambank stabilization to protect farm and agricultural land as defined in RCW 84.34.020, the burden is on the permittee to show that changed conditions warrant the requested modification and that such a modification will not impair fish life.

~~((8))~~ (12)(a) The department, the county legislative authority, or the governor may declare and continue an emergency. If the county legislative authority declares an emergency under this subsection, it shall immediately notify the department. A declared state of emergency by the governor under RCW 43.06.010 shall constitute a declaration under this subsection.

(b) The department, through its authorized representatives, shall issue immediately, upon request, ~~((oral))~~ verbal approval for a stream crossing, or work to remove any obstructions, repair existing structures, restore streambanks, protect fish life, or protect property threatened by the stream or a change in the stream flow without the necessity of obtaining a written permit prior to commencing work. Conditions of the emergency ~~((oral))~~ verbal permit must be ~~((established by the department and))~~ reduced to writing within thirty days and complied with as provided for in this chapter.

(c) The department may not require the provisions of the state environmental policy act, chapter 43.21C RCW, to be met as a condition of issuing a permit under this subsection.

~~((9))~~ (d) The department may not charge a person requesting an emergency permit any of the fees authorized by section 103 of this act until after the emergency permit is issued and reduced to writing.

~~(13)~~ All state and local agencies with authority under this chapter to issue permits or other authorizations in connection with emergency water withdrawals and facilities authorized under RCW 43.83B.410 shall expedite the processing of such permits or authorizations in keeping with the emergency nature of such requests and shall provide a decision to the applicant within fifteen calendar days of the date of application.

~~((10))~~ (14) The department or the county legislative authority may determine an imminent danger exists. The county legislative authority shall notify the department, in writing, if it determines that an imminent danger exists. In cases of imminent danger, the department shall issue an expedited written permit, upon request, for work to remove any obstructions, repair existing structures, restore banks, protect fish resources, or protect property. Expedited permit requests require a complete written application as provided in subsection (2) of this section and must be issued within fifteen calendar days of the receipt of a complete written application. Approval of an expedited permit is valid for up to sixty days from the date of issuance. The department may not require the provisions of the state environmental policy act, chapter 43.21C RCW, to be met as a condition of issuing a permit under this subsection.

~~((11))~~ (15)(a) For any property, except for property located on a marine shoreline, that has experienced at least two consecutive years of flooding or erosion that has damaged or has threatened to damage a major structure, water supply system, septic system, or access to any road or highway, the county legislative authority may determine that a chronic danger exists. The county legislative authority shall notify the department, in writing, when it determines that a chronic danger exists. In cases of chronic danger, the department shall issue a permit, upon request, for work necessary to abate the chronic danger by removing any obstructions, repairing existing structures, restoring

banks, restoring road or highway access, protecting fish resources, or protecting property. Permit requests must be made and processed in accordance with subsections (2) and ~~((3))~~ (7) of this section.

(b) Any projects proposed to address a chronic danger identified under (a) of this subsection that satisfies the project description identified in RCW 77.55.181(1)(a)(ii) are not subject to the provisions of the state environmental policy act, chapter 43.21C RCW. However, the project is subject to the review process established in RCW 77.55.181(3) as if it were a fish habitat improvement project.

~~((2))~~ (16) The department may issue an expedited written permit in those instances where normal permit processing would result in significant hardship for the applicant or unacceptable damage to the environment. Expedited permit requests require a complete written application as provided in subsection (2) of this section and must be issued within fifteen calendar days of the receipt of a complete written application. Approval of an expedited permit is valid for up to sixty days from the date of issuance. The department may not require the provisions of the state environmental policy act, chapter 43.21C RCW, to be met as a condition of issuing a permit under this subsection.

NEW SECTION. Sec. 103. A new section is added to chapter 77.55 RCW to read as follows:

(1) The department shall charge an application fee of one hundred fifty dollars for a hydraulic project permit or permit modification issued under RCW 77.55.021 where the project is located at or below the ordinary high water line. The application fee established under this subsection may not be charged after June 30, 2017.

(2) The following hydraulic projects are exempt from all fees listed under this section:

(a) Hydraulic projects approved under applicant-funded contracts with the department that pay for the costs of processing those projects;

(b) If sections 201 through 203 of this act are enacted into law by June 30, 2012, forest practices hydraulic projects;

(c) Pamphlet hydraulic projects;

(d) Mineral prospecting and mining activities; and

(e) Hydraulic projects occurring on farm and agricultural land, as that term is defined in RCW 84.34.020.

(3) All fees collected under this section must be deposited in the hydraulic project approval account created in section 104 of this act.

(4) The fee provisions contained in this section are prospective only. The department of fish and wildlife may not charge fees for hydraulic project permits issued under this title prior to the effective date of this section.

(5) This section expires June 30, 2017.

NEW SECTION. Sec. 104. A new section is added to chapter 77.55 RCW to read as follows:

(1) The hydraulic project approval account is created in the state treasury. All receipts from application fees for hydraulic project approval applications collected under section 103 of this act must be deposited into the account.

(2) Except for unanticipated receipts under RCW 43.79.260 through 43.79.282, moneys in the hydraulic project approval account may be spent only after appropriation.

(3) Expenditures from the hydraulic project approval account may be used only to fund department activities relating to implementing and operating the hydraulic project approval program.

Sec. 105. RCW 77.55.151 and 2005 c 146 s 502 are each amended to read as follows:

(1) ~~((For a marina or marine terminal in existence on June 6, 1996, or a marina or marine terminal that has received a permit for its initial construction, a renewable, five-year permit shall be issued, upon request, for regular maintenance activities of the marina or marine terminal.~~

~~—(2) Upon construction of a new marina or marine terminal that has received a permit, a renewable, five-year permit shall be issued,~~

~~upon request, for regular maintenance activities of the marina or marine terminal.~~

~~—(3) For the purposes of this section, regular maintenance activities are only those activities necessary to restore the marina or marine terminal to the conditions approved in the initial permit. These activities may include, but are not limited to, dredging, piling replacement, and float replacement.~~

~~—(4)) Upon application under RCW 77.55.021, the department shall issue a renewable, five-year permit to a marina or marine terminal for its regular maintenance activities identified in the application.~~

(2) For the purposes of this section, regular maintenance activities may include, but are not limited to:

(a) Maintenance or repair of a boat ramp, launch, or float within the existing footprint;

(b) Maintenance or repair of an existing overwater structure within the existing footprint;

(c) Maintenance or repair of boat lifts or railway launches;

(e) Dredging of less than fifty cubic yards;

(f) Maintenance or repair of shoreline armoring or bank protection;

(g) Maintenance or repair of wetland, riparian, or estuarine habitat; and

(h) Maintenance or repair of an existing outfall.

(3) The five-year permit must include a requirement that a fourteen-day notice be given to the department before regular maintenance activities begin.

(4) A permit under this section is subject to the application fee provided in section 103 of this act.

Sec. 106. RCW 77.55.231 and 2005 c 146 s 601 are each amended to read as follows:

(1) Conditions imposed upon a permit must be reasonably related to the project. The permit conditions must ensure that the project provides proper protection for fish life, but the department may not impose conditions that attempt to optimize conditions for fish life that are out of proportion to the impact of the proposed project.

(2) The permit must contain provisions allowing for minor modifications to the plans and specifications without requiring reissuance of the permit.

(3) The permit must contain provisions that allow for minor modifications to the required work timing without requiring the reissuance of the permit. "Minor modifications to the required work timing" means a minor deviation from the timing window set forth in the permit when there are no spawning or incubating fish present within the vicinity of the project.

NEW SECTION. Sec. 107. A new section is added to chapter 77.55 RCW to read as follows:

The department shall prepare and distribute technical and educational information to the general public to assist the public in complying with the requirements of this chapter, including the changes resulting from this act.

NEW SECTION. Sec. 108. A new section is added to chapter 77.55 RCW to read as follows:

The department shall develop a system to provide local governments, affected tribes, and other interested parties with access to hydraulic project approval applications.

NEW SECTION. Sec. 109. The director of fish and wildlife shall adopt any rules required or deemed necessary to implement RCW 77.55.011, 77.55.021, 77.55.151, 77.55.231, and sections 103, 104, 107, and 108 of this act.

PART TWO**Hydraulic Project****Approval and Forest Practices Integration**

NEW SECTION. Sec. 201. A new section is added to chapter 77.55 RCW to read as follows:

(1) The requirements of this chapter do not apply to any forest practices hydraulic project, or to any activities that are associated with such a project, upon incorporation of fish protection standards adopted under this chapter into the forest practices rules and approval of technical guidance as required under RCW 76.09.040, at which time these projects are regulated under chapter 76.09 RCW.

(2) The department must continue to conduct regulatory and enforcement activities under this chapter for forest practices hydraulic projects until the forest practices board incorporates fish protection standards adopted under this chapter into the forest practices rules and approves technical guidance as required under RCW 76.09.040.

(3) By December 31, 2013, the department shall adopt rules establishing the procedures for the concurrence review process consistent with section 202 of this act. The concurrence review process must allow the department up to thirty days to review forest practices hydraulic projects meeting the criteria under section 202(2) (a) and (b) of this act for consistency with fish protection standards.

(4) The department shall notify the department of natural resources prior to beginning a rule-making process that may affect activities regulated under chapter 76.09 RCW.

(5) The department shall act consistent with appendix M of the forest and fish report, as the term "forests and fish report" is defined in RCW 76.09.020, when modifying fish protection rules that may affect activities regulated under chapter 76.09 RCW.

(6) The department may review and provide comments on any forest practices application. The department shall review, and either verify that the review has occurred or comment on, forest practices applications that include a forest practices hydraulic project involving fish bearing waters or shorelines of the state, as that term is defined in RCW 90.58.030. Prior to commenting and whenever reasonably practicable, the department shall communicate with the applicant regarding the substance of the project.

(7) The department shall participate in effectiveness monitoring for forest practices hydraulic projects through its role in the review processes provided under WAC 222-08-160 as it existed on the effective date of this section.

NEW SECTION. Sec. 202. A new section is added to chapter 76.09 RCW to read as follows:

(1) The department may request information and technical assistance from the department of fish and wildlife regarding any forest practices hydraulic project regulated under this chapter.

(2) A concurrence review process is established for certain forest practices hydraulic projects, as follow:

(a) After receiving an application under RCW 76.09.050 that includes a forest practices hydraulic project involving one or more water crossing structures meeting the criteria of (b) of this subsection, the department shall provide all necessary information provided by the applicant to the department of fish and wildlife for concurrence review consistent with section 201(3) of this act. The required information must be transmitted by the department to the department of fish and wildlife as soon as practicable following the receipt of a complete application.

(b) The concurrence review process applies only to:

(i) Culvert installation or replacement, and repair at or below the bankfull width, as that term is defined in WAC 222-16-010 on the effective date of this section, in fish bearing rivers and streams that exceed five percent gradient;

(ii) Bridge construction or replacement, and repair at or below the bankfull width, of fish bearing unconfined streams; or

(iii) Fill within the flood level - 100 year, as that term is defined in WAC 222-16-010, as it existed on the effective date of this section, of fish bearing unconfined streams.

Sec. 203. RCW 76.09.040 and 2010 c 188 s 4 are each amended to read as follows:

(1)(a) Where necessary to accomplish the purposes and policies stated in RCW 76.09.010, and to implement the provisions of this chapter, the board shall adopt forest practices rules pursuant to chapter 34.05 RCW and in accordance with the procedures enumerated in this section that:

(i) Establish minimum standards for forest practices;

(ii) Provide procedures for the voluntary development of resource management plans which may be adopted as an alternative to the minimum standards in (a)(i) of this subsection if the plan is consistent with the purposes and policies stated in RCW 76.09.010 and the plan meets or exceeds the objectives of the minimum standards;

(iii) Set forth necessary administrative provisions;

(iv) Establish procedures for the collection and administration of forest practice fees as set forth by this chapter; and

(v) Allow for the development of watershed analyses.

(b) Forest practices rules pertaining to water quality protection shall be adopted by the board after reaching agreement with the director of the department of ecology or the director's designee on the board with respect ~~((hereto))~~ to these rules. All other forest practices rules shall be adopted by the board.

(c) Forest practices rules shall be administered and enforced by either the department or the local governmental entity as provided in this chapter. Such rules shall be adopted and administered so as to give consideration to all purposes and policies set forth in RCW 76.09.010.

(2)(a) The board shall prepare proposed forest practices rules consistent with this section and chapter 34.05 RCW. In addition to any forest practices rules relating to water quality protection proposed by the board, the department of ecology may submit to the board proposed forest practices rules relating to water quality protection.

~~(b)(i) ((Prior to initiating the rule making process, the proposed rules shall be submitted for review and comments to the department of fish and wildlife and to the counties of the state. After receipt of the proposed forest practices rules, the department of fish and wildlife and the counties of the state shall have thirty days in which to review and submit comments to the board, and to the department of ecology with respect to its proposed rules relating to water quality protection.~~

~~—(ii) After the expiration of the thirty day period,))~~ The board ((and the department of ecology)) shall ((jointly)) hold one or more hearings on the proposed rules pursuant to chapter 34.05 RCW. Any county representative may propose specific forest practices rules relating to problems existing within the county at the hearings.

~~((iii))~~ (ii) The board may adopt and the department of ecology may approve such proposals if they find the proposals are consistent with the purposes and policies of this chapter.

(3)(a) The board shall incorporate into the forest practices rules those fish protection standards in the rules adopted under chapter 77.55 RCW, as the rules existed on the effective date of this section, that are applicable to activities regulated under the forest practices rules. If fish protection standards are incorporated by reference, the board shall minimize administrative processes by utilizing the exception from the administrative procedures controlling significant legislative rules under RCW 34.05.328(5)(b)(iii) for the incorporation of rules adopted by other state agencies.

(b) Thereafter, the board shall incorporate into the forest practices rules any changes to those fish protection standards in the rules adopted under chapter 77.55 RCW that are: (i) Adopted consistent with section 201 of this act; and (ii) applicable to activities regulated under the forest practices rules. If fish protection standards are

incorporated by reference, the board shall minimize administrative processes by utilizing the exception from the administrative procedures controlling significant legislative rules under RCW 34.05.328(5)(b)(iii) for the incorporation of rules adopted by other state agencies.

(c) The board shall establish and maintain technical guidance in the forest practices board manual, as provided under WAC 222-12-090 as it existed on the effective date of this section, to assist with implementation of the standards incorporated into the forest practices rules under this section. The guidance must include best management practices and standard techniques to ensure fish protection.

(d) The board must complete the requirements of (a) of this subsection and establish initial technical guidance under (c) of this subsection by December 31, 2013.

(4)(a) The board shall establish by rule a program for the acquisition of riparian open space and critical habitat for threatened or endangered species as designated by the board. Acquisition must be a conservation easement. Lands eligible for acquisition are forest lands within unconfined channel migration zones or forest lands containing critical habitat for threatened or endangered species as designated by the board. Once acquired, these lands may be held and managed by the department, transferred to another state agency, transferred to an appropriate local government agency, or transferred to a private nonprofit nature conservancy corporation, as defined in RCW 64.04.130, in fee or transfer of management obligation. The board shall adopt rules governing the acquisition by the state or donation to the state of such interest in lands including the right of refusal if the lands are subject to unacceptable liabilities. The rules shall include definitions of qualifying lands, priorities for acquisition, and provide for the opportunity to transfer such lands with limited warranties and with a description of boundaries that does not require full surveys where the cost of securing the surveys would be unreasonable in relation to the value of the lands conveyed. The rules shall provide for the management of the lands for ecological protection or fisheries enhancement. For the purposes of conservation easements entered into under this section, the following apply:

(i) For conveyances of a conservation easement in which the landowner conveys an interest in the trees only, the compensation must include the timber value component, as determined by the cruised volume of any timber located within the channel migration zone or critical habitat for threatened or endangered species as designated by the board, multiplied by the appropriate quality code stumpage value for timber of the same species shown on the appropriate table used for timber harvest excise tax purposes under RCW 84.33.091;

(ii) For conveyances of a conservation easement in which the landowner conveys interests in both land and trees, the compensation must include the timber value component in (a)(i) of this subsection plus such portion of the land value component as determined just and equitable by the department. The land value component must be the acreage of qualifying channel migration zone or critical habitat for threatened or endangered species as determined by the board, to be conveyed, multiplied by the average per acre value of all commercial forest land in western Washington or the average for eastern Washington, whichever average is applicable to the qualifying lands. The department must determine the western and eastern Washington averages based on the land value tables established by RCW 84.33.140 and revised annually by the department of revenue.

(b) Subject to appropriations sufficient to cover the cost of such an acquisition program and the related costs of administering the program, the department must establish a conservation easement in land that an owner tenders for purchase; provided that such lands have been taxed as forest lands and are located within an unconfined channel migration zone or contain critical habitat for threatened or endangered species as designated by the board. Lands acquired under this section shall become riparian or habitat open space. These

acquisitions shall not be deemed to trigger the compensating tax of chapters 84.33 and 84.34 RCW.

(c) Instead of offering to sell interests in qualifying lands, owners may elect to donate the interests to the state.

(d) Any acquired interest in qualifying lands by the state under this section shall be managed as riparian open space or critical habitat.

NEW SECTION. Sec. 204. A new section is added to chapter 77.55 RCW to read as follows:

(1) The department and the department of natural resources shall enter into and maintain a memorandum of agreement between the two agencies that describes how to implement integration of hydraulic project approvals into forest practices applications consistent with this act.

(2) The initial memorandum of agreement required under subsection (1) of this section between the two departments must be executed by December 31, 2012. The memorandum of agreement may be amended as agreed to by the two departments.

(3) The department and the department of natural resources shall enter into and maintain an interagency contract to ensure implementation of this act and the memorandum of agreement between the two agencies required under subsection (1) of this section. The contract must include funding provisions for the department's review of forest practices hydraulic projects.

Sec. 205. RCW 76.09.050 and 2011 c 207 s 1 are each amended to read as follows:

(1) The board shall establish by rule which forest practices shall be included within each of the following classes:

Class I: Minimal or specific forest practices that have no direct potential for damaging a public resource and that may be conducted without submitting an application or a notification except that when the regulating authority is transferred to a local governmental entity, those Class I forest practices that involve timber harvesting or road construction within "urban growth areas," designated pursuant to chapter 36.70A RCW, are processed as Class IV forest practices, but are not subject to environmental review under chapter 43.21C RCW;

Class II: Forest practices which have a less than ordinary potential for damaging a public resource that may be conducted without submitting an application and may begin five calendar days, or such lesser time as the department may determine, after written notification by the operator, in the manner, content, and form as prescribed by the department, is received by the department. However, the work may not begin until all forest practice fees required under RCW 76.09.065 have been received by the department. Class II shall not include forest practices:

(a) On forest lands that are being converted to another use;

~~(b) ((Which require approvals under the provisions of the hydraulics act, RCW 77.55.021;~~

~~—(e))~~ Within "shorelines of the state" as defined in RCW 90.58.030;

~~((d))~~ (c) Excluded from Class II by the board; or

~~((e))~~ (d) Including timber harvesting or road construction within "urban growth areas," designated pursuant to chapter 36.70A RCW, which are Class IV;

Class III: Forest practices other than those contained in Class I, II, or IV. A Class III application must be approved or disapproved by the department according to the following timelines; however, the applicant may not begin work on the forest practice until all forest practice fees required under RCW 76.09.065 have been received by the department:

(a) Within thirty calendar days from the date the department receives the application (However, the applicant may not begin work on that forest practice until all forest practice fees required under RCW 76.09.065 have been received by the department) if the application is not subject to concurrence review by the department of fish and wildlife under section 202 of this act; and

(b) Within thirty days of the completion of the concurrence

review by the department of fish and wildlife if the application is subject to concurrence review by the department of fish and wildlife under section 202 of this act;

Class IV: Forest practices other than those contained in Class I or II:

- (a) On forest lands that are being converted to another use;
- (b) On lands which, pursuant to RCW 76.09.070 as now or hereafter amended, are not to be reforested because of the likelihood of future conversion to urban development;
- (c) That involve timber harvesting or road construction on forest lands that are contained within "urban growth areas," designated pursuant to chapter 36.70A RCW, except where the forest landowner provides:
 - (i) A written statement of intent signed by the forest landowner not to convert to a use other than commercial forest product operations for ten years, accompanied by either a written forest management plan acceptable to the department or documentation that the land is enrolled under the provisions of chapter 84.33 or 84.34 RCW; or
 - (ii) A conversion option harvest plan approved by the local governmental entity and submitted to the department as part of the application; and/or
 - (d) Which have a potential for a substantial impact on the environment and therefore require an evaluation by the department as to whether or not a detailed statement must be prepared pursuant to the state environmental policy act, chapter 43.21C RCW. Such evaluation shall be made within ~~((ten days from the date the department receives the application: PROVIDED, That))~~ the timelines established in RCW 43.21C.037; however, nothing herein shall be construed to prevent any local or regional governmental entity from determining that a detailed statement must be prepared for an action pursuant to a Class IV forest practice taken by that governmental entity concerning the land on which forest practices will be conducted. Unless the application is subject to concurrence review by the department of fish and wildlife under section 202 of this act, a Class IV application must be approved or disapproved by the department within thirty calendar days from the date the department receives the application ~~((unless the department determines that a detailed statement must be made, in which case the application must be approved or disapproved by the department within sixty calendar days from the date the department receives the application, unless the commissioner of public lands, through the promulgation of a formal order, determines that the process cannot be completed within such period)).~~ If a Class IV application is subject to concurrence review by the department of fish and wildlife under section 202 of this act, then the application must be approved or disapproved by the department within thirty calendar days from the completion of the concurrence review by the department of fish and wildlife. However, the department may extend the timelines applicable to the approval or disapproval of the application an additional thirty calendar days if the department determines that a detailed statement must be made, unless the commissioner of public lands, through the promulgation of a formal order, determines that the process cannot be completed within such a period. However, the applicant may not begin work on that forest practice until all forest practice fees required under RCW 76.09.065 have been received by the department.

Forest practices under Classes I, II, and III are exempt from the requirements for preparation of a detailed statement under the state environmental policy act.

(2) Except for those forest practices being regulated by local governmental entities as provided elsewhere in this chapter, no Class II, Class III, or Class IV forest practice shall be commenced or continued after January 1, 1975, unless the department has received a notification with regard to a Class II forest practice or approved an application with regard to a Class III or Class IV forest practice

containing all information required by RCW 76.09.060 as now or hereafter amended. However, in the event forest practices regulations necessary for the scheduled implementation of this chapter and RCW 90.48.420 have not been adopted in time to meet such schedules, the department shall have the authority to regulate forest practices and approve applications on such terms and conditions consistent with this chapter and RCW 90.48.420 and the purposes and policies of RCW 76.09.010 until applicable forest practices regulations are in effect.

(3) Except for those forest practices being regulated by local governmental entities as provided elsewhere in this chapter, if a notification or application is delivered in person to the department by the operator or the operator's agent, the department shall immediately provide a dated receipt thereof. In all other cases, the department shall immediately mail a dated receipt to the operator.

(4) Except for those forest practices being regulated by local governmental entities as provided elsewhere in this chapter, forest practices shall be conducted in accordance with the forest practices regulations, orders and directives as authorized by this chapter or the forest practices regulations, and the terms and conditions of any approved applications.

(5) Except for those forest practices being regulated by local governmental entities as provided elsewhere in this chapter, the department of natural resources shall notify the applicant in writing of either its approval of the application or its disapproval of the application and the specific manner in which the application fails to comply with the provisions of this section or with the forest practices regulations. Except as provided otherwise in this section, if the department fails to either approve or disapprove an application or any portion thereof within the applicable time limit, the application shall be deemed approved and the operation may be commenced: ~~PROVIDED, That this provision shall not apply to applications which are neither approved nor disapproved pursuant to the provisions of subsection (7) of this section: PROVIDED, FURTHER, That if seasonal field conditions prevent the department from being able to properly evaluate the application, the department may issue an approval conditional upon further review within sixty days(= PROVIDED, FURTHER, That the department shall have until April 1, 1975, to approve or disapprove an application involving forest practices allowed to continue to April 1, 1975, under the provisions of subsection (2) of this section)).~~ Upon receipt of any notification or any satisfactorily completed application the department shall in any event no later than two business days after such receipt transmit a copy to the departments of ecology and fish and wildlife, and to the county, city, or town in whose jurisdiction the forest practice is to be commenced. Any comments by such agencies shall be directed to the department of natural resources.

(6) For those forest practices regulated by the board and the department, if the county, city, or town believes that an application is inconsistent with this chapter, the forest practices regulations, or any local authority consistent with RCW 76.09.240 as now or hereafter amended, it may so notify the department and the applicant, specifying its objections.

(7) For those forest practices regulated by the board and the department, the department shall not approve portions of applications to which a county, city, or town objects if:

(a) The department receives written notice from the county, city, or town of such objections within fourteen business days from the time of transmittal of the application to the county, city, or town, or one day before the department acts on the application, whichever is later; and

(b) The objections relate to forest lands that are being converted to another use.

The department shall either disapprove those portions of such application or appeal the county, city, or town objections to the appeals board. If the objections related to (b) of this subsection are

based on local authority consistent with RCW 76.09.240 as now or hereafter amended, the department shall disapprove the application until such time as the county, city, or town consents to its approval or such disapproval is reversed on appeal. The applicant shall be a party to all department appeals of county, city, or town objections. Unless the county, city, or town either consents or has waived its rights under this subsection, the department shall not approve portions of an application affecting such lands until the minimum time for county, city, or town objections has expired.

(8) For those forest practices regulated by the board and the department, in addition to any rights under the above paragraph, the county, city, or town may appeal any department approval of an application with respect to any lands within its jurisdiction. The appeals board may suspend the department's approval in whole or in part pending such appeal where there exists potential for immediate and material damage to a public resource.

(9) For those forest practices regulated by the board and the department, appeals under this section shall be made to the appeals board in the manner and time provided in RCW 76.09.205. In such appeals there shall be no presumption of correctness of either the county, city, or town or the department position.

(10) For those forest practices regulated by the board and the department, the department shall, within four business days notify the county, city, or town of all notifications, approvals, and disapprovals of an application affecting lands within the county, city, or town, except to the extent the county, city, or town has waived its right to such notice.

(11) For those forest practices regulated by the board and the department, a county, city, or town may waive in whole or in part its rights under this section, and may withdraw or modify any such waiver, at any time by written notice to the department.

(12) Notwithstanding subsections (2) through (5) of this section, forest practices applications or notifications are not required for exotic insect and disease control operations conducted in accordance with RCW 76.09.060(8) where eradication can reasonably be expected.

Sec. 206. RCW 76.09.060 and 2007 c 480 s 11 and 2007 c 106 s 1 are each reenacted and amended to read as follows:

(1) The department shall prescribe the form and contents of the notification and application. The forest practices rules shall specify by whom and under what conditions the notification and application shall be signed or otherwise certified as acceptable. Activities conducted by the department or a contractor under the direction of the department under the provisions of RCW 76.04.660, shall be exempt from the landowner signature requirement on any forest practices application required to be filed. The application or notification shall be delivered in person to the department, sent by first-class mail to the department or electronically filed in a form defined by the department. The form for electronic filing shall be readily convertible to a paper copy, which shall be available to the public pursuant to chapter 42.56 RCW. The information required may include, but is not limited to:

(a) Name and address of the forest landowner, timber owner, and operator;

(b) Description of the proposed forest practice or practices to be conducted;

(c) Legal description and tax parcel identification numbers of the land on which the forest practices are to be conducted;

(d) Planimetric and topographic maps showing location and size of all lakes and streams and other public waters in and immediately adjacent to the operating area and showing all existing and proposed roads and major tractor roads;

(e) Description of the silvicultural, harvesting, or other forest practice methods to be used, including the type of equipment to be used and materials to be applied;

(f) For an application or notification submitted on or after the effective date of section 202 of this act that includes a forest practices

hydraulic project, plans and specifications for the forest practices hydraulic project to ensure the proper protection of fish life;

~~(g)~~ Proposed plan for reforestation and for any revegetation necessary to reduce erosion potential from roadsides and yarding roads, as required by the forest practices rules;

~~((g))~~ ~~(h)~~ Soil, geological, and hydrological data with respect to forest practices;

~~((h))~~ ~~(i)~~ The expected dates of commencement and completion of all forest practices specified in the application;

~~((i))~~ ~~(j)~~ Provisions for continuing maintenance of roads and other construction or other measures necessary to afford protection to public resources;

~~((j))~~ ~~(k)~~ An affirmation that the statements contained in the notification or application are true; and

~~((k))~~ ~~(l)~~ All necessary application or notification fees.

(2) Long range plans may be submitted to the department for review and consultation.

(3) The application for a forest practice or the notification of a forest practice is subject to the reforestation requirement of RCW 76.09.070.

(a) If the application states that any land will be or is intended to be converted:

(i) The reforestation requirements of this chapter and of the forest practices rules shall not apply if the land is in fact converted unless applicable alternatives or limitations are provided in forest practices rules issued under RCW 76.09.070;

(ii) Completion of such forest practice operations shall be deemed conversion of the lands to another use for purposes of chapters 84.33 and 84.34 RCW unless the conversion is to a use permitted under a current use tax agreement permitted under chapter 84.34 RCW;

(iii) The forest practices described in the application are subject to applicable county, city, town, and regional governmental authority permitted under RCW 76.09.240 as well as the forest practices rules.

(b) Except as provided elsewhere in this section, if the landowner harvests without an approved application or notification or the landowner does not state that any land covered by the application or notification will be or is intended to be converted, and the department or the county, city, town, or regional governmental entity becomes aware of conversion activities to a use other than commercial timber operations, as that term is defined in RCW 76.09.020, then the department shall send to the department of ecology and the appropriate county, city, town, and regional governmental entities the following documents:

(i) A notice of a conversion to nonforestry use;

(ii) A copy of the applicable forest practices application or notification, if any; and

(iii) Copies of any applicable outstanding final orders or decisions issued by the department related to the forest practices application or notification.

(c) Failure to comply with the reforestation requirements contained in any final order or decision shall constitute a removal of designation under the provisions of RCW 84.33.140, and a change of use under the provisions of RCW 84.34.080, and, if applicable, shall subject such lands to the payments and/or penalties resulting from such removals or changes.

(d) Conversion to a use other than commercial forest product operations within six years after approval of the forest practices application or notification without the consent of the county, city, or town shall constitute a violation of each of the county, municipal city, town, and regional authorities to which the forest practice operations would have been subject if the application had stated an intent to convert.

(e) Land that is the subject of a notice of conversion to a nonforestry use produced by the department and sent to the department of ecology and a local government under this subsection

is subject to the development prohibition and conditions provided in RCW 76.09.460.

(f) Landowners who have not stated an intent to convert the land covered by an application or notification and who decide to convert the land to a nonforestry use within six years of receiving an approved application or notification must do so in a manner consistent with RCW 76.09.470.

(g) The application or notification must include a statement requiring an acknowledgment by the forest landowner of his or her intent with respect to conversion and acknowledging that he or she is familiar with the effects of this subsection.

(4) Whenever an approved application authorizes a forest practice which, because of soil condition, proximity to a water course or other unusual factor, has a potential for causing material damage to a public resource, as determined by the department, the applicant shall, when requested on the approved application, notify the department two days before the commencement of actual operations.

(5) Before the operator commences any forest practice in a manner or to an extent significantly different from that described in a previously approved application or notification, there shall be submitted to the department a new application or notification form in the manner set forth in this section.

(6)(a) Except as provided in RCW 76.09.350(4), the notification to or the approval given by the department to an application to conduct a forest practice shall be effective for a term of ~~((two))~~ three years from the date of approval or notification ~~((and shall not be renewed unless a new application is filed and approved or a new notification has been filed))~~.

(b) A notification or application may be renewed for an additional three-year term by the filing and approval of a notification or application, as applicable, prior to the expiration of the original application or notification. A renewal application or notification is subject to the forest practices rules in effect at the time the renewal application or notification is filed. Nothing in this section precludes the applicant from applying for a new application or notification after the renewal period has lapsed.

(c) At the option of the applicant, an application or notification may be submitted to cover a single forest practice or a number of forest practices within reasonable geographic or political boundaries as specified by the department. An application or notification that covers more than one forest practice may have an effective term of more than ~~((two))~~ three years.

(d) The board shall adopt rules that establish standards and procedures for approving an application or notification that has an effective term of more than ~~((two))~~ three years. Such rules shall include extended time periods for application or notification approval or disapproval. ~~((On an approved application with a term of more than two years, the applicant shall inform the department before commencing operations))~~ The department may require the applicant to provide advance notice before commencing operations on an approved application or notification.

(7) Notwithstanding any other provision of this section, no prior application or notification shall be required for any emergency forest practice necessitated by fire, flood, windstorm, earthquake, or other emergency as defined by the board, but the operator shall submit an application or notification, whichever is applicable, to the department within forty-eight hours after commencement of such practice or as required by local regulations.

(8) Forest practices applications or notifications are not required for forest practices conducted to control exotic forest insect or disease outbreaks, when conducted by or under the direction of the department of agriculture in carrying out an order of the governor or director of the department of agriculture to implement pest control measures as authorized under chapter 17.24 RCW, and are not required when conducted by or under the direction of the department in carrying out emergency measures under a forest health emergency

declaration by the commissioner of public lands as provided in RCW 76.06.130.

(a) For the purposes of this subsection, exotic forest insect or disease has the same meaning as defined in RCW 76.06.020.

(b) In order to minimize adverse impacts to public resources, control measures must be based on integrated pest management, as defined in RCW 17.15.010, and must follow forest practices rules relating to road construction and maintenance, timber harvest, and forest chemicals, to the extent possible without compromising control objectives.

(c) Agencies conducting or directing control efforts must provide advance notice to the appropriate regulatory staff of the department of the operations that would be subject to exemption from forest practices application or notification requirements.

(d) When the appropriate regulatory staff of the department are notified under (c) of this subsection, they must consult with the landowner, interested agencies, and affected tribes, and assist the notifying agencies in the development of integrated pest management plans that comply with forest practices rules as required under (b) of this subsection.

(e) Nothing under this subsection relieves agencies conducting or directing control efforts from requirements of the federal clean water act as administered by the department of ecology under RCW 90.48.260.

(f) Forest lands where trees have been cut as part of an exotic forest insect or disease control effort under this subsection are subject to reforestation requirements under RCW 76.09.070.

(g) The exemption from obtaining approved forest practices applications or notifications does not apply to forest practices conducted after the governor, the director of the department of agriculture, or the commissioner of public lands have declared that an emergency no longer exists because control objectives have been met, that there is no longer an imminent threat, or that there is no longer a good likelihood of control.

Sec. 207. RCW 76.09.150 and 2000 c 11 s 7 are each amended to read as follows:

(1) The department shall make inspections of forest lands, before, during, and after the conducting of forest practices as necessary for the purpose of ensuring compliance with this chapter ~~((and)),~~ the forest practices rules, including forest practices rules incorporated under RCW 76.09.040(3), and to ensure that no material damage occurs to the natural resources of this state as a result of ~~((such))~~ forest practices.

(2) Any duly authorized representative of the department shall have the right to enter upon forest land at any reasonable time to enforce the provisions of this chapter and the forest practices rules.

(3) The department or the department of ecology may apply for an administrative inspection warrant to either Thurston county superior court, or the superior court in the county in which the property is located. An administrative inspection warrant may be issued where:

(a) The department has attempted an inspection of forest lands under this chapter to ensure compliance with this chapter and the forest practices rules or to ensure that no potential or actual material damage occurs to the natural resources of this state, and access to all or part of the forest lands has been actually or constructively denied; or

(b) The department has reasonable cause to believe that a violation of this chapter or of rules adopted under this chapter is occurring or has occurred.

(4) In connection with any watershed analysis, any review of a pending application by an identification team appointed by the department, any compliance studies, any effectiveness monitoring, or other research that has been agreed to by a landowner, the department may invite representatives of other agencies, tribes, and interest groups to accompany a department representative and, at the

landowner's election, the landowner, on any such inspections. Reasonable efforts shall be made by the department to notify the landowner of the persons being invited onto the property and the purposes for which they are being invited.

NEW SECTION. Sec. 208. A new section is added to chapter 43.30 RCW to read as follows:

(1) By December 31, 2013, the department must make examples of complete, high quality forest practices applications and the resulting approvals readily available to the public on its internet site, as well as the internet site of the office of regulatory assistance established in RCW 43.42.010. The department must maximize assistance to the public and interested parties by seeking to make readily available examples from forest practices that generate significant permitting activity or frequent questions.

(2) The department must regularly review and update the examples required to be made available on the internet under subsection (1) of this section.

(3) The department must obtain the written permission of an applicant before making publicly available that applicant's application or approval under this section and must work cooperatively with the applicant to ensure that no personal or proprietary information is made available.

Sec. 209. RCW 76.09.065 and 2000 c 11 s 5 are each amended to read as follows:

(1) ~~(Effective July 1, 1997,)~~ An applicant shall pay an application fee ~~(and a recording fee)~~, if applicable, at the time an application or notification is submitted to the department or to the local governmental entity as provided in this chapter.

(2) ~~(For applications and notifications submitted to the department, the application fee)~~ (a) If sections 201 through 203 and 206 of this act are not enacted into law by June 30, 2012, then the fee for applications and notifications submitted to the department shall be fifty dollars for class II, III, and IV forest practices applications or notifications relating to the commercial harvest of timber. However, the fee shall be five hundred dollars for class IV forest practices applications on lands being converted to other uses or on lands which are not to be reforested because of the likelihood of future conversion to urban development or on lands that are contained within "urban growth areas," designated pursuant to chapter 36.70A RCW, except the fee shall be fifty dollars on those lands where the forest landowner provides:

~~((a))~~ (i) A written statement of intent signed by the forest landowner not to convert to a use other than commercial forest product operations for ten years, accompanied by either a written forest management plan acceptable to the department or documentation that the land is enrolled under the provisions of chapter 84.33 RCW; or

~~((b))~~ (ii) A conversion option harvest plan approved by the local governmental entity and submitted to the department as part of the forest practices application.

(b)(i) If sections 201 through 203 and 206 of this act are enacted into law by June 30, 2012, then:

(A) The fee for applications and notifications relating to the commercial harvest of timber submitted to the department shall be one hundred dollars for class II applications and notifications, class III applications, and class IV forest practices that have a potential for a substantial impact on the environment and therefore require an evaluation by the department as to whether or not a detailed statement must be prepared pursuant to the state environmental policy act, chapter 43.21C RCW, when the application or notification is submitted by a landowner who satisfies the definition of small forest landowner provided in RCW 76.09.450 and the application or notification applies to a single contiguous ownership consisting of one or more parcels;

(B) The fee for applications and notifications relating to the commercial harvest of timber submitted to the department shall be

one hundred fifty dollars for class II applications and notifications, class III applications, and class IV forest practices that have a potential for a substantial impact on the environment and therefore require an evaluation by the department as to whether or not a detailed statement must be prepared pursuant to the state environmental policy act, chapter 43.21C RCW, when the application or notification is submitted by a landowner who does not satisfy the criteria for a reduced application fee as provided in (b)(i)(A) of this subsection (2); and

(C) The fee shall be one thousand five hundred dollars for class IV forest practices applications on lands being converted to other uses or on lands that are not to be reforested because of the likelihood of future conversion to urban development or on lands that are contained within urban growth areas, designated pursuant to chapter 36.70A RCW, except the fee shall be the same as for a class III forest practices application where the forest landowner provides:

(I) A written statement of intent signed by the forest landowner not to convert to a use other than commercial forest product operations for ten years, accompanied by either a written forest management plan acceptable to the department or documentation that the land is enrolled under the provisions of chapter 84.33 RCW; or

(II) A conversion option harvest plan approved by the local governmental entity and submitted to the department as part of the forest practices application.

(ii) If the board has not incorporated fish protection standards adopted under chapter 77.55 RCW into the forest practices rules and approved technical guidance as required under RCW 76.09.040 by December 31, 2013, the fee for applications and notifications submitted to the department shall be as provided under (a) of this subsection until the rules are adopted and technical guidance approved.

(3) The forest practices application account is created in the state treasury. Moneys in the account may be spent only after appropriation. All money collected from fees under ((this)) subsection (2) of this section shall be deposited in the ((state general fund)) forest practices application account for the purposes of implementing this chapter, chapter 76.13 RCW, and Title 222 WAC.

((3)) (4) For applications submitted to ((the)) a local governmental entity as provided in this chapter, the fee shall be ((five hundred dollars for class IV forest practices on lands being converted to other uses or lands that are contained within "urban growth areas," designated pursuant to chapter 36.70A RCW, except as otherwise provided in this section, unless a different fee is otherwise provided)) determined, collected, and retained by the local governmental entity.

((4) Recording fees shall be as provided in chapter 36.18 RCW. (5) An application fee under subsection (2) of this section shall be refunded or credited to the applicant if either the application or notification is disapproved by the department or the application or notification is withdrawn by the applicant due to restrictions imposed by the department.)

Sec. 210. RCW 76.09.470 and 2007 c 106 s 3 are each amended to read as follows:

(1) If a landowner who did not state an intent to convert his or her land to a nonforestry use decides to convert his or her land to a nonforestry use within six years of receiving an approved forest practices application or notification under this chapter, the landowner must:

(a) Stop all forest practices activities on the parcels subject to the proposed land use conversion to a nonforestry use;

(b) Contact the department of ecology and the applicable county, city, town, or regional governmental entity to begin the permitting process; and

(c) Notify the department ~~((and))~~ withdraw any applicable applications or notifications ~~((or request))~~, and submit a new application for the conversion. The fee for a new application for conversion under this subsection (1)(c) is the difference between the

applicable fee for the new application under RCW 76.09.065 and the fee previously paid for the original application or notification, which must be deposited in the forest practices application account created in RCW 76.09.065.

(2) Upon being contacted by a landowner under this section, the county, city, town, or regional governmental entity must:

(a) Notify the department and request from the department the status of any applicable forest practices applications, notifications, or final orders or decisions; and

(b) Complete the following activities:

(i) Require that the landowner be in full compliance with chapter 43.21C RCW, if applicable;

(ii) Receive notification from the department that the landowner has resolved any outstanding final orders or decisions issued by the department; and

(iii) Make a determination as to whether or not the condition of the land in question is in full compliance with local ordinances and regulations. If full compliance is not found, a mitigation plan to address violations of local ordinances or regulations must be required for the parcel in question by the county, city, town, or regional governmental entity. Required mitigation plans must be prepared by the landowner and approved by the county, city, town, or regional governmental entity. Once approved, the mitigation plan must be implemented by the landowner. Mitigation measures that may be required include, but are not limited to, revegetation requirements to plant and maintain trees of sufficient maturity and appropriate species composition to restore critical area and buffer function or to be in compliance with applicable local government regulations.

Sec. 211. RCW 76.09.030 and 2008 c 46 s 1 are each amended to read as follows:

(1) There is hereby created the forest practices board of the state of Washington as an agency of state government consisting of members as follows:

(a) The commissioner of public lands or the commissioner's designee;

(b) The director of the department of ~~((community, trade, and economic development))~~ commerce or the director's designee;

(c) The director of the department of agriculture or the director's designee;

(e) The director of the department of fish and wildlife or the director's designee;

(f) An elected member of a county legislative authority appointed by the governor (~~(- PROVIDED, That such))~~. However, the county member's service on the board shall be conditioned on the member's continued service as an elected county official;

(g) One member representing a timber products union, appointed by the governor from a list of three names submitted by a timber labor coalition affiliated with a statewide labor organization that represents a majority of the timber product unions in the state; and

(h) Six members of the general public appointed by the governor, one of whom shall be a small forest landowner who actively manages his or her land, and one of whom shall be an independent logging contractor.

~~(2) ((The director of the department of fish and wildlife's service on the board may be terminated two years after August 18, 1999, if the legislature finds that after two years the department has not made substantial progress toward integrating the laws, rules, and programs governing forest practices, chapter 76.09 RCW, and the laws, rules, and programs governing hydraulic projects, chapter 77.55 RCW. Such a finding shall be based solely on whether the department of fish and wildlife makes substantial progress as defined in this subsection, and will not be based on other actions taken as a member of the board. Substantial progress shall include recommendations to the legislature for closer integration of the existing rule-making~~

~~authorities of the board and the department of fish and wildlife, and closer integration of the forest practices and hydraulics permitting processes, including exploring the potential for a consolidated permitting process. These recommendations shall be designed to resolve problems currently associated with the existing dual regulatory and permitting processes.~~

~~—(3))~~ The members of the initial board appointed by the governor shall be appointed so that the term of one member shall expire December 31, 1975, the term of one member shall expire December 31, 1976, the term of one member shall expire December 31, 1977, the terms of two members shall expire December 31, 1978, and the terms of two members shall expire December 31, 1979. ~~((6))~~ (5) The board may employ such clerical help and staff pursuant to chapter 41.06 RCW as is necessary to carry out its duties.

Sec. 212. RCW 76.09.020 and 2010 c 210 s 19 and 2010 c 188 s 6 are each reenacted and amended to read as follows:

(27) "Unconfined channel migration zone" means the area within which the active channel of an unconfined stream is prone to move and where the movement would result in a potential near-term loss of riparian forest adjacent to the stream. Sizeable islands with productive timber may exist within the zone.

(28) "Unconfined stream" means generally fifth order or larger waters that experience abrupt shifts in channel location, creating a complex floodplain characterized by extensive gravel bars, disturbance species of vegetation of variable age, numerous side channels, wall-based channels, oxbow lakes, and wetland complexes. (2) The departments of natural resources and fish and wildlife must provide an initial report by September 1, 2014, and a second report by September 1, 2016.

(3) This section expires December 31, 2016.

NEW SECTION. Sec. 215. Sections 202 and 205 of this act take effect on the date the forest practices board incorporates fish protection standards adopted under chapter 77.55 RCW into the forest practices rules and approves technical guidance as required under RCW 76.09.040. The department of natural resources must provide written notice of the effective date of these sections to affected parties, the chief clerk of the house of representatives, the secretary of

the senate, the office of the code reviser, and others as deemed appropriate by the department of natural resources.

NEW SECTION. Sec. 216. Nothing in this act affects any rules, processes, or procedures of the department of fish and wildlife and the department of natural resources existing on the effective date of this section that provide for regulatory integration of hydraulic projects and forest practices for projects in nonfish-bearing waters.

NEW SECTION. Sec. 217. Nothing in this act authorizes the department of fish and wildlife to assume authority over approval, disapproval, conditioning, or enforcement of applications or notifications submitted under chapter 76.09 RCW.

NEW SECTION. Sec. 218. Nothing in this act affects the jurisdiction or other authority of a federally recognized Indian tribe within the boundary of its reservation or on other tribally owned lands.

NEW SECTION. Sec. 219. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected.

PART THREE

State Environmental Policy Act and Local Development

Regulations

NEW SECTION. Sec. 301. (1) The legislature recognizes that the rule-based categorical exemption thresholds to chapter 43.21C RCW, found in WAC 197-11-800, have not been updated in recent years, and should be reviewed in light of the increased environmental protections in place under chapters 36.70A and 90.58 RCW, and other laws. It is the intent of the legislature to direct the department of ecology to conduct two phases of rule making over the next two years to increase the thresholds for these categorical exemptions.

(2) By December 31, 2012, the department of ecology shall increase the rule-based categorical exemptions to chapter 43.21C RCW found in WAC 197-11-800 and update the environmental checklist found in WAC 197-11-960. In updating the categorical exemptions, the department of ecology must:

(a) At a minimum, increase the existing maximum threshold levels for the following project types:

- (i) The construction or location of single-family residential developments;
- (ii) The construction or location of multifamily residential developments;
- (iii) The construction of an agricultural structure, other than a feed lot, that is similar to the following: A barn, a loafing shed, a farm equipment storage building, or a produce storing or packing structure;
- (iv) The construction of the following, including any associated parking areas or facilities: An office, a school, a commercial building, a recreational building, a service building, or a storage building;
- (v) Landfilling or excavation activities; and
- (vi) The installation of an electric facility, lines, equipment, or appurtenances, other than substations.

(b) Establish maximum exemption levels for action types that differ based on whether the project is proposed to occur in:

- (i) An incorporated city;
- (ii) An unincorporated area within an urban growth area;
- (iii) An unincorporated area outside of an urban growth area but within a county planning under chapter 36.70A RCW; or
- (iv) An unincorporated area within a county not planning under chapter 36.70A RCW.

(c) In updating the environmental checklist found in WAC 197-11-960, the department of ecology shall:

- (i) Improve efficiency of the environmental checklist; and
- (ii) Not include any new subjects into the scope of the checklist, including climate change and greenhouse gases.

(d) Until the completion of the rule making required under this section, a city or county may apply the highest categorical exemption levels authorized under WAC 197-11-800 to any action, regardless if the city or county with jurisdiction has exercised its authority to raise the exemption levels above the established minimums, unless the city or county with jurisdiction passes an ordinance or resolution that lowers the exemption levels to a level below the allowed maximum but not less than the default minimum levels detailed in WAC 197-11-800.

(3)(a) By December 31, 2013, the department of ecology shall:

(i) Update, but not decrease, the thresholds for all other project actions not specified in subsection (2) of this section;

(ii) Propose methods for integrating the state environmental policy act process with provisions of the growth management act, chapter 36.70A RCW, including consideration of ways to revise WAC 197-11-210 through 197-11-232 to further the goals of RCW 43.21C.240; and

(iii) Create categorical exemptions for minor code amendments for which review under chapter 43.21C RCW would not be required because they do not lessen environmental protection.

(b) During this process, the department of ecology may also review and update the thresholds resulting from the 2012 rule-making process outlined in subsection (2) of this section.

(4)(a) The department of ecology shall convene an advisory committee consisting of members representing, at minimum, cities, counties, business interests, environmental interests, agricultural interests, cultural resources interests, state agencies, and tribal governments to:

(i) Assist in updating the environmental checklist and updating the thresholds for other project actions for both rule-making processes under subsections (2) and (3) of this section;

(ii) Ensure that state agencies and other interested parties can receive notice about projects of interest through notice under chapter 43.21C RCW and means other than chapter 43.21C RCW; and

(iii) Ensure that federally recognized tribes receive notice about projects that impact tribal interests through notice under chapter 43.21C RCW and means other than chapter 43.21C RCW.

(b) Advisory committee members must have direct experience with the implementation or application of the state environmental policy act.

(5) This section expires July 31, 2014.

Sec. 302. RCW 43.21C.031 and 1995 c 347 s 203 are each amended to read as follows:

(1) An environmental impact statement (the detailed statement required by RCW 43.21C.030(2)(c)) shall be prepared on proposals for legislation and other major actions having a probable significant, adverse environmental impact. The environmental impact statement may be combined with the recommendation or report on the proposal or issued as a separate document. The substantive decisions or recommendations shall be clearly identifiable in the combined document. Actions categorically exempt under RCW 43.21C.110(1)(a) and section 308 of this act do not require environmental review or the preparation of an environmental impact statement under this chapter. ~~((In a county, city, or town planning under RCW 36.70A.040, a planned action, as provided for in subsection (2) of this section, does not require a threshold determination or the preparation of an environmental impact statement under this chapter, but is subject to environmental review and mitigation as provided in this chapter.))~~

(2) An environmental impact statement is required to analyze only those probable adverse environmental impacts which are

significant. Beneficial environmental impacts may be discussed. The responsible official shall consult with agencies and the public to identify such impacts and limit the scope of an environmental impact statement. The subjects listed in RCW 43.21C.030(2)(c) need not be treated as separate sections of an environmental impact statement. Discussions of significant short-term and long-term environmental impacts, significant irrevocable commitments of natural resources, significant alternatives including mitigation measures, and significant environmental impacts which cannot be mitigated should be consolidated or included, as applicable, in those sections of an environmental impact statement where the responsible official decides they logically belong.

~~((2)(a) For purposes of this section, a planned action means one or more types of project action that:~~

~~—(i) Are designated planned actions by an ordinance or resolution adopted by a county, city, or town planning under RCW 36.70A.040;~~

~~—(ii) Have had the significant impacts adequately addressed in an environmental impact statement prepared in conjunction with (A) a comprehensive plan or subarea plan adopted under chapter 36.70A RCW, or (B) a fully contained community, a master planned resort, a master planned development, or a phased project;~~

~~—(iii) Are subsequent or implementing projects for the proposals listed in (a)(ii) of this subsection;~~

~~—(iv) Are located within an urban growth area, as defined in RCW 36.70A.030;~~

~~—(v) Are not essential public facilities, as defined in RCW 36.70A.200; and~~

~~—(vi) Are consistent with a comprehensive plan adopted under chapter 36.70A RCW.~~

~~—(b) A county, city, or town shall limit planned actions to certain types of development or to specific geographical areas that are less extensive than the jurisdictional boundaries of the county, city, or town and may limit a planned action to a time period identified in the environmental impact statement or the ordinance or resolution adopted under this subsection.)~~

NEW SECTION. Sec. 303. A new section is added to chapter 43.21C RCW to read as follows:

(1) For purposes of this chapter, a planned action means one or more types of development or redevelopment that meet the following criteria:

(a) Are designated as planned actions by an ordinance or resolution adopted by a county, city, or town planning under RCW 36.70A.040;

(b) Have had the significant impacts adequately addressed in an environmental impact statement under the requirements of this chapter in conjunction with, or to implement, a comprehensive plan or subarea plan adopted under chapter 36.70A RCW, or a fully contained community, a master planned resort, a master planned development, or a phased project;

(c) Have had project level significant impacts adequately addressed in an environmental impact statement unless the impacts are specifically deferred for consideration at the project level pursuant to subsection (3)(b) of this section;

(d) Are subsequent or implementing projects for the proposals listed in (b) of this subsection;

(e) Are located within an urban growth area designated pursuant to RCW 36.70A.110;

(f) Are not essential public facilities, as defined in RCW 36.70A.200, unless an essential public facility is accessory to or part of a residential, office, school, commercial, recreational, service, or industrial development that is designated a planned action under this subsection; and

(g) Are consistent with a comprehensive plan or subarea plan adopted under chapter 36.70A RCW.

(2) A county, city, or town shall define the types of development included in the planned action and may limit a planned action to:

(a) A specific geographic area that is less extensive than the jurisdictional boundaries of the county, city, or town; or

(b) A time period identified in the ordinance or resolution adopted under this subsection.

(3)(a) A county, city, or town shall determine during permit review whether a proposed project is consistent with a planned action ordinance adopted by the jurisdiction. To determine project consistency with a planned action ordinance, a county, city, or town may utilize a modified checklist pursuant to the rules adopted to implement RCW 43.21C.110, a form that is designated within the planned action ordinance, or a form contained in agency rules adopted pursuant to RCW 43.21C.120.

(b) A county, city, or town is not required to make a threshold determination and may not require additional environmental review, for a proposal that is determined to be consistent with the development or redevelopment described in the planned action ordinance, except for impacts that are specifically deferred to the project level at the time of the planned action ordinance's adoption. At least one community meeting must be held before the notice is issued for the planned action ordinance. Notice for the planned action and notice of the community meeting required by this subsection (3)(b) must be mailed or otherwise verifiably provided to: (i) All affected federally recognized tribal governments; and (ii) agencies with jurisdiction over the future development anticipated for the planned action. The determination of consistency, and the adequacy of any environmental review that was specifically deferred, are subject to the type of administrative appeal that the county, city, or town provides for the proposal itself consistent with RCW 36.70B.060.

(4) For a planned action ordinance that encompasses the entire jurisdictional boundary of a county, city, or town, at least one community meeting must be held before the notice is issued for the planned action ordinance. Notice for the planned action ordinance and notice of the community meeting required by this subsection must be mailed or otherwise verifiably provided to:

(a) All property owners of record within the county, city, or town;

(b) All affected federally recognized tribal governments; and

(c) All agencies with jurisdiction over the future development anticipated for the planned action.

Sec. 304. RCW 43.21C.229 and 2003 c 298 s 1 are each amended to read as follows:

(1) In order to accommodate infill development and thereby realize the goals and policies of comprehensive plans adopted according to chapter 36.70A RCW, a city or county planning under RCW 36.70A.040 is authorized by this section to establish categorical exemptions from the requirements of this chapter. An exemption adopted under this section applies even if it differs from the categorical exemptions adopted by rule of the department under RCW 43.21C.110(1)(a). An exemption may be adopted by a city or county under this section if it meets the following criteria:

(a) It categorically exempts government action related to development ~~((that is new residential or mixed-use development))~~ proposed to fill in an urban growth area, designated according to RCW 36.70A.110, where current density and intensity of use in the area is lower than called for in the goals and policies of the applicable comprehensive plan and the development is either:

(i) Residential development;

(ii) Mixed-use development; or

(iii) Commercial development up to sixty-five thousand square feet, excluding retail development;

(b) It does not exempt government action related to development that is inconsistent with the applicable comprehensive plan or would exceed the density or intensity of use called for in the goals and policies of the applicable comprehensive plan; ~~((and))~~

(c) The local government considers the specific probable adverse environmental impacts of the proposed action and determines that

these specific impacts are adequately addressed by the development regulations or other applicable requirements of the comprehensive plan, subarea plan element of the comprehensive plan, planned action ordinance, or other local, state, or federal rules or laws; and

(d)(i) The city or county's applicable comprehensive plan was previously subjected to environmental analysis through an environmental impact statement under the requirements of this chapter prior to adoption; or

(ii) The city or county has prepared an environmental impact statement that considers the proposed use or density and intensity of use in the area proposed for an exemption under this section.

(2) Any categorical exemption adopted by a city or county under this section shall be subject to the rules of the department adopted according to RCW 43.21C.110(1)(a) that provide exceptions to the use of categorical exemptions adopted by the department.

NEW SECTION. Sec. 305. A new section is added to chapter 43.21C RCW to read as follows:

(1) A county, city, or town may recover its reasonable expenses of preparation of a nonproject environmental impact statement prepared under RCW 43.21C.229 and section 303 of this act:

(a) Through access to financial assistance under RCW 36.70A.490;

(b) With funding from private sources; and

(c) By the assessment of fees consistent with the requirements and limitations of this section.

(2)(a) A county, city, or town is authorized to assess a fee upon subsequent development that will make use of and benefit from: (i) The analysis in an environmental impact statement prepared for the purpose of compliance with section 303 of this act regarding planned actions; or (ii) the reduction in environmental analysis requirements resulting from the exercise of authority under RCW 43.21C.229 regarding infill development.

(b) The amount of the fee must be reasonable and proportionate to the total expenses incurred by the county, city, or town in the preparation of the environmental impact statement.

(3) A county, city, or town assessing fees under subsection (2)(a) of this section must provide for a mechanism by which project proponents may either elect to utilize the environmental review completed by the lead agency and pay the fees under subsection (1) of this section or certify that they do not want the local jurisdiction to utilize the environmental review completed as a part of a planned action and therefore not be assessed any associated fees. Project proponents who choose this option may not make use of or benefit from the up-front environmental review prepared by the local jurisdiction.

(4) Prior to the collection of fees, the county, city, or town must enact an ordinance that establishes the total amount of expenses to be recovered through fees and provides objective standards for determining the fee amount to be imposed upon each development proposal proportionate to the impacts of each development and to the benefits accruing to each development from the nonproject environmental review. The ordinance must provide (a) a procedure by which an applicant who disagrees with whether the amount of the fee is correct, reasonable, or proportionate may pay the fee with the written stipulation "paid under protest"; and (b) if the county, city, or town provides for an administrative appeal of its decision on the project for which the fees are imposed, any dispute about the amount of the fees must be resolved in the same administrative appeals process. Any disagreement about the reasonableness, proportionality, or amount of the fees imposed upon a development may not be the basis for delay in issuance of a project permit for that development.

(5) The ordinance adopted under subsection (4) of this section must make information available about the amount of the expenses designated for recovery. When such expenses have been fully recovered, the county, city, or town may no longer assess a fee under this section.

(6) Any fees collected under this section from subsequent development may be used to reimburse funding received from private sources to conduct the environmental review.

(7) The city, county, or town shall refund fees collected where a court of competent jurisdiction determines that the environmental review conducted under section 303 of this act, regarding planned actions, or under RCW 43.21C.229, regarding infill development, was not sufficient to comply with the requirements of this chapter regarding the proposed development activity for which the fees were collected. The applicant and the city, county, or town may mutually agree to a partial refund or to waive the refund in the interest of resolving any dispute regarding compliance with this chapter.

Sec. 306. RCW 43.21C.037 and 2011 c 207 s 3 are each amended to read as follows:

(1) Decisions pertaining to applications for Class I, II, and III forest practices, as defined by rule of the forest practices board under RCW 76.09.050, are not subject to the requirements of RCW 43.21C.030(2)(c) ~~((as now or hereafter amended))~~.

(2) When the applicable county, city, or town requires a license in connection with any proposal involving forest practices:

(a) On forest lands that are being converted to another use; or

(b) On lands which, pursuant to RCW 76.09.070 as now or hereafter amended, are not to be reforested because of the likelihood of future conversion to urban development, then the local government, rather than the department of natural resources, is responsible for any detailed statement required under RCW 43.21C.030(2)(c).

(3)(a) Those forest practices determined by rule of the forest practices board to have a potential for a substantial impact on the environment, and thus to be Class IV practices, require an evaluation by the department of natural resources as to whether or not a detailed statement must be prepared pursuant to this chapter.

(b) The evaluation ~~((shall))~~ required by this section must be made within ten days from the date the department receives the application unless the application is subject to concurrence review by the department of fish and wildlife under section 202 of this act. Evaluations for applications that are subject to concurrence review by the department of fish and wildlife under section 202 of this act must be made within ten days from the date the department of fish and wildlife completes the concurrent review.

(c) A Class IV forest practice application must be approved or disapproved by the department ~~((within thirty calendar days from the date the department receives the application, unless the department determines that a detailed statement must be made, in which case the application must be approved or disapproved by the department within sixty days from the date the department receives the application, unless the commissioner of public lands, through the promulgation of a formal order, determines that the process cannot be completed within such period))~~ according to the timelines established in RCW 76.09.050.

(d) This section shall not be construed to prevent any local or regional governmental entity from determining that a detailed statement must be prepared for an action regarding a Class IV forest practice taken by that governmental entity concerning the land on which forest practices will be conducted.

Sec. 307. RCW 82.02.020 and 2010 c 153 s 3 are each amended to read as follows:

Except only as expressly provided in chapters 67.28, 81.104, and 82.14 RCW, the state preempts the field of imposing retail sales and use taxes and taxes upon parimutuel wagering authorized pursuant to RCW 67.16.060, conveyances, and cigarettes, and no county, town, or other municipal subdivision shall have the right to impose taxes of that nature. Except as provided in RCW 64.34.440 and 82.02.050 through 82.02.090, no county, city, town, or other municipal corporation shall impose any tax, fee, or charge, either direct or indirect, on the construction or reconstruction of residential buildings,

commercial buildings, industrial buildings, or on any other building or building space or appurtenance thereto, or on the development, subdivision, classification, or reclassification of land. However, this section does not preclude dedications of land or easements within the proposed development or plat which the county, city, town, or other municipal corporation can demonstrate are reasonably necessary as a direct result of the proposed development or plat to which the dedication of land or easement is to apply.

This section does not prohibit voluntary agreements with counties, cities, towns, or other municipal corporations that allow a payment in lieu of a dedication of land or to mitigate a direct impact that has been identified as a consequence of a proposed development, subdivision, or plat. A local government shall not use such voluntary agreements for local off-site transportation improvements within the geographic boundaries of the area or areas covered by an adopted transportation program authorized by chapter 39.92 RCW. Any such voluntary agreement is subject to the following provisions:

(1) The payment shall be held in a reserve account and may only be expended to fund a capital improvement agreed upon by the parties to mitigate the identified, direct impact;

(2) The payment shall be expended in all cases within five years of collection; and

(3) Any payment not so expended shall be refunded with interest to be calculated from the original date the deposit was received by the county and at the same rate applied to tax refunds pursuant to RCW 84.69.100; however, if the payment is not expended within five years due to delay attributable to the developer, the payment shall be refunded without interest.

No county, city, town, or other municipal corporation shall require any payment as part of such a voluntary agreement which the county, city, town, or other municipal corporation cannot establish is reasonably necessary as a direct result of the proposed development or plat.

Nothing in this section prohibits cities, towns, counties, or other municipal corporations from collecting reasonable fees from an applicant for a permit or other governmental approval to cover the cost to the city, town, county, or other municipal corporation of processing applications, inspecting and reviewing plans, or preparing detailed statements required by chapter 43.21C RCW, including reasonable fees that are consistent with RCW 43.21C.420(6) and section 305 of this act.

This section does not limit the existing authority of any county, city, town, or other municipal corporation to impose special assessments on property specifically benefited thereby in the manner prescribed by law.

Nothing in this section prohibits counties, cities, or towns from imposing or permits counties, cities, or towns to impose water, sewer, natural gas, drainage utility, and drainage system charges. However, no such charge shall exceed the proportionate share of such utility or system's capital costs which the county, city, or town can demonstrate are attributable to the property being charged. Furthermore, these provisions may not be interpreted to expand or contract any existing authority of counties, cities, or towns to impose such charges.

Nothing in this section prohibits a transportation benefit district from imposing fees or charges authorized in RCW 36.73.120 nor prohibits the legislative authority of a county, city, or town from approving the imposition of such fees within a transportation benefit district.

Nothing in this section prohibits counties, cities, or towns from imposing transportation impact fees authorized pursuant to chapter 39.92 RCW.

Nothing in this section prohibits counties, cities, or towns from requiring property owners to provide relocation assistance to tenants under RCW 59.18.440 and 59.18.450.

Nothing in this section limits the authority of counties, cities, or towns to implement programs consistent with RCW 36.70A.540, nor to enforce agreements made pursuant to such programs.

This section does not apply to special purpose districts formed and acting pursuant to Title 54, 57, or 87 RCW, nor is the authority conferred by these titles affected.

NEW SECTION. Sec. 308. A new section is added to chapter 43.21C RCW to read as follows:

The following nonproject actions are categorically exempt from the requirements of this chapter:

(1) Amendments to development regulations that are required to ensure consistency with an adopted comprehensive plan pursuant to RCW 36.70A.040, where the comprehensive plan was previously subjected to environmental review pursuant to this chapter and the impacts associated with the proposed regulation were specifically addressed in the prior environmental review;

(2) Amendments to development regulations that are required to ensure consistency with a shoreline master program approved pursuant to RCW 90.58.090, where the shoreline master program was previously subjected to environmental review pursuant to this chapter and the impacts associated with the proposed regulation were specifically addressed in the prior environmental review;

(3) Amendments to development regulations that, upon implementation of a project action, will provide increased environmental protection, limited to the following:

(a) Increased protections for critical areas, such as enhanced buffers or setbacks;

(b) Increased vegetation retention or decreased impervious surface areas in shoreline jurisdiction; and

(c) Increased vegetation retention or decreased impervious surface areas in critical areas;

(4) Amendments to technical codes adopted by a county, city, or town to ensure consistency with minimum standards contained in state law, including the following:

(a) Building codes required by chapter 19.27 RCW;

(b) Energy codes required by chapter 19.27A RCW; and

(c) Electrical codes required by chapter 19.28 RCW.

NEW SECTION. Sec. 309. A new section is added to chapter 43.21C RCW to read as follows:

(1) The lead agency for an environmental review under this chapter utilizing an environmental checklist developed by the department of ecology pursuant to RCW 43.21C.110 may identify within the checklist provided to applicants instances where questions on the checklist are adequately covered by a locally adopted ordinance, development regulation, land use plan, or other legal authority.

(2) If a lead agency identifies an instance as described in subsection (1) of this section, it still must consider whether the action has an impact on the particular element or elements of the environment in question.

(3) In instances where the locally adopted ordinance, development regulation, land use plan, or other legal authority provide the necessary information to answer a specific question, the lead agency must explain how the proposed project satisfies the underlying local legal authority.

(4) If the lead agency identifies instances where questions on the checklist are adequately covered by a locally adopted ordinance, development regulation, land use plan, or other legal authority, an applicant may still provide answers to any questions on the checklist.

(5) Nothing in this section authorizes a lead agency to ignore or delete a question on the checklist.

(6) Nothing in this section changes the standard for whether an environmental impact statement is required for an action that may have a probable significant, adverse environmental impact pursuant to RCW 43.21C.030.

(7) Nothing in this section affects the appeal provisions provided in this chapter.

(8) Nothing in this section modifies existing rules for determining the lead agency, as defined in WAC 197-11-922 through 197-11-948, nor does it modify agency procedures for complying with the state environmental policy act when an agency other than a local government is serving as the lead agency.

Sec. 310. RCW 36.70A.490 and 1995 c 347 s 115 are each amended to read as follows:

The growth management planning and environmental review fund is hereby established in the state treasury. Moneys may be placed in the fund from the proceeds of bond sales, tax revenues, budget transfers, federal appropriations, gifts, or any other lawful source. Moneys in the fund may be spent only after appropriation. Moneys in the fund shall be used to make grants or loans to local governments for the purposes set forth in RCW 43.21C.240, 43.21C.031, or 36.70A.500. Any payment of either principal or interest, or both, derived from loans made from this fund must be deposited into the fund.

Sec. 311. RCW 36.70A.500 and 1997 c 429 s 28 are each amended to read as follows:

(1) The department of ~~((community, trade, and economic development))~~ commerce shall provide management services for the growth management planning and environmental review fund created by RCW 36.70A.490. The department shall establish procedures for fund management. The department shall encourage participation in the grant or loan program by other public agencies. The department shall develop the grant or loan criteria, monitor the grant or loan program, and select grant or loan recipients in consultation with state agencies participating in the grant or loan program through the provision of grant or loan funds or technical assistance.

(2) A grant or loan may be awarded to a county or city that is required to or has chosen to plan under RCW 36.70A.040 and that is qualified pursuant to this section. The grant or loan shall be provided to assist a county or city in paying for the cost of preparing an environmental analysis under chapter 43.21C RCW, that is integrated with a comprehensive plan, subarea plan, plan element, countywide planning policy, development regulation, monitoring program, or other planning activity adopted under or implementing this chapter that:

(a) Improves the process for project permit review while maintaining environmental quality; or

(b) Encourages use of plans and information developed for purposes of complying with this chapter to satisfy requirements of other state programs.

(3) In order to qualify for a grant or loan, a county or city shall:

(a) Demonstrate that it will prepare an environmental analysis pursuant to chapter 43.21C RCW and subsection (2) of this section that is integrated with a comprehensive plan, subarea plan, plan element, countywide planning policy, development regulations, monitoring program, or other planning activity adopted under or implementing this chapter;

(b) Address environmental impacts and consequences, alternatives, and mitigation measures in sufficient detail to allow the analysis to be adopted in whole or in part by applicants for development permits within the geographic area analyzed in the plan;

(c) Demonstrate that procedures for review of development permit applications will be based on the integrated plans and environmental analysis;

(d) Include mechanisms to monitor the consequences of growth as it occurs in the plan area and to use the resulting data to update the plan, policy, or implementing mechanisms and associated environmental analysis;

(e) Demonstrate substantial progress towards compliance with the requirements of this chapter. A county or city that is more than six months out of compliance with a requirement of this chapter is

deemed not to be making substantial progress towards compliance; and

(f) Provide local funding, which may include financial participation by the private sector.

(4) In awarding grants or loans, the department shall give preference to proposals that include one or more of the following elements:

(a) Financial participation by the private sector, or a public/private partnering approach;

(b) Identification and monitoring of system capacities for elements of the built environment, and to the extent appropriate, of the natural environment;

(c) Coordination with state, federal, and tribal governments in project review;

(d) Furtherance of important state objectives related to economic development, protection of areas of statewide significance, and siting of essential public facilities;

(e) Programs to improve the efficiency and effectiveness of the permitting process by greater reliance on integrated plans and prospective environmental analysis;

(f) Programs for effective citizen and neighborhood involvement that contribute to greater likelihood that planning decisions can be implemented with community support; ~~((and))~~

(g) Programs to identify environmental impacts and establish mitigation measures that provide effective means to satisfy concurrency requirements and establish project consistency with the plans; or

(h) Environmental review that addresses the impacts of increased density or intensity of comprehensive plans, subarea plans, or receiving areas designated by a city or town under the regional transfer of development rights program in chapter 43.362 RCW.

(5) If the local funding includes funding provided by other state functional planning programs, including open space planning and watershed or basin planning, the functional plan shall be integrated into and be consistent with the comprehensive plan.

(6) State agencies shall work with grant or loan recipients to facilitate state and local project review processes that will implement the projects receiving grants or loans under this section.

Sec. 312. RCW 43.21C.110 and 1997 c 429 s 47 are each amended to read as follows:

It shall be the duty and function of the department of ecology:

(1) To adopt and amend ~~((thereafter))~~ rules of interpretation and implementation of this chapter, subject to the requirements of chapter 34.05 RCW, for the purpose of providing uniform rules and guidelines to all branches of government including state agencies, political subdivisions, public and municipal corporations, and counties. The proposed rules shall be subject to full public hearings requirements associated with rule ~~((promulgation))~~ adoption. Suggestions for modifications of the proposed rules shall be considered on their merits, and the department shall have the authority and responsibility for full and appropriate independent ~~((promulgation and))~~ adoption of rules, assuring consistency with this chapter as amended and with the preservation of protections afforded by this chapter. The rule-making powers authorized in this section shall include, but shall not be limited to, the following phases of interpretation and implementation of this chapter:

(a) Categories of governmental actions which are not to be considered as potential major actions significantly affecting the quality of the environment, including categories pertaining to applications for water right permits pursuant to chapters 90.03 and 90.44 RCW. The types of actions included as categorical exemptions in the rules shall be limited to those types which are not major actions significantly affecting the quality of the environment. The rules shall provide for certain circumstances where actions which potentially are categorically exempt require environmental review. An action that is

categorically exempt under the rules adopted by the department may not be conditioned or denied under this chapter.

(b) Rules for criteria and procedures applicable to the determination of when an act of a branch of government is a major action significantly affecting the quality of the environment for which a detailed statement is required to be prepared pursuant to RCW 43.21C.030.

(c) Rules and procedures applicable to the preparation of detailed statements and other environmental documents, including but not limited to rules for timing of environmental review, obtaining comments, data and other information, and providing for and determining areas of public participation which shall include the scope and review of draft environmental impact statements.

(d) Scope of coverage and contents of detailed statements assuring that such statements are simple, uniform, and as short as practicable; statements are required to analyze only reasonable alternatives and probable adverse environmental impacts which are significant, and may analyze beneficial impacts.

(e) Rules and procedures for public notification of actions taken and documents prepared.

(f) Definition of terms relevant to the implementation of this chapter including the establishment of a list of elements of the environment. Analysis of environmental considerations under RCW 43.21C.030(2) may be required only for those subjects listed as elements of the environment (or portions thereof). The list of elements of the environment shall consist of the "natural" and "built" environment. The elements of the built environment shall consist of public services and utilities (such as water, sewer, schools, fire and police protection), transportation, environmental health (such as explosive materials and toxic waste), and land and shoreline use (including housing, and a description of the relationships with land use and shoreline plans and designations, including population).

(g) Rules for determining the obligations and powers under this chapter of two or more branches of government involved in the same project significantly affecting the quality of the environment.

(h) Methods to assure adequate public awareness of the preparation and issuance of detailed statements required by RCW 43.21C.030(2)(c).

(i) To prepare rules for projects setting forth the time limits within which the governmental entity responsible for the action shall comply with the provisions of this chapter.

(j) Rules for utilization of a detailed statement for more than one action and rules improving environmental analysis of nonproject proposals and encouraging better interagency coordination and integration between this chapter and other environmental laws.

(k) Rules relating to actions which shall be exempt from the provisions of this chapter in situations of emergency.

(l) Rules relating to the use of environmental documents in planning and decision making and the implementation of the substantive policies and requirements of this chapter, including procedures for appeals under this chapter.

(m) Rules and procedures that provide for the integration of environmental review with project review as provided in RCW 43.21C.240. The rules and procedures shall be jointly developed with the department of ~~((community, trade, and economic development))~~ commerce and shall be applicable to the preparation of environmental documents for actions in counties, cities, and towns planning under RCW 36.70A.040. The rules and procedures shall also include procedures and criteria to analyze planned actions under ~~((RCW 43.21C.031(2)))~~ section 303 of this act and revisions to the rules adopted under this section to ensure that they are compatible with the requirements and authorizations of chapter 347, Laws of 1995, as amended by chapter 429, Laws of 1997. Ordinances or procedures adopted by a county, city, or town to implement the provisions of chapter 347, Laws of 1995 prior to the effective date of rules adopted under this subsection (1)(m) shall continue to be effective until the

adoption of any new or revised ordinances or procedures that may be required. If any revisions are required as a result of rules adopted under this subsection (1)(m), those revisions shall be made within the time limits specified in RCW 43.21C.120.

(2) In exercising its powers, functions, and duties under this section, the department may:

(a) Consult with the state agencies and with representatives of science, industry, agriculture, labor, conservation organizations, state and local governments, and other groups, as it deems advisable; and

(b) Utilize, to the fullest extent possible, the services, facilities, and information (including statistical information) of public and private agencies, organizations, and individuals, in order to avoid duplication of effort and expense, overlap, or conflict with similar activities authorized by law and performed by established agencies.

(c) The power to develop and implement appropriate programs pertaining to continuing planning processes, area-wide waste treatment management plans, and basin planning.

PART II

HUMAN SERVICES

Sec. 201. 2011 2nd sp.s. c 9 s 201 (uncodified) is amended to read as follows:

FOR THE DEPARTMENT OF SOCIAL AND HEALTH SERVICES

(1) The appropriations to the department of social and health services in this act shall be expended for the programs and in the amounts specified in this act. Appropriations made in this act to the department of social and health services shall initially be allotted as required by this act. Subsequent allotment modifications shall not include transfers of moneys between sections of this act except as

expressly provided in this act, nor shall allotment modifications permit moneys that are provided solely for a specified purpose to be used for other than that purpose.

(2) The department of social and health services shall not initiate any services that require expenditure of state general fund moneys unless expressly authorized in this act or other law. The department may seek, receive, and spend, under RCW 43.79.260 through 43.79.282, federal moneys not anticipated in this act as long as the federal funding does not require expenditure of state moneys for the program in excess of amounts anticipated in this act. If the department receives unanticipated unrestricted federal moneys, those moneys shall be spent for services authorized in this act or in any other legislation providing appropriation authority, and an equal amount of appropriated state general fund moneys shall lapse. Upon the lapsing of any moneys under this subsection, the office of financial management shall notify the legislative fiscal committees. As used in this subsection, "unrestricted federal moneys" includes block grants and other funds that federal law does not require to be spent on specifically defined projects or matched on a formula basis by state funds.

(3)(a) The health care authority and the department are authorized to develop an integrated health care program designed to slow the progression of illness and disability and better manage medicaid expenditures for the aged and disabled population. Under ~~((his))~~ the Washington medicaid integration partnership (WMIP) and the medicare integrated care project (MICP), the health care authority and the department may combine and transfer such medicaid funds appropriated under sections 204, 206, 208, and 213 of this act as may be necessary to finance a unified health care plan for the WMIP and the MICP program enrollment. The WMIP pilot projects shall not exceed a daily enrollment of 6,000 persons, nor expand beyond one county during the 2011-2013 fiscal biennium. The amount of funding assigned from each program may not exceed the average per capita cost assumed in this act for individuals covered by that program, actuarially adjusted for the health condition of persons enrolled, times the number of clients enrolled. In implementing the WMIP and the MICP, the health care authority and the department may: ~~((+))~~ (i) Withhold from calculations of "available resources" as set forth in RCW 71.24.025 a sum equal to the capitated rate for enrolled individuals; and ~~((+))~~ (ii) employ capitation financing and risk-sharing arrangements in collaboration with health care service contractors licensed by the office of the insurance commissioner and qualified to participate in both the medicaid and medicare programs. The health care authority and the department shall conduct an evaluation of the WMIP~~(,)~~ by October 15, 2012, and of the MICP measuring changes in participant health outcomes, changes in patterns of service utilization, participant satisfaction, participant access to services, and the state fiscal impact.

(b) Effective January 1, 2013, if Washington has been selected to participate in phase two of the federal demonstration project for persons dually-eligible for both medicare and medicaid, the department and the authority may initiate the MICP. Participation in the project shall be limited to persons who are eligible for both medicare and medicaid and to counties in which the county legislative authority has agreed to the terms and conditions under which it will operate. The purpose of the project shall be to demonstrate and evaluate ways to improve care while reducing state expenditures for persons enrolled both in medicare and medicaid. To that end, prior to initiating the project, the department and the authority shall assure that state expenditures shall be no greater on either a per person or total basis than the state would otherwise incur. Individuals who are solely eligible for medicaid may also participate if their participation is agreed to by the health care authority, the department, and the county legislative authority.

(4) The legislature finds that medicaid payment rates, as calculated by the department pursuant to the appropriations in this act,

bear a reasonable relationship to the costs incurred by efficiently and economically operated facilities for providing quality services and will be sufficient to enlist enough providers so that care and services are available to the extent that such care and services are available to the general population in the geographic area. The legislature finds that cost reports, payment data from the federal government, historical utilization, economic data, and clinical input constitute reliable data upon which to determine the payment rates.

(5) The department shall to the maximum extent practicable use the same system for delivery of spoken-language interpreter services for social services appointments as the one established for medical appointments in section 213 of this act. When contracting directly with an individual to deliver spoken language interpreter services, the department shall only contract with language access providers who are working at a location in the state and who are state-certified or state-authorized, except that when such a provider is not available, the department may use a language access provider who meets other certifications or standards deemed to meet state standards, including interpreters in other states.

(6)(a) The appropriations to the department of social and health services in this act shall be expended for the programs and in the amounts specified in this act. However, after May 1, 2012, unless specifically prohibited by this act, the department may transfer general fund--state appropriations for fiscal year 2012 among programs after approval by the director of financial management. However, the department shall not transfer state moneys that are provided solely for a specified purpose except as expressly provided in (b) of this subsection.

(b) To the extent that transfers under (a) of this subsection are insufficient to fund actual expenditures in excess of fiscal year 2012 caseload forecasts and utilization assumptions in the long-term care, foster care, adoptions support, medicaid personal care, and child support programs, the department may transfer state moneys that are provided solely for a specified purpose. The department shall not transfer funds, and the director of financial management shall not approve the transfer, unless the transfer is consistent with the objective of conserving, to the maximum extent possible, the expenditure of state funds. The director of financial management shall notify the appropriate fiscal committees of the senate and house of representatives in writing seven days prior to approving any allotment modifications or transfers under this subsection. The written notification shall include a narrative explanation and justification of the changes, along with expenditures and allotments by budget unit and appropriation, both before and after any allotment modifications or transfers.

(b) The department shall use ~~((performance based contracts to provide))~~ these services to safely reduce the number of children in out-of-home care, safely reduce the time spent in out-of-home care prior to achieving permanency, and safely reduce the number of children returning to out-of-home care following permanency. The department shall provide an initial report to the legislature and the governor by January 15, 2012, regarding the start-up costs associated with performance-based contracts under RCW 74.13.360 ~~((and House Bill No. 2122 (child welfare)))~~.

Funding shall be prioritized to regions with high numbers of foster care youth and/or regions where backlogs of youth that have formerly requested educational outreach services exist. The department shall utilize private matching funds to maintain educational advocacy services.

(5) \$670,000 of the general fund--state appropriation for fiscal year 2012 and \$670,000 of the general fund--state appropriation for fiscal year 2013 are provided solely for services provided through children's advocacy centers.

(6) To ensure expenditures remain within available funds appropriated in this section as required by RCW 74.13A.005 and 74.13A.020, the secretary shall not set the amount of any adoption assistance payment or payments, made pursuant to RCW 26.33.320 and 74.13A.005 through 74.13A.080, to more than ninety percent of the foster care maintenance payment for that child had he or she remained in a foster family home during the same period. (4) \$1,130,000 of the general fund--state appropriation for fiscal year 2012 and \$1,130,000 of the general fund--state appropriation for fiscal year 2013 are provided solely to implement alcohol and substance abuse treatment programs for locally committed offenders. The juvenile rehabilitation administration shall award these moneys on a competitive basis to counties that submitted a plan for the provision of services approved by the division of alcohol and substance abuse. The juvenile rehabilitation administration shall develop criteria for evaluation of plans submitted and a timeline for awarding funding and shall assist counties in creating and submitting plans for evaluation.

(5) \$3,123,000 of the general fund--state appropriation for fiscal year 2012 and \$3,123,000 of the general fund--state appropriation for fiscal year 2013 are provided solely for grants to county juvenile courts for the following programs identified by the Washington state institute for public policy (institute) in its October 2006 report: "Evidence-Based Public Policy Options to Reduce Future Prison Construction, Criminal Justice Costs and Crime Rates": Functional family therapy, multi-systemic therapy, aggression replacement training and interagency coordination programs, or other programs with a positive benefit-cost finding in the institute's report. County juvenile courts shall apply to the juvenile rehabilitation administration for funding for program-specific participation and the administration shall provide grants to the courts consistent with the per-participant treatment costs identified by the institute.

(6) \$1,537,000 of the general fund--state appropriation for fiscal year 2012 and \$1,537,000 of the general fund--state appropriation for fiscal year 2013 are provided solely for expansion of the following treatments and therapies in juvenile rehabilitation administration programs identified by the Washington state institute for public policy

in its October 2006 report: "Evidence-Based Public Policy Options to Reduce Future Prison Construction, Criminal Justice Costs and Crime Rates": Multidimensional treatment foster care, family integrated transitions, and aggression replacement training, or other programs with a positive benefit-cost finding in the institute's report. The administration may concentrate delivery of these treatments and therapies at a limited number of programs to deliver the treatments in a cost-effective manner.

(7)(a) The juvenile rehabilitation administration shall administer a block grant, rather than categorical funding, of consolidated juvenile service funds, community juvenile accountability act grants, the chemical dependency disposition alternative funds, the mental health disposition alternative, and the sentencing disposition alternative for the purpose of serving youth adjudicated in the juvenile justice system. In making the block grant, the juvenile rehabilitation administration shall follow the following formula and will prioritize evidence-based programs and disposition alternatives and take into account juvenile courts program-eligible youth in conjunction with the number of youth served in each approved evidence-based program or disposition alternative: (i) Thirty-seven and one-half percent for the at-risk population of youth ten to seventeen years old; (ii) fifteen percent for moderate and high-risk youth; (iii) twenty-five percent for evidence-based program participation; (iv) seventeen and one-half percent for minority populations; (v) three percent for the chemical dependency disposition alternative; and (vi) two percent for the mental health and sentencing dispositional alternatives. Funding for the special sex offender disposition alternative (SSODA) shall not be included in the block grant, but allocated on the average daily population in juvenile courts. Funding for the evidence-based expansion grants shall be excluded from the block grant formula. Funds may be used for promising practices when approved by the juvenile rehabilitation administration and juvenile courts, through the community juvenile accountability act committee, based on the criteria established in consultation with Washington state institute for public policy and the juvenile courts.

(b) The juvenile rehabilitation administration shall phase the implementation of the formula provided in subsection (1) of this section by including a stop-loss formula of five percent in fiscal year 2012 and five percent in fiscal year 2013.

(c) The juvenile rehabilitation administration and the juvenile courts shall establish a block grant funding formula oversight committee with equal representation from the juvenile rehabilitation administration and the juvenile courts. The purpose of this committee is to assess the ongoing implementation of the block grant funding formula, utilizing data-driven decision making and the most current available information. The committee will be cochaired by the juvenile rehabilitation administration and the juvenile courts, who will also have the ability to change members of the committee as needed to achieve its purpose. Initial members will include one juvenile court representative from the finance committee, the community juvenile accountability act committee, the risk assessment quality assurance committee, the executive board of the Washington association of juvenile court administrators, the Washington state center for court research, and a representative of the superior court judges association; two representatives from the juvenile rehabilitation administration headquarters program oversight staff, two representatives of the juvenile rehabilitation administration regional office staff, one representative of the juvenile rehabilitation administration fiscal staff and a juvenile rehabilitation administration division director. The committee may make changes to the formula categories other than the evidence-based program and disposition alternative categories if it is determined the changes will increase statewide service delivery or effectiveness of evidence-based program or disposition alternative resulting in increased cost benefit savings to the state. Long-term cost benefit must be considered. Percentage changes may occur in the evidence-based program or disposition

alternative categories of the formula should it be determined the changes will increase evidence-based program or disposition alternative delivery and increase the cost benefit to the state. These outcomes will also be considered in determining when evidence-based expansion or special sex offender disposition alternative funds should be included in the block grant or left separate.

(d) The juvenile courts and administrative office of the courts shall be responsible for collecting and distributing information and providing access to the data systems to the juvenile rehabilitation administration and the Washington state institute for public policy related to program and outcome data. The juvenile rehabilitation administration and the juvenile courts will work collaboratively to develop program outcomes that reinforce the greatest cost benefit to the state in the implementation of evidence-based practices and disposition alternatives.

(8) The juvenile courts and administrative office of the courts shall collect and distribute information related to program outcome and provide access to these data systems to the juvenile rehabilitation administration and Washington state institute for public policy. Consistent with chapter 13.50 RCW, all confidentiality agreements necessary to implement this information-sharing shall be approved within 30 days of the effective date of this section. The agreements between administrative office of the courts, the juvenile courts, and the juvenile rehabilitation administration shall be executed to ensure that the juvenile rehabilitation administration receives the data that the juvenile rehabilitation administration identifies as needed to comply with this subsection. This includes, but is not limited to, information by program at the statewide aggregate level, individual court level, and individual client level for the purpose of the juvenile rehabilitation administration providing quality assurance and oversight for the locally committed youth block grant and associated funds and at times as specified by the juvenile rehabilitation administration as necessary to carry out these functions. The data shall be provided in a manner that reflects the collaborative work the juvenile rehabilitation administration and juvenile courts have developed regarding program outcomes that reinforce the greatest cost benefit to the state in the implementation of evidence-based practices and disposition alternatives.

(9) The Washington association of juvenile court administrators and the juvenile rehabilitation administration, in consultation with the community juvenile accountability act advisory committee and the Washington state institute for public policy, shall analyze and review data elements available from the administrative office of the courts for possible integration into the evidence-based program quality assurance plans and processes. The administrative office of the courts, the Washington association of juvenile court administrators, and the juvenile rehabilitation administration shall provide information necessary to complete the review and analysis. The Washington association of juvenile court administrators and the juvenile rehabilitation administration shall report the findings of their review and analysis, as well as any recommendations, to the legislature by December 1, 2012.

\$324,319,000

General Fund--Federal Appropriation (~~(\$448,732,000)~~)
\$449,593,000

Appropriation (~~(\$6,802,000)~~)
\$5,251,000

TOTAL APPROPRIATION (~~(\$1,113,772,000)~~)
\$1,114,761,000

The appropriations in this subsection are subject to the following conditions and limitations:

(a) \$109,342,000 of the general fund--state appropriation for fiscal year 2012 and \$109,341,000 of the general fund--state appropriation for fiscal year 2013 are provided solely for persons and services not covered by the medicaid program. This is a reduction of \$4,348,000 each fiscal year from the nonmedicaid funding that was allocated for expenditure by regional support networks during fiscal year 2011 prior to supplemental budget reductions. This \$4,348,000 reduction shall be distributed among regional support networks proportional to each network's share of the total state population. To the extent possible, levels of regional support network spending shall be maintained in the following priority order: (i) Crisis and commitment services; (ii) community inpatient services; and (iii) residential care services, including personal care and emergency housing assistance.

(b) \$6,590,000 of the general fund--state appropriation for fiscal year 2012, \$6,590,000 of the general fund--state appropriation for fiscal year 2013, and \$7,620,000 of the general fund--federal appropriation are provided solely for the department and regional support networks to continue to contract for implementation of high-intensity programs for assertive community treatment (PACT) teams. In determining the proportion of medicaid and nonmedicaid funding provided to regional support networks with PACT teams, the department shall consider the differences between regional support networks in the percentages of services and other costs associated with the teams that are not reimbursable under medicaid. The department may allow regional support networks which have nonmedicaid reimbursable costs that are higher than the nonmedicaid allocation they receive under this section to supplement these funds with local dollars or funds received under section 204(1)(a) of this act. The department and regional support networks shall maintain consistency with all essential elements of the PACT evidence-based practice model in programs funded under this section.

(c) \$5,850,000 of the general fund--state appropriation for fiscal year 2012, \$5,850,000 of the general fund--state appropriation for fiscal year 2013, and \$1,300,000 of the general fund--federal appropriation are provided solely for the western Washington regional support networks to provide either community- or hospital campus-based services for persons who require the level of care previously provided by the program for adaptive living skills (PALS) at western state hospital.

(d) The number of nonforensic beds allocated for use by regional support networks at eastern state hospital shall be 192 per day. The number of nonforensic beds allocated for use by regional support networks at western state hospital shall be 557 per day.

(e) From the general fund--state appropriations in this subsection, the secretary of social and health services shall assure that regional support networks reimburse the aging and disability services administration for the general fund--state cost of medicaid personal care services that enrolled regional support network consumers use because of their psychiatric disability.

(f) \$4,582,000 of the general fund--state appropriation for fiscal year 2012 and \$4,582,000 of the general fund--state appropriation for fiscal year 2013 are provided solely for mental health services for mentally ill offenders while confined in a county or city jail and for facilitating access to programs that offer mental health services upon release from confinement. Beginning in fiscal year 2013, the department shall report regional outcome data on individuals in jail who are referred for regional support network services. By December 1, 2012, the department shall provide a report to the relevant fiscal

and policy committees of the legislature on the number of individuals referred to the program who had an evaluation for regional support network services either during incarceration or within 30 and 60 days of release from jail; and the number who were made newly eligible or reinstated to eligibility for medical assistance services either during incarceration or within 30 and 60 days of release from jail. In addition, the report shall identify how many of the individuals who were determined to be eligible for regional support network services received additional outpatient services within 30 and 60 days of release from incarceration.

(g) The department is authorized to continue to contract directly, rather than through contracts with regional support networks, for children's long-term inpatient facility services.

(h) \$750,000 of the general fund--state appropriation for fiscal year 2012 and \$750,000 of the general fund--state appropriation for fiscal year 2013 are provided solely to continue performance-based incentive contracts to provide appropriate community support services for individuals with severe mental illness who were discharged from the state hospitals as part of the expanding community services initiative. These funds will be used to enhance community residential and support services provided by regional support networks through other state and federal funding.

(i) \$1,125,000 of the general fund--state appropriation for fiscal year 2012 and \$1,125,000 of the general fund--state appropriation for fiscal year 2013 are provided solely for the Spokane regional support network to implement services to reduce utilization and the census at eastern state hospital. Such services shall include:

(i) High intensity treatment team for persons who are high utilizers of psychiatric inpatient services, including those with co-occurring disorders and other special needs;

(ii) Crisis outreach and diversion services to stabilize in the community individuals in crisis who are at risk of requiring inpatient care or jail services;

(iii) Mental health services provided in nursing facilities to individuals with dementia, and consultation to facility staff treating those individuals; and

(iv) Services at the sixteen-bed evaluation and treatment facility.

At least annually, the Spokane regional support network shall assess the effectiveness of these services in reducing utilization at eastern state hospital, identify services that are not optimally effective, and modify those services to improve their effectiveness.

(j) \$1,529,000 of the general fund--state appropriation for fiscal year 2012 and \$1,529,000 of the general fund--state appropriation for fiscal year 2013 are provided solely to reimburse Pierce and Spokane counties for the cost of conducting 180-day commitment hearings at the state psychiatric hospitals.

(k) Regional support networks may use local funds to earn additional federal medicaid match, provided the locally matched rate does not exceed the upper-bound of their federally allowable rate range, and provided that the enhanced funding is used only to provide medicaid state plan or waiver services to medicaid clients. Additionally, regional support networks may use a portion of the state funds allocated in accordance with (a) of this subsection to earn additional medicaid match, but only to the extent that the application of such funds to medicaid services does not diminish the level of crisis and commitment, community inpatient, residential care, and outpatient services presently available to persons not eligible for medicaid.

(l) Given the recent approval of federal medicaid matching funds for the disability lifeline and the alcohol and drug abuse treatment support act programs, the department shall charge regional support networks for only the state share rather than the total cost of community psychiatric hospitalization for persons enrolled in those programs.

(m) \$750,000 of the general fund--state appropriation for fiscal year 2012, \$750,000 of the general fund--state appropriation for fiscal

year 2013, and \$1,500,000 of the general fund--federal appropriation are provided solely to adjust regional support network capitation rates to account for the per diem rates actually paid for psychiatric care provided at hospitals participating in the certified public expenditure program operated pursuant to section 213 of this act.

(n) The appropriations in this section reflect efficiencies to be achieved through voluntary consolidation of regional support networks in accordance with Substitute House Bill No. 2139 (regional support networks). Voluntary consolidation of regional support networks is expected to result in administrative efficiencies and maximize dollars available for direct services to individuals with mental illnesses without corresponding increases in state appropriations.

General Fund--Private/Local Appropriation \$184,000

TOTAL APPROPRIATION ~~((1,585,385,000))~~

\$1,577,982,000

The appropriations in this subsection are subject to the following conditions and limitations:

(a) Individuals receiving services as supplemental security income (SSI) state supplemental payments shall not become eligible for medical assistance under RCW 74.09.510 due solely to the receipt of SSI state supplemental payments.

(b) Amounts appropriated in this subsection reflect a reduction to funds appropriated for in-home care. The department shall reduce the number of in-home hours authorized. The reduction shall be scaled based on the acuity level of care recipients. The largest hour reductions shall be to lower acuity patients and the smallest hour reductions shall be to higher acuity patients.

(c) Amounts appropriated in this subsection are sufficient to develop and implement the use of a consistent, statewide outcome-based vendor contract for employment and day services by July 1, 2012. The rates paid to vendors under this contract shall also be made consistent. In its description of activities the agency shall include activity listings and dollars appropriated for: Employment services, day services, child development services and county administration of services to the developmentally disabled. The department shall begin reporting to the office of financial management on these activities beginning in fiscal year 2010.

(d) \$944,000 of the general fund--state appropriation for fiscal year 2012, \$944,000 of the general fund--state appropriation for fiscal year 2013, and \$1,888,000 of the general fund--federal appropriation are provided solely for state contributions for individual provider health care benefits. Pursuant to the collective bargaining agreement negotiated with the exclusive bargaining representative of individual providers established under RCW 74.39A.270, the state shall contribute to the multiemployer health benefits trust fund ~~((1-96))~~ \$2.21 per paid hour worked by individual providers.

~~(e) ((1,871,000 of the general fund--state appropriation for fiscal year 2012, \$1,995,000 of the general fund--state appropriation for fiscal year 2013, and \$3,865,000 of the general fund--federal appropriation are provided solely for home care agencies to purchase health coverage for home care providers. The department shall calculate and distribute payments for health care benefits to home care agencies at \$558 per month for each worker who cares for publicly funded clients at 86 hours or more per month. In order to negotiate the most comprehensive health benefits package for its employees, each agency may determine benefit levels according to the hours an employee works providing state-funded personal care. Health benefits shall be offered to all employees who care for publicly funded clients for 86 hours per month or more. At a minimum, employees who care for publicly funded clients at 140~~

~~hours a month or greater must receive a comprehensive medical benefit. Benefits shall not be provided to employees who care for publicly funded clients at 85 hours or less per month or as interim respite workers. The department shall not pay an agency for benefits provided to an employee who otherwise receives health care coverage through other family members, other employment-based coverage, or military or veteran's coverage. The department shall require annually, each home care agency to review each of its employee's available health coverage and to provide a written declaration to the department verifying that health benefits purchased with public funds are solely for employees that do not have other available coverage. Home care agencies may determine a reasonable employee co-premium not to exceed 20 percent of the total benefit cost.~~

This amount is pursuant to the collective bargaining agreement negotiated with the exclusive bargaining representative of individual providers established under RCW 74.39A.270.)~~ Contributions are funded at \$0.22 per benefit-eligible paid hour worked by all home care workers. Expenditures for the purposes specified in this subsection shall not exceed the amounts provided in this subsection. However, if the governor and the service employees international union healthcare 775nw can reach agreement on repurposing funding that is currently provided in the individual provider collective bargaining agreement for new individual provider wages paid during training or other training related items, then expenditures for training trust contributions for individual providers may include the amounts provided in this subsection and the agreed upon repurposed funding. Funding in this section for purposes other than the individual provider collective bargaining agreement cannot be used for the purposes of this subsection (1)(e). It is the intent of the legislature that the funding provided in this subsection, including any repurposed funding, is sufficient to cover the costs of individual provider training and therefore tuition or other entrance fees are not necessary.~~

~~(f) \$104,669,000 of the general fund--state appropriation for fiscal year 2013 and \$104,669,000 of the general fund--federal appropriation are provided solely for the department to provide personal care services to waiver and nonwaiver in-home clients. The department shall provide the legislature with a report by December 5, 2012, on the feasibility of converting the medicaid personal care program for in-home adults to a medicaid program as found in section 1915(i) of the federal social security act that utilizes the option for self-direction of individualized budgets. The department shall operate the personal care program within the amounts specifically provided.~~

~~(g)(i) Within the amounts appropriated in this subsection, the department shall revise the current working age adult policy to allow clients to choose between employment and community access activities. Clients age 21 and older who are receiving services through a home- and community-based medicaid waiver shall be offered the choice to transition to a community access program after nine months of enrollment in an employment program, and the option to transition from a community access program to an employment program at any time. The department shall inform clients and their legal representatives of all available options for employment and day services. Information provided to the client and the client's legal representative shall include the types of activities each service option provides, and the amount, scope, and duration of service for which the~~

client would be eligible under each service option. An individual client may be authorized for only one service option, either employment services or community access services. Clients may not participate in more than one of these services at any given time.

(ii) The department shall work with counties and stakeholders to strengthen and expand the existing community access program. The program must emphasize support for the client so they are able to participate in activities that integrate them into their community and support independent living and skills.

(iii) The appropriation in this subsection includes funding to provide employment or community access services to 168 medicaid eligible young adults with developmental disabilities living with their families who need employment opportunities and assistance after high school graduation.

(h) \$75,000 of the general fund--state appropriation for fiscal year 2012 and \$75,000 of the general fund--state appropriation for fiscal year 2013 are provided solely for the restoration of direct support to local organizations that utilize parent-to-parent networks and communication to promote access and quality of care for individuals with developmental disabilities and their families.

(i) In accordance with Engrossed Substitute House Bill No. 1277 (licensed settings for vulnerable adults), adult family home license fees are increased in fiscal years 2012 and 2013 to support the costs of conducting licensure, inspection, and regulatory programs.

(i) The current annual renewal license fee for adult family homes shall be increased to \$100 per bed beginning in fiscal year 2012 and \$175 per bed beginning in fiscal year 2013. Adult family homes shall receive a corresponding vendor rate increase per medicaid patient day of \$0.22 in fiscal year 2012 and \$0.43 in fiscal year 2013 ~~(to cover the cost of the license fee increase for publicly funded beds), or the amount necessary to fully fund the license fee increase for publicly funded beds, pursuant to the most recent bed estimates maintained by the department.~~

(ii) Beginning in fiscal year 2012, a processing fee of \$2,750 shall be charged to each adult family home when the home is initially licensed. This fee is nonrefundable.

(j) Clients with developmental disabilities have demonstrated a need and a desire for a day services program as verified by over 900 clients currently accessing day programs through a long-term care service model. In addition, every individual, to include those with a developmental disability, should have the opportunity for meaningful employment which allows them to contribute to their communities and to become as self-sufficient as possible. Providing choice empowers recipients of publicly funded services and their families by expanding their degree of control over the services and supports they need.

The department shall work with legislators and stakeholders to develop a new approach to employment and day services. The objective of this plan is to ensure that adults with developmental disabilities have optimum choices, and that employment and day offerings are comprehensive enough to meet the needs of all clients currently served on a home and community based waiver. The proposal shall be submitted to the 2012 legislature for consideration and shall be constructed such that a client ultimately receives employment, community access, or the community day option but not more than one service at a time. \$88,000,000

TOTAL APPROPRIATION (~~(\$3,385,886,000)~~)
\$3,410,729,000

The appropriations in this section are subject to the following conditions and limitations:

(1) For purposes of implementing chapter 74.46 RCW, the weighted average nursing facility payment rate shall not exceed \$170.37 for fiscal year 2012 and shall not exceed \$171.43 for fiscal year 2013, including the rate add-ons described in (a) and (b) of this subsection. However, if the waiver requested from the federal centers for medicare and medicaid services in relation to the safety net assessment created by Engrossed Substitute Senate Bill No. 5581 (nursing home payments) is for any reason not approved and implemented, the weighted average nursing facility payment rate shall not exceed \$159.87 for fiscal year 2012 and shall not exceed \$160.93 for fiscal year 2013. There will be no adjustments for economic trends and conditions in fiscal years 2012 and 2013. The economic trends and conditions factor or factors defined in the biennial appropriations act shall not be compounded with the economic trends and conditions factor or factors defined in any other biennial appropriations acts before applying it to the component rate allocations established in accordance with chapter 74.46 RCW. When no economic trends and conditions factor for either fiscal year

is defined in a biennial appropriations act, no economic trends and conditions factor or factors defined in any earlier biennial appropriations act shall be applied solely or compounded to the component rate allocations established in accordance with chapter 74.46 RCW.

(a) Within the funds provided, the department shall continue to provide an add-on per medicaid resident day per facility not to exceed \$1.57. The add-on shall be used to increase wages, benefits, and/or staffing levels for certified nurse aides; or to increase wages and/or benefits for dietary aides, housekeepers, laundry aides, or any other category of worker whose statewide average dollars-per-hour wage was less than \$15 in calendar year 2008, according to cost report data. The add-on may also be used to address resulting wage compression for related job classes immediately affected by wage increases to low-wage workers. The department shall continue reporting requirements and a settlement process to ensure that the funds are spent according to this subsection.

(b) The department shall do a comparative analysis of the facility-based payment rates calculated on July 1, ~~((2011))~~ 2012, using the payment methodology defined in ~~((Engrossed Substitute Senate Bill No. 5581 (nursing home payments)))~~ chapter 74.46 RCW and as funded in the omnibus appropriations act, excluding the comparative add-on, acuity add-on, and safety net reimbursement, to the facility-based payment rates in effect June 30, 2010. If the facility-based payment rate calculated on July 1, ~~((2011))~~ 2012, is smaller than the facility-based payment rate on June 30, 2010, then the difference shall be provided to the individual nursing facilities as an add-on payment per medicaid resident day.

(c) During the comparative analysis performed in subsection (b) of this section, if it is found that the direct care rate for any facility calculated using the payment methodology defined in ~~((Engrossed Substitute Senate Bill No. 5581 (nursing home payments)))~~ chapter 74.46 RCW and as funded in the omnibus appropriations act, excluding the comparative add-on, acuity add-on, and safety net reimbursement, is greater than the direct care rate in effect on June 30, 2010, then the facility shall receive a ten percent direct care rate add-on to compensate that facility for taking on more acute clients than they have in the past.

(d) The department shall provide a medicaid rate add-on to reimburse the medicaid share of the skilled nursing facility safety net assessment as a medicaid allowable cost. The nursing facility safety net rate add-on may not be included in the calculation of the annual statewide weighted average nursing facility payment rate.

(e) If the waiver requested from the federal centers for medicare and medicaid services in relation to the safety net assessment created by Engrossed Substitute Senate Bill No. 5581 (nursing home payments) is for any reason not approved and implemented, ~~((subsections))~~ (b), (c), and (d) of this subsection do not apply.

(2) After examining actual nursing facility cost information, the legislature finds that the medicaid nursing facility rates calculated pursuant to Engrossed Substitute Senate Bill No. 5581 (nursing home payments) provide sufficient reimbursement to efficiently and economically operating nursing facilities and bear a reasonable relationship to costs.

(3) In accordance with chapter 74.46 RCW, the department shall issue no additional certificates of capital authorization for fiscal year 2012 and no new certificates of capital authorization for fiscal year 2013 and shall grant no rate add-ons to payment rates for capital improvements not requiring a certificate of need and a certificate of capital authorization for fiscal years 2012 and 2013.

(4) The long-term care program may develop and pay enhanced rates for exceptional care to nursing homes for persons with traumatic brain injuries who are transitioning from hospital care. The cost per patient day for caring for these clients in a nursing home setting may be equal to or less than the cost of caring for these clients in a hospital setting.

(5) Amounts appropriated in this section reflect a reduction to funds appropriated for in-home care. The department shall reduce the number of in-home hours authorized. The reduction shall be scaled based on the acuity level of care recipients. The largest hour reductions shall be to lower acuity patients and the smallest hour reductions shall be to higher acuity patients.

The department shall calculate and distribute payments for health care benefits to home care agencies at \$558 per month for each worker who cares for publicly funded clients at 86 hours or more per month. In order to negotiate the most comprehensive health benefits package for its employees, each agency may determine benefit levels according to the hours an employee works providing state funded personal care. Health benefits shall be offered to all employees who care for publicly funded clients for 86 hours per month or more. At a minimum, employees who care for publicly funded clients at 140 hours a month or greater must receive a comprehensive medical benefit. Benefits shall not be provided to employees who care for publicly funded clients at 85 hours or less per month or as interim respite workers. The department shall not pay an agency for benefits provided to an employee who otherwise receives health care coverage through other family members, other employment based coverage, or military or veteran's coverage. The department shall require annually, each home care agency to review each of its employee's available health coverage and to provide a written declaration to the department verifying that health benefits purchased with public funds are solely for employees that do not have other available coverage. This amount is pursuant to the collective bargaining agreement negotiated with the exclusive bargaining representative of individual providers established under RCW 74.39A.270.))~~ Contributions are funded at \$0.22 per benefit-eligible paid hour worked by all home care workers. However, if the governor and the service employees international union healthcare 775nw can reach agreement on repurposing funding that is currently provided in the individual provider collective bargaining agreement for new individual provider wages paid during training or other training related items, then expenditures for training trust contributions for individual providers may include the amounts provided in this subsection and the agreed upon repurposed funding. Funding in this section for purposes other

than the individual provider collective bargaining agreement cannot be used for the purposes of this subsection (7). It is the intent of the legislature that the funding provided in this subsection, including any repurposed funding, is sufficient to cover the costs of individual provider training and therefore tuition or other entrance fees are not necessary.

The appropriations in this section are subject to the following conditions and limitations:

(1) The appropriations to the authority in this act shall be expended for the purposes and in the amounts specified in this act. To the extent that appropriations in this section are insufficient to fund actual expenditures in excess of caseload forecasts and utilization assumptions, the authority, after May 1, 2012, may transfer general fund--state appropriations for fiscal year 2012 that are provided solely for a specified purpose. The authority shall not transfer funds, and the director of financial management shall not approve the transfer, unless the transfer is consistent with the objective of conserving, to the maximum extent possible, the expenditure of state funds. The director of financial management shall notify the appropriate fiscal committees of the senate and house of representatives in writing seven days prior to approving any

allotment modifications or transfers under this subsection. The written notification shall include a narrative explanation and justification of the changes, along with expenditures and allotments by budget unit and appropriation, both before and after any allotment modifications or transfers.

~~((2))~~ (3) The health care authority shall require organizations and individuals that are paid to deliver basic health plan services and that choose to sponsor enrollment in the subsidized basic health plan to pay 133 percent of the premium amount which would otherwise be due from the sponsored enrollees.

~~((3))~~ (4)(a) \$1,200,000 of the general fund--state appropriation for fiscal year 2012 is provided solely to plan the implementation of a system of consolidated public school employee health benefits purchasing.

It is the intent of the legislature to improve the administration, transparency, and equity in delivering a K-12 employees' health benefits system. In addition, the legislature intends that any cost savings that result from changes to K-12 health benefits be dedicated to public schools.

To further this legislative intent, the state health care authority shall develop a plan to implement a consolidated health benefits' system for K-12 employees for the 2013-14 school year. The health care authority shall deliver a report to the legislature by December 15, 2011, that sets forth the implementation plan to the ways and means committees of the house of representatives and the senate.

(b) The report prepared by the health care authority shall compare and contrast the costs and benefits, both long and short term, of:

- (i) The current K-12 health benefits system;
- (ii) A new K-12 employee benefits pool; and
- (iii) Enrolling K-12 employees into the health benefits pool for state employees.

(c) In addition to the implementation plan, the report shall include the following information:

(i) The costs and benefits of the current K-12 health benefits system;

(ii) The costs and benefits of providing a new statewide K-12 employees' health benefits pool to school districts and school employees;

(iii) The costs and benefits of enrolling K-12 employees into the existing health benefits pool for state employees;

(iv) Recommendations of ways to limit administrative duplication and costs, improve transparency to employees, the legislature, and the public and assure equity among beneficiaries of publicly provided employee health benefits;

(v) Recommendations for standardizing benefit packages and purchasing efforts in a manner that seeks to maximize funding and equity for all school employees;

(vi) Recommendations regarding the use of incentives, including how changes to state health benefit allocations could provide employees with benefits that would encourage participation;

(vii) Recommendations regarding the implementation of a new K-12 employee benefit plan, with separate options for voluntary participation and mandatory statewide participation;

(viii) Recommendations regarding methods to reduce inequities between individual and family coverage;

(ix) Consolidation of the purchasing and budget accountability for school employee benefits to maximize administrative efficiency and leverage existing skills and resources; and

(x) Other details the health care authority deems necessary, including but not limited to recommendations on the following:

(A) Approaches for implementing the transition to a statewide pool, including administrative and statutory changes necessary to ensure a successful transition, and whether the pool should be separate from, or combined with, the public employees' benefits pool;

(B) The structure of a permanent governing group to provide ongoing oversight to the consolidated pool, in a manner similar to the public employees benefits board functions for employee health benefits, including statutory duties and authorities of the board; and

(C) Options for including potential changes to: Eligibility standardization, the public employees benefits risk pools, the movement of school employee retirees into the new K-12 pool or pools, and the movement of educational service district employees into the new K-12 pool or pools.

(d) In determining its costs and benefits of a new statewide K-12 employees' health benefits pool for school districts and school employees, the health care authority shall assume the following:

(i) School district enrollees must constitute an entire bargaining unit, or an entire group of nonrepresented employees;

(ii) Staffing and administration for benefits purchasing shall be provided by the health care authority; and

The health care authority shall not implement the new school employee benefits pool until authorized to do so by the legislature.

Within the amounts provided in this subsection, funds used by the authority for information technology projects are conditioned on the authority satisfying the requirements of Engrossed Second Substitute Senate Bill No. 5931 (central service agencies).

~~((7))~~ (8) Based on quarterly expenditure reports and caseload forecasts, if the health care authority estimates that expenditures for

the medical assistance program will exceed the appropriations, the health care authority shall take steps including but not limited to reduction of rates or elimination of optional services to reduce expenditures so that total program costs do not exceed the annual appropriation authority.

~~((8))~~ (9) In determining financial eligibility for medicaid-funded services, the health care authority is authorized to disregard recoveries by Holocaust survivors of insurance proceeds or other assets, as defined in RCW 48.104.030.

~~((9))~~ (10) The legislature affirms that it is in the state's interest for Harborview medical center to remain an economically viable component of the state's health care system.

~~((10))~~ (11) When a person is ineligible for medicaid solely by reason of residence in an institution for mental diseases, the health care authority shall provide the person with the same benefits as he or she would receive if eligible for medicaid, using state-only funds to the extent necessary.

~~((13))~~ (13) \$665,000 of the general fund--state appropriation for fiscal year 2012, \$665,000 of the general fund--state appropriation for fiscal year 2013, and \$1,330,000 of the general fund--federal appropriation are provided solely for small rural indigent assistance disproportionate share hospital payments in accordance with RCW 74.09.730(1).

~~((14))~~ (13) \$6,000,000 of the general fund--federal appropriation is provided solely for supplemental payments to nursing homes operated by public hospital districts. The public hospital district shall be responsible for providing the required nonfederal match for the supplemental payment, and the payments shall not exceed the maximum allowable under federal rules. It is the legislature's intent that the payments shall be supplemental to and shall not in any way offset or reduce the payments calculated and provided in accordance with part E of chapter 74.46 RCW. It is the legislature's further intent that costs otherwise allowable for rate-setting and settlement against payments under chapter 74.46 RCW shall not be disallowed solely because such costs have been paid by revenues retained by the nursing home from these supplemental payments. The supplemental payments are subject to retrospective interim and final cost settlements based on the nursing homes' as-filed and final medicare cost reports. The timing of the interim and final cost settlements shall be at the health care authority's discretion. During either the interim cost settlement or the final cost settlement, the health care authority shall recoup from the public hospital districts the supplemental payments that exceed the medicaid cost limit and/or the medicare upper payment limit. The health care authority shall apply federal rules for identifying the eligible incurred medicaid costs and the medicare upper payment limit.

The program shall apply to all public hospitals, including those owned or operated by the state, except those classified as critical access hospitals or state psychiatric institutions. The health care authority shall submit reports to the governor and legislature by November 1, 2011, and by November 1, 2012, that evaluate whether savings continue to exceed costs for this program. If the certified

public expenditures (CPE) program in its current form is no longer cost-effective to maintain, the health care authority shall submit a report to the governor and legislature detailing cost-effective alternative uses of local, state, and federal resources as a replacement for this program. During fiscal year 2012 and fiscal year 2013, hospitals in the program shall be paid and shall retain one hundred percent of the federal portion of the allowable hospital cost for each medicaid inpatient fee-for-service claim payable by medical assistance and one hundred percent of the federal portion of the maximum disproportionate share hospital payment allowable under federal regulations. Inpatient medicaid payments shall be established using an allowable methodology that approximates the cost of claims submitted by the hospitals. Payments made to each hospital in the program in each fiscal year of the biennium shall be compared to a baseline amount. The baseline amount will be determined by the total of (a) the inpatient claim payment amounts that would have been paid during the fiscal year had the hospital not been in the CPE program based on the reimbursement rates developed, implemented, and consistent with policies approved in the 2011-13 biennial operating appropriations act and in effect on July 1, 2011, (b) one half of the indigent assistance disproportionate share hospital payment amounts paid to and retained by each hospital during fiscal year 2005, and (c) all of the other disproportionate share hospital payment amounts paid to and retained by each hospital during fiscal year 2005 to the extent the same disproportionate share hospital programs exist in the 2011-13 biennium. If payments during the fiscal year exceed the hospital's baseline amount, no additional payments will be made to the hospital except the federal portion of allowable disproportionate share hospital payments for which the hospital can certify allowable match. If payments during the fiscal year are less than the baseline amount, the hospital will be paid a state grant equal to the difference between payments during the fiscal year and the applicable baseline amount. Payment of the state grant shall be made in the applicable fiscal year and distributed in monthly payments. The grants will be recalculated and redistributed as the baseline is updated during the fiscal year. The grant payments are subject to an interim settlement within eleven months after the end of the fiscal year. A final settlement shall be performed. To the extent that either settlement determines that a hospital has received funds in excess of what it would have received as described in this subsection, the hospital must repay the excess amounts to the state when requested. ~~(\$24,677,000)~~ \$8,102,000 of the general fund--state appropriation for fiscal year 2012, of which \$6,570,000 is appropriated in section 204(1) of this act, and ~~(\$21,531,000)~~ \$3,162,000 of the general fund--state appropriation for fiscal year 2013, of which \$6,570,000 is appropriated in section 204(1) of this act, are provided solely for state grants for the participating hospitals. CPE hospitals will receive the inpatient and outpatient reimbursement rate restorations in RCW 74.60.080 and rate increases in RCW 74.60.090 funded through the hospital safety net assessment fund rather than through the baseline mechanism specified in this subsection.

~~((41) The department shall collaborate closely with the Washington state hospital and medical associations in identification of the diagnostic codes and retroactive review procedures that will be used to determine whether an emergency room visit is a nonemergency condition to assure that conditions that require emergency treatment continue to be covered.)~~

(40) The authority, in collaboration with the department of social and health services, the department of health, the Washington state hospital association, the Puget Sound health alliance, the Washington association of community and migrant health centers, and the forum, a collaboration of health carriers, physicians, and hospitals in Washington state, shall design a system of rural health system access and quality incentive payments. The incentive payments must be linked to explicit performance measures that consider not only services provided by health care providers, but also the role that providers might play in the rural health delivery systems in their communities, including the provision of long-term care services. In designing the incentive payment system, the authority shall consider the department of health's necessary provider criteria for critical access hospitals, the quality measures used to determine quality incentive payments under RCW 74.60.130, and any other performance measures that would promote access and quality in rural health systems. The authority, in conjunction with those groups identified in this subsection, shall develop parameters for determining criteria for increased payment, alternative payment methodologies, or other incentives for those providers that improve and achieve sustained improvement with respect to the measures. The design of the system shall be submitted to the relevant policy and fiscal committees of the legislature by December 15, 2012.

(41) \$150,000 of the general fund--state appropriation for fiscal year 2012 and \$1,964,000 of the general fund--state appropriation for fiscal year 2013 are provided solely to implement Engrossed Second Substitute House Bill No. 2319 (affordable care act). If the bill is not enacted by June 30, 2012, the amounts provided in this subsection shall lapse.

(42) \$1,109,000 of the general fund--state appropriation for fiscal year 2012, \$1,471,000 of the general fund--state appropriation for fiscal year 2013, and \$21,890,000 of the general fund--federal appropriation are provided solely to implement phase two of the project to create a single provider payment system that consolidates medicare medical and social services payments and replaces the social service payment system.

(43) In order to achieve the twelve percent reduction in emergency room expenditures in the fiscal year 2013 appropriations provided in this section, the authority, in consultation with the Washington state hospital association, the Washington state medical association, and the Washington chapter of the American college of

emergency physicians shall designate best practices and performance measures to reduce medically unnecessary emergency room visits of medicaid clients. The Washington state hospital association, the Washington state medical association, and the Washington chapter of the American college of emergency physicians will work with the authority to promote these best practices. The best practices and performance measures shall consist of the following items:

(a) Adoption of a system to exchange patient information among emergency room departments on a regional or statewide basis;

(b) Active dissemination of patient educational materials produced by the Washington state hospital association, Washington state medical association, and the Washington chapter of the American college of emergency physicians that instruct patients on appropriate facilities for nonemergent health care needs;

(c) Designation of hospital personnel and emergency room physician personnel to receive and appropriately disseminate information on clients participating in the medicaid patient review and coordination program and to review monthly utilization reports on those clients provided by the authority;

(d) A process to assist the authority's patient review and coordination program clients with their care plans. The process must include substantial efforts by hospitals to schedule an appointment with the client's assigned primary care provider within seventy-two hours of the client's medically unnecessary emergency room visit when appropriate under the client's care plan;

(e) Implementation of narcotic guidelines that incorporate the Washington chapter of the American college of emergency physician guidelines;

(f) Physician enrollment in the state's prescription monitoring program, as long as the program is funded; and

(g) Designation of a hospital emergency department physician responsible for reviewing the state's medicaid utilization management feedback reports, which will include defined performance measures. The emergency department physician and hospital will have a process to take appropriate action in response to the information in the feedback reports if performance measures are not met. The authority must develop feedback reports that include timely emergency room utilization data such as visit rates, medically unnecessary visit rates (by hospital and by client), emergency department imaging utilization rates, and other measures as needed. The authority may utilize the Robert Bree collaborative for assistance related to this best practice.

The requirements for best practices for a critical access hospital should not include adoption of a system to exchange patient information if doing so would pose a financial burden, and should not include requirements related to the authority's patient review and coordination program if the volume of those patients seen at the critical access hospital are small.

Hospitals participating in this medicaid best practices program shall submit to the authority a declaration from executive level leadership indicating hospital adoption of and compliance with the best practices enumerated above. In the declaration, hospitals will affirm that they have in place written policies, procedures, or guidelines to implement these best practices and are willing to share them upon request. The declaration must also give consent for the authority to disclose feedback reports and performance measures on its web site. The authority shall submit a list of declaring hospitals to the relevant policy and fiscal committees of the legislature by July 15, 2012.

If the authority does not receive by July 1, 2012, declarations from hospitals representing at least seventy-five percent of emergency room visits by medicaid clients in fiscal year 2010, the authority may implement a policy of nonpayment of medically unnecessary emergency room visits, with appropriate client and clinical safeguards such as exemptions and expedited prior authorization. The authority shall by January 15, 2013, perform a preliminary fiscal analysis of trends in implementing the best practices in this subsection, focusing

on outlier hospitals with high rates of unnecessary visits by medicaid clients, high emergency room visit rates for patient review and coordination clients, low rates of completion of treatment plans for patient review and coordination clients assigned to the hospital, and high rates of prescribed long-acting opiates. In cooperation with the leadership of the hospital, medical, and emergency physician associations, additional efforts shall be focused on assisting those outlier hospitals and providers to achieve more substantial savings. The authority by January 15, 2013, will report to the legislature about whether assumed savings based on preliminary trend and forecasted data are on target and if additional best practices or other actions need to be implemented.

If necessary, pursuant to RCW 34.05.350(1)(c), the authority may employ emergency rulemaking to achieve the reductions assumed in the appropriations under this section.

Nothing in this subsection shall in any way impact the authority's ability to adopt and implement policies pertaining to the patient review and coordination program.

(44) \$25,000 of the hospital safety net assessment--state appropriation and \$25,000 of the general fund--federal appropriation are provided solely for the authority to review and report on the payment of facility fees in programs administered by the authority. The study shall include a summary of state and federal requirements and practices with regard to the use of such fees; an analysis of how authority payments for services and procedures that include an explicit facility fee component compare to amounts paid for comparable services and procedures that do not; the amount expended for facility fees by major program and service in each of the four most recent years for which reasonably complete and comparable information is available; an analysis of the extent to which hospital acquisition of physician practices and of laboratory, imaging, and other outpatient diagnostic and treatment services has contributed to increased state expenditures; and the authority's recommendations regarding possible revisions to calculation and payment of such fees. The authority shall report its finding and recommendations to the health care and appropriate fiscal committees of the legislature by November 1, 2012.

(45) Prior to entering into a contract for medicaid managed care services for the period commencing July 1, 2012, the director of the health care authority shall certify to the governor and to the health care committees of the legislature that the contractor has established a network of acute, primary, and specialty care providers that is sufficient to meet the needs of the contractor's anticipated enrollee population. If no plan is able to certify an adequate provider network in a county, the health care authority shall request re-bids from all plans which originally submitted bids for the county during the regular procurement process until award is successful. No county, that is currently served by Medicaid managed care services shall revert to fee-for-service as a result of the procurement process.

(46) The department shall seek a medicaid state plan amendment to create a graduate medical education supplemental payment for services delivered to managed care recipients by University of Washington medicine and other public professional providers. This program shall be effective as soon as administratively possible and shall operate concurrently with the existing professional services supplemental payment program. Providers that participate in the graduate medical education supplemental payment program are not eligible to participate in the professional services supplemental payment program. The department shall apply federal rules for identifying the difference between current physician encounter and fee-for-service medicaid payments to participating providers and the applicable federal upper payment limit. Participating providers shall be solely responsible for providing the local funds required to obtain federal matching funds. Any incremental costs incurred by the department in the development, implementation, and maintenance of this program shall be the responsibility of the participating providers.

Participating providers shall retain the full amount of supplemental payments provided under this program, net of any costs related to the program that are disallowed due to audits or litigation against the state.

(47) The authority shall exclude antiretroviral drugs used to treat HIV/AIDS, anticancer medication that is used to kill or slow the growth of cancerous cells, antihemophilic drugs, insulin and other drugs to lower blood glucose, and immunosuppressive drugs from any formulary limitations implemented to operate within the appropriations provided in this section.

(48) If Engrossed Substitute Senate Bill No. 5978 (medicaid fraud) is not enacted by June 30, 2012, the amounts appropriated in this section from the medicaid fraud penalty account--state appropriation shall lapse and an additional \$3,608,000 shall be appropriated from the general fund--state for fiscal year 2013 for medicaid services, fraud detection and prevention activities, recovery of improper payments, and for other medicaid fraud enforcement activities.

(49) The authority may pursue a competitive bidding process for the purchase of lowest cost generic drugs within the medicaid program.

(50) Within the amounts appropriated in this section, the health care authority and the department of social and health services shall implement the state option to provide health homes for enrollees with chronic conditions under section 2703 of the federal affordable care act. The total state match for enrollees who are dually-eligible for both medicare and medicaid and not enrolled in managed care shall be no more than the net savings to the state from the enhanced match rate for its medicaid-only managed care enrollees under section 2703.

(51) The health care authority shall not initiate any services that require expenditure of state general fund moneys unless expressly authorized in this act or other law. The health care authority may seek, receive, and spend, under RCW 43.79.260 through 43.79.282, federal moneys not anticipated in this act as long as the federal funding does not require expenditure of state moneys for the program in excess of amounts anticipated in this act. If the health care authority receives unanticipated unrestricted federal moneys, those moneys shall be spent for services authorized in this act or in any other legislation providing appropriation authority, and an equal amount of appropriated state general fund moneys shall lapse. Upon the lapsing of any moneys under this subsection, the office of financial management shall notify the legislative fiscal committees. As used in this subsection, "unrestricted federal moneys" includes block grants and other funds that federal law does not require to be spent on specifically defined projects or matched on a formula basis by state funds.

(52) \$66,000 of the general fund--state appropriation for fiscal year 2013 and \$66,000 of the general fund--federal appropriation are provided solely to implement Engrossed Second Substitute House Bill No. 2536 (children services/delivery). The department of social and health services' programs responsible for administration of mental health, child welfare, and juvenile justice programs will coordinate with the health care authority on the development of contract terms which facilitate efforts to meet requirements of the bill. If the bill is not enacted by June 30, 2012, the amounts provided in this subsection shall lapse.

(53) The health care authority shall participate in the work group established by the department of corrections in section 220(2) of this act to review release options for elderly and infirm offenders.

(54) \$35,000 of the general fund--state appropriation for fiscal year 2013 and \$35,000 of the general fund--federal appropriation are provided solely for development of a new payment and managed care enhancement reconciliation methodology for rural health clinics. The new methodology shall to the greatest possible extent increase administrative simplicity for the rural health clinics; increase transparency, efficiency, and predictability for the clinics; and shorten

the time elapsing between initial payment and final reconciliation. The new methodology shall be developed in consultation with the rural health clinic association, staff from the office of financial management and the legislative fiscal committees, and the federal centers for medicare and medicaid services. The authority shall contract with a consultant acceptable to the rural health clinic association to assist in preparation of the new methodology, and shall report to the governor and appropriate committees of the legislature by December 1, 2012, on the proposed alternative payment and reconciliation methodology.

(2) Pursuant to RCW 43.135.055, the department is authorized to increase the following fees as necessary to meet the actual costs of conducting business and the appropriation levels in this section: Wastewater discharge permit, not more than 4.34 percent in fiscal year 2012 and 4.62 percent in fiscal year 2013; biosolids permit fee, not more than 10 percent during the biennium; and air contaminate source registration fee, not more than 36 percent during the biennium; agricultural burning acreage and pile burning fees, not more than 25 percent and 100 percent respectively, in fiscal year 2013; and dam safety and inspection fees, not more than 35 percent in fiscal year 2012 and 4.62 percent in fiscal year 2013. Any fee increase implemented to offset general fund--state reductions in the 2011-2013 fiscal biennium may be made effective on or before July 1, 2012.

(3) If Substitute House Bill No. 1294 (Puget Sound corps) is not enacted by June 30, 2011, \$322,000 of the general fund--state appropriation for fiscal year 2012 and \$322,000 of the general fund--state appropriation for fiscal year 2013 shall be transferred to the department of natural resources.

(4) \$463,000 of the state toxics control account--state appropriation is provided solely for implementation of Engrossed Second Substitute House Bill No. 1186 (state's oil spill program). If the bill is not enacted by June 30, 2011, the amount provided in this subsection shall lapse.

(5) Pursuant to RCW 70.93.180(5), the appropriations in this section from the waste reduction, recycling, and litter control account shall only be expended on activities listed under RCW 70.93.180(1)(a) and (b), and the department shall not expend appropriations on RCW 70.93.180(1)(c). (6) The department shall make every possible effort through its existing statutory authorities to obtain federal funding for public

Such federal funding shall not limit the total state funding authorized under this section for public participation grants made pursuant to RCW 70.105D.070(5), but the amount of any individual grant from such federal funding shall be offset against any grant award amount to an individual grantee from state funds under RCW 70.105D.070(5).

(7) The department shall review its water rights application review procedures to simplify the procedures, eliminate unnecessary steps, and decrease the time required to issue decisions. The department shall implement changes to improve water rights processing for which it has current administrative authority. For the purposes of water budget-neutral requests under chapter 173-539A WAC, multiple domestic connections authorized within a single water budget-neutral decision are considered one decision for the purposes of this subsection.

(c) The department shall maintain an ongoing accounting of water right applications received and acted on and shall post that information to the department's internet site.

(8) \$1,075,000 of the general fund--state appropriation for fiscal year 2012 and \$1,075,000 of the general fund--state appropriation for fiscal year 2013 are provided solely for processing the backlog of pending water rights permit applications in the water resources program.

In addition to other purposes, school districts may use increased federal funds for high-cost students, for purchasing regional special education services from educational service districts, and for staff development activities particularly relating to inclusion issues.

(10) A school district may carry over from one year to the next year up to 10 percent of the general fund--state funds allocated under this program; however, carryover funds shall be expended in the special education program.

FOR THE WASHINGTON STATE DEPARTMENT OF TRANSPORTATION

The legislature finds that it is critically important that highway improvement project lists, incorporated by reference in the biennial transportation appropriations act, accurately reflect the intent of the legislature with respect to the identified projects and activities as listed by fund, project, and amount in the list, including intended future commitments. The legislature further finds that during the 2012 regular legislative session, Engrossed Substitute House Bill No. 2190, as recommended by the conference committee, passed the legislature and that it incorporated by reference a highway improvement project list containing various technical drafting errors resulting in an inaccurate reflection of the conference committee report as agreed to by the conferees. The legislature further finds that a corrected version of the list is necessary to conform with the recommendations of the conference committee in a manner that does not change the funding decisions or appropriations for the current 2011-2013 biennium as agreed to by the conferees. Therefore, any reference in chapter 86 (ESHB 2190), Laws of 2012 to "LEAP Transportation Document 2012-2 as developed March 8, 2012, Program – Highway Improvement Program (I)" is superseded by the corrected version "LEAP Transportation Document 2012- 2C as developed March 14, 2012, Program – Highway Improvements Program (I)".

From appropriations to state agencies for the 2011-2013 fiscal biennium, the office of financial management shall reduce general fund--state allotments by \$5,000,000 for fiscal year 2013 to reflect savings associated with a reduction in expenditures related to information technology, pursuant to allotment schedules prepared by the office of financial management. For agencies with appropriations from accounts other than the general fund--state, the office of financial management shall work with agencies to achieve similar savings in other accounts.

(c) If state funding is increased so that combined with resident undergraduate tuition the sixtieth percentile of the total per-student funding at similar public institutions of higher education in the global challenge states under RCW 28B.15.068 is exceeded, the governing board shall decrease tuition by the amount needed for the total per-student funding to be at the sixtieth percentile under RCW 28B.15.068; and

(d) The amount of tuition set by the governing board for an institution under this subsection (4) may not exceed the sixtieth percentile of the resident undergraduate tuition of similar public institutions of higher education in the global challenge states.

(5) The tuition fees established under this chapter shall not apply to high school students enrolling in participating institutions of higher education under RCW 28A.600.300 through 28A.600.400.

(6) The tuition fees established under this chapter shall not apply to eligible students enrolling in a dropout reengagement program through an interlocal agreement between a school district and a community or technical college under RCW 28A.175.100 through 28A.175.110.

(7) The tuition fees established under this chapter shall not apply to eligible students enrolling in a community or technical college participating in the pilot program under RCW 28B.50.534 for the purpose of obtaining a high school diploma.

(8) Beginning in the 2019-20 academic year, reductions or increases in full-time tuition fees for resident undergraduates at four-year institutions of higher education shall be as provided in the omnibus appropriations act.

(9) The legislative advisory committee to the committee on advanced tuition payment established in RCW 28B.95.170 shall:

(a) Review the impact of differential tuition rates on the funded status and future unit price of the Washington advanced college tuition payment program; and

(b) No later than January 14, 2013, make a recommendation to the appropriate policy and fiscal committees of the legislature regarding how differential tuition should be addressed in order to maintain the ongoing solvency of the Washington advanced college tuition payment program.

Sec. 915. RCW 38.52.540 and 2010 1st sp.s. c 19 s 18 are each amended to read as follows:

(1) The enhanced 911 account is created in the state treasury. All receipts from the state enhanced 911 excise taxes imposed by RCW 82.14B.030 must be deposited into the account. Moneys in the account must be used only to support the statewide coordination and management of the enhanced 911 system, for the implementation of wireless enhanced 911 statewide, for the modernization of enhanced 911 emergency communications systems statewide, and to help supplement, within available funds, the operational costs of the system, including adequate funding of counties to enable implementation of wireless enhanced 911 service and reimbursement of radio communications service companies for costs incurred in providing wireless enhanced 911 service pursuant to negotiated contracts between the counties or their agents and the radio communications service companies. For the 2011-2013 fiscal biennium, the account may be used for modernizing narrowband radio capability in the department of corrections. A county must show just cause, including but not limited to a true and accurate accounting of the funds expended, for any inability to provide reimbursement to radio communications service companies of costs incurred in providing enhanced 911 service.

(2) Funds generated by the enhanced 911 excise tax imposed by RCW 82.14B.030(5) may not be distributed to any county that has not imposed the maximum county enhanced 911 excise tax allowed under RCW 82.14B.030(1). Funds generated by the enhanced 911 excise tax imposed by RCW 82.14B.030(6) may not be distributed to any county that has not imposed the maximum county enhanced 911 excise tax allowed under RCW 82.14B.030(2).

(3) The state enhanced 911 coordinator, with the advice and assistance of the enhanced 911 advisory committee, is authorized to enter into statewide agreements to improve the efficiency of enhanced 911 services for all counties and shall specify by rule the additional purposes for which moneys, if available, may be expended from this account.

Sec. 916. RCW 41.06.560 and 2011 1st sp.s. c 39 s 11 are each amended to read as follows:

From February 15, 2010, until June 30, 2013, no monetary performance-based awards or incentives may be granted by the director or employers to employees covered by rules adopted under this section. This section does not prohibit the payment of awards provided for in chapter 41.60 RCW. Sec. 917. RCW 43.07.129 and 2011 1st sp.s. c 50 s 940 are each amended to read as follows:

The Washington state heritage center account is created in the custody of the state treasurer. All moneys received under RCW 36.18.010(11) and 43.07.128 must be deposited in the account. Expenditures from the account may be made only for the following purposes:

- (1) Payment of the certificate of participation issued for the Washington state heritage center;
- (2) Capital maintenance of the Washington state heritage center; and
- (3) Program operations that serve the public, relate to the collections and exhibits housed in the Washington state heritage center, or fulfill the missions of the state archives, state library, and capital museum.

Only the secretary of state or the secretary of state's designee may authorize expenditures from the account. An appropriation is not required for expenditures, but the account is subject to allotment procedures under chapter 43.88 RCW. During the 2011-2013 fiscal biennium, the legislature may appropriate from the Washington state heritage center account for the purposes of state arts, historical, and library programs. Additionally, during the 2011-2013 fiscal biennium, the legislature may transfer from the Washington state heritage center account to the state general fund such amounts as reflect the excess fund balance of the fund.

Sec. 918. RCW 43.17.390 and 2009 c 564 s 931 are each amended to read as follows:

Starting in ~~((2012))~~ 2014, and at least once every three years thereafter, each agency shall apply to the Washington state quality award, or similar organization, for an independent assessment of its quality management, accountability, and performance system. The assessment shall evaluate the effectiveness of all elements of its management, accountability, and performance system, including: Leadership, strategic planning, customer focus, analysis and information, employee performance management, and process improvement. The purpose of the assessment is to recognize best practice and identify improvement opportunities.

Sec. 919. RCW 43.30.720 and 2003 1st sp.s. c 25 s 938 are each amended to read as follows:

All receipts from the sale of stock or seed shall be deposited in a state forest nursery revolving fund to be maintained by the department, which is hereby authorized to use all money in said fund for the maintenance of the state tree nursery or the planting of denuded state owned lands.

During the ~~((2003-2005))~~ 2011-2013 fiscal biennium, the legislature may transfer from the state forest nursery revolving fund to the state general fund such amounts as reflect the excess fund balance of the fund.

Sec. 920. RCW 43.88.110 and 2009 c 518 s 3 are each amended to read as follows:

This section sets forth the expenditure programs and the allotment and reserve procedures to be followed by the executive branch for public funds.

- (1) Allotments of an appropriation for any fiscal period shall conform to the terms, limits, or conditions of the appropriation.
- (2) The director of financial management shall provide all agencies with a complete set of operating and capital instructions for preparing a statement of proposed expenditures at least thirty days before the beginning of a fiscal period. The set of instructions need not include specific appropriation amounts for the agency.
- (3) Within forty-five days after the beginning of the fiscal period or within forty-five days after the governor signs the omnibus biennial appropriations act, whichever is later, all agencies shall submit to the

governor a statement of proposed expenditures at such times and in such form as may be required by the governor.

(4) The office of financial management shall develop a method for monitoring capital appropriations and expenditures that will capture at least the following elements:

- (a) Appropriations made for capital projects including transportation projects;
- (b) Estimates of total project costs including past, current, ensuing, and future biennial costs;
- (c) Comparisons of actual costs to estimated costs;
- (d) Comparisons of estimated construction start and completion dates with actual dates;
- (e) Documentation of fund shifts between projects.

This data may be incorporated into the existing accounting system or into a separate project management system, as deemed appropriate by the office of financial management.

(5) The office of financial management, prior to approving allotments for major capital construction projects valued over five million dollars, shall institute procedures for reviewing such projects at the predesign stage that will reduce long-term costs and increase facility efficiency. The procedures shall include, but not be limited to, the following elements:

- (a) Evaluation of facility program requirements and consistency with long-range plans;
- (b) Utilization of a system of cost, quality, and performance standards to compare major capital construction projects; and
- (c) A requirement to incorporate value-engineering analysis and constructability review into the project schedule.

(6) No expenditure may be incurred or obligation entered into for such major capital construction projects including, without exception, land acquisition, site development, predesign, design, construction, and equipment acquisition and installation, until the allotment of the funds to be expended has been approved by the office of financial management. This limitation does not prohibit the continuation of expenditures and obligations into the succeeding biennium for projects for which allotments have been approved in the immediate prior biennium.

(7)(a) Beginning January 1, 2013, if at any time during the fiscal period the governor projects a cash deficit in a particular fund or account as defined by RCW 43.88.050, the governor shall make across-the-board reductions in allotments for that particular fund or account so as to prevent a cash deficit, unless the legislature has directed the liquidation of the cash deficit over one or more fiscal periods.

(b)(i) From the effective date of this section until January 1, 2013, if at any time during the fiscal period the governor projects a cash deficit in a particular fund or account as defined by RCW 43.88.050, then as set forth in (b) of this subsection the governor shall make across-the-board reductions in the total amount allotted to each agency from each appropriation from that fund or account so as to prevent a cash deficit, unless the legislature has directed the liquidation of the cash deficit over one or more fiscal periods.

(ii) The percentage reduction applied to individual allotments of an agency's total allotments from each appropriation from that fund or account may vary, but each agency's total allotments from each appropriation from that fund or account must be uniformly reduced by the percentage necessary to prevent a cash deficit. Where a portion of an appropriation is provided solely for a particular purpose, allotments of that portion of the appropriation may be reduced only by the same percentage as the overall appropriation.

(iii) Allotments for the following programs may be reduced only by a percentage equal to one-half of the percentage reduction applied to total allotments of appropriations under (b)(ii) of this subsection:

(A) Direct custody in the department of corrections and the juvenile rehabilitation administration; and

(B) The special commitment center of the department of social

and health services.

(iv) Basic education programs, debt service on state bonds, state contributions to retirement systems, and programs for which a defined benefit is specifically mandated in statute are exempt from across-the-board allotment reductions under this subsection (7)(b) and allotments for these purposes shall not be included when calculating the allotment reductions.

(8) Except for the legislative and judicial branches and other agencies headed by elective officials, the governor shall review the statement of proposed operating expenditures for reasonableness and conformance with legislative intent. The governor may request corrections of proposed allotments submitted by the legislative and judicial branches and agencies headed by elective officials if those proposed allotments contain significant technical errors.

(9) Once the governor approves the proposed allotments, further revisions may at the request of the office of financial management or upon the agency's initiative be made on a quarterly basis and must be accompanied by an explanation of the reasons for significant changes. If the governor initiates across-the-board allotment revisions under subsection (7)(b) of this section, the office of financial management shall provide notice to the appropriate legislative fiscal committees of the proposed revisions, including the explanation for the significant changes, and the revisions may not take effect until ten days after this notice is provided. However, changes in appropriation level authorized by the legislature, changes required by across-the-board reductions mandated by the governor, changes caused by executive increases to spending authority, and changes caused by executive decreases to spending authority for failure to comply with the provisions of chapter 36.70A RCW may require additional revisions. Revisions shall not be made retroactively. However, the governor may assign to a reserve status any portion of an agency appropriation withheld as part of across-the-board reductions made by the governor and any portion of an agency appropriation conditioned on a contingent event by the appropriations act. The governor may remove these amounts from reserve status if the across-the-board reductions are subsequently modified or if the contingent event occurs. The director of financial management shall enter approved statements of proposed expenditures into the state budgeting, accounting, and reporting system within forty-five days after receipt of the proposed statements from the agencies. If an agency or the director of financial management is unable to meet these requirements, the director of financial management shall provide a timely explanation in writing to the legislative fiscal committees.

~~((8))~~ (10) It is expressly provided that all agencies shall be required to maintain accounting records and to report thereon in the manner prescribed in this chapter and under the regulations issued pursuant to this chapter. Within ninety days of the end of the fiscal year, all agencies shall submit to the director of financial management their final adjustments to close their books for the fiscal year. Prior to submitting fiscal data, written or oral, to committees of the legislature, it is the responsibility of the agency submitting the data to reconcile it with the budget and accounting data reported by the agency to the director of financial management.

~~((9))~~ (11) The director of financial management may exempt certain public funds from the allotment controls established under this chapter if it is not practical or necessary to allot the funds. Allotment control exemptions expire at the end of the fiscal biennium for which they are granted. The director of financial management shall report any exemptions granted under this subsection to the legislative fiscal committees.

Sec. 921. RCW 70.105D.070 and 2011 1st sp.s. c 50 s 964 are each reenacted and amended to read as follows:

(xii) Development and demonstration of alternative management technologies designed to carry out the hazardous waste management priorities of RCW 70.105.150;

(xvi) During the 2011-2013 fiscal biennium, the department of ecology's water quality, shorelands and environmental assessment, hazardous waste, waste to resources, nuclear waste, and air quality programs.

(3) The following moneys shall be deposited into the local toxics control account: Those revenues which are raised by the tax imposed under RCW 82.21.030 and which are attributable to that portion of the rate equal to thirty-seven one-hundredths of one percent.

(a) Moneys deposited in the local toxics control account shall be used by the department for grants or loans to local governments for the following purposes in descending order of priority:

(i) Remedial actions;

(ii) Hazardous waste plans and programs under chapter 70.105 RCW;

(iv) Funds for a program to assist in the assessment and cleanup of sites of methamphetamine production, but not to be used for the initial containment of such sites, consistent with the responsibilities and intent of RCW 69.50.511; and

(v) Cleanup and disposal of hazardous substances from abandoned or derelict vessels, defined for the purposes of this section as vessels that have little or no value and either have no identified owner or have an identified owner lacking financial resources to clean up and dispose of the vessel, that pose a threat to human health or the environment.

(b) Funds for plans and programs shall be allocated consistent with the priorities and matching requirements established in chapters 70.105, 70.95C, 70.95I, and 70.95 RCW, except that any applicant that is a Puget Sound partner, as defined in RCW 90.71.010, along with any project that is referenced in the action agenda developed by the Puget Sound partnership under RCW 90.71.310, shall, except as conditioned by RCW 70.105D.120, receive priority for any available funding for any grant or funding programs or sources that use a competitive bidding process. During the 2007-2009 fiscal biennium, moneys in the account may also be used for grants to local governments to retrofit public sector diesel equipment and for storm water planning and implementation activities.

(c) To expedite cleanups throughout the state, the department shall partner with local communities and liable parties for cleanups. The department is authorized to use the following additional strategies in order to ensure a healthful environment for future generations:

(i) The director may alter grant-matching requirements to create incentives for local governments to expedite cleanups when one of the following conditions exists:

(A) Funding would prevent or mitigate unfair economic hardship imposed by the clean-up liability;

(B) Funding would create new substantial economic development, public recreational, or habitat restoration opportunities that would not otherwise occur; or

(C) Funding would create an opportunity for acquisition and redevelopment of vacant, orphaned, or abandoned property under RCW 70.105D.040(5) that would not otherwise occur;

(ii) The use of outside contracts to conduct necessary studies;

(iii) The purchase of remedial action cost-cap insurance, when necessary to expedite multiparty clean-up efforts.

(d) To facilitate and expedite cleanups using funds from the local toxics control account, during the 2009-2011 fiscal biennium the director may establish grant-funded accounts to hold and disperse local toxics control account funds and funds from local governments to be used for remedial actions.

(4) Except for unanticipated receipts under RCW 43.79.260 through 43.79.282, moneys in the state and local toxics control accounts may be spent only after appropriation by statute.

(5) Except during the ~~(2009-2011)~~ 2011-2013 fiscal biennium, one percent of the moneys deposited into the state and local toxics control accounts shall be allocated only for public participation grants to persons who may be adversely affected by a release or threatened release of a hazardous substance and to not-for-profit public interest organizations. The primary purpose of these grants is to facilitate the participation by persons and organizations in the investigation and remedying of releases or threatened releases of hazardous substances and to implement the state's solid and hazardous waste management priorities. No grant may exceed sixty thousand dollars. Grants may be renewed annually. Moneys appropriated for public participation from either account which are not expended at the close of any biennium shall revert to the state toxics control account.

(6) No moneys deposited into either the state or local toxics control account may be used for solid waste incinerator feasibility studies, construction, maintenance, or operation, or, after January 1, 2010, for projects designed to address the restoration of Puget Sound, funded in a competitive grant process, that are in conflict with the action agenda developed by the Puget Sound partnership under RCW 90.71.310.

(7) The department shall adopt rules for grant or loan issuance and performance.

(8) During the ~~((2007-2009 and 2009-2011))~~ 2011-2013 fiscal ~~(biennia)~~ biennium, the legislature may transfer from the local toxics control account to ~~((either))~~ the state ~~((general fund or the oil spill prevention account, or both))~~ toxics control account such amounts as reflect excess fund balance in the account.

~~((9))~~ During the 2009-2011 fiscal biennium, the local toxics control account may also be used for a standby rescue tug at Neah Bay, local government shoreline update grants, private and public sector diesel equipment retrofit, and oil spill prevention, preparedness, and response activities.

~~—((10))~~ During the 2009-2011 fiscal biennium, the legislature may transfer from the state toxics control account to the state general fund such amounts as reflect the excess fund balance in the account.

~~—((11))~~ (9) During the 2011-2013 fiscal biennium, the local toxics control account may also be used for local government shoreline update grants and actions for reducing public exposure to toxic air pollution.

Sec. 922. RCW 74.48.090 and 2011 1st sp.s. c 7 s 21 are each amended to read as follows:

(1) The department and the department of health, in consultation with the Washington state health care association, and aging services of Washington, shall design a system of skilled nursing facility quality incentive payments. The design of the system shall be submitted to the relevant policy and fiscal committees of the legislature by ~~((December 15, 2011))~~ January 1, 2013. For the 2011-2013 fiscal biennial budget period, the department shall not implement a system of skilled nursing facility quality incentive payments designed pursuant to this section. The system shall be based upon the following principles:

(a) Evidence-based treatment and processes shall be used to improve health care outcomes for skilled nursing facility residents;

(b) Effective purchasing strategies to improve the quality of health care services should involve the use of common quality improvement measures, while recognizing that some measures may not be appropriate for application to facilities with high bariatric, behaviorally challenged, or rehabilitation populations;

(c) Quality measures chosen for the system should be consistent with the standards that have been developed by national quality improvement organizations, such as the national quality forum, the federal centers for medicare and medicaid services, or the federal agency for healthcare research and quality. New reporting burdens to skilled nursing facilities should be minimized by giving priority to measures skilled nursing facilities that are currently required to report to governmental agencies, such as the nursing home compare measures collected by the federal centers for medicare and medicaid services;

(d) Benchmarks for each quality improvement measure should be set at levels that are feasible for skilled nursing facilities to achieve, yet represent real improvements in quality and performance for a majority of skilled nursing facilities in Washington state; and

(e) Skilled nursing facilities performance and incentive payments should be designed in a manner such that all facilities in Washington are able to receive the incentive payments if performance is at or above the benchmark score set in the system established under this section.

(2) Pursuant to an appropriation by the legislature, for state fiscal year ~~((2013))~~ 2014 and each fiscal year thereafter, assessments may be increased to support an additional one percent increase in skilled nursing facility reimbursement rates for facilities that meet the quality incentive benchmarks established under this section.

Sec. 923. RCW 76.04.610 and 2007 c 110 s 1 are each amended to read as follows:

(1)(a) If any owner of forest land within a forest protection zone neglects or fails to provide adequate fire protection as required by

RCW 76.04.600, the department shall provide such protection and shall annually impose the following assessments on each parcel of such land: (i) A flat fee assessment of seventeen dollars and fifty cents; and (ii) twenty-seven cents on each acre exceeding fifty acres.

(b) Assessors may, at their option, collect the assessment on tax exempt lands. If the assessor elects not to collect the assessment, the department may bill the landowner directly.

(2) An owner who has paid assessments on two or more parcels, each containing fewer than fifty acres and each within the same county, may obtain the following refund:

(a) If all the parcels together contain less than fifty acres, then the refund is equal to the flat fee assessments paid, reduced by the total of (i) seventeen dollars and (ii) the total of the amounts retained by the county from such assessments under subsection (5) of this section.

(b) If all the parcels together contain fifty or more acres, then the refund is equal to the flat fee assessments paid, reduced by the total of (i) seventeen dollars, (ii) twenty-seven cents for each acre exceeding fifty acres, and (iii) the total of the amounts retained by the county from such assessments under subsection (5) of this section.

Applications for refunds shall be submitted to the department on a form prescribed by the department and in the same year in which the assessments were paid. The department may not provide refunds to applicants who do not provide verification that all assessments and property taxes on the property have been paid. Applications may be made by mail.

In addition to the procedures under this subsection, property owners with multiple parcels in a single county who qualify for a refund under this section may apply to the department on an application listing all the parcels owned in order to have the assessment computed on all parcels but billed to a single parcel. Property owners with the following number of parcels may apply to the department in the year indicated:

Year	Number of Parcels
2002	10 or more parcels
2003	8 or more parcels
2004 and thereafter	6 or more parcels

The department must compute the correct assessment and allocate one parcel in the county to use to collect the assessment. The county must then bill the forest fire protection assessment on that one allocated identified parcel. The landowner is responsible for notifying the department of any changes in parcel ownership.

(3) Beginning January 1, 1991, under the administration and at the discretion of the department up to two hundred thousand dollars per year of this assessment shall be used in support of those rural fire districts assisting the department in fire protection services on forest lands.

(4) For the purpose of this chapter, the department may divide the forest lands of the state, or any part thereof, into districts, for fire protection and assessment purposes, may classify lands according to the character of timber prevailing, and the fire hazard existing, and place unprotected lands under the administration of the proper district. Amounts paid or contracted to be paid by the department for protection of forest lands from funds at its disposal shall be a lien upon the property protected, unless reimbursed by the owner within ten days after October 1st of the year in which they were incurred. The department shall be prepared to make statement thereof, upon request, to a forest owner whose own protection has not been previously approved as to its adequacy, the department shall report the same to the assessor of the county in which the property is situated. The assessor shall extend the amounts upon the tax rolls covering the property, and upon authorization from the department

shall levy the forest protection assessment against the amounts of unimproved land as shown in each ownership on the county assessor's records. The assessor may then segregate on the records to provide that the improved land and improvements thereon carry the millage levy designed to support the rural fire protection districts as provided for in RCW 52.16.170.

(5) The amounts assessed shall be collected at the time, in the same manner, by the same procedure, and with the same penalties attached that general state and county taxes on the same property are collected, except that errors in assessments may be corrected at any time by the department certifying them to the treasurer of the county in which the land involved is situated. Assessments shall be known and designated as assessments of the year in which the amounts became reimbursable. Upon the collection of assessments the county treasurer shall place fifty cents of the total assessments paid on a parcel for fire protection into the county current expense fund to defray the costs of listing, billing, and collecting these assessments. The treasurer shall then transmit the balance to the department. Collections shall be applied against expenses incurred in carrying out the provisions of this section, including necessary and reasonable administrative costs incurred by the department in the enforcement of these provisions. The department may also expend sums collected from owners of forest lands or received from any other source for necessary administrative costs in connection with the enforcement of RCW 76.04.660.

(6) When land against which forest protection assessments are outstanding is acquired for delinquent taxes and sold at public auction, the state shall have a prior lien on the proceeds of sale over and above the amount necessary to satisfy the county's delinquent tax judgment. The county treasurer, in case the proceeds of sale exceed the amount of the delinquent tax judgment, shall immediately remit to the department the amount of the outstanding forest protection assessments.

(7) All nonfederal public bodies owning or administering forest land included in a forest protection zone shall pay the forest protection assessments provided in this section and the special forest fire suppression account assessments under RCW 76.04.630. The forest protection assessments and special forest fire suppression account assessments shall be payable by nonfederal public bodies from available funds within thirty days following receipt of the written notice from the department which is given after October 1st of the year in which the protection was provided. Unpaid assessments are not a lien against the nonfederal publicly owned land but shall constitute a debt by the nonfederal public body to the department and are subject to interest charges at the legal rate. During the 2011-2013 fiscal biennium, the forest fire protection assessment account may be appropriated to The Evergreen State College for analysis and recommendations to improve the efficiency and effectiveness of the state's mechanisms for funding fire prevention and suppression activities.

(8) A public body, having failed to previously pay the forest protection assessments required of it by this section, which fails to suppress a fire on or originating from forest lands owned or administered by it, is liable for the costs of suppression incurred by the department or its agent and is not entitled to reimbursement of costs incurred by the public body in the suppression activities.

(9) The department may adopt rules to implement this section, including, but not limited to, rules on levying and collecting forest protection assessments.

Sec. 924. RCW 77.12.201 and 2009 c 479 s 63 are each amended to read as follows:

The legislative authority of a county may elect, by giving written notice to the director and the treasurer prior to January 1st of any year, to obtain for the following year an amount in lieu of real property taxes on game lands as provided in RCW 77.12.203. Upon the election, the county shall keep a record of all fines, forfeitures,

reimbursements, and costs assessed and collected, in whole or in part, under this title for violations of law or rules adopted pursuant to this title, with the exception of the 2011-2013 fiscal biennium, and shall monthly remit an amount equal to the amount collected to the state treasurer for deposit in the state general fund. Any bonds issued shall constitute a first and prior claim and lien against the account for the payment of principal and interest. No sums for the above purposes shall be withdrawn or paid out of the account except upon approval of the department.

Appropriations may be made by the legislature from the forest development account to the department for the purpose of carrying on the activities of the department on state forest lands, lands managed on a sustained yield basis as provided for in RCW 79.10.320, and for reimbursement of expenditures that have been made or may be made from the resource management cost account in the management of state forest lands. For the 2011-2013 fiscal biennium, moneys from the forest development account shall be distributed as directed in section 706 of this act to the beneficiaries of the revenues derived from state forest lands. During the 2011-2013 fiscal biennium, the legislature may appropriate moneys in the forest development account to support emergency fire suppression activities in a manner that, at a maximum, represents the proportion of land that the department manages in comparison to the total land the department conducts emergency fire suppression activities on.

After

appropriation, these funds shall be used solely for aquatic lands enhancement projects; for the purchase, improvement, or protection of aquatic lands for public purposes; for providing and improving access to the lands; and for volunteer cooperative fish and game projects. During the ~~((2009-2011 and))~~ 2011-2013 fiscal ~~((biennia))~~ biennium, the aquatic lands enhancement account may also be used for scientific research as part of the adaptive management process and for developing a planning report for McNeil Island. During the ~~((2009-2011 and))~~ 2011-2013 fiscal ~~((biennia))~~ biennium, the legislature may transfer from the aquatic lands enhancement account to the state general fund such amounts as reflect excess fund balance of the account. During the 2011-2013 fiscal biennium, the aquatic lands enhancement account may be used to support the shellfish program, the ballast water program, parks, hatcheries, and the Puget Sound toxic sampling program at the department of fish and wildlife, and the knotweed program at the department of agriculture. During the 2011-2013 fiscal biennium, the legislature may transfer from the aquatic lands enhancement account to the marine resources stewardship trust account funds for the purposes of RCW 43.372.070.

(2) In providing grants for aquatic lands enhancement projects, the recreation and conservation funding board shall:

(c) Develop appropriate outcome-focused performance measures to be used both for management and performance assessment of the grants.

(3) To the extent possible, the department should coordinate its performance measure system with other natural resource-related agencies as defined in RCW 43.41.270.

(4) The department shall consult with affected interest groups in implementing this section.

(5) After January 1, 2010, any project designed to address the restoration of Puget Sound may be funded under this chapter only if the project is not in conflict with the action agenda developed by the Puget Sound partnership under RCW 90.71.310.

Sec. 931. RCW 79.105.240 and 2005 c 155 s 147 are each amended to read as follows:

Except as otherwise provided by this chapter, annual rent rates for the lease of state-owned aquatic lands for water-dependent uses shall be determined as follows:

(1)(a) The assessed land value, exclusive of improvements, as determined by the county assessor, of the upland tax parcel used in conjunction with the leased area or, if there are no such uplands, of the nearest upland tax parcel used for water-dependent purposes divided by the parcel area equals the upland value.

(b) The upland value times the area of leased aquatic lands times thirty percent equals the aquatic land value.

(2) As of July 1, 1989, and each July 1st thereafter, the department shall determine the real capitalization rate to be applied to water-dependent aquatic land leases commencing or being adjusted under subsection (3)(a) of this section in that fiscal year. The real capitalization rate shall be the real rate of return, except that until June 30, 1989, the real capitalization rate shall be five percent and

thereafter it shall not change by more than one percentage point in any one year or be more than seven percent or less than three percent.

(3) The annual rent shall be:

(a) Determined initially, and redetermined every four years or as otherwise provided in the lease, by multiplying the aquatic land value times the real capitalization rate; and

(b) Adjusted by the inflation rate each year in which the rent is not determined under (a) of this subsection.

(4) If the upland parcel used in conjunction with the leased area is not assessed or has an assessed value inconsistent with the purposes of the lease, the nearest comparable upland parcel used for similar purposes shall be substituted and the lease payment determined in the same manner as provided in this section.

(5) For the purposes of this section, "upland tax parcel" is a tax parcel, some portion of which has upland characteristics. Filled tidelands or shorelands with upland characteristics which abut state-owned aquatic land shall be considered as uplands in determining aquatic land values.

(6) The annual rent for filled state-owned aquatic lands that have the characteristics of uplands shall be determined in accordance with RCW 79.105.270 in those cases in which the state owns the fill and has a right to charge for the fill.

(7) For all new leases for other water-dependent uses, issued after December 31, 1997, the initial annual water-dependent rent shall be determined by the methods in subsections (1) through (6) of this section.

(8) During the 2011-2013 fiscal biennium, the department may calculate annual rent for qualifying marinas as provided in section 308(12) of this act.

Sec. 932. RCW 79A.25.200 and 2007 c 241 s 53 are each amended to read as follows:

The board shall administer the account in accordance with this chapter and chapter 79A.35 RCW and shall hold it separate and apart from all other money, funds, and accounts of the board. Moneys received from the marine fuel tax refund account under RCW 79A.25.070 shall be deposited into the account. Grants, gifts, or other financial assistance, proceeds received from public bodies as administrative cost contributions, and moneys made available to the state of Washington by the federal government for outdoor recreation may be deposited into the account. During the 2011-2013 fiscal biennium, the recreation resource account may be used by the department of fish and wildlife for the purposes of activities related to aquatic and marine enforcement.

Sec. 933. RCW 86.26.007 and 2011 1st sp.s. c 50 s 976 are each amended to read as follows:

At the beginning of the 2005-2007 fiscal biennium, the state treasurer shall transfer three million dollars from the general fund to the flood control assistance account. Each biennium thereafter the state treasurer shall transfer four million dollars from the general fund to the flood control assistance account, except that during the ~~((2009-2011 and))~~ 2011-2013 fiscal ~~((biennium))~~ biennium, the state treasurer shall transfer ~~((two))~~ one million dollars from the general fund to the flood control assistance account. Moneys in the flood control assistance account may be spent only after appropriation for purposes specified under this chapter.

Sec. 934. RCW 90.48.390 and 2008 c 329 s 925 are each amended to read as follows:

The coastal protection fund is established to be used by the department as a revolving fund for carrying out the purposes of restoration of natural resources under this chapter and chapter 90.56 RCW. To this fund there shall be credited penalties, fees, damages, charges received pursuant to the provisions of this chapter and chapter 90.56 RCW, compensation for damages received under this chapter

and chapter 90.56 RCW, and an amount equivalent to one cent per gallon from each marine use refund claim under RCW 82.36.330.

During the 2007-2009 fiscal biennium, the coastal protection fund may also be used for a standby rescue tug at Neah Bay. Sec. 935. 2010 c 23 s 205 (uncodified) is amended to read as follows:

(1) The legislature finds that this state's tax policy with respect to the taxation of transactions between affiliated entities and the income derived from such transactions (intercompany transactions) has motivated some taxpayers to engage in transactions designed solely or primarily to minimize the tax effects of intercompany transactions. The legislature further finds that some intercompany transactions result from taxpayers that are required to establish affiliated entities to comply with regulatory mandates and that transactions between such affiliates effectively increases the tax burden in this state on the affiliated group of entities.

(2) Therefore, as existing resources allow, the department of revenue is directed to conduct a review of the state's tax policy with respect to the taxation of intercompany transactions. The review must include the impacts of such transactions under the state's business and occupation tax and state and local sales and use taxes. The department may include other taxes in the review as it deems appropriate.

(3) In conducting the review, the department must examine how this state's tax policy compares to the tax policy of other states with respect to the taxation of intercompany transactions. The department's review must include an analysis of potential alternatives to the current policy of taxing intercompany transactions, including their estimated revenue impacts if practicable.

(4) In conducting this review, the department may seek input from members of the business community and others as it deems appropriate.

(5) The department must report its findings to the fiscal committees of the house of representatives and senate by December 1, 2010. However, if the department has not completed its review by December 1, 2010, the department must provide the fiscal committees of the legislature with a brief status report by December 1, 2010, and the final report by December 1, ~~((2011))~~ 2012.

GOVERNOR'S VETO MESSAGES
Sixty Second Legislature
2011 Second Special Legislative Session

VETO MESSAGE ON SHB 2058

December 20, 2011

The Honorable Speaker and Members,
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I commend you and your Senate colleagues for your early action 2011 supplemental operating budget. I fully recognize the difficult decisions that had to be made in a short period of time.

As I sign this appropriations bill, there are many issues of critical importance to our state that must still be addressed. I commit to working with you to craft a swift and responsible supplemental budget early in the 2012 legislative session. I am returning, without my approval as to Section 203(9), Substitute House Bill 2058 entitled:

“AN ACT Relating to fiscal matters.” Section 203(9), page 38, Department of Social and Health Services, Juvenile Rehabilitation Program, Maintaining Maple Lane School.

This proviso directs the Department of Social and Health Services to maintain the physical plant and protect state assets at the closed Maple Lane School. No additional funds were provided to perform these tasks. For this reason, I have vetoed Section 203(9). However, since the future use of the facility will be significantly affected by ceasing all maintenance, utilities, and security activities, I am directing the agency to temporarily provide minimum operating systems and security so the Legislature has the opportunity to discuss future uses for the facility. The agency will cease all support of the facility no later than April 1, 2012, unless additional legislative appropriation and direction are given.

With the exception of Section 203(9), Substitute House Bill 2058 is approved.

Respectfully submitted,
Christine Gregoire
Governor

GOVERNOR'S VETO MESSAGES
Sixty Second Legislature
2012 Legislative Session

VETO MESSAGE ON SHB 2127

May 2, 2012

The Honorable Speaker and Members
House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Sections 124; 131(5); 204(1)(f); 205(2)(c); 205(2)(d); 211(6); 213(40); 213(44); 213(45); 213(49); 213(54); 302(13); 308, page 144, lines 27-28; 308(2); 308(12); 505(9); 511(18); 601(7); 714; 919; 925; 926; 930; and 935, Third Engrossed Substitute House Bill 2127 entitled:

"AN ACT Relating to fiscal matters."

Section 124, page 18, Office of the State Treasurer, Supplemental Budget Reductions
The State Treasurer has made significant contributions to solving the state's budget problem, including proposing a \$12.6 million transfer from the State Treasurer's Service Account to the General Fund for my proposed 2012 supplemental operating budget. The Legislature increased this transfer to the General Fund by another \$3.5 million in Section 804 of this budget. This section would reduce appropriations to the Office of the State Treasurer by \$1.2 million. The Treasurer believes this 15 percent reduction would likely lead to lower investment earnings and higher risks to public funds. Moreover, this reduction in the Treasurer's appropriation does not help the General Fund. Rather, it is the transfers in Section 804 that help the General Fund and this appropriation reduction was not included in the transfer. I am leaving Section 804 intact, but

given the impacts that the appropriation reduction could have on timely administration of state finances, I am vetoing Section 124. The Treasurer has volunteered to place actual savings in reserve for a later transfer to the General Fund to help balance the next supplemental budget. For these reasons, I have vetoed Section 124.

Section 131(5), pages 32-34, Office of Financial Management, Office of Regulatory Assistance

Section 935, page 276, Office of Regulatory Assistance and Regulatory Agencies, Small Business Activities

The Office of Regulatory Assistance (ORA) is directed to coordinate an agency small business liaison team with regulatory agencies to recommend improvements to inspection practices and customer service. In addition, ORA must develop anonymous customer service surveys related to regulatory agencies and post them to its website. Similar activities were the subject of legislation that failed to pass the Legislature. The underlying goals of this proviso have already been incorporated into Executive Order 12-01, which directed ORA to establish a small business liaison program, conduct regular outreach with small business groups to streamline and reduce redundancy in regulatory practices and inspections, and establish a web-based customer survey tool for input from all businesses. However, these legislative provisos also set prescriptive requirements on regulatory agencies to document inspection violations and corrective notices.

These requirements should be established through a statutory change rather than the budget. In addition, insufficient funding is provided to ORA and regulatory agencies to implement these requirements. For these reasons, I have vetoed Section 131 (5) and Section 935.

Section 204(1)(0), pages 60-61, Department of Social and Health Services, Jail Services Study

The Department of Social and Health Services is directed to submit a report to the Legislature by December 1, 2012, regarding the utilization of mental health services by those who are incarcerated or have been recently released from incarceration. No funding was provided to the Department to identify and compile the data necessary to compose the report by the deadline. For this reason, I have vetoed Section 204(1)(f).

Section 205(2)(c), pages 71-72, Department of Social and Health Services, Student Transition Funding

Funding is provided to the Department to contract with school districts for instructional support of new students with developmental disabilities that are admitted to a Residential Habilitation Center (RHC). This budget contains three mechanisms for school districts to obtain additional funding for providing special education services to students housed at RHCs, including one program based on demonstrated need for special education funding in excess of state and federal funding otherwise provided. Only one district would be eligible for this transition funding and it failed to demonstrate excessive costs related to special education for the 2011-12 school year. Because school districts have access to other fund sources when there is a demonstrated need, I have vetoed Section 205(2)(c).

Section 205(2)(d), page 72, Department of Social and Health Services, Rainier School LongRange Development Plan

This proviso appropriates \$600,000 to create a long-range vision and development plan for Rainier School. Chapter 30, Laws of 2011 established a task force to make recommendations regarding the development of a system of services for persons with developmental disabilities and the state's long-term needs for residential habilitation center capacity. The long-range vision and development plan for Rainier School should be and is part of this larger, statewide strategy. For this reason, I have vetoed Section 205(2)(d).

Section 211(6), pages 87-88, Department of Social and Health Services, Funding for Community Initiative

The Department of Social and Health Services (DSHS) is required to maintain separate centralized administrative services for community health and safety networks that remain after the sunset of the Family Policy Council. DSHS has the administrative capacity to support this initiative within its current infrastructure. A separate administrative system within the Secretary's office is not necessary. For this reason, I have vetoed Section 211(6).

Section 213(40), page 103, Health Care Authority, Critical Access Hospitals

This proviso requires the Health Care Authority (HCA), in collaboration with numerous parties, to submit a design for rural health system access and quality incentive payments to the Legislature in December 2012. This represents a significant undertaking for which no funding is provided. However, the issue of how to use limited resources to best meet the health care needs of our state's rural residents is an important one. I understand the Legislature intends to focus on this issue, and I will ask my staff and the staff of the relevant agencies to participate in and support these efforts. For this reason, I have vetoed Section 213(40).

Section 213(44), page 106, Health Care Authority, Facility Fees

This item directs the HCA to complete a study on the payment of facility fees and to issue a report to the Legislature by November 1, 2012. Both funding and time is insufficient for the successful completion of this study. Further, the Legislature passed Engrossed Substitute House Bill 2582 this past session which will require hospitals to report to the Department of Health a number of data requirements in regard to facility fees after January 1, 2013. It is premature to conduct this study until the necessary data are submitted and analyzed. For these reasons, I have vetoed Section 213(44).

Section 213(45), pages 106-107, Health Care Authority, Medicaid Managed Care

Section 213(45) requires the director of the HCA to make specific certifications of network adequacy to the Legislature and the Governor prior to awarding a contract for Medicaid managed care services. It also requires a rebidding process in counties where a certification cannot be established and prohibits a reversion to fee-for-service as a result of the procurement process. I am concerned that this proviso circumvents state laws requiring competitive procurements to be free from influence or bias. Competitive procurements ensure that public contracts are awarded based on quality and cost. The agency recently completed its procurement process for Medicaid managed care services. New competitors in the market were able to offer innovative proposals without sacrificing access or quality of care, saving taxpayers \$131 million in this biennium. This was done under the specific directive in this operating budget to "place substantial emphasis upon price competition in the selection of successful bidders," when awarding managed care contracts for Medicaid enrollees. A federal judge recently upheld the competitive process. Unfortunately, some competitors did not compete on price, quality, and innovation criteria. This result is what we expect from a competitive procurement process. For these reasons, I have vetoed Section 213(45).

Section 213(49), page 108, Health Care Authority, Lowest Cost Generic Bidding

This proviso permits the HCA to enter into a competitive bidding process for the purchase of lowest cost generic drugs within the Medicaid program. The HCA already has the statutory authority to pursue competitive contracts through the Preferred Drug Program, and therefore, this proviso is not necessary. The current procurement model used by the agency has proven effective in obtaining the lowest cost generic on the market. Increased use of generic drugs has reduced Medicaid expenditures by \$118 million in the past five fiscal years. The model also is flexible in meeting the needs of patients and pharmacies by not limiting the choice of generic products and instead providing incentives for dispensing at the lowest cost. However, if another model were to prove more effective, current law gives the HCA the authority to move forward. For these reasons, I have vetoed Section 213(49).

Section 213(54), page 109, Health Care Authority, Rural Health Clinics

The HCA is directed to develop an alternative payment and reconciliation methodology for rural health clinics by December 1, 2012. This proviso is unnecessary as the HCA is committed to continuing discussions with the Rural Health Clinic Association of Washington and the Centers for Medicare and Medicaid Services to identify viable options for developing alternative payment and reconciliation methods. Groundwork was laid for this discussion with federal regulators last summer and fall, as the agency began exploratory discussions with the new federal Center for Medicare and Medicaid Innovation to gauge federal tolerance for innovation in this area. In addition, too little time and money were provided to develop the study. For these reasons, I have vetoed Section 213(54).

Section 302(13), page 136, Department of Ecology, Implementation of Children's Safe Products Legislation

This proviso funds the Department of Ecology's responsibilities for implementing either Senate Bill 116120 or House Bill 12821, regarding children's safe products, with legislative direction that

the appropriations would lapse if the bills were not enacted. These bills did not pass. For this reason, I have vetoed Section 302(13).

Section 308, page 144, lines 27-28, Department of Natural Resources, Fiscal Year 2013 General Fund-State Appropriation Change

Section 308(2), page 146, Department of Natural Resources, Emergency Fire Suppression
Section 925, page 268, Department of Natural Resources, Forest Development Account
Section 926, pages 268-269, Department of Natural Resources, Forest Development Account

Section 308(2) shifts \$2.1 million in fire suppression costs to the Forest Development Account, which is a trust management account used by the Department of Natural Resources (DNR) to pay for management of state forest trust lands that benefit 19 timber-dependent counties. It is not appropriate to require these 19 counties to bear the statewide costs of fire suppression, even partially, while other trusts and timber landowners remain unaffected. Additionally, \$623,000 in fire suppression overtime savings is assumed in this reduction, which is not feasible to achieve by DNR and its partners to manage wildfire responses. For these reasons, I have vetoed Section 308(2).

To restore funding sufficient to cover the \$2.1 million in fire suppression costs shifted back to the General Fund, I have also vetoed the fiscal year 2013 General Fund appropriation revision found in Section 308, page 144, lines 27-28. Because this veto will restore more funding than necessary to cover the fire suppression costs shifted back to General Fund-State, the Commissioner of Public Lands has agreed, at my request, to place \$1.2 million General Fund-State in reserve for fiscal year 2013.

Sections 925 and 926 make statutory changes needed to allow the use of the Forest Development Account for fire suppression costs by the Department of Natural Resources proposed in Section 308(2). Because I have vetoed Section 308(2), I have also vetoed Section 925 and Section 926.

Section 308(12), pages 148-149, Department of Natural Resources, Marina Rent Rates
Section 930, pages 272-273, Department of Natural Resources, Calculation of Annual Rent for Qualifying Marinas

These items have the effect of reducing marina rent solely benefiting up to six marinas in our state. Revising marina rent rates has long been an issue before the Legislature. The Department has completed several different studies and options for revising marina rents and introduced legislation as early as 2011 to implement these changes. These studies have clearly demonstrated that the current method to set marina rents is inequitable. The Legislature needs to take action on a permanent statutory change that addresses rents for all marinas within the state, not simply "pilot" a rent reduction for a few marinas through the budget. Additionally, the lower rent rates would reduce revenue to the Aquatic Lands Enhancement Account by \$75,000 per year, an account which is already over-appropriated by \$2 million. For these reasons, I have vetoed Section 308(12) and Section 930.

Section 505(9), page 180, Office of the Superintendent of Public Instruction, Development of New Transportation Allocation Formula

The Office of the Superintendent of Public Instruction (OSPI) is required to develop a new state unit-cost pupil transportation funding allocation for schools, or a hybrid formula, for legislative consideration and potential adoption. From 2006 to 2011, the state invested more than \$1,000,000 to study and implement pupil transportation formula options. Consultants for the study, along with a working group of school district finance and transportation experts, recommended the expected cost model of funding over a unit-cost model. This model was enacted by the Legislature, effective September 1, 2011, and OSPI has proceeded with implementation. The state has carefully considered various formula options and invested considerable effort into developing the expected cost model. Another pupil transportation study is unwarranted. For these reasons, I have vetoed Section 505(9).

Section 511(18), page 192, Office of the Superintendent of Public Instruction, Education Reform Program, American Academy

This proviso allocates \$200,000 solely for The American Academy to provide social support and academic interventions to at-risk students. The American Academy is one of many programs in the state providing services to at-risk students. This proviso singles out a specific provider, The American Academy, for additional funding when other programs serving at-risk students are

equally deserving. For this reason, I have vetoed Section 511(18).

Section 601(7), page 200, State Board for Community and Technical Colleges, Bellevue College Baccalaureate Degrees

Bellevue College would be temporarily authorized through this budget proviso to offer baccalaureate degrees, rather than applied baccalaureate degrees as currently authorized. The current applied baccalaureate pilot program at Bellevue College and other participating institutions shows promise. While expansion of baccalaureate degree programs into the state's community and technical college system may ultimately prove to be sound public policy, such authorization through a budget proviso is the wrong approach. The Legislature endorsed the System Design Plan in 2010 for the purpose of establishing a process for the expansion of new programs and degrees where there is demand and to ensure financial sustainability. This important planning process cannot succeed if independent authorization is given in a budget proviso. Moreover, it is unlikely that implementation of degree programs on a new campus can be completed by June 30, 2013, when the authority in this subsection will expire. For these reasons, I have vetoed Section 601 (7).

Section 714, pages 232-233, Office of Financial Management, Fiscal Year 2013 Information Technology Savings

Section 714 directs the Office of Financial Management to identify information technology (IT) savings and to reduce state agency allotments by \$10 million in all funds. The 2011-13 budget already includes another \$60 million in central service reductions, as well as administrative cuts in multiple agencies and the expectation that agencies will under-spend their revised budgets by \$120 million of reversions. While the state will continue to pursue savings in IT and other back office functions, we have to be realistic about the detrimental effect of random reduction targets. At some point, agencies will not be able to deliver expected services even with increased productivity. So, enough is enough. For this reason, I have vetoed Section 714.

Section 919, pages 253-257, Office of the Governor, Across-the-Board Reductions

Existing law gives the Governor authority to impose across-the-board spending reductions when a cash deficit is projected in a particular fund. To prevent the necessity of a special session if revenues decline, I asked the Legislature for more flexibility in the event there was a need to reduce State General Fund expenditure authority. However, this language actually reduces executive flexibility by mandating that all provisoed amounts be reduced by the same percentage as separate appropriations. While agencies must respect legislative priorities when implementing across-the-board reductions, mandating the preservation of provisoed funds over core services is the wrong approach. For these reasons, I have vetoed Section 919.

I am not vetoing Section 307, which transfers \$3.3 million of the Department of Fish and Wildlife's enforcement expenses from the State General Fund to the Recreation Resources Account. However, I do have concerns about this provision of the bill. A veto would not restore the \$3.3 million General Fund reduction and would result in the elimination of 30 enforcement officer positions. The Department cannot effectively enforce state fish and wildlife regulations with a reduction of this magnitude. The Recreation Resources Account provides grants for local boating projects across the state. The Legislature should reconsider this transfer next session.

With the exception of Sections 124; 131(5); 204(1)(t); 205(2)(c); 205(2)(d); 211(6); 213(40); 213(44); 213(45); 213(49); 213(54); 302(13); 308, page 144, lines 27-28; 308(2); 308(12); 505(9); 511(18); 601(7); 714; 919; 925; 926; 930; and 935, Third Engrossed Substitute House Bill 2127 is approved.

VETO MESSAGE ON ESHB 2190

March 23, 2012

To the Honorable Speaker and Members,
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Sections 102(9), 604, 212(2), 216(7), 602(4), and 717, Engrossed Substitute House Bill 2190 entitled:

"AN ACT Relating to transportation funding and appropriations."

Section 102(9), pages 4-5, Office of Financial Management
Section 604, page 93, Washington State Patrol

These provisos require the Office of the Chief Information Officer (OCIO) and the Washington State Patrol to conduct a technical review of the State Patrol's conversion to narrowbanding. Funding was not provided in either proviso, and review of the narrowbanding project has already been done by external entities. For these reasons, I have vetoed Section 102(9) and Section 604.

Section 212(2), page 28, Department of Transportation

This proviso directs the Department to provide a report about a possible move of the Aviation Division from Arlington to Olympia, and states that this move cannot occur unless approved by the Legislature during the 2013 session. A financial analysis has already been completed that identifies savings by moving the Aviation Division office to a state-owned building. For this reason, I have vetoed Section 212(2).

Section 216(7), page 35, Department of Transportation

This proviso requires the Secretary of the Department of Transportation, upon the request of a county, to reduce the maximum speed limits on a state highway in proximity to a state university research and extension center. As highway safety remains one of my top transportation concerns, I have instructed the Department to work with the affected counties identified in this proviso by June 30, 2012. Nevertheless, for safety reasons, state highway speed limits should be managed in a consistent manner at the state level. For this reason, I have vetoed Section 216(7).

Section 602(4), page 91, Department of Transportation

This proviso requires that the Department of Transportation's 2013-15 biennial budget submittal include a three percent reduction in workforce in Information Technology, Program Delivery Management, Administration and Support, and Planning and Research. The Department believes it is more appropriate that the budget be informed by workload needs, federal planning requirements and other management responsibilities, which are balanced against project delivery expectations and available resources. The proviso also imposes a management-to-staffing ratio on the Department's administrative operating programs. These programs require a higher-than-average concentration of managers as they provide statewide management and oversight of the highways construction program and other core programs. Therefore, it is not appropriate to impose a management-to-staffing ratio on these programs. For these reasons, I have vetoed Section 602(4), and instructed the Department to continue to find efficiencies and make reductions in its administrative overhead this biennium and in the 2013-15 biennial budget submittal. For this reason, I have vetoed Section 602(4).

Section 717, page 98, Conditionally Additive Appropriations

This proviso ties the appropriation of additional transportation funding in sections 702, 705, 708, 710, 711(2), 712, and 713 to the passage of Engrossed Substitute Senate Bill 6455, which did not pass. In order to preserve the appropriations, I have vetoed Section 717.

With the exception of Sections 102(9), 604, 212(2), 216(7), 602(4) and 717, Engrossed Substitute House Bill 2190 is approved.
Respectfully submitted,

Christine Gregoire

VETO MESSAGE ON ESSHB 2319

March 23, 2012

To the Honorable Speaker and Members,
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I have approved, except for Section 26, Engrossed Second Substitute House Bill 2319 entitled:

"AN ACT Relating to furthering state implementation of the health benefit exchange and related provisions of the affordable care act."

Section 26 requires the exchange to suspend operations if at any time it is not self-sustaining. There are other sections of the bill which require the exchange to be self-sustaining. Section 26 is redundant, and the phrase “at any time” adds an unnecessary element of uncertainty and creates risks of litigation that could interfere with exchange operations. For these reasons I have vetoed Section 26.

Although there are other sections of the bill about which concerns have been raised, I am approving them for the following reasons:

Section 6 imposes market rules essential to help health plans sold in the exchange remain affordable by protecting them against adverse selection, with great care taken not to inappropriately burden the general insurance market. Concern that this section would apply to other than individual or small group plans is misplaced. Such a reading is unsupported by the legislative history and makes no sense in light of the statutory purpose and the corresponding provisions of the federal Affordable Care Act.

Section 7 has also produced some confusion about the effective date when it becomes law and the later operative date when the Insurance Commissioner would implement its provisions. This section will become a statute in existing law on its effective date of June 7, 2012; however, it will not become operative and apply to any health plans until January 1, 2014. This is because the referenced Section 1302 of the Affordable Care Act does not become operative until that later date. The Insurance Commissioner has advised me his office will not apply or enforce the provisions of Section 7 until January 1, 2014.

Section 25 effectively exempts “navigators” acting under the Affordable Care Act from the state licensing requirements applicable to insurance agents or brokers under chapter 48.17 RCW. These are individuals or organizations that will be charged with informing consumers about their new health insurance options – particularly low-income consumers who face language or cultural barriers. Section 25 conforms state law to recent rules issued by the United States Department of Health and Human Services which prohibit a state from requiring a navigator to hold an agent or broker license. These federal rules also call for the state to adopt separate consumer protection standards addressing the unique circumstances under which navigators will operate, which Section 25 does not preclude, and I expect our state will do.

With the exception of Section 26, Engrossed Second Substitute House Bill 2319 is approved.

Respectfully submitted,
Christine Gregoire
Governor

VETO MESSAGE ON ESSHB 2483

March 30, 2012

To the Honorable Speaker and Members,
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Section 570, Engrossed Second Substitute House Bill 2483 entitled:

"AN ACT Relating to higher education coordination."

The Legislature has passed two bills this session amending RCW 28B.117.020. To prevent a conflicting double amendment, I am vetoing Section 570 of Engrossed Second Substitute House Bill 2483. This section would correct a reference to the Higher Education Coordinating Board in RCW 28B.117.020. Substitute House Bill 2254 eliminates the reference and obviates the need for correction.

For this reason I have vetoed Section 570 of Engrossed Second Substitute House Bill 2483.
With the exception of Section 570, Engrossed Second Substitute House Bill 2483 is approved.

Respectfully submitted,
Christine Gregoire
Governor

VETO MESSAGE ON EHB 2509

March 30, 2012

To the Honorable Speaker and Members,
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval, Engrossed House Bill 2509 entitled:

"AN ACT Relating to improving workplace safety and health by enacting the blueprint for safety program."

Engrossed House Bill 2509 would require the Department of Labor and Industries to expand its voluntary technical assistance pilot program, the Blueprint for Safety Program, to an additional region of the state. Engrossed House Bill 2509 further states that funding for this program cannot be appropriated from the medical aid fund or accident fund, but shall be implemented within existing resources.

The goal of the Blueprint for Safety Program is to improve employee safety and lower costs by assisting those employers for which the traditional safety and health model has not been effective. This goal is laudable, and I will direct the Department to continue its work in this area. However, combining a mandated expansion of this labor-intensive program with restrictions on use of the medical aid fund or accident fund is problematic. These limits on funding sources could cause significant reductions in several important ongoing programs supported by other funds. Also, these limits would decrease the Department's ability to ensure federal matching funds are not put in jeopardy.

This bill contains a single section that both expands the Blueprint for Safety Program and restricts use of resources. For this reason I have vetoed Engrossed House Bill 2509 in its entirety.

Respectfully submitted,
Christine Gregoire
Governor

VETO MESSAGE ON SHB 2541

March 29, 2012

To the Honorable Speaker and Members,
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval, Substitute House Bill 2541 entitled:

"AN ACT Relating to sealing juvenile records."

The policy of this bill is covered in Substitute Senate Bill 6240. Further, the two sections in Substitute House Bill 2541 would result in double amendments of RCW 13.40.127 and RCW 13.50.050 that cannot be fully reconciled with Substitute Senate Bill 6240.

For these reasons I have vetoed Substitute House Bill 2541 in its entirety.

Respectfully submitted,
Christine Gregoire
Governor

VETO MESSAGE ON ESHB 2570

March 30, 2012

To the Honorable Speaker and Members,
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Section 1, Engrossed Substitute House Bill 2570 entitled:

"AN ACT Relating to metal property theft."

Section 1 creates a twenty-four member task force to study the issue of metal theft and make recommendations to the Legislature. As I have stated many times, I do not support the statutory creation of new boards, commissions, work groups, or task forces. I believe this task force can be assembled independently, by the interested parties, without the need for a statute. In the alternative, the Legislative Committee(s) with jurisdiction can make the issue part of its interim work plan. For these reasons, I have vetoed Section 1 of Engrossed Substitute House Bill 2570.

With the exception of Section 1, Engrossed Substitute House Bill 2570 is approved.

Respectfully submitted,
Christine Gregoire
Governor

VETO MESSAGE ON 3SHB 2585

March 30, 2012

To the Honorable Speaker and Members,
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Section 2, Third Substitute House Bill 2585 entitled:

"AN ACT Relating to creating efficiencies for institutions of higher education."

Section 2 allows institutions of higher education to implement higher education health care special pay plans without the approval of the State Human Resources Director. Higher education health care special pay plans have existed for many years and the institutions do an excellent job in demonstrating the need for special pay ranges to be competitive with positions of a similar nature in the locality of the institutions. However, review of special pay plans by the State Human Resources Director prior to implementation is a necessary step to assess the impact of special pay ranges to the state's compensation structure. Only the State Human Resources Director can provide this enterprise wide perspective. For this reason, I am vetoing Section 2 of Third Substitute House Bill 2585.

However, I appreciate the needs of institutions to find efficiencies in this process. Therefore, I am directing the State Human Resources Director to work with institutions of higher education to identify opportunities at the administrative level to streamline the process for reviewing special pay plans.

With the exception of Section 2, Third Substitute House Bill 2585 is approved.

Respectfully submitted,
Christine Gregoire
Governor

VETO MESSAGE ON SHB 2657

March 29, 2012

To the Honorable Speaker and Members,
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Section 3, Substitute House Bill 2657 entitled:

"AN ACT Relating to adoption support expenditures."

Section 3 requires the Department of Social and Health Services to convene a work group, as part of its children's mental health redesign efforts, to develop recommendations to better address the mental health service needs of adoptive families and reduce the need to spend adoption support payments on mental health services. The Department of Social and Health Services is additionally required to issue recommendations to the Legislature by December 15, 2012.

While I appreciate the intent of this section, the Department of Social and Health Services has already included the convening of a similar work group in its plan for improvements to the children's mental health system. I am directing the Secretary of the Department of Social and Health Services to consider the Legislature's intent in the composition and tasks of the work group and to keep the Legislature informed of its efforts. Creation of a work group in statute and the preparation of a formal report are not necessary. For this reason, I have vetoed Section 3 of Substitute House Bill 2657.

With the exception of Section 3, Substitute House Bill 2657 is approved.

Respectfully submitted,
Christine Gregoire
Governor

VETO MESSAGE ON ESHB 2692

March 29, 2012

To the Honorable Speaker and Members,
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I have approved, except for Section 1, Engrossed Substitute House Bill 2692 entitled:

“AN ACT Relating to the reduction of the commercial sale of sex.”

I am vetoing Section 1 because it amends the same section of the Revised Code of Washington that is amended in Section 3 of Engrossed Substitute House Bill 1983. The amendments cannot be reconciled. For this reason I have vetoed Section 1 of Engrossed Substitute House Bill 2692.

With the exception of Section 1, Engrossed Substitute House Bill 2692 is approved.

Respectfully submitted,
Christine Gregoire
Governor

VETO MESSAGE ON HB 2834

May 2, 2012

To the Honorable Speaker and Members,
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Section 4, House Bill 2834 entitled:

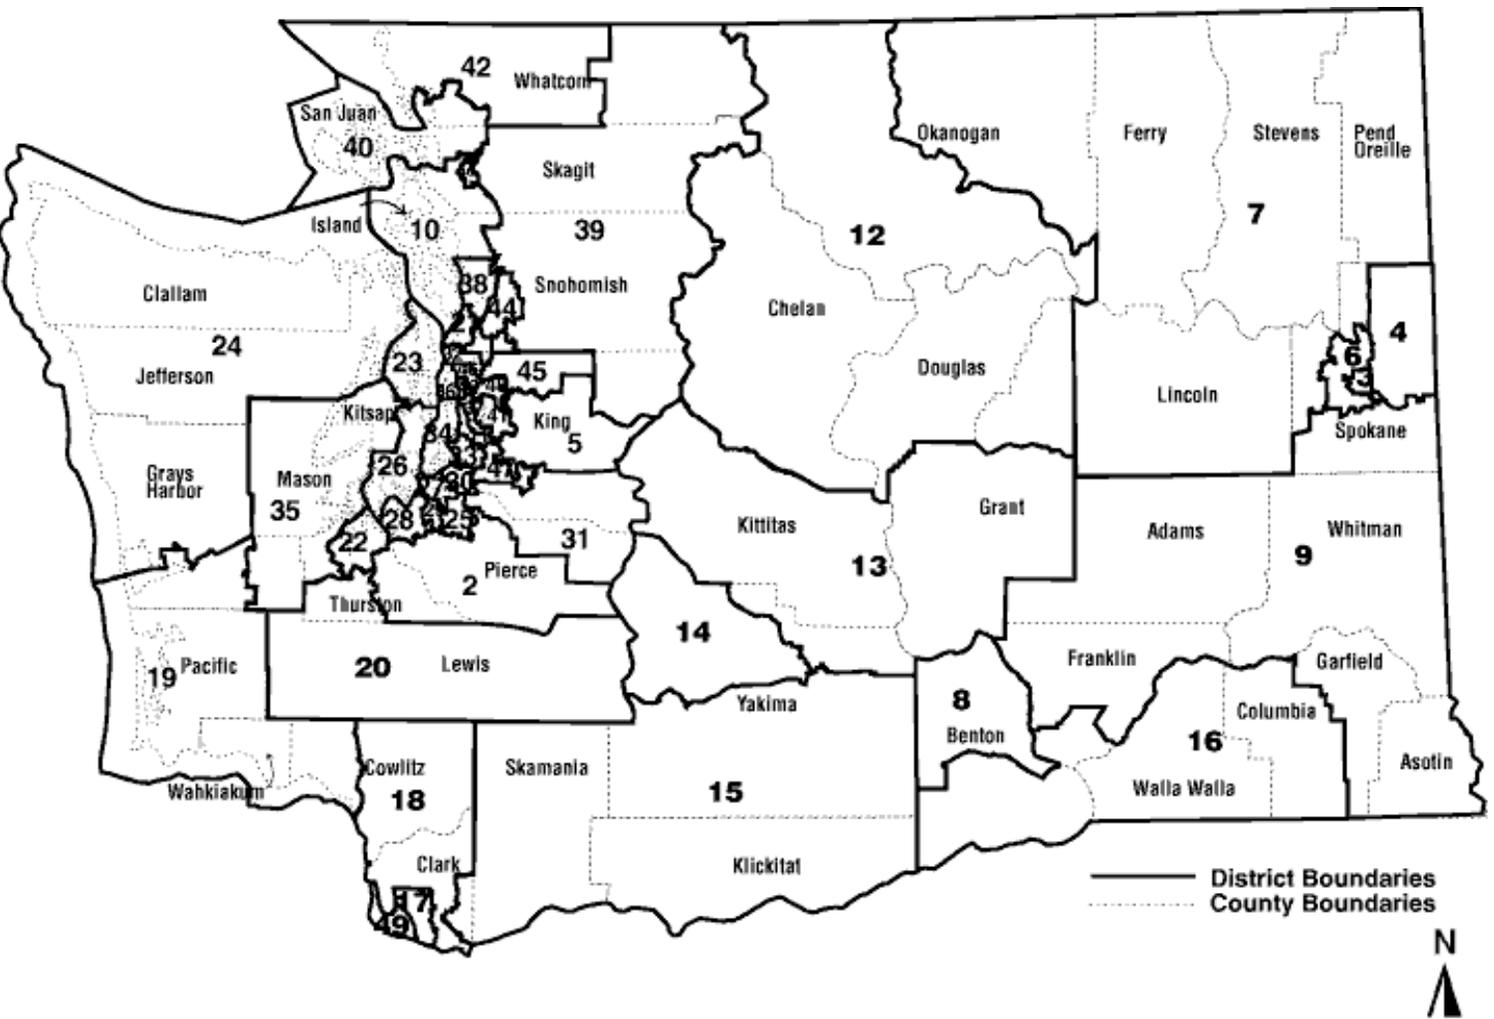

“AN ACT Relating to providing cost savings for local governments by reducing a limited number of reporting requirements.”

Section 4 contains two directives. The first requires the Office of Financial Management (OFM) to conduct a review of reports, programs, and mandates required of state and local governments to determine those that are obsolete or unnecessary. The second requires OFM to develop and submit executive request legislation to terminate specific reports, programs, and mandates based on the review. While I agree that conducting a sunset review of requirements imposed on state and local governments would be beneficial, I do not believe it is appropriate for the Legislature to mandate the content of executive request legislation. Article III, section 6 of the Washington Constitution provides that the Governor shall recommend to the Legislature such measures as the Governor deems expedient for their action. Section 4 is inconsistent with this constitutional provision and the constitutional separation of powers.

I will direct OFM to work with statewide organizations representing cities and counties to create a process to review reports, mandates, and programs that create additional expenses for state and local governments. OFM will report to the Governor and the Legislature and submit recommendations on executive request legislation to the Governor. For this reason, I have vetoed Section 4 of House Bill 2834.

With the exception of Section 4, House Bill 2834 is approved.

Respectfully submitted,
Christine O. Gregoire
Governor
