Findings—Intent—1995 c 211: "The legislature finds that during the past fourteen years, the Washington state parks and recreation commission has endured a steady erosion of general fund operating support, which has caused park closures, staff reductions, and growing backlog of deferred maintenance projects. The legislature also finds that the growth of parks revenue has been constrained by staff limitations and by transfers of that revenue into the general fund.

The legislature intends to reverse the decline in operating support to its state parks, stabilize the system's level of general fund support, and inspire

system employees and park visitors to enhance these irreplaceable resources and ensure their continuing availability to current and future state citizens and visitors. To achieve these goals, the legislature intends to dedicate park revenues to park operations, developing and renovating park facilities, undertaking deferred maintenance, and improving park stewardship. The legislature clearly intends that such revenues shall complement, not supplant, future general fund support." [1995 c 211 § 1.]

Whenever the commission finds that any land under its control cannot advantageously be used for park purposes, it is authorized to dispose of such land by the method provided in this section or by the method provided in RCW 79A.05.170. If such lands are school or other grant lands, control thereof shall be relinquished by resolution of the commission to the proper state officials. If such lands were acquired under restrictive conveyances by which the state may hold them only so long as they are used for park purposes, they may be returned to the donor or grantors by the commission. All other such lands may be either sold by the commission to the highest bidder or exchanged for other lands of equal value by the commission, and all conveyance documents shall be executed by the governor. All such exchanges shall be accompanied by a transfer fee, to be set by the commission and paid by the other party to the transfer; such fee shall be paid into the parkland acquisition account established under RCW 79A.05.170. If the commission feels that no bid received adequately reflects the fair value of the land to be sold, it may reject all bids, and may call for new bids. All proceeds derived from the sale of such park property shall be paid into the parkland acquisition account. All land considered for exchange shall be evaluated by the commission to determine its adaptability to park usage. The equal value of all lands exchanged shall first be determined by the appraisals to the satisfaction of the commission. SEASHORE CONSERVATION AREA

79A.05.600 Declaration of principles. The beaches bounding the Pacific Ocean from the Straits of Juan de Fuca to Cape Disappointment at the mouth of the Columbia River constitute some of the last unspoiled seashore remaining in the United States. They provide the public with almost unlimited opportunities for recreational activities, like swimming, surfing and hiking; for outdoor sports, like hunting, fishing, clamming, and boating; for the observation of nature as it existed for hundreds of years before the arrival of Europeans; and for relaxation away from the pressures and tensions of modern life. In past years, these recreational activities have been enjoyed by countless Washington citizens, as well as by tourists from other states and countries. The number of people wishing to participate in such recreational activities grows annually. This increasing public pressure makes it necessary that the state dedicate the use of the ocean beaches to public recreation and to provide certain recreational and sanitary facilities. Nonrecreational use of the beach must be strictly limited. Even recreational uses must be regulated in order that Washington's unrivaled seashore may be saved for our children in much the same form as we know it today. [2009 c 549 § 1029; 1967 c 120 § 1. GREEN RIVER GORGE CONSERVATION AREA

79A.05.700 Declaration. The Green River Gorge, between the town of Kanasket and the Kummer bridge in King county, is a twelve mile spectacularly winding gorge with steep to overhanging rock walls reaching heights of from one hundred fifty to three hundred feet. The beauty and natural features of the gorge are generally confined within the canyon rim. This twelve mile gorge area contains many examples of unique biological and geological features for educational and recreational interpretation, almost two miles of Eocene sediment rocks and fossils are exposed revealing one of the most complete stratigraphic sections to be found in the region. The area, a unique recreational attraction with more than one million seven hundred thousand people living within an hour's driving time, is presently used by hikers, geologists, fishers, kayakers and canoeists, picnickers and swimmers, and those seeking the solitude offered by this unique area. Abutting and adjacent landowners generally have kept the gorge lands in their natural state; however, economic and urbanization pressures for development are rapidly increasing. Local and state outdoor recreation plans show a regional need for resources and facilities which could be developed in this area. A twelve-mile strip incorporating the visual basins of the Green river from the Kummer bridge to Palmer needs to be acquired and developed as a conservation area to preserve this unique area for the recreational needs of the region. [2013 c 23 § 267; 1969 ex.s. c 162 § 1. Formerly RCW 43.51.900.]

79A.05.705 Green River Gorge conservation area created. There is hereby created a Washington state parks and recreation commission conservation area to be known as "Green River Gorge conservation area". [1969 ex.s. c 162 § 2. Formerly RCW 43.51.910.]

79A.05.710 Acquisition of real property, easements, or rights authorized. In addition to all other powers and duties prescribed by law, the state parks and recreation com-

mission is authorized and directed to acquire such real property, easements, or rights in the Green River Gorge in King county, together with such real property, easements, and rights as is necessary for such park and conservation purposes in any manner authorized by law for the acquisition of lands for parks and parkway purposes. Except for such real property as is necessary and convenient for development of picnicking or camping areas and their related facilities, it is the intent of this section that such property shall be acquired to preserve, as much as possible, the gorge within the canyon rim in its natural pristine state. [1969 ex.s. c 162 § 3. Formerly RCW 43.51.920.]

79A.05.715 Acquisition of real property, easements, or rights authorized—Rights of other state agencies not to be infringed upon. Nothing herein shall be construed as authorizing or directing the state parks and recreation commission to acquire any real property, easements, or rights in the Green River Gorge in King county which are now held by any state agency for the purposes of outdoor recreation, conservation, fish, or wildlife management or public hunting or fishing without the approval of such agency. [1969 ex.s. c 162 § 4. Formerly RCW 43.51.930.]

MOUNT SI CONSERVATION AREA

79A.05.725 Legislative declaration. Mt. Si and Little Si in King county offer unique scenic, natural, and geological features which can be viewed from the I-90 highway. They also afford outstanding recreational opportunities enjoyed by the citizens of this state and tourists alike. The legislature recognizes the importance of guarding portions of this area from those types of development which would permanently alter the area's natural form and beauty. It further recognizes the necessity of setting forth procedures to manage the area, to enhance the opportunities afforded the state's citizens, one-half of whom live within one-half hour driving time of Mt. Si, and to safeguard to the extent possible the scenic, natural, geological, game habitat, and recreational values therein, and to safeguard and promote the upper Snoqualmie River valley's economy in which the recreational use of Mt. Si plays a pivotal role. Therefore, the legislature declares this area to be of statewide significance for the foregoing purposes to be enhanced and safeguarded in accordance with the procedures set forth in chapter 306, Laws of 1977 ex. sess. [1977 ex.s. c 306 § 1; 1975-'76 2nd ex.s. c 88 § 1. Formerly RCW 43.51.940.]

79A.05.730 "Mt. Si conservation area"—Created. There is hereby created a "Mt. Si conservation area" to include approximately twenty-five hundred acres of state, United States government, and privately owned lands within Sections 25, 26, 35, and 36, Township 24 North, Range 8 East, W.M., and Sections 2, 3, 10, 11, and 12 of Township 23 North, Range 8 East, W.M., as identified for inclusion in the conservation area and described more specifically by the Mt. Si citizen advisory subcommittee in their published report of December 6, 1976, to the Washington state department of natural resources and the Washington state parks and recreation commission as contained in the report filed by those agencies to the house and senate committees on parks and

The state department of natural resources and the state parks and recreation commission have joined together in excellent cooperation in the conducting of this study along with the citizen advisory subcommittee and have joined together in cooperation with the department of fish and wildlife to accomplish other projects of multidisciplinary concern, and because it may be in the best interests of the state to continue such cooperation, the state parks and recreation commission, the department of natural resources, and the department of fish and wildlife are hereby directed to consider both short and long term objectives, the expertise of each agency's staff, and alternatives such as reasonably may be expected to safeguard the conservation area's values as described in RCW 79A.05.725 giving due regard to efficiency and economy of management: PROVIDED, That the interests conveyed to or by the state agencies identified in this section shall be managed by the department of natural resources until such time as the state parks and recreation commission or other public agency is managing public recreation areas and facilities located in such close proximity to the conservation area described in RCW 79A.05.730 so as to make combined management of those areas and facilities and transfer of management of the conservation area more efficient and economical than continued management by the department of natural resources. At that time the department of natural resources is directed to negotiate with the appropriate public agency for the transfer of those management responsibilities for the interests obtained within the conservation area under RCW 79A.05.725 through 79A.05.745: PROVIDED FURTHER, That the state agencies identified in this section may, by mutual agreement, undertake management of portions of the conservation area as they may from time to time determine in accordance with those rules and regulations established for natural area preserves under chapter 79.70 RCW, for natural and conservation areas under present WAC 352-16-020(3) and (6), and under chapter 77.12 RCW. Any lease issued pursuant to chapter 306, Laws of 1977 ex. sess. may be subject to renewal under the provisions of *RCW 79.01.276 as presently existing or hereafter amended. Nothing in chapter 306,

Laws of 1977 ex. sess. shall be deemed to alter or affect normal management on lands owned by the state for which no dedication by easement or lease has been made and it is further recognized that no restrictions on management of such lands shall be required unless the applicable trust relating to such lands shall have been compensated. [1998 c 245 § 67; 1977 ex.s. c 306 § 4. Formerly RCW 43.51.944.]

MISCELLANEOUS PROVISIONS

79A.05.800 Scenic bikeways program—Rules. (1) In addition to its other powers, duties, and functions, the commission must establish a scenic bikeways program for the designation and promotion of bicycle routes of notable scenic, recreational, cultural, or historic value.

(2)(a) Any person may propose the designation of a scenic bikeway route by the commission. Prior to the designation of a scenic bike [bikeway] route by the commission, the commission must provide an opportunity for public comment.

(b) When proposing routes for commission approval, proponents are encouraged to:

(i) Consider the criteria under this section by which the commission will review and approve scenic bikeway designations, including the criteria specified in subsections (4) and (6) of this section; and

(ii) Locate routes in such a way as to encourage local economic development in proximity to designated scenic bikeways, including opportunities for bicycle repairs, food, lodging, camping, recreation, and other tourist activities.

(3)(a) Scenic bikeways may be comprised of bicycle paths, multiple-use trails, highways, or trail facilities managed by the commission.

(b)(i) Scenic bikeways may be located over public lands with the consent of each federal, state, or local governmental entity that has jurisdiction over the public lands or through which a proposed route passes.

(ii) Scenic bikeways may be located over privately owned lands with the consent of the private landowner.

(4) Prior to designating a scenic bikeway, the commission must review the proposed designation in consultation with the department of transportation and confirm the designated bicycle route:

(a) Is of notable scenic, recreational, cultural, or historic value, or some combination thereof;

(b) Is consented to as required under subsection (3) of this section; and

(c) To the extent feasible and consistent with the goals of this section:

(i) Is not located on heavily trafficked roads when less-trafficked roads are available as a suitable alternative;

(ii) Is not located on highways without shoulders or bike lanes when highways with shoulders or bike lanes are available as a suitable alternative;

(iii) Avoids complex intersections or other locations that would reduce the ease of use of the scenic bikeway by users;

(2022 Ed.)

(iv) Is colocated with locally developed bicycle-supportive infrastructure, including bike lanes, multiuse trails, greenways, or other designated bicycle routes; and

(v) Is designed to minimize adverse effects on adjacent landowners.

(5) Prior to designating a scenic bikeway, the commission must consult with a local government legislative authority if the scenic bikeway will be located within the local government's jurisdiction.

(6) To the extent that funds available for the development of scenic bikeways limit the number of designated scenic bikeways that the commission is able to approve and implement each biennium, the commission must give priority to the designation and implementation of scenic bikeways that will add variety to the geographic location, topography, route length and difficulty, and cultural, historic, scenic, and recreational value of the statewide scenic bikeway system or that will complete existing bicycling networks.

(7) The commission must periodically review designated scenic bikeways to ensure that routes continue to meet the criteria of subsection (4) of this section. Upon review, the commission may alter the route or revoke the designation of a scenic bikeway.

(8)(a) In consultation with the department of transportation, the commission must develop signage to be placed along the routes of each designated scenic bikeway.

(b) On the commission's website, the commission must promote the use of designated scenic bikeways.

(c) The commission may develop promotional materials, including maps or telecommunications applications for purposes of facilitating public use of designed scenic bikeways. Promotional materials created by the commission must indicate whether the bikeway is paved or gravel and any other conditions of the bikeway that affect the safety of users. Consistent with the standards of RCW 79A.05.087, the commission may encourage local economic development in proximity to designated scenic bikeways in the promotional materials by noting opportunities for bicycle repair, food, lodging, camping, recreation, and other tourist activities.

(d) The commission must evaluate each designated scenic bikeway to determine whether the bikeway, or a portion thereof, is suitable for the use of electric bicycles and tricycles. If the commission determines that a designated scenic bikeway, or a portion thereof, is suitable for the use of electric bicycles and tricycles, the commission must allow their use on those bikeways or portions of bikeways.

(9) A recreational access pass issued under chapter 79A.80 RCW is not required in order to use a designated scenic bikeway, except that the access pass requirements of chapter 79A.80 RCW apply to motor vehicles used to park or operate on any portion of a scenic bikeway located on a recreational site or lands, as that term is defined in RCW 79A.80.010.

(10) The designation of a facility or roadway as a scenic bikeway by the commission does not change the liability of the commission or any other state or local government entity with respect to unintentional injury sustained by a user of a scenic bikeway. Nothing in this subsection applies or limits the applicability of the provisions of RCW 4.24.210 to roads or facilities designated as scenic bikeways.

(11) Nothing in this section authorizes the commission to acquire property or property rights solely for purposes of development of a scenic bikeway.

(12) The commission may enter into sponsorship agreements with nonprofit entities or private businesses or entities for sponsorship signs to be displayed on designated scenic bikeways or portions of designated scenic bikeways. The commission may establish the cost for entering into a sponsor agreement. Sponsorship agreements must comply with (a) through (d) of this subsection.

(a) Space for a sponsorship sign may be provided by the commission on a designated scenic bikeway.

(b) Signage erected pursuant to a sponsorship agreement must be consistent with criteria established by the commission relating to size, materials, colors, wording, and location.

(c) The nonprofit entity or private business or entity must pay all costs of a display, including development, construction, installation, operation, maintenance, and removal costs.

(d) Proceeds from the sponsorship agreements must be used to fund commission activities related to the scenic bikeways program. Any surplus funds resulting from sponsorship agreements must be deposited into the state parks renewal and stewardship account under RCW 79A.05.215.

(13) The commission may adopt rules to administer the scenic bikeways program. [2020 c 286 § 1.]

79A.15.005 Findings. The legislature finds:

(1) That Washington possesses an abundance of natural wealth in the form of forests, mountains, wildlife, waters, and other natural resources, all of which help to provide an unparalleled diversity of outdoor recreation opportunities and a quality of life unmatched in this nation;

(2) That as the state's population grows, the demand on these resources is growing too, placing greater stress on today's already overcrowded public recreational lands and facilities, and resulting in a significant loss of wildlife habitat and lands of unique natural value;

(3) That public acquisition and development programs have not kept pace with the state's expanding population;

(4) That private investment and employment opportunities in general and the tourist industry in particular are dependent upon the continued availability of recreational opportunities and our state's unique natural environment;

(5) That if current trends continue, some wildlife species and rare ecosystems will be lost in the state forever and public recreational lands will not be adequate to meet public demands;

(6) That there is accordingly a need for the people of the state to reserve certain areas of the state, in rural as well as urban settings, for the benefit of present and future generations.

It is therefore the policy of the state to acquire as soon as possible the most significant lands for wildlife conservation and outdoor recreation purposes before they are converted to other uses, and to develop existing public recreational land and facilities to meet the needs of present and future generations. [1990 1st ex.s. c 14 § 1. Formerly RCW 43.98A.005.]

 - (iii) Potential for public use; and
 - (iv) Potential for use by special needs populations.
- (c) For riparian protection proposals, the board must consider, at a minimum, the following criteria:
- (i) Whether the project continues the conservation reserve enhancement program. Applications that extend the duration of leases of riparian areas that are currently enrolled in the conservation reserve enhancement program are eligible. These applications are eligible for a conservation lease extension of at least twenty-five years of duration;
 - (ii) Whether the projects are identified or recommended in a watershed plan, salmon recovery plan, or other local plans, such as habitat conservation plans, and these must be highly considered in the process;
 - (iii) Whether there is community support for the project;
 - (iv) Whether the proposal includes an ongoing stewardship program that includes control of noxious weeds, detrimental invasive species, and that identifies the source of the funds from which the stewardship program will be funded;
 - (v) Whether there is an immediate threat to the site;
 - (vi) Whether the quality of the habitat is improved or, for projects including restoration or enhancement, the potential for restoring quality habitat including linkage of the site to other high quality habitat;
 - (vii) Whether the project is consistent with a local land use plan or a regional or statewide recreational or resource plan. The projects that assist in the implementation of local shoreline master plans updated according to RCW 90.58.080 or local comprehensive plans updated according to RCW 36.70A.130 must be highly considered in the process;
 - (viii) Whether the site has educational or scientific value;

 - (x) Whether the project provides habitat benefits for the feeding, nesting, and reproduction of all pollinators, including honey bees.

(d) Moneys appropriated for this chapter to riparian protection projects must be distributed for the acquisition or enhancement or restoration of riparian habitat. All enhancement or restoration projects, except those qualifying under (c)(i) of this subsection, must include the acquisition of a real property interest in order to be eligible.

(6) Before November 1st of each even-numbered year, the board shall recommend to the governor a prioritized list of all projects to be funded under RCW 79A.15.040. The governor may remove projects from the list recommended by the board and shall submit this amended list in the capital budget request to the legislature. The list shall include, but not be limited to, a description of each project and any particular match requirement, and describe for each project any anticipated restrictions upon recreational activities allowed prior to the project. 79A.25.005 Policy—Mission of board. (1) As Washington begins its second century of statehood, the legislature recognizes that renewed efforts are needed to preserve, conserve, and enhance the state's recreational resources. Rapid population growth and increased urbanization have caused a decline in suitable land for recreation and resulted in overcrowding and deterioration of existing facilities. Lack of adequate recreational resources directly affects the health and well-being of all citizens of the state, reduces the state's economic viability, and prevents Washington from maintaining and achieving the quality of life that it deserves.

It is therefore the policy of the state and its agencies to preserve, conserve, and enhance recreational resources and open space. In carrying out this policy, the mission of the recreation and conservation funding board and its office is to (a) create and work actively for the implementation of a unified statewide strategy for meeting the recreational needs of Washington's citizens, (b) represent and promote the interests of the state on recreational issues in concert with other state and local agencies and the governor, (c) encourage and provide interagency and regional coordination, and interaction between public and private organizations, (d) administer recreational grant-in-aid programs and provide technical assistance, and (e) serve as a repository for information, studies, research, and other data relating to recreation.

(2) Washington is uniquely endowed with fresh and salt waters rich in scenic and recreational value. This outdoor heritage enriches the lives of citizens, attracts new residents and businesses to the state, and is a major support of its expanding tourist industry. Rising population, increased income and leisure time, and the rapid growth of boating and other water sports have greatly increased the demand for water related recreation, while waterfront land is rapidly rising in value and disappearing from public use. There is consequently an urgent need for the acquisition or improvement of waterfront land on fresh and salt water suitable for marine recreational use by Washington residents and visitors. To meet this need, it is necessary and proper that the portion of motor vehicle fuel taxes paid by boat owners and operators on fuel consumed in their watercraft and not reclaimed as presently provided by law should be expended for the acquisition or improvement of marine recreation land on the Pacific Ocean, Puget Sound, bays, lakes, rivers, reservoirs and other fresh and salt waters of the state. Intent—2007 c 241: "The legislature intends to change the name of the interagency committee for outdoor recreation to the recreation and conservation funding board. Similarly, the office of the interagency committee is renamed the recreation and conservation office.

The legislature does not intend this act to make any substantive policy changes other than to change or clarify the names of the relevant entities.

The name changes in this act have no impact on the powers, duties, or responsibilities previously delegated to the interagency committee for outdoor recreation or the office of the interagency committee by statute, budget proviso, or executive order.

The name changes in this act have no impact on the validity of the documents, contracts, agreements, policies, and written decisions made, entered into, recorded, issued, or established before this name change by the inter-agency committee for outdoor recreation, its office, or director. Documents, contracts, agreements, policies, publications, and written decisions are not required to be changed to conform to the name changes, and the continued use of former names on documents made, recorded, issued, or established prior to the changes in this act does not affect the document's validity after the change." 79A.25.210 Firearms range account—Grant program—Rules. The firearms range account is hereby created in the state general fund. Moneys in the account shall be subject to legislative appropriation and shall be used for purchase and development of land, construction or improvement of range facilities, including fixed structure construction or remodeling, equipment purchase, safety or environmental improvements, noise abatement, and liability protection for public and nonprofit firearm range training and practice facilities.

Grant funds shall not be used for expendable shooting supplies, or normal operating expenses. In making grants, the board shall give priority to projects for noise abatement or safety improvement. Grant funds shall not supplant funds for other organization programs.

The funds will be available to nonprofit shooting organizations, school districts, and state, county, or local governments on a match basis. All entities receiving matching funds must be open on a regular basis and usable by law enforcement personnel or the general public who possess Washington concealed pistol licenses or Washington hunting licenses or who are enrolled in a firearm safety class.

Applicants for a grant from the firearms range account shall provide matching funds in either cash or in-kind contributions. The match must represent one dollar in value for each one dollar of the grant except that in the case of a grant for noise abatement or safety improvements the match must represent one dollar in value for each two dollars of the grant. In-kind contributions include but are not limited to labor, materials, and new property. Existing assets and existing development may not apply to the match.

Applicants other than school districts or local or state government must be registered as a nonprofit or not-for-profit organization with the Washington secretary of state. The organization's articles of incorporation must contain provisions for the organization's structure, officers, legal address, and registered agent.

Organizations requesting grants must provide the hours of range availability for public and law enforcement use. The fee structure will be submitted with the grant application.

Any nonprofit organization or agency accepting a grant under this program will be required to pay back the entire grant amount to the firearms range account if the use of the range facility is discontinued less than ten years after the grant is accepted.

Entities receiving grants must make the facilities for which grant funding is received open for hunter safety education classes and firearm safety classes on a regular basis for no fee.

Government units or school districts applying for grants must open their range facility on a regular basis for hunter safety education classes and firearm safety classes.

The board shall adopt rules to implement chapter 195, Laws of 1990, pursuant to chapter 34.05 RCW. During the 2017-2019 and 2019-2021 fiscal biennium, expenditures from the firearms range account may be used to implement chapter 74, Laws of 2017 (SHB 1100) (concealed pistol licenses) and chapter 282, Laws of 2017 (SB 5268) (concealed pistol license notices). During the 2021-2023 fiscal biennium, expenditures from the firearms range account may be used to implement chapter 74, Laws of 2017 (SHB 1100) (concealed pistol licenses). Findings—1990 c 195: "Firearms are collected, used for hunting, recreational shooting, and self-defense, and firearm owners as well as bow users need safe, accessible areas in which to shoot their equipment. Approved shooting ranges provide that opportunity, while at the same time, promote public safety. Interest in all shooting sports has increased while safe locations to shoot have been lost to the pressures of urban growth." [1990 c 195 § 1.]

79A.25.250 Acquisition, development, etc., of urban area parks by recreation and conservation funding board. Recognizing the fact that the demand for park services is greatest in our urban areas, that parks should be accessible to all Washington citizens, that the urban poor cannot afford to travel to remotely located parks, that few state parks are located in or near urban areas, that a need exists to conserve energy, and that local governments having jurisdiction in urban areas cannot afford the costs of maintaining and operating the extensive park systems needed to service their large populations, the legislature hereby directs the recreation and conservation funding board to place a high priority on the acquisition, development, redevelopment, and renovation of parks to be located in or near urban areas and to be particularly accessible to and used by the populations of those areas. For purposes of RCW 79A.25.250 and 79A.05.300, "urban areas" means any incorporated city with a population of five thousand persons or greater or any county with a population density of two hundred fifty persons per square mile or greater. This section shall be implemented by January 1, 1981. [2007 c 241 § 58; 2000 c 11 § 79; 1980 c 89 § 3. Formerly RCW 43.51.380.]

Intent—Effective date—2007 c 241: See notes following RCW 79A.25.005.

79A.25.260 Habitat and recreation lands coordinating group—Members—Progress reports—Duties. (Expires July 31, 2027.) (1) The habitat and recreation lands coordinating group is established. The group must include representatives from the office, the state parks and recreation commission, the department of natural resources, and the department of fish and wildlife. The members of the group must have subject matter expertise with the issues presented in this section. Representatives from appropriate stakeholder organizations and local government must also be considered for participation on the group, but may only be appointed or invited by the director.

(2) To ensure timely completion of the duties assigned to the group, the director shall submit yearly progress reports to the office of financial management.

(3) The group must:

(a) Review agency land acquisition and disposal plans and policies to help ensure statewide coordination of habitat and recreation land acquisitions and disposals;

(b) Produce an interagency, statewide biennial forecast of habitat and recreation land acquisition and disposal plans;

(c) Establish procedures for publishing the biennial forecast of acquisition and disposal plans on websites or other centralized, easily accessible formats;

(d) Develop and convene an annual forum for agencies to coordinate their near-term acquisition and disposal plans;

(e) Develop a recommended method for interagency geographic information system-based documentation of habitat and recreation lands in cooperation with other state agencies using geographic information systems;

(f) Develop recommendations for standardization of acquisition and disposal recordkeeping, including identifying a preferred process for centralizing acquisition data;

(g) Develop an approach for monitoring the success of acquisitions;

(h) Identify and commence a dialogue with key state and federal partners to develop an inventory of potential public lands for transfer into habitat and recreation land management status; and

(i) Review existing and proposed habitat conservation plans on a regular basis to foster statewide coordination and save costs.

(4) If prioritization among the various requirements of subsection (3) of this section is necessary due to the availability of resources, the group shall prioritize implementation of subsection (3)(a) through (d) and (g) of this section.

(5) The group shall revisit the planning requirements of relevant grant programs administered by the office to determine whether coordination of state agency habitat and recreation land acquisition and disposal could be improved by modifying those requirements.

(6) The group must develop options for centralizing coordination of habitat and recreation land acquisition made with funds from federal grants. The advantages and drawbacks of the following options, at a minimum, must be developed:

(a) Requiring that agencies provide early communication on the status of federal grant applications to the office, the office of financial management, or directly to the legislature;

(b) Establishing a centralized pass-through agency for federal funds, where individual agencies would be the primary applicants.

(7) This section expires July 31, 2027. Prior to January 1, 2027, the group shall make a formal recommendation to the board and the appropriate committees of the legislature as to whether the existence of the habitat and recreation lands coordinating group should be continued beyond July 31, 2027, and if so, whether any modifications to its enabling statute should be pursued. [2016 c 151 § 1; 2012 c 128 § 1; 2007 c 247 § 1.]

Finding—2012 c 128: "The legislature finds that participation by the state's habitat and recreation land management agencies in the habitat and recreation lands coordinating group is an inherent part of transparent, efficient, and effective state habitat and recreation land management, and must be conducted within existing resources." [2012 c 128 § 2.]

79A.25.300 Findings. The legislature finds that:

(1) The land, water, and other resources of Washington are being severely impacted by the invasion of an increasing number of harmful invasive plant and animal species.

(2) These impacts are resulting in damage to Washington's environment and causing economic hardships.

(3) The multitude of public and private organizations with an interest in controlling and preventing the spread of harmful invasive species in Washington need a mechanism for cooperation, communication, collaboration, and developing a statewide plan of action to meet these threats. [2006 c 152 § 1.]

79A.25.310 Washington invasive species council—Created. (Expires June 30, 2032.) (1) There is created the Washington invasive species council to exist until June 30,

2032. Staff support to the council shall be provided by the recreation and conservation office and from the agencies represented on the council. For administrative purposes, the council shall be located within the office.

(2) The purpose of the council is to provide policy level direction, planning, and coordination for combating harmful invasive species throughout the state and preventing the introduction of others that may be potentially harmful.

(3) The council is a joint effort between local, tribal, state, and federal governments, as well as the private sector and nongovernmental interests. The purpose of the council is to foster cooperation, communication, and coordinated approaches that support local, state, and regional initiatives for the prevention and control of invasive species.

(4) For the purposes of this chapter, "invasive species" include nonnative organisms that cause economic or environmental harm and are capable of spreading to new areas of the state. "Invasive species" does not include domestic livestock, intentionally planted agronomic crops, or nonharmful exotic organisms.

(5) This section expires June 30, 2032. [2021 c 177 § 1; 2016 sp.s. c 7 § 1; 2011 c 154 § 2; 2007 c 241 § 61; 2006 c 152 § 2.]

Findings—2011 c 154: "The land, water, and other resources of Washington state are being severely impacted by the invasion of an increasing number of harmful invasive plant and animal species. These impacts are resulting in damage to the state's environment and causing economic hardships. The multitude of public and private organizations with an interest and authority in controlling and preventing the spread of harmful invasive species in Washington state need a mechanism for cooperation, communication, collaboration, and implementation of the statewide plan of action to combat these threats." [2011 c 154 § 1.]

Intent—Effective date—2007 c 241: See notes following RCW 79A.25.005.

79A.25.340 Washington invasive species council—Statewide strategic plan. (1) The council shall develop and periodically update a statewide strategic plan for addressing invasive species. The strategic plan should incorporate the reports and activities of the aquatic nuisance species committee, the state noxious weed control board, and other appropriate reports and activities. [2006 c 152 § 7.]

YOUTH OR COMMUNITY ATHLETIC FACILITIES

79A.25.800 Intent. (1) The legislature recognizes that coordinated funding efforts are needed to maintain, develop, and improve the state's community outdoor athletic fields. Rapid population growth and increased urbanization have caused a decline in suitable outdoor fields for community athletic activities and has resulted in overcrowding and deterioration of existing surfaces. Lack of adequate community outdoor athletic fields directly affects the health and well-being of all citizens of the state, reduces the state's economic viability, and prevents Washington from maintaining and

achieving the quality of life that it deserves. Therefore, it is the policy of the state and its agencies to maintain, develop, fund, and improve youth or community athletic facilities, including but not limited to community outdoor athletic fields.

(2) In carrying out this policy, the legislature intends to promote the building of new community outdoor athletic fields, the upgrading of existing community outdoor athletic fields, and the maintenance of existing community outdoor athletic fields across the state of Washington. 79A.25.820 Strategic plan—Funding eligibility—Regional coordination and cooperative efforts—Data collection and exchange. Subject to available resources, the recreation and conservation funding board may:

(1) Prepare and update a strategic plan for the development, maintenance, and improvement of community outdoor athletic fields in the state. In the preparation of such plan, the board may use available data from federal, state, and local agencies having community outdoor athletic responsibilities, user groups, private sector interests, and the general public. The plan may include, but is not limited to:

(a) An inventory of current community outdoor athletic fields;

(b) A forecast of demand for these fields;

(c) An identification and analysis of actual and potential funding sources; and

(d) Other information the board deems appropriate to carry out the purposes of RCW 79A.25.800 through 79A.25.830;

(2) Determine the eligibility requirements for cities, counties, and qualified nonprofit organizations to access funding from the youth athletic facility account created in RCW 43.99N.060(4);

(3) Encourage and provide opportunities for interagency and regional coordination and cooperative efforts between public agencies and between public entities and nonprofit organizations involved in the maintenance, development, and improvement of community outdoor athletic fields; and

(4) Create and maintain data, studies, research, and other information relating to community outdoor athletic fields in the state, and to encourage the exchange of this information. [2007 c 241 § 59; 2003 c 126 § 702; 2000 c 11 § 81; 1998 c 264 § 3. Formerly RCW 43.99.820.]

use and benefit of the purposes of RCW 79A.25.800 through 79A.25.830 and spend gifts, grants, or endowments or income from the public or private sources according to their terms, unless the receipt of the gifts, grants, or endowments violates RCW 42.17A.560. Chapter 79A.30 RCW WASHINGTON STATE HORSE PARK

Sections

79A.30.005	Findings—Purpose.
79A.30.010	Definitions.
79A.30.020	Park established—Site approval—Ownership of land—Development, promotion, operation, management, and maintenance.
79A.30.030	Washington state horse park authority—Formation—Powers—Articles of incorporation—Board.
79A.30.040	Washington state horse park authority—Powers.
79A.30.050	Collaboration by authority and state on projects of shared interest—Cooperation with groups for youth recreational activities.

79A.30.005 Findings—Purpose. The legislature finds that:

(1) Horses are part of a large, highly diverse, and vital industry which provides significant economic, employment, recreational, and educational contributions to residents of and visitors to the state of Washington;

(2) Currently there is no adequate facility in the Pacific Northwest with the acreage, services, and capacity to host large regional horse shows, national championships, or Olympics-quality events to showcase and promote this important Washington industry;

(3) Establishing a first-class horse park facility in Washington would meet important needs of the state's horse industry, attract investment, enhance recreational opportunities, and bring new exhibitors and tourists to the state from throughout the region and beyond; and

(4) A unique opportunity exists to form a partnership between state, county, and private interests to create a major horse park facility that will provide public recreational opportunities and statewide economic and employment benefits.

It is the purpose of this legislation to create the framework for such a partnership to facilitate development of the Washington state horse park. It is further the intent of the legislature that the state horse park shall be developed in stages, based on factors such as the availability of funds, equipment, and other materials donated by private sources; the availability and willingness of volunteers to work on park development; and the availability of revenues generated by the state

(2022 Ed.)

horse park as it is developed and utilized. [1995 c 200 § 1. Formerly RCW 67.18.005.]

79A.30.010 Definitions. Unless the context clearly indicates otherwise, the definitions in this section apply throughout this chapter.

(1) "Authority" means the Washington state horse park authority authorized to be created in RCW 79A.30.030.

(2) "Commission" means the Washington state parks and recreation commission.

(3) "Horses" includes all domesticated members of the taxonomic family Equidae, including but not limited to horses, donkeys, and mules.

(4) "State horse park" means the Washington state horse park established in RCW 79A.30.020. [2000 c 11 § 83; 1995 c 200 § 2. Formerly RCW 67.18.010.]

79A.30.020 Park established—Site approval—Ownership of land—Development, promotion, operation, management, and maintenance. (1) The Washington state horse park is hereby established, to be located at a site approved by the commission. In approving a site for the state horse park, the commission shall consider areas with large blocks of land suitable for park development, the distance to various population centers in the state, the ease of transportation to the site for large vehicles traveling along either a north-south or an east-west corridor, and other factors deemed important by the commission.

(2) Ownership of land for the state horse park shall be as follows:

(a) The commission is vested with and shall retain ownership of land provided by the state for the state horse park. Any lands acquired by the commission after July 23, 1995, for the state horse park shall be purchased under chapter 79A.15 RCW. The legislature encourages the commission to provide a long-term lease of the selected property to the Washington state horse park authority at a minimal charge. The lease shall contain provisions ensuring public access to and use of the horse park facilities, and generally maximizing public recreation opportunities at the horse park, provided that the facility remains available primarily for horse-related activities.

(b) Land provided for the state horse park by the county in which the park is located shall remain in the ownership of that county unless the county determines otherwise. The legislature encourages the county to provide a long-term lease of selected property to the Washington state horse park authority at a minimal charge.

(c) If the authority acquires additional lands through donations, grants, or other means, or with funds generated from the operation of the state horse park, the authority shall retain ownership of those lands. The authority shall also retain ownership of horse park site improvements paid for by or through donations or gifts to the authority.

(3) Development, promotion, operation, management, and maintenance of the state horse park is the responsibility of the authority created in RCW 79A.30.030. [2000 c 11 § 84; 1995 c 200 § 3. Formerly RCW 67.18.020.]

79A.30.030 Washington state horse park authority—Formation—Powers—Articles of incorporation—Board.

(1) A nonprofit corporation may be formed under the nonprofit corporation provisions of chapter 24.03A RCW to carry out the purposes of this chapter. Except as provided in RCW 79A.30.040, the corporation shall have all the powers and be subject to the same restrictions as are permitted or prescribed to nonprofit corporations and shall exercise those powers only for carrying out the purposes of this chapter and those purposes necessarily implied therefrom. The nonprofit corporation shall be known as the Washington state horse park authority. The articles of incorporation shall provide that it is the responsibility of the authority to develop, promote, operate, manage, and maintain the Washington state horse park. The articles of incorporation shall provide for appointment of directors and other conduct of business consistent with the requirements of this chapter.

(2)(a) The articles of incorporation shall provide for an eleven-member board of directors for the authority, all appointed by the commission. Board members shall serve three-year terms, except that two of the original appointees shall serve one-year terms, and two of the original appointees shall serve two-year terms. Of the board members appointed pursuant to chapter 31, Laws of 2013, one shall serve an initial one-year term, one shall serve an initial two-year term, and two shall serve an initial term of three years. A board member may serve consecutive terms.

(b) The articles of incorporation shall provide that the commission appoint board members as follows:

(i) One board member shall represent the interests of the commission;

(ii) One board member shall represent the interests of the county in which the park is located. In making this appointment, the commission shall solicit recommendations from the county legislative authority; and

(iii) Nine board members shall represent the geographic and sports discipline diversity of equestrian interests in the state, and at least three of these members shall have business experience relevant to the organization of horse shows or operation of a horse show facility. In making these appointments, the commission shall solicit recommendations from a variety of active horse-related organizations in the state.

(3) The articles of incorporation shall include a policy that provides for the preferential use of a specific area of the horse park facilities at nominal cost for horse groups associated with youth groups and individuals with disabilities.

(4) The commission shall make appointments to fill board vacancies for positions authorized under subsection (2) of this section, upon additional solicitation of recommendations from the board of directors.

Findings—2013 c 31: "The legislature finds that the Washington state horse park authority is a unique public-private partnership for providing equestrian recreational opportunities. Because the authority is a statutorily created nonprofit corporation, its growth as an organization requires statutory authorization. The legislature finds that expanding membership of the

authority's board will: Allow additional board representation for the geographic and sports discipline diversity of equestrian interests; add relevant business experience to the board; and avoid duplicating efforts of other organizations." [2013 c 31 § 1.]

(1) In order to provide for the ever increasing outdoor recreation needs of an expanding resident and tourist population and to promote public access to, travel within, and the enjoyment and appreciation of outdoor areas of Washington, it is declared to be in the public interest

(2022 Ed.)

to plan a system of trails throughout the state to enable and encourage the public to engage in outdoor recreation activities.

(2) The purpose of this chapter is to provide the means for attaining these objectives by instituting a method for establishing a system of state recreation trails, and by prescribing the manner by which a proposed trail may be included in the system. [1970 ex.s. c 76 § 3. Formerly RCW 67.32.030.]

79A.35.030 Trails to be designated by board—Inclusion of other trails—Procedure. (1) The system shall be composed of trails as designated by the board. Such trails shall meet the conditions established in this chapter and such supplementary criteria as the board may prescribe.

(1) For existing trails:

(a) The route of such trail, including maps and illustrations, and the recommended mode or modes of travel to be permitted thereon;

79A.35.070 Categories of trails or areas—Policy statement as to certain state lands. The following seven categories of trails or areas are hereby established for purposes of this chapter:

(1) Cross-state trails which connect scenic, historical, geological, geographical, or other significant features which are characteristic of the state;

(2) Water-oriented trails which provide a designated path to, on, or along fresh and/or salt water in which the water is the primary point of interest;

(3) Scenic-access trails which give access to quality recreation, scenic, historic or cultural areas of statewide or national significance;

(4) Urban trails which provide opportunities within an urban setting for walking, bicycling, horseback riding, or other compatible activities. Where appropriate, they will connect parks, scenic areas, historical points, and neighboring communities;

(5) Historical trails which identify and interpret routes which were significant in the historical settlement and development of the state;

(6) ORV vehicle trails which are suitable for use by both four-wheel drive vehicles and two-wheel vehicles. Such trails may be included as a part of the trail systems enumerated in subsections (1), (2), (3) and (5) of this section or may be separately designated;

(7) Off-road and off-trail areas which are suitable for use by both four-wheel drive vehicles and two-wheel vehicles. The board shall coordinate an inventory and classification of such areas giving consideration to the type of use such areas will receive from persons operating four-wheel drive vehicles and two-wheel vehicles.

The planning and designation of trails shall take into account and give due regard to the interests of federal agencies, state agencies and bodies, counties, municipalities, private landowners and individuals, and interested recreation organizations. It is not required that the above categories be used to designate specific trails, but the board will assure that full consideration is given to including trails from all categories within the system. As it relates to all classes of trails and to all types of trail users, it is herein declared as state policy to increase recreational trail access to and within state and federally owned lands and private lands where access may be obtained. It is the intent of the legislature that public recreation facilities be developed as fully as possible to provide greater recreation opportunities for the citizens of the state. The purpose of chapter 153, Laws of 1972 ex. sess. is to increase the availability of trails and areas for off-road vehicles by granting authority to state and local governments to maintain a system of ORV trails and areas, and to fund the program to provide for such development. State lands should be used as fully as possible for all public recreation which is compatible with the income-producing requirements of the various trusts. [2007 c 241 § 67; 1977 ex.s. c 220 § 21; 1972 ex.s. c 153 § 1; 1971 ex.s. c 47 § 2; 1970 ex.s. c 76 § 8. Formerly RCW 67.32.080.]

79A.55.005 Legislative finding—Purpose. The legislature hereby finds that many rivers of this state, with their immediate environs, possess outstanding natural, scenic, historic, ecological, and recreational values of present and future benefit to the public. The legislature further finds that the policy of permitting the construction of dams and other impoundment facilities at appropriate sections of the rivers of this state needs to be complemented by a policy that would protect and preserve the natural character of such rivers and fulfill other conservation purposes. It is hereby declared to be the policy of this state that certain selected rivers of the state which, with their immediate environs, possess the aforementioned characteristics, shall be preserved in as natural a condition as practical and that overuse of such rivers, which tends to downgrade their natural condition, shall be discouraged.

The purpose of this chapter is to establish a program for managing publicly owned land on rivers included in the state's scenic river system, to indicate the river segments to be initially included in that system, to prescribe a procedure for adding additional components to the system, and to protect the rights of private property owners. [1977 ex.s. c 161 § 1. Formerly RCW 79.72.010.]

79A.55.010 Definitions. The definitions set forth in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Commission" means the state parks and recreation commission.

(2) "Participating local government" means the legislative authority of any city or county, a portion of whose territorial jurisdiction is bounded by or includes a river or river segment of the state's scenic river system.

(3) "River" means a flowing body of water or a section, segment, or portion thereof.

(4) "River area" means a river and the land area in its immediate environs as established by the participating agencies not exceeding a width of one-quarter mile landward from the streamway on either side of the river.

(5) "Scenic easement" means the negotiated right to control the use of land, including the air space above the land, for the purpose of protecting the scenic view throughout the visual corridor.

(6) "Streamway" means that stream-dependent corridor of single or multiple, wet or dry, channel or channels within which the usual seasonal or stormwater runoff peaks are contained, and within which environment the flora, fauna, soil, and topography is dependent on or influenced by the height and velocity of the fluctuating river currents.

(7) "System" means all the rivers and river areas in the state designated by the legislature for inclusion as scenic rivers but does not include tributaries of a designated river unless specifically included by the legislature. The inclusion of a river in the system does not mean that other rivers or tributaries in a drainage basin shall be required to be part of the management program developed for the system unless the rivers and tributaries within the drainage basin are specifically designated for inclusion by the legislature.

(8) "Visual corridor" means that area which can be seen in a normal summer month by a person of normal vision walking either bank of a river included in the system. The visual corridor shall not exceed the river area. [1999 c 249 § 801; 1999 c 151 § 1701; 1994 c 264 § 64; 1988 c 36 § 57; 1987 c 57 § 1; 1984 c 7 § 371; 1977 ex.s. c 161 § 2. Formerly RCW 79.72.020.]

Reviser's note: This section was amended by 1999 c 151 § 1701 and by 1999 c 249 § 801, each without reference to the other. Both amendments are incorporated in the publication of this section under RCW 1.12.025(2). For rule of construction, see RCW 1.12.025(1).

79A.55.020 Management policies—Development—Inclusion of management plans—Identification and exclusion of unsuitably developed lands—Boundaries of river areas—Hearings—Notice—Studies—Proposals for system additions. (1) The commission shall develop and adopt management policies for publicly owned or leased land on the rivers designated by the legislature as being a part of the state's scenic river system and within the associated river areas. The commission may adopt rules identifying river classifications which reflect the characteristics common to various segments of scenic rivers and may adopt management policies consistent with local government's shoreline management master plans appropriate for each such river classification. All such policies shall be adopted by the commission in accordance with the provisions of chapter 34.05 RCW, as now or hereafter amended. Any variance with such a policy by any public agency shall be authorized only by the approval of the commission and shall be made only to alleviate unusual hardships unique to a given segment of the system.

(2) Any policies developed pursuant to subsection (1) of this section shall include management plans for protecting ecological, economic, recreational, aesthetic, botanical, scenic, geological, hydrological, fish and wildlife, historical, cultural, archaeological, and scientific features of the rivers designated as being in the system. Such policies shall also include management plans to encourage any nonprofit group, organization, association, person, or corporation to develop and adopt programs for the purpose of increasing fish propagation.

(3) The commission shall identify on a river by river basis any publicly owned or leased lands which could be included in a river area of the system but which are developed in a manner unsuitable for land to be managed as part of the

system. The commission shall exclude lands so identified from the provisions of any management policies implementing the provisions of this chapter.

(4) The commission shall determine the boundaries which shall define the river area associated with any included river. With respect to the rivers named in RCW 79A.55.070, the commission shall make such determination, and those determinations authorized by subsection (3) of this section, within one year of September 21, 1977.

(5) Before making a decision regarding the river area to be included in the system, a variance in policy, or the excluding of land from the provisions of the management policies, the commission shall hold hearings in accord with chapter 34.05 RCW, with at least one public hearing to be held in the general locale of the river under consideration. The commission shall cause to be published in a newspaper of general circulation in the area which includes the river or rivers to be considered, a description, including a map showing such river or rivers, of the material to be considered at the public hearing. Such notice shall appear at least twice in the time period between two and four weeks prior to the public hearing.

The commission shall seek and receive comments from the public regarding potential additions to the system, shall initiate studies, and may submit to any session of the legislature proposals for additions to the state scenic river system. These proposals shall be accompanied by a detailed report on the factors which, in the commission's judgment, make an area a worthy addition to the system. [2009 c 187 § 6. Prior: 1999 c 249 § 802; 1999 c 151 § 1702; 1977 ex.s. c 161 § 3. Formerly RCW 79.72.030.]

In developing rules for a specific river in the system, the commission shall hold at least one public hearing in the general locale of the river under consideration. The hearing may constitute the hearing required by chapter 34.05 RCW. The commission shall cause a brief summary of the proposed rules to be published twice in a newspaper of general circulation in the area that includes the river to be considered in the period of time between two and four weeks prior to the public hearing. In addition to the foregoing required publication, the commission shall also provide notice of the hearings, rules, and decisions of the commission to radio and television stations and major local newspapers in the areas that include the river to be considered.

(2) In addition to any other powers granted to carry out the intent of this chapter, the commission is authorized to: (a) Purchase, within the river area, real property in fee or any lesser right or interest in real property including, but not limited to scenic easements and future development rights, visual corridors, wildlife habitats, unique ecological areas,

historical sites, camping and picnic areas, boat launching sites, and/or easements abutting the river for the purpose of preserving or enhancing the river or facilitating the use of the river by the public for fishing, boating and other water related activities; and (b) purchase, outside of a river area, public access to the river area.

The right of eminent domain shall not be utilized in any purchase made pursuant to this section.

(3) The commission is further authorized to: (a) Acquire by gift, devise, grant, or dedication the fee, an option to purchase, a right of first refusal or any other lesser right or interest in real property and upon acquisition such real property shall be held and managed within the scenic river system; and (b) accept grants, contributions, or funds from any agency, public or private, or individual for the purposes of this chapter.

(4) The commission is hereby vested with the power to obtain injunctions and other appropriate relief against violations of any provisions of this chapter and any rules adopted under this section or agreements made under the provisions of this chapter. Local agencies are directed to pursue such policies with respect to all lands in the river area owned or leased by such local agencies. Nothing in this chapter shall authorize the modification of a shoreline management plan adopted by a local government and approved by the state pursuant to chapter 90.58 RCW without the approval of the department of ecology and local government. Intent—2005 c 392: See note following RCW 79A.60.630.

Intent—1993 c 244: "It is the intent of the legislature that the boating safety laws administered by the state parks and recreation commission provide Washington's citizens with clear and reasonable boating safety regulations and penalties. Therefore, the legislature intends to recodify, clarify, and partially decriminalize the statewide boating safety laws in order to help the boating community understand and comply with these laws.

It is also the intent of the legislature to increase boat registration fees in order to provide additional funds to local governments for boating safety

enforcement and education programs. The funds are to be used for enforcement, education, training, and equipment, including vessel noise measurement equipment. The legislature encourages programs that provide boating safety education in the primary and secondary school system for boat users and potential future boat users. The legislature also encourages boating safety programs that use volunteer and private sector efforts to enhance boating safety and education." [1993 c 244 § 1.]

Except as provided in RCW 79A.60.020, a violation of this section is an infraction under chapter 7.84 RCW. [2000 c 11 § 93; 1993 c 244 § 7; 1933 c 72 § 2; RRS § 9851-2. Formerly RCW 88.12.020.]

(4)(a) Any person who operates a vessel within this state is deemed to have given consent, subject to the provisions of RCW 46.61.506, to a test or tests of the person's breath for the purpose of determining the alcohol concentration in the person's breath if arrested for any offense where, at the time of the arrest, the arresting officer has reasonable grounds to believe the person was operating a vessel while under the influence of intoxicating liquor or a combination of intoxicating liquor and any other drug.

(b) When an arrest results from an accident in which there has been serious bodily injury to another person or death or the arresting officer has reasonable grounds to believe the person was operating a vessel while under the influence of THC or any other drug, a blood test may be administered with the consent of the arrested person and a valid waiver of the warrant requirement or without the consent of the person so arrested pursuant to a search warrant or when exigent circumstances exist.

(c) Neither consent nor this section precludes a police officer from obtaining a search warrant for a person's breath or blood.

(d) An arresting officer may administer field sobriety tests when circumstances permit.

(5) The test or tests of breath must be administered pursuant to RCW 46.20.308. The officer shall warn the person that if the person refuses to take the test, the person will be issued a class 1 civil infraction under RCW 7.80.120.

79A.60.045 Vessel impoundment—Procedure—Forfeiture. (1) Whenever the operator of a vessel is arrested for a violation of RCW 79A.60.040, the arresting officer, or another officer acting at the arresting officer's direction, has authority to impound the vessel as provided in this section.

(2) This section is not intended to limit or constrain the ability of local government from enacting and enforcing ordinances or other regulations relating to the impoundment of vessels for the purposes of enforcing RCW 79A.60.040.

(3) Unless vessel impound is required for evidentiary purposes, a law enforcement officer must seek a series of reasonable alternatives to impound before impounding the vessel. Reasonable alternatives to impound may include, but are not limited to:

(a) Working with the vessel's owner to locate a qualified operator who can take possession of the vessel within thirty minutes following the arrest of the vessel's operator and giving possession of the vessel to such a person;

(b) Leaving the vessel at a marina, dock, or moorage facility, provided that:

(i) The owner is present and willing to sign a liability waiver by which the owner agrees to waive any claims related to such an action against the law enforcement officer and the officer's agency and indemnify the officer and the agency against any claims related to such an action by any third party; and

(ii) The owner agrees to pay any applicable moorage charges or fees; and

(c) Towing the vessel to the closest boat ramp, marina, or similar type facility where the owner can meet the impounding officer within thirty minutes in order to:

(i) Moor the vessel by accepting any applicable moorage charges or fees; or

(ii) Take possession of the vessel if the owner was not present at the time of the arrest.

(4) For the purposes of this section, storing an impounded vessel may include, but is not limited to:

(a) Removing the vessel to and placing it in a secure or other type of moorage facility; or

(b) Placing the vessel in the custody of an operator licensed by the United States coast guard per 46 C.F.R. Sec. 11.482 to provide commercial assistance towing services in Washington state who must:

(i) Tow it to a storage facility operated by the towing entity for storage or to a moorage facility for storage; or

(ii) Tow it to a location designated by the operator or owner of the vessel.

(5) In exigent circumstances, an impounding officer may temporarily attach an impounded vessel to a mooring buoy or anchor the vessel to the bottom for up to twenty-four hours, after which time the impounding officer must move or cause the vessel to be moved to an appropriate facility for storage as outlined in subsection (4) of this section.

(6) If the impounding officer secures a vessel by placing it on its trailer, the officer, moorage facility representative, or commercial assistance towing service is authorized to detach the vessel's trailer from the vehicle to which it is attached, attach the trailer to an impounding vehicle, operate the vessel to load it on the trailer, and then tow the vessel on its trailer to the storage facility.

(7) All vessels must be handled appropriately and returned in substantially the same condition as they existed before being impounded, unless forfeited pursuant to subsection (12) of this section. Except as provided in subsection (12)(b) of this section, all personal property in the vessel must be kept intact and must be returned to the vessel's owner or agent during the normal business hours of the entity storing the vessel upon request, provided the vessel owner, or the owner's agent, is able to provide sufficient proof of his or her identity.

(8) No moorage facility or vessel towing service provider is required to accept an impounded or otherwise secured vessel under this section for towing or storage. An impounding officer intending to secure a vessel by means of storing it at a moorage facility must have the permission of

the owner or operator of the moorage facility prior to leaving the vessel at the facility. The impounding officer shall identify an authorized person on the vessel impound authorization and inventory form to represent the vessel impound facility. The officer must provide a copy of the vessel impound authorization and inventory form to the designated person representing the vessel impound facility along with the addresses of the registered and legal owners of the vessel. The moorage facility may require that the impounding officer's agency take responsibility for the foreclosure process set forth in subsection (12) of this section before they consent to accept an impounded vessel.

(9)(a) An impounding officer impounding a vessel pursuant to this section shall notify the legal and registered owner or owners of the impoundment of the vessel. The notification must be in writing and sent within one business day after the impound by first-class mail, digital transmission, or facsimile to the last known address of the registered and legal owner or owners of the vessel, as identified by the department of licensing, and must inform the owner or owners of the identity of the person or agency authorizing the impound. The impounding officer may serve the operator with the vessel impound authorization and inventory form at the time of impound if the operator is a legal or registered owner of the vessel. Personal service of the vessel impound authorization and inventory form meets the notice requirement of this subsection with respect to the legal or registered owner personally served. The notification must be provided on a vessel impound authorization and inventory form and include: (i) The name, address, and telephone number of the facility where the vessel is being held; (ii) the right of redemption and opportunity for a hearing to contest the validity of the impoundment; and (iii) the rate that is being charged for the storage of the vessel while impounded.

(b) A notice does not need to be sent to the legal or registered owner or owners of an impounded vessel if the vessel has been redeemed.

(c) The impounded vessel may not be redeemed by the operator within a twelve-hour period starting at the time of the operator's arrest. The vessel may be redeemed by or released to an owner or an agent of the owner that is not the operator within the twelve-hour period following arrest.

(10) A moorage facility that accepts a vessel impounded pursuant to this section for storage may charge the owner of the vessel up to one hundred twenty-five percent of the normal moorage rates of tenants or guests in addition to a fee for securing the impounded vessel. A moorage facility must store the vessel in the least costly boat slip or storage area available that is appropriate for the vessel size. An entity that provides emergency vessel towing services that accepts a vessel impounded pursuant to this section for towing or storage, or both, may charge its normal towing and storage fees. The costs of removal and storage of vessels under this section is a lien upon the vessel until paid, unless the impoundment is determined to be invalid. The registered owner of a vessel impounded pursuant to this section is responsible for paying all fees associated with the towing and storage of the vessel resulting from its impoundment, except as otherwise provided in subsection (15) of this section.

(11) Within fifteen days of impoundment of the vessel, or until the vessel is forfeited pursuant to subsection (12) of

this section, the legal or registered owner of a vessel impounded and stored pursuant to this section may redeem the vessel by paying all towing and storage fees charged as allowed in subsection (10) of this section. Within fifteen days of impoundment of the vessel, or until the vessel is forfeited pursuant to subsection (12) of this section, any person who shows proof of ownership or written authorization from the impounded vessel's registered or legal owner or the vessel's insurer may view the vessel without charge during the normal business hours of the entity storing the vessel. The moorage facility may request that a representative of the impounding agency be present during redemption. If requested, the impounding agency must provide a representative as requested by the moorage facility.

(12) If an impounded vessel stored pursuant to this section is not redeemed by its registered or legal owner pursuant to subsection (11) of this section within fifteen days of its impoundment, the entity storing the vessel, or the agency of the impounding officer, if required by the moorage facility under subsection (8) of this section, may initiate foreclosure. Forfeiture by the vessel owner is complete twenty days after mailing of the notice required by this subsection, unless within that time the owner, or any lienholder or holder of a security interest, pays all fees associated with the towing and storage of the vessel resulting from its impoundment. However, foreclosure may not be completed while a hearing under subsection (15) of this section to contest the validity of the impoundment is pending in district or municipal court or while any appeal of a decision of the district or municipal court on the validity of the impoundment is pending.

(a) In order to foreclose on the vessel, the foreclosing entity must mail notice of its intent. Such a notice must, at a minimum, state: (i) The intent of the foreclosing entity to foreclose on the vessel; (ii) that, when the foreclosure process is complete, the owner forfeits all ownership interest in the vessel; (iii) the right of the foreclosing entity to take possession of or dispose of the vessel upon completion of the foreclosure process; and (iv) that the owner, or other interested person or entity, may avoid forfeiture of the vessel by paying all fees associated with the towing and storage of the vessel resulting from its impoundment within twenty days of mailing of the notice. The notice must be mailed to the owner of the vessel at the address on file with the state with which the vessel is registered, or on file with the federal government, if the vessel is registered with the federal government, and any lienholder or secured interests on record. A notice need not be sent to the purported owner or any other person whose interest in the vessel is not recorded with a state or with the federal government.

(b) Upon completion of the foreclosure process, the registered and legal owners of the vessel forfeit any and all ownership interest in it and the entity administering the foreclosure process must dispose of it through sale. The proceeds of a sale under this section shall be applied first to payment of the amount of reasonable charges incurred by the entity for towing, storage, and sale, then to the owner or to satisfy any liens of record or security interests of record on the vessel in the order of their priority. If the sale is for a sum less than the applicable charges, the foreclosing entity is entitled to assert a claim for the deficiency against the vessel owner. Nothing in this section prevents any lienholder or secured party from

asserting a claim for any deficiency owed the lienholder or secured party. If more than one thousand dollars remains after the satisfaction of amounts owed to the entity and to any owner or bona fide security interest, then the foreclosing entity must remit the moneys to the department of licensing for deposit in the derelict vessel removal account established in RCW 79.100.100. A copy of the forfeited vessel disposition report form identifying the vessel resulting in any surplus shall accompany the remitted funds. Transfer of ownership of the vessel after foreclosure must comply with RCW 79.100.150, when applicable. All personal property in the vessel not claimed prior to foreclosure must be turned over to the law enforcement agency that authorized the impoundment. The personal property must be disposed of pursuant to chapter 63.32 or 63.40 RCW, or as otherwise provided by law. Within fourteen days of the completion of the foreclosure process of a vessel pursuant to this subsection, the foreclosing entity shall send a forfeited vessel disposition report, together with a copy of the vessel impound authorization and inventory form and the notice of intent to foreclose, to the department of licensing so that the department may include documentation in the ownership records of the vessel. The vessel disposition information sent to the department of licensing on the forfeited vessel disposition report relieves the previous owner of the vessel from any civil or criminal liability for the operation of the vessel from the date of sale thereafter, and transfers full liability for the vessel to the party to whom the vessel is transferred by the foreclosing entity.

(13) Any individual or entity whose assistance has been requested by an impounding officer who in good faith provides trailering, towing, or secured or other type of moorage of a vessel impounded pursuant to this section is not liable for any damage to or theft of the vessel or its contents, or for damages for loss of use of the vessel resulting from any act or omission in providing assistance other than for acts or omissions constituting gross negligence or willful or wanton misconduct, or for any damages arising from any act or omission committed during the foreclosure process.

(14) If a law enforcement officer impounds and secures a vessel pursuant to this section, the impounding officer and the government agency employing the officer are not liable for any damage to or theft of the vessel or its contents, or for damages for loss of use of the vessel, or for any damages arising from any act or omission committed during the foreclosure process.

(15) Any legal or registered owner seeking to redeem an impounded vessel under this section has a right to a hearing in the district or municipal court for the jurisdiction in which the vessel was impounded to contest the validity of the impoundment. The district court has jurisdiction to determine the issues involving all impoundments including those authorized by the state or its agents, unless the impoundment was authorized by municipal agents. The municipal court has exclusive jurisdiction to determine the issues involving impoundments authorized by agents of the municipality. Any request for a hearing must be made in writing per the instructions provided on the uniform vessel impound authorization and inventory form and must be received by the appropriate court within ten business days of the date that the vessel impound authorization and inventory form was mailed to or

served on the registered or legal owner or owners of the impounded vessel. If the hearing request is not received by the court within ten business days of the sending or personal service of the notice of impoundment pursuant to subsection (9) of this section, the right to a hearing is waived and the registered owner is liable for any towing, storage, or other impoundment charges permitted under this chapter. Upon receipt of a timely hearing request, the court shall proceed to hear and determine the validity of the impoundment.

(a) Within five days after the request for a hearing, the court shall notify the operator of the impound facility, the registered and legal owners of the vessel, and the officer or agency authorizing the impound in writing of the hearing date and time.

(b) At the hearing, the petitioner may produce any relevant evidence that is admissible under court rules to show that the impoundment, towing, or storage fees charged were not proper. The court may consider a written report made under oath by the officer who authorized the impoundment in lieu of the officer's personal appearance at the hearing.

(c) At the conclusion of the hearing, the court shall determine whether the impoundment was proper, whether the towing or storage fees charged were in compliance with the fees established in subsection (10) of this section, and who is responsible for payment of the fees. The court may not adjust fees or charges that are in compliance with subsection (10) of this section.

(d) If the impoundment is found proper, the impoundment, towing, and storage fees as permitted under this chapter together with court costs must be assessed against the petitioner.

(e) If the impoundment is determined to be in violation of this section, then the registered and legal owners of the vessel bear no impoundment, towing, or storage fees, any security must be returned or discharged as appropriate, and the agency that authorized the impoundment is liable for any towing, storage, or other impoundment fees permitted under this chapter. The court shall enter judgment in favor of the moorage facility or vessel towing contractor against the agency authorizing the impound for the impoundment, towing, and storage fees incurred. In addition, the court shall enter judgment in favor of the petitioner for the amount of the filing fee required by law for the impound hearing petition. If an impoundment is determined to be in violation of this section, the impounding officer and the government agency employing the officer are not liable for damage to or theft of the vessel or its contents, or damages for loss of use of the vessel, if the impounding officer had reasonable suspicion to believe that the operator of the vessel was operating the vessel while under the influence of intoxicating liquor or any drug, was in physical control of the vessel while under the influence of intoxicating liquor or any drug, or was operating the vessel in a reckless manner, or if the impounding officer otherwise acted reasonably under the circumstances in acting to impound and secure the vessel.

(f) If any judgment entered under this subsection is not paid within fifteen days of notice in writing of its entry, the court shall award reasonable attorneys' fees and costs against the defendant in any action to enforce the judgment. Notice of entry of judgment may be made by registered or certified mail, and proof of mailing may be made by affidavit of the

party mailing the notice. Notice of the entry of the judgment must read essentially as follows:

TO:
YOU ARE HEREBY NOTIFIED JUDGMENT was entered against you in the Court located at in the sum of \$....., in an action entitled, Case No. YOU ARE FURTHER NOTIFIED that attorneys' fees and costs will be awarded against you under RCW if the judgment is not paid within 15 days of the date of this notice.

Formerly RCW 88.12.045, 88.12.120, and 88.08.080.]

79A.60.100 Enforcement—Chapter to supplement federal law. (1) Every law enforcement officer of this state and its political subdivisions has the authority to enforce this chapter. Law enforcement officers may enforce recreational boating rules adopted by the commission. Such law enforcement officers include, but are not limited to, county sheriffs, officers of other local law enforcement entities, fish and wildlife officers, through the director, the state patrol, and state park rangers. In the exercise of this responsibility, all such officers may stop and board any vessel and direct it to a suitable pier or anchorage to enforce this chapter.

[1993 c 244 § 11. Formerly RCW 88.12.075.]

Intent—1993 c 244: See note following RCW 79A.60.010.

79A.60.130 Muffler or underwater exhaust system required—Exemptions—Enforcement—Penalty. (1) All motor-propelled vessels shall be equipped and maintained with an effective muffler that is in good working order and in constant use. For the purpose of this section, an effective muffler or underwater exhaust system does not produce sound levels in excess of ninety decibels when subjected to a stationary sound level test that shall be prescribed by rules adopted by the commission, as of July 25, 1993, and for engines manufactured on or after January 1, 1994, a noise level of eighty-eight decibels when subjected to a stationary sound level test that shall be prescribed by rules adopted by the commission.

(2) A vessel that does not meet the requirements of subsection (1) of this section shall not be operated on the waters of this state.

(3) No person may operate a vessel on waters of the state in such a manner as to exceed a noise level of seventy-five decibels measured from any point on the shoreline of the body of water on which the vessel is being operated that shall be specified by rules adopted by the commission, as of July 25, 1993. Such measurement shall not preclude a stationary sound level test that shall be prescribed by rules adopted by the commission.

(4) This section does not apply to: (a) A vessel tuning up, testing for, or participating in official trials for speed records or a sanctioned race conducted pursuant to a permit issued by an appropriate governmental agency; or (b) a vessel being operated by a vessel or marine engine manufacturer for the purpose of testing or development. Nothing in this subsection prevents local governments from adopting ordinances to control the frequency, duration, and location of vessel testing, tune-up, and racing.

(5) Any officer authorized to enforce this section who has reason to believe that a vessel is not in compliance with the noise levels established in this section may direct the operator of the vessel to submit the vessel to an on-site test to

measure noise level, with the officer on board if the officer chooses, and the operator shall comply with such request. If the vessel exceeds the decibel levels established in this section, the officer may direct the operator to take immediate and reasonable measures to correct the violation.

(6) Any officer who conducts vessel sound level tests as provided in this section shall be qualified in vessel noise testing. Qualifications shall include but may not be limited to the ability to select the appropriate measurement site and the calibration and use of noise testing equipment.

(7) A person shall not remove, alter, or otherwise modify in any way a muffler or muffler system in a manner that will prevent it from being operated in accordance with this chapter.

(8) A person shall not manufacture, sell, or offer for sale any vessel that is not equipped with a muffler or muffler system that does not comply with this chapter. This subsection shall not apply to power vessels designed, manufactured, and sold for the sole purpose of competing in racing events and for no other purpose. Any such exemption or exception shall be documented in any and every sale agreement and shall be formally acknowledged by signature on the part of both the buyer and the seller. Copies of the agreement shall be maintained by both parties. A copy shall be kept on board whenever the vessel is operated.

(9) Except as provided in RCW 79A.60.020, a violation of this section is an infraction under chapter 7.84 RCW.

(10) Vessels that are equipped with an engine modified to increase performance beyond the engine manufacturer's stock configuration shall have an exhaust system that complies with the standards in this section after January 1, 1994. Until that date, operators or owners, or both, of such vessels with engines that are out of compliance shall be issued a warning and be given educational materials about types of muffling systems available to muffle noise from such high performance engines.

(11) Nothing in this section preempts a local government from exercising any power that it possesses under the laws or Constitution of the state of Washington to adopt more stringent regulations. [2000 c 11 § 97; 1993 c 244 § 39. Formerly RCW 88.12.085.]

Intent—1993 c 244: See note following RCW 79A.60.010.

79A.60.140 Personal flotation devices—Inspection and approval—Rules. (1) The commission shall adopt rules providing for its inspection and approval of the personal flotation devices that may be used to satisfy the requirements of this chapter and governing the manner in which such devices shall be used. The commission shall prescribe the different types of devices that are appropriate for the different uses, such as water skiing or operation of a personal watercraft. In adopting its rules the commission shall consider the United States coast guard rules or regulations. The commission may approve devices inspected and approved by the coast guard without conducting any inspection of the devices itself.

(2) In situations where personal flotation devices are required under provisions of this chapter, the devices shall be in good and serviceable condition and of appropriate size. If they are not, then they shall not be considered as personal flotation devices under such provisions. [1993 c 244 § 12. Formerly RCW 88.12.095.]

79A.60.150 Failure of vessel to contain safety equipment—Owner/operator may be cited for applicable infraction or crime. If a vessel does not contain the safety equipment required under this chapter and the rules of the commission, and the operator is not the owner of the vessel but is operating the vessel with the express or implied permission of the owner, then either the owner or the operator, or both, may be cited for the applicable infraction or charged with the applicable crime. [2013 c 278 § 6; 1993 c 244 § 13. Formerly RCW 88.12.105.]

Intent—1993 c 244: See note following RCW 79A.60.010.

79A.60.160 Personal flotation devices required—Penalty. (1) No person may operate or permit the operation of a vessel on the waters of the state without a personal flotation device on board for each person on the vessel. Each personal flotation device shall be in serviceable condition, of an appropriate size, and readily accessible.

(2) Except as provided in RCW 79A.60.020, a violation of subsection (1) of this section is an infraction under chapter 7.84 RCW if the vessel is not carrying passengers for hire.

(3) A violation of subsection (1) of this section is a misdemeanor punishable under RCW 9.92.030, if the vessel is carrying passengers for hire.

(4) No person shall operate a vessel under nineteen feet in length on the waters of this state with a child twelve years old and under, unless the child is wearing a personal flotation device that meets or exceeds the United States coast guard approval standards of the appropriate size, while the vessel is underway. For the purposes of this section, a personal flotation device is not considered readily accessible for children twelve years old and under unless the device is worn by the child while the vessel is underway. The personal flotation device must be worn at all times by a child twelve years old and under whenever the vessel is underway and the child is on an open deck or open cockpit of the vessel. The following circumstances are excepted:

(a) While a child is below deck or in the cabin of a boat with an enclosed cabin;

(b) While a child is on a United States coast guard inspected passenger-carrying vessel operating on the navigable waters of the United States; or

(c) While on board a vessel at a time and place where no person would reasonably expect a danger of drowning to occur.

(5) Except as provided in RCW 79A.60.020, a violation of subsection (4) of this section is an infraction under chapter 7.84 RCW. Enforcement of subsection (4) of this section by law enforcement officers may be accomplished as a primary action, and need not be accompanied by the suspected violation of some other offense. [2000 c 11 § 98; 1999 c 310 § 1; 1993 c 244 § 14; 1933 c 72 § 5; RRS § 9851-5. Formerly RCW 88.12.115 and 88.12.050.]

Intent—1993 c 244: See note following RCW 79A.60.010.

79A.60.170 Water skiing safety—Requirements. (1) The purpose of this section is to promote safety in water skiing on the waters of Washington state, provide a means of

ensuring safe water skiing and promote the enjoyment of water skiing.

(2) No vessel operator may tow or attempt to tow a water skier on any waters of Washington state unless such craft shall be occupied by at least an operator and an observer. The observer shall continuously observe the person or persons being towed and shall display a flag immediately after the towed person or persons fall into the water, and during the time preparatory to skiing while the person or persons are still in the water. Such flag shall be a bright red or brilliant orange color, measuring at least twelve inches square, mounted on a pole not less than twenty-four inches long and displayed as to be visible from every direction. This subsection does not apply to a personal watercraft, the design of which makes no provision for carrying an operator or any other person on board, and that is actually operated by the person or persons being towed. Every remote-operated personal watercraft shall have a flag attached which meets the requirements of this subsection. Except as provided under RCW 79A.60.020, a violation of this subsection is an infraction under chapter 7.84 RCW.

(3) The observer and the operator shall not be the same person. The observer shall be an individual who meets the minimum qualifications for an observer established by rules of the commission. Except as provided under RCW 79A.60.020, a violation of this subsection is an infraction under chapter 7.84 RCW.

(4) No person shall engage or attempt to engage in water skiing without wearing a personal flotation device. Except as provided under RCW 79A.60.020, a violation of this subsection is an infraction under chapter 7.84 RCW.

(5) No person shall engage or attempt to engage in water skiing, or operate any vessel to tow a water skier, on the waters of Washington state during the period from one hour after sunset until one hour prior to sunrise. A violation of this subsection is a misdemeanor, punishable as provided under RCW 9.92.030.

(6) No person engaged in water skiing either as operator, observer, or skier, shall conduct himself or herself in a reckless manner that willfully or wantonly endangers, or is likely to endanger, any person or property. A violation of this subsection is a misdemeanor as provided under RCW 9.92.030.

(7) The requirements of subsections (2), (3), (4), and (5) of this section shall not apply to persons engaged in tournaments, competitions, or exhibitions that have been authorized or otherwise permitted by the appropriate agency having jurisdiction and authority to authorize such events. [2000 c 11 § 99; 1993 c 244 § 15; 1990 c 231 § 1; 1989 c 241 § 1. Formerly RCW 88.12.125, 88.12.080, and 88.12.070.]

ing into consideration the vessel's type, use, and construction, the weather conditions, and other existing operating conditions.

(3) A violation of subsection (1) or (2) of this section is an infraction punishable as provided under chapter 7.84 RCW except as provided under RCW 79A.60.020 or where the overloading or overpowering is reasonably advisable to effect a rescue or for some similar emergency purpose.

(4) If it appears reasonably certain to any law enforcement officer that a person is operating a vessel clearly loaded or powered beyond its safe operating ability and in the judgment of that officer the operation creates an especially hazardous condition, the officer may direct the operator to take immediate and reasonable steps necessary for the safety of the individuals on board the vessel, including directing the operator to return to shore or a mooring and to remain there until the situation creating the hazard is corrected or ended. Failure to follow the direction of an officer under this subsection is a misdemeanor punishable as provided under RCW 9.92.030. [2000 c 11 § 100; 1993 c 244 § 16. Formerly RCW 88.12.135.]

Except as provided for in RCW 79A.60.020, a violation of this subsection is a civil infraction punishable under RCW 7.84.100.

(2) A person operating a personal watercraft equipped by the manufacturer with a lanyard-type engine cutoff switch shall attach the lanyard to his or her person, clothing, or personal flotation device as appropriate for the specific vessel. It is unlawful for any person to remove or disable a cutoff switch that was installed by the manufacturer.

(4) A person under the age of fourteen shall not operate a personal watercraft on the waters of this state.

(5) A person shall not operate a personal watercraft in a reckless manner, including recklessly weaving through congested vessel traffic, recklessly jumping the wake of another vessel unreasonably or unnecessarily close to the vessel or when visibility around the vessel is obstructed, or recklessly swerving at the last possible moment to avoid collision.

(6) A person shall not lease, hire, or rent a personal watercraft to a person under the age of sixteen.

(7) Subsections (1) through (6) of this section shall not apply to a performer engaged in a professional exhibition or a person participating in a regatta, race, marine parade, tournament, or exhibition authorized or otherwise permitted by the appropriate agency having jurisdiction and authority to authorize such events.

(8) Violations of subsections (2) through (6) of this section constitute a misdemeanor under RCW 9.92.030. [2000 c 11 § 101; 1993 c 244 § 17. Formerly RCW 88.12.145.]

79A.60.200 Duty of operator involved in collision, accident, or other casualty—Immunity from liability of

persons rendering assistance—Penalties. (1) The operator of a vessel involved in a collision, accident, or other casualty, to the extent the operator can do so without serious danger to the operator's own vessel or persons aboard, shall render all practical and necessary assistance to persons affected by the collision, accident, or casualty to save them from danger caused by the incident. Under no circumstances may the rendering of assistance or other compliance with this section be evidence of the liability of such operator for the collision, accident, or casualty. The operator shall also give all pertinent accident information, as specified by rule by the commission, to the law enforcement agency having jurisdiction: PROVIDED, That this requirement shall not apply to operators of vessels when they are participating in an organized competitive event authorized or otherwise permitted by the appropriate agency having jurisdiction and authority to authorize such events. These duties are in addition to any duties otherwise imposed by law. Except as provided for in RCW 79A.60.020 and subsection (3) of this section, a violation of this subsection is a civil infraction punishable under RCW 7.84.100.

79A.60.510 Findings—Sewage disposal initiative established—Boater environmental education—Waterway access facilities. The legislature finds that the waters of Washington state provide a unique and valuable recreational resource to large and growing numbers of boaters. Proper stewardship of, and respect for, these waters requires that, while enjoying them for their scenic and recreational benefits, boaters must exercise care to assure that such activities do not contribute to the despoliation of these waters, and that watercraft be operated in a safe and responsible manner. The legislature has specifically addressed the topic of access to clean and safe waterways by requiring the 1987 boating safety study and by establishing the Puget Sound partnership.

The legislature finds that there is a need to educate Washington's boating community about safe and responsible actions on our waters and to increase the level and visibility of the enforcement of boating laws. To address the incidence of fatalities and injuries due to recreational boating on our state's waters, local and state efforts directed towards safe boating must be stimulated. To provide for safe waterways and public enjoyment, portions of the watercraft excise tax and boat registration fees should be made available for boating safety and other boating recreation purposes.

In recognition of the need for clean waterways, and in keeping with the Puget Sound partnership's water quality work plan, the legislature finds that adequate opportunities for responsible disposal of boat sewage must be made available. There is hereby established a five-year initiative to install sewage pumpout or sewage dump stations at appropriate marinas.

To assure the use of these sewage facilities, a boater environmental education program must accompany the five-year initiative and continue to educate boaters about boat wastes and aquatic resources.

The legislature also finds that, in light of the increasing numbers of boaters utilizing state waterways, a program to acquire and develop sufficient waterway access facilities for boaters must be undertaken.

To support boating safety, environmental protection and education, and public access to our waterways, the legislature declares that a portion of the income from boating-related activities, as specified in RCW 82.49.030 and 88.02.650, should support these efforts. 79A.60.600 Liquid petroleum gas leak warning devices—Findings. (1) The legislature finds that:

(a) Washington state has the greatest length of marine shoreline miles of the lower forty-eight states;

(b) Such marine waters and the extensive freshwater lakes and rivers of the state provide innumerable recreational opportunities, and support a state recreational vessel population that is one of the largest in the country;

(c) Many of Washington's popular recreational waters are remote from population centers and thus remote from emergency health care facilities;

(d) Washington's climate in the western portion of the state, in which its marine recreational waters lie, is cool and wet for much of the year. Much of the state's recreational vessel activity is conducted in the late fall and winter months in connection with fishing activities. For these reasons the great majority of Washington vessels are equipped with heating devices. These appliances are in use for a much greater portion of the boating season than in other states, and are predominantly fueled by liquid petroleum gas;

(e) Current state and federal standards governing heating and cooking appliances on vessels that are fueled by liquid petroleum gas do not adequately protect against undetected gas leaks. Such gas leaks have led to explosions on Washington waters, causing loss of life and property damage;

(f) The commission coordinates a statewide program of boating safety education to communicate accident prevention information to boaters at risk of fires, explosions, and other hazards, and administers a boating accident reporting program to assess the effectiveness of accident prevention measures.

(2) It is the intent of the legislature to address the state's unique local circumstances regarding inadequate protection of Washington's boaters from undetected leaks of liquid petroleum gas-fueled appliances by incorporating into the boating safety program an intensified boating fire prevention program with special emphasis on preventing fires and carbon monoxide poisoning caused by auxiliary fuels and appliances. 79A.60.610 Recreational boating fire prevention education program. The commission shall undertake a

statewide recreational boating fire prevention education program concerning the safe use of marine fuels and electrical systems. The boating fire prevention education program shall provide for the distribution of fire safety materials and decals warning of fire hazards and for educational opportunities to educate boaters on the safety practices needed to operate heaters, stoves, and other appliances in Washington's unique aquatic environment. The commission shall evaluate the boating public's voluntary participation in the program and the program's impact on safe boating. [2006 c 140 § 4; 1994 c 151 § 2. Formerly RCW 88.12.505.]

79A.60.620 Small spill prevention education program. (1) The Washington sea grant program, in consultation with the department of ecology, shall develop and conduct a voluntary spill prevention education program that targets small spills from commercial fishing vessels, ferries, cruise ships, ports, and marinas. Washington sea grant shall coordinate the spill prevention education program with recreational boater education performed by the state parks and recreation commission.

(2) The spill prevention education program shall illustrate ways to reduce oil contamination of bilge water, accidental spills of hydraulic fluid and other hazardous substances during routine maintenance, and reduce spillage during refueling. The program shall illustrate proper disposal of oil and hazardous substances and promote strategies to meet shoreside oil and hazardous substance handling, and disposal needs of the targeted groups. The program shall include a series of training workshops and the development of educational materials. [2000 c 11 § 114; 1991 c 200 § 110. Formerly RCW 90.56.090.]

79A.60.630 Boating safety education—Commission's duties—Fee—Report to the legislature. (1) The commission shall establish and implement by rule a program to provide required boating safety education. The boating safety education program shall include training on preventing the spread of aquatic invasive species. The boating safety education program shall include educational materials regarding whale watching guidelines and other voluntary and regulatory measures related to whale watching. The program shall be phased in so that all boaters not exempted under RCW 79A.60.640(3) are required to obtain a boater education card by January 1, 2016. To obtain a boater education card, a boater shall provide a certificate of accomplishment issued by a boating educator for taking and passing an accredited boating safety education course, or pass an equivalency exam, or provide proof of completion of a course that meets the standard adopted by the commission.

(2) As part of the boating safety education program, the commission shall:

(a) Establish a program to be phased over eleven years starting July 1, 2005, with full implementation by January 1, 2016. The period July 1, 2005, through December 31, 2007, will be program development, boater notification of the new requirements for mandatory education, and processing cards to be issued to individuals having taken an accredited course prior to January 1, 2008. The schedule for phase-in of the mandatory education requirement by age group is as follows:

January 1, 2008 - All boat operators twenty years old and younger;
 January 1, 2009 - All boat operators twenty-five years old and younger;
 January 1, 2010 - All boat operators thirty years old and younger;
 January 1, 2011 - All boat operators thirty-five years old and younger;
 January 1, 2012 - All boat operators forty years old and younger;
 January 1, 2013 - All boat operators fifty years old and younger;
 January 1, 2014 - All boat operators sixty years old and younger;
 January 1, 2015 - All boat operators seventy years old and younger;
 January 1, 2016 - All boat operators;

(b) Establish a minimum standard of boating safety education accomplishment. The standard must be consistent with the applicable standard established by the national association of state boating law administrators;

(c) Adopt minimum standards for boating safety education course of instruction and examination that ensures compliance with the national association of state boating law administrators minimum standards;

(d) Approve and provide accreditation to boating safety education courses operated by volunteers, or commercial or nonprofit organizations, including, but not limited to, courses given by the United States coast guard auxiliary and the United States power squadrons;

(e) Develop an equivalency examination that may be taken as an alternative to the boating safety education course;

(f) Establish a fee of ten dollars for the boater education card to fund all commission activities related to the boating safety education program created by chapter 392, Laws of 2005, including the initial costs of developing the program. Any surplus funds resulting from the fees received shall be distributed by the commission as grants to local marine law enforcement programs approved by the commission as provided in RCW 88.02.650;

(g) Establish a fee for the replacement of the boater education card that covers the cost of replacement;

(h) Consider and evaluate public agency and commercial opportunities to assist in program administration with the intent to keep administrative costs to a minimum;

(i) Approve and provide accreditation to boating safety education courses offered online; and

(j) Provide a report to the legislature by January 1, 2008, on its progress of implementation of the mandatory education program. [2019 c 293 § 1; 2011 c 171 § 118; 2005 c 392 § 3.]

Intent—Effective date—2011 c 171: See notes following RCW 4.24.210.

Intent—2005 c 392: "It is the intent of the legislature to establish a boating safety education program that contributes to the reduction of accidents and increases the enjoyment of boating by all operators of all recreational vessels on the waters of this state. Based on the 2003 report to the legislature titled "Recreational Boating Safety in Washington, A Report on Methods to Achieve Safer Boating Practices," the legislature recognizes that boating accidents also occur in nonmotorized vessels in this state, but, at this time there is no national educational standard for nonmotorized vessels. Therefore, the commission is hereby authorized and directed to work with agencies and organizations representing nonmotorized vessel activities and individuals operating nonmotorized vessels to decrease accidents of opera-

tors in these vessels. It is also the intent of the legislature to encourage boating safety education programs that use volunteer and private sector efforts to enhance boating safety and education for operators of nonmotorized vessels to work closely with the state parks and recreation commission in its efforts to reduce all boating accidents in this state." [2005 c 392 § 1.]

79A.65.020 Securing unauthorized vessels—Notice—Claiming vessels—Abandoned vessels—Derelict vessel removal account. (1) The commission may take reasonable measures, including but not limited to the use of anchors, chains, ropes, and locks, or removal from the water, to secure unauthorized vessels located at or on a commission facility so that the unauthorized vessels are in the possession and control of the commission. At least ten days before securing any unauthorized registered vessel, the commission shall send notification by registered mail to the last registered owner or registered owners of the vessel at their last known address or addresses.

(2) The commission may take reasonable measures, including but not limited to the use of anchors, chains, ropes, locks, or removal from the water, to secure any vessel if the vessel, in the opinion of the commission, is a nuisance, is in danger of sinking or creating other damage to a commission facility, or is otherwise a threat to the health, safety, or welfare of the public or environment at a commission facility. The costs of any such procedure shall be paid by the vessel's owner.

(3) At the time of securing any vessel under subsection (1) or (2) of this section, the commission shall attach to the vessel a readily visible notice or, when practicable, shall post such notice in a conspicuous location at the commission facility in the event the vessel is removed from the premises. The notice shall be of a reasonable size and shall contain the following information:

(a) The date and time the notice was attached or posted;

(b) A statement that the vessel has been secured by the commission and that if the commission's charges, if any, are not paid and the vessel is not removed by (the thirty-fifth consecutive day following the date of attachment or

posting of the notice), the vessel will be considered abandoned and will be sold at public auction to satisfy the charges;

(c) The address and telephone number where additional information may be obtained concerning the securing of the vessel and conditions for its release; and

(d) A description of the owner's or secured party's rights under this chapter.

(4) With respect to registered vessels: Within five days of the date that notice is attached or posted under subsection (3) of this section, the commission shall send such notice, by registered mail, to each registered owner.

(5) If a vessel is secured under subsection (1) or (2) of this section, the owner, or any person with a legal right to possess the vessel, may claim the vessel by:

(a) Making arrangements satisfactory to the commission for the immediate removal of the vessel from the commission's control or for authorized storage or moorage; and

(b) Making payment to the commission of all reasonable charges incurred by the commission in securing the vessel under subsections (1) and (2) of this section and of all moorage fees owed to the commission.

(6) A vessel is considered abandoned if, within the thirty-five day period following the date of attachment or posting of notice in subsection (3) of this section, the vessel has not been claimed under subsection (5) of this section.

(7) If the owner or owners of a vessel are unable to reimburse the commission for all reasonable charges under subsections (1) and (2) of this section within a reasonable time, the commission may seek reimbursement of ninety percent of all reasonable and auditable costs from the derelict vessel removal account established in RCW 79.100.100. [2013 c 291 § 3; 2002 c 286 § 21; 1994 c 51 § 2. Formerly RCW 88.27.020.]

79A.65.030 Sale of abandoned vessels—Notice—Redemption of vessels—Use of proceeds—Disposal of vessels. (1) The commission may provide for the public sale of vessels considered abandoned under RCW 79A.65.020. At such sales, the vessels shall be sold for cash to the highest and best bidder. The commission may establish either a minimum bid or require a letter of credit, or both, to discourage the future reabandonment of the vessel.

(2) Before a vessel is sold, the commission shall make a reasonable effort to provide notice of sale, at least twenty days before the day of the sale, to each registered owner of a registered vessel and each owner of an unregistered vessel. The notice shall contain the time and place of the sale, a reasonable description of the vessel to be sold, and the amount of charges then owing with respect to the vessel, and a summary of the rights and procedures under this chapter. A notice of sale shall be published at least once, more than ten but not more than twenty days before the sale, in a newspaper of general circulation in the county in which the commission facility is located. This notice shall include: (a) If known, the name of the vessel and the last owner and the owner's address; and (b) a reasonable description of the vessel. The commission may bid all or part of its charges at the sale and may become a purchaser at the sale.

(3) Before a vessel is sold, any person seeking to redeem a secured vessel may commence a lawsuit in the superior court for the county in which the vessel was secured to contest the commission's decision to secure the vessel or the amount of charges owing. This lawsuit shall be commenced within fifteen days of the date the notification was posted under RCW 79A.65.020(3), or the right to a hearing is deemed waived and the owner is liable for any charges owing the commission. In the event of litigation, the prevailing party is entitled to reasonable attorneys' fees and costs.

(4) The proceeds of a sale under this section shall be applied first to the payment of the amount of the reasonable charges incurred by the commission and moorage fees owed to the commission, then to the owner or to satisfy any liens of record or security interests of record on the vessel in the order of their priority. If an owner cannot in the exercise of due diligence be located by the commission within one year of the date of the sale, any excess funds from the sale, following the satisfaction of any bona fide security interest, shall revert to the derelict vessel removal account established in RCW 79.100.100. If the sale is for a sum less than the applicable charges, the commission is entitled to assert a claim for the deficiency against the vessel owner. Nothing in this section prevents any lienholder or secured party from asserting a claim for any deficiency owed the lienholder or secured party.

(5) If no one purchases the vessel at a sale, the commission may proceed to properly dispose of the vessel in any way the commission considers appropriate, including, but not limited to, destruction of the vessel or by negotiated sale. The commission may assert a claim against the owner for any charges incurred thereby. If the vessel, or any part of the vessel, or any rights to the vessel, are sold under this subsection, any proceeds from the sale shall be distributed in the manner provided in subsection (4) of this section. [2002 c 286 § 22; 2000 c 11 § 116; 1994 c 51 § 3. Formerly RCW 88.27.030.]

79A.65.040 Action to recover charges—Attorneys' fees—Costs. If the full amount of all charges due the commission on an unauthorized vessel is not paid to the commission within thirty days after the date on which notice is affixed or posted under RCW 79A.65.020(3), the commission may bring an action in any court of competent jurisdiction to recover the charges, plus reasonable attorneys' fees and costs incurred by the commission. [2000 c 11 § 117; 1994 c 51 § 4. Formerly RCW 88.27.040.]

79A.65.050 Rights not affected. The rights granted to the commission under this chapter are in addition to any other legal rights the commission may have to secure, hold, and sell a vessel and in no manner does this section alter those rights, or affect the priority of other liens on a vessel. [1994 c 51 § 5. Formerly 88.27.050.]

Chapter 79A.80 RCW ACCESS TO RECREATIONAL LANDS

Sections

79A.80.005	Findings—Intent—2011 c 320.

79A.80.020	Discover pass.
79A.80.030	Day-use permit.
79A.80.040	Vehicle access pass.
79A.80.050	Valid camper registration/annual natural investment permit—Designation of days where entry to a recreation site or lands is free.
79A.80.060	Sno-park seasonal permit.
79A.80.070	Short-term parking.

79A.80.090	Recreation access pass account.
79A.80.100	Purchase, return, replacement of discover passes and day-use permits.
79A.80.110	Discounted passes—Bulk sales.
79A.80.120	Library discover passes.

79A.80.005 Findings—Intent—2011 c 320. (1) The legislature finds that there is an increasing demand for outdoor recreation opportunities and conservation measures on lands managed by the department of fish and wildlife, the department of natural resources, and the parks and recreation commission. Development and maintenance of outdoor recreation facilities and conservation of lands have not kept pace with this demand. This demand, combined with shrinking resources for management, has led to the degradation of our lands to the detriment of the recreating public and efforts to conserve our natural resources.

(2) The legislature further finds that the recreating public cannot readily discern which agency of the state is responsible for the management of particular state lands or which policies apply to those lands.

(3) It is the intent of this act to reform and improve access to and management of state lands on a sustainable basis for the recreating public by: Providing a motor vehicle access pass and access policies for state lands; recovering the

(2022 Ed.)

cost incurred by the state for operations and management of recreation opportunities; providing resources to address the growing demand and impacts of outdoor recreationists and conservation of our natural resources; and providing effective education and enforcement of state land access policies.
