ENGROSSED SECOND SUBSTITUTE HOUSE BILL NO. 1272, as amended by the Senate, having received the necessary constitutional majority, was declared passed.

**MESSAGE FROM THE SENATE**

Thursday, February 29, 2024

Mme. Speaker:

The Senate has passed ENGROSSED SUBSTITUTE HOUSE BILL NO. 1277, with the following amendment(s): 1277-S.E AMS EDU S5373.1

Strike everything after the enacting clause and insert the following:

**"NEW SECTION. Sec. 1.** (1) The legislature acknowledges that it created the paraeducator board to adopt standards of practice and required school districts to provide to paraeducators a four-day fundamental course of study on the standards to paraeducators. The legislature finds that it required that at least one day of the fundamental course of study be provided in person due to the benefits of in-person instruction, including that instructors can confirm the participant's application of learning objectives.

(2) The legislature recognizes that paraeducators benefit from in-person training that is part of the hiring and onboarding process. The legislature intends to expand this benefit by generally requiring two days of the fundamental course

of study be provided to paraeducators in person. The legislature recognizes that an exemption from this in-person requirement is necessary for some small school districts that experience barriers to providing the fundamental course of study in person due to long commute times for paraeducators, irregular hiring dates in small school districts, and other extenuating circumstances.

(3) However, it is the intent of the legislature to ensure that all paraeducators in Washington receive high quality and consistent professional development through the fundamental course of study, with a significant majority of paraeducators being trained in person.

**NEW SECTION. Sec. 2.** A new section is added to chapter 28A.413 RCW to read as follows:

(1) By July 1, 2025, the board must update rules on the implementation of the fundamental course of study under RCW 28A.413.060 to require that a significant majority of paraeducators are provided with the course in person. Under the rules, the board may grant an exemption from the in-person requirement of RCW 28A.413.060 for second-class school districts hiring paraeducators after the beginning of the school year.

(2) By July 1, 2025, the board must publish guidance for school districts on how to provide the fundamental course of study under RCW 28A.413.060 to improve the consistency and quality of staff development.

**Sec. 3.** RCW 28A.413.060 and 2019 c 268 s 3 are each amended to read as follows:

(1) School districts must implement this section only in school years for which state funding is appropriated specifically for the purposes of this section and only for the number of days that are funded by the appropriation.

(2) (a) School districts must provide a four-day fundamental course of study on the state standards of practice, as defined by the board, to paraeducators who have not completed the course, either in the district or in another district within the state. ~~((At least one day of the fundamental course of study must be provided in person.))~~

(b) School districts must use best efforts to provide the fundamental course of study before the paraeducator begins to work with students and their families, and at a minimum by the following deadlines ~~((provided in subsection (3) of this section.))~~

~~((3) Except as provided in (b) of this subsection, school districts must provide the fundamental course of study required in subsection (2) of this section by the deadlines provided in (a) of this subsection)):~~

~~((+))~~ (i) For paraeducators hired ~~((or~~ before ~~((September 1st))~~ the beginning of the school year, the first two days of the fundamental course of study must be provided ~~((by September 30th of that year))~~ in person before the beginning of the school year and the second two days of the

fundamental course of study must be provided within six months of the date of hire ~~((regardless of the size of the district));~~ and

(ii) For paraeducators hired after ~~((September 1st))~~ the beginning of the school year:

(A) For paraeducators hired by first-class districts ~~((with ten thousand or more students))~~, the first two days of the fundamental course of study must be provided in person within four months of the date of hire and the second two days of the fundamental course of study must be provided within six months of the date of hire or by September 1st of the following year, whichever is sooner; and

(B) For paraeducators hired by second-class districts ~~((with fewer than ten thousand students))~~, the four-day fundamental course of study must be provided no later than September 1st of the following year, with two of the days provided in person unless the district has applied for and received an exemption under section 2 of this act.

~~((b))~~ (i) For paraeducators hired for the 2018-19 school year, by September 1, 2020; and

~~((ii))~~ For paraeducators not hired for the 2018-19 school year, but hired for the 2019-20 school year, by September 1, 2021.

~~((4))~~ (3) School districts may collaborate with other school districts or educational service districts to meet the requirements of this section."

On page 1, line 2 of the title, after "paraeducators;" strike the remainder of the title and insert "amending RCW 28A.413.060; adding a new section to chapter 28A.413 RCW; and creating a new section."

#### MESSAGE FROM THE SENATE

Thursday, February 29, 2024

Mme. Speaker:

The Senate has passed ENGROSSED SECOND SUBSTITUTE HOUSE BILL NO. 1956, with the following amendment(s): 1956-S2.E AMS WM S5570.1

Strike everything after the enacting clause and insert the following:

**"NEW SECTION. Sec. 1.** (1) The legislature finds that overdoses and overdose deaths, particularly from synthetic opioids, have increased in recent years. According to the federal centers for disease control and prevention, among persons aged 14 through 18, overdose deaths increased 94 percent from 2019 to 2020 and 20 percent from 2020 to 2021. In 2021, over 75 percent of all drug overdose deaths involved opioids, with synthetic opioids, including fentanyl, accounting for nearly 88 percent of those deaths. Between 2022 and 2023, Washington saw the largest increase in overdose deaths of any state at 40 percent.

(2) The legislature recognizes that fatal overdose risk among adolescents is increasing due to widespread availability of illicitly manufactured fentanyl, proliferation of counterfeit pills resembling prescription drugs but containing illicit drugs, and ease of purchasing pills through social media. The United States drug enforcement administration states that there is significant risk that illegal drugs have been intentionally contaminated with fentanyl. As a result, many young people may ingest a lethal dose without knowing that they are consuming fentanyl.

(3) The legislature acknowledges that the level of public health crisis created by use of fentanyl and other synthetic opioids requires an immediate, substantial, and coordinated effort by national, state, and local public health, social service, and educational agencies working together.

(4) The legislature also acknowledges that the popularity of drugs grows and wanes forming distinct drug epidemics, similar to disease epidemics. As the popularity and

availability of synthetic opioids wanes, it is likely that some other substance will pose the next acute public health crisis.

(5) Therefore, in order to combat the current public health crisis of abuse of fentanyl and other synthetic opioids, and to be prepared to address the next drug epidemic before it reaches crisis level, the legislature intends to direct the state department of health to deploy a statewide substance use prevention and awareness campaign that evolves to address the substance or substances with the greatest impact on the health of Washington youth and their families, diverse regions and communities, and the broader public. The legislature also intends for the public education system to actively incorporate campaign messages and materials in classrooms, as well as in family and community communications.

**NEW SECTION. Sec. 2.** A new section is added to chapter 43.70 RCW to read as follows:

(1) The department shall develop, implement, and maintain a statewide drug overdose prevention and awareness campaign to address the drug overdose epidemic.

(2)(a) The campaign must educate the public about the dangers of methamphetamines and opioids, including fentanyl, and the harms caused by drug use. The campaign must include outreach to both youth and adults aimed at preventing substance use and overdose deaths.

(b) The department, in consultation with the health care authority, may also include messaging focused on substance use disorder and overdose death prevention, resources for addiction treatment and services, and information on immunity for people who seek medical assistance in a drug overdose situation pursuant to RCW 69.50.315.

(3) The 2024 and 2025 campaigns must focus on increasing the awareness of the dangers of fentanyl and other synthetic opioids, including the high possibility that other drugs are contaminated with synthetic opioids and that even trace amounts of synthetic opioids can be lethal.

(4) Beginning June 30, 2025, and each year thereafter, the department must submit a report to the appropriate committees of the legislature on the content and distribution of the statewide drug overdose prevention and awareness campaign. The report must include a summary of the messages distributed during the campaign, the mediums through which the campaign was operated, and data on how many individuals received information through the campaign. The department must identify measurable benchmarks to determine the effectiveness of the campaign and recommend whether the campaign should continue and if any changes should be made to the campaign. The report must be submitted in compliance with RCW 43.01.036.

**NEW SECTION. Sec. 3.** A new section is added to chapter 28A.300 RCW to read as follows:

(1) The office of the superintendent of public instruction shall collaborate with

the department of health, the health care authority, other state agencies, and educational service districts to develop age-appropriate substance use prevention and awareness materials for school and classroom uses. These materials must be periodically updated to align with substance use prevention and awareness campaigns implemented by the department of health and the health care authority.

(2) The office of the superintendent of public instruction shall actively distribute the materials developed under subsection (1) of this section to school districts, public schools, educational service districts, and community-based organizations that provide extended learning opportunities, and strongly encourage the incorporation of age-appropriate materials in classrooms, as well as in family and community communications.

**NEW SECTION. Sec. 4.** (1) The office of the superintendent of public instruction shall collaborate with the department of health, the health care authority, other state agencies, and educational service districts to develop school and classroom materials on the lethality of fentanyl and other opioids in coordination with the public health campaign created in section 2 of this act. The office of the superintendent of public instruction must make these materials available to school districts and public schools.

(2) By December 1, 2025, the office of the superintendent of public instruction shall adjust the state health and physical education learning standards for middle and high school students to add opioids to the list of drugs included in drug-related education and update the school and classroom materials developed under subsection (1) of this section to reflect the adjusted standards required by this subsection (2). The office of the superintendent of public instruction must make these materials available to school districts and public schools.

(3) This section expires July 1, 2026.

**NEW SECTION. Sec. 5.** This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect immediately.

**NEW SECTION. Sec. 6.** If specific funding for the purposes of this act, referencing this act by bill or chapter number, is not provided by June 30, 2024, in the omnibus appropriations act, this act is null and void.

**NEW SECTION. Sec. 7.** This act may be known and cited as the Lucas Petty act."

On page 1, line 2 of the title, after "education;" strike the remainder of the title and insert "adding a new section to chapter 43.70 RCW; adding a new section to chapter 28A.300 RCW; creating new sections; providing an expiration date; and declaring an emergency."

and the same is herewith transmitted.

"NEW SECTION. **Sec. 1.** The legislature finds that there is significant opportunity to improve worker and public safety in tower crane assembly, disassembly, and reconfiguration. The Seattle tower crane incident on April 27, 2019, killing two members of the public, Sarah Pantip Wong and Alan Jay Justad, and two iron workers, Travis Daniel Corbet and Andrew W. Yoder, exposed weaknesses in construction safety efforts. Requirements for permitting, street closures, and penalties are created to ensure that assembly, disassembly, and reconfiguration of tower cranes proceed safely.

Sections 3 through 10 of this act apply to construction crane safety.

**Sec. 3.** RCW 49.17.400 and 2007 c 27 s 2 are each amended to read as follows:

Height of the crane, length of boom, attachments, and loads, shall all be considered to calculate the area, which can shrink or grow as the work progresses.

(12) "Crane owner" means the company or entity that has custodial control of a crane by virtue of lease or ownership.

(13) "Prime contractor" means the person or entity that has overall responsibility for the construction of the project, its planning, quality, and completion and serves as the site supervisor.

(i) Require the department to inspect permitted activities for the tower crane once assembled, following any reconfiguration, or any other permitted activities; and

(j) Require that if the department identifies deficiencies that directly affect the structural integrity or safe operation of a tower crane, the deficiencies be addressed immediately, and the tower crane not be operated until the deficiencies are corrected.

(3) Beginning January 1, 2026, a prime contractor must obtain a permit from the department, as established under this section, prior to performing or allowing the performance of any work involving the operation, assembly, disassembly, or reconfiguration of a tower crane. An exemption from the permit requirement may be allowed by the department for exceptions as determined by the department.

(4)(a) The prime contractor must possess a permit, as required under subsection (3) of this section, at all times a tower crane is present on a construction worksite.

The department must establish the information and materials required to be submitted prior to the safety conference, the information and material required to be reviewed at the safety conference, and the required attendees at the safety conference.

(b) During the safety conference, at a minimum the following items must be evaluated:

(i) The potential risks of the procedures, including those addressed in the crane operating manual, as well as specific measures to be taken by the permit applicant and all entities required in the operation, assembly, disassembly, and reconfiguration of the tower crane to minimize these risks;

(ii) The written accident prevention programs of the permit applicant and all entities involved in the operation, assembly, disassembly, and reconfiguration of the tower crane;

(iii) The permit applicant's written job plan as required under RCW 49.17.440; and

(a) Has failed to comply with applicable occupational health and safety standards or regulations involving tower cranes;

(b) Fails to notify the department in advance of the assembly, disassembly, or reconfiguration of a fixed tower crane as required under this section;

(c) Fails to ensure that a technical representative of the distributor or manufacturer of the tower crane who is knowledgeable of assembly, disassembly, and reconfiguration procedures was present during assembly, disassembly, or reconfiguration;

(d) Fails to immediately correct deficiencies directly affecting the structural integrity of a tower crane;

(e) Fails to correct deficiencies directly affecting the safe operation of a tower crane; or

(f) Has refused the department entry to a worksite that contains activity for which a permit is required.

(2) The crane certification program must include, at a minimum, the following:

(a) The department shall establish certification requirements for crane inspectors, including an experience requirement, an education requirement, a training requirement, and other necessary requirements determined by the director;

(b) The department shall establish a process for certified crane inspectors to

issue temporary certificates of operation for a crane and the department to issue a final certificate of operation for a crane after a certified crane inspector determines that the crane meets safety or health standards, including meeting or exceeding national periodic inspection requirements recognized by the department;

(c) Crane owners must ensure that cranes are inspected and load proof tested by a certified crane inspector at least annually and after any significant modification or significant repairs of structural parts. A certified crane inspector shall not attest that a crane meets safety or health standards until any deficiencies are corrected and the correction is verified by the certified crane inspector; and

(g) Inspection reports including all information and documentation obtained from a crane inspection shall be made available or provided to the department by a certified crane inspector upon request.

(3) Except as provided in RCW 49.17.410(2), any crane operated in the state must have a valid temporary or final certificate of operation issued by the certified crane inspector or department posted in the operator's cab or station.

~~((Transfer of cases pursuant to this section does not require the filing of a motion for discretionary review with the court of appeals.))~~ ~~(b)~~ The superior court may certify cases for transfer to the court of appeals upon finding that:

~~((a))~~ (i) All parties have consented to the transfer to the court of appeals and agreed that the judicial review can occur based upon the agency record developed before the administrative body without supplementing the record pursuant to RCW 34.05.562; or

~~((b))~~ (ii) One or more of the parties have not consented to the transfer, but the superior court finds that transfer would serve the interest of justice, would not cause substantial prejudice to any party, including any unrepresented party, and further finds that:

~~((i))~~ (A) The judicial review can occur based upon the agency record developed before the administrative body without supplementing the record pursuant to RCW 34.05.562; or

~~((ii))~~ (B) The superior court has completed any necessary supplementation of the record pursuant to RCW 34.05.562, such that only issues of law remain for determination.

(2) If the superior court certifies a final decision of an administrative agency in an adjudicative proceeding, the superior court shall transfer the matter to the court of appeals as a direct appeal.

(3) A party contesting a superior court decision granting or denying certification for direct review may file a motion for discretionary review with the court of appeals.

(4) (a) For the appeal of a permit related to a clean energy project, as defined in RCW 43.158.010, that is the subject of a final adjudicative decision of an environmental board, as identified in RCW 43.21B.005, upon a motion filed by any party to the appeal, the superior court shall certify a case for transfer to the court of appeals upon a finding that:

(i) The judicial review can occur based upon the agency record developed before the administrative body without supplementing the record pursuant to RCW 34.05.562; or

(ii) The superior court has completed any necessary supplementation of the record pursuant to RCW 34.05.562.

(b) If the superior court certifies a final decision of an administrative agency in an adjudicative proceeding, the superior court shall transfer the matter to the court of appeals as a direct appeal.

(c) A party contesting a superior court decision granting or denying certification for direct review may file a motion for discretionary review with the court of appeals. Where a contesting party demonstrates that substantial prejudice would result from direct review by the court of appeals, the court of appeals may remand to the superior court.

**Sec. 2.** RCW 34.05.518 and 2021 c 305 s 5 are each amended to read as follows:

#### MESSAGE FROM THE SENATE

Wednesday, February 28, 2024

Mme. Speaker:

The Senate has passed SUBSTITUTE HOUSE BILL NO. 2045, with the following amendment(s): 2045-S AMS AWP S5117.1

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature finds that fish barriers are a serious impediment to salmon and steelhead recovery. The legislature further finds that the state has limited financial resources to address its many challenges and that community members and businesses may want to offer their help in partnership with the state for the removal of fish barriers that are on

lands owned by state or local governments. The legislature also finds that it is desirable to coordinate any such private donations with existing fish barrier removal projects on lands owned by state or local governments.

Therefore, the legislature intends to facilitate the removal of fish barriers on lands owned by state or local governments by creating the adopt a fish passage program through which state or local governments may receive such donations and to acknowledge project donors through appropriate public signage.

NEW SECTION. **Sec. 2.** A new section is added to chapter 77.95 RCW to read as follows:

(1) The Washington state department of transportation and every county, city, and town may accept any money or property donated, devised, or bequeathed to it that is donated for the purpose of fish barrier removal. The Washington state department of transportation and local governments may determine the value of any property donated, devised, or bequeathed for the purpose of recognizing fish barrier removal donations in this section.

(2) Subject to subsection (3) of this section, and upon completion of the related project, the Washington state department of transportation, counties, cities, and towns receiving donations for removing a fish barrier must install a clearly marked sign that acknowledges the individual donors and that is consistent with the requirements of RCW 47.40.105.

(3) Signs installed under subsection (2) of this section must be of a uniform design approved by the recreation and conservation office and may only include the words "adopt-a-fish passage," the names of project donors, and the species of fish affected by the project. Signage is also subject to the following limitations:

(a) The donor's name may not be displayed more predominantly than the remainder of the sign message.

(b) Trademarks or business logos may be displayed.

(c) To the extent that the Washington state department of transportation and local governments determine that the number of donors for individual projects would interfere with the signage requirements of subsection (2) of this section or the requirements of RCW 47.40.105, the Washington state department of transportation and local governments may determine the number of donors listed on signs but must endeavor to recognize the donors that provide the largest donations.

(d) The Washington state department of transportation and local governments receiving private donations under this section must only install signage pursuant to this section for individual donations that are equal in value to at least \$10,000.

(e) Notwithstanding other provisions of this subsection, a donor is not eligible to have their name displayed on the sign if the applicant's name: (i) Endorses or opposes a particular candidate for public office; (ii) advocates a position on a specific political

issue, initiative, referendum, or piece of legislation; (iii) includes a reference to a political party; or (iv) includes a reference to anything that may be considered or construed to be obscene or offensive to the general public.

(4) To the extent feasible and with the goal of expediting fish barrier removals, the Washington state department of transportation, counties, cities, and towns receiving donations under this section must coordinate donations with any grant applications made for state grant funding for fish barrier removal pursuant to RCW 77.95.170. The recreation and conservation office must publish and maintain a list of fish barrier removal projects that are suited to receiving private donations pursuant to this section. Donations received under this section are eligible for use as match for other funding sources, including state and federal grants.

(5) Upon completion of a project funded with private donations pursuant to this section, the Washington state department of transportation or local government that owns the completed project must notify the recreation and conservation office. Upon receiving such a notification, the recreation and conservation office must gather information regarding the project sponsors, location, fish species affected, and the amounts of individual donations that supported the project. The recreation and conservation office must publish and maintain this information with the project list under subsection (4) of this section.

(6) For each individual donation equal to at least \$100,000 in value pursuant to this section, the recreation and conservation office must provide to the donor a recognition plaque that meets the following criteria: (a) The plaque must be signed by the governor; and (b) the plaque must include the name of the donor, the words "adopt-a-fish passage program," the location and name of the project funded, the amount and year of the donation, and the fish species affected.

**Sec. 3.** RCW 47.40.105 and 1990 c 258 s 3 are each amended to read as follows:

Local government legislative authorities may enact local "adopt-a-highway sign" and "adopt-a-fish passage" programs which are not inconsistent with state or federal law.

NEW SECTION. **Sec. 4.** A new section is added to chapter 47.40 RCW to read as follows:

#### MESSAGE FROM THE SENATE

Tuesday, February 27, 2024

Mme. Speaker:

The Senate has passed SECOND SUBSTITUTE HOUSE BILL NO. 2071, with the following amendment(s): 2071-S2 AMS LGLT S5111.1

Strike everything after the enacting clause and insert the following:

"NEW SECTION. **Sec. 1.** A new section is added to chapter 19.27 RCW to read as follows:

(1) The legislature finds that lowering the cost of middle and multiplex housing construction will increase the housing supply and help address the state's shortage of affordable housing. It further finds that home builders and residentially focused architects are more familiar with the provisions of the international residential code. Allowing middle and multiplex housing to be built according to the standards of the international residential code will result in housing being easier to build and more affordable without sacrificing quality and safety. Therefore, the legislature intends to simplify the production of middle and multiplex housing by allowing more types of housing to use provisions of the international residential code.

(2) The state building code council shall convene a technical advisory group for the purpose of recommending the additions or amendments to rules or codes that are necessary for the council to apply the Washington state residential code to multiplex housing. The technical advisory

group shall determine the most efficient mechanism to implement these changes in the Washington state residential code. These recommendations must include those code changes necessary to ensure public health and safety in multifamily housing under the international residential code and must consider the life safety systems and accessibility requirements for multiplex housing from the Washington state building code.

(3) The advisory group shall provide its recommendations to the council in time for the council to adopt or amend rules or codes as necessary for implementation in the 2024 international building code. The council shall take action to adopt additions and amendments to rules or codes as necessary to apply the international residential code to multiplex housing by November 1, 2026.

(4) For the purposes of this section, "multiplex housing" means a building with up to six dwelling units consolidated into a single structure with common walls and floors and a functional primary street entrance, or a building of up to three stories containing up to six dwelling units consolidated into a single structure.

NEW SECTION. **Sec. 2.** A new section is added to chapter 19.27 RCW to read as follows:

(1) The state building code council shall convene a technical advisory group for the purpose of recommending amendments to the international building code that would allow for a minimum dwelling unit size that is less than the requirements for an efficiency dwelling unit in the international building code. The technical advisory group shall consider aligning the state building code sections related to interior environment with the relevant sections of the national healthy housing standard published by the national center for healthy housing. When developing the recommendations, the technical advisory group must review the differences between the state building code and the national healthy housing standard and allow experts in public health and fire safety to comment during the process.

(2) The technical advisory group shall provide its recommendations to the council in time for the council to adopt or amend rules or codes as necessary for implementation in the 2024 international building code. The council shall take action to adopt additions and amendments to rules or codes as necessary by November 1, 2026.

NEW SECTION. **Sec. 3.** The office of regulatory innovation and assistance shall contract with a qualified external consultant or entity to develop a standard energy code plan set demonstrating a prescriptive compliance pathway that will meet or exceed all energy code regulations for residential housing in the state subject to the international residential code. The standard energy code plan set may be used, but is not required, by local governments and building industries. In developing the standard energy code plan set, the consultant shall, at a minimum, seek feedback from cities, counties, building

industries, and building officials. The standard energy code plan set must be completed by June 30, 2025."

On page 1, line 1 of the title, after "regulations;" strike the remainder of the title and insert "adding new sections to chapter 19.27 RCW; and creating a new section."

### MESSAGE FROM THE SENATE

Friday, March 1, 2024

Mme. Speaker:

The Senate has passed ENGROSSED SUBSTITUTE HOUSE BILL NO. 2153, with the following amendment(s): 2153-S.E AMS TRAN S5484.1

Strike everything after the enacting clause and insert the following:

**"NEW SECTION. Sec. 1.** The legislature finds that rates of catalytic converter theft have rapidly increased statewide and nationwide, due in part to existing challenges with accurately identifying stolen catalytic converters and tracking them through the stream of commerce after they have been removed from their originating vehicles. The legislature also finds that recent evidence suggests most purchases of stolen catalytic converters are conducted by unlicensed, unregulated purchasers.

Therefore, the legislature intends to require all purchasers to be licensed and subject to regulation and inspection. To facilitate the ability to track catalytic converters, the legislature further intends to require permanent marking of catalytic converters for the purpose of identifying the originating vehicle. The legislature also intends to create a related structure for enforcing these provisions and imposing penalties commensurate with the enforcement and penalty structures found in comparable areas of law.

**NEW SECTION. Sec. 2.** A new section is added to chapter 19.290 RCW to read as follows:

**Sec. 28.** RCW 9.94A.533 and 2020 c 330 s 1 and 2020 c 141 s 1 are each reenacted and amended to read as follows:

(1) The provisions of this section apply to the standard sentence ranges determined by RCW 9.94A.510 or 9.94A.517.

(2) For persons convicted of the anticipatory offenses of criminal attempt, solicitation, or conspiracy under chapter 9A.28 RCW, the standard sentence range is determined by locating the sentencing grid sentence range defined by the appropriate offender score and the seriousness level of the completed crime, and multiplying the range by seventy-five percent.

(3) The following additional times shall be added to the standard sentence range for felony crimes committed after July 23, 1995, if the offender or an accomplice was armed with a firearm as defined in RCW 9.41.010 and the offender is being sentenced for one of the crimes listed in this subsection as eligible for any firearm enhancements based on the classification of the completed felony crime. If the offender is being sentenced for more than one offense, the firearm enhancement or enhancements must be added to the total period of confinement for all offenses, regardless of which underlying offense is subject to a firearm enhancement. If the offender or an accomplice was armed with a firearm as defined in RCW 9.41.010 and the offender is being sentenced for an

anticipatory offense under chapter 9A.28 RCW to commit one of the crimes listed in this subsection as eligible for any firearm enhancements, the following additional times shall be added to the standard sentence range determined under subsection (2) of this section based on the felony crime of conviction as classified under RCW 9A.28.020:

(a) Five years for any felony defined under any law as a class A felony or with a statutory maximum sentence of at least twenty years, or both, and not covered under (f) of this subsection;

(b) Three years for any felony defined under any law as a class B felony or with a statutory maximum sentence of ten years, or both, and not covered under (f) of this subsection;

(c) Eighteen months for any felony defined under any law as a class C felony or with a statutory maximum sentence of five years, or both, and not covered under (f) of this subsection;

(d) If the offender is being sentenced for any firearm enhancements under (a), (b), and/or (c) of this subsection and the offender has previously been sentenced for any deadly weapon enhancements after July 23, 1995, under (a), (b), and/or (c) of this subsection or subsection (4)(a), (b), and/or (c) of this section, or both, all firearm enhancements under this subsection shall be twice the amount of the enhancement listed;

(e) Notwithstanding any other provision of law, all firearm enhancements under this section are mandatory, shall be served in total confinement, and shall run consecutively to all other sentencing provisions, including other firearm or deadly weapon enhancements, for all offenses sentenced under this chapter. However, whether or not a mandatory minimum term has expired, an offender serving a sentence under this subsection may be:

(i) Granted an extraordinary medical placement when authorized under RCW 9.94A.728(1)(c); or

(ii) Released under the provisions of RCW 9.94A.730;

(f) The firearm enhancements in this section shall apply to all felony crimes except the following: Possession of a machine gun or bump-fire stock, possessing a stolen firearm, drive-by shooting, theft of a firearm, unlawful possession of a firearm in the first and second degree, and use of a machine gun or bump-fire stock in a felony;

(g) If the standard sentence range under this section exceeds the statutory maximum sentence for the offense, the statutory maximum sentence shall be the presumptive sentence unless the offender is a persistent offender. If the addition of a firearm enhancement increases the sentence so that it would exceed the statutory maximum for the offense, the portion of the sentence representing the enhancement may not be reduced.

(4) The following additional times shall be added to the standard sentence range for felony crimes committed after July 23, 1995, if the offender or an accomplice was armed with a deadly weapon other than a firearm as defined in RCW 9.41.010 and the offender is being sentenced for one of the crimes listed

in this subsection as eligible for any deadly weapon enhancements based on the classification of the completed felony crime. If the offender is being sentenced for more than one offense, the deadly weapon enhancement or enhancements must be added to the total period of confinement for all offenses, regardless of which underlying offense is subject to a deadly weapon enhancement. If the offender or an accomplice was armed with a deadly weapon other than a firearm as defined in RCW 9.41.010 and the offender is being sentenced for an anticipatory offense under chapter 9A.28 RCW to commit one of the crimes listed in this subsection as eligible for any deadly weapon enhancements, the following additional times shall be added to the standard sentence range determined under subsection (2) of this section based on the felony crime of conviction as classified under RCW 9A.28.020:

(a) Two years for any felony defined under any law as a class A felony or with a statutory maximum sentence of at least twenty years, or both, and not covered under (f) of this subsection;

(b) One year for any felony defined under any law as a class B felony or with a statutory maximum sentence of ten years, or both, and not covered under (f) of this subsection;

(c) Six months for any felony defined under any law as a class C felony or with a statutory maximum sentence of five years, or both, and not covered under (f) of this subsection;

(d) If the offender is being sentenced under (a), (b), and/or (c) of this subsection for any deadly weapon enhancements and the offender has previously been sentenced for any deadly weapon enhancements after July 23, 1995, under (a), (b), and/or (c) of this subsection or subsection (3)(a), (b), and/or (c) of this section, or both, all deadly weapon enhancements under this subsection shall be twice the amount of the enhancement listed;

(e) Notwithstanding any other provision of law, all deadly weapon enhancements under this section are mandatory, shall be served in total confinement, and shall run consecutively to all other sentencing provisions, including other firearm or deadly weapon enhancements, for all offenses sentenced under this chapter. However, whether or not a mandatory minimum term has expired, an offender serving a sentence under this subsection may be:

(i) Granted an extraordinary medical placement when authorized under RCW 9.94A.728(1)(c); or

(ii) Released under the provisions of RCW 9.94A.730;

(f) The deadly weapon enhancements in this section shall apply to all felony crimes except the following: Possession of a machine gun or bump-fire stock, possessing a stolen firearm, drive-by shooting, theft of a firearm, unlawful possession of a firearm in the first and second degree, and use of a machine gun or bump-fire stock in a felony;

(g) If the standard sentence range under this section exceeds the statutory maximum sentence for the offense, the statutory maximum sentence shall be the presumptive

sentence unless the offender is a persistent offender. If the addition of a deadly weapon enhancement increases the sentence so that it would exceed the statutory maximum for the offense, the portion of the sentence representing the enhancement may not be reduced.

(5) The following additional times shall be added to the standard sentence range if the offender or an accomplice committed the offense while in a county jail or state correctional facility and the offender is being sentenced for one of the crimes listed in this subsection. If the offender or an accomplice committed one of the crimes listed in this subsection while in a county jail or state correctional facility, and the offender is being sentenced for an anticipatory offense under chapter 9A.28 RCW to commit one of the crimes listed in this subsection, the following additional times shall be added to the standard sentence range determined under subsection (2) of this section:

(a) Eighteen months for offenses committed under RCW 69.50.401(2) (a) or (b) or 69.50.410;

(b) Fifteen months for offenses committed under RCW 69.50.401(2) (c), (d), or (e);

(c) Twelve months for offenses committed under RCW 69.50.4013.

For the purposes of this subsection, all of the real property of a state correctional facility or county jail shall be deemed to be part of that facility or county jail.

(6) An additional twenty-four months shall be added to the standard sentence range for any ranked offense involving a violation of chapter 69.50 RCW if the offense was also a violation of RCW 69.50.435 or 9.94A.827. All enhancements under this subsection shall run consecutively to all other sentencing provisions, for all offenses sentenced under this chapter.

(7) An additional two years shall be added to the standard sentence range for vehicular homicide committed while under the influence of intoxicating liquor or any drug as defined by RCW 46.61.502 for each prior offense as defined in RCW 46.61.5055.

Notwithstanding any other provision of law, all impaired driving enhancements under this subsection are mandatory, shall be served in total confinement, and shall run consecutively to all other sentencing provisions, including other impaired driving enhancements, for all offenses sentenced under this chapter.

An offender serving a sentence under this subsection may be granted an extraordinary medical placement when authorized under RCW 9.94A.728(1) (c).

(8) (a) The following additional times shall be added to the standard sentence range for felony crimes committed on or after July 1, 2006, if the offense was committed with sexual motivation, as that term is defined in RCW 9.94A.030. If the offender is being sentenced for more than one offense, the sexual motivation enhancement must be added to the total period of total confinement for all offenses, regardless of which underlying offense is subject to a sexual motivation enhancement. If the offender committed the

offense with sexual motivation and the offender is being sentenced for an anticipatory offense under chapter 9A.28 RCW, the following additional times shall be added to the standard sentence range determined under subsection (2) of this section based on the felony crime of conviction as classified under RCW 9A.28.020:

(i) Two years for any felony defined under the law as a class A felony or with a statutory maximum sentence of at least twenty years, or both;

(ii) Eighteen months for any felony defined under any law as a class B felony or with a statutory maximum sentence of ten years, or both;

(iii) One year for any felony defined under any law as a class C felony or with a statutory maximum sentence of five years, or both;

(iv) If the offender is being sentenced for any sexual motivation enhancements under (a) (i), (ii), and/or (iii) of this subsection and the offender has previously been sentenced for any sexual motivation enhancements on or after July 1, 2006, under (a) (i), (ii), and/or (iii) of this subsection, all sexual motivation enhancements under this subsection shall be twice the amount of the enhancement listed;

(b) Notwithstanding any other provision of law, all sexual motivation enhancements under this subsection are mandatory, shall be served in total confinement, and shall run consecutively to all other sentencing provisions, including other sexual motivation enhancements, for all offenses sentenced under this chapter. However, whether or not a mandatory minimum term has expired, an offender serving a sentence under this subsection may be:

(i) Granted an extraordinary medical placement when authorized under RCW 9.94A.728(1) (c); or

(ii) Released under the provisions of RCW 9.94A.730;

(c) The sexual motivation enhancements in this subsection apply to all felony crimes;

(d) If the standard sentence range under this subsection exceeds the statutory maximum sentence for the offense, the statutory maximum sentence shall be the presumptive sentence unless the offender is a persistent offender. If the addition of a sexual motivation enhancement increases the sentence so that it would exceed the statutory maximum for the offense, the portion of the sentence representing the enhancement may not be reduced;

(e) The portion of the total confinement sentence which the offender must serve under this subsection shall be calculated before any earned early release time is credited to the offender;

(f) Nothing in this subsection prevents a sentencing court from imposing a sentence outside the standard sentence range pursuant to RCW 9.94A.535.

(9) An additional one-year enhancement shall be added to the standard sentence range for the felony crimes of RCW 9A.44.073, 9A.44.076, 9A.44.079, 9A.44.083, 9A.44.086, or 9A.44.089 committed on or after July 22, 2007, if the offender engaged, agreed, or offered to engage the

victim in the sexual conduct in return for a fee. If the offender is being sentenced for more than one offense, the one-year enhancement must be added to the total period of total confinement for all offenses, regardless of which underlying offense is subject to the enhancement. If the offender is being sentenced for an anticipatory offense for the felony crimes of RCW 9A.44.073, 9A.44.076, 9A.44.079, 9A.44.083, 9A.44.086, or 9A.44.089, and the offender attempted, solicited another, or conspired to engage, agree, or offer to engage the victim in the sexual conduct in return for a fee, an additional one-year enhancement shall be added to the standard sentence range determined under subsection (2) of this section. For purposes of this subsection, "sexual conduct" means sexual intercourse or sexual contact, both as defined in chapter 9A.44 RCW.

(10)(a) For a person age eighteen or older convicted of any criminal street gang-related felony offense for which the person compensated, threatened, or solicited a minor in order to involve the minor in the commission of the felony offense, the standard sentence range is determined by locating the sentencing grid sentence range defined by the appropriate offender score and the seriousness level of the completed crime, and multiplying the range by one hundred twenty-five percent. If the standard sentence range under this subsection exceeds the statutory maximum sentence for the offense, the statutory maximum sentence is the presumptive sentence unless the offender is a persistent offender.

(b) This subsection does not apply to any criminal street gang-related felony offense for which involving a minor in the commission of the felony offense is an element of the offense.

(c) The increased penalty specified in (a) of this subsection is unavailable in the event that the prosecution gives notice that it will seek an exceptional sentence based on an aggravating factor under RCW 9.94A.535.

(11) An additional twelve months and one day shall be added to the standard sentence range for a conviction of attempting to elude a police vehicle as defined by RCW 46.61.024, if the conviction included a finding by special allegation of endangering one or more persons under RCW 9.94A.834.

(12) An additional twelve months shall be added to the standard sentence range for an offense that is also a violation of RCW 9.94A.831.

(13) An additional twelve months shall be added to the standard sentence range for vehicular homicide committed while under the influence of intoxicating liquor or any drug as defined by RCW 46.61.520 or for vehicular assault committed while under the influence of intoxicating liquor or any drug as defined by RCW 46.61.522, or for any felony driving under the influence (RCW 46.61.502(6)) or felony physical control under the influence (RCW 46.61.504(6)) for each child passenger under the age of sixteen who is an occupant in the defendant's vehicle. These enhancements shall be mandatory, shall be served in total confinement, and shall run consecutively to

all other sentencing provisions, including other minor child enhancements, for all offenses sentenced under this chapter. If the addition of a minor child enhancement increases the sentence so that it would exceed the statutory maximum for the offense, the portion of the sentence representing the enhancement shall be mandatory, shall be served in total confinement, and shall run consecutively to all other sentencing provisions.

(14) An additional twelve months shall be added to the standard sentence range for an offense that is also a violation of RCW 9.94A.832.

(15) An additional 12 months may, at the discretion of the court, be added to the standard sentence range for an offense that is also a violation of section 25 of this act.

(16) Regardless of any provisions in this section, if a person is being sentenced in adult court for a crime committed under age eighteen, the court has full discretion to depart from mandatory sentencing enhancements and to take the particular circumstances surrounding the defendant's youth into account.

### MESSAGE FROM THE SENATE

Friday, March 1, 2024

Mme. Speaker:

The Senate has passed SUBSTITUTE HOUSE BILL NO. 2347, with the following amendment(s): 2347-S AMS HLTC S5248.1

Strike everything after the enacting clause and insert the following:

"**Sec. 1.** RCW 70.128.280 and 2013 c 300 s 3 are each amended to read as follows:

(1) In order to enhance the selection of an appropriate adult family home, all adult family homes licensed under this chapter shall disclose the scope of, and charges for, the care, services, and activities provided by the home or customarily arranged for by the home. The disclosure must be provided to the home's residents and the residents' representatives, if any, prior to admission, and to interested prospective residents and their representatives upon request, using standardized disclosure forms developed by the department with

stakeholders' input. The home may also disclose supplemental information to prospective residents and other interested persons.

(2)(a) The disclosure forms that the department develops must be standardized, reasonable in length, and easy to read. The form setting forth the scope of an adult family home's care, services, and activities must be available from the adult family home through a link to the department's website developed pursuant to this section. This form must indicate, among other categories, the scope of personal care and medication service provided, the scope of skilled nursing services or nursing delegation provided or available, any specialty care designations held by the adult family home, the customary number of caregivers present during the day and whether the home has awake staff at night, any particular cultural or language access available, and clearly state whether the home admits medicaid clients or retains residents who later become eligible for medicaid. The adult family home shall provide or arrange for the care, services, and activities disclosed in its form.

(b) The department must also develop a second standardized disclosure form with stakeholders' input for use by adult family homes to set forth an adult family home's charges for its care, services, items, and activities, including the charges not covered by the home's daily or monthly rate, or by medicaid, medicare, or other programs. This form must be available from the home and disclosed to residents and their representatives, if any, prior to admission, and to interested prospective residents and their representatives upon request.

(3)(a) If the adult family home decreases the scope of care, services, or activities it provides, due to circumstances beyond the home's control, the home shall provide a minimum of thirty days' written notice to the residents, and the residents' representative if any, before the effective date of the decrease in the scope of care, services, or activities provided.

(b) If the adult family home voluntarily decreases the scope of care, services, or activities it provides, and any such decrease will result in the discharge of one or more residents, then ninety days' written notice must be provided prior to the effective date of the decrease. Notice must be given to the residents and the residents' representative, if any.

(c) If the adult family home increases the scope of care, services, or activities it provides, the home shall promptly provide written notice to the residents, and the residents' representative if any, and shall indicate the date on which the increase is effective.

(4) When the care needs of a resident exceed the disclosed scope of care or services that the adult family home provides, the home may exceed the care or services previously disclosed, provided that the additional care or services are permitted by the adult family home's license, and the home can safely and appropriately serve the resident with available staff or through the provision of

reasonable accommodations required by state or federal law. The provision of care or services to a resident that exceed those previously disclosed by the home does not mean that the home is capable of or required to provide the same care or services to other residents, unless required as a reasonable accommodation under state or federal law.

(5) An adult family home may deny admission to a prospective resident if the home determines that the needs of the prospective resident cannot be met, so long as the adult family home operates in compliance with state and federal law, including RCW 70.129.030(3) and the reasonable accommodation requirements of state and federal antidiscrimination laws.

(6) The department shall work with consumers, advocates, and other stakeholders to combine and improve existing web resources to create a more robust, comprehensive, and user-friendly website for family members, residents, and prospective residents of adult family homes in Washington. The department may contract with outside vendors and experts to assist in the development of the website. The website should be easy to navigate and have links to information important for residents, prospective residents, and their family members or representatives including, but not limited to: (a) Explanations of the types of licensed long-term care facilities, levels of care, and specialty designations; (b) lists of suggested questions when looking for a care facility; (c) warning signs of abuse, neglect, or financial exploitation; and (d) contact information for the department and the long-term care ((~~ombudsman~~ ~~[ombuds]~~) ombuds). In addition, the consumer oriented website should include a searchable list of all adult family homes in Washington, with links to (~~inspection and investigation reports and any enforcement actions by the department for the previous three years~~) the following documents and information for the previous three years: (i) Deficiency-free inspection letters; (ii) statements of deficiency related to inspection visits; (iii) statements of deficiency related to complaint investigations requiring an attestation of correction; (iv) notices of return to compliance related to (ii) and (iii) of this subsection; and (v) enforcement action notices issued by the department. If a violation or enforcement remedy is deleted, rescinded, or modified under RCW 70.128.167 or chapter 34.05 RCW, the department shall make the appropriate changes to the information on the website as soon as reasonably feasible, but no later than thirty days after the violation or enforcement remedy has been deleted, rescinded, or modified. To facilitate the comparison of adult family homes, the website should also include a link to each licensed adult family home's disclosure form required by subsection (2)(a) of this section. The department's website should also include periodically updated information about whether an adult family home has a current vacancy, if the home provides such information to the department, or may include links to other consumer-

oriented websites with the vacancy information."

On page 1, line 3 of the title, after "homes;" strike the remainder of the title and insert "and amending RCW 70.128.280."

and the same is herewith transmitted.

**Sec. 3.** RCW 84.52.043 and 2023 c 28 s 5 are each amended to read as follows:

Within and subject to the limitations imposed by RCW 84.52.050 as amended, the regular ad valorem tax levies upon real and personal property by the taxing districts hereafter named are as follows:

\$1,000 of assessed valuation. The term "junior taxing districts" includes all taxing districts other than the state, counties, road districts, cities, towns, port districts, and public utility districts. The limitations provided in this subsection do not apply to: (a) Levies at the rates provided by existing law by or for any port or public utility district; (b) excess property tax levies authorized in Article VII, section 2 of the state Constitution; (c) levies for acquiring conservation futures as authorized under RCW 84.34.230; (d) levies for emergency medical care or emergency medical services imposed under RCW 84.52.069; (e) levies to finance affordable housing imposed under RCW 84.52.105; (f) the portions of levies by metropolitan park districts that are protected under RCW 84.52.120; (g) levies imposed by ferry districts under RCW 36.54.130; (h) levies for criminal justice purposes under RCW 84.52.135; (i) the portions of levies by fire protection districts and regional fire protection service authorities that are protected under RCW 84.52.125; (j) levies by counties for transit-related purposes under RCW 84.52.140; (k) the portion of the levy by flood control zone districts that are protected under RCW 84.52.816; (l) levies imposed by a regional transit authority under RCW 81.104.175; ~~((and))~~ (m) the portion of any levy resulting from the correction of a levy error under RCW 84.52.085(3); and (n) levies for county hospital purposes under RCW 36.62.090.

**Sec. 5.** RCW 84.52.010 and 2023 c 28 s 3 are each amended to read as follows:

(1) Except as is permitted under RCW 84.55.050, all taxes must be levied or voted in specific amounts.

(2) The rate percent of all taxes for state and county purposes, and purposes of taxing districts coextensive with the county, must be determined, calculated and fixed by the county assessors of the respective counties, within the limitations provided by law, upon the assessed valuation of the property of the county, as shown by the completed tax rolls of the county, and the rate percent of all taxes levied for purposes of taxing districts within any county must be determined, calculated, and fixed by the county assessors of the respective counties, within the limitations provided by law, upon the assessed valuation of the property of the taxing districts respectively.

(3) When a county assessor finds that the aggregate rate of tax levy on any property, that is subject to the limitations set forth in RCW 84.52.043 or 84.52.050, exceeds the limitations provided in either of these sections, the assessor must recompute and establish a consolidated levy in the following manner:

(a) The full certified rates of tax levy for state, county, county road district, regional transit authority, and city or town purposes must be extended on the tax rolls in amounts not exceeding the limitations established by law; however, any state levy takes precedence over all other levies and

may not be reduced for any purpose other than that required by RCW 84.55.010. If, as a result of the levies imposed under RCW 36.54.130, 36.69.145 by a park and recreation district described under (a) (viii) of this subsection (3), 84.34.230, 84.52.069, 84.52.105, 36.62.090, the portion of the levy by a metropolitan park district that was protected under RCW 84.52.120, 84.52.125, 84.52.135, and 84.52.140, the portion of the levy by a flood control zone district that was protected under RCW 84.52.816, and any portion of a levy resulting from the correction of a levy error under RCW 84.52.085(3), the combined rate of regular property tax levies that are subject to the one percent limitation exceeds one percent of the true and fair value of any property, then these levies must be reduced as follows:

(i) The portion of any levy resulting from the correction of a levy error under RCW 84.52.085(3) must be reduced until the combined rate no longer exceeds one percent of the true and fair value of any property or must be eliminated;

(ii) If the combined rate of regular property tax levies that are subject to the one percent limitation still exceeds one percent of the true and fair value of any property, the portion of the levy by a flood control zone district that was protected under RCW 84.52.816 must be reduced until the combined rate no longer exceeds one percent of the true and fair value of any property or must be eliminated;

(iii) If the combined rate of regular property tax levies that are subject to the one percent limitation still exceeds one percent of the true and fair value of any property, the levy imposed by a county under RCW 84.52.140 must be reduced until the combined rate no longer exceeds one percent of the true and fair value of any property or must be eliminated;

(iv) If the combined rate of regular property tax levies that are subject to the one percent limitation still exceeds one percent of the true and fair value of any property, the portion of the levy by a fire protection district or regional fire protection service authority that is protected under RCW 84.52.125 must be reduced until the combined rate no longer exceeds one percent of the true and fair value of any property or must be eliminated;

(v) If the combined rate of regular property tax levies that are subject to the one percent limitation still exceeds one percent of the true and fair value of any property, the levy imposed by a county under RCW 84.52.135 must be reduced until the combined rate no longer exceeds one percent of the true and fair value of any property or must be eliminated;

(vi) If the combined rate of regular property tax levies that are subject to the one percent limitation still exceeds one percent of the true and fair value of any property, the levy imposed by a ferry district under RCW 36.54.130 must be reduced until the combined rate no longer exceeds one percent of the true and fair value of any property or must be eliminated;

(vii) If the combined rate of regular property tax levies that are subject to the

one percent limitation still exceeds one percent of the true and fair value of any property, the portion of the levy by a metropolitan park district that is protected under RCW 84.52.120 must be reduced until the combined rate no longer exceeds one percent of the true and fair value of any property or must be eliminated;

(viii) If the combined rate of regular property tax levies that are subject to the one percent limitation still exceeds one percent of the true and fair value of any property, then the levies imposed under RCW 36.69.145 must be reduced until the combined rate no longer exceeds one percent of the true and fair value of any property or must be eliminated. This subsection (3)(a)(viii) only applies to a park and recreation district located on an island and within a county with a population exceeding 2,000,000;

(ix) If the combined rate of regular property tax levies that are subject to the one percent limitation still exceeds one percent of the true and fair value of any property, then the levies imposed under RCW 84.34.230, 84.52.105, 36.62.090, and any portion of the levy imposed under RCW 84.52.069 that is in excess of 30 cents per \$1,000 of assessed value, must be reduced on a pro rata basis until the combined rate no longer exceeds one percent of the true and fair value of any property or must be eliminated; and

(x) If the combined rate of regular property tax levies that are subject to the one percent limitation still exceeds one percent of the true and fair value of any property, then the 30 cents per \$1,000 of assessed value of tax levy imposed under RCW 84.52.069 must be reduced until the combined rate no longer exceeds one percent of the true and fair value of any property or eliminated.

(b) The certified rates of tax levy subject to these limitations by all junior taxing districts imposing taxes on such property must be reduced or eliminated as follows to bring the consolidated levy of taxes on such property within the provisions of these limitations:

(i) First, the certified property tax levy authorized under RCW 84.52.821 must be reduced on a pro rata basis or eliminated;

(ii) Second, if the consolidated tax levy rate still exceeds these limitations, the certified property tax levy rates of those junior taxing districts authorized under RCW 36.68.525, 36.69.145 except a park and recreation district described under (a) (viii) of this subsection, 35.95A.100, and 67.38.130 must be reduced on a pro rata basis or eliminated;

(iii) Third, if the consolidated tax levy rate still exceeds these limitations, the certified property tax levy rates of flood control zone districts other than the portion of a levy protected under RCW 84.52.816 must be reduced on a pro rata basis or eliminated;

(iv) Fourth, if the consolidated tax levy rate still exceeds these limitations, the certified property tax levy rates of all other junior taxing districts, other than fire protection districts, regional fire protection service authorities, library

districts, the first 50 cents per \$1,000 of assessed valuation levies for metropolitan park districts, and the first 50 cents per \$1,000 of assessed valuation levies for public hospital districts, must be reduced on a pro rata basis or eliminated;

(v) Fifth, if the consolidated tax levy rate still exceeds these limitations, the first 50 cents per \$1,000 of assessed valuation levies for metropolitan park districts created on or after January 1, 2002, must be reduced on a pro rata basis or eliminated;

(vi) Sixth, if the consolidated tax levy rate still exceeds these limitations, the certified property tax levy rates authorized to fire protection districts under RCW 52.16.140 and 52.16.160 and regional fire protection service authorities under RCW 52.26.140(1) (b) and (c) must be reduced on a pro rata basis or eliminated; and

(vii) Seventh, if the consolidated tax levy rate still exceeds these limitations, the certified property tax levy rates authorized for fire protection districts under RCW 52.16.130, regional fire protection service authorities under RCW 52.26.140(1) (a), library districts, metropolitan park districts created before January 1, 2002, under their first 50 cents per \$1,000 of assessed valuation levy, and public hospital districts under their first 50 cents per \$1,000 of assessed valuation levy, must be reduced on a pro rata basis or eliminated.

**Sec. 6.** RCW 84.52.010 and 2023 c 28 s 4 are each amended to read as follows:

(1) Except as is permitted under RCW 84.55.050, all taxes must be levied or voted in specific amounts.

(2) The rate percent of all taxes for state and county purposes, and purposes of taxing districts coextensive with the county, must be determined, calculated and fixed by the county assessors of the respective counties, within the limitations provided by law, upon the assessed valuation of the property of the county, as shown by the completed tax rolls of the county, and the rate percent of all taxes levied for purposes of taxing districts within any county must be determined, calculated and fixed by the county assessors of the respective counties, within the limitations provided by law, upon the assessed valuation of the property of the taxing districts respectively.

(3) When a county assessor finds that the aggregate rate of tax levy on any property, that is subject to the limitations set forth in RCW 84.52.043 or 84.52.050, exceeds the limitations provided in either of these sections, the assessor must recompute and establish a consolidated levy in the following manner:

(a) The full certified rates of tax levy for state, county, county road district, regional transit authority, and city or town purposes must be extended on the tax rolls in amounts not exceeding the limitations established by law; however any state levy takes precedence over all other levies and may not be reduced for any purpose other than that required by RCW 84.55.010. If, as

a result of the levies imposed under RCW 36.54.130, 84.34.230, 84.52.069, 84.52.105, 36.62.090, the portion of the levy by a metropolitan park district that was protected under RCW 84.52.120, 84.52.125, 84.52.135, and 84.52.140, the portion of the levy by a flood control zone district that was protected under RCW 84.52.816, and the portion of any levy resulting from the correction of a levy error under RCW 84.52.085(3), the combined rate of regular property tax levies that are subject to the one percent limitation exceeds one percent of the true and fair value of any property, then these levies must be reduced as follows:

(i) The portion of any levy resulting from the correction of a levy error under RCW 84.52.085(3) must be reduced until the combined rate no longer exceeds one percent of the true and fair value of any property or must be eliminated;

(ii) If the combined rate of regular property tax levies that are subject to the one percent limitation still exceeds one percent of the true and fair value of any property, the portion of the levy by a flood control zone district that was protected under RCW 84.52.816 must be reduced until the combined rate no longer exceeds one percent of the true and fair value of any property or must be eliminated;

(iii) If the combined rate of regular property tax levies that are subject to the one percent limitation still exceeds one percent of the true and fair value of any property, the levy imposed by a county under RCW 84.52.140 must be reduced until the combined rate no longer exceeds one percent of the true and fair value of any property or must be eliminated;

(iv) If the combined rate of regular property tax levies that are subject to the one percent limitation still exceeds one percent of the true and fair value of any property, the portion of the levy by a fire protection district or regional fire protection service authority that is protected under RCW 84.52.125 must be reduced until the combined rate no longer exceeds one percent of the true and fair value of any property or must be eliminated;

(v) If the combined rate of regular property tax levies that are subject to the one percent limitation still exceeds one percent of the true and fair value of any property, the levy imposed by a county under RCW 84.52.135 must be reduced until the combined rate no longer exceeds one percent of the true and fair value of any property or must be eliminated;

(vi) If the combined rate of regular property tax levies that are subject to the one percent limitation still exceeds one percent of the true and fair value of any property, the levy imposed by a ferry district under RCW 36.54.130 must be reduced until the combined rate no longer exceeds one percent of the true and fair value of any property or must be eliminated;

(vii) If the combined rate of regular property tax levies that are subject to the one percent limitation still exceeds one percent of the true and fair value of any property, the portion of the levy by a metropolitan park district that is protected

#### MESSAGE FROM THE SENATE

Friday, March 1, 2024

Mme. Speaker:

The Senate has passed ENGROSSED SECOND SUBSTITUTE HOUSE BILL NO. 1185, with the following amendment(s): 1185-S2.E AMS HUNT S5658.2

Strike everything after the enacting clause and insert the following:

**"NEW SECTION. Sec. 1.** (1) The legislature finds that in 2025 the state's stewardship program for the end-of-life management of mercury-containing lights is statutorily scheduled to undergo review and termination or possible extension under chapter 43.131 RCW, the sunset act. If the mercury-containing lights product stewardship program were allowed to sunset as scheduled, Washington residents would lose a consistent, convenient, and safe way to return unwanted mercury-containing lights, which will remain in use for years as existing inventory winds down, even as the lighting industry has moved away from most mercury-containing lights. Mercury-containing lights present such a significant health risk that other states have recently restricted their sale, which represents a solution to reduce the public health impacts of new lighting products, but does not address the end-of-life management issues associated with the existing light bulbs currently in use.

(2) The state's existing mercury-containing lights program, which was first enacted over a decade ago, contains policy provisions, including the establishment of a per-bulb fee attached to the sale of mercury-containing lights, that are now recognized as not representing the best

practices for the design of stewardship programs.

(3) Therefore, it is the intent of the legislature to:

(a) Restrict the sale of most mercury-containing lights;

(b) Extend the implementation of the stewardship program for mercury-containing lights; and

(c) Modernize key elements of the state's mercury-containing lights stewardship program.

**Sec. 2.** RCW 70A.230.020 and 2003 c 260 s 3 are each amended to read as follows:

(1) Effective January 1, 2004, a manufacturer, wholesaler, or retailer may not knowingly sell at retail a fluorescent lamp if the fluorescent lamp contains mercury and was manufactured after November 30, 2003, unless the fluorescent lamp is labeled in accordance with the guidelines listed under subsection (2) of this section. Primary responsibility for affixing labels required under this section is on the manufacturer, and not on the wholesaler or retailer.

(2) Except as provided in subsection (3) of this section, a lamp is considered labeled pursuant to subsection (1) of this section if the lamp has all of the following:

(a) A label affixed to the lamp that displays the internationally recognized symbol for the element mercury; and

(b) A label on the lamp's packaging that:

(i) Clearly informs the purchaser that mercury is present in the item; (ii) explains that the fluorescent lamp should be disposed of according to applicable federal, state, and local laws; and (iii) provides a toll-free telephone number, and a uniform resource locator internet address to a website, that contains information on applicable disposal laws.

(3) The manufacturer of a mercury-added lamp is in compliance with the requirements of this section if the manufacturer is in compliance with the labeling requirements of another state.

(4) The provisions of this section do not apply to products containing mercury-added lamps.

(5) (a) Except as provided in (b) of this subsection, beginning January 1, 2029, a manufacturer, wholesaler, or retailer may not knowingly sell a compact fluorescent lamp or linear fluorescent lamp.

(b) In-state distributors, wholesalers, and retailers in possession of compact fluorescent lamps or linear fluorescent lamps on January 1, 2029, may exhaust their existing stock through sales to the public until July 1, 2029.

(6) The provisions of subsection (5) of this section do not apply to:

(a) A special purpose mercury-containing light;

(b) The products specified in RCW 70A.230.110; or

(c) The sale or purchase of compact fluorescent lamps or linear fluorescent lamps as a casual or isolated sale as defined in RCW 82.04.040.

(7) A violation of this section is punishable by a civil penalty not to exceed \$1,000 for each violation in the case of a first violation. Repeat violators are liable for a civil penalty not to exceed \$5,000 for each repeat violation. Penalties collected under this section must be deposited in the model toxics control operating account created in RCW 70A.305.180. Penalties imposed under this section are appealable to the pollution control hearings board established in chapter 43.21B RCW.

(8) The department may adopt rules to implement, administer, and enforce the requirements of this section.

(9) The definitions in this subsection apply throughout this section unless the context clearly requires otherwise.

(a) "Compact fluorescent lamp" means a compact low-pressure, mercury-containing, electric-discharge light source in which a fluorescent coating transforms some of the ultraviolet energy generated by the mercury discharge into visible light, and includes all of the following characteristics:

(i) One base (end cap) of any type including, but not limited to, screw, bayonet, two pins, and four pins;

(ii) Integrally ballasted or nonintegrally ballasted;

(i) Two bases (end caps) of any type including, but not limited to, single-pin, two-pin, and recessed double contact;

(ii) Light emission between a correlated color temperature of 1700K and 24000K and a Duv of +0.024 and -0.024 in the CIE CAM02-UCS;

(D) A lamp designed and marketed exclusively for the generation of ozone where the primary purpose is to emit radiation at approximately 185.1 nanometers;

(E) A lamp designed and marketed exclusively for coral zooxanthellae symbiosis from which the radiation power emitted between 400 and 480 nanometers represents at least 40 percent of the total radiation power emitted between 250 and 800 nanometers;

(F) Any lamp designed and marketed exclusively in a sunlamp product, defined as any electronic product designed to incorporate one or more ultraviolet lamps and intended for irradiation of any part of the living human body, by ultraviolet radiation;

(G) Any lamp designed and marketed exclusively for use in a sunlamp product, as defined in 21 C.F.R. Sec. 1040.20(b)(9), January 1, 2023;

(K) A lamp used by academic and research institutions for conducting research projects and experiments; or

(L) A compact fluorescent lamp used to replace a lamp in a motor vehicle manufactured on or before January 1, 2020.

**Sec. 3.** RCW 70A.505.010 and 2010 c 130 s 1 are each amended to read as follows:

The legislature finds that:

(1) Mercury is an essential component of many energy efficient lights. Improper disposal methods will lead to mercury releases that threaten the environment and harm human health. Spent mercury lighting is a hard to collect waste product that is appropriate for product stewardship;

(2) Convenient and environmentally sound product stewardship programs for mercury-containing lights that include collecting, transporting, and recycling mercury-containing lights will help protect

Washington's environment and the health of state residents;

(3) (a) The purpose of this chapter ((130, Laws of 2010)) is to achieve a statewide goal of recycling all end-of-life mercury-containing lights ((by 2020)) through expanded public education, a uniform statewide requirement to recycle all mercury-containing lights, and the development of a comprehensive, safe, and convenient collection system that includes use of residential curbside collection programs, mail-back containers, increased support for household hazardous waste facilities, and a network of additional collection locations;

(b) The purpose of this act is to reduce exposure to mercury by prohibiting the sale of most mercury-containing lights beginning in 2029 and to provide continuing collection of mercury-containing lights that have already entered the marketplace;

(4) Product producers must play a significant role in financing no-cost collection and processing programs for mercury-containing lights; and

(5) Providers of premium collection services such as residential curbside and mail-back programs may charge a fee to cover the collection costs for these more convenient forms of collection.

**Sec. 5.** RCW 70A.505.030 and 2020 c 20 s 1415 are each amended to read as follows:

(1)(a) Every producer of mercury-containing lights sold, made available for sale, or distributed in or into Washington state for retail sale in Washington state, including legacy producers, must participate in a product stewardship program for those products, operated by a stewardship organization and financed in the manner provided by RCW 70A.505.050. Every such producer must inform the department of the producer's participation in a product stewardship program by including the producer's name in a plan submitted to the department by a stewardship organization as required by RCW 70A.505.040. Producers, including legacy producers, must satisfy these participation obligations individually or may do so jointly with other producers.

Changes to the limits of mercury-containing lights accepted at collection sites must take effect January 1, 2025.

(c) A stewardship organization may only increase the amount of the environmental handling charge established under this

chapter from the amount that was approved by the department as of January 1, 2024, in a manner consistent with RCW 70A.505.050. The stewardship organization's administrative and operational costs are not required to include a collection location's cost of receiving, accumulating and storing, and packaging mercury-containing lights. However, a)) imposed under the plan approved by the department prior to the effective date of this section. For program administrative and operational costs related to the implementation of program requirements in calendar year 2029, a stewardship organization may plan to use reserve funds in the possession of the stewardship organization from the environmental handling charges assessed until December 31, 2028. For program administrative and operational costs related to the planning and implementation of the program requirements that must be implemented beginning in calendar year 2030, a stewardship organization operating a product stewardship program must pay all administrative and operational costs associated with its program with revenues received from participating legacy producers. For collection locations, including household hazardous waste facilities, charities, retailers, government recycling sites, or other suitable private locations, a stewardship organization must pay the costs of packaging and shipping materials as required under RCW 70A.505.070 or must compensate collectors for the costs of those materials, and must pay the costs of transportation and processing of mercury-containing lights collected from the collection locations.

(3) Product stewardship programs shall collect unwanted mercury-containing lights

delivered from covered entities for recycling, processing, or final disposition, and ~~((not charge))~~ are prohibited from charging a fee when lights are sold, dropped off, or delivered into the program.

(4) (a) Product stewardship programs shall provide, at a minimum, no cost services in all cities in the state with populations greater than ~~((ten thousand))~~ 10,000 and all counties of the state on an ongoing, year-round basis.

(b) (i) The department may amend the convenience standards established in this section to relieve a stewardship organization of its obligation to operate a collection site or to provide a collection opportunity when it is demonstrated by the stewardship organization to:

(A) Result in the annual collection of fewer than 500 mercury-containing lights; and

(B) Not remove collection opportunities for people living in a rural county or an overburdened community.

(ii) For the purposes of this subsection (4) (b), "rural county" has the same meaning provided in RCW 82.14.370 and "overburdened community" has the same meaning provided in RCW 70A.02.010.

(5) Product stewardship programs shall promote the safe handling and recycling of mercury-containing lights to the public, including producing and offering point-of-sale educational materials to retailers of mercury-containing lights and point-of-return educational materials to collection locations.

(6) All product stewardship programs operated under approved plans must recover their fair share of unwanted ~~((covered products))~~ mercury-containing lights as determined by the department.

(7) The department or its designee may inspect, audit, or review audits of processing and disposal facilities used to fulfill the requirements of a product stewardship program.

(8) No product stewardship program required under this chapter may use federal or state prison labor for processing unwanted products.

(9) Product stewardship programs for mercury-containing lights must be fully implemented by January 1, 2015. Product stewardship programs for mercury-containing lights meeting the new requirements of this act must be fully implemented by January 1, 2029.

**Sec. 6.** RCW 70A.505.040 and 2020 c 20 s 1416 are each amended to read as follows:

The environmental handling charge may not be described as a department recycling fee or charge at the point of retail sale. Beginning January 1, 2029, these efforts must include the development:

(i) And maintenance of a website;

(ii) And distribution of periodic press releases and articles;

(iii) And placement of public service announcements and graphic advertisements for use on social media or other relevant media platforms;

(vi) And implementation of outreach and educational resources targeted to overburdened communities and vulnerable populations identified by the department under chapter 70A.02 RCW that are conceptually, linguistically, and culturally accurate for the communities served and

reach the state's diverse ethnic populations, including through meaningful consultation with communities that bear disproportionately higher levels of adverse environmental and social justice impacts;

(vii) And distribution of consumer-focused educational promotional materials to each collection location used by the program and accessible by customers of retailers that sell mercury-containing lights;

(viii) And distribution of safety information related to light collection activities to the operator of each collection site; and

(h) A public review and comment process; and

(i) Any other information deemed necessary by the department to ensure an effective mercury light product stewardship program that is in compliance with all applicable laws and rules.

(3) All plans submitted to the department must be made available for public review on the department's website ~~((and at the department's headquarters)).~~

(4) ~~((At least two years from the start of the product stewardship program and once every four))~~ No less often than three years from the dates specified in subsection (1) of this section and once every five years thereafter, each stewardship organization operating a product stewardship program must update its product stewardship plan and submit the updated plan to the department for review and approval according to rules adopted by the department.

(5) By June 1, 2016, and each June 1st thereafter, each stewardship organization must submit an annual report to the department describing the results of implementing the stewardship organization's plan for the prior calendar year, including an independent financial audit once every two years. The department may adopt rules for reporting requirements. Financial information included in the annual report must include but is not limited to:

(a) ~~((The))~~ For programs operating until December 31, 2028, the amount of the environmental handling charge assessed on mercury-containing lights and the revenue generated;

(b) Identification of confidential information pursuant to RCW 43.21A.160 submitted in the annual report; and

(c) The cost and revenue of the mercury-containing lights product stewardship program, including line item costs for:

(i) Program operations, including collection, transportation, and processing;

(ii) Communications, including media, printing and fulfillment, public relations, and other education and outreach projects;

(iii) Administration, including administrative personnel costs, travel, compliance and auditing, legal services, banking services, insurance, and other administrative services and supplies, and stewardship organization corporate expenses; and

(iv) Amount of unallocated reserve funds.

(6) Beginning in 2023 every stewardship organization must include in its annual report ~~((an analysis of the percent of total sales of lights sold at retail to covered entities in Washington that mercury-containing lights constitute, the estimated number of mercury-containing lights in use by covered entities in the state, and the projected number of unwanted mercury-containing lights to be recycled in future years))~~ a list of all collection sites, including address and latitude and longitude, anticipated to be used by the program in the upcoming year.

(7) As a component of all new or updated plans under this chapter submitted by a stewardship organization after January 1, 2025, the stewardship organization must submit:

(a) A contingency plan demonstrating how the activities in the plan will continue to be carried out by some other entity, such as an escrow company:

(i) Until such time as a new plan is submitted and approved by the department;

(ii) In the event that the stewardship organization has been notified by the department that they must transfer implementation responsibility for the program to a different stewardship organization;

(ii) The level of convenience and access for all residents; and

(iii) Public awareness of the program.

(8) All plans and reports submitted to the department must be made available for public review, excluding sections determined to be confidential pursuant to RCW 43.21A.160, on the department's website ~~((and at the department's headquarters)).~~

**Sec. 7.** RCW 70A.505.050 and 2020 c 20 s 1417 are each amended to read as follows:

(1) Each stewardship organization must recommend to the department an environmental handling charge to be added to the price of each mercury-containing light sold in or into the state of Washington for sale at retail until December 31, 2028. The environmental handling charge must be designed to provide revenue necessary and sufficient to cover all administrative and operational costs associated with the stewardship program described in the department-approved product stewardship plan for that organization(~~(, including the department's annual fee required by subsection (5) of this section, and a prudent reserve))~~through calendar year 2029 of program expenses. The stewardship organization must consult with collectors, retailers, recyclers, and each of its participating producers in developing its recommended environmental handling charge. The environmental handling charge may, but is not required to, vary by the type of mercury-containing light. In developing its recommended environmental handling charge, the stewardship organization must take into consideration and report to the department:

(a) The anticipated number of mercury-containing lights that will be sold to covered entities in the state at retail during the relevant period;

(b) The number of unwanted mercury-containing lights delivered from covered entities expected to be recycled during the relevant period;

(c) The operational costs of the stewardship organization as described in RCW 70A.505.030(2);

(d) The administrative costs of the stewardship organization including the department's annual fee, described in subsection (5) of this section; and

(e) The cost of other stewardship program elements including public outreach.

(2) The department must review, adjust if necessary, and approve the stewardship organization's recommended environmental handling charge within ~~((sixty))~~ 60 days of submittal. In making its determination, the department shall review the product stewardship plan and may consult with the producers, the stewardship organization, retailers, collectors, recyclers, and other entities.

(3) No sooner than January 1, 2015, and through calendar year 2028 of program implementation:

(a) The mercury-containing light environmental handling charge must be added to the purchase price of all mercury-containing lights sold to Washington retailers for sale at retail, and each Washington retailer shall add the charge to the purchase price of all mercury-containing lights sold at retail in this state, and the producer shall remit the environmental handling charge to the stewardship organization in the manner provided for in the stewardship plan; or

(b) Each Washington retailer must add the mercury-containing light environmental handling charge to the purchase price of all mercury-containing lights sold at retail in this state, where the retailer, by voluntary

binding agreement with the producer, arranges to remit the environmental handling charge to the stewardship organization on behalf of the producer in the manner provided for in the stewardship plan. Producers may not require retailers to opt for this provision via contract, marketing practice, or any other means. The stewardship organization must allow retailers to retain a portion of the environmental handling charge as reimbursement for any costs associated with the collection and remittance of the charge.

(4) At any time, a stewardship organization may submit to the department a recommendation for an adjusted environmental handling charge for the department's review, adjustment, if necessary, and approval under subsection (2) of this section to ensure that there is sufficient revenue to fund the cost of the program, current deficits, or projected needed reserves for the next year. Until December 31, 2028, a stewardship organization may submit to the department a recommended adjustment to the environmental handling charge that is designed to provide revenue necessary and sufficient to cover all administrative and operational costs associated with the stewardship program described in the department-approved product stewardship plan for that organization. The stewardship organization may propose to use revenues from environmental handling charges to cover program expenses through calendar year 2029. The department must review the stewardship organization's recommended environmental handling charge and must adjust or approve the recommended charge within thirty days of submittal if the department determines that the charge is reasonably designed to meet the criteria described in subsection (1) of this section.

(5)(a) Beginning with calendar year 2029 of program implementation, each stewardship organization must develop and implement a system to collect charges from participating legacy producers to cover the costs of plan implementation based on the market share of participating producers using all reasonable means and based on the best available information. A stewardship organization must determine each producer's percentage of market share by:

(i) To the extent data necessary to make such a calculation are available, dividing each legacy producer's total units of mercury-containing lights for which the producer had an obligation under this chapter sold in Washington at any point in time between January 1, 2015, and December 31, 2028, by the sum total of all units of mercury-containing lights sold in or into Washington by all participating legacy producers at any point in time between January 1, 2015, and December 31, 2028; and

(ii) To the extent that data specified in (a)(i) of this subsection are not fully available, extrapolating a reasonable approximation of a manufacturer's market share similar to the calculation specified in (a)(i) of this section based on the data available to the stewardship organization.

(b) To determine the market share of legacy producers, a stewardship organization may:

(i) Require data from legacy producers. A stewardship organization may notify the department if a legacy producer has declined to respond within 90 days to a demand for data by a stewardship organization and the department may demand the information if it is determined to be necessary to calculate the market share of the legacy producer; and

(ii) Use any combination of the following types of data:

(A) Generally available market research data;

(B) Data historically provided by producers or retailers to a stewardship organization or the department under this chapter;

(C) Sales data supplied by producers; and

(D) Sales data provided by retailers.

(c) The amendments to the method of financing the program described in this act must be implemented by a stewardship organization by January 1, 2029.

(6) Beginning with calendar year 2029 of program implementation, each stewardship organization is responsible for all costs of participating mercury-containing light collection, transportation, processing, education, administration, agency reimbursement, recycling, and end-of-life management in accordance with environmentally sound management practices.

(7) Beginning March 1, 2015, ((and each year thereafter,)) until March 1, 2024, each stewardship organization shall pay to the department an annual fee equivalent to ((three thousand dollars)) \$3,000 for each participating producer to cover the department's administrative and enforcement costs. Beginning March 1, 2025, each stewardship organization shall pay to the department the annual fee to cover the department's administrative and enforcement costs. The department must apply any remaining annual payment funds from the current year to the annual payment for the coming fiscal year if the collected annual payment exceeds the department's costs for a given year and increase annual payments for the coming fiscal year to cover the department's fees if the collected annual payment was less than the department's costs for a given year. The amount paid under this section must be deposited into the mercury-containing light product stewardship programs account created in RCW 70A.505.120.

**Sec. 8.** RCW 70A.505.060 and 2010 c 130 s 6 are each amended to read as follows:

(1) All mercury-containing lights and materials recovered from mercury-containing lights collected in the state by product stewardship programs or other collection programs must be recycled and any process residuals must be managed in compliance with applicable laws.

(2) Mercury recovered from retorting and other hazardous materials must be recycled or placed in a properly permitted hazardous waste landfill, or placed in a properly permitted mercury repository.

**Sec. 9.** RCW 70A.505.070 and 2010 c 130 s 7 are each amended to read as follows:

(1) Except for persons involved in registered mail-back programs, a person who

collects unwanted mercury-containing lights in the state, receives funding through a product stewardship program for mercury-containing lights, and who is not a generator of unwanted mercury-containing lights must:

(a) Register with the department as a collector of unwanted mercury-containing lights. Until the department adopts rules for collectors, the collector must provide to the department the legal name of the person or entity owning and operating the collection location, the address and phone number of the collection location, and the name, address, and phone number of the individual responsible for operating the collection location and update any changes in this information within thirty days of the change;

(b) Maintain a spill and release response plan at the collection location that describes the materials, equipment, and procedures that will be used to respond to any mercury release from an unwanted mercury-containing light;

(c) Maintain a worker safety plan at the collection location that describes the handling of the unwanted mercury-containing lights at the collection location and measures that will be taken to protect worker health and safety; and

(d) Use packaging and shipping material that will minimize the release of mercury into the environment and minimize breakage and use mercury vapor barrier packaging if mercury-containing lights are transported by the United States postal service or a common carrier.

(2) A person who operates a curbside collection program or owns or operates a mail-back business participating in a product stewardship program for mercury-containing lights and uses the United States postal service or a common carrier for transport of mercury-containing lights must register with the department and use mercury vapor barrier packaging for curbside collection and mail-back containers.

**Sec. 10.** RCW 70A.505.100 and 2010 c 130 s 10 are each amended to read as follows:

(1) (a) The department ((shall send a written warning and a copy of this chapter and any rules adopted to implement this chapter to a producer who is not participating in a product stewardship program approved by the department and whose mercury-containing lights are being sold in or into the state.

(2) A producer not participating in a product stewardship program approved by the department whose mercury-containing lights continue to be sold in or into the state sixty days after receiving a written warning from the department shall be assessed a penalty of up to one thousand dollars for each violation. A violation is one day of sales.

(3) If any producer fails to implement its approved plan, the department shall assess a penalty of up to five thousand dollars for the first violation along with notification that the producer must implement its plan within thirty days of the

violation. After thirty days, any producer failing to implement their approved plan must be assessed a penalty of up to ten thousand dollars for the second and each subsequent violation. A subsequent violation occurs each thirty-day period that the producer fails to implement the approved plan.

(4) The department shall send a written warning to a producer that fails to submit a product stewardship plan, update or change the plan when required, or submit an annual report as required under this chapter. The written warning must include compliance requirements and notification that the requirements must be met within sixty days. If requirements are not met within sixty days, the producer will be assessed a ten thousand dollar penalty per day of noncompliance starting with the first day of notice of noncompliance.

(5) Penalties prescribed under this section must be reduced by fifty percent if the producer complies within thirty days of the second violation notice.

(6) A producer may appeal penalties prescribed under this section to the pollution control hearings board created under chapter 43.21B RCW) may administratively impose a civil penalty on a person who violates this chapter in an amount of up to \$1,000 per violation per day.

(b) The department may administratively impose a civil penalty of up to \$10,000 per violation per day on a person for repeated violations of this chapter or failure to comply with an order issued under (c) of this subsection.

(c) Whenever on the basis of any information the department determines that a person has violated or is in violation of this chapter, including the failure by a stewardship organization to achieve performance goals proposed in a plan or the failure by a legacy producer to respond to a requirement for information by a stewardship organization under RCW 70A.505.050, the department may issue an order requiring compliance. A person who fails to take corrective action as specified in a compliance order is liable for a civil penalty as provided in (b) of this subsection, without receiving a written warning prescribed in (e) of this subsection.

(d) A person who is issued an order or incurs a penalty under this section may appeal the order or penalty to the pollution control hearings board established by chapter 43.21B RCW.

(e) Prior to imposing penalties under this section, the department must provide a producer, legacy producer, retailer, or stewardship organization with a written warning for the first violation by the producer, legacy producer, retailer, or stewardship organization of the requirements of this chapter. The written warning must inform a producer, legacy producer, retailer, or stewardship organization that it must participate in an approved plan or otherwise come into compliance with the requirements of this chapter within 30 days of the notice. A producer, legacy producer, retailer, or stewardship organization that

violates a provision of this chapter after the initial written warning may be assessed a penalty as provided in this subsection.

(2)(a) Upon the department notifying a stewardship organization, producer, or legacy producer that it has not met a significant requirement of this chapter, the department may, in addition to assessing the penalties provided in this section, take any combination of the following actions:

(i) Issue corrective action orders to a producer or stewardship organization;

(ii) Issue orders to a stewardship organization to provide for the continued implementation of the program in the absence of an approved plan;

(iii) Revoke the stewardship organization's plan approval and require the stewardship organization to implement its contingency plan under RCW 70A.505.040;

(iv) Require a stewardship organization to revise or resubmit a plan within a specified time frame; or

(v) Require additional reporting related to compliance with the significant requirement of this chapter that was not met.

(b) Prior to taking the actions described in (a)(iii) of this subsection, the department must provide the stewardship organization, producer, or legacy producer an opportunity to respond to or rebut the written finding upon which the action is predicated.

(4)(a) The department shall serve, or send with delivery confirmation, a written warning explaining the violation to any person known to be distributing or selling mercury-containing lights from producers, or any lights in or into the state from legacy producers, who are not participating in a product stewardship program or who are not in compliance with this chapter and rules adopted under this chapter.

(b) The department must review new, updated, and revised plans submitted by stewardship organizations. The department must:

(i) Review new, updated, and revised stewardship organization plans within 120 days of receipt of a complete plan;

(ii) Make a determination as to whether or not to approve a plan, plan update, or plan revision and notify the stewardship organization of the:

(I) Use the enforcement powers specified in this chapter; or

(II) Amend the contents of the insufficient new or revised plan in a manner that ensures that the plan meets the requirements of this chapter and the department may require the stewardship organization to implement the plan as amended by the department.

(c) The approval of a plan by the department does not relieve producers or legacy producers participating in the plan from responsibility for fulfilling the requirements of this chapter.

(5) ((Any person who continues to distribute or sell mercury-containing lights from a producer that is not participating in an approved product stewardship program sixty days after receiving a written warning from the department may be assessed a penalty two times the value of the products sold in violation of this chapter or five hundred dollars, whichever is greater. The penalty must be waived if the person verifies that the person has discontinued distribution or sales of mercury-containing lights within thirty days of the date the penalty is assessed. A retailer may appeal penalties to the pollution control hearings board.

(6)) The department shall adopt rules to implement this ((section))chapter.

((9) In-state distributors, wholesalers, and retailers in possession of mercury-containing lights on the date that restrictions on the sale of the product become effective may exhaust their existing stock through sales to the public.))

**Sec. 12.** RCW 70A.505.120 and 2017 c 254 s 3 are each amended to read as follows:

The mercury-containing light product stewardship programs account is created in

the custody of the state treasurer. All funds received from producers and stewardship organizations under this chapter and penalties collected under this chapter must be deposited in the account. Expenditures from the account may be used only for administering this chapter. ~~((The department may not retain fees in excess of the estimated amount necessary to cover the agency's administrative costs over the coming year related to the mercury light stewardship program under this chapter. ~~((5) Beginning October 1, 2014, the department shall annually invite comments from retailers, consumer groups, electric utilities, the Northwest power and conservation council, and other interested parties regarding the impacts of the requirements of this chapter on the availability or purchase of energy efficient lighting within the state. If the department determines that evidence shows the requirements of this chapter have resulted in negative impacts on the availability or purchase of energy efficient lighting in the state, the department shall report this information by December 31st of each year to the appropriate committees of the legislature with recommendations for changes to the provisions of this chapter.~~

~~(6) Beginning October 1, 2014, the department shall annually invite comments from retailers, consumer groups, electric utilities, the Northwest power and conservation council, and other interested parties regarding the availability of energy efficient nonmercury lighting to replace mercury-containing lighting within the state. If the department determines that evidence shows that energy efficient nonmercury-containing lighting is available and achieves similar energy savings as mercury lighting at similar cost, the department shall report this information by December 31st of each year to the appropriate committees of the legislature with recommendations for legislative changes to reduce mercury use in lighting.~~

~~(7))~~ (4) Beginning October 1, 2014, the department shall annually estimate the overall statewide recycling rate for mercury-containing lights and calculate that portion of the recycling rate attributable to the product stewardship program. The department may require a stewardship organization to submit data as needed for the department to make the estimations required by this subsection.

~~((9))~~ (5) The department may require submission of independent performance evaluations and report evaluations documenting the effectiveness of mercury vapor barrier packaging in preventing the escape of mercury into the environment. The department may restrict the use of packaging for which adequate documentation has not been provided. **Sec. 14.** RCW 70A.505.160 and 2014 c 119 s 6 are each amended to read as follows:

(1) It is the intent of the legislature that a producer, legacy producer, group of producers or legacy producers, or stewardship organization preparing, submitting, and implementing a mercury-containing light product stewardship program pursuant to this chapter, as well as participating entities in the distribution chain, including retailers and distributors, are granted immunity, individually and jointly, from federal and state antitrust liability that might otherwise apply to the activities reasonably necessary for implementation and compliance with this chapter. It is further the intent of the legislature that the activities of the producer, legacy producer, group of producers or legacy producers, stewardship organization, and entities in the distribution chain, including retailers and distributors, in implementing and complying with the provisions of this chapter may not be considered to be in restraint of trade, a conspiracy, or combination thereof, or any other unlawful activity in violation of any provisions of federal or state antitrust laws.

### MESSAGE FROM THE SENATE

Friday, March 1, 2024

Mme. Speaker:

The Senate has passed SECOND ENGROSSED SUBSTITUTE HOUSE BILL NO. 1282, with the following amendment(s): 1282-S.E2 AMS WM S5542.1

Strike everything after the enacting clause and insert the following:

**"NEW SECTION. Sec. 1.** The legislature finds and declares that:

(1) Washington state, through its extensive purchasing power, can reduce embodied carbon in the built environment, improve human and environmental health, grow economic competitiveness, and promote high labor standards in manufacturing by incorporating climate and other types of pollution impacts and the quality of working conditions into the procurement process.

(2) Washington state is home to multiple world-class manufacturers that are investing heavily in reducing the carbon intensity of their products and that provide family-wage jobs that are the foundation for a fair and robust economy. Washington's procurement practices should encourage manufacturers and others to meet high environmental and labor standards and reduce their environmental footprint.

(3) The private sector is increasingly demanding low carbon building materials that support good jobs in manufacturing. This market demand has rapidly accelerated innovation and led to increased production of low carbon building materials. As one of the largest consumers of building materials, Washington state has an opportunity to leverage its purchasing power to do even more to send a clear signal to the market of the growing demand for low carbon building materials.

(4) With its low carbon electric grid and highly skilled workforce, Washington state is well-positioned to capture the growing

demand for low carbon building materials and create and sustain a new generation of good, high-wage clean manufacturing jobs.

(5) Washington has demonstrated a deep commitment to ensuring that the transition to a low carbon economy is fair and creates family-wage jobs. Both the clean energy transformation act and the climate commitment act tie public investments in infrastructure to reducing greenhouse gas emissions and to high road construction labor standards. Integrating manufacturing working conditions into the procurement process reaffirms and is consistent with the state's commitment to a fair transition.

(6) A robust state and domestic supply of low carbon materials is critical for building a fair economy and meeting the needs of the low carbon transition, including securing the clean energy supply chain.

(7) Environmental product declarations are the best available tool for reporting product-specific environmental impacts using a life-cycle assessment and informing the procurement of low carbon building materials. Environmental product declarations cannot be used to compare products across different product categories or different functional units.

(8) The buy clean and buy fair policies established in this act are critical to reduce embodied carbon in the built environment, a goal identified by the Washington state 2021 energy strategy to meet the state's greenhouse gas emission limits, governor Inslee's Executive Order 20-01 on state efficiency and environmental performance, and the Pacific coast collaborative's pathbreaking low carbon construction task force.

(9) Reducing embodied carbon in the built environment requires a holistic, comprehensive approach that includes designing buildings with a lower-embodied carbon footprint and making lower carbon products. Policies like the buy clean and buy fair policies established in this act are an important tool for increasing the manufacture of lower carbon products.

(10) The 2021-2023 biennium budgets made critical progress on the buy clean and buy fair policies in this act by funding the creation of a publicly accessible database to facilitate reporting and promote transparency on building materials purchased for state-funded infrastructure projects and two large buy clean and buy fair pilot projects. This ongoing work to create a database to facilitate reporting of environmental impacts and labor conditions from pilot projects has provided a strong foundation to inform future work on buy clean and buy fair policies.

(11) Providing financial assistance to small manufacturers to support the production of environmental product declarations will help small manufacturers offset costs they might incur when pursuing state contracting as a result of the requirements of this act.

**NEW SECTION. Sec. 2.** The definitions in this section apply throughout this

chapter unless the context clearly requires otherwise.

(1) "Actual production facilities" means the final manufacturing facility and the facilities at which production processes occur that contribute to 70 percent or more of the product's cradle-to-gate global warming potential, as reflected in the environmental product declaration.

(b) A building renovation project where the cost is greater than 50 percent of the assessed value and the project is larger than 50,000 gross square feet of occupied or conditioned space as defined in the Washington state building code, chapter 51-50 WAC.

(5) "Department" means the department of commerce.

(6) "Employee" means any individual who is in an employment relationship with the organization.

(7) (a) "Environmental product declaration" means a type III environmental product declaration, as defined by the international organization for standardization standard 14025 or similarly

robust life-cycle assessment methods that have uniform standards in data collection consistent with the international organization for standardization standard 14025, industry acceptance, and integrity. When available, the environmental product declaration must be supply chain specific.

(b) For the purposes of this subsection, "supply chain specific" means an environmental product declaration that includes supply chain specific data for production processes that contribute 70 percent or more of a product's cradle-to-gate global warming potential, as defined in international organization for standardization standard 21930, and reports the overall percentage of supply chain specific data included.

(8) "Full time" means an employee in a position that:

(a) The employer intends to be filled for at least 52 consecutive weeks or 12 consecutive months, excluding any leaves of absence; and

(9) "Health product declaration" means a supply chain specific health product declaration, as defined by the health product declaration open standard maintained by the health product declaration collaborative, that has robust methods for product manufacturers and their ingredient suppliers to uniformly report and disclose information about product contents and associated health information.

(10) "Part time" means an employee in a position that:

(a) The employer intends to be filled for at least 52 consecutive weeks or 12 consecutive months, excluding any leaves of absence; and

(b) For purposes of this section, "greenhouse gas" has the same meaning as in RCW 70A.45.010.

(13) "Supplier code of conduct" means a policy created by a manufacturer that outlines steps taken to ensure that its suppliers adhere to ethical practices, such as compliance with child and forced labor laws, antidiscrimination practices, freedom of association, and safe workplace conditions.

(14) "Temporary" means an employee in a position that is intended to be filled for a period of less than 52 consecutive weeks or 12 consecutive months. Positions in seasonal employment are temporary positions.

(15) "Total case incident rate" means the number of work-related injuries per 100

full-time equivalent workers during a one-year period, as defined by the occupational safety and health administration. Total case incident rate is calculated by multiplying the number of occupational safety and health administration recordable injuries and illnesses by 200,000 and dividing by number of hours worked by all employees.

(16) "Working conditions" means the average number of employees by employment type: Full time, part time, and temporary.

**NEW SECTION. Sec. 3.** (1)(a) Beginning July 1, 2025, an awarding authority must require in all newly executed construction contracts that the selected firm for a construction contract for a covered project larger than 100,000 gross square feet submit the following data for each covered product used before substantial completion, including at a minimum:

- (i) Product quantity;
- (ii) A current environmental product declaration;
- (iii) Health product declaration, if any, completed for the product;
- (iv) Manufacturer name and location, including state or province and country;
- (v) Supplier code of conduct, if any; and
- (vi) Office of minority and women-owned business enterprises certification, if any.

(b) Beginning July 1, 2027, an awarding authority must require in all newly executed construction contracts that the selected firm for a construction contract for a covered project submit the data required by (a) of this subsection for each covered product used before substantial completion.

(c) The selected firm for a contract for a covered project shall provide the data required by this subsection for at least 90 percent of the cost of each of the covered products used in the project.

(2) The selected firm for a contract for a covered project is required to collect and submit from product suppliers the information required in subsection (1)(a) (ii) through (vi) of this section. The selected firm is not required to verify the information received from product suppliers.

(3)(a) Beginning July 1, 2025, an awarding authority must require in all newly executed construction contracts that the selected firm for a construction contract for a covered project larger than 100,000 gross square feet to ask their suppliers to report for each covered product used before substantial completion, including at a minimum:

(i) Names and locations, including state or province and country, of the actual production facilities; and

(ii) Working conditions at the actual production facilities for all employees, full-time employees, part-time employees, and temporary employees. In cases in which the supplier does not have this information, the selected firm for a contract for a covered project must ask suppliers to provide a report on steps taken to reasonably obtain the data and provide suppliers' self-reports to the awarding authority.

(b) Beginning July 1, 2027, an awarding authority must require in all newly executed

construction contracts that the successful bidder for a construction contract for a covered project to meet the requirements of (a) of this subsection for each covered product used before substantial completion.

(c) The selected firm is not required to verify the information reported by product suppliers pursuant to this subsection.

(d) The selected firm for a contract for a covered project shall meet the requirement in (a) of this subsection for at least 90 percent of the cost of each of the covered products used in the project.

(4) If a supply chain specific environmental product declaration is not available, a product and facility specific report may be submitted.

(5) This section does not apply to a covered product for a particular covered project if the awarding authority determines, upon written justification provided to the department, that the requirements in this section would cause a significant delay in completion, significant increase in overall project cost, or result in only one product supplier being able to provide the covered product.

(6) An awarding authority must include the information and reporting requirements in this section in a specification for bids for a covered project.

(7) Subject to funds appropriated for this specific purpose, the department may provide financial assistance to small businesses, as defined in RCW 19.85.020, to help offset the costs to the small business of producing an environmental product declaration required under this section. Such financial assistance supports the production of environmental product declarations and achievement of reductions of embodied carbon in the built environment while ensuring that small manufacturers are not put at a competitive disadvantage in state contracting as a result of the requirements of this chapter.

(8) Compliance with the requirements in this section may not be used as a basis for a waiver from apprenticeship utilization requirements in any other statute, rule, regulation, or law.

**NEW SECTION. Sec. 4.** By July 1, 2025, and to the extent practicable, specifications for a bid or proposal for a project contract by an awarding authority may only include performance-based specifications for concrete used as a structural material. Awarding authorities may continue to use prescriptive specifications on structural elements to support special designs and emerging technology implementation.

**NEW SECTION. Sec. 5.** (1) The department must continue to develop, maintain, and refine the publicly accessible database funded by the 2021-2023 omnibus operating appropriations act and created by the department in conjunction with the University of Washington college of built environments for selected firms for contracts for covered projects to submit the data required in section 3 of this act to the department and to promote transparency.

(2) The department intends formation of subgroups with members who have subject matter expertise or industry experience to develop technical information, recommendations, and analysis specific to individual material types, and the feasibility of supply chain specific environmental product declarations. The recommendations must, where possible, align with state and national principles and laws for environmental product declaration development.

(3) The department may contract with the University of Washington college of built environments in convening the technical work group.

(4) The purpose of the technical work group is to identify opportunities for and barriers to growth of the use and production of low carbon materials, promote high labor standards in manufacturing, and preserve and expand low carbon materials manufacturing in Washington.

SECOND ENGROSSED SUBSTITUTE HOUSE BILL NO. 1282, as amended by the Senate, having received the necessary constitutional majority, was declared passed.

#### MESSAGE FROM THE SENATE

Friday, March 1, 2024

Mme. Speaker:

The Senate has passed ENGROSSED SECOND SUBSTITUTE HOUSE BILL NO. 1368, with the following amendment(s): 1368-S2.E AMS WM S5454.2

Strike everything after the enacting clause and insert the following:

"NEW SECTION. **Sec. 1.** (1) The legislature finds that zero emission vehicle technology is crucial to protecting Washington's children from the health impacts of fossil fuel emissions and to limiting the long-term impacts of climate change on our planet. Spurred by a supportive regulatory environment, the state has made great advances in recent years that have improved the performance and reduced the costs of such vehicles. With the recent deployment of financial incentives for clean transportation technology under the federal bipartisan infrastructure law of 2021, the inflation reduction act of 2022, and state funding for early adopters of zero emission buses that began being made available in the 2023 enacted budgets, the costs and performance of zero emission vehicles, including zero emission school buses, are forecast to continue to improve in coming years. Zero emission school buses on the market today feature reduced fuel, operations, and maintenance costs compared to their fossil-fueled counterparts.

(2) Zero emission school buses and the related reduction of diesel exhaust will also have significant public health benefits for children, school staff, bus drivers, and communities, and decrease inequities. Residents in overburdened parts of Washington facing poor air quality are disproportionately communities of color, rural, and low-income and suffer from increased health risks, higher medical bills, are living sicker and dying younger, emphasizing the need for cleaner air and environmental justice.

(3) Further, the legislature finds that school districts need funding support to enable the transition to zero emission buses, including accurately reflecting the costs of zero emission buses in the state's reimbursement schedule for school buses. Zero emission buses are intended to include both battery electric technologies and hydrogen fuel cell technologies.

(4) Therefore, it is the intent of the legislature to help transition school districts, charter schools, and state-tribal education compact schools to using only zero emission school buses.

(5) During this transition, it is the intent of the legislature to prioritize grants to communities that are already bearing the most acute harms of air pollution, and to replace the oldest diesel vehicles that were manufactured under outdated and less protective federal emission standards. During the time leading up to an eventual phase out of fossil fuel powered school buses, electric utilities are encouraged to plan and take steps to ensure any service upgrades necessary to support the onboarding of zero emission fleets of school buses, including by making use of the grid modernization grant program

administered by the department of commerce. Schools and school districts receiving zero emission school buses funded through the program created in this act are encouraged to coordinate with electric utilities to utilize the vehicles to support electric system reliability and capacity through vehicle-to-grid integration when the buses are not in service.

**NEW SECTION. Sec. 2.** A new section is added to chapter 70A.15 RCW to read as follows:

(1) The department must administer the zero emission school bus grant program within the clean diesel grant program for buses, infrastructure, and related costs.

(2)(a) Appropriations to this grant program are provided solely for grants to transition from fossil-fuel school buses to zero emission vehicles. Eligible uses of grant funds include the planning and acquisition of zero emission school bus vehicles for student transportation, planning, design, and construction of associated fueling and charging infrastructure, including infrastructure to allow the use of zero emission buses in cold weather and other challenging operational conditions, the scrapping of old diesel school buses, and training drivers, mechanics, and facility operations personnel to operate and maintain the zero emission buses and infrastructure.

(b) Grant recipients may combine grant funds awarded under this section with any other source of funding in order to secure all funds needed to fully purchase each zero emission vehicle and any associated charging infrastructure.

(c) Grants issued under this section are in addition to payments made under the depreciation schedule adopted by the office of the superintendent of public instruction. Grants may only be issued until the school bus depreciation schedule established in RCW 28A.160.200 is adjusted to fund the cost of zero emission bus purchases at which time the department must transition the program established in this section to focus solely on electric vehicle charging infrastructure grants.

(3) When selecting grant recipients, the department must prioritize, in descending order of priority:

(a) School districts currently using school buses manufactured prior to 2007 and serving overburdened communities, including communities of color, rural, and low-income communities, highly impacted by air pollution identified by the department under RCW 70A.65.020(1);

(b) If funds remain after reviewing grant applications meeting the criteria of (a) of this subsection, school districts serving overburdened communities, including communities of color, rural, and low-income communities, highly impacted by air pollution identified by the department under RCW 70A.65.020(1);

(c) If funds remain after reviewing grant applications meeting the criteria of (a) and (b) of this subsection, the replacement of school buses manufactured prior to 2007; and

(d) If funds remain after reviewing grant applications meeting the criteria of (a), (b), or (c) of this subsection, to applicants that demonstrate an unsuccessful application to receive federal funding for zero emission school bus purposes prior to January 1, 2024.

(4) The department must distribute no less than 90 percent of the funds appropriated under this section to grant recipients. Amounts retained by the department may only be used as follows:

(a) Up to three and one-half percent of funds appropriated under this section for administering the grant program; and

(b) Up to six and one-half percent of funds appropriated under this section to provide technical assistance to grant applicants including, but not limited to, assistance in evaluating charging infrastructure and equipment and in coordinating with electric utility service adequacy.

(5) The department must provide notice of a grant award decision to the utility providing electrical service to the grant recipient.

(6) By June 1, 2025, the department in consultation with the superintendent of public instruction must submit a report to the governor and the relevant policy and fiscal committees of the legislature providing an update on the status of implementation of the grant program under this section and a summary of recommendations and implementation considerations for transitioning the zero emission school bus grant program to the competitive school bus vehicle depreciation schedule established in RCW 28A.160.200.

(7) For the purposes of this section, "zero emission vehicles" means a vehicle that produces zero exhaust emission of any air pollutant and any greenhouse gas other than water vapor.

**NEW SECTION. Sec. 3.** A new section is added to chapter 28A.160 RCW to read as follows:

(1) The office of the superintendent of public instruction, in consultation with the department of ecology, must develop preliminary guidance for school districts regarding the formula factors used to calculate the total cost of ownership for zero emission school buses and diesel school buses. After considering feedback to the preliminary guidance, the office of the superintendent of public instruction, in consultation with the department of ecology, must adopt rules to establish the formulas. Such formulas must, at a minimum, address the initial cost of the bus at the time of purchase, the cost of maintenance, the cost of fueling and charging, and the cost of replacing zero emission school bus batteries, if applicable.

(2)(a) Once the total cost of ownership of zero emission school buses is at or below the total cost of ownership of diesel school buses, as determined by the formulas in subsection (1) of this section, school districts may only receive reimbursement under RCW 28A.160.195 and 28A.160.200 for the purchase of zero emission school buses.

(b) The requirements of this subsection do not prohibit the use of externally vented fuel-operated passenger heaters from November 15th through March 15th annually until other viable alternatives become available.

(3)(a) The office of the superintendent of public instruction must make exceptions to the requirement under subsection (2) of this section in the following circumstances:

(i) The reimbursement is for a diesel school bus that was purchased prior to the total cost of ownership determination;

(ii) The school district has bus route mileage needs that cannot be met by the average daily mileage achieved under actual use conditions in Washington for zero emission school buses;

(iii) The school district has other unique needs that may not be met by the technological capabilities of zero emission school buses; or

(iv) The school district does not have, or have access to, the appropriate charging infrastructure to support the use of zero emission school buses. If a school district qualifies under this exception it must submit documentation indicating it has applied for grant funding to install charging infrastructure under available federal grant programs or the zero emission school bus grant program established under section 2 of this act, or documentation from a public utility district or utility company indicating the school district does not have enough electric capacity to support the appropriate charging infrastructure.

(b) Exceptions granted by the superintendent of public instruction under (a)(ii) through (iv) of this subsection may not exceed five years. A school district may apply to renew an exception if the need for such an exception still exists after the initial exception has expired.

(4) For the purposes of this section, "zero emission school bus" means a school bus that produces zero exhaust emission of any air pollutant and any greenhouse gas other than water vapor.

**Sec. 4.** RCW 28A.160.195 and 2005 c 492 s 1 are each amended to read as follows:

(1) The superintendent of public instruction, in consultation with the regional transportation coordinators of the educational service districts, shall establish a minimum number of school bus categories considering the capacity and type of vehicles required by school districts in Washington. The superintendent, in consultation with the regional transportation coordinators of the educational service districts, shall establish competitive specifications for each category of school bus. The categories shall be developed to produce minimum long-range operating costs, including costs of equipment and all costs in operating the vehicles. The competitive specifications shall meet federal motor vehicle safety standards, minimum state specifications as established by rule by the superintendent, and supported options as determined by the superintendent in consultation with the regional transportation coordinators of the

educational service districts. The superintendent may solicit and accept price quotes for a rear-engine category school bus that shall be reimbursed at the price of the corresponding front engine category.

(2) After establishing school bus categories and competitive specifications, the superintendent of public instruction shall solicit competitive price quotes for base buses from school bus dealers to be in effect for one year and shall establish a list of all accepted price quotes in each category obtained under this subsection. The superintendent shall also solicit price quotes for optional features and equipment.

(3)(a) The superintendent shall base the level of reimbursement to school districts and educational service districts for school buses on the lowest quote for the base bus in each category. School districts and educational service districts shall be reimbursed for buses purchased only through a lowest-price competitive bid process conducted under RCW 28A.335.190 or through the state bid process established by this section.

(b) Once the total cost of ownership of zero emission school buses is at or below the total cost of ownership of diesel school buses, as determined under the formulas adopted by rule pursuant to section 3 of this act, school districts may only receive reimbursement for the purchase of zero emission school buses, unless the district has been granted an exception under section 3(3) of this act. For the purposes of this subsection, "zero emission school bus" means a school bus that produces zero exhaust emission of any air pollutant and any greenhouse gas other than water vapor.

(4) Notwithstanding RCW 28A.335.190, school districts and educational service districts may purchase at the quoted price directly from any dealer who is on the list established under subsection (2) of this section. School districts and educational service districts may make their own selections for school buses, but shall be reimbursed at the rates determined under subsection (3) of this section and RCW 28A.160.200. District-selected options shall not be reimbursed by the state.

(5) This section does not prohibit school districts or educational service districts from conducting their own competitive bid process.

(6) The superintendent of public instruction may adopt rules under chapter 34.05 RCW to implement this section.

**Sec. 5.** RCW 28A.160.140 and 1990 c 33 s 140 are each amended to read as follows:

(1) As a condition of entering into a pupil transportation services contract with a private nongovernmental entity, each school district shall engage in an open competitive process at least once every five years. This requirement shall not be construed to prohibit a district from entering into a pupil transportation services contract of less than five years in duration with a district option to renew, extend, or terminate the contract, if the district engages in an open competitive process at least once every five years after

July 26, 1987. If a school district enters into a pupil transportation services contract with a private nongovernmental entity that uses zero emission school buses to transport students for the school district, the contract period may be up to seven years in duration.

(2) Once the total cost of ownership of zero emission school buses is at or below the total cost of ownership of diesel school buses, as determined under the formulas adopted by rule pursuant to section 3 of this act, a school district may only enter into, renew, or extend a pupil transportation services contract with a nongovernmental entity that uses zero emission school buses to transport students for the school district. The office of the superintendent of public instruction must provide an exception to this requirement, upon request from the school district, if the school district meets the criteria in section 3(3)(a) (ii) through (iv) of this act. The requirements of this subsection do not prohibit the use of externally vented fuel-operated passenger heaters from November 15th through March 15th annually until other viable alternatives become available.

(3) As used in this section:

~~((1))~~(a) "Open competitive process" means either one of the following, at the choice of the school district:

~~((a))~~(i) The solicitation of bids or quotations and the award of contracts under RCW 28A.335.190; or

~~((b))~~(ii) The competitive solicitation of proposals and their evaluation consistent with the process and criteria recommended or required, as the case may be, by the office of financial management for state agency acquisition of personal service contractors;

~~((2))~~(b) "Pupil transportation services contract" means a contract for the operation of privately owned or school district owned school buses, and the services of drivers or operators, management and supervisory personnel, and their support personnel such as secretaries, dispatchers, and mechanics, or any combination thereof, to provide students with transportation to and from school on a regular basis; ~~(and~~

~~(3))~~(c) "School bus" means a motor vehicle as defined in RCW 46.04.521 and under the rules of the superintendent of public instruction; and

(d) "Zero emission school bus" means a school bus that produces zero exhaust emission of any air pollutant and any greenhouse gas other than water vapor.

**NEW SECTION. Sec. 6.** A new section is added to chapter 28A.300 RCW to read as follows:

(1) By November 15, 2024, the office of the superintendent of public instruction, in consultation with the department of ecology, must carry out a survey of school districts, charter schools, and state-tribal education compact schools focused on the uptake and total cost of ownership of zero emission school buses. The office of the superintendent of public instruction must submit a report to the legislature

summarizing their findings by December 1, 2024.

(2) The survey required under this section must collect information from each school district and school on:

(a) Current zero emission vehicle charging and refueling capacity and infrastructure;

(b) Whether, assuming the availability of grant funds and depreciation schedule payments to cover the full cost of a vehicle, including the total cost of ownership of the vehicle, the school district or school would anticipate applying for funds to support zero emission school bus or bus infrastructure purchases in the next two years, and in the next five years;

(c) For any schools or school districts still using a school bus after the end of its applicable depreciation schedule, whether the bus was manufactured prior to 2007, and an explanation of why the school or school district has continued to use the bus past the end of its depreciation schedule;

(d) Responses to preliminary guidance from the office of the superintendent of public instruction for calculating total cost of ownership and whether the school district or school utilizes the preliminary guidance or uses a different calculation methodology; and

(e) Any other survey information deemed helpful by the department of ecology or the office of the superintendent of public instruction to facilitating the transition to zero emission vehicles.

(3) For purposes of this section, "zero emission vehicle" has the same meaning as in section 2 of this act."

On page 1, line 2 of the title, after "buses;" strike the remainder of the title and insert "amending RCW 28A.160.195 and 28A.160.140; adding a new section to chapter 70A.15 RCW; adding a new section to chapter 28A.160 RCW; adding a new section to chapter 28A.300 RCW; and creating a new section."

and the same is herewith transmitted.

**Sec. 14.** RCW 71.34.710 and 2021 c 264 s 32 are each amended to read as follows:

(1)(a) When a designated crisis responder receives information that an adolescent as a result of a behavioral health disorder presents a likelihood of serious harm or is gravely disabled, has investigated the specific facts alleged and of the credibility of the person or persons providing the information, and has determined that voluntary admission for inpatient treatment is not possible, the designated crisis responder may take the adolescent, or cause the adolescent to be taken, into custody and transported to an evaluation and treatment facility, secure withdrawal management and stabilization facility, or approved substance use disorder treatment program providing inpatient treatment.

(b) If a designated crisis responder decides not to detain an adolescent for evaluation and treatment under RCW 71.34.700(2), or ~~((forty-eight))~~ 48 hours have elapsed since a designated crisis responder received a request for investigation and the designated crisis responder has not taken action to have the adolescent detained, an immediate family member or guardian or conservator of the adolescent, or a ~~((federally recognized Indian))~~ tribe if the person is a member of such tribe, may petition the superior court for the adolescent's detention using the procedures under RCW 71.05.201 and 71.05.203; however, when the court enters an order of initial detention, except as otherwise expressly stated in this chapter, all procedures must be followed as if the order has been entered under (a) of this subsection.

(c) The interview performed by the designated crisis responder may be conducted by video provided that a licensed health care professional or professional person who can adequately and accurately assist with obtaining any necessary information is present with the person at the time of the interview.

(2)(a) Within ~~((twelve))~~ 12 hours of the adolescent's arrival at the evaluation and treatment facility, secure withdrawal management and stabilization facility, or approved substance use disorder treatment program, the designated crisis responder shall serve or cause to be served on the

adolescent a copy of the petition for initial detention, notice of initial detention, and statement of rights. The designated crisis responder shall file with the court on the next judicial day following the initial detention the original petition for initial detention, notice of initial detention, and statement of rights along with an affidavit of service. The designated crisis responder shall commence service of the petition for initial detention and notice of the initial detention on the adolescent's parent and the adolescent's attorney as soon as possible following the initial detention.

(b) The facility or program may serve the adolescent, notify the adolescent's parents and the adolescent's attorney, and file with the court on the next judicial day following the initial detention the original petition for initial detention, notice of initial detention, and statement of rights along with an affidavit of service when filing with the court at the request of the designated crisis responder.

(3)(a) At the time of initial detention, the designated crisis responder shall advise the adolescent both orally and in writing that if admitted to the evaluation and treatment facility, secure withdrawal management and stabilization facility, or approved substance use disorder treatment program for inpatient treatment, a commitment hearing shall be held within ~~((one hundred twenty))~~ 120 hours of the adolescent's provisional acceptance to determine whether probable cause exists to commit the adolescent for further treatment.

(b) The adolescent shall be advised that he or she has a right to communicate immediately with an attorney and that he or she has a right to have an attorney appointed to represent him or her before and at the hearing if the adolescent is indigent.

(4) Whenever the designated crisis responder petitions for detention of an adolescent under this chapter, an evaluation and treatment facility, secure withdrawal management and stabilization facility, or approved substance use disorder treatment program providing ~~((one hundred twenty))~~ 120-hour evaluation and treatment must immediately accept on a provisional basis the petition and the person. Within ~~((twenty-four))~~ 24 hours of the adolescent's arrival, the facility must evaluate the adolescent's condition and either admit or release the adolescent in accordance with this chapter.

(5) If an adolescent is not approved for admission by the inpatient evaluation and treatment facility, secure withdrawal management and stabilization facility, or approved substance use disorder treatment program, the facility shall make such recommendations and referrals for further care and treatment of the adolescent as necessary.

(6) Dismissal of a commitment petition is not the appropriate remedy for a violation of the timeliness requirements of this section, based on the purpose of this chapter under RCW 71.34.010, except in the few cases where the facility staff or the designated crisis responder have totally

disregarded the requirements of this section.

~~(7) ((Tribal court orders for involuntary commitment shall be recognized and enforced in accordance with superior court civil rule 82.5.~~

~~(8))~~ In any investigation and evaluation of ~~((a juvenile))~~ an adolescent under this section in which the designated crisis responder knows, or has reason to know, that the ~~((juvenile))~~ adolescent is an American Indian or Alaska Native who receives medical or behavioral health services from a tribe within this state, the designated crisis responder shall notify the tribe and the Indian health care provider ~~((regarding))~~ whether or not a petition for initial detention or involuntary outpatient treatment will be filed ~~((Notification))~~ as soon as possible, but no later than three hours from the time the decision is made. If a petition for initial detention or involuntary outpatient treatment is filed, the designated crisis responder must provide the tribe with a copy of the petition, together with any orders issued by the court and a notice of the tribe's right to intervene as soon as possible, but before the hearing, and no later than 24 hours from the time the petition is served upon the person and the person's guardian. The court clerk shall provide copies of any court orders necessary for the designated crisis responder to provide notice to the tribe or Indian health care provider under this section. Notification under this section is subject to any federal and state laws and regulations including the requirements in RCW 70.02.240 and shall be made in person or by telephonic or electronic communication to the tribal contact listed in the authority's tribal crisis coordination plan ((as seen as possible but no later than three hours subject to the requirements in RCW 70.02.230 (2)(cc) and (3). A designated crisis responder may restrict the release of information as necessary to comply with 42 C.F.R. Part 2)).

**Sec. 15.** RCW 71.05.195 and 2020 c 302 s 23 are each amended to read as follows:

(1) A civil commitment may be initiated under the procedures described in RCW 71.05.150 or 71.05.153 for a person who has been found not guilty by reason of insanity in a state other than Washington or a tribe and who has fled from detention, commitment, or conditional release in that state or tribe, on the basis of a request by the state or tribe in which the person was found not guilty by reason of insanity for the person to be detained and transferred back to the custody or care of the requesting state or tribe. A finding of likelihood of serious harm or grave disability is not required for a commitment under this section. The detention may occur at either an evaluation and treatment facility or a state hospital. The petition for ~~((one hundred twenty))~~ 120-hour detention filed by the designated crisis responder must be accompanied by the following documents:

(a) A copy of an order for detention, commitment, or conditional release of the person in a state other than Washington or

tribe on the basis of a judgment of not guilty by reason of insanity;

(b) A warrant issued by a magistrate in the state or tribe in which the person was found not guilty by reason of insanity indicating that the person has fled from detention, commitment, or conditional release in that state or tribe and authorizing the detention of the person within the state or tribe in which the person was found not guilty by reason of insanity;

(c) A statement from the executive authority of the state or tribe in which the person was found not guilty by reason of insanity requesting that the person be returned to the requesting state or tribe and agreeing to facilitate the transfer of the person to the requesting state or tribe.

(2) The person shall be entitled to a probable cause hearing within the time limits applicable to other detentions under this chapter and shall be afforded the rights described in this chapter including the right to counsel. At the probable cause hearing, the court shall determine the identity of the person and whether the other requirements of this section are met. If the court so finds, the court may order continued detention in a treatment facility for up to ~~((thirty))~~ 30 days for the purpose of the transfer of the person to the custody or care of the requesting state or tribe. The court may order a less restrictive alternative to detention only under conditions which ensure the person's safe transfer to the custody or care of the requesting state or tribe within ~~((thirty))~~ 30 days without undue risk to the safety of the person or others.

(3) For the purposes of this section, "not guilty by reason of insanity" shall be construed to include any provision of law which is generally equivalent to a finding of criminal insanity within the state of Washington; and "state" shall be construed to mean any state, district, or territory of the United States.

**Sec. 16.** RCW 71.05.201 and 2022 c 210 s 8 are each amended to read as follows:

(1) If a designated crisis responder decides not to detain a person for evaluation and treatment under RCW 71.05.150 or 71.05.153 or ~~((forty-eight))~~ 48 hours have elapsed since a designated crisis responder received a request for investigation and the designated crisis responder has not taken action to have the person detained, an immediate family member or guardian of the person, or a ~~((federally recognized Indian))~~ tribe if the person is a member of such a tribe, may petition the superior court for the person's initial detention.

(2) A petition under this section must be filed within ~~((ten))~~ 10 calendar days following the designated crisis responder investigation or the request for a designated crisis responder investigation. If more than ~~((ten))~~ 10 days have elapsed, the immediate family member, guardian, ~~((or))~~ conservator, or a tribe if the person is a member of such a tribe, may request a new designated crisis responder investigation.

(3) (a) The petition must be filed in the county in which the designated crisis responder investigation occurred or was requested to occur and must be submitted on forms developed by the administrative office of the courts for this purpose. The petition must be accompanied by a sworn declaration from the petitioner, and other witnesses if desired, describing why the person should be detained for evaluation and treatment. The description of why the person should be detained may contain, but is not limited to, the information identified in RCW 71.05.212.

(b) The petition must contain:

(i) A description of the relationship between the petitioner and the person; and

(ii) The date on which an investigation was requested from the designated crisis responder.

(4) The court shall, within one judicial day, review the petition to determine whether the petition raises sufficient evidence to support the allegation. If the court so finds, it shall provide a copy of the petition to the designated crisis responder agency with an order for the agency to provide the court, within one judicial day, with a written sworn statement describing the basis for the decision not to seek initial detention and a copy of all information material to the designated crisis responder's current decision.

(5) Following the filing of the petition and before the court reaches a decision, any person, including a mental health professional, may submit a sworn declaration to the court in support of or in opposition to initial detention.

(6) The court shall dismiss the petition at any time if it finds that a designated crisis responder has filed a petition for the person's initial detention under RCW 71.05.150 or 71.05.153 or that the person has voluntarily accepted appropriate treatment.

(7) The court must issue a final ruling on the petition within five judicial days after it is filed. After reviewing all of the information provided to the court, the court may enter an order for initial detention if the court finds that: (a) There is probable cause to support a petition for detention; and (b) the person has refused or failed to accept appropriate evaluation and treatment voluntarily. The court shall transmit its final decision to the petitioner.

(8) If the court enters an order for initial detention, it shall provide the order to the designated crisis responder agency and issue a warrant. The designated crisis responder agency serving the jurisdiction of the court must collaborate and coordinate with law enforcement, including tribal law enforcement, regarding apprehensions and detentions under this subsection, including sharing of information relating to risk and which would assist in locating the person. A person may not be detained to jail pursuant to a warrant issued under this subsection. An order for detention under this section should contain the advisement of rights which the person would receive if the person were detained by a designated crisis responder. An order for initial detention under this section expires

(~~one hundred eighty~~) 180 days from issuance.

(9) Except as otherwise expressly stated in this chapter, all procedures must be followed as if the order had been entered under RCW 71.05.150. RCW 71.05.160 does not apply if detention was initiated under the process set forth in this section.

(10) For purposes of this section, "immediate family member" means a spouse, domestic partner, child, stepchild, parent, stepparent, grandparent, or sibling.

**Sec. 17.** RCW 71.05.212 and 2022 c 210 s 9 are each amended to read as follows:

(1) Whenever a designated crisis responder or professional person is conducting an evaluation under this chapter, consideration shall include all reasonably available information from credible witnesses and records regarding:

(a) Prior recommendations for evaluation of the need for civil commitments when the recommendation is made pursuant to an evaluation conducted under chapter 10.77 RCW;

(b) Historical behavior, including history of one or more violent acts;

(c) Prior determinations of incompetency or insanity under chapter 10.77 RCW; and

(d) Prior commitments under this chapter.

(2) Credible witnesses may include family members, landlords, neighbors, or others with significant contact and history of involvement with the person. If the designated crisis responder relies upon information from a credible witness in reaching his or her decision to detain the individual, then he or she must provide contact information for any such witness to the prosecutor. The designated crisis responder or prosecutor shall provide notice of the date, time, and location of the probable cause hearing to such a witness.

(3) Symptoms and behavior of the respondent which standing alone would not justify civil commitment may support a finding of grave disability or likelihood of serious harm, or a finding that the person is in need of assisted outpatient treatment, when:

(a) Such symptoms or behavior are closely associated with symptoms or behavior which preceded and led to a past incident of involuntary hospitalization, severe deterioration, or one or more violent acts;

(b) These symptoms or behavior represent a marked and concerning change in the baseline behavior of the respondent; and

(c) Without treatment, the continued deterioration of the respondent is probable.

(4) When conducting an evaluation for offenders identified under RCW 72.09.370, the designated crisis responder or professional person shall consider an offender's history of judicially required or administratively ordered antipsychotic medication while in confinement.

(5) The authority, in consultation with tribes and in coordination with Indian health care providers and the American Indian health commission for Washington state, shall establish written guidelines by December 31, 2024, for conducting culturally

appropriate evaluations of American Indians or Alaska Natives.

**Sec. 18.** RCW 71.05.212 and 2022 c 210 s 10 are each amended to read as follows:

(1) Whenever a designated crisis responder or professional person is conducting an evaluation under this chapter, consideration shall include all reasonably available information from credible witnesses and records regarding:

(a) Prior recommendations for evaluation of the need for civil commitments when the recommendation is made pursuant to an evaluation conducted under chapter 10.77 RCW;

(b) Historical behavior, including history of one or more violent acts;

(c) Prior determinations of incompetency or insanity under chapter 10.77 RCW; and

(d) Prior commitments under this chapter.

(2) Credible witnesses may include family members, landlords, neighbors, or others with significant contact and history of involvement with the person. If the designated crisis responder relies upon information from a credible witness in reaching his or her decision to detain the individual, then he or she must provide contact information for any such witness to the prosecutor. The designated crisis responder or prosecutor shall provide notice of the date, time, and location of the probable cause hearing to such a witness.

(3) Symptoms and behavior of the respondent which standing alone would not justify civil commitment may support a finding of grave disability or likelihood of serious harm, or a finding that the person is in need of assisted outpatient treatment, when:

(a) Such symptoms or behavior are closely associated with symptoms or behavior which preceded and led to a past incident of involuntary hospitalization, severe deterioration from safe behavior, or one or more violent acts;

(b) These symptoms or behavior represent a marked and concerning change in the baseline behavior of the respondent; and

(c) Without treatment, the continued deterioration of the respondent is probable.

(4) When conducting an evaluation for offenders identified under RCW 72.09.370, the designated crisis responder or professional person shall consider an offender's history of judicially required or administratively ordered antipsychotic medication while in confinement.

(5) The authority, in consultation with tribes and in coordination with Indian health care providers and the American Indian health commission for Washington state, shall establish written guidelines by December 31, 2024, for conducting culturally appropriate evaluations of American Indians or Alaska Natives.

**Sec. 19.** RCW 71.05.214 and 2020 c 302 s 29 are each amended to read as follows:

The authority shall develop statewide protocols to be utilized by professional persons and designated crisis responders in administration of this chapter and chapters 10.77 and 71.34 RCW. The protocols shall be

updated at least every three years. The protocols shall provide uniform development and application of criteria in evaluation and commitment recommendations, of persons who have, or are alleged to have, behavioral health disorders and are subject to this chapter.

The initial protocols shall be developed not later than September 1, 1999. The authority shall develop and update the protocols in consultation with representatives of designated crisis responders, the department of social and health services, tribal government, local government, law enforcement, county and city prosecutors, public defenders, and groups concerned with behavioral health disorders. The protocols shall be submitted to the governor and legislature upon adoption by the authority.

**Sec. 20.** RCW 71.05.217 and 2020 c 302 s 32 are each amended to read as follows:

(a) To wear his or her own clothes and to keep and use his or her own personal possessions, except when deprivation of same is essential to protect the safety of the resident or other persons;

(b) To keep and be allowed to spend a reasonable sum of his or her own money for canteen expenses and small purchases;

(c) To have access to individual storage space for his or her private use;

(j) Not to consent to the administration of antipsychotic medications beyond the hearing conducted pursuant to RCW 71.05.320(4) or the performance of electroconvulsant therapy or surgery, except emergency lifesaving surgery, unless ordered by a court of competent jurisdiction pursuant to the following standards and procedures:

(i) The administration of antipsychotic medication or electroconvulsant therapy shall not be ordered unless the petitioning party proves by clear, cogent, and

convincing evidence that there exists a compelling state interest that justifies overriding the patient's lack of consent to the administration of antipsychotic medications or electroconvulsant therapy, that the proposed treatment is necessary and effective, and that medically acceptable alternative forms of treatment are not available, have not been successful, or are not likely to be effective.

(ii) The court shall make specific findings of fact concerning: (A) The existence of one or more compelling state interests; (B) the necessity and effectiveness of the treatment; and (C) the person's desires regarding the proposed treatment. If the patient is unable to make a rational and informed decision about consenting to or refusing the proposed treatment, the court shall make a substituted judgment for the patient as if he or she were competent to make such a determination.

(iii) The person shall be present at any hearing on a request to administer antipsychotic medication or electroconvulsant therapy filed pursuant to this subsection. The person has the right: (A) To be represented by an attorney; (B) to present evidence; (C) to cross-examine witnesses; (D) to have the rules of evidence enforced; (E) to remain silent; (F) to view and copy all petitions and reports in the court file; and (G) to be given reasonable notice and an opportunity to prepare for the hearing. The court shall appoint a psychiatrist, physician assistant working with a supervising psychiatrist, psychiatric advanced registered nurse practitioner, psychologist within their scope of practice, physician assistant, or physician designated by such person or the person's counsel to testify on behalf of the person in cases where an order for electroconvulsant therapy is sought.

(iv) An order for the administration of antipsychotic medications entered following a hearing conducted pursuant to this section shall be effective for the period of the current involuntary treatment order, and any interim period during which the person is awaiting trial or hearing on a new petition for involuntary treatment or involuntary medication.

(v) Any person detained pursuant to RCW 71.05.320(4), who subsequently refuses antipsychotic medication, shall be entitled to the procedures set forth in this subsection.

(vi) Antipsychotic medication may be administered to a nonconsenting person detained or committed pursuant to this chapter without a court order pursuant to RCW 71.05.215(2) or under the following circumstances:

(A) A person presents an imminent likelihood of serious harm;

(B) Medically acceptable alternatives to administration of antipsychotic medications

are not available, have not been successful, or are not likely to be effective; and

(C)(I) In the opinion of the physician, physician assistant, or psychiatric advanced registered nurse practitioner with responsibility for treatment of the person, or his or her designee, the person's condition constitutes an emergency requiring the treatment be instituted before a judicial hearing as authorized pursuant to this section can be held.

(II) If antipsychotic medications are administered over a person's lack of consent pursuant to this subsection, a petition for an order authorizing the administration of antipsychotic medications shall be filed on the next judicial day. The hearing shall be held within two judicial days. If deemed necessary by the physician, physician assistant, or psychiatric advanced registered nurse practitioner with responsibility for the treatment of the person, administration of antipsychotic medications may continue until the hearing is held;

(k) To dispose of property and sign contracts unless such person has been adjudicated an incompetent in a court proceeding directed to that particular issue;

(l) Not to have psychosurgery performed on him or her under any circumstances;

(m) To not be denied access to treatment by cultural or spiritual means through practices that are in accordance with a tribal or cultural tradition in addition to the treatment otherwise proposed.

(2) Every person involuntarily detained or committed under the provisions of this chapter is entitled to all the rights set forth in this chapter and retains all rights not denied him or her under this chapter except as limited by chapter 9.41 RCW.

(3) No person may be presumed incompetent as a consequence of receiving evaluation or treatment for a behavioral health disorder. Competency may not be determined or withdrawn except under the provisions of chapter 10.77 (~~(or 11.89)~~) RCW.

(4) Subject to RCW 71.05.745 and related regulations, persons receiving evaluation or treatment under this chapter must be given a reasonable choice of an available physician, physician assistant, psychiatric advanced registered nurse practitioner, or other professional person qualified to provide such services.

(5) Whenever any person is detained under this chapter, the person must be advised that unless the person is released or voluntarily admits himself or herself for treatment within (~~(one hundred twenty)~~) 120 hours of the initial detention, a judicial hearing must be held in a superior court within (~~(one hundred twenty)~~) 120 hours to determine whether there is probable cause to detain the person for up to an additional (~~(fourteen)~~) 14 days based on an allegation that because of a behavioral health disorder the person presents a likelihood of serious harm or is gravely disabled, and that at the probable cause hearing the person has the following rights:

(a) To communicate immediately with an attorney; to have an attorney appointed if the person is indigent; and to be told the

name and address of the attorney that has been designated;

(h) To refuse psychiatric medications, including antipsychotic medication beginning (~~(twenty-four)~~) 24 hours prior to the probable cause hearing.

(6) The judicial hearing described in subsection (5) of this section must be held according to the provisions of subsection (5) of this section and rules promulgated by the supreme court.

(7)(a) Privileges between patients and physicians, physician assistants, psychologists, or psychiatric advanced registered nurse practitioners are deemed waived in proceedings under this chapter relating to the administration of antipsychotic medications. As to other proceedings under this chapter, the privileges are waived when a court of competent jurisdiction in its discretion determines that such waiver is necessary to protect either the detained person or the public.

(b) The waiver of a privilege under this section is limited to records or testimony relevant to evaluation of the detained person for purposes of a proceeding under this chapter. Upon motion by the detained person or on its own motion, the court shall examine a record or testimony sought by a petitioner to determine whether it is within the scope of the waiver.

(c) The record maker may not be required to testify in order to introduce medical or psychological records of the detained person so long as the requirements of RCW 5.45.020 are met except that portions of the record which contain opinions as to the detained person's mental state must be deleted from such records unless the person making such conclusions is available for cross-examination.

(8) Nothing contained in this chapter prohibits the patient from petitioning by writ of habeas corpus for release.

(9) Nothing in this section permits any person to knowingly violate a no-contact order or a condition of an active judgment and sentence or an active condition of supervision by the department of corrections.

(10) The rights set forth under this section apply equally to (~~(ninety-day)~~) 90-day or (~~(one hundred eighty-day)~~) 180-day hearings under RCW 71.05.310.

**Sec. 21.** RCW 71.05.435 and 2020 c 256 s 306 are each amended to read as follows:

(1) Whenever a person who is the subject of an involuntary commitment order under this chapter is discharged from an evaluation and treatment facility, state hospital, secure withdrawal management and stabilization facility, or approved substance use disorder treatment program providing involuntary treatment services, the entity discharging the person shall provide notice of the person's discharge, subject to federal laws and regulations, to the designated crisis responder office responsible for the initial commitment, which may be a ((federally recognized Indian)) tribe or other Indian health care provider if the designated crisis responder is appointed by the authority, and the designated crisis responder office that serves the county in which the person is expected to reside or to the tribal contact listed in the authority's tribal crisis coordination plan if the entity discharging the person knows, or has reason to know, that the person is an American Indian or Alaska Native who receives medical or behavioral health services from a tribe within this state. The entity discharging the person must also provide these offices with a copy of any less restrictive order or conditional release order entered in conjunction with the discharge of the person, unless the entity discharging the person has entered into a memorandum of understanding obligating another entity to provide these documents.

(2) The notice and documents referred to in subsection (1) of this section shall be provided as soon as possible and no later than one business day following the discharge of the person. Notice is not required under this section if the discharge is for the purpose of transferring the person for continued detention and treatment under this chapter at another treatment facility.

(3) The authority shall maintain and make available an updated list of contact information for designated crisis responder offices around the state.

(4) A facility providing substance use disorder services must attempt to obtain a release of information before discharge to meet the notification requirements of subsection (1) of this section.

**Sec. 22.** RCW 71.05.458 and 2019 c 325 s 3010 are each amended to read as follows:

As soon as possible, but no later than ~~((twenty-four))~~<sup>24</sup> hours from receiving a referral from a law enforcement officer or law enforcement agency, including a tribal law enforcement officer or tribal law enforcement agency, excluding Saturdays, Sundays, and holidays, a mental health professional contacted by the designated crisis responder agency must attempt to contact the referred person to determine whether additional mental health intervention is necessary, including, if needed, an assessment by a designated crisis responder for initial detention under RCW 71.05.150 or 71.05.153. Documentation of the mental health professional's attempt to

contact and assess the person must be maintained by the designated crisis responder agency.

**Sec. 23.** RCW 71.05.590 and 2023 c 433 s 10 are each amended to read as follows:

(1) Either an agency or facility designated to monitor or provide services under a less restrictive alternative order or conditional release, or a designated crisis responder, may take action to enforce, modify, or revoke a less restrictive alternative treatment order or conditional release order. The agency, facility, or designated crisis responder must determine that:

(a) The person is failing to adhere to the terms and conditions of the order;

(b) Substantial deterioration in the person's functioning has occurred;

(c) There is evidence of substantial decompensation with a reasonable probability that the decompensation can be reversed by further evaluation, intervention, or treatment; or

(d) The person poses a likelihood of serious harm.

(2) Actions taken under this section must include a flexible range of responses of varying levels of intensity appropriate to the circumstances and consistent with the interests of the individual and the public in personal autonomy, safety, recovery, and compliance. Available actions may include, but are not limited to, any of the following:

(a) To counsel or advise the person as to their rights and responsibilities under the court order, and to offer incentives to motivate compliance;

(b) To increase the intensity of outpatient services provided to the person by increasing the frequency of contacts with the provider, referring the person for an assessment for assertive community services, or by other means;

(c) To request a court hearing for review and modification of the court order. The request must be directed to the court with jurisdiction over the order and specify the circumstances that give rise to the request and what modification is being sought. The county prosecutor shall assist the entity requesting the hearing and issue an appropriate summons to the person. This subsection does not limit the inherent authority of a treatment provider to alter conditions of treatment for clinical reasons, and is intended to be used only when court intervention is necessary or advisable to secure the person's compliance and prevent decompensation or deterioration;

(d) To detain the person for up to 12 hours for evaluation at an agency, facility providing services under the court order, crisis stabilization unit, 23-hour crisis relief center, emergency department, evaluation and treatment facility, secure withdrawal management and stabilization facility with available space, or an approved substance use disorder treatment program with available space. The purpose of the evaluation is to determine whether modification, revocation, or commitment proceedings are necessary and appropriate to

stabilize the person and prevent decompensation, deterioration, or physical harm. Temporary detention for evaluation under this subsection is intended to occur only following a pattern of noncompliance or the failure of reasonable attempts at outreach and engagement, and may occur only when, based on clinical judgment, temporary detention is appropriate. The agency, facility, or designated crisis responder may request assistance from a peace officer for the purposes of temporary detention under this subsection (2)(d). This subsection does not limit the ability or obligation of the agency, facility, or designated crisis responder to pursue revocation procedures under subsection (5) of this section in appropriate circumstances; and

(e) To initiate revocation procedures under subsection (5) of this section.

(3) A court may supervise a person on an order for less restrictive alternative treatment or a conditional release. While the person is under the order, the court may:

(a) Require appearance in court for periodic reviews; and

(b) Modify the order after considering input from the agency or facility designated to provide or facilitate services. The court may not remand the person into inpatient treatment except as provided under subsection (5) of this section, but may take actions under subsection (2)(a) through (d) of this section.

(4) The facility or agency designated to provide outpatient treatment shall notify the secretary of the department of social and health services or designated crisis responder when a person fails to adhere to terms and conditions of court ordered treatment or experiences substantial deterioration in his or her condition and, as a result, presents an increased likelihood of serious harm.

(5)(a) A designated crisis responder or the secretary of the department of social and health services may, upon their own motion or upon request of the facility or agency designated to provide outpatient care, cause a person to be detained in an evaluation and treatment facility, available secure withdrawal management and stabilization facility with adequate space, or available approved substance use disorder treatment program with adequate space in or near the county in which he or she is receiving outpatient treatment for the purpose of a hearing for revocation of a less restrictive alternative treatment order or conditional release order under this chapter. The designated crisis responder or secretary of the department of social and health services shall file a petition for revocation within 24 hours and serve the person, their guardian, if any, and their attorney. A hearing for revocation of a less restrictive alternative treatment order or conditional release order may be scheduled without detention of the person.

(b) A person detained under this subsection (5) must be held until such time, not exceeding five days, as a hearing can be scheduled to determine whether or not the order for less restrictive alternative treatment or conditional release should be

revoked, modified, or retained. If the person is not detained, the hearing must be scheduled within five days of service on the person. The designated crisis responder or the secretary of the department of social and health services may withdraw its petition for revocation at any time before the court hearing.

(c) A person detained under this subsection (5) has the same rights with respect to notice, hearing, and counsel as in any involuntary treatment proceeding, except as specifically set forth in this section. There is no right to jury trial. The venue for proceedings is the county where the petition is filed. Notice of the filing must be provided to the court that originally ordered commitment, if different from the court where the petition for revocation is filed, within two judicial days of the person's detention.

(d) The issues for the court to determine are whether: (i) The person adhered to the terms and conditions of the order; (ii) substantial deterioration in the person's functioning has occurred; (iii) there is evidence of substantial decompensation with a reasonable probability that the decompensation can be reversed by further inpatient treatment; or (iv) there is a likelihood of serious harm; and, if any of the above conditions apply, whether it is appropriate for the court to reinstate or modify the person's less restrictive alternative treatment order or conditional release order or order the person's detention for inpatient treatment. The person may waive the court hearing and allow the court to enter a stipulated order upon the agreement of all parties. If the court orders detention for inpatient treatment, the treatment period must be for 14 days from the revocation hearing if the less restrictive alternative treatment order or conditional release order was based on a petition under RCW 71.05.148, 71.05.160, or 71.05.230. If the court orders detention for inpatient treatment and the less restrictive alternative treatment order or conditional release order was based on a petition under RCW 71.05.290 or 71.05.320, the number of days remaining on the order must be converted to days of inpatient treatment. A court may not detain a person for inpatient treatment to a secure withdrawal management and stabilization facility or approved substance use disorder treatment program under this subsection unless there is a facility or program available with adequate space for the person.

(6) In determining whether or not to take action under this section the designated crisis responder, agency, or facility must consider the factors specified under RCW 71.05.212 and the court must consider the factors specified under RCW 71.05.245 as they apply to the question of whether to enforce, modify, or revoke a court order for involuntary treatment.

(7) Prior to taking any action to enforce, modify, or revoke a less restrictive alternative treatment order or conditional release order in which the agency, facility, or designated crisis responder knows, or has reason to know, that the individual is an American Indian or

Alaska Native who receives medical or behavioral health services from a tribe within this state, the agency, facility, or designated crisis responder shall notify the tribe and Indian health care provider regarding any action that will be taken under this section as soon as possible, but no later than three hours from the time the decision to take action is made. The agency, facility, or designated crisis responder must provide the tribe and Indian health care provider with a copy of the petition, together with any orders issued by the court and a notice of the tribe's right to intervene as soon as possible, but before any hearing under this section, and no later than 24 hours from the time the petition is served upon the person and the person's guardian. The court clerk shall provide copies of any court orders necessary for the agency, facility, or designated crisis responder to provide notice to the tribe or Indian health care provider under this section. Notification under this section is subject to any federal and state laws and regulations including the requirements in RCW 70.02.230 (2)(ee) and (3) and shall be made in person or by telephonic or electronic communication to the tribal contact listed in the authority's tribal crisis coordination plan.

**Sec. 24.** RCW 71.05.590 and 2023 c 433 s 11 are each amended to read as follows:

(1) Either an agency or facility designated to monitor or provide services under a less restrictive alternative order or conditional release, or a designated crisis responder, may take action to enforce, modify, or revoke a less restrictive alternative treatment order or conditional release order. The agency, facility, or designated crisis responder must determine that:

(a) The person is failing to adhere to the terms and conditions of the order;

(b) Substantial deterioration in the person's functioning has occurred;

(c) There is evidence of substantial decompensation with a reasonable probability that the decompensation can be reversed by further evaluation, intervention, or treatment; or

(d) The person poses a likelihood of serious harm.

(2) Actions taken under this section must include a flexible range of responses of varying levels of intensity appropriate to the circumstances and consistent with the interests of the individual and the public in personal autonomy, safety, recovery, and compliance. Available actions may include, but are not limited to, any of the following:

(a) To counsel or advise the person as to their rights and responsibilities under the court order, and to offer incentives to motivate compliance;

(b) To increase the intensity of outpatient services provided to the person by increasing the frequency of contacts with the provider, referring the person for an assessment for assertive community services, or by other means;

(c) To request a court hearing for review and modification of the court order. The request must be directed to the court with jurisdiction over the order and specify the circumstances that give rise to the request and what modification is being sought. The county prosecutor shall assist the entity requesting the hearing and issue an appropriate summons to the person. This subsection does not limit the inherent authority of a treatment provider to alter conditions of treatment for clinical reasons, and is intended to be used only when court intervention is necessary or advisable to secure the person's compliance and prevent decompensation or deterioration;

(d) To detain the person for up to 12 hours for evaluation at an agency, facility providing services under the court order, crisis stabilization unit, 23-hour crisis relief center, emergency department, evaluation and treatment facility, secure withdrawal management and stabilization facility, or an approved substance use disorder treatment program. The purpose of the evaluation is to determine whether modification, revocation, or commitment proceedings are necessary and appropriate to stabilize the person and prevent decompensation, deterioration, or physical harm. Temporary detention for evaluation under this subsection is intended to occur only following a pattern of noncompliance or the failure of reasonable attempts at outreach and engagement, and may occur only when, based on clinical judgment, temporary detention is appropriate. The agency, facility, or designated crisis responder may request assistance from a peace officer for the purposes of temporary detention under this subsection (2)(d). This subsection does not limit the ability or obligation of the agency, facility, or designated crisis responder to pursue revocation procedures under subsection (5) of this section in appropriate circumstances; and

(e) To initiate revocation procedures under subsection (5) of this section.

(3) A court may supervise a person on an order for less restrictive alternative treatment or a conditional release. While the person is under the order, the court may:

(a) Require appearance in court for periodic reviews; and

(b) Modify the order after considering input from the agency or facility designated to provide or facilitate services. The court may not remand the person into inpatient treatment except as provided under subsection (5) of this section, but may take actions under subsection (2)(a) through (d) of this section.

(4) The facility or agency designated to provide outpatient treatment shall notify the secretary of the department of social and health services or designated crisis responder when a person fails to adhere to terms and conditions of court ordered treatment or experiences substantial deterioration in his or her condition and, as a result, presents an increased likelihood of serious harm.

(5)(a) A designated crisis responder or the secretary of the department of social and health services may, upon their own

motion or upon request of the facility or agency designated to provide outpatient care, cause a person to be detained in an evaluation and treatment facility, secure withdrawal management and stabilization facility, or approved substance use disorder treatment program in or near the county in which he or she is receiving outpatient treatment for the purpose of a hearing for revocation of a less restrictive alternative treatment order or conditional release order under this chapter. The designated crisis responder or secretary of the department of social and health services shall file a petition for revocation within 24 hours and serve the person, their guardian, if any, and their attorney. A hearing for revocation of a less restrictive alternative treatment order or conditional release order may be scheduled without detention of the person.

(b) A person detained under this subsection (5) must be held until such time, not exceeding five days, as a hearing can be scheduled to determine whether or not the order for less restrictive alternative treatment or conditional release should be revoked, modified, or retained. If the person is not detained, the hearing must be scheduled within five days of service on the person. The designated crisis responder or the secretary of the department of social and health services may withdraw its petition for revocation at any time before the court hearing.

(c) A person detained under this subsection (5) has the same rights with respect to notice, hearing, and counsel as in any involuntary treatment proceeding, except as specifically set forth in this section. There is no right to jury trial. The venue for proceedings is the county where the petition is filed. Notice of the filing must be provided to the court that originally ordered commitment, if different from the court where the petition for revocation is filed, within two judicial days of the person's detention.

(d) The issues for the court to determine are whether: (i) The person adhered to the terms and conditions of the order; (ii) substantial deterioration in the person's functioning has occurred; (iii) there is evidence of substantial decompensation with a reasonable probability that the decompensation can be reversed by further inpatient treatment; or (iv) there is a likelihood of serious harm; and, if any of the above conditions apply, whether it is appropriate for the court to reinstate or modify the person's less restrictive alternative treatment order or conditional release order or order the person's detention for inpatient treatment. The person may waive the court hearing and allow the court to enter a stipulated order upon the agreement of all parties. If the court orders detention for inpatient treatment, the treatment period must be for 14 days from the revocation hearing if the less restrictive alternative treatment order or conditional release order was based on a petition under RCW 71.05.148, 71.05.160, or 71.05.230. If the court orders detention for inpatient treatment and the less restrictive alternative treatment order or conditional release order was based on a petition under

RCW 71.05.290 or 71.05.320, the number of days remaining on the order must be converted to days of inpatient treatment.

(6) In determining whether or not to take action under this section the designated crisis responder, agency, or facility must consider the factors specified under RCW 71.05.212 and the court must consider the factors specified under RCW 71.05.245 as they apply to the question of whether to enforce, modify, or revoke a court order for involuntary treatment.

(7) Prior to taking any action to enforce, modify, or revoke a less restrictive alternative treatment order or conditional release order in which the agency, facility, or designated crisis responder knows, or has reason to know, that the individual is an American Indian or Alaska Native who receives medical or behavioral health services from a tribe within this state, the agency, facility, or designated crisis responder shall notify the tribe and Indian health care provider regarding any action that will be taken under this section as soon as possible, but no later than three hours from the time the decision to take action is made. The agency, facility, or designated crisis responder must provide the tribe and Indian health care provider with a copy of the petition, together with any orders issued by the court and a notice of the tribe's right to intervene as soon as possible, but before any hearing under this section, and no later than 24 hours from the time the petition is served upon the person and the person's guardian. The court clerk shall provide copies of any court orders necessary for the agency, facility, or designated crisis responder to provide notice to the tribe or Indian health care provider under this section. Notification under this section is subject to any federal and state laws and regulations including the requirements in RCW 70.02.230 (2)(ee) and (3) and shall be made in person or by telephonic or electronic communication to the tribal contact listed in the authority's tribal crisis coordination plan.

**Sec. 25.** RCW 71.05.620 and 2023 c 298 s 1 are each amended to read as follows:

**Sec. 26.** RCW 71.34.780 and 2020 c 302 s 97 are each amended to read as follows:

(1) If the professional person in charge of an outpatient treatment program, a designated crisis responder, or the director or secretary, as appropriate, determines that a minor is failing to adhere to the conditions of the court order for less restrictive alternative treatment or the conditions for the conditional release, or that substantial deterioration in the minor's functioning has occurred, the designated crisis responder, or the director or secretary, as appropriate, may order that the minor be taken into custody and transported to an inpatient evaluation and treatment facility, a secure withdrawal management and stabilization facility, or an approved substance use disorder treatment program. A secure withdrawal management and stabilization facility or approved substance use disorder treatment program that has adequate space for the minor must be available.

(2)(a) The designated crisis responder, director, or secretary, as appropriate, shall file the order of apprehension and detention and serve it upon the minor and notify the minor's parent and the minor's attorney, if any, of the detention within two days of return. At the time of service the minor shall be informed of the right to a hearing and to representation by an attorney. The designated crisis responder or the director or secretary, as appropriate, may modify or rescind the order of apprehension and detention at any time prior to the hearing.

(b) If the minor is involuntarily detained for revocation at an evaluation and treatment facility, secure withdrawal management and stabilization facility, or approved substance use disorder treatment program in a different county from where the minor was initially detained, the facility or program may file the order of apprehension, serve it on the minor and notify the minor's parents and the minor's attorney at the request of the designated crisis responder.

(3) A petition for revocation of less restrictive alternative treatment shall be filed by the designated crisis responder or the director, secretary, or facility, as appropriate, with the court in the county where the minor is detained. The court shall conduct the hearing in that county. A petition for revocation of conditional release must be filed in the county where the minor is detained. A petition shall

describe the behavior of the minor indicating violation of the conditions or deterioration of routine functioning and a dispositional recommendation. The hearing shall be held within seven days of the minor's return. The issues to be determined are whether the minor did or did not adhere to the conditions of the less restrictive alternative treatment or conditional release, or whether the minor's routine functioning has substantially deteriorated, and, if so, whether the conditions of less restrictive alternative treatment or conditional release should be modified or, subject to subsection (4) of this section, whether the minor should be returned to inpatient treatment. Pursuant to the determination of the court, the minor shall be returned to less restrictive alternative treatment or conditional release on the same or modified conditions or shall be returned to inpatient treatment. If the minor is returned to inpatient treatment, RCW 71.34.760 regarding the director's placement responsibility shall apply. The hearing may be waived by the minor and the minor returned to inpatient treatment or to less restrictive alternative treatment or conditional release on the same or modified conditions.

(4) A court may not order the return of a minor to inpatient treatment in a secure withdrawal management and stabilization facility or approved substance use disorder treatment program unless there is a secure withdrawal management and stabilization facility or approved substance use disorder treatment program available with adequate space for the minor.

(5) Prior to taking any action to enforce, modify, or revoke a less restrictive alternative treatment order or conditional release order in which the agency, facility, or designated crisis responder knows, or has reason to know, that the minor is an American Indian or Alaska Native who receives medical or behavioral health services from a tribe within this state, the agency, facility, or designated crisis responder shall notify the tribe and Indian health care provider regarding any action that will be taken under this section as soon as possible, but no later than three hours from the time the decision to take action is made. The agency, facility, or designated crisis responder must provide the tribe and Indian health care provider with a copy of the petition, together with any orders issued by the court and a notice of the tribe's right to intervene as soon as possible, but before any hearing under this section, and no later than 24 hours from the time the petition is served upon the person and the person's guardian. The court clerk shall provide copies of any court orders necessary for the agency, facility, or designated crisis responder to provide notice to the tribe or Indian health care provider under this section. Notification under this section is subject to any federal and state laws and regulations including the requirements in RCW 70.02.240 and shall be made in person or by telephonic or electronic communication to the tribal contact listed in the authority's tribal crisis coordination plan.

**Sec. 27.** RCW 71.34.780 and 2020 c 302 s 98 are each amended to read as follows:

(1) If the professional person in charge of an outpatient treatment program, a designated crisis responder, or the director or secretary, as appropriate, determines that a minor is failing to adhere to the conditions of the court order for less restrictive alternative treatment or the conditions for the conditional release, or that substantial deterioration in the minor's functioning has occurred, the designated crisis responder, or the director or secretary, as appropriate, may order that the minor be taken into custody and transported to an inpatient evaluation and treatment facility, a secure withdrawal management and stabilization facility, or an approved substance use disorder treatment program.

(2)(a) The designated crisis responder, director, or secretary, as appropriate, shall file the order of apprehension and detention and serve it upon the minor and notify the minor's parent and the minor's attorney, if any, of the detention within two days of return. At the time of service the minor shall be informed of the right to a hearing and to representation by an attorney. The designated crisis responder or the director or secretary, as appropriate, may modify or rescind the order of apprehension and detention at any time prior to the hearing.

(b) If the minor is involuntarily detained for revocation at an evaluation and treatment facility, secure withdrawal management and stabilization facility, or approved substance use disorder treatment program in a different county from where the minor was initially detained, the facility or program may file the order of apprehension, serve it on the minor and notify the minor's parents and the minor's attorney at the request of the designated crisis responder.

(3) A petition for revocation of less restrictive alternative treatment shall be filed by the designated crisis responder or the director, secretary, or facility, as appropriate, with the court in the county where the minor is detained. The court shall conduct the hearing in that county. A petition for revocation of conditional release must be filed in the county where the minor is detained. A petition shall describe the behavior of the minor indicating violation of the conditions or deterioration of routine functioning and a dispositional recommendation. The hearing shall be held within seven days of the minor's return. The issues to be determined are whether the minor did or did not adhere to the conditions of the less restrictive alternative treatment or conditional release, or whether the minor's routine functioning has substantially deteriorated, and, if so, whether the conditions of less restrictive alternative treatment or conditional release should be modified or whether the minor should be returned to inpatient treatment. Pursuant to the determination of the court, the minor shall be returned to less restrictive alternative treatment or conditional release on the same or modified conditions or shall be returned

to inpatient treatment. If the minor is returned to inpatient treatment, RCW 71.34.760 regarding the director's placement responsibility shall apply. The hearing may be waived by the minor and the minor returned to inpatient treatment or to less restrictive alternative treatment or conditional release on the same or modified conditions.

(4) Prior to taking any action to enforce, modify, or revoke a less restrictive alternative treatment order or conditional release order in which the agency, facility, or designated crisis responder knows, or has reason to know, that the minor is an American Indian or Alaska Native who receives medical or behavioral health services from a tribe within this state, the agency, facility, or designated crisis responder shall notify the tribe and Indian health care provider regarding any action that will be taken under this section as soon as possible, but no later than three hours from the time the decision to take action is made. The agency, facility, or designated crisis responder must provide the tribe and Indian health care provider with a copy of the petition, together with any orders issued by the court and a notice of the tribe's right to intervene as soon as possible, but before any hearing under this section, and no later than 24 hours from the time the petition is served upon the person and the person's guardian. The court clerk shall provide copies of any court orders necessary for the agency, facility, or designated crisis responder to provide notice to the tribe or Indian health care provider under this section. Notification under this section is subject to any federal and state laws and regulations including the requirements in RCW 70.02.240 and shall be made in person or by telephonic or electronic communication to the tribal contact listed in the authority's tribal crisis coordination plan.

A tribe may apply to the authority on a quarterly basis for reimbursement of its direct costs in providing judicial services for civil commitment cases under this chapter and chapter 71.34 RCW. The behavioral health administrative services organization shall in turn be entitled to reimbursement from the behavioral health administrative services organization that serves the county of residence of the individual who is the subject of the civil commitment case.

(2) Reimbursement for judicial services shall be provided per civil commitment case at a rate to be determined based on an independent assessment of the county's or tribe's actual direct costs. This assessment must be based on an average of the expenditures for judicial services within the county or tribe over the past three years. In the event that a baseline cannot

be established because there is no significant history of similar cases within the county or tribe, the reimbursement rate shall be equal to ~~((eighty))~~ 80 percent of the median reimbursement rate of counties or tribes, if applicable included in the independent assessment.

(3) For the purposes of this section:

(a) "Civil commitment case" includes all judicial hearings related to a single episode of hospitalization or less restrictive alternative treatment, except that the filing of a petition for a one hundred eighty-day commitment under this chapter or a petition for a successive ~~((one hundred eighty-day))~~ 180-day commitment under chapter 71.34 RCW shall be considered to be a new case regardless of whether there has been a break in detention. "Civil commitment case" does not include the filing of a petition for a ~~((one hundred eighty-day))~~ 180-day commitment under this chapter on behalf of a patient at a state psychiatric hospital.

(b) "Judicial services" means a county's or tribe's reasonable direct costs in providing prosecutor services, assigned counsel and defense services, court services, and court clerk services for civil commitment cases under this chapter and chapter 71.34 RCW.

(4) To the extent that resources have a shared purpose, the behavioral health administrative services organization may only reimburse counties to the extent such resources are necessary for and devoted to judicial services as described in this section. To the extent that resources have a shared purpose, the authority may only reimburse tribes to the extent the resources are necessary for and devoted to judicial services as described in this section.

(5) No filing fee may be charged or collected for any civil commitment case subject to reimbursement under this section.

If the person receives a less restrictive alternative order and is returning to another region, the behavioral health administrative services organization shall notify the behavioral health administrative services organization in the home region of the less restrictive alternative order so that the home behavioral health administrative services organization may notify the person's managed care organization or provide services if the person is not enrolled in medicaid and does not have other insurance which can pay for those services;

**MESSAGE FROM THE SENATE**

Friday, March 1, 2024

Mme. Speaker:

The Senate has passed ENGROSSED SECOND SUBSTITUTE HOUSE BILL NO. 2099, with the following amendment(s): 2099-S2.E AMS TRAN S5447.1

Strike everything after the enacting clause and insert the following:

"**Sec. 1.** RCW 72.09.270 and 2021 c 200 s 3 are each amended to read as follows:

(1) The department of corrections shall develop an individual reentry plan as defined in RCW 72.09.015 for every incarcerated individual who is committed to the jurisdiction of the department except:

(a) Incarcerated individuals who are sentenced to life without the possibility of release or sentenced to death under chapter 10.95 RCW; and

(b) Incarcerated individuals who are subject to the provisions of 8 U.S.C. Sec. 1227.

(2) The individual reentry plan may be one document, or may be a series of individual plans that combine to meet the requirements of this section.

(3) In developing individual reentry plans, the department shall assess all incarcerated individuals using standardized and comprehensive tools to identify the criminogenic risks, programmatic needs, and educational and vocational skill levels for each incarcerated individual. The assessment tool should take into account demographic biases, such as culture, age, and gender, as well as the needs of the incarcerated individual, including any learning disabilities, substance abuse or mental health issues, and social or behavior challenges.

(4)(a) The initial assessment shall be conducted as early as sentencing, but, whenever possible, no later than forty-five days of being sentenced to the jurisdiction of the department of corrections.

(b) The incarcerated individual's individual reentry plan shall be developed as soon as possible after the initial assessment is conducted, but, whenever possible, no later than sixty days after completion of the assessment, and shall be periodically reviewed and updated as appropriate.

(5) The individual reentry plan shall, at a minimum, include:

(a) A plan to maintain contact with the incarcerated individual's children and family, if appropriate. The plan should determine whether parenting classes, or other services, are appropriate to facilitate successful reunification with the incarcerated individual's children and family;

(b) An individualized portfolio for each incarcerated individual that includes the incarcerated individual's education achievements, certifications, employment, work experience, skills, and any training received prior to and during incarceration; and

(c) A plan for the incarcerated individual during the period of incarceration through reentry into the community that addresses the needs of the incarcerated individual including education,

employment, substance abuse treatment, mental health treatment, family reunification, and other areas which are needed to facilitate a successful reintegration into the community.

(6)(a) Prior to discharge of any incarcerated individual, the department shall:

(i) Evaluate the incarcerated individual's needs and, to the extent possible, connect the incarcerated individual with existing services and resources that meet those needs; ~~((and))~~

(ii) Connect the incarcerated individual with a community justice center and/or community transition coordination network in the area in which the incarcerated individual will be residing once released from the correctional system if one exists; and

(iii) Ensure that every consenting incarcerated individual confined in a department of corrections facility for 60 days or longer possesses a valid identicard or driver's license, issued by the department of licensing under chapter 46.20 RCW, prior to the individual's release to the community. Issuance of the identicard or driver's license must not cause a delay in the incarcerated individual's release to the community or transfer to partial confinement. The department must:

(A) Pay any application fee required for obtaining the identicard;

(B) Provide a photo of the incarcerated individual for use on the identicard under RCW 46.20.035(1), which upon request of the individual must be a different photo than the individual's mug shot and not indicate that the individual was incarcerated at the time of the photo; and

(C) Obtain a signature from the individual that is acceptable to the department of licensing to use for an identicard or driver's license.

(b) If the department recommends partial confinement in an incarcerated individual's individual reentry plan, the department shall maximize the period of partial confinement for the incarcerated individual as allowed pursuant to RCW 9.94A.728 to facilitate the incarcerated individual's transition to the community.

(7) The department shall establish mechanisms for sharing information from individual reentry plans to those persons involved with the incarcerated individual's treatment, programming, and reentry, when deemed appropriate. When feasible, this information shall be shared electronically.

(8)(a) In determining the county of discharge for an incarcerated individual released to community custody, the department may approve a residence location that is not in the incarcerated individual's county of origin if the department determines that the residence location would be appropriate based on any court-ordered condition of the incarcerated individual's sentence, victim safety concerns, and factors that increase opportunities for successful reentry and long-term support including, but not limited to, location of family or other sponsoring persons or organizations that will support the incarcerated individual, ability to complete

an educational program that the incarcerated individual is enrolled in, availability of appropriate programming or treatment, and access to housing, employment, and prosocial influences on the person in the community.

(b) In implementing the provisions of this subsection, the department shall approve residence locations in a manner that will not cause any one county to be disproportionately impacted.

(c) If the incarcerated individual is not returned to his or her county of origin, the department shall provide the law and justice council of the county in which the incarcerated individual is placed with a written explanation.

(d)(i) For purposes of this section, except as provided in (d)(ii) of this subsection, the incarcerated individual's county of origin means the county of the incarcerated individual's residence at the time of the incarcerated individual's first felony conviction in Washington state.

(ii) If the incarcerated individual is a homeless person as defined in RCW 43.185C.010, or the incarcerated individual's residence is unknown, then the incarcerated individual's county of origin means the county of the incarcerated individual's first felony conviction in Washington state.

(9) Nothing in this section creates a vested right in programming, education, or other services.

NEW SECTION. Sec. 2. A new section is added to chapter 72.09 RCW to read as follows:

(1) The department must issue a department of corrections identification card to an incarcerated person in a correctional facility for identification and use while in that facility.

(2) The department must also issue a department of corrections identification card under this section to any individual in community custody upon the individual's request and may require the individual to report to the closest correctional facility to facilitate completion of the request.

(4) An identicard or a driver's license that includes a photograph that has been renewed by mail or by electronic commerce is valid for identification purposes if the applicant met the identification requirements of subsection (1), (2), or (3) of this section at the time of previous issuance.

(5) The form of an applicant's name, as established under this section, is the person's name of record for the purposes of this chapter.

Mme. Speaker:

The Senate has passed ENGROSSED HOUSE BILL NO. 2266, with the following amendment(s): 2266.E AMS KEIS S5538.1

Strike everything after the enacting clause and insert the following:

**"NEW SECTION. Sec. 1.** In addition to the primary safety and health hazards faced by all construction workers, there are safety and health issues specific to construction workers who menstruate and/or express milk. As an ongoing effort to address labor shortages in the construction industry, as well as to continue recruiting and retaining underrepresented workers in the construction trades, the legislature intends to address some of the basic barriers faced by these construction workers.

**NEW SECTION. Sec. 2.** A new section is added to chapter 49.17 RCW to read as follows:

(1) The director shall adopt rules, pursuant to this section, to address safety and health issues specific to workers performing construction activities who menstruate or express milk, or both. The rules must be included in the rules governing construction safety standards and must be applicable only to employers in the construction industry.

(2) The rules adopted pursuant to this section must require employers in the construction industry to provide workers, performing construction activities and who menstruate, with:

(a) A minimum size bathroom, accessible on the worksite, that is equivalent to a standard sized portable chemical toilet, or access to a permanent structure with a bathroom. The bathroom must have an internal latch to be secured from inadvertent entry;

(b) Adequate time to accommodate for multiple layers of clothing while using the bathroom; and

(c) An adequate and convenient supply of menstrual hygiene products available at no cost to the workers. Menstrual hygiene products must either be located in all gender-neutral bathrooms and bathrooms designated for workers who menstruate, or provided in kits for each worker who needs such product.

(3) The rules adopted pursuant to this section must require employers in the construction industry to provide reasonable accommodations for workers performing construction activities to express milk. The

department must identify minimum reasonable accommodations that include alternatives for worksites of varying numbers of employees. Reasonable accommodations means providing:

(a) Flexible work scheduling, including scheduling breaks and permitting work patterns that provide time for the expression of milk;

(b) A location, other than a bathroom, that is convenient and sanitary for the worker to express milk. The location must be private and lockable, if possible, and free from intrusion;

(c) Convenient hygienic refrigeration on the worksite for the storage of milk; and

(d) A convenient water source for the worker to clean and wash hands and milk expression equipment. The water source must be in a private location near the location where milk is expressed.

(4) On multi-employer worksites, each employer is responsible for ensuring that facilities for their own workers are provided.

(5)(a) Until thirty days after the date the department's adopted rule is filed with the code reviser, or July 1, 2025, whichever date is later, the department may not impose any monetary penalties for violations of this section. This subsection does not prohibit the department from receiving complaints, conducting inspections, issuing citations with no assessed penalty, and fixing reasonable time for abatement of the violation.

(b) When the department's final rules under this section are published by the code reviser in the State Register, the department, in partnership with relevant labor organizations and the office of minority and women's business enterprises, shall conduct educational outreach to construction employers on the rights and responsibilities established in this section."

On page 1, line 2 of the title, after "milk;" strike the remainder of the title and insert "adding a new section to chapter 49.17 RCW; and creating a new section."

**Sec. 2.** RCW 39.114.020 and 2023 c 354 s 2 are each amended to read as follows:

(1) A local government may designate an increment area under this chapter and use the tax allocation revenues to pay public improvement costs, subject to the following conditions:

(a) The local government must adopt an ordinance designating an increment area within its boundaries and describing the public improvements proposed to be paid for, or financed with, tax allocation revenues;

(b) The local government may not designate increment area boundaries such that the entirety of its territory falls within an increment area;

(c) The increment area may not have an assessed valuation of more than \$200,000,000 or more than 20 percent of the sponsoring jurisdiction's total assessed valuation, whichever is less, when the ordinance is passed. If a sponsoring jurisdiction creates two increment areas, the total combined assessed valuation in both of the two increment areas may not equal more than \$200,000,000 or more than 20 percent of the sponsoring jurisdiction's total assessed valuation, whichever is less, when the

ordinances are passed creating the increment areas;

(d) A local government can create no more than two active increment areas at any given time and they may not physically overlap by including the same land in more than one increment area at any time;

(e) The ordinance must set a sunset date for the increment area, which may be no more than 25 years after the first year in which tax allocation revenues are collected from the increment area;

(f) The ordinance must identify the public improvements to be financed and indicate whether the local government intends to issue bonds or other obligations, payable in whole or in part, from tax allocation revenues to finance the public improvement costs, and must estimate the maximum amount of obligations contemplated;

(g) The ordinance must provide that the increment area takes effect on June 1st following the adoption of the ordinance in (a) of this subsection;

(h) The sponsoring jurisdiction may not add additional public improvements to the project after adoption of the ordinance creating the increment area or change the boundaries of the increment area. The sponsoring jurisdiction may expand, alter, or add to the original public improvements when doing so is necessary to assure the originally approved improvements can be constructed or operated;

(i) The ordinance must impose a deadline by which commencement of construction of the public improvements shall begin, which deadline must be at least five years into the future and for which extensions shall be made available for good cause; and

(j) The local government must make a finding that:

(i) The public improvements proposed to be paid or financed with tax allocation revenues are expected to encourage private development within the increment area and to increase the assessed value of real property within the increment area;

(ii) Private development that is anticipated to occur within the increment area as a result of the proposed public improvements will be permitted consistent with the permitting jurisdiction's applicable zoning and development standards;

(iii) The private development would not reasonably be expected to occur solely through private investment within the reasonably foreseeable future without the proposed public improvements; and

(iv) The increased assessed value within the increment area that could reasonably be expected to occur without the proposed public improvements would be less than the increase in the assessed value estimated to result from the proposed development with the proposed public improvements.

(2) In considering whether to designate an increment area, the legislative body of the local government must prepare a project analysis that shall include, but need not be limited to, the following:

(a) A statement of objectives of the local government for the designated increment area;

(b) A statement as to the property within the increment area, if any, that the local government may intend to acquire;

(c) The duration of the increment area;

(d) Identification of all parcels to be included in the area;

(e) A description of the expected private development within the increment area, including a comparison of scenarios with the proposed public improvements and without the proposed public improvements;

(f) A description of the public improvements, estimated public improvement costs, and the estimated amount of bonds or other obligations expected to be issued to finance the public improvement costs and repaid with tax allocation revenues;

(g) The assessed value of real property listed on the tax roll as certified by the county assessor under RCW 84.52.080 from within the increment area and an estimate of the increment value and tax allocation revenues expected to be generated;

(h) An estimate of the job creation reasonably expected to result from the public improvements and the private development expected to occur in the increment area; ~~(and)~~

(i) An assessment of any impacts ~~((and any necessary mitigation to address the impacts identified))~~ on the following:

(i) Affordable and low-income housing;

(ii) The local business community;

(iii) The local school districts; and

(iv) The local fire service, public hospital service, and emergency medical services; and

(j) The assessment of impacts under (i) of this subsection (2) must include any necessary mitigation to the local fire service, public hospital service, and emergency medical services; and

(k) An assessment of any impacts of any other junior taxing districts not referenced in (i) of this subsection (2).

(3) The local government may charge a private developer, who agrees to participate in creating the increment area, a fee sufficient to cover the cost of the project analysis and establishing the increment area, including staff time, professionals and consultants, and other administrative costs related to establishing the increment area.

(4) Nothing in this section prohibits a local government from entering into an agreement under chapter 39.34 RCW with another local government for the administration or other activities related to tax increment financing authorized under this section.

(5) (a) If the project analysis indicates that an increment area will impact at least 20 percent of the assessed value in a public hospital district, fire protection district, or regional fire protection service authority, or if the public hospital district's or the fire service agency's annual report, or other governing board-adopted capital facilities plan, demonstrates an increase in the level of service directly related to the increased development in the increment area, the local government must ~~((negotiate))~~ enter into negotiations for a mitigation plan with the impacted public hospital district, fire

protection district, or regional fire protection service authority to address level of service issues in the increment area.

(b) If the parties cannot agree pursuant to (a) of this subsection (5), the parties must proceed to arbitration to determine the appropriate mitigation plan. The board of arbitrators must consist of three persons: One appointed by the local government seeking to designate the increment area and one appointed by the junior taxing district, both of whom must be appointed within 60 days of the date when arbitration is requested, and a third arbitrator who must be appointed by agreement of the other two arbitrators within 90 days of the date when arbitration is requested. If the two are unable to agree on the appointment of the third arbitrator within this 90-day period, then the third arbitrator must be appointed by a judge in the superior court of the county within which the largest portion of the increment area is located. The determination by the board of arbitrators is binding on both the local government seeking to impose the increment area and the junior taxing district.

(6) The local government may reimburse the assessor and treasurer for their costs as provided in RCW 39.114.010 (6) (e).

(7) Prior to the adoption of an ordinance authorizing creation of an increment area, the local government must:

(a) Hold at least two public briefings for the community solely on the tax increment project that include the description of the increment area, the public improvements proposed to be financed with the tax allocation revenues, and a detailed estimate of tax revenues for the participating local governments and taxing districts, including the amounts allocated to the increment public improvements. The briefings must be announced at least two weeks prior to the date being held, including publishing in a legal newspaper of general circulation and posting information on the local government website and all local government social media sites, and must occur no earlier than 90 days after submitting the project analysis to the office of the treasurer and all local governments and taxing districts impacted by the increment area; ~~((and))~~

(b) Submit the project analysis to all local governments and taxing districts impacted by the increment area no less than 90 days prior to the adoption of the ordinance; and

(c) Submit the project analysis to the office of the treasurer for review and consider any comments that the treasurer may provide upon completion of their review of the project analysis as provided under this subsection. The treasurer must complete the review within 90 days of receipt of the project analysis and may consult with other agencies and outside experts as necessary. Upon completing their review, the treasurer must promptly provide to the local government any comments regarding suggested revisions or enhancements to the project analysis that the treasurer deems appropriate based on the requirements in subsection (2) of this section.

**Sec. 3.** RCW 39.114.040 and 2023 c 354 s 3 are each amended to read as follows:

The local government designating the increment area must:

(1) Provide written notice to the governing body of each taxing district within which the increment area is located a minimum of 90 days before submitting the project analysis to the office of the treasurer as required in RCW 39.114.020(7)(c).

(2) Publish notice in a legal newspaper of general circulation within the jurisdiction of the local government at least two weeks before the date on which the ordinance authorizing creation of an increment area is adopted that describes the public improvements, describes the boundaries of the increment area, and identifies the location and times where the ordinance and other public information concerning the public improvement may be inspected; and

~~((2))~~ (3) Deliver a certified copy of the adopted ordinance to the county treasurer, the county assessor, and the governing body of each taxing district within which the increment area is located at the respective addresses specified pursuant to RCW 42.56.040 within 10 days of the date on which the ordinance was adopted."

On page 1, line 5 of the title, after "paid;" strike the remainder of the title and insert "and amending RCW 39.114.010, 39.114.020, and 39.114.040."

**Sec. 14.** RCW 18.79.256 and 2015 c 104 s 1 are each amended to read as follows:

An advanced practice registered nurse (~~(practitioner)~~) may sign and attest to any certificates, cards, forms, or other required documentation that a physician may sign, so long as it is within the advanced practice registered nurse's (~~(practitioner's)~~) scope of practice.

**Sec. 15.** RCW 18.79.260 and 2022 c 14 s 2 are each amended to read as follows:

(1) A registered nurse under his or her license may perform for compensation nursing care, as that term is usually understood, to individuals with illnesses, injuries, or disabilities.

(2) A registered nurse may, at or under the general direction of a licensed physician and surgeon, dentist, osteopathic physician and surgeon, naturopathic physician, optometrist, podiatric physician and surgeon, physician assistant, advanced practice registered nurse (~~(practitioner)~~), or midwife acting within the scope of his or her license, administer medications, treatments, tests, and inoculations, whether or not the severing or penetrating of tissues is involved and whether or not a degree of independent judgment and skill is required. Such direction must be for acts which are within the scope of registered nursing practice.

(3) A registered nurse may delegate tasks of nursing care to other individuals where the registered nurse determines that it is in the best interest of the patient.

(a) The delegating nurse shall:

(i) Determine the competency of the individual to perform the tasks;

(ii) Evaluate the appropriateness of the delegation;

(iii) Supervise the actions of the person performing the delegated task; and

(iv) Delegate only those tasks that are within the registered nurse's scope of practice.

(b) A registered nurse, working for a home health or hospice agency regulated under chapter 70.127 RCW, may delegate the application, instillation, or insertion of medications to a registered or certified nursing assistant under a plan of care.

(c) Except as authorized in (b) or (e) of this subsection, a registered nurse may not delegate the administration of medications. Except as authorized in (e) or (f) of this subsection, a registered nurse may not delegate acts requiring substantial skill, and may not delegate piercing or severing of tissues. Acts that require nursing judgment shall not be delegated.

(d) No person may coerce a nurse into compromising patient safety by requiring the nurse to delegate if the nurse determines that it is inappropriate to do so. Nurses shall not be subject to any employer reprisal or disciplinary action by the (~~(nursing care quality assurance commission)~~)board for refusing to delegate tasks or refusing to provide the required training for delegation if the nurse determines delegation may compromise patient safety.

(e) For delegation in community-based care settings or in-home care settings, a registered nurse may delegate nursing care tasks only to registered or certified nursing assistants under chapter 18.88A RCW or home care aides certified under chapter 18.88B RCW. Simple care tasks such as blood pressure monitoring, personal care service, diabetic insulin device set up, verbal verification of insulin dosage for sight-impaired individuals, or other tasks as defined by the (~~(nursing care quality assurance commission)~~)board are exempted from this requirement.

(i) "Community-based care settings" includes: Community residential programs for people with developmental disabilities, certified by the department of social and health services under chapter 71A.12 RCW; adult family homes licensed under chapter 70.128 RCW; and assisted living facilities licensed under chapter 18.20 RCW. Community-based care settings do not include acute care or skilled nursing facilities.

(ii) "In-home care settings" include an individual's place of temporary or permanent residence, but does not include acute care or skilled nursing facilities, and does not include community-based care settings as defined in (e)(i) of this subsection.

(iii) Delegation of nursing care tasks in community-based care settings and in-home care settings is only allowed for individuals who have a stable and predictable condition. "Stable and predictable condition" means a situation in which the individual's clinical and behavioral status is known and does not require the frequent presence and evaluation of a registered nurse.

(iv) The determination of the appropriateness of delegation of a nursing task is at the discretion of the registered nurse. Other than delegation of the administration of insulin by injection for the purpose of caring for individuals with diabetes, the administration of medications by injection, sterile procedures, and central line maintenance may never be delegated.

(v) When delegating insulin injections under this section, the registered nurse delegator must instruct the individual regarding proper injection procedures and the use of insulin, demonstrate proper injection procedures, and must supervise and evaluate the individual performing the delegated task as required by the (~~(commission)~~)board by rule. If the registered nurse delegator determines that the individual is competent to perform the injection properly and safely, supervision and evaluation shall occur at an interval determined by the (~~(commission)~~)board by rule.

(vi)(A) The registered nurse shall verify that the nursing assistant or home care aide, as the case may be, has completed the required core nurse delegation training required in chapter 18.88A or 18.88B RCW prior to authorizing delegation.

(B) Before commencing any specific nursing tasks authorized to be delegated in this section, a home care aide must be certified pursuant to chapter 18.88B RCW and must comply with RCW 18.88B.070.

(vii) The nurse is accountable for his or her own individual actions in the delegation process. Nurses acting within the protocols of their delegation authority are immune from liability for any action performed in the course of their delegation duties.

(viii) Nursing task delegation protocols are not intended to regulate the settings in which delegation may occur, but are intended to ensure that nursing care services have a consistent standard of practice upon which the public and the profession may rely, and to safeguard the authority of the nurse to make independent professional decisions regarding the delegation of a task.

(f) The delegation of nursing care tasks only to registered or certified nursing assistants under chapter 18.88A RCW or to home care aides certified under chapter 18.88B RCW may include glucose monitoring and testing.

(g) The ~~((nursing care quality assurance commission))~~board may adopt rules to implement this section.

(4) Only a person licensed as a registered nurse may instruct nurses in technical subjects pertaining to nursing.

(5) Only a person licensed as a registered nurse may hold herself or himself out to the public or designate herself or himself as a registered nurse.

(a) A requirement for a written, current, and unexpired request from a parent, legal guardian, or other person having legal control over the student that the school district or private school provide for the catheterization of the student;

(b) A requirement for a written, current, and unexpired request from a physician licensed under chapter 18.71 or 18.57 RCW, that catheterization of the student be provided for during the hours when school is in session or the hours when the student is under the supervision of school officials;

**MESSAGE FROM THE SENATE**

Thursday, February 29, 2024

Mme. Speaker:

The Senate has passed ENGROSSED SUBSTITUTE HOUSE BILL NO. 1248, with the following amendment(s): 1248-S.E AMS EDU S5362.1

Strike everything after the enacting clause and insert the following:

"NEW SECTION. **Sec. 1.** The legislature recognizes that school bus drivers play a crucial role in ensuring students' safe passage to and from school, preventing absences, and extending a positive school climate beyond the classroom. By delivering this essential service, school bus drivers provide a significant time and convenience benefit to thousands of Washington families, remove cars from the road, reduce overall emissions, and increase traffic safety. However, a recent national survey revealed that 94 percent of bus contractors experience driver shortages, with 21 percent reporting their shortages as severe. With this act, the state of Washington intends to encourage the retention of bus drivers who provide vital services to local communities.

**Sec. 2.** RCW 28A.160.140 and 1990 c 33 s 140 are each amended to read as follows:

(1) As a condition of entering into a pupil transportation services contract with a private nongovernmental entity, each school district shall engage in an open competitive process at least once every five years. This requirement shall not be construed to prohibit a district from entering into a pupil transportation services contract of less than five years in duration with a district option to renew, extend, or terminate the contract, if the district engages in an open competitive process at least once every five years after July 26, 1987.

(2)(a) A school district may only enter into, renew, or extend a pupil transportation services contract with a private nongovernmental entity if that

entity provides the following to, or on behalf of, its employees who choose to opt in for coverage:

(i) An employer health benefits contribution equal to the employer payment dollar amount in effect for the first year of the contract for health care benefit rates (cockle rates), published annually by the health care authority, for the school employees' benefits board program for school employees; and

(ii) An amount equivalent to the salaries of the employees of the private nongovernmental entity multiplied by the employer normal cost contribution rate determined under the entry age cost method for the school employees' retirement system, as published in the most recent actuarial valuation report from the office of the state actuary for the first year of the contract.

(b) All pupil transportation service contracts entered into or modified after the effective date of this section must include a detailed explanation of any contract cost increase by year, expenditure type, and amount, including any increases in cost that result from providing the benefits required under this section.

(c) For contracts entered into, renewed, or extended in the 2024 calendar year, the benefits required under this section must be provided to employees by the beginning of the 2025-26 school year.

(3) As used in this section:

~~((1))~~(a) "Employees" means in-state employees of the private nongovernmental entity working sufficient compensated hours performing services pursuant to the contract with the school district to meet the eligibility requirements for the school employees' benefits board program if the employees were directly employed by a school district;

(b) "Open competitive process" means either one of the following, at the choice of the school district:

~~((a))~~(i) The solicitation of bids or quotations and the award of contracts under RCW 28A.335.190; or

~~((b))~~(ii) The competitive solicitation of proposals and their evaluation consistent with the process and criteria recommended or required, as the case may be, by the office of financial management for state agency acquisition of personal service contractors;

~~((2))~~(c) "Pupil transportation services contract" means a contract for the operation of privately owned or school district owned school buses, and the services of drivers or operators, management and supervisory personnel, and their support personnel such as secretaries, dispatchers, and mechanics, or any combination thereof, to provide students with transportation to and from school on a regular basis; and

~~((3))~~(d) "School bus" means a motor vehicle as defined in RCW 46.04.521 and under the rules of the superintendent of public instruction.

NEW SECTION. **Sec. 3.** A new section is added to chapter 28A.160 RCW to read as follows:

(1) A school district that experiences an increase in costs to a pupil transportation services contract as compared to prior year contract costs as a result of the provisions in RCW 28A.160.140 is eligible for supplemental transportation allocations as described in this section.

(2) Beginning September 1, 2024, school districts that provide pupil transportation through a contract with a nongovernmental entity under RCW 28A.160.140 must annually provide the office of the superintendent of public instruction with the following information:

(a) A breakdown of the total contract cost increase, including a detailed explanation of the increase by expenditure type demonstrating dollar equivalency as required in RCW 28A.160.140(2)(a)(i) and percentage equivalency as required in RCW 28A.160.140(2)(a)(ii), as defined by the office of the superintendent of public instruction, and amount;

(b) A breakdown of cost from the contractor that shows the cost to provide health care and pension benefits to employees prior to the effective date of this section and the cost to provide health care and pension benefits to employees after the implementation of benefits as described in RCW 28A.160.140;

(c) The amount of funding received through transportation allocations under RCW 28A.160.150 through 28A.160.192 prior to the implementation of school employee benefits under chapter 41.05 RCW and the amount of funding received through the same transportation allocations for the period immediately following the implementation of school employee benefits under chapter 41.05 RCW, to determine the amount of funding for health care that is already being included in allocations.

(3) The office of the superintendent of public instruction may suspend the reporting requirements under subsection (2) of this section on or after September 1, 2027, for districts that do not request supplemental transportation allocations under this section.

(4) Subject to the availability of amounts appropriated for this specific purpose, the office of the superintendent of public instruction must reimburse a school district for the increased cost that is directly attributable to increased benefits as required under this act, using the following formula: The total contract cost increase, less any amounts not attributable to benefits required under RCW 28A.160.140, less the amount the allocation was increased based on the actual cost increase through the transportation funding formula."

On page 1, line 1 of the title, after "transportation;" strike the remainder of the title and insert "amending RCW 28A.160.140; adding a new section to chapter 28A.160 RCW; and creating a new section."

and the same is herewith transmitted.

(21) Interference with an investigation or disciplinary proceeding by willful misrepresentation of facts before the disciplining authority or its authorized

representative, or by the use of threats or harassment against any patient or witness to prevent them from providing evidence in a disciplinary proceeding or any other legal action, or by the use of financial inducements to any patient or witness to prevent or attempt to prevent him or her from providing evidence in a disciplinary proceeding;

ENGROSSED SUBSTITUTE HOUSE BILL NO. 1300, as amended by the Senate, having received the necessary constitutional majority, was declared passed.

### MESSAGE FROM THE SENATE

Friday, March 1, 2024

Mme. Speaker:

The Senate has passed SUBSTITUTE HOUSE BILL NO. 1870, with the following amendment(s): 1870-S AMS WM S5547.1

Strike everything after the enacting clause and insert the following:

**"NEW SECTION. Sec. 1.** The legislature finds that Washington ranks poorly among all states in the amount of federal grants received relative to income taxes collected from its residents.

The legislature also finds that many of Washington's communities, particularly in slow-growing rural areas, face an economic development "chicken and egg" dilemma in which they need to secure matching dollars in order to obtain federal economic development dollars that would increase the local tax base, local revenue, and local employment and incomes.

The legislature further finds that recent federal legislation provides funding for economic development clusters that Washington state has invested in as part of its economic development strategy, including broadband and clean energy, buildings, and transportation. The federal legislation includes the infrastructure investment and jobs act, P.L. 117-58, the creating helpful incentives to produce semiconductors and science act, P.L. 117-167, and the inflation reduction act, P.L. 117-169.

The legislature further finds that increasing the availability of federal grant dollars in local communities provides a benefit of a reasonably general character to a significant part of the public.

Therefore, the legislature intends to continue and expand its efforts to increase the capacity of the department of commerce to assist local communities in successfully applying for federal grant dollars including through providing local communities with state matching funds for securing federal grants.

**Sec. 2.** RCW 43.330.070 and 1993 c 280 s 10 are each amended to read as follows:

(1) The department shall work closely with local communities to increase their capacity to respond to economic, environmental, and social problems and

challenges. The department shall coordinate the delivery of development services and technical assistance to local communities or regional areas. It shall promote partnerships between the public and private sectors and between state and local officials to encourage appropriate economic growth and opportunity in communities throughout the state. The department shall promote appropriate local development by: Supporting the ability of communities to develop and implement strategic development plans; assisting businesses to start up, maintain, or expand their operations; encouraging public infrastructure investment and private and public capital investment in local communities; supporting efforts to manage growth and provide affordable housing and housing services; providing for the identification and preservation of the state's historical and cultural resources; and expanding employment opportunities.

(2) The department shall define a set of services including training and technical assistance that it will make available to local communities, community-based nonprofit organizations, regional areas, or businesses. The department shall simplify access to these programs by providing more centralized and user-friendly information and referral. The department shall coordinate community and economic development efforts to minimize program redundancy and maximize accessibility. The department shall develop a set of criteria for targeting services to local communities. To the extent funding is made available for this purpose, the department shall provide technical assistance or enter into contracts to provide technical assistance to assist local communities in developing competitive applications for federal funding.

(3) The department shall develop a coordinated and systematic approach to providing training to community-based nonprofit organizations, local communities, and businesses. The approach shall be designed to increase the economic and community development skills available in local communities by providing training and funding for training for local citizens, nonprofit organizations, and businesses. The department shall emphasize providing training in those communities most in need of state assistance.

**Sec. 3.** RCW 43.330.088 and 2023 c 311 s 2 are each amended to read as follows:

(1) Subject to the availability of amounts appropriated for this specific purpose, by July 1, 2024, the department shall establish a grant program to support associate development organizations in the recruiting, hiring, and retention of grant writers. The department must award grants on an annual basis and must prioritize grants for distressed areas as defined under RCW 43.168.020 and grants for applications for federal funds.

(2) Associate development organizations must apply for the grant program in a manner to be determined by the department.

(3) Associate development organizations that receive awards under this section must provide information on the use of the funds,

including a description of the associate development organization's recruiting and hiring efforts and, if applicable, the number and types of grants applied for by the grant writers funded by the state, in their annual reports to the department required under RCW 43.330.082.

(4) Beginning December 31, 2026, the department must include information on grant award funding and use in its reports to the legislature on associate development organizations contracts required under RCW 43.330.082.

(5) The department shall adopt rules to implement this section.

**Sec. 4.** RCW 43.330.260 and 2006 c 314 s 2 are each amended to read as follows:

(1) The department shall make available, within existing resources, an inventory of grant opportunities for state agencies, local governments, and other community organizations engaged in economic development activities.

(2) In developing the inventory of economic development grant opportunities, the department may:

(a) Regularly review the federal register for opportunities to apply for grants, research projects, and demonstration projects;

(b) Maintain an inventory of grant opportunities with private foundations and businesses; (~~and~~)

(c) Provide a resource guide for applicants for federal grants, including links to federal applications and relevant resources, and contact information for department assistance; and

(d) Consult with federal officials, including but not limited to those in the small business administration, the department of labor, the department of commerce, the department of agriculture, the department of ecology, as well as private foundations and businesses, on the prospects for obtaining federal and private funds for economic development purposes in Washington state.

(3) The department may also facilitate joint efforts between agencies and between local organizations and state agencies that will increase the likelihood of success in grant seeking and the attraction of major events.

**NEW SECTION. Sec. 5.** If specific funding for the purposes of this act, referencing this act by bill or chapter number, is not provided by June 30, 2024, in the omnibus appropriations act, this act is null and void."

On page 1, line 2 of the title, after "funding;" strike the remainder of the title and insert "amending RCW 43.330.070, 43.330.088, and 43.330.260; and creating new sections."

and the same is herewith transmitted.

SECOND SUBSTITUTE HOUSE BILL NO. 2124, as amended by the Senate, having received the necessary constitutional majority, was declared passed.

**MESSAGE FROM THE SENATE**

Friday, March 1, 2024

Mme. Speaker:

The Senate has passed ENGROSSED SUBSTITUTE HOUSE BILL NO. 2207, with the following amendment(s): 2207-S.E AMS WM S5562.1

Strike everything after the enacting clause and insert the following:

**"NEW SECTION. Sec. 1.** (1) The legislature finds that, despite a modern waste disposal infrastructure, the occurrences of unlawful solid waste dumping are an increasing problem on open spaces such as privately and publicly owned forestlands. This irresponsible waste dumping, which often includes hazardous materials, asbestos, derelict boats, junk vehicles, appliances, furniture, and household garbage not only creates significant costs for the landowner, but also creates immediate, and sometimes lasting, environmental and habitat damage and degradation of recreational and aesthetic opportunities.

(2) The legislature further finds that the current enforcement system, which relies on the criminalization of illegal dumping, may not be the most effective, efficient, or just penalty system. Converting all but the most egregious illegal dumping from a criminal act to a civil infraction creates a system of deterrence and penalties that better reflects the magnitude of the act, avoids criminal records for individuals who may be unable to afford appropriate waste management options, and reduces the burden on local criminal justice systems and infrastructures.

**Sec. 2.** RCW 70A.200.060 and 2003 c 337 s 3 are each amended to read as follows:

(1) It is a violation of this section to ~~((abandon))~~:

The court shall distribute an amount of the litter clean-up restitution payment that equals the actual cost of cleanup to the landowner where the littering incident occurred and the remainder of the restitution payment to the law enforcement agency investigating the incident.

(ii) The court may, in addition to or in lieu of part or all of the cleanup restitution payment, order the person to pick up and remove litter from the property, with prior permission of the legal owner or, in the case of public property, of the agency managing the property.

(iii) The court may suspend or modify the litter cleanup restitution payment for a first-time offender under this section, if the person cleans up and properly disposes of the litter.

This schedule may be periodically reviewed by the legislature and is subject to its revision.

(3) Penalties for violations of RCW 70A.200.060 that are natural resource infractions are as follows:

(a) Up to \$250 for a person found liable of littering between one cubic foot and one cubic yard of material;

(b) Up to \$750 for a person found liable of littering more than one cubic yard and less than seven cubic yards of material;

(c) Up to \$1,000 for a person found liable of littering between seven and 10 cubic yards of material.

#### MESSAGE FROM THE SENATE

Thursday, February 29, 2024

Mme. Speaker:

The Senate has passed ENGROSSED SUBSTITUTE HOUSE BILL NO. 2236, with the following amendment(s): 2236-S.E AMS EDU S5363.1

Strike everything after the enacting clause and insert the following:

**"NEW SECTION. Sec. 1.** (1) The legislature recognizes that career and technical education core plus programs have demonstrated innovation and success in providing meaningful benefits to students and employers through collaborative partnerships that serve as a model for work-integrated learning in Washington. For more than a decade, these programs, and the rigorous career and technical education curricula they incorporate, have prepared students for structured pathways to employment, and presented employers with an expanded pool of candidates with relevant skills and abilities.

(2) Career and technical education core plus programs have been established in three high-demand economic sectors that provide numerous livable wage employment opportunities: Aerospace and advanced manufacturing; construction; and maritime. These programs, which were originally based in manufacturing, but have evolved in response to ever-changing education and economic needs, have been strongly supported by leaders in vital Washington industries, have provided unprecedented education and work-integrated learning opportunities to students. The legislature finds that these successes should be expanded to include an allied health professions program, with a curriculum that is inherently different from that of previously established career and technical education core plus programs, and that related efforts should consider options for future programs that reflect student, teacher, community, and employer needs, including programs in the information technology and natural resources sectors.

(3) Regardless of the sector, continual collaboration between education and industry partners has guided the establishment and operation of career and technical education core plus programs. These joint efforts, and the corresponding financial support from the state and industry partners, have: Focused on developing age-appropriate and developmentally appropriate curricula that is technically focused and academically rigorous; featured employer-supported professional development for teachers; and featured employer-provided worksite-based learning experiences for students and teachers. These elements are instrumental to the success of ongoing programs and offer a strong framework for establishing programs in other industry sectors.

(4) The legislature, therefore, intends to initiate a process for: (a) Soliciting expert recommendations for a career and technical education core plus model framework that can guide: The establishment and operation of successful programs in other high-demand sectors with livable wages and entry-level employment opportunities; and the expansion of operational programs; and (b) establishing a career and technical education program for allied health professions that is responsive to the needs of students, teachers, employers, and communities.

Mme. Speaker:

The Senate has passed ENGROSSED SECOND SUBSTITUTE HOUSE BILL NO. 2301, with the following amendment(s): 2301-S2.E AMS ENGR S5569.E

Strike everything after the enacting clause and insert the following:

**"PART 1 INTENT**

NEW SECTION. **Sec. 101.** INTENT. (1) The legislature finds:

(a) Washington is now experiencing the effects of a climate crisis: Hotter summers with record-breaking temperatures, devastating fires, drought conditions, and rising sea levels that erode our coastlines and are causing some communities to move upland;

(b) Methane is a potent greenhouse gas and landfills are documented by the United States environmental protection agency to be the 3rd largest human-made source, with food, yard waste, and other plant-based organic material degrading in landfills to methane;

(c) Food waste is a major issue in the United States and globally, that, according to the food and agriculture organization of the United Nations, unwanted and discarded food squanders resources, including water, land, energy, labor, and capital, estimated that one-third of the food produced in the world for human consumption, about 1,300,000,000 tons, is lost or wasted every year, and the food loss and waste in

industrialized countries equates to a value of approximately \$680,000,000,000;

(d) The Harvard University food law and policy clinic has estimated that 40 percent of the food supply in the United States is not eaten and that according to the United States environmental protection agency and the United States department of agriculture, food loss and waste is the single largest component of disposed municipal solid waste in the United States;

(e) In 2015, that the administrator of the United States environmental protection agency and the secretary of the United States department of agriculture announced a national goal of reducing food waste by 50 percent by the year 2030. In 2019, Washington established the same goal in RCW 70A.205.715;

(f) Compost and other products of organic material management facilities have beneficial applications and can improve soil health, water quality, and other environmental outcomes. However, in order for the products of organic material management facilities to lead to improved environmental outcomes and for the economics of the operations of these facilities to pencil out, it is important that inbound sources of organic material waste are free of plastic contamination, pesticides, and other materials that will reduce compost quality; and

(g) Farmers, processors, retailers, and food banks in Washington are leaders in addressing this issue, and in 2022, with the enactment of chapter 180, Laws of 2022 (Engrossed Second Substitute House Bill No. 1799), Washington took significant steps towards the improvement of organic material management systems.

(2) It is the legislature's intent to provide additional tools and financial resources to build on this progress in coming years by:

(a) Creating a variety of grant programs to support food waste reduction, food rescue, and other organic material management system improvements, including grants to support the implementation of new policy requirements related to organic material management;

(b) Amending solid waste management requirements in support of improved organic material management outcomes, including through the statewide standardization of colors and labels for organic, recycling, and garbage bins, and amending the organic material management service requirements in local jurisdictions and that apply to businesses;

(c) Making changes to product degradability labeling requirements; and

(d) Continuing to discuss how to maximize donations of food from generators of unwanted edible food.

(3) It is the legislature's intent for the following management option preferences to apply to the management of food under this act, including the provisions of law being amended by this act, in order of most preferred to least preferred:

(a) Prevents wasted food;

(b) Donates or upcycles food;

(c) Feeds animals or leaves food unharvested;

(d) Composts or anaerobically digests materials with beneficial use of the compost, digestate, or biosolids;

(e) Anaerobically digests materials with the disposal of digestate or biosolids, or applies material to the land; and

(f) Sends materials down the drain, to landfills, or incinerates material, with or without accompanying energy recovery.

**PART 2  
FUNDING FOR SUSTAINABLE FOOD MANAGEMENT  
PRIORITIES**

NEW SECTION. **Sec. 201.** A new section is added to chapter 70A.207 RCW to read as follows:

CENTER FOR SUSTAINABLE FOOD MANAGEMENT GRANTS. (1) The department, through the center, must develop and administer grant programs to support activities that reduce emissions from landfills and waste-to-energy facilities through the diversion of organic materials and food waste prevention, rescue, and recovery. The department must seek stakeholder input in the design, criteria, and logistics associated with each grant program. The department must allocate grant funding across the eligible categories specified in subsection (2) of this section in a manner consistent with legislative appropriations, and that achieves the following priorities:

(a) Maximizing greenhouse gas emission reductions;

(b) Eliminating barriers to the rescue and consumption of edible food that would otherwise be wasted;

(c) Developing stable funding programs for the department to administer and stable funding opportunities for potential fund recipients to be aware of; and

(d) Preferences the following management options, in order of most preferred to least preferred:

(i) Prevents wasted food;

(ii) Donates or upcycles food;

(iii) Feeds animals or leaves food unharvested;

(iv) Composts or anaerobically digests materials with beneficial use of the compost, digestate, or biosolids;

(v) Anaerobically digests materials with the disposal of digestate or biosolids, or applies material to the land;

(vi) Sends materials down the drain, to landfills, or incinerates material, with or without accompanying energy recovery.

(2) Subject to the availability of amounts appropriated for this specific purpose, grants under this section may be awarded to the following categories of activities:

(a) Projects to prevent the surplus of unsold, uneaten food from food businesses or to standardize and improve the operating procedures associated with food donations, including efforts to standardize collection bins, provide staff training for food donors or food rescue organizations, or make other changes to increase the efficiency or efficacy of food donation procedures. Local governments, federally recognized Indian tribes and federally recognized Indian tribal government entities, nonprofit

organizations, and generators of unwanted edible food are eligible applicants for grants under this subsection. Equipment and infrastructure purchases, training costs, costs associated with the development and deployment of operating protocols, and employee staff time reimbursement are eligible uses of grant funding under this subsection;

(b) (i) Projects to improve and reduce the transportation of donated foods and management of cold chains across the donated food supply chain, including through food rescue organizations. Local governments, federally recognized Indian tribes and federally recognized Indian tribal government entities, nonprofit organizations, transporters of unwanted edible food, and generators of unwanted edible food are eligible applicants for grants under this subsection. Eligible uses of grant funding under this subsection include the acquisition of vehicles, cold-storage equipment, real estate, and technology to support donated food storage and transportation system improvements.

(ii) Grants under this subsection (2) (b) may not be used for the purchase or lease of equipment that relies on a fuel source other than electricity or the purchase or lease of vehicles other than zero-emission vehicles;

(c) (i) Grant programs to support the establishment and expansion of wasted food reduction programs to benefit vulnerable communities. This grant program must be developed in consultation with the department of health and food policy stakeholders.

(ii) Nonprofit organizations, businesses, associations, federally recognized Indian tribes and federally recognized Indian tribal government entities, and local governments are eligible to receive grants under this subsection. Eligible uses of the funds may include community food hub development projects, cold food storage capacity, refrigerated transport capacity, convenings to inform innovation in wasted food reduction in retail and food service establishments, and pilot projects to reduce wasted food. No more than 20 percent of funds allocated under this subsection (2) (c) may be awarded to a single grant recipient; and

(d) Food waste tracking and analytics pilot project grants. Local governments, federally recognized Indian tribes and federally recognized Indian tribal government entities, nonprofit organizations, transporters of unwanted edible food, and generators of unwanted edible food are eligible applicants for grants under this subsection. Eligible uses of grant funding under this subsection include staff time and technology to improve food waste prevention or improve tracking of food donations through the food supply chain and to provide data useful to enabling more efficient and effective outcomes for the provision of food available for rescue.

(3) The department may establish additional eligibility criteria or application process requirements beyond those described in subsection (2) of this section for a category or categories of activity. The department may, as a condition

of the award of a grant under this section, require the reporting of information to the department regarding the outcomes of the funded activities.

(4) The department may award grants to eligible applicants meeting the minimum qualifying criteria on a competitive basis, or to applicants on a noncompetitive basis, or both. Within each category of activity described in subsection (2) of this section, the department must prioritize grant applications that benefit overburdened communities as defined in RCW 70A.02.010 as identified by the department in accordance with RCW 70A.02.050.

**NEW SECTION. Sec. 202.** A new section is added to chapter 70A.207 RCW to read as follows:

**SUSTAINABLE FOOD MANAGEMENT POLICY IMPLEMENTATION GRANTS.** (1) The department, through the center, must develop and administer grant programs to support the implementation of the requirements of this act and chapter 180, Laws of 2022, with priority given to grants that support the implementation of RCW 70A.205.540 and 70A.205.545. Eligible recipients of grants under this section may include businesses that are subject to organic material management requirements, local governments, federally recognized Indian tribes and federally recognized Indian tribal government entities, nonprofit organizations, or organic material management facilities. Eligible expenses by grant recipients include education, outreach, technical assistance, indoor and outdoor infrastructure, transportation and processing infrastructure, and enforcement costs.

(2) The department may not require, as a condition of financial assistance under this section, that matching funds be made available by a local government recipient. The department must provide assistance to each local government that demonstrates eligibility for grant assistance under this section.

**Sec. 203.** RCW 70A.207.020 and 2022 c 180 s 402 are each amended to read as follows:

**CENTER FOR SUSTAINABLE FOOD MANAGEMENT DUTIES.** (1) The Washington center for sustainable food management is established within the department (~~(, to begin operations by January 1, 2024)~~).

(2) The purpose of the center is to help coordinate statewide food waste reduction.

(3) The center may perform the following activities:

(a) Coordinate the implementation of the plan;

(b) Draft plan updates and measure progress towards actions, strategies, and the statewide goals established in RCW 70A.205.007 and 70A.205.715(1);

(c) Maintain a website with current food waste reduction information and guidance for food service establishments, consumers, food processors, hunger relief organizations, and other sources of food waste;

(d) Provide staff support to multistate food waste reduction initiatives in which the state is participating;

(e) Maintain the consistency of the plan and other food waste reduction activities with the work of the Washington state conservation commission's food policy forum;

(f) Facilitate and coordinate public-private and nonprofit partnerships focused on food waste reduction, including through voluntary working groups;

(g) Collaborate with federal, state, and local government partners on food waste reduction initiatives;

(h) Develop and maintain maps or lists of locations of the food systems of Washington that identify food flows, where waste occurs, and opportunities to prevent food waste;

(i) (i) Collect and maintain data on food waste and wasted food in a manner that is generally consistent with the methods of collecting and maintaining such data used by federal agencies or in other jurisdictions, or both, to the greatest extent practicable;

(ii) Develop measurement methodologies and tools to uniformly track food donation data, food waste prevention data, and associated climate impacts resultant from food waste reduction efforts;

(j) Research and develop emerging organic materials and food waste reduction markets;

(k) (i) Develop and maintain statewide food waste reduction and food waste contamination reduction campaigns, in consultation with other state agencies and other stakeholders, including the development of waste prevention and food waste recovery promotional materials for distribution. These promotional materials may include online information, newsletters, bulletins, or handouts that inform food service establishment operators about the protections from civil and criminal liability under federal law and under RCW 69.80.031 when donating food; and

(ii) Develop guidance to support the distribution of promotional materials, including distribution by:

(A) Local health officers, at no cost to regulated food service establishments, including as part of normal, routine inspections of food service establishments; and

(B) State agencies, including the department of health and the department of agriculture, in conjunction with their statutory roles and responsibilities in regulating, monitoring, and supporting safe food supply chains and systems;

(l) Distribute and monitor grants dedicated to food waste prevention, rescue, and recovery, which must include the programs described in sections 201 and 202 of this act; ((and))

(m) Provide staff support to the work group created in section 701 of this act; and

(n) Research and provide education, outreach, and technical assistance to local governments in support of the adoption of solid waste ordinances or policies that establish a financial disincentive for the generation of organic waste and for the ultimate disposal of organic materials in landfills.

(4) The department may enter into an interagency agreement with the department of health, the department of agriculture, or other state agencies as necessary to fulfill the responsibilities of the center.

(5) The department may adopt any rules necessary to implement this chapter including, but not limited to, measures for the center's performance.

NEW SECTION. Sec. 204. A new section is added to chapter 43.23 RCW to read as follows:

WASHINGTON COMMODITIES DONATION GRANT PROGRAM. (1) The department must implement the Washington commodities donation grant program established in this section. The purpose of the program is to procure Washington grown produce, grains, and protein otherwise at risk of ending up as food waste for distribution to hunger relief organizations for use in Washington state.

(2) The program established in this section must, to the extent practicable:

(a) Rely upon existing infrastructure and similar grant programs currently being implemented in Washington, in order to maximize the beneficial impacts of the program in the short-term, and to expeditiously enable the distribution of grants under this section;

(b) Be designed to achieve efficiencies of scale by the grant recipients carrying out food acquisitions and distributions and to target large volume food acquisition opportunities;

(c) Give priority to recipient organizations that have at least five years of experience coordinating the collection and transportation of donated agricultural products to food bank distributors, food bank distribution centers, or both, for redistribution to local hunger relief agencies; and

(d) Provide for equitable benefits experienced from the program by food producers of varying sizes and types, including minority and vulnerable farmers, including veterans, women, and federally recognized Indian tribes.

(3) The department must issue grants under this section to one or more nonprofit organizations to acquire food directly from food producers located in Washington. A recipient nonprofit organization may use funds under this section to compensate food producers donating commodities for pick and pack out costs incurred associated with the production of a food product, including costs of food product inputs and harvest, and for their marginal postharvest logistical and administrative costs that facilitate the acquisition and distribution of the food product by grant recipients.

(4) An organization that receives funds under this section must report the results of the project to the department in a manner prescribed by the department.

Sec. 205. RCW 70A.214.100 and 2008 c 178 s 1 are each amended to read as follows:

WASTE NOT WASHINGTON AWARDS. (1) The office of waste reduction shall develop, in consultation with the superintendent of public instruction, an awards program to

achieve waste reduction and recycling in public schools, and to encourage waste reduction and recycling in private schools, grades kindergarten through high school. The office shall develop guidelines for program development and implementation. Each public school shall, and each private school may, implement a waste reduction and recycling program conforming to guidelines developed by the office.

(2) For the purpose of granting awards, the office may group all participating schools into not more than three classes, based upon student population, distance to markets for recyclable materials, and other criteria, as deemed appropriate by the office. Except as otherwise provided, five or more awards may be granted to each of the three classes. Each award shall be no more than ~~((five thousand dollars))~~ \$5,000 until 2026, and no more than \$10,000 beginning January 1, 2026. Awards shall be granted each year to the schools that achieve the greatest levels of waste reduction and recycling. A single award of not less than ~~((five thousand dollars))~~ \$5,000 until 2026 or \$10,000 beginning in 2026 may be presented to the school having the best recycling program as measured by the total amount of materials recycled, including materials generated outside of the school. A single award of not less than ~~((five thousand dollars))~~ \$5,000 until 2026 or \$10,000 beginning in 2026 may be presented to the school having the best waste reduction program as determined by the office.

(3) The superintendent of public instruction shall distribute guidelines and other materials developed by the office to implement programs to reduce and recycle waste generated in administrative offices, classrooms, laboratories, cafeterias, and maintenance operations.

### PART 3 AMENDMENTS TO SOLID WASTE LAWS

**Sec. 301.** RCW 70A.205.540 and 2022 c 180 s 102 are each amended to read as follows:

MANDATED ORGANICS MANAGEMENT. (1) ~~((Beginning January 1, 2027, in))~~ Except as provided in subsection (3) of this section, in each jurisdiction that implements a local solid waste plan under RCW 70A.205.040:

(a) ~~((Source-separated))~~ Beginning April 1, 2027, source-separated organic solid waste collection services ~~((must))~~ are required to be provided ~~((at least every other week or at least 26 weeks annually))~~ year-round to:

(i) All single-family residents; and  
(ii) Nonresidential customers that generate more than .25 cubic yards per week of organic materials for management; ~~((and))~~

(b) (i) The department may, by waiver, reduce the collection frequency requirements in (a) of this subsection for the collection of dehydrated food waste or to address food waste managed through other circumstances or technologies that will reduce the volume or odor, or both, of collected food waste.

(ii) All organic solid waste collected from single-family residents and businesses

~~under ~~((a) of))~~ this subsection must be managed through organic materials management;~~

(c) Beginning April 1, 2030, the source-separated organic solid waste collection services specified in (a) of this subsection must be provided to customers on a nonelective basis, except that a jurisdiction may grant an exemption to a customer that certifies to the jurisdiction that the customer is managing organic material waste on-site or self-hauling its own organic material waste for organic materials management;

(d) Beginning April 1, 2030, each jurisdiction's source-separated organic solid waste collection service must include the acceptance of food waste year-round. The jurisdiction may choose to collect food waste source-separated from other organic materials or may collect food waste commingled with other organic materials; and

(e) Beginning April 1, 2030, all persons, when using curbside collection for disposal, may use only source-separated organic solid waste collection services to discard unwanted organic materials. By January 1, 2027, the department must develop guidance under which local jurisdictions may exempt persons from this requirement if organic materials will be managed through an alternative mechanism that provides equal or better environmental outcomes. Nothing in this section precludes the ability of a person to use on-site composting, the diversion of organic materials to animal feed, self-haul organic materials to a facility, or other means of beneficially managing unwanted organic materials. For the purposes of this subsection (1)(e), "person" or "persons" does not include multifamily residences.

(2) A jurisdiction may charge and collect fees or rates for the services provided under subsection (1) of this section, consistent with the jurisdiction's authority to impose fees and rates under chapters 35.21, 35A.21, 36.58, and 36.58A RCW.

(3) (a) Except as provided in ~~((d))~~ (e) of this subsection, the requirements of this section do not apply in a jurisdiction if the department determines that the following apply:

(i) The jurisdiction disposed of less than 5,000 tons of solid waste in the most recent year for which data is available; or

(ii) The jurisdiction has a total population of less than 25,000 people ~~((or~~

~~((iii) The jurisdiction has a total population between 25,000 and 50,000 people and curbside organic solid waste collection services are not offered in any area within the jurisdiction, as of July 1, 2022)).~~

(b) The requirements of this section do not apply:

(i) In census tracts that have a population density of less than 75 people per square mile that are serviced by the jurisdiction and located in unincorporated portions of a county, as determined by the department, in counties not planning under chapter 36.70A RCW; ~~((and))~~

(ii) In census tracts that have a population density of greater than 75 people per square mile, where the census tract includes jurisdictions that meet any of the

conditions in (a)(i) and (ii) of this subsection, that are serviced by the jurisdiction and located in unincorporated portions of a county, as determined by the department, in counties not planning under chapter 36.70A RCW;

(iii) Outside of urban growth areas designated pursuant to RCW 36.70A.110 in unincorporated portions of a county planning under chapter 36.70A RCW;

(iv) Inside of unincorporated urban growth areas for jurisdictions planning under chapter 36.70A RCW that meet any of the conditions in (a)(i) and (ii) of this subsection; and

(v) In unincorporated urban growth areas in counties with an unincorporated population of less than 25,000 people.

(c) ((In addition to the exemptions in (a) and (b))) A jurisdiction that collects organic materials, but that does not collect organic materials on a year-round basis as of January 1, 2024, is not required to provide year-round organic solid waste collection services if it provides those services at least 26 weeks annually.

(d) In addition to the exemptions in (a) through (c) of this subsection, the department may issue a renewable waiver to jurisdictions or portions of a jurisdiction under this subsection for up to five years, based on consideration of factors including the distance to organic materials management facilities, the sufficiency of the capacity to manage organic materials at facilities to which organic materials could feasibly and economically be delivered from the jurisdiction, and restrictions in the transport of organic materials under chapter 17.24 RCW. The department may adopt rules to specify the type of information that a waiver applicant must submit to the department and to specify the department's process for reviewing and approving waiver applications.

((+d)) (e) Beginning January 1, 2030, the department may adopt a rule to require that the provisions of this section apply in the jurisdictions identified in (b) ((and (e))) through (d) of this subsection, but only if the department determines that the goals established in RCW 70A.205.007(1) have not or will not be achieved.

(4) Any city that newly begins implementing an independent solid waste plan under RCW 70A.205.040 after July 1, 2022, must meet the requirements of subsection (1) of this section.

(5) Nothing in this section affects the authority or duties of the department of agriculture related to pest and noxious weed control and quarantine measures under chapter 17.24 RCW.

(6) No penalty may be assessed on an individual or resident for the improper disposal of organic materials under subsection (1) of this section in a noncommercial or residential setting.

(7) The department must adopt new rules or amend existing rules adopted under this chapter establishing permit requirements for organic materials management facilities requiring a solid waste handling permit addressing contamination associated with incoming food waste feedstocks and finished products, for environmental benefit.

**Sec. 302.** RCW 70A.205.545 and 2022 c 180 s 201 are each amended to read as follows:

**BUSINESS DIVERSION.** (1)(a) Beginning July 1, 2023, and each July 1st thereafter, the department must determine which counties and any cities preparing independent solid waste management plans:

(i) Provide for businesses to be serviced by providers that collect food waste and organic material waste for delivery to solid waste facilities that provide for the organic materials management of organic material waste and food waste; and

(ii) Are serviced by solid waste facilities that provide for the organic materials management of organic material waste and food waste and have year-round capacity to process and are willing to accept increased volumes of organic materials deliveries.

(b)(i) The department must determine and designate that the restrictions of this section apply to businesses in a jurisdiction unless the department determines that the businesses in some or all portions of the city or county have:

(A) No available businesses that collect and deliver organic materials to solid waste facilities that provide for the organic materials management of organic material waste and food waste; or

(B) No available capacity at the solid waste facilities to which businesses that collect and deliver organic materials could feasibly and economically deliver organic materials from the jurisdiction.

(ii)(A) In the event that a county or city provides a written ((notification)) request and supporting evidence to the department ((indicating)) determining that the criteria of (b)(i)(A) of this subsection are met, and the department confirms this determination, then the restrictions of this section apply only in those portions of the jurisdiction that have available service-providing businesses.

(B) In the event that a county or city provides a written ((notification)) request and supporting evidence to the department ((indicating)) determining that the criteria of (b)(i)(B) of this subsection are met, and the department confirms this determination, then the restrictions of this section do not apply to the jurisdiction.

(c) The department must make the result of the annual determinations required under this section available on its website.

(d) The requirements of this section may be enforced by jurisdictional health departments consistent with this chapter, except that:

(i) A jurisdictional health department may not charge a fee to permit holders to cover the costs of the jurisdictional health department's administration or enforcement of the requirements of this section; and

(ii) Prior to issuing a penalty under this section, a jurisdictional health department must provide at least two written notices of noncompliance with the requirements of this section to the owner or operator of a business subject to the requirements of this section.

(2)(a)(i) Beginning January 1, 2024, a business that generates at least eight cubic yards of organic material waste per week must arrange for organic materials management services specifically for organic material waste;

(ii) Beginning January 1, 2025, a business that generates at least four cubic yards of organic material waste per week must arrange for organic materials management services specifically for organic material waste; and

(iii) Beginning January 1, 2026, a business that generates at least ~~((four cubic yards of solid))~~ 96 gallons of organic material waste per week shall arrange for organic materials management services specifically for organic material waste, unless the department determines, by rule, that additional reductions in the landfilling of organic materials would be more appropriately and effectively achieved, at reasonable cost to regulated businesses, through the establishment of a different volumetric threshold of ~~((solid waste or))~~ organic waste material ((waste)) than the threshold of ~~((four cubic yards of solid))~~ 96 gallons of organic material waste per week.

(b) The following wastes do not count for purposes of determining waste volumes in (a) of this subsection:

(i) Wastes that are managed on-site by the generating business;

(ii) Wastes generated from the growth and harvest of food or fiber that are managed off-site by another business engaged in the growth and harvest of food or fiber;

(iii) Wastes that are managed by a business that enters into a voluntary agreement to sell or donate organic materials to another business for off-site use; ~~((and))~~

(iv) Wastes generated in exceptional volumes as a result of a natural disaster or other infrequent and unpreventable event; and

(v) Wastes generated as a result of a food safety event, such as a product recall, that is due to foreign material or adverse biological activity that requires landfill destruction rather than organic material management.

(3) A business may fulfill the requirements of this section by:

(a) Source separating organic material waste from other waste, subscribing to a service that includes organic material waste collection and organic materials management, and using such a service for organic material waste generated by the business;

(b) Managing its organic material waste on-site or self-hauling its own organic material waste for organic materials management;

(c) Qualifying for exclusion from the requirements of this section consistent with subsection (1)(b) of this section; or

(d) For a business engaged in the growth, harvest, or processing of food or fiber, entering into a voluntary agreement to sell or donate organic materials to another business for off-site use.

(4)(a) A business generating organic material waste shall arrange for any services required by this section in a manner that is consistent with state and

local laws and requirements applicable to the collection, handling, or recycling of solid and organic material waste.

(b) Nothing in this section requires a business to dispose of materials in a manner that conflicts with federal or state public health or safety requirements. Nothing in this section requires businesses to dispose of wastes generated in exceptional volumes as a result of a natural disaster or other infrequent and unpreventable event through the options established in subsection (3) of this section. Nothing in this section prohibits a business from disposing of nonfood organic materials that are not commingled with food waste by using the services of an organic materials management facility that does not accept food waste.

(5) When arranging for gardening or landscaping services, the contract or work agreement between a business subject to this section and a gardening or landscaping service must require that the organic material waste generated by those services be managed in compliance with this chapter.

(6)(a) This section does not limit the authority of a local governmental agency to adopt, implement, or enforce a local organic material waste recycling requirement, or a condition imposed upon a self-hauler, that is more stringent or comprehensive than the requirements of this chapter.

(b) This section does not modify, limit, or abrogate in any manner any of the following:

(i) A franchise granted or extended by a city, county, city and county, or other local governmental agency;

(ii) A contract, license, certificate, or permit to collect solid waste previously granted or extended by a city, county, city and county, or other local governmental agency;

(iii) The right of a business to sell or donate its organic materials; and

(iv) A certificate of convenience and necessity issued to a solid waste collection company under chapter 81.77 RCW.

(c) Nothing in this section modifies, limits, or abrogates the authority of a local jurisdiction with respect to land use, zoning, or facility siting decisions by or within that local jurisdiction.

(d) Nothing in this section changes or limits the authority of the Washington utilities and transportation commission to regulate collection of solid waste, including curbside collection of residential recyclable materials, nor does this section change or limit the authority of a city or town to provide the service itself or by contract under RCW 81.77.020.

(7) The definitions in this subsection apply throughout this section unless the context clearly indicates otherwise.

(a)(i) "Business" means a commercial or public entity including, but not limited to, a firm, partnership, proprietorship, joint stock company, corporation, or association that is organized as a for-profit or nonprofit entity.

(ii) "Business" does not include a multifamily residential entity.

(b) "Food waste" has the same meaning as defined in RCW 70A.205.715.

**PART 4  
STATUS ASSESSMENT OF PRODUCE STICKER  
TECHNOLOGIES**

**NEW SECTION. Sec. 401. STATUS ASSESSMENT OF PRODUCE STICKER TECHNOLOGIES.**

(1) The department of ecology, in consultation with the department of agriculture, must carry out a study and submit a brief summary report to the legislature by September 1, 2025, addressing the status of produce sticker technologies, including produce sticker options that do not contain plastic stickers or adhesives or that otherwise meet compostability standards.

(2) The study required under this section must, at minimum, compare and consider the following features of produce stickers and adhesives:

(a) Compostability, including toxic or hazardous substance content;

(b) Performance;

(c) Printability; and

(d) Cost.

(3) In carrying out the study, input and information must be solicited and evaluated from:

(a) Produce producers and packers;

(b) Sticker and adhesive producers;

(c) Other states, countries, or subnational jurisdictions that have adopted standards restricting plastic produce stickers; and

(d) Other technical experts.

**PART 5

(ii) Uses a logo indicating the product has been certified by a recognized third-party independent verification body as meeting the ~~((ASTM))~~ applicable standard specification;

(iii) Displays the word "compostable," where possible, indicating the product has been tested by a recognized third-party independent body and meets the ~~((ASTM))~~ applicable standard specification; and

(iv) Uses green, beige, or brown labeling, color striping, or other green, beige, or brown symbols, colors, tinting, marks, or design patterns that help differentiate compostable items from noncompostable items.

**Sec. 502.** RCW 70A.455.070 and 2022 c 180 s 806 are each amended to read as follows:

**FILM TINTING.** (1) A producer of plastic film bags sold, offered for sale, or distributed for use in Washington that does not meet the applicable ASTM standard specifications provided in RCW 70A.455.050 is:

(a) Prohibited from using tinting, color schemes, labeling, or terms that are required of products that meet the applicable ASTM standard specifications under RCW 70A.455.050;

(b) Discouraged from using labeling, images, and terms that may reasonably be anticipated to confuse consumers into believing that noncompostable products are compostable; and

(c) Encouraged to use labeling, images, and terms to help consumers identify noncompostable bags as either: (i) Suitable for recycling; or (ii) necessary to dispose as waste.

(2) A producer of food service products, or plastic film products other than plastic film bags subject to subsection (1) of this section, sold, offered for sale, or distributed for use in Washington that does not meet the applicable ASTM standard specifications provided in RCW 70A.455.060 is:

(a) Prohibited from using labeling, or terms that are required of products that meet the applicable ASTM standard specifications under RCW 70A.455.060;

(b) Discouraged from using labeling, images, and terms that may reasonably be anticipated to confuse consumers into believing that noncompostable products are compostable; and

(c) Encouraged to use tinting, coloration, labeling, images, and terms to help consumers identify film products and food service packaging as either: (i) Suitable for recycling; or (ii) necessary to dispose as waste.

(3) For the purposes of this section only:

(a) "Tinting" means the addition of color to a film, usually by means of dye or stain, that filters light and makes the film appear a certain color; and

(b)(i) The prohibition in subsection (1)(a) of this section on "color schemes" on plastic film bags does not preclude the use of:

(A) Green, brown, or beige stripes that are smaller than .25 inch wide and used as visual aids; and

(B) Green, brown, or beige lettering or logos that are used solely for brand identity purposes.

(ii) The prohibition in subsection (1)(a) of this section on color schemes on plastic film bags does prohibit the use of botanical motifs, such as leaves or vines that are colored green, brown, or beige, or any combination of these colors or shapes.

**NEW SECTION. Sec. 503.** A new section is added to chapter 70A.455 RCW to read as follows:

**HOME COMPOSTABLE LABELING.** A producer may only label a product as being "home compostable" if:

(1) The product has been tested and meets ASTM standards D6400 or D6868 for industrial composting settings;

(2) A third-party certifier has verified that the product meets ASTM standards for industrial composting;

(3) The product is otherwise labeled in a manner consistent with the requirements of this chapter, including RCW 70A.455.030, 70A.455.040, or 70A.455.050, as appropriate;

(4) The product is not labeled "home compostable only" or in a manner that otherwise implies that the product is not capable of being composted in industrial compost settings; and

(5) The producer has valid and reproducible scientific evidence to support their claim that a product is home compostable, consistent with federal trade commission guidelines.

**Sec. 504.** RCW 70A.455.090 and 2022 c 180 s 808 are each amended to read as follows:

**CONCURRENT ENFORCEMENT OF DEGRADABILITY LABELING REQUIREMENTS BY CITIES AND COUNTIES.** (1)(a) The department and cities and counties have concurrent authority to enforce this chapter and to issue and collect civil penalties for a violation of this chapter, subject to the conditions in this section and RCW 70A.455.100. An enforcing government entity may impose a civil penalty in the amount of up to \$2,000 for the first violation of this chapter, up to \$5,000 for the second violation of this chapter, and up to \$10,000 for the third and any subsequent violation of this chapter. If a producer has paid a prior penalty for the same violation to a different government entity with enforcement authority under this subsection, the penalty imposed by a government entity is reduced by the amount of the payment.

(b) The enforcement of this chapter must be based primarily on complaints filed with the department and cities and counties. The department must establish a forum for the filing of complaints. Cities, counties, or any person may file complaints with the department using the forum, and cities and counties may review complaints filed with

the department via the forum. The forum established by the department may include a complaint form on the department's website, a telephone hotline, or a public outreach strategy relying upon electronic social media to receive complaints that allege violations. The department, in collaboration with the cities and counties, must provide education and outreach activities to inform retail establishments, consumers, and producers about the requirements of this chapter.

(c) A city or county that chooses to enforce the requirements of this chapter within their jurisdiction must notify the department with a letter of intent that includes:

(i) The start and any end date of the local jurisdiction's enforcement activities;

(ii) The geographic boundaries within which the enforcement activities are planned; and

(iii) Any technical assistance, education, or enforcement tools that the city or county would like to request from the department in support of local enforcement activities.

(2) Penalties issued by the department are appealable to the pollution control hearings board established in chapter 43.21B RCW.

(3) The remedies provided by this section are not exclusive and are in addition to the remedies that may be available pursuant to chapter 19.86 RCW or other consumer protection laws, if applicable.

(4) In addition to penalties recovered under this section, the enforcing city or county may recover reasonable enforcement costs and attorneys' fees from the liable producer.

## **PART 6 COMPOST PURCHASES**

**Sec. 601.** RCW 15.04.420 and 2022 c 180 s 502 are each amended to read as follows:

**COMPOST REIMBURSEMENT PROGRAM ELIGIBILITY AMENDMENT.** (1)(a) Subject to the availability of amounts appropriated for this specific purpose, the department must establish and implement a compost reimbursement program to reimburse farming operations in the state for purchasing and using compost products that were not generated by the farming operation, including transportation, spreading equipment, labor, fuel, and maintenance costs associated with spreading equipment. The grant reimbursements under the program begin July 1, 2023.

(b) For the purposes of this program, "farming operation" means: A commercial agricultural, silvicultural, or aquacultural facility or pursuit, including the care and production of livestock and livestock products, poultry and poultry products, apiary products, and plant and animal production for nonfood uses; the planting, cultivating, harvesting, and processing of crops; and the farming or ranching of any plant or animal species in a controlled salt, brackish, or freshwater environment.

(2) To be eligible to participate in the reimbursement program, a farming operation

must complete an eligibility review with the department prior to transporting or applying any compost products for which reimbursement is sought under this section. The purpose of the review is for the department to ensure that the proposed transport and application of compost products is consistent with the department's agricultural pest control rules established under chapter 17.24 RCW. A farming operation must also verify that it will allow soil sampling to be conducted by the department upon request before compost application and until at least 10 years after the last grant funding is used by the farming operation, as necessary to establish a baseline of soil quality and carbon storage and for subsequent department evaluations to assist the department's reporting requirements under subsection (8) of this section.

(3) The department must create a form for eligible farming operations to apply for cost reimbursement for costs from purchasing and using compost from facilities with solid waste handling permits or that are permit exempt, including transportation, equipment, spreading, and labor costs. Compost must meet the applicable requirements for compost established by the department of ecology under chapter 70A.205 RCW. The department must prioritize applicants who purchase and use compost containing food waste feedstocks, where it is practicable for the applicant to purchase and use compost containing food waste feedstocks. All applications for cost reimbursement must be submitted on the form along with invoices, receipts, or other documentation acceptable to the department of the costs of purchasing and using compost products for which the applicant is requesting reimbursement, as well as a brief description of what each purchased item will be used for. The department may request that an applicant provide information to verify the source, size, sale weight, or amount of compost products purchased and the cost of transportation, equipment, spreading, and labor. The applicant must also declare that it is not seeking reimbursement for purchase or labor costs for:

(a) Its own compost products; or

(b) Compost products that it has transferred, or intends to transfer, to another individual or entity, whether or not for compensation.

(4) A farming operation may submit only one application per fiscal year in which the program is in effect for purchases made and usage costs incurred during the fiscal year that begins on July 1st and ends on June 30th. Applications for reimbursement must be filed before the end of the fiscal year in which purchases were made and usage costs incurred.

(5) The department must distribute reimbursement funds, subject to the following limitations:

(a) A farming operation is not eligible to receive reimbursement if the farming operation's application was not found eligible for reimbursement by the department under subsection (2) of this section prior to the transport or use of compost;

(b) A farming operation is not eligible to receive reimbursement for more than 50

percent of the costs it incurs each fiscal year for the purchase and use of compost products, including transportation, equipment, spreading, and labor costs;

~~(c) ((A farming operation is not eligible to receive more than \$10,000 per fiscal year))~~ The department must attempt to achieve fair distribution of reimbursement funding across different farm size categories, based on acreage categories determined by the department, and which is not to exceed a maximum of \$20,000 per fiscal year for the largest farming operation category determined by the department;

(d) A farming operation is not eligible to receive reimbursement for its own compost products or compost products that it has transferred, or intends to transfer, to another individual or entity, whether or not for compensation; and

(e) A farming operation is not eligible to receive reimbursement for compost products that were not purchased from a facility with a solid waste handling permit or a permit-exempt facility.

(6) The applicant shall indemnify and hold harmless the state and its officers, agents, and employees from all claims arising out of or resulting from the compost products purchased that are subject to the compost reimbursement program under this section.

(7) There is established within the department a compost reimbursement program manager position. The compost reimbursement program manager must possess knowledge and expertise in the area of program management necessary to carry out the duties of the position, which are to:

(a) Facilitate the division and distribution of available costs for reimbursement; and

(b) Manage the day-to-day coordination of the compost reimbursement program.

(8) In compliance with RCW 43.01.036, the department must submit an annual report to the appropriate committees of the legislature by January 15th of each year of the program in which grants have been issued or completed. The report must include:

(a) The amount of compost for which reimbursement was sought under the program;

(b) The qualitative or quantitative effects of the program on soil quality and carbon storage; and

(c) A periodically updated evaluation of the benefits and costs to the state of expanding or furthering the strategies promoted in the program.

**Sec. 602.** RCW 43.19A.150 and 2022 c 180 s 701 are each amended to read as follows:

COMPOST PROCUREMENT REPORTING AMENDMENT.

(1) By January 1, 2023, the following cities or counties shall adopt a compost procurement ordinance to implement RCW 43.19A.120:

(a) Each city or county with a population greater than 25,000 residents as measured by the office of financial management using the most recent population data available; and

(b) Each city or county in which organic material collection services are provided under chapter 70A.205 RCW.

(2) A city or county that newly exceeds a population of 25,000 residents after January 1, 2023, as measured by the office of financial management, must adopt an ordinance under this subsection no later than 12 months after the office of financial management's determination that the local government's population has exceeded 25,000.

(3) In developing a compost procurement ordinance, each city and county shall plan for the use of compost in the following categories:

- (a) Landscaping projects;
- (b) Construction and postconstruction soil amendments;
- (c) Applications to prevent erosion, filter stormwater runoff, promote vegetation growth, or improve the stability and longevity of roadways; and
- (d) Low-impact development and green infrastructure to filter pollutants or keep water on-site, or both.

(4) Each city or county that adopts an ordinance under subsection (1) or (2) of this section must develop strategies to inform residents about the value of compost and how the jurisdiction uses compost in its operations in the jurisdiction's comprehensive solid waste management plan pursuant to RCW 70A.205.045.

(5) By ~~((December))~~ March 31, ~~((2024))~~ 2025, and each ~~((December))~~ March 31st ~~((of even-numbered years))~~ thereafter, each city or county that adopts an ordinance under subsection (1) or (2) of this section must submit a report covering the previous year's compost procurement activities to the department of ecology that contains the following information:

(a) The total tons of organic material diverted throughout the year and the facility or facilities used for processing;

(b) The volume and cost of compost purchased throughout the year; and

(c) The source or sources of the compost.

(6) Cities and counties that are required to adopt an ordinance under subsection (1) or (2) of this section shall give priority to purchasing compost products from companies that produce compost products locally, are certified by a nationally recognized organization, and produce compost products that are derived from municipal solid waste compost programs and meet quality standards comparable to standards adopted by the department of transportation or adopted by rule by the department of ecology.

(7) Cities and counties may enter into collective purchasing agreements if doing so is more cost-effective or efficient.

(8) Nothing in this section requires a compost processor to:

- (a) Enter into a purchasing agreement with a city or county;
- (b) Sell finished compost to meet this requirement; or
- (c) Accept or process food waste or compostable products.

## **PART 7 MISCELLANEOUS**

NEW SECTION. **Sec. 701.** WORK GROUP TO STUDY FOOD DONATION BY BUSINESSES. (1) The

department of ecology's center for sustainable food management created in chapter 70A.207 RCW must convene a work group to address mechanisms to improve the rescue of edible food waste from commercial generators, including food service, retail establishments, and processors that generate excess supply of edible food. The work group must consider:

(a) Logistics to phase in edible food donation programs, including incentives;

The work group shall make recommendations using consensus-based decision making. All meetings of the work group must be carried out in a virtual-only format. The report must include recommendations where general stakeholder consensus has been achieved and note varied opinions where stakeholder consensus has not been achieved.

(3) The department of ecology must select at least one member to the work group from each of the following:

(a) Cities, including both small and large cities and cities located in urban and rural counties, which may be represented by an association that represents cities in Washington;

#### MESSAGE FROM THE SENATE

Thursday, February 29, 2024

Mme. Speaker:

The Senate has passed ENGROSSED SUBSTITUTE HOUSE BILL NO. 2384, with the following amendment(s): 2384-S.E AMS ENGR S5627.E

Strike everything after the enacting clause and insert the following:

"NEW SECTION. **Sec. 1.** A new section is added to chapter 46.63 RCW to read as follows:

The definitions in this section apply throughout this section and sections 2 through 6 of this act unless the context clearly requires otherwise.

(1) "Automated traffic safety camera" means a device that uses a vehicle sensor installed to work in conjunction with an intersection traffic control system, a railroad grade crossing control system, or a speed measuring device, and a camera synchronized to automatically record one or more sequenced photographs, microphotographs, or electronic images of the front or rear of a motor vehicle at the time the vehicle fails to stop when facing a steady red traffic control signal or an activated railroad grade crossing control signal, or exceeds a speed limit as detected by a speed measuring device. "Automated traffic safety camera" also includes a device used to detect stopping at intersection or crosswalk violations; stopping when traffic obstructed violations; public transportation only lane violations; stopping or traveling in restricted lane violations; and public transportation bus stop zone violations detected by a public transportation vehicle-mounted system.

(2) "Hospital speed zone" means the marked area within hospital property and extending 300 feet from the border of the hospital property (a) consistent with hospital use; and (b) where signs are posted to indicate the location is within a hospital speed zone, where "hospital" has the same meaning as in RCW 70.41.020.

(3) "Public park speed zone" means the marked area within public park property and extending 300 feet from the border of the public park property (a) consistent with active park use; and (b) where signs are posted to indicate the location is within a public park speed zone.

(4) "Public transportation vehicle" means any motor vehicle, streetcar, train, trolley vehicle, ferry boat, or any other device, vessel, or vehicle that is owned or operated by a transit authority or an entity providing service on behalf of a transit authority that is used for the purpose of carrying passengers and that operates on established routes. "Transit authority" has

the same meaning as provided in RCW 9.91.025.

(5) "Roadway work zone" means an area of any city roadway, including state highways that are also classified as city streets under chapter 47.24 RCW, or county road as defined in RCW 46.04.150, with construction, maintenance, or utility work with a duration of 30 calendar days or more. A roadway work zone is identified by the placement of temporary traffic control devices that may include signs, channelizing devices, barriers, pavement markings, and/or work vehicles with warning lights. A roadway work zone extends from the first warning sign or high intensity rotating, flashing, oscillating, or strobe lights on a vehicle to the end road work sign or the last temporary traffic control device or vehicle.

(6) "School speed zone" has the same meaning as described in RCW 46.61.440 (1) and (2).

(7) "School walk zone" means a roadway identified under RCW 28A.160.160 or roadways within a one-mile radius of a school that students use to travel to school by foot, bicycle, or other means of active transportation.

NEW SECTION. **Sec. 2.** A new section is added to chapter 46.63 RCW to read as follows:

(1) Nothing in this section prohibits a law enforcement officer from issuing a notice of traffic infraction to a person in control of a vehicle at the time a violation occurs under RCW 46.63.030(1) (a), (b), or (c).

(2) Any city or county may authorize the use of automated traffic safety cameras and must adopt an ordinance authorizing such use through its local legislative authority.

(3) The local legislative authority must prepare an analysis of the locations within the jurisdiction where automated traffic safety cameras are proposed to be located before adding traffic safety cameras to a new location or relocating any existing camera to a new location within the jurisdiction. The analysis must include equity considerations including the impact of the camera placement on livability, accessibility, economics, education, and environmental health when identifying where to locate an automated traffic safety camera. The analysis must also show a demonstrated need for traffic cameras based on one or more of the following in the vicinity of the proposed camera location: Travel by vulnerable road users, evidence of vehicles speeding, rates of collision, reports showing near collisions, and anticipated or actual ineffectiveness or infeasibility of other mitigation measures.

(4) Automated traffic safety cameras may not be used on an on-ramp to a limited access facility as defined in RCW 47.52.010.

(5) A city may use automated traffic safety cameras to enforce traffic ordinances in this section on state highways that are also classified as city streets under chapter 47.24 RCW. A city government must notify the department of transportation when it installs an automated traffic safety

camera to enforce traffic ordinances as authorized in this subsection.

(6)(a) At a minimum, a local ordinance adopted pursuant to this section must contain the restrictions described in this section and provisions for public notice and signage. Cities and counties must also post such restrictions and other automated traffic safety camera policies on the city's or county's website. Cities and counties using automated traffic safety cameras before July 24, 2005, are subject to the restrictions described in this section, but are not required to adopt an authorizing ordinance.

(b)(i) Cities and counties using automated traffic safety cameras must post an annual report on the city's or county's website of the number of traffic crashes that occurred at each location where an automated traffic safety camera is located, as well as the number of notices of infraction issued for each camera. Beginning January 1, 2026, the annual report must include the percentage of revenues received from fines issued from automated traffic safety camera infractions that were used to pay for the costs of the automated traffic safety camera program and must describe the uses of revenues that exceeded the costs of operation and administration of the automated traffic safety camera program by the city or county.

(ii) The Washington traffic safety commission must provide an annual report to the transportation committees of the legislature, and post the report to its website for public access, beginning July 1, 2026, that includes aggregated information on the use of automated traffic safety cameras in the state that includes an assessment of the impact of their use, information required in city and county annual reports under (b)(i) of this subsection, and information on the number of automated traffic safety cameras in use by type and location, with an analysis of camera placement in the context of area demographics and household incomes. To the extent practicable, the commission must also provide in its annual report the number of traffic accidents, speeding violations, single vehicle accidents, pedestrian accidents, and driving under the influence violations that occurred at each location where an automated traffic safety camera is located in the five years before each camera's authorization and after each camera's authorization. Cities and counties using automated traffic safety cameras must provide the commission with the data it requests for the report required under this subsection in a form and manner specified by the commission.

(7) All locations where an automated traffic safety camera is used on roadways or intersections must be clearly marked by placing signs at least 30 days prior to activation of the camera in locations that clearly indicate to a driver either that: (a) The driver is within an area where automated traffic safety cameras are authorized; or (b) the driver is entering an area where violations are enforced by an automated traffic safety camera. The signs must be readily visible to a driver

approaching an automated traffic safety camera. Signs placed in automated traffic safety camera locations after June 7, 2012, must follow the specifications and guidelines under the manual of uniform traffic control devices for streets and highways as adopted by the department of transportation under chapter 47.36 RCW. All public transportation vehicles utilizing a vehicle-mounted system must post a sign on the rear of the vehicle indicating to drivers that the vehicle is equipped with an automated traffic safety camera to enforce bus stop zone violations.

(8) Automated traffic safety cameras may only record images of the vehicle and vehicle license plate and only while an infraction is occurring. The image must not reveal the face of the driver or of passengers in the vehicle. The primary purpose of camera placement is to record images of the vehicle and vehicle license plate when an infraction is occurring. Cities and counties must consider installing automated traffic safety cameras in a manner that minimizes the impact of camera flash on drivers.

(9) A notice of infraction must be mailed to the registered owner of the vehicle within 14 days of the violation, or to the renter of a vehicle within 14 days of establishing the renter's name and address under subsection (17) of this section. The notice of infraction must include with it a certificate or facsimile thereof, based upon inspection of photographs, microphotographs, or electronic images produced by an automated traffic safety camera, stating the facts supporting the notice of infraction. This certificate or facsimile is prima facie evidence of the facts contained in it and is admissible in a proceeding charging a violation under this chapter. The photographs, microphotographs, or electronic images evidencing the violation must be available for inspection and admission into evidence in a proceeding to adjudicate the liability for the infraction. A person receiving a notice of infraction based on evidence detected by an automated traffic safety camera may respond to the notice by mail.

(10) The registered owner of a vehicle is responsible for an infraction under RCW 46.63.030(1)(d) unless the registered owner overcomes the presumption in RCW 46.63.075, or, in the case of a rental car business, satisfies the conditions under subsection (17) of this section. If appropriate under the circumstances, a renter identified under subsection (17)(a) of this section is responsible for an infraction.

(11) Notwithstanding any other provision of law, all photographs, microphotographs, or electronic images, or any other personally identifying data prepared under this section are for the exclusive use of authorized city or county employees, as specified in RCW 46.63.030(1)(d), in the discharge of duties under this section and are not open to the public and may not be used in a court in a pending action or proceeding unless the action or proceeding relates to a violation under this section. No photograph, microphotograph, or electronic image, or any other personally

identifying data may be used for any purpose other than enforcement of violations under this section nor retained longer than necessary to enforce this section. Transit authorities must provide to the appropriate local jurisdiction that has authorized traffic safety camera use under section 6(2) of this act any images or evidence collected establishing that a violation of stopping, standing, or parking in a bus stop zone has occurred for infraction processing purposes consistent with this section.

(12) If a county or city has established an automated traffic safety camera program as authorized under this section, the compensation paid to the manufacturer or vendor of the equipment used must be based only upon the value of the equipment and services provided or rendered in support of the system and may not be based upon a portion of the fine or civil penalty imposed or the revenue generated by the equipment. If the contract between the city or county and manufacturer or vendor of the equipment does not provide for performance or quality control measures regarding camera images, the city or county must perform a performance audit of the manufacturer or vendor of the equipment every three years to review and ensure that images produced from automated traffic safety cameras are sufficient for evidentiary purposes as described in subsection (9) of this section.

(13)(a) Except as provided in (d) of this subsection, a county or a city may only use revenue generated by an automated traffic safety camera program as authorized under this section for:

(i) Traffic safety activities related to construction and preservation projects and maintenance and operations purposes including, but not limited to, projects designed to implement the complete streets approach as defined in RCW 47.04.010, changes in physical infrastructure to reduce speeds through road design, and changes to improve safety for active transportation users, including improvements to access and safety for road users with mobility, sight, or other disabilities; and

(ii) The cost to administer, install, operate, and maintain the automated traffic safety cameras, including the cost of processing infractions.

(b) Except as provided in (d) of this subsection:

(i) The automated traffic safety camera program revenue used by a county or city with a population of 10,000 or more for purposes described in (a)(i) of this subsection must include the use of revenue in census tracts of the city or county that have household incomes in the lowest quartile determined by the most currently available census data and areas that experience rates of injury crashes that are above average for the city or county. Funding contributed from traffic safety program revenue must be, at a minimum, proportionate to the share of the population of the county or city who are residents of these low-income communities and communities experiencing high injury crash rates. This share must be directed to investments that provide direct and meaningful traffic safety benefits to these communities. Revenue used

to administer, install, operate, and maintain automated traffic safety cameras, including the cost of processing infractions, are excluded from determination of the proportionate share of revenues under this subsection (13)(b); and

(ii) The automated traffic safety camera program revenue used by a city or county with a population under 10,000 for traffic safety activities under (a)(i) of this subsection must be informed by the department of health's environmental health disparities map.

(c) Except as provided in (d) of this subsection, beginning four years after an automated traffic safety camera authorized under this section is initially placed and in use after the effective date of this section, 25 percent of the noninterest money received for infractions issued by such cameras in excess of the cost to administer, install, operate, and maintain the cameras, including the cost of processing infractions, must be deposited into the Cooper Jones active transportation safety account created in RCW 46.68.480.

(d)(i)(A) Jurisdictions with an automated traffic safety camera program in effect before January 1, 2024, may continue to allocate revenue generated from automated traffic safety cameras authorized under sections 3 and 5(2)(c) of this act as determined by the jurisdiction, as well as for the purposes established in (a) through (c) of this subsection, by:

(I) Up to a 10 percent increase in the number of traffic safety camera locations authorized to detect violations for automated traffic safety cameras authorized under section 3 of this act; and

(II) Up to a 10 percent increase in the number of traffic safety camera locations authorized to detect violations for automated traffic safety cameras authorized under section 5(2)(c) of this act.

(B)(I) Any automated traffic safety camera program in effect before January 1, 2024, with fewer than 10 traffic safety camera locations for automated traffic safety cameras authorized under section 3 of this act, which adds automated traffic safety cameras to one additional location for the use of cameras authorized under section 3 of this act, may continue to allocate revenue generated from automated traffic safety cameras authorized under section 3 of this act as determined by the jurisdiction, as well as for the purposes established in (a) through (c) of this subsection.

(II) Any automated traffic safety camera program in effect before January 1, 2024, with fewer than 10 traffic safety camera locations for automated traffic safety cameras authorized under section 5(2)(c) of this act as of January 1, 2024, which adds automated traffic safety cameras to one additional location for the use of cameras authorized under section 5(2)(c) of this act, may continue to allocate revenue generated from automated traffic safety cameras authorized under section 5(2)(c) of this act as determined by the jurisdiction, as well as for the purposes established in (a) through (c) of this subsection.

(C) For the purposes of this subsection (13)(d)(i), a location is:

(I) An intersection for automated traffic safety cameras authorized under section 3 of this act where cameras authorized under section 3 of this act are in use; and

(II) A school speed zone for automated traffic safety cameras authorized under section 5(2)(c) of this act where cameras authorized under section 5(2)(c) of this act are in use.

(ii) The revenue distribution requirements under (a) through (d)(i) of this subsection do not apply to automated traffic safety camera programs in effect before January 1, 2024, for which an ordinance in effect as of January 1, 2024, directs the manner in which revenue generated from automated traffic safety cameras authorized under section 3 or 5(2)(c) of this act must be used.

(14) A county or city may adopt the use of an online ability-to-pay calculator to process and grant requests for reduced fines or reduced civil penalties for automated traffic safety camera violations.

(15) Except as provided in this subsection, registered owners of vehicles who receive notices of infraction for automated traffic safety camera-enforced infractions and are recipients of public assistance under Title 74 RCW or participants in the Washington women, infants, and children program, and who request reduced penalties for infractions detected through the use of automated traffic safety camera violations, must be granted reduced penalty amounts of 50 percent of what would otherwise be assessed for a first automated traffic safety camera violation and for subsequent automated traffic safety camera violations issued within 21 days of issuance of the first automated traffic safety camera violation. Eligibility for medicaid under RCW 74.09.510 is not a qualifying criterion under this subsection. Registered owners of vehicles who receive notices of infraction must be provided with information on their eligibility and the opportunity to apply for a reduction in penalty amounts through the mail or internet.

(16) Infractions detected through the use of automated traffic safety cameras are not part of the registered owner's driving record under RCW 46.52.101 and 46.52.120. Additionally, infractions generated by the use of automated traffic safety cameras under this section must be processed in the same manner as parking infractions, including for the purposes of RCW 3.50.100, 35.20.220, 46.16A.120, and 46.20.270(2). The amount of the fine issued for an infraction generated through the use of an automated traffic safety camera may not exceed \$145, as adjusted for inflation by the office of financial management every five years, beginning January 1, 2029, based upon changes in the consumer price index during that time period, but may be doubled for a school speed zone infraction generated through the use of an automated traffic safety camera.

(17) If the registered owner of the vehicle is a rental car business, the issuing agency must, before a notice of

infraction being issued under this section, provide a written notice to the rental car business that a notice of infraction may be issued to the rental car business if the rental car business does not, within 18 days of receiving the written notice, provide to the issuing agency by return mail:

(a) A statement under oath stating the name and known mailing address of the individual driving or renting the vehicle when the infraction occurred; or

(b) A statement under oath that the business is unable to determine who was driving or renting the vehicle at the time the infraction occurred because the vehicle was stolen at the time of the infraction. A statement provided under this subsection must be accompanied by a copy of a filed police report regarding the vehicle theft; or

(c) In lieu of identifying the vehicle operator, the rental car business may pay the applicable penalty. Timely mailing of this statement to the issuing agency relieves a rental car business of any liability under this chapter for the notice of infraction.

**NEW SECTION. Sec. 3.** A new section is added to chapter 46.63 RCW to read as follows:

(1) Automated traffic safety cameras may be used to detect stoplight violations, subject to section 2 of this act.

(2) Automated traffic safety cameras used to detect stoplight violations are restricted to intersections of two or more arterials with traffic control signals that have yellow change interval durations in accordance with RCW 47.36.022, which interval durations may not be reduced after placement of the camera.

**NEW SECTION. Sec. 4.** A new section is added to chapter 46.63 RCW to read as follows:

(1) Automated traffic safety cameras may be used to detect railroad grade crossing violations, subject to section 2 of this act.

(2) Automated traffic safety cameras at railroad grade crossings may be used only to detect instances when a vehicle fails to stop when facing an activated railroad grade crossing control signal.

**NEW SECTION. Sec. 5.** A new section is added to chapter 46.63 RCW to read as follows:

(1) Automated traffic safety cameras may be used to detect speed violations, subject to section 2 of this act.

(2) Automated traffic safety cameras may be used to detect speed violations within the following locations:

- (a) Hospital speed zones;
- (b) Public park speed zones;
- (c) School speed zones;
- (d) School walk zones;

(e) Roadway work zones, except that a notice of infraction may only be issued if an automated traffic safety camera captures a speed violation when workers are present; and

(f) State highways within city limits that are classified as city streets under chapter 47.24 RCW.

(3) In addition to the automated traffic safety cameras that may be authorized for specified zones or roads in subsection (2) of this section, the local legislative authority may authorize the use of one additional automated traffic safety camera per 10,000 population to detect speed violations in locations deemed by the local legislative authority to experience higher crash risks due to excessive vehicle speeds. For automated traffic safety cameras authorized to detect speed violations as part of a pilot program prior to the effective date of this section, the location must be deemed by a local legislative authority to have experienced higher crash risks due to excessive vehicle speeds prior to installation of the automated traffic safety camera.

(4) Notices of infraction for automated traffic safety camera-detected speed violations may not be issued to the registered vehicle owner of:

(a) A marked fire engine equipped with emergency lights and siren; or

(b) An ambulance licensed by the department of health and equipped with emergency lights and siren.

**NEW SECTION. Sec. 6.** A new section is added to chapter 46.63 RCW to read as follows:

(1)(a) Subject to section 2 of this act and as limited in this subsection, automated traffic safety cameras may be used in cities with populations of more than 500,000 residents to detect one or more of the following violations:

(i) Stopping when traffic obstructed violations;

(ii) Stopping at intersection or crosswalk violations;

(iii) Public transportation only lane violations; or

(iv) Stopping or traveling in restricted lane violations.

(b) Use of automated traffic safety cameras as authorized in this subsection (1) is restricted to the following locations only: Intersections as described in section 3(2) of this act; railroad grade crossings; school speed zones; school walk zones; public park speed zones; hospital speed zones; and midblock on arterials. The use of such automated traffic safety cameras is further limited to the following:

(i) The portion of state and local roadways in downtown areas of the city used for office and commercial activities, as well as retail shopping and support services, and that may include mixed residential uses;

(ii) The portion of state and local roadways in areas in the city within one-half mile north of the boundary of the area described in (b)(i) of this subsection;

(iii) Portions of roadway systems in the city that travel into and out of (b)(ii) of this subsection that are designated by the Washington state department of transportation as noninterstate freeways for up to four miles; and

(iv) Portions of roadway systems in the city connected to the portions of the noninterstate freeways identified in (b) (iii) of this subsection that are designated by the Washington state department of transportation as arterial roadways for up to one mile from the intersection of the arterial roadway and the noninterstate freeway.

(2) Subject to section 2 of this act, automated traffic safety cameras may also be used in cities with a bus rapid transit corridor or routes to detect public transportation only lane violations.

(3) Subject to section 2 of this act, automated traffic safety cameras that are part of a public transportation vehicle-mounted system may be used by a transit authority within a county with a population of more than 1,500,000 residents to detect stopping, standing, or parking in bus stop zone violations if authorized by the local legislative authority with jurisdiction over the transit authority.

(4) Subject to section 2 of this act, and in consultation with the department of transportation, automated traffic safety cameras may be used to detect ferry queue violations under RCW 46.61.735.

(5) A transit authority may not take disciplinary action regarding a warning or infraction issued pursuant to subsections (1) through (3) of this section against an employee who was operating a public transportation vehicle at the time the violation that was the basis of the warning or infraction was detected.

**Sec. 7.** RCW 46.16A.120 and 2012 c 83 s 5 are each amended to read as follows:

(1) Each court and government agency located in this state having jurisdiction over standing, stopping, and parking violations, the use of a photo toll system under RCW 46.63.160, the use of automated traffic safety cameras under (RCW 46.63.170) sections 2 through 6 of this act, and the use of automated school bus safety cameras under RCW 46.63.180 may forward to the department any outstanding:

(a) Standing, stopping, and parking violations;

(b) Civil penalties for toll nonpayment detected through the use of photo toll systems issued under RCW 46.63.160;

(c) Automated traffic safety camera infractions issued under RCW 46.63.030(1) (d); and

(d) Automated school bus safety camera infractions issued under RCW 46.63.030(1) (e).

(3) The department shall:

(a) Record the violations, civil penalties, and infractions on the matching vehicle records; and

(b) Send notice approximately ((one hundred twenty)) 120 days in advance of the current vehicle registration expiration date to the registered owner listing the dates and jurisdictions in which the violations,

civil penalties, and infractions occurred, the amounts of unpaid fines and penalties, and the surcharge to be collected. Only those violations, civil penalties, and infractions received by the department ((one hundred twenty)) 120 days or more before the current vehicle registration expiration date will be included in the notice. Violations, civil penalties, and infractions received by the department later than ((one hundred twenty)) 120 days before the current vehicle registration expiration date that are not satisfied will be delayed until the next vehicle registration expiration date.

(4) The department, county auditor or other agent, or subagent appointed by the director shall not renew a vehicle registration if there are any outstanding standing, stopping, and parking violations, and other civil penalties issued under RCW 46.63.160 for the vehicle unless:

(a) The outstanding standing, stopping, or parking violations and civil penalties were received by the department within ((one hundred twenty)) 120 days before the current vehicle registration expiration;

(b) There is a change in registered ownership; or

(c) The registered owner presents proof of payment of each violation, civil penalty, and infraction provided in this section and the registered owner pays the surcharge required under RCW 46.17.030.

(5) The department shall:

(a) Forward a change in registered ownership information to the court or government agency who reported the outstanding violations, civil penalties, or infractions; and

(b) Remove the outstanding violations, civil penalties, and infractions from the vehicle record.

**Sec. 8.** RCW 46.63.030 and 2023 c 17 s 1 are each amended to read as follows:

(1) A law enforcement officer has the authority to issue a notice of traffic infraction:

(a) When the infraction is committed in the officer's presence, except as provided in RCW 46.09.485;

(b) When the officer is acting upon the request of a law enforcement officer in whose presence the traffic infraction was committed;

(c) If an officer investigating at the scene of a motor vehicle accident has reasonable cause to believe that the driver of a motor vehicle involved in the accident has committed a traffic infraction;

(d) When the infraction is detected through the use of an automated traffic safety camera under ((RCW 46.63.170)) sections 2 through 6 of this act. A trained and authorized civilian employee of a general authority Washington law enforcement agency, as defined in RCW 10.93.020, or an employee of a local public works or transportation department performing under the supervision of a qualified traffic engineer and as designated by a city or county, has the authority to review infractions detected through the use of an automated traffic safety camera under sections 2 through 6 of this act and to

issue notices of infraction consistent with section 2(9) of this act. These employees must be sufficiently trained and certified in reviewing infractions and issuing notices of infraction by qualified peace officers or by traffic engineers employed in the jurisdiction's public works or transportation department. Nothing in this subsection impairs decision and effects collective bargaining rights under chapter 41.56 RCW;

(e) When the infraction is detected through the use of an automated school bus safety camera under RCW 46.63.180. A trained and authorized civilian employee of a general authority Washington law enforcement agency, as defined in RCW 10.93.020, or an employee of a local public works or transportation department performing under the supervision of a qualified traffic engineer and as designated by a city or county, has the authority to review infractions detected through the use of an automated school bus safety camera under RCW 46.63.180 and to issue notices of infraction consistent with RCW 46.63.180(1)(b). These employees must be sufficiently trained and certified in reviewing infractions and issuing notices of infraction by qualified peace officers or by traffic engineers employed in the jurisdiction's public works or transportation department. Nothing in this subsection impairs decision and effects collective bargaining rights under chapter 41.56 RCW; or

(f) When the infraction is detected through the use of a speed safety camera system under RCW 46.63.200.

(2) A court may issue a notice of traffic infraction upon receipt of a written statement of the officer that there is reasonable cause to believe that an infraction was committed.

(3) If any motor vehicle without a driver is found parked, standing, or stopped in violation of this title or an equivalent administrative regulation or local law, ordinance, regulation, or resolution, the officer finding the vehicle shall take its registration number and may take any other information displayed on the vehicle which may identify its user, and shall conspicuously affix to the vehicle a notice of traffic infraction.

(4) In the case of failure to redeem an abandoned vehicle under RCW 46.55.120, upon receiving a complaint by a registered tow truck operator that has incurred costs in removing, storing, and disposing of an abandoned vehicle, an officer of the law enforcement agency responsible for directing the removal of the vehicle shall send a notice of infraction by certified mail to the last known address of the person responsible under RCW 46.55.105. The notice must be entitled "Littering—Abandoned Vehicle" and give notice of the monetary penalty. The officer shall append to the notice of infraction, on a form prescribed by the department of licensing, a notice indicating the amount of costs incurred as a result of removing, storing, and disposing of the abandoned vehicle, less any amount realized at auction, and a statement that monetary penalties for the infraction will

not be considered as having been paid until the monetary penalty payable under this chapter has been paid and the court is satisfied that the person has made restitution in the amount of the deficiency remaining after disposal of the vehicle.

**Sec. 9.** RCW 46.63.180 and 2013 c 306 s 716 are each amended to read as follows:

(1) School districts may install and operate automated school bus safety cameras on school buses to be used for the detection of violations of RCW 46.61.370(1) if the use of the cameras is approved by a vote of the school district board of directors. School districts are not required to take school buses out of service if the buses are not equipped with automated school bus safety cameras or functional automated safety cameras. Further, school districts shall be held harmless from and not liable for any criminal or civil liability arising under the provisions of this section.

(a) Automated school bus safety cameras may only take pictures of the vehicle and vehicle license plate and only while an infraction is occurring. The picture must not reveal the face of the driver or of passengers in the vehicle.

(b) A notice of infraction must be mailed to the registered owner of the vehicle within ~~((fourteen))~~ 14 days of the violation, or to the renter of a vehicle within ~~((fourteen))~~ 14 days of establishing the renter's name and address under subsection (2)(a)(i) of this section. The ~~((law enforcement officer issuing the))~~ notice of infraction ~~((shall))~~ must also include a certificate or facsimile of the notice, based upon inspection of photographs, microphotographs, or electronic images produced by an automated school bus safety camera, stating the facts supporting the notice of infraction. This certificate or facsimile is prima facie evidence of the facts contained in it and is admissible in a proceeding charging a violation under this chapter. The photographs, microphotographs, or electronic images evidencing the violation must be available for inspection and admission into evidence in a proceeding to adjudicate the liability for the infraction. A person receiving a notice of infraction based on evidence detected by an automated school bus safety camera may respond to the notice by mail.

(c) The registered owner of a vehicle is responsible for an infraction under RCW 46.63.030(1)(e) unless the registered owner overcomes the presumption in RCW 46.63.075, or, in the case of a rental car business, satisfies the conditions under subsection (2) of this section. If appropriate under the circumstances, a renter identified under subsection (2)(a)(i) of this section is responsible for an infraction.

(d) Notwithstanding any other provision of law, all photographs, microphotographs, or electronic images prepared under this section are for the exclusive use of ~~((law enforcement))~~ authorized city or county employees, as specified in RCW 46.63.030(1)(e), in the discharge of duties under this section and are not open to the public and may not be used in a court in a pending

action or proceeding unless the action or proceeding relates to a violation under this section. No photograph, microphotograph, or electronic image may be used for any purpose other than enforcement of violations under this section nor retained longer than necessary to enforce this section.

(e) If a school district installs and operates an automated school bus safety camera under this section, the compensation paid to the manufacturer or vendor of the equipment used must be based only upon the value of the equipment and services provided or rendered in support of the system, and may not be based upon a portion of the fine or civil penalty imposed or the revenue generated by the equipment. Further, any repair, replacement, or administrative work costs related to installing or repairing automated school bus safety cameras must be solely paid for by the manufacturer or vendor of the cameras. Before entering into a contract with the manufacturer or vendor of the equipment used under this subsection (1)(e), the school district must follow the competitive bid process as outlined in RCW 28A.335.190(1).

(f) Any revenue collected from infractions detected through the use of automated school bus safety cameras, less the administration and operating costs of the cameras, must be remitted to school districts for school zone safety projects as determined by the school district using the automated school bus safety cameras. The administration and operating costs of the cameras includes infraction enforcement and processing costs that are incurred by local law enforcement or local courts. During the 2013-2015 fiscal biennium, the infraction revenue may also be used for school bus safety projects by those school districts eligible to apply for funding from the school zone safety account appropriation in section 201, chapter 306, Laws of 2013.

(2)(a) If the registered owner of the vehicle is a rental car business, the (~~law enforcement~~) issuing agency shall, before a notice of infraction is issued under this section, provide a written notice to the rental car business that a notice of infraction may be issued to the rental car business if the rental car business does not, within (~~eighteen~~) 18 days of receiving the written notice, provide to the issuing agency by return mail:

(i) A statement under oath stating the name and known mailing address of the individual driving or renting the vehicle when the infraction occurred;

(ii) A statement under oath that the business is unable to determine who was driving or renting the vehicle at the time the infraction occurred because the vehicle was stolen at the time of the infraction. A statement provided under this subsection (2)(a)(ii) must be accompanied by a copy of a filed police report regarding the vehicle theft; or

(iii) In lieu of identifying the vehicle operator, the rental car business may pay the applicable penalty.

(b) Timely mailing of a statement under this subsection to the issuing (~~law enforcement~~) agency relieves a rental car

business of any liability under this chapter for the notice of infraction.

(3) For purposes of this section, "automated school bus safety camera" means a device that is affixed to a school bus that is synchronized to automatically record one or more sequenced photographs, microphotographs, or electronic images of the rear of a vehicle at the time the vehicle is detected for an infraction identified in RCW 46.61.370(1).

**Sec. 10.** RCW 46.63.075 and 2023 c 17 s 2 are each amended to read as follows:

(1) In a traffic infraction case involving an infraction detected through the use of an automated traffic safety camera under (~~RCW 46.63.170~~) sections 2 through 6 of this act, detected through the use of a speed safety camera system under RCW 46.63.200, or detected through the use of an automated school bus safety camera under RCW 46.63.180, proof that the particular vehicle described in the notice of traffic infraction was in violation of any such provision of sections 2 through 6 of this act or RCW (~~46.63.170~~) 46.63.200(~~r~~) and 46.63.180, together with proof that the person named in the notice of traffic infraction was at the time of the violation the registered owner of the vehicle, constitutes in evidence a prima facie presumption that the registered owner of the vehicle was the person in control of the vehicle at the point where, and for the time during which, the violation occurred.

(2) This presumption may be overcome only if the registered owner states, under oath, in a written statement to the court or in testimony before the court that the vehicle involved was, at the time, stolen or in the care, custody, or control of some person other than the registered owner.

**Sec. 11.** RCW 46.68.480 and 2023 c 431 s 8 are each amended to read as follows:

The Cooper Jones active transportation safety account is created in the state treasury. All receipts from penalties collected under (~~RCW 46.63.170~~) section 2(13)(c) of this act and funds designated by the legislature shall be deposited into the account. Expenditures from the account may be used only to fund grant projects or programs for bicycle, pedestrian, and nonmotorist safety improvement administered by the Washington traffic safety commission. By December 1, 2024, and every two years thereafter, the commission shall report to the transportation committees of the legislature regarding the activities funded from the account. The account is subject to allotment procedures under chapter 43.88 RCW. Moneys in the account may be spent only after appropriation.

NEW SECTION. **Sec. 12.** RCW 46.63.170 (Automated traffic safety cameras— Definition) and 2022 c 182 s 424, 2022 c 182 s 423, 2020 c 224 s 1, 2015 3rd sp.s. c 44 s 406, 2015 1st sp.s. c 10 s 702, & 2013 c 306 s 711 are each repealed."

On page 1, line 1 of the title, after "cameras;" strike the remainder of the title

and insert "amending RCW 46.16A.120, 46.63.030, 46.63.180, 46.63.075, and 46.68.480; adding new sections to chapter 46.63 RCW; and repealing RCW 46.63.170."

and the same is herewith transmitted.

Mme. Speaker:

The Senate has passed ENGROSSED SUBSTITUTE HOUSE BILL NO. 2441, with the following amendment(s): 2441-S.E AMS WM S5572.1

Strike everything after the enacting clause and insert the following:

"NEW SECTION. **Sec. 1.** A new section is added to chapter 28B.10 RCW to read as follows:

(1) Subject to the amounts appropriated for this specific purpose, the student achievement council shall select a private,

not-for-profit four-year institution as defined in RCW 28B.07.020(4) with a main campus located in Yakima county and who serves rural or underserved communities to participate in a pilot program to offer college in the high school courses at no cost to the students enrolling in the courses.

(2) The student achievement council shall distribute funds to the pilot institution at a rate of \$300 per student, up to a maximum of \$6,000 per college in the high school course administered by the pilot institution.

(3) College in the high school courses shall not include content or instruction that would subject students to religious behavior or conduct by the pilot institution or its faculty.

(4)(a) The pilot institution shall provide the following information to the student achievement council by November 1, 2025, and annually thereafter:

(i) College in the high school courses offered, including:

(A) The name of each course;

(B) The number of courses offered;

(C) The specific locations where the courses are taught; and

(D) Student enrollment information disaggregated by school districts and high schools;

(ii) Data on college in the high school student demographics;

(iii) Awards of postsecondary credit at the pilot institution; and

(iv) The academic performance of students taking the offered college in the high school courses.

(b) The student achievement council shall compile the information provided in (a) of this subsection and provide a report to the legislature by December 1, 2025, and annually thereafter, in compliance with RCW 43.01.036.

(5) As used in this section:

(a) "Course" means a class taught under a contract between an institution and a single high school teacher on an articulated subject in which the student is eligible to receive college credit.

(b) "High school" means a public school, as defined in RCW 28A.150.010, that serves students in any of grades nine through 12.

(6) This section expires December 31, 2030.

NEW SECTION. **Sec. 2.** A new section is added to chapter 28B.10 RCW to read as follows:

(1) In administering section 1 of this act, the student achievement council shall adopt rules which allow for each institution of higher education to annually sign an affidavit that the institution has adopted policies in compliance with this section. The affidavit must attest to the following nondiscrimination policies:

(a) The institution prohibits discrimination on the basis of race, creed, color, national origin, citizenship or immigration status, sex, veteran or military status, sexual orientation, or the presence of any sensory, mental, or physical disability or the use of a trained dog guide

or service animal by a person with a disability;

(b) The institution operates its education program or activity in a manner free of discrimination. No student may be excluded from participation in an education program or activity, denied the benefits of an education program or activity, or subjected to discrimination on the basis of that student's age, sex, marital status, sexual orientation, race, creed, color, national origin, citizenship or immigration status, veteran or military status, or the presence of any sensory mental, or physical disability or the use of a trained dog guide or service animal by a person with a disability, unless based upon bona fide qualification of the education program; and

(c) The institution, acting in its capacity as an employer, does not:

(i) Refuse to hire, promote, or confer tenure to any person because of age, sex, marital status, sexual orientation, race, creed, color, national origin, citizenship or immigration status, veteran or military status, or the presence of any sensory, mental, or physical disability or the use of a trained dog guide or service animal by a person with a disability, unless based upon bona fide occupational qualification. However, the prohibition against discrimination because of a disability in this subsection (1)(c)(i) does not apply if the particular disability prevents the proper performance of the particular work involved. This subsection may not be construed to require an employer to establish employment goals or quotas based on sexual orientation;

(ii) Discharge or bar any person from employment because of age, sex, marital status, sexual orientation, race, creed, color, national origin, citizenship or immigration status, veteran or military status, or the presence of any sensory, mental, or physical disability or the use of a trained dog guide or service animal by a person with a disability;

However, this section does not prohibit an employer from segregating wash rooms or locker room facilities on the basis of sex, or basing other terms and conditions of employment on the sex of employees where the Washington state human rights commission, created under chapter 49.60 RCW, has by regulation or ruling in a particular instance found the employment practice to be appropriate for the practical realization of equality of opportunity between the sexes; or

(iv) Print or circulate, or cause to be printed or circulated, any statement, advertisement, or publication, or use any form of application for employment, or make any inquiry in connection with prospective employment, which expresses any limitation, specification, or discrimination as to age,

sex, marital status, sexual orientation, race, creed, color, national origin, citizenship or immigration status, veteran or military status, or the presence of any sensory, mental, or physical disability or the use of a trained dog guide or service animal by a person with a disability; or any intent to make any such limitation, specification, or discrimination, unless based upon a bona fide occupational qualification. However, nothing in this subsection prohibits advertising in a foreign language.

**MESSAGE FROM THE SENATE**

Friday, March 1, 2024

Mme. Speaker:

The Senate has passed ENGROSSED SUBSTITUTE HOUSE BILL NO. 2494, with the following amendment(s): 2494-S.E AMS EDU S5365.1

Strike everything after the enacting clause and insert the following:

**"NEW SECTION. Sec. 1.** The legislature finds that schools are facing increased operating costs to serve students and staff. Some of these increases are beyond inflationary adjustments and reflect the evolving needs and requirements of schools. Therefore, the legislature intends to increase funding for materials, supplies, and operating costs in schools to address evolving operational needs.

**Sec. 2.** RCW 28A.150.260 and 2023 c 379 s 6 are each amended to read as follows:

The purpose of this section is to provide for the allocation of state funding that the legislature deems necessary to support school districts in offering the minimum instructional program of basic education under RCW 28A.150.220. The allocation shall be determined as follows:

(1) The governor shall and the superintendent of public instruction may recommend to the legislature a formula for the distribution of a basic education instructional allocation for each common school district.

(2) (a) The distribution formula under this section shall be for allocation purposes only. Except as may be required under subsections (4) (b) and (c), (5) (b), (8), and (9) of this section, chapter 28A.155, 28A.165, 28A.180, or 28A.185 RCW, or federal laws and regulations, nothing in this section requires school districts to use basic education instructional funds to implement a particular instructional approach or service. Nothing in this section requires school districts to maintain a particular classroom teacher-to-student ratio or other staff-to-student ratio or to use allocated funds to pay for particular types or classifications of staff. Nothing in this section entitles an individual teacher to a particular teacher planning period.

(b) To promote transparency in state funding allocations, the superintendent of public instruction must report state per-pupil allocations for each school district for the general apportionment, special education, learning assistance, transitional bilingual, highly capable, and career and technical education programs. The superintendent must report this information in a user-friendly format on the main page of the office's website. School districts must include a link to the superintendent's per-pupil allocations report on the main page of the school district's website. In addition, the budget documents published by the legislature for the enacted omnibus operating appropriations act must report statewide average per-pupil allocations for general apportionment and the categorical programs listed in this subsection.

(3) (a) To the extent the technical details of the formula have been adopted by the legislature and except when specifically provided as a school district allocation, the distribution formula for the basic education instructional allocation shall be based on minimum staffing and nonstaff costs the legislature deems necessary to support instruction and operations in prototypical schools serving high, middle, and elementary school students as provided in this section. The use of prototypical schools for the distribution formula does not constitute legislative intent that schools should be operated or structured in a similar fashion as the prototypes. Prototypical schools illustrate the level of resources needed to operate a school of a particular size with particular types and grade levels of students using commonly understood terms and inputs, such as class size, hours of instruction, and various categories of school staff. It is the intent that the funding allocations to school districts be adjusted from the school prototypes based on the actual number of annual average full-time equivalent students in each grade level at each school in the district and not based on the grade-level configuration of the school to the extent that data is available. The allocations shall be further adjusted from the school prototypes with minimum allocations for small schools and to reflect other factors identified in the omnibus appropriations act.

(b) For the purposes of this section, prototypical schools are defined as follows:

(i) A prototypical high school has 600 average annual full-time equivalent students in grades nine through 12;

(ii) A prototypical middle school has 432 average annual full-time equivalent students in grades seven and eight; and

(iii) A prototypical elementary school has 400 average annual full-time equivalent students in grades kindergarten through six.

(4) (a) (i) The minimum allocation for each level of prototypical school shall be based on the number of full-time equivalent classroom teachers needed to provide instruction over the minimum required annual instructional hours under RCW 28A.150.220 and provide at least one

teacher planning period per school day, and based on the following general education average class size of full-time equivalent students per teacher:

	General education average class size
Grades K-3. . . . .	17.00
Grade 4. . . . .	27.00
Grades 5-6. . . . .	27.00
Grades 7-8. . . . .	28.53
Grades 9-12. . . . .	28.74

(ii) The minimum class size allocation for each prototypical high school shall also provide for enhanced funding for class size reduction for two laboratory science classes within grades nine through 12 per full-time equivalent high school student multiplied by a laboratory science course factor of 0.0833, based on the number of full-time equivalent classroom teachers needed to provide instruction over the minimum required annual instructional hours in RCW 28A.150.220, and providing at least one teacher planning period per school day:

	Laboratory science average class size
Grades 9-12. . . . .	19.98

(b)(i) Beginning September 1, 2019, funding for average K-3 class sizes in this subsection (4) may be provided only to the extent of, and proportionate to, the school district's demonstrated actual class size in grades K-3, up to the funded class sizes.

(ii) The office of the superintendent of public instruction shall develop rules to implement this subsection (4)(b).

(c)(i) The minimum allocation for each prototypical middle and high school shall also provide for full-time equivalent classroom teachers based on the following number of full-time equivalent students per teacher in career and technical education:

	Career and technical education average class size
Approved career and technical education offered at the middle school and high school level. . . . .	23.00
Skill center programs meeting the standards established by the office of the superintendent of public instruction. . . . .	19.00

(ii) Funding allocated under this subsection (4)(c) is subject to RCW 28A.150.265.

(d) In addition, the omnibus appropriations act shall at a minimum specify:

(i) A high-poverty average class size in schools where more than 50 percent of the students are eligible for free and reduced-price meals; and

(ii) A specialty average class size for advanced placement and international baccalaureate courses.

(5)(a) The minimum allocation for each level of prototypical school shall include allocations for the following types of staff in addition to classroom teachers:

	Elementa ry School	Middle School	High School
Principals, assistant principals, and other certificated building-level administrators. . . . .	1.253	1.353	1.880
Teacher-librarians, a function that includes information literacy, technology, and media to support school library media programs. . . . .	0.663	0.519	0.523
Teaching assistance, including any aspect of educational instructional services provided by classified employees. . . . .	0.936	0.700	0.652
Office support and other noninstructional aides. . . . .	2.012	2.325	3.269
Custodians. . . . .	1.657	1.942	2.965
Nurses. . . . .	0.585	0.888	0.824
Social workers. . . . .	0.311	0.088	0.127
Psychologists. . . . .	0.104	0.024	0.049
Counselors. . . . .	0.993	1.716	3.039
Classified staff providing student and staff safety	0.079	0.092	0.141
Parent involvement coordinators. . . . .	0.0825	0.00	0.00

(b)(i) The superintendent may only allocate funding, up to the combined minimum allocations, for nurses, social workers, psychologists, counselors, classified staff

providing student and staff safety, and parent involvement coordinators under (a) of this subsection to the extent of and proportionate to a school district's demonstrated actual ratios of: Full-time equivalent physical, social, and emotional support staff to full-time equivalent students.

(ii) The superintendent must adopt rules to implement this subsection (5)(b) and the rules must require school districts to prioritize funding allocated as required by (b)(i) of this subsection for physical, social, and emotional support staff who hold a valid educational staff associate certificate appropriate for the staff's role.

(iii) For the purposes of this subsection (5)(b), "physical, social, and emotional support staff" include nurses, social workers, psychologists, counselors, classified staff providing student and staff safety, parent involvement coordinators, and other school district employees and contractors who provide physical, social, and emotional support to students as defined by the superintendent.

(6)(a) The minimum staffing allocation for each school district to provide district-wide support services shall be allocated per one thousand annual average full-time equivalent students in grades K-12 as follows:

	Staff per 1,000 K-12 students
Technology. . . . .	0.628
Facilities, maintenance, and grounds. . . . .	1.813
Warehouse, laborers, and mechanics. . . . .	0.332

(b) The minimum allocation of staff units for each school district to support certificated and classified staffing of central administration shall be 5.30 percent of the staff units generated under subsections (4)(a) and (5) of this section and (a) of this subsection.

(7) The distribution formula shall include staffing allocations to school districts for career and technical education and skill center administrative and other school-level certificated staff, as specified in the omnibus appropriations act.

(8)(a) Except as provided in (b) of this subsection, the minimum allocation for each school district shall include allocations per annual average full-time equivalent student for the following materials, supplies, and operating costs as provided in the ~~((2017-18))~~2023-24 school year, after which the allocations shall be adjusted annually for inflation as specified in the omnibus appropriations act:

	Per annual average full-time equivalent student in grades K-12
Technology. . . . .	<del>((130.76))</del> \$178.98
Utilities and insurance. . . . .	<del>((355.30))</del> \$430.26
Curriculum and textbooks. . . . .	<del>((140.39))</del> \$164.48

Security and central office administration. . . . .	<del>((121.94))</del> \$146.37

(b) In addition to the amounts provided in (a) of this subsection, beginning in the ~~((2014-15))~~2023-24 school year, the omnibus appropriations act shall provide the following minimum allocation for each annual average full-time equivalent student in grades nine through 12 for the following materials, supplies, and operating costs, to be adjusted annually for inflation:

	Per annual average full-time equivalent student in grades 9-12

(c) The increased allocation amount of \$21 per annual average full-time equivalent student for materials, supplies, and operating costs provided under (a) of this subsection is intended to address growing costs in the enumerated categories and may not be expended for any other purpose.

(9) In addition to the amounts provided in subsection (8) of this section and subject to RCW 28A.150.265, the omnibus appropriations act shall provide an amount based on full-time equivalent student enrollment in each of the following:

- (a) Exploratory career and technical education courses for students in grades seven through 12;
- (b) Preparatory career and technical education courses for students in grades nine through 12 offered in a high school; and
- (c) Preparatory career and technical education courses for students in grades 11 and 12 offered through a skill center.

(10) In addition to the allocations otherwise provided under this section, amounts shall be provided to support the following programs and services:

(a)(i) To provide supplemental instruction and services for students who are not meeting academic standards through the learning assistance program under RCW 28A.165.005 through 28A.165.065, allocations shall be based on the greater of either: The district percentage of students in kindergarten through grade 12 who were eligible for free or reduced-price meals for the school year immediately preceding the district's participation, in whole or part, in the United States department of agriculture's community eligibility provision, or the district percentage of students in grades K-12 who were eligible for free or reduced-price meals in the prior school year. The minimum allocation for the program shall, except as provided in (a)(iii) of this subsection, provide for each level of prototypical school resources to provide, on a statewide average, 2.3975 hours per week in extra instruction with a class size of 15 learning assistance program students per teacher.

(ii) In addition to funding allocated under (a)(i) of this subsection, to provide supplemental instruction and services for students who are not meeting academic standards in qualifying schools. A qualifying school, except as provided in (a)(iv) of this subsection, means a school in which the three-year rolling average of the prior year total annual average enrollment that qualifies for free or reduced-price meals equals or exceeds 50 percent or more of its total annual average enrollment. A school continues to meet the definition of a qualifying school if the school: Participates in the United States department of agriculture's community eligibility provision; and met the definition of a qualifying school in the year immediately preceding their participation. The minimum allocation for this additional high poverty-based allocation must provide for each level of prototypical school resources to provide, on a statewide average, 1.1 hours per week in extra instruction with a class size of 15 learning assistance program students per teacher, under RCW 28A.165.055, school districts must distribute the high poverty-based allocation to the schools that generated the funding allocation.

(iii) For the 2024-25 and 2025-26 school years, allocations under (a)(i) of this subsection for school districts providing meals at no charge to students under RCW 28A.235.135 that are not participating, in whole or in part, in the United States department of agriculture's community eligibility provision shall be based on the school district percentage of students in grades K-12 who were eligible for free or reduced-price meals in school years 2019-20 through 2022-23 or the prior school year, whichever is greatest.

(iv) For the 2024-25 and 2025-26 school years, a school providing meals at no charge to students under RCW 28A.235.135 that is not participating in the department of agriculture's community eligibility provision continues to meet the definition of a qualifying school under (a)(i) of this subsection if the school met the definition during one year of the 2019-20 through 2022-23 school years, or in the prior school year.

(b)(i) To provide supplemental instruction and services for students whose primary language is other than English, allocations shall be based on the head count number of students in each school who are eligible for and enrolled in the transitional bilingual instruction program under RCW 28A.180.010 through 28A.180.080. The minimum allocation for each level of prototypical school shall provide resources to provide, on a statewide average, 4.7780 hours per week in extra instruction for students in grades kindergarten through six and 6.7780 hours per week in extra instruction for students in grades seven through 12, with 15 transitional bilingual instruction program students per teacher. Notwithstanding other provisions of this subsection (10), the actual per-student allocation may be scaled to provide a larger allocation for students needing more intensive intervention and a commensurate reduced allocation for students needing less intensive intervention, as detailed in the omnibus appropriations act.

(ii) To provide supplemental instruction and services for students who have exited the transitional bilingual program, allocations shall be based on the head count number of students in each school who have exited the transitional bilingual program within the previous two years based on their performance on the English proficiency assessment and are eligible for and enrolled in the transitional bilingual instruction program under RCW 28A.180.040(1)(g). The minimum allocation for each prototypical school shall provide resources to provide, on a statewide average, 3.0 hours per week in extra instruction with 15 exited students per teacher.

(c) To provide additional allocations to support programs for highly capable students under RCW 28A.185.010 through 28A.185.030, allocations shall be based on 5.0 percent of each school district's full-time equivalent basic education enrollment. The minimum allocation for the programs shall provide resources to provide, on a statewide average, 2.1590 hours per week in extra instruction with fifteen highly capable program students per teacher.

(11) The allocations under subsections (4)(a), (5), (6), and (8) of this section shall be enhanced as provided under RCW 28A.150.390 on an excess cost basis to provide supplemental instructional resources for students with disabilities.

(12)(a) For the purposes of allocations for prototypical high schools and middle schools under subsections (4) and (10) of this section that are based on the percent of students in the school who are eligible for free and reduced-price meals, the actual percent of such students in a school shall be adjusted by a factor identified in the omnibus appropriations act to reflect underreporting of free and reduced-price meal eligibility among middle and high school students.

(b) Allocations or enhancements provided under subsections (4), (7), and (9) of this section for exploratory and preparatory career and technical education courses shall be provided only for courses approved by the office of the superintendent of public instruction under chapter 28A.700 RCW.

(13)(a) This formula for distribution of basic education funds shall be reviewed biennially by the superintendent and governor. The recommended formula shall be subject to approval, amendment or rejection by the legislature.

(b) In the event the legislature rejects the distribution formula recommended by the governor, without adopting a new distribution formula, the distribution formula for the previous school year shall remain in effect.

(c) The enrollment of any district shall be the annual average number of full-time equivalent students and part-time students as provided in RCW 28A.150.350, enrolled on the first school day of each month, including students who are in attendance pursuant to RCW 28A.335.160 and 28A.225.250 who do not reside within the servicing school district. The definition of full-time equivalent student shall be determined by rules of the superintendent of public instruction and shall be included as part of the superintendent's biennial budget request. The definition shall be based on the minimum instructional hour offerings required under RCW 28A.150.220. Any revision of the present definition shall not take effect until approved by the house ways and means committee and the senate ways and means committee.

(d) The office of financial management shall make a monthly review of the superintendent's reported full-time equivalent students in the common schools in conjunction with RCW 43.62.050.

**NEW SECTION. Sec. 3.** The state must provide the full school year amount for materials, supplies, and operating costs provided in this act for the 2023-24 school year. The first month's distribution of additional amounts provided under this act in the 2023-24 school year must be a proportion of the total annual additional amount provided in this act equal to the sum of the proportional shares under RCW 28A.510.250 from September 2023 to the first month's distribution.

This section expires September 1, 2024.

**NEW SECTION. Sec. 4.** If specific funding for the purposes of this act, referencing this act by bill or chapter number, is not provided by June 30, 2024, in the omnibus appropriations act, this act is null and void."

On page 1, line 1 of the title, after "schools;" strike the remainder of the title and insert "amending RCW 28A.150.260; creating new sections; and providing an expiration date."

#### MESSAGE FROM THE SENATE

Friday, March 1, 2024

Mme. Speaker:

The Senate has passed SUBSTITUTE HOUSE BILL NO. 2180, with the following amendment(s): 2180-S AMS ROBI S5639.1

(1) The superintendent of public instruction shall submit to each regular session of the legislature during an odd-numbered year a programmed budget request for special education programs for students with disabilities. Funding for programs operated by local school districts shall be on an excess cost basis from appropriations provided by the legislature for special education programs for students with disabilities and shall take account of state funds accruing through RCW 28A.150.260 (4) (a), (5), (6), and (8) and 28A.150.415.

(2) The excess cost allocation to school districts shall be based on the following:

(a) A district's annual average head count enrollment of students ages three and four and those five year olds not yet enrolled in kindergarten who are eligible for and receiving special education, multiplied by the district's base allocation per full-time equivalent student, multiplied by 1.2;

(b)(i) Subject to the limitation in (b)(ii) of this subsection (2), a district's annual average enrollment of resident students who are eligible for and receiving special education, excluding students ages three and four and those five year olds not yet enrolled in kindergarten, multiplied by the district's base allocation per full-time equivalent student, multiplied by the special education cost multiplier rate of:

(A) Beginning in the 2020-21 school year, either:

(I) 1.0075 for students eligible for and receiving special education and reported to be in the general education setting for 80 percent or more of the school day; or

(II) 0.995 for students eligible for and receiving special education and reported to be in the general education setting for less than 80 percent of the school day;

(B) Beginning in the 2023-24 school year, either:

(I) 1.12 for students eligible for and receiving special education and reported to be in the general education setting for 80 percent or more of the school day; or

(II) 1.06 for students eligible for and receiving special education and reported to be in the general education setting for less than 80 percent of the school day.

(ii) If the enrollment percent exceeds ~~((15))16~~ percent, the excess cost allocation calculated under (b)(i) of this subsection must be adjusted by multiplying the allocation by ~~((15))16~~ percent divided by the enrollment percent.

(3) As used in this section:

(a) "Base allocation" means the total state allocation to all schools in the district generated by the distribution formula under RCW 28A.150.260 (4)(a), (5), (6), and (8) and the allocation under RCW 28A.150.415, to be divided by the district's full-time equivalent enrollment.

(b) "Basic education enrollment" means enrollment of resident students including nonresident students enrolled under RCW 28A.225.225 and students from nonhigh districts enrolled under RCW 28A.225.210 and excluding students residing in another district enrolled as part of an interdistrict cooperative program under RCW 28A.225.250.

(c) "Enrollment percent" means the district's resident annual average enrollment of students who are eligible for and receiving special education, excluding students ages three and four and those five year olds not yet enrolled in kindergarten and students enrolled in institutional education programs, as a percent of the district's annual average full-time equivalent basic education enrollment.

NEW SECTION. **Sec. 2.**

The state auditor, in consultation with the office of the superintendent of public instruction, shall conduct a review of the prevalence of disabilities and whether the provisions and funding for evaluating students and providing services reflects the prevalence of disabilities, including whether any populations are disparately underevaluated or underserved. For fiscal year 2026, the maximum amount to be deposited to the account is \$3,000,000. For each fiscal year thereafter, the maximum amount to be deposited to the account must be adjusted based on the consumer price index that is published by November 15th of the previous year for the most recent 12-month period. The adjusted maximum amount must be rounded to the nearest \$1,000. The revenue shall be deposited equally between the operating subaccount and the capital subaccount.

(2)(a) By November 1st and by May 1st of each year, the department must calculate the amount of state sales and use tax collected as the result of retail sales at a qualified facility during the previous six months. The department must determine the appropriate amount to be deposited into the community preservation and development authority accounts based on the provisions of subsection (1) of this section.

(b) The department must notify the state treasurer of the amount of revenue required to be transferred to the community preservation and development authority account by December 1st and by June 1st each year. The treasurer must deposit those funds into the community preservation and

development authority account under RCW 43.167.040 by December 31st and June 30th each year.

(3) For purposes of this section, the following definitions apply.

It is the intent of the legislature for the joint legislative audit and review committee to conduct a review of the funding and provide its findings to the legislature by December 1, 2033.

(2) The legislature intends to extend the expiration date of this funding if the review finds that the community preservation and development authority:

(a) Increases the economic vitality of the area by providing assistance to struggling small businesses in the area and assisting in the repair of unreinforced masonry that allows businesses to remain in place, increases the safety of residents, and promotes the conversion of unused and underutilized properties to benefit the community;

(b) Enhances the livability of the community by assisting in addressing the litter and debris in streets and alleys and provide remediation to address the impacts of homelessness; and

**SENATE AMENDMENT TO HOUSE BILL**

There being no objection, the House refused to concur in the Senate amendment to ENGROSSED SUBSTITUTE HOUSE BILL NO. 1510 and asked the Senate to recede therefrom.

**MESSAGE FROM THE SENATE**

Thursday, February 29, 2024

Mme. Speaker:

The Senate has passed SUBSTITUTE HOUSE BILL NO. 2147, with the following amendment(s): 2147-S AMS AWP S5060.1

Strike everything after the enacting clause and insert the following:

"NEW SECTION. **Sec. 1.** (1) The legislature finds that Washington agriculture is complex and highly diverse, producing more than 300 agricultural commodities on over 35,900 farms. Agricultural production in Washington is highly valued, generating \$12,800,000,000 per year in production value, not including over \$17,000,000,000 in food and agricultural products that pass through Washington's ports annually.

(2) The legislature also finds that the Washington state department of agriculture's statutory duties include monitoring and responding to new, emerging, and transboundary plant and animal pests and diseases. Pest and disease challenges, to the state's food systems, public health, and the environment, have increased in frequency and severity due to changing climate patterns and global trade flows.

(3) In order to better protect Washington's food and agricultural economy, public health, and the environment, the legislature intends to provide more reliable and readily available funding to prevent, quickly detect, and rapidly respond to emerging threats from agricultural pests and diseases.

NEW SECTION. **Sec. 2.** (1) The agricultural pest and disease response account is created in the state treasury. All receipts from moneys received pursuant to section 3 of this act, moneys appropriated to the account by the legislature, or moneys directed to the account from any other lawful source, for the purpose of funding emerging agricultural pest and disease response activities, must be deposited into the account. Moneys in the account may be spent only after appropriation.

(2) Following a declaration of emergency under RCW 17.24.171 or issuance of a quarantine order under RCW 16.36.010 or 17.24.041, expenditures from the account may be used only for activities necessary to respond to emerging agricultural pest and disease threats in order to protect the food and agricultural economy of the state, the public health of the state, or the environment of the state including, but not limited to, actions authorized under this chapter and chapters 15.08, 16.36, 16.38, and 17.24 RCW.

(3) By October 1st following any fiscal year in which expenditures were made from the account, the department must provide the director of the office of financial management with a close-out cost summary of expenditures authorized for that fiscal year.

NEW SECTION. **Sec. 3.** Upon the issuance of a declaration of emergency under RCW 17.24.171 or a quarantine order under RCW 16.36.010 or 17.24.041, the state treasurer shall transfer from the general fund to the agricultural pest and disease response account created in section 2 of this act those amounts necessary to bring the balance of the agricultural pest and disease response account to \$2,000,000, based upon the determination of the transfer amount from the office of financial management. The office of financial management must determine the fund balance of the agricultural pest and disease response account as of the previous fiscal month before the issuance of a declaration of emergency or a quarantine order. The office of financial management must promptly notify the state treasurer and the department of the account balance and the necessary transfer amount once a determination is made. A transfer based on the determination by the office of financial management may be made only once every fiscal year.

**Sec. 4.** RCW 17.24.171 and 2003 c 314 s 6 are each amended to read as follows:

(1) If the director determines that there exists an imminent danger of an infestation of plant pests or plant diseases that seriously endangers the agricultural or horticultural industries of the state, or that seriously threatens life, health, economic well-being, or the environment, the director shall request the governor to order emergency measures to control the pests or plant diseases under RCW 43.06.010(13). The director's findings shall contain an

evaluation of the affect of the emergency measures on public health.

(2) If an emergency is declared pursuant to RCW 43.06.010(13), the director may appoint a committee to advise the governor through the director and to review emergency measures necessary under the authority of RCW 43.06.010(13) and this section and make subsequent recommendations to the governor. ~~((The committee shall include representatives of the agricultural industries, state and local government, public health interests, technical service providers, and environmental organizations.))~~ Invitations to participate on the committee must include representatives of the affected agricultural industries, state and local government, federally recognized tribes, public health interests, technical service providers, and environmental organizations.

(3) Upon the order of the governor of the use of emergency measures, the director is authorized to implement the emergency measures to prevent, control, or eradicate plant pests or plant diseases that are the subject of the emergency order. Such measures, after thorough evaluation of all other alternatives, may include the aerial application of pesticides.

(4) Upon the order of the governor of the use of emergency measures, the director is authorized to enter into agreements with individuals, companies, or agencies, to accomplish the prevention, control, or eradication of plant pests or plant diseases, notwithstanding the provisions of chapter 15.58 or 17.21 RCW, or any other statute.

(5) The director shall continually evaluate the emergency measures taken and report to the governor at intervals of not less than ~~((ten))~~ 60 days. The director shall immediately advise the governor if he or she finds that the emergency no longer exists or if certain emergency measures should be discontinued.

**NEW SECTION. Sec. 5.** Sections 2 and 3 of this act are each added to chapter 43.23 RCW."

On page 1, line 1 of the title, after "response;" strike the remainder of the title and insert "amending RCW 17.24.171; adding new sections to chapter 43.23 RCW; and creating a new section."

and the same is herewith transmitted.

#### SENATE AMENDMENT TO HOUSE BILL

There being no objection, the House refused to concur in the Senate amendment to SUBSTITUTE HOUSE BILL NO. 2147 and asked the Senate to recede therefrom.

#### MESSAGE FROM THE SENATE

Friday, March 1, 2024

Mme. Speaker:

The Senate has passed SUBSTITUTE HOUSE BILL NO. 2357, with the following amendment(s): 2357-S AMS TRAN S5479.2

Strike everything after the enacting clause and insert the following:

**"NEW SECTION. Sec. 1.** The legislature finds that the Washington state patrol has made strides in its efforts to recruit new troopers and address the unprecedented levels of vacancies within its ranks. The legislature has supported those efforts by providing sign-on bonuses for cadets and lateral hires, retention bonuses for new troopers and lateral hires, and requiring parity of trooper salaries relative to other law enforcement agencies in the state of Washington. The legislature further finds that trooper and sergeant vacancies diminish the staff available to advance up through the ranks of commissioned staff to build the leadership team for the organization. The legislature further finds that increases in retirement-eligible staff, with 122 commissioned staff expected to have 25 years of service or more in 2024, means that more needs to be done in the near term to ensure the success of efforts to rebuild the commissioned ranks of the state patrol. Therefore, the legislature intends to strengthen the Washington state patrol's ability to retain senior, experienced commissioned staff with the establishment of a state patrol longevity bonus pilot program.

**NEW SECTION. Sec. 2.** A new section is added to chapter 43.43 RCW to read as follows:

(1)(a) The temporary state patrol longevity bonus pilot program is established.

(b) Except as provided in subsection (2) of this section, beginning July 1, 2024, until June 30, 2029, an eligible commissioned employee completing 26 or more years of service shall receive an annual state trooper longevity bonus of \$10,000 on the employee's anniversary date of state employment.

(c) For any longevity bonuses awarded between July 1, 2024, and June 30, 2025, as a condition of receiving the bonus, the employee must agree that the employee will stay employed in a commissioned position with the Washington state patrol in the succeeding 12-month period following receiving the bonus. If the employee fails to stay employed in a commissioned position with the Washington state patrol for the full 12-month period following receiving the bonus amount, the employee will be required to pay back the portion of the bonus at \$833 per month for each month the employee failed to stay employed. This amount must be deducted from the final paycheck of the employee including sick leave buyout, vacation leave buyout, and other separation compensation.

(2)(a) Thirty days following any fiscal quarter in which the Washington state patrol's average filled positions in field force trooper positions is equal to or exceeds the 683 total authorized field force trooper positions, the temporary state patrol longevity bonus pilot program must be

terminated and no further bonuses can be awarded.

(b) Beginning July 15, 2024, and every three months thereafter, the Washington state patrol must submit a report showing the average filled positions in field force trooper positions in comparison to the 683 total authorized field force trooper positions in the prior fiscal quarter. The quarterly reports detailed must be submitted to the office of financial management and the transportation committees of the legislature. The authorized field force trooper level as the basis for this comparison may be adjusted as specified in the omnibus transportation appropriations act.

(c) The determination to terminate the temporary state patrol longevity bonus pilot program must be made by the office of financial management based on the quarterly reports submitted pursuant to (b) of this subsection. Prior to a determination to terminate the temporary state patrol longevity bonus pilot program, the office of financial management must consult with the chairs and ranking members of the transportation committees of the legislature.

(3) This section does not interfere with, impede, or in any way diminish the right of the officers of the Washington state patrol to bargain collectively with the state through the exclusive bargaining representatives as provided for in RCW 41.56.473.

(4) The temporary state patrol longevity bonus pilot program created in this section is a time-limited incentive targeted at retaining senior personnel and is not intended to be included in salary or average final salary for calculation of pension benefits in this chapter.

(5) The benefits provided pursuant to this act are not provided to employees as a matter of contractual right. The legislature retains the right to alter or abolish these benefits at any time and at any time the conditions specified in subsection (2) of this section are met.

(6) For the purposes of this section, "eligible commissioned employee" means a Washington state patrol employee with 26 or more years of service in the Washington state patrol retirement system.

(7) This section expires June 30, 2029.

**HOUSE AMENDMENT TO SENATE BILL**

There being no objection, the House insisted on its position in its amendment to ENGROSSED SUBSTITUTE SENATE BILL NO. 5690 and asked the Senate to concur therein.

The Speaker (Representative Bronoske presiding) called upon Representative Orwall to preside.

**MESSAGE FROM THE SENATE**

Friday, March 1, 2024

Mme. Speaker:

The Senate has passed ENGROSSED SUBSTITUTE HOUSE BILL NO. 1589, with the following amendment(s): 1589-S.E AMS NGUY S5695.2

Strike everything after the enacting clause and insert the following:

**"NEW SECTION. Sec. 1.** (1) The legislature finds that the state's gas and electrical companies face transformational change brought on by new technology, emerging opportunities for customers, and state clean energy laws. Chapter 19.405 RCW, the Washington clean energy transformation act, and chapter 70A.65 RCW, the Washington climate commitment act, require these companies to find innovative and creative solutions to equitably serve their customers, provide clean energy, reduce emissions, and keep rates fair, just, reasonable, and sufficient.

(2) Gas companies that serve over 500,000 gas customers in Washington state, which are also electrical companies, or large combination utilities, play an important role in providing affordable and reliable heating and other energy services, and in leading the implementation of state climate policies. As the state transitions to cleaner sources of energy, large combination utilities are an important partner in helping their customers make smart energy choices, including actively supporting the replacement of fossil fuel-based space and water heating equipment and other fossil fuel-based equipment with high-efficiency nonemitting equipment. Programs to accelerate the adoption of efficient, nonemitting appliances have the potential to allow large combination utilities to optimize the use of energy infrastructure, improve the management of energy loads, better manage the integration of variable renewable energy resources, reduce greenhouse gas emissions from the buildings sector, mitigate the environmental impacts of utility operations and power purchases, and improve health outcomes for occupants. Legislative clarity is important for utilities to offer programs and services, including incentives, in the decarbonization of homes and buildings for their customers.

(3) In order to meet the statewide greenhouse gas limits in the energy sectors of the economy, more resources must be directed toward achieving decarbonization of residential and commercial heating loads and other loads that are served with fossil fuels, while continuing to protect all customers, but especially low-income customers, vulnerable populations, highly impacted communities, and overburdened communities. The legislature finds that regulatory innovation may be needed to remove barriers that large combination utilities may face to meet the state's public policy objectives and expectations. The enactment of chapter 188, Laws of 2021 (Engrossed Substitute Senate Bill No. 5295) began that regulatory transition from traditional cost-of-service regulation, with investor-owned gas and electrical companies using forward-looking multiyear rate plans and taking steps toward performance-based regulation. These steps are intended to provide certainty and stability to both customers and to investor-owned gas and electrical companies, aligning public policy objectives with investments, safety, and reliability.

(4) The legislature finds that as Washington transitions to 100 percent clean electricity and as the state implements the

Washington climate commitment act, switching from fossil fuel-based heating equipment and other fossil fuel-based appliances to high-efficiency nonemitting equipment will reduce climate impacts and fuel price risks for customers in the long term. This new paradigm requires a thoughtful transition to decarbonize the energy system to ensure that all customers benefit from the transition, that customers are protected, are not subject to sudden price shocks, and continue to receive needed energy services, with an equitable allocation of benefits and burdens. This transition will require careful and integrated planning by and between utilities, the commission, and customers, as well as new regulatory tools.

(5) It is the intent of the legislature to require large combination utilities to decarbonize their systems by: (a) Prioritizing efficient and cost-effective measures to transition customers off of the direct use of fossil fuels at the lowest reasonable cost to customers; (b) investing in the energy supply, storage, delivery, and demand-side resources that will be needed to serve any increase in electrical demand affordably and reliably; (c) maintaining safety and reliability as the gas system undergoes transformational changes; (d) integrating zero-carbon and carbon-neutral fuels to serve high heat and industrial loads where electrification may not be technically feasible; (e) managing peak demand of the electric system; and (f) ensuring an equitable distribution of benefits to, and reduction of burdens for, vulnerable populations, highly impacted communities, and overburdened communities that have historically been underserved by utility energy efficiency programs, and may be disproportionately impacted by rising fuel and equipment costs or experience high energy burden.

(6) It is the intent of the legislature to support this transition by adopting requirements for large combination utilities to conduct integrated system planning to develop specific actions supporting gas system decarbonization and electrification, and reduction in the gas rate base.

(7) It is the intent of the legislature to encourage a robust competitive wholesale market for generation, storage, and demand-side resources to serve the state's electrical companies, other electric utilities, and end-users that secure their own power supply.

NEW SECTION.

**Sec. 3.**

(1) The legislature finds that large combination utilities are subject to a range of reporting and planning requirements as part of the clean energy transition. The legislature further finds that current natural gas integrated resource plans under development might not yield optimal results for timely and cost-effective decarbonization. To reduce regulatory barriers, achieve equitable and transparent outcomes, and integrate planning requirements, the commission may consolidate a large combination utility's planning requirements for both gas and electric operations, including consolidation into a single integrated system plan that is approved by the commission.

(2) (a) By July 1, 2025, the commission shall complete a rule-making proceeding to implement consolidated planning requirements for gas and electric services for large combination utilities that may include plans required under: (i) RCW 19.280.030; (ii) RCW 19.285.040; (iii) RCW 19.405.060; (iv) RCW 80.28.380; (v) RCW 80.28.365; (vi) RCW 80.28.425; and (vii) RCW 80.28.130. The commission may extend the rule-making proceeding for 90 days for good cause shown. The large combination utilities' filing deadline required in subsection (4) of this section will be extended commensurate to the rule-making extension period set by the commission. Subsequent planning requirements for future integrated system plans must be fulfilled on a timeline set by the commission. Large combination utilities that file integrated system plans are no longer required to file separate plans that are required in an integrated system plan. The statutorily required contents of any plan consolidated into an integrated system plan must be met by the integrated system plan.

(b) In its order adopting rules or issuing a policy statement approving the consolidation of planning requirements, the commission shall include a compliance checklist and any additional guidance that is necessary to assist the large combination utility in meeting the minimum requirements of all relevant statutes and rules.

(3) Upon request by a large combination utility, the commission may issue an order extending the filing and reporting requirements of a large combination utility under RCW 19.405.060 and 19.280.030, and requiring the large combination utility to file an integrated system plan pursuant to subsection (4) of this section if the commission finds that the large combination utility has made public a work plan that demonstrates reasonable progress toward meeting the standards under RCW 19.405.040(1) and 19.405.050(1) and achieving equity goals. The commission's approval of an extension of filing and reporting requirements does not relieve the large combination utility from the

obligation to demonstrate progress towards meeting the standards under RCW 19.405.040(1) and 19.405.050(1) and the interim targets approved in its most recent clean energy implementation plan. Commission approval of an extension under this section fulfills the large combination utilities statutory filing deadlines under RCW 19.405.060(1).

(4) By January 1, 2027, and on a timeline set by the commission thereafter, large combination utilities shall file an integrated system plan demonstrating how the large combination utilities' plans are consistent with the requirements of this chapter and any rules and guidance adopted by the commission, and which:

(a) Achieve the obligations of all plans consolidated into the integrated system plan;

(b) Provide a range of forecasts, for at least the next 20 years, of projected customer demand that takes into account econometric data and addresses changes in the number, type, and efficiency of customer usage;

(c) Include scenarios that achieve emissions reductions for both gas and electric operations equal to at least their proportional share of emissions reductions required under RCW 70A.45.020;

(d) Include scenarios with emissions reduction targets for both gas and electric operations for each emissions reduction period that account for the interactions between gas and electric systems;

(e) Achieve two percent of electric load annually with conservation and energy efficiency resources, unless the commission finds that a higher target is cost effective. However, the commission may accept a lower level of achievement if it determines that the requirement in this subsection (4)(e) is neither technically nor commercially feasible during the applicable emissions reduction period;

(f) Assess commercially available conservation and efficiency resources, including demand response and load management, to achieve the conservation and energy efficiency requirements in (e) of this subsection, and as informed by the assessment for conservation potential under RCW 19.285.040 for the planning horizon consistent with (b) of this subsection. Such an assessment may include, as appropriate, opportunities for development of combined heat and power as an energy and capacity resource, demand response and load management programs, and currently employed and new policies and programs needed to obtain the conservation and efficiency resources. The value of recoverable waste heat resulting from combined heat and power must be reflected in analyses of cost effectiveness under this subsection;

(g) Achieve annual demand response and demand flexibility equal to or greater than 10 percent of winter and summer peak electric demand, unless the commission finds that a higher target is cost effective. However, the commission may accept a lower level of achievement if it determines that the requirement in this subsection (4)(g) is neither technically nor commercially

feasible during the applicable emissions reduction period;

(h) Achieve all cost-effective electrification of end uses currently served by natural gas identified through an assessment of alternatives to known and planned gas infrastructure projects, including nonpipeline alternatives, rebates and incentives, and geographically targeted electrification;

(i) Include low-income electrification programs that must:

(i) Include rebates and incentives to low-income customers and customers experiencing high energy burden for the deployment of high-efficiency electric-only heat pumps in homes and buildings currently heating with wood, oil, propane, electric resistance, or gas;

(ii) Provide demonstrated material benefits to low-income participants including, but not limited to, decreased energy burden, the addition of air conditioning, and backup heat sources or energy storage systems, if necessary to protect health and safety in areas with frequent outages, or improved indoor air quality;

(iii) Enroll customers in energy assistance programs or provide bill assistance;

(iv) Provide dedicated funding for electrification readiness;

(v) Include low-income customer protections to mitigate energy burden, if electrification measures will increase a low-income participant's energy burden; and

(vi) Coordinate with community-based organizations in the gas or electrical company's service territory including, but not limited to, grantees of the department of commerce, community action agencies, and community-based nonprofit organizations, to remove barriers and effectively serve low-income customers;

(j) Accept as proof of eligibility for energy assistance enrollment in any means-tested public benefit, or low-income energy assistance program, for which eligibility does not exceed the low-income definition set by the commission pursuant to RCW 19.405.020;

(k) Assess the potential for geographically targeted electrification including, but not limited to, in overburdened communities, on gas plant that is fully depreciated or gas plant that is included in a proposal for geographically targeted electrification that requires accelerating depreciation pursuant to section 7(1) of this act for the gas plant subject to such electrification proposal;

(l) Assess commercially available supply side resources, including a comparison of the benefits and risks of purchasing electricity or gas or building new resources;

(m) Assess nonpipeline alternatives, including geographically targeted electrification and demand response, as an alternative to replacing aging gas infrastructure or expanded gas capacity. Assessments must involve, at a minimum:

(i) Identifying all known and planned gas infrastructure projects, including those without a fully defined scope or cost

estimate, for at least the 10 years following the filing;

(ii) Estimating programmatic expenses of maintaining that portion of the gas system for at least the 10 years following the filing; and

(iii) Ranking all gas pipeline segments for their suitability for nonpipeline alternatives;

(n) Assess distributed energy resources that meets the requirements of RCW 19.280.100;

(o) Provide an assessment and 20-year forecast of the availability of and requirements for regional supply side resource and delivery system capacity to provide and deliver electricity and gas to the large combination utility's customers and to meet, as applicable, the requirements of chapter 19.405 RCW and the state's greenhouse gas emissions reduction limits in RCW 70A.45.020. The delivery system assessment must identify the large combination utility's expected needs to acquire new long-term firm rights, develop new, or expand or upgrade existing, delivery system facilities consistent with the requirements of this section and reliability standards and take into account opportunities to make more effective use of existing delivery facility capacity through improved delivery system operating practices, conservation and efficiency resources, distributed energy resources, demand response, grid modernization, nonwires solutions, and other programs if applicable;

(p) Assess methods, commercially available technologies, or facilities for integrating renewable resources and nonemitting electric generation including, but not limited to, battery storage and pumped storage, and addressing overgeneration events, if applicable to the large combination utility's resource portfolio;

(q) Provide a comparative evaluation of supply side resources, delivery system resources, and conservation and efficiency resources using lowest reasonable cost as a criterion;

(r) Include a determination of resource adequacy metrics for the integrated system plan consistent with the forecasts;

(s) Forecast distributed energy resources that may be installed by the large combination utility's customers and an assessment of their effect on the large combination utility's load and operations;

(t) Identify an appropriate resource adequacy requirement and measurement metric consistent with prudent utility practice in implementing RCW 19.405.030 through 19.405.050;

(u) Integrate demand forecasts, resource evaluations, and resource adequacy requirements into a long-range assessment describing the mix of supply side resources and conservation and efficiency resources that will meet current and projected needs, including mitigating overgeneration events and implementing RCW 19.405.030 through 19.405.050, at the lowest reasonable cost and risk to the large combination utility and its customers, while maintaining and protecting the safety, reliable operation,

and balancing of the energy system of the large combination utility;

(v) Include an assessment, informed by the cumulative impact analysis conducted under RCW 19.405.140, of: Energy and nonenergy benefits and the avoidance and reductions of burdens to vulnerable populations and highly impacted communities; long-term and short-term public health and environmental benefits, costs, and risks; and energy security and risk;

(w) Include a 10-year clean energy action plan for implementing RCW 19.405.030 through 19.405.050 at the lowest reasonable cost, and at an acceptable resource adequacy standard;

(x) Include an analysis of how the integrated system plan accounts for:

(i) Model load forecast scenarios that consider the anticipated levels of zero emissions vehicle use in a large combination utility's service area, including anticipated levels of zero emissions vehicle use in the large combination utility's service area provided in RCW 47.01.520, if feasible;

(ii) Analysis, research, findings, recommendations, actions, and any other relevant information found in the electrification of transportation plans submitted under RCW 80.28.365; and

(iii) Assumed use case forecasts and the associated energy impacts, which may use the forecasts generated by the mapping and forecasting tool created in RCW 47.01.520;

(y) Establish that the large combination utility has:

(i) Consigned to auction for the benefit of ratepayers the minimum required number of allowances allocated to the large combination utility for the applicable compliance period pursuant to RCW 70A.65.130, consistent with the climate commitment act, chapter 70A.65 RCW, and rules adopted pursuant to the climate commitment act; and

(ii) Prioritized, to the maximum extent permissible under the climate commitment act, chapter 70A.65 RCW, revenues derived from the auction of allowances allocated to the utility for the applicable compliance period pursuant to RCW 70A.65.130, first to programs that eliminate the cost burden for low-income ratepayers, such as bill assistance, nonvolumetric credits on ratepayer utility bills, or electrification programs, and second to electrification programs benefiting residential and small commercial customers;

(z) Propose an action plan outlining the specific actions to be taken by the large combination utility in implementing the integrated system plan following submission; and

(aa) Report on the large combination utility's progress towards implementing the recommendations contained in its previously filed integrated system plan.

(5) In evaluating the lowest reasonable cost of decarbonization measures included in an integrated system plan, large combination utilities must apply a risk reduction premium that must account for the applicable allowance ceiling price approved by the department of ecology pursuant to the climate commitment act, chapter 70A.65 RCW.

For the purpose of this chapter, the risk reduction premium is necessary to ensure that a large combination utility is making appropriate long-term investments to mitigate against the allowance and fuel price risks to customers of the large combination utility.

(6) The clean energy action plan must:

(a) Identify and be informed by the large combination utility's 10-year cost-effective conservation potential assessment as determined under RCW 19.285.040, if applicable;

(b) Establish a resource adequacy requirement;

(c) Identify the potential cost-effective demand response and load management programs that may be acquired;

(d) Identify renewable resources, nonemitting electric generation, and distributed energy resources that may be acquired and evaluate how each identified resource may be expected to contribute to meeting the large combination utility's resource adequacy requirement;

(e) Identify any need to develop new, or expand or upgrade existing, bulk transmission and distribution facilities and document existing and planned efforts by the large combination utility to make more effective use of existing transmission capacity and secure additional transmission capacity consistent with the requirements of subsection (4)(o) of this section; and

(f) Identify the nature and possible extent to which the large combination utility may need to rely on alternative compliance options under RCW 19.405.040(1)(b), if appropriate.

(7) A large combination utility shall consider the social cost of greenhouse gas emissions, as determined by the commission pursuant to RCW 80.28.405, when developing integrated system plans and clean energy action plans. A large combination utility must incorporate the social cost of greenhouse gas emissions as a cost adder when:

(a) Evaluating and selecting conservation policies, programs, and targets;

(b) Developing integrated system plans and clean energy action plans; and

(c) Evaluating and selecting intermediate term and long-term resource options.

(8) Plans developed under this section must be updated on a regular basis, on intervals approved by the commission.

(9)(a) To maximize transparency, the commission may require a large combination utility to make the utility's data input files available in a native format. Each large combination utility shall publish its final plan either as part of an annual report or as a separate document available to the public. The report may be in an electronic form.

(b) Nothing in this subsection limits the protection of records containing commercial information under RCW 80.04.095.

(10) The commission shall establish by rule a cost test for emissions reduction measures achieved by large combination utilities to comply with state clean energy and climate policies. The cost test must be used by large combination utilities under this chapter for the purpose of determining

the lowest reasonable cost of decarbonization and electrification measures in integrated system plans, at the portfolio level, and for any other purpose determined by the commission by rule.

(11) The commission must approve, reject, or approve with conditions an integrated system plan within 12 months of the filing of such an integrated system plan. The commission may for good cause shown extend the time by 90 days for a decision on an integrated system plan filed on or before January 1, 2027, as such date is extended pursuant to subsection (2)(a) of this section.

(12) In determining whether to approve the integrated system plan, reject the integrated system plan, or approve the integrated system plan with conditions, the commission must evaluate whether the plan is in the public interest, and includes the following:

(a) The equitable distribution and prioritization of energy benefits and reduction of burdens to vulnerable populations, highly impacted communities, and overburdened communities;

(b) Long-term and short-term public health, economic, and environmental benefits and the reduction of costs and risks;

(c) Health and safety concerns;

(d) Economic development;

(e) Equity;

(f) Energy security and resiliency;

(g) Whether the integrated system plan:

(i) Would achieve a proportional share of reductions in greenhouse gas emissions for each emissions reduction period on the gas and electric systems;

(ii) Would achieve the energy efficiency and demand response targets in subsection (4)(e) and (g) of this section;

(iii) Would achieve cost-effective electrification of end uses as required by subsection (4)(h) of this section;

(iv) Results in a reasonable cost to customers, and projects the rate impacts of specific actions, programs, and investments on customers;

(v) Would maintain system reliability and reduces long-term costs and risks to customers;

(vi) Would lead to new construction career opportunities and prioritizes a transition of natural gas and electricity utility workers to perform work on construction and maintenance of new and existing renewable energy infrastructure; and

(vii) Describes specific actions that the large combination utility plans to take to achieve the requirements of the integrated system plan.

#### NEW SECTION.

**Sec. 4.** Large combination utilities shall work in good faith with other utilities, independent power producers, power marketers, end-use customers, and interested parties in the region to develop market structures and mechanisms that require the sale of wholesale electricity from generating resources in a manner that allows the greenhouse gas attributes of those resources

to be accounted for when they are sold into organized markets.

**NEW SECTION. Sec. 5.** (1) Concurrent with an application for an integrated system plan pursuant to section 3 of this act, a large combination utility may propose to construct a new renewable or nonemitting electric generation or transmission facility, make a significant investment in an existing renewable or nonemitting electric generation or transmission facility, purchase an existing renewable or nonemitting electric generation or transmission facility, or enter into a power purchase agreement for the purchase of renewable or nonemitting electric energy or capacity for a period of five years or longer. The large combination utility may submit an application to the commission seeking a certificate of necessity for that construction, investment, or purchase, including entering into a power purchase agreement, if that construction, investment, or purchase costs \$100,000,000 or more, requires the utility to begin incurring significant portions of those costs more than five years before the facility is estimated to be in service, and all or a portion of the costs would be allocable to retail customers in this state. A significant investment may include a group of investments undertaken jointly and located on the same site for a singular purpose, such as increasing the capacity of an existing renewable or nonemitting electric generation or transmission plant. Applications must be submitted in conjunction with a large combination utility's integrated system plan. However, a large combination utility may submit an application outside of the integrated system plan process for a time-sensitive project.

(2) A large combination utility submitting an application under this section may request one or more of the following:

(a) A certificate of necessity that the electric energy or capacity to be supplied or transmitted as a result of the proposed construction, investment, or purchase, including entering into a power purchase agreement, is needed;

(b) A certificate of necessity that the size, fuel type, and other design characteristics of the existing or proposed electric generation or transmission facility or the terms of the power purchase agreement represent the most appropriate and reasonable means of meeting that power need;

(c) A certificate of necessity that the estimated purchase or capital costs of and the financing plan for the existing or proposed electric generation or transmission facility including, but not limited to, the costs of siting and licensing a new facility and the estimated cost of power from the new or proposed electric generation facility, or the cost of transmission on the new or proposed electric transmission facility, are reasonable; or

(d) A request to: (i) Recognize, accrue, and defer the allowance for funds used during construction; and (ii) recover financing interest costs in base rates on construction work in progress for capital

improvements approved under this section prior to the assets being considered used and useful.

(3) The commission may approve, reject, or approve with conditions an application under this section if it is in the public interest, and the construction, investment, or purchase, including entering into a power purchase agreement, complies with the commission's administrative rules governing electric resource procurement.

(4) In a certificate of necessity under this section, the commission may specify the estimated costs included for the construction of or significant investment in the electric generation or transmission facility, the estimated price included for the purchase of the existing electric generation or transmission facility, or the estimated price included for the purchase of power pursuant to the terms of the power purchase agreement.

(5) The large combination utility shall file reports to the commission regarding the status of any project for which a certificate of necessity has been granted under this section, including an update concerning the cost and schedule of that project at intervals determined by the commission.

(6) If the commission denies any of the relief requested by a large combination utility, the large combination utility may withdraw its application or proceed with the proposed construction, purchase, investment, or power purchase agreement without a certificate and the assurance granted under this section under its ordinary course of business.

(7) If the assumptions underlying an approved certificate of necessity materially change, a large combination utility shall request, or the commission or potential intervenor on its own motion may initiate, a proceeding to review whether it is reasonable to complete an unfinished project for which a certificate of necessity has been granted. The commission shall list the assumptions underlying an approved certificate in the order approving the certificate. If the commission finds that the completion of the project is no longer reasonable, the commission may modify or cancel approval of the certificate of necessity. The commission may allow recovery of reasonable costs already incurred or committed to by contract. Once the commission finds that completion of the project is no longer reasonable, the commission may limit future cost recovery to those costs that could not be reasonably avoided. Nothing in this subsection may be construed as amending, modifying, or repealing any existing authority of the commission to ascertain and determine the fair value for rate-making purposes of the property of any large combination utility.

(8) A proposed or existing supplier of electric generation capacity that seeks to provide electric generation energy or capacity resources to the large combination utility may submit a written proposal directly to the commission as an alternative to the construction, investment, or purchase, including entering into a power purchase agreement, for which the

certificate of necessity is sought under this section. The entity submitting an alternative proposal under this subsection has standing to intervene and the commission may allow reasonable discovery in the contested case proceeding conducted under this subsection. In evaluating an alternative proposal, the commission may consider the cost of the alternative proposal and the submitting entity's qualifications, technical competence, capability, reliability, creditworthiness, and past performance. In reviewing an application, the commission may consider any alternative proposals submitted under this subsection. This subsection does not limit the ability of any other person to submit to the commission an alternative proposal to the construction, investment, or purchase, including entering into a power purchase agreement, for which a certificate of necessity is sought under this subsection and to petition for and be granted leave to intervene in the contested case proceeding conducted under this subsection under the rules of practice and procedure of the commission. This subsection does not authorize the commission to order or otherwise require a large combination utility to adopt any alternative proposal submitted under this subsection.

**NEW SECTION. Sec. 6.** (1) Large combination utilities must include the following in calculating the emissions baseline and projected cumulative emissions for an emissions reduction period, consistent with reporting of greenhouse gas emissions pursuant to the Washington clean air act, chapter 70A.15 RCW:

(a) Methane leaked from the transportation and delivery of gas from the gas distribution and service pipelines from the city gate to customer end use;

(b) Greenhouse gas emissions resulting from the combustion of gas by customers not otherwise subject to federal greenhouse gas emissions reporting and excluding all transport customers; and

(c) Emissions of methane resulting from leakage from delivery of gas to other gas companies.

(2) In calculating an emissions reduction target, a large combination utility must show its emissions baseline and projected cumulative greenhouse gas emissions for the applicable emissions reduction period separately and must show that the total emissions reductions are projected to make progress toward the achievement of the emissions reduction targets identified in the applicable integrated system plan. The final calculation must be presented on a carbon dioxide equivalent basis.

(3) All emissions are metric tons of carbon dioxide equivalent as reported to the federal environmental protection agency pursuant to 40 C.F.R. 98, either subpart W (methane) or subpart NN (carbon dioxide), or successor reporting requirements.

**NEW SECTION. Sec. 7.** (1) In any multiyear rate plan filed by a large combination utility pursuant to RCW 80.28.425 and in accordance with this

chapter, the large combination utility must include an updated depreciation study that reduces the gas rate base consistent with an approved integrated system plan, and the commission may adopt depreciation schedules that accelerate cost recovery and reduce the rate base for any gas plant. The commission shall approve a depreciation schedule that depreciates all gas plants in service as of July 1, 2024, by a date no later than January 1, 2050, in any multiyear rate plan, but the commission may adjust depreciation schedules for gas plants as necessary when considering future multiyear rate plans to address affordability provided all plants in service as of July 1, 2024, are fully depreciated by 2050.

(2) In any multiyear rate plan proposed by a large combination utility, the company may propose a merger of regulated gas and electric operations into a single rate base. The commission may approve the merger of electric and gas rate bases if the commission finds that the proposal will result in a net benefit to customers of the large combination utility and includes reasonable rate protections for low-income natural gas and electric customers.

(3) For a large combination utility that has merged gas and electricity rate bases, the large combination utility must monetize benefits received from any applicable federal and state tax and other incentives for the benefit of customers. These benefits must be separately accounted for and amortized on a schedule designed to mitigate the rate impacts to customers after the rate bases are combined. These credits may not be used for any other purpose, unless directed by the commission.

(4) For the first multiyear rate plan proposed by a large combination utility following commission approval or approval with conditions of the initial integrated system plan identified in section 3 of this act, the commission may for good cause shown extend the deadline for a decision set forth under RCW 80.04.130 by up to 60 days.

**NEW SECTION. Sec. 8.** (1) Beginning January 1, 2025, no large combination utility may offer any form of rebate, incentive, or other inducement to residential gas customers to purchase any natural gas appliance or equipment. Until January 1, 2031, rebates and incentives for commercial and industrial gas customers are not included in this requirement. Rebates and incentives for electric heat pumps that include natural gas backups may be offered until January 1, 2031.

(2) By November 1, 2025, a large combination utility must initiate and maintain an effort to educate its ratepayers about the benefits of electrification and the availability of rebates, incentives, or other inducements to purchase energy efficient electric appliances and equipment including, but not limited to, the maintenance of an educational website and the inclusion of educational materials in monthly billing statements.

(3) Beginning January 1, 2031, a large combination utility may not include electric

air source heat pumps with gas backups as part of its electrification programs.

**Sec. 9.** RCW 19.280.030 and 2023 c 229 s 2 are each amended to read as follows:

Each electric utility must develop a plan consistent with this section.

(1) Utilities with more than 25,000 customers that are not full requirements customers must develop or update an integrated resource plan by September 1, 2008. At a minimum, progress reports reflecting changing conditions and the progress of the integrated resource plan must be produced every two years thereafter. An updated integrated resource plan must be developed at least every four years subsequent to the 2008 integrated resource plan. The integrated resource plan, at a minimum, must include:

(a) A range of forecasts, for at least the next 10 years or longer, of projected customer demand which takes into account econometric data and customer usage;

(b) An assessment of commercially available conservation and efficiency resources, as informed, as applicable, by the assessment for conservation potential under RCW 19.285.040 for the planning horizon consistent with (a) of this subsection. Such assessment may include, as appropriate, opportunities for development of combined heat and power as an energy and capacity resource, demand response and load management programs, and currently employed and new policies and programs needed to obtain the conservation and efficiency resources;

(c) An assessment of commercially available, utility scale renewable and nonrenewable generating technologies including a comparison of the benefits and risks of purchasing power or building new resources;

(d) A comparative evaluation of renewable and nonrenewable generating resources, including transmission and distribution delivery costs, and conservation and efficiency resources using "lowest reasonable cost" as a criterion;

(e) An assessment of methods, commercially available technologies, or facilities for integrating renewable resources, including but not limited to battery storage and pumped storage, and addressing overgeneration events, if applicable to the utility's resource portfolio;

(f) An assessment and 20-year forecast of the availability of and requirements for regional generation and transmission capacity to provide and deliver electricity to the utility's customers and to meet the requirements of chapter 288, Laws of 2019 and the state's greenhouse gas emissions reduction limits in RCW 70A.45.020. The transmission assessment must identify the utility's expected needs to acquire new long-term firm rights, develop new, or expand or upgrade existing, bulk transmission facilities consistent with the requirements of this section and reliability standards;

(i) If an electric utility operates transmission assets rated at 115,000 volts

or greater, the transmission assessment must take into account opportunities to make more effective use of existing transmission capacity through improved transmission system operating practices, energy efficiency, demand response, grid modernization, nonwires solutions, and other programs if applicable;

(ii) An electric utility that relies entirely or primarily on a contract for transmission service to provide necessary transmission services may comply with the transmission requirements of this subsection by requesting that the counterparty to the transmission service contract include the provisions of chapter 288, Laws of 2019 and chapter 70A.45 RCW as public policy mandates in the transmission service provider's process for assessing transmission need, and planning and acquiring necessary transmission capacity;

(iii) An electric utility may comply with the requirements of this subsection (1)(f) by relying on and incorporating the results of a separate transmission assessment process, conducted individually or jointly with other utilities and transmission system users, if that assessment process meets the requirements of this subsection;

(g) A determination of resource adequacy metrics for the resource plan consistent with the forecasts;

(h) A forecast of distributed energy resources that may be installed by the utility's customers and an assessment of their effect on the utility's load and operations;

(i) An identification of an appropriate resource adequacy requirement and measurement metric consistent with prudent utility practice in implementing RCW 19.405.030 through 19.405.050;

(j) The integration of the demand forecasts, resource evaluations, and resource adequacy requirement into a long-range assessment describing the mix of supply side generating resources and conservation and efficiency resources that will meet current and projected needs, including mitigating overgeneration events and implementing RCW 19.405.030 through 19.405.050, at the lowest reasonable cost and risk to the utility and its customers, while maintaining and protecting the safety, reliable operation, and balancing of its electric system;

(k) An assessment, informed by the cumulative impact analysis conducted under RCW 19.405.140, of: Energy and nonenergy benefits and the avoidance and reductions of burdens to vulnerable populations and highly impacted communities; long-term and short-term public health and environmental benefits, costs, and risks; and energy security and risk;

(l) A 10-year clean energy action plan for implementing RCW 19.405.030 through 19.405.050 at the lowest reasonable cost, and at an acceptable resource adequacy standard, that identifies the specific actions to be taken by the utility consistent with the long-range integrated resource plan; and

(m) An analysis of how the plan accounts for:

(i) Modeled load forecast scenarios that consider the anticipated levels of zero emissions vehicle use in a utility's service area, including anticipated levels of zero emissions vehicle use in the utility's service area provided in RCW 47.01.520, if feasible;

(ii) Analysis, research, findings, recommendations, actions, and any other relevant information found in the electrification of transportation plans submitted under RCW 35.92.450, 54.16.430, and 80.28.365; and

(iii) Assumed use case forecasts and the associated energy impacts. Electric utilities may, but are not required to, use the forecasts generated by the mapping and forecasting tool created in RCW 47.01.520. This subsection (1)(m)(iii) applies only to plans due to be filed after September 1, 2023.

(2) The clean energy action plan must:

(a) Identify and be informed by the utility's 10-year cost-effective conservation potential assessment as determined under RCW 19.285.040, if applicable;

(b) Establish a resource adequacy requirement;

(c) Identify the potential cost-effective demand response and load management programs that may be acquired;

(d) Identify renewable resources, nonemitting electric generation, and distributed energy resources that may be acquired and evaluate how each identified resource may be expected to contribute to meeting the utility's resource adequacy requirement;

(e) Identify any need to develop new, or expand or upgrade existing, bulk transmission and distribution facilities and document existing and planned efforts by the utility to make more effective use of existing transmission capacity and secure additional transmission capacity consistent with the requirements of subsection (1)(f) of this section; and

(f) Identify the nature and possible extent to which the utility may need to rely on alternative compliance options under RCW 19.405.040(1)(b), if appropriate.

(3)(a) An electric or large combination utility shall consider the social cost of greenhouse gas emissions, as determined by the commission for investor-owned utilities pursuant to RCW 80.28.405 and the department for consumer-owned utilities, when developing integrated resource plans and clean energy action plans. An electric utility must incorporate the social cost of greenhouse gas emissions as a cost adder when:

(i) Evaluating and selecting conservation policies, programs, and targets;

(ii) Developing integrated resource plans and clean energy action plans; and

(iii) Evaluating and selecting intermediate term and long-term resource options.

(b) For the purposes of this subsection (3): (i) Gas consisting largely of methane and other hydrocarbons derived from the decomposition of organic material in landfills, wastewater treatment facilities, and anaerobic digesters must be considered a

nonemitting resource; and (ii) qualified biomass energy must be considered a nonemitting resource.

(4) To facilitate broad, equitable, and efficient implementation of chapter 288, Laws of 2019, a consumer-owned energy utility may enter into an agreement with a joint operating agency organized under chapter 43.52 RCW or other nonprofit organization to develop and implement a joint clean energy action plan in collaboration with other utilities.

(5) All other utilities may elect to develop a full integrated resource plan as set forth in subsection (1) of this section or, at a minimum, shall develop a resource plan that:

(a) Estimates loads for the next five and 10 years;

(b) Enumerates the resources that will be maintained and/or acquired to serve those loads;

(c) Explains why the resources in (b) of this subsection were chosen and, if the resources chosen are not: (i) Renewable resources; (ii) methods, commercially available technologies, or facilities for integrating renewable resources, including addressing any overgeneration event; or (iii) conservation and efficiency resources, why such a decision was made;

(d) By December 31, 2020, and in every resource plan thereafter, identifies how the utility plans over a 10-year period to implement RCW 19.405.040 and 19.405.050; and

(e) Accounts for:

(i) Modeled load forecast scenarios that consider the anticipated levels of zero emissions vehicle use in a utility's service area, including anticipated levels of zero emissions vehicle use in the utility's service area provided in RCW 47.01.520, if feasible;

(ii) Analysis, research, findings, recommendations, actions, and any other relevant information found in the electrification of transportation plans submitted under RCW 35.92.450, 54.16.430, and 80.28.365; and

(iii) Assumed use case forecasts and the associated energy impacts. Electric utilities may, but are not required to, use the forecasts generated by the mapping and forecasting tool created in RCW 47.01.520. This subsection (5)(e)(iii) applies only to plans due to be filed after September 1, 2023.

(6) Assessments for demand-side resources included in an integrated resource plan may include combined heat and power systems as one of the measures in a conservation supply curve. The value of recoverable waste heat resulting from combined heat and power must be reflected in analyses of cost-effectiveness under this subsection.

(7) An electric utility that is required to develop a resource plan under this section must complete its initial plan by September 1, 2008.

(8) Plans developed under this section must be updated on a regular basis, on intervals approved by the commission or the department, or at a minimum on intervals of two years.

(9)(a) Plans shall not be a basis to bring legal action against electric

utilities. However, nothing in this subsection (9)(a) may be construed as limiting the commission or any party from bringing any action pursuant to Title 80 RCW, this chapter, or chapter 19.405 RCW against any large combination utility related to an integrated system plan submitted pursuant to section 3 of this act.

(b) The commission may approve, reject, or approve with conditions, any integrated system plans submitted by a large combination utility as defined in section 2 of this act.

(10)(a) To maximize transparency, the commission, for investor-owned utilities, or the governing body, for consumer-owned utilities, may require an electric utility to make the utility's data input files available in a native format. Each electric utility shall publish its final plan either as part of an annual report or as a separate document available to the public. The report may be in an electronic form.

(b) Nothing in this subsection limits the protection of records containing commercial information under RCW 80.04.095.

(11) The commission may require a large combination utility as defined in section 2 of this act to incorporate the requirements of this section into an integrated system plan established under section 3 of this act.

**NEW SECTION. Sec. 10.** (1) When an integrated system plan of a large combination utility proposes geographically targeted electrification of all or a portion of a service area in which the large combination utility provides gas service to such a service area and one or more consumer-owned utilities provide electric service to such a service area, the integrated system plan of the large combination utility must include a process for outreach by the large combination utility to all consumer-owned utilities providing electric service to such a service area. As part of that outreach, the large combination utility shall provide gas delivery data of sufficient granularity for the consumer-owned electric company to assess the sufficiency of the capacity of the electric distribution system to accommodate the additional load from electrification at the circuit level. This data must be provided at least one plan cycle prior to electrification actions by the large combination utility to allow affected consumer-owned electric companies sufficient time to upgrade electrical distribution equipment and materials as needed to preserve system reliability.

(2) Consumer-owned utilities are encouraged to:

(a) Work with large combination utilities providing gas service within their service areas to identify opportunities for electrification and mitigating grid impacts by the large combination utility;

(b) Account for the costs of greenhouse gas emissions, set total energy savings and greenhouse gas emissions reduction goals, and develop and implement electrification programs in collaboration with large combination utilities providing gas service

in service areas of consumer-owned utilities; and

(c) Include an electrification plan or transportation electrification program as part of collaboration with large combination utilities.

(3) Nothing in this section may be construed as expanding or contracting the authority of any electric utility with regard to the designation of the boundaries of adjoining service areas that each electric utility must observe.

**NEW SECTION. Sec. 11.** (1) For any project in an integrated system plan of a large combination utility that is part of a competitive solicitation and with a cost of more than \$10,000,000, the large combination utility must certify to the commission that any work associated with such a project will be constructed by a prime contractor and its subcontractors in a way that includes community workforce agreements or project labor agreements and the payment of area standard prevailing wages and apprenticeship utilization requirements, provided the following apply:

(a) The project owner and the prime contractor and all of its subcontractors, regardless of tier, have the absolute right to select any qualified and responsible bidder for the award of contracts on a specified project without reference to the existence or nonexistence of any agreements between such a bidder and any party to such a project labor agreement, and only when such a bidder is willing, ready, and able to become a party to, signs a letter of assent, and complies with such an agreement or agreements, should it be designated the successful bidder; and

(b) It is understood that this is a self-contained, stand-alone agreement, and that by virtue of having become bound to such an agreement or agreements, neither the prime contractor nor the subcontractors are obligated to sign any other local, area, or national agreement.

(2) Nothing in this section supersedes RCW 19.28.091 or 19.28.261 or chapter 49.17 RCW, without regard to project cost.

**NEW SECTION. Sec. 12.** The commission may adopt rules to ensure the proper implementation and enforcement of this act.

**Sec. 13.** RCW 80.24.010 and 2022 c 159 s 1 are each amended to read as follows:

Every public service company subject to regulation by the commission shall, on or before the date specified by the commission for filing annual reports under RCW 80.04.080, file with the commission a statement on oath showing its gross operating revenue from intrastate operations for the preceding calendar year or portion thereof and pay to the commission a fee equal to one-tenth of one percent of the first ~~((fifty thousand dollars))~~ \$50,000 of gross operating revenue, plus four-tenths of one percent of any gross operating revenue in excess of ~~((fifty thousand dollars))~~ \$50,000, except that a large combination utility as defined in section 2 of this act

shall pay a fee equal to 0.001 percent of the first \$50,000 of gross operating revenue, plus 0.005 percent of any gross operating revenue in excess of \$50,000: PROVIDED, That the commission may, by rule, set minimum fees that do not exceed the cost of collecting the fees. The commission may by rule waive any or all of the minimum fee established pursuant to this section.

The percentage rates of gross operating revenue to be paid in any year may be decreased by the commission for any class of companies subject to the payment of such fees, by general order entered before March 1st of such year, and for such purpose such companies shall be classified as follows:

Electrical, gas, water, telecommunications, and irrigation companies shall constitute class one. Every other company subject to regulation by the commission, for which regulatory fees are not otherwise fixed by law shall pay fees as herein provided and shall constitute additional classes according to kinds of businesses engaged in.

Any payment of the fee imposed by this section made after its due date shall include a late fee of two percent of the amount due. Delinquent fees shall accrue interest at the rate of one percent per month.

**Sec. 14.** RCW 19.405.060 and 2019 c 288 s 6 are each amended to read as follows:

(1)(a) By January 1, 2022, and every four years thereafter, each investor-owned utility must develop and submit to the commission:

(i) A four-year clean energy implementation plan for the standards established under RCW 19.405.040(1) and 19.405.050(1) that proposes specific targets for energy efficiency, demand response, and renewable energy; and

(ii) Proposed interim targets for meeting the standard under RCW 19.405.040(1) during the years prior to 2030 and between 2030 and 2045.

(b) An investor-owned utility's clean energy implementation plan must:

(i) Be informed by the investor-owned utility's clean energy action plan developed under RCW 19.280.030;

(ii) Be consistent with subsection (3) of this section; and

(iii) Identify specific actions to be taken by the investor-owned utility over the next four years, consistent with the utility's long-range integrated resource plan and resource adequacy requirements, that demonstrate progress toward meeting the standards under RCW 19.405.040(1) and 19.405.050(1) and the interim targets proposed under (a)(i) of this subsection. The specific actions identified must be informed by the investor-owned utility's historic performance under median water conditions and resource capability and by the investor-owned utility's participation in centralized markets. In identifying specific actions in its clean energy implementation plan, the investor-owned utility may also take into consideration any significant and unplanned loss or addition of load it experiences.

(c) The commission, after a hearing, must by order approve, reject, or approve with conditions an investor-owned utility's clean energy implementation plan and interim targets. The commission may, in its order, recommend or require more stringent targets than those proposed by the investor-owned utility. The commission may periodically adjust or expedite timelines if it can be demonstrated that the targets or timelines can be achieved in a manner consistent with the following:

(i) Maintaining and protecting the safety, reliable operation, and balancing of the electric system;

(ii) Planning to meet the standards at the lowest reasonable cost, considering risk;

(iii) Ensuring that all customers are benefiting from the transition to clean energy: Through the equitable distribution of energy and nonenergy benefits and the reduction of burdens to vulnerable populations and highly impacted communities; long-term and short-term public health and environmental benefits and reduction of costs and risks; and energy security and resiliency; and

(iv) Ensuring that no customer or class of customers is unreasonably harmed by any resulting increases in the cost of utility-supplied electricity as may be necessary to comply with the standards.

(2)(a) By January 1, 2022, and every four years thereafter, each consumer-owned utility must develop and submit to the department a four-year clean energy implementation plan for the standards established under RCW 19.405.040(1) and 19.405.050(1) that:

(i) Proposes interim targets for meeting the standard under RCW 19.405.040(1) during the years prior to 2030 and between 2030 and 2045, as well as specific targets for energy efficiency, demand response, and renewable energy;

(ii) Is informed by the consumer-owned utility's clean energy action plan developed under RCW 19.280.030(1) or other ten-year plan developed under RCW 19.280.030(5);

(iii) Is consistent with subsection (4) of this section; and

(iv) Identifies specific actions to be taken by the consumer-owned utility over the next four years, consistent with the utility's long-range resource plan and resource adequacy requirements, that demonstrate progress towards meeting the standards under RCW 19.405.040(1) and 19.405.050(1) and the interim targets proposed under (a)(i) of this subsection. The specific actions identified must be informed by the consumer-owned utility's historic performance under median water conditions and resource capability and by the consumer-owned utility's participation in centralized markets. In identifying specific actions in its clean energy implementation plan, the consumer-owned utility may also take into consideration any significant and unplanned loss or addition of load it experiences.

(b) The governing body of the consumer-owned utility must, after a public meeting, adopt the consumer-owned utility's clean energy implementation plan. The clean energy

implementation plan must be submitted to the department and made available to the public. The governing body may adopt more stringent targets than those proposed by the consumer-owned utility and periodically adjust or expedite timelines if it can be demonstrated that such targets or timelines can be achieved in a manner consistent with the following:

(i) Maintaining and protecting the safety, reliable operation, and balancing of the electric system;

(ii) Planning to meet the standards at the lowest reasonable cost, considering risk;

(iii) Ensuring that all customers are benefiting from the transition to clean energy: Through the equitable distribution of energy and nonenergy benefits and reduction of burdens to vulnerable populations and highly impacted communities; long-term and short-term public health and environmental benefits and reduction of costs and risks; and energy security and resiliency; and

(iv) Ensuring that no customer or class of customers is unreasonably harmed by any resulting increases in the cost of utility-supplied electricity as may be necessary to comply with the standards.

(3) (a) An investor-owned utility must be considered to be in compliance with the standards under RCW 19.405.040(1) and 19.405.050(1) if, over the four-year compliance period, the average annual incremental cost of meeting the standards or the interim targets established under subsection (1) of this section equals a two percent increase of the investor-owned utility's weather-adjusted sales revenue to customers for electric operations above the previous year, as reported by the investor-owned utility in its most recent commission basis report. All costs included in the determination of cost impact must be directly attributable to actions necessary to comply with the requirements of RCW 19.405.040 and 19.405.050.

(b) If an investor-owned utility relies on (a) of this subsection as a basis for compliance with the standard under RCW 19.405.040(1), then it must demonstrate that it has maximized investments in renewable resources and nonemitting electric generation prior to using alternative compliance options allowed under RCW 19.405.040(1) (b).

(4) (a) A consumer-owned utility must be considered to be in compliance with the standards under RCW 19.405.040(1) and 19.405.050(1) if, over the four-year compliance period, the average annual incremental cost of meeting the standards or the interim targets established under subsection (2) of this section meets or exceeds a two percent increase of the consumer-owned utility's retail revenue requirement above the previous year. All costs included in the determination of cost impact must be directly attributable to actions necessary to comply with the requirements of RCW 19.405.040 and 19.405.050.

(b) If a consumer-owned utility relies on (a) of this subsection as a basis for compliance with the standard under RCW

19.405.040(1), and it has not met eighty percent of its annual retail electric load using electricity from renewable resources and nonemitting electric generation, then it must demonstrate that it has maximized investments in renewable resources and nonemitting electric generation prior to using alternative compliance options allowed under RCW 19.405.040(1) (b).

(5) The commission, for investor-owned utilities, and the department, for consumer-owned utilities, must adopt rules establishing the methodology for calculating the incremental cost of compliance under this section, as compared to the cost of an alternative lowest reasonable cost portfolio of investments that are reasonably available.

(6) The commission may require a large combination utility as defined in section 2 of this act to incorporate the requirements of this section into an integrated system plan established under section 3 of this act.

**Sec. 15.** RCW 80.28.130 and 2011 c 214 s 22 are each amended to read as follows:

Whenever the commission finds, after hearing had upon its own motion or upon complaint, that repairs or improvements, to, or changes in, any gas plant, electrical plant, system of sewerage, or water system ought to be made, or that any additions or extensions should reasonably be made thereto, in order to promote the security or convenience of the public or employees, or in order to secure adequate service or facilities for manufacturing, distributing or supplying gas, electricity, wastewater company services, or water, the commission may enter an order directing that such reasonable repairs, improvements, changes, additions or extensions of such gas plant, electrical plant, system of sewerage, or water system be made. The commission may require a large combination utility as defined in section 2 of this act to incorporate any existing pipeline safety and replacement plans under this section into an integrated system plan established under section 3 of this act.

**Sec. 16.** RCW 80.28.365 and 2019 c 287 s 5 are each amended to read as follows:

(1) An electric utility regulated by the utilities and transportation commission under this chapter may submit to the commission an electrification of transportation plan that deploys electric vehicle supply equipment or provides other electric transportation programs, services, or incentives to support electrification of transportation. The plans should align to a period consistent with either the utility's planning horizon under its most recent integrated resource plan or the time frame of the actions contemplated in the plan, and may include:

(a) Any programs that the utility is proposing contemporaneously with the plan filing or anticipates later in the plan period;

(b) Anticipated benefits of transportation electrification, based on a

forecast of electric transportation in the utilities' service territory; and

(c) Anticipated costs of programs, subject to the restrictions in RCW 80.28.360.

(2) In reviewing an electrification of transportation plan under subsection (1) of this section, the commission may consider the following: (a) The applicability of multiple options for electrification of transportation across all customer classes; (b) the impact of electrification on the utility's load, and whether demand response or other load management opportunities, including direct load control and dynamic pricing, are operationally appropriate; (c) system reliability and distribution system efficiencies; (d) interoperability concerns, including the interoperability of hardware and software systems in electrification of transportation proposals; and (e) the benefits and costs of the planned actions.

(3) The commission must issue an acknowledgment of an electrification of transportation plan within six months of the submittal of the plan. The commission may establish by rule the requirements for preparation and submission of an electrification of transportation plan. An electric utility may submit a plan under this section before or during rule-making proceedings.

(4) The commission may require a large combination utility as defined in section 2 of this act to incorporate the requirements of this section into an integrated system plan established under section 3 of this act.

**Sec. 17.** RCW 80.28.380 and 2019 c 285 s 11 are each amended to read as follows:

(1) Each gas company must identify and acquire all conservation measures that are available and cost-effective. Each company must establish an acquisition target every two years and must demonstrate that the target will result in the acquisition of all resources identified as available and cost-effective. The cost-effectiveness analysis required by this section must include the costs of greenhouse gas emissions established in RCW 80.28.395. The targets must be based on a conservation potential assessment prepared by an independent third party and approved by the commission. Conservation targets must be approved by order by the commission. The initial conservation target must take effect by 2022.

(2) The commission may require a large combination utility as defined in section 2 of this act to incorporate the requirements of this section into an integrated system plan established under section 3 of this act.

**Sec. 18.** RCW 80.28.425 and 2021 c 188 s 2 are each amended to read as follows:

(1) Beginning January 1, 2022, every general rate case filing of a gas or electrical company must include a proposal for a multiyear rate plan as provided in this chapter. The commission may, by order after an adjudicative proceeding as provided by chapter 34.05 RCW, approve, approve with

conditions, or reject, a multiyear rate plan proposal made by a gas or electrical company or an alternative proposal made by one or more parties, or any combination thereof. The commission's consideration of a proposal for a multiyear rate plan is subject to the same standards applicable to other rate filings made under this title, including the public interest and fair, just, reasonable, and sufficient rates. In determining the public interest, the commission may consider such factors including, but not limited to, environmental health and greenhouse gas emissions reductions, health and safety concerns, economic development, and equity, to the extent such factors affect the rates, services, and practices of a gas or electrical company regulated by the commission.

(2) The commission may approve, disapprove, or approve with modifications any proposal to recover from ratepayers up to five percent of the total revenue requirement approved by the commission for each year of a multiyear rate plan for tariffs that reduce the energy burden of low-income residential customers including, but not limited to: (a) Bill assistance programs; or (b) one or more special rates. For any multiyear rate plan approved under this section resulting in a rate increase, the commission must approve an increase in the amount of low-income bill assistance to take effect in each year of the rate plan where there is a rate increase. At a minimum, the amount of such low-income assistance increase must be equal to double the percentage increase, if any, in the residential base rates approved for each year of the rate plan. The commission may approve a larger increase to low-income bill assistance based on an appropriate record.

(3)(a) If it approves a multiyear rate plan, the commission shall separately approve rates for each of the initial rate year, the second rate year and, if applicable, the third rate year, and the fourth rate year.

(b) The commission shall ascertain and determine the fair value for rate-making purposes of the property of any gas or electrical company that is or will be used and useful under RCW 80.04.250 for service in this state by or during each rate year of the multiyear rate plan. For the initial rate year, the commission shall, at a minimum, ascertain and determine the fair value for rate-making purposes of the property of any gas or electrical company that is used and useful for service in this state as of the rate effective date. The commission may order refunds to customers if property expected to be used and useful by the rate effective date when the commission approves a multiyear rate plan is in fact not used and useful by such a date.

(c) The commission shall ascertain and determine the revenues and operating expenses for rate-making purposes of any gas or electrical company for each rate year of the multiyear rate plan.

(d) In ascertaining and determining the fair value of property of a gas or electrical company pursuant to (b) of this subsection and projecting the revenues and operating expenses of a gas or electrical

company pursuant to (c) of this subsection, the commission may use any standard, formula, method, or theory of valuation reasonably calculated to arrive at fair, just, reasonable, and sufficient rates.

(e) If the commission approves a multiyear rate plan with a duration of three or four years, then the electrical company must update its power costs as of the rate effective date of the third rate year. The proceeding to update the electrical company's power costs is subject to the same standards that apply to other rate filings made under this title.

(4) Subject to subsection (5) of this section, the commission may by order establish terms, conditions, and procedures for a multiyear rate plan and ensure that rates remain fair, just, reasonable, and sufficient during the course of the plan.

(5) Notwithstanding subsection (4) of this section, a gas or electrical company is bound by the terms of the multiyear rate plan approved by the commission for each of the initial rate year and the second rate year. A gas or electrical company may file a new multiyear rate plan in accordance with this section for the third rate year and fourth rate year, if any, of a multiyear rate plan.

(6) If the annual commission basis report for a gas or electrical company demonstrates that the reported rate of return on rate base of the company for the 12-month period ending as of the end of the period for which the annual commission basis report is filed is more than .5 percent higher than the rate of return authorized by the commission in the multiyear rate plan for such a company, the company shall defer all revenues that are in excess of .5 percent higher than the rate of return authorized by the commission for refunds to customers or another determination by the commission in a subsequent adjudicative proceeding. If a multistate electrical company with fewer than 250,000 customers in Washington files a multiyear rate plan that provides for no increases in base rates in consecutive years beyond the initial rate year, the commission shall waive the requirements of this subsection provided that such a waiver results in just and reasonable rates.

(7) The commission must, in approving a multiyear rate plan, determine a set of performance measures that will be used to assess a gas or electrical company operating under a multiyear rate plan. These performance measures may be based on proposals made by the gas or electrical company in its initial application, by any other party to the proceeding in its response to the company's filing, or in the testimony and evidence admitted in the proceeding. In developing performance measures, incentives, and penalty mechanisms, the commission may consider factors including, but not limited to, lowest reasonable cost planning, affordability, increases in energy burden, cost of service, customer satisfaction and engagement, service reliability, clean energy or renewable procurement, conservation acquisition, demand side management expansion, rate stability, timely execution of competitive procurement

practices, attainment of state energy and emissions reduction policies, rapid integration of renewable energy resources, and fair compensation of utility employees.

(8) Nothing in this section precludes any gas or electrical company from making filings required or permitted by the commission.

(9) The commission shall align, to the extent practical, the timing of approval of a multiyear rate plan of an electrical company submitted pursuant to this section with the clean energy implementation plan of the electrical company filed pursuant to RCW 19.405.060.

(10) The provisions of this section may not be construed to limit the existing rate-making authority of the commission.

(11) The commission may require a large combination utility as defined in section 2 of this act to incorporate the requirements of this section into an integrated system plan established under section 3 of this act.

NEW SECTION. Sec. 19. This chapter may be known and cited as the Washington decarbonization act for large combination utilities.

NEW SECTION. Sec. 20. Sections 2 through 8, 10 through 12 and 19 of this act constitute a new chapter in Title 80 RCW.

NEW SECTION. Sec. 21. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected.

NEW SECTION. Sec. 22. This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect immediately."

On page 1, line 2 of the title, after "future;" strike the remainder of the title and insert "amending RCW 19.280.030, 80.24.010, 19.405.060, 80.28.130, 80.28.365, 80.28.380, and 80.28.425; adding a new chapter to Title 80 RCW; creating a new section; and declaring an emergency."

and the same is herewith transmitted.

#### MOTION

Representative Doglio moved that the House concur with the Senate amendment(s) to ENGROSSED SUBSTITUTE HOUSE BILL NO. 1589.

#### FIRST POINT OF ORDER

Representative Stokesbary stated the Senate striking amendment (880) to ENGROSSED SUBSTITUTE HOUSE BILL NO. 1589 violated House Rule 12(F).

#### SPEAKER'S RULING

“Engrossed Second Substitute House Bill No. 1589 is a comprehensive bill making extensive changes to current law. The bill aims to assist large combination utilities in transitioning away from the use of natural gas and provides regulatory flexibility to achieve this goal. In part, the bill prescribes a process for a state regulatory agency, the Utilities and Transportation Commission, to consolidate a large combination utility’s planning requirements for both gas and electric operations into a single integrated system plan, known as an ISP. The bill requires a large combination utility to file an ISP by a specified date, and to update such a plan on a regular basis. The ISP has certain specified requirements, and the Utilities and Transportation Commission is authorized to complete rulemaking to implement consolidated planning requirements.

RCW 19.285.040 directs qualifying utilities, including large combination utilities as defined in Engrossed Substitute House Bill 1589, to establish biennial conservation targets and requires a utility to meet those targets. Significantly, it does not require the filing of a plan with the Utilities and Transportation Commission. In fact, only WAC 480-109-120, an administrative rule, requires a utility to file a biennial conservation plan.

Section 3, Subsection (2)(a) of the Senate amendment requires a large combination utility to incorporate the conservation targets required by RCW 19.285.040. However, the substantive obligations to create the conservation targets outlined in RCW 19.285.040 remain unchanged.

Therefore, the Speaker finds that Engrossed Substitute House Bill 1589, as amended by the Senate, is so complete that one can determine the scope of rights and duties it affects or creates without referring to other statutes. The Speaker further finds that that no rights or duties under existing statutes would be rendered erroneous by Section 3, Subsection (2)(a) of the Senate amendment.

The point of order is not well taken.”

### SECOND POINT OF ORDER

Representative Stokesbary stated the Senate striking amendment (880) to ENGROSSED SUBSTITUTE HOUSE BILL NO. 1589 violated House Rule 12(F).

### SPEAKER’S RULING

“The Speaker will not repeat but acknowledges the brief description of the bill in the first point of order raised.

RCW 80.04.130 in relevant part specifies a process and criteria for the Utilities and Transportation Commission to evaluate a tariff change. The statute also authorizes the commission, if it so decides, to suspend the operation of rates for a period of up to ten months. The statute does not contemplate a time frame in which a decision must be made.

Section 7, Subsection (4) of the Senate amendment authorizes the Utilities and Transportation Commission to extend the deadline for a decision about whether to suspend the operation of rates when a large combination utility proposes its first multiyear rate plan.

Because RCW 80.04.130 does not specify a time frame in which a suspension decision must be made, the decision deadline extension referenced in Section 7, Subsection (4) of the Senate amendment does not impermissibly amend RCW 80.04.130.

Therefore, the Speaker finds that Engrossed Substitute House Bill 1589, as amended by the Senate, is so complete that one can determine the scope of rights and duties it affects or creates without referring to other statutes. The Speaker further finds that that no rights or duties under existing statutes would be rendered erroneous by Section 7, Subsection (4) of the Senate amendment.

The point of order is not well taken.”

### THIRD POINT OF ORDER

Representative Stokesbary requested a scope and object ruling on the Senate striking amendment (880) to ENGROSSED SUBSTITUTE HOUSE BILL NO. 1589.

### SPEAKER’S RULING

“The title of Engrossed Substitute House Bill 1589 is an act relating to supporting Washington’s clean energy economy and transitioning to a clean, affordable, and reliable energy future. The title of the bill is broad.

Once again, the Speaker will not repeat, but acknowledges the brief description of the bill in the first point of order raised.

Section 13 of the Senate amendment increases an existing regulatory fee collected by the Utilities and Transportation Commission. This fee is paid by regulated public service companies and helps fund the commission’s operations and regulatory activities. The modified fee will help offset the cost of the commission fulfilling its duties under Engrossed Second Substitute House Bill No. 1589.

The modified fee in Section 13 of the Senate amendment is rationally related to the original purpose of the bill—to assist large combination utilities in transitioning away from the use of natural gas. Furthermore, the fee is remitted to the same agency—the Utilities and Transportation Commission—tasked with administering the bill as it left the House and before the bill was amended by the Senate.

The Speaker therefore finds and rules that the Senate amendment is within the scope and object of the bill.

Finally, because the Senate amendment is within the scope and object of the bill, the Speaker necessarily concludes that bill shall not be referred to committee per House Rule 12(C).

The point of order is not well taken.”

### MOTION

Representative Stokesbary moved to appeal the decision of the Speaker in accordance with House Rule 24 and requested an oral roll call vote on the matter.

With the consent of the House, the motion to appeal the Speaker’s decision was withdrawn.

Representative Doglio spoke in favor of the motion to concur.

An oral roll call was requested.

**HOUSE RESOLUTION NO. 2024-4697**, by Representatives Jinkins, Stokesbary, Abbarno, Alvarado, Barkis, Barnard, Bateman, Berg, Bergquist, Berry, Bronoske, Caldier, Callan, Chambers, Chandler, Chapman, Cheney, Chopp, Christian, Connors, Corry, Cortes, Couture, Davis, Dent, Doglio, Donaghy, Duerr, Dye, Entenman, Eslick, Farivar, Fey, Fitzgibbon, Fosse, Goehner, Goodman, Graham, Gregerson, Griffey, Hackney, Harris, Hutchins, Jacobsen, Klicker, Kloba, Kretz, Leavitt, Lekanoff, Low, Macri, Maycumber, McClintock, McEntire, Mena, Morgan, Mosbrucker, Nance, Orcutt, Ormsby, Ortiz-Self, Orwall, Paul, Peterson, Pollet, Ramel, Ramos, Reed, Reeves, Riccelli, Robertson, Rude, Rule, Ryu, Sandlin, Santos, Schmick, Schmidt, Senn, Shavers, Simmons, Slatter, Springer, Stearns, Steele, Stonier, Street, Taylor, Thai, Tharinger, Timmons, Volz, Walen, Walsh, Waters, Wilcox, Wylie, and Ybarra

WHEREAS, Isaac I. Stevens was the first governor of what was then the Washington Territory, and he designated Olympia as the capital in 1853 since he was already staying at the Courtyard by Marriott so it was pretty convenient and would be even more so once I-5 was built, and he was tired of traipsing around the state looking for capitals; and

WHEREAS, Olympia continued to serve as the capital after Washington became the 42nd and, if we're being honest, best state in our union in 1889; and

WHEREAS, The House of Representatives would meet to debate policy and pass laws, but everyone noticed that not a lot of work was really getting done out in the chamber, so they decided that what they needed was a room where that work could get done, and someone said, "Hey, we should just call it the Workroom," so that's what they did; and

WHEREAS, Many decades later, while all her schoolmates were dreaming of going to the moon or becoming president, a young Maureen Mueller, set her sights even higher, deciding that she would leave her native Orange County, California, and become the supervisor of that Workroom; and

WHEREAS, Everyone discouraged Maureen from her dream of being in that Workroom because everyone knew that the hours were crazy and the coffee was terrible, but Maureen knew that they could not see past the chaos of Session into the splendor of Interim; and

WHEREAS, After first working in software in San Francisco, she moved to Washington and came to work in the House, beginning first as session Committee Legislative Assistant for the Office of Program Research in December 1995 for the 1996 and 1997 sessions; after which OPR wisely hired her on a permanent basis in 1999; but even then she knew that was not her true calling and she could see firsthand that the Workroom was in need of some major, well, work; and

WHEREAS, In 2010, Maureen finally fulfilled her destiny of working in the Workroom as Workroom Coordinator, promoting to

Workroom Supervisor in 2016 and immediately setting to work sorting everything out and spending extra time on what are legally known as "the fiddly bits" of legislative paperwork that you probably never paid attention to but, oh boy, you'd sure notice in a hurry if she wasn't there making that stuff work out; and

WHEREAS, This is as good a time as any to remark that no one here really calls her Maureen because she is affectionately known as Moe, which is why you could be forgiven if you didn't know who Maureen is because you were thinking of a Moe who did all those crucial things for the House; and

WHEREAS, Not a lot is known about Maureen's home life, as no one even thought to check if she even ever leaves the Workroom until we started putting this resolution together, but in all seriousness, as well as devoting substantial time and energy to the House, she and her husband Warren raised two children, Malorie (Malley) and Aleksei (Alex); are loving grandparents to their grandson Robert (Bertie); and find time to restore historic homes and travel the world, including Thailand, Morocco, China, Egypt, Greece, Germany, Cambodia, and France. Further, she clearly never sleeps because she routinely prepares amazing cuisine and treats to sustain the Workroom and rostrum staff through 20-hour floor sessions; and

WHEREAS, Moe has bizarrely decided to leave her beloved Workroom and retire to another beloved place in France, which is probably a lot like the Workroom only with everything in French and less rainy; and

WHEREAS, Everyone should be very happy for Moe's retirement, and we would be, except there's still the matter of all those fiddly bits in the Workroom that she handles, and that stuff is still going to need to get done while she's off galivanting around in France;

NOW, THEREFORE, BE IT RESOLVED, That the House of Representatives hereby direct the Chief Clerk to look into Moe's paperwork and take such steps as may be necessary or advisable to deny her retirement; and

BE IT FURTHER RESOLVED, That whatever must be done to prevail upon Moe to stay on in her Workroom for just a couple more decades be done, including maybe getting her some Yoplait or something so it feels a little like France in there; and

BE IT FURTHER RESOLVED, That if Moe cannot be made to stay on, then we reluctantly wish her the best and urge everyone to join with us to celebrate and honor the life, legacy, work, service, and general awesomeness of Maureen Mueller.

Representative Santos moved adoption of HOUSE RESOLUTION NO. 4697.

Representatives Santos and Maycumber spoke in favor of the adoption of the resolution.

## SPEAKER'S PRIVILEGE

The Speaker thanked Maureen Mueller for her contributions and years of service to the House.

HOUSE RESOLUTION NO. 4697 was adopted.

WHEREAS, As chief of staff she promoted her values of fairness, inclusiveness, consideration, kindness, respect, and providing growth opportunities for all staff. She consistently promoted "teams" well before "Teams"; and

WHEREAS, We will miss her fun-loving sense of humor and the fact that you can get her to laugh so hard she cries, which lights the mood during a 20-hour floor session; and

WHEREAS, She balanced the substantial demands of her career at the legislature with her role as devoted wife and partner to Mike Fenton and dedicated mom to sons Ben and Sam, and stepdaughters Rachel and Palen; and

WHEREAS, The pull of being a grandma to her adorable grandson David is contributing to her decision to abandon us and focus on family; and

WHEREAS, We will be green with envy, but happy for her and Mike, when she sends us photos of them relaxing in Mexico, their home away from home, during the months of January through April; and

WHEREAS, We will miss her cheerful greeting, "Hello, sunshine," because she is *our* sunshine and please don't take our sunshine away; and

WHEREAS, We must get through the stages of grief and let her go, because she has given her heart and soul to serving the legislature, members, staff, and the people of the state of Washington, and she deserves a long, healthy, and happy retirement with Mike, their family, and their beloved dogs Winnie and Cubby;

NOW, THEREFORE, BE IT RESOLVED, That the House of Representatives of the State of Washington salute and celebrate Lisa Fenton for her dedicated service to the legislature and, indeed, to the people of the entire state of Washington.

Representative Wilcox moved adoption of HOUSE RESOLUTION NO. 4699.

Representative Wilcox spoke in favor of the adoption of the resolution.

### SPEAKER'S PRIVILEGE

The Speaker thanked Lisa Fenton for her contributions and years of service to the House.

HOUSE RESOLUTION NO. 4699 was adopted.

### RESOLUTION

**HOUSE RESOLUTION NO. 2024-4698**, by Representatives Jinkins, Stokesbary, Abbarno, Alvarado, Barkis, Barnard, Bateman, Berg, Bergquist, Berry, Bronoske, Caldier, Callan, Chambers, Chandler, Chapman, Cheney, Chopp, Christian, Connors, Corry, Cortes, Couture, Davis, Dent, Doglio, Donaghy, Duerr, Dye, Entenman, Eslick, Farivar, Fey, Fitzgibbon, Fosse, Goehner, Goodman, Graham, Gregerson, Griffey, Hackney, Harris, Hutchins, Jacobsen, Klicker, Kloba, Kretz, Leavitt, Lekanoff, Low, Macri, Maycumber, McClintock, McEntire, Mena, Morgan, Mosbrucker, Nance, Orcutt, Ormsby, Ortiz-Self, Orwall, Paul, Peterson, Pollet, Ramel, Ramos, Reed, Reeves, Riccelli, Robertson, Rude, Rule, Ryu, Sandlin, Santos, Schmick, Schmidt, Senn, Shavers, Simmons, Slatter, Springer, Stearns, Steele, Stonier, Street, Taylor, Thai, Tharinger, Timmons, Volz, Walen, Walsh, Waters, Wilcox, Wylie, and Ybarra

WHEREAS, Everyone agrees that not much really happened in the 1960s, except for the very notable and wonderful birth of Patty Moore; and

WHEREAS, The 1970s were similarly uneventful and boring, except for Patty inventing disco and then founding Studio 54 so that there would be a place to play this amazing music and hang out with celebrities; and

WHEREAS, It may be the case that Patty did not really invent disco or found Studio 54, but no one really remembers the 70s clearly and that's a better story than her simply graduating from Olympia High School, which she did do and it's actually pretty noteworthy; and

WHEREAS, Patty had lived for many years in Olympia without really noticing the big domed building, but one day she saw it and decided to wander in and see what it was all about; and

WHEREAS, The big domed building turned out to be the Legislative Building, and Patty would go from hardly noticing it to hardly leaving it from about 1989 on, as she started working for the Secretary of State and then was a Legislative Assistant in the House of Representatives, but then she made the only misstep of her otherwise storied career, as she went to work for The Other Chamber for about a year before realizing that The Other Chamber would need a lot more work than even her considerable talents could bring to get it into shape, so she wisely left; and

WHEREAS, Patty finally fulfilled her destiny by coming to work in the Chief Clerk's Office in 1995, where she honorably served the House and several Chief Clerks, with everyone who visited the office understanding that they could either meet with the Chief Clerk if they wanted or just save all that trouble and simply ask Patty what was going on, because mostly no one but Patty really ever knew what was going on at any point in time; and

WHEREAS, She has ably managed the House Resolution process, coordinating the processing and adoption of hundreds of resolutions honoring all manner of people, groups, events, causes, and even foods; and

WHEREAS, Speaking of food, perhaps her one quirk is the fact that she would probably eat chips at any time of day or night for any meal; and

WHEREAS, Despite being the rock upon which the House was built, Patty did have a rich and rewarding life outside of the Legislature, raising a wonderful family and having two amazing grandchildren who are some of the best things to ever happen to her; and

WHEREAS, Patty is also an avid horsewoman, doting on her beloved horse, Vixen, who at the time of this Resolution is a stately and remarkable 30+ years old and still going strong; and

WHEREAS, Patty is seeking to retire so that she can spend even more time with Vixen and her amazing grandchildren and get to Cannon Beach as often as possible, and just generally do non-House related things for a change;

NOW, THEREFORE, BE IT RESOLVED, That the House of Representatives hereby direct the Chief Clerk to lock his outer doors so that Patty cannot leave the office, because no one in the House can imagine what we'll do without her; and

BE IT FURTHER RESOLVED, That Patty will probably still get out of that locked office because she knows the building better than anyone, so perhaps it is better to just ask her if she'll stay longer, not more than two, maybe three more decades, tops; and

BE IT FURTHER RESOLVED, That if Patty cannot be made to stay on, then we reluctantly wish her the best and urge everyone to join with us to celebrate and honor the life, legacy, work, service, and general awesomeness of Patty Moore.

Representative Springer moved adoption of HOUSE RESOLUTION NO. 4698.

Representatives Springer and Kretz spoke in favor of the adoption of the resolution.

**SPEAKER'S PRIVILEGE**

(a) At least 20 percent of each competitive grant round is designated for award to eligible projects in small cities or towns with a population of 5,000 or fewer residents.

(b) In each competitive round, a higher energy savings to investment ratio must result in a higher project ranking. Priority consideration must be given to applicants that have not received grant awards for this purpose in prior biennia.

(c) The department must determine a minimum match ratio to maximize the leverage of nonstate funds.

(3) \$5,000,000 of the appropriation in this section is provided solely for the energy efficiency and environmental performance improvements to minor works, stand-alone, and emergency projects at facilities owned by agencies that repair or replace existing building systems and reduce greenhouse gas emissions from state operations, including, but not limited to, HVAC, lighting, insulation, windows, and other mechanical systems. Eligibility for this funding is dependent on an analysis using the office of financial management's life-cycle cost tool that compares project design alternatives for initial and long-term cost-effectiveness. Assuming a reasonable return on investment, the department shall provide grants in the amount required to improve the project's energy efficiency compared to the original project request.

(4) \$4,000,000 of the appropriation in this section is provided solely for the Washington state association of counties to provide funding for energy audits on county-owned tier 1 and tier 2 covered buildings and collect and manage data on the costs for counties to comply with the requirements of RCW 19.27A.210 and 19.27A.250.

(a) The Washington state association of counties may award grants to counties with qualifying buildings to assess current energy performance and determine the approximate costs of facility and system upgrades to meet state energy performance standards in chapter 19.27A RCW.

(b) The Washington state association of counties shall submit to the appropriate committees of the legislature no later than December 31, 2025, a report detailing the current energy performance of each county-owned tier 1 and tier 2 building for which an energy audit was completed with the funding provided in this subsection (4), and an estimate of the costs for bringing each building into compliance with the state energy performance standards in chapter 19.27 RCW.

(b) The association of Washington cities shall submit to the appropriate committees of the legislature no later than December 31, 2025, a report detailing the current energy performance of each city-owned tier 1 and tier 2 building for which an energy audit was completed with the funding provided in this subsection (5), and an estimate of the costs for bringing each building into compliance with the state energy performance standards in chapter 19.27 RCW.

(c) Up to 12 percent of the amount of the grants awarded in (a) of this subsection may be retained by the association of Washington cities for administrative costs.

(6) The department shall develop metrics that indicate the performance of energy efficiency efforts.

~~((45))~~ (7) If a grant is provided in subsection (1) or (3) of this section to purchase heating devices or systems, the agency must, whenever possible and most cost effective, select devices and systems that do not use fossil fuels.

**FOR THE DEPARTMENT OF COMMERCE**

Transit Oriented Housing Development Partnership Match (40000298)

The appropriations in this section are subject to the following conditions and limitations: The appropriations in this section are provided solely as match to private investment for grants or loans to for-profit and nonprofit housing developers and public entities to carry out projects designed to increase the supply and affordability of transit-oriented housing development. ~~((Grants))~~ Awards from this appropriation may only be used for the construction of units affordable at 80 percent of area median income or lower, if a project includes a range of affordability levels. The department shall work with the department of transportation to develop and administer a competitive grant or loan program to assist in the financing of housing projects within rapid transit corridors. The department shall implement the program pursuant to the following eligibility criteria and definitions:

(1) Entities eligible to receive ~~((grant))~~ awards are state agencies, local governments, and nonprofit or for-profit housing developers. Eligible uses of ~~((grant))~~ awards include project capital costs and infrastructure costs and addressing gaps in project financing that would prevent ongoing or complete project construction.

(2) Eligible housing projects must meet the following requirements:

(a) Be within a rapid transit corridor. For purposes of this subsection (2), "rapid transit corridor" includes either one-half mile from light rail or commuter rail, or one-quarter mile from bus rapid transit or other high-capacity bus service area.

(b) Produce at least ~~((100))~~ 80 units of housing; and

(c) Include a covenant on the property requiring at least 10 percent of total housing units in the project remain affordable for households with incomes at or below 60 percent of area median income and at least 10 percent of total housing units in the project remain affordable for households with incomes at or below 80 percent of area median income for at least 99 years.

(3) The department must prioritize eligible projects by occupancy date, with a target occupancy date of December 31, 2025, or sooner.

(4) To source project requests, the department may first review the list of housing trust fund applications from the prior two years to determine if any projects not fully funded would meet the criteria listed in subsection (2) of this section and would be able to proceed to construction. If so, the department must conduct outreach to those project owners to discuss the ~~((grant))~~ program before soliciting new projects.

(5) The department must also consider the following criteria when prioritizing all projects:

(a) Are comprised of the largest number of affordable units;

(b) Have the largest total number of units affordable to households with incomes at or below 60 percent area median income;

(c) Include land acquired at a reduced price or without cost;

(d) Abide by any applicable antidisplacement measures;

(e) Include units with additional bedrooms or intended for occupancy by families with multiple dependents; or

(f) Have acquired all necessary permits.

(6) The department may adopt any necessary guidance or rules to implement the competitive grant or loan program under this section, including any additional project eligibility criteria and prioritization criteria.

(7) The department must report a program update and any projects awarded on their website by June 30, 2024. The report must include project award data at the time of award, such as, but not limited to, the awardee, total project cost, amount of the award, number of households being served by household income, project location, and any other relevant information.

(8) The department must strive to allocate the amounts appropriated in this section by September 30, 2024, in the manner prescribed in this section. However, if upon review of applications the department determines there are not adequate suitable projects to receive awards, the department may allocate state funding to other affordable housing projects serving other low-income and special needs populations.

(9) Of the amounts appropriated in this section, \$2,100,000 from the state taxable

building construction account—state appropriation and \$2,100,000 from the general fund—private/local appropriation are provided solely for the Redmond Supportive Housing project.

The appropriation in this section is subject to the following conditions and limitations:

(1) The appropriation in this section is provided solely for the department to issue grants to community hospitals or other community providers to expand and establish new capacity for behavioral health services in communities. The department must consult an advisory group consisting of representatives from the department of social and health services, the health care authority, one representative from a managed care organization, one representative from an accountable care organization, and one representative from the association of county human services. Amounts provided in this section may be used for construction and equipment costs associated with establishment or preservation of the facilities. (i) The applicant's commitment to work with local courts and prosecutors to ensure that prosecutors and courts in the area served by the hospital or facility will be available to conduct involuntary commitment hearings and proceedings under chapter 71.05 RCW.

(3) In awarding funding for projects in subsection (5) of this section, the department, in consultation with the advisory group established in subsection (1) of this section, must strive for geographic distribution and to allocate funding based on population and service needs of an area. The department must consider current services available, anticipated services available based on projects underway, and the service delivery needs of an area.

(4) The department must prioritize projects that increase capacity in unserved and underserved areas of the state.

(5) (a) (~~(\$29,443,000)~~) \$29,443,000 of the state building construction account—state appropriation in this section is provided solely for competitive community behavioral health grants to address regional needs. (iii) The provider has submitted a proposal for operating the facility to the health care authority;

(iv) The provider has demonstrated to the department of health and the health care authority that it is able to meet the applicable licensing and certification

requirements for the facility that will be used to provide services; and

(v) The health care authority has confirmed that it intends to contract with the facility for operating costs within funds provided in the operating budget for these purposes.

(c) \$24,000,000 of the state building construction account—state appropriation in this section is provided solely for grants to intensive behavioral health treatment facilities for long-term placement of behavioral health patients with complex needs and that are not subject to federal funding restrictions that apply to institutions of mental diseases.

(1) ((~~\$5,000,000~~)) \$7,350,000 of the Ruth Lecocq Kagi early learning facilities development account—state appropriation in this section is provided solely for minor renovation grants.

(2) ((~~\$42,050,000~~)) \$46,550,000 of the Ruth Lecocq Kagi early learning facilities development account—state appropriation in this section is provided solely for the early learning facility grant and loan program, subject to the provisions of RCW 43.31.573 through 43.31.583 and 43.84.092, to provide state assistance for designing, constructing, purchasing, expanding, or modernizing public or private early learning education facilities for eligible organizations. Up to four percent of the funding in this subsection may be used by the department of children, youth, and families to provide technical assistance to early learning providers interested in applying for the early learning facility grant or loan program.

(3) The department of children, youth, and families must develop methodology to identify, at the school district boundary level, the geographic locations of where early childhood education and assistance program slots are needed to meet the entitlement specified in RCW 43.216.556. This methodology must be included as part of

the budget submittal documentation required by RCW 43.88.030.

(4) When prioritizing areas with the highest unmet need for early childhood education and assistance program slots, the committee of early learning experts convened by the department pursuant to RCW 43.31.581 must first consider those areas at risk of not meeting the entitlement specified in RCW 43.216.556.

(5) The department must track the number of slots being renovated separately from the number of slots being constructed and, within these categories, must track the number of slots separately by program for the working connections child care program and the early childhood education and assistance program.

(6) When prioritizing applications for projects pursuant to RCW 43.31.581, the department must award priority points to applications from a rural county or from extreme child care deserts as defined by the department of children, youth, and families.

(7) For early learning facilities collocated with affordable or supportive housing developments, the department may remit state funding on a reimbursement basis for 100 percent of eligible project costs, regardless of the project's match amount, once the nonstate share of project costs have been either expended or firmly committed in an amount sufficient to complete the entire project or a distinct phase of the project that is useable to the public as an early learning facility. These projects are not subject to section 8015 of this act or RCW 43.88.150.

Green Jobs and Infrastructure Grants (40000604)

The appropriation in this section is subject to the following conditions and limitations:

(1)(a) \$21,450,000 of the appropriation in this section is provided solely for grants to projects that demonstrate high-wage, clean job creation in Washington, provide risk reduction for investments in public and private infrastructure in order to increase a community's capacity for clean manufacturing, or provide investments in workforce development to attract and train the workforce required to grow the clean energy economy.

(b) Grants must be provided to eligible entities to help mitigate and reverse the effects of climate change, help communities meet their energy and climate change regulatory requirements, bring increased federal and private investment to the state, help develop the advanced workforce of the future, and ensure Washington state maintains or grows its position as a world leader in developing the projects and processes that are used to fight climate change globally. Eligible activities under this section include, but are not limited to, planning predevelopment, design, engineering, and construction of clean technology projects.

(c) Entities eligible for grants under this section include, but are not limited to, local governments, federally recognized tribal governments and tribes' contracted service providers, public and private utilities, ports, associate development organizations, for-profit entities, academic and research institutions, nonprofit organizations, and state agencies.

(d) Projects eligible for funding must be physically located in Washington state. Eligible projects must be consistent with the state energy strategy adopted under chapter 43.21F RCW and clean energy policies under chapter 19.405 RCW. Projects must further the goals of the climate commitment act as described in RCW 70A.65.260(1)(j).

(e) The department must consider equity and environmental justice when developing the program structures and opportunities for applicant participation and must follow principles established in its community engagement plan adopted under RCW 70A.02.050.

(f) When soliciting and evaluating grant application proposals, awarding contracts, and monitoring projects under this section, the department must:

(i) Use competitive processes to select all projects, except as otherwise noted in this section. The department must design a competitive process to allow provision of grant award to projects in a timely manner and consistent with the project timeline. Applications must be accepted on a rolling basis, and final determination must be made by the department;

(ii) Ensure compliance with all applicable laws related to the project selection process, project monitoring, and contracting; and

(iii) Prioritize projects that leverage the greatest amount of matching funds, such as local levy funding or private investment in advanced manufacturing capability.

(g) Project applicants must disclose all sources of public funding invested in a project. Grant contracts must provide that if, after a grant has been awarded, the department finds that a grantee has violated chapter 42.52 RCW, either in procuring or performing under the grant, the department in its sole discretion may terminate the grant funding by written notice, and that, if the grant is terminated, the department will reserve its right to pursue all available remedies under law to address the violation.

(2) \$750,000 of the appropriation in this section is provided solely for the department to support access to and to flexibly administer the program. The department may use these funds to hire full-time equivalent positions within the department, as well as contract for additional capacity and subject matter expertise.

 Encumbered Lands - Acquisition (91000323)

The appropriation in this section is subject to the following conditions and limitations:  
 (1) Except as provided for under subsection (3) of this section, the appropriation in this section is provided solely for the department to acquire working forestlands in Wahkiakum county to be managed for increased carbon sequestration and carbon storage through sustainable timber harvests. Any land purchased must be managed under the department's habitat

conservation plan and policy for sustainable forests. Pursuant to subsection (2) of this section, it is the intent of the legislature that these lands serve as replacement land for structurally complex, carbon-dense forestlands designated for conservation and for existing encumbered state forestlands. Once purchased, the lands must be considered as part of the land bank created in RCW 79.19.020. The property must be purchased before the transfer of any existing trust land is fully executed.

(2) (a) If the department acquires land pursuant to subsection (1) of this section, it must use the lands acquired for the following purposes: (i) For the permanent conservation of structurally complex, carbon-dense forestland in the Capitol state forest in Thurston county, in the Green Mountain state forest in Kitsap county, in the Stillaguamish watershed in Snohomish county, or in the Elbe Hills State Forest in Pierce county; and (ii) as replacement state forestlands to replace existing encumbered state forestlands in Clallam, Pacific, Skamania, and Wahkiakum counties.

(b) If the department acquires land pursuant to subsection (1) of this section, it must allocate the value of any land acquired as follows: (i) Up to \$5,750,000 for the purposes specified in (a) (i) of this subsection (2); and (ii) up to \$8,750,000 for the purposes specified under (a) (ii) of this subsection (2).

(c) The department must designate any lands acquired related to (a) (ii) of this subsection (2) as state forest transfer lands.

(d) If the department acquires any replacement lands pursuant to this section, it must take the following actions: (i) Designate the lands acquired for management under the department's habitat conservation plan and policy for sustainable forests; (ii) ensure that any acquisition pursuant to this section complies with the allowable purposes of RCW 70A.65.270; and (iii) ensure that any replacement of structurally complex, carbon-dense forested trust land pursuant to (a) (i) of this subsection (2) be of equal value to the land conserved and that replacement land is purchased before the transfer is fully executed.

(e) Before conserving any forestland pursuant to (a) (i) of this subsection (2), the department must receive letters nominating specific parcels issued by the legislative authority of the county in which the forestland is located and the approval of the conservation parcel boundaries by the board of natural resources. In no instance may timber with a forest practice application approved prior to March 5, 2024, be considered for nomination. County parcel nomination and board approval pursuant to this process must be finalized prior to the transfer of the forestland pursuant to this section. Nothing in this subsection prohibits the conservation of up to 260 acres of structurally complex, carbon-dense forestland in Thurston county.

(f) In the 2023-2025 fiscal biennium, the department may designate the structurally complex, carbon-dense forested trust land identified in (a) (i) of this subsection (2) as a natural area preserve or a natural

resource conservation area notwithstanding the requirements of chapter 79.70 and 79.71 RCW.

(g) In the 2023-2025 fiscal biennium, the legislative authority of the county from which the real property was transferred pursuant to (a) (i) of this subsection (2) may not request that the department distribute a percentage of the proceeds associated with the valuable materials to the legislative authority of the county from which the real property was transferred.

(h) Before conserving any forestland pursuant to (a) (i) of this subsection (2), the legislative body of the county must request in writing to participate in a land pool in accordance with RCW 79.22.140.

(3) The department may use up to \$500,000 of the total appropriation in this section for its administrative costs pursuant to this section.

(4) This section takes effect January 1, 2025.

The appropriations in this section are subject to the following conditions and limitations:

(1) ~~((~~\$78,390,000~~))~~ \$191,646,000 of the common school construction account—state appropriation ~~((and ~~\$3,000,000~~ of the common school construction fund—federal appropriation))~~ in this section ~~((are))~~ is provided solely for modernization grants for small school districts authorized under RCW 28A.525.159. Of this amount, \$86,000,000 is provided solely for small district modernization grants, not to exceed

\$6,000,000 per grant, to school districts that were awarded a planning grant during the 2023-2025 fiscal biennium pursuant to LEAP capital document No. OSPI-1-2023, developed April 10, 2023. Small districts awarded a planning grant pursuant to this list that do not receive a modernization grant in the 2023-2025 fiscal biennium are eligible for the maximum state funding level of \$12,000,000 established under subsection (5)(a) of this section. The office of the superintendent of public instruction shall report the status and award amounts of all grants awarded pursuant to this section to the governor and appropriate fiscal committees of the legislature no later than October 15, 2024.

(2) ~~(((\$1,496,000))~~ \$2,307,000 of the common school construction account—state appropriation in this section is provided solely for planning grants for small school districts authorized under RCW 28A.525.159. Planning grants may only be awarded to school districts with ~~((a))~~ estimated total project costs of \$6,000,000 or less or \$12,000,000 or less, as applicable under this section.

(3) \$12,145,000 of the state building construction account—state appropriation in this section is provided solely for planning grants and modernization grants to state-tribal compact schools. The superintendent of public instruction may prioritize planning grants for state-tribal compact schools with the most serious building deficiencies and the most limited financial capacity.

(4) ~~(((\$5,000,000))~~ \$6,800,000 of the climate commitment account—state appropriation in this section is provided solely for energy assessment grants for small school districts eligible under RCW 28A.525.159. Grant funding awarded may be used to perform facility energy assessments of instructional buildings.

(5)(a) The superintendent of public instruction shall submit a list of small school district modernization projects, as prioritized by the advisory committee under RCW 28A.525.159, to the legislature and the governor by ~~((September))~~ October 15, 2024. The list must include: ~~((a))~~ (i) A description of the project; ~~((b))~~ (ii) the proposed state funding level, not to exceed ~~(((\$6,000,000))~~ \$12,000,000 per project; ~~((c))~~ (iii) estimated total project costs; and ~~((d))~~ (iv) local funding resources.

(b) In addition to the standard list required in (a) of this subsection, the superintendent of public instruction shall also submit an alternative list with the agency's request for capital appropriations for the 2025-2027 fiscal biennium that includes small school districts with 3,000 students or less, with a state funding level not to exceed \$12,000,000 per project. This list must include the following information: (i) A description of the project; (ii) the proposed state funding level; (iii) estimated total project costs; and (iv) local funding resources.

(6) ~~((The))~~ (a) Subject to (b) of this subsection (6), the appropriations in this section may be awarded only to projects

(b) To the extent that the amounts appropriated for small districts and state-tribal compact schools specified in the LEAP capital documents in (a) of this subsection exceed the actual costs of funding these projects, the department may reallocate excess funding to eligible projects pursuant to RCW 28A.525.159. However, the total funding appropriated to eligible small district projects must remain allocated to eligible small district projects, and the total funding appropriated to eligible state-tribal compact school projects must remain allocated to eligible state-tribal compact school projects.

(7)(a) Except as provided under (b) of this subsection, \$1,982,000 of the common school construction account—state appropriation in this section is provided solely for preconstruction grants and administrative implementation pursuant to Substitute House Bill No. 1044.

The criteria and assurances must include, but are not limited to, the following: (a) Limiting school districts to one grant, not to exceed \$500,000, per three-year period; (b) prioritizing applications based on limited school district financial resources for the project; and (c) requiring any district receiving funding provided in this section to demonstrate a consistent commitment to addressing school facility needs. The grant applications must include a comprehensive description of the health and safety issues to be addressed, a detailed description of the remedy, including a detailed cost estimate of the repair or replacement work to be performed, and identification of local funding, if any, which will be applied to the project. Grants may be used for, but are not limited to: Repair or replacement of failing building systems, abatement of potentially hazardous materials, and safety-related structural improvements.

(3) (~~(\$3,600,000)~~) \$4,600,000 of the appropriation in this section is provided solely for equal access grants for facility repairs and alterations at K-12 public schools, including skills centers, to improve compliance with the Americans with disabilities act and individuals with disabilities education act, and this is the maximum amount that may be spent for this purpose. The office of the superintendent of public instruction shall develop criteria and assurances for providing funding for specific projects through a competitive grant program. The criteria and assurances must include, but are not limited to, the following: (a) Limiting districts to one grant, not to exceed \$100,000, per three-year period; (b) prioritizing applications based on limited school district financial resources for the project; and (c) requiring

recipient districts to demonstrate a consistent commitment to addressing school facility needs. The grant applications must include a description of the Americans with disabilities act or individuals with disabilities education act compliance deficiency, a comprehensive description of the facility accessibility issues to be addressed, a detailed description of the remedy including a detailed cost estimate of the repair or replacement work to be performed, and identification of local funding, if any, which will be applied to the project. Priority for grant funding must be given to school districts that demonstrate a lack of capital resources to address the compliance deficiencies outlined in the grant application.

(4) The superintendent of public instruction must notify the office of financial management, the legislative evaluation and accountability program committee, the house capital budget committee, and the senate ways and means committee as projects described in subsection (1) of this section are approved for funding.

(2) Those noninstructional facilities of higher education institutions authorized in this section to enter into financial contracts are not eligible for state funded maintenance and operations. Instructional space that is available for regularly scheduled classes for academic transfer, basic skills, and workforce training programs may be eligible for state funded maintenance and operations.

**Sec. 8004.** RCW 70A.65.305 and 2022 c 253 s 1 are each amended to read as follows:

(1) Agencies that allocate funding or administer grant programs appropriated from the climate investment account created in RCW 70A.65.250, the climate commitment account created in RCW 70A.65.260, and the natural climate solutions account created in RCW 70A.65.270 must offer early, meaningful, and individual consultation with any affected federally recognized tribe on all funding decisions and funding programs that may impact tribal resources, including tribal cultural resources, archaeological sites, sacred sites, fisheries, or other rights and interests in tribal lands and lands within which a tribe or tribes possess rights reserved or protected by federal treaty, statute, or executive order. The consultation is independent of, and in addition to, any public participation process required by federal or state law, or by a federal or state agency, including the requirements of Executive Order 21-02 related to archaeological and cultural resources, and regardless of whether the agency receives a request for consultation from a federally recognized tribe. The goal of the consultation process is to identify tribal resources or rights potentially affected by the funding decisions and funding programs, assess their effects, and seek ways to avoid, minimize, or mitigate any adverse effects on tribal resources or rights.

(2) At the earliest possible date prior to submittal of an application, applicants for funding from the accounts created in RCW 70A.65.250, 70A.65.260, and 70A.65.270 shall engage in a preapplication process with all affected federally recognized tribes within the project area. During the 2023-2025 fiscal biennium, salmon habitat and climate resilience projects funded from the natural climate solutions account created in RCW 70A.65.270 that went through the application and prioritization process before July 1, 2023, are exempt from the preapplication requirements under this subsection.

(a) The preapplication process must include the applicant notifying the department of archaeology and historic preservation, the department of fish and wildlife, and all affected federally recognized tribes within the project area. The notification must include geographical location, detailed scope of the proposed project, preliminary application details available to federal, state, or local governmental jurisdictions, and all publicly available materials, including public funding sources.

(b) The applicant must also offer to discuss the project with the department of archaeology and historic preservation, the department of fish and wildlife, and all affected federally recognized tribes within the project area. Discussions may include the project's impact to tribal resources, including tribal cultural resources, archaeological sites, sacred sites, fisheries, or other rights and interests in tribal lands and lands within which a tribe or tribes possess rights reserved or protected by federal treaty, statute, or executive order.

(c) All affected federally recognized tribes may submit to the appropriate agency

or agencies a summary of tribal issues, questions, concerns, or other statements regarding the project, which must become part of the official application file. The summary does not limit what issues affected federally recognized tribes may raise in the consultation process identified in subsections (1), (3) through (7), and (9) of this section.

(d) The notification and offer to initiate discussion must be documented with the application when it is filed, and a copy of the application must be delivered to the department of archaeology and historic preservation, the department of fish and wildlife, and to the affected federally recognized tribe or tribes. If the discussions pursuant to (b) of this subsection do not occur, the applicant must document the reason why the discussion or discussions did not occur.

(e) Nothing in this section may be interpreted to require the disclosure of information that is exempt from disclosure pursuant to RCW 42.56.300 or federal law, including section 304 of the national historic preservation act of 1966. Any information that is exempt from disclosure pursuant to RCW 42.56.300 or federal law, including section 304 of the national historic preservation act of 1966, shall not become part of the official application file.

(3) If any funding decision, program, project, or activity that may impact tribal resources, including tribal cultural resources, archaeological sites, sacred sites, fisheries, or other rights and interests in tribal lands and lands within which a tribe or tribes possess rights reserved by federal treaty, statute, or executive order is funded from the accounts created in RCW 70A.65.250, 70A.65.260, and 70A.65.270 without such a consultation with an affected federally recognized tribe, the affected federally recognized tribe may request that all further action on the decision, program, project, or activity cease until meaningful consultation is completed. Upon receipt of such a request by an agency or agencies with the authority to allocate funding or administer grant programs from the accounts listed in subsection (1) of this section in support of the proposed project, further action by the agency or agencies on any decision, program, project, or activity that would result in significant physical disturbance of the tribal resource or resources described in this subsection must cease until the consultation has been completed.

(4) Upon completion of agency and tribal consultation, an affected federally recognized tribe may request a formal review of the consultation by submitting a request to the governor's office of Indian affairs and notifying the appropriate agencies and the department of archaeology and historic preservation. The state agencies and tribe must meet to initiate discussion within no more than 20 days of the request. This consultation must be offered and conducted separately with each affected federally recognized tribe, unless the tribes agree to conduct a joint consultation with the state.

(5) After the state agencies and tribe or tribes have conducted a formal review under subsection (4) of this section, an affected federally recognized tribe or state agency may request that the governor and an elected tribal leader or leaders of a federally recognized tribal government meet to formally consider the recommendations from the parties. If requested, this meeting must occur within 30 days of the request, except that a federally recognized tribe may choose to opt out of the meeting. This timeline may be extended by mutual agreement between the governor and the tribal leaders.

(6) After the meeting identified in subsection (5) of this section has occurred, the governor or an elected tribal leader of a federally recognized tribe may call for the state and tribe or tribes to enter into formal mediation, except that a federally recognized tribe may choose to opt out of the mediation. If entered into, the mediation must be conducted as a government-to-government proceeding, with each sovereign government retaining their right to a final decision that meets their separate obligations and interests. Mediators must be jointly selected by the parties to the mediation. An agreement between the governor and a tribal leader or leaders resulting from the mediation is formally recognized and binding on the signatory parties. Absent an agreement, participation in mediation does not preclude any additional steps that any party can initiate, including legal review, to resolve a continuing disagreement.

(7) During the proceedings outlined in subsections (4) through (6) of this section, the agency or agencies with the authority to allocate funding or administer grant programs from the accounts listed in subsection (1) of this section in support of the proposed project may not approve or release funding, or make other formal decisions, including permitting, that advance the proposed project except where required by law.

(8) By June 30, 2023, the governor's office of Indian affairs, in coordination with the department of archaeology and historic preservation and federally recognized tribes, shall develop a state agency tribal consultation process, including best practices for early, meaningful, and effective consultation, early notification and engagement by applicants with federally recognized tribes as a part of the preapplication process in subsection (2) of this section, and protocols for communication and collaboration with federally recognized tribes. The consultation process developed under this section must be periodically reviewed and updated in coordination with federally recognized tribes. The governor's office of Indian affairs must provide training and other technical assistance to state agencies, as they implement the required consultation. Notwithstanding the governor's office of Indian affairs' ongoing work pursuant to this subsection, the provisions of subsections (1) through (7) and (9) of this section become effective as of June 9, 2022.

(9) The requirements of this section apply to local governments that receive funding from the accounts created in RCW 70A.65.250, 70A.65.260, and 70A.65.270, where that funding is disbursed to project and program applicants. Where requested, the governor's office of Indian affairs must provide training and other technical assistance to local government agencies as they implement the consultation requirements of this section.

(10) Any agency subject to or implementing this section may adopt rules in furtherance of its duties under this section.

(11) Subject to the availability of amounts appropriated for this specific purpose, the department must establish a tribal capacity grant program to provide funding to federally recognized tribes for the costs of implementing this section.

**Sec. 8005.** RCW 79.64.020 and 2014 c 32 s 3 are each amended to read as follows:

A resource management cost account in the state treasury is created to be used solely for the purpose of defraying the costs and expenses necessarily incurred by the department in managing and administering state lands((~~r~~))and aquatic lands((~~r~~)) and the making and administering of leases, sales, contracts, licenses, permits, easements, and rights-of-way as authorized under the provisions of this title. Appropriations from the resource management cost account to the department shall be expended for no other purposes. Funds in the resource management cost account may be appropriated or transferred by the legislature for the benefit of all of the trusts from which the funds were derived. During the 2013-2015 fiscal biennium, the legislature may transfer from the aquatics revenues in the resources management cost account to the marine resources stewardship trust account for the purposes of chapter 43.372 RCW. During the 2023-2025 fiscal biennium, the legislature may transfer no more than \$2,000,000 from the resource management cost account to the land bank account created in RCW 79.19.120.

**NEW SECTION. Sec. 8006.** On June 30, 2024, the state treasurer shall transfer \$2,000,000, or as much thereof as is necessary, from the resource management cost account created in RCW 79.64.020 to the land bank account created in RCW 79.19.120. Before June 30, 2024, the office of financial management, in consultation with the department of natural resources, shall provide the state treasurer with the amount necessary to transfer.

**Sec. 8007.** RCW 79A.25.210 and 2023 c 475 s 945 are each amended to read as follows:

The firearms range account is hereby created in the state general fund. Moneys in the account shall be subject to legislative appropriation and shall be used for purchase and development of land, construction or improvement of range facilities, including fixed structure construction or remodeling,

equipment purchase, safety or environmental improvements, noise abatement, and liability protection for public and nonprofit firearm range training and practice facilities.

Grant funds shall not be used for expendable shooting supplies, or normal operating expenses. In making grants, the board shall give priority to projects for noise abatement or safety improvement. Grant funds shall not supplant funds for other organization programs.

The funds will be available to nonprofit shooting organizations, school districts, and state, county, or local governments on a match basis. All entities receiving matching funds must be open on a regular basis and usable by law enforcement personnel or the general public who possess Washington concealed pistol licenses or Washington hunting licenses or who are enrolled in a firearm safety class.

Applicants for a grant from the firearms range account shall provide matching funds in either cash or in-kind contributions. The match must represent one dollar in value for each one dollar of the grant except that in the case of a grant for noise abatement or safety improvements the match must represent one dollar in value for each two dollars of the grant. In-kind contributions include but are not limited to labor, materials, and new property. Existing assets and existing development may not apply to the match.

Applicants other than school districts or local or state government must be registered as a nonprofit or not-for-profit organization with the Washington secretary of state. The organization's articles of incorporation must contain provisions for the organization's structure, officers, legal address, and registered agent.

Organizations requesting grants must provide the hours of range availability for public and law enforcement use. The fee structure will be submitted with the grant application.

Any nonprofit organization or agency accepting a grant under this program will be required to pay back the entire grant amount to the firearms range account if the use of the range facility is discontinued less than ten years after the grant is accepted.

Entities receiving grants must make the facilities for which grant funding is received open for hunter safety education classes and firearm safety classes on a regular basis for no fee.

Government units or school districts applying for grants must open their range facility on a regular basis for hunter safety education classes and firearm safety classes.

The board shall adopt rules to implement chapter 195, Laws of 1990, pursuant to chapter 34.05 RCW. During the 2017-2019 and 2019-2021 fiscal biennia, expenditures from the firearms range account may be used to implement chapter 74, Laws of 2017 (SHB 1100) (concealed pistol licenses) and chapter 282, Laws of 2017 (SB 5268) (concealed pistol license notices). During the 2021-2023 and 2023-2025 fiscal biennia, expenditures from the firearms range account may be used to implement chapter 74, Laws of 2017 (SHB 1100) (concealed pistol licenses).

During the 2023-2025 fiscal biennium, the legislature may also appropriate moneys in the firearms range account to the department of natural resources for recreational target shooting pilot sites as provided in section 3032 of this act.

During the 2023-2025 fiscal biennium, the application and matching funds requirements of this section do not apply to the recreational target shooting pilot sites in section 3032 of this act.

**NEW SECTION. Sec. 8008.** (1) (a) The director of the office of financial management, or the director's designee, shall collect a list of clean energy projects from state agencies that may qualify for elective payment under P.L. 117-169 (inflation reduction act of 2022), such as the purchase of electric vehicle fleets; alternative fuel vehicle refueling and charging; and renewable energy projects including wind, solar, geothermal, electrolytic hydrogen, and energy storage.

(b) For tax years 2023 and 2024, the director or director's designee shall work with agencies, including institutions of higher education, to complete all steps necessary to file an annual tax return with the United States internal revenue service on behalf of the state in order to claim elective payments available for state agency clean energy projects that have been placed into service.

(2) The office of financial management shall provide a report to the fiscal committees of the legislature by July 1, 2024, and June 30, 2025, that summarizes the state's tax return submitted that year, including the total dollar value of projects included in the tax return and the total dollar amount of direct pay tax credits sought. The report must also include an itemized list of the projects that displays the dollar amounts and types of tax credits sought.

(3) Funds received by the state pursuant to this section shall be deposited into the inflation reduction elective pay account created in chapter . . . (Engrossed Senate Bill No. 6098), Laws of 2024 (concerning accounts).

(4) It is the intent of the legislature that funds received under this section will be allocated to capital projects through omnibus capital appropriations acts.

**Sec. 8009.** RCW 70A.305.190 and 2022 c 102 s 2 are each amended to read as follows:

(1) The model toxics control capital account is hereby created in the state treasury.

(2) In addition to the funds deposited into the model toxics control capital account required under RCW 82.21.030, the following moneys must be deposited into the model toxics control capital account:

(a) The costs of remedial actions recovered under this chapter, except as provided under RCW 70A.305.170(7);

(b) Penalties collected or recovered under this chapter; and

(c) Any other money appropriated or transferred to the account by the legislature.

(3) Moneys in the model toxics control capital account must be used for the improvement, rehabilitation, remediation, and cleanup of toxic sites and other capital-related expenditures for programs and activities identified in subsection (4) of this section.

(4) Moneys in the model toxics control capital account may be used only for capital projects and activities that carry out the purposes of this chapter and for financial assistance to local governments or other persons to carry out those projects or activities, including but not limited to the following, generally in descending order of priority:

(a) Remedial actions, including the following generally in descending order of priority:

(i) Extended grant agreements entered into under subsection (5)(a) of this section;

(ii) Grants or loans to local governments for remedial actions, including planning for adaptive reuse of properties as provided for under subsection (5)(d) of this section. The department must prioritize funding of remedial actions at:

(A) Facilities on the department's hazardous sites list with a high hazard ranking for which there is an approved remedial action work plan or an equivalent document under federal cleanup law;

(B) Brownfield properties within a redevelopment opportunity zone if the local government is a prospective purchaser of the property and there is a department-approved remedial action work plan or equivalent document under the federal cleanup law;

(iii) Department-conducted remedial actions;

(iv) Grants to persons intending to remediate contaminated real property for development of affordable housing;

(v) Public funding to assist potentially liable persons to pay for the costs of remedial action in compliance with clean-up standards under RCW 70A.305.030(2)(e) if:

(A) The amount and terms of the funding are established under a settlement agreement under RCW 70A.305.040(4); and

(B) The director has found that the funding will achieve both a substantially more expeditious or enhanced cleanup than would otherwise occur, and the prevention or mitigation of unfair economic hardship;

(vi) Public funding to assist prospective purchasers to pay for the costs of remedial action in compliance with clean-up standards under RCW 70A.305.030(2)(e) if:

(A) The facility is located within a redevelopment opportunity zone designated under RCW 70A.305.150;

(B) The amount and terms of the funding are established under a settlement agreement under RCW 70A.305.040(5); and

(C) The director has found the funding will achieve a substantially more expeditious or enhanced cleanup than would otherwise occur, provide a public benefit in addition to cleanup commensurate with the scope of the public funding; and meet any additional criteria established in rule by the department; and

(vii) To expedite multiparty clean-up efforts, purchase of remedial action cost-cap insurance;

(b) Grants, or loans, or contracts to local governments for solid waste plans and programs under chapters 70A.205, 70A.214, 70A.224, 70A.222, 70A.230, and 70A.300 RCW. Funds must be allocated consistent with priorities and matching requirements in the respective chapters;

(c) Toxic air pollutant reduction programs, including grants or loans to local governments for woodstoves and diesel;

(d) Grants, loans, or contracts to local governments for hazardous waste plans and programs under chapters 70A.405 and 70A.300 RCW, including chemical action plan implementation. Funds must be allocated consistent with priorities and matching requirements in the respective chapters; and

(e) Petroleum-based plastic or expanded polystyrene foam debris clean-up activities in fresh or marine waters.

(5) The department may establish and administer a program to provide grants and loans to local governments for remedial actions, including planning for adaptive reuse of contaminated properties. To expedite cleanups throughout the state, the department may use the following strategies when providing grants to local governments under this subsection:

(a) Enter into an extended grant agreement with a local government conducting remedial actions at a facility where those actions extend over multiple biennia and the total eligible cost of those actions exceeds \$20,000,000. The agreement is subject to the following limitations:

(i) The initial duration of such an agreement may not exceed 10 years. The department may extend the duration of such an agreement upon finding substantial progress has been made on remedial actions at the facility;

(ii) Extended grant agreements may not exceed 50 percent of the total eligible remedial action costs at the facility; and

(iii) The department may not allocate future funding to an extended grant agreement unless the local government has demonstrated to the department that funds awarded under the agreement during the previous biennium have been substantially expended or contracts have been entered into to substantially expend the funds;

(b) Enter into a grant agreement with a local government conducting a remedial action that provides for periodic reimbursement of remedial action costs as they are incurred as established in the agreement;

(c) Enter into a grant agreement with a local government prior to it acquiring a property or obtaining necessary access to conduct remedial actions, provided the agreement is conditioned upon the local government acquiring the property or obtaining the access in accordance with a schedule specified in the agreement;

(d) Provide integrated planning grants to local governments to fund studies necessary to facilitate remedial actions at brownfield properties and adaptive reuse of properties following remediation. Eligible activities include, but are not limited to:

Environmental site assessments; remedial investigations; health assessments; feasibility studies; site planning; community involvement; land use and regulatory analyses; building and infrastructure assessments; economic and fiscal analyses; and any environmental analyses under chapter 43.21C RCW;

(e) Provide grants to local governments for remedial actions related to area-wide groundwater contamination. To receive the funding, the local government does not need to be a potentially liable person or be required to seek reimbursement of grant funds from a potentially liable person;

(f) The director may alter grant matching requirements to create incentives for local governments to expedite cleanups when one of the following conditions exists:

(i) Funding would prevent or mitigate unfair economic hardship imposed by the clean-up liability;

(ii) Funding would create new substantial economic development, public recreational opportunities, or habitat restoration opportunities that would not otherwise occur; or

(iii) Funding would create an opportunity for acquisition and redevelopment of brownfield property under RCW 70A.305.040(5) that would not otherwise occur; and

(g) When pending grant applications under subsection (4)(d) and (e) of this section exceed the amount of funds available, designated redevelopment opportunity zones must receive priority for distribution of available funds.

(6) Except for unanticipated receipts under RCW 43.79.260 through 43.79.282, moneys in model toxics control capital account may be spent only after appropriation by statute.

(7) The legislature finds that, in 2023, wildfires in Spokane and Pend Oreille counties resulted in a loss of approximately 366 homes as well as secondary buildings. The burning of these structures has resulted in a large toxic debris field containing asbestos, heavy metals, plastics, and fuel which are at risk of leaching into the soil and groundwater. During the 2023-2025 fiscal biennium, moneys in the model toxics control capital account may be used for financial assistance to local governments for the testing of hazardous materials, removal of debris, and remediation of soil necessary to support the rebuilding of communities impacted by these wildfires.

**Sec. 8010.** RCW 43.19.125 and 2011 1st sp.s. c 43 s 204 are each amended to read as follows:

(1) The director of enterprise services shall have custody and control of the capitol buildings and grounds, supervise and direct proper care, heating, lighting and repairing thereof, and designate rooms in the capitol buildings to be occupied by various state officials.

(c) Except as otherwise provided in this subsection, in counties with a population of 25,000 or less, the portion of the proceeds associated with valuable materials on state forestland transferred under this section must be distributed as provided in RCW 79.64.110. If requested in writing by the

(4) During the 2023-2025 fiscal biennium, the ability of a legislative authority of a county to request the distribution of proceeds from valuable materials under subsection (3)(a) of this section does not apply to structurally complex, carbon-dense forested trust land transferred under section 3034 of this act.

(2)(a) The department shall submit a list of recommended performing arts, art museum projects, and cultural organization projects eligible for funding to the governor and the legislature in the department's biennial capital budget request beginning with the 2001-2003 biennium and thereafter. The list, in priority order, shall include a description of each project, the amount of recommended state funding, and documentation of nonstate funds to be used for the project. The total amount of recommended state funding for projects on a biennial project list shall not exceed \$18,000,000.

(b) The department shall establish a competitive process to prioritize applications for state assistance as follows:

(i) The department shall conduct a statewide solicitation of project applications from nonprofit organizations, local governments, and other entities, as

The nonstate match may include cash, the value of real property when acquired solely for the purpose of the project, and in-kind contributions. The department is authorized to set matching requirements for individual projects. State assistance may be used to fund separate definable phases of a project if the project demonstrates adequate progress and has secured the necessary match funding.

(iii) The department shall not sign contracts or otherwise financially obligate funds under this section until the legislature has approved a specific list of projects. In contracts for grants authorized under this section, the department shall include provisions requiring that capital improvements be held by the grantee for a specified period of time appropriate to the amount of the grant and that facilities be used for the express purpose of the grant. If the grantee is found to be out of compliance with provisions of the contract, the grantee shall repay to the state general fund the principal amount of the grant plus interest calculated at the rate of interest on state of Washington general obligation bonds issued most closely to the date of authorization of the grant.

NEW SECTION. **Sec. 8015.** If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected.

The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Collective bargaining" means the performance of the mutual obligations of the employer and the exclusive bargaining representative to meet at reasonable times, except that neither party may be compelled to negotiate during a legislative session or on committee assembly days, to confer and negotiate in good faith, and to execute a written agreement with respect to the subjects of bargaining specified under RCW 44.90.090. **NEW SECTION. Sec. 4.** A new section is added to chapter 44.90 RCW to read as follows:

(1) As provided by this chapter, the commission or the court shall determine all questions described by this chapter as under the commission's authority. However, such authority may not result in an order or rule that intrudes upon or interferes with the legislature's core function of efficient and effective law making or the essential operation of the legislature, including that an order or rule may not:

(a) Modify any matter relating to the qualifications and elections of members of the legislature, or the holding of office of members of the legislature;

(b) Modify any matter relating to the legislature or each house thereof choosing its officers, adopting rules for its proceedings, selecting committees necessary for the conduct of business, considering or enacting legislation, or otherwise exercising the legislative power of this state;

(c) Modify any matter relating to legislative calendars, schedules, and deadlines of the legislature;

(d) Modify laws, rules, policies, or procedures regarding ethics or conflicts of interest; or

(e) Require the legislature to reinstate an employee.

(2) No member of the legislature may be compelled by subpoena or other means to attend a proceeding related to matters covered by this chapter during a legislative session, committee assembly days, or for 15 days before commencement of each session.

**Sec. 5.** RCW 44.90.050 and 2022 c 283 s 5 are each amended to read as follows:

(1) Except as may be specifically limited by this chapter, legislative employees shall have the right to self-organization, to form, join, or assist employee organizations, and to bargain collectively through representatives of their own choosing for the purpose of collective bargaining free from interference, restraint, or coercion. Legislative employees shall also have the right to refrain from any or all such activities.

(2) Except as may be specifically limited by this chapter, the commission shall determine all questions pertaining to ascertaining exclusive bargaining representatives for legislative employees and collectively bargaining under this chapter. However, no employee organization shall be recognized or certified as the exclusive bargaining representative of a bargaining unit of employees of the legislative branch unless it receives the votes of a majority of employees in the petitioned for bargaining unit voting in a secret election (~~((by mail ballot))~~) administered by the commission. The commission's process must allow for an employee, group of employees, employee organizations, employer, or their agents to have the right to petition on any question concerning representation.

(3) ~~((The employer and the exclusive bargaining representative of a bargaining unit of legislative employees may not enter into a collective bargaining agreement that requires the employer to deduct, from the salary or wages of an employee, contributions for payments for political action committees sponsored by employee organizations with legislative employees as members.))~~ The commission must adopt rules that provide for at least the following:

(a) Secret balloting;

(b) Consulting with employee organizations;

(c) Access to lists of employees, job titles, work locations, and home mailing addresses;

(d) Absentee voting;

(e) Procedures for the greatest possible participation in voting;

(f) Campaigning on the employer's property during working hours; and

(g) Election observers.

(4) (a) If an employee organization has been certified as the exclusive bargaining representative of the employees of multiple bargaining units, the employee organization may act for and negotiate a master collective bargaining agreement that includes within the coverage of the agreement all covered employees in the bargaining units.

(b) If a master collective bargaining agreement is in effect for the newly certified exclusive bargaining representative, it applies to the bargaining unit for which the new certification has been issued. Nothing in this subsection (4) (b) requires the parties to engage in new negotiations during the term of that agreement.

(5) The certified exclusive bargaining representative is responsible for representing the interests of all the employees in the bargaining unit. This section may not be construed to limit an exclusive bargaining representative's right to exercise its discretion to refuse to process grievances of employees that are unmeritorious.

(6) No question concerning representation may be raised if:

(a) Fewer than 12 months have elapsed since the last certification or election; or

(b) A valid collective bargaining agreement exists covering the unit, except for that period of no more than 120 calendar days nor less than 90 calendar days before the expiration of the contract.

NEW SECTION. Sec. 6. A new section is added to chapter 44.90 RCW to read as follows:

(1) The commission, after hearing upon reasonable notice to all interested parties, shall decide, in each application for certification as an exclusive bargaining representative, the unit appropriate for certification. In determining the new units or modifications of existing units, the commission must consider: The duties, skills, and working conditions of the employees; the history of collective bargaining; the extent of organization among the employees; the desires of the employees; and the avoidance of excessive fragmentation. However, a unit is not appropriate if it includes:

(a) Both supervisors and nonsupervisory employees. A unit that includes only supervisors may be considered appropriate if a majority of the supervisory employees indicates by vote that they desire to be included in such a unit;

(b) Both house of representatives and senate employees;

(c) Both partisan and nonpartisan employees;

(d) Employees of the majority party caucus and the minority party caucus, unless a majority of the employees of each caucus indicate by vote that they desire to be included together in the same unit; or

(e) Employees of the legislative service center, office of legislative support services, and the office of the code reviser, in any combination with each other or in any combination with employees of the house of representatives or employees of the senate.

(2) If a single employee organization is the exclusive bargaining representative for two or more units, upon petition by the employee organization, the units may be consolidated into a single larger unit if the commission considers the larger unit to be appropriate. If consolidation is

appropriate, the commission shall certify the employee organization as the exclusive bargaining representative of the new unit.

NEW SECTION. **Sec. 7.** A new section is added to chapter 44.90 RCW to read as follows:

(1) The parties to a collective bargaining agreement must reduce the agreement to writing and both execute it.

(2) Except as provided in this chapter, a collective bargaining agreement must contain provisions that provide for a grievance procedure of all disputes arising over the interpretation or application of the collective bargaining agreement and that is valid and enforceable under its terms when entered into in accordance with this chapter.

(3) RCW 41.56.037 applies to this chapter.

(4) (a) If a collective bargaining agreement between an employer and an exclusive bargaining representative is concluded after the termination date of the previous collective bargaining agreement between the employer and an employee organization representing the same bargaining units, the effective date of the collective bargaining agreement may be the day after the termination of the previous collective bargaining agreement, and all benefits included in the new collective bargaining agreement, including wage or salary increases, may accrue beginning with that effective date.

(b) If a collective bargaining agreement between an employer and an exclusive bargaining representative is concluded after the termination date of the previous collective bargaining agreement between the employer and the exclusive bargaining representative representing different bargaining units, the effective date of the collective bargaining agreement may be the day after the termination date of whichever previous collective bargaining agreement covering one or more of the units terminated first, and all benefits included in the new collective bargaining agreement, including wage or salary increases, may accrue beginning with that effective date.

(5) The employer and the exclusive bargaining representative of a bargaining unit of legislative employees may not enter into a collective bargaining agreement that requires the employer to deduct, from the salary or wages of an employee, contributions for payments for political action committees sponsored by employee organizations with legislative employees as members.

**Sec. 8.** RCW 44.90.060 and 2022 c 283 s 6 are each amended to read as follows:

(4) Negotiation for economic terms will be by a coalition of all exclusive bargaining representatives. Any such provisions agreed to by the employer and the coalition must be included in all collective bargaining agreements negotiated by the parties. The director and the exclusive bargaining representative or representatives are authorized to enter into supplemental bargaining of bargaining unit specific issues for inclusion in the collective bargaining agreement, subject to the parties' agreement regarding the issues and procedures for supplemental bargaining. This subsection does not prohibit cooperation and coordination of bargaining between two or more exclusive bargaining representatives.

NEW SECTION. **Sec. 10.** A new section is added to chapter 44.90 RCW to read as follows:

Thereafter, the employer may unilaterally implement according to law.

(2) Nothing in this section may be construed to prohibit an employer and an exclusive bargaining representative from agreeing to substitute, at their own expense, their own procedure for resolving impasses in collective bargaining for that provided in this section or from agreeing to utilize for the purposes of this section any

other governmental or other agency or person in lieu of the commission.

(3) The commission shall bear costs for mediator services.

(2) Notwithstanding any other law, the expression of any views, arguments, or opinions, or the dissemination thereof in any form, by a member of the legislature related to this chapter or matters within the scope of representation, shall not constitute, or be evidence of, an unfair labor practice unless the employer has authorized the member to express that view, argument, or opinion on behalf of the employer or as an employer.

**MESSAGE FROM THE SENATE**

Thursday, February 29, 2024

Mme. Speaker:

The Senate has passed ENGROSSED FOURTH SUBSTITUTE HOUSE BILL NO. 1239, with the following amendment(s): 1239-S4.E AMS EDU S5374.1

Strike everything after the enacting clause and insert the following:

**NEW SECTION. Sec. 1.** A new section is added to chapter 43.06B RCW to read as follows:

(1) By July 1, 2025, and in compliance with this section, the office of the education ombuds shall create a simple and uniform access point for the receipt of complaints involving the elementary and secondary education system. The purpose of the access point is to provide a single point of entry for complaints to be reported and then referred to the most appropriate individual or entity for dispute resolution at the lowest level of intercession.

(2) Any individual who has firsthand knowledge of a violation of federal, state, or local laws, policies or procedures, or of improper or illegal actions related to elementary or secondary education and performed by an employee, contractor, student, parent or legal guardian of a student, or member of the public may submit a complaint to the office of the education ombuds.

(3)(a) The office shall delineate a complaint resolution and referral process for reports received through the access point. The process must:

(i) Require that the office of the education ombuds assign a unique identifier to a complaint upon receipt before referring the complaint to the appropriate individual or entity for dispute resolution at the lowest level of intercession;

(ii) Link to all existing relevant complaint and investigative processes, such as the special education community complaint process, the discrimination complaint process, the process for reporting complaints related to harassment, intimidation, and bullying, and the complaint and investigation provisions under RCW 28A.410.090 and 28A.410.095; and

(iii) Discourage frivolous complaints and complaints made in bad faith.

(b) The establishment of a process as required in this section does not confer additional authority to the office of the education ombuds to mitigate or oversee disputes.

(4) The office of the education ombuds, in collaboration with the office of the superintendent of public instruction, must develop protocols for the receipt, resolution, and referral of complaints and must design a communications plan to inform individuals who report complaints through the access point about the steps in the complaint resolution and referral process, including when to expect a response from the individual or entity charged with resolving the complaint.

(5) For the purposes of this section, "employee" or "contractor" means employees and contractors of the state educational agencies, educational service districts, public schools as defined in RCW 28A.150.010, the state school for the blind, and the center for deaf and hard of hearing youth.

**NEW SECTION. Sec. 2.** A new section is added to chapter 28A.300 RCW to read as follows:

The office of the superintendent of public instruction shall post on its website a prominent link to the complaint resolution and referral access point maintained by the office of the education ombuds, described in section 1 of this act.

**NEW SECTION. Sec. 3.** A new section is added to chapter 28A.310 RCW to read as follows:

Each educational service district shall post on its website a prominent link to the complaint resolution and referral access point maintained by the office of the education ombuds, described in section 1 of this act.

**Sec. 4.** RCW 28A.600.510 and 2023 c 242 s 6 are each amended to read as follows:

(1) Beginning August 1, 2023, public schools must:

(a) Provide students and their parents or guardians with a description of the services available through the office of the education ombuds and the contact information for the office of the education ombuds at the time of initial enrollment or admission; and

(b) Either: (i) Include on their website a description of the services available through the office of the education ombuds and a prominent link to the ((website of)) complaint resolution and referral access point maintained by the office of the education ombuds, described in section 1 of this act; or (ii) provide a description of the services available through the office of the education ombuds and the contact information for the office of the education ombuds in existing materials that are shared annually with families, students, and school employees, such as welcome packets, orientation guides, and newsletters. This requirement as it relates to students and families may be satisfied by using the model student handbook language in RCW 28A.300.286.

(2) Public schools are encouraged to comply with both subsection (1)(b)(i) and (ii) of this section.

(3) By July 1, 2022, the office of the education ombuds must develop a template of the information described in subsection (1) of this section. The template must be translated into Spanish and into other languages as resources allow. The template must be made available upon request and updated as needed.

(4) For the purposes of this section, "public schools" has the same meaning as in RCW 28A.150.010.

**NEW SECTION. Sec. 5.** (1) The legislature finds that a code of educator ethics is a statement of the values, ethical principles, and ethical standards to which every educator, regardless of role or rank, can aspire. As such, the legislature finds that a code of educator ethics can provide a common statewide framework for supporting Washington educators in the practice of their profession. The legislature does not intend a code of educator ethics to

substitute for or replace an enforceable code of educator conduct.

(3) The report must advise the legislature on the following topics:

#### MESSAGE FROM THE SENATE

Friday, March 1, 2024

Mme. Speaker:

The Senate has passed SUBSTITUTE HOUSE BILL NO. 1453, with the following amendment(s): 1453-S AMS ENGR S5517.E

Strike everything after the enacting clause and insert the following:

**"Sec. 1.** RCW 69.50.535 and 2022 c 16 s 101 are each amended to read as follows:

(1)(a) There is levied and collected a cannabis excise tax equal to thirty-seven percent of the selling price on each retail sale in this state of cannabis concentrates, useable cannabis, and cannabis-infused products. This tax is separate and in addition to general state and local sales and use taxes that apply to retail sales of tangible personal property, and is not part of the total retail price to which general state and local sales and use taxes apply. The tax must be separately itemized from the state and local retail sales tax on the sales receipt provided to the buyer.

(b) The tax levied in this section must be reflected in the price list or quoted shelf price in the licensed cannabis retail store and in any advertising that includes prices for all useable cannabis, cannabis concentrates, or cannabis-infused products.

(2)(a) Until June 30, 2029, the tax levied by subsection (1) of this section does not apply to sales by a cannabis retailer with a medical cannabis endorsement to qualifying patients or designated providers who have been issued a recognition card, of cannabis concentrates, useable cannabis, or cannabis-infused products, identified by the department as a compliant cannabis product in chapter 246-70 WAC and tested to the standards in WAC 246-70-040.

(b) Each seller making exempt sales under this subsection (2) must maintain information establishing eligibility for the exemption in the form and manner required by the board.

(c) The board must provide a separate tax reporting line on the excise tax form for exemption amounts claimed under this subsection (2).

(3) All revenues collected from the cannabis excise tax imposed under this section must be deposited each day in the dedicated cannabis account.

~~((3))~~ (4) The tax imposed in this section must be paid by the buyer to the seller. Each seller must collect from the buyer the full amount of the tax payable on each taxable sale. The tax collected as required by this section is deemed to be held in trust by the seller until paid to the board. If any seller fails to collect the tax imposed in this section or, having collected the tax, fails to pay it as prescribed by the board, whether such failure is the result of the seller's own acts or the result of acts or conditions beyond the seller's control, the seller is, nevertheless, personally liable to the state for the amount of the tax.

~~((4))~~ (5) The definitions in this subsection apply throughout this section unless the context clearly requires otherwise.

(a) ~~("Board" means the state liquor and cannabis board.~~

~~(b))~~ "Retail sale" has the same meaning as in RCW 82.08.010.

~~((e))~~ (b) "Selling price" has the same meaning as in RCW 82.08.010, except that when product is sold under circumstances where the total amount of consideration paid for the product is not indicative of its true value, "selling price" means the true value of the product sold.

~~((d))~~ (c) "Product" means cannabis, cannabis concentrates, useable cannabis, and cannabis-infused products.

~~((e))~~ (d) "True value" means market value based on sales at comparable locations in this state of the same or similar product of like quality and character sold under comparable conditions of sale to comparable purchasers. However, in the absence of such sales of the same or similar product, true value means the value of the product sold as determined by all of the seller's direct and indirect costs attributable to the product.

~~((5))~~ (6) (a) The board must regularly review the tax level established under this section and make recommendations, in consultation with the department of revenue, to the legislature as appropriate regarding adjustments that would further the goal of discouraging use while undercutting illegal market prices.

(b) The board must report, in compliance with RCW 43.01.036, to the appropriate committees of the legislature every two years. The report at a minimum must include the following:

(i) The specific recommendations required under (a) of this subsection;

(ii) A comparison of gross sales and tax collections prior to and after any cannabis tax change;

(iii) The increase or decrease in the volume of legal cannabis sold prior to and after any cannabis tax change;

(iv) Increases or decreases in the number of licensed cannabis producers, processors, and retailers;

(v) The number of illegal and noncompliant cannabis outlets the board requires to be closed;

(vi) Gross cannabis sales and tax collections in Oregon; and

(vii) The total amount of reported sales and use taxes exempted for qualifying patients. The department of revenue must provide the data of exempt amounts to the board.

(c) The board is not required to report to the legislature as required in (b) of this subsection after January 1, 2025.

~~((6))~~ (7) The legislature does not intend and does not authorize any person or entity to engage in activities or to conspire to engage in activities that would constitute per se violations of state and federal antitrust laws including, but not limited to, agreements among retailers as to the selling price of any goods sold.

NEW SECTION. **Sec. 2.** (1) This section is the tax preference performance statement for the tax preference contained in section 1, chapter . . . , Laws of 2024 (section 1 of this act). This performance statement is only intended to be used for subsequent evaluation of the tax preference. It is not intended to create a private right of action by any party or to be used to determine eligibility for preferential tax treatment.

(2) The legislature categorizes this tax preference as one intended to provide tax relief for certain businesses or individuals, as indicated in RCW 82.32.808(2)(e).

(3) It is the legislature's specific public policy objective to ensure medical cannabis products are accessible and affordable for qualifying patients and designated providers.

(4) The joint legislative audit and review committee must include in its review of this tax preference an evaluation of:

(a) Any change in the number of qualifying patients or designated providers;

(b) Any change in the amount, types, or sales of tax-exempt products, as identified in section 1 of this act; and

(c) Any other information the joint legislative audit and review committee deems necessary to evaluate the tax preference in section 1 of this act.

(5) In order to obtain the data necessary to perform the review in subsection (4) of this section, the joint legislative audit and review committee may access any data collected by the department of health or the liquor and cannabis board or any other data collected by the state.

(6) The joint legislative audit and review committee must submit a report of its findings to the legislature by December 1, 2028."

On page 1, line 2 of the title, after "patients;" strike the remainder of the title and insert "amending RCW 69.50.535; and creating a new section."

and the same is herewith transmitted.

### MESSAGE FROM THE SENATE

Thursday, February 29, 2024

Mme. Speaker:

The Senate has passed ENGROSSED SUBSTITUTE HOUSE BILL NO. 1493, with the following amendment(s): 1493-S.E AMS ENGR S5448.E

Strike everything after the enacting clause and insert the following:

"NEW SECTION. **Sec. 1.** A new section is added to chapter 9.94A RCW to read as follows:

(1) An offender is eligible for the special drug offender sentencing alternative for driving under the influence if the offender:

(a) Does not have a prior conviction under RCW 46.61.520, 46.61.522, 46.61.502(6), or 46.61.504(6); and either

(b) Is convicted of felony driving while under the influence of intoxicating liquor, cannabis, or any drug under RCW 46.61.502(6) (a); or

(c) Is convicted of felony physical control of a vehicle while under the influence of intoxicating liquor or any drug under RCW 46.61.504(6) (a).

(2) A motion for a special drug offender sentencing alternative for driving under the influence may be made by the court, the offender, or the state if the midpoint of the standard sentence range is 26 months or less. If an offender has a higher midpoint, a motion for a special drug offender sentencing alternative for driving under the influence can only be made by joint agreement of the state and offender.

(3) If the sentencing court determines that the offender is eligible for an alternative sentence under this section and that the alternative sentence is appropriate, the court shall waive imposition of a sentence within the standard sentence range and:

(a) Impose a sentence equivalent to a prison-based alternative under RCW 9.94A.662, and subject to the same requirements and restrictions as are established in that section, if the low end of the standard sentence range is greater than 24 months; or

(b) Impose a sentence consisting of a residential treatment-based alternative consistent with this section if the low end of the standard sentence range is 24 months or less.

(4) (a) To assist the court in making its determination, the court may order the department to complete either a risk assessment report or a substance use disorder screening report as provided in RCW 9.94A.500, or both.

(b) If the court is considering imposing a sentence under the residential substance use disorder treatment-based alternative, the court may order an examination of the offender by the department. The examination shall, at a minimum, address the following issues:

(i) Whether the offender suffers from a substance use disorder;

(ii) Whether effective treatment for the offender's substance use disorder is available from a provider that has been licensed or certified by the department of health; and

(iii) Whether the offender and the community will benefit from the use of the alternative.

(5) An offender who is eligible for a residential treatment-based alternative under this section shall be sentenced as follows:

(a) If necessary, an indeterminate term of confinement of no more than 30 days in a facility operated, licensed, or utilized under contract, by the county in order to facilitate direct transfer to a residential substance use disorder treatment facility;

(b) Treatment in a residential substance use disorder treatment program licensed or certified by the department of health for a period set by the court up to six months with treatment completion and continued care delivered in accordance with rules established by the department of health. In establishing rules pursuant to this subsection, the department of health must consider criteria established by the American society of addiction medicine;

(c) Twenty-four months of partial confinement to consist of 12 months work release followed by 12 months of home detention with electronic monitoring; and

(d) Twelve months of community custody.

(6) (a) During any period of partial confinement or community custody, the court shall impose treatment and other conditions as provided in RCW 9.94A.703 or as the court considers appropriate.

(b) The department may impose conditions and sanctions as authorized in RCW 9.94A.704 and 9.94A.737.

(c) The department shall, within available resources, make substance use disorder assessment and treatment services available to the offender.

(d) An offender sentenced to community custody under subsection (3) (a) of this section as part of the prison-based alternative or under subsection (3) (b) of this section as part of the residential treatment-based alternative may be required to pay \$30 per month while on community custody to offset the cost of monitoring for alcohol or controlled substances.

(7)(a) If the court imposes a sentence under subsection (3)(b) of this section, the treatment provider must send the treatment plan to the court within 30 days of the offender's arrival to the residential substance use disorder treatment program.

(b) Upon receipt of the plan, the court shall schedule a progress hearing during the period of treatment and schedule a treatment termination hearing for three months before the expiration of the term of community custody.

(c) Before the progress hearing and treatment termination hearing, the treatment provider and the department shall submit written reports to the court and parties regarding the offender's compliance with treatment and monitoring requirements and recommendations regarding termination from treatment.

(8) At a progress hearing or treatment termination hearing, the court may:

(a) Authorize the department to terminate the offender's community custody status on the expiration date determined under subsection (7) of this section;

(b) Continue the hearing to a date before the expiration date of community custody, with or without modifying the conditions of partial confinement or community custody; or

(c) Impose a term of total confinement equal to one-half the midpoint of the standard sentence range, followed by a term of community custody under RCW 9.94A.701.

(9)(a) The court may bring any offender sentenced under subsection (3)(a) or (b) of this section back into court at any time on its own initiative to evaluate the offender's progress in treatment or to determine if any violations of the conditions of the sentence have occurred.

(b) If the offender is brought back to court, the court may modify the conditions of partial confinement or community custody or order the offender to serve a term of total confinement within the standard sentence range of the offender's current offense at any time during the period of partial confinement or community custody if the offender violates the conditions or requirements of the sentence or if the offender is failing to make satisfactory progress in treatment.

(c) An offender ordered to serve a term of total confinement under (b) of this subsection shall receive credit for any time previously served in total confinement or residential treatment under this section and shall receive 50 percent credit for any time previously served in partial confinement or community custody under this section.

(10) In serving a term of community custody imposed upon failure to complete, or administrative termination from, the special drug offender sentencing alternative program for driving under the influence under this section, the offender shall receive no credit for time served in community custody prior to termination of the offender's participation in the program.

(11) An offender sentenced under this section shall be subject to all rules relating to earned release time with respect to any period served in total or partial confinement.

(12) Costs of examinations and preparing the recommended service delivery plans under a special drug offender sentencing alternative for driving under the influence may be paid, at the option of the county, from funds provided to the county from the criminal justice treatment account under RCW 71.24.580.

**Sec. 2.** RCW 9.94A.030 and 2022 c 231 s 11 are each amended to read as follows:

Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

(1) "Board" means the indeterminate sentence review board created under chapter 9.95 RCW.

(2) "Collect," or any derivative thereof, "collect and remit," or "collect and deliver," when used with reference to the department, means that the department, either directly or through a collection agreement authorized by RCW 9.94A.760, is responsible for monitoring and enforcing the offender's sentence with regard to the legal financial obligation, receiving payment thereof from the offender, and, consistent with current law, delivering daily the entire payment to the superior court clerk without depositing it in a departmental account.

(3) "Commission" means the sentencing guidelines commission.

(4) "Community corrections officer" means an employee of the department who is responsible for carrying out specific duties in supervision of sentenced offenders and monitoring of sentence conditions.

(5) "Community custody" means that portion of an offender's sentence of confinement in lieu of earned release time or imposed as part of a sentence under this chapter and served in the community subject to controls placed on the offender's movement and activities by the department.

(6) "Community protection zone" means the area within 880 feet of the facilities and grounds of a public or private school.

(7) "Community restitution" means compulsory service, without compensation, performed for the benefit of the community by the offender.

(8) "Confinement" means total or partial confinement.

(9) "Conviction" means an adjudication of guilt pursuant to Title 10 or 13 RCW and includes a verdict of guilty, a finding of guilty, and acceptance of a plea of guilty.

(10) "Crime-related prohibition" means an order of a court prohibiting conduct that directly relates to the circumstances of the crime for which the offender has been convicted, and shall not be construed to mean orders directing an offender affirmatively to participate in rehabilitative programs or to otherwise perform affirmative conduct. However, affirmative acts necessary to monitor compliance with the order of a court may be required by the department.

(11) "Criminal history" means the list of a defendant's prior convictions and juvenile adjudications, whether in this state, in federal court, or elsewhere, and any issued

certificates of restoration of opportunity pursuant to RCW 9.97.020.

(a) The history shall include, where known, for each conviction (i) whether the defendant has been placed on probation and the length and terms thereof; and (ii) whether the defendant has been incarcerated and the length of incarceration.

(b) A conviction may be removed from a defendant's criminal history only if it is vacated pursuant to RCW 9.96.060, 9.94A.640, 9.95.240, or a similar out-of-state statute, or if the conviction has been vacated pursuant to a governor's pardon. However, when a defendant is charged with a recidivist offense, "criminal history" includes a vacated prior conviction for the sole purpose of establishing that such vacated prior conviction constitutes an element of the present recidivist offense as provided in RCW 9.94A.640(4)(b) and 9.96.060(7)(c).

(c) The determination of a defendant's criminal history is distinct from the determination of an offender score. A prior conviction that was not included in an offender score calculated pursuant to a former version of the sentencing reform act remains part of the defendant's criminal history.

(12) "Criminal street gang" means any ongoing organization, association, or group of three or more persons, whether formal or informal, having a common name or common identifying sign or symbol, having as one of its primary activities the commission of criminal acts, and whose members or associates individually or collectively engage in or have engaged in a pattern of criminal street gang activity. This definition does not apply to employees engaged in concerted activities for their mutual aid and protection, or to the activities of labor and bona fide nonprofit organizations or their members or agents.

(13) "Criminal street gang associate or member" means any person who actively participates in any criminal street gang and who intentionally promotes, furthers, or assists in any criminal act by the criminal street gang.

(14) "Criminal street gang-related offense" means any felony or misdemeanor offense, whether in this state or elsewhere, that is committed for the benefit of, at the direction of, or in association with any criminal street gang, or is committed with the intent to promote, further, or assist in any criminal conduct by the gang, or is committed for one or more of the following reasons:

(a) To gain admission, prestige, or promotion within the gang;

(b) To increase or maintain the gang's size, membership, prestige, dominance, or control in any geographical area;

(c) To exact revenge or retribution for the gang or any member of the gang;

(d) To obstruct justice, or intimidate or eliminate any witness against the gang or any member of the gang;

(e) To directly or indirectly cause any benefit, aggrandizement, gain, profit, or other advantage for the gang, its reputation, influence, or membership; or

(f) To provide the gang with any advantage in, or any control or dominance over any criminal market sector, including, but not limited to, manufacturing, delivering, or selling any controlled substance (chapter 69.50 RCW); arson (chapter 9A.48 RCW); trafficking in stolen property (chapter 9A.82 RCW); promoting prostitution (chapter 9A.88 RCW); human trafficking (RCW 9A.40.100); promoting commercial sexual abuse of a minor (RCW 9.68A.101); or promoting pornography (chapter 9.68 RCW).

(15) "Day fine" means a fine imposed by the sentencing court that equals the difference between the offender's net daily income and the reasonable obligations that the offender has for the support of the offender and any dependents.

(16) "Day reporting" means a program of enhanced supervision designed to monitor the offender's daily activities and compliance with sentence conditions, and in which the offender is required to report daily to a specific location designated by the department or the sentencing court.

(17) "Department" means the department of corrections.

(18) "Determinate sentence" means a sentence that states with exactitude the number of actual years, months, or days of total confinement, of partial confinement, of community custody, the number of actual hours or days of community restitution work, or dollars or terms of a legal financial obligation. The fact that an offender through earned release can reduce the actual period of confinement shall not affect the classification of the sentence as a determinate sentence.

(19) "Disposable earnings" means that part of the earnings of an offender remaining after the deduction from those earnings of any amount required by law to be withheld. For the purposes of this definition, "earnings" means compensation paid or payable for personal services, whether denominated as wages, salary, commission, bonuses, or otherwise, and, notwithstanding any other provision of law making the payments exempt from garnishment, attachment, or other process to satisfy a court-ordered legal financial obligation, specifically includes periodic payments pursuant to pension or retirement programs, or insurance policies of any type, but does not include payments made under Title 50 RCW, except as provided in RCW 50.40.020 and 50.40.050, or Title 74 RCW.

(20)(a) "Domestic violence" has the same meaning as defined in RCW 10.99.020.

(b) "Domestic violence" also means: (i) Physical harm, bodily injury, assault, or the infliction of fear of imminent physical harm, bodily injury, or assault, sexual assault, or stalking, as defined in RCW 9A.46.110, of one intimate partner by another intimate partner as defined in RCW 10.99.020; or (ii) physical harm, bodily injury, assault, or the infliction of fear of imminent physical harm, bodily injury, or assault, sexual assault, or stalking, as defined in RCW 9A.46.110, of one family or household member by another family or household member as defined in RCW 10.99.020.

(21) "Drug offender sentencing alternative" is a sentencing option available to persons convicted of a felony offense who are eligible for the option under RCW 9.94A.660.

(22) "Drug offender sentencing alternative for driving under the influence" is a sentencing option available to persons convicted of felony driving while under the influence of intoxicating liquor or any drug under RCW 46.61.502(6), or felony physical control of a vehicle while under the influence of intoxicating liquor or any drug under RCW 46.61.504(6) who are eligible under section 1 of this act.

(23) "Drug offense" means:

(a) Any felony violation of chapter 69.50 RCW except possession of a controlled substance (RCW 69.50.4013) or forged prescription for a controlled substance (RCW 69.50.403);

(b) Any offense defined as a felony under federal law that relates to the possession, manufacture, distribution, or transportation of a controlled substance; or

(c) Any out-of-state conviction for an offense that under the laws of this state would be a felony classified as a drug offense under (a) of this subsection.

~~((23))~~ (24) "Earned release" means earned release from confinement as provided in RCW 9.94A.728.

~~((24))~~ (25) "Electronic monitoring" means tracking the location of an individual through the use of technology that is capable of determining or identifying the monitored individual's presence or absence at a particular location including, but not limited to:

~~((25))~~ (26) "Escape" means:

(a) Sexually violent predator escape (RCW 9A.76.115), escape in the first degree (RCW 9A.76.110), escape in the second degree (RCW 9A.76.120), willful failure to return from furlough (RCW 72.66.060), willful failure to return from work release (RCW 72.65.070), or willful failure to be available for supervision by the department while in community custody (RCW 72.09.310); or

(b) Any federal or out-of-state conviction for an offense that under the laws of this state would be a felony classified as an escape under (a) of this subsection.

~~((26))~~ (27) "Felony traffic offense" means:

(f) Was sentenced under RCW 9.94A.650, 9.94A.655, 9.94A.660, 9.94A.670, 9.94A.711, ~~((or))~~ 9.94A.695, or section 1 of this act;

(g) Is subject to supervision pursuant to RCW 9.94A.745; or

(h) Was convicted and sentenced under RCW 46.61.520 (vehicular homicide), RCW 46.61.522 (vehicular assault), RCW 46.61.502(6) (felony DUI), or RCW 46.61.504(6) (felony physical control).

(5) The department shall supervise any offender who is released by the indeterminate sentence review board and who was sentenced to community custody or subject to community custody under the terms of release.

(6) The department is not authorized to, and may not, supervise any offender sentenced to a term of community custody or any probationer unless the offender or probationer is one for whom supervision is required under this section or RCW 9.94A.5011.

(7) The department shall conduct a risk assessment for every felony offender sentenced to a term of community custody who may be subject to supervision under this section or RCW 9.94A.5011.

(8) The period of time the department is authorized to supervise an offender under this section may not exceed the duration of community custody specified under RCW 9.94B.050, 9.94A.701 (1) through (9), or 9.94A.702, except in cases where the court has imposed an exceptional term of community custody under RCW 9.94A.535.

(9) The period of time the department is authorized to supervise an offender under this section may be reduced by the earned award of supervision compliance credit pursuant to RCW 9.94A.717.

**Sec. 5.** RCW 9.94A.505 and 2022 c 260 s 23 are each amended to read as follows:

(1) When a person is convicted of a felony, the court shall impose punishment as provided in this chapter.

(2)(a) The court shall impose a sentence as provided in the following sections and as applicable in the case:

(i) Unless another term of confinement applies, a sentence within the standard sentence range established in RCW 9.94A.510 or 9.94A.517;

(ii) RCW 9.94A.701 and 9.94A.702, relating to community custody;

~~((viii))~~ (ix) RCW 9.94A.655, relating to the parenting sentencing alternative;

~~((ix))~~ (x) RCW 9.94A.695, relating to the mental health sentencing alternative;

~~((x))~~ (xi) RCW 9.94A.507, relating to certain sex offenses;

~~((xi))~~ (xii) RCW 9.94A.535, relating to exceptional sentences;

~~((xiii))~~ (xiv) RCW 9.94A.603, relating to felony driving while under the influence of intoxicating liquor or any drug and felony physical control of a vehicle while under the influence of intoxicating liquor or any drug;

~~((xiv))~~ (xv) RCW 9.94A.711, relating to the theft or taking of a motor vehicle.

(b) If a standard sentence range has not been established for the offender's crime, the court shall impose a determinate sentence which may include not more than one year of confinement; community restitution work; a term of community custody under RCW 9.94A.702 not to exceed one year; and/or other legal financial obligations. The court may impose a sentence which provides more than one year of confinement and a community custody term under RCW 9.94A.701 if the court finds reasons justifying an exceptional sentence as provided in RCW 9.94A.535.

(3) If the court imposes a sentence requiring confinement of 30 days or less, the court may, in its discretion, specify that the sentence be served on consecutive or intermittent days. A sentence requiring more than 30 days of confinement shall be served on consecutive days. Local jail administrators may schedule court-ordered intermittent sentences as space permits.

(4) If a sentence imposed includes payment of a legal financial obligation, it shall be imposed as provided in RCW 9.94A.750, 9.94A.753, and 9.94A.760.

(5) Except as provided under RCW 9.94A.750(4) and 9.94A.753(4), a court may not impose a sentence providing for a term of confinement or community custody that exceeds the statutory maximum for the crime as provided in chapter 9A.20 RCW.

(6) The sentencing court shall give the offender credit for all confinement time served before the sentencing if that confinement was solely in regard to the offense for which the offender is being sentenced.

(7) The sentencing court shall not give the offender credit for any time the offender was required to comply with an electronic monitoring program prior to

sentencing if the offender was convicted of one of the following offenses:

- (a) A violent offense;
- (b) Any sex offense;
- (c) Any drug offense;
- (d) Reckless burning in the first or second degree as defined in RCW 9A.48.040 or 9A.48.050;

(8) The court shall order restitution as provided in RCW 9.94A.750 and 9.94A.753.

(9) As a part of any sentence, the court may impose and enforce crime-related prohibitions and affirmative conditions as provided in this chapter. "Crime-related prohibitions" may include a prohibition on the use or possession of alcohol or controlled substances if the court finds that any chemical dependency or substance abuse contributed to the offense.

(10) In any sentence of partial confinement, the court may require the offender to serve the partial confinement in work release, in a program of home detention, on work crew, or in a combined program of work crew and home detention.

**Sec. 6.** RCW 9.94A.525 and 2023 c 415 s 2 are each amended to read as follows:

The offender score is measured on the horizontal axis of the sentencing grid. The offender score rules are as follows:

The offender score is the sum of points accrued under this section rounded down to the nearest whole number.

(1)(a) A prior conviction is a conviction which exists before the date of sentencing for the offense for which the offender score is being computed. Convictions entered or sentenced on the same date as the conviction for which the offender score is being computed shall be deemed "other current offenses" within the meaning of RCW 9.94A.589.

(b) For the purposes of this section, adjudications of guilt pursuant to Title 13 RCW which are not murder in the first or second degree or class A felony sex offenses may not be included in the offender score.

(2)(a) Class A and sex prior felony convictions shall always be included in the offender score.

(b) Class B prior felony convictions other than sex offenses shall not be included in the offender score, if since the last date of release from confinement (including full-time residential treatment) pursuant to a felony conviction, if any, or entry of judgment and sentence, the offender had spent ~~((ten))~~ 10 consecutive years in the community without committing any crime that subsequently results in a conviction.

(c) Except as provided in (e) of this subsection, class C prior felony convictions other than sex offenses shall not be included in the offender score if, since the last date of release from confinement (including full-time residential treatment)

pursuant to a felony conviction, if any, or entry of judgment and sentence, the offender had spent five consecutive years in the community without committing any crime that subsequently results in a conviction.

(d) Except as provided in (e) of this subsection, serious traffic convictions shall not be included in the offender score if, since the last date of release from confinement (including full-time residential treatment) pursuant to a conviction, if any, or entry of judgment and sentence, the offender spent five years in the community without committing any crime that subsequently results in a conviction.

(e) If the present conviction is felony driving while under the influence of intoxicating liquor or any drug (RCW 46.61.502(6)) or felony physical control of a vehicle while under the influence of intoxicating liquor or any drug (RCW 46.61.504(6)), all predicate crimes for the offense as defined by RCW 46.61.5055(14) shall be included in the offender score, and prior convictions for felony driving while under the influence of intoxicating liquor or any drug (RCW 46.61.502(6)) or felony physical control of a vehicle while under the influence of intoxicating liquor or any drug (RCW 46.61.504(6)) shall always be included in the offender score. All other convictions of the defendant shall be scored according to this section.

(f) Prior convictions for a repetitive domestic violence offense, as defined in RCW 9.94A.030, shall not be included in the offender score if, since the last date of release from confinement or entry of judgment and sentence, the offender had spent ~~(ten)~~ 10 consecutive years in the community without committing any crime that subsequently results in a conviction.

(g) This subsection applies to both prior adult convictions and prior juvenile adjudications.

(3) Out-of-state convictions for offenses shall be classified according to the comparable offense definitions and sentences provided by Washington law. Federal convictions for offenses shall be classified according to the comparable offense definitions and sentences provided by Washington law. Neither out-of-state or federal convictions which would have been presumptively adjudicated in juvenile court under Washington law may be included in the offender score unless they are comparable to murder in the first or second degree or a class A felony sex offense. If there is no clearly comparable offense under Washington law or the offense is one that is usually considered subject to exclusive federal jurisdiction, the offense shall be scored as a class C felony equivalent if it was a felony under the relevant federal statute.

(4) Score prior convictions for felony anticipatory offenses (attempts, criminal solicitations, and criminal conspiracies) the same as if they were convictions for completed offenses.

(5)(a) In the case of multiple prior convictions, for the purpose of computing the offender score, count all convictions separately, except:

(i) Prior offenses which were found, under RCW 9.94A.589(1)(a), to encompass the

same criminal conduct, shall be counted as one offense, the offense that yields the highest offender score. The current sentencing court shall determine with respect to other prior adult offenses for which sentences were served concurrently or prior juvenile offenses for which sentences were served consecutively, whether those offenses shall be counted as one offense or as separate offenses using the "same criminal conduct" analysis found in RCW 9.94A.589(1)(a), and if the court finds that they shall be counted as one offense, then the offense that yields the highest offender score shall be used. The current sentencing court may presume that such other prior offenses were not the same criminal conduct from sentences imposed on separate dates, or in separate counties or jurisdictions, or in separate complaints, indictments, or informations;

(ii) In the case of multiple prior convictions for offenses committed before July 1, 1986, for the purpose of computing the offender score, count all convictions or adjudications served concurrently as one offense. Use the conviction for the offense that yields the highest offender score.

(b) As used in this subsection (5), "served concurrently" means that: (i) The latter sentence was imposed with specific reference to the former; (ii) the concurrent relationship of the sentences was judicially imposed; and (iii) the concurrent timing of the sentences was not the result of a probation or parole revocation on the former offense.

(6) If the present conviction is one of the anticipatory offenses of criminal attempt, solicitation, or conspiracy, count each prior conviction as if the present conviction were for a completed offense. When these convictions are used as criminal history, score them the same as a completed crime.

(7) If the present conviction is for a nonviolent offense and not covered by subsection (11), (12), or (13) of this section, count one point for each adult prior felony conviction and one point for each juvenile prior violent felony conviction which is scorable under subsection (1)(b) of this section.

(8) If the present conviction is for a violent offense and not covered in subsection (9), (10), (11), (12), or (13) of this section, count two points for each prior adult violent felony conviction and juvenile violent felony conviction which is scorable under subsection (1)(b) of this section, and one point for each prior adult nonviolent felony conviction.

(9) If the present conviction is for a serious violent offense, count three points for prior adult convictions and juvenile convictions which are scorable under subsection (1)(b) of this section for crimes in this category, two points for each prior adult and scorable juvenile violent conviction (not already counted), and one point for each prior adult nonviolent felony conviction.

(10) If the present conviction is for Burglary 1, count prior convictions as in subsection (8) of this section; however

count two points for each prior Burglary 2 or residential burglary conviction.

(11) If the present conviction is for a felony traffic offense count two points for each prior conviction for Vehicular Homicide or Vehicular Assault; for each felony offense count one point for each adult prior conviction and 1/2 point for each juvenile prior conviction which is scorable under subsection (1)(b) of this section; for each serious traffic offense, other than those used for an enhancement pursuant to RCW 46.61.520(2), count one point for each adult prior conviction and 1/2 point for each juvenile prior conviction which is scorable under subsection (1)(b) of this section; count one point for each adult prior conviction for operation of a vessel while under the influence of intoxicating liquor or any drug; count one point for a deferred prosecution granted under chapter 10.05 RCW for a second or subsequent violation of RCW 46.61.502 or 46.61.504, or an equivalent local ordinance.

(12) If the present conviction is for homicide by watercraft or assault by watercraft count two points for each adult prior conviction for homicide by watercraft or assault by watercraft; for each felony offense count one point for each adult prior conviction and 1/2 point for each juvenile prior conviction which would be scorable under subsection (1)(b) of this section; count one point for each adult prior conviction for driving under the influence of intoxicating liquor or any drug, actual physical control of a motor vehicle while under the influence of intoxicating liquor or any drug, or operation of a vessel while under the influence of intoxicating liquor or any drug.

(13) If the present conviction is for manufacture of methamphetamine count three points for each adult prior manufacture of methamphetamine conviction. If the present conviction is for a drug offense and the offender has a criminal history that includes a sex offense or serious violent offense, count three points for each adult prior felony drug offense conviction. All other felonies are scored as in subsection (8) of this section if the current drug offense is violent, or as in subsection (7) of this section if the current drug offense is nonviolent.

(14) If the present conviction is for Escape from Community Custody, RCW 72.09.310, count only adult prior escape convictions in the offender score. Count prior escape convictions as one point.

(15) If the present conviction is for Escape 1, RCW 9A.76.110, or Escape 2, RCW 9A.76.120, count adult prior convictions as one point and juvenile prior convictions which are scorable under subsection (1)(b) of this section as 1/2 point.

(16) If the present conviction is for Burglary 2 or residential burglary, count priors as in subsection (7) of this section; however, count two points for each prior Burglary 1 conviction, and two points for each prior Burglary 2 or residential burglary conviction.

(17) If the present conviction is for a sex offense, count priors as in subsections (7) through (11) and (13) through (16) of

this section; however, count three points for each adult prior sex offense conviction and juvenile prior class A felony sex offense adjudication.

(18) If the present conviction is for failure to register as a sex offender under RCW 9A.44.130 or 9A.44.132, count priors as in subsections (7) through (11) and (13) through (16) of this section; however, count three points for each adult prior sex offense conviction and juvenile prior sex offense conviction which is scorable under subsection (1)(b) of this section, excluding adult prior convictions for failure to register as a sex offender under RCW 9A.44.130 or 9A.44.132, which shall count as one point.

(19) If the present conviction is for an offense committed while the offender was under community custody, add one point. For purposes of this subsection, community custody includes community placement or postrelease supervision, as defined in chapter 9.94B RCW.

(20) If the present conviction is for Theft of a Motor Vehicle, Possession of a Stolen Vehicle, Taking a Motor Vehicle Without Permission 1, or Taking a Motor Vehicle Without Permission 2, count priors as in subsections (7) through (18) of this section; however count one point for prior convictions of Vehicle Prowling 2, and three points for each adult prior Theft 1 (of a motor vehicle), Theft 2 (of a motor vehicle), Possession of Stolen Property 1 (of a motor vehicle), Possession of Stolen Property 2 (of a motor vehicle), Theft of a Motor Vehicle, Possession of a Stolen Vehicle, Taking a Motor Vehicle Without Permission 1, or Taking a Motor Vehicle Without Permission 2 conviction.

(21) If the present conviction is for a felony domestic violence offense where domestic violence as defined in RCW 9.94A.030 was pleaded and proven, count priors as in subsections (7) through (20) of this section; however, count points as follows:

(a) Count two points for each adult prior conviction where domestic violence as defined in RCW 9.94A.030 was pleaded and proven after August 1, 2011, for any of the following offenses: A felony violation of a no-contact or protection order (RCW 7.105.450 or former RCW 26.50.110), felony Harassment (RCW 9A.46.020(2)(b)), felony Stalking (RCW 9A.46.110(5)(b)), Burglary 1 (RCW 9A.52.020), Kidnapping 1 (RCW 9A.40.020), Kidnapping 2 (RCW 9A.40.030), Unlawful imprisonment (RCW 9A.40.040), Robbery 1 (RCW 9A.56.200), Robbery 2 (RCW 9A.56.210), Assault 1 (RCW 9A.36.011), Assault 2 (RCW 9A.36.021), Assault 3 (RCW 9A.36.031), Arson 1 (RCW 9A.48.020), or Arson 2 (RCW 9A.48.030);

(b) Count two points for each adult prior conviction where domestic violence as defined in RCW 9.94A.030 was pleaded and proven after July 23, 2017, for any of the following offenses: Assault of a child in the first degree, RCW 9A.36.120; Assault of a child in the second degree, RCW 9A.36.130; Assault of a child in the third degree, RCW 9A.36.140; Criminal Mistreatment in the first degree, RCW 9A.42.020; or Criminal

Mistreatment in the second degree, RCW 9A.42.030; and

(c) Count one point for each adult prior conviction for a repetitive domestic violence offense as defined in RCW 9.94A.030, where domestic violence as defined in RCW 9.94A.030, was pleaded and proven after August 1, 2011.

(22) The fact that a prior conviction was not included in an offender's offender score or criminal history at a previous sentencing shall have no bearing on whether it is included in the criminal history or offender score for the current offense. Prior convictions that were not counted in the offender score or included in criminal history under repealed or previous versions of the sentencing reform act shall be included in criminal history and shall count in the offender score if the current version of the sentencing reform act requires including or counting those convictions. Prior convictions that were not included in criminal history or in the offender score shall be included upon any resentencing to ensure imposition of an accurate sentence.

**Sec. 7.** RCW 9.94A.633 and 2021 c 242 s 4 are each amended to read as follows:

(1)(a) An offender who violates any condition or requirement of a sentence may be sanctioned by the court with up to ~~((sixty))~~ 60 days' confinement for each violation or by the department with up to ~~((thirty))~~ 30 days' confinement as provided in RCW 9.94A.737.

(2) If an offender was under community custody pursuant to one of the following statutes, the offender may be sanctioned as follows:

(a) If the offender was transferred to community custody in lieu of earned early release in accordance with RCW 9.94A.728, the offender may be transferred to a more restrictive confinement status to serve up to the remaining portion of the sentence, less credit for any period actually spent in community custody or in detention awaiting disposition of an alleged violation.

~~((+f))~~ (g) If the offender was sentenced to a work ethic camp pursuant to RCW 9.94A.690, the offender may be reclassified to serve the unexpired term of his or her sentence in total confinement.

~~((+g))~~ (h) If a sex offender was sentenced pursuant to RCW 9.94A.507, the offender may be transferred to a more restrictive confinement status to serve up to the remaining portion of the sentence, less credit for any period actually spent in community custody or in detention awaiting disposition of an alleged violation.

(3) If a probationer is being supervised by the department pursuant to RCW 9.92.060, 9.95.204, or 9.95.210, the probationer may be sanctioned pursuant to subsection (1) of this section. The department shall have authority to issue a warrant for the arrest of an offender who violates a condition of community custody, as provided in RCW 9.94A.716. Any sanctions shall be imposed by the department pursuant to RCW 9.94A.737. Nothing in this subsection is intended to limit the power of the sentencing court to respond to a probationer's violation of conditions.

(4) The parole or probation of an offender who is charged with a new felony offense may be suspended and the offender placed in total confinement pending disposition of the new criminal charges if:

(a) The offender is on parole pursuant to RCW 9.95.110(1); or

~~((9))~~ (10) If the offender is not being supervised by the department, any sanctions shall be imposed by the court pursuant to RCW 9.94A.6333.

**Sec. 9.** RCW 9.94A.660 and 2021 c 215 s 102 are each amended to read as follows:

(1) An offender is eligible for the special drug offender sentencing alternative if:

(a) The offender is convicted of a felony that is not a violent offense and the violation does not involve a sentence enhancement under RCW 9.94A.533 (3) or (4);

(b) The offender is convicted of a felony that is not a felony driving while under the influence of intoxicating liquor or any drug under RCW 46.61.502(6) or felony physical control of a vehicle while under the influence of intoxicating liquor or any drug under RCW 46.61.504(6);

(c) The offender has no current or prior convictions for a sex offense for which the offender is currently or may be required to register pursuant to RCW 9A.44.130;

(d) The offender has no prior convictions in this state, and no prior convictions for an equivalent out-of-state or federal offense, for the following offenses during the following time frames:

(i) Robbery in the second degree that did not involve the use of a firearm and was not reduced from robbery in the first degree within seven years before conviction of the current offense; or

(ii) Any other violent offense within ~~((ten))~~ 10 years before conviction of the current offense;

(e) For a violation of the uniform controlled substances act under chapter 69.50 RCW or a criminal solicitation to commit such a violation under chapter 9A.28 RCW, the offense involved only a small quantity of the particular controlled substance as determined by the judge upon consideration of such factors as the weight, purity, packaging, sale price, and street value of the controlled substance;

(f) The offender has not been found by the United States attorney general to be

subject to a deportation detainer or order and does not become subject to a deportation order during the period of the sentence; and

(g) The offender has not received a drug offender sentencing alternative under this section, or a drug offender sentencing alternative for driving under the influence under section 1 of this act, more than once in the prior ~~((ten))~~ 10 years before the current offense.

(2) A motion for a special drug offender sentencing alternative may be made by the court, the offender, or the state.

(3) If the sentencing court determines that the offender is eligible for an alternative sentence under this section and that the alternative sentence is appropriate, the court shall waive imposition of a sentence within the standard sentence range and impose a sentence consisting of either a prison-based alternative under RCW 9.94A.662 or a residential substance use disorder treatment-based alternative under RCW 9.94A.664. The residential substance use disorder treatment-based alternative is only available if the midpoint of the standard sentence range is ~~((twenty-six))~~ 26 months or less.

(4) (a) To assist the court in making its determination, the court may order the department to complete either or both a risk assessment report and a substance use disorder screening report as provided in RCW 9.94A.500.

The examination shall, at a minimum, address the following issues:

(a) Whether the offender suffers from a substance use disorder;

(b) ~~((Whether the substance use disorder is such that there is a probability that criminal behavior will occur in the future;~~

~~((e)))~~ Whether effective treatment for the offender's substance use disorder is available from a provider that has been licensed or certified by the department of health, and where applicable, whether effective domestic violence perpetrator treatment is available from a state-certified domestic violence treatment provider pursuant to RCW 43.20A.735; and

~~((d))~~ (c) Whether the offender and the community will benefit from the use of the alternative.

(6) When a court imposes a sentence of community custody under this section:

(a) The court may impose conditions as provided in RCW 9.94A.703 and may impose other affirmative conditions as the court considers appropriate. In addition, an offender may be required to pay ~~((thirty~~

~~dollars~~) \$30 per month while on community custody to offset the cost of monitoring for alcohol or controlled substances, or in cases of domestic violence for monitoring with global positioning system technology for compliance with a no-contact order.

(b) The department may impose conditions and sanctions as authorized in RCW 9.94A.704 and 9.94A.737.
