(9) \$1,000,000 of the workforce education investment account—state appropriation is provided solely for educator conditional scholarship and loan repayment programs established in chapter 28B.102 RCW. Dual language educators must receive priority.

(10) \$10,000,000 of the health professionals loan repayment and scholarship program account—state appropriation is provided solely to increase loans within the Washington health corps.

(11) \$1,156,000 of the workforce education investment account—state appropriation is provided solely for implementation of House Bill No. 1232 (college bound scholarship). ~~((If the bill is not enacted by June 30, 2023, the amount provided in this subsection shall lapse.))~~

(12) \$239,000 of the workforce education investment account—state appropriation is provided solely for the Washington student achievement council to remove barriers to accessing state financial aid by informing people of their income-eligibility for the Washington college grant via the supplemental nutrition assistance program as provided in Second Substitute House Bill No. 2214 (college grant/public assist). If the bill is not enacted by June 30, 2024, the amount provided in this subsection shall lapse.

(13) \$500,000 of the workforce education investment account—state appropriation is provided solely for the Washington award for vocational excellence. This funding will support increasing the scholarship award for students.

(14) \$400,000 of the workforce education investment account—state appropriation is provided solely for a financial aid texting program.

(15) \$500,000 of the workforce education investment account—state appropriation is provided solely for the development and implementation of a mentoring scholarship. An eligible student means a student who participated in a mentoring program as a 12th grade student in Spokane, Garfield, or Columbia counties; filed a free application for federal student aid (FAFSA) or Washington application for state financial aid; and has family income up to 150 percent of the state median family income. An eligible student may receive a maximum award of \$5,000. The award may only be used at institutions of higher education in Spokane, Garfield, Whitman, or Columbia counties. An award that includes state funds must be matched on an equal dollar basis with private funds. A state match for private contributions made in fiscal year 2025 may not exceed \$500,000.

(16) \$200,000 of the general fund—state appropriation for fiscal year 2025 is provided solely for implementation of Substitute House Bill No. 2025 (state work-study program). If the bill is not enacted by June 30, 2024, the amount provided in this subsection shall lapse.

(17) \$150,000 of the workforce education investment account—state appropriation is provided solely for implementation of House Bill No. 1946 (behav. health scholarship). If the bill is not enacted by June 30, 2024, the amount provided in this subsection shall lapse.

(18) \$100,000 of the workforce education investment account—state appropriation is provided solely for implementation of Engrossed Substitute House Bill No. 2441 (college in the HS fees). If the bill is not enacted by June 30, 2024, the amount provided in this subsection shall lapse.

(19) \$1,200,000 of the workforce education investment account—state appropriation is provided solely for implementation of Engrossed Substitute House Bill No. 2019 (Native American apprentices). If the bill is not enacted by June 30, 2024, the amount provided in this subsection shall lapse.

(20) \$1,500,000 of the workforce education investment account—state appropriation is provided solely for implementation of Senate Bill No. 5904 (financial aid terms). If the bill is not enacted by June 30, 2024, the amount provided in this subsection shall lapse.

**PART VII  
SPECIAL APPROPRIATIONS**

**Sec. 701.** 2023 c 475 s 701 (uncodified) is amended to read as follows:

**FOR THE OFFICE OF FINANCIAL MANAGEMENT—INFORMATION TECHNOLOGY INVESTMENT POOL**

General Fund—State Appropriation (FY 2024) . . . . .	\$26,470,000
General Fund—State Appropriation (FY 2025) . . . . .	(( <del>\$9,022,000</del> ))
	<u>\$12,356,000</u>
Other Appropriated Funds . . . . .	(( <del>\$6,559,000</del> ))
	<u>\$18,198,000</u>
<b>TOTAL APPROPRIATION</b> .....	<b>((<del>\$42,051,000</del>))</b>
	<b><u>\$57,024,000</u></b>

The appropriations in this section are subject to the following conditions and limitations:

(1) The appropriations are provided solely for expenditure into the information technology investment revolving account created in RCW 43.41.433. Amounts in the account are provided solely for the information technology projects shown in LEAP omnibus documents IT-2023, dated April 22, 2023, and IT-2024, dated March 4, 2024, which ~~((is))~~ are hereby incorporated by reference. To facilitate the transfer of moneys from other funds and accounts that are associated with projects contained in LEAP omnibus documents IT-2023, dated April 22, 2023, and IT-2024, dated March 4, 2024, the state treasurer is directed to transfer moneys from other funds and accounts to the information technology investment revolving account in accordance with schedules provided by the office of financial management. Restricted federal funds may be transferred only to the extent permitted by law, and will otherwise remain outside the information technology investment account. The projects affected remain subject to the other provisions of this section.

(2) Agencies must apply to the office of the chief information officer for certification and release of funding for each gate of the project. When the office of the chief information officer certifies the key deliverables of the gate have been met, a current technology budget is approved; and if applicable to the stage or gate of the project, that the project is putting functioning software into production that addresses user needs, is in compliance with the quality assurance plan, and meets a defined set of industry best practices for code quality that the office of the chief information officer will post to their website by July 1, 2023, it must notify the office of financial management and the fiscal committees of the legislature. The office of financial management may not approve funding for the certified project gate any earlier than ten business days from the date of notification to the fiscal committees of the legislature.

(3) (a) Allocations and allotments of information technology investment revolving account must be made for discrete stages of projects as determined by the technology budget approved by the office of the chief information officer and the office of financial management.

(b) Fifteen percent of total funding allocated by the office of financial management, or another amount as defined jointly by the office of financial management and the office of the chief information officer, will be retained in the account, but remain allocated to that project. The retained funding will be released to the agency only after successful completion of that stage of the project and only after the office of the chief information officer certifies the stage as required in subsection (2) of this section. For the one Washington project, the amount retained is increased to at least twenty percent of total funding allocated for any stage of that project. If there is no significant risk to the project, the holdback does not apply to the final gate during a biennial close.

(4) (a) Each project must have a technology budget. The technology budget must have the detail by fiscal month for the 2023-2025 fiscal biennium. The technology budget must use a method similar to the state capital budget, identifying project costs, each fund source, and anticipated deliverables through each stage of the entire project investment and across fiscal periods and biennia from project onset through implementation and close out, as well as at least five years of maintenance and operations costs.

(b) As part of the development of a technology budget and at each request for funding, the agency shall submit an updated technology budget, if changes occurred, to include detailed financial information to the office of financial management and the office of the chief information officer. The technology budget must describe the total cost of the project, as well as maintenance and operations costs, to include and identify at least:

(i) Fund sources:

(A) If the project is funded from the information technology revolving account, the technology budget must include a worksheet that provides the fund sources that were transferred into the account by fiscal year;

(B) If the project is by a central service agency, and funds are driven out by the central service model, the technology budget must provide a statewide impact by agency by fund as a worksheet in the technology budget file;

(ii) Full time equivalent staffing level to include job classification assumptions. This is to assure that the project has adequate state staffing and agency support to ensure success, ensure user acceptance, and adequately test the functionality being delivered in each sprint before it is accepted by the agency's contracting officer or their representative. Key project functions that are deemed "critical" must be retained by state personnel and not outsourced, to ensure that knowledge is retained within state government and that the state can self-sufficiently support the system and make improvements without long-term dependence on a vendor;

(iii) Discrete financial budget codes to include at least the appropriation index and program index;

(iv) Object and subobject codes of expenditures;

(v) Anticipated deliverables to include software demonstration dates;

(vi) Historical budget and expenditure detail by fiscal year; and

(vii) Maintenance and operations costs by fiscal year for at least five years as a separate worksheet.

(c) If a project technology budget changes and a revised technology budget is completed, a comparison of the revised technology budget to the last approved technology budget must be posted to the dashboard, to include a narrative rationale on what changed, why, and how that impacts the project in scope, budget, and schedule.

(5) (a) Each project must have a project charter. The charter must include:

(i) An organizational chart of the project management team that identifies team members and their roles and responsibilities, and shows that the project is adequately staffed by state personnel in key functions to ensure success;

(ii) The office of the chief information officer staff assigned to the project;

(iii) A project roadmap that includes the problems the team is solving and the sequence in which the team intends to take on those problems, updated periodically to reflect what has been learned;

(iv) Metrics to support the project strategy and vision, to determine that the project is incrementally meeting user needs;

(v) An implementation schedule covering activities, critical milestones, and deliverables at each stage of the project for the life of the project at each agency affected by the project;

(vi) Performance measures used to determine that the project is on time, within budget, and meeting expectations for quality of work product;

(vii) Ongoing maintenance and operations cost of the project post implementation and close out delineated by agency staffing, contracted staffing, and service level agreements; and

(viii) Financial budget coding to include at least discrete financial coding for the project.

(b) If required by the office of the chief information officer, a project may also need to have an investment plan. The office of the chief information officer must:

(i) Base the requirement of an agency needing to have an investment plan on the complexity and risk of the project;

(ii) Establish requirements by project risk level in statewide technology policy, and publish the requirements by September 30, 2023; and

(iii) In collaboration with the department of enterprise services, define the circumstances under which the vendor will be terminated or replaced and establish the process by which the agency will transition to a new vendor with a minimal reduction in project productivity.

(6)(a) Projects with estimated costs greater than \$100,000,000 from initiation to completion and implementation may be divided into discrete subprojects as determined by the office of the chief information officer, except for the one Washington project which must be divided into the following discrete subprojects: Core financials, expanding financials and procurement, budget, and human resources. Each subproject must have a technology budget as provided in this section.

(b) If the project affects more than one agency:

(i) A separate technology budget and investment plan must be prepared by each agency; and

(ii) There must be a budget roll up that includes each affected agency at the subproject level.

(7) The office of the chief information officer shall maintain a statewide information technology project dashboard that provides updated information each fiscal month on projects subject to this section. The statewide dashboard must meet the requirements in section 155 of this act.

(8) For any project that exceeds \$2,000,000 in total funds to complete, requires more than one biennium to complete, or is financed through financial contracts, bonds, or other indebtedness:

(a) Independent quality assurance services for the project must report independently to the office of the chief information officer;

(b) The office of the chief information officer, based on project risk assessments, may require additional quality assurance services and independent verification and validation services;

(c) The office of the chief information officer must review, and, if necessary, revise the proposed project to ensure it is flexible and adaptable to advances in technology;

(d) The technology budget must specifically identify the uses of any financing proceeds. No more than thirty percent of the financing proceeds may be used for payroll-related costs for state employees assigned to project management, installation, testing, or training;

(e) The agency must consult with the office of the state treasurer during the competitive procurement process to evaluate early in the process whether products and services to be solicited and the responsive bids from a solicitation may be financed;

(f) The agency must consult with the contracting division of the department of enterprise services for a review of all contracts and agreements related to the project's information technology procurements;

(g) The agency and project must use an agile development model holding live demonstrations of functioning software, developed using incremental user research, held at the end of every two-week sprint, except for:

(i) Hardware or infrastructure projects; and

(ii) Projects that have implemented all phases and are now in maintenance and operations;

(h) The project solution must be capable of being continually updated, as necessary; and

(i) The agency and project must deploy usable functionality into production for users within 180 days from the date of an executed procurement contract in response to a competitive request for proposal.

(9) The office of the chief information officer must evaluate the project at each stage and certify whether the project is putting functioning software into production that addresses user needs, is projected to be completed within budget, is in compliance with the quality assurance plan, and meets a defined set of industry best practices for code quality, and whether the project is planned, managed, and meeting deliverable targets as defined in the project's approved technology budget and investment plan.

(10) The office of the chief information officer may suspend or terminate a project at any time if it determines that the project is not meeting or not expected to meet anticipated performance and technology outcomes. Once suspension or termination occurs, the agency shall unallot any unused funding and shall not make any expenditure for the project without the approval of the office of financial management. The office of the chief information officer must report on December 1 each calendar year any suspension or termination of a project in the previous 12-month period to the legislative fiscal committees.

(11) The office of the chief information officer, in consultation with the office of financial management, may identify additional projects to be subject to this section, including projects that are not separately identified within an agency budget. The office of the chief information officer must report on December 1 each calendar year any additional projects to be subjected to this section that were identified in the previous 12-month period to the legislative fiscal committees.

(12) Any cost to administer or implement this section for projects listed in subsection (1) of this section, must be paid from the information technology investment revolving account. For any other information technology project made subject to the conditions, limitations, and review of this section, the cost to implement this section must be paid from the funds for that project.

(13) The following information technology projects are subject to the conditions, limitations, and review of this section:

(a) The state network firewall replacement of the consolidated technology services agency;

(b) The resident portal of the consolidated technology services agency; and

(c) The resident identity and access management modernization project of the consolidated technology services agency.

(1) If Initiative Measure No. 2117 is approved in the 2024 general election, on the effective date of Initiative Measure No. 2117 and prior to the repeal of the climate commitment account by Initiative Measure No. 2117, \$1,600,000,000 is appropriated from the climate commitment account for deposit into the consolidated climate account created in section 907 of this act. If the balance of the climate commitment account on the effective date of Initiative Measure No. 2117 is less than \$1,600,000,000, then the amount appropriated is the balance of the climate commitment account on the effective date of the initiative.  
(2) (a) This section takes effect on the effective date of Initiative Measure No. 2117 if the initiative is approved in the 2024 general election.  
(b) If Initiative Measure No. 2117 is not approved at the 2024 general election, this section is null and void.

NEW SECTION. **Sec. 730.** A new section is added to 2023 c 475 (uncodified) to read as follows:

**FOR THE OFFICE OF FINANCIAL MANAGEMENT—NATURAL CLIMATE SOLUTIONS ACCOUNT**  
(1) If Initiative Measure No. 2117 is approved in the 2024 general election, on the effective date of Initiative Measure No. 2117 and prior to the repeal of the natural climate solutions account by Initiative Measure No. 2117, \$600,000,000 is appropriated from the natural climate solutions account for deposit into the consolidated climate account created in section 907 of this act. If the balance of the natural climate solutions account on the effective date of Initiative Measure No. 2117 is less than \$600,000,000, then the amount appropriated is the balance of the natural climate solutions account on the effective date of the initiative.  
(2) (a) This section takes effect on the effective date of Initiative Measure No. 2117 if the initiative is approved in the 2024 general election.  
(b) If Initiative Measure No. 2117 is not approved at the 2024 general election, this section is null and void.

NEW SECTION. **Sec. 731.** A new section is added to 2023 c 475 (uncodified) to read as follows:

**FOR THE OFFICE OF FINANCIAL MANAGEMENT—AIR QUALITY AND HEALTH DISPARITIES IMPROVEMENT ACCOUNT**  
(1) If Initiative Measure No. 2117 is approved in the 2024 general election, on the effective date of Initiative Measure No. 2117 and prior to the repeal of the air quality and health disparities improvement account by Initiative Measure No. 2117, \$25,000,000 is appropriated from the air quality and health disparities improvement account for deposit into the consolidated climate account created in section 907 of this act. If the balance of the

air quality and health disparities improvement account on the effective date of Initiative Measure No. 2117 is less than \$25,000,000, then the amount appropriated is the balance of the air quality and health disparities improvement account on the effective date of the initiative.

(2) (a) This section takes effect on the effective date of Initiative Measure No. 2117 if the initiative is approved in the 2024 general election.

(b) If Initiative Measure No. 2117 is not approved at the 2024 general election, this section is null and void.

**PART IX  
MISCELLANEOUS**

NEW SECTION. Sec. 901. A new section is added to 2023 c 475 (uncodified) to read as follows:

**COLLECTIVE BARGAINING AGREEMENTS**

(1) In accordance with chapters 41.80 and 41.56 RCW, agreements have been reached between the governor and organizations representing state employee bargaining units and nonstate employee bargaining units for the 2025 fiscal year presented to the legislature during the 2024 legislative session. Funding is not provided for compensation and fringe benefit provisions not presented to the legislature by the end of the 2024 legislative session. Funding is approved for agreements and awards with the following organizations:

- (a) Fish and wildlife officers guild;
- (b) Teamsters local 760, department of fish and wildlife sergeants; and
- (c) Adult family home council, adult family home providers.

(2) In accordance with chapters 41.80 RCW, an agreement has been reached between Central Washington University, an institution of higher education, and an employee organization representing state employee bargaining units for fiscal year 2025 and funding is provided in Part VI of this act for the agreement with the following organization: Central Washington University agreement with the campus police officers & sergeants.

(3) Expenditures for agreements in subsections (1) and (2) of this section may also be funded from nonappropriated accounts. If positions are funded with lidded grants or dedicated fund sources with insufficient revenue, additional funding from other sources is not provided.

**Sec. 902.** 2023 c 475 s 908 (uncodified) is amended to read as follows:  
**COMPENSATION—REPRESENTED EMPLOYEES—HEALTH CARE COALITION—INSURANCE BENEFITS**

(1) (a) An agreement was reached for the 2023-2025 biennium between the governor and the health care coalition under the provisions of chapter 41.80 RCW. Appropriations in this act for state agencies, including institutions of higher education, are sufficient to implement the provisions of the 2023-2025 collective bargaining agreement, which maintains the provisions of the prior agreement.

(b) Appropriations for state agencies in this act are sufficient for represented employees outside the coalition and for nonrepresented state employee health benefits.

(2) The appropriations for state agencies in this act are subject to the following conditions and limitations:

(a) The monthly employer funding rate for insurance benefit premiums, public employees' benefits board administration, and the uniform medical plan, shall not exceed \$1,145 per eligible employee for fiscal year 2024. For fiscal year 2025, the monthly employer funding rate shall not exceed ~~((~~\$1,194~~))~~ \$1,170 per eligible employee. These rates are sufficient to separate vision benefits out of medical plans into stand-alone vision insurance and increase the hardware benefit to \$200 every two years, beginning January 1, 2025, and sufficient to cover in the uniform medical plan, effective July 1, 2023, coverage with no cost share for up to two over the counter COVID-19 tests for each member each month. The rates are sufficient to cover a diabetes management program and apply the cost-share provisions outlined in chapter 366, Laws of 2023 (breast examinations—health plan cost sharing) in the uniform medical plan, effective January 1, 2025. The rates are not sufficient to add coverage of prescription drugs for the treatment of obesity or weight loss. The authority shall not add coverage of prescription drugs for the treatment of obesity or weight loss without a specific appropriation from the legislature. Nothing in this section requires removal of any existing coverage of prescription drugs to treat diabetes.

(b) The board shall collect a \$25 per month surcharge payment from members who use tobacco products and a surcharge payment of not less than \$50 per month from members who cover a spouse or domestic partner where the spouse or domestic partner has chosen not to enroll in another employer-based group health insurance that has benefits and premiums with an actuarial value of not less than 95 percent of the actuarial value of the public employees' benefits board plan with the largest enrollment. The surcharge payments shall be collected in addition to the member premium payment.

(c) The health care authority, subject to the approval of the public employees' benefits board, shall provide subsidies for health benefit premiums to eligible retired or disabled public employees and school district employees who are eligible for medicare, pursuant to RCW 41.05.085. For calendar years 2024 and 2025, the subsidy shall be up to \$183 per month. Funds from reserves accumulated for future adverse claims experience, from past favorable claims experience, or otherwise, may not be used to increase this retiree subsidy beyond what is authorized in this subsection.

(d) School districts and educational service districts shall remit to the health care authority for deposit into the public employees' and retirees' insurance account established in RCW 41.05.120 the following amounts:

(i) For each full-time employee, \$68.41 per month beginning September 1, 2023, and ~~((~~\$78.58~~))~~ \$80.32 beginning September 1, 2024;

(ii) For each part-time employee, who at the time of the remittance is employed in an eligible position as defined in RCW 41.32.010 or 41.40.010 and is eligible for employer fringe benefit contributions for basic benefits, \$68.41 each month beginning September 1, 2023, and ~~((~~\$78.58~~))~~ \$80.32 beginning September 1, 2024, prorated by the proportion of employer fringe benefit contributions for a full-time employee that the part-time employee receives. The remittance requirements specified in this subsection do not apply to employees of a school district or educational service district who purchase insurance benefits through contracts with the health care authority.

(e) The board has the authority to forgo the federal retiree drug subsidy collected under RCW 41.05.068 for uniform medical plan classic medicare, only to leverage additional federal subsidies via adoption of a medicare part D employer group waiver plan to help reduce premiums for medicare retirees enrolled in uniform medical plan classic medicare.

**Sec. 903.** 2023 c 475 s 909 (uncodified) is amended to read as follows:

**COMPENSATION—SCHOOL EMPLOYEES—INSURANCE BENEFITS**

An agreement was reached for the 2023-2025 biennium between the governor and the school employee coalition under the provisions of chapters 41.56 and 41.59 RCW. Appropriations in this act for allocations to school districts are sufficient to implement the provisions of the 2023-2025 collective bargaining agreement, which maintains the provisions of the prior agreement, and are subject to the following conditions and limitations:

(1) The monthly employer funding rate for insurance benefit premiums, school employees' benefits board administration, retiree remittance, and the uniform medical plan, shall not exceed the rates identified in section 506(4) of this act.

(a) These rates are sufficient to cover, effective January 1, 2024:

(i) The following in the uniform medical plan:

(A) Offering a diabetes management program; and

(B) Effective July 1, 2023, coverage with no cost share for up to two over the counter COVID-19 tests for each member each month; and

(ii) The following in the uniform dental plan:

(A) Increasing the temporomandibular joint benefit to \$1,000 annually and \$5,000 per lifetime;

(B) Eliminating the deductible for children up to age 15;

(C) Covering composite fillings on posterior teeth; and

(D) Increasing plan coverage of crowns to 70 percent.

(b) These rates include funding to cover, effective January 1, 2025, ~~((increasing))~~:

(i) Increasing the stand-alone vision insurance ~~hardware~~ benefit to \$200 every 2 years;  
and

(ii) Applying the cost share provisions outlined in chapter 366, Laws of 2023 (Substitute Senate Bill No. 5396) in the uniform medical plan.

(c) The rates are not sufficient to add coverage of prescription drugs for the treatment of obesity or weight loss. The authority shall not add coverage of prescription drugs for the treatment of obesity or weight loss without a specific appropriation from the legislature. Nothing in this section requires removal of any existing coverage of prescription drugs to treat diabetes.

(2) Rates established in subsection (1) of this section are sufficient to reduce member costs as provided in article 1.3 of the school employees health care funding agreement.

(3) Except as provided by the parties' health care agreement, in order to achieve the level of funding provided for health benefits, the school employees' benefits board shall require any or all of the following: Employee premium copayments, increases in point-of-service cost sharing, the implementation of managed competition, or other changes to benefits consistent with RCW 41.05.740. The board shall collect a \$25 per month surcharge payment from members who use tobacco products and a surcharge payment of not less than \$50 per month from members who cover a spouse or domestic partner where the spouse or domestic partner has chosen not to enroll in another employer-based group health insurance that has benefits and premiums with an actuarial value of not less than 95 percent of the actuarial value of the public employees' benefits board plan with the largest enrollment. The surcharge payments shall be collected in addition to the member premium payment.

(4) The health care authority shall deposit any moneys received on behalf of the school employees' medical plan as a result of rebates on prescription drugs, audits of hospitals, subrogation payments, or any other moneys recovered as a result of prior uniform medical plan claims payments, into the school employees' and retirees' insurance account to be used for insurance benefits. Such receipts may not be used for administrative expenditures.

(5) When bargaining for funding for school employees health benefits for subsequent fiscal biennia, any proposal agreed upon must assume the imposition of a \$25 per month surcharge payment from members who use tobacco products and a surcharge payment of not less than \$50 per month from members who cover a spouse or domestic partner where the spouse or domestic partner has chosen not to enroll in another employer-based group health insurance that has benefits and premiums with an actuarial value of not less than 95 percent of the actuarial value of the public employees' benefits board plan with the largest enrollment. The surcharge payments shall be collected in addition to the member premium payment.

**Sec. 904.** 2023 c 475 s 911 (uncodified) is amended to read as follows:

**COMPENSATION—PENSION CONTRIBUTIONS**

The appropriations in this act for school districts and state agencies, including institutions of higher education, are subject to the following conditions and limitations:

(1) Appropriations are adjusted to reflect changes to agency appropriations to reflect pension contribution rates adopted by the pension funding council and the law enforcement officers' and firefighters' retirement system plan 2 board, and as adjusted under Engrossed Substitute Senate Bill No. 5294 (plan 1 UAAL rates).

(2) An increase of 0.12 percent is funded for state employer contributions to the public employees' retirement system, the public safety employees' retirement systems, and the school employees' retirement system, and an increase of 0.23 percent for employer contributions to the teachers' retirement system is funded for the provisions of Senate Bill No. 5350 (providing a benefit increase to certain retirees of the public employees' retirement system plan 1 and the teachers' retirement system plan 1). If the bill is not enacted by June 30, 2023, this subsection is null and void and appropriations for school districts and state agencies, including institutions of higher education, shall be held in unallotted status.

(3) An increase of 0.13 percent is funded for state employer contributions to the Washington state patrol retirement system and an increase of 0.01 percent is funded for state contributions to the law enforcement officers' and firefighters' retirement system plan 2 for the provisions of Substitute House Bill No. 1007 (military service credit). If the bill is not enacted by June 30, 2023, this subsection is null and void and appropriations for state agencies shall be held in unallotted status.

(4) An increase of 0.01 percent for school district and state employer contributions is funded for the teachers' retirement system for the provisions of Substitute House Bill No. 1056 (postretirement employment). If the bill is not enacted by June 30, 2023, this subsection is null and void and appropriations for state agencies shall be held in unallotted status.

(5) An increase of 0.13 percent is funded for state employer contributions to the public safety employees' retirement system for the provisions of chapter 199, Laws of 2023 (public safety telecommunications).

(6) An increase of 0.04 percent is funded for state employer contributions to the public safety employees' retirement system for the provisions of Substitute Senate Bill No. 6106 (DSHS workers/PSERS). If the bill is not enacted by June 30, 2024, this subsection is null and void and appropriations for state agencies shall be held in unallotted status.

(7) An increase of 0.08 percent is funded for state employer contributions to the public employees' retirement system, the public safety employees' retirement systems, and the school

employees' retirement system, and an increase of 0.16 percent for employer contributions to the teachers' retirement system is funded for the provisions of Substitute House Bill No. 1985 (PERS/TRS 1 benefit increase). If the bill is not enacted by June 30, 2024, this subsection is null and void and appropriations for school districts and state agencies, including institutions of higher education, shall be held in unallotted status.

**NEW SECTION. Sec. 905.** A new section is added to 2023 c 475 (uncodified) to read as follows:

(1) The office of financial management must convene a task force to identify, plan, and make recommendations on the conversion of the Larch corrections center property and facilities to an alternate use.

(2) The task force must include the state senator and a state representative whose district represents the Yacolt community.

(3) The task force must include representatives from the following entities and organizations:

(a) The Clark county commissioners;

(b) The tribe located nearest to the facility;

(c) The Clark county sheriff's office;

(d) A citizen residing near the Larch corrections center, chosen by the Clark county commissioners;

(e) The department of corrections;

(f) The department of ecology;

(g) The department of natural resources;

(h) The department of social and health services;

(i) The department of enterprise services; and

(j) The office of financial management.

(4) The task force must meet at least every other month, and the first meeting must be held by July 31, 2024.

(5) The task force shall report its findings and a prioritized list of recommendations to the governor and the fiscal committees of the legislature by June 30, 2025.

(6) Task force members that are not elected officials or a representative of a governmental entity may be reimbursed for travel expenses in accordance with chapter 43.03 RCW.

**NEW SECTION. Sec. 906.** A new section is added to 2023 c 475 (uncodified) to read as follows:

(1) The task force on the underground economy in the Washington state construction industry is established.

(2) For purposes of this section, "underground economy" means contracting and construction activities in which payroll is unreported or underreported with consequent nonpayment of payroll taxes to federal and state agencies including nonpayment of workers' compensation and unemployment compensation taxes.

(3) The task force shall study the nature and scope of the underground economy and recommend what policy changes, if any, are needed to address the underground economy, including whether greater cohesion and transparency among state agencies is needed. To assist the task force in achieving this goal, the department of labor and industries may contract with the institute for public policy, or, if the institute is unavailable, another entity with expertise capable of providing such assistance.

(4)(a) The task force shall consist of the following members:

(i) A member from each of the two largest caucuses of the senate appointed by the president of the senate;

(ii) A member from each of the two largest caucuses of the house of representatives appointed by the speaker of the house of representatives;

(iii) Four members representing the construction business, selected from nominations submitted by statewide construction business organizations and appointed jointly by the president of the senate and the speaker of the house of representatives;

(iv) Four members representing construction workers, selected from nominations submitted by statewide labor organizations and appointed jointly by the president of the senate and the speaker of the house of representatives; and

(v) One representative from the office of the attorney general.

(b) In addition, the employment security department, the department of labor and industries, and the department of revenue shall cooperate with the task force and shall each maintain a liaison representative, who will be a nonvoting member of the task force. The departments shall cooperate with the task force and the institute for public policy, or other entity as appropriate, and shall provide information and data as the task force or the institute, or other entity as appropriate, may reasonably request.

(c) The task force will choose the chair or cochairs of the task force from among its membership at the initial meeting. The department of labor and industries is responsible for scheduling the initial meeting of the task force.

(5)(a) Legislative members of the task force shall be reimbursed for travel expenses in accordance with RCW 44.04.120. Nonlegislative members, except those representing an employer or organization, are entitled to be reimbursed for travel expenses in accordance with RCW 43.03.050 and 43.03.060.

(b) The expenses of the task force will be paid by the department of labor and industries. Task force expenditures are subject to approval by the department of labor and industries.

(6) The task force shall report its findings and recommendations to the legislature by June 30, 2025.

**NEW SECTION. Sec. 907.** A new section is added to 2023 c 475 (uncodified) to read as follows:

(1) The consolidated climate account is created in the custody of the state treasurer. The account is subject to allotment procedures under chapter 43.88 RCW. Except as provided in subsection (2) of this section, the account is subject to appropriation. Expenditures from the account may be used only for purposes allowed in the following accounts as they exist on December 1, 2024: (a) The climate investment account; (b) the climate commitment account; (c) the natural climate solutions account; and (d) the air quality and health disparities improvement account.

(2) If Initiative Measure No. 2117 is approved in the 2024 general election, unless otherwise specified, appropriations in chapter 474, Laws of 2023 (2023-2025 biennial capital budget), the 2024 supplemental capital budget (SB 5949), chapter 475, Laws of 2023 (2023-2025 biennial operating budget), and the 2024 supplemental operating budget (SB 5950), which are appropriated from the: (a) Climate investment account; (b) climate commitment account; (c) natural climate solutions account; and (d) air quality and health disparities improvement account, shall be paid from the consolidated climate account as if they were appropriated from that account beginning on the effective date of Initiative Measure No. 2117.

(3) If Initiative Measure No. 2117 is not approved at the 2024 general election, this section is null and void.

**Sec. 908.** RCW 43.101.200 and 2023 c 475 s 931 and 2023 c 168 s 2 are each reenacted and amended to read as follows:

(1) Except as provided in subsection (2) of this section, all law enforcement personnel, except volunteers, and reserve officers whether paid or unpaid, initially employed on or after January 1, 1978, shall engage in basic law enforcement training which complies with standards adopted by the commission pursuant to RCW 43.101.080. For personnel initially employed before January 1, 1990, such training shall be successfully completed during the first fifteen months of employment of such personnel unless otherwise extended or waived by the commission and shall be requisite to the continuation of such employment. Personnel initially employed on or after January 1, 1990, shall commence basic training during the first six months of employment unless the basic training requirement is otherwise waived or extended by the commission. Successful completion of basic training is requisite to the continuation of employment of such personnel initially employed on or after January 1, 1990.

(2) (a) All law enforcement personnel who are limited authority Washington peace officers and whose employment commences on or after July 1, 2023, shall commence basic training during the first 12 months of employment unless the basic training requirement is otherwise waived or extended by the commission. Successful completion of basic training is requisite to the continuation of employment of such personnel initially employed on or after July 1, 2023.

(b) (i) The commission shall review the training files of all law enforcement personnel who are limited authority Washington peace officers, whose employment commenced prior to July 1, 2023, and who have not successfully completed training that complies with standards adopted by the commission, to determine what, if any, supplemental training is required to appropriately carry out the officers' duties and responsibilities.

(ii) Nothing in this section may be interpreted to require law enforcement personnel who are limited authority Washington peace officers, whose employment commenced prior to July 1, 2023, to complete the basic law enforcement training academy as a condition of continuing employment as a limited authority Washington peace officer.

(iii) Law enforcement personnel who are limited authority Washington peace officers are not required to complete the basic law enforcement academy or an equivalent basic academy upon transferring to a general authority Washington law enforcement agency or limited authority Washington law enforcement agency, as defined in RCW 10.93.020, if they have:

(A) Been employed as a special agent with the Washington state gambling commission, been a natural resource investigator with the department of natural resources, been a liquor enforcement officer with the liquor and cannabis board, been an investigator with the office of the insurance commissioner, or been a park ranger with the Washington state parks and recreation commission, before or after July 1, 2023; and

(B) Received a certificate of successful completion from the basic law enforcement academy or the basic law enforcement equivalency academy and thereafter engaged in regular and commissioned law enforcement employment with an agency listed in (b) (iii) (A) of this subsection without a break or interruption in excess of 24 months; and

(C) Remained current with the in-service training requirements as adopted by the commission by rule.

(3) Except as provided in RCW 43.101.170, the commission shall provide the aforementioned training and shall have the sole authority to do so. The commission shall provide necessary facilities, supplies, materials, and the board and room of noncommuting attendees for seven days per week, except during the 2017-2019, 2019-2021, and 2021-2023(~~(, and 2023-2025)~~) fiscal biennia, and during fiscal year 2024, when the employing, county, city, or state law enforcement agency shall reimburse the commission for twenty-five percent of the cost of training its personnel. Additionally, to the extent funds are provided for this purpose, the

commission shall reimburse to participating law enforcement agencies with ten or less full-time commissioned patrol officers the cost of temporary replacement of each officer who is enrolled in basic law enforcement training: PROVIDED, That such reimbursement shall include only the actual cost of temporary replacement not to exceed the total amount of salary and benefits received by the replaced officer during his or her training period:

PROVIDED FURTHER, That limited authority Washington law enforcement agencies as defined in RCW 10.93.020 shall reimburse the commission for the full cost of training their personnel.

**Sec. 909.** RCW 43.101.220 and 2021 c 334 s 978 are each amended to read as follows:

(1) The corrections personnel of the state and all counties and municipal corporations initially employed on or after January 1, 1982, shall engage in basic corrections training which complies with standards adopted by the commission. The standards adopted must provide for basic corrections training of at least ten weeks in length for any corrections officers subject to the certification requirement under RCW (~~(43.101.096)~~)43.101.095 who are hired on or after July 1, 2021, or on an earlier date set by the commission. The training shall be successfully completed during the first six months of employment of the personnel, unless otherwise extended or waived by the commission, and shall be requisite to the continuation of employment.

(2) The commission shall provide the training required in this section, together with facilities, supplies, materials, and the room and board for noncommuting attendees, except during the (~~(2017-2019, 2019-2021, and)~~) 2021-2023 fiscal (~~(biennia)~~)biennium, and during fiscal year 2025, when the employing county, municipal corporation, or state agency shall reimburse the commission for twenty-five percent of the cost of training its personnel.

(3)(a) Subsections (1) and (2) of this section do not apply to the Washington state department of corrections prisons division. The Washington state department of corrections is responsible for identifying training standards, designing curricula and programs, and providing the training for those corrections personnel employed by it. In doing so, the secretary of the department of corrections shall consult with staff development experts and correctional professionals both inside and outside of the agency, to include soliciting input from labor organizations.

(b) The commission and the department of corrections share the responsibility of developing and defining training standards and providing training for community corrections officers employed within the community corrections division of the department of corrections.

**Sec. 910.** RCW 43.101.230 and 2023 c 72 s 1 are each amended to read as follows:

Tribal police officers and employees who are engaged in law enforcement activities and who do not qualify as "criminal justice personnel" or "law enforcement personnel" under RCW 43.101.010 shall be provided training under this chapter if: (1) The tribe is recognized by the federal government, and (2) except during fiscal year 2025, tribal agencies with tribal officer certification agreements with the commission under RCW 43.101.157 shall reimburse the commission for 25 percent of the cost of training its personnel. Tribes without current written tribal officer certification agreements with the commission shall pay to the commission the full cost of providing such training. The commission shall place all money received under this section into the criminal justice training account.

**Sec. 911.** RCW 70A.65.250 and 2023 c 475 s 938 and 2023 c 435 s 12 are each reenacted and amended to read as follows:

(1)(a) The climate investment account is created in the state treasury. Except as otherwise provided in chapter 316, Laws of 2021, all receipts from the auction of allowances authorized in this chapter must be deposited into the account. Moneys in the account may be spent only after appropriation.

(b) Projects or activities funded from the account must meet high labor standards, including family sustaining wages, providing benefits including health care and employer-contributed retirement plans, career development opportunities, and maximize access to economic benefits from such projects for local workers and diverse businesses. Each contracting entity's proposal must be reviewed for equity and opportunity improvement efforts, including: (i) Employer paid sick leave programs; (ii) pay practices in relation to living wage indicators such as the federal poverty level; (iii) efforts to evaluate pay equity based on gender identity, race, and other protected status under Washington law; (iv) facilitating career development opportunities, such as apprenticeship programs, internships, job-shadowing, and on-the-job training; and (v) employment assistance and employment barriers for justice affected individuals.

(2) Moneys in the account may be used only for projects and programs that achieve the purposes of the greenhouse gas emissions cap and invest program established under this chapter and for tribal capacity grants under RCW 70A.65.305. During the 2023-2025 fiscal biennium, moneys in the account may also be used for tribal capacity grant activities supporting climate resilience and adaptation, developing tribal clean energy projects, applying for state or federal grant funding, and other related work; and for providing payments to agricultural fuel purchasers. Moneys in the account as described in this subsection must first be appropriated for the administration of the requirements of this chapter, in an amount not to exceed five percent of the total receipt of funds from allowance auction proceeds under this chapter. Beginning July 1, 2023, and annually thereafter, the

state treasurer shall distribute funds in the account that exceed the amounts appropriated for the purposes of this subsection (2) as follows:

(a) Seventy-five percent of the moneys to the climate commitment account created in RCW 70A.65.260; and

(b) Twenty-five percent of the moneys to the natural climate solutions account created in RCW 70A.65.270.

(3) The allocations specified in subsection (2)(a) and (b) of this section must be reviewed by the legislature on a biennial basis based on the changing needs of the state in meeting its clean economy and greenhouse gas reduction goals in a timely, economically advantageous, and equitable manner.

(4) During the 2023-2025 fiscal biennium, the legislature may direct the state treasurer to make transfers of moneys in the climate investment account to the carbon emissions reduction account, the climate commitment account, and the natural climate solutions account.

**Sec. 912.** RCW 70A.65.300 and 2021 c 316 s 46 are each amended to read as follows:

(1) The department shall prepare, post on the department website, and submit to the appropriate committees of the legislature an annual report that identifies all distributions of moneys from the accounts created in RCW 70A.65.240 through 70A.65.280.

(2) The report must identify, at a minimum, the recipient of the funding, the amount of the funding, the purpose of the funding, the actual end result or use of the funding, whether the project that received the funding produced any verifiable reduction in greenhouse gas emissions or other long-term impact to emissions, and if so, the quantity of reduced greenhouse gas emissions, the cost per carbon dioxide equivalent metric ton of reduced greenhouse gas emissions, and a comparison to other greenhouse gas emissions reduction projects in order to facilitate the development of cost-benefit ratios for greenhouse gas emissions reduction projects.

(3) The department shall require by rule that recipients of funds from the accounts created in RCW 70A.65.240 through 70A.65.280 report to the department, in a form and manner prescribed by the department, the information required for the department to carry out the department's duties established in this section.

(4) The department shall update its website with the information described in subsection (2) of this section as appropriate but no less frequently than once per calendar year.

(5) The department shall submit its report to the appropriate committees of the legislature with the information described in subsection (2) of this section no later than September 30 of each year. For fiscal year 2025, the report must be submitted no later than November 30, 2024.

**NEW SECTION. Sec. 913.** If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected.

**NEW SECTION. Sec. 914.** This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect immediately."

**THIRD READING****MESSAGE FROM THE SENATE**

Wednesday, March 6, 2024

Mme. Speaker:

The Senate receded from its amendment(s) to SUBSTITUTE HOUSE BILL NO. 2357, and under suspension of the rules returned SUBSTITUTE HOUSE BILL NO. 2357 to second reading for purpose of amendment(s). The Senate further adopted amendment 2357-S AMS LIIA S5705.1 and passed the measure as amended.

Strike everything after the enacting clause and insert the following:

**"NEW SECTION. Sec. 1.** The legislature finds that the Washington state patrol has made strides in its efforts to recruit new troopers and address the unprecedented levels of vacancies within its ranks. The legislature has supported those efforts by providing sign-on bonuses for cadets and lateral hires, retention bonuses for new troopers and lateral hires, and requiring parity of trooper salaries relative to other law enforcement agencies in the state of Washington. The legislature further finds that trooper and sergeant vacancies diminish the staff available to advance up through the ranks of commissioned staff to build the leadership team for the organization. The legislature further finds that increases in retirement-eligible staff, with 122

commissioned staff expected to have 25 years of service or more in 2024, means that more needs to be done in the near term to ensure the success of efforts to rebuild the commissioned ranks of the state patrol. Therefore, the legislature intends to strengthen the Washington state patrol's ability to retain senior, experienced commissioned staff with the establishment of a state patrol longevity bonus pilot program.

**NEW SECTION. Sec. 2.** A new section is added to chapter 43.43 RCW to read as follows:

(1) Beginning July 1, 2024, an eligible commissioned employee completing 26 or more years of service shall qualify for an annual state trooper longevity bonus of \$15,000 on the employee's anniversary date of state employment, which shall be paid in four equal quarterly payments.

(2) The establishment of the state trooper longevity bonus is subject to a change to the applicable collective bargaining agreements negotiated with the exclusive bargaining representatives.

(3) This section does not interfere with, impede, or in any way diminish the right of the officers of the Washington state patrol to bargain collectively with the state through the exclusive bargaining representatives as provided for in RCW 41.56.473.

(4) The state patrol longevity bonus created in this section is a time-limited incentive targeted at retaining senior personnel and is not intended to be included in salary or average final salary for calculation of pension benefits in this chapter.

(5) The benefits provided pursuant to this act are not provided to employees as a matter of contractual right. The legislature retains the right to alter or abolish these benefits at any time.

(6) Beginning July 15, 2024, and every three months thereafter, the Washington state patrol must submit a report showing the average filled positions in field force trooper positions in comparison to the 683 total authorized field force trooper positions in the prior fiscal quarter. The quarterly reports detailed must be submitted to the office of financial management and the transportation committees of the legislature. The authorized field force trooper level as the basis for this comparison may be adjusted as specified in the omnibus transportation appropriations act.

(7) For the purposes of this section, "eligible commissioned employee" means a Washington state patrol employee with 26 or more years of service in the Washington state patrol retirement system.

(8) This section expires June 30, 2029.

**Sec. 3.** RCW 43.43.120 and 2021 c 12 s 8 are each amended to read as follows:

As used in this section and RCW 43.43.130 through 43.43.320, unless a different meaning is plainly required by the context:

(1) "Actuarial equivalent" shall mean a benefit of equal value when computed upon

the basis of such mortality table as may be adopted and such interest rate as may be determined by the director.

(2) "Annual increase" means as of July 1, 1999, ~~((seventy-seven))~~77 cents per month per year of service which amount shall be increased each subsequent July 1st by three percent, rounded to the nearest cent.

(3)(a) "Average final salary," for members commissioned prior to January 1, 2003, shall mean the average monthly salary received by a member during the member's last two years of service or any consecutive two-year period of service, whichever is the greater, as an employee of the Washington state patrol; or if the member has less than two years of service, then the average monthly salary received by the member during the member's total years of service.

(b) "Average final salary," for members commissioned on or after January 1, 2003, shall mean the average monthly salary received by a member for the highest consecutive ~~((sixty))~~60 service credit months; or if the member has less than ~~((sixty))~~60 months of service, then the average monthly salary received by the member during the member's total months of service.

(c) In calculating average final salary under (a) or (b) of this subsection, the department of retirement systems shall include:

(i) Any compensation forgone by the member during the 2009-2011 fiscal biennium as a result of reduced work hours, mandatory or voluntary leave without pay, temporary reduction in pay implemented prior to December 11, 2010, or temporary layoffs if the reduced compensation is an integral part of the employer's expenditure reduction efforts, as certified by the chief;

(ii) Any compensation forgone by a member during the 2011-2013 fiscal biennium as a result of reduced work hours, mandatory leave without pay, temporary layoffs, or reductions to current pay if the reduced compensation is an integral part of the employer's expenditure reduction efforts, as certified by the chief. Reductions to current pay shall not include elimination of previously agreed upon future salary reductions; and

(iii) Any compensation forgone by a member during the 2019-2021 and 2021-2023 fiscal biennia as a result of reduced work hours, mandatory leave without pay, temporary layoffs, furloughs, reductions to current pay, or other similar measures resulting from the COVID-19 budgetary crisis, if the reduced compensation is an integral part of the employer's expenditure reduction efforts, as certified by the chief. Reductions to current pay shall not include elimination of previously agreed upon future salary increases.

(4) "Beneficiary" means any person in receipt of retirement allowance or any other benefit allowed by this chapter.

(5)(a) "Cadet," for a person who became a member of the retirement system after June 12, 1980, is a person who has passed the Washington state patrol's entry-level oral, written, physical performance, and background examinations and is, thereby, appointed by the chief as a candidate to be

a commissioned officer of the Washington state patrol.

(b) "Cadet," for a person who became a member of the retirement system before June 12, 1980, is a trooper cadet, patrol cadet, or employee of like classification, employed for the express purpose of receiving the on-the-job training required for attendance at the state patrol academy and for becoming a commissioned trooper. "Like classification" includes: Radio operators or dispatchers; persons providing security for the governor or legislature; patrol officers; drivers' license examiners; weighmasters; vehicle safety inspectors; central wireless operators; and warehouse workers.

(6) "Contributions" means the deduction from the compensation of each member in accordance with the contribution rates established under chapter 41.45 RCW.

(7) "Current service" shall mean all service as a member rendered on or after August 1, 1947.

(8) "Department" means the department of retirement systems created in chapter 41.50 RCW.

(9) "Director" means the director of the department of retirement systems.

(10) "Domestic partners" means two adults who have registered as domestic partners under RCW 26.60.040.

(11) "Employee" means any commissioned employee of the Washington state patrol.

(12) "Insurance commissioner" means the insurance commissioner of the state of Washington.

(13) "Lieutenant governor" means the lieutenant governor of the state of Washington.

(14) "Member" means any person included in the membership of the retirement fund.

(15) "Plan 2" means the Washington state patrol retirement system plan 2, providing the benefits and funding provisions covering commissioned employees who first become members of the system on or after January 1, 2003.

(16) "Prior service" shall mean all services rendered by a member to the state of Washington, or any of its political subdivisions prior to August 1, 1947, unless such service has been credited in another public retirement or pension system operating in the state of Washington.

(17) "Regular interest" means interest compounded annually at such rates as may be determined by the director.

(18) "Retirement board" means the board provided for in this chapter.

(19) "Retirement fund" means the Washington state patrol retirement fund.

(20) "Retirement system" means the Washington state patrol retirement system.

(21)(a) "Salary," for members commissioned prior to July 1, 2001, shall exclude any overtime earnings related to RCW 47.46.040, or any voluntary overtime, earned on or after July 1, 2001, and prior to July 1, 2017. On or after July 1, 2017, salary shall exclude overtime earnings in excess of ~~((seventy))~~70 hours per year in total related to either RCW 47.46.040 or any voluntary overtime. On or after the effective date of this section, salary shall exclude earnings from the longevity bonus created in section 2 of this act.

(b) "Salary," for members commissioned from July 1, 2001, to December 31, 2002, shall exclude any overtime earnings related to RCW 47.46.040 or any voluntary overtime, earned prior to July 1, 2017, lump sum payments for deferred annual sick leave, or any form of severance pay. On or after July 1, 2017, salary shall exclude overtime earnings in excess of ~~((seventy))~~ 70 hours per year in total related to either RCW 47.46.040 or any voluntary overtime. On or after the effective date of this section, salary shall exclude earnings from the longevity bonus created in section 2 of this act.

(c) "Salary," for members commissioned on or after January 1, 2003, shall exclude any overtime earnings related to RCW 47.46.040 or any voluntary overtime, earned prior to July 1, 2017, lump sum payments for deferred annual sick leave, unused accumulated vacation, unused accumulated annual leave, holiday pay, or any form of severance pay. On or after July 1, 2017, salary shall exclude overtime earnings in excess of ~~((seventy))~~ 70 hours per year in total related to either RCW 47.46.040 or any voluntary overtime. On or after the effective date of this section, salary shall exclude earnings from the longevity bonus created in section 2 of this act.

(d) The addition of overtime earnings related to RCW 47.46.040 or any voluntary overtime earned on or after July 1, 2017, in chapter 181, Laws of 2017 is a benefit improvement that increases the member maximum contribution rate under RCW 41.45.0631(1) by 1.10 percent.

(22)(a) "Service" shall mean services rendered to the state of Washington or any political subdivisions thereof for which compensation has been paid. Full time employment for ~~((seventy))~~ 70 or more hours in any given calendar month shall constitute one month of service. An employee who is reinstated in accordance with RCW 43.43.110 shall suffer no loss of service for the period reinstated subject to the contribution requirements of this chapter. Only months of service shall be counted in the computation of any retirement allowance or other benefit provided for herein. Years of service shall be determined by dividing the total number of months of service by ~~((twelve))~~ 12. Any fraction of a year of service as so determined shall be taken into account in the computation of such retirement allowance or benefit.

(b) Reduction efforts such as furloughs, reduced work hours, mandatory leave without pay, temporary layoffs, or other similar situations as contemplated by subsection (3)(c)(iii) of this section do not result in a reduction in service credit that otherwise would have been earned for that month of work, and the member shall receive the full service credit for the hours that were scheduled to be worked before the reduction.

(23) "State actuary" or "actuary" means the person appointed pursuant to RCW 44.44.010(2).

(24) "State treasurer" means the treasurer of the state of Washington.

Unless the context expressly indicates otherwise, words importing the masculine gender shall be extended to include the

feminine gender and words importing the feminine gender shall be extended to include the masculine gender.

NEW SECTION. Sec. 4. (1) By November 1, 2028, the joint legislative audit and review committee must conduct a performance review of the state patrol longevity bonus pilot program. The performance review must evaluate, at minimum:

(a) The program's impact on retention of senior commissioned staff of the state patrol;

(b) The change in vacancies in each of the commissioned staff categories over time;

(c) An evaluation of optimal commissioned staffing levels at the state patrol, including a comparison to other states' field force staffing levels;

(d) A description of other factors that may be impacting retention and vacancy rates; and

(e) Recommendations for addressing state patrol staffing levels, which must include whether to continue the state patrol longevity bonus program.

(2) This section expires June 30, 2029.

NEW SECTION. Sec. 5. Section 3 of this act expires June 30, 2029."

On page 1, line 2 of the title, after "bonus;" strike the remainder of the title and insert "amending RCW 43.43.120; adding a new section to chapter 43.43 RCW; creating new sections; and providing expiration dates."

and the same is herewith transmitted.

SUBSTITUTE HOUSE BILL NO. 2357, as amended by the Senate, having received the necessary constitutional majority, was declared passed.

**MESSAGE FROM THE SENATE**

Thursday, February 29, 2024

Mme. Speaker:

The Senate has passed SECOND SUBSTITUTE HOUSE BILL NO. 2320, with the following amendment(s): 2320-S2 AMS ENGR S5137.E

Strike everything after the enacting clause and insert the following:

**"NEW SECTION. Sec. 1.** The legislature finds that there is a growing body of research evidencing that consuming cannabis with high concentrations of THC may be harmful to some people, including younger persons and persons who have or are at risk for developing certain mental health conditions or psychotic disorders. Products like THC-infused vape oils, shatter, and dabs can contain close to 100 percent THC, and may carry risks not commonly associated with consumption of useable cannabis flower or other cannabis products with relatively lower THC concentrations. In the interest of public health, the legislature intends to review studies and consider increasing the minimum legal age of sale of high THC cannabis products to age 25, and the legislature intends to require caution notices, developed by the department of health, to be posted at the point of sale in cannabis retail outlets to raise awareness about possible health impacts and risks associated with high THC cannabis. The legislature further intends to implement and study health interventions, gather data, and ensure that new research, data, and information concerning the impacts of high THC cannabis continues to be incorporated into state policy.

**NEW SECTION. Sec. 2.** The legislature intends to provide the department of health with recurring funding available each fiscal year, beginning in fiscal year 2025, to allow the department of health to issue requests for proposals and contract for targeted public health messages and social marketing campaigns directed toward individuals most likely to suffer negative impacts of high THC products including persons under 25 years of age and persons living with mental health challenges. Messages and media campaigns funded must include information about risks, comparative dosing of cannabis products, and resources for persons seeking support for quitting or decreasing their intake of tetrahydrocannabinol. The content of public health messages and social marketing campaigns must be developed in partnership with persons targeted by the messages and campaigns and in consultation with

professionals proficient in public health communication and in cannabis research.

**NEW SECTION. Sec. 3.** By July 1, 2025, the department of health must develop an optional training that cannabis retail staff may complete to better understand the health and safety impacts of high THC cannabis products. In developing the optional training, the department of health must consult with cannabis retail staff, cannabis consumers, persons who have been harmed by high THC products, health care providers, prevention professionals, researchers with relevant expertise, behavioral health providers, and representatives of licensed cannabis businesses.

**Sec. 4.** RCW 69.50.357 and 2022 c 16 s 71 are each amended to read as follows:

(1)(a) Retail outlets may not sell products or services other than cannabis concentrates, useable cannabis, cannabis-infused products, or paraphernalia intended for the storage or use of cannabis concentrates, useable cannabis, or cannabis-infused products.

(b)(i) Retail outlets may receive lockable boxes, intended for the secure storage of cannabis products and paraphernalia, and related literature as a donation from another person or entity, that is not a cannabis producer, processor, or retailer, for donation to their customers.

(ii) Retail outlets may donate the lockable boxes and provide the related literature to any person eligible to purchase cannabis products under subsection (2) of this section. Retail outlets may not use the donation of lockable boxes or literature as an incentive or as a condition of a recipient's purchase of a cannabis product or paraphernalia.

(iii) Retail outlets may also purchase and sell lockable boxes, provided that the sales price is not less than the cost of acquisition.

(2) Licensed cannabis retailers may not employ persons under twenty-one years of age or allow persons under twenty-one years of age to enter or remain on the premises of a retail outlet. However, qualifying patients between eighteen and twenty-one years of age with a recognition card may enter and remain on the premises of a retail outlet holding a medical cannabis endorsement and may purchase products for their personal medical use. Qualifying patients who are under the age of eighteen with a recognition card and who accompany their designated providers may enter and remain on the premises of a retail outlet holding a medical cannabis endorsement, but may not purchase products for their personal medical use.

(3)(a) Licensed cannabis retailers must ensure that all employees are trained on the rules adopted to implement this chapter, identification of persons under the age of twenty-one, and other requirements adopted by the board to ensure that persons under the age of twenty-one are not permitted to enter or remain on the premises of a retail outlet.

(b) Licensed cannabis retailers with a medical cannabis endorsement must ensure

that all employees are trained on the subjects required by (a) of this subsection as well as identification of authorizations and recognition cards. Employees must also be trained to permit qualifying patients who hold recognition cards and are between the ages of eighteen and twenty-one to enter the premises and purchase cannabis for their personal medical use and to permit qualifying patients who are under the age of eighteen with a recognition card to enter the premises if accompanied by their designated providers.

(4) Except for the purposes of disposal as authorized by the board, no licensed cannabis retailer or employee of a retail outlet may open or consume, or allow to be opened or consumed, any cannabis concentrates, useable cannabis, or cannabis-infused product on the outlet premises.

(5)(a) By December 31, 2024, licensed cannabis retailers shall post a conspicuous notice at the point of sale in retail outlets with information about: (i) The potential health risks and adverse health impacts that may be associated with the consumption of high THC cannabis; (ii) the potentially much higher risks that may be present for younger persons under age 25 as well as for persons who have or are at risk for developing certain mental health conditions or psychotic disorders; and (iii) where to find help in case of negative effects and resources for quitting or reducing cannabis consumption. The notice must be the same or substantially the same as the notice developed by the department of health under this subsection (5).

(b) The department of health shall develop the notice required under this section and make it available to licensed cannabis retailers. The notice must, at a minimum, identify the information specified in (a)(i) through (iii) of this subsection, and may include additional information.

(6) The board must fine a licensee one thousand dollars for each violation of any subsection of this section. Fines collected under this section must be deposited into the dedicated cannabis account created under RCW 69.50.530.

**NEW SECTION. Sec. 5.** A new section is added to chapter 28B.20 RCW to read as follows:

(1) Subject to amounts appropriated for this specific purpose, the University of Washington addictions, drug, and alcohol institute must develop, implement, test, and evaluate guidance and health interventions for health care providers and patients at risk for developing serious complications due to cannabis consumption who are seeking care in emergency departments, primary care settings, behavioral health settings, other health care facilities, and for use by state poison control and recovery hotlines to promote cannabis use reduction and cessation for the following populations:

(a) Youth and adults at high risk of adverse mental health impacts from use of high THC cannabis;

(b) Youth and adults who have experienced a cannabis-induced first episode psychosis

but do not have a diagnosis of a psychotic disorder; and

(c) Youth and adults who have a diagnosed psychotic disorder and use cannabis.

(2) The University of Washington addictions, drug, and alcohol institute must submit a preliminary report to the appropriate committees of the legislature summarizing the progress toward developing and testing health interventions and recruiting patients and health care facilities to participate by December 1, 2025. The institute must provide a progress report on initial outcomes of the health interventions for participating patients and health care facilities by July 1, 2027. The institute must submit a final report to the appropriate committees of the legislature summarizing the results of the interventions and any recommendations for implementation of health interventions by December 1, 2028.

(3) The work by the University of Washington addictions, drug, and alcohol institute must include, in the scope of work, data gathering on adverse health impacts occurring in Washington associated with consumption of high THC cannabis, and data gathered must be included in the reports submitted to the legislature under this section.

(4) This section expires December 31, 2028.

**NEW SECTION. Sec. 6.** (1) Beginning December 1, 2024, the liquor and cannabis board must collect data on the following information on cannabis products sold within Washington state:

(a) The amount of products being sold in the following categories: Usable cannabis, cannabis concentrates, and cannabis-infused products;

(b) The average THC concentration in usable cannabis and cannabis concentrates, and the average milligrams of THC per unit in cannabis-infused products; and

(c) The range of THC concentration in usable cannabis and cannabis concentrates.

(2) By November 14, 2025, the liquor and cannabis board must submit a report to the relevant committees of the legislature on the information collected under subsection (1) of this section.

(3) For the purposes of this section, "product" has the meaning provided in RCW 69.50.535.

(4) This section expires December 31, 2026.

**NEW SECTION. Sec. 7.** If specific funding for the purposes of this act, referencing this act by bill or chapter number, is not provided by June 30, 2024, in the omnibus appropriations act, this act is null and void."

On page 1, line 4 of the title, after "psychosis;" strike the remainder of the title and insert "amending RCW 69.50.357; adding a new section to chapter 28B.20 RCW; creating new sections; and providing expiration dates."

and the same is herewith transmitted.

**CONFERENCE COMMITTEE REPORT**

March 6th, 2024

Senate Bill 5180

Includes "New Item": YES

Madame Speaker:

We of your Conference Committee, to whom was referred SB 5180, adopting the interstate teacher mobility compact, have had the same under consideration and we recommend that:

All previous amendments not be adopted and that the attached striking amendment H-3510.1 be adopted

Strike everything after the enacting clause and insert the following:

**"ARTICLE I  
PURPOSE**

NEW SECTION. **Sec. 1.** The purpose of this compact is to facilitate the mobility of teachers across the member states, with the goal of supporting teachers through a new pathway to licensure. Through this compact, the member states seek to establish a collective regulatory framework that

expedites and enhances the ability of teachers to move across state lines. This compact is intended to achieve the following objectives and should be interpreted accordingly. The member states hereby ratify the same intentions by subscribing hereto:

(1) Create a streamlined pathway to licensure mobility for teachers;

(2) Support the relocation of eligible military spouses;

(3) Facilitate and enhance the exchange of licensure, investigative, and disciplinary information between the member states;

(4) Enhance the power of state and district level education officials to hire qualified, competent teachers by removing barriers to the employment of out-of-state teachers;

(5) Support the retention of teachers in the profession by removing barriers to relicensure in a new state; and

(6) Maintain state sovereignty in the regulation of the teaching profession.

**ARTICLE II  
DEFINITIONS**

NEW SECTION. **Sec. 2.** As used in this compact, and except as otherwise provided, the following definitions shall govern the terms herein:

(1) "Active military member" means any person with full-time duty status in the armed forces of the United States, including members of the national guard and reserve.

(2) "Adverse action" means any limitation or restriction imposed by a member state's licensing authority, such as revocation, suspension, reprimand, probation, or limitation on the licensee's ability to work as a teacher.

(3) "Bylaws" means those bylaws established by the commission.

(4) "Career and technical education license" means a current, valid authorization issued by a member state's licensing authority allowing an individual to serve as a teacher in prekindergarten through grade 12 public educational settings in a specific career and technical education area.

(5) "Charter member states" means a member state that has enacted legislation to adopt this compact where such legislation predates the initial meeting of the commission after the effective date of the compact.

(6) "Commission" means the interstate administrative body which membership consists of delegates of all states that have enacted this compact, and which is known as the interstate teacher mobility compact commission.

(7) "Commissioner" means the delegate of a member state.

(8) "Eligible license" means a license to engage in the teaching profession which requires at least a bachelor's degree and the completion of a state approved program for teacher licensure.

(9) "Eligible military spouse" means the spouse of any individual in full-time duty status in the active armed forces of the United States, including members of the

national guard and reserve on active duty moving as a result of a military mission or military career progression requirements or are on their terminal move as a result of separation or retirement (to include surviving spouses of deceased military members).

(10) "Executive committee" means a group of commissioners elected or appointed to act on behalf of, and within the powers granted to them by, the commission as provided for herein.

(11) "Licensing authority" means an official, agency, board, or other entity of a state that is responsible for the licensing and regulation of teachers authorized to teach in prekindergarten through grade 12 public educational settings.

(12) "Member state" means any state that has adopted this compact, including all agencies and officials of such a state.

(13) "Receiving state" means any state where a teacher has applied for licensure under this compact.

(14) "Rule" means any regulation promulgated by the commission under this compact, which shall have the force of law in each member state.

(15) "State" means a state, territory, or possession of the United States, and the District of Columbia.

(16) "State practice laws" means a member state's laws, rules, and regulations that govern the teaching profession, define the scope of such profession, and create the methods and grounds for imposing discipline.

(17) "State specific requirements" means a requirement for licensure covered in coursework or examination that includes content of unique interest to the state.

(18) "Teacher" means an individual who currently holds an authorization from a member state that forms the basis for employment in the prekindergarten through grade 12 public schools of the state to provide instruction in a specific subject area, grade level, or student population.

(19) "Unencumbered license" means a current, valid authorization issued by a member state's licensing authority allowing an individual to serve as a teacher in prekindergarten through grade 12 public educational settings. An unencumbered license is not a restricted, probationary, provisional, substitute, or temporary credential.

### **ARTICLE III LICENSURE UNDER THE COMPACT**

NEW SECTION. **Sec. 3.** (1) Licensure under this compact pertains only to the initial grant of a license by the receiving state. Nothing herein applies to any subsequent or ongoing compliance requirements that a receiving state might require for teachers.

(2) Each member state shall, in accordance with the rules of the commission, define, compile, and update as necessary, a list of eligible licenses and career and technical education licenses that the member state is willing to consider for equivalency under this compact and provide the list to

the commission. The list shall include those licenses that a receiving state is willing to grant to teachers from other member states, pending a determination of equivalency by the receiving state's licensing authority.

(3) Upon the receipt of an application for licensure by a teacher holding an unencumbered eligible license, the receiving state shall determine which of the receiving state's eligible licenses the teacher is qualified to hold and shall grant such a license or licenses to the applicant. Such a determination shall be made in the sole discretion of the receiving state's licensing authority and may include a determination that the applicant is not eligible for any of the receiving state's eligible licenses. For all teachers who hold an unencumbered license, the receiving state shall grant one or more unencumbered license(s) that, in the receiving state's sole discretion, are equivalent to the license(s) held by the teacher in any other member state.

(4) For active military members and eligible military spouses who hold a license that is not unencumbered, the receiving state shall grant an equivalent license or licenses that, in the receiving state's sole discretion, is equivalent to the license or licenses held by the teacher in any other member state, except where the receiving state does not have an equivalent license.

(5) For a teacher holding an unencumbered career and technical education license, the receiving state shall grant an unencumbered license equivalent to the career and technical education license held by the applying teacher and issued by another member state, as determined by the receiving state in its sole discretion, except where a career and technical education teacher does not hold a bachelor's degree and the receiving state requires a bachelor's degree for licenses to teach career and technical education. A receiving state may require career and technical education teachers to meet state industry recognized requirements, if required by law in the receiving state.

### **ARTICLE IV LICENSURE NOT UNDER THE COMPACT**

NEW SECTION. **Sec. 4.** (1) Except as provided in section 3 of this act, nothing in this compact shall be construed to limit or inhibit the power of a member state to regulate licensure or endorsements overseen by the member state's licensing authority.

(2) When a teacher is required to renew a license received pursuant to this compact, the state granting such a license may require the teacher to complete state specific requirements as a condition of licensure renewal or advancement in that state.

(3) For the purposes of determining compensation, a receiving state may require additional information from teachers receiving a license under the provisions of this compact.

(4) Nothing in this compact shall be construed to limit the power of a member state to control and maintain ownership of

its information pertaining to teachers, or limit the application of a member state's laws or regulations governing the ownership, use, or dissemination of information pertaining to teachers.

(5) Nothing in this compact shall be construed to invalidate or alter any existing agreement or other cooperative arrangement which a member state may already be a party to, or limit the ability of a member state to participate in any future agreement or other cooperative arrangement to:

(a) Award teaching licenses or other benefits based on additional professional credentials including, but not limited to, national board certification;

(b) Participate in the exchange of names of teachers whose license has been subject to an adverse action by a member state; or

(c) Participate in any agreement or cooperative arrangement with a nonmember state.

**ARTICLE V  
TEACHER QUALIFICATIONS AND REQUIREMENTS FOR  
LICENSURE  
UNDER THE COMPACT**

NEW SECTION. **Sec. 5.** (1) Except as provided for active military members or eligible military spouses in section 3(4) of this act, a teacher may only be eligible to receive a license under this compact where that teacher holds an unencumbered license in a member state.

(2) A teacher eligible to receive a license under this compact shall, unless otherwise provided for herein:

(a) Upon their application to receive a license under this compact, undergo a criminal background check in the receiving state in accordance with the laws and regulations of the receiving state;

(b) Comply with any applicable conditions of employment in the receiving state; and

(c) Provide the receiving state with information in addition to the information required for licensure for the purposes of determining compensation, if applicable.

**ARTICLE VI  
DISCIPLINE/ADVERSE ACTIONS**

NEW SECTION. **Sec. 6.** (1) Nothing in this compact shall be deemed or construed to limit the authority of a member state to investigate or impose disciplinary measures on teachers according to the state practice laws thereof.

(2) Member states shall be authorized to receive, and shall provide, files and information regarding the investigation and discipline, if any, of teachers in other member states upon request. Any member state receiving such information or files shall protect and maintain the security and confidentiality thereof, in at least the same manner that it maintains its own investigatory or disciplinary files and information. Prior to disclosing any disciplinary or investigatory information received from another member state, the disclosing state shall communicate its

intention and purpose for such disclosure to the member state which originally provided that information.

**ARTICLE VII  
ESTABLISHMENT OF THE INTERSTATE TEACHER  
MOBILITY  
COMPACT COMMISSION**

NEW SECTION. **Sec. 7.** (1) The interstate compact member states hereby create and establish a joint public agency known as the interstate teacher mobility compact commission:

(a) The commission is a joint interstate governmental agency comprised of states that have enacted the interstate teacher mobility compact.

(b) Nothing in this interstate compact shall be construed to be a waiver of sovereign immunity.

(2) Membership, voting, and meetings.

(a) Each member state shall have and be limited to one delegate to the commission, who shall be given the title of commissioner.

(b) The commissioner shall be the primary administrative officer of the state licensing authority or their designee.

(c) Any commissioner may be removed or suspended from office as provided by the law of the state from which the commissioner is appointed.

(d) The member state shall fill any vacancy occurring in the commission within 90 days.

(e) Each commissioner shall be entitled to one vote about the promulgation of rules and creation of bylaws and shall otherwise have an opportunity to participate in the business and affairs of the commission. A commissioner shall vote in person or by such other means as provided in the bylaws. The bylaws may provide for commissioners' participation in meetings by telephone or other means of communication.

(f) The commission shall meet at least once during each calendar year. Additional meetings shall be held as set forth in the bylaws.

(g) The commission shall establish by rule a term of office for commissioners.

(3) The commission shall have the following powers and duties:

(a) Establish a code of ethics for the commission;

(b) Establish the fiscal year of the commission;

(c) Establish bylaws for the commission;

(d) Maintain its financial records in accordance with the bylaws of the commission;

(e) Meet and take such actions as are consistent with the provisions of this interstate compact, the bylaws, and rules of the commission;

(f) Promulgate uniform rules to implement and administer this interstate compact. The rules shall have the force and effect of law and shall be binding in all member states. In the event the commission exercises its rule-making authority in a manner that is beyond the scope of the purposes of the compact, or the powers granted hereunder, then such an action by the commission shall

be invalid and have no force and effect of law;

(g) Bring and prosecute legal proceedings or actions in the name of the commission, provided that the standing of any member state licensing authority to sue or be sued under applicable law shall not be affected;

(h) Purchase and maintain insurance and bonds;

(i) Borrow, accept, or contract for services of personnel including, but not limited to, employees of a member state, or an associated nongovernmental organization that is open to membership by all states;

(j) Hire employees, elect or appoint officers, fix compensation, define duties, grant such individuals appropriate authority to carry out the purposes of the compact, and establish the commission's personnel policies and programs relating to conflicts of interest, qualifications of personnel, and other related personnel matters;

(k) Lease, purchase, accept appropriate gifts or donations of, or otherwise own, hold, improve, or use, any property, real, personal, or mixed, provided that at all times the commission shall avoid any appearance of impropriety;

(l) Sell, convey, mortgage, pledge, lease, exchange, abandon, or otherwise dispose of any property real, personal, or mixed;

(m) Establish a budget and make expenditures;

(n) Borrow money;

(o) Appoint committees, including standing committees composed of members and such other interested persons as may be designated in this interstate compact, rules, or bylaws;

(p) Provide and receive information from, and cooperate with, law enforcement agencies;

(q) Establish and elect an executive committee;

(r) Establish and develop a charter for an executive information governance committee to advise on facilitating exchange of information, use of information, data privacy, and technical support needs, and provide reports as needed;

(s) Perform such other functions as may be necessary or appropriate to achieve the purposes of this interstate compact consistent with the state regulation of teacher licensure; and

(t) Determine whether a state's adopted language is materially different from the model compact language such that the state would not qualify for participation in the compact.

(4) The executive committee of the interstate teacher mobility compact commission.

(a) The executive committee shall have the power to act on behalf of the commission according to the terms of this interstate compact.

(b) The executive committee shall be composed of eight voting members: The commission chair, vice chair, and treasurer; and five members who are elected by the commission from the current membership:

(i) Four voting members representing geographic regions in accordance with commission rules; and

(ii) One at large voting member in accordance with commission rules.

(c) The commission may add or remove members of the executive committee as provided in commission rules.

(d) The executive committee shall meet at least once annually.

(e) The executive committee shall have the following duties and responsibilities:

(i) Recommend to the entire commission changes to the rules or bylaws, changes to the compact legislation, fees paid by interstate compact member states such as annual dues, and any compact fee charged by the member states on behalf of the commission;

(ii) Ensure commission administration services are appropriately provided, contractual or otherwise;

(iii) Prepare and recommend the budget;

(iv) Maintain financial records on behalf of the commission;

(v) Monitor compliance of member states and provide reports to the commission; and

(vi) Perform other duties as provided in rules or bylaws.

(f) Meetings of the commission.

(i) All meetings shall be open to the public, and public notice of meetings shall be given in accordance with commission bylaws.

(ii) The commission or the executive committee or other committees of the commission may convene in a closed, nonpublic meeting if the commission or executive committee or other committees of the commission must discuss:

(A) Noncompliance of a member state with its obligations under the compact;

(B) The employment, compensation, discipline, or other matters, practices, or procedures related to specific employees or other matters related to the commission's internal personnel practices and procedures;

(C) Current, threatened, or reasonably anticipated litigation;

(D) Negotiation of contracts for the purchase, lease, or sale of goods, services, or real estate;

(E) Accusing any person of a crime or formally censuring any person;

(F) Disclosure of trade secrets or commercial or financial information that is privileged or confidential;

(G) Disclosure of information of a personal nature where disclosure would constitute a clearly unwarranted invasion of personal privacy;

(H) Disclosure of investigative records compiled for law enforcement purposes;

(I) Disclosure of information related to any investigative reports prepared by or on behalf of or for use of the commission or other committee charged with responsibility of investigation or determination of compliance issues pursuant to the compact;

(J) Matters specifically exempted from disclosure by federal or member state statutes; and

(K) Other matters as set forth by commission bylaws and rules.

(iii) If a meeting, or portion of a meeting, is closed pursuant to this provision, the commission's legal counsel or designee shall certify that the meeting may

be closed and shall reference each relevant exempting provision.

(iv) The commission shall keep minutes of commission meetings and shall provide a full and accurate summary of actions taken, and the reasons therefore, including a description of the views expressed. All documents considered in connection with an action shall be identified in such minutes. All minutes and documents of a closed meeting shall remain under seal, subject to release by a majority vote of the commission or order of a court of competent jurisdiction.

(g) Financing of the commission.

(i) The commission shall pay, or provide for the payment of, the reasonable expenses of its establishment, organization, and ongoing activities.

(ii) The commission may accept all appropriate donations and grants of money, equipment, supplies, materials, and services, and receive, utilize, and dispose of the same, provided that at all times the commission shall avoid any appearance of impropriety or conflict of interest.

(iii) The commission may levy on and collect an annual assessment from each member state or impose fees on other parties to cover the cost of the operations and activities of the commission, in accordance with the commission rules.

(iv) The commission shall not incur obligations of any kind prior to securing the funds adequate to meet the same; nor shall the commission pledge the credit of any of the member states, except by and with the authority of the member state.

(v) The commission shall keep accurate accounts of all receipts and disbursements. The receipts and disbursements of the commission shall be subject to accounting procedures established under commission bylaws. All receipts and disbursements of funds of the commission shall be reviewed annually in accordance with commission bylaws, and a report of the review shall be included in and become part of the annual report of the commission.

(h) Qualified immunity, defense, and indemnification.

(i) The members, officers, executive director, employees, and representatives of the commission shall be immune from suit and liability, either personally or in their official capacity, for any claim for damage to or loss of property or personal injury or other civil liability caused by or arising out of any actual or alleged act, error or omission that occurred, or that the person against whom the claim is made had a reasonable basis for believing occurred within the scope of commission employment, duties, or responsibilities; provided, that nothing in this subsection (4)(h)(i) shall be construed to protect any such person from suit or liability for any damage, loss, injury, or liability caused by the intentional or willful or wanton misconduct of that person.

(ii) The commission shall defend any member, officer, executive director, employee, or representative of the commission in any civil action seeking to impose liability arising out of any actual or alleged act, error, or omission that

occurred within the scope of commission employment, duties, or responsibilities, or that the person against whom the claim is made had a reasonable basis for believing occurred within the scope of commission employment, duties, or responsibilities; provided, that nothing herein shall be construed to prohibit that person from retaining his or her own counsel; and provided further, that the actual or alleged act, error, or omission did not result from that person's intentional or willful or wanton misconduct.

(iii) The commission shall indemnify and hold harmless any member, officer, executive director, employee, or representative of the commission for the amount of any settlement or judgment obtained against that person arising out of any actual or alleged act, error, or omission that occurred within the scope of commission employment, duties, or responsibilities, or that such person had a reasonable basis for believing occurred within the scope of commission employment, duties, or responsibilities, provided that the actual or alleged act, error, or omission did not result from the intentional or willful or wanton misconduct of that person.

#### **ARTICLE VIII RULE-MAKING**

##### NEW SECTION.

##### **Sec. 8.**

(1) The commission shall exercise its rule-making powers pursuant to the criteria set forth in this interstate compact and the rules adopted thereunder. Rules and amendments shall become binding as of the date specified in each rule or amendment.

(2) The commission shall promulgate reasonable rules to achieve the intent and purpose of this interstate compact. In the event the commission exercises its rule-making authority in a manner that is beyond purpose and intent of this interstate compact, or the powers granted hereunder, then such an action by the commission shall be invalid and have no force and effect of law in the member states.

(3) If a majority of the legislatures of the member states rejects a rule, by enactment of a statute or resolution in the same manner used to adopt the compact within four years of the date of adoption of the rule, then such rule shall have no further force and effect in any member state.

(4) Rules or amendments to the rules shall be adopted or ratified at a regular or special meeting of the commission in accordance with commission rules and bylaws.

(5) Upon determination that an emergency exists, the commission may consider and adopt an emergency rule with 48 hours' notice, with opportunity to comment, provided that the usual rule-making procedures shall be retroactively applied to the rule as soon as reasonably possible, in no event later than 90 days after the effective date of the rule. For the purposes of this provision, an emergency rule is one that must be adopted immediately in order to:

(a) Meet an imminent threat to public health, safety, or welfare;

(b) Prevent a loss of commission or member state funds;

(c) Meet a deadline for the promulgation of an administrative rule that is established by federal law or rule of the commission; or

(d) Protect public health and safety.

**ARTICLE IX  
FACILITATING INFORMATION EXCHANGE**

NEW SECTION. **Sec. 9.** (1) The commission shall provide for facilitating the exchange of information to administer and implement the provisions of this compact in accordance with the rules of the commission, consistent with generally accepted data protection principles.

(2) Nothing in this compact shall be deemed or construed to alter, limit, or inhibit the power of a member state to control and maintain ownership of its licensee information or alter, limit, or inhibit the laws or regulations governing licensee information in the member state.

**ARTICLE X  
OVERSIGHT, DISPUTE RESOLUTION, AND  
ENFORCEMENT**

NEW SECTION. **Sec. 10.** (1) Oversight.

(a) The executive and judicial branches of state government in each member state shall enforce this compact and take all actions necessary and appropriate to effectuate the compact's purposes and intent. The provisions of this compact shall have standing as statutory law.

(b) Venue is proper and judicial proceedings by or against the commission shall be brought solely and exclusively in a court of competent jurisdiction where the principal office of the commission is located. The commission may waive venue and jurisdictional defenses to the extent it adopts or consents to participate in alternative dispute resolution proceedings. Nothing herein shall affect or limit the selection or propriety of venue in any action against a licensee for professional malpractice, misconduct, or any such similar matter.

(c) All courts and all administrative agencies shall take judicial notice of the compact, the rules of the commission, and any information provided to a member state pursuant thereto in any judicial or quasi-judicial proceeding in a member state pertaining to the subject matter of this compact, or which may affect the powers, responsibilities, or actions of the commission.

(d) The commission shall be entitled to receive service of process in any proceeding regarding the enforcement or interpretation of the compact and shall have standing to intervene in such a proceeding for all purposes. Failure to provide the commission service of process shall render a judgment or order void as to the commission, this compact, or promulgated rules.

(2) Default, technical assistance, and termination. If the commission determines that a member state has defaulted in the

performance of its obligations or responsibilities under this compact or the promulgated rules, the commission shall:

(a) Provide written notice to the defaulting state and other member states of the nature of the default, the proposed means of curing the default or any other action to be taken by the commission; and

(b) Provide remedial training and specific technical assistance regarding the default.

(3) If a state in default fails to cure the default, the defaulting state may be terminated from the compact upon an affirmative vote of a majority of the commissioners of the member states, and all rights, privileges, and benefits conferred on that state by this compact may be terminated on the effective date of termination. A cure of the default does not relieve the offending state of obligations or liabilities incurred during the period of default.

(4) Termination of membership in the compact shall be imposed only after all other means of securing compliance have been exhausted. Notice of intent to suspend or terminate shall be given by the commission to the governor, the majority and minority leaders of the defaulting state's legislature, the state licensing authority, and each of the member states.

(5) A state that has been terminated is responsible for all assessments, obligations, and liabilities incurred through the effective date of termination, including obligations that extend beyond the effective date of termination.

(6) The commission shall not bear any costs related to a state that is found to be in default or that has been terminated from the compact, unless agreed upon in writing between the commission and the defaulting state.

(7) The defaulting state may appeal the action of the commission by petitioning the United States district court for the District of Columbia or the federal district where the commission has its principal offices. The prevailing party shall be awarded all costs of such litigation, including reasonable attorneys' fees.

(8) Dispute resolution.

(a) Upon request by a member state, the commission shall attempt to resolve disputes related to the compact that arise among member states and between member and nonmember states.

(b) The commission shall promulgate a rule providing for both binding and nonbinding alternative dispute resolution for disputes as appropriate.

(9) Enforcement.

(a) The commission, in the reasonable exercise of its discretion, shall enforce the provisions and rules of this compact.

(b) By majority vote, the commission may initiate legal action in the United States district court for the District of Columbia or the federal district where the commission has its principal offices against a member state in default to enforce compliance with the provisions of the compact and its promulgated rules and bylaws. The relief sought may include both injunctive relief and damages. In the event judicial

enforcement is necessary, the prevailing party shall be awarded all costs of such litigation, including reasonable attorneys' fees. The remedies herein shall not be the exclusive remedies of the commission. The commission may pursue any other remedies available under federal or state law.

**ARTICLE XI  
EFFECTUATION, WITHDRAWAL, AND AMENDMENT**

NEW SECTION. **Sec. 11.** (1) The compact shall come into effect on the date on which the compact statute is enacted into law in the 10th member state.

(a) On or after the effective date of the compact, the commission shall convene and review the enactment of each of the charter member states to determine if the statute enacted by each such charter member state is materially different from the model compact statute.

(b) A charter member state whose enactment is found to be materially different from the model compact statute shall be entitled to the default process set forth in section 10 of this act.

(c) Member states enacting the compact subsequent to the charter member states shall be subject to the process set forth in section 7(3)(t) of this act to determine if their enactments are materially different from the model compact statute and whether they qualify for participation in the compact.

(2) If any member state is later found to be in default, or is terminated or withdraws from the compact, the commission shall remain in existence and the compact shall remain in effect even if the number of member states should be less than 10.

(3) Any state that joins the compact after the commission's initial adoption of the rules and bylaws shall be subject to the rules and bylaws as they exist on the date on which the compact becomes law in that state. Any rule that has been previously adopted by the commission shall have the full force and effect of law on the day the compact becomes law in that state, as the rules and bylaws may be amended as provided in this compact.

(4) Any member state may withdraw from this compact by enacting a statute repealing the same.

(a) A member state's withdrawal shall not take effect until six months after enactment of the repealing statute.

(b) Withdrawal shall not affect the continuing requirement of the withdrawing state's licensing authority to comply with the investigative and adverse action reporting requirements of this act prior to the effective date of withdrawal.

(5) This compact may be amended by the member states. No amendment to this compact shall become effective and binding upon any member state until it is enacted into the laws of all member states.

**ARTICLE XII  
CONSTRUCTION AND SEVERABILITY**

NEW SECTION. **Sec. 12.** This compact shall be liberally construed to effectuate the purposes thereof. The provisions of this compact shall be severable and if any phrase, clause, sentence, or provision of this compact is declared to be contrary to the Constitution of any member state or a state seeking membership in the compact, or of the United States or the applicability thereof to any other government, agency, person, or circumstance is held invalid, the validity of the remainder of this compact and the applicability thereof to any government, agency, person, or circumstance shall not be affected thereby. If this compact shall be held contrary to the Constitution of any member state, the compact shall remain in full force and effect as to the remaining member states and in full force and effect as to the member state affected as to all severable matters.

**ARTICLE XIII  
CONSISTENT EFFECT AND CONFLICT WITH OTHER  
STATE LAWS**

NEW SECTION. **Sec. 13.** (1) Nothing herein shall prevent or inhibit the enforcement of any other law of a member state that is not inconsistent with the compact.

(2) Any laws, statutes, regulations, or other legal requirements in a member state in conflict with the compact are superseded to the extent of the conflict.

(3) All permissible agreements between the commission and the member states are binding in accordance with their terms.

**Sec. 14.** RCW 28A.405.220 and 2016 c 85 s 2 are each amended to read as follows:

(1) Notwithstanding the provisions of RCW 28A.405.210, every person employed by a school district in a teaching or other nonsupervisory certificated position shall be subject to nonrenewal of employment contract as provided in this section during the first three years of employment by such district, unless: (a) The employee has previously completed at least two years of certificated employment in another school district in the state of Washington, in which case the employee shall be subject to nonrenewal of employment contract pursuant to this section during the first year of employment with the new district; or (b) the employee has received an evaluation rating below level 2 on the four-level rating system established under RCW 28A.405.100 during the third year of employment, in which case the employee shall remain subject to the nonrenewal of the employment contract until the employee receives a level 2 rating; or (c) the school district superintendent may make a determination to remove an employee from provisional status if the employee has received one of the top two evaluation ratings during the second year of employment by the district. Employees as defined in this section shall hereinafter be referred to as "provisional employees."

(2) The superintendent of the school district may not renew the employment

contract of a provisional employee licensed under the interstate teacher mobility compact in chapter 28A.--- RCW (the new chapter created in section 15 of this act) for a third year if the provisional employee has not yet completed both the issues of abuse course described in RCW 28A.410.035 and the equity-based school practices requirements under RCW 28A.410.277.

(3) In the event the superintendent of the school district determines that the employment contract of any provisional employee should not be renewed by the district for the next ensuing term such provisional employee shall be notified thereof in writing on or before May 15th preceding the commencement of such school term, or if the omnibus appropriations act has not passed the legislature by the end of the regular legislative session for that year, then notification shall be no later than June 15th, which notification shall state the reason or reasons for such determination. Such notice shall be served upon the provisional employee personally, or by certified or registered mail, or by leaving a copy of the notice at the place of his or her usual abode with some person of suitable age and discretion then resident therein. The determination of the superintendent shall be subject to the evaluation requirements of RCW 28A.405.100.

~~((3))~~ (4) Every such provisional employee so notified, at his or her request made in writing and filed with the superintendent of the district within ten days after receiving such notice, shall be given the opportunity to meet informally with the superintendent for the purpose of requesting the superintendent to reconsider his or her decision. Such meeting shall be held no later than ten days following the receipt of such request, and the provisional employee shall be given written notice of the date, time and place of meeting at least three days prior thereto. At such meeting the provisional employee shall be given the opportunity to refute any facts upon which the superintendent's determination was based and to make any argument in support of his or her request for reconsideration.

~~((4))~~ (5) Within ten days following the meeting with the provisional employee, the superintendent shall either reinstate the provisional employee or shall submit to the school district board of directors for consideration at its next regular meeting a written report recommending that the employment contract of the provisional employee be nonrenewed and stating the reason or reasons therefor. A copy of such report shall be delivered to the provisional employee at least three days prior to the scheduled meeting of the board of directors. In taking action upon the recommendation of the superintendent, the board of directors shall consider any written communication which the provisional employee may file with the secretary of the board at any time prior to that meeting.

~~((5))~~ (6) The board of directors shall notify the provisional employee in writing of its final decision within ten days following the meeting at which the superintendent's recommendation was considered. The decision of the board of

directors to nonrenew the contract of a provisional employee shall be final and not subject to appeal.

~~((6))~~ (7) This section applies to any person employed by a school district in a teaching or other nonsupervisory certificated position after June 25, 1976. This section provides the exclusive means for nonrenewing the employment contract of a provisional employee and no other provision of law shall be applicable thereto, including, without limitation, RCW 28A.405.210 and chapter 28A.645 RCW.

NEW SECTION. **Sec. 15.** Sections 1 through 13 of this act constitute a new chapter in Title 28A RCW."

On page 1, line 1 of the title, after "to" strike the remainder of the title and insert "the licensure and employment of out-of-state teachers; amending RCW 28A.405.220; and adding a new chapter to Title 28A RCW."

CONFERENCE COMMITTEE REPORT

March 6th, 2024

Engrossed Substitute House Bill 2134

Includes "New Item": YES

Madame Speaker:

We of your Conference Committee, to whom was referred ESHB 2134, making supplemental transportation appropriations for the 2023-2025 fiscal biennium, have had the same under consideration and we recommend that:

All previous amendments not be adopted and that the attached striking amendment S-5707.1 be adopted

Strike everything after the enacting clause and insert the following:

"2023-2025 FISCAL BIENNIUM

GENERAL GOVERNMENT AGENCIES—OPERATING

Sec. 101. 2023 c 472 s 101 (unmodified) is amended to read as follows: FOR THE DEPARTMENT OF ARCHAEOLOGY AND HISTORIC PRESERVATION Motor Vehicle Account—State Appropriation. ((\$588,000)) \$587,000

Sec. 102. 2023 c 472 s 105 (unmodified) is amended to read as follows: FOR THE DEPARTMENT OF AGRICULTURE Motor Vehicle Account—State Appropriation. ((\$1,462,000)) \$1,473,000

Sec. 103. 2023 c 472 s 108 (unmodified) is amended to read as follows: FOR THE DEPARTMENT OF COMMERCE Carbon Emissions Reduction Account—State Appropriation. . . . . \$5,000,000 Electric Vehicle Account—State Appropriation . . . . . \$220,000 TOTAL APPROPRIATION. . . . . \$5,220,000

The ((appropriation)) appropriations in this section ((is))are subject to the following conditions and limitations:

(1) \$220,000 of the electric vehicle account—state appropriation is provided solely to the department to commission an independent study, based on the findings of the transportation electrification strategy authorized under RCW 43.392.040, of costs of installation, maintenance, and operation of electrical distribution infrastructure on the utility's side of the meter to commercial customers installing electric vehicle supply equipment. The department shall gather data from at least five electric utilities serving retail customers in the state for purposes of completing the study. The department shall submit a report of study findings and an explanation of how those findings will support implementation of the transportation electrification strategy authorized under RCW 43.392.040 to

the governor and appropriate legislative committees by November 1, 2024.

(2) Beginning January 1, 2025, \$5,000,000 of the carbon emissions reduction account—state appropriation is provided solely for a tribal electric boat grant program. Federally recognized tribes, tribal enterprises, and tribal members are eligible to apply for grant funds for the purchase of or conversion to electric motors and engines for fishing vessels.

Sec. 104. 2023 c 472 s 109 (unmodified) is amended to read as follows: FOR THE BOARD OF PILOTAGE COMMISSIONERS Pilotage Account—State Appropriation. ((\$3,574,000)) \$3,366,000 Multimodal Transportation Account—State Appropriation. . . . . \$211,000 TOTAL APPROPRIATION. . . . . \$3,577,000

The ((appropriation)) appropriations in this section ((is))are subject to the following conditions and limitations:

(1) The board of pilotage commissioners shall file the annual report to the governor and chairs of the transportation committees required under RCW 88.16.035(1)(f) by September 1, 2023, and annually thereafter. The report must include the continuation of policies and procedures necessary to increase the diversity of pilots, trainees, and applicants, including a diversity action plan. The diversity action plan must articulate a comprehensive vision of the board's diversity goals and the steps it will take to reach those goals.

(2) ((\$232,000)) \$21,000 of the pilotage account—state appropriation ((is))and \$211,000 of the multimodal transportation account—state appropriation are for a temporary environmental planner position to support rule making to fulfill the requirements of chapter 289, Laws of 2019.

Sec. 105. 2023 c 472 s 111 (unmodified) is amended to read as follows: FOR THE UNIVERSITY OF WASHINGTON Motor Vehicle Account—State Appropriation. \$1,000,000 Multimodal Transportation Account—State Appropriation. . . . . \$5,000,000 TOTAL APPROPRIATION. . . . . \$6,000,000

The ((appropriation)) appropriations in this section ((is))are subject to the following conditions and limitations:

(1) \$5,000,000 of the multimodal transportation account—state appropriation is provided solely for the University of Washington's sidewalk inventory and accessibility mapping project to develop a public dataset under an open license and develop the tools needed to publish that data according to an open data specification. The project must include, but is not limited to, utilization of existing data sources, imagery, detailed surveys, and manually collected, detailed data for city streets, county rural and urban local access roads and collectors/arterials, state roads of all types, and roads owned by other entities. The project may draw on partially developed sidewalk data for all state

facilities. To the extent practicable, the final product must be suitable for use by the department of transportation, local and regional agencies, tribal governments, and the general public. For the 2023-2025 fiscal biennium, the project will produce a base active transportation data layer for all counties, with priority given to counties with high proportions of overburdened communities. A project status report is due to the transportation committees of the legislature on December 1st of each year until the work is completed. The legislature intends that in the 2025-2027 fiscal biennium, \$5,000,000 of multimodal transportation account funds be provided to complete a second phase of work on the active transportation data.

(2)(a) \$1,000,000 of the motor vehicle account—state appropriation is provided solely for the Washington state transportation center to fund:

(i) Intern programs with the department of transportation;

(ii) A road scholars short-term training program; and

(iii) Professional master's degree fellowships between the department of transportation and the University of Washington within a program in civil and environmental engineering.

(b) Of the amounts provided in this subsection, \$81,000 is provided solely for the center to consult with the board of registration for professional engineers and land surveyors to conduct a statewide survey and analysis assessing workforce shortages of civil engineers, civil engineering technicians, land surveyors, land surveyor technicians, and related disciplines. The center shall create a recommended action plan, with input from the legislative transportation committees, to address engineering workforce shortages and to meet the increased demand for services. The analysis and recommended action plan must include, for civil engineers, civil engineering technicians, land surveyors, land surveyor technicians, and related disciplines, at a minimum:

(i) Opportunities to create diverse and equitable engineering workforce;

(ii) Workforce data and gaps;

(iii) Current education pathways and licensure processes;

(iv) Current programs focused on workforce development and position skill-up opportunities;

(v) Strategies to retain workforce within the state;

(vi) Outreach opportunities and interinstitutional partnerships with middle schools, high schools, postsecondary institutions, and postgraduate programs; and

(vii) Recommendations for additional scholarships, internship and apprenticeship opportunities, undergraduate and graduate fellowship opportunities, and industry partnership opportunities.

(c) The center shall provide a preliminary plan with proposed actions, budgets, and outcomes to the transportation committees of the legislature by November 2024. The center shall provide a final action plan report with relevant

recommendations to the transportation committees of the legislature by December 31, 2024.

**Sec. 106.** 2023 c 472 s 114 (uncodified) is amended to read as follows:

**FOR THE DEPARTMENT OF ENTERPRISE SERVICES**

Carbon Emissions Reduction Account—State  
Appropriation. . . . . ((\$6,000,000))  
\$18,000,000

The appropriation in this section is subject to the following conditions and limitations:

(1)(a) \$6,000,000 of the carbon emissions reduction account—state appropriation ((is)), and beginning January 1, 2025, \$12,000,000 of the carbon emissions reduction account—state appropriation, are provided solely for zero emission electric vehicle supply equipment infrastructure at facilities to accommodate charging station installations. The electric vehicle charging equipment ((must allow for the collection of usage data and)) must be coordinated with the state efficiency and environmental performance program. The department must prioritize locations based on state efficiency and environmental performance location priorities and where zero emission fleet vehicles are located or are scheduled to be purchased.

((+2))(b) The department must report when and where the equipment was installed((, usage data at each charging station,)) and the state agencies and facilities that benefit from the installation of the charging station to the fiscal committees of the legislature by June 30, 2025, with an interim report due January 2, 2024. The department shall collaborate with the interagency electric vehicle coordinating council to implement this section and must work to meet benchmarks established in chapter 182, Laws of 2022 (transportation resources).

((+3))(2) In carrying out this section, the department shall cooperate and provide assistance, as requested, in the joint transportation committee's development of program delivery evaluation tools and methodologies provided under section 204 ((of this act)), chapter 472, Laws of 2023 for programs that receive funding from the carbon emissions reduction account.

((+4))(3) The department, with the assistance of designated staff in the Washington state department of transportation, must register for the clean fuels credit program and start tracking revenue generation pursuant to chapter 70A.535 RCW for investments funded in an omnibus transportation appropriations act.

(4) The department must provide a report to the transportation committees of the legislature that estimates current biennial and future carbon reduction impacts resulting from zero-emission electric vehicles and supply equipment infrastructure funded in this section by June 30, 2025.

NEW SECTION. Sec. 107. A new section is added to 2023 c 472 (uncodified) to read as follows:

**FOR THE JOINT LEGISLATIVE AUDIT AND REVIEW COMMITTEE**

Ignition Interlock Device Revolving Account—State  
Appropriation. . . . . \$400,000

The appropriation in this section is subject to the following conditions and limitations: \$400,000 of the ignition interlock device revolving account—state appropriation is provided solely for an evaluation of compliance and results associated with the state's ignition interlock device requirements. The evaluation must include, but is not limited to, the following: (1) An assessment of the compliance rates for individuals with a legal requirement to have an ignition interlock device installed on their vehicle; (2) a review of impediments or barriers to individual compliance with ignition interlock device installation and use requirements; (3) an examination of state and local agency performance in monitoring and enforcing ignition interlock device requirements; and (4) prioritized recommendations of potential procedural, policy, or statutory changes, including additional fiscal resources to state or local agencies, which will improve ignition interlock device compliance rates. The office of financial management shall place the amount provided in this section in unallotted status until the joint legislative and audit review committee indicates that the evaluation can be completed within its workplan for the 2023-2025 fiscal biennium. If the evaluation cannot be initiated in the 2023-2025 fiscal biennium, the joint legislative and audit review committee must prioritize the evaluation of compliance and results associated with the state's ignition interlock device requirements in its workplan for the 2025-2027 fiscal biennium. The director of the office of financial management or the director's designee shall consult with the chairs and ranking members of the transportation committees of the legislature before making a decision to allot these funds.

NEW SECTION. **Sec. 108.** A new section is added to 2023 c 472 (uncodified) to read as follows:

**FOR THE DEPARTMENT OF ECOLOGY**

Model Toxics Control Capital Account—State  
Appropriation. . . . . \$15,715,000  
Carbon Emissions Reduction Account—State  
Appropriation. . . . . \$4,000,000  
**TOTAL APPROPRIATION..... \$19,715,000**

The appropriations in this section are subject to the following conditions and limitations:

(1) \$15,715,000 of the model toxics control capital account—state appropriation, and beginning January 1, 2025, \$4,000,000 of the carbon emissions reduction account—state appropriation, are provided solely for the department to provide grants to transition from diesel school buses and other student transport vehicles to zero emission vehicles and for the necessary fueling infrastructure needed for zero emission student transportation. The department must

prioritize school districts serving tribes and vulnerable populations in overburdened communities as defined under RCW 70A.02.010. Up to five percent of the appropriation in this section may be used for technical assistance and grant administration.

(2) In carrying out this section, the department shall cooperate and provide assistance, as requested, in the joint transportation committee's development of program delivery evaluation tools and methodologies provided under section 204, chapter 472, Laws of 2023 for programs that receive funding from the carbon emissions reduction account.

NEW SECTION. **Sec. 109.** A new section is added to 2023 c 472 (uncodified) to read as follows:

**FOR WESTERN WASHINGTON UNIVERSITY**

Multimodal Transportation Account—State  
Appropriation. . . . . \$140,000

The appropriation in this section is subject to the following conditions and limitations: \$140,000 of the multimodal transportation account—state appropriation is provided solely for the Western Washington University center for economic and business research to conduct an economic study focused on multiple economic activities surrounding the Washington state ferry system. The study must examine the impacts on a statewide and systemwide basis, on all 10 routes of service provided by the Washington state ferries. Specifically, the study must analyze the direct economic impacts of Washington state ferry system spending, along with peer-reviewed, estimated ranges of indirect impacts on economic activities supported by the ferry fleets' movement of passengers and freight as it relates to tourism, labor, and commerce. The study must also include a review of key factors that impact the overall economy of both ferry-served communities and the state economy, which may include impacts on housing, health care costs and access, emergency response, climate resilience, and small business. The university must submit a report summarizing the study to the office of the governor and the transportation committees of the legislature by December 31, 2024.

NEW SECTION. **Sec. 110.** A new section is added to 2023 c 472 (uncodified) to read as follows:

**FOR THE EVERGREEN STATE COLLEGE**

Aeronautics Account—State Appropriation.  
\$188,000

The appropriation in this section is subject to the following conditions and limitations: \$188,000 of the aeronautics account—state appropriation is provided solely for the Washington state institute for public policy to:

(1) Conduct an independent assessment of the passenger and air cargo forecasts cited in the Puget Sound regional council regional aviation baseline study, including an evaluation of the underlying data, assumptions, methodologies, and calculation

of the level of uncertainty around the forecast;

(2) Conduct a comprehensive literature review to identify effective national and international strategies to reduce demand for air travel, including diverting such demand to other modes and whether such diversion avoids net environmental impacts to overburdened communities and vulnerable populations;

(3) Conduct a review of existing operational and technological enhancements to address environmental impacts from commercial aviation activities, including, but not limited to, climate friendly routing of aircraft, innovations intended to address the climate change effects of noncarbon dioxide emissions from aviation activities, simulation models applied to congested airports, and online tools to track, analyze, and improve carbon footprints related to aviation activities. The review should identify the feasibility of enhancements to be deployed in the state of Washington; and

(4) Provide a report to the office of the governor and the transportation committees of the legislature by December 31, 2025.

**Sec. 111.** 2023 c 472 s 110 (unmodified) is amended to read as follows:

**FOR THE OFFICE OF THE GOVERNOR**  
State Patrol Highway Account—State Appropriation. . . . . \$750,000

The appropriation in this section is subject to the following conditions and limitations: \$750,000 of the state patrol highway account—state appropriation is provided solely to the state office of equity to contract with an independent consultant to conduct the studies, evaluations, and reporting functions required in RCW 43.06D.060(2), and for the office to conduct the work specified in RCW 43.06D.060 (1) and (3).

(End of part)

**TRANSPORTATION AGENCIES—OPERATING**

**Sec. 201.** 2023 c 472 s 201 (unmodified) is amended to read as follows:

**FOR THE WASHINGTON TRAFFIC SAFETY COMMISSION**  
Highway Safety Account—State Appropriation. ((~~\$5,252,000~~))

\$7,842,000  
Highway Safety Account—Federal Appropriation . . . . . ((~~\$27,735,000~~))  
\$35,745,000

Highway Safety Account—Private/Local Appropriation. . . . . \$60,000  
Cooper Jones Active Transportation Safety Account—  
State Appropriation. . . . . ((~~\$636,000~~))  
\$836,000

School Zone Safety Account—State Appropriation. . . . . \$850,000

**TOTAL APPROPRIATION..... ((~~\$34,533,000~~))**  
**\$45,333,000**

The appropriations in this section are subject to the following conditions and limitations:

(1) Within existing resources, the commission must examine national safety reports and recommendations on alcohol and drug impaired driving and report to the transportation committees of the legislature, by December 15, 2023, any recommendations for legislative or policy changes to improve traffic safety in Washington state.

(2)(a) \$235,500 of the Cooper Jones active transportation safety account—state appropriation is provided solely for the commission to conduct research pertaining to the issue of street lighting and safety, including a public input component and learning from counties, cities, the state, and other impacted entities. Research may include the following:

(i) Interviewing additional local and regional roads departments, water-sewer districts, and other utility services to gather a holistic data set or further input on which authority assumes primary responsibility for street illumination in various underserved areas throughout the state;

(ii) Systematically soliciting information from communities with poor street illumination and lighting to gather input as to whether this is an issue the community would like to see improved;

(iii) Conferring with regional and state-level police, fire, and emergency medical services to assess and document potential delays in emergency response times due to poor street illumination;

(iv) Further assessing the impact of using LED lights in roadway and pedestrian scale lighting in reducing carbon emissions and light pollution throughout the United States; and

(v) Subject to more in-depth findings, convening a meeting with appropriate state, regional, and local stakeholders and community partners.

(b) The commission must report research results and provide any recommendations for legislative or policy action to the transportation committees of the legislature by January 1, 2025.

(3) Within existing resources, the commission, through the Cooper Jones active transportation safety council, must prioritize the review of pedestrian, bicyclist, or nonmotorist fatality and serious injury review when the victim is a member of a federally recognized tribe. Consistent with RCW 43.59.156(5), the commission may recommend any policy or legislative changes to improve traffic safety for tribes through such review.

(4) Within existing resources, the commission must review and report to the transportation committees of the legislature, by December 15, 2023, on strategies and technologies used in other states to prevent and respond to wrong-way driving crashes.

(5)(a) The Washington traffic safety commission shall coordinate with each city that implements a pilot program as authorized in RCW 46.63.170(6) to provide the transportation committees of the legislature with the following information by June 30, 2025:

~~((a))~~(i) The number of warnings and infractions issued to first-time violators under the pilot program;

~~((b))~~(ii) The number of warnings and infractions issued to the registered owners of vehicles that are not registered with an address located in the city conducting the pilot program; and

~~((e))~~(iii) The frequency with which warnings and infractions are issued on weekdays versus weekend days.

(b) If chapter . . . (Engrossed Substitute House Bill No. 2384), Laws of 2024 is enacted by June 30, 2024, the requirement in this subsection lapses.

(6) \$50,000 of the highway safety account—state appropriation is provided solely for the implementation of chapter 471, Laws of 2023 (negligent driving). If chapter 471, Laws of 2023 is not enacted by June 30, 2023, the amount provided in this subsection lapses.

(7) The Washington traffic safety commission may oversee a pilot program in up to three cities implementing the use of automated vehicle noise enforcement cameras in zones that have been designated by ordinance as "Stay Out of Areas of Racing."

(a) Any programs authorized by the commission must be authorized by December 31, 2024.

(b) If a city has established an authorized automated vehicle noise enforcement camera pilot program under this section, the compensation paid to the manufacturer or vendor of the equipment used must be based upon the value of the equipment and services provided or rendered in support of the system.

(c) Any city administering a pilot program overseen by the traffic safety commission shall use the following guidelines to administer the program:

(i) Automated vehicle noise enforcement camera may record photographs or audio of the vehicle and vehicle license plate only while a violation is occurring. The picture must not reveal the face of the driver or of passengers in the vehicle;

(ii) The law enforcement agency of the city or county government shall install two signs facing opposite directions within 200 feet, or otherwise consistent with the uniform manual on traffic control devices, where the automated vehicle noise enforcement camera is used that state "Street Racing Noise Pilot Program in Progress";

(iii) Cities testing the use of automated vehicle noise enforcement cameras must post information on the city website and notify local media outlets indicating the zones in which the automated vehicle noise enforcement cameras will be used;

(iv) A city may only issue a warning notice with no penalty for a violation detected by automated vehicle noise enforcement cameras in a Stay Out of Areas of Racing zone. Warning notices must be mailed to the registered owner of a vehicle within 14 days of the detected violation;

(v) A violation detected through the use of automated vehicle noise enforcement cameras is not part of the registered

owner's driving record under RCW 46.52.101 and 46.52.120;

(vi) Notwithstanding any other provision of law, all photographs, videos, microphotographs, audio recordings, or electronic images prepared under this subsection (7) are for the exclusive use of law enforcement in the discharge of duties under this section and are not open to the public and may not be used in a court in a pending action or proceeding. No photograph, microphotograph, audio recording, or electronic image may be used for any purpose other than the issuance of warnings for violations under this section or retained longer than necessary to issue a warning notice as required under this subsection (7); and

(vii) By June 30, 2025, the participating cities shall provide a report to the commission and appropriate committees of the legislature regarding the use, public acceptance, outcomes, warnings issued, data retention and use, and other relevant issues regarding automated vehicle noise enforcement cameras demonstrated by the pilot projects.

(8) \$200,000 of the Cooper Jones active transportation safety account—state appropriation is provided solely for the commission, in consultation with the Cooper Jones active transportation safety council, to research and develop a pilot program for the use of light meters by law enforcement to measure lighting levels at locations where a serious injury or fatality involving a vehicle has occurred. However, the funds must be held in unallotted status until the commission submits a spending plan for the pilot program to the transportation committees of the legislature and the office of the governor.

(9) \$300,000 of the highway safety account—state appropriation is provided solely for the commission to purchase telematics data from a qualified vendor that provides anonymized information on vehicle speeds and driver behaviors, such as hard braking, on a statewide basis and in selected geographical areas based upon demographic characteristics and crash history. The commission must provide an annual report summarizing findings from the telematics data to the transportation committees of the legislature beginning by June 30, 2025, and until June 30, 2027.

(10) \$750,000 of the highway safety account—state appropriation is provided solely for a pilot program for dedicated probation or compliance officers at the local level to improve compliance with ignition interlock device installation requirements associated with impaired driving offenses. The commission must select locations based on an assessment of ignition interlock device compliance rates, and the willingness and ability to have staff dedicated to this activity. By June 30, 2025, the commission must provide to the transportation committees of the legislature a status report on the specific locations selected and any outcome information.

(11) \$1,000,000 of the highway safety account—state appropriation is provided solely to implement a multifaceted approach

to supplement existing funding targeted at impaired driving and other enforcement. The areas of emphasis expected to be funded include additional high visibility enforcement and indigenous knowledge-informed tribal traffic safety support. Funding is also provided for the commission to administer and provide oversight of these activities. The commission must provide a preliminary report to the transportation committees of the legislature on these funded activities and any outcome information by December 1, 2025, with a final report due by December 1, 2026.

Sec. 202. 2023 c 472 s 202 (uncodified) is amended to read as follows:
FOR THE COUNTY ROAD ADMINISTRATION BOARD
Rural Arterial Trust Account—State Appropriation. . . . . ((\$2,405,000))
\$1,615,000
Motor Vehicle Account—State Appropriation. ((\$3,005,000))
\$3,524,000

\$1,839,000
TOTAL APPROPRIATION.....((\$7,218,000))
\$6,978,000

The appropriations in this section are subject to the following conditions and limitations: Within appropriated funds, the county road administration board may opt in as provided under RCW 70A.02.030 to assume all of the substantive and procedural requirements of covered agencies under chapter 70A.02 RCW. The board shall include in its 2023 and 2024 annual reports to the legislature a progress report on opting into the healthy environment for all act and a status report on diversity, equity, and inclusion within the board's jurisdiction.

Sec. 203. 2023 c 472 s 203 (uncodified) is amended to read as follows:
FOR THE TRANSPORTATION IMPROVEMENT BOARD
Transportation Improvement Account—State Appropriation. . . . . ((\$4,798,000))
\$4,820,000

The appropriation in this section is subject to the following conditions and limitations: Within appropriated funds, the transportation improvement board may opt in as provided under RCW 70A.02.030 to assume all of the substantive and procedural requirements of covered agencies under chapter 70A.02 RCW. The board shall include in its 2023 and 2024 annual reports to the legislature a progress report on opting into the healthy environment for all act and a status report on diversity, equity, and inclusion within the board's jurisdiction.

Sec. 204. 2023 c 472 s 204 (uncodified) is amended to read as follows:
FOR THE JOINT TRANSPORTATION COMMITTEE
Carbon Emissions Reduction Account—State Appropriation. . . . . ((\$3,000,000))
\$3,477,000
Multimodal Transportation Account—State Appropriation. . . . . ((\$125,000))
\$552,000

Motor Vehicle Account—State Appropriation. ((\$4,270,000))
\$5,100,000
Puget Sound Ferry Operations Account—State Appropriation. . . . . \$100,000
TOTAL APPROPRIATION.....((\$7,395,000))
\$9,229,000

The appropriations in this section are subject to the following conditions and limitations:

- (1)(a) \$300,000 of the motor vehicle account—state appropriation is for the joint transportation committee, from amounts set aside out of statewide fuel taxes distributed to cities according to RCW 46.68.110(2), to convene a study of a statewide retail delivery fee on orders of taxable retail items delivered by motor vehicles within the state. The study must:
(i) Determine the annual revenue generation potential of a range of fee amounts;
(ii) Examine options for revenue distributions to state and local governments based upon total deliveries, lane miles, or other factors;
(iii) Estimate total implementation costs, including start-up and ongoing administrative costs; and
(iv) Evaluate the potential impacts to consumers, including consideration of low-income households and vulnerable populations and potential impacts to businesses.
(b) The study should document and evaluate similar programs adopted in other states. The joint transportation committee must submit a report on the study to the transportation committees of the legislature by June 30, 2024.

(2)(a) \$400,000 of the motor vehicle account—state appropriation is for the joint transportation committee, in collaboration with the department of transportation, to convene a work group to study and recommend a new statutory framework for the department's public-private partnership program. The committee may contract with a third-party consultant for work group support and drafting the new statutory framework.

- (b)(i) The work group must consist of, but is not limited to, the following members:
(A) The secretary of transportation or their designee;
(B) Joint transportation committee executive committee members or their designees;
(C) The state treasurer or the state treasurer's designee;
(D) A representative of a national nonprofit organization specializing in public-private partnership program development;
(E) A representative of the construction trades; and
(F) A representative from an organization representing general contractors.

(ii) The work group must also consult with the Washington state transportation commission and the department of commerce.

(c)(i) The work group must review the 2012 joint transportation committee's "Evaluation of Public-Private Partnerships" study, consisting of an evaluation of the

recommendations for replacing chapter 47.29 RCW and development of a process for implementing public-private partnerships that serve the defined public interest, including, but not limited to:

(A) Protecting the state's ability to retain public ownership of assets constructed or managed under a public-private partnership contract;

(B) Allowing for the most transparency during the negotiation of terms of a public-private partnership agreement; and

(C) Addressing the state's ability to oversee the private entity's management of the asset.

(ii)(A) The work group must identify any barriers to the implementation of funding models that best protect the public interest, including statutory and constitutional barriers.

(B) The work group may also evaluate public-private partnership opportunities for required fish passage and culvert work on state highways, for the construction of, replacement of, or commercial retail options within Washington state ferries' terminals, and for other projects as determined by the work group.

(iii) The work group must update the 2012 recommendations and devise an implementation plan for the state.

(d) The work group must submit a preliminary report, including any recommendations or draft legislation, to the office of the governor and the transportation committees of the legislature by December 15, 2023. The work group must submit a final report with draft legislation to the office of the governor and the transportation committees of the legislature by July 1, 2024.

~~((4))~~ (3) \$300,000 of the motor vehicle account—state appropriation is for the joint transportation committee, from amounts set aside out of statewide fuel taxes distributed to cities according to RCW 46.68.110(2), to contract with the municipal research and services center to convene a department of transportation-local government partnership work group to create a procedure in which the department of transportation can partner with a local jurisdiction to perform preservation and maintenance and construct projects on state highways.

(a) The work group must consist of, but is not limited to, the following members:

(i) One representative from a city with a population of more than 5,000 and fewer than 50,000;

(ii) One representative from a city with a population of more than 50,000;

(iii) One representative from a county with a population of more than 100,000 and fewer than 400,000;

(iv) One representative from a county with a population of more than 400,000;

(v) At least one representative of a public port;

(vi) A representative from the county road administration board;

(vii) A representative of the transportation improvement board;

(viii) At least one representative from the department of transportation's local programs division;

(ix) At least two representatives from the department of transportation with expertise in procurement and legal services; and

(x) At least one member from the house of representatives transportation committee and at least one member from the senate transportation committee.

(b) Of the members described in (a) of this subsection, at least one of the city representatives and one of the county representatives must have public works contracting experience, and at least one of the city representatives and one of the county representatives must have public works project management experience.

(c) The work group must make recommendations of how the department of transportation could better work in partnership with local jurisdictions to ensure that roadway construction projects can be performed when funds are made available in the omnibus transportation appropriations act even if the department of transportation does not have the capacity to be the project manager on a project and a local jurisdiction is ready, willing, and able to implement the project within the time frames envisioned in the omnibus transportation appropriations act. In developing its recommendations, the work group must consider, at a minimum:

(i) Differing roadway and construction standards between state and local agencies;

(ii) Revenue, reimbursement, and financial agreements between state and local agencies;

(iii) Differing procurement processes between state and local agencies;

(iv) Liability; and

(v) Other issues as determined by the work group.

(d) The work group must submit a preliminary report, including any recommendations, to the office of the governor and the transportation committees of the legislature by December 15, 2023. The work group must submit a final report to the office of the governor and the transportation committees of the legislature by July 1, 2024.

~~((5))~~ (4) (a) \$2,000,000 of the carbon emissions reduction account—state appropriation is for the joint transportation committee to oversee:

(i) The design of an infrastructure and incentive strategy to drive the purchase and use of zero emission medium and heavy duty vehicles, as well as cargo handling and off-road equipment, in the state including, but not limited to, programs for tractor trucks, box trucks, drayage trucks, refuse trucks, step and panel vans, heavy and medium-duty buses, school buses, on and off-road terminal tractors, transport refrigeration units, forklifts, container handling equipment, airport cargo loaders, and railcar movers; and

(ii) A review of the passenger vehicle tax incentive in current law and evaluation of its utility, to include possible modification of the criteria for eligibility

and tax incentive amount maximums, as applicable.

(b) Design development must include recommendations for encouraging vehicle conversions for smaller commercial vehicle fleets and owner-operators of commercial vehicles, as well as tools for facilitating carbon emission reductions to benefit vulnerable populations and overburdened communities. Infrastructure and incentive programs recommended may include, but are not limited to, grant, rebate, tax incentive, and financing assistance programs.

(c) Consultation with legislative members identified by the chair and ranking members of the transportation committees of the legislature throughout design of the infrastructure and incentive strategy is required. A report is due to the transportation committees of the legislature by January 2, 2024.

~~((+6))~~ (5) \$125,000 of the motor vehicle account—state appropriation and \$125,000 of the multimodal transportation account—state appropriation are for the joint transportation committee to evaluate potential options and make recommendations for a statewide household travel survey and additional analytical capacity regarding transportation research.

(a) The recommendation on the statewide household travel survey must be based on how well a statewide survey investment would: Address policy questions related to household travel; address gaps between separate regional and local transportation models; and create a dataset to allow both for analysis and response to policymakers' questions relating to household travel and for transportation modeling and development. In evaluating potential survey options, the committee shall consider opportunities for the state to partner and expand on developed established household travel surveys, including surveys conducted at both the Puget Sound regional council and the federal highway administration. In its recommendation, the committee shall outline the process required for a statewide survey, including the costs and timing of each option.

(b) The committee shall recommend an agency or agencies to perform ongoing analysis of a statewide household travel survey and other transportation research. The committee shall consider the ability of an agency or agencies to meet shorter timeline policy needs, as well as longer timeline research projects. The recommendation must include the timing and costs associated with the development of such analytical capacity.

~~((+7))~~ (6) \$1,000,000 of the carbon emissions reduction account—state appropriation is for the joint transportation committee to oversee the development of tools and methodologies to assist in program delivery evaluation for programs that receive appropriations from the carbon emissions reduction account. Program delivery evaluation must include carbon emissions reduction estimates by program and by unit of time, program cost per unit of emission reduction, quantified

benefits to vulnerable populations and overburdened communities by program cost, any additional appropriate qualitative and quantitative metrics, and actionable recommendations for improvements in program delivery. A report is due to the transportation committees of the legislature by October 1, 2024.

~~((+8))~~ (7) \$500,000 of the motor vehicle account—state appropriation is for the joint transportation committee to engage an independent review team to work in coordination with the Washington state department of transportation's analysis, funded in section 217(~~((+11)) of this act~~) (10), chapter 472, Laws of 2023, of highway, road, and freight rail transportation needs, options, and impacts from shifting the movement of freight and goods that currently move by barge through the lower Snake river dams to highways, other roads, and rail.

(a) The department shall include the independent review team in all phases of the analysis to enable the team to develop an independent assessment of the analysis, assumptions, stakeholder engagement, and cost and impact estimates. Summary findings from the independent assessment must be provided to the department, the governor's office, and the transportation committees of the legislature on a quarterly basis, with ~~((a final))~~ an end of biennium report due to the governor and the transportation committees of the legislature by June 30, 2025.

(b) The independent review team must conduct an independent stakeholder engagement effort. The river transportation work group must be formed to provide data and guidance to the independent review team for the independent stakeholder engagement effort. The river transportation work group must be made up of stakeholders, including farming and agricultural production, ~~((federally recognized tribes and))~~ fishing industry, tug and barge operators, shippers and receivers, public ports, railroad operators, cruise lines, the federal highway administration, and the army corps of engineers. Consultations with federally recognized tribes must also occur in coordination with the Washington state department of transportation.

(c) The independent review team shall make regular presentations to the joint transportation committee and, by request, to the transportation committees of the legislature.

~~((+9))~~ (8) The joint transportation committee shall also convene a work group that includes, but is not limited to, the executive committee of the joint transportation committee, the office of financial management, the Washington state department of transportation, and the Washington state treasurer's office to develop recommendations, by October 15, 2023, to meet the challenge of identifying an achievable delivery schedule for completing transportation projects across the state.

(9) (a) \$450,000 of the motor vehicle account—state appropriation is for the joint transportation committee to conduct a study and make recommendations on alternative

project delivery methods that may be used by the Washington state department of transportation in public works contracting. The study must review use of design-build, design-bid-build, progressive design build, general contractor/construction manager, public-private partnerships, and other contracting methods, and how choice of project delivery method impacts cost, contract competition, and project delivery schedule.

(b) The study must also evaluate other innovative project delivery practices utilized around the country and Washington state-specific possibilities such as: (i) Increased use of the advanced environmental mitigation revolving account and advance right-of-way revolving fund as cost containment strategies; and (ii) benefits and costs associated with the bundling of bridge, culvert, or other groups of projects into single procurement packages.

(c) The study must specifically examine contracting methods, alternative bundling concepts, and other options to manage costs as the Washington state department of transportation continues to make progress on meeting the requirements of the federal U.S. v. Washington court injunction.

(d) The study must include recommendations on any changes to current practices and statutory requirements.

(e) In developing project delivery method recommendations, the joint transportation committee must engage with industry stakeholders including, but not limited to, engineering, contracting, environmental, and women and minority-owned business communities.

(f) A preliminary report is due to the office of the governor and the transportation committees of the legislature by December 15, 2024. A final report is due to the office of the governor and the transportation committees of the legislature by June 30, 2025.

(10) (a) \$375,000 of the motor vehicle account—state appropriation is for the joint transportation committee to contract with the municipal research and services center to convene a project delivery streamlining work group to review streamlining options and recommend practices that support expedited project delivery.

(b) The work group must consist of, but is not limited to, the following members:

(i) One representative from a city with a population of more than 5,000 and fewer than 50,000;

(ii) One representative from a city with a population of more than 50,000;

(iii) One representative from a county with a population of more than 100,000 and fewer than 400,000;

(iv) One representative from a county with a population of more than 400,000;

(v) At least one representative of a transit agency serving a rural county;

(vi) At least one representative of a transit agency serving an urban county;

(vii) At least one representative of a regional transit authority;

(viii) At least one representative of a public port;

(ix) A representative from the county road administration board;

(x) A representative of the transportation improvement board;

(xi) A representative of the freight mobility strategic investment board;

(xii) At least one representative from the department of transportation's local programs division with experience in federal funding oversight; and

(xiii) At least two representatives from the department of transportation with expertise in procurement and the multiagency permit program.

(c) Of the members described in (b) of this subsection, at least one of the city representatives and one of the county representatives must have public works contracting experience, and at least one of the city representatives and one of the county representatives must have public works project management experience.

(d) The work group must review options for project streamlining to expedite project delivery that include, but are not limited to: Preapplication communication; partnership agreements; contracting processes; fund sources; mitigation; land use; rights-of-way; permitting; and shared technology; and must identify opportunities for pilot projects to test some of these recommendations.

(e) The work group must submit a preliminary report to the office of the governor and the transportation committees of the legislature by December 15, 2024. The work group must submit a final report to the office of the governor and the transportation committees of the legislature by June 30, 2025.

(11) \$100,000 of the Puget Sound ferry operations account—state appropriation is for the joint transportation committee to convene a work group in advance of the 75th anniversary of the Washington state ferries on June 1, 2026, to review Washington state ferry funding requirements and options to increase dedicated funding sources for the ferry system. The executive committee of the joint transportation committee may appoint relevant stakeholders as part of the work group. A preliminary report must be submitted to the governor and transportation committees of the legislature by December 15, 2024, and the legislature intends that a final report will be submitted to the governor and transportation committees of the legislature by June 1, 2026.

(12) Beginning January 1, 2025, \$477,000 of the carbon emissions reduction account—state appropriation is for the joint transportation committee to conduct a study of the impacts of implementing California's emissions standards for ocean-going vessels at berth in Titles 13 and 17 of the California Code of Regulations in Washington. The study must include estimates of greenhouse gas emissions reductions, criteria air pollutant reductions, potential labor impacts, potential impacts on shipping costs and port competitiveness, and shore power infrastructure needs and costs. The joint transportation committee must, at a minimum, coordinate with the department of ecology, department of transportation,

representatives from Washington ports, shippers, utilities, and the trucking industry, impacted labor unions, and environmental organizations. The joint transportation committee must report to the transportation committees of the legislature by June 30, 2025.

(13) (a) \$250,000 of the multimodal transportation account—state appropriation is for the joint transportation committee to contract with a national expert on developing inclusive, mixed-income, mixed-use transit-oriented housing to complete a review of transit-oriented development conditions in cities in King, Pierce, Spokane, Clark, and Snohomish counties that (i) have populations of more than 12,500; and (ii) have at least one major transit stop, as defined in RCW 36.70A.030. The contracted party must have demonstrated expertise in understanding the impact of housing development on racially diverse communities, as well as expertise in, and existing peer-reviewed research on, developing housing near transit that is inclusive of low-income, workforce, and market rate housing.

(b) The review must look at any comprehensive plans, housing-focused local tax and fee programs, and development regulations required to be adopted on or before December 31, 2024. The review must include examples of local and national best practices for developing affordable housing and workforce housing near transit, and allow for comparison on a city-by-city basis. The review must also include a report with recommendations for state-level policy to expand housing and mixed-use transit-oriented development in Washington state, in a manner that minimizes displacement of existing communities and ensures housing near transit remains affordable to low-income Washingtonians. The contracted party shall provide its review to the appropriate committees of the legislature by June 30, 2025.

(1) \$125,000 of the multimodal transportation account—state appropriation and \$125,000 of the motor vehicle account—state appropriation are provided solely for the commission to update the statewide transportation plan required under RCW 47.01.071(4). The update process must be informed by guidance from a steering committee comprised of the commission, the joint transportation committee's executive committee, the governor's office, the secretary of the department of transportation, and representatives of metropolitan and regional transportation planning organizations. As part of the update process, the commission shall undertake specific actions in the following order:

(a) Conduct stakeholder outreach, gathering input, and framing the outreach around the current plan's policy construct and high level priorities, the 2022 transportation revenue package, and recently enacted significant policy legislation;

(b) Report outreach findings and results to the joint transportation committee for review and input;

(c) Restructure the plan to (i) primarily focus on high level policy priorities within the six transportation policy goals under RCW 47.04.280 and (ii) align policies, strategies, and objectives with the interests of stakeholders and legislators;

(d) Gather further input from stakeholders and the joint transportation committee on the restructured plan's format and content; and

(e) Finalize the updated plan, based upon input from stakeholders and the joint transportation committee.

(2) The legislature finds that the current balance of and projected revenues into the Alaskan Way viaduct replacement project account are sufficient to meet financial obligations during fiscal years 2024 and 2025.

(3) Within the parameters established under RCW 47.56.880, the commission shall review toll revenue performance on the Interstate 405 and state route number 167 corridor and adjust Interstate 405 tolls as appropriate to increase toll revenue to provide sufficient funds for payments of future debt pursuant to RCW 47.10.896 and to support improvements to the corridor. The commission shall consider adjusting maximum toll rates, minimum toll rates, and time-of-day rates, and restricting direct access ramps to transit and HOV vehicles only, or any combination thereof, in setting tolls to increase toll revenue. The commission is encouraged to make any adjustments to toll rates in coordination with the planned expansion of express toll lanes between the cities of Renton and Bellevue.

(4) \$500,000 of the motor vehicle account—state appropriation is provided solely for the commission to conduct a route jurisdiction study aimed at assessing the current state highway inventory and local roadway designations to determine if changes are needed in jurisdictional assignment between the state, county, and city road systems. The study must also review current criteria used to define the state highway

system to determine if such criteria continue to be applicable. The commission shall submit a report of study findings and recommendations to the transportation committees of the legislature by July 1, 2025.

(5) The commission may coordinate with the department of transportation to jointly seek federal funds available through the federal strategic innovations in revenue collection grant program, applying toll credits for meeting match requirements. The commission must provide draft applications for federal grant opportunities to the chairs and ranking members of the transportation committees of the legislature for review and comment prior to submission.

(6) The transportation commission shall conduct an assessment aimed at identifying approaches to streamlining the current rule-making process for setting toll rates and policies for eligible toll facilities, while maintaining public access and providing opportunities to provide input on proposals. The intent of the assessment is to identify rule-making approaches that support the state's ability to set toll rates and policies in a timely and efficient manner, so that the state can meet anticipated funding obligations. This assessment should include a review of rate-setting processes used by toll authorities in other states. The transportation commission shall provide recommendations to the transportation committees of the legislature by July 31, 2024.

(7) The commission shall provide regular updates on the status of ongoing coordination with the state of Oregon on any bistate agreements regarding the mutual or joint setting, adjustment, and review of toll rates and exemptions. Prior to finalizing any such agreement, the commission shall provide a draft of the agreement to the transportation committees of the legislature for review and input. Additionally, the commission shall advise on the status of any bistate agreements to the joint transportation committee beginning in September 2023 and quarterly thereafter until any agreements are finalized.

(8) \$200,000 of the motor vehicle account—state appropriation is provided solely for the commission to carry out a study assessing approaches to increasing safety and compliance of high occupancy vehicle lanes, express toll lanes, tolled facilities, and construction zones, facilitated by advanced technologies.

(a) The approaches assessed must, at a minimum, focus on advanced roadside technologies that: Are able to operate independently without connection to the department of transportation's existing communication systems and utilities; have a limited physical footprint that does not use over-roadway infrastructure; and have a 95 percent or greater license plate reading accuracy.

(b) The study must review current laws, including assessing underlying policies related to prohibitions on program cost coverage coming from infraction or other revenues generated by advanced technology systems, and identify provisions needed to

enable a future technology-based safety and compliance program.

(c) The commission shall submit an interim report to the transportation committees of the legislature by January 10, 2024, that, at a minimum, provides an initial assessment of the viability of deploying a system into operation. A final report of findings and recommendations must be submitted to the transportation committees of the legislature by June 30, 2024.

(9) \$75,000 of the multimodal transportation account—state appropriation is provided solely for the commission to carry out an initial assessment and scoping effort to determine the feasibility of creating a future west coast transportation network plan. This plan would serve to proactively identify and coordinate improvements and investments across the west coast states to freight rail, passenger rail, highways, and air transportation. The intent for the plan is to leverage and align west coast efforts to reduce our collective carbon footprint, improve freight and passenger mobility, and strengthen west coast resiliency. This effort must be carried out in partnership with the Oregon and California transportation commissions and the state department of transportations from each state, and must consider, but not be limited to:

(a) Current state activities, investments, and plans that support the establishment of clean transportation in the air, on the highways, and on rail lines moving freight and passengers;

(b) Currently identified resiliency risks along the west coast and existing strategic plans and investments that could inform a future west coast unified plan; and

(c) Incorporation of work from the statewide transportation policy plan.

(10) \$250,000 of the motor vehicle account—state appropriation is provided solely for the commission to carry out engagement with Washington stakeholders on the results of the recently completed Forward Drive research program to inform next steps on road usage charging. The commission must submit a report of findings and recommendations to the transportation committees of the legislature by December 1, 2024.

**Sec. 206.** 2023 c 472 s 206 (uncodified) is amended to read as follows:

**FOR THE FREIGHT MOBILITY STRATEGIC INVESTMENT BOARD**

Multimodal Transportation Account—State	
Appropriation. . . . .	\$400,000
Freight Mobility Investment Account—State	
Appropriation. . . . .	(\$1,591,000)
	<u>\$1,595,000</u>
<b>TOTAL APPROPRIATION. . . . .</b>	<b>(\$1,991,000)</b>
	<u>\$1,995,000</u>

The appropriations in this section are subject to the following conditions and limitations:

(1) Within appropriated funds, the freight mobility strategic investment board may opt in as provided under RCW 70A.02.030 to assume all of the substantive and

procedural requirements of covered agencies under chapter 70A.02 RCW. The board shall include in its 2023 and 2024 annual reports to the legislature a progress report on opting into the healthy environment for all act and a status report on diversity, equity, and inclusion within the board's jurisdiction.

(2) The board shall on an annual basis provide a status update on project delivery, including information on project timeline, cost, and budgeted cash flow over time to the office of financial management and the transportation committees of the legislature on the delivery of the freight mobility strategic investment projects on LEAP Transportation Document ((2023-2))2024-2 ALL PROJECTS, as developed on ((April 21, 2023))March 6, 2024.

(3) \$731,000 of the freight mobility investment account—state appropriation is provided solely for the implementation of chapter 167, Laws of 2023 (freight mobility priorities). If chapter 167, Laws of 2023 is not enacted by June 30, 2023, the amount provided in this subsection lapses.

(4) \$400,000 of the multimodal transportation account—state appropriation is provided solely for the board, in consultation with the department of transportation, to develop an implementation plan for specific truck parking solutions. It is the intent of the legislature for the board to identify specific sites to increase truck parking capacity in the near term, as well as to recommend other steps that can be taken in the 2024 and 2025 legislative sessions to increase truck parking capacity. The board must provide a status report that includes funding recommendations for the 2024 legislative session to the transportation committees of the legislature by December 1, 2023, and a final report that includes detailed findings on additional specific sites and specific actions recommended to expand truck parking capacity in the near term to the transportation committees of the legislature by December 1, 2024.

Appropriation. . . . . \$2,895,000  
TOTAL APPROPRIATION. . . . . ((~~\$642,669,000~~))  
\$660,992,000

The appropriations in this section are subject to the following conditions and limitations:

(1) \$580,000 of the state patrol highway account—state appropriation is provided solely for the operation of and administrative support to the license investigation unit to enforce vehicle registration laws in southwestern Washington. The Washington state patrol, in consultation with the department of revenue, shall maintain a running estimate of the additional vehicle registration fees, sales and use taxes, and local vehicle fees remitted to the state pursuant to activity conducted by the license investigation unit. Beginning October 1, 2023, and semiannually thereafter, the Washington state patrol shall submit a report detailing the additional revenue amounts generated since July 1, 2023, to the director of the office of financial management and the transportation committees of the legislature. At the end of the fiscal quarter in which it is estimated that more than \$625,000 in state sales and use taxes have been remitted to the state since July 1, 2023, the Washington state patrol shall notify the state treasurer and the state treasurer shall transfer funds pursuant to section 406 ((~~of this act~~)), chapter 472, Laws of 2023.

(2) Washington state patrol officers engaged in off-duty uniformed employment providing traffic control services to the department of transportation or other state agencies may use state patrol vehicles for the purpose of that employment, subject to guidelines adopted by the chief of the Washington state patrol. The Washington state patrol must be reimbursed for the use of the vehicle at the prevailing state employee rate for mileage and hours of usage, subject to guidelines developed by the chief of the Washington state patrol.

(3)(a) By December 1st of each year during the 2023-2025 fiscal biennium, the Washington state patrol must report to the transportation committees of the legislature on the status of recruitment and retention activities as follows:

- (i) A summary of recruitment and retention strategies;
- (ii) The number of transportation funded staff vacancies by major category;
- (iii) The number of applicants for each of the positions by these categories;
- (iv) The composition of workforce;
- (v) Other relevant outcome measures with comparative information with recent comparable months in prior years; and
- (vi) Activities related to the implementation of the agency's workforce diversity plan, including short-term and long-term, specific comprehensive outreach,

and recruitment strategies to increase populations underrepresented within both commissioned and noncommissioned employee groups.

(b) During the 2023-2025 fiscal biennium, the office of financial management, with assistance of the Washington state patrol, must conduct two surveys regarding the competitiveness with law enforcement agencies within the boundaries of the state of Washington pursuant to RCW 43.43.380, with the first survey being informational regarding the change since the last survey was conducted and the second survey used as part of the collective bargaining process. Prior to the 2024 legislative session, the office of financial management, with assistance of the Washington state patrol, must also provide comparison information regarding recruitment bonus amounts currently being offered by local law enforcement agencies in the state.

(4)(a) \$6,575,000 of the state patrol highway account—state appropriation is provided solely for the land mobile radio system replacement, upgrade, and other related activities.

(b) Beginning January 1, 2024, the Washington state patrol must report semiannually to the office of the chief information officer on the progress related to the projects and activities associated with the land mobile radio system, including the governance structure, outcomes achieved in the prior six-month time period, and how the activities are being managed holistically as recommended by the office of the chief information officer. At the time of submittal to the office of the chief information officer, the report must be transmitted to the office of financial management and the transportation committees of the legislature.

((+6)) (5) \$2,688,000 of the state patrol highway account—state appropriation is provided solely for enhancing the state patrol's diversity, equity, and inclusion program, a community engagement program to improve relationships with historically underrepresented communities and to recruit and retain a diverse workforce, and contracting with an external psychologist to perform exams. The state patrol will work with the governor's office of equity and meet all reporting requirements and responsibilities pursuant to RCW 43.06D.060. Funds provided for the community engagement program must ensure engagement with communities throughout the state.

((+7)) (6)(a) \$10,000 of the state patrol highway account—state appropriation is provided solely for the Washington state patrol to administer a pilot program that implements a yellow alert system notifying the public when a hit-and-run accident resulting in a fatality or substantial bodily harm has occurred and been reported to the state patrol or other local law enforcement entity. The Washington state patrol must post on traffic message boards or share on public communication systems any identifying information acquired including, but not limited to, a complete or partial license plate number or a description of the

vehicle. Each alert must be posted or shared as such for at least 24 hours.

(b) The Washington state patrol must report the following to the transportation committees of the legislature annually until June 30, 2025:

- (i) The number of yellow alerts received;
- (ii) The number of arrests made from accidents reported on the yellow alert system;
- (iii) The number of hit-and-run accidents resulting in a fatality or substantial bodily harm statewide;
- (iv) The number of arrests made from accidents described under (b)(iii) of this subsection; and
- (v) The number of hit-and-run accidents reported statewide.

(c) The Washington state patrol must also report on the efficacy of the program and recommend in its final report if the pilot program should continue or be enacted on a permanent basis and implemented statewide, based on the results of the report.

((+8)) (7)(a) ((\$2,608,000)) \$2,243,000 of the state patrol highway account—state appropriation is provided solely for administrative costs, advertising, outreach, and bonus payments associated with developing and implementing a state trooper expedited recruitment incentive program for the purpose of recruiting and filling vacant trooper positions in the 2023-2025 fiscal biennium. The legislature is committed to continuing the state trooper expedited recruitment incentive program until the vacancy levels are significantly reduced from current levels. The recruitment, advertising, and outreach associated with this program must continue efforts to create a more diverse workforce and must also provide an accelerated pathway for joining the state patrol for high quality individuals who have previously been employed as a general authority peace officer.

(b) The state trooper expedited recruitment incentive program established by the Washington state patrol must include:

(i) Thorough hiring procedures to ensure that only the highest quality candidates are selected as cadets and as lateral hires, including extensive review of past law enforcement employment history through extensive reference checks, Brady list identification, and any other issues that may impact the performance, credibility, and integrity of the individual.

(ii) An accelerated training program for lateral hires from other agencies that recognizes the knowledge and experience of candidates previously employed in law enforcement; and

(iii) A sign-on bonus for each trooper hired through the expedited recruitment incentive program as follows:

(A) \$5,000 for each cadet after completion of the Washington state patrol academy;

(B) \$5,000 for each successful graduating cadet after completion of a one-year probation period;

(C) \$8,000 for each lateral hire after completion of the accelerated training program for lateral hires;

(D) \$6,000 for each lateral hire after completion of a one-year probation period; and

(E) \$6,000 for each lateral hire after completion of two years of service.

(c) The expenditure on the state trooper expedited recruitment incentive program is contingent upon execution of an appropriate memorandum of understanding between the governor or the governor's designee and the exclusive bargaining representative, consistent with the terms of this section. Expenditures and eligibility for the state trooper expedited recruitment incentive program established in this section are subject to the availability of amounts appropriated for this specific purpose.

(d) For the purposes of this subsection:

(i) "Cadet" means a person employed for the express purpose of receiving the on-the-job training required for attendance at the Washington state patrol academy and for becoming a commissioned trooper.

(ii) "Lateral hire" means an eligible employee previously employed as a general authority peace officer.

~~((9))~~ (8) \$3,896,000 of the state patrol highway account—state appropriation is provided solely for implementation of chapter 17, Laws of 2023 (speed safety cameras). If chapter 17, Laws of 2023 is not enacted by June 30, 2023, the amount provided in this subsection lapses.

~~((10))~~ (9) \$500,000 of the state patrol highway account—state appropriation is provided solely for bonuses and other recruitment and retention-related compensation adjustments for communication officers and other noncommissioned staff of the Washington state patrol who are covered by a collective bargaining agreement. Funding in this subsection must first be used for targeted adjustments for communication officers. Remaining amounts may be used for compensation adjustments for other noncommissioned staff. Funding provided in this subsection is contingent upon the governor or the governor's designee reaching an appropriate memorandum of understanding with the exclusive bargaining representative. Agreements reached for compensation adjustments under this section may not exceed the amounts provided. If any agreement or combination of agreements exceed the amount provided in this subsection, all the agreements are subject to the requirements of RCW 41.80.010(3).

~~((11) \$4,732,000)~~ (10) \$3,226,000 of the state patrol highway account—state appropriation is provided solely for two accelerated training programs for lateral hires. It is the intent of the legislature that the second accelerated training program for lateral hires offered in fiscal year 2025 achieves at least 40 qualified graduates based on the Washington state patrol aggressively recruiting, advertising bonus policies, and taking other steps to achieve this outcome.

~~((12))~~ (11) \$98,000 of the state patrol highway account—state appropriation is provided solely for the implementation of chapter 26, Laws of 2023 (nonconviction data). If chapter 26, Laws of 2023 is not

enacted by June 30, 2023, the amount provided in this subsection lapses.

~~((13))~~ (12) \$76,000 of the state patrol highway account—state appropriation is provided solely for the implementation of chapter 471, Laws of 2023 (negligent driving). If chapter 471, Laws of 2023 is not enacted by June 30, 2023, the amount provided in this subsection lapses.

~~((14))~~ (13) \$107,000 of the state patrol highway account—state appropriation is provided solely for the implementation of chapter 462, Laws of 2023 (domestic violence). If chapter 462, Laws of 2023 is not enacted by June 30, 2023, the amount provided in this subsection lapses.

~~((15))~~ (14) By December 1, 2024, the Washington state patrol must provide a report to the governor and appropriate committees of the legislature on the status of *McClain v. Washington State Patrol* and an update on legal expenses associated with the case.

~~((16))~~ (15) \$32,000 of the state patrol highway account—state appropriation is provided solely for the implementation of chapter 283, Laws of 2023 (illegal racing). If chapter 283, Laws of 2023 is not enacted by June 30, 2023, the amount provided in this subsection lapses.

(16) \$5,905,000 of the state patrol highway account—state appropriation is provided solely for a third arming and third trooper basic training class. The cadet class is expected to graduate in June 2025.

(17) \$2,381,000 of the state patrol highway account—state appropriation is provided solely for the Washington state patrol to implement the provisions of the settlement agreement under *Washington State Patrol Troopers Association v. Washington State Patrol, Public Employment Relations Commission Case No. 134557-U-21*.

(18) \$2,307,000 of the state patrol highway account—state appropriation is provided solely for the migration of the agency's active directory into the state enterprise active directory.

(19) \$250,000 of the state patrol highway account—state appropriation is provided solely to expand the activities of the license investigation unit to King county on a pilot basis beyond the unit's current activities in southwestern Washington. By February 15, 2025, the Washington state patrol must provide a status report on the pilot implementation.

(20) \$2,222,000 of the state patrol highway account—state appropriation is provided solely for the first planned replacement of an aging Cessna aircraft and \$100,000 of the state patrol highway account—state appropriation is provided solely for the downpayment and related costs of the second planned replacement of another aging Cessna aircraft. It is the intent of the legislature to fund the second planned Cessna replacement without financing the acquisition as soon as the aircraft can be received in the 2025-2027 fiscal biennium, and therefore, the Washington state patrol may take the necessary steps to ensure delivery of the aircraft as soon as possible in the 2025-2027 fiscal biennium.

(21) \$300,000 of the state patrol highway account—state appropriation is provided solely for individual gun safes for troopers and other staff to allow the safe storage of firearms used in the performance of their duties.

(22) \$35,000 of the state patrol highway account—state appropriation is provided solely for implementation of chapter . . . (Substitute Senate Bill No. 6146), Laws of 2024 (tribal warrants). If chapter . . . (Substitute Senate Bill No. 6146), Laws of 2024 is not enacted by June 30, 2024, the amount provided in this subsection lapses.

(23) \$250,000 of the ignition interlock device revolving account—state appropriation is provided solely to improve compliance with ignition interlock device requirements associated with impaired driving offenses. By June 30, 2025, the Washington state patrol must provide a report detailing the staff hired, the activities undertaken, and outcome information associated with improving ignition interlock device compliance rates.

(24) \$691,000 of the state patrol highway account—state appropriation is provided solely for the implementation of chapter . . . (Substitute House Bill No. 2357), Laws of 2024 (state patrol longevity bonus). If chapter . . . (Substitute House Bill No. 2357), Laws of 2024 is not enacted by June 30, 2024, the amount provided in this subsection lapses.

(25) \$46,000 of the state patrol highway account—state appropriation is provided solely for the implementation of chapter . . . (Engrossed Substitute House Bill No. 2153), Laws of 2024 (catalytic converters). If chapter . . . (Engrossed Substitute House Bill No. 2153), Laws of 2024 is not enacted by June 30, 2024, the amount provided in this subsection lapses.

The appropriations in this section are subject to the following conditions and limitations:

(1) \$1,100,000 of the highway safety account—state appropriation and \$1,100,000 of the move ahead WA flexible account—state appropriation are provided solely for the department to provide an interagency transfer to the department of children, youth, and families for the purpose of providing driver's license support. In addition to support services required under RCW 74.13.338(2), support services may include reimbursement of:

(a) The cost for a youth in foster care of any eligible age to complete a driver training education course, as outlined in chapter 46.82 or 28A.220 RCW;

(b) The costs incurred by foster youth in foster care for a motor vehicle insurance policy;

(c) The costs of roadside assistance, motor vehicle insurance deductibles, motor vehicle registration fees, towing services, car maintenance, comprehensive car insurance, and gas cards; and

(d) Any other costs related to obtaining a driver's license and driving legally and safely.

(2) \$150,000 of the highway safety account—state appropriation is provided solely for the department to conduct a study on the feasibility of implementing a mobile application for driver licensing. The department must submit a report of the study findings and any recommendations to the governor and the transportation committees of the legislature by December 1, 2024. The study must:

(a) Review the adoption actions in other states, including successes and lessons learned;

(b) Examine existing technical infrastructure and potential changes needed to maximize interoperability, utility, and privacy protection;

(c) Identify the technical investments and other costs associated with issuing digital drivers' licenses through a mobile application;

(d) Identify how the technology may impact and can be used by external stakeholders, such as law enforcement;

(e) Recommend any process changes required to implement the program successfully and ensure customer satisfaction; and

(f) Recommend any statutory changes required to allow for the usage of digital drivers' licenses, including recognition of interstate travelers.

(3)(a) \$350,000 of the highway safety account—state appropriation is provided solely for the department, in consultation with the Washington traffic safety commission, the department of health, the elder law section of the Washington state bar association, organizations representing older drivers, and driver rehabilitation specialists, to develop a comprehensive plan aimed at improving older driver safety. The department must submit a report on the comprehensive plan to the governor and the transportation committees of the legislature by December 1, 2024. The plan must include, but is not limited to:

(i) A comprehensive review of department policies surrounding older drivers and medically at-risk drivers, including:

(A) The medical assessment review process; and

(B) The counter assessment process in licensing service offices;

(ii) A feasibility analysis of the department establishing a medical advisory board to advise on general policy for at-risk drivers, driving privileges for individual medically at-risk drivers, and an appeals process for drivers whose privileges are revoked or restricted due to medical conditions;

(iii) A recommended assessment tool to determine a driver's potential risk to themselves or others when operating a motor vehicle so the department may make informed decisions on appropriate courses of action within the older driver program; and

(iv) Detailed information on how each component of the plan improves the safety associated with older drivers, while preserving the maximum level of older driver independence and privacy;

(b) The department may also use funds provided in this subsection to implement improvements to older driver traffic safety within existing authority.

(4) \$5,499,000 of the motor vehicle account—state appropriation is provided solely for the department to upgrade and improve its prorate and fuel tax system, and is subject to the conditions, limitations, and review requirements of section 701 (~~of this act~~), chapter 472, Laws of 2023. In each phase of the project, the department must ensure and document the increase in business capabilities and customer service outcomes, the improvements in fuel tax collection related information designed to resolve historical discrepancies in reporting information, and how the implementation plan mitigates risks associated with the proposed timeline and results in the sustainability of systems and platforms for the future. Before initiating the implementation phase of the project, the department must report to the office of the chief information officer on how the project

meets its FAST act modernization roadmap, and vendor management and resource plans.

(5) \$16,000 of the motorcycle safety education account—state appropriation, \$2,000 of the limited fish and wildlife account—state appropriation, \$947,000 of the highway safety account—state appropriation, \$308,000 of the motor vehicle account—state appropriation, \$14,000 of the ignition interlock device revolving account—state appropriation, and \$14,000 of the department of licensing services account—state appropriation are provided solely for the department to redesign and improve its online services and website, and are subject to the conditions, limitations, and review requirements in section 701 (~~of this act~~), chapter 472, Laws of 2023.

(6) The department shall report on a quarterly basis on licensing service office operations, associated workload, and information with comparative information with recent comparable months in prior years. The report must include detailed statewide and by licensing service office information on staffing levels, average monthly wait times, the number of enhanced drivers' licenses and enhanced identicards issued and renewed, and the number of primary drivers' licenses and identicards issued and renewed. By November 1, 2024, the department must prepare a report with recommendations on the future of licensing service office operations based on the recent implementation of efficiency measures designed to reduce the time for licensing transactions and wait times, and the implementation of statutory and policy changes made during the pandemic.

(7) For the 2023-2025 fiscal biennium, the department shall charge \$1,336,000 for the administration and collection of a motor vehicle excise tax on behalf of a regional transit authority, as authorized under RCW 82.44.135. The amount in this subsection must be deducted before distributing any revenues to a regional transit authority.

(8) \$742,000 of the motor vehicle account—state appropriation is provided solely for the increased costs associated with improvements desired to resolve delays in the production of license plates, including converting all subagents to the standard ordering process as recommended in the December 2022 plate inventory report, and to provide updated annual reports detailing changes in license plate production, inventory, and other practices taken to guard against plate production delays. The reports must be submitted to the governor and the transportation committees of the legislature by December 1, 2023, and December 1, 2024.

(9) \$243,000 of the highway safety account—state appropriation is provided solely for the department to continue to provide written materials on, place signage in licensing service offices regarding, and include into new driver training curricula, the requirements of RCW 46.61.212, the slow down and move over law.

~~((411))~~ (10) \$3,082,000 of the abandoned recreational vehicle disposal account—state appropriation is provided solely for providing reimbursements in accordance with

the department's abandoned recreational vehicle disposal reimbursement program. It is the intent of the legislature that the department prioritize this funding for allowable and approved reimbursements and not to build a reserve of funds within the account. During the 2023-2025 fiscal biennium, the department must report any amounts recovered to the office of financial management and appropriate committees of the legislature on a quarterly basis.

~~((12))~~ (11) \$1,077,000 of the highway safety account—state appropriation is provided solely for implementation of chapter 35, Laws of 2023 (CDL drug and alcohol clearinghouse) ~~((or chapter . . . (House Bill No. 1448), Laws of 2023 (CDL drug and alcohol clearinghouse))~~). ~~If ((neither)) chapter 35, Laws of 2023 ((or chapter . . . (House Bill No. 1448), Laws of 2023 are))~~ is not enacted by June 30, 2023, the amount provided in this subsection lapses.

~~((13))~~ (12) \$116,000 of the highway safety account—state appropriation is provided solely for implementation of ~~((chapter . . . (Senate Bill No. 5251), Laws of 2023 (streamlining CDL issuance) or))~~ chapter 57, Laws of 2023 (streamlining CDL issuance). ~~If ((neither chapter . . . (Senate Bill No. 5251), Laws of 2023 or))~~ chapter 57, Laws of 2023 ~~((are))~~ is not enacted by June 30, 2023, the amount provided in this subsection lapses.

~~((14))~~ (13) \$845,000 of the highway safety account—state appropriation is provided solely for the implementation of chapter 445, Laws of 2023 (improving young driver safety). If chapter 445, Laws of 2023 is not enacted by June 30, 2023, the amount provided in this subsection lapses.

~~((15))~~ (14) \$180,000 of the motor vehicle account—state appropriation is provided solely for the implementation of chapter 440, Laws of 2023 (open motor vehicle safety recalls). If chapter 440, Laws of 2023 is not enacted by June 30, 2023, the amount provided in this subsection lapses.

~~((16))~~ (15) \$497,000 of the highway safety account—state appropriation is provided solely for the implementation of chapter 466, Laws of 2023 (updating processes related to voter registration). If chapter 466, Laws of 2023 is not enacted by June 30, 2023, the amount provided in this subsection lapses.

~~((20))~~ (16) \$29,000 of the highway safety account—state appropriation is provided solely for the implementation of chapter 118, Laws of 2023 (driver's abstract changes). If chapter 118, Laws of 2023 is not enacted by June 30, 2023, the amount provided in this subsection lapses.

~~((21))~~ (17) \$47,000 of the highway safety account—state appropriation is provided solely for the implementation of chapter 453, Laws of 2023 (competency evaluations). If chapter 453, Laws of 2023 is not enacted by June 30, 2023, the amount provided in this subsection lapses.

~~((22))~~ (18) \$23,000 of the highway safety account—state appropriation is provided solely for the implementation of chapter 283, Laws of 2023 (illegal racing).

If chapter 283, Laws of 2023 is not enacted by June 30, 2023, the amount provided in this subsection lapses.

~~((23))~~ (19) \$155,000 of the highway safety account—state appropriation is provided solely for the implementation of chapter 316, Laws of 2023 (jury diversity). If chapter 316, Laws of 2023 is not enacted by June 30, 2023, the amount provided in this subsection lapses.

~~((24))~~ (20) (a) \$36,000 of the motor vehicle account—state appropriation is provided solely for the issuance of nonemergency medical transportation vehicle decals to implement the high occupancy vehicle lane access pilot program established in section 217(2) ~~((of this act))~~, chapter 472, Laws of 2023. A for hire nonemergency medical transportation vehicle is a vehicle that is a "for hire vehicle" under RCW 46.04.190 that provides nonemergency medical transportation, including for life-sustaining transportation purposes, to meet the medical transportation needs of individuals traveling to medical practices and clinics, cancer centers, dialysis facilities, hospitals, and other care providers.

(b) As part of this pilot program, the owner of a for hire nonemergency medical transportation vehicle may apply to the department, county auditor or other agent, or subagent appointed by the director, for a high occupancy vehicle exempt decal for a for hire nonemergency medical transportation vehicle. The high occupancy vehicle exempt decal allows the for hire nonemergency medical transportation vehicle to use a high occupancy vehicle lane as specified in RCW 46.61.165 and 47.52.025 during the 2023-2025 fiscal biennium.

(c) For the exemption in this subsection to apply to a for hire nonemergency medical transportation vehicle, the decal:

(i) Must be displayed on the vehicle so that it is clearly visible from outside the vehicle;

(ii) Must identify that the vehicle is exempt from the high occupancy vehicle requirements; and

(iii) Must be visible from the rear of the vehicle.

(d) The owner of a for hire nonemergency medical transportation vehicle or the owner's representative must apply for a high occupancy vehicle exempt decal on a form provided or approved by the department. The application must include:

(i) The name and address of the person who is the owner of the vehicle;

(ii) A full description of the vehicle, including its make, model, year, and the vehicle identification number;

(iii) The purpose for which the vehicle is principally used;

(iv) An attestation signed by the vehicle's owner or the owner's representative that the vehicle's owner has a minimum of one contract or service agreement to provide for hire transportation services for medical purposes with one or more of the following entities: A health insurance company; a hospital, clinic, dialysis center, or other medical institution; a day care center, retirement

home, or group home; a federal, state, or local agency or jurisdiction; or a broker who negotiates these services on behalf of one or more of these entities; and

(v) Other information as required by the department upon application.

(e) The department, county auditor or other agent, or subagent appointed by the director shall collect the fee required under (f) of this subsection when issuing or renewing a high occupancy vehicle exempt decal.

(f) The department, county auditor or other agent, or subagent must collect a \$5 fee when issuing or renewing a decal under this subsection, in addition to any other fees and taxes required by law.

(g) A high occupancy vehicle exempt decal expires June 30, 2025, and must be marked to indicate its expiration date. The decal may be renewed if the pilot program is continued past the date of a decal's expiration. The status as an exempt vehicle continues until the high occupancy vehicle exempt decal is suspended or revoked for misuse, the vehicle is no longer used as a for hire nonemergency medical transportation vehicle, or the pilot program established in section 217(2) (~~of this act~~), chapter 472, Laws of 2023 is terminated.

(h) The department may adopt rules to implement this subsection.

~~((25))~~ (21) (a) \$265,000 of the highway safety account—state appropriation is provided solely for the department to provide an interagency transfer to the Washington center for deaf and hard of hearing youth, in consultation with the department and the office of the superintendent of public instruction, to fund the cost of interpreters for driver training education for deaf and hard of hearing youth to enable them to access driver training education at the same cost as their peers, and to pilot a sustainable driver training education program to determine how best to meet the driver training education needs of deaf and hard of hearing youth in the state in the future. The pilot must include:

(i) Determination of an appropriate number of instructors and an appropriate method of certification for instructors who are fluent in American Sign Language (ASL);

(ii) Determination of how best to provide driver training education statewide to deaf and hard of hearing novice drivers;

(iii) Development of a program to offer the required curriculum under RCW 28A.220.035 to deaf and hard of hearing novice drivers; and

(iv) Capped course instruction costs for deaf and hard of hearing students at the average rate of their hearing peers.

(b) The department shall submit a report to the transportation committees of the legislature developed by the Washington center for deaf and hard of hearing youth by March 1, 2024, that provides recommendations for a permanent program to make driver education equitably accessible for deaf and hard of hearing students.

~~((26))~~ (22) \$350,000 of the highway safety account—state appropriation is provided solely for the department to

improve the process for commercial driver's license (CDL) holders to submit medical certification documents and update self-certification status to the department. The department shall:

(a) Update license express to improve the process and make it more user friendly;

(b) Add options for the driver to renew or replace the driver's CDL credentials as part of the medical or self-certification process;

(c) Add a customer verification step confirming the requested changes and clearly stating how this change will impact the driver's CDL; and

(d) Add improved messaging throughout the process.

In addition, the department shall make available on the driving record abstract a complete medical certificate downgrade history, and provide a one-time mailing to all current CDL holders explaining the process to update their medical certificate documents and self-certification.

~~((27))~~ (23) \$1,962,000 of the highway safety account—state appropriation is provided solely for the establishment of a pilot mobile licensing unit to provide licensing and identocard services. By December 1, 2024, the department must submit a report to the governor and the transportation committees of the legislature detailing the locations served, the number and type of documents issued, and other outcome measures associated with the mobile licensing unit. The report must include consideration of the facility needs of licensing service offices in the context of flexible mobile licensing services.

~~((28) \$2,000,000)~~ (24) \$2,750,000 of the highway safety account—state appropriation is provided solely for organizations providing driver's license assistance and support services. Of this amount:

(a) \$2,000,000 of the highway safety account—state appropriation is provided solely for driver's license assistance and support services in King county with an existing provider that is already providing these services to low-income immigrant and refugee women; and

(b) \$750,000 of the highway safety account—state appropriation is provided solely for additional contracts in fiscal year 2025 with organizations providing driver's license assistance and other related support services in other parts of the state.

(c) By December 1st of each year, the department must submit information on the contracted ~~((provider))~~ providers, including: The annual budget of the contracted ~~((provider))~~ providers in the preceding year; information regarding private and other governmental support for the activities of the ~~((provider))~~ providers; and a description of the number of people served, services delivered, and outcome measures. In developing its 2025-2027 biennial budget submittal, the department, after consulting with the existing organization in King county and organizations receiving funds with the fiscal year 2025 expansion, must develop a statewide delivery plan that maximizes the number of people served,

promotes efficiency in service delivery, and recognizes different models based on needs in particular areas of the state.

((30)) (25) \$8,000 of the motorcycle safety education account—state appropriation is provided solely for the implementation of chapter 137, Laws of 2023 (motorcycle safety board). If chapter 137, Laws of 2023 is not enacted by June 30, 2023, the amount provided in this subsection lapses.

((32)) (26) \$29,000 of the motor vehicle account—state appropriation is provided solely for the implementation of chapter 431, Laws of 2023 (transportation resources). If chapter 431, Laws of 2023 is not enacted by June 30, 2023, the amount provided in this subsection lapses.

((34)) (27) \$282,000 of the highway safety account—state appropriation is provided solely for the implementation of chapter 471, Laws of 2023 (negligent driving). If chapter 471, Laws of 2023 is not enacted by June 30, 2023, the amount provided in this subsection lapses.

(28) \$4,464,000 of the highway safety account—state appropriation is provided solely for costs associated with relocating licensing service offices during the 2023-2025 fiscal biennium. This includes \$2,790,000 provided for relocations in the 2023-2025 omnibus transportation appropriations act. By June 30th of each year, the department must submit a status report on licensing service offices planned for relocation during the 2023-2025 fiscal biennium.

(29) \$1,395,000 of the motor vehicle account—state appropriation is provided solely for implementation of chapter . . . (Engrossed House Bill No. 1964), Laws of 2024 (enhancing prorate and fuel tax collections). If chapter . . . (Engrossed House Bill No. 1964), Laws of 2024 is not enacted by June 30, 2024, the amount provided in this subsection lapses.

(30) \$100,000 of the highway safety account—state appropriation is provided solely for implementation of chapter . . . (Senate Bill No. 5800), Laws of 2024 (improving access to department of licensing issued documents). If chapter . . . (Senate Bill No. 5800), Laws of 2024 is not enacted by June 30, 2024, the amount provided in this subsection lapses.

(31) \$150,000 of the motor vehicle account—state appropriation is provided solely for the department to conduct a study on the feasibility of implementing a process for the electronic submittal of title and registration documents for motor vehicles, within the current vehicle licensing model. The department must submit a report of the study findings and any recommendations to the governor and the transportation committees of the legislature by September 1, 2025. The study must: (a) Review the current processes in Washington and other states, including how such processes addressed fraud prevention and document security; (b) examine existing technical infrastructure and potential changes needed to allow for completion and submittal of lien and titling documents by financial institutions and vehicle dealers to subagents, county auditors, and the

department of licensing, while maximizing interoperability, utility, data security, and customer privacy; (c) identify the technical investments and other costs associated with the submission of electronic documents by financial institutions and vehicle dealers to subagents, county auditors, and the department of licensing; (d) recommend any statutory changes required to allow for the submission of electronic documentation to subagents, county auditors, and the department of licensing; and (e) examine the impact of these technology changes on external stakeholders including, but not limited to, subagents, county auditors, financial institutions, vehicle dealers, and insurance companies.

(32) \$6,000 of the motorcycle safety education account—state appropriation, \$1,000 of the limited fish and wildlife account—state appropriation, \$406,000 of the highway safety account—state appropriation, \$137,000 of the motor vehicle account—state appropriation, \$5,000 of the ignition interlock device revolving account—state appropriation, and \$6,000 of the department of licensing services account—state appropriation are provided solely for the department of licensing for additional finance and budget staff. By December 1, 2024, the department shall submit a report to the governor and appropriate committees of the legislature on the specific steps the department has taken to address the findings of the State Auditor's Office FY2022 Accountability Audit Report No. 1032793.

(33) \$225,000 of the highway safety account—state appropriation is provided solely for the department, for incorporation into its comprehensive implementation plan required under chapter 445, Laws of 2023 (improving young driver safety), to expand driver training education requirements for driver's license purposes to persons age 18 through 24 to include: (a) An assessment of opportunities to close availability and accessibility gaps in rural and underserved areas, as specified in section 612 of this act; and (b) an analysis of the potential inclusion of a mandatory driver's education refresher course requirement consisting of in-person or virtual classroom-based instruction on risk management and hazard protections one year after licensure, as specified in section 612 of this act.

(34) \$38,000 of the motor vehicle account—state appropriation is provided solely for implementation of chapter . . . (Substitute Senate Bill No. 6115), Laws of 2024 (speed safety cameras). If chapter . . . (Substitute Senate Bill No. 6115), Laws of 2024 is not enacted by June 30, 2024, the amount provided in this subsection lapses.

(35) \$34,000 of the motor vehicle account—state appropriation is provided solely for the implementation of chapter . . . (Second Substitute House Bill No. 2014), Laws of 2024 (definition of veteran). If chapter . . . (Second Substitute House Bill No. 2014), Laws of 2024 is not enacted by June 30, 2024, the amount provided in this subsection lapses.

(36) \$159,000 of the highway safety account—state appropriation is provided solely for the implementation of

chapter . . . (Engrossed Substitute House Bill No. 1493), Laws of 2024 (impaired driving). If chapter . . . (Engrossed Substitute House Bill No. 1493), Laws of 2024 is not enacted by June 30, 2024, the amount provided in this subsection lapses.

(37) \$300,000 of the highway safety account—state appropriation is provided solely for the implementation of chapter . . . (Engrossed Second Substitute House Bill No. 2099), Laws of 2024 (state custody/ID cards). If chapter . . . (Engrossed Second Substitute House Bill No. 2099), Laws of 2024 is not enacted by June 30, 2024, the amount provided in this subsection lapses.

(38) \$50,000 of the motor vehicle account—state appropriation is provided solely for the department to conduct a study on the feasibility of implementing and administering a per mile fee program. The study must identify the staffing and resources needed to implement and administer the program, including possible technical investments, leveraging existing technology platforms. A preliminary report of the study findings relating to internal costs to administer the program is due to the governor and transportation committees of the legislature by December 31, 2024. The legislature intends to require a final report that includes potential third-party costs and options to the governor and the transportation committees of the legislature by December 31, 2025.

(39) \$2,100,000 of the highway safety account—state appropriation is provided solely for the department to increase public awareness of REAL ID. Of the amounts appropriated in this subsection, \$1,000,000 is for the department to directly contract with a communications group with experience spreading awareness about REAL ID to community-based organizations and ethnic media outlets.

	\$153,839,000

The appropriations in this section are subject to the following conditions and limitations:

(1) \$1,300,000 of the Tacoma Narrows toll bridge account—state appropriation and ((~~\$12,484,000~~))\$12,820,000 of the state route number 520 corridor account—state appropriation are provided solely for the purposes of addressing unforeseen operations and maintenance costs on the Tacoma Narrows bridge and the state route number 520 bridge, respectively. The office of financial management shall place the amounts provided in this subsection, which represent a portion of the required minimum fund balance under the policy of the state treasurer, in unallotted status. The office may release the funds only when it determines that all other funds designated for operations and maintenance purposes have been exhausted.

(2) As long as the facility is tolled, the department must provide annual reports to the transportation committees of the legislature on the Interstate 405 express toll lane project performance measures listed in RCW 47.56.880(4). These reports must include:

(a) Information on the travel times and travel time reliability (at a minimum, average and 90th percentile travel times) maintained during peak and nonpeak periods in the express toll lanes and general purpose lanes for both the entire corridor and commonly made trips in the corridor including, but not limited to, northbound from Bellevue to Rose Hill, state route number 520 at NE 148th to Interstate 405 at state route number 522, Bellevue to Bothell (both NE 8th to state route number 522 and NE 8th to state route number 527), and a trip internal to the corridor (such as NE 85th to NE 160th) and similar southbound trips; and

(b) Underlying congestion measurements, that is, speeds, that are being used to generate the summary graphs provided, to be made available in a digital file format.

(3) ((~~\$314,000~~))\$535,000 of the Interstate 405 and state route number 167 express toll lanes account—state appropriation, ((~~\$734,000~~))\$1,245,000 of the state route number 520 corridor account—state appropriation, ((~~\$315,000~~))\$535,000 of the Tacoma Narrows toll bridge account—state appropriation, and ((~~\$413,000~~))\$702,000 of the Alaskan Way viaduct replacement project account—state appropriation are provided solely for the reappropriation of unspent funds on the new tolling back office system from the 2021-2023 fiscal biennium.

(4) The department shall make detailed annual reports to the transportation committees of the legislature and the public on the department's website in a manner consistent with past practices as specified in section 209(5), chapter 186, Laws of 2022.

(5) As part of the department's 2025-2027 biennial budget request, the department shall update the cost allocation recommendations that assign appropriate costs to each of the toll funds for services provided by relevant Washington state department of transportation programs, the Washington state patrol, and the transportation commission. The recommendations shall be based on updated

traffic and toll transaction patterns and other relevant factors.

(6) Up to ~~(((\$16,460,000))~~\$16,648,000 of the amounts provided for operations and maintenance expenses on the state route number 520 facility from the state route number 520 corridor account during the 2023-2025 fiscal biennium in this act are derived from the receipt of federal American rescue plan act of 2021 funds and not toll revenues.

(7) \$500,000 of the state route number 520 corridor account—state appropriation is provided solely for the department to begin a traffic and revenue study of tolling on the state route number 520 corridor. The department, in consultation with the transportation commission, shall initiate planning work regarding updated tolling on the state route number 520 corridor.

(8) \$19,248,000 of the state route number 520 corridor account—state appropriation is provided solely for the costs of insurance for the state route number 520 floating bridge.

(9) \$75,000 of the state route number 520 corridor account—state appropriation is provided solely for the department to (a) conduct an actuarial analysis of the short and long-term costs and benefits, including risk mitigation of self-insurance as compared to the commercial insurance option for the state route number 520 floating bridge, as allowed under the terms of the state route number 520 master bond resolution, and (b) develop a plan to implement a self-insurance program for the state route number 520 floating bridge. By December 15, 2024, the department shall report to the governor and the transportation committees of the legislature on the results of the actuarial analysis and the self-insurance program. It is the intent of the legislature to implement a self-insurance program for the state route number 520 floating bridge by July 1, 2025.

~~((+2)(a)(i))~~ (1) \$500,000 of the move ahead WA account—state appropriation is provided solely for the department to conduct a detailed space study and develop an implementation plan that builds off the findings and recommendations of the department's "Telework Impact Study" completed in September 2022. Such efforts must also incorporate office space use reduction requirements for the department in this act as well as current and planned telework levels. The detailed space study and development of the implementation plan must be conducted in consultation with the office of financial management and the department of enterprise services, and must focus on office and administrative space efficiency, providing specific recommendations, cost estimates, and cost savings. While focused on office and administrative space, the department is encouraged to review other types of facilities where efficiencies can be achieved. The final study report must include:

~~((+A))~~ (a) The development of low, medium, and high scenarios based on reducing space use, with the high space reduction scenario being based on a minimum of a 30 percent reduction by 2030;

~~((+B))~~ (b) Detailed information on any increased capital and other implementation costs under each scenario;

~~((+E))~~ (e) An assessment of the commercial value and return to the state transportation funds associated with the

sale of the property from consolidation and other space efficiency measures.

((+ii)) (2) (a) The department must submit the implementation plan and final report from the detailed space study to the office of financial management and the transportation committees of the legislature by October 1, 2024.

(b) ((+i)) Conducting the detailed space study under ((+a)) subsection (1) of this ((subsection)) section must not prevent or delay the department from meeting other space use and related requirements, or where warranted by current information or opportunities.

((+ii)) (c) In addition to the reporting requirement under ((+a)) subsection (1) of this ((subsection)) section, the department must provide information to the office of financial management in its comparative analysis of office space, leases, and relocation costs required by the omnibus operating appropriations act.

**Sec. 212.** 2023 c 472 s 212 (unmodified) is amended to read as follows:  
**FOR THE DEPARTMENT OF TRANSPORTATION—TRANSPORTATION EQUIPMENT FUND—PROGRAM E**  
 Motor Vehicle Account—State Appropriation. \$700,000  
 Move Ahead WA Account—State Appropriation. \$20,000,000  
 Multimodal Transportation Account—State Appropriation. . . . . \$433,000  
**TOTAL APPROPRIATION. . . . . (((\$20,433,000)) \$21,133,000**

The appropriations in this section are subject to the following conditions and limitations:

(1) The entire move ahead WA account—state appropriation is provided solely for the department's costs related to replacing obsolete transportation equipment and replacing fuel sites. Beginning December 1, 2024, and annually thereafter, the department must provide a report to the office of financial management and the transportation committees of the legislature detailing the current progress on replacing obsolete equipment, progress towards reaching a level purchasing state, and the status of a fuel site replacement prioritization plan. The report must also include:

(a) A list of department owned and managed fuel sites prioritized by urgency of replacement;

(b) A discussion of department practices that would create a sustained revenue source for capital repair and replacement of fuel sites; and

(c) A discussion of to what extent the fuel site infrastructure can support zero emissions vehicles.

(2) (a) \$100,000 of the multimodal transportation account—state appropriation is provided solely for the department to administer a pilot program to install and test intelligent speed monitoring technology in a portion of the department's fleet of vehicles while using global positioning system technology and other mapping tools to monitor vehicle location and corresponding speed limits on traveled roadways.

(b) The pilot program must begin by January 1, 2024, for a 12-month period. By June 30, 2025, the department must report to the transportation committees of the legislature the results of the pilot program and provide any legislative or policy recommendations.

**Sec. 213.** 2023 c 472 s 213 (unmodified) is amended to read as follows:  
**FOR THE DEPARTMENT OF TRANSPORTATION—AVIATION—PROGRAM F**  
 Aeronautics Account—State Appropriation. (((\$13,979,000)) \$17,448,000  
 Aeronautics Account—Federal Appropriation. (((\$3,650,000)) \$5,579,000  
 Aeronautics Account—Private/Local Appropriation. . . . . \$60,000  
**TOTAL APPROPRIATION. . . . . (((\$17,689,000)) \$23,087,000**

The appropriations in this section are subject to the following conditions and limitations:

(1) \$2,000,000 of the aeronautics account—state appropriation is provided solely for the move ahead WA aviation grants. The department shall prioritize projects eligible for federal funding.

(2) \$1,476,000 of the aeronautics account—state appropriation is provided solely for sustainable aviation grants recommended by the department under the sustainable aviation grants program. The department shall submit a report to the transportation committees of the legislature by October 1, 2024, identifying a selection of sustainable aviation projects for funding by the legislature. In considering projects to recommend to fund, the department shall only consider projects that advance the state of sustainable aviation technology and lead to future innovation. Innovative sustainable aviation projects may include, but are not limited to, pilot projects demonstrating the use of:

- (a) Mobile battery charging technology;
- (b) Hydrogen electrolyzers and storage;
- (c) Electric ground equipment; and
- (d) Hanger charging technology.

(3) \$300,000 of the aeronautics account—state appropriation is provided solely for the department to develop a statewide advanced air mobility aircraft plan to develop and integrate advanced air mobility aircraft into current modal systems. The department shall submit a report by June 1, 2025, to the office of financial management and the transportation committees of the legislature including, but not limited to:

(a) Near, medium, and long-term recommendations for land use planning for advanced and urban air mobility vertiports and vertistops;

(b) An inventory of infrastructure needs to support a statewide vertiport network and a recommended program to deploy funds to local governments to share costs;

(c) Proposed state governance structures and regulatory mechanisms to adequately complement federal aviation administration oversight;

(d) Recommended policies to foster vertiport and vertistop infrastructure development that ensure open public access, efficiency in land use siting, and equitable distribution across the state; and

(e) In consultation with local jurisdictions, planning organizations, and other modal managers, recommendations on advanced air mobility aircraft integration into statewide transportation plans.

(4) \$1,931,000 of the aeronautics account—state appropriation is provided solely for the implementation of chapter 463, Laws of 2023 (commercial aviation services). ~~((If chapter 463, Laws of 2023 is not enacted by June 30, 2023, the amount in this subsection lapses.))~~ Funding is provided for the activities of the work group and for support of the work group by the department. The activities of the work group include the issuance of the initial progress report, required in section 4, chapter 463, Laws of 2023, which requires the listing of areas that will not have further review as the areas are in conflict with the operations of a military installation. The report must also identify unsuitable geographies due to either environmental impacts or impacts to overburdened communities. Additionally, within the funding provided, the work group must:

(a) Work to understand what studies currently exist on state transportation needs and capacities and identify any gaps of information; and

(b) Conduct meaningful community engagement with overburdened and vulnerable populations with a focus on the environmental justice impact of aviation on communities.

(5) \$300,000 of the aeronautics account—state appropriation is provided solely for the Port of Bremerton to conduct a study on the feasibility of offering commercial service at the Port of Bremerton airport. Pursuant to RCW 47.68.090(2)(c), the department may not require a match for this project.

(6) \$2,575,000 of the aeronautics account—state appropriation is provided solely for the Pullman-Moscow regional airport. Pursuant to RCW 47.68.090(2)(c), the department may not require a match for this project.

Sec. 214. 2023 c 472 s 214 (uncodified) is amended to read as follows:

**FOR THE DEPARTMENT OF TRANSPORTATION—PROGRAM DELIVERY MANAGEMENT AND SUPPORT—PROGRAM H**  
Motor Vehicle Account—State Appropriation.  
(((\$64,470,000))

	<u>\$65,161,000</u>
Motor Vehicle Account—Federal Appropriation	\$500,000

Move Ahead WA Flexible Account—State Appropriation	\$572,000
<b>TOTAL APPROPRIATION</b>	<b>((((\$66,393,000)))</b>
	<u>\$67,584,000</u>

The appropriations in this section are subject to the following conditions and limitations:

(1) During the 2023-2025 fiscal biennium, if the department takes possession of the property situated in the city of Edmonds for which a purchase agreement was executed between Unocal and the department in 2005 (Tax Parcel Number 262703-2-003-0009), and if the department confirms that the property is still no longer needed for transportation purposes, the department shall provide the city of Edmonds with the first right of purchase at fair market value in accordance with RCW 47.12.063(3) for the city's intended use of the property to rehabilitate near-shore habitat for salmon and related species.

(2) \$469,000 of the motor vehicle account—state appropriation is reappropriated and provided solely for the implementation of chapter 217, Laws of 2021 (noxious weeds).

(3) The department shall determine the fair market value of the northern parcel of site 14 on the Puget Sound Gateway Program SR 509 Completion Project Surplus Property list, located immediately south of S. 216th Street and adjacent to the Barnes Creek Nature Trail in Des Moines, to be submitted to the transportation committees of the legislature by December 15, 2023, for an evaluation of possible next steps for use of the property that is in the public interest.

(4) ~~((The appropriations in this section provide sufficient funding for the department assuming vacancy savings that may change over time. Funding for staffing will be monitored and adjusted in the 2024 supplemental transportation appropriations act to restore funding as authorized staffing levels are achieved.~~

~~(5))~~ (a) \$572,000 of the move ahead WA flexible account—state appropriation is provided solely to track and maximize clean fuels credits and revenue generated by state agencies pursuant to chapter 70A.535 RCW.

(b) The LEAP Transportation Document ~~((2023-2) 2024-2 ALL PROJECTS as developed ((April 21, 2023)) March 6, 2024, anticipates fulfillment of the requirements under chapter 70A.535 RCW of generating credits and revenue for transportation investments funded in an omnibus transportation appropriations act, including the move ahead WA transportation package. The omnibus transportation appropriations act anticipates credits for ferry electrification for new hybrid electric vessels, active transportation, transit programs and projects, alternative fuel infrastructure, connecting communities, and multimodal investments.~~

(c) Pursuant to the reporting requirements of RCW 70A.535.050(5), the department must present a detailed projection of the credit revenues generated and achieved directly as a result of the funding and activities in this subsection.

~~((+6))~~ (5) \$93,000 of the multimodal transportation account—state appropriation is provided solely for the implementation of chapter 169, Laws of 2023 (climate resilience strategy). ~~((If chapter 169, Laws of 2023 is not enacted by June 30, 2023, the amount provided in this subsection lapses.))~~

(6) (a) \$1,600,000 of the motor vehicle account—state appropriation is provided solely for real estate services activities.

The legislature finds that the following sections of public roadway owned by the department are no longer necessary for the state highway system:

(i) That segment of 267th Street NW located south of state route number 532 and west of Interstate 5 in the vicinity of the intersection of state route number 532 and 19th Avenue NW, serving parcel numbers: 32042600202300, 32042600102200, 32042600100600, 32042600100700, 32042600100400, 32042600100800, 32042600102700, 32042600101000, and 32042600102300;

(ii) That segment of Tester Road located adjacent to the south side of state route number 522;

(iii) That segment of Bostian Road including as it turns and becomes 224th Street SE located on the south side of state route number 522 in the vicinity of 87th Ave SE; and

(iv) That segment of W. Bostian Road located on the north side of state route number 522.

(b) Therefore, pursuant to RCW 36.75.090, the department shall certify that these roadways are no longer needed by the state and convey the roadways to the county for continued use as public highways for motor vehicle use. Additionally, in consideration of the value of maintenance services provided by the county on the roadway comprising 267th Street NW during the time of department ownership, the department shall grant temporary access permits, for those properties abutting the conveyed segment of 267th Street NW, to use 19th Avenue NW for access to state route number 532, upon the payment of \$5,000 for each new parcel taking access from 19th Ave to state route number 532 and a traffic impact analysis showing no significant safety impacts to state route number 532. The temporary access permits may be terminated when the conveyed segment of 267th Street NW is extended out to intersect with Sunday Lake Road, or when an alternate access route is established connecting to Sunday Lake Road.

(7)(a) \$500,000 of the multimodal transportation account—state appropriation is provided solely for the department to explore alternative uses of the state's highway rights-of-way to address pressing public needs relating to climate change, equitable communications, renewable energy generation, electrical transmission and distribution projects, broadband projects, vegetation management, inductive charging in travel lanes, alternative fueling facilities, and other appropriate uses. In exploring alternative uses of the state's highway rights-of-way, the department shall:

(i) Review the utility accommodation policy and make recommendations to update the policy to include clean energy and connectivity projects under 23 C.F.R. Part 645. At a minimum, the recommendations for updated clean energy and connectivity projects must include renewable energy and electrical transmission and distribution;

(ii) Review and update the department's integrated roadside vegetation management plans to maximize carbon sequestration and

develop habitat and forage for native pollinators, Monarch butterflies, and honeybees through plantings of native noninvasive flowering plants and grasses on the state highways rights-of-way and at safety rest areas;

(iii) Assess the state highways rights-of-way land areas most suitable for solar development by considering slope, elevation, vegetative cover, and solar radiation; and

(iv) Identify existing highway rights-of-way suitable as designated energy corridors for electric transmission and distribution and other energy infrastructure.

(b) In carrying out the requirements in (a) of this subsection, the department may consult with an organization that uses an advanced rights-of-way solar mapping tool that uses ArcGIS Pro software for faster and more precise analysis of rights-of-way solar using the state's full spatial rights-of-way data sets.

(c) The department must report its findings, recommendations, and status of its updates to the transportation committees of the legislature by January 15, 2025.

(8) To assist the department as it continues to make progress on meeting the requirements of the federal U.S. v. Washington court injunction and to address estimated programmatic cost increases, within the funding provided in this section, the department shall analyze contracting methods, alternative bundling concepts, and other options to manage costs. The department shall provide a report outlining recommendations to the governor and transportation committees of the legislature by December 15, 2024.

**Sec. 215.** 2023 c 472 s 215 (unmodified) is amended to read as follows: **FOR THE DEPARTMENT OF TRANSPORTATION—PUBLIC-PRIVATE PARTNERSHIPS—PROGRAM K**

Motor Vehicle Account—State Appropriation.	(\$694,000)	\$703,000
Electric Vehicle Account—State Appropriation		\$4,746,000
Multimodal Transportation Account—State Appropriation		\$4,400,000
Multimodal Transportation Account—Federal Appropriation		\$25,000,000
Carbon Emissions Reduction Account—State Appropriation	(\$164,600,000)	\$195,025,000
<b>TOTAL APPROPRIATION</b>	<b>(\$199,440,000)</b>	<b>\$229,874,000</b>

The appropriations in this section are subject to the following conditions and limitations:

(1) \$3,746,000 of the electric vehicle account—state appropriation ~~((and))~~, \$30,000,000 of the carbon emissions reduction ~~((emissions))~~ account—state appropriation, and beginning January 1, 2025, \$15,000,000 of the carbon emissions reduction account—state appropriation are provided solely for the clean alternative fuel vehicle charging and refueling infrastructure program in chapter 287, Laws of 2019 (advancing green transportation adoption).

(2) \$1,000,000 of the electric vehicle account—state appropriation and \$500,000 of the multimodal transportation account—state appropriation are provided solely for a colocated DC fast charging and hydrogen fueling station near the Wenatchee or East Wenatchee area near a state route or near or on a publicly owned facility to service passenger, light-duty and heavy-duty vehicles. The hydrogen fueling station must include a DC fast charging station colocated at the hydrogen fueling station site. Funds may be used for one or more fuel cell electric vehicles that would utilize the fueling stations. The department must contract with a public utility district that produces hydrogen in the area to own and/or manage and provide technical assistance for the design, planning, permitting, construction, maintenance and operation of the hydrogen fueling station. The department and public utility district are encouraged to collaborate with and seek contributions from additional public and private partners for the fueling station.

~~((5))~~ (3) The public-private partnerships program must continue to explore retail partnerships at state-owned park and ride facilities, as authorized in RCW 47.04.295.

~~((6))~~ (4) \$1,200,000 of the multimodal transportation account—state appropriation ~~(and)~~ \$2,000,000 of the carbon emissions reduction ((emissions)) account—state appropriation, and beginning January 1, 2025, \$3,400,000 of the carbon emissions reduction account—state appropriation, are provided solely for the pilot program established under chapter 287, Laws of 2019 (advancing green transportation adoption) to provide clean alternative fuel vehicle use opportunities to underserved communities and low to moderate income members of the workforce not readily served by transit or located in transportation corridors with emissions that exceed federal or state emissions standards. Consistent with the geographical diversity element described in RCW 47.04.355(4), the legislature strongly encourages the department to consider implementing the pilot in both urban and rural communities if possible, to obtain valuable information on the needs of underserved communities located in different geographical locations in Washington.

~~((7))~~ (5) \$120,000,000 of the carbon emissions reduction account—state appropriation ~~((is))~~, and beginning January 1, 2025, \$10,000,000 of the carbon emissions reduction account—state appropriation, are provided solely for implementation of zero-emission ~~((commercial vehicle))~~ medium and heavy-duty vehicle and equipment infrastructure and incentive programs and for the replacement of school buses powered by fossil fuels with zero-emission school buses, including the purchase and installation of zero-emission school bus refueling infrastructure.

(a) Of this amount, \$20,000,000 is for the department to administer an early action grant program to provide expedited funding ~~((to zero-emission commercial vehicle infrastructure demonstration projects))~~ for the replacement of school buses powered by

fossil fuels with zero-emission school buses, including the purchase and installation of zero-emission school bus refueling infrastructure. The department must contract with ~~((a third-party administrator))~~ the department of ecology to implement the early action grant program.

(b) ~~((The office of financial management shall place the remaining \$100,000,000 in unallotted status until the joint transportation committee completes the medium and heavy duty vehicle infrastructure and incentive strategy required under section 204 of this act. The director of the office of financial management or the director's designee shall consult with the chairs and ranking members of the transportation committees of the legislature prior to making a decision to allot these funds.))~~ (i) The remaining \$110,000,000, inclusive of costs for program administration and staffing, is for a point-of-sale voucher incentive program to encourage the faster adoption of zero-emission medium and heavy-duty vehicles to further state climate goals under RCW 70A.45.020 and state equity goals under chapter 70A.02 RCW. The voucher incentive program must be administered by a third-party administrator that has experience administering voucher incentive programs, with oversight conducted by the department.

(ii) The voucher program is required to be designed based on the recommendations of the Joint Transportation Committee report *Washington State Infrastructure and Incentive Program Design for MHD ZEVs*, and to include:

(A) Simplified zero-emission vehicle eligibility requirements;

(B) Vehicle and infrastructure incentives aligned with programs in other jurisdictions, where appropriate, to streamline user planning;

(C) Financial enhancements for select populations based on equity considerations, including for vehicles in disadvantaged communities and vehicles to be purchased by small, minority-owned businesses, with consideration for support of the secondary vehicle market;

(D) A centralized user and manufacturer portal for information, application, and assistance;

(E) A fleet assistance and qualification program to assist in zero-emission vehicle and infrastructure planning, to be administered by the Washington State University extension energy program in coordination with the department and the voucher program's third-party administrator; and

(F) A voucher preapproval process to evaluate participant eligibility, readiness for fleet deployment, and infrastructure preparedness.

(iii) The following battery electric and hydrogen fuel cell electric vehicle categories and associated charging, as well as refueling infrastructure for these categories, are eligible for the voucher program, subject to additional qualification criteria to be determined by the department and the voucher program third-party administrator:

(A) On-road vehicles from class 2b, heavy work pickups and vans, through class 8, heavy tractor-trailer units and refuse trucks; and

(B) Cargo handling and off-road equipment.

(iv) School buses and transit vehicles eligible for state grant programs for the purchase of zero-emission vehicles are not eligible for vouchers under this program, but are eligible for fleet assistance provided in association with the voucher program, which must include assistance in determining state and federal grant eligibility for these vehicles.

(v) The voucher amounts selected by the department and voucher program third-party administrator must further the policy goals of the program cited in (b)(i) of this subsection by offsetting investments required for medium and heavy-duty vehicle and equipment owners to transition to zero-emission vehicles and equipment. The department and voucher program third-party administrator must condition vehicle and infrastructure voucher funding to ensure these program policy goals are furthered through the voucher funding provided.

(vi) Consistent with voucher program design, the department is required to distribute funds to the voucher program third-party administrator sufficiently in advance of final requirements for voucher distribution being met to facilitate the voucher's timely distribution by the third-party administrator to sellers of zero-emission vehicles and infrastructure.

~~((8) \$3,000,000 of the carbon emissions reduction account state appropriation is provided solely for hydrogen refueling infrastructure investments. The office of financial management shall place the amounts provided in this subsection in unallotted status until the joint transportation committee completes the medium and heavy duty vehicle infrastructure and incentive strategy required under section 204 of this act. The director of the office of financial management or the director's designee shall consult with the chairs and ranking members of the transportation committees of the legislature prior to making a decision to allot these funds.~~

~~(9)) (6) \$2,100,000 of the carbon emissions reduction account—state appropriation is provided solely to fund electric vehicle charging infrastructure for the electric charging megasite project at Mount Vernon library commons.~~

~~((10) \$2,500,000 of the carbon emissions reduction account—state appropriation is provided solely for zero-emission cargo handling equipment incentives. The office of financial management shall place the amounts provided in this subsection in unallotted status until the joint transportation committee completes the medium and heavy duty vehicle and cargo handling and off-road equipment infrastructure and incentive strategy required under section 204 of this act. The director of the office of financial management or the director's designee shall consult with the chairs and ranking members of the transportation committees of the~~

~~legislature prior to making a decision to allot these funds.~~

~~(11) \$5,000,000 of the carbon emissions reduction account—state appropriation is provided solely for clean off-road equipment incentives. The office of financial management shall place the amounts provided in this subsection in unallotted status until the joint transportation committee completes the medium and heavy duty vehicle and cargo handling and off-road equipment infrastructure and incentive strategy required under section 204 of this act. The director of the office of financial management or the director's designee shall consult with the chairs and ranking members of the transportation committees of the legislature prior to making a decision to allot these funds.~~

~~(12)) (7) \$2,500,000 of the multimodal transportation account—state appropriation is provided solely for the department to coordinate with cities, counties, ports, and private entities to develop actionable recommendations for state assistance in the development of specific candidate truck parking sites to be developed with amenities, identified by location. The department shall identify private land parcels for potential development of sites, which may include, but should not be limited to, a feasibility analysis of sites adjacent to Interstate 90 near North Bend for a 400 to 600 space truck parking site. The public benefit of each potential truck parking site must be included in this assessment. The department shall consider opportunities for the state to provide assistance in the development of truck parking sites, including possible opportunities to provide assistance in land acquisition and evaluating land use requirements. The department must update the transportation committees of the legislature on agency activities and their status by December 1, 2023, and to provide a final report to the transportation committees of the legislature by December 1, 2024.~~

~~(8) Beginning January 1, 2025, \$1,000,000 of the carbon emissions reduction account—state appropriation is provided solely for grants, and to serve as a state match for secured federal funds, to finance hydrogen refueling infrastructure for medium and heavy-duty vehicles with a focus on locations in disadvantaged and overburdened communities, where possible. The department, in consultation with the interagency electric vehicle coordinating council, should pursue any federal funding available through the charging and fueling infrastructure discretionary grant program and any other sources under the federal infrastructure investment and jobs act (P.L. 29 117-58).~~

~~(9) Beginning January 1, 2025, \$800,000 of the carbon emissions reduction account—state appropriation is provided solely for the cities of Bellevue and Redmond to each purchase an electric fire engine.~~

~~(10) Beginning January 1, 2025, \$1,725,000 of the carbon emissions reduction account—state appropriation is provided solely for a Tacoma Public Utilities medium-duty zero-emission utility service vehicle~~

pilot project that includes charging infrastructure and mobile battery units.

<b>TOTAL APPROPRIATION. ....</b>	<b>((609,832,000))</b> <b><u>\$621,402,000</u></b>

The appropriations in this section are subject to the following conditions and limitations:

(1) \$5,000,000 of the motor vehicle account—state appropriation is provided solely for a contingency pool for snow and ice removal. The department must notify the office of financial management and the transportation committees of the legislature when they have spent the base budget for snow and ice removal and will begin using the contingency pool funding.

(2)(a) \$115,000 of the state route number 520 corridor account—state appropriation is provided solely for the department to enter into a dispute resolution process with local jurisdictions to produce interagency agreements to address the ongoing facility and landscape maintenance of the three state route number 520 eastside lids and surrounding areas at the Evergreen Point Road, 84th Avenue NE, and 92nd Avenue NE.

(b) The agreements pursuant to (a) of this subsection must be executed by June 30, 2024.

~~(3) ((The appropriations in this section provide sufficient funding for the department assuming vacancy savings that may change over time. Funding for staffing will be monitored and adjusted in the 2024 supplemental transportation appropriations act to restore funding as authorized staffing levels are achieved.~~

~~(4))~~ (a) ~~((7,000,000))~~ \$9,000,000 of the motor vehicle account—state appropriation is provided solely for the department to address the risks to safety and public health associated with homeless encampments on department owned rights-of-way. The department must coordinate and work with local government officials and social service organizations who provide services and direct people to housing alternatives that are not in highway rights-of-way to

help prevent future encampments from forming on highway rights-of-way and may reimburse the organizations doing this outreach assistance who transition people into treatment or housing or for debris clean up on highway rights-of-way. A minimum of \$2,000,000 of this appropriation must be used to deliver more frequent removal of litter on the highway rights-of-way that is generated by unsheltered people and may be used to hire crews specializing in collecting and disposing of garbage, clearing debris or hazardous material, and implementing safety improvements where hazards exist to the traveling public and department employees. The department may use these funds to either reimburse local law enforcement costs or the Washington state patrol if they are providing enhanced safety to department staff during debris cleanup or during efforts to prevent future encampments from forming on highway rights-of-way.

(b) Beginning November 1, 2023, and semiannually thereafter, the Washington state patrol and the department of transportation must jointly submit a report to the governor and the transportation committees of the legislature on the status of these efforts, including:

(i) A summary of the activities related to addressing encampments, including information on arrangements with local governments or other entities related to these activities;

(ii) A description of the planned activities in the ensuing two quarters to further address the emergency hazards and risks along state highway rights-of-way; and

(iii) Recommendations for executive branch or legislative action to achieve the desired outcome of reduced emergency hazards and risks along state highway rights-of-way.

~~((5))~~ (4) \$1,000,000 of the motor vehicle account—state appropriation is provided solely for a partnership program between the department and the city of Spokane, to be administered in conjunction with subsection ~~((4))~~ (3) of this section. The program must address the safety and public health problems created by homeless encampments on the department's property along state highways within the city limits. \$555,000 of the motor vehicle account—state appropriation is for dedicated department maintenance staff and associated clean-up costs. The department and the city of Spokane shall enter into a reimbursable agreement to cover up to \$445,000 of the city's expenses for clean-up crews and landfill costs.

~~((6))~~ (5) \$1,025,000 of the motor vehicle account—state appropriation is provided solely for the department to implement safety improvements and debris clean up on department-owned rights-of-way in the city of Seattle at levels above that being implemented as of January 1, 2019, to be administered in conjunction with subsection ~~((4))~~ (3) of this section. The department must maintain a crew dedicated solely to collecting and disposing of garbage, clearing debris or hazardous material, and implementing safety improvements where hazards exist to the traveling public, department employees, or

people encamped upon department-owned rights-of-way. The department may request assistance from the Washington state patrol as necessary in order for both agencies to provide enhanced safety-related activities regarding the emergency hazards along state highway rights-of-way in the Seattle area.

((7)) (6) \$1,015,000 of the motor vehicle account—state appropriation is provided solely for a partnership program between the department and the city of Tacoma, to be administered in conjunction with subsection ((4)) (3) of this section. The program must address the safety and public health problems created by homeless encampments on the department's property along state highways within the city limits. \$570,000 of the motor vehicle account—state appropriation is for dedicated department maintenance staff and associated clean-up costs. The department and the city of Tacoma shall enter into a reimbursable agreement to cover up to \$445,000 of the city's expenses for clean-up crews and landfill costs.

((8)) (7) \$1,500,000 of the motor vehicle account—state appropriation is provided solely for the department to contract with the city of Fife to address the risks to safety and public health associated with homeless encampments on department-owned rights-of-way along the SR 167/SR 509 Puget Sound Gateway project corridor in and adjacent to the city limits pursuant to section 216(10), chapter 186, Laws of 2022. However, the amount provided in this subsection must be placed in unallotted status and may not be spent prior to November 1, 2023. If, after November 1, 2023, the department, in consultation with the office of financial management, determines that the department fully spent the \$2,000,000 appropriated in section 216(10), chapter 186, Laws of 2022, within the 2021-2023 fiscal biennium for this purpose, the amount provided in this subsection must remain in unallotted status and unspent. If the department did not fully spend the \$2,000,000 within the 2021-2023 fiscal biennium, the department may only spend from the appropriation in this subsection an amount not in excess of the amount unspent from the \$2,000,000 within the 2021-2023 fiscal biennium, with any remaining amount to remain in unallotted status and unspent. In no event may the department spend more than \$2,000,000 within the 2021-2023 and 2023-2025 fiscal biennia for this purpose.

(8) To the greatest extent practicable, the department shall schedule mowing along state highways to occur after litter pickup has been performed in the area to be mowed. This subsection is not intended to prevent mowing or other similar maintenance activities from being undertaken in the event litter pickup has not been performed.

<b>TOTAL APPROPRIATION.....</b>	<b>(\$100,879,000)</b>
	<b>\$105,979,000</b>

The appropriations in this section are subject to the following conditions and limitations:

(1) \$6,000,000 of the motor vehicle account—state appropriation is provided solely for low-cost enhancements. The department shall give priority to low-cost enhancement projects that improve safety or provide congestion relief. By December 15th of each odd-numbered year, the department shall provide a report to the legislature listing all low-cost enhancement projects completed in the prior fiscal biennium.

(2)(a) During the 2023-2025 fiscal biennium, the department shall continue a pilot program that expands private transportation providers' access to high occupancy vehicle lanes. Under the pilot program, when the department reserves a portion of a highway based on the number of passengers in a vehicle, the following vehicles must be authorized to use the reserved portion of the highway if the vehicle has the capacity to carry eight or more passengers, regardless of the number of passengers in the vehicle: (i) Auto transportation company vehicles regulated under chapter 81.68 RCW; (ii) passenger charter carrier vehicles regulated under chapter 81.70 RCW, except marked or unmarked stretch limousines and stretch sport utility vehicles as defined under department of licensing rules; (iii) private nonprofit transportation provider vehicles regulated under chapter 81.66 RCW; and (iv) private employer transportation service vehicles. For purposes of this subsection, "private employer transportation service" means regularly scheduled, fixed-route transportation service that is offered by an employer for the benefit of its employees. Nothing in this subsection is intended to authorize the conversion of public infrastructure to private, for-profit purposes or to otherwise create an entitlement or other claim by private users to public infrastructure.

(b) The department shall expand the high occupancy vehicle lane access pilot program

to vehicles that deliver or collect blood, tissue, or blood components for a blood-collecting or distributing establishment regulated under chapter 70.335 RCW. Under the pilot program, when the department reserves a portion of a highway based on the number of passengers in a vehicle, blood-collecting or distributing establishment vehicles that are clearly and identifiably marked as such on all sides of the vehicle are considered emergency vehicles and must be authorized to use the reserved portion of the highway.

(c) The department shall expand the high occupancy vehicle lane access pilot program to for hire nonemergency medical transportation vehicles, when in use for medical purposes, as described in section 208(~~((24) of this act))~~(20), chapter 472, Laws of 2023. Under the pilot program, when the department reserves a portion of a highway based on the number of passengers in a vehicle, nonemergency medical transportation vehicles that meet the requirements identified in section 208(~~((24) of this act))~~(20), chapter 472, Laws of 2023 must be authorized to use the reserved portion of the highway.

(d) Nothing in this subsection is intended to exempt these vehicles from paying tolls when they do not meet the occupancy requirements established by the department for express toll lanes.

(3) The appropriations in this section assume implementation of additional cost recovery mechanisms to recoup at least \$100,000 in credit card and other financial transaction costs related to the collection of fees imposed under RCW 46.17.400, 46.44.090, and 46.44.0941 for driver and vehicle fee transactions beginning January 1, 2023. The department may recover transaction fees incurred through credit card transactions.

(4) The department shall promote safety messages encouraging drivers to slow down and move over and pay attention when emergency lights are flashing on the side of the road and other suitable safety messages on electronic message boards the department operates across the state. The messages must be promoted through June 30, 2025. The department may coordinate such messaging with any statewide public awareness campaigns being developed by the department of licensing or the Washington state traffic safety commission, or both.

(5) \$5,000,000 of the multimodal transportation account—state appropriation is provided solely for the department to address emergent issues related to safety for pedestrians and bicyclists. Funds may only be spent after approval from the office of financial management. By December 15th of each odd-numbered year, the department shall provide a report to the legislature listing all emergent issues addressed in the prior fiscal biennium.

~~((7))~~(6) \$3,529,000 of the highway safety account—state appropriation is provided solely for implementation of chapter 17, Laws of 2023 (speed safety cameras). ~~((If chapter 17, Laws of 2023 is not enacted by June 30, 2023, the amount provided in this subsection lapses.~~

~~((8))~~(7) \$1,279,000 of the move ahead WA account—state appropriation is provided solely for maintenance and operations of the virtual coordination center. The department is encouraged to apply for federal grant funds for the virtual coordination center and may use state funds as a match. By December 1, 2023, the department shall report to the transportation committees of the legislature: (a) Recommendations to expand the center's operations, including specific additional jurisdictions and corridors across the state; and (b) amounts received and dates of receipt of any new cash and in-kind matches from virtual coordination center partners including, but not limited to, the city of Seattle, King county, other state and local jurisdictions, and private sector partners.

~~((9))~~(8) \$100,000 of the motor vehicle account—state appropriation is provided solely for the department to prepare and submit a report to the transportation committees of the legislature by December 1, 2024, with a prioritized list of recommendations for improving safety and mobility on Interstate 90 between North Bend and Cle Elum during winter weather events, including estimated costs. The recommendations must include, but are not limited to, options to improve compliance with traction tire and chain requirements and reduce snow-related closures.

~~((11))~~(9)(a) \$5,000,000 of the motor vehicle account—state appropriation is provided solely for the department, in coordination with the independent review team of the joint transportation committee, to conduct an analysis of highway, road, and freight rail transportation needs, options, and impacts from shifting the movement of freight and goods that currently move by barge through the lower Snake river dams to highways, other roads, and rail. The study should generate volume estimates and evaluate scenarios for changes in infrastructure and operations that would be necessary to address those additional volumes. The assessment must include quantitative analysis based on available data in terms of both financial and carbon emission costs; and qualitative input gathered from tribal governments, local governments, freight interests, and other key stakeholders, including impacts on disadvantaged/underserved communities. The analysis must include a robust public engagement process to solicit feedback from interested stakeholders including but not limited to: Residents and officials in affected cities and counties; stakeholders involved in railroad, agriculture, fishing, trucking, shipping and other related industries; appropriate Native American tribes; representatives of advocacy and community organizations; and transportation, public works, and economic development organizations in the affected areas, federal highway administration and army corps of engineers. The analysis must be informed by the work of the joint transportation committee's independent review team, and must include the following:

(i) Existing volumes and traffic patterns;

(ii) Potential changes in volumes and traffic patterns immediately following the loss of freight movement by barge and over the following 20 years, including the carbon emissions impact of this mode shift;

(iii) Identification of whether regional geography, land availability, and state and federal regulatory processes would allow for rail and road expansions and increased capacity;

(iv) Identification of potential infrastructure and operational improvements to existing highways, other roads, and rail, including additional access to facilities, needed to accommodate the higher freight volumes and impacts and potential opportunities to mitigate impacts on shipping rates;

(v) Identification of rail line development options, including impacts and potential opportunities to mitigate impacts on grain storage and handling facilities at regional unit train yards and port export facilities;

(vi) An assessment of costs associated with mitigating potential slope failure and stabilization necessitated by the drawdown of the river. An assessment of impacts and potential opportunities to mitigate impacts on adjacent roads, bridges, railroads, and utility corridors shall be included;

(vii) Both financial and carbon cost estimates for development and implementation of identified needs and options, including planning, design, and construction;

(viii) Analysis of the impacts and potential opportunities to mitigate impacts of these infrastructure changes on environmental justice and disadvantaged/underserved communities during construction, as well as from future operations;

(ix) Analysis of safety impacts and potential opportunities to mitigate impacts for a shift from barge transportation to rail or truck, including increases in rural community traffic and consistency with the Washington State Strategic Highway Safety Plan: Target Zero;

(x) Impacts and potential opportunities to mitigate impacts on highly affected commodities, including agriculture, petroleum, project cargo, and wind energy components;

(xi) Analysis of the impacts and potential opportunities to mitigate impacts that reduced competition resulting from removing barging of agricultural products on the Snake river would have on Washington's agricultural industry along with impacts modal shifts would have on the entire supply chain, including export facilities and ports on the Lower Columbia River; and

(xii) Determination of the feasibility that additional east-west freight rail capacity can be achieved, particularly through Columbia River Gorge, and the alternative routes that exist in the event that adding more infrastructure on these routes is not feasible.

(b) The department shall provide status updates on a quarterly basis in coordination with the joint transportation committee. The legislature intends to require a final report to the governor and the transportation committees of the legislature by December 31, 2026.

(10) \$2,000,000 of the highway safety account—state appropriation is provided solely for the department, in consultation with the Washington traffic safety commission, to evaluate and identify geographical locations in both urban and rural highway settings to install and implement wrong-way driving prevention strategies. Such prevention strategies may include improved signage and pavement markings as recommended by the traffic safety commission's report on wrong-way driving, "Strategies and Technologies to Prevent and Respond to Wrong-Way Driving Crashes." The department must report to the legislature any crash data or wrong-way violations that occur at the selected locations by June 30, 2025.

(11) \$1,000,000 of the motor vehicle account—state appropriation is provided solely for the department to develop an automated highway speed safety camera pilot program to test two to three automated traffic safety cameras on state highways. The goals of the automated highway speed safety camera pilot program are to test speed camera technology, determine the impact on speeding behavior in areas of testing, and compile public response to the use of traffic safety cameras on highways.

(a) The department must work with the Washington state patrol and the traffic safety commission to develop the pilot program to include, but not be limited to, the following program elements:

(i) Selection of technology;  
(ii) Placement of cameras in high speed, collision, or fatality locations;  
(iii) Establishment of public notification and warning signs prior to entering into an area with a speed safety camera;

(iv) Outreach and public engagement about the program and site selection process; and

(v) Development and implementation of a process to collect and report relevant pilot program data, including rates of speed prior to, during, and after the use of pilot program cameras, and public response to pilot program cameras.

(b) Automated traffic safety cameras may only take pictures of the vehicle and the vehicle license plates.

(c) Ticketing of violators using vehicle speed information captured by automated traffic safety cameras authorized under the pilot program is prohibited during the pilot program.

(d) As part of the pilot program, the department may inform registered vehicle owners of a vehicle's rate of speed exceeding the posted speed limit and the amount of the fine the law would have allowed to be imposed by providing notification by mail.

(e) The department is required to provide a program progress report to the governor and transportation committees of the legislature by September 30, 2024, to include a summary of public input on the use of safety cameras, including objections, evaluation of technologies used, and changes in speeding behavior.

(f) Photographs, microphotographs, electronic images, and other personally

identifying data captured and collected for the purposes of the pilot program are for the exclusive use of the Washington state patrol and department of transportation in carrying out the pilot program, are not open to the public, and may not be used in court in a pending action or proceeding.

(12) \$1,000,000 of the motor vehicle account—state appropriation is provided solely for implementation of chapter . . . (Substitute House Bill No. 1989), Laws of 2024 (graffiti abatement and reduction pilot). If chapter . . . (Substitute House Bill No. 1989), Laws of 2024 is not enacted by June 30, 2024, the amount provided in this subsection lapses.

The appropriations in this section are subject to the following conditions and limitations:

(1)(a) \$2,000,000 of the motor vehicle account—state appropriation and \$5,400,000 of the move ahead WA flexible account—state appropriation are provided solely for efforts to increase diversity in the transportation construction workforce through:

(i) The preapprenticeship support services (PASS) and career opportunity maritime preapprenticeship support services (COMPASS) programs, which aim to increase diversity in the highway construction and maritime workforces and prepare individuals interested in entering the highway construction and maritime workforces. In addition to the services allowed under RCW 47.01.435, the PASS and COMPASS programs may provide housing assistance for youth aging out of the foster care and juvenile

rehabilitation systems to support their participation in a transportation-related preapprenticeship program and support services to obtain necessary maritime documents and coast guard certification; and

(ii) Assisting minority and women-owned businesses to perform work in the highway construction industry.

(b) The department shall report annually to the transportation committees of the legislature on efforts to increase diversity in the transportation construction workforce.

(2) \$1,512,000 of the motor vehicle account—state appropriation and \$488,000 of the Puget Sound ferry operations account—state appropriation are provided solely for the department to develop, track, and monitor the progress of community workforce agreements, and to assist with the development and implementation of internal diversity, equity, and inclusion efforts and serve as subject matter experts on federal and state civil rights provisions. The department shall engage with relevant stakeholders, and provide a progress report on the implementation of efforts under this subsection to the transportation committees of the legislature and the governor by December 1, 2024.

(3) For Washington state department of transportation small works roster projects under RCW 39.04.155, the department may only allow firms certified as small business enterprises, under 49 C.F.R. 26.39, to bid on the contract, unless the department determines there would be insufficient bidders for a particular project. The department shall report on the effectiveness of this policy to the transportation committees of the legislature by December 1, 2024.

(4) \$21,195,000 of the motor vehicle account—state appropriation and \$21,194,000 of the multimodal transportation account—state appropriation are provided solely for the department to upgrade the transportation reporting and accounting information system to the current cloud version of the software, and is subject to the conditions, limitations, and review requirements of section 701 ((~~ef this act~~)), chapter 472, Laws of 2023.

~~((+6))~~ (5) \$56,000 of the motor vehicle account—state appropriation is provided solely for the implementation of chapter 230, Laws of 2023 (clean energy siting). ((~~If chapter 230, Laws of 2023 is not enacted by June 30, 2023, the amount provided in this subsection lapses.~~))

	<u><b>\$85,516,000</b></u>

The appropriations in this section are subject to the following conditions and limitations:

(1) \$750,000 of the multimodal transportation account—state appropriation is provided solely for the department to partner with the department of commerce and regional transportation planning organizations in implementing vehicle miles traveled targets and supporting actions. As part of target setting, important factors that must be considered include land use patterns, safety, and vulnerable populations. The department shall provide an interim report by June 30, 2024, and a final report by June 30, 2025.

~~((3))~~ (2) \$150,000 of the motor vehicle account—state appropriation is provided solely for the department to continue implementation of a performance-based project evaluation model. The department must issue a report by September 1, 2024.

~~((4))~~ (3) (a) \$180,000 of the multimodal transportation account—state appropriation is provided solely for Thurston regional planning council (TRPC) to conduct a study examining options for multimodal high capacity transportation (HCT) to serve travelers on the Interstate 5 corridor between central Thurston county (Olympia area) and Pierce county.

(b) The study will include an assessment of travelsheds and ridership potential and identify and provide an evaluation of options to enhance connectivity and accessibility for the greater south Puget Sound region with an emphasis on linking to planned or existing commuter or regional light rail. The study must account for previous and ongoing efforts by transit agencies and the department. The study will emphasize collaboration with a diverse community of interests, including but not limited to transit, business, public agencies, tribes, and providers and users of transportation who because of age, income, or ability may face barriers and challenges.

(c) The study is due to the governor and transportation committees of the legislature by September 1, 2024.

~~((5) — \$400,000)~~ (4) \$700,000 of the multimodal transportation account—state appropriation is provided solely for the city of Seattle's office of planning and community development to support an equitable development initiative to reconnect the South Park neighborhood, currently divided by state route number 99.

(a) The support work must include:

(i) A public engagement and visioning process led by a neighborhood-based, community organization; and

(ii) A feasibility study of decommissioning state route number 99 in the South Park neighborhood to include, but not be limited to, traffic studies, environmental impact analysis, and development of alternatives, including the transfer of the land to a neighborhood-led community land trust.

(b) The support work must be conducted in coordination and partnership with neighborhood residents, neighborhood industrial and commercial representatives, the state department of transportation, and other entities and neighborhoods potentially impacted by changes to the operation of state route number 99.

(c) The city must provide a report on the plan that includes recommendations to the Seattle city council, state department of transportation, and the transportation committees of the legislature by ~~(December 1, 2024)~~ June 30, 2025.

~~((6))~~ (5) \$2,557,000 of the motor vehicle account—state appropriation is provided solely for the department to upgrade the department's linear referencing system (LRS) and highway performance monitoring system (HPMS), and is subject to the conditions, limitations, and review requirements in section 701 ~~(of this act)~~, chapter 472, Laws of 2023.

~~((7))~~ (6) \$306,000 of the multimodal transportation account—state appropriation is provided solely for the department to appoint or designate a liaison to serve as a point of contact and resource for the department, local governments, and project proponents regarding land use decisions and processing development permit applications. The liaison must, as a priority, facilitate and expedite any department decisions required for project approval.

~~((8) — \$627,000)~~ (7) \$742,000 of the motor vehicle account—federal appropriation is provided solely for remaining work on the "Forward Drive" road usage charge research project overseen by the transportation commission using the remaining amounts of the federal grant award. The remaining work of this project includes:

(a) Analysis of road usage charge simulation and participant surveys;

(b) Follow up on road usage charge experiences related to payment installments, mileage exemptions, and vehicle-based mileage reporting;

(c) Completion of technology research; and

(d) Development of the final "Forward Drive" research program report.

~~((9))~~ (8) (a) \$11,922,000 of the move ahead WA flexible account—~~(federal)~~ state appropriation is provided solely for an Interstate 5 planning and environmental linkage study and a statewide Interstate 5 master plan, building upon existing work under way in the corridor. It is the intent of the legislature to provide a total of \$40,000,000 for this work by 2029.

(b) The work under (a) of this subsection must include, but is not limited to, the following:

(i) Seismic resiliency planning to refine the level of effort and develop informed cost estimates for the seismic vulnerability analysis;

(ii) HOV lane system-wide performance planning and initial steps to launch a pilot project that progresses innovative and emerging technologies;

(iii) Interstate 5 corridor planning work, including development of a framework, coordination of corridor needs, development of core evaluation criteria and a prioritization process, and identification of early action priority projects that address safety or resiliency, or both, along the corridor; and

(iv) A report to the transportation committees of the legislature by December 1, 2024, with recommendations for future phases and a detailed funding request for work planned through 2029.

(c) Of the amounts provided in this subsection, \$300,000 is provided solely for the department to conduct a Seattle Interstate 5 ramp reconfiguration study. The study must be conducted in coordination and partnership with the city of Seattle's department of transportation, informed by the input of Interstate 5 lid stakeholders, and coordinated with work under (a) and (b) of this subsection. The department must provide a study report, including recommendations, to the city of Seattle's department of transportation and the transportation committees of the legislature by December 1, 2024. The study must include an analysis of:

(i) Options and opportunities to reconfigure, relocate, or remove Interstate 5 ramps within and between Chinatown-International District and the University District for the purpose of improving through-traffic operations, enhancing multimodal transportation safety, and enabling more efficient air rights development;

(ii) Potential mitigation needs and cost estimates of ramp changes and demolitions;

(iii) Benefits of ramp changes and demolitions to pedestrian and bicycle travel, transit operations, and future lid design;

(iv) Ramps for the mainline, collector-distributor lanes and express lanes including, at a minimum, ramps connecting to and from James Street, Cherry Street, 6th Avenue, Madison Street, Seneca Street, Spring Street, University Street, Union Street, Olive Way, Yale Avenue, NE 45th Street, and NE 50th Street;

(v) Removal of the existing ramps at Seneca Street, Spring Street, and University Street; and

(vi) Removal and consolidation options of the existing NE 45th Street and NE 50th Street ramps.

(d) The department shall work with the emergency management division of the military department to identify strategic transportation corridors, opportunities to improve resilience and reinforce the corridors against natural disasters, and opportunities to secure federal funding for investments in the resilience of the transportation network. The department shall provide a report to the transportation

committees of the legislature by December 1, 2023, on:

(i) Strategic transportation corridors and opportunities to improve their resilience;

(ii) Federal funding opportunities the state should pursue; and

(iii) Recommendations for actions to maximize federal funding for the state of Washington.

~~((10))~~ (9) The department shall continue to coordinate planning work focused on the transportation system in western Washington across modes with the goal of maximizing system performance toward the policy goals in RCW 47.04.280 in the most cost-effective manner. This coordination must include, but is not limited to: The Interstate 5 highway corridor, existing rail infrastructure and future high-speed rail alignment, and commercial aviation capacity. The department must report to the joint transportation committee through existing reporting mechanisms on the status of these planning efforts including, but not limited to, a long-term strategy for addressing resilience of the transportation system in western Washington through consideration of changing demand, modal integration, and preservation needs. The coordinated work must include an analysis of different alternatives to promote system resilience, including performance and cost of each scenario.

~~((13))~~ (10) \$3,000,000 of the carbon emissions reduction account—state appropriation is provided solely for the department, in coordination with the department's HEAL act team and environmental services office, to develop and implement a community outreach, education, and technical assistance program for overburdened communities and their community partners in order to develop community-centered carbon reduction strategies to make meaningful impacts in a community, and to provide assistance in gaining access to available funding to implement these strategies, where applicable. The department may provide appropriate compensation to members of overburdened communities who provide solicited community participation and input needed by the department to implement and administer the program established in this subsection. By June 1, 2024, and by June 1, 2025, the department must submit a report to the transportation committees of the legislature and to the governor that provides an update on the department's community outreach, education, and technical assistance program development and implementation efforts.

(11) \$200,000 of the motor vehicle account—state appropriation is provided solely for planning and intersection improvements along state route number 904 and improvements to the local network that would feed intersections with state route number 904. This work must include, but is not limited to, the Medical Lake/Four Lakes Road/West 3rd Ave intersection and feeding local network. The department must collaborate with Spokane county and the city of Cheney on this work and other improvement ideas along the corridor.

(12) Beginning January 1, 2025, \$1,000,000 of the carbon emissions reduction account—state appropriation is provided solely for the department to contract with a world cup organizing committee based in Seattle to undertake low carbon transportation planning efforts that will help prepare for the increase in visitors due to the 2026 FIFA world cup soccer matches in Seattle and other venues in the state. The planning, to be developed in coordination with the department and local mobility agencies, must identify critical infrastructure and operational improvements that will support active transportation and reliability of transit, making it easier for the public to choose options other than single-occupancy vehicles. A progress report including best practices for future events must be delivered to the department, office of the governor, and transportation committees of the legislature by June 30, 2025.

(1) Consistent with existing protocol and practices, for any negotiated settlement of a claim against the state for the department that exceeds \$5,000,000, the department, in conjunction with the attorney general and the department of enterprise services, shall notify the director of the office of financial management and the transportation committees of the legislature.

(2) On August 1, 2023, and semiannually thereafter, the department, in conjunction with the attorney general and the department

of enterprise services, shall provide a report with judgments and settlements dealing with the Washington state ferry system to the director of the office of financial management and the transportation committees of the legislature. The report must include information on: (a) The number of claims and settlements by type; (b) the average claim and settlement by type; (c) defense costs associated with those claims and settlements; and (d) information on the impacts of moving legal costs associated with the Washington state ferry system into the statewide self-insurance pool.

(3) On August 1, 2023, and semiannually thereafter, the department, in conjunction with the attorney general and the department of enterprise services, shall provide a report with judgments and settlements dealing with the nonferry operations of the department to the director of the office of financial management and the transportation committees of the legislature. The report must include information on: (a) The number of claims and settlements by type; (b) the average claim and settlement by type; and (c) defense costs associated with those claims and settlements.

(4) When the department identifies significant legal issues that have potential transportation budget implications, the department must initiate a briefing for appropriate legislative members or staff through the office of the attorney general and its legislative briefing protocol.

<b>TOTAL APPROPRIATION. . . . .</b>	<b>(((\$678,134,000)) \$725,795,000</b>

The appropriations in this section are subject to the following conditions and limitations:

(1) (((\$64,354,000))\$64,906,000 of the multimodal transportation account—state appropriation and (((\$78,100,000))\$78,325,000 of the climate transit programs account—state appropriation are provided solely for a grant program for special needs

transportation provided by transit agencies and nonprofit providers of transportation. Of this amount:

(a) \$14,420,000 of the multimodal transportation account—state appropriation and \$17,963,000 of the climate transit programs account—state appropriation are provided solely for grants to nonprofit providers of special needs transportation. Grants for nonprofit providers must be based on need, including the availability of other providers of service in the area, efforts to coordinate trips among providers and riders, and the cost effectiveness of trips provided.

(b) \$48,278,000 of the multimodal transportation account—state appropriation and \$60,137,000 of the climate transit programs account—state appropriation are provided solely for grants to transit agencies to transport persons with special transportation needs. To receive a grant, the transit agency must, to the greatest extent practicable, have a maintenance of effort for special needs transportation that is no less than the previous year's maintenance of effort for special needs transportation. Grants for transit agencies must be prorated based on the amount expended for demand response service and route deviated service in calendar year 2021 as reported in the "2021 Summary of Public Transportation" published by the department of transportation. No transit agency may receive more than 30 percent of these distributions. Fuel type may not be a factor in the grant selection process.

(c) ~~(\$1,656,000)~~ \$2,208,000 of the multimodal transportation account—state appropriation ~~(is) and \$225,000 of the climate transit programs account—state appropriation~~ are provided solely for the reappropriation of amounts provided for this purpose in the 2021-2023 fiscal biennium.

(2) ~~(\$32,774,000)~~ \$33,077,000 of the rural mobility grant program account—state appropriation is provided solely for grants to aid small cities in rural areas as prescribed in RCW 47.66.100. Fuel type may not be a factor in the grant selection process.

(3) ~~(\$11,382,000)~~ \$11,598,000 of the multimodal transportation account—state appropriation is provided solely for a public transit rideshare grant program for: (a) Public transit agencies to add or replace rideshare vehicles; and (b) incentives and outreach to increase rideshare use. The grant program for public transit agencies may cover capital costs only, and costs for operating vanpools at public transit agencies are not eligible for funding under this grant program. Awards from the grant program must not be used to supplant transit funds currently funding ride share programs, or to hire additional employees. Fuel type may not be a factor in the grant selection process. Of the amounts provided in this subsection, ~~(\$1,092,000)~~ \$1,308,000 is for the reappropriation of amounts provided for this purpose in the 2021-2023 fiscal biennium.

(4) ~~(\$37,382,000)~~ \$48,597,000 of the regional mobility grant program account—state appropriation is reappropriated and

provided solely for the regional mobility grant projects identified in LEAP Transportation Document ~~((2023-2))~~ 2024-2 ALL PROJECTS as developed ~~((April 21, 2023))~~ March 6, 2024, Program - Public Transportation Program (V).

(5) (a) ~~(\$77,679,000)~~ \$71,581,000 of the regional mobility grant program account—state appropriation is provided solely for the regional mobility grant projects identified in LEAP Transportation Document ~~((2023-2))~~ 2024-2 ALL PROJECTS as developed ~~((April 21, 2023))~~ March 6, 2024, Program - Public Transportation Program (V). The department shall review all projects receiving grant awards under this program at least semiannually to determine whether the projects are making satisfactory progress. Any project that has been awarded funds, but does not report activity on the project within one year of the grant award, must be reviewed by the department to determine whether the grant should be terminated. The department shall promptly close out grants when projects have been completed, and any remaining funds must be used only to fund projects identified in the LEAP transportation document referenced in this subsection. The department shall provide annual status reports on December 15, 2023, and December 15, 2024, to the office of financial management and the transportation committees of the legislature regarding the projects receiving the grants. It is the intent of the legislature to appropriate funds through the regional mobility grant program only for projects that will be completed on schedule. A grantee may not receive more than 25 percent of the amount appropriated in this subsection unless all other funding is awarded. Additionally, when allocating funding for the 2023-2025 fiscal biennium, no more than 30 percent of the total grant program may directly benefit or support one grantee unless all other funding is awarded. Fuel type may not be a factor in the grant selection process.

(b) In order to be eligible to receive a grant under (a) of this subsection during the 2023-2025 fiscal biennium, a transit agency must establish a process for private transportation providers to apply for the use of park and ride facilities. For purposes of this subsection, (i) "private transportation provider" means: An auto transportation company regulated under chapter 81.68 RCW; a passenger charter carrier regulated under chapter 81.70 RCW, except marked or unmarked stretch limousines and stretch sport utility vehicles as defined under department of licensing rules; a private nonprofit transportation provider regulated under chapter 81.66 RCW; or a private employer transportation service provider; and (ii) "private employer transportation service" means regularly scheduled, fixed-route transportation service that is offered by an employer for the benefit of its employees.

(c) \$1,500,000 of the amount appropriated in this subsection is provided solely for a contingency fund to assist current regional mobility grantees with cost escalations and overages. The department shall create a system for grantees to request funds, and

set a cap of contingency funds per grantee to ensure an equitable distribution among requesters.

(d) During the 2023-2025 fiscal biennium, the department shall consider applications submitted by regional transportation planning organizations and metropolitan planning organizations for the regional mobility grant program funding in the 2025-2027 fiscal biennium.

(6) \$6,195,000 of the multimodal transportation account—state appropriation, \$3,300,000 of the climate transit programs account—state appropriation, and \$784,000 of the state vehicle parking account—state appropriation are provided solely for CTR grants and activities. Fuel type may not be a factor in the grant selection process. Of this amount, \$495,000 of the multimodal transportation account—state appropriation is reappropriated and provided solely for continuation of previously approved projects under the first mile/last mile connections grant program.

(7) ~~(\$11,914,000)~~ \$16,319,000 of the multimodal transportation account—state appropriation is provided solely for connecting Washington transit projects identified in LEAP Transportation Document ~~((2023-2))2024-2 ALL PROJECTS as developed ((April 21, 2023))~~ March 6, 2024. It is the intent of the legislature that entities identified to receive funding in the LEAP transportation document referenced in this subsection receive the amounts specified in the time frame specified in that LEAP document. If an entity has already completed a project in the LEAP transportation document referenced in this subsection before the time frame identified, the entity may substitute another transit project or projects that cost a similar or lesser amount.

(8) The department shall not require more than a 10 percent match from nonprofit transportation providers for state grants.

(9) \$12,000,000 of the multimodal transportation account—state appropriation and \$39,400,000 of the climate transit programs account—state appropriation are provided solely for the green transportation capital projects identified in LEAP Transportation Document ~~((2023-2))2024-2 ALL PROJECTS as developed ((April 21, 2023))~~ March 6, 2024, Program - Public Transportation Program (V). Of the amount of climate transit program account funds appropriated in this subsection, up to one percent may be used for program administration and staffing.

(10) ~~(\$4,407,000)~~ \$5,950,000 of the multimodal transportation account—state appropriation ~~((is))~~ and \$1,249,000 of the climate transit programs account—state appropriation are reappropriated and provided solely for the green transportation capital grant projects identified in LEAP Transportation Document ~~((2023-2))2024-2 ALL PROJECTS as developed ((April 21, 2023))~~ March 6, 2024, Program - Public Transportation Program (V).

(11) ~~(\$10,000,000)~~ Beginning January 1, 2025, \$7,442,000 of the carbon emissions reduction account—state appropriation is provided solely for additional green

transportation capital projects identified in LEAP Transportation Document 2024-2 ALL PROJECTS as developed March 6, 2024. Of the amounts provided in this subsection, \$1,000,000 is for the Jefferson Transit - Electric Bus Replacement project (GT23250A), \$1,023,000 is for the Pacific Transit - Electrification of the Paratransit Fleet project (GT23250C), \$3,795,000 is for the C-TRAN - Hydrogen Fueling Station Infrastructure project (GT23250D), and \$1,623,000 is for the Island Transit - Fleet Expansion project (GT23250E).

(12) \$10,267,000 of the climate transit programs account—state appropriation is provided solely for tribal transit grants. Up to one percent of the amount provided in this subsection may be used for program administration and staffing.

(a) The department must establish a tribal transit competitive grant program ~~((to be administered as part of the department's consolidated grant program)).~~ Grants to federally recognized tribes may be for any transit purpose, including planning, operating costs, maintenance, and capital costs. The department shall report to the transportation committees of the legislature and the office of financial management with a list of projects recommended for funding by September 1, ~~((2023))~~ 2024, along with recommendations on how to remove barriers for tribes to access grant funds, including removal of grant match requirements, and recommendations for how the department can provide technical assistance.

(b) Within the amount provided in this subsection, ~~(\$5,038,000)~~ \$10,167,000 is provided solely for move ahead Washington tribal transit grant projects as listed in LEAP Transportation Document ~~((2023-2))2024-2 ALL PROJECTS as developed ((April 21, 2023))~~ March 6, 2024. Of this amount, \$529,000 is for the Sauk-Suiattle Commuter project (L1000318).

~~(\$188,900,000)~~ (13) \$188,930,000 of the climate transit programs account—state appropriation is provided solely for transit support grants for public transit agencies that have adopted a zero-fare policy for youth 18 years of age and under by October 1, 2022. The department must confirm zero-fare policies are in effect at transit agencies to be eligible for biennial distributions.

~~((13))~~ (14) \$38,000,000 of the climate transit programs account—state appropriation is provided solely for the bus and bus facility grant program for replacement, rehabilitation, and purchase of transit rolling stock, or construction, modification, or rehabilitation of transit facilities.

(15) Beginning January 1, 2025, \$7,758,000 of the carbon emissions reduction account—state appropriation is provided solely for additional bus and bus facility projects. Of the amounts provided in this subsection, \$1,467,000 is for Kitsap Transit for inductive charging units for transit centers, \$1,891,000 is for Twin Transit for zero-emission vehicle acquisition, \$4,400,000 is for C-TRAN for highway 99 BRT hydrogen fuel cell buses.

~~((14))~~ (16) \$2,000,000 of the climate transit programs account—state appropriation is provided solely for newly selected transit coordination grants. The department shall prioritize grant proposals that promote the formation of joint partnerships between transit agencies or merge service delivery across entities.

~~((15))~~ (17) \$46,587,000 of the climate transit programs account—state appropriation is provided solely for move ahead Washington transit projects as listed in LEAP Transportation Document ~~((2023-2))~~ 2024-2 ALL PROJECTS as developed ~~((April 21, 2023))~~ March 6, 2024, Move Ahead WA - Transit Projects.

(a) For projects funded as part of this subsection, if the department expects to have substantial reappropriations for the 2023-2025 fiscal biennium, the department may, on a pilot basis, apply funding from a project with an appropriation that is unable to be used within the 2023-2025 fiscal biennium to advance one or more of the projects listed, prioritizing projects first by tier then by project readiness.

(b) In instances when projects listed in the LEAP transportation document referenced in this subsection (15) are no longer viable or have been completed, the department may recommend in its next budget submittal alternative project proposals from the local jurisdictions if the project is similar in type and scope and consistent with limitations on certain funds provided. In the event that the listed project has been completed, the local jurisdictions may, rather than submitting an alternative project, be reimbursed in the year in which it was scheduled for documented costs incurred implementing the listed project, not in excess of the amount awarded from the funding program.

(c) At least 10 business days before advancing or swapping a project pursuant to this subsection, the department must notify the office of financial management and the transportation committees of the legislature. The advancement of a project may not hinder the delivery of the projects for which the reappropriations are necessary for the 2023-2025 fiscal biennium.

~~((16) — \$580,000)~~ (18) \$702,000 of the multimodal transportation account—state appropriation is provided solely for the department to provide a statewide vanpool benefit for all state employees. For department employees working in remote job sites, such as mountain passes, the department must ensure employees are able to access job sites via a subsidized vanpool or provide a modal alternative for the "last mile" to ensure employees can access the job site without additional charge.

~~((17))~~ (19) \$200,000 of the multimodal transportation account—state appropriation is provided solely for the department to update the 2019 feasibility study to add a fifth travel Washington intercity bus line in the Yakima Valley. The department must provide a summary report of the updated feasibility and cost estimates to the transportation committees of the legislature by December 1, 2024.

~~((19))~~ (20) \$555,000 of the multimodal transportation account—state appropriation and \$500,000 of the carbon emissions reduction account—state appropriation are provided solely for an interagency transfer to the Washington State University extension energy program to administer a technical assistance and education program for public agencies on the use of alternative fuel vehicles. The Washington State University extension energy program shall prepare a report regarding the utilization of the program and submit this report to the transportation committees of the legislature by November 15, 2023.

~~((20))~~ (21) (a) ~~((400,000))~~ \$500,000 of the multimodal transportation account—state appropriation is provided solely for King county metro to develop a pilot program to place teams, including human services personnel, along routes that are enduring significant public safety issues and various disruptive behavior in south King county. The team would be available to deescalate disruptions, provide immediate access to transit resources, and refer customers to community resources to break cycles of inappropriate behavior. The teams must consist of individuals trained in deescalation and outreach. Team functions and duties should be cocreated with community stakeholders.

(b) King county metro must provide a report to the transportation committees of the legislature by June 30, 2024, regarding the effectiveness of the program, any suggestions for improving its efficacy, and any modifications that might be necessary for other transit providers to institute similar programs.

(c) King county metro must provide at least a 50 percent match to develop the pilot program funded under this subsection.

~~((21))~~ (22) \$500,000 of the multimodal transportation account—state appropriation is provided solely for planning to move Grays Harbor transit operation and administration facilities from the current location.

(23) As part of the department's 2025-2027 biennial budget request, the department must submit budget materials for the public transportation division separated into operating and capital budgeted programs.

(24) Beginning January 1, 2025, \$2,000,000 of the carbon emissions reduction account—state appropriation is provided solely for new transit coordination grants, prioritizing projects that coordinate transit service to and from Washington state ferry terminals. Program eligibility must be expanded to include proposals from transit agencies in counties with populations fewer than 700,000 that coordinate service to and from Washington state ferry terminals.

(25) Beginning January 1, 2025, \$900,000 of the carbon emissions reduction account—state appropriation is provided solely for the department to implement certain recommendations from the 2023 frequent transit service study. The department shall define levels and types of demand-response service and measure access to these services within Washington for the purpose of gaining

a fuller picture of transit access. The department must collect ongoing transportation data and develop systems to allow for analysis of disparities in access to existing fixed route transit. The data collection should prioritize collecting information on accessibility and inclusion of people with disabilities, vulnerable populations in overburdened communities, and other underserved communities. The department shall submit a report on data collection efforts to the transportation committees of the legislature and the office of financial management by June 30, 2025.

(26) Beginning January 1, 2025, \$11,800,000 of the carbon emissions reduction account—state appropriation is provided solely for the following projects identified in LEAP Transportation Document 2024-2 ALL PROJECTS as developed March 6, 2024:

(a) Base Refurbish & Expansion for Growth/Columbia County Public Transportation (L4000182);

(b) Kitsap Transit: Design & Shore Power (G2000115);

(c) Pierce Transit - Meridian (L2021197); and

(d) King County Metro South Annex Base - Electrification Elements (L4000174).

(27) \$100,000 of the multimodal transportation account—state appropriation is provided solely for King county metro to implement a pilot program to provide funds to nonprofit organizations to offer rideshare vouchers to persons who are low-income and people with disabilities who rely on paratransit to get to and from work or medical appointments. King county metro must work with a group who provides dialysis services in King county and with a group who provides employment services and supports to adults with disabilities in the four most populous counties in Washington. The department must submit a report to the office of financial management and the transportation committees of the legislature by June 1, 2025. The report must incorporate feedback from participants to the extent possible and evaluate the effectiveness of the program as an alternative to current public transportation programs.

**Sec. 222.** 2023 c 472 s 222 (unmodified) is amended to read as follows:  
**FOR THE DEPARTMENT OF TRANSPORTATION—MARINE —PROGRAM X**

Puget Sound Ferry Operations Account—State	
Appropriation. . . . .	(\$575,986,000)
	\$571,594,000
Puget Sound Ferry Operations Account—Federal	
Appropriation. . . . .	(\$163,791,000)
	\$198,650,000
Puget Sound Ferry Operations Account—	
Private/Local	
Appropriation. . . . .	\$121,000
<b>TOTAL APPROPRIATION.....</b>	<b>(\$739,898,000)</b>
	<b>\$770,365,000</b>

The appropriations in this section are subject to the following conditions and limitations:

(1) The office of financial management budget instructions require agencies to recast enacted budgets into activities. The

Washington state ferries shall include a greater level of detail in its 2023-2025 supplemental and 2025-2027 omnibus transportation appropriations act requests, as determined jointly by the office of financial management, the Washington state ferries, and the transportation committees of the legislature. This level of detail must include the administrative functions in the operating as well as capital programs. The data in the tables in the report must be supplied in a digital file format.

(2) (~~(\$90,014,000)~~)\$97,060,000 of the Puget Sound ferry operations account—federal appropriation and (~~(\$50,067,000)~~)\$51,450,000 of the Puget Sound ferry operations account—state appropriation are provided solely for auto ferry vessel operating fuel in the 2023-2025 fiscal biennium, which reflect cost savings from a reduced biodiesel fuel requirement and, therefore, is contingent upon the enactment of section 703 (~~(of this act)~~), chapter 472, Laws of 2023. The amount provided in this subsection represents the fuel budget for the purposes of calculating any ferry fare fuel surcharge. The department shall review future use of alternative fuels and dual fuel configurations, including hydrogen.

(3) \$500,000 of the Puget Sound ferry operations account—state appropriation is provided solely for operating costs related to moving vessels for emergency capital repairs. Funds may only be spent after approval by the office of financial management.

(4) The department must work to increase its outreach and recruitment of populations underrepresented in maritime careers and continue working to expand apprenticeship and internship programs, with an emphasis on programs that are shown to improve recruitment for positions with the state ferry system.

(5) \$175,000 of the Puget Sound ferry operations account—state appropriation is provided solely for the department to continue a study of passenger demographics. The study may be included as part of a larger origin and destination study. The department shall report study results to the transportation committees of the legislature by December 1, 2023. Following completion of the study, the department must compare study results to the composition of groups outlined in RCW 47.60.310, both by overall representation of ferry riders and by route. A summary is due to the office of the governor and transportation committees of the legislature by December 1, 2024.

(6) The department shall continue to oversee a consultant study to identify and recommend cost-effective strategies to maximize walk-on passenger ridership of the Anacortes - San Juan ferry routes. The study is due to the transportation committees of the legislature by December 1, 2023. By December 1, 2024, any feasible near to medium term solutions identified from the study must be reported to the office of the governor and transportation committees of the legislature and include cost estimates for implementation.

(7) (~~(\$11,842,000)~~)\$16,973,000 of the Puget Sound ferry operations account—state

appropriation is provided solely for Washington state ferries to:

(a) Provide scholarships, coursework fees, and stipends for candidates to become licensed deck officers (mates);

(b) Improve the process for unlicensed candidates who have achieved able-bodied sailor (AB) status to earn their mate's license;

(c) Annually hire, orient, train, and develop entry level engine room staff at the wiper classification with the intention of successfully promoting to oiler classification;

(d) Create an operations project management office; ~~((and))~~

(e) Increase human resources capacity to expand recruitment efforts including to communities currently underrepresented within the Washington state ferries, and add a workforce ombuds; and

(f) Hire additional dispatch staff.

(8) \$169,000 of the Puget Sound ferry operations account—state appropriation is provided solely for hiring an additional service planner.

(9)(a) During negotiations of the 2025-2027 collective bargaining agreements, the department must conduct a review and analysis of the collective bargaining agreements governing state ferry employees, to identify provisions that create barriers for, or contribute to creating a disparate impact on, newly hired ferry employees, including those who are women, people of color, veterans, and other employees belonging to communities that have historically been underrepresented in the workforce. The review and analysis must incorporate, to the extent practicable, the findings and recommendations from the December 2022 joint transportation committee study on Washington state ferries' workforce, and must also include, but not be limited to, provisions regarding seniority, work assignments, and work shifts. The review and analysis must also include consultation with the governor's office of labor relations, the governor's office of equity, and the attorney general's office.

(b) For future negotiations or modifications of the collective bargaining agreements, it is the intent of the legislature that the collective bargaining representatives for the state and ferry employee organizations may consider the findings of the review and analysis required in (a) of this subsection and negotiate in a manner to remove identified barriers and address identified impacts so as not to perpetuate negative impacts.

~~((9) \$1,500,000 of the Puget Sound ferry operations account—state appropriation is provided solely for the restoration of service to Sidney, British Columbia. Funds must be held in unallotted status pending completion of the assessment referenced in subsection (12) of this section.))~~

(10) \$1,504,000 of the Puget Sound ferry operations account—state appropriation is provided solely for the implementation of chapter 188, Laws of 2023 (state ferry workforce development issues). If chapter 188, Laws of 2023 is not enacted by June 30,

2023, the amount provided in this subsection lapses.

(11) ~~(((\$1,000,000))~~\$5,000,000 of the Puget Sound ferry operations account—state appropriation is provided solely for support of the Kitsap transit passenger ferry to supplement service on the Seattle-Bremerton route.

(12) \$100,000 of the Puget Sound ferry operations account—state appropriation is provided solely to assess temporary service restoration options for the Sidney, British Columbia route until Washington state ferries can resume its service. Washington state ferries must provide service options and recommendations to the office of financial management and the transportation committees of the legislature by December 15, 2023.

(13) ~~(((\$2,100,000))~~\$2,549,000 of the Puget Sound ferry operations account—state appropriation is provided solely for security services at Colman Dock.

(14) ~~(((\$9,000,000))~~\$13,856,000 of the Puget Sound ferry operations account—state appropriation is provided solely for overtime and familiarization expenses incurred by engine, deck, and terminal staff. The department must provide updated staffing cost estimates for fiscal years 2024 and 2025 with its annual budget submittal and updated estimates by January 1, 2024.

(15) \$1,064,000 of the Puget Sound ferry operations account—state appropriation is provided solely for traffic control at ferry terminals at Seattle, Fauntleroy, Kingston, Edmonds, Mukilteo, and Bainbridge Island, during peak ferry travel times, with a particular focus on Sundays and holiday weekends.

(16) \$93,000 of the Puget Sound ferry operations account—state appropriation is provided solely for the Washington state ferries to secure housing for workforce training sessions and to pay in advance for the costs of transportation worker identification credentials, merchant mariner credentials, and medical examinations for incoming ferry system employees and trainees.

(17) \$10,417,000 of the Puget Sound ferry operations account—state appropriation is provided solely for vessel maintenance initiatives to:

(a) Add a second shift at the Eagle Harbor maintenance facility;

(b) Establish maintenance management project controls to maximize vessel maintenance work at the Eagle Harbor facility;

(c) Expand the existing Washington state ferries Eagle Harbor apprenticeship program from two to eight apprentices; and

(d) Maintain assets in a state of good repair by investing in enterprise asset management operating capacity.

(18)(a) \$855,000 of the Puget Sound ferry operations account—state appropriation is provided solely for Washington state ferries to provide to Seattle Central Community College for a pilot with the Seattle Maritime Academy for the 2023-2025 fiscal biennium. Funding may not be expended until Washington state ferries certifies to the

office of financial management that a memorandum of agreement with Seattle Central Community College has been executed, and the office of financial management determines that funds provided in this subsection are utilized for programs that are a benefit to the Washington state ferries or the prospective workforce pipeline of the Washington state ferries. The memorandum of agreement with Seattle Central Community College must address:

(i) Prioritized use of training and other facilities and implementation of joint training opportunities for Washington state ferries' employees and trainees;

(ii) Development of a joint recruitment plan with Seattle Central Community College aimed at increasing enrollment of women and people of color, with specific strategies to recruit existing community and technical college students, maritime skills center students, high school students from maritime programs, including maritime skills center students, foster care graduates, and former juvenile rehabilitation and adult incarcerated individuals; and

(iii) Consultation between the parties on the development of the training program, recruitment plan and operational plan, with an emphasis on increasing enrollment of women and people of color.

(b) The joint training and recruitment plan must be submitted to the appropriate policy and fiscal committees of the legislature by December 1, 2023. The Washington state ferries must submit findings of program effectiveness and recommendations for continuation of the pilot, to the appropriate committees of the legislature by December 1, 2024.

(19) \$420,000 of the Puget Sound ferry operations account—state appropriation is provided solely for a contract with an organization with experience evaluating and developing recommendations for the Washington state ferries' workforce to provide expertise on short-term strategies including, but not limited to, addressing recruitment, retention, diversity, training needs, leadership development, and succession planning. The consultant shall provide additional assistance as deemed necessary by the Washington state ferries to implement recommendations from the joint transportation committee 2022 workforce study. Periodic updates must be given to the joint transportation committee and the governor.

(20) By December 31st of each year, as part of the annual ferries division performance report, the department must report on the status of efforts to increase the staff available for maintaining the customary level of ferry service, including staff for deck, engine, and terminals. The report must include data for a 12-month period up to the most recent data available, by staff group, showing the number of employees at the beginning of the 12-month period, the number of new employees hired, the number of employees separating from service, and the number of employees at the end of the 12-month period. The department report on additional performance measures must include:

(a) Numbers of trip cancellations due to crew availability or vessel mechanical issues; ~~((and))~~

(b) Current level of service compared to the full-service schedules in effect in 2019; and

(c) Retention rates of employees who have completed on the job workforce development programs and overall employee retention rates.

(21) \$10,000,000 of the Puget Sound ferry operations account—state appropriation is provided solely for the department to increase deck and engine positions across the system, prioritizing positions that will mitigate crew related cancellations and reduce overtime expenditures. The department must include an update on the number of positions hired by job class as part of the annual performance report. The legislature intends to provide \$16,000,000 on an ongoing basis to support additional crew efforts.

(22) \$500,000 of the Puget Sound ferry operations account—state appropriation is provided solely for the department to evaluate options for the state to return to providing state passenger-only ferry service to support existing ferry service routes.

(a) The study must focus on the routes recommended for further study by the 2020 study of passenger-only ferry service by the Puget Sound regional council as well as San Juan county interisland passenger-only ferry service. The department must contract with a third-party entity with experience in passenger-only ferry service.

(b) The evaluation must study options for the state to return to providing state passenger-only ferry service to support existing ferry service routes. The study must include estimated ridership, operating costs including labor, vessel procurement options with prioritization given to clean fueled ferries such as electric ferries, funding options including state subsidies of passenger-only ferry districts, and schedule and timing to implement passenger-only ferry options in evaluated routes.

(c) A progress report is due to the governor and transportation committees of the legislature by October 30, 2024. A final report is due to the governor and transportation committees of the legislature by June 1, 2025.

(23) \$100,000 of the Puget Sound ferry operations account—state appropriation is provided solely for the department to reimburse walk-on customers for emergency expenses incurred as a result of a cancellation of the last sailing of the day. In consideration for receiving the reimbursement, an applicant must sign a release of claims drafted by the department. The department shall create a process for reimbursement and set a per diem limit for reimbursement per individual.

(24) \$3,170,000 of the Puget Sound ferry operations account—state appropriation is provided solely for temporary expanded weekday midday King county water taxi service support to and from Vashon Island.

**Sec. 223.** 2023 c 472 s 223 (uncodified) is amended to read as follows:

Appropriation. . . . . \$46,000  
TOTAL APPROPRIATION..... ((~~\$92,861,000~~))  
\$86,674,000

The appropriations in this section are subject to the following conditions and limitations:

(1) The department shall continue to pursue restoring Amtrak Cascades service to pre-COVID service levels, and to the service levels committed to through the department's obligation of funding from the federal American recovery and reinvestment act. A status report must be provided to the transportation committees of the legislature and the office of financial management by September 1, 2023.

(2)(a) \$2,250,000 of the multimodal transportation account—state appropriation is provided solely for the continued coordination, engagement, and planning for a new ultra high-speed ground transportation corridor with participation from Washington state, Oregon state, and British Columbia, and is a reappropriation of funds appropriated in the 2021-2023 fiscal biennium. For purposes of this subsection, "ultra high-speed" means a maximum testing speed of at least 250 miles per hour. These efforts are to support and advance activities and must abide by the memorandum of understanding signed by the governors of Washington and Oregon states, and the premier of the province of British Columbia in November 2021. The department shall establish a policy committee with participation from Washington state, Oregon state, and British Columbia, including representation from the two largest caucuses of each chamber of the Washington state legislature, and coordinate the activities of the policy committee to include:

(i) Developing an organizational framework that facilitates input in decision-making from all parties;

(ii) Developing a public engagement approach with a focus on equity, inclusion, and meaningful engagement with communities, businesses, federal, state, provincial, and local governments including indigenous communities;

(iii) Developing and leading a collaborative approach to prepare and apply for potential future federal, state, and provincial funding opportunities, including development of strategies for incorporating private sector participation and private sector contributions to funding, including through the possible use of public-private partnerships;

(iv) Beginning work on scenario analysis addressing advanced transportation technologies, land use and growth

assumptions, and an agreed to and defined corridor vision statement; and

(v) Developing a recommendation on the structure and membership of a formal coordinating entity that will be responsible for advancing the project through the project initiation stage to project development and recommended next steps for establishment of the coordinating entity. Project development processes must include consideration of negative and positive impacts on communities of color, low-income households, indigenous peoples, and other disadvantaged communities.

(b) By June 30, 2024, the department shall provide to the governor and the transportation committees of the legislature a high-level status update that includes, but is not limited to, the status of the items included in (a)(i) through (v) of this subsection.

(c) By June 30, 2025, the department shall provide to the governor and the transportation committees of the legislature a report detailing the work conducted by the policy committee and recommendations for establishing a coordinating entity. The report must also include an assessment of current activities and results relating to stakeholder engagement, planning, and any federal funding application. As applicable, the assessment should also be sent to the executive and legislative branches of government in Oregon state and appropriate government bodies in the province of British Columbia.

~~((4) \$1,800,000 of the multimodal transportation account state appropriation is provided solely for the department to pursue federal grant opportunities to develop and implement a technology-based truck parking availability system along the Interstate 5 Corridor in partnership with Oregon state and California state to maximize utilization of existing truck parking capacity and deliver real-time parking availability information to truck drivers. The department may use a portion of the appropriation in this subsection for grant proposal development and as state match funding for technology-based truck parking availability system federal grant applications. The department must update the transportation committees of the legislature on agency activities and their status by December 1, 2023, and to provide a final report to the transportation committees of the legislature by December 1, 2024.~~

~~(5) \$5,950,000 of the multimodal transportation account state appropriation is provided solely for implementation of truck parking improvements recommended by the freight mobility strategic investment board in consultation with the department under section 206(4) of this act. The office of financial management must place this amount in unallotted status.))~~

(3) Consistent with the ongoing planning and service improvement for the intercity passenger rail program, \$335,000 of the multimodal transportation account—federal appropriation is provided solely for the Cascades service development plan, to be used to analyze current and future market conditions and to develop a structured

assessment of service options and goals based on anticipated demand and the results of the state and federally required 2019 state rail plan, including identifying implementation alternatives to meet the future service goals for the Amtrak Cascades route. The work must be consistent with federal railroad administration guidance and direction on developing service development plans, and must be completed by June 30, 2024.

(4) The department shall continue to provide high quality intercity passenger rail service, align planning efforts for continued growth and on-time performance improvements consistent with federally recognized corridor development programs, and implement improvements consistent with planning efforts through leveraging federal funding opportunities. New passenger rail equipment is essential to service enhancements. The department shall make every effort to coordinate with service partners to prepare for the arrival of new trainsets and implementation of service enhancements. A status report must be provided to the transportation committees of the legislature and the office of financial management by December 1, 2024.

(5) \$500,000 of the multimodal transportation account—federal appropriation is provided solely for the Cascades corridor planning as part of the corridor identification and development program, in coordination with the Oregon state department of transportation. The department must continue to pursue funding opportunities for the Cascades corridor though the corridor identification and development program and the federal-state partnership programs at the federal rail administration. The department must notify the office of the governor and the transportation committees of the legislature of funding opportunities from the programs and any corresponding state match needs.

(6) \$50,000 of the multimodal transportation account—state appropriation is provided solely for the department to coordinate with partners on Amtrak long distance rail service.

**Sec. 224.** 2023 c 472 s 224 (uncodified) is amended to read as follows:

The appropriations in this section are subject to the following conditions and limitations:

(1) \$500,000 of the motor vehicle account—state appropriation is provided solely for development, administration, program management, and evaluation of the federal fund exchange pilot program.

(2) \$1,063,000 of the motor vehicle account—state appropriation is provided solely for the department, from amounts set aside out of statewide fuel taxes distributed to counties according to RCW 46.68.120(3), to contract with the Washington state association of counties to:

(a) Contract with the department of fish and wildlife to identify, inventory, and prioritize county-owned fish passage barriers;

(b) Continue streamlining and updating the county road administration board's data dashboard, to provide a more detailed, more transparent, and user-friendly platform for data management, reporting, and research by the public and other interested parties;

(c) Commission a study to develop guidance for county public works departments conducting environmental justice assessments in their communities and recommend best practices for community engagement plans to address environmental health disparities for identified overburdened communities;

(d) Contract for a study to identify best practices within public works for the recruitment and retention of employees, including: Recommendations for improving outreach and recruitment to underrepresented populations, methods to partner with local community colleges and universities, methods to expand apprenticeship and internship programs, strategies to increase training and development opportunities, and recommendations for career advancement programs and better work-life balance outcomes;

(e) Update the 2020 county transportation revenue study; and

(f) By December 15, 2024, report to the office of financial management and the appropriate committees of the legislature the deliverables from and the amounts expended on the purposes enumerated in this subsection.

~~((+5))~~ (4) (a) \$200,000 of the multimodal transportation account—state appropriation is provided solely for the department to develop the preliminary phase of an action plan for the establishment of cycle highways in locations that connect population centers and support mode shift.

(b) The action plan may complement and incorporate existing resources, including the state trails database maintained by the recreation and conservation office, local and regional plans, and the state active transportation plan.

(c) The action plan may also include, but is not limited to:

(i) Recommended design; geometric and operational criteria and typologies appropriate to urban, suburban, and rural settings; settings that include shared use; and incremental approaches to achieve desired facility types;

(ii) A model or methodology to project potential demand and carrying capacity based on facility quality, level of traffic

stress, location, directness, land use, and other key attributes;

(iii) Examination of the feasibility of developing high-capacity infrastructure for bicycle and micromobility device use within a variety of contexts and recommendations for pilot projects;

(iv) Identification of key gaps in regional networks, including planned and aspirational routes and locations within three miles of high-capacity transit or existing shared-use paths and trails suitable for transportation;

(v) Identification of legal, regulatory, financial, collaboration, and practical barriers to development and community acceptance and support of such facilities; and

(vi) Recommended strategies to consider and address issues to avoid unintended consequences such as displacement, and to ensure equity in long-term development of such facilities.

(d) The department must provide a report with its initial findings, and recommendations for next steps, to the transportation committees of the legislature by June 30, 2025.

~~((6))~~ ~~(\$140,000 of the motor vehicle account—state appropriation is provided solely for the Pierce county ferry to eliminate fares for passengers 18 years of age and younger.~~

~~(7))~~ (5) \$750,000 of the multimodal transportation account—state appropriation is provided solely for a grant program to support local initiatives that expand or establish civilian intervention programs for nonmoving violations, focusing on nonpunitive interventions such as helmet voucher programs, fee offset programs, fix-it tickets, and repair vouchers that provide solutions for vehicle equipment failures for low-income road users.

(a) Grants must be awarded to local jurisdictions based on locally developed proposals to establish or expand existing programs, including programs with community led organizations. Eligible jurisdictions under the grant program include cities, counties, tribal government entities, tribal organizations, law enforcement agencies, or nonprofit organizations.

(b) The department shall report on its website by December 1st of each year on the recipients, locations, and types of projects funded under this subsection.

~~((8))~~ (6) \$146,000 of the motor vehicle account—state appropriation is provided solely for the implementation of chapter 428, Laws of 2023 (Wahkiakum ferry). If chapter 428, Laws of 2023 is not enacted by June 30, 2023, the amount provided in this subsection lapses.

(7) (a) \$50,000 of the multimodal transportation account—state appropriation is provided solely for the department to examine the feasibility of creating a new budget program for the active transportation division, including, but not limited to, examining:

(i) Estimated cost, new staffing needs, and time frame to establish the program;

(ii) A proposed budget structure, and whether both operating and capital components should be established; and

(iii) Identification of staff, capital projects, and other resources that would need to be transferred from other existing programs.

(b) By December 1, 2024, the department shall report examination findings and recommendations to the office of financial management and the transportation committees of the legislature.

(8) \$275,000 of the carbon emissions reduction account—state appropriation is provided solely to support Pierce, Skagit, Whatcom, and Wahkiakum county ferries with youth zero-fare policies.

(9) \$500,000 of the multimodal transportation account—state appropriation is provided solely for the city of Seattle department of transportation to create a digital conflict area awareness management program to provide machine-readable information for transportation operators, such as autonomous vehicle fleet operators, to be aware of conflict areas, such as emergency response zones, work zones, schools, pick up and drop off locations, and other areas where vulnerable road users may be present.

(a) Program work must include:

(i) The city of Seattle engaging with first responders and transportation management officials and other relevant stakeholders, to determine program implementation needs and processes; and

(ii) A feasibility study of implementing the program's mobility and curb data specifications to include, but not be limited to, necessary partners, data platforms, ability to integrate real-time 911 dispatch, emergency vehicles, work zones, and other areas to reduce conflicts for transportation operators of autonomous vehicle fleets on public roads and in the right-of-way.

(b) Program work must also be conducted in coordination and partnership with city of Seattle departments, the nonprofit steward of the program's mobility and curb data specifications, the Washington state department of transportation, and other entities potentially impacted by the implementation of the program.

(c) As feasible, the city of Seattle shall prepare an implementation pilot of the program to make a standardized data feed available publicly for transportation operator use.

(d) The city of Seattle must provide a report on any findings and recommendations of the program and any implementation needs and process mapping for use by other jurisdictions to the Washington state department of transportation and the transportation committees of the legislature by June 30, 2025.

(10) \$150,000 of the motor vehicle account—state appropriation is provided solely for the department to fund one full-time equivalent liaison position within the local program multiagency permit program. Within the amounts provided in this subsection, the department shall work to enhance its multiagency permit program

capabilities, with an emphasis on multiagency agreements that streamline, prioritize, and expedite project-level and programmatic permits and approvals. The department shall review current multiagency permit program practices and provide a report with recommendations on the enhancement of the program to the transportation committees of the legislature by December 1, 2024.

**TRANSPORTATION AGENCIES—CAPITAL**

**Sec. 301.** 2023 c 472 s 301 (uncodified) is amended to read as follows:

**FOR THE WASHINGTON STATE PATROL**

State Patrol Highway Account—State Appropriation. . . . . (~~(\$7,700,000)~~) \$7,888,000

The appropriation in this section is subject to the following conditions and limitations:

(1) (~~(\$7,700,000)~~)\$7,888,000 of the state patrol highway account—state appropriation is provided solely for the following projects:

- (a) \$250,000 is for emergency repairs;
- (b) \$2,000,000 is for roof replacements;
- (c) \$350,000 is for fuel tank decommissioning;
- (d) \$500,000 is for generator and electrical replacement;
- (e) \$500,000 is for the exterior envelope of the Yakima office;
- (f) \$2,000,000 is for energy efficiency projects;
- (g) \$1,000,000 is for pavement surface improvements;
- (h) \$300,000 is for fire alarm panel replacement;
- (i) \$188,000 is for repairs at the Bellevue district office;
- (j) \$200,000 is for an academy master plan. As part of the academy master plan, the Washington state patrol must review and provide an analysis on the potential to colocate some training programs with other state agencies, including the department of corrections, the department fish and wildlife, the liquor and cannabis board, and the criminal justice training commission. The Washington state patrol must consult with the other state agencies to determine where cost efficiencies and mutually beneficial shared arrangements for training delivery could occur. The funding for this academy master plan is not a commitment to fund any components related to the expansion of the academy in the future;

~~((+j))~~(k) \$500,000 reappropriation is for the Tacoma district office generator replacement project; and  
~~((+k))~~(l) \$100,000 reappropriation is for the energy improvement project at the SeaTac northbound facility.

(2) The Washington state patrol may transfer funds between projects specified in subsection (1) of this section to address cash flow requirements.

(3) If a project specified in subsection (1) of this section is completed for less than the amount provided, the remainder may

be transferred to another project specified in subsection (1) of this section not to exceed the total appropriation provided in subsection (1) of this section after notifying the office of financial management and the transportation committees of the legislature 20 days before any transfer.

(4) By December 1, 2023, the Washington state patrol shall provide a report to the transportation committees of the legislature detailing utility incentives that will reduce the cost of heating, ventilating, and air conditioning systems funded in this section.

(5) By December 1, 2023, the Washington state patrol shall provide its capital improvement and preservation plan for agency facilities to the appropriate committees of the legislature.

**Sec. 302.** 2023 c 472 s 302 (uncodified) is amended to read as follows:

**TOTAL APPROPRIATION. . . . . (~~(\$105,289,000)~~) \$109,776,000**

**Sec. 303.** 2023 c 472 s 304 (uncodified) is amended to read as follows:

**FOR THE DEPARTMENT OF TRANSPORTATION—FACILITIES—PROGRAM D—(DEPARTMENT OF TRANSPORTATION-ONLY PROJECTS)—CAPITAL**

Connecting Washington Account—State Appropriation. . . . . \$3,000  
 Motor Vehicle Account—State Appropriation. (~~(\$29,173,000)~~) \$29,810,000  
 Move Ahead WA Account—State Appropriation. \$12,011,000  
 Multimodal Transportation Account—State Appropriation. . . . . \$1,200,000  
**TOTAL APPROPRIATION. . . . . (~~(\$42,384,000)~~) \$43,024,000**

The appropriations in this section are subject to the following conditions and limitations:

(1) \$4,025,000 of the motor vehicle account—state appropriation is provided solely for payments of a financing contract issued pursuant to chapter 39.94 RCW for the department facility located at 15700 Dayton Ave N in Shoreline. All payments from the department of ecology pursuant to the agreement with the department to pay a share of the financing contract for this facility must be deposited into the motor vehicle account.

(2) (a) \$10,011,000 of the move ahead WA account—state appropriation is provided solely for the department to improve its ability to keep facility assets in a state of good repair. In using the funds appropriated in this subsection, the department, with periodic reporting to the joint transportation committee, must develop

and implement a prioritization of facility capital preservation needs and repair projects. The legislature intends these to be reasonable, forward-thinking investments that consider potential future space efficiency measures and consolidations, including those assessed as having high commercial value and potential returns to state transportation funds associated with the sale of the property. Prioritization must be based on, but not limited to, the following criteria: (i) Employee safety and facility security; (ii) state and federal regulatory and statutory requirements and compliance issues, including clean buildings requirements; (iii) quality of work issues; (iv) facility condition assessment evaluations and scoring; (v) asset preservation; and (vi) amount of operational support provided by the facility to the achievement of the department's performance measures and outcomes, including facility utilization based on field operations work supported at the location. "Field operations" include maintenance, transportation operations, materials testing, and construction.

(b) By October 15, 2024, covering the first 15 months of the 2023-2025 fiscal biennium, the department must provide a report based on the prioritization of facility preservation needs and repair projects developed pursuant to (a) of this subsection to the office of financial management and the transportation committees of the legislature. The report must include: (i) A by facility ranking based on the criteria implemented; (ii) detailed information on the actions taken in the previous period to address the identified issues and deficiencies; and (iii) the plan, by facility, to address issues and deficiencies for the remainder of the 2023-2025 fiscal biennium and the 2025-2027 fiscal biennium.

(c) The by facility ranking developed under (b) of this subsection must be the basis of an agency budget submittal for the 2025-2027 fiscal biennium.

(3) (a) \$1,200,000 of the multimodal transportation account—state appropriation is provided solely for the department to evaluate safety rest areas along Interstate 5 and Interstate 90 for potential truck parking expansion opportunities. The department shall also evaluate commercial vehicle inspection locations, in coordination with the Washington state patrol, for potential truck parking expansion opportunities.

(b) These evaluations must include assessments of opportunities to provide additional truck parking through rest stop and inspection location reconfiguration, expansion, and conversion, as well as evaluation of potential improvements to restroom facilities at weigh stations with truck parking. The department shall consider opportunities to expand rest stop footprints onto additional department-owned property, as well as opportunities to acquire property for rest stop expansion. Opportunities to convert a rest stop to a commercial vehicle-only rest stop must be considered if property is available to develop a new

light-duty vehicle rest stop within a reasonable distance. The department shall include an evaluation of a potential truck parking site at John Hill Rest Area along the Interstate 90 corridor identified in the joint transportation committee's "Truck Parking Action Plan." Evaluations must include cost estimates for reconfiguration, expansion, and conversion, as well as other recommendations for the development of these sites.

(c) The department should consult with the federal highway administration, the Washington state patrol, the Washington trucking association, the freight mobility strategic investment board, and local communities.

(d) The department must update the transportation committees of the legislature on agency activities and their status by December 1, 2023, and to provide a final report to the transportation committees of the legislature by December 1, 2024.

(4) \$15,457,000 of the motor vehicle account—state appropriation is provided solely for making improvements to the department facility located at 11018 NE 51st Cir in Vancouver to meet the Washington state clean buildings performance standard.

(5) (a) \$4,100,000 of the move ahead WA account—state appropriation is provided solely for preliminary engineering and design associated with the demolition and replacement of the department's vehicle repair and parts building at 6431 Corson Avenue South in Seattle. The department must include any requested construction costs of the facility as a separate project as part of its agency budget submittal for the 2025-2027 fiscal biennium utilizing form C-100 for capital projects. The design information must also include detailed information on square footage, components of the facility, and cost comparisons with similar maintenance facilities.

(b) By September 1, 2024, the office of financial management, in consultation with the department, must develop criteria for preservation and improvement minor works lists for the department's facilities program. The criteria must incorporate, adjusted where appropriate, provisions already in use in the omnibus capital budget act for minor works, including: (i) The dollar limitation for each project to be included in the list; (ii) the types of projects appropriate to be included in the list; (iii) the project length limitation appropriate to be included in the list; and (iv) a recommended initial allotment, revision request approval, and revision notification process associated with the list. The criteria must be the basis of the preservation and improvement minor works list included in the agency budget submittal beginning with the 2025-2027 fiscal biennium.

(c) By September 1, 2024, the office of financial management, in consultation with the department, must also develop criteria for providing building related capital requests in a comparable format, adjusted where appropriate, to provisions already in use in the omnibus capital appropriations act for building projects, including the

C-100 capital request form and other detail requirements for omnibus capital appropriations act building submissions.

The appropriations in this section are subject to the following conditions and limitations:

(1) Except as provided otherwise in this section, the entire connecting Washington account—state appropriation, the entire move ahead WA account—federal appropriation, the entire move ahead WA account—state appropriation, and the entire transportation partnership account—state appropriation are provided solely for the projects and activities as listed by fund, project, and amount in LEAP Transportation Document ((2023-1))2024-1 as developed ((April 21, 2023))March 6, 2024, Program - Highway Improvements Program (I). However, limited transfers of specific line-item project appropriations may occur between projects for those amounts listed subject to the conditions and limitations in section 601 ((of this act)), chapter 472, Laws of 2023.

(2) Except as provided otherwise in this section, the entire motor vehicle account—state appropriation and motor vehicle account—federal appropriation are provided solely for the projects and activities listed in LEAP Transportation Document ((2023-2))2024-2 ALL PROJECTS as developed ((April 21, 2023))March 6, 2024, Program - Highway Improvements Program (I). Any federal funds gained through efficiencies, adjustments to the federal funds forecast, or the federal funds redistribution process must then be applied to highway and bridge preservation activities.

(3) Within the motor vehicle account—state appropriation and motor vehicle account—federal appropriation, the department may transfer appropriation authority between programs I and P, except for appropriation authority that is otherwise restricted in this act, as follows:

(a) Ten days prior to any transfer, the department must submit its request to the office of financial management and the transportation committees of the legislature and consider any concerns raised.

(b) The director of the office of financial management must first provide written authorization for such transfer to the department and the transportation committees of the legislature.

(c) The department shall submit a report on appropriation authority transferred in the prior fiscal year using this subsection as part of the department's annual budget submittal.

(4) The connecting Washington account—state appropriation includes up to (((\$1,737,009,000))\$1,332,926,000 in proceeds from the sale of bonds authorized in RCW 47.10.889.

(5) The special category C account—state appropriation includes up to (((\$118,773,000))\$111,106,000 in proceeds from the sale of bonds authorized in RCW 47.10.812.

(6) The transportation partnership account—state appropriation includes up to (((\$32,643,000))\$46,899,000 in proceeds from the sale of bonds authorized in RCW 47.10.873.

(7) The appropriations in this section include savings due to anticipated project underruns; however, it is unknown which projects will provide savings. The legislature intends to provide sufficient flexibility for the department to manage to this savings target. To provide this flexibility, the office of financial management may authorize, through an ~~((allotment))~~ appropriation modification, reductions in the amounts that are provided solely for a particular purpose within this section subject to the following conditions and limitations:

(a) The department must confirm that any modification requested under this subsection of amounts provided solely for a specific purpose are not expected to be used for that purpose in this fiscal biennium;

(b) ~~((Allotment))~~ Appropriation modifications authorized under this subsection may not result in increased funding for any project beyond the amount provided for that project in the 2023-2025 fiscal biennium in LEAP Transportation Document ~~((2023-2))~~ 2024-2 ALL PROJECTS as developed ~~((April 21, 2023))~~ March 6, 2024;

(c) ~~((Allotment))~~ Appropriation modifications authorized under this subsection apply only to amounts appropriated in this section from the following accounts: Connecting Washington account—state, and move ahead WA account—state; and

(d) The office of financial management must provide notice of ~~((allotment))~~ appropriation modifications authorized under this subsection within 10 working days to the transportation committees of the legislature. By December 1, 2023, and December 1, 2024, the department must submit a report to the transportation committees of the legislature regarding the actions taken to date under this subsection.

(8) The department shall itemize all future requests for the construction of buildings on a project list and submit them through the transportation executive information system as part of the department's annual budget submittal. It is the intent of the legislature that new facility construction must be transparent and not appropriated within larger highway construction projects.

(9) The legislature continues to prioritize the replacement of the state's aging infrastructure and recognizes the importance of reusing and recycling construction aggregate and recycled concrete materials in our transportation system. To accomplish Washington state's sustainability goals in transportation and in accordance with RCW 70A.205.700, the legislature reaffirms its determination that recycled concrete aggregate and other transportation building materials are natural resource construction materials that are too valuable to be wasted and landfilled, and are a commodity as defined in WAC 173-350-100.

(10) By June 30, 2025, to the extent practicable, the department shall decommission the facilities for the Lacey project engineering office and the Tumwater project engineering office at the end of

their lease terms and consolidate the Lacey project engineering office and the Tumwater project engineering office into the department's Olympic regional headquarters.

(11) The legislature intends that any savings realized on the following projects will not be attributable to the application of practical design, retired risk, or unused contingency funding for the purposes of RCW 47.01.480:

(a) I-5/Marvin Road/SR 510 Interchange (L1100110); and

(b) I-82/EB WB On and Off Ramps (L2000123).

(12) (a) ~~((\$300,000,000))~~ \$337,114,000 of the coronavirus state fiscal recovery fund—federal appropriation, ~~((\$312,653,000))~~ \$110,439,000 of the motor vehicle account—federal appropriation, ~~((\$427,459,000))~~ \$576,827,000 of the move ahead WA account—state appropriation, and ~~((\$1,293,000))~~ \$8,329,000 of the motor vehicle account—state appropriation are provided solely for the Fish Passage Barrier Removal project (0BI4001) with the intent of fully complying with the federal *U.S. v. Washington* court injunction by 2030.

(b) The fish passage barrier removal program, in consultation with the office of innovative partnerships, shall explore opportunities to employ innovative delivery methods to ensure compliance with the court injunction including, but not limited to, public-private partnerships and batched contracts. It is the intent of the legislature that appropriations for this purpose may be used to jointly leverage state and local funds for match requirements in applying for competitive federal aid grants provided in the infrastructure investment and jobs act for removals of fish passage barriers under the national culvert removal, replacement, and restoration program. State funds used for the purpose described in this subsection must not compromise full compliance with the court injunction by 2030.

(c) The department shall coordinate with the Brian Abbott fish passage barrier removal board to use a watershed approach by replacing both state and local culverts guided by the principle of providing the greatest fish habitat gain at the earliest time. The department shall deliver high habitat value fish passage barrier corrections that it has identified, guided by the following factors: Opportunity to bundle projects, tribal priorities, ability to leverage investments by others, presence of other barriers, project readiness, culvert conditions, other transportation projects in the area, and transportation impacts. The department and Brian Abbott fish barrier removal board must provide updates on the implementation of the statewide culvert remediation plan to the legislature by November 1, 2023, and June 1, 2024.

(d) The department must keep track of, for each barrier removed: (i) The location; (ii) the amount of fish habitat gain; and (iii) the amount spent to comply with the injunction.

(e) During the 2023-2025 fiscal biennium, the department shall provide reports of the

amounts of federal funding received for this project to the governor and transportation committees of the legislature by November 1, 2023, and semiannually thereafter.

(13) (a) (~~(\$6,000,000 of the move ahead WA account—state appropriation)~~) \$15,000,000 of the model toxics control stormwater account—state appropriation is provided solely for the Stormwater Retrofits and Improvements project (L4000040). It is the intent of the legislature, over the 16-year move ahead WA investment program, to provide \$500,000,000 for this program.

(b) (~~(The appropriation in this subsection)~~) Of the amounts provided in this subsection, \$6,000,000 is provided solely for the Urban Stormwater Partnership - I-5 Ship-Canal Bridge Pilot (Seattle) project.

(c) The funding provided for stormwater retrofits and improvements must enhance stormwater runoff treatment from existing roads and infrastructure with an emphasis on green infrastructure retrofits. Projects must be prioritized based on benefits to salmon recovery and ecosystem health, reducing toxic pollution, addressing health disparities, and cost-effectiveness. The department of transportation must submit progress reports on its efforts to reduce the toxicity of stormwater runoff from existing infrastructure, recommendations for addressing barriers to innovative solutions, and anticipated demand for funding each fiscal biennium.

(14) (a) (~~(\$35,465,000)~~) \$25,067,000 of the connecting Washington account—state appropriation is provided solely for the SR 3 Freight Corridor (T30400R) project. The legislature intends to provide a total of \$78,910,000 for this project, including an increase of \$12,000,000 in future biennia to safeguard against inflation and supply/labor interruptions and ensure that:

(i) The northern terminus remains at Lake Flora Road and the southern terminus at the intersection of SR 3/SR 302; and

(ii) Multimodal safety improvements at the southern terminus remain in the project to provide connections to North Mason school district and provide safe routes to schools( ~~and~~

~~(iii) Intersections on the freight corridor are constructed at Romance Hill and Log Yard road).~~

(b) With respect to right-of-way acquisition and the construction of the SR 3 Freight Corridor project (T30400R), tribal consultation with the Suquamish tribe shall begin at the earliest stage of planning, including without limitation on all funding decisions and funding programs, to provide a government-to-government mechanism for the tribe to evaluate, identify, and expressly notify governmental entities of any potential impacts to tribal cultural resources, archaeological sites, sacred sites, fisheries, or other rights and interests in tribal lands and lands within which the tribe possesses rights reserved or protected by federal treaty, statute, or executive order. The consultation is independent of, and in addition to, any public participation process required under state law, or by a state agency, including the requirements of Executive Order 21-02

related to archaeological and cultural resources, and regardless of whether the agency receives a request for consultation from the Suquamish tribe. Regularly scheduled tribal consultation meetings with the Suquamish tribe shall continue throughout the duration of any funding or program decisions and proposed project approval.

(15) \$6,000,000 of the move ahead WA account—state appropriation and \$10,000,000 of the move ahead WA account—federal appropriation are provided solely for the SR 3/Gorst Area - Widening project (L4000017). Tribal consultation with the Suquamish tribe must begin at the earliest stage of planning, including, without limitation, all funding decisions and funding programs, to provide a government-to-government mechanism for the tribe to evaluate, identify, and expressly notify governmental entities of any potential impacts to tribal cultural resources, archaeological sites, sacred sites, fisheries, or other rights and interests in tribal lands and lands within which the tribe possesses rights reserved or protected by federal treaty, statute, or executive order. The consultation is independent of, and in addition to, any public participation process required under state law, or by a state agency, including the requirements of Executive Order 21-02 related to archaeological and cultural resources, and regardless of whether the agency receives a request for consultation from the Suquamish tribe. Regularly scheduled tribal consultation meetings with the Suquamish tribe must continue throughout the duration of any funding program and proposed project approval.

(16) (a) (~~(\$84,500,000)~~) \$94,500,000 of the move ahead WA account—federal appropriation, \$137,500,000 of the move ahead WA account—private/local appropriation, and (~~(\$53,000,000)~~) \$43,000,000 of the move ahead WA account—state appropriation are provided solely for the I-5 Columbia river bridge project (L4000054). The legislature finds that the replacement of the I-5 Columbia river bridge is a project of national significance and is critical for the movement of freight. One span is now 105 years old, at risk for collapse in the event of a major earthquake, and no longer satisfies the needs of commerce and travel. Replacing the aging interstate bridge with a modern, seismically resilient, multimodal structure that provides improved mobility for people, goods, and services is a high priority. Therefore, the legislature intends to support the replacement of the I-5 Columbia river bridge with an investment of \$1,000,000,000 over the 16-year move ahead WA investment program.

(b) The legislature recognizes the importance of the I-5/Mill Plain Boulevard project (L2000099) and intends to provide funding for reconstruction of the existing interchange in coordination with construction of the Interstate 5 bridge over the Columbia river.

(c) The department shall provide regular updates on the status of ongoing coordination with the state of Oregon on any bistate agreements regarding sharing of

revenues, use of revenues, and fiscal responsibilities of each state. Prior to finalizing any such agreement, the department shall provide a draft of the agreement to the transportation committees of the legislature for review and input. Additionally, the department shall advise on the status of any bistate agreements to the joint transportation committee beginning in September 2023 and quarterly thereafter until any agreements are finalized.

(17) The legislature recognizes the importance of the US-12/Walla Walla Corridor Improvements project (T20900R) and intends to advance funding to provide matching funds if competitive federal funding is awarded for the final remaining four-lane section between Wallula and Nine Mile Hill. The department, in consultation with local governments in the vicinity, must pursue any federal funding available.

(18) \$2,642,000 of the move ahead WA account—state appropriation is provided solely for the US 101/Simdars Bypass project (L4000013).

(19) ~~(\$570,842,000)~~ \$338,512,000 of the connecting Washington account—state appropriation, ~~(\$155,000)~~ \$3,109,000 of the multimodal transportation account—state appropriation, ~~(\$26,537,000)~~ \$27,201,000 of the motor vehicle account—private/local appropriation, ~~(\$200,800,000)~~ \$178,543,000 of the move ahead WA account—federal appropriation, ~~(\$68,191,000)~~ \$36,370,000 of the move ahead WA account—state appropriation, and ~~(\$6,980,000)~~ \$211,131,000 of the motor vehicle account—federal appropriation are provided solely for the SR 167/SR 509 Puget Sound Gateway project (M00600R).

(a) Any savings on the project must stay on the Puget Sound Gateway corridor until the project is complete.

(b) In making budget allocations to the Puget Sound Gateway project, the department shall implement the project's construction as a single corridor investment. The department shall continue to collaborate with the affected stakeholders as it implements the corridor construction and implementation plan for state route number 167 and state route number 509. Specific funding allocations must be based on where and when specific project segments are ready for construction to move forward and investments can be best optimized for timely project completion. Emphasis must be placed on avoiding gaps in fund expenditures for either project.

(c) The entire multimodal transportation account—state appropriation in this subsection is for:

(i) The design phase of the Puyallup to Tacoma multiuse trail along the state route number 167 right-of-way acquired for the project to connect a network of new and existing trails from Mount Rainier to Point Defiance Park; and

(ii) Segment 2 of the state route number 167 completion project shared-use path to provide connections to the interchange of state route number 167 at 54th to the intersection of state route number 509 and Taylor Way in Tacoma.

(20) \$2,213,000 of the motor vehicle account—state appropriation and \$14,012,000 of the connecting Washington account—state appropriation are provided solely for the SR 224/Red Mountain Vicinity Improvement project (L1000291). The department shall provide funding to the city of West Richland to complete the project within the project scope identified by the legislature and within the total amount provided by the legislature. The department shall not amend the project's scope of work to add pavement preservation on state route number 224 from the West Richland city limits to Antinori Road.

~~((a) \$394,963,000)~~ (21) \$409,667,000 of the connecting Washington account—state appropriation, ~~(\$400,000)~~ \$500,000 of the state route number 520 corridor account—state appropriation, \$10,000,000 of the state route number 520 civil penalties account—state appropriation, \$52,000,000 of the JUDY transportation future funding program account—state appropriation, and ~~(\$4,496,000)~~ \$5,592,000 of the motor vehicle account—private/local appropriation are provided solely for the SR 520 Seattle Corridor Improvements - West End project (M00400R) and are subject to the following conditions and limitations:

(a) The department shall immediately proceed with awarding the bid for the Portage Bay Bridge and Roanoke Lid project to the team that submitted the proposal with the apparent best value in September 2023. Consistent with negotiated timelines, the legislature expects the award to be made by March 15, 2024, and assumes that the department shall expedite executing the contract with the awarded team. Once the contract is executed for this project, the department shall seek consequential cost reduction opportunities through value engineering and prioritizing functionality and usability of the Portage Bay Bridge and Roanoke Lid. The department shall report on the status of the project and cost reduction efforts to the transportation committees of the legislature by December 15, 2024.

(b) Upon completion of the Montlake Phase of the West End project (~~(current anticipated contract completion of 2023)~~), the department shall sell or transfer that portion of the property not (~~used~~) necessary for (~~permanent~~) transportation (~~improvements~~) purposes, and shall initiate a process to convey (~~that~~) or transfer such portion of the surplus property to a subsequent owner.

(c) Of the amounts provided in this subsection, (~~(\$400,000)~~ \$500,000 of the state route number 520 corridor account—state appropriation is provided solely for noise mitigation activities. It is the intent of the legislature to provide an additional \$600,000 for noise mitigation activities.

(d) Pursuant to chapter . . . (Substitute Senate Bill No. 6316), Laws of 2024, the department shall apply for a sales tax deferral for construction work on the SR 520 Seattle Corridor Improvements - West End project (M00400R).

~~((21))~~ (22) \$450,000 of the motor vehicle account—state appropriation is

provided solely for the SR 900 Safety Improvements project (L2021118). The department must: (a) Work in collaboration with King county and the Skyway coalition to align community assets, transportation infrastructure needs, and initial design for safety improvements along state route number 900; and (b) work with the Skyway coalition to lead community planning engagement and active transportation activities.

~~((22) \$25,000,000))~~ (23) \$7,500,000 of the motor vehicle account—federal appropriation is provided solely for a federal fund exchange pilot program. The pilot program must allow exchanges of federal surface transportation block grant population funding and state funds at an exchange rate of 95 cents in state funds per \$1.00 in federal funds. The projects receiving the exchanged federal funds must adhere to all federal requirements, including the applicable disadvantaged business enterprise goals. The entirety of the appropriation in this subsection must be held in unallotted status until surface transportation block grant population funding has been offered to the state, and the department determines that a federalized project or projects funded in this section is eligible to spend the surface transportation block grant population funding. ~~((22,500,000))~~ \$7,125,000 from existing state appropriations identified elsewhere within this section are available to be used as part of the exchange. Upon determination that a project or projects funded in this section is eligible to spend the offered surface transportation block grant population funding, state funds appropriated in this section for the eligible state project or projects in an amount equal to 100 percent of the offered surface transportation block grant population funding must be placed in unallotted status. The legislature intends to evaluate the utility and efficacy of the pilot program in the 2025 legislative session while reappropriating any remaining funds into the 2025-2027 fiscal biennium. Therefore, the department may issue additional calls for projects with any remaining funds provided in this subsection.

~~((23) \$5,000,000))~~ (24) \$9,593,000 of the motor vehicle account—state appropriation, ~~((5,000,000))~~ \$552,000 of the connecting Washington account—state appropriation, and ~~((5,000,000))~~ \$209,000 of the move ahead WA account—state appropriation are provided solely for the SR 522/Paradise Lk Rd Interchange & Widening on SR 522 (Design/Engineering) project (NPARADI), specifically for design of, preliminary engineering, and right-of-way acquisition for the interchange and widening as a single project. The department must consider reserving portions of state route number 522, including designated lanes or ramps, for the exclusive or preferential use of public transportation vehicles, privately owned buses, motorcycles, private motor vehicles carrying not less than a specified number of passengers, or private transportation provider vehicles pursuant to RCW 47.52.025.

(25) Prior to initiating new advertisements or requests for

qualifications for the following projects: SR 9/Marsh Road to 2nd Street Vicinity (N00900R), SR 526 Corridor Improvements (N52600R), US 395 North Spokane Corridor (M00800R), and SR 18 - Widening - Issaquah/Hobart Rd to Raging River - Phase 1 (L1000199), the capital projects advisory review board shall review the planned procurement methods for these projects. The board shall provide recommendations on procurement methods to the office of financial management, the department, and the transportation committees of the legislature for project L1000199 by July 1, 2024, and projects N52600R, N00900R, and M00800R by December 1, 2024. After the board provides recommendations, the department may initiate new advertisements and requests for qualifications, incorporating the recommendations as appropriate.

The department shall structure the advertisements, requests for qualifications, and requests for proposals, for projects referenced in this subsection, in a manner that provides a high degree of certainty that bids come in as expected according to engineer estimates made through the cost estimate valuation process. The department may request bid offers with alternatives for components of a larger project so that the department may present to the legislature modified options for projects to minimize project delays and stay within appropriated funding resources. If alternatives provided are at or below the engineer estimates, the department may proceed with the project award.

If bid proposals exceed engineer estimates by more than five percent or \$10,000,000, the department shall report this information to the transportation committees of the legislature within two weeks of receiving the bid proposals, and pause award and contract execution.

(26) \$750,000 of the motor vehicle account—state appropriation is provided solely for the Grady Way Overpass at Rainier Avenue South I-405 BRT Access study (L1000333).

(27) \$1,804,000 of the connecting Washington account—state appropriation is provided solely for the SR 164 East Auburn Access project (L1000120). The department must work with the Muckleshoot tribe to deliver the project.

(28) \$250,000 of the motor vehicle account—state appropriation is provided solely for preliminary engineering of the SR 14/Camas Slough Bridge project (L1000352). Funds may be used for predesign environmental assessment work, community engagement, design, and project cost estimation.

(29) \$1,000,000 of the multimodal transportation account—state appropriation is provided solely for matching funds for the department to apply to the federal highway administration's wildlife crossings pilot program, in the 2024 grant application cycle, for wildlife crossing underpasses on U.S. 97 between Tonasket and Riverside.

(30) \$1,800,000 of the multimodal transportation account—state appropriation and \$12,287,000 of the multimodal transportation account—federal appropriation

are provided solely for the department to develop and implement a technology-based truck parking availability system along the Interstate 5 corridor in partnership with Oregon state and California state to maximize utilization of existing truck parking capacity and deliver real-time parking availability information to truck drivers (L1000375). The department may use a portion of the appropriation in this subsection for grant proposal development and as state match funding for technology-based truck parking availability system federal grant applications. The department must update the transportation committees of the legislature on agency activities and their status by December 1, 2023, and provide a final report to the transportation committees of the legislature by December 1, 2024.

(31) \$1,000,000 of the multimodal transportation account—state appropriation is provided solely for the design on the I-5 Fort Lewis weigh station and SR 906 Phase 3 truck parking improvements (L1000377).

(32) The legislature intends to provide \$4,950,000 in the 2025-2027 fiscal biennium for additional truck parking improvements (L1000376). As part of the department's 2025-2027 budget submittal, the department and the freight mobility strategic investment board, after consulting with appropriate entities, must provide a list of specific truck parking solutions within the amounts provided in this subsection (32). The list may also include additional funding recommendations beyond this amount for more immediate expansion of truck parking capacity, as well as for long-term expansion of truck parking capacity.

The appropriations in this section are subject to the following conditions and limitations:

(1) Except as provided otherwise in this section, the entire connecting Washington account—state appropriation, the entire move ahead WA account—federal appropriation, the entire move ahead WA account—state appropriation, and the entire transportation partnership account—state appropriation are provided solely for the projects and activities as listed by fund, project, and amount in LEAP Transportation Document ((2023-1))2024-1 as developed ((April 21, 2023))March 6, 2024, Program - Highway Preservation Program (P). However, limited transfers of specific line-item project appropriations may occur between projects for those amounts listed subject to the conditions and limitations in section 601 ((of this act)), chapter 472, Laws of 2023.

(2) Except as provided otherwise in this section, the entire motor vehicle account—state appropriation and motor vehicle account—federal appropriation are provided solely for the projects and activities listed in LEAP Transportation Document ((2023-2))2024-2 ALL PROJECTS as developed ((April 21, 2023))March 6, 2024, Program - Highway Preservation Program (P). Any federal funds gained through efficiencies, adjustments to the federal funds forecast, or the federal funds redistribution process must then be applied to highway and bridge preservation activities.

(3) Within the motor vehicle account—state appropriation and motor vehicle account—federal appropriation, the department may transfer appropriation authority between programs I and P, except for appropriation authority that is otherwise restricted in this act, as follows:

(a) Ten days prior to any transfer, the department must submit its request to the office of financial management and the transportation committees of the legislature and consider any concerns raised.

(b) The director of the office of financial management must first provide written authorization for such transfer to the department and the transportation committees of the legislature.

(c) The department shall submit a report on appropriation authority transferred in the prior fiscal year using this subsection as part of the department's annual budget submittal.

(4) The transportation partnership account—state appropriation includes up to

~~(\$10,000,000)~~ \$3,280,000 in proceeds from the sale of bonds authorized in RCW 47.10.873.

(5) \$22,000,000 of the motor vehicle account—state appropriation is provided solely for extraordinary costs incurred from litigation awards, settlements, or dispute mitigation activities not eligible for funding from the self-insurance fund (L2000290). The amount provided in this subsection must be held in unallotted status until the department submits a request to the office of financial management that includes documentation detailing litigation-related expenses. The office of financial management may release the funds only when it determines that all other funds designated for litigation awards, settlements, and dispute mitigation activities have been exhausted.

(6) Within the connecting Washington account—state appropriation, the department may transfer funds from Highway System Preservation (L1100071) to other preservation projects listed in the LEAP transportation document identified in subsection (1) of this section, if it is determined necessary for completion of these high priority preservation projects. The department's next budget submittal after using this subsection must appropriately reflect the transfer.

(7) By June 30, 2025, to the extent practicable, the department shall decommission the facilities for the Lacey project engineering office and the Tumwater project engineering office at the end of their lease terms and consolidate the Lacey project engineering office and the Tumwater project engineering office into the department's Olympic regional headquarters.

(8) The appropriations in this section include funding for starting planning, engineering, and construction of the Elwha River bridge replacement. To the greatest extent practicable, the department shall maintain public access on the existing route.

(9) ~~(\$25,000,000)~~ \$7,500,000 of the motor vehicle account—federal appropriation is provided solely for a federal fund exchange pilot program. The pilot program must allow exchanges of federal surface transportation block grant population funding and state funds at an exchange rate of 95 cents in state funds per \$1.00 in federal funds. The projects receiving the exchanged federal funds must adhere to all federal requirements, including the applicable disadvantaged business enterprise goals. The entirety of the appropriation in this subsection must be held in unallotted status until surface transportation block grant population funding has been offered to the state and the department determines that a federalized project or projects funded in this section is eligible to spend the surface transportation block grant population funding. ~~(\$22,500,000)~~ \$7,125,000 from existing state appropriations identified elsewhere within this section are available to be used as part of the exchange. Upon determination that a project or projects funded in this section is eligible to spend the offered

surface transportation block grant population funding, state funds appropriated in this section for the eligible state project or projects in an amount equal to 100 percent of the offered surface transportation block grant population funding must be placed in unallotted status. The legislature intends to evaluate the utility and efficacy of the pilot program in the 2025 legislative session while reappropriating any remaining funds into the 2025-2027 fiscal biennium. Therefore, the department may issue additional calls for projects with any remaining funds provided in this subsection.

(10) \$21,000 of motor vehicle account—state appropriation is provided solely for the implementation of chapter 54, Laws of 2023 (bridge jumping signs) (G2000114). ~~(If chapter 54, Laws of 2023 is not enacted by June 30, 2023, the amount provided in this subsection lapses.)~~

(11) \$4,319,000 of the move ahead Washington account—state appropriation is provided solely for SR 525 Bridge Replacement - Mukilteo (L2021084). Of the amounts in this subsection, \$155,000 must be transferred to the city of Mukilteo for purposes of community planning and business engagement.

(1) Except as provided otherwise in this section, the entire appropriations in this section are provided solely for the projects and activities as listed by project and amount in LEAP Transportation Document ~~((2023-2))~~ 2024-2 ALL PROJECTS as developed ~~(April 21, 2023))~~ March 6, 2024, Program - Rail Program (Y).

(2) (a) ~~(((\$2,030,000))~~ \$2,680,000 of the transportation infrastructure account—state appropriation is provided solely for new low-interest loans approved by the department through the freight rail investment bank (FRIB) program. The department shall issue FRIB program loans with a repayment period of no more than 15 years, and charge only so much interest as is necessary to recoup the department's costs to administer the loans. The department shall report annually to the transportation committees of the legislature and the office of financial management on all FRIB loans issued.

(b) ~~(((\$7,970,000 of the transportation infrastructure account—state appropriation is provided solely for new FRIB program loans recommended by the department for 2024 supplemental transportation appropriations. The department shall submit a prioritized list for any loans recommended to the office~~

~~of financial management and the transportation committees of the legislature by November 15, 2023.~~

~~(e))~~ The department may change the terms of existing loans in the essential rail assistance account for repayment of loans, including the repayment schedule and rate of interest, for a period of up to 15 years for any recipient with a total loan value in the program of over 10 percent as of June 30, 2023.

(3) ~~\$5,000,000 of the transportation infrastructure account—state appropriation is provided solely for a low-interest loan for the Port of Longview Rail Corridor Expansion project (L1000347) to accommodate current and future port cargo-handling needs. The low-interest loan must comply with the requirements of RCW 47.76.460(2).~~

~~(4) (((\$7,566,836))~~ \$7,567,000 of the multimodal transportation account—state appropriation is provided solely for new statewide emergent freight rail assistance projects identified in the LEAP transportation document referenced in subsection (1) of this section.

~~((4))~~ (5) \$369,000 of the transportation infrastructure account—state appropriation and \$1,100,000 of the multimodal transportation account—state appropriation are provided solely for final reimbursement to Highline Grain, LLC for approved work completed on Palouse River and Coulee City (PCC) railroad track in Spokane county between the BNSF Railway Interchange at Cheney and Geiger Junction and must be administered in a manner consistent with freight rail assistance program projects.

~~((4))~~ (6) The department shall issue a call for projects for the freight rail assistance program, and shall evaluate the applications in a manner consistent with past practices as specified in section 309, chapter 367, Laws of 2011. By November 15, 2024, the department shall submit a prioritized list of recommended projects to the office of financial management and the transportation committees of the legislature.

~~((4))~~ (7) \$25,000,000 of the carbon emissions reduction account—state appropriation is provided solely for state match contributions to support the department's application for federal grant opportunities for a new ultra high-speed ground transportation corridor. These funds are to remain in unallotted status and are available only upon award of federal funds. The department must provide periodic grant application updates to the transportation committees of the legislature, as well as anticipated state match estimates for successful grants.

~~((4))~~ (8) \$33,500,000 of the move ahead WA flexible account—state appropriation is provided solely for rehabilitation of the Palouse River and Coulee City Railroad (L4000079). Up to \$433,000 of the amount in this subsection may be used for management and oversight of operation and maintenance activities.

~~((4))~~ (9) \$19,990,000 of the multimodal transportation account—federal appropriation is provided solely for the rehabilitation of the Salmon Bay drawbridge

(752010A) to ensure the efficient movement of freight and passenger trains.

~~((9))~~(10) \$6,300,000 of the carbon emissions reduction account—state appropriation is provided solely to fund a zero emission drayage truck demonstration project (L1000324) at Northwest Seaport Alliance facilities.

~~((10))~~(11) \$14,000,000 of the carbon emissions reduction account—state appropriation ~~((is))~~, and beginning January 1, 2025, \$14,000,000 of the carbon emissions reduction account—state appropriation, are provided solely to fund a zero emission shore power infrastructure demonstration project at Northwest Seaport Alliance facilities (L1000325). Local funds sufficient to fully fund this project must be contributed to the project, and any agreements required for the project must be secured.

~~((11))~~(12) \$5,000,000 of the carbon emissions reduction account—state appropriation is provided solely to fund the replacement of two Tacoma rail diesel-electric switcher locomotives with zero emission battery-electric switcher locomotives and to install on-site charging equipment at a Tacoma rail facility (L1000327). Local funds sufficient to fully fund this project must be contributed to the project, and any agreements required for the project must be secured.

~~((12))~~(13) \$150,000 of the multimodal transportation account—state appropriation is provided solely for the application of durable markings along state route number 906 to create up to 20 parking spaces for larger vehicles, including trucks (L1000336).

~~((13))~~(14) \$26,500,000 of the carbon emissions reduction account—state appropriation is provided solely for port electrification competitive grants (L2021182). ~~((To be eligible to receive state funds under this section, a))~~All public ports are eligible to receive funds under this subsection. A port seeking to use funds under this subsection to install shore power must ((first)) adopt a policy that requires vessels that dock at the port facility to use shore power if such vessel is capable of using such power and when such power is available at the port facility.

~~((14))~~(15) \$2,000,000 of the carbon emissions reduction account—state appropriation is provided solely for port electrification at the port of Bremerton (L1000337), which may include the purchase and installation of zero emission port shore power systems and other zero emission infrastructure, equipment, and technology.

~~((15))~~(16) \$500,000 of the carbon emissions reduction account—state appropriation ~~((is))~~, and beginning January 1, 2025, \$1,500,000 of the carbon emissions reduction account—state appropriation, are provided solely for port electrification at the port of Anacortes (L1000338), which may include the purchase and installation of zero emission port shore power systems and other zero emission infrastructure, equipment, and technology.

(17) \$2,000,000 of the transportation infrastructure account—state appropriation

is provided solely for the Port of Quincy Rail Infrastructure Expansion project (L1000348), an expansion of rail infrastructure within the Port of Quincy's current rail terminal and to nearby industrial zoned properties in the port district.

((18)) Beginning January 1, 2025, \$20,000,000 of the carbon emissions reduction account—state appropriation is provided solely for the Puyallup Tribe Port Electrification project (L1000346).

The appropriations in this section are subject to the following conditions and limitations:

(1) Except as provided otherwise in this section, the entire appropriations in this section are provided solely for the projects and activities as listed by project and amount in LEAP Transportation Document ~~((2023-2))~~2024-2 ALL PROJECTS as developed ~~((April 21, 2023))~~March 6, 2024, Program - Local Programs Program (Z).

(2) The amounts identified in the LEAP transportation document referenced under subsection (1) of this section for pedestrian safety/safe routes to school are as follows:

(a) (~~(\$34,673,000)~~) \$47,707,000 of the multimodal transportation account—state appropriation and (~~(\$37,563,000)~~) \$43,058,000 of the climate active transportation account—state appropriation are provided solely for pedestrian and bicycle safety program projects (L2000188 and L1000335). Of the amount of climate active transportation account funds appropriated in this subsection, up to one percent may be used for program administration and staffing.

(b) (~~(\$19,137,000)~~) \$31,553,000 of the motor vehicle account—federal appropriation, (~~(\$38,915,000)~~) \$45,399,000 of the climate active transportation account—state appropriation, and (~~(\$12,844,000)~~) \$21,157,000 of the multimodal transportation account—state appropriation are provided solely for safe routes to school projects (L2000189 and L1000334). Of the amount of climate active transportation account funds appropriated in this subsection, up to one percent may be used for program administration and staffing.

(c) For future rounds of grant selection, the department must reevaluate the criteria to increase geographic diversity of jurisdictions consistent with the requirements of the healthy environment for all (HEAL) act.

(3) The department shall submit a report to the transportation committees of the legislature by December 1, 2023, and December 1, 2024, on the status of projects funded as part of the pedestrian safety/safe routes to school grant program and the Sandy Williams connecting communities grant program.

(4) (~~(\$6,875,000)~~) \$12,792,000 of the multimodal transportation account—state appropriation is provided solely for connecting Washington bicycle and pedestrian projects listed in the LEAP transportation document referenced in subsection (1) of this section.

(5) (~~(\$36,640,000)~~) \$46,580,000 of the motor vehicle account—federal appropriation is provided solely for acceleration of local preservation projects that ensure the reliable movement of freight on the national highway freight system (G2000100). The department will select projects as part of its update of the state freight plan, in consultation with the freight mobility strategic investment board and other stakeholders.

(6) (~~(\$23,750,000)~~) \$7,125,000 of the motor vehicle account—state appropriation is provided solely for a federal fund exchange pilot program. The pilot program will allow exchanges of federal surface transportation block grant population funding and state funds at an exchange rate of 95 cents in state funds per \$1.00 in federal funds. The entirety of the appropriation in this subsection must be held in unallotted status until: Surface transportation block grant population funding has been offered to the state, the department determines that a federalized project or projects funded in

section 305 or 306 (~~(of this act)~~), chapter 472, Laws of 2023 is eligible to spend the surface transportation block grant population funding, and state funds appropriated in section 305 or 306, chapter 472, Laws of 2023 for the eligible state project or projects in an amount equal to 100 percent of the offered surface transportation block grant population funding have been placed in unallotted status. A report on the effectiveness of the exchange program, the total estimated cost of program administration, and recommendations for continuing the pilot program is due to the governor and transportation committees of the legislature by December 1, 2024. The legislature intends to evaluate the utility and efficacy of the pilot program in the 2025 legislative session while reappropriating any remaining funds into the 2025-2027 fiscal biennium. Therefore, the department may issue additional calls for projects with any remaining funds provided in this subsection.

(7) (~~(\$128,400,000)~~) \$136,893,000 of the move ahead WA account—state appropriation and (~~(\$19,500,000)~~) \$25,000,000 of the move ahead WA flexible account—state appropriation are provided solely for new move ahead WA road and highway projects listed in LEAP Transportation Document ((2023-2))2024-2 ALL PROJECTS as developed ((April 21, 2023)) March 6, 2024, Program - Local Programs Program (Z).

(a) For projects funded in this subsection, the department expects to have substantial reappropriations for the 2023-2025 fiscal biennium, the department may, on a pilot basis, apply funding from a project with an appropriation that is unable to be used in the 2023-2025 fiscal biennium to advance one or more of the projects listed in LEAP Transportation Document ((2023-2))2024-2 ALL PROJECTS as developed ((April 21, 2023)) March 6, 2024, Program - Local Programs Program (Z), prioritizing projects first by project readiness.

(i) In instances when projects listed in the LEAP transportation documents referenced in (a) of this subsection are no longer viable or have been completed, the department may recommend in its next budget submittal alternative project proposals from the local jurisdictions if the project is similar in type and scope and consistent with limitations of certain funds provided. In the event that the listed project has been completed the local jurisdictions may, rather than submitting an alternative project, instead be reimbursed in the year in which it was scheduled for documented costs incurred implementing the listed project, not in excess of the amount awarded from the funding program.

(ii) At least 10 business days before advancing or swapping a project pursuant to this subsection, the department must notify the office of financial management and the transportation committees of the legislature. The advancement of a project may not hinder the delivery of the projects for which the reappropriations are necessary for the 2023-2025 fiscal biennium.

(b) Of the amounts provided in this subsection, (~~(\$21,000,000)~~) \$25,493,000 of

the move ahead WA account—state appropriation is provided solely for three roundabouts to be constructed on state route number 507 in partnership with local authorities. The roundabout at Vail is with Thurston county, the roundabout at Bald Hills is with the city of Yelm, and the roundabout at state route number 702 is with Pierce county. The department is to work cooperatively with each local jurisdiction to construct these facilities within department rights-of-way. The department must provide all project predesign and design information developed to date to the local jurisdictions and have a project implementation agreement in place with each local jurisdiction within 180 calendar days of the effective date of this act. The implementation agreement may provide full control for the local authority to construct the project. Once the roundabouts are completed, the operations and maintenance of the roundabouts are the responsibility of the department. Of the amounts provided in this subsection, \$7,000,000 is for the roundabout at Vail road and state route number 507.

(c) \$15,000,000 of the move ahead Washington account—state appropriation is provided solely for the Columbia River Bridge Replacement/Hood River to White Salmon project (L4000046). The office of financial management shall place the amounts in this subsection in unallotted status. As funds are appropriated by the Oregon legislature, the office of financial management may release amounts provided in this subsection to match Oregon appropriations.

(8) \$39,185,000 of the climate active transportation account—state appropriation, \$11,600,000 of the multimodal transportation account—state appropriation, and \$3,000,000 of the move ahead WA flexible account—state appropriation are provided solely for move ahead WA pedestrian and bike projects listed in LEAP Transportation Document ((2023-2))2024-2 ALL PROJECTS as developed ((April 21, 2023))March 6, 2024, Program - Local Programs Program (Z). For projects funded in this subsection, if the department expects to have substantial reappropriations for the 2023-2025 fiscal biennium, the department may, on a pilot basis, apply funding from a project with an appropriation that is unable to be used in the 2023-2025 fiscal biennium to advance one or more of the projects listed in LEAP Transportation Document ((2023-2))2024-2 ALL PROJECTS as developed ((April 21, 2023))March 6, 2024, Program - Local Programs Program (Z), prioritizing projects first by tier then by project readiness.

(a) In instances when projects listed in the LEAP transportation document referenced in this subsection (8) of this section are no longer viable or have been completed, the department may recommend in its next budget submittal alternative project proposals from the local jurisdictions if the project is similar in type and scope and consistent with limitations of certain funds provided. In the event that the listed project has been completed the local jurisdictions may, rather than submitting an alternative

project, instead be reimbursed in the year in which it was scheduled for documented costs incurred implementing the listed project, not in excess of the amount awarded from the funding program.

(b) At least 10 business days before advancing or swapping a project pursuant to this subsection, the department must notify the office of financial management and the transportation committees of the legislature. The advancement of a project may not hinder the delivery of the projects for which the reappropriations are necessary for the 2023-2025 fiscal biennium.

(9) \$16,800,000 of the climate active transportation account—state appropriation is provided solely for the statewide school-based bicycle education grant program (L1000309). The department may partner with a statewide nonprofit to deliver programs.

(10) \$25,000,000 of the climate active transportation account—state appropriation is provided solely for the Sandy Williams connecting communities pilot program (L1000308) to deliver projects to reconnect communities that have been bifurcated by state highways. Priority must be given to historically marginalized or overburdened communities. The department may consult with the Cooper Jones active transportation safety council to identify geographic locations where there are high incidences of serious injuries and fatalities of active transportation users among vulnerable populations.

(11) \$14,000,000 of the carbon emissions reduction account—state appropriation ((is)), and beginning January 1, 2025, \$10,000,000 of the carbon emissions reduction account—state appropriation, are provided solely for the Guemes Ferry Boat Replacement project (L4000124).

(12) \$6,500,000 of the move ahead WA flexible account—state appropriation is provided solely for development of an applied sustainable aviation evaluation center (L2021135). Snohomish county, in partnership with Washington State University, shall plan and establish facilities to evaluate, qualify or certify, and research technologies that can minimize the impact of aviation on human health and the environment. Funds may be used for, but are not limited to, planning, construction, and land acquisition for sustainable aviation fuel (SAF) qualification testing (ASTM D4054), research on the impact of SAF on the environment and human health, and SAF storage for the purpose of advancing sustainable aviation. At a minimum, three sustainable aviation platforms must be considered:

(a) Sustainable aviation fuel (SAF);  
 (b) Hydrogen; and  
 (c) Battery electric energy storage mechanisms.

(13) The legislature intends to fund the Ballard and Magnolia Bridge project (L4000123) ((and the Aurora Avenue North Safety Improvements project (L4000154))), as described in section 911(18) and (19) ((of this act)), chapter 472, Laws of 2023.

(14) \$200,000 of the multimodal transportation account—state appropriation is provided solely for the Seattle office of

planning and community development to update and add to the 2020 I-5 Lid Feasibility Study with additional test cases with ramp changes and removals in downtown Seattle and alternative assumptions with regards to parking, expansion of Freeway Park, affordable housing, and commercial real estate (L2021140). The Seattle office of planning and community development shall conduct ongoing community engagement with underrepresented constituencies to support the technical work of this study and raise public awareness of opportunities of I-5 lids. Focus should be given to low-income households living and working in the I-5 lid study areas in central Seattle.

(15) \$1,000,000 of the multimodal transportation account—state appropriation is provided solely for the department to award grants to local jurisdictions to implement network-wide traffic conflict screening programs using video analytics in controlled intersections with a disproportionate number of traffic violations and injuries to active transportation users (L2021149). Grants must be awarded proportionally across the state and include controlled intersections in both urban and rural environments and along state highways and county roads. Grant recipients must report back to the department all traffic violation and active transportation facility data acquired during the grant period and provide the department with appropriate next steps for the state and the local jurisdiction to improve traffic safety for active transportation users in such intersections. The department must report such findings and recommendations to the transportation committees of the legislature by December 1, 2024.

(16) (a) (i) \$5,000,000 of the carbon emissions reduction account—state appropriation is provided solely for the department to establish a program for providing rebates to qualifying persons who purchase e-bikes and qualifying equipment and services from a qualifying retailer. Of this amount, \$3,000,000 is for rebate amounts as described under (a) (iii) (A) of this subsection, and \$2,000,000 is for rebate amounts as described under (a) (iii) (B) of this subsection.

(ii) To qualify for and use the rebate under this subsection, a person must be a resident of Washington state and purchase an e-bike and qualifying equipment and services, if any, from a qualifying retailer in this state. Qualifying equipment and services must be purchased as part of the same transaction as the e-bike.

(iii) (A) For persons who are at least 16 years of age and reside in households with incomes at or below 80 percent of the county area median income, the amount of the rebate is up to \$1,200 on the sale of an e-bike and any qualifying equipment and services.

(B) For all other persons who are at least 16 years of age, the amount of the rebate is up to \$300 on the sale of an e-bike and any qualifying equipment and services.

(C) No more than one rebate may be awarded per household.

(iv) (A) The department must establish application procedures for e-bike retailers to participate in the rebate program, and application and award procedures for applicants to participate in the program. If an applicant qualifies for a rebate amount and there is sufficient funds to award the applicant with the appropriate rebate amount, the department must provide the qualifying individual the rebate amount in a format that can be redeemed at the time of purchase at a qualifying retailer.

(B) An applicant must provide contact information, including a physical address, email address, and phone number, and demographic information, including the applicant's age, gender, race, and ethnicity, to the department on a form provided by the department at the time of applying for the rebate. The department may share or provide access to such information with the University of Washington to provide the University of Washington an opportunity to ask program applicants and recipients to fill out a survey collecting information only to the extent to inform its report described under (d) of this subsection.

(v) A qualifying retailer must register with the department before participating in the rebate program. A qualifying retailer must:

(A) Verify the identity of the qualifying individual at the time of purchase; and

(B) Calculate and apply the rebate at the time of purchase.

(vi) The department must reimburse a qualifying retailer that accepts a rebate from a qualifying individual no later than 30 days after the rebate is redeemed.

(vii) For purposes of this subsection (16) (a):

(A) "E-bike" means an electric assisted bicycle as defined in RCW 46.04.169, but does not include mountain bikes.

(B) "Qualifying equipment and services" means a bicycle helmet, safety vest, bicycle light, or bicycle lock, and any maintenance or other services agreed upon by the qualifying retailer and qualifying individual at the time of purchase.

(C) "Qualifying retailer" means a retail business establishment with one or more physical retail locations in this state that provides on-site e-bike sales, service, and repair and has registered with the department to participate in the rebate program established under this subsection.

(b) For fiscal year 2025, \$2,000,000 of the carbon emissions reduction account—state appropriation is provided solely for the department to establish an e-bike lending library and ownership grant program. The department may accept grant applications from other state entities, local governments, and tribes that administer or plan to administer an e-bike lending library or ownership program for their employees for commute trip reduction purposes. The department may also accept grant applications from nonprofit organizations or tribal governments that serve persons who are low-income or reside in overburdened communities and that administer or plan to administer an e-bike lending library or ownership program for qualifying persons.

Grant recipients must report program information and participation data to the University of Washington to inform its report described under (d) of this subsection.

(c) It is the intent of the legislature that funding provided in (a) and (b) of this subsection continue to be appropriated in the 2025-2027 and 2027-2029 fiscal biennia.

(d) Of the amounts provided in this subsection (16), \$90,000 is for the department to contract with the University of Washington's sustainable transportation lab to publish a general policy brief that provides innovative e-bike rebate and lending library or ownership grant program models and recommendations, a report on survey results based on data and demographic information collected under the e-bike rebate program established in (a) of this subsection, and a report on program information and data collected under the e-bike lending library and ownership grant program established in (b) of this subsection. An initial brief and report must be submitted to the transportation committees of the legislature by July 1, 2024, with the final policy brief and report due to the transportation committees of the legislature by July 1, 2025.

(e) The department may not collect more than five percent of appropriated amounts to administer the programs under (a) and (b) of this subsection.

(17) (~~(\$21,098,000)~~) \$21,847,000 of the freight mobility investment account—state appropriation and (~~(\$22,728,000)~~) \$27,216,000 of the freight mobility multimodal account—state appropriation are provided solely for freight mobility strategic investment board projects listed in the LEAP transportation document referenced in subsection (1) of this section.

(18) \$4,150,000 of the motor vehicle account—state appropriation is provided solely for matching funds for federal funds to reconstruct Grant county and Adams county bridges as part of the Odessa groundwater replacement program (L1000322).

(19) \$9,240,000 of the connecting Washington account—state appropriation is provided solely for the Aberdeen US 12 Highway-Rail Separation project (L1000331).

(20) (~~(\$750,000 of the motor vehicle account—state appropriation is provided solely for the Grady Way overpass at Rainier Avenue South I-405 BRT Access study (L1000333).~~

(21)) The appropriations in this section include savings due to anticipated project underruns; however, it is unknown which projects will provide savings. The legislature intends to provide sufficient flexibility for the department to manage to this savings target. To provide this flexibility, the office of financial management may authorize, through an (~~allotment~~) appropriation modification, reductions in the amounts that are provided solely for a particular purpose within this section subject to the following conditions and limitations:

(a) The department must confirm that any modification requested under this subsection of amounts provided solely for a specific

purpose are not expected to be used for that purpose in this fiscal biennium;

(b) (~~allotment~~) appropriation modifications authorized under this subsection may not result in increased funding for any project beyond the amount provided for that project in the 2023-2025 fiscal biennium in LEAP Transportation Document (~~(2023-2)~~) 2024-2 ALL PROJECTS as developed (~~(April 21, 2023)~~) March 6, 2024;

(c) (~~allotment~~) appropriation modifications authorized under this subsection apply only to amounts appropriated in this section from the following accounts: Connecting Washington account—state, and move ahead WA account—state; and

(d) The office of financial management must provide notice of (~~allotment~~) appropriation modifications authorized under this subsection within 10 working days to the transportation committees of the legislature. By December 1, 2023, and December 1, 2024, the department must submit a report to the transportation committees of the legislature regarding the actions taken to date under this subsection.

(21) \$5,000,000 of the multimodal transportation account—state appropriation is provided solely for the department to assist local jurisdictions in addressing emergent issues related to safety for pedestrians and bicyclists (LXXXPBF). Funds may only be spent after approval from the office of financial management. By December 15th of each odd-numbered year, the department shall provide a report to the legislature listing all emergent issues addressed in the prior fiscal biennium. Reporting may be done in conjunction with the transportation operations division.

(22) Beginning January 1, 2025, \$22,944,000 of the carbon emissions reduction account—state appropriation is provided solely for the following projects identified in LEAP Transportation Document 2024-2 ALL PROJECTS as developed March 6, 2024:

(a) North Aurora Safety Improvements (L4000154);

(b) North Broadway Pedestrian Bridge (L2021082);

(c) State Route 547 Pedestrian and Bicycle Safety Trail (Kendall Trail) (L4000144);

**IMPLEMENTING PROVISIONS**

**Sec. 501.** 2023 c 472 s 601 (uncodified) is amended to read as follows:  
**MANAGEMENT OF TRANSPORTATION FUNDS WHEN THE LEGISLATURE IS NOT IN SESSION**

(1) The 2005 transportation partnership projects or improvements (~~and~~), 2015 connecting Washington projects or improvements, and move ahead WA projects or improvements are listed in the LEAP Transportation Document (~~(2023-1)~~) 2024-1 as developed (~~(April 21, 2023)~~) March 6, 2024, which consists of a list of specific projects by fund source and amount over multiple biennia. Current fiscal biennium funding for each project is a line-item appropriation, while the outer year funding allocations represent a 16-year plan. The department of transportation is expected to use the flexibility provided in this section to assist in the delivery and completion of all transportation partnership account (~~and~~), connecting Washington account, and move ahead WA account projects on the LEAP transportation document referenced in this subsection. For the 2023-2025 project appropriations, unless otherwise provided in this act, the director of the office of financial management may provide written authorization for a transfer of appropriation authority between projects funded with transportation partnership account appropriations (~~of~~), connecting Washington account appropriations, or move ahead WA account appropriations to manage project spending and efficiently deliver all projects in the respective program under the following conditions and limitations:

(a) Transfers may only be made within each specific fund source referenced on the respective project list;

(b) Transfers from a project may not be made as a result of the reduction of the scope of a project or be made to support increases in the scope of a project;

(c) Transfers from a project may be made if the funds appropriated to the project are in excess of the amount needed in the current fiscal biennium;

(d) Transfers may not occur for projects not identified on the applicable project list;

(e) Transfers to a project may not occur if that project is a programmatic funding item described in broad general terms on the applicable project list without referencing a specific state route number;

(f) Transfers may not be made while the legislature is in session;

(g) Transfers to a project may not be made with funds designated as attributable to practical design savings as described in RCW 47.01.480;

(h) (~~Except for transfers made under (l) of this subsection, transfers may only be made in fiscal year 2024;~~)

~~(i)~~ The total amount of transfers under this section may not exceed \$50,000,000;

~~((j))~~ (i) Except as otherwise provided in ~~((k))~~ (k) of this subsection, transfers made to a single project may not cumulatively total more than \$20,000,000 per fiscal biennium;

~~((\*)~~) (j) Each transfer between projects may only occur if the director of the office of financial management finds that any resulting change will not hinder the completion of the projects as approved by the legislature; and

~~((1))~~ (k) Transfers between projects may be made by the department of transportation without the formal written approval provided under this subsection ~~((1))~~ (1) ~~(k)~~, provided that the transfer amount to a single project does not exceed \$250,000 or 10 percent of the total project per fiscal biennium, whichever is less. These transfers must be reported quarterly to the director of the office of financial management and the chairs of the house of representatives and senate transportation committees.

(2) The department of transportation must submit quarterly all transfers authorized under this section in the transportation executive information system. The office of financial management must maintain a legislative baseline project list identified in the LEAP transportation documents referenced in this act, and update that project list with all authorized transfers under this section, including any effects to the total project budgets and schedules beyond the current fiscal biennium.

(3) At the time the department submits a request to transfer funds under this section, a copy of the request must be submitted to the chairs and ranking members of the transportation committees of the legislature.

(4) Before approval, the office of financial management shall work with legislative staff of the house of representatives and senate transportation committees to review the requested transfers in a timely manner and address any concerns raised by the chairs and ranking members of the transportation committees.

(5) No fewer than 10 days after the receipt of a project transfer request, the director of the office of financial management must provide written notification to the department of any decision regarding project transfers, with copies submitted to the transportation committees of the legislature.

(6) The department must submit annually as part of its budget submittal a report detailing all transfers made pursuant to this section, including any effects to the total project budgets and schedules beyond the current fiscal biennium.

**Sec. 502.** 2023 c 472 s 606 (uncodified) is amended to read as follows:  
**TRANSIT, BICYCLE, AND PEDESTRIAN ELEMENTS REPORTING**

By November 15th of each year, the department of transportation must report on amounts expended to benefit transit, bicycle, or pedestrian elements within all connecting Washington projects in programs I, P, and Z identified in LEAP Transportation Document ~~((2023-2))~~ 2024-2 ALL PROJECTS as developed ~~((April 21, 2023))~~ March 6, 2024, in a manner consistent with past practices as specified in section 602, chapter 186, Laws of 2022.

**Sec. 503.** 2023 c 472 s 609 (uncodified) is amended to read as follows:

**LOCAL PARTNER COOPERATIVE AGREEMENTS**

(1) If a transportation project, where the Washington state department of transportation is the lead and the project is scheduled to be delivered or completed in the 2023-2025 fiscal biennium as shown on the LEAP Transportation Document ~~((2023-2))~~ 2024-2 ALL PROJECTS as developed ~~((April 21, 2023))~~ March 6, 2024, is in jeopardy of being delayed because the department is unable to deliver or complete the project within the 2023-2025 fiscal biennium and other local jurisdictions are able to deliver or complete the work, the department must coordinate with the appropriate local jurisdictions to determine if a potential local partner is ready, willing, and able to execute delivery and completion of the project within the 2023-2025 fiscal biennium.

(2) The department must compile a list of projects under this section, including the timing under which the local partner agency can deliver or complete the projects within the 2023-2025 and 2025-2027 fiscal biennia. The department must submit the compiled list of projects to the governor and the transportation committees of the legislature by November 1, 2023.

(End of part)

**MISCELLANEOUS 2023-2025 FISCAL BIENNIUM**

**Sec. 601.** RCW 14.40.020 and 2023 c 463 s 4 are each amended to read as follows:

The state commercial aviation work group shall submit a progress report to the governor and the transportation committees of the legislature by ~~((July))~~ December 1, 2024, and annually every July 1st thereafter. The first report of the work group shall include a list of areas that will not have further review as the areas are in conflict with the operations of a military installation.

**Sec. 602.** RCW 46.18.060 and 2017 3rd sp.s. c 25 s 40 are each amended to read as follows:

(1) The department must review and either approve or reject special license plate applications submitted by sponsoring organizations. Between the effective date of this section and until June 30, 2025, the department may not approve special license plate applications.

(2) Duties of the department include, but are not limited to, the following:

(a) Review and approve the annual financial reports submitted by sponsoring organizations with active special license plate series and present those annual financial reports to the joint transportation committee;

(b) Report annually to the joint transportation committee on the special license plate applications that were considered by the department;

(c) Issue approval and rejection notification letters to sponsoring organizations, the executive committee of

the joint transportation committee, and the legislative sponsors identified in each application. The letters must be issued within seven days of making a determination on the status of an application; and

(d) Review annually the number of plates sold for each special license plate series created after January 1, 2003. The department may submit a recommendation to discontinue a special plate series to the executive committee of the joint transportation committee.

**Sec. 603.** RCW 46.68.300 and 2023 c 472 s 708 and 2023 c 167 s 8 are each reenacted and amended to read as follows:

The freight mobility investment account is hereby created in the state treasury. Money in the account may be spent only after appropriation. Expenditures from the account may be used only for freight mobility projects that have been ~~((approved))~~ recommended by the freight mobility strategic investment board in RCW 47.06A.020 and may include any principal and interest on bonds authorized for the projects or improvements. During the ~~((2019-2021 and))~~ 2021-2023 and 2023-2025 fiscal biennia, the expenditures from the account may also be used for the administrative expenses of the freight mobility strategic investment board.

**Sec. 604.** RCW 46.68.320 and 2010 c 247 s 702 are each amended to read as follows:

(1) The regional mobility grant program account is hereby created in the state treasury. Moneys in the account may be spent only after appropriation. Expenditures from the account may be used only for the grants provided under RCW 47.66.030.

(2) Beginning with September 2007, by the last day of September, December, March, and June of each year, the state treasurer shall transfer from the multimodal transportation account to the regional mobility grant program account ~~((five million dollars))~~ \$5,000,000.

(3) Beginning with September 2015, by the last day of September, December, March, and June of each year, the state treasurer shall transfer from the multimodal transportation account to the regional mobility grant program account ~~((six million two hundred fifty thousand dollars))~~ \$6,250,000.

(4) During the ~~((2009-2011))~~ 2023-2025 fiscal biennium, the legislature may ~~((transfer from the regional mobility grant program account to the multimodal transportation account such amounts as reflect the excess fund balance of the regional mobility grant program account))~~ direct the state treasurer to make transfers of moneys from the regional mobility grant program account to the multimodal transportation account.

**Sec. 605.** RCW 46.68.510 and 2022 c 182 s 401 are each amended to read as follows:

The move ahead WA account is created in the motor vehicle fund. Moneys in the account may be spent only after appropriation. Expenditures from the account must be used only for projects or

improvements identified as move ahead WA projects or improvements in an omnibus transportation appropriations act, including any principal and interest on bonds authorized for the projects or improvements. During the 2023-2025 fiscal biennium, the legislature may direct the state treasurer to make transfers of moneys from the move ahead WA account to the motor vehicle fund.

**Sec. 606.** RCW 47.12.244 and 2013 c 306 s 714 are each amended to read as follows:

There is created the "advance right-of-way revolving fund" in the custody of the treasurer, into which the department is authorized to deposit directly and expend without appropriation:

(1) An initial deposit of ~~((ten million dollars))~~ \$10,000,000 from the motor vehicle fund included in the department of transportation's 1991-93 budget;

(2) All moneys received by the department as rental income from real properties that are not subject to federal aid reimbursement, except moneys received from rental of capital facilities properties as defined in chapter 47.13 RCW; and

(3) Any federal moneys available for acquisition of right-of-way for future construction under the provisions of section 108 of Title 23, United States Code.

During the ~~((2011-2013 and 2013-2015 fiscal biennia, the legislature may transfer from the advance right-of-way revolving fund to the motor vehicle account [fund] amounts as reflect the excess fund balance of the advance right-of-way revolving fund))~~ 2023-2025 fiscal biennium, the legislature may direct the state treasurer to make transfers of moneys from the advance right-of-way revolving fund to the JUDY transportation future funding program account.

**Sec. 607.** RCW 47.68.090 and 2017 c 48 s 2 are each amended to read as follows:

(1) The department of transportation may make available its engineering and other technical services, with or without charge, to any municipality or person desiring them in connection with the planning, acquisition, construction, improvement, maintenance, or operation of airports or air navigation facilities.

(2)(a) The department may render financial assistance by grant or loan, or both, to the following entities out of appropriations made by the legislature for the following purposes:

(i) Any municipality or municipalities acting jointly in the planning, acquisition, construction, improvement, maintenance, or operation of an airport owned or controlled, or to be owned or controlled by such municipality or municipalities;

(ii) Any Indian tribe recognized as such by the federal government or such tribes acting jointly in the planning, acquisition, construction, improvement, maintenance, or operation of an airport, owned or controlled, or to be owned or controlled by such tribe or tribes, and to be held available for the general use of the public; or

(iii) Any person or persons acting jointly in the planning, acquisition, construction, improvement, maintenance, or operation of an airport, owned or controlled, or to be owned or controlled by such person or persons, and to be held available for the general use of the public.

(b) Such financial assistance may be furnished in connection with federal or other financial aid for the same purposes: PROVIDED, That no grant or loan, or both, shall be in excess of ~~((seven hundred fifty thousand dollars))~~ \$750,000 for any one project: PROVIDED FURTHER, That no grant or loan, or both, shall be granted unless the municipality or municipalities acting jointly, the tribe or tribes acting jointly, or the person or persons acting jointly shall from their own funds match any funds made available by the department upon such ratio as the department may prescribe.

(c) The requirements of (b) of this subsection do not apply for projects when directed to do so by the legislature during the 2023-2025 fiscal biennium in an omnibus transportation appropriations act.

(d) The department must establish, by rule, criteria for administering financial assistance to any entity.

(3) The department is authorized to act as agent of any municipality or municipalities acting jointly, any tribe or tribes acting jointly, or any person or persons acting jointly upon the request of such municipality or municipalities, tribe or tribes, or person or persons in accepting, receiving, receipting for, and disbursing federal moneys, and other moneys public or private, made available to finance, in whole or in part, the planning, acquisition, construction, improvement, maintenance, or operation of an airport or air navigation facility; and if requested by such municipality or municipalities, tribe or tribes, or person or persons, may act as its or their agent in contracting for and supervising such planning, acquisition, construction, improvement, maintenance, or operation; and all municipalities, tribes, and persons are authorized to designate the department as their agent for the foregoing purposes. The department, as principal on behalf of the state, and any municipality on its own behalf, may enter into any contracts, with each other or with the United States or with any person, which may be required in connection with a grant or loan of federal moneys for airport or air navigation facility purposes. All federal moneys accepted under this section shall be accepted and transferred or expended by the department upon such terms and conditions as are prescribed by the United States. All moneys received by the department pursuant to this section shall be deposited in the state treasury, and, unless otherwise prescribed by the authority from which such moneys were received, shall be kept in separate funds designated according to the purposes for which the moneys were made available, and held by the state in trust for such purposes. All such moneys are hereby appropriated for the purposes for which the same were made available, to be disbursed or expended in accordance with the terms and conditions upon which they were

made available: PROVIDED, That any landing fee or charge imposed by any Indian tribe or tribes for the privilege of use of an airport facility planned, acquired, constructed, improved, maintained, or operated with financial assistance from the department pursuant to this section must apply equally to tribal and nontribal members: PROVIDED FURTHER, That in the event any municipality or municipalities, Indian tribe or tribes, or person or persons, or any distributor of aircraft fuel as defined by RCW 82.42.010 which operates in any airport facility which has received financial assistance pursuant to this section, fails to collect the aircraft fuel excise tax as specified in chapter 82.42 RCW, all funds or value of technical assistance given or paid to such municipality or municipalities, Indian tribe or tribes, or person or persons under the provisions of this section shall revert to the department, and shall be due and payable to the department immediately.

**Sec. 608.** RCW 82.70.020 and 2015 3rd sp.s. c 44 s 413 are each amended to read as follows:

(1) Employers in this state who are taxable under chapter 82.04 or 82.16 RCW and provide financial incentives to their own or other employees for ride sharing, for using public transportation, for using car sharing, or for using nonmotorized commuting before January 1, ~~((2024))~~ 2025, are allowed a credit against taxes payable under chapters 82.04 and 82.16 RCW for amounts paid to or on behalf of employees for ride sharing in vehicles carrying two or more persons, for using public transportation, for using car sharing, or for using nonmotorized commuting, not to exceed ~~((sixty dollars))~~ \$60 per employee per fiscal year.

(2) Property managers who are taxable under chapter 82.04 or 82.16 RCW and provide financial incentives to persons employed at a worksite in this state managed by the property manager for ride sharing, for using public transportation, for using car sharing, or for using nonmotorized commuting before January 1, 2024, are allowed a credit against taxes payable under chapters 82.04 and 82.16 RCW for amounts paid to or on behalf of these persons for ride sharing in vehicles carrying two or more persons, for using public transportation, for using car sharing, or for using nonmotorized commuting, not to exceed ~~((sixty dollars))~~ \$60 per person per fiscal year.

(3) The credit under this section is equal to the amount paid to or on behalf of each employee multiplied by ~~((fifty))~~ 50 percent, but may not exceed ~~((sixty dollars))~~ \$60 per employee per fiscal year. No refunds may be granted for credits under this section.

(4) A person may not receive credit under this section for amounts paid to or on behalf of the same employee under both chapters 82.04 and 82.16 RCW.

(5) A person may not take a credit under this section for amounts claimed for credit by other persons.

**Sec. 609.** RCW 82.70.040 and 2022 c 182 s 311 are each amended to read as follows:

(1)(a) The department must keep a running total of all credits allowed under RCW 82.70.020 during each fiscal year. The department may not allow any credits that would cause the total amount allowed to exceed \$2,750,000 in any fiscal year.

(b) If the total amount of credit applied for by all applicants in any year exceeds the limit in this subsection, the department must ratably reduce the amount of credit allowed for all applicants so that the limit in this subsection is not exceeded. If a credit is reduced under this subsection, the amount of the reduction may not be carried forward and claimed in subsequent fiscal years.

(2)(a) Tax credits under RCW 82.70.020 may not be claimed in excess of the amount of tax otherwise due under chapter 82.04 or 82.16 RCW.

(b) Through June 30, 2005, a person with taxes equal to or in excess of the credit under RCW 82.70.020, and therefore not subject to the limitation in (a) of this subsection, may elect to defer tax credits for a period of not more than three years after the year in which the credits accrue. For credits approved by the department through June 30, 2015, the approved credit may be carried forward and used for tax reporting periods through December 31, 2016. Credits approved after June 30, 2015, must be used for tax reporting periods within the calendar year for which they are approved by the department and may not be carried forward to subsequent tax reporting periods. Credits carried forward as authorized by this subsection are subject to the limitation in subsection (1)(a) of this section for the fiscal year for which the credits were originally approved.

(3) No person may be approved for tax credits under RCW 82.70.020 in excess of \$100,000 in any fiscal year. This limitation does not apply to credits carried forward from prior years under subsection (2)(b) of this section.

(4) No person may claim tax credits after June 30, ~~((2024))~~ 2025.

**Sec. 610.** RCW 82.70.900 and 2023 c 374 s 18 are each amended to read as follows:

This chapter expires July 1, ~~((2024))~~ 2025.

**Sec. 611.** 2022 c 182 s 503 (uncodified) is amended to read as follows:  
~~((Sections 311 and))~~ Section 403 of this act ~~((expire))~~ expires July 1, 2024.

**Sec. 612.** 2023 c 445 s 1 (uncodified) is amended to read as follows:

The department of licensing shall develop a comprehensive implementation plan for the expansion of the current driver training education requirement to obtain a driver's license to persons between the ages of 18 and 24. The target date for implementation of the new driver training education expansion is July 1, 2026. The driver training education expansion plan must be provided to the transportation committees of

the legislature by ~~((October))~~ December 1, 2024, and must include, but need not be limited to, the following:

(1)(a) Consideration of courses that could satisfy the new driver training education requirement, including a condensed course option and a self-paced, online course option, with attention to the educational value, monetary and time costs required, and possible accessibility constraints for each course option considered; and

(b) Within the work specified in (a) of this subsection, an analysis of a mandatory driver's education refresher course requirement consisting of in-person or virtual classroom-based instruction on risk management and hazard protections one year after licensure, including the course appropriateness for intermediate license holders;

(2) An assessment of public and private resources necessary to support the new driver training education requirement to ensure sufficient course availability and accessibility, including opportunities for the department of licensing to provide driver training education directly or to facilitate partnerships with schools, community organizations, or driver training providers, to close availability and accessibility gaps in rural and underserved areas. The assessment must include, but need not be limited to, an inventory of the current number, and an estimate of the increased number required to meet the anticipated need, of the following:

(a) Licensed driver training schools and traffic safety education programs in the state, by geographical region;

(b) Licensed driver training school and traffic safety education instructors;

(c) Licensed driver trainer instructors; and

(d) Driver training education course spaces available per year, by course option and for both classroom and behind-the-wheel instruction;

(3) In consultation with the office of equity, evaluation of access to driver training education courses and consideration of opportunities to improve access to driver training education for young drivers. The assessment must address, but should not be limited to, potential obstacles for young drivers for whom the cost of driver training education may pose a hardship, obstacles related to accessibility for young drivers who reside in rural areas, and obstacles for young drivers whose primary language is not English. The assessment must also include strategies that can be used to mitigate these potential obstacles, including possible exceptions to, or substitutions for, a driver training education requirement in cases where access-related obstacles cannot be overcome, such as when a behind-the-wheel driver training program may not be available within a reasonable distance of a person's residence;

(4) A plan for broad and accessible public outreach and education to communicate to Washington state residents new driver training education requirements, including a plan for the development of tools to assist residents in accessing driver training

education courses that meet the new requirements;

(5) Collaboration with educational service districts to determine the extent to which educational service districts can facilitate the coordination between school districts or secondary schools of a school district and driver training schools to increase access to driver training education courses by students who reside within the boundaries of an applicable school district;

(6) An examination of opportunities to address the financial need of persons for whom the cost of driver training education courses licensed by the department of licensing may pose a hardship, through a voucher or other financial assistance program. The examination must include quantified estimates of the extent to which the cost of driver training education could pose a significant obstacle, as well as possible approaches to help reduce or eliminate this obstacle;

(7) An examination, in consultation with the office of the superintendent of public instruction, of opportunities to address the financial need of students for whom the cost of driver training education offered as part of a traffic safety education program may pose a hardship, through a grant or other financial assistance program. The examination must include quantified estimates of the extent to which the cost of driver training education could pose a significant obstacle, as well as possible approaches to help reduce or eliminate this obstacle; and

(8) An assessment of approaches used by other states that require driver training by persons age 18 and older, including examination of how this has impacted traffic safety in the state and the extent to which the requirement may have decreased access to driver's licenses, including through examination of the rate of driver's license holders by age and other demographic characteristics compared to that of neighboring, or otherwise similarly situated, states.

**Sec. 613.** 2023 c 472 s 701 (uncodified) is amended to read as follows:

**INFORMATION TECHNOLOGY OVERSIGHT**

The following transportation projects are subject to the conditions, limitations, and review provided in section 701(2) through (12), chapter 475, Laws of 2023 (omnibus operating appropriations act):

~~((2))~~ (1) For the department of licensing: Website accessibility and usability, and to upgrade and improve prorate and fuel tax system; and

~~((3))~~ (2) For the department of transportation: Linear referencing system (LRS) and highway performance monitoring system (HPMS) replacement, and transportation reporting and accounting information system (TRAINS) upgrade and PROPEL - WSDOT support of one Washington (~~and capital systems replacement~~).

NEW SECTION. **Sec. 614.** A new section is added to 2023 c 472 (uncodified) to read as follows:

(1) The transportation carbon emissions reduction account is created in the state treasury. Moneys in the account may be spent only after appropriation. Expenditures from the account are intended to effect reductions in transportation sector carbon emissions through a variety of carbon reducing investments. Such investments may include, but are not limited to: Transportation alternatives to single occupancy passenger vehicles; reductions in single occupancy passenger vehicle miles traveled; reductions in per mile emissions in vehicles, including through the funding of alternative fuel infrastructure and incentive programs; and emission reduction programs for freight transportation, including motor vehicles and rail, as well as for ferries and other maritime and port activities. Expenditures from the account may be made only for transportation carbon emission reducing purposes and may not be made for highway purposes authorized under the 18th Amendment of the Washington state Constitution, other than as specified in this section, and must be made in accordance with subsection (2) of this section. It is the legislature's intent that expenditures from the account used to reduce carbon emissions be made with the goal of achieving equity for communities that historically have been omitted or adversely impacted by past transportation policies and practices.

(2) Appropriations in an omnibus transportation appropriations act from the transportation carbon emissions reduction account must be made exclusively to fund the following activities:

- (a) Active transportation;
- (b) Transit programs and projects;
- (c) Alternative fuel and electrification;
- (d) Ferries; and
- (e) Rail.

(3) Unless otherwise specified in this act, appropriations in chapter 472, Laws of 2023 (2023-2025 biennial transportation appropriations act), and chapter . . . , Laws of 2024 (this act), which are appropriated from the carbon emissions reduction account in amounts provided beginning before January 1, 2025, shall be paid from the transportation carbon emissions reduction account as if they were appropriated from that account, beginning on the effective date of Initiative Measure No. 2117.

(4) Any residual balance of funds remaining in the carbon emissions reduction account on or after the effective date of Initiative Measure No. 2117 must be transferred by the state treasurer to the transportation carbon emissions reduction account.

(5) Any amounts provided from the carbon emissions reduction account in chapter . . . , Laws of 2024 (this act) and which are specified to begin January 1, 2025, must lapse.

(6) If Initiative Measure No. 2117 is not approved at the 2024 general election, this section has no force and effect.

(7) This section expires July 1, 2025.

NEW SECTION. **Sec. 615.** (1) This section is the tax preference performance statement for section 608, chapter . . . ,

Laws of 2024 (section 608 of this act). This performance statement is only intended to be used for subsequent evaluation of the tax preference. It is not intended to create a private right of action by any party or be used to determine eligibility for the preferential tax treatment.

(2) The tax preference performance statement in section 413, chapter 44, Laws of 2015 3rd sp. sess. applies to the expansion of the tax preference in section 608 of this act.

**NEW SECTION. Sec. 616.** A new section is added to 2023 c 472 (uncodified) to read as follows:

Appropriations in this act from the natural climate solutions account, carbon emissions reduction account, climate transit programs account, and climate active transportation account are subject to the requirements of RCW 70A.65.030.

(End of part)

#### MISCELLANEOUS

**NEW SECTION. Sec. 701.** If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected.

**NEW SECTION. Sec. 702.** Except for section 602 of this act, this act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect immediately.

**NEW SECTION. Sec. 703.** Section 602 of this act takes effect only if chapter . . . (Substitute House Bill No. 2489), Laws of 2024 (new special license plates) is enacted by June 30, 2024."

### MOTION

Representative Fitzgibbon moved the adoption of the striking amendment (1268):

Strike everything after the enacting clause and insert the following:

"Sec. 1. RCW 44.90.020 and 2022 c 283 s 3 are each amended to read as follows:

The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Collective bargaining" means the performance of the mutual obligations of the employer and the exclusive bargaining representative to meet at reasonable times, except that neither party may be compelled to negotiate during a legislative session or on committee assembly days, to confer and negotiate in good faith, and to execute a written agreement with respect to the subjects of bargaining specified under RCW 44.90.090. The obligation to bargain does not compel either party to agree to a proposal or to make a concession unless otherwise provided in this chapter.

(2) "Commission" means the legislative commission created in section 17 of this act at the public employment relations commission, until the legislative commission expires on December 31, 2027. After December 31, 2027, "commission" means the public employment relations commission created under RCW 41.58.010(1).

~~((2-))~~(3) "Confidential employee" means an employee designated by the employer: (a) To assist in a confidential capacity, or serve as counsel to, persons who formulate, determine, and effectuate employer policies with regard to labor relations and personnel matters; or (b) who as part of the employee's job duties has authorized access to information that contributes to the development of, or relates to the effectuation or review of, the employer's collective bargaining policies, strategies, or process; or (c) who assists or aids an employee with managerial authority.

(4) "Director" means the director of the office of state legislative labor relations.

~~((3-))~~(5) (a) "Employee" means:

(i) Any regular partisan employee of the house of representatives or the senate who is covered by this chapter; and

(ii) Any regular employee who is staff of the:

(A) Office of legislative support services;

(B) Legislative service center;

(C) Office of the code reviser who, during any legislative session, does not work full time on drafting and finalizing legislative bills to be included in the Revised Code of Washington; and

(D) House of representatives and senate administrations.

(b) "Employee" also includes temporary staff hired to perform substantially similar

work to that performed by employees included under (a) of this subsection.

(c) All other regular employees and temporary employees, including casual employees, interns, and pages, and employees in the office of program research and senate committee services work groups of the house of representatives and the senate are excluded from the definition of "employee" for the purposes of this chapter.

(6) "Employee organization" means any organization, union, or association in which employees participate and that exists for the purpose, in whole or in part, of collective bargaining with employers.

~~((4-))~~(7) "Employee with managerial authority" means any employee designated by the employer who, regardless of job title: (a) Directs the staff who work for a legislative chamber, caucus, agency, or subdivision thereof; (b) has substantial responsibility in personnel administration, or the preparation and administration of the employer's budgets; and (c) exercises authority that is not merely routine or clerical in nature and requires the use of independent judgment.

(8) "Employer" means:

(a) The chief clerk of the house of representatives, or the chief clerk's designee, for employees of the house of representatives;

(b) The secretary of the senate, or the secretary's designee, for employees of the senate; and

(c) The chief clerk of the house of representatives and the secretary of the senate, acting jointly, or their designees, for the regular employees who are staff of the office of legislative support services, the legislative service center, and the office of the code reviser.

(9) "Exclusive bargaining representative" means any employee organization that has been certified under this chapter as the representative of the employees in an appropriate bargaining unit.

~~((5-))~~(10) "Labor dispute" means any controversy concerning terms, tenure, or conditions of employment, or concerning the association or representation of persons in negotiating, fixing, maintaining, changing, or seeking to arrange terms or conditions of employment with respect to the subjects of bargaining provided in this chapter, regardless of whether the disputants stand in the proximate relation of employer and employee.

(11) "Legislative agencies" means the joint legislative audit and review committee, the statute law committee, the legislative ethics board, the legislative evaluation and accountability program committee, the office of the state actuary, the legislative service center, the office of legislative support services, the joint transportation committee, and the redistricting commission.

~~((6-))~~(12) "Office" means the office of state legislative labor relations.

(13) "Supervisor" means an employee designated by the employer to provide supervision to legislative employees as part of the employee's regular and usual job duties. Supervision includes directing employees, approving and denying leave, and

participating in decisions to hire, transfer, suspend, lay off, recall, promote, discharge, direct, reward, or discipline employees, or to adjust employee grievances, when the exercise of the authority is not of a merely routine nature but requires the exercise of individual judgment, regardless of whether such duties are the employee's primary duties and regardless of whether the employee spends a preponderance of the employee's time exercising such duties. However, "supervisor" does not include a legislative assistant to a legislator of the senate or house of representatives.

**NEW SECTION. Sec. 2.** A new section is added to chapter 44.90 RCW to read as follows:

(1) This chapter does not apply to any legislative employee who has managerial authority, is a confidential employee, or who does not meet the definition of employee for the purpose of collective bargaining.

(2) This chapter also does not apply to:

(a) Elected or appointed members of the legislature;

(b) Any person appointed to office under statute, ordinance, or resolution for a specific term of office as a member of a multimember board, commission, or committee;

(c) The deputy secretary of the senate and the deputy chief clerk of the house of representatives;

(d) The senate human resources officer, the human resources director of the house of representatives, and the human resources officers or directors of the legislative support services, legislative service center, and office of the code reviser;

(e) The senate director of accounting and the director of accounting for the house of representatives, and the directors of accounting for the legislative support services, legislative service center, and office of the code reviser;

(f) Caucus chiefs of staff and caucus deputy chiefs of staff;

(g) The speaker's attorney, house counsel, and leadership counsel to the minority caucus of the house of representatives;

(h) The counsels for the senate that provide direct legal advice to the administration of the senate; and

(i) Any employee who provides direct administrative support to the office of the secretary of the senate or chief clerk of the house of representatives, or who conducts accounting, payroll, labor management, collective bargaining, or human resources activities.

**Sec. 3.** RCW 44.90.030 and 2022 c 283 s 2 are each amended to read as follows:

(1) The office of state legislative labor relations is created to assist the house of representatives, the senate, and legislative agencies in implementing and managing the process of collective bargaining for employees of the legislative branch of state government.

(2)(a) Subject to (b) of this subsection, the secretary of the senate and the chief clerk of the house of representatives shall employ a director of the office. The

director serves at the pleasure of the secretary of the senate and the chief clerk of the house of representatives, who shall fix the director's salary.

(b) The secretary of the senate and the chief clerk of the house of representatives shall, before employing a director, consult with legislative employees, the senate facilities and operations committee, the house executive rules committee, and the human resources officers of the house of representatives, the senate, and legislative agencies.

(c) The director serves as the executive and administrative head of the office and may employ additional employees to assist in carrying out the duties of the office. The duties of the office include, but are not limited to, establishing bargaining teams and conducting negotiations on behalf of the employer.

~~((d) The director shall contract with an external consultant for the purposes of gathering input from legislative employees, taking into consideration RCW 42.52.020 and rules of the house of representatives and the senate. The gathering of input must be in the form of, at a minimum, surveys.~~

~~(3) The director, in consultation with the secretary of the senate, the chief clerk of the house of representatives, and the administrative heads of legislative agencies shall:~~

~~(a) Examine issues related to collective bargaining for employees of the house of representatives, the senate, and legislative agencies; and~~

~~(b) After consultation with the external consultant, develop best practices and options for the legislature to consider in implementing and administering collective bargaining for employees of the house of representatives, the senate, and legislative agencies.~~

~~(4)(a) By December 1, 2022, the director shall submit a preliminary report to the appropriate committees of the legislature that provides a progress report on the director's considerations.~~

~~(b) By October 1, 2023, the director shall submit a final report to the appropriate committees of the legislature. At a minimum, the final report must address considerations on the following issues:~~

~~(i) Which employees of the house of representatives, the senate, and legislative agencies for whom collective bargaining may be appropriate;~~

~~(ii) Mandatory, permissive, and prohibited subjects of bargaining;~~

~~(iii) Who would negotiate on behalf of the house of representatives, the senate, and legislative agencies, and which entity or entities would be considered the employer for purposes of bargaining;~~

~~(iv) Definitions for relevant terms;~~

~~(v) Common public employee collective bargaining agreement frameworks related to grievance procedures and processes for disciplinary actions;~~

~~(vi) Procedures related to the commission certifying exclusive bargaining representatives, determining bargaining units, adjudicating unfair labor practices, determining representation questions, and coalition bargaining;~~

~~(vii) The efficiency and feasibility of coalition bargaining;~~

~~(viii) Procedures for approving negotiated collective bargaining agreements;~~

~~(ix) Procedures for submitting requests for funding to the appropriate legislative committees if appropriations are necessary to implement provisions of the collective bargaining agreements; and~~

~~(x) Approaches taken by other state legislatures that have authorized collective bargaining for legislative employees.~~

~~(5) The report must include a summary of any statutory changes needed to address the considerations listed in subsection (4) of this section related to the collective bargaining process for legislative employees.)~~

**NEW SECTION. Sec. 4.** A new section is added to chapter 44.90 RCW to read as follows:

(1) As provided by this chapter, the commission or the court shall determine all questions described by this chapter as under the commission's authority. However, such authority may not result in an order or rule that intrudes upon or interferes with the legislature's core function of efficient and effective law making or the essential operation of the legislature, including that an order or rule may not:

(a) Modify any matter relating to the qualifications and elections of members of the legislature, or the holding of office of members of the legislature;

(b) Modify any matter relating to the legislature or each house thereof choosing its officers, adopting rules for its proceedings, selecting committees necessary for the conduct of business, considering or enacting legislation, or otherwise exercising the legislative power of this state;

(c) Modify any matter relating to legislative calendars, schedules, and deadlines of the legislature; or

(d) Modify laws, rules, policies, or procedures regarding ethics or conflicts of interest.

(2) No member of the legislature may be compelled by subpoena or other means to attend a proceeding related to matters covered by this chapter during a legislative session, committee assembly days, or for 15 days before commencement of each session.

**Sec. 5.** RCW 44.90.050 and 2022 c 283 s 5 are each amended to read as follows:

(1) Except as may be specifically limited by this chapter, legislative employees shall have the right to self-organization, to form, join, or assist employee organizations, and to bargain collectively through representatives of their own choosing for the purpose of collective bargaining free from interference, restraint, or coercion. Legislative employees shall also have the right to refrain from any or all such activities.

(2) Except as may be specifically limited by this chapter, the commission shall determine all questions pertaining to ascertaining exclusive bargaining representatives for legislative employees

and collectively bargaining under this chapter. However, no employee organization shall be recognized or certified as the exclusive bargaining representative of a bargaining unit of employees of the legislative branch unless it receives the votes of a majority of employees in the petitioned for bargaining unit voting in a secret election ((by mail ballot)) administered by the commission. The commission's process must allow for an employee, group of employees, employee organizations, employer, or their agents to have the right to petition on any question concerning representation.

(3) ~~((The employer and the exclusive bargaining representative of a bargaining unit of legislative employees may not enter into a collective bargaining agreement that requires the employer to deduct, from the salary or wages of an employee, contributions for payments for political action committees sponsored by employee organizations with legislative employees as members.))~~ The commission must adopt rules that provide for at least the following:

(a) Secret balloting;

(b) Consulting with employee organizations;

(c) Access to lists of employees, job titles, work locations, and home mailing addresses;

(d) Absentee voting;

(e) Procedures for the greatest possible participation in voting;

(f) Campaigning on the employer's property during working hours; and

(g) Election observers.

(4)(a) If an employee organization has been certified as the exclusive bargaining representative of the employees of multiple bargaining units, the employee organization may act for and negotiate a master collective bargaining agreement that includes within the coverage of the agreement all covered employees in the bargaining units.

(b) If a master collective bargaining agreement is in effect for the newly certified exclusive bargaining representative, it applies to the bargaining unit for which the new certification has been issued. Nothing in this subsection (4)(b) requires the parties to engage in new negotiations during the term of that agreement.

(5) The certified exclusive bargaining representative is responsible for representing the interests of all the employees in the bargaining unit. This section may not be construed to limit an exclusive bargaining representative's right to exercise its discretion to refuse to process grievances of employees that are unmeritorious.

(6) No question concerning representation may be raised if:

(a) Fewer than 12 months have elapsed since the last certification or election; or

(b) A valid collective bargaining agreement exists covering the unit, except for that period of no more than 120 calendar days nor less than 90 calendar days before the expiration of the contract.

**NEW SECTION. Sec. 6.** A new section is added to chapter 44.90 RCW to read as follows:

(1) The commission, after hearing upon reasonable notice to all interested parties, shall decide, in each application for certification as an exclusive bargaining representative, the unit appropriate for certification. In determining the new units or modifications of existing units, the commission must consider: The duties, skills, and working conditions of the employees; the history of collective bargaining; the extent of organization among the employees; the desires of the employees; and the avoidance of excessive fragmentation. However, a unit is not appropriate if it includes:

(a) Both supervisors and nonsupervisory employees. A unit that includes only supervisors may be considered appropriate if a majority of the supervisory employees indicates by vote that they desire to be included in such a unit;

(b) Both house of representatives and senate employees;

(c) Both partisan and nonpartisan employees;

(d) Employees of the majority party caucus and the minority party caucus, unless a majority of the employees of each caucus indicate by vote that they desire to be included together in the same unit; or

(e) Employees of the legislative service center, office of legislative support services, and the office of the code reviser, in any combination with each other or in any combination with employees of the house of representatives or employees of the senate.

(2) If a single employee organization is the exclusive bargaining representative for two or more units, upon petition by the employee organization, the units may be consolidated into a single larger unit if the commission considers the larger unit to be appropriate. If consolidation is appropriate, the commission shall certify the employee organization as the exclusive bargaining representative of the new unit.

**NEW SECTION. Sec. 7.** A new section is added to chapter 44.90 RCW to read as follows:

(1) The parties to a collective bargaining agreement must reduce the agreement to writing and both execute it.

(2) Except as provided in this chapter, a collective bargaining agreement must contain provisions that provide for a grievance procedure of all disputes arising over the interpretation or application of the collective bargaining agreement and that is valid and enforceable under its terms when entered into in accordance with this chapter.

(3) RCW 41.56.037 applies to this chapter.

(4)(a) If a collective bargaining agreement between an employer and an exclusive bargaining representative is concluded after the termination date of the previous collective bargaining agreement between the employer and an employee organization representing the same

bargaining units, the effective date of the collective bargaining agreement may be the day after the termination of the previous collective bargaining agreement, and all benefits included in the new collective bargaining agreement, including wage or salary increases, may accrue beginning with that effective date.

(b) If a collective bargaining agreement between an employer and an exclusive bargaining representative is concluded after the termination date of the previous collective bargaining agreement between the employer and the exclusive bargaining representative representing different bargaining units, the effective date of the collective bargaining agreement may be the day after the termination date of whichever previous collective bargaining agreement covering one or more of the units terminated first, and all benefits included in the new collective bargaining agreement, including wage or salary increases, may accrue beginning with that effective date.

(5) The employer and the exclusive bargaining representative of a bargaining unit of legislative employees may not enter into a collective bargaining agreement that requires the employer to deduct, from the salary or wages of an employee, contributions for payments for political action committees sponsored by employee organizations with legislative employees as members.

**Sec. 8.** RCW 44.90.060 and 2022 c 283 s 6 are each amended to read as follows:

~~((During a legislative session or committee assembly days, nothing))~~ Nothing contained in this chapter permits or grants to any legislative employee the right to strike, participate in a work stoppage, or refuse to perform their official duties.

**Sec. 9.** RCW 44.90.070 and 2022 c 283 s 7 are each amended to read as follows:

(1) Collective bargaining negotiations under this chapter must commence no later than July 1st of each even-numbered year after a bargaining unit has been certified.

(2) The duration of any collective bargaining agreement shall not exceed one fiscal biennium.

(3)(a) The director must submit ratified collective bargaining agreements, with cost estimates, to the employer by October 1st before the legislative session at which the request for funds is to be considered. The transmission by the legislature to the governor under RCW 43.88.090 must include a request for funds necessary to implement the provisions of all collective bargaining agreements covering legislative employees.

(b) If the legislature or governor fails to provide the funds for a collective bargaining agreement for legislative employees, either party may reopen all or part of the agreement or the exclusive bargaining representative may seek to implement the procedures provided for in section 10 of this act.

(4) Negotiation for economic terms will be by a coalition of all exclusive bargaining representatives. Any such provisions agreed to by the employer and the

coalition must be included in all collective bargaining agreements negotiated by the parties. The director and the exclusive bargaining representative or representatives are authorized to enter into supplemental bargaining of bargaining unit specific issues for inclusion in the collective bargaining agreement, subject to the parties' agreement regarding the issues and procedures for supplemental bargaining. This subsection does not prohibit cooperation and coordination of bargaining between two or more exclusive bargaining representatives.

(5) If a significant revenue shortfall occurs resulting in reduced appropriations, as declared by proclamation of the governor or by resolution of the legislature, both parties must immediately enter into collective bargaining for a mutually agreed upon modification of the agreement.

**NEW SECTION. Sec. 10.** A new section is added to chapter 44.90 RCW to read as follows:

(1) Should the parties fail to reach agreement in negotiating a collective bargaining agreement, either party may request of the commission the assistance of an impartial third party to mediate the negotiations. If a collective bargaining agreement previously negotiated under this chapter expires while negotiations are underway, the terms and conditions specified in the collective bargaining agreement remain in effect for a period not to exceed one year from the expiration date stated in the agreement. Thereafter, the employer may unilaterally implement according to law.

(2) Nothing in this section may be construed to prohibit an employer and an exclusive bargaining representative from agreeing to substitute, at their own expense, their own procedure for resolving impasses in collective bargaining for that provided in this section or from agreeing to utilize for the purposes of this section any other governmental or other agency or person in lieu of the commission.

(3) The commission shall bear costs for mediator services.

**Sec. 11.** RCW 44.90.080 and 2022 c 283 s 8 are each amended to read as follows:

(1) It is an unfair labor practice for an employer in the legislative branch of state government:

(a) To interfere with, restrain, or coerce employees in the exercise of the rights guaranteed by this chapter;

(b) To dominate or interfere with the formation or administration of any employee organization or contribute financial or other support to it: PROVIDED, That subject to rules adopted by the commission, an employer shall not be prohibited from permitting employees to confer with it or its representatives or agents during working hours without loss of time or pay;

(c) To encourage or discourage membership in any employee organization by discrimination in regard to hire, tenure of employment, or any term or condition of employment;

(d) To discharge or discriminate otherwise against an employee because that

employee has filed charges or given testimony under this chapter;

(e) To refuse to bargain collectively with the exclusive bargaining representatives of its employees.

(2) Notwithstanding any other law, the expression of any views, arguments, or opinions, or the dissemination thereof in any form, by a member of the legislature related to this chapter or matters within the scope of representation, shall not constitute, or be evidence of, an unfair labor practice unless the employer has authorized the member to express that view, argument, or opinion on behalf of the employer or as an employer.

(3) It is an unfair labor practice for an employee organization:

(a) To restrain or coerce an employee in the exercise of the rights guaranteed by this chapter: PROVIDED, That this subsection shall not impair the right of an employee organization to prescribe its own rules with respect to the acquisition or retention of membership in the employee organization or to an employer in the selection of its representatives for the purpose of bargaining or the adjustment of grievances;

(b) To cause or attempt to cause an employer to discriminate against an employee in violation of subsection (1)(c) of this section;

(c) To discriminate against an employee because that employee has filed charges or given testimony under this chapter;

(d) To refuse to bargain collectively with an employer.

~~((3))~~ (4) The expressing of any views, arguments, or opinion, or the dissemination thereof to the public, whether in written, printed, graphic, or visual form, shall not constitute or be evidence of an unfair labor practice under this chapter, if such expression contains no threat of reprisal or force or promise of benefit.

**NEW SECTION. Sec. 12.** A new section is added to chapter 44.90 RCW to read as follows:

(1) The commission is empowered and directed to prevent any unfair labor practice and to issue appropriate remedial orders. However, a complaint may not be processed for any unfair labor practice occurring more than six months before the filing of the complaint with the commission or in Thurston county superior court. This power may not be affected or impaired by any means of adjustment, mediation, or conciliation in labor disputes that have been or may hereafter be established by law.

(2) Except as may be specifically limited by this chapter, if the commission or court determines that any person has engaged in or is engaging in an unfair labor practice, the commission or court shall issue and cause to be served upon the person an order requiring the person to cease and desist from such unfair labor practice, and to take such affirmative action as will effectuate the purposes and policy of this chapter, such as the payment of damages.

(3) The commission may petition the Thurston county superior court for the

enforcement of its order and for appropriate temporary relief.

**Sec. 13.** RCW 44.90.090 and 2022 c 283 s 9 are each amended to read as follows:

(1) Except as otherwise provided in this chapter, the matters subject to bargaining include wages, hours, terms and conditions of employment, and the negotiation of any question arising under a collective bargaining agreement.

(2) The employer shall not bargain over rights of management which, in addition to all powers, duties, and rights established by constitutional provision or statute, shall include, but not be limited to, the following:

(a) Any item listed in section 4(1) of this act;

(b) The functions and programs of the employer, the use of technology, and the structure of the organization, including the size and composition of standing committees;

~~((b))~~(c) The employer's budget and the size of the employer's workforce, including determining the financial basis for layoffs;

~~((e))~~(d) The right to direct and supervise employees;

~~((d))~~(e) The hours of work during legislative session ((and the cutoff calendar for a legislative session)) and committee assembly days, and the hours of work during the 60 calendar days before the first day of legislative session and during the 20 calendar days after the last day of legislative session. This subsection (2)(e) does not prohibit bargaining over hours of work during any other period and bargaining over compensation for hours of work in excess of a 40-hour workweek, except that bargaining over hours of work during periods not otherwise prohibited and compensation for hours worked in excess of a 40-hour workweek may only occur for agreements that take effect after July 1, 2027; ((and

~~(e))~~(f) The cutoff calendar for a legislative session;

(g) The employer's authority to: (i) Lay off employees when there has been a change to the number of members in, or the makeup of, a caucus due to an election or appointment that necessitates a change in the number of staff; (ii) lay off an employee following an election, appointment, or resignation of a legislator; and (iii) terminate an employee for engaging in partisan activities that are incompatible with the employee's job duties or position;

(h) Health care benefits and other employee insurance benefits. The amount paid by a legislative employee for health care premiums must be the same as that paid by a represented state employee covered by RCW 41.80.020(3);

(i) The right to take whatever actions are deemed necessary to carry out the mission of the legislature and its agencies during emergencies; and

(j) Retirement plans and retirement benefits.

~~((2))~~(3) Except for an applicable code of conduct policy adopted by a chamber of the legislature or a legislative agency, if a conflict exists between policies adopted by the legislature relating to wages, hours,

and terms and conditions of employment and a provision of a collective bargaining agreement negotiated under this chapter, the collective bargaining agreement shall prevail. A provision of a collective bargaining agreement that conflicts with a statute or an applicable term of a code of conduct policy adopted by a chamber of the legislature or a legislative agency is invalid and unenforceable.

NEW SECTION. **Sec. 14.** A new section is added to chapter 44.90 RCW to read as follows:

(1) Upon authorization of an employee within the bargaining unit and after the certification or recognition of the bargaining unit's exclusive bargaining representative, the employer must deduct from the payments to the employee the monthly amount of dues as certified by the secretary of the exclusive bargaining representative and must transmit the same to the treasurer of the exclusive bargaining representative.

(2)(a) An employee's written, electronic, or recorded voice authorization to have the employer deduct membership dues from the employee's salary must be made by the employee to the exclusive bargaining representative. If the employer receives a request for authorization of deductions, the employer must, as soon as practicable, forward the request to the exclusive bargaining representative.

(b) Upon receiving notice of the employee's authorization, the employer must deduct from the employee's salary membership dues and remit the amounts to the exclusive bargaining representative.

(c) The employee's authorization remains in effect until expressly revoked by the employee in accordance with the terms and conditions of the authorization.

(d) An employee's request to revoke authorization for payroll deductions must be in writing and submitted by the employee to the exclusive bargaining representative in accordance with the terms and conditions of the authorization.

(e) After the employer receives confirmation from the exclusive bargaining representative that the employee has revoked authorization for deductions, the employer must end the deduction no later than the second payroll after receipt of the confirmation.

(f) The employer must rely on information provided by the exclusive bargaining representative regarding the authorization and revocation of deductions.

NEW SECTION. **Sec. 15.** A new section is added to chapter 44.90 RCW to read as follows:

(1) If the parties to a collective bargaining agreement negotiated under this chapter agree to final and binding arbitration under grievance procedures allowed by section 7 of this act, the parties may agree on one or more permanent umpires to serve as arbitrator, or may agree on any impartial person to serve as arbitrator, or may agree to select arbitrators from any source available to

them, including federal and private agencies, in addition to the staff and list of arbitrators maintained by the commission. If the parties cannot agree to the selection of an arbitrator, the commission must supply a list of names in accordance with the procedures established by the commission.

(2) The authority of an arbitrator shall be subject to the limits and restrictions specified under section 4 of this act.

(3) Except as limited by this chapter, an arbitrator may require any person to attend as a witness and to bring with them any book, record, document, or other evidence. The fees for such attendance must be paid by the party requesting issuance of the subpoena and must be the same as the fees of witnesses in the superior court. Arbitrators may administer oaths. Subpoenas must issue and be signed by the arbitrator and must be served in the same manner as subpoenas to testify before a court of record in this state. If any person so summoned to testify refuses or neglects to obey such subpoena, upon petition authorized by the arbitrator, the superior court may compel the attendance of the person before the arbitrator or punish the person for contempt in the same manner provided for the attendance of witnesses or the punishment of them in the courts of this state.

(4) Except as limited by this chapter, the arbitrator shall appoint a time and place for the hearing and notify the parties thereof, and may adjourn the hearing from time to time as may be necessary, and, on application of either party and for good cause, may postpone the hearing to a time not extending beyond the date fixed by the collective bargaining agreement for making the award. The arbitration award must be in writing and signed by the arbitrator. The arbitrator must, promptly upon its rendition, serve a true copy of the award on each of the parties or their attorneys of record.

(5) If a party to a collective bargaining agreement negotiated under this chapter that includes final and binding arbitration refuses to submit a grievance for arbitration, the other party to the collective bargaining agreement may invoke the jurisdiction of the superior court of Thurston county and the court shall have jurisdiction to issue an order compelling arbitration. Disputes concerning compliance with grievance procedures shall be reserved for determination by the arbitrator. Arbitration shall be ordered if the grievance states a claim that on its face is covered by the collective bargaining agreement. Doubts as to the coverage of the arbitration clause shall be resolved in favor of arbitration.

(6) If a party to a collective bargaining agreement negotiated under this chapter that includes final and binding arbitration refuses to comply with the award of an arbitrator determining a grievance arising under the collective bargaining agreement, the other party to the collective bargaining agreement may invoke the jurisdiction of the superior court of Thurston county and the court shall have jurisdiction to issue an order enforcing the arbitration award.

**Sec. 16.** RCW 41.58.010 and 2012 c 117 s 89 are each amended to read as follows:

(1) There is hereby created the public employment relations commission (hereafter called the "commission") to administer the provisions of this chapter. ~~((The))~~ Notwithstanding section 17 of this act, the commission shall consist of three members who shall be citizens appointed by the governor by and with the advice and consent of the senate. One of the original members shall be appointed for a term of three years, one for a term of four years, and one for a term of five years. Their successors shall be appointed for terms of five years each, except that any person chosen to fill a vacancy shall be appointed only for the unexpired term of the member whom he or she succeeds. Commission members shall be eligible for reappointment. The governor shall designate one member to serve as chair of the commission. Any member of the commission may be removed by the governor, upon notice and hearing, for neglect of duty or malfeasance in office, but for no other cause. Commission members shall not be eligible for state retirement under chapter 41.40 RCW by virtue of their service on the commission.

(2) In making citizen member appointments initially, and subsequently thereafter, the governor shall be cognizant of the desirability of appointing persons knowledgeable in the area of labor relations in the state.

(3) A vacancy in the commission shall not impair the right of the remaining members to exercise all of the powers of the commission, and two members of the commission shall, at all times, constitute a quorum of the commission.

(4) The commission shall at the close of each fiscal year make a report in writing to the legislature and to the governor stating the cases it has heard, the decisions it has rendered, the names, salaries, and duties of all employees and officers in the employ or under the supervision of the commission, and an account of all moneys it has disbursed.

NEW SECTION. **Sec. 17.** A new section is added to chapter 41.58 RCW to read as follows:

(1)(a) There is established a legislative commission (hereafter called "the legislative commission") exclusively for the purpose of certification of bargaining representatives, adjusting and settling complaints, grievances, and disputes arising out of employer-employee relations, and otherwise carrying out the duties required of the commission under chapter 44.90 RCW.

(b) The legislative commission shall consist of three members who shall be appointed as follows:

(i) One member shall be appointed by the speaker of the house of representatives;

(ii) One member shall be appointed by the president of the senate;

(iii) By mutual consent, the two appointed members shall appoint the third member who shall be the chair of the legislative commission.

(c) All appointments must be made by September 30, 2024. The members of the

legislative commission, and any person appointed to fill a vacancy, are appointed for the entire term until the legislative commission expires under subsection (9) of this section.

(d) Until all the members of the legislative commission are appointed, the duties required of the legislative commission under chapter 44.90 RCW shall be carried out by the commission created under RCW 41.58.010(1).

(2) The commission may delegate to the executive director authority with respect to, but not limited to, representation proceedings, unfair labor practice proceedings, mediation, and, if applicable, arbitration of disputes concerning the interpretation or application of a collective bargaining agreement. Such delegation shall not eliminate a party's right of appeal to the legislative commission.

(3) Unless specifically provided, the legislative commission shall not be considered part of the commission created under RCW 41.58.010(1). The powers and duties granted in this chapter to the commission created under RCW 41.58.010(1) do not apply to the legislative commission, unless specifically provided.

(4) A member of the legislative commission may be removed by the speaker of the house of representatives and the president of the senate acting jointly, upon notice and hearing, for neglect of duty or malfeasance in office, but for no other cause.

(5) In making their appointments, the speaker of the house of representatives and the president of the senate shall be cognizant of the desirability of appointing a person who is knowledgeable in the area of labor relations and of the legislature.

(6) Members of the legislative commission are not eligible for state retirement under chapter 41.40 RCW by virtue of the member's service as a commissioner.

(7) The compensation and travel reimbursement provision under RCW 41.58.015(1) shall apply to members of the legislative commission.

(8) The legislative commission shall at the close of each fiscal year make a report in writing to the legislature stating the cases it has heard and decisions it has rendered.

(9)(a) The legislative commission expires December 31, 2027.

(b) After December 31, 2027, the duties required of the legislative commission under chapter 44.90 RCW shall be carried out by the commission created under RCW 41.58.010(1).

**Sec. 18.** RCW 41.58.015 and 1984 c 287 s 71 are each amended to read as follows:

(1) Each member of the commission shall be compensated in accordance with RCW 43.03.250. Members of the commission shall also be reimbursed for travel expenses incurred in the discharge of their official duties on the same basis as is provided in RCW 43.03.050 and 43.03.060.

(2) The commission shall appoint an executive director whose annual salary shall

be determined under the provisions of RCW 43.03.028. The executive director shall perform such duties and have such powers as the commission shall prescribe in order to implement and enforce the provisions of this chapter. In addition to the performance of administrative duties, the commission may delegate to the executive director authority with respect to, but not limited to, representation proceedings, unfair labor practice proceedings, mediation of labor disputes, arbitration of disputes concerning the interpretation or application of a collective bargaining agreement, and, in certain cases, fact-finding or arbitration of disputes concerning the terms of a collective bargaining agreement. Such delegation shall not eliminate a party's right of appeal to the commission. The executive director, with such assistance as may be provided by the attorney general and such additional legal assistance consistent with chapter 43.10 RCW, shall have authority on behalf of the commission, when necessary to carry out or enforce any action or decision of the commission, to petition any court of competent jurisdiction for an order requiring compliance with the action or decision.

(3)(a) The commission shall employ such employees as it may from time to time find necessary for the proper performance of its duties, consistent with the provisions of this chapter.

(b) The employees of the commission shall also provide staff support to the legislative commission in carrying out the legislative commission's duties under chapter 44.90 RCW until the legislative commission expires on December 31, 2027, under section 17 of this act.

(4) The payment of all of the expenses of the commission, including travel expenses incurred by the members or employees of the commission under its orders, shall be subject to the provisions of RCW 43.03.050 and 43.03.060.

**NEW SECTION. Sec. 19.** A new section is added to chapter 44.90 RCW to read as follows:

(1) The following activities conducted by or on behalf of legislative employees related to collective bargaining under this chapter are exempt from the restrictions contained in RCW 42.52.020 and 42.52.160:

(a) Using paid time and public resources by an employee to negotiate or administer a collective bargaining agreement under this chapter when the employee is assigned to negotiate or administer the collective bargaining agreement and the use of paid time and public resources does not include state purchased supplies or equipment, does not interfere with or distract from the conduct of state business, and is consistent with the employer's policy on the use of paid time;

(b) Lobbying conducted by an employee organization, lobbyist, association, or third party on behalf of legislative employees concerning legislation that directly impacts legislative workplace conditions;

(c) Communication with a prospective employee organization during nonwork hours and without the use of public resources; or

(d) Conducting the day-to-day work of organizing and representing legislative employees in the workplace while serving in a legislative employee organization leadership position.

(2)(a) Nothing in this section affects the application of the prohibition against the use of special privileges under RCW 42.52.070, confidentiality requirements under RCW 42.52.050, or other applicable provisions of chapter 42.52 RCW to legislative employees.

(b) Nothing in this section permits any direct lobbying by a legislative employee.

(3) As used in this section, "lobby" and "lobbyist" have the meanings provided in RCW 42.17A.005.

**Sec. 20.** RCW 42.52.020 and 1996 c 213 s 2 are each amended to read as follows:

(1) No state officer or state employee may have an interest, financial or otherwise, direct or indirect, or engage in a business or transaction or professional activity, or incur an obligation of any nature, that is in conflict with the proper discharge of the state officer's or state employee's official duties.

(2) This section does not apply to activities conducted by legislative employees authorized under section 19 of this act.

**Sec. 21.** RCW 42.52.160 and 2023 c 91 s 3 are each amended to read as follows:

(1) No state officer or state employee may employ or use any person, money, or property under the officer's or employee's official control or direction, or in his or her official custody, for the private benefit or gain of the officer, employee, or another.

(2) This section does not prohibit the use of public resources to benefit others as part of a state officer's or state employee's official duties. It is not a violation of this section for a legislator or an appropriate legislative staff designee to engage in activities listed under RCW 42.52.070(2) or 42.52.822.

(3) This section does not prohibit de minimis use of state facilities to provide employees with information about (a) medical, surgical, and hospital care; (b) life insurance or accident and health disability insurance; or (c) individual retirement accounts, by any person, firm, or corporation administering such program as part of authorized payroll deductions pursuant to RCW 41.04.020.

(4) The appropriate ethics boards may adopt rules providing exceptions to this section for occasional use of the state officer or state employee, of de minimis cost and value, if the activity does not result in interference with the proper performance of public duties.

(5) This section does not apply to activities conducted by legislative employees authorized under section 19 of this act.

NEW SECTION. **Sec. 22.** This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect May 1, 2024."

#### MESSAGE FROM THE SENATE

Thursday, March 7, 2024

Mme. Speaker:

The Senate receded from its amendment(s) to SECOND SUBSTITUTE HOUSE BILL NO. 2320, and under suspension of the rules returned SECOND SUBSTITUTE HOUSE BILL NO.

2320 to second reading for purpose of amendment(s). The Senate further adopted amendment 2320-S2 AMS KEIS S5709.1 and passed the measure as amended.

Strike everything after the enacting clause and insert the following:

**"NEW SECTION. Sec. 1.** The legislature finds that there is a growing body of research evidencing that consuming cannabis with high concentrations of THC may be harmful to some people, including younger persons and persons who have or are at risk for developing certain mental health conditions or psychotic disorders. Products like THC-infused vape oils, shatter, and dabs can contain close to 100 percent THC, and may carry risks not commonly associated with consumption of useable cannabis flower or other cannabis products with relatively lower THC concentrations. In the interest of public health, the legislature intends to review studies and consider increasing the minimum legal age of sale of high THC cannabis products to age 25, and the legislature intends to require caution notices, developed by the department of health, to be posted at the point of sale in cannabis retail outlets to raise awareness about possible health impacts and risks associated with high THC cannabis. The legislature further intends to implement and study health interventions, gather data, and ensure that new research, data, and information concerning the impacts of high THC cannabis continues to be incorporated into state policy.

**NEW SECTION. Sec. 2.** The legislature intends to provide the department of health with recurring funding available each fiscal year, beginning in fiscal year 2025, to allow the department of health to issue requests for proposals and contract for targeted public health messages and social marketing campaigns directed toward individuals most likely to suffer negative impacts of high THC products including persons under 25 years of age and persons living with mental health challenges. Messages and media campaigns funded must include information about risks, comparative dosing of cannabis products, and resources for persons seeking support for quitting or decreasing their intake of tetrahydrocannabinol. The content of public health messages and social marketing campaigns must be developed in partnership with persons targeted by the messages and campaigns and in consultation with professionals proficient in public health communication and in cannabis research.

**NEW SECTION. Sec. 3.** By July 1, 2025, the department of health must develop an optional training that cannabis retail staff may complete to better understand the health and safety impacts of high THC cannabis products. In developing the optional training, the department of health must consult with cannabis retail staff, cannabis consumers, persons who have been harmed by high THC products, health care providers, prevention professionals, researchers with

relevant expertise, behavioral health providers, and representatives of licensed cannabis businesses.

**Sec. 4.** RCW 69.50.357 and 2022 c 16 s 71 are each amended to read as follows:

(1)(a) Retail outlets may not sell products or services other than cannabis concentrates, useable cannabis, cannabis-infused products, or paraphernalia intended for the storage or use of cannabis concentrates, useable cannabis, or cannabis-infused products.

(b)(i) Retail outlets may receive lockable boxes, intended for the secure storage of cannabis products and paraphernalia, and related literature as a donation from another person or entity, that is not a cannabis producer, processor, or retailer, for donation to their customers.

(ii) Retail outlets may donate the lockable boxes and provide the related literature to any person eligible to purchase cannabis products under subsection (2) of this section. Retail outlets may not use the donation of lockable boxes or literature as an incentive or as a condition of a recipient's purchase of a cannabis product or paraphernalia.

(iii) Retail outlets may also purchase and sell lockable boxes, provided that the sales price is not less than the cost of acquisition.

(2) Licensed cannabis retailers may not employ persons under twenty-one years of age or allow persons under twenty-one years of age to enter or remain on the premises of a retail outlet. However, qualifying patients between eighteen and twenty-one years of age with a recognition card may enter and remain on the premises of a retail outlet holding a medical cannabis endorsement and may purchase products for their personal medical use. Qualifying patients who are under the age of eighteen with a recognition card and who accompany their designated providers may enter and remain on the premises of a retail outlet holding a medical cannabis endorsement, but may not purchase products for their personal medical use.

(3)(a) Licensed cannabis retailers must ensure that all employees are trained on the rules adopted to implement this chapter, identification of persons under the age of twenty-one, and other requirements adopted by the board to ensure that persons under the age of twenty-one are not permitted to enter or remain on the premises of a retail outlet.

(b) Licensed cannabis retailers with a medical cannabis endorsement must ensure that all employees are trained on the subjects required by (a) of this subsection as well as identification of authorizations and recognition cards. Employees must also be trained to permit qualifying patients who hold recognition cards and are between the ages of eighteen and twenty-one to enter the premises and purchase cannabis for their personal medical use and to permit qualifying patients who are under the age of eighteen with a recognition card to enter the premises if accompanied by their designated providers.

(4) Except for the purposes of disposal as authorized by the board, no licensed cannabis retailer or employee of a retail outlet may open or consume, or allow to be opened or consumed, any cannabis concentrates, useable cannabis, or cannabis-infused product on the outlet premises.

(5)(a) By December 31, 2024, licensed cannabis retailers shall post a conspicuous notice at the point of sale in retail outlets with information about: (i) The potential health risks and adverse health impacts that may be associated with the consumption of high THC cannabis; (ii) the potentially much higher risks that may be present for younger persons under age 25 as well as for persons who have or are at risk for developing certain mental health conditions or psychotic disorders; and (iii) where to find help in case of negative effects and resources for quitting or reducing cannabis consumption. The notice must be the same or substantially the same as the notice developed by the department of health under this subsection (5).

(b) The department of health shall develop the notice required under this section and make it available to licensed cannabis retailers. The notice must, at a minimum, identify the information specified in (a)(i) through (iii) of this subsection, and may include additional information.

(6) The board must fine a licensee one thousand dollars for each violation of any subsection of this section. Fines collected under this section must be deposited into the dedicated cannabis account created under RCW 69.50.530.

**NEW SECTION. Sec. 5.** A new section is added to chapter 71.24 RCW to read as follows:

(1) Subject to amounts appropriated for this specific purpose, the health care authority must issue a request for proposal and contract with an entity to develop, implement, test, and evaluate guidance and health interventions for health care providers and patients at risk for developing serious complications due to cannabis consumption who are seeking care in emergency departments, primary care settings, behavioral health settings, other health care facilities, and for use by state poison control and recovery hotlines to promote cannabis use reduction and cessation for the following populations:

(a) Youth and adults at high risk of adverse mental health impacts from use of high THC cannabis;

(b) Youth and adults who have experienced a cannabis-induced first episode psychosis but do not have a diagnosis of a psychotic disorder; and

(c) Youth and adults who have a diagnosed psychotic disorder and use cannabis.

(2) The health care authority must submit a preliminary report to the appropriate committees of the legislature summarizing the progress toward developing and testing health interventions and recruiting patients and health care facilities to participate by December 1, 2025. The health care authority must provide a progress report on initial outcomes of the health interventions for

participating patients and health care facilities by July 1, 2027. The health care authority must submit a final report to the appropriate committees of the legislature summarizing the results of the interventions and any recommendations for implementation of health interventions by December 1, 2028.

(3) A contract entered under the authorization in this section must include, in the scope of work, data gathering on adverse health impacts occurring in Washington associated with consumption of high THC cannabis, and data gathered must be included in the reports submitted to the legislature under this section.

(4) This section expires December 31, 2028.

**NEW SECTION. Sec. 6.** (1) Beginning December 1, 2024, the liquor and cannabis board must collect data on the following information on cannabis products sold within Washington state:

(a) The amount of products being sold in the following categories: Usable cannabis, cannabis concentrates, and cannabis-infused products;

(b) The average THC concentration in usable cannabis and cannabis concentrates, and the average milligrams of THC per unit in cannabis-infused products; and

(c) The range of THC concentration in usable cannabis and cannabis concentrates.

(2) By November 14, 2025, the liquor and cannabis board must submit a report to the relevant committees of the legislature on the information collected under subsection (1) of this section.

(3) For the purposes of this section, "product" has the meaning provided in RCW 69.50.535.

(4) This section expires December 31, 2026.

**NEW SECTION. Sec. 7.** If specific funding for the purposes of this act, referencing this act by bill or chapter number, is not provided by June 30, 2024, in the omnibus appropriations act, this act is null and void."

On page 1, line 4 of the title, after "psychosis;" strike the remainder of the title and insert "amending RCW 69.50.357; adding a new section to chapter 71.24 RCW; creating new sections; and providing expiration dates."

and the same is herewith transmitted.

### RESOLUTION

**HOUSE RESOLUTION NO. 2024-4696**, by Representatives Fitzgibbon and Steele

WHEREAS, It is necessary to provide for the continuation of the work of the House of Representatives after its adjournment and during the interim periods between legislative sessions;

NOW, THEREFORE, BE IT RESOLVED, That the Executive Rules Committee may assign subject matters, bills, memorials, and resolutions to authorized committees of the House of Representatives for study during the interim, and the Speaker of the House of Representatives may create special and select committees as may be necessary to carry out the functions, including interim studies, of the House of Representatives in an orderly manner and shall appoint members to such committees with the approval of the Executive Rules Committee; and

BE IT FURTHER RESOLVED, That, during the interim, the schedules, agendas, locations, and formats for all meetings of any legislative task force or committee shall be approved by the Executive Rules Committee, and those task forces or committees may conduct work sessions and public hearings without a quorum being present; and

BE IT FURTHER RESOLVED, That, during the interim, when participating remotely in any committee meeting, members shall be considered present for purposes of a quorum and voting; and

BE IT FURTHER RESOLVED, That, during the interim, authorized committees have the power of subpoena, the power to administer oaths, and the power to issue commissions for the examination of witnesses in accordance with chapter 44.16 RCW if and when specifically authorized by the Executive Rules Committee for specific purposes and specific subjects; and

BE IT FURTHER RESOLVED, That the Chief Clerk of the House of Representatives shall complete the work of the 2024 Regular Session of the Sixty-Eighth Legislature during interim periods, and all details that arise therefrom, including the editing, indexing, and publishing of the journal of the House of Representatives; and

BE IT FURTHER RESOLVED, That the Chief Clerk of the House of Representatives may approve vouchers of the members of the House of Representatives, covering expenses incurred during the interim for official business of the Legislature in accordance with policies set by the Executive Rules Committee, at the per diem rate provided by law and established by the Executive Rules Committee, for each day or major portion of a day, plus mileage at the rate provided by law and established by the Executive Rules Committee; and

BE IT FURTHER RESOLVED, That the Chief Clerk of the House of Representatives shall, during the interim, and as authorized by the Speaker of the House of Representatives, retain or hire any necessary employees and order necessary supplies, equipment, and printing to enable the House of Representatives to carry out its work promptly and efficiently, and accept committee reports, committee bills, prefiled bills, memorials, and resolutions as directed by the Rules of the House of Representatives; and

BE IT FURTHER RESOLVED, That the Chief Clerk of the House of Representatives shall have authority to execute personal

services contracts relating to workplace investigations, and notify the Executive Rules Committee of any other types of personal services contracts that necessitate the expenditure of House of Representatives appropriations; and

BE IT FURTHER RESOLVED, That the Chief Clerk of the House of Representatives shall execute the necessary vouchers upon which warrants are drawn for all legislative expenses and expenditures of the House of Representatives; and

BE IT FURTHER RESOLVED, That members and employees of the Legislature be reimbursed for expenses incurred in attending authorized conferences and meetings at the rate provided by law and established by the Executive Rules Committee, plus mileage to and from the conferences and meetings at the rate provided by law and established by the Executive Rules Committee, which reimbursement shall be paid on vouchers from any appropriation made to the House of Representatives for legislative expenses; and

BE IT FURTHER RESOLVED, That, during the interim, the use of the House of Representatives Chamber, any of its committee rooms, or any of the furniture or furnishings in them is permitted upon such terms and conditions as the Chief Clerk of the House of Representatives shall deem appropriate; and

BE IT FURTHER RESOLVED, That the Chief Clerk of the House of Representatives may express the sympathy of the House of Representatives by sending flowers and correspondence when the necessity arises; and

BE IT FURTHER RESOLVED, That this Resolution applies throughout the interim between sessions of the Sixty-Eighth Legislature, as well as any committee assembly.

STATE OF WASHINGTON  
— OFFICE OF GOVERNOR JAY INSLEE —

March 19, 2024

To the Honorable Speaker and Members,  
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Section 3, Substitute House Bill No. 2015 entitled:

"AN ACT Relating to incentivizing adult family homes to increase bed capacity to seven or eight beds."

The language of this bill is permissive and does not require DSHS to undertake the inspections as described. Therefore, there is not the necessary justification for the emergency clause. The substance of the bill remains in place.

For these reasons I have vetoed Section 3 of Substitute House Bill No. 2015.

With the exception of Section 3, Substitute House Bill No. 2015 is approved.

Respectfully submitted,

Jay Inslee  
Governor

STATE OF WASHINGTON  
— OFFICE OF GOVERNOR JAY INSLEE —

March 26, 2024

To the Honorable Speaker and Members,  
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Section 6, Substitute House Bill No. 2295 entitled:

"AN ACT Relating to establishing a regulatory structure for licensed acute care hospitals to provide hospital at-home services."

This bill authorizes hospital at-home programs, which were temporarily authorized during the COVID-19 public health emergency. The Department of Health is required to adopt rules to add hospital at-home services to the services that a licensed acute care hospital may provide. However, there is no emergent need for the bill to become effective immediately, and therefore the emergency clause in Section 6 of this bill is unnecessary.

For these reasons I have vetoed Section 6 of Substitute House Bill No. 2295.

With the exception of Section 6, Substitute House Bill No. 2295 is approved.

Respectfully submitted,

A handwritten signature in blue ink, appearing to read "Jay Inslee".

STATE OF WASHINGTON  
— OFFICE OF GOVERNOR JAY INSLEE —

March 29, 2024

To the Honorable Speaker and Members,  
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Section 2, Engrossed Second Substitute House Bill No. 2000 entitled:

"AN ACT Relating to renewing Washington's international leadership."

I am vetoing Section 2 of the bill, the intent section, because it deletes language necessary for the effective implementation of the statutory responsibilities of the Office of International Relations and Protocol in both the body of the bill and existing statute. These responsibilities include serving as the state's official liaison and protocol office with foreign governments, and also advising, coordinating, and assisting the Legislature and independently elected officials on international relations and protocol matters.

For these reasons I have vetoed Section 2 of Engrossed Second Substitute House Bill No. 2000.

With the exception of Section 2, Engrossed Second Substitute House Bill No. 2000 is approved.

Respectfully submitted,

Jay Inslee  
Governor

STATE OF WASHINGTON  
— OFFICE OF GOVERNOR JAY INSLEE —

March 29, 2024

To the Honorable Speaker and Members,  
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Sections 214(6), 602 and 703, Engrossed Substitute House Bill No. 2134 entitled:

"AN ACT Relating to transportation funding and appropriations."

**Section 214(6), pages 59-60, Washington State Department of Transportation,  
Temporary Access Permits**

This section directs the Department of Transportation to certify that certain segments of roadway are no longer needed for the state highway system and to convey those segments to the county. The section further requires the Department of Transportation to grant temporary access permits for properties abutting one of the segments to be conveyed, that may be terminated only if additional connections are made in the future. The granting of temporary access rights to the state highway would improperly delegate to the county and the parcel owners the important responsibility of ensuring the safety and operation of a state limited access facility, contrary to the Department's existing statutory authority under Chapter 47.52 RCW. This raises significant safety concerns of increasing access to SR 532 at this location. For these reasons, I have vetoed Section 214(6). However, I am directing the Department to determine, consistent with its existing statutory authority, whether any of the segments of roadway listed in the proviso are no longer needed for highway purposes, and if so, whether they may be appropriately conveyed to the county.

**Section 602, page 161, Department of Licensing, Special License Plate Moratorium**

Section 602 is effective contingent upon the passage of Substitute House Bill 2489, which did not pass the Legislature. Because the bill did not pass, I have vetoed Section 602.

**Section 703, page 173, Department of Licensing, Special License Plate Moratorium**

Section 703 provides that Section 602 is effective contingent upon the passage of Substitute House Bill 2489, which did not pass the Legislature. Because I have vetoed section 602, Section 703 is not necessary. For this reason, I have vetoed Section 703.

For these reasons I have vetoed Sections 214(6), 602 and 703 of Engrossed Substitute House Bill No. 2134.
