Strike everything after the enacting clause and insert the following:

"NEW SECTION. **Sec. 1.** A new section is added to chapter 90.54 RCW to read as follows:

The legislature recognizes the critical importance of providing and securing sufficient water to meet the needs of people, farms, and fish. The legislature finds that an effective way to meet the water needs of people, farms, and fish is through strategies developed and implemented at the local watershed level. The objectives of these strategies are to supply water in sufficient quantities to satisfy the following three water resource objectives:

- (1) Providing sufficient water for residential, commercial, and industrial needs;
- (2) Providing sufficient water for productive fish populations; and
- (3) Providing sufficient water for productive agriculture.

The legislature affirms its intent to provide continued support for watershed strategies and provides the tools in this bill to assist local watersheds in meeting these objectives.

NEW SECTION. **Sec. 2.** A new section is added to chapter 90.03 RCW to read as follows:

(1) The department shall, through a network of water masters appointed under this chapter, stream patrollers appointed under chapter 90.08 RCW, and other assigned compliance staff to the extent such a network is funded, achieve compliance with the water laws and rules of the state of Washington in the following sequence:

(a) The department shall prepare and distribute technical and educational information to the general public to assist the public in complying with the requirements of their water rights and applicable water laws;

(b) When the department determines that a violation has occurred or is about to occur, it shall first attempt to achieve voluntary compliance. As part of this first response, the department shall offer

information and technical assistance to the person in writing identifying one or more means to accomplish the person's purposes within the framework of the law; and

(c) If education and technical assistance do not achieve compliance the department shall issue a notice of violation, a formal administrative order under RCW 43.27A.190, or assess penalties under RCW 90.03.600 unless the noncompliance is corrected expeditiously or the department determines no impairment or harm.

(2) Nothing in the section is intended to prevent the department of ecology from taking immediate action to cause a violation to be ceased immediately if in the opinion of the department the nature of the violation is causing harm to other water rights or to public resources.

(3) The department of ecology shall to the extent practicable station its compliance personnel within the watershed communities they serve. To the extent practicable, compliance personnel shall be distributed evenly among the regions of the state.

Sec. 3. RCW 90.46.010 and 2001 c 69 s 2 are each amended to read as follows:

The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Greywater" means wastewater having the consistency and strength of residential domestic type wastewater. Greywater includes wastewater from sinks, showers, and laundry fixtures, but does not include toilet or urinal waters.

(2) "Land application" means application of treated effluent for purposes of irrigation or landscape enhancement for residential, business, and governmental purposes.

(3) "Person" means any state, individual, public or private corporation, political subdivision, governmental subdivision, governmental agency, municipality, copartnership, association, firm, trust estate, or any other legal entity whatever.

(4) "Reclaimed water" means effluent derived in any part from sewage from a wastewater treatment system that has been adequately and reliably treated, so that as a result of that treatment, it is suitable for a beneficial use or a controlled use that would not otherwise occur and is no longer considered wastewater.

(5) "Sewage" means water-carried human wastes from residences, buildings, industrial and commercial establishments, or other places, together with such ground water infiltration, surface waters, or industrial wastewater as may be present.

(6) "User" means any person who uses reclaimed water.

(7) "Wastewater" means water and wastes discharged from homes, businesses, and industry to the sewer system.

(8) "Beneficial use" means the use of reclaimed water, that has been transported from the point of production to the point of use without an intervening discharge to the waters of the state, for a beneficial purpose.

(9) "Direct recharge" means the controlled subsurface addition of water directly to the ground water basin that results in the replenishment of ground water.

(10) "Ground water recharge criteria" means the contaminant criteria found in the drinking water quality standards adopted by the state board of health pursuant to chapter 43.20 RCW and the department of health pursuant to chapter 70.119A RCW.

(11) "Planned ground water recharge project" means any reclaimed water project designed for the purpose of recharging ground water, via direct recharge or surface percolation.

(12) "Reclamation criteria" means the criteria set forth in the water reclamation and reuse interim standards and subsequent revisions adopted by the department of ecology and the department of health.

(13) "Streamflow augmentation" means the discharge of reclaimed water to rivers and streams of the state or other surface water bodies, but not wetlands.

(14) "Surface percolation" means the controlled application of water to the ground surface for the purpose of replenishing ground water.

(15) "Wetland or wetlands" means areas that are inundated or saturated by surface water or ground water at a frequency and duration sufficient to support, and that under normal circumstances do support, a prevalence of vegetation typically adapted to life in saturated soil conditions. Wetlands

generally include swamps, marshes, bogs, and similar areas. Wetlands regulated under this chapter shall be delineated in accordance with the manual adopted by the department of ecology pursuant to RCW 90.58.380.

(16) "Constructed beneficial use wetlands" means those wetlands intentionally constructed on nonwetland sites to produce or replace natural wetland functions and values. Constructed beneficial use wetlands are considered "waters of the state."

(17) "Constructed treatment wetlands" means those wetlands intentionally constructed on nonwetland sites and managed for the primary purpose of wastewater or storm water treatment. Constructed treatment wetlands are considered part of the collection and treatment system and are not considered "waters of the state."

(18) "Agricultural industrial process water" means water that has been used for the purpose of ~~((agriculture [agricultural]))~~ agricultural processing and has been adequately and reliably treated, so that as a result of that treatment, it is suitable for other agricultural water use.

(19) "Agricultural processing" means the processing of crops or milk to produce a product primarily for wholesale or retail sale for human or animal consumption, including but not limited to potato, fruit, vegetable, and grain processing.

(20) "Agricultural water use" means the use of water for irrigation and other uses related to the production of agricultural products. These uses include, but are not limited to, construction, operation, and maintenance of agricultural facilities and livestock operations at farms, ranches, dairies, and nurseries. Examples of these uses include, but are not limited to, dust control, temperature control, and fire control.

(21) "Industrial reuse water" means water that has been used for the purpose of industrial processing and has been adequately and reliably treated so that, as a result of that treatment, it is suitable for other uses.

Sec. 4. RCW 90.46.030 and 1992 c 204 s 4 are each amended to read as follows:

(1) The department of health shall, in coordination with the department of ecology, adopt a single set of standards, procedures, and guidelines on or before August 1, 1993, for the industrial and commercial use of reclaimed water.

(2) The department of health may issue a reclaimed water permit for industrial and commercial uses of reclaimed water to the generator of reclaimed water who may then distribute the water, subject to provisions in the permit governing the location, rate, water quality, and purposes of use.

(3) The department of health in consultation with the advisory committee established in RCW 90.46.050, shall develop recommendations for a fee structure for permits issued under subsection (2) of this section. Fees shall be established in amounts to fully recover, and not exceed, expenses incurred by the department of health in processing permit applications and modifications, monitoring and evaluating compliance with permits, and conducting inspections and supporting the reasonable overhead expenses that are directly related to these activities. Permit fees may not be used for research or enforcement activities. The department of health shall not issue permits under this section until a fee structure has been established.

(4) A permit under this section for use of reclaimed water may be issued only to a municipal, quasi-municipal, or other governmental entity or to the holder of a waste discharge permit issued under chapter 90.48 RCW.

(5) The authority and duties created in this section are in addition to any authority and duties already provided in law with regard to sewage and wastewater collection, treatment, and disposal for the protection of health and safety of the state's waters. Nothing in this section limits the powers of the state or any political subdivision to exercise such authority.

(6) The department of health may implement the requirements of this section through the department of ecology by execution of a formal agreement between the departments. Upon execution of such an agreement, the department of ecology may issue reclaimed water permits for industrial and commercial uses of reclaimed water by issuance of permits under chapter 90.48 RCW, and may establish and collect fees as required for permits issued under chapter 90.48 RCW.

Sec. 5. RCW 90.46.130 and 2001 c 69 s 4 are each amended to read as follows:

(1) Except as provided in subsection (2) of this section, facilities that reclaim water under this chapter shall not impair any existing water right downstream from any freshwater discharge points of such facilities unless compensation or mitigation for such impairment is agreed to by the holder of the affected water right.

(2) Agricultural water use of agricultural industrial process water and use of industrial reuse water under this chapter shall not impair existing water rights within the water source that is the source of supply for the agricultural processing plant or the industrial processing and, if the water source is surface water, the existing water rights are downstream from the agricultural processing plant's discharge points existing on July 22, 2001, or from the industrial processing's discharge points existing on the effective date of this section.

NEW SECTION. Sec. 6. A new section is added to chapter 90.46 RCW to read as follows:

(1) The permit to use industrial reuse water shall be the permit issued under chapter 90.48 RCW to the owner of the plant that is the source of the industrial process water, who may then distribute the water according to provisions in the permit governing the location, rate, water quality, and purpose. In cases where the department of ecology determines that a proposed use may pose a significant risk to public health, the department shall refer the permit application to the department of health for review and consultation.

(2) The owner of the industrial plant who obtains a permit under this section has the exclusive right to the use of any industrial reuse water generated from the plant and to the distribution of such water. Use and distribution of the water by the owner is exempt from the permit requirements of RCW 90.03.250, 90.03.380, 90.44.060, and 90.44.100.

(3) Nothing in this section affects any right to reuse industrial process water in existence on or before the effective date of this section.

Sec. 7. RCW 90.38.020 and 2001 c 237 s 28 are each amended to read as follows:

(1)(a) The department may acquire water rights, including but not limited to storage rights, by purchase, lease, gift, or other appropriate means other than by condemnation, from any person or entity or combination of persons or entities. Once acquired, such rights are trust water rights. A water right acquired by the state that is expressly conditioned to limit its use to instream purposes shall be administered as a trust water right in compliance with that condition.

(b) ~~If ((an aquatic species is listed as threatened or endangered under federal law for a body of water, or is listed as depressed or threatened by reason of inadequate stream flows under state law, and))~~ the holder of a right to water from ~~((the))~~ a body of water chooses to donate all or a portion of the person's water right to the trust water system to assist in providing ~~((those))~~ instream flows on a temporary or permanent basis, the department shall accept the donation on such terms as the person may prescribe as long as the donation satisfies the requirements of subsection (4) of this section and the other applicable requirements of this chapter and the terms prescribed are relevant and material to protecting any interest in the water right retained by the donor. Once accepted, such rights are trust water rights within the conditions prescribed by the donor.

(2) The department may make such other arrangements, including entry into contracts with other persons or entities as appropriate to ensure that trust water rights acquired in accordance with this chapter can be exercised to the fullest possible extent.

(3) The trust water rights may be acquired on a temporary or permanent basis.

(4) A water right donated under subsection (1)(b) of this section shall not exceed the extent to which the water right was exercised during the five years before the donation nor may the total of any portion of the water right remaining with the donor plus the donated portion of the water right exceed the extent to which the water right was exercised during the five years before the donation. A water right holder who believes his or her water right has been impaired by a trust water right donated under subsection (1)(b) of this section may request that the department review the impairment claim. If the department determines that exercising the trust water right resulting from the donation or exercising a portion of that trust water right donated under subsection (1)(b) of this section is impairing existing water rights in violation of RCW 90.38.902, the trust water right shall be altered by the department to eliminate the impairment. Any decision of the department to alter or not alter a trust water right

donated under subsection (1)(b) of this section is appealable to the pollution control hearings board under RCW 43.21B.230. A donated water right's status as a trust water right under this subsection is not evidence of the validity or quantity of the water right.

(5) Any water right conveyed to the trust water right system as a gift that is expressly conditioned to limit its use to instream purposes shall be managed by the department for public purposes to ensure that it qualifies as a gift that is deductible for federal income taxation purposes for the person or entity conveying the water right.

(6) If the department acquires a trust water right by lease (~~(in an area in which a drought order has been issued under RCW 43.83B.405 and is in effect at the time the department leases the water right)~~), the amount of the trust water right shall not exceed the extent to which the water right was exercised during the five years before the acquisition was made nor may the total of any portion of the water right remaining with the original water right holder plus the portion of the water right leased by the department exceed the extent to which the water right was exercised during the five years before the acquisition. A water right holder who believes his or her water right has been impaired by a trust water right leased under this subsection may request that the department review the impairment claim. If the department determines that exercising the trust water right resulting from the leasing or exercising (~~(of)~~) of a portion of that trust water right leased under this subsection is impairing existing water rights in violation of RCW 90.38.902, the trust water right shall be altered by the department to eliminate the impairment. Any decision of the department to alter or not to alter a trust water right leased under this subsection is appealable to the pollution control hearings board under RCW 43.21B.230. The department's leasing of a trust water right under this subsection is not evidence of the validity or quantity of the water right.

(7) For a water right donated to or acquired by the trust water rights program on a temporary basis, the full quantity of water diverted or withdrawn to exercise the right before the donation or acquisition shall be placed in the trust water rights program and shall revert to the donor or person from whom it was acquired when the trust period ends.

Sec. 8. RCW 90.42.040 and 2001 c 237 s 30 are each amended to read as follows:

(1) All trust water rights acquired by the state shall be placed in the state trust water rights program to be managed by the department. Trust water rights acquired by the state shall be held or authorized for use by the department for instream flows, irrigation, municipal, or other beneficial uses consistent with applicable regional plans for pilot planning areas, or to resolve critical water supply problems. To the extent practicable and subject to legislative appropriation, trust water rights acquired in an area with an approved watershed plan developed under chapter 90.82 RCW shall be consistent with that plan if the plan calls for such acquisition.

(2) The department shall issue a water right certificate in the name of the state of Washington for each permanent trust water right conveyed to the state indicating the reach or reaches of the stream, the quantity, and the use or uses to which it may be applied. A superseding certificate shall be issued that specifies the amount of water the water right holder would continue to be entitled to as a result of the water conservation project. The superseding certificate shall retain the same priority date as the original right. For nonpermanent conveyances, the department shall issue certificates or such other instruments as are necessary to reflect the changes in purpose or place of use or point of diversion or withdrawal.

(3) A trust water right retains the same priority date as the water right from which it originated, but as between them the trust right shall be deemed to be inferior in priority unless otherwise specified by an agreement between the state and the party holding the original right.

(4) Exercise of a trust water right may be authorized only if the department first determines that neither water rights existing at the time the trust water right is established, nor the public interest will be impaired. If impairment becomes apparent during the time a trust water right is being exercised, the department shall cease or modify the use of the trust water right to eliminate the impairment.

(5) Before any trust water right is created or modified, the department shall, at a minimum, require that a notice be published in a newspaper of general circulation published in the county or counties in which the storage, diversion, and use are to be made, and in other newspapers as the

department determines is necessary, once a week for two consecutive weeks. At the same time the department shall send a notice containing pertinent information to all appropriate state agencies, potentially affected local governments and federally recognized tribal governments, and other interested parties.

(6) RCW 90.14.140 through 90.14.230 have no applicability to trust water rights held by the department under this chapter or exercised under this section.

(7) RCW 90.03.380 has no applicability to trust water rights acquired by the state through the funding of water conservation projects.

(8) Subsections (4) and (5) of this section do not apply to a trust water right resulting from a donation for instream flows described in RCW 90.42.080(1)(b) or to a trust water right leased under RCW 90.42.080(8) if the period of the lease does not exceed five years. However, the department shall provide the notice described in subsection (5) of this section the first time the trust water right resulting from the donation is exercised.

(9) Where a portion of an existing water right that is acquired or donated to the trust water rights program will assist in achieving established instream flows, the department shall process the change or amendment of the existing right without conducting a review of the extent and validity of the portion of the water right that will remain with the water right holder.

Sec. 9. RCW 90.42.080 and 2001 c 237 s 31 are each amended to read as follows:

(1)(a) The state may acquire all or portions of existing water rights, by purchase, gift, or other appropriate means other than by condemnation, from any person or entity or combination of persons or entities. Once acquired, such rights are trust water rights. A water right acquired by the state that is expressly conditioned to limit its use to instream purposes shall be administered as a trust water right in compliance with that condition.

~~(b) If ((an aquatic species is listed as threatened or endangered under federal law for a body of water, or is listed as depressed or threatened by reason of inadequate stream flow under state law, and))~~ the holder of a right to water from ~~((the))~~ a body of water chooses to donate all or a portion of the person's water right to the trust water system to assist in providing ~~((those))~~ instream flows on a temporary or permanent basis, the department shall accept the donation on such terms as the person may prescribe as long as the donation satisfies the requirements of subsection (4) of this section and the other applicable requirements of this chapter and the terms prescribed are relevant and material to protecting any interest in the water right retained by the donor. Once accepted, such rights are trust water rights within the conditions prescribed by the donor.

(2) The department may enter into leases, contracts, or such other arrangements with other persons or entities as appropriate, to ensure that trust water rights acquired in accordance with this chapter may be exercised to the fullest possible extent.

(3) Trust water rights may be acquired by the state on a temporary or permanent basis.

(4) A water right donated under subsection (1)(b) of this section shall not exceed the extent to which the water right was exercised during the five years before the donation nor may the total of any portion of the water right remaining with the donor plus the donated portion of the water right exceed the extent to which the water right was exercised during the five years before the donation. A water right holder who believes his or her water right has been impaired by a trust water right donated under subsection (1)(b) of this section may request that the department review the impairment claim. If the department determines that exercising the trust water right resulting from the donation or exercising a portion of that trust water right donated under subsection (1)(b) of this section is impairing existing water rights in violation of RCW 90.42.070, the trust water right shall be altered by the department to eliminate the impairment. Any decision of the department to alter or not to alter a trust water right donated under subsection (1)(b) of this section is appealable to the pollution control hearings board under RCW 43.21B.230. A donated water right's status as a trust water right under this subsection is not evidence of the validity or quantity of the water right.

(5) The provisions of RCW 90.03.380 and 90.03.390 do not apply to donations for instream flows described in subsection (1)(b) of this section, but do apply to other transfers of water rights under this section.

(6) No funds may be expended for the purchase of water rights by the state pursuant to this section unless specifically appropriated for this purpose by the legislature.

(7) Any water right conveyed to the trust water right system as a gift that is expressly conditioned to limit its use to instream purposes shall be managed by the department for public purposes to ensure that it qualifies as a gift that is deductible for federal income taxation purposes for the person or entity conveying the water right.

(8) If the department acquires a trust water right by lease (~~(in an area in which a drought order has been issued under RCW 43.83B.405 and is in effect at the time the department leases the water right)~~), the amount of the trust water right shall not exceed the extent to which the water right was exercised during the five years before the acquisition was made nor may the total of any portion of the water right remaining with the original water right holder plus the portion of the water right leased by the department exceed the extent to which the water right was exercised during the five years before the acquisition. A water right holder who believes his or her water right has been impaired by a trust water right leased under this subsection may request that the department review the impairment claim. If the department determines that exercising the trust water right resulting from the leasing or exercising (~~(of)~~) of a portion of that trust water right leased under this subsection is impairing existing water rights in violation of RCW 90.42.070, the trust water right shall be altered by the department to eliminate the impairment. Any decision of the department to alter or not to alter a trust water right leased under this subsection is appealable to the pollution control hearings board under RCW 43.21B.230. The department's leasing of a trust water right under this subsection is not evidence of the validity or quantity of the water right.

(9) For a water right donated to or acquired by the trust water rights program on a temporary basis, the full quantity of water diverted or withdrawn to exercise the right before the donation or acquisition shall be placed in the trust water rights program and shall revert to the donor or person from whom it was acquired when the trust period ends.

Sec. 10. RCW 90.03.370 and 2000 c 98 s 3 are each amended to read as follows:

(1)(a) All applications for reservoir permits (~~(shall be)~~) are subject to the provisions of RCW 90.03.250 through 90.03.320. But the party or parties proposing to apply to a beneficial use the water stored in any such reservoir shall also file an application for a permit, to be known as the secondary permit, which shall be in compliance with the provisions of RCW 90.03.250 through 90.03.320. Such secondary application shall refer to such reservoir as its source of water supply and shall show documentary evidence that an agreement has been entered into with the owners of the reservoir for a permanent and sufficient interest in said reservoir to impound enough water for the purposes set forth in said application. When the beneficial use has been completed and perfected under the secondary permit, the department shall take the proof of the water users under such permit and the final certificate of appropriation shall refer to both the ditch and works described in the secondary permit and the reservoir described in the primary permit. The department may accept for processing a single application form covering both a proposed reservoir and a proposed secondary permit or permits for use of water from that reservoir.

(b) The department shall expedite processing applications for the following types of storage proposals:

(i) Development of storage facilities that will not require a new water right for diversion or withdrawal of the water to be stored;

(ii) Adding or changing one or more purposes of use of stored water;

(iii) Adding to the storage capacity of an existing storage facility; and

(iv) Applications for secondary permits to secure use from existing storage facilities.

(c) A secondary permit for the beneficial use of water shall not be required for use of water stored in a reservoir where the water right for the source of the stored water authorizes the beneficial use.

(2)(a) For the purposes of this section, "reservoir" includes, in addition to any surface reservoir, any naturally occurring underground geological formation where water is collected and stored for subsequent use as part of an underground artificial storage and recovery project. To qualify

for issuance of a reservoir permit an underground geological formation must meet standards for review and mitigation of adverse impacts identified, for the following issues:

- (i) Aquifer vulnerability and hydraulic continuity;
- (ii) Potential impairment of existing water rights;
- (iii) Geotechnical impacts and aquifer boundaries and characteristics;
- (iv) Chemical compatibility of surface waters and ground water;
- (v) Recharge and recovery treatment requirements;
- (vi) System operation;
- (vii) Water rights and ownership of water stored for recovery; and
- (viii) Environmental impacts.

(b) Standards for review and standards for mitigation of adverse impacts for an underground artificial storage and recovery project shall be established by the department by rule. Notwithstanding the provisions of RCW 90.03.250 through 90.03.320, analysis of each underground artificial storage and recovery project and each underground geological formation for which an applicant seeks the status of a reservoir shall be through applicant-initiated studies reviewed by the department.

(3) For the purposes of this section, "underground artificial storage and recovery project" means any project in which it is intended to artificially store water in the ground through injection, surface spreading and infiltration, or other department-approved method, and to make subsequent use of the stored water. However, (a) this subsection does not apply to irrigation return flow, or to operational and seepage losses that occur during the irrigation of land, or to water that is artificially stored due to the construction, operation, or maintenance of an irrigation district project, or to projects involving water reclaimed in accordance with chapter 90.46 RCW; and (b) RCW 90.44.130 applies to those instances of claimed artificial recharge occurring due to the construction, operation, or maintenance of an irrigation district project or operational and seepage losses that occur during the irrigation of land, as well as other forms of claimed artificial recharge already existing at the time a ground water subarea is established.

(4) Nothing in chapter 98, Laws of 2000 changes the requirements of existing law governing issuance of permits to appropriate or withdraw the waters of the state.

(5) The department shall report to the legislature by December 31, 2001, on the standards for review and standards for mitigation developed under subsection (3) of this section and on the status of any applications that have been filed with the department for underground artificial storage and recovery projects by that date.

(6) Where needed to ensure that existing storage capacity is effectively and efficiently used to meet multiple purposes, the department may authorize reservoirs to be filled more than once per year or more than once per season of use.

NEW SECTION. Sec. 11. A new section is added to chapter 43.155 RCW to read as follows:

The water conservation account is created in the custody of the state treasurer. All receipts from federal funding dedicated to water conservation under 16 U.S.C. Sec. 3831 shall be deposited in the account. In addition, the legislature may appropriate money to the account. The account is subject to allotment procedures under chapter 43.88 RCW, but an appropriation is not required for expenditures. Expenditures from the account shall be used for the development and support of water conservation as defined by 16 U.S.C. Sec. 3831. Only the public works board or its designee may make expenditures from the account.

NEW SECTION. Sec. 12. Section 11 of this act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect immediately."

"NEW SECTION. Sec. 1. These funds serve to equalize the property tax rates that individual taxpayers would pay for such levies and to provide tax relief to taxpayers in high tax rate school districts."

The legislature further finds that changes in state and federal funding that have taken place since the local effort assistance program began in 1989 make it necessary to reexamine the local effort assistance funding formula and to determine whether the purpose of the program is being fulfilled.

NEW SECTION. Sec. 2. (1) The joint task force on local effort assistance is created, to consist of nineteen members:

(2) Legislative members of the task force shall be reimbursed for travel expenses as provided in RCW 44.04.120. The staff of the office of superintendent of public instruction, senate committee services, and the office of program research of the house of representatives shall provide support to the task force.

(3) The task force shall be cochaired by one senator, chosen by the task force, and one representative, chosen by the task force. The task force shall establish rules of procedure at its first meeting.

(4) The task force shall seek input and advice from stakeholders.

(1) Complete a thorough analysis of the history of the local effort assistance program and its impacts, including a thorough examination of the revenues included in the levy base;

(2) Determine whether the purpose of the local effort assistance program, as stated in RCW 28A.500.010, is being met under the current allocation formula; and

(3) Present its findings and provide recommendations to the legislature by December 1, 2002.

Sec. 4. RCW 28A.500.030 and 1999 c 317 s 3 are each amended to read as follows:

Allocation of state matching funds to eligible districts for local effort assistance shall be determined as follows:

(1) Funds raised by the district through maintenance and operation levies shall be matched with state funds using the following ratio of state funds to levy funds:

(a) The difference between the district's twelve percent levy rate and the statewide average twelve percent levy rate; to

(b) The statewide average twelve percent levy rate.

(2) The maximum amount of state matching funds for districts eligible for local effort assistance shall be the district's twelve percent levy amount, multiplied by the following percentage:

(a) The difference between the district's twelve percent levy rate and the statewide average twelve percent levy rate; divided by

(b) The district's twelve percent levy rate.

(3) Calendar year 2003 allocations and maximum eligibility under this chapter shall be multiplied by 0.99.

SENATE AMENDMENTS TO HOUSE BILL

March 13, 2002

Mr. Speaker:

The Senate receded from its amendments to ENGROSSED SECOND SUBSTITUTE HOUSE BILL NO. 2671, and under suspension of the rules returned ENGROSSED SECOND SUBSTITUTE HOUSE BILL NO. 2671 to second reading for purpose of amendments. The Senate further adopted the following amendment and passed the measure as amended"

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. (1) The legislature finds that the health and safety of its citizens, natural resources, and the environment are vital interests of the state that must be protected to preserve the state's quality of life. The legislature also finds that the state's economic well-being is a vital interest that depends upon the development of fair, coordinated environmental permitting processes that ensure that the state not only protects natural resources but also encourages appropriate activities that stimulate growth and development. The legislature further finds that Washington's environmental protection programs have established strict standards to reduce pollution and protect public health and safety and the environment.

(2) The legislature also finds that, as the number of environmental and land use laws have grown in Washington, so have the number of permits required of business and government. The increasing number of individual permits and permit agencies has generated the potential for conflict, overlap, and duplication among various state, local, and federal permits. Lack of coordination in the processing of project applications may cause costly delays and frustration to applicants.

(3) The legislature further finds that not all project applicants require the same type of assistance. Applicants with small projects may merely need information about local and state permits and assistance in applying for those permits, while intermediate-sized projects may require a facilitated permit process, and large complex projects may need extensive coordination among local, state, and federal agencies and tribal governments.

(4) The legislature, therefore, finds that a range of assistance and coordination options should be available to project applicants from a state office independent of any local, state, or federal permit agency. The legislature finds that citizens, businesses, and project applicants should be provided with:

(a) A reliable and consolidated source of information concerning federal, state, and local environmental and land use laws and procedures that may apply to any given project;

(b) Facilitated interagency forums for discussion of significant issues related to the multiple permitting processes if needed for some project applicants; and

(c) Active coordination of all applicable regulatory and land use permitting procedures if needed for some project applicants.

(5) The legislature declares that the purpose of this chapter is to transfer the existing permit assistance center in the department of ecology to a new office of permit assistance in the office of financial management to:

(a) Assure that citizens, businesses, and project applicants will continue to be provided with vital information regarding environmental and land use laws and with assistance in complying with environmental and land use laws to promote understanding of these laws and to protect public health and safety and the environment;

(b) Ensure that facilitation of project permit decisions by permit agencies promotes both process efficiency and environmental protection;

(c) Allow for coordination of permit processing for large projects upon project applicants' request and at project applicants' expense to promote efficiency, ensure certainty, and avoid conflicts among permit agencies; and

(d) Provide these services through an office independent of any permit agency to ensure that any potential or perceived conflicts of interest related to providing these services or making permit decisions can be avoided.

(6) The legislature intends that establishing an office of permit assistance will provide these services without abrogating or limiting the authority of any permit agency to make decisions on permits that it issues. The legislature therefore declares that the office of permit assistance shall have authority to provide these services but shall not have any authority to make decisions on permits.

NEW SECTION. Sec. 2. (1) The office of permit assistance is created in the office of financial management and shall be administered by the office of the governor to assist citizens, businesses, and project applicants.

(2) The office shall:

(a) Maintain and furnish information as provided in section 5 of this act;

(b) Furnish facilitation as provided in section 6 of this act;

(c) Furnish coordination as provided in section 7 of this act;

(d) Coordinate cost reimbursement as provided in section 8 of this act;

(e) Work with state agencies and local governments to continue to develop a range of permit assistance options for project applicants;

(f) Review initiatives developed by the transportation permit efficiency and accountability committee established in chapter 47.06C RCW and determine if any would be beneficial if implemented for other types of projects;

(g) Work to develop informal processes for dispute resolution between agencies and permit applicants;

(h) Conduct customer surveys to evaluate its effectiveness; and

(i) Provide the following biennial reports to the governor and the appropriate committees of the legislature:

(i) A performance report, based on the customer surveys required in (h) of this subsection;

(ii) A report on any statutory or regulatory conflicts identified by the office in the course of its duties that arise from differing legal authorities and roles of agencies and how these were resolved. The report may include recommendations to the legislature and to agencies; and

(iii) A report regarding use of outside independent consultants under section 8 of this act, including the nature and amount of work performed and implementation of requirements relating to costs.

(3) The office shall give priority to furnishing assistance to small projects when expending general fund moneys allocated to it.

NEW SECTION. Sec. 3. (1) The office shall operate on the principle that citizens of the state of Washington should receive the following information regarding permits:

- (a) A date and time for a decision on a permit;
 - (b) The information required for an agency to make a decision on a permit, recognizing that changes in the project or other circumstances may change the information required; and
 - (c) An estimate of the maximum amount of costs in fees, studies, or public processes that will be incurred by the project applicant.
- (2) This section does not create an independent cause of action, affect any existing cause of action, or establish time limits for purposes of RCW 64.40.020.

NEW SECTION. Sec. 4. The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

- (1) "Office" means the office of permit assistance in the office of financial management established in section 2 of this act.
- (2) "Permit" means any permit, certificate, use authorization, or other form of governmental approval required in order to construct or operate a project in the state of Washington.
- (3) "Permit agency" means any state or local agency authorized by law to issue permits.
- (4) "Project" means any activity, the conduct of which requires a permit or permits from one or more permit agencies.
- (5) "Project applicant" means a citizen, business, or any entity seeking a permit or permits in the state of Washington.

NEW SECTION. Sec. 5. The office shall assist citizens, businesses, and project applicants by maintaining and furnishing information, including, but not limited to:

In providing this information, the office shall seek the cooperation of relevant local, state, and federal agencies and tribal governments;
- (2) Establishing and providing notice of a point of contact for obtaining information;
- (3) Working closely and cooperatively with the business license center in providing efficient and nonduplicative service;
- (4) Collecting and making available information regarding federal, state, local, and tribal government programs that rely on private professional expertise to assist agencies in project permit review; and
- (5) Developing a call center and a web site.

NEW SECTION. Sec. 6. At the request of a project applicant, the office shall assist the project applicant in determining what regulatory requirements, processes, and permits apply to the project, as provided in this section.

- (1) The office shall assign a project facilitator who shall discuss applicable regulatory requirements, permits, and processes with the project applicant and explain the available options for obtaining required permits.
- (2) If the project applicant and the project facilitator agree that the project would benefit from a project scoping, the project facilitator shall conduct a project scoping by the project applicant and the relevant state and local permit agencies. The project facilitator shall invite the participation of the relevant federal permit agencies and tribal governments.
 - (a) The purpose of the project scoping is to identify the issues and information needs of the project applicant and the participating permit agencies regarding the project, share perspectives, and jointly develop a strategy for the processing of required permits by each participating permit agency.
 - (b) The scoping shall address:
 - (i) The permits that are required for the project;
 - (ii) The permit application forms and other application requirements of the participating permit agencies;
 - (iii) The specific information needs and issues of concern of each participant and their significance;

(iv) Any statutory or regulatory conflicts that might arise from the differing authorities and roles of the permit agencies;

(v) Any natural resources, including federal or state listed species, that might be adversely affected by the project and might cause an alteration of the project or require mitigation; and

(vi) The anticipated time required for permit decisions by each participating permit agency, including the time required to determine if the permit application is complete, to conduct environmental review, and to review and process the application. In determining the time required, full consideration must be given to achieving the greatest possible efficiencies through any concurrent studies and any consolidated applications, hearings, and comment periods.

(c) The outcome of the project scoping shall be documented in writing, furnished to the project applicant, and be made available to the public.

(d) The project scoping shall be completed within sixty days of the project applicant's request for a project scoping.

(e) Upon completion of the project scoping, the participating permit agencies shall proceed under their respective authority. The agencies are encouraged to remain in communication for purposes of coordination until their final permit decisions are made.

(3) This section does not create an independent cause of action, affect any existing cause of action, or establish time limits for purposes of RCW 64.40.020.

NEW SECTION. Sec. 7. (1) The office may coordinate the processing by participating permit agencies of permits required for a project, at the request of the project applicant through a cost reimbursement agreement as provided in subsection (3) of this section or with the agreement of the project applicant as provided in subsection (4) of this section.

(2) The office shall assign a project coordinator to perform any or all of the following functions, as specified by the terms of a cost reimbursement agreement under subsection (3) of this section or an agreement under subsection (4) of this section:

(3) At the request of a project applicant and as provided in section 8 of this act, the project coordinator shall coordinate negotiations among the project applicant, the office, and participating permit agencies to enter into a cost reimbursement agreement and shall coordinate implementation of the agreement, which shall govern coordination of permit processing by the participating permit agencies.

(4) The office may determine that it is in the public interest to coordinate the processing of permits for certain projects that are complex in scope, require multiple permits, involve multiple jurisdictions, or involve a significant number of affected parties. Upon such a determination, the office may enter into an agreement with the project applicant and the participating permit agencies to coordinate the processing of permits for the project. The office may limit the number of such agreements according to the resources available to the office and the permit agencies at the time.

NEW SECTION. Sec. 8. (1) The office may coordinate negotiation and implementation of a written agreement among the project applicant, the office, and participating permit agencies to recover from the project applicant the reasonable costs incurred by the office in carrying out the provisions of sections 6(2) and 7(2) of this act and by participating permit agencies in carrying out permit processing tasks specified in the agreement.

(2) The office may coordinate negotiation and implementation of a written agreement among the project applicant, the office, and participating permit agencies to recover from the project applicant the reasonable costs incurred by outside independent consultants selected by the office and participating permit agencies to perform permit processing tasks.

(3) Outside independent consultants may only bill for the costs of performing those permit processing tasks that are specified in a cost reimbursement agreement under this section. The billing process shall provide for accurate time and cost accounting and may include a billing cycle that provides for progress payments.

(4) The office shall adopt a policy to coordinate cost reimbursement agreements with outside independent consultants. Cost reimbursement agreements coordinated by the office under this section must be based on competitive bids that are awarded for each agreement from a prequalified consultant roster.

(5) Independent consultants hired under a cost reimbursement agreement, shall report directly to the permit agency. The office shall assure that final decisions are made by the permit agency and not by the consultant.

(6) The office shall develop procedures for determining, collecting, and distributing cost reimbursement for carrying out the provisions of this chapter.

(7) For a cost reimbursement agreement, the office and participating permit agencies shall negotiate a work plan and schedule for reimbursement. Prior to distributing scheduled reimbursement to the agencies, the office shall verify that the agencies have met the obligations contained in their work plan.

(8) Prior to commencing negotiations with the project applicant for a cost reimbursement agreement, the office shall request work load analyses from each participating permitting agency. These analyses shall be available to the public. Subsequent allotment modifications shall not include transfers of moneys between sections of this act except as expressly provided in this act, nor shall allotment modifications permit moneys that are provided solely for a specified purpose to be used for other than that purpose, except as expressly provided in subsection (3) of this section.

(2) The department of social and health services shall not initiate any services that will require expenditure of state general fund moneys unless expressly authorized in this act or other law. The department may seek, receive, and spend, under RCW 43.79.260 through 43.79.282, federal moneys not anticipated in this act as long as the federal funding does not require expenditure of state moneys for the program in excess of amounts anticipated in this act. If the department receives unanticipated unrestricted federal moneys, those moneys shall be spent for services authorized in this act or in any other legislation providing appropriation authority, and an equal amount of appropriated state general fund moneys shall lapse. Upon the lapsing of any moneys under this subsection, the office of financial management shall notify the legislative fiscal committees. As used in this subsection, "unrestricted federal moneys" includes block grants and other funds that federal law does not require to be spent on specifically defined projects or matched on a formula basis by state funds.

(3)(a) The appropriations to the department of social and health services in this act shall be expended for the programs and in the amounts specified in this act. However, after May 1, 2002,

unless specifically prohibited by this act, the department may transfer general fund--state appropriations for fiscal year 2002 among programs after approval by the director of financial management. However, the department shall not transfer state moneys that are provided solely for a specified purpose except as expressly provided in subsection (3)(b) of this section.

(b) To the extent that transfers under subsection (3)(a) of this section are insufficient to fund actual expenditures in excess of fiscal year 2002 caseload forecasts and utilization assumptions in the medical assistance, long-term care, foster care, adoption support, and child support programs, the department may transfer state moneys that are provided solely for a specified purpose after approval by the director of financial management.

(c) The director of financial management shall notify the appropriate fiscal committees of the senate and house of representatives in writing prior to approving any allotment modifications.

(4) In the event the department receives additional unrestricted federal funds or achieves savings in excess of that anticipated in this act, the department shall use up to \$5,000,000 of such funds to initiate a pilot project providing integrated support services to homeless individuals needing mental health services, alcohol or substance abuse treatment, medical care, or who demonstrate community safety concerns. Before such a pilot project is initiated, the department shall notify the fiscal committees of the legislature of the plans for such a pilot project including the source of funds to be used.

TOTAL APPROPRIATION \$ ((844,299,000))	<u>832,552,000</u>

The appropriations in this section are subject to the following conditions and limitations:

(1) \$2,237,000 of the fiscal year 2002 general fund--state appropriation, ((~~\$2,288,000~~)) \$2,271,000 of the fiscal year 2003 general fund--state appropriation, and ((~~\$1,590,000~~)) \$1,584,000 of the general fund--federal appropriation are provided solely for the category of services titled "intensive family preservation services."

(2) \$685,000 of the general fund--state fiscal year 2002 appropriation and \$701,000 of the general fund--state fiscal year 2003 appropriation are provided to contract for the operation of one pediatric interim care facility. The facility shall provide residential care for up to thirteen children through two years of age. Seventy-five percent of the children served by the facility must be in need of special care as a result of substance abuse by their mothers. The facility shall also provide on-site training to biological, adoptive, or foster parents. The facility shall provide at least three months of consultation and support to parents accepting placement of children from the facility. The facility may recruit new and current foster and adoptive parents for infants served by the facility. The department shall not require case management as a condition of the contract.

(3) \$524,000 of the general fund--state fiscal year 2002 appropriation ((~~and \$536,000~~)), \$375,000 of the general fund--state fiscal year 2003 appropriation, and \$161,000 of the general fund--federal appropriation are provided for up to three nonfacility-based programs for the training, consultation, support, and recruitment of biological, foster, and adoptive parents of children through

age three in need of special care as a result of substance abuse by their mothers, except that each program may serve up to three medically fragile nonsubstance-abuse-affected children. In selecting nonfacility-based programs, preference shall be given to programs whose federal or private funding sources have expired or that have successfully performed under the existing pediatric interim care program.

(4) \$1,260,000 of the fiscal year 2002 general fund--state appropriation, \$1,248,000 of the fiscal year 2003 general fund--state appropriation, and ~~(((\$4,196,000))~~ \$4,150,000 of the violence reduction and drug enforcement account appropriation are provided solely for the family policy council and community public health and safety networks. The funding level for the family policy council and community public health and safety networks represents a 25 percent reduction below the funding level for the 1999-2001 biennium. Funding levels shall be reduced 25 percent for both the family policy council and network grants. Reductions to network grants shall be allocated so as to maintain current funding levels, to the greatest extent possible, for projects with the strongest evidence of positive outcomes and for networks with substantial compliance with contracts for network grants.

(5) \$2,215,000 of the fiscal year 2002 general fund--state appropriation, \$4,394,000 of the fiscal year 2003 general fund--state appropriation, and \$5,604,000 of the general fund--federal appropriation are provided solely for reducing the average caseload level per case-carrying social worker. Average caseload reductions are intended to increase the amount of time social workers spend in direct contact with the children, families, and foster parents involved with their open cases. The department shall use some of the funds provided in several local offices to increase staff that support case-carrying social workers in ways that will allow social workers to increase direct contact time with children, families, and foster parents. To achieve the goal of reaching an average caseload ratio of 1:24 by the end of fiscal year 2003, the department shall develop a plan for redeploying 30 FTEs to case-carrying social worker and support positions from other areas in the children and family services budget. The FTE redeployment plan shall be submitted to the fiscal committees of the legislature by December 1, 2001.

(6) \$1,000,000 of the fiscal year 2002 general fund--state appropriation and \$1,000,000 of the fiscal year 2003 general fund--state appropriation are provided solely for increasing foster parent respite care services that improve the retention of foster parents and increase the stability of foster placements. The department shall report quarterly to the appropriate committees of the legislature progress against appropriate baseline measures for foster parent retention and stability of foster placements.

(7) \$1,050,000 of the general fund--federal appropriation is provided solely for increasing kinship care placements for children who otherwise would likely be placed in foster care. These funds shall be used for extraordinary costs incurred by relatives at the time of placement, or for extraordinary costs incurred by relatives after placement if such costs would likely cause a disruption in the kinship care placement. \$50,000 of the funds provided shall be contracted to the Washington institute for public policy to conduct a study of kinship care placements. The study shall examine the prevalence and needs of families who are raising related children and shall compare services and policies of Washington state with other states that have a higher rate of kinship care placements in lieu of foster care placements. The study shall identify possible changes in services and policies that are likely to increase appropriate kinship care placements.

(8) \$3,386,000 of the fiscal year 2002 general fund--state appropriation, ~~(((\$7,671,000))~~ \$5,710,000 of the fiscal year 2003 general fund--state appropriation, and ~~(((\$20,819,000))~~ \$19,819,000 of the general fund--federal appropriation are provided solely for increases in the cost per case for foster care and adoption support. \$16,000,000 of the general fund--federal amount shall remain unallotted until the office of financial management approves a plan submitted by the department to achieve a higher rate of federal earnings in the foster care program. That plan shall also be submitted to the fiscal committees of the legislature and shall indicate projected federal revenue compared to actual fiscal year 2001 levels. Within the amounts provided for foster care, the department shall increase the basic rate for foster care to an average of \$420 per month on July 1, 2001 ~~((, and to an average of \$440 per month on July 1, 2002))~~. The department shall use the remaining funds provided in this subsection to pay for increases in the cost per case for foster care

and adoption support. The department shall seek to control rate increases and reimbursement decisions for foster care and adoption support cases such that the cost per case for family foster care, group care, receiving homes, and adoption support does not exceed the amount assumed in the projected caseload expenditures plus the amounts provided in this subsection.

(9) \$1,767,000 of the general fund--state appropriation for fiscal year 2002, ~~(\$2,461,000)~~ \$1,767,000 of the general fund--state appropriation for fiscal year 2003, and ~~(\$1,485,000)~~ \$1,241,000 of the general fund--federal appropriation are provided solely for rate and capacity increases for child placing agencies. Child placing agencies shall increase their capacity by 15 percent in fiscal year 2002 ~~(and 30 percent in fiscal year 2003)~~.

(10) The department shall provide secure crisis residential facilities across the state in a manner that: (a) Retains geographic provision of these services; and (b) retains beds in high use areas.

(11) \$125,000 of the general fund--state appropriation for fiscal year 2002 and \$125,000 of the general fund--state appropriation for fiscal year 2003 are provided solely for a foster parent retention program. This program is directed at foster parents caring for children who act out sexually, as described in House Bill No. 1525 (foster parent retention program).

Sec. 204. 2001 2nd sp.s. c 7 s 204 (uncodified) is amended to read as follows:

FOR THE DEPARTMENT OF SOCIAL AND HEALTH SERVICES--MENTAL HEALTH PROGRAM

(1) COMMUNITY SERVICES/REGIONAL SUPPORT NETWORKS

General Fund--State Appropriation (FY 2002) \$ ((191,089,000))	<u>194,566,000</u>
General Fund--State Appropriation (FY 2003) \$ ((194,884,000))	<u>177,206,000</u>
General Fund--Federal Appropriation \$ ((339,077,000))	<u>358,377,000</u>
General Fund--Local Appropriation \$ ((4,363,000))	<u>25,596,000</u>
Health Services Account--State Appropriation \$ 2,450,000	
TOTAL APPROPRIATION \$ ((731,863,000))	<u>758,195,000</u>

The appropriations in this subsection are subject to the following conditions and limitations:

(a) Regional support networks shall use portions of the general fund--state appropriation for implementation of working agreements with the vocational rehabilitation program which will maximize the use of federal funding for vocational programs.

(b) From the general fund--state appropriations in this subsection, the secretary of social and health services shall assure that regional support networks reimburse the aging and adult services program for the general fund--state cost of medicaid personal care services that enrolled regional support network consumers use because of their psychiatric disability.

(c) \$388,000 of the general fund--state appropriation for fiscal year 2002, (~~(\$1,927,000))~~ \$2,829,000 of the general fund--state appropriation for fiscal year 2003, and (~~(\$2,349,000))~~ \$3,157,000 of the general fund--federal appropriation are provided solely for development and operation of community residential and support services for persons whose treatment needs constitute substantial barriers to community placement and who no longer require active psychiatric treatment at an inpatient hospital level of care, no longer meet the criteria for inpatient involuntary commitment, and who are clinically ready for discharge from a state psychiatric hospital. In the event that enough patients are not transitioned or diverted from the state hospitals to close at least two hospital wards by July 2002, and (~~two~~) four additional wards by April 2003, a proportional share of these funds shall be transferred to the appropriations in subsection (2) of this section to support continued care of the patients in the state hospitals. Primary responsibility and accountability for provision of appropriate community support for persons placed with these funds shall reside with the mental health program and the regional support networks, with partnership and active support from the alcohol and substance abuse and from the aging and adult services programs. The department shall negotiate performance-based incentive contracts (~~((with those regional support networks which have the most viable plans for providing appropriate community support services for significant numbers of persons from their area who would otherwise be served in the state hospitals))~~) to provide appropriate community support services for individuals leaving the state hospitals under this subsection. The department shall first seek to contract with regional support networks before offering a contract to any other party. The funds appropriated in this subsection shall not be considered "available resources" as defined in RCW 71.24.025 and are not subject to the standard allocation formula applied in accordance with RCW 71.24.035(13)(a).

(d) At least \$1,000,000 of the federal block grant funding appropriated in this subsection shall be used for (i) initial development, training, and operation of the community support teams

which will work with long-term state hospital residents prior and subsequent to their return to the community; and (ii) development of support strategies which will reduce the unnecessary and excessive use of state and local hospitals for short-term crisis stabilization services. Such strategies may include training and technical assistance to community long-term care and substance abuse providers; the development of diversion beds and stabilization support teams; examination of state hospital policies regarding admissions; and the development of new contractual standards to assure that the statutory requirement that 85 percent of short-term detentions be managed locally is being fulfilled. The department shall report to the fiscal and policy committees of the legislature on the results of these efforts by November 1, 2001, and again by November 1, 2002.

(e) The department is authorized to implement a new formula for allocating available resources among the regional support networks. The distribution formula shall use the number of persons eligible for the state medical programs funded under chapter 74.09 RCW as the measure of the requirement for the number of acutely mentally ill, chronically mentally ill, severely emotionally disturbed children, and seriously disturbed in accordance with RCW 71.24.035(13)(a). The new formula shall be phased in over a period of no less than six years. Furthermore, the department shall increase the medicaid capitation rates which a regional support network would otherwise receive under the formula by an amount sufficient to assure that total funding allocated to the regional support network in fiscal year 2002 increases by up to ~~((2-1))~~ 3.5 percent over the amount actually paid to that regional support network in fiscal year 2001, and by up to an additional ~~((2-3))~~ 5.0 percent in fiscal year 2003, if total funding to the regional support network would otherwise increase by less than those percentages under the new formula, and provided that the nonfederal share of the higher medicaid payment rate is provided by the regional support network from local funds.

(f) Within funds appropriated in this subsection, the department shall contract with the Clark county regional support network for development and operation of a project demonstrating collaborative methods for providing intensive mental health services in the school setting for severely emotionally disturbed children who are medicaid eligible. Project services are to be delivered by teachers and teaching assistants who qualify as, or who are under the supervision of, mental health professionals meeting the requirements of chapter 275-57 WAC. The department shall increase medicaid payments to the regional support network by the amount necessary to cover the necessary and allowable costs of the demonstration, not to exceed the upper payment limit specified for the regional support network in the department's medicaid waiver agreement with the federal government after meeting all other medicaid spending requirements assumed in this subsection. The regional support network shall provide the department with (i) periodic reports on project service levels, methods, and outcomes; and (ii) an intergovernmental transfer equal to the state share of the increased medicaid payment provided for operation of this project.

(g) The health services account appropriation is provided solely for implementation of strategies which the department and the affected regional support networks conclude will best assure continued availability of community-based inpatient psychiatric services in all areas of the state. Such strategies may include, but are not limited to, emergency contracts for continued operation of inpatient facilities otherwise at risk of closure because of demonstrated uncompensated care; start-up grants for development of evaluation and treatment facilities; and increases in the rate paid for inpatient psychiatric services for medically indigent and/or general assistance for the unemployed patients. The funds provided in this subsection must be: (i) Prioritized for use in those areas of the state which are at greatest risk of lacking sufficient inpatient psychiatric treatment capacity, rather than being distributed on a formula basis; (ii) prioritized for use by those hospitals which do not receive low-income disproportionate share hospital payments as of the date of application for funding; and (iii) matched on a one-quarter local, three-quarters state basis by funding from the regional support network or networks in the area in which the funds are expended. Payments from the amount provided in this subsection shall not be made to any provider that has not agreed that, except for prospective rate increases, the payment shall offset, on a dollar-for-dollar basis, any liability that may be established against, or any settlement that may be agreed to by the state, regarding the rate of state reimbursement for inpatient psychiatric care. The funds provided in this subsection shall not be considered "available resources" as defined in RCW 71.24.025 and are not subject to the distribution formula established pursuant to RCW 71.24.035.

(h) The department shall assure that no regional support network uses more than 8.0 percent of the state and federal funds received from appropriations in this subsection for regional support network administration.

(i) The department shall assure that each regional support network increases spending on direct client services in fiscal years 2002 and 2003 by at least the same percentage as the total state, federal, and local funds allocated to the regional support network in those years exceeds the amounts allocated to it in fiscal year 2001.

(j) The department shall reduce state funding otherwise payable to a regional support network in fiscal years 2002 and 2003 by the full amount by which the regional support network's reserves and fund balances as of December 31, 2001, exceed the required risk reserve for that regional support network. The required reserve amount shall be calculated by applying the risk reserve percentage specified in the department's contract with the regional support network to the total state and federal revenues for which the regional support network would otherwise be eligible in accordance with this subsection. As used in this subsection, "reserves" does not include capital project reserves established in accordance with state accounting and reporting standards before January 1, 2002.

(k) The department shall cooperate with the department of community, trade, and economic development to develop a proposal to create a structurally and functionally independent mental health ombudsman program. The proposal shall include recommendations about the statutory and administrative changes needed to establish a structurally and functionally independent ombudsman system. The departments shall report to the appropriate policy and fiscal committees of the legislature by November 1, 2002.

Once implemented, the use of performance measures will allow comparison of measurement results to established standards and benchmarks among regional support networks, service providers, and against other states. The department shall provide a report to the appropriate committees of the legislature on the development and implementation of the use of performance measures by October 2002.

(c) \$125,000 of the general fund--state appropriation for fiscal year 2002, \$125,000 of the general fund--state appropriation for fiscal year 2003, and \$250,000 of the general fund--federal appropriation are provided solely for a study of the prevalence of mental illness among the state's regional support networks and the appropriate allocation of state hospital beds among the networks. In conducting ((this)) the prevalence study, the department shall consult with the joint legislative audit and review committee, regional support networks, community mental health providers, and mental health consumer representatives. The department shall submit a final report on ((its)) the findings of the prevalence study to the fiscal, health care, and human services committees of the legislature by November 1, 2003. This report shall be prepared in consultation with representatives of people with mental illness and the regional support networks, and shall be submitted to appropriate committees of the legislature. The department shall maintain the same relative allocation of budgeted, nonforensic state hospital beds among the regional support networks as was in effect during fiscal year 2002 until at least thirty days after adjournment of the first regular legislative session following submission of the report on the appropriate allocation of these beds. This subsection does not prohibit the replacement of current state hospital beds with community alternatives as provided elsewhere in this section.

Sec. 205. 2001 2nd sp.s. c 7 s 205 (uncodified) is amended to read as follows:

**FOR THE DEPARTMENT OF SOCIAL AND HEALTH SERVICES--DEVELOPMENTAL
DISABILITIES PROGRAM**

(1) COMMUNITY SERVICES

General Fund--State Appropriation (FY 2002) \$ ((~~231,693,000~~))

233,705,000

General Fund--State Appropriation (FY 2003) \$ ((~~242,347,000~~))

General Fund--Federal Appropriation \$ (396,151,000)	405,773,000
Health Services Account--State Appropriation \$ (741,000)	903,000
TOTAL APPROPRIATION \$ (870,932,000)	895,796,000

The appropriations in this subsection are subject to the following conditions and limitations:

(a) The legislature finds that comprehensive reform of the developmental disabilities program is required. Recent audits and litigation indicate a need to improve the quality of program data, strengthen program and fiscal management, and clarify the criteria and determination of eligibility for services. Additional resources are also needed to expand access to community services. The appropriations in this section are intended to address the most urgent needs while strengthening program and fiscal accountability. The department shall provide monthly progress reports to the appropriate committees of the legislature on actions taken in three areas: The implementation of expanded services, the development and implementation of a new home and community based medicaid waiver, and improvements in program and fiscal management.

(b) \$10,050,000 of the fiscal year 2003 general fund--state appropriation and \$3,550,000 of the general fund--federal appropriation are provided solely for expanded access to community services. A total of \$7,800,000 is provided for additional residential services for persons on the home and community based waiver. A total of \$3,600,000 is provided for family support and high school transition. A total of \$2,700,000 is provided between this subsection and subsection (3) of this section for staffing and other costs to improve oversight of quality of care, program management, and fiscal management. New funding for family support and high school transition along with a portion of existing funding for these programs shall be provided as supplemental security income (SSI) state supplemental payments. The legislature finds that providing cash assistance to individuals and families needing these supports promotes self-determination and independence. It is the intent of the legislature that the department shall comply with federal requirements to maintain aggregate funding for SSI state supplemental payments while promoting self-determination and independence for persons with developmental disabilities in families with taxable incomes at or below 150 percent of median family income. Individuals receiving family support or high school transition payments shall not become eligible for medical assistance under RCW 74.09.510 due solely to the receipt of SSI state supplemental payments. These amounts and the specified expansion of community services are intended to be the fiscal component of the negotiated settlement in the pending litigation on developmental disabilities services, *ARC v. Quasim*.

(c) The health services account appropriation and (~~753,000~~) \$904,000 of the general fund--federal appropriation are provided solely for health care benefits for home care workers with family incomes below 200 percent of the federal poverty level who are employed through state contracts for twenty hours per week or more. Premium payments for individual provider home care workers shall be made only to the subsidized basic health plan. Home care agencies may obtain coverage either through the basic health plan or through an alternative plan with substantially equivalent benefits.

(~~(b)~~) (d) \$902,000 of the general fund--state appropriation for fiscal year 2002, \$3,372,000 of the general fund--state appropriation for fiscal year 2003, and \$4,056,000 of the general fund--federal appropriation are provided solely for community services for residents of residential habilitation centers (RHCs) who are able to be adequately cared for in community settings and who choose to live in those community settings. The department shall ensure that the average cost per day for all program services other than start-up costs shall not exceed \$280. If the number and timing of residents choosing to move into community settings is not sufficient to achieve the RHC cottage consolidation plan assumed in the appropriations in subsection (2) of this section, the department shall transfer sufficient appropriations from this subsection to subsection (2) of this section to cover the added costs incurred in the RHCs. The department shall report to the appropriate committees of the legislature, within 45 days following each fiscal year quarter, the number of residents moving into community settings and the actual expenditures for all community services to support those residents.

~~((e) \$1,440,000)~~ (e) \$1,153,000 of the general fund--state appropriation for fiscal year 2002, ~~(((\$3,041,000))~~ \$3,054,000 of the general fund--state appropriation for fiscal year 2003, and ~~(((\$4,311,000))~~ \$4,031,000 of the general fund--federal appropriation are provided solely for expanded community services for persons with developmental disabilities who also have community protection issues or are diverted or discharged from state psychiatric hospitals. The department shall ensure that the average cost per day for all program services other than start-up costs shall not exceed \$275. The department shall report to the appropriate committees of the legislature, within 45 days following each fiscal year quarter, the number of persons served with these additional community services, where they were residing, what kinds of services they were receiving prior to placement, and the actual expenditures for all community services to support these clients.

~~((d) \$1,005,000 of the general fund--state appropriation for fiscal year 2002, \$2,262,000 of the general fund--state appropriation for fiscal year 2003, and \$2,588,000 of the general fund--federal appropriation are provided solely for increasing case/resource management resources to improve oversight and quality of care for persons enrolled in the medicaid home and community services waiver for persons with developmental disabilities.-))~~ (f) The department shall not increase total enrollment in home and community based waivers for persons with developmental disabilities except for ~~((increases))~~ changes assumed in additional funding provided in subsections (b) ~~((and (e)))~~, (d), and (e) of this section. Prior to submitting to the health care financing authority any additional home and community based waiver request for persons with developmental disabilities, the department shall submit a summary of the waiver request to the appropriate committees of the legislature. The summary shall include eligibility criteria, program description, enrollment projections and limits, and budget and cost effectiveness projections that distinguish the requested waiver from other existing or proposed waivers.

~~((e))~~ (g) \$1,000,000 of the general fund--state appropriation for fiscal year 2002 and \$1,000,000 of the general fund--state appropriation for fiscal year 2003 are provided solely for employment, or other day activities and training programs, for young adults with developmental disabilities who complete their high school curriculum in 2001 or 2002. These services are intended to assist with the transition to work and more independent living. Funding shall be used to the greatest extent possible for vocational rehabilitation services matched with federal funding. In recent years, the state general fund appropriation for employment and day programs has been underspent. These surpluses, built into the carry forward level budget, shall be redeployed for high school transition services.

~~((f))~~ (h) \$369,000 of the fiscal year 2002 general fund--state appropriation and \$369,000 of the fiscal year 2003 general fund--state appropriation are provided solely for continuation of the autism pilot project started in 1999.

~~((g))~~ (i) \$4,049,000 of the general fund--state appropriation for fiscal year 2002, \$1,734,000 of the general fund--state appropriation for fiscal year 2003, and \$5,369,000 of the general fund--federal appropriation are provided solely to increase compensation by an average of fifty cents per hour for low-wage workers providing state-funded services to persons with developmental disabilities. These funds, along with funding provided for vendor rate increases, are sufficient to raise wages an average of fifty cents and cover the employer share of unemployment and social security taxes on the amount of the wage increase. In consultation with the statewide associations representing such agencies, the department shall establish a mechanism for testing the extent to which funds have been used for this purpose, and report the results to the fiscal committees of the legislature by February 1, 2002.

(j) \$1,310,000 of the general fund--state appropriation for fiscal year 2003 and \$1,207,000 of the general fund--federal appropriation are provided solely for an increase of twenty-five cents per hour on October 1, 2002, for individual and agency home care workers who provide state-funded services to persons with developmental disabilities. The amount provided in this section also includes the funds needed for the employer share of unemployment and social security taxes on the amount of the wage increase required by this subsection. The wage increases for individual providers required by this subsection are subject to the collective bargaining provisions of Initiative Measure No. I-775 (chapter 3, Laws of 2002).

Such strategies may include training and technical assistance to help long-term care providers avoid and manage behaviors which might otherwise result in psychiatric hospitalizations; monitoring long-term care facilities to assure residents are receiving appropriate mental health care and are not being inappropriately medicated or hospitalized; the development of diversion beds and stabilization support teams; and the establishment of systems to track the use of psychiatric hospitals by long-term care providers. The aging and adult services program shall report to the health care and fiscal

Payments to individual home care providers are to be increased from \$7.18 per hour to \$7.68 per hour on July 1, 2001, and to \$7.93 per hour on October 1, 2002. In consultation with the statewide associations representing such agencies, the department shall establish

a mechanism for testing the extent to which funds have been used for this purpose, and report the results to the fiscal committees of the legislature by February 1, 2002. The amounts in this subsection also include the funds needed for the employer share of unemployment and social security taxes on the amount of the wage increase.

For purposes of documenting a district's staff ratio under this section, funds used by the district to employ additional classified instructional assistants shall be converted to a certificated staff equivalent and added to the district's actual certificated instructional staff ratio. Additional classified instructional assistants, for the purposes of this subsection, shall be determined using the 1989-90 school year as the base year;

(C) Any district maintaining a ratio in grades K-4 equal to or greater than 55.4 certificated instructional staff per thousand full-time equivalent students in (~~grades K-4~~) the 2001-02 school year, and a ratio equal to or greater than 54.0 certificated instructional staff per thousand full-time equivalent students in the 2002-03 school year, may use allocations generated under this subsection (2)(a)(iv) and (v) in excess of that required to maintain the minimum ratio established under RCW 28A.150.260(2)(b) to employ additional basic education certificated instructional staff or classified instructional assistants in grades 5-6. Funds allocated under this subsection (2)(a)(iv) and (v) shall only be expended to reduce class size in grades K-6. No more than 1.3 of the certificated instructional funding ratio amount may be expended for provision of classified instructional assistants;

(b) For school districts with a minimum enrollment of 250 full-time equivalent students whose full-time equivalent student enrollment count in a given month exceeds the first of the month full-time equivalent enrollment count by 5 percent, an additional state allocation of 110 percent of the share that such increased enrollment would have generated had such additional full-time equivalent students been included in the normal enrollment count for that particular month;

(c)(i) On the basis of full-time equivalent enrollment in:

(A) Vocational education programs approved by the superintendent of public instruction, a maximum of 0.92 certificated instructional staff units and 0.08 certificated administrative staff units for each 19.5 full-time equivalent vocational students; and

(B) Skills center programs meeting the standards for skills center funding established in January 1999 by the superintendent of public instruction, 0.92 certificated instructional staff units and 0.08 certificated administrative units for each 16.67 full-time equivalent vocational students; (~~and~~)

(ii) Vocational full-time equivalent enrollment shall be reported on the same monthly basis as the enrollment for students eligible for basic support, and payments shall be adjusted for reported vocational enrollments on the same monthly basis as those adjustments for enrollment for students eligible for basic support; and

(iii) For the 2002-03 school year, indirect cost charges by a school district to vocational-secondary programs shall not exceed 15 percent of the combined basic education and vocational enhancement allocations of state funds;

(d) For districts enrolling not more than twenty-five average annual full-time equivalent students in grades K-8, and for small school plants within any school district which have been judged to be remote and necessary by the state board of education and enroll not more than twenty-five average annual full-time equivalent students in grades K-8:

(i) For those enrolling no students in grades 7 and 8, 1.76 certificated instructional staff units and 0.24 certificated administrative staff units for enrollment of not more than five students, plus one-twentieth of a certificated instructional staff unit for each additional student enrolled; and

(ii) For those enrolling students in grades 7 or 8, 1.68 certificated instructional staff units and 0.32 certificated administrative staff units for enrollment of not more than five students, plus one-tenth of a certificated instructional staff unit for each additional student enrolled;

(e) For specified enrollments in districts enrolling more than twenty-five but not more than one hundred average annual full-time equivalent students in grades K-8, and for small school plants within any school district which enroll more than twenty-five average annual full-time equivalent students in grades K-8 and have been judged to be remote and necessary by the state board of education:

(i) For enrollment of up to sixty annual average full-time equivalent students in grades K-6, 2.76 certificated instructional staff units and 0.24 certificated administrative staff units; and

(ii) For enrollment of up to twenty annual average full-time equivalent students in grades 7 and 8, 0.92 certificated instructional staff units and 0.08 certificated administrative staff units;

(f) For districts operating no more than two high schools with enrollments of less than three hundred average annual full-time equivalent students, for enrollment in grades 9-12 in each such school, other than alternative schools:

(i) For remote and necessary schools enrolling students in any grades 9-12 but no more than twenty-five average annual full-time equivalent students in grades K-12, four and one-half certificated instructional staff units and one-quarter of a certificated administrative staff unit;

(ii) For all other small high schools under this subsection, nine certificated instructional staff units and one-half of a certificated administrative staff unit for the first sixty average annual full time equivalent students, and additional staff units based on a ratio of 0.8732 certificated instructional staff units and 0.1268 certificated administrative staff units per each additional forty-three and one-half average annual full time equivalent students.

Units calculated under (f)(ii) of this subsection shall be reduced by certificated staff units at the rate of forty-six certificated instructional staff units and four certificated administrative staff units per thousand vocational full-time equivalent students((-));

(g) For each nonhigh school district having an enrollment of more than seventy annual average full-time equivalent students and less than one hundred eighty students, operating a grades K-8 program or a grades 1-8 program, an additional one-half of a certificated instructional staff unit; and

(h) For each nonhigh school district having an enrollment of more than fifty annual average full-time equivalent students and less than one hundred eighty students, operating a grades K-6 program or a grades 1-6 program, an additional one-half of a certificated instructional staff unit.

(3) Allocations for classified salaries for the 2001-02 and 2002-03 school years shall be calculated using formula-generated classified staff units determined as follows:

(a) For enrollments generating certificated staff unit allocations under subsection (2)(d) through (h) of this section, one classified staff unit for each three certificated staff units allocated under such subsections;

(b) For all other enrollment in grades K-12, including vocational full-time equivalent enrollments, one classified staff unit for each sixty average annual full-time equivalent students; and

(c) For each nonhigh school district with an enrollment of more than fifty annual average full-time equivalent students and less than one hundred eighty students, an additional one-half of a classified staff unit.

(4) Fringe benefit allocations shall be calculated at a rate of (~~(41.27)~~) 10.76 percent in the 2001-02 school year and (~~(41.27)~~) 9.57 percent in the 2002-03 school year for certificated salary allocations provided under subsection (2) of this section, and a rate of (~~(12.92)~~) 12.73 percent in the 2001-02 school year and (~~(12.92)~~) 12.36 percent in the 2002-03 school year for classified salary allocations provided under subsection (3) of this section.

(5) Insurance benefit allocations shall be calculated at the maintenance rate specified in section 504(3) of this act, based on the number of benefit units determined as follows:

(a) The number of certificated staff units determined in subsection (2) of this section; and

(b) The number of classified staff units determined in subsection (3) of this section multiplied by 1.152. This factor is intended to adjust allocations so that, for the purposes of distributing insurance benefits, full-time equivalent classified employees may be calculated on the basis of 1440 hours of work per year, with no individual employee counted as more than one full-time equivalent.

(6)(a) For nonemployee-related costs associated with each certificated staff unit allocated under subsection (2)(a), (b), and (d) through (h) of this section, there shall be provided a maximum of \$8,519 per certificated staff unit in the 2001-02 school year and a maximum of ~~((\$8,715))~~ \$8,604 per certificated staff unit in the 2002-03 school year.

(b) For nonemployee-related costs associated with each vocational certificated staff unit allocated under subsection (2)(c)(i)(A) of this section, there shall be provided a maximum of \$20,920 per certificated staff unit in the 2001-02 school year and a maximum of ~~((\$21,401))~~ \$21,129 per certificated staff unit in the 2002-03 school year.

(c) For nonemployee-related costs associated with each vocational certificated staff unit allocated under subsection (2)(c)(i)(B) of this section, there shall be provided a maximum of \$16,233 per certificated staff unit in the 2001-02 school year and a maximum of ~~((\$16,606))~~ \$16,395 per certificated staff unit in the 2002-03 school year.

(7) Allocations for substitute costs for classroom teachers shall be distributed at a maintenance rate of \$494.34 for the 2001-02 and 2002-03 school years per allocated classroom teachers exclusive of salary increase amounts provided in section 504 of this act. Solely for the purposes of this subsection, allocated classroom teachers shall be equal to the number of certificated instructional staff units allocated under subsection (2) of this section, multiplied by the ratio between the number of actual basic education certificated teachers and the number of actual basic education certificated instructional staff reported statewide for the prior school year.

(8) Any school district board of directors may petition the superintendent of public instruction by submission of a resolution adopted in a public meeting to reduce or delay any portion of its basic education allocation for any school year. The superintendent of public instruction shall approve such reduction or delay if it does not impair the district's financial condition. Any delay shall not be for more than two school years. Any reduction or delay shall have no impact on levy authority pursuant to RCW 84.52.0531 and local effort assistance pursuant to chapter 28A.500 RCW.

(9) The superintendent may distribute a maximum of ~~((\$6,510,000))~~ \$6,424,000 outside the basic education formula during fiscal years 2002 and 2003 as follows:

(a) For fire protection for school districts located in a fire protection district as now or hereafter established pursuant to chapter 52.04 RCW, a maximum of \$480,000 may be expended in fiscal year 2002 and a maximum of ~~((\$491,000))~~ \$485,000 may be expended in fiscal year 2003;

(b) For summer vocational programs at skills centers, a maximum of \$2,098,000 may be expended ~~((each))~~ for the 2001-02 fiscal year and a maximum of \$2,035,000 for the 2003 fiscal year;

(c) A maximum of ~~((\$343,000))~~ \$341,000 may be expended for school district emergencies; and

(d) A maximum of \$500,000 ~~((per))~~ for fiscal year 2002 and \$485,000 for fiscal year 2003 may be expended for programs providing skills training for secondary students who are enrolled in extended day school-to-work programs, as approved by the superintendent of public instruction. The funds shall be allocated at a rate not to exceed \$500 per full-time equivalent student enrolled in those programs.

(10) For purposes of RCW 84.52.0531, the increase per full-time equivalent student in state basic education appropriations provided under this act, including appropriations for salary and benefits increases, is 2.5 percent from the 2000-01 school year to the 2001-02 school year ~~((, and 3.3 percent from the 2000-01 school year to the 2002-03 school year))~~.

(11) For purposes of RCW 84.52.0531, the increase in appropriations per full-time equivalent student provided in this act, including appropriations for salary and benefits increases, is 2.9 percent from the 2001-02 school year to the 2002-03 school year.

(12) If two or more school districts consolidate and each district was receiving additional basic education formula staff units pursuant to subsection (2)(b) through (h) of this section, the following shall apply:

(a) For three school years following consolidation, the number of basic education formula staff units shall not be less than the number of basic education formula staff units received by the districts in the school year prior to the consolidation; and

(b) For the fourth through eighth school years following consolidation, the difference between the basic education formula staff units received by the districts for the school year prior to consolidation and the basic education formula staff units after consolidation pursuant to subsection (2)(a) through (h) of this section shall be reduced in increments of twenty percent per year.

Sec. 503. 2001 2nd sp.s. c 7 s 503 (uncodified) is amended to read as follows:

**FOR THE SUPERINTENDENT OF PUBLIC INSTRUCTION--BASIC EDUCATION
EMPLOYEE COMPENSATION.**

(1) The following calculations determine the salaries used in the general fund allocations for certificated instructional, certificated administrative, and classified staff units under section 502 of this act:

(a) For school year 2001-02, salary allocations for certificated instructional staff units shall be determined for each district by multiplying the district's certificated instructional total base salary shown on LEAP Document 12E for the appropriate year, by the district's average staff mix factor for basic education and special education certificated instructional staff in that school year, computed using LEAP Document 1S; (~~and~~)

(b) For school year 2002-03, salary allocations for certificated instructional staff units shall be determined for each district by multiplying the district's certificated instructional total base salary shown on LEAP Document 12E for the appropriate year, by the district's average staff mix factor for certificated instructional staff in that school year, computed using LEAP Document 1S; and

(c) Salary allocations for certificated administrative staff units and classified staff units for each district shall be based on the district's certificated administrative and classified salary allocation amounts shown on LEAP Document 12E for the appropriate year.

(2) For the purposes of this section:

(a) "Basic education certificated instructional staff" is defined as provided in RCW 28A.150.100 and "special education certificated staff" means staff assigned to the state-supported special education program pursuant to chapter 28A.155 RCW in positions requiring a certificate;

(b) "LEAP Document 1S" means the computerized tabulation establishing staff mix factors for certificated instructional staff according to education and years of experience, as developed by the legislative evaluation and accountability program committee on March 25, 1999, at 16:55 hours; and

(c) "LEAP Document 12E" means the computerized tabulation of 2001-02 and 2002-03 school year salary allocations for certificated administrative staff and classified staff and derived and total base salaries for certificated instructional staff as developed by the legislative evaluation and accountability program committee on (~~March 13, 2001, at 16:32 hours~~) March 11, 2002, at 22:32 hours.

(3) Incremental fringe benefit factors shall be applied to salary adjustments at a rate of (~~(10.63)~~) 10.12 percent for school year(~~s~~) 2001-02 and 8.93 percent for school year 2002-03 for certificated staff and (~~(9.42)~~) for classified staff 9.23 percent for school year(~~s~~) 2001-02 and 8.86 percent for the 2002-03 (~~for classified staff~~) school year.

(4)(a) Pursuant to RCW 28A.150.410, the following state-wide salary allocation schedules for certificated instructional staff are established for basic education salary allocations:

(b) As used in this subsection, the column headings "BA+ (N)" refer to the number of credits earned since receiving the baccalaureate degree.

(c) For credits earned after the baccalaureate degree but before the masters degree, any credits in excess of forty-five credits may be counted after the masters degree. Thus, as used in this subsection, the column headings "MA+ (N)" refer to the total of:

(i) Credits earned since receiving the masters degree; and

(ii) Any credits in excess of forty-five credits that were earned after the baccalaureate degree but before the masters degree.

(5) For the purposes of this section:

(a) "BA" means a baccalaureate degree.

(b) "MA" means a masters degree.

(c) "PHD" means a doctorate degree.

(d) "Years of service" shall be calculated under the same rules adopted by the superintendent of public instruction.

(e) "Credits" means college quarter hour credits and equivalent in-service credits computed in accordance with RCW 28A.415.020 and 28A.415.023.

(6) No more than ninety college quarter-hour credits received by any employee after the baccalaureate degree may be used to determine compensation allocations under the state salary allocation schedule and LEAP documents referenced in this act, or any replacement schedules and documents, unless:

(a) The employee has a masters degree; or

(b) The credits were used in generating state salary allocations before January 1, 1992.

(7) The certificated instructional staff base salary specified for each district in LEAP

Document 12E and the salary schedules in subsection (4)(a) of this section include three learning improvement days (~~(originally added in the 1999-00 school year)~~ for the 2001-02 school year and two days for the 2002-03 school year. A school district is eligible for the learning improvement day funds for school years 2001-02 and 2002-03, only if ~~((three))~~ the learning improvement days have been added to the 180-day contract year. If fewer ~~((than three))~~ days are added, the additional learning improvement allocation shall be adjusted accordingly. The additional days shall be for activities related to improving student learning consistent with education reform implementation, and shall not be considered part of basic education. The length of a learning improvement day shall not be less than the length of a full day under the base contract. The superintendent of public instruction shall ensure that school districts adhere to the intent and purposes of this subsection.

(8) The salary allocation schedules established in this section are for allocation purposes only except as provided in RCW 28A.400.200(2).

(1) Each general fund fiscal year appropriation includes such funds as are necessary to complete the school year ending in the fiscal year and for prior fiscal year adjustments.

(2) A maximum of \$767,000 of this fiscal year 2002 appropriation and a maximum of (~~(\$785,000)~~) \$752,000 of the fiscal year 2003 appropriation may be expended for regional transportation coordinators and related activities. The transportation coordinators shall ensure that data submitted by school districts for state transportation funding shall, to the greatest extent practical, reflect the actual transportation activity of each district.

(3) (~~(\$15,000)~~) \$5,000 of the fiscal year 2002 appropriation and (~~(\$20,000)~~) \$5,000 of the fiscal year 2003 appropriation are provided solely for the transportation of students enrolled in "choice" programs. Allocations for transportation of students living within one radius mile shall be based on the number of enrolled students in grades kindergarten through five living within one radius mile of their assigned school multiplied by the per mile reimbursement rate for the school year multiplied by 1.29.

Sec. 506. 2001 2nd sp.s. c 7 s 507 (uncodified) is amended to read as follows:

FOR THE SUPERINTENDENT OF PUBLIC INSTRUCTION--FOR SPECIAL EDUCATION PROGRAMS

General Fund--State Appropriation (FY 2002) \$ ((419,264,000))	<u>420,165,000</u>
General Fund--State Appropriation (FY 2003) \$ ((420,644,000))	<u>408,761,000</u>

TOTAL APPROPRIATION \$ ((1,096,000,000))	<u>1,085,333,000</u>

The appropriations in this section are subject to the following conditions and limitations:

(1) Funding for special education programs is provided on an excess cost basis, pursuant to RCW 28A.150.390. School districts shall ensure that special education students as a class receive their full share of the general apportionment allocation accruing through sections 502 and 504 of this act. To the extent a school district cannot provide an appropriate education for special education students under chapter 28A.155 RCW through the general apportionment allocation, it shall provide services through the special education excess cost allocation funded in this section.

(2)(a) Effective with the 2001-02 school year, the superintendent of public instruction shall change the S-275 personnel reporting system and all related accounting requirements to ensure that:

(i) Special education students are basic education students first;

(ii) As a class, special education students are entitled to the full basic education allocation;

and

(iii) Special education students are basic education students for the entire school day.

(b) Effective with the 2001-02 school year, the S-275 and accounting changes shall supercede any prior excess cost methodologies and shall be required of all school districts.

(3) Each ((~~general fund--state~~)) fiscal year appropriation includes such funds as are necessary to complete the school year ending in the fiscal year and for prior fiscal year adjustments.

(4) The superintendent of public instruction shall distribute state funds to school districts based on two categories: The optional birth through age two program for special education eligible developmentally delayed infants and toddlers, and the mandatory special education program for special education eligible students ages three to twenty-one. A "special education eligible student" means a student receiving specially designed instruction in accordance with a properly formulated individualized education program.

(5)(a) For the 2001-02 and 2002-03 school years, the superintendent shall ((~~distribute state funds~~)) make allocations to each district based on the sum of:

(i) A district's annual average headcount enrollment of developmentally delayed infants and toddlers ages birth through two, multiplied by the district's average basic education allocation per full-time equivalent student, multiplied by 1.15; and

(ii) A district's annual average full-time equivalent basic education enrollment multiplied by the funded enrollment percent determined pursuant to subsection (6)(b) of this section, multiplied by the district's average basic education allocation per full-time equivalent student multiplied by 0.9309.

(b) For purposes of this subsection, "average basic education allocation per full-time equivalent student" for a district shall be based on the staffing ratios required by RCW 28A.150.260 and shall not include enhancements, secondary vocational education, or small schools.

(6) The definitions in this subsection apply throughout this section.

(a) "Annual average full-time equivalent basic education enrollment" means the resident enrollment including students enrolled through choice (RCW 28A.225.225) and students from nonhigh districts (RCW 28A.225.210) and excluding students residing in another district enrolled as part of an interdistrict cooperative program (RCW 28A.225.250).

(b) "Enrollment percent" means the district's resident special education annual average enrollment, excluding the birth through age two enrollment, as a percent of the district's annual average full-time equivalent basic education enrollment.

(i) For the 2001-02 (~~and the 2002-03~~) school year(s), each district's funded enrollment percent shall be the lesser of the district's actual enrollment percent (~~for the school year for which the allocation is being determined~~) or 12.7 percent (~~for the 2001-02 school year or 13.0 percent for the 2002-03 school year~~).

(ii) For the 2002-03 school year, each district's general fund--state funded special education enrollment shall be the lesser of the district's actual enrollment percent or 12.7 percent. Increases in enrollment percent from 12.7 percent to 13.0 percent shall be funded from the general fund--federal appropriation.

(7) At the request of any interdistrict cooperative of at least 15 districts in which all excess cost services for special education students of the districts are provided by the cooperative, the maximum enrollment percent shall be (~~12.7 percent for the 2001-02 school year and 13.0 percent for the 2002-03 school year~~) calculated in accordance with subsection (6)(b) of this section, and shall be calculated in the aggregate rather than individual district units. For purposes of this subsection, the average basic education allocation per full-time equivalent student shall be calculated in the aggregate rather than individual district units.

(8) Safety net funding shall be awarded by the state safety net oversight committee subject to the following conditions and limitations:

(a) A maximum of (~~(\$12,000,000)~~) \$8,500,000 of the general fund--state appropriation and a maximum of \$3,500,000 of the general fund--federal appropriation for fiscal year 2002 (~~and a maximum of \$10,623,000 of the general fund--state appropriation for fiscal year 2003~~) are provided as safety net funding for districts with demonstrated needs for state special education funding beyond the amounts provided in subsection (5) of this section. (~~Safety net funding shall be awarded by the state safety net oversight committee.~~

~~(a))~~ (b) The safety net oversight committee shall first consider the needs of districts adversely affected by the 1995 change in the special education funding formula. Awards shall be based on the lesser of the amount required to maintain the 1994-95 state special education excess cost allocation to the school district in aggregate or on a dollar per funded student basis.

~~((b))~~ (c) The committee shall then consider unmet needs for districts that can convincingly demonstrate that all legitimate expenditures for special education exceed all available revenues from state funding formulas. In the determination of need, the committee shall also consider additional available revenues from federal and local sources. Differences in program costs attributable to district philosophy, service delivery choice, or accounting practices are not a legitimate basis for safety net awards.

~~((c))~~ (d) The maximum allowable indirect cost for calculating safety net eligibility may not exceed the federal restricted indirect cost rate for the district plus one percent.

~~((d))~~ (e) Safety net awards shall be adjusted based on the percent of potential medicaid eligible students billed as calculated by the superintendent in accordance with chapter 318, Laws of 1999.

~~((e))~~ (f) Safety net awards must be adjusted for any audit findings or exceptions related to special education funding.

~~((f))~~ (g) The superintendent may expend up to \$120,000 (~~per year~~) of the amounts provided in this subsection (8) to provide staff assistance to the committee in analyzing applications for safety net funds received by the committee.

(9) For fiscal year 2003 to the extent necessary, \$12,873,000 of the general fund--federal appropriation is provided for safety net awards for districts with demonstrated needs for state special education funding beyond the amounts provided in subsection (5) of this section. If safety net awards exceed the amount appropriated in this subsection (9), the superintendent shall expend all available federal discretionary funds necessary to meet this need. Safety net funds shall be awarded by the state safety net oversight committee subject to the following conditions and limitations:

(a) The committee shall consider unmet needs for districts that can convincingly demonstrate that all legitimate expenditures for special education exceed all available revenues from state funding formulas. In the determination of need, the committee shall also consider additional available revenues from federal and local sources. Differences in program costs attributable to district

philosophy, service delivery choice, or accounting practices are not a legitimate basis for safety net awards.

(b) The committee shall then consider the extraordinary high cost needs of one or more individual special education students. Differences in costs attributable to district philosophy, service delivery choice, or accounting practices are not a legitimate basis for safety net awards.

(c) The maximum allowable indirect cost for calculating safety net eligibility may not exceed the federal restricted indirect cost rate for the district plus one percent.

(d) Safety net awards shall be adjusted based on the percent of potential medicaid eligible students billed as calculated by the superintendent in accordance with chapter 318, Laws of 1999.

(e) Safety net awards must be adjusted for any audit findings or exceptions related to special education funding.

(f) The superintendent may expend up to \$120,000 of the amount provided from the general fund--federal appropriation in this subsection (9) to provide staff assistance to the committee in analyzing applications for safety net funds received by the committee.

~~((9))~~ (10) The superintendent of public instruction may adopt such rules and procedures as are necessary to administer the special education funding and safety net award process. Prior to revising any standards, procedures, or rules, the superintendent shall consult with the office of financial management and the fiscal committees of the legislature.

~~((10))~~ (11) The safety net oversight committee appointed by the superintendent of public instruction shall consist of:

(a) One staff from the office of superintendent of public instruction;

(b) Staff of the office of the state auditor;

(c) Staff of the office of the financial management; and

(d) One or more representatives from school districts or educational service districts knowledgeable of special education programs and funding.

~~((11))~~ (12) To the extent necessary, ~~(\$5,500,000)~~ in fiscal year 2002, \$2,250,000 of the general fund--federal appropriation shall be expended for safety net funding to meet the extraordinary needs of one or more individual special education students. If safety net awards to meet the extraordinary needs exceed ~~(\$5,500,000)~~ \$2,250,000 of the general fund--federal appropriation, the superintendent shall expend all available federal discretionary funds necessary to meet this need. General fund--state funds shall not be expended for this purpose.

~~((12))~~ (13) A maximum of \$678,000 may be expended from the general fund--state appropriations to fund 5.43 full-time equivalent teachers and 2.1 full-time equivalent aides at children's orthopedic hospital and medical center. This amount is in lieu of money provided through the home and hospital allocation and the special education program.

~~((13))~~ (14) \$1,000,000 of the general fund--federal appropriation is provided for projects to provide special education students with appropriate job and independent living skills, including work experience where possible, to facilitate their successful transition out of the public school system. The funds provided by this subsection shall be from federal discretionary grants.

~~((14))~~ (15) The superintendent shall maintain the percentage of federal flow-through to school districts at 85 percent for the 2001-02 school year. For the 2002-03 school year, the superintendent shall allocate the federal funds as specified in this section and shall adjust federal flow-through funds accordingly. In addition to other purposes, school districts may use increased federal funds for high-cost students, for purchasing regional special education services from educational service districts, and for staff development activities particularly relating to inclusion issues.

~~((15))~~ (16) A maximum of \$1,200,000 of the general fund--federal appropriation may be expended by the superintendent for projects related to use of inclusion strategies by school districts for provision of special education services. The superintendent shall prepare an information database on laws, best practices, examples of programs, and recommended resources. The information may be disseminated in a variety of ways, including workshops and other staff development activities.

~~((16))~~ (17) A school district may carry over from one year to the next year up to 10 percent of general fund--state funds allocated under this program; however, carry over funds shall be expended in the special education program.

(18) The superintendent of public instruction shall implement the recommendations of the joint legislative audit and review committee study on special education (report 01-11) only to the extent that funds have been specifically provided therefor.

For these purposes, inequities are defined as similar work assigned to different job classes with a salary disparity greater than 7.5 percent.

The board shall consult with the human rights commission in the development of rules pertaining to affirmative action. The department of personnel shall transmit a report annually to the human rights commission which states the progress each state agency has made in meeting affirmative action goals and timetables.

(2) The commissioner may waive an overpayment if the commissioner finds that the overpayment was not the result of fraud, misrepresentation, willful nondisclosure, or fault attributable to the individual and that the recovery thereof would be against equity and good conscience: PROVIDED, HOWEVER, That the overpayment so waived shall be charged against the individual's applicable entitlement for the eligibility period containing the weeks to which the overpayment was attributed as though such benefits had been properly paid.

(3) Any assessment herein provided shall constitute a determination of liability from which an appeal may be had in the same manner and to the same extent as provided for appeals relating to determinations in respect to claims for benefits: PROVIDED, That an appeal from any determination covering overpayment only shall be deemed to be an appeal from the determination which was the basis for establishing the overpayment unless the merits involved in the issue set forth in such determination have already been heard and passed upon by the appeal tribunal. If no such appeal is taken to the appeal tribunal by the individual within thirty days of the delivery of the notice of determination of liability, or within thirty days of the mailing of the notice of determination, whichever is the earlier, the determination of liability shall be deemed conclusive and final. Whenever any such notice of determination of liability becomes conclusive and final, the commissioner, upon giving at least twenty days notice by certified mail return receipt requested to the individual's last known address of the intended action, may file with the superior court clerk of any county within the state a warrant in the amount of the notice of determination of liability plus a filing fee under RCW 36.18.012(10). The clerk of the county where the warrant is filed shall immediately designate a superior court cause number for the warrant, and the clerk shall cause to be entered in the judgment docket under the superior court cause number assigned to the warrant, the name of the person(s) mentioned in the warrant, the amount of the notice of determination of liability, and the date when the warrant was filed. The amount of the warrant as docketed shall become a lien upon the title to, and any interest in, all real and personal property of the person(s) against whom the warrant is issued, the same as a judgment in a civil case duly docketed in the office of such clerk. A warrant so docketed shall be sufficient to support the issuance of writs of execution and writs of garnishment in favor of the state in the manner provided by law for a civil judgment. A copy of the warrant shall be mailed to the person(s) mentioned in the warrant by certified mail to the person's last known address within five days of its filing with the clerk.

(4) On request of any agency which administers an employment security law of another state, the United States, or a foreign government and which has found in accordance with the provisions of such law that a claimant is liable to repay benefits received under such law, the commissioner may collect the amount of such benefits from the claimant to be refunded to the agency. In any case in which under this section a claimant is liable to repay any amount to the agency of another state, the United States, or a foreign government, such amounts may be collected without interest by civil action in the name of the commissioner acting as agent for such agency if the other state, the United States, or the foreign government extends such collection rights to the employment security department of the state of Washington, and provided that the court costs be paid by the governmental agency benefiting from such collection.

(5) Any employer who is a party to a back pay award or settlement due to loss of wages shall, within thirty days of the award or settlement, report to the department the amount of the award or settlement, the name and social security number of the recipient of the award or settlement, and the period for which it is awarded. When an individual has been awarded or receives back pay, for benefit purposes the amount of the back pay shall constitute wages paid in the period for which it was awarded. For contribution purposes, the back pay award or settlement shall constitute wages paid in the period in which it was actually paid. The following requirements shall also apply:

(a) The employer shall reduce the amount of the back pay award or settlement by an amount determined by the department based upon the amount of unemployment benefits received by the recipient of the award or settlement during the period for which the back pay award or settlement was awarded;

(b) The employer shall pay to the unemployment compensation fund, in a manner specified by the commissioner, an amount equal to the amount of such reduction;

(c) The employer shall also pay to the department any taxes due for unemployment insurance purposes on the entire amount of the back pay award or settlement notwithstanding any reduction made pursuant to (a) of this subsection;

(d) If the employer fails to reduce the amount of the back pay award or settlement as required in (a) of this subsection, the department shall issue an overpayment assessment against the recipient of the award or settlement in the amount that the back pay award or settlement should have been reduced; and

(e) If the employer fails to pay to the department an amount equal to the reduction as required in (b) of this subsection, the department shall issue an assessment of liability against the employer which shall be collected pursuant to the procedures for collection of assessments provided herein and in RCW 50.24.110.

(6) When an individual fails to repay an overpayment assessment that is due and fails to arrange for satisfactory repayment terms, the commissioner shall impose an interest penalty of one percent per month of the outstanding balance. Interest shall accrue immediately on overpayments assessed pursuant to RCW 50.20.070 and shall be imposed when the assessment becomes final. For any other overpayment, interest shall accrue when the individual has missed two or more of their monthly payments either partially or in full. The interest penalty shall be used to fund detection and recovery of overpayment and collection activities and, during the 2001-2003 fiscal biennium, the cost of worker retraining programs at community and technical colleges as appropriated by the legislature.

SENATE AMENDMENTS TO HOUSE BILL

March 13, 2002

Mr. Speaker:

The Senate has passed SECOND SUBSTITUTE HOUSE BILL NO. 2338, with the following amendment(s):

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. It is the intent of the legislature to increase the use of effective substance abuse treatment for defendants and offenders in Washington in order to make frugal use of state and local resources, thus reducing recidivism and increasing the likelihood that defendants and offenders will become productive and law-abiding persons. The legislature recognizes that substance abuse treatment can be effective if it is well planned and involves adequate monitoring, and that substance abuse and addiction is a public safety and public health issue that must be more effectively addressed if recidivism is to be reduced. The legislature intends that sentences for drug offenses accurately reflect the adverse impact of substance abuse and addiction on public safety, that the public must have protection from violent offenders, and further intends that such sentences be based on policies that are supported by research and public policy goals established by the legislature.

Sec. 2. RCW 9.94A.515 and 2001 2nd sp.s. c 12 s 361, 2001 c 300 s 4, 2001 c 217 s 12, and 2001 c 17 s 1 are each reenacted and amended to read as follows:

Sec. 3. RCW 9.94A.525 and 2001 c 264 s 5 are each amended to read as follows:

The offender score is measured on the horizontal axis of the sentencing grid. The offender score rules are as follows:

The offender score is the sum of points accrued under this section rounded down to the nearest whole number.

(1) A prior conviction is a conviction which exists before the date of sentencing for the offense for which the offender score is being computed. Convictions entered or sentenced on the same date as the conviction for which the offender score is being computed shall be deemed "other current offenses" within the meaning of RCW 9.94A.589.

(2) Class A and sex prior felony convictions shall always be included in the offender score. Class B prior felony convictions other than sex offenses shall not be included in the offender score, if since the last date of release from confinement (including full-time residential treatment) pursuant to a felony conviction, if any, or entry of judgment and sentence, the offender had spent ten consecutive years in the community without committing any crime that subsequently results in a conviction. Class C prior felony convictions other than sex offenses shall not be included in the offender score if, since the last date of release from confinement (including full-time residential treatment) pursuant to a felony conviction, if any, or entry of judgment and sentence, the offender had spent five consecutive years in the community without committing any crime that subsequently results in a conviction. Serious traffic convictions shall not be included in the offender score if, since the last date of release from confinement (including full-time residential treatment) pursuant to a felony conviction, if any, or entry of judgment and sentence, the offender spent five years in the community without committing any crime that subsequently results in a conviction. This subsection applies to both adult and juvenile prior convictions.

(3) Out-of-state convictions for offenses shall be classified according to the comparable offense definitions and sentences provided by Washington law. Federal convictions for offenses shall be classified according to the comparable offense definitions and sentences provided by Washington law. If there is no clearly comparable offense under Washington law or the offense is one that is usually considered subject to exclusive federal jurisdiction, the offense shall be scored as a class C felony equivalent if it was a felony under the relevant federal statute.

(4) Score prior convictions for felony anticipatory offenses (attempts, criminal solicitations, and criminal conspiracies) the same as if they were convictions for completed offenses.

(5)(a) In the case of multiple prior convictions, for the purpose of computing the offender score, count all convictions separately, except:

(i) Prior offenses which were found, under RCW 9.94A.589(1)(a), to encompass the same criminal conduct, shall be counted as one offense, the offense that yields the highest offender score. The current sentencing court shall determine with respect to other prior adult offenses for which sentences were served concurrently or prior juvenile offenses for which sentences were served consecutively, whether those offenses shall be counted as one offense or as separate offenses using the "same criminal conduct" analysis found in RCW 9.94A.589(1)(a), and if the court finds that they shall be counted as one offense, then the offense that yields the highest offender score shall be used. The current sentencing court may presume that such other prior offenses were not the same criminal conduct from sentences imposed on separate dates, or in separate counties or jurisdictions, or in separate complaints, indictments, or informations;

(ii) In the case of multiple prior convictions for offenses committed before July 1, 1986, for the purpose of computing the offender score, count all adult convictions served concurrently as one offense, and count all juvenile convictions entered on the same date as one offense. Use the conviction for the offense that yields the highest offender score.

(b) As used in this subsection (5), "served concurrently" means that: (i) The latter sentence was imposed with specific reference to the former; (ii) the concurrent relationship of the sentences was judicially imposed; and (iii) the concurrent timing of the sentences was not the result of a probation or parole revocation on the former offense.

(6) If the present conviction is one of the anticipatory offenses of criminal attempt, solicitation, or conspiracy, count each prior conviction as if the present conviction were for a completed offense. When these convictions are used as criminal history, score them the same as a completed crime.

(7) If the present conviction is for a nonviolent offense and not covered by subsection (11) or (12) of this section, count one point for each adult prior felony conviction and one point for each juvenile prior violent felony conviction and 1/2 point for each juvenile prior nonviolent felony conviction.

(8) If the present conviction is for a violent offense and not covered in subsection (9), (10), (11), or (12) of this section, count two points for each prior adult and juvenile violent felony conviction, one point for each prior adult nonviolent felony conviction, and 1/2 point for each prior juvenile nonviolent felony conviction.

(9) If the present conviction is for a serious violent offense, count three points for prior adult and juvenile convictions for crimes in this category, two points for each prior adult and juvenile violent conviction (not already counted), one point for each prior adult nonviolent felony conviction, and 1/2 point for each prior juvenile nonviolent felony conviction.

(10) If the present conviction is for Burglary 1, count prior convictions as in subsection (8) of this section; however count two points for each prior adult Burglary 2 or residential burglary conviction, and one point for each prior juvenile Burglary 2 or residential burglary conviction.

(11) If the present conviction is for a felony traffic offense count two points for each adult or juvenile prior conviction for Vehicular Homicide or Vehicular Assault; for each felony offense count one point for each adult and 1/2 point for each juvenile prior conviction; for each serious traffic offense, other than those used for an enhancement pursuant to RCW 46.61.520(2), count one point for each adult and 1/2 point for each juvenile prior conviction.

(12) If the present conviction is for ~~((a drug offense))~~ manufacture of methamphetamine count three points for each adult prior ~~((felony drug offense))~~ manufacture of methamphetamine conviction and two points for each juvenile ~~((drug))~~ manufacture of methamphetamine offense. If the present conviction is for a drug offense and the offender has a criminal history that includes a sex offense or serious violent offense, count three points for each adult prior felony drug offense conviction and two points for each juvenile drug offense. All other adult and juvenile felonies are scored as in subsection (8) of this section if the current drug offense is violent, or as in subsection (7) of this section if the current drug offense is nonviolent.

(13) If the present conviction is for Escape from Community Custody, RCW 72.09.310, count only prior escape convictions in the offender score. Count adult prior escape convictions as one point and juvenile prior escape convictions as 1/2 point.

(14) If the present conviction is for Escape 1, RCW 9A.76.110, or Escape 2, RCW 9A.76.120, count adult prior convictions as one point and juvenile prior convictions as 1/2 point.

(15) If the present conviction is for Burglary 2 or residential burglary, count priors as in subsection (7) of this section; however, count two points for each adult and juvenile prior Burglary 1 conviction, two points for each adult prior Burglary 2 or residential burglary conviction, and one point for each juvenile prior Burglary 2 or residential burglary conviction.

(16) If the present conviction is for a sex offense, count priors as in subsections (7) through (15) of this section; however count three points for each adult and juvenile prior sex offense conviction.

(17) If the present conviction is for an offense committed while the offender was under community placement, add one point.

NEW SECTION. Sec. 4. A new section is added to chapter 70.96A RCW to read as follows:

(1) The criminal justice treatment account is created in the state treasury. Moneys in the account may be expended solely for: (a) Substance abuse treatment and treatment support services for offenders with an addiction or a substance abuse problem that, if not treated, would result in addiction, against whom charges are filed by a prosecuting attorney in Washington state; and (b) the provision of drug and alcohol treatment services and treatment support services for nonviolent offenders within a drug court program. Moneys in the account may be spent only after appropriation.

(2) For purposes of this section:

(a) "Treatment" means services that are critical to a participant's successful completion of his or her substance abuse treatment program, but does not include the following services: Housing other than that provided as part of an inpatient substance abuse treatment program, vocational training, and mental health counseling; and

(b) "Treatment support" means transportation to or from inpatient or outpatient treatment services when no viable alternative exists, and child care services that are necessary to ensure a participant's ability to attend outpatient treatment sessions.

(3) Revenues to the criminal justice treatment account consist of: (a) Savings to the state general fund resulting from implementation of this act, as calculated pursuant to this section; and (b) any other revenues appropriated to or deposited in the account.

(4)(a) The department of corrections, the sentencing guidelines commission, the office of financial management, and the caseload forecast council shall develop a methodology for calculating the projected biennial savings under this section. Savings shall be projected for the fiscal biennium beginning on July 1, 2003, and for each biennium thereafter. by September 1, 2002, the proposed methodology shall be submitted to the governor and the appropriate committees of the legislature. The methodology is deemed approved unless the legislature enacts legislation to modify or reject the methodology.

(b) When the department of corrections submits its biennial budget request to the governor in 2002 and in each even-numbered year thereafter, the department of corrections shall use the methodology approved in (a) of this subsection to calculate savings to the state general fund for the ensuing fiscal biennium resulting from reductions in drug offender sentencing as a result of sections 2 and 3, chapter . . ., Laws of 2002 (sections 2 and 3 this act) and sections 7, 8, and 9, chapter . . ., Laws of 2002 (sections 7, 8, and 9 this act). The department shall report the dollar amount of the savings to the state treasurer, the office of financial management, and the fiscal committees of the legislature.

(c) For the fiscal biennium beginning July 1, 2003, and each fiscal biennium thereafter, the state treasurer shall transfer seventy-five percent of the amount reported in (b) of this subsection from the general fund into the criminal justice treatment account, divided into eight equal quarterly payments. However, the amount transferred to the criminal justice treatment account shall not exceed the limit of eight million two hundred fifty thousand dollars per fiscal year. After the first fiscal year in which the amount to be transferred equals or exceeds eight million two hundred fifty thousand dollars, this limit shall be increased on an annual basis by the implicit price deflator as published by the federal bureau of labor statistics.

(d) For the fiscal biennium beginning July 1, 2003, and each biennium thereafter, the state treasurer shall transfer twenty-five percent of the amount reported in (b) of this subsection from the general fund into the violence reduction and drug enforcement account, divided into eight quarterly payments. The amounts transferred pursuant to this subsection (4)(d) shall be used solely for providing drug and alcohol treatment services to offenders confined in a state correctional facility receiving a reduced sentence as a result of implementation of this act and who are assessed with an addiction or a substance abuse problem that if not treated would result in addiction. Any excess funds remaining after providing drug and alcohol treatment services to offenders receiving a reduced sentence as a result of implementation of this act may be expended to provide treatment for offenders confined in a state correctional facility and who are assessed with an addiction or a substance abuse problem that contributed to the crime.

(e) In each odd-numbered year, the legislature shall appropriate the amount transferred to the criminal justice treatment account in (c) of this subsection to the division of alcohol and substance abuse for the purposes of subsection (5) of this section.

(5) Moneys appropriated to the division of alcohol and substance abuse from the criminal justice treatment account shall be distributed as specified in this subsection. The department shall serve as the fiscal agent for purposes of distribution. Until July 1, 2004, the department may not use moneys appropriated from the criminal justice treatment account for administrative expenses and shall distribute all amounts appropriated under subsection (4)(e) of this section in accordance with this subsection. Beginning in July 1, 2004, the department may retain up to three percent of the amount appropriated under subsection (4)(e) of this section for its administrative costs.

(a) Seventy percent of amounts appropriated to the division from the account shall be distributed to counties pursuant to the distribution formula adopted under this section. The division of alcohol and substance abuse, in consultation with the department of corrections, the sentencing guidelines commission, the Washington state association of counties, the Washington state association of drug court professionals, the superior court judges' association, the Washington association of prosecuting attorneys, representatives of the criminal defense bar, representatives of substance abuse treatment providers, and any other person deemed by the division to be necessary, shall establish a fair

and reasonable methodology for distribution to counties of moneys in the criminal justice treatment account. County or regional plans submitted for the expenditure of formula funds must be approved by the panel established in (b) of this subsection.

(b) Thirty percent of the amounts appropriated to the division from the account shall be distributed as grants for purposes of treating offenders against whom charges are filed by a county prosecuting attorney. The division shall appoint a panel of representatives from the Washington association of prosecuting attorneys, the Washington association of sheriffs and police chiefs, the superior court judges' association, the Washington state association of counties, the Washington defender's association or the Washington association of criminal defense lawyers, the department of corrections, the Washington state association of drug court professionals, substance abuse treatment providers, and the division. The panel shall review county or regional plans for funding under (a) of this subsection and grants approved under this subsection. The panel shall attempt to ensure that treatment as funded by the grants is available to offenders statewide.

(6) The county alcohol and drug coordinator, county prosecutor, county sheriff, county superior court, a substance abuse treatment provider appointed by the county legislative authority, a member of the criminal defense bar appointed by the county legislative authority, and, in counties with a drug court, a representative of the drug court shall jointly submit a plan, approved by the county legislative authority or authorities, to the panel established in subsection (5)(b) of this section, for disposition of all the funds provided from the criminal justice treatment account within that county. The funds shall be used solely to provide approved alcohol and substance abuse treatment pursuant to RCW 70.96A.090 and treatment support services. No more than ten percent of the total moneys received under subsections (4) and (5) of this section by a county or group of counties participating in a regional agreement shall be spent for treatment support services.

(7) Counties are encouraged to consider regional agreements and submit regional plans for the efficient delivery of treatment under this section.

(8) Moneys allocated under this section shall be used to supplement, not supplant, other federal, state, and local funds used for substance abuse treatment.

(9) Counties must meet the criteria established in RCW 2.28.170(3)(b).

NEW SECTION. Sec. 5. A new section is added to chapter 43.135 RCW to read as follows: RCW 43.135.035(4) does not apply to the transfers established in section 4 of this act.

NEW SECTION. Sec. 6. A new section is added to chapter 43.20A RCW to read as follows: The department of social and health services shall annually review and monitor the expenditures made by any county or group of counties which is funded, in whole or in part, with funds provided by this act. Counties shall repay any funds that are not spent in accordance with the requirements of this act.

Sec. 7. RCW 9.94A.515 and 2001 2nd sp.s. c 12 s 361, 2001 c 300 s 4, 2001 c 217 s 12, and 2001 c 17 s 1 are each reenacted and amended to read as follows:

(g) If the standard sentence range under this section exceeds the statutory maximum sentence for the offense, the statutory maximum sentence shall be the presumptive sentence unless the offender is a persistent offender. If the addition of a deadly weapon enhancement increases the sentence so that it would exceed the statutory maximum for the offense, the portion of the sentence representing the enhancement may not be reduced.

(5) The following additional times shall be added to the standard sentence range if the offender or an accomplice committed the offense while in a county jail or state correctional facility and the offender is being sentenced for one of the crimes listed in this subsection. If the offender or an accomplice committed one of the crimes listed in this subsection while in a county jail or state correctional facility, and the offender is being sentenced for an anticipatory offense under chapter 9A.28 RCW to commit one of the crimes listed in this subsection, the following additional times shall be added to the standard sentence range determined under subsection (2) of this section:

For the purposes of this subsection, all of the real property of a state correctional facility or county jail shall be deemed to be part of that facility or county jail.

(6) An additional twenty-four months shall be added to the standard sentence range for any ranked offense involving a violation of chapter 69.50 RCW if the offense was also a violation of RCW 69.50.435 or 9.94A.605.

(7) An additional two years shall be added to the standard sentence range for vehicular homicide committed while under the influence of intoxicating liquor or any drug as defined by RCW 46.61.502 for each prior offense as defined in RCW 46.61.5055.

Sec. 13. RCW 2.28.170 and 1999 c 197 s 9 are each amended to read as follows:

(1) Counties may establish and operate drug courts.

(2) For the purposes of this section, "drug court" means a court that has special calendars or dockets designed to achieve a reduction in recidivism and substance abuse among nonviolent, substance abusing offenders by increasing their likelihood for successful rehabilitation through early, continuous, and intense judicially supervised treatment; mandatory periodic drug testing; and the use of appropriate sanctions and other rehabilitation services.

(3)(a) Any jurisdiction that seeks a state appropriation to fund a drug court program must first:

~~((a))~~ (i) Exhaust all federal funding received from the office of national drug control policy that is available to support the operations of its drug court and associated services; and

~~((b))~~ (ii) Match, on a dollar-for-dollar basis, state moneys allocated for drug court programs with local cash or in-kind resources. Moneys allocated by the state must be used to supplement, not supplant, other federal, state, and local funds for drug court operations and associated services.

(b) Any county that establishes a drug court pursuant to this section shall establish minimum requirements for the participation of offenders in the program. The drug court may adopt local requirements that are more stringent than the minimum. The minimum requirements are:

(i) The offender would benefit from substance abuse treatment;

(ii) The offender has not previously been convicted of a serious violent offense or sex offense as defined in RCW 9.94A.030; and

(iii) Without regard to whether proof of any of these elements is required to convict, the offender is not currently charged with or convicted of an offense:

(A) That is a sex offense;

(B) That is a serious violent offense;

(C) During which the defendant used a firearm; or

(D) During which the defendant caused substantial or great bodily harm or death to another person.

Sec. 14. RCW 9.94A.470 and 1995 c 129 s 4 are each amended to read as follows:

Notwithstanding the current placement or listing of crimes in categories or classifications of prosecuting standards for deciding to prosecute under RCW 9.94A.411(2), any and all felony crimes involving any deadly weapon special verdict under RCW 9.94A.602, any deadly weapon enhancements under ~~((RCW 9.94A.510))~~ section 11 (3) or (4) of this act, or both, and any and all felony crimes as defined in ~~((RCW 9.94A.510))~~ section 11 (3)(f) or (4)(f) of this act, or both, which are excluded from the deadly weapon enhancements shall all be treated as crimes against a person and subject to the prosecuting standards for deciding to prosecute under RCW 9.94A.411(2) as crimes against persons.

Sec. 15. RCW 9.94A.475 and 1997 c 338 s 48 are each amended to read as follows:

Any and all recommended sentencing agreements or plea agreements and the sentences for any and all felony crimes shall be made and retained as public records if the felony crime involves:

Sec. 16. RCW 9.94A.480 and 1997 c 338 s 49 are each amended to read as follows:

(1) A current, newly created or reworked judgment and sentence document for each felony sentencing shall record any and all recommended sentencing agreements or plea agreements and the sentences for any and all felony crimes kept as public records under RCW 9.94A.475 shall contain the clearly printed name and legal signature of the sentencing judge. The judgment and sentence document as defined in this section shall also provide additional space for the sentencing judge's reasons for

going either above or below the presumptive sentence range for any and all felony crimes covered as public records under RCW 9.94A.475. Both the sentencing judge and the prosecuting attorney's office shall each retain or receive a completed copy of each sentencing document as defined in this section for their own records.

(2) The sentencing guidelines commission shall be sent a completed copy of the judgment and sentence document upon conviction for each felony sentencing under subsection (1) of this section and shall compile a yearly and cumulative judicial record of each sentencing judge in regards to his or her sentencing practices for any and all felony crimes involving:

(a) Any violent offense as defined in this chapter;

(b) Any most serious offense as defined in this chapter;

(c) Any felony with any deadly weapon special verdict under RCW 9.94A.602;

These comparative records shall be retained and made available to the public for review in a current, newly created or reworked official published document by the sentencing guidelines commission.

(4) Any and all felony sentences which are either above or below the standard or presumptive sentence range in subsection (3) of this section shall also mark whether the prosecuting attorney in the case also recommended a similar sentence, if any, which was either above or below the presumptive sentence range and shall also indicate if the sentence was in conjunction with an approved alternative sentencing option including a first-time offender waiver, sex offender sentencing alternative, or other prescribed sentencing option.

(5) If any completed judgment and sentence document as defined in subsection (1) of this section is not sent to the sentencing guidelines commission as required in subsection (2) of this section, the sentencing guidelines commission shall have the authority and shall undertake reasonable and necessary steps to assure that all past, current, and future sentencing documents as defined in subsection (1) of this section are received by the sentencing guidelines commission.

Sec. 17. RCW 9.94A.505 and 2001 2nd sp.s. c 12 s 312 are each amended to read as follows:

(1) When a person is convicted of a felony, the court shall impose punishment as provided in this chapter.

(2)(a) The court shall impose a sentence as provided in the following sections and as applicable in the case:

(i) Unless another term of confinement applies, the court shall impose a sentence within the standard sentence range established in RCW 9.94A.510 or section 8 of this act;

(ii) RCW 9.94A.700 and 9.94A.705, relating to community placement;

(iii) RCW 9.94A.710 and 9.94A.715, relating to community custody;

(iv) RCW 9.94A.545, relating to community custody for offenders whose term of confinement is one year or less;

(v) RCW 9.94A.570, relating to persistent offenders;

(vi) RCW 9.94A.540, relating to mandatory minimum terms;

(vii) RCW 9.94A.650, relating to the first-time offender waiver;

(viii) RCW 9.94A.660, relating to the drug offender sentencing alternative;

(ix) RCW 9.94A.670, relating to the special sex offender sentencing alternative;

(x) RCW 9.94A.712, relating to certain sex offenses;

(xi) RCW 9.94A.535, relating to exceptional sentences;

(xii) RCW 9.94A.589, relating to consecutive and concurrent sentences.

(b) If a standard sentence range has not been established for the offender's crime, the court shall impose a determinate sentence which may include not more than one year of confinement; community service work; until July 1, 2000, a term of community supervision not to exceed one year and on and after July 1, 2000, a term of community custody not to exceed one year, subject to conditions and sanctions as authorized in RCW 9.94A.710 (2) and (3); and/or other legal financial obligations. The court may impose a sentence which provides more than one year of confinement if the court finds reasons justifying an exceptional sentence as provided in RCW 9.94A.535.

(3) If the court imposes a sentence requiring confinement of thirty days or less, the court may, in its discretion, specify that the sentence be served on consecutive or intermittent days. A sentence requiring more than thirty days of confinement shall be served on consecutive days. Local jail administrators may schedule court-ordered intermittent sentences as space permits.

(4) If a sentence imposed includes payment of a legal financial obligation, it shall be imposed as provided in RCW 9.94A.750, 9.94A.753, and 9.94A.760.

(5) Except as provided under RCW 9.94A.750(4) and 9.94A.753(4), a court may not impose a sentence providing for a term of confinement or community supervision, community placement, or community custody which exceeds the statutory maximum for the crime as provided in chapter 9A.20 RCW.

(6) The sentencing court shall give the offender credit for all confinement time served before the sentencing if that confinement was solely in regard to the offense for which the offender is being sentenced.

(7) The court shall order restitution as provided in RCW 9.94A.750 and 9.94A.753.

(8) As a part of any sentence, the court may impose and enforce crime-related prohibitions and affirmative conditions as provided in this chapter.

(9) The court may order an offender whose sentence includes community placement or community supervision to undergo a mental status evaluation and to participate in available outpatient mental health treatment, if the court finds that reasonable grounds exist to believe that the offender is a mentally ill person as defined in RCW 71.24.025, and that this condition is likely to have influenced the offense. An order requiring mental status evaluation or treatment must be based on a presentence report and, if applicable, mental status evaluations that have been filed with the court to determine the offender's competency or eligibility for a defense of insanity. The court may order additional evaluations at a later date if deemed appropriate.

(10) In any sentence of partial confinement, the court may require the offender to serve the partial confinement in work release, in a program of home detention, on work crew, or in a combined program of work crew and home detention.

(11) In sentencing an offender convicted of a crime of domestic violence, as defined in RCW 10.99.020, if the offender has a minor child, or if the victim of the offense for which the offender was convicted has a minor child, the court may, as part of any term of community supervision, community placement, or community custody, order the offender to participate in a domestic violence perpetrator program approved under RCW 26.50.150.

Sec. 18. RCW 9.94A.530 and 2000 c 28 s 12 are each amended to read as follows:

(1) The intersection of the column defined by the offender score and the row defined by the offense seriousness score determines the standard sentence range (see RCW 9.94A.510, (Table 1) and section 8 of this act, (Table 3)). The additional time for deadly weapon findings or for those offenses enumerated in ~~((RCW 9.94A.510))~~ section 11(4) of this act that were committed in a state correctional facility or county jail shall be added to the entire standard sentence range. The court may impose any sentence within the range that it deems appropriate. All standard sentence ranges are expressed in terms of total confinement.

(2) In determining any sentence, the trial court may rely on no more information than is admitted by the plea agreement, or admitted, acknowledged, or proved in a trial or at the time of sentencing. Acknowledgement includes not objecting to information stated in the presentence reports. Where the defendant disputes material facts, the court must either not consider the fact or grant an evidentiary hearing on the point. The facts shall be deemed proved at the hearing by a preponderance of the evidence. Facts that establish the elements of a more serious crime or additional crimes may not

be used to go outside the standard sentence range except upon stipulation or when specifically provided for in RCW 9.94A.535(2) (d), (e), (g), and (h).

Sec. 19. RCW 9.94A.585 and 2000 c 28 s 10 are each amended to read as follows:

(1) A sentence within the standard sentence range, under RCW 9.94A.510 or section 8 of this act, for ~~((the))~~ an offense shall not be appealed. For purposes of this section, a sentence imposed on a first-time offender under RCW 9.94A.650 shall also be deemed to be within the standard sentence range for the offense and shall not be appealed.

(2) A sentence outside the standard sentence range for the offense is subject to appeal by the defendant or the state. The appeal shall be to the court of appeals in accordance with rules adopted by the supreme court.

(3) Pending review of the sentence, the sentencing court or the court of appeals may order the defendant confined or placed on conditional release, including bond.

(4) To reverse a sentence which is outside the standard sentence range, the reviewing court must find: (a) Either that the reasons supplied by the sentencing court are not supported by the record which was before the judge or that those reasons do not justify a sentence outside the standard sentence range for that offense; or (b) that the sentence imposed was clearly excessive or clearly too lenient.

(5) A review under this section shall be made solely upon the record that was before the sentencing court. Written briefs shall not be required and the review and decision shall be made in an expedited manner according to rules adopted by the supreme court.

(6) The court of appeals shall issue a written opinion in support of its decision whenever the judgment of the sentencing court is reversed and may issue written opinions in any other case where the court believes that a written opinion would provide guidance to sentencing courts and others in implementing this chapter and in developing a common law of sentencing within the state.

(7) The department may petition for a review of a sentence committing an offender to the custody or jurisdiction of the department. The review shall be limited to errors of law. Such petition shall be filed with the court of appeals no later than ninety days after the department has actual knowledge of terms of the sentence. The petition shall include a certification by the department that all reasonable efforts to resolve the dispute at the superior court level have been exhausted.

Sec. 20. RCW 9.94A.660 and 2001 c 10 s 4 are each amended to read as follows:

(1) An offender is eligible for the special drug offender sentencing alternative if:

(a) The offender is convicted of a felony that is not a violent offense or sex offense and the violation does not involve a sentence enhancement under ~~((RCW 9.94A.510))~~ section 11 (3) or (4) of this act;

(b) The offender has no current or prior convictions for a sex offense or violent offense in this state, another state, or the United States;

(c) For a violation of the Uniform Controlled Substances Act under chapter 69.50 RCW or a criminal solicitation to commit such a violation under chapter 9A.28 RCW, the offense involved only a small quantity of the particular controlled substance as determined by the judge upon consideration of such factors as the weight, purity, packaging, sale price, and street value of the controlled substance; and

(d) The offender has not been found by the United States attorney general to be subject to a deportation detainer or order and does not become subject to a deportation order during the period of the sentence.

(2) If the standard sentence range is greater than one year and the sentencing court determines that the offender is eligible for this alternative and that the offender and the community will benefit from the use of the alternative, the judge may waive imposition of a sentence within the standard sentence range and impose a sentence that must include a period of total confinement in a state facility for one-half of the midpoint of the standard sentence range. During incarceration in the state facility, offenders sentenced under this subsection shall undergo a comprehensive substance abuse assessment and receive, within available resources, treatment services appropriate for the offender. The treatment services shall be designed by the division of alcohol and substance abuse of the department of social and health services, in cooperation with the department of corrections.

The court shall also impose:

(a) The remainder of the midpoint of the standard range as a term of community custody which must include appropriate substance abuse treatment in a program that has been approved by the division of alcohol and substance abuse of the department of social and health services;

(b) Crime-related prohibitions including a condition not to use illegal controlled substances;

(c) A requirement to submit to urinalysis or other testing to monitor that status; and

(d) A term of community custody pursuant to RCW 9.94A.715 to be imposed upon failure to complete or administrative termination from the special drug offender sentencing alternative program.

The court may prohibit the offender from using alcohol or controlled substances and may require that the monitoring for controlled substances be conducted by the department or by a treatment alternatives to street crime program or a comparable court or agency-referred program. The offender may be required to pay thirty dollars per month while on community custody to offset the cost of monitoring. In addition, the court shall impose three or more of the following conditions:

(i) Devote time to a specific employment or training;

(ii) Remain within prescribed geographical boundaries and notify the court or the community corrections officer before any change in the offender's address or employment;

(iii) Report as directed to a community corrections officer;

(iv) Pay all court-ordered legal financial obligations;

(v) Perform community service work;

(vi) Stay out of areas designated by the sentencing court;

(vii) Such other conditions as the court may require such as affirmative conditions.

(3) If the offender violates any of the sentence conditions in subsection (2) of this section or is found by the United States attorney general to be subject to a deportation order, a violation hearing shall be held by the department unless waived by the offender.

(a) If the department finds that conditions have been willfully violated, the offender may be reclassified to serve the remaining balance of the original sentence.

(b) If the department finds that the offender is subject to a valid deportation order, the department may administratively terminate the offender from the program and reclassify the offender to serve the remaining balance of the original sentence.

(4) The department shall determine the rules for calculating the value of a day fine based on the offender's income and reasonable obligations which the offender has for the support of the offender and any dependents. These rules shall be developed in consultation with the administrator for the courts, the office of financial management, and the commission.

(5) An offender who fails to complete the special drug offender sentencing alternative program or who is administratively terminated from the program shall be reclassified to serve the unexpired term of his or her sentence as ordered by the sentencing court and shall be subject to all rules relating to earned release time. An offender who violates any conditions of supervision as defined by the department shall be sanctioned. Sanctions may include, but are not limited to, reclassifying the offender to serve the unexpired term of his or her sentence as ordered by the sentencing court. If an offender is reclassified to serve the unexpired term of his or her sentence, the offender shall be subject to all rules relating to earned release time.

Sec. 21. RCW 9.94A.728 and 2000 c 28 s 28 are each amended to read as follows:

No person serving a sentence imposed pursuant to this chapter and committed to the custody of the department shall leave the confines of the correctional facility or be released prior to the expiration of the sentence except as follows:

(1) Except as otherwise provided for in subsection (2) of this section, the term of the sentence of an offender committed to a correctional facility operated by the department may be reduced by earned release time in accordance with procedures that shall be developed and promulgated by the correctional agency having jurisdiction in which the offender is confined. The earned release time shall be for good behavior and good performance, as determined by the correctional agency having jurisdiction. The correctional agency shall not credit the offender with earned release credits in advance of the offender actually earning the credits. Any program established pursuant to this section shall allow an offender to earn early release credits for presentence incarceration. If an offender is

transferred from a county jail to the department, the administrator of a county jail facility shall certify to the department the amount of time spent in custody at the facility and the amount of earned release time. An offender who has been convicted of a felony committed after July 23, 1995, that involves any applicable deadly weapon enhancements under (~~RCW 9.94A.510~~) section 11 (3) or (4) of this act, or both, shall not receive any good time credits or earned release time for that portion of his or her sentence that results from any deadly weapon enhancements. In the case of an offender convicted of a serious violent offense, or a sex offense that is a class A felony, committed on or after July 1, 1990, the aggregate earned release time may not exceed fifteen percent of the sentence. In no other case shall the aggregate earned release time exceed one-third of the total sentence;

(2)(a) A person convicted of a sex offense or an offense categorized as a serious violent offense, assault in the second degree, vehicular homicide, vehicular assault, assault of a child in the second degree, any crime against persons where it is determined in accordance with RCW 9.94A.602 that the offender or an accomplice was armed with a deadly weapon at the time of commission, or any felony offense under chapter 69.50 or 69.52 RCW, committed before July 1, 2000, may become eligible, in accordance with a program developed by the department, for transfer to community custody status in lieu of earned release time pursuant to subsection (1) of this section;

(b) A person convicted of a sex offense, a violent offense, any crime against persons under RCW 9.94A.411(2), or a felony offense under chapter 69.50 or 69.52 RCW, committed on or after July 1, 2000, may become eligible, in accordance with a program developed by the department, for transfer to community custody status in lieu of earned release time pursuant to subsection (1) of this section;

(3) An offender may leave a correctional facility pursuant to an authorized furlough or leave of absence. In addition, offenders may leave a correctional facility when in the custody of a corrections officer or officers;

(4)(a) The secretary may authorize an extraordinary medical placement for an offender when all of the following conditions exist:

(i) The offender has a medical condition that is serious enough to require costly care or treatment;

(ii) The offender poses a low risk to the community because he or she is physically incapacitated due to age or the medical condition; and

(iii) Granting the extraordinary medical placement will result in a cost savings to the state.

(b) An offender sentenced to death or to life imprisonment without the possibility of release or parole is not eligible for an extraordinary medical placement.

(c) The secretary shall require electronic monitoring for all offenders in extraordinary medical placement unless the electronic monitoring equipment interferes with the function of the offender's medical equipment or results in the loss of funding for the offender's medical care. The secretary shall specify who shall provide the monitoring services and the terms under which the monitoring shall be performed.

(d) The secretary may revoke an extraordinary medical placement under this subsection at any time.

(5) The governor, upon recommendation from the clemency and pardons board, may grant an extraordinary release for reasons of serious health problems, senility, advanced age, extraordinary meritorious acts, or other extraordinary circumstances;

(7) The governor may pardon any offender;

(8) The department may release an offender from confinement any time within ten days before a release date calculated under this section; and

(9) An offender may leave a correctional facility prior to completion of his or her sentence if the sentence has been reduced as provided in RCW 9.94A.870.

Notwithstanding any other provisions of this section, an offender sentenced for a felony crime listed in RCW 9.94A.540 as subject to a mandatory minimum sentence of total confinement shall not be released from total confinement before the completion of the listed mandatory minimum sentence for

that felony crime of conviction unless allowed under RCW 9.94A.540, however persistent offenders are not eligible for extraordinary medical placement.

Sec. 22. RCW 9.94A.850 and 2000 c 28 s 41 are each amended to read as follows:

(1) A sentencing guidelines commission is established as an agency of state government.

(2) The legislature finds that the commission, having accomplished its original statutory directive to implement this chapter, and having expertise in sentencing practice and policies, shall:

(a) Evaluate state sentencing policy, to include whether the sentencing ranges and standards are consistent with and further:

(i) The purposes of this chapter as defined in RCW 9.94A.010; and

(ii) The intent of the legislature to emphasize confinement for the violent offender and alternatives to confinement for the nonviolent offender.

The commission shall provide the governor and the legislature with its evaluation and recommendations under this subsection not later than December 1, 1996, and every two years thereafter;

(b) Recommend to the legislature revisions or modifications to the standard sentence ranges, state sentencing policy, prosecuting standards, and other standards. If implementation of the revisions or modifications would result in exceeding the capacity of correctional facilities, then the commission shall accompany its recommendation with an additional list of standard sentence ranges which are consistent with correction capacity;

(c) Study the existing criminal code and from time to time make recommendations to the legislature for modification;

(d)(i) Serve as a clearinghouse and information center for the collection, preparation, analysis, and dissemination of information on state and local adult and juvenile sentencing practices; (ii) develop and maintain a computerized adult and juvenile sentencing information system by individual superior court judge consisting of offender, offense, history, and sentence information entered from judgment and sentence forms for all adult felons; and (iii) conduct ongoing research regarding adult and juvenile sentencing guidelines, use of total confinement and alternatives to total confinement, plea bargaining, and other matters relating to the improvement of the adult criminal justice system and the juvenile justice system;

(1) The capacity of many of Washington state's transportation facilities have failed to keep up with the state's growth, particularly in major urban regions;

(2) The state cannot by itself fund, in a timely way, many of the major capacity and other improvements required on highways of statewide significance in the state's largest urbanized area;

(3) Providing a transportation system that provides efficient mobility for persons and freight requires a shared partnership and responsibility between the state, local, and regional governments and the private sector; and

(4) Timely construction and development of significant transportation improvement projects can best be achieved through enhanced funding options for governments at the county and regional levels, using already existing tax authority to address roadway and multimodal needs and new authority for regions to address critical transportation projects of statewide significance.

NEW SECTION. **Sec. 102.** DEFINITIONS. The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Board" means the governing body of a regional transportation investment district.

(2) "Department" means the Washington state department of transportation.

(3) "Highway of statewide significance" means an existing or proposed state route or federal interstate designated as a highway of statewide significance by the transportation commission, its successor entity, or the legislature.

(4) "Lead agency" means a public agency that by law can plan, design, and build a transportation project and has been so designated by the district.

(5) "Regional transportation investment district" or "district" means a municipal corporation whose boundaries are coextensive with two or more contiguous counties and that has been created by county legislative authorities and a vote of the people under this chapter to implement a regional transportation investment plan.

(6) "Regional transportation investment district planning committee" or "planning committee" means the advisory committee created under section 103 of this act to create and propose to county legislative authorities a regional transportation investment plan to develop, finance, and construct transportation projects.

(7) "Regional transportation investment plan" or "plan" means a plan to develop, construct, and finance a transportation project or projects.

(8) "Transportation project" means:

(a) A capital improvement or improvements to a highway that has been designated, in whole or in part, as a highway of statewide significance, including an extension, that:

(i) Adds a lane or new lanes to an existing state or federal highway; or

(ii) Repairs or replaces a lane or lanes damaged by an event declared an emergency by the governor before January 1, 2002.

(b) A capital improvement or improvements to all or a portion of a highway of statewide significance, including an extension, and may include the following associated multimodal capital improvements:

(i) Approaches to highways of statewide significance;

(ii) High-occupancy vehicle lanes;

(iii) Flyover ramps;

(iv) Park and ride lots;

(v) Bus pullouts;

(vi) Vans for vanpools;

(vii) Buses; and

(viii) Signalization, ramp metering, and other transportation system management improvements.

(c) A capital improvement or improvements to all or a portion of a city street, county road, or existing highway or the creation of a new highway that intersects with a highway of statewide significance, if all of the following conditions are met:

(i) The project is included in a plan that makes highway improvement projects that add capacity to a highway or highways of statewide significance;

(ii) The secretary of transportation determines that the project would better relieve traffic congestion than investing that same money in adding capacity to a highway of statewide significance;

(iii) Matching money equal to one-third of the total cost of the project is provided by local entities, including but not limited to a metropolitan planning organization, county, city, port, or private entity in which a county participating in a plan is located. Local entities may use federal grants to meet this matching requirement;

(iv) In no case may the cumulative regional transportation investment district contribution to all projects constructed under this subsection (8)(c) exceed ten percent of the revenues generated by the district;

(v) In no case may the cumulative regional transportation investment district contribution to all projects constructed under this subsection (8)(c) exceed one billion dollars; and

(vi) The specific projects are included within the plan and submitted as part of the plan to a vote of the people.

(d) Operations, preservation, and maintenance are excluded from this definition and may not be included in a regional transportation investment plan.

(9) "Weighted vote" means a vote that reflects the population each board or planning committee member represents relative to the population represented by the total membership of the board or planning committee. Population will be determined using the federal 2000 census or subsequent federal census data.

NEW SECTION. Sec. 103. PLANNING COMMITTEE FORMATION. Regional transportation investment district planning committees are advisory entities that are created, convened, and empowered as follows:

(1) A county with a population over one million five hundred thousand persons and any adjoining counties with a population over five hundred thousand persons may create a regional transportation investment district and shall convene a regional transportation investment district planning committee.

(2) The members of the legislative authorities participating in planning under this chapter shall serve as the district planning committee. Members of the planning committee receive no compensation, but may be reimbursed for travel and incidental expenses as the planning committee deems appropriate.

The secretary of transportation, or the appropriate regional administrator of the department, as named by the secretary, shall serve on the committee as a nonvoting member.

(3) A regional transportation investment district planning committee may be entitled to state funding, as appropriated by the legislature, for start-up funding to pay for salaries, expenses, overhead, supplies, and similar expenses ordinarily and necessarily incurred in selecting transportation projects and funding for those transportation projects under this chapter. Upon creation of a regional transportation investment district, the district shall within one year reimburse the state for any sums advanced for these start-up costs from the state.

(4) The planning committee shall conduct its affairs and formulate a regional transportation investment plan as provided under section 104 of this act, except that it shall elect an executive board of seven members to discharge the duties of the planning committee and formulate a regional transportation investment plan, subject to the approval of the full committee.

(5) At its first meeting, a regional transportation investment district planning committee may elect officers and provide for the adoption of rules and other operating procedures.

(6) Governance of and decisions by a regional transportation investment district planning committee must be by a sixty-percent weighted majority vote of the total membership.

(7) The planning committee may dissolve itself at any time by a two-thirds weighted majority vote of the total membership of the planning committee.

NEW SECTION. Sec. 104. PLANNING COMMITTEE DUTIES. (1) A regional transportation investment district planning committee shall adopt a regional transportation investment plan providing for the development, construction, and financing of transportation projects. The planning committee may consider the following factors in formulating its plan:

(a) Land use planning criteria;

(b) The input of cities located within a participating county; and

(c) The input of regional transportation planning organizations in which a participating county is located. A regional transportation planning organization in which a participating county is located shall review its adopted regional transportation plan and submit, for the planning committee's consideration, its list of transportation improvement priorities.

(2) The planning committee may coordinate its activities with the department, which shall provide services, data, and personnel to assist in this planning as desired by the planning committee. In addition, the planning committee may coordinate with affected cities, towns, and other local governments that engage in transportation planning.

(3) The planning committee shall:

(a) Conduct public meetings that are needed to assure active public participation in the development of the plan;

(b) Adopt a plan proposing the creation of a regional transportation investment district and recommending the construction of transportation projects to improve mobility. Operations, maintenance, and preservation of facilities or systems may not be part of the plan; and

(c) Recommend sources of revenue authorized by section 105 of this act and a financing plan to fund selected transportation projects. The overall plan of the district must leverage the district's financial contributions so that the federal, state, local, and other revenue sources continue to fund major congestion relief and transportation capacity improvement projects in the district. A combination of local, state, and federal revenues may be necessary to pay for transportation projects, and the planning committee shall consider all of these revenue sources in developing a plan.

(4) Before adopting the plan, the planning committee, with assistance from the department, shall work with the lead agency to develop accurate cost forecasts for transportation projects. This project costing methodology must be integrated with revenue forecasts in developing the plan and must at a minimum include estimated project costs in constant dollars as well as year of expenditure dollars, the range of project costs reflected by the level of project design, project contingencies, identification of mitigation costs, the range of revenue forecasts, and project and plan cash flow and bond analysis. The plan submitted to the voters must provide cost estimates for each project, including reasonable contingency costs. Plans submitted to the voters must provide that the maximum amount possible of the funds raised will be used to fund projects in the plan, including environmental improvements and mitigation, and that administrative costs be minimized. If actual revenue exceeds actual plan costs, the excess revenues must be used to retire any outstanding debt associated with the plan.

(5) If a county opts not to adopt the plan or participate in the regional transportation investment district, but two or more contiguous counties do choose to continue to participate, then the planning committee may, within ninety days, redefine the regional transportation investment plan and the ballot measure to be submitted to the people to reflect elimination of the county, and submit the redefined plan to the legislative authorities of the remaining counties for their decision as to whether to continue to adopt the redefined plan and participate. This action must be completed within sixty days after receipt of the redefined plan.

(6) Once adopted, the plan must be forwarded to the participating county legislative authorities to initiate the election process under section 107 of this act. The planning committee shall at the same time provide notice to each city and town within the district, the governor, the chairs of the transportation committees of the legislature, the secretary of transportation, and each legislator whose legislative district is partially or wholly within the boundaries of the district.

(7) If the ballot measure is not approved, the planning committee may redefine the selected transportation projects, financing plan, and the ballot measure. The county legislative authorities may approve the new plan and ballot measure, and may then submit the revised proposition to the voters at the next election or a special election. If no ballot measure is approved by the voters by the third vote, the planning committee is dissolved.

NEW SECTION. Sec. 105. TAXES AND FEES. (1) A regional transportation investment district planning committee may, as part of a regional transportation investment plan, recommend the imposition of some or all of the following revenue sources, which a regional transportation investment district may impose upon approval of the voters as provided in this chapter:

(a) A regional sales and use tax, as specified in section 405 of this act, of up to 0.5 percent of the selling price, in the case of a sales tax, or value of the article used, in the case of a use tax, upon the occurrence of any taxable event in the regional transportation investment district;

(b) A local option vehicle license fee, as specified under section 408 of this act, of up to one hundred dollars per vehicle registered in the district. As used in this subsection, "vehicle" means motor vehicle as defined in RCW 46.04.320. Certain classes of vehicles, as defined under chapter 46.04 RCW, may be exempted from this fee;

(c) A parking tax under RCW 82.80.030;

(d) A local motor vehicle excise tax under RCW 81.100.060 and chapter 81.104 RCW;

(e) An employer excise tax under RCW 81.100.030; and

(f) Vehicle tolls on new or reconstructed facilities. Unless otherwise specified by law, the department shall administer the collection of vehicle tolls on designated facilities, and the state transportation commission, or its successor, shall be the tolling authority.

(2) Taxes, fees, and tolls may not be imposed without an affirmative vote of the majority of the voters within the boundaries of the district voting on a ballot proposition as set forth in section 107 of this act. Revenues from these taxes and fees may be used only to implement the plan as set forth in this chapter. A district may contract with the state department of revenue or other appropriate entities for administration and collection of any of the taxes or fees authorized in this section.

(3) Existing statewide motor vehicle fuel and special fuel taxes, at the distribution rates in effect on January 1, 2001, are not intended to be altered by this chapter.

NEW SECTION. Sec. 106. PERFORMANCE CRITERIA FOR REGIONAL TRANSPORTATION PROJECT SELECTION. (1) The planning committee shall consider the following criteria for selecting transportation projects to improve corridor performance:

- (a) Reduced level of congestion and improved safety;
- (b) Improved travel time;
- (c) Improved air quality;
- (d) Increases in daily and peak period person and vehicle trip capacity;
- (e) Reductions in person and vehicle delay;
- (f) Improved freight mobility; and
- (g) Cost-effectiveness of the investment.

(2) These criteria represent only minimum standards that must be considered in selecting transportation improvement projects. The board shall also consider rules and standards for benchmarks adopted by the transportation commission or its successor.

NEW SECTION. Sec. 107. SUBMISSION OF PLAN TO THE VOTERS. Two or more contiguous county legislative authorities, upon receipt of the regional transportation investment plan under section 104 of this act, may certify the plan to the ballot, including identification of the tax options necessary to fund the plan. County legislative authorities may draft a ballot title, give notice as required by law for ballot measures, and perform other duties as required to put the plan before the voters of the proposed district for their approval or rejection as a single ballot measure that both approves formation of the district and approves the plan. Counties may negotiate interlocal agreements necessary to implement the plan. The electorate will be the voters voting within the boundaries of the participating counties. A simple majority of the total persons voting on the single ballot measure to approve the plan, establish the district, and approve the taxes and fees is required for approval.

NEW SECTION. Sec. 108. CERTIFICATION OF FORMATION. If the voters approve the plan, including creation of a regional transportation investment district and imposition of taxes and fees, the district will be declared formed. The county election officials of participating counties shall, within fifteen days of the final certification of the election results, publish a notice in a newspaper or newspapers of general circulation in the district declaring the district formed, and mail copies of the notice to the governor, the secretary of transportation, and the executive director of the regional transportation planning organization in which any part of the district is located. A party challenging the procedure or the formation of a voter-approved district must file the challenge in writing by serving the prosecuting attorney of the participating counties and the attorney general within thirty days after the final certification of the election. Failure to challenge within that time forever bars further challenge of the district's valid formation.

NEW SECTION. Sec. 109. BOARD COMPOSITION. (1) The governing board of a district consists of the members of the legislative authority of each member county, acting ex officio and independently. The secretary of transportation or the appropriate regional administrator of the department, as named by the secretary, shall also serve as a nonvoting member of the board. The governing board may elect an executive board of seven members to discharge the duties of the governing board subject to the approval of the full governing board.

(2) A sixty-percent majority of the weighted votes of the total board membership is required to submit to the counties a modified plan under section 114 of this act or any other proposal to be submitted to the voters. The counties, may, with majority vote of each county legislative authority, submit a modified plan or proposal to the voters.

NEW SECTION. Sec. 110. BOARD ORGANIZATION. The board shall adopt rules for the conduct of business. The board shall adopt bylaws to govern district affairs, which may include:

- (1) The time and place of regular meetings;
- (2) Rules for calling special meetings;
- (3) The method of keeping records of proceedings and official acts;
- (4) Procedures for the safekeeping and disbursement of funds; and
- (5) Any other provisions the board finds necessary to include.

NEW SECTION. Sec. 111. BOARD'S POWERS AND DUTIES. (1) The governing board of the district is responsible for the execution of the voter-approved plan. The board shall:

- (a) Impose taxes and fees authorized by district voters;
- (b) Enter into agreements with state, local, and regional agencies and departments as necessary to accomplish district purposes and protect the district's investment in transportation projects;
- (c) Accept gifts, grants, or other contributions of funds that will support the purposes and programs of the district;
- (d) Monitor and audit the progress and execution of transportation projects to protect the investment of the public and annually make public its findings;
- (e) Pay for services and enter into leases and contracts, including professional service contracts;
- (f) Hire no more than ten employees, including a director or executive officer, a treasurer or financial officer, a project manager or engineer, a project permit coordinator, and clerical staff; and
- (g) Exercise other powers and duties as may be reasonable to carry out the purposes of the district.

(2) It is the intent of the legislature that existing staff resources of lead agencies be used in implementing this chapter. A district may coordinate its activities with the department, which shall provide services, data, and personnel to assist as desired by the regional transportation investment district. Lead agencies for transportation projects that are not state facilities shall also provide staff support for the board.

(3) A district may not acquire, hold, or dispose of real property.

(4) A district may not own, operate, or maintain an ongoing facility, road, or transportation system.

(5) A district may accept and expend or use gifts, grants, or donations.

(6) It is the intent of the legislature that administrative and overhead costs of a regional transportation investment district be minimized. For transportation projects costing up to fifty million dollars, administrative and overhead costs may not exceed three percent of the total construction and design project costs per year. For transportation projects costing more than fifty million dollars, administrative and overhead costs may not exceed three percent of the first fifty million dollars in costs, plus an additional one-tenth of one percent of each additional dollar above fifty million. These limitations apply only to the district, and do not limit the administration or expenditures of the department.

(7) A district may use the design-build procedure for transportation projects developed by it. As used in this section "design-build procedure" means a method of contracting under which the district contracts with another party for that party to both design and build the structures, facilities, and other items specified in the contract. The requirements and limitations of RCW 47.20.780 and 47.20.785 do not apply to the transportation projects under this chapter.

NEW SECTION. Sec. 112. TREASURER. The regional transportation investment district, by resolution, shall designate a person having experience in financial or fiscal matters as treasurer of the district. The district may designate the treasurer of a county within which the district is located to

act as its treasurer. Such a treasurer has all of the powers, responsibilities, and duties the county treasurer has related to investing surplus funds. The district shall require a bond with a surety company authorized to do business in this state in an amount and under the terms and conditions the district, by resolution, from time to time finds will protect the district against loss. The district shall pay the premium on the bond.

In addition to the account established in section 401 of this act, the treasurer may establish a special account, into which may be paid district funds. The treasurer may disburse district funds only on warrants issued by the district upon orders or vouchers approved by the district.

If the treasurer of the district is the treasurer of a county, all district funds must be deposited with a county depository under the same restrictions, contracts, and security as provided for county depositories. If the treasurer of the district is some other person, all funds must be deposited in a bank or banks authorized to do business in this state qualified for insured deposits under any federal deposit insurance act as the district, by resolution, designates.

The district may provide and require a reasonable bond of any other person handling moneys or securities of the district, but the district shall pay the premium on the bond.

NEW SECTION. Sec. 113. DEBT AND BONDING. The district may borrow money, but may not issue any debt of its own for more than two years' duration. A district may issue notes or other evidences of indebtedness with a maturity of not more than two years. A district may, when authorized by the plan, enter into agreements with the state or lead agencies to pledge taxes or other revenues of the district for the purpose of paying in part or whole principal and interest on bonds issued by the lead agency. The contracts pledging revenues and taxes are binding for the term of the agreement, but not to exceed twenty-five years, and no tax pledged by an agreement may be eliminated or modified if it would impair the pledge of the agreement.

NEW SECTION. Sec. 114. TRANSPORTATION PROJECT OR PLAN MODIFICATION--ACCOUNTABILITY. (1) A plan may be modified to change transportation projects or revenue sources if:

(a) Two or more participating counties adopt a resolution to modify the plan; and
(b) The counties submit to the voters in the district a ballot measure that redefines the scope of the plan, its projects, its schedule, its costs, or the revenue sources. If the voters fail to approve the redefined plan, the district shall continue to work on and complete the plan, and the projects in it, that was originally approved by the voters. If the voters approve the redefined plan, the district shall work on and complete the projects under the redefined plan.

(2) If a transportation project cost exceeds its original cost by more than twenty percent as identified in the plan:

(a) The board shall, in coordination with the county legislative authorities, submit to the voters in the district a ballot measure that redefines the scope of the transportation project, its schedule, or its costs. If the voters fail to approve the redefined transportation project, the district shall terminate work on that transportation project, except that the district may take reasonable steps to use, preserve, or connect any improvement already constructed. The remainder of any funds that would otherwise have been expended on the terminated transportation project must first be used to retire any outstanding debt attributable to the plan and then may be used to implement the remainder of the plan.

(b) Alternatively, upon adoption of a resolution by two or more participating counties:

(i) The counties shall submit to the voters in the district a ballot measure that redefines the scope of the plan, its transportation projects, its schedule, or its costs. If the voters fail to approve the redefined plan, the district shall terminate work on that plan, except that the district may take reasonable steps to use, preserve, or connect any improvement already constructed. The remainder of any funds must be used to retire any outstanding debt attributable to the plan; or

(ii) The counties may elect to have the district continue the transportation project without submitting an additional ballot proposal to the voters.

(3) To assure accountability to the public for the timely construction of the transportation improvement project or projects within cost projections, the district shall issue a report, at least annually, to the public and copies of the report to newspapers of record in the district. In the report,

the district shall indicate the status of transportation project costs, transportation project expenditures, revenues, and construction schedules. The report may also include progress towards meeting the performance criteria provided under this chapter.

NEW SECTION. Sec. 115. STATE DEPARTMENT OF TRANSPORTATION ROLE. (1) The department shall designate an office or division of dedicated staff and services whose primary responsibility is to coordinate the design, preliminary engineering, permitting, financing, and construction of transportation projects under consideration by a regional transportation investment district planning committee or that are part of a regional transportation investment plan being implemented by a regional transportation investment district.

(2) All of the powers granted the department under Title 47 RCW relating to highway construction may, at the request of a regional transportation investment district, be used to implement a regional transportation investment plan and construct transportation projects.

NEW SECTION. Sec. 116. STATE OWNS IMPROVEMENTS TO STATE FACILITIES. Any improvement to a state facility constructed under this chapter becomes and remains the property of this state.

NEW SECTION. Sec. 117. DISSOLUTION. Within thirty days of the completion of the construction of the transportation project or series of projects forming the regional transportation investment plan, the district shall terminate day-to-day operations and exist solely as a limited entity that oversees the collection of revenue and the payment of debt service or financing still in effect, if any. The district shall accordingly adjust downward its employees, administration, and overhead expenses. Any taxes, fees, or tolls imposed under an approved plan terminate when the financing or debt service on the transportation project or series of transportation projects constructed is completed and paid, thirty days from which point the district shall dissolve itself and cease to exist. If there is no debt outstanding, then the district shall dissolve within thirty days from completion of construction of the transportation project or series of transportation projects forming the regional transportation investment plan. Notice of dissolution must be published in newspapers of general circulation within the district at least three times in a period of thirty days. Creditors must file claims for payment of claims due within thirty days of the last published notice or the claim is extinguished.

NEW SECTION. Sec. 118. OTHER REGIONS. The legislature finds that regional solutions to the state's transportation needs are of paramount concern. The legislature further recognizes that different areas of the state will need the flexibility to fashion local solutions to their transportation problems, and that regional transportation systems may evolve over time. Areas of the state outside of King, Snohomish, and Pierce counties are eligible for grants from the state of no more than two hundred thousand dollars each to study and develop regional transportation models. Regions receiving these grants shall:

- (1) Develop a model that can be used within their region to select, fund, and administer regional transportation solutions;
- (2) Adopt a county resolution approving the model proposed;
- (3) Form interlocal agreements among counties as appropriate;
- (4) Report to the transportation committees in the senate and house of representatives, petitioning the legislature to grant them authority to implement their proposed model.

II. JOINT BALLOT WITH RTA

NEW SECTION. Sec. 201. JOINT BALLOT MEASURE. At the option of the planning committee, and with the explicit approval of the regional transit authority, the participating counties may choose to impose any remaining high capacity transportation taxes under chapter 81.104 RCW that have not otherwise been used by a regional transit authority and submit to the voters a common ballot measure that creates the district, approves the regional transportation investment plan, implements the taxes, and implements any remaining high capacity transportation taxes within the boundaries of the

regional transportation investment district. Collection and expenditures of any high capacity transportation taxes implemented under this section must be determined by agreement between the participating counties or district and the regional transit authority electing to submit high capacity transportation taxes to the voters under a common ballot measure as provided in this section. If the measure fails, all such unused high capacity transportation taxes revert back to and remain with the regional transit authority. A project constructed with this funding is not considered a "transportation project" under section 102 of this act.

Sec. 202. RCW 81.104.140 and 1992 c 101 s 25 are each amended to read as follows:

(1) Agencies authorized to provide high capacity transportation service, including transit agencies and regional transit authorities, and regional transportation investment districts acting with the agreement of an agency, are hereby granted dedicated funding sources for such systems. These dedicated funding sources, as set forth in RCW 81.104.150, 81.104.160, and 81.104.170, are authorized only for agencies located in (a) each county with a population of two hundred ten thousand or more and (b) each county with a population of from one hundred twenty-five thousand to less than two hundred ten thousand except for those counties that do not border a county with a population as described under (a) of this subsection. In any county with a population of one million or more or in any county having a population of four hundred thousand or more bordering a county with a population of one million or more, these funding sources may be imposed only by a regional transit authority or a regional transportation investment district. Regional transportation investment districts may, with the approval of the regional transit authority within its boundaries, impose the taxes authorized under this chapter, but only upon approval of the voters and to the extent that the maximum amount of taxes authorized under this chapter have not been imposed.

(2) Agencies planning to construct and operate a high capacity transportation system should also seek other funds, including federal, state, local, and private sector assistance.

(3) Funding sources should satisfy each of the following criteria to the greatest extent possible:

- (a) Acceptability;
- (b) Ease of administration;
- (c) Equity;
- (d) Implementation feasibility;
- (e) Revenue reliability; and
- (f) Revenue yield.

(4) Agencies participating in regional high capacity transportation system development are authorized to levy and collect the following voter-approved local option funding sources:

(a) Employer tax as provided in RCW 81.104.150, other than by regional transportation investment districts;

(b) Special motor vehicle excise tax as provided in RCW 81.104.160; and

(c) Sales and use tax as provided in RCW 81.104.170.

Revenues from these taxes may be used only to support those purposes prescribed in subsection (10) of this section. Before the date of an election authorizing an agency to impose any of the taxes enumerated in this section and authorized in RCW 81.104.150, 81.104.160, and 81.104.170, the agency must comply with the process prescribed in RCW 81.104.100 (1) and (2) and 81.104.110. No construction on exclusive right of way may occur before the requirements of RCW 81.104.100(3) are met.

(5) Authorization in subsection (4) of this section shall not adversely affect the funding authority of transit agencies not provided for in this chapter. Local option funds may be used to support implementation of interlocal agreements with respect to the establishment of regional high capacity transportation service. Except when a regional transit authority exists, local jurisdictions shall retain control over moneys generated within their boundaries, although funds may be commingled with those generated in other areas for planning, construction, and operation of high capacity transportation systems as set forth in the agreements.

(6) Agencies planning to construct and operate high capacity transportation systems may contract with the state for collection and transference of voter-approved local option revenue.

(7) Dedicated high capacity transportation funding sources authorized in RCW 81.104.150, 81.104.160, and 81.104.170 shall be subject to voter approval by a simple majority. A single ballot proposition may seek approval for one or more of the authorized taxing sources. The ballot title shall reference the document identified in subsection (8) of this section.

(8) Agencies shall provide to the registered voters in the area a document describing the systems plan and the financing plan set forth in RCW 81.104.100. It shall also describe the relationship of the system to regional issues such as development density at station locations and activity centers, and the interrelationship of the system to adopted land use and transportation demand management goals within the region. This document shall be provided to the voters at least twenty days prior to the date of the election.

(9) For any election in which voter approval is sought for a high capacity transportation system plan and financing plan pursuant to RCW 81.104.040, a local voter's pamphlet shall be produced as provided in chapter 29.81A RCW.

(10) Agencies providing high capacity transportation service shall retain responsibility for revenue encumbrance, disbursement, and bonding. Funds may be used for any purpose relating to planning, construction, and operation of high capacity transportation systems and commuter rail systems, personal rapid transit, busways, bus sets, and entrained and linked buses.

III. HIGHWAYS OF STATEWIDE SIGNIFICANCE

Sec. 301. RCW 47.05.021 and 1998 c 245 s 95 and 1998 c 171 s 5 are each reenacted and amended to read as follows:

LEGISLATURE MAY DESIGNATE HIGHWAYS OF STATEWIDE SIGNIFICANCE. (1) The transportation commission is hereby directed to conduct periodic analyses of the entire state highway system, report thereon to the chairs of the transportation committees of the senate and house of representatives, including one copy to the staff of each of the committees, biennially and based thereon, to subdivide, classify, and subclassify according to their function and importance all designated state highways and those added from time to time and periodically review and revise the classifications into the following three functional classes:

(a) The "principal arterial system" shall consist of a connected network of rural arterial routes with appropriate extensions into and through urban areas, including all routes designated as part of the interstate system, which serve corridor movements having travel characteristics indicative of substantial statewide and interstate travel;

(b) The "minor arterial system" shall, in conjunction with the principal arterial system, form a rural network of arterial routes linking cities and other activity centers which generate long distance travel, and, with appropriate extensions into and through urban areas, form an integrated network providing interstate and interregional service; and

(c) The "collector system" shall consist of routes which primarily serve the more important intercounty, intracounty, and intraurban travel corridors, collect traffic from the system of local access roads and convey it to the arterial system, and on which, regardless of traffic volume, the predominant travel distances are shorter than on arterial routes.

(2) In making the functional classification the transportation commission shall adopt and give consideration to criteria consistent with this section and federal regulations relating to the functional classification of highways, including but not limited to the following:

(a) Urban population centers within and without the state stratified and ranked according to size;

(b) Important traffic generating economic activities, including but not limited to recreation, agriculture, government, business, and industry;

(c) Feasibility of the route, including availability of alternate routes within and without the state;

(d) Directness of travel and distance between points of economic importance;

(e) Length of trips;

(f) Character and volume of traffic;

(g) Preferential consideration for multiple service which shall include public transportation;

- (h) Reasonable spacing depending upon population density; and
- (i) System continuity.

(3) The transportation commission or the legislature shall designate state highways of statewide significance under RCW 47.06.140(~~and~~). If the commission designates a state highway of statewide significance, it shall submit a list of such facilities for adoption by the ((1999)) legislature. This statewide system shall include at a minimum interstate highways and other statewide principal arterials that are needed to connect major communities across the state and support the state's economy.

(4) The transportation commission shall designate a freight and goods transportation system. This statewide system shall include state highways, county roads, and city streets. The commission, in cooperation with cities and counties, shall review and make recommendations to the legislature regarding policies governing weight restrictions and road closures which affect the transportation of freight and goods.

The contract must contain provisions that fully recover the costs to the department of licensing for collection and administration of the fee.

(4) A regional transportation investment district imposing the local option fee shall delay the effective date of the local option vehicle license fee imposed by this section at least six months from the date of the final certification of the approval election to allow the department of licensing to implement the administration and collection of or exemption from the fee.

DISTRICT AUTHORITY TO IMPOSE HIGH-OCCUPANCY VEHICLE TAXES. Sec. 410. RCW 81.100.030 and 1991 c 363 s 153 are each amended to read as follows:

DISTRICT AUTHORITY TO IMPOSE HIGH-OCCUPANCY VEHICLE EMPLOYER TAX.

(1) A county with a population of one million or more, or a county with a population of from two hundred ten thousand to less than one million that is adjoining a county with a population of one million or more, and having within its boundaries existing or planned high-occupancy vehicle lanes on the state highway system, or a regional transportation investment district for capital improvements, but only to the extent that the tax has not already been imposed by the county, may, with voter approval impose an excise tax of up to two dollars per employee per month on all employers or any class or classes of employers, public and private, including the state located in the agency's jurisdiction, measured by the number of full-time equivalent employees. In no event may the total taxes imposed under this section exceed two dollars per employee per month for any single employer. The county or investment district imposing the tax authorized in this section may provide for exemptions from the tax to such educational, cultural, health, charitable, or religious organizations as it deems appropriate.

Counties or investment districts may contract with the state department of revenue or other appropriate entities for administration and collection of the tax. Such contract shall provide for deduction of an amount for administration and collection expenses.

(2) The tax shall not apply to employment of a person when the employer has paid for at least half of the cost of a transit pass issued by a transit agency for that employee, valid for the period for which the tax would otherwise be owed.

(3) A county or investment district shall adopt rules ~~((which))~~ that exempt from all or a portion of the tax any employer that has entered into an agreement with the county or investment district that is designed to reduce the proportion of employees who drive in single-occupant vehicles during peak commuting periods in proportion to the degree that the agreement is designed to meet the goals for the employer's location adopted under RCW 81.100.040.

The agreement shall include a list of specific actions that the employer will undertake to be entitled to the exemption. Employers having an exemption from all or part of the tax through this subsection shall annually certify to the county or investment district that the employer is fulfilling the terms of the agreement. The exemption continues as long as the employer is in compliance with the agreement.

If the tax authorized in RCW 81.100.060 is also imposed (~~by the county~~), the total proceeds from both tax sources each year shall not exceed the maximum amount which could be collected under RCW 81.100.060.

Sec. 411. RCW 81.100.060 and 1998 c 321 s 34 are each amended to read as follows:

DISTRICT AUTHORITY TO IMPOSE HIGH-OCCUPANCY VEHICLE MOTOR VEHICLE EXCISE TAX. A county with a population of one million or more and a county with a population of from two hundred ten thousand to less than one million that is adjoining a county with a population of one million or more, having within their boundaries existing or planned high-occupancy vehicle lanes on the state highway system, or a regional transportation investment district for capital improvements, but only to the extent that the surcharge has not already been imposed by the county, may, with voter approval, impose a local surcharge of not more than ~~((13.64 percent on the state motor vehicle excise tax paid under RCW 82.44.020(1)))~~ three-tenths of one percent of the value on vehicles registered to a person residing within the county and not more than 13.64 percent on the state sales and use taxes paid under the rate in RCW 82.08.020(2) on retail car rentals within the county or investment district. A county may impose the surcharge only to the extent that it has not been imposed by the district. No surcharge may be imposed on vehicles licensed under RCW 46.16.070 except vehicles with an unladen weight of six thousand pounds or less, RCW 46.16.079, 46.16.085, or 46.16.090.

Counties or investment districts imposing a tax under this section shall contract, before the effective date of the resolution or ordinance imposing a surcharge, administration and collection to the state department of licensing, and department of revenue, as appropriate, which shall deduct an amount, as provided by contract, for administration and collection expenses incurred by the department. All administrative provisions in chapters 82.03, 82.32, and 82.44 RCW shall, insofar as they are applicable to ~~((state))~~ motor vehicle excise taxes, be applicable to surcharges imposed under this section. All administrative provisions in chapters 82.03, 82.08, 82.12, and 82.32 RCW shall, insofar as they are applicable to state sales and use taxes, be applicable to surcharges imposed under this section.

If the tax authorized in RCW 81.100.030 is also imposed (~~by the county~~), the total proceeds from tax sources imposed under this section and RCW 81.100.030 each year shall not exceed the maximum amount which could be collected under this section.

Sec. 412. RCW 82.80.030 and 1990 c 42 s 208 are each amended to read as follows:

DISTRICT AUTHORITY TO IMPOSE PARKING TAX. A city or county may impose the tax only to the extent that it has not been imposed by the district, and a district may impose the tax only to the extent that it has not been imposed by a city or county. The jurisdiction of a county, for purposes of this section, includes only the unincorporated area of the county. The jurisdiction of a city, or district includes only the area within its ~~((incorporated))~~ boundaries.

(2) In lieu of the tax in subsection (1) of this section, a city ~~((or))~~, a county in its unincorporated area, or a district may fix and impose a tax for the act or privilege of parking a motor vehicle in a facility operated by a commercial parking business.

The city ~~((or))~~, county, or district may provide that:

- (d) The tax is a fee per vehicle or is measured by the parking charge;
- (e) The tax rate varies with zoning or location of the facility, the duration of the parking, the time of entry or exit, the type or use of the vehicle, or other reasonable factors; and
- (f) Tax exempt carpools, vehicles with handicapped decals, or government vehicles are exempt from the tax.

(3) "Commercial parking business" as used in this section, means the ownership, lease, operation, or management of a commercial parking lot in which fees are charged. "Commercial parking lot" means a covered or uncovered area with stalls for the purpose of parking motor vehicles.

(4) The rate of the tax under subsection (1) of this section may be based either upon gross proceeds or the number of vehicle stalls available for commercial parking use. The rates charged must be uniform for the same class or type of commercial parking business.

(5) The county (~~(or)~~) city, or district levying the tax provided for in subsection (1) or (2) of this section may provide for its payment on a monthly, quarterly, or annual basis. Each local government may develop by ordinance or resolution rules for administering the tax, including provisions for reporting by commercial parking businesses, collection, and enforcement.

(6) The proceeds of the commercial parking tax fixed and imposed by a city or county under subsection (1) or (2) of this section shall be used strictly for transportation purposes in accordance with RCW 82.80.070. The proceeds of the parking tax imposed by a district must be used as provided in chapter 36.-- RCW (sections 101 through 118, 201, and 401 of this act).

Sec. 413. RCW 82.80.070 and 1991 c 141 s 4 are each amended to read as follows:

REQUIRES THAT LOCAL OPTION TAXES IMPOSED BY DISTRICT BE USED FOR DISTRICT TRANSPORTATION PROJECTS. The proceeds collected from excise taxes on the sale, distribution, or use of motor vehicle fuel and special fuel under RCW 82.80.010 shall be used exclusively for "highway purposes" as that term is construed in Article II, section 40 of the state Constitution.

(2) The local option transportation revenues shall be expended for transportation uses consistent with the adopted transportation and land use plans of the jurisdiction expending the funds and consistent with any applicable and adopted regional transportation plan for metropolitan planning areas.

(3) Each local government with a population greater than eight thousand that levies or expends local option transportation funds, is also required to develop and adopt a specific transportation program that contains the following elements:

(a) The program shall identify the geographic boundaries of the entire area or areas within which local option transportation revenues will be levied and expended.

(b) The program shall be based on an adopted transportation plan for the geographic areas covered and shall identify the proposed operation and construction of transportation improvements and services in the designated plan area intended to be funded in whole or in part by local option transportation revenues and shall identify the annual costs applicable to the program.

(c) The program shall indicate how the local transportation plan is coordinated with applicable transportation plans for the region and for adjacent jurisdictions.

(d) The program shall include at least a six-year funding plan, updated annually, identifying the specific public and private sources and amounts of revenue necessary to fund the program. The program shall include a proposed schedule for construction of projects and expenditure of revenues. The funding plan shall consider the additional local tax revenue estimated to be generated by new development within the plan area if all or a portion of the additional revenue is proposed to be earmarked as future appropriations for transportation improvements in the program.

(4) Local governments with a population greater than eight thousand exercising the authority for local option transportation funds shall periodically review and update their transportation program to ensure that it is consistent with applicable local and regional transportation and land use plans and within the means of estimated public and private revenue available.

(5) In the case of expenditure for new or expanded transportation facilities, improvements, and services, priorities in the use of local option transportation revenues shall be identified in the

transportation program and expenditures shall be made based upon the following criteria, which are stated in descending order of weight to be attributed:

- (a) First, the project serves a multijurisdictional function;
- (b) Second, it is necessitated by existing or reasonably foreseeable congestion;
- (c) Third, it has the greatest person-carrying capacity;
- (d) Fourth, it is partially funded by other government funds, such as from the state

transportation improvement board, or by private sector contributions, such as those from the local transportation act, chapter 39.92 RCW; and

- (e) Fifth, it meets such other criteria as the local government determines is appropriate.

(6) It is the intent of the legislature that as a condition of levying, receiving, and expending local option transportation revenues, no local government agency use the revenues to replace, divert, or loan any revenues currently being used for transportation purposes to nontransportation purposes. The association of Washington cities and the Washington state association of counties, in consultation with the legislative transportation committee, shall study the issue of nondiversion and make recommendations to the legislative transportation committee for language implementing the intent of this section by December 1, 1990.

(7) Local governments are encouraged to enter into interlocal agreements to jointly develop and adopt with other local governments the transportation programs required by this section for the purpose of accomplishing regional transportation planning and development.

(8) Local governments may use all or a part of the local option transportation revenues for the amortization of local government general obligation and revenue bonds issued for transportation purposes consistent with the requirements of this section.

(9) Subsections (1) through (8) of this section do not apply to a regional transportation investment district imposing a tax or fee under the local option authority of this chapter. Proceeds collected under the exercise of local option authority under this chapter by a district must be used in accordance with chapter 36.-- RCW (sections 101 through 118, 201, and 401 of this act).

Sec. 414. RCW 82.80.080 and 1998 c 281 s 2 are each amended to read as follows:

LOCAL OPTION TAX REVENUE DISTRIBUTION. (1) The state treasurer shall distribute revenues, less authorized deductions, generated by the local option taxes authorized in RCW 82.80.010 and 82.80.020, levied by counties to the levying counties, and cities contained in those counties, based on the relative per capita population. County population for purposes of this section is equal to one and one-half of the unincorporated population of the county. In calculating the distributions, the state treasurer shall use the population estimates prepared by the state office of financial management and shall further calculate the distribution based on information supplied by the departments of licensing and revenue, as appropriate.

(2) The state treasurer shall distribute revenues, less authorized deductions, generated by the local option taxes authorized in RCW 82.80.010 and 82.80.020 levied by qualifying cities and towns to the levying cities and towns.

MESSAGE FROM THE SENATE

March 14, 2002

Mr. Speaker:

The Senate has passed ENGROSSED SUBSTITUTE HOUSE BILL NO. 2969, with the following amendment:

Strike everything after the enacting clause and insert the following:

"PART I - ACCOUNTABILITY FOR TRANSPORTATION PROJECTS AND PROGRAMS

NEW SECTION. **Sec. 101.** It is essential that the legislature improve the accountability and efficiency of the department of transportation. Taxpayers must know that their tax dollars are being well spent to deliver critically needed transportation projects. To accomplish this, a transportation accountability process must be established to provide oversight on transportation projects. The legislative transportation accountability committee will replace and assume the duties and responsibilities of the legislative transportation committee and, additionally, in conjunction with an independent transportation accountability board, report to the public on how tax dollars are spent on projects funded by new transportation taxes under this act.

NEW SECTION. **Sec. 102.** In addition to the legislative transportation accountability committee's other responsibilities under this chapter, the committee has the following responsibilities:

(1) Direct the department of transportation to submit a transportation accountability audit report as required under section 103 of this act;

(2) Report annually to the governor and the legislature on the department's progress on each project as further defined in section 103 of this act;

(3) When necessary, make policy recommendations for improving efficiencies, savings, or improvements in the department's project management, accountability measures, or project delivery mechanisms;

(4) Recommend any leading edge transportation project delivery strategies, oversight, accountability, or efficiency measures; and

(5) Appoint members of the transportation accountability board as nominated by the governor pursuant to section 106 of this act.

NEW SECTION. Sec. 103. The department of transportation shall prepare and submit to the transportation commission once each quarter a comprehensive audit report on each transportation project funded by this act. The audit report shall be known as the "transportation accountability audit." For the purposes of this act, the audit must include the following elements:

- (1) Project status and any scope changes;
- (2) Estimated completion date and cost, noting any changes from past estimates;
- (3) Actual project expenditures as compared with projected expenditures;
- (4) Any changes in financing for each project;
- (5) Claim or change orders that result in greater than a five-percent cumulative increase in project cost, or greater than sixty days of delay;
- (6) Status of any required permits;
- (7) Mitigation efforts to relieve both traffic and environmental impacts;
- (8) Evaluation of work force effectiveness, including both state employees and contractors;
- (9) Outlook for the upcoming year, including projected accomplishments and challenges;
- (10) Copies of any accountability reports filed with the federal highway administration; and
- (11) Any other useful information the committee or commission requests.

NEW SECTION. Sec. 104. The transportation commission must review the proposed transportation accountability audit submitted by the department. After reviewing the information contained therein, the commission may request additional information or data, or ask for clarifications. The commission is prohibited from changing any of the data contained in the audit report.

After conducting its review, the commission must forward the transportation accountability audit to the legislative transportation accountability committee and the transportation accountability board.

NEW SECTION. Sec. 105. (1) Upon completion of its review under section 104 of this act, the transportation commission shall forward the transportation accountability audit to the transportation accountability board and the legislative transportation accountability committee. The transportation accountability board will accept or reject the report.

- (a) In determining whether to accept or reject the report, the board:
 - (i) Will analyze, investigate, and evaluate the data contained in the audit report;
 - (ii) May, when authorized by the legislative transportation accountability committee, contract out for planners, consultants, and other technical personnel to assist in the audit review process; and
 - (iii) May request additional information or data from the department of transportation.
- (b) As part of the evaluation process, the board may make recommendations to the legislative transportation accountability committee for efficiencies, savings, or improvements in the department's project management, accountability measures, or project delivery mechanisms.

(2) After reviewing the report, the board must forward the transportation accountability audit and recommendations to the office of financial management and the legislative transportation accountability committee.

(3) The legislative transportation accountability committee must make the transportation accountability audit report available to the public.

(4) In addition to its regular staff, the legislative transportation accountability committee is authorized to contract out for planners, consultants, and other technical personnel to advise it, or the board at its request, in the performance of its duties, assist in the review of the transportation accountability audit, and to assist in other audits initiated by the committee.

(5) Staff support to the board must be provided by the legislative transportation accountability committee, which shall provide professional support for the duties, functions, responsibilities, and activities of the board, including but not limited to information technology systems; data collection, processing, analysis, and reporting; project management; and office space, equipment, and secretarial

support. The legislative evaluation and accountability program will provide data and information technology support consistent with the support currently supplied to existing legislative committees.

NEW SECTION. Sec. 106. (1) The transportation accountability board is created.

(2) The board will consist of no fewer than five and no more than nine members nominated by the governor, and selected by the legislative transportation accountability committee, for terms of four years, except that at least half the members initially appointed will be appointed for terms of two years. The members of the board must be chosen so the board will have experience and expertise relating to major civil engineering and construction works and facilities to include: (a) Design, estimating, contract packaging, and procurement; (b) construction means and methods and construction management and administration; (c) project finance, accounting, controls, and reporting; (d) procedures for obtaining permits and for assuring regulatory compliance; (e) dispute resolution; (f) construction work force training and safety; (g) general public administration; and (h) experience crafting and implementing environmental mitigation plans.

(3) The legislative transportation accountability committee may not remove members from the board before the expiration of their terms unless for cause based upon a determination of incapacity, incompetence, neglect of duty, or malfeasance in office by the Thurston county superior court, upon petition and show cause proceedings brought for that purpose in that court and directed to the board member in question.

(4) No member may be appointed for more than three consecutive terms.

NEW SECTION. Sec. 107. (1) The board shall meet periodically. It may adopt its own rules and may establish its own procedures. It shall act collectively in harmony with recorded resolutions or motions adopted by a majority vote of the members. The board shall be compensated from the general appropriation for the legislative transportation accountability committee and in accordance with RCW 43.03.250.

(2) Each member of the board will be compensated in accordance with RCW 43.03.250 and reimbursed for actual necessary traveling and other expenses in going to, attending, and returning from meetings of the board or that are incurred in the discharge of duties requested by the chairman. However, in no event may a board member be compensated in any year for more than one hundred twenty days, except the chairman may be compensated for not more than one hundred fifty days. Service on the board does not qualify as a service credit for the purposes of a public retirement system.

(3) The board shall keep proper records and is subject to audit by the state auditor or other auditing entities.

SENATE AMENDMENTS TO HOUSE BILL

March 14, 2002

Mr. Speaker:

The Senate has passed SECOND SUBSTITUTE HOUSE BILL NO. 2697, with the following amendment:

Strike everything after the enacting clause and insert the following:

"**Sec. 1.** RCW 36.70A.020 and 1990 1st ex.s. c 17 s 2 are each amended to read as follows:

The following goals are adopted to guide the development and adoption of comprehensive plans and development regulations of those counties and cities that are required or choose to plan under RCW 36.70A.040. The following goals are not listed in order of priority and shall be used exclusively for the purpose of guiding the development of comprehensive plans and development regulations:

- (1) Urban growth. Encourage development in urban areas where adequate public facilities and services exist or can be provided in an efficient manner.
- (2) Reduce sprawl. Reduce the inappropriate conversion of undeveloped land into sprawling, low-density development.
- (3) Transportation. Encourage efficient multimodal transportation systems that are based on regional priorities and coordinated with county and city comprehensive plans.
- (4) Housing. Encourage the availability of affordable housing to all economic segments of the population of this state, promote a variety of residential densities and housing types, and encourage preservation of existing housing stock.
- (5) Economic development. Encourage economic development throughout the state that is consistent with adopted comprehensive plans, promote economic opportunity for all citizens of this state, especially for unemployed and for disadvantaged persons, promote the retention and expansion of existing businesses and recruitment of new businesses, recognize regional differences impacting economic development opportunities, and encourage growth in areas experiencing insufficient economic growth, all within the capacities of the state's natural resources, public services, and public facilities.
- (6) Property rights. Private property shall not be taken for public use without just compensation having been made. The property rights of landowners shall be protected from arbitrary and discriminatory actions.
- (7) Permits. Applications for both state and local government permits should be processed in a timely and fair manner to ensure predictability.
- (8) Natural resource industries. Maintain and enhance natural resource-based industries, including productive timber, agricultural, and fisheries industries. Encourage the conservation of productive forest lands and productive agricultural lands, and discourage incompatible uses.

(9) Open space and recreation. (~~Encourage the retention of~~) Retain open space (~~and development of~~), enhance recreational opportunities, conserve fish and wildlife habitat, increase access to natural resource lands and water, and develop parks and recreation facilities.

(10) Environment. Protect the environment and enhance the state's high quality of life, including air and water quality, and the availability of water.

(11) Citizen participation and coordination. Encourage the involvement of citizens in the planning process and ensure coordination between communities and jurisdictions to reconcile conflicts.

(12) Public facilities and services. Ensure that those public facilities and services necessary to support development shall be adequate to serve the development at the time the development is available for occupancy and use without decreasing current service levels below locally established minimum standards.

(13) Historic preservation. Identify and encourage the preservation of lands, sites, and structures, that have historical or archaeological significance.

Sec. 2. RCW 36.70A.070 and 1998 c 171 s 2 are each amended to read as follows:

The comprehensive plan of a county or city that is required or chooses to plan under RCW 36.70A.040 shall consist of a map or maps, and descriptive text covering objectives, principles, and standards used to develop the comprehensive plan. The plan shall be an internally consistent document and all elements shall be consistent with the future land use map. A comprehensive plan shall be adopted and amended with public participation as provided in RCW 36.70A.140.

Each comprehensive plan shall include a plan, scheme, or design for each of the following:

(1) A land use element designating the proposed general distribution and general location and extent of the uses of land, where appropriate, for agriculture, timber production, housing, commerce, industry, recreation, open spaces, general aviation airports, public utilities, public facilities, and other land uses. The land use element shall include population densities, building intensities, and estimates of future population growth. The land use element shall provide for protection of the quality and quantity of ground water used for public water supplies. Where applicable, the land use element shall review drainage, flooding, and storm water run-off in the area and nearby jurisdictions and provide guidance for corrective actions to mitigate or cleanse those discharges that pollute waters of the state, including Puget Sound or waters entering Puget Sound.

(2) A housing element ensuring the vitality and character of established residential neighborhoods that: (a) Includes an inventory and analysis of existing and projected housing needs that identifies the number of housing units necessary to manage projected growth; (b) includes a statement of goals, policies, objectives, and mandatory provisions for the preservation, improvement, and development of housing, including single-family residences; (c) identifies sufficient land for housing, including, but not limited to, government-assisted housing, housing for low-income families, manufactured housing, multifamily housing, and group homes and foster care facilities; and (d) makes adequate provisions for existing and projected needs of all economic segments of the community.

(3) A capital facilities plan element consisting of: (a) An inventory of existing capital facilities owned by public entities, showing the locations and capacities of the capital facilities; (b) a forecast of the future needs for such capital facilities; (c) the proposed locations and capacities of expanded or new capital facilities; (d) at least a six-year plan that will finance such capital facilities within projected funding capacities and clearly identifies sources of public money for such purposes; and (e) a requirement to reassess the land use element if probable funding falls short of meeting existing needs and to ensure that the land use element, capital facilities plan element, and financing plan within the capital facilities plan element are coordinated and consistent. Park and recreation facilities shall be included in the capital facilities plan element.

(4) A utilities element consisting of the general location, proposed location, and capacity of all existing and proposed utilities, including, but not limited to, electrical lines, telecommunication lines, and natural gas lines.

(5) Rural element. Counties shall include a rural element including lands that are not designated for urban growth, agriculture, forest, or mineral resources. The following provisions shall apply to the rural element:

(a) Growth management act goals and local circumstances. Because circumstances vary from county to county, in establishing patterns of rural densities and uses, a county may consider local circumstances, but shall develop a written record explaining how the rural element harmonizes the planning goals in RCW 36.70A.020 and meets the requirements of this chapter.

(b) Rural development. The rural element shall permit rural development, forestry, and agriculture in rural areas. The rural element shall provide for a variety of rural densities, uses, essential public facilities, and rural governmental services needed to serve the permitted densities and uses. In order to achieve a variety of rural densities and uses, counties may provide for clustering, density transfer, design guidelines, conservation easements, and other innovative techniques that will accommodate appropriate rural densities and uses that are not characterized by urban growth and that are consistent with rural character.

(c) Measures governing rural development. The rural element shall include measures that apply to rural development and protect the rural character of the area, as established by the county, by:

(i) Containing or otherwise controlling rural development;

(ii) Assuring visual compatibility of rural development with the surrounding rural area;

(iii) Reducing the inappropriate conversion of undeveloped land into sprawling, low-density development in the rural area;

(iv) Protecting critical areas, as provided in RCW 36.70A.060, and surface water and ground water resources; and

(v) Protecting against conflicts with the use of agricultural, forest, and mineral resource lands designated under RCW 36.70A.170.

(d) Limited areas of more intensive rural development. Subject to the requirements of this subsection and except as otherwise specifically provided in this subsection (5)(d), the rural element may allow for limited areas of more intensive rural development, including necessary public facilities and public services to serve the limited area as follows:

(i) Rural development consisting of the infill, development, or redevelopment of existing commercial, industrial, residential, or mixed-use areas, whether characterized as shoreline development, villages, hamlets, rural activity centers, or crossroads developments. A commercial, industrial, residential, shoreline, or mixed-use area shall be subject to the requirements of (d)(iv) of this subsection, but shall not be subject to the requirements of (c)(ii) and (iii) of this subsection. An industrial area is not required to be principally designed to serve the existing and projected rural population;

(ii) The intensification of development on lots containing, or new development of, small-scale recreational or tourist uses, including commercial facilities to serve those recreational or tourist uses, that rely on a rural location and setting, but that do not include new residential development. A small-scale recreation or tourist use is not required to be principally designed to serve the existing and projected rural population. Public services and public facilities shall be limited to those necessary to serve the recreation or tourist use and shall be provided in a manner that does not permit low-density sprawl;

(iii) The intensification of development on lots containing isolated nonresidential uses or new development of isolated cottage industries and isolated small-scale businesses that are not principally designed to serve the existing and projected rural population and nonresidential uses, but do provide job opportunities for rural residents. Public services and public facilities shall be limited to those necessary to serve the isolated nonresidential use and shall be provided in a manner that does not permit low-density sprawl;

(iv) A county shall adopt measures to minimize and contain the existing areas or uses of more intensive rural development, as appropriate, authorized under this subsection. Lands included in such existing areas or uses shall not extend beyond the logical outer boundary of the existing area or use, thereby allowing a new pattern of low-density sprawl. Existing areas are those that are clearly identifiable and contained and where there is a logical boundary delineated predominately by

the built environment, but that may also include undeveloped lands if limited as provided in this subsection. The county shall establish the logical outer boundary of an area of more intensive rural development. In establishing the logical outer boundary the county shall address (A) the need to preserve the character of existing natural neighborhoods and communities, (B) physical boundaries such as bodies of water, streets and highways, and land forms and contours, (C) the prevention of abnormally irregular boundaries, and (D) the ability to provide public facilities and public services in a manner that does not permit low-density sprawl;

(v) For purposes of (d) of this subsection, an existing area or existing use is one that was in existence:

(A) On July 1, 1990, in a county that was initially required to plan under all of the provisions of this chapter;

(B) On the date the county adopted a resolution under RCW 36.70A.040(2), in a county that is planning under all of the provisions of this chapter under RCW 36.70A.040(2); or

(C) On the date the office of financial management certifies the county's population as provided in RCW 36.70A.040(5), in a county that is planning under all of the provisions of this chapter pursuant to RCW 36.70A.040(5).

(e) Exception. This subsection shall not be interpreted to permit in the rural area a major industrial development or a master planned resort unless otherwise specifically permitted under RCW 36.70A.360 and 36.70A.365.

(6) A transportation element that implements, and is consistent with, the land use element.

(a) The transportation element shall include the following subelements:

(i) Land use assumptions used in estimating travel;

(ii) Estimated traffic impacts to state-owned transportation facilities resulting from land use assumptions to assist the department of transportation in monitoring the performance of state facilities, to plan improvements for the facilities, and to assess the impact of land-use decisions on state-owned transportation facilities;

(iii) Facilities and services needs, including:

(A) An inventory of air, water, and ground transportation facilities and services, including transit alignments and general aviation airport facilities, to define existing capital facilities and travel levels as a basis for future planning. This inventory must include state-owned transportation facilities within the city or county's jurisdiction boundaries;

(B) Level of service standards for all locally owned arterials and transit routes to serve as a gauge to judge performance of the system. These standards should be regionally coordinated;

(C) For state-owned transportation facilities, level of service standards for highways, as prescribed in chapters 47.06 and 47.80 RCW, to gauge the performance of the system. The purposes of reflecting level of service standards for state highways in the local comprehensive plan are to monitor the performance of the system, to evaluate improvement strategies, and to facilitate coordination between the county's or city's six-year street, road, or transit program and the department of transportation's six-year investment program. The concurrency requirements of (b) of this subsection do not apply to transportation facilities and services of statewide significance except for counties consisting of islands whose only connection to the mainland are state highways or ferry routes. In these island counties, state highways and ferry route capacity must be a factor in meeting the concurrency requirements in (b) of this subsection;

(D) Specific actions and requirements for bringing into compliance locally owned transportation facilities or services that are below an established level of service standard;

(E) Forecasts of traffic for at least ten years based on the adopted land use plan to provide information on the location, timing, and capacity needs of future growth;

(F) Identification of state and local system needs to meet current and future demands. Identified needs on state-owned transportation facilities must be consistent with the statewide multimodal transportation plan required under chapter 47.06 RCW;

(iv) Finance, including:

(A) An analysis of funding capability to judge needs against probable funding resources;

(B) A multiyear financing plan based on the needs identified in the comprehensive plan, the appropriate parts of which shall serve as the basis for the six-year street, road, or transit program

required by RCW 35.77.010 for cities, RCW 36.81.121 for counties, and RCW 35.58.2795 for public transportation systems. The multiyear financing plan should be coordinated with the six-year improvement program developed by the department of transportation as required by RCW 47.05.030;

(C) If probable funding falls short of meeting identified needs, a discussion of how additional funding will be raised, or how land use assumptions will be reassessed to ensure that level of service standards will be met;

(v) Intergovernmental coordination efforts, including an assessment of the impacts of the transportation plan and land use assumptions on the transportation systems of adjacent jurisdictions;

(vi) Demand-management strategies.

(b) After adoption of the comprehensive plan by jurisdictions required to plan or who choose to plan under RCW 36.70A.040, local jurisdictions must adopt and enforce ordinances which prohibit development approval if the development causes the level of service on a locally owned transportation facility to decline below the standards adopted in the transportation element of the comprehensive plan, unless transportation improvements or strategies to accommodate the impacts of development are made concurrent with the development. These strategies may include increased public transportation service, ride sharing programs, demand management, and other transportation systems management strategies. For the purposes of this subsection (6) "concurrent with the development" shall mean that improvements or strategies are in place at the time of development, or that a financial commitment is in place to complete the improvements or strategies within six years.

(c) The transportation element described in this subsection (6), and the six-year plans required by RCW 35.77.010 for cities, RCW 36.81.121 for counties, RCW 35.58.2795 for public transportation systems, and RCW 47.05.030 for the state, must be consistent.

(7) An economic development element establishing local goals, policies, objectives, and provisions for economic growth and vitality and a high quality of life. The element shall include: (a) A summary of the local economy such as population, employment, payroll, sectors, businesses, sales, and other information as appropriate; (b) a summary of the strengths and weaknesses of the local economy defined as the commercial and industrial sectors and supporting factors such as land use, transportation, utilities, education, workforce, housing, and natural/cultural resources; and (c) an identification of policies, programs, and projects to foster economic growth and development and to address future needs. A city that has chosen to be a residential community is exempt from the economic development element requirement of this subsection.

(8) A park and recreation element that implements, and is consistent with, the capital facilities plan element as it relates to park and recreation facilities. The element shall include: (a) Estimates of park and recreation demand for at least a ten-year period; (b) an evaluation of facilities and service needs; and (c) an evaluation of intergovernmental coordination opportunities to provide regional approaches for meeting park and recreational demand.

(9) It is the intent that new or amended elements required after January 1, 2002, be adopted concurrent with the scheduled update provided in RCW 36.70A.130. Requirements to incorporate any such new or amended elements shall be null and void until funds sufficient to cover applicable local government costs are appropriated and distributed by the state at least two years before local government must update comprehensive plans as required in RCW 36.70A.130."

On page 1, line 2 of the title, after "planning;" strike the remainder of the title and insert "and amending RCW 36.70A.020 and 36.70A.070."

and the same is herewith transmitted.

SENATE AMENDMENTS TO HOUSE BILL

March 14, 2002

Mr. Speaker:

The Senate receded from its amendment to SUBSTITUTE HOUSE BILL NO. 2807, and under suspension of the rules returned SUBSTITUTE HOUSE BILL NO. 2807 to second reading for purpose of amendment. The Senate further adopted amendment the following amendment and passed the measure as amended:

Strike everything after the enacting clause and insert the following:

NEW SECTION. Sec. 1. The legislature intends to strengthen the link between postsecondary education and K-12 education by creating the Washington promise scholarship program for academically successful high school graduates from low and middle-income families. The legislature finds that, increasingly, an individual's economic viability is contingent on postsecondary educational opportunities, yet the state's full financial obligation is eliminated after the twelfth grade. Students who work hard in kindergarten through twelfth grade and successfully complete high school with high academic marks may not have the financial ability to attend college because they cannot obtain financial aid or the financial aid is insufficient.

NEW SECTION. Sec. 2. The higher education coordinating board shall design the Washington promise scholarship program based on the following parameters:

(1) Scholarships shall be awarded to students graduating from public and approved private high schools under chapter 28A.195 RCW and students participating in home-based instruction as provided in chapter 28A.200 RCW who meet both an academic and a financial eligibility criteria.

(a) Academic eligibility criteria shall be defined as follows:

(i) Beginning with the graduating class of 2002, students graduating from public and approved private high schools under chapter 28A.195 RCW must be in the top fifteen percent of their graduating class, as identified by each respective high school at the completion of the first term of the student's senior year; or

(ii) Students graduating from public high schools, approved private high schools under chapter 28A.195 RCW, and students participating in home-based instruction as provided in chapter 28A.200 RCW must equal or exceed a cumulative scholastic assessment test I score of twelve

hundred on their first attempt or must equal or exceed a composite American college test score of twenty-seven on their first attempt.

(b) To meet the financial eligibility criteria, a student's family income shall not exceed one hundred thirty-five percent of the state median family income adjusted for family size, as determined by the higher education coordinating board for each graduating class. Students not meeting the eligibility requirements for the first year of scholarship benefits may reapply for the second year of benefits, but must still meet the income standard set by the board for the student's graduating class.

(2) Promise scholarships are not intended to supplant any grant, scholarship, or tax program related to postsecondary education. If the board finds that promise scholarships supplant or reduce any grant, scholarship, or tax program for categories of students, then the board shall adjust the financial eligibility criteria or the amount of scholarship to the level necessary to avoid supplanting.

(3) Within available funds, each qualifying student shall receive two consecutive annual awards, the value of each not to exceed the full-time annual resident tuition rates charged by Washington's community colleges. The higher education coordinating board shall award scholarships to as many students as possible from among those qualifying under this section.

(4) By October 15th of each year, the board shall determine the award amount of the scholarships, after taking into consideration the availability of funds.

(5) The scholarships may only be used for undergraduate coursework at accredited institutions of higher education in the state of Washington.

(6) The scholarships may be used for undergraduate coursework at Oregon institutions of higher education that are part of the border county higher education opportunity project in RCW 28B.80.806 when those institutions offer programs not available at accredited institutions of higher education in Washington state.

(7) The scholarships may be used for college-related expenses, including but not limited to, tuition, room and board, books, and materials.

(8) The scholarships may not be awarded to any student who is pursuing a degree in theology.

(9) The higher education coordinating board may establish satisfactory progress standards for the continued receipt of the promise scholarship.

(10) The higher education coordinating board shall establish the time frame within which the student must use the scholarship.

NEW SECTION. Sec. 3. The higher education coordinating board, with the assistance of the office of the superintendent of public instruction, shall implement and administer the Washington promise scholarship program described in section 2 of this act as follows:

(1) The first scholarships shall be awarded to eligible students enrolling in postsecondary education in the 2002-03 academic year.

(2) The office of the superintendent of public instruction shall provide information to the higher education coordinating board that is necessary for implementation of the program. The higher education coordinating board and the office of the superintendent of public instruction shall jointly establish a timeline and procedures necessary for accurate and timely data reporting.

(a) For students meeting the academic eligibility criteria as provided in section 2(1)(a) of this act, the office of the superintendent of public instruction shall provide the higher education coordinating board with student names, addresses, birth dates, and unique numeric identifiers.

(b) Public and approved private high schools under chapter 28A.195 RCW shall provide requested information necessary for implementation of the program to the office of the superintendent of public instruction within the established timeline.

(c) All student data is confidential and may be used solely for the purposes of providing scholarships to eligible students.

(3) The higher education coordinating board may adopt rules to implement this chapter.

NEW SECTION. Sec. 4. The Washington promise scholarship program shall not be funded at the expense of the state need grant program as defined in RCW 28B.10.800 through 28B.10.824. In administering the state need grant and promise scholarship programs, the higher education

coordinating board shall first ensure that eligibility for state need grant recipients is at least fifty-five percent of state median family income.

NEW SECTION. Sec. 5. This chapter shall not be construed to change current state requirements for students who received home-based instruction under chapter 28A.200 RCW.

NEW SECTION. Sec. 6. (1) The Washington promise scholarship account is created in the custody of the state treasurer. The account shall be a nontreasury account retaining its interest earnings in accordance with RCW 43.79A.040.

(2) The higher education coordinating board shall deposit in the account all money received for the program. The account shall be self-sustaining and consist of funds appropriated by the legislature for the Washington promise scholarship program, private contributions to the program, and refunds of Washington promise scholarships.

(3) Expenditures from the account shall be used for scholarships to eligible students.

(4) With the exception of the operating costs associated with the management of the account by the treasurer's office as authorized in chapter 43.79A RCW, the account shall be credited with all investment income earned by the account.

(5) Disbursements from the account are exempt from appropriations and the allotment provisions of chapter 43.88 RCW.

(6) Disbursements from the account shall be made only on the authorization of the higher education coordinating board.

Sec. 7. RCW 43.79A.040 and 2001 c 201 s 4 and 2001 c 184 s 4 are each reenacted and amended to read as follows:

(1) Money in the treasurer's trust fund may be deposited, invested, and reinvested by the state treasurer in accordance with RCW 43.84.080 in the same manner and to the same extent as if the money were in the state treasury.

(2) All income received from investment of the treasurer's trust fund shall be set aside in an account in the treasury trust fund to be known as the investment income account.

(3) The investment income account may be utilized for the payment of purchased banking services on behalf of treasurer's trust funds including, but not limited to, depository, safekeeping, and disbursement functions for the state treasurer or affected state agencies. The investment income account is subject in all respects to chapter 43.88 RCW, but no appropriation is required for payments to financial institutions. Payments shall occur prior to distribution of earnings set forth in subsection (4) of this section.

(4)(a) Monthly, the state treasurer shall distribute the earnings credited to the investment income account to the state general fund except under (b) and (c) of this subsection.

(b) The following accounts and funds shall receive their proportionate share of earnings based upon each account's or fund's average daily balance for the period: The Washington promise scholarship account, the college savings program account, the Washington advanced college tuition payment program account, the agricultural local fund, the American Indian scholarship endowment fund, the basic health plan self-insurance reserve account, the Washington international exchange scholarship endowment fund, the developmental disabilities endowment trust fund, the energy account, the fair fund, the game farm alternative account, the grain inspection revolving fund, the juvenile accountability incentive account, the rural rehabilitation account, the stadium and exhibition center account, the youth athletic facility account, the self-insurance revolving fund, the sulfur dioxide abatement account, and the children's trust fund. However, the earnings to be distributed shall first be reduced by the allocation to the state treasurer's service fund pursuant to RCW 43.08.190.

(c) The following accounts and funds shall receive eighty percent of their proportionate share of earnings based upon each account's or fund's average daily balance for the period: The advanced right of way revolving fund, the advanced environmental mitigation revolving account, the city and county advance right-of-way revolving fund, the federal narcotics asset forfeitures account, the high

occupancy vehicle account, the local rail service assistance account, and the miscellaneous transportation programs account.

(5) In conformance with Article II, section 37 of the state Constitution, no trust accounts or funds shall be allocated earnings without the specific affirmative directive of this section.

NEW SECTION. **Sec. 8.** Sections 1 through 6 of this act constitute a new chapter in Title 28B RCW.

NEW SECTION. **Sec. 9.** This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect immediately."

If the actual cost of fuel is less than this budgeted amount, the excess amount may not be expended. If the actual cost exceeds this amount, the department shall request a supplemental appropriation.

For the purposes of this section, the expenditures for compensation paid to ferry employees shall be limited to salaries and wages and employee benefits as defined in the office of

financial management's policies, regulations, and procedures named under objects of expenditure "A" and "B" (7.2.6.2).

The prescribed salary and insurance benefit increase or decrease dollar amount that shall be allocated from the governor's compensation appropriations is in addition to the appropriation contained in this section and may be used to increase or decrease compensation costs, effective July 1, 2001, and thereafter, as established in the 2001-2003 general fund operating budget.

(3) The department shall issue a request for information from entities interested in purchasing advertising on board Washington state ferry vessels. The department shall evaluate the proposals and report back to the legislature's transportation committees in January 2002 regarding the potential for revenue from different types of advertising.

(4) The department may enter into contracts with private vendors to sell ferry tickets and medium at locations other than Washington state ferry terminals or facilities.

(a) The department may enter into the contracts only (i) with private vendors that are already established businesses offering goods for sale to the general public; and (ii) if it determines that the vendor's established location has the potential to serve a significant percentage of the customers using a particular ferry route.

(b) The department may adopt necessary rules and procedures to allow the use of credit and debit cards to purchase ferry tickets or medium from a private vendor who has contracted with the department to sell ferry tickets or medium. The department may establish a convenience fee to be paid by all persons purchasing ferry tickets and medium at locations other than Washington state ferry terminals or facilities. The convenience fee must be sufficient to offset the charges imposed on the department by the credit and debit card companies. The department shall develop a request for funding of the on-going operating costs associated with the regional fare coordination project and shall present this request to the 2003 legislature. The request for funding shall be sufficient to support a system that prevents the disclosure of personally identifying information of persons who use a smart card to facilitate payment of ferry fares. The requested system may facilitate the disclosure of aggregate information on fare collection to governmental agencies or groups concerned with public transportation or public safety as long as the data does not contain any personally identifying information. The requested system shall not prevent the release of personally identifying information to law enforcement agencies when required by a subpoena.

The Senate further adopted amendments 903, 904 and 907 and passed the measure as amended.

Strike everything after the enacting clause and insert the following:

"PART I - ACCOUNTABILITY FOR TRANSPORTATION PROJECTS AND PROGRAMS

NEW SECTION. Sec. 101. It is essential that the legislature improve the accountability and efficiency of the department of transportation. Taxpayers must know that their tax dollars are being well spent to deliver critically needed transportation projects. To accomplish this, a transportation accountability process must be established to provide oversight on transportation projects. The legislative transportation accountability committee will replace and assume the duties and responsibilities of the legislative transportation committee and, additionally, in conjunction with an independent transportation accountability board, report to the public on how tax dollars are spent on projects funded by new transportation taxes under this act.

NEW SECTION. Sec. 102. In addition to the legislative transportation accountability committee's other responsibilities under this chapter, the committee has the following responsibilities:

- (1) Direct the department of transportation to submit a transportation accountability audit report as required under section 103 of this act;
- (2) Report annually to the governor and the legislature on the department's progress on each project as further defined in section 103 of this act;
- (3) When necessary, make policy recommendations for improving efficiencies, savings, or improvements in the department's project management, accountability measures, or project delivery mechanisms;
- (4) Recommend any leading edge transportation project delivery strategies, oversight, accountability, or efficiency measures; and
- (5) Appoint members of the transportation accountability board as nominated by the governor pursuant to section 106 of this act.

NEW SECTION. Sec. 103. The department of transportation shall prepare and submit to the transportation commission once each quarter a comprehensive audit report on each transportation project funded by this act. The audit report shall be known as the "transportation accountability audit." For the purposes of this act, the audit must include the following elements:

- (1) Project status and any scope changes;
- (2) Estimated completion date and cost, noting any changes from past estimates;
- (3) Actual project expenditures as compared with projected expenditures;
- (4) Any changes in financing for each project;
- (5) Claim or change orders that result in greater than a five-percent cumulative increase in project cost, or greater than sixty days of delay;
- (6) Status of any required permits;
- (7) Mitigation efforts to relieve both traffic and environmental impacts;
- (8) Evaluation of work force effectiveness, including both state employees and contractors;
- (9) Outlook for the upcoming year, including projected accomplishments and challenges;
- (10) Copies of any accountability reports filed with the federal highway administration; and
- (11) Any other useful information the committee or commission requests.

NEW SECTION. Sec. 104. The transportation commission must review the proposed transportation accountability audit submitted by the department. After reviewing the information contained therein, the commission may request additional information or data, or ask for clarifications. The commission is prohibited from changing any of the data contained in the audit report.

After conducting its review, the commission must forward the transportation accountability audit to the legislative transportation accountability committee and the transportation accountability board.

NEW SECTION. Sec. 105. (1) Upon completion of its review under section 104 of this act, the transportation commission shall forward the transportation accountability audit to the transportation accountability board and the legislative transportation accountability committee. The transportation accountability board will accept or reject the report.

- (a) In determining whether to accept or reject the report, the board:
 - (i) Will analyze, investigate, and evaluate the data contained in the audit report;
 - (ii) May, when authorized by the legislative transportation accountability committee, contract out for planners, consultants, and other technical personnel to assist in the audit review process; and
 - (iii) May request additional information or data from the department of transportation.
- (b) As part of the evaluation process, the board may make recommendations to the legislative transportation accountability committee for efficiencies, savings, or improvements in the department's project management, accountability measures, or project delivery mechanisms.

(2) After reviewing the report, the board must forward the transportation accountability audit and recommendations to the office of financial management and the legislative transportation accountability committee.

(3) The legislative transportation accountability committee must make the transportation accountability audit report available to the public.

(4) In addition to its regular staff, the legislative transportation accountability committee is authorized to contract out for planners, consultants, and other technical personnel to advise it, or the board at its request, in the performance of its duties, assist in the review of the transportation accountability audit, and to assist in other audits initiated by the committee.

(5) Staff support to the board must be provided by the legislative transportation accountability committee, which shall provide professional support for the duties, functions, responsibilities, and activities of the board, including but not limited to information technology systems; data collection, processing, analysis, and reporting; project management; and office space, equipment, and secretarial support. The legislative evaluation and accountability program will provide data and information technology support consistent with the support currently supplied to existing legislative committees.

NEW SECTION. Sec. 106. (1) The transportation accountability board is created.

(2) The board will consist of no fewer than five and no more than nine members nominated by the governor, and selected by the legislative transportation accountability committee, for terms of four years, except that at least half the members initially appointed will be appointed for terms of two years. The members of the board must be chosen so the board will have experience and expertise relating to major civil engineering and construction works and facilities to include: (a) Design, estimating, contract packaging, and procurement; (b) construction means and methods and construction management and administration; (c) project finance, accounting, controls, and reporting; (d) procedures for obtaining permits and for assuring regulatory compliance; (e) dispute resolution; (f) construction work force training and safety; (g) general public administration; and (h) experience crafting and implementing environmental mitigation plans.

(3) The legislative transportation accountability committee may not remove members from the board before the expiration of their terms unless for cause based upon a determination of incapacity, incompetence, neglect of duty, or malfeasance in office by the Thurston county superior court, upon petition and show cause proceedings brought for that purpose in that court and directed to the board member in question.

(4) No member may be appointed for more than three consecutive terms.

NEW SECTION. Sec. 107. (1) The board shall meet periodically. It may adopt its own rules and may establish its own procedures. It shall act collectively in harmony with recorded resolutions or motions adopted by a majority vote of the members. The board shall be compensated from the general appropriation for the legislative transportation accountability committee and in accordance with RCW 43.03.250.

(2) Each member of the board will be compensated in accordance with RCW 43.03.250 and reimbursed for actual necessary traveling and other expenses in going to, attending, and returning from meetings of the board or that are incurred in the discharge of duties requested by the chairman. However, in no event may a board member be compensated in any year for more than one hundred twenty days, except the chairman may be compensated for not more than one hundred fifty days. Service on the board does not qualify as a service credit for the purposes of a public retirement system.

In order to encourage the use of nonpolluting fuels, an annual license fee in lieu of the tax imposed by RCW 82.38.030 shall be imposed upon the use of natural gas as defined in this chapter or on liquified petroleum gas, commonly called propane, which is used in any motor vehicle, as defined in RCW 46.04.320, which shall be based upon the following schedule as adjusted by the formula set out below:

The expenditures in this subsection (1)(d) shall be calculated on the motor vehicle fuel tax in effect January 1, 1990, until this subsection (1)(d) is amended to reflect the findings of the recreational fuel use study provided in section 346, chapter 8, Laws of 2001 2nd sp. sess. The revenue collected under this subsection shall be deposited in the multimodal transportation account created in RCW 47.66.070.

(3) Beginning April 1, 2003, there is levied and collected an additional tax of one percent of the selling price on each retail sale of a motor vehicle in this state, other than retail car rentals taxed under subsection (2) of this section.

~~((4))~~ (7) The rates provided in this section apply to taxes imposed under chapter 82.12 RCW as provided in RCW 82.12.020.

Sec. 402. RCW 82.12.020 and 1999 c 358 s 9 are each amended to read as follows:

(2) This tax shall apply to the use of every service defined as a retail sale in RCW 82.04.050(3)(a) and the use of every article of tangible personal property, including property acquired at a casual or isolated sale, and including byproducts used by the manufacturer thereof, except as hereinafter provided, irrespective of whether the article or similar articles are manufactured or are available for purchase within this state.

(3) Except as provided in RCW 82.12.0252, payment by one purchaser or user of tangible personal property or service of the tax imposed by chapter 82.08 or 82.12 RCW shall not have the effect of exempting any other purchaser or user of the same property or service from the taxes imposed by such chapters.

(4) The tax shall be levied and collected in an amount equal to the value of the article used by the taxpayer multiplied by the rates in effect for the retail sales tax under RCW 82.08.020.

Sec. 403. RCW 82.12.045 and 1996 c 149 s 19 are each amended to read as follows:

(1) In the collection of the use tax on motor vehicles, the department of revenue may designate the county auditors of the several counties of the state as its collecting agents. Upon such designation, it shall be the duty of each county auditor to collect the tax at the time an applicant applies for the registration of, and transfer of title to, the motor vehicle, except in the following instances:

(a) Where the applicant exhibits a dealer's report of sale showing that the retail sales tax has been collected by the dealer;

(b) Where the application is for the renewal of registration;
(c) Where the applicant presents a written statement signed by the department of revenue, or its duly authorized agent showing that no use tax is legally due; or
(d) Where the applicant presents satisfactory evidence showing that the retail sales tax or the use tax has been paid by ~~((him))~~ the applicant on the vehicle in question.

(2) The term "motor vehicle," as used in this section means and includes all motor vehicles, trailers and semitrailers used, or of a type designed primarily to be used, upon the public streets and highways, for the convenience or pleasure of the owner, or for the conveyance, for hire or otherwise, of persons or property, including fixed loads, facilities for human habitation, and vehicles carrying exempt licenses.

(3) It shall be the duty of every applicant for registration and transfer of certificate of title who is subject to payment of tax under this section to declare upon ~~((his))~~ the application the value of the vehicle for which application is made, which shall consist of the consideration paid or contracted to be paid therefor.

(4) Each county auditor who acts as agent of the department of revenue shall at the time of remitting license fee receipts on motor vehicles subject to the provisions of this section pay over and account to the state treasurer for all use tax revenue collected under this section, after first deducting as ~~((his))~~ a collection fee the sum of two dollars for each motor vehicle upon which the tax has been collected. All revenue received by the state treasurer under this section shall be credited to the general fund. The auditor's collection fee shall be deposited in the county current expense fund. A duplicate of the county auditor's transmittal report to the state treasurer shall be forwarded forthwith to the department of revenue.

(5) Any applicant who has paid use tax to a county auditor under this section may apply to the department of revenue for refund thereof if he or she has reason to believe that such tax was not legally due and owing. No refund shall be allowed unless application therefor is received by the department of revenue within the statutory period for assessment of taxes, penalties, or interest prescribed by RCW 82.32.050(3). Upon receipt of an application for refund the department of revenue shall consider the same and issue its order either granting or denying it and if refund is denied the taxpayer shall have the right of appeal as provided in RCW 82.32.170, 82.32.180 and 82.32.190.

(6) The provisions of this section shall be construed as cumulative of other methods prescribed in chapters 82.04 to 82.32 RCW, inclusive, for the collection of the tax imposed by this chapter. The department of revenue shall have power to promulgate such rules as may be necessary to administer the provisions of this section. Any duties required by this section to be performed by the county auditor may be performed by the director of licensing but no collection fee shall be deductible by said director in remitting use tax revenue to the state treasurer.

(7) The use tax revenue collected on the rate provided in RCW 82.08.020(3) will be deposited in the multimodal transportation account under RCW 47.66.070.

NEW SECTION. Sec. 404. A new section is added to chapter 43.135 RCW to read as follows:

A transfer from the general fund to the multimodal transportation account under section 405 of this act for taxes collected under chapters 82.08 and 82.12 RCW on new construction projects within the improvement program in RCW 47.05.030(2), does not require a corresponding lowering of the state expenditure limit to reflect this shift for purposes of RCW 43.135.035(4).

NEW SECTION. Sec. 405. A new section is added to chapter 82.32 RCW to read as follows:

(1) Effective for taxes collected in fiscal year 2006, the tax imposed and collected under chapters 82.08 and 82.12 RCW, less any credits allowed under chapter 82.14 RCW, on construction projects within the improvement program in RCW 47.05.030(2), except for those projects related to safety and environmental retrofit, shall be transferred from the general fund to the multimodal transportation account once each year as described by subsection (3) of this section.

(2) This transaction is exempt from the requirements in RCW 43.135.035(4).

(3) Government entities conducting construction projects within the improvement program in RCW 47.05.030(2), except for those projects related to safety and environmental retrofit, shall report to the department by August 1st of each year the amount of state sales or use tax attributable to the projects identified in this section from the previous fiscal year for purposes of transfer to the multimodal transportation account. The department shall notify the state treasurer of the amount of the transfer by September 30th of each year.

PART V - BOND AUTHORIZATION

NEW SECTION. Sec. 501. In order to provide funds necessary for the location, design, right of way, and construction of selected state and local highway improvements, there shall be issued and sold upon the request of the transportation commission a total of four billion five hundred million dollars of general obligation bonds of the state of Washington.

NEW SECTION. Sec. 502. Upon the request of the transportation commission, as appropriate, the state finance committee shall supervise and provide for the issuance, sale, and retirement of the bonds authorized by RCW 46.68.090 in accordance with chapter 39.42 RCW. Bonds authorized by this act shall be sold in the manner, at time or times, in amounts, and at the price as the state finance committee shall determine. No bonds may be offered for sale without prior legislative appropriation of the net proceeds of the sale of the bonds.

The state finance committee shall consider the issuance of short-term obligations in lieu of long-term obligations for the purposes of more favorable interest rates, lower total interest costs, and increased marketability and for the purpose of retiring the bonds during the life of the project for which they were issued.

NEW SECTION. Sec. 503. The proceeds from the sale of bonds authorized by section 501 of this act shall be deposited in the motor vehicle fund. The proceeds shall be available only for the purposes enumerated in section 501 of this act, for the payment of bond anticipation notes, if any, and for the payment of bond issuance costs, including the costs of underwriting.

NEW SECTION. Sec. 504. Bonds issued under the authority of section 501 of this act shall distinctly state that they are a general obligation of the state of Washington, shall pledge the full faith and credit of the state to the payment of the principal thereof and the interest thereon, and shall contain an unconditional promise to pay such principal and interest as the same shall become due. The principal and interest on the bonds shall be first payable from the proceeds of the state excise taxes on motor vehicle and special fuels imposed by chapters 82.36 and 82.38 RCW. Proceeds of these excise taxes are hereby pledged to the payment of any bonds and the interest thereon issued under the authority of sections 501 through 506 of this act, and the legislature agrees to continue to impose these excise taxes on motor vehicle and special fuels in amounts sufficient to pay, when due, the principal and interest on all bonds issued under the authority of section 501 of this act.

NEW SECTION. Sec. 505. Both principal and interest on the bonds issued for the purposes of section 501 of this act shall be payable from the highway bond retirement fund. The state finance committee may provide that a special account be created in the fund to facilitate payment of the principal and interest. The state finance committee shall, on or before June 30th of each year, certify to the state treasurer the amount required for principal and interest on the bonds in accordance with the bond proceedings. The state treasurer shall withdraw revenues from the motor vehicle fund and deposit in the highway bond retirement fund, or a special account in the fund, such amounts, and at such times, as are required by the bond proceedings.

Any funds required for bond retirement or interest on the bonds authorized by section 501 of this act shall be taken from that portion of the motor vehicle fund that results from the imposition of excise taxes on motor vehicle and special fuels and which is, or may be, appropriated to the department of transportation for state highway purposes. Funds required shall never constitute a charge against any other allocations of motor vehicle fuel and special fuel tax revenues to the state,

counties, cities, and towns unless the amount arising from excise taxes on motor vehicle and special fuels distributed to the state in the motor vehicle fund proves insufficient to meet the requirements for bond retirement or interest on any such bonds.

Any payments for bond retirement or interest on the bonds taken from other revenues from the motor vehicle fuel or special fuel taxes that are distributable to the state, counties, cities, and towns shall be repaid from the first revenues from the motor vehicle fuel or special fuel taxes distributed to the motor vehicle fund not required for bond retirement or interest on the bonds.

NEW SECTION. Sec. 506. Bonds issued under the authority of section 501 of this act and this section and any other general obligation bonds of the state of Washington that have been or that may be authorized and that pledge motor vehicle and special fuels excise taxes for the payment of principal and interest thereon shall be an equal charge against the revenues from such motor vehicle and special fuels excise taxes.

NEW SECTION. Sec. 507. For the purpose of providing funds for the planning, design, construction, reconstruction, and other necessary costs for transportation projects, including rail and passenger-only ferry projects, the state finance committee is authorized to issue general obligation bonds of the state of Washington in the sum of one hundred million dollars, or as much thereof as may be required, to finance these projects and all costs incidental thereto. Bonds authorized in this section may be sold at such price as the state finance committee shall determine. No bonds authorized in this section may be offered for sale without prior legislative appropriation of the net proceeds of the sale of the bonds.

NEW SECTION. Sec. 508. The proceeds of the sale of the bonds authorized in section 507 of this act must be deposited in the multimodal transportation account and must be used exclusively for the purposes specified in section 507 of this act and for the payment of expenses incurred in the issuance and sale of the bonds.

NEW SECTION. Sec. 509. (1) The nondebt-limit reimbursable bond retirement account must be used for the payment of the principal and interest on the bonds authorized in section 507 of this act.

(2)(a) The state finance committee must, on or before June 30th of each year, certify to the state treasurer the amount needed in the ensuing twelve months to meet the bond retirement and interest requirements on the bonds authorized in section 507 of this act.

(b) On or before the date on which any interest or principal and interest is due, the state treasurer shall transfer from the multimodal transportation account for deposit into the nondebt-limit reimbursable bond retirement account the amount computed in (a) of this subsection for bonds issued for the purposes of section 507 of this act.

(3) If the multimodal transportation account has insufficient revenues to pay the principal and interest computed in subsection (2)(a) of this section, then the debt-limit reimbursable bond retirement account must be used for the payment of the principal and interest on the bonds authorized in section 507 of this act from any additional means provided by the legislature.

(4) If at any time the multimodal transportation account has insufficient revenues to repay the bonds, the legislature may provide additional means for the payment of the bonds.

NEW SECTION. Sec. 510. (1) Bonds issued under section 507 of this act must state that they are a general obligation of the state of Washington, must pledge the full faith and credit of the state to the payment of the principal and interest, and must contain an unconditional promise to pay the principal and interest as it becomes due.

(2) The owner and holder of each of the bonds or the trustee for the owner and holder of any of the bonds may by mandamus or other appropriate proceeding require the transfer and payment of funds as directed in this section.

NEW SECTION. **Sec. 511.** The legislature may provide additional means for raising moneys for the payment of the principal and interest on the bonds authorized in section 507 of this act, and sections 509 and 510 of this act are not deemed to provide an exclusive method for their payment.

NEW SECTION. **Sec. 512.** The bonds authorized in section 507 of this act are a legal investment for all state funds or funds under state control and for all funds of any other public body.

Sec. 513. RCW 39.42.060 and 2001 2nd sp.s. c 9 s 18 are each amended to read as follows:

No bonds, notes, or other evidences of indebtedness for borrowed money shall be issued by the state which will cause the aggregate debt contracted by the state to exceed that amount for which payments of principal and interest in any fiscal year would require the state to expend more than seven percent of the arithmetic mean of its general state revenues, as defined in section 1(c) of Article VIII of the Washington state Constitution for the three immediately preceding fiscal years as certified by the treasurer in accordance with RCW 39.42.070. It shall be the duty of the state finance committee to compute annually the amount required to pay principal of and interest on outstanding debt. In making such computation, the state finance committee shall include all borrowed money represented by bonds, notes, or other evidences of indebtedness which are secured by the full faith and credit of the state or are required to be paid, directly or indirectly, from general state revenues and which are incurred by the state, any department, authority, public corporation or quasi public corporation of the state, any state university or college, or any other public agency created by the state but not by counties, cities, towns, school districts, or other municipal corporations, and shall include debt incurred pursuant to section 3 of Article VIII of the Washington state Constitution, but shall exclude the following:

- (1) Obligations for the payment of current expenses of state government;
- (2) Indebtedness incurred pursuant to RCW 39.42.080 or 39.42.090;

- (4) Any indebtedness which has been refunded;
- (5) Financing contracts entered into under chapter 39.94 RCW;
- (6) Indebtedness authorized or incurred before July 1, 1993, pursuant to statute which requires that the state treasury be reimbursed, in the amount of the principal of and the interest on such indebtedness, from money other than general state revenues or from the special excise tax imposed pursuant to chapter 67.40 RCW;
- (7) Indebtedness authorized and incurred after July 1, 1993, pursuant to statute that requires that the state treasury be reimbursed, in the amount of the principal of and the interest on such indebtedness, from (a) moneys outside the state treasury, except higher education operating fees, (b) higher education building fees, (c) indirect costs recovered from federal grants and contracts, and (d) fees and charges associated with hospitals operated or managed by institutions of higher education;
- (8) Any agreement, promissory note, or other instrument entered into by the state finance committee under RCW 39.42.030 in connection with its acquisition of bond insurance, letters of credit, or other credit support instruments for the purpose of guaranteeing the payment or enhancing the marketability, or both, of any state bonds, notes, or other evidence of indebtedness;
- (9) Indebtedness incurred for the purposes identified in RCW 43.99N.020;
- (10) Indebtedness incurred for the purposes of the school district bond guaranty established by chapter 39.98 RCW;
- (11) Indebtedness incurred for the purposes of replacing the waterproof membrane over the east plaza garage and revising related landscaping construction pursuant to RCW 43.99Q.070; ~~((and))~~
- (12) Indebtedness incurred for the purposes of the state legislative building rehabilitation, to the extent that principal and interest payments of such indebtedness are paid from the capitol building construction account pursuant to RCW 43.99Q.140(2)(b); and
- (13) Indebtedness incurred for the purposes of financing projects under section 507 of this act.

To the extent necessary because of the constitutional or statutory debt limitation, priorities with respect to the issuance or guaranteeing of bonds, notes, or other evidences of indebtedness by the state shall be determined by the state finance committee.
