Prime Sponsor, Senator Wellman: Repealing and reorganizing outdated statutes concerning public schools. Reported by Committee on Education

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

"Sec. 1. RCW 28A.175.145 and 2022 c 75 s 2 are each amended to read as follows:

(1)(a) Subject to funds appropriated for this purpose or otherwise available in the account established in RCW 28A.175.155, beginning in the 2011-12 school year and each year thereafter, a high school that demonstrates improvement in its dropout prevention score compared to the baseline school year as calculated under RCW 28A.175.140 may receive a PASS program award as provided under this section. The legislature intends to recognize and reward continuous improvement by using a baseline year for calculating eligibility for PASS program awards so that a high school retains previously earned award funds from one year to the next unless its performance declines.

(b) The office of the superintendent of public instruction must determine the amount of PASS program awards based on appropriated funds and eligible high schools. The intent

of the legislature is to provide an award to each eligible high school commensurate with the degree of improvement in the high school's dropout prevention score and the size of the high school. The office must establish a minimum award amount. If funds available for PASS program awards are not sufficient to provide an award to each eligible high school, the office of the superintendent of public instruction shall establish objective criteria to prioritize awards based on eligible high schools with the greatest need for additional dropout prevention and intervention services. The office of the superintendent of public instruction shall encourage and may require a high school receiving a PASS program award to demonstrate an amount of community matching funds or an amount of in-kind community services to support dropout prevention and intervention.

(c) Ninety percent of an award under this section must be allocated to the eligible high school to be used for dropout prevention activities in the school as specified in subsection (2) of this section. The principal of the high school shall determine the use of funds after consultation with parents and certificated and classified staff of the school.

(d) Ten percent of an award under this section must be allocated to the school district in which the eligible high school is located to be used for dropout prevention activities as specified in subsection (2) of this section in the high school or in other schools in the district.

(e) The office of the superintendent of public instruction may withhold distribution of award funds under this section to an otherwise eligible high school or school district if the superintendent of public instruction issues a finding that the school or school district has willfully manipulated the dropout prevention indicators under RCW 28A.175.140, for example by expelling, suspending, transferring, or refusing to enroll students at risk of dropping out of school or at risk of low achievement.

(2) High schools and school districts may use PASS program award funds for any programs or activities that support the development of a dropout prevention, intervention, and reengagement system as described in RCW 28A.175.074, offered directly by the school or school district or under contract with education agencies or community-based organizations, including but not limited to educational service districts and workforce development councils. Such programs or activities may include but are not limited to the following:

(a) Strategies to close the educational opportunity and achievement gaps among groups of students as disaggregated by the categories and subcategories in RCW 28A.300.042 (1) and (3);

(b) Use of graduation coaches as defined in RCW 28A.175.150;

(c) Opportunity internship activities under RCW 28C.18.164;

(d) Dropout reengagement programs provided by community-based organizations or community and technical colleges;

(e) ~~((Comprehensive guidance and planning programs as defined under RCW 28A.600.045,~~

~~including but not limited to the navigation 101 program)) Developing and updating high school and beyond plans under RCW 28A.230.212;~~

(f) Reduced class sizes, extended school day, extended school year, and tutoring programs for students identified as at risk of dropping out of school, including instruction to assist these students in meeting graduation requirements in mathematics and science;

(g) Outreach and counseling targeted to students identified as at risk of dropping out of school, or who have dropped out of school, to encourage them to consider learning alternatives such as preapprenticeship programs, skill centers, running start, technical high schools, and other options for completing a high school diploma;

(h) Preapprenticeship programs under RCW 49.04.190;

(i) Mentoring programs for students;

(j) Development and use of dropout early warning data systems;

(k) Counseling, resource and referral services, and intervention programs to address social, behavioral, and health factors associated with dropping out of school;

(l) Implementing programs for in-school suspension or other strategies to avoid excluding middle and high school students from the school whenever possible;

(m) Parent engagement activities such as home visits and off-campus parent support group meetings related to dropout prevention and reengagement; and

(n) Early learning programs for prekindergarten students.

(3) High schools and school districts are encouraged to implement dropout prevention and reengagement strategies in a comprehensive and systematic manner, using strategic planning, school improvement plans, evaluation and feedback, and response to intervention tools.

**Sec. 2.** RCW 28A.305.130 and 2024 c 66 s 13 are each amended to read as follows:

The purpose of the state board of education is to provide advocacy and strategic oversight of public education; implement a standards-based accountability framework that creates a unified system of increasing levels of support for schools in order to improve student academic achievement; provide leadership in the creation of a system that personalizes education for each student and respects diverse cultures, abilities, and learning styles; and promote achievement of the goals of RCW 28A.150.210. In addition to any other powers and duties as provided by law, the state board of education shall:

(1) Hold regularly scheduled meetings at such time and place within the state as the board shall determine and may hold such special meetings as may be deemed necessary for the transaction of public business;

(2) Form committees as necessary to effectively and efficiently conduct the work of the board;

(3) Seek advice from the public and interested parties regarding the work of the board;

(4) Establish and enforce minimum high school graduation requirements;

(5) For purposes of statewide accountability:

(a) Adopt and revise performance improvement goals in reading, writing, science, and mathematics, by subject and grade level, once assessments in these subjects are required statewide; academic and technical skills, as appropriate, in secondary career and technical education programs; and student attendance, as the board deems appropriate to improve student learning. The goals shall be consistent with student privacy protection provisions of RCW 28A.655.090(7) and shall not conflict with requirements contained in Title I of the federal elementary and secondary education act of 1965, or the requirements of the Carl D. Perkins vocational education act of 1998, each as amended. The goals may be established for all students, economically disadvantaged students, limited English proficient students, students with disabilities, and students who are not meeting academic standards as defined in RCW 28A.165.015, disaggregated as described in RCW 28A.300.042(1) for student-level data. The board may establish school and school district goals addressing high school graduation rates and dropout reduction goals for students in grades seven through 12. The board shall adopt the goals by rule. However, before each goal is implemented, the board shall present the goal to the education committees of the house of representatives and the senate for the committees' review and comment in a time frame that will permit the legislature to take statutory action on the goal if such action is deemed warranted by the legislature;

(b) (i) (A) Identify the scores students must achieve in order to meet the standard on the statewide student assessment, and the SAT or the ACT if used to demonstrate career and college readiness under RCW 28A.230.710. The board shall also determine student scores that identify levels of student performance below and beyond the standard. The board shall set such performance standards and levels in consultation with the superintendent of public instruction and after consideration of any recommendations that may be developed by any advisory committees that may be established for this purpose;

(B) To permit the legislature to take any statutory action it deems warranted before modified or newly established scores are implemented, the board shall notify the education committees of the house of representatives and the senate of any scores that are modified or established under (b) (i) (A) of this subsection on or after July 28, 2019. The notifications required by this subsection (5) (b) (i) (B) must be provided by November 30th of the year proceeding the beginning of the school year in which the modified or established scores will take effect;

(ii) The legislature intends to continue the implementation of chapter 22, Laws of

2013 2nd sp. sess. when the legislature expressed the intent for the state board of education to identify the student performance standard that demonstrates a student's career and college readiness for the 11th grade consortium-developed assessments. Therefore, by December 1, 2018, the state board of education, in consultation with the superintendent of public instruction, must identify and report to the governor and the education policy and fiscal committees of the legislature on the equivalent student performance standard that a 10th grade student would need to achieve on the state assessments to be on track to be career and college ready at the end of the student's high school experience;

(iii) The legislature shall be advised of the initial performance standards and any changes made to the elementary, middle, and high school level performance standards. The board must provide an explanation of and rationale for all initial performance standards and any changes, for all grade levels of the statewide student assessment. If the board changes the performance standards for any grade level or subject, the superintendent of public instruction must recalculate the results from the previous 10 years of administering that assessment regarding students below, meeting, and beyond the state standard, to the extent that this data is available, and post a comparison of the original and recalculated results on the superintendent's website; and

(c) Annually review the assessment reporting system to ensure fairness, accuracy, timeliness, and equity of opportunity, especially with regard to schools with special circumstances and unique populations of students, and a recommendation to the superintendent of public instruction of any improvements needed to the system; ((and

~~(d) Include in the biennial report required under RCW 28A.305.035, information on the progress that has been made in achieving goals adopted by the board;))~~

(6) Accredit, subject to such accreditation standards and procedures as may be established by the state board of education, all private schools that apply for accreditation, and approve, subject to the provisions of RCW 28A.195.010, private schools carrying out a program for any or all of the grades kindergarten through 12. However, no private school may be approved that operates a kindergarten program only and no private school shall be placed upon the list of accredited schools so long as secret societies are knowingly allowed to exist among its students by school officials;

(7) Articulate with the institutions of higher education, workforce representatives, and early learning policymakers and providers to coordinate and unify the work of the public school system;

(8) Hire an executive director and an administrative assistant to reside in the office of the superintendent of public instruction for administrative purposes. Any other personnel of the board shall be appointed as provided by RCW 28A.300.020. The board may delegate to the executive

director by resolution such duties as deemed necessary to efficiently carry on the business of the board including, but not limited to, the authority to employ necessary personnel and the authority to enter into, amend, and terminate contracts on behalf of the board. The executive director, administrative assistant, and all but one of the other personnel of the board are exempt from civil service, together with other staff as now or hereafter designated as exempt in accordance with chapter 41.06 RCW; and

(9) Adopt a seal that shall be kept in the office of the superintendent of public instruction.

(4) Establish policies for approval of nontraditional educator preparation programs;

**Sec. 6.** RCW 28A.405.220 and 2024 c 317 s 14 are each amended to read as follows:

(1) Notwithstanding the provisions of RCW 28A.405.210, every person employed by a school district in a teaching or other nonsupervisory certificated position shall be subject to nonrenewal of employment contract as provided in this section during the first three years of employment by such district, unless: (a) The employee has previously completed at least two years of certificated employment in another school district in the state of Washington, in which case the employee shall be subject to nonrenewal of employment contract pursuant to this section during the first year of employment with the new district; or (b) the employee has received an evaluation rating below level 2 on the four-level rating system established under RCW 28A.405.100 during the third year of employment, in which case the employee shall remain subject to the nonrenewal of the employment contract until the employee receives a level 2 rating; or (c) the school district superintendent may make a determination to remove an employee from provisional status if the employee has received one of the top two evaluation ratings during the second year of employment by the district. Employees as defined in this section shall

hereinafter be referred to as "provisional employees."

~~(2) ((The superintendent of the school district may not renew the employment contract of a provisional employee licensed under the interstate teacher mobility compact in chapter 28A.420 RCW for a third year if the provisional employee has not yet completed both the issues of abuse course described in RCW 28A.410.035 and the equity-based school practices requirements under RCW 28A.410.277.~~

~~(3))~~ In the event the superintendent of the school district determines that the employment contract of any provisional employee should not be renewed by the district for the next ensuing term such provisional employee shall be notified thereof in writing on or before May 15th preceding the commencement of such school term, or if the omnibus appropriations act has not passed the legislature by the end of the regular legislative session for that year, then notification shall be no later than June 15th, which notification shall state the reason or reasons for such determination. Such notice shall be served upon the provisional employee personally, or by certified or registered mail, or by leaving a copy of the notice at the place of his or her usual abode with some person of suitable age and discretion then resident therein. The determination of the superintendent shall be subject to the evaluation requirements of RCW 28A.405.100.

~~((4))~~ (3) Every such provisional employee so notified, at his or her request made in writing and filed with the superintendent of the district within ten days after receiving such notice, shall be given the opportunity to meet informally with the superintendent for the purpose of requesting the superintendent to reconsider his or her decision. Such meeting shall be held no later than ten days following the receipt of such request, and the provisional employee shall be given written notice of the date, time and place of meeting at least three days prior thereto. At such meeting the provisional employee shall be given the opportunity to refute any facts upon which the superintendent's determination was based and to make any argument in support of his or her request for reconsideration.

~~((5))~~ (4) Within ten days following the meeting with the provisional employee, the superintendent shall either reinstate the provisional employee or shall submit to the school district board of directors for consideration at its next regular meeting a written report recommending that the employment contract of the provisional employee be nonrenewed and stating the reason or reasons therefor. A copy of such report shall be delivered to the provisional employee at least three days prior to the scheduled meeting of the board of directors. ESSB 5466 Prime Sponsor, Environment, Energy & Technology: Improving reliability and capacity of the electric transmission system in Washington state. Reported by Committee on Environment & Energy

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

"NEW SECTION. **Sec. 1.** (1) The legislature finds that Washington has committed to decarbonizing its electricity system so that it is carbon neutral by 2030 and carbon free by 2045. Achieving those goals includes retiring coal and gas resources, adding new generation from renewable and nonemitting resources, and leveraging energy storage technologies. At the same time, demand for electricity is increasing significantly due to the electrification of vehicles, home heating and cooling, and manufacturing, and the

expansion of the information services sector in Washington. There are significant federal, state, and private investments in clean energy development, including wind, solar, and battery storage, that support decarbonization goals and supply new electrical load. However, Washington's existing transmission system lacks the capacity to accommodate the growing demand for clean electricity.

(2) The legislature also finds that extreme weather events and changes to seasonal highs and lows puts new strain on the existing transmission system and threatens reliability. Extreme weather events such as high-speed winds, floods, freezing, and heat domes can damage grid infrastructure and cause disruptions to the power supply. Warmer summers and colder winters increase the need for heating and cooling and thereby intensify and extend periods of peak demand.

(3) The legislature further finds that to maintain reliability and build resilience, Washington's transmission system needs to be expanded and upgraded to access diverse portfolios of clean and reliable energy across the region, including solar resources in the southwest and wind resources across the mountain west. A more robust and updated transmission system will support affordability and reliability goals by enabling the efficient dispatch of least-cost resources across the region.

(4) Therefore, it is the intent of the legislature to create the Washington electric transmission authority to improve transmission reliability, resilience, and affordability. The Washington electric transmission authority will serve as a centralized body to achieve these goals by engaging in long-term planning; providing development transmission services; coordinating siting and permitting; leveraging research; and engaging with utilities, transmission developers, local jurisdictions, state agencies, regional entities, the federal government, federally recognized Indian tribes, and affected communities. The legislature intends for the authority to achieve the following goals:

- (a) Improve reliability and resilience, including during extreme weather events;
- (b) Increase access to low-cost renewable energy;
- (c) Achieve clean electricity requirements and greenhouse gas emissions limits;
- (d) Support economic growth; and
- (e) Maintain affordable energy rates.

## **PART I - WASHINGTON ELECTRIC TRANSMISSION AUTHORITY**

NEW SECTION. **Sec. 2.** The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

- (1) "Authority" means the Washington electric transmission authority.
- (2) "Board of directors" means the authority's board of directors.
- (3) "Department" means the department of commerce.

(4) "Nonwire alternative" means any electrical grid investment that is intended to defer or remove the need to construct or upgrade components of a distribution and/or transmission system.

**NEW SECTION. Sec. 3.** (1) The Washington electric transmission authority is hereby created as a public body. The authority is an instrumentality of the state exercising essential government functions related to electric transmission.

(2) The purpose of the authority is to:

(a) Support the expeditious and efficient expansion of new electric transmission capacity within the state that are prudent and needed to serve Washington customers;

(b) Prioritize support for new electric transmission projects that connect renewable resources and nonemitting electric generation as defined in RCW 19.405.020 to the grid, are located in more than one electric utility service territory, or involve a partnership with the authority and a utility;

(c) Encourage the development of community microgrids, distributed energy resources, and energy conservation;

(d) Pursue cost-effective nonwire alternatives to increase the capacity of existing electrical infrastructure;

(e) Be a statewide resource for developing and coordinating upgrades to existing transmission lines;

(f) Collaborate with electric utilities, independent transmission developers, local jurisdictions, federally recognized Indian tribes, labor unions, neighboring states, regional entities, and the federal government to develop interstate and regional transmission resources;

(g) Evaluate opportunities for regional wholesale markets; and

(h) Support community and economic development.

(3) To the greatest extent practicable, when carrying out its duties, the authority must seek to:

(a) Protect cultural and natural resources;

(b) Avoid impacts to overburdened communities and vulnerable populations;

(c) Support good jobs;

(d) Maximize the use of existing rights-of-way for transmission development; and

(e) Mitigate wildfire risk.

(4) The authority must employ an executive director, who must be appointed by the board of directors created under section 4 of this act. Approval by an affirmative vote of at least five members of the board is required for any decisions regarding employment of the executive director. The board may fix the compensation of the executive director. The executive director must employ staff sufficient to accomplish the purposes of this act.

(5) The authority must update the transmission needs assessment developed by the department under section 5 of this act no later than October 30, 2031, and no less than every five years thereafter.

(6) The authority must submit a report of its activities to the governor and to the appropriate committees of the legislature by

December 1, 2025, and annually every July 1st thereafter. The report must include operating and financial statements covering the operations of the authority for the previous fiscal year.

(7) The authority and any eligible facilities acquired by the authority are not subject to the supervision, regulation, control, or jurisdiction of the Washington utilities and transportation commission, provided that nothing in this act shall be interpreted to allow an electrical company regulated under Title 80 RCW to include the cost of eligible facilities in its rate base without the approval of the Washington utilities and transportation commission.

**NEW SECTION. Sec. 4.** (1) A board of directors is created to hire the executive director and advise the authority on policies that are consistent with the purposes of this chapter.

(2) The 10 members of the board are as follows:

(a) The director of the department, or the director's designee;

(b) One member appointed by the governor with experience working at a consumer-owned utility;

(c) One member appointed by the governor with experience working at an investor-owned utility;

(d) One member appointed by the governor with knowledge of land use planning and law and local permitting processes;

(e) One member appointed by the governor with expertise in clean energy development;

(f) One member appointed by the governor with expertise in ratepayer protection;

(g) One member appointed by the governor representing electrical workers with expertise in building electric transmission;

(h) One member appointed by the governor with experience financing large infrastructure projects;

(i) One member appointed by the governor with knowledge of wildlife conservation and land use policies; and

(j) One member appointed by the governor from a federally recognized Indian tribe, including federally recognized Indian tribes whose reservation or ceded lands lie in Washington state.

(3) No member may represent a person that owns or operates electric generating or transmission facilities.

(4) Members of the board appointed by the governor must serve four-year terms. However, the governor must stagger the terms of six of the initial appointees for terms of one, two, and three years. At the end of the term, these members may be reappointed by the governor, or the governor may choose to appoint a new member.

(5) Decisions of the board require a simple majority vote of all the members on the board.

(6) Members of the board must elect a chair from among its membership to serve for a two-year period.

(7) The board must meet at least quarterly.

(8) The department must provide staff support to the board.

(9) Members of the board must serve without additional compensation but must be reimbursed for travel expenses as provided by RCW 43.03.050 and 43.03.060.

**NEW SECTION. Sec. 5.** A new section is added to chapter 43.330 RCW to read as follows:

(1) The department must:

(a) Develop and adopt a 20-year transmission needs assessment.

(i) The needs assessment must:

(A) Identify high priority corridors that are needed to meet current and forecasted transmission demand, including whether new transmission lines could be built on existing rights-of-way. High priority corridor identification must include:

(I) The forecasted transmission and interconnection demands of clean energy projects sited in Washington necessary to meet clean energy transformation act targets under RCW 19.405.010; and

(II) Lower conflict siting approaches to identify areas with forecasted transmission demands for in-state clean energy generation, such as areas identified in the Washington state university least-conflict solar siting process, the United States department of energy renewable energy siting through technical engagement and planning program, or clean energy zones identified by the state;

(B) Identify investments in existing transmission lines, such as grid-enhancing technologies and reconductoring with advanced conductors, that can unlock additional capacity and improve network performance to alleviate the need for new transmission lines;

(C) Identify and evaluate non-wires alternatives, such as demand response, energy storage, microgrids, and energy efficiency;

(D) Identify for the authority regional and interregional transmission forums, and opportunities to coordinate, investigate, plan, prioritize, and negotiate with entities within and outside the state for the establishment of interstate transmission corridors;

(E) Coordinate with and provide transmission-related expertise to relevant state agencies;

(F) Consider opportunities to colocate transmission corridors along existing rights-of-way for other infrastructure; and

(G) Align with the state energy strategy as defined in RCW 43.21F.025.

(ii) When developing the needs assessment, the department may consider existing planning already completed by electric utilities in Washington state and consult the board of directors about using existing transmission plans developed by regional or federal entities and must avoid, to the greatest extent practicable, duplicating plans or related analysis already produced by and made available by such entities.

(iii) The department must complete the first needs assessment by October 30, 2026;

(b) Provide assistance to local governments and tribal governments that are permitting the construction and operation of

electric transmission projects which includes, but is not limited to, easily accessible information on advanced transmission technologies in Washington and identifying applicable codes and ordinances that support transmission facilities for the purpose of providing frameworks that local and tribal governments may consider and adopt to suit local circumstances;

(c) Identify the appropriate debt financing instruments needed to improve capacity to develop electric transmission in Washington. The department may consult with the office of the state treasurer and the office of the attorney general. By November 1, 2025, the department must submit a report that analyzes financing options for the authority and provides recommendations to the governor and the appropriate committees of the legislature.

(2) The definitions in section 2 of this act apply throughout this section unless the context clearly requires otherwise.

**NEW SECTION. Sec. 6.** The authority may:

(1) Adopt rules and operating procedures as necessary to implement the authority's responsibilities in this chapter, except that the authority may not adopt rules to direct cost allocation of transmission resources;

(2) Utilize the services of executive departments of the state upon mutually agreeable terms and conditions;

(3) Exercise the power of eminent domain as outlined under the provisions of chapter 8.04 RCW only for land acquisition necessary to secure property or rights-of-way for new transmission corridors for public use consistent with the purposes of this act;

(4) Enter into contracts and agreements;

(5) Solicit, receive, and expend gifts, grants, and donations;

(6) Apply for and accept federal loans and related assistance;

(7)(a) Enter into partnerships with public or private entities, which may include a fee schedule for services provided under a partnership; and

(b) When entering into partnerships on transmission projects:

(i) Serve as the state environmental policy act lead for the project proponent; and

(ii) Serve as tribal consultation lead pursuing reasonable efforts to facilitate government-to-government consultation regarding the entities' partnership with federally recognized Indian tribes affected by the partnership;

(8) Engage in transmission planning activities with entities within and outside the state of Washington, along with regional and interregional cost allocation process discussions;

(9) Lease, purchase, accept donations of, or otherwise own, hold, improve, or use any property;

(10) Sell, lease, exchange, or otherwise dispose of any property;

(11)(a) Own electric transmission equipment and systems;

(b) Ownership of transmission facilities by the authority may not exceed the extent

and duration necessary or useful to promote the public interest. Before becoming an owner or partial owner of any electric transmission facilities, the authority must develop and publish a plan identifying:

(i) The public purposes of the authority's ownership;

(ii) The conditions that would make the authority's ownership no longer necessary for accomplishing those public purposes; and

(iii) A plan to divest the authority of ownership of the facility as soon as economically prudent once those conditions occur;

(12)(a) Select a qualified transmission builder or operator, as defined by the authority in rule, to build, finance, plan, acquire, maintain, or operate an electric transmission project;

(b) Before developing a project, the authority must adopt criteria in rule for when the authority may proceed to construction in the absence of selecting a qualified transmission builder only as a last resort in instances where the authority identifies a pressing need for a project and there is no ready and willing qualified transmission builder;

(13) Sell a state-owned electric transmission project at any stage of development.

(a) The authority may sell a project to an electric utility serving customers in the state of Washington, a joint operating agency formed under RCW 43.52.360, the Bonneville power administration, an independent transmission developer, or an independent system operator.

(b) Before selling a project that is not part of a partnership agreement, the authority must adopt criteria in rule for developing a transparent process including issuing a competitive request for proposals, evaluating proposals, and selecting a project buyer.

(c) The authority is not required to sell to the highest bidder. The authority must adopt criteria in rule to determine when the authority would continue developing or owning a project after receiving bids on a request for proposal if it determines, after a thorough internal examination, that it is in the best interest of the public to continue owning the project; and

(14) Adopt criteria in rule for an initial local investment commitment fee and annual local investment commitment fee for high voltage projects that the authority develops, owns, or sells under this chapter. Rule making will provide that the fees are distributed among counties, cities, towns, and federally recognized Indian tribes, including federally recognized Indian tribes whose reservation or ceded lands lie in Washington state, in proportion to the project's impact, and that the fees are appurtenant to the project such that the assessed fees are transferred with the title if the project is sold.

**NEW SECTION. Sec. 7.** The electric transmission operating account is created in the state treasury. All receipts from appropriations made by the legislature, federal funds, or gifts or grants from the

private sector or foundations and other sources must be deposited in the account. Moneys in the account may be spent only after appropriation. Expenditures from the account may be used only for operating cost purposes consistent with this chapter.

**NEW SECTION. Sec. 8.** The electric transmission capital account is created in the state treasury. All moneys received for the acquisition, sale, management, and administration of the authority's duties under this chapter for electric transmission projects including, but not limited to, proceeds from the sale of land and/or improvements, fees collected for services provided to transmission developers, local investment commitment fees, interest earned on investments in the account, and all other revenue related to electric transmission projects created or acquired pursuant to this chapter must be deposited into the account. The account is authorized to receive fund transfers and appropriations from the general fund, as well as gifts, grants, and endowments from public or private sources as may be made from time to time. Moneys in the account may be spent only after appropriation. Expenditures from the account may be used by the executive director of the authority, or the executive director's designee, to reimburse management costs incurred by the authority on electric transmission projects, for the acquisition of interests in land or other real property to be managed as electric transmission projects, and for all other nonoperating cost purposes consistent with this chapter.

**NEW SECTION. Sec. 9.** (1) Information obtained by the authority that is critical energy infrastructure information or proprietary technical or business information shall be confidential and not subject to inspection or disclosure pursuant to chapter 42.56 RCW.

(2) For the purposes of this section, the following definitions apply:

(a) "Critical energy infrastructure" means systems and assets, whether physical or virtual, the incapacity or destruction of which threatens to disrupt or diminish the supply of energy to the extent that the public health, safety, and general welfare may be jeopardized.

(b) "Critical energy infrastructure information" means information regarding critical energy infrastructure where the information:

(i) Contains records of actual, potential, or threatened interference with, attacks on, compromise of, or incapacitation of critical energy infrastructure or protected systems by either physical or computer-based attacks, or other similar conduct that violates federal, state, or local law, harms interstate commerce of Washington state or the United States, or threatens to disrupt or diminish the supply of energy to the extent that the public health, safety, and general welfare may be jeopardized; or

(ii) Does not simply give the general location of or relay publicly available

information about the critical energy infrastructure.

**PART II - APPLICATION OF THE STATE ENVIRONMENTAL POLICY ACT TO TRANSMISSION IMPROVEMENTS**

NEW SECTION. **Sec. 10.** A new section is added to chapter 43.21C RCW to read as follows:

(1) The following utility-related activities for existing electric transmission lines of 115,000 volts and above, except activities undertaken wholly or partly on lands covered by water, are categorically exempt from compliance with this chapter:

(a) Upgrading and rebuilding within an existing right-of-way;

(b) Relocating segments of transmission lines within an existing right-of-way or within adjacent previously disturbed or developed lands; and

(c) Widening an existing transmission line right-of-way only as needed to meet current applicable electrical standards. Any such widening must be within previously disturbed or developed lands.

(2) Exceptions or limitations to categorical exemptions adopted by the department pursuant to RCW 43.21C.110(1)(a) shall apply to the categorical exemption created in this section.

(3) For the purposes of this section, the following definitions shall apply:

(a) "Previously disturbed or developed" refers to land that has been changed such that its functioning ecological processes have been and remain altered by human activity. The phrase encompasses areas that have been transformed from natural cover to nonnative species or a managed state including, but not limited to, utility and electric power transmission corridors and rights-of-way, and other areas where active utilities and currently used roads are readily available.

(b) "Upgrading or rebuilding" includes any repair, maintenance, replacement, modification or upgrade (including, but not limited to, increases in voltage, reconductoring, installation of, grid-enhancing or optimizing technologies, or the relocation or addition of utility poles) to any existing electric transmission powerlines and any associated infrastructure.

NEW SECTION. **Sec. 11.** A new section is added to chapter 43.21C RCW to read as follows:

(1) For a project that is categorically exempt under section 10 of this act, the following steps must be taken to ensure that the proposed activity avoids, minimizes, or mitigates harm to tribal, archaeological, historic, sacred, or cultural resources:

(a) The permitting jurisdiction must notify the department of archaeology and historic preservation created in chapter 43.334 RCW that the project is categorically exempt under section 10 of this act.

(b) Within seven business days of being notified that the project is categorically

exempt under section 10 of this act, the department of archaeology and historic preservation must notify each federally recognized Indian tribe with tribal lands and/or lands with rights reserved or protected by federal treaty, statute, or executive order in the area where the right-of-way exists.

(c) Each federally recognized Indian tribe notified under (b) of this subsection that wishes to request a survey to identify potential tribal, archaeological, historic, sacred, or cultural resources within the impacted right-of-way must indicate that to the department of archaeology and historic preservation within 30 days of the notification provided in (b) of this subsection.

(d) If a resources survey is requested under (c) of this subsection, the department of archaeology and historic preservation must coordinate with the impacted tribes that requested the resources survey pursuant to (c) of this subsection and the project applicant to conduct the resources survey.

(e)(i) If any such resources are identified, the permitting jurisdiction and the department of archaeology and historic preservation must work with the project applicant and the impacted tribes to develop a plan to avoid, mitigate, or minimize harm to the affected resources.

(ii) Such a plan must be developed and approved or not approved by the impacted tribe within 180 days of identifying any such resources.

(A) If the impacted tribe approves the plan, the plan must be a condition of the permit.

(B) If the impacted tribe does not approve the plan, the project must be reviewed under this chapter. A review under this section is limited to a determination of whether the project is likely to have a probable significant adverse impact on historical and cultural preservation, and the review must be informed by the results of the survey conducted in (d) of this subsection.

(2) Information provided by federally recognized Indian tribes must be kept confidential and exempt from public disclosure under chapter 42.56 RCW.

(3) Costs accrued to the permitting jurisdiction pursuant to this section are recoverable from the project applicant.

**PART III - COUNTY PERMITS FOR ELECTRIC TRANSMISSION PROJECTS**

NEW SECTION. **Sec. 12.** A new section is added to chapter 36.01 RCW to read as follows:

(1) Each county must adopt a permitting process for electrical transmission line activities, including any building, upgrading, or rebuilding activities, on lines 115,000 volts and above that are located solely in the county.

(2) If an electrical transmission line activity is categorically exempt from the state environmental policy act in accordance with section 10 of this act, the county must notify the department of archaeology and historic preservation so that the department

of archaeology and historic preservation may fulfill its obligations under section 11 of this act.

(3) Each county that is not yet in compliance with this section must adopt or amend by ordinance, and incorporate into their development regulations, zoning regulations, and other official controls the requirements of this section by:

(a) Six months after the county's next comprehensive plan update, if the county is required in RCW 36.70A.130(5) (c) and (d) to conduct a comprehensive plan in 2026 or 2027; and

(b) December 31, 2027, for all other counties.

(4) Each county included in subsection (3)(b) of this section that takes action in compliance with this section because it does not yet have or is developing a permitting process for electrical transmission line activities is eligible for a grant from the department of commerce in an amount up to \$40,000 to cover the costs of complying with this section.

**NEW SECTION. Sec. 13.** A new section is added to chapter 36.70A RCW to read as follows:

Each county required to conduct a comprehensive plan update in RCW 36.70A.130(5) (c) and (d) must adopt a permitting process for electrical transmission line activities and otherwise comply with the requirements in section 12 of this act within six months after the county's next periodic comprehensive plan update.

(36) "Rural development" refers to development outside the urban growth area and outside agricultural, forest, and

mineral resource lands designated pursuant to RCW 36.70A.170. (44) "Urban growth" refers to growth that makes intensive use of land for the location of buildings, structures, and impermeable surfaces to such a degree as to be incompatible with the primary use of land for the production of food, other agricultural products, or fiber, or the extraction of mineral resources, rural uses, rural development, and natural resource lands designated pursuant to RCW 36.70A.170. A pattern of more intensive rural development, as provided in RCW 36.70A.070(5)(d), is not urban growth. When allowed to spread over wide areas, urban growth typically requires urban governmental services. "Characterized by urban growth" refers to land having urban growth located on it, or to land located in relationship to an area with urban growth on it as to be appropriate for urban growth.

(45) "Urban growth areas" means those areas designated by a county pursuant to RCW 36.70A.110.

(48) "Wetland" or "wetlands" means areas that are inundated or saturated by surface water or groundwater at a frequency and duration sufficient to support, and that under normal circumstances do support, a prevalence of vegetation typically adapted for life in saturated soil conditions. Wetlands generally include swamps, marshes, bogs, and similar areas. Wetlands do not include those artificial wetlands intentionally created from nonwetland sites, including, but not limited to, irrigation and drainage ditches, grass-lined swales, canals, detention facilities, wastewater treatment facilities, farm ponds, and landscape amenities, or those wetlands created after July 1, 1990, that were unintentionally created as a result of the construction of a road, street, or highway. **Sec. 4.** RCW 36.70A.190 and 2023 c 228 s 9 are each amended to read as follows:

(1) The department shall establish a program of technical and financial assistance and incentives to counties and cities to encourage and facilitate the adoption and implementation of comprehensive plans and development regulations throughout the state.

(2) The department shall develop a priority list and establish funding levels for planning and technical assistance grants both for counties and cities that plan under RCW 36.70A.040. Priority for assistance shall be based on a county's or city's population growth rates, commercial and industrial development rates, the existence and quality of a comprehensive plan and development regulations, the presence of overburdened communities, and other relevant factors. The department shall establish funding levels for grants to community-based organizations for the specific purpose of advancing participation of vulnerable populations and overburdened communities in the planning process.

(3) The department shall develop and administer a grant program to provide direct financial assistance to counties and cities for the preparation of comprehensive plans under this chapter. The department may establish provisions for county and city matching funds to conduct activities under this subsection. Grants may be expended for any purpose directly related to the preparation of a county or city comprehensive plan as the county or city and the department may agree, including, without limitation, the conducting of surveys, inventories and other data gathering and management activities, the retention of planning consultants, contracts with regional councils for planning and related services, and other related purposes.

Upon receipt of the notice from the department, the city or county must delay any final action to adopt any comprehensive plan or any amendment or its development regulations for at least 60 days. The tribe and the city or county may jointly agree to extend this period by notifying the department. A county or city must not be penalized for noncompliance under this chapter due to any delays associated with this process.

(c) Upon receipt of a request, the department shall provide comments to the county or city including a summary and supporting materials regarding the tribe's concerns. The county or city may either agree to amend the comprehensive plan as requested consistent with the comments from the department, or enter into a facilitated process with the tribe, which must be arranged by the department using a suitable expert to be paid by the department. This facilitated process may also extend the 60-day delay of adoption, upon agreement of the tribe and the city or county.

(d) At the end of the 60-day period, unless by agreement there is an extension of the 60-day period, the city or county may proceed with adoption of the proposed comprehensive plan and development regulations. The facilitator shall write a report of findings describing the basis for agreements or disagreements that occurred during the process that are allowed to be disclosed by the parties and the resulting agreed-upon elements of the plan to be amended.

(7) The department shall provide planning grants to enhance citizen participation under RCW 36.70A.140.

(8) The department shall develop, in collaboration with the department of ecology, the department of fish and wildlife, the department of natural resources, the department of health, the emergency management division of the military department, as well as any federally recognized tribe who chooses to voluntarily participate, and adopt by rule guidance that creates a model climate change and resiliency element that may be used by counties, cities, and multiple-county planning regions for developing and implementing climate change and resiliency plans and policies required by RCW 36.70A.070(9), subject to the following provisions:

(a) The model element must establish minimum requirements, and may include model options or voluntary cross-jurisdictional strategies, or both, for fulfilling the requirements of RCW 36.70A.070(9);

(b) The model element should provide guidance on identifying, designing, and investing in infrastructure that supports community resilience to climate impacts, including the protection, restoration, and enhancement of natural infrastructure as well as traditional infrastructure and protecting and enhancing natural areas to foster resiliency to climate impacts, as well as areas of vital habitat for safe passage and species migration;

(c) The model element should provide guidance on identifying and addressing natural hazards created or aggravated by climate change, including sea level rise, landslides, flooding, drought, heat, smoke, wildfires, and other effects of reasonably anticipated changes to temperature and precipitation patterns; and

(d) The rule must recognize and promote as many cobenefits of climate resilience as possible such as climate change mitigation, salmon recovery, forest health, ecosystem services, and socioeconomic health and resilience.

(9) The department must develop and publish model code provisions that meet the requirements of section 2 of this act by June 30, 2027. The model code provisions developed under this subsection are not required to include critical areas regulations.

"Unlocatable underground facility" includes, but is not limited to, service laterals, storm drains, and nonconductive and nonmetallic underground facilities that do not contain trace wires.

(29) "Utility easement" means a right held by a facility operator to install, maintain, and access an underground facility or pipeline.

(30) "Blind boring" means engaging in directional underground boring without potholing the underground facility, relying on surface markings only to approximate the location of underground utilities in three dimensions.

(31) "Design locating" means locating for planning purposes. "Design locating" does not include locating for excavation purposes.

(32) "Force majeure" means: Natural disasters, including fire, flood, earthquake, windstorm, avalanche, mudslide, and other similar events; acts of war or civil unrest when an emergency has been declared by appropriate governmental officials; acts of civil or military authority; embargoes; epidemics; terrorist acts; riots; insurrections; explosions; and nuclear accidents.

(33) "General contractor" has the same meaning as defined in RCW 18.27.010.

(34) "Hard surface" means an area covered with asphalt, concrete, interlocking brick or block solid stone, wood, or any similar impervious or nonporous material on the surface of the ground.

(35) "Physical exposure" means processes, such as potholing or daylighting.

(36) "Positive response" means a notification from the owner or operator of the underground facility, or the owner's or operator's authorized locating contractor, to the one-number locator service confirming that the facility owner, operator, or contracted locator has completed marking or provided location information regarding unlocatable facilities in response to a notice.

(37) "Potholing" means an excavation process that involves making a series of

small test holes to accurately locate underground lines. Potholing is also known as daylighting.

(38) "Safe and careful work methods" means methods of excavation, including potholing, hand digging when practical, vacuum excavation methods, pneumatic hand tools, or other technical methods that may be developed.

(39) "White lining" means the use of any white paint, flags, stakes, whiskers, or other locally accepted method that is distinguishable from the surrounding area.

(40) "Work-to-begin date" means an identified date not less than two full business days and not more than 10 full business days, not including Saturdays, Sundays, legal local, state, or federal holidays, from the date notice is given to a one-number locator service.

**Sec. 3.** RCW 19.122.027 and 2011 c 263 s 3 are each amended to read as follows:

(1) The commission must establish a single statewide toll-free telephone number to be used for referring excavators to the appropriate one-number locator service. The one-number locator service shall maintain a web-based platform that provides the same services as the toll-free telephone number online. The web-based platform must meet the requirements outlined in RCW 19.122.030 (1) and (2). The web-based platform must be free of charge to those requesting location of underground facilities and operated in the same manner as the toll-free telephone number. The one-number locator service must require that an excavator provide a work-to-begin date in the notice.

(2) The commission, in consultation with the ~~((Washington utilities coordinating council))~~ entity administering the one-number locator service, must establish minimum standards and best management practices for one-number locator services.

(3) One-number locator services must be operated by nongovernmental agencies.

(4) All facility operators within a one-number locator service area must subscribe to the service.

(5) Failure to subscribe to a one-number locator service constitutes willful intent to avoid compliance with this chapter.

**Sec. 4.** RCW 19.122.030 and 2011 c 263 s 4 are each amended to read as follows:

(1)(a) Unless exempted under RCW 19.122.031, before commencing any excavation, an excavator must mark the boundary of the excavation area with white ~~((paint))~~ lining or, when necessary, white pin flags, applied on the ground of the worksite, then provide notice of the scheduled commencement of excavation to all facility operators through a one-number locator service. An excavator shall provide the work-to-begin date in the notice provided to the one-number locator service.

(b) If boundary marking required by (a) of this subsection is infeasible, an excavator must ~~((communicate directly with affected facility operators to ensure that the boundary of the excavation area is accurately identified))~~ provide notice

electronically to a one-number locator service.

(c) Excavators and facility operators are encouraged to incorporate best practices for underground damage prevention, improve worker safety, protect vital underground infrastructure, and ensure public safety during excavation activities conducted in the vicinity of existing underground facilities.

(2) An excavator must provide the notice required by subsection (1) of this section to a one-number locator service not less than two full business days and not more than ~~((ten))10~~ full business days before the scheduled work-to-begin date ~~((for commencement of excavation))~~, unless otherwise agreed by the excavator and facility operators in writing. If an excavator intends to work at multiple sites or at a large project, the excavator must take reasonable steps to confer with facility operators to enable them to locate underground facilities reasonably in advance of the start of excavation for each phase of the work.

(3) Upon receipt of the notice provided for in subsection (1) of this section, a facility operator must, with respect to:

(a)(i) The facility operator's locatable underground facilities, provide the excavator with reasonably accurate information by marking ~~((their))~~ facility location. Hazardous liquid and gas pipeline operators are required to locate all facilities in accordance with Title 49 C.F.R. Secs. 195.442(c)(4) through (6) and 192.614(c)(4) through (6) as they existed on the effective date of this section, or such subsequent date as may be provided by the commission by rule, consistent with the purpose of this section. This information must be provided free of charge subject to the limitations in subsections (6)(b) and (8) of this section, and the grant of authority in subsection (11) of this section;

(ii) In the event of force majeure, the facility operator's deadline to mark underground facilities as provided in subsection (4)(a) of this section, must be extended by an agreement in writing between the affected parties. The facility operator shall notify the excavator of the need for extension of the deadline as soon as reasonable, but no later than the expiration of the deadline established in subsection (4)(a) of this section;

(b) The facility operator's unlocatable or identified but unlocatable underground facilities, provide the excavator with available information as to their location prior to the work-to-begin date provided in the notice under subsection (1) of this section. For any gas or hazardous liquid pipeline, locate all facilities in accordance with Title 49 C.F.R. Secs. 195.442(c)(4) through (6) and 192.614(c)(4) through (6) as they existed on the effective date of this section, or such subsequent date as may be provided by the commission by rule, consistent with the purpose of this section; and

(c) Service laterals, designate their presence or location, if the service laterals:

(i) Connect end users to the facility operator's main utility line; and

(ii) Are within a public right-of-way or utility easement and the boundary of the excavation area identified under subsection (1) of this section.

(4)(a) A facility operator must provide information to an excavator pursuant to subsection (3) of this section no later than ~~((two business days after the receipt of the notice provided for in subsection (1) of this section or before excavation commences, at the option of the facility operator, unless otherwise agreed by the parties))~~ the work-to-begin date on the notice provided for in subsections (1) and (2) of this section, unless otherwise agreed by written agreement between the facility operator and excavator.

(b) A facility operator complying with subsection (3)(b) and (c) of this section may do so in a manner that includes any of the following methods:

(i) Placing within a proposed excavation area a triangular mark at the main utility line pointing at the building, structure, or property in question, indicating the presence of an unlocatable or identified but unlocatable underground facility, including a service lateral;

(ii) Arranging to meet an excavator at a worksite to provide available information about the location of service laterals; or

(iii) Providing copies of the best reasonably available records by electronic message, mail, facsimile, or other delivery method.

(c) A facility operator's good faith attempt to comply with subsection (3)(b) and (c) of this section:

(i) Constitutes full compliance with the requirements of this section, and no person may be found liable for damages or injuries that may result from such compliance, apart from liability for arranging for repairs or relocation as provided in RCW 19.122.050(2); and

(ii) Does not constitute any assertion of ownership or operation of a service lateral by the facility operator.

(d) An end user is responsible for determining the location of a service lateral on their property or a service lateral that they own. Nothing in this section may be interpreted to require an end user to subscribe to a one-number locator service or to locate a service lateral within a right-of-way or utility easement.

(e) Facility operators may direct the one-number locator service to send notices provided for in subsection (1) of this section to a contract locator. The facility operator retains all legal responsibility for compliance with this section.

(5) An excavator must not excavate until all known facility operators have marked ~~((or provided information regarding))~~ their locatable underground facilities or, in the case of nonhazardous liquid or nongas pipeline facilities, provided information regarding their unlocatable underground facilities as provided in this section. On and after January 1, 2026, an excavator may not commence excavation until the excavator has received positive response from all

operators with underground facilities in the area identified in the notice.

(6)(a) Once marked by a facility operator, an excavator is responsible for maintaining the accuracy of the facility operator's markings of underground facilities for the lesser of:

(i) Forty-five calendar days from the date that the excavator provided notice to a one-number locator service pursuant to subsection (1) of this section; or

(ii) The duration of the excavation portion of the project.

(b) An excavator that makes repeated requests for location of underground facilities due to its failure to maintain the accuracy of a facility operator's markings as required by this subsection (6) may be charged by the facility operator for services provided.

(c) A facility operator's markings of underground utilities expire forty-five calendar days from the date that the excavator provided notice to a one-number locator service pursuant to subsection (1) of this section. For excavation occurring after that date, an excavator must provide additional notice to a one-number locator service pursuant to subsection (1) of this section.

(7) An excavator has the right to receive reasonable compensation from a facility operator for costs incurred by the excavator if the facility operator does not locate its underground facilities in accordance with the requirements specified in this section.

(8) A facility operator has the right to receive reasonable compensation from an excavator for costs incurred by the facility operator if the excavator does not comply with the requirements specified in this section.

(9) A facility operator is not required to comply with subsection (4) of this section with respect to service laterals conveying only water if their presence can be determined from other visible water facilities, such as water meters, water valve covers, and junction boxes in or adjacent to the boundary of an excavation area identified under subsection (1) of this section.

(10) If an excavator discovers underground facilities that are not identified, the excavator must cease excavating in the vicinity of the underground facilities and immediately notify the facility operator ~~((or))~~ through a one-number locator service. If an excavator discovers identified but unlocatable underground facilities, the excavator must notify the facility operator through a one-number locator service. Upon notification by a one-number locator service or an excavator, a facility operator must allow for location of the uncovered portion of an underground facility identified by the excavator, and may accept location information from the excavator for marking of the underground facility.

(11) Each facility operator shall provide to a one-number locator service directions on how a requestor may obtain, for design locating, information regarding the location of underground facilities. For the purpose of this subsection, a "requestor" is any

person seeking the location of underground facilities for design locating. Facility operators may attach fees for design locating. However, the fees under this subsection may not be imposed on the department of transportation.

(12) Design locating is required whenever any individual applies for a development permit of any type within 700 feet of a transmission pipeline.

(a) Prior to any activity that involves grade modification, excavation, or additional loading of the soil on property within 700 feet of a transmission pipeline, the requestor must contact the transmission pipeline operator and provide documentation detailing the proposed activity.

(b) The transmission pipeline operator must respond to the requestor within 30 days to confirm a review of the documents describing the proposed activity and indicate any potential impacts from the activity on the transmission line.

(c) If after 30 days, the transmission pipeline operator does not respond to the requestor, then development activity may resume without violation.

(13) Except as provided in subsections (6)(b), (8), and (11) of this section, facility operators are prohibited from charging a fee for locating and marking their underground facilities.

(14) Nothing in this section limits a facility operator regulated by the commission from seeking recovery of costs for locating and marking its underground facilities as part of rates.

**Sec. 5.** RCW 19.122.031 and 2011 c 263 s 5 are each amended to read as follows:

(1) The requirements specified in RCW 19.122.030 do not apply to any of the following activities:

(a) An emergency excavation, but only with respect to ~~((boundary marking))~~ white lining and notice requirements specified in RCW 19.122.030 (1) and (2), and provided that the excavator provides notice to a one-number locator service at the earliest practicable opportunity. Facility operators must promptly respond to a notice of emergency excavation. Prompt means to dispatch locating personnel without undue delay;

(b) An excavation of less than twelve inches in depth on private noncommercial property, if the excavation is performed by the person or an employee of the person who owns or occupies the property on which the excavation is being performed;

(c) The tilling of soil for agricultural purposes less than:

(i) Twelve inches in depth within a utility easement; and

(ii) Twenty inches in depth outside of a utility easement;

(d) The replacement of an official traffic sign installed prior to January 1, 2013, no deeper than the depth at which it was installed;

(e) Road maintenance activities involving excavation less than six inches in depth below the original road grade and ditch maintenance activities involving excavation less than six inches in depth below the

original ditch flowline, or alteration of the original ditch horizontal alignment;

(f) The creation of bar holes less than twelve inches in depth, or of any depth during emergency leak investigations, provided that the excavator takes reasonable measures to eliminate electrical arc hazards; ~~((or))~~

(g) Construction, operation, or maintenance activities by an irrigation district on rights-of-way, easements, or facilities owned by the federal bureau of reclamation in federal reclamation projects; or

(h) Any facility operator using safe and careful work methods to physically expose an unlocatable facility in response to a one-call notification.

(2) Any activity described in subsection (1) of this section is subject to the requirements specified in RCW 19.122.050.

**Sec. 6.** RCW 19.122.040 and 2011 c 263 s 8 are each amended to read as follows:

(1) Project owners shall indicate in bid or contract documents the existence of underground facilities known by the project owner to be located within the proposed area of excavation. The following are deemed to be changed or differing site conditions:

(a) An underground facility not identified as required by this chapter or other provision of law; or

(b) An underground facility not located, as required by this chapter or other provision of law, by the project owner, facility operator, or excavator if the project owner or excavator is also a facility operator.

(2) An excavator shall use reasonable care to avoid damaging underground facilities. An excavator must:

(a) Determine the precise location of underground facilities which have been marked pursuant to RCW 19.122.030;

(b) Plan the excavation to avoid damage to or minimize interference with underground facilities in and near the excavation area; ~~((and))~~

(c) Provide such support for underground facilities in and near the construction area, including during backfill operations, as may be reasonably necessary for the protection of such facilities;

(d) Use safe and careful work methods, taking into consideration the known and unknown underground facilities and the surface and subsurface to be excavated. If the marking is on a hard surface, methods of excavation may include pneumatic hand tools or other excavation methods that are commonly accepted as permissible for the type of surface encountered; and

(e) When directional boring will be implemented as a method of underground excavation, supplement white lining with physical exposure to avoid blind boring.

(3) If an underground facility is damaged and such damage is the consequence of the failure to fulfill an obligation under this chapter, the party failing to perform that obligation is liable for any damages. Any clause in an excavation contract which attempts to allocate liability, or requires indemnification to shift the economic

consequences of liability, that differs from the provisions of this chapter is against public policy and unenforceable. Nothing in this chapter prevents the parties to an excavation contract from contracting with respect to the allocation of risk for changed or differing site conditions.

(4) In any action brought under this section, the prevailing party is entitled to reasonable attorneys' fees.

**Sec. 7.** RCW 19.122.050 and 2020 c 162 s 2 are each amended to read as follows:

(1) An excavator who, in the course of excavation, contacts or damages an underground facility shall notify the facility operator directly, if the facility operator is known, and a one-number locator service, and report the damage as required under RCW 19.122.053. If the damage causes an emergency condition, the excavator causing the damage shall also call 911 to alert the appropriate local public safety agencies and take all appropriate steps to ensure the public safety. No damaged underground facility may be buried until it is repaired or relocated.

(2) A facility operator notified in accordance with subsection (1) of this section shall arrange for repairs or relocation as soon as is practical, or permit the excavator to do necessary repairs or relocation at a mutually acceptable price.

**Sec. 8.** RCW 19.122.055 and 2011 c 263 s 10 are each amended to read as follows:

(1)(a) Any excavator who ~~((fails to notify a one-number locator service))~~ violates any provision of this chapter and causes damage to a hazardous liquid or gas underground facility is subject to a civil penalty of not more than ~~((ten thousand dollars))~~ \$25,000 for each violation.

(b) The civil penalty in this subsection may also be imposed on any excavator who violates RCW 19.122.090.

(2) Any hazardous liquid or gas pipeline operator who (a): (i) Fails to accurately locate the underground facility as required under RCW 19.122.030 (3) and (4); or (ii) fails to mark its underground facilities as required under RCW 19.122.030(1), and (b) whose underground facility is damaged as a result of the failure in (a) of this subsection is subject to a civil penalty of not more than \$25,000 for each violation.

(3) A civil penalty of up to \$5,000 for each violation may be imposed on any excavator or facility operator that violates any provision of this chapter involving an underground pipeline facility, but does not cause damage to an underground pipeline facility.

(4) All civil penalties recovered under this section must be deposited into the damage prevention account created in RCW 19.122.160.

**Sec. 9.** RCW 19.122.090 and 2005 c 448 s 5 are each amended to read as follows:

(1) Any excavator who excavates, without ~~((a valid))~~ an excavation confirmation code

when required under this chapter, within ~~((thirty-five))~~ 35 feet of a transmission pipeline is guilty of a misdemeanor.

(2) Any excavator who excavates within 35 feet of a transmission pipeline, prior to the work-to-begin date on the notice when required under this chapter, is guilty of a misdemeanor.

(3) Any excavator who excavates within 35 feet of a transmission pipeline, prior to receiving positive response from the facility operator of the transmission pipeline when required under this chapter, is guilty of a misdemeanor.

**Sec. 10.** RCW 19.122.100 and 2011 c 263 s 16 are each amended to read as follows:

If charged with a violation of RCW 19.122.090, an equipment operator is deemed to have established an affirmative defense to such charges if:

(1) The equipment operator was provided ~~((a valid))~~ an excavation confirmation code;

(2) The excavation was performed in an emergency situation;

(3) The equipment operator was provided a false confirmation code by an identifiable third party; or

(4) Notice of the excavation was not required under this chapter.

**Sec. 11.** RCW 19.122.130 and 2020 c 162 s 3 are each amended to read as follows:

(1) The commission must contract with a statewide, nonprofit entity whose purpose is to reduce damages to underground and above ground facilities, promote safe excavation practices, and review complaints of alleged violations of this chapter. The contract must not obligate funding by the commission for activities performed by the nonprofit entity or the safety committee under this section.

(2) The contracting entity must create a safety committee to:

(a) Advise the commission and other state agencies, the legislature, and local governments on best practices and training to prevent damage to underground utilities, and policies to enhance worker and public safety; and

(b) Review complaints alleging violations of this chapter involving practices related to underground facilities.

(3)(a) The safety committee will consist of thirteen members, who must be nominated by represented groups and appointed by the contracting entity to staggered three-year terms. The safety committee must include representatives of:

(i) Local governments;

(ii) A natural gas utility subject to regulation under Titles 80 and 81 RCW;

(iii) Contractors;

(iv) Excavators;

(v) An electric utility subject to regulation under Title 80 RCW;

(vi) A consumer-owned utility, as defined in RCW 19.27A.140;

(vii) A pipeline company;

(viii) A water-sewer district subject to regulation under Title 57 RCW;

(ix) The commission; ~~((and))~~

(x) A telecommunications company; and

(xi) A labor organization that historically represents workers who perform underground utility or excavation work.

(b) The safety committee may pass bylaws and provide for those organizational processes that are necessary to complete the safety committee's tasks.

(4) The safety committee must meet at least once every three months.

(5) The safety committee may review complaints of alleged violations of this chapter involving practices related to underground facilities, except for those complaints relating to damage to pipeline facilities or which involve violations of RCW 19.122.075 or 19.122.090. Any person may bring a complaint to the safety committee regarding an alleged violation occurring on or after January 1, 2013.

(6) To review complaints of alleged violations, the safety committee must first receive sufficient evidence that a probable violation occurred. Once sufficient evidence has been received, the safety committee must appoint at least three and not more than five members as a review committee. The review committee must be a balanced group, including at least one excavator and one facility operator.

(7) Before reviewing a complaint alleging a violation of this chapter, the review committee must ~~((notify the person making the complaint and the alleged violator of its review and of))~~ provide all complaint forms, materials, and supporting evidence that will be presented or used by the person or company making the complaint, to the alleged violator no less than 30 days prior to the scheduled date of review. Both parties must be notified of the review and be provided the opportunity to participate.

(8) The safety committee may provide written notification to the commission, with supporting documentation, that a person has likely committed a violation of this chapter, and recommend remedial action that may include a penalty amount, training, or education to improve public safety, or some combination thereof.

(9) By December 1, 2025, the safety committee must make a committee recommendation on the implementation of permitting multiple excavators on a single notice. In making such recommendation, the committee considerations shall include, but are not limited to, the development of clear procedures and assignment of liabilities. The work in developing this recommendation must conclude by December 1, 2025, and shall be done under the existing contract and within existing resources.

**Sec. 12.** RCW 19.122.150 and 2017 c 20 s 3 are each amended to read as follows:

(1) The commission may investigate and enforce violations of ~~((RCW 19.122.055, 19.122.075, and 19.122.090))~~ any provision of this chapter relating to pipeline facilities without initial referral to the safety committee created under RCW 19.122.130.

(2) If the commission's investigation of notifications received pursuant to RCW 19.122.140 or subsection (1) of this section substantiates violations of this chapter, the commission may impose penalties

authorized by RCW 19.122.055, 19.122.070, 19.122.075, and 19.122.090, and require training, education, or any combination thereof.

(3) With respect to referrals from the safety committee, the commission must consider any recommendation by the committee regarding enforcement and remedial actions involving an alleged violator.

(4) In an action to impose a penalty initiated by the commission under subsection (1) or (2) of this section, the penalty is due and payable when the person incurring the penalty receives a notice of penalty in writing from the commission describing the violation and advising the person that the penalty is due. The person incurring the penalty has fifteen days from the date the person receives the notice of penalty to file with the commission a request for mitigation or a request for a hearing. The commission must include this time limit information in the notice of penalty. After receiving a timely request for mitigation or hearing, the commission must suspend collection of the penalty until it issues a final order concerning the penalty or mitigation of that penalty. A person aggrieved by the commission's final order may seek judicial review, subject to provisions of the administrative procedure act, chapter 34.05 RCW.

(5) If a penalty imposed by the commission is not paid, the attorney general may, on the commission's behalf, file a civil action in superior court to collect the penalty."

(b) In a county east of the crest of the Cascade mountains with a population of greater than 500,000, a waiver of connection charges may be allowed under this chapter without an explicit requirement to pay the exempted connection charges from the funds described in (a) of this subsection if the waiver is conditioned upon requiring the developer to record a covenant that prohibits using the property for any purpose other than provided under this chapter. At a minimum, the covenant must address price restrictions and household income limits and that if the property is converted to a use other than described in subsection (1) of this section, the property owner must pay the applicable connection charges in effect at the time of conversion. Covenants required by this subsection must be recorded with the applicable county auditor or recording officer.

NEW SECTION. **Sec. 2.** A new section is added to chapter 61.24 RCW to read as follows:

(1) A unit owner who is or may become delinquent to an association for an assessment charged may contact a housing

counselor to receive housing counseling services.

(2) Housing counselors have a duty to act in good faith to assist unit owners by:

(a) Preparing the unit owner for meetings with the association;

(b) Advising the unit owner about what documents the unit owner must have to seek a repayment plan, modification, or other resolution of an assessment charged or that may be charged in the future by the association;

(c) Informing the unit owner about the alternatives to foreclosure, including a repayment plan, modification, or other possible resolution of an assessment charged or that may be charged in the future by the association; and

(d) Providing other guidance, advice, and education as the housing counselor considers necessary.

(3) Nothing in RCW 64.32.200, 64.34.364, 64.38.100, 64.90.485, or this section precludes a meeting or negotiations between the housing counselor, unit owner, and the association at any time, including after the issuance of a notice of delinquency by the association for past due assessments to the unit owner by the association.

(4) A unit owner who seeks the assistance of a housing counselor may use the assistance of an attorney at any time.

(5) A housing counselor or attorney assisting a unit owner may refer the unit owner to mediation, pursuant to RCW 61.24.163. Prior to referring the unit owner to mediation, the housing counselor or attorney shall submit a written request to the association on behalf of the unit owner requesting that the unit owner and association meet and confer over the assessment charged. Following the meet and confer session, the housing counselor or attorney shall determine whether mediation is appropriate based on the individual circumstances. The meet and confer session should occur within 30 days of the housing counselor's or attorney's request to the association to meet and confer, or at a later date as otherwise agreed by the parties. The meet and confer session may be held by telephone or videoconference. For the meet and confer session, the unit owner and the association shall be responsible for their own respective attorneys' fees, if any are incurred. Legal representation is not required for either party participating in the meet and confer session. If the association refuses to participate in the meet and confer session within 30 days of the request, or otherwise fails to respond to the request within 30 days, then the unit owner may be referred to mediation pursuant to RCW 61.24.163. If the unit owner refuses to participate in the meet and confer session after it has been scheduled, then the housing counselor or attorney may not refer the matter to mediation; however, when a notice of trustee's sale has been recorded creating insufficient time to meet and confer, or where a judgment in foreclosure is pending and there is insufficient time to meet and confer, a unit owner may be referred to mediation regardless of whether the unit owner participates in a meet and confer session.

(6) During the time period between the date that the request to meet and confer is made and the date that the meet and confer session with the association is held, the association is prohibited from charging to the unit owner any attorneys' fees the association may have incurred attempting to collect the past due assessment.

(7) The referral to mediation may be made at any time after the meet and confer session occurs, after refusal to participate by the association, or after 30 days has passed since the request was made with no response from the association, but no later than 90 days prior to the date of sale listed in a notice of trustee's sale provided to the unit owner, or for a judicial foreclosure, at any time prior to the entry of a judgment in foreclosure. If an amended notice of trustee's sale is recorded after the trustee sale has been stayed pursuant to RCW 61.24.130, the unit owner may be referred to mediation no later than 25 days prior to the date of sale listed in the amended notice of trustee's sale. Nothing in this section requires a delay or prohibits the referral of a unit owner to mediation once a notice of trustee's sale has been recorded or judicial foreclosure has been filed.

(8) Housing counselors providing assistance to unit owners under this section are not liable for civil damages resulting from any acts or omissions in providing assistance, unless the acts or omissions constitute gross negligence or willful or wanton misconduct.

(9) Housing counselors shall provide information to the department to assist the department in its annual report to the legislature as required under RCW 61.24.163(22). The information provided to the department by the housing counselors should include outcomes of foreclosures and be similar to the information requested in the national foreclosure mortgage counseling client level foreclosure outcomes report form.

**Sec. 3.** RCW 61.24.163 and 2023 c 206 s 5 are each amended to read as follows:

(1) The foreclosure mediation program established in this section applies only to borrowers or unit owners who have been referred to mediation by a housing counselor or attorney. The mediation program under this section is not governed by chapter 7.07 RCW and does not preclude mediation required by a court or other provision of law.

(2) For deed of trust foreclosure, the referral to mediation may be made any time after a notice of default has been issued but no later than 90 days prior to the date of sale listed in the notice of trustee's sale. If an amended notice of trustee's sale is recorded after the trustee sale has been stayed pursuant to RCW 61.24.130, the borrower may be referred to mediation no later than 25 days prior to the date of sale listed in the amended notice of trustee's sale. If the borrower has failed to elect to mediate within the applicable time frame, the borrower and the beneficiary may, but are under no duty to, agree in writing to enter the foreclosure mediation program.

~~((The mediation program under this section is not governed by chapter 7.07 RCW and does not preclude mediation required by a court or other provision of law.~~

~~((2))~~ (3) For association foreclosures, the referral to mediation may be made as specified in section 2(7) of this act. If the unit owner has failed to elect to mediate within the applicable time frame, the unit owner and the association may, but are under no duty to, agree in writing to enter the foreclosure mediation program.

(4) A housing counselor or attorney referring a borrower or unit owner to mediation shall send a notice to the borrower or unit owner and the department, stating that mediation is appropriate.

~~((3))~~ (5) Within 10 days of receiving the notice, the department shall:

(a) Send a notice to the beneficiary or association, the borrower or unit owner, the housing counselor or attorney who referred the borrower, and the trustee, if applicable, stating that the parties have been referred to mediation. The notice must include the statements and list of documents and information described in subsections ((4)) (6) and ((5)) (7) of this section and a statement explaining each party's responsibility to pay the mediator's fee; and

(b) Select a mediator and notify the parties of the selection.

~~((4) Within)~~ (6) For deed of trust foreclosures:

(a) Within 23 days of the department's notice that the parties have been referred to mediation, the borrower shall transmit the documents required for mediation to the mediator and the beneficiary. The required documents include an initial homeowner financial information worksheet as required by the department. The worksheet must include, at a minimum, the following information:

~~((a))~~ (i) The borrower's current and future income;

~~((b))~~ (ii) Debts and obligations;

~~((c))~~ (iii) Assets;

~~((d))~~ (iv) Expenses;

~~((e))~~ (v) Tax returns for the previous two years;

~~((f))~~ (vi) Hardship information;

~~((g))~~ (vii) Other applicable information commonly required by any applicable federal mortgage relief program.

~~((5))~~ (b) Within 20 days of the beneficiary's receipt of the borrower's documents under this subsection, the beneficiary shall transmit the documents required for mediation to the mediator and the borrower. The required documents include:

~~((a))~~ (i) An accurate statement containing the balance of the loan within 30 days of the date on which the beneficiary's documents are due to the parties;

~~((b))~~ (ii) Copies of the note and deed of trust;

~~((c))~~ (iii) Proof that the entity claiming to be the beneficiary is the owner of any promissory note or obligation secured by the deed of trust. Sufficient proof may be a copy of the declaration described in RCW 61.24.030 (7) (a);

~~((d))~~ (iv) The best estimate of any arrearage and an itemized statement of the arrearages;

~~((e))~~ (v) An itemized list of the best estimate of fees and charges outstanding;

~~((f))~~ (vi) The payment history and schedule for the preceding twelve months, or since default, whichever is longer, including a breakdown of all fees and charges claimed;

~~((g))~~ (vii) All borrower-related and mortgage-related input data used in any net present values analysis. If no net present values analysis is required by the applicable federal mortgage relief program, then the input data required under the federal deposit insurance corporation and published in the federal deposit insurance corporation loan modification program guide, or if that calculation becomes unavailable, substantially similar input data as determined by the department;

~~((h))~~ (viii) An explanation regarding any denial for a loan modification, forbearance, or other alternative to foreclosure in sufficient detail for a reasonable person to understand why the decision was made;

~~((i))~~ (ix) Appraisal or other broker price opinion most recently relied upon by the beneficiary not more than 90 days old at the time of the scheduled mediation; and

~~((j))~~ (x) The portion or excerpt of the pooling and servicing agreement or other investor restriction that prohibits the beneficiary from implementing a modification, if the beneficiary claims it cannot implement a modification due to limitations in a pooling and servicing agreement or other investor restriction, and documentation or a statement detailing the efforts of the beneficiary to obtain a waiver of the pooling and servicing agreement or other investor restriction provisions.

~~((6))~~ (7) For association foreclosures:

(a) Within 23 days of the department's notice that the parties have been referred to mediation, the association shall transmit the documents required for mediation to the mediator and the unit owner. The required documents include:

(i) An itemized ledger for the preceding 12 months, or since the assessments became past due, whichever is longer. The ledger shall include an itemized list of all dues, fines, special assessments, and any other charges owed, with the date and amount for each item. The ledger should include the total balance owed at the time the ledger is transmitted, accurate within 30 days of the date on which the association's documents are due to the parties;

(ii) Copies of all association liens placed against the property;

(iii) Copies of the current association declarations, bylaws, and any other governing documents for the association.

(b) Within 20 days of the unit owner's receipt of the association's documents, the unit owner shall transmit the documents required for mediation to the mediator and the association. The required documents include:

(i) Evidence of any unit owner payments to the association that are not reflected on the association ledger, if any;

(ii) Statement of hardship, if relevant;

(iii) If the unit owner is interested in a payment plan, a proposed schedule of payments to resolve the arrears.

(8) Within 70 days of receiving the referral from the department, the mediator shall convene a mediation session in the county where the property is located, unless the parties agree on another location. The parties may agree to extend the time in which to schedule the mediation session. If the parties agree to extend the time, the beneficiary or association shall notify the trustee, if applicable, of the extension and the date the mediator is expected to issue the mediator's certification.

~~((7))~~ (9) (a) The mediator may schedule phone conferences, consultations with the parties individually, and other communications to ensure that the parties have all the necessary information and documents to engage in a productive mediation.

(b) The mediator must send written notice of the time, date, and location of the mediation session to the borrower or unit owner, the beneficiary or association, and the department at least 30 days prior to the mediation session. At a minimum, the notice must contain:

(i) A statement that the borrower or unit owner may be represented in the mediation session by an attorney or other advocate;

(ii) A statement that a person with authority to agree to a resolution, including a proposed settlement, loan modification, repayment plan for assessments, modification of obligations related to the payment of assessments, or dismissal or continuation of the foreclosure proceeding, must be present either in person or on the telephone or videoconference during the mediation session; and

(iii) A statement that the parties have a duty to mediate in good faith and that failure to mediate in good faith may impair the beneficiary's or association's ability to foreclose on the property or the borrower's or unit owner's ability to modify the loan, modify obligations relating to the payment of assessments, or take advantage of other alternatives to foreclosure.

~~((8))~~ (10) (a) The borrower, the beneficiary or authorized agent, and the mediator must meet in person for the mediation session. In an association foreclosure, the unit owner and association or authorized agent and the mediator are encouraged to meet in person for the mediation session, but may meet by telephone or videoconference. However, a person with authority to agree to a resolution on behalf of the beneficiary or association may be present over the telephone or videoconference during the mediation session.

(b) After the mediation session commences, the mediator may continue the mediation session once, and any further continuances must be with the consent of the parties.

~~((9) The))~~ (11) For deed of trust foreclosures, the participants in mediation

must address the issues of foreclosure that may enable the borrower and the beneficiary to reach a resolution, including but not limited to reinstatement, modification of the loan, restructuring of the debt, or some other workout plan. To assist the parties in addressing issues of foreclosure, the mediator may require the participants to consider the following:

(a) The borrower's current and future economic circumstances, including the borrower's current and future income, debts, and obligations for the previous 60 days or greater time period as determined by the mediator;

(b) The net present value of receiving payments pursuant to a modified mortgage loan as compared to the anticipated net recovery following foreclosure;

(c) Any affordable loan modification calculation and net present value calculation when required under any federal mortgage relief program and any modification program related to loans insured by the federal housing administration, the veterans administration, and the rural housing service. If such a calculation is not provided or required, then the beneficiary must provide the net present value data inputs established by the federal deposit insurance corporation and published in the federal deposit insurance corporation loan modification program guide or other net present value data inputs as designated by the department. The mediator may run the calculation in order for a productive mediation to occur and to comply with the mediator certification requirement; and

(d) Any other loss mitigation guidelines to loans insured by the federal housing administration, the veterans administration, and the rural housing service, if applicable.

~~((10))~~ (12) For association foreclosures, the participants in mediation must address the issues which led to foreclosure that may enable the unit owner and the association to reach a resolution including, but not limited to, a delinquent assessment payment plan, waiver of association imposed late fees or attorneys' fees, modification of a delinquent assessment, modification of late fees or charges associated with a delinquent assessment, or any other workout plan.

(13) A violation of the duty to mediate in good faith as required under this section may include:

(a) Failure to timely participate in mediation without good cause;

(b) Failure of the borrower ~~((or))~~, the unit owner, the beneficiary, or the association to provide the documentation required before mediation or pursuant to the mediator's instructions;

(c) Failure of a party to designate representatives with adequate authority to fully settle, compromise, or otherwise reach resolution with the borrower or unit owner in mediation; ~~((and))~~

(d) A request by a beneficiary that the borrower waive future claims he or she may have in connection with the deed of trust, as a condition of agreeing to a modification, except for rescission claims under the federal truth in lending act.

Nothing in this section precludes a beneficiary from requesting that a borrower dismiss with prejudice any pending claims against the beneficiary, its agents, loan servicer, or trustee, arising from the underlying deed of trust, as a condition of modification; and

((e)) A request by the association that the unit owner waive future claims against the association. Nothing in this section precludes an association from requesting that a unit owner dismiss any civil claims against the association related to the present delinquency.

((11)) (14) If the mediator reasonably believes a borrower or unit owner will not attend a mediation session based on the borrower's or unit owner's conduct, such as the lack of response to the mediator's communications, the mediator may cancel a scheduled mediation session and send a written cancellation to the department and the trustee and send copies to the parties. The beneficiary or association may proceed with the foreclosure after receipt of the mediator's written confirmation of cancellation.

((12)) (15) Within seven business days after the conclusion of the mediation session, the mediator must send a written certification to the department and the trustee and send copies to the parties of:

(a) The date, time, and location of the mediation session;

(b) The names of all persons attending in person and by telephone or videoconference, at the mediation session;

(c) Whether a resolution was reached by the parties, including whether the default or delinquency was cured by reinstatement, modification, or restructuring of the debt, repayment plan, or some other alternative to foreclosure was agreed upon by the parties;

(d) Whether the parties participated in the mediation in good faith; and

((f)) For deed of trust foreclosures, if a written agreement was not reached, a description of any net present value test used, along with a copy of the inputs, including the result of any net present value test expressed in a dollar amount.

((13)) (16) If the parties are unable to reach an agreement, the beneficiary or association may proceed with the foreclosure after receipt of the mediator's written certification.

((14)) (17) (a) The mediator's certification that the beneficiary or association failed to act in good faith in mediation constitutes a defense to the nonjudicial foreclosure action that was the basis for initiating the mediation. In any action to enjoin the foreclosure, the beneficiary or association is entitled to rebut the allegation that it failed to act in good faith.

(b) The mediator's certification that the beneficiary or association failed to act in good faith during mediation does not constitute a defense to a judicial foreclosure or a future nonjudicial foreclosure action if a modification of the loan or delinquent assessment payment plan is agreed upon and the borrower subsequently defaults or unit owner fails to pay assessments.

(c) If an affordable loan modification is not offered in the mediation or a written agreement was not reached and the mediator's certification shows that the net present value of the modified loan exceeds the anticipated net recovery at foreclosure, that showing in the certification constitutes a basis for the borrower to enjoin the foreclosure.

((15)) (18) The mediator's certification that the borrower or unit owner failed to act in good faith in mediation authorizes the beneficiary or association to proceed with the foreclosure.

((16)) (19) (a) If a borrower or unit owner has been referred to mediation before a notice of trustee sale has been recorded, a trustee may not record the notice of sale until the trustee receives the mediator's certification stating that the mediation has been completed. If the trustee does not receive the mediator's certification, the trustee may record the notice of sale after 10 days from the date the certification to the trustee was due. If, after a notice of sale is recorded under this subsection ((16)) (19) (a), the mediator subsequently issues a certification finding that the beneficiary or association violated the duty of good faith, the certification constitutes a basis for the borrower or unit owner to enjoin the foreclosure.

(b) If a borrower or unit owner has been referred to mediation after the notice of sale was recorded, the sale may not occur until the trustee receives the mediator's certification stating that the mediation has been completed.

((17)) (c) If a unit owner has been referred to mediation before the filing of a judicial foreclosure, the association may not file a complaint for judicial foreclosure until the association receives the mediator's certification stating that the mediation has been completed. If a unit owner has been referred to mediation after the filing of a judicial foreclosure, but prior to the issuance of a judgment in the foreclosure action, the association may not seek judgment in the foreclosure action until the association receives the mediator's certification stating that the mediation has been completed. If the association does not receive the mediator's certification, the association may file for judicial foreclosure or move for judgment in a judicial foreclosure action after 10 days from the date the certification to the association was due. If an association entitled to bring a judicial foreclosure action participates in mediation under this section, the time spent in mediation shall not be a part of the time limited for the commencement of the judicial foreclosure action.

(20) A mediator may charge reasonable fees as authorized by this subsection or as authorized by the department. Unless the fee is waived, the parties agree otherwise, or the department otherwise authorizes, a foreclosure mediator's fee may not exceed \$400 for preparing, scheduling, and conducting a mediation session lasting between one hour and three hours. For a mediation session exceeding three hours, the foreclosure mediator may charge a reasonable

fee, as authorized by the department. The mediator must provide an estimated fee before the mediation, and payment of the mediator's fee must be divided equally between the beneficiary and the borrower, or between the association and the unit owner. The beneficiary and the borrower, or the association and the unit owner, must tender the ~~((loan))~~ mediator's fee within 30 calendar days from receipt of the department's letter referring the parties to mediation or pursuant to the mediator's instructions.

~~((18))~~ (21) For association foreclosures, the unit owner and the association shall be responsible for their own respective attorneys' fees, if any are incurred during mediation under this section. Legal representation is not required for either party participating in an association foreclosure mediation.

(22) Beginning December 1, 2012, and every year thereafter, the department shall report annually to the legislature on:

(a) The performance of the program, including the number ~~((s))~~ of borrowers who are referred to mediation by a housing counselor or attorney. Beginning December 1, 2026, the report must also include the number of unit owners who are referred to mediation by a housing counselor or attorney;

(b) The results of the mediation program, including the number of mediations requested by housing counselors and attorneys, the number of certifications of good faith issued, the number of borrowers and beneficiaries who failed to mediate in good faith, and the reasons for the failure to mediate in good faith, if known, the numbers of loans restructured or modified, the change in the borrower's monthly payment for principal and interest and the number of principal write-downs and interest rate reductions, and, to the extent practical, the number of borrowers who report a default within a year of restructuring or modification. Beginning December 1, 2026, the report must also include the number of unit owners and associations who failed to mediate in good faith, and the reasons for the failure to mediate in good faith, if known, the number of debts for delinquent assessments restructured or modified, the change in the unit owner's periodic assessment payments including any reductions in late charges or interest rates, and, to the extent practical, the number of unit owners who report a delinquency within a year of restructuring or modification;

(c) The information received by housing counselors regarding outcomes of foreclosures; and

(d) Any recommendations for changes to the statutes regarding the mediation program.

~~((19))~~ (23) This section does not apply to certain federally insured depository institutions, as specified in RCW 61.24.166.

(24) The department shall create an online common interest communities foreclosure resource center to distribute information to association members, managers, and boards of directors about foreclosure programs and resources. The information shall be made available in

language translations that the department provides in its other programs and when the information is requested verbally the department shall use a phone-based or other similar interpretive service. The information to be provided must include, but is not limited to, the following:

- (a) The housing counseling program;
- (b) The meet and confer process;
- (c) The foreclosure mediation program;
- (d) Language translations of the notice of delinquency for past due assessments; and
- (e) Any other programs and resources that the department determines are relevant.

**Sec. 4.** RCW 61.24.165 and 2023 c 206 s 6 are each amended to read as follows:

(1) Except as provided in subsection (3) of this section, RCW 61.24.163 applies only to deeds of trust that are recorded against residential real property of up to four units.

(2) RCW 61.24.163 does not apply to deeds of trust:

- (a) Securing a commercial loan;
- (b) Securing obligations of a grantor who is not the borrower or a guarantor;
- (c) Securing a purchaser's obligations under a seller-financed sale; or
- (d) Where the grantor is a partnership, corporation, or limited liability company, or where the property is vested in a partnership, corporation, or limited liability company at the time the notice of default is issued.

(3) RCW 61.24.163 ~~((does not apply to association beneficiaries subject to chapter 64.32, 64.34, or 64.38 RCW))~~ also applies to associations seeking to foreclose liens or deficiencies via nonjudicial or judicial foreclosure.

(4) For purposes of referral and mediation under RCW 61.24.163, a person may be referred to mediation if the borrower or unit owner is deceased and the person is a successor in interest of the deceased borrower or unit owner. The referring counselor or attorney must determine a person's eligibility under this section and indicate the grounds for eligibility on the referral to mediation submitted to the department. For the purposes of mediation under RCW 61.24.163, the person must be treated as a "borrower" or "unit owner." This subsection does not impose an affirmative duty on the beneficiary to accept an assumption of the loan.

(5) For purposes of referral and mediation under RCW 61.24.163, a person may be referred to mediation if the person has been awarded title to the property in a proceeding for dissolution or legal separation. The referring counselor or attorney must determine the person's eligibility under this section and indicate the grounds for eligibility on the referral to mediation submitted to the department. For the purposes of mediation under RCW 61.24.163, the person must be treated as a "borrower" or "unit owner." This subsection does not impose an affirmative duty on the beneficiary to accept an assumption of the loan.

**NEW SECTION. Sec. 5.** A new section is added to chapter 61.24 RCW to read as follows:

(1) A unit owner who is or may become delinquent to an association for an assessment charged may contact a housing counselor to receive housing counseling services.

(2) Housing counselors have a duty to act in good faith to assist unit owners by:

(a) Preparing the unit owner for meetings with the association;

(b) Advising the unit owner about what documents the unit owner must have to seek a repayment plan, modification, or other resolution of an assessment charged or that may be charged in the future by the association;

(c) Informing the unit owner about the alternatives to foreclosure, including a repayment plan, modification, or other possible resolution of an assessment charged or that may be charged in the future by the association; and

(d) Providing other guidance, advice, and education as the housing counselor considers necessary.

(3) Nothing in RCW 64.90.485 or this section precludes a meeting or negotiations between the housing counselor, unit owner, and the association at any time, including after the issuance of a notice of delinquency by the association for past due assessments to the unit owner by the association.

(4) A unit owner who seeks the assistance of a housing counselor may use the assistance of an attorney at any time.

(5) A housing counselor or attorney assisting a unit owner may refer the unit owner to mediation, pursuant to RCW 61.24.163. Prior to referring the unit owner to mediation, the housing counselor or attorney shall submit a written request to the association on behalf of the owner requesting that the unit owner and association meet and confer over the assessment charged. Following this meet and confer session, the housing counselor or attorney shall determine whether mediation is appropriate based on the individual circumstances. The meet and confer session should occur within 30 days of the housing counselor's or attorney's request to the association to meet and confer, or at a later date as otherwise agreed by the parties. The meet and confer session may be held by telephone or videoconference. For the meet and confer session, the unit owner and the association shall be responsible for their own respective attorneys' fees, if any are incurred. Legal representation is not required for either party participating in the meet and confer session. If the association refuses to participate in the meet and confer session within 30 days of the request, or otherwise fails to respond to the request within 30 days, then the unit owner may be referred to mediation pursuant to RCW 61.24.163. If the unit owner refuses to participate in the meet and confer session after it has been scheduled, then the housing counselor or attorney may not refer the matter to mediation; however, when a notice of trustee's sale has been recorded creating insufficient time to meet and

confer, or where a judgment in foreclosure is pending and there is insufficient time to meet and confer, a unit owner may be referred to mediation regardless of whether the unit owner participates in a meet and confer session.

(6) During the time period between the date that the request to meet and confer is made and the date that the meet and confer session with the association is held, the association is prohibited from charging to the unit owner any attorneys' fees the association may have incurred attempting to collect the past due assessment.

(7) The referral to mediation may be made at any time after the meet and confer session occurs, after refusal to participate by the association, or after 30 days has passed since the request was made with no response from the association, but no later than 90 days prior to the date of sale listed in a notice of trustee's sale provided to the unit owner, or for a judicial foreclosure, at any time prior to the entry of a judgment in foreclosure. If an amended notice of trustee's sale is recorded after the trustee sale has been stayed pursuant to RCW 61.24.130, the unit owner may be referred to mediation no later than 25 days prior to the date of sale listed in the amended notice of trustee's sale. Nothing in this section requires a delay or prohibits the referral of a unit owner to mediation once a notice of trustee's sale has been recorded or a judicial foreclosure has been filed.

(8) Housing counselors providing assistance to unit owners under this section are not liable for civil damages resulting from any acts or omissions in providing assistance, unless the acts or omissions constitute gross negligence or willful or wanton misconduct.

(9) Housing counselors shall provide information to the department to assist the department in its annual report to the legislature as required under RCW 61.24.163(22). The department may make policies and procedures related to the implementation, collection, remittance, and management of the fee and may enter into individualized agreements governing the efficient remittance of the fee.

(2) At or before the time that the foreclosure prevention fee is assessed under subsection (1) of this section, the escrow agent or other settlement or closing agent must provide the borrower with a notice of the foreclosure prevention fee and its purpose. The department must create a notice form that an escrow agent or other settlement or closing agent may use to satisfy this notice requirement. The notice form must include the toll-free numbers for the statewide foreclosure hotline recommended by the housing finance commission.

**Sec. 9.** RCW 61.24.172 and 2021 c 151 s 9 are each amended to read as follows:

**NEW SECTION. Sec. 10.** A new section is added to chapter 61.24 RCW to read as follows:

By December 31, 2025, the department shall provide a report to the appropriate committees of the legislature on the number and amounts received from the notice of default fee remitted under RCW 61.24.190 and the foreclosure prevention fee remitted under section 8 of this act into the foreclosure fairness account authorized under RCW 61.24.172 for revenue collected from July 1, 2025, through November 30, 2025, and then post such information on the department website annually thereafter.

**Sec. 11.** RCW 64.32.200 and 2023 c 214 s 2 are each amended to read as follows:

(1) The declaration may provide for the collection of all sums assessed by the association of apartment owners for the share of the common expenses chargeable to any apartment and the collection may be enforced in any manner provided in the declaration including, but not limited to, (a) 10 days notice shall be given the delinquent apartment owner to the effect that unless such assessment is paid within 10 days any or all utility services will be forthwith severed and shall remain severed until such assessment is paid, or (b) collection of such assessment may be made by such lawful method of enforcement, judicial or extra-judicial, as may be provided in the declaration and/or bylaws.

(2) All sums assessed by the association of apartment owners but unpaid for the share of the common expenses chargeable to any apartment shall constitute a lien on such apartment prior to all other liens except only (a) tax liens on the apartment in favor of any assessing unit and/or special district, and (b) all sums unpaid on all mortgages of record. Such lien is not subject to the ban against execution or forced sales of homesteads under RCW 6.13.080 and, subject to the provisions in subsection (5) of this section, may be foreclosed by suit by the manager or board of directors, acting on behalf of the apartment owners, in like manner as a mortgage of real property. In any such foreclosure the apartment owner shall be required to pay a reasonable rental for the

apartment, if so provided in the bylaws, and the plaintiff in such foreclosures shall be entitled to the appointment of a receiver to collect the same. The manager or board of directors, acting on behalf of the apartment owners, shall have power, unless prohibited by the declaration, to bid on the apartment at foreclosure sale, and to acquire and hold, lease, mortgage, and convey the same. Upon an express waiver in the complaint of any right to a deficiency judgment, the period of redemption shall be eight months after the sale. Suit to recover any judgment for any unpaid common expenses shall be maintainable without foreclosing or waiving the liens securing the same.

(3) Where the mortgagee of a mortgage of record or other purchaser of an apartment obtains possession of the apartment as a result of foreclosure of the mortgage, such possessor, his or her successors and assigns shall not be liable for the share of the common expenses or assessments by the association of apartment owners chargeable to such apartment which became due prior to such possession. Such unpaid share of common expenses of assessments shall be deemed to be common expenses collectible from all of the apartment owners including such possessor, his or her successors and assigns.

(4)(a) When the association, or the manager or board of directors on its behalf, mails to the apartment owner by first-class mail the first notice of delinquency for past due assessments to the apartment address and to any other address that the owner has provided to the association, the association shall include a first preforeclosure notice that states as follows:

**THIS IS A NOTICE OF DELINQUENCY FOR PAST DUE ASSESSMENTS**

**THIS NOTICE IS ONE STEP IN A PROCESS THAT COULD RESULT IN YOUR LOSING YOUR HOME.**

**CONTACT A HOUSING COUNSELOR OR AN ATTORNEY LICENSED IN WASHINGTON NOW** to assess your situation and refer you to mediation if you might benefit. **DO NOT DELAY.**

The association shall obtain the toll-free numbers and website information from the department of commerce for inclusion in the notice. The first preforeclosure notice required by this section must be mailed by the association to the apartment owner no later than 10 days after the date that assessments have become past due.

(b) If, when a delinquent account is referred to an association's attorney, the first preforeclosure notice required under (a) of this subsection has not yet been mailed to the apartment owner, the association or the association's attorney shall mail the first preforeclosure notice to the apartment owner in order to satisfy the requirement in (a) of this subsection. The association should maintain this preforeclosure information and make it available to any apartment owner upon request, and otherwise generally available to all apartment owners who are members of the association.

(c) Mailing the first preforeclosure notice pursuant to (a) of this subsection does not satisfy the requirement in subsection (5)(b) of this section to mail a second preforeclosure notice at or after the date that assessments have become past due for at least 90 days. The second preforeclosure notice may not be mailed sooner than 60 days after the first preforeclosure notice is mailed.

(5) An association, or the manager or board of directors on its behalf, may not commence an action to foreclose a lien on an apartment under this section unless:

(a) The apartment owner, at the time the action is commenced, owes at least a sum equal to the greater of:

(i) Three months or more of assessments, not including fines, late charges, interest, attorneys' fees, or costs incurred by the association in connection with the collection of a delinquent owner's account; or

(ii) \$2,000 of assessments, not including fines, late charges, interest, attorneys' fees, or costs incurred by the association in connection with the collection of a delinquent owner's account;

(b) At or after the date that assessments have become past due for at least 90 days, but no sooner than 60 days after the first preforeclosure notice required in subsection (4)(a) of this section is mailed, the association has mailed, by first-class mail, to the owner, at the apartment address and to any other address which the owner has provided to the association, a second notice of delinquency, which must include a second preforeclosure notice that contains the same information as the first preforeclosure notice provided to the apartment owner pursuant to subsection (4)(a) of this section. The second preforeclosure notice

may not be mailed sooner than 60 days after the first preforeclosure notice required in subsection (4)(a) of this section is mailed;

(c) At least 90 days have elapsed from the date the minimum amount required in (a) of this subsection has accrued; ~~((and))~~

(d) If the apartment owner was referred to mediation pursuant to RCW 61.24.163, until the mediation is completed and the certification of mediation is issued or after 10 days from the date the mediator's certification was due to the association, and

(e) The board approves commencement of a foreclosure action specifically against that apartment.

(6) Every aspect of a collection, foreclosure, sale, or other conveyance under this section, including the method, advertising, time, date, place, and terms, must be commercially reasonable.

**Sec. 12.** RCW 64.34.364 and 2023 c 214 s 4 are each amended to read as follows:

(1) The association has a lien on a unit for any unpaid assessments levied against a unit from the time the assessment is due.

(2) A lien under this section shall be prior to all other liens and encumbrances on a unit except: (a) Liens and encumbrances recorded before the recording of the declaration; (b) a mortgage on the unit recorded before the date on which the assessment sought to be enforced became delinquent; and (c) liens for real property taxes and other governmental assessments or charges against the unit. A lien under this section is not subject to the provisions of chapter 6.13 RCW.

(3) Except as provided in subsections (4) and (5) of this section, the lien shall also be prior to the mortgages described in subsection (2)(b) of this section to the extent of assessments for common expenses, excluding any amounts for capital improvements, based on the periodic budget adopted by the association pursuant to RCW 64.34.360(1) which would have become due during the six months immediately preceding the date of a sheriff's sale in an action for judicial foreclosure by either the association or a mortgagee, the date of a trustee's sale in a nonjudicial foreclosure by a mortgagee, or the date of recording of the declaration of forfeiture in a proceeding by the vendor under a real estate contract.

(4) The priority of the association's lien against units encumbered by a mortgage held by an eligible mortgagee or by a mortgagee which has given the association a written request for a notice of delinquent assessments shall be reduced by up to three months if and to the extent that the lien priority under subsection (3) of this section includes delinquencies which relate to a period after such holder becomes an eligible mortgagee or has given such notice and before the association gives the holder a written notice of the delinquency. This subsection does not affect the priority of mechanics' or material suppliers' liens, or the priority of liens for other assessments made by the association.

(5) If the association forecloses its lien under this section nonjudicially pursuant to chapter 61.24 RCW, as provided by subsection (9) of this section, the association shall not be entitled to the lien priority provided for under subsection (3) of this section.

(6) Unless the declaration otherwise provides, if two or more associations have liens for assessments created at any time on the same real estate, those liens have equal priority.

(7) Recording of the declaration constitutes record notice and perfection of the lien for assessments. While no further recording of any claim of lien for assessment under this section shall be required to perfect the association's lien, the association may record a notice of claim of lien for assessments under this section in the real property records of any county in which the condominium is located. Such recording shall not constitute the written notice of delinquency to a mortgagee referred to in subsection (2) of this section.

(8) A lien for unpaid assessments and the personal liability for payment of assessments is extinguished unless proceedings to enforce the lien or collect the debt are instituted within three years after the amount of the assessments sought to be recovered becomes due.

(9) The lien arising under this section may be enforced judicially by the association or its authorized representative in the manner set forth in chapter 61.12 RCW. The lien arising under this section may be enforced nonjudicially in the manner set forth in chapter 61.24 RCW for nonjudicial foreclosure of deeds of trust if the declaration (a) contains a grant of the condominium in trust to a trustee qualified under RCW 61.24.010 to secure the obligations of the unit owners to the association for the payment of assessments, (b) contains a power of sale, (c) provides in its terms that the units are not used principally for agricultural or farming purposes, and (d) provides that the power of sale is operative in the case of a default in the obligation to pay assessments. The association or its authorized representative shall have the power, unless prohibited by the declaration, to purchase the unit at the foreclosure sale and to acquire, hold, lease, mortgage, or convey the same. Upon an express waiver in the complaint of any right to a deficiency judgment in a judicial foreclosure action, the period of redemption shall be eight months. Nothing in this section shall prohibit an association from taking a deed in lieu of foreclosure.

(10) From the time of commencement of an action by the association to foreclose a lien for nonpayment of delinquent assessments against a unit that is not occupied by the owner thereof, the association shall be entitled to the appointment of a receiver to collect from the lessee thereof the rent for the unit as and when due. If the rental is not paid, the receiver may obtain possession of the unit, refurbish it for rental up to a reasonable standard for rental units in this type of condominium, rent the unit or permit its

rental to others, and apply the rents first to the cost of the receivership and attorneys' fees thereof, then to the cost of refurbishing the unit, then to applicable charges, then to costs, fees, and charges of the foreclosure action, and then to the payment of the delinquent assessments. Only a receiver may take possession and collect rents under this subsection, and a receiver shall not be appointed less than 90 days after the delinquency. The exercise by the association of the foregoing rights shall not affect the priority of preexisting liens on the unit.

(11) Except as provided in subsection (3) of this section, the holder of a mortgage or other purchaser of a unit who obtains the right of possession of the unit through foreclosure shall not be liable for assessments or installments thereof that became due prior to such right of possession. Such unpaid assessments shall be deemed to be common expenses collectible from all the unit owners, including such mortgagee or other purchaser of the unit. Foreclosure of a mortgage does not relieve the prior owner of personal liability for assessments accruing against the unit prior to the date of such sale as provided in this subsection.

(12) In addition to constituting a lien on the unit, each assessment shall be the joint and several obligation of the owner or owners of the unit to which the same are assessed as of the time the assessment is due. In a voluntary conveyance, the grantee of a unit shall be jointly and severally liable with the grantor for all unpaid assessments against the grantor up to the time of the grantor's conveyance, without prejudice to the grantee's right to recover from the grantor the amounts paid by the grantee therefor. Suit to recover a personal judgment for any delinquent assessment shall be maintainable in any court of competent jurisdiction without foreclosing or waiving the lien securing such sums.

(13) The association may from time to time establish reasonable late charges and a rate of interest to be charged on all subsequent delinquent assessments or installments thereof. In the absence of another established nonusurious rate, delinquent assessments shall bear interest from the date of delinquency at the maximum rate permitted under RCW 19.52.020 on the date on which the assessments became delinquent.

(14) The association shall be entitled to recover any costs and reasonable attorneys' fees incurred in connection with the collection of delinquent assessments, whether or not such collection activities result in suit being commenced or prosecuted to judgment. In addition, the association shall be entitled to recover costs and reasonable attorneys' fees if it prevails on appeal and in the enforcement of a judgment.

(15) The association upon written request shall furnish to a unit owner or a mortgagee a statement signed by an officer or authorized agent of the association setting forth the amount of unpaid assessments against that unit. The statement shall be furnished within fifteen days after receipt of the request and is binding on the

association, the board of directors, and every unit owner, unless and to the extent known by the recipient to be false.

(16) To the extent not inconsistent with this section, the declaration may provide for such additional remedies for collection of assessments as may be permitted by law.

(17)(a) When the association mails to the unit owner by first-class mail the first notice of delinquency for past due assessments to the unit address and to any other address that the owner has provided to the association, the association shall include a first preforeclosure notice that states as follows:

**THIS IS A NOTICE OF DELINQUENCY FOR PAST DUE ASSESSMENTS**

subsection (2)(b) of this section to mail a second preforeclosure notice at or after the date that assessments have become past due for at least 90 days. The second preforeclosure notice may not be mailed sooner than 60 days after the first preforeclosure notice is mailed.

(2) If the governing documents of an association provide for a lien on the lot of any owner for unpaid assessments, the association may not commence an action to foreclose the lien unless:

(a) The lot owner, at the time the action is commenced, owes at least a sum equal to the greater of:

(i) Three months or more of assessments, not including fines, late charges, interest, attorneys' fees, or costs incurred by the association in connection with the collection of a delinquent owner's account; or

(ii) \$2,000 of assessments, not including fines, late charges, interest, attorneys' fees, or costs incurred by the association in connection with the collection of a delinquent owner's account;

(b) At or after the date that assessments have become past due for at least 90 days, but no sooner than 60 days after the first preforeclosure notice required in subsection (1)(a) of this section is mailed, the association has mailed, by first-class mail, to the owner, at the lot address and to any other address which the owner has provided to the association, a second notice of delinquency, which must include a second preforeclosure notice that contains the same information as the first preforeclosure notice provided to the lot owner pursuant to subsection (1)(a) of this section. The second preforeclosure notice may not be mailed sooner than 60 days after the first preforeclosure notice required in subsection (1)(a) of this section is mailed;

(c) At least 90 days have elapsed from the date the minimum amount required in (a) of this subsection has accrued; ~~((and))~~

(d) If the lot owner was referred to mediation pursuant to RCW 61.24.163, until the mediation is completed and the certification of mediation is issued or after 10 days from the date the mediator's certification was due to the association;

(e) The board approves commencement of a foreclosure action specifically against that lot.

(3) Every aspect of a collection, foreclosure, sale, or other conveyance under this section, including the method, advertising, time, date, place, and terms, must be commercially reasonable.

**Sec. 14.** RCW 64.90.485 and 2024 c 321 s 319 are each amended to read as follows:

(1) The association has a statutory lien on each unit for any unpaid assessment against the unit from the time such assessment is due.

(2) A lien under this section has priority over all other liens and encumbrances on a unit except:

(a) Liens and encumbrances recorded before the recordation of the declaration and, in a cooperative, liens and

encumbrances that the association creates, assumes, or takes subject to;

(b) Except as otherwise provided in subsection (3) of this section, a security interest on the unit recorded before the date on which the unpaid assessment became due or, in a cooperative, a security interest encumbering only the unit owner's interest and perfected before the date on which the unpaid assessment became due; and

(c) Liens for real estate taxes and other state or local governmental assessments or charges against the unit or cooperative.

(3)(a) A lien under this section also has priority over the security interests described in subsection (2)(b) of this section to the extent of an amount equal to the following:

(i) The common expense assessments, excluding any amounts for capital improvements, based on the periodic budget adopted by the association pursuant to RCW 64.90.480(1), along with any specially allocated assessments that are properly assessable against the unit under such periodic budget, which would have become due in the absence of acceleration during the six months immediately preceding the institution of proceedings to foreclose either the association's lien or a security interest described in subsection (2)(b) of this section;

(ii) The association's actual costs and reasonable attorneys' fees incurred in foreclosing its lien but incurred after the giving of the notice described in (a)(iii) of this subsection; provided, however, that the costs and reasonable attorneys' fees that will have priority under this subsection (3)(a)(ii) shall not exceed \$2,000 or an amount equal to the amounts described in (a)(i) of this subsection, whichever is less;

(iii) The amounts described in (a)(ii) of this subsection shall be prior only to the security interest of the holder of a security interest on the unit recorded before the date on which the unpaid assessment became due and only if the association has given that holder not less than 60 days' prior written notice that the owner of the unit is in default in payment of an assessment. The notice shall contain:

(A) Name of the borrower;

(B) Recording date of the trust deed or mortgage;

(C) Recording information;

(D) Name of condominium, unit owner, and unit designation stated in the declaration or applicable supplemental declaration;

(E) Amount of unpaid assessment; and

(F) A statement that failure to, within 60 days of the written notice, submit the association payment of six months of assessments as described in (a)(i) of this subsection will result in the priority of the amounts described in (a)(ii) of this subsection; and

(iv) Upon payment of the amounts described in (a)(i) and (ii) of this subsection by the holder of a security interest, the association's lien described in this subsection (3)(a) shall thereafter be fully subordinated to the lien of such holder's security interest on the unit.

(b) For the purposes of this subsection:

(i) "Institution of proceedings" means either:

(A) The date of recording of a notice of trustee's sale by a deed of trust beneficiary;

(B) The date of commencement, pursuant to applicable court rules, of an action for judicial foreclosure either by the association or by the holder of a recorded security interest; or

(C) The date of recording of a notice of intention to forfeit in a real estate contract forfeiture proceeding by the vendor under a real estate contract.

(ii) "Capital improvements" does not include making, in the ordinary course of management, repairs to common elements or replacements of the common elements with substantially similar items, subject to: (A) Availability of materials and products, (B) prevailing law, or (C) sound engineering and construction standards then prevailing.

(c) The adoption of a periodic budget that purports to allocate to a unit any fines, late charges, interest, attorneys' fees and costs incurred for services unrelated to the foreclosure of the association's lien, other collection charges, or specially allocated assessments assessed under RCW 64.90.480 (6) or (7) does not cause any such items to be included in the priority amount affecting such unit.

(4) Subsections (2) and (3) of this section do not affect the priority of mechanics' or material suppliers' liens to the extent that law of this state other than chapter 277, Laws of 2018 gives priority to such liens, or the priority of liens for other assessments made by the association.

(5) A lien under this section is not subject to chapter 6.13 RCW.

(6) If the association forecloses its lien under this section nonjudicially pursuant to chapter 61.24 RCW, as provided under subsection (13) of this section, the association is not entitled to the lien priority provided for under subsection (3) of this section, and is subject to the limitations on deficiency judgments as provided in chapter 61.24 RCW.

(7) Unless the declaration provides otherwise, if two or more associations have liens for assessments created at any time on the same property, those liens have equal priority as to each other, and any foreclosure of one such lien shall not affect the lien of the other.

(8) Recording of the declaration constitutes record notice and perfection of the statutory lien created under this section. Further notice or recordation of any claim of lien for assessment under this section is not required, but is not prohibited.

(9) A lien for unpaid assessments and the personal liability for payment of those assessments are extinguished unless proceedings to enforce the lien or collect the debt are instituted within six years after the full amount of the assessments sought to be recovered becomes due.

(10) This section does not prohibit actions against unit owners to recover sums for which subsection (1) of this section creates a lien or prohibit an association from taking a deed in lieu of foreclosure.

(11) The association upon written request must furnish to a unit owner or a mortgagee a statement signed by an officer or authorized agent of the association setting forth the amount of unpaid assessments or the priority amount against that unit, or both. The statement must be furnished within 15 days after receipt of the request and is binding on the association, the board, and every unit owner unless, and to the extent, known by the recipient to be false. The liability of a recipient who reasonably relies upon the statement must not exceed the amount set forth in any statement furnished pursuant to this section or RCW 64.90.640(1)(b).

(12) In a cooperative, upon nonpayment of an assessment on a unit, the unit owner may be evicted in the same manner as provided by law in the case of an unlawful holdover by a commercial tenant, and the lien may be foreclosed as provided under this section.

(13) The association's lien may be foreclosed in accordance with (a) and (b) of this subsection.

(a) In a common interest community other than a cooperative, the association's lien may be foreclosed judicially in accordance with chapter 61.12 RCW, subject to any rights of redemption under chapter 6.23 RCW.

(b) The lien may be enforced nonjudicially in the manner set forth in chapter 61.24 RCW for nonjudicial foreclosure of deeds of trust if the declaration: Contains a grant of the common interest community in trust to a trustee qualified under RCW 61.24.010 to secure the obligations of the unit owners to the association for the payment of assessments, contains a power of sale, provides in its terms that the units are not used principally for agricultural purposes, and provides that the power of sale is operative in the case of a default in the obligation to pay assessments. The association or its authorized representative may purchase the unit at the foreclosure sale and acquire, hold, lease, mortgage, or convey the unit. Upon an express waiver in the complaint of any right to a deficiency judgment in a judicial foreclosure action, the period of redemption is eight months.

(c) In a cooperative in which the unit owners' interests in the units are real estate, the association's lien must be foreclosed in like manner as a mortgage on real estate or by power of sale under (b) of this subsection.

(d) In a cooperative in which the unit owners' interests in the units are personal property, the association's lien must be foreclosed in like manner as a security interest under chapter 62A.9A RCW.

(e) No member of the association's board, or their immediate family members or affiliates, are eligible to bid for or purchase, directly or indirectly, any interest in a unit at a foreclosure of the association's lien. For the purposes of this subsection, "immediate family member" includes spouses, domestic partners, children, siblings, parents, parents-in-law, and stepfamily members; and "affiliate" of a board member includes any person controlled by the board member, including any entity in which the board member is a general partner,

managing member, majority member, officer, or director. Nothing in this subsection prohibits an association from bidding for or purchasing interest in a unit at a foreclosure of the association's lien.

(14) If the unit owner's interest in a unit in a cooperative is real estate, the following requirements apply:

(a) The association, upon nonpayment of assessments and compliance with this subsection, may sell that unit at a public sale or by private negotiation, and at any time and place. The association must give to the unit owner and any lessee of the unit owner reasonable notice in a record of the time, date, and place of any public sale or, if a private sale is intended, of the intention of entering into a contract to sell and of the time and date after which a private conveyance may be made. Such notice must also be sent to any other person that has a recorded interest in the unit that would be cut off by the sale, but only if the recorded interest was on record seven weeks before the date specified in the notice as the date of any public sale or seven weeks before the date specified in the notice as the date after which a private sale may be made. The notices required under this subsection may be sent to any address reasonable in the circumstances. A sale may not be held until five weeks after the sending of the notice. The association may buy at any public sale and, if the sale is conducted by a fiduciary or other person not related to the association, at a private sale.

(b) Unless otherwise agreed to or as stated in this section, the unit owner is liable for any deficiency in a foreclosure sale.

(c) The proceeds of a foreclosure sale must be applied in the following order:

(i) The reasonable expenses of sale;

(ii) The reasonable expenses of securing possession before sale; the reasonable expenses of holding, maintaining, and preparing the unit for sale, including payment of taxes and other governmental charges and premiums on insurance; and, to the extent provided for by agreement between the association and the unit owner, reasonable attorneys' fees, costs, and other legal expenses incurred by the association;

(iii) Satisfaction of the association's lien;

(iv) Satisfaction in the order of priority of any subordinate claim of record; and

(v) Remittance of any excess to the unit owner.

(d) A good-faith purchaser for value acquires the unit free of the association's debt that gave rise to the lien under which the foreclosure sale occurred and any subordinate interest, even though the association or other person conducting the sale failed to comply with this section. The person conducting the sale must execute a conveyance to the purchaser sufficient to convey the unit and stating that it is executed by the person after a foreclosure of the association's lien by power of sale and that the person was empowered to make the sale. Signature and title or authority of the person signing the conveyance as

grantor and a recital of the facts of nonpayment of the assessment and of the giving of the notices required under this subsection are sufficient proof of the facts recited and of the authority to sign. Further proof of authority is not required even though the association is named as grantee in the conveyance.

(e) At any time before the association has conveyed a unit in a cooperative or entered into a contract for its conveyance under the power of sale, the unit owners or the holder of any subordinate security interest may cure the unit owner's default and prevent sale or other conveyance by tendering the performance due under the security agreement, including any amounts due because of exercise of a right to accelerate, plus the reasonable expenses of proceeding to foreclosure incurred to the time of tender, including reasonable attorneys' fees and costs of the creditor.

(15) In an action by an association to collect assessments or to foreclose a lien on a unit under this section, the court may appoint a receiver to collect all sums alleged to be due and owing to a unit owner before commencement or during pendency of the action. The receivership is governed under chapter 7.60 RCW. During pendency of the action, the court may order the receiver to pay sums held by the receiver to the association for any assessments against the unit. The exercise of rights under this subsection by the association does not affect the priority of preexisting liens on the unit.

(16) Except as provided in subsection (3) of this section, the holder of a mortgage or other purchaser of a unit who obtains the right of possession of the unit through foreclosure is not liable for assessments or installments of assessments that became due prior to such right of possession. Such unpaid assessments are deemed to be common expenses collectible from all the unit owners, including such mortgagee or other purchaser of the unit. Foreclosure of a mortgage does not relieve the prior unit owner of personal liability for assessments accruing against the unit prior to the date of such sale as provided in this subsection.

(17) In addition to constituting a lien on the unit, each assessment is the joint and several obligation of the unit owner of the unit to which the same are assessed as of the time the assessment is due. A unit owner may not exempt himself or herself from liability for assessments. In a voluntary conveyance other than by foreclosure, the grantee of a unit is jointly and severally liable with the grantor for all unpaid assessments against the grantor up to the time of the grantor's conveyance, without prejudice to the grantee's right to recover from the grantor the amounts paid by the grantee. Suit to recover a personal judgment for any delinquent assessment is maintainable in any court of competent jurisdiction without foreclosing or waiving the lien securing such sums.

(18) The association may from time to time establish reasonable late charges and a rate of interest to be charged, not to exceed the maximum rate calculated under RCW 19.52.020, on all subsequent delinquent

assessments or installments of assessments. If the association does not establish such a rate, delinquent assessments bear interest from the date of delinquency at the maximum rate calculated under RCW 19.52.020 on the date on which the assessments became delinquent.

(19) The association is entitled to recover any costs and reasonable attorneys' fees incurred in connection with the collection of delinquent assessments, whether or not such collection activities result in a suit being commenced or prosecuted to judgment. The prevailing party is also entitled to recover costs and reasonable attorneys' fees in such suits, including any appeals, if it prevails on appeal and in the enforcement of a judgment.

(20) To the extent not inconsistent with this section, the declaration may provide for such additional remedies for collection of assessments as may be permitted by law.

(21)(a) When the association mails to the unit owner by first-class mail the first notice of delinquency for past due assessments to the unit address and to any other address that the owner has provided to the association, the association shall include a first preforeclosure notice that states as follows:

**THIS IS A NOTICE OF DELINQUENCY FOR PAST

The association shall obtain the toll-free numbers and website information from the department of commerce for inclusion in the notice. The first preforeclosure notice required by this section must be mailed by the association to the unit owner no later than 10 days after the date that assessments have become past due.

(b) If, when a delinquent account is referred to an association's attorney, the first preforeclosure notice required under (a) of this subsection has not yet been mailed to the unit owner, the association or the association's attorney shall mail the first preforeclosure notice to the unit owner in order to satisfy the requirement in (a) of this subsection. The association should maintain this preforeclosure information and make it available to any lot owner upon request, and otherwise generally available to all lot owners who are members of the association.

(c) Mailing the first preforeclosure notice pursuant to (a) of this subsection does not satisfy the requirement in subsection (22)(b) of this section to mail a second preforeclosure notice at or after the date that assessments have become past due for at least 90 days. The second preforeclosure notice may not be mailed sooner than 60 days after the first preforeclosure notice is mailed.

(22) An association may not commence an action to foreclose a lien on a unit under this section unless:

(a) The unit owner, at the time the action is commenced, owes at least a sum equal to the greater of:

(i) Three months or more of assessments, not including fines, late charges, interest, attorneys' fees, or costs incurred by the association in connection with the collection of a delinquent owner's account; or

(ii) \$2,000 of assessments, not including fines, late charges, interest, attorneys' fees, or costs incurred by the association in connection with the collection of a delinquent owner's account;

(b) At or after the date that assessments have become past due for at least 90 days, but no sooner than 60 days after the first preforeclosure notice required in subsection (21)(a) of this section is mailed, the association has mailed, by first-class mail, to the owner, at the unit address and to any other address which the owner has provided to the association, a second notice of delinquency, which must include a second preforeclosure notice that contains the same information as the first preforeclosure notice provided to the owner pursuant to subsection (21)(a) of this section. The second preforeclosure notice may not be mailed sooner than 60 days after the first preforeclosure notice required in subsection (21)(a) of this section is mailed;

(c) At least 90 days have elapsed from the date the minimum amount required in (a) of this subsection has accrued; ~~((and))~~

(d) If the unit owner was referred to mediation pursuant to RCW 61.24.163, until the mediation is completed and the certification of mediation is issued or after 10 days from the date the mediator's

certification was due to the association; and

(e) The board approves commencement of a foreclosure action specifically against that unit.

(23) Every aspect of a collection, foreclosure, sale, or other conveyance under this section, including the method, advertising, time, date, place, and terms, must be commercially reasonable.

HUMAN SERVICES**

**NEW SECTION. Sec. 201. FOR THE DEPARTMENT OF SOCIAL AND HEALTH SERVICES**

(1) The appropriations to the department of social and health services in this act shall be expended for the programs and in the amounts specified in this act. Appropriations made in this act to the department of social and health services shall initially be allotted as required by this act. Subsequent allotment modifications shall not include transfers of moneys between sections of this act except as expressly provided in this act, nor shall allotment modifications permit moneys that are provided solely for a specified purpose to be used for other than that purpose.

(2) The department of social and health services shall not initiate any services that require expenditure of state general fund moneys unless expressly authorized in this act or other law. The department may seek, receive, and spend, under RCW 43.79.260 through 43.79.282, federal moneys not anticipated in this act as long as the federal funding does not require expenditure of state moneys for the program in excess of amounts anticipated in this act. If the department receives unanticipated unrestricted federal moneys, those moneys shall be spent for services authorized in this act or in any other legislation providing appropriation authority, and an equal amount of appropriated state general fund moneys shall lapse. Upon the lapsing of any moneys under this subsection, the office of financial management shall notify the legislative fiscal committees. As used in this subsection, "unrestricted federal moneys" includes block grants and other funds that federal law does not require to be spent on specifically defined projects or matched on a formula basis by state funds.

(3) The legislature finds that medicaid payment rates, as calculated by the department pursuant to the appropriations in this act, bear a reasonable relationship to the costs incurred by efficiently and economically operated facilities for providing quality services and will be sufficient to enlist enough providers so that care and services are available to the extent that such care and services are available to the general population in the geographic area. The legislature finds that cost reports, payment data from the federal government, historical utilization, economic data, and clinical input constitute reliable data upon which to determine the payment rates.

(4) The department shall to the maximum extent practicable use the same system for delivery of spoken-language interpreter services for social services appointments as the one established for medical appointments in the health care authority. When contracting directly with an individual to deliver spoken language interpreter services, the department shall only contract with language access providers who are working at a location in the state and who

are state-certified or state-authorized, except that when such a provider is not available, the department may use a language access provider who meets other certifications or standards deemed to meet state standards, including interpreters in other states.

(5) Information technology projects or investments and proposed projects or investments impacting time capture, payroll and payment processes and systems, eligibility, case management, and authorization systems within the department of social and health services are subject to technical oversight by Washington technology solutions.

(6)(a) The department shall facilitate enrollment under the medicaid expansion for clients applying for or receiving state funded services from the department and its contractors. Prior to open enrollment, the department shall coordinate with the health care authority to provide referrals to the Washington health benefit exchange for clients that will be ineligible for medicaid.

(b) To facilitate a single point of entry across public and medical assistance programs, and to maximize the use of federal funding, the health care authority, the department of social and health services, and the health benefit exchange will coordinate efforts to expand HealthPlanfinder access to public assistance and medical eligibility staff. The department shall complete medicaid applications in the HealthPlanfinder for households receiving or applying for public assistance benefits.

(7) The health care authority, the health benefit exchange, the department of social and health services, the department of health, the department of corrections, and the department of children, youth, and families shall work together within existing resources to establish the health and human services enterprise coalition (the coalition). The coalition, led by the health care authority, must be a multi-organization collaborative that provides strategic direction and federal funding guidance for projects that have cross-organizational or enterprise impact, including information technology projects that affect organizations within the coalition. Washington technology solutions shall maintain a statewide perspective when collaborating with the coalition to ensure that projects are planned for in a manner that ensures the efficient use of state resources, support the adoption of a cohesive technology and data architecture, and maximize federal financial participation. The work of the coalition is subject to the conditions, limitations, and review provided in section 701 of this act.

(8) The department must report to and coordinate with the department of ecology to track expenditures from climate commitment act accounts, as defined and described in RCW 70A.65.300 and chapter 173-446B WAC.

<b>TOTAL APPROPRIATION</b> . . . . .	<b>\$5,518,787,000</b>

The appropriations in this subsection are subject to the following conditions and limitations:

(a) Individuals who receive supplemental security income (SSI) state supplemental payments shall not become eligible for medical assistance under RCW 74.09.510 solely on the basis of receiving those payments.

(b) In accordance with RCW 18.51.050, 18.20.050, 70.128.060, and 43.135.055, the department is authorized to increase nursing facility, assisted living facility, and adult family home fees as necessary to fully support the actual costs of conducting the licensure, inspection, and regulatory programs. The license fees may not exceed the department's annual licensing and oversight activity costs and shall include the department's cost of paying providers for the amount of the license fee attributed to medicaid clients.

(i) The current annual license renewal fee for adult family homes is \$502 per bed in fiscal year 2026 and \$454 per bed in fiscal year 2027. A nonrefundable processing fee of \$2,750 shall be charged for the initial licensing of each adult family home. In addition, a processing fee of \$700 shall be imposed on providers submitting an application for a change of ownership.

(ii) The current annual license renewal fee for assisted living facilities is \$383 per bed in fiscal year 2026 and \$381 in fiscal year 2027.

(d) \$1,146,000 of the general fund—state appropriation for fiscal year 2026, \$2,755,000 of the general fund—state appropriation for fiscal year 2027, and \$4,914,000 of the general fund—federal appropriation are provided solely for the homecare agency parity consistent with the rate set by the consumer-directed employer rate setting board in accordance with RCW 74.39A.530.

(e) \$1,027,000 of the general fund—state appropriation for fiscal year 2026, \$1,862,000 of the general fund—state appropriation for fiscal year 2027, and \$3,639,000 of the general fund—federal appropriation are provided solely for administrative costs of the consumer-directed employer as set by the consumer-directed employer rate setting board in accordance with RCW 74.39A.530.

(h) The department may authorize a one-time waiver of all or any portion of the licensing and processing fees required under RCW 70.128.060 in any case in which the department determines that an adult family home is being relicensed because of exceptional circumstances, such as death or incapacity of a provider, and that to require the full payment of the licensing and processing fees would present a hardship to the applicant. In these situations the department is also granted the authority to waive the required residential administrator training for a period of 120 days if necessary to ensure continuity of care during the relicensing process.

(i) \$16,083,000 of the general fund—state appropriation for fiscal year 2026, \$16,083,000 of the general fund—state appropriation for fiscal year 2027, and \$31,786,000 of the general fund—federal appropriation are provided solely to increase rates by three percent, effective July 1, 2025, for community residential service providers offering supported living, group

(i) Community alternative placement beds include enhanced service facility beds, adult family home beds, skilled nursing facility beds, shared supportive housing beds, state operated living alternative beds, and assisted living facility beds.

(ii) Each client must receive an individualized assessment prior to leaving one of the state psychiatric hospitals. The individualized assessment must identify and authorize personal care, nursing care, behavioral health stabilization, physical therapy, or other necessary services to meet the unique needs of each client. It is the expectation that, in most cases, staffing ratios in all community alternative placement options described in (i) (i) of this subsection will need to increase to meet the needs of clients leaving the state psychiatric hospitals. If specialized training is necessary to meet the needs of a client before he or she enters a community placement, then the person centered service plan must also identify and authorize this training.

(iii) When reviewing placement options, the department must consider the safety of other residents, as well as the safety of staff, in a facility. An initial evaluation of each placement, including any documented safety concerns, must occur within thirty days of a client leaving one of the state psychiatric hospitals and entering one of the community placement options described in (i) (i) of this subsection. At a minimum, the department must perform two additional evaluations of each placement during the first year that a client has lived in the facility.

(iv) In developing bed capacity, the department shall consider the complex needs of individuals waiting for discharge from the state psychiatric hospitals.

(l) Sufficient appropriations are provided for discharge case managers stationed at the state psychiatric hospitals. Discharge case managers will transition clients ready for hospital discharge into less restrictive alternative community placements. The transition of clients ready for discharge will free up bed capacity at the state psychiatric hospitals.

(m) The annual certification renewal fee for community residential service businesses is \$859 per client in fiscal year 2026 and \$859 per client in fiscal year 2027. The annual certification renewal fee may not exceed the department's annual licensing and oversight activity costs.

These services are intended to provide families and caregivers with a break in caregiving, the opportunity for behavioral stabilization of the child, and the ability to partner with the state in the development of an individualized service plan that allows the child to remain in his or her home. The department must provide the legislature with a respite utilization report in January of each year that provides information about the number of children who have used enhanced respite in the preceding year, as well as the location and number of days per month that each respite bed was occupied.

(o) \$2,173,000 of the general fund—state appropriation for fiscal year 2026 and \$2,154,000 of the general fund—state appropriation for fiscal year 2027 are provided for 13 community respite beds across the state for adults. These services are intended to provide families and caregivers with a break in caregiving and the opportunity for stabilization of the individual in a community-based setting as an alternative to using a residential habilitation center to provide planned or emergent respite. The department must provide the legislature with a respite utilization report by January of each year that provides information about the number of individuals who have used community respite in the preceding year, as well as the location and number of days per month that each respite bed was occupied.

(p) \$204,000 of the general fund—state appropriation for fiscal year 2026, \$204,000 of the general fund—state appropriation for fiscal year 2027, and \$512,000 of the general fund—federal appropriation are provided solely for a one-time bridge rate for assisted living facilities, enhanced adult residential centers, and adult residential centers, with high medicaid occupancy. The bridge rate does not replace or substitute the capital add-on rate found in RCW 74.39A.320 and the same methodology from RCW 74.39A.320 shall be used to determine each facility's medicaid occupancy percentage for the purposes of this one-time bridge rate add-on. Facilities with a medicaid occupancy level 75 percent or more shall receive a \$20.99 add-on per resident day effective July 1, 2025.

(q) A nonrefundable fee of \$485 shall be charged for each application to increase bed capacity at an adult family home to seven or eight beds.

(r) The appropriations in this section include sufficient funding to provide access to the individual and family services waiver and the basic plus waiver to those individuals on the service request list as forecasted by the caseload forecast council. For subsequent policy level budgets, the department shall submit a request for funding associated with individuals requesting to receive the individual and family services waiver and the basic

plus waiver in accordance with the courtesy forecasts provided by the caseload forecast council.

(s) \$2,669,000 of the general fund—state appropriation for fiscal year 2026, \$2,669,000 of the general fund—state appropriation for fiscal year 2027, and \$4,206,000 of the general fund—federal appropriation are provided solely to operate intensive habilitation services and enhanced out-of-home services facilities.

(u) \$3,345,000 of the general fund—state appropriation for fiscal year 2026 and \$3,345,000 of the general fund—state appropriation for fiscal year 2027 are provided solely for the department to provide personal care services for up to 33 clients who are not United States citizens and who are ineligible for medicaid upon their discharge from an acute care hospital. The department must prioritize the funding provided in this subsection for such clients in acute care hospitals who are also on the department's wait list for services.

(v) \$1,807,000 of the general fund—state appropriation for fiscal year 2026, \$1,807,000 of the general fund—state appropriation for fiscal year 2027, and \$4,092,000 of the general fund—federal appropriation are provided solely for a specialty rate for adult family homes to serve up to 100 individuals with intellectual or developmental disabilities who also have co-occurring health or behavioral health diagnoses.

(w) \$3,104,000 of the general fund—state appropriation for fiscal year 2026, \$3,104,000 of the general fund—state appropriation for fiscal year 2027, and \$6,082,000 of the general fund—federal appropriation are provided solely for a program that provides a specialty rate for community residential providers who receive additional training to support individuals with complex physical and behavioral health needs.

(i) Of the amounts provided in this subsection (1)(w), \$2,705,000 of the general fund—state appropriation for fiscal year 2026, \$2,705,000 of the general fund—state appropriation for fiscal year 2027, and \$5,412,000 of the general fund—federal appropriation are provided solely for the specialty rate for community residential providers to serve up to 30 individuals.

Youth admitted to the facility require health services wherein treatment modalities and interventions are adapted to specifically provide youth with I/DD benefits from the level of care provided. Services must be provided at a leased property in Burien, serve no more than 12 youth at one time, and be implemented in a way that prioritizes transition to less restrictive community-based settings. Youth shall be voluntarily admitted to the facility by their own consent or the consent of their guardian or legal representative. The department shall collaborate with the department of children, youth, and families to identify youth for placement in this setting and regarding appropriate discharge options with a focus on less restrictive community-based settings. The appropriations in this section are subject to the following conditions and limitations:

(1) The authority may not accept or expend any federal funds received under an 1115 demonstration waiver except as described in this section unless the legislature has appropriated the federal funding. To ensure compliance with legislative requirements and terms and conditions of the waiver, the authority shall implement the renewal of the 1115 demonstration waiver and reporting requirements with oversight from the office of financial management. The legislature finds that appropriate management of the renewal of the 1115 demonstration waiver as set forth in subsections (2), (3), and (4) of this section requires sound, consistent, timely, and transparent oversight and analytic review in addition to lack of redundancy with other established measures. The patient must be considered first and foremost in the implementation and execution of the demonstration waiver. To accomplish these goals, the authority shall develop consistent performance measures that focus on population health and health outcomes. The authority shall limit the number of projects that accountable communities of health may participate in under initiative 1 to a maximum of six and shall seek to develop common performance measures when possible. The joint select committee on health care oversight will evaluate the measures chosen: (a) For effectiveness and appropriateness; and (b) to provide patients and health care providers with significant input into the implementation of the demonstration waiver to promote improved population health and patient health outcomes. In cooperation with the department of social and health services, the authority shall consult with and provide notification of work on applications for federal waivers, including details on waiver duration, financial implications, and potential future impacts on the state budget to the joint select committee on health care oversight prior to submitting these waivers for federal approval. Prior to final approval or acceptance of funds by the authority, the authority shall submit the special terms and conditions as submitted to the centers for medicare and medicaid services and the anticipated budget for the duration of the renewed waiver to the governor, the joint select committee on health care, and the fiscal committees of the legislature. By federal standard any programs created or funded by this waiver do not create an entitlement. The demonstration period for the waiver as described in subsections (2), (3), and (4) of this section began July 1, 2023.

consider local input regarding community needs and shall limit total local projects to no more than six. To provide transparency to the appropriate fiscal committees of the legislature, the authority shall provide fiscal staff of the legislature query ability into any database of the fiscal intermediary that authority staff would be authorized to access. The authority shall not supplement the amounts provided in this subsection with any general fund—state moneys appropriated in this section or any moneys that may be transferred pursuant to subsection (1) of this section. Medicaid quality improvement program payments do not count against the 1115 demonstration waiver spending limits and are excluded from the waiver's budget neutrality calculation. The authority may provide medicaid quality improvement program payments to apple health managed care organizations and their partnering providers as they meet designated milestones. Partnering providers and apple health managed care organizations must work together to achieve medicaid quality improvement program goals according to the performance period timelines and reporting deadlines as set forth by the authority. The authority may only use the medicaid quality improvement program to support initiatives 1, 2, and 3 as described in the 1115 demonstration waiver and may not pursue its use for other purposes. Any programs created or funded by the medicaid quality improvement program do not constitute an entitlement for clients or providers. The authority shall not supplement the amounts provided in this subsection with any general fund—state, general fund—federal, or general fund—local moneys appropriated in this section or any moneys that may be transferred pursuant to subsection (1) of this section. The director shall report to the joint select committee on health care oversight not less than quarterly on financial and health outcomes. The director shall report to the fiscal committees of the legislature all expenditures under this subsection and shall provide such fiscal data in the time, manner, and form requested by the legislative fiscal committees.

(c) In collaboration with the accountable communities of health, the authority will submit a report to the governor and the joint select committee on health care oversight describing how each of the accountable community of health's work aligns with the community needs assessment no later than December 1, 2026.

(d) Performance measures and payments for accountable communities of health shall reflect accountability measures that demonstrate progress toward transparent, measurable, and meaningful goals that have an impact on improved population health and improved health outcomes, including a path to financial sustainability. While these goals may have variation to account for unique community demographics, measures should be standardized when possible.

Under this initiative, the authority and the department of social and health services shall ensure that allowable and necessary services are provided to eligible clients as identified by the department or its third-party administrator. The authority and the department, in consultation with the medical assistance expenditure forecast work group, shall ensure that reasonable reimbursements are established for services deemed necessary within an identified limit per individual. The authority shall not supplement the amounts provided in this subsection with any general fund—state moneys appropriated in this section or any moneys that may be transferred pursuant to subsection (1) of this section. The director shall report to the joint select committee on health care oversight no less than quarterly on financial and health outcomes. The director shall also report to the fiscal committees of the legislature all of the expenditures of this subsection and shall provide such fiscal data in the time, manner, and form requested by the legislative fiscal committees.

Under these initiatives, the authority and the department of social and health services shall ensure that allowable and necessary services are provided to eligible clients as identified by the authority or its third-party administrator. Before authorizing services, eligibility for initiative 3a or 3b of the 1115 demonstration waiver must first be determined.

(6)(a) \$4,279,000 of the general fund—state appropriation for fiscal year 2026, \$6,107,000 of the general fund—state appropriation for fiscal year 2027, and \$66,104,000 of the general fund—federal appropriation are provided solely for prerelease services including, but not limited to, case management, clinical consultations, medication assisted therapy, community health worker services, 30-day supply of medications, durable medical equipment, medications, laboratory services, and radiology services.

(b) The authority shall coordinate with the department of corrections for prison reentry implementation pursuant to the waiver terms. The authority will coordinate with tribes, other state agencies, and jail administrations as necessary to achieve the terms of the section 1115 medicaid transformation waiver. The authority shall use its statutory reentry advisory work group and subgroups as necessary to coordinate with partners to achieve these goals.

(7) Sufficient amounts are appropriated in this subsection to implement the medicaid expansion as defined in the social security act, section 1902(a)(10)(A)(i)(VIII).

(8) The legislature finds that medicaid payment rates, as calculated by the health care authority pursuant to the appropriations in this act, bear a reasonable relationship to the costs incurred by efficiently and economically operated facilities for providing quality services and will be sufficient to enlist enough providers so that care and services are available to the extent that such care and services are available to the general population in the geographic area. The legislature finds that the cost reports, payment data from the federal government, historical utilization, economic data, and clinical input constitute reliable data upon which to determine the payment rates.

(9) Based on quarterly expenditure reports and caseload forecasts, if the health care authority estimates that expenditures for the medical assistance program will exceed the appropriations, the health care authority shall take steps including but not limited to reduction of rates or elimination of optional services to reduce expenditures so that total program costs do not exceed the annual appropriation authority.

(10) In determining financial eligibility for medicaid-funded services, the health care authority is authorized to disregard recoveries by Holocaust survivors of insurance proceeds or other assets, as defined in RCW 48.104.030.

(11) The legislature affirms that it is in the state's interest for Harborview medical center to remain an economically viable component of the state's health care system.

(12) When a person is ineligible for medicaid solely by reason of residence in an institution for mental diseases, the health care authority shall provide the person with the same benefits as he or she would receive if eligible for medicaid, using state-only funds to the extent necessary.

(13) \$4,261,000 of the general fund—state appropriation for fiscal year 2026, \$4,261,000 of the general fund—state appropriation for fiscal year 2027, and \$8,522,000 of the general fund—federal appropriation are provided solely for low-income disproportionate share hospital payments.

(14) Within the amounts appropriated in this section, the health care authority shall provide disproportionate share hospital payments to hospitals that provide services to children in the children's health program who are not eligible for services under Title XIX or XXI of the federal social security act due to their citizenship status.

(15) \$7,000,000 of the general fund—federal appropriation is provided solely for supplemental payments to nursing homes operated by public hospital districts. The public hospital district shall be responsible for providing the required nonfederal match for the supplemental payment, and the payments shall not exceed the maximum allowable under federal rules. It is the legislature's intent that the payments shall be supplemental to and shall not in any way offset or reduce the payments calculated and provided in accordance with part E of chapter 74.46 RCW. It is the legislature's further intent that costs otherwise allowable for rate-setting and settlement against payments under chapter 74.46 RCW shall not be disallowed solely because such costs have been paid by revenues retained by the nursing home from these supplemental payments. The supplemental payments are subject to retrospective interim and final cost settlements based on the nursing homes' as-filed and final medicare cost reports. The timing of the interim and final cost settlements shall be at the health care authority's discretion. During either the interim cost settlement or the final cost settlement, the health care authority shall recoup from the public hospital districts the supplemental payments that exceed the medicaid cost limit and/or the medicare upper payment

limit. The health care authority shall apply federal rules for identifying the eligible incurred medicaid costs and the medicare upper payment limit.

(16) The health care authority shall continue the inpatient hospital certified public expenditures program for the 2025-2027 fiscal biennium. The program shall apply to all public hospitals, including those owned or operated by the state, except those classified as critical access hospitals or state psychiatric institutions. The health care authority shall submit reports to the governor and legislature by November 1st of each fiscal year that evaluate whether savings continue to exceed costs for this program. If the certified public expenditures (CPE) program in its current form is no longer cost-effective to maintain, the health care authority shall submit a report to the governor and legislature detailing cost-effective alternative uses of local, state, and federal resources as a replacement for this program. During fiscal year 2026 and fiscal year 2027, hospitals in the program shall be paid and shall retain 100 percent of the federal portion of the allowable hospital cost for each medicaid inpatient fee-for-service claim payable by medical assistance and 100 percent of the federal portion of the maximum disproportionate share hospital payment allowable under federal regulations. For the purpose of determining the amount of any state grant under this subsection, payments will include the federal portion of medicaid program supplemental payments received by the hospitals. Inpatient medicaid payments shall be established using an allowable methodology that approximates the cost of claims submitted by the hospitals. Payments made to each hospital in the program in each fiscal year of the biennium shall be compared to a baseline amount. The baseline amount will be determined by the total of (a) the inpatient claim payment amounts that would have been paid during the fiscal year had the hospital not been in the CPE program based on the reimbursement rates developed, implemented, and consistent with policies approved in the 2025-2027 biennial operating appropriations act and in effect on July 1, 2015, (b) one-half of the indigent assistance disproportionate share hospital payment amounts paid to and retained by each hospital during fiscal year 2005, and (c) all of the other disproportionate share hospital payment amounts paid to and retained by each hospital during fiscal year 2005 to the extent the same disproportionate share hospital programs exist in the 2019-2021 fiscal biennium. If payments during the fiscal year exceed the hospital's baseline amount, no additional payments will be made to the hospital except the federal portion of allowable disproportionate share hospital payments for which the hospital can certify allowable match. If payments during the fiscal year are less than the baseline amount, the hospital will be paid a state grant equal to the difference between payments during the fiscal year and the applicable baseline amount. Payment of the state grant shall be made in the applicable fiscal year and distributed in monthly payments. The grants will be recalculated and redistributed as the baseline is updated during the fiscal year. The grant payments are subject to an interim settlement within 11 months after the end of the fiscal year. A final settlement shall be performed. To the extent that either settlement determines that a hospital has received funds in excess of what it would have received as described in this subsection, the hospital must repay the excess amounts to the state when requested.

(17) The health care authority shall seek public-private partnerships and federal funds that are or may become available to provide ongoing support for outreach and education efforts under the federal children's health insurance program reauthorization act of 2009.

(18) The health care authority shall target funding for maternity support services towards pregnant women with factors that lead to higher rates of poor birth outcomes, including hypertension, a preterm or low birth weight birth in the most recent previous birth, a cognitive deficit or developmental disability, substance abuse, severe mental illness, unhealthy weight or failure to gain weight, tobacco use, or African American or Native American race. The health care authority shall prioritize evidence-based practices for delivery of maternity support services. To the extent practicable, the health care authority shall develop a mechanism to increase federal funding for maternity support services by leveraging local public funding for those services.

(19) The authority shall submit a report to the governor and the legislature by September 15, 2026, that delineates the number of individuals in medicaid managed care, by carrier, age, gender, and eligibility category, receiving preventative services and vaccinations. The report should include baseline and benchmark information from the previous two fiscal years and should be inclusive of, but not limited to, services recommended under the United States preventative services task force, advisory committee on immunization practices, early and periodic screening, diagnostic, and treatment (EPSDT) guidelines, and other relevant preventative and vaccination medicaid guidelines and requirements.

(22) The health care authority shall coordinate with the department of social and health services to provide referrals to the Washington health benefit exchange for clients that will be ineligible for medicaid.

The health care authority shall complete medicaid applications in the HealthPlanfinder for households receiving or applying for medical assistance benefits.

(24) \$90,000 of the general fund—state appropriation for fiscal year 2026, \$90,000 of the general fund—state appropriation for fiscal year 2027, and \$180,000 of the general fund—federal appropriation are provided solely to continue operation by a nonprofit organization of a toll-free hotline that assists families to learn about and enroll in the apple health for kids program.

(25) Within the amounts appropriated in this section, the authority shall reimburse for primary care services provided by naturopathic physicians.

(28) The authority shall use revenue appropriated from the dedicated cannabis account for contracts with community health centers under RCW 69.50.540 in lieu of general fund—state payments to community health centers for services provided to medical assistance clients, and it is the intent of the legislature that this policy will be continued in subsequent fiscal biennia.

(29) For any service eligible under the medicaid state plan for encounter payments, managed care organizations at the request of a rural health clinic shall pay the full published encounter rate directly to the clinic. At no time will a managed care organization be at risk for or have any right to the supplemental portion of the claim. Payments will be reconciled on at least an annual basis between the managed care organization and the authority, with final review and approval by the authority.

Additionally, the authority shall:

(a) Work to ensure the efficient operations of the managed care plans, including but not limited to, a deconflicting process for audits with and among the managed care plans and the medicaid fraud division at the attorney general's office, to ensure the authority staff perform central audits of cases that appear across multiple managed care plans, versus the audits performed by the individual managed care plans or the fraud division;

(b) Remain accountable for operating in an effective and efficient manner, including performing program integrity activities that ensure high value in the medical assistance program in general and in medicaid managed care specifically;

(c) Work with its contracted actuary and the medical assistance expenditure forecast work group to develop methods and metrics related to managed care program integrity activity that shall be incorporated into annual rate setting; and

(d) Work with the medical assistance expenditure forecast work group to ensure the results of program integrity activity are incorporated into the rate setting process in a transparent, timely, measurable, quantifiable manner.

(33)(a) The authority shall not enter into any future value-based arrangements with federally qualified health centers or rural health clinics prior to receiving approval from the office of financial management and the appropriate committees of the legislature.

(b) The authority shall not modify the reconciliation process with federally qualified health centers or rural health clinics without notification to and the opportunity to comment from the office of financial management.

(c) The authority shall require all managed care organizations to provide information to the authority to account for all payments to rural health clinics and federally qualified health centers to include how payments are made, including any additional payments and whether there is a sub-capitation arrangement or value-based purchasing arrangement.

(d) For each fiscal year, the authority shall reconcile on an annual basis with rural health clinics and federally qualified health centers.

(13)(a) The authority must establish minimum and maximum funding levels for all reserves allowed under behavioral health administrative service organization contracts and include contract language that clearly states the requirements and limitations. The reserve levels must be informed by the types of risk carried by behavioral health administrative service organizations for mandatory services and also consider reasonable levels of operating reserves. The authority must monitor and ensure that behavioral health administrative service organization reserves do not exceed maximum levels. The authority must monitor revenue and expenditure reports and must require a behavioral health administrative service organization to submit a corrective action plan on how it will spend its excess reserves within a reasonable period of time, when its reported reserves exceed maximum levels established under the contract. The authority must review and approve such plans and monitor to ensure compliance. If the authority determines that a behavioral health administrative service organization has failed to provide an adequate excess reserve corrective action plan or is

not complying with an approved plan, the authority must reduce payments to the entity in accordance with remedial actions provisions included in the contract. These reductions in payments must continue until the authority determines that the entity has come into substantial compliance with an approved excess reserve corrective action plan. The authority must submit to the office of financial management and the appropriate committees of the legislature, each December of the biennium, the minimum and maximum reserve levels established in contract for each of the behavioral health administrative service organizations for the prior fiscal year and the actual reserve levels reported at the end of the fiscal year.

The department of corrections and the authority must develop a memorandum of understanding for department of corrections offenders on active supervision who are medicaid eligible and meet medical necessity for outpatient substance use disorder treatment. The agreement will ensure that treatment services provided are coordinated, do not result in duplication of services, and maintain access and quality of care for the individuals being served. The authority must provide all necessary data, access, and reports to the department of corrections for all department of corrections offenders that receive medicaid paid services.

(15) The criminal justice treatment account—state appropriation is provided solely for treatment and treatment support services for offenders with a substance use disorder pursuant to RCW 71.24.580. **PART VII  
SPECIAL APPROPRIATIONS**

**NEW SECTION. Sec. 701. FOR THE OFFICE OF FINANCIAL MANAGEMENT—INFORMATION TECHNOLOGY INVESTMENT POOL**

General Fund—State Appropriation (FY 2026)	\$16,177,000
--	--------------

General Fund—State Appropriation (FY 2027) . . . . .	\$5,129,000
Other Appropriated Funds. . . . .	\$9,860,000
<b>TOTAL APPROPRIATION.</b> . . . .	<b>\$31,166,000</b>

The appropriations in this section are subject to the following conditions and limitations:

(1) The appropriations are provided solely for expenditure into the information technology investment revolving account created in RCW 43.41.433. Amounts in the account are provided solely for the information technology projects shown in LEAP omnibus document IT-2025-H, dated March 24, 2025, which is hereby incorporated by reference. To facilitate the transfer of moneys from other funds and accounts that are associated with projects contained in LEAP omnibus document IT-2025-H, dated March 24, 2025, the state treasurer is directed to transfer moneys from other funds and accounts to the information technology investment revolving account in accordance with schedules provided by the office of financial management. Restricted federal funds may be transferred only to the extent permitted by law, and will otherwise remain outside the information technology investment account. The projects affected remain subject to the other provisions of this section.

(2) Agencies must apply to Washington technology solutions for certification and release of funding for each gate of the project. When Washington technology solutions certifies the key deliverables of the gate have been met, a current technology budget is approved; and if applicable to the stage or gate of the project, that the project is putting functioning software into production that addresses user needs, is in compliance with the quality assurance plan, and meets a defined set of industry best practices for code quality that Washington technology solutions will post to their website by July 1, 2025, it must notify the office of financial management and the fiscal committees of the legislature. The office of financial management may not approve funding for the certified project gate any earlier than ten business days from the date of notification to the fiscal committees of the legislature.

(3)(a) Allocations and allotments of information technology investment revolving account must be made for discrete stages of projects as determined by the technology budget approved by Washington technology solutions and the office of financial management.

(b) Fifteen percent of total funding allocated by the office of financial management, or another amount as defined jointly by the office of financial management and Washington technology solutions, will be retained in the account, but remain allocated to that project. The retained funding will be released to the agency only after successful completion of that stage of the project and only after Washington technology solutions certifies the stage as required in subsection (2) of this section. For the one Washington project, the amount retained is increased to at least 20 percent of total funding allocated for any stage of that project. If there is no significant risk to the project, the holdback does not apply to the final gate during a biennial close.

(4)(a) Each project must have a technology budget. The technology budget must have the detail by fiscal month for the 2025-2027 fiscal biennium. The technology budget must use a method similar to the state capital budget, identifying project costs, each fund source, and anticipated deliverables through each stage of the entire project investment and across fiscal periods and biennia from project onset through implementation and close out, as well as at least five years of maintenance and operations costs.

(b) As part of the development of a technology budget and at each request for funding, the agency shall submit an updated technology budget, if changes occurred, to include detailed financial information to the office of financial management and Washington technology solutions. The technology budget must describe the total cost of the project, as well as maintenance and operations costs, to include and identify at least:

(i) Fund sources:

(A) If the project is funded from the information technology revolving account, the technology budget must include a worksheet that provides the fund sources that were transferred into the account by fiscal year;

(B) If the project managed is by a central service agency, and funds are driven out by the central service model, the technology budget must provide a statewide impact by agency by fund as a worksheet in the technology budget file;

(ii) Full time equivalent staffing level to include job classification assumptions. This is to assure that the project has adequate state staffing and agency support to ensure success, ensure user acceptance, and adequately test the functionality being delivered in each sprint before it is accepted by the agency's contracting officer or their representative. Key project functions that are deemed "critical" must be retained by state personnel and not outsourced, to ensure that knowledge is retained within state government and that the state can self-sufficiently support the system and make improvements without long-term dependence on a vendor;

(iii) Discrete financial budget codes to include at least the appropriation index and program index;

(iv) Object and subobject codes of expenditures;

(v) Anticipated deliverables to include software demonstration dates;

(vi) Historical budget and expenditure detail by fiscal year; and

(vii) Maintenance and operations costs by fiscal year for at least five years as a separate worksheet.

(c) If a project technology budget changes and a revised technology budget is completed, a comparison of the revised technology budget to the last approved technology budget must be

posted to the dashboard, to include a narrative rationale on what changed, why, and how that impacts the project in scope, budget, and schedule.

(5)(a) Each project must have a project charter. The charter must include:

(i) An organizational chart of the project management team that identifies team members and their roles and responsibilities, and shows that the project is adequately staffed by state personnel in key functions to ensure success;

(ii) The Washington technology solutions staff assigned to the project;

(iii) A project roadmap that includes the problems the team is solving and the sequence in which the team intends to take on those problems, updated periodically to reflect what has been learned;

(iv) Metrics to support the project strategy and vision, to determine that the project is incrementally meeting user needs;

(v) An implementation schedule covering activities, critical milestones, and deliverables at each stage of the project for the life of the project at each agency affected by the project;

(vi) Performance measures used to determine that the project is on time, within budget, and meeting expectations for quality of work product;

(vii) Ongoing maintenance and operations cost of the project post implementation and close out delineated by agency staffing, contracted staffing, and service level agreements; and

(viii) Financial budget coding to include at least discrete financial coding for the project.

(b) If required by Washington technology solutions, a project may also need to have an investment plan. Washington technology solutions must:

(i) Base the requirement of an agency needing to have an investment plan on the complexity and risk of the project;

(ii) Establish requirements by project risk level in statewide technology policy, and publish the requirements by September 30, 2025; and

(iii) In collaboration with the department of enterprise services, define the circumstances under which the vendor will be terminated or replaced and establish the process by which the agency will transition to a new vendor with a minimal reduction in project productivity.

(6)(a) Projects with estimated costs greater than \$100,000,000 from initiation to completion and implementation may be divided into discrete subprojects as determined by Washington technology solutions, except for the one Washington project which must be divided into the following discrete subprojects: Core financials, expanding financials and procurement, budget, and human resources. Each subproject must have a technology budget as provided in this section.

(b) If the project affects more than one agency:

(i) A separate technology budget and investment plan must be prepared by each agency; and

(ii) There must be a budget roll up that includes each affected agency at the subproject level.

(7) Washington technology solutions shall maintain a statewide information technology project dashboard that provides updated information each fiscal month on projects subject to this section. The statewide dashboard must meet the requirements in section 156 of this act.

(8) For any project that exceeds \$2,000,000 in total funds to complete, requires more than one biennium to complete, or is financed through financial contracts, bonds, or other indebtedness:

(a) Independent quality assurance services for the project must report independently to Washington technology solutions;

(b) Washington technology solutions, based on project risk assessments, may require additional quality assurance services and independent verification and validation services;

(c) Washington technology solutions must review, and, if necessary, revise the proposed project to ensure it is flexible and adaptable to advances in technology;

(d) The technology budget must specifically identify the uses of any financing proceeds. No more than thirty percent of the financing proceeds may be used for payroll-related costs for state employees assigned to project management, installation, testing, or training;

(e) The agency must consult with the office of the state treasurer during the competitive procurement process to evaluate early in the process whether products and services to be solicited and the responsive bids from a solicitation may be financed;

(f) The agency must consult with the contracting division of the department of enterprise services for a review of all contracts and agreements related to the project's information technology procurements;

(g) The agency and project must use an agile development model holding live demonstrations of functioning software, developed using incremental user research, held at the end of every two-week sprint, except for:

(i) Hardware or infrastructure projects; and

(ii) Projects that have implemented all phases and are now in maintenance and operations;

(h) The project solution must be capable of being continually updated, as necessary; and

(i) The agency and project must deploy usable functionality into production for users within 180 days from the date of an executed procurement contract in response to a competitive request for proposal.

(9) Washington technology solutions must evaluate the project at each stage and certify whether the project is putting functioning software into production that addresses user needs, is projected to be completed within budget, is in compliance with the quality assurance plan, and meets a defined set of industry best practices for code quality, and

whether the project is planned, managed, and meeting deliverable targets as defined in the project's approved technology budget and investment plan.

(10) Washington technology solutions may suspend or terminate a project at any time if it determines that the project is not meeting or not expected to meet anticipated performance and technology outcomes. Once suspension or termination occurs, the agency shall unallot any unused funding and shall not make any expenditure for the project without the approval of the office of financial management. Washington technology solutions must report on December 1 each calendar year any suspension or termination of a project in the previous 12-month period to the legislative fiscal committees.

(11) Washington technology solutions, in consultation with the office of financial management, may identify additional projects to be subject to this section, including projects that are not separately identified within an agency budget. Washington technology solutions must report on December 1 each calendar year any additional projects to be subjected to this section that were identified in the previous 12-month period to the legislative fiscal committees.

(12) Any cost to administer or implement this section for projects listed in subsection (1) of this section, must be paid from the information technology investment revolving account. For any other information technology project subject to the conditions, limitations, and review of this section, the cost to implement this section must be paid from the funds for that project.

(13) The following information technology projects are subject to the conditions, limitations, and review of this section:

- (a) The state network firewall replacement of the Washington technology solutions agency;
- (b) The resident portal of the Washington technology solutions agency; and
- (c) The resident identity and access management modernization projects of the Washington technology solutions agency.

## **PART IX**

### **MISCELLANEOUS**

#### **NEW SECTION. Sec. 901. EXPENDITURE AUTHORIZATIONS**

The appropriations contained in this act are maximum expenditure authorizations. Pursuant to RCW 43.88.037, moneys disbursed from the treasury on the basis of a formal loan agreement shall be recorded as loans receivable and not as expenditures for accounting purposes. To the extent that moneys are disbursed on a loan basis, the corresponding appropriation shall be reduced by the amount of loan moneys disbursed from the treasury during the 2023-2025 fiscal biennium.

**NEW SECTION. Sec. 902. EMERGENCY FUND ALLOCATIONS**

Whenever allocations are made from the governor's emergency fund appropriation to an agency that is financed in whole or in part by other than general fund moneys, the director of financial management may direct the repayment of such allocated amount to the general fund from any balance in the fund or funds which finance the agency. An appropriation is not necessary to effect such repayment.

**NEW SECTION. Sec. 903. STATUTORY APPROPRIATIONS**

In addition to the amounts appropriated in this act for revenues for distribution, state contributions to the law enforcement officers' and firefighters' retirement system plan 2 and bond retirement and interest, including ongoing bond registration and transfer charges, transfers, interest on registered warrants, and certificates of indebtedness, there is also appropriated such further amounts as may be required or available for these purposes under any statutory formula or under chapters 39.94, 39.96, and 39.98 RCW or any proper bond covenant made under law.

**NEW SECTION. Sec. 904. BOND EXPENSES**

In addition to such other appropriations as are made by this act, there is hereby appropriated to the state finance committee from legally available bond proceeds in the applicable construction or building funds and accounts such amounts as are necessary to pay the expenses incurred in the issuance and sale of the subject bonds.

**NEW SECTION. Sec. 905. VOLUNTARY RETIREMENT AND SEPARATION**

(1) As a management tool to reduce costs and make more effective use of resources, while improving employee productivity and morale, agencies may implement either a voluntary retirement or separation program, or both, that is cost neutral or results in cost savings, including costs to the state pension systems, over a two-year period following the commencement of the program, provided that such a program is approved by the director of financial management. Agencies participating in this authorization may offer voluntary retirement and/or separation incentives and options according to procedures and guidelines established by the office of financial management in consultation with the department of retirement systems. The options may include, but are not limited to, financial incentives for voluntary separation or retirement. An employee does not have a contractual right to a financial incentive offered under this section. The office of financial management and the department of retirement systems may review and monitor incentive offers. Agencies are required to submit a report by the date established by the office of financial management in the guidelines required in this section to the legislature and the office of financial management on the outcome of their approved incentive program. The report should include information on the details of the program, including the incentive payment amount for each participant, the total cost to the state, and the projected or actual net dollar savings over the two-year period.

(2) The department of retirement systems may collect from employers the actuarial cost of any incentive provided under this program, or any other incentive to retire provided by employers to members of the state's pension systems, for deposit in the appropriate pension account.

The board may refuse to grant a license on the ground of failure to satisfy this requirement only if there is a substantial connection between the lack of good character of the applicant and the professional and ethical responsibilities of a licensee and if the finding by the board of lack of good character is supported by a preponderance of evidence. When an applicant is found to be unqualified for a license because of a lack of good character, the board shall furnish the applicant a statement containing the findings of the board and a notice of the applicant's right of appeal;

(b) Who has met the educational standards established by rule as the board determines to be appropriate;

The board shall prescribe by rule the methods of applying for and taking the examination, including methods for grading examinations and determining a passing grade required of an applicant for a license. The board shall to the extent possible see to it that the grading of the examination, and the passing grades, are uniform with those applicable to all other states. The board may make use of all or a part of the uniform certified public accountant examination and advisory grading service of the American Institute of Certified Public Accountants and may contract with third parties to perform administrative services with respect to the examination as the board deems appropriate to assist it in performing its duties under this chapter. The board shall establish by rule provisions for transitioning to a new examination structure or to a new media for administering the examination.

(e) Pay the appropriate fees established by rule by the board.

(5) Individuals who did not hold a valid certificate on the conversion date of June 30, 2024, and who wish to apply for a license must apply as a new licensee and meet the requirements under subsection (1) of this section for initial licensure.

(6) Licensees in good standing may request to have their license placed on inactive status. All licensees in inactive status, including those who converted from certificate to a license, are subject to the following conditions:

**Sec. 957.** RCW 70.128.160 and 2016 sp.s. c 36 s 944 are each amended to read as follows:

(1) The department is authorized to take one or more of the actions listed in subsection (2) of this section in any case in which the department finds that an adult family home provider has:

(a) Failed or refused to comply with the requirements of this chapter or the rules adopted under this chapter;

(b) Operated an adult family home without a license or under a revoked license;

(c) Knowingly or with reason to know made a false statement of material fact on his or her application for license or any data attached thereto, or in any matter under investigation by the department; or

(d) Willfully prevented or interfered with any inspection or investigation by the department.

(2) When authorized by subsection (1) of this section, the department may take one or more of the following actions:

(a) Refuse to issue a license;

(b) Impose reasonable conditions on a license, such as correction within a specified time, training, and limits on the type of clients the provider may admit or serve;

(c) Impose civil penalties of at least one hundred dollars per day per violation;

(d) Impose civil penalties of up to three thousand dollars for each incident that violates adult family home licensing laws and rules, including, but not limited to, chapters 70.128, 70.129, 74.34, and 74.39A RCW and related rules. Each day upon which the same or substantially similar action occurs is a separate violation subject to the assessment of a separate penalty;

(e) Impose civil penalties of up to ten thousand dollars for a current or former licensed provider who is operating an unlicensed home;

(f) Suspend, revoke, or refuse to renew a license; or

(g) Suspend admissions to the adult family home by imposing stop placement.

(3) When the department orders stop placement, the facility shall not admit any person until the stop placement order is terminated. The department may approve readmission of a resident to the facility from a hospital or nursing home during the stop placement. The department shall terminate the stop placement only after: (a) The violations necessitating the stop placement have been corrected; and (b) the provider exhibits the capacity to maintain correction of the violations previously found deficient. However, if upon the

revisit the department finds new violations that the department reasonably believes will result in a new stop placement, the previous stop placement shall remain in effect until the new stop placement is imposed. In order to protect the home's existing residents from potential ongoing neglect, when the provider has been cited for a violation that is repeated, uncorrected, pervasive, or presents a threat to the health, safety, or welfare of one or more residents, and the department has imposed a stop placement, the department shall also impose a condition on license or other remedy to facilitate or spur prompter compliance if the violation has not been corrected, and the provider has not exhibited the capacity to maintain correction, within sixty days of the stop placement.

(4) Nothing in subsection (3) of this section is intended to apply to stop placement imposed in conjunction with a license revocation or summary suspension or to prevent the department from imposing a condition on license or other remedy prior to sixty days after a stop placement, if the department considers it necessary to protect one or more residents' well-being. After a department finding of a violation for which a stop placement has been imposed, the department shall make an on-site revisit of the provider within fifteen working days from the request for revisit, to ensure correction of the violation. For violations that are serious or recurring or uncorrected following a previous citation, and create actual or threatened harm to one or more residents' well-being, including violations of residents' rights, the department shall make an on-site revisit as soon as appropriate to ensure correction of the violation. Verification of correction of all other violations may be made by either a department on-site revisit or by written or photographic documentation found by the department to be credible. This subsection does not prevent the department from enforcing license suspensions or revocations. Nothing in this subsection shall interfere with or diminish the department's authority and duty to ensure that the provider adequately cares for residents, including to make departmental on-site revisits as needed to ensure that the provider protects residents, and to enforce compliance with this chapter.

(5) Chapter 34.05 RCW applies to department actions under this section, except that orders of the department imposing license suspension, stop placement, or conditions for continuation of a license are effective immediately upon notice and shall continue in effect pending a hearing, which must commence no later than sixty days after receipt of a request for a hearing. The time for commencement of a hearing may be extended by agreement of the parties or by the presiding officer for good cause shown by either party, but must commence no later than one hundred twenty days after receipt of a request for a hearing.

(6) A separate adult family home account is created in the custody of the state treasurer. All receipts from civil penalties imposed under this chapter must be deposited into the account. Only the director or the director's designee may authorize expenditures from the account. The account is subject to allotment procedures under chapter 43.88 RCW, but an appropriation is not required for expenditures. The department shall use the special account only for promoting the quality of life and care of residents living in adult family homes. During the 2015-2017 fiscal biennium, the account may be expended for funding costs associated with the adult family home program. Notwithstanding the restrictions in this subsection, for the fiscal biennium beginning July 1, 2025, and ending June 30, 2027, the department may expend funds from the adult family home account for any purpose deemed necessary by the department to support the operations and responsibilities of the adult family home program. This temporary provision expires June 30, 2027, after which expenditures from the account shall be for the purposes described in this subsection.

(7) The department shall by rule specify criteria as to when and how the sanctions specified in this section must be applied. The criteria must provide for the imposition of incrementally more severe penalties for deficiencies that are repeated, uncorrected, pervasive, or present a threat to the health, safety, or welfare of one or more residents. The criteria shall be tiered such that those homes consistently found to have deficiencies will be subjected to increasingly severe penalties. The department shall implement prompt and specific enforcement remedies without delay for providers found to have delivered care or failed to deliver care resulting in problems that are repeated, uncorrected, pervasive, or present a threat to the health, safety, or welfare of one or more residents. In the selection of remedies, the health, safety, and well-being of residents must be of paramount importance.

**Sec. 958.** RCW 70.245.150 and 2023 c 38 s 14 are each amended to read as follows:

(1)(a) The department of health shall annually review all records maintained under this chapter.

(b) The department of health shall require any health care provider upon writing a prescription or dispensing medication under this chapter to file a copy of the dispensing record and such other administratively required documentation with the department. All administratively required documentation shall be transmitted electronically, mailed, or otherwise transmitted as allowed by department of health rule to the department no later than 30 calendar days after the writing of a prescription and dispensing of medication under this chapter, except that all documents required to be filed with the department by the prescribing qualified medical provider after the death of the patient shall be transmitted electronically, mailed, or faxed no later than 30 calendar days after the date of death of the patient. In the event that anyone required under this chapter to report information to the department of health provides an inadequate or incomplete report, the department shall contact the person to request a complete report.

(2) The department of health shall adopt rules to facilitate the collection of information regarding compliance with this chapter. Except as otherwise required by law, the

information collected is not a public record and may not be made available for inspection by the public.

(3) ~~((The))~~ Except during the 2025-2027 fiscal biennium, the department of health shall generate and make available to the public an annual statistical report of information collected under subsection (2) of this section.

**Sec. 959.** RCW 70.330.020 and 2016 c 56 s 2 are each amended to read as follows:

**Sec. 963.** RCW 70A.65.270 and 2021 c 316 s 30 are each amended to read as follows:

(1) The natural climate solutions account is created in the state treasury. All moneys directed to the account from the climate investment account created in RCW 70A.65.250 must be deposited in the account. Moneys in the account may be spent only after appropriation. Moneys in the account are intended to increase the resilience of the state's waters, forests, and other vital ecosystems to the impacts of climate change, conserve working forestlands at risk of conversion, and increase their carbon pollution reduction capacity through sequestration, storage, and overall system integrity. Moneys in the account must be spent in a manner that is consistent with existing and future assessments of climate risks and resilience from the scientific community and expressed concerns of and impacts to overburdened communities.

(2) Moneys in the account may be allocated for the following purposes:

(a) Clean water investments that improve resilience from climate impacts. Funding under this subsection (2)(a) must be used to:

(i) Restore and protect estuaries, fisheries, and marine shoreline habitats and prepare for sea level rise including, but not limited to, making fish passage correction investments such as those identified in the cost-share barrier removal program for small forestland owners created in RCW 76.13.150 and those that are considered by the fish passage barrier removal board created in RCW 77.95.160;

(ii) Increase carbon storage in the ocean or aquatic and coastal ecosystems;

(i) Increase forest and community resilience to wildfire in the face of increased seasonal temperatures and drought;

(ii) Improve forest health and reduce vulnerability to changes in hydrology, insect infestation, and other impacts of climate change; or

(iii) Prevent emissions by preserving natural and working lands from the threat of conversion to development or loss of critical habitat, through actions that include, but are not limited to, the creation of new conservation lands, community forests, or increased support to small forestland owners through assistance programs including, but not limited to, the forest riparian easement program and the family forest fish passage program. It is the intent of the legislature that not less than \$10,000,000 be expended each biennium for the forestry riparian easement program created in chapter 76.13 RCW or for riparian easement projects funded under the agricultural conservation easements program established under RCW 89.08.530, or similar riparian enhancement programs.

(3) Moneys in the account may not be used for projects that would violate tribal treaty rights or result in significant long-term damage to critical habitat or ecological functions. Investments from this account must result in long-term environmental benefits and increased resilience to the impacts of climate change.

The amount to the department of ecology shall also be used for a central coordination function for litter control efforts statewide; to support employment of youth in litter cleanup as intended in RCW 70A.200.020, and for litter pick up using other authorized agencies; and for statewide public awareness programs under RCW 70A.200.150(7). The amount to the department shall also be used to defray the costs of administering the funding, coordination, and oversight of local government programs for waste reduction, litter control, recycling, and composting so that local governments can apply one hundred percent of their funding to achieving program goals. The amount to the department of revenue shall be used to enforce compliance with the litter tax imposed in chapter 82.19 RCW;

Capital funds shall be distributed among state agencies and local governments according to the same criteria provided in RCW 70A.200.170 for the remainder of the funds, so that the most effective waste reduction, litter control, recycling, and composting programs receive the most funding. The intent of this subsection is

to provide funds for the purchase of equipment that will enable the department to account for the greatest return on investment in terms of reaching a zero litter goal.

(4) Funds in the waste reduction, recycling, and litter control account, collected under chapter 82.19 RCW, must be prioritized for the products identified under RCW 82.19.020 solely for the purposes of recycling, composting, and litter collection, reduction, and control programs.

(4)(a) For the fiscal year beginning July 1, 2005, and each subsequent fiscal year, the state treasurer shall transfer eight million two hundred fifty thousand dollars from the general fund to the criminal justice treatment account, divided into four equal quarterly payments. For the fiscal year beginning July 1, 2006, and each subsequent fiscal year, the amount transferred shall be increased on an annual basis by the implicit price deflator as published by the federal bureau of labor statistics.

(b) In each odd-numbered year, the legislature shall appropriate the amount transferred to the criminal justice treatment account in (a) of this subsection to the department for the purposes of subsection (5) of this section.

(c) During the 2025-2027 fiscal biennium, the legislature may appropriate moneys from the criminal justice treatment account to provide access to medications for opioid use disorders and alcohol use disorders to individuals in city, county, regional, and tribal jails. Appropriations made for these purposes are not subject to the distribution methodology established in subsection (5) of this section. It is the intent of the legislature that this policy will be continued in subsequent fiscal biennia.

(5) Moneys appropriated to the authority from the criminal justice treatment account shall be distributed as specified in this subsection. The authority may retain up to three percent of the amount appropriated under subsection (4)(b) of this section for its administrative costs.

(a) Seventy percent of amounts appropriated to the authority from the account shall be distributed to counties pursuant to the distribution formula adopted under this section. The authority, in consultation with the department of corrections, the Washington state association of counties, the Washington state association of drug court professionals, the superior court judges' association, the Washington association of prosecuting attorneys, representatives of the criminal defense bar, representatives of substance use disorder treatment providers, and any other person deemed by the authority to be necessary, shall establish a fair and reasonable methodology for distribution to counties of moneys in the criminal justice treatment account. County or regional plans submitted for the expenditure of formula funds must be approved by the panel established in (b) of this subsection.

(b) Thirty percent of the amounts appropriated to the authority from the account shall be distributed as grants for purposes of treating offenders against whom charges are filed by a county prosecuting attorney. The authority shall appoint a panel of representatives from the Washington association of prosecuting attorneys, the Washington association of sheriffs and police chiefs, the superior court judges' association, the Washington state association of

counties, the Washington defender's association or the Washington association of criminal defense lawyers, the department of corrections, the Washington state association of drug court professionals, and substance use disorder treatment providers. The panel shall review county or regional plans for funding under (a) of this subsection and grants approved under this subsection. The panel shall attempt to ensure that treatment as funded by the grants is available to offenders statewide.

(6) The county alcohol and drug coordinator, county prosecutor, county sheriff, county superior court, a substance abuse treatment provider appointed by the county legislative authority, a member of the criminal defense bar appointed by the county legislative authority, and, in counties with a drug court, a representative of the drug court shall jointly submit a plan, approved by the county legislative authority or authorities, to the panel established in subsection (5)(b) of this section, for disposition of all the funds provided from the criminal justice treatment account within that county. The submitted plan should incorporate current evidence-based practices in substance use disorder treatment. The funds shall be used solely to provide approved alcohol and substance use disorder treatment pursuant to RCW 71.24.560 and treatment support services. No more than ten percent of the total moneys received under subsections (4) and (5) of this section by a county or group of counties participating in a regional agreement shall be spent for treatment support services.

(7) Counties are encouraged to consider regional agreements and submit regional plans for the efficient delivery of treatment under this section.

(8) Moneys allocated under this section shall be used to supplement, not supplant, other federal, state, and local funds used for substance abuse treatment.

(9) If a region or county uses criminal justice treatment account funds to support a therapeutic court, the therapeutic court must allow the use of all medications approved by the federal food and drug administration for the treatment of opioid use disorder as deemed medically appropriate for a participant by a medical professional. If appropriate medication-assisted treatment resources are not available or accessible within the jurisdiction, the health care authority's designee for assistance must assist the court with acquiring the resource.

(10) Counties must meet the criteria established in RCW 2.30.030(3).

(11) The authority shall annually review and monitor the expenditures made by any county or group of counties that receives appropriated funds distributed under this section. Counties shall repay any funds that are not spent in accordance with the requirements of its contract with the authority.

**Sec. 967.** RCW 71.24.890 and 2024 c 368 s 4 and 2024 c 364 s 1 are each reenacted and amended to read as follows:

(1) Establishing the state designated 988 contact hubs and enhancing the crisis response system will require collaborative work between the department, the authority, and regional system partners within their respective roles. The department shall have primary responsibility for designating 988 contact hubs, and shall seek recommendations from the behavioral health administrative services organizations to determine which 988 contact hubs best meet regional needs. The authority shall have primary responsibility for developing, implementing, and facilitating coordination of the crisis response system and services to support the work of the designated 988 contact hubs, regional crisis lines, and other coordinated regional behavioral health crisis response system partners. In any instance in which one agency is identified as the lead, the expectation is that agency will communicate and collaborate with the other to ensure seamless, continuous, and effective service delivery within the statewide crisis response system.

(2) The department shall provide adequate funding for the state's crisis call centers to meet an expected increase in the use of the 988 contact hubs based on the implementation of the 988 crisis hotline. The funding level shall be established at a level anticipated to achieve an in-state call response rate of at least 90 percent by July 22, 2022. The funding level shall be determined by considering standards and cost per call predictions provided by the administrator of the national suicide prevention lifeline, call volume predictions, guidance on crisis call center performance metrics, and necessary technology upgrades. Contracts with the 988 contact hubs:

(a) May provide funding to support designated 988 contact hubs to enter into limited partnerships with the public safety answering point to increase the coordination and transfer of behavioral health calls received by certified public safety telecommunicators that are better addressed by clinic interventions provided by the 988 system. Tax revenue may be used to support partnerships. These partnerships with 988 and public safety may be expanded to include regional crisis lines administered by behavioral health administrative services organizations;

(b) Shall require that 988 contact hubs enter into data-sharing agreements, when appropriate, with the department, the authority, regional crisis lines, and applicable regional behavioral health administrative services organizations to provide reports and client level data regarding 988 contact hub calls, as allowed by and in compliance with existing federal and state law governing the sharing and use of protected health information. Data-sharing agreements with regional crisis lines must include real-time information sharing. All coordinated regional behavioral health crisis response system partners must share dispatch time, arrival time, and disposition for behavioral health calls referred for outreach by each region consistent with any regional protocols developed under RCW 71.24.432. The department and the authority shall establish requirements for 988 contact hubs to report data to regional behavioral health administrative services organizations for the purposes of

maximizing medicaid reimbursement, as appropriate, and implementing this chapter and chapters 71.05 and 71.34 RCW. The behavioral health administrative services organization may use information received from the 988 contact hubs in administering crisis services for the assigned regional service area, contracting with a sufficient number of licensed or certified providers for crisis services, establishing and maintaining quality assurance processes, maintaining patient tracking, and developing and implementing strategies to coordinate care for individuals with a history of frequent crisis system utilization.

(3) The department shall adopt rules by January 1, 2025, to establish standards for designation of crisis call centers as designated 988 contact hubs. The department shall collaborate with the authority, other agencies, and coordinated regional behavioral health crisis response system partners to assure coordination and availability of services, and shall consider national guidelines for behavioral health crisis care as determined by the federal substance abuse and mental health services administration, national behavioral health accrediting bodies, and national behavioral health provider associations to the extent they are appropriate, and recommendations from behavioral health administrative services organizations and the crisis response improvement strategy committee created in RCW 71.24.892.

(4) The department shall designate 988 contact hubs considering the recommendations of behavioral health administrative services organizations by January 1, 2026. The designated 988 contact hubs shall provide connections to crisis intervention services, triage, care coordination, and referrals for individuals contacting the 988 contact hubs from any jurisdiction within Washington 24 hours a day, seven days a week, using the system platform developed under subsection (5) of this section. The department may not designate more than a total of four 988 contact hubs without legislative approval.

(a) To be designated as a 988 contact hub, the applicant must demonstrate to the department the ability to comply with the requirements of this section and to contract to provide 988 contact hub services. If a 988 contact hub fails to substantially comply with the contract, data-sharing requirements, or approved regional protocols developed under RCW 71.24.432, the department may revoke the designation of the 988 contact hub and, after consulting with the affected behavioral health administrative services organization, may designate a 988 contact hub recommended by a behavioral health administrative services organization which is able to meet necessary state and federal requirements.

(b) The contracts entered shall require designated 988 contact hubs to:

(i) Have an active agreement with the administrator of the national suicide prevention lifeline for participation within its network;

(ii) Meet the requirements for operational and clinical standards established by the department and based upon the national suicide prevention lifeline best practices guidelines and other recognized best practices;

(iii) Employ highly qualified, skilled, and trained clinical staff who have sufficient training and resources to provide empathy to callers in acute distress, de-escalate crises, assess behavioral health disorders and suicide risk, triage to system partners for callers that need additional clinical interventions, and provide case management and documentation. Call center staff shall be trained to make every effort to resolve cases in the least restrictive environment and without law enforcement involvement whenever possible. Call center staff shall coordinate with certified peer counselors to provide follow-up and outreach to callers in distress as available. It is intended for transition planning to include a pathway for continued employment and skill advancement as needed for experienced crisis call center employees;

(iv) Train employees on agricultural community cultural competencies for suicide prevention, which may include sharing resources with callers that are specific to members from the agricultural community. The training must prepare staff to provide appropriate assessments, interventions, and resources to members of the agricultural community. Employees may make warm transfers and referrals to a crisis hotline that specializes in working with members from the agricultural community, provided that no person contacting 988 shall be transferred or referred to another service if they are currently in crisis and in need of emotional support;

(v) Prominently display 988 crisis hotline information on their websites and social media, including a description of what the caller should expect when contacting the crisis call center and a description of the various options available to the caller, including call lines specialized in the behavioral health needs of veterans, American Indian and Alaska Native persons, Spanish-speaking persons, and LGBTQ populations. The website may also include resources for programs and services related to suicide prevention for the agricultural community;

(vi) Collaborate with the authority, the national suicide prevention lifeline, and veterans crisis line networks to assure consistency of public messaging about the 988 crisis hotline;

(vii) Collaborate with coordinated regional behavioral health crisis response system partners within the 988 contact hub's regional service area to develop protocols under RCW 71.24.432, including protocols related to the dispatching of mobile rapid response crisis teams and community-based crisis teams endorsed under RCW 71.24.903;

(viii) Provide data and reports and participate in evaluations and related quality improvement activities, according to standards established by the department in collaboration with the authority; and

(ix) Enter into data-sharing agreements with the department, the authority, regional crisis lines, and applicable behavioral health administrative services organizations to provide reports and client level data regarding 988 contact hub calls, as allowed by and in

compliance with existing federal and state law governing the sharing and use of protected health information, which shall include sharing real-time information with regional crisis lines. The department and the authority shall establish requirements that the designated 988 contact hubs report data to regional behavioral health administrative services organizations for the purposes of maximizing medicaid reimbursement, as appropriate, and implementing this chapter and chapters 71.05 and 71.34 RCW including, but not limited to, administering crisis services for the assigned regional service area, contracting with a sufficient number of licensed or certified providers for crisis services, establishing and maintaining quality assurance processes, maintaining patient tracking, and developing and implementing strategies to coordinate care for individuals with a history of frequent crisis system utilization.

(c) The department and the authority shall incorporate recommendations from the crisis response improvement strategy committee created under RCW 71.24.892 in its agreements with designated 988 contact hubs, as appropriate.

(5) The department and authority must coordinate to develop the technology and platforms necessary to manage and operate the behavioral health crisis response and suicide prevention system. The department and the authority must include designated 988 contact hubs, regional crisis lines, and behavioral health administrative services organizations in the decision-making process for selecting any technology platforms that will be used to operate the system. No decisions made by the department or the authority shall interfere with the routing of the 988 contact hubs calls, texts, or chat as part of Washington's active agreement with the administrator of the national suicide prevention lifeline or 988 administrator that routes 988 contacts into Washington's system. The technologies developed must include:

(a) A new technologically advanced behavioral health and suicide prevention crisis call center system platform for use in 988 contact hubs designated by the department under subsection (4) of this section. This platform, which shall be implemented as soon as possible and fully funded by ~~((January 1, 2026))~~ June 30, 2027, shall be developed by the department and must include the capacity to receive crisis assistance requests through phone calls, texts, chats, and other similar methods of communication that may be developed in the future that promote access to the behavioral health crisis system; and

(b) A behavioral health integrated client referral system capable of providing system coordination information to designated 988 contact hubs and the other entities involved in behavioral health care. This system shall be developed by the authority.

(6) In developing the new technologies under subsection (5) of this section, the department and the authority must coordinate to designate a primary technology system to provide each of the following:

(a) Access to real-time information relevant to the coordination of behavioral health crisis response and suicide prevention services, including:

(i) Real-time bed availability for all behavioral health bed types and recliner chairs, including but not limited to crisis stabilization services, 23-hour crisis relief centers, psychiatric inpatient, substance use disorder inpatient, withdrawal management, peer-run respite centers, and crisis respite services, inclusive of both voluntary and involuntary beds, for use by crisis response workers, first responders, health care providers, emergency departments, and individuals in crisis; and

(ii) Real-time information relevant to the coordination of behavioral health crisis response and suicide prevention services for a person, including the means to access:

(A) Information about any less restrictive alternative treatment orders or mental health advance directives related to the person; and

(B) Information necessary to enable the designated 988 contact hubs to actively collaborate with regional crisis lines, emergency departments, primary care providers and behavioral health providers within managed care organizations, behavioral health administrative services organizations, and other health care payers to establish a safety plan for the person in accordance with best practices and provide the next steps for the person's transition to follow-up noncrisis care. To establish information-sharing guidelines that fulfill the intent of this section the authority shall consider input from the confidential information compliance and coordination subcommittee established under RCW 71.24.892;

(b) The means to track the outcome of the 988 call to enable appropriate follow-up, cross-system coordination, and accountability, including as appropriate: (i) Any immediate services dispatched and reports generated from the encounter; (ii) the validation of a safety plan established for the caller in accordance with best practices; (iii) the next steps for the caller to follow in transition to noncrisis follow-up care, including a next-day appointment for callers experiencing urgent, symptomatic behavioral health care needs; and (iv) the means to verify and document whether the caller was successful in making the transition to appropriate noncrisis follow-up care indicated in the safety plan for the person, to be completed either by the care coordinator provided through the person's managed care organization, health plan, or behavioral health administrative services organization, or if such a care coordinator is not available or does not follow through, by the staff of the designated 988 contact hub;

(c) A means to facilitate actions to verify and document whether the person's transition to follow-up noncrisis care was completed and services offered, to be performed by a care coordinator provided through the person's managed care organization, health plan, or behavioral health administrative services organization, or if such a care coordinator is not available or does not follow through, by the staff of the designated 988 contact hub;

(d) The means to provide geographically, culturally, and linguistically appropriate services to persons who are part of high-risk populations or otherwise have need of specialized services or accommodations, and to document these services or accommodations; and

(e) When appropriate, consultation with tribal governments to ensure coordinated care in government-to-government relationships, and access to dedicated services to tribal members.

(7) The authority shall:

(a) Collaborate with county authorities and behavioral health administrative services organizations to develop procedures to dispatch behavioral health crisis services in coordination with designated 988 contact hubs to effectuate the intent of this section;

(b) Establish formal agreements with managed care organizations and behavioral health administrative services organizations by January 1, 2023, to provide for the services, capacities, and coordination necessary to effectuate the intent of this section, which shall include a requirement to arrange next-day appointments for persons contacting the 988 contact hub or a regional crisis line experiencing urgent, symptomatic behavioral health care needs with geographically, culturally, and linguistically appropriate primary care or behavioral health providers within the person's provider network, or, if uninsured, through the person's behavioral health administrative services organization;

(c) Create best practices guidelines by July 1, 2023, for deployment of appropriate and available crisis response services by behavioral health administrative services organizations in coordination with designated 988 contact hubs to assist 988 hotline callers to minimize nonessential reliance on emergency room services and the use of law enforcement, considering input from relevant stakeholders and recommendations made by the crisis response improvement strategy committee created under RCW 71.24.892;

(d) Develop procedures to allow appropriate information sharing and communication between and across crisis and emergency response systems for the purpose of real-time crisis care coordination including, but not limited to, deployment of crisis and outgoing services, follow-up care, and linked, flexible services specific to crisis response; and

(e) Establish guidelines to appropriately serve high-risk populations who request crisis services. The authority shall design these guidelines to promote behavioral health equity for all populations with attention to circumstances of race, ethnicity, gender, socioeconomic status, sexual orientation, and geographic location, and include components such as training requirements for call response workers, policies for transferring such callers to an appropriate specialized center or subnetwork within or external to the national suicide prevention lifeline network, and procedures for referring persons who access the 988 contact hubs to linguistically and culturally competent care.

(8) The department shall monitor trends in 988 crisis hotline caller data, as reported by designated 988 contact hubs under subsection (4)(b)(ix) of this section, and submit an annual report to the governor and the appropriate committees of the legislature summarizing the data and trends beginning December 1, 2027.

(9) Subject to authorization by the national 988 administrator and the availability of amounts appropriated for this specific purpose, any Washington state subnetwork of the 988 crisis hotline dedicated to the crisis assistance needs of American Indian and Alaska Native persons shall offer services by text, chat, and other similar methods of communication to the same extent as does the general 988 crisis hotline. The department shall coordinate with the substance abuse and mental health services administration for the authorization.

The traumatic brain injury account is created in the state treasury. The fee imposed under RCW 46.63.110(7)(c) must be deposited into the account. Moneys in the account may be spent only after appropriation, and may be used only to support the activities in the statewide traumatic brain injury comprehensive plan, to provide a public awareness campaign and services relating to traumatic brain injury under RCW 74.31.040 and 74.31.050, for information and referral services, and for costs of required department staff who are providing support for the council under RCW 74.31.020 and 74.31.030. The secretary of the department of social and health services has the authority to administer the funds. The department must make every effort to disburse the incremental revenue that is the result of the fee increased under RCW 46.63.110(7)(c) in a diverse manner to include rural areas of the state. During the 2025-2027 fiscal biennium, moneys in the account may also be transferred into the state general fund.

**Sec. 970.** RCW 74.39A.032 and 2018 c 225 s 3 are each amended to read as follows:

(1) The department shall establish in rule a new medicaid payment system for contracted assisted living, adult residential care, and enhanced adult residential care. Beginning July 1, 2019, payments for these contracts must be based on the new methodology which must be phased-in to full implementation according to funding made available by the legislature for this purpose. The new payment system must have these components: Client care, operations, and room and board.

(2) Client care is the labor component of the system and must include variables to recognize the time and intensity of client care and services, staff wages, and associated fringe benefits. The wage variable in the client care component must be adjusted according to service areas based on labor costs.

(a) The time variable is used to weight the client care payment to client acuity and must be scaled according to the classification levels utilized in the department's assessment tool. The initial system shall establish a variable for time using the residential care time study conducted in 2001 and the department's corresponding estimate of the average staff hours per client by job position.

(b) The wage variable shall include recognition of staff positions needed to perform the functions required by contract, including nursing services. Data used to establish the wage variable must be adjusted so that no baseline wage is below the state minimum in effect at the time of implementation. The wage variable is a blended wage based on the federal bureau of labor statistics wage data and the distribution of time according to staff position. Blended wages are established for each county and then counties are arrayed from highest to lowest. Service areas are established and the median blended wage in each service area becomes the wage variable for all the assigned counties in that service area. The system must have no less than two service areas, one of which shall be a high labor cost service area and shall include counties at or above the ninety-fifth percentile in the array of blended wages.

(c) The fringe benefit variable recognizes employee benefits and payroll taxes. The factor to calculate the percentage of fringe benefits shall be established using the statewide nursing facility cost ratio of benefits and payroll taxes to in-house wages.

(3) The operations component must recognize costs that are allowable under federal medicaid rules for the federal matching percentage. The operations component is calculated at ninety percent or greater of the statewide median nursing facility costs associated with the following:

- (a) Supplies;
- (b) Nonlabor administrative expenses;
- (c) Staff education and in-service training; and
- (d) Operational overhead including licenses, insurance, and business and ~~((occupational~~ occupation taxes.

(4) The room and board component recognizes costs that do not qualify for federal financial participation under medicaid rules by compensating providers for the medicaid client's share of raw food and shelter costs including expenses related to the physical plant such as property taxes, property and liability insurance, debt service, and major capital repairs. The room and board component is subject to the department's and the Washington state health care authority's rules related to client financial responsibility.

(5) Subsections (2) and (3) of this section establish the rate for medicaid covered services. Subsection (4) of this section establishes the rate for nonmedicaid covered services.

(6) The rates paid on July 1, 2019, shall be based on data from the 2016 calendar year, except for the time variable under subsection (2)(a) of this section. The client care and operations components must be rebased in even-numbered years. Beginning with rates paid on July 1, 2020, wages, benefits and taxes, and operations costs shall be rebased using 2018 data. Notwithstanding any other provision of this section, the department shall not implement the scheduled rebase of assisted living facility rates that would have otherwise taken effect

July 1, 2026. Instead, it is the intent of the legislature that a special, one-time rebase of assisted living facility rates shall occur on July 1, 2027, utilizing the cost data originally intended for the July 1, 2026, rebase. This one-time rebase shall not constitute a permanent modification of the biennial rebasing schedule established under this section. Following the special rebase for rates effective July 1, 2027, the department shall resume adherence to the existing statutory biennial rebasing schedule established in this section.

(7) Beginning July 1, 2020, the room and board component shall be updated annually subject to the department's and the Washington state health care authority's rules related to client financial responsibility.

**Sec. 971.** RCW 74.46.581 and 2016 c 131 s 7 are each amended to read as follows:

Beginning July 1, 2016, all receipts from the system of financial penalties for facilities out of compliance with minimum staffing standards, as described within RCW 74.42.360, must be deposited into the account. Only the secretary, or the secretary's designee, may authorize expenditures from the account. The account is subject to allotment procedures under chapter 43.88 RCW, but an appropriation is not required for expenditures. The department shall use the special account only for technical assistance for nursing facilities, specialized training for nursing facilities, or an increase to the quality enhancement established in RCW 74.46.561, or as necessary for the reconciliation and settlement process, which requires deposits and withdrawals to complete both the preliminary and final settlement net receipt amounts for this account. Notwithstanding any restrictions in this section, for the fiscal biennium beginning July 1, 2025, and ending June 30, 2027, the department may expend funds from the nursing facility quality enhancement account for any purpose deemed necessary by the department to support its operations, programs, and responsibilities. This expanded authority expires June 30, 2027, after which expenditures shall be exclusively for the purposes described in this section.

A project may not be reviewed under the process created in this section if the local government within whose geographical jurisdiction the project will be located determines that the project does not meet applicable flood risk reduction requirements, or otherwise determines that the project raises concerns regarding public health and safety, and the local government provides timely notice of its determination to the department.

(c) (i) With regard to cultural resources, a project applicant or funding agency must review the project with the department of archaeology and historic preservation and complete any required site surveys before the project applicant files an application under this section. A project applicant must document consistency in the application with applicable cultural resource protection requirements.

(ii) A project applicant must provide a copy of its application to the department of archaeology and historic preservation, and to affected federally recognized tribes, no fewer than 60 days before the application may be filed with the department.

Such consent may be withheld upon a determination that the project may adversely impact cultural resources. Notice of such a determination must be provided to the department by the affected federally recognized tribe in a timely manner.

(iv) In the event of an inadvertent discovery of cultural resources or human remains, the project applicant shall immediately notify the department, the department of archaeology and historic preservation, and affected federally recognized tribes. Projects approved for inclusion in this pilot program and that are reviewed and approved according to the provisions of this section are not subject to the requirements of RCW 43.21C.030(2) and are not required to obtain local or state permits or approvals other than the permit issued under this section, except permits minimally necessary as a requirement of participation in a federal program.

(4)(a) A permit under this chapter is required for projects that meet the criteria of subsection (2) of this section and must be reviewed and, if appropriate, approved under this section. (ii) Within 25 days of receiving a copy of the complete project application, the local government within whose geographical jurisdiction the project would be located, any member of the multiagency permitting team, or a potentially affected federally recognized tribe may request that the department place the application on hold and immediately convene a meeting with the requesting entity and the multiagency permitting team to review and evaluate the project.

(iii) All parties involved in this review process shall work in good faith to expedite permitting and any party with concerns shall provide the basis for its concerns and potential pathways to address those concerns. Any party objecting to expedited permitting shall provide a written basis for its objections to the department or the multiagency permitting team.

(iv) The multiagency review process may not exceed 45 days from the request for review.

(c) The multiagency permitting team consists of representatives of the local government in whose geographical jurisdiction the project would be located, the department, the department of ecology, the recreation and conservation office, the governor's salmon recovery office, the department of natural resources, and, when the project in question is located in the Puget Sound basin, the Puget Sound partnership. For projects located in the Puget Sound basin, meetings of the multiagency permitting team must be facilitated by the Puget Sound partnership. All other meetings of the multiagency permitting team must be facilitated by the recreation and conservation office.

(d) The department or, where applicable, the multiagency permitting team, shall exclude any project from the review and approval process created by this section if it concludes that the project may adversely impact human health, public safety, or the environment, or that the project's scope or complexity renders it inappropriate for expedited review.

(e) If the department or the multiagency permitting team determines that the review and approval process created by this section is not appropriate for the proposed project, the department shall notify the applicant, the appropriate local government, and potentially affected federally recognized tribes of its determination. The applicant may reapply for approval of the project under generally applicable review and approval processes. (f) Any person aggrieved by the approval, denial, conditioning, or modification of a permit under this section may appeal the decision as provided in RCW 77.55.021(8).

(g) The department shall, in a timely manner, provide a copy of any application seeking review under this section and shall thereafter coordinate with affected federally recognized tribes as it implements this section.

(5) No local or state government may require permits or charge fees other than the permit issued under this section, except permits minimally necessary as a requirement of participation in a federal program, for fish recovery pilot projects that meet the criteria of subsection (2) of this section and that are reviewed and approved according to the provisions of this section.

(6) No civil liability may be imposed by any court on the state or its officers and employees for any adverse impacts resulting from a fish recovery stimulus pilot project permitted by the department under the criteria of this section except upon proof of gross negligence or willful or wanton misconduct.

## **PART XII HUMAN SERVICES**

**Sec. 1201.** 2024 c 376 s 201 (uncodified) is amended to read as follows:  
**FOR THE DEPARTMENT OF SOCIAL AND HEALTH SERVICES**

(1) The appropriations to the department of social and health services in this act shall be expended for the programs and in the amounts specified in this act. Appropriations made in this act to the department of social and health services shall initially be allotted as required by this act. Subsequent allotment modifications shall not include transfers of moneys between sections of this act except as expressly provided in this act, nor shall allotment modifications permit moneys that are provided solely for a specified purpose to be used for other than that purpose.

(2) The department of social and health services shall not initiate any services that require expenditure of state general fund moneys unless expressly authorized in this act or other law. The department may seek, receive, and spend, under RCW 43.79.260 through 43.79.282, federal moneys not anticipated in this act as long as the federal funding does not require expenditure of state moneys for the program in excess of amounts anticipated in this act. If the department receives unanticipated unrestricted federal moneys, those moneys shall be spent for services authorized in this act or in any other legislation providing appropriation authority, and an equal amount of appropriated state general fund moneys shall lapse. Upon the lapsing of any moneys under this subsection, the office of financial management shall notify the legislative fiscal committees. As used in this subsection, "unrestricted federal moneys" includes block grants and other funds that federal law does not require to be spent on specifically defined projects or matched on a formula basis by state funds.

(3) The legislature finds that medicaid payment rates, as calculated by the department pursuant to the appropriations in this act, bear a reasonable relationship to the costs incurred by efficiently and economically operated facilities for providing quality services and will be sufficient to enlist enough providers so that care and services are available to the extent that such care and services are available to the general population in the geographic area. The legislature finds that cost reports, payment data from the federal government, historical utilization, economic data, and clinical input constitute reliable data upon which to determine the payment rates.

(4) The department shall to the maximum extent practicable use the same system for delivery of spoken-language interpreter services for social services appointments as the one established for medical appointments in the health care authority. When contracting directly with an individual to deliver spoken language interpreter services, the department shall only contract with language access providers who are working at a location in the state and who

are state-certified or state-authorized, except that when such a provider is not available, the department may use a language access provider who meets other certifications or standards deemed to meet state standards, including interpreters in other states.

(5) Information technology projects or investments and proposed projects or investments impacting time capture, payroll and payment processes and systems, eligibility, case management, and authorization systems within the department of social and health services are subject to technical oversight by the office of the chief information officer.

(6)(a) The department shall facilitate enrollment under the medicaid expansion for clients applying for or receiving state funded services from the department and its contractors. Prior to open enrollment, the department shall coordinate with the health care authority to provide referrals to the Washington health benefit exchange for clients that will be ineligible for medicaid.

(b) To facilitate a single point of entry across public and medical assistance programs, and to maximize the use of federal funding, the health care authority, the department of social and health services, and the health benefit exchange will coordinate efforts to expand HealthPlanfinder access to public assistance and medical eligibility staff. The department shall complete medicaid applications in the HealthPlanfinder for households receiving or applying for public assistance benefits.

(7) The health care authority, the health benefit exchange, the department of social and health services, the department of health, the department of corrections, and the department of children, youth, and families shall work together within existing resources to establish the health and human services enterprise coalition (the coalition). The coalition, led by the health care authority, must be a multi-organization collaborative that provides strategic direction and federal funding guidance for projects that have cross-organizational or enterprise impact, including information technology projects that affect organizations within the coalition. The office of the chief information officer shall maintain a statewide perspective when collaborating with the coalition to ensure that projects are planned for in a manner that ensures the efficient use of state resources, support the adoption of a cohesive technology and data architecture, and maximize federal financial participation. The work of the coalition is subject to the conditions, limitations, and review provided in section 701 of this act.

(8)(a) The appropriations to the department of social and health services in this act must be expended for the programs and in the amounts specified in this act. However, after May 1, ~~((2024))2025~~, unless prohibited by this act, the department may transfer general fund—state appropriations for fiscal year ~~((2024))2025~~ among programs and subprograms after approval by the director of the office of financial management. However, the department may not transfer state appropriations that are provided solely for a specified purpose except as expressly provided in (b) of this subsection.

(b) To the extent that transfers under (a) of this subsection are insufficient to fund actual expenditures in excess of fiscal year ~~((2024))2025~~ caseload forecasts and utilization assumptions in the long-term care, developmental disabilities, and public assistance programs, the department may transfer state appropriations that are provided solely for a specified purpose. The department may not transfer funds, and the director of the office of financial management may not approve the transfer, unless the transfer is consistent with the objective of conserving, to the maximum extent possible, the expenditure of state funds. The director of the office of financial management shall notify the appropriate fiscal committees of the legislature in writing seven days prior to approving any allotment modifications or transfers under this subsection. The written notification shall include a narrative explanation and justification of the changes, along with expenditures and allotments by budget unit and appropriation, both before and after any allotment modifications or transfers.

(9) The department may not transfer appropriations for the developmental disabilities program to any other program of the department of social and health services ~~((, or between subprograms of the developmental disabilities program itself))~~. The department may not transfer appropriations from the developmental disabilities community services subprogram to the developmental disabilities institutional services subprogram.

However, after May 1, ~~((2024))~~2025, unless prohibited by this act, the authority may transfer general fund—state appropriations for fiscal year ~~((2024))~~2025 among programs after approval by the director of the office of financial management. To the extent that appropriations in this section are insufficient to fund actual expenditures in excess of caseload forecast and utilization assumptions, the authority may transfer general fund—state appropriations for fiscal year ~~((2024))~~2025 that are provided solely for a specified purpose. The authority may not transfer funds, and the director of the office of financial management shall not approve the transfer, unless the transfer is consistent with the objective of conserving, to the maximum extent possible, the expenditure of state funds. The director of the office of financial management shall notify the appropriate fiscal committees of the legislature in writing seven days prior to approving any allotment modifications or transfers under this subsection. The written notification must include a narrative explanation and justification of changes, along with expenditures and allotments by budget unit and appropriation, both before and after any allotment modifications and transfers.

The appropriations in this section are subject to the following conditions and limitations:

(1) The authority shall submit an application to the centers for medicare and medicaid services to renew the 1115 demonstration waiver for an additional five years as described in subsections (2), (3), and (4) of this section. The authority may not accept or expend any federal funds received under an 1115 demonstration waiver except as described in this section unless the legislature has appropriated the federal funding. To ensure compliance with legislative requirements and terms and conditions of the waiver, the authority shall implement the renewal of the 1115 demonstration waiver and reporting requirements with oversight from the office of financial management. The legislature finds that appropriate management of the renewal of the 1115 demonstration waiver as set forth in subsections (2), (3), and (4) of this section requires sound, consistent, timely, and transparent oversight and analytic review in addition to lack of redundancy with other established measures. The patient must be considered first and foremost in the implementation and execution of the demonstration waiver. To accomplish these goals, the authority shall develop consistent performance measures that focus on population health and health outcomes. The authority shall limit the number of projects that accountable communities of health may participate in under initiative 1 to a maximum of six and shall seek to develop common performance measures when possible. The joint select committee on health care oversight will evaluate the measures chosen: (a) For effectiveness and appropriateness; and (b) to provide patients and health care providers with significant input into the implementation of the demonstration waiver to promote improved population health and patient health outcomes. In cooperation with the department of social and health services, the authority shall consult with and provide notification of work on applications for federal waivers, including details on waiver

duration, financial implications, and potential future impacts on the state budget to the joint select committee on health care oversight prior to submitting these waivers for federal approval. Prior to final approval or acceptance of funds by the authority, the authority shall submit the special terms and conditions as submitted to the centers for medicare and medicaid services and the anticipated budget for the duration of the renewed waiver to the governor, the joint select committee on health care, and the fiscal committees of the legislature. By federal standard any programs created or funded by this waiver do not create an entitlement. The demonstration period for the waiver as described in subsections (2), (3), and (4) of this section begins July 1, 2023.

(2) (a) (~~(\$342,398,000)~~) \$394,249,000 of the general fund—federal appropriation and (~~(\$213,592,000)~~) \$195,181,000 of the general fund—local appropriation are provided solely for accountable communities of health described in initiative 1 of the 1115 demonstration waiver and this is the maximum amount that may be expended for this purpose. In renewing this initiative, the authority shall consider local input regarding community needs and shall limit total local projects to no more than six. To provide transparency to the appropriate fiscal committees of the legislature, the authority shall provide fiscal staff of the legislature query ability into any database of the fiscal intermediary that authority staff would be authorized to access. The authority shall not supplement the amounts provided in this subsection with any general fund—state moneys appropriated in this section or any moneys that may be transferred pursuant to subsection (1) of this section. The director shall report to the fiscal committees of the legislature all expenditures under this subsection and provide such fiscal data in the time, manner, and form requested by the legislative fiscal committees.

(b) (~~(\$467,787,000)~~) \$420,677,000 of the general fund—federal appropriation and (~~(\$191,068,000)~~) \$171,826,000 of the general fund—private/local appropriation are provided solely for the medicaid quality improvement program and this is the maximum amount that may be expended for this purpose. Medicaid quality improvement program payments do not count against the 1115 demonstration waiver spending limits and are excluded from the waiver's budget neutrality calculation. The authority may provide medicaid quality improvement program payments to apple health managed care organizations and their partnering providers as they meet designated milestones. Partnering providers and apple health managed care organizations must work together to achieve medicaid quality improvement program goals according to the performance period timelines and reporting deadlines as set forth by the authority. The authority may only use the medicaid quality improvement program to support initiatives 1, 2, and 3 as described in the 1115 demonstration waiver and may not pursue its use for other purposes. Any programs created or funded by the medicaid quality improvement program do not constitute an entitlement for clients or providers. The authority shall not supplement the amounts provided in this subsection with any general fund—state, general fund—federal, or general fund—local moneys appropriated in this section or any moneys that may be transferred pursuant to subsection (1) of this section. The director shall report to the joint select committee on health care oversight not less than quarterly on financial and health outcomes. The director shall report to the fiscal committees of the legislature all expenditures under this subsection and shall provide such fiscal data in the time, manner, and form requested by the legislative fiscal committees.

(c) In collaboration with the accountable communities of health, the authority will submit a report to the governor and the joint select committee on health care oversight describing how each of the accountable community of health's work aligns with the community needs assessment no later than December 1, 2023.

(d) Performance measures and payments for accountable communities of health shall reflect accountability measures that demonstrate progress toward transparent, measurable, and meaningful goals that have an impact on improved population health and improved health outcomes, including a path to financial sustainability. While these goals may have variation to account for unique community demographics, measures should be standardized when possible.

(3) (~~(\$87,665,000)~~) \$34,118,000 of the general fund—federal appropriation and (~~(\$87,666,000)~~) \$34,126,000 of the general fund—local appropriation are provided solely for long-term support services as described in initiative 2 of the 1115 demonstration waiver as well as administrative expenses for initiative 3 and this is the maximum amount that may be expended for this purpose. The authority shall contract with and provide funding to the department of social and health services to administer initiative 2. The director in cooperation with the secretary of the department of social and health services shall report to the office of financial management all of the expenditures of this section and shall provide such fiscal data in the time, manner, and form requested. The authority shall not supplement the amounts provided in this subsection with any general fund—state moneys appropriated in this section or any moneys that may be transferred pursuant to subsection (1) of this section.

(4) (a) (~~(\$46,450,000)~~) \$61,782,000 of the general fund—federal appropriation and (~~(\$21,432,000)~~) \$28,451,000 of the general fund—local appropriation are provided solely for supported housing and employment services described in initiative 3a and 3b of the 1115 demonstration waiver and this is the maximum amount that may be expended for this purpose. Under this initiative, the authority and the department of social and health services shall ensure that allowable and necessary services are provided to eligible clients as identified by the department or its third-party administrator. The authority and the department, in consultation with the medical assistance expenditure forecast work group, shall ensure that reasonable reimbursements are established for services deemed necessary within an identified limit per individual. The authority shall not supplement the amounts provided in this

subsection with any general fund—state moneys appropriated in this section or any moneys that may be transferred pursuant to subsection (1) of this section. The director shall report to the joint select committee on health care oversight no less than quarterly on financial and health outcomes. The director shall also report to the fiscal committees of the legislature all of the expenditures of this subsection and shall provide such fiscal data in the time, manner, and form requested by the legislative fiscal committees.

The director shall report to the joint select committee on health care oversight no less than quarterly on financial and health outcomes. The director shall also report to the fiscal committees of the legislature all of the expenditures of this subsection and shall provide such fiscal data in the time, manner, and form requested by the legislative fiscal committees.

(c) The director shall report to the joint select committee on health care oversight no less than quarterly on utilization and caseload statistics for both supportive housing and employment services and its progress toward increasing uptake and availability for these services.

(5) \$1,432,000 of the general fund—state appropriation for fiscal year 2024 and (~~(\$3,008,000)~~) \$250,000 of the general fund—state appropriation for fiscal year 2025 are provided solely for supported employment services and \$1,478,000 of the general fund—state appropriation for fiscal year 2024 and (~~(\$3,162,000)~~) \$750,000 of the general fund—state appropriation for fiscal year 2025 are provided solely for supported housing services, similar to the services described in initiatives 3a and 3b of the 1115 demonstration waiver to individuals who are ineligible for medicaid. Under these initiatives, the authority and the department of social and health services shall ensure that allowable and necessary services are provided to eligible clients as identified by the authority or its third-party administrator. Before authorizing services, eligibility for initiative 3a or 3b of the 1115 demonstration waiver must first be determined.

(6) Sufficient amounts are appropriated in this subsection to implement the medicaid expansion as defined in the social security act, section 1902(a)(10)(A)(i)(VIII).

(7) The legislature finds that medicaid payment rates, as calculated by the health care authority pursuant to the appropriations in this act, bear a reasonable relationship to the costs incurred by efficiently and economically operated facilities for providing quality services and will be sufficient to enlist enough providers so that care and services are available to the extent that such care and services are available to the general population in the geographic area. The legislature finds that the cost reports, payment data from the federal government, historical utilization, economic data, and clinical input constitute reliable data upon which to determine the payment rates.

(8) Based on quarterly expenditure reports and caseload forecasts, if the health care authority estimates that expenditures for the medical assistance program will exceed the appropriations, the health care authority shall take steps including but not limited to reduction of rates or elimination of optional services to reduce expenditures so that total program costs do not exceed the annual appropriation authority.

(9) In determining financial eligibility for medicaid-funded services, the health care authority is authorized to disregard recoveries by Holocaust survivors of insurance proceeds or other assets, as defined in RCW 48.104.030.

(10) The legislature affirms that it is in the state's interest for Harborview medical center to remain an economically viable component of the state's health care system.

(11) When a person is ineligible for medicaid solely by reason of residence in an institution for mental diseases, the health care authority shall provide the person with the same benefits as he or she would receive if eligible for medicaid, using state-only funds to the extent necessary.

(12) \$4,261,000 of the general fund—state appropriation for fiscal year 2024, \$4,261,000 of the general fund—state appropriation for fiscal year 2025, and \$8,522,000 of the general fund—federal appropriation are provided solely for low-income disproportionate share hospital payments.

(13) Within the amounts appropriated in this section, the health care authority shall provide disproportionate share hospital payments to hospitals that provide services to children in the children's health program who are not eligible for services under Title XIX or XXI of the federal social security act due to their citizenship status.

(14) \$7,000,000 of the general fund—federal appropriation is provided solely for supplemental payments to nursing homes operated by public hospital districts. The public hospital district shall be responsible for providing the required nonfederal match for the supplemental payment, and the payments shall not exceed the maximum allowable under federal rules. It is the legislature's intent that the payments shall be supplemental to and shall not in any way offset or reduce the payments calculated and provided in accordance with part E of chapter 74.46 RCW. It is the legislature's further intent that costs otherwise allowable for rate-setting and settlement against payments under chapter 74.46 RCW shall not be disallowed solely because such costs have been paid by revenues retained by the nursing home from these supplemental payments. The supplemental payments are subject to retrospective interim and final cost settlements based on the nursing homes' as-filed and final medicare

cost reports. The timing of the interim and final cost settlements shall be at the health care authority's discretion. During either the interim cost settlement or the final cost settlement, the health care authority shall recoup from the public hospital districts the supplemental payments that exceed the medicaid cost limit and/or the medicare upper payment limit. The health care authority shall apply federal rules for identifying the eligible incurred medicaid costs and the medicare upper payment limit.

(15) The health care authority shall continue the inpatient hospital certified public expenditures program for the 2023-2025 fiscal biennium. The program shall apply to all public hospitals, including those owned or operated by the state, except those classified as critical access hospitals or state psychiatric institutions. The health care authority shall submit reports to the governor and legislature by November 1, 2023, and by November 1, 2024, that evaluate whether savings continue to exceed costs for this program. If the certified public expenditures (CPE) program in its current form is no longer cost-effective to maintain, the health care authority shall submit a report to the governor and legislature detailing cost-effective alternative uses of local, state, and federal resources as a replacement for this program. During fiscal year 2024 and fiscal year 2025, hospitals in the program shall be paid and shall retain 100 percent of the federal portion of the allowable hospital cost for each medicaid inpatient fee-for-service claim payable by medical assistance and 100 percent of the federal portion of the maximum disproportionate share hospital payment allowable under federal regulations. For the purpose of determining the amount of any state grant under this subsection, payments will include the federal portion of medicaid program supplemental payments received by the hospitals. Inpatient medicaid payments shall be established using an allowable methodology that approximates the cost of claims submitted by the hospitals. Payments made to each hospital in the program in each fiscal year of the biennium shall be compared to a baseline amount. The baseline amount will be determined by the total of (a) the inpatient claim payment amounts that would have been paid during the fiscal year had the hospital not been in the CPE program based on the reimbursement rates developed, implemented, and consistent with policies approved in the 2023-2025 biennial operating appropriations act and in effect on July 1, 2015, (b) one-half of the indigent assistance disproportionate share hospital payment amounts paid to and retained by each hospital during fiscal year 2005, and (c) all of the other disproportionate share hospital payment amounts paid to and retained by each hospital during fiscal year 2005 to the extent the same disproportionate share hospital programs exist in the 2019-2021 fiscal biennium. If payments during the fiscal year exceed the hospital's baseline amount, no additional payments will be made to the hospital except the federal portion of allowable disproportionate share hospital payments for which the hospital can certify allowable match. If payments during the fiscal year are less than the baseline amount, the hospital will be paid a state grant equal to the difference between payments during the fiscal year and the applicable baseline amount. Payment of the state grant shall be made in the applicable fiscal year and distributed in monthly payments. The grants will be recalculated and redistributed as the baseline is updated during the fiscal year. The grant payments are subject to an interim settlement within 11 months after the end of the fiscal year. A final settlement shall be performed. To the extent that either settlement determines that a hospital has received funds in excess of what it would have received as described in this subsection, the hospital must repay the excess amounts to the state when requested.

(16) The health care authority shall seek public-private partnerships and federal funds that are or may become available to provide ongoing support for outreach and education efforts under the federal children's health insurance program reauthorization act of 2009.

(17) The health care authority shall target funding for maternity support services towards pregnant women with factors that lead to higher rates of poor birth outcomes, including hypertension, a preterm or low birth weight birth in the most recent previous birth, a cognitive deficit or developmental disability, substance abuse, severe mental illness, unhealthy weight or failure to gain weight, tobacco use, or African American or Native American race. The health care authority shall prioritize evidence-based practices for delivery of maternity support services. To the extent practicable, the health care authority shall develop a mechanism to increase federal funding for maternity support services by leveraging local public funding for those services.

(18) The authority shall submit reports to the governor and the legislature by September 15, 2023, and no later than September 15, 2024, that delineate the number of individuals in medicaid managed care, by carrier, age, gender, and eligibility category, receiving preventative services and vaccinations. The reports should include baseline and benchmark information from the previous two fiscal years and should be inclusive of, but not limited to, services recommended under the United States preventative services task force, advisory committee on immunization practices, early and periodic screening, diagnostic, and treatment (EPSDT) guidelines, and other relevant preventative and vaccination medicaid guidelines and requirements.

(20) Sufficient amounts are appropriated in this section for the authority to provide an adult dental benefit.

(21) The health care authority shall coordinate with the department of social and health services to provide referrals to the Washington health benefit exchange for clients that will be ineligible for medicaid.

(22) To facilitate a single point of entry across public and medical assistance programs, and to maximize the use of federal funding, the health care authority, the department of social and health services, and the health benefit exchange will coordinate efforts to expand HealthPlanfinder access to public assistance and medical eligibility staff. The health care authority shall complete medicaid applications in the HealthPlanfinder for households receiving or applying for medical assistance benefits.

(23) \$90,000 of the general fund—state appropriation for fiscal year 2024, \$90,000 of the general fund—state appropriation for fiscal year 2025, and \$180,000 of the general fund—federal appropriation are provided solely to continue operation by a nonprofit organization of a toll-free hotline that assists families to learn about and enroll in the apple health for kids program.

(24) Within the amounts appropriated in this section, the authority shall reimburse for primary care services provided by naturopathic physicians.

(27) The authority shall use revenue appropriated from the dedicated cannabis account for contracts with community health centers under RCW 69.50.540 in lieu of general fund—state payments to community health centers for services provided to medical assistance clients, and it is the intent of the legislature that this policy will be continued in subsequent fiscal biennia.

(28) Beginning no later than July 1, 2018, for any service eligible under the medicaid state plan for encounter payments, managed care organizations at the request of a rural health clinic shall pay the full published encounter rate directly to the clinic. At no time will a managed care organization be at risk for or have any right to the supplemental portion of the claim. Payments will be reconciled on at least an annual basis between the managed care organization and the authority, with final review and approval by the authority.

(12) Within the amounts appropriated in this section, funding is provided for the authority to develop and phase in intensive mental health services for high needs youth consistent with the settlement agreement in *T.R. v. Dreyfus and Porter*.

(13)(a) The authority must establish minimum and maximum funding levels for all reserves allowed under behavioral health administrative service organization contracts and include contract language that clearly states the requirements and limitations. The reserve levels must be informed by the types of risk carried by behavioral health administrative service organizations for mandatory services and also consider reasonable levels of operating reserves. The authority must monitor and ensure that behavioral health administrative service organization reserves do not exceed maximum levels. The authority must monitor revenue and expenditure reports and must require a behavioral health administrative service organization to submit a corrective action plan on how it will spend its excess reserves within a reasonable period of time, when its reported reserves exceed maximum levels established under the contract. The authority must review and approve such plans and monitor to ensure compliance. If the authority determines that a behavioral health administrative service organization has failed to provide an adequate excess reserve corrective action plan or is not complying with an approved plan, the authority must reduce payments to the entity in accordance with remedial actions provisions included in the contract. These reductions in payments must continue until the authority determines that the entity has come into substantial compliance with an approved excess reserve corrective action plan. The authority must submit to the office of financial management and the appropriate committees of the legislature, each December of the biennium, the minimum and maximum reserve levels established in contract for each of the behavioral health administrative service organizations for the prior fiscal year and the actual reserve levels reported at the end of the fiscal year.

The authority, in partnership with the north sound behavioral health administrative services organization, must provide a report to the appropriate committees of the legislature by December 31, 2024, describing the impacts of this pilot program to the regional crisis continuum of care. The report must also include information on which specific legislative provisos north sound behavioral health administrative services organization repurposed funding from under this subsection and for what purpose those funds were used.

The department of corrections and the authority must develop a memorandum of understanding for department of corrections offenders on active supervision who are medicaid eligible and meet medical necessity for outpatient substance use disorder treatment. The agreement will ensure that treatment services provided are coordinated, do not result in duplication of services, and maintain access and quality of care for the individuals being served. The authority must provide all necessary data, access, and reports to the department of corrections for all department of corrections offenders that receive medicaid paid services.

If a county is not interested in administering the funds, the authority shall contract with behavioral health entities to administer these funds consistent with the plans approved by local panels pursuant to RCW 71.24.580(5)(b). Funding from the criminal justice treatment account may be used to provide treatment and support services through the conclusion of an individual's treatment plan to individuals participating in a drug court program as of February 24, 2021, if that individual wishes to continue treatment following dismissal of charges they were facing under RCW 69.50.4013(1). (b) Within these amounts, the health care authority shall convene representatives from medicaid managed care organizations, behavioral health administrative organizations, private insurance carriers, self-insured organizations, crisis providers, and the office of the insurance commissioner to assess gaps in the current funding model for crisis and co-response services and recommend options for addressing these gaps including, but not limited to, an alternative funding model for crisis and co-response services. The assessment must consider available data to determine to what extent the costs of crisis and co-response services for clients of private insurance carriers, medicaid managed care organizations, and individuals enrolled in medicaid fee-for-service are being subsidized through state funded behavioral health administrative services organization contracts. The analysis shall examine crisis and co-response services provided by mobile crisis teams and co-response teams as well as facility-based services such as crisis triage and crisis stabilization units. In the development of an alternative funding model, the authority and office of the insurance commissioner must explore mechanisms that: (i) Determine the annual cost of operating crisis and co-response services and collect a proportional share of the program cost from each health insurance carrier; (ii) differentiate between crisis and co-response services eligible for medicaid funding from other nonmedicaid eligible activities; and (iii) simplify administrative complexity of billing for service providers such as the use of a third party administrator. The authority must submit a preliminary report to the office of financial management and the appropriate committees of the legislature by December 1, 2023, and a final report by December 1, 2024. Additionally, if the department intends to propose placement of a sexually violent predator within one mile, as measured in any direction, of the exterior boundary of the reservation of any federally recognized Indian tribe, the department must first consult with the tribe. When the department makes a sexually violent predator placement recommendation to a court, the department must provide the court with the results of the community feedback and tribal consultation, if applicable. As part of the pilot project, the department must also notify any local law enforcement agency whose jurisdiction is within one mile of the proposed placement. The pilot project expires June 30, 2027.

(b) The department must report to the appropriate policy and fiscal committees of the legislature on the pilot project as follows:

(i) By October 1, 2025, the department must provide a preliminary report to the appropriate policy and fiscal committees of the legislature on the location of any proposed new placements and the community notification and tribal consultation processes.

(3) As a condition of expending appropriations in this section for administration of the program for conditional release of sexually violent predators to less restrictive alternatives, the department must consider the following additional criteria when developing or issuing new requests for proposals: The distance of the housing facility from the reservation of any federally recognized Indian tribe; and for any housing facility within one mile, as measured in any direction, of the exterior boundary of the reservation of any federally recognized

Indian tribe, whether the housing provider has consulted with the tribe and whether that tribe would support the placement."

### POINT OF ORDER

Representative Stonier requested a scope and object ruling on amendment (927) to the striking amendment (911) to ENGROSSED SUBSTITUTE SENATE BILL NO. 5167.

### SPEAKER'S RULING

"The bill before us, Engrossed Substitute Senate Bill 5167, is the operating budget. It makes appropriations for the 2025-27 biennium.

Amendment (927) is an amendment to striking amendment (911). Amendment (927) makes changes to the appropriations to the Special Commitment Program administered by the Department of Social and Health Services. However, the amendment also requires the Department to modify its existing notification process for persons for whom it proposes a conditional release and to consider additional criteria when administering this program. Additionally, the amendment imposes upon the Department a new consulting requirement for certain proposed placements and an obligation to provide courts with the results of community feedback and consultations when making placement recommendations.

One of the factors used to determine whether an appropriations bill contains impermissible substantive law is whether the policy at issue defines individual rights. Here, amendment (927) impacts individual rights under Chapter 71.09 RCW. The scope and object of a budget bill does not extend to changes in substantive law.

The Speaker therefore finds and rules that the amendment is beyond the scope and object of the underlying bill.

The point of order is well taken."
