INTRODUCTION OF SPECIAL GUESTS

PERSONAL PRIVILEGE

Senator Fraser: “Thank you Mr. President. I would just like to note that this is an historic day today. It’s the big anniversary of the big Nisqually earthquake, when we suddenly evacuated the Legislative Building for two years. Many of us present here were present that day. We remember the great shaking, the great noise. At the time I thought the great noise was rocks grinding under the ground. It turned out, it was the pieces of the dome moving around. The dome finally lifted up to zero gravity and started moving. Fortunately the earthquake stopped or we could have had a succession in government problem but it was a great irony at the time. We were having a huge debate on how to upgrade the Legislative Building. Would it be half of the building at a time. Would it be a floor at a time? But, no, we couldn’t evacuate the whole building at a time, and in an instant we did it. Fortunately the building is much safer today but I’d just like to note that this is earthquake day. Thank you.”

PERSONAL PRIVILEGE

Senator Eide: “Well, not only is it an historic day in regarding the earthquake. It is an historic day in my life. It’s my thirty-eighth wedding anniversary. So, yes we were on the floor when we had the, it was my twenty-fifth wedding anniversary, when we had the earthquake on this floor and it was rather scary. But I wanted to say, first of all to my husband, I love you dearly and thank you for putting up with me for all these years. You know what? He’s made life fun and it has gone by so fast and I wouldn’t be able to stand here today and be in the Legislature as long as I have if it hadn’t been for him. So, you know, I feel blessed. I have to tell you a little bit, a story of how we got to do these roses and how there’s thirty-eight of them today. So he bought my wedding bouquet thirty-eight years ago and the wedding bouquet was nothing but white roses. We were going to the University of Washington at the time. When we had our first anniversary he brought me one long stem white rose and I thought okay and then the second anniversary he brought me two. It was the third time around that I was wondering okay now I know what he’s doing, because I thought this cheap guy’s not giving me, I knew what we were. I knew that we were students so we were pinching our pennies. So now we’re at thirty-eight and he says, ‘Honey, can I just buy you a rose bush?’ And I said, ‘No, because I deserve every one of those roses.’ But, I love you honey. I’m looking forward of coming home and having dinner and fun tonight.”

MOTION

On motion of Senator Fain, the Senate reverted to the seventh order of business.

Senator Honeyford: "This came before us because of what's known as the 1063 Building and that being sold as the solution for the Washington State Patrol. As far as I know, they were never involved until this year. The Chief came to see me and I told him I didn't support that building but I wanted to do what I could for them. The problem is that the 1063 Building would be a rental rate of about thirty-five dollars a square foot accordingly to OFM and that they would be saving, if they consolidated everything, they'd save about nine hundred forty two thousand dollars a month but at the same time they would be paying over three million dollars per month in rent. Don't know where's that's going to come from. Out of the transportation budget which is the same budget which pays for the Troopers salaries. So do we want Troopers salaries or do we want..."

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. This section is the tax preference performance statement for the sales and use tax exemption provided in RCW 82.08.986 and 82.12.986. This performance statement is only intended to be used for subsequent evaluation of the tax preference. It is not intended to create a private right of action by any party or be used to determine eligibility for preferential tax treatment.

(1) The legislature categorizes this sales and use tax exemption as one intended to improve industry competitiveness, as indicated in RCW 82.32.808(2)(b).

(2) It is the legislature's specific public policy objective to improve industry competitiveness. It is the legislature's intent to provide a sales and use tax exemption on eligible server equipment and power infrastructure installed in eligible computer data centers, charges made for labor and services rendered in respect to installing eligible server equipment, and on construction, installation, repair, alteration, or improvement of eligible power infrastructures in order to increase investment in data center construction in rural Washington counties, thereby adding real and personal property to state and local property tax rolls, thereby increasing the state and rural county tax base.

(3) If a review finds that rural county property tax base is increased as a result of the construction of computer data centers eligible for the sales and use tax exemption in RCW 82.08.986 and 82.12.986, then the legislature intends to extend the expiration date of the tax preference.

(4) In order to obtain the data necessary to perform the review in subsection (3) of this section, the joint legislative audit and review committee may refer to data available from the department of revenue regarding rural county property tax assessments.

Sec. 2. RCW 82.08.986 and 2012 2nd sp.s. c 6 s 302 are each amended to read as follows:

(1) An exemption from the tax imposed by RCW 82.08.020 is provided for sales to qualifying businesses and to qualifying tenants of eligible server equipment to be installed, without intervening use, in an eligible computer data center, and to charges made for labor and services rendered in respect to installing eligible server equipment. The exemption also applies to sales to qualifying businesses and to qualifying tenants of eligible power infrastructure, including labor and services rendered in respect to constructing, installing, repairing, altering, or improving eligible power infrastructure.

(2)(a) In order to claim the exemption under this section, a qualifying business or a qualifying tenant must submit an application to the department for an exemption certificate. The application must include the information necessary, as required by the department, to determine that a business or tenant qualifies for the exemption under this section. The department must issue exemption certificates to qualifying businesses and qualifying tenants. The department may assign a unique identification number to each exemption certificate issued under this section.

(b) A qualifying business or a qualifying tenant claiming the exemption under this section must present the seller with an exemption certificate in a form and manner prescribed by the department. The seller must retain a copy of the certificate for the seller's files.

(3)(a) Within six years of the date that the department issued an exemption certificate under this section to a qualifying business or a qualifying tenant with respect to an eligible computer data center, the qualifying business or qualifying tenant must establish that net employment at the eligible computer data center has increased by a minimum of:

(i) Thirty-five family wage employment positions; or

(ii) Three family wage employment positions for each twenty thousand square feet of space or less that is newly dedicated to housing working servers at the eligible computer data center. For qualifying tenants, the number of family wage employment positions that must be increased under this subsection (3)(a)(ii) is based only on the space occupied by the qualifying tenant in the eligible computer data center.

(b) In calculating the net increase in family wage employment positions:

FORTY SEVENTH DAY, FEBRUARY 28, 2014

2014 REGULAR SESSION

(i) The owner of an eligible computer data center, in addition to its own net increase in family wage employment positions, may include:

(A) The net increase in family wage employment positions employed by qualifying tenants; and

(B) The net increase in family wage employment positions described in (c)(ii)(B) of this subsection (3).

(ii)(A) Qualifying tenants, in addition to their own net increase in family wage employment positions, may include:

(I) A portion of the net increase in family wage employment positions employed by the owner; and

(II) A portion of the net increase in family wage employment positions described in (c)(ii)(B) of this subsection (3).

(B) The portion of the net increase in family wage employment positions to be counted under this subsection (3)(b)(ii) by each qualifying tenant must be in proportion to the amount of space in the eligible computer data center occupied by the qualifying tenant compared to the total amount of space in the eligible computer data center occupied by all qualifying tenants.

(c)(i) For purposes of this subsection, family wage employment positions are new permanent employment positions requiring forty hours of weekly work, or their equivalent, on a full-time basis at the eligible computer data center and receiving a wage equivalent to or greater than one hundred fifty percent of the per capita personal income of the county in which the qualified project is located. An employment position may not be counted as a family wage employment position unless the employment position is entitled to health insurance coverage provided by the employer of the employment position. For purposes of this subsection (3)(c), "new permanent employment position" means an employment position that did not exist or that had not previously been filled as of the date that the department issued an exemption certificate to the owner or qualifying tenant of an eligible computer data center, as the case may be.

(ii)(A) Family wage employment positions include positions filled by employees of the owner of the eligible computer data center and by employees of qualifying tenants.

(B) Family wage employment positions also include individuals performing work at an eligible computer data center as an independent contractor hired by the owner of the eligible computer data center or as an employee of an independent contractor hired by the owner of the eligible computer data center, if the work is necessary for the operation of the computer data center, such as security and building maintenance, and provided that all of the requirements in (c)(i) of this subsection (3) are met.
