SUBSTITUTE HOUSE BILL NO. 1714 was read the second time.

Representative Cody moved the adoption of amendment (280).

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature finds that:

(1) Research demonstrates that registered nurses play a critical role in improving patient safety and quality of care;

(2) Appropriate staffing of hospital personnel including registered nurses available for patient care assists in

reducing errors, complications, and adverse patient care events and can improve staff safety and satisfaction and reduce incidences of workplace injuries;

(3) Health care professional, technical, and support staff comprise vital components of the patient care team, bringing their particular skills and services to ensuring quality patient care;

(4) Assuring sufficient staffing of hospital personnel, including registered nurses, is an urgent public policy priority in order to protect patients and support greater retention of registered nurses and safer working conditions; and

(5) Steps should be taken to promote evidence-based nurse staffing and increase transparency of health care data and decision making based on the data.

Sec. 2. RCW 70.41.420 and 2008 c 47 s 3 are each amended to read as follows:

(1) By September 1, 2008, each hospital shall establish a nurse staffing committee, either by creating a new committee or assigning the functions of a nurse staffing committee to an existing committee. At least one-half of the members of the nurse staffing committee shall be registered nurses currently providing direct patient care and up to one-half of the members shall be determined by the hospital administration. The selection of the registered nurses providing direct patient care shall be according to the collective bargaining agreement if there is one in effect at the hospital. If there is no applicable collective bargaining agreement, the members of the nurse staffing committee who are registered nurses providing direct patient care shall be selected by their peers.

(2) Participation in the nurse staffing committee by a hospital employee shall be on scheduled work time and compensated at the appropriate rate of pay. Nurse staffing committee members shall be relieved of all other work duties during meetings of the committee.

(3) Primary responsibilities of the nurse staffing committee shall include:

(a) Development and oversight of an annual patient care unit and shift-based nurse staffing plan, based on the needs of patients, to be used as the primary component of the staffing budget. Factors

to be considered in the development of the plan should include, but are not limited to:

(i) Census, including total numbers of patients on the unit on each shift and activity such as patient discharges, admissions, and transfers;

(ii) Level of intensity of all patients and nature of the care to be delivered on each shift;

(iii) Skill mix;

(iv) Level of experience and specialty certification or training of nursing personnel providing care;

(v) The need for specialized or intensive equipment;

(vi) The architecture and geography of the patient care unit, including but not limited to placement of patient rooms, treatment areas, nursing stations, medication preparation areas, and equipment; ~~((and))~~

(vii) Staffing guidelines adopted or published by national nursing professional associations, specialty nursing organizations, and other health professional organizations;

(viii) Availability of other personnel supporting nursing services on the unit; and

(ix) Strategies to enable nurses to take meal and rest breaks as required by law or the terms of an applicable collective bargaining agreement, if any, between the hospital and a representative of the nursing staff;

(b) Semiannual review of the staffing plan against patient need and known evidence-based staffing information, including the nursing sensitive quality indicators collected by the hospital;

(c) Review, assessment, and response to staffing variations or concerns presented to the committee.

(4) In addition to the factors listed in subsection (3)(a) of this section, hospital finances and resources ~~((may))~~ must be taken into account in the development of the nurse staffing plan.

(5) The staffing plan must not diminish other standards contained in state or federal law and rules, or the terms of an applicable collective bargaining agreement, if any, between the

hospital and a representative of the nursing staff.

(6) The committee will produce the hospital's annual nurse staffing plan. If this staffing plan is not adopted by the hospital, the chief executive officer shall provide a written explanation of the reasons why the plan was not adopted to the committee and the chief executive officer must either identify those elements of the proposed plan being changed or prepare an alternate annual staffing plan that will be adopted by the hospital. Beginning January 1, 2019, each hospital shall submit its staffing plan to the department and thereafter on an annual basis and at any time in between that the plan is updated.

(7) Beginning January 1, 2019, each hospital shall implement the staffing plan and assign nursing personnel to each patient care unit in accordance with the plan.

(a) A nurse may report to the staffing committee any variations where the nurse personnel assignment in a patient care unit is not in accordance with the adopted staffing plan and may make a complaint to the committee based on the variations.

(b) Shift-to-shift adjustments in staffing levels required by the plan may be made by the appropriate hospital personnel overseeing patient care operations only after consultation with one or more impacted registered nurses providing direct patient care on the patient care unit or units utilizing procedures specified by the staffing committee. If a nurse on a patient care unit objects to a shift-to-shift adjustment, the registered nurse may submit the complaint to the staffing committee.

(c) Staffing committees shall develop a process to examine and respond to data submitted under (a) and (b) of this subsection, including the ability to determine if a specific complaint is resolved or dismissing a complaint based on unsubstantiated data.

(8) Each hospital shall post, in a public area on each patient care unit, the nurse staffing plan and the nurse staffing schedule for that shift on that unit, as well as the relevant clinical staffing for that shift. The staffing plan and current staffing levels must also be made available to patients and visitors upon request.

~~((8))~~ (9) A hospital may not retaliate against or engage in any form of intimidation of:

(a) An employee for performing any duties or responsibilities in connection with the nurse staffing committee; or

(b) An employee, patient, or other individual who notifies the nurse staffing committee or the hospital administration of his or her concerns on nurse staffing.

~~((9))~~ (10) This section is not intended to create unreasonable burdens on critical access hospitals under 42 U.S.C. Sec. 1395i-4. Critical access hospitals may develop flexible approaches to accomplish the requirements of this section that may include but are not limited to having nurse staffing committees work by telephone or ~~(electronic mail)~~ email.

NEW SECTION. Sec. 3. A new section is added to chapter 70.41 RCW to read as follows:

(1)(a) The department shall investigate a complaint for violation of RCW 70.41.420 following receipt of a complaint with documented evidence of failure to:

(i) Form or establish a staffing committee;

(ii) Conduct a semiannual review of a nurse staffing plan;

(iii) Submit a nurse staffing plan on an annual basis and any updates; or

(iv) Follow the nursing personnel assignments as adopted by the hospital as evidenced by the aggregate data of concerns for either shift-to-shift adjustment or reports of variations not in accordance with the adopted staffing plan for the hospital. This must be evidenced by a minimum of a sixty-day period of aggregate complaint data filed under RCW 70.41.420(7) (a) and (b) and where the staffing committee has not determined the complaints resolved; except in the event of unforeseeable emergency circumstances or where the hospital, after consultation with the staffing committee, documents it has made reasonable efforts to obtain staffing to meet required assignments but has been unable to do so.

(b) The department shall investigate the complaint and, if the department determines that there has been a

violation, require the hospital to submit a corrective plan of action within forty-five days of the presentation of findings from the department to the hospital.

(2) In the event that a hospital fails to submit or submits but fails to follow such a corrective plan of action in response to a violation or violations found by the department based on a complaint filed pursuant to subsection (1) of this section, the department may impose, for all violations asserted against a hospital at any time, a civil penalty of one hundred dollars per day until the hospital submits or begins to follow a corrective plan of action or takes other action agreed to by the department.

(3) The department shall maintain for public inspection records of any civil penalties, administrative actions, or license suspensions or revocations imposed on hospitals under this section.

(4) For purposes of this section, "unforeseeable emergency circumstance" means:

(a) Any unforeseen national, state, or municipal emergency;

(b) When a health care facility disaster plan is activated;

(c) Any unforeseen disaster or other catastrophic event that substantially affects or increases the need for health care services; or

(d) When hospitals in a community are diverting patients to other hospitals for treatment.

(5) Nothing in this section shall be construed to preclude the ability to otherwise submit a complaint to the department for failure to follow RCW 70.41.420.

NEW SECTION. Sec. 4. This act may be known and cited as the Washington state patient safety act."

(d) To reduce food insecurity and hunger in the state; and

(e) To identify ways to improve coordination and communication among local food policy entities and communication between the local food policy entities and state agencies.

(3) In developing its recommendations, the food policy forum:

(a) Shall coordinate with appropriate local, state, and federal agencies, tribes, and nongovernmental organizations to avoid duplication of effort;

(b) Shall solicit public input through public hearings or informational sessions;

(c) May conduct research and analysis as needed within financial resources available to the forum; and

(d) May form an advisory committee or committees to address issues identified by the forum and that are within the guidelines of subsection (1) of this section, as requiring additional study or particular expertise.

SUBSTITUTE HOUSE BILL NO. 1371 was read the second time.

With the consent of the house, amendment 075 was withdrawn.

Representative Hayes moved the adoption of amendment (132).

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature recognizes that distracted driving is a practice that increases the likelihood of auto accidents, including fatal collisions, and is caused by a variety of activities, including the use of electronic devices, eating and drinking, talking to passengers, grooming, reading, using a navigation system, watching a video, or adjusting an audio device. The legislature further recognizes that distracted driving is one of the top three causes of fatal collisions for young drivers. It is therefore the intent of the legislature to discourage distracted driving by increasing the penalties and fines for traffic infractions when drivers are dangerously distracted and directing the additional revenue from penalties and fines to programs dedicated to reducing distracted driving.

NEW SECTION. Sec. 2. A new section is added to chapter 46.61 RCW to read as follows:

(1)(a) It is a traffic infraction to drive dangerously distracted. Any driver who commits this infraction must be assessed the unscheduled infraction base penalty amount prescribed by rule by the supreme court in its schedule of monetary penalties for infractions, as directed under RCW 46.63.110(3).

(b) Enforcement of the infraction of driving dangerously distracted may be accomplished only as a secondary action when a driver of a motor vehicle has been detained for a suspected violation of a separate traffic infraction or an equivalent local ordinance.

(c) For the purposes of this section, "dangerously distracted" means a person who engages in any activity not related to the actual operation of a motor vehicle in a manner that interferes with

the safe operation of such motor vehicle on any highway.

(2) The additional monetary penalty imposed under this section must be deposited into the distracted driving prevention account created in subsection (3) of this section.

(3) The distracted driving prevention account is created in the state treasury. All receipts from the base penalty in subsection (2) of this section must be deposited into the account. Moneys in the account may be spent only after appropriation. Expenditures from the account may be used only by the Washington traffic safety commission solely to support programs dedicated to reducing distracted driving and improving driver education on distracted driving.

Sec. 3. RCW 43.84.092 and 2016 c 194 s 5, 2016 c 161 s 20, and 2016 c 112 s 4 are each reenacted and amended to read as follows:

(1) All earnings of investments of surplus balances in the state treasury shall be deposited to the treasury income account, which account is hereby established in the state treasury.

(2) The treasury income account shall be utilized to pay or receive funds associated with federal programs as required by the federal cash management improvement act of 1990. The treasury income account is subject in all respects to chapter 43.88 RCW, but no appropriation is required for refunds or allocations of interest earnings required by the cash management improvement act. Refunds of interest to the federal treasury required under the cash management improvement act fall under RCW 43.88.180 and shall not require appropriation. The office of financial management shall determine the amounts due to or from the federal government pursuant to the cash management improvement act. The office of financial management may direct transfers of funds between accounts as deemed necessary to implement the provisions of the cash management improvement act, and this subsection. Refunds or allocations shall occur prior to the distributions of earnings set forth in subsection (4) of this section.

(3) Except for the provisions of RCW 43.84.160, the treasury income account may be utilized for the payment of purchased banking services on behalf of

treasury funds including, but not limited to, depository, safekeeping, and disbursement functions for the state treasury and affected state agencies. The treasury income account is subject in all respects to chapter 43.88 RCW, but no appropriation is required for payments to financial institutions. Payments shall occur prior to distribution of earnings set forth in subsection (4) of this section.

(4) Monthly, the state treasurer shall distribute the earnings credited to the treasury income account. The state treasurer shall credit the general fund with all the earnings credited to the treasury income account except:

(a) The following accounts and funds shall receive their proportionate share of earnings based upon each account's and fund's average daily balance for the period: The aeronautics account, the aircraft search and rescue account, the Alaskan Way viaduct replacement project account, the brownfield redevelopment trust fund account, the budget stabilization account, the capital vessel replacement account, the capitol building construction account, the Cedar River channel construction and operation account, the Central Washington University capital projects account, the charitable, educational, penal and reformatory institutions account, the Chehalis basin account, the cleanup settlement account, the Columbia river basin water supply development account, the Columbia river basin taxable bond water supply development account, the Columbia river basin water supply revenue recovery account, the common school construction fund, the community forest trust account, the connecting Washington account, the county arterial preservation account, the county criminal justice assistance account, the deferred compensation administrative account, the deferred compensation principal account, the department of licensing services account, the department of retirement systems expense account, the developmental disabilities community trust account, the diesel idle reduction account, the distracted driving prevention account, the drinking water assistance account, the drinking water assistance administrative account, the drinking water assistance repayment account, the Eastern Washington University capital projects account, the Interstate 405 express toll lanes operations account, the education

(8) Each driver training school shall maintain its student, instructor, vehicle, insurance, and operating records at its established place of business.

(c) Student and instructor records shall be maintained for three years following the completion of the instruction. Vehicle records shall be maintained for five years following their issuance. All records shall be made available for inspection upon the request of the department.

(d) Upon a transfer or sale of school ownership the school records shall be transferred to and become the property and responsibility of the new owner.

(d) Bicycle safety, to ensure that operators of motor vehicles have been instructed in the importance of safely sharing the road with bicyclists; and

(e) Pedestrian safety, to ensure that operators of motor vehicles have been instructed in the importance of safely sharing the road with pedestrians.

If the director does not accept such reasons as may be offered, the director may revoke the license of the instructor or school, or both.

(1) "Contract crew hauling vehicle," as used in this chapter, means every motor vehicle, regardless of its seating capacity, that is owned, leased, operated, or maintained by a person contracting with a railroad company or its agents, contractors, subcontractors, vendors, subvendors, secondary vendors, or subcarriers, and used primarily to provide railroad crew transportation.

(2) "Passenger-carrying vehicle," as used in this chapter, means those buses (~~and~~), vans, trucks, and cars owned, operated, and maintained by a railroad company which transports railroad employees in other than the cab of such vehicle and designed primarily for operation on roads which may or may not be equipped with retractable flanged wheels for operation on railroad tracks.

NEW SECTION. Sec. 2. A new section is added to chapter 81.61 RCW to read as follows:

(f) The form and posting of adequate notices in a conspicuous location in all contract crew hauling vehicles to advise railroad employee passengers of their rights, the opportunity to submit safety complaints to the commission, the complaint process, and contact information for the commission.

(3) If a third party contracts with the person operating the vehicle on behalf of the railroad company or its agents, contractors, subcontractors, vendors, subvendors, secondary vendors, or subcarriers to transport railroad employees, the insurance requirements may be satisfied by either the third party or the person operating the vehicle, so long as the person operating the vehicle names the third party as an additional insured or named insured. The railroad company may also satisfy the insurance requirements. Proof of coverage must be provided to the commission by the person contracting with the railroad company.

(4) An employer of persons providing contract railroad crew transportation under this chapter must:

(a) Adopt drug testing requirements for drivers of any contract crew hauling vehicle consistent with drug testing programs conducted under 49 C.F.R. Part 382 as it existed on the effective date of this section, or such subsequent date as may be provided by the commission by rule, consistent with the purposes of this section; and

(b) Ensure that all drivers of contract crew hauling vehicles have successfully completed a safety course that has been approved by the department of licensing pursuant to section 3 of this act.

(5)(a) The commission may, in enforcing rules and orders relating to persons owning, leasing, operating, and maintaining contract crew hauling vehicles under this chapter, inspect any contract crew hauling vehicles. (c) The commission may enforce this section under the authority in RCW 81.04.380 through 81.04.405, including assessing penalties as warranted.

(d) The commission may suspend or revoke a permit upon complaint by any interested party, or upon the commission's own motion after notice and opportunity for hearing, when it finds that any person owning, leasing, operating, or maintaining contract crew hauling vehicles has violated this chapter or the rules of the commission, or that the company or its agent has been found by a court or governmental agency to have violated the laws of a state or the United States.

(2) The department of licensing or its designee must issue a course completion certificate upon successful completion of the safety course.

(3) Any person providing contract railroad crew transportation must verify that contract crew hauling vehicle drivers possess a valid safety course completion certificate and maintain a record of the certificate.

(4) The department of licensing may charge a reasonable fee not to exceed twenty-five dollars for the issuance of a safety course completion certificate.

(5) The department of licensing may adopt rules necessary to implement this section.

(2) Any records maintained by the person contracting with the railroad company must include driver hours of service and documentation of department of licensing driving credentials as mandated under section 3 of this act. NEW SECTION. **Sec. 5.** A new section is added to chapter 81.61 RCW to read as follows:

(4) "Comprehensive land use plan," "comprehensive plan," or "plan" means a generalized coordinated land use policy statement of the governing body of a county or city that is adopted pursuant to this chapter.

(5) "Critical areas" include the following areas and ecosystems: (a) Wetlands; (b) areas with a critical recharging effect on aquifers used for potable water; (c) fish and wildlife

habitat conservation areas; (d) frequently flooded areas; and (e) geologically hazardous areas. "Fish and wildlife habitat conservation areas" does not include such artificial features or constructs as irrigation delivery systems, irrigation infrastructure, irrigation canals, or drainage ditches that lie within the boundaries of and are maintained by a port district or an irrigation district or company.

(6) "Department" means the department of commerce.

(7) "Development regulations" or "regulation" means the controls placed on development or land use activities by a county or city, including, but not limited to, zoning ordinances, critical areas ordinances, shoreline master programs, official controls, planned unit development ordinances, subdivision ordinances, and binding site plan ordinances together with any amendments thereto. A development regulation does not include a decision to approve a project permit application, as defined in RCW 36.70B.020, even though the decision may be expressed in a resolution or ordinance of the legislative body of the county or city.

(8) "Forestland" means land primarily devoted to growing trees for long-term commercial timber production on land that can be economically and practically managed for such production, including Christmas trees subject to the excise tax imposed under RCW 84.33.100 through 84.33.140, and that has long-term commercial significance. In determining whether forestland is primarily devoted to growing trees for long-term commercial timber production on land that can be economically and practically managed for such production, the following factors shall be considered: (a) The proximity of the land to urban, suburban, and rural settlements; (b) surrounding parcel size and the compatibility and intensity of adjacent and nearby land uses; (c) long-term local economic conditions that affect the ability to manage for timber production; and (d) the availability of public facilities and services conducive to conversion of forestland to other uses.

(9) "Geologically hazardous areas" means areas that because of their susceptibility to erosion, sliding, earthquake, or other geological events, are not suited to the siting of commercial, residential, or industrial

development consistent with public health or safety concerns.

(10) "Long-term commercial significance" includes the growing capacity, productivity, and soil composition of the land for long-term commercial production, in consideration with the land's proximity to population areas, and the possibility of more intense uses of the land.

(11) "Minerals" include gravel, sand, and valuable metallic substances.

(12) "Public facilities" include streets, roads, highways, sidewalks, street and road lighting systems, traffic signals, domestic water systems, storm and sanitary sewer systems, parks and recreational facilities, and schools.

(13) "Public services" include fire protection and suppression, law enforcement, public health, education, recreation, environmental protection, and other governmental services.

(14) "Recreational land" means land so designated under RCW 36.70A.1701 and that, immediately prior to this designation, was designated as agricultural land of long-term commercial significance under RCW 36.70A.170. Recreational land must have playing fields and supporting facilities existing before July 1, 2004, for sports played on grass playing fields.

(15) "Rural character" refers to the patterns of land use and development established by a county in the rural element of its comprehensive plan:

(a) In which open space, the natural landscape, and vegetation predominate over the built environment;

(b) That foster traditional rural lifestyles, rural-based economies, and opportunities to both live and work in rural areas;

(c) That provide visual landscapes that are traditionally found in rural areas and communities;

(d) That are compatible with the use of the land by wildlife and for fish and wildlife habitat;

(e) That reduce the inappropriate conversion of undeveloped land into sprawling, low-density development;

(f) That generally do not require the extension of urban governmental services; and

(g) That are consistent with the protection of natural surface water flows and groundwater and surface water recharge and discharge areas.

(16) "Rural development" refers to development outside the urban growth area and outside agricultural, forest, and mineral resource lands designated pursuant to RCW 36.70A.170. Rural development can consist of a variety of uses and residential densities, including clustered residential development, at levels that are consistent with the preservation of rural character and the requirements of the rural element. Rural development does not refer to agriculture or forestry activities that may be conducted in rural areas.

(17) "Rural governmental services" or "rural services" include those public services and public facilities historically and typically delivered at an intensity usually found in rural areas, and may include domestic water systems, fire and police protection services, schools serving primarily rural students, transportation and public transit services, and other public utilities associated with rural development and normally not associated with urban areas. Rural services do not include storm or sanitary sewers, except as otherwise authorized by RCW 36.70A.110(4).

(18) "Urban governmental services" or "urban services" include those public services and public facilities at an intensity historically and typically provided in cities, specifically including storm and sanitary sewer systems, domestic water systems, street cleaning services, fire and police protection services, schools, public transit services, and other public utilities associated with urban areas and normally not associated with rural areas.

(19) "Urban growth" refers to growth that makes intensive use of land for the location of buildings, structures, and impermeable surfaces to such a degree as to be incompatible with the primary use of land for the production of food, other agricultural products, or fiber, or the extraction of mineral resources, rural uses, rural development, and natural resource lands designated pursuant to RCW 36.70A.170. A pattern of more intensive rural development, as provided in RCW 36.70A.070(5)(d), is not urban growth. When allowed to spread over wide areas,

urban growth typically requires urban governmental services. "Characterized by urban growth" refers to land having urban growth located on it, or to land located in relationship to an area with urban growth on it as to be appropriate for urban growth.

(20) "Urban growth areas" means those areas designated by a county pursuant to RCW 36.70A.110.

(21) "Wetland" or "wetlands" means areas that are inundated or saturated by surface water or groundwater at a frequency and duration sufficient to support, and that under normal circumstances do support, a prevalence of vegetation typically adapted for life in saturated soil conditions. Wetlands generally include swamps, marshes, bogs, and similar areas. Wetlands do not include those artificial wetlands intentionally created from nonwetland sites, including, but not limited to, irrigation and drainage ditches, grass-lined swales, canals, detention facilities, wastewater treatment facilities, farm ponds, and landscape amenities, or those wetlands created after July 1, 1990, that were unintentionally created as a result of the construction of a road, street, or highway. Wetlands may include those artificial wetlands intentionally created from nonwetland areas created to mitigate conversion of wetlands."
